DISTRICT CENSUS HANDBOOK

Part - A & B

GUNTUR

VILLAGE & TOWN DIRECTORY

VILLAGE AND TOWNWISE PRIMARY CENSUS ABSTRACT

लोकाभिमुख
PEOPLE ORIENTED

Director of Census Operations, ANDHRA PRADESH

Foreword

The District Census Handbook (DCHB) published by Census Organisation since 1951 census, is one of the important publications in the context of planning and development at gross-root level. The publication, which is brought out for each district, contains several demographic and socio-economic characteristics village-wise and town-wise of the district along with the status of availability of civic amenities, infrastructural facilities, etc.

2. The scope of the DCHB was initially confined to a few Census Tables and Primary Census Abstract (PCA) of each village and town within the district. Thereafter, at successive censuses, its scope and coverage has been enlarged. The DCHB published at the 1961 census provided a descriptive account of the district, administrative statistics, census tables and a village and town directory including PCA. The 1971 census-DCHB series was in three parts: Part-A related to village and town directory, Part-B to village and town PCA and Part-C comprised analytical report, administrative statistics, district census tables and certain analytical tables based on PCA and amenity data in respect of villages. The 1981 census DCHB was in two parts: Part-A contained village and town directory and Part-B the PCA of village and town including the SCs and STs PCA up to tahsil/ town levels. New features alongwith restructuring of the formats of village and town directory were added into it In Village Directory, all amenities except electricity were brought together and if any amenity was not available in the referent village, the distance in broad ranges from the nearest place having such an amenity, was given. Information on new items such as adult literacy centres, primary health sub-centres and community health workers in the village were provided so as to meet the requirements of some of the Revised Minimum Needs Programme. Information on approach to the village was provided for the first time in the Village Directory so as to give the details on number of inaccessible villages in each district. In the Town Directory, a statement (IV-A) on slums was introduced to provide the details on civic and other amenities in the notified slums of Class I and Class II towns.

3. The 1991 census DCHB, by and large, followed the pattern of presentation of 1981 census, except the format of PCA was restructured. Nine-fold industrial classification of main workers was given against the four-fold industrial classification presented in the 1981 census. In addition, sex-wise population in 0-6 age group was included in the PCA for the first time with a view to enable the data users to compile more realistic literacy rate as all children below 7 years of age had been treated as illiterate at the time of 1991 census. One of the important innovations in the 1991 census was the Community Development Block (CD block) level presentation of village directory and PCA data instead of the traditional tahsil/taluk/PS level presentation. It was expected that the presentation of village directory and PCA data at CD block level will help the planners in formulation of micro level development plans, CD block being lowest administrative unit.

4. The present series of 2001 census DCHBs have been made more informative and exhaustive in terms of coverage and content. The Village Directory has been enlarged in scope by including a number of other facilities like banking, recreational and cultural facilities, newspapers and magazines and ‘most important commodity’ manufactured in village. Income and expenditure of gram panchayat, wherever possible, has been provided. Apart from these, more details on distance(s) at which basic amenities are available (if not available in the village), are given. This includes educational facilities (namely primary and middle schools and college), medical facilities (viz. Allopathic Hospital, Maternity & Child Welfare Centre and Primary Health Centre), drinking water, post & telegraph (post office and phone), communication, bank, credit societies and recreational

facilities. In Town Directory, the statement on Slums has been modified and its coverage enlarged by including details on all slums instead of 'notified slums'. The information is given in case of all statutory towns irrespective of their class, against only Class I and Class II towns in the 1981 and 1991 censuses. The basic amenities available in the villages and towns are analysed in depth with the help of a number of cross-classified inset tables and statements. Two other significant additions in the publication are inclusion of 'motif' highlighting significant characteristic of the district and analytical notes as annexures. The analytical notes on (i) fertility and mortality and (ii) various measures of fertility and mean age at marriage are prepared based on 1991 Census. Whereas, in the notes relating to (i) percentage distribution of migrants by place of birth/place of last residence, (ii) main religions, (iii) marital status of population, (iv) age, sex and education, and (v) distribution of spectrum of mother tongue, nature and extent of changes occurred in the district in its basic socio-demographic features during the decade 1991-2001 are analysed. The eight digits permanent location code (PLCN) to all the villages and towns have been assigned keeping in view the future needs.

5. The village and town level amenity data have been collected, compiled and computerized in prescribed record structure under the supervision of Shri. V.S. Bhaskar, IAS., Director of Census Operations, Andhra Pradesh. Thereafter, efforts have been made to ensure comparability of the information with that of 1991 census data and the information brought out by the respective state governments in their annual reports and statistical handbooks for various years after 1991. The task of planning, designing and coordination of this publication was carried out by Shri R.G. Mitra, Deputy Registrar General (C&T) and Dr. I.C. Agrawal, Senior Research Officer of Social Studies Division. Dr. R.P. Singh, Deputy Registrar General (Map) provided the technical guidance in the preparation of maps. Whereas, Shri Anil Kumar Arora, Deputy Director of Data Processing Division who worked under the overall supervision of Shri Himakar, Addl. Director (EDP) helped in preparation of record structure for computerization of village and town directory data and the programme for the generation of Village Directory and Town Directory statements including analytical inset tables. The draft DCHB manuscripts received from the Census Directorates have been scrutinized in the Social Studies Division under the guidance of Shri S.L. Jain, Deputy Director and Shri R.K. Mehta, Assistant Director. I am thankful to all of them and others who have contributed to make this publication possible.

D.K.Sikri
Registrar General &
Census Commissioner, India.

Ethipothala

The Motif selected for Guntur Handbook is "Ethipothala". The Ethipothala is a natural valley located amidst picturesque and peaceful surroundings was once a place of penance for saints. Hence the name Ethi-Taposthala. Presently it is known as Ethipothala. This beautiful Valley is about 8 Kms. from the Macherla Railway Station in Guntur District.

The rain water on Nallamala Hill ranges flows underground and emerges out here as Chandravanka and Suryavanka. Suryavanka stream falls from a height of 21 metres into a beautiful lagoon. The fallen water flows 3 Kms. from the valley and joins river Krishna. In ancient days saints used to go to Srisailam and Guthikonda Bilam through the underground tunnel of this Valley. The cave temples of Lord Dattatreya, His consort Madhumati Devi and Lord Ranganath are worth seeing.

This is a place of tourist attraction. Thousands of tourists who visit Nagarjunasagar Dam also visit this place.

Source: District Collector, Guntur.

Preface

The District Census Hand Book (DCHB) containing Primary Census Abstract and data on "amenities" for each village and town in the district. The intention of this publication is to place the data collected at the Census alongwith the village and town level amenities data collected from the Mandal Revenue Officers/ Municipal officials in this publication. The amenities data is validated by comparing with secondary data obtained from Heads of the Departments. For example, information on schools was compared with data available with Commissioner, School Education and information on post offices was compared with data obtained from the Chief Post Master General and so on. Validation of data in the above manner was by no means an easy exercise. Scores of officials had put in gruelling efforts for months together. The entire data and manuscripts were computerized. We are now reasonably confident of the correctness of the data but we will not make any utopian claims of cent per cent accuracy. There may be errors but we will be safe in saying that they are minimal.

The District Census Hand Book is divided into the following major components.

1. Introduction.
2. Brief history of the district.
3. Census and non-Census concepts.
4. A detailed write up on the physical features, major cultural and social events, major developments during the decade, places of religious and historic importance etc.
5. Primary Census Abstract (PCA) at the district level, mandal/town level and village level.
6. Brief analysis of PCA data.
7. Village Directory and Town Directory.
8. Brief analysis on Village Directory and Town Directories.

It will not be out of place to mention here that there is perhaps no other publication from any agency that encapsulates so much data on a district. The amenities data includes information on sectors such as Education, Health, Water and Electricity supply, Communication and Transport facilities etc. The idea of presenting amenities data juxtaposed to the Census data is not only unique but also tremendously useful for the data users.

The District Census Hand Book is further enriched with a district map and mandal maps depicting villages/towns with population size and also amenities such as Educational Institutions, Hospitals, Telegraph and Telephone facilities, Banks, Police Station etc.

Some improvement over earlier DCHB have been made to bring more completeness to the data presented in this volume.

1. The names of Colleges, Girls' High Schools, Hospitals run by Government and others have been given as an additional information. Similarly the names of Cinema Halls have been given.
2. Ranking of Mandals according to population is also given.

3. More Appendices and Annexures to important statements are given to make the data more comprehensive.

In the previous Censuses, the manuscripts prepared by this department were supplied to Government of Andhra Pradesh who in turn brought out the publications at their cost. However due to the procedural rigmorale some delay was unavoidable in placing the DCHBs before the data users and planners.

This time, keeping in view the above difficulties, the printing and publication of District Census Hand Books has been taken up centrally under the arrangement of the office of the Registrar General and Census Commissioner, India, New Delhi. The processing of data and preparation of Camera Ready Copies electronically including finalisation of write up was attended to in the office of the Director of Census Operations.

I am grateful to the Chief Secretaries, Principal Secretaries, Secretaries, District Collectors, Municipal Commissioners and other senior officials of the Government of Andhra Pradesh for their co-operation and assistance throughout the Census Operations and in the process of collection of the non-Censal data.

I am extremely grateful to Sri D.K.Sikri, IAS, Registrar General and Census Commissioner, India for the help, guidance and constant support in finalising this volume. My sincere thanks to Sri R.P. Singh, Deputy Registrar General (Map) and Dr.I.C. Agrawal, Assistant Registrar General (SS). Sri. S.L. Jain, Deputy Director for giving guidence, help and co-ordinating this project work and their colleagues in the office of the Registrar General, India.

I also take this opportunity to acknowledge the valuable contribution made for this publication by Sri.J.K.Banthia, Ex-Registrar General, India.

Most of the work relating to DCHB has been carried out under the able guidance and direction of Sri V.S.Bhaskar, IAS, Director of Census Operations, Andhra Pradesh, Hyderabad. I take this opportunity to acknowledge his valuable contribution made for this publication.

The credit for preparation of District Census Handbooks goes to a team of devoted officers and staff of this Directorate who have involved in this project. The names of individuals associated with this project are shown in “Acknowledgements”. I am grateful to all of them.

I hope that the data users will find this publication very useful.

District Highlights – 2001 Census

1. Guntur district stands 13th in terms of area size and ranks 2nd in terms of population in the state.
2. Guntur district stands 5th rank in terms of urbanization with a total urban population 1,285,760 forming 28.79 percent to the total district population.
3. The sex ratio of the district is 984 against 970 in 1991 Census showing increase over decade.
4. The density of population of the district is 392 against 361 in 1991 Census, showing increase over the decade.
5. Piduguralla village bearing PLC No.02087200 is most populated with a population of 50,127 and Dasullapalle village with PLC No.02112600 is the least populated with a population of 39 in the district.
6. Guntur mandal is most populated with a population of 601,543 and Bellamkonda Mandal is the least populated with a population of 30,791 in the district.
7. Guntur Municipality is most populated with a population of 514,461 and Repalle Municipality is the least populated with a population of 42,539 in the district.
8. Out of 100 workers 66.81 are engaged in Agriculture sector, 2.43 in Household industry and 30.76 in other economic activities. Thus showing the predominance Agriculture sector.
9. Out of 100 Male workers in the district 57.51 are engaged in Agriculture sector.
10. Out of 100 Female workers in the district 81.18 are engaged in Agriculture sector.
11. There is decrease in the proportion of Main workers in the district in the decade (45.75 percent in 1991 to 41.88 percent in 2001).
12. There is decrease in the proportion of Male workers of the district in the decade (56.96 percent in 1991 to 53.94 percent in 2001).
13. There is decrease in the proportion of Female workers of the district in the decade (34.20 percent in 1991 to 29.62 percent in 2001).
14. The Guntur district is famous for Tobacco and Chillies production.
15. Karlapalem mandal has the lowest number of inhabited villages (5) and the highest number of inhabited villages (21) are found in Vinukonda Mandal.
16. Bapatla mandal has largest area 14,417.21 hectares under irrigation, followed by Rompicherla mandal with 13,646.20 hectares in the district. The Mandal with lowest area 292.24 hectares under irrigation is Prathipadu mandal.
17. Mutukuru village bearing PLC No.02081700 has the largest area (13,192 hectares) and Devarapalle Seri village bearing PLC No.02128600 has the smallest area (11 hectares) among the villages of the district.
18. Female work participation rate is 38.85 that of the Males in the district 59.09.

(i) About the District Census Handbook

District manuals compiled and published prior to 1905 by the erstwhile composite Madras Government contained not only particulars of items of more or less similar and permanent characteristics like history, religion and ethnography, but also a few statistical tables including those relating to population which became obsolete within a few years of publication. Later, the Madras Government replaced the District Manuals by another publication viz., the District Gazetteer consisting of two Volumes A and B. Volume-A contained descriptive and general tables which explains the text and Volume-B contained detailed statistics. It was decided that Volume B should be brought out periodically after each decennial census so that they contain the latest statistics. Volume-A was published for some districts between 1905 and 1927 in the Composite Madras State. The publication of Volume-A was discontinued in 1927. Volume-B was published for all the districts of the Composite Madras State between 1906 and 1915. The publication of Volume-B was also stopped after 1931 Census.

Similarly the Gazetteer volumes were also brought for some of the districts in the erstwhile Hyderabad State. The scheme of publication of revised District Gazetteers was restarted in the year 1958 by the State Governments. The State Editor, District Gazetteers, Government of Andhra Pradesh had published the Gazetteers of all the districts.

The idea of compiling the District Census Handbooks was initiated during the 1951 census pioneered by Sri. R.A. Gopala Swamy, I.C.S. the then Registrar General, India and Ex-officio Census Commissioner of India, with a view to preserve the census records prepared for areas below the district level. He proposed that all the District Census Tables and Census Abstracts prepared during the process of sorting and compilation, should be bound together in a single manuscript volume and named as the District Census Handbook and suggested that the State Government should take up printing and publication at their own cost. Then onwards, the District Census Handbooks were published in each census with improved pattern with an aim to give the census and non-census data at micro level for the village and district as a whole to suit the requirements of various departments, scholars, research personnel , planners, industrialists, electoral authorities, and other data users, also for efficient public administration by the state.

Pattern at 2001 Census :

The present District Census Handbook of 2001 Census, like the previous Census, is brought out for each district comprising of two Parts. Part- A Village and Town Directory with additional information on amenities viz., availability of commercial banks, recreation, credit societies etc., and land use particulars in the rural areas and Part- B Primary Census Abstract. At the out set an analytical note is given which depicts a general back ground on the district and analytical results on the statements and tables included in the volume. The volume is also provided with brief history of the district, physical aspects, census concepts, non-census concepts, major characteristics with reference to economic resources and administrative set-up during the past decade, few appendixes, etc..

Part A–Village and Town Directory :

The Section- I i.e. Village Directory gives non-census data on the amenities available in each village in respect of educational, medical, drinking water, power supply, post and telegraph, telephone, approach to village, banks, credit societies, receipt of newspapers and magazines, recreation and cultural facilities, nearest town and its distance, distribution of land use area, income and expenditure of the village and name of the most important commodities manufactured.

If an amenity is not available in the referred village, the distance in broad ranges (Kms.) from the nearest place where the amenity is available is indicated. If the nearest place is situated in another state, name of the other state is also given.

The Section-II i.e. Town Directory has been presented in seven Statements viz., Statement – I Status and Growth History, Statement-II Physical

aspects and Location of towns, Statement-III Municipal Finance(receipts and expenditure,1998-99), Statement-IV Civic and other amenities, Statement-V Medical, Educational, Recreational and Cultural facilities, Statement-VI Trade, Commerce, Industry and Banking etc., Statement-VII Civic and other amenities in Slums and an Appendix showing towns with out growths and their population. The reference period for the above statements is 1998-99 and the data is covered for all the statutorily notified towns in the district.

The non-census data at Village/Town level is collected from concerned authorities viz., Mandal Revenue Officers, Municipal Commissioners etc., and scrutinized with meticulous care and validated with the data collected from various departments to provide valid information to the data users.

Part B–Primary Census Abstract :

This data can be stated as the essence of the handbook. The latest census details such as area, total households, population, scheduled castes and tribes population, literates, workers, etc. are presented in these Abstracts.

(ii) History and Administrative Set-up of the District

(i) Brief History of the District :

General:

Guntur district in its present form was constituted only in 1904 out of the areas of Ongole taluk of Nellore district and portions of the Krishna District. Prior to 1859 there was 'Guntur district' with headquarters at Guntur but with a different jurisdiction. In 1859 this district was abolished and was divided up between Masulipatam and Rajahmundry districts, which were renamed as Krishna and Godavari. In 1904 Krishna district was bifurcated and Guntur district with its present jurisdiction was constituted into a separate independent district. The early history of the district is briefly given below.

Political History:

The earliest known rulers of the district were the Buddhist dynasty of the Andhras who built the stupa at Amaravathi and whose curious old leaden coins are still occasionally found. The Buddhist remains at Amaravathi on the right bank of the Krishna nearly seventy miles (110 Kms.) from its mouth, bear inscriptions in the Gupta character; which refer to the second century after Christ and may possibly be older than that. The Buddhist stupa, discovered on the north bank of the river near Jaggayyapet, is said to be the date as remote as B.C.200, or only half a century later than the Asoka edicts. It may therefore be inferred that for some time before and after the Christian Era, Buddhism was firmly established on the banks of the Krishna.

This religion seems to have given way before the Brahmans and a sect of Buddhist dissenters known as the Jains. The Brahmans are said to have been invited by the King of Dharanikota, Mukkanti Pallava, in the third century A.D. or by a King named Sudakshana about the same date to Srikakulam, a shrine lower down the Krishna. Both legends are current, but the history of this period is very obscure. The Pallava dynastry may be the line of Kings which is shown, by two copper plates, to have reigned in the fourth century A.D. over "Vengi desha" but this kingdom is not mentioned by Ptolemy or in the Periplus of the Red Sea.

In 640 A.D. there is an account written by the Chinese Pilgrim, Hiuen Tsang, who travelled through India to see the Buddhist monasteries. He speaks of the Kingdom of Anta-lo (Andhra) with its capital ping-kilo (Vengi) and in Dhanakacheka (Dhanyakataka or Dharani Kota) describes two very extensive Buddhist monasteries, the eastern and western. The Chinese traveller describes the monasteries as surrounded by trees and gushing fountains, which may indicate a great clearance of forest and lessening of rainfall in the last twelve centuries. He mourns over the decay of Buddhism, decay caused perhaps as much by the opposition of the Jains as by the advent of the Brahmans, for the Jains did not disappear from the Krishna district until six centuries after Hiuen Tsang's visit.

By A.D. 640, the Pallava dynasty of Vengi had been conquered by the Chalukya Kings of Kalyanpur. Some would place this conquest as far back as the time of Vishnu Vardhana, great grandfather of Satyasraya Vallabhendra in the fourth century, but at all events, the territory was divided about A.D. 605 and Vengi was given to Kubja Vishnuvardhana, the younger brother of Satyasraya Vallabhendra, King of Kalyanpur. The Kubja Vishnuvardhana founded a dynasty, known as the Eastern Chalukya Kings, who reigned for four centuries, and who excavated the cave temple at Undavalli and other rock cut shrines. About A.D. 999 they in their turn were supplanted by the Cholas. The latter after some two centuries gave place to the Ganapathis of Warangal. Ganapati Deva, who reigned at Warangal (A.D. 1190-1258), and built around Warangal the single stone wall, which is given the name Ekasilanagaram, or, in its Tamil form, 'Orukkal', whence Warangal, was an active persecutor of the Jains and throughout his wide dominions which included the seacoast from Divi to Nellore, erected Brahmanical temples. Possibly he might have married his only daughter to the Jain King of Dharanikota for political reasons, to absorb in his

Kingdom the territory of this petty ruler, and Pratapa Rudra, the son born of this mixed marriage, would naturally follow his mother's faith.

After the death of Ganapathi Deva, the grandfather of Pratapa Rudra, in A.D. 1258, the Government was assumed by his daughter, Rudramma, one of the most illustrious and famous women in Indian history who have left behind a reputation as the most skilful ruler. It was during the regency of this widowed queen that the Venetian traveller, Marco Polo, visited this country, about the year A.D. 1290. He seems to have landed at Motupalle, now an obscure fishing village near Chirala.

This queen Rudramma transferred the royal authority to her daughter's son, Pratapa Rudra, in the year A.D. 1295. There are numerous grants of Pratapa Rudra in Krishna district and in the Palnad taluk. In A.D.1323 he was taken captive by the Muslims and carried away to Delhi and this was an irretrievable disaster, for although his son Virabhadraya asserted his independence in A.D.1344 he failed to regain the lost dominions of his father and the Muslim kingdom of Gulbarga steadily advanced until in A.D.1425 when Warangal was included within its limits.

After the captivity of Pratapa Rudra in A.D. 1323 his kingdom was left without a ruler. This district then came under a dual sway, the king of Orissa ruling the northern part while the south fell into the hands of a line of cultivators who rose to considerable power and are known as the Reddi Kings of Kondaveedu. A brief account of the Reddi Kings of Kondaveedu is given below:

The founder of the family of Reddi Kings of Kondaveedu was Donti Aliya Reddi, a cultivator of Hanumakonda, who amassed enormous wealth, tradition says by discovering the alchemists' secret of the process of transmuting metals into gold, and migrated to Kondaveedu. On the downfall of Pratapa Rudra, the eldest son, Pulayya Vema Reddi declared himself as independent ruler of the hill fort of Kondaveedu. He also possessed himself of the fortresses of Bellamkonda, Vinukonda, and Nagarjunakonda in Palnad taluk. His brother Anavema Reddi extended his dominions as far as Rajahmundry in the north, Kanchi in the south and Srisailam in the west. Kondapalle hill fort is said to have been built in his reign. An inscription at Amaresvaram dated A.D. 1361 states that Anavema Reddi was in possession of Kondaveedu, Addanki and Raichur, that he repaired the temple at Amaravati and the causeway at Srisailam and that he defeated various Rajas including the kings of Warangal. This last boast probably relates to the unsuccessful efforts of Virabhadraya in A.D. 1344 and later to regain his father's territories from the Muslims on the one hand and the Orissa Rajas and Kondaveedu Reddies on the other. Anavema Reddi was succeeded by his brother, Aliya Vema Reddi who was succeeded by the fourth brother, Komaragiri Reddi, a ruler of bad reputation, who was followed by his sons Komati Venka Reddi, and Racha Vema Reddi, the last of the line, who after an evil reign of four years was assassinated by a person named Chowdari Yellappa in A.D. 1428. The dates of these six Reddi kings are as follows:

Pulayya Vema Reddi	… A.D. 1328
Ana Vema Reddi	… A.D. 1340
Aliya Vema Reddi	….A.D. 1370
Komaragiri Reddi	… A.D. 1382
Komati Venka Reddi	….A.D. 1396
Racha Vema Reddi	….A.D. 1424

These Kondaveedu Reddis were great patrons of Telugu literature. The poet Srinadha with his brother-in-law, Bammera Pothana flourished, at their court and sang their praise. The ruins of their fortresses at Kondaveedu, Bellamkonda and Kondapalle are still to be seen.

On the extinction of the Reddi dynasty the Ganapathi King of Orissa extended his power. In A.D. 1515, King Krishna Deva Raya of vijayanagar conquered the whole of the country and left many inscriptions to perpetuate the memory of his victories. He restored Kondapalle to the Orissa Raja but retained Kondaveedu. On the fall of Vijayanagar Empire in A.D. 1565 this region was conquered by the Muslims and the Hindu rule came to an end in A.D. 1579 in this district. On the fall of the Vijayanagar Empire in A.D. 1565 it passed on to the Kutub Shahi line of Golconda, and was eventually absorbed (on the destruction of that dynasty in 1687) in the empire of Emperor Aurangazeb.

In A.D. 1611 the English founded their second settlement in India at Masulipatam, which continued to be their headquarters until it was finally moved it to Madras in A.D. 1641. Three years after the

founding of the English settlement came the Dutch and in A.D. 1669 the French followed. It was not, however, till the year A.D. 1750 that any of the European powers exerted any political influence in this district. Two years after that date the Subedar of the Deccan granted the whole of the Northern Circars to the French, and it was from them that this tract finally passed to the English. On the outbreak of hostilities in A.D. 1758 Colonel Forde, who was sent by Clive from Bengal to attack the French in the Northern circars, defeated them at Condore in Godavari District, and following them to Masulipatam besieged them there. Faced by a strong garrison in front and hemmed in behind by the Subedar of the Deccan, the ally of the French, his ranks rapidly thinned with disease, Forde, as a counsel of despair, at length made an almost desperate night attack upon the Masulipatam fort and captured it. As a consequence of this victory, first the divisions of Masulipatam, Nizampatam and part of Kondaveedu, and later the whole of the Circars, passed by a grant from the Subedar of the Deccan (confirmed by the emperor Shah Alam in 1765), to the Company. With the cession of the Palnad in 1801 by the Nawab of Arcot, the entire district finally became a British territory. At first it was administered by a Chief and Council at Masulipatam, but in A.D. 1794 Collectors directly responsible to the Board of Revenue were appointed at Guntur and Masulipatam. In A.D. 1859 these two Collectorates (except two taluks of the latter) were amalgamated into one district.

This amalgamation did not continue for long. With the construction of the anicuts across Godavari and Krishna rivers the irrigation facilities increased. This resulted in the increase in work of all kinds in the methods of administration and rendered the task of efficiently controlling these two wealthy areas more difficult for one Collector to compass. Hence readjustment of these two districts was necessitated and in 1904 a separate district was constituted with Guntur as headquarters. Ongole taluk of Nellore district, Tenali, Guntur, Sattenapalle, Palnad, Bapatla, Narasaraopet and Vinukonda taluks of Krishna district were included in the newly formed Guntur District. In 1909 Tenali Taluk was split up into Tenali and Repalle taluks. The jurisdiction of the district did not undergo any major change from that time and continued as part of the Madras State till 1953.

This district has played a very important role in the National struggle for independence. It produced patriots like Desabhakta Konda Venkatappaiah, Parvathaneni Veeraiah Chowdary, leader of the great Pedanandipadu 'No-Tax-Campaign' of 1923, Vunnava Lakshminarayana Panthulu, 'Andhra Ratna' Duggirala Gopala Krishnaiah, 'Andhra Kesari' Tanguturi Prakasam Panthulu (the latter two belong to Chirala and Ongole respectively, which now belong to Prakasam district), whose services to the Nation are unforgettable. 'Rythu Bandhava' prof. N.G.Ranga, popularly known as 'Acharya Ranga' rendered yeomen services during the freedom struggle in arousing the rural masses throughout the country. The district also had the fortune of being the venue of the All India Congress Committee Sessions twice.

In 1953 when the Andhra State was formed, this was also transferred to Andhra State along with the other Telugu speaking districts of the composite Madras State. After the Reorganization of States in 1956, this district along with the other districts of Andhra State became part of Andhra Pradesh in which it now continues. It may be worth mentioning in this connection that Guntur city, the headquarters of this district was the seat of the Andhra High Court for a period of over 3 years from 1st October 1953, i.e. from the inception of the Andhra State till the formation of Andhra Pradesh on 1-11-1956.

India attained independence on August 15, 1947 as the largest democracy in the world. The British rulers handed over the reins of the Government to the various State Governments and to the Government of India. In 1950 the constitution was promulgated and India became a Democratic Republic. The first General Elections to the House of the People and to the Legislative Assembly were conducted in January, 1952 in the constituencies delimited in 1951 by an order of the President under Sections 6 and 9 of the Representation of the Peoples Act 1950. The tenure of office of both the House of the People and the Legislative Assembly was to be for five years. But due to the collapse of the State Government, mid-term elections were conducted in 1955 for only the State Legislature. The country again went to polls during 1957. Due to mid-term elections for the State Legislative Assembly conducted during 1955, the Government extended the term of office of the M.L.As., of the State Legislature for a further period of five years from 1957 and hence the members elected for the State Legislative Assembly during 1955 continued as M.L.As. upto 1962. Therefore, the elections conducted during 1957 were confined only

to Parliamentary constituencies in Andhra region of Andhra Pradesh. The third General Elections to the House of the people and the State Legislative Assembly were simultaneously conducted in February,1962 under the marking system of vote.

Revenue History:

Very little is known about the system of administration followed by the Hindu rulers of this country prior to the Muslim invasion. The numerous allusions in ancient inscription to royal grants of entire villages or a group of villages show that in former centuries as now, all revenue administration was based upon the village as a unit.

When the Muslims took this part of the country, in the sixteenth century, they appear to have made but little change in the existing Hindu system. They occupied certain posts with military garrisons under Muslim officers, and sometimes a tract of country might be granted to a Muslim Officer as a Jagir, but for the most part the revenues were collected and accounted for to the central authority by the Hindu officials. As is usual in India these offices became hereditary and when the Muslim power became lax the Hindu hereditary officials began to call themselves Zamindars and acted as if they were independent princes, but through all these changes the villages remained unaltered.

In addition to the land revenue, the Sovereign's share of the produce of the fields, there were other sources of revenue. The Imperial Firmans granted in 1689 and 1712 to the Dutch at Masulipatam show that import and export duties at the seaport were a considerable item in the Hyderabad receipts and there were various other inland customs lines also.

In the neighbourhood of each military post or headquarter station were certain lands, intended for the maintenance of the troops or Muslim officers, which were under the direct management of the Faujdar or the Khilladar. These Haveli lands, as they were termed, were not supposed to be under the Desmukhs and Deshpandes who were responsible for the collections of the rest of the country.

At first the Hindu Desmukhs and Deshpandes were paid by a percentage upon collections, by certain fees and by a limited portion of land in each village, these modes of payment being supposed to ensure their attention to the amount of collections, their procuring the goodwill of the populace who paid fees and their actual residence among the villages where their plots of land were situated. In course of time, however, we find that these Desmukhs and Deshpandes themselves rented villages and even districts, or, as it may better be expressed, formed the revenues of certain districts or compounded the revenue demand against them or a fixed sum.

The French Commandant, M.De Bussi, had a survey made of these Northern Circars and evidently contemplated the institution of a better revenue system, but he fell from power before he had an opportunity of carrying out these plans and when the English Company took possession of the Kondapalle Circar in 1766 and the Kondaveedu Circar in 1788 the Hindu hereditary officials, calling themselves Zamindars, were still in possession of the country.

The English Officials at Masulipatam did not quite understand the legal position of these Zamindars. The first Chief in Council after the English took Kondapalle was in favour of settling every year, according to the harvest, the amount to be paid by each Zamindar to the Company, but in 1771 the Chief in Council wrote that Zamindaris were feudal estates, of which the Zamindars were the proprietors, paying a tribute to Government and furnishing troops in times of war. This idea gained ground, the payment made by the Zamindars was constantly termed tribute, the territory they held was called their hereditary estate and the inhabitants were entirely subject to their oppressions.

When the Company took the Kondapalle Circar in A.D. 1766 it was given along with the Ellore and Rajahmundry Circars on a three years' rental to the Nizam's Faujdar, Hasan Ali Khan. This arrangement came to an end in 1769, and after that an attempt was made to make a separate arrangement with each Zamindar, while the Haveli lands were for some time given on a ten years' lease to Condregula Jaggappa, son of the Dubash.

The Guntur or Kondaveedu Circar was also under the control of the Masulipatam Council, but when that Council was abolished in 1794 Guntur formed a separate Zilla under a Collector who reported direct to the Board as did the Collector of Masulipatam.

