CENSUS OF INDIA 2001

ANDHRA PRADESH

DISTRICT CENSUS HANDBOOK

Part - A & B

KHAMMAM

VILLAGE & TOWN DIRECTORY

VILLAGE AND TOWNWISE PRIMARY CENSUS ABSTRACT

लोकाभिमुख
PEOPLE ORIENTED

Director of Census Operations, ANDHRA PRADESH

Foreword

The District Census Handbook (DCHB) published by Census Organisation since 1951 census, is one of the important publications in the context of planning and development at gross-root level. The publication, which is brought out for each district, contains several demographic and socio-economic characteristics village-wise and town-wise of the district along with the status of availability of civic amenities, infrastructural facilities, etc.

2. The scope of the DCHB was initially confined to a few Census Tables and Primary Census Abstract (PCA) of each village and town within the district. Thereafter, at successive censuses, its scope and coverage has been enlarged. The DCHB published at the 1961 census provided a descriptive account of the district, administrative statistics, census tables and a village and town directory including PCA. The 1971 census-DCHB series was in three parts: Part-A related to village and town directory, Part-B to village and town PCA and Part-C comprised analytical report, administrative statistics, district census tables and certain analytical tables based on PCA and amenity data in respect of villages. The 1981 census DCHB was in two parts: Part-A contained village and town directory and Part-B the PCA of village and town including the SCs and STs PCA up to tahsil/ town levels. New features alongwith restructuring of the formats of village and town directory were added into it In Village Directory, all amenities except electricity were brought together and if any amenity was not available in the referent village, the distance in broad ranges from the nearest place having such an amenity, was given. Information on new items such as adult literacy centres, primary health sub-centres and community health workers in the village were provided so as to meet the requirements of some of the Revised Minimum Needs Programme. Information on approach to the village was provided for the first time in the Village Directory so as to give the details on number of inaccessible villages in each district. In the Town Directory, a statement (IV-A) on slums was introduced to provide the details on civic and other amenities in the notified slums of Class I and Class II towns.

3. The 1991 census DCHB, by and large, followed the pattern of presentation of 1981 census, except the format of PCA was restructured. Nine-fold industrial classification of main workers was given against the four-fold industrial classification presented in the 1981 census. In addition, sex-wise population in 0-6 age group was included in the PCA for the first time with a view to enable the data users to compile more realistic literacy rate as all children below 7 years of age had been treated as illiterate at the time of 1991 census. One of the important innovations in the 1991 census was the Community Development Block (CD block) level presentation of village directory and PCA data instead of the traditional tahsil/taluk/PS level presentation. It was expected that the presentation of village directory and PCA data at CD block level will help the planners in formulation of micro level development plans, CD block being lowest administrative unit.

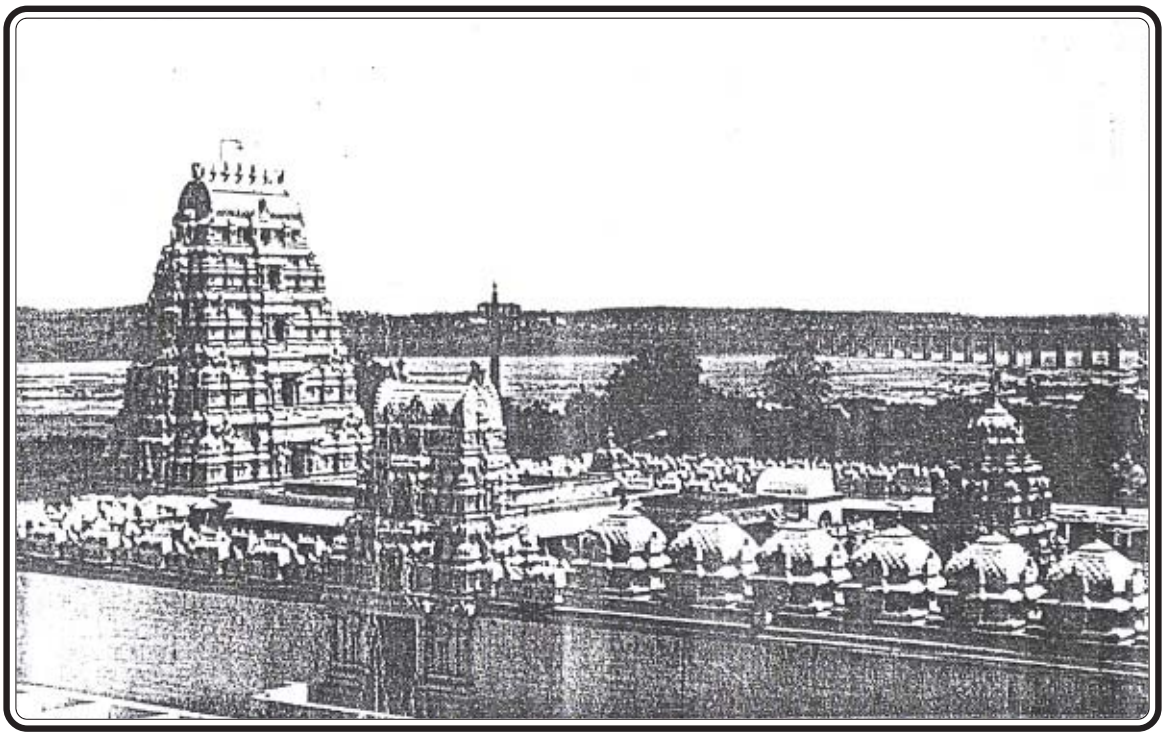

4. The present series of 2001 census DCHBs have been made more informative and exhaustive in terms of coverage and content. The Village Directory has been enlarged in scope by including a number of other facilities like banking, recreational and cultural facilities, newspapers and magazines and ‘most important commodity’ manufactured in village. Income and expenditure of gram panchayat, wherever possible, has been provided. Apart from these, more details on distance(s) at which basic amenities are available (if not available in the village), are given. This includes educational facilities (namely primary and middle schools and college), medical facilities (viz. Allopathic Hospital, Maternity & Child Welfare Centre and Primary Health Centre), drinking water, post & telegraph (post office and phone), communication, bank, credit societies and recreational

facilities. In Town Directory, the statement on Slums has been modified and its coverage enlarged by including details on all slums instead of 'notified slums'. The information is given in case of all statutory towns irrespective of their class, against only Class I and Class II towns in the 1981 and 1991 censuses. The basic amenities available in the villages and towns are analysed in depth with the help of a number of cross-classified inset tables and statements. Two other significant additions in the publication are inclusion of 'motif' highlighting significant characteristic of the district and analytical notes as annexures. The analytical notes on (i) fertility and mortality and (ii) various measures of fertility and mean age at marriage are prepared based on 1991 Census. Whereas, in the notes relating to (i) percentage distribution of migrants by place of birth/place of last residence, (ii) main religions, (iii) marital status of population, (iv) age, sex and education, and (v) distribution of spectrum of mother tongue, nature and extent of changes occurred in the district in its basic socio-demographic features during the decade 1991-2001 are analysed. The eight digits permanent location code (PLCN) to all the villages and towns have been assigned keeping in view the future needs.

5. The village and town level amenity data have been collected, compiled and computerized in prescribed record structure under the supervision of Shri. V.S. Bhaskar, IAS., Director of Census Operations, Andhra Pradesh. Thereafter, efforts have been made to ensure comparability of the information with that of 1991 census data and the information brought out by the respective state governments in their annual reports and statistical handbooks for various years after 1991. The task of planning, designing and coordination of this publication was carried out by Shri R.G. Mitra, Deputy Registrar General (C&T) and Dr. I.C. Agrawal, Senior Research Officer of Social Studies Division. Dr. R.P. Singh, Deputy Registrar General (Map) provided the technical guidance in the preparation of maps. Whereas, Shri Anil Kumar Arora, Deputy Director of Data Processing Division who worked under the overall supervision of Shri Himakar, Addl. Director (EDP) helped in preparation of record structure for computerization of village and town directory data and the programme for the generation of Village Directory and Town Directory statements including analytical inset tables. The draft DCHB manuscripts received from the Census Directorates have been scrutinized in the Social Studies Division under the guidance of Shri S.L. Jain, Deputy Director and Shri R.K. Mehta, Assistant Director. I am thankful to all of them and others who have contributed to make this publication possible.

D.K.Sikri
Registrar General &
Census Commissioner, India.

New Delhi

Bhadrachalam Temple

The Motif presented for Khammam Handbook represents the famous "Bhadrachalam Temple". It is located on the left bank of river Godavari in Bhadrachalam Mandal of Khammam district. This is a holy place Bhadragiri or Bhadrachalam or Bhadradri, the name derived after the mountain 'Bhadra'. Here the Lord Rama is named as 'Bhoga Rama' befitting the status of an emperor's son. According to the prominent version, Lord manifested Himself in the 'Paratattwa' shape, as per His previous boon granted to Bhadra Rishi with four hands, holding arrow and bow in front hands, conch and disc decorating His rear hands, sitting in 'Padmasana' with His consort Goddess Sita on the left thigh and brother Lakshmana standing on the same left side. One more peculiarity about the image of Lord Rama in Bhadrachalam Temple is that while the image of Lord Vishnu has the 'Chakram' in the right hand and 'Sankhu' in the left, Sri Rama has it vice versa.

During 17th Century A.D. Kancharla Gopanna, a Peshkar under Tanisha the King of Golkonda, spent Rs. 6 lakhs (Mohiris) of the public funds for construction of the temple and procuring costly jewels, articles etc., to the Lord Sita Rama. He is popularly known as 'Bhakta Ramadas'. Every year on Sri Ramanavami day 'Sitarama Kalyanam' is performed. This temple was patronised not only by the Qutubshahi Dynasty but also by the succeeding Asifjahi kings by way of providing grants and sending 'Mangalasutras' and 'Mutyala Talambralu' every year on Sriramanavami day. Even today that tradition is continued by the Government of Andhra Pradesh.

Bhadrachalam Road Railway Station is 40 Kms. from the pilgrim town which is connected with regular bus services. This temple is secular symbol of our country patronized by Hindus and Muslims alike.

Preface

The District Census Hand Book (DCHB) containing Primary Census Abstract and data on "amenities" for each village and town in the district. The intention of this publication is to place the data collected at the Census alongwith the village and town level amenities data collected from the Mandal Revenue Officers/ Municipal officials in this publication. The amenities data is validated by comparing with secondary data obtained from Heads of the Departments. For example, information on schools was compared with data available with Commissioner, School Education and information on post offices was compared with data obtained from the Chief Post Master General and so on. Validation of data in the above manner was by no means an easy exercise. Scores of officials had put in gruelling efforts for months together. The entire data and manuscripts were computerized. We are now reasonably confident of the correctness of the data but we will not make any utopian claims of cent per cent accuracy. There may be errors but we will be safe in saying that they are minimal.

The District Census Hand Book is divided into the following major components.

1. Introduction.
2. Brief history of the district.
3. Census and non-Census concepts.
4. A detailed write up on the physical features, major cultural and social events, major developments during the decade, places of religious and historic importance etc.
5. Primary Census Abstract (PCA) at the district level, mandal/town level and village level.
6. Brief analysis of PCA data.
7. Village Directory and Town Directory.
8. Brief analysis on Village Directory and Town Directories.

It will not be out of place to mention here that there is perhaps no other publication from any agency that encapsulates so much data on a district. The amenities data includes information on sectors such as Education, Health, Water and Electricity supply, Communication and Transport facilities etc. The idea of presenting amenities data juxtaposed to the Census data is not only unique but also tremendously useful for the data users.

The District Census Hand Book is further enriched with a district map and mandal maps depicting villages/towns with population size and also amenities such as Educational Institutions, Hospitals, Telegraph and Telephone facilities, Banks, Police Station etc.

Some improvement over earlier DCHB have been made to bring more completeness to the data presented in this volume.

1. The names of Colleges, Girls' High Schools, Hospitals run by Government and others have been given as an additional information. Similarly the names of Cinema Halls have been given.
2. Ranking of Mandals according to population is also given.

3. More Appendices and Annexures to important statements are given to make the data more comprehensive.

In the previous Censuses, the manuscripts prepared by this department were supplied to Government of Andhra Pradesh who in turn brought out the publications at their cost. However due to the procedural rigmorale some delay was unavoidable in placing the DCHBs before the data users and planners.

This time, keeping in view the above difficulties, the printing and publication of District Census Hand Books has been taken up centrally under the arrangement of the office of the Registrar General and Census Commissioner, India, New Delhi. The processing of data and preparation of Camera Ready Copies electronically including finalisation of write up was attended to in the office of the Director of Census Operations.

I am grateful to the Chief Secretaries, Principal Secretaries, Secretaries, District Collectors, Municipal Commissioners and other senior officials of the Government of Andhra Pradesh for their co-operation and assistance throughout the Census Operations and in the process of collection of the non-Censal data.

I am extremely grateful to Sri D.K.Sikri, IAS, Registrar General and Census Commissioner, India for the help, guidance and constant support in finalising this volume. My sincere thanks to Sri R.P. Singh, Deputy Registrar General (Map) and Dr.I.C. Agrawal, Assistant Registrar General (SS). Sri. S.L. Jain, Deputy Director for giving guidence, help and co-ordinating this project work and their colleagues in the office of the Registrar General, India.

I also take this opportunity to acknowledge the valuable contribution made for this publication by Sri.J.K.Banthia, Ex-Registrar General, India.

Most of the work relating to DCHB has been carried out under the able guidance and direction of Sri V.S.Bhaskar, IAS, Director of Census Operations, Andhra Pradesh, Hyderabad. I take this opportunity to acknowledge his valuable contribution made for this publication.

The credit for preparation of District Census Handbooks goes to a team of devoted officers and staff of this Directorate who have involved in this project. The names of individuals associated with this project are shown in “Acknowledgements”. I am grateful to all of them.

I hope that the data users will find this publication very useful.

D.HANUMANTHARAYA

District Highlights – 2001 Census

1. Khammam District stands 6th in terms of area size and ranks 19th in terms of population in the state.
2. Khammam district stands 16th rank in terms of urbanisation with a total Urban population 510,861.forming 19.81 percentage to the total district population.
3. The sex ratio of the district is 975 against 961 in 1991 Census showing upward trend.
4. The density of the district is 161 against 138 in 1991 Census, showing increase over the decade.
5. Bethampudi village, PLC No. 01039600 is most populated with a population of 22,871 and Punem Veerapuram village, PLC No.00974700 is the least populated with a population of **3** in the district.
6. Khammam (urban) mandal is most populated with a population of 255,800 and Velairpadu Mandal is the least populated with a population of 21,474 in the district.
7. Khammam Municipality is most populated with a population of 159,544 and Yellandu Municipality is the least populated with a population of 42,421 in the district.
8. Out of 100 workers 72.10 are engaged in Agriculture sector, 2.15 in Household industry and 25.75 in other economic activities. Thus showing the predominance Agriculture Sector.
9. Out of 100 Male workers in the district 62.69 are engaged in Agriculture sector.
10. Out of 100 Female workers in the district 85.92 are engaged in Agriculture sector.
11. There is a decrease in the proportion of main workers of the district in the decade (43.30 percent in 1991 to 40.30 percent in 2001).
12. There is a decrease in the proportion of Male main workers of the district in the decade (55.12 percent in 1991 to 50.75 percent in 2001).
13. There is a decrease in the proportion of Female main workers of the district in the decade (31.00 percent in 1991 to 29.59 percent in 2001)
14. The Khammam district is famous for Coal Mines, thermal power station and Bhadrachalam Sree Rama Temple.
15. Tekulpalle & Yellandu Mandals have the lowest number of inhabited villages (6 in each mandal) and the highest number of inhabited villages (80) are found in Dummugudem and Chintoor.
16. Kallur mandal has largest area 10,389 hectares under irrigation, followed by mandal Nelakondapalle with 10,251 hectares in the district. The mandal with lowest area 161.63 hectares under irrigation is Kunavaram Mandal.
17. Bethampudi village bearing PLC No.01039600 has the largest area (13890 hectares) and Irakampeta village bearing PLC No.01015800 has the smallest area (2 hectares) among the villages of the district.
18. Female work participation rate is 39.59 and that of the Males is 56.70 in the district .

(i) About the District Census Handbook

District manuals compiled and published prior to 1905 by the erstwhile composite Madras Government contained not only particulars of items of more or less similar and permanent characteristics like history, religion and ethnography, but also a few statistical tables including those relating to population which became obsolete within a few years of publication. Later, the Madras Government replaced the District Manuals by another publication viz., the District Gazetteer consisting of two Volumes A and B. Volume-A contained descriptive and general tables which explains the text and Volume-B contained detailed statistics. It was decided that Volume B should be brought out periodically after each decennial census so that they contain the latest statistics. Volume-A was published for some districts between 1905 and 1927 in the Composite Madras State. The publication of Volume-A was discontinued in 1927. Volume-B was published for all the districts of the Composite Madras State between 1906 and 1915. The publication of Volume-B was also stopped after 1931 Census.

Similarly the Gazetteer volumes were also brought for some of the districts in the erstwhile Hyderabad State. The scheme of publication of revised District Gazetteers was restarted in the year 1958 by the State Governments. The State Editor, District Gazetteers, Government of Andhra Pradesh had published the Gazetteers of all the districts.

The idea of compiling the District Census Handbooks was initiated during the 1951 census pioneered by Sri. R.A. Gopala Swamy, I.C.S. the then Registrar General, India and Ex-officio Census Commissioner of India, with a view to preserve the census records prepared for areas below the district level. He proposed that all the District Census Tables and Census Abstracts prepared during the process of sorting and compilation, should be bound together in a single manuscript volume and named as the District Census Handbook and suggested that the State Government should take up printing and publication at their own cost. Then onwards, the District Census Handbooks were published in each census with improved pattern with an aim to give the census and non-census data at micro level for the village and district as a whole to suit the requirements of various departments, scholars, research personnel , planners, industrialists, electoral authorities, and other data users, also for efficient public administration by the state.

Pattern at 2001 Census :

The present District Census Handbook of 2001 Census, like the previous Census, is brought out for each district comprising of two Parts. Part- A Village and Town Directory with additional information on amenities viz., availability of commercial banks, recreation, credit societies etc., and land use particulars in the rural areas and Part- B Primary Census Abstract. At the out set an analytical note is given which depicts a general back ground on the district and analytical results on the statements and tables included in the volume. The volume is also provided with brief history of the district, physical aspects, census concepts, non-census concepts, major characteristics with reference to economic resources and administrative set-up during the past decade, few appendixes, etc..

Part A–Village and Town Directory :

The Section- I i.e. Village Directory gives non-census data on the amenities available in each village in respect of educational, medical, drinking water, power supply, post and telegraph, telephone, approach to village, banks, credit societies, receipt of newspapers and magazines, recreation and cultural facilities, nearest town and its distance, distribution of land use area, income and expenditure of the village and name of the most important commodities manufactured.

If an amenity is not available in the referred village, the distance in broad ranges (Kms.) from the nearest place where the amenity is available is indicated. If the nearest place is situated in another state, name of the other state is also given.

The Section-II i.e. Town Directory has been presented in seven Statements viz., Statement-I Status and Growth History, Statement-II Physical

aspects and Location of towns, Statement-III Municipal Finance(receipts and expenditure,1998-99), Statement-IV Civic and other amenities, Statement-V Medical, Educational, Recreational and Cultural facilities, Statement-VI Trade, Commerce, Industry and Banking etc., Statement-VII Civic and other amenities in Slums and an Appendix showing towns with out growths and their population. The reference period for the above statements is 1998-99 and the data is covered for all the statutorily notified towns in the district.

The non-census data at Village/Town level is collected from concerned authorities viz., Mandal Revenue Officers, Municipal Commissioners etc., and scrutinized with meticulous care and validated with the data collected from various departments to provide valid information to the data users.

Part B–Primary Census Abstract :

This data can be stated as the essence of the handbook. The latest Census details such as area, total house holds, population, scheduled castes and tribes population, literates, workers, etc. are presented in the Abstract.

(ii) History and Administrative Set up of the district

Brief History of The District

Khammam District was formed on 1st October , 1953 with the five erstwhile taluks viz.,Khammam, Yellandu, Bhoorgampadu, Palwancha(Kothagudem) and Madhira of Warangal District in accordance with the orders issued in the Notification No. 48\A4\193\53, dated 18th September, 1953 of the erstwhile Hyderabad Government. This district was constituted in 1953 as it was felt that Warangal district was too extensive and unwieldy for purposes of administration. In 1959, Bhadrachalam taluk and Nugur independent sub-taluk of East Godavari district, which were not easily accessible to Kakinada were also transferred to Khammam district for administrative convenience. The detailed administrative units are discussed in administrative set-up chapter alongwith changes occurred from 1991 to 2001.

The area comprising the present Khammam district originally formed part of the Kakatiya kingdom and after its downfall, it became part of Bahmani kingdom. Later it came under the control of Qutub Shahi dynasty of Golconda and on its fall was annexed to Mughal Empire from which it was detached in the early part of the eighteenth century on the establishment of the Hyderabad State by the Asaf Jahi dynasty. Finally, it became part of Andhra Pradesh with effect from 1st Nobember, 1956 under the scheme of Re-organisation of States. The early history of the Deccan of which Khammam district forms a part is given below.

Early Hindu Period

In pre-historic times the great Dravidian race occupied Southern India including a major portion of the Deccan plateau. It is uncertain when the Aryans invaded the Deccan. The empire of Asoka (273-231 B.C.), however, seems to have had control over the whole of Berar and a considerable portion of the Deccan plateau. The Andhras were the next kings who ruled the Deccan. They are mentioned in the Asokan inscriptions but their rise to power dates from about 220 B.C. Gradually extending their sway from Krishna delta they soon possessed an empire reaching Nasik. This dynasty seems to have come to an end in the third century A.D. but the reasons for the collapse are little known. The Pallavas who ruled South of Krishna might have extended their power to this region. The next dynasty of importance is that of the Chalukyas who rose to power in Bijapur district by about 550 A.D. and founded an empire spreading east and west across the Peninsula with their capital at Kalyani. Pulakesin II (608-642 AD), ruled practically the major portion of South India-South of Narmada river and even came into contact with Harshavardhana of Kanauj. Throughout their period of supremacy, the Chalukyas were at war with the pallavas. In the middle of the eighth century the Chalukyas were at war with the Pallavas. In the middle of the eighth century the Chalukyas were displaced by the Rashtrakutas of Malkhed in Gulbarga district. From about 973 A.D., the Chalukyan dynasty was restored and for nearly 200 years maintained its position, inspite of fierce struggles with the Cholas and Hoyasalas of Dwarasamudra. The Chalukya power fell by about 1189 AD. to the Hoyasalas and Yadavas, the later of whom established themselves at Deogiri. The Yadavas were the last great Hindu rulers of the Deccan, for Vijayanagar kingdom which was founded half a century later after the advent of the Muhammadans, never acquired much sway in the Deccan proper.

Muhammadan period

Alla-ud-din khilji led the first Muhammadan expedition into the Deccan, in 1294 against the Yadava ruler of Deogiri and forced him to submission.In 1296 he assassinated his own uncle and seized the throne, and sent an expedition to Deogiri. He lead his first expedition in 1303 against the Kakatiya kings of Warangal, who had established themselves there since the middle of 12th century. This having failed, he sent a second expedition under Malik Kafur in 1309, which resulted in the submission of the Raja who agreed to pay tribute. Muhammad-bin-Tughlak later conducted a campaign against Warangal and finally broke the Kakatiya power in 1321. In 1310, Malik Kafur was sent against the Hoyasala Raja of Dwarasumdra

(Halebid in Mysore). In 1318 when Harpal, the Deogiri ruler rebelled, he was defeated and put to death and with him the Yadava dynasty ended. When Muhammad-bin-Tughlak ascended the throne of Delhi in 1325 the Muhammadans were masters of the Deccan from North to South; the chief Rajas of Telangana acknowledged their sway and paid tributes. He changed the name of Devagiri to Daultabad and made it his capital. A few years later, the imperial Governors of the Deccan revolted resulting in the establishment of the Bahamani dynasty. Zafar Khan, who styled himself as Alla-ud-din Hasan Shah Gangu founded this line and having taken possession of the Deccan provinces including Bidar and Gulberga, he made the latter place his capital and commenced to rule from 1347 A.D. The Bahmani kingdom extended from Berar in the North of the Deccan to the left bank of Tungabhadra in the South and from Dabal on the West coast to the Telangana tracts in the East. After the fall of this dynasty the Barid Shahi dynasty came into power. Amir Barid who assumed sole charge of the affairs of the Bahmani kingdom, after the down fall of the Bahamani dynasty, had many vicissitudes and constant wars with the rulers of Bijapur and Berar and he died in Daultabad in 1538. He was succeeded by his son Ali Barid who was the first to assume the title of Shah. In 1565, he marched along with the other Deccan kings against the Rajah of Vijayanagar and in the memorable battle near Rakshsi Tangadi, the Vijayanagar ruler was defeated and his fate sealed. Ali Barid died in 1582 and he was succeeded by three other kings. The Qutub Shahi dynasty next came into prominence. Sultan Quli Qutub-ul-Mulk, a Turk of noble family who was Governor of the Golconda province under the Bahmanis took advantage of the distracted State of the kingdom under Muhammad Shah of the Barid Shahi dynasty and declared the Independence establishing the Qutub Shahi dynasty which reigned from 1512 to 1687 A.D.

When the Mughals invaded the Deccan, the local rulers formed an alliance against them but after defeating the invaders they fell out among themselves enabling the Mughal troops to subdue the country. Shah Jahan after rebelling against his father fled from Burhanpur and was welcome at Golconda by Abdullaha Qutub Shah. In 1635 A.D. Shah Jahan who had by then become the Emperor, sent a 'farmaan' to Golconda which was well received. Mir Jumla, the king's Minister appealed to Aurangazeb for help against his master in 1655 A.D. and this afforded a pretext for Aurangazeb to invade the territory. Hyderabad was plundered, but Abdullah sued for peace and paid arrears of tribute. He died in 1674 A.D. and was succeeded by his nephew Abdul Hasan also called Tana Shah. After the fall of Bijapur in 1686 A.D. Aurangazeb turned his attention to Golconda which was taken over in the following year. Tana Shah was made a prisoner and died in 1704 A.D. and with him the Qutub Shahi line ended. This dynasty was followed by Asaf Jahi dynasty to which the former Nizam belongs. The Asaf Jahi dynasty was founded by Asaf Jah, a distinguished General of Aurangazeb, a Turkman by descent. After a long service under the Delhi Emperor, he was appointed as Subedar or Viceroy of the Deccan in 1713 A.D. with the title of Nizam-ul-Mulk, which has since become the hereditary title of the family. The Mughal Empire at this period was on the verge of decline owing to internal dissensions and attacks from within. Amidst the general confusion Asaf Jah had little difficulty in asserting his Independence against the degenerated and weak occupants of the throne of Delhi, but he had to repel the inroads of Marathas who were creating harassment in the west of his newly acquired territory. His independence was the cause of much jealousy at Delhi and the court party secretly instructed Mubariz Khan, the Governor of Khandesh to oppose him by force of arms. A battle was fought at Shakarkhelda in the Buldana district of Berar in 1724 A.D. when Mubariz Khan was totally defeated and put to death. This battle established the Independence of Asaf Jah who annexed Berar and fixed his residence at Hyderabad and established his dominions. Khammam district along with the rest of the Telangana came under the control of the Asaf Jahi dynasty.

After the death of Asaf jah, Nazir Jung his second son, and Muzaffar Jung, his grandson by one of his daughters, strove for the succession. At this time the English and the French were contending supremacy in the East and each of the claimants secured the support of one of these powers; Nazir Jung's cause was espoused by the English, while Muzaffar Jung was supported by the French. The latter, however, fell a prisoner to his uncle, but on the assassination of Nazir Jung, Muzaffar Jung was proclaimed the soverign. Dupleix, the French Governor, became the controller of the Nizam's authority. Muzaffar Jung was killed by some Pathan chiefs and the French then selected Salabat Jung a brother of Nazir Jung and son of Asaf Jah as ruler. Ghazi-ud-Din, the eldest son of Asaf Jah, who, it was alleged, had relinquished his claim at first, now appeared as a claimant, supported by the Marathas, but his sudden death put a stop to further

struggle. The English and the French were now contesting power and influence in the Deccan; but the victories of Clive in the Carnatic caused the latter to turn their attention to their own possessions which were threatened and to leave Salabat Jung to shift for himself. Nizam Ali Khan, the fourth son of Asaf jah at this juncture obtained the support of the English on the promise of dismissing French from his service. Salabat Jung was dethroned in 1761A.D. and Nizam Ali Khan was proclaimed ruler.

