P.S.U.P.-A.P.-20-CENSUS-1000-1966(OFFSET)

PREFACE

Districtwise village statistics have been published at most of the Censuses. A list showing the population of villages in each district was published after the 1891 Census. No such list was brought out in 1901. In 1911 Village Directories were prepared for all districts, but could be published only for 13 on account of the out break of the First World War. At the 1921 Census they were published for all districts in the form of District Census Statistics. In 1931 they were compiled for all districts, but were not published owing to financial stringency, leading to loss of valuable data. At the 1941 Census even though restricted tabulation was undertaken on account of the Second World War, yet the utility of District Census Statistics was recognized and they were published. At the Census of 1951 two volumes were brought out for each district-the District Census Handbook and the District Population Statistics. Government have decided to continue the publication of District Census Handbooks. The 1961 District Census Handbooks contain more data than ever published before. Village Directories, besides giving the population of villages by industrial categories, also contain useful information about schools, hospitals, post offices, etc.

As revised District Gazetteers are going to be published, introductory matter in the District Census Handbooks has been given in brief to avoid duplication.

Information for the District Census Handbooks was collected mainly from three sources, viz., State Tabulation Office, District Officers, Heads of Departments and their district level officers. In all cases confirmation has been obtained from Heads of Departments concerned. I am extremely grateful to District Officers and the various Heads of Departments for their whole hearted co-operation in furnishing the desired information.

It is hoped that the District Census Handbooks will prove useful to the various Government departments and scholars.

The printing of the Handbooks commenced from July, 1963.

P. P. BHATNAGAR
Superintendent of Census Operations,
Uttar Pradesh.

INTRODUCTION

1. The District

1. The district of Garhwal lies almost entirely within the Himalayan mountain system. It was one of the biggest districts of the State before the formation of its Chamoli sub-division into a border district in 1960. It is bounded by district Chamoli on the north, by district Bijnor on the South, by districts Almora and Naini Tal on the east while its western boundary is formed by river Ganga as far as Devaprayag and the Alaknanda as far as Rudraprayag. River Ganga divides it from district Dehra Dun. It lies between north latitude 29°20′ and 30°15′ and between east longitude 78°10′ and 79°10. With the formation of Chamoli sub-division in to a district, its area has been reduced substantially from 5,612 Sq. miles to 2, 106 Sq. miles. The area according to the Surveyor General, India, is 5,454 Sq. Km. (2, 106 Sq. miles).

2. The district comprises two tahsils, namely, Pauri and Lansdowne. The tahsilwise area is not available. A glance at the map will reveal that tahsil Lansdowne is bigger in size than Pauri. This district contains six towns, namely, Pauri, Srinagar, Bah Bazar, Kotdwara, Lansdowne and Dogadda. Pauri and Kotdwara are Municipal towns of good size, Lansdowne is a Cantonment and Srinagar and Dogadda are Notified Areas. Of the larger villages, few consist of a compact size, most of them being scattered in the mountain terrain. There is no market of any great standing.

3. Roads provide the main communication system for this hilly district. Kotdwara railway station is situated 15 miles away from Najibabad.

4. The district is almost entirely mountainous with no level land except the pasture of Panai on the banks of Alaknanda, the helm of Srinagar and the sub-mountainous tract. It consists of a succession of steep mountain ridges divided from each other by deep glens which are narrow and precipitous. The central area of Garhwal is covered by Dudatoli and its ranges. The height varies between 3,500 feet to 6,500 feet with the exception of the principal peak, Choparkot being 8,384 feet. The height of Kinkwala Tibba which is about one mile west of Pauri is 6,649 feet. The numerous spurs in the mountain system of central Garhwal separate the river valley from each other. There are narrow terraces at the base of the hills which are all dry and cultivated.

5. The *Bhabar* area is in the south of the district. It is on the foot of the hills and has almost the characteristics of a plain. It is about 50 miles in length and a large part of it is under forest. The tract is almost waterless and cultivation can only be carried on by irrigation.

6. Geologically the district of Garhwal is divided into three parts:-

(i) between river Nayar and Dudatoli

(ii) the outer range from the border of Almora district to river Ganga (The Alaknanda and the Bhagirathi upto Devaprayag)

(iii) *Bhabar* and its adjoining areas.

