ANDHRA PRADESH

DISTRICT CENSUS HANDBOOK

Part - A & B

ANANTAPUR

VILLAGE & TOWN DIRECTORY

VILLAGE AND TOWNWISE PRIMARY CENSUS ABSTRACT

लोकाभिमुख
PEOPLE ORIENTED

Director of Census Operations, ANDHRA PRADESH

Foreword

The District Census Handbook (DCHB) published by Census Organisation since 1951 census, is one of the important publications in the context of planning and development at gross-root level. The publication, which is brought out for each district, contains several demographic and socio-economic characteristics village-wise and town-wise of the district along with the status of availability of civic amenities, infrastructural facilities, etc.

2. The scope of the DCHB was initially confined to a few Census Tables and Primary Census Abstract (PCA) of each village and town within the district. Thereafter, at successive censuses, its scope and coverage has been enlarged. The DCHB published at the 1961 census provided a descriptive account of the district, administrative statistics, census tables and a village and town directory including PCA. The 1971 census-DCHB series was in three parts: Part-A related to village and town directory, Part-B to village and town PCA and Part-C comprised analytical report, administrative statistics, district census tables and certain analytical tables based on PCA and amenity data in respect of villages. The 1981 census DCHB was in two parts: Part-A contained village and town directory and Part-B the PCA of village and town including the SCs and STs PCA up to tahsil/ town levels. New features alongwith restructuring of the formats of village and town directory were added into it In Village Directory, all amenities except electricity were brought together and if any amenity was not available in the referent village, the distance in broad ranges from the nearest place having such an amenity, was given. Information on new items such as adult literacy centres, primary health sub-centres and community health workers in the village were provided so as to meet the requirements of some of the Revised Minimum Needs Programme. Information on approach to the village was provided for the first time in the Village Directory so as to give the details on number of inaccessible villages in each district. In the Town Directory, a statement (IV-A) on slums was introduced to provide the details on civic and other amenities in the notified slums of Class I and Class II towns.

3. The 1991 census DCHB, by and large, followed the pattern of presentation of 1981 census, except the format of PCA was restructured. Nine-fold industrial classification of main workers was given against the four-fold industrial classification presented in the 1981 census. In addition, sex-wise population in 0-6 age group was included in the PCA for the first time with a view to enable the data users to compile more realistic literacy rate as all children below 7 years of age had been treated as illiterate at the time of 1991 census. One of the important innovations in the 1991 census was the Community Development Block (CD block) level presentation of village directory and PCA data instead of the traditional tahsil/taluk/PS level presentation. It was expected that the presentation of village directory and PCA data at CD block level will help the planners in formulation of micro level development plans, CD block being lowest administrative unit.

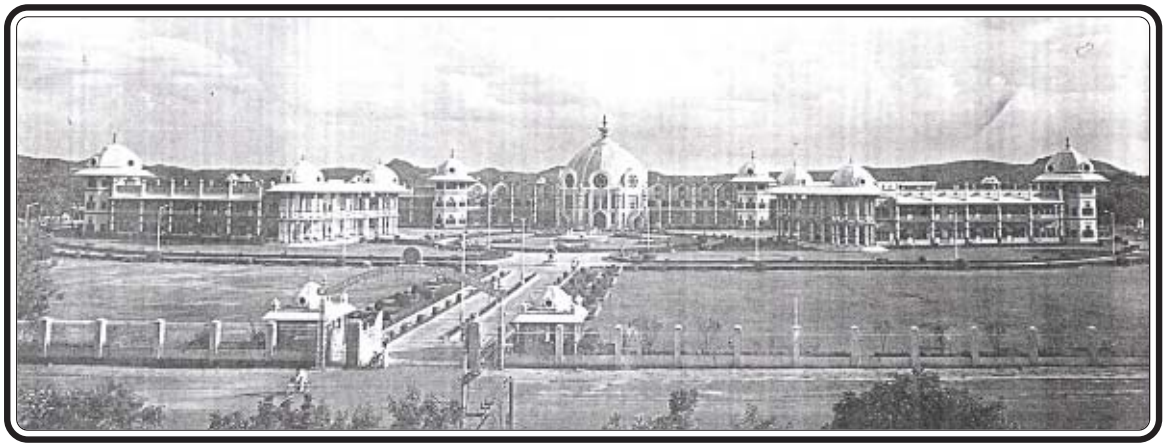

4. The present series of 2001 census DCHBs have been made more informative and exhaustive in terms of coverage and content. The Village Directory has been enlarged in scope by including a number of other facilities like banking, recreational and cultural facilities, newspapers and magazines and ‘most important commodity’ manufactured in village. Income and expenditure of gram panchayat, wherever possible, has been provided. Apart from these, more details on distance(s) at which basic amenities are available (if not available in the village), are given. This includes educational facilities (namely primary and middle schools and college), medical facilities (viz. Allopathic Hospital, Maternity & Child Welfare Centre and Primary Health Centre), drinking water, post & telegraph (post office and phone), communication, bank, credit societies and recreational

facilities. In Town Directory, the statement on Slums has been modified and its coverage enlarged by including details on all slums instead of 'notified slums'. The information is given in case of all statutory towns irrespective of their class, against only Class I and Class II towns in the 1981 and 1991 censuses. The basic amenities available in the villages and towns are analysed in depth with the help of a number of cross-classified inset tables and statements. Two other significant additions in the publication are inclusion of 'motif' highlighting significant characteristic of the district and analytical notes as annexures. The analytical notes on (i) fertility and mortality and (ii) various measures of fertility and mean age at marriage are prepared based on 1991 Census. Whereas, in the notes relating to (i) percentage distribution of migrants by place of birth/place of last residence, (ii) main religions, (iii) marital status of population, (iv) age, sex and education, and (v) distribution of spectrum of mother tongue, nature and extent of changes occurred in the district in its basic socio-demographic features during the decade 1991-2001 are analysed. The eight digits permanent location code (PLCN) to all the villages and towns have been assigned keeping in view the future needs.

5. The village and town level amenity data have been collected, compiled and computerized in prescribed record structure under the supervision of Shri. V.S. Bhaskar, IAS., Director of Census Operations, Andhra Pradesh. Thereafter, efforts have been made to ensure comparability of the information with that of 1991 census data and the information brought out by the respective state governments in their annual reports and statistical handbooks for various years after 1991. The task of planning, designing and coordination of this publication was carried out by Shri R.G. Mitra, Deputy Registrar General (C&T) and Dr. I.C. Agrawal, Senior Research Officer of Social Studies Division. Dr. R.P. Singh, Deputy Registrar General (Map) provided the technical guidance in the preparation of maps. Whereas, Shri Anil Kumar Arora, Deputy Director of Data Processing Division who worked under the overall supervision of Shri Himakar, Addl. Director (EDP) helped in preparation of record structure for computerization of village and town directory data and the programme for the generation of Village Directory and Town Directory statements including analytical inset tables. The draft DCHB manuscripts received from the Census Directorates have been scrutinized in the Social Studies Division under the guidance of Shri S.L. Jain, Deputy Director and Shri R.K. Mehta, Assistant Director. I am thankful to all of them and others who have contributed to make this publication possible.

D.K.Sikri
Registrar General &
Census Commissioner, India.

SRI SATYA SAI INSTITUTE OF HIGHER MEDICAL SCIENCES - PRASHANTHIGRAM

The motif chosen for Anantapur Handbook is "Sri Satya Sai Institute of Higher Medical Sciences", a super-speciality hospital located in Prashanthigram of the international village at Puttaparthi. It was established by Sri Satya Sai Medical Trust in the year 1991 having been envisioned by Bhagwan Sri Satya Sai Baba, the Founder Trustee of Sri Satya Sai Medical Trust, in His infinite compassion towards suffering humanity. The hospital building (1.53 lakhs square feet of built-in-area) and the quarters for the doctors and paramedical staff were built in a vast campus of 150 acres. The majestically ornate 300 bedded super-speciality hospital designed by eminent architects from India and abroad and built amazingly in a period of six months stands as a land mark dominating the skyline in this sublime rural setting. This state-of-the art facility offers advanced medical care of the highest standard, completely free-of-charge to all the needy, irrespective of caste, creed, race or religion in the super-specialities of Cardiology, Cardio Thoracic and Vascular Surgery, Urology, Plastic Surgery and Ophthalmology. The hospital reserves 10% of its beds to patients whose monthly income is less than Rs.500 and another 40% to those whose monthly income ranges between Rs.500/- and Rs.1,500/-. Not a pie is charged to the patients on diagnostic tests, surgery, diet, medicines etc.

The hospital has a staff of 350 including doctors and para-medical staff, of whom 17% are voluntary besides 100 Seva Dal Volunteers who come from all parts of India in batches and work for 10 to 15 days in a year with utmost dedication and commitment.

Till the end of 31st March 2003, the hospital has performed 12,911 heart surgeries, 12,619 Cardiac Cath procedures, 19,570 Urological and Plastic surgeries and 20,700 eye surgeries besides examining 8.65 lakhs patients at the outpatient clinics of the hospital.

The entire atmosphere is surcharged with love and hope and sanctified by Divinity to encourage the curing of disease, not just the body but the mind and spirit also.

Preface

The District Census Handbook (DCHB) containing Primary Census Abstract and data on "amenities" for each village and town in the district. The intention of this publication is to place the data collected at the Census alongwith the village and town level amenities data collected from the Mandal Revenue Officers/ Municipal officials in this publication. The amenities data is validated by comparing with secondary data obtained from Heads of the Departments. For example, information on schools was compared with data available with Commissioner, School Education and information on post offices was compared with data obtained from the Chief Post Master General and so on. Validation of data in the above manner was by no means an easy exercise. Scores of officials had put in gruelling efforts for months together. The entire data and manuscripts were computerized. We are now reasonably confident of the correctness of the data but we will not make any utopian claims of cent per cent accuracy. There may be errors but we will be safe in saying that they are minimal.

The District Census Handbook is divided into the following major components.

1. Introduction.
2. Brief history of the district.
3. Census and non-Census concepts.
4. A detailed write up on the physical features, major cultural and social events, major developments during the decade, places of religious and historic importance etc.
5. Primary Census Abstract (PCA) at the district level, mandal/town level and village level.
6. Brief analysis of PCA data.
7. Village Directory and Town Directory.
8. Brief analysis on Village Directory and Town Directories.

It will not be out of place to mention here that there is perhaps no other publication from any agency that encapsulates so much data on a district. The amenities data includes information on sectors such as Education, Health, Water and Electricity supply, Communication and Transport facilities etc. The idea of presenting amenities data juxtaposed to the Census data is not only unique but also tremendously useful for the data users.

The District Census Handbook is further enriched with a district map and mandal maps depicting villages/towns with population size and also amenities such as Educational Institutions, Hospitals, Telegraph and Telephone facilities, Banks, Police Station etc.

Some improvement over earlier DCHB have been made to bring more completeness to the data presented in this volume.

1. The names of Colleges, Girls' High Schools, Hospitals run by Government and others have been given as an additional information. Similarly the names of Cinema Halls have been given.
2. Ranking of Mandals according to population is also given.

3. More Appendices and Annexures to important statements are given to make the data more comprehensive.

In the previous Censuses, the manuscripts prepared by this department were supplied to Government of Andhra Pradesh who in turn brought out the publications at their cost. However due to the procedural rigmorale some delay was unavoidable in placing the DCHBs before the data users and planners.

This time, keeping in view the above difficulties, the printing and publication of District Census Handbooks has been taken up centrally under the arrangement of the office of the Registrar General and Census Commissioner, India, New Delhi. The processing of data and preparation of Camera Ready Copies electronically including finalisation of write up was attended to in the office of the Director of Census Operations.

I am grateful to the Chief Secretaries, Principal Secretaries, Secretaries, District Collectors, Municipal Commissioners and other senior officials of the Government of Andhra Pradesh for their co-operation and assistance throughout the Census Operations and in the process of collection of the non-Censal data.

I am extremely grateful to Sri D.K.Sikri, IAS, Registrar General and Census Commissioner, India for the help, guidance and constant support in finalising this volume. My sincere thanks to Sri R.P. Singh, Deputy Registrar General (Map) and Dr.I.C. Agrawal, Assistant Registrar General (SS). Sri. S.L. Jain, Deputy Director for giving guidence, help and co-ordinating this project work and their colleagues in the office of the Registrar General, India.

I also take this opportunity to acknowledge the valuable contribution made for this publication by Sri.J.K.Banthia, Ex-Registrar General, India.

Most of the work relating to DCHB has been carried out under the able guidance and direction of Sri V.S.Bhaskar, IAS, Director of Census Operations, Andhra Pradesh, Hyderabad. I take this opportunity to acknowledge his valuable contribution made for this publication.

The credit for preparation of District Census Handbooks goes to a team of devoted officers and staff of this Directorate who have involved in this project. The names of individuals associated with this project are shown in “Acknowledgements”. I am grateful to all of them.

I hope that the data users will find this publication very useful.

District Highlights - 2001 Census

1. Anantapur district stands first in terms of area size and ranks 8th in terms of population in the state.
2. Anantapur district ranks 7th in terms of urbanization with a total Urban population 919,563 forming 25.26 percentage to the total district population.
3. The sex ratio of the district is 958 against 946 in 1991 Census showing upward trend.
4. The density of the district is 190 against 200 in 1991 Census, showing decrease over the decade.
5. Penukonda village, PLC No.02644200 is most populated with a population of 23,910 and Pillenahalli village, PLC No 02638900 is the least populated with a population of 2 in the district.
6. Anantapur mandal is the most populated with a population of 308,228 and Gandlapenta Mandal is the least populated with a population of 24,118 in the district.
7. Anantapur Municipality is the most populated with a population of 218,808 and Kalyandurg Municipality is the least populated with a population of 29,266 in the district.
8. Out of 100 workers 67.5 are engaged in Agriculture sector, 5.8 in Household industry and 26.7 in other economic activities. Thus showing the predominance of Agriculture Sector.
9. Out of 100 Male workers in the district 59.1 are engaged in Agriculture sector.
10. Out of 100 Female workers in the district 80.4 are engaged in Agriculture sector.
11. There is decrease in the proportion of main workers of the district in the decade (43.39 percent in 1991 to 40.4 percent in 2001).
12. There is increase in the proportion of Male main workers of the district in the decade (55.54 percent in 1991 to 52.3 percent in 2001).
13. There is increase in the proportion of Female main workers of the district in the decade (30.55 percent in 1991 to 28.0 percent in 2001)
14. Anantapur district is famous for Ground nut oil, Silk Sarees, Cotton.
15. Rolla Mandal has the lowest number of inhabited villages (7) and the highest number of inhabited villages (27) are found in Tadpatri Mandal .
16. Bommanahal mandal has largest area of 7,663.57 hectares under irrigation, followed by Vidapanakal mandal with 6,753.10 hectares in the district. The mandal with lowest area, 504.00 hectares under irrigation in Gandlapenta Mandal.
17. Kothakota village bearing PLC No. 02629100 has the largest area (10,867 hectares) and Ulavalavandla palle village bearing PLC No. 02648600 has the smallest area (43 hectares) among the villages of the district.
18. Female work participation rate is 39.4 that of the Males in the district is 57.8.

(i) About the District Census Handbook

District manuals compiled and published prior to 1905 by the erstwhile composite Madras Government contained not only particulars of items of more or less similar and permanent characteristics like history, religion and ethnography, but also a few statistical tables including those relating to population which became obsolete within a few years of publication. Later, the Madras Government replaced the District Manuals by another publication viz., the District Gazetteer consisting of two Volumes A and B. Volume-A contained descriptive and general tables which explains the text and Volume-B contained detailed statistics. It was decided that Volume B should be brought out periodically after each decennial census so that they contain the latest statistics. Volume-A was published for some districts between 1905 and 1927 in the Composite Madras State. The publication of Volume-A was discontinued in 1927. Volume-B was published for all the districts of the Composite Madras State between 1906 and 1915. The publication of Volume-B was also stopped after 1931 Census. Due to the second World War they were not published after the 1941 census.

Similarly the Gazetteer volumes were also brought for some of the districts in the erstwhile Hyderabad State. The scheme of publication of revised District Gazetteers was restarted in the year 1958 by the State Governments. The State Editor, District Gazetteers, Government of Andhra Pradesh had published the Gazetteers of all the districts.

The idea of compiling the District Census Handbooks was initiated during the 1951 census pioneered by Sri. R.A. Gopala Swamy, I.C.S. the then Registrar General, India and Ex-officio Census Commissioner of India, with a view to preserve the census records prepared for areas below the district level. He proposed that all the District Census Tables and Census Abstracts prepared during the process of sorting and compilation, should be bound together in a single manuscript volume and named as the District Census Handbook and suggested that the State Government should take up printing and publication at their own cost. Then onwards, the District Census Handbooks were published in each census with improved pattern with an aim to give the census and non-census data at micro level for the village and district as a whole to suit the requirements of various departments, scholars, research personnel , planners, industrialists, electoral authorities, and other data users, also for efficient public administration by the state.

Pattern at 2001 Census :

The present District Census Handbook of 2001 Census, like the previous Census, is brought out for each district comprising of two Parts. Part- A Village and Town Directory with additional information on amenities viz., availability of commercial banks, recreation, credit societies etc., and land use particulars in the rural areas and Part- B Primary Census Abstract. At the out set an analytical note is given which depicts a general back ground on the district and analytical results on the statements and tables included in the volume. The volume is also provided with brief history of the district, physical aspects, census concepts, non-census concepts, major characteristics with reference to economic resources and administrative set-up during the past decade and few appendixes, etc..

Part A–Village and Town Directory :

The Section- I i.e. Village Directory gives non-census data on the amenities available in each village in respect of educational, medical, drinking water, power supply, post and telegraph, telephone, approach to village, banks, credit societies, receipt of newspapers and magazines, recreation and cultural facilities, nearest town and its distance, distribution of land use area, income and expenditure of the village and name of the most important commodities manufactured.

If an amenity is not available in the referred village, the distance in broad ranges (Kms.) from the nearest place where the amenity is available is indicated. If the nearest place is situated in another state, name of that state is also given.

The Section-II i.e. Town Directory has been presented in seven Statements viz., Statement – I Status and Growth History; Statement-II Physical aspects and Location of towns; Statement-III Municipal Finance(receipts and expenditure,1998-99); Statement-IV Civic and other amenities; Statement-V Medical, Educational, Recreational and Cultural facilities; Statement-VI Trade, Commerce, Industry and Banking etc., Statement-VII Civic and other amenities in Slums and an Appendix showing towns with out- growths and their population. The reference period for the above statements is 1998-99 and the data is covered for all the statutorily notified towns in the district.

The non-census data at Village/Town level is collected from concerned authorities viz., Mandal Revenue Officers, Municipal Commissioners etc., and scrutinized with meticulous care and validated with the data collected from various departments to provide valid information to the data users.

Part B–Primary Census Abstract :

This data can be stated as the essence of the handbook. The latest Census details such as area, total households, population, scheduled castes and scheduled tribes population, literates, workers etc., are presented in these Abstracts.

(ii) History and Administrative Set up of the District

Brief History of the District :

Anantapur district is one among the " ceded districts " (of the present "Rayalaseema" belt) and this whole area was trodden by great rulers such as Vikramaditya, Mallik Kafur, Harihara Raya and Bukka Raya, Shivaji, Hyder Ali, Tippu Sultan and finally by Sir Thomas Munro himself. All of these great personalities had left their footprints to be explored and understood by posterity. Each one had so played his part that the history of this area unfolds like the memory of human mind, from the sub-conscious to the conscious state, i.e., from the forgotten part of this area has already any land marks, very little was recorded, is not sufficient to make a continuous story and it remains so, until, some enterprising explorer unearth the part and places before (the eager students of history) the story of this part of India until then one has to be context with the more recent occurrences which lend themselves to a continuous narratives of the history of what now comprises Anantapur district.

Between the remote part and the earliest historical facts, there is wide gulf. The first tangible piece of historical evidence is furnished by the rock edicts of Asoka in the west of erstwhile Rayadurg taluk. Their data is about 258 B.C., but as Asoka sent proselyting missions to foreign countries, their existence does not reveal much, except that this area formed part of Asoka's Empire.

Four hundred years later, a copper plate grant of Chalukya King Vikramaditya I (A.D. 655-680) described Ratnagiri in the erstwhile Madakasira taluk as being the "District of the Nalas". The presumption, therefore, is that, this tribe must at one time have ruled at least that corner of Anantapur district.

Three inscriptions of Vikramaditya VI, a ruler of the western Chalukya dynasty were discovered on the rocks at the top of the Gooty fort. They suggest the possibility that the western Chalukyas might have ruled in this area during the 11th and 12th centuries. Towards the end of the 12th century, these Werstern Chalukyas seemed to have been over thrownby two of their feudatories, the Hoyasala - Ballalas, and the Yadavas. This possibility is supported by a couple of inscriptions one of which dated 1205 AD, recorded a gift by the Hoyasala King to a temple and the other inscription recorded the capture of Gooty by the same king.

The early 14th century was a period of Muslim invasion from the north which seriously threatened the existence of the Hindu dominions in the south; Allauddin Khilji's troops under the command of his able General, Mallik Kafur swept into the Deccan, Captured Warangal and a few other places. Both the Hoyasalas and the Yadavas fell before his onslaught.

On account of the rivalries and jealousies amongst the conquerors, there could not be any settled form of administration in the occupied areas. In the confusion that followed, it was not difficult for the local Hindu chieftains to carve out a kingdom for themselves with its capital near Hampi. This was the nucleus of the famous Vijayanagar empire which for two centuries successfully stemmed the tide of Muslim advance. The main architects of this empire were two brothers namely, Harihara Raya and Bukka Raya who after the fall of Warangal, fled from that city in 1323 and took services under the Raja of the fort of Anegundi on the banks of river Thungabhadra, near the present village of Hampi in Bellary district of Karnataka. There they rose respectively to the position of Minister and Treasurer. In 1334 A.D. Raja was attacked by Mohammad Bin Tuglak of Delhi. The Raja and most of his followers died in combat. A Governor was then appointed by the Delhi King to rule the occupied area. The country side, however, rose against the new ruler and eventually Mohammad Tuglak, finding events not too favourable

restored the principality to the Hindus and made the two brothers Harihara Raya and Bukka Raya who had previously been minister and treasurer, as King and Minister. The next year, Harihara built the famous Vijayanagar city. Thenceforward the territorial expansion of this Kingdom was achieved with such extraordinary rapidity that the whole of south India was ruled by Bukka I, the brother and successor of Harihara. Almost all the other Hindu feudatories paid tribute to this Kingdom. Bukka was succeeded by his son Harihara II in 1379 A.D., who assumed the title of 'King of Kings' and ruled an extensive area. Inscription of his time were found in Mysore, Dharwar, Conjeevaram, Chingleput and Tiruchirapalli.

Meanwhile, the Muslim Bahmani Kingdom established in 1347 A.D., with its capital at Gulbarga, had extended its territory as far south as the Krishna River and for the next 135 years constantly opposed the expansionist policies of the Vijayanagar Kings.

The decline of the Vijayanagar Empire commenced from the Reign of Achyuta Raya (1530-1542 A.D.) who was described as both a coward and a tyrant. He alienated his best friends by his violent despotism till finally Rama Raja, Tirumala and Venkatadri, all three brothers combined and took away effective power from his hands. Rama Raja was virtually the King of Vijayanagar during the last part of Achyuta's reign and also during the reign of the next ruler Sadasiva.

Traces of the Vijayanagar rule were found mostly in the Bellary district. In Anantapur district they built some of the fortifications at Gooty and Penukonda now not easily distinguishable. The inscriptions, here and there (for example at Tadpatri) reveal that they endowed and beautified temples. Beyond this, the district was not much benefited by the Vijayanagar rule.

Fearing the further growth of power and influence of the Vijayanagar Empire, the Muslim kings and Chieftains shelved their mutual rivalries, formed into a general league of the faithful and marched against the Vijayanagar King. On the Christmas Day in the year 1564 A.D. their advance was halted near the town and the fortress of Talikota, 25 miles (40 kms.) north of the river Krishna. After a few skirmishes, the famous battle of Talikota was fought on the 23rd January, 1565 A.D. It was one of the most decisive battles ever fought in the history of south India. The Vijayanagar army was defeated and the troops seized by panic, broke and fled, after suffering heavy losses. Rama Raja and Venkatadri were slain the battle. Tirumala the only surviving brother, hastily returned to Vijayanagar and together with the puppet king Sadasiva fled to the hill fort of Penukonda. The fleeing monarch with a few followers took with him a convoy of 550 elephants laden with treasure in the shape of gold, diamonds and precious stones valued at more than 100 million sterling and also the state insignia and the celebrated jeweled throne.

The city of Vijayanagar which was thus left undefended was destroyed by the invaders so completely that it could never again be inhabited. Penukonda thenceforward became the capital, with the fort as its stronghold. Decay rapidly over took the remains of the Vijayanagar Empire. The nobles who ruled the outlying provinces threw away their allegiance and declared themselves independent and plunged the greater part of the country into anarchy.

At Penukonda, Sadasiva remained a king in name until 1568 A.D. when he was murdered by Tirumala who usurped the throne. He was succeeded in 1575 A.D. by his son Ranga, who shortly afterwards transferred his capital to Chandragiri. Ranga was followed in 1586 A.D. by his brother Venkata who ruled till 1614 A.D. At his death there were widespread revolts, disturbances and other conflicts which finally brought the Vijayanagar power virtually to an end.

Meanwhile, the Muslim Kings had gradually extended their hold over the area. At first their mutual jealousies and animosities had prevented them from reaping to the full fruits of their victory at Talikota; some of the Vijayanagar fortresses still remained in possession of the local Governors of the Empire. But eventually the Kings of Bijapur and Ahmadnagar agreed to take different lines of conquest, so that their operations might not clash. The Bijapur kings proceeded to invade the south of the Krishna, including Bellary and Anantapur districts. In 1577 A.D. he appeared at Penukonda but due to the deceit practised by a part of his army, the expedition was not a success. In 1589 A.D. the king of Golconda invaded this area and, in spite of plucky resistance defeated the enemy and conquered Penukonda, Gooty and the rest of Anantapur district.

For some years the Maharata power was slowly gained ground in the west of the Peninsula. In 1677 A.D., Shivaji, the famous Maharata Chief visited the Deccan later taking most of the possessions held by the King of Bijapur in the Carnatic. And finally in 1680 A.D. the rights held by the Bijapur King over this part of the country were also made over to the Maharatas. However in 1687 A.D., Moghal Emperor Aurangazeb reduced the Maharatas to obedience, overthrow their rule within this district and added to the Mughal Subah of Bijapur.

In 1723 A.D. the Nizam of Hyderabad, one of the Governors of the Mughal Empire, made himself independent and ruled over his province, which included Anantapur district. His power was, however, nominal. The Maharatas continued to had the dominant influence and collected tribute and taxes from the poligars.

Morari Rao, the famous Maharata adventurer established himself at Gooty in 1746 A.D. obtained possession of Penukonda, exacted tribute from the local poligars and made himself the architect of the destinies of the people living in this district. Hydar Ali of Mysore, later, captured the forts of Penukonda and Madakasira from Morari Rao and finally in 1775 A.D., captured Gooty itself imprisoned Morari Rao and reduced the Poligars to submission. Hydar Ali died in 1782 A.D. and was succeeded by Tipu. The later was defeated in 1792 A.D. by a combination of the English, the Maharatas, the Nizam and by the treaty, of that year he was made to cede half of his territories to this strange combination of allies. By this treaty, and the treaty of 1799 A.D., the later following the third Mysore war and the death of Tipu, the whole of the area which now comprises the district of Anantapur fell to the share of the Nizam. In 1800 A.D. the Nizam agreed to cede to the English all the territories acquired by him under these two treaties of 1792 and 1799 A.D. in return for a subsidiary force to be stationed in these dominions. Anantapur district together with Bellary and Cuddapah districts and a part of Kurnool district thus passed into the hands of the British.

After the transfer of this territory to the British in 1800 A.D., Major Munro who was selected to govern this area as the "Principal Collector" chose Anantapur as his headquarters. He directly held charge of the taluks which now form the Anantapur district and also the erstwhile Rayadurg taluk. The rest of the new territory was administered by sub Collectors subordinate to Munro. The year after the departure of Munro in 1807 A.D. this area was divided into the two Collectorates of Bellary and Cuddapah and finally in 1882 A.D. Bellary was once again bifurcated into the districts of Bellary and Anantapur. Unlike Cuddapah district, this district did not present any formidable problems. The poligars living in this district were not troublesome lot and soon came under effective control. A few who tried to give trouble were dealt with severely. On only one occasion was these any open resistence to the British authority. In 1804 A.D. a conspiracy was formed to seize Gooty and Adoni forts and to install Kudritullah Khan, son of Basalat Jung, the former jagirdar of Adoni, as ruler in that area. This plot failed and as a result there were no further attempts to upset British authority.

After this, the political history of Anantapur district

No urban agglomeration has been formed in the district.

