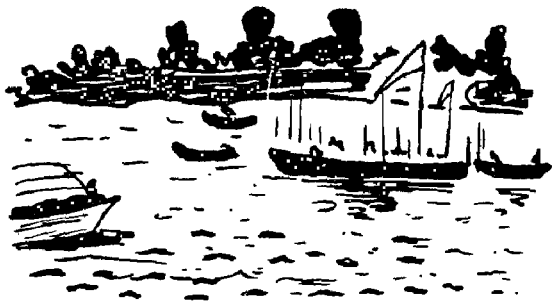
SANGAM



The Sangam (Tribeni) a junction of the three rivers Ganges, Jamuna and Sarswati, became celebrated as Prayag or the place of sacrifice in the very remote times not improbably at an epoch when three rivers existed in reality. The legend of the Sarswati is not only very old but very widely diffused, and the oft observed phenomenon of subterranean channels, in the centre of the Duab lands colour to the theory that at one time an actual and visible river flowed between the Ganges and the Jamuna. It was here that Brahma is said to have performed the ASWAMEDHA or horse sacrifice in token of his universal supremacy, although the honour is claimed by other places, and here the deity commemorated the recovery of the four VEDAS from Sankhasur. This place is a place of pilgrimage for every Hindu.

ACKNOWLEDGEMENTS

At the 1971 Census it has been our endeavour to compile both Census and non-Census statistics at the village and block level in uniform manner. To ensure that these statistics are available to the users as soon as these are sifted and compiled, the District Census Handbook has been divided into three parts. This is the first part of the series, the and Town Village Directory, which mostly comprised Non-census data.

We are deeply indebted to the State Government for their everwilling and prompt help to us at all stages. The District Census Handbooks are being published by us on their behalf. I wish to express my gratitude to Sri M. Lal, Chief Secretary to U. P. Government, for all the guidance and facilities afforded to us in the conduct of Census in this State. I am also gtateful to Sri P. C. Pandey, Secretary, G. A. D. (now Commissioner, Rohilkhand Division, Bereilly) and his successor, Sri A. P. Dixit, for the facilities given by them in sorting out various administrative matters relating to the publication of these Handbooks. I am extremely thankful to the District Officers for their whole-hearted co-operation in furnishing the desired information and the District Census Officers for their hard work and sustained efforts in collecting the same.

The programme for the printing of District Census Handbooks has been heavy indeed, more so as three parts are being published, one in Hindi and two in English. The arrangements made by Sri A. Dar, Superintendent, Printing and Stationery, U. P. Allahabad for the printing of these volumes, are thankfuliy acknowledged. Joint Superintendent, Sri J. S. Gupta, In-charge New Government Press, Aishbagh, Lucknow has also been extremely helpful in bringing out the maps.

In the Census Office, everyone has done something for this stupendous task of compilation and collation of statistics, preparation of notes and reading of proofs. I am grateful to Sri B. B. Pande Deputy, Director, Headquarters, the Tabulation Officer, and other staff of the Technical Section, who have shared the burden and helped in bringing out these Handbooks.

I must also express my gratitude to Sri A. Chandra Sekhar, Registrar General, India, Sri K. D. Ballal, and Dr. B. K. Roy Burman, Deputy Registrars General and Sri K. K. Chakravorty, Central Tabulation Officer for their constant help and guidance despite their own heavy preoccupations.

D. M. SINHA
Director of Census Operations
Uttar Pradesh.

INTRODUCTORY NOTE

1. History of District Census Handbook.

It has been customary to bring out vital statistics at most of the Censuses. A list showing the population of villages in each district was published after the 1891 Census. Such information was, however, not brought out in 1901, Village Directories were prepared for all districts in 1911, but could be published only for thirteen due to the outbreak of the First World War. At the 1921 Census, these were published for all districts in the form of District Census Statistics. In 1931 villagewise statistics were compiled but could not be published owing to financial stringency, resulting in loss of valuable data. At the 1941 Census, restricted tabulation was undertaken in the wake of the Second World War, but the utility of Census statistics was recognised and these were published. The District Census Handbook in its present form was brought out at the 1951 Census, and was published alongwith another volume titled District Population Statistics. In 1961 Census, attempts were made to render the District Census Handbook more informative, as in addition to Census data pertaining to each village, data about its level of development and amenities were also collected. At the 1971 Census, efforts have been made to compile both Census and Non-census statistics at village/town level in a uniform manner with an enlarged scope.