7. There is no limestone in the area between river Nayar and Dudatoli. The Dudatoli rock is a conglomerate of flints and sand. In the south of the district the rock formation is chiefly micaceous which weathersd own to fine sand. In Bungi, Gwaldam and other places the foundation is hard block limestone rock.

8. Geologically outer range is called 'nappe'. It is known for its soft sand-stone, limestone and metamorphic rocks. River Nayar flows along the northern boundary and its southern slope is a heap of sand-stone. *Bhabar* and its adjoining areas consist of soft sand-stone.

9. The chief river of Garhwal is Alaknanda which flows to south-west and after its confluence with Bhagirathi at Devaprayag in Tehri Garhwal forms the Ganga. River Nayar which rises from Dudatoli mountain is an important river of the district as more than half of its area is in its basin and is known for fishing. It drains the centre of the district and joins Alaknanda at Eyasghat. The river Ganga flows almost to west as far as Lachhman Jhula having been joined by the Huinal river at Phulari.

10. The Ramganga rises in the Dudatoli range. It flows south-east to Melchauri, then to east, as far as the borders of the Almora district where it waters the Guwar valley and re-enters the Garhwal district near Marchula. Its chief tributary is the Mandal which drains south of Lansdowne sub-division. In the south-east Palaien and Sona rivers flow parallel to the outer ranges and join the Ramganga. The other rivers of the district are unimportant streams, rising in the hills above *Bhabar*. The Khoh which rises near Dwarikhal is joined at Dogadda with Khawasan and Malan which are minor rivers.

11. A large variety of trees and other flora are found in the district depending on height and climate. Chir is found upto a height of 6,000 feet. It is used in building houses. Oak is found between 6,000 to 8,000 feet. The wood is hard and is used for making furniture and agricultural implements. There are fine clumps of Deodar in abundance among the conifers. *Ringal, Maura, Tilong* and *Pongar* are also found in cooler and higher slopes.

12. The Himalayan Silver fur and the Spruce both known as *Ragha* and *Ransala* are available in the Dudatoli range. In *Bhabar; Sal, Sain, Shisham, Tun, Dhauri* and *Bakli* are valuable timber trees. Bamboo is available in the adjoining foot hills. Various kinds of creepers with bushes and *Bhabar* grass are also found in this area. In lower valleys big trees are rare; only wild bushes of *Ber, Karonda, Tunga, Daula* etc. dominate. Stunted variety of *Daura, Kandan Babera, Amla*, etc. are also found. *Kharik* and *Bhuinl* are planted for fuel.

13. The larger carnivora like tigers, leopards and panthers are common and are found in forest in *Bhabar*. Except in Dudatoli, no tiger is found in upper regions but leopards, panthers, bears and wild cats are found in limited number on higher altitudes. Tigers, leopards, panthers and bears are destructive carnivora and rewards are paid for their destruction. Elephants are also found in *Bhabar*. *Kakar, Sambhar, Chittal* and *Thar* occur in fair numbers in most parts of *Bhabar* where forest covering is sufficient. They roam at their will in the low-lying lands and are a source of constant danger to crops. Jackal, fox, marten and monkey are also found.

14. Among birds, *Koil, ghugti*, and wild pigeons are migratory and visit the district in

spring when they lay eggs. *Satoola* and *Ghenduri* are domestic birds. *Swallows*, *Hilans* and Robins abound in large number. Wild fowl, *chakor* and *Kaljhent* are game birds which are also found here.

15. The *Rabi* and *Kharif* are the main harvests, the *Kharif* being more important for the district as a whole. The principal *Rabi* crop is wheat, followed by *juar*. The chief *Kharif* crops are paddy and *mandua*. Besides this about 6,000 acres of land is used in fruit cultivation like mango, apple, pear, chestnut, hegelnut etc.

2. Statistics

A—General Populatian

The district occupies the 23rd position in area and the 49th position in population in the whole State. The table giving variations in population since 1901 shows that there has been an increase in population since 1911, the percentage increase being the highest during the decade 1951-61. The population rose by 59,674 during this period giving a percentage increase of 14·1 which is lower than the state average of 16·7. The order of tahsils by population is Lansdowne and Pauri. The houseless and institutional population in this district is 443 and 8,273 respectively. Pauri urban has no houseless population.