After this, the political history of Anantapur District like the history of the rest of the well administered part of the Madras presidency remained uneventful till the Nationl struggle for independence came to wake it up from its peaceful slumber. Anantapur too like the rest of the Nation responded to its call and joined the hands in the freedom movement. Among the popular political leaders of the district who played a prominent role in the freedom struggle, a few names that can be mentioned are those of Sri Kallur Subba Rao and Sri N. Sanjeeva Reddy the then Chief Minister of Andhra Pradesh, Speaker of Lok Sabha and President of India.

Administrative Set-Up :

a) Region of the State where the district is located :

Anantapur district lies south west part of the state, adjoining with Karnataka state towards south and west and two more districts of Rayalaseema Region viz., Kurnool and Cuddapah towards North and East respectively. Another Rayalaseema district i.e.,

Chittoor also forms part as boundary at south east of this district.

b) Total number of Revenue Divisions and Mandals :

The total 63 Mandals of Anantapur district have been grouped into 3 revenue divisions. Anantapur Division comprise of 20 mandals,Dharmavaram division with 17 mandals and Penukonda division of 26 mandals. The division-wise list of mandals are given below.

Name of Revenue Division	Name of Mandal
1. Anantapur	1.Vidapanakal
	2.Vajrakarur
	3.Guntakal
	4.Gooty
	5.Peddavadugur
	6.Yadiki
	7.Tadpatri
	8.Peddapappur
	9.Singanamala
	10.Pamidi
	11.Garladinne
	12.Kudair
	13.Uravakonda
	14.Atmakur
	15.Anantapur
	16.Bukkarayasamudram
	17.Narpala
	18.Putlur
	19.Yellanur
	20.Raptadu
2.Dharmavaram	1.D. Hirehal
	2.Bommanahal
	3.Beluguppa
	4.Kanekal
	5.Rayadurg
	6.Gummagatta
	7.Brahmasamudram
	8.Settur
	9.Kundurpi
	10.Kalyandurg
	11.Tadimarri
2.Dharmavaram (Concld..)	12.Bathalapalle
	13.Kanganapalle
	14.Kambadur
	15.Ramagiri
	16.Chennekothapalle
	17.Dharmavaram
. 3.Penukonda	1.Mudigubba
	2.Talupula
	3.Nambulipulikunta
	4.Tanakal
	5.Nallacheruvu
	6.Gandlapenta
	7.Kadiri
	8.Amadagur
	9.Obuladevaracheruvu
	10.Nallamada
	11.Gorantla
	12.Puttaparthi
	13.Bukkapatnam
	14.Kothacheruvu
	15.Penukonda
	16.Roddam
	17.Somandepalle
	18.Chilamathur
	19.Lepakshi
	20.Hindupur
	21.Parigi
	22.Madakasira
	23.Gudibanda
	24.Amarapuram
	25.Agali
	26.Rolla

More over, all the Mandal Parishads are co-terminus with Mandal Revenue jurisdiction except Statutory Towns.

Changes in Administrative units during 2001 Census:

Anantapur district did not undergo any major changes after reorganization of taluks into mandals in 1985. But slight changes caused during 2001 Census in both rural and urban areas are as follows:

1) Parnapalle village which was transferred during 1991 Census from Lingala Mandal of Cuddapah district to Tadimarri mandal of Anantapur district has now gone back to same Lingala Mandal of Cuddapah district in 2001 Census.

2) Three villages have been fully included in the respective urban areas during 2001 Census.

3) Apart from this, two towns Penukonda and Prasantinilayam of 1991 Census are declassified and these villages included fully in the respective urban areas were shown as revenue villages and its parts presented in the list of villages. Further, one new census town namely Papampeta has been formed for the first time in 2001 Census. The villages which are fully included in urban areas have been deleted from the list of villages of respective mandals and separately shown in the annexure.

c) Total number of Towns/Villages :

The number of towns in Anantapur district during 2001 Census are 11 including the newly formed Census town 'Papampeta'. Out of these 11 towns, seven are statutory towns and the remaining four Census towns.

As per 2001 Census, there are 952 villages in total and out of which, 925 villages are inhabited, 27 villages are un-inhabited. Again among all those villages included in towns 12 are fully included and 11 villages are partly included.

(iii) Physical features of the District

General :

The district derives its name from Anantapur town which is its headquarters. Anantapur district is not a geographical or ethnic entity. It is created purely for administrative convenience.

i) The district has south-west part of the state approximately between 13°.41' and 15°.14' latitude.

ii) In between 76°.47' and 78°.26' Longitude.

iii) It is bounded on the north by Kurnool district, on the east by Cuddapah district in the south and west by Karnataka state and in the south east by Chittoor district.

iv) The total area of the district is 19,130 sq.kms being the largest in the state and has a total population of 36,40,478 persons according to 2001 Census.

v) Anantapur district ranks 1 among the other districts of Andhra Pradesh, with regard to area.

vi) There is no extention of area towards any direction, but a cut of small portion in area caused towards eastern-side, since a village Parnapalle of Tadimarri mandal of 1991 Census again gone back to Lingala mandal of Cuddapah district in 2001 Census.

Physiography :

i) Anantapur district is located in the middle of the peninsular region.

ii) Its elevation towards the south is 2,200 feet, while it gradually declines to about 1,000 feet at Gooty in the north and to 900 feet at Tadpatri, in north east.

Hills:

i) The eastern side of the district is particularly hilly. The vegetation on the hills of the district are not comparable either in size or in height or even in thickness with the other neighbouring hills in Cuddapah district. The wonderful colouring of the hills compensates for the black nature of the terrain around. The highest points in the district are Mallapukonda (3,092 feet), 6 Kms. north of Bukkapatnam. Penukonda (3,091 feet), Kundurpi Durg (2,996 feet) and the Madakasira hill (2,936 feet). The above mentioned hills being situated in an area which itself stands 1,500 to 2000 feet above the see level are not very prominent. The hills have arranged themselves into some sort of five low ranges. All these ranges run roughly from north to south of the district. They are easily distinguishable and can be seen passing through the erstwhile taluks of Tadpatri, Gooty, Anantapur, Dharmavaram, Penukonda, Hindupur and Madakasira. Kadiri mandal also interspersed with isolated hill formations.

ii) The best example of isolated peaks and rocky clusters are the Gooty rock, the precipitous Kundurpi Durg, the hills just north of Malyavantham is erstwhile Anantapur mandal and the Gampamalla hill (2,510 feet height).

iii) Anantapur District is surrounded by three other districts viz., Kurnool, Cuddapah and Chittoor of Andhra Pradesh state in the direction, North to South-east (partly), similarly the remaining part of South-east to North-west is covered by Karnataka State.

iv) Apart of Tumkur mandal, which is a small portion of Karnataka state towards South-east side formed like ravine because of the narrow gorge caused by the two mandals 1) Kundurpi and 2) Amarapuram of Anantapur district towards its South-west side.

Drainage:

i) Out of the four rivers flowing in the district, Penneru is the most important river. This is also known as "Northern Pinakini". There is a legend that this river flowing near by the Nandikonda hills of Karnataka state is named after the bow 'Pinakini' of Lord Nandeeswara, whose temple is constructed

on Nandikonda Hills. Moreover this river enters into the state, just beside Chilluru village and flows through Tadpatri. It crosses Anantapur district and enters into Cuddapah district at a distance of 3 kms. from south-west side of Koduru village. Jayamangali and Kumudavati are the two important tributaries of Penneru river, which join Penneru within the borders of the district.

The next important river in the district is Chitravathi. Chitravathi raises from Hari Hareswar hills, which are situated towards north side of Nandi Durga village of Kolar district of Karnataka state. It enters into Anantapur district, after flowing 2 kms. from Kodikonda village and this place is at a height of 693 mts., from sea-level. It joins Parnapalle stream which is situated in between Muchukota and Palakonda villages and reaches Cuddapah district and from there it again enter Anantapur district in between the places of Dharmavaram and Tadpatri. After its continuous flow towards north east, once again enters Cuddapah district at a height of 729 mts. Kushavati and Madduleru are its important tributaries.

Hagiri or Vedavathi and Papagni are the two more important rivers flowing in this district. Hagiri or Vedavathi river raises from Karnataka state and enters towards south-side of Anantapur district in Rayadurg area. Again it enters into Karnataka state by flowing towards north direction.

The river Papagni raises from Nandikonda of Karnataka state, then flows through Anantapur district and then joins with river Penna in Cuddapah district.

ii) All these rivers flowing in this district helps in irrigating only 18% 'Cultivable land' of the district.

iii) Penna, Kumudavathi, Chennarayagudi, Yeguva (upper) Penna - Diguva (lower) Penna regulatories, Bhairavanitippa and Tungabhadra upper area canal stage-1 are the main water features.

Climate and Rainfall :

i) Due to its unfortunate location and unfavourable climatic conditions the district is considered to be the hot zone. The maximum and minimum monthly temperatures are as follows:

Table(a)
Temperature recorded during the years 1998-99 (in ^{o}C)

Sl. No.	Month	Normal	Mean Maximum Temperature		Normal	Mean Minimum Temperature	
			1998	1999		1998	1999
1	2	3	4	5	6	7	8
1	January	30.2	31.5	30.6	17.1	19.1	16.8
2	February	33.4	34.7	33.3	19.1	21.2	16.8
3	March	36.8	38.1	37.3	22.1	23.7	22.6
4	April	38.6	39.3	39.3	25.8	26.8	24.9
5	May	38.6	39.4	37.1	26.0	27.2	25.3
6	June	35.0	37.7	35.3	24.8	26.5	24.5
7	July	33.1	33.7	34.2	24.1	24.6	24.4
8	August	32.7	32.4	33.4	23.7	24.3	23.8
9	September	32.6	32.4	33.0	23.3	23.8	23.4
10	October	31.6	31.3	31.6	22.5	22.7	23.5
11	November	30.0	30.9	30.3	20.0	21.1	20.8
12	December	29.0	29.7	29.3	17.6	17.3	17.9

March to May is summer season and December to February is dry and comparatively cool season.

ii) Being far away from the east coast, it does not enjoy the full benefit of the north-east monsoon and being cut off by the high western-ghats, the south west monsoon is also prevented, thus the district is deprived of both the monsoons. October and November form the retreating monsoon season.

iii) The actual rainfall was 965 mm during the year 1998-99 against the average annual rainfall of 520.4 mm.

June to October months are considered to be the rain fall period.

District average rainfall season- wise and month-wise is as follows.

Table(b)
South West Monsoon (in mms)

Month		Normal	Actual
June	1998 - 1999	46.9	23.9
July	1998 - 1999	55.8	109.9
August	1998 - 1999	71.7	159.0
September	1998 - 1999	122.1	146.0
Total	**1998 - 1999**	**296.5**	**438.0**

Table(c)
North West Monsoon (in mms)

Month		Normal	Actual
October	1998 - 1999	96.4	139.8
November	1998 - 1999	34.9	36.9
December	1998 - 1999	9.2	4.5

Table(d)
Winter (in mms)

Month		Normal	Actual
January	1998 - 1999	2.5	0.2
February	1998 - 1999	3.6	2.7

Table(e)
Hot weather period (in mms)

Month		Normal	Actual
March	1998 - 1999	3.6	1.3
April	1998 - 1999	19.4	7.3
May	1998 - 1999	54.3	58.1
Total	**1998 - 1999**	**520.4**	**692.8**

iv) In view of the un- assured irrigated facilities on account of deprival of both the monsoons, farmers generally take up dry crops. During South-west monsoon period, under kharif season the important crops like groundnut, paddy, minor millets, jowar, redgram, sunflower etc., are being cultivated. During rabi season, paddy, groundnut, sunflower, bengalgram, coriander are being cultivated.

Forests:

The forests in the districts are thin and scanty. The total area under forestry is 1953 sq.kms. which is 10.2% of the total geographical area of the district. The forest blocks are scattered all over the district. The Muchukota Hills about 35 kms., in length, run from north of Gooty town up to extreme south corner of Tadpatri and Yadiki Mandals. Another line of hills starts from west of Gooty mandal and run 80 kms., called by name Nagasamudram hills. The Mallapakonda range begins at Dharmavaram and runs into Karnataka state. The Penukonda range which starts in the south of Dharmavaram proceeds to Karnataka state through Penukonda and Hindupur. In Madakasira, the hills divide Rolla and Agali mandals and rocky clusters which are devoid any vegetation.

Due to poor rain fall occurring, majority of the forest area is dry. Deciduous forests which were once existing have deteriorated into thorny shrub forests. The vegetation on the eastern and south sides is better because of the gradual elevation and better climatic condition. Intensive measures are being taken to improve the forests in the district. This sector continues to receive high priority under the scheme Drought Prone Areas Programme (D.P.A.P). The village forest workers too are made instrument for developing waste lands, particularly degraded forest lands, under integrated waste land project.

The forest blocks are scattered all over the district.

Table (f)
PRODUCT WISE FOREST REVENUE FOR 1998-99

Sl. No.	Forest Produce	Revenue (Rs. in lakhs)
1	2	3
1	Fire wood	16,060
2	Beedi leaves	64,584
3	Miscellaneous	31,42,085
	Total	**32,22,729**

Flora and Fauna :

Due to over increasing bionic pressure and climatic conditions which are not congenial, the dominant species now present in most parts of the district are thorny shrub type like Acacia Sandra (Sundra) Acacia Leucopholea (Tella Thumma), Dichrostachyas Cinerea (Nela Jammi), Acacia Lantronum (Paki Thumma), Carissa Spinarum (Vaka), Zizyphus species etc. The non-thorny varieties seen are Dodonaea Viscora (Pulivailu), Jatropha Curcas (Adavi Amudalu), Climbers like, Abrus precatarius (Gurivinda), etc. Notable among the ground flora are Cymbopogan coloratus (Bodha Gaddi), Heteropogan contortus (Pandi Mallu Gaddi). On the lands out side the reserve forests predominant species are Prosopis Juliflora (Sarcar Thumma) and Acasia Nilotock (Nalla Thumma), the native species of the district are

Tamarindus Indica (Chinta), Azadirachta Indica (Vepa) Pongamia Pinnata (Kanuga) and Albizia Lebbeck (Dirisona), Phoenix sylvestris (Etha Chettu) is also seen along the banks of streams and rivulets.

Anantapur district has a variety of Fauna. Important among them are predators like leopard, bear; hyena, jackal and wild dogs; a rich variety of ungulates like black buck, spotted deer, sambar, etc. Among the smaller animals porcupines, squirrels, a veriety of rats, etc., are notable. Blue jay (Palapitta) the Andhra Pradesh State Bird, Parakeets, Red Jungle Fowl, Bulbuls, Wood peckers, Peacocks and migratory birds like Parinted storks (in Chilamathur Mandal) are notable among birds. One endangered species, ' the great Indian Bustard', was spotted near N.S. Gate (Nagasamundram Gate), Muddunayanipalli and a few other places.

Minerals & Mining:

The main activities in the district are mineral resulting and mineral investigation. Anantapur district is well known for its mineral resources especially for gold and diamond deposits. In addition to minerals like limestone, dolomite, barytes, iron-ore, clay, white shale, surpentine, green quartz, corundum and phyroplilete, building material is abundantly available in the district.

Gold is being exported from Ramagiri and diamonds are available in Kimberlite pipes of Vajrakarur - Lattavaram belt. Other important minerals available are iron-ore in Obulapuram and Siddapuram.The mineral steatite which occur at Muchukota, Julakalva, Singanagutta palle, Nadimidoddi areas is the best variety. Similarly barites is found in Rangarajukunta and Julakalva areas. High grade limestone is also available in the district.

Grey, pink and multi coloured granites are available in Narasannakota, Kamalapad, Rayadurg and Kalyandurg areas. Granite is a very good export corner.

There are 99 mining leases and 146 quarry leases were in force during 1998-99. The mining leases are: Iron-ore (4), Limestone C.G.(3), Limestone H.G. (18), Corundum (3), Barytes (1), Quartz (10), Phyroplilete (1), Redoxide (1), Gold and Silver (1), Felspar (2), Dolomite (4), Yellow Ochre (1), Associated minerals (50). The quarry leases are road metal and building stones (40), Pink granite (18), Napa slabs (10), Multicolour granite (19), Grey granite (14), Black granite (6), Mosoic chips (13), Cubes and Kerbs (25) and Murram (1).

The dispatch of major minerals during the year 1998-99 are Iron ore 3,17,621 MT Lime-stone (C.G) 5,85,000 MT, Lime-stone (H.G) 51,985MT white shale 28,900 MT, steatite 6,740 MT, Quartz 3,850 MT, Phyroplilete 1400 MT, Surpentine 6,069 MT and Dolomite 15,740 MT.

The dispatch of minor minerals during the 1998-99 are road-metal building stone 2,63,25,000 cum, Mosoic chips 10,505 MT, Pink granite 2,46,811 cum, Napa slabs 26,62,60,000 sq.mts., Multi colour granite 10,54,131 cum, grey granite 1,030,262 cum, Black granite 111.233 cum and cubes and kerbs 30,450 MT.

Table(g)

PRODUCTION OF PRINCIPLE MINERALS - 1998 - 99.

(Production in Metric Tonnes, Value Rs. in Lakhs)

Sl. No.	Name of the Minerals	1998 - 1999	
		Production	Value
1	2	3	4
1	Iron Ore	3,33,502	3,66,85,220
2	Lime stone (C.G.)	5,85,000	3,17,62,000
3	Lime stone (H.G.)	54,584	5,51,985
4	White shale	30,345	18,20,700
5	Steatite	7,077	42,46,200
6	Surpentine	6,372	2,86,740
7	Dolomite	16,527	13,22,160
8	Quartz	4,042	4,04,200
9	Black granite	11,678	3,50,340
10	Colour Granite	2,308 CUM	1,38,48,000
11	Cubes & Kerbs	31,978	44,76,220
12	Road metal and Building stone	27,641	9,66,435
13	Napa slabls	2,79,960 Sqm.	16,79,760
14	Mosaic chips	11,030	4,41,200

Soils and Cropping Pattern:

The soils in Anantapur district are predominantly red which is of about 76% and the remaining 24% almost are accruing in equal proportion of red and black soils covering the areas of Kanekal, Bommanahal, Vidapanakal, Uravakonda, Vajrakarur, Guntakal, Gooty, Pamidi, Peddavadugur, Yadiki, Tadpatri, Yellanur, Peddapappur and Putlur.

The predominant crops under Kharif are groundnut, redgram, paddy, jowar, sunflower and in Rabi season paddy, jowar, bengalgram, sunflower and coriander.

Area under principal crops during 1998-99 was paddy 64,815 hectares, jowar 18,478 hectares, bajra 2,593 hectares, korra 4,630 hectares, ragi 6,361 hectares, redgram 27,369 hectares, food crops 2,12,966 hectares, cotton 11,442 hectares, groundnut 7,84,165 hectares, mulbery 8,641 hectares, sunflower 36,022 hectares, total non-food crops 8,51,192 hectares and the gross cropped area is 10,65,161 hectares.

Source- wise gross area irrigated during 1998-99 was under canals 3,677 hectares, tanks 13,814 hectares, tube wells and filter points 73,834 hectares, other wells 56,000 hectares lift irrigation 25 hectares and area irrigated more than once 36,504 hectares. Area under principal crops irrigated during 1998-99 was paddy 64,754 hectares, jowar 2,789 hectares, bajra 292 hectares, maize 2,007 hectares, ragi 7,221 hectares, korra 57 hectares, redgram 962 hectares, chillies 4,131 hectares, sugarcane 1,434 hectares, onion 1,388 hectares, fruits 18,591 hectares, vegetables 7,213 hectares, food crops 1,10,016 hectares, groundnut 38,542 hectares, cotton 8,978 hectares, sunflower 16,219 hectares, coconut 797 hectares, mulbery 8681 hectares, non food crops 75,071 hectares and gross area irrigated was 1,84,540 hectares.

Land and Land use pattern:

The total geographical area of the district is 19.13 lakh hectares and is located in the middle of the peninsular region. The land utilization pattern available in the district during the year 1998-99 is as follows:

Table(h)
LAND UTILIZATION, 1998 - 99

Sl.No.	Particulars of land utilization	Area in Hectares	Percentage to geographical area
1	2	3	4
1	Forests	1,94,678	10.17
2	Barren and uncultivable lands	1,96,417	10.26
3	Land put to non-agricultural use	1,13,091	5.91
4	Cultivable wastes	65,703	3.43
5	Permanent Pastures and other grazing lands	9,171	0.48
6	Land under miscellaneous tree crops and groves not included in the net area sown	14,508	0.76
7	Other fallow lands	1,13,754	5.95
8	Current fallow lands	1,99,809	10.44
9	Net area sown	10,06,465	52.60
	Total geographical area	**19,13,596**	**100.00**
	Area sown more than once	36,504	1.91
	Total cropped area	10,65,151	55.66

Agriculture:

Agriculture is the main occupation of the people of the district. Above 74% of the total main-workers are engaged in agriculture and above 84% of the population living in rural areas depend upon agriculture for their livelihood. Total gross cropped area during 1998-99 was 10.65 lakh hects. Out of which 1.85 lakh hectares was gross irrigated area.

In view of the unassured irrigated facilities, farmers generally take-up dry crops. Under Kharif season the important crops like Groundnut, Paddy, Minor Millets, Jowar, Redgram, Sunflower etc., and during Rabi season Paddy, Groundnut, Sunflower, Bengalgram, Coriander are being cultivated.

Cultivated area of the district is 11.67 hects., and of which 9.20 lakh hects., is under Kharif and 1.36 lakh hects., is under Rabi season. The net area sown is 10.10 lakh hects., which form 52% of the total area and the area sown more than once is 1.57 lakh hects., during the year 1998-99.

Out of the various schemes which are being implemented for the development of agriculture in the district under central sector schemes are: Oil Seed Production Programme, ICDP rice control of red hairy cater pillar in endemic areas, National Watershed Development Programme for Rainfed Areas

(NWDPRA) watersheds, Minikts Programme, seed input supply on subsidy, providing tractors on subsidy etc. The financial allocation during 1998-99 under OPP was Rs. 463.75 lakhs, Rs. 23.59 lakhs under ICDP (Rice), Rs. 3,709 lakhs under NPDP and Rs.17,420 lakhs under OFDs 1999.

Certain subsidy programmes and organization of on-farm extension demonstration plots etc., schemes too, contributed a lot for the Agricultural sector development of the district. During 1998-99, 1,10,000 qts., of groundnut seeds were supplied to farmers on subsidy against a normal distribution of 30,000 qts. of groundnut seeds. In addition to this 8,065 qts. of paddy, 112 qts., of Soyabean, 2,504 qts., of Redgram, 61 qts. of Castor and 84 qts. of Greengram were supplied to farmers on subsidy. Moreover 582 plots in Groundnut, 14 plots in Paddy and 34 plots in Redgram were organized under "On-farm Extension Demonstration Plots Organization".

AMC level training programmes were organized to farmers in all 12 AMC market yards in the district. During Kharif 1998 foundation seed of BPT 5204 and WGL 48,684 paddy varieties were supplied to farmers to produce seeds under Seed Village Programme.

The soil and climatic conditions such as temperature, rainfall and relative humidity are quite suitable to sericulture which is a very important agro based industry in the district. The area under Mulbery has grown in 8,641 hects., in the year 1998-99. Anantapur district stands first in the state in terms of area cultivated under Mulbery. A farmer can get a net income of Rs. 15,000 to Rs. 20,000 from an acre. Sericulture protects the farmers in the draught prone district, the District Rural Development Agency (DRDA) has spent Rs. 500 lakhs on construction of 11 drainages, 9 seed farmers, 8 chowki rearing centers, 4 cocoon markets, 7 silk reeling units, 3 twisting units and 1 regional training center. A special programme started for the benefit of scheduled castes has helped to cultivate Mulbery.

National Sericulture Project came into existence with the assistance of world bank, has helped in the cultivation area for mulbery, 5 drainages, 17 reeling units, 275 twin charkas and 25 twisting units - all in private sector.

This programme has also helped in digging 86 wells, providing 455 inwell bores and 331 pump sets.

Irrigation :

Out of the gross cropped area of 10.65 lakh hects., during the year 1998-99, the gross irrigated area was 1.85 lakh hects., and out of which canals accounted for 19.98%, tanks 7.74%, wells (Tube wells) 41.22% and other sources 1.14%. All the principal sources except canals are non-precocious. About 17.5% of the gross cropped area is irrigated under TBPHLC project, medium irrigated projects like Bhairavani Thippa (B.T.) project on river Vedavathi, Upper Pennar project and Penna Ahobilam Balancing Reservoir (PABR) on river Pennar, Chennaraya Swamy Gudi project on Papagni under large medium irrigation tanks. Streams are important water supply sources to various large and medium irrigation tanks in the district.

Animal Husbandry:

The details of 1998-99 Livestock Census of Anantapur district are given below:

1.	Cattle	:	6,67,180
2.	Black Cattle	:	3,12,658
3.	Sheep	:	9,35,081
4.	Goats	:	3,42,225
5.	Pigs	:	26,189
6.	Horses & Poneys	:	386
7.	Donkeys	:	14,608
	Total Livestock	**:**	**22,98,327**
8.	Poultry	:	10,68,786

To provide veterinary aid, disease control and health coverage, the following veterinary institutions are functioning in the district.

1. Veterinary Poly Clinic	:	1
2. Veterinary Hospitals	:	16
3. Veterinary Dispensaries	:	95
4. Rural livestock units	:	62
5. Mobile Input Project	:	1
6. Rinderpest Chick post / RPVU	:	1
7. Animal Health Centre	:	1
8. Centralised Semen Collection Centre	:	1

Artificial Insemination:

Frozen semen technology has been introduced in this district, to upgrade the local livestock and to increase the milk yield. At present artificial insemenation (A.I.) work is in progress in 101 A.I. centers in this district. During the year 56,702 A.Is have been done and 16,398 calves were born.

Sheep development:

Under Drought Prone Areas Programme (D.P.A.P.) 188 sheep breeders co-operative societies have been organized in this district with a minimum share capital of Rs.10,000/- each.

One Mini Slaughter House was started during 1989 with financial assistance from NCDC, New Delhi, at Kurugunta village 10 Kms. from Anantapur. The Sheep Growers Co-operative Societies are supplying sheep to the Mini Slaughter House. The Slaughter House is selling processed meat at Rs.100/ per Kg. to the public.

The following schemes are sanctioned during 1998-99 and implemented in Anantapur district

Table(i)

Animal Husbandary Schemes sanctioned and implemented in the district, 1998-99

Fisheries:

There are four fish seed forms (Large Reservoirs) in the district: 1) Mid Pennar Reservoir, 2) Upper Pennar Reservoir, 3) Penna Ahobilam Balancing Reservoir and Bhairavani Thippa (B.T.) project. There are 142 tanks and one reservoir with an extent of 32,962 hects., under the control of Fisheries Department to take up fisheries activities. The fishermen population of the district is about 60,150. Out of which 5,144 fishermen are covered under cooperative fold by organizing 79 Primary Fishermen Cooperative Societies with one District Fishermen Cooperative Society and four fishermen cooperative societies. The main activity of the Fisheries Department in this district are 1) Fish seed production and distribution, 2) Leasing of fisheries wealth of developmental tanks, 3) Licensing scheme, 4) Organisation and functioning of fishermen cooperative societies, 5) Implementation of welfare schemes. Inland fish production for the year 1998-99 is as follows:

Table(k)

Inland Fish Production, 1998-99

Sl. No.	Name of the Species	In Tonnes
1	2	3
1	Barbus	582.45
2	Carps	1440.76
3	Catfishes	599.96
4	Murrel	1230.48
5	Miscellaneous	969.51
	Total	**3,823.61**

Industries:

Considerable progress has been achieved in respect of Industrial sector. The Industries Centre is given a target for the establishment of industries in the district. This department identifies the entrepreneurs for the establishment of Industries. The identified entrepreneurs will be given small scale industry provisional registration certificates and will arrange to get the loans from financial institutions like APSFC etc., basing on the recommendations of District Industries Promotion Committee being held under the Chairmanship of the District Collector which is empowered to issue those deemed approvals even for those could not get the approvals within the stipulated time from the departments concerned.

There is one large scale industry by name Messrs Larsen & Turbo Limited, Andhra Pradesh located in Bhogasamudram village of Tadpatri mandal with an installed capacity of cement of 20,00,000 tonnes per

annum and clinker 19,00,000 tonnes per annum with an investment of Rs. 65,150 lakhs providing an employment to 470 persons. The value of production in this industry comes to Rs. 11,744 lakhs per annum.

Further the small scale industries which exist in this district as on 31.3.1999 are given in the following table:

Table(l)
Small Scale Industries in the District (as on 31.3.1999)

Sl. No.	Category	No. of Units	Capital Investment (Rs. in lakhs)	Employment	
				Males	Females
1	2	3	4	5	6

Transport :

Altogether 807 villages are now covered under the expanded activities of APSRTC. In the district the Corporation has 9 depots, 23 bus stations and a fleet of 826 buses.