In pursuance of the orders issued by the Bengal Government the Permanent Settlement was introduced in Masulipatam and Guntur Districts in 1802. The amount to be paid by each Zamindar was calculated at two-thirds of half the gross produce of the lands, this half being supposed to be the share

paid to them by the cultivators. Thus the Zamindars were to retain for their own maintenance one-sixth of the gross produce of their territories. The amounts were obtained from an inspection of the accounts of the last thirteen years or of what papers the village karnams produced as accounts. In some cases, especially that of Charmahal, the Zamindar's Peshkush was fixed too high, but in some instances, especially that of Vasireddi Venkatadri Naidu, the Peshkush was not only fixed too low, being based on fictitious accounts, but was actually still further reduced by the Board of Revenue at Madras, which has anxious that the Permanent Settlement should be moderate.

The Haveli lands, with the exception of Divi, were divided into mutahs, each calculated to bear an assessment of one thousand to ten thousand Pagodas as the Government demand, and these were sold and brought under the Permanent Settlement. Care was taken that all lands under one irrigation source should be included in one mutah and the purchasing proprietors were to be held responsible for the upkeep of these irrigation works, but might be assisted by loans from the treasury at 12 percent. This sale of the Haveli mutahs took place in December, 1802 and thus the whole of the present Krishna and Guntur Districts passed under the Permanent Settlement, except Divi, which in 1807 was given on Zamindari tenure to Condregula Gopala Rao, grandson of the Dubash. Palnad was acquired from the Nawab of Arcot and which, like the Nellore District, passed under triennial and decennial village rents, but did not become a Zamindari.

This experiment of creating a class of territorial landlords and trusting to the magic of private property to make them improve the vast extents of the country thus placed in their hands was not successful. Many of the Zamindars assumed the position of petty princes and instead of contending themselves with moderate establishments, they kept up a number of elephants and horses at a cost wholly disproportionate to their means. The Collector of Guntur reported that the Zamindars in Guntur District spent on "Savari" a sum which would maintain eleven battalions of Company's sepoys. Moreover, their system of management was sometimes very bad. An energetic Zamindar like Vasireddi Venkatadri Naidu could personally keep order throughout his extensive villages and amass wealth, but his next neighbour, Malrazu Venkata Gunda Rao, was utterly unable to manage his estates, and when Venkatadri Naidu died his riches were speedily dissipated by his heirs. Another cause of the failure of the Zamindari system in this District was the constant disputed successions and tedious litigation in almost every family.

The Zamindaris were constantly attached for arrears and taken under the Court of wards and the Collectors managed them by means of cutcherry retainers in such a way that arrears sometimes accumulated rapidly while the estates were under management as they had done under the Zamindar. Some Collectors remained long enough to acquire local knowledge. Messrs. Oakes and Whish each held Guntur for ten years, but changes of Collectors were frequent and a newly arrived Collector could only appoint his Sheristadar's nominees to manage these attached estates. The terrible famine of 1832-33 rendered the Zamindars less able than before to pay the Government demand and in the Guntur Collectorate the mismanagement of the attached estates was increased by a bitter feud among the Revenue servants.

The experiment had been tried of placing the Zamindars in charge of their own Zamindaris as Managers, but this also was a failure, the Zamindars fraudulently leasing villages on low rentals in consideration of sums paid down as "Nuzzerana". Under the provisions of the dispatch of the Court of Directors dated 21st June, 1842 the Guntur Zamindars surrendered their estates to Government on the understanding that they should receive a sufficient maintenance with the hope that estates may be eventually restored. Afterwards it was decided by Government to place beyond all doubt their power to deal with the estates by bringing them to sale and buying them. This was done in 1846. There were no purchasers and Government bought in the Guntur Zamindari estates by a bid of Rs.5,000 for each. After perusal of Mr. W. Elliott's report the Directors wrote a dispatch on 31st January, 1849 declaring the resumption of these estates to be final.

The year 1849 is to be noticed as the date of the appointment of a Commissioner of the Northern Circars. The Court of Directors, upon perusal of Mr. Walter Elliott's report on Guntur affairs, sent out orders that all the Northern Circars should be placed under the immediate charge of one of the members of the Board of Revenue, with full powers of the Board. In accordance with this order Mr. Walter

Elliott himself was appointed Commissioner of the Northern Circars in 1849 and soon afterwards came to Masulipatam.

In 1854 the appointment of Commissioner of the Northern Circars was abolished and the Districts came again under the direct authority of the Board of Revenue. In December, 1859 the whole of the Guntur District and all the Masulipatam District except two Taluks was made into one district, the Krishna District. In 1862 the District was divided into eleven taluks with two Zamindari sub-divisions.

Little seems to have been done, however, to introduce any improved system of land revenue at these opportunities and the faulty Zamindari system continued, with the 'Kailas' or actual measurements of the crop which lay heaped for weeks awaiting the measurer, with the "anchana"or estimate, made by a venal estimator, with the joint village rents giving rise to factions and oppression of the poorer villagers by their stronger neighbours.

The first Collector, who made any attempt to grapple with the subject, was Mr. G.E. Russell, Collector of Masulipatam, 1812-21. He selected the village of Telaprolu in the Nuzvidu Zamindari and made a minute survey of the village fixing the amount to be paid by each individual cultivator according to the quality of the lands he held. Mr. Russell's report on Telaprolu is dated 20th September, 1818. Under the rental value thus fixed by the Collector the total amount paid by Telaprolu village was Rs.3,180 in Fasli 1228 and rose gradually to Rs.4,161 in Fasli 1241. While the ryots were prosperous and contented under the Collector's management, the young Zamindar who got possession of his estates in A.D. 1831, exacted no less than Rs.8,900 from Telaprolu in Fasli 1242 and Rs.5,895 in Fasli 1243. Then came the famine and in Fasli 1246, after the famine, the village paid only Rs.675; so all trace of the former prosperity had vanished. Mr.Russell's report on Telaprolu contains a deeply interesting account of the rack rents and extra collections by the Zamindar's retainers which left to the wretched cultivators barely enough for the support of life. Another Collector, Mr. P. Grant, made a similar survey of the village of Caitupalle, but no general action was taken upon the date furnished by these two isolated surveys.

Mr. H. Stokes in 1844 attempted to introduce an improved Revenue system in the resumed Zamindari estates of the Guntur District but was restrained by the conservative ideas of his Sheristadar, Nyapati Seshagiri Rao, who was supported in his cautious views by the then Board of Revenue. Mr. W. Elliott supported Mr. Stokes in his advanced policy and by 1850 the Guntur District had been brought under the system which in the old records is termed makta, and is sometimes called Ryotwari, but in truth differed very little from the joint village rents of the Masulipatam District. There was a fixed total demand on each village and the individual cultivators were left to apportion this demand. If remissions were necessary they were given in lumpsums to villages. The influential ryots secured their own interests at the expense of their weaker neighbours and all sorts of curiously old fashioned ideas of Revenue Administration, such as takids permitting cultivators to reap their crops and notion that no English-speaking native could be an efficient Sheristadar, survived in the Guntur Collectorate.

The old system of Revenue practice passed away with the introduction of Survey and Settlement rates of assessment. The work in the Guntur District was undertaken after that in Masulipatam it was laid before the Board towards the close of the year 1868, only after the completion of the survey operations in Palnad, the last taluk of the District by the Survey Department. The report of Mr. W. Wilson on the Guntur portion of the district is printed in the Board's Proceedings No.1628, dated 9th March, 1870. In Mr. Wilson's classification of the Guntur part of the district, as much as 90 per cent of the whole area was placed under varieties of the 'Regar' or black cotton soil and red soils were only 2 per cent. The highest class is the alluvial along the margin of the river. 60 villages with lands amounting to 6.6 per cent of the whole area were placed in the first or alluvial group. 200 villages with lands amounting to 21.3 per cent of the whole area, comprising the sand of the coast and the stony uplands of the interior, were placed in the third or the poorest class and the second or the principal group numbered 465 villages with lands amounting to 72.1 per cent of the whole area. This second group comprised the land in Repalle and Bapatla taluks, irrigated by the anicut, and the heavy loams near Prathipadu which bear good crops when the rainfall is timely. The rates on irrigated land varied from Rs.1-75 p .to Rs.7-50p. and on unirrigated lands from 25p. to Rs.4-50p. per acre.

One point upon which the Board of Revenue did not agree with Mr. Wilson was his proposal to regard as unirrigated, about 2,000 acres of land irrigated through the perennial springs in the great sand ridge running from Bapatla to Chinna Ganjam and these lands accordingly pay irrigated rates of assessment. Another point under discussion was the levy of three-fourth water rate on the lands irrigated from wells on the banks of the Gundlakamma and Nagileru streams in Vinukonda and the Palnad taluks. These wells are expensive stone structures and the water had to be lifted from the stream. The Board decided that no water rate should be levied.

The survey and Settlemtnt so introduced is in vogue in this district. Under the Madras Estates Land (Abolition and Conversion into Ryotwari) Act, 1949 the Zamindari Estates and Inams were abolished and taken over by Government paying due compensation to the Zamindars, Estate holders and Inamdars concerned. Survey and Settlement was also made in the taken over estates wherever found necessary and ryotwari settlement has been made in all parts of the district.

Revenue Administration of the district is now controlled by the Collector with headquarters at Guntur and he is assisted by three Revenue Divisional Officers stationed at Tenali, Guntur and Narasaraopet.

The headquarters division (Guntur) comprises Guntur and Sattenapalle taluks while Tenali, Bapatla and Repalle taluks are included in the Tenali Revenue Division. Narasaraopet division comprises Narasaraopet, Vinukonda and Palnad taluks.

With the separation of Judiciary from Executive in this district the functions relating to the trial of criminal cases etc., have been transferred to the Judicial Department. The Revenue Officers now exercise functions under the Criminal Procedure Code with reference to matters relating to the maintenance of Law and Order and keeping of peace etc.

(ii) Administrative Set-up

Changes in the Administrative Unit:

In 1985, the then existing 21 Taluks were reorganised into 57 Mandals. Corresponding to the Revenue Mandals, Mandal Parishads were also formed which are co-terminus with the Revenue Mandals in all cases except that the Statutory Towns are not included in the jurisdiction of the Mandal Parishads. 28 Mandals have been carved out by taking villages exclusively from each of the 16 erstwhile Taluks (i.e. without including villages from a second taluk). The remaining 29 Mandals have been formed by taking villages from more than one erstwhile taluk.

While comparing the list of villages at 2001 Census with that of 1991 Census there is an increase of 2 villages in total number of villages due to following changes. Four towns namely Vijayapuri South, Phirangipuram, Bhattiprolu and Tadepalle C.Ts. are declassified in 2001 Census. These four villages now became Revenue Villages.The rural portion of Vinukonda existed during 1991 has been fully included in Vinukonda (CT) during 2001.

As per 2001 Census this district has 57 Mandals, 717 Villages, 10 Statutory Towns and one Census Town. These 57 Mandals have been grouped into three Revenue Divisions in the district as shown below:

(1) Narasaraopet Revenue Division:

(1) Macherla
(2) Narasaraopet
(3) Chilakaluripet
H/o Purushothapatnam
(4) Vinukonda
(5) Veldurthi
(6) Durgi
(7) Rentachintala
(8) Karempudi
(9) Gurazala
(10) Dachepalle
(11) Machavaram
(12) Piduguralla
(13) Ipur
(14) Bollapalle
(15) Nuzendla
(16) Savalyapuram
H/o Kanamarlapudi

(17) Rompicherla
(18) Nekarikallu
(19) Nadendla and
(20) Edlapadu.

(2) Guntur Revenue Division:

(1) Guntur
(2) Sattenapalle
(3) Mangalagiri
(4) Tadepalle
(5) Phirangipuram
(6) Bellamkonda
(7) Rajupalem
(8) Krosuru
(9) Muppalla
(10) Atchampet H/o Chamarru
(11) Pedakurapadu
(12) Medikonduru
(13) Pedakakani
(14) Prathipadu
(15) Vatticherukuru
(16) Thullur
(17) Tadikonda
(18) Amaravathi
(19) Chebrolu and
(20) Pedanandipadu.

(3) Tenali Revenue Division:

(1) Tenali
(2) Ponnur
(3) Bapatla
(4) Repalle
(5) Bhattiprolu
(6) Duggirala
(7) Vemuru
(8) Amruthalur
(9) Kollipara
(10) Tsundur
(11) Kollur
(12) Kakumanu
(13) Pittalavanipalem
(14) Karlapalem
(15) Nagaram
(16) Nizampatnam and
(17) CherukupalleH/o Arumbaka.

(iii) Physical Features of the District

1.General:

Guntur district is part of Krishna Delta. The district extends approximately between 15°18' and 16°50' of north latitude and 79°10' and 80°55' of east longitudes. River Krishna bounds the district almost from three sides - Western, Northern and Eastern separating the district from Mahabubnagar, Nalgonda and Krishna districts. The Bay of Bengal lies in the South-eastern part of the district on the South. The district is bounded by Prakasam district.

The district occupies an area of 11,391 Sq.Kms. with a population of 44,65,144 of which 31,79,384 rural and 12,85,760 urban population. The percentage of rural population is 71.20% and while that of urban population is 28.80%. Schedule Caste population in the district forms 18.32% of the total population, while Schedule Tribe account for 4.66%. The density of population is 387 per sq.km. and the sex ratio 984 (number of Females per 1000 Males). There are 210 Towns in the State. Among them 11 Towns are located in the district including one census town. Among 23 districts in the state, Guntur district ranks 14th in terms of area and 2nd in terms of population.

2.Physiography:

This district is divided into three regions namely the delta, stony upland & hills and the black cotton plains constituting 25%, 30% and 45% of the district respectively.

The Eastern ghats and its outliers stretch along the Western fractiers of the district. Bare hillocks lie here and there in Guntur, Vinukonda and Sattenapalle mandals relieving the monotony of the scene and finally Palnad mandal forms an amphitheatre surrounded by hills. The hill ranges of Nallamalai, Venkatayapalem and kondaveedu are worth mentioning in the district. The general character of the rest of the district is flat open plain of black cotton soil broken by a few low hills, the chief of which is the Kondaveedu range (1700 ft.) in the Narasaraopet mandal. This plain is fringed along the sea coast by ridges of blown sand which extend inland for several kilometres.

3.Drainage:

The important rivers that traverse the district are the Krishna, the Gundlakamma, the Musi, the Chandravanka and the Nagaleru. The Krishna river which rises in Mahabaleswar in Maharashtra state after flowing through Maharashtra and Karnataka states and forming the border between Mahbubnagar and Kurnool districts reaches Guntur district near Ganikonda hills at the South-western portion of Palnad mandal and skirts the district along the entire northern and greater part of the Eastern boundary and after a course of nearly 128 Kms. finally falls into the Bay of Bengal. The river forms the dividing line between Guntur and Nalgonda districts on one side and Krishna and Mahbubnagar districts on the other side. The Gundlakamma river which rises in Cumbum of Prakasam district traverses separating Nuzendla and Vinukonda mandals in the district. The Nagaleru river rises in the hills near Nayakurali Kanuma in the Vinukonda mandal and flows northern across Palnad mandal and joins river Krishna. A stone dam constructed across it, at Dachepalle irrigates about 350 Acres of land, Chandra Vanka river also flows north across Palnad mandal and joins the river Krishna. There are other streams of minor importance in the district.

4.Climate and Rainfall:

The climate in this district is generally very warm in Summer. The Summer which is oppressive during April and May is severe in the upland areas especially in the tracks adjoining the hills. Rentachintala records the highest temperature both in the district as well as in the state. The district receives an average normal rainfall of about 890 mm of which 544 mm is received during the South-West mansoon between June-September. This district also received rainfall during North-East mansoon between October and December during the hot weather period between March and May.

Table (a)

Monthwise Maximum and Minimum temperature during the year 1997

	Jan	Feb	March	April	May	June	July	Aug	Sep	Oct	Nov	Dec
Maximum	29.2	31.0	32.3	35.3	39.1	36.0	35.0	33.6	32.5	30.5	30.1	29.6
Minimum	16.6	18.6	21.9	25.2	26.9	26.1	25.8	25.1	24.9	24.1	20.8	17.3

The annual rainfall of the district is 785mm. The district gets the benefits of summer showers during hot weather period and getting maximum rainfall of 544mm during south-west mansoon period (June-September). Moderate rainfall is receiving during the north-east monsoon period (October-December) i.e. 131mm. The district has recorded an average rainfall of 785mm during 1999-2000 as against the normal rainfall of 890mm. The season-wise rainfall for 1999-2000 is as follows:

Table(b)

Season-wise rain fall during 1999-2000

Season	Rainfall (in mm)
1. South West monsoon (June to September)	544
2. North East monsoon (October to December)	131
3. Winter period (January to February)	42
4. Hot weather period (March to May)	68
5. Total (June to May)	785

Source: *1. DCHB of 1991 Census, Guntur*

2. Statistical Abstract of Andhra Pradesh, 2000.

5.Forestry :

The forest area in the district is 1620 Sq.Km. which is 14.20% of area of the district. It is far less than the national minimum fixed by the Government of India. The species grown are miscellaneous type of dry deciduous. In order to improve vegetation as well as to protect the forests, the Government of Andhra Pradesh has launched Andhra Pradesh Forestry Project scheme under "Joint Forest Management" concept in the year 1993. The other schemes are also being implemented to improve the green cover like area oriented Fuel Wood and Fodder Project Scheme, Employment Assurance Scheme, Rural Infrastructure Development Fund (NABARD), etc. Forest programmes are being under taken on reserve forest areas, tank fore shore and communal lands, road margins, canal banks, etc. The Revenue derived through forest produce in the district is estimated at Rs.34.54 lakhs per year.

The plants that are raised in the forest area areTeak, Eucalyptus, Casuarina, Cashew, etc. The Forest Department upto 1999 year has raised the following plantations.

Sl.No.	Plantation	Area in Hectares
1	2	3
1	Teak	1,589
2	Eucalyptus	17,174
3	Casuarina	7,092
4	Cashew	6,462

The product-wise forest revenue derived during the year 2000 is furnished below

Sl.No.	Product	Revenue (in Rs.'000)
1	2	3
1	Timber	685
2	Firewood	56
3	Bamboo	5,575
4	Other Forest Product	4,130
5	Miscellaneous	27,516
	Total	37,962

Source: *Statistical Abstract of Andhra Pradesh, 2000.*

6.Flora and Fauna :

Botanically, the flora of the district may be classified as Inland flora, Coastal flora and Esturine flora.

The inland flora that are commonly seen are 1.Acacia Arabica (Nalla Tumma), 2.Acacia Latromum (Paki Tumma), 3.Gymnosporiamontana (Danthi), 4.Albizziaamara (Nallaregu or Chikireni), 5.Albizzia Lebbeck (Dirisiam), 6.Albizzia Odoratissima (Chinduga), 7.Acacia Leucophloea (Tella Tumma) etc. Apart from these, inland flora includes casuarina equisetifolia, prosopis juliflora and eucalyptus trees whose leaves contain medicinal oil.

The common indigenous coastal flora are

mimusops hexandra (Pala), memecylon edule (Alli), Strychnos Nux-vomica (Mushti) and Sapindus emarginatus (Kunkudu). The coastal flora is rich in medicinal plants like strychnos nux-vomica, root tubers of Gloriosa Superba and Hemidesmus indicus (Sugandha Pala).

The estuarine flora is also evergreen and they may be subdivided into mangroves and halophytes. The Mangroves develop special adaptations such as the pneumatophores, stilt roots and viviparous germination in order to survive the swampy and anaerobic conditions of the soils.

The unfavourable natural factors, aggravated by the advent of modern weapons and other means of hunting, have made wild life very scarce in this district. Carnivora like the tiger (Panthera tigris) and the Panther (Panthera pardus) are very rare. Members of the deer family like the Sambur (Cervus unicolor), the barking deer (Muntiacus Muntjakaurens), the black buck and the chinkara (Gazella gazelle bennetti) occur in small numbers. The wild pig (Susserofa Cristatus) and porcupine (Hystrix Indica) are extant and are known to cause damage to agricultural crops in the upland mandals. The hare is commonly found. Of the birds, the peafowl, the Partridge (francolinus species), the Quail (Coturnix species), and the Jungle fowl (Gallus species) are common in the upland forests, while in the estuarine tract, aquatic birds such as the duck and teal, the heron, the egret, the migratory flamingo and the pelican relieve the monotony of the lifeless mangrove forests.

7.Minerals:

Geographically, Guntur district divided into 4 regions viz. (1) Shield area on Western part (2) Coastal plains on Eastern parts (3) Uplands on Southern Part, comprise of Sedimentary rocks and (4) part of uplands covered with fertile red soils. Geographically in this district, South Western part consists of Sedimentary rocks like rich limestone deposit available in Piduguralla, Pillutla, Machavaram, Nadikudi, Gandapadu, Gurazala and Macherla. Eastern ghat hill ranges trending NE-SW bifurcates the shield area on Western parts and Coastal Plains on the Eastern part and these hill ranges useful for road metal and other building materials. Basing on the materials available in the district, 2 major cement plants and 2 tiny cement factories, 38 pulverising units, 105 stone crushing units, 6 granite tile polishing units and cottage industry like Brick Kilns nearly about 4,000 are set up. The above industries are useful for avenues of employment generation. Besides the above minerals the Diamond bearing gravels spreading in Kollur and Bodhanam area are bright prospecting locality. Lead and Zinc deposits associated with dolomatic limestone are found in Bollapalle Mandal. Recent investigation work by Atomic Mineral Division for Nuclear Minerals like Uranium, Thorium, Niobium, Tantalem, etc., is under progress at Karempudi Mandal and Nagarjuna Sagar area. The district is rich in Mineral resources. The principal minerals available are limestone, lime kankar, napa slabs, copper and lead. Limestone is being utilized by the cement factories of Macherla and Tadepalle. There are Copper Mines at Agnigundala of Ipur mandal.

The production of principal minerals in the district together with their value are given below.

Sl.No.	Type of Mineral	Production	Value(in Rs.'000)
A	**Major Minerals**		
1	Lime Stone	2,455 MT	146095
2	Lead Coricentrate	5,239 MT	83054
3	Slate Stone	140 MT	N.A
4	Quartz	1,060 MT	N.A
5	Clay	399 MT	N.A
6	Copper, Lead & Zinc	11,459 MT	N.A
B	**Minor Minerals**		
1	Road Metal/ Rough stone	111,907 M^3	N.A
2	Mosaic Chips	30,827 MT	N.A
3	Color Granite	727 MT	N.A
4	Lime Stone	103,813 MT	N.A
5	Gravel	700 M^3	N.A
6	Slate	1,832 MT	N.A
7	Slabs (Lime-Stone)	6,720 M^2	N.A
8	Napa Slabs (Black)	2,099,236 M^2	N.A
9	Marble	838 M^3	N.A

8.Soils:

The black cotton and red loamy soils are predominant in the district. 69% of the total area of the district is black cotton while in 24% of the total area the red loamy soils occurs predominantly. The black soil of the district is considered most fertile and small extent of alluvial soils are also found along the bank of Krishna river.

Source: *Write up report from District Collector, Guntur*

9.Cropping Pattern:

The predominant crops grown in the district under cereals are Paddy, Jowar and Bajra. Under pulses the Black gram, Green gram and Red gram are important. Cotton, Chillies, Turmeric and Tobacco are among non-food and commercial crops grown in the district.

The following table gives the information on area of Crops:

Sl.No.	Crops	Area in Hectares	Out turn in Tonnes
1	Paddy	3,177,081	1,022,581
2	Chillies	59,256	111,260
3	Turmeric	4,237	25,303
4	Sugarcane	2,229	19,626
5	Jowar	1,202	441
6	Maize	7,608	29,124
7	Cotton	139,425	252,605
8	Banana	6,192	161,884
9	Groundnut	3,995	8,329
10	Tobacco	8,537	16,314
11	Onions	1,593	23,110
12	Bengal gram	868	965
13	Red gram	37,941	22,006
14	Green gram	15,828	9,572
15	Black gram	142,684	117,895
16	Sesamum	13,638	6,027

Source: *(1) Statistical Abstract of Andhra Pradesh, 2000.*
(2) Hand Book of statistics, Guntur 1994-1995.

10.Land Use Pattern:

The total Geographical area of the district is 27,99,264 Acres and the net are sown is 15,71,851 Acres constituting 56.15% of the total geographical area.

The land use pattern of the district during the year 1998-1999 is as follows:

Sl. No.	Land use Pattern	Area in Acres	% to Geographical Area
1	Geographical Area	2,799,264	
2	Forests	385,856	13.8
3	Barren & Cultivable Land	100,185	3.6
4	Land put to non-agricultural uses	363,715	13
5	Permanent Pastures	59,708	2.1
6	Miscellaneous tree crops	101,543	3.6
7	Cultivable waste	98,948	3.5
8	Other follows	52,108	1.9
9	Current fallows	46,715	1.7
10	Net area sown during 1998-1999	1,571,851	56.1
11	Area under fish ponds	18,635	0.7

Out of 15,71,851 acres of net area sown the net irrigated area is 8,84,996 acres forming 56.30% of the net area sown. The area irrigated under different sources of irrigation as per 1998-1999 Agricultural season is detailed below.

Sl. No.	Sources	Area in Acres
1	Canals	752,759
2	Tanks	12,719
3	Tube wells	74,139
4	Dig wells	8,941
5	Others	36,328
	Total	884,996

The total net area irrigated in the district is 8,84,996 acres.

Land Holdings:

There are 6.62 Lakh land holdings with an operated area 6.92 lakh hectares in the district. There are 3.94 lakh holdings with an operated area of 1.92 lakh holdings in the size class holdings of below 1 hectare and 1.19 lakh holdings with an operated area of 1.67 lakh hectares in the size class of 1 to 2 hectares. There are 5.13 lakh land holdings upto 2 hectares constituting 77% of the total holdings while the operated area constitutes about 51.88% of the total operated area.

Source: *A report from Joint Director of Agriculture, Guntur.*

11.Agriculture:

Agriculture is the main occupation of Rural Population in the district. The district occupies foremost place in the state for the cultivation of Food and Non-food crops especially paddy, cotton and chillies. With the advent of Nagarjuna sagar Project and the efforts made by the Government to provide minor irrigation facility during the decade the irrigated area has been increased from 8,76,760 acres during 1990-1991 to 8,84,996 acres during 1998-1999. The production of rice has been considerably improved from 9.61 lakh metric tonnes in 1990-99 to 10.21 lakh metric tonnes during 1998-1999 due to increase in per acre productivity. The district stands in 4th place in the productivity of rice in Andhra Pradesh State. Commercial crops like Cotton, and Chillies occupy 2nd and 3rd place in area coverage in the district. This district occupies prominent place in production of Cotton and Chillies. Other crops grown in the district are Red gram, Green gram, Black gram and Groundnut.

Out of the total cropped area of 21.51 lakh acres, the area covered during Kharif season is 15.52 lakh acres constituting 72.18%, while the remaining area is covered during Rabi season. Pulses and Groundnut are the important crops sown during season.

Out of the gross cropped area of 21.51 lakh acres, the food crops constitute 67% whereas the non-food crops cover the remaining 33%.

The following table describes about area under principal crops and out turn yield for the year 1999-2000.

Sl.No.	Name of the Crop	Area in Hectares	Out turn (in Tonnes)	Yield per Hectare (in Kgs)
1	Rice	3,177,081	1,022,581	3,316
2	Jowar	1,202	441	367
3	Bajra	142	159	1,123
4	Maize	7,608	29,124	3,828
5	Ragi	10	17	1,749
6	Bengal Gram	868	965	1,112
7	Red Gram (Tuer)	37,941	22,006	580
8	Green Gram (Mung)	15,828	9,572	605
9	Black Gram (Mash)	142,684	117,895	826
10	Groundnut	3,995	8,329	2,085
11	Castor	1,431	124	87
12	Sesamum	13,638	6,027	442
13	Nepe & Mustard	850	151	0
14	Coconut	522	5,673	0
15	Sunflower	23	8	0
16	Other oil seeds (Edible & Non-edible)	4,897	25,356	0
17	Cotton	139,425	252,605	308
18	Sugar Cane	2,229	19,626	8,805
19	Tobacco	8,537	16,314	4,067
20	Onions	1,593	23,110	0
21	Chillies	59,256	111,260	0
22	Turmeric	4,237	25,303	0
23	Bananas	6,192	161,884	0
24	Sweet Potatoes	186	1,286	0
25	Bombay Hemp (Mesta)	40	327	0
26	Ginger (dry)	17	44	0
27	Coriander	140	63	0
28	Mangoes	0	962	0
29	Guava	0	489	0
30	Citrus fruits, oranges, Mosambi & others	0	1,895	0
31	Papaya	0	49	0
32	Sapota	0	1,167	0
33	Cashewnut	0	100	0
34	Gourds	0	1,911	0
35	Bendi	0	2,090	0
36	Brinjal	0	1,871	0
37	Greens	0	685	0
38	Cabbage	0	254	0
39	Beans	0	619	0
40	Tomatoes	0	1,549	0
41	Flowers	0	684	0
42	Betal leaves	0	542	0
43	Fodder crops	0	66,387	0

Agriculture machinery and implements used in Guntur district during the year 1999-2000 are shown in the following table:

Sl. No.	Name of the Machinery & implement	Number of machines
1	Ploughs	50,072
2	Diesel engines	5,498
3	Electric pump	10,175
4	Tractors	4,368
5	Sprayers	53,017
6	Sugarcane crane crusher	53

12.Irrigation:

The two major irrigation projects in the district are (1) Old Krishna Ayacut, now renamed as Prakasam Barrage with an ayacut of 2,02,032 hectares and (2) Nagarjuna Sagar Project with an ayacut of 2,54,583 hectares. Both the projects are constructed on the river Krishna. A medium irrigation channel by name Guntur Branch Canal (GBC) having an ayacut of 10,823 hectares and the Minor irrigation sources like tanks, filter points, tube wells, etc. are providing irrigation.

13.Animal Husbandry:

About 71% of the population in Guntur district mainly depend on agriculture. They mostly stay in rural areas, however the live-stock plays important role in rural economy of the district.

Artificial Insemination:

The district has good quality buffalows and their milk yield have increased with the implementation of Artificial Insemination Programme, Veterinary Services and Fodder Development Programme. There are 319 Artificial insemination centres functioning in the district. Among them 211 centres under Animal Husbandry Department and 108 centres under Sangam Dairy are functioning in the district.

Sheep Development:

So far 43 primary sheep breeders co-operative societies have been registered provisionally in the district. Out of them, 38 primary sheep breeders co-operative societies have got registered.

Dairy Development 1994-1995

Sl. No.	Particulars	No.
1	Milk Chilling Centres	2
2	Milk Collection Centres	140
3	Co-Operative Societies	641
4	Average Monthly Procurement	4,322.80 litres
5	Average Monthly Sales	1,044.50 litres
6	Average Procurement Price	Rs.7.00 per litres
7	Average Sales Price	Rs.8.00 per litre

The following live stock are registered in Guntur District during the year 1999-2000

Sl. No.	Name of the live stock	Population
1	2	3
1	White Cattle	141,000
2	Black Cattle/Buffaloes	1,156,248
3	Goats	232,429
4	Sheep	492,244
5	Pigs	59,978
6	Horse Ponies	517
7	Other live stock	100
8	Total live stock	2,082,516
9	Dogs	76,262
10	Total poultry	2,873,646
11	Donkeys	336

The following Veternity Institutions are functioning in the district.