2. The area of this district according to the Surveyor General of India is 5,454 Sq. Km. (2,106 Sq. miles). Accordingly the density of population is 88 per Sq. Km. (229 per Sq. mile).

3. The district has 3,582 villages of which 3,208 are inhabited and 374 uninhabited. 943 persons per 1,000 in the district live in rural areas. The average population per inhabited village is 142. Most of the villages are small-sized i.e. with population less than 500. The number of such villages is 3,142 (97·9 per cent). The percentage of medium-sized villages with a population between 500-1,999 is 2.0 and of large-sized villages having population 2,000 and over is only 0·1. More than four-fifths of the rural population (89·1 per cent) lives in small sized villages with a population of less than 500. The remaining 10·9 per cent of population resides in bigger villages.

4. Nearly 57 persons out of 1,000 persons live in towns. Non-existence of any large city has accounted for a low percentage of urban population. Kotdwara M. B. (8,148), Pauri M. B. (7,484) and Lansdowne Cantt. (6,381) are class V. towns having a population between 5,000 to 9999 persons. Srinagar N. A. (3,031), Dogadda N. A. (1,919) and Bah Bazar (535) are class VI towns having a population below 5,000 persons. The position of Bah Bazar of this district is peculiar. For local administration it is a part of Devaprayag Notified Area of the adjoining district of Tehri Garhwal. The part of the Notified Area lying in Garhwal district has been deemed to be a separate town for census purposes. Devaprayag is the solitary example in this State of a town administered as a local body cutting across the common boundary of two districts.

5. The variation in sex ratio since 1901 has not been uniform. The number of females per 1,000 males in 1901 was 1,032; in 1911, 1,036; in 1921, 1,084; in 1931, 1,069; in 1941, 1,077; in 1951, 1,137; and in 1961, 1,164. There has been a progressive increase in sex ratio since 1931. The sex ratio of this district is much higher than the state average of 909. The ratio is sufficiently better in rural areas than in urban. The rural sex ratio is 1,220-tahsil Pauri 1,319 and tahsil Lansdowne 1,166. The rural sex ratio is considerably

higher than the state average of 924. The urban sex ratio is 527-Pauri M.B. 605, Srinagar N.A. 758, Bah Bazar 507, Kotdwara M.B. 591, Lansdowne Cantt. 341 and Dogadda N.A. 386. In this respect it is very much lower than the state average of 812. In 1951 the rural sex ratio was 1,178 and urban 495. Both the urban and rural sex ratios have improved during the decade. The disparity between the two is noteworthy which is chiefly attributed to male migration.

6. General Population Tables A-I to A-IV and their Appendices have been reproduced in the volume.

B—Economic

1. **Workers**—The population of the district is distributed between workers and non-workers in the ratio of 58·9: 41·1. It is nearly in reverse order to the corresponding ratio of workers and non-workers in the State as a whole (39·1: 60·9). Among workers 86·2 per cent work as Cultivators and Agricultural Labourers. Next came Other Services and Mining and Quarring claiming 5.2 and 3.3 per cent respectively. In other categories the number of women is very small. Female participation is highly significant in the district. Female workers comprise 57·5 per cent of the total workers. Female participation in agricultural and non-agricultural activities is 98·1 per cent and 1·9 per cent respectively.

2. In the rural population, 59·7 per cent are workers and 40·3 per cent non-workers. The corresponding figures for the urban are 45·6 and 54·4 respectively. Thus, the proportion of workers is smaller in towns than in villages. Among rural workers 89·8 per cent are Cultivators and Agricultural Labourers, and workers engaged in non-agricultural activities account for 10·2. There is a preponderance of non-agricultural workers in the urban, their percentage being 88·9 as against a small percentage of 11·1 in agricultural sector. The important non-agricultural categories of workers in the urban area are Other Services, Trade and Commerce, Transport and Household Industry and other manufactures. The percentage of workers in Other Services is 54·1, in Trade and Commerce 11·2, in Transport and Storage 9·1, in Household Industry and other manufactures 9·0.