As the district Census Handbook makes Census statistics available for the smaller territorial units, it is constantly referred to for several purposes of administration, demarcation of electoral constituencies, planning and development and so on. To ensure that these statistics are available to the users early, the District Census Handbook has been divided for being published separately into three parts :

Part A : Town and Village Directory.

Part B : Village and Town-wise Primary Census Abstract.

Part C : Analytical Report and Administrative Statements—District Census Tables.

2. Scope of District Census Handbook.

Part A of the Handbook comprises the Town and Village Directory. In Village Directory, particulars of amenities in regard to Education, Medical, Power supply, drinking water supply, Post and telegraph and Communications have been given. Besides, it contains land-use statistics, days of weekly markets and places of religious, historical or archaeological interest in each village. The Town Directory comprising seven statements throws light on the status of the town, its origin, growth of population, functional category, location and physical aspects, Municipal finances, Civic and other amenities, Medical and Education facilities and statistics pertaining to Trade, Commerce, Industry and Banking. Apart from these, it also gives the distribution of population of the town by religion and Scheduled Castes/Scheduled Tribes.

Part B represents data down to village level for rural area and block level for towns. It contains the Primary Census Abstract which incorporates figures of area, number of occupied residential houses and households, total population and its break-up by sex, scheduled caste and scheduled tribe, literate population, working population by nine broad industrial categories of cultivators, agricultural labourers, workers engaged in forestry and livestock etc., in mining and quarrying, in manufacture or repair, in construction in trade and commerce, in transport and communications and in other services as well as the non-working population.

Part C deals with the administrative statistics pertaining to the district in all fields of development. The Census tables pertaining to language, religion, migration and economic activities are being reproduced in this part. A write-up indicating changes in socio-economic and demographic characteristics of the district during the last decade is also being included in it.

3. Town Directory --given in Part A presents data for all the Census towns of the district. There is no uniformly accepted definition of a town. The historical, political cultural and administrative considerations are generally taken as criteria for rural-urban classification. An urban area, in contradistinction to the rural, comprises a large majority of inhabitants who are engaged in industrial and non-agricultural activities. In addition to its size, population and occupational characteristics, and urban area provides such facilities as trans ortation, banking, com nercial and technical services, community facilities and other civic services. According to the State Government all Municipal Corporations, Municipal Boards, Cantonment Boards. Notified Areas and Town Areas are considered as tow n, and according to their average annual income from their own resources, these have been classified into different classes of local bodies. The criteria adopted under the Census Operations is slightly different from the State Government. In 1971 Census all places satisfying the following conditions have been treated as Towns :--

1. All Mnnicipal Corporations, Municipal Board, Contonments & Notified Area.
2. All localities though not in themselves local bodies but forming part of a city or town agglomeration.
3. Other places satisfying all the three undermentioned conditions :
   (i) Population exceeds 5,000.
   (ii) At least 75% of the male working population engages in non-agricultural pursuits, and
   (iii) The density of population exceeds 1,000 persons per sq. mile (386 persons per sq. km.)

The information given in the Town Directory relates to the year 1969. The data has been presented in the following seven statements :

(a) Statement I--This statement presents the population of the towns at the end of each decade from 1901 to 1971, the civic status of the towns and their functional categories at 1961 and 1971, Censuses. The functional categories given in columns 14 and 15 have been determined on the basis of the predominant functional character of the town, to derive which, the working population under the broad industrial categories has been regrouped into five broad functional classifications.

(i) Primary Activities-Categories I, II, III & IV
(ii) Industry Categories V (a), V (b) and VI
(iii) Trade and Commerce-Category VII
(iv) Transport-Category VIII and
(v) Services-Category IX

For each town, the percentage of workers under each of the aforesaid classes to total workers is worked out, and where the workers under one of the classes comprise 40% or more of the total workers, the town is taken as mono-functional. In other cases, the next predominant occupation is taken into account and if the total of the two comes to 60% or

above, the town is designated as bi-functional. If the total does not yield 60%, the third predominant occupation is also taken and such a town is treated as multi-functional.

The notations used in column 5 of the statement are :
C--Municipal Corporation
M--Municipal Board
NAC--Notified Aree Committee
TC--Town Area Committee
CB—Cantonment Board

(b) **Statement II**--This statement gives the physical aspects and location of towns. The annual rainfall, maximum and minimum temperature, nearest city with its distance, name of district and tahsil headquarters, railway stations and bus routes etc. have been ndicated. The altitudes of the towns given in col. 3 have been supplied by the Surveyor-iGeneral of India.

