CENSUS OF INDIA 2001

ANDHRA PRADESH

DISTRICT CENSUS HANDBOOK

Part - A & B

MAHBUBNAGAR

VILLAGE & TOWN DIRECTORY

VILLAGE AND TOWNWISE PRIMARY CENSUS ABSTRACT

लोकाभिमुख
PEOPLE ORIENTED

Director of Census Operations, ANDHRA PRADESH

Foreword

The District Census Handbook (DCHB) published by Census Organisation since 1951 census, is one of the important publications in the context of planning and development at gross-root level. The publication, which is brought out for each district, contains several demographic and socio-economic characteristics village-wise and town-wise of the district along with the status of availability of civic amenities, infrastructural facilities, etc.

2. The scope of the DCHB was initially confined to a few Census Tables and Primary Census Abstract (PCA) of each village and town within the district. Thereafter, at successive censuses, its scope and coverage has been enlarged. The DCHB published at the 1961 census provided a descriptive account of the district, administrative statistics, census tables and a village and town directory including PCA. The 1971 census-DCHB series was in three parts: Part-A related to village and town directory, Part-B to village and town PCA and Part-C comprised analytical report, administrative statistics, district census tables and certain analytical tables based on PCA and amenity data in respect of villages. The 1981 census DCHB was in two parts: Part-A contained village and town directory and Part-B the PCA of village and town including the SCs and STs PCA up to tahsil/ town levels. New features alongwith restructuring of the formats of village and town directory were added into it In Village Directory, all amenities except electricity were brought together and if any amenity was not available in the referent village, the distance in broad ranges from the nearest place having such an amenity, was given. Information on new items such as adult literacy centres, primary health sub-centres and community health workers in the village were provided so as to meet the requirements of some of the Revised Minimum Needs Programme. Information on approach to the village was provided for the first time in the Village Directory so as to give the details on number of inaccessible villages in each district. In the Town Directory, a statement (IV-A) on slums was introduced to provide the details on civic and other amenities in the notified slums of Class I and Class II towns.

3. The 1991 census DCHB, by and large, followed the pattern of presentation of 1981 census, except the format of PCA was restructured. Nine-fold industrial classification of main workers was given against the four-fold industrial classification presented in the 1981 census. In addition, sex-wise population in 0-6 age group was included in the PCA for the first time with a view to enable the data users to compile more realistic literacy rate as all children below 7 years of age had been treated as illiterate at the time of 1991 census. One of the important innovations in the 1991 census was the Community Development Block (CD block) level presentation of village directory and PCA data instead of the traditional tahsil/taluk/PS level presentation. It was expected that the presentation of village directory and PCA data at CD block level will help the planners in formulation of micro level development plans, CD block being lowest administrative unit.

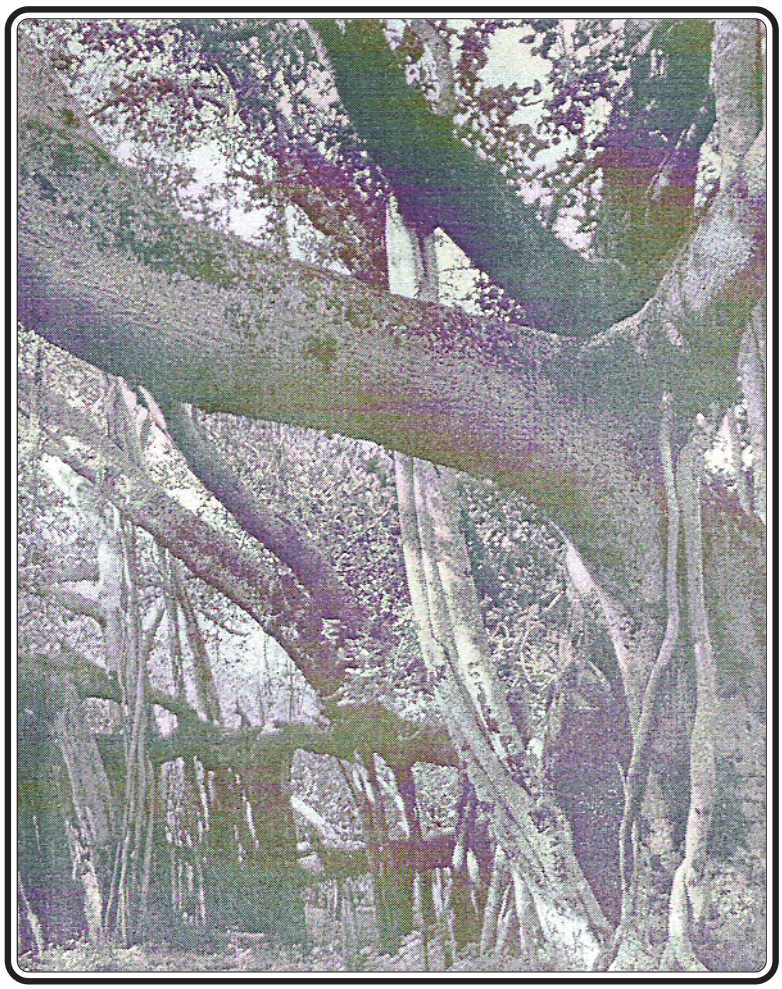

4. The present series of 2001 census DCHBs have been made more informative and exhaustive in terms of coverage and content. The Village Directory has been enlarged in scope by including a number of other facilities like banking, recreational and cultural facilities, newspapers and magazines and ‘most important commodity’ manufactured in village. Income and expenditure of gram panchayat, wherever possible, has been provided. Apart from these, more details on distance(s) at which basic amenities are available (if not available in the village), are given. This includes educational facilities (namely primary and middle schools and college), medical facilities (viz. Allopathic Hospital, Maternity & Child Welfare Centre and Primary Health Centre), drinking water, post & telegraph (post office and phone), communication, bank, credit societies and recreational

facilities. In Town Directory, the statement on Slums has been modified and its coverage enlarged by including details on all slums instead of 'notified slums'. The information is given in case of all statutory towns irrespective of their class, against only Class I and Class II towns in the 1981 and 1991 censuses. The basic amenities available in the villages and towns are analysed in depth with the help of a number of cross-classified inset tables and statements. Two other significant additions in the publication are inclusion of 'motif' highlighting significant characteristic of the district and analytical notes as annexures. The analytical notes on (i) fertility and mortality and (ii) various measures of fertility and mean age at marriage are prepared based on 1991 Census. Whereas, in the notes relating to (i) percentage distribution of migrants by place of birth/place of last residence, (ii) main religions, (iii) marital status of population, (iv) age, sex and education, and (v) distribution of spectrum of mother tongue, nature and extent of changes occurred in the district in its basic socio-demographic features during the decade 1991-2001 are analysed. The eight digits permanent location code (PLCN) to all the villages and towns have been assigned keeping in view the future needs.

5. The village and town level amenity data have been collected, compiled and computerized in prescribed record structure under the supervision of Shri. V.S. Bhaskar, IAS., Director of Census Operations, Andhra Pradesh. Thereafter, efforts have been made to ensure comparability of the information with that of 1991 census data and the information brought out by the respective state governments in their annual reports and statistical handbooks for various years after 1991. The task of planning, designing and coordination of this publication was carried out by Shri R.G. Mitra, Deputy Registrar General (C&T) and Dr. I.C. Agrawal, Senior Research Officer of Social Studies Division. Dr. R.P. Singh, Deputy Registrar General (Map) provided the technical guidance in the preparation of maps. Whereas, Shri Anil Kumar Arora, Deputy Director of Data Processing Division who worked under the overall supervision of Shri Himakar, Addl. Director (EDP) helped in preparation of record structure for computerization of village and town directory data and the programme for the generation of Village Directory and Town Directory statements including analytical inset tables. The draft DCHB manuscripts received from the Census Directorates have been scrutinized in the Social Studies Division under the guidance of Shri S.L. Jain, Deputy Director and Shri R.K. Mehta, Assistant Director. I am thankful to all of them and others who have contributed to make this publication possible.

D.K.Sikri
Registrar General &
Census Commissioner, India.

Pillalamarri

The Motif selected for Mahbubnagar is pillalamarri. It is also called as "Peerlamarri". This is an extremely interesting spot and is located at a distance of 3 Kms. From Mahbubnagar. It has an enormous Banyan tree with wide spreading branches. Nearly five centuries back two saints had chosen this place for meditation. Some called them as Jeetwa and Nathwa and others called them as Zainullah and Ashrafullah who represented the best of Hinduism and Islam. Hence, it is worshipped by both the followers.

The tree is a very old one aging nearly 500 years and it covers an area of about 1.21 hectares (3 acres). From far it appears as a small hillock with green foliage but from near it is like a large green umbrella. It is growing horizontal to the ground. Hence Pillalamarri has become both a worshipping and a picnic spot attracting a large number of visitors. It can be reached both by rail and road from Hyderabad and Kurnool cities.

2. A.P. Tourism Department Pamphlet.

Preface

The District Census Handbook (DCHB) containing Primary Census Abstract and data on "amenities" for each village and town in the district. The intention of this publication is to place the data collected at the Census alongwith the village and town level amenities data collected from the Mandal Revenue Officers/ Municipal officials in this publication. The amenities data is validated by comparing with secondary data obtained from Heads of the Departments. For example, information on schools was compared with data available with Commissioner, School Education and information on post offices was compared with data obtained from the Chief Post Master General and so on. Validation of data in the above manner was by no means an easy exercise. Scores of officials had put in gruelling efforts for months together. The entire data and manuscripts were computerized. We are now reasonably confident of the correctness of the data but we will not make any utopian claims of cent per cent accuracy. There may be errors but we will be safe in saying that they are minimal.

The District Census Handbook is divided into the following major components.

1. Introduction.
2. Brief history of the district.
3. Census and non-Census concepts.
4. A detailed write up on the physical features, major cultural and social events, major developments during the decade, places of religious and historic importance etc.
5. Primary Census Abstract (PCA) at the district level, mandal/town level and village level.
6. Brief analysis of PCA data.
7. Village Directory and Town Directory.
8. Brief analysis on Village Directory and Town Directories.

It will not be out of place to mention here that there is perhaps no other publication from any agency that encapsulates so much data on a district. The amenities data includes information on sectors such as Education, Health, Water and Electricity supply, Communication and Transport facilities etc. The idea of presenting amenities data juxtaposed to the Census data is not only unique but also tremendously useful for the data users.

The District Census Handbook is further enriched with a district map and mandal maps depicting villages/towns with population size and also amenities such as Educational Institutions, Hospitals, Telegraph and Telephone facilities, Banks, Police Station etc.

Some improvement over earlier DCHB have been made to bring more completeness to the data presented in this volume.

1. The names of Colleges, Girls' High Schools, Hospitals run by Government and others have been given as an additional information. Similarly the names of Cinema Halls have been given.
2. Ranking of Mandals according to population is also given.

3. More Appendices and Annexures to important statements are given to make the data more comprehensive.

In the previous Censuses, the manuscripts prepared by this department were supplied to Government of Andhra Pradesh who in turn brought out the publications at their cost. However due to the procedural rigmorale some delay was unavoidable in placing the DCHBs before the data users and planners.

This time, keeping in view the above difficulties, the printing and publication of District Census Handbooks has been taken up centrally under the arrangement of the office of the Registrar General and Census Commissioner, India, New Delhi. The processing of data and preparation of Camera Ready Copies electronically including finalisation of write up was attended to in the office of the Director of Census Operations.

I am grateful to the Chief Secretaries, Principal Secretaries, Secretaries, District Collectors, Municipal Commissioners and other senior officials of the Government of Andhra Pradesh for their co-operation and assistance throughout the Census Operations and in the process of collection of the non-Censal data.

I am extremely grateful to Sri D.K.Sikri, IAS, Registrar General and Census Commissioner, India for the help, guidance and constant support in finalising this volume. My sincere thanks to Sri R.P. Singh, Deputy Registrar General (Map) and Dr.I.C. Agrawal, Assistant Registrar General (SS). Sri. S.L. Jain, Deputy Director for giving guidence, help and co-ordinating this project work and their colleagues in the office of the Registrar General, India.

I also take this opportunity to acknowledge the valuable contribution made for this publication by Sri.J.K.Banthia, Ex-Registrar General, India.

Most of the work relating to DCHB has been carried out under the able guidance and direction of Sri V.S.Bhaskar, IAS, Director of Census Operations, Andhra Pradesh, Hyderabad. I take this opportunity to acknowledge his valuable contribution made for this publication.

The credit for preparation of District Census Handbooks goes to a team of devoted officers and staff of this Directorate who have involved in this project. The names of individuals associated with this project are shown in “Acknowledgements”. I am grateful to all of them.

I hope that the data users will find this publication very useful.

District Highlights – 2001 Census

1. **Mahbubnagar** District stands **2nd**th in terms of area size and ranks 11th in terms of population in the state.
2. **Mahbubnagar** district stands **22nd** rank in terms of urbanisation with a total Urban population **371,355**.forming **10.6** percentage to the total district population.
3. The sex ratio of the district is **972** against **973** in 1991 Census showing downward trend.
4. The density of the district is **191** against **167** in 1991 Census, showing increase over the decade.
5. **Kalwakurthy** village, PLC No. **00659800** is most populated with a population of **25,146**and **Karrevanipalle** village, PLC No. **00633900** is the least populated with a population of **9** in the district.
6. **Mahbubnagar** mandal is most populated with a population of **195,699** and **Lingal** Mandal is the least populated with a population of **28,874** in the district.
7. **Mahbubnagar** Municipality is most populated with a population of **130,986** and **Narayanpet** Nagar panchayat is the least populated with a population of **37,563** in the district.
8. Out of 100 workers **73.2** are engaged in Agriculture sector, **3.9** in Household industry and **22.9** in other economic activities. Thus showing the predominance in **Agriculture** Sector.
9. Out of 100 Male workers in the district **64.7** are engaged in **Agriculture** sector.
10. Out of 100 Female workers in the district **83.6** are engaged in **Agriculture** sector.
11. There is a decrease in the proportion of main workers of the district in the decade (**48.35** percent in 1991 to **42.2** percent in 2001).
12. There is a decrease in the proportion of Male main workers of the district in the decade (**55.13** percent in 1991 to **49.6** percent in 2001).
13. There is a decrease in the proportion of Female main workers of the district in the decade (**41.38** percent in 1991 to **34.5** percent in 2001)
14. The Mahbubnagar district is famous for **ancient temples and Handloom sarees.**
15. **Madgul** Mandal has the lowest number of inhabited villages (**14**) and the highest number of inhabited villages (**38**) are found in **Makthal** Mandal .
16. **Amrabad** mandal has largest area **19863.40** hectares under irrigation, followed by **Dharur** mandal with **7,404** hectares in the district. The mandal with lowest area **968.48** hectares under irrigation is in **Kodangal** Mandal.
17. **Amrabad** village bearing PLC No.**00663600** has the largest area (**35,678** hectares) and **Ramajipalle** village bearing PLC No.**00710700** has the smallest area (**8** hectares) among the villages of the district.
18. Female work participation rate is **47.4** and that of the Males **56.2** in the district.

(i) About the District Census Handbook

District manuals compiled and published prior to 1905 by the erstwhile composite Madras Government contained not only particulars of items of more or less similar and permanent characteristics like history, religion and ethnography, but also a few statistical tables including those relating to population which became obsolete within a few years of publication. Later, the Madras Government replaced the District Manuals by another publication viz., the District Gazetteer consisting of two Volumes A and B. Volume-A contained descriptive and general tables which explains the text and Volume-B contained detailed statistics. It was decided that Volume B should be brought out periodically after each decennial census so that they contain the latest statistics. Volume-A was published for some districts between 1905 and 1927 in the Composite Madras State. The publication of Volume-A was discontinued in 1927. Volume-B was published for all the districts of the Composite Madras State between 1906 and 1915. The publication of Volume-B was also stopped after 1931 Census.

Similarly the Gazetteer volumes were also brought for some of the districts in the erstwhile Hyderabad State. The scheme of publication of revised District Gazetteers was restarted in the year 1958 by the State Governments. The State Editor, District Gazetteers, Government of Andhra Pradesh had published the Gazetteers of all the districts.

The district Census Handbook series was initiated during the 1951 Census. The idea of compiling the District Census Handbooks was pionered by Sri R.A. Gopala Swamy, I.C.S. the then Registrar General, India and Ex-officio Census Commissioner of India, with a view to preserve the census records prepared for areas below the district level. He proposed that all the District Census Tables and Census Abstracts prepared during the process of sorting and compilation, should be bound together in a single manuscript volume and named as the District Census Handbook and suggested that the State Government should take up printing and publication at their own cost. Then onwards, the District Census Handbooks were published in each census with improved pattern with an aim to give the census and non-census data at micro level for the village and district as a whole to suit the requirements of various departments, scholars, research personnel , planners, industrialists, electoral authorities, and other data users, also for efficient public administration by the state.

Pattern at 2001 Census :

The present District Census Handbook of 2001 Census, like the previous Census, is brought out for each district comprising of two Parts. Part- A Village and Town Directory with additional information on amenities viz., availability of commercial banks, recreation, credit societies etc., and land use particulars in the rural areas and Part- B Primary Census Abstract. At the out set an analytical note is given which depicts a general back ground on the district and analytical results on the statements and tables included in the volume. The volume is also provided with brief history of the district, physical aspects, census concepts, non-census concepts, major characteristics with reference to economic resources and administrative set-up during the past decade with few appendixes etc..

Part A–Village and Town Directory :

Section- I i.e. Village Directory gives non-census data on the amenities available in each village in respect of educational, medical, drinking water, power supply, post and telegraph, telephone, approach to village, banks, credit societies, receipt of newspapers and magazines, recreation and cultural facilities, nearest town and its distance, distribution of land use area, income and expenditure of the village and name of the most important commodities manufactured.

If an amenity is not available in the referred village, the distance in broad ranges (Kms.) from the nearest place where the amenity is available is indicated. If the nearest place is situated in another state, name of the other state is also given.

Section-II i.e. Town Directory has been presented in seven Statements viz., Statement – I Status and Growth History, Statement-II Physical aspects and Location of towns, Statement-III Municipal Finance (receipts and expenditure,1998-99), Statement-IV Civic and other amenities, Statement-V Medical, Educational, Recreational and Cultural facilities, Statement-VI Trade, Commerce, Industry and Banking etc., Statement-VII Civic and other amenities in slums and an appendix showing towns with out growths and their population. The reference period for the above statements is 1998-99 and the data is covered for all the statutorily notified towns in the district.

The non-census data at Village/Town level is collected from concerned authorities viz., Mandal Revenue Officers, Municipal Commissioners etc., and scrutinized with meticulous care and validated with the data collected from various departments to provide valid information to the data users.

Part B–Primary Census Abstract :

This data can be stated as the essence of the handbook. The latest census details such as area, total households, population, scheduled castes and scheduled tribes population, literates, workers, etc., are presented in these Abstracts.

(ii) History and Administrative Set-up of the District

Brief History of the District:

The district of Mahbubnagar came under the sway of the Mauryas during the reign of Asoka. The Mauryan imperialism seems to have exerted considerable influence on the lives of the people of Deccan. It appears to have given them a uniform system of administration based upon the Aryan policy which served as a model for the feature Governments in the South. The Deccan served as a ground wherein the Aryan and non-Aryan languages were used to create a prakrit dialect which obtained wide currency.

Asoka's successors were not powerful enough to maintain their hold over the Deccan, as a result of which, the district has come under the rule of the Satavahanas, which was overthrown during the first quarter of the third century A.D. Later, Vindhyasakti, the founder of the Vakataka dynasty and his son Pravarasena I brought a large part of the Deccan under their sway. The Vakataka dynasty ruled for two and half centuries after which it disintegrated and the Deccan passed into the hands of Chalukyas of Badami during the reign of Kirthivarman I. Their rule continued for nearly two centuries except for an interregnums of 13 years from 642 A.D to 654 A.D. during which period the Pallavas of Kanchi occupied the kingdom.