In 1766 A.D. the Northern Circars were ceded to the British on the condition that the Nizam was to be furnished with a subsidiary force in times of war, and received six lakhs of rupees per annum when no troops were required, the Nizam on his part promising to support the British with his troops. This was followed by the treaty of 1768 A.D., by which the East India Company and the Nawab of Carnatic engaged to assist the Nizam with troops whenever required by him, on payment. In 1790 A.D., war broke out between Tipu Sultan and the British and treaty of alliance was concluded among the Nizam, the Marathas and the British. Tipu, however, concluded peace and had to relinquish half of his dominions which was divided among allies. In 1798 A.D., another treaty was concluded between the Nizam and the British. On the fall of Seringapatnam and the death of Tipu Sultan, the Nizam participated largely under the treaty of Mysore in 1799 in the division of territory and his share was increased because of the withdrawal of the peshwas from the treaty. In 1800 a fresh treaty was concluded between the Nizam and the British by which the Nizam ceded all the territories which had accrued to him under the treaties of 1792 and 1799, i.e. Cuddapah, Kurnool, Anantapur and Bellary districts known as the ceded districts of Madras. Nizam Ali Khan died in 1803 and he was succeeded by his son, Sikandar Jah. On the death of Sikandar Jah in 1829, his son Nasir-ud-Doula succeeded to the throne. Nasir-ud-Doula died in May, 1857 and he was succeeded by his son Afzal-ud-Doula. In 1869 on the death of Afzal-ud-Doula, his son Mir Mahbub Ali Khan Bahdur became the ruler. As he was only three years old then, a regency was constituted for the administration of the kingdom, with Salar Jung I as regent and Nawab Shams-ul-Umara as co-regent, the British resident being consulted on all important matters concerning the welfare of the State. On the death of the co-regent in 1877, his half brother Nawab Vikar-ul-Umara was appointed co-administrator but he too died in 1881, sir Salar Jung remained the sole administrator and regent till his death (in 1883). In 1884, Mir Mahbub Ali Khan having attained majority, was installed as ruler by Lord Rippon. On the death of Mir Mahbub Ali Khan in 1911 Mir Osman Ali Khan ascended the throne. In 1947 when the country attained independence, the princely States were given the choice either to remain independent or to join the Indian Union. The Nizam's Dominions became part of the Indian Union in 1948, as a part B State and in 1956 during the Re-organisation of States, the Hyderabad State was trifurcated and the nine predominantly Telugu speaking districts of Adilabad, Nizamabad, Karimnagar, Medak, Hyderabad, Mahbubnagar, Nalgonda, Warangal and Khammam known as the Telangana region were transferred to Andhra Pradesh. Major portions of the predominantly Kannada speaking districts of Raichur, Gulbarga and Bidar were transferred to Mysore State (renamed as Karnataka state) while the Marathwada comprising the five districts of Aurangabad, Osmanabad, Bhir, Parbhani and Nanded and a portion of Bidar which is predominantly Marathi speaking area was transferred to Maharashtra State. These changes were effected on 1st November, 1956.

Administrative Set-Up

(a) Region of State where the district is located:

This district is one of the Northern districts of the State located at middle among them and South-West corner of the Telangana region.

(b) Total number of Revenue Divisions and Mandals:

The broad administrative changes were made in 1985.The then existing 12 taluks viz., Nugur, Bhadrachalam, Bhoorgampadu, Manuguru, Sudimalla, Yellandu, Kothagudem, Aswaraopeta, Sathupalle, Madhira, Khammam and Thirumalayapalem were re-organised into 46 mandals. Corresponding to them, Mandal Parishads were also formed which are co-terminus with Revenue Mandals except statutory towns, which do not fall in their jurisdiction. All the 46 mandals have been organised into four Revenue Divisions in the district. The distribution of mandals are given Divisionwise hereunder.

Source: *District Census Handbook, Khammam, 1991.*

Name of the Revenue Division	Name of Mandal
1. Bhadrachalam	1. Wazeed
	2. Venkatapuram
	3. Cherla
	4. Dummugudem
	5. Bhadrachalam
	6. Kunavaram
	7. Chintur
	8 Vararamachandrapuram
2. Palwancha	1. Palwancha
	2. Pinapaka
	3. Manuguru
	4. Aswapuram
	5. Velairpadu
	6. Kukunoor
	7. Burgampahad
	8. Mulkalapalle
	9. Aswaraopeta
	10. Dammapeta
3. Kothagudem	1. Kothagudem
	2. Yellandu
	3. Gundala
	4. Tekulapalle
	5. Singareni
	6. Bayyaram
	7. Garla
	8. Kamepalle
	9. Julurpad
	10. Chandrugonda
	11. Enkuru
4. Khammam	1. Sathupalle
	2. Vemsoor
	3. Penuballi
	4. Kallur
	5. Tallada
4. Khammam (Concld.)	6. Konijerla
	7. Khammam (Urban)
	8. Khammam (Rural)
	9. Thirumalayapalem
	10. Kusumanchi
	11. Nelakondapalle
	12. Mudigonda
	13. Chinthakani
	14. Wyra
	15. Bonakal
	16. Madhira
	17. Yerrupalem

(c) Total number of Villages and Towns:

As per 1991 Census , there were 1242 villages in the district. Of which 1092 are inhabited and 135 un-inhabited villages and 15 villages are included in towns. Thus 1227 villages were covered in rural areas. Of the 10 towns, there were 4 statutory towns and the remaining 6 were Census towns at 1991 census.

While comparing the list of villages at 2001 Census with 1991 census, 1229 villages have fallen under Rural areas and 13 villages are fully included in Towns. Thus total villages covered under Rural is accounted for 1229 at 2001 census, which shows an increase of two villages in Rural areas in the district. The increase is due to three census towns have been declassified, as a result four revenue villages viz., Mothugudem, Sathupalle, Ayyagaripet and Madhira have attained rural status during the decade. At the same time two other villages have attained urban status and formed as new Census towns viz., Sarapaka and Chatakonda in the district. At 2001 census, the district has 4 statutory towns and 5 census towns covered with 13 revenue villages.

Regarding Urban Agglomerations, Khammam and Kothagudem are formed as Urban Agglomerations in the district even at 2001 census. Khanapuram Haveli (partly) and Edulapuram (partly) have been taken as O.Gs to Khammam U.A., while Garimellapadu O.G. and Chunchupalle C.T. are constitutent units to Kothagudem U.A.

(iii) Physical Features of the District

Location and size :

Khammam district lies between 16^0 - 45' and 18^0 - 35' of Northern latitude and between 79^0 - 47' and 81^0 - 47' of the eastern longitudes. The district is bounded on the North by Chchatisgarh and Orissa States, on the South by Krishna District, on the East by East Godavari and West Godavari districts, on the West by Nalgonda and Warangal Districts. The district is known with its headquarters Khammam.

At 2001 census, the district is comprising of 46 mandals and 9 towns including 4 statutory towns with an extent area of 16029.00 Sq.Km. The district population is 2,578,927 persons constitute 1,305,543 males and 1,273,384 females. The density of population is 161 per Sq. Km. and this district occupied 6th rank in terms of area and 19th rank in terms of population in the State. This district is connected both by road and rail with State Headquarters i.e., Hyderabad city.

Drainage :

The important rivers that flow through this district are Godavari, Sabari, Muner (Munneru), Paleru and Akheru. The River Godavari flows through a distance of about 180 Km. in the district in south eastern direction. It rises near Triambak in Nasik district of Maharastra State and enters this district near Tekulagudem chalk which is an uninhabited village of Wazeed mandal. It leaves Khammam district at Kollur village of Vararamachandrapuram mandal. The famous temple of Lord Rama located at Bhadrachalam is on the bank of this river. Apart from these rivers, two important tributaries of Godavari and Muner rivers namely Kinnerasani and Wyra flow into this district. Kinnerasani forms the boundary between Burgampahad and Palwancha mandals and after traversing in the south eastern direction finally it joins Godavari river near Sridhara village of Burgampahad mandal. River Muner rising in Warangal district flows southwards passing through Kothagudem and Khammam revenue divisions and finally joins the river Krishna. Another famous river Paleru rising in Warangal district flows almost parallel to Muner and passes through Kakaravai village of Thirumalayapalem mandal and joins river Krishna. The third river Akheru which also rises in Warangal district flows in the south eastern direction joins river Muner at Thirthala village of Khammam rural mandal. The Wyra tributory flows towards south direction and joins Munneru river in Krishna district.

Physiography :

The district in general represents rough topography consisting of dissected uplands and hills. There are minor isolated hills traversing through north,central and southern parts of the district. The eastern end of the district is occupied by a group of hills stretching up to Papikondalu in the south. The important hills in the district are Marrigutta, Rajagutta, Yerragutta, Usirikayalapalle and Wali-sugreva.

Climate and Rainfall :

The climate of the district is comparatively equitable and although it is very hot in the month of May with mercury rising upto 42^0 C. The total annual rainfall of the district is 1,086 mm during 1999-2000 as against 1,045 mm normal rainfall. 85% of the rainfall i.e., 926mm. is received during south west mansoon i.e., June to September. The following table shows temparature and rainfall for the year 1999-2000 in the district.

Table (a)

Month-wise maximum and minimum temparature recorded at Khammam for the year 1999-2000

Temp.Range	Jan.	Feb.	Mar.	Apr.	May.	June.	July.	Aug.	Sep.	Oct.	Nov.	Dec.
Maximum	28.5	31.5	35.1	38.0	36.7	31.7	32.7	31.3	31.5	31.2	30.3	32.4
Minimum	17.2	19.9	24.0	26.6	26.9	26.7	26.3	25.5	24.6	24.1	19.7	17.1

Table (b)

Rain fall season-wise (in mms.) for the year 1999-2000

South-West monsoon period	North-West monsoon period	Winter period	Hot weather period	Total for the year
June to Sep.	Oct. to Dec.	Jan. & Feb.	Mar. to May	From June to May
926.0	83.0	23.0	54.0	1086.0

Source: *Statistical Abstract of Andhra Pradesh, 2000 Directorate of Economics & Statistics.*

Generally the rain in the district is heavy in South-West mansoon. July is the normally heavy rainfall month. During the pre-monsoon period, rainfall some times occurs mostly in the form of thunder showers.

Soils :

The soils of the district comprise ustalfs in the western part , while white sandy loams occur in the Eastern and Western region. The hilly areas of the district comprise lower pre-combrain deposits while alluvial soil is also found along river Godavari. The variation in the fertility of the soils is the main cause of the difference in the cropping pattern of the eastern and western regions in the district.

Flora and Fauna:-

The flora of the district can be broadly classified into Timber, Firewood and Bamboo. These are main forest produces which gained considerable market in the district. Of these the important timber species found in the district are teak (Tectona grandis), Bijasal or yegi (Pterocarpus marsupium), Tunki (Diospyros melanoxylon), Sandra (Acacia sundra). Among the softwood species Anduk (Boswellia Serrata), Tapsi (Sterculia urens),Burugu (Bombax malabarcium), Gumpena (Lannea grandis), Garuga (Garuga pinneta), Punki (Givotia rattlers - formis), pala kodsheor Repela (Wrightia tinctoria) etc.

Bongu Veduru or Mullu Veduru (Basbusa arundinacea) and Sadanapu Veduru or Sadanam (Dendrocalamus Strictus) are two important species of Bamboos in the district. The commonly found varieties of shrubs in the district are Danti (Gymnosporia montana), Nulthada (Helicteres isora), Pala Bariki (Holarrhena antidysenterica), chittita (Phoenix humilis), Vempali (Tephrosia purpurea), Panchothkam (Bridelia Hamiltoniana),Chittijana (Grewia hirsuta), Jaji (woodfordia floribunda) and Papadi (Pavetta indica). Indigenous upland flora like Guruginja, Gachcha tiga (Ceasalpinia crista), Sugandhapala (Hemidesmus indicus), Tippa Tiga (Tinospora cardifolia), Pariki, Pala tiga (Cryptolepis buchanani), Kondagurva tiga (Smilax macrophylia) Korinta(Acacia-Intsia), Palligaddalu (Asparagus-racemosus), BonthaTiga (Calycopteris floribunda), Tumki (Beedi leaf), Karakkaya or Halela (Terminalia-Chebula), Tamarind (Tamarindus indica) etc., are worth mentioning species yielding a little forest produce in the district and the forest area accounts for 47% for the year 1999-2000.

Table (c)

Statement showing the extent of plantations and expenditure, out turn of major and minor forest produce during the year 1996-97 in the district.

Sl.No.	Name of the Circle or Produce	Extent of Plantation (Area in Hec.)	Expenditure (Rs. In lakhs)	Out turn of major and minor forest produce
1	2	3	4	5
1	Teak	300.00	17.01	3,395.634 cum.
2	Bamboo	1800.00	33.084	569.417 M.T
3	Non Teak	--	--	681.340 cum.
4	Fuel wood	--	--	3,300.500 M.T.
5	Honey	--	--	67.10 Kgs.
6	Bee wax	--	--	8.27 Kgs.
7	Gum Kariya	--	--	13.68 Kgs.
8	Cleaning Nuts	--	--	22.66 Kgs.
9	Soap Nuts	--	--	5.440 Qts.
10	Nuxminca Bark	--	--	8.69 Qrts.
11	Myrabalam	--	--	5.79 Qts.
12	Mohwa seed	--	--	335.19 Qts.
13	Pongam seed	--	--	4.00 Qts.
14	Elagatche	--	--	29.76 Kgs.
15	Wild broose	--	--	60.71 Kgs.
16	Bamboo Baskets	--	--	119,075.00 Kgs.
17	Tamarind	--	--	2,857.00 Kgs.
18	Tamarind seed	--	--	251.97 Kgs.
19	Hill Booms	--	--	6,666.00 Nos.
20	Industrial cuts	--	--	6,493.679 M.T.

Cropping Pattern :

This district is predominantly agriculture based. The principal crops of the district are Paddy, Jowar, Maize and Pulses under food crops and Groundnut, Chillies, Cotton and Tobacco under commercial crops. The cropped area is covered by 86.0% under food crops and 14% under commercial crops in the district. The main source of irrigation is Nagarjuna Sagar left canal, Muner and Paler Alair rivers. In addition to the above, there are few Medium and Minor irrigation sources like tanks and wells in the district.

The total geographical area of the district is 15.6 lakh hectares, of which the current fallows constitute 4.7% while area not available for cultivation is about 13.5%. Forest area account for 47.0 %. Cotton cultivation makes the district to occupy a distant place in the State.

Table (d)

The statement showing the extent of land utilization for the year 1999-2000

Sl.No.	Item	Area in Hectares (In Lakhs)	Percentage over total geographical area
1	2	3	4
1	Forest	7.35	47.0
2	Barren and uncultivable land	0.89	5.7
3	Land put to Non/agriculture use	1.22	7.8
4	Permanent pastures and grazing land	0.38	2.4
5	Miscellaneous Tree crops and grooves not included in net area sown	0.19	1.2
6	Cultivable Waste	0.21	1.5
7	Other fallow lands	0.22	1.7
8	Current fallows	0.74	4.7
9	Net area sown	4.42	28.0

Source: *Joint Director of Agriculture, Khammam.*

As already stated that Khammam occupies a distant place in the cotton production besides principal food crops, pulses and non-food crops. The following statement shows the year-wise area, production and yield for the last three years in the district.

Table (e)

Area, Production and Yield per hectare of major crops

(Area in '000 Hectares, Production in '000 Tonnes and Yield in Kgs per Hectare)

Sl. No.	Name of Crop	1995 - 96			1996 - 97			1997 - 98

Table (f)

Agricultural Machinery and Implements as per live stock census and farm equipment census 1993-94

Sl. No.	Name of Machinery	Number
1	2	3
1	Wooden Ploughs	1,430,139
2	Iron ploughs:	31,693
	(a) Soil stirring:	4,102
	(b) Soil Turning:	27,591
3	Diesel Engines	10,962
4	Electric Pumps	18,314
5	Tractors	2,417
6	Sprayers:	27,194
	(a) Without power:	20,013
	(b) with power:	7,181

Source: *Khammam District Handbook of Statistics 1997-98.*

It is seen from the above statement that Khammam district is mainly dependent on manual power for cultivation.

Irrigation :

Nagarjuna Sagar left canal is the major irrigation source in the district and Wyra-Taliperu Project, Lanka Sagar, Peddavagu, Mukamamidi and Bayyaram Projects are medium irrigation source in the district. In addition to the above sources 37,854 Tanks, 18,645 Tube Wells and 34,194 other Wells are also available in the district to facilitate irrigation to an extent of 1,74,610 hectares of land in the district. The following statement shows the source of irrigation for the year 1997-98.

Table (g)

Source of Irrigation

Sl.No.	Irrigated by source	Area in hectares
1	Canals	61,370
2	Tanks	37,854
3	Tube Wells	18,645
4	Other wells	34,194
5	Lift Irrigation	20,749
6	Other source	1,798
7	Net area irrigated	1,64,418
8	Area irrigated more than once	10,192
9	Gross area irrigated	1,74,610

The principal crops, which were irrigated during the year 1997-98, show that paddy was irrigated in 1,09,522 hectares followed by Chillies in 15,817 hectares and Groundnut in 10,871 hectares. The following table gives cropwise area irrigated for the period 1997-98.

Table (h)

Crop wise area irrigated

Sl.No.	Name of Crop	Area in hectares
1	Paddy	1,09,522
2	Maize	3,131
3	Blackgram	259
4	Chillies	15,817
5	Sugarcane	4,549
6	Cotton	8,651
7	Groundnut	10,871
8	Tobacco	8,438

Animal Husbandry :

Livestock plays an important role in rural economy of the district as it is predominantly agriculture based and about 70% of the population is engaged in agriculture. There has been substantial increase in the livestock population over 1991 census report. The following table gives the detailed information about increase in the livestock and poultry population during the decade.

Table (i)

Livestock and Poultry Population

Sl.No.	Category	Total Number of Live Stock	
		1989(1991 Census)	1997-98(2001Census)
1	Cattle	728,006	728,514
2	Buffaloes	198,422	569,112
3	Sheeps	131,784	162,939
4	Goats	199,347	207,732
5	Horses & Ponies	255	301
6	Pigs	1,271	59,164
7	Donkeys	---	414
8	Other Live-Stock	4	---

Veterinary Services in the district during the year 1997-98

Sl.No.	Particulars	Number
1	Joint Director (Animal Husbandry)	1
2	Assistant Director (Animal Husbandry)	14
3	Veterinary Assistant Surgeons	76
4	Junior Veterinary Officers	49
5	Livestock Assistants	65
6	Veterinary Assistants	130
7	Veterinary Hospitals	8
8	Livestock supervisor Units	69
9	Rural Livestock Units	133

Source: *Khammam District Handbook of Statistics 1997-98.*

The above institutions have extended their services for 54,344 Castrations, 21,67,046 Vaccinations and 49,296 artificial inseminations during the year 1997-98 with the help of Veterinary Poly Clinic, Animal Health Centre, Mobile Input Project, Rinderpest Vigillance Unit, Rinderpest Eradication Scheme, Centralised Semen Collection Centre, Sheep Supervisor Unit and 8 Sheep and Wool Extension Centres in the District. Area brought under improved fodder with an extent of 18,154 hectares was for the feeding of cattle.

There are 223 milk collection centres and one milk chilling centre at Sathupalle with a capacity of 12,000 litres are functioning in the district, apart from the Khammam Dairy with a capacity of 50,000 litres. All these centres together procure on an average 1.50 lakh litres of milk per month with monthly average sales of 1.10 lakh litres of milk.

Transport :

The important railway lines Chennai - New Delhi, Bhuvaneswar - Mumbai, Visakhapatnam - Hyderabad, - Visakhapatnam - New Delhi pass through this District with a length of 201 Kms. Broad gauge. This district has 22 Railway Stations. Among them Khammam, Garla, Karepalle, Kothagudem, Madhira etc., are important stations. It is at Karepalle junction at which one branch line from Singareni Colleries and other from Bhadrachalam Road join the line going to Dornakal junction on Kazipet - Vijayawada Section. Apart from this, there are State Highways linking Khammam with Kothagudem, Palwancha and Bhadrachalam. The National highway with a length of about 70 Kms. passes through the distrtict. The length of State Highways and other roads in the district including Panchayat Raj and PWD(R&B) roads is about 8,257 Kms.

As regards transportation of public and goods, different types of motor vehicles are plying in the district for the convenience of public. There are six A.P.S.R.T.C. Bus Depots situated at Khammam, Bhadrachalam, Sathupalle, Madhira, Manugur and Kothagudem with 492 buses. The following statement shows the number of motor vehicles of different categories plying in the district as on 31st March, 2000.

Table (k)

Minerals :

Khammam is rich in Mineral sources. Several minerals like Coal, Iron ore, Barytes, Corundum, Dolomite, Granite, Limestone and Mica are found in the district. The coal fields at Yellandu, Manuguru and Kothagudem are of national importance. Coal is the most important mineral and very much useful for Thermal Power Stations. The famous coal mine called 'Singareni Colleries Co. Ltd'., is located in this district and the coal mining work is being carried out by the said company for the past several years.

Iron ore occur in Bayyaram, Ramachandrapuram and Appalanarasimhapuram of Bayyaram mandal. The important mineral villages where Barytes is found in Pocharam, Siripuram, Rudramakota and Venkatayapalem. The good quality Graphite is found in the Jeediguppa, Kavadigundla and Gundlamadugu areas of Bhadrachalam and Palwancha Revenue Divisions. The Limestone is found in Yellandu and Khammam mandals for use of fluxing agent in steel metallurgy marbles. The following table shows the production of some of the principal minerals in the distrtict for the year 1998-99.

Table (l)

Production of principal minerals 1998-99

Sl.No.	Name of Mineral	Production in Tonnes	Value (in '000 Rs.)
1	Barytes	2,718	544
2	Corundum	579	51

Electricity :

All the villages in the district are electrified as per the village directory data 2001 census. There is a big Thermal Power Station located at Palwancha with an installed capacity of 1170 m.w. In addition to this, Hydel Power Stations viz., Lower Sileru Project at Mothugudem and Palair are also functioning with an installed capacity of 460 m.w. and 2 m.w. is situated at Donkarai respectively. The other power station with an installed capacity of 25 m.w. is situated in Donkarai. The length of different transmission and distribution lines is as follows for the year 1997-98.

Table (m)

Length of differnt transmission and distribution lines, 1997-98

Sl.No.	Voltage of lines	Unit & Length
1	220 K.V.	533 Kms.
2	132 K.V.	385 Kms.

Source: *Brief Note by Chief Planning Officer, Khammam District.*

Fisheries :

Khammam is potentially rich in undertaking Fisheries activities as Godavari river flows 180 Kms., in the district. In Inland Fish production this district is one among the top ten districts in the State. The fish production during the year 1998-99 was recorded 3,599 tonnes. In Khammam district, 299 Departmental Tanks with an ayacut above 100 acres and 2 Reservoirs are existing under the control of Fisheries Department, while 37,854 Tanks are available in the rural areas and most of the yield getting from these tanks by the Fishermen. The fishermen population of the district is about 50,000 out of which 15,000 are active fishermen and totally depending on fishing as their livelihood. There are 161 fishermen Co-operative Societies registered so far and most of the societies are working satisfactorily. Preference is given to the communities like SC, ST, BC etc., basing on their skill in fishing activities.

Table (o)

Number of Departmental Tanks/ Reserviors disposed during - 2000

Sl.No.	Total No.of Dept. Tanks/Reserviors	No. of Dept.Tanks/ Reserviors disposed	Amount released (in Rs.)	No. of Tanks dried up
1	299 Tanks	174	632,450	92
2.	2 Reserviors	1	112,500	--

Source: *Chief Planning Officer, Khammam District.*

In this district, 2 Fish Seed Farms are existing under the control of Fisheries Department one at Wyra and another at Kinnerasani Project of Palwancha Mandal. The Fish Seed Farm, Wyra was established in an extent of 2.95 acres with 0.38 acres of Nursing area and the Kinnerasani Fish seed farm is an extent of 13.50 acres with 0.32 acres of nursing area. The fish seed farm at Wyra is a production farm and the fish seed farm at Kinnerasani project is a rearing farm.

During the year 1994-95 an amount of Rs.l,136,215/- was provided to 5 fishermen co-operative societies and in 1996-97 an amount of Rs.579,807/- was provided to 4 Fishermen Co-operative Societies towards loans to take up fish

culture.

Under the scheme of exgratia, the legal heir of the deceased fisherman family is being paid an amount of Rs.35,000/- when dead while fishing. It reveals that the necessary welfare schemes are also being introduced for the welfare of fishermen in the district by the department.

Industries :

Few large and medium scale industries are found in the district. They have been providing large scale employment to the technical persons in the district. According to Statistical Abstract, 2000, Khammam has registered 243 factories under Sections 2 m(i) and 2 m (ii) with an amount of 59,694 lakhs as fixed capital and 29,043 lakhs of working capital , 88,737 lakhs of productive capital during the year 1997-98. These factories provided employment for 11,771 regular employees and 9,555 workers with the payment of Rs. 4,379/- lakhs and Rs. 2,779/- lakhs respectively during the 1997-98.

The following Table shows the large and medium scale industries functioning in the district.

(iv) Major Social and Cultural events, natural and administrative developments and significant activities during the decade

During the decade 1991-2001 no significant social and cultural events have occurred in the district except Godavari Pushkaralu in 1991 which occur once in 12 years. Elaborate arrangements were made all along river side of Godavari in the district and lakhs of devotees have taken holy dip in the river. Further, celebration of Seetharama Kalyanam on Sree Rama Navami, every year, at Bhadrachalam town is famous all over India. Several devotees and important personalities from different parts of the country attend this festival at Bhadrachalam town in the district. In respect of administrative developments three urban areas viz., Madhira, Mothugudem and Sathupalle degraded and attained rural status while the rural areas Sarapaka and Chatakonda declared as Census Towns in the district during the decade.

In the year 1996 under the Chairmanship of the District Collector the 'Bala Karmika Vikasa Samithi' has constituted. The main aims and objectives of the samithi are conducting surveys on vulnerable child labourers in hazardous occupations, creating awareness among the public about the steps taken by the Government to eliminate child labour, implementing programmes like creating public awareness, running special schools, imparting non-formal education and generating income and employment opportunities, etc.

The social security schemes such as payment of pensions to the aged, widows, landless agricultural workers and physically handicapped persons are implemented in the district.

During the decade, as in the other districts, a novel scheme called "Janmabhoomi" has been launched on the new year's day 1997 by the Government of Andhra Pradesh. This adds new dimension particularly in rural development in the sense that people are involved in decision making and development process. The main activities taken up under this programme are aimed at achieving the basic needs of the people belonging to both rural and urban through "Sramadanam" with the people's partcipation.

As in the other districts, in this district also, with the inspiration of Janmabhoomi programme, 'Spandana' another novel scheme totally envisaged by the district administration for the overall development of villages has been taken up with the aims of

1. Education for all
2. Family planning programmes
3. Usage of Bio-gas plants / Smokeless chullas to prevent air pollution
4. Clean village concept

Yet another novel programme envisaged by the district administration for benefitting the physically handicapped in the district is called 'Cheyutha'. All the government officials connected with the physically handicapped will sit under one roof and do the needful to the handicapped then and there. The benefits such as issue of physically handicapped certificate by the medical board, RTC passes, railway passes, registration in employment exchanges, etc., were extended besides giving aids and appliances to the identified handicapped persons.

(v) Brief description of places of religious, historical or archaeological importance in villages and places of tourist interest in the towns of the district

Places of Religious, Historical or Archeological importance :

Places of religious institutions (temple), mutt and historical or archeological importance in the district are presented in the following statement.

Places of Religious, Historical or Archeological Importance

Sl.No.	Name of Mandal	Name of Village/Town	Name of Monument/Temple/Mutt
1	2	3	4
1	Garla	Garla	Stone circles [Megalithic burials- Pre-Historic times]
2	Kothagudem	Karukonda	Buddhist and Andhra Sites
3	Palwancha	Palwancha	Cairns [belonging to 1st to3rd century. [Megalithic burials- Pre-Historic times]
4	Chandrugonda	Annapureddipalle	1.Sri Balaji Venkateswara Swamy 2.Sri Venkateswara Swamy
5	Yerrupalem	Jamalapuram	Sri Venkateswara Devasthanam
6	Madhira	Madhira	Flakes, Cores and other stone implements [Neolithic Implements-pre-historic times]
7	Khammam	Khammam	1.Sri Venkateswara Swamy temple 2.Fort [Hindu fort of 11th century] 3.Stone Circle [Megalithic burials- Pre-Historic times]
8	Kusumanchi	Jeelacheruvu	Sri Venkateswara Swamy Temple

Source : *Khammam DCHB, 1981.*

Tourist Places in the district :

Bhadrachalam Town (Bhadrachalam Mandal) :

Bhadrachalam is known for the temple Sri Rama. The name Bhadrachalam is derived from a rock where a saint said to have performed penance. It was built on the bank of the river Godavari, about 160 kms. from Rajhamundry and 39 kms. from Bhadrachalam Road-railway station. One can also reach this place by launch from Rajahmundry. Bhadrachalam is considered holy spot since Lord Rama was supposed to have lived here for some time. The temple is said to have been constructed on the very spot where Rama crossed Godavari on his expedition to Lanka [Sri Lanka].

The mandapam, which is a flat -roofed building, stands in-front of the temple and is approached by steps from the river. An annual festival is held here on the occasion of "Sri Rama Navami" day which is attended by 2 to 3 lakhs pilgrims from all over the country. The APSRTC is plying special buses on this day for the convenience of the pilgrims to reach the destination. It is said, that Ramadas, who was a Revenue Officer under Abul Hassan Tani Shah, the last of the Qutub Shahi Kings, spent Rs. 6 lakhs of public fund in his care towards building the temple. It is believed that when he was punished for this under the act, God Rama himself along with his brother Lakshmana came down in human guise and paid back

the amount. The place, surrounded by thick forests, and the river Godavari flowing on one side, affords a delightful scenery to the tourists and is one of the most important tourist centres in the State.