(c) **Statement III**--It reveals the municipal finances for the year 1968-69. The receipts through taxes and other sources alongwith the expenditure on general administration, public works and conveniences have been given therein.

(d) **Statement IV**--In this statement, the Civic and other amenities available in the town have been shown such as the system of sewerage, drainage, the number of latrines and method of disposal of night soil, the source and capacity of protected water supply, fire fighting service and electrification. The notations used in the statement are as below :

(f) **Statement VI**-This statement contains information relating to trade, commerce, industry and banking facilities in the towns. The names of important commodities manufactured, imported and exported, the number of Banks and agricultural as well as non agricultural credit societies are given in the statement. The commodities mentioned therein are those

having the highest value in currency. In a few cases, if the town is famous for manufacturing or exporting some particular item, even though the money value is not high, such items have been included.

(g) Statement VII-The census table C-VII giving distribution of population by religion and scheduled castes/scheduled tribes has been reproduced in this statement. While sex-wise following of the more common religions *viz*. Hinduism, Islam, Buddhism, Jainism, Sikhism and Christianity has been given separetely, the persons belonging to other religions and pursuations have been shown in columns 15 and 16 under the heading of 'Others.'

(4) Village Directory--reveals the general living conditions of peasantry and the over all development that has been taken place in the country side. The amenities available within each village in the field of education, medical and health, power-supply, drinking water, communications, Post and telegraph have been given in Columns 4 to 9 of this Directory. Besides, the information relating to staple food, distance from nearest town, days of market/*hat* and places of religious, historical or archaeological interest is also given in the statement. If the village is uninhabited or power is being used for agricultural purpose only, these characteristics have been indicated in the remarks column.

The land use statistics are constantly in demand for Agricultural production programme. These statistics have been given in columns 11 to 15 under the headings (i) Forest, (ii) Irrigated, (iii) Unirrigated, (iv) Cultivable waste and (v) Area not available for cultivation. In column 12, the irrigated area under different sources of irrigation has been separtely given.

The villages have been arranged according to the code number allotted to them at 1971 Census. The informaion has been presented with the help of the following abbreviations :

While calculating the growth rate Hindu and Muslim population Bharatganj and Sirsa newly added towns have been excluded from the total urbun Hindu and Muslim population of the district.

The percentage of scheduled caste population is (14.43%) and that of scheduled tribes (0.04%) in all the tons.w

B-Village Directory

(a) According to their area in acres the villages have been stratified in the following table :

Table 5

Area (in acres)	No. of Villages	Percentage
50 acres or less	271	6.79
51–100	361	9.05
101 200	750	18.81
201-500	1,467	36.80
501–1000	760	19.10
1001-2000	299	7.50

5001 acres and above	5	0.12
Total	3,986@	100.00

@Exclusive of two villages for which information is not available.

It is evident from the avove table that the number of villages having an area of more than 200 acres but not more than 500 acres, account for highest percentage of 36.80 Thereafter, the number of villages goes on decreasing as the size of villages increases or decreas. There are only 5 villages having an area exceeding 5 000 acres. As regards smaller villages, there are only 271 having an area of less than 50 acrei.

(b) The distribution of villages having educational institutions is given in the follOwing table.

Table 6

@ Exclusive of two villages for which information is not available.

The above table shows that the highest percentage of villages having Institutions to total villages fall in the distance group 6 to 10 and lowest in 11 to 15.

c) 63 villages in district Allahabad have hospitals. If all kinds of medical institutions including dispensaries, health centres etc. are taken into account, 176 villages out of 3,986 have medical institutions.

The following table presents the number of medical institutions per 100 Sq. Kms.

Table 7

Name of Tahsil	Total area (in Sq. Kms.)	No. of medical institutions of any kind per 100 Sq. Kms.

Soraon	676.8	7
Phulpur	747.2	1
Handia	771.3	3
Karchana	679.6	4
Meja	2,384.5	1

It transpires that tahsils Manjhanpur, Phulpur and Meja each have 1 medical institution per 100 Sq. Kms. Soraon has the highest institutions per Sq. Km. (7) followed by Sirathu (5).

(d) 701 villages are electrified in the district out of 3,986 villages. Their percentage comes to 17.59.

The largest number of electrified villages (323) lie in Tahsil Handia and minimum in Tahsil Manjhanpur (1). The power supply in villages with reference to their distance from the nearest town is given in the following table.

Table 8

Distance from the nearest town (in Km.)	Total No. of villages	Number of villages with Electric Power supply