A major portion of the Chalukya Kindgom including Mahbubnagar passed into the hands of Rashtrakutas whose founder was Dantidurga. Dantidurga came into conflict with his Chalukyan overlord Kirthivarman II and defeated him in a battle. The district remained under the Rashtrakutas till the end of their rule as is evidenced by the inscriptions of the reigns of Dhruva, Govinda III and Krishna III. One of the Rashtrakuta feudatories, Chalukya Taila II, overthrew Karakka and re-established Chalukyan hegemony over the Deccan .The Kalyani Chalukyas ruled from 973 A.D. to 1200 A.D.

The district occupied an important place during this period because the Chalukyas and the Cholas contended for supremacy over this region. The Chola and the Chalukyan forces fought a decisive battle at Maski in the doab resulting in the recognition of Tungabhadra as the boundary between the two kingdoms. The city of Pundur (Gadwal) was sacked by the Chola army and razed to the ground. The Cholas did not, in any way, benefit by these battles. Despite this, the Chalukyan sway extended over the whole of the Deccan between the Vindhyas and the Tungabhadra.

The district appears to have come under the sway of the Kakatiyas during the reign of Prola II in A.D.1117. Prola II was succeeded by his son Rudra who was a valiant warrior. Rudra died in a battle and was succeeded by his younger brother Mahadeva and latter by his son Ganapati. Ganapati's rule became one of the most brilliant epochs in the history of Andhra Desa, towards the end of his reign, Ganapati nominated his daughter Rudramba to rule this district.

Prataparudra ascended to the throne of Warangal after the death of his grandmother Rudramba at the beginning of 1295 A.D. His reign which lasted till 1323 A.D. witnessed several invasions against Kakatiya kingdom by the Delhi Sultans. In 1323, Ghiyas-ud-din Tughlaq sent his son Ulugh Khan, who later came to be known as Muhammad-bin-Tughlaq and defeated Prataparudra.

Mahbubnagar district was about this time, ruled by a local family known as the Kanduru Telugu Cholas. Inscriptional evidence pertaining to these chiefs is found at several places in Mahbubnagar and Nalgonda districts. The Kakatiya kingdom, which included Mahbubnagar district was placed under the control of Governor Shihab-i-Sultani entitled Nusrat Khan with the capital at Bidar. The Governor had to pay one lakh tankas as tribute annually. There were

persistent attempts to establish an independent kingdom in the Deccan which resulted in the creation of the Bahmani kingdom in 1346 A.D.

Eighteen rulers held sway over the Bahmani Kingdom from 1347 to the second quarter of the 16th century. Of them, Alau' dinhasan Bahman Shah, the founder of the Bahmani dynasty was an ambitious king. He concluded a treaty with the ruler of Warangal, Kapaya Nayaka. On the death of Alau'din Bahman Shah in 1358 A.D. the kindgom passed into the hands of his son Muhammad-I. Muhammad-I defeated Kapaya Nayaka twice and forced him to conclude a treaty ceding Golconda to the Bahmanis. Subsequently, Warangal was annexed by Recherla Anapota Nayaka of Rachakonda. The relations between the Recherla Chiefs and Bahmani Sultans were cordial till Feroz Shah ascended the Bahmani throne in 1397 A.D. During the reign of Muhammad-III, Prime Minister Mohammad Gawan, divided the Bahmani kingdom into eight Sarlash-karships or provinces of moderate size under this re-organisation, Telangana was divided in to two charges namely Rajahmundry and Warangal. Mahbubnagar district was a part of Warangal province.

Sultan Quli was made the tarafdar of Telangana in 1496 A.D. He was a great diplomat. He was murdered in 1543 A.D. He was succeeded by his son Jamshid, who was in power for seven years. On his death, his infant son Subhan Quli succeeded to the throne, but this succession was generally unwelcomed. As a result of which Ibrahim Qutub Shah, who was a refugee at the Vijayanagar court was summoned to take over the rule of the kingdom. Ibrahim Qutub Shah seldom attempted to extend his domination beyond the confines of the country where Telugu was spoken by a majority of the population. He loved peace and hated disorder and conspiracy, but the forced cession of Kovilkonda, Panagal and Ghanpura to Ramaraja led him to realise the need to curb the power of Ramaraja led him to realise the need to curb the power of Ramaraja. He defeated Ramaraja and killed him in the battle of Talikota in 1565 A.D.

Ibrahim Qutub Shah died in 1580 A.D. and was succeeded by Muhammad Quli Qutub Shah, who was hardly fourteen at the time of his accession to the throne. He was succeeded by his nephew and son-in-law, Sultan Muhammad, who in turn was succeeded by Abdullah Qutub Shah. Abdullah's reign witnessed the zenith of the territorial extent of Golconda. Despite this, he had to submit to the superior power of the Mughal Emperor Shah Jahan and sign the Deed of submission. During the reign of Abul-Hassan Tana Shah, Aurangazeb invaded the Golconda Fort and occupied it in 1687. Abul Hasan, the last Qutub Shahi Sultan, was captured and sent to Doultabad where he died in 1700 A.D.

When Aurangazeb conquered the Deccan, he found several chiefs called Zamindars holding sway over small areas and paying tribute. This continued till 1724 A.D. when Nizam-ul-Mulk Asaf Jah I gained autonomy in the Deccan. The bigger chiefs were made the lords of Samsthanams, whereas the smaller chiefs were reduced to the position of landlords. The important Samsthanams of the districts were Gadwal,Wanaparthi, Jataprole, Amarachinta, Gopalpet and Alampur. They were all merged with the Indian Union after Independence in 1947.

In 1706 A.D. Prince Kan Baksh was the Subedar of Bijapur and Hyderabad. In the 18th century when Hyderabad state was formed, this district was included in the Nizam's Dominion. Subsequently in the year 1886 the Dominions were divided into four Subas by Sir Salarjung I and each Suba was further divided into districts. This district with its taluks then known as Nagarkurnool district was included in Gulshamabad Suba (Medak). In 1902 this district comprised 10 taluks. Again in 1905 the Ibrahimpatnam taluk of the district was transferred to Medak district and 73 villages from Koilkonda, Narayanpet and Makthal were adjoined to the taluk of Gulbarga district. Narayanpet taluk was then merged with Makthal taluk and Amrabad was re-named as Achampet. On reorganisation of states in the year 1956, Pargi taluk was transferred to Hyderabad. Alampur and Gadwal taluks of Raichur, Kodangal taluk from Gulbarga were transferred to Mahbubnagar District.

Administrativeset-up

i) Region of the state where the district is located: This district is located in the middle of western side of the state and south west corner of Telangana Region.In 1985, the then existing 13 taluks

Source: *1. 1981 District Census Handbook. 2. District Statistical Handbook, CPO, Mahbubnagar*

were re-organised into 64 mandals. Corresponding to the Revenue Mandals, Mandal Parishads were also formed which are coterminus with the Revenue mandals, except statutory towns which are not included in the jurisdiction of the Mandal Parishads.

ii) Total number of Revenue Divisions and Mandals: This district has 64 Mandals organised into 5 Revenue Divisions as against 4 divisions in 1991 census. Wanaparthy is a new Revenue Division formed after 1991Census by taking 5 mandals from Gadwal Divisioin and three from Nagarkurnool Division. The distribution of 64 Revenue Mandals among the 5 Revenue Divisions is shown here under.

1.Narayanpet Division:

Kodangal, Bomaraspet, Kosgi, Doultabad, Damaragidda, Maddur, Narayanpet, Utkoor, Dhanwada,Devarkadra, Chinnachintakunta, Makthal, Maganoor, Atmakur.

2.Mahbubnagar Division :

Hanwada, Nawabpet, Balanagar, Kondurg, Farooqnagar, Kothur, Keshampet, Talakondapalle, Amangal, Madgul, Veldanda, Midjil, Jadcherla, Mahbubnagar, Koilkonda, Bhoothpur, Kalwakurthy, Vangoor.

3.Gadwal Division:

Addakal, Narva, Dharur, Gadwal, Maldakal, Ghattu, Ieez, Itikyal, Waddepalle, Manopad, Alampur.

4.Nagarkurnool Division :

Thimmajipet, Amrabad, Uppununthala, Telkapalle, Tadoor, Nagarkurnool, Bijinapalle, Balmoor, Lingal, Peddakothapalle.

5.Wanaparthy Division :

Ghanpur, Kothakota, Peddamandadi, Wanaparthy, Gopalpeta, Pangal, Pebbair, Veepangandla.

iii) Total number of Villages and Towns: There were 1,553 villages in 1991 census, of which 9 villages were included fully in the urban areas. Thus there were only 1544 villages falling in rural areas. The villages fully included in towns or formed as O.Gs to towns were not included in the list of villages while allotting Permanent Location Code Numbers in 2001 Census. As per 2001 Census the number of villages in the district is 1550. This shows an increase of 6 villages over 1991 Census. This is due to treating two hamlets of Pangal viz., Mallaipalle and Bollaram as Revenue Villages and declassification of 4 urban areas as rural during 2001 Census.

There are 7 towns (4 statutory and 3 census towns) during 2001 Census as against 11 towns during 1991 Census. Out of 11 towns of 1991 Census, 4 Census towns have been declassified and attained rural status due to strict application of criteria for treating a place as Urban. Two Urban Agglomerations have been formed out of 4 statutory towns for the first time during 2001 Census.

(iii) Physical Features of the District

Location And Size:

Mahbubnagar district is located between 16^0 - 17^0 North lattitude and between 77^0 - 79^0 East longitude. The district is surrounded by Nalgonda and Ranga Reddy districts to the North, Nalgonda and Guntur districts to the East, river Krishna and Tungabhadra to the South and Raichur and Gulbarga districts of Karnataka State to the West. The district is known its headquarters name Mahbubnagar which was named after Mir Mahbub Ali Khan, the Nizam of Hyderabad. It is well connected by both road and rail. The district has an area of 18,432 Sq.kms and a population of 3,513,934 as per 2001 Census. The density of population is 191 per Sq.km. Among 23 districts in the state, Mahbubnagar ranks 2nd in terms of area and 11th in terms of population. The district has broad width than length. The length at western part is more and has come down gradually towards east. The centre region of the district has more width and its size has come down while progressing north and south.

Physiography:

The district may be physiographically divided into two distinct regions-the plains region with low lying scattered hills and the extensive Amarabad-Farhabad plateau, a continuous range of hills of an average elevation of about 800 metres extending more or less east-west along the river Krishna on the southern boundary of the district. The hill range is interspersed by several deep valleys, which are almost inaccessible from the plains. The district is comparatively elevated in the north and west and a gradual decline is noticed in the altitude from the Northwest to the Southeast. There are hill ranges in the south east of the district extending from north to south of Achampet mandal consisting of flat-topped hills. These hills appear as though they are piled one above the other.

Drainage:

In Mahbubnagar district the flow of rivers draining from west to east. The chief river of the district is Krishna and next comes Tungabhadra an important tributary of Krishna. The river Krishna enters Andhra Pradesh in Makthal Mandal of this district and covers the Mandals of Narva, Gadwal, Pebbair, Manopad, Alampur etc., and further flows forming as south boundary to the district separating Mahbubnagar district with Kurnool, Prakasam and Guntur districts. After entering into this district it flows towards South and take diversion towards North-East. The river Tungabhadra flows forming as South boundary to the district and joins river Krishna .This separates Mahbubnagar and Kurnool districts. The Dindi river which is also a tributary to Krishna flows through Kalwakurthy and Achampet and joins the river Krihsna in the district. Peddavagu and Chinnavagu are other small tributaries to Krishna river flowing in the District.

Climate:

The climate of the district is generally hot. As per climatic conditions of the district, the year may be divided into three seasons. The hot season is from March to May. From March onwards it is a period of continuous rise in the temperature and May is generally the hottest month of the year. With onset of the South-West monsoon from June to September and the North-East monsoon follows extending upto the end of December. The cold season starts from December to February. The following table furnishes the maximum and minimum temperature month wise during the year 1999.

Table(a)

Month wise Maximum and Minimum temperatures of the district, 1999

Tem.Range	Jan	Feb.	March	April	May	June	July	Aug.	Sept,	Oct.	Nov.	Dec.
Maximum	30.2	33.2	37.7	40.5	36.8	32.8	31.6	30.8	31.4	32.4	32.8	30.6
Minimum	15.6	19.4	22.7	25.6	25.8	23.8	23.6	23.1	22.7	22.0	19.3	16.5

Rain Fall:

The rainfall in the district is scanty and the South-West monsoon is erratic. Most of the rainfall is received during the South-West monsoon. The normal rainfall during the season is 611.2 mm. Though North-East monsoon extends upto the end of December, the rainfall increases from the south to the north in the district. Annual normal rainfall in the district is 754 mm. The following table gives the season-wise actual rain fall for 1999-2000.

Table(b)

Monsoon-wise rain fall during 1999-2000

Season	Rainfall (in mm)
1. South West monsoon June to September	371
2. North East monsoon October to December	32
3. Winter period January to February	6
4. Hot weather period March to May	45
TOTAL	454
Normal Rain Fall	754

Source: 1.District Census Handbook of 1991 Census
2. Statistical Abstract of Andhra Pradesh 2000 - Directorate of Economics and Statistics.

The above table reveals that poor rainfall is reported during the year 1999-2000 i.e. 454 mm against 754 mm normal rainfall. Of which highest rainfall of 371 mm is received in South-West monsoon.

Padddy, Jowar, Ragi, Groundnut, Castor, sunflower, Cotton, etc., crops are mainly raised in the district during the decade. As soon as monsoon comes, the farmers begins their activities in the agriculture field such as ploughing, sowing etc., in the district. Generally seed beds for paddy crops are arranged in the months of May-June. The transplantation takes place after 35 to 50 days of seed beds are arranged, then its harvesting comes during November-December. Regarding commercial crops and other crops i.e. Redgram, Jowar, Ragi and Castor seeds are also grown in the Districts. They are planted and harvested in their respective seasons. The yield of these crops depend upon better rain fall in the District.

Soils:

The soil of the district can be classified into three broad groups i.e Red Soil, black cotton and Chalka soil or mixed soils. The predominent soil is the chalka Dubba soil which is about 70% of the total area.The water holding capacity is low. The chalka soils are predominent in the erstwhile taluks of Jadcherla, Kalwakurthy, Shadnagar, Mahbubnagar and Kollapur. The Dubba soil is in erstwhile taluks of Achampet and Gadwal, while the black cotton soils which constitutues 20% of the district are in the erstwhile taluks of Alampur and Kodangal. Black soils mostly of clayed loams and deep clays occurs as narrow stripes along the bank of Krishna and Tungabhadra and the natural streams and vagu.

Flora And Fauna:

The total forest area in the district comes to 3,027.5 Sq.km forming 16.5% of the district total area as against 4.75% of Andhra Pradesh forest area. The district comprises two forest divisions viz., Mahbubnagar and Achampet. The forest in the district can be classified according to the climatic conditions and the species that grow there. The forests in this district are known to contain Thorny shrubs, Deciduous, Hardwickia binata type and bamboo type and other plants. The estimated area under bamboo and others are furnished forest division-wise and revenue production- wise in the following two statements.

Table(c)

Area under Bambo and other by forest Division wise for the year 1995-96 (Area in hectares)

Division	Bamboo	Others	Total
Mahbubnagar	-	878.5	878.5
Achampet	400.0	-	400.0

Table(d)

Product Wise Forest Revenue 1995-96

Sl.No.	Item	Mahbubnagar Division (in Rs.)	Achampet Division.Rs.	Total(Rs.)
1	Timber	NA	1559,120	15,59,120
2	Beedi leaves	NA	7,46,000	7,46,000
3	Bamboo	NA	47,24,370	47,24 ,370
4	Miscellaneous	NA	7,04,100	7,04, 100

Source: *A report from District Collector, Mahbubnagar.*

Wild life was fairly abundant in the in-accessible plateau regions of Amrabad and Farhabad. But due to indiscriminate killing in the past, much of the wild life has been reduced. Premitive tribes known as Koyas traditionally hunters, stay very close to the forests. In course of collection of forest products, by the tribes for their main livelihood and also hunt the animals for their food which causes to reduce the animals. Some of the wild animals found in Mahbubnagar forests are Tiger (Felis tigris),Panther (Felis paradus), wild dog (Cuon alipinus), hyaena (Hyaena) and sloth bear (Melursus ursinus).

Of the herbivorous animals, Spotted deer (Cervus axis), Nilgai (Boselophus tragocamelus), Sambar (Cervus unicolour) ,black buck,(Antelope cervicapra), Chinkara, wild goat, porcupine and wild boar are common.

Of the wingad game, spotted dove, ring dove, peafowl, red jungle fowl, brush quail, green pigeon, partridge, common mallard, large whistling teal, grey duck etc., are common. With an aim to protect wild animals, both Central and State Governments have taken up certain projects. Under these schemes an area of 3,568 Sq.kms named as Rajiv Gandhi wild life sanctuary as a Tiger reserve spread over five districts covering Mahbubnagar, Nalgonda, Guntur, Prakasam, and Kurnool is being developed. The area of 1,75,000 hectares covered in this district under this sanctuary. The fauna covered this scheme are Tiger, Panther, sloth bear, black bucks, Mugger crocodiles etc. Similarly a deer park also developed at Pillalamarri 6 kms. from Mahbubnagar where black buck, spotted deer, nelgai, chinkara are protected.

Agriculture :

Cropping Pattern :

The following data provide the land put for different purposes for the year 1999 - 2000

Table(e)

Land utilization for the year 1999-2000

Sl.No	Category	Area in Hectares
1	Forests	266,566
2	Barren and uncultivable Land	94,924
3	Land put to Non-agricultural uses	79,092
4	Cultivable waste	11,422
5	Permanent pastures and other grazing Lands	25,230
6	Land under Miscellaneous Tree Crops and Groves not included in Net area sown	6,280
7	Current fallows	469,704
8	Other fallow Lands	102,477
9	Net area sown	791,546
10	Total Geographical area	18,47,241
11	Total cropped area	786,687
12	Area sown more than once	41,077

Source: *Statistical Abstract of Andhra Pradesh 2000, Directorate of Economics and Statistics*

The major crops raised in the district are Paddy, Jowar, Redgram, Groundnut, Castor, Sunflower, cotton etc., some crops are raised in Kharif and Rabi season, while some in one season only. The following statement gives the information on area under principal crops, out turn and yield for the year 1999-2000.

Table(f)

Area under principal crops During the Year 1999-2000

SL.No.	Name of the Crop	Area (in Hectares)	Out turn (in Tonnes)	Yield per Hectares (in kgs.)
1	Paddy	133,074	2,25,760	1,696
2	Jowar	165,788	91,567	552
3	Bajra	16,638	7,986	480
4	Maize	35,636	1,09,201	3,064
5	Wheat	137	92	672
6	Ragi	12,925	10,168	787

Irrigation:

Net area of 791.546 hectares was sown in the district during 1999-2000. Of which 157,186 hectares were irrigated. 43,416 hectares irrigated more than once. The area irrigated by source is given below.

Table(h)
Area Irrigated by Source, 1999-2000

Sl. No.	Source	Area (in hectares)
1	Canals	14,584
2	Tanks	3,359
3	Tubewells	95,464
4	Other wells	38,510
5	Other sources	5,269

Natural Wealth:

The Geological resources found in the district are as follows:

1. Forests
2. Aluminium and Pebbiebeds (in Krishna Basin)
3. Deccan Traps
4. Peninsular Granite complex
5. Charwar schiets

As already stated forest occupies 2.67 lakh hectares and constitute about 14% of the total Geographical area of the district. Most of the forests are concentrated in the South -East part of the district. The important species of these are Teak, Maddi, Ippa, etc. The availability of Bamboo in the district is formal. The Purana sedimentaries occurs along the North bank of Krishna, being the northern continuation of similar rocks occurring in Kurnool district.The Deccan trap rocks occur in small patches ie., the Northern

portions of erstwhile Kodangal taluk, in some places the trap has been lateritised. As regard the peninsular Granite complex, almost the rest of the district is comprised of the granite, except some parts in erstwhile Kodangal taluk in the North and the Purana sedimentaries in Krishna basin in the South. The granites are broadly divided into pink and gray series. The granite consists of quartz, pink and gray felspar misc-ovite and biotite, besides other accessary minerals. There are numerous Pigametities and Quartz veins instrusive into these granites.The Charwars are exposed in parts of erstwhile Gadwal and Makthal taluks in the form of narrow bonds. They consists of Homblends Shiest, traversed by Quartz veins.