There are altogether 23 Broad Gauge and 16 Metre Gauge railway stations in this district. Guntakal is a divisional headquarters of South Central Railway. In addition to Guntakal, Gooty and Dharmavaram are also railway junctions. Both Metre Gauge and Broad Gauge tracks pass through the district. The length of Broad Gauge and Metre Gauge is 187.6 kms. each.

Electricity & Power :

Out of 925 inhabited villages in Anantapur district 924 villages have been electrified. The percentage of electrified villages works out to 99.89%.

At present two 220 K.V. sub-stations, seven 132 K.V. sub-stations and seventy two 33/11 K.V. sub-stations are functioning in the district. The length of transmission and distribution lines in the district are as follows.

Table (n)
Growth of Transmission and length of Distribution lines

Sl. No.	Voltage lines	During 1998 - 99 Units length
1	2	3
1	220 K.V.	437.9 KM
2	130 K.V.	691.4 KM
3	66 K.V.	117.3 KM
4	33 K.V.	1,812.0 KM
5	11 K.V.	8,563.5 KM
6	L.T. Line	18,585.5 KM

Rural Electrification in the district has been completed in 2,452 Hamlets out of 2,466 by 1998-99.

The details of category-wise connections and power sold are given below:

Table(o)
Number of services & connected load category- wise during 1998-99.

Sl. No.	Category	No. of Services	Connected load	Per-capita consumption

(iv) Major Social and Cultural events, natural and administrative developments and significant activities during the decade

During the decade 1991-2001 no significant social and cultural events have occurred in the district. In respect of administrative developments, Parnapalle village which was transferred during 1991 Census from Lingala Mandal of Cuddapah district to Tadimarri mandal of Anantapur district has now gone back to the same mandal i.e., Lingala of Cuddapah district during 2001 Census. Apart from this, two towns viz., Penukonda and Prasanthinilayam of 1991 Census are declassified as villages. A town by name Papampeta is placed newly in the towns list for the first time.

As regards significant activities, the prevention of Child Labour, Social Security Schemes, Janmabhoomi, Cheyutha and Spandana programmes are worth mentionable in the district during the decade.

In the year 1996 under the Chairmanship of the District Collector the 'Bala Karmika Vikasa Samithi' has constituted. The main aims and objectives of the samithi are conducting surveys on vulnerable child labourers in hazardous occupations, creating awareness among the public about the steps taken by the Government to eliminate child labour, implementing programmes like creating public awareness, running special schools, imparting non-formal education and generating income and employment opportunities, etc.

The social security schemes such as payment of pensions to the aged, widowed, landless agricultural workers and physically handicapped persons are implemented in the district.

During the decade, as in the other district, a novel scheme called Janmabhoomi has been launched on the new years day 1997 by the Government of Andhra Pradesh. This adds new dimension particularly in rural development in the sense that people are involved in decision making and development process. The main activities taken up under this programme are aimed at achieving the basic needs of the people belonging to both rural and urban through "Sramadhanam" with the people's participation.

As in the other districts, in this district also, with the inspiration of Janmabhoomi programme, 'Spandana' another novel sheme totally envisaged by the district administration for the overall development of villages has been taken up with the aims of

1. Education for all
2. Family Planning Programmes
3. Usage of Bio-gas plants / Smokeless chullas to prevent air pollution
4. Clean village concept

Yet another novel programme envisaged by the district administration for benefiting the physically handicapped in the district is called 'Cheyutha'. All the Government officials connected with the physically handicapped will sit under one roof and do the needful then and there. The benefits such as issue of physically handicapped certificate by the Medical Board, RTC passes, Railway passes, registration in Employment Exchanges, etc., were extended besides giving aids and appliances to the identified handicapped persons.

(v) Brief description of places of religious, historical or archaeological importance in villages and places of tourist interest in the towns of the district

Alur:

This village is at a distance of 8 kms. from mandal headquarters Tadpatri to its east, is well known for its small waterfall of 25' to 30' in height and this waterfall is a perennial spring amidst picturesque surroundings with hills, trees all round and also the number of " Mantapas" at the foot of the waterfall is an interesting picnic spot on account of the scenic beauty of the place. Sri Ranganatha Swamy temple built on the top of the hill and the view down below is enchanting. The car festival (Rathayatra) of Lord Sri Ranganatha Swamy is being celebrated on 'Chaitra Suddha Poornima (Mar - April) and is well attended. Thus this village is also a pilgrim centre.

Amarapuram:

This is the headquarters of the mandal. It is claimed that, this place is associated with Amarasimha the lexicographer and author of 'AMARAKOSA'. This place appears to have been a strong hold of Jains in the early centuries. Chandraka Bhattaraka, the disciple of Charukrithi Bhattaraka a reputed Jain teacher, lies buried in Thamedahalli Anjaneyaswamy temple, about 3 kms. from Amarapuram. The site of an old Jain 'Basadi' (Monument of the dead) in a black stone "Panavattam" (Pedastal) is located here. An inscription of 1278 A.D., by the side of the Panavattam records the gift of arecanut trees in Thamadehalli for the reconstruction of the temple of the Prasannaparaswadeva. There is also an incomplete Jain temple on the Thailagiri mound. There is also a big mosque in the village. Thus, this village is of Historical, Archaeological and Pilgrim importance.

Bhairavanitippa:

Bhairavanitippa is a hamlet of Tallakera village of Gummagatta mandal. This village is a trijunctional point leading to Kalyandurg, Rayadurg and Karnataka state and is named after Lord Bhairava whose temple is on a nearby hillock is a place of pilgrim. The Bhairavanitippa Project harnesses the waters of Hagiri (Vedavathi). To facilitate the construction of the dam, the main village at the foot of the hillock was evacuated and a project is designed for irrigation through a storage of 24,000cft, with an earthen dam and two canals on its right and left flanks.

Dharmavaram Town:

This town is of Dharmavaram Mandal and is also the headquarters of the revenue division and is at a distance of 40 kms., from district headquarters, Anantapur. This is a Railway junction, both broad gauge and metre gauge lines pass through.

Sri Lakshmi Chennakesava temple is familiar one in the district, which has a storeyed tower, extensive enclosures and with an entrance carved similar to that of Vijayanagar style. The Ramalingeswara temple of Lord Siva at the place is exquisite in its architecture and has a perennial water sprout (bugga). At dusk this 'Saikatha' Linga (an idol made of sand) looks as it is imposed from above. Another Linga which is nearby, is believed to have been installed by Sri Hanuman. The seven small independent pillars in the temple when touched produce 'Saptaswara' (the seven musical notes). The Silk of Dharmavaram are well known all over the country and the inhabitants are mostly weavers engaged in cotton and silk weaving. Thus the town is of both pilgrim and trade importance.

Gootibailu:

This village belongs to Nambulipulikunta mandal and is of tourist importance. It is situated about 20 kms. from Kadiri town on Kadiri-Rayachoti Road. The worlds largest Banyan tree called 'Thimmamma

Marrimanu' spread over 2.1 hcts., is situated in this village. It has found place in Gunnies book of World Records in 1989, with the efforts of Mr. Regret Aiyar, a free-lance photographer and journalist of Bangalore. It is named after a woman Thimmamma, who committed 'Sati' along with her husband who died of leprosy and a banyan sapling has sprouted at that place out of the Banyan wood used for fire, which became a great tree. A temple was constructed for her and she is worshiped as Goddess by the villagers with the belief that childless couple will be blessed with the children. On Shivarathri day, several devotees congregate here and offer prayers. The Forest Department has undertaken the task of protecting the tree with D.P.A.P. funds besides taking up all developmental activities to make the place a tourist attraction in the state.

Gooty town :

This is also mandal headquarters, and is 50 kms. from district headquarters on the National Highway No. 7. The town is of considerable historical antiquity and said to have derived its name from 'Gowthampuri', the town of sage Gowthama. The place was also known as Jagatapi Gutty. The citadel of Gooty fort is constructed on the western most circle of hillocks. It was a huge precipitous mass of bare rock and towers over the adjacent ones. The fort is approached by a paved path leading first to an outlying spur strongly fortified and known in farmer days as "Mar Gooty". After passing through these fortifications the pathway winds upwards round steep sides of huge rock and reaches the summit where the "quilla" (Fort) is situated. The town is divided into two parts, the fort area is called 'Kota' and the other is called 'Peta'.

Gugudu :

This village of Narpala mandal is situated among the Mutchukota Hills. A significant occasion in the village is the Moharrum festival conducted with Sri KullaSwamy as the venerated pir and the “Peerla Makan” with its gold plated minarets is in the centre of the village. Moharrum attracts a large number of devotees who fulfill their vows on the occasion. Children born as a result of the saint’s blessings are named after him. A fire-walking ceremony is conducted on the night of the 11th day of Moharrum.

Kadiri Town :

This town belongs to the same mandal and is situated at about 87 kms. from (Anantapur) the district headquarters, with a railway station on the Dharmavaram - Pakala section. The popular temple of Lord Sri Lakshmi Narasimha Swamy to the west of the town is a place of pilgrimage attracting devotees even from the neighbouring districts and also from Karnataka state. The Brahmotsavam of Lord Sri Lakshmi Narasimha Swamy together with the annual car festival is held from Phalguna Suddha Dasami to Bahula Panchami (February - March). The Mohir tomb is held to contain the remains of Chandravadana the beautiful daughter of Ranga Rayudu and of Mohiar a Muslim traveller who fell in love with her, but could not make her his own and died paining for her.

Kasapuram :

This village is about 3 kms. from mandal headquarters Guntakal towards its north and is known for the temple of Nettekanti Sri Veeranjaneya Swamy. Pilgrims from several parts congregate in large numbers specially on Saturdays from Anantapur, Kurnool and Bellary districts. The temple is richly endowed with landed property. Local tradition associates the installation of the deity with Sri Vyasarayaswamy of Seshahalli in Mysore. Muslims also make offerings to this deity and a huge procession is taken out once a year on the day next to "Ugadi", the Telugu new year day.

Lepakshi :

This is an important place, historically and archaeologically and is the mandal headquarters. The Kurma Saila (tortoise shaped hill) has the temple of Papanatheswara, Raghunatha, Srirama, Veerabhadra and Goddess Durga, of which the temple of Veerabhadra is the most important. The place is renowned as the repository of the best mural paintings of the Vijayanagar Kings. In the temple the shrine of Siva faces that of Vishnu with Veerabhadra at the centre. These three idols installed in a common Mantapam form a triangle. The temple is veritable treasure of sculpture and architecture.

To the south of the main shrine is a huge 'Nagalingam' hooded by a great Naga with its base

split. Two hundred yards east of the temple is a colossal ' Nandi' reputed to be the largest of its kind in the country. It is carved out of a monolithic rock 20' in height and 30' in length. An excellent painting of story of the legendary Manichola draws the eye of even the most casual onlooker. The best specimens of Vijayanagaram style of sculpture and mural paintings are found in this temple.

Puttaparthi :

This place is on the banks of the river Chitravathi and is also mandal headquarters. It is the abode of Sri Satya Sai Baba, drawing disciples from all over the world. It is believed that the Baba is credited with accult powers. Quite a large number of devotees visit the place during Sivarathri, Dassera and on sri Baba's birthday which falls every year on 23rd Nov.

Rayadurg Town :

The word Rayadurg literally means "Kings Hill Fortress". It is the mandal headquarters, situated at a distance of 100 kms. from Anantapur. The fort area contains the temples of Sri Prasanna Venkateswara, Sri Venugopal, Sri Jambukeswara, Sri Veerabhadra, Sri Anjaneya and Kanyaka-parameshwari. Sir Thomas Munro is said to have had a vision of Lord Sri Venkateswara the deity at this shrine and therefore the Lord is called Sri Prasanna Venkateswara. The temple built on the same pattern as the Tirupati shrine has an excellent tower which appears as though carved out of sandalwood.

Rayalacheruvu :

This village is in Yadiki mandal and has a railway station on the Raichur - Chennai line. A tank was constructed by the king Sri Krishnadevaraya of Vijayanagar Empire and is still called by that name. On the southern end of this tank-bund, there is a 'Chekumukiralla Gutta' or hill of flint stone. The flint is claimed to have been used by Tippu for his muskets. A magic stone (Yantram Rayi) 5' x 3' on which are carved 81 squares bordered by tridents is believed to bring rain or ward off epidemics, if worshipped. Rayalacheruvu is an important centre for lime stone mining in the district.

Tadpatri Town :

The town Tadpatri is also called as Tatiparthi is the mandal headquarters and is situated on the banks of the Penneru river, at a distance of 56 kms. from the district headquarters Anantapur.

The Buggaramalingaswamy temple on the southern bank of the Penneru and the Chintalarayaswamy temple are the two important temples at the place.

In the Lord Ramalingeswara swamy temple there is a perennial underground stream from which water always oozes into the Garbha Gudi (temple Sanctum - Sanctorum) exactly where the "Lingam" is consecrated. The Linga is said to be "Swayambhu" (Self formed). Tadpatri has been one of the important commercial centres in the district for a long time.

Pennahobilam :

This is an uninhabited village of Uravakonda mandal and is an important pilgrim centre known for its temple of Lord Sri Lakshminarasimha Swamy, popularly known as "Degula Narasimha Swamy". The car festival on 'Vaisakhasuddha Panchami' (the fifth day of the dark fortnight in the month of Vaisakha) (during April-May) will be largely attended by devotees from the nieghbouring districts and also from Karnataka State. The temple is constructed on a hillock of 30 feet height. The main shrine consists of gigantic foot mark of 5'x 3' believed to be the foot print of Lord Sri Narasimha Swamy. Vows are fulfilled and marriages and tonsure ceremonies are performed here. The temple of Lakshmi, the Lords consort is situated by the side of the main shrine. There is a spring channel in the temple known as "Bugga Koneru".

(vi) Major characteristics of the district, contribution of the district in the form of any historical figure associated with the district

Major Characteristics :

Anantapur district is endowed with major economic resources viz., Mineral deposits in Abundance and Sericulture.

The minerals of Anantapur district is well known for avaialability of gold and diamond deposits in addition to minerals like limestone, dolomite, steatite, barite, iron ore etc.

The soil, climatic condition such as temperature, rainfall and relative humidity are quite suitable to sericulture which is very important agro-based industry, with this Anantapur district stands first in the State in terms of area under Mulbery. Thus sericulture being a savior of farmers in this drought prone district.

Historical figure associated with the district

The names of political leaders of the district are listed below :

1) Vidwan Viswam :

He was a good writer and also a best critic. He born in Trimela village of Anantapur district on 21st October 1915. He mastered over both Telugu and Sanskrit languages. He wrote many Telugu works and Novels. Also worked as an Editor for 1) Prajasakthi daily paper, 2) Meejan magazine and 3) Andhra Prabha weekly.

His writing 'PENNETI PETA', a famous work which reflected peoples famine sufferings in Rayala Seema Region.

2) Dr. Neelam Sanjeeva Reddy :

A veteran leader, born in Anantapur district on 13th May, 1913. While he was studying in Anantapur Arts College, he left his educational career and joined in politics. He participated in freedom movement and also held several district, state and country level responsible posts in the political party of Indian National Congress. He worked as Prohibition Minister in the then Madras Composite state, latter elected twice as Chief Minister of Andhra Pradesh and also as Central Cabinet Minister for 3 years. He was also elected twice as Parliament Speaker, then finally he was elected as President of India and discharged duties for a full term of 5 years. After his Presidentship he returned back and lead a peaceful life till demise in Anantapur district only.

3) Kalluru Subba Rao :

He is also one of the important feedom fighters of the district.

(vii) Census Concepts

Population census is a great national task, which we are called upon to undertake for every ten years. In India, the 1872 marked as the beginning of modern census taking, when it was conducted at different points of time in different parts of the country. From 1881 onwards a complete and synchronous census was held. The present Census is a land mark administrative event, as this has generated a historic bench mark data to shed light on the state of nation's society and other demographic, economic and socio-cultural data which simultaneously makes transition from one century and millennium to the next. The 2001 Census was the 14th decennial Census of India and the 6th after independence.

The Census of India was conducted in two phases namely, I) House-listing Operations II) Population Enumeration. The first phase was conducted during April-June,2000 in different States/Union territories depending upon their local conditions. In Andhra Pradesh it was conducted from 11th May to 5th June 2000. The house-listing operations provide a base for the population enumeration, besides providing comprehensive database for assessing condition of human settlements, the housing deficit and future housing requirement for formulation of housing policies. This also provides a massive data on amenities available to the households which was much needed by various departments of the Central and State Governments and other Non-Governmental agencies, for planning and development in different sectors of the economy. Hence house-listing operation is a pre-requisite for population enumeration.

Unlike 1991 census, there are significant changes in house-listing schedule for 2001 census. The questions on condition of the census house, number of married couples living in the household and having independent room for sleeping, bathroom and kitchen within the house and using the means of entertainment and communication facility of radio, transistor, television, telephone and possessing of means of transport like bicycle, scooter/motor cycle, car/jeep/ van and availing of banking services by the household are added to the present house-list schedule.

The main population enumeration was conducted from 9th February to 28th February, 2001, followed by revisional round from 1st March, 2001 to 5th March, 2001, to update the data with reference to 00.00 hours of 1st March, 2001. The houseless population was enumerated at midnight of 28th February 2001.

The household schedule and individual slip of 1991 census were replaced by household schedule of A3 size containing three parts to collect the information from each household at 2001 Census. In the present Census, the house-hold schedule is designed in such a way to suit the requirement of capturing the data through scanners. At the 2001 Census, for the first time **Image-based data capturing technology through scanners and computer network has been introduced** with a view to provide error free data by avoiding keying in of data.

The house-hold schedule broadly covered the individual particulars under four major headings 1) General and Socio cultural characteristics (Q(1 to 15), 2) Characteristics of workers and non-workers 3) Migration characteristics (Q.21 to 22)and 4) Fertility particulars (Q.23). Part-I deals with location code particulars, Part-II relates to Individual particulars with 23 questions, consisting of 1 to 39 columns, Part-III covers on cultivation/plantation particulars like land possessed, type of tenancy enjoyed by the household/ household member. Some additional questions 1) on disability, 2) Particulars relating to travel to the place of work a) distance from residence to place of work, b) mode of travel to the place of work, 3) household engaged in cultivation/plantations are added in the present household schedule.

Marital status, mother tongue, religion and literacy status (for 7 and above) migration, fertility particulars and the identification of SC/ST are repeated but the age at marriage is also ascertained for males at 2001 Census. For the people, who are attending educational institutions, a separate code has been provided to

record the Vocational institute, other institute and literacy centre in addition to school/college.

Criteria for enumeration of persons in a particular household :

a) All those who normally reside and are present in that household during the entire period of enumeration from 9th February to 28th February, 2001, b) also those who are known to be normally residing and had actually stayed during a part of the enumeration period (Feb.9th to 28th Feb.2001) in the household but are not present at the time of enumerator's visit, c) also those who were known to be normally residing and are not present at the time of enumerators visit but are expected to return before 28th Feburary,2001 and d) Visitors who are present in the household censused and are away from the place of their usual residence during the entire enumeration period. For the purpose of enumeration, such visitor will be treated as normal resident of the household in which they are actually found during the enumeration period provided that they have not been enumerated elsewhere. One of the essential features of population enumeration in the second phase is each person enumerated and her/his individual particulars are collected at a well defined point of time.

Location Code Number :

The procedure of assigning location code number in a zigzag manner starting from North-west corner and ending at South-east corner, is adopted for 2001 Census. The Andhra Pradesh state was assigned Location Code No.28 as against 02 in 1991 census. In a similar fashion, the location code numbers of the districts in Andhra Pradesh state have been changed and revised location code numbers were allotted in order of geographical contiguity, beginning from North-West point of the state and ending at the South East point. Thus the Adilabad district has been assigned Location Code No. as 01 and Chittoor district Location Code No. 23 at 2001 Census. Accordingly, the location code numbers of mandals in each district have been changed for 2001 census.

An important change at 2001 census is allotment of permanent location code numbers to all the villages in the state. Since the whole data ie., Village and Town Directory information is also being computerized, the allotment of permanent location code numbers would facilitate the data users for easy access and retrieval the data of a particular village at micro level by the click of a mouse. The Permanent Location Code Number (P.L.C. No.) is an eight digit number starting with 00000100 in a zig-zag fashion from North-West corner in the first Mandal of Adilabad district and run continuously for all the districts while ending South-East corner to the extent possible at last village in the last Mandal of Chittoor district. Since this State has 28,123 villages at 2001 census, last village of last mandal in Chittoor district will have PLC No.02812300. A significant provision has been made to allot PLC Nos. to newly created villages if any in future. The last two digits of PLC No's are kept as '00' only to provide for additional villages. For example a new village has been created after PLC.No.01231400 it will be assigned PLC No. as 01231401. Further, it is indicated that there is a provision for a minimum of 99 villages adjoining to a particular village allotting Permanent Location Code.

For urban areas also location code structure has been changed in a minimum way. Earlier, for towns in a district location code numbers were given roman letters in alphabetical order. This time, while assigning roman numbers instead of going to alphabetic order, location code numbers were given from North-West part of the district ending at South-East of the district to the extent possible.

Therefore, the PLC numbers of the villages and location codes of urban areas have under gone change in Census of India, 2001 as compared to 1991. In case an urban area is spread over in two districts, the location code of urban areas in both the districts will be the same irrespective of zigzag manner.

Building :

A `Building' is generally a single structure on the ground. Sometimes it is made up of more than component unit which are used or likely to be used as dwellings(residences) or establishments such as shops, business houses, offices, factories, workshops, worksheds, Schools, places of entertainment, places of worship, godowns, stores etc. It is also possible that building which have component units may be used for a combination of purposes such as shop-cum-residence,workshop-cum-residence, office-cum-residence, etc..

Usually a structure will have four walls and a roof. But in some areas the very nature of construction of houses is such that there may not be any wall. Such is the case of conical structures where

entrance is also provided but they may not have any walls. Therefore, such of the conical structures are also treated as separate buildings.

Permanent houses :

Houses, the walls and roof of which are made of permanent materials. The material of walls can be any one from the following, namely, galvanized iron sheets or other metal sheets, asbestos sheets, burnt bricks, stones or concrete. Roof may be made of from any one of the following materials, namely, tiles, slate, galvanized iron sheets, metal sheets, asbestos sheets, bricks, stones or concrete.

Semi-permanent houses :

Houses in which either the wall or the roof is made of permanent material and the other is made of temporary material.

Temporary houses :

Houses in which both walls and roof are made of materials, which have to be replaced frequently. Walls may be made from any one of the following temporary materials, namely, grass, thatch, bamboo, plastic, polythene, mud, unburnt bricks or wood. Roof may be made from any one of the following temporary materials, namely, grass, thatch, bamboo, wood, mud, plastic or polythene.

Dwelling Room :

A room is treated as a dwelling room if it has walls with a doorway and a roof and should be wide and long enough for a person to sleep in, i.e. it should have a length of not less than 2 meters and a breadth of at least 1.5 meters and a height of 2 meters. A dwelling room would include living room, bedroom, dining room, drawing room, study room, servant's room and other habitable rooms. Kitchen, bathroom, latrine, store room, passageway and verandah which are not normally usable for living are not considered as dwelling rooms. A room, used for multipurpose such as sleeping, sitting, dining, storing, cooking, etc., is regarded as a dwelling room. In a situation where a census houses is used as a shop or office., etc., and the household also stays in it then the room is not considered as a dwelling room. But if a garage or servant quarter is used by a servant and if she/ he also lives in it as a separate household then this has been considered as a dwelling room available to the servant's household. Tent or conical shaped hut if used for living by any household is also considered as dwelling room.

A dwelling room, which is shared by more than one household, has not been counted for any of them. If two households have a dwelling room each but in addition also share a common dwelling room, then the common room has not been counted for either of the households.

Census house :

A `census house' is a building or part of a building used or recognised as a separate unit because of having a separate main entrance from the road or common courtyard or staircase, etc. It may be occupied or vacant. It may be used for residential or non- residential purpose or both.

In certain peculiar situations, the manner in which buildings and census houses were identified for numbering in the field by the enumerators is described hereunder **:**

Sometimes a series of different buildings are found along a street which are joined with one another by common walls on either side looking like a continuous structure.

These different units are practically independent of one another and are likely to have been built at different times and owned by different persons. In such cases, though the whole structure with all the adjoining units apparently appears to be one building, each portion was treated as a separate building and its constituent units as separate census houses.

On the other hand, one may come across cases, particularly in large cities of multi-storeyed ownership flats. In these cases while the structure looks like one building, different persons own the flats. In case of such multi-storeyed structures, having a number of flats owned by different persons, the entire structure was treated as one building and each flat as a separate census house.

If within a large enclosed area, there are separate buildings owned by different persons then each such building is treated as a separate building. There can be a situation where within an enclosed compound there are separate buildings owned by an undertaking or company or even Government that are actually in occupation of different persons. For example, Indian Oil Corporation colony where the buildings are owned by the Corporation but these are in occupation of their employees. Each such building was treated as a separate building. But if in any one of these buildings there were flats in occupation of different households, each such flat was reckoned as a separate census house.

Sometimes it becomes difficult to apply the definition of census house strictly in certain cases. For example, in an urban area, if a flat has five rooms, each room having direct entrance from the common staircase or courtyard. By definition, this has to be treated as five census houses. If all these five rooms are occupied by a single household it was not realistic to treat them as five census houses. In such a case,`singleness' of use of these rooms along with the main house should be considered and the entire flat was treated as one census house. On the other hand, if two independent households occupy these five rooms, the first household living in 3 rooms and the second household occupying 2 rooms, then considering the use, the first three rooms together were treated as one census house and the remaining rooms as another census house. But if each room was occupied by an independent household, then each such room was treated as a separate census house.

In case of hostels, hotels, etc., even if the door of each room in which an inmate lives opens to a common verandah, staircase, courtyard or a common room, as it happens almost invariably, the entire hostel/ Hotel building was treated as one census house. but if such hostels/ hotels have out- houses or other structures used for different purposes or the same purpose, then each such structure attached to the main hostel/hotel was treated as a separate census house.

In some parts of the country, in rural areas, the pattern of habitation is such that a group of huts, located in a compound, whether enclosed or unenclosed, is occupied by one household. While the main residence may be located in one hut, other huts may be used for sleeping, as a kitchen, bath room, baithak, etc. Though each of the huts was a separate structure, they form a single housing unit and therefore, have to be treated collectively as one building and one census house. If some of the huts are used by one household and the others by a second household as residence, then the two groups of huts were treated as separate census houses. However, if there were also other huts in the compound used for other purposes and not as part of the household's residence such as, cattle shed, workshed, etc., these were treated as separate census houses.

On the other hand, in urban areas, where more than one structure within an enclosed or open compound (premises) belonging to the same person, e.g., the main house, the servant's quarter, the garage, etc., only one building number was given for this group and each of the constituent a separate census house number.

Only cases where a structure with roof and pillars has come up was treated as a building.

Village :

The basic unit for rural areas is the revenue village which has definite surveyed boundaries. The revenue village may comprise of one or more hamlets but the entire village is treated as one unit for presentation of data. In un-surveyed areas, like villages within forest areas, each habitation area with locally recognized boundaries is treated as one village.

Rural - Urban area :

The data in tables on Houses, Household Amenities and Assets are presented separately for rural and urban areas. The unit of classification in this regard is `town' for urban areas and `village' for rural areas. In the Census of India 2001, the definition of urban area adopted is as follows:

(a) All places with a municipality, corporation, cantonment board or notified town area committee, etc.

(b) A place satisfying the following three criteria simultaneously:

i) A minimum population of 5,000;

ii) At least 75 per cent of the male working population engaged in non agricultural pursuits ; and

iii) A density of population of at least 400 per sq. km. (1,000 per square mile).

For identification of places which would qualify to be classified as 'urban' all villages, which, as per the 1991 Census had a population of 4,000 and above, a population density of 400 persons per sq. km. and having at least 75 per cent of male working population engaged in non-agricultural activity were considered. To work out the proportion of male working population referred to above against b) (ii), the data relating to main workers were taken into account.

Apart from these, the outgrowths(OGs) of cities and towns have also been treated as urban under

'Urban Agglomerations'. Examples of out-growths are railway colonies, university campuses, port areas, military camps, etc., that may have come up near a statutory town or city but within the revenue limits of a village or villages contiguous to the town or city. Each such individual area by itself may not satisfy the demographic criteria laid down at (b) above to qualify it to be treated as an independent urban unit but may deserve to be clubbed with the towns as a continuous urban spread. Thus, the town level data, wherever presented, also includes the data for outgrowths of such towns.

City :

Towns with population of 1,00,000 and above are called cities.