3. The largest number of workers is in the age-group 15-34 accounting for 45·0 per cent followed by the next age group 35-59 with 36·8 per cent. The percentage of workers below the age of 15 is 9·7 and that in the age 60 and over is 8·5.

4. The largest number of persons in industries other than cultivation is in public services in administrative departments and offices of Central Government (5,766), followed by making of textile garments (2,123) and educational services (5,062). Occupationally the bulk of the workers comprises log fellers and wood cutters (5,228), Administrative and Executive officials, Central Government (5,125) and General labourers (2,648).

5. **Non-Workers**—They constitute 41·1 per cent of the total population. The percentage of non-workers among the males and females are approximately equal, at 51·5 and 48·5 respectively. A majority of non-workers (85·9 per cent) are in the age-group 0-14 mostly consisting of infants and dependants. In all other age-groups females are predominantly engaged in household duties. The distribution pattern of non-workers among males and females is very dissimilar. Among male non-workers 38·4 per cent are full-time students

and 60·7 per cent dependants who jointly account for 99·1 per cent, as against the corresponding figures among female non-workers who are 7·4, 79·0 and 86.4 per cent respectively. Higher percentage of dependants among males is explained by their absence from household duties who claim a negligible percentage as against 13·1 per cent among females.

6. The more important General Economic Tables of the B-series have been reproduced.

C—Social and Cultural

1. **Literacy**—The percentage of literacy in the total population is 23·0 as against the State average of 17·7. It ranks 8th in literacy in the whole State. Literacy percentage among males is 43.0 and females 6·0, as against the corresponding figures of 33·9 and 2·4 in 1951. There has been an improvement both in male and female literacy during the last decade. Of the total number of literates, 67·0 per cent are without any educational standard, 27·0 per cent are of Primary or Junior Basic level and 6·0 per cent of High School level and above.

2. The percentage of literacy in the rural population is 21·7 as against 56·8 in the urban. In the rural area 41·2 per cent males and 5·1 per cent females are literate and in the urban 68·7 per cent males and 34·1 per cent females.

3. **Age Structure and Marital Status**—Persons in the age-group 15-34 account for 30·0 per cent of the total population followed by 5-14 (26·0 per cent), 35-54 (19·0 per cent), 0-4 (15·0 per cent), and 55 and over (10·0 per cent) respectively. The population of the district is progressive as the percentage of persons in young and very young age-groups is 41·0 as against a small percentage of 10·0 of elderly persons (55 years and above).

4. The percentage of never-married, married and widowed or divorced persons is 47·0, 44·0 and 9·0 respectively. The corresponding percentages for the rural are 47·0, 44·0 and 9·0; and urban 52·0, 44·0 and 4·0. Among males 55·0 per cent are never-married, 41·0 per cent married and 4·0 per cent widowed or divorced; and among females 41·0 per cent are never-married, 46·0 per cent married, and 13·0 per cent widowed or divorced. Of the married males 1·0 per cent are in the age-group 0-14, 37·0 per cent in the age-group 15-34, 42·0 per cent in the age-group 35-54 and 20·0 per cent in the age-group 55 and above. Of the married females 2·0 per cent are in the age-group 0-14, 60·0 per cent in the age-group 15-34, 32·0 per cent in the age-group 35-54 and 6·0 per cent in the age-group 55 and above. Among males and females aged 35 and above, 2·0 per cent of the males and only 0·2 per cent of the females are never-married. The corresponding figures for 1951 are 2·1 and 0·6 per cent respectively. In the rural and urban areas separately, the respective percentages are males 2·0 and females 0·2 in the former, and males 3·0 and females 0·8 in the latter. The percentage of males and females of ages 0-14 returned as married is 0·5 and 2·8 respectively. This shows that early marriage is still prevalent to some extent.

5. **Language**—Hindi has been returned as the mother-tongue of 73·0 per cent of the population, Garhwali 24·0 per cent and Nepali 2·0 per cent. The number of persons who returned other languages as their mother-tongue is insignificant.

Hindi is the main language spoken by 72·0 per cent of the rural population, followed by Garhwali 26·0 per cent and Nepali 1·0 per cent. In the urban population also Hindi 84·0 per cent, Garhwali 4·0 per eent and Nepali 2·0 per

cent is spoken. The percentage of persons claiming Urdu and other languages as their mother-tongue is 4·0 per cent and 6·0 per cent respectively in the urban area.