Mineral Resources:

Mahbubnagar district is enriched with minerals like barytes, asbestos, steatite, ochre, lime stone, quartz, felspar, latarite black, coloured granite, fullers earth, moulding sand, ordinary sand etc., Barytes and asbestos are confined to the reserve forests of Kollapur mandal. The extraction of the minerals is found to be un-economical and hence the mines were not functioning sucessfully. Moreover, inview of the Forest Conservation Act 1980, the mineral resources in forest area could not be exploited.

Quartz:

One of the main minerals of the district is Quartz. Reefs of good quality quartz suitable for manufacture of glass found at Shadnagar, Balanagar, Thimmapur etc., places. A total of 8 million tonnes of Quartz was estimated from the deposits in Hyderabad and Mahbubnagar districts. This mineral is vigorously mined to supply for the glass industries, located at Shadnagar and Balanagar.

Lime Stone:

Lime stone occurs extensively in Alampur and Kollapur mandals. The Cement Corporation of India has recently proposed some areas in Alampur and have proved a reserve of 181 million tonnes of lime stones. Out of which the reserves of cement grade limestone are order of 68 million tonnes. A mini cement plant, Sitaram cement plant is established at Kothur industrial area. Flaggy lime stone is worked from Gandlepalle in Kodangal mandal for flooring slabs called Shabad slabs.

Felspar:

Felspar is also available in some of the areas in the district which is used in Ceramic industry.

Asbestos:

Asbestos occurrence has been reported from the Nariakonda Reserve Forest near Somasila. The asbestos fibre is stiff and of a low grade. Mining is in progress only in a small way and a very small quantity of fibre is raised over years of mining development.

Barytes:

Barytes is reported to occur in Bollavaram Reserve Forest in Kollapur mandal.

Diamonds:

Diamonds are reported from the neighbourhood of Pentlavelli of erstwhile Kollapur taluk. Diamonds are found near Amaragiri and Bollavaram gravels of river Krishna.

Building stones:

The various pink and grey granites and the lime stone of variegated colours which offer good building stones are also available in the district.

In Mahbubnagar district the following mining leases and quarry lease are in force. Totally 39 mandals are covered under mining lease prospecting license and quarry lease.

Table(j)

Mining lease prospecting license and Quarry lease

Sl.No.	Name of the mineral	Working	Non-working	Total
	Major mineral			
1	Quartz and Felspar	19	27	46
2	Quartz	03	14	17
3	Felspar	--	02	02

6	Pink Granite	69,402 M3	69,402 M3

***Source** : Assistant Director of Mines and Geology, Mahbubnagar.*

Animal Husbandry:

Mahbubnagar district possess vast live stock wealth and ranks No.1 in the State. Mahbubnagar district has 33,77,383 live stock population, of which 1,16,288 are dogs. The poultry has accounted for 32,12,597 in the district. The distribution of livestock as per 1999 (provisionally) is as follows :

Table(m)

Livestock distribution

Sl.No.	Type of Animal	Total Number
1	Cattle	922,950
2	Buffaloes	360,749
3	Sheep	1,489,469
4	Goats	446,499
5	Horses and Ponies	166
6	Pigs	40,126
7	Other livestock	1,136
8	Dogs	116,288
9	Poultry	3,212,597

***Source:** Statistical Abstract of Andhra Pradesh 2000, Directorate of Economics and Statistics*

Sheep provides livelihood to nearly 40,000 kurma - yadava families and milk animals are the hope for small and marginal farmers to face the recurrent drought spells and poverty situation in the district.

To catering veterinary aid the following number of institutions are functioning in the district (1999-2000):

Table(n)

Veterinary Institutions Pattern

Sl.No. (1)	Name of the Veterinary Institution (2)	Number (3)
1	Veterinary Polyclinic	1
2	Veterinary Hospitals	12
3	Live stock supervisory units	98
4	Rural live stock units	222
5	Artificial Inseminations	223
	Number of Technical persons working in the above institution	
1	Deputy Director	1
2	Assistant Director	22
3	Veterinary Assistant Surgeon	76
4	Para Veterinary staff	309

The activity carried out by the said institutions during the year 1999-2000 together with their number is furnished in the statement given below:

Table(o)

Different on Veterinary Activities

Sl.No.	Particulars	Number (in lakhs)
1	2	3
1	Artificial Inseminations	46.25
2	Calves Born	0.12
3	Cases Treated	22.80
4	Castrations	0.71
5	Vaccinations	45.58
6	Area brought under Fodder Development (acres)	36,182.90

Special Livestock Breeding Programme :

This is a centrally sponsored scheme. There is a Sheep Development Unit to provide financial assistance at subsidiary rate to the identified beneficiaries among the SC, ST and BC families. There are other units like sheep supervisory unit, sheep demonstrating unit and sheep and wool extension center to attend alround developmental activities of sheep.

Fisheries :

There is scope for fish production in this district. The steady increase in inland fish production for three successive years is possible due to the supply of good fish seeds to the farmers.

The Koilsagar Reservoir, Priyadarshini, Jurala Project, the backwaters of Srisailam Reservoir along with the river Krishna, river Tungabhadra and river Bhima are the good potentials for fish production. In addition to these there are two small size reservoirs namely Saralasagar and Chandrasagar 757 hectares of water spread area, 568 M1 tanks with 14,572 hectares of water spread area which are under the control of Fisheries department for the disposal of Fishery wealth and 4,889 Gram panchyat tanks with water spread area of 23,258 hectares. If all the water bodies in the district receive water nearly 7.00 crores of fish seed is required to stock all the water bodies which in-turn give 12,773 Metric Tonnes of fish production valued Rs. 12.773 crores.

1. Fish seed Production and Distribution :

There are 4 fish seed farms for seed production and distribution in the district. They are at Pillalamarri, Koilsagar, Chandrasagar and Jammichedu. The particulars of infrastructure available at these fish seed farms and the seed production and distribution particulars for the year 1999-2000 are given here under.

Table (p)

Fish seed Production and Distribution

Sl. No.	Name of fish seeds farm	Total extent	Total water nursaries		Spead area(acres) Rearing		Breades	
			Number	area	Number	area	Number	area
1	Koilsagar	3.60	46	0.74	-	-	5	1.25
2.	Pillalamarri	0.75	25	0.75	-	-	-	-
3.	Chandrasagar	12.22	49	0.49	44	1.11	5	2.50
4.	Jammi chedu	6.87	12	0.15	-	-	-	-

2. Disposal of Fishery Wealth in departmental Tanks:

There are 568 tanks and 2 small reservoirs under the control of Fisheries Department for the disposal of fishery wealth. As per the Government orders the first preference will be given to the fishermen cooperative societies for giving lease rights next preference will be given to the Gram Panchayat and finally it will be put to auction if the Fishermen Cooperative society/Gram Panchayat are not interested to take the lease of the tanks. During the year 1999, 400 tanks and 2 reservoirs were disposed by realizing an amount of Rs. 1,032,090/- as rentals. During the year 2000 only 68 tanks and one Reservoir were disposed by realizing an amount of Rs. 302,271/ - due to the drought prevailed in the entire district.

3. Welfare of Fishermen :

The following activities are being implemented for welfare of the Fishermen in the district.

a) Issue of Licences for Fishing :

The licensing system for fishing is prevailing in the back waters of Srisailam and Koilsagar Reservoirs. The Licences are being issued to fishermen by collecting the license fee prescribed by the Government. During the year 2000, 500 licences were issued by realizing an amount of Rs. 64,900/- .

Four Hectares of agricultural land was converted into fish tanks/ponds during the year 1998 - 1999. In order to augment fish production, the fish farmers were provided Dragnets, Gillnets, Trawl nets, Cart nets and others which constitute a total of 16128 in number. For processing and preserving 15 ice plants are functioning in the district. Altogether 331 fishing licences were issued during 1998 - 1999.

Table(q)

Revenue released for the year 1998-1999

Sl.No.	Licences under	Number	Amount Released in Rs.
1	2	3	4
1	Licensing Scheme	331	40,700
2	Disposal of Reservoirs	3	23,970
3	Disposal of Tanks	294	7,10,700
4	Sale of fish seed	4	45,000

450 houses were sanctioned and constructed during the year 1998-1999 to the fishermen families.

The table given below shows different fish species and its production for the year 1995-1996. Carps is

with highest production of 3005 tonnes for the year 1995-1996.

Table(r)

Inland Fish Production during the Year 1995-1996

Sl.No.	Name of the Species	Production (in Tonnes)
1	Barbus	1,700
2	Carps	3,005
3	Cat Fish	2,010
4	Murrel	1,304
5	Mullets	---
6	Prawn	---
7	Hilsa	---
8	Miscellaneous	3,730
	Total	11,749

b) Registration of fishermen cooperative societies.

The active fishermen are being identified and registered them in the fishermen cooperative societies to extend the assistance technically and financially so as to improve their social economic conditions.

c) Housing Scheme :

Under weaker section housing programme houses are being sanctioned to the fishermen to provide shelter to them. During the year 1998-1999, 450 houses were sanctioned to fishermen of the district.

d) Revolving Fund :

An amount of Rs. 50,000/- is meant for revolving among the fishermen who take the fish business. The amount is being revolved freshly to the fishermen after collecting from the beneficiaries.

e) Group Accident Scheme :

An amount of Rs. 35,000/- is being given to the family of deceased person who died while fishing. So far the assistance has been provided to (16) families in the district.

The targets and achievements for the year 1999-2000(F1409) are shown.

Table(s)

Registration of Fishermen cooperative societies

Sl. No.	Type of Fishermen Co-operative Society	Number	No. of Members	Share Capital (in Rupees)
1	Primary Fishermen Co-operative Society	392	16,719	167,190
2	Fishermen Co-operative Society	11	273	2,730
3	District Fishermen Co-operative Society	1	212	23,320
	Total	**404**	**17,204**	**193,240**

Table(t)

Target and achievements

Sl.No.	Name of Scheme	Target Physical		Financial	Achievements physical		Financial
		M.C	CC		MC	CC	
1	Fish seed production and distribution	100.00 lakhs	1000.00 Lakhs	-	100.00 Lakhs	68 Lakhs	-
2	Disposal of water Bodies						
	(a) Tanks	568 No.	-		68 No	-	
	(b) Reservoir	2 No	-		1 No		Rs 27,690/-
3	Issues of Licence	750 No	-		590 No		Rs. 64,900/-

Industry:

Efforts are made by the Government to industrialise the district by harnessing the locally available agriculture, minerals, forest and live stock resources. Financial infrastructural facilities were also provided to make the district move in the right direction for industrialisation.

1. Existing small scale industries:

Presently, there are 800 small scale industries functioning in the district. 431 units were financed by Andhra Pradesh Khadhi and Village Industries Board with an investment of Rs. 659.44 lakhs providing employment for 9,956 persons.

Beneficiaries were financed by A.P. Khadi and Village industries Board under tie up with the financial agencies in the district during the year 1995-1996 is given below:

Table(u)

Andhra Pradesh Khadi and Village Industries Board, Mahbubnagar

Existing large and medium scale industries:

At present, there are 6 large and medium scale industries with a total capital investment of Rs. 7,826.30 lakhs providing employment to 1,286 persons. The particulars are as follows:

During the year 1995-96, sixteen regulated markets were functioning to receive important agricultural commodities from farmers.

Table(w)

Large And Medium Scale Industries, 1995-1996

Sl.No.	Name of the Industry	Investment (Rs.in lakhs)	No. of employees
1	2	3	4
1	M/S Pitti Laminations (P) Ltd.	409.94	100
2	M/S Kalyani Refinaries Ltd.	834.00	80
3	M/S Balaji Food & Feeds Ltd.	2,535.02	320

7	Horsegram	10,885	74.15
8	Sunflower	42,991	427.37
9	Onions	12,248	34.95

Transportation :

Transport plays a vital role in the changing needs of public. The government has liberalized the issue of permits with effect from 25.8.1989. In the transport sector, the APSRTC increased its activities to cover the areas which were not already covered in the district.

Table(ac)
Performance Of A.P.S.R.T.C. during the year 1995-1996

Depots in the District	8
Number of stations	28
Number of Bus Shelters	36
Number of Vehicles	574
Kilo Metres Operated per day	632
All Routes Distance in Kilo Metres	21,855

***Source**: Handbook of statistics, C.P.O,- Mahbubnagar*

Besides above, other mode of Vehicles which under take transportation are also available in the district. The different Vehicles that are on roll and road as on 31-3-2000 is furnished below.

Table(ad)
Number of Motor vehicles of different class and categories as on 31.3.1999

Sl.No	Name and Category of Vehicle	On Roll	On Road
1	Stage Carriage: (i) APSRTC	702	700
	Stage Carriage:(ii) Private	30	30
2	All India Tourist	65	65
3	Tractors and Trailors	1,464	1,464
4	Contract Carriages	79	79
5	School Buses	19	--
6	Auto 3 wheelers	2,635	2,635
7	7 Seaters	73	73

Table(ad)(Concld.)
Number of Motor vehicles of different class and categories as on 31.3.1999

Sl.No	Name and Category of Vehicle	On Roll	On Road
8	6 Seaters	664	664
9	Private Service Vehicles	12	--
10	Motor Cars	788	772
11	Jeeps	534	534
12	Two Wheelers	38,820	38,820
13	Tractors	59	59
14	Omni Buses	582	582
15	Rigs	41	41
16	Road Rollers	1	1
17	Cranes	1	1

Different types of Roads that are existing in the districts are as follows:

1. National high way (Entire road is Black Top)	172 kms.
2. P.W.D(R&B) Roads	3,269 kms.
3. Panchayat Raj Roads	7,310 kms.
Total	**10, 751 kms.**

Out of the total 10,751 kms. 4,880 kms.are un metalled (murram), 3,527 kms. Metalled(W.B.M), 2,334 kms. Black Top and rest 10 kms. is Cement concrete road.

A broad gauge railway line from Hyderabad to Tirupati/Banglore passes through this district. The length of this broad gauge line in the district is 192 kms with 25 railway stations. In the district, this line starts from Timmapur to Alampur passing through the district headquarters Mahbubnagar.

(iv) Major Social and Cultural events, natural and administrative developments and significant activities during the decade

During the decade 1991-2001 no significant social and cultural events have occurred in the district. In respect of administrative developments one new Revenue Division Wanaparthy and two Revenue villages Mallaipalle(PLCN 00718200) and Vallabhapur(PLCN 00720500) have come up. The urban areas, Alampur, Kollapur and Srisailam Project Town Ship and degraded and attained rural status. Another significant activity i.e. conversion of Railway metre guage line connecting Hyderabad and Tirupati into broad guage has taken place in the district during the decade.

In the year 1996 under the Chairmanship of the District Collector the 'Bala Karmika Vikasa Samithi' has constituted. The main aims and objectives of the samithi are conducting surveys on Vulnerable child labourers in hazardous occupations, creating awareness among the public about the steps taken by the Government to eliminate child labour, implementing programmes like creating public awareness, running special schools, imparting non-formal education and generating income and employment opportunities, etc.

Under the social security schemes such as payment of pensions to the aged, widows, landless agricultural workers and physically handicapped persons are covered in the district.

During the decade, as in the other districts, a novel scheme called "Janmabhoomi" has been launched on the new years day 1997 by the Government of Andhra Pradesh. This adds new dimension particularly in rural development in the sense that people are involved in decision making and development process. The main activities taken up under this programme are aimed at achieving the basic needs of the people belonging to both rural and urban through "Sramadanam" with the people's partcipation.

As in the other districts, in this district also, with the inspiration of Janmabhoomi programme, 'Spandana' another novel scheme totally envisaged by the district administration for the overall development of villages has been taken up with the aims of

1.Education for all

2.Family planning programmes

3.Usage of Bio-gas plants / Smokeless chullas to prevent air pollution

4.Clean village concept

Yet another novel programme envisaged by the district administration for benefitting the physically handicapped in the district is called 'Cheyutha'. All the Government officials connected with the physically handicapped will sit under one roof and do the needful then and there. The benefits such as issue of physically handicapped certificate by the medical board, RTC passes, railway passes, registration in employment exchanges, etc., were extended besides giving aids and appliances to the identified handicapped persons.

(v) Brief description of places of religious, historical or archaeological importance in villages and places of tourist interest in the towns of the district

Places of Religious importance (Temples), Mutts and Historical or archaeological importance in the district are presented in the following statement:

Places of Religious, Historical or Archaeological Importance :

Sl.No	Name of the Mandal	Name of the Village/Town	Name of the monuments/Temples/Mutts
1	Alampur	Alampur	Alampur, popularly known as "Dakshina Kasi" is located on the bank of Thungabhadra at a distance of 10 k.m. from Alampur Road Railway Station on Secundrabad - Dronachalam section. This is a place of western gateway of Srisailam Temple, Bhaskara Kshethram and Parasurama Kshethram, Eastern gateway of Tripuranthakam, Southern gateway of Sidhavatam (Sidhout) of Cuddapah and northern gateway of Umamaheswaram known as Brahmeswaram. Alampur is attributed as sacred place as Banaras of North India and similar traits of Kasi in several respects as detailed below: i) Kasi is located in between two rivers of Varuna and Asi where as Alampur is in between Vedavathi and Nadavathi. ii)Kasi Visalakshi at Kasi is counter part of Jogulamba at Alampur. iii)Like Manikarnika and other 18 Theerthams at Kasi, Alampur too has 18 Theerthams situated between Alampur temple and Kudavelli village where Thungabhadra joins Krishna (Kudali means meeting junction). Of these 18, theerthams, Papanasanam is important even today. iv)Like Kasi where there are 64 kshethrams (bathing places) Alampur too has 64 kshethrams commencing from Panchalingalu near Kurnool and found on both sides all along Thungabhadra dam and at Sangameswaram in

Sl.No	Name of the Mandal	Name of the Village/Town	Name of the monuments/Temples/Mutts
1.	Alampur	Alampur (Contd.)	Nandikotkur where Krishna takes Bhavanasi and enters the valley in the Nallamalai hills. v)Dunti Ganesha and Kalabhyrava at Alampur also resemble those at Kasi. vi)A few kilometres below Kasi there is confluence of Ganga and Jamuna, similarly there is confluence of Krishna and Thungabhadra, a few kilometres beneath Alampur. This locality is reputed for Koti Lingalu (one crore of Siva Lingams) The legend goes that Brahma did penance here to obtain the power of creating the Universe from Lord Siva. Lord Siva appeared in the form of boy and fulfilled the desire of Brahma. Presiding deity, therefore, came to be known as Balabrahmeswara. It is also said that this is only place where an image of Brahma with four heads called Chathurmukha Brahma is worshipped. Though the presiding deity is Eswara in the main temple, Brahma is given a place of prominence as Bala Brahma in another temple. The salient feature is that the water for Abhishekam is brought by the devotees from Tungabhadra river and poured on Brahmeswara Lingam which sinks in to the Lingam without a drop falling outside. There are 9. Siva Lingams in the practically identical temple side by side. The sanctity of these 9 temples is attributed by sloka that "drinking water at Kedaram" (in the Himalayas), death in Kasi (Banaras), gifts during at Solar Eclipse at Kurukshethram (battle field of Maha Bharatha between the Pandavas and Kauravas) and the site of apex of Srisailam are very rare for human beings. But residing in the sacred spot of 9 Lingams (Alampur) is still rare. The stone trunk of Renuka Devi w/o Jamadagni known as Bhudevi is housed in a small mandapam to the left of the front side of Bala Brahmeswara who blesses the issueless women with children.Jogulamba is housed in a small mandapam in the South-East, her idol is made of stone and is very awe-inspiring. Sri Adi Sankaracharya is said to have visited this deity and sanctified this place.Jogulamba is one of the 18 shakthy peethams venerated and praised by sages. The art and architecture on temple and on Gopuram are similar to those of North Indian style as found in Buddha Gaya (Bihar State) and Bhubaneshwar (Orissa State). This must be due to the fact that the artisans