Kothagudem Town (Kothagudem Mandal) :

Kothagudem town is situated at a distance of 39 kms. from Bhadrachalam and 93 kms. from Khammam. It is the centre of activity for the Singareni Colleries Administration and many of its offices are located here. Pilgrims and others bound to Bhadrachalam have to alight here and travel by bus. Thermal power station is also located here and the industrial activity of the town attracts a large number of people from all parts of the State.

Parnasala Village (Dummugudem Mandal) :

Parnasala is situated on the left bank of the Godavari river at a distance of 35 kms. from Bhadrachalam on the Bhadrachalam-Venkatapuram (via. Cherla) bus route. This place can also be reached by launch from Bhadrachalam. Parnasala is a noted pilgrim centre as Sri Rama stayed here along with Sita and Lakshmana towards the end of his exile in Dandakaranya. Parnasala draws congregation by lakhs of devotees during Sri Rama Navami festival.

Kunavaram Village (Kunavaram Mandal) :

Kunavaram village which stands at the confluence of the Sabari and the Godavari rivers, is an important point for river borne trade as it lies beyond the ghats and the un-bridged Sabari. Kunavaram is a holy place for Hindus and they have a holy dip at the confluence on auspicious occasions.

Ravigudem Village (Burgampahad Mandal) :

It is situated on the right bank of the river Godavari. It is noted for the temple of Kedareswara and Bhuvaneswara, the lingams[Phalic emblems], which are believed to be consecrated by the sage Agastya. This village is also one of the pilgrim centres in the district and attracts large number of devotees during "Mahasivarathri" festival which falls in February/March every year.

Yanambailu Village (Palwancha Mandal) :

This village lies at a distance of 11 kms. from Palwancha. The Kinnerasani project at this place is designed mainly to supply water to Kothagudem thermal station and to irrigate 4,047 hectares of land. The natural environment and project site presents a beautiful scenery with the special attraction of the beautiful Government Guest House to the visitors.

Singareni Village (Singareni Mandal) :

This village assumed importance due to the location of Singareni Colleries in which coal is mined in large quantities and supplied mainly to the Railways.

Khammam Town (Khammam Mandal) :

Khammam town is the headquarters of the district, the revenue division and the mandal of the same name. It is at a distance of 205 kms. from Hyderabad on the Hyderabad-Vijayawada section of South Central railway. The most important structure in the town is the massive fort constructed on the hill known as "Stambhadri". The stones from the hill are tall like pillars, and are capable of supporting the ceilings of temples and Mandapas. The town got the name "Stambhadri" due to the "Stambhams" [supporting Pillars] made out of hill. Stambhadri is also known as "Khammamett" in Telugu and subsequently changed to Khammam. River Muner flows by the side of the town and has a legendary association with sage Moudgalya, who is said to have performed penance on the hill and his stone image is found in the temple of Lakshminarasimha. The important places of Hindu worship are the shrines of "Stambhadri" and Lakshminarasimha Swami which are ancient ones. There are two ponds, one at the foot of the hill and the other on the top of it. The latter is so big that it banks appear as two hills and provide shelter to huge aquatic animals. The kalyanotsavam of Lakshminarasimha Swami is celebrated for five days during April-May and is attended by thousands of devotees from the neighbouring districts.

Nelakondapalle (Nelakondapalle Mandal) :

It is situated at a distance of 23 kms. from Khammam. This village was the birth place of Kancherla Gopanna alias Ramadas who constructed the temple of Sri Rama at Bhadrachalam. The existence of the places known as Viratarajadibba and Kichakagudem at a distance of nearly 2 kms. from the village, highlights the importance of the village during the days of Mahabharata. The old relics include the unearthed coins in an area within a radius of 16 kms. The relics of the cow-sheds of Sahadeva and the horse stables of Nakula traced in Gunalagudem confirms the above facts.

(vi) Major characteristics of the district, contribution of the district in the form of any historical figure associated with the district

Khammam district was carved out on 1st October 1953 and by bifurcating it from Warangal district . Its name derived by its headquarters town Khammam remained unaffected in its territorial jurisdiction for 6 years. In November 1959 Bhadrachalam taluk and Nugur independent sub-taluk were transferred from East Godavari district. As usual this district finally become a part of Andhra Pradesh under scheme of reorganization of state in 1956.

A well known Ramabhaktha Kancherla Gopanna, who constructed Ramalayam at Bhadrachalam was born at Bhugiri known as Nelakondapalle in the district. He constructed the temple with the amount collected as a revenue without depositing it with the then ruler. For this, he was sent to prison for several years and it was known that Lord Rama appeared in dream to the king Thanisha and repaid the amount spent by sri Gopanna. Sri Gopanna was also popularly known as "Bhaktha Ramadas".

Though the district has not produced major historical figures, except Sri Adiraju Veerabhadra Rao historian researcher who born in 1887 in Dendukuru village of Madhira taluk.He has worked as Librarian of age old Krishna Devaraya Grandhalayam in Hyderabad. He made several researches on inscription on Telangana, old age Towns etc and also wrote several books. Another important person who hails from this district was Dhasharathi Krishnama Chari, most popularly known as 'Dasharathi'. He born in Gudur of Manukota taluk in 1927 was jailed for one year for participating in Telanagana freedom fight in 1947. He was a great writer in Telugu. He is also scholar in Sanskrit, Urdu and English. He has written several songs for many Telugu Cinemas.

This district is most famous for coal mines. The Singareni Collories is undertaking mining work for the past 100 years. Bhadrachalam, one of the most important centres, attracts thousands of devotees from all over India particularly on Sree Rama Navami and Vaikunta Ekadasi.

The district is endowed with natural scenery all along with River Godavari and some of the historical aspects are in the fore front. Here we find a fort at Khammam. Though local language in the district is Telugu, we find difference of dialect i.e. Telanagana dialect in some parts and Andhra dialect in some parts which have transferred from East Godavari district.

(vii) Census Concepts

Population census is a great national task, which we are called upon to undertake for every ten years. In India, the 1872 marked as the beginning of modern census taking, when it was conducted at different points of time in different parts of the country. From 1881 onwards a complete and synchronous census was held. The present Census is a land mark administrative event, as this has generated a historic bench mark data to shed light on the state of nation's society and other demographic, economic and socio-cultural data which simultaneously makes transition from one century and millennium to the next. The 2001 Census was the 14th decennial Census of India and the 6th after independence.

The Census of India was conducted in two phases namely, I) House-listing Operations II) Population Enumeration. The first phase was conducted during April-June,2000 in different States/Union territories depending upon their local conditions. In Andhra Pradesh it was conducted from 11th May to 5th June 2000. The house-listing operations provide a base for the population enumeration, besides providing comprehensive database for assessing condition of human settlements, the housing deficit and future housing requirement for formulation of housing policies. This also provides a massive data on amenities available to the households which was much needed by various departments of the Central and State Governments and other Non-Governmental agencies, for planning and development in different sectors of the economy. Hence house-listing operation is a pre-requisite for population enumeration.

Unlike 1991 census, there are significant changes in house-listing schedule for 2001 census. The questions on condition of the census house, number of married couples living in the household and having independent room for sleeping, bathroom and kitchen within the house and using the means of entertainment and communication facility of radio, transistor, television, telephone and possessing of means of transport like bicycle, scooter/motor cycle, car/jeep/ van and availing of banking services by the household are added to the present house-list schedule.

The main population enumeration was conducted from 9th February to 28th February, 2001, followed by revisional round from 1st March, 2001 to 5th March, 2001, to update the data with reference to 00.00 hours of 1st March, 2001. The houseless population was enumerated at midnight of 28th February 2001.

The household schedule and individual slip of 1991 census were replaced by household schedule of A3 size containing three parts to collect the information from each household at 2001 Census. In the present Census, the house-hold schedule is designed in such a way to suit the requirement of capturing the data through scanners. At the 2001 Census, for the first time Image-based data capturing technology through scanners and computer network has been introduced with a view to provide error free data by avoiding keying in of data.

The house-hold schedule broadly covered the individual particulars under four major headings 1) General and Socio cultural characteristics (Q(1 to 15), 2) Characteristics of workers and non-workers 3) Migration characteristics (Q.21 to 22)and 4) Fertility particulars (Q.23). Part-I deals with location code particulars, Part-II relates to Individual particulars with 23 questions, consisting of 1 to 39 columns, Part-III covers on cultivation/plantation particulars like land possessed, type of tenancy enjoyed by the household/ household member. Some additional questions 1) on disability, 2) Particulars relating to travel to the place of work a) distance from residence to place of work, b) mode of travel to the place of work, 3) household engaged in cultivation/plantations are added in the present household schedule.

Marital status, mother tongue, religion and literacy status (for 7 and above) migration, fertility particulars

and the identification of SC/ST are repeated but the age at marriage is also ascertained for males at 2001 Census. For the people, who are attending educational institutions, a separate code has been provided to record the Vocational institute, other institute and literacy centre in addition to school/ college.

Criteria for enumeration of persons in a particular household

a) All those who normally reside and are present in that household during the entire period of enumeration from 9th February to 28th February, 2001, b) also those who are known to be normally residing and had actually stayed during a part of the enumeration period (Feb.9th to 28th Feb.2001) in the household but are not present at the time of enumerator's visit, c) also those who were known to be normally residing and are not present at the time of enumerators visit but are expected to return before 28th Feburary,2001 and d) Visitors who are present in the household censused and are away from the place of their usual residence during the entire enumeration period. For the purpose of enumeration, such visitor will be treated as normal resident of the household in which they are actually found during the enumeration period provided that they have not been enumerated elsewhere. One of the essential features of population enumeration in the second phase is each person enumerated and her/his individual particulars are collected at a well defined point of time.

Location Code Number

The procedure of assigning location code number in a zigzag manner starting from North-west corner and ending at South-east corner, is adopted for 2001 Census. The Andhra Pradesh state was assigned Location Code No.28 as against 02 in 1991 census. In a similar fashion, the location code numbers of the districts in Andhra Pradesh state have been changed and revised location code numbers were allotted in order of geographical contiguity, beginning from North-West point of the state and ending at the South East point. Thus the Adilabad district has been assigned Location Code No. as 01 and Chittoor district Location Code No. 23 at 2001 Census. Accordingly, the location code numbers of mandals in each district have been changed for 2001 census.

An important change at 2001 census is allotment of permanent location code numbers to all the villages in the state. Since the whole data ie., Village and Town Directory information is also being computerized, the allotment of permanent location code numbers would facilitate the data users for easy access and retrieval the data of a particular village at micro level by the click of a mouse. The Permanent Location Code Number (P.L.C. No.) is an eight digit number starting with 00000100 in a zig-zag fashion from North-West corner in the first Mandal of Adilabad district and run continuously for all the districts while ending South-East corner to the extent possible at last village in the last Mandal of Chittoor district. Since this State has 28,123 villages at 2001 census, last village of last mandal in Chittoor district will have PLC No.02812300. A significant provision has been made to allot PLC Nos. to newly created villages if any in future. The last two digits of PLC No's are kept as '00' only to provide for additional villages. For example a new village has been created after PLC.No.001231400 it will be assigned PLC No. as 001231401. Further, it is indicated that there is a provision for a minimum of 99 villages adjoining to a particular village allotting Permanent Location Code.

For urban areas also location code structure has been changed in a minimum way. Earlier, for towns in a district location code numbers were given roman letters in alphabetical order. This time, while assigning roman numbers instead of going to alphabetic order, location code numbers were given from North-West part of the district ending at South-East of the district to the extent possible.

Therefore, the PLC numbers of the villages and location codes of urban areas have under gone change in Census of India, 2001 as compared to 1991. In case an urban area is spread over in two districts, the location code of urban areas in both the districts will be the same irrespective of zigzag manner.

Building

A 'Building' is generally a single structure on the ground. Sometimes it is made up of more than component unit which are used or likely to be used as dwellings(residences)or

establishments such as shops, business houses, offices, factories, workshops, worksheds, Schools, places of entertainment, places of worship, godowns, stores etc. It is also possible that building which have component units may be used for a combination of purposes such as shop-cum-residence,workshop-cum-residence,office-cum-residence,etc.. Usually a structure will have four walls and a roof. But in some areas the very nature of construction of houses is such that there may not be any wall. Such is the case of conical structures where entrance is also provided but they may not have any walls. Therefore, such of the conical structures are also treated as separate buildings.

Permanent houses

Houses, the walls and roof of which are made of permanent materials. The material of walls can be any one from the following, namely, galvanized iron sheets or other metal sheets, asbestos sheets, burnt bricks, stones or concrete. Roof may be made of from any one of the following materials, namely, tiles, slate, galvanized iron sheets, metal sheets, asbestos sheets, bricks, stones or concrete.

Semi-permanent houses

Houses in which either the wall or the roof is made of permanent material and the other is made of temporary material.

Temporary houses

Houses in which both walls and roof are made of materials, which have to be replaced frequently. Walls may be made from any one of the following temporary materials, namely, grass, thatch, bamboo, plastic, polythene, mud, unburnt bricks or wood. Roof may be made from any one of the following temporary materials, namely, grass, thatch, bamboo, wood, mud, plastic or polythene.

Dwelling Room

A room is treated as a dwelling room if it has walls with a doorway and a roof and should be wide and long enough for a person to sleep in, i.e. it should have a length of not less than 2 meters and a breadth of at least 1.5 meters and a height of 2 meters. A dwelling room would include living room, bedroom, dining room, drawing room, study room, servant's room and other habitable rooms. Kitchen, bathroom, latrine, store room, passageway and verandah which are not normally usable for living are not considered as dwelling rooms. A room, used for multipurpose such as sleeping, sitting, dining, storing, cooking, etc., is regarded as a dwelling room. In a situation where a census houses is used as a shop or office., etc., and the household also stays in it then the room is not considered as a dwelling room. But if a garage or servant quarter is used by a servant and if she/ he also lives in it as a separate household then this has been considered as a dwelling room available to the servant's household. Tent or conical shaped hut if used for living by any household is also considered as dwelling room. A dwelling room, which is shared by more than one household, has not been counted for any of them. If two households have a dwelling room each but in addition also share a common dwelling room, then the common room has not been counted for either of the households.

Census house

A `census house' is a building or part of a building used or recognised as a separate unit because of having a separate main entrance from the road or common courtyard or staircase, etc. It may be occupied or vacant. It may be used for residential or non- residential purpose or both. In certain peculiar situations, the manner in which buildings and census houses were identified for numbering in the field by the enumerators is described hereunder: Sometimes a series of different buildings are found along a street which are joined with one another by common walls on either side looking like a continuous structure. These different units are practically independent of one another and are likely to have been built at different times and owned by different persons. In such cases, though the whole structure with all the adjoining units apparently appears to be one building, each portion was treated as a separate building and its constituent units as separate census houses. On the other hand, one may come across cases, particularly in large cities of multi-storeyed ownership flats. In these cases while the structure looks like one building, different persons own the flats. In case of such multi-storeyed structures, having a number of flats owned by different persons, the entire structure was treated as one building and each flat

as a separate census house. If within a large enclosed area, there are separate buildings owned by different persons then each such building is treated as a separate building. There can be a situation where within an enclosed compound there are separate buildings owned by an undertaking or company or even government that are actually in occupation of different persons. For example, Indian Oil Corporation colony where the buildings are owned by the Corporation but these are in occupation of their employees. Each such building was treated as a separate building. But if in any one of these buildings there were flats in occupation of different households, each such flat was reckoned as a separate census house. Sometimes if becomes difficult to apply the definition of census house strictly in certain cases. For example, in an urban area, if a flat has five rooms, each room having direct entrance from the common staircase or courtyard. By definition, this has to be treated as five census houses. If all these five rooms are occupied by a single household it was not realistic to treat them as five census houses. In such a case,`singleness' of use of these rooms along with the main house should be considered and the entire flat was treated as one census house. On the other hand, if two independent households occupy these five rooms, the first household living in 3 rooms and the second household occupying 2 rooms, then considering the use, the first three rooms together were treated as one census house and the remaining rooms as another census house. But if each room was occupied by an independent household, then each such room was treated as a separate census house. In case of hostels, hotels, etc., even if the door of each room in which an inmate lives opens to a common verandah, staircase, courtyard or a common room, as it happens almost invariably, the entire hostel/ Hotel building was treated as one census house. but if such hostels/ hotels have out- houses or other structures used for different purposes or the same purpose, then each such structure attached to the main hostel / hotel was treated as a separate census house. In some parts of the country, in rural areas, the pattern of habitation is such that a group of huts, located in a compound, whether enclosed or unenclosed, is occupied by one household. While the main residence may be located in one hut, other huts may be used for sleeping, as a kitchen, bath room, baithak, etc. Though each of the huts was a separates structure, they form a single housing unit and therefore, have to be treated collectively as one building and one census house. If some of the huts are used by one household and the others by a second household as residence, then the two groups of huts were treated as separate census houses. However, if there were also other huts in the compound used for other purposes and not as part of the household's residence such as, cattle shed, workshed, etc., these were treated as separate census houses. On the other hand, in urban areas, where more than one structure within an enclosed or open compound (premises) belonging to the same person, e.g., the main house, the servant's quarter, the garage, etc., only one building number was given for this group and each of the constituent a separate census house number. Only cases where a structure with roof and pillars has come up was treated as a building.

Village

The basic unit for rural areas is the revenue village which has definite surveyed boundaries. The revenue village may comprise of one or more hamlets but the entire village is treated as one unit for presentation of data. In un-surveyed areas, like villages within forest areas, each habitation area with locally recognized boundaries is treated as one village.

Rural - Urban area

The data in tables on Houses, Household Amenities and Assets are presented separately for rural and urban areas. The unit of classification in this regard is `town' for urban areas and `village' for rural areas. In the Census of India 2001, the definition of urban area adopted is as follows:

(a) All places with a municipality, corporation, cantonment board or notified town area committee, etc.

(b) A place satisfying the following three criteria simultaneously:

i) A minimum population of 5,000; ii) At least 75 per cent of the male working population engaged in non agricultural pursuits ; and iii) A density of population of at least 400 per sq. km. (1,000 per square mile). For identification of places which would qualify to be classified as 'urban' all villages, which,

as per the 1991 Census had a population of 4,000 and above, a population density of 400 persons per sq. km. and having at least 75 per cent of male working population engaged in non-agricultural activity were considered. To work out the proportion of male working population referred to above against b) (ii), the data relating to main workers were taken into account. Apart from these, the outgrowths(OGs) of cities and towns have also been treated as urban under 'Urban Agglomerations'. Examples of out-growths are railway colonies, university campuses, port areas, military camps, etc., that may have come up near a statutory town or city but within the revenue limits of a village or villages contiguous to the town or city. Each such individual area by itself may not satisfy the demographic criteria laid down at (b) above to qualify it to be treated as an independent urban unit but may deserve to be clubbed with the towns as a continuous urban spread. Thus, the town level data, wherever presented, also includes the data for outgrowths of such towns.

City

Towns with population of 1,00,000 and above are called cities.

Urban Agglomeration

An Urban Agglomeration is a continuous urban spread constituting a town and its adjoining urban outgrowths (OGs) or two or more physically contiguous towns together and any adjoining urban outgrowths of such towns. In some cases railway colonies, university campuses, port areas, etc., may come up near a city or statutory town outside its statutory limits but within the revenue limits of a village or villages contiguous to the town or city. Each such individual area by itself may not satisfy the minimum population limit to qualify it to be treated as an independent urban unit but may deserve to be clubbed with the town as a continuous urban spread.For the purpose of delineation of Urban Agglomerations during Census of India 2001, following criteria are taken as pre-requisites:(a) The core town or at least one of the constituent towns of an urban agglomeration should necessarily be a statutory town ; and(b) The total population of all the constituents (i.e., towns and outgrowths) of an Urban Agglomeration should not be less than 20,000 (as per the 1991 Census). With these two basic criteria having been met, the following are the possible different situations in which Urban Agglomerations would be constituted: i) a city or town with one or more contiguous outgrowths; ii) two or more adjoining towns with their outgrowths; and iii) a city and one or more adjoining towns with their outgrowths all of which form a continuous spread.

Household

A 'household' is usually a group of persons who normally live together and take their meals from a common kitchen unless the exigencies of work prevent any of them from doing so. Persons in a household may be related or unrelated or a mix of both. However, if a group of unrelated persons live in a census house but do not take their meals from the common kitchen, then they are not constituent of a common household. Each such person was to be treated as a separate household. The important link in finding out whether it was a household or not was a common kitchen. There may be one member households, two member households or multi-member households.

Institutional household

A group of unrelated persons who live in an institution and take their meals from a common kitchen is called an Institutional Household. Examples of Institutional Households are boarding houses, messes, hostels, hotels, rescue homes, jails, ashrams, orphanages, etc. To make the definition more clearly perceptible to the enumerators at the Census 2001, it was specifically mentioned that this category or households would cover only those households where a group of unrelated persons live in an institution and share a common kitchen.

Houseless household

Households who do not live in buildings or census houses but live in the open on roadside, pavements, in hume pipes, under fly-overs and staircases, or in the open in places of worship, mandaps, railway platforms, etc., are treated as Houseless Households.

Scheduled Caste and Scheduled Tribe

Article 341 of the Constitution provides that the President may, with respect to any State or Union

territory, specify the castes, races or tribes or parts of or groups within castes, races or tribes which shall for the purposes of the Constitution be deemed to be Scheduled Castes in relation to that State or Union territory. Article 342 similarly provides for specification of tribes or tribal communities or parts of or groups within tribes or tribal communities which are to be deemed for the purposes of the Constitution to be Scheduled Tribes in relation to the various States and Union territories. In pursuance of these provisions, the list of Scheduled Castes and / or Scheduled Tribes are notified for each State and Union territory and are valid only within the jurisdiction of that State or Union territory and not outside.It is important to mention here that under the Constitution (Scheduled Castes) Order, 1950, no person who professed a religion different from Hinduism was deemed to be a member of a Scheduled Caste in addition to every member of the Ramdasi, Kabirpanthi, Majhabi or Sikligar caste resident in Punjab or Patiala and East Punjab States Union were in relation to that State whether they professed the Hindu or the Sikh religion. Subsequently, in September 1956, by an amendment, the Presidential Order of 1950 and in all subsequent Presidential Orders relating to Scheduled Castes, the Hindu and the Sikh religions were placed on the same footing with regard to the specification of Scheduled Castes. Later on, as per the amendment made in the Constitution (Scheduled Castes) Order 1990, the Hindu, the Sikh and the Buddhist were placed on the same footing with regard to the recognition of the Scheduled Castes. The lists containing the names of the Scheduled Castes and the Scheduled Tribes applicable for the Census of India 2001 in the State/ Union territory are given below:

List of Scheduled castes in Andhra pradesh

1. Adi Andhra
2. Adi Dravida
3. Anamuk
4. Aray Mala

22. Mukha Dora, Nooka Dhora
23. Nayaks(in theAgency tracts)*
24. Pardhan
25. Porja, Parangiperja
26. Reddi Dhoras
27. Rona, Rena
28. Savaras, Kapu Savaras, Maliya Savaras, Khutto Savaras
29. Sugalis, Lambadis
30. Thoti(In Adilabad, Hyderabad, Karimnagar, Khammam, Mahbubnagar, Medak, Nalgonda, Nizamabad and Warangal Districts)
31. Valmiki (in the Agency tracts)*
32. Yenadis
33. Yerukulas

Language and Mother tongue

As per the census concept, each language is a group of mother tongues. The census questionnaire collects information on the mother tongue of each person and mother tongue is defined as the language spoken in childhood by the person's mother to the person. If the mother died in infancy, the language mainly spoken in the person's home in childhood will be the mother tongue. In the case of infants and deaf mutes, the language usually spoken by the mother is considered as mother tongue. It is not necessary that the language spoken as mother tongue should have a script. The mother tongues returned by the respondents in census are classified and grouped under

** The agency tracts is comprised of Srikakulam, Vizianagaram, Visakhapatnam, East-Godavari, West-Godavari and Khammam districts.*

appropriate languages according to their linguistic characteristics.

Literate

A person aged 7 years and above who can both read and write with understanding in any language is taken as literate. A person who can only read but cannot write is not literate. It is not necessary that to be considered as literate, a person should have received any formal education or passed any minimum educational standard. Literacy could also have been achieved through adult literacy classes or through any non-formal educational system. People who are blind and can read in Braille are treated as literates.

Literacy rate

Literacy rate of the population is defined as the percentage of literates in the age group seven years and above. For different age groups the percentage of literates in that age group gives the literacy rate.

Educational level

The highest level of education a person has completed.

Work

Work is defined as participation in any economically productive activity with or without compensation, wages or profit. Such participation may be physical and/or mental in nature. Work involves not only actual work but also includes effective supervision and direction of work. It even includes part time help or unpaid work on farm, family enterprise or in any other economic activity. All persons engaged in 'work' as defined above are workers. Persons who are engaged in cultivation or milk production even solely for domestic consumption are also treated as workers. Reference period for determining a person as worker and non-worker is one year preceding the date of enumeration.

Main worker

A person who has worked for major part of the reference period (i.e. six months or more during the last one year preceding the date of enumeration) in any economically productive activity is termed as `Main worker'.

Marginal worker

A person who worked for less than six months of the reference period (i.e. in the last one year preceding the date of enumeration) in any economic activity is termed as `Marginal worker'.

Non worker

A person who has not worked at all in any economically productive activity during the reference period (i.e. last one year preceding the date of enumeration) is termed as `Non worker'.

Cultivator

For purposes of the Census a person is classified as cultivator if he or she is engaged in cultivation on land owned or held from government or held from private persons or institutions for payment in money, kind or share. Cultivation includes effective supervision or direction in cultivation. A person who has given out her/his land to another person or persons or institution(s) for cultivation for money, kind or share of crop and who does not even supervise or direct cultivation in exchange of land, is not treated as cultivator. Similarly, a person working on another person's land for wages in cash or kind or a combination of both (agricultural labourer) is not treated as cultivator. Cultivation involves ploughing, sowing, harvesting and production of cereals and millet crops such as wheat, paddy, jowar, bajra, ragi, etc., and other crops such as sugarcane, tobacco, ground-nuts, tapioca, etc., and pulses, raw jute and kindred fibre crop, cotton, cinchona and other medicinal plants, fruit growing, vegetable growing or keeping orchards or groves, etc. Cultivation does not include the following plantation crops - tea, coffee, rubber, coconut and betel-nuts (areca).

Agricultural labourer

A person who works on another person's land for wages in money or kind or share is regarded as an agricultural labourer. She/he has no risk in the cultivation, but merely works on another person's land for wages. An agricultural labourer has no right of lease or contract on land on which she/he works.

Household industry worker

Household industry is defined as an industry conducted by the head of the household herself/

himself and or by the members of the household at home or within the village in rural areas and only within the precincts of the house where the household lives in urban areas. The larger proportion of workers in household industry should consist of members of the household including the head. The industry should not be run on the scale of a registered factory which would qualify or has to be registered under the Indian Factories Act and should be engaged in manufacturing, processing, servicing and repairs of goods. It does not include professions such as a pleader, Doctor, Musician, Dancer, Waterman, Astrologer, Dhobi, Barber, etc. or merely trade or business, even if such professions, trade or services are run at home by members of the household.

Other worker

A person who has been engaged in some economic activity during the reference period but not as a cultivator or agricultural labourer or in Household Industry is termed as a 'Other Worker (OW)'. The type of workers that come under this category of 'OW' include all government servants, municipal employees, teachers, factory workers, plantation workers, those engaged in trade, commerce, business, transport, banking, mining, construction, political or social work, priests, entertainment artists, etc. In effect, all those workers other than cultivators or agricultural labourers or household industry workers, are 'Other Workers'.

Work participation rate

Percentage of workers (main + marginal) to total population.

Population density

Population density is the number of persons inhabited per square kilometre of the area.

Age

Age is measured in terms of the completed number of years.

Sex -ratio

Number of females per 1000 males in a population.

(viii) Non Census Concepts

Improved drinking water :

If the household had access to drinking water supplied from a tap, hand pump, tube well or well (protected or covered) situated within or outside the premises, it is considered as having access to improved drinking water. It may be mentioned that such uniform definition may not be valid across all states.

System of sewerage :

Generally, a sewerage system would mean a network of mains and branches of underground conduits for the conveyance of sewerage to the point of disposal. Sewers that carry only household and industrial wastage are called separate sewers; those that carry storm water from roofs, streets and other surfaces are known as storm water drains, while those carrying both sewage and storm water are called combined sewers. However, in some towns which are not provided with such underground sewerage system, it is served by open surface drain, box drain, sylk pattern drain, etc., in these towns.

Type of latrine and Method of disposal of night soil :

There are three prevalent systems of disposal of human wastes, viz.(i) underground sewerage, (ii) sanitary water flush latrines with individual disposal systems, like septic tank, leaching cess pool and collecting well, and (iii) dry type of latrines with manual scavenging. The system of underground sewerage provides for the street sewerage with which are connected the sanitary latrines constructed in the houses having water closets and fitted with flushing cistern (or hand flushing). Through this sewer the faecal matter is transported without the need for scavenging. This system generally exists in cities and big towns. Where the streets sewer does not exist these sanitary water flush latrines are connected to a local septic tank with a sub-soil dispersion system or a leaching pit. Here the liquid wastes from the water closet is disposed of locally in leaching pit, a septic tank with a soil dispersion system is constructed. This dispersion requires an optimum travel through the pores of the soil which renders the harmful liquid bacterially innocuous by the slow process of filtration through the soil traversed. Where the soil is impermeable, collecting wells are constructed and the sanitary water flush latrines are connected with them. These wells are cleaned at periodic intervals by a suitable device. The dry type of latrines are of service type latrines from where human excreta is removed by scavengers from house to house, in most cases carrying it on their heads or shoulders or in baskets with handle or wheel barrows. These are then collected in bullock carts or trucks or tractors and trolleys for being carried to the dumping grounds.