6. **Religion**—Of the total population of the district 98·6 per cent are Hindus and 1·0 per cent Muslims. The absolute numbers of persons belonging to other religions are Sikhs 422, Christians 1,183, Buddhists 112 and Jains 68. Jains and Buddhists, small in number, mainly live in towns.

Of the rural population 99·2 per cent are Hindus and 0·7 per cent Muslims. The corresponding figures for the urban are 89·0 and 7·0 per cent. The number of persons belonging to other religions is insignificant both in the rural and urban areas of the district.

7. **Scheduled Castes**—They constitute 10·7 per cent of the total population. The important Scheduled Castes in order of population in the district are Shilpkar 97·0 per cent, Balmiki and Chamar 1·0 per cent each. They are mostly concentrated in the rural areas and only 5·7 per cent live in towns.

8. The more important Social and Cultural Tables of C-Series have been reproduced.

D—Migration

Among the people enumerated in the district 92·0 per cent were born within the district, 5·0 per cent in other districts of the State, 1·1 per cent in other parts of the country and 1·7 per cent in other countries. Among those from other countries 7,421 are from Nepal, 841 from Pakistan and 54 from Burma. Most of the immigrants from Pakistan are displaced persons. The duration of residence of 54·4 per cent of the total immigrants is over 10 years. 89·6 per cent immigrants were returned from rural areas and 10·4 per cent from the urban. Among these 24·5 per cent are males and 75·5 per cent females. The large percentage of females is explained by marriage migration. The percentage of workers and non-workers among these is 81·5 and 18·5 respectively. Among workers 66·5 per cent are engaged in Cultivation including other agricultural activities followed by 11·2 per cent in Construction, 10·2 per cent in Trade and Commerce, 5·1 per cent in Other Services and 4·7 in Mining and Quarrying. In other categories the population is small jointly accounting for 2·3 per cent.

2. In the rural population 93·8 per cent were born within the district including 62·3 per cent born in place of enumeration, 3·8 per cent in other districts of the State and 0·7 per cent in other parts of the country. The percentage of immigrants from other countries is 1·5 per cent. The corresponding percentage for the urban are 60·6 born within the district including 28·0 in place of enumeration, 25·9 in other districts of the State, 7·2 in other parts of the country and 6·3 in other countries. Immigrants from other countries live largely in the urban area of the district.

3. The following Table shows that immigrants from Punjab are the largest in number and smallest from Bihar:—

States	Persons	Males	Females
Punjab	1,542	1,041	501
Delhi	1,105	554	551
Rajasthan	699	454	245
Himachal Pradesh	311	162	149
Madhya Pradesh	168	82	86
Bihar	101	65	36

The number of immigrants from other districts of the State is 24,510 (males 13,477; females 11,033).

4. Migration Tables have not been reproduced.

E—Housing and Establishment

1. **Workshops and Factories**—There are 3 registered factories in the district namely Industrial Training Institute, Srinagar. U. P. Government Roadways, Kotdwara and Government Polytechnic, Srinagar employing 13,45 and 142 workers respectively. These are all in public sector and there is no industry in private sector.

2. The total number of unregistered workshops and factories is 787-595 in the rural and 192 in the urban as against the State average of 4,460. Garhwal is one of the 12 districts in the State having workshops and factories below 2,000. In the rural areas the largest number of workshops and factories (346) are engaged in the production of rice, atta, flour, etc., by milling, dehusking and processing of crops and foodgrains followed by manufacture of sundry hardwares, such as, G. I. Pipe, wirenet, bolt, screw bucket, cutlery, etc., (201). In the urban area the largest number of workshops and factories (41) are also engaged in the manufacture of sundry hardwares (item as in rural) followed by production of other food products, such as, sweetmeat and condiments, muri, murki, chira, khoi, cocoa, chocolate, toffee, etc., (27).

3. The predominent working-group in the rural area is single worker accounting for 77·1 per cent while in the urban working group 2-5 is predominating accounting for 54·2 per cent. The next important working-group in the rural area is 2-5 (19·7 per cent) and in the urban area the single worker (34·4 per cent). The other working-groups in both the areas are insignificant.