Sl.No	Name of the Mandal	Name of the Village/Town	Name of the monuments/Temples/Mutts
1.	Alampur	Alampur (Concld.)	patronised by Buddhists and Jains who had settled in these parts were employed by Chalukya Kings who were lovers of the blending of the Northern and Southern art and architecture. This place is not only of religious importance to Saivities but also equally important to others also as it contains Yoga Narasimha Swamy Temple, Surya Narayana Swamy Temple (Sun God), Mahishasura Mardhini, Venkateswara, Kamakshi and Veerabhadra Swamy Temples from times immemorial.
2.	Manopad	Boravelle	This village is situated at a distance of three kilometres from Mennipadu Railway station. An ancient fort constructed by eminent architects with twenty bastions, seven entrances and a moat is a place of interest in the village. The art and architecture of western Chalukyas can be seen in the exquisitely sculptured temples of the place.
3	Koilkonda	Manikonda	Situated at a distance of 5 kms. from Manyamkonda Railway Station and 4 kms. from Devarkonda Railway Station on Secunderabad-Dronachalam section of South Central railway. The temple in this village is dedicated to Sri Lord Venkateswara who established himself amidst hills and forest. Manyam means forest and konda means hill place and hence the name Manyamkonda has been come into the force. The temple of Lord Venkateswara is on hill of 3000 feet height at a distance of 4 kms. from the village. The temple is a hollow one cut in a huge rock of dimensions 300 feet x 75 feet and against the back wall appears the 'self manifested' figure of Lord Venkateswara resembling the idol at Tirupathi. The hill on which the presiding deity Lord Venkateswara is famous for Kattanigudi (Unconstructed temple), Travvani koneru (undug pond), Cheyyani padalu (Uncarved foot prints), ulimuttani Swamy (unchiselled Lord)- all are self manifested. The flash back story of the temple is that about 400 years back, Lord Venkateswara appeared to one Sri Kesavayya when he was in the midst of forest on hill to take possession of the place and perform his puja. Kesavayya went to the

Sl.No	Name of the Mandal	Name of the Village/Town	Name of the monuments/Temples/Mutts
3	Koilkonda	Manikonda (Concld.)	hill and found three foot prints of Lord which are not of mans workmanship and they led to an undug "Pushkarini" (pond), a hundred yards acquire pond with depth of 5 yards. The fourth foot print was within the pond and there was a spring of clean water flowing from the feet as if to prove the mythological belief that Ganga, the goddess of water, was born at the feet of Lord Vishnu. The foot print is one foot long and one foot deep. One noteworthy thing about the Pushkarini which is cut in rock is that the Northern wall resembles the form of lord as if he jumped down at the place to create Pushkarini. The poor people who cannot go to Tirupathi due to paucity of funds will have a darshan of Lord Venkateswara here with a belief that they would get the same results as they may have at Tirupathi. Hence, the Lord Venkateswara here is called "Bidala Devudu"(God of the poor). The festival of Lord is celebrated on Ashada Suddha Ekadasi every year and Brahmostsavam is celebrated every year for 8 days from Magha Suddha Panchami to Bahula Vidiya (Jan & Feb). This is the temple having religious as well as historical importance on large scale in Mahbubnagar district under the direct administrative control of the Commissioner, Endowments department and its annual income is estimated to be 7 lakhs of rupees.
4	Pebbair	Sri Rangapur	This village is situated at a distance of 24 kms. from Wanaparthy and 35 kms. from Wanaparthy Road Railway station and 67 kms. from Kurnool. The temple is constructed by Ashtabhasha Baheri Gopala Rao who was a great devotee of Lord Ranganayakulu. The history reveals that Lord Ranganayakulu appeared in his dream and told that his idol was buried under a huge ant hill beneath a Modugu tree at Rangampeta. The idol was dug out and installed at the present spot and the temple constructed on it. The reason for selecting this particular elevated place was that it was surrounded practically on all sides by the water of Ranga samudram just as the temple of Srirangam surrounded by Kaveri water. The people believe that this place is as sacred as Srirangam at Tiruchanapalle. The village gradually grew-up and later named as Sri Rangapuram after the name of the Lord Sri Ranganayakulu.Brahmotsavam is celebrated for 10 days from Phalguna Suddha Ashtami to Bahula Tadiya (Feb-March). About 25,000 devotees from Kurnool and nearby districts congregate for this festival.

Sl.No	Name of the Mandal	Name of the Village/Town	Name of the monuments/Temples/Mutts
5	Achampet	Rangapur	Rangapur is situated at a distance of 10 kms. on the Mahbubnagar-Amrabad bus route. This place attained religious importance in the distict owing to the existence of the famous Umamaheswara Shrine, which is at a height of about 152 metres in the Srisailam range of hills. The style of construction indicates that it belonged to the reign of the Chalukyas of Kalyani. The archeological findings reveal, that this place was an important Hindu religious center even in the seventh century A.D. The festival of Umamaheswara which is celebrated for six days from Pushya Suddha Padyami(December-January) and Hazrat Niranjan Shah Vali Urs which synchronises with the festival of Umamaheswara are largely attended.
6	Narva	Narva	This village lies at a distance of 22 kms. from Atmakur and 32 kms. from Sriramnagar Railway station. A fort with 12 bastions belonging to the 16th century can be seen in the middle of the village. The bastions, a Rangamahal and an Enugulasala (Elephant stable) are in ruins. The places of worship include the Shrine of Venkateswara, Siva and Sanjivaraya.
7	Gadwal	Gadwal	Gadwal is a town in between the rivers Krishna and Tungabhadra and is noted for the harmonious co-existence of Andhra and Karnatic cultures. A big fort with twenty-one bastions constructed by Sobhanadri is reminiscent of the Chalukyan art. Handloom weaving is an important industry of this place. Gadwal sarees are noted for their exquisite silk and 'Zari' work and command a good market throughout India. The temple of Chennakesava is held in great veneration. Brahmotsavam celebrated in honour of the deity is attended by a large number of devotees. Dowlat Vali Urs, Mastan Vali Urs and Siddipasha Urs are the Muslim festivals which attract devotees from other places also.
8	Maldakal	Maldakal	Maldakal is at a distance of 18 kms. from Gadwal Railway Station and lies on the Gadwal-Ieej bus route. It is also known as 'Girusachala Kshetram'. The Venkateswara coin in the temple is believed to be self- manifest (Swayamvyaktam) and the Brahmotsavam is attended by a large number of Hindu devotees.

Sl.No	Name of the Mandal	Name of the Village/Town	Name of the monuments/Temples/Mutts
9	Veldanda	Veldanda(Yeldanda)	This place is located at a distance of 51 kms. from Jadcherla Railway station on the Hyderabad-Kalwakurthy bus route. Some of the excavations revealed that this village existed about six centuries back in a very prosperous conditions. A crude water distribution system, a drainage, a dilapidated fort, a number of wells etc., which have been unearthed are a proof of its prosperity. The Yadavas of this place celebrate Srikrishna Jayanti with great pomp and splendour.
10	Kosgi	Kosgi	Kosgi is a town situated at a distance of 13 kms. from Kodangal. Kosgi was once famous for the hand-woven cotton and silk cloth. The ramparts round the village which speak of its historical past, can be seen even today. Handloom weaving is an important industry of Kosgi.
11	Pangal	Pangal	Pangal is situated at a distance of 13 kms. from Wanaparthi. It is an ancient place of historical importance. It is situated at a height of about 548 metres above the sea level. A place of interest in the village is that the historical hill fort which is two and half kilometres in length and one and half kilometres in breadth with seven walls, seven towers and citadel called 'Bala Hissar' in the center.The village is also known as Qila Pangal.A number of ruined forts and inscriptions can be seen on the hillocks even today.This village is believed to have been associated with the famous Balanagamma Katha.
12	Koilkonda	Koilkonda	The village is situated at a distance of about 22 kms. from Mahbubnagar town. The place of interest here is the fort perched on a hill built by Koyadoras. Another building of interest at the village is an 'Idgah' the 'Quibla Wall' of which represents a queer style of architecture. The places of worship are the shrines of Narasimha, Ramagiri (Ramakonda) and the Dargah of Fathima Bi on the hill. About 8 kms. from the village, a medium size irrigation project called Koilsagar Project has been constructed across the pedavagu, a minor tributary of Krishna. The western stretch of the reservoir is sourrounded by high hills and renders it a picturesque scene. A small but beautiful guest house exists on a small hillock at the extreme left flank of the dam.
13	Mahbubnagar	Mahbubnagar	Mahbubnagar town is about 96 kms. from Hyderabad city by road. It is the headquarters of the taluk, the revenue division and the district of the same name. The important

Sl.No	Name of the Mandal	Name of the Village/Town	Name of the monuments/Temples/Mutts
13	Mahbubnagar	Mahbubnagar (Concld.)	place of interest near Mahbubnagar is the famous banyan tree called 'Pillalamarri', which is about 3 kms. from town. There is a shrine of a Muslim saint under the tree. From a distance the tree presents the appearance of a small hillock with green foliage, but on reaching nearer, it looks like a large green umbrella under which about a thousand people can easily take shelter. The tree is a very old one and covers an area of about 3 acres. Mahbubnagar has good communication facilities to all the important places in and outside the distict both by rail and bus.
14	Narayanpet	Narayanpet	The town is situated at a distance of 26 kms. from Makthal. Cotton handloom weaving and Kambali weaving are the major industries in this town. There are a number of temples at this place.
15	Shadnagar	Jogammaguda	Jogammagudem is situated at a distance of 5 kms. from Raikol(Rawikol) on the Hyderabad-Mahbubnagar bus route. This village is considered as 'Uttara Rameswaram' on account of a big pond occupying an area of about 1.674 sq.metres and a huge Sivalingam believed to be the biggest in India.
16	Wanaparthy	Wanaparthy	Wanaparthy is about 125 kms. from Hyderabad and 90 kms.from Kurnool on the Hyderabad-Kurnool bus route. The temple of the place, the shrine of Vitthaleswara is an ancient and important one with the icon of Panduranga Vitthal resembling the one at Pandaripur in Maharastra State. There is a Polytechnic Institute at this place. The Saralasagar project situated at about 6 kms. from Wanaparthy road railway station, has the biggest syphone dam in the world.

Source : *1. Fairs and Festivals of Mahbubnagar district.*

2. Report from Collector, Mahbubnagar district.

3.Mahbubnagar District Census Handbook, 1981 Census, A.P.,

4.Mahbubnagar District Census Handbook, 1961 Census, A.P.

5.Mahbubnagar, Andhra Pradesh District Gazetteers, 1976.

(vi) Major characteristics of the district, contribution of the district in the form of any historical figures associated with the district

Mahbubnagar district has derived its name from the headquarters town Mahbubnagar which was named after Hyderabad Nawab Mir Mahbub Ali Khan. Under the State reorganization Act of 1956 Parigi taluk was transferred to Hyderabad. Alampur and Gadwal taluks of Raichur Kodangal taluk from Gulbarga (presently in Karnataka State) were transferred to Mahbubnagar district.

Though the district has not produced major historical figures, it has few worth mentionable men of letters who fought bravely with Razakars to come out from Nizams clutches and finally this district along with other districts of Telangana merged with Indian Union. Sarva Sree Suravaram Pratap Reddy and Burgula Ramakrishna Rao are among such notable persons.

Suravaram Pratap Reddy born in 1896 in Boravelle of Manopad mandal. He known to be a famous critic and social worker. He has started a well known Golconda Telugu daily news paper through which he has envisage Telangana people politically and awaken them to fight against Nizam rule. He has several books teachings at his credit Burgula Ramakrishna Rao also hails from this district who born in 1901. He was well known as a social worker and reformer. He was responsible for political awareness among telangana people fought against Nizam rule, participated Quit India and other freedom movements. He worked as Chief Minister of the then Hyderabad State and Governor of Kerala and Uttar Pradesh states.

Some of the historical and religious aspects in the fore front. Hence we find Panagal fort and Koil Konda fort, which speaks about kings who ruled this district. Some of the temples at Alampur, Manyamkonda Palem etc., attracts thousands of people from all parts of the district. A historical Museum and a beautiful garden is developed recently near the famous picnic spot, Pillalamarri, where a huge Banyan tree aging 300 years old stood as an umbrella.

Though Telugu is local language, Kannada also spoken at the places which are adjacent to Karnataka State.

(vii) Census Concepts

Population census is a great national task, which we are called upon to undertake for every ten years. In India, the 1872 marked as the beginning of modern census taking, when it was conducted at different points of time in different parts of the country. From 1881 onwards a complete and synchronous census was held. The present Census is a land mark administrative event, as this has generated a historic bench mark data to shed light on the state of nation's society and other demographic, economic and socio-cultural data which simultaneously makes transition from one century and millennium to the next. The 2001 Census was the 14th decennial Census of India and the 6th after independence.

The Census of India was conducted in two phases namely, I) House-listing Operations II) Population Enumeration. The first phase was conducted during April-June,2000 in different States/Union territories depending upon their local conditions. In Andhra Pradesh it was conducted from 11th May to 5th June 2000. The house-listing operations provide a base for the population enumeration, besides providing comprehensive database for assessing condition of human settlements, the housing deficit and future housing requirement for formulation of housing policies. This also provides a massive data on amenities available to the households which was much needed by various departments of the Central and State Governments and other Non-Governmental agencies, for planning and development in different sectors of the economy. Hence house-listing operation is a pre-requisite for population enumeration.

Unlike 1991 census, there are significant changes in house-listing schedule for 2001 census. The questions on condition of the census house, number of married couples living in the household and having independent room for sleeping, bathroom and kitchen within the house and using the means of entertainment and communication facility of radio, transistor, television, telephone and possessing of means of transport like bicycle, scooter/motor cycle, car/jeep/ van and availing of banking services by the household are added to the present house-list schedule.

The main population enumeration was conducted from 9th February to 28th February, 2001, followed by revisional round from 1st March, 2001 to 5th March, 2001, to update the data with reference to 00.00 hours of 1st March, 2001. The houseless population was enumerated at midnight of 28th February 2001.

The household schedule and individual slip of 1991 census were replaced by household schedule of A3 size containing three parts to collect the information from each household at 2001 Census. In the present Census, the house-hold schedule is designed in such a way to suit the requirement of capturing the data through scanners. At the 2001 Census, for the first time **Image-based data capturing technology through scanners and computer network has been introduced** with a view to provide error free data by avoiding keying in of data.

The house-hold schedule broadly covered the individual particulars under four major headings 1) General and Socio cultural characteristics (Q(1 to 15), 2) Characteristics of workers and non-workers 3) Migration characteristics (Q.21 to 22)and 4) Fertility particulars (Q.23). Part-I deals with location code particulars, Part-II relates to Individual particulars with 23 questions, consisting of 1 to 39 columns, Part-III covers on cultivation/plantation particulars like land possessed, type of tenancy enjoyed by the household/ household member. Some additional questions 1) on disability, 2) Particulars relating to travel to the place of work a) distance from residence to place of work, b) mode of travel to the place of work, 3) household engaged in cultivation/plantations are added in the present household schedule.

Marital status, mother tongue, religion and literacy status (for 7 and above) migration, fertility particulars

and the identification of SC/ST are repeated but the age at marriage is also ascertained for males at 2001 Census. For the people, who are attending educational institutions, a separate code has been provided to record the Vocational institute, other institute and literacy centre in addition to school/college.

Criteria for enumeration of persons in a particular household:

a) All those who normally reside and are present in that household during the entire period of enumeration from 9th February to 28th February, 2001, b) also those who are known to be normally residing and had actually stayed during a part of the enumeration period (Feb.9th to 28th Feb.2001) in the household but are not present at the time of enumerator's visit, c) also those who were known to be normally residing and are not present at the time of enumerators visit but are expected to return before 28th Feburary,2001 and d) Visitors who are present in the household censused and are away from the place of their usual residence during the entire enumeration period. For the purpose of enumeration, such visitor will be treated as normal resident of the household in which they are actually found during the enumeration period provided that they have not been enumerated elsewhere. One of the essential features of population enumeration in the second phase is each person enumerated and her/his individual particulars are collected at a well defined point of time.

Location Code Number

The procedure of assigning location code number in a zigzag manner starting from North-west corner and ending at South-east corner, is adopted for 2001 Census. The Andhra Pradesh state was assigned Location Code No.28 as against 02 in 1991 census. In a similar fashion, the location code numbers of the districts in Andhra Pradesh state have been changed and revised location code numbers were allotted in order of geographical contiguity, beginning from North-West point of the state and ending at the South East point. Thus the Adilabad district has been assigned Location Code No. as 01 and Chittoor district Location Code No. 23 at 2001 Census. Accordingly, the location code numbers of mandals in each district have been changed for 2001 census.

An important change at 2001 census is allotment of permanent location code numbers to all the villages in the state. Since the whole data ie., Village and Town Directory information is also being computerized, the allotment of permanent location code numbers would facilitate the data users for easy access and retrieval the data of a particular village at micro level by the click of a mouse. The Permanent Location Code Number (P.L.C. No.) is an eight digit number starting with 00000100 in a zig-zag fashion from North-West corner in the first Mandal of Adilabad district and run continuously for all the districts while ending South-East corner to the extent possible at last village in the last Mandal of Chittoor district. Since this State has 28,123 villages at 2001 census, last village of last mandal in Chittoor district will have PLC No.02812300. A significant provision has been made to allot PLC Nos. to newly created villages if any in future. The last two digits of PLC No's are kept as '00' only to provide for additional villages. For example a new village has been created after PLC No.001231400, it will be assigned PLC No. as 001231401. Further, it is indicated that there is a provision for a minimum of 99 villages adjoining to a particular village allotting Permanent Location Code.

For urban areas also location code structure has been changed in a minimum way. Earlier, for towns in a district location code numbers were given roman letters in alphabetical order. This time, while assigning roman numbers instead of going to alphabetic order, location code numbers were given from North-West part of the district ending at South-East of the district to the extent possible.

Therefore, the PLC numbers of the villages and location codes of urban areas have under gone change in Census of India, 2001 as compared to 1991. In case an urban area is spread over in two districts, the location code of urban areas in both the districts will be the same irrespective of zigzag manner.

Building

is generally a single structure on the ground. Sometimes it is made up of more than component unit which are used or likely to be used as dwellings(residences) or establishments such as shops, business houses, offices, factories, workshops, worksheds, Schools, places of

entertainment, places of worship, godowns, stores etc. It is also possible that building which have component units may be used for a combination of purposes such as shop-cum-residence, workshop-cum-residence,office-cum-residence,etc.. Usually a structure will have four walls and a roof. But in some areas the very nature of construction of houses is such that there may not be any wall. Such is the case of conical structures where entrance is also provided but they may not have any walls. Therefore, such of the conical structures are also treated as separate buildings.

Permanent houses:

Houses, the walls and roof of which are made of permanent materials. The material of walls can be any one from the following, namely, galvanized iron sheets or other metal sheets, asbestos sheets, burnt bricks, stones or concrete. Roof may be made of from any one of the following materials, namely, tiles, slate, galvanized iron sheets, metal sheets, asbestos sheets, bricks, stones or concrete.

Semi-permanent houses

Houses in which either the wall or the roof is made of permanent material and the other is made of temporary material.

Temporary houses

Houses in which both walls and roof are made of materials, which have to be replaced frequently. Walls may be made from any one of the following temporary materials, namely, grass, thatch, bamboo, plastic, polythene, mud, unburnt bricks or wood. Roof may be made from any one of the following temporary materials, namely, grass, thatch, bamboo, wood, mud, plastic or polythene.

Dwelling Room

A room is treated as a dwelling room if it has walls with a doorway and a roof and should be wide and long enough for a person to sleep in, i.e. it should have a length of not less than 2 metres and a breadth of at least 1.5 metres and a height of 2 metres. A dwelling room would include living room, bedroom, dining room, drawing room, study room, servant's room and other habitable rooms. Kitchen, bathroom, latrine, store room, passageway and verandah which are not normally usable for living are not considered as dwelling rooms. A room, used for multipurpose such as sleeping, sitting, dining, storing, cooking, etc., is regarded as a dwelling room. In a situation where a census houses is used as a shop or office., etc., and the household also stays in it then the room is not considered as a dwelling room. But if a garage or servant quarter is used by a servant and if she/ he also lives in it as a separate household then this has been considered as a dwelling room available to the servant's household. Tent or conical shaped hut if used for living by any household is also considered as dwelling room. A dwelling room, which is shared by more than one household, has not been counted for any of them. If two households have a dwelling room each but in addition also share a common dwelling room, then the common room has not been counted for either of the households.