Fertility :

In demography, the word fertility is used in relation to the actual production of children or occurrence of births specially live births. Fertility is a measure of rate at which population adds to itself by births and normally assessed by relating the number of births to a full or part of the population, such as number of married women or number of women of child bearing age. The definitions of the terminology used in computing different fertility rates are mentioned below:

Crude birth rate(CBR) :

Ratio of the number of live births in a year to the mid year population, normally expressed per 1000 population.

$$CBR = \frac{\text{Number of live births during the year}}{\text{Mid –year Population}} \times 1000$$

Crude death rate(CDR)

Ratio of the number of deaths in a year to the mid year population, normally expressed per 1000 population.

$$CDR = \frac{\text{Number of deaths during the year}}{\text{Mid- year Population}} \times 1000$$

Natural growth rate :

Growth rate is obtained as the difference between crude birth rate and crude death rate in the absence of migration.

Age specific fertility rate (ASFR) :

Number of live births in a year to female population in any specified age group normally expressed per 1000 women.

$$ASFR = \frac{\text{Number of live births in a particular age-group}}{\text{Mid-year female population of the same age-group}} \times 1000$$

Age specific marital fertility rate (ASMFR) :

Number of live births in a year to married female population in any specified age group normally expressed per 1000 married women .

$$ASMFR = \frac{\text{Number of live births in a particular age-group}}{\text{Mid-year married female population of the same age-group}} \times 1000$$

General fertility rate (GFR) :

Number of live births per 1000 women in the reproductive age-group (15-49) years in a given year.

$$GFR = \frac{\text{Number of live births in a year}}{\text{Mid-year female population in the age-group (15-49) years}} \times 1000$$

General marital fertility rate (GMFR) :

Number of live births per 1000 married women in reproductive age-group (15-49) years in a given year.

$$GMFR = \frac{\text{Number of live births in a year}}{\text{Mid-year married female population in the age-group (15-49) years.}} \times 1000$$

Total fertility rate (TFR) :

It is obtained as the total of the age specific fertility rates (number of children born per woman of the particular age) for the entire reproductive age span. It provides the average number of children that will be born to a woman under the fertility levels indicated by the age specific fertility rates assuming that there is no mortality of women till the completion of reproductive period.

$$TFR = \frac{5 \times \sum_{15-19}^{45-49} ASFR}{1000}$$

Total marital fertility rate (TMFR) :

Average number of children that would be born to a married woman if she experiences the current fertility pattern throughout her reproductive span (15-49) years assuming that there is no mortality of women till the completion of reproductive period.

$$TMFR = \frac{5 \times \sum_{15-19}^{45-49} ASMFR}{1000}$$

Age-specific mortality rate (ASMR) :

Number of deaths in a particular age and sex group per 1000 population of the same age group.

$$ASMR = \frac{\text{Number of deaths in a particular age-group}}{\text{Mid-year population of the same age-group}} \times 1000$$

q1

Probability of dying between birth and age 1. This can be used as approximate value of Infant Mortality Rate (IMR) which gives the ratio of number of deaths in a year of children aged less than one year to the number of births in that year.

q2

Probability of dying between birth and age 2.

q5

Probability of dying between birth and age 5. This indicator is also known as Under Five Mortality Rate (U5MR) .

Infant mortality rate (IMR) :

Ratio of the number of infant deaths (deaths of children below one year) in a year to the number of live births in that year.

$$IMR = \frac{\text{Number of infant deaths during the year}}{\text{Number of live births during the year}} \times 1000$$

Infant mortality rate comprises of two parts, viz., Neo-natal mortality rate and Post neo-natal mortality rate. The neo-natal mortality rate also comprises of two parts viz., Early neo-natal mortality rate and late neo-natal mortality rate. These are defined as:

Neo-natal mortality rate (NMR) :

Number of infants dying within the first month of life (28 days or under) in a year per 1000 live births of the same year.

$$NMR = \frac{\text{Number of infant deaths aged 28 days or under during the year}}{\text{Number of live births during the year}} \times 1000$$

Early neo- natal mortality rate :

$$ENMR = \frac{\text{Number of infant deaths of less than 7 days During the year}}{\text{Number of live births during the year}} \times 1000$$

Late neo-natal mortality rate :

$$LNMR = \frac{\text{Number of infant deaths of 7 days to less than 29 days during the year}}{\text{Number of live births during the year}} \times 1000$$

Post neo-natal mortality rate (PNMR) :

$$PNMR = \frac{\text{Number of deaths of 29 days to less than one year during the year}}{\text{Number of live births during the year}} \times 1000$$

Peri-natal mortality rate (PMR) :

Number of still births plus deaths within 1st week of delivery per 1000 births in a year.

$$PMR = \frac{\text{Number of still births and infant deaths of less than 7 days during the year}}{\text{Number of live births and still births during the year}} \times 1000$$

Still birth rate(SBR) :

$$SBR = \frac{\text{Number of still births during the year}}{\text{Number of live births and still births during the year}} \times 1000$$

Maternal mortality rate(MMR) :

Number of deaths of women in the age group 15-49 while pregnant or within 42 days of termination of pregnancy from any cause related to pregnancy and child birth per 1,00,000 live births in a given year.

$$MMR = \frac{\text{Number of maternal deaths to women in the age group 15-49}}{\text{Number of live birth}} \times 1,00,000$$

Eligible couple (Couples per 1000 population):

Number of currently married females in the age group15-44 years per 1000 persons of all ages.

Child woman ratio (0-4) :

1. Number of children in the age group 0-4 years per 1000 women in the age group 15-49 years.

Child woman ratio (5-9) :

2. Number of children in the age group 5-9 years per 1000 women in the age group 15-49 years.

Migration :

Migration is the third component of population change, the other two being mortality and fertility. A person is considered as a migrant by place of birth if the place in which he/she is enumerated during the census is other than the place of his/her birth. Similarly a person is considered as a migrant by place of last residence if the place in which he/she is enumerated during the census is other than his/her place of immediate last residence outside the village or town and not simply in another house or locality in the same village or town. Certain aspects concerning temporary movement/migration of people has been

explained below as these are important components concerning migration :-

(i) Migration of persons in search of job is high in the country. In many cases such migrants are only seasonal in nature. People migrate to other places for work in a particular season and come back again to their usual place of residence after three or four months. All such workers are treated as migrants. Similarly, if a person moved to any other place for attending short term vocational or educational course that lasted for only few months of a year, she/he too were considered as a migrant.

(ii) Where a person had merely gone out to another place or had been shifting from one place to another purely on tour, pilgrimage, visit to hospital for treatment or for temporary business purposes, such persons are not deemed to have had another residence different from the place where she/he or her/his family normally resides. She/he is not considered as migrant.

(iii) A woman temporarily moves into a hospital or to her parents or other relative's house for delivery and if the hospital or the parents/relatives houses is in a place different from usual place of residence, the place where the hospital or parents/relative's house is the place of last residence of the child but not of the mother. A new response category 'Moved after birth' was added in Census of India 2001 in the question on 'reasons for migration' to bring out additional migration patterns. Natural calamities or distress migration as a reason for migration for last residence migrants included in 1991 Census, is covered under category of 'Others'. The reason for migration has been determined as applicable at the time of migration and not in reference to any point of time after that. For example, if a person had moved from the place of her/his last residence for the purpose of education and subsequently at some point of time got employment there only, the reason for migration would be 'education' and not 'work/employment'.

Internal and International migration :

The migrational movements are of three types

(i) Migration within the state itself with its components.

(a) Migration within the district of enumeration (intra district migration).

(b) Migration from one district of state to another district of state (inter district migration),

(ii) Migration from one state to another State of the country (inter-state migration),

(iii) Migration from one country to another country. The first two streams together constitute internal migration, while the last type of movement is called international migration. The present name of the country, state or district and not the name by which they were known at the time of her/his birth or last residence were recorded.

Rural - Urban components of migration:

Rural or Urban status in respect of migrants have been determined as applicable at the time of migration and not with reference to any point of time after that. The flow of migrants consists of four streams viz. rural to rural, rural to urban, urban to rural and urban to urban.

Civic status of urban units

Civic Status of a town/city is determined on the basis of Civic Administrative authority of the town e.g., Municipal Corporation / Corporation, Municipal Committee/ Municipal council, Municipality etc.

Size class of UA / town

Size-class of UA/Town is based on the population size of the UA/City/Town UAs./Towns with 1,00,000 and above population are classified as Class I UAs./ towns. These Class I UAs. / towns are now further sub classified in to seven sub classes namely M1 to M7 depending on the population size of UA/City/ Town. These are M7(5,000,000 and above); M6(2,000,000 to 4,999,999); M5 (1,000,000-1,999,999) M4 (500,000-999,999); M3(300,000-499,999), M2 (200,000-299,999) & M1 (100,000-199,999). towns with, 50,000 to 99,999 population are classified as Class II towns, 20,000 to 49,999 population are Class III towns, population with 10,000-19,999 are Class IV towns, population with 5000 and 9999 are Class V towns and towns with less than 5000 population are Class VI towns.

Slum area

The Slum Areas (Improvement and Clearance) Act, 1956 which was enacted by the Central Govt. defined slums as a) Areas where buildings are in any respect unfit for human habitation; or b) are by reasons of dilapidation, overcrowding, fault arrangement and design of such buildings, narrowness or faulty arrangement of streets, lack of ventilation, light or sanitation facilities, or any combination of these factors, are detrimental to safety, health or morals.

Mega city

The concept of 'Mega city' is a recent phenomenon in the Urban Sociology and is defined in term of metropolitan city in the form of large size, problem of management of civic amenities and capacity to absorb the relatively high growth of population. Indian Census in 1991 treated the population size of 5 million and above as the cut off point to identify a place as the mega city. Whereas, for the purpose of inclusion in Centrally Sponsored Scheme for Infrastructure Development in Mega cities the Ministry of Urban Affairs and employment, Department of Urban Development adopted the criteria of 4 million and above population as per 1991 Census for Mega Cities. In 2001 Census, cities with 10 millions and above population have been treated as Mega cities.

(ix) Analytical Note

2001 Census findings - Population, Its distribution

(a) Distribution of Population in Rural - Urban areas :

According to 2001 Census the total population of Khammam district stands at 2578927 with 1305543 males and 1273384 females. The district stands at 19th rank as far as population is concerned in the state. Out of the total population of the district 2068066 persons constituting 80.19% are residing in rural areas and the remaining 510861 persons(19.81%) are residing in urban areas. The proportion of urban to total population regarded as an index of urbanization is 19.81% for Khammam district corresponding to state figure of 27.30%. Average number of towns for 100 inhabited villages in the district is less 1% (0.82%).

Khammam district has 1229 villages in 46 mandals of which 1101 are inhabited villages. The average number of inhabited villages per mandal is 24. Khammam (urban) mandal is the largest mandal in terms of population accounting. 9.92% of the district population. In term of number of villages, Chintur mandal leads with 89 villages, wherein 9 are un-inhabited villages. Tekulapalle and Yellandu mandals have least i.e. 6 inhabited villages in each mandal. As regard population, Velairpadu mandal reported least population i.e. 21,474 in the district.

The urban population is distributed among 9 urban units of which 4 are statutory towns. The average size of an urban center in the district works out to 56762 persons. Khammam Municipality has largest population (159544) whereas Chatakonda Census Town is the smallest town with a population of (2701). Chatakonda Census Town is identified as less than 5000 population.

(b) Size class and status of towns, population growth, density and sex ratio, work participation rate and literacy rates - in the district:

Size class and status of towns:

During every Census the number of Census towns and statutory towns changes due to addition of new Census towns, declassification of old Census towns, notifying of new statutary towns, de-notifying of old statutory towns etc., For the purpose of analysis of varied demographic characteristics, urban areas have been divided into six classes by size of population. Of the 9 towns in the district, Khammam is categorized under class I town, Kothagudem and Palwncha under class II, Manuguru, Bhadrachalam Yellandu and Sarapaka towns under class III, Chunchupalle Census Town under class IV and Chatakonda Census Town is categorized as class VI.

Population Growth :

The population of district was 2,215,804 as per 1991 Census and has gone upto 2,578,927 persons in 2001 adding 363,123 persons during the decade 1991-2001. The growth rate revealed by the district (16.39%) is more than the State growth of 14.59% during the decade. Khammam district ranks 7th in growth rate among 23 districts in the state.

The Rural-Urban growth rates in population show wide variations. The rural growth rate is recorded as 17.00 % while urban growth rate is 13.99 %. As regards growth rate in rural population, the district occupies 6th position, and in urban growth rate it occupies 10th place in the state.

Density :

The overall density of population in the district is 161 persons per sq.km and it is below the state average of 277. Among urban areas, Khammam town has recorded highest density of 8,610 persons per sq.km followed by 4,952 persons in Kothagudem town. Least density i.e. 197 persons per sq.km. has been reported in Chatakonda Census town.

Sex-Ratio :

Khammam district has sex ratio 975 females per 1000males while it was 961 in 1991 Census. It is lower

than state average sex ratio 978. The district occupied 12th rank in respect of sex ratio among 23 districts. Kunavaram mandal has the highest sex ratio of 1063. While Burgampahad mandal has lowest sex ratio of 934. Among urban units Kothagudem town has reported highest sex ratio of 1012 and Palwancha Town reported lowest sex ratio of 946.

Work participation rate :

The work participation rate for total workers is defined as percentage of total workers to total population. The total workers participation rate in Khammam district during 2001 is 48.25%. Again the percentage of main workers stands at 40.30%. The total workers participation rate separately for males and females in the rural areas recorded 58.4% and 46.4% respectively as against corresponding figures for urban areas with 50.00% and 12.00% respectively. The percentage of main workers has increased to 48.25 in 2001 from 45.87 in 1991. The female workers participation rate has increased from 35.82 in 1991 Census to 39.59 at 2001 Census.

Literacy Rate :

While calculating effective literacy rate, children in 0-6 age group have been excluded. The district returned 1267944 literates forming 56.9% of the population of the district, excluding 0-6 age group. Separately for urban and rural areas the literacy rate workout to 77.6% and 51.7% respectively. Again within the urban areas male and female literacy rates worksout to 85.1% and 69.9% respectively for the rural population the male and female literacy rates worksout to 61.3% and 41.7%.

(c) Scheduled Castes and Scheduled Tribes of earlier Censuses :

To uplift social and economical status of Scheduled Castes and Scheduled Tribes, one of the basic requirement of these population is the availability of data on age, sex, marital status, economy, education, fertility etc. In this regard these particulars are being collected in each census from 1951 onwards and provided to planners and administrators to take-up necessary steps to evolve suitable plans for the development of Scheduled Castes and Scheduled Tribes.

The President of India has notified some castes, races or tribes or parts of groups within castes, races or tribes as Scheduled Castes under Article 341 of the Constitution of India. Similarly, under Article 342 of the Indian Constitution, President of India has declared all such tribes or tribal communities or parts of groups within the tribes or tribal communities as Scheduled Tribes. The list of Scheduled Castes and Scheduled Tribes are notified for each State or Union Territory and are valid only within the jurisdiction of that State and Union Territory. The list of Scheduled Castes and Scheduled Tribes is provided in this volume under the chapter on 'Census concepts'.

Scheduled Castes population in the district as per 1991 Census :

As per 1991 census, there were 3,60,154 Scheduled Castes population comprising 1,84,625 males and 1,75,529 females.This works out to 16.25% to the total population of the district. Of the total population of Scheduled Castes, 83.16% were living in rural areas of the district.

The following statement reveals that Scheduled Castes population has recorded 38.56% growth rate during the decade 1981-91.It was 36.59% in rural areas which is lower to the growth rate of total district. Growth rate in Urban areas was 49.52% which is nearly 11% more than the district and 13% more than the rural areas.

The sex ratio among Scheduled Castes population (950) was lower in comparison to that of the general population in the district(961). The sex ratio in rural area (942) of the district was lowest to total district sex ratio. In urban areas it was 995. Literacy rate among Scheduled Castes was 31.61% which was lower than the district (40.50%). In urban areas their literacy rate was 58.08%.

Proportion of main workers among Scheduled Castes was 46.71 percent and the Marginal workers was 2.17 percent. In rural areas workers population was 50.34 percent and in urban areas their percentage was 28.26.

Statement (i)

Particulars of decadal variation, sex ratio, literacy and workers participation of Scheduled Castes population-1991

Sl.No.	Particulars		Total	Rural	Urban
1	Percentage decadal Variation:				
		1981	259,925	220,322	39,603
		1991	360,154	30,0941	59,213
			(38.56)	(36.59)	(49.52)
2	Sex ratio		950	942	995
3	Percentage of Literacy		31.61	26.20	58.08
4	Percentage of				
	:i. Main Workers		46.71	50.34	28.26
	ii. Marginal Workers		2.17	2.49	0.55
	iii. Non-workers		51.12	47.17	71.19

It is seen from the below furnished statement that Scheduled Castes population in the district has registered 17.45% growth rate during the decade 1961-1971. The same for the decade 1971-1981 and 1981-1991 was 54.81% and 38.56% respectively.The growth rate during 1971-1981 was more than the growth rate of 1961-1971. However growth rate has been decreased from 54.81% during 1971-1981 to 38.56% during 1981-1991. The district has recorded higher decadal percentage variation in SC population than the state variation.

Statement (ii)

Statement showing the decadal variation in Scheduled Castes population in Khammam district in comparison to Andhra Pradesh State between 1961-1991 Censuses

Sl No.	Census Year	Scheduled Castes Population in district (percent variation shown in bracket)	Scheduled Castes Population in State (percent variation shown in bracket)
1	1961	142,954 (--)	4,973,616 (--)
2	1971	167,896 (+17.45)	5,774,548 (+16.10)
3	1981	259,925 (+54.81)	7,961,730 (+37.88)
4	1991	360,154 (+38.56)	10,592,066 (+33.04)

Source: *Part II-B(ii), Andhra Pradesh and DCHB Khammam, 1991*

The following statement gives the proportion of Scheduled Castes population to total population in the village at 1991 Census. Out of 777 villages where Scheduled Caste population returned in the district, 179 villages constituting 23.04% were having less than 5% of Scheduled Caste population. Of the remaining villages, 108(13.90%) were having 6 to 10% of Scheduled Castes population, 88(11.33%) having 11 to 15% and 150(19.30%) having 31% and above.

Statement (iii)

Proportion of Scheduled Castes Population to Total Population in the villages-1991

Percentage range of Scheduled Castes population to total population	Number of villages in each range	Percentage of villages in each range
1	2	3
5 and below	179	23.04
6-10	108	13.90
11-15	88	11.33
16-20	77	9.91
21-30	175	22.52
31 and above	150	19.30
Total :	**777**	**100.00**

Source: *DCHB Khammam, 1991.*

The following statement shows the percentage of Scheduled Castes population in urban area to the total population of the towns in the district at 1991 census. Out of 448,163 Urban population, Scheduled Castes population of 59213 constituted 13.2%. Madhira town had highest percentage i.e., 19.5% Scheduled Castes population to the total population of the town, followed by Kothagudem Municipality 19.2%. Khammam Bhadrachalam Sathupalle and Palwancha towns were as low as 9.3%, 10.7%, 13.1% and 12.1% respectively which were below the district average.

Statement (iv)

Percentage of Scheduled Castes population in Towns - 1991

Class & Name of Town	Total Population	Total scheduled Castes Population	Percentage of Scheduled Castes Population to Total Population
III Bhadrachalam	35,830	3,821	10.66
IV Chunchupalle	15,186	2,565	16.89
I Khammam	1,49,077	13,908	9.33
II Kothagudem	86,951	16,654	19.15
IV Madhira	15,323	2,992	19.53
III Manuguru	30,076	4,224	14.04
VI Mothugudem	3,889	704	18.10
II Palwancha	53,102	6,440	12.13
III Sathupalle	20,054	2,624	13.08
III Yellandu	38,675	5,281	13.65
All Towns	**4,48,163**	**59,213**	**13.21**

Source: *DCHB Khammam, 1991.*

The Scheduled Tribes population in the district as per 1991 Census :

As per 1991 Census, there were 558,958 Scheduled Tribes population comprising 284,152 males and 274,806 females. This works out 25.23 % to the total population of the district. Of the total population of the Scheduled Tribes 94.30% were living in rural areas of the district.

The following statement reveals that Scheduled Tribes population in the district has registered 30.00% growth rate during the decade 1981-91. The growth rate 27.58% has been recorded in the rural areas of the district. In urban areas it was 89.41%. The sex ratio in the district was 967, while in rural areas it was 966 and in urban areas 978. As regards the literacy rate among the tribes, it was 16.16% , while in rural areas it was 14.68%. However in urban areas it was higher (40.31%) than rural areas as well as the district total.

The population of Main workers and marginal workers among tribals in the district was 50.59% and 3.68% respectively where as in rural areas of the district it was 51.69% and 3.79% respectively. But in urban areas they were reported 32.39% and 1.84% respectively.

Statement (v)

Particulars of decadal variation, sex ratio, literacy and workers participation of Scheduled Tribes population-1991

S.No.	Particulars		Total	Rural	Urban
1	Percentage	1981	429,959	413,134	16,825
	decadal Variation	1991	558,958	527,089	31,869
			(30.00)	(27.58)	(89.41)
2	Sex ratio		967	966	978
3	Percentage of literacy		16.16	14.68	40.31
4	Percentage of				
	i. Main Workers		50.59	51.69	32.39
	ii Marginal Workers		3.68	3.79	1.84
	iii. Non-workers		45.73	44.52	65.77

It is seen from the following statement that the Scheduled Tribes population growth rate was low during 1961-1971,when it is compared with 1971-81 and 1981-1991, while it has recorded abnormal increase i.e. 113.20% during the decade 1971-1981. This abnormal increase was due to inclusion of some of the tribes in the list of Scheduled Tribes during the decade. However the variation between 1981-1991 was little below than the State variation.

Statement (vi)

Statement showing the decadal variation in Scheduled Tribes population in Khammam district in comparison to Andhra Pradesh State between 1961-1991 Censuses

Sl. No.	Census Year	Scheduled Tribes Population in the district (percent variation shown in bracket)	Scheduled Tribes Population in the State (percent variation shown in bracket)
1	1961	171,284 (--)	1,324,368 (--)
2	1971	201,670 (+17.74)	1,657,657 (+25.17)
3	1981	429,959 (+113.20)	3,176,001 (+91.60)
4	1991	558,958 (+30.00)	4,199,481 (+32.23)

Source: *Part II-B(ii), Andhra Pradesh and DCHB Khammam, 1991*

The following statement shows the proportion of Scheduled Tribes population to total population in the villages. Out of 988villages, where Scheduled Tribes were recorded, 171 villages forming 17.3% were having less than 5% Scheduled Tribes population. The proportion of Tribals was between 26 to 50 percent in 146 villages(14.8%) and in 513 villages (51.9%) they were more than 51 percent.

Statement (vii)

Proportion of Scheduled Tribes population to total Population in the villages - 1991

Percentage range of Scheduled Tribes population to Total population	Number of villages in each range	Percentage of villages in each range
1	2	3
5 and below	171	17.31
6-15	82	8.30
16-25	76	7.69
26-35	72	7.29
36-50	74	7.49
51 and above	513	51.92
Total	**988**	**100.00**

Source : *DCHB Khammam, 1991.*

While going through the following table it is observed that Scheduled Tribes population in urban area constituted 7.1% to total urban population in the district at 1991 census. The proportion of Scheduled Tribes population was above the district average in Chunchupalle, Manuguru, Palwancha and Yellandu while it was below in remaining towns. However, proportion of Scheduled Tribes population in urban areas ranges between 2.0% in Madhira and 15.5% in Palwancha.

Statement (viii)

Percentage of Scheduled Tribes Population in Towns - 1991

Class & Name of Town	Total Population	Total scheduled Tribes Population	Percentage of Scheduled Tribes Population to total Population
III Bhadrachalam	35,830	1,995	5.57
IV Chunchupalle	15,186	2,176	14.33
I Khammam	1,49,077	5,936	3.98
II Kothagudem	86,951	5,151	5.92
IV Madhira	15,323	309	2.02
III Manuguru	30,076	3,706	12.32

This table shows decadal change in population of mandals (Rural and Urban), growth and urbanization. This district had recorded 16.4% growth during the decade, which is more than the state average growth. The rural and urban growth rates are recorded as 17.0% and 14.0% respectively.

The district percentage of urban population works out to 19.8%. Out of 46 mandals 8 mandals have urban units. Among these 8 mandals, Khammam(U) mandal reported 74.1% urban population, followed by 69.4% in Palwancha mandal and 58.5% in Kothagudem mandal and all these are above the district and State average urban population.

Note: *Growth in rural areas is due to declaration of new town.*

TABLE 2

NUMBER AND PERCENTAGE OF INHABITED VILLAGES IN SPECIFIED POPULATION SIZE RANGES WITH THE RELATED POPULATION , 2001

Note : *Percentages in brackets*

The above table reveals number and percentage of inhabited villages in specific population size. Out of 1,101 inhabited vilaages in the district, maximum number i.e. 80 inhabited villages found in Dummugudem and Chintur mandals while least number i.e. 6 inhabited villages found in Tekulapalle and Yellandu mandals. The population of 22.3% villages are between 2000-5000 range.19.5% are in the population range of 1000-2000. Only 14.2% villages are having less than 200 population, while 2.1% villages are having above 10,000 population.

TABLE 3
NEW TOWNS, DENOTIFIED, DECLASSIFIED AND MERGED TOWNS IN 2001 CENSUS

	Name of Town
	1
(a) New	
(i) Statutory Town	-Nil-
(ii) Census Town	1. Sarapaka
	2. Chatakonda
(b) Denotified	
(i) Statutory towns of 1991 Census denotified and also did not satisfy the criteria to be treated as Census towns	-Nil-
(ii) Statutory towns of 1991 Census denotified but identified as Census towns based on demographic and economic criteria	-Nil-
(iii) Census towns of 1991 Census are notified as statutory town in 2001 Census	-Nil-
(c) Declassified	1. Sathupalle
	2. Mothugudem
	3. Madhira
(d) Wholly merged with other town(s)	-Nil-

Declassified means the census towns of 1991 census which failed to satisfy the demographic and economic criteria

This table indicates new,denotified,declassified and merged towns. As per 2001Census this district has 4 statutory towns which are continuing since 1991 Census.

No new statutory towns have been notified for this Census.Three census towns of 1991 Census have been declassified and two new census towns have been declared.

TABLE 4

DISTRIBUTION OF VILLAGES BY POPULATION DENSITY, 2001

Range of population density (per square kilometrs)	Total number of villages in each population density range	Percentage of villages in each population density range	Population	Percentage distribution of population
1	2	3	4	5
0-10	16	1.5	1,520	0.1
11-20	20	1.8	8,495	0.4
21-50	67	6.1	57,445	2.8
51-100	175	15.9	197,355	9.5
101-200	277	25.2	465,661	22.5
201-300	222	20.2	515,833	24.9
301-500	190	17.3	503,972	24.4
501 +	134	12.2	317,785	15.4
Not known	-	-	-	-
District Total :	**1,101**	**100.0**	**2,068,066**	**100.0**

Population Density (Rural) of the district : 170.5

The table given above shows distribution of village by Population Density. The density of population shows that highest percentage 25.2% villages with 22.5% of district population are falling in the range of population density of 101-200 persons per sq.km. Only 16 villages with 1,520 persons are found in 10 and below range of population density . 15.4% of district population is living in 12.2% villages, where range of population density is above 501.