4. In the rural area most of the establishments are run with other power such as water power, animal power and the like (49·6 per cent) whereas in the urban most of the establishments are run without fuel or power (42·2 per cent). Next come other power in urban area (27·1 per cent) and solid fuel in the rural (30·6 per cent). Electricity is used in only 13·0 per cent establishments in the urban area whereas in the rural area electricity is used only in one concern out of 595 concerns. This will show to what small extent power or fuel is used in factories and workshops in the district.

5. **Walls and Roofs**—Stone is the predominant material of house walls in the villages, 96·7 per cent households in rural areas and 71·5 per cent in urban areas live in such types of houses. Households living in houses with burnt bricks are numerous in the towns accounting for 20·9 per cent. Tiles, slate and shingle are the most predominant roofing material in the rural areas accounting for 89·4 per cent, where as in the urban area the predominant roofing material is corrugated iron, zinc or other metal sheets accounting for 38·6 per cent. Next comes grass leaves, thatch or bamboo in rural areas (6·3 per cent) and tiles, slate and shingle in the urban areas (22·3 per cent), followed by brick-and-lime (20·9 per cent). On account of moderately heavy rainfall in the district, roofs are mostly flat.

6. **Size of Household and Density of Persons per Room**—The average size of household for rural and urban area is 4·5 and 3·9 respectively. Households living in two rooms are predominant accounting for 38·3 per cent, followed by those living in four

rooms with 23·3 per cent and lastly followed by those living in one room (12·9 per cent). There are 0·1 per cent households with no regular room to live in. The percentage of households living in five rooms or more is 12·9.

7. In the rural area the average density of persons per room is 1·5 while in the urban it is 1·8. Considering households occupying one room only, the average size in the rural area is 3·6 and in the urban 3·0 which speaks of congestion in living accommodation.

8. Housing and Establishment Tables have not been reproduced.

3—Presentation of Tables

Statistics and other information in this volume have been presented in the following order:—

I—**Census Tables**—General Population Tables, Economic Tables, Social and Cultural Tables and Scheduled Caste Tables.

II—**Official Statistics**—Raidfall and Temperature, Vital Statistics, Agriculture and Irrigation, Household Industries, Registered Factories, Administration, Public Health and Medical, Education, Public Entertainment, Presses and Journals, Communication, Local Bodies, Community Development, Calendar of Important Events, Prices of Staple Food-stuffs, Banks and Insurance, Livestock, Fairs and Festivals, Handicrafts, Major and Medium Projects and Wages.

III—**Village Directory**—Definition of Column Headings and for each tahsil an Alphabetical List of Villages and Village Directory giving data in respect of all villages and towns by sex of total population, Scheduled Caste population, literate population, working population by categories of workers and non-workers.

IV—**List of Industrial Establishments**—Number of establishments in each village or block by the 3 digit industrial code.

V—**Appendix**—Gazette Notification of changes in boundaries during the decade 1951-61.

Besides the above, one map for the district and one for each tahsil has been included in the District Census Handbook.

Dogadda N. A.		1·00	2·59	1,919	....	....	1	306	1,919	1,385	534

Notes:—1. In columns 3b and 4, the Sq. Kilomerte and density figures respectively of urban areas of tahsils and District are worked out using the area figures corrected up to 2 places of decimals obtained by adding the areas of towns in the respective units and not using the area figures given in the Table. In addition to this, the figures relating to Sq. Km. are further adjusted to make the tahsils and District totals agree.

2. According to Surveyor General, India, the area of District Garhwal is 1,715 Sq. miles (4,442 Sq. Km.).

3. In column 1 abbreviations M. B.' stands for 'Municipal Board', 'N. A.' for 'Notified Area', and 'Cantt.' for 'Cantonment'