Census house

A `census house' is a building or part of a building used or recognised as a separate unit because of having a separate main entrance from the road or common courtyard or staircase, etc. It may be occupied or vacant. It may be used for residential or non- residential purpose or both.

In certain peculiar situations, the manner in which buildings and census houses were identified for numbering in the field by the enumerators is described hereunder:

Sometimes a series of different buildings are found along a street which are joined with one another by common walls on either side looking like a continuous structure.

These different units are practically independent of one another and are likely to have been built at different times and owned by different persons. In such cases, though the whole structure with all the adjoining units apparently appears to be one building, each portion was treated as a separate building and its constituent units as separate census houses.

On the other hand, one may come across cases, particularly in large cities of multi-storeyed ownership flats. In these cases while the structure looks like one building, different persons own the flats. In case of such multi-storeyed structures, having a number of flats owned by different persons, the entire structure was treated as one building and each flat as a separate census house.

If within a large enclosed area, there are separate buildings owned by different persons then each such building is treated as a separate building. There can be a situation where within an enclosed compound there are separate buildings owned by an undertaking or company or even government that are actually in occupation of different persons. For example, Indian Oil Corporation colony where the buildings are owned by the Corporation but these are in occupation of their employees. Each such building was treated as a separate building. But if in any one of these buildings there were flats in occupation of different households, each such flat was reckoned as a separate census house.

Sometimes it becomes difficult to apply the definition of census house strictly in certain cases. For example, in an urban area, if a flat has five rooms, each room having direct entrance from the common staircase or courtyard. By definition, this has to be treated as five census houses. If all these five rooms are occupied by a single household it was not realistic to treat them as five census houses. In such a case,`singleness' of use of these rooms along with the main house should be considered and the entire flat was treated as one census house. On the other hand, if two independent households occupy these five rooms, the first household living in 3 rooms and the second household occupying 2 rooms, then considering the use, the first three rooms together were treated as one census house and the remaining rooms as another census house. But if each room was occupied by an independent household, then each such room was treated as a separate census house.

In case of hostels, hotels, etc., even if the door of each room in which an inmate lives opens to a common verandah, staircase, courtyard or a common room, as it happens almost invariably, the entire hostel/ Hotel building was treated as one census house. but if such hostels/ hotels have out- houses or other structures used for different purposes or the same purpose, then each such structure attached to the main hostel / hotel was treated as a separate census house.

In some parts of the country, in rural areas, the pattern of habitation is such that a group of huts, located in a compound, whether enclosed or unenclosed, is occupied by one household. While the main residence may be located in one hut, other huts may be used for sleeping, as a kitchen, bath room, baithak, etc. Though each of the huts was a separates structure, they form a single housing unit and therefore, have to be treated collectively as one building and one census house. If some of the huts are used by one household and the others by a second household as residence, then the two groups of huts were treated as separate census houses. However, if there were also other huts in the compound used for other purposes and not as part of the household's residence such as, cattle shed, workshed, etc., these were treated as separate census houses.

On the other hand, in urban areas, where more than one structure within an enclosed or open compound (premises) belonging to the same person, e.g., the main house, the servant's quarter, the garage, etc., only one building number was given for this group and each of the constituent a separate census house number.

Only cases where a structure with roof and pillars has come up was treated as a building.

Village

The basic unit for rural areas is the revenue village which has definite surveyed boundaries. The revenue village may comprise of one or more hamlets but the entire village is treated as one unit for presentation of data. In un-surveyed areas, like villages within forest areas, each habitation area with locally recognized boundaries is treated as one village.

Rural - Urban area

The data in tables on Houses, Household Amenities and Assets are presented separately for rural and urban areas. The unit of classification in this regard is `town' for urban areas and `village' for rural areas. In the Census of India 2001, the definition of urban area adopted is as follows:

(a) All places with a municipality, corporation, cantonment board or notified town area committee, etc.

(b) A place satisfying the following three criteria simultaneously:

i) A minimum population of 5,000;

ii) At least 75 per cent of the male working population engaged in non-agricultural pursuits ; and

iii) A density of population of at least 400 per sq. km. (1,000 per square mile).

For identification of places which would qualify to be classified as 'urban' all villages, which, as per the 1991 Census had a population of 4,000 and above, a population density of 400 persons per sq. km. and having at least 75 per cent of male working population engaged in non-agricultural activity were considered. To work out the proportion of male working population referred to above against b) (ii), the data relating to main workers were taken into account. Apart from these, the outgrowths(OGs) of cities and towns have also been treated as urban under 'Urban Agglomerations'. Examples of out-growths are railway colonies, university campuses, port areas, military camps, etc., that may have come up near a statutory town or city but within the revenue limits of a village or villages contiguous to the town or city. Each such individual area by itself may not satisfy the demographic criteria laid down at (b) above to qualify it to be treated as an independent urban unit but may deserve to be clubbed with the towns as a continuous urban spread. Thus, the town level data, wherever presented, also includes the data for outgrowths of such towns.

City

Towns with population of 1,00,000 and above are called cities.

Urban Agglomeration

An Urban Agglomeration is a continuous urban spread constituting a town and its adjoining urban outgrowths (OGs) or two or more physically contiguous towns together and any adjoining urban outgrowths of such towns. In some cases railway colonies, university campuses, port areas, etc., may come up near a city or statutory town outside its statutory limits but within the revenue limits of a village or villages contiguous to the town or city. Each such individual area by itself may not satisfy the minimum population limit to qualify it to be treated as an independent urban unit but may deserve to be clubbed with the town as a continuous urban spread.For the purpose of delineation of Urban Agglomerations during Census of India 2001, following criteria are taken as pre-requisites:

(a) The core town or at least one of the constituent towns of an urban agglomeration should necessarily be a statutory town ; and

(b) The total population of all the constituents (i.e., towns and outgrowths) of an Urban Agglomeration should not be less than 20,000 (as per the 1991 Census).

With these two basic criteria having been met, the following are the possible different situations in which Urban Agglomerations would be constituted:

i) a city or town with one or more contiguous outgrowths;

ii) two or more adjoining towns with their outgrowths; and

iii) a city and one or more adjoining towns with their outgrowths all of which form a continuous spread.

Household

A 'household' is usually a group of persons who normally live together and take their meals from a common kitchen unless the exigencies of work prevent any of them from doing so. Persons in a household may be related or unrelated or a mix of both. However, if a group of unrelated persons live in a census house but do not take their meals from the common kitchen, then they are not constituent of a common household. Each such person was to be treated as a separate household. The important link in finding out whether it was a household or not was a common kitchen. There may be one member households, two member households or multi-member households.

Institutional household

A group of unrelated persons who live in an institution and take their meals from a common kitchen is called an Institutional Household. Examples of Institutional Households are boarding houses, messes, hostels, hotels, rescue homes, jails, ashrams, orphanages, etc. To make the definition more clearly perceptible to the enumerators at the Census 2001, it was specifically mentioned that this category or households would cover only those households where a group of unrelated persons live in an institution and

share a common kitchen.

Houseless household

Households who do not live in buildings or census houses but live in the open on roadside, pavements, in hume pipes, under fly-overs and staircases, or in the open in places of worship, mandaps, railway platforms, etc., are treated as Houseless Households.

Scheduled Caste and Scheduled Tribe

Article 341 of the Constitution provides that the President may, with respect to any State or Union territory, specify the castes, races or tribes or parts of or groups within castes, races or tribes which shall for the purposes of the Constitution be deemed to be Scheduled Castes in relation to that State or Union territory. Article 342 similarly provides for specification of tribes or tribal communities or parts of or groups within tribes or tribal communities which are to be deemed for the purposes of the Constitution to be Scheduled Tribes in relation to the various States and Union territories. In pursuance of these provisions, the list of Scheduled Castes and / or Scheduled Tribes are notified for each State and Union territory and are valid only within the jurisdiction of that State or Union territory and not outside.

It is important to mention here that under the Constitution (Scheduled Castes) Order, 1950, no person who professed a religion different from Hinduism was deemed to be a member of a Scheduled Caste in addition to every member of the Ramdasi, Kabirpanthi, Majhabi or Sikligar caste resident in Punjab or Patiala and East Punjab States Union were in relation to that State whether they professed the Hindu or the Sikh religion. Subsequently, in September 1956, by an amendment, the Presidential Order of 1950 and in all subsequent Presidential Orders relating to Scheduled Castes, the Hindu and the Sikh religions were placed on the same footing with regard to the specification of Scheduled Castes. Later on, as per the amendment made in the Constitution (Scheduled Castes) Order 1990, the Hindu, the Sikh and the Buddhist were placed on the same footing with regard to the recognition of the Scheduled Castes.

The lists containing the names of the Scheduled Castes and the Scheduled Tribes applicable for the Census of India 2001 in the State/ Union territory are given below:

List of Scheduled castes in Andhra pradesh

1. Adi Andhra
2. Adi Dravida
3. Anamuk
4. Aray Mala
5. Arundhatiya
6. Arwa Mala
7. Bariki
8. Bavuri
9. Beda Jangam, Budga Jangam
10. Bindla
11. Byagara
12. Chachati
13. Chalavadi
14. Chamar, Mochi, Muchi
15. Chambhar
16. Chandala
17. Dakkal, Dokkalwar
18. Dandasi
19. Dhori
20. Dom, Dombara, Paidi, Pano
21. Ellamalawar, Yellammalawandlu
22. Ghasi, Haddi, Relli, Chachandi
23. Godagali
24. Godari
25. Gosangi
26. Holeya
27. Holeya Dasari
28. Jaggali
29. Jambuvulu
30. Kolupul Vandlu
31. Madasi Kuruva, Madari Kuruva
32. Madiga
33. Madiga Dasu, Mashteen

34. Mahar
35. Mala
36. Mala Dasari
37. Mala Dasu
38. Mala Hannai
39. Malajangam
40. Mala Masti
41. Mala Sale, Netkani
42. Mala Sanyasi
43. Mang
44. Mang Garodi
45. Manne
46. Masht
47. Matangi
48. Mehtar
49. Mitha Ayyalvar
50. Mundala
51. Paky, Moti, Thoti
52. Pambada, Pambanda
53. Pamidi
54. Panchama, Pariah
55. Relli
56. Samagara
57. Samban
58. Sapru
59. Sindhollu, Chindollu

List of Scheduled Tribes in Andhra pradesh

1. Andh
2. Bagata
3. Bhil
4. Chenchu, Chenchwar
5. Gadabas
6. Gond, Naikpod, Rajgond
7. Goudu(in the Agency tracts)*
8. Hill Reddis
9. Jatapus
10. Kammara
11. Kattunayakan
12. Kolam, Mannervarlu
13. Konda Dhoras
14. Konda Kapus
15. Kondareddis
16. Kondhs, Kodi, Kodhu,
    Desaya Kondhs, Dongria Kondhs,
    Kuttiya Kondhs, Tikiria Kondhs,
    Yenity Kondhs.
17. Kotia, Bentho Oriya, Bartika, Dhulia,
    Dulia, Holva, Paiko,
    Putiya, Sanrona, Sidhopaiko
18. Koya,Goud,Rajah,Rasha Koya,
    Lingadhari Koya(ordinary),
    Kottu Koya, Bhine Koya, Rajkoya
19. Kulia
20. Malis(excluding Adilabad,
    Hyderabad,Karimnagar,Khammam,
    Mahbubnagar,Medak,Nalgonda,
    Nizamabad and Warangal districts)
21. Manna Dhora
22. Mukha Dhora, Nooka Dhora
23. Nayaks(in theAgency tracts)*
24. Pardhan
25. Porja, Parangiperja
26. Reddi Dhoras
27. Rona, Rena
28. Savaras, Kapu Savaras,
    Maliya Savaras, Khutto Savaras
29. Sugalis, Lambadis
30. Thoti(In Adilabad, Hyderabad,
    Karimnagar, Khammam,
    Mahbubnagar, Medak, Nalgonda,
    Nizamabad and Warangal Districts)
31. Valmiki (in the Agency tracts)

32. Yenadis

33. Yerukulas

** The agency tracts is comprised of Srikakulam, Vizianagaram, Visakhapatnam, East-Godavari, West-Godavari and Khammam districts.*

Language and Mother tongue

As per the census concept, each language is a group of mother tongues. The census questionnaire collects information on the mother tongue of each person and mother tongue is defined as the language spoken in childhood by the person's mother to the person. If the mother died in infancy, the language mainly spoken in the person's home in childhood will be the mother tongue. In the case of infants and deaf mutes, the language usually spoken by the mother is considered as mother tongue. It is not necessary that the language spoken as mother tongue should have a script. The mother tongues returned by the respondents in census are classified and grouped under appropriate languages according to their linguistic characteristics.

Literate

A person aged 7 years and above who can both read and write with understanding in any language is taken as literate. A person who can only read but cannot write is not literate. It is not necessary that to be considered as literate, a person should have received any formal education or passed any minimum educational standard. Literacy could also have been achieved through adult literacy classes or through any non-formal educational system. People who are blind and can read in Braille are treated as literates.

Literacy rate

Literacy rate of the population is defined as the percentage of literates in the age group seven years and above. For different age groups the percentage of literates in that age group gives the literacy rate.

Educational level

The highest level of education a person has completed

Work

Work is defined as participation in any economically productive activity with or without compensation, wages or profit. Such participation may be physical and/or mental in nature. Work involves not only actual work but also includes effective supervision and direction of work. It even includes part time help or unpaid work on farm, family enterprise or in any other economic activity. All persons engaged in 'work' as defined above are workers. Persons who are engaged in cultivation or milk production even solely for domestic consumption are also treated as workers. Reference period for determining a person as worker and non-worker is one year preceding the date of enumeration.

Main worker

A person who has worked for major part of the reference period (i.e. six months or more during the last one year preceding the date of enumeration) in any economically productive activity is termed as `Main worker'.

Marginal worker

A person who worked for less than six months of the reference period (i.e. in the last one year preceding the date of enumeration) in any economic activity is termed as `Marginal worker' .

Non worker

A person who has not worked at all in any economically productive activity during the reference period (i.e. last one year preceding the date of enumeration) is termed as `Non worker'.

Cultivator

For purposes of the Census a person is classified as cultivator if he or she is engaged in cultivation on land owned or held from government or held from private persons or institutions for payment in money, kind or share. Cultivation includes effective supervision or direction in cultivation. A person who

has given out her/his land to another person or persons or institution(s) for cultivation for money, kind or share of crop and who does not even supervise or direct cultivation in exchange of land, is not treated as cultivator. Similarly, a person working on another person's land for wages in cash or kind or a combination of both (agricultural labourer) is not treated as cultivator. Cultivation involves ploughing, sowing, harvesting and production of cereals and millet crops such as wheat, paddy, jowar, bajra, ragi, etc., and other crops such as sugarcane, tobacco, ground-nuts, tapioca, etc., and pulses, raw jute and kindred fibre crop, cotton, cinchona and other medicinal plants, fruit growing, vegetable growing or keeping orchards or groves, etc. Cultivation does not include the following plantation crops - tea, coffee, rubber, coconut and betel-nuts (areca).

Agricultural labourer

A person who works on another person's land for wages in money or kind or share is regarded as an agricultural labourer. She/he has no risk in the cultivation, but merely works on another person's land for wages. An agricultural labourer has no right of lease or contract on land on which she/he works.

Household industry worker

Household industry is defined as an industry conducted by the head of the household herself/himself and or by the members of the household at home or within the village in rural areas and only within the precincts of the house where the household lives in urban areas. The larger proportion of workers in household industry should consist of members of the household including the head. The industry should not be run on the scale of a registered factory which would qualify or has to be registered under the Indian Factories Act and should be engaged in manufacturing, processing, servicing and repairs of goods. It does not include professions such as a Pleader, Doctor, Musician, Dancer, Waterman, Astrologer, Dhobi, Barber, etc. or merely trade or business, even if such professions, trade or services are run at home by members of the household.

Other worker

A person who has been engaged in some economic activity during the reference period but not as a cultivator or agricultural labourer or in Household Industry is termed as a 'Other Worker (OW)'. The type of workers that come under this category of 'OW' include all government servants, municipal employees, teachers, factory workers, plantation workers, those engaged in trade, commerce, business, transport, banking, mining, construction, political or social work, priests, entertainment artists, etc. In effect, all those workers other than cultivators or agricultural labourers or household industry workers, are 'Other Workers'.

Work participation rate

Percentage of workers (main + marginal) to total population

Population density

Population density is the number of persons inhabited per square kilometre of the area.

Age

Age is measured in terms of the completed number of years

Sex -ratio

Number of females per 1000 males in a population.

(viii) Non Census Concepts

Improved drinking water :

If the household had access to drinking water supplied from a tap, hand pump, tube well or well (protected or covered) situated within or outside the premises, it is considered as having access to improved drinking water. It may be mentioned that such uniform definition may not be valid across all states.

System of sewerage :

Generally, a sewerage system would mean a network of mains and branches of underground conduits for the conveyance of sewerage to the point of disposal. Sewers that carry only household and industrial wastage are called separate sewers; those that carry storm water from roofs, streets and other surfaces are known as storm water drains, while those carrying both sewage and storm water are called combined sewers. However, in some towns which are not provided with such underground sewerage system, it is served by open surface drain, box drain, sylk pattern drain, etc., in these towns.

Type of latrine and Method of disposal of night soil :

There are three prevalent systems of disposal of human wastes, viz.(i) underground sewerage, (ii) sanitary water flush latrines with individual disposal systems, like septic tank, leaching cess pool and collecting well, and (iii) dry type of latrines with manual scavenging. The system of underground sewerage provides for the street sewerage with which are connected the sanitary latrines constructed in the houses having water closets and fitted with flushing cistern (or hand flushing). Through this sewer the faecal matter is transported without the need for scavenging. This system generally exists in cities and big towns. Where the streets sewer does not exist these sanitary water flush latrines are connected to a local septic tank with a sub-soil dispersion system or a leaching pit. Here the liquid wastes from the water closet is disposed of locally in leaching pit, a septic tank with a soil dispersion system is constructed. This dispersion requires an optimum travel through the pores of the soil which renders the harmful liquid bacterially innocuous by the slow process of filtration through the soil traversed. Where the soil is impermeable, collecting wells are constructed and the sanitary water flush latrines are connected with them. These wells are cleaned at periodic intervals by a suitable device. The dry type of latrines are of service type latrines from where human excreta is removed by scavengers from house to house, in most cases carrying it on their heads or shoulders or in baskets with handle or wheel barrows. These are then collected in bullock carts or trucks or tractors and trolleys for being carried to the dumping grounds.

Fertility :

In demography, the word fertility is used in relation to the actual production of children or occurrence of births specially live births. Fertility is a measure of rate at which population adds to itself by births and normally assessed by relating the number of births to a full or part of the population, such as number of married women or number of women of child bearing age. The definitions of the terminology used in computing different fertility rates are mentioned below:

Crude birth rate(CBR) :

Ratio of the number of live births in a year to the mid year population, normally expressed per 1000 population.

$$CBR = \frac{\text{Number of live births during the year}}{\text{Mid –year Population}} \times 1000$$

Crude death rate(CDR)

Ratio of the number of deaths in a year to the mid year population, normally expressed per 1000 population.

$$CDR = \frac{\text{Number of deaths during the year}}{\text{Mid- year Population}} \times 1000$$

Natural growth rate

Growth rate is obtained as the difference between crude birth rate and crude death rate in the absence of migration.