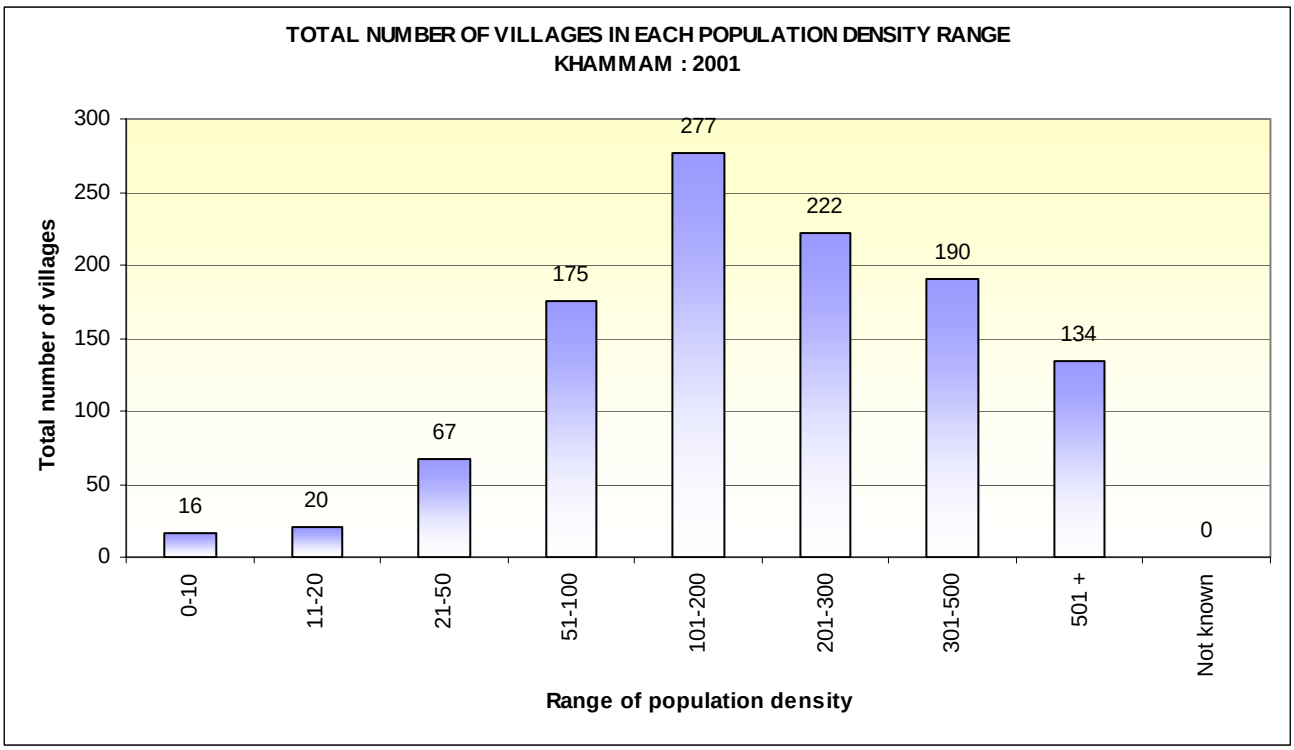

TABLE 5

SEX RATIO OF STATE AND DISTRICT, 1901 - 2001

Census Year	State			District		
	Total	Rural	Urban	Total	Rural	Urban
1	2	3	4	5	6	7
1901	985	983	999	921	932	649
1911	992	991	1000	944	958	735
1921	993	994	986	951	965	794
1931	987	989	966	950	954	896
1941	980	981	975	947	953	900
1951	986	985	987	954	959	928
1961	981	988	951	958	965	911
1971	977	983	949	957	961	928
1981	975	984	948	957	960	945
1991	972	977	959	961	959	967
2001	978	983	965	975	975	978

The above table gives sex ratio of state and district during the decades 1901-2001. The district sex ratio for 2001 census is recorded as 975 for whole district, while it is 975 in rural areas and 978 in urban areas. During last 11 Censuses, highest sex ratio was noticed in 2001 Census. Females were never out numbered males in any of the censuses. It is also evident, in all the censuses, except in 1991 and 2001 females proportion was more in rural areas than urban areas. State figures also show the females were never more than males at all levels and in all Censuses except in 1911 the sex ratio in urban areas of the state stood equal to males.

45	Yerrupalem	968
46	Vemsoor	964
	District (Rural) Total :	**975**

The above table shows mandal parishad- wise sex ratio for rural population in the district. As already stated, Kunavaram mandal parishad has recorded highest sex ratio of 1063 while Burgampahad mandal parishad recorded lowest sex ratio of 925. The female population is more than the males in 8 and one mandal parishad by name Nelakondapalle is noticed with equal sex ratio. Out of 46 mandal parishads as against the district rural sex ratio of 975.

TABLE 8

SEX RATIO OF RURAL POPULATION BY RANGES, 2001

Range of sex ratio for villages	Number of inhabited villages	Percentage of villages in each range	Population 2001	Percentage distribution of population
1	2	3	4	5
Less than 700	12	1.1	13,204	0.6
700-749	8	0.7	5,646	0.3
750-799	6	0.5	1,412	0.1
800-849	27	2.5	28,174	1.4
850-899	41	3.7	35,599	1.7
900-949	191	17.3	435,441	21.1
950-999	348	31.6	997,200	48.2
1000-1099	352	32.0	500,387	24.2
1100+	116	10.5	51,003	2.5
District Total :	**1,101**	**100.0**	**2,068,066**	**100.0**

Sex ratio (Rural) for District : 975

The table given above shows sex ratio of rural population by ranges. The sex ratio in rural parts of the district is 975. The sex ratio is less than 700 in 12 villages, while it is above 1100 in 116(10.5%) villages. About 32% (352) villages with 500,387 (24.2%) population are falling in the sex ratio range of 1000-1099. It is followed by the sex ratio range 950-999, which claim 348 villages (31.6%) covering 48.2% rural population. Females are either equal to males or more than the males in about 43% villages in the district.

TABLE 9

SEX RATIO OF URBAN AGGLOMERATIONS / TOWNS, 2001

Serial Number	Name of U.A.^ / Town+	Urban status	Sex ratio
1	2	3	4
1	Bhadrachalam	CT	999

1000-1099	235	21.3	73,105	25.2
1100+	272	24.7	32,857	11.3
District (Rural) Total :	**1,101**	**100.0**	**290,200**	**100.0**
Sex ratio (Rural) for District :	**973**			

This table shows sex ratio of rural population in the age group of 0-6 by ranges as per 2001 Census count. Out of 1,101 villages, the highest number of villages 272(24.7%) covering 11.3% of rural population in the age group 0-6 is falling in the sex ratio range of 1100+, followed by 235(21.3%) villages covering 25.2% population of rural area in the range of 1000-1099. Next to it, 138 (12.5%) villages with 23.4% population are in the range 950-999 sex ratio. As already stated male babies are dominating in about 54% of the villages in which about 63.5% population is covered.

		Urban	**510,861**	**72,509**	**40,890**	**14.2**	**8**

The above table furnishes the percentage of Scheduled Castes and Scheduled Tribes population to the total population at mandal level for both rural and urban areas of district. Of 2,578,927 total population of the district, 16.5% population belong to Scheduled castes population and 26.5% belong to Scheduled Tribes population. In rural areas Scheduled Castes population formed 17.1% and in Urban areas it is 14.2%. The rural and urban percentage of Scheduled Tribes population is 31.0% and 8% respectively. As regard the mandals having the Municipalities is concerned, Scheduled Castes in Kothagudem mandal is recorded 17.7% in which rural is 14.8% and urban is 19.7%, Palwancha is recorded 13.5% in which rural is 10.2% and urban is 14.9%. Similarly Khammam (U) has recorded 11.1% in which 12.6% is in rural and 10.5% is in urban areas. Bonakal mandal has recorded highest proportion of Scheduled caste population i.e. 28.3% to the total mandal population.Vararamachandra-puram is recorded lowest i.e. 2.9% Scheduled Castes population.

The concentration of Scheduled Tribes population is more in Tekulapalle mandal, where they have recorded 78.1% to the total mandal population, followed by Chintur mandal with 78% . The least 2% Scheduled Tribes population is recorded in Chinthakani mandal. Speaking about mandals having urban areas it is noticed that Scheduled Tribes population of 33.2% in Yellandu mandal is the highest. In this mandal in rural area STs have recorded 50.6% whereas in urban they recorded 7.7%. Similar figures for Palwancha and Kothagudem mandals are 24.7%, 44%, 16.2% and 18.5%, 33.9%, 7.7% respectively.

The above table gives the number and percentage of Scheduled Castes literates at mandal parishad level in the District. The highest literacy rate (69.5) among Scheduled Castes is seen in Chintur mandal parishad with 79.7 literacy rate of males and 60.7 literacy rate of females. The lowest literacy rate 39.7 is in Wazeed mandal, in which male literacy rate is 52.5 and female literacy rate is 27.2. In 21 mandal parishads, literacy rate is above district average literacy rate of rural, while Vemsoor mandal parishad almost equals the literacy rate of district (rural). The gap in male-female literacy rate is more in Pinapaka (26.1) than any other mandal parishads in the district.

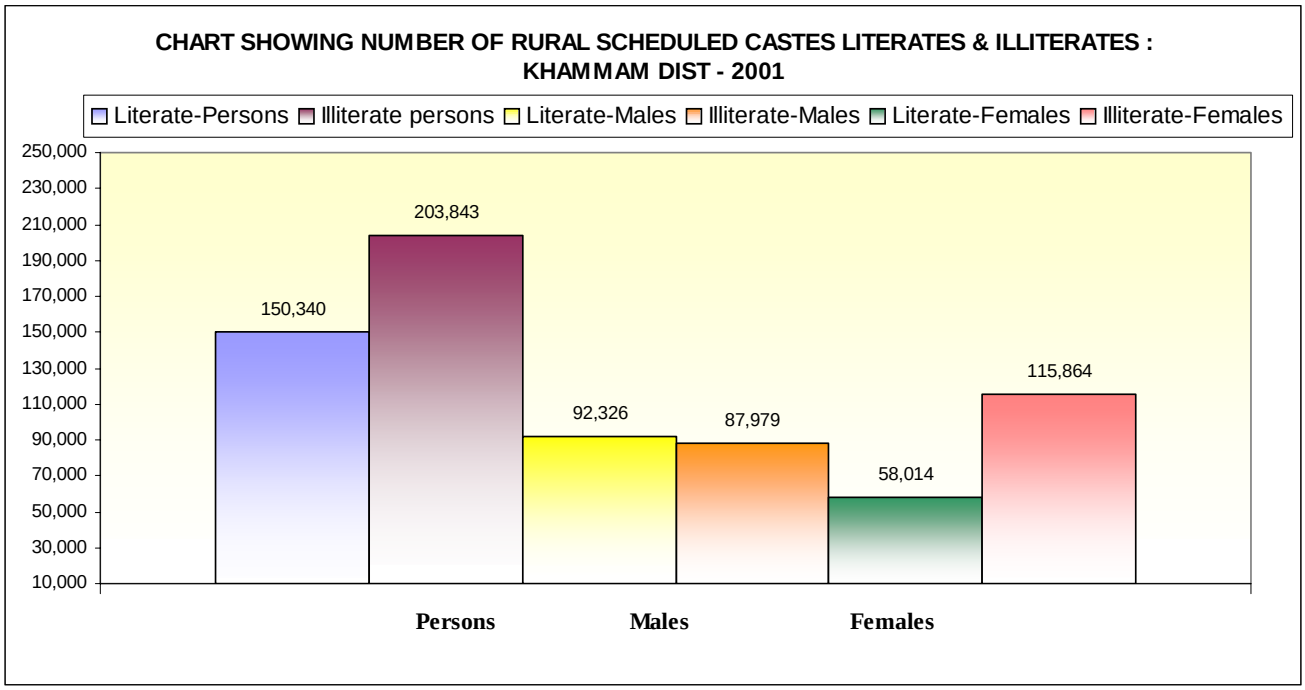

TABLE 26

DISTRIBUTION OF VILLAGES BY LITERACY RATE RANGE FOR SCHEDULED CASTES POPULATION, 2001

Range of literacy rate for villages	Number of inhabited villages	Percentage distribution of villages	Scheduled Castes Population	Percentage distribution of population
1	2	3	4	5
0	16	2.1	73	-
1-10	2	0.3	29	-
11-20	14	1.8	1,132	0.3
21-30	39	5.0	9,429	2.7
31-40	140	18.0	57,103	16.1
41-50	278	35.8	146,361	41.3
51-60	171	22.0	87,782	24.8
61-70	52	6.7	39,055	11.0
71-80	24	3.1	11,012	3.1
81-90	10	1.3	2,058	0.6
91-99	1	0.1	46	-
100	29	3.7	103	-
District Total :	**776**	**100.0**	**354,183**	**100.0**
Literacy rate for District (Rural) :		**49.4**		

This table presents the distribution of inhabited villages where Scheduled Castes people are residing by literacy rate range. Out of 1,101 inhabited villages, Scheduled Castes people are living in 776 villages. All the 73 persons belonging to Scheduled Castes in 16 villages are totally illiterates. One village with 46 persons of Scheduled Castes fall in the range of literacy rate 91-99, followed by another 10 villages with 2,058 persons in the range 81-90 literacy rate. It is seen that about 37% of villages(with Scheduled Castes population) covering about 40% Scheduled Castes population are reported more than 50% literacy rate. Literacy rate range for SCs.in maximum number of villages i.e.in the range 278(35.8%)is 41-50 followed by 171 villages (22%) falling in 51-60 range. Next to it 140 villages (18.0%) fall in 31-40 range. 29 villages with 103 Scheduled Castes population are reported 100% literates.

District (Rural) Total :		**195,983**	**126,136**	**69,847**	**445,744**	**197,452**	**248,292**	**36.6**	**46.7**	**26.3**	**20.4**

This table presents the number and percentage of literates among Scheduled Tribes at mandal parishad level. Their literacy rate in the rural area of the district is 36.6% with 46.7% males and 26.3% females. When compared at mandal level, the literacy rate of Scheduled Tribes population is very low with 25% each in Chintur and Velairpadu mandal parishads and it is high (48.3%) in Wazeed mandal parishad. Literacy rate in 23 mandal parishads is lower than the district average literacy rate of 36.6% among Scheduled Tribes. In Cherla, Bayyaram, Khammam(U), Yerrupalem and Vemsoor mandal parishads, it is almost equal to the district rural average education level. Large gap of 34.3% is seen in the literacy rate of males and females in Palwancha mandal parishad when it is 20.4% at district (rural) level.

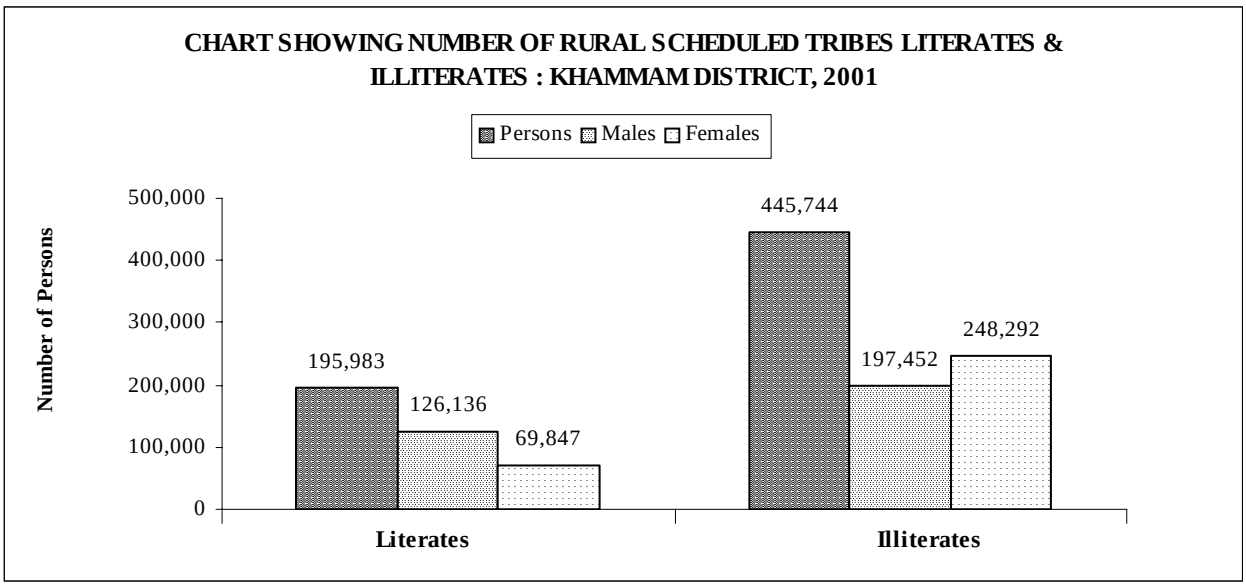

TABLE 29

DISTRIBUTION OF VILLAGES BY LITERACY RATE RANGE FOR SCHEDULED TRIBES POPULATION, 2001

Range of literacy rate for villages	Number of inhabited villages	Percentage distribution of villages	Scheduled Tribes Population	Percentage distribution of population
1	2	3	4	5
0	23	2.3	699	0.1
1-10	34	3.4	6,359	1.0
11-20	115	11.4	39,427	6.1
21-30	206	20.4	128,198	20.0
31-40	297	29.3	251,308	39.2

51-60	72	7.1	43,238	6.7
61-70	34	3.4	7,915	1.2
71-80	13	1.3	2,156	0.3
81-90	4	0.4	303	-
91-99	2	0.2	1,693	0.3
100	13	1.3	139	-
District Total :	**1,012**	**100.0**	**641,727**	**100.0**
Literacy rate for District (Rural) :		**36.6**		

Above table shows the distribution of villages by range of literacy for scheduled tribes population returned during 2001 census. There are 1,101 inhabited villages in the district. Out of this 1,012 villages are with Scheduled Tribes population. Total Scheduled Tribes population 699 of 23 villages are totally illiterates, while all 139 persons of Scheduled Tribes in 13 villages are totally literates. In 31-40 range of literacy rate 297 villages are seen, followed by 206 villages in 21-30 range. More than 50% literacy rate is found in 13.7 (138) villages covering 8.5% of Scheduled Tribes population.

TABLE 30

NUMBER AND PERCENTAGE OF SCHEDULED TRIBES LITERATES AND ILLITERATES BY SEX IN TOWNS, 2001

This table shows mandal parishad-wise number and percentage of main workers, marginal workers and non-workers for rural population of the district. Of the 2,068,066 total rural population, 44.0% has been categorized as main workers and marginal workers contributed 8.9% and non-workers are 47.5%. The sex-wise breakup at the district level shows that 52% males and 35% females are in the category of main workers. Male and female marginal workers account for 6.2% and 11.8% respectively. The percentage of female marginal workers is higher than male marginal workers. Similar trend is visible in most of the mandal parishads.

The percentage of total rural workers of the district worksout to 52.5. At mandal parishad level, Vararamachandrapuram (60.7) has highest population of workers closely followed by Chintur (58.2), Wazeed 58%, Velairpadu 57.8%, Mudigonda (57.4), Mulkalapalle 57.4%, Kamepalle 57.3%, Chinthakani (57.3) mandal parishads. The lowest percentage of 42.4 is in Manuguru mandal parishad.

+ Towns arranged in alphabetical order

^ The names of constituents of UA are given separately

The above given table shows town-wise number and percentage of main workers, marginal workers and non workers. The percentage of urban main workers of the district comes to 27.2, marginal workers contributed 4 and total urban workers form 31.2%. The sex-wise breakup at the district level shows that 44.9 % males and 9.1% females are in the category of main workers. Male and female marginal workers accounts for 5% and 2.9% respectively. Sarapaka (CT) has highest population of main workers with 31.3% followed by Chatakonda (CT) with 29.7% and Khammam (M) 29.3%. Similar trend is prevailed among total workers i.e. 38.2 % in Chatakonda 35.1% in Sarapaka and 33.5% in Palwancha. Among male workers Palwancha (M) town is in top with 51.3% followed by Khammam (M) with 50.9% and Kothagudem (M) with 48.4% While among female workers, Palwancha (M) town has 14.7%, Khammam (M) 12 % and Kothagudem (M) 9.9%.

Note: *Percentage of Workers to total workers are given in brackets*

It is seen from the above table that the total workers are distributed by four categories of economic activity. Among these four categories of economic activity, agricultural workers occupy major share with 49.2%, followed by cultivators 22.9%. Next to it, other workers are forming 25.8%. The household industry workers comes to 2.1%. The sex-wise breakup shows that males participation is more in agricultural labourers category (36.7), followed by other workers(35.2%) and Cultivators (26%). The least male workers participation rate (2.1%) is seen in household industry. As regard females their participation is more in agricultural labourers category (67.5%) followed by cultivators (18.4%). 2.3% of female workers are in household industry. Their percentage in other workers category is 11.8 only. In Gundala mandal 71.5% cultivators are recorded, which is the highest in the district, while in Bonakal mandal agricultural labourers are recorded highest at 67.9%.

Note: *Percentage of Workers to total workers are given in brackets*

It can be seen from the above table that the workers participation is 52.5% to the total rural population of the district. At the same time sex wise breakup among rural workers shows that 58.4% are males and 46.4% are females. Among the workers, 55.2% are agricultural labourers, 26.1% are cultivators, 16.7% are engaged in other works and 2% are in household industry. Male and female workers participation in four economic activities accounts, 31.2% and 19.5% as cultivators, 43.4% and 70.6% as agricultural labourers, 2% each in household industry and 23.5% and 7.9% in the category of other workers. 60.7% workers were reported in Vararamachandrapuram, 58.2% in Chintur mandal parishad and 58% in Wazeed mandal parished. The lowest workers participation 42.4% is recorded in Manuguru mandal parishad. As already discussed in table 34, highest cultivators 71.5% are in Gundala mandal parishad, agricultural labourers 67.9% are in Bonakal, 4.2% household industry workers in Burgampahad and 38.5% other category workers in Manuguru mandal parishad.

+ Towns arranged in alphabetical order

^ The names of constituents of UA are given separately

This table reveals the town-wise distribution of workers by sex in four categories of economic activity. The percentage of workers in urban part of the district comes to 31.2%. It comprises 50% male workers and 12% female workers. The economy of the urban part of the district is primarily depends on other workers category as supported by the fact that this category of workers contributed 87.6% of the total workers and remaining 12.4% of the total workers are engaged as cultivators 1.2%, agricultural labourers 8% and household industry (3.2%). The highest percentage 93.0% of workers in other activity is in Khammam Municipal town followed by Yellandu(NP) 90.9% and Kothagudem (M) town is 90.8%. In the category of other workers male percentage 94.7% is observed in Khammam (M) town. Next to it Yallandu town 93.1% and Kothagudem (M) town is 92.8%. Again Khammam (M) stood first in ranking of female participation (85.4%) in other activities. The percentage of cultivators in all the towns is very low while agricultural labourers are 16.0% in Palwancha (M) town, 5.9% in Kothagudem (M) town and 4.2% in Yellandu (M) town. The highest percentage of household industry workers are recorded in Yellandu(NP) town with 4.4% and whereas in Palwancha (M) and Kothagudem (M) towns it is recored about 3%. The females participation is more in this activity in Yellandu with 11.9%.

Note : *Percentages are given in brackets.*

** Based on the improved drinking water source, drinking water supply has been classified as `Improved ' or otherwise. If the household has access to drinking water supplied from a tap or a hand pump / tube well situated within or outside the premises it is considered as having access to `Improved drinking water source'. However, the concept of improved drinking water is state specific and this is to be considered accordingly.*

 # Post Office includes Post Office, Telegraph Office and Post and Telegraph Office.

$ Transport communication includes bus service, rail facility and navigable waterways.

This table indicates availability of amenities in the villages by mandal parishad. All the inhabited villages in the district have at least one primary amenity. Educational facilities are available in 93.3% villages. 74 villages did not possess this facility.

Medical facilities are available in 83.7% villages. Medical facilities are available for all the villages in 17 mandal parishads.

The postal facilities are available in 45.9% villages. Most of the villages in Wazeed, Venkatapuram, Cherla, Dummugudem, Vararamachandrapuram etc., mandal parishads are denied with this facility. Improved drinking water facility is available in (96.2%) villages. Telephone facilities are available in 455 (41.3%) villages, which shows the need of some more improvement in this facility.

30.6% villages are still deprived of transport facilities. This can be improved only when these villages are connected by pucca road facility. Out of 1,101 villages 604 (54.9%) villages have pucca approach roads. Commercial Banks are located in 112 (10.2%) villages. Agricultural Credit Societies are available in 188 villages. All the villages in the district have been electrified.

Note : *Percentages are given in brackets.*

** Based on the improved drinking water source, drinking water supply has been classified as `Improved ' or otherwise. If the household has access to drinking water supplied from a tap or a hand pump / tube well situated within or outside the premises it is considered as having access to `Improved drinking water source'. However, the concept of improved drinking water is state specific and this is to be considered accordingly.*

 # Post Office includes Post Office, Telegraph Office and Post and Telegraph Office.

$ Transport communication includes bus service, rail facility and navigable waterways.

This table shows the number and proportion of rural population served by different kind of amenities. Out of total rural population of 2,068,066 persons in the district, 2,055,780 persons or 99.4% have education facility. Similarly 1,996,120 persons or 96.5% have medical facility while 2,042,619 persons or 98.8% have got improved drinking water facility. Post Office facilities are available to 1,674,331 persons or 81.0%, Telephone facility is available to 1,466,283 persons or 70.9% and Transport Communication facility is available to 1,855,889 persons or 89.7%, 614,843 persons (29.7%) have Bank facility and 758,141 persons (36.7%) have been provided with the facility of Agricultural Credit Societies. Pucca approach road and Power Supply are available to 1,539,997 persons (74.5%) and 2,068,062 persons (100.0%) persons respectively. Similar pattern of availability of facilities is visible to the rural population at mandal parishad level.

TABLE 39

DISTRIBUTION OF VILLAGES NOT HAVING CERTAIN AMENITIES ARRANGED BY DISTANCE RANGES FROM THE PLACES WHERE THESE ARE AVAILABLE, 2001

Village not having the amenity of	Distance range of place from the village where the amenity is available			
	Less than 5 kilometers	5-10 kilometers	10+ kilometers	Total (Columns 2 - 4)
1	2	3	4	5
1. Education :-				
(a) Primary School	81	10	9	100
(b) Middle School	329	187	167	683
(c) Degree College	44	109	929	1,082
2. Medical:-				
(a) Hospital	132	235	716	1,083
(b) PHC	139	294	623	1,056
3. Post Office	323	167	106	596
4. Telephone	119	120	407	646
5. Bus Service	177	88	100	365
6. Banks				
(a) Commercial Bank	175	318	508	1,001
(b) Cooperative Bank	100	200	763	1,063
7. Agricultural Credit Societies	231	253	429	913

The above table shows distribution of villages not having certain amenities with in the village at district level. It is very strange to get primary education for students of 9 villages and middle school education for students of 167 villages have to go to over 10 kms. from their villages. Probably these villages might having less population. The students of 929 villages have to travel beyond 10 kms. to have degree colleges education. Out of 683 villages, 329 have middle school facility at a distance of less than 5 kms. for 187 villages at 5-10 kms. Out of 1,082 villages where degree colleges are not available with in the village, 44 villages have this facility at below 5 kms. for 109 villages at a distance of 5-10 kms.

Similarly, out of 1,101 villages 1,083 have deprived of hospital facility and 1,056 of PHC facility. Of them 132 villages have hospital facility within 5 kms., inhabitant of 235 villages have to go 5 to 10 kms. and of 716 villages, they have to cover more than 10 kms.to have this facility

As regard PHCs 139 villages avail this facility within 5 kms., 294 at 5-10 kms. and remaining 623 villages at above 10 kms. Regarding Post Offices, 596 villages do not have the facility within the village. Of these 106 have this facility at a distance 10 kms.and above, 167 have at 5-10 kms. and 323 villages have at below 5 kms.

In respecpt of telephones it is noticed that 646 villages do not have this facility. Of these, 119 villages get this facility at a distance of below 5 kms., 120 at 5-10 kms. and for 407 villages it is available at 10+ kms.

For bus facility, out of 365 villages where this facility is not available within the villages, 177 villages avail this facility at a distance of less than 5 kms., 88 villages at a distance 5-10kms., and 100 villages at a distance of 10+ kms.

Of the total villages,1,001 villages deprived of commercial banks and 1,063 villages of cooperative banks facilities. At a distance below 5 kms., 175 villages availing commercial banks facility and 100 villages cooperative banks. At a distance between 5-10 kms., 318 villages availing commercial banks and 200 villages cooperative banks facility and at a distance beyond 10 kms. 508 villages availing commercial banks facility 763 villages cooperative bank facility. 913 villages do not have agricultural credit societies. This facility is available to 231 villages at a distance less than 5 kms., 253 villages at a distance of 5-10 kms. and for 429 villages at a distance of 10+ kms.

 # Post office includes Post office, Telegraph office and Post and telegraph office.

$ Transport communication includes bus service, rail facility and navigable waterways.

This table gives the number of villages according to the distance from the nearest statutory town and availability of different amenities within the village at district level. There are 7 villages within the range of 5 kms. from a statutory town. Of these all the 7 villages have educational, medical, telepone, transport and pucca approach road facilities within the villages, 6 villages have post offices, 2 villages have bank facility and 1 village has agricultural credit society within the village. Out of 85 villages which have located at a distance of 5-15 kms., from a statutory town, 83 villages have educational, 80 villages have medical, 65 villages have post offices, 62 villages have telephone facility, 77 villages have transport, 13 villages have banks, 20 villages have agricultural credit societies and 66 villages have pucca approach road facilities with in the village. Another 377 villages which are at a distance of 16 to 50 kms., 370 villages have educational facility, 344 have medical, 257 have post offices, 243 have telephone, 318(84.4%) have transport, 55 have banks, 99 have agricultural credit societies and 233 (61.8%) have pucca road facilities within their villages. Similarly out of 632 villages which are beyond 51 kms., from statutory towns above facilities for 567 villages educational, 490 villages medical, 177 villages post offices, 143 villages telephone, 362 villages transport, 42 villages banks, 68 villages agricultural credit societies and 298 villages pucca approach road are available within the village.

 # Post office includes Post office, Telegraph office and Post and telegraph office.

$ Transport communication includes bus service, rail facility and navigable waterways.

** Based on the improved drinking water source, drinking water supply has been classified as `Improved ' or otherwise. If the household has access to drinking water supplied from a tap or a hand pump / tube well situated within or outside the premises it is considered as having access to `Improved drinking water source'. However, the concept of improved drinking water is state specific and this is to be considered accordingly.*

The above given table deals with the distribution of villages by population ranges and amenities available therein. In Khammam district out of total 1,101 inhabited villages 1,027 villages(93.3%) have educational facility, 921 villages(83.7%) have medical facility, 1,059 villages(96.2%) have improved drinking water, 505 villages(45.9%) have postal facility, 455 villages(41.3%) have telephone facility, 764 villages (69.4%) have been linked by bus services, 112 villages(10.2%) have bank facility, 188 villages(17.1%) have served with the agricultural credit societies, 604 villages(54.9%) have linked with pucca road and 1,100 villages(99.9%) possess electricity.