Division	Number of Veternity Institutions						
	AHC	VPOs	V.Hospitals	V.Ds.	Rural	Other	Total
Guntur	2	1	16	4	161	101	285

There are 16 Veternity Hospitals and 161 live stock units and similar institutions. There is one centralized semen collection centre and 211 departmental artificial insemination centres are functioning in the district under Animal Husbandry Department and 108 Artificial insemination centres are functioning under Sangam Dairy and 207 doorstep A.I Centres are functioning in the district.

The Guntur District Milk Producers Co-operative Limited, Vadlamudi was started in the year 1970 to develop dairy activities in the district. The installed capacity of this unit is 2.5 lakh litres milk per day. The Co-operative Union is providing emergency Veterinary services and supplying fodder seed on subsidy basis for the benefit of the cattle growers in the district. There are two milk chilling centres and 140 milk collection centres with an average procurement of 43 lakh litres of milk per month.

At present there are number of Technical persons involved to undertake live stock development. Their strength is given below.

Sl. No.	Subject	Number
1	Joint Director	1
2	Deputy Directors	2
3	Assistant Directors	18
4	V.As.	105
5	Para Veterinary Staff	264
6	Junior Assistant Surgeons:	
	(a)Live stock Assistant	51
	(b)Veterinary Assistant	148
7	Others:	
	(a)Village Development Officers	4
	(b)Radiographer	1

14. Fisheries:

The Guntur district is having a coastline of 42 Kms. The river Krishna is flowing through the Northern and Southern boundaries of Guntur district with a length of 220 Kms. The district is rich both in Marine and inland Fish Farming. There are 1,302 inland tanks in the district spreading over an area of 40,000 hectares. In addition, there are two reservoirs spreading over an area of 30,492 hectares highly congenial for inland fish farming. The Marine fishermen population is 42,015 out of which 14,309 are active fishermen. The estimated Marine Fish landing are 9,562 tonnes and inland Fish production is 9,494 tonnes per year.

15. Industries:

There are 44 Large and Medium Industries functioning in the district with a capital investment of Rs.49,554 lakhs providing employment to 12,314 persons. There are 6,007 Small Scale Industries functioning with a capital investment of Rs.50,751.42 lakhs providing employment to 85,135 persons. The products

Source: *(1) Hand Book of statistics,. Guntur 1994-95.*

(3) Write up report from District Collector, Guntur.

manufactured in the above industries are Textiles, Agro Based Chemicals, Utensils, Wooden Furniture, Cotton ginning, Edible Oils, Cement, Lime cold storages, etc. Besides Large and Small Scale industries, self employment programms like P.M.R.Y. are being implemented to provide employment to the unemployed. During the year 1998-1999, 1,273 units were grounded with an investment of Rs.712.23 lakhs. The industrial estates are located at Guntur, Tenali, Narasaraopet, Bapatla, Sattenapalle, Nowlur, Dokiparru (MIE for SC/ST) and industrial development area at Guntur and Nadikudi in the district. Steps are being taken to establish industrial estates at Chilakaluripet, Piduguralla and Macherla. There are 59 industrial co-operative societies functioning in the district.

(2) Write up report from District Collector, Guntur.

16.Trade and Commerce:

Guntur district is one of the important Trade and Commerce centres in agricultural production. Prior to 1991 there were 13 Agricultural Market Committees functioning in the district with the rapid strides made in the field of agriculture. The agricultural production and volume of trade has improved many fold in the district in the last decade. As a result three more Agricultural Market Committees had been constituted and at present there are 16 Agricultural Market Committees functioning catering to the growing needs of the farming community in the district. To cope with the new challenges thrown by the agriculture sector in the light of the international trade agreement under World Trade Organisation, the Marketing Department has introduced noval schemes such as Rythu Bandhu Pathakam, Rythu Seva Kendram, Link Roads Scheme and Rythu Bazars, etc. to benefit both the farmers and consumers.

Centralization of Trade:

There are three Agricultural Market Committees at Guntur, Tenali and Duggirala functioning in the district throughout the year transacting Chillies, Pulses and Turmeric respectively. In addition to this, Cattle Trade is centralized in Narasaraopet Market Yard on weekly basis. The arrivals and valuation of the commodities transacted in the market yards is furnished here-under.

Sl. No.	Name of the Agricultural Market Committee	Commodity	Arrivals (in Quintals)	Value (Rs. in Lakhs)
1	2	3	4	5
1	Tenali	Black gram	35,854	963.98
2	Narasaraopet	Cattle	20,398	398.78
3	Duggirala	Turmeric	2,44,631	3,400.70
4	Guntur	Chillies	687,613	130.64

Rythu Bandhu Pathakam:

Rythu Bandhu Pathakam is an important scheme launched by the Government with a view to provide temporary financial assistance to the needy farmers without resorting to distress sales when the prices are not remunerative to them.

Rythu Seva Kendram:

Rythu Seva Kendram is another important scheme introduced by the Government in order to provide quality seeds, fertilizers and pesticides to the farmers in the Agricultural Market Yards where the farmers are supposed to sell their produce.

Rythu Bazarulu:

'Rythu Bazarulu' are innovative scheme introduced by the Government with a view to make the farm fresh vegetables available to the consumers at reasonable prices by the farmers who produce the vegetables in their fields. In doing so the farmers not only get remunerative prices but even more to their produce. They will be freed from the clutches of commission agents in the whole sale vegetables market where commission and other incidental charges are collected at exorbitant rates. There are 8 Rythu Bazars functioning in the district.

17. Transport:

The National Highway No.5 is passing through Guntur district for a length of 409.38 KM and the Railway line linking Hyderabad with Madras of the South Central Railway traverses. Guntur is an important Railway Junction and it is connected with Macherla, Vijayawada, Machilipatnam, Hubli, Tenali and Repalle. 30 Mandals in the district

18.Electricity and Power:

The Electricity authority of the state have informed vide their letter No.C.E./ Plg/E.M.E(1)/ABE(1)/D.No.188/99 dated 06.11.1999, that all the revenue villages in Andhra Pradesh have been electrified and it is for "All purposes". Hence, all the villages in Andhra Pradesh are treated as electrified.

There are 77 Electrical Sub-stations in the district. Out of which one is 220/132 KV Sub-station, 9 are 132/33 KV Sub-stations and 67 are 33/11 KV Sub-stations. 1,006 Hamlets, 1,540 Dalithwadas, 603 weaker section colonies were electrified so far in the district. 29,346 agricultural pump sets were also energized.

The length of different transmission lines during 2000 year is as follows:

Sl. No.	Voltage of line	Unit	D.C.	S.C.
1	220 KV Line	DC/SC	171.982	88.322
2	132 KV Line	DC/SC	94.020	483.300

(iv) Major Social and Cultural events, natural and administrative developments and significant activities during the decade

During the decade 1991-2001 no significant social and cultural events have occurred in the district. In respect of administrative developments also no major changes have taken place in the district during the decade.

As regards significant activities, the prevention of Child Labour, Social Security Schemes, Janmabhoomi, Cheyutha and Spandana programmes are worth mentionable in the district during the decade.

In the year 1996 under the chairmanship of the District Collector the 'Bala Karmika Vikasa Samithi' has constituted. The main aims and objectives of the Samithi are conducting surveys on vulnerable child labourers in hazardous occupations, creating awareness among the public about the steps taken by the Government to eliminate child labour, implementing programmes like creating public awareness, running special schools, imparting non-formal education and generating income and employment opportunities, etc.

The Social Security Schemes such as payment of pensions to the aged, widows, landless agricultural workers and physically handicapped persons are implemented in the district.

During the decade, as in the other districts, a novel scheme called "Janmabhoomi" has been launched on the new years day 1997 by the Government of Andhra Pradesh. This adds new dimension particularly in rural development in the sense that people are involved in decision making and development process. The main activities taken up under this programme are aimed at achieving the basic needs of the people belonging to both rural and urban through "Sramadhanam" with the people's participation.

As in the other districts, in this district also, with the inspiration of Janmabhoomi programme, 'Spandana' another novel scheme totally envisaged by the district administration for the overall development of villages has been taken up with the aims of

1. Education for all.
2. Family Planning Programmes.
3. Usage of Bio-gas plants/Smokeless Chullas to prevent air pollution.
4. Clean village concept.

Yet another novel programme envisaged by the district administration for benefiting the physically handicapped in the district is called 'Cheyutha'. All the Government officials connected with the physically handicapped will sit under one roof and do the needful then and there. The benefits such as issue of physically handicapped certificate by the Medical Board, RTC Passes, Railway Passes, Registration in Employment Exchanges, etc., were extended besides giving aids and appliances to the identified handicapped persons.

(v) Brief description of places of religious, historical or archaeological importance in villages and places of tourist interest in the towns of the district

(i) Places of Religious, Historical or Archaeological Importance : Places of religious institutions (temples) and mutts and charitable institutions and institutions of historical or archaeological importance in the district are presented in the following statement for the convenience of the readers.

(ii) Places of Tourist Interest:

Bapatla (Bapatla Mandal):

Bapatla town is said to have been named after Bhavanarayanaswamy, the presiding deity as Bavapatla or Bavapuri and came to be called Bapatla gradually. Lying on the Chennai-Kolkata line, it is at a distance of 49 Kms. from Guntur. It is well connected by buses. Of all the temples in the town, the Bhavanarayanaswamy temple is the ancient and famous. The temple is of interest both, historically and architecturally.

Nidubrole (Ponnur Mandal):

It is situated at a distance of 21 Kms. to the north of Bapatla town and is adjacent to Ponnur on the road from Guntur to China Ganjam. This village is included in Ponnur Municipality. It is a railway station on the Vijayawada-Chennai broad gauge line. There are three old temples dedicated to Chodeswaraswamy, Chennakesavaswamy and Vinayaka. There are several rice mills, timber depots, printing presses and mechanical workshops in the town. Handloom weaving and spinning khadi yarn are also in existence here. Brick-making and furniture-making are some other industries. Betel leaves and rice form the important commodities of export. It is the birth place of late Prof. N.G. Ranga, hailed as the 'Father of the Indian Kisan Movement', senior most and veteran Member of Parliament for a long period. During the Freedom Struggle and later, several leaders took their lessons here in 'Gobhumi' - the political school set up by Prof. Ranga. It was visited by several national leaders like Mahatma Gandhi, Netaji Subhash Chandra Bose, Pandit Jawaharlal Nehru, Dr. Rajendra Prasad, Sardar Vallabhai Patel, Acharya J.B. Kripalani, Smt. Indira Gandhi, etc.

Amaravathi (Amaravathi Mandal):

This village is the most important spot in Amaravathi Mandal along with the neighbouring village of Dharanikota. It is situated at a distance of 35 Kms. to the northwest of Guntur. There is a world famous Buddhist Stupa depicting scenes from the life of Buddha, embodying various Buddhistic emblems, symbols and also inscriptions in Pali character. It has many tourist facilities and commands a vast stream of pilgrims all through the year. The Siva temple at Amaravathi is one among the famous shrines that are dedicated to Lord Siva in the district. A large congregation assembles here on the Mahasivaratri day (February-March).

Guntur (Guntur Mandal):

Guntur is a class I city with a population of more than 4 lakhs and lies on the Vijayawada-Chennai trunk road, about 9 Kms. to the east of the picturesque Kondaveedu range of hills. It is the headquarters of the district of its name, revenue division and mandal. It is one of the oldest municipalities having been constituted in A.D. 1866. It is an important railway junction and it is connected by rail with Macherla, Vijayawada, Machilipatnam, Hubli, Tenali and Repalle. Buses ply from this place to all important places within and outside the district including the State headquarters. This city is an important commercial centre with tobacco curing barns, rice mills, cotton and oil mills.

Lam (Tadikonda Mandal):

It is a village situated on the Guntur-Amaravathi Road at a distance of over 8 Kms. to the north of Guntur. Lam is well-known for the Agricultural Research Station, the Government livestock Farm and the Chillies Research Station. It is also known by a tank called 'Bhairavakunta' with a small stone by its side containing nine idols, an image of Vinayaka and a brass image of Anjaneya besides and an inscription in Sanskrit in archaic characters engraved on a boulder. Within about 91 metres are the images of Kalabhairava and Durga carved on two other boulders mentioning 'Lamu' and recording the tolls payable by certain classes.

Mangalagiri (Mangalagiri Mandal):

Situated on the Vijayawada-Madras trunk road, about 13 Kms. from Vijayawada and 19 Kms. from Guntur, Mangalagiri has carved out for itself a great name almost from prehistoric times. Its name indicates its situation on the hillock after which the town itself is known and is said to denote the "hill of bliss". The unique feature about the famous temple of Lakshminarasimhaswamy on the hill is that the deity into whose mouth Panakam (Spiced jaggery water) is poured, throws back half the quantity as 'prasada' to the devotees indicating thereby the satisfaction of the Lord. Another interesting feature is, not an ant

is found either in the Sanctum Sanctorum or even nearby, inspite of the incessant preperation of 'Panakam' with jaggery. The Lord is popularly referred to 'Panakala Narasimhaswamy' by virtue of this offering. The hill at which the temple is situated resembles a reclining elephant and looks majestic from a distance.

Nallapadu (Guntur Mandal):

It is situated at a distance of 5 Kms. South-West of Guntur and is referred to as Narasingapuram after the temple of Narasimhaswamy on a hillock about 1.6 Kms. away. Nallapadu is a place known for some ancient temples. The Agastheswaraswamy temple, with its decorated Dhvajastambham and carvings of five hooded 'nagas' (Serpents), enshrining Siva and Bramaramba and with the temple of Sankaracharya situated in the same compound is known for its antiquity. This temple is situated on an elevated platform with a big gateway at the entrance and a huge rectangular slab on which two pairs of feet are carved.

Tadepalle (Tadepalle Mandal):

This village is situated at a distance of 1.6 Kms. to the south of Krishna river and is a railway station on the Vijayawada-Guntur line. In 1991 this village was a census town, while in 2001 it has been declassified as a revenue village. It is interesting to know that Tadepalle village of Guntur district has formed outgrowth to Vijayawada Municipal Corporation of Krishna district. In the temple of Malleswara at nearby Penumaka, an annual *utsavam* is held when the deity of Mangalagiri is brought here for worship. The head works of the Krishna Barrage named after Tanguturu Prakasam, a spring bridge constructed over the Nizampatnam canal, the wharf on the Buckingham canal which are in the vicinity are some of the interesting spots attracting the attention of the visitors.

Undavalli (Tadepalle Mandal):

The Undavalli village lies on the southern bank of the river Krishna, on the way to Penumaka, about four kilometres from Vijayawada and two kilometres from Krishna Barrage and a little higher up are the famous Undavalli caves which have lent themselves to considerable historical research. These caves are associated with the Vishnukundin Kings and are dedicated to Ananta Padmanabhaswamy, their tutelary deity. In point of sculptural superiority and architectural excellence, the Undavalli caves compare well with those of the Ajanta caves.

Vangipuram (Prathipadu Mandal):

Situated 21 Kms. south-west of Guntur and over 7 Kms. to the east of the Guntur-Parchur road, this village is originally called Achichchatrapuram. The most important temples at this place are those of Agastheswaraswamy and Vallabharajaswamy. The deity Vallabharajaswamy is believed to have been installed by Anantadandapale, the commander of Narasimhadeva of Cuttack. The compound wall and Mantapam were constructed by Kakatiya Prataparudra and later it was rebuilt by Vangipuram Ramakrishnayya. The sixteen-pillared Antaralayam sculptured in the Kakatiya style is the most imposing aspect of the temple.

Chejerla (Nekarikallu Mandal):

This village is situated 33 Kms. north-east of Narasaraopet. It is reputed for its temple of Kapoteswara, one of the very earliest Hindu temples in the Andhra area, the origin of which dates back to the third or fourth century A.D.

Kondakavuru (Kotappakonda) (Narasaraopet Mandal):

This village is situated 12 Kms. south-west of Narasaraopet town. As this village is on the western side of Kotappakonda, it is called as such to distinguish it from Kavuru, another village in this mandal. There is a hill with three peaks near this village known as Trikuta Parvatam, popularly called Kotappakonda and the deity on this hill is named Trikoteswara. Kotappakonda is a very important place of pilgrimage. The shrine upon the hill is somewhat modern. It is at a height of about 182 metres above the plain. The fair celebrated for Sivaratri festival is known as "Kotappa Konda Thirunala" which is visited by 2-4 lakhs of pilgrims.

Dachepalle (Dachepalle Mandal):

This village on the Guntur-Macherla highway lies 11 Kms. to the north-east to Gurazala town, the headquarters of Palnad and 90 Kms. to the west of Guntur. The remains of the old fort can be seen in the neighbouring villages especially at Ubbepalle near Gamalapadu where there is a small 'Sambhunigudi', containing a great deal of carved stone and four or five inscriptions ranging from A.D. 1300 to A.D. 1537. The temple of Ranganayakaswamy, which is an

ancient one at the place, is noted for its architectural beauty.

Durgi (Durgi Mandal):

This village derived its name from the existence of a temple of Goddess Durga on the eastern side of the village. It is at a distance of 12 Kms. to the Macherla town. It is connected by a metal road from Gurazala, Macherla and Veldurthi (Veludurthi). On the southern side of the village there are hill ranges with reserved forests, while on the western side is the Buggavagu reservoir. The ruins of fortifications in the heart of the village bear testimony to the existence of a fort in the bygone days. The village is full of interesting remains, among which nine inscriptions throw light on the Kakatiya dynasty. This village is famous for the carving of stone idols and hence the Government of India has started a stone carving industry at this place for imparting training in this art.

Guttikonda (Piduguralla Mandal):

Guttikonda, an ancient village is situated 23 Kms. South-east of Gurazala on the Narasaraopet-Gurazala highway and is eight kilometres away from Piduguralla railway station. About three kilometres south of the village, there is a famous historic cave called the 'Guttikonda Bilam'.

Macherla (macherla Mandal):

Located about 29 Kms. to the west of Gurazala, the headquarters of Palnad, Macherla is an important and ancient place in the mandal. White and Red stones quarries are present in and around Macherla. Macherla contains numerous remains of antiquity dating back to A.D.1249.

Piduguralla (Piduguralla Mandal):

It is situated 34 Kms. east of Gurazala on the Guntur-Pondugula highway and is a railway station on the Guntur-Macherla metre guage line. It is known as the Gateway of Palnad. There is an old fort nearby the village and it contains two ruined temples. There is a stone slab between the village and the old fort with an old inscription not yet deciphered. Many broken carvings and other remnants of old temples are also seen.

Pondugula (Dachepalle Mandal):

Pondugula is situated north of Gurazala on the bank of the Krishna river and is 47 Km to Macherla Town. Of the temples at the place, the one dedicated to Gantala Ramalingeswara Swamy is considered important and it contains some inscriptions on its pillars in pali. The temple of Bobbanagi in Ayyagaripalem, a hamlet of Pondugula, on the bank of the Dandivagu, which is declared a protected monument, contains two inscriptions in Sanskrit.

Rentachintala (Rentachintala Mandal):

Rentachintala lies 108 Kms. west of Guntur town and 10 Kms. west of Gurazala. It is connected with Guntur by both road and rail and is a railway station on the Guntur-Macherla metre gauge line. Rentachintala is noted for its marble stone industry and also for its unbearable heat during summer.

Thallapalle (Macherla Mandal):

The upland village of Thallapalle is located 6 Kilometres to the north west Macherla and buses ply to this place from Macherla. The revulet Chandravanka falls from a height of about 21 metres within the limits of this village and the resultant waterfall is known as 'Ethipothala'. It is a tourist spot.

Bhattiprolu (Bhattiprolu Mandal):

Bhattiprolu, a major panchayat and headquarters of the block of the same name, is situated at a distance of about 10 Kms. to the north of Repalle town. It is connected by road and is a railway station on the Repalle-Guntur broad gauge line of the South Central Railway. The town contains a damaged Buddhist Stupa and marble pillars. The Stupa according to the Archaeological Department yielded three votive caskets.

Gudavalli (Cherukupalle H/o Arumbaka Mandal):

This village is situated at a distance of 15 Kms. to the north-west of Repalle town and about 9 Kms. away from the Bhattiprolu Railway Station. To the north of the village, there exists a mound known as 'Jathivadi Dibba' or foreigner's mound. This place is also important in the district for cattle breeding and cattle trade.

Pedapulivarru (Bhattiprolu Mandal):

This ancient village lies 8 Kilometres to the north of Repalle town on the right bank of the river Krishna and is connected by a road from Vellatur and Bhattiprolu. The temples of Narendreswara Swamy and Varadaraja Swamy existing here are ancient and held in great veneration. The temple of Narendreswara Swamy is situated in the centre of the village and a white marble Sivalingam is installed in the main shrine and it is said that sun rays fall directly on it at sunrise on every Sankranthi day. There is also a huge bronze image of Nataraja called 'Tandaveswara' in this shrine. Facing the Narendreswara Swamy temple is the Varadaraja Swamy temple. The temple has a closed Mukhamantapam in front of the three Garbhalayams which are provided with huge brass bearing highly decorative carvings. The Garbhalaya contains all the ten images of the 'Dasavatara'.

Aminabad (Phirangipuram Mandal):

It is an upland village situated 18 Kms. south-east of Sattenapalle and about a kilometre from the Guntur-Narasaraopet highway. There are several temples around Aminabad, two of which are conspicuously placed on rocky eminences and from a distance look like Grecian fanes. These may be of Jain Origin. Of the many inscriptions found in this village, a large number are not yet deciphered. It was the headquarters of Amin-ul-Mulk, a Governor, who changed the name of the village after his name as Aminabad.

Bellamkonda (Bellamkonda Mandal):

The village is situated 19 Kms. west of Sattenapalle by the side of the Guntur-Pondugula road near Bellamkonda railway station. There is a hill fortress here. It consists of a single stone wall connecting the principal elevated points of the hill and having tower bastions at the south-west and north-west angles, which terminate the principal front. The entrance which is in this front, is gained by a winding pathway from the foot of the hill near the village. In shape, the fort is roughly an equilateral triangle. It is believed to have been constructed by the Reddi kings of Kondaveedu.

Sangam Jagarlamudi (Tenali Mandal):

Sangam Jagarlamudi is a village situated 10 Kms. from Tenali, on the Tenali-Narakodur road and about 3.2 Kms. south-east of the railway station bearing the same name. To the north of the village within a distance of about two-and-a-half kilometres is the "Sangama Sthala", the place of confluence of the Buckingham Canal and the Tungabhadra drain.

Agnigundala (Ipur Mandal):

This upland village, situated 16 Kms. to the north of Vinukonda which is its nearest railway station, is 5 kilometres away from the Vinukonda-Gurazala road. The village seems to have derived its name from the 'Agnigundam' into which the widows of the copper mine workers of the village plunged after the disastrous death of their husbands due to the collapse of a tunnel over them in the course of excavation. On the south-western side of the village, the ruins of a fort can be seen. About 3 kilometres to the west of the village, there exists a big rock with nine wells known as "Thommidi Donalu" with perennial water supply. There are some old temples here, one which is said to be beautifully sculptured.

Ipur (Ipur Mandal):

Ipur is situated 22 Kms. to the north of Vinukonda, its nearest railway station, on the Vinukonda-Gurazala line. This village is of much antiquarian interest. There are seven deserted temples with numerous inscriptions one of which has a date equivalent to A.D. 1278. There are nine inscriptions relating to the Kakatiya period at the place recording the gifts of lands, money and goats as offerings to the temple. 2.5 Kms. to the east of the village is a pillar of 2.42 metres height with Nagendrudu, popularly known as 'Nagulamma', carved on it and is declared a protected monument. The villagers pay their homage to this pillar on the Nagulachaviti day.

Chebrolu (Chebrolu Mandal):

Chebrolu, a very ancient village with many historical remains, is situated on the Guntur-Bapatla road with a distance of 10 Kms. from Guntur. The high mount on which the village is situated has yielded some terra-cotta figurines as well as some old coins which reveal the existence of ancient civilization at this place. Two gold coins pertaining to the period of the Roman Emperor Constantine, were unearthed at this place. A number of lead coins containing the figures of ships, animals and mosques were also unearthed.

(vi) Major characteristics of the district, contribution of the district in the form of any historical figure associated with the district

Guntur district has its name from its headauarters town Guntur. The prominent belief is that the original village derived its name from a pond (Kunta or Gunta) which existed and later transformed as Kuntavuru, Guntavuru and then Guntur.

The district is one of the hottest places. Tobacco and Chilli are produced in large scale in the district.

The district has produced several mentionable men of letters. Among them, great poet and multilinguist Talla Vajjala Sivasankara Sastry; the nationalist and politician Shaik Galeebh a great journalist, educationalist and Legislative Assembly Member on several occasions; Dr. Nayudamma the great researcher and scientist; poets Jandhyala Papaiah Sastry and Gurram Jashuva; scholar, critic, politician and great patriot Duggirala Gopala Krishnaiah etc. earned name and fame.

(vii) Census Concepts

Population census is a great national task, which we are called upon to undertake for every ten years. In India, the 1872 marked as the beginning of modern census taking, when it was conducted at different points of time in different parts of the country. From 1881 onwards a complete and synchronous census was held. The present Census is a land mark administrative event, as this has generated a historic bench mark data to shed light on the state of nation's society and other demographic, economic and socio-cultural data which simultaneously makes transition from one century and millennium to the next. The 2001 Census was the 14th decennial Census of India and the 6th after independence.

The Census of India was conducted in two phases namely, I) House-listing Operations II) Population Enumeration. The first phase was conducted during April-June,2000 in different States/Union territories depending upon their local conditions. In Andhra Pradesh it was conducted from 11th May to 5th June 2000. The house-listing operations provide a base for the population enumeration, besides providing comprehensive database for assessing condition of human settlements, the housing deficit and future housing requirement for formulation of housing policies. This also provides a massive data on amenities available to the households which was much needed by various departments of the Central and State Governments and other Non-Governmental agencies, for planning and development in different sectors of the economy. Hence house-listing operation is a pre-requisite for population enumeration.

Unlike 1991 census, there are significant changes in house-listing schedule for 2001 census. The questions on condition of the census house, number of married couples living in the household and having independent room for sleeping, bathroom and kitchen within the house and using the means of entertainment and communication facility of radio, transistor, television, telephone and possessing of means of transport like bicycle, scooter/motor cycle, car/jeep/ van and availing of banking services by the household are added to the present house-list schedule.

The main population enumeration was conducted from 9th February to 28th February, 2001, followed by revisional round from 1st March, 2001 to 5th March, 2001, to update the data with reference to 00.00 hours of 1st March, 2001. The houseless population was enumerated at midnight of 28th February 2001.

The household schedule and individual slip of 1991 census were replaced by household schedule of A3 size containing three parts to collect the information from each household at 2001 Census. In the present Census, the house-hold schedule is designed in such a way to suit the requirement of capturing the data through scanners. At the 2001 Census, for the first time Image-based data capturing technology through scanners and computer network has been introduced with a view to provide error free data by avoiding keying in of data.

The house-hold schedule broadly covered the individual particulars under four major headings 1) General and Socio cultural characteristics (Q(1 to 15), 2) Characteristics of workers and non-workers 3) Migration characteristics (Q.21 to 22)and 4) Fertility particulars (Q.23). Part-I deals with location code particulars, Part-II relates to Individual particulars with 23 questions, consisting of 1 to 39 columns, Part-III covers on cultivation/plantation particulars like land possessed, type of tenancy enjoyed by the household/ household member. Some additional questions 1) on disability, 2) Particulars relating to travel to the place of work a) distance from residence to place of work, b) mode of travel to the place of work, 3) household engaged in cultivation/plantations are added in the present household schedule.

Marital status, mother tongue, religion and literacy status (for 7 and above) migration, fertility particulars

and the identification of SC/ST are repeated but the age at marriage is also ascertained for males at 2001 Census. For the people, who are attending educational institutions, a separate code has been provided to record the Vocational institute, other institute and literacy centre in addition to school/ college.

Criteria for enumeration of persons in a particular household

a) All those who normally reside and are present in that household during the entire period of enumeration from 9th February to 28th February, 2001, b) also those who are known to be normally residing and had actually stayed during a part of the enumeration period (Feb.9th to 28th Feb.2001) in the household but are not present at the time of enumerator's visit, c) also those who were known to be normally residing and are not present at the time of enumerators visit but are expected to return before 28th Feburary,2001 and d) Visitors who are present in the household censused and are away from the place of their usual residence during the entire enumeration period. For the purpose of enumeration, such visitor will be treated as normal resident of the household in which they are actually found during the enumeration period provided that they have not been enumerated elsewhere. One of the essential features of population enumeration in the second phase is each person enumerated and her/his individual particulars are collected at a well defined point of time.

Location Code Number

The procedure of assigning location code number in a zigzag manner starting from North-west corner and ending at South-east corner, is adopted for 2001 Census. The Andhra Pradesh state was assigned Location Code No.28 as against 02 in 1991 census. In a similar fashion, the location code numbers of the districts in Andhra Pradesh state have been changed and revised location code numbers were allotted in order of geographical contiguity, beginning from North-West point of the state and ending at the South East point. Thus the Adilabad district has been assigned Location Code No. as 01 and Chittoor district Location Code No. 23 at 2001 Census. Accordingly, the location code numbers of mandals in each district have been changed for 2001 census.

An important change at 2001 census is allotment of permanent location code numbers to all the villages in the state. Since the whole data ie., Village and Town Directory information is also being computerized, the allotment of permanent location code numbers would facilitate the data users for easy access and retrieval the data of a particular village at micro level by the click of a mouse. The Permanent Location Code Number (P.L.C. No.) is an eight digit number starting with 00000100 in a zig-zag fashion from North-West corner in the first Mandal of Adilabad district and run continuously for all the districts while ending South-East corner to the extent possible at last village in the last Mandal of Chittoor district. Since this State has 28,123 villages at 2001 census, last village of last mandal in Chittoor district will have PLC No.02812300. A significant provision has been made to allot PLC Nos. to newly created villages if any in future. The last two digits of PLC No's are kept as '00' only to provide for additional villages. For example a new village has been created after PLC.No.001231400 it will be assigned PLC No. as 001231401. Further, it is indicated that there is a provision for a minimum of 99 villages adjoining to a particular village allotting Permanent Location Code.

For urban areas also location code structure has been changed in a minimum way. Earlier, for towns in a district location code numbers were given roman letters in alphabetical order. This time, while assigning roman numbers instead of going to alphabetic order, location code numbers were given from North-West part of the district ending at South-East of the district to the extent possible.

Therefore, the PLC numbers of the villages and location codes of urban areas have under gone change in Census of India, 2001 as compared to 1991. In case an urban area is spread over in two districts, the location code of urban areas in both the districts will be the same irrespective of zigzag manner.

Building

A 'Building' is generally a single structure on the ground. Sometimes it is made up of more than component unit which are used or likely to be used as dwellings(residences)or

establishments such as shops, business houses, offices, factories, workshops, worksheds, Schools, places of entertainment, places of worship, godowns, stores etc. It is also possible that building which have component units may be used for a combination of purposes such as shop-cum-residence,workshop-cum-residence,office-cum-residence,etc.. Usually a structure will have four walls and a roof. But in some areas the very nature of construction of houses is such that there may not be any wall. Such is the case of conical structures where entrance is also provided but they may not have any walls. Therefore, such of the conical structures are also treated as separate buildings.