Age specific fertility rate (ASFR)

Number of live births in a year to female population in any specified age group normally expressed per 1000 women.

$$ASFR = \frac{\text{Number of live births in a particular age-group}}{\text{Mid-year female population of the same age-group}} \times 1000$$

Age specific marital fertility rate (ASMFR)

Number of live births in a year to married female population in any specified age group normally expressed per 1000 married women .

$$ASMFR = \frac{\text{Number of live births in a particular age-group}}{\text{Mid-year married female population of the same age-group}} \times 1000$$

General fertility rate (GFR)

Number of live births per 1000 women in the reproductive age-group (15-49) years in a given year.

$$GFR = \frac{\text{Number of live births in a year}}{\text{Mid-year female population in the age-group (15-49) years}} \times 1000$$

General marital fertility rate (GMFR)

Number of live births per 1000 married women in reproductive age-group (15-49) years in a given year.

$$GMFR = \frac{\text{Number of live births in a year}}{\text{Mid-year married female population in the age-group (15-49) years.}} \times 1000$$

Total fertility rate (TFR)

It is obtained as the total of the age specific fertility rates (number of children born per woman of the particular age) for the entire reproductive age span. It provides the average number of children that will be born to a woman under the fertility levels indicated by the age specific fertility rates assuming that there is no mortality of women till the completion of reproductive period.

$$TFR = \frac{5 \times \sum_{15\text{-}19}^{45\text{-}49} ASFR}{1000}$$

Total marital fertility rate (TMFR)

Average number of children that would be born to a married woman if she experiences the current fertility pattern throughout her reproductive span (15-49) years assuming that there is no mortality of women till the completion of reproductive period.

$$TMFR = \frac{5 \times \sum_{15\text{-}19}^{45\text{-}49} ASMFR}{1000}$$

Age-specific mortality rate (ASMR)

Number of deaths in a particular age and sex group per 1000 population of the same age group.

$$ASMR = \frac{\text{Number of deaths in a particular age-group}}{\text{Mid-year population of the same age-group}} \times 1000$$

q1

Probability of dying between birth and age 1. This can be used as approximate value of Infant Mortality Rate (IMR) which gives the ratio of number of deaths in a year of children aged less than one year to the number of births in that year.

q2

Probability of dying between birth and age 2.

q5

Probability of dying between birth and age 5. This indicator is also known as Under Five Mortality Rate (U5MR)

Infant mortality rate (IMR)

Ratio of the number of infant deaths (deaths of children below one year) in a year to the number of live births in that year.

$$IMR = \frac{\text{Number of infant deaths during the year}}{\text{Number of live births during the year}} \times 1000$$

Infant mortality rate comprises of two parts, viz., Neo-natal mortality rate and Post neo-natal mortality rate. The neo-natal mortality rate also comprises of two parts viz., Early neo-natal mortality rate and late neo-natal mortality rate. These are defined as:

Neo-natal mortality rate (NMR)

Number of infants dying within the first month of life (28 days or under) in a year per 1000 live births of the same year.

$$NMR = \frac{\text{Number of infant deaths aged 28 days or under during the year}}{\text{Number of live births during the year}} \times 1000$$

Early neo- natal mortality rate

$$ENMR = \frac{\text{Number of infant deaths of less than 7 days During the year}}{\text{Number of live births during the year}} \times 1000$$

Late neo-natal mortality rate

$$LNMR = \frac{\text{Number of infant deaths of 7 days to less than 29 days during the year}}{\text{Number of live births during the year}} \times 1000$$

Post neo-natal mortality rate (PNMR)

$$PNMR = \frac{\text{Number of deaths of 29 days to less than one year during the year}}{\text{Number of live births during the year}} \times 1000$$

Peri-natal mortality rate (PMR)

Number of still births plus deaths within 1st week of delivery per 1000 births in a year.

$$PMR = \frac{\text{Number of still births and infant deaths of less than 7 days during the year}}{\text{Number of live births and still births during the year}} \times 1000$$

Still birth rate(SBR)

$$SBR = \frac{\text{Number of still births during the year}}{\text{Number of live births and still births during the year}} \times 1000$$

Maternal mortality rate(MMR)

Number of deaths of women in the age group 15-49 while pregnant or within 42 days of termination of pregnancy from any cause related to pregnancy and child birth per 1,00,000 live births in a given year.

$$MMR = \frac{\text{Number of maternal deaths to women in the age group 15-49}}{\text{Number of live birth}} \times 1,00,000$$

Eligible couple (Couples per 1000 population)

Number of currently married females in the age group15-44 years per 1000 persons of all ages.

Child woman ratio (0-4)

1. Number of children in the age group 0-4 years per 1000 women in the age group 15-49 years.

Child woman ratio (5-9)

2. Number of children in the age group 5-9 years per 1000 women in the age group 15-49 years.

Migration

Migration is the third component of population change, the other two being mortality and fertility. A person is considered as a migrant by place of birth if the place in which he/she is enumerated during the census is other than the place of his/her birth. Similarly a person is considered as a migrant by place of last residence if the place in which he/she is enumerated during the census is other than his/her place of immediate last residence outside the village or town and not simply in another house or locality in the same village or town. Certain aspects concerning temporary movement/migration of people has been explained below as these are important components concerning migration :-

(i) Migration of persons in search of job is high in the country. In many cases such migrants are only seasonal in nature. People migrate to other places for work in a particular season and come back again to their usual place of residence after three or four months. All such workers are treated as migrants. Similarly, if a person moved to any other place for attending short term vocational or educational course that lasted for only few months of a year, she/he too were considered as a migrant.

(ii) Where a person had merely gone out to another place or had been shifting from one place to another purely on tour, pilgrimage, visit to hospital for treatment or for temporary business purposes, such

persons are not deemed to have had another residence different from the place where she/he or her/his family normally resides. She/he is not considered as migrant.

(iii) A woman temporarily moves into a hospital or to her parents or other relative's house for delivery and if the hospital or the parents/relatives houses is in a place different from usual place of residence, the place where the hospital or parents/relative's house is the place of last residence of the child but not of the mother. A new response category 'Moved after birth' was added in Census of India 2001 in the question on 'reasons for migration' to bring out additional migration patterns. Natural calamities or distress migration as a reason for migration for last residence migrants included in 1991 Census, is covered under category of 'Others'. The reason for migration has been determined as applicable at the time of migration and not in reference to any point of time after that. For example, if a person had moved from the place of her/his last residence for the purpose of education and subsequently at some point of time got employment there only, the reason for migration would be 'education' and not 'work/employment'.

Internal and International migration :

The migrational movements are of three types (i) Migration within the state itself with its components (a) Migration within the district of enumeration (intra district migration) (b) Migration from one district of state to another district of state (inter district migration), (ii) Migration from one state to another State of the country (inter-state migration), (iii) Migration from one country to another country. The first two streams together constitute internal migration, while the last type of movement is called international migration. The present name of the country, state or district and not the name by which they were known at the time of her/his birth or last residence were recorded.

Rural - Urban components of migration:

Rural or Urban status in respect of migrants have been determined as applicable at the time of migration and not with reference to any point of time after that. The flow of migrants consists of four streams viz. rural to rural, rural to urban, urban to rural and urban to urban.

Civic status of urban units

Civic Status of a town/city is determined on the basis of Civic Administrative authority of the town e.g., Municipal Corporation / Corporation, Municipal Committee/ Municipal council, Municipality etc.

Size class of UA / town :

Size-class of UA/Town is based on the population size of the UA/City/Town UAs./Towns with 1,00,000 and above population are classified as Class I UAs. / towns. These Class I UAs. / towns are now further sub classified into seven sub classes namely M1 to M7 depending on the population size of UA/City/ Town. These are M7(5,000,000 and above); M6(2,000,000 to 4,999,999); M5 (1,000,000-1,999,999) M4 (500,000-999,999); M3(300,000-499,999), M2 (200,000-299,999) & M1 (100,000-199,999). towns with, 50,000 to 99,999 population are classified as Class II towns, 20,000 to 49,999 population are Class III towns, population with 10,000-19,999 are Class IV towns, population with 5,000 and 9,999 are Class V towns and towns with less than 5,000 population are Class VI towns.

Slum area :

The Slum Areas (Improvement and Clearance) Act, 1956 which was enacted by the Central Govt. defined slums as a) Areas where buildings are in any respect unfit for human habitation; or b) are by reasons of dilapidation, overcrowding, fault arrangement and design of such buildings, narrowness or faulty arrangement of streets, lack of ventilation, light or sanitation facilities, or any combination of these factors, are detrimental to safety, health or morals.

Mega city :

The concept of 'Mega city' is a recent phenomenon in the Urban Sociology and is defined in term of metropolitan city in the form of large size, problem of management of civic amenities and capacity to absorb the relatively high growth of population. Indian Census in 1991 treated the population size of 5 million and above as the cut off point to identify a place as the mega city. Whereas, for the purpose of inclusion in Centrally Sponsored Scheme for Infrastructure Development in Mega cities the Ministry of Urban Affairs and employment, Department of Urban Development adopted the criteria of 4 million and above population as per 1991 Census for Mega Cities. In 2001 Census, cities with 10 millions and above population have been treated as Mega cities.

Analytical Note
(ix) 2001 Census findings – Population and its distribution

a) Distribution of Population in Rural - Urban areas :

According to 2001 Census the total population of Mahbubnagar district stands at 3,513,934 with 1,782,340 males and 1,731,594 females. The district stands at 11th rank as far as population is concerned in the state. Out of the total population of the district 3,142,579 persons constituting 89.4% are residing in rural areas and the remaining 371,355 persons(10.6%) are residing in urban areas. The proportion of urban to total population regarded as an index of urbanization is 10.6% for Mahbubnagar district. Corresponding to state figure of 27.3%. Average number of towns for 100 inhabited villages in the district is less than 1% (0.5%).

Mahbubnagar district has 1,550 villages in 64 mandals of which 1,477 are inhabited villages. The average number of inhabited villages per mandal is 23. Mahbubnagar mandal is the largest mandal in terms of population accounting 5.6% of the district population. In terms of number of villages, Kondurg and Makthal mandals lead with 39 villages each. Large number i.e. 37 villages are found in Balanagar mandal which are all inhabited villages only. Madgul mandal has least i.e. 15 and among them 14 inhabited villages and one un-inhabited village. As regard population 28,874 is the least population in Lingal mandal in the district.

The urban population is distributed among 7 urban units of which 4 are statutory towns. The average size of an urban center in the district works out to 53,051 persons. Mahbubnagar Municipality has largest population (130,986) whereas Nagarkurnool is the smallest town with a population of (26,157). There is no town in the district which has less than 5000 population.

(b) Size class and status of towns, population Growth, density and sex ratio, work participation rate and literacy rate:

Size class and status of Towns:

During every Census the number of Census towns and statutory towns changes due to addition of new Census towns, declassification of old Census towns, notifying of new towns, de-notifying of old statutory towns etc. For the purpose of analysis of varied demographic characteristics of urban areas have been divided into six classes by size of population. Of the 7 towns in the district. Mahbubnagar is categorized as class I town while Wanaparthy and Gadwal are class II, Farooqnagar, Badepalle, Narayanpet and Nagarkurnool are class III towns, not a single town is categorized as class IV, V and VI.

Population Growth :

The population of district was 3,077,050 as per 1991 Census and has gone upto 3,513,934 persons in 2001 adding 436,884 persons during the decade 1991-2001. The growth rate revealed by the district(14.2%) is less than the state growth of 14.6% during the decade. Mahbubnagar district ranks 14th in growth rate among 23 districts in the state.

Rural Urban growth rates shows wide variations. The rural growth rate is recorded as 14.9 while urban growth rate is 8.5. As regard growth rate in rural population the district occupies 11th position, when we speak about urban growth rate it occupies 13th place of the state.

Density :

The overall density of population in the district is

191 persons per sq.km and is below the state average of 277. Among urban areas Mahbubnagar town recorded highest 9,561 persons per sq.km followed by 8,297 persons in Gadwal town. Least density i.e. 1,829 persons per sq.km. has been reported in Wanaparthy town.

Sex-ratio :

Mahbubnagar district has sex-ratio 972 females per 1,000 males while it was 973 in 1991 Census. It is lower than the state average sex ratio of 978. The district occupied 15th rank in respect of sex ratio among 23 districts. Chinnachintakunta mandal has the highest sex ratio of 1039. While Lingal mandal has lowest sex ratio of 912. Among urban units Narayanpet town has reported highest sex ratio of 1005 and Nagarkurnool Census Town reported lowest sex ratio of 923.

Work participation rate :

The work participation rate for total workers is defined as percentage of total workers to total population. The total workers participation rate in Mahbubnagar district is 51.9%. Again percentage of main workers stands at 42.2%. The total workers participation rate separately for males and females in the rural areas are 57.3% and 51% respectively, against corresponding figures for urban areas are 47.5% and 16.9% respectively. Among the main workers as seen from the percentage of workers of 2001 over 1991,a decrese can be seen. The female workers participation rate has slightly gone up from 44.9 in 1991 Census to 47.4 at 2001 Census.

Literacy Rate :

While calculating effective literacy rate, children in 0-6 age group have been excluded. The district returned 1,317,521 literates forming 44.4% of the population of the district, excluding 0-6 age group. Separating for urban and rural areas, the literacy rate worksout to 40.7% and 74.9% respectively. Again within the urban areas male and female literacy rates worksout to 83.8% and 65.6%. For the rural population the male and female literacy rates worksout to 53.3% and 27.8%.

(c)Scheduled Castes and Scheduled Tribes of earlier Censuses:

To uplift social and economical status of Scheduled Castes and Scheduled Tribes, one of the basic requirement is the availability of data on age, sex, marital status, economy, education, fertility etc, seperately for these castes, in this regard these particulars are being collected in each census from 1951 onwards and provided to planners and administrators to take-up necessary steps to evolve suitable plans for the development of Scheduled Castes and Scheduled Tribes.

The President of India has notified some castes, races or tribes or parts of groups within castes, races or tribes as Scheduled Castes under Article 341 of the Constitution of India. Similarly, under Article 342 of the Indian Constitution, President of India has declared all such tribes or tribal communities or parts of groups within the tribes or tribal communities as Scheduled Tribes. The list of Scheduled Castes and Scheduled Tribes are notified for each State or Union Territory and are valid only within the jurisdiction of that State and Union Territory. The list of Scheduled Castes and Scheduled Tribes is provided in this volume under the chapter on 'Census concepts'.

Scheduled Castes population in the district as per 1991 Census:

As per 1991 census, there were 542,380 Scheduled Castes population comprising 276,017 males and 266,363 females. This works out to 17.6% to the total population of the district. Of the total population of Scheduled Castes, 94.5% were living in rural areas of the district.

The following statement reveals that Scheduled Castes population has recorded 27.9% growth rate during the decade 1981-91. It was 28% in rural areas which is equal to the growth rate of total district. Growth rate in Urban areas was 26.2% which is nearly 1% less than the district and rural areas.

The sex ratio of Scheduled Castes population (965) was lower in comparison to that of the general population in the district (973). The sex ratio in rural area of the district was little higher than total district sex ratio among Scheduled Castes population. In urban areas it was 935. Literacy rate among

Scheduled Castes was 14.5% which was lower than the district (29.6%). In urban areas their literacy rate was 44.3%. Proportion of main workers among Scheduled Castes was 55.2 percent and the Marginal workers was 1.7 percent. In rural areas workers population was 56.2 percent and in urban areas their percentage was 39.1.

Statement(i)

Particulars of decadal variation, sex ratio, literacy and workers participation of Scheduled Castes population-1991

Sl.No.	Particulars	Total	Rural	Urban
1	Percentage decadal Variation:			
	1981	424,076	400,381	23,695
	1991	542,380	512,480	29,900
		(27.89)	(27.99)	(26.19)
2	Sex ratio	965	967	935
3	Percentage of Literacy	14.51	12.73	44.32
4	Percentage of			
	:i. Main Workers	55.24	56.18	39.08
	ii. Marginal Workers	1.69	1.77	0.33
	iii. Non-workers	43.07	42.05	60.59

It is seen from the below furnished table that Scheduled Castes population in the district has registered 11.45% growth rate during the decade 1961-1971. The same for the decade 1971-1981 and 1981-1991 was 30.36% and 27.90% respectively. The growth rate during 1971-1981 was more than the growth rate of 1961-1971. However growth rate has been decreased from 30.36% during 1971-1981 to 27.90% during 1981-1991.

Statement (ii)

Statement showing the decadal variation in Scheduled Castes population in Mahbubnagar district in comparison to Andhra Pradesh State between 1961-1991 Censuses

Sl. No.	Census Year	Scheduled Castes Population in district (percentage variation shown in brackets)	Scheduled Castes Population in State (percentage variation shown in brackets)
1	1961	291,878 (--)	4,973,616 (--)

2.District Census Handbook, Mahabubnagar 1991

The following statement gives the proportion of Scheduled Castes population to total population in the villages. Out of 1,381 villages where Scheduled Castes population returned in the district 62 villages constituting 4.49% were having less than 6% of scheduled castes population. Of the remaining villages, 112(8.11%) were having 6 to 10% of scheduled castes population, 276(19.99%) having 11 to 15% and 202(14.62%) having 31% and above to total population of the respective villages.

Statement (iii)
Proportion of Scheduled Castes Population to Total Population in the villages-1991

Percentage range of Scheduled Castes population to Total population	Number of villages in each range	Percentage of villages in each range
1	2	3
5 and below	62	4.49
6-10	112	8.11
11-15	276	19.99
16-20	330	23.90
21-30	399	28.89
31 and above	202	14.62
Total	**1,381**	**100.00**

Source: District Census Handbook Mahbubnagar, 1991.

The following statement shows the percentage of Scheduled Castes population to the total population of the towns in the district at 1991 Census. Out of 342,192 Urban population, Scheduled Castes population of 29,900 constituted 8.74%. Alampur town has 23.7% Scheduled Castes population to the total population of the town, followed by Kollapur town 16.9%. The lowest percentage of S.C. Population can be seen in the towns of Mahabubnagar and Farooqnagar with 6.6% and 7.1% respectively.

Statement (iv)
Percentage of Scheduled Castes Population in Towns census 1991

Class & Name of Town	Total Population	Total Scheduled Castes Population	Percentage of Schedeuled Castes Population to Total Population
IV Alampur	11,844	2,805	23.68
III Badepalle	25,226	2,110	8.36
III Farooqnagar	23,565	1,671	7.09
III Gadwal	40,742	3,323	8.16

All Towns	**342,192**	**29,900**	**8.74**

Source: District Census Handbook, Mahbubnagar, 1991.

The Scheduled Tribes population in the district as per 1991 Census :

As per 1991 Census, there were 227,405 Scheduled Tribes population comprising 116,871 males and 110,534 females. This works out 7.4% to the total population of the district. Of the total population of the Scheduled Tribes 98.4% were living in rural areas of the district.

The following statement reveals that Scheduled Tribes population in the district has registered 46.5% growth rate during the decade 1981-91. Almost same growth rate 46% has been recorded in the rural areas of the district. In urban areas it was 83.3%. The sex ratio in the district was 946, while in rural areas it was 948 and in urban areas 810. As regards the Literacy rate among the tribes, it was 10.1% , while in rural areas it was 9.5%. However in urban areas it was higher (46%) than rural areas as well as the district total.

The population of main workers and marginal workers among tribals in the district was 50.3% and 2.0% respectively where as in rural areas of the district it was 50.6% and 2.1% respectively. But in urban areas they were reported 31.8% and 0.7% respectively.

Statement (v)
Particulars of decadal variation, sex ratio, literacy and workers participation of Scheduled Tribes population-1991

Sl.No.	Particulars	Total	Rural	Urban
1	decadal Variation:			
	1981	155,240	153,203	2,037
	1991	227,405	223,671	3,734
		(46.49)	(46.00)	(83.31)
2	Sex ratio	946	948	810
3	Percentage of Literacy	10.07	9.46	45.99
4	Percentage of :			
	i. Main Workers	50.29	50.60	31.79
	ii. Marginal Workers	2.03	2.05	0.70
	iii. Non-workers	47.68	47.35	67.51

It is seen from the following statement that the Scheduled Tribes population growth rate was low during the decade 1961-71, when it is compared with 1971-81 and 1981-91, while it has recorded abnormal increase i.e. 2,672% during the decade 1971-81. This abnormal increase was due to inclusion of some of the tribes in the list of Scheduled Tribes during the decade.