Educational facilities are available in all the villages which have more than 2000 population. 71 villages are in below 500 population range 2 villages in 500-999 population range and one village in 1,000-1,999 population range deprived of this educational facility. 63.2% villages in below 500 range, 82.6% village in 500-999 population range and 93.5% in 1,000-1,999 range, 99.6% in 2,000-4,999 population range have medical facility and in other ranges, all the village have medical facility.

Almost all villages in the district have improved drinking water and electricity facilities within the village irrespective of size of population. The remaining facilities are not available in majority of villages falling in less population ranges. As increased the population range most of villages were provided with these facilities. Above 10,000 population villages have almost all amenities, except bank and agricultural credit societies.

TABLE 42

	District Total :	**278**	**18**	**259**	**214**	**79**	**38**	**59**	**2**	**37**

+ Towns arranged in alphabetical order.

The above given table shows per capita receipt and expenditure in towns of the district. The per capita income of statutory towns of the district is Rs.278 and per capita expenditure is Rs.214 Khammam town has shown highest per capita income of Rs.325 and highest expenditure of Rs.254. The lowest per capita income is shown in Yellandu town i.e. Rs.106 and per capita expenditure Rs.114.

More per capita expenditure is incurred on general administration in all four municipalities. Rs.38 per capita expenditure is incurred on public health and convenience, Rs.59 per capita expenditure on public works, Rs.2 per capita expenditure on public institutions and Rs.37 per capita expenditure is incurred on other works by all statutory towns of the district.

TABLE 44

SCHOOLS / COLLEGES PER 10,000 POPULATION IN STATUTORY TOWNS, 2001

Sl. No.	Name and urban status of Town+	Type of educational institution				
		Primary	Junior Secondary/ Middle	Secondary/ Matriculation	Senior Secondary	College
1	2	3	4	5	6	7
1	Khammam (M)	3.2	2.3	1.3	0.7	0.5
2	Kothagudem (M)	2.5	1.4	1	0.6	0.2
3	Palwancha (M)	6.5	2.8	1.4	0.6	0.3
4	Yellandu (NP)	4.7	3.8	1.2	1.2	0.5
	District Total :	**3.8**	**2.3**	**1.3**	**0.7**	**0.4**

+ Towns arranged in alphabetical order

The above table shows number of educational institutions per 10,000 population. As regards educational institutions, there are 3.8 primary, 2.3 middle, 1.3 secondary schools are available per 10,000 population of statutory towns, while 0.7 junior colleges and 0.4 degree colleges are available. Palwancha town has better position among statutory towns as for as educational institutions are concerned.

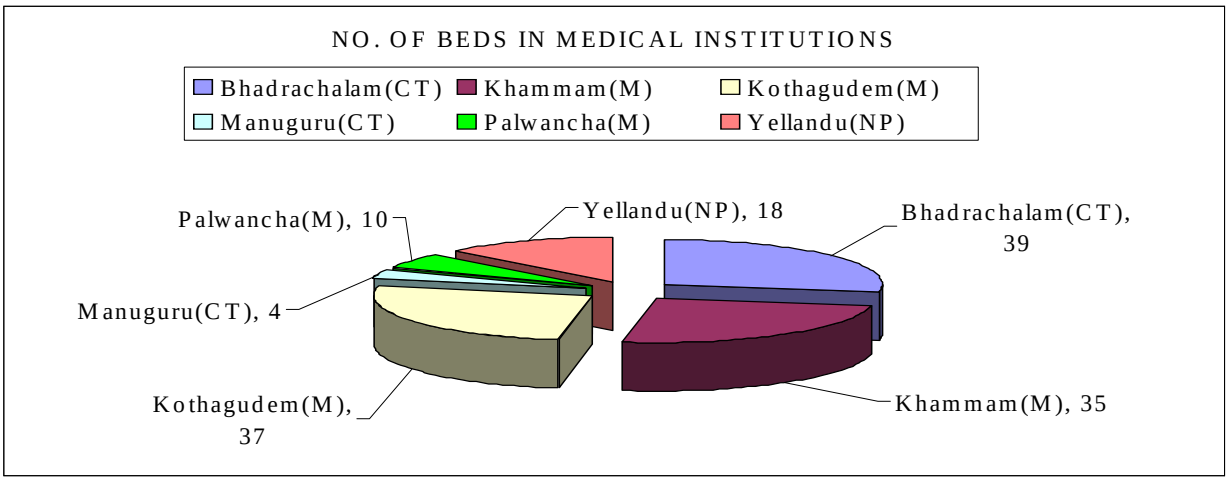

TABLE 45

NUMBER OF BEDS IN MEDICAL INSTITUTIONS IN TOWNS, 2001

Sl. No.	Name and urban status of the Town+	Number of beds in medical institutions per 10,000 population
1	2	3
1	Bhadrachalam(CT)	39
2	Chatakonda(CT)	-

Source : *Census of India 2001, H-series; "Tables on houses, household amenities and assets"*

The above table gives number of households by tenure status and number of rooms occupied in the district. This district has 585,674 households, of which 478,465 are in rural areas and 107,209 in urban areas. Of the total households, 494,742 households are living in owned houses. Of which 11,016 have no exclusive dwelling room, 226,765 households have one dwelling room, 166,495 households have two dwelling rooms, 45,843 households have 3 dwelling rooms and 44,623 households have more than 3 dwelling rooms. The households without dwelling rooms formed 2.39% in rural areas and 1% in urban areas. Households with one room are forming 47.4% in rural areas, 28.3% in urban areas, with two rooms are forming 33.4% and 31.4% in rural and urban areas respectively. But households with three rooms and more than three rooms are forming more percentage in urban areas i.e. 23.8% and 15.5% respectively as against 8.9% and 7.9% in rural areas.

Out of 70,472 households, who are residing in rented houses, 840 have no exclusive dwelling rooms,

24,582 have one dwelling room, 22,348 have two dwelling rooms, 16,762 have three dwelling rooms and 5,940 more than three dwelling rooms. When rural - urban figures, are compared households without dwelling room, with one and two dwelling rooms are forming more percentage in rural areas, while households with three dwelling rooms and more than three rooms are forming more percentage in urban areas to the total households of respective areas.

88,762 households belongs to SC population are living in owned houses. Of which 2.3% households do not have dwelling room, about 50.0% households have single dwelling room, 39.03% households have two dwelling rooms, 3 and 3+ rooms are forming 4.9 and 3.75 respectively. In urban areas households with three dwelling rooms and more are forming 15.02% and 12.58% respectively.

Of 9,272 households of SC population who are residing in rented houses, 38.8% households are residing in single dwelling room, 34% in double dwelling rooms, 19.5% in 3 rooms and three and more rooms possessed by 6.1% households.

Similarly, among ST population, 142,903 households are residing in owned houses and 5,488 are residing in rented houses. About 54% of households, who reside in own houses have single dwelling room and so also 33.1% of households have two dwelling rooms. In urban areas of the district, out of 9424 households of ST population, 7034 households own their houses particularly living either in single room or double.

43	Bonakal	5,121	1,500	4,442	3	5,121	1,500	4,442	3	-	-	-	-
		(46.3)	(13.6)	(40.1)	-	(46.3)	(13.6)	(40.1)	-	-	-	-	-
44	Madhira	9,753	1,593	4,226	-	9,753	1,593	4,226	-	-	-	-	-
		(62.6)	(10.2)	(27.1)	-	(62.6)	(10.2)	(27.1)	-	-	-	-	-
45	Yerrupalem	5,926	1,139	4,951	1	5,926	1,139	4,951	1	-	-	-	-
		(49.3)	(9.5)	(41.2)	-	(49.3)	(9.5)	(41.2)	-	-	-	-	-
46	Vemsoor	3,664	671	5,826	-	3,664	671	5,826	-	-	-	-	-
		(36.1)	(6.6)	(57.3)	-	(36.1)	(6.6)	(57.3)	-	-	-	-	-

The above table reveals that out of the total Census households, 46.4% are living in permanent houses and 12.5% are living in semi-permanent houses. About 41.1% households have temporary houses. In Khammam (U) mandal 77.2% households possess permanent houses and in Wazeed mandal it has recorded less percentage i.e., 5.5% households live in permanent houses. In Wazeed mandal about 47% households live in semi permanent houses whereas 4.7% households in Enkuru mandal live in semi-permanent houses. Similarly among temporary houses, highest percentage of households i.e., about 87.3% are in Vararamachandrapuram mandal and lowest 8.0% of households in Khammam(U) mandal.

46	Vemsoor	Total	10,161	8,667	7,151	2,327	2,369	2,815
				(85.3)	(70.4)	(22.9)	(23.3)	(27.7)
		Rural	10,161	8,667	7,151	2,327	2,369	2,815
				(85.3)	(70.4)	(22.9)	(23.3)	(27.7)
		Urban	-	-	-	-	-	-
				-	-	-	-	-

The above table shows that out of total households in the district, 61.1% have improved drinking water facility, 61.8% households have electricity connection, 30.4% households have bath room facility, and about 29.0% households have toilet facility within their houses. Drainage facility is available to 33.8% households. The highest percentage i.e. about 89.8% households of Dammapeta mandal and lowest percentage (31.1%) in Chinthakani mandal have improved drinking water facility within their reach. More than 80% households in 3 mandals of the district viz. Dammapeta Aswaraopeta and Vemsoor are having improved drinking water facility. More than 70% of households in Manuguru, Kothagudem, Yellandu, Sathupalle, Khammam (Urban), Tallada, Kallur, Wyra, Bonakal, Madhira Yerrupalem and Vemsoor mandals have power connections.

About 58.4% and 63.2% households have bathrooms in Kothagudem and Khammam (Uban) mandals, 60.7% and 63.1% households have toilets within their houses in Palwancha and Khamman (Urban) mandals. The least percentage of 3.8 and 4.8 households having bathroom facilities are noticed in Vararamachandrapuram and Velairpadu mandals and 15 and below percentage of households having toilets are noticed in 19 mandals and the least percentage being 3.9% in Vararamachandrapuram mandal. Drainage facilities having highest percentage (50% and above) are found in Manuguru, Kothagudem, Khammam (Uban) and Madhira mandals. The least percentage (6.4%) of households having drainage facilities is noticed in Venkatapuram mandal.

Source : 1. *Census of India 2001, H-series; "Tables on houses, household amenities and assets"*

2. Percentage given in brackets after the total households.

While looking at the figures available for households by type of fuel used for cooking, it is noticed from the above table that 73.3% are using fire wood as fuel, followed by 18.0% households use L.P.G., 2.2% households use Kerosene and 2.5% households crops residue. The remaining fuels are forming less than 1%. More than 90% households in Velairpadu,Wazeed,Pinapaka,Dummugudem, Vararamachandrapuram, Kukunoor, Tekulapalle,Gundala Bayyaram, Mulkalapalle, Thirumalayapalem, Kunavaram mandals use fire wood for cooking while in Khammam (U) mandal only 42.2% households use

firewood. Usage of LPG is found more than 30% of households in Manuguru (39.8%), Yellandu (31.7%), Bhadrachalam (32.6%), Palwancha (33.8%), Kothagudem (45.5%) and Khammam(U) (44%) mandals. The highest percentage (9.5) of Kerosene users are found in Khammam (U) mandal followed by Palwancha mandal (6.1%).

As regards urban areas of the district, 57% households in Khammam town use LPG as fuel for cooking, followed by 27.3% households use firewood and 12.5% households use kerosene. In Palwancha urban about 41.3% households use firewood, 43.3% households LPG, 8.6% households use kerosene and 2.3% households use crop residue as fuel for cooking. 53% of households in Yellandu urban have LPG connections, 33.7% households use firewood, 5.4% households use Coal, Lignite and Charcoal, 5.2% households use Kerosene as fuel for cooking.

		Rural	10,161	5,702	2,528	3,356	452	6,636	801	81	2,517
		Urban	-	-	-	-	-	-	-	-	-

It is seen from the above table that about 181,415 households in the district are availing Banking facilities. In rural areas 147,061 households and in urban areas 34,354 households are availing banking facility. Among urban areas, in Khammam town 13,114 households availing Banking facility, whereas in Palwancha town 5,525 households and in Kothagudem town with 6,766 households avail the said facility.

In the district 101,676 households have radio, 179,771 households have television, 45,001 households have telephones, 232,241 households have bicycles and 50,660 households have two wheelers. Less than 1% (4,825) households have 4 wheelers. Gundala mandal parishad has less number (17) telephone connections and Wazeed mandal parishad has only 13 cars, jeeps etc.

In urban areas, Khammam town ranks top in possessing specified assets. This town has 10,483 radios, 27,066 televisions, 11,147 telephone connections, 10,941 two wheelers and 1,180 four wheelers.

(xiii) Scope of Village Directory and Town Directory - Column heading wise explanation and coverage of data

The village directory and the town directory presented in the District Census Handbooks are proved more useful. The formats of village directory and of seven statements on town directory are on the same pattern canvassed in 1991 census except for a few additional columns. These additional columns are introduced to throw more insight into the infrastructure of the villages and towns. All the amenities except recreational and cultural facilities, power supply and news papers/magazines are brought under one bracket, with corollary that in case any amenity is not available in the village, the distance of the nearest place where the facility is available is presented. Similar method is followed in respect of towns where educational and medical facilities are not available. The non-census data presented in the village and town directories relate to the year 1999. However, wherever the field agencies have indicated the later position, the information has been updated. Almost all the details in the statement have been indicated by codes. In respect of total population and total number of households, the figures as returned during the recent census i.e. 2001 census have been presented. The scope of village directory and town directory statements with column heading-wise explanation and coverage of data are hereunder presented.

Scope of Village Directory :

In the similar manner as was done in the past, the village directory has been prepared for all the villages in the state and these are presented mandal Parishad wise in the District Census Handbook. This statement contains village-wise area, population, amenities such as educational, medical, communications, drinking water facilities, etc., and also the land use pattern details. The villages are shown in order of their permanent location code numbers. An alphabetical list of villages with their permanent location code numbers and a mandal map has been presented in the beginning of Village Directory of each mandal. This facilitates the reader in locating the mandal in which a particular village lies. The village directory now contains 23 columns as against 18 columns in the 1991 handbook. To give more information under amenities column, banking facilities such as commercial and co-operative banks, agricultural, non-agricultural and other credit societies have been included in the present statement. Similarly, a new column 'number of recreational and cultural facilities' showing cinema/video halls, sports club and stadium/auditorium has been added. In addition to the above a column showing newspapers/magazines received and name of the most important commodity manufactured in the village have been incorporated. Besides the above, the Village Directory is having 12 appendices viz.

Appendix I	:	Abstract of Educational, Medical and other amenities in the villages – Mandal Parishad level.
Appendix 1A	:	Villages by number of primary schools
Appendix 1B	:	Villages by primary, middle and secondary schools
Appendix 1C	:	Villages with different sources of drinking water facilities available
Appendix II	:	Villages with 5,000 and above population which do not have one or more amenities
Appendix IIA	:	Census Towns which do not have one or more amenities
Appendix III	:	Land utilization data in respect of census towns / non-municipal towns

Appendix IV : Mandal Parishad-wise list of inhabited villages where no amenity other than drinking water facility is available

Appendix V : Summary showing number of villages not having Scheduled castes population.

Appendix VI : Summary showing number of villages not having Scheduled tribes population

Appendix VIIA: List of villages according to the proportion of the Scheduled Castes to the total population by ranges.

Appendix VIIB: List of villages according to the proportion of the Scheduled Tribes to the total population by ranges.

Appendix VIII : Statement showing number of Girls schools in the villages

Appendix IX : List of Degree Colleges village/ town in the district.

Appendix X : List of Hospitals village/town in the district.

Appendix XI : List of Banks village/town in the district.

Appendix XII : List of Cinema Halls village/ town in the district.

It may be noted that the Appendix 1A, 1B, 1C, II, II-A, VIII, IX, X, XI and XII have been included afresh in comparison to the District Census Hand books of 1991 Census.

Columns 1 to 3 relate to the serial number, location code number, name and total area of the village. The area given under column 3 is as per the data collected from the state survey department during 1991 census and presented even for 2001 census as the department clarified that there are no changes in the area figures. Column numbers 4 and 5 provide the total population and the total number of households in the village as per 2001 census. Columns 6 to 13 list out the basic amenities available in the village such as educational; medical; drinking water; post, telegraph and telephone; commercial and co-operative banks; agricultural, non-agricultural and other credit societies; recreation and cultural facilities and communications.

The columns 14 to 18 give the details of approach to the village, nearest town & distance, power supply, news paper/magazine circulation and most important commodity manufactured in the village.

The remaining columns 19 to 23 pertain to the land use pattern in the village. The extent of forest area has been given in column 19 while in columns 20 and 23 the extent of irrigated area together with different irrigational sources, the extent of culturable waste including gaucher and groves and the area not available for cultivation such as buildings, roads and railways or under water(rivers and canals), etc., have been given. Here it is worth mentionable that the total area figures of Col. 19 to 23 may not tally with the total area of the village as shown in Col. 3 due to various reasons such as water ways, etc., which are not generally included in the land use statistics.

The land use pattern in the Village Directory conforms to the pattern of classification of land use as recommended by the Ministry of Agriculture, Government of India. The Ministry of Agriculture has recommended the maintenance of records of land use pattern under five categories viz. forests, not available for cultivation, other uncultivated lands excluding fallow lands, fallow lands and net area sown.

The concepts of various types of land use given under each of the columns 19 to 23 as given in the Village Directory schedule are reproduced below:

1. Forests (Col.19) :

These include all actually forested areas and the lands classified or administered as forests under any legal enactment dealing with forests whether State owned or private. If any portion of such land is not actually wooded but put to some agricultural use, that portion is included under the appropriate heading of cultivated or uncultivated land.

2. Cultivated area with break-up irrigated and un-irrigated (Col. 20 & 21):

This includes the land under the following three categories.

I) Net area sown :

The net area sown represents the area sown to crops counting areas sown more than once in the same year, only once.

II) Other fallow lands :

This includes all lands which were taken up for cultivation but are temporarily out of cultivation for a period of not less than one year and not more than five years. The reasons for keeping such lands fallow may be either due to poverty of the cultivators or inadequate supply of water or malarial climate or silting of canals or rivers or un-remunerative nature of farming, etc.

III) Current fallows :

This class comprises cropped areas which are kept fallow during the current year. If any seedling area is not cropped again in the same year, it is also treated as current fallows.

3. Culturable Waste (Col. 22):

This item includes the land under the following three categories.

i) Permanent pastures and other grazing lands:

These cover all grazing lands whether they are permanent pastures and meadows or not. Village common and grazing lands within forest areas are included under this head.

ii) Lands under miscellaneous tree crops and groves not included in the area sown:

Under this class is included all cultivable land which is not included under net area sown but is put to some agricultural use. Lands under casuarina trees, thatching grass, bamboo bushes and other groves for fuel, etc., which are not included under 'Orchards' are classed under this category.

iii) Culturable waste:

This includes lands available for cultivation but not taken up for cultivation or abandoned after a few years for one reason or other. Such lands may be either fallow or covered with shrubs and jungles, which are not put to any use. They may be assessed or not assessed and may lie in isolated blocks or within cultivated holdings. Land once cultivated but not cultivated for five years in succession is also included in this category.

4. Area not available for cultivation (Col.23) :

This includes the land under the following two categories.

i) Land put to non-agricultural uses :

All lands occupied by buildings, roads and railways or under waters such as rivers and canals and other lands put to uses other than agricultural.

ii) Barren and uncultivable land :

This covers all barren and uncultivable land like mountains, etc., i.e. which cannot be brought under cultivation unless at a high cost. Whether such land is in isolated blocks or within cultivated holdings.

All the above particulars are based on the data received from the concerned departments like education, medical, postal electricity, etc., and also mainly from the Mandal Revenue Officers concerned.

Item on communications has been shown separately to spell in terms of availability of the public transport system. This is meant to see whether the village is served by any mode of transport such as bus or rail or waterway. It is against this back-ground that the item on approach to village has been given separately. This refers to road, etc., leading to the village and is to indicate whether the village is approachable both in fair and foul weather and whether it is inaccessible for all time or only some time in the year. Adult literacy class/centre under item on 'Education' and Primary health centre and Community health worker under item 'Medical' of Village Directory are included to indicate statistics on the Minimum Needs Programme of the Planning Commission.

Scope of Town Directory:

There are seven statements in the Town Directory, which include several particulars relating to the towns arranged as per the alphabetical order of their names.

These statements are almost similar to those adopted in 1991 census except for a few changes. During the 1991 there were six Town Directory statements besides providing a separate statement IV-A bringing out civic conditions of the notified slums in class I and II towns. In the present volume the statement IV-A of the 1991 handbook has been termed as statement-VII and the data is presented in respect of all towns having statutory bodies including un-notified slums. The column 4 of statement IV-A of the 1991 book i.e. area of the slum has been deleted in the present book duly substituting the same by giving the information - whether the slum is notified or not with a view that the local authorities are not in a position to provide exact area figures for each slum area. Further in the present statement-VII another item i.e. approximate number of households living in the slum is incorporated. The captions of the statements are as follows:

Statement I:	Status and growth history
Statement II:	Physical Aspects location of town, 1999
Statement III:	Municipal Finance, 1998-99
Statement IV:	Civic and other Amenities, 1999
Statement V:	Medical, Educational, Recreational and Cultural Facilities,1999
Statement VI:	Trade, Commerce, Industry and Banking, 1999
Statement VII:	Civic and other Amenities in slums, 1999

In addition to the above seven statements one appendix for the town showing their outgrowth with population has also been presented.

The formats of Town Directory have been devised to suit the Minimum Needs Programme of the Planning Commission. To reflect this programme, the columns scheduled castes and scheduled tribes population in statement IV and Adult Literacy classes/ Centres in statement V are identical.

In case such of the amenity as Fire Fighting Service in statement IV, the Educational or Medical facility in statement V is not available in the town, the name of the nearest place and its distance from the referent town has been given. This feature is followed since 1981 census as it is necessary to identify the areas that have no specific facility in the district.

Statement I : Status and Growth History :

This statement provides basic information on civic status, population with decadal growth rate from 1901 to 2001, density for 2001 census and sex ratio from 1981 to 2001 censuses of each town besides presenting class of town, location code, name of the mandal, area in sq.kms. and number of households including houseless households returned in 2001 census.

The columns 1 and 2 relate to serial number and class, name and civic administrative status of the town. The class of town has been determined basing on the size of population as given below.

Population	Class
1,00,000 and above	I
50,000 - 99,999	II
20,000 - 49,999	III
10,000 - 19,999	IV
5000 - 9,999	V
Below 5,000	VI

The civic administrative status of the town is indicated in brackets by abbreviated letters like 'M.Corp.' for Municipal Corporation and 'NP' for Nagar Panchayat. The location code number under Col.3 for the town was framed to follow the method of allocation of location code to mandals in the district. This also facilitates easy location of the town in the map. After location code the Col. 4-7 indicate name of mandal, name of mandal parishad, area of the town in sq. kms. and number of households including houseless households recorded in 2001 census. The population of the town with decadal growth rate from 1901 census to 2001 census is given in Col. 8-18. The column 19 shows the density of population and column 20 to 22 give the sex ratio recorded during 1981 to 2001 censuses. The sex ratio defined here is

number of females per 1,000 males.

The following nine places are treated as urban areas in Khammam District at the 2001 census.

1. Bhadrachalam
2. Sarapaka
3. Palwancha
4. Chatakonda
5. Chunchupalle
6. Khammam
7. Manuguru
8. Yellandu
9. Kothagudem

Palwancha, Khammam, Yellandu and Kothagudem are Statutory towns. Yellandu only the town continuing as town since 1901. Khammam attained urban status during 1911, while Kothagudem during 1941. Bhadrachalam was declared as town in 1961 and Chunchupalle and Manuguru in 1991 Census. Palwancha, which was an urban area during 1931 and 1941, it was declassified in 1951 and again attained urban status during 1971. Sarapaka and Chatakonda are newly created towns during 2001 Census.

Khammam only the town falling under class I town category. Kothagudem and Palwancha are in class II towns category. Under class III category Bhadrachalam, Manuguru and Yellandu town are listed. Chunchupalle and Sarapaka are in class IV and Chatakonda in class VI category.

Statement II: Physical aspects and location of town, 1999.

This statement contain 13 columns and depicts physical aspects and location of town in the district. Column numbers 1 and 2 relate to serial number and class and name of the town. The physical aspects such as rainfall in millimetres maximum and minimum temperature in centigrade have been shown in columns 3 to 5 by taking average for the last ten years i.e. from 1990 to 1999.The highest rain fall 1430 mm was recorded in Palwancha followed by Sarapaka(1297 mm), Manuguru (1227mm) and Bhadrachalam(1195 mm). The lowest rain fall was recorded in Chatakonda, Chunchupalle and Kothagudem (810mm) in the district. Palwancha has recorded highest maximum temperature 50^0C and minimum 35^0C. The maximum temperature among towns were between 42^0C to 50^0C and minimum temperature was 14^0C to 35^0C. The columns 6 to 12 give the details of name and road distance in Kms. from the referent town to state, district and mandal headquarters, nearest city with population of one lakh and above and nearest city with population of five lakhs and more, railway station and bus route. The district headquarters Khammam is the nearest town to the State headquarters Hyderabad with 191 kms. and Manuguru is at longest distance with 332 kms. Yellandu town is nearer to district headquarters with 48 kms. followed by Chunchupalle 75 kms., Kothagudem 80 kms., etc., and Manuguru at longest distance of 140 kms. All towns are mandal headquarters except for Sarapaka town mandal headquarter is Burgampad at 8 kms, for Chatakonda and Chunchupalle, Kothagudem is the mandal headquarters at 10 kms and 3 kms. respectively

Statement III: Municipal Finance, 1998-99.

The details for inclusion in this statement were obtained from the respective statutory bodies. In the statement there are 16 columns. Column 1 to 2 relate to serial number, name and class of town with civic administration status. Columns 3 to 9 show the receipts of the local body under various sub-heads and columns 10 to 16 give the details of expenditure incurred on general administration, public safety, public health and convenience, public works and institutions, etc. Khammam municipality has highest income of Rs. 6.46 crores, followed by Kothagudem municipality with Rs.2.73 crores among the towns of Khammam district during 1998-1999. The expenditure of these two towns was Rs.5.05 crores and Rs.1.96 crores respectively.

The total income of urban areas of the district is 12.12 crores and total expenditure is 9.48 crores for the year 1998-1999. Of the income 63.4% was realized through taxes and 19.9% was Government Grant. Lion's share of expenditure i.e.,36.8% was incurred on administration, followed by 25.3% on public works. Expenditure on public health was 17.3%.

Statement IV : Civic and other Amenities, 1999.

The title itself reveals that, this statement deals with the facilities provided to the people in the urban areas of the district.

This statement contain 20 columns. Column 1 & 2 relate to serial number, class and name of town and civic administration status of the town respectively. Column 3 gives population of the town whereas the column numbers 4 and 5 give population of SC and ST as per 2001 census. The lengths of pucca and kutcha roads are recorded separately for each town in column 6. The column 7 shows the details of sewerage systems prevailing in the referent town. The number of latrines with different types is shown in columns 8 to 11. Column 12 is provided separately to show method of disposal of night soil. The source of improved drinking water supply and the system of storage with capacity are recorded under column 13 and 14. Column 15 shows the availability of fire fighting services. In case if this service is not available in the town, the name of the nearest town along with distance where available to be mentioned under this column. All towns except Sarapaka, Chatakonda, Chunchupalle and Manuguru, have fire fighting services. However these facilities are withinthe reach to above said towns. The colums 16 to 20 relate to different types of electrical connections in number.

Khammam has 161 kms pucca road and 52 kms kutcha road, while Kothagudem has 104 kms. length of pucca road. The remaining towns except Palwancha have less than 50 kms roads. Except Chatakonda, remaining towns have open surface drain system . Mostly water borne latrines are prevailing in all towns except in Chatakonda, where 100 other types of latrines are available. Night soil is disposed of by method of sewerage lines and septic tank. Pit system is prevailing in Bhadrachalam and Palwancha. In Khammam town in certain areas wheel barrow method is existing besides septic tank system.

Safe drinking water is supplied throughTaps in all towns, except in Chatakonda where Bore wells and Hand pumps are source of drinking water. Water is being stored in service reservoir and over head tanks in all most all towns.

All types of electrical connections are being utilized in urban areas of the district. The number of electric connections existing in some of important towns viz., in Khammam town 18,288 Domestic, 343 Industrial, 4,658 Commercial, 4,200 Road lightings. Similarly in Kothagudem they are 16,418 Domestic , 129 Industrial, 2,455 Commercial and 1,574 Road lightings. As regard temple town of Bhadrachalam is concerned, 7,063 Domestic, 90 Industrial, 1,414 Commercial and 1,586 Road lightings are existing.

Statement V : Medical, Educational, Recreational and Cultural facilities, 1999:

In this statement the availability of medical, educational, recreational and cultural facilities are presented with reference to the population of 2001 Census. This statement is containing 20 columns. Column 1, 2 and 3 relate to serial number, class and name of the town and the population recorded during 2001 census respectively. The columns 4 and 5 show about the availability of different hospitals, dispensaries, T.B. clinics, etc., together with beds strength. Columns 6 to 15 relate to educational facilities such as various schools/colleges at all levels including Medical, Engineering, Polytechnic, Technical Institutions and adult literacy centres. The column 16 is meant for working women's hostels with number of seats. The number of recreational and cultural facilities such as Studio, Cinema, Auditorium, Community halls, Public Libraries including reading rooms available in the towns are recorded in columns 17 to 20.