Permanent houses

Houses, the walls and roof of which are made of permanent materials. The material of walls can be any one from the following, namely, galvanized iron sheets or other metal sheets, asbestos sheets, burnt bricks, stones or concrete. Roof may be made of from any one of the following materials, namely, tiles, slate, galvanized iron sheets, metal sheets, asbestos sheets, bricks, stones or concrete.

Semi-permanent houses

Houses in which either the wall or the roof is made of permanent material and the other is made of temporary material.

Temporary houses

Houses in which both walls and roof are made of materials, which have to be replaced frequently. Walls may be made from any one of the following temporary materials, namely, grass, thatch, bamboo, plastic, polythene, mud, unburnt bricks or wood. Roof may be made from any one of the following temporary materials, namely, grass, thatch, bamboo, wood, mud, plastic or polythene.

Dwelling Room

A room is treated as a dwelling room if it has walls with a doorway and a roof and should be wide and long enough for a person to sleep in, i.e. it should have a length of not less than 2 meters and a breadth of at least 1.5 meters and a height of 2 meters. A dwelling room would include living room, bedroom, dining room, drawing room, study room, servant's room and other habitable rooms. Kitchen, bathroom, latrine, store room, passageway and verandah which are not normally usable for living are not considered as dwelling rooms. A room, used for multipurpose such as sleeping, sitting, dining, storing, cooking, etc., is regarded as a dwelling room. In a situation where a census houses is used as a shop or office., etc., and the household also stays in it then the room is not considered as a dwelling room. But if a garage or servant quarter is used by a servant and if she/ he also lives in it as a separate household then this has been considered as a dwelling room available to the servant's household. Tent or conical shaped hut if used for living by any household is also considered as dwelling room. A dwelling room, which is shared by more than one household, has not been counted for any of them. If two households have a dwelling room each but in addition also share a common dwelling room, then the common room has not been counted for either of the households.

Census house

A `census house' is a building or part of a building used or recognised as a separate unit because of having a separate main entrance from the road or common courtyard or staircase, etc. It may be occupied or vacant. It may be used for residential or non- residential purpose or both. In certain peculiar situations, the manner in which buildings and census houses were identified for numbering in the field by the enumerators is described hereunder: Sometimes a series of different buildings are found along a street which are joined with one another by common walls on either side looking like a continuous structure. These different units are practically independent of one another and are likely to have been built at different times and owned by different persons. In such cases, though the whole structure with all the adjoining units apparently appears to be one building, each portion was treated as a separate building and its constituent units as separate census houses. On the other hand, one may come across cases, particularly in large cities of multi-storeyed ownership flats. In these cases while the structure looks like one building, different persons own the flats. In case of such multi-storeyed structures, having a number of flats owned by different persons, the entire structure was treated as one building and each flat

as a separate census house. If within a large enclosed area, there are separate buildings owned by different persons then each such building is treated as a separate building. There can be a situation where within an enclosed compound there are separate buildings owned by an undertaking or company or even government that are actually in occupation of different persons. For example, Indian Oil Corporation colony where the buildings are owned by the Corporation but these are in occupation of their employees. Each such building was treated as a separate building. But if in any one of these buildings there were flats in occupation of different households, each such flat was reckoned as a separate census house. Sometimes if becomes difficult to apply the definition of census house strictly in certain cases. For example, in an urban area, if a flat has five rooms, each room having direct entrance from the common staircase or courtyard. By definition, this has to be treated as five census houses. If all these five rooms are occupied by a single household it was not realistic to treat them as five census houses. In such a case,`singleness' of use of these rooms along with the main house should be considered and the entire flat was treated as one census house. On the other hand, if two independent households occupy these five rooms, the first household living in 3 rooms and the second household occupying 2 rooms, then considering the use, the first three rooms together were treated as one census house and the remaining rooms as another census house. But if each room was occupied by an independent household, then each such room was treated as a separate census house. In case of hostels, hotels, etc., even if the door of each room in which an inmate lives opens to a common verandah, staircase, courtyard or a common room, as it happens almost invariably, the entire hostel/ Hotel building was treated as one census house. but if such hostels/ hotels have out- houses or other structures used for different purposes or the same purpose, then each such structure attached to the main hostel / hotel was treated as a separate census house. In some parts of the country, in rural areas, the pattern of habitation is such that a group of huts, located in a compound, whether enclosed or unenclosed, is occupied by one household. While the main residence may be located in one hut, other huts may be used for sleeping, as a kitchen, bath room, baithak, etc. Though each of the huts was a separates structure, they form a single housing unit and therefore, have to be treated collectively as one building and one census house. If some of the huts are used by one household and the others by a second household as residence, then the two groups of huts were treated as separate census houses. However, if there were also other huts in the compound used for other purposes and not as part of the household's residence such as, cattle shed, workshed, etc., these were treated as separate census houses. On the other hand, in urban areas, where more than one structure within an enclosed or open compound (premises) belonging to the same person, e.g., the main house, the servant's quarter, the garage, etc., only one building number was given for this group and each of the constituent a separate census house number. Only cases where a structure with roof and pillars has come up was treated as a building.

Village

The basic unit for rural areas is the revenue village which has definite surveyed boundaries. The revenue village may comprise of one or more hamlets but the entire village is treated as one unit for presentation of data. In un-surveyed areas, like villages within forest areas, each habitation area with locally recognized boundaries is treated as one village.

Rural - Urban area

The data in tables on Houses, Household Amenities and Assets are presented separately for rural and urban areas. The unit of classification in this regard is `town' for urban areas and `village' for rural areas. In the Census of India 2001, the definition of urban area adopted is as follows:

(a) All places with a municipality, corporation, cantonment board or notified town area committee, etc.

(b) A place satisfying the following three criteria simultaneously:

i) A minimum population of 5,000; ii) At least 75 per cent of the male working population engaged in non agricultural pursuits ; and iii) A density of population of at least 400 per sq. km. (1,000 per square mile). For identification of places which would qualify to be classified as 'urban' all villages, which,

as per the 1991 Census had a population of 4,000 and above, a population density of 400 persons per sq. km. and having at least 75 per cent of male working population engaged in non-agricultural activity were considered. To work out the proportion of male working population referred to above against b) (ii), the data relating to main workers were taken into account. Apart from these, the outgrowths(OGs) of cities and towns have also been treated as urban under 'Urban Agglomerations'. Examples of out-growths are railway colonies, university campuses, port areas, military camps, etc., that may have come up near a statutory town or city but within the revenue limits of a village or villages contiguous to the town or city. Each such individual area by itself may not satisfy the demographic criteria laid down at (b) above to qualify it to be treated as an independent urban unit but may deserve to be clubbed with the towns as a continuous urban spread. Thus, the town level data, wherever presented, also includes the data for outgrowths of such towns.

City

Towns with population of 1,00,000 and above are called cities.

Urban Agglomeration

An Urban Agglomeration is a continuous urban spread constituting a town and its adjoining urban outgrowths (OGs) or two or more physically contiguous towns together and any adjoining urban outgrowths of such towns. In some cases railway colonies, university campuses, port areas, etc., may come up near a city or statutory town outside its statutory limits but within the revenue limits of a village or villages contiguous to the town or city. Each such individual area by itself may not satisfy the minimum population limit to qualify it to be treated as an independent urban unit but may deserve to be clubbed with the town as a continuous urban spread.For the purpose of delineation of Urban Agglomerations during Census of India 2001, following criteria are taken as pre-requisites:(a) The core town or at least one of the constituent towns of an urban agglomeration should necessarily be a statutory town ; and(b) The total population of all the constituents (i.e., towns and outgrowths) of an Urban Agglomeration should not be less than 20,000 (as per the 1991 Census). With these two basic criteria having been met, the following are the possible different situations in which Urban Agglomerations would be constituted: i) a city or town with one or more contiguous outgrowths; ii) two or more adjoining towns with their outgrowths; and iii) a city and one or more adjoining towns with their outgrowths all of which form a continuous spread.

Household

A 'household' is usually a group of persons who normally live together and take their meals from a common kitchen unless the exigencies of work prevent any of them from doing so. Persons in a household may be related or unrelated or a mix of both. However, if a group of unrelated persons live in a census house but do not take their meals from the common kitchen, then they are not constituent of a common household. Each such person was to be treated as a separate household. The important link in finding out whether it was a household or not was a common kitchen. There may be one member households, two member households or multi-member households.

Institutional household

A group of unrelated persons who live in an institution and take their meals from a common kitchen is called an Institutional Household. Examples of Institutional Households are boarding houses, messes, hostels, hotels, rescue homes, jails, ashrams, orphanages, etc. To make the definition more clearly perceptible to the enumerators at the Census 2001, it was specifically mentioned that this category or households would cover only those households where a group of unrelated persons live in an institution and share a common kitchen.

Houseless household

Households who do not live in buildings or census houses but live in the open on roadside, pavements, in hume pipes, under fly-overs and staircases, or in the open in places of worship, mandaps, railway platforms, etc., are treated as Houseless Households.

Scheduled Caste and Scheduled Tribe

Article 341 of the Constitution provides that the President may, with respect to any State or Union

territory, specify the castes, races or tribes or parts of or groups within castes, races or tribes which shall for the purposes of the Constitution be deemed to be Scheduled Castes in relation to that State or Union territory. Article 342 similarly provides for specification of tribes or tribal communities or parts of or groups within tribes or tribal communities which are to be deemed for the purposes of the Constitution to be Scheduled Tribes in relation to the various States and Union territories. In pursuance of these provisions, the list of Scheduled Castes and / or Scheduled Tribes are notified for each State and Union territory and are valid only within the jurisdiction of that State or Union territory and not outside.It is important to mention here that under the Constitution (Scheduled Castes) Order, 1950, no person who professed a religion different from Hinduism was deemed to be a member of a Scheduled Caste in addition to every member of the Ramdasi, Kabirpanthi, Majhabi or Sikligar caste resident in Punjab or Patiala and East Punjab States Union were in relation to that State whether they professed the Hindu or the Sikh religion. Subsequently, in September 1956, by an amendment, the Presidential Order of 1950 and in all subsequent Presidential Orders relating to Scheduled Castes, the Hindu and the Sikh religions were placed on the same footing with regard to the specification of Scheduled Castes. Later on, as per the amendment made in the Constitution (Scheduled Castes) Order 1990, the Hindu, the Sikh and the Buddhist were placed on the same footing with regard to the recognition of the Scheduled Castes. The lists containing the names of the Scheduled Castes and the Scheduled Tribes applicable for the Census of India 2001 in the State/ Union territory are given below:

List of Scheduled castes in Andhra pradesh

1. Adi Andhra
2. Adi Dravida
3. Anamuk
4. Aray Mala
5. Arundhatiya
6. Arwamala
7. Bariki
8. Bavuri
9. Beda Jangam, Budga Jangam
10. Bindla
11. Byagara
12. Chachati
13. Chalavadi
14. Chamar, Mochi, Muchi
15. Chambhar
16. Chandala
17. Dakkal, Dokkalwar
18. Dandasi
19. Dhori
20. Dom, Dombara, Paidi, Pano
21. Ellamalawar, Yellammalawandlu
22. Ghasi, Haddi, Relli, Chachandi
23. Godagali
24. Godari
25. Gosangi
26. Holeya
27. Holeya Dasari
28. Jaggali
29. Jambuvulu
30. Kolupulvandlu
31. Madasi Kuruva,Madari Kuruva
32. Madiga
33. Madiga Dasu, Mashteen
34. Mahar
35. Mala
36. Mala Dasari
37. Mala Dasu
38. Mala Hannai
39. Malajangam
40. Mala Masti
41. Mala Sale, Netkani
42. Mala Sanyasi
43. Mang
44. Mang Garodi

* The agency tracts is comprised of Srikakulam, Vizianagaram, Visakhapatnam, East-Godavari, West-Godavari and Khammam districts.

45. Manne
46. Masht
47. Matangi
48. Mehtar
49. Mitha Ayyalvar
50. Mundala
51. Paky, Moti, Thoti
52. Pambada, Pambanda
53. Pamidi
54. Panchama, Pariah
55. Relli
56. Samagara
57. Samban
58. Sapru
59. Sindhollu, Chindollu

List of Scheduled Tribes in Andhra pradesh

1. Andh
2. Bagata
3. Bhil
4. Chenchu, Chenchwar
5. Gadabas
6. Gond, Naikpod, Rajgond
7. Goudu(in the Agency tracts)*
8. Hill Reddis
9. Jatapus
10. Kammara
11. Kattunayakan
12. Kolam, Mannervarlu
13. Konda Dhoras
14. Konda Kapus
15. Kondareddis
16. Kondhs, Kodi, Kodhu, Desaya Kondhs, Dongria Kondhs, Kuttiya Kondhs, Tikiria Kondhs, Yenity Kondhs.
17. Kotia, Bentho Oriya, Bartika, Dhulia, Dulia, Holva, Paiko, Putiya, Sanrona, Sidhopaiko
18. Koya,Goud,Rajah,Rasha Koya, Lingadhari Koya(ordinary), Kottu Koya, Bhine Koya, Rajkoya
19. Kulia
20. Malis(excluding Adilabad, Hyderabad,Karimnagar,Khammam, Mahbubnagar,Medak,Nalgonda, Nizamabad and Warangal districts)
21. Manna Dora
22. Mukha Dora, Nooka Dhora
23. Nayaks(in theAgency tracts)*
24. Pardhan
25. Porja, Parangiperja
26. Reddi Dhoras
27. Rona, Rena
28. Savaras, Kapu Savaras, Maliya Savaras, Khutto Savaras
29. Sugalis, Lambadis
30. Thoti(In Adilabad, Hyderabad, Karimnagar, Khammam, Mahbubnagar, Medak, Nalgonda, Nizamabad and Warangal Districts)
31. Valmiki (in the Agency tracts)*
32. Yenadis
33. Yerukulas

Language and Mother tongue

As per the census concept, each language is a group of mother tongues. The census questionnaire collects information on the mother tongue of each person and mother tongue is defined as the language spoken in childhood by the person's mother to the person. If the mother died in infancy, the language mainly spoken in the person's home in childhood will be the mother tongue. In the case of infants and deaf mutes, the language usually spoken by the mother is considered as mother tongue. It is not necessary that the language spoken as mother tongue should have a script. The mother tongues returned by the respondents in census are classified and grouped under

** The agency tracts is comprised of Srikakulam, Vizianagaram, Visakhapatnam, East-Godavari, West-Godavari and Khammam districts.*

appropriate languages according to their linguistic characteristics.

Literate

A person aged 7 years and above who can both read and write with understanding in any language is taken as literate. A person who can only read but cannot write is not literate. It is not necessary that to be considered as literate, a person should have received any formal education or passed any minimum educational standard. Literacy could also have been achieved through adult literacy classes or through any non-formal educational system. People who are blind and can read in Braille are treated as literates.

Literacy rate

Literacy rate of the population is defined as the percentage of literates in the age group seven years and above. For different age groups the percentage of literates in that age group gives the literacy rate.

Educational level

The highest level of education a person has completed.

Work

Work is defined as participation in any economically productive activity with or without compensation, wages or profit. Such participation may be physical and/or mental in nature. Work involves not only actual work but also includes effective supervision and direction of work. It even includes part time help or unpaid work on farm, family enterprise or in any other economic activity. All persons engaged in 'work' as defined above are workers. Persons who are engaged in cultivation or milk production even solely for domestic consumption are also treated as workers. Reference period for determining a person as worker and non-worker is one year preceding the date of enumeration.

Main worker

A person who has worked for major part of the reference period (i.e. six months or more during the last one year preceding the date of enumeration) in any economically productive activity is termed as `Main worker'.

Marginal worker

A person who worked for less than six months of the reference period (i.e. in the last one year preceding the date of enumeration) in any economic activity is termed as `Marginal worker'.

Non worker

A person who has not worked at all in any economically productive activity during the reference period (i.e. last one year preceding the date of enumeration) is termed as `Non worker'.

Cultivator

For purposes of the Census a person is classified as cultivator if he or she is engaged in cultivation on land owned or held from government or held from private persons or institutions for payment in money, kind or share. Cultivation includes effective supervision or direction in cultivation. A person who has given out her/his land to another person or persons or institution(s) for cultivation for money, kind or share of crop and who does not even supervise or direct cultivation in exchange of land, is not treated as cultivator. Similarly, a person working on another person's land for wages in cash or kind or a combination of both (agricultural labourer) is not treated as cultivator. Cultivation involves ploughing, sowing, harvesting and production of cereals and millet crops such as wheat, paddy, jowar, bajra, ragi, etc., and other crops such as sugarcane, tobacco, ground-nuts, tapioca, etc., and pulses, raw jute and kindred fibre crop, cotton, cinchona and other medicinal plants, fruit growing, vegetable growing or keeping orchards or groves, etc. Cultivation does not include the following plantation crops - tea, coffee, rubber, coconut and betel-nuts (areca).

Agricultural labourer

A person who works on another person's land for wages in money or kind or share is regarded as an agricultural labourer. She/he has no risk in the cultivation, but merely works on another person's land for wages. An agricultural labourer has no right of lease or contract on land on which she/he works.

Household industry worker

Household industry is defined as an industry conducted by the head of the household herself/

himself and or by the members of the household at home or within the village in rural areas and only within the precincts of the house where the household lives in urban areas. The larger proportion of workers in household industry should consist of members of the household including the head. The industry should not be run on the scale of a registered factory which would qualify or has to be registered under the Indian Factories Act and should be engaged in manufacturing, processing, servicing and repairs of goods. It does not include professions such as a pleader, Doctor, Musician, Dancer, Waterman, Astrologer, Dhobi, Barber, etc. or merely trade or business, even if such professions, trade or services are run at home by members of the household.

Other worker

A person who has been engaged in some economic activity during the reference period but not as a cultivator or agricultural labourer or in Household Industry is termed as a 'Other Worker (OW)'. The type of workers that come under this category of 'OW' include all government servants, municipal employees, teachers, factory workers, plantation workers, those engaged in trade, commerce, business, transport, banking, mining, construction, political or social work, priests, entertainment artists, etc. In effect, all those workers other than cultivators or agricultural labourers or household industry workers, are 'Other Workers'.

Work participation rate

Percentage of workers (main + marginal) to total population.

Population density

Population density is the number of persons inhabited per square kilometre of the area.

Age

Age is measured in terms of the completed number of years.

Sex -ratio

Number of females per 1000 males in a population.

(viii) Non Census Concepts

Improved drinking water :

If the household had access to drinking water supplied from a tap, hand pump, tube well or well (protected or covered) situated within or outside the premises, it is considered as having access to improved drinking water. It may be mentioned that such uniform definition may not be valid across all states.

System of sewerage :

Generally, a sewerage system would mean a network of mains and branches of underground conduits for the conveyance of sewerage to the point of disposal. Sewers that carry only household and industrial wastage are called separate sewers; those that carry storm water from roofs, streets and other surfaces are known as storm water drains, while those carrying both sewage and storm water are called combined sewers. However, in some towns which are not provided with such underground sewerage system, it is served by open surface drain, box drain, sylk pattern drain, etc., in these towns.

Type of latrine and Method of disposal of night soil :

There are three prevalent systems of disposal of human wastes, viz.(i) underground sewerage, (ii) sanitary water flush latrines with individual disposal systems, like septic tank, leaching cess pool and collecting well, and (iii) dry type of latrines with manual scavenging. The system of underground sewerage provides for the street sewerage with which are connected the sanitary latrines constructed in the houses having water closets and fitted with flushing cistern (or hand flushing). Through this sewer the faecal matter is transported without the need for scavenging. This system generally exists in cities and big towns. Where the streets sewer does not exist these sanitary water flush latrines are connected to a local septic tank with a sub-soil dispersion system or a leaching pit. Here the liquid wastes from the water closet is disposed of locally in leaching pit, a septic tank with a soil dispersion system is constructed. This dispersion requires an optimum travel through the pores of the soil which renders the harmful liquid bacterially innocuous by the slow process of filtration through the soil traversed. Where the soil is impermeable, collecting wells are constructed and the sanitary water flush latrines are connected with them. These wells are cleaned at periodic intervals by a suitable device. The dry type of latrines are of service type latrines from where human excreta is removed by scavengers from house to house, in most cases carrying it on their heads or shoulders or in baskets with handle or wheel barrows. These are then collected in bullock carts or trucks or tractors and trolleys for being carried to the dumping grounds.

Fertility :

In demography, the word fertility is used in relation to the actual production of children or occurrence of births specially live births. Fertility is a measure of rate at which population adds to itself by births and normally assessed by relating the number of births to a full or part of the population, such as number of married women or number of women of child bearing age. The definitions of the terminology used in computing different fertility rates are mentioned below:

Crude birth rate(CBR) :

Ratio of the number of live births in a year to the mid year population, normally expressed per 1000 population.

$$\text{CBR} = \frac{\text{Number of live births during the year}}{\text{Mid –year Population}} \times 1000$$

Crude death rate(CDR)

Ratio of the number of deaths in a year to the mid year population, normally expressed per 1000 population.

$$CDR = \frac{\text{Number of deaths during the year}}{\text{Mid- year Population}} \times 1000$$

Natural growth rate :

Growth rate is obtained as the difference between crude birth rate and crude death rate in the absence of migration.

Age specific fertility rate (ASFR) :

Number of live births in a year to female population in any specified age group normally expressed per 1000 women.

$$ASFR = \frac{\text{Number of live births in a particular age-group}}{\text{Mid-year female population of the same age-group}} \times 1000$$

Age specific marital fertility rate (ASMFR) :

Number of live births in a year to married female population in any specified age group normally expressed per 1000 married women .

$$ASMFR = \frac{\text{Number of live births in a particular age-group}}{\text{Mid-year married female population of the same age-group}} \times 1000$$

General fertility rate (GFR) :

Number of live births per 1000 women in the reproductive age-group (15-49) years in a given year.

$$GFR = \frac{\text{Number of live births in a year}}{\text{Mid-year female population in the age-group (15-49) years}} \times 1000$$

General marital fertility rate (GMFR) :

Number of live births per 1000 married women in reproductive age-group (15-49) years in a given year.

$$GMFR = \frac{\text{Number of live births in a year}}{\text{Mid-year married female population in the age-group (15-49) years.}} \times 1000$$

Total fertility rate (TFR) :

It is obtained as the total of the age specific fertility rates (number of children born per woman of the particular age) for the entire reproductive age span. It provides the average number of children that will be born to a woman under the fertility levels indicated by the age specific fertility rates assuming that there is no mortality of women till the completion of reproductive period.

$$TFR = \frac{5 \times \sum_{15-19}^{45-49} ASFR}{1000}$$

Total marital fertility rate (TMFR) :

Average number of children that would be born to a married woman if she experiences the current fertility pattern throughout her reproductive span (15-49) years assuming that there is no mortality of women till the completion of reproductive period.

$$TMFR = \frac{5 \times \sum_{15-19}^{45-49} ASMFR}{1000}$$

Age-specific mortality rate (ASMR) :

Number of deaths in a particular age and sex group per 1000 population of the same age group.

$$ASMR = \frac{\text{Number of deaths in a particular age-group}}{\text{Mid-year population of the same age-group}} \times 1000$$

q1

Probability of dying between birth and age 1. This can be used as approximate value of Infant Mortality Rate (IMR) which gives the ratio of number of deaths in a year of children aged less than one year to the number of births in that year.

q2

Probability of dying between birth and age 2.

q5

Probability of dying between birth and age 5. This indicator is also known as Under Five Mortality Rate (U5MR) .

Infant mortality rate (IMR) :

Ratio of the number of infant deaths (deaths of children below one year) in a year to the number of live births in that year.

$$IMR = \frac{\text{Number of infant deaths during the year}}{\text{Number of live births during the year}} \times 1000$$

Infant mortality rate comprises of two parts, viz., Neo-natal mortality rate and Post neo-natal mortality rate. The neo-natal mortality rate also comprises of two parts viz., Early neo-natal mortality rate and late neo-natal mortality rate. These are defined as:

Neo-natal mortality rate (NMR) :

Number of infants dying within the first month of life (28 days or under) in a year per 1000 live births of the same year.

$$NMR = \frac{\text{Number of infant deaths aged 28 days or under during the year}}{\text{Number of live births during the year}} \times 1000$$

Early neo- natal mortality rate :

$$ENMR = \frac{\text{Number of infant deaths of less than 7 days During the year}}{\text{Number of live births during the year}} \times 1000$$

Late neo-natal mortality rate :

$$LNMR = \frac{\text{Number of infant deaths of 7 days to less than 29 days during the year}}{\text{Number of live births during the year}} \times 1000$$

Post neo-natal mortality rate (PNMR) :

$$PNMR = \frac{\text{Number of deaths of 29 days to less than one year during the year}}{\text{Number of live births during the year}} \times 1000$$

Peri-natal mortality rate (PMR) :

Number of still births plus deaths within 1st week of delivery per 1000 births in a year.

$$PMR = \frac{\text{Number of still births and infant deaths of less than 7 days during the year}}{\text{Number of live births and still births during the year}} \times 1000$$

Still birth rate(SBR) :

$$SBR = \frac{\text{Number of still births during the year}}{\text{Number of live births and still births during the year}} \times 1000$$

Maternal mortality rate(MMR) :

Number of deaths of women in the age group 15-49 while pregnant or within 42 days of termination of pregnancy from any cause related to pregnancy and child birth per 1,00,000 live births in a given year.

$$MMR = \frac{\text{Number of maternal deaths to women in the age group 15-49}}{\text{Number of live birth}} \times 1,00,000$$

Eligible couple (Couples per 1000 population):

Number of currently married females in the age group15-44 years per 1000 persons of all ages.

Child woman ratio (0-4) :

1. Number of children in the age group 0-4 years per 1000 women in the age group 15-49 years.

Child woman ratio (5-9) :

2. Number of children in the age group 5-9 years per 1000 women in the age group 15-49 years.

Migration :

Migration is the third component of population change, the other two being mortality and fertility. A person is considered as a migrant by place of birth if the place in which he/she is enumerated during the census is other than the place of his/her birth. Similarly a person is considered as a migrant by place of last residence if the place in which he/she is enumerated during the census is other than his/her place of immediate last residence outside the village or town and not simply in another house or locality in the same village or town. Certain aspects concerning temporary movement/migration of people has been

explained below as these are important components concerning migration :-

(i) Migration of persons in search of job is high in the country. In many cases such migrants are only seasonal in nature. People migrate to other places for work in a particular season and come back again to their usual place of residence after three or four months. All such workers are treated as migrants. Similarly, if a person moved to any other place for attending short term vocational or educational course that lasted for only few months of a year, she/he too were considered as a migrant.

(ii) Where a person had merely gone out to another place or had been shifting from one place to another purely on tour, pilgrimage, visit to hospital for treatment or for temporary business purposes, such persons are not deemed to have had another residence different from the place where she/he or her/his family normally resides. She/he is not considered as migrant.

(iii) A woman temporarily moves into a hospital or to her parents or other relative's house for delivery and if the hospital or the parents/relatives houses is in a place different from usual place of residence, the place where the hospital or parents/relative's house is the place of last residence of the child but not of the mother. A new response category 'Moved after birth' was added in Census of India 2001 in the question on 'reasons for migration' to bring out additional migration patterns. Natural calamities or distress migration as a reason for migration for last residence migrants included in 1991 Census, is covered under category of 'Others'. The reason for migration has been determined as applicable at the time of migration and not in reference to any point of time after that. For example, if a person had moved from the place of her/his last residence for the purpose of education and subsequently at some point of time got employment there only, the reason for migration would be 'education' and not 'work/employment'.

Internal and International migration :

The migrational movements are of three types

(i) Migration within the state itself with its components.

(a) Migration within the district of enumeration (intra district migration).

(b) Migration from one district of state to another district of state (inter district migration),

(ii) Migration from one state to another State of the country (inter-state migration),

(iii) Migration from one country to another country. The first two streams together constitute internal migration, while the last type of movement is called international migration. The present name of the country, state or district and not the name by which they were known at the time of her/his birth or last residence were recorded.

Rural - Urban components of migration:

Rural or Urban status in respect of migrants have been determined as applicable at the time of migration and not with reference to any point of time after that. The flow of migrants consists of four streams viz. rural to rural, rural to urban, urban to rural and urban to urban.

Civic status of urban units

Civic Status of a town/city is determined on the basis of Civic Administrative authority of the town e.g., Municipal Corporation / Corporation, Municipal Committee/ Municipal council, Municipality etc.

Size class of UA / town

Size-class of UA/Town is based on the population size of the UA/City/Town UAs./Towns with 1,00,000 and above population are classified as Class I UAs./ towns. These Class I UAs. / towns are now further sub classified in to seven sub classes namely M1 to M7 depending on the population size of UA/City/ Town. These are M7(5,000,000 and above); M6(2,000,000 to 4,999,999); M5 (1,000,000-1,999,999) M4 (500,000-999,999); M3(300,000-499,999), M2 (200,000-299,999) & M1 (100,000-199,999). towns with, 50,000 to 99,999 population are classified as Class II towns, 20,000 to 49,999 population are Class III towns, population with 10,000-19,999 are Class IV towns, population with 5000 and 9999 are Class V towns and towns with less than 5000 population are Class VI towns.

Slum area

The Slum Areas (Improvement and Clearance) Act, 1956 which was enacted by the Central Govt. defined slums as a) Areas where buildings are in any respect unfit for human habitation; or b) are by reasons of dilapidation, overcrowding, fault arrangement and design of such buildings, narrowness or faulty arrangement of streets, lack of ventilation, light or sanitation facilities, or any combination of these factors, are detrimental to safety, health or morals.

Mega city

The concept of 'Mega city' is a recent phenomenon in the Urban Sociology and is defined in term of metropolitan city in the form of large size, problem of management of civic amenities and capacity to absorb the relatively high growth of population. Indian Census in 1991 treated the population size of 5 million and above as the cut off point to identify a place as the mega city. Whereas, for the purpose of inclusion in Centrally Sponsored Scheme for Infrastructure Development in Mega cities the Ministry of Urban Affairs and employment, Department of Urban Development adopted the criteria of 4 million and above population as per 1991 Census for Mega Cities. In 2001 Census, cities with 10 millions and above population have been treated as Mega cities.

Analytical Note

(ix) 2001 Census findings – Population and its distribution

(a) Distribution of Population in Rural-Urban Areas:

According to 2001 Census the total population of Guntur district stands at 44,65,144 with 22,50,279 males and 22,14,865 females. The district stands at 2nd rank in the state as far as population is concerned. Out of the total population of the district, 31,79,384 persons constituting 71.20% are residing in rural areas and the remaining 12,85,760 persons (28.80%) are residing in urban areas. The proportion of urban to total population regarded as an index of urbanization is 28.80% for Guntur district corresponding to state figure of 27.30%. Average number of towns for 100 inhabited villages in the district is 1.59%.

In Guntur district there are 57 mandals with 717 villages. Among these, 694 are inhabited villages and the remaining 23 villages are un-inhabited. The average number of inhabited villages per mandal is 12. In terms of population Guntur mandal occupies 1st place with 13.47% of district population while Bellamkonda mandal reported least population accounting 0.69% of district populatlion. Vinukonda mandal is having 22 villages including one un-inhabited village. Next comes Thullur mandal with 21 villages including 2 un-inhabited villages. Karlapalem mandal is the smallest mandal with 5 villages and all of them are inhabited villages.