B-IV-Part C—Industrial Classification by Sex and Divisions, Major Groups

Branch of Industry Division, Major Group and Minor Group of I. S. I. C.	Total		
	Persons	Males	Females
1	2	3	4
Minor Groups 041 Rearing of sheep and production of wool	80	78	2
042 Rearing and production of other animals (mainly for slaughter) such as pig	1	1	....
043 Production of ducks, hens and other small birds, eggs by rearing and poultry farming	1	1	....
045 Rearing of silk worms and production of cocoons and raw silk	10	10	....
047 Trapping of animals or games propagation	20	20	....
048 Production of other animal husbandry products such as skin, bone, ivory and teeth	3	3	....
Division 1 Mining and Quarrying	*20*	*19*	*1*
Major Group 10 Mining and Quarrying	20	19	1
Minor Groups 106 Mining of crude petroleum and natural gas	16	16	....
107 Quarrying of stone (including slate), clay, sand, gravel, limestone	4	3	1
Divisions 2 & 3 Manufacturing	*6,632*	*5,187*	*1,445*
Major Group 20 Foodstuffs	499	417	82
Minor Groups 200 Production of rice, atta, flour, etc. by milling dehusking and processing of crops and foodgrains	60	57	3
201 Production of sugar and syrup from sugarcane in mills	2	2	....
202 Production of indigenous sugar, *gur* from sugarcane or palm juice and production of candy	18	18	....
203 Production of fruit products such as jam, jelly, sauce and canning and preservation of fruits	7	7	....
204 Slaughtering, preservation of meat and fish and canning of fish	14	14	....
205 Production of bread, biscuits, cake and other bakery products	38	38	....
206 Production of butter, *ghee*, cheese and other dairy products	18	15	3
207 Production of edible fats and oils (other than hydrogenated oil)	106	33	73
208 Production of hydrogenated oils (Vanaspati)	3	3	....
209 Production of other food products such as sweetmeat and condiments, muri, murki, chira, khoi, cocoa, chocolate, toffee, lozenge	233	230	3

PART III

VILLAGE DIRECTORY

DEFINITIONS OF COLUMN HEADINGS OF THE VILLAGE DIRECTORY

Village ordinarily means a revenue *mauza*, whether inhabited or uninhabited. If some structures and population come into existence at a place which lies within the boundaries of two or more revenue *mauzas*, the locality has been treated as a separate Census Village and the portions covered in it are excluded from the revenue *mauzas* concerned.

Town means any Corporation, Municipality, Notified Area, Cantonment, and includes a locality which, though not in itself a local body, is part of a town-group, and also any place which has (a) a population of at least 5,000, (b) at least three-fourths of the population dependent on non-agricultural means of livelihood, and (c) a density of at least 1,000 persons per square mile.

City means a town or a town-group having a population of one lakh and above.

Notations

E—Electrified

R—Connected by Road

Rly—Connected by Railway

Riv—River

L—Library

Mp—Medical Practitioner

Hos—Hospital

Mcw—Maternity and Child Welfare Centre

H—Higher Secondary School

Po—Post Office

Occupied House means a structure or part of a building, used wholly or partly as human dwelling, and having a separate main exit.

Household means a group of persons, who commonly live together and take their meals from a common kitchen, unless exigencies of work prevent any of them from doing so.

Total Population includes household population, institutional population and houseless population.

Scheduled Castes the 66 Scheduled Castes as defined in the President's *The Scheduled Castes and Scheduled Tribes Lists (Modification) Order, 1956.*

Literate means a person above the age of five who can read as well as write.

Worker means a person gainfully employed in any economic activity, and is actually working, supervising or directing the work.

WORKING POPULATION HAS BEEN DIVIDED INTO THE FOLLOWING IX CATEGORIES

Category-I working as Cultivator, i. e., engaged in cultivation, including effective supervision and direction of land owned or held.

Category-II working as Agricultural Labourer, i. e., working in some one else's land for wages in cash or kind.

Category-III working in Mining, Quarrying, Livestock, Forestry, Fishing, Hunting, Plantations, Orchards, and allied activities.

Category-IV working at Household Industry, i. e., an industry, not on the scale of a registered factory, conducted by the head of the household himself and/or mainly members of the household at home or within the village in rural areas, and *only at home* in urban areas, with or without hired labour.

Category-V working in Manufacturing other than Household Industry, i. e., engaged in production, fabrication, processing, repairs or servicing of any kind, not included in Household Industry.

Category-VI working in Construction, i. e., engaged in construction and maintenance of buildings, roads, railways, bridges, tunnels, telegraph and telephone lines, dams, canals, tanks, tubewells, etc.