Urban Agglomeration :

An Urban Agglomeration is a continuous urban spread constituting a town and its adjoining urban outgrowths (OGs) or two or more physically contiguous towns together and any adjoining urban outgrowths of such towns. In some cases railway colonies, university campuses, port areas, etc., may come up near a city or statutory town outside its statutory limits but within the revenue limits of a village or villages contiguous to the town or city. Each such individual area by itself may not satisfy the minimum population limit to qualify it to be treated as an independent urban unit but may deserve to be clubbed with the town as a continuous urban spread.For the purpose of delineation of Urban Agglomerations during Census of India 2001, following criteria are taken as pre-requisites:

(a) The core town or at least one of the constituent towns of an urban agglomeration should necessarily be a statutory town ; and

(b) The total population of all the constituents (i.e., towns and outgrowths) of an Urban Agglomeration should not be less than 20,000 (as per the 1991 Census).

With these two basic criteria having been met, the following are the possible different situations in which Urban Agglomerations would be constituted:

i) a city or town with one or more contiguous outgrowths;

ii) two or more adjoining towns with their outgrowths; and

iii) a city and one or more adjoining towns with their outgrowths all of which form a continuous spread.

Household :

A 'household' is usually a group of persons who normally live together and take their meals from a common kitchen unless the exigencies of work prevent any of them from doing so. Persons in a household may be related or unrelated or a mix of both. However, if a group of unrelated persons live in a census house but do not take their meals from the common kitchen, then they are not constituent of a common household. Each such person was to be treated as a separate household. The important link in finding out whether it was a household or not was a common kitchen. There may be one member households, two member households or multi-member households.

Institutional household :

A group of unrelated persons who live in an institution and take their meals from a common kitchen is called an Institutional Household. Examples of Institutional Households are boarding houses, messes, hostels, hotels, rescue homes, jails, ashrams, orphanages, etc. To make the definition more clearly perceptible to the enumerators at the Census 2001, it was specifically mentioned that this category or households would cover only those households where a group of unrelated persons live in an institution and share a common kitchen.

Houseless household :

Households who do not live in buildings or census houses but live in the open on roadside, pavements, in hume pipes, under fly-overs and staircases, or in the open in places of worship, mandaps, railway platforms, etc., are treated as Houseless Households.

Scheduled Caste and Scheduled Tribe :

Article 341 of the Constitution provides that the President may, with respect to any State or Union territory, specify the castes, races or tribes or parts of or groups within castes, races or tribes which shall for the purposes of the Constitution be deemed to be Scheduled Castes in relation to that State or Union territory. Article 342 similarly provides for specification

of tribes or tribal communities or parts of or groups within tribes or tribal communities which are to be deemed for the purposes of the Constitution to be Scheduled Tribes in relation to the various States and Union territories. In pursuance of these provisions, the list of Scheduled Castes and / or Scheduled Tribes are notified for each State and Union territory and are valid only within the jurisdiction of that State or Union territory and not outside.

It is important to mention here that under the Constitution (Scheduled Castes) Order, 1950, no person who professed a religion different from Hinduism was deemed to be a member of a Scheduled Caste in addition to every member of the Ramdasi, Kabirpanthi, Majhabi or Sikligar caste resident in Punjab or Patiala and East Punjab States Union were in relation to that State whether they professed the Hindu or the Sikh religion. Subsequently, in September 1956, by an amendment, the Presidential Order of 1950 and in all subsequent Presidential Orders relating to Scheduled Castes, the Hindu and the Sikh religions were placed on the same footing with regard to the specification of Scheduled Castes. Later on, as per the amendment made in the Constitution (Scheduled Castes) Order 1990, the Hindu, the Sikh and the Buddhist were placed on the same footing with regard to the recognition of the Scheduled Castes.

The lists containing the names of the Scheduled Castes and the Scheduled Tribes applicable for the Census of India 2001 in the State/Union territory are given below:

List Of Scheduled Castes In Andhra Pradesh :

1. Adi Andhra
2. Adi Dravida
3. Anamuk
4. Aray Mala
5. Arundhatiya
6. Arwa Mala
7. Bariki
8. Bavuri
9. Beda Jangam, Budga Jangam
10. Bindla
11. Byagara
12. Chachati
13. Chalavadi
14. Chamar, Mochi, Muchi
15. Chambhar
16. Chandala
17. Dakkal, Dokkalwar
18. Dandasi
19. Dhor
20. Dom, Dombara, Paidi, Pano
21. Ellamalawar, Yellammalawandlu
22. Ghasi, Haddi, Relli, Chachandi
23. Godagali
24. Godari
25. Gosangi
26. Holeya
27. Holeya Dasari
28. Jaggali
29. Jambuvulu
30. Kolupul Vandlu
31. Madasi Kuruva, Madari Kuruva
32. Madiga
33. Madiga Dasu, Mashteen
34. Mahar
35. Mala
36. Mala Dasari
37. Mala Dasu
38. Mala Hannai
39. Malajangam
40. Mala Masti
41. Mala Sale, Netkani
42. Mala Sanyasi
43. Mang
44. Mang Garodi
45. Manne
46. Mashti
47. Matangi
48. Mehtar
49. Mitha Ayyalvar
50. Mundala
51. Paky, Moti, Thoti
52. Pambada, Pambanda
53. Pamidi
54. Panchama, Pariah
55. Relli
56. Samagara
57. Samban
58. Sapru
59. Sindhollu,Chindollu.

List Of Scheduled Tribes In Andhra Pradesh :

1. Andh

2. Bagata
3. Bhil
4. Chenchu, Chenchwar
5. Gadabas
6. Gond, Naikpod, Rajgond
7. Goudu(in the Agency tracts)*
8. Hill Reddis
9. Jatapus
10. Kammara
11. Kattunayakan
12. Kolam, Mannervarlu
13. Konda Dhoras
14. Konda Kapus

Language and Mother tongue :

As per the census concept, each language is a group of mother tongues. The census questionnaire collects information on the mother tongue of each person and mother tongue is defined as the language spoken in childhood by the person's mother to the person. If the mother died in infancy, the language mainly spoken in the person's home in childhood will be the mother tongue. In the case of infants and deaf mutes, the language usually spoken by the mother is considered as mother tongue. It is not necessary that the language spoken as mother tongue should have a script. The mother tongues returned by the respondents in census are classified and grouped under appropriate languages according to their linguistic characteristics.

Literate :

A person aged 7 years and above who can both read and write with understanding in any language is taken as literate. A person who can only read but cannot write is not literate. It is not necessary that to be considered as literate, a person should have received any formal education or passed any minimum educational standard. Literacy could also have been achieved through adult literacy classes or through any non-formal educational system. People who are blind and can read in Braille are treated as literates.

Literacy rate :

Literacy rate of the population is defined as the percentage of literates in the age group seven years and above. For different age groups the percentage of literates in that age group gives the literacy rate.

Educational level :

The highest level of education a person has completed.

Work :

Work is defined as participation in any economically productive activity with or without compensation, wages or profit. Such participation may be physical and/or mental in nature. Work involves not only actual work but also includes effective

** The agency tracts is comprised of Srikakulam, Vizianagaram, Visakhapatnam, East-Godavari, WestGodavari and Khammam districts.*

supervision and direction of work. It even includes part time help or unpaid work on farm, family enterprise or in any other economic activity. All persons engaged in 'work' as defined above are workers. Persons who are engaged in cultivation or milk production even solely for domestic consumption are also treated as workers.

Reference period for determining a person as worker and non-worker is one year preceding the date of enumeration.

Main worker :

A person who has worked for major part of the reference period (i.e. six months or more during the last one year preceding the date of enumeration) in any economically productive activity is termed as `Main worker'.

Marginal worker :

A person who worked for less than six months of the reference period (i.e. in the last one year preceding the date of enumeration) in any economic activity is termed as `Marginal worker' .

Non worker :

A person who has not worked at all in any economically productive activity during the reference period (i.e. last one year preceding the date of enumeration) is termed as `Non worker'.

Cultivator :

For purposes of the Census a person is classified as cultivator if he or she is engaged in cultivation on land owned or held from Government or held from private persons or institutions for payment in money, kind or share. Cultivation includes effective supervision or direction in cultivation.

A person who has given out her/his land to another person or persons or institution(s) for cultivation for money, kind or share of crop and who does not even supervise or direct cultivation in exchange of land, is not treated as cultivator. Similarly, a person working on another person's land for wages in cash or kind or a combination of both (agricultural labourer) is not treated as cultivator.

Cultivation involves ploughing, sowing, harvesting and production of cereals and millet crops such as wheat, paddy, jowar, bajra, ragi, etc., and other crops such as sugarcane, tobacco, ground-nuts, tapioca, etc., and pulses, raw jute and kindred fibre crop, cotton, cinchona and other medicinal plants, fruit growing, vegetable growing or keeping orchards or groves, etc. Cultivation does not include the following plantation crops - tea, coffee, rubber, coconut and betel-nuts (areca).

Agricultural labourer :

A person who works on another person's land for wages in money or kind or share is regarded as an agricultural labourer. She/he has no risk in the cultivation, but merely works on another person's land for wages. An agricultural labourer has no right of lease or contract on land on which she/he works.

Household industry worker :

Household industry is defined as an industry conducted by the head of the household herself/himself and or by the members of the household at home or within the village in rural areas and only within the precincts of the house where the household lives in urban areas. The larger proportion of workers in household industry should consist of members of the household including the head. The industry should not be run on the scale of a registered factory which would qualify or has to be registered under the Indian Factories Act and should be engaged in manufacturing, processing, servicing and repairs of goods.

It does not include professions such as a pleader, Doctor, Musician, Dancer, Waterman, Astrologer, Dhobi, Barber, etc. or merely trade or business, even if such professions, trade or services are run at home by members of the household.

Other worker :

A person who has been engaged in some economic activity during the reference period but not as a cultivator or agricultural labourer or in Household Industry is termed as a 'Other Worker (OW)'. The type of workers that come under this category of 'OW' include all Government servants, municipal employees, teachers, factory workers, plantation workers, those engaged in trade, commerce, business, transport, banking, mining, construction, political or social work,

priests, entertainment artists, etc. In effect, all those workers other than cultivators or agricultural labourers or household industry workers, are 'Other Workers'.

Work participation rate :

Percentage of workers (main + marginal) to total population.

Population density :

Population density is the number of persons inhabited per square kilometre of the area.

Age :

Age is measured in terms of the completed number of years.

Sex -ratio :

Number of females per 1000 males in a population.

(viii) Non Census Concepts

Improved drinking water :

If the household had access to drinking water supplied from a tap, hand pump, tube well or well (protected or covered) situated within or outside the premises, it is considered as having access to improved drinking water. It may be mentioned that such uniform definition may not be valid across all states.

System of sewerage :

Generally, a sewerage system would mean a network of mains and branches of underground conduits for the conveyance of sewerage to the point of disposal. Sewers that carry only household and industrial wastage are called separate sewers; those that carry storm water from roofs, streets and other surfaces are known as storm water drains, while those carrying both sewage and storm water are called combined sewers. However, in some towns which are not provided with such underground sewerage system, it is served by open surface drain, box drain, sylk pattern drain, etc., in these towns.

Type of latrine and Method of disposal of night soil :

There are three prevalent systems of disposal of human wastes, viz.(i) underground sewerage, (ii) sanitary water flush latrines with individual disposal systems, like septic tank, leaching cess pool and collecting well, and (iii) dry type of latrines with manual scavenging. The system of underground sewerage provides for the street sewerage with which are connected the sanitary latrines constructed in the houses having water closets and fitted with flushing cistern (or hand flushing). Through this sewer the faecal matter is transported without the need for scavenging. This system generally exists in cities and big towns. Where the streets sewer does not exist these sanitary water flush latrines are connected to a local septic tank with a sub-soil dispersion system or a leaching pit. Here the liquid wastes from the water closet is disposed of locally in leaching pit, a septic tank with a soil dispersion system is constructed. This dispersion requires an optimum travel through the pores of the soil which renders the harmful liquid bacterially innocuous by the slow process of filtration through the soil traversed. Where the soil is impermeable, collecting wells are constructed and the sanitary water flush latrines are connected with them. These wells are cleaned at periodic intervals by a suitable device. The dry type of latrines are of service type latrines from where human excreta is removed by scavengers from house to house, in most cases carrying it on their heads or shoulders or in baskets with handle or wheel barrows. These are then collected in bullock carts or trucks or tractors and trolleys for being carried to the dumping grounds.

Fertility :

In demography, the word fertility is used in relation to the actual production of children or occurrence of births specially live births. Fertility is a measure of rate at which population adds to itself by births and normally assessed by relating the number of births to a full or part of the population, such as number of married women or number of women of child bearing age. The definitions of the terminology used in computing different fertility rates are mentioned below:

Crude birth rate(CBR) :

Ratio of the number of live births in a year to the mid year population, normally expressed per 1000 population.

$$CBR = \frac{\text{Number of live births during the year}}{\text{Mid –year Population}} \times 1000$$

Crude death rate(CDR)

Ratio of the number of deaths in a year to the mid year population, normally expressed per 1000 population.

$$CDR = \frac{\text{Number of deaths during the year}}{\text{Mid- year Population}} \times 1000$$

Natural growth rate

Growth rate is obtained as the difference between crude birth rate and crude death rate in the absence of migration.

Age specific fertility rate (ASFR)

Number of live births in a year to female population in any specified age group normally expressed per 1000 women.

$$ASFR = \frac{\text{Number of live births in a particular age-group}}{\text{Mid-year female population of the same age-group}} \times 1000$$

Age specific marital fertility rate (ASMFR)

Number of live births in a year to married female population in any specified age group normally expressed per 1000 married women .

$$ASMFR = \frac{\text{Number of live births in a particular age-group}}{\text{Mid-year married female population of the same age-group}} \times 1000$$

General fertility rate (GFR)

Number of live births per 1000 women in the reproductive age-group (15-49) years in a given year.

$$GFR = \frac{\text{Number of live births in a year}}{\text{Mid-year female population in the age-group (15-49) years}} \times 1000$$

General marital fertility rate (GMFR)

Number of live births per 1000 married women in reproductive age-group (15-49) years in a given year.

$$GMFR = \frac{\text{Number of live births in a year}}{\text{Mid-year married female population in the age-group (15-49) years.}} \times 1000$$

Total fertility rate (TFR)

It is obtained as the total of the age specific fertility rates (number of children born per woman of the particular age) for the entire reproductive age span. It provides the average number of children that will be born to a woman under the fertility levels indicated by the age specific fertility rates assuming that there is no mortality of women till the completion of reproductive period.

$$TFR = \frac{5 \times \sum_{15-19}^{45-49} ASFR}{1000}$$

Total marital fertility rate (TMFR)

Average number of children that would be born to a married woman if she experiences the current fertility pattern throughout her reproductive span (15-49) years assuming that there is no mortality of women till the completion of reproductive period.

$$TMFR = \frac{5 \times \sum_{15-19}^{45-49} ASMFR}{1000}$$

Age-specific mortality rate (ASMR)

Number of deaths in a particular age and sex group per 1000 population of the same age group.

$$ASMR = \frac{\text{Number of deaths in a particular age-group}}{\text{Mid-year population of the same age-group}} \times 1000$$

q1

Probability of dying between birth and age 1. This can be used as approximate value of Infant Mortality Rate (IMR) which gives the ratio of number of deaths in a year of children aged less than one year to the number of births in that year.

q2

Probability of dying between birth and age 2.

q5

Probability of dying between birth and age 5. This indicator is also known as Under Five Mortality Rate (U5MR)

Infant mortality rate (IMR)

Ratio of the number of infant deaths (deaths of children below one year) in a year to the number of live births in that year.

$$IMR = \frac{\text{Number of infant deaths during the year}}{\text{Number of live births during the year}} \times 1000$$

Infant mortality rate comprises of two parts, viz., Neo-natal mortality rate and Post neo-natal mortality rate. The neo-natal mortality rate also comprises of two parts viz., Early neo-natal mortality rate and late neo-natal mortality rate. These are defined as:

Neo-natal mortality rate (NMR)

Number of infants dying within the first month of life (28 days or under) in a year per 1000 live births of the same year.

$$NMR = \frac{\text{Number of infant deaths aged 28 days or under during the year}}{\text{Number of live births during the year}} \times 1000$$

Early neo- natal mortality rate (ENMR)

$$ENMR = \frac{\text{Number of infant deaths of less than 7 days During the year}}{\text{Number of live births during the year}} \times 1000$$

Late neo-natal mortality rate

$$LNMR = \frac{\text{Number of infant deaths of 7 days to less than 29 days during the year}}{\text{Number of live births during the year}} \times 1000$$

Post neo-natal mortality rate (PNMR)

$$PNMR = \frac{\text{Number of deaths of 29 days to less than one year during the year}}{\text{Number of live births during the year}} \times 1000$$

Peri-natal mortality rate (PMR)

Number of still births plus deaths within 1st week of delivery per 1000 births in a year.

$$PMR = \frac{\text{Number of still births and infant deaths of less than 7 days during the year}}{\text{Number of live births and still births during the year}} \times 1000$$

Still birth rate(SBR)

$$SBR = \frac{\text{Number of still births during the year}}{\text{Number of live births and still births during the year}} \times 1000$$

Maternal mortality rate(MMR)

Number of deaths of women in the age group 15-49 while pregnant or within 42 days of termination of pregnancy from any cause related to pregnancy and child birth per 1,00,000 live births in a given year.

$$MMR = \frac{\text{Number of maternal deaths to women in the age group 15-49}}{\text{Number of live birth}} \times 1,00,000$$

Eligible couple (Couples per 1000 population)

Number of currently married females in the age group15-44 years per 1000 persons of all ages.

Child woman ratio (0-4)

1. Number of children in the age group 0-4 years per 1000 women in the age group 15-49 years.

Child woman ratio (5-9)

2. Number of children in the age group 5-9 years per 1000 women in the age group 15-49 years.

Migration

Migration is the third component of population change, the other two being mortality and fertility. A person is considered as a migrant by place of birth if the place in which he/she is enumerated during the census is other than the place of his/her birth. Similarly a person is considered as a migrant by place of last residence if the place in which he/she is enumerated during the census is other than his/her place of immediate last residence outside the village or town and not simply in another house or locality in the same village or town. Certain aspects concerning temporary movement/migration of people has been explained below as these are important components concerning migration :-

(i) Migration of persons in search of job is high in the country. In many cases such migrants are only seasonal in nature. People migrate to other places for work in a particular season and come back again to their usual place of residence after three or four months. All such workers are treated as migrants. Similarly, if a person moved to any other place for attending short term vocational or educational course that lasted for only few months of a year, she/he too were considered as a migrant.

(ii) Where a person had merely gone out to another place or had been shifting from one place to another purely on tour, pilgrimage, visit to hospital for treatment or for temporary business purposes, such persons are

not deemed to have had another residence different from the place where she/he or her/his family normally resides. She/he is not considered as migrant.

(iii) A woman temporarily moves into a hospital or to her parents or other relative's house for delivery and if the hospital or the parents/relatives houses is in a place different from usual place of residence, the place where the hospital or parents/relative's house is the place of last residence of the child but not of the mother. A new response category 'Moved after birth' was added in Census of India 2001 in the question on 'reasons for migration' to bring out additional migration patterns. Natural calamities or distress migration as a reason for migration for last residence migrants included in 1991 Census, is covered under category of 'Others'. The reason for migration has been determined as applicable at the time of migration and not in reference to any point of time after that. For example, if a person had moved from the place of her/his last residence for the purpose of education and subsequently at some point of time got employment there only, the reason for migration would be 'education' and not 'work/employment'.

Internal and International migration :

The migrational movements are of three types

(i) Migration within the state itself with its components (a) Migration within the district of enumeration (intra district migration) (b) Migration from one district of state to another district of state (inter district migration)

(ii) Migration from one state to another State of the country (inter-state migration)

(iii) Migration from one country to another country. The first two streams together constitute internal migration, while the last type of movement is called international migration. The present name of the country, state or district and not the name by which they were known at the time of her/his birth or last residence were recorded.

Rural - Urban components of migration:

Rural or Urban status in respect of migrants have been determined as applicable at the time of migration and not with reference to any point of time after that. The flow of migrants consists of four streams viz. rural to rural, rural to urban, urban to rural and urban to urban.

Civic status of urban units

Civic Status of a town/city is determined on the basis of Civic Administrative authority of the town e.g., Municipal Corporation / Corporation, Municipal Committee/ Municipal council, Municipality etc.

Size class of UA / town :

Size-class of UA/Town is based on the population size of the UA/City/Town UAs./Towns with 1,00,000 and above population are classified as Class I UAs. / towns. These Class I UAs. / towns are now further sub classified in to seven sub classes namely M1 to M7 depending on the population size of UA/City/ Town. These are M7(5,000,000 and above); M6(2,000,000 to 4,999,999); M5 (1,000,000-1,999,999) M4 (500,000-999,999); M3(300,000-499,999), M2 (200,000-299,999) & M1 (100,000-199,999). towns with, 50,000 to 99,999 population are classified as Class II towns, 20,000 to 49,999 population are Class III towns, population with 10,000-19,999 are Class IV towns, population with 5000 and 9999 are Class V towns and towns with less than 5000 population are Class VI towns.

Slum area :

The Slum Areas (Improvement and Clearance) Act, 1956 which was enacted by the Central Govt. defined slums as a) Areas where buildings are in any respect unfit for human habitation; or b) are by reasons of dilapidation, overcrowding, fault arrangement and design of such buildings, narrowness or faulty arrangement of streets, lack of ventilation, light or sanitation facilities, or any combination of these factors, are detrimental to safety, health or morals.

Mega city :

The concept of 'Mega city' is a recent phenomenon in the Urban Sociology and is defined in term of metropolitan city in the form of large size, problem of management of civic amenities and capacity to absorb the relatively high growth of population. Indian Census in 1991 treated the population size of 5 million and above as the cut off point to identify a place as the mega city. Whereas, for the purpose of inclusion in Centrally Sponsored Scheme for Infrastructure Development in Mega cities the Ministry of Urban Affairs and employment, Department of Urban Development adopted the criteria of 4 million and above population as per 1991 Census for Mega Cities. In 2001 Census, cities with 10 millions and above population have been treated as Mega cities.

(ix) Analytical Note
2001 Census findings - Population and its distribution

(a) Distribution of Population in Rural - Urban Areas :

According to 2001 Census the total population of Anantapur district stands at 3,640,478 persons with 1,859,588 males and 1,780,890 females. The district stands at 8th rank in the state as far as population is concerned. Out of the total population of the district, 2,720,915 persons constituting 74.74% are residing in rural areas and the remaining 919,563 persons 25.26% are residing in urban areas. The proportion of urban to total population regarded as an index of urbanization i.e. 25.26% for Anantapur district corresponding to state figure of 27.30%. Average number of towns for 100 inhabited villages in the district is 1.2%.

Anantapur district has 952 villages in 63 mandals of which 925 are inhabited villages. The average number of inhabited villages per mandal is 15. Anantapur mandal is the largest mandal in terms of population accounting 8.47% of the district population. In terms of number of villages, Tadpatri and Mudigubba mandals lead with 27 villages each wherein one village is uninhabited in Mudigubba mandal. Rolla mandal has least i.e. 7 inhabited villages. As regards population, Gandlapenta mandal reported least population i.e. 24,118 persons in the district.

The urban population is distributed among 11 urban units of which 7 are statutory towns. The average size of an urban centre in the district works out to 83,597 persons. Anantapur Municipality has largest population with 218,808 persons whereas Papampet is the smallest town with a population of 9,155 persons. There is no town in the district which has less than 5,000 population.

(b) Size class and status of towns, population growth, density, sex ratio, work participation rate and Literacy rate in the district :

Size class and status of Towns :

During every Census the number of Census towns and statutory towns changes due to addition of new Census towns, declassification of old Census towns, notifying of new Census towns, de-notifying of old statutory towns etc. For the purpose of analysis of varied demographic characteristics, urban areas have been divided into six classes by size of population. There are 11 towns in the district. 4 towns i.e. Anantapur, Guntakal, Dharmavaram and Hindupur are categorized as class I towns while 3 each in class II and class III and one in class V. There are no towns in the district in class IV and class VI.

Population Growth :

The population of district was 3,183,814 persons as per 1991 Census and has gone up to 3,640,478 persons in 2001 adding 456,664 persons during the decade 1991-2001. The growth rate of the district 14.3% is less than the state growth of 14.59% during the decade. Anantapur district ranks 13th in population growth rate among 23 districts in the state.

Rural and Urban growth rates show wide variations. The rural growth rate is recorded as 11.71 while urban growth rate is 22.93. As regards growth rate in rural population, the district occupies 17th position, when we speak about urban growth rate it occupies 5th place in the state.

Density :

The overall density of population in the district is 190 persons per sq.km and it is below the state average of 277. Among urban areas, Anantapur Municipal town recorded highest with 13,383 persons per sq.km followed by 11,657 persons in Tadpatri Municipal town. Least density i.e. 1,052 persons per sq.km. has been reported in Uravakonda town.

Sex Ratio :

The district has recorded 958 females per 1000 males in 2001 Census while it was 946 in 1991 Census. In 2001 Census the sex

ratio of the district is lower than the state average of 978. The district has occupied 19th rank in respect of sex ratio among 23 districts. Amadagur mandal has the highest sex ratio of 1008, while Raptadu mandal has the least sex ratio of 920. Among urban units Kadiri Municipality has reported highest sex ratio of 982 and Uravakonda Census Town reported lowest sex ratio of 942.

Work Participation Rate :

The work participation rate for total workers is defined as percentage of total workers to total population. The total workers participation rate in Anantapur district is 48.8. Again the percentage of main workers stands at 40.4. The total work participation rate separately for males and females in the rural areas are 59.4% and 47% respectively as against corresponding figures for urban areas 53.0% and 16.0% respectively. Among the main workers as seen from the percentage of workers of 2001 over 1991, there is a decrease in the percentage of workers. The female work participation rate has slightly gone up from 36.02 in 1991 Census to 39.40 at 2001 Census.

Literacy Rate :

While calculating the effective literacy rate, children in 0-6 age group have been excluded. The district returned 1,774,088 literates forming 56.1% of the population of the district. Separating for urban and rural areas the literacy rate worksout to 69.5% and 51.6% respectively. Again within the urban areas male and female literates worksout to 79.4% and 59.3%. For the rural population the male and female literacy rates workout to 64.7% and 37.9%.

(C) Scheduled Castes and Scheduled Tribes of earlier Censuses :

To uplift social and economical status of Scheduled Castes and Scheduled Tribes, one of the basic requirement of these population is the availability of data on age, sex, marital status, economy, education, fertility etc. These particulars are being collected in each census from 1951 onwards and provided to Planners and Administrators to take-up necessary steps to evolve suitable plans for the development of Scheduled Castes and Scheduled Tribes.

The President of India has notified some castes, races or tribes or parts of groups within castes, races or tribes as Scheduled Castes under Article 341 of the Constitution of India. Similarly, under Article 342 of the Indian Constitution, President of India has declared all such tribes or tribal communities or parts of groups within the tribes or tribal communities as Scheduled Tribes. The list of Scheduled Castes and Scheduled Tribes are notified for each State or Union Territory and are valid only within the jurisdiction of that State and Union Territory. The list of Scheduled Castes and Scheduled Tribes is provided in this volume under the chapter on 'Census concepts'.

Scheduled Castes Population in the district as per 1991 Census :

As per 1991 census, there were 451,810 Scheduled Castes population comprising 232,055 males and 219,755 females. This works out to 14.19% to the total population of the district. Of the total population of Scheduled Castes, 85.44% were living in rural areas of the district.

The following statement reveals that Scheduled Castes population has recorded 29.54% growth during the decade 1981-91. It was 28.31% in rural areas which is less than the growth rate of total district. Growth rate in Urban areas was 37.25% which is 3.65% less than the district.

The sex ratio of Scheduled Castes population was 947, whereas for the general population in the district it was 946. The sex ratio in rural area of the district was 944 among Scheduled Castes population. In urban areas it was 966. The sex ratio of general population in the urban areas of the district was 952. The Literacy rate among Scheduled Castes recorded 25.7% which was lower than the district rate of 42.2%. In urban areas their literacy rate was 51.0%.

Proportion of main workers among Scheduled Castes was 48.4% and the marginal workers was 2.4%. In rural areas workers percentage was 51.3 and in urban areas their percentage was 31.7.

Statement (i)
Particulars of Decadal Variation, Sex Ratio, Literacy and Workers Participation of Scheduled Castes Population-1991

Sl.No.	Particulars	Total	Rural	Urban
1	Percentage Decadal Variation:			
	1981	348,777	300,840	47,937
	1991	451,810	386,018	65,792
		(29.5)	(28.3)	(37.3)
2	Sex Ratio	947	944	966
3	Percentage of Literacy	25.7	21.2	51.0
4	Percentage of :			
	i. Main Workers	48.4	51.3	31.7
	ii. Marginal Workers	2.4	2.7	0.4
	iii. Non-Workers	49.2	46.0	67.9

Source: District Census Handbook of Anantapur, 1981 - 1991.

It is seen from the below furnished table that Scheduled Castes population growth variation in the district has recorded +17.77% during the decade 1961-1971. The growth variation in SC population for the decades 1971-1981 and 1981-1991 were +25.34% and +29.54% respectively.