The urban population is distributed among 11 urban units of which 10 are statutory towns. The average size of an urban center in the district works out to 1,16,887 persons. Guntur Municipal Corporation has largest population (5,14,461) whereas Repalle is the smallest town with a population of (42,539). There is no town in the district which has less than 5000 population.

(b) Size class and status of towns, population, growth, density, sex ratio, work participation rate and literacy rates - in the district:

Size class and status of towns:

During every census the number of Census towns and statutory towns changes due to addition of new Census towns declassification of old Census towns, notifying of new Census towns, de-notifying of old statutory towns, etc., for the purpose of analysis of varied demographic characteristics urban areas have been divided into six classes by size of population of the 11 towns in the district. Guntur and Tenali are categorized as class-I towns while there are 7 class-II towns, 2 class-III. There are no towns under class IV,V and VI.

Population Growth:

The population of district was 41,06,999 as per 1991 Census and has gone upto 44,65,144 persons in 2001 adding 3,58,145 persons during the decade 1991-2001. The growth rate revealed by the district (8.72%) is less than the state growth of 14.59% during the decade. Guntur district ranks 20th in growth rate among 23 districts in the state.

Rural-urban growth rates show little variations. The rural growth rate is recorded as 8.87% while urban growth rate is 8.35%. As regards growth rate in rural poulation the district occupies 20th position, when we speak about urban growth rate it occupies 14th place of the state.

Density:

The overall density of population in the district is 392 persons per Sq.Km. and is more than the state

average of 277. Among urban areas Narasaraopet town recorded highest 12,464 persons per Sq.Km. followed by 11,235 persons in Guntur town. Least density i.e. 1,399 persons per Sq.Km. has been reported in Vinukonda town.

Sex Ratio:

Guntur district has recorded 984 females per 1000 males while it was 970 in 1991 Census. It is more than the state average sex ratio 978. The district occupies 9th rank in respect of sex ratio among 23 districts. Repalle mandal has the highest sex ratio of 1,027 followed by Pedanandipadu and Cherukupalle mandals with 1,018 and 1,014 respectively. Among urban units Repalle town has reported highest sex ratio of 1,044 and Vinukonda C.T. reported lowest sex ratio of 949.

Work Participation:

The work participation rate for total workers is defined as percentage of total workers to total population. The total workers participation rate in Guntur district is 49.10%. Again percentage of main workers stands at 41.88%. The total workers participation rate separately for males and females in the rural areas are 59.10% and 38.90% respectively. Against corresponding figures for urban areas are 54.90% and 16.90% respectively. The female workers participation rate has slightly gone up from 34.20% in 1991 Census to 38.90% at 2001 Census.

Literacy Rate:

While calculating effective literacy rate, children in 0-6 age group have been excluded. The district returned 24,55,965 literates forming 62.50% of the population of the district. Separately for urban and rural areas the literacy rate worksout to 58.10% and 73.40% respectively. Again within the urban areas male and female literacy rates workout to 80.70% and 66.10%. For the rural population the male and female literacy rates worksout to 67.40% and 48.70%.

(c) Scheduled Castes and Scheduled Tribes of earlier Censuses:

To uplift social and economic status of Scheduled Castes and Scheduled Tribes, one of the basic requirements of these population is the availability of data on age, sex, marital status, economy, education, fertility etc. In this regard these particulars are being collected in each census from 1951 onwards and provided to planners and administrators to take-up necessary steps to evolve suitable plans for the development of Scheduled Castes and Scheduled Tribes.

The President of India has notified some castes, races or tribes or parts of groups within castes, races or tribes as Scheduled Castes under Article 341 of the Constitution of India. Similarly, under Article 342 of the Indian Constitution, President of India has declared all such tribes or tribal communities or parts of groups within the tribes or tribal communities as Scheduled Tribes. The list of Scheduled Castes and Scheduled Tribes are notified for each State or Union Territory and are valid only within the jurisdiction of that State and Union Territory. The list of Scheduled Castes and Scheduled Tribes is provided in this volume under the sub-heading on 'Census concepts'.

Scheduled Castes population in the district as per 1991 Census:

As per 1991 Census, there were 5,73,407 Scheduled Castes population comprising 2,93,589 males and 2,79,818 females. This works out to 13.96% to the total population of the district. Of the total population of Scheduled Castes, 81.61% were living in rural areas of the district.

The following statement reveals that Scheduled Castes population has recorded 81.02% growth rate during the decade 1981-91. It was 84.75% in rural areas which is more than the growth rate of total district. The growth rate among SCs in Urban areas was 66.14% which is nearly 14% more than the district and rural areas.

The sex ratio of Scheduled Castes population (972) was lower in comparison to that of the general population in the district(984). The sex ratio in rural area of the district was little lower than total district sex ratio among Scheduled Castes population. In urban areas it was 992. Literacy rate among Scheduled Castes 37.49% which was lower than the district (46.35%). In urban areas their literacy rate was 53.81%.

Proportion of main workers among Scheduled Castes was 51.10 percent and the Marginal workers was 2.06 percent. In rural areas main workers population was 54.43 percent and in urban areas their percentage was 36.31.

Statement (i)

Particulars of decadal variation, sex ratio, literacy and workers participation of Scheduled Castes population-1991

Sl.No.	Particulars		Total	Rural	Urban
1	Percentage decadal Variation:	1981	316,764	253,298	63,466
		1991	573,407	467,966	105,441
			(81.02)	(84.75)	(66.14)
2	Sex ratio		972	968	992
3	Percentage of Literacy		37.49	33.75	53.81
4	Percentage of : i. Main Workers		51.10	54.43	36.31
	ii. Marginal Workers		2.06	2.42	0.46
	iii. Non-workers		46.84	43.15	63.22

Source: *District Census Handbooks of Guntur, 1981 and 1991.*

It is seen from the below furnished table that Scheduled Castes population in the district has registered -13.51% growth rate during the decade 1961-1971. The same for the decade 1971-1981 and 1981-1991 was 132.02% and 81.02% respectively. The growth rate during 1971-1981 was more than the growth rate of 1961-1971. However growth rate has been decreased from 132.02% during 1971-1981 to 81.02% during 1981-1991.

Statement (ii)

Statement showing the decadal variation in Scheduled Castes population in Guntur district in comparison to Andhra Pradesh State between 1961-1991 Censuses

Sl. No.	Census Year	Scheduled Castes Population in district (percentage variation shown in brackets)	Scheduled Castes Population in State (percentage variation shown in brackets)
1	1961	157,850	4,973,616
		(--)	(--)
2	1971	136,524	5,774,548
		(-13.51)	(+16.10)
3	1981	316,764	7,961,730
		(+132.02)	(+37.88)
4	1991	573,407	10,592,066
		(+81.02)	(+33.04)

Source: *PartB(ii),1991Census.*

The following statement gives the proportion of Scheduled Castes population to total population in the villages. Out of 675 villages where Scheduled Caste population returned in the district, 74 villages constituting 10.96% were having 5% and below Scheduled Caste population to total population. 118 villages (17.48%) were having 6 to 10% of Scheduled Castes population, 138 villages (20.45%) having 11 to 15%, and 97 villages (14.37%) having 31% and above to total population of the respective villages.

Statement (iii)
Proportion of Scheduled Castes Population to Total Population in the villages-1991

Percentage range of Scheduled Castes population to Total population	Number of villages in each range	Percentage of villages in each range
5 and below	74	10.96
6-10	118	17.48
11-15	138	20.45
16-20	108	16.00
21-30	140	20.74

The Scheduled Tribes population in the district as per 1991 Census :

As per 1991 Census, there were 1,81,588 Scheduled Tribes population comprising 93,636 males and 87,952 females. This works out 4.42% to the total population of the district. Of the total population of the Scheduled Tribes, 4.94% were living in rural areas of the district.

The following statement reveals that Scheduled Tribes population in the district has registered 29.94% growth rate during the decade 1981-91. The growth rate 33.55% has been recorded in the rural areas of the district. In urban areas it was 17.67%. The sex ratio among STs in the district was 962, while in rural areas it was 960 and in urban areas 969. As regards the Literacy rate among the tribes, it was 20.90%, while in rural areas it was 18.08%. However in urban areas it was higher (31.52%) than rural areas as well as the district total.

The population of main workers and marginal workers among tribals in the district was 51.77% and 2.25% respectively where as in rural areas of the district it was 54.36% and 2.63% respectively. But in urban areas they were reported 41.80% and 0.76% respectively.

Statement (v)
Particulars of decadal variation, sex ratio, literacy and workers participation of Scheduled Tribes population-1991

Sl.No.	Particulars	Total	Rural	Urban
1	Percentage decadal Variation: 1981	139,749	107,971	31,778
	1991	181,588	144,116	37,392
		(29.94)	(33.55)	(17.67)
2	Sex ratio	962	960	969
3	Percentage of Literacy	20.90	18.08	31.52
4	Percentage of: i. Main Workers	51.77	54.36	41.80
	ii. Marginal Workers	2.25	2.63	0.76
	iii. Non-workers	45.98	43.00	57.44

It is seen from the below furnished table that Scheduled Tribes population in the district has registered 10.50% growth rate during the decade 1961-71. The same for the decades 1971-1981 and 1981-91 were 32.49% and 30.13% respectively. The growth rate during 1971-1981 was more than the growth rate of 1961-1971 and 1981-1991censuses.

Statement (vi)
Statement showing the decadal variation in Scheduled Tribes population in Guntur district in comparison to Andhra Pradesh State between 1961-1991 Censuses

Sl. No.	Census Year	Scheduled Tribes Population in district (percentage variation shown in brackets)	Scheduled Tribes Population in State (percentage variation shown in brackets)
1	1961	95,457	1,324,368
		(--)	(--)
2	1971	105,478	1,657,657
		(+10.50)	(+25.17)
3	1981	139,749	3,176,001
		(+32.49)	(+91.60)
4	1991	181,588	4,199,481
		(+30.13)	(+32.23)

Source: *Part II-A, 1991 Census.*

The following statement shows the proportion of Scheduled Tribes population to total population in the villages in 1991 census. Out of 642 villages, where Scheduled Tribes were recorded, 461 villages forming 71.81% were having less than 6% Scheduled Tribes population. The proportion of Tribals was between 26 to 50 percent in 17 villages (2.64%) and in 8 villages(1.25%) they were more than 51 percent.

Statement (vii)
Proportion of Scheduled Tribes Population to Total Population in the villages - 1991

Percentage range of Scheduled Tribe population to Total population	Number of villages in each range	Percentage of villages in each range
1	2	3
5 and below	461	71.81
6-15	139	21.65
16-25	17	2.65
26-35	11	1.71
36-50	6	0.93
51 and above	8	1.25
Total	**642**	**100.00**

Source:*District Census Handbook,Guntur,1991.*

While going through the following table it is observed that Scheduled Tribes population constituted 3.15% to total urban population in the district. The proportion of Scheduled Tribes population was above the district average in Bapatla, Bhattiprolu, Chilakaluripet, Phirangipuram, Ponnur, Repalle, Tadepalle, Tenali and Vijayapuri South and while it was below in Guntur, Macherla, Mangalagiri, Narasaraopet, Sattenapalle and Vinukonda. However proportion of Scheduled Tribes population in urban areas ranges between 1.73% in Guntur (M) and 10.98% in Vijayapuri South.

Statement (viii)
Percentage of Scheduled Tribes Population in Towns-1991

Class & Name of Town	Total Population	Total Scheduled Tribes Population	Percentage of Scheduled Tribes Population to total Population
II Bapatla (M)	62,536	2,310	3.70

This table gives the details of decadal growth rates in the mandals of the district. The district has registered 8.7% growth rate during the decade which is less than the state average growth rate 14.6%. The rural and urban growth rates are recorded as 8.9% and 8.4% respectively. The district percentage of urban population works out to 28.8%.

Out of 57 mandals only 12 mandals have urban units. Among these 12 mandals, Guntur mandal reported 85.5% urban population, followed by Tenali 68.6%. All the 12 mandals have reported more urban population than the district average urban population.

56	Nagaram	4 (33.3)	14,659	14,691	-	-	-
57	Repalle	5 (31.3)	17,103	17,603	-	-	-
Districts (Rural)Total:		**183 (26.4)**	**632,022**	**621,818**	**47 (6.8)**	**344,368**	**335,564**

Note : *Percentages in brackets*

The above table shows that the district has 694 inhabited villages. Out of 57 mandal parishads, the highest number of 21 inhabited villages are in Vinukonda mandal parishad, followed by 20 villages in Nuzendla mandal parishad and 19 villages in Thullur mandal Parishad etc. The least number i.e. 5 villages in Karlapalem and 6 villages in Pittalavanipalem mandal parishads are existing. Of the total inhabited villages, 2 (0.3%) villages are having less than 200 population; 18 (2.6%) villages are having between 200-499 persons. The highest number of villages 299 (43.1%) are in the population range of 2000-4999. 183(26.4%) villages are having 5000 and more population of which 47(6.8%) have more than 10,000 population which are mostly mandal headquarters.

Out of 57 Mandal Parishads, only two Mandal Parishads Viz., Ipur and Bapatla have one village each with less than 200 population.

TABLE 3
NEW TOWNS, DENOTIFIED, DECLASSIFIED AND MERGED TOWNS IN 2001 CENSUS

	Name of Town
	1
(a) New	
(i) Statutory town	NIL
(ii) Census town	NIL
(b) Denotified	
(i) Statutory towns of 1991 census denotified and also did not satisfy the criteria to be treated as census towns	NIL
(ii) Statutory towns of 1991 census denotified but identified as census towns based on demographic and economic criteria.	NIL
(iii) Census towns of 1991 census are notified as statutory town in 2001 census	NIL
(c) Declassified	
1.	Bhattiprolu (P)
2.	Phirangipuram (P)
3.	Tadepalle (P)
4.	Vijaypuri (South)
(d) Wholly merged with other town(s)	NIL

Declassified means the census towns of 1991 census which failed to satisfy the demographic and economic criteria.

There are no new statutory towns and Census town sprung up during 2001 Census. No statutory town of 1991 Census has been denotified at the 2001 Census.

TABLE 4
DISTRIBUTION OF VILLAGES BY POPULATION DENSITY, 2001

Range of population density (per square kilometre)	Total number of villages in each population density range	Percentage of villages in each population density range	Population	Percentage distribution of population
1	2	3	4	5
0-10	-	-	-	-
11-20	2	0.3	89	-
21-50	4	0.6	2,149	0.1
51-100	30	4.3	66,065	2.1
101-200	103	14.8	272,677	8.6
201-300	168	24.2	668,949	21.0
301-500	232	33.4	1,073,515	33.8
501 +	155	22.3	1,095,940	34.5
Not known	-	-	-	-
District Total :	**694**	**100.0**	**3,179,384**	**100.0**
Population Density (Rural) of the district :		**328.1**		

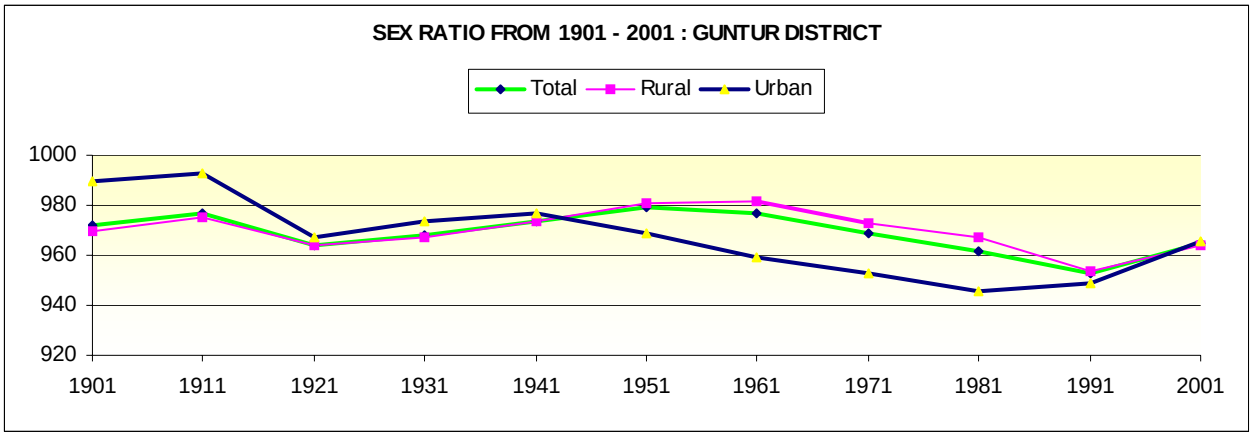

The highest number of villages i.e. 232 forming 33.4% with 1,073,515 persons are in 301-500 range of population density. Of total district rural population, 34.5% are living in 155 villages where density of population is more than 500 persons per Sq.Km. The least number of villages i.e.2 exist in 11-20 range of population density with 89 persons. The average population size of these villages works out around 45 persons per village.

TABLE 5

SEX RATIO OF STATE AND DISTRICT, 1901 - 2001

Census Year	State			District		
	Total	Rural	Urban	Total	Rural	Urban
1	2	3	4	5	6	7
1901	985	983	999	972	970	990
1911	992	991	1000	977	975	993
1921	993	994	936	964	964	967
1931	987	989	966	968	967	974
1941	980	981	975	974	974	977
1951	986	985	987	979	981	969
1961	981	988	951	977	982	959
1971	977	983	949	969	973	953
1981	975	984	948	962	967	946
1991	972	977	959	953	954	949
2001	978	983	965	965	964	966

In the Census counts during 1901 to 2001 State average sex ratio was more than the district sex-ratio. In the district the sex-ratio in urban is more than rural from 1901 to 1941 Censuses. But urban sex-ratio declined from 1951 to 1991 when compared with rural sex-ratio. But in 2001 Census urban sex-ratio is 966 while in rural it is almost equal i.e. 964. In 1901 Census there is large variation between rural and urban sex-ratio i.e. 970 and 990 respectively and the same is noticed in 1971 Census between rural and urban sex-ratio in reverse proportion i.e. 973 and 953 respectively. Similarly during 1981 Census also much variation is noticed in the sex ratio between rural and urban areas with 967 and 946 respectively.

53	Karlapalem	975
54	Bapatla	995
55	Nizampatnam	952
56	Nagaram	987
57	Repalle	1,015
	District (Rural) Total:	**981**

The above table shows the sex-ratio in mandal parishads as recorded in 2001 Census. It is seen from the table sex ratio in district rural areas is 981. In as many as 30 mandal parishads the sex ratio is more than district (rural) total sex ratio of 981. Females are seen more in the mandal parishads of Pedanandipadu, Cherukupalle, Pittalavanipalem and Repalle. It is very intersting to note that the females are equal in number with males in Chilakaluripet Mandal.

TABLE 8

SEX RATIO OF RURAL POPULATION BY RANGES, 2001

Range of sex ratio for villages	Number of inhabited villages	Percentage of villages in each range	Population (2001)	Percentage distribution of population
1	2	3	4	5
Less than 700	2	0.3	11,092	0.3
700-749	-	-	-	-
750-799	2	0.3	7,933	0.2
800-849	1	0.1	2,989	0.1
850-899	14	2.0	52,917	1.7
900-949	81	11.7	274,629	8.6
950-999	378	54.5	1,972,144	62.0
1000-1099	209	30.1	842,710	26.5
1100+	7	1.0	14,970	0.5
District Total :	**694**	**100.0**	**3,179,384**	**100.0**
Sex ratio (Rural) for District :		**981**		

According to the above table large variation in sex-ratio i.e., below 700 females per 1,000 males are recorded in 2 villages. There are 378(54.5%) villages where range of sex-ratio is 950-999 in which sex-ratio of total and rural areas of the district has fallen. It is evident from the table that 216 inhabited villages are having more number of females than males covering 27.0% of the total population in the sex-ratio ranges of 1,000-1099 and 1100+.

TABLE 9

SEX RATIO OF URBAN AGGLOMERATIONS / TOWNS, 2001

Serial Number	Name of U.A. / Town	Urban status	Sex ratio
1	2	3	4
1	Bapatla	(M)	967
2	Chilakaluripet	(M)	1,009
3	Guntur	(M.Corp.)	996

8	Repalle	(M)	1,044
9	Sattenapalle	(M)	993
10	Tenali	(M)	986
11	Vinukonda	(CT)	949
	Sex ratio (Urban) for the district:		**992**

This table gives sex ratio of urban Agglomeration/ Towns. The average urban sex ratio is 992 in the district. The highest sex ratio of 1,044 is seen in Repalle (M) and lowest sex ratio of 949 is in Vinukonda (CT). Among Statutory towns, Vijayawada, Chilakaluripet, Guntur, Ponnur, Repalle and Sattenapalle towns reported more sex ratio than the district urban sex ratio.

		Rural	6,839	3,480	3,359	965
		Urban	4,776	2,324	2,452	1,055
	District Total:	**Total**	**538,285**	**274,754**	**263,531**	**959**
		Rural	**391,239**	**199,820**	**191,419**	**958**
		Urban	**147,046**	**74,934**	**72,112**	**962**

The above table shows that the sex ratio of population in the age group of 0-6 is 959 in total, 958 in rural and 962 in the urban areas of the district as against 984, 981 and 992 of total population to the district. It reveals that sex ratio in rural and total of the district is almost equal in the age group 0-6, but it is below to the urban areas of the district (962). All the mandals except Repalle have more male children than female children in age group of 0-6.

55	Nizampatnam	7,748	3,948	3,800	963
56	Nagaram	5,426	2,723	2,703	993
57	Repalle	6,839	3,480	3,359	965
	District (Rural) Total :	**391,239**	**199,820**	**191,419**	**958**

This table gives the details of sex ratio in the age group 0-6 for each mandal parishad of the district. It can be noticed that the sex ratio of the population in the age group 0-6 is highest in Mangalagiri mandal parishad with 1,005 females per 1,000 males where as the lowest has been seen in Prathipadu mandal parishad with 909 females per 1,000 males.

TABLE 12
SEX RATIO OF RURAL POPULATION IN THE AGE GROUP 0-6 BY RANGES, 2001

Range of sex ratio for villages	Number of inhabited villages	Percentage distribution of villages	Population 2001	Percentage distribution of population
1	2	3	4	5
Less than 700	8	1.2	1,419	-
700-749	9	1.3	971	-
750-799	32	4.6	11,047	3
800-849	47	6.8	15,044	4
850-899	101	14.6	54,165	14
900-949	128	18.4	84,492	22
950-999	136	19.6	112,818	29
1000-1099	162	23.3	89,983	23
1100+	71	10.2	21,300	5
District (Rural) Total :	**694**	**100.0**	**391,239**	**100**
Sex ratio (Rural) for District :		**958**		

The above table presents that in 162 villages, female children in the age group 0-6 are either equal or more than the male children. In 136 villages forming 19.6% of total inhabited villages the range of sex ratio is 950-999 in which the district average sex ratio (958) also falls in. The sex-ratio of 8 villages with a population of 1,419 persons in the age group 0-6 falls in the sex-ratio range “Less than 700”.

		Urban	**1,285,760**	**141,405**	**37,698**	**11.0**	**2.9**

The above table shows the number and percentage of Scheduled Castes and Scheduled Tribes population in the mandals as recorded during 2001 census. Out of district total population of 4,465,144 the SCs and STs constitute 18.3% and 4.7% respectively. In rural areas of the district the SCs accounted 21.3% whereas in urban areas it is 11.0%. In respect of STs, they accounted 5.4% in rural and 2.9% in urban areas of the total population. Their percentage is more in rural areas than urban.

In Amruthalur mandal the highest number of SCs recorded with 42.2% totally under rural areas followed by Kollur mandal with 34.4% and Thullur mandal with 32.5% both are totally rural areas. The lowest percentage of SCs recorded in the mandals of Nizampatnam, Cherukupalle and Guntur with 9.2%, 9.9% and 10.7% respectively.

In Bollapalle mandal the highest number of STs recorded with 26.3% of the total population which is entirely under the rural areas followed by Veldurthi mandal with 21.1% and Bellamkonda mandal with 14.4%. The lowest percentage of STs recorded in the mandals of Guntur, Nagaram and Kollipara with 1.7%, 2.3% and 2.4% respectively.

56	Nagaram	972	951
57	Repalle	1,015	946
	District (Rural) Total :	**968**	**960**

The sex ratio among the SCs and STs is given in this table at Mandal Parishad level. The sex ratio of SC and ST in rural areas of Guntur district is 968 and 960 respectively, while it is 984 in respect of total population. The lowest sex ratio 843 among SCs is reported in Karempudi mandal parishad and 874 among STs in Rentachintala mandal parishad. The highest sex ratio 1,064 among SCs is noticed in Macherla mandal parishad where as 1,131 among STs is found in Prathipadu mandal parishad. Among SCs females are more than males in 8 mandal parishads. In respect of ST population the females are more in 11 mandal parishads. In 21 mandal parishads sex ratio of SCs is lower than district average sex ratio. Likewise in 28 mandal parishads sex ratio of STs is lower than district average sex ratio.

TABLE 20
SEX RATIO AMONG SCHEDULED CASTES AND SCHEDULED TRIBES IN URBAN AGGLOMERATIONS / TOWNS, 2001

Sl. No.	Name of U.A.^ / Town+	Scheduled Castes sex ratio	Scheduled Tribes sex ratio
1	2	3	4
1	Bapatla (M)	989	961

District and mandal-wise literacy rates besides the number of literates and illiterates for total, rural and urban areas with sex breakup are given in this table. The literacy rates are worked out by excluding population in the age group 0-6. As per 2001 Census, the proportion of literates to total population excluding the age group 0-6 comes to 62.5 percent in the district. This proportion in rural area is 58.1 percent against 73.4 per cent in urban areas. In the district the literacy rates of males (71.2 percent) is much higher than that of females (53.7 percent). Among the mandals, Tenali mandal tops with 75.2 percent literates followed by Guntur mandal (73.4 percent). Bollapalle mandal with 35.7 percent literates stands at the lowest in the district. The gap between male and female literacy is very high which comes to 17.5 in the district. The situation at mandal level is not much different.

District (Rural) Total :		**1,619,889**	**946,806**	**673,083**	**1,559,495**	**657,961**	**901,534**	**58.1**	**67.4**	**48.7**	**18.7**

The above table reveals number of literates, illiterates and the literacy rates in rural areas at Mandal Parishad level in the district. 58.1 percent of the total rural population excluding the age-group 0-6 are literates in the rural areas of district. The corresponding proportion of male and female literates comes to 67.4 and 48.7 percent respectively which shows very wide gap of 18.7 percent in male and female literacy. At Mandal Parishad, Amruthalur has the highest rural literacy rate of 72.0 percent constituting 77.6 percent males and 66.5 percent females. The lowest literacy rate in rural areas is noted in Bollapalle Mandal Parishad with 35.7 percent.

TABLE 23

DISTRIBUTION OF VILLAGES BY LITERACY RATE RANGE, 2001

Range of literacy rate for villages	Number of inhabited villages	Percentage distribution of villages	Population	Percentage distribution of population
1	2	3	4	5
0	-	-	-	-
1-10	-	-	-	-
11-20	3	0.4	4,924	0.2
21-30	10	1.4	25,231	0.8
31-40	56	8.1	184,921	5.8

The above table gives the number and percentage of main workers, marginal workers and non-workers by sex at mandal level in the district as per 2001 Census. The proportion of the total workers works out 49.1 percent of the total population in the district. The total workers are comprised of 41.9 percent of main workers and 7.2 percent of marginal workers and the remaining 50.9 percent are non-workers. Among the main workers, males' participation rate in the district is more with 53.9 percent whereas in females it is 29.6 percent. Male and female marginal workers account for 5.1 and 9.2 percent respectively. The percentage of female marginal workers is higher than the male marginal workers.

This table shows Mandal Parishad-wise number and percentage of main workers, marginal workers and non-workers by sex for rural population of the district as per 2001 census. Of the 3,179,384 total rural population of the district, 45.9% has been categorised as main workers and the marginal workers constitute 8.4% and the remaining 45.7% fall in the category of non-workers. The sex-wise break up at the district level shows that 55.3% males and 36.4% females are in the category of main workers. Male and female marginal workers account for 5.5 and 11.4 percent respectively. The percentage of female marginal workers is higher than male marginal workers. Similar trend is visible at Mandal parishads level. The percentage of total rural workers of the district comes to 54.3%. At mandal parishad level, Veldurthi has highest proportion of total workers forming 60.3% of total population. It is closely followed by Durgi with 60%, Chilakaluripet 59.4%, Edlapadu 59.1% and Prathipadu 59%. The lowest percentage 45 is recorded in Tadepalle mandal parishad.

This table gives number and percentage of main workers, marginal workers, and non-workers by sex in Urban Agglomerations/ Towns recorded in the district during 2001 census. Of the 1,285,760 total urban population of the district, 31.9 percent has been categorised as main workers and 4.1 percent as marginal workers. The remaining 64 percent fall in the category of non-workers. The sex-wise break up at the district level shows that 50.6 percent males and 13 percent females are in the category of main workers. Male and female marginal workers account for 4.2 and 3.9 percent respectively.

The percentage of total urban workers of the district comes to 36 percent. Mangalagiri (M) recorded highest proportion of total workers forming 41.4% of the total population. It is closely followed by Mangalagiri (M+OG) with 41.2%. The lowest percentage of 33.7% is recorded in Narasaraopet(M).

Note: *Percentage of Workers to total workers are given in brackets.*

The above table gives the details of distribution of workers by sex in four categories of economic activity in mandals of the district as recorded in 2001 census. It can be seen that the economy of the district is primarily dependant on agriculture due to the fact that cultivators constitute 17.8 percent of the total workers (main + marginal) and 49 percent of total workers are engaged as agricultural labourers. Household industry workers form 2.4 percent and other workers 30.8 percent in the district.

The distribution of workers by four categories of economic activity at mandal level shows very high dependence of population on agriculture sector absorbing large number of workers. The percentage of female cultivators is 14.2 which is lower as compared to 20.1 percent of male cultivators in the district.

Note : *Percentage of Workers to total workers are given in brackets*

This table presents Mandal Parishad-wise distribution of workers by sex in four categories of economic activity as per 2001 census. In the rural areas of the district total workers constitute (main + marginal) 54.3 percent of the total population. Among these workers, cultivators constitute 22.1 percent,agricultural labourers 58.5 percent , household industry workers 1.9 percent and other workers 17.5 percent. The agricultural sector plays a major role in providing employment to the working force of rural population despite the fact that it is not commercially viable. Household industries could not make much progress in rural areas as reflected in the data and these household industries employ only 1.9 percent workers of the total working force. Therefore surplus working force has to depend on primary activities. Among cultivators, the percentage of females (16.1 percent) is lesser than males (26.8 percent) in the rural areas of the district.

^ The names of constituents of UA are given separately

This table shows the distribution of workers by sex in four categories of economic activity of Urban Agglomerations / Towns. In the urban areas of the district total workers form(main + marginal) 36.0 percent of total population. Among these workers, cultivators constitute 1.5 percent, 13.7 percent agricultural labourers, 4.5 percent household industry workers and 80.3 percent other workers in the district. The other workers play a major role in providing employment to the working force of urban population. Household industries also could not make much progress in urban areas as reflected in the data and these household industries employ only 4.5 percent workers of the total working force. Therefore surplus working force has to depend on other working activities. Among cultivators, the percentage of females (1.0 percent) is lesser than males (1.7 percent) in the urban areas of the district.