Statement (vi)

Statement showing the decadal variation in Scheduled Tribes population in Mahbubnagar district in comparison to Andhra Pradesh State between 1961-1991 Censuses

Sl. No.	Census Year	Scheduled Tribes Population in the district (percent variation shown in bracket)	Scheduled Tribes Population in the State (percent variation shown in bracket)
1	1961	4,750 (--)	1,324,368 (--)
2	1971	5,600 (+17.89)	1,657,667 (+25.17)
3	1981	155,240 (2,672.14)	3,176,001 (+91.60)
4	1991	27,405 (+46.49)	4,199,481 (+32.23)

The following statement shows the proportion of Scheduled Tribes population to total population in the villages. Out of 1,081 villages, where Scheduled Tribes were recorded, 610 villages forming 56.4% were having less than 6% Scheduled Tribes population. The proportion of Tribals was between 26 to 50 percent in 134 villages(12.4%) and in 72 villages(6.7%) they were more than 51 percent.

Statement (vii)

Proportion of Scheduled Tribes population to total population in the villages- 1991 census

Percentage range of Scheduled Tribes population to Total population	Number of villages in each range	Percentage of villages in each range
1	2	3
5 and below	610	56.43
6-15	178	16.47
16-25	87	8.05
26-35	67	6.20
36-50	67	6.20
51 and above	72	6.65
Total	**1,081**	**100.00**

Source : District Census Handbook, Mahbubnagar, 1991

While going through the following table it is observed that Scheduled Tribes population constituted 1.1% to total urban population in the district. The proportion of Scheduled Tribes population was a little above the district average in Badepalle, Mahbubnagar and it was more than double in Srisailam Project Township and Wanaparthy towns, while it was below in remaining towns. However, proportion of Scheduled Tribes population in urban areas ranges between 0.1% in Kosgi and 2.8% in Srisailam Project Township.

Statement (viii)

Note:- Parcentage in brackets

This table reveals number and percentage of inhabited villages in specific population size. Out of 1477 inhabited villages in the district, maximum number i.e. 38 villages found in Makthal mandal while least number i.e. 14 villages found in Madgul mandal. The population of 30.7% villages are between 2000-4999 range and almost nearer to this percentage of villages i.e. 35.9 are in the population range of 1000-1999. Only 2.0% villages are having less than 200 population, while 1.2% villages are having above 10,000 population

TABLE 3

NEW TOWNS, DENOTIFIED, DECLASSIFIED AND MERGED TOWNS IN 2001 CENSUS

	Name of Town
	1
(a) New	
(i) Statutory Town	-Nil-
(ii) Census Town	
(b) Denotified	
(i) Statutory towns of 1991 Census denotified and also did not satisfy the criteria to be treated as Census towns	-Nil-
(ii) Statutory towns of 1991 Census denotified but identified as Census towns based on demographic and economic criteria	-Nil-
(iii) Census towns of 1991 Census are notified as statutory town in 2001 Census	1. Nil
(c) Declassified	1. Alampur
	2. Kollapur
	3. Kosgi
	4. Srisailam Project Town Ship, Left Flank Colony
(d) Wholly merged with other town(s)	-Nil-

Note:- Declassified means the census towns of 1991 census which failed to satisfy the demographic and economic criteria

This table indicates new towns denotified, declassified and merged towns. As per 2001 Census this district has 4 statutory towns of them 3 towns viz., Mahbubnagar,Narayanpet and Gadwal are continuing since 1901and Wanaparthy is continuing since 1921 census. No new towns either statutory or census towns have been notified for this Census. Four census towns of 1991 Census have been declassified.

TABLE 4

DISTRIBUTION OF VILLAGES BY POPULATION DENSITY, 2001

Range of population density (per square kilometer)	Total number of villages in each population density range	Percentage of villages in each population density range	Population	Percentage distribution of population
1	2	3	4	5
0-10	8	0.5	7,607	0.2
11-20	3	0.2	807	-
21-50	24	1.6	29,763	0.9
51-100	126	8.6	108,737	3.5
101-200	674	45.6	1,245,183	39.6
201-300	426	28.9	991,660	31.6
301-500	166	11.2	480,667	15.3
501 +	50	3.4	278,155	8.9
Not known	-	-	-	-
District Total:	**1,477**	**100.0**	**3,142,579**	**100.0**

Population Density (Rural) of the district: 171

This table shows distribution of villages by Population Density. The density of population shows that highest percentage of 45.6 villages with 39.6% of district population are falling in the range of population density of 101-200 persons per sq.km. Only 8 villages with 7607 persons are found in 10 and below range and 50 vallages with 278,155 population fall in the range of population density of above 500 persons.

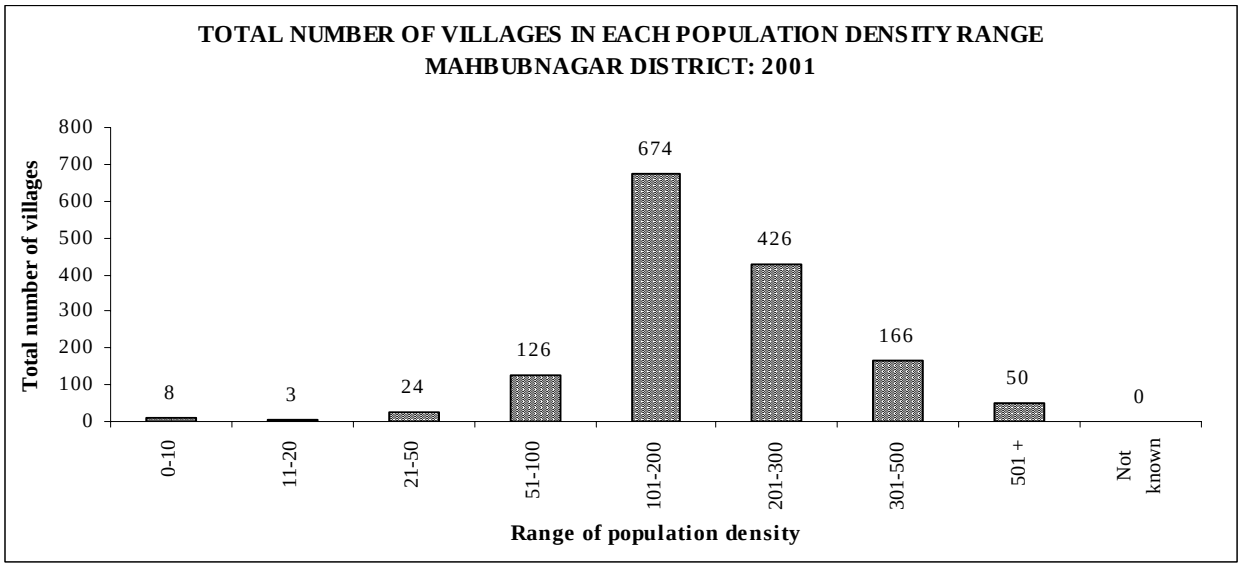

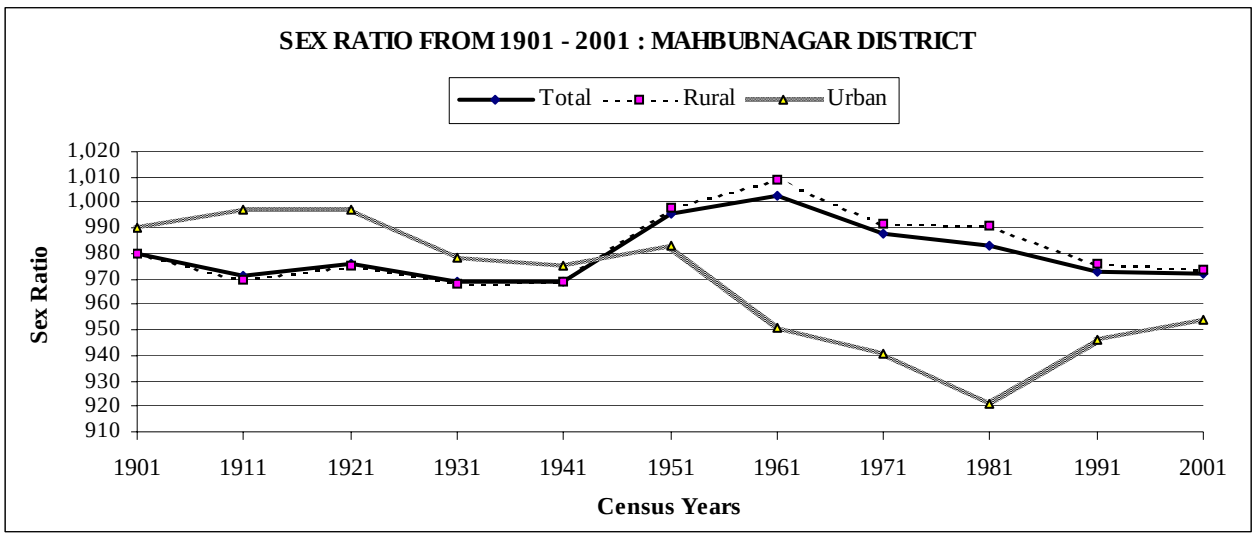

TABLE 5

SEX RATIO OF STATE AND DISTRICT, 1901 - 2001

Census Year	State			District		
	Total	Rural	Urban	Total	Rural	Urban
1	2	3	4	5	6	7
1901	985	983	999	980	980	990
1911	992	991	1,000	971	970	997
1921	993	994	986	976	975	997
1931	987	989	966	969	968	978
1941	980	981	975	969	969	975
1951	986	985	987	996	998	983
1961	981	988	951	1,003	1,009	951
1971	977	983	949	988	992	941
1981	975	984	948	983	991	921
1991	972	977	959	973	976	946
2001	978	983	965	972	974	954

This table gives sex ratio of State and District, 1901-2001. The district sex ratio for 2001 census is recorded as 972 while it is 974 in rural areas and 954 in urban areas. During last 11 Censuses, highest sex ratio was noticed in 1961 Census. Females were less in urban areas than rural from 1951 onwards . But state figures shows that females were less than males at all levels and in all Census, expect they were equal in urban areas during 1911 censuses except they were equal in urban areas during 1911 census.

TABLE 6
SEX RATIO BY MANDALS, 2001

Serial number	Name of mandal	Sex ratio		
		Total	Rural	Urban
1	2	3	4	5

	District (Rural) Sex Ratio:	**974**

This table shows mandal parishadwise sex ratio for rural population in the district. As already stated, chinnachinthakunta mandal parishad has recorded highest sex ratio of 1039 and Lingal mandal parishad has recorded lowest sex ratio of 912. The female population is more than the males in 9 out of 64 mandal parsihads. The district rural sex ratio is 974.

TABLE 8

SEX RATIO OF RURAL POPULATION BY RANGES, 2001

Range of sex ratio for villages	Number of inhabited villages	Percentage of villages in each range	Population 2001	Percentage distribution of population
1	2	3	4	5
Less than 700	1	0.1	13	-
700-749	2	0.1	269	-
750-799	2	0.1	451	1.0
850-899	67	4.6	150,772	4.8
900-949	313	21.2	738,245	23.5
950-999	539	36.5	1,327,301	42.2
1000-1099	501	33.9	858,510	27.3
1100+	37	2.5	37,699	1.2
District Total:	**1,477**	**100.0**	**3,142,579**	**100.0**
Sex ratio (Rural) for District:		**974**		

This table shows sex ratio of rural population by ranges, 2001. The sex ratio in rural parts of the district is 974. The sex ratio is less than 700 in one village, while it is above 1100 in 2.5% (37) villages. About 33.9% (501) villages with 858,510 (27.3%) population. Majority of villages 539 (36.5%) falling the sex ratio range of 950-999, covering 42.2% rural population in the district.

TABLE 9

SEX RATIO OF URBAN AGGLOMERATIONS / TOWNS, 2001

Sl. No	Name of U.A / Town	Urban status	Sex ratio
1	2	3	4
1	Badepalle	CT	967
2	Farooqnagar	CT	937
3	Gadwal	UA	948
4	Gadwal *	M+OG	948
	(i) Gadwal	M	950
5	Mahbubnagar	UA	953
6	Mahbubnagar *	M+OG	953
	(i) Mahbubnagar	M	955
7	Nagarkurnool	CT	923
8	Narayanpet	NP	1,005
9	Wanaparthy	NP	949
	Sex ratio (Urban) for the district:		**954**

+ Towns arranged in alphabetical order

^ The names of constituents of UA are given separately

** In case of the towns having out growth an asterisk mark placed against thaeir name to indicate that they have outgrowths which are not separate towns.*

This table gives sex ratio among the towns of the district. Narayanpet town has highest sex ratio of 1005, followed by Badepalle town 967 and Mahbubnagar 955 against district average urban sex ratio of 954.

	District (Rural) Total:	**498,042**	**255,229**	**242,813**	**951**

The above table gives sex ratio among 0-6 age group population at district level and mandal parishad level. As already stated at table 10, Gopalpet mandal parishad has highest ratio of 1,018 females per 1,000 males and lowest ratio of 880 females has seen in a Amangal and Lingal when district (rural) average sex ratio is 951. Among 64 mandals, 34 mandals have reported less sex ratio than the district average sex ratio, while Doultabad and Gadwal mandal parishads have equal number of males and females.

TABLE 12
SEX RATIO OF RURAL POPULATION IN THE AGE GROUP 0-6 BY RANGES, 2001

Range of sex ratio for villages	Number of inhabited villages	Percentage distribution of villages	Population, (2001)	Percentage distribution of population
1	2	3	4	5
Less than 700	46	3	3,863	1
700-749	34	2	6,813	1
750-799	73	5	14,570	3
800-849	131	9	45,726	9
850-899	187	13	65,775	13
900-949	242	16	101,297	20
950-999	220	15	111,931	22
1000-1099	323	22	102,410	22
1100+	221	15	45,657	9
District (Rural) Total	**1,477**	**100**	**498,042**	**100**
Sex ratio (Rural) for District:		**951**		

This table gives sex ratio of rural population in the age group of 0-6 by ranges as per 2001 Census. Out of 1,477 villages, the highest number of villages 323 (22%)covering 21% of rural population in the age group 0-6 is falling in the sex ratio range of 1,000-1,099, followed by 242 (16%) villages covering 20% population of rural area in the range of 900-949. Next to it, 221 (15%) villages with 9% population are in the range 1,100+ sex ratio. Male children are dominating in about 63% of the villages in which about 70% population is covered.

TABLE 13

SEX RATIO OF POPULATION IN THE AGE GROUP 0-6 OF URBAN AGGLOMERATIONS/TOWNS, 2001

Sl. No.	Name of UA^/Town+	Urban status of town	Total population in 0-6 age group			Sex ratio for 0-6 age group
			Persons	Males	Females	
1	2	3	4	5	6	7
1	Badepalle	CT	4,013	2,051	1,962	957

	District (Rural) Total:	**3,142,579**	**571,513**	**273,558**	**18.2**	**8.7**

This table gives distribution of Scheduled Castes population and Scheduled Tribes population and their percentage to total population at mandal parishad level. Total Scheduled Caste population in the rural areas of the district is 18.2% and Scheduled Tribes population is 8.7%. The scheduled Castes population ranges between 31.0% and 12.2%. The highest being 31.0% in Amrabad mandal parishads and lowest 12.2% each in Kothakota mandal parishads and Waraparthy mandal parishad. There are 37 mandal parishads where Scheduled Castes population is less than the district average percentage. Veepangandla equals to the district average range of 18.2%.

Scheduled Tribes population ranges between 29.8% in Balanagar and 0.2% in Manopad mandal parishads. Out of 64 mandal parishads, 26 have scheduled Tribes population more than district average percentage. Kothur mandal is equal to the district average range of 8.7%.

TABLE 16

PROPORTION OF SCHEDULED CASTES POPULATION TO TOTAL POPULATION IN VILLAGES, 2001

Percentage range of Scheduled Castes Population to total population	Number of villages	Percentage	Scheduled Castes Population	Percentage
1	2	3	4	5
Nil	91	6.2	-	-
Less than 5	50	3.4	1,535	0.2
5-10	180	12.2	38,265	6.7
11-20	615	41.6	262,111	45.9
21-30	350	23.7	174,220	30.5
31-40	131	8.9	66,768	11.7
41-50	39	2.6	22,454	3.9
51-75	16	1.1	5,618	1.0
76 and above	5	0.3	542	0.1
District Total	**1,477**	**100.0**	**571,513**	**100.0**

The above table reveals about percentage of Scheduled Castes population to total population in villages. There are 21 (1.4) villages totally dominated by Scheduled Castes population covering 1.1% of the district Scheduled Castes population in this range of 51 to 76and above percentage of % while 91 (6.2) villages are without Scheduled Castes population. Majority number of villages i.e.615 (41.6%) are having 11-20% Scheduled Castes population in their respective villages, followed by 350 (23.7%)villages falling in 21-30% range.

TABLE 17

PROPORTION OF SCHEDULED TRIBES POPULATION TO TOTAL POPULATION IN VILLAGES, 2001

Percentage range of Scheduled Tribes Population to total population	Number of villages	Percentage	Scheduled Tribes Population	Percentage
1	2	3	4	5
Nil	386	26.1	-	-
Less than 5	594	40.2	17,462	6.4
5-10	132	9.0	28,859	10.5

	District (Rural) Sex Ratio:	**973**	**951**

This table shows Sex-Ratio among Scheduled Castes and Scheduled Tribes at mandal parishad level in the district. Sex ratio of Scheduled Castes in the district is recorded 973 as against 974 for rural population. Chinnachintakunta mandal parishad is having 1108 females per 1000 males among Scheduled Castes population, whereas Lingal mandal parishad is having 784 females. Females out numbered males in 19 out of 64 mandal parishads and equal in Makthal. The figures among Scheduled Tribes population speaks that they have recorded 951 females per 1,000 males, as against 974 among total rural population in the district. The highest sex ratio 1,047 among Scheduled Tribes population is noticed in Atmakur mandal parishad and least number 688 in Manopad mandal parishad. 29 mandal parishads have less sex ratio than the district average sex ratio among Scheduled Tribes. Nawabpet mandal is equal to the district average of 951.

TABLE 20

SEX RATIO AMONG SCHEDULED CASTES AND SCHEDULED TRIBES IN URBAN AGGLOMERATIONS / TOWNS, 2001

Sl. No.	Name of U.A.^ / Town+	Scheduled Castes sex ratio	Scheduled Tribes sex ratio
1	2	3	4
1	Badepalle (CT)	991	676
2	Farooqnagar (CT)	975	898

This table gives number and percentage of Scheduled Castes literates at mandal parishad level in the District. The highest literacy rate (50.6) among Scheduled Castes is seen in Achampet mandal parishad, whereas the literacy rate among males and females is 65.4% and 34.5% respectively. The lowest literacy rate 12.4 is in Ghattu mandal parishad, in which male literacy rate is 20.2 and female literacy rate is 4.4. In 31 mandal parishads, literacy rate is above district average literacy rate when compared with that of district rural. The gap in male/female literacy rate is the highest in Lingal(35.8) mandal parishad in the district.