All statutory towns possess good medical facilities. People in the census towns depend for medical facility on respective statutory towns closer to them. Hospital facilities are available in all statutory towns. T.B. Centres are available in Khammam and Bhadrachalam.

Degree college level education is available in all towns except Chatakonda to which Laxmi Devipalle at 5 kms distance is meeting the needs of degree college student. Engineering colleges are available in Bhadrachalam, Palwancha , Khammam and Kothagudem. As regards remaining secondary and primary education, sufficient number of institutions are available in all towns of the district. Working women hostel is existing at district headquarters, Khammam. Three stadiums, one at Bhadrachalam and two at Khammam are existing. No cinema

theatres is available in Chatakonda.

Statement VI : Trade, Commerce, Industry and Banking, 1999

This statement deals with economic activities in the urban areas with 11 columns. Column 1 and 2 are serial number and class and name of the town. The columns 3 to 5 give the details of three most important commodities exported and the columns 6 to 8 show the three most important commodities manufactured. The commercial banks, number of agricultural credit societies and the number of non-agricultural credit societies are furnished in the columns 9 to 11.

The important items manufactured are Coal and Ferrous in Kothagudem, power in Manuguru and Matches and Soaps in Khammam. Bank facilities are available in all statutory towns so also in Manuguru Census Town.

Statement VII : Civic and other amenities in Slums, 1999

This statement give details of civic and other amenities provided in all slums whether notified or not. Keeping in view of slums problem in urban areas, during 1981 census this statement was first introduced limiting the details to class I and class II towns. The same pattern was adopted during 1991 census also.

Though the magnitude of slum problem is greater in class I and class II towns, it is accepted that they are associated with smaller towns also. Hence the information on slums has been presented in this statement in respect of all towns having statutory bodies.

The statement on slums contains 17 columns. The columns 1 to 4 show the serial number, class and name of town, name of the slum and whether the slum is notified or not respectively. Columns 5 and 6 give the details of approximate number of households and population of the slum during 1999. The length of the paved road in the slum have been shown in Kms. under column 7. The columns 8 to 13 present system of sewerage, number of latrines both private and community and method of disposal of night soil. The column 14 is meant for showing number of tap points / public hydrants. The last 3 columns i.e columns 15 to 17 relate to number of electric connections under domestic, road lighting points and others.

Khammam town has 7 slums with 8,467 Households and 45,456 population. These slums are having 61 kms paved road, open surface drain system and 4,082 latrines. Night soil of these slums are disposed of by way of sewerage line and wheel Barrows. For drinking water facility, 375 water taps are existing. Electric connections in the slums are 2,624 domestic 400 road lighting points and 85 others.

Palwancha town has 34 slums with 5,396 Households and 23,922 population. These slums have 20 kms length roads. Open surface drains are system of sewerage. There are 3,984 latrines and night soil is disposed of by way of wheel barrow and others. 52 taps are provided for drinking water supply. Electric connections existing in the slums are 2,113 domestic and 540 road lightings.

Kothagudem town has 22 slums with 14000 households and 31,562 population. 41 kms length roads are existing in the slums. Open surface drain is the system of sewerage. Septic tank is method of disposal night soil. There are 8,000 water borne latrines. 85 taps are provided for drinking purpose. In respect of electric connections, there are 5,420 domestic connections and 522 road lightings are existing.

As regard Yellandu town is concerned, there are 16 slums with 2,619 households and 14,254 population. Residents of these slums are being provided with 125 public taps for drinking purpose. Electric connections existing in the slums are 1,059 domestic, and 94 road lightings and 8 others.

Section I - Village Directory

(a) Note explaining the abbreviations used in Village Directory :

The "Village Directory" is one of the traditional compilations of the Census. It gives the list of villages, their location numbers, their area, population, number of households, amenities such as educational, medical, drinking water, post and telegraph, commercial and co-operative banks, agricultural non-agricultural and other credit societies, recreational and cultural facilities, communication, approach to village, nearest town with a distance, power supply, availability of newspaper and magazines, most important commodity manufactured and land use of each village.

Village is a statutory recognized unit having a definite boundary and separate land records. In case, a complete village is treated as an outgrowth of urban agglomeration, data on amenities for that village, have not been given in the Village Directory but shown along with the urban component. The villages which are consider as a Census Town , the amenities data are shown in the Town Directory. For those villages which have partly merged in an outgrowth of U.A., the amenities data are shown in the Village Directory for that particular village.

The 'un-inhabited' villages (villages with no population) have been indicated as such after furnishing details in columns 1 to 3 i.e., Serial number, Name of village & location code number and area of the village against column no. 4 to 18. The land use data for such villages are shown in col. 19 to 23.

The Village Directory format has 23 columns and the details given under each column are for the village are as follows:-

Columns 1 : Serial Number

Self explanatory. All the villages within the Mandal Parishad are presented serially in the ascending order of their location code number.

Columns 2 : Name and Location Code Number of village

The name and location code number of the village are shown against these columns. This also includes the forest and uninhabited villages.

Column 3 : Area of the village

The area of the villages in hectares are given. Wherever the area figures was not furnished by the concerned department the column is left blank.

Column 4 : Total population

The total population of the village as per 2001 Census is given against this column.

Column 5 : Number of households

The number of households as per 2001 Census is given in this column.

Amenities :

In column 6 to 23, availability in respect of different amenities such as education, medical, drinking water, post, telegraph, banks, credit societies, communication, power, approach road etc. in each village has been depicted with appropriate codes against the column concerned. Wherever the amenities are not available in the village, a dash (-) is shown in the column and next to it in brackets the distance in broad ranges viz.< 5 kms., 5-10 kms. and 10+ kms of the nearest place where the facility is available is given. Column wise details are given below

Column 6 : Educational

Classes upto class V included in Primary School. This will include nursery school, kindergarten school. Pre-basic school, pre-primary school, junior basic school upto class V.

Classes from VI to VII are included in the middle school.

Classes from VIII and X included in Higher secondary school. Classes XI and XII are included in senior secondary school.

In case of composite schools like middle school with primary school or secondary school with middle school, these are also included in the number of primary and middle schools, respectively.

Accordingly any of the following types of institutions if exists within the village is shown as per codes given below :

(i)	Primary School	P
(ii)	Middle School	M
(iii)	Secondary School	S
(iv)	Senior Secondary School	PUC/JC
(v)	College	C
(vi)	Industrial School	I
(vii)	Training School	Tr
(viii)	Adult literacy class/centre	AC
(ix)	Others (specify) e.g. Sanskrit Pathshala, Senior basic school, Navodaya Vidyalaya, Makhtab, etc.	O

More than one institution of a type in the village is indicated by the number within brackets against the abbreviation, e.g. P(3), M(4), etc.

Column 7 : Medical

Availability of medical facility within the village is indicated by following codes :

(i)	Allopathic Hospital	H
	Ayurvedic Hospital	HA
	Unani Hospital	HU
	Homeopathic Hospital	H Hom
(ii)	Allopathic Dispensary	D
	Ayurvedic Dispensary	DA
	Unani Dispensary	DU
	Homeopathic Dispensary	D Hom
(iii)	Maternity & Child Welfare	MCW
(iv)	Maternity Home	MH
(v)	Child Welfare Centre	CWC
(vi)	Health Centre	HC
(vii)	Primary Health Centre	PHC
(viii)	Primary Health Sub-Centre	PHS
(ix)	Family Welfare Centre	FWC
(x)	T.B. Clinic	TB
(xi)	Nursing Home	NH
(xii)	Registered Private Medical Practitioner	RMP
(xiii)	Subsidised Medical Practitioner	SMP
(xiv)	Community Health Worker	CHW
(xv)	Others	O

More than one institution of a type in the village is indicated by the number within brackets against the abbreviations, e.g. H(3), D(4), etc.

Column 8 : Drinking Water

The type of the drinking water supply sources available within the village are indicated by codes as follows :

(i)	Tap Water	T
(ii)	Well Water	W
(iii)	Tank Water	TK
(iv)	Tubewell Water	TW
(v)	Handpump	HP
(vi)	River Water	R
(vii)	Canal	C
(viii)	Lake	L
(ix)	Spring	S
(x)	Others	O
(xi)	Summer Source	SS-

Column 9 : Post, Telegraph and Telephone

It is indicated by codes as shown below whether within the village exists the following amenities:

(i)	Post Office	PO
(ii)	Telegraph Office	TO
(iii)	Post & Telegraph Office	PTO
(iv)	Telephone Connection	PH

Column 10: Commercial and Co-operative Banks

If the village is served by any banking service, commercial bank, co-operative bank etc. the same is indicated in codes mentioned below along with the number of banks in brackets. If not available the distance of nearest place where the facility exist is given:

(i)	Commercial Bank	CM
(ii)	Co-operative Bank	CP

Column 11: Credit Societies

If the village enjoys the services of Credit Societies i.e. Agricultural Credit Societies, Non Agricultural Credit Society or Other Credit Societies, the same is indicated in codes mentioned below along with the number of such societies in brackets. In case the facility is not available within the village the distance of the nearest place where such facility exist is given:

(i)	Agricultural Credit Society	ACS
(ii)	Non- Agricultural Credit Society	NCS
(iii)	Other Credit Society	OCS

Column 12 : Recreational and cultural facilities

If facilities such as Cinema/Video hall, Sports Club, Stadium/Auditorium is available in the village. The same is recorded in these columns. If not available the particulars of the nearest place with the facility is recorded. The information is indicated in codes mentioned below along with the number of such facilities in brackets:

(i)	Cinema / Video Hall	CV
(ii)	Sports Club	SP
(iii)	Stadium / Auditorium	ST

Column 13 : Communications

If the village is served by any mode of public / private transport like Bus, Railway station or Navigable water ways they are to be mentioned as follows:

(i)	Bus	BS
(ii)	Railway Station	RS
(iii)	Navigable Waterway	NW

Column 14 : Approach to village

Approach to village refers to the state of road leading to village. The approach to the village is indicated in following codes :

(i)	Paved Road	PR
(ii)	Mud road	MR
(iii)	Foot path	FP
(iv)	Navigable River	NR
(v)	Navigable Canal	NC
(vi)	Navigable waterways other than River, Canal	NW

Column 15 : Nearest Town and distance

The distance is given in kilometers in brackets against the name of the town nearest to the village.

Column 16 : Power supply

Availability of Power Supply in the village, whatever may be the form of its use is given by using following codes :

(i)	Electricity for domestic use	ED
(ii)	Electricity for agricultural use	EAG
(iii)	Electricity for other purposes	EO
(iv)	Electricity for all purposes	EA

Column 17 : News Paper / Magazine

If village receives any News Paper/Magazines the same is noted in this column using following codes

(i)	News Paper	N
(ii)	Magazine	M

Column 18 : Most important commodities manufactured

The name of three most important commodities manufactured in the village is recorded against this column.

Column 19 to 23 : Land use i.e. area under dif ferent types of land use

Land use data maintained by the State/ UT Govts. are furnished against these columns. The data concerning area under Forest, Irrigated land (by source), Un-irrigated land, Culturable waste and Area not available for cultivation in the village are shown against these columns. The area figures are given in hectare(s) up to one decimal. Dash '-' is recorded wherever the information is not made available by the concerned department. The codes used for different types of irrigation facilities available in the village are indicated below:

(i)	Government Canal	GC
(ii)	Private Canal	PC
(iii)	Well (without electricity)	W
(iv)	Well (with electricity)	WE
(v)	Tubewell(without electricity)	TW
(vi)	Tubewell(with electricity)	TWE
(vii)	Tank	TK
(viii)	River	R
(ix)	Lake	L
(x)	Waterfall	WF
(xi)	Others	O
(xii)	Total	T

(b) List of Villages merged in Towns and Out Growths at 2001 Census

(i) List of Revenue Villages that have been fully merged in Towns and Outgrowths at 2001 Census

Serial number	Name of mandal	Name of village	Name of the Municipality/ Nagar Panchayat/ Census Town in which the village is merged
1	2	3	4
1	Manuguru	Manuguru	Manuguru Census Town
2	Bhadrachalam	Bhadrachalam	Bhadrachalam Census Town
3	Burgampahad	Sarapaka	Sarapaka Census Town
4	Palwancha	Palwancha	Palwancha Municipality
5	Kothagudem	1. Kothagudem	Kothagudem Municipality
		2. Ramavaram	Kothagudem Municipality
		3. Garimellapadu(OG)	Kothagudem Municipality
		4. Chatakonda	Chatakonda Census Town
		5. Chunchupalle	Chunchupalle Census Town
6	Yellandu	Yellandu	Yellandu Nagar Panchayat
7	Khammam(U)	1. Khammam(U)	Khammam Municipality
		2. Burhanpuram	Khammam Municipality
		3. Pakabanda	Khammam Municipality

(ii) List of Revenue Villages that have been partly merged in Towns and Outgrowths at 2001 Census

Serial number	Name of mandal	Name of village	Name of the Municipality/ Nagar Panchayat/ Census Town in which the village is merged
1	2	3	4
1	Kothagudem	1. Laxmidevipalle	Kothagudem Municipality
		2. Penuballi	Kothagudem Municipality
		3. Gareebpeta	Kothagudem Municipality
		4. Penagadapa	Kothagudem Municipality
2	Khammam(U)	Khanapuram Haveli (OG)	Khammam Municipality
3	Khammam(R)	Edulapuram (OG)	Khammam Municipality

Section II - Town Directory

Note explaining the abbreviations used in the town directory

Town Directory statements (I to VII)

Statement I : Status and Growth History

Column (2) : Class, name and civic administration status of town :

Class has been introduced to facilitate analysis of town directory data at the state and all India levels. It is presented according to 2001 Census Population of the town as follows :

Population	Class
100,000 and above	I
50,000 - 99,999	II
20,000 - 49,999	III
10,000 - 19,999	IV
5,000 - 9,999	V
Below 5,000	VI

Town with a population of one hundred thousand (1,00,000)and above is treated as a city.

The civic administration status of the towns is indicated within bracket against the name of the town. The following abbreviations are used to denote civic status of town.

(I)	Municipal Corporation	M. Corp.
(II)	Municipal Committee	MC
(III)	Municipal Council	M Cl
(IV)	City Municipal Council	CMC
(V)	Town Municipal Council	TMC
(VI)	Municipal Board	MB
(VII)	Municipality	M
(VIII)	Cantonment Board/Cantonment	CB
(IX)	Notified Area	NA
(X)	Notified Town	NT
(XI)	Notified Area Committee/ Notified Area Council	NAC
(XII)	Notified Town Area	NTA
(XIII)	Industrial Notified Area	INA
(XIV)	Industrial Township	ITS
(XV)	Township	TS
(XVI)	Town Panchayat	TP
(XVII)	Nagar Panchayat	NP
(XVIII)	Town Committee/ Town Area Committee	TC
(XIX)	Small Town Committee	ST
(XX)	Estate office	EO
(XXI)	Gram Panchayat	GP
(XXII)	Census Town	CT

Others columns need no comments.

Statement II - Physical Aspects and Location of towns, 1999

Column 3 to 5 : Physical Aspects

In this columns the Rainfall and Maximum & Minimum Temperature of the town is recorded.

Column 6, 7 and 8 :

Name of the State headquarters, District headquarters and Sub-Divisional headquarters with distance from the referent town in kilometers, is to be recorded respectively. If the names mentioned in these columns are the same as the referent town itself, the distance is recorded as (0) zero.

Column 9& 10 :

Name of the nearest city with one lakh and more and five lakhs and more population are recorded.

Column 11, 12 and 13 :

If referent town enjoys the facility of railway station, bus route facility or navigable river/canal. Its name is to be mentioned. If not available, then the name of nearest place with distance, where such

facility exists is to be mentioned.

Statement III : Municipal Finance 1998 - 1999

Item-wise amount of receipt and expenditure in thousand rupees, relating to municipal finance of the town for the year 1998-99 is to be recorded.

Statement IV : Civic and Other amenities, 1999

Column (1 to 5) : Self explanatory.

Column (6) : Road length (in kms.)

Information about kutcha / pucca road is to be recorded separately for the roads within the limits of the referent town.

(i)	Pucca Road	PR
(ii)	Kutcha Road	KR

Column (7) : System of Sewerage

Generally, by sewerage system is implied the network of mains and branches of underground conduits for the conveyance of sewerage to the point of disposal. Sewers that carry only household and industrial wastes are called separate sewers, those that carry storm water from roofs, streets and other surface are known as storm water drains, while those carrying both sewage and storm water are called combined sewers.

The codes used for different types of drainage system are as follows :

(i)	Sewer	S
(ii)	Open Surface Drains	OSD
(iii)	Box Surface Drains	BSD
(iv)	Sylk Drains	SD
(v)	Cesspool method	CP
(vi)	Pit System	Pt
(vii)	Others	O

Column 8 to 11 : Number of latrines

Number of various types of latrines both Public and Private are given in these columns.

Column 12 : Method of disposal of night soil

The various prevalent method of disposal of night soil are given below with codes :

Head Loads	HL
Basket	B
Wheel Barrows	WB
Septic Tank	ST
Pit System	Pt
Sewerage	S
Others	O

Column 13 and 14 : Water supply

Source and capacity of storage system. The following codes are used in these columns:

Column 13:

(i)	Tap water	T
(ii)	Tube-well water	TW
(iii)	Tank Water	TK
(iv)	Well water	W

Column 14:

(v)	Over Head Tank	OHT
(vi)	Service Reservoir	SR
(vii)	River Infiltration Gallery	RIG
(viii)	Bore Well Pumping System	BWP
(ix)	Pressure Tank	PT

The information on major source of water supply are given in column 13 and the storage capacity against each in kilo-litres (in bracket) are presented in column 14.

Column 15 : Fire Fighting Service

In case the fire fighting service is available in the referent town 'yes' is recorded. If the facility is not available within the town. The name of the nearest place having this facility with its distance from the referent town has been recorded.

Column 16 to 20 : Electrification (Number of connections)

Different types of electric connections have been shown in these columns, i.e. Domestic, Industrial, Commercial, Road lighting (points) & others.

Statement V : Medical, Educational, Recre ationaland Cultural Facilities, 1999

Column 1 to 3 : Self explanatory.

Column 4 & 5 :

The data covers all such medical institutions

run by or aided by Government/Semi Government/ Local bodies and Charitable institutions or Social agencies like the Missionaries. Where the family planning centres are attached to hospitals or maternity and child welfare centres or Primary Health Centres, may be treated as independent units and counted separately using following codes :

(i)	Hospital	H
(ii)	Dispensary	D
(iii)	Health Centre	HC
(iv)	Family Welfare Centre	FWC
(v)	T.B. Clinic	TB
(vi)	Nursing Home	NH
(vii)	Others	O

In case of more than one institutions of any type, it is indicated within brackets the number of such institution (s) e.g. D(3), NH(8), etc. The institutions have further been distinguished by providing additional codes within the bracket as given below :

Ayurvedic	A
Unani	U
Homoeopathic	Hom

Column 6 to 9 :

The codes used for these columns are as follows:

(i)	Arts only	A
(ii)	Science only	S
(iii)	Commerce only	C
(iv)	Arts & Science only	AS
(v)	Arts & Commerce only	AC
(vi)	Combined for all categories-Arts, Science and Commerce	ASC
(vii)	Law	L
(viii)	University	U
(ix)	Others	O

Column 10 : Recognized shorthand, typewriting and vocational training institutes

"Recognised" should mean recognised by some statutory authority, like education department, commerce department, labour department etc. of the government or semi government or autonomous bodies, public sector undertakings etc.

The following codes are used :

(i)	Vocational Training Institute	VT
(ii)	Shorthand	SH
(iii)	Typewriting	Type
(iv)	Shorthand & Typewriting	SH Type
(v)	Others	O

The vocational institutions like - Applied Art/Painting college, Pharmacy college, B. Ed. College, Teacher's Training Institute, Music / Dance School, Nursing School etc. are covered under 'Others'.

Column 11 to 14:

Higher Secondary/Intermediate/Senior Secondary/ PUC/Junior College level, Secondary/Matriculation, Middle Schools/ Junior Secondary and Primary Schools.

School up to class V are treated as Primary or elementary schools. These include Nursery schools, Kindergarten schools, Pre-Primary schools, Junior Basic schools upto class V and Primary schools upto class IV.

Schools upto VII are considered as Middle school or Junior Secondary.

Schools upto class X are considered as Matriculation or Secondary schools.

Schools upto XI or XII classes are considered as Higher Secondary / Intermediate / Pre University / Junior College etc. This would cover 10+2 classes whether held in schools or college.

If there are composite schools like middle schools with primary classes or Secondary schools with Middle classes, these are also included in the number of Primary and Middle schools, respectively. For example, if in a town, there are two Primary Schools and one Middle school with Primary classes, the number of Primary schools in the town is given as three and that of Middle schools as one though there are only three educational institutions.

If there are more institutions of a type in the town, the number is indicated within bracket along with the abbreviation, e.g. P(4), M(3).

Column 15 : Adult literacy class/centres

This column has been introduced keeping in view the Minimum Needs Programme of the Planning Commission. There are number of Adult Education Centres which are included in these columns.

If an educational facility is not available in the town, the name of the nearest place and its distance in kilometres from the town where the facility is available is mentioned.

Column 16 : Working Women's hostels with number of seats

The number of working women's hostel if available in the referent town is mentioned with number of seats. If the facility is not available in the town the name of nearest place with distance where the facility is available is recorded.

Column 17 to 19 : Recreational and Cultural Facilities

Stadium, Cinema, Auditorium/Drama/Community Hall are covered under recreational & cultural facilities. The particulars of permanent recreational facilities are considered for these columns.

Column 20 : Public Libraries, Reading Rooms

Number of public libraries and reading rooms available in the referent town are recorded in codes as follows :

(i) Public Library	PL
(ii) Reading room	RR

Statement VI : Trade, Commerce, Industry and Banking, 1999

Column 3 to 8 :

Name of three most important commodities exported and names of three most important commodities manufactured in the town are recorded.

Column 9 : Number of Banks

Number of Banks available in the referent town both Commercial and Co-operative banks are recorded against this column.

Column 10 & 11 :

Number of Agricultural Credit Societies and Non Agricultural Credit Societies

The total number of Agricultural Credit Societies and Non Agricultural Credit Societies in the referent town are recorded against these columns.

Statement VII : Civic and other Amenities in Slums, 1999

This is the statement on civic and other amenities in all slums whether notified or not and for all towns having statutory bodies, like municipality, Municipal Corporation, Town area committee etc.

Brief note on Primary Census Abstract

The first census of the third millennium and twenty first century the Census of India, 2001 was the 14th continuous and uninterrupted Indian census since 1872. Thus, 2001 Census will provide data on population and its characteristics marking transition from one century and millennium to another.

The gigantic operation of Population Enumeration (considered by many to be the single largest and complex peace time administrative exercise in the world) was made possible due to the door to door universal canvassing of the Household Schedule by about 2 million enumerators and supervisors covering 593 districts, 5,463 sub-districts, 5,161 towns and 638,588 villages. The comprehensive Household Schedule which replaced the individual slip had three parts and two sides A and B. Part I contained the Location Particulars; Part II related to the Individual Particulars and Part III contained questions for Household engaged in Cultivation/Plantation. The part II of the Household Schedule had 39 columns and 23 questions all of which were universally canvassed and no sampling was resorted to during enumeration.

Data Processing

A quantum leap was made in the technology front while processing the Census 2001 data both for Houselisting and Population Enumeration. The Census schedules for both the phases were scanned through high speed scanners in fifteen data centers across the country and hand-written data from the schedules were converted into digitized form through Intelligent Character Reading (ICR) software for creation of ASCII records for further processing. The designing and formatting of the Household Schedule had to be done very carefully using specialized software so as to ensure uniformity, which was an essential pre-requisite for scanning. The selection of appropriate state-of-art technology in data processing has made it possible to produce all the Houselisting as well as Population Enumeration tables on full count basis for the first time in the history of Census. For Census 2001, about 202 million schedules consisting of about 1,028 million records were scanned and processed within a span of only 10 months starting October, 2002.

Task Force on Quality Assurance

After the data is processed, it is expedient on the part of the data producing agency to satisfy itself about its quality before putting the same in public domain. This has to be done mainly through the process of internal consistency, comparison with similar data in the past and also through validation with likewise data if available, from external sources. Quite often the local knowledge and perception has to be brought into play to understand both the existing and the new emerging trends of population distribution and characteristics. The other very important aspect of the data quality is to ensure complete coverage of all geographical areas especially for the population enumeration phase where the data is disseminated right up to the village level in the rural areas and the ward level in the urban areas. Thus ensuring the complete coverage and correct geographical linkage of each enumeration block was one of the major planks of the quality control, specially for small area population statistics.

A very comprehensive check and edit mechanism was put in place to objectively examine the preliminary Census 2001 Population Enumeration results and finally clear them for use. The responsibility of the final clearance of data was with the Task Force on Quality Assurance (TFQA), headed by the Registrar General and Census Commissioner, India. The other members of the TFQA were the Heads and senior officers of the Census Division, Data Processing Division, Map Division, Demography Division and Social Studies Division. The Directors of Census Operations were co-opted as members whenever the TFQA discussed the data for their States/Union territories. The Directors and their senior officers were required to make detailed presentations of data for their own state both in respect to the

quality and the coverage and only after the full possible cleared.

There has been a major departure in Census 2001 from the past in respect of the procedure followed for finalization of the Scheduled Castes and the Scheduled Tribes population. In the earlier censuses, the total Scheduled Castes and Scheduled Tribes populations were finalized at the time of the manual compilation of the Primary Census Abstracts (PCA) at the Regional Tabulation Offices which were specially set up for this purpose. The individual Scheduled Castes and the Scheduled Tribes population for each state was finalized much later based on manual coding done by the coders. In 2001 Census, each individual Scheduled Caste and the Scheduled Tribe have been coded directly on the computers by the Data Entry Operators through a process known as Computer Assisted Coding (CAC) and taken up along with the processing of PCA data. The CAC process involves pulling down, from the relevant dictionary of the Scheduled Castes and the Scheduled Tribes, on the computer screen and coding from the dictionary by referring to the image of the specific individual entry in the Household Schedule appearing on the screen. The CAC of the response on Religion wherever required, was also undertaken along with the processing of PCA. This is because the Scheduled Castes status had to be determined in relation to the religion of the individual. Two Special Task Forces, one on Religion and the other on Scheduled Castes/ Scheduled Tribes were constituted for scrutiny and appropriate classification of these responses.

The main task of the Special Task Force on Religion was to appropriately merge or group the new responses encountered and code it into the appropriate religious community based on available literature and local knowledge. The Special Task Force on Scheduled Castes and Scheduled Tribes examined the different Scheduled Castes and Scheduled Tribes entries encoun-tered and classified these into appropriate category of the Scheduled Castes or the Scheduled Tribes principally based on the Presidential Notification and the available literature. Thus a very systematic and scientific mechanism was operationalised to firm up the individual religion and the individual Scheduled Castes/Tribes returns. The Scheduled Castes and the Scheduled Tribes population in 2001 Census, is thus being finalized by aggregating the population data for individual Scheduled Castes and the Scheduled Tribes at appropriate geographical levels.

The entire work relating to the data validation and scrutiny was completed by all the States/Union Territories under the overall supervision and monitoring of the Census Division of the Office of the Registrar General, India with active cooperation and support of the Social Studies Division, Data Processing Division, Data Dissemination Division and Map Division.

Primary Census Abstract

The Primary Census Abstract which is yet another important publication of 2001 Census. Population gives basic information on Area, Total Households, Total population, Scheduled Castes, Scheduled Tribes population, Population in the age group 0-6, Literates, Main workers and Marginal workers classified by the four broad industrial categories, namely, (i) Cultivators, (ii) Agricultural laborers, (iii) Household Industry Workers, and (iv) Other workers and also Non-workers. The characteristics of the Total Population includes Scheduled Castes, Scheduled Tribes, Institu-tional and Houseless population and are presented by sex and rural-urban residence. This data is presented at different levels, namely, India, States/Union territories, Districts and Cities, Urban Agglomerations (Population 1,00,000 and above) in three different tables. In addition, the Appendix of said publication provides Houseless and Institutional Households and their population by residence and sex for 2001 for India, State and Union territory.

Apart from the India and State/Union Territory volumes for Primary Census Abstract, the District Census Handbook contains District Primary Census Abstract, Appendix to District Primary Census Abstract, Primary Census Abstract for Scheduled Castes, Primary Census Abstract for Scheduled Tribes, Village Primary Census Abstract and Urban Primary Census Abstract of the concerned district in the state.

It was for the first time at the 1981 Census that the Primary Census Abstract (PCA) was brought out for the Scheduled Castes and the Scheduled Tribes separately on the pattern of General Primary Census Abstract. This practice was continued in 1991 also. In the 1961 and 1971 Censuses, such data were made available in Table C-VIII-Social and Cultural table and to some extent in the series 'Special Tables for

Scheduled Castes/Scheduled Tribes'.

The format of Primary Census Abstract has been restructured slightly in the 2001 Census as compared to that of 1991 Census. The nine-fold industrial classification of main workers given in the Primary Census Abstract of 1991 Census has been discontinued and its place, four-fold industrial classification of both 'main workers' and 'marginal workers' are included. In 1981 census only main workers were presented in to four categories. One of the novel features of the primary census abstract of 1991 census was the presentation of data of the population of age group 0-6 is continued in 2001 Census also. This will help the data users in better analysis and understanding of this literacy data.