		(100.0)	**(99.4)**	**(84.1)**	**(92.2)**	**(89.0)**	**(88.9)**	**(96.1)**	**(25.6)**	**(44.1)**	**(90.5)**	**(100.0)**

Note : *- Percentages are given in brackets.*

** Based on the improved drinking water source, drinking water supply has been classified as `Improved ' or otherwise. If the household has access to drinking water supplied from a tap or a hand pump / tube well situated within or outside the premises it is considered as having access to `Improved drinking water source'. However, the concept of improved drinking water is state specific and this is to be considered accordingly.*

 # Post office includes Post office, telegraph office and Post and telegraph office.

$ Transport communication includes bus service, rail facility and navigable waterways.

The above table deals with the Mandal Parishad-wise distribution of villages according to the availability of different amenities like education, medical, improved drinking water, post office, telephone, transport communications, agricultural credit societies, approach by pucca road and power supply within the village. Out of 694 inhabited villages in the district, 690 villages or 99.4 percent have been provided with the education facilities of one type or the other. Similarly 584 villages in the district constituting 84.1 percent have medical facilities of one type or the other. Improved drinking water facility is available in 640 or 92.2 percent villages. As regards post office facility which includes facilities like telegraph office and post & telegraph, 618 villages constituting 89.0 percent of villages have been provided with post office facility within the village. 617 or 88.9 percent villages have been provided with telephone facility, 667 or 96.1 percent with transport facility, 178 or 25.6 percent villages with bank facility and 306 or 44.1 percent with agricultural credit societies. Similarly there are 628or 90.5 percent villages which have been linked with the pucca road. Total 694 or 100.0 percent of villages have been provided with the electricity supply.

TABLE 38

Note : *- Percentages are given in brackets.*

** Based on the improved drinking water source, drinking water supply has been classified as `Improved ' or otherwise. If the household has access to drinking water supplied from a tap or a hand pump / tube well situated within or outside the premises it is considered as having access to `Improved drinking water source'. However, the concept of improved drinking water is state specific and this is to be considered accordingly.*

 # Post office includes Post office, telegraph office and Post and telegraph office.

$ Transport communication includes bus service, rail facility and navigable waterways.

This table depicts the number and percent of rural population served by different kind of amenities. Out of total rural population of 3,179,384 persons in the district 3,177,418 persons or 99.9% have educational facility of one type or the other. Similarly 2,990,472 persons or 94.1% population has medical facilities while 2,988,795 persons or 94.0% have got improved drinking water facility. Post office facilities are available to 3,074,161 persons or 96.7%. Telephone facility is available to 2,987,838 persons or 94.0%. Transport Communications facility is available to 3,148,232 persons or 99.0%. Bank facility is available to 1,388,760 persons or 43.7%. 1,892,120 persons or 59.5% have been provided with the facility of agricultural credit society. 2,996,996 persons or 94.3% have been provided with the facility of approach by pucca road. Power supply is available to 3,179,384 persons or 100.00% rural population in the district.

TABLE 39

DISTRIBUTION OF VILLAGES NOT HAVING CERTAIN AMENITIES ARRANGED BY DISTANCE RANGES FROM THE PLACES WHERE THESE ARE AVAILABLE, 2001

Village not having the amenity of	Distance range of place from the village where the amenity is available			
	Less than 5 kilometres	5-10 kilometres	10+ kilometres	Total (Col. 2 to 4)
1	2	3	4	5
1. Education :-

5. Bus Service	26	2	3	31
6. Banks				
(a) Commercial Bank	189	205	125	519
(b) Cooperative Bank	88	238	352	678
7. Agricultural Credit Societies	140	133	115	388

The above table presents distribution of villages not having certain amenities within the village at district level. They have to go out of their village to avail these facilities. Such villages have been presented in this table according to various distance ranges. Children of 4 villages have to travel less than 5 Kms for schooling. Out of 694 inhabited villages as many as 271 villages are deprived of middle school and 673 of degree college facilities. 136 villages avail the facility of middle school at a distance of less than 5 Kms. 71 at a distance of 5-10 Kms and the remaining 64 at a distance of 10+ Kms. In respect of degree colleges 86 villages avail this facility at a distance of less than 5 Kms, 190 between 5-10 Kms and the rest at a distance of 10+ Kms. Similarly there are 672 villages in the district which have been deprived of Hospital facility and 623 villages which are deprived of PHC facilities. Of these 81 villages have the facility of Hospital available within 5 Kms, while in respect of 144 villages the inhabitants have to cover a distance of 5-10 Kms in order to avail this facility, similarly 447 villages have this facility at a distance of 10+ Kms. As regards PHC 120 villages avail this facility at a distance of less than 5 Kms, 221 at a distance of 5-10 Kms and the remaining 282 villages have to travel a distance of more than 10+ Kms to avail this facility. The post office facility is not available for 77 villages in the district. Of these 59 villages have this facility at a distance of less than 5 Kms, another 14 villages avail it at a distance of 5-10 Kms. In the remaining 4 villages inhabitants have to travel a distance of more than 10 Kms.As regards Telephone there are 78 villages in the district which are not having the telephone facility. Of these, 16

villages avail this facilty at a distance of less than 5 Kms, 8 at a distance of 5-10 Kms and remaining 54 villages have to travel a distance of 10+ Kms. In respect of Bus service, it is noticed that 31 villages do not have facility. Among these villages 26 villages avail this facility at a distance of less than 5 Kms, 2 at a distance of 5-10 Kms and 3 at a distance of 10+ Kms.

In the entire district, 519 villages are deprived of commercial bank facilities and 678 of Co-operative bank. Of these 519 villages which are deprived of Commercial Banks 189 villages avail this facility at a distance of less than 5 Kms, 205 between 5-10 Kms and the remaining 125 villages at a distance of 10+ Kms.

Regarding Co-operative banks out of 678 villages, 88 villages avail this facility at a distance of less than 5 Kms, 238 at a distance of 5-10 Kms and remaining 352 villages at a distance of 10+ Kms.

388 villages do not have agricultural credit societies. This facility to 140 villages is available at a distance of less than 5 Kms, for 133 at a distance of 5-10 Kms and the remaining 115 villages at a distance of 10+ Kms.

TABLE 40
DISTRIBUTION OF VILLAGES ACCORDING TO THE DISTANCE FROM THE NEAREST STATUTORY TOWN AND AVAILABILITY OF DIFFERENT AMENITIES

Distance range from the nearest statutory town (in kilometers)	Number of inhabited villages in each range	Type of amenity available

 # Post office includes Post office, Telegraph office and Post and telegraph office.
$ Transport communication includes bus service, rail facility and navigable waterways.

This table deals with the distribution of villages according to distance from the nearest statutory town and availability of different amenities within the village. At district level out of the 694 villages, 690 villages forming 99.4% are having the educational facility of one type or the other and 584 villages constituting 84.1% have the medical facilities, 618 villages forming 89.0% have the facility of post office within the village and 617 or 88.9% have the facility of telephone. 667 villages constituting 96.1% have been linked by transport service. 178 villages comprising 25.6% have been provided with bank facilities while 306 villages constituting only 44.1% have agricultural credit societies. 628 villages comprising 90.5% have been provided with pucca road.Out of total 694 inhabited villages in the district, there are 35 villages which have nearest town upto a distance of 5 Kms. All these 35 villages are having the educational facility of one type or the other and among these, 31 villages constituting 88.6% have the medical facilities within the village. 34 villages forming 97.1% have the facility of post office within the village and 33 villages or 94.3% have the facility of telephone. All these 35 villages have been linked by transport service. 7 villages comprising 20.0% have been provided with bank facilities while 22 villages constituting 62.9% have been provided by agricultural credit societies. 34 villages comprising 97.1% possess pucca roads.

Similarly 280 inhabited villages are at a distance range of 5-15 Kms from the nearest statutory town having educational facility in 99.3% villages, medical facility in 87.1%, post office in 88.9%, telephone 88.9%, transport and communication 96.1%, banks 26.4%, agricultural credit societies 46.4% and pucca road facility in 90.0% villages.

Maximum number of villages i.e. 346 villages fall in the distance range of 16-50 Kms from the statutory town. Out of these villages 99.4% possess educational facilities, 82.7% medical, 90.8% post office, 89.3% telephone, 96.2% transport and communication, 26.6% banks, 42.5% agricultural credit societies and 89.6% of villages have pucca approachable road.

33 villages are at a distance range of 51+ Kms. In this 100.00% villages possess educational, 69.7% medical, 63.6% post office, 78.8% telephone, 90.9% transport and communication, 15.2% banks, 21.2% agricultural credit societies and 97.0% villages have pucca road.

 # Post office includes Post office, Telegraph office and Post and telegraph office.

** Based on the improved drinking water source, drinking water supply has been classified as 'Improved ' or otherwise. If the household has access to drinking water supplied from a tap or a hand pump / tube well situated within or outside the premises it is considered as having access to 'Improved drinking water source'. However, the concept of improved drinking water is state specific and this is to be considered accordingly.*

$ Transport communication includes bus service, rail facility and navigable waterways.

The above table shows the distribution of villages by population range and amenities available therein as recorded in 2001 census. In Guntur district out of total 694 inhabited villages 690 (99.4%) have educational facility, 584 (84.1%) have medical facility, 640(92.2%) have improved drinking water facility and 617 (88.9%) have telephone facility, 667 (96.1%) have been linked by bus service and 178 (25.6%) have bank facility. 306 (44.1%) villages have been served with the agricultural credit societies, 628 villages (90.5%) have pucca approachable road and all villages (100.00%) possess electricity for all purposes.

As many as 20 villages have below 500 population. 35 villages have fallen in the population range 500-999 and 110 villages in the range of 1,000-1,999. In the population range of 2,000-4999 the number of villages fallen are 299. A study of amenities available for these smaller villages reveal that they possess lesser amenities and they have to depend on nearby towns to avail the facilities.

	District Total :	**73.9**	**35.8**	**38.1**	**49.1**	**6.2**	**1.5**	**3.4**	**0.6**	**5.8**

+ Arranged in alphabetical order

This table gives the per capita receipt and expenditure (in rupees) for each town in the district. The average per capita receipts for all towns of the district works out to Rs.73.9 of which Rs.35.8 are derived through local taxes and the remaining Rs.38.1 are received from all other sources. The average of total expenditure incurred per head is Rs.49.1. Out of this Rs.6.2 are spent on general administration, Rs.1.5 on public health and conveniences, Rs.3.4 on public works and Rs. 0.6 on public institutions and 5.8 on other items. Among all the 10 towns the per capita receipt of Rs.122.2 is highest in Guntur (M.Corp). The highest per capita expenditure of Rs.72.7 per head is also recorded in Guntur (M.Corp). It may be noted that for Guntur (M.Corp) only total per capita exenditure is available but details on General Administration, Public Health, etc., are not available. Hence variation in the district total is observed as it is not tallying with the details of expendiutre for the above reason.

TABLE 44
SCHOOLS / COLLEGES PER 10,000 POPULATION IN STATUTORY TOWNS, 2001

Sl. No.	Name and urban status of Town+	Type of educational institution

Source : *Census of India 2001, H-series; "Tables on houses, household amenities and assets"*

The data presented in this table depicts number of households by tenure status and number of rooms occupied in the district. As per 2001 census the total number of households in the district is 1,063,882 consisting of 783,818 rural and 280,064 urban households. 209,402 households belong to Scheduled Castes and 56,703 to Scheduled Tribes. 859,772 households are living in their own houses and among them 185,611 SCs and 49,106 STs are owning the houses. Of these households, the largest number of households 501,044 have occupied single room accommodation and is followed by double roomed accommodation numbering 211,421 households. Next position is claimed by 76,528 households occupying three roomed accommodation and 3+ roomed accommodation by 43,346 households. While 27,430 households are without any exclusive room.

182,829 households living in rented accommodation in the district. The largest number of 87,432 households are living in single roomed accommodation, followed by 53,212 households in double roomed accommodation. Households with three rooms and three plus are 29,137 & 9,885 respectively. The tenure status under "others" numbering to 21,461 of total households are distributed in single roomed accommodation numbering 13,813; 2,808 double roomed, 1,677 in three roomed accommodation and 858 households in 3+ roomed accommodation. In rural areas majority of households have bigger size and majority of them have their own houses while the urban areas show reverse picture.

Source : *Census of India 2001, H-series; "Tables on houses, household amenities and assets"*

The data presented in the above table reveals that 53.4 percent of households of the district are living in houses made of pucca materials, residences of 15.2 percent households are of semi-permanent nature and houses of only 31.4 percent households are made of temporary materials.

In the rural areas, however, the percentage of households living in permanent houses is 47.7 percent, 16.2 percent in semi-permanent and only 36.1 percent in temporary houses.

The district percentage in urban areas indicates that majority of households i.e. 69.3 percent are living in houses constructed with pucca materials whereas 12.4 percent in semi-permanent structures and the percentage of households living in temporary houses is 18.3 i.e. constructed with kutcha materials.

				(71.33	(76.89)	(66.24)	(77.96)	(59.60)

This Table indicates that 65.8 percent households in the district have been provided with improved drinking water supplied from a tap or a hand-pump/ tube-well. 66.8 percent households have provision of electricity to their houses. The bathroom facility is available to only 40.7 percent households within their premises . As regards rural areas, 29.9 percent households are having bathroom facility, whereas this proportion in urban areas comes to 70.8 percent. 61.00 percent rural households have facility of electricity against 82.8 percent in urban areas. Toilet and drainage facilities in the district are available to 38.68 percent and 63.98 percent households respectively. Their percentage is higher in urban areas as compared to rural areas. The trend of these amenities available to the households at mandal level is almost confirm to the district pattern analysed.

Source : *Census of India 2001, H-series; "Tables on houses, household amenities and assets"*

The percentage distribution of households by type of fuel used for cooking purposes is given in this table. There are nine types of fuels used for which data have been presented in this table. It is observed that wood is the most predominant fuel used for cooking by 63.5 percent households in the district. In rural areas use of wood for cooking is very high while it is less in urban areas due to availability of L.P.G.. The next cooking fuel is gas which is used by 24.87 percent households in the district. This proportion in urban and rural areas is 46.2 and 17.3 percent respectively. In rural areas use of gas for cooking is very low as compared to urban areas at mandal level. There are 4.4 percent households using kerosene in the district. Use of kerosene for cooking by urban households comes to 12.4 percent while in rural areas its proportion is only 1.5 percent as a whole. The percentage of households using other types of fuel such as crop residue, cowdungcakes, electricity, coal, biogas etc. is insignificant. In rural areas wood is main fuel and in urban areas cooking gas is used as predominant fuel.

Source : *Census of India 2001, H-series; "Tables on houses, household amenities and assets"*

This table presents data for total, rural and urban areas at district/mandal level about households availing banking services and in possession of assets such as radio/transistor, telephone, bicycle, scooter, car etc. There are 1,063,874 households in the district and among them, 296,131 households have been availing banking services. 227,622 households have Radio/ Transistor. Television is possessed by 373,298 households. Telephone is available in 90,130 households. Bicycle is used as a major means of transportation and is available in 349,206 households. Scooter, Motor cycle and Moped are used by 76,339 households. Whereas 8,862 households are in possession of Car, Jeep and Van. The picture in usage of banking services and possession of assets by households at mandal level is almost similar as analysed above for the district as a whole.

(xiii) Scope of Village directory and Town directory - column heading-wise explanation and coverage of data

The village directory and the town directory presented in the District Census Handbooks are proved more useful. The formats of village directory and of seven statements on town directory are on the same pattern canvassed in 1991 census except for a few additional columns. These additional columns are introduced to throw more insight into the infrastructure of the villages and towns. All the amenities except recreational and cultural facilities, power supply and news papers/magazines are brought under one bracket, with corollary that in case any amenity is not available in the village, the distance of the nearest place where the facility is available is presented. Similar method is followed in respect of towns where educational and medical facilities are not available. The non-census data presented in the village and town directories relate to the year 1999. However, wherever the field agencies have indicated the later position, the information has been updated. Almost all the details in the statement have been indicated by codes. In respect of total population and total number of households, the figures as returned during the recent census i.e. 2001 census have been presented. The scope of village directory and town directory statements with column heading-wise explanation and coverage of data are hereunder presented.

Scope of Village Directory :

In the similar manner as was done in the past, the village directory has been prepared for all the villages in the state and these are presented mandal-wise in the District Census Handbook. This statement contains village-wise area, population, amenities such as educational, medical, communications, drinking water facilities, etc., and also the land use pattern details. The villages are shown in order of their permanent location code numbers. An alphabetical list of villages with their permanent location code numbers and a mandal map has been presented in the beginning of Village Directory of each mandal. This facilitates the reader in locating the mandal in which a particular village lies. The village directory now contains 23 columns as against 18 columns in the 1991 handbook. To give more information under amenities column, banking facilities such as commercial and co-operative banks, agricultural, non-agricultural and other credit societies have been included in the present statement. Similarly, a new column 'number of recreational and cultural facilities' showing cinema/video halls, sports club and stadium/ auditorium has been added. In addition to the above a column showing newspapers/magazines received and name of the most important commodity manufactured in the village have been incorporated. Besides the above, the Village Directory is having 12 appendices viz.

Appendix I	:	Abstract of Educa tional, Medical and other amenities in the villages – Mandal level.
Appendix 1A	:	Villages by number of primary schools
Appendix 1B	:	Villages by primary, middle and secondary schools
Appendix 1C	:	Villages with different sources of drinking water facilities available
Appendix II	:	Villages with 5,000 and above population which do not have one or more amenities
Appendix IIA	:	Census Towns which do not have one or more amenities

Appendix III	:	Land utilization data in respect of census towns / non-municipal towns
Appendix IV	:	Mandal Parishad-wise list of inhabited villages where no amenity other than drinking water facility is available
Appendix V	:	Summary showing number of villages not having Scheduled castes population
Appendix VI	:	Summary showing number of villages not having Scheduled tribes population
Appendix VIIA	:	List of villages according to the proportion of the Scheduled Castes to the total population by ranges.
Appendix VIIB	:	List of villages according to the proportion of the Scheduled Tribes to the total population by ranges.
Appendix VIII	:	Statement showing number of Girls schools in the villages
Appendix IX	:	List of Degree Colleges Village/ Town in the district
Appendix X	:	List of Hospitals Village/ Town in the district
Appendix XI	:	List of Banks Village/ Town in the district
Appendix XII	:	List of Cinema Halls Village/ Town in the district

It may be noted that the Appendix 1A, 1B, 1C, II, II-A, VIII, IX, X, XI and XII have been included afresh in comparison to the District Census Hand Books of 1991 Census.

Columns 1 to 3 relate to the serial number, location code number, name and total area of the village. The area given under column 3 is as per the data collected from the state survey department during 1991 census and presented even for 2001 census as the department clarified that there are no changes in the area figures. Column numbers 4 and 5 provide the total population and the total number of households in the village as per 2001 census. Columns 6 to 13 list out the basic amenities available in the village such as educational; medical; drinking water; post, telegraph and telephone; commercial and co-operative banks; agricultural, non-agricultural and other credit societies; recreation and cultural facilities and communications.

The columns 14 to 18 give the details of approach to the village, nearest town & distance, power supply, news paper/magazine circulation and most important commodity manufactured in the village.

The remaining columns 19 to 23 pertain to the land use pattern in the village. The extent of forest area has been given in column 19 while in columns 20 to 23 the extent of irrigated area together with different irrigational sources, the extent of culturable waste including gaucher and groves and the area not available for cultivation such as buildings, roads and railways or under water(rivers and canals), etc., have been given. Here it is worth mentionable that the total area figures of Col. 19 to 23 may not tally with the total area of the village as shown in Col. 3 due to various reasons such as water ways, etc., which are not generally included in the land use statistics.

The land use pattern in the Village Directory conforms to the pattern of classification of land use as recommended by the Ministry of Agriculture, Government of India. The Ministry of Agriculture has recommended the maintenance of records of land use pattern under five categories viz. forests, not available for cultivation, other uncultivated lands excluding fallow lands, fallow lands and net area sown.

The concepts of various types of land use given under each of the columns 19 to 23 as given in the Village Directory schedule are reproduced below:

1. Forests (Col.19) :

These include all actually forested areas and the lands classified or administered as forests under any legal enactment dealing with forests whether State owned or private. If any portion of such land is not actually wooded but put to some agricultural use, that portion is included under the appropriate heading of cultivated or uncultivated land.

2. Cultivated area with break-up irrigated and un-irrigated (Col. 20 & 21):

This includes the land under the following three categories.

I) Net area sown :

The net area sown represents the area sown to crops counting areas sown more than once in the same year, only once.

II) Other fallow lands :

This includes all lands which were taken up for cultivation but are temporarily out of cultivation for a period of not less than one year and not more than five years. The reasons for keeping such lands fallow may be either due to poverty of the cultivators or inadequate supply of water or malarial climate or silting of canals or rivers or un-remunerative nature of farming, etc.

III) Current fallows :

This class comprises cropped areas which are kept fallow during the current year. If any seedling area is not cropped again in the same year, it is also treated as current fallows.

3. Culturable Waste (Col. 22):

This item includes the land under the following three categories.

i) Permanent pastures and other grazing lands:

These cover all grazing lands whether they are permanent pastures and meadows or not. Village common and grazing lands within forest areas are included under this head.

ii) Lands under miscellaneous tree crops and groves not included in the area sown:

Under this class is included all cultivable land which is not included under net area sown but is put to some agricultural use. Lands under casurina trees, thatching grass, bamboo bushes and other groves for fuel, etc., which are not included under 'Orchards' are classed under this category.

iii) Culturable waste:

This includes lands available for cultivation but not taken up for cultivation or abandoned after a few years for one reason or other. Such lands may be either fallow or covered with shrubs and jungles, which are not put to any use. They may be assessed or not assessed and may lie in isolated blocks or within cultivated holdings. Land once cultivated but not cultivated for five years in succession is also included in this category.

4. Area not available for cultivation (Col.23) :

This includes the land under the following two categories.

i) Land put to non-agricultural uses :

All lands occupied by buildings, roads and railways or under waters such as rivers and canals and other lands put to uses other than agricultural.

ii) Barren and uncultivable land :

This covers all barren and uncultivable land like mountains, etc., i.e. which cannot be brought under cultivation unless at a high cost. Whether such land is in isolated blocks or within cultivated holdings.

All the above particulars are based on the data received from the concerned departments like education, medical, postal electricity, etc., and also mainly from the Mandal Revenue Officers concerned.

Item on communications has been shown separately to spell in terms of availability of the public transport system. This is meant to see whether the village is served by any mode of transport such as bus or rail or waterway. It is against this back-ground that the item on approach to village has been given separately. This refers to road, etc., leading to the village and is to indicate whether the village is approachable both in fair and foul weather and whether it is inaccessible for all time or only some time in the year. Adult literacy class/centre under item on 'Education' and Primary health centre and Community health worker under item 'Medical' of Village Directory are included to indicate statistics on the Minimum Needs Programme of the Planning Commission.

Scope of Town Directory:

There are seven statements in the Town Directory, which include several particulars relating to the towns arranged as per the alphabetical order of their names. These statements are almost similar to those adopted in 1991 census except for a few changes. During the 1991 there were six Town Directory statements

besides providing a separate statement IV-A bringing out civic conditions of the notified slums in class I and II towns. In the present volume the statement IV-A of the 1991 handbook has been termed as statement-VII and the data is presented in respect of all towns having statutory bodies including unnotified slums. The column 4 of statement IV-A of the 1991 book i.e. area of the slum has been deleted in the present book duly substituting the same by giving the information - whether the slum is notified or not with a view that the local authorities are not in a position to provide exact area figures for each slum area. Further in the present statement-VII another item i.e. approximate number of households living in the slum is incorporated. The captions of the statements are as follows:

Statement I:	Status and growth history
Statement II:	Physical Aspects and location of town, 1999
Statement III:	Municipal Finance,1998-99
Statement IV:	Civic and other Amenities, 1999
Statement V :	Medical, Educational, Recreational andCultural Facilities, 1999
Statement VI:	Trade, Commerce, Industry and Banking, 1999
Statement VII:	Civic and other Amenities in slums, 1999

In addition to the above seven statements one appendix for the towns showing their outgrowth with population has also been presented.

The formats of Town Directory have been devised to suit the Minimum Needs Programme of the Planning Commission. To reflect this programme, the columns scheduled castes and schedule tribes population in statement IV and Adult Literacy classes/ Centres in statement V are identical.

In case such of the amenity as Fire Fighting Service in statement IV, the Educational or Medical facility in statement V is not available in the town., the name of the nearest place and its distance from the referent town has been given. This feature is followed since 1981 census as it is necessary to identify the areas that have no specific facility in the district.

The following eleven places are treated as urban areas in Guntur District.

1. Macherla (M)
2. Mangalagiri (M)
3. Sattenapalle (M)
4. Vinukonda (CT)
5. Narasaraopet (M)
6. Chilakaluripet (M)
7. Guntur (M.Corp)
8. Tenali (M)
9. Ponnur (M)
10. Bapatla (M)
11. Repalle (M)

During 1991 census there were 15 towns in Guntur district. In 2001 census 4 towns i.e. Bhattiprolu, Phirangipuram, Tadepalle and Vijayapuri South declassified as revenue villages due to strict application of criteria for treating a place as town. There are 10 statutory towns i.e. Municipalities and only one census town (Vinukonda) in the district. After 1991 census for the first time Guntur Municipality has been upgraded as Municipal Corporation.

Statement I -Status and Growth History:

This statement provides basic information on Civic Status, Population with decadal growth rate from 1901 to 2001, density for 2001 census and sex ratio from 1981 to 2001 censuses of each town besides presenting class of town, location code, name of the mandal, area in Sq.Kms. and number of households including houseless households returned in 2001 census.

The columns 1 and 2 relate to serial number and class, name and civic administrative status of the town. The class of town has been determined basing on the size of population as given below:

Population	Class
1,00,000 and above	I
50,000 to 99,999	II
20,000 to 49,999	III
10,000 to 19,999	IV
5,000 to 9,999	V
Below 5,000	VI

The civic status of the town as in the year 2000 is indicated in brackets by abbreviated letters like 'M.Corp' for Municipal Corporation, 'M' for Municipality, 'CT' for Census Town. The location code numbers under Col.3 for the towns appear in zig-zag manner as the towns are arranged in alphabetical order in the district. This facilitates easy location of the town in the map. After location code the cols. 4-7 indicate name of mandal, name of mandal parishad, area of the town in Sq.Kms. and number of households including houseless households recorded in 2001 census. The population of the town with decadal growth rate from 1901 census to 2001 census is given in Cols. 8-18. The column 19 shows the density of population and column 20 to 22 give the sex ratio recorded during 1981 to 2001 censuses. The sex ratio defined here is number of females for 1,000 males.

By area, Guntur town is the largest with 30.01 Sq.Kms. followed by Ponnur town with 26.14 Sq.Kms. Vinukonda is the smallest town in the district with an area of 2.6 Sq.Kms. Guntur being the Municipal Corporation is having 1,16,838 households whereas Repalle town with least number of households of 10,091. In respect of population growth, there is gradual increase since 1901. However Vinukonda town recorded highest decadal growth rate in population with 51.8, whereas it is very neglibible in Sattenapalle town with 0.01 raising the population from 45,442 persons to 45,469 persons over a decade period. The density of population in Vinukonda town is very high with 20,199 persons per Sq.Km. Whereas it is very less in Sattenapalle town with 2,078. In respect of sex ratio, there is slight fluctuation recorded in the figures for 1981, 1991 and 2001. Chilakaluripet and Repalle towns are having more females than males as seen from the 2001 census figures.

Statement II - Physical Aspects and location of town, 1999:

This statement contains 13 columns and depicts physical aspects and location of town in the district. Column numbers 1 and 2 relate to serial number and class, name and civic status of the town. The physical aspects such as rainfall in millimeters, maximum and minimum temperature in centigrades have been shown in columns 3 to 5 by taking average for the last 10 years i.e. from 1990 to 1999. Repalle has recorded highest rainfall with 1,182.16 mm. where as Tenali with lowest rainfall of 87.69mm in the district. As regards temparature Sattenapalle has recorded highest temparature with 43^0C and minimum 19^0C followed by Mangalagiri with 41.3^0C maximum and minimum 20.2^0C. It is very interesting to note that the district headquarters town Guntur recorded lowest maximum temperature of 29.79^oC and minimum temperature with 23.59^oC. Repalle town is far away from the state headquarters Hyderabad with 363 Kms. where as Macherla is 175 Kms. away from Hyderabad. Macherla is 132 Kms. away from district headquarters Guntur and Mangalagiri with least distance of 23 Kms. All the towns are not far away from the divisional headquarters except Macherla for which the divisional headquarters Narasaraopet is at a distance of 80 Kms. For all the towns in the district except Mangalagiri, the nearest city with population of one lakh and more is either Guntur or Tenali. For Mangalagiri, Vijayawada in Krishna district is at a distance of 10 Kms. For all the towns in the district the nearest city with population of five lakh and more is Guntur whereas for Mangalagiri it is Vijayawada. All the towns are having both bus and rail facility within their town except people of Chilakaluripet have to go to Narasaraopet railway station, Ponnur people to Nidubrolu railway station. The towns Macherla, Mangalagiri, Chilakaluripet, Ponnur, Repalle are having navigable river/canal within 10 Kms. range.

Statement III - Municipal Finance, 1998-99:

The details of inclusion in this statement were obtained from the respective statutory bodies. In the statement there are 16 columns. Column 1 to 2 relate to serial number, name and class of town with civic administration status. Columns 3 to 9 show the receipts of the local body under various sub-heads

and columns 10 to 16 give the details of expenditure incurred on general administration, public safety, public health and convenience, public works and institutions, etc.

Among the 11 towns in the district Guntur being Municipal Corporation its income during 1998-1999 was Rs.62.9 Crores by way of taxes, Properties, Government grants, etc., whereas this local body spent Rs.37.4 Crores towards its administration and for public facilities. The income and expenditure of other nine municipalities in the district are more or less equal. Vinukonda which is a census town had an income of Rs.72 lakhs with the same range of expenditure.

Statement IV - Civic and other Amenities, 1999:

The title itself reveals that this statement deals with facility provided to the pupil in the urban areas of the district.

This statement contains 20 columns. Column 1and 2 relate to serial number, class and name of town and civic administration status of the town respectively. Column 3 gives population of the town whereas the column number 4 and 5 population of SC and ST as per 2001 census. The lengths of pucca and kutcha roads are recorded separately for each town in column 6. The column 7 shows the details of sewerage systems prevailing in the referent town. The number of latrines with different types is shown in columns 8 to 11. Column 12 is provided separately to show method of disposal of night soil. The source of protected water supply and system of storage with capacity are recorded under column 13 and 14. Column 15 shows the availability of fire fighting services. In case if this service is not available in the town, the name of the nearest town along with distance where available to be mentioned under this column. The columns 16 to 20 relate to different types of electrical connections in number.