Statement (ii)
Statement showing the decadal variation in Scheduled Castes population in Anantapur district in comparison to Andhra Pradesh state between 1961-1991 Censuses

Sl.No.	Census Year	Scheduled Castes Population in the District (Percent variation shown in brackets)	Scheduled Castes Population in the State (Percent variation shown in brackets)
1	1961	236,285	49,73,616
		(--)	(--)
2	1971	2,78,275	57,74,548
		(+ 17.77)	(+ 16.10)
3	1981	3,48,777	79,61,730
		(+ 25.34)	(+ 37.88)

The Scheduled Tribes Population in the District as per 1991 Census :

As per 1991 Census, there were 1,11,207 Scheduled Tribes population comprising 57,472 males and 53,735 females. This works out 3.49% to the total population of the district. Of the total population of the Scheduled Tribes 89.14% were living in rural areas of the district.

The following statement reveals that Scheduled Tribes population in the district has registered 35.6% growth rate during the decade 1981-91. This growth rate 32.1% has been recorded in the rural areas of the district. In urban areas it was 73.3%. The sex ratio in the district was 935, while in rural areas it was 939 and in urban areas 899. As regards the Literacy rate among the tribes, it was 26.7% , while in rural areas it was 24%. However in urban areas it was higher (49.1%) than rural areas as well as the district total.

The population of main workers and marginal workers among tribals in the district was 46.4% and 3.1% respectively where as in rural areas of the district it was 48.2% and 3.4% respectively. But in urban areas they were reported 31.2% and 1.0% respectively.

Statement (v)

Particulars of Decadal Variation, Sex Ratio, Literacy and Workers Participation of Scheduled Tribes Population-1991

Sl.No.	Particulars	Total	Rural	Urban
1	Percentage Decadal Variation:			
	1981	82,026	75,057	6,969
	1991	111,207	99,131	12,076
		(35.6)	(32.1)	(73.3)
2	Sex Ratio	935	939	899
3	Percentage of Literacy	26.7	24.0	49.1
4	Percentage of :			
	i. Main Workers	46.4	48.2	31.2
	ii. Marginal Workers	3.1	3.4	1.0
	iii. Non-Workers	50.5	48.4	67.8

***Source**: District Census Handbook of Anantapur, 1981 and 1991.*

It is seen from the following statement that the Scheduled Tribes population growth rate declined during the decade 1971-81. However the variation between 1961-71, 1971-81 and 1981-91 was recorded 33.8%, 26.4% and 35.6% respectively.

Statement (vi)
Statement showing the Decadal Variation in Scheduled Tribes Population in Anantapur District in Comparison to Andhra Pradesh State between 1961-1991 Censuses

Sl.No.	Census Year	Scheduled Tribes Population in the District (Percent variation shown in brackets)	Scheduled Tribes Population in the State (Percent variation shown in brackets)
1	1961	48,500 (--)	1324368 (--)
2	1971	64,878 (33.8)	1657657 (+25.2)
3	1981	82,026 (26.4)	3176001 (+91.6)
4	1991	1,11,207 (35.6)	4199481 (+32.2)

***Source**: Part II-B, (iii) 1961,1971,1981 and 1991 Censuses.*

The following statement shows the proportion of Scheduled Tribes population to total population in the villages. Out of 567 villages, where Scheduled Tribes were recorded, 387 villages forming 68.3% were having less than 6% Scheduled Tribes population. The proportion of Tribals was between 26 to 50 percent in 37 villages (6.5%). The proportion of tribes was 6 to 15 percent in 98 villages (17.3%). In 8 villages the proportion of ST population to total population has recorded 51% and above.

Statement (vii)

This table gives the details of decadal population growth rates in the mandals of the district. 14.5% growth rate has been registered in this district during the decade which is slightly higher to the state average growth rate 14.3%. The rural and urban growth rates are recorded as 11.8.% and 23.0% respectively.

The district percentage of urban population worksout to 25.0% in 2001. Out of 63 mandals, 10 mandals have the urban units. Among these mandals, Anantapur mandal reported 82.0% urban population followed by 73% each in Guntakal and Hindupur mandals. Other remaining mandals also have reported more urban population than the district average urban population.

Percentages in brackets.

This district has 925 inhabited villages. Out of 63 mandals, 27 inhabited villages in Tadpatri mandal is the highest number followed by Mudigubba mandal with 26 inhabited villages and 22 inhabited villages each in Gooty and Pamidi mandals. The least number of inhabited villages i.e., 8 villages are found in Atmakur, Bukkapatnam, Amarapurm and Agali mandals. Of the total inhabited villages 33 (3.6%) are having less than 200 population, 51 villages (5.5%) in 200 - 499, 111 villages (12.0%) in 500 - 999, 221 (23.9% in 1000 - 1999 persons, the highest number of villages 366 (39.6%) are in the population range of 2000 - 4999, 117 (12.6%) villages are in the range of 5000 - 9999, and only 26 (2.8%) villages are in the range of 10,000 and above population which are most mandal headquarters.

TABLE 3 (Concld..)
NEW TOWNS, DENOTIFIED, DECLASSIFIED AND MERGED TOWNS IN 2001 CENSUS

	Name of Town
	1
(b) Denotified	
(i) Statutory towns of 1991 Census denotified and also did not satisfy the criteria to be treated as Census towns	-Nil-
(ii) Statutory towns of 1991 Census denotified but identified as Census towns based on demographic and economic criteria	-Nil-
(iii) Census towns of 1991 Census are notified as statutory town in 2001 Census	-Nil-
(c) Declassified	1. Penukonda (P) 2. Prasanthinilayam (T.S)
(d) Wholly merged with other town(s)	-Nil-

Declassified means the census towns of 1991 census which failed to satisfy the demographic and economic criteria

Of 12 urban areas in 1991 Census 2 Census Towns viz., Penukonda and Prasanthinilayam attained rural status due to strict implementation of demographic criteria in 2001 Census. Besides the above changes, one new town by name Papampeta Census Town has been declared for 2001 Census.

TABLE - 4
DISTRIBUTION OF VILLAGES BY POPULATION DENSITY, 2001

Range of population density (per square kilometre)	Total number of villages in each population density range	Percentage of villages in each population density range	Population	Percentage distribution of population
1	2	3	4	5
0-10	5	0.5	256	-
11-20	6	0.6	552	-
21-50	31	3.4	26,548	1.0
51-100	195	21.1	311,429	11.4
101-200	463	50.1	1,343,296	49.4
201-300	150	16.2	568,029	20.9
301-500	57	6.2	318,876	11.7
501 +	18	1.9	151,929	5.6
Not known	-	-	-	-
District Total:	**925**	**100.0**	**2,720,915**	**100.0**
Population Density (Rural) of the district :		**155.4**		

It is seen from the above table that there are only 5 villages with 256 population where density of population recorded below 11 persons per square kilometre. The average population size of these villages worksout around 51 persons per village. The highest number of villages i.e., 463 forming 50.1% with 1,343,296 persons are in 101-200 range of population density. Of total district rural population, 5.6% are living in 18 villages where density of population is more than 500 persons per sq. km.

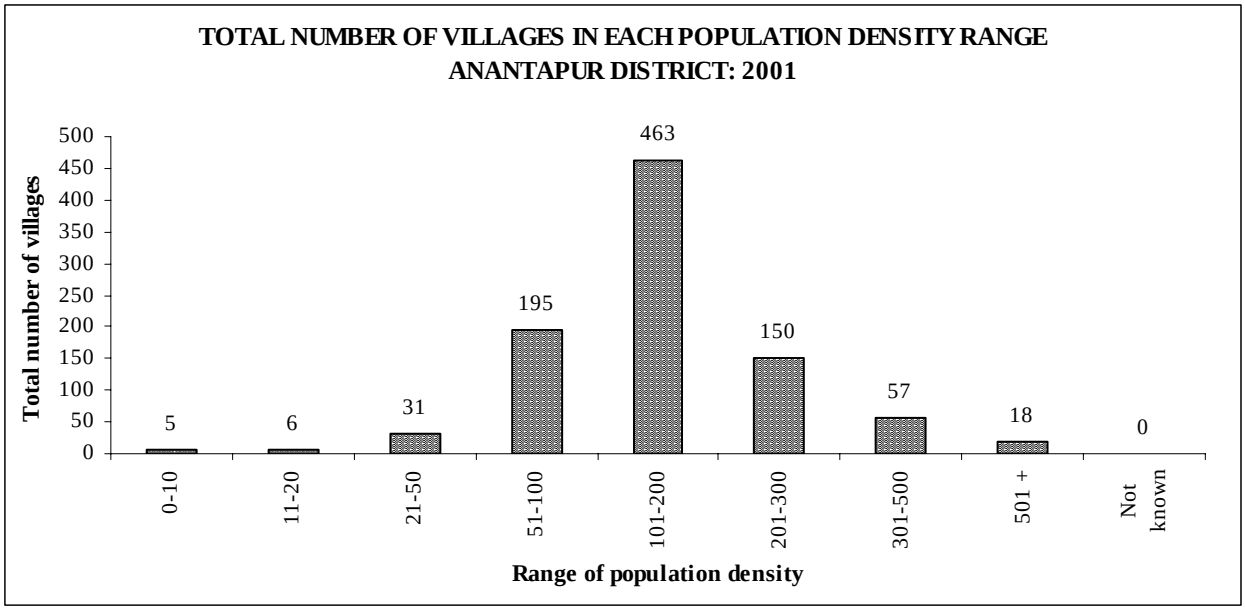

TABLE - 5
SEX RATIO OF STATE AND DISTRICT, 1901 - 2001

Census Year	State			District		
	Total	Rural	Urban	Total	Rural	Urban
1	2	3	4	5	6	7

61	Hindupur	949
62	Lepakshi	932
63	Chilamathur	979
	District (Rural) Total:	**955**

From the above table it is noticed that the sex ratio in rural areas is 955 which is lower than the district sex ratio. Among them 4 mandals sex ratio is equal to the district sex ratio. In 29 mandals the sex ratio is more than the total average sex ratio of the respective mandals. The remaining 30 mandals are lower than the district rural sex ratio. Among these 30, the mandals of Gooty, Tadpatri, Anantapur, Dharmavaram, Kadiri and Hindupur, lower sex ratio has been recorded in which the urban areas are existing.

TABLE - 8
SEX RATIO OF RURAL POPULATION BY RANGES, 2001

Range of sex ratio for villages	Number of inhabited villages	Percentage of villages in each range	Population (2001)	Percentage distribution of population
1	2	3	4	5
Less than 700	3	0.3	768	0.0
700-749	5	0.5	13,277	0.5
750-799	6	0.6	19,351	0.7
800-849	11	1.2	18,355	0.7
850-899	54	5.8	84,324	3.1
900-949	294	31.8	963,102	35.4
950-999	399	43.1	1,362,496	50.1
1000-1099	141	15.2	251,927	9.3
1100+	12	1.3	7,315	0.3
District Total:	**925**	**100.0**	**2,720,915**	**100.0**
Sex ratio (Rural) for District:	**955**			

Large variation in district rural sex ratioi.e., less than 700 females per 1000 males are recorded in 3 villages with a population of 768 persons. There are 399 (43.1%) villages in the range of sex ratio 950-999, in which the sex ratio of total and rural areas of the district has also fallen. It is evident from the above table that 16.5% of inhabited villages are having more number of females than males covering 9.6% of the total rural population.

			Persons	Males	Females	
1	2	3	4	5	6	7
61	Hindupur	Total	23,135	11,768	11,367	966
		Rural	6,313	3,149	3,164	1,005
		Urban	16,822	8,619	8,203	952
62	Lepakshi	Total	5,694	2,936	2,758	939
		Rural	5,694	2,936	2,758	939
		Urban	-	-	-	-
63	Chilamathur	Total	5,978	3,030	2,948	973
		Rural	5,978	3,030	2,948	973
		Urban	-	-	-	-
	District Total:	**Total**	**479,853**	**244,990**	**234,863**	**959**
		Rural	**365,685**	**186,945**	**178,740**	**956**
		Urban	**114,168**	**58,045**	**56,123**	**967**

The sex ratio of population in the age-group 0-6 is 959 in total, 956 in rural and 967 in urban areas of the district as against 958, 955 and 966 respectively for total population of the district. It reveals that sex ratio in rural, urban and total district is almost equal in the age-group 0-6. Similar to total population, sex ratio of urban areas in the age-group of 0-6 also is higher than district average sex ratio. Female children are more in number than male children in the age-group of 0-6 in Bommanahal, Singanamala, Putlur, Nambulipulikunta, Gandlapenta, Nallamada, Rolla and Amadagur Mandals in the district.

63	Chilamathur	5,978	3,030	2,948	973
	District (Rural) Total:	**365,685**	**186,945**	**178,740**	**956**

This table gives the details of sex ratio in the age-group 0-6 for each mandal of the district. It can be noticed that the sex ratio of the population in the age-group 0-6 is highest in Amadagur, Rolla, Nallamada, Gandlapenta,Putlur,Singanamala, Nambulipulikunta, Bommanahal and Hindupur mandals with 1,044, 1,026, 1,025, 1,022, 1,020, 1,010, 1,009, 1,008 and 1005 respectively whereas less females have been seen in Yellanur; Peddavadugur; Anantapur with 885, 892 and 897 respectively per 1,000 males.

TABLE - 12
SEX RATIO OF RURAL POPULATION IN THE AGE GROUP 0-6 BY RANGES, 2001

Range of sex ratio for villages	Number of inhabited villages	Percentage distribution of villages	Population (2001)	Percentage distribution of population
1	2	3	4	5
Less than 700	39	4	2,516	1
700-749	16	2	2,345	1
750-799	38	4	10,490	3
800-849	60	6	21,133	6
850-899	118	13	52,423	14
900-949	164	18	86,605	24
950-999	153	17	77,056	21
1000-1099	201	22	81,693	22
1100+	136	15	31,424	9
District (Rural) Total :	**925**	**100**	**365,685**	**100**
Sex ratio (Rural) for District:		**956**		

It is seen from the above table that, in 22.0% of villages, female children in the age group 0-6 are either equal or more than the male children. In 153 villages forming 17% of total inhabited villages, the range of sex ratio is 950-999, in which the district average sex ratio 956 has also falls in.

TABLE - 13
SEX RATIO OF POPULATION IN THE AGE GROUP 0-6 OF URBAN AGGLOMERATIONS / TOWNS, 2001

		Urban	**919,563**	**78,943**	**15,704**	**9**	**2**

This table shows the number and percentage of Scheduled Castes and Scheduled Tribes population in the mandals recorded during 2001 Census. Out of district total population of 3640478, the Scheduled Castes and Scheduled Tribes constituted 14% and 4% respectively. In rural areas of the district the SCs accounted 16% whereas it is 9% in urban areas. In respect of STs they accounted 4% in rural and 2% in urban areas of the total population. Their percentage is more in rural areas than in urban.

In Kambadur mandal the highest number of SCs recorded with 24% of the totally under rural areas followed by Gudibanda with 24% and Singanamala with 22% both are totally in rural areas. The lowest percentage of SCs recorded in the mandals of Kadiri, Dharmavaram, Anantapur, Nambulipulikunta, Bukkapatnam, Talupula and Kothacheruvu with 6%, 7%, 8%, 8%, 10%, 10% and 10% respectively.

The highest percentage of STs is recorded in Mudigubba, Nallamada and Tanakal mandals with 12%, 12% and 11% respectively.

	District (Rural) Total:	**2,720,915**	**435,953**	**111,457**	**16**	**4.1**

This table reveals the percentage distribution of SCs and STs population among the Mandal Parishads (CD blocks). The highest percentage of SCs population has been noticed in Kambadur Mandal Parishad with 23.8% followed by Gudibanda with 23.6% which were higher than the district average percentage of SC population. Likewise, highest ST population has been noticed in Kadiri Mandal Parishad with 16.6% followed by Mudigubba and Nallamada Mandal Parishads with 12.1% and 11.3% respectively which were higher than the district average percentage of ST population. The lowest SC population has been recorded in Nambulipulikunta with 8.4% while the lowest ST population in Vidapanakal Mandal Parishad with 0.2%. In Putlur Mandal Parishad no ST population has been recorded.

TABLE - 16
PROPORTION OF SCHEDULED CASTES POPULATION TO TOTAL POPULATION IN VILLAGES, 2001

Percentage range of Scheduled Castes Population to total population	Number of villages	Percentage	Scheduled Castes Population	Percentage
1	2	3	4	5
Nil	55	5.9	0	0.0
Less than 5	56	6.1	3,872	0.9
5-10	162	17.5	53,373	12.2
11-20	422	45.6	222,707	51.1
21-30	162	17.5	112,876	25.9
31-40	52	5.6	36,429	8.4
41-50	12	1.3	5,867	1.3
51-75	3	0.3	714	0.2
76 and above	1	0.1	115	0.0
District Total :	**925**	**100.0**	**435,953**	**100.0**

This table shows proportion of SC population to total population in the villages as recorded during 2001 Census. As per this table the highest number of 422 villages have been found under 11-20 percentage range of SC population to total population accounting 45.6% of total villages in the district. In this range the SC population has recorded 222,707 persons with 51.1% and the lowest is noticed in the range of 76 and above i.e. only in one village with 115 SC population.

TABLE - 17
PROPORTION OF SCHEDULED TRIBES POPULATION TO TOTAL POPULATION IN VILLAGES, 2001

Percentage range of Scheduled Tribes Population to total population	Number of villages	Percentage	Scheduled Tribes Population	Percentage
1	2	3	4	5
Nil	336	36.3	0	0.0
Less than 5	394	42.6	19,433	17.4

76 and above	2	0.2	330	0.3
District Total :	**925**	**100.0**	**111,457**	**100.0**

This table shows proportion of ST population to total population in villages returned during 2001 Census. As per this table 394 villages are under less than 5 percentage range of STs population to total population covering 42.6% of villages in the district. This is the range where the highest proportion of STs recorded. Lowest is noticed in the 76 and above percentage range of STs to total population in 2 villages accounting 0.2% of villages in the district.

62	Lepakshi	968	466
63	Chilamathur	947	1,045
	District (Rural) Total :	**951**	**934**

The sex ratio among the SCs and STs is given in this table at Mandal Parishad level. The sex ratio of SCs and STs in rural areas of Anantapur district is 951 and 934 respectively while it is 958 in respect of total population. It shows that sex ratio among total SCs is almost in the same range i.e. 951-958. But the sex ratio of STs is lower than the sex ratio of total. The lowest sex ratio among SCs is reported in Kadiri Mandal Parishad with 726 while among STs the lowest sex ratio is reported in Lepakshi Mandal Parishad with 466 females per 1000 males. The highest sex ratio among SCs is noticed in Anantapur Mandal Parishad with 1,044 while 1,070 is the highest sex ratio among STs in Kundurpi Mandal Parishad. Among SCs females are more than males in 2 Mandal Parishads. Similarly the females are more in number than males in 5 Mandal Parishads among STs. Among SCs in 28 Mandal Parishads, the sex ratio is below the district average sex ratio and among STs in 33 Mandal Parishads, the sex ratio is below the district average.

TABLE - 20
SEX RATIO AMONG SCHEDULED CASTES AND SCHEDULED TRIBES IN URBAN AGGLOMERATIONS / TOWNS, 2001

	Sex ratio (Urban) for the district:	**981**	**943**

+ Arranged in alphabetical order.

^ Name of constituent unit of UA are ginve separately.

The sex ratio among the SCs and STs has been shown in this table for Urban Agglomerations/ Towns of 2001 Census. Among towns Dharmavaram Municipality has highest sex ratio of 1060 and lowest 918 in Uravakonda Census Town among SC population. Females are more in number than males in Rayadurg, Guntakal, Papampeta and Dharmavaram towns. The sex ratio is higher than the district average sex ratio in Rayadurg(M), Guntakal(M), Tadpatri(M), Papampeta(CT), Anantapur(M), Dharmavaram(M) and Hindupur(M) among SCs. Similarly, among STs it is higher than the district average in Guntakal(M), Gooty(CT), Tadpatri(M), Papampeta(CT), Dharma-varam(M), Kadiri(M) and Hindupur(M) towns. The highest sex ratio among STs is noticed in Kadiri(M) with 1127 females per 1000 males and lowest in Uravakonda(CT) with 551 females per 1000 males has been recorded.

District and Mandal -wise literacy rates besides the number of literates and illiterates for total, rural and urban areas with sex break-up are given in this table. The literacy rates are worked out by excluding population in the age group 0-6. As per 2001 Census, the proportion of literates to total population excluding the age group 0-6 comes to 56.1% in the district. The proportion in rural areas is 51.6% and in urban it is 69.5%. In the district the literacy rate of males(68.4) is much higher than that of females(43.3). Among the mandals, Anantapur stands top in position with 72% literates followed by Hindupur with 66.7%. Bommanahal mandal with 41.4% is lowest rate of literates recorded in the district.

The gap between male and female literacy rate is very high with 25% in the district as a whole. The situation at mandals level is almost same.

District (Rural) Total:		**1,214,365**	**778,963**	**435,402**	**1,506,550**	**612,942**	**893,608**	**52**	**65**	**38**	**27**

This table reveals number of literates, illiterates and the literacy rates in rural areas at Mandal Parishad level. In the district, 52% of the total rural population excluding the age-group 0-6 are literates in the rural areas of district. The corresponding proportion of male and female literates comes to 65% and 38% respectively which shows very wide gap of 27%.

At Mandal Parishad level, 63% is the highest rural literacy rate recorded in Penukonda mandal parishad while 74% of males and 50% females are the literates. The lowest literacy rate i.e., 41% each is noticed in the rural areas of Rayadurg and Bommanahal mandal parishads.

The gap between male and female literacy is 27% in the district as a whole.

TABLE - 23
DISTRIBUTION OF VILLAGES BY LITERACY RATE RANGE, 2001

Range of literacy rate for villages	Number of inhabited villages	Percentage distribution of villages	Population	Percentage distribution of population

The above table gives the number and percentage of Main workers, Marginal workers and Non-workers by sex at mandal level in the district as per 2001 Census. The proportion of the total workers worksout 48.8% of the total population in the district. The total workers are comprised of 40.4% of main workers and 8.4% of marginal workers and the remaining 51.2% are non-workers.

Among the main workers, males participation rate in the district is 52.3 whereas in females it is 28%. Male and female marginal workers account for 5.6% and 11.4% respectively. The percentage of female marginal workers is higher than the male marginal workers.

This table shows the Mandal Parishad-wise number and percentage of Main workers, Marginal workers and Non-workers by sex for rural population of the district as per 2001 Census. Of the 2,720,915 population of rural in the district, 43.6% has been categorized as main workers and the marginal workers constitute 10% and the remaining 46.4% fall in the category of non-workers. The sex-wise breakup at the district level shows that 53.2% males and 33.5% females are working under the category of main workers. 6.3% of males, 14% of females fall under the category of marginal workers. The female marginal workers are higher than male marginal workers. Similar trend is noticed at the Mandal Parishad level.

The percentage of total rural workers of the district comes to 53.6%. At the Mandal Parishad level, Amadagur has highest proportion of total workers forming 58.5% of the total population. It is closely followed by Talupula Mandal with 58.1% Peddapappur with 57.8%, Kanaganapalle with 57.7%, Yellanur with 57.6% and Peddavadugur with 57.3%. The lowest percentage of 45.8 has been recorded in Penukonda Mandal Parishad.

Note: Percentage of Workers to total workers are given in brackets

This table gives the details of distribution of workers by sex in four categories of economic activity in the Mandals of the district as recorded in 2001 Census. It can be seen that the economy of the district is primarily dependent on agriculture due to the fact that Cultivators constitute 29.8% of the total workers(main + marginal) besides 37.7% workers engaged in Agricultural Labourers. Household industry workers constituted 5.7% and 26.7% fall under the category of Other Workers in the district.

The distribution of workers by four categories of economic activity at mandal level shows very high dependence of population on agriculture sector absorbing large number of workers. The percentage of female cultivators is 25.9% which is lower as compared to 32.3% of male cultivators in the district.

Note : Percentage of workers to total workers are given in brackets

This table presents Mandal Parishad-wise distribution of workers by sex in four categories of economic activity as per 2001 Census. In the rural areas of the district total workers constitute (main +marginal) 53.6% of total population. Among these workers, Cultivators constitute 35.8%, 44.2% Agricultural Labourers, 4.0% Household Industry Workers and 16.0% Other Workers. The agricultural sector plays a major role in providing employment to the working force of rural population despite the fact that it is not commercially viable. Household Industries also could not make much progress in rural areas as reflected in the data and these household industries employ only 4.0% workers of the total working force. Therefore surplus working force has to depend on primary activities. Among cultivators, the percentage of females 28.6% is lesser than males 41.3% in the rural areas of the district.

Note : *Percentage of workers to total workers are given in brackets.*

+ Arranged in alphabetical order.

This table shows the distribution of workers by sex in four categories of economic activity of Urban Agglomeration / Towns. In the urban areas of the district Total Workers form (main + marginal) 34.8% of total population. Among these workers, Cultivators constitute 2.2%, 8.5% Agricultural Labourers, 13.7% Household Industry and 75.6% Other Workers in the district. The other workers category plays a major role in providing employment to the working force of urban population. Household Industry also could not make much progress in urban areas as reflected in the data and these household industries employ only 13.7% of the total working force. Therefore surplus working force has to depend on other working activities. Among cultivators, the percentage of females 1.8% is slightly lower than males(2.3%) in the urban areas of the district.

Note *: - Percentages are given in brackets.*

* *Based on the improved drinking water source, drinking water supply has been classified as 'Improved ' or otherwise. If the household has access to drinking water supplied from a tap or a hand pump / tube well situated within or outside the premises it is considered as having access to 'Improved drinking water source'. However, the concept of improved drinking water is state specific and this is to be considered accordingly.*

\# *Post office includes Post office, telegraph office and Post and telegraph office.*

$ *Transport communication includes bus service, rail facility and navigable waterways.*

This table deals with the Mandal Parishad-wise distribution of villages according to the availability of different amenities like education, medical, improved drinking water, post office, telephone, transport, communications, agricultural credit societies, approach by pucca road and power supply within the village. Out of 925 inhabited villages in the district, 904 villages or 97.7% have been provided with education facilities of one type or the other. Similarly, 603 villages in the district constituting 65.2% have medical facilities of one type or the other. Improved drinking water facility is available in 922 or 99.7% villages. As regards post office facility which includes facilities like telegraph office and post and telegraph, 710 villages constituting 76.8% of villages have been provided with this facility within the village. 687 or 74.3% villages have been

provided with telephone facility, 852 or 92.1% with transport facility, 124 or 13.4% villages with bank facility and 221 or 23.9% villages with agricultural credit societies. Similarly there are 767 or 82.9% villages which have been linked with pucca road. 923 or 99.8% villages have been provided with the electricity supply. Almost similar pattern of distribution of villages by availability of amenities in the villages at Mandal Parishads.

Note *: - Percentages are given in brackets.*

* *Based on the improved drinking water source, drinking water supply has been classified as 'Improved ' or otherwise. If the household has access to drinking water supplied from a tap or a hand pump / tube well situated within or outside the premises it is considered as having access to 'Improved drinking water source'. However, the concept of improved drinking water is state specific and this is to be considered accordingly.*

\# *Post office includes Post office, telegraph office and Post and telegraph office.*

$ *Transport communication includes bus service, rail facility and navigable waterways.*

This table depicts the number and percent of rural population served by different kind of amenities as recorded in 2001 census. Out of total rural population of 2,720,915 persons in the district, 2,717,554 persons or 99.9% have Educational facility of one type or the other. Similarly 2,305,613 or 84.7% population has Medical facility of one type or the other while 2,720,818 persons or 100.0% have got Improved Drinking Water facility. 2,535,796 persons or 93.2% have the Post Office facility. 2,293,334 or 84.3% people are enjoying the facility of Telephone. Transport communication facility is available to 2,674,210 or 98.3% persons, 857,525 or 31.5% people are having Bank facility and 1,138,188 or 41.8% people are availing the Agricultural Credit Societies facility. 2,424,675 or 89.1%persons are linked with the facility of Approach by Pucca Road. Power supply is available to 2,720,877 or 100.0% rural population in the district. Similar pattern of availability of facilities is visible to the population at Mandal Parishad level.

TABLE - 39
DISTRIBUTION OF VILLAGES NOT HAVING CERTAIN AMENITIES ARRANGED BY DISTANCE RANGES FROM THE PLACES WHERE THESE ARE AVAILABLE, 2001

(b) Cooperative Bank	50	157	702	909
7. Agricultural Credit Societies	205	262	235	702

This table presents distribution of villages not having certain amenities within the village at district level. They have to go out of their village to avail these facilities. Such villages have been presented in this table according to various distance ranges. 23 villages do not have Primary School in their villages and out of these villages, children of 21 villages have to travel less than 5 kms. and one village each have to travel 5-10 kms and 10+ kms. respectively for schooling. Out of 925 inhabited villages as many as 518 are deprived of Middle School and 912 of degree college facilities. Of these the children of 239 villages avail the facility of middle school at a distance of less than 5 kms., 195 at a distance 5-10 kms. and the remaining 84 at a distance of 10+ kms. In respect of Degree College, students of 34 villages avail this facility at a distance of less than 5 kms., 134 at distance of 5-10 kms. and 744 villages at a distance of 10+ kms.