Level of presentation in District Census Handbooks :

The Primary Census Abstract data in different PCAs are presented at different levels. The level of presentation of Primary Census Abstracts are as under:

	Name of the Primary Census Abstract	Level of presentation
1.	District Primary Census Abstract	District/Mandal Parishad/UA/City/Town
2.	Primary Census Abstract for Scheduled Castes	District/Mandal Parishad/Town
3.	Primary Census Abstract for Scheduled Tribes	District/Mandal Parishad/Town
4.	Village Primary Census Abstract	Mandal Parishad/Village wise
5.	Urban Primary Census Abstract	Town/Ward level

The PCA Data for villages was presented Mandal Parishad wise for the first time in 1991 Census. This practice is continued in 2001 Census also. The data for each Mandal Parishad is presented both for rural and urban areas separately. All the villages within the Mandal Parishad constitute the rural portion and the Census Towns and Outgrowths are shown under the urban portion of the Mandal Parishad. In case a Mandal Parishad is spread over two or more districts, than portion which falls within the district is presented, the data pertaining to remaining portion of the Mandal Parishad is presented in the concerned District Census Handbook. The data in the Urban Primary Census Abstract for each town as well as for town with outgrowths in the district are presented. The data for all the wards and the outgrowths of the town(s) are also presented separately below the concerned town(s).

The District Primary Census Abstract is presented in 59 columns. The Primary Census Abstract for Scheduled Castes and Primary Census Abstract for Scheduled Tribes are presented in 52 columns. The Village Primary Census Abstract and Urban Primary Census Abstract are presented in 58 columns.

The concepts and definitions used in the column heading are explained under the sub heading 'Census Concepts' in the Analytical Note. The term 'Total Population' includes the Scheduled Castes, the Scheduled Tribes, the Institutional and the Houseless populations. The explanation regarding area figures presented at various level in the Primary Census Abstracts are as follows:

Area Figures

The area figures supplied by local revenue authorities of the district in respect of mandals, Police Stations and by the local bodies in respect of towns are given in square kilometers. The area figures of the villages supplied by the Mandal Revenue Officers in acres have been converted and shown in hectares. The area figures of the Mandal Parishad is the total of the village areas coming under each Mandal Parishad. The area figures for the district are the same as adopted by the Surveyor General of India to maintain uniformity at the national level. The total area figures of all the mandals/Mandal Parishads within the district may not tally with area figures of the district because former represents land use area only. Similarly, the total of all the villages may not tally with the entire rural of Police Station/mandal. The difference may be due to the fact that while the area covered by hills, forests and rivers etc, have been accounted in the mandals and P.S. level the same may not be covered under the area of the villages. Apart from this it may also differ due to varying methods of computation adopted at different levels.

An appendix to District Primary Census Abstract has also been furnished showing urban enumeration block-wise particulars on Total Population, the Scheduled Castes Population and the Scheduled Tribes Population for each town.

Annexure - I
Fertility and Mortality, 1991 Census

Crude Birth Rate is the most commonly used measures of fertility. To know the fertility rates, certain information was collected from all ever married women during 1991 Census such as (i) Age at marriage (ii) Number of children ever born alive. For currently married women, in addition to above data, if any child born at preceding one year from the date of Census is also collected. Definition of fertility measures is given in the chapter on Census concepts.

Fertility Levels:

This is dependent on fertility pattern by age, which is indicated by the age specific fertility rates. General Fertility Rate, Total Fertility Rate and Gross Reproduction Rate are other indicators of fertility. Fertility measures were worked out on F-series tables of 1991 Census of Andhra Pradesh.

An analysis of these measures is given in the subsequent paragraphs.

Age Specific Fertility Rates, 1991 Census

The following statement shows the age specific fertility rates for Total, Rural and Urban areas of the district along with the corresponding fertility rates of State during 1991 Census.

Annexure –I (a)

Source : *F-series tables of 1991 Census & Andhra Pradesh District profile, 1991.*

Khammam has recorded the ASFR above the State average except in all the age groups both in rural and urban. Among the age groups, the highest ASFR recorded in the age group of 20-24 with 0.189 in the district as against the State average of 0.179. This district has also recorded higher rate in the rural with 0.192 in the age group of 20-24 which is higher than that of State average of 0.185

Age Specific Marital Fertility Rates :

The following statement shows age specific marital fertility rates for rural and urban areas of the district and State as well. This rate has been calculated with number of Live births in a year to married female population in any specific age group normally expressed per 1000 married women.

Annexure –I (b)

Age Specific Marital Fertility Rates/Levels, 1991

Age Group	Khammam District			Andhra Pradesh State		
	Total	Rural	Urban	Total	Rural	Urban
1	2	3	4	5	6	7

Source : *F-series tables and Andhra Pradesh, District Profile, 1991 Census.*

It is seen from the above table, Khammam ASMFR has recorded higher than that of State rate in all the age groups. On comparison with the urban areas, the rural areas have recorded higher rates in almost all age groups in both district and State except in few cases.

Estimates of Child Mortality, 1991 Census

The estimates of child mortality indicators are classified into four groups as Q1,Q2,Q3 and Q5 at 1991 Census. Q1 indicates number of children who died at age below one year. It can be used as approximate value of Infant mortality rate(IMR) Number of children died between age 1 and 2 years are shown under (Q2), number of children died between 2 and 3 years as (Q3) and number of children died between 3 and 5 years as (Q5). This indicator is also known as under five mortality rate(U5MR)

The following statement shows estimates of child mortality indicators by sex at Khammam district and Andhra Pradesh State, 1991 Census.

Annexure –I (c)

Estimates of Child Mortality, 1991 Census

Age Group	Khammam District			Andhra Pradesh State		
	Persons	Males	Females	Persons	Males	Females
1	2	3	4	5	6	7
Q1	47	44	50	55	67	51
Q2	49	52	46	56	59	50
Q3	58	62	55	59	61	56
Q5	68	74	61	67	68	66

Source : *R.G's occasional paper number 1 of 1997.*

The above statement reveals that Khammam district has lower child mortality than that of State except slight increase in the age group of Q5. The district has recorded the male child mortality more than the female child mortality except in Q1. But the male child mortality of the State is more than the female mortality rate in all the age groups.

In demography, the terminology used in computing the above different fertility rates are mentioned in the Non-Census concepts chapter i.e.,Analytical note item No. (ix).

The above statement shows various measures of fertility and mean age at marriage recorded at 1991 Census in Khammam district and Andhra Pradesh State.

Annexure III
Percentage distribution of Migrants by place of birth/place of last residence, 1991 Census and 2001 Census

Migration :

During 1991 Census, the migrants by place of birth were broadly classified as (A) Migrants born within the State of Enumeation (B) Migrants born in other States of India and (C) Migrants born in other Countries. The migrants born within the State are divided again as (i) Migrants born elsewhere in the district of Enumeration and (ii) Migrants born in other districts of State. Migrants by place of birth have returned 194.64 lakhs in Andhra Pradesh State comprising 62.53 lakhs of males and 132.11 lakhs of females. It has been constituted 29.27%, 18.54% of male and 40.30% to the total population, males and females respectively in the State.

The following statement shows the distribution of migrants by place of birth, by sex in the district and State.

Annexure – III(a)

Distribution of Migrants by Place of Birth and Percentage, 1991 Census

Place of Birth	Khammam District 1991 Census			Andhra Pradesh State 1991 Census		
	Persons	Males	Females	Persons	Males	Females

Source: Part –VA and VB – D Series, 1991 (Vol-I).

It is seen from the above statement that the Intra-district migration by place of birth is found more in both Khammam district and State.

The percentage of inter-district migrants of Khammam district was dominated in both sexes as against State rate. The percentage of female migrants is more in intra-district while lesser in other two categories of migration i.e., born in other district of State and other States of the country. The intra district percentage migration is more among females due to marriages which is common to every woman.

The following statement shows the Rural and Urban Composition of internal migrants by place of birth at 1991 Census for Andhra Pradesh and Khammam district.

Rural and urban components of migration

The flow of migrants by place of birth have classified into four streams such as (i) Rural to Rural (ii) Rural to Urban (iii) Urban to Rural and (iv) Urban

to Urban. The data in respect of migration have been shown in the statement on the basis of these four streams relating to internal migrants i.e., within the country..

The Andhra Pradesh State has recorded with 184.07 lakhs of intra-state migrants in the 1991 Census. Of the 184.07 lakhs of intra-state migrants, 63.92% have been moved from Rural to Rural followed by 20.95% Rural to Urban 9.34% Urban to Urban and 5.72%Urban to Rural. While migrants by place of birth from other States to Andhra Pradesh have been accounted for 10.27 lakhs. The distribution of the said migrants was Rural to Rural as 33.94%, Rural to Urban as 21.77%, Urban to Rural as 10.73% and Urban to Urban as 33.4%. The higher migration by place of birth was found in Rural to Rural in the State.

The Khammam district has returned with 7.01 lakhs of migrants within the State and 13.52 thousands were from the other States of India through the four streams of migration. The flow of migration within the State in the district has Rural to Rural, Rural to Urban, Urban to Rural and Urban to Urban with 65.48%, 19.37%, 6.34% and 8.79% respectively. While the migrants from other States of India have comprising Rural to Rural 42.18%, Rural to Urban with 17.99%, Urban to Rural with 20.64% and Urban to Urban by 19.19%. The higher migration by place of birth was found in Rural to Rural with 42.18%.

Inset table to Annexure III(a)

Source: *Migration Tables (D Series) - 2001*

The migrants by place of birth were returned 194.6 and 228.3 lakhs in Andhra Pradesh State as per the 1991 and 2001 Censuses respectively. It shows a growth rate of 17.3% total migrants over 1991 Census with a breakup of 21.8% males and 15.2% females. In Khammam district the migrants are 714,499 persons as per 1991 Census whereas 827,060 persons are in 2001 Census with a growth rate of 15.8% over 1991 census. In both the Censuses the female migrants are more than male migrants due to marriages.

In respect of inter district migrants, male migrants are forming less percentage than female migrants whereas the intra district migration males percentage is dominating. In the case of intra-state migrants the males are more than females in both the Censuses. In case of International Migrants, a mild variation can be observed i.e. 0.1%.

Rural and Urban Components of Migration :

The flow of migrants by place of birth have classified into four streams such as (i) Rural to Rural (ii) Urban to Urban (iii) Urban to Rural and (iv) Rural to Urban. The data on the basis of these four streams in case of migrants is classified by place of births. It presents data only in relation to internal migration.

The above statement gives the information on movement of migration in Andhra Pradesh and Khammam district through the four streams within the state and other states of India. Of the total 184 lakhs of intra state migrants in Andhra Prtadesh have been moved from rural to rural with 63.9 % followed by rural to urban with 21.0% from urban to urban with 9.3% and urban to rural 5.7%. In case of migrants the place of births from other states to Andhra Pradesh they have been accounted for 10.27 lakhs. The distribution of 10.27 lakhs of migrants where from rural and rural with 33.9%, rural to urban 21.8%, urban to rural with 10.7% and urban to urban by 33.4%. The higher migration the place of births has found in rural to rural in the state.

Of the total internal migrants of 7.0 lakhs in Khammam district, 65.5% have moved from rural to rural and 8.8% have moved from urban to urban 19.4% have moved form rural to urban and 6.3% from urban to rural.

In case of Khammam district 13,515 migrants came from other states. 42.2% persons who born in rural areas have settled in rural areas of the district and 18.0% of people from rural areas of other states settled in urban areas. Similarly 19.2% of people who born in urban areas of the other state settled in urban areas and 20.6% in rural areas.

This annexure shows percentage distribution of migrants by place of birth as recorded in 1991 census. For all districts of Andhra pradesh the persons born elsewhere in the district of enumeration works out to 71.0 percent whereas in respect of persons born in other districts of Andhra Pradesh, born in other states and other countries works out to 23.6%, 5.3% and 0.2% respectively. In respect of Khammam district the persons born elsewhere in the district of the enumeration recorded 63.8% and the persons born in other districts of the state returned 34.3%. Among the migrants of the district, the persons born in other states works out to 1.9% whereas in respect of persons born in other countries, their percentage is negligible. Out of 1.95 crores of migrants of the state, 7.1 lakh migrants belong to Khammam district. It is interesting to note that the female migrants are more in number than males in all the districts of the state except Hyderabad district.

Source: *Migration Tables (D Series) - 2001*

The above annexures show the percentage distribution of migrants by place of birth as recorded in both the Censuses of 1991 and 2001 in Andhra Pradesh state. It is observed that 3.0% increase in the migration who were born elsewhere in the district of enumeration with a sex breakup of 3.0% each, whereas in respect of the migrants who were born in other districts of the state, in other states of the country and in other countries are recorded with a difference of -2.2%, -0.8% and -0.1% respectively between two censuses of 1991 and 2001.

In respect of Khammam district the difference between the two Censuses can be observed with 6.9% percentage in the persons born elsewhere in the district of the enumeration, with the sex-wise break up of 8.3% males and 6.1% females. Regarding the migrants from other states in India only a minor variation is recorded with (-)0.2%.

Among the migrants that are born in the Abroad no change is noticed in the percentage variation between 1991 and 2001 censuses.

Annexure IV
Brief account of Main religions in the district/ mandal as per 1991 Census and 2001 Census

Religion :

The data on religion has been collected and presented for 6 major religions viz. Hindus, Muslims, Christians, Sikhs, Jains and Buddhists. In respect of minor religions, they have been classified and shown under the category "Others".

During 1991 Census the religion data was collected through question No.8 of the individual slips and recorded the religion as stated by the individual under six major religions. The minor religions other than these six religions, as reported by the respondent, recorded and classified under the category "Others".

During 1991 Census six main religions were found in Khammam district with 20,50,755 Hindus, 1,33,209 Muslims, 30,492 Christians , 142 Jains, 86Buddhists and 341 Sikhs. Hindus, Muslims and Christians were occupied 1st, 2nd , and 3rd places in the district which coincides with State position. The percentage of those three religions in the district were 92.55, 6.01 and 1.38 respectively. The Jains, Buddhists and Sikhs were recorded in hundreds only.

Hindus, Muslims and Christians were returned in all the 46 mandals of the district. While Hindus were dominated in all the mandals of the district, Muslims and Christians were retained 2nd and 3rd positions.

The Muslims were recorded more in Khammam Urban mandal with 29,366 persons followed by Kothagudem Mandal with 18,200 persons and Yellandu mandal with 9,471 persons, while lowest was recorded in Vararamachandrapuram mandal with 91 persons. The Christian religion was covered in all the mandals with little population. The highest number of Christians were recorded in Kothagudem mandal with 5,745 persons followed by Khammam(U) mandal with 4,242 and Wyra H/o Somavaram mandal with 1,910 persons while Vararamachandrapuram mandal recorded lowest with only seven persons..

As regards the statistics of the remaining three religions in the district, 142 Jains have been spread over in the mandals of Bhadrachalam, Burgampad, Kothagudem, Yellandu, Garla, Khammam Urban , 86 Buddhists were covered in six mandals while 341 Sikhs have been found in 11 mandals in the district during 1991 Census.

Source: Religion Data, Andhra Pradesh - 2001

The above table gives the details of Main Religions in the district for 2001 census whereas the previous Annexure shows the details of main religion in 1991 census. During 2001 census the religion data was collected through question number 7 of household schedule. Out of the total population of the district Hindus have returned 93.3% during 2001 census as against 92.6% in 1991 census. In respect of Muslims they have returned 5.3% in 2001 whereas their percentage during 1991 was 6.0%. The next main religion in the district is Christians who returned 1.2% during 2001 census as against 1.4% in 1991 census. The main reason for decrease in the decadal growth among Christians can be attributed to get enrolled under Scheduled Castes to get benefits from the government. In respect of remaining main religions viz. Sikhs, Buddhists, Jains and others their strength in the district is negligible.

Annexure IV (b)

Percentage distribution of population by major religions in India, Andhra Pradesh and Khammam district and its growth rate during 1981-1991

Sl. No.	Name of Religion	India		Andhra Pradesh		Khammam District	
		Percentage of 1981-91	Percentage growth rate Population	Percentage of 1981-91	Percentage growth rate Population	Percentage of 1981-91	Percentage growth rate Population
1	2	3	4	5	6	7	8
1	Hindus	82.4	22.3	89.14	24.74	92.55	27.74

India- State- District differentials :

The comparative data on religion among India, Andhra Pradesh and Khammam district reveals that concentration of Hindus was higher followed by Muslims and Christians as per 1991 Census findings. Hindus were returned on the higher side in the state with nearly seven percent more than the national average, while in Khammam district they were more over ten percent than national and nearly three percent more than the State. They constituted 82.4%, 89.14% and 92.55% in India, Andhra Pradesh and Khammam district respectively. Muslims recorded as 11.7% in India, 8.91% in Andhra Pradesh and 6.01% in the district. It shows their percentage in the district is less than the percentage of India and the State. The percentage of Muslims in the State is less than the Country, while the percentage of Christians in the country is more than the State i.e., 2.3% in India 1.83% in the State and 1.38% in the district. Buddhists, Sikhs and Jains formed less than 1% percent both in the state and district, whereas Sikhs recorded 2% in the country and their population in the state is 0.03% in the district is 0.02%.

Religion-wise growth in the State during the decade 1981-1991 shows that Hindus recorded higher growth rate than India as a whole i.e. 24.74% as against 22.3% in India. The growth rate of Hindus in the district is more than State and Country i.e. 27.74%. The growth rate among the Muslims is less than that of State and Country i.e. 29.25%. The Christians population has decreased in the State, as well as in the district.

Inset Table to Annexure IV (b)

Source: Religion Data, Andhra Pradesh - 2001

This table gives the comparative data on religions among India, Andhra Pradesh and Khammam district between 1991 and 2001 census, whereas the previous Annexure furnish the comparative data on religion during 1981 and 1991. At India level among the total population returned in the 2001 census Hindus constituted 80.5% as against 82.4% in 1991. The percentage growth rate of Hindus during the decade

1991-2001 has recorded 20.3 whereas the corresponding growth rate during 1981 and 1991 was 22.3%. It clearly shows that growth rate in Hindu population is diminishing which can be attributed that the people of this religion is more conscious about family planning methods. In Andhra Pradesh the percentage of Hindus has recorded 89.0 whereas the corresponding figure during 1991 was 89.1%. However the percentage growth rate of Hindus has fallen to 14.4 from the percentage growth rate of 24.7 as recorded during the decade 1981-1991. In Khammam district though the percentage of population of Hindus recorded 93.3% as against 92.6% in 1991 their growth rate in 1991-2001 has fallen to 17.3% as against the growth rate of 27.7 % in 1981-1991.

In respect of Muslims, their percentage to total population has recorded 13.4 at India level as against 11.7% in 1991. In Andhra Pradesh their percentage has gone up to 9.2% from 8.9% in 1991. In respect of Khammam district, Muslims constituted 5.3% of total population during 2001, whereas the corresponding figure recorded in 1991 was 6.0%. However in this district the growth rate in the decade 1991-2001 has declined to 3.3% as against the growth rate of 29.3% recorded in 1981-1991.

The other main religion going by numerical strength is Christians. They constituted 2.3% of total population at India level during 2001census. Their growth rate during the decade 1991-2001 is 22.6% at India level as against the growth rate of 16.9% recorded in 1981-91. In Andhra Pradesh their percentage growth rate continues to show the negative trend. The percentage growth rate of this community recorded during 1991-2001 is (-) 2.8 as against (-) 15.1 recorded during decade 1981-1991. In Khammam district during 2001 Christians constituted 1.2 % to total population as against 1.4% in 1991. The percentage growth rate of this community during 1991-2001 has recorded 0.9% as against (-) 28.7 % in 1981-1991. In respect of other main communities their growth rate is negligible.

Annexure IV (c)

Distribution between Rural and Urban area of Major religions in Andhra Pradesh and khammam district - 1991

Sl. No.	Name of Religion	Andhra Pradesh (in %)		Khammam District (in %)	
		Rural	Urban	Rural	Urban
1	Hindus	76.55	23.45	81.96	18.04
2	Muslims	41.83	58.17	51.53	48.47
3	Christians	60.48	39.52	57.43	42.57
4	Jains	4.11	95.89	28.87	71.13
5	Buddhists	80.41	19.59	24.42	75. 58
6	Sikhs	10.85	89.15	24.93	75.07

Rural - Urban differentials :

In Andhra Pradesh and Khammam district, it is seen that Hindus form considerably higher in rural areas i.e., 76.55% and 81.96% respectively. Similarly Christians form higher percentage in rural areas than urban in the district and also in the state. But Muslims and Jains form higher percentage in the urban areas of the State, while it is vise-versa in case of the district. The Jains, Sikhs and Buddhists are more in urban areas than rural areas in the district, but Buddhists are more in rural areas of the state and urban areas of the district.

Inset table to Annexure IV (c)

Distribution between Rural and Urban area of Major religions in Andhra Pradesh and Khammam district - 2001

Sl. No.	Name of Religion	Andhra Pradesh (in %)		Khammam District (in %)	
		Rural	Urban	Rural	Urban
1	Hindus	76.3	23.7	81.9	18.1
2	Muslims	41.9	58.1	54.7	45.3
3	Christians	55.0	45.0	61.0	39.0
4	Jains	5.0	95.0	53.0	47.0
5	Buddhists	66.0	34.0	57.0	43.0
6	Sikhs	17.0	83.0	41.0	59.0

Source: Religion Data, Andhra Pradesh - 2001

The above table indicates the distribution of major religions between rural and urban in Andhra Pradesh and Khammam district during 2001 census whereas the previous Annexure has given details recorded in 1991 census. The above Annexure and inset table to Annexure show that the distribution of religions between rural and urban at state level as well as at district level. In 2001 Census all the above said religions except Sikhs are resided more in rural areas of the district whereas at State level Hindus, Christians and Buddhists are lived more in rural areas but Muslims, Jains and Sikhs are concentrated in urban areas than the rural areas in both the Censuses.

In 1991 Census at district level Hindus, Muslims and Christians are concentrated in rural areas only.

Annexure V
Marital status of population as per 1991 Census and 2001 Census

Marital status has been classified as (i) Never Married, (ii) Married, (iii) Widowed and (iv) Divorced or Separated. To ascertain the marital status of a person, it has been made in the following manner.

(i) A person who has never married at any time before, treated him/her as never married

(ii) A person who has been married, whether for the First or another or at any time and whose marriage is subsisting at the time of Enumeration with the spouse living treated such a person as married

(iii) A person whose husband/wife is dead and who has not been married again, treated her/him as widowed

(iv) A person who has been separated from wife or husband and is living apart with no apparent intention of living together again or who has been divorced either by decree of a law of court or by an accepted social or religious custom but who has not re-married, treated such a person as Divorced/Separated.

The following statement shows the Age, Sex and Marital Status composition of the population separately for Total, Rural and Urban in Khammam district during the 1991 Census.

The district has returned 22,15,809 persons during 1991 Census, comprising never married, married, widowed and divorced or separated with 1071096 (48.34%), 1043015 (47.07%), 90828 (4.10%) and 10840 (0.49%) respectively. The percentage of Never Married and Married was almost equals with slight variation i.e. 1.27% only.

The population have been distributed in 18 age groups. Among 18 age groups, the highest number of persons were recorded in 0-9 age group at both rural and urban in the district. In the above statement married, widowed and divorced/separated persons among both male and female were found in the age group of 10-14, which reveals bad event of child marriages in the district. Both males and females were seen as Never Married in all the age groups. The reasons for Never married in the old age group, perhaps due to physically handicapped-ness or mentally retard-ness. There is no specific reason collected during the Census of India 1991 for it.

In the sex break-up, the percentages among males and females under 4 categories [i.e.Never Married, Married, Widowed and Divorced/Separated] were 53 and 43, 45and 49, 1.5 and 6.8, 0.3 and 0.7 respectively. The female percentage was dominated in all the categories except never married category.

Source: Socio-cultural Tables (C-Series) - 2001

The above inset table gives the details by age, sex and marital status composition of the population separately for total, rural and urban areas of the district during 2001 census, whereas the previous Annexure shows the above details for 1991 census. In 1991 while furnishing age group-wise marital status data, a separate age group 15-44 where the marital status was high has been shown. In 2001 census keeping in view of persons aged less than 18 years and persons aged less than 21 years, being high concentration of marital status, has been furnished. In the district population of 2,578,927 persons, 649,998 (25.2%) males and 514,183 (19.9%) females were recorded as never married. In the total district population, 633,821 (24.6%) males and 649,981 (25.2%) females were found married during 2001 census. It is pity to note that as against 98,568 widows 18,388 widowers were found in the district during 2001 census. The reason for high percentage of widows can be attributed to aged males marrying younger females. As against total population of 995,995 persons in the age group less than 18 years, 51.2% males and 47.0% females were found never married in 2001 census. In respect of married persons under the age group less than 18 years, only 0.2% males and 1.5% females were recorded in 2001 census which means public are more conscious about Marriage Act and also ill-fate of early marriages. Similar trend is noticed both at rural and urban areas even for age group less than 21 years. There is no much variation in the figures of marital status of the district between 1991 and 2001 censuses.

Annexure VI
Age , sex and Education in the district as per 1991 Census and 2001 Census

The education table was worked-out on the basis of literates in the district.

Definition of literate:

A person who can both read and write with understanding in any language is to be considered as literate. If a person who can merely read but cannot write is not a literate. It is not necessary that a person who is literate should have received any formal education or should have passed any minimum educational standard. All the children in the age of 6 years or less have been treated as illiterate even if the child is going to school and may have picked up reading and writing.

The following table gives age, sex and education in the district at 1991 Census.

The literacy rate of the district has registered with 40.50% which is the lesser than that of State average of 44.08%. The female literacy rate is 30.53% as against the male literacy of 50.04% in the district. The female literacy was lesser than that of male literacy in most of the age groups. The higher literacy rate has recorded with 73.03% in the age group of 11 years, while lesser rate was found with 9.43% in the age group of 80+ in the district. When comparing with male literacy, the female literacy rate was found abnormal variation in the age groups of 40-44 to 80+ in the district.

It is also seen from the above statement that the literacy rate was found less than 20% only among the persons who born prior to the Independence days. It indicates 80% of the population were illiterates and more than 90% of females were illiterates among this age people.

Source: Socio-cultural Tables (C-Series) - 2001

The Annexure presented in the pre-page gives the details of Age, Sex and Education in the district for 1991 census whereas the above inset table reveals the data for 2001 Census. As was done in the previous Census, the children in the Age group 0-6 have been treated as illiterates even in 2001 census. It is seen from the above table that the district has recorded 56.9% literates in 2001 as against 40.5% literates in 1991. In the district the literacy rate for males has recorded 66.1% as against 47.4% in females during 2001 Census. From the above inset table it is noticed that in the school going age groups i.e 7 to 14 years, their literacy rate recorded between 72.9% and 81.6%. In all the age groups male literates are dominating females. The highest educated are found in the age group 11 years with 89.3% and their sex-wise breakup recorded 92.6% in males and 85.8% in females. It is a good trend that the essentiality of the education is felt much by the general public.

Annexure VII
Distribution of different mother tongues returned in 1991 Census at District/ Mandal level and the data at District level for 2001 Census

Mother Tongue :

Mother tongue is the language spoken in the childhood by a person's mother to the person. If mother dies in infancy, the language mainly spoken in the person's home in childhood will be treated as mother tongue. In the case of infants and deaf-mutes the language usually spoken by the mother will be the mother tongue. A very large number of mother tongues have been returned during 1991 Census. It lead to thorough scrutiny and rationalisation, which resulted in 1576 rationalised mother tongues and 1796 names were treated as unclassified or "others". The 1576 rationalised mother tongues were further classified following the usual linguistic methods for rational grouping based on available linguistic information. Thus a total inventory of classified mother tongues returned by 10,000 or more speakers at the all India level were grouped under appropriate languages, where possible, was prepared for final presentation of the 1991 Census data. The total number of languages so arrived at is 114. Of which 18 languages are included in Eighth Schedule to the constitution of India(Scheduled languages).

Khammam district was dominated by returns of Telugu speaking people with 17,35,068 out of 22,15,809 persons, forming 78.30%. The languages viz., Telugu, Hindi and Urdu had occupied 1st ,2nd and 3rd ranks with 78.30%, 9.49% and 5.24% in the district.There were 1,41,909 persons who fall under other languages, forming 6.40% in the district during 1991 Census. Telugu is the predominant language in all 46 mandals as well as in the towns.

The following statements gives the languages mandal-wise, Town-wise in the district.

N= Negligible

The above inset table gives the abstract of the languages as mother tongues and their strength in the district recorded in 2001 Census whereas the previous annexure shows the details for 1991 census. In 1991 the data was presented in alphabetical order whereas in 2001 the mother tongue data has been presented basing on their numerical strength in descending order. The mother tongues having minor returns have been clubbed together and added in the category of 'Others'. Telugu being the regional language has recorded 76.8% to total population in the district with a slight decline in the percentage recorded in 1991 (78.3%). The next highest language being spoken is Hindi with 10.3% to total population of the district whereas in 1991 the percentage of Hindi speaking people recorded 9.5. As per 2001 census, Urdu speaking persons recorded 4.8% of the total district population, Koya language which is not a specified language has recorded 7.3% of total district population and this has been clubbed with other mother tongues.In respect of other schedule languages it is noticed that their strength is negligible both in 1991 and 2001. In the district almost all the schedule languages (except Manipuri) returned.