The civic and other amenities shown in this statement are available to each and every town of the district. The most common system of sewerage in all the towns is open surface drainage. Water borne latrines are more in number in all the towns. The most common method of disposal of night soil in the towns is septic tank and pits. In certain localities of the towns of Mangalagiri, Vinukonda and Repalle wheel barrow method of disposal of night soil is still in practice. In almost all towns water supply is done through taps and tube wells. The system of storage of water is "over head tank" in the towns of Macherla, Sattenapalle and Bapatla where as service reservoir in Mangalagiri, Narasaraopet and Tenali. Tank is the storage system of water for Vinukonda and Chilakaluripet towns. In respect of Repalle town the system of storage of water is river infiltration gallery. All the towns in the district is having fire fighting service. A good number of domestic, industrial, commercial, road lighting and other electrical connections is existing in all the towns of the district.

Statement V - Medical, Educational, Recreational and Cultural Facilities, 1999:

In this statement the availability of medical, educational, recreational and cultural facilities are presented with reference to the population of 2001 Census. This statement is containing 20 columns. Column 1, 2 and 3 relate to serial number, class and name of the town and the population recorded during 2001 census respectively. The columns 4 and 5 show about the availability of different hospitals, dispensaries, T.B. Clinics, etc., together with beds strength. Columns 6 to 15 relate to educational facilities such as various schools/colleges at all levels including Medical, Engineering, Polytechnic, Technical Institutions and adult literacy centers. The column 16 is meant for working women's hostels with number of seats. The number of recreational and cultural facilities such as Stadia, Cinema, Auditorium, Community halls, Public Libraries including reading rooms available in the towns is recorded in columns 17 to 20.

All the eleven towns in the district are having several nursing homes with a good strength of beds to cater the need of medical facilities. The headquarters town Guntur is having hospitals, nursing homes, T.B. Centres, family welfare centres, etc. with a bed strength of 2,021 followed by Tenali with 540 beds and Chilakaluripet with 447 beds. In respect of Professional Courses, medical college at Guntur is the nearest for all the towns except for Mangalagiri, the medical college at Vijayawada is nearer. Several private engineering colleges located in the district at

several places meet the need of students of all the towns. The position in respect of polytechnic colleges is similar to that of engineering colleges for the students of the towns. Number of recognized short hand, typewriting and vocational training institutions are available in almost all towns. Every town is having Junior Colleges, High schools, middle schools, primary schools and adult literacy classes/centres. In the district working women's hostels are available only at Guntur. In respect of recreational and cultural facilities, all the towns are having number of Cinema Theatres, auditorium/drama/Community halls and public libraries including reading rooms.

Statement VI - Trade, Commerce, Industry and Banking, 1999:

This statement deals with economic activities in the urban areas with 11 columns. Column 1 and 2 are serial number and class and name of the town. The column 3 to 5 give the details of three most important commodities exported and the columns 6 to 8 show the three most important commodities manufactured. The Commercial Banks, number of agricultural credit societies and number of non-agricultural credit societies are furnished in the columns 9 to 11.

The urban population of the district mainly export items like handloom cloths, tobacco, paddy, polished stones, chillies, cotton, groundnut and groundnut oil, etc. The important items manufactured in the towns of the district are edible oil, handloom products, paddy, dhal, rice, oil, polished stones, cement, etc. As regards economic activity almost all towns are having commercial banks and non-agricultural credit societies. The district headquarters town Guntur is having as many as 76 commercial banks 5 Agricultural credit societies and 94 non-agricultural credit societies. Next place is occupied by Tenali town with 23 commercial banks and 97 non-agricultural credit societies. In Guntur all towns in the district possess agricultural credit societies. One each regarding Guntur town having 5 Agricultural credit societies.

Statement VII - Civic and Other Amenities in Slums, 1999:

This statement gives details of Civic and Other Amenities provided in all slums whether notified or not. Keeping inview of slums problem in urban areas during 1981 census, this statement was first introduced limiting the details to Class I and Class II towns. The same pattern was adopted during 1991 census also.

Though the magnitude of slums problem is greater in Class I and Class II towns, it is accepted that they are associated with smaller towns also. Hence the information on slums has been presented in this statement in respect of all towns having statutory bodies.

The statement on slums contain 17 columns. The column 1 to 4 show the serial number, class and name of town, name of the slum and whether the slum is notified or not respectively. Column 5 and 6 gives the details of approximate number of households and population of the slum during 1999. The length of the paved road in the slum has been shown in Kms. under column 7. The columns 8 to 13 present system of sewerage, number of latrines both private and community and the method of disposal of night soil. The column 14 is meant for showing number of tap points public hydrants. The last 3 columns i.e. columns 15 to 17 relate to number of electric connections under domestic, road lighting points and others.

In Guntur district there are 11 towns and out of which 10 are statutory towns all these statutory towns are having slum areas. The town Vinukonda is not a statutory town and moreover not having slum.

In Macherla municipality there are 4,366 households with an estimated population of 21,850 during 1999 living in slums. These slums are having 4.53 Kms. paved roads, and open surface drainage system of sewerage 1,200 water borne private latrines. The method of disposal of night soil is septic tank. In these slums protected water is supplied through 200 tap points. In respect of electricity there are 3000 domestic and 180 road lighting points are existing.

Similarly the civic conditions of other notified slums are same as explained in respect of Macherla municipality, but in respect of method of disposal of night soil in Mangalagiri it is "Wheel Barrow" and in Repalle both 'Septic Tank' and "Wheel Barrow" methods are followed. The slum population in Guntur (M.Corp.) was estimated during 1999 as 1,70,155 persons followed by Tenali (M) with 46,000 persons, Narasaraopet (M) with 37,491 persons and Bapatla (M) with 30,410 persons. In the remaining towns the slum population was estimated below 30,000 persons. All the slums in the district are electrified.

Section I - Village Directory

(a) Note explaining the abbreviations used in Village Directory :

The "Village Directory" is one of the traditional compilations of the Census. It gives the list of villages, their location numbers, their area, population, number of households, amenities such as educational, medical, drinking water, post and telegraph, commercial and co-operative banks, agricultural non-agricultural and other credit societies, recreational and cultural facilities, communication, approach to village, nearest town with a distance, power supply, availability of newspaper and magazines, most important commodity manufactured and land use of each village.

Village is a statutory recognized unit having a definite boundary and separate land records. In case, a complete village is treated as an outgrowth of urban agglomeration, data on amenities for that village, have not been given in the Village Directory but shown along with the urban component. The villages which are consider as a Census Town , the amenities data are shown in the Town Directory. For those villages which have partly merged in an outgrowth of U.A., the amenities data are shown in the Village Directory for that particular village.

The 'un-inhabited' villages (villages with no population) have been indicated as such after furnishing details in columns 1 to 3 i.e., Serial number, Name of village & location code number and area of the village against column no. 4 to 18. The land use data for such villages are shown in col. 19 to 23.

The Village Directory format has 23 columns and the details given under each column are for the village are as follows:-

Columns 1 : Serial Number

Self explanatory. All the villages within the Mandal Parishad are presented serially in the ascending order of their location code number.

Columns 2 : Name and Location Code Number of village

The name and location code number of the village are shown against these columns. This also includes the forest and uninhabited villages.

Column 3 : Area of the village

The area of the villages in hectares are given. Wherever the area figures was not furnished by the concerned department the column is left blank.

Column 4 : Total population

The total population of the village as per 2001 Census is given against this column.

Column 5 : Number of households

The number of households as per 2001 Census is given in this column.

Amenities :

In column 6 to 23, availability in respect of different amenities such as education, medical, drinking water, post, telegraph, banks, credit societies, communication, power, approach road etc. in each village has been depicted with appropriate codes against the column concerned. Wherever the amenities are not available in the village, a dash (-) is shown in the column and next to it in brackets the distance in broad ranges viz.< 5 kms., 5-10 kms. and 10+ kms of the nearest place where the facility is available is given. Column wise details are given below

Column 6 : Educational

Classes upto class V included in Primary School. This will include nursery school, kindergarten school. Pre-basic school, pre-primary school, junior basic school upto class V.

Classes from VI to VII are included in the middle school.

Classes from VIII and X included in Higher secondary school. Classes XI and XII are included in senior secondary school.

In case of composite schools like middle school with primary school or secondary school with middle school, these are also included in the number of primary and middle schools, respectively.

Accordingly any of the following types of institutions if exists within the village is shown as per codes given below :

(i)	Primary School	P
(ii)	Middle School	M
(iii)	Secondary School	S
(iv)	Senior Secondary School	PUC/JC
(v)	College	C
(vi)	Industrial School	I
(vii)	Training School	Tr
(viii)	Adult literacy class/centre	AC
(ix)	Others (specify) e.g. Sanskrit Pathshala, Senior basic school, Navodaya Vidyalaya, Makhtab, etc.	O

More than one institution of a type in the village is indicated by the number within brackets against the abbreviation, e.g. P(3), M(4), etc.

Column 7 : Medical

Availability of medical facility within the village is indicated by following codes :

(i)	Allopathic Hospital	H
	Ayurvedic Hospital	HA
	Unani Hospital	HU
	Homeopathic Hospital	H Hom
(ii)	Allopathic Dispensary	D
	Ayurvedic Dispensary	DA
	Unani Dispensary	DU
	Homeopathic Dispensary	D Hom
(iii)	Maternity & Child Welfare	MCW
(iv)	Maternity Home	MH
(v)	Child Welfare Centre	CWC
(vi)	Health Centre	HC
(vii)	Primary Health Centre	PHC
(viii)	Primary Health Sub-Centre	PHS
(ix)	Family Welfare Centre	FWC
(x)	T.B. Clinic	TB
(xi)	Nursing Home	NH
(xii)	Registered Private Medical Practitioner	RMP
(xiii)	Subsidised Medical Practitioner	SMP
(xiv)	Community Health Worker	CHW
(xv)	Others	O

More than one institution of a type in the village is indicated by the number within brackets against the abbreviations, e.g. H(3), D(4), etc.

Column 8 : Drinking Water

The type of the drinking water supply sources available within the village are indicated by codes as follows :

(i)	Tap Water	T
(ii)	Well Water	W
(iii)	Tank Water	TK
(iv)	Tubewell Water	TW
(v)	Handpump	HP
(vi)	River Water	R
(vii)	Canal	C
(viii)	Lake	L
(ix)	Spring	S
(x)	Others	O
(xi)	Summer Source	SS-

Column 9 : Post, Telegraph and Telephone

It is indicated by codes as shown below whether within the village exists the following amenities:

(i)	Post Office	PO
(ii)	Telegraph Office	TO
(iii)	Post & Telegraph Office	PTO
(iv)	Telephone Connection	PH

Column 10: Commercial and Co-operative Banks

If the village is served by any banking service, commercial bank, co-operative bank etc. the same is indicated in codes mentioned below along with the number of banks in brackets. If not available the distance of nearest place where the facility exist is given:

(i)	Commercial Bank	CM
(ii)	Co-operative Bank	CP

Column 11: Credit Societies

If the village enjoys the services of Credit Societies i.e. Agricultural Credit Societies, Non Agricultural Credit Society or Other Credit Societies, the same is indicated in codes mentioned below along with the number of such societies in brackets. In case the facility is not available within the village the distance of the nearest place where such facility exist is given:

(i)	Agricultural Credit Society	ACS
(ii)	Non- Agricultural Credit Society	NCS
(iii)	Other Credit Society	OCS

Column 12 : Recreational and cultural facilities

If facilities such as Cinema/Video hall, Sports Club, Stadium/Auditorium is available in the village. The same is recorded in these columns. If not available the particulars of the nearest place with the facility is recorded. The information is indicated in codes mentioned below along with the number of such facilities in brackets:

(i)	Cinema / Video Hall	CV
(ii)	Sports Club	SP
(iii)	Stadium / Auditorium	ST

Column 13 : Communications

If the village is served by any mode of public / private transport like Bus, Railway station or Navigable water ways they are to be mentioned as follows:

(i)	Bus	BS
(ii)	Railway Station	RS
(iii)	Navigable Waterway	NW

Column 14 : Approach to village

Approach to village refers to the state of road leading to village. The approach to the village is indicated in following codes :

(i)	Paved Road	PR
(ii)	Mud road	MR
(iii)	Foot path	FP
(iv)	Navigable River	NR
(v)	Navigable Canal	NC
(vi)	Navigable waterways other than River, Canal	NW

Column 15 : Nearest Town and distance

The distance is given in kilometers in brackets against the name of the town nearest to the village.

Column 16 : Power supply

Availability of Power Supply in the village, whatever may be the form of its use is given by using following codes :

(i)	Electricity for domestic use	ED
(ii)	Electricity for agricultural use	EAG
(iii)	Electricity for other purposes	EO
(iv)	Electricity for all purposes	EA

Column 17 : News Paper / Magazine

If village receives any News Paper/Magazines the same is noted in this column using following codes

(i)	News Paper	N
(ii)	Magazine	M

Column 18 : Most important commodities manufactured

The name of three most important commodities manufactured in the village is recorded against this column.

Column 19 to 23 : Land use i.e. area under dif ferent types of land use

Land use data maintained by the State/ UT Govts. are furnished against these columns. The data concerning area under Forest, Irrigated land (by source), Un-irrigated land, Culturable waste and Area not available for cultivation in the village are shown against these columns. The area figures are given in hectare(s) up to one decimal. Dash '-' is recorded wherever the information is not made available by the concerned department. The codes used for different types of irrigation facilities available in the village are indicated below:

(i)	Government Canal	GC
(ii)	Private Canal	PC
(iii)	Well (without electricity)	W
(iv)	Well (with electricity)	WE
(v)	Tubewell(without electricity)	TW
(vi)	Tubewell(with electricity)	TWE
(vii)	Tank	TK
(viii)	River	R
(ix)	Lake	L
(x)	Waterfall	WF
(xi)	Others	O
(xii)	Total	T

(b) List of Villages merged in towns and outgrowths at 2001 Census

List of Revenue Villages that have been fully merged in Towns and Outgrowths at 2001 Census

Serial number	Name of mandal	Name of village	Name of the Municipality/ Nagar Panchayat/ Census Town in which the village is merged
1	2	3	4
1	Mangalagiri	Mangalagiri	Mangalagiri (M)
2	Tadepalle	Tadepalle	O.G. to Vijayawada (M.Corp.)
3	Sattenapalle	1 Sattenapalle	Sattenapalle (M)
		2 Vaddavalli	Sattenapalle (M)
4	Vinukonda	Vinukonda (R)	Vinukonda (C.T)
5	Chilakaluripet	Purushothapatnam	Chilakaluripet (M)
6	Guntur	1 Koritipadu	Guntur (M.Corp)
		2 Ramachandrapuram Agraharam	Guntur (M.Corp)
7	Tenali	Tenali	Tenali (M)
8	Ponnur	1 Ponnur	Ponnur (M)
		2 Nidubrolu	Ponnur (M)
9	Repalle	Repalle	Repalle (M)

List of Revenue Villages that have been Partly merged in Towns and Outgrowths at 2001 Census

Serial number	Name of mandal	Name of village	Name of the Municipality/ Nagar Panchayat/ Census Town in which the village is merged
1	2	3	4
1	Macherla	Macherla	Macherla (M)
2	Mangalagiri	1 Nowlur	O.G. to Mangalari (M)

Section II - Town Directory

Note explaining the abbreviations used in the Town Directory

Town Directory Statements (I to VII)

Statement I : Status and Growth History

Column (2) : Class, name and civic administration status of town :

Class has been introduced to facilitate analysis of town directory data at the state and all India levels. It is presented according to 2001 Census population of the town as follows :

Population	Class
100,000 and above	I
50,000 - 99,999	II
20,000 - 49,999	III
10,000 - 19,999	IV
5,000 - 9,999	V
Below 5,000	VI

Town with a population of one hundred thousands (1,00,000)and above is treated as a city.

The civic administration status of the towns is indicated within bracket against the name of the town. The following abbreviations are used to denote civic status of town.

(I)	Municipal Corporation	M. Corp.
(II)	Municipal Committee	MC
(III)	Municipal Council	MCl
(IV)	City Municipal Council	CMC
(V)	Town Municipal Council	TMC
(VI)	Municipal Board	MB
(VII)	Municipality	M
(VIII)	Cantonment Board/Cantonment	CB
(IX)	Notified Area	NA
(X)	Notified Town	NT
(XI)	Notified Area Committee/ Notified Area Council	NAC
(XII)	Notified Town Area	NTA
(XIII)	Industrial Notified Area	INA
(XIV)	Industrial Township	ITS
(XV)	Township	TS
(XVI)	Town Panchayat	TP
(XVII)	Nagar Panchayat	NP
(XVIII)	Town Committee/ Town Area Committee	TC
(XIX)	Small Town Committee	ST
(XX)	Estate office	EO
(XXI)	Gram Panchayat	GP
(XXII)	Census Town	CT

Other columns need no comments.

Statement II - Physical Aspects and Location of Towns, 1999

Column 3 to 5 : Physical Aspects

In these columns the Rainfall and Maximum & Minimum Temperature of the town are recorded.

Column 6, 7 and 8 :

Name of the State headquarters, District headquarters and Sub-Divisional headquarters with distance from the referent town in kilometres, is to be recorded respectively. If the names mentioned in these columns are the same as the referent town itself, the distance is recorded as (0) zero.

Column 9& 10 :

Name of the nearest city with one lakh and more and five lakhs and more population are recorded.

Column 11, 12 and 13 :

If referent town enjoys the facility of railway station, bus route facility or navigable river/canal, its name is to be mentioned. If not available, then the name of nearest place with distance, where such

facility exists is to be mentioned.

Statement III : Municipal Finance 1998 - 1999

Item-wise amount of receipt and expenditure in thousand rupees, relating to municipal finance of the town for the year 1998-99 is to be recorded.

Statement IV : Civic and Other amenities, 1999

Column (1 to 5) : Self explanatory.

Column (6) : Road length (in kms.)

Information about kutcha / pucca road is to be recorded separately for the roads within the limits of the referent town.

(i)	Pucca Road	PR
(ii)	Kutcha Road	KR

Column (7) : System of Sewerage

Generally, by sewerage system is implied the network of mains and branches of underground conduits for the conveyance of sewerage to the point of disposal. Sewers that carry only household and industrial wastes are called separate sewers, those that carry storm water from roofs, streets and other surface are known as storm water drains, while those carrying both sewage and storm water are called combined sewers.

The codes used for different types of drainage system are as follows :

(i)	Sewer	S
(ii)	Open Surface Drains	OSD
(iii)	Box Surface Drains	BSD
(iv)	Sylk Drains	SD
(v)	Cesspool method	CP
(vi)	Pit System	Pt
(vii)	Others	O

Column 8 to 11 : Number of latrines

Number of various types of latrines both Public and Private are given in these columns.

Column 12 : Method of disposal of night soil

The various prevalent method of disposal of night soil are given below with codes :

Head Loads	HL
Basket	B
Wheel Barrows	WB
Septic Tank	ST
Pit System	Pt
Sewerage	S
Others	O

Column 13 and 14 : Water supply

Source and capacity of storage system. The following codes are used in these columns:

Column 13:

(i)	Tap water	T
(ii)	Tube-well water	TW
(iii)	Tank Water	TK
(iv)	Well water	W

Column 14:

(v)	Over Head Tank	OHT
(vi)	Service Reservoir	SR
(vii)	River Infiltration Gallery	RIG
(viii)	Bore Well Pumping System	BWP
(ix)	Pressure Tank	PT

The information on major source of water supply are given in column 13 and the storage capacity against each in kilo-litres (in bracket) are presented in column 14.

Column 15 : Fire Fighting Service

In case the fire fighting service is available in the referent town 'yes' is recorded. If the facility is not available within the town, the name of the nearest place having this facility with its distance from the referent town has been recorded.

Column 16 to 20 : Electrification (Number of connections)

Different types of electric connections have been shown in these columns, i.e. Domestic, Industrial, Commercial, Road lighting (points) & others.

Statement V : Medical, Educational, Recreational and Cultural Facilities, 1999

Column 1 to 3 : Self explanatory.

Column 4 & 5 :

The data covers all such medical institutions

run by or aided by Government/Semi-Government/ Local Bodies and Charitable Institutions or Social Agencies like the Missionaries. Where the Family Planning Centres are attached to hospitals or Maternity and Child Welfare Centres or Primary Health Centres, they may be treated as independent units and counted separately using following codes :

(i)	Hospital	H
(ii)	Dispensary	D
(iii)	Health Centre	HC
(iv)	Family Welfare Centre	FWC
(v)	T.B. Clinic	TB
(vi)	Nursing Home	NH
(vii)	Others	O

In case of more than one institution of any type, it is indicated within brackets the number of such institution (s) e.g. D(3), NH(8), etc. The institutions have further been distinguished by providing additional codes within the bracket as given below :

Ayurvedic	A
Unani	U
Homoeopathic	Hom

Column 6 to 9 :

The codes used for these columns are as follows:

(i)	Arts only	A
(ii)	Science only	S
(iii)	Commerce only	C
(iv)	Arts & Science only	AS
(v)	Arts & Commerce only	AC
(vi)	Combined for all categories-Arts, Science and Commerce	ASC
(vii)	Law	L
(viii)	University	U
(ix)	Others	O

Column 10 : Recognized shorthand, typewriting and vocational training institutes

"Recognised" should mean recognised by some statutory authority, like education department, commerce department, labour department etc. of the government or semi-government or autonomous bodies, public sector undertakings etc.

The following codes are used :

(i)	Vocational Training Institute	VT
(ii)	Shorthand	SH
(iii)	Typewriting	Type
(iv)	Shorthand & Typewriting	SH Type
(v)	Others	O

The vocational institutions like - Applied Art/ Painting College, Pharmacy College, B. Ed. College, Teachers' Training Institute, Music / Dance School, Nursing School etc. are covered under 'Others'.

Column 11 to 14:

Higher Secondary/Intermediate/Senior Secondary/ PUC/Junior College level, Secondary/Matriculation, Middle Schools/ Junior Secondary and Primary Schools.

Schools up to class V are treated as Primary or Elementary schools. These include Nursery schools, Kindergarten schools, Pre-Primary schools, Junior Basic schools upto class V and Primary schools upto class IV.

Schools upto VIII are considered as Middle school or Junior Secondary.

Schools upto class X are considered as Matriculation or Secondary schools.

Schools upto XI or XII classes are considered as Higher Secondary / Intermediate / Pre University / Junior College etc. This would cover 10+2 classes whether held in schools or college.

If there are composite schools like middle schools with primary classes or Secondary schools with Middle classes, these are also included in the number of Primary and Middle schools, respectively. For example, if in a town, there are two Primary Schools and one Middle school with Primary classes, the number of Primary schools in the town is given as three and that of Middle schools as one though there are only three educational institutions.

If there are more institutions of a type in the town, the number is indicated within bracket along with the abbreviation, e.g. P(4), M(3).

Column 15 : Adult literacy class/centres

This column has been introduced keeping in view the Minimum Needs Programme of the Planning Commission. There are number of Adult Education Centres which are included in these columns.

If an educational facility is not available in the town, the name of the nearest place and its distance in kilometres from the town where the facility is available is mentioned.

Column 16 : Working Women's hostels with number of seats

The number of working women's hostel if available in the referent town is mentioned with number of seats. If the facility is not available in the town the name of nearest place with distance where the facility is available is recorded.

Column 17 to 19 : Recreational and Cultural Facilities

Stadium, Cinema, Auditorium/Drama/Community Hall are covered under recreational & cultural facilities. The particulars of permanent recreational facilities are considered for these columns.

Column 20 : Public Libraries, Reading Rooms

Number of public libraries and reading rooms available in the referent town are recorded in codes as follows :

(i) Public Library	PL
(ii) Reading room	RR

Statement VI : Trade, Commerce, Industry and Banking, 1999

Column 3 to 8 :

Name of three most important commodities exported and names of three most important commodities manufactured in the town are recorded.

Column 9 : Number of Banks

Number of Banks available in the referent town both Commercial and Co-operative banks are recorded against this column.

Column 10 & 11 :

Number of Agricultural Credit Societies and Non-Agricultural Credit Societies

The total number of Agricultural Credit Societies and Non-Agricultural Credit Societies in the referent town are recorded against these columns.

Statement VII : Civic and other Amenities in Slums, 1999

This is the statement on civic and other amenities in all slums whether notified or not and for all towns having statutory bodies, like Municipality, Municipal Corporation, Town Area Committee etc.

Note: Vijayawada U.A (Spreads over in two Districts)

a) Tadepalle O.G. of Guntur District

b) Navuluru *O.G. and Atmakur O.G are in Mangalgiri (M) of Guntur District.*

Brief note on Primary Census Abstract

The first census of the third millennium and twenty first century the Census of India, 2001 was the 14th continuous and uninterrupted Indian census since 1872. Thus, 2001 Census will provide data on population and its characteristics marking transition from one century and millennium to another.

The gigantic operation of Population Enumeration (considered by many to be the single largest and complex peace time administrative exercise in the world) was made possible due to the door to door universal canvassing of the Household Schedule by about 2 million enumerators and supervisors covering 593 districts, 5,463 sub-districts, 5,161 towns and 638,588 villages. The comprehensive Household Schedule which replaced the individual slip had three parts and two sides A and B. Part I contained the Location Particulars; Part II related to the Individual Particulars and Part III contained questions for Household engaged in Cultivation/Plantation. The part II of the Household Schedule had 39 columns and 23 questions all of which were universally canvassed and no sampling was resorted to during enumeration.

Data Processing

A quantum leap was made in the technology front while processing the Census 2001 data both for Houselisting and Population Enumeration. The Census schedules for both the phases were scanned through high speed scanners in fifteen data centers across the country and hand-written data from the schedules were converted into digitized form through Intelligent Character Reading (ICR) software for creation of ASCII records for further processing. The designing and formatting of the Household Schedule had to be done very carefully using specialized software so as to ensure uniformity, which was an essential pre-requisite for scanning. The selection of appropriate state-of-art technology in data processing has made it possible to produce all the Houselisting as well as Population Enumeration tables on full count basis for the first time in the history of Census. For Census 2001, about 202 million schedules consisting of about 1,028 million records were scanned and processed within a span of only 10 months starting October, 2002.

Task Force on Quality Assurance

After the data is processed, it is expedient on the part of the data producing agency to satisfy itself about its quality before putting the same in public domain. This has to be done mainly through the process of internal consistency, comparison with similar data in the past and also through validation with likewise data if available, from external sources. Quite often the local knowledge and perception has to be brought into play to understand both the existing and the new emerging trends of population distribution and characteristics. The other very important aspect of the data quality is to ensure complete coverage of all geographical areas especially for the population enumeration phase where the data is disseminated right up to the village level in the rural areas and the ward level in the urban areas. Thus ensuring the complete coverage and correct geographical linkage of each enumeration block was one of the major planks of the quality control, specially for small area population statistics.

A very comprehensive check and edit mechanism was put in place to objectively examine the preliminary Census 2001 Population Enumeration results and finally clear them for use. The responsibility of the final clearance of data was with the Task Force on Quality Assurance (TFQA), headed by the Registrar General and Census Commissioner, India. The other members of the TFQA were the Heads and senior officers of the Census Division, Data Processing Division, Map Division, Demography Division and Social Studies Division. The Directors of Census Operations were co-opted as members whenever the TFQA discussed the data for their States/Union territories. The Directors and their senior officers were required to make detailed presentations of data for their own state both in respect to the quality and the coverage and only after the full possible cleared.

There has been a major departure in Census 2001 from the past in respect of the procedure followed for finalization of the Scheduled Castes and the Scheduled Tribes population. In the earlier censuses, the total Scheduled Castes and Scheduled Tribes populations were finalized at the time of the manual compilation of the Primary Census Abstracts (PCA) at the Regional Tabulation Offices which were specially set up for this purpose. The individual Scheduled Castes and the Scheduled Tribes population for each state was finalized much later based on manual coding done by the coders. In 2001 Census, each individual Scheduled Caste and the Scheduled Tribe have been coded directly on the computers by the Data Entry Operators through a process known as Computer Assisted Coding (CAC) and taken up along with the processing of PCA data. The CAC process involves pulling down, from the relevant dictionary of the Scheduled Castes and the Scheduled Tribes, on the computer screen and coding from the dictionary by referring to the image of the specific individual entry in the Household Schedule appearing on the screen. The CAC of the response on Religion wherever required, was also undertaken along with the processing of PCA. This is because the Scheduled Castes status had to be determined in relation to the religion of the individual. Two Special Task Forces, one on Religion and the other on Scheduled Castes/ Scheduled Tribes were constituted for scrutiny and appropriate classification of these responses.

The main task of the Special Task Force on Religion was to appropriately merge or group the new responses encountered and code it into the appropriate religious community based on available literature and local knowledge. The Special Task Force on Scheduled Castes and Scheduled Tribes examined the different Scheduled Castes and Scheduled Tribes entries encoun-tered and classified these into appropriate category of the Scheduled Castes or the Scheduled Tribes principally based on the Presidential Notification and the available literature. Thus a very systematic and scientific mechanism was operationalised to firm up the individual religion and the individual Scheduled Castes/Tribes returns. The Scheduled Castes and the Scheduled Tribes population in 2001 Census, is thus being finalized by aggregating the population data for individual Scheduled Castes and the Scheduled Tribes at appropriate geographical levels.

The entire work relating to the data validation and scrutiny was completed by all the States/Union Territories under the overall supervision and monitoring of the Census Division of the Office of the Registrar General, India with active cooperation and support of the Social Studies Division, Data Processing Division, Data Dissemination Division and Map Division.

Primary Census Abstract

The Primary Census Abstract which is yet another important publication of 2001 census gives basic information on Area, Total Households, Total population, Scheduled Castes, Scheduled Tribes population, Population in the age group 0-6, Literates, Main workers and Marginal workers classified by the four broad industrial categories, namely, (i) Cultivators, (ii) Agricultural laborers, (iii) Household Industry Workers, and (iv) Other workers and also Non-workers. The characteristics of the Total Population includes Scheduled Castes, Scheduled Tribes, Institu-tional and Houseless population and are presented by sex and rural-urban residence. This data is presented at different levels, namely, India, States/Union territories, Districts and Cities, Urban Agglomerations (Population 1,00,000 and above) in three different tables. In addition, the Appendix of said publication provides Houseless and Institutional Households and their population by residence and sex for 2001 for India, State and Union territory.

Apart from the India and State/Union Territory volumes for Primary Census Abstract, the District Census Handbook contains District Primary Census Abstract, Appendix to District Primary Census Abstract, Primary Census Abstract for Scheduled Castes, Primary Census Abstract for Scheduled Tribes, Village Primary Census Abstract and Urban Primary Census Abstract of the concerned district in the state.

It was for the first time at the 1981 Census that the Primary Census Abstract (PCA) was brought out for the Scheduled Castes and the Scheduled Tribes separately on the pattern of General Primary Census Abstract. This practice was continued in 1991 also. In the 1961 and 1971 Censuses, such data were made available in Table C-VIII-Social and Cultural table and to some extent in the series 'Special Tables for Scheduled Castes/Scheduled Tribes'.

The format of Primary Census Abstract has been restructured slightly in the 2001 Census as compared to that of 1991 Census. The nine-fold industrial classification of main workers given in the Primary Census Abstract of 1991 Census has been discontinued and its place, four-fold industrial classification of both 'main workers' and 'marginal workers' are included. In 1981 census only main workers were presented into four categories. One of the novel features of the primary census abstract of 1991 census was the presentation of data of the population of age group 0-6 is continued in 2001 Census also. This will help the data users in better analysis and understanding of this literacy data.