Similarly, there are 915 villages in the district which have been deprived of Hospital facility and 851 villages of PHC facility. Of these 45 villages have the facility of Hospital within 5 kms. while in respect of 142 villages the villagers have to travel at a distance of 5-10 kms. and the rest have to travel 10+ kms. distance in order to avail this facility.

As regards PHC, inhabitants of 91 villages avail this facility at a distance of less than 5 kms., 260 villages at a distance of 5-10 kms. and inhabitants of 500 villages have to travel 10+ kms.

Regarding Post Offices, 215 villages do not have this facility. Of these, people in majority number of villages i.e. 165 have to travel less than 5 kms., 37 villages have to travel at 5-10 kms. and 13 villages at 10+ kms. to avail this facility.

The Telephone facility is not available in 236 villages, out of which people in 93 villages have to travel at a distance of less than 5 kms., 53 villages have to travel at a distance of 5-10 kms. and the people in the remaining 90 villages have to travel 10+ kms. to avail this facility.

In respect of Bus services it is noticed that 73 villages do not have this facility. Among these people of 61 villages have to travel less than 5 kms., 8 villages at a distance of 5-10 kms. and the rest of 4 villages at a distance of 10+ kms. to avail this facility.

Regarding Bank facility 802 villages are deprived of Commercial Banks and 909 villages of Co-operative Banks. Among these, 802 villages which are deprived of Commercial Banks, people of 157 villages avail this facility at a distance of less than 5 kms., 348 villages at a distance of 5-10 kms. and 297 villages 10+ kms. have to cover. Regarding the Co-operative Banks out of 909 villages people in 50 villages avail this facility at a distance of less than 5 kms., 157 villages 5-10 kms. and 702 villages at a distance of 10+ kms. 702 villages do not have Agricultural Credit Societies. This facility to 205 villages is available at a distance of less than 5 kms., 262 at a distance of 5-10 and the remaining 235 are at a distance of 10+ kms.

TABLE - 40
DISTRIBUTION OF VILLAGES ACCORDING TO THE DISTANCE FROM THE NEAREST STATUTORY TOWN AND AVAILABILITY OF DIFFERENT AMENITIES, 2001

Distance range from the nearest statutory town (in kilometers)	Number of inhabited villages in each range	Type of amenity available

 # Post office includes Post office, Telegraph office and Post and telegraph office.
$ Transport communication includes bus service, rail facility and navigable waterways.

This table deals with the distribution of villages according to distance from the nearest statutory town and availability of different amenities as per 2001 census. Out of total 925 inhabited villages in the district, there are 8 villages which have nearest towns up to a distance of 5 kms. Of these 8 villages at the said distance, 100% villages are having the Educational facilities of one type or other and 4 villages constituting 50.0% have the Medical facilities, 6 villages forming 75.0% have the facility of Post Office, 8 villages or 100.0% have the facility of Telephone, 6 villages constituting 75.0% have the Transport and Communications. No Commercial Bank facility is available for these villages while 2 villages constituting only 25.0% have been provided with Agricultural Credit Societies and 75.0% or 6 villages are linked with Pucca Road at the said distance range.

Similarly, 193 inhabited villages are at a distance of 5-15 kms. from the nearest statutory town having the Educational facility in 96.4% villages, Medical facility in 65.3% villages, Post Office in 76.2%, Telephone in 74.1%, Transport and Communication in 93.3%, 8.3% Banking, 31.1% Agricultural Credit Societies and 87.6% of villages have Pucca Approachable Roads.

Maximum number of villages i.e., 627 fall in the distance range of 16-50kms. from the statutory town. Out of these villages, 98.1% possess Educational facilities, 65.2% Medical facilities, 76.6% Post Office, 75.1% Telephone, 91.9% Transport and Communication, 15% Banking , 22.8% Agricultural Credit Societies and 83.6% villages have Pucca Approachable Roads.

95 inhabited villages are at a distance of 51+kms. In this 100% villages possess Educational , 67.4% Medical, 81.1% Post Office, 68.4% Telephone. 94.7% Transport and Communication, 14.7% Banking, 16.8% Agricultural Credit Societies and 71.6% villages have Pucca Roads.

Only 2 villages lie at an unspecified distance to the statutory town having no amenity.

Of the 925 villages, 904 villages forming 97.7% of these total villages are having the Educational facility of one type or the other and 603 villages constituting 65.2% have Medical facilities within the villages, 710 villages forming 76.8% have the facility of Post Office within the village and 687 or 74.3% have the Telephone facility, 852 villages constituting 92.1% have been linked by Transport Service. 124 villages comprising 13.4% have been provided Bank facilities, while 221 villages constituting 23.9% Agricultural Credit Societies and 767 villages constituting 82.9% have been provided with Pucca Roads.

***** *Based on the improved drinking water source, drinking water supply has been classified as "improved" or otherwise. If the household has access to drinking water supplied from a tap or a handpump/tubewell situated within or outside the premises, it is considered as having access to "improved drinking water source". However, the concept of the improved drinking water is state specific and this is to be considered accordingly.*

 # Post office includes Post office, Telegraph office and Post and telegraph office.

$ Transport communication includes bus service, rail facility and navigable waterways.

This table deals with the distribution of villages by population range and amenities available therein as recorded in 2001 Census. In Anantapur district out of 925 inhabited villages, 904 villages (97.7%) have Education facility, 603(65.2%) have Medical facility, 922 (99.7%) villages have Improved Drinking Water facility, 710 villages (76.8%) have Post Office facility, 687 (74.3%) have Telephone facility. 852 (92.1%) have been linked by Bus Service and 124 (13.4%) have Bank facility. 221 villages (23.9%) have been served with the Agricultural Credit Societies, 767 villages (82.9%) have Pucca Approachable Road and almost all villages i.e., 923 villages (99.8%) possess Electricity for all purposes.

As many as 84 villages have below 500 population. 111 villages have fallen in the population range 500-999 and 221 villages in the range of 1000-1999. In the population range of 2000-4999 the number of villages fallen are 366. A study of amenities available for these smaller villages reveal that they possess lesser amenities and they have to depend on nearby towns to avail the facilities.

Sources: *Census of India 2001, H-Series;"Tables on houses, households amenities and assets"*

The data presented in this Table depicts number of households by tenure status and number of rooms occupied in the district. As per 2001 Census the total number of households in the district is 782,561 consisting of 598,396 rural and 185,080 urban households. 113,989 households belong to Scheduled Castes and 32,840 households belong to Scheduled Tribes 651,118 households are living in their own house and among them 103,261 SCs, 28,981 STs owing the houses. Of these households, the largest number of households (335,752) have occupied single room accommodation and is followed by double roomed accommodation numbering 195,950 households. Next position is claimed by three roomed households numbering 53,701 and 3+ roomed accommodation by 35,368 households. While 30,346 households are without any exclusive room.

121,934 households living in rented accommodation in the district. The largest number of 53,576 households are living in single roomed accommodation, followed by 37,894 households in two roomed accommodation. Households with three rooms and three plus are small in numbers. The tenure status of 'Others' numbering to 9,509 of total households are distributed in single roomed accommodation numbering 5,747 and 1,979 double roomed, 103 in three roomed accommodation and 702 in 3+ roomed accommodation. In rural areas majority of households have bigger size and majority of them have their own houses while in urban areas show reverse picture.

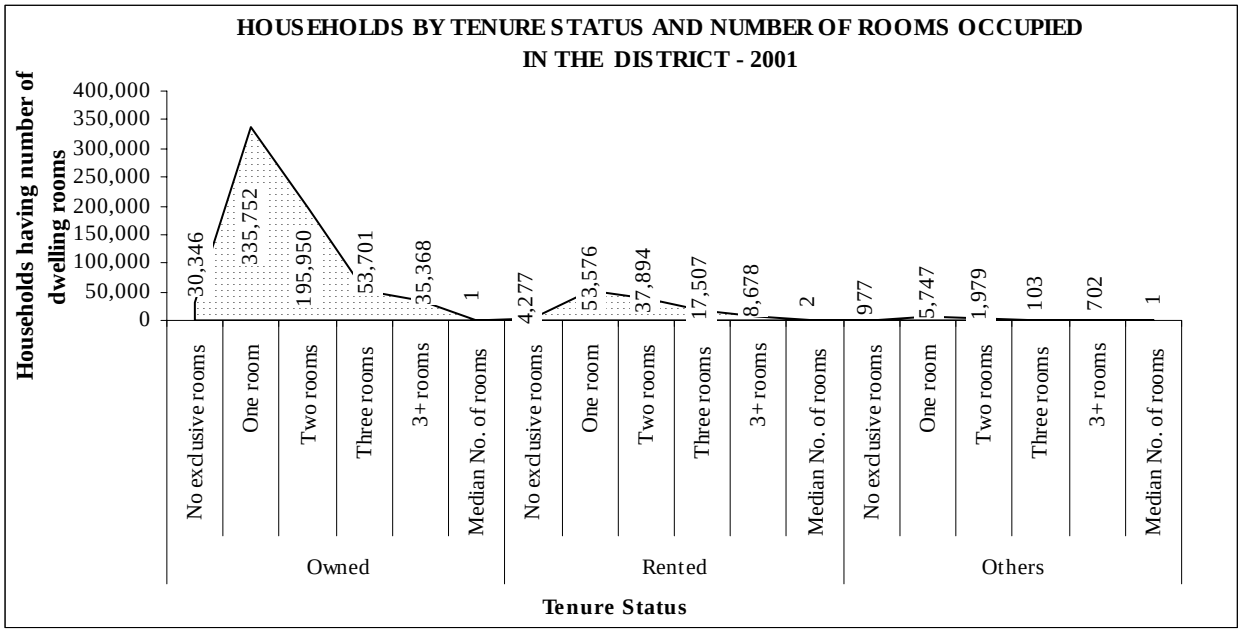

TABLE - 49

Data Source : *Census of India, 2001, H-Series : "Tables on Houses, Household Amenities and Assets".*

The data presented in this table reveals that 55.2% of households of the district are living in houses madeup of pucca materials, residences of 30.7% households are of semi-permanent and 13.8% of households are temporary materials.

In the rural areas, however, the percentage of households living in permanent houses is 49.3%, 34.4% in semi-permanent and 16.0% only in temporary houses.

The district percentage in urban areas indicates that majority of households i.e., 74.1% are living in houses constructed with pucca materials whereas 18.9% is semi-permanent and the percentage of households living in temporary houses is 6.8 i.e., constructed with kutcha materials.

		Urban	-	-	-	-	-	-
				-	-	-	-	-
63	Chilamathur	Total	10,593	7,762	6,419	3,421	1,645	2,386
				(73.3)	(60.6)	(32.3)	(15.5)	(22.5)
		Rural	10,593	7,762	6,419	3,421	1,645	2,386
				(73.3)	(60.6)	(32.3)	(15.5)	(22.5)
		Urban	-	-	-	-	-	-
				-	-	-	-	-

This table indicates that 77.3% households in the district have been provided with improved drinking water supplied from a tap or a hand-pump/tube-well. 72.4% households have provision of electricity to their houses. The bathroom facility is available to only 44.7% households within their premises. As regards rural areas, 34.4% households are having bathroom facility, whereas this proportion in urban areas comes to 77.9%. 67.3% rural households have facility of electricity against 89.0% in urban areas. Toilet and drainage facilities in the district are available to 24.3% and 45.7% households respectively. Their percentage is higher in urban areas as compared to rural areas. The trend of these amenities available to the households at mandal level is almost conform to the district pattern analysed.

Data Source : Census of India, 2001, H - Series, "Tables on Houses House Hold amenities and Assets"
Note : Percentage has given after the total households.

The percentage distribution of households by type of fuel used for cooking purposes is given in the above table. There are nine types of fuel used for which data have been presented in this table. It is observed that wood is the most predominant fuel used for cooking by 81.8% households in the district. In rural areas use of wood for cooking is high while in urban areas it is less due to availability of L.P.G. The next cooking fuel is gas which is used by 11% households in the district. This proportion in rural and urban areas is 4.5% and 32% respectively. In rural areas use of gas for cooking is very low as compared to urban areas at mandal level also. There are 3.6% households using kerosene in the district. Use of kerosene for cooking by urban households comes to 11.7% while in rural areas its proportion is only 1.1% as a whole. The percentage of households using other types of fuel such as crop residue, cow dung cakes, electricity, coal, biogas etc. is insignificant.

Data Source : Census of India, 2001, H - Series, "Tables on Houses House Hold amenities and Assets"

This table presents data for total, rural and urban areas at district/mandal level about households availing banking services and in possession of assets such as radio/transistor, telephone, bicycle, scooter and car etc. There are 783,467 households in the district and among them, 258,999 households have been availing banking services. 172,579 households have Radio/ Transistor. Television is possessed by 216,944 households. Telephone is available in 50,976 households. Bicycle is used as a major means of transportation and is available in 167,510 households. Scooter, Motor cycle and Moped are used by 55,501 households. Whereas 4,950 households are in possession of Car, Jeep and Van. The picture in usage of banking services and possession of assets by households at mandal level is almost similar as analysed above for the district as a whole.

(xiii) Scope of Village Directory and Town Directory - Column heading wise explanation and coverage of data

The village directory and the town directory presented in the District Census Handbooks are proved more useful. The formats of village directory and of seven statements on town directory are on the same pattern canvassed in 1991 census except for a few additional columns. These additional columns are introduced to throw more insight into the infrastructure of the villages and towns. All the amenities except recreational and cultural facilities, power supply and news papers/magazines are brought under one bracket, with corollary that in case any amenity is not available in the village, the distance of the nearest place where the facility is available is presented. Similar method is followed in respect of towns where educational and medical facilities are not available. The non-census data presented in the village and town directories relate to the year 1999. However, wherever the field agencies have indicated the later position, the information has been updated. Almost all the details in the statement have been indicated by codes. In respect of total population and total number of households, the figures as returned during the recent census i.e. 2001 census have been presented. The scope of village directory and town directory statements with column heading-wise explanation and coverage of data are hereunder presented.

Scope of Village Directory :

In the similar manner as was done in the past, the village directory has been prepared for all the villages in the state and these are presented mandal-wise in the District Census Handbook. This statement contains village-wise area, population, amenities such as educational, medical, communications, drinking water facilities, etc., and also the land use pattern details. The villages are shown in order of their permanent location code numbers. An alphabetical list of villages with their permanent location code numbers and a mandal map has been presented in the beginning of Village Directory of each mandal. This facilitates the reader in locating the mandal in which a particular village lies. The village directory now contains 23 columns as against 18 columns in the 1991 handbook. To give more information under amenities column, banking facilities such as commercial and co-operative banks, agricultural, non-agricultural and other credit societies have been included in the present statement. Similarly, a new column 'number of recreational and cultural facilities' showing cinema/video halls, sports club and stadium/ auditorium has been added. In addition to the above a column showing newspapers/magazines received and name of the most important commodity manufactured in the village have been incorporated. Besides the above, the Village Directory is having 12 appendices viz.

Appendix I	:	Abstract of Educational, Medical and other amenities in the village – Mandal parishad level.
Appendix 1A	:	Villages by number of primary schools
Appendix 1B	:	Villages by primary, middle and secondary schools
Appendix 1C	:	Villages with different sources of drinking water facilities available
Appendix II	:	Villages with 5,000 and above population which do not have one or more amenities available.
Appendix IIA	:	Census Towns which do not have one or more amenities.

Appendix III	:	Land utilization data in respect of census towns / non-municipal towns.
Appendix IV	:	Mandal parishad wise list of inhabited villages where no amenity other than drinking water facility is available.
Appendix V	:	Summary showing number of villages not having Scheduled castes population.
Appendix VI	:	Summary showing number of villages not having Scheduled tribes population
Appendix VIIA:		List of villages according to the proportion of the Scheduled Castes to the total population by ranges.
Appendix VIIB:		List of villages according to the proportion of the Scheduled Tribes to the total population by ranges.
Appendix VIII	:	Statement showing number of Girls Schools in the villages.
Appendix IX:		List of Degree Colleges by Village / Town in the District.
Appendix X:		List of Hospitals by Village / Town in the District.
Appendix XI:		List of Banks by Village / Town in the District.
Appendix XII:		List of Cinema Halls by Village / Town in the District.

It may be noted that the Appendix 1A, 1B, 1C, II, II-A, VIII, IX, X, XI and XII have been included afresh in comparison to the District Census Hand Books of 1991 Census.

Columns 1 to 3 relate to the serial number, location code number, name and total area of the village. The area given under column 3 is as per the data collected from the state survey department during 1991 census and presented even for 2001 census as the department clarified that there are no changes in the area figures. Column numbers 4 and 5 provide the total population and the total number of households in the village as per 2001 census. Columns 6 to 13 list out the basic amenities available in the village such as educational; medical; drinking water; post, telegraph and telephone; commercial and co-operative banks; agricultural, non-agricultural and other credit societies; recreation and cultural facilities and communications.

The columns 14 to 18 give the details of approach to the village, nearest town & distance, power supply, news paper/magazine circulation and most important commodity manufactured in the village.

The remaining columns 19 to 23 pertain to the land use pattern in the village. The extent of forest area has been given in column 19 while in columns 20 and 23 the extent of irrigated area together with different irrigational sources, the extent of culturable waste including gaucher and groves and the area not available for cultivation such as buildings, roads and railways or under water(rivers and canals), etc., have been given. Here it is worth mentionable that the total area figures of Col. 19 to 23 may not tally with the total area of the village as shown in Col. 3 due to various reasons such as water ways, etc., which are not generally included in the land use statistics.

The land use pattern in the Village Directory conforms to the pattern of clarification of land use as recommended by the Ministry of Agriculture, Government of India. The Ministry of Agriculture has recommended the maintenance of records of land use pattern under five categories viz. forests, not available for cultivation, other uncultivated lands excluding fallow lands, fallow lands and net area sown.

The concepts of various types of land use given under each of the columns 19 to 23 as given in the Village Directory schedule are reproduced below:

1. Forests (Col.19) :

These include all actually forested areas and the lands classified or administered as forests under any legal enactment dealing with forests whether State owned or private. If any portion of such land is not actually wooded but put to some agricultural use, that portion is included under the appropriate heading of cultivated or uncultivated land.

2. Cultivated area with break-up irrigated and un-irrigated (Col. 20 & 21):

This includes the land under the following three categories.

I) Net area sown :

The net area sown represents the area sown to crops counting areas sown more than once in the same year, only once.

II) Other fallow lands :

This includes all lands which were taken up for cultivation but are temporarily out of cultivation for a period of not less than one year and not more than five years. The reasons for keeping such lands fallow may be either due to poverty of the cultivators or inadequate supply of water or malarial climate or silting of canals or rivers or un-remunerative nature of farming, etc.

III) Current fallows :

This class comprises cropped areas which are kept fallow during the current year. If any seedling area is not cropped again in the same year, it is also treated as current fallows.

3. Culturable Waste (Col. 22):

This item includes the land under the following three categories.

i) Permanent pastures and other grazing lands:

These cover all grazing lands whether they are permanent pastures and meadows or not. Village common and grazing lands within forest areas are included under this head.

ii) Lands under miscellaneous tree crops and groves not included in the area sown:

Under this class is included all cultivable land which is not included under net area sown but is put to some agricultural use. Lands under casurina trees, thatching grass, bamboo bushes and other groves for fuel, etc., which are not included under 'Orchards' are classed under this category.

iii) Culturable waste:

This includes lands available for cultivation but not taken up for cultivation or abandoned after a few years for one reason or other. Such lands may be either fallow or covered with shrubs and jungles, which are not put to any use. They may be assessed or not assessed and may lie in isolated blocks or within cultivated holdings. Land once cultivated but not cultivated for five years in succession is also included in this category.

4. Area not available for cultivation (Col.23) :

This includes the land under the following two categories.

i) Land put to non-agricultural uses :

All lands occupied by buildings, roads and railways or under waters such as rivers and canals and other lands put to uses other than agricultural.

ii) Barren and uncultivable land :

This covers all barren and uncultivable land like mountains, etc., i.e. which cannot be brought under cultivation unless at a high cost. Whether such land is in isolated blocks or within cultivated holdings.

All the above particulars are based on the data received from the concerned departments like education, medical, postal electricity, etc., and also mainly from the Mandal Revenue Officers concerned.

Item on communications has been shown separately to spell in terms of availability of the public transport system. This is meant to see whether the village is served by any mode of transport such as bus or rail or waterway. It is against this back-ground that the item on approach to village has been given separately. This refers to road, etc., leading to the village and is to indicate whether the village is approachable both in fair and foul weather and whether it is inaccessible for all time or only some time in the year. Adult literacy class/centre under item on 'Education' and Primary health centre and Community health worker under item 'Medical' of Village Directory are included to indicate statistics on the Minimum Needs Programme of the Planning Commission.

Scope of Town Directory:

There are seven statements in the Town Directory, which include several particulars relating to the towns arranged as per the alphabetical order of their names. These statements are almost similar to those adopted in 1991 census except for a few changes. During the

1991 there were six Town Directory statements besides providing a separate statement IV-A bringing out civic conditions of the notified slums in class I and II towns. In the present volume the statement IV-A of the 1991 handbook has been termed as statement-VII and the data is presented in respect of all towns having statutory bodies including un-notified slums. The column 4 of statement IV-A of the 1991 book i.e. area of the slum has been deleted in the present book duly substituting the same by giving the information - whether the slum is notified or not with a view that the local authorities are not in a position to provide exact area figures for each slum area. Further in the present statement-VII another item i.e. approximate number of households living in the slum is incorporated. The captions of the statements are as follows:

Statement I	:	Status and growth history
Statement II	:	Physical Aspects and location of town, 1999
Statement III	:	Municipal Finance, 1998-99
Statement IV	:	Civic and other Amenities, 1999
Statement V	:	Medical, Educational, Recreational and Cultural Facilities, 1999
Statement VI	:	Trade, Commerce, Industry and Banking, 1999
Statement VII	:	Civic and other Amenities in slums, 1999

In addition to the above seven statements one appendix for the towns showing their outgrowth with population has also been presented.

The formats of Town Directory have been devised to suit the Minimum Needs Programme of the Planning Commission. To reflect this programme, the columns scheduled castes and scheduled tribes population in statement IV and Adult Literacy classes/ Centres in statement V are identical. In case such of the amenity as Fire Fighting Service in statement IV, the Educational or Medical facility in statement V is not available in the town, the name of the nearest place and its distance from the referent town has been given. This feature is followed since 1981 census as it is necessary to identify the areas that have no specific facility in the district.

Statement I : Status and Growth History :

This statement provides basic information on civic status, population with decadal growth rate from 1901 to 2001, density for 2001 Census and sex ratio from 1981 to 2001 censuses of each town besides presenting class of town, location code, name of the mandal, area in sq.kms. and number of households including houseless households returned in 2001 Census.

The columns 1 and 2 relate to serial number and class, name and civic administrative status of the town. The class of town has been determined basing on the size of population as given below.

Population	Class
1,00,000 and above	I
50,000 - 99,999	II
20,000 - 49,999	III
10,000 - 19,999	IV
5,000 - 9,999	V
Below 5,000	VI

The civic administrative status of the town is indicated in brackets by abbreviated letters like 'M.Corp.' for Municipal Corporation 'M' for Municipality and 'NP' for Nagar Panchayat and 'CT' for Census Town. The location code number under column 3 for the Towns was framed to follow the alphabetical order of the towns in the district. This also facilitates easy location of the town in the map. After location code the Col. 4-7 indicate name of mandal, name of mandal parishad, area of the town in sq. kms. and number of households including houseless households recorded in 2001 Census. The population of the town with decadal growth rate from 1901 Census to 2001 Census is given in Col. 8-18. The column 19 shows the density of population and column 20 to 22 give the sex ratio recorded during 1981 to 2001 Censuses. The sex ratio defined here is number of females per 1,000 males.

The following eleven places are treated as urban areas in Anantapur district at the 2001 census.

1. Rayadurg(M)

2. Guntakal(M)

3. Gooty(CT)

4. Tadpatri(M)

5. Uravakonda(CT)

6. Kalyandurg(CT)

7. Anantapur(M)

8. Papampeta(CT)

9. Dharmavaram(M)

10. Kadiri(M)

11. Hindupur(M)

Of them Rayadurg, Guntakal, Tadpatri, Kadiri, Anantapur, Dharmavaram and Hindupur are the statutory bodies and remaining 4 places are Census towns. Penukonda and Prasanthinilayam Township Census Towns of 1991 Census are declassified in 2001 Census due to strict application of the criteria for treating a place as town. In 2001 Census Papampeta has been declared as town for the first time.

In Anantapur district Anantapur Municipality is treated as Urban Agglomeration with Narayanapuram, Kakkalapalle (R)(partly) and Anantapur (R) as OGs for the first time in 2001 Census.

Statement II: Physical aspects and location of town, 1999.

This statement contain 13 columns and depicts physical aspects and location of town in the district. Column numbers 1 and 2 relate to serial number and class and name and civic status of the town. The physical aspects such as rainfall in millimetres maximum and minimum temperature in centigrade have been shown, in columns 3 to 5 by taking average for the last ten years i.e. from 1990 to 1999. The highest rainfall in Tadpatri Town has been recorded as 740.6 mm. and Guntakal Town with lowest rainfall i.e., 33.87 mm has been recorded. In respect of temperature, the highest and lowest temperatures were recorded as 45^0 C in Kalyandurg and 13.10^0 C in Gooty respectively.The columns 6 to 11 give the details of name and road distance in kms. from the referent town to state, district and mandal headquarters, nearest city with population of one lakh and more, five lakhs and more railway station and bus route. Hindupur town is 475 Kms. away from Hyderabad city which is the State headquarters. Rayadurg is situated at a distance of 100 Kms. from the district headquarters Anantapur. Similarly Guntakal at 85 Kms., Gooty at 50 Kms., Tadpatri at 56 Kms., Uravakonda at 52 Kms., Kalyandurg at 60 Kms., Dharmavaram at 40 Kms., Kadiri at 87 Kms., and Hindupur at 110 Kms. are away from Anantapur, while Papampeta is situated near by 1 Km. to Anantapur town. Column 11 and 12 shows, all towns in the district are well connected by Railway and Bus route.

Statement III: Municipal Finance, 1998-99.

The details for inclusion in this statement were obtained from the concerned authorities. In this statement there are 16 columns. Column 1 to 2 relate to serial number, name and class of town with civic administration status. Columns 3 to 9 show the receipts of the local body under various sub-heads and columns 10 to 16 give the details of expenditure incurred on general administration, public safety, public health and convenience, public works and institutions, etc. The statement shows that during the year 1998-1999 Anantapur(M) derived the income of Rs. 21 crores through taxes, stands first, followed by Hindupur(M) with 11 crores. Last place occupies by Kalyandurg(CT) with only one crore income. In respect of expenditure, Anantapur Municipality incurred 78 crores which is the highest in the district. Whereas 44 crores expenditure incurred by Tadpatri(M) stands 2nd place. Guntakal(M) occupies 3rd place with an expenditure of Rs.38 crores.

Statement IV : Civic and other Amenities, 1999:

The title itself reveals that, this statement deals with the facilities provided to the people in urban areas of the district.

This statement contained 20 columns. Columns 1and 2 relate to serial No. class and name of town and civic administration status of the town respectively. Column 3 gives population of the town where as the columns Number 4 & 5 gives population of SC and ST as per 2001 Census. The lengths of Pucca and Kutcha roads are recorded separately for each town in column 6. The column No. 7 shows the details of sewerage systems prevailing in the referent town. The number of latrines with different types is shown

in column No. 8 to 11. Column NO. 12 is provided separately to show method of disposal of night soil. The source of protected water supply and the system of storage with capacity are recorded under column 13 and 14. Column No. 15 shows the availability of fire fighting services. In case of this service is not available in the town, the name of the nearest town along with distance where available is mentioned under this column. The columns 16 to 20 relate to different types of electrical connections in number.

Length of pucca road in Anantapur municipality is 239 kilometres stands first. Next to it Guntakal Municipality comes with 118 kilometres. Regarding kutcha road Dharmavaram Municipality has longest way i.e., 38 kilometres. The only sewerage system is available in all towns i.e., OSD. Water borne latrines are in use as in all the towns of the district.

Mostly it is found that drinking water is supplied through taps and is being stored in OHT, SR, in all most all the towns of the district.

The fire fighting service is available in all towns except in Gooty for which it is available at Guntakal town at a distance of 30 kilometres.

As regard electric connections the highest number of domestic connections is seen in Anantapur Municipality (53,027) while the least number 626 connections are in Papampeta CT. Industrial connections are also seen in all the towns but the number of road lighting and other electric connections dominating in Anantapur Municipality.