Category-VII working in Trade and Commerce, i. e., engaged in buying and selling, import and export, banking, insurance, stocks, shares etc.

Category-VIII working in Transport, Storage and Communications, i. e., engaged in Transport by man, animal, air, water, road, rail, etc; in ware-housing; Posts and Telegraphs; Telephones; and Information and Broadcasting.

Category-IX working in Other Services, i. e., engaged in public, administrative, educational and scientific, medical and health, religious, welfare, legal business, community, recreation, personal and other miscellaneous services, etc.

Non-worker (Category-X) means a person who is not doing any productive work. The following have been treated as Non-workers:

(i) A whole-time student not doing any work;

(ii) a house worker not engaged in any remunerative work;

(iii) a dependent including infant or child not attending school, old or disabled person not doing any work;

(iv) a retired person (not re-employed), rents, royalty or dividend receiver, not doing any work;

(v) a beggar, vagrant or an independent woman of unspecified source of income;

(vi) a convict in jail (not an under trial) or inmate of penal, mental or charitable institution;

(vii) a person in search of employment for the first time; and

(viii) a person having worked before but now out of employment and seeking fresh employment.

Detailed description of Industrial code (Minor Group) numbers under which the Industrial Establishments are arranged in the table

Minor Group No.	Description as per the Indian Standard Industrial Classification
1	2
200	Production of rice, atta, flour, etc., by milling, dehusking and processing of crops and foodgrains
205	Production of bread, biscuits, cake and other bakery products
207	Production of edible fats and oils (other than hydrogenated oil)
209	Production of other food products such as sweetmeat and condiments, muri, murki, chira, khoi, cocoa, chocolate, toffee, lozenge
230	Cotton ginning, cleaning, pressing and baling
235	Cotton weaving in handlooms
253	Wool spinning other than in mills

Detailed description of Industrial code (Minor Group) numbers under which the Industrial Establishments are arranged in the table—*Concld.*

Minor Group No.	Description as per the Indian Standard Industrial Classification
1	2
279	Processing and manufacture of textile products not covered above
280	Sawing and planing of wood
289	Manufacture of other wood and allied products not covered above
292	Manufacture of products, such as paper bags, boxes, cards, envelopes and moulded pulp goods from paper, paper board and pulp,
301	Printing and publishing of books
311	Manufacture of shoes and other leather footwear
312	Manufacture of clothing and wearing apparel (except footwear) made of leather and fur
323	Manufacture of all kinds of other rubber products from natural or synthetic rubber including rubber raincoat
331	Manufacture of dyes, paints, colours and varnishes
336	Manufacture of soap and other washing and cleaning compounds
350	Manufacture of earthenware and earthen pottery
363	Manufacture of structural steel products such as joist, rail sheet, plate
365	Manufacture of brass and bell metal products
367	Manufacture of metal products (other than of iron brass, bell metal and aluminium) such as tin can
369	Manufacture of sundry hardwares such as G. I. pipe, wire net, bolt, screw, bucket, cutlery. (This will also include the manufacture of sundry ferrous engineering products done by jobbing engineering concerns which cannot be classified in major groups 36, 37, 38 and 39)
388	Repairing of bicycles and tricycles
392	Assembling and repairing of watches and clocks
393	Manufacture of jewellery, silverware and wares using gold and other precious metals

V—APPENDIX

Gazette Notifications of changes in Boundaries during the decade 1951—61

No. 904/IC—U. P. Gazette dated February 24, 1960—In exercire of the powers conferred by section 11 of the United Provinces Land Revenue Act, 1901 (U.P. Act No. III of 1901), as extended and applied to the Kumaon Division through Revenue (A) Department notification no. 3109/IA-dated Lucknow, October 18, 1947, the Governor of Uttar Pradesh is pleased to create, with effect from the date of the publication of this notification, a new district comprising the areas specified in the Schedule, to be known as district Chamoli with headquarters at Gopeshwar, but for the present the headquarters shall be at Chamoli till such time as may be considered necessary, and to alter with efect from the same date the limits of the existing district of Garhwal so to comprise the existing areas except those mentined in the Schedule.

Nothing in this notification shall affect any legal proceedings already commenced or pending in any court which has hitherto exercised jurisdiction in respect of the said areas.