Level of presentation in District Census Handbooks:

The Primary Census Abstract data in different PCAs are presented at different levels. The level of presentation of Primary Census Abstracts are as under:

Name of the Primary Census Abstract	Level of presentation
1. District Primary Census Abstract	District/Mandal Parishad/UA/City/Town
2. Primary Census Abstract for Scheduled Castes	District/Mandal Parishad/Town
3. Primary Census Abstract for Scheduled Tribes	District/Mandal Parishad/Town
4. Village Primary Census Abstract	Mandal Parishad/Village wise
5. Urban Primary Census Abstract	Town/Ward level

The PCA Data for villages was presented Mandal Parishad wise for the first time in 1991 Census. This practice is continued in 2001 Census also. The data for each Mandal Parishad is presented both for rural and urban areas separately. All the villages within the Mandal Parishad constitute the rural portion and the Census Towns and Outgrowths are shown under the urban portion of the Mandal Parishad. In case a Mandal Parishad is spread over two or more districts, than portion which falls within the district is presented, the data pertaining to remaining portion of the Mandal Parishad is presented in the concerned District Census Handbook. The data in the Urban Primary Census Abstract for each town as well as for town with outgrowths in the district are presented. The data for all the wards and the outgrowths of the town(s) are also presented separately below the concerned town(s).

The District Primary Census Abstract is presented in 59 columns. The Primary Census Abstract for Scheduled Castes and Primary Census Abstract for Scheduled Tribes are presented in 52 columns. The Village Primary Census Abstract and Urban Primary Census Abstract are presented in 58 columns.

The concepts and definitions used in the column heading are explained under the sub heading 'Census Concepts' in the Analytical Note. The term 'Total Population' includes the Scheduled Castes, the Scheduled Tribes, the Institutional and the Houseless populations. The explanation regarding area figures presented at various level in the Primary Census Abstracts are as follows:

Area Figures

The area figures supplied by local revenue authorities of the district in respect of mandals, Police Stations and by the local bodies in respect of towns are given in square kilometers. The area figures of the villages supplied in acres have been converted and shown in hectares. The area figures of the Mandal Parishad is the total of the village areas coming under each Mandal Parishad. The area figures for the district are the same as adopted by the Surveyor General of India to maintain uniformity at the national level. The total area figures of all the Mandals/Mandal Parishad within the district may not tally with area figures of the district because former represents land use area only. Similarly, the total of all the villages area may not tally with the entire rural of Mandal. The difference may be due to the fact that while the area covered by hills, forests and rivers etc, have been accounted in the level the same may not be covered under the area of the villages. Apart from this it may also differ due to varying methods of computation adopted at different levels.

An appendix to District Primary Census Abstract has also been furnished showing urban enumeration block-wise particulars on Total Population, the Scheduled Castes Population and the Scheduled Tribes Population for each town.

Annexure - I
Fertility and Mortality, 1991 Census

Crude birth rate is the most commonly used measures of fertility. To know the fertility rates, certain information was collected from all ever married women during 1991 Census such as (i) Age at marriage (ii) Number of children ever born alive. For currently married women, in addition to above data, if any child born at preceding one year to the Census has also collected.

Definition of fertility measures is given in the chapter on "Non-Census concepts".

Fertility Levels :

Fertility is a natural growth of population. To know the fertility rate, during 1991 Census ceratin information was collected from all ever married women such as age, age at marriage, number of children surviving at present, number of children ever born alive and for currently married women, if any child born at preceding one year to the Census. Fertility measures were worked out on F-Series Table of 1991 Census of Andhra Pradesh.

Annexure –I (a)
Age Specific Fertility Rates/Levels, 1991

Age Group	Guntur District			Andhra Pradesh State		
	Total	Rural	Urban	Total	Rural	Urban
1	2	3	4	5	6	7
15-19	0.104	0.114	0.082	0.085	0.092	0.066
20-24	0.177	0.182	0.167	0.179	0.185	0.162
25-29	0.131	0.134	0.123	0.150	0.155	0.137
30-34	0.083	0.087	0.074	0.103	0.108	0.087
35-39	0.052	0.057	0.042	0.068	0.071	0.055
40-44	0.032	0.035	0.023	0.037	0.039	0.029
45-49	0.018	0.018	0.015	0.020	0.021	0.017

Age Specific Fertility Rate :

The Age Specific Fertility rate is higher in the age group of 20-24 both in rural and urban areas of Guntur district. However, the same is less than that of state figures in total and rural. In case of the age group of 15-19 district figures are higher both in rural and urban areas than the state figures.

Age Specific Marital Fertility Rate :

The following statement shows age specific marital fertility rate of Guntur district as well as State recorded during 1991 Census.

Annexure –I (b)

Age Specific Marital Fertility Rates/Levels, 1991

Age Group	Guntur District			Andhra Pradesh State		
	Total	Rural	Urban	Total	Rural	Urban
1	2	3	4	5	6	7
15-19	0.175	0.177	0.168	0.150	0.149	0.158
20-24	0.194	0.193	0.197	0.198	0.199	0.196
25-29	0.138	0.140	0.132	0.158	0.162	0.147
30-34	0.090	0.094	0.080	0.111	0.116	0.093
35-39	0.057	0.062	0.046	0.074	0.078	0.060
40-44	0.039	0.042	0.028	0.044	0.046	0.035
45-49	0.022	0.023	0.020	0.026	0.026	0.023

It is seen from the above table, that the age specific marital fertility rates are very high in the age group of 20-24 in the district as well as in the state followed by the age group 15-19. The Age Specific Marital Fertility rates, are high in almost all age groups in the State than the district, except in the age group 15-19. It is common to notice that the age specific marital fertility rates diminishing in the higher age groups.

***Source**:1. F-series tables of 1991 Census*
2. Andhra Pradesh district profile,1991 Census
3. R.G's occasional paper of 1997

The above table shows the various measures of fertility and mean age at marriage recorded during 1991 Census. The Guntur district has recorded CBR 26.8, TFR 3.2, TMFR 4.2, GFR 106, GMFR 128, 3.5 number of children per ever married women (45-49 years), 387 CWR and 16.7 as mean age at marriage of currently married women. These various measures of fertility and mean age at marriage are slightly higher at state level than that of the district figures.

Annexure III
Percentage distribution of Migrants by place of birth/place of last residence, 1991 Census and 2001 Census

Migration :

During 1991 Census, the migrants-wise place of birth is broadly classified as (a) migrants born within the State of Enumeration (b) Migrants born in other States of India and (c) Migrants born in other countries. The migrants born within the State have further divided into (i) Migrants born elsewhere in the district of Enumeration and (ii) Migrants born in other districts of the State.

The following statement shows the distribution of migrants by place of birth with sex break-up in the district as well as in the State together with percentages.

Annexure – III(a)

Distribution of Migrants by Place of Birth and Percentage, 1991 Census

Place of Birth	Guntur District			Andhra Pradesh State		
	Persons	Males	Females	Persons	Males	Females
1	2	3	4	5	6	7
(a) Migrants born within the state of enumeration	1,202,933 (98.5)	404,396 (97.8)	798,537 (98.8)	18,406,950 (94.6)	5,847,797 (93.5)	12,559,153 (95.1)
(i) Migrants born elsewhere in the District of enumeration	937,854 (76.8)	300,734 (72.8)	637,120 (78.9)	13,816,569 (71.0)	4,038,900 (64.6)	9,777,669 (74.0)
(ii)Migrants born in other Districts of State	265,079 (22.0)	103,662 (25.1)	161,417 (20.0)	4,590,381 (23.6)	1,808,897 (28.9)	2,781,484 (21.1)
(b) Migrants born in other States of India	16,670 (1.4)	8,140 (2.0)	8,530 (1.1)	1,026,863 (5.3)	388,924 (6.2)	637,939 (4.8)
(c) Migrants born in other countries	1,640 (0.1)	840 (0.2)	800 (0.1)	30,610 (0.2)	16,120 (0.3)	14,490 (0.1)
Total Migrants	1,221,243 (100.0)	413,376 (100.0)	807,867 (100.0)	19,464,423 (100.0)	6,252,841 (100.0)	13,211,582 (100.0)

Source: *Part –VA and VB – D Series, 1991 (Vol-I)*

The migrants by place of birth were returned 194.6 lakhs in Andhra Pradesh State as per the 1991 Census comprising 62.5 lakhs of males and 132.1 lakhs of females. These migrants constitute 29.3% of the total population, with a break-up of 18.5% of male and 40.3% of female population. In Guntur district 1,221,343 persons constituting 29.7% are migrants. Male migrants constitute 19.8% and female migrants constitute 39.9% to the respective sex. Males are forming more percentage in inter district migrants to total more migrants than that of female inter district migrants percentage to total female migrants. Similar is in case of International migrants. Female migration is less among inter State migration than males.

From the distribution of total migrants in Guntur district by place of birth, it can be seen from the above table that in the Intra-district migration is less than that of State in both the sexes. While migrants from other districts of the State and other States of India are higher percentage in the district than that of State. The number of female internal migrants are more at all level, which is natural due to marriages.

In Guntur district among total migrants, females out-number males as in the case of state figures. Similar trend is noticed in all categories of migrants by place of birth. In the district about 800 female migrants born in other countries as against 840 males. At state level the male migrants born in other countries constituted 0.3% as against 0.1% in females.

The following statement shows the Rural and Urban Composition of internal migrants by place of birth at 1991 Census for Andhra Pradesh and Guntur district.

Inset table to Annexure III(a)
Distribution of Migrants by Place of Birth and Percentage, 2001 Census

Place of Birth	Guntur District			Andhra Pradesh State		
	Persons	Males	Females	Persons	Males	Females

(a) Migrants born within the state of enumeration	1,236,125 (98.9)	424,777 (98.3)	811,348 (99.2)	21,782,141 (95.4)	7,205,057 (94.6)	14,577,084 (95.8)
(i) Migrants born elsewhere in the District of enumeration	1,002,495 (80.2)	331,769 (76.8)	670,726 (82)	16,899,184 (74.0)	5,147,046 (67.6)	11,752,138 (77.2)
(ii)Migrants born in other Districts of State	233,630 (18.7)	93,008 (21.5)	140,622 (17.2)	4,882,957 (21.4)	2,058,011 (27)	2,824,946 (18.6)
(b) Migrants born in other States of India	12,366 (1.0)	6,507 (1.5)	5,859 (0.7)	1,029,252 (4.5)	399,416 (5.2)	629,836 (4.1)
(c) Migrants born in other countries	1,269 (0.1)	740 (0.2)	529 (0.1)	22,913 (0.1)	12,981 (0.2)	9,932 (0.1)
Total Migrants	1,249,760 (100.0)	432,024 (100.0)	817,736 (100.0)	22,834,306 (100.0)	7,617,454 (100.0)	15,216,852 (100.0)

Source: *Migration Tables (D Series) - 2001*

The migrants by place of birth were returned 194.6 and 228.3 lakhs in Andhra Pradesh State as per the 1991 and 2001 Censuses respectively. It shows a growth rate of 17.3% total migrants over 1991 Census with a breakup of 21.8% males and 15.2% females. In Guntur district the migrants are 1,221,343 persons as per 1991 Census whereas 1,249,760 persons are in 2001 Census with a growth rate of 2.3% over 1991 census. In both the Censuses the female migrants are more than male migrants due to marriages.

In respect of inter district migrants, male migrants are forming less percentage than female migrants. In the case of inter-state migrants the males are more than females in both the Censuses. Similar is in case of International Migrants.

Rural and Urban Components of Migration :

The flow of migrants by place of birth have classified into four streams such as (i) Rural to Rural (ii) Urban to Urban (iii) Urban to Rural and (iv) Rural to Urban. The data on the basis of these four streams in case of migrants is classified by place of births. It presents data only in relation to internal migration.

The above statement gives the information on movement of migration in Andhra Pradesh and Guntur district through the four streams within the state and other states of India. Of the total 184 lakhs of intra state migrants in Andhra Prtadesh have been moved from rural to rural with 63.9 % followed by rural to urban with 21.0% from urban to urban with 9.3% and urban to rural 5.7%. In case of migrants the place of births from other states to Andhra Pradesh they have been accounted for 10.27 lakhs. The distribution of 10.27 lakhs of migrants where from rural and rural with 33.9%, rural to urban 21.8%, urban to rural with 10.7% and urban to urban by 33.4%. The higher

migration the place of births has found in rural to rural in the state.

Of the total internal migrants of 12.0 lakhs in Guntur district, 58.5% have moved from rural to rural and 9.3% have moved from urban to urban 24.6% have moved form rural to urban and 7.5 from urban to rural.

In case of Guntur district 16,670 migrants came from other states. 19.3% persons who born in rural areas have settled in rural areas of the district and 24.4% of people from rural areas of other states settled in urban areas. Similarly 15.7% of people who born in urban areas of the other state settled in rural areas and 19.3% in rural areas.

This annexure shows percentage distribution of migrants by place of birth as recorded in 1991 census. For all districts of Andhra pradesh the persons born elsewhere in the district of enumeration works out to 71.0 percent whereas in respect of persons born in other districts of Andhra Pradesh, born in other states and other countries works out to 23.6%, 5.3% and 0.2% respectively. In respect of Guntur district the persons born elsewhere in the district of the enumeration recorded 76.8% and the persons born in other districts of the state returned 21.7%. Among the migrants of the district, the persons born in other states and other countries works out to 1.4% and 0.1% respectively. Out of 1.95 crores of migrants of the state, 12.2 lakh migrants belong to Guntur district. It is interesting to note that the female migrants are more in number than males in all the districts of the state.

Source: *Migration Tables (D Series) - 2001*

The above annexures show the percentage distribution of migrants by place of birth as recorded in both the Censuses of 1991 and 2001 in Andhra Pradesh state. It is observed that 3.0% increase in the migration who were born elsewhere in the district of enumeration with a sex breakup of 3.0% each, whereas in respect of the migrants who were born in other districts of the state, in other states of the country and in other countries are recorded with a difference of -2.2%, -0.8% and -0.1% respectively between two censuses of 1991 and 2001.

In respect of Guntur district the difference between the two Censuses can be observed with the same percentage in the persons born elsewhere in the district of the enumeration, but the sex-wise break up differs from the state figure. (i.e. 4.0% males and - 3.0% females). Regarding the migrants from other states in India only a minor variation is recorded with -0.4%.

Among the migrants that are born Abroad no change is noticed in the percentage variation between 1991 and 2001 censuses.

Annexure IV
Brief account of Main religions in the district/ mandal as per 1991 Census and 2001 Census

Religion :

The data on religion has been collected and presented for six major religions viz. Hindus, Muslims, Christians, Sikhs, Jains and Buddhists. In respect of minor religions, they have been classified and shown under the category "Others".

During 1991 Census the religion data was collected through question No.8 of the individual slips and recorded the religion as stated by the individual. A brief account of main religions in Guntur district as per 1991 census is furnished in the following table.

During 1991 Census, the six major Religions viz. Hindus, Muslims, Christians, Jains, Buddhists and Sikhs were returned in Guntur district. The total population of the district is 4,106,999 persons. Out of which 3,393,562 persons belong to Hindus, 436,863 Muslims, 274,172 persons Chirstians, 1,796 persons Jains, 106 persons Buddhists and 231 persons belong to Sikh religion. The percentage of total population of Hindus have returned with 82.63% followed by Muslims with 10.64% and 6.68% of Chirstians. There are 253 persons returned in the district as "Religion not stated".

In all 57 mandals Hindus, Muslims and Chirstians religions have been returned in the Rural and Urban areas of the district in 1991 Census. Among these three religions Hindu religion has dominated in all most all mandals.

By strength Muslim religion occupies 2nd place in the district. Guntur mandal has recorded highest muslim population in the district with 89,577 persons forming 21.8 percent in total population of the mandal followed by Chilakaluripet with 26,173 persons, Narasaraopet mandal with 25,648 persons and Tenali mandal with 28,115 persons. The least number of muslim persons were returned in Kollur mandal with 192 persons.

Though the christian religion was identified in all 57 mandals in the district, the nunmber of Christians are very less when compared with Hindus and Muslims. Guntur mandal has recorded highest Christian population in the distict with 34,062 persons followed by Tenali with 12,732 persons and Narasaraopet mandal with 12,634 persons. Only 609 persons were recorded as Christian in Savalyapuram mandal in the district.

The Jain religion has been recorded with 1,796 persons in the district. They were returned largely in Guntur town with 1,386 persons. 357 persons of this religion were found in Tenali town and the remaining 53 persons in Peddakurapadu, Chebrole and Chilakaluripet mandals of the district.

The Buddhist religion has recorded 106 persons and they were found in Guntur town with 79 persons and remaining scattered in other mandals of the district.

Source: Religion Data, Andhra Pradesh - 2001

The above table gives the details of Main Religions in the district for 2001 census whereas the previous Annexure shows the details of main religion in 1991 census. During 2001 census the religion data was collected through question number 7 of household schedule. Out of the total population of the district Hindus have returned 85.9% during 2001 census as against 82.6% in 1991 census. In respect of Muslims they have returned 10.9% in 2001 whereas their percentage during 1991 was 10.6. The next main religion in the district is Christians who returned 2.9% during 2001 census as against 6.7% in 1991 census. The main reason for decrease in the decadal growth among Christians can be attributed to get enrolled under Scheduled Castes to get benefits from the government. In respect of remaining main religions viz. Sikhs, Buddhists, Jains and others their strength in the district is negligible.

Annexure IV (b)

PERCENTAGE DISTRIBUTION OF POPULATION BY MAJOR RELIGIONS IN INDIA, ANDHRA PRADESH AND GUNTUR DISTRICT AND ITS GROWTH RATE DURING 1981-1991

Sl. No.	Name of Religion	India		Andhra Pradesh		Guntur District	
		Percentage of Population	Percentage growth rate 1981-91	Percentage of Population	Percentage growth rate 1981-91	Percentage of Population	Percentage growth rate 1981-91

India-State-District differentials :

The comparative data on religion among India, Andhra Pradesh and Guntur district reveals that concentration of Hindus was higher followed by Muslims and Christians as per 1991 Census findings. Hindus were returned on the higher side in the State

with nearly seven percent more than the national average, while in Guntur district they were more over one percent than national and nearly seven percent less than the State. They constituted 82.4%, 89.14% and 82.63% in India, Andhra Pradesh and Guntur district respectively. Muslims recorded as 11.7% in India, 8.91% in Andhra Pradesh and 10.64% in the district. It shows their percentage in the district is less than the percentage of India and the State. The percentage of Muslims in the State is less than the Country, while the percentage of Christians in the country is more than the State i.e. 2.3% in India, 1.83% in the State and 6.00% in the district. The strength of Buddhist, Sikhs and Jains recorded less than 1% both in the country and State too.

Religion-wise growth in the State during the decade 1981-1991 shows that Hindus recorded higher growth rate than India as a whole i.e. 24.74% as against 22.3% in India. The growth rate of Hindus in the district is more than State and Country i.e. 25.09%. The growth rate among the Muslims is also less than that of State and Country i.e. 21.92%. The Christians population has decreased in the State as well as in the district during the decade.

Inset Table to Annexure IV (b)

Percentage distribution of population by major religions in India, Andhra Pradesh and Guntur district and its growth rate during 1991-2001

Source: Religion Data, Andhra Pradesh - 2001

This table gives the comparative data on religions among India, Andhra Pradesh and Guntur district between 1991 and 2001 census, whereas the previous Annexure furnish the comparative data on religion during 1981 and 1991. At India level among the total population returned in the 2001 census Hindus constituted 80.5% as against 82.4% in 1991. The percentage growth rate of Hindus during the decade 1991-2001 has recorded 20.3 whereas the corresponding growth rate during 1981 and 1991 it was 22.3%. It clearly shows that growth rate in Hindu population is diminishing which can be attributed that the people of this religion is more conscious about family planning methods. In Andhra Pradesh the percentage of Hindus has recorded 89.0 whereas the corresponding figure during 1991 was 89.1%. However the percentage growth rate of Hindus has fallen to 14.4 from the percentage growth rate of 24.7 as recorded during the decade 1981-1991. In Guntur district though the percentage of population of Hindus recorded 85.9 as against 82.6 in 1991 their growth rate in 1991-2001 has fallen to 13.0% as against the growth rate of 25.1 % in 1981-1991.

In respect of Muslims, their percentage to total population has recorded 13.4 at India level as against 11.7% in 1991. In Andhra Pradesh their percentage has gone up to 9.2% from 8.9% in 1991. In respect of Guntur district, Muslims constituted 10.9% of total population during 2001, whereas the corresponding figure recorded in 1991 was 10.6. However in this district the growth rate in the decade 1991-2001 has declined to 11.7% as against the growth rate of 21.9% recorded in 1981-1991.

The other main religion going by numerical strength is Christians. They constituted 2.3% of total population at India level during 2001census. Their growth rate during the decade 1991-2001 is 22.6% at India level as against the growth rate of 16.9% recorded in 1981-91. In Andhra Pradesh their percentage growth rate continues to show the negative trend. The percentage growth rate of this

community recorded during 1991-2001 is (-) 2.8 as against (-) 15.1 recorded during decade 1981-1991. In Guntur district during 2001 Christians constituted 2.9 % to total population as against 6.1 % in 1991. The percentage growth rate of this community during 1991-2001 has recorded (-)52.0% as against (-) 24.2% in 1981-1991. In respect of other main communities their growth rate is negligible.

Annexure IV (c)
Distribution between Rural and Urban area of Major religions in Andhra Pradesh and Guntur district - 1991

Sl. No.	Name of Religion	Andhra Pradesh (in %)		Guntur District (in %)	
		Rural	Urban	Rural	Urban
1	Hindus	76.55	23.45	73.08	26.92
2	Muslims	41.83	58.17	55.22	44.78
3	Christians	60.48	39.52	72.50	27.50
4	Jains	4.11	95.89	2.56	97.44
5	Buddhists	80.41	19.59	22.64	77.36
6	Sikhs	10.85	89.15	19.48	80.52

***Source**: Part-IV-B(ii) of Andhra Pradesh 1991 Census.*

Rural – Urban differentials :

In Andhra Pradesh and Guntur district, it is seen that Religion wise growth in the state during the decade 1981-1991 shows that Hindus form considerably higher in rural areas i.e. 76.55% and 73.08% respectively. Christians forms lower percentage than in urban areas of the district, as well as of the State percentage. While Muslims forms higher percentage in rural areas of the state but lower percentage than urban areas of the district. The Jains, Buddhists and Sikhs are more in urban areas than rural areas both in the state and district.

Inset table to Annexure IV (c)
Distribution between Rural and Urban area of Major religions in Andhra Pradesh and Guntur district - 2001

Sl. No.	Name of Religion	Andhra Pradesh (in %)		Guntur District (in %)	
		Rural	Urban	Rural	Urban
1	Hindus	76.3	23.7	73.8	26.2
2	Muslims	41.9	58.1	54.1	45.9
3	Christians	55.0	45.0	60.0	40.0
4	Jains	5.0	95.0	4.0	96.0
5	Buddhists	66.0	34.0	63.0	37.0
6	Sikhs	17.0	83.0	46.0	54.0

Source: Religion Data, Andhra Pradesh - 2001

The above table indicates the distribution of major religions between rural and urban in Andhra Pradesh and Guntur district during 2001 census whereas the previous Annexure has given details recorded in 1991 census. The above Annexure and inset table to Annexure show that the distribution of Hindus and Muslims between rural and urban at state level as well as at district level is almost same. In 2001 census 55.0% Christians lived in rural areas as against 60.5% in 1991 at state level. The concentration of Jains and Sikhs is more in urban areas than rural areas both at state level and district during 1991 and as well as 2001. It is interesting to note that Buddhists lived more in rural areas than in urban areas both at state and district level during 91 and 2001 censuses.

Annexure V
Marital status of population as per 1991 Census and 2001 Census

Marital status has been classified as (i) Never Married, (ii) Married, (iii) Widowed and (iv) Divorced or Separated. To ascertain the marital status of a person, it has been made in the following manner.

(i) A person who has never married at any time before, treated him/her as never married

(ii) A person who has been married, whether for the First or another or at any time and whose marriage is subsisting at the time of Enumeration with the spouse living treated such a person as married

(iii) A person whose husband/wife is dead and who has not been married again, treated her/him as widowed

(iv) A person who has been separated from wife or husband and is living apart with no apparent intention of living together again or who has been divorced either by decree of a law of court or by an accepted social or religious custom but who has not remarried, treated such a person as Divorced/Separated.

The following statement shows the Age, Sex and Marital Status composition of the population separately for Total, Rural and Urban in Guntur district.

Annexure V

Out of the district population 4,106,999 persons, 44.90% were never married, 49.25% were married and 5.34% are widowers, 0.51% are divorced and seperated persons were found in all age groups i.e. even after of 44 years. It is evident from the Annexure-V that the childhood marriages were still prevalent in the district. As per the statement there were 2,750 males and 4,910 females were currently married in the age group of 10-14 years. It is to note that 440 persons were found widowed in the age group of 10-19 years. 1,000 persons got separated in the age group of 10-19 years.Perhaps childhood marriage played a major role in going for divorce or separated. Among the divorced and seperated persons highest percentage i.e. 15.58% was found in the age group of 30-34 years.

Source: Socio-cultural Tables (C-Series) - 2001

The above inset table gives the details by age, sex and marital status composition of the population separately for total, rural and urban areas of the district during 2001 census, whereas the previous Annexure shows the above details for 1991 census. In 1991 while furnishing age group-wise marital status data, a separate age group 15-44 where the marital status was high has been shown. In 2001 census keeping in view of persons aged less than 18 years and persons aged less than 21 years, being high concentration of marital status, has been furnished. In the district population of 4,465,144 persons, 1,069,611 (24.0%) males and 827,164 (18.5%) females were recorded as never married. In the total district population, 1,136,350 (25.6%) males and 1,166,355 (26.1%) females were found married during 2001 census. It is pity to note that as against 204,133 widows 38,460 widowers were found in the district during 2001 census. The reason for high percentage of widows can be attributed to aged males marrying younger females. As against total population of 1,578,494 persons in the age group less than 18 years, 51.2% males and 47.0% females were found never married in 2001 census. In respect of married persons under the age group less than 18 years, only 0.2% males and 1.6% females were recorded in 2001 census which means public are more conscious about Marriage Act and also ill-fate of early marriages. Similar trend is noticed both at rural and urban areas even for age group less than 21 years. There is no much variation in the figures of marital status of the district between 1991 and 2001 censuses.

Annexure VI
Age , sex and Education in the district as per 1991 Census and 2001 Census

The education table was worked-out on the basis of literates in the district.

Definition of literate :

A person who can both read and write with understanding in any language is to be considered as literate. If a person who can merely read but cannot write is not a literate. It is not necessary that a person who is literate should have received any formal education or should have passed any minimum educational standard. All the children in the age of 6 years or less have been treated as illiterates even if the child is going to school and may have picked up reading and writing.

The following table gives age, sex and education in the district at 1991 Census:

Annexure VI

Age, Sex And Education In The District as per, 1991 Census

55-59	104,986	51,260	53,726	33,820	23,760	10,060	32.2	46.4	18.7
60-64	141,521	72,831	68,690	32,270	24,160	8,110	22.8	33.2	11.8
65-69	58,350	29,140	29,210	15,280	11,340	3,940	26.2	38.9	13.5
70-74	70,534	36,585	33,949	14,095	10,955	3,140	20.0	30.0	9.3
75-79	19,750	9,930	9,820	5,250	3,930	1,320	26.6	39.6	13.4
80+	33,190	15,360	17,830	6,200	4,550	1,650	18.7	30.0	9.3
Age not stated	560	240	320	230	100	130	41.1	31.3	56.5

It is seen from the above statement that among school going age group between 54.4% and 66.7% are literates, while total literates in the district has been worked out to 46.4%. Among them females worked out only 35.9% literates as against 46.4% in males. In all age groups male literates are considerably dominating the females. Highest educated are found among the persons aged 11 years in both the sexs.

Source: Socio-cultural Tables (C-Series) - 2001

The Annexure presented in the pre-page gives the details of Age, Sex and Education in the district for 1991 census whereas the above inset table reveals the data for 2001 Census. As was done in the previous Census, the children in the Age group 0-6 have been treated as illiterates even in 2001 census. It is seen from the above table that the district has recorded 62.5% literates in 2001 as against 46.4% literates in 1991. In the district the literacy rate for males has recorded 71.2% as against 53.7% in females during 2001 Census. From the above inset table it is noticed that in the school going age groups i.e 7 to 14 years, their literacy rate recorded between 72.0% and 83.4%. In all the age groups male literates are dominating females. The highest educated are found in the age group 11 years with 88.3% and their sex-wise breakup recorded 91.6% in males and 84.9% in females. It is a good trend that the essentiality of the education is felt much by the general public.

Annexure VII
Distribution of different mother tongues returned in 1991 Census at District/ Mandal level and the data at District level for 2001 Census

Mother Tongue :

Mother tongue is the language spoken in the childhood by a person's mother to the person. If mother dies in infancy, the language mainly spoken in the person's home in childhood will be treated as mother tongue. A very large number of mother tongues have been returned during 1991 Census. It lead to thorough scrutiny and rationalization, which resulted in 1,576 rationalized mother tongues and 1,796 names were treated as unclassified or "others". The 1,576 rationalized mother tongues were further classified following the usual linguistic methods for rational grouping based on available linguistic information. Thus a total inventory of classified mother tongues returned by 10,000 or more speakers at the all India level were grouped under appropriate languages, where possible, was prepared for final presentation of the 1991 Census data. The total number of languages so arrived at is 114. Of which 18 languages are included in Eighth Schedule to the Constitution of India (Scheduled languages).

The State language "Telugu" is largely spoken in Guntur district. During 1991 Census this language has returned as mother tongue for 3,625,180 persons comprising 88.28 percent followed by Urdu with 9.78 percent and Lambadi with 0.55 percent. Besides these, many other languages were returned in the district. But their percentage is very negligible. Telugu language has occupied 1st rank in the district as it is the Regional Language of the State.

Telugu language has dominated in all 57 mandals in the district along with Urdu language. Similarly Sugali, Yerukula, Tamil, Hindi, Oriya, Kannada, Malayalam, Marwari, Gujarathi, Relli and Rajasthani languages were also identified in the district. Sugali/ Lambadi language has returned in 46 mandals and Yerukula in 39 mandals and the remaining languages spread over in all mandals. 18 languages are found in Guntur and Tenali mandals followed by Mangalagiri, Bapatla with 17 languages each, Tadepalle, Pedakakani, Narasaraopet 15 languages each and Dachepalle, Vinukonda, Chilakaluripet, Ponnur and Repalle each 14 languages.

The details of languages that are listed out in the district may be seen from the below given statement with Rural and Urban breakup by sex in the mandals as well as district.

	ix. Maithili	7	-
	Grand Total	**4,465,144**	

N= Negligible

The above inset table gives the abstract of the languages as mother tongues and their strength in the district recorded in 2001 Census whereas the previous annexure shows the details for 1991 census. In 1991 the data was presented in alphabetical order whereas in 2001 the mother tongue data has been presented basing on their numerical strength in descending order. The mother tongues having minor returns have been clubbed together and added in the category of 'Others'. Telugu being the region's language has recorded 88.0% to total population in the district with a slight decline in the percentage recorded in 1991 (88.3%). The next highest language being spoken is Urdu with 9.9% to total population of the district whereas in 1991 the percentage of Urdu speaking people recorded 9.7. In respect of other schedule languages it is noticed that their strength is negligible both in 1991 and 2001. In the district almost all the schedule languages (except Assamese) returned.