Statement V : Medical, Educational, Recreational and Cultural facilities, 1999 :

In this statement the availability of Medical, Educational, Recreational and Cultural facilities are presented with reference to the population 2001 Census. This statement containing 20 columns. Column 1,2 and 3 relate to serial number, class and name of the town and the population recorded during 2001 Census respectively. The columns 4 and 5 show about the availability of different Hospitals, Dispensaries, T.B. Clinics etc., together with the beds strength. Columns 6 to 15 relate to educational facilities such as various Schools / Colleges at all levels including Medical, Engineering, Polytechnic, Technical Institutions and Adult Literacy Centres. The column 16 is meant for Working Woman's Hostels with number of seats. The number of Recreational and Cultural facilities such a Stadium, Cinema, Auditorium, Community Halls, Public Libraries including Reading Rooms available in the towns is recorded in columns 17 to 20.

In Anantapur district out of 11 towns, Anantapur town is more populous town stands first, second place occupies Hindupur town, third place occupies by Guntakal town. Papampeta which is newly formed town for the fist time in 2001 Census occupies last place.

Almost all towns are having the facilites of Hospitals, Dispensaries, Family Welfare Centres. The Nursing Homes and Dispensaries are dominating in Anantapur Municipality which is numbered 16 and 20 respectively. The T.B. Clinics are available in the district at 3 places only i.e., at Guntakal, Anantapur and Hindupur towns. But, in Papampeta, no such facility is available due to its location with in the vicinity of Anantapur town, the beds strength is also high in Anantapur Municipality.

Regarding the Educational facilities, Arts/Science/ Commerce/Law/Others, 11 colleges are available in Anantapur, 5 in Hindupur 2 each in Tadpatri, Guntakal and Rayadurg and the remaining towns are having one each. Medical college facility is not available in the district but the Engineering collge is available at Anantapur town. Polytechnic institutions are available at Anantapur and Hindupur towns only. Good number of recognized shorthand, typewriting and vocational training institutions are available at Hindupur, Guntakal. 15 Higher Secondary / Intermediate / Senior Secondary / PUC/ Junior collge level institution are available at Anantapur town. The above such institutions are also available at Hindupur, Guntakal and Kadiri. There is no single institution or college is available at Papampeta, which is situated very near to Anantapur. Almost all the towns are having the facilities of Secondry/Matriculation/ Junior Secondary and Middle Schools, and Primary schools. Adult Literacy Centres are available at Kalyandurg town stands first with a number of 12 centres. The only one working women hostel is available at Anantapur Municipality.

The stadiums are available only at Guntakal, Kalyandurg and Anantapur towns respectively. All

the towns are having the cinema facility. While Auditoriums / Drama / Community Halls are available in all towns except in Rayadurg, Tadpatri, Papampeta towns. The Public Libraries including Reading Rooms are also seen in all towns.

Statement VI : Trade, Commerce, Industry and Banking, 1999 :

This statement deals with economic activities in the urban areas with 11 columns. Columns 1 and 2 are serial number and class name and civic status of the town. The columns 3 to 5 give the details of three most important commodities exported and the columns 6 to 8 show the three most important commodities manufactured. The commercial banks, number of agricultural credit societies and the number of non-agricultural credit societies are furnished in the columns 9 to 11.

The people of urban areas of this district exports Tamarind, Ground nuts, Ginned cotton, Paddy, Oranges, Onions, Coriander, Ground nut oil, Sarees, Jaggery, Redgram, Minerals, Polished C.D.P. Slabs, Jowar, Sun flowers, Cocoons, Chillies. They manufacture Silk Yarn, Wheat Atta, Refined oil, Ginned Cotton, Twisted Silk Yarn, Cumbalis, Ground Nut oil, Silk Sarees, Cotton, Chicory, Solvent Extract oil, Polished Stones, Electrical Bulbs, Beedies, Ready made Garments, Plastic Vessels, Matches, Malybdenum wire, Pre pipes, and Raw silk.

All the towns are having the Banking facilities except Papampeta town. Agricultural Credit Societies are also available in all towns except in Gooty and Papampeta towns.

Lastly, the Non-Agricultural Credit Societies are covered highest number i.e., 50 is seen in Rayadurg town 19 in Tadpatri, 15 in Hindupur and only one in Uravakonda town.

Statement VII : Civic and other amenities in Slums, 1999 :

This statement deals with civic and other Amenities that are available in the slums whether notified or not for all towns having statutory bodies clumn 1 and 2 are serial number and class and name of town, column 3 and 4 gives name of the slum and whether it is notified or not. Column 5 and 6 approximate number of households and population of 1999. Column 7 shows the length of paved roads in slums. Type of sewerage, number of different type of latrines and method of disposal of night soil are shown in column 8 to 13 and column 14 gives number of tap points. Number of electrical connections by different category are provided in columns 15 to 17.

According to the Statement Anantapur Municipality stands first place with 13,000 households with 70,067 population in slum pockets of the town. second comes Hindupur with 8,957 households and 47,123 slum population. Third place occupies Dharmavaram Municipality (i.e., 9,469 households with 46,441 slum population).

Kadiri (M) has 80 kms. paved road in slum areas stands first place and the next is. Hindupur(M) with 60 kms., paved road. The slum areas of these towns are also having the OSD method of sewerage system. The water borne latrines are existing in the towns. Majority of towns using Septic Tank method for disposal of night soil in slum areas. The water is being supplied through taps to the residents of slum areas.

Sufficient electric connections in different categories are provided according to size of slum population in each town.

Section I - Village Directory

(a) Note explaining the abbreviations used in Village Directory :

The "Village Directory" is one of the traditional compilations of the Census. It gives the list of villages, their location numbers, their area, population, number of households, amenities such as educational, medical, drinking water, post and telegraph, commercial and co-operative banks, agricultural non-agricultural and other credit societies, recreational and cultural facilities, communication, approach to village, nearest town with a distance, power supply availability of newspaper and magazines, most important commodity manufactured and land use of each village.

Village is a statutory recognized unit having a definite boundary and separate land records. In case, a complete village is treated as an outgrowth of urban agglomeration, data on amenities for that village, have not been given in the Village Directory but shown along with the urban component. The villages which are consider as a Census Town , the amenities data are shown in the Town Directory. For those villages which have partly merged in an outgrowth of U.A., the amenities data are shown in the Village Directory for that particular village.

The 'un-inhabited' villages (villages with no population) have been indicated as such after furnishing details in columns 1 to 3 i.e., Serial number, Name of village & location code number and area of the village against column no. 4 to 18. The land use data for such villages are shown in col. 19 to 23.

The Village Directory format has 23 columns and the details given under each column are for the village are as follows:-

Columns 1 : Serial Number

Self explanatory. All the villages within the Mandal Parishad are presented serially in the ascending order of their location code number.

Columns 2 : Name and Location Code Number of village

The name and location code number of the village are shown against these columns. This also includes the forest and uninhabited villages.

Column 3 : Area of the village

The area of the villages in hectares are given. Wherever the area figures was not furnished by the concerned department the column is left blank.

Column 4 : Total population

The total population of the village as per 2001 Census is given against this column.

Column 5 : Number of households

The number of households as per 2001 Census is given in this column.

Amenities :

In column 6 to 23, availability in respect of different amenities such as education, medical, drinking water, post, telegraph, banks, credit societies, communication, power, approach road etc. in each village has been depicted with appropriate codes against the column concerned. Wherever the amenities are not available in the village, a dash (-) is shown in the column and next to it in brackets the distance in broad ranges viz.< 5 kms., 5-10 kms. and 10+ kms of the nearest place where the facility is available is given. Column wise details are given below

Column 6 : Educational

Classes upto class V included in Primary School. This will include nursery school, kindergarten school. Pre-basic school, pre-primary school, junior basic school upto class V.

Classes from VI to VII are included in the middle school.

Classes from VIII and X included in High secondary school. Classes XI and XII are included in senior secondary school.

In case of composite schools like middle school with primary school or secondary school with middle school, these are also included in the number of primary and middle schools, respectively.

Accordingly any of the following types of institutions if exists within the village is shown as per codes given below :

(i)	Primary School	P
(ii)	Middle School	M
(iii)	Secondary School	S
(iv)	Senior Secondary School	PUC/JC
(v)	College	C
(vi)	Industrial School	I
(vii)	Training School	Tr
(viii)	Adult literacy class/centre	AC
(ix)	Others (specify) e.g. Sanskrit Pathshala, Senior basic school, Navodaya Vidyalaya, Makhtab, etc.	O

More than one institution of a type in the village is indicated by the number within brackets against the abbreviation, e.g. P(3), M(4), etc.

Column 7 : Medical

Availability of medical facility within the village is indicated by following codes :

(i)	Allopathic Hospital	H
	Ayurvedic Hospital	HA
	Unani Hospital	HU
	Homeopathic Hospital	H Hom
(ii)	Allopathic Dispensary	D
	Ayurvedic Dispensary	DA
	Unani Dispensary	DU
	Homeopathic Dispensary	D Hom
(iii)	Maternity & Child Welfare	MCW
(iv)	Maternity Home	MH
(v)	Child Welfare Centre	CWC
(vi)	Health Centre	HC
(vii)	Primary Health Centre	PHC
(viii)	Primary Health Sub-Centre	PHS
(ix)	Family Welfare Centre	FWC
(x)	T.B. Clinic	TB
(xi)	Nursing Home	NH
(xii)	Registered Private Medical Practitioner	RMP
(xiii)	Subsidised Medical Practitioner	SMP
(xiv)	Community Health Worker	CHW
(xv)	Others	O

More than one institution of a type in the village is indicated by the number within brackets against the abbreviations, e.g. H(3), D(4), etc.

Column 8 : Drinking Water

The type of the drinking water supply sources available within the village are indicated by codes as follows :

(i)	Tap Water	T
(ii)	Well Water	W
(iii)	Tank Water	TK
(iv)	Tubewell Water	TW
(v)	Handpump	HP
(vi)	River Water	R
(vii)	Canal	C
(viii)	Lake	L
(ix)	Spring	S
(x)	Others	O
(xi)	Summer Source	SS-

Column 9 : Post, Telegraph and Telephone

It is indicated by codes as shown below whether within the village exists the following amenities:

(i)	Post Office	PO
(ii)	Telegraph Office	TO
(iii)	Post & Telegraph Office	PTO
(iv)	Telephone Connection	PH

Column 10: Commercial and Co-operative Banks

If the village is served by any banking service, commercial bank, co-operative bank etc. the same is indicated in codes mentioned below along with the number of banks in brackets. If not available the distance of nearest place where the facility exist is given:

(i)	Commercial Bank	CM
(ii)	Co-operative Bank	CP

Column 11: Credit Societies

If the village enjoys the services of Credit Societies i.e. Agricultural Credit Societies, Non Agricultural Credit Society or Other Credit Societies, the same is indicated in codes mentioned below along with the number of such societies in brackets. In case the facility is not available within the village the distance of the nearest place where such facility exist is given:

(i)	Agricultural Credit Society	ACS
(ii)	Non- Agricultural Credit Society	NCS
(iii)	Other Credit Society	OCS

Column 12 : Recreational and cultural facilities

If facilities such as Cinema/Video hall, Sports Club, Stadium/Auditorium is available in the village. The same is recorded in these columns. If not available the particulars of the nearest place with the facility is recorded. The information is indicated in codes mentioned below along with the number of such facilities in brackets:

(i)	Cinema / Video Hall	CV
(ii)	Sports Club	SP
(iii)	Stadium / Auditorium	ST

Column 13 : Communications

If the village is served by any mode of public / private transport like Bus, Railway station or Navigable water ways they are to be mentioned as follows:

(i)	Bus Service	BS
(ii)	Railway Station	RS
(iii)	Navigable Waterway	NW

Column 14 : Approach to village

Approach to village refers to the state of road leading to village. The approach to the village is indicated in following codes :

(i)	Paved Road	PR
(ii)	Mud road	MR
(iii)	Foot path	FP
(iv)	Navigable River	NR
(v)	Navigable Canal	NC
(vi)	Navigable waterways other than River, Canal	NW

Column 15 : Nearest Town and distance

The distance is given in kilometres in brackets against the name of the town nearest to the village.

Column 16 : Power supply

Availability of Power Supply in the village, whatever may be the form of its use is given by using following codes :

(i)	Electricity for domestic use	ED
(ii)	Electricity for agricultural use	EAG
(iii)	Electricity for other purposes	EO
(iv)	Electricity for all purposes	EA

Column 17 : News Paper / Magazine

If village receives any News Paper/Magazines the same is noted in this column using following codes

(i)	News Paper	N
(ii)	Magazine	M

Column 18 : Most important commodities manufactured

The name of three most important commodities manufactured in the village is recorded against this column.

Column 19 to 23 : Land use i.e. area under different types of land use

Land use data maintained by the State Govts. are furnished against these columns. The data concerning area under Forest, Irrigated land (by source), Un-irrigated land, Culturable waste and Area not available for cultivation in the village are shown against these columns. The area figures are given in hectare(s) up to one decimal. Dash '-' is recorded wherever the information is not made available by the concerned department. The codes used for different types of irrigation facilities available in the village are indicated below:

(i)	Government Canal	GC
(ii)	Private Canal	PC
(iii)	Well (without electricity)	W
(iv)	Well (with electricity)	WE
(v)	Tubewell(without electricity)	TW
(vi)	Tubewell(with electricity)	TWE
(vii)	Tank	TK
(viii)	River	R
(ix)	Lake	L
(x)	Waterfall	WF
(xi)	Others	O
(xii)	Total	T

(b) List of Villages merged in towns and outgrowths at 2001 Census

(i) List of Revenue Villages that have been Fully merged in Towns and Outgrowths at 2001 Census

Serial number	Name of mandal	Name of village	Name of the Municipality/ Nagar Panchayat/ Census Town in which the village is merged
1	2	3	4
1	Rayadurg	Rayadurg	Rayadurg Municipality
2	Guntakal	Thimmanacherla	Guntakal Municipality
3	Gooty	Chetnapalle	Gooty Census Town
4	Uravakonda	Uravakonda	Uravakonda Census Town
5	Anantapur	Anantapur	Anantapur Municipality
		Narayanapuram	Anantapur Municipality
6	Dharmavaram	Dharmavaram	Dharmavaram Municipality
7	Kadiri	Kutagulla	Kadiri Municipality
		Saidapuram	Kadiri Municipality
8	Hindupur	Kotnur	Hindupur Municipality
		Hindupur	Hindupur Municipality

(ii) List of Revenue Villages that have been Partly merged in Towns and Outgrowths at 2001 Census

Serial number	Name of mandal	Name of village	Name of the Municipality/ Nagar Panchayat/ Census Town in which the village is merged
1	2	3	4
1	Guntakal	Guntakal	Guntakal Municipality
2	Gooty	Gooty	Gooty Census Town
3	Tadpatri	Nandalapadu	Tadpatri Municipality
		Tadpatri	Tadpatri Municipality
4	Kalyandurg	Kalyandurg	Kalyandurg Census Town
5	Anantapur	Kakkalapalle (R)	Anantapur Municipality
		Anantapur (R)	Anantapur Municipality
		Papampeta (R)	Anantapur Municipality
		Papampeta (R)	Papampeta Census Town
6	Dharmavaram	Kunuthur	Dharmavaram Municipality
7	Kadiri	Kadiri (R)	Kadiri Municipality
8	Hindupur	Sreekanthapuram (R)	Hindupur Municipality

Section II - Town Directory

Note explaining the abbreviations used in the town directory

Town Directory statements (I to VII)

Statement I : Status and Growth History

Column (2) : Class, name and civic administration status of town :

Class has been introduced to facilitate analysis of town directory data at the state and all India levels. It is presented according to 2001 Census Population of the town as follows :

Population	Class
100,000 and above	I
50,000 - 99,999	II
20,000 - 49,999	III
10,000 - 19,999	IV
5,000 - 9,999	V
Below 5,000	VI

Town with a population of one hundred thousand (1,00,000)and above is treated as a city.

The civic administration status of the towns is indicated within bracket against the name of the town. The following abbreviations are used to denote civic status of town.

(I)	Municipal Corporation	M. Corp.
(II)	Municipal Committee	MC
(III)	Municipal Council	M Cl
(IV)	City Municipal Council	CMC
(V)	Town Municipal Council	TMC
(VI)	Municipal Board	MB
(VII)	Municipality	M
(VIII)	Cantonment Board/Cantonment	CB
(IX)	Notified Area	NA
(X)	Notified Town	NT
(XI)	Notified Area Committee/ Notified Area Council	NAC
(XII)	Notified Town Area	NTA
(XIII)	Industrial Notified Area	INA
(XIV)	Industrial Township	ITS
(XV)	Township	TS
(XVI)	Town Panchayat	TP
(XVII)	Nagar Panchayat	NP
(XVIII)	Town Committee/ Town Area Committee	TC
(XIX)	Small Town Committee	ST
(XX)	Estate office	EO
(XXI)	Gram Panchayat	GP
(XXII)	Census Town	CT

Others columns need no comments.

Statement II - Physical Aspects and Location of towns, 1999

Column 3 to 5 : Physical Aspects

In these columns the Rainfall and Maximum & Minimum Temperature of the town is recorded.

Column 6, 7 and 8 :

Name of the State headquarters, District headquarters and Sub-Divisional headquarters with distance from the referent town in kilometres, is to be recorded respectively. If the names mentioned in these columns are the same as the referent town itself, the distance is recorded as (0) zero.

Column 9& 10 :

Name of the nearest city with one lakh and more and five lakhs and more population are recorded.

Column 11, 12 and 13 :

If referent town enjoys the facility of railway station, bus route facility or navigable river/canal. Its name is to be mentioned. If not available, then the name of nearest place with distance, where such

facility exists is to be mentioned.

Statement III : Municipal Finance 1998 - 1999

Item-wise amount of receipt and expenditure in thousand rupees, relating to municipal finance of the town for the year 1998-99 is to be recorded.

Statement IV : Civic and Other amenities, 1999

Column (1 to 5) : Self explanatory.

Column (6) : Road length (in kms.)

Information about kutcha / pucca road is to be recorded separately for the roads within the limits of the referent town.

(i)	Pucca Road	PR
(ii)	Kutcha Road	KR

Column (7) : System of Sewerage

Generally, by sewerage system is implied the network of mains and branches of underground conduits for the conveyance of sewerage to the point of disposal. Sewers that carry only household and industrial wastes are called separate sewers, those that carry storm water from roofs, streets and other surface are known as storm water drains, while those carrying both sewage and storm water are called combined sewers.

The codes used for different types of drainage system are as follows :

(i)	Sewer	S
(ii)	Open Surface Drains	OSD
(iii)	Box Surface Drains	BSD
(iv)	Sylk Drains	SD
(v)	Cesspool method	CP
(vi)	Pit System	Pt
(vii)	Others	O

Column 8 to 11 : Number of latrines

Number of various types of latrines both Public and Private are given in these columns.

Column 12 : Method of disposal of night soil

The various prevalent method of disposal of night soil are given below with codes :

Head Loads	HL
Basket	B
Wheel Barrows	WB
Septic Tank	ST
Pit System	Pt
Sewerage	S
Others	O

Column 13 and 14 : Water supply

Source and capacity of storage system. The following codes are used in these columns:

Column 13:

(i)	Tap water	T
(ii)	Tube-well water	TW
(iii)	Tank Water	TK
(iv)	Well water	W

Column 14:

(v)	Over Head Tank	OHT
(vi)	Service Reservoir	SR
(vii)	River Infiltration Gallery	RIG
(viii)	Bore Well Pumping System	BWP
(ix)	Pressure Tank	PT

The information on major source of water supply are given in column 13 and the storage capacity against each in kilo-litres (in bracket) are presented in column 14.

Column 15 : Fire Fighting Service

In case the fire fighting service is available in the referent town 'yes' is recorded. If the facility is not available within the town. The name of the nearest place having this facility with its distance from the referent town has been recorded.

Column 16 to 20 : Electrification (Number of connections)

Different types of electric connections have been shown in these columns, i.e. Domestic, Industrial, Commercial, Road lighting (points) & others.

Statement V : Medical, Educational, Recre ational and Cultural Facilities, 1999

Column 1 to 3 : Self explanatory.

Column 4 & 5 :

The data covers all such medical institutions

run by or aided by Government/Semi Government/ Local bodies and Charitable institutions or Social agencies like the Missionaries. Where the family planning centres are attached to hospitals or maternity and child welfare centres or Primary Health Centres, they may be treated as independent units and counted separately using following codes :

(i)	Hospital	H
(ii)	Dispensary	D
(iii)	Health Centre	HC
(iv)	Family Welfare Centre	FWC
(v)	T.B. Clinic	TB
(vi)	Nursing Home	NH
(vii)	Others	O

In case of more than one institutions of any type, it is indicated within brackets the number of such institution (s) e.g. D(3), NH(8), etc. The institutions have further been distinguished by providing additional codes within the bracket as given below :

Ayurvedic	A
Unani	U
Homoeopathic	Hom

Column 6 to 9 :

The codes used for these columns are as follows:

(i)	Arts only	A
(ii)	Science only	S
(iii)	Commerce only	C
(iv)	Arts & Science only	AS
(v)	Arts & Commerce only	AC
(vi)	Combined for all categories-Arts, Science and Commerce	ASC
(vii)	Law	L
(viii)	University	U
(ix)	Others	O

Column 10 : Recognized shorthand, typewriting and vocational training institutes

"Recognised" should mean recognised by some statutory authority, like education department, commerce department, labour department etc. of the Government or semi Government or autonomous bodies, public sector undertakings etc.

The following codes are used :

(i)	Vocational Training Institute	VT
(ii)	Shorthand	SH
(iii)	Typewriting	Type
(iv)	Shorthand & Typewriting	SH Type
(v)	Others	O

The vocational institutions like - Applied Art/Painting college, Pharmacy college, B. Ed. College, Teacher's Training Institute, Music / Dance School, Nursing School etc. are covered under 'Others'.

Column 11 to 14:

Higher Secondary/Intermediate/Senior Secondary/ PUC/Junior College level, Secondary/Matriculation, Middle Schools/ Junior Secondary and Primary Schools.

School up to class V are treated as Primary or elementary schools. These include Nursery schools, Kindergarten schools, Pre-Primary schools, Junior Basic schools upto class V and Primary schools upto class IV.

Schools upto VIII are considered as Middle school or Junior Secondary.

Schools upto class X are considered as Matriculation or Secondary schools.

Schools upto XI or XII classes are considered as Higher Secondary / Intermediate / Pre University / Junior College etc. This would cover 10+2 classes whether held in schools or college.

If there are composite schools like middle schools with primary classes or Secondary schools with Middle classes, these are also included in the number of Primary and Middle schools, respectively. For example, if in a town, there are two Primary Schools and one Middle school with Primary classes, the number of Primary schools in the town is given as three and that of Middle schools as one though there are only three educational institutions.

If there are more institutions of a type in the town, the number is indicated within bracket along with the abbreviation, e.g. P(4), M(3).

Column 15 : Adult literacy class/centres

This column has been introduced keeping in view the Minimum Needs Programme of the Planning Commission. There are number of Adult Education Centres which are included in these columns.

If an educational facility is not available in the town, the name of the nearest place and its distance in kilometres from the town where the facility is available is mentioned.

Column 16 : Working Women's hostels with number of seats

The number of working women's hostel if available in the referent town is mentioned with number of seats. If the facility is not available in the town the name of nearest place with distance where the facility is available is recorded.

Column 17 to 19 : Recreational and Cultural Facilities

Stadium, Cinema, Auditorium/Drama/Community Hall are covered under recreational & cultural facilities. The particulars of permanent recreational facilities are considered for these columns.

Column 20 : Public Libraries, Reading Rooms

Number of public libraries and reading rooms available in the referent town are recorded in codes as follows :

(i) Public Library	PL
(ii) Reading room	RR

Statement VI : Trade, Commerce, Industry and Banking, 1999

Column 3 to 8 :

Name of three most important commodities exported and names of three most important commodities manufactured in the town are recorded.

Column 9 : Number of Banks

Number of Banks available in the referent town both Commercial and Co-operative banks are recorded against this column.

Column 10 & 11 :

Number of Agricultural Credit Societies and Non Agricultural Credit Societies

The total number of Agricultural Credit Societies and Non Agricultural Credit Societies in the referent town are recorded against these columns.

Statement VII : Civic and other Amenities in Slums, 1999

This is the statement on civic and other amenities in all slums whether notified or not and for all towns having statutory bodies, like municipality, Municipal Corporation, Town area committee etc.

APPENDIX TO TOWN DIRECTORY
TOWNS SHOWING THEIR OUTGROWTHS WITH POPULATION

Serial number	Name of the town with location code	Population of core town	Name of Outgrowth	Population of Outgrowth
1	2	3	4	5
1	Anantapur (M) VII	218,808	(i) Narayanapuram	8,568
	42207000		(ii) Kakkalapalle (R) (Part)	4,945
			(iii) Anantapur (R)	10,822

Brief note on Primary Census Abstract

The first census of the third millennium and twenty first century the Census of India, 2001 was the 14th continuous and uninterrupted Indian census since 1872. Thus, 2001 Census will provide data on population and its characteristics marking transition from one century and millennium to another.

The gigantic operation of Population Enumeration (considered by many to be the single largest and complex peace time administrative exercise in the world) was made possible due to the door to door universal canvassing of the Household Schedule by about 2 million enumerators and supervisors covering 593 districts, 5,463 sub-districts, 5,161 towns and 638,588 villages. The comprehensive Household Schedule which replaced the individual slip had three parts and two sides A and B. Part I contained the Location Particulars; Part II related to the Individual Particulars and Part III contained questions for Household engaged in Cultivation/Plantation. Annexure-II the part II of the Household Schedule had 39 columns and 23 questions all of which were universally canvassed and no sampling was resorted to during enumeration.

Data Processing

A quantum leap was made in the technology front while processing the Census 2001 data both for Houselisting and Population Enumeration. The Census schedules for both the phases were scanned through high speed scanners in fifteen data centers across the country and hand-written data from the schedules were converted into digitized form through Intelligent Character Reading (ICR) software for creation of ASCII records for further processing. The designing and formatting of the Household Schedule had to be done very carefully using specialized software so as to ensure uniformity, which was an essential pre-requisite for scanning. The selection of appropriate state-of-art technology in data processing has made it possible to produce all the Houselisting as well as Population Enumeration tables on full count basis for the first time in the history of Census. For Census 2001, about 202 million schedules consisting of about 1,028 million records were scanned and processed within a span of only 10 months starting October, 2002.

Task Force on Quality Assurance

After the data is processed, it is expedient on the part of the data producing agency to satisfy itself about its quality before putting the same in public domain. This has to be done mainly through the process of internal consistency, comparison with similar data in the past and also through validation with likewise data if available, from external sources. Quite often the local knowledge and perception has to be brought into play to understand both the existing and the new emerging trends of population distribution and characteristics. The other very important aspect of the data quality is to ensure complete coverage of all geographical areas especially for the population enumeration phase where the data is disseminated right up to the village level in the rural areas and the ward level in the urban areas. Thus ensuring the complete coverage and correct geographical linkage of each enumeration block was one of the major planks of the quality control, specially for small area population statistics.

A very comprehensive check and edit mechanism was put in place to objectively examine the preliminary Census 2001 Population Enumeration results and finally clear them for use. The responsibility of the final clearance of data was with the Task Force on Quality Assurance (TFQA), headed by the Registrar General and Census Commissioner, India. The other members of the TFQA were the Heads and senior officers of the Census Division, Data Processing Division, Map Division, Demography Division and Social Studies Division. The Directors of Census Operations were co-opted as members whenever the TFQA discussed the data for their States/Union territories. The Directors and their senior officers were required to make detailed presentations of data for their own state both in respect to the quality and the coverage and only after the full possible cleared.

There has been a major departure in Census 2001 from the past in respect of the procedure followed for finalization of the Scheduled Castes and the Scheduled Tribes population. In the earlier censuses, the total Scheduled Castes and Scheduled Tribes populations were finalized at the time of the manual compilation of the Primary Census Abstracts (PCA) at the Regional Tabulation Offices which were specially set up for this purpose. The individual Scheduled Castes and the Scheduled Tribes population for each state was finalized much later based on manual coding done by the coders. In 2001 Census, each individual Scheduled Caste and the Scheduled Tribe have been coded directly on the computers by the Data Entry Operators through a process known as Computer Assisted Coding (CAC) and taken up along with the processing of PCA data. The CAC process involves pulling down, from the relevant dictionary of the Scheduled Castes and the Scheduled Tribes, on the computer screen and coding from the dictionary by referring to the image of the specific individual entry in the Household Schedule appearing on the screen. The CAC of the response on Religion wherever required, was also undertaken along with the processing of PCA. This is because the Scheduled Castes status had to be determined in relation to the religion of the individual. Two Special Task Forces, one on Religion and the other on Scheduled Castes/ Scheduled Tribes were constituted for scrutiny and appropriate classification of these responses.

The main task of the Special Task Force on Religion was to appropriately merge or group the new responses encountered and code it into the appropriate religious community based on available literature and local knowledge. The Special Task Force on Scheduled Castes and Scheduled Tribes examined the different Scheduled Castes and Scheduled Tribes entries encoun-tered and classified these into appropriate category of the Scheduled Castes or the Scheduled Tribes principally based on the Presidential Notification and the available literature. Thus a very systematic and scientific mechanism was operationalised to firm up the individual religion and the individual Scheduled Castes/Tribes returns. The Scheduled Castes and the Scheduled Tribes population in 2001 Census, is thus being finalized by aggregating the population data for individual Scheduled Castes and the Scheduled Tribes at appropriate geographical levels.

The entire work relating to the data validation and scrutiny was completed by all the States/Union Territories under the overall supervision and monitoring of the Census Division of the Office of the Registrar General, India with active cooperation and support of the Social Studies Division, Data Processing Division, Data Dissemination Division and Map Division.

Primary Census Abstract

The Primary Census Abstract which is yet another important publication of 2001 census gives basic information on Area, Total Households, Total population, Scheduled Castes, Scheduled Tribes population, Population in the age group 0-6, Literates, Main workers and Marginal workers classified by the four broad industrial categories, namely, (i) Cultivators, (ii) Agricultural labourers, (iii) Household Industry Workers, and (iv) Other workers and also Non-workers. The characteristics of the Total Population includes Scheduled Castes, Scheduled Tribes, Institutional and Houseless population and are presented by sex and rural-urban residence. This data is presented at different levels, namely, India, States/Union territories, Districts and Cities, Urban Agglomerations (Population 1,00,000 and above) in three different tables. In addition, the Appendix of said publication provides Houseless and Institutional Households and their population by residence and sex for 2001 for India, State and Union territory.

Apart from the India and State/Union Territory volumes for Primary Census Abstract, the District Census Handbook contains District Primary Census Abstract, Appendix to District Primary Census Abstract, Primary Census Abstract for Scheduled Castes, Primary Census Abstract for Scheduled Tribes, Village Primary Census Abstract and Urban Primary Census Abstract of the concerned district in the state.

It was for the first time at the 1981 Census that the Primary Census Abstract (PCA) was brought out for the Scheduled Castes and the Scheduled Tribes separately on the pattern of General Primary Census Abstract. This practice was continued in 1991 also. In the 1961 and 1971 Censuses, such data were made available in Table C-VIII-Social and Cultural table and to some extent in the series 'Special Tables for Scheduled Castes/Scheduled Tribes'.

The format of Primary Census Abstract has been restructured slightly in the 2001 Census as compared to that of 1991 Census. The nine-fold industrial classification of main workers given in the Primary Census Abstract of 1991 Census has been discontinued and its place, four-fold industrial classification of both 'main workers' and 'marginal workers' are included. In 1981 census only main workers were presented into four categories. One of the novel features of the primary census abstract of 1991 census was the presentation of data of the population of age group 0-6 is continued in 2001 Census also. This will help the data users in better analysis and understanding of this literacy data.

Level of presentation in District Census Handbooks:

The Primary Census Abstract data in different PCAs are presented at different levels. The level of presentation of Primary Census Abstracts are as under:

Name of the Primary Census Abstract	Level of presentation
1. Disstrict Primary Census Abstract	District/Mandal Parishad/UA/City/Town
2. Primary Census Abstract for Scheduled Castes	District/Mandal Parishad/Town
3. Primary Census Abstract for Scheduled Tribes	District/Mandal Parishad/Town
4. Village Primary Census Abstract	Mandal Parishad/Village wise
5. Urban Primary Census Abstract	Town/Ward level

The PCA Data for villages was presented Mandal Parishad wise for the first time in 1991 Census. This practice is continued in 2001 Census also. The data for each Mandal Parishad is presented both for rural and urban areas separately. All the villages within the Mandal Parishad constitute the rural portion and the Census Towns and Outgrowths are shown under the urban portion of the Mandal Parishad. In case a Mandal Parishad is spread over two or more districts, than portion which falls within the district is presented, the data pertaining to remaining portion of the Mandal Parishad is presented in the concerned District Census Handbook. The data in the Urban Primary Census Abstract for each town as well as for town with outgrowths in the district are presented. The data for all the wards and the outgrowths of the town(s) are also presented separately below the concerned town(s).

The District Primary Census Abstract is presented in 59 columns. The Primary Census Abstract for Scheduled Castes and Primary Census Abstract for Scheduled Tribes are presented in 52 columns. The Village Primary Census Abstract and Urban Primary Census Abstract are presented in 58 columns.

The concepts and definitions used in the column heading are explained under the sub heading 'Census Concepts' in the Analytical Note. The term 'Total Population' includes the Scheduled Castes, the Scheduled Tribes, the Institutional and the Houseless populations. The explanation regarding area figures presented at various level in the Primary Census Abstracts are as follows:

Area Figures

The area figures supplied by local revenue authorities of the district in respect of mandals, Police Stations and by the local bodies in respect of towns are given in square kilometres. The area figures of the villages supplied by the Mandal Revenue Officer in acres have been converted and shown in hectares. The area figures of the Mandal Parishad is the total of the village areas coming under each Mandal Parishad. The area figures for the district are the same as adopted by the Surveyor General of India to maintain uniformity at the national level. The total area figures of all the Mandals/Mandal Parishads within the district may not tally with area figures of the district because former represents land use area only. Similarly, the total of all the villages area may not tally with the entire rural of Police station/Mandal. The difference may be due to the fact that while the area covered by hills, forests and rivers etc, have been accounted in the Mandals and Police station level the same may not be covered under the area of the villages. Apart from this it may also differ due to varying methods of computation adopted at different levels.

An appendix to District Primary Census Abstract has also been furnished showing urban enumeration block-wise particulars on Total Population, the Scheduled Castes Population and the Scheduled Tribes Population for each town.

Annexure - I
Fertility and Mortality, 1991 Census

Crude birth rate is the most commonly used measures of fertility. To know the fertility rates, certain information was collected from all ever married women during 1991 Census such as (i) Age at marriage (ii) Number of children ever born alive. For currently married women, in addition to above data, if any child born at preceding one year to the Census has also collected.

Definition of fertility measures is given in the chapter on "Non-Census concepts".

Fertility Levels: This is dependent on fertility pattern by age, which is indicated by the age specific fertility rates. General fertility rate, total fertility rate and gross reproduction rate are other indicators of fertility. Fertility measures were worked out on F-series tables of 1991 Census of Andhra Pradesh. An analysis of these measures is given in the subsequent paragraphs.

Age Specific Fertility Rate:

The following statement shows the age specific fertility rates for Total, Rural and Urban areas along with the corresponding fertility rates of State during 1991 Census.

Annexure –I (a)
Age Specific Fertility Rates/Levels, 1991

Age Group	Anantapur District			Andhra Pradesh State		
	Total	Rural	Urban	Total	Rural	Urban
1	2	3	4	5	6	7
15-19	0.080	0.091	0.051	0.085	0.092	0.066

Source : *F: Series tables of 1991 census and Andhrapradesh District profile 1991.*

It may be seen from the Annexure I(a) that the age specific Fertility rate is higher in the age group of 20-24 and also in rural areas of the district as well as in the state. Among 20-24, 25-29, 30-34, 35-39, 40-44 age groups, the district rates are more than that of the state rates both in rural and urban except the age group 15-19 and 45-49, but the urban it is more than that of the state in the age group of 45-49.

Age Specific Marital Fertility Rate:

It can be seen from the below Annexure I(b), the Age Specific Marital Fertility Rates of the district are high in all age groups except in urban areas of 15-19 and 20-24. In the age group 45-49 the total and rural areas, the fertility rates are low and in urban it is equal when compared with that of the state figures.

Annexure –I (b)
Age Specific Marital Fertility Rates/Levels, 1991

Source: ***1. F-series tables of 1991 Census***
2 Andhra Pradesh district profile,1991 Census
3. R.G's occasional paper of 1997

In Anantapur District all the rates of fertility measures are higher than that of the State average including mean age at marriage.

Annexure III
Percentage distribution of Migrants by place of birth/place of last residence, 1991 Census and 2001 Census

Migration:

During 1991 Census, the migrants by place of birth were broadly classified as (a) Migrants born within the State of Enumeration, (b) Migrants born in other states of India and (c) Migrants born in other countries. The migrants born within the state are divided again as (i) Migrants born elsewhere in the district of Enumeration and (ii) Migrants born in other districts of state. Migrants by place of birth have returned 194.64 lakhs in Andhra Pradesh state comprising 62.53 lakhs of males and 132.12 lakhs of females. It has been constituted 29.27% of the total population and 18.54% of male and 40.30% of female population. Both in Anantapur and Andhra Pradesh, the female migrants are more in number than males. Migrant males and females are forming more percentage in inter district, than intra district.

The following statement shows the distribution of migrants by place of birth with sex break-up in the district as well as in the State together with percentages.

Annexure – III(a)

Distribution of Migrants by Place of Birth and Percentage, 1991 Census

Place of Birth	Anantapur District			Andhra Pradesh State		
	Persons	Males	Females	Persons	Males	Females
1	2	3	4	5	6	7
(a) Migrants born within the state of enumeration	726,693 (87.17)	218,095 (90.08)	508,598 (85.97)	18,406,950 (94.6)	5,847,797 (93.5)	12,559,153 (95.1)
(i) Migrants born elsewhere in the District of enumeration	619,873 (74.35)	179,815 (74.27)	440,058 (74.39)	13,816,569 (71.0)	4,038,900 (64.6)	9,777,669 (74.0)
(ii)Migrants born in other Districts of State	106,,820 (12.82)	38,280 (15.81)	68,540 (11.58)	4,590,381 (23.6)	1,808,897 (28.9)	2,781,484 (21.1)
(b) Migrants born in other States of India	106,852 (12.82)	23,924 (9.88)	82,928 (14.02)	1,026,863 (5.3)	388,924 (6.2)	637,939 (4.8)
(c) Migrants born in other countries	130 (0.01)	90 (0.04)	40 (0.01)	30,610 (0.2)	16,120 (0.3)	14,490 (0.1)
Total Migrants	833,675 (100.0)	242,109 (100.0)	591,566 (100.0)	19,464,423 (100.0)	6,252,841 (100.0)	13,211,582 (100.0)

Source: *Part –VA and VB – D Series, 1991 (Vol-I)*

It is seen from the above table that, among the three classifications of migrants, the migrants born within the state of enumeration has occupied first place both in Anantapur and Andhra Pradesh with 87.17% and 94.56% respectively.

The following statement shows the Rural and Urban Composition of internal migrants by place of birth at 1991 Census for Andhra Pradesh and Anantapur district.

Inset table to Annexure III(a)
Distribution of Migrants by Place of Birth and Percentage, 2001 Census

Place of Birth	Anantapur District			Andhra Pradesh State

Source: *Migration Tables (D Series) - 2001*

The migrants by place of birth were returned 194.6 and 228.3 lakhs in Andhra Pradesh State as per the 1991 and 2001 Censuses respectively. It shows a growth rate of 17.3% total migrants over 1991 Census with a breakup of 21.8% males and 15.2% females. In Anantapur district the migrants are 833,675 persons as per 1991 Census whereas 869,213 persons are in 2001 Census with a growth rate of 4.3% over 1991 census. In 2001 census, the male migrantion is more than female migration except in the case of migrants born in the other states of India due to marriage alliances.

Rural and Urban Components of Migration :

The flow of migrants by place of birth have classified into four streams such as (i) Rural to Rural (ii) Rural to Urban (iii) Urban to Rural and (iv) Urban to Urban. The data on the basis of these four streams in case of migrants is classified by place of birth. It presents data only in relation to internal migrants.

The above statement gives the information on movement of migration in Andhra Pradesh and Anantapur district through the four streams within the state and from other states of India. Of the total 184.07 lakhs intra State migrants in Andhra Pradesh have been moved from Rural to Rural with 63.92%followed by Rural to Urban with 20.95%, Urban to Urban with 9.34% and Urban to Rural with 5.72%. In case of migrants by place of birth from other states to Andhra Pradesh, they have been accounted for 10.27 lakhs migrants were from rural to rural with 33.94%, Rural to Urban 21.77%, Urban to Rural with 10.73% and Urban to Urban with 33.39%. The higher migration by place of birth has found in rural to rural in the state.

In Anantapur district Intra-state migrants by place of birth consists of 7.27 lakhs and 1.07 lkahs were from various states of India. The flow of Intra-state in the district has Rural to Rural, Rural to Urban, Urban to Rural and Urban to Urban with 64.82%, 5.85%, 20.4% and 8.92% respectively. While the migrants from other states of India have constituted with 58.21% Rural to Rural, 10.95% Rural to Urban, 13.06% Urban to Rural and 17.75% Urban to Urban. The highest percentage of migrants by place of birth in the district is noticed in Rural to Rural.

Inset table to Annexure III(b)
Rural and Urban composition of internal Migrants by place of birth, 2001 Census

Place of Birth	Place of Enumeration					
	Andhra Pradesh			Anantapur District		
	Total	Rural	Urban	Total	Rural	Urban
1	2	3	4	5	6	7
Total Internal Migrants						
1. Within the State	21,782,141	15,062,814	6,719,327	769,809	582,800	187,009
	(100)	(69.2)	(30.8)	(100.0)	(75.7)	(24.3)

Source: *Migration Tables (D Series) - 2001*

The above annexures show the percentage distribution of migrants by place of birth as recorded in both the Censuses of 1991 and 2001 in Andhra Pradesh state. It is observed that 3.0% increase in the migration who were born elsewhere in the district of enumeration with a sex breakup of 3.0% each, whereas in respect of the migrants who were born in other districts of the state, in other states of the country and in other countries are recorded with a difference of -2.2%, -0.8% and -0.1% respectively between two censuses of 1991 and 2001.

In respect of Anantapur district the difference between the two Censuses can be observed with the 4% with a sex break up of 4.5% males and 3.9% females in the persons born elsewhere in the district of the enumeration. Regarding the migrants from other states in India only a minor variation is recorded with (-)1.4%.

Among the migrants that are born in Abroad negligible change is noticed in the percentage variation between 1991 and 2001 censuses.

Annexure IV
Brief account of Main religions in the district/ mandal as per 1991 Census and 2001 Census

Religion :

The data on religion has been collected and presented for 6 major religions viz. Hindus, Muslims, Christians, Sikhs, Jains and Buddhists. In respect of minor religions, they have been classified and shown under the category "Others".

During 1991 Census the religion data was collected through question No.8 of the individual slips and recorded the religion as stated by the individual under six major religions. The minor religions other than these six religions, as reported by the respondent, recorded and classified under the category “Others”.

Anantapur district has returned 3,183,814 population in 1991 census comprising 2,809,210 Hindus, 356,359 Muslims, 17,211 Christians, 890 Jains and 35 Sikhs. Hindus, Muslims and Christians were occupied 1st, 2nd and 3rd places in the state as well as in the district. The percentage of 3 religions in the district was 88, 11 and 0.5% respectively. Similar trend is noticed in the Mandal level. The other religions percentage is negligible in the district.

Source: Religion Data, Andhra Pradesh - 2001

The above table gives the details of Main Religions in the district for 2001 census whereas the previous Annexure shows the details of main religion in 1991 census. During 2001 census the religion data was collected through question number 7 of household schedule. Out of the total population of the district Hindus have returned 88.6% during 2001 census as against 88.2% in 1991 census. In respect of Muslims they have returned 10.7% in 2001 whereas their percentage during 1991 was 11.2. The next main religion in the district is Christians who returned 0.6% during 2001 census as against 2.2% in 1991 census. The main reason for decrease in the decadal growth among Christians can be attributed to get enrolled under Scheduled Castes to get benefits from the Government. In respect of remaining main religions viz. Sikhs, Buddhists, Jains and others their strength in the district is negligible.

Annexure-IV(b)

Percentage distribution of population by major religions in India, Andhra Pradesh and Anantapur district and its growth rate during 1981-1991

India-State-District differentials :

The comparative data on religion among India, Andhra Pradesh and Anantapur district reveals that concentration of Hindus was higher followed by Muslims and Christians as per 1991 Census findings. Hindus were returned on the higher side in the State with nearly seven percent more than the national average, while in Anantapur district they were more over six percent than national and nearly one percent less than the State. They constituted 82.4%, 89.14% and 88.2% in India, Andhra Pradesh and Anantapur district respectively. Muslims recorded as 11.7% in India, 8.91% in Andhra Pradesh and 11.2% in the district. It shows their percentage in the district is more than the percentage of State and less than India. The percentage of Muslims in the State is less than the Country, while the percentage of Christians in the country is more than the State i.e., 2.3% in India 1.83% in the State and 0.54% in the district. Buddhists, Sikhs and Jains are negligible in the State as well as in the district.

Religion-wise growth in the State during the decade 1981-1991 shows that Hindus recorded higher growth rate than India i.e. 24.74% as against 22.3% respectively. The growth rate of Hindus in the district is higher than the State and Country i.e. 25.24%. The growth rate among the Muslims is less than that of State and Country i.e. 24.11%. The Christians population has decreased in the State while in the district it is increased i.e.,2.2%.

Inset Table to Annexure IV (b)

Percentage distribution of population by major religions in India, Andhra Pradesh and Anantapur district and its growth rate during 1991-2001

Source: Religion Data, Andhra Pradesh - 2001

This table gives the comparative data on religions among India, Andhra Pradesh and Anantapur district between 1991 and 2001 census, whereas the previous Annexure furnish the comparative data on religion during 1981 and 1991. At India level among the total population returned in the 2001 census Hindus constituted 80.5% as against 82.4% in 1991. The percentage growth rate of Hindus during the decade 1991-2001 has recorded 20.3 whereas the corresponding growth rate during 1981 and 1991 was 22.3%. It clearly shows that growth rate in Hindu population is diminishing which can be attributed that the people of this religion is more conscious about family planning methods. In Andhra Pradesh the percentage of Hindus has recorded 89.0 whereas the corresponding figure during 1991 was 89.1%. However the percentage growth rate of Hindus has fallen to 14.4 from the percentage growth rate of 24.7 as recorded during the decade 1981-1991. In Anantapur district though the percentage of population of Hindus recorded 88.6 as against 88.2 in 1991 their growth rate in 1991-2001 has fallen to 14.8% as against the growth rate of 25.2 % in 1981-1991.

In respect of Muslims, their percentage to total population has recorded 13.4 at India level as against 11.7% in 1991. In Andhra Pradesh their percentage has gone up to 9.2% from 8.9% in 1991. In respect of Anantapur district, Muslims constituted 10.7% of total population during 2001, whereas the corresponding figure recorded in 1991 was 11.2. However in this district the growth rate in the decade 1991-2001 has declined to 9.2% as against the growth rate of 24.1% recorded in 1981-1991.

The other main religion going by numerical strength is Christians. They constituted 2.3% of total population at India level during 2001census. Their growth rate during the decade 1991-2001 is 22.6% at India level as against the growth rate of 16.9% recorded in 1981-91. In Andhra Pradesh their percentage growth rate continues to show the negative trend. The percentage growth rate of this community recorded during 1991-2001 is (-) 2.8 as against (-) 15.1 recorded during decade 1981-1991. In Anantapur district during 2001 Christians constituted 0.6 % to total population as against 0.5 % in 1991. The percentage growth rate of this community during 1991-2001 has recorded 20.7% as against 2.2% in 1981-1991. In respect of other main communities their growth rate is negligible.

Annexure-IV(c)

Distribution between Rural and Urban area of Major religions in Andhra Pradesh and Anantapur district

Sl. No.	Name of Religion	Andhra Pradesh(in %)		Anantapur Dist.(in %)	
		Rural	Urban	Rural	Urban
1	Hindus	76.55	23.45	81.0	19.1
2	Muslims	41.83	58.17	43.8	56.2
3	Christians	60.48	39.52	23.6	76.4
4	Jains	4.11	95.89	2.0	80.1
5	Buddhists	80.41	19.59	37.5	62.5
6	Sikhs	10.85	89.15	47.4	52.6

Rural – Urban differentials :

In Andhra Pradesh and Anantapur district, it is seen that Hindus form considerably higher in rural areas i.e., 76.55% and 81.0% respectively. While Muslims are more in Urban areas i.e., 58.17% and 56.2% respectively. But the Christians, their percentage is higher in the rural at state level (60.48%) as against 76.4% in urban in the district level. The Jains, Buddhists and Sikhs are more in urban areas of the district while only Buddhists are more in rural areas of the state.

Inset table to Annexure IV (c)
Distribution between Rural and Urban area of Major religions in Andhra Pradesh and Anantapur district - 2001

Sl. No.	Name of Religion	Andhra Pradesh (in %)		Anantapur District (in %)	
		Rural	Urban	Rural	Urban

3	Christians	55.0	45.0	34.0	66.0
4	Jains	5.0	95.0	14.0	86.0
5	Buddhists	66.0	34.0	19.0	81.0
6	Sikhs	17.0	83.0	39.0	61.0

Source: Part - IV B(ii) Andhra Pradesh - 2001

The above table indicates the distribution of major religions between rural and urban in Andhra Pradesh and Anantapur district during 2001 census whereas the previous Annexure has given details recorded in 1991 census. The above inset table to Annexure show that the distribution of Religions between rural and urban at state level as well as at district level. In this district majority people of Hindus i.e., 79.1% are residing in rural areas whereas the other religions, i.e., Muslims (59.5%), Christians (66.0%), Jains (86.0%), Buddhists (81.0%) and Sikhs (61.0%), majority people are residing in urban areas than in rural areas. The same position was in 1991 Census.

Annexure V
Marital status of population as per 1991 Census and 2001 Census

Marital status has been classified as (i) Never Married, (ii) Married, (iii) Widowed and (iv) Divorced or Separated. To ascertain the marital status of a person, it has been made in the following manner.

(i) A person who has never married at any time before, treated him/her as never married

(ii) A person who has been married, whether for the First or another or at any time and whose marriage is subsisting at the time of Enumeration with the spouse living treated such a person as married

(iii) A person whose husband/wife is dead and who has not been married again, treated her/him as widowed

(iv) A person who has been separated from wife or husband and is living apart with no apparent intention of living together again or who has been divorced either by decree of a law of court or by an accepted social or religious custom but who has not re-married, treated such a person as Divorced/Separated.

The following statement shows the Age, Sex and Marital Status composition of the population separately for Total, Rural and Urban in Anantapur district during the 1991 census.

The district has returned 31,83,814 Population during 1991 Census, comprising never married, Currently married, widowed and divorced or separated with 15,61,438(49.04%), 14,60,135(45.86%), 1,53,393(4.82%), and 8,788(0.28%) respectively. In sex break-up, the percentage among males and females under the above four categories were 54.47 and 43.31 of never married, 43.67 and 48.18 of married, 1.72 and 8.10 of widowed and 0.14 and 0.41 of divorced or separated recorded respectively in the

district. The female percentage is dominated in all the categories except never married.

The population have been distributed in 18 age groups starting from 0-9, 10-14 etc. by marital status. According to the distribution the married, widowed and divorced/separated were found in the age group of 10-14, which shows that child marriages are in vogue. In the old age group both males and females were found in the never married category. No separate data was collected on the reasons for not married.

Source: Socio-cultural Tables (C-Series) - 2001

The above inset table gives the details by age, sex and marital status composition of the population separately for total, rural and urban areas of the district during 2001 census, whereas the previous Annexure shows the above details for 1991 census. In 1991 while furnishing age group-wise marital status data, a separate age group 15-44 where the marital status was high has been shown. In 2001 census keeping in view of persons aged less than 18 years and persons aged less than 21 years, being high concentration of marital status, has been furnished. In the district population of 3,640,478 persons, 955,421 (26.24%) males and 719,878 (19.77%) females were recorded as never married. In the total district population, 873,255 (23.99%) males and 899,742 (24.71%) females were found married during 2001 census. It is pity to note that as against 150,912 widows 28,176 widowers were found in the district during 2001 census. The reason for high percentage of widows can be attributed to aged males marrying younger females. As against total population of 1,378,827 persons in the age group less than 18 years, 51.78% males and 47.1% females were found never married in 2001 census. In respect of married persons under the age group less than 18 years, only 0.12% males and 0.99% females were recorded in 2001 census which means public are more conscious about Marriage Act and also ill-fate of early marriages. Similar trend is noticed both at rural and urban areas even for age group less than 21 years. There is no much variation in the figures of marital status of the district between 1991 and 2001 censuses.

Annexure VI
Age , sex and Education in the district as per 1991 Census and 2001 Census

The education table was worked-out on the basis of literates in the district.

Definition of literate :

A person who can both read and write with understanding in any language is to be considered as literate. If a person who can merely read but cannot write is not a literate. It is not necessary that a person who is literate should have received any formal education or should have passed any minimum educational standard. All the children in the age of 6 years or less have been treated as illiterate even if the child is going to school and may have picked up reading and writing.

The following table gives age, sex and education in the district at 1991 Census:

Annexure VI

Age, Sex and Education in the District as per, 1991 Census

Source: Socio-cultural Tables (C-Series) - 2001

The Annexure presented in the pre-page gives the details of Age, Sex and Education in the district for 1991 census whereas the above inset table reveals the data for 2001 Census. As was done in the previous Census, the children in the Age group 0-6 have been treated as illiterates even in 2001 census. It is seen from the above table that the district has recorded 56.1% literates in 2001 as against 42.2% literates in 1991. In the district the literacy rate for males has recorded 68.4% as against 43.3% in females during 2001 Census. From the above inset table it is noticed that in the school going age groups i.e 7 to 14 years, their literacy rate recorded between 60.3% and 80.2%. In all the age groups male literates are dominating females. The highest educated are found in the age groups 9 and 11 years with 89.5% each. It is a good trend that the essentiality of the education is felt much by the general public.

Annexure VII
Distribution of different mother tongues returned in 1991 Census at District/ Mandal level and the data at District level for 2001 Census

Mother Tongue :

Mother tongue is the language spoken in the childhood by a persons mother to the person. If mother dies in infancy, the language mainly spoken in the person's home in childhood will be treated his/her mother tongue. In the case of infants and deaf-mutes the language usually spoken by the mother will be the mother tongue. A very large number of mother tongues have been returned during 1991 Census. It lead to thorough scrutiny and rationalisation, which resulted in 1576 rationalised mother tongues and 1796 names were treated as unclassified or "others". The 1576 rationalised mother tongues were further classified following the usual linguistic methods for rational grouping based on available linguistic information. Thus a total inventory of classified mother tongues returned by 10,000 or more speakers at the all India level were grouped under appropriate languages, where possible, was prepared for final presentation of the 1991 Census data. The total number of languages so arrived at is 114. Of which 18 languages are included in Eighth Schedule to the Constitution of India (Scheduled languages).

The above table shows that the State language "Telugu" is largely spoken in Anantapur District. During 1991 Census this language has returned as mother tongue for 2,535,993 person comprising 79.7% followed by Urdu with 10.3% and Kannada with 7%. Besides these, many other languages were returned in the district. But their percentag is negligible. Out of 63 mandals of the district Telugu has dominated in 59 mandals and the remaining 4 mandals are dominating Kannada since Karnataka is neighbouring State to this district.

The details of languages that are listed out in the district may be seen from the above statement with rural and urban breakup by sex in the mandals as well as district.

Inset Table to Annexure VII (a)

Part B : Languages not specified in the Eighth Schedule to the Constitution.

Sl.No.	Name of the Mother Tongue / Language	Strength	Percentage to total population
1	Arabic	25	Negligible
2	Dogri	2	Negligible
3	English	375	Negligible
4	Koya	13	Negligible
5	Savara	2	Negligible
6	Tibetan	1	Negligible
7	Tulu	69	Negligible
	Total	**487**	
	Grand Total (part A&B)	**3,182,196**	

It is seen from the above shown statement that as many as 24 languages have been returned in Anantapur district. Out of which 17 are Scheduled languages and 7 are non-scheduled languages. Though there are 24 languages spoken in the district, Telugu speaking people were in majority with 79.71% to total population in 1991 Census, followed by Urdu speaking people with 10.32%. The third place was occupied by the people, whose mother tongue was Kannada with 7.06%, and all other 14 languages were negligible.

N= Negligible

The above inset table gives the abstract of the languages as mother tongues and their strength in the district recorded in 2001 Census whereas the previous annexure shows the details for 1991 census. In 1991 the data was presented in alphabetical order whereas in 2001 the mother tongue data has been presented basing on their numerical strength in descending order. The mother tongues having minor returns have been clubbed together and added in the category of 'Others'. Telugu being the region's language has recorded 80.2% to total population in the district with a slight increase in the percentage recorded in 1991 (79.7). The next highest language being spoken is Urdu with 10.1% to total population of the district whereas in 1991 the percentage of Urdu speaking people recorded 10.3. In respect of other scheduled languages it is noticed that their strength is negligible both in 1991 and 2001. In the district almost all the scheduled languages (except Manipuri) returned.