CHART SHOWING NUMBER OF RURAL SCHEDULED CASTES LITERATES & ILLITERATES : MAHBUBNAGAR DISTRICT, 2001

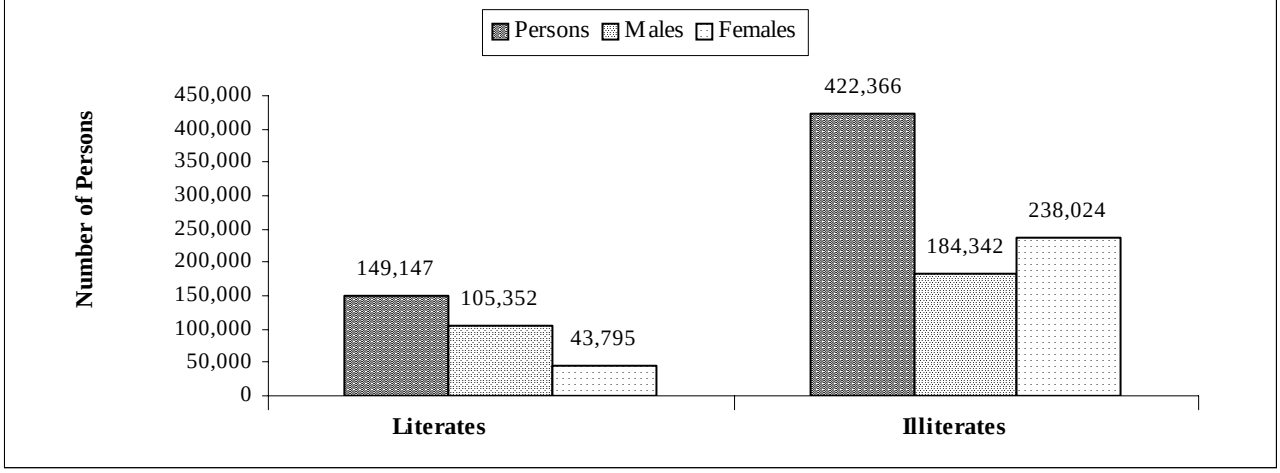

TABLE 26

DISTRIBUTION OF VILLAGES BY LITERACY RATE RANGE FOR SCHEDULED CASTES POPULATION, 2001

Range of literacy rate for villages	Number of inhabited villages	Percentage distribution of villages	Scheduled Castes Population	Percentage distribution of population
1	2	3	4	5
0	10	0.7	197	-
1-10	46	3.3	13,854	2.4
11-20	245	17.7	86,342	15.1
21-30	514	37.1	212,654	37.2
31-40	360	26.0	146,819	25.7
41-50	138	10.0	68,677	12.0
51-60	47	3.4	29,319	5.1
61-70	13	0.9	9,989	1.8
71-80	8	0.6	3,088	0.6
81-90	2	0.1	557	0.1
91-99	-	-	-	-
100	3	0.2	17	-
District Total:	**1,386**	**100.0**	**571,513**	**100.0**

Literacy rate for District (Rural): 31.0

This table shows the distribution of inhabited villages where Scheduled Castes people are residing by literacy rate range. Out of 1,477 inhabited villages, Scheduled castes people are available in 1,386 villages. Total persons (197) belongs to Scheduled Castes in 10 villages are totally illiterates. Three villages with 17 persons range of literacy rate is 100. Another two villages with 557 persons falling in the range of 81-90 literacy rate. It is seen that about 5.2% of villages(with Scheduled Castes population) covering about 7.6% scheduled castes population are reported more than 50% literacy rate. Literacy rate range for maximum number of villages 514(37.1%)is 21-30 followed by 360 villages (26%) falling in 31-40 range. Next to it 245 villages (17.7%) fall in 11-20 range.

TABLE 27

NUMBER AND PERCENTAGE OF SCHEDULED CASTES LITERATES AND ILLITERATES BY SEX IN TOWNS, 2001

Sl. No.	Name and urban status of Town	Number of literates and illiterates						Percentage of literates			Gap in male-female literacy rate
		Number of literates			Number of illiterates						
		Persons	Males	Females	Persons	Males	Females	Persons	Males	Females

This table shows mandal parishadwise number and percentage of main workers, marginal workers and non-workers for rural population of the district. Of the 3,142,579 total rural population, 43.7% has been categorized as main workers and marginal workers contributed 10.4% and non-workers are 45.8%. The sex-wise breakup at the district level shows that 50.3% males and 37.0% females are in the category of main workers. Male and female marginal workers account for 7.0% and 14.0% respectively. The percentage of female marginal workers is higher than male marginal workers. Similar trend is visible in most of the mandal parishads.

The percentage of total rural workers of the district workout to 54.2. At mandal parishad level, Dharur(61.8) has highest population of workers closely followed by Maldakal(60.1), Ghattu(59.1), Chinnachintakunta (57.7) mandal parishads. The lowest percentage of workers 47.2 can be seen in Achampet mandal parishad.

Note: Percentage of Workers to total workers are given in brackets

It is seen from the above table that the total workers are distributed by four categories of economic activity. Among these four categories of economic activity, agricultural labourers occupy major share with 42.7%, followed by cultivators with 30.4%. Next to it, other workers are forming 22.9%. The household industry workers comes to 3.9%. The sex wise breakup shows that males participation is more in the category of cultivators35.7%,followed by other workers (32.1%)and agricultural labourers(29%). The least male workers participation is seen in (3.2%) household industry. As regards females their participation is more in agricultural labourers category (59.5%) followed by cultivators(24.0%). 11.8% of female workers are in other workers category. Their percentage in Household industry is 4.7 only. In Uppununthala mandal 49.9%, cultivators are recorded, which is the highest in the district, while in Manopad mandal agricultural labourers are recorded highest at 64.0%. Among household industry, the highest percentage 33.4 is recorded in Chinnachintakunta mandal. The district headquarters Mahbubnagar mandal has recorded highest percentage in other workers category as 71.1.

Note: Percentage of Workers to total workers are given in brackets

It can be seen from the above table that the workers participation is 54.2% to the total rural population of the district. At the same time sexwise breakup among rural workers shows that 57.3% are males and 51.0% are females. Among total workers 45.1% are agricultural labourers, 32.4% are cultivators, 18.7% are engaged in other workers and 3.8% are in household industry. Male, female participation in four economic activities accounts, 39.0% and 24.8% as cultivators, 31.4% and 60.9% as agricultural labourers, 3.2 and 4.4% in household industry and 26.4% and 9.9% in the category of other workers. Above 59% workers were reported in Dharur, Gadwal, Maldakal, Ghattu mandal parishads. The lowest workers participation 47.2% is recorded in Achampet mandal parishad. As already discussed in table 34, highest cultivators 49.9% are in Uppunuthala mandal parishad, agricultural labourers 64.0% are in Manopad, 33.4% are in household industry workers in Chinnachintakunta and 71.1%other category workers in Mahbubnagar mandal parishad.

+ Towns arranged in alphabetical order

The above table reveals the townwise distribution of workers by sex in four categories of economic activity. The percentage of workers in urban part of the district comes to 32.5%. It comprises 47.5 male workers and 16.9% female workers. The economy of the urban part of the district is primarily depended on other workers category as supported by the fact that other workers contributed 82% of the total workers and remaining 18% of the total workers are engaged as cultivators 2.4%, agricultural labourers 10.1% and household industry 5.4%. The highest percentage 92.2% of workers in other activity is in Mahbubnagar town followed by Nagarkurnool 86.4% and Farooqnagar town is 84.7. In the category of other workers male percentage 95.2% is observed in Mahbubnagar town. Next to it Nagarkurnool is 91.3% and Farooqnagar town is 90.6%. Again Mahbubnagar stood first in ranking female participation79.3% in other activities and at the bottom level stood Narayanpet 49.6%. The percentage of cultivators in all the towns is very low while agricultural labourers are 16.8% in Gadwal town is high, 2.7% in Mahbubnagar town is low. The highest percentage of household industry workers are seen in Narayanpet(NP) 11.3% and lowest percentage in Badepalle town 2.5%. The females participation in this activity is more than males in all towns.

Note : Percentages are given in brackets.

* *Based on the improved drinking water source, drinking water supply has been classified as `Improved ' or otherwise. If the household has access to drinking water supplied from a tap or a hand pump / tube well situated within or outside the premises it is considered as having access to `Improved drinking water source'. However, the concept of improved drinking water is state specific and this is to be considered accordingly.*

\# *Post office includes Post office, telegraph office and Post and telegraph office.*

$ *Transport communication includes bus service, rail facility and navigable waterways*

** *Excludes Census Town and OGs..*

This table speaks about availability of amenities in the villages by mandal parishad. All the inhabited villages in the district have atleast one primary amenity. Education facilities are available in 98.6% villages i.e., only 20 villages did not possess this facility.

Medical facilities are available in 59.6% villages. Medical facilities are available in all the villages of Bhoothpur, Achampet, Uppunuthala, Tadoor, Balmoor mandal parishads.

While postal facilities are available in 55.8% villages. Most of villages in the district denied with this facility. All the villages in Midjil mandal parishad have been provided with this facility. Safe drinking water facility is available in 1,463 (99.1%) villages. Telephone facilities are available in 742 (50.2%) villages, which shows need of some more improvement.

16.4% villages are still deprived of transport facilities. This can be improved only when these villages are connected by pucca road facility. Out of 1,477 villages 1,127 (76.3%) villages have pucca approach roads. Commercial Banks are located in 140 (9.5%) villages. Agricultural Credit Socities are available in 195 villages. All the villages in the district have been electrified.

Note : *Percentages are given in brackets.*

* *Based on the improved drinking water source, drinking water supply has been classified as `Improved ' or otherwise. If the household has access to drinking water supplied from a tap or a hand pump / tube well situated within or outside the premises it is considered as having access to `Improved drinking water source'. However, the concept of improved drinking water is state specific and this is to be considered accordingly.*

\# *Post office includes Post office, telegraph office and Post and telegraph office.*

$ *Transport communication includes bus service, rail facility and navigable waterways.*

** Excludes Census Town and OGs.

This table shows the number and proportion of rural population served by different kind of amenities. Out of total rural population of 3,142,579 persons in the district, 3,138,478 or 99.9% have education facility. Similarly 2,453,910 or 78.1% have medical facility while 3,123,083 or 99.4% have got improved drinking water facility. Post office facilities are available to 2,462,009 or 78.3% population, telephone facility is available to 2,032,314 or 64.7%. Transport communication facility is available to 2,909,169 or 92.6%,836,303 or 26.6% have Bank facility and 869,678 or 27.7% have been provided with the facility of Agricultural Credit Societies. Approach by pucca road is available to 2,626,353 or 83.6% and Power Supply facility is available to entire rural population of the district. Similar pattern of availability of facilities is visible to the rural population at mandal parishad level.

TABLE 39
DISTRIBUTION OF VILLAGES NOT HAVING CERTAIN AMENITIES ARRANGED BY DISTANCE RANGES FROM THE PLACES WHERE THESE ARE AVAILABLE, 2001

Village not having the amenity of	Distance range of place from the village where the amenity is available			
	Less than 5 kilometres	5-10 kilometres	10+ kilometres	Total (Col. 2 to 4)
1	2	3	4	5
1. Education :				
(a) Primary School	17	2	2	21
(b) Middle School	469	261	89	819
(c) Degree College	48	151	1,268	1,467
2. Medical :				
(a) Hospital	83	216	1,163	1,462
(b) PHC	191	451	759	1,401
3. Post Office	482	148	23	653
4. Telephone	181	174	380	735
5. Bus Service	184	41	28	253
6. Banks				
(a) Commercial Bank	313	541	483	1,337
(b) Cooperative Bank	96	281	1,090	1,467
7. Agricultural Credit Societies	262	484	536	1,282

This table shows distribution of villages not having certain amenities within the village at district level. It is very strange to note that primary education for students of two villages and middle school education for students of 89 villages available at a distance more than 10 kms. from their villages. Probably these villages might having less population. The students of 1,268 villages have to travel beyond 10 kms. to have degree college education. Out of 819 villages, 469 have middle school facility at a distance of less than 5 kms. for 261 villages at 5-10 kms. Out of 1467 villages where degree colleges are not available with in the village, 48 villages have this facility at below 5 kms. for 151 villages at a distance of 5-10 kms.

Similarly, out of 1,477 inhabited villages 1462 have deprived of hospital facility and 1401 of PHC facility. Of them 83 villages have hospital facility within 5 kms., inhabitants of 216 villages have to go 5 to 10 kms. and of 1163 villages, they have to cover more than 10 kms.

As regard PHCs 191 avail this facility within 5 kms., 451 at 5-10 kms. and remaining 759 at above 10 kms. Regarding post offices, 653 villages do not have the facility within the village. Of these 23 have this facility at a distance of10 kms.and above, 148 have at 5-10 kms. and 482 villages have below 5 kms.

About telephones are concerned, 735 villages do not have this facility. Of these, 181 villages get this facility at a distance of below 5 kms., 174 at 5-10 kms. and for 380 villages it is available at 10+ kms.

For bus facility, out of 253 villages where this facility is not available within the village, 184 villages avail this facility at a distance of less than 5 kms. 41 at a distance 5-10kms., and 28 at a distance of 10+ kms.

Of the total villages, 1337 deprived of commercial banks and 1467 of cooperative banks. At a distance below 5 kms., 313 villages availing Commercial banks facility and 96 Co-operative banks. At a distance between 5-10 kms., 541 villages availing Commercial banks and 281 Co-operative bank facility and at a distance beyond 10 kms. 483 availing Commercial banks facility 1090 Co-operative bank facility. 1,282 villages do not have Agricultural credit societies. This facility to 262 villages is available at a distance less than 5 kms., 484 at a distance of 5-10 kms. and for 536 villages at a distance of 10+ kms.

 # Post office includes Post office, Telegraph office and Post and telegraph office.

$ Transport communication includes bus service, rail facility and navigable waterways.

The above table gives the number of villages according to the distance from the nearest statutory town and availability of different amenities within the village at district level. There are 10 villages within the range of 5 kms. from a statutory town. Of these 9 villages have education and 10 have pucca approach road facilities within the villages, 8 have medical facility, 6 have post offices, 4 have telephone facility, 10 have transport facility, 1 has bank facility and 3 have agricultural credit societies within the village. Out of 151 villages which have located at a distance of 5-15 kms. From a statutory town, 150 villages have education, 84 villages have medical, 83 villages have post offices, 80 villages have telephone facility, 131 villages have transport, 10 villages have banks, 21 villages ahave gricultural credit societies and 134 villages have pucca approach road facilities with in the village. Another 995 villages which are at a distance of 16 to 50 kms. 982 villages have education facility, 573 have medical, 535 have post offices, 513 have telephone, 814 have transport, 97 have banks, 132 have agricultural credit societies and 743 have pucca road facilities within their villages. Similarly out of 321 villages which are beyond 51 kms., from statutory towns above facilities for 316 villages (education), 216 villages medical, 200 villages post offices, 145 villages telephone, 280 villages transport, 32 villages banks, 39 villages agricultural credit societies and 240 villages pucca approach road are available within the village.

$ Transport communication includes bus service, rail facility and navigable waterways.

** Based on the improved drinking water source, drinking water supply has been classified as `Improved ' or otherwise. If the household has access to drinking water supplied from a tap or a hand pump / tube well situated within or outside the premises it is considered as having access to `Improved drinking water source'. However, the concept of improved drinking water is state specific and this is to be considered accordingly.*

This table deals with the distribution of villages by population ranges and amenities available therein. In Mahbubnagar district, out of total 1,477 inhabited villages 1457 villages 98.6% have education facility, 881 villages 59.6% have medical facility 1463 villages 99.1% have improved drinking water, 824 villages 55.8% have postal facility and 742 villages 50.2% have telephone facility, 1235 villages 83.6% have been linked by bus services, 140 villages 9.5% have bank facility, 195 villages 13.2% have served with the agricultural credit societies, 1,127 villages 76.3% have linked with pucca road and all 1,477 villages 100.0% posses electricity.

Education facilities are available in all the villages which have more than 2000 population. 17 villages of which population is below 500, two villages in the population range of in 500-999 and one village in 1000-1999, population range do not have any type of educational facility. 27 villages 18.91% in below 500 population range, 87 villages 34.5% in 500-999 and 295 villages 55.7% in 1000-9999 population ranges, 376 villages 82.8% in 2,000-4,999 population range and 78 villages 97.5% in 5000-9999 population range and all the villages having more than 10,000 population have medical facility one or another type.

Almost all villages in the district have improved drinking water and electricity facilities within the villages irrespective of size of population. The remaining facilities are not available in majority of villages fall in less population ranges. Majority of villages falling in higher population ranges were provided with these facilities. Villages with more than 10,000 population have all amenities, except agricultural credit societies in some of the villages.

	District Total:	**1,477**	**1,688,877**	**67.7**	**17**

Note : *- Cultivable area = irrigated area + unirrigated area*

.

This table gives mandal parishadwise distribution of villages according to land use. This district has 1,688,877 hectares area, of which 67.7% is cultivable area. Of the cultivable area 17.0% is irrigated. Kondurg mandal parishad has highest of cultivable area with 93.7% of which only 11% is irrigated. Amrabad and Achampet mandal parishads have recorded very less area under cultivation (30.5 and 25.9% respectively), but the percentage of irrigated area to total cultivable area of these two mandals recorded 59.3% and 23.5% respectively. Though this district has much irrigated area the land irrigated is only 17% and it shows the existentance of famine.

TABLE 43
PER CAPITA RECEIPT AND EXPENDITURE IN STATUTORY TOWNS

Data Source : Census of India, 2001, H-Series : "Tables on Houses, Household Amenities and Assets".

The above table gives number of households by tenure status and number of rooms occupied in the district. This district has 722,239 households, of which 658,015 are in rural areas and 64,224 in urban areas. Of the total households, 668,954 households are living in owned houses. Of which 17,840 have no exclusive dwelling room, 284,300 households have one dwelling room, 222,175 households have two dwelling rooms,71,893 households have 3 dwelling rooms and 72,746 households have more than 3 dwelling rooms. The households without dwelling rooms formed 2.8% in rural areas and less than 0.6% in urban areas. Households with one room are forming 44.1% in rural areas, 18.8% in urban areas, with two rooms are forming 33.4% and 30% respectively. But households with three rooms and more than three rooms are forming more percentage in urban areas i.e. 20.0% and 30.7% respectively against 10.1 and 9.6 in rural areas.

Out of 48,108 households, who are residing in rented houses, 783 have no exclusive dwelling rooms, 16,326 have one dwelling room, 18,138 have two dwelling rooms, 8,559 have three dwelling rooms and 4,302 more than three dwelling rooms. When compared the rural - urban figures, households without dwelling room, with one and two dwelling rooms are forming more percentage in rural areas, while households with two dwelling, three dwelling rooms and more than three rooms are forming more percentage in urban areas to the total households of respective areas.

1,30,740 households belongs to SC population are living in owned houses. Of which 3.4% households do not have dwelling room, about 56% households have single dwelling room, 33% households have two dwelling rooms households with three rooms and more than three rooms are forming 5% and 2.6% respectively. In urban areas households with three dwelling rooms and more are forming 13.6% and 14.9% respectively.

Of 3,982 households of SC population who are residing in rented houses, more than 12.9% households are residing in single dwelling room in rural and in two room houses in urban areas. But percentage of households living with 3 dwelling rooms and more to total households of rural and urban areas, separately is higher in urban areas than rural areas as 18.8% and 6.2% respectively in urban areas against 8% and 3.6% respectively in rural areas.

Similarly, among ST population, 61,421 households are residing in owned houses and 1,310 are residing in rented houses. About 57.2% of household residing in own houses, have single dwelling room 32.4 percent of households have two dwelling rooms. In urban areas they are forming about 22.4% and 23.0% respectively. About 38.4% households living in rented houses have single dwelling room. About 20% households who are residing either in rented houses or in own houses have three or more than three dwelling rooms.

Source : *Census of India 2001, H-series; "Tables on houses, household amenities and assets"*

Note : Percentage has given in brackets after the tatoal households

While looking at the figures available in this table for households by type of fuel used for cooking, it is noticed that 84.6% are using fire wood as fuel, followed by 8.2% households using L.P.G., 2.4% households use Kerosene and 3.7% households crop residues. The remaining fuels being used are forming less than 1% households. More than 90% households in 34 mandals use fire wood, while in Mahbubnagar mandal only 39.8% households use fire wood. Usage of LPG is found more than 20% of households in Mahbubnagar (43.8%)Jadcherla (22.0%), Gadwal (20.3%) mandals. The highest percentage(13.02) of Kerosine users are found in Mahbubnagar Mandal, followed by Wanaparthy Mandal(10.3). In Bomraspet Mandal only 53 LPG connections are existing which is the lowest no. of gas users in the district.

As regard urban areas of the district, 59.7% households in Mahbubnagar town use LPG as a fuel for cooking, followed by 18.9% households use fire wood and 18.6% households use kerosine. In Narayanpet about 60.4% households use fire wood, 30.5% households use LPG, 4.9% households use kerosine and 3.7% households use crop residue as fuel for cooking. 37.2% of households in Gadwal mandal urban have LPG connections, 47.8% households use fire wood and 11.0% households use Kerosine as fuel for cooking.

Source : *Census of India 2001, H-series; "Tables on houses, household amenities and assets"*

This table shows that about 28.3% households in the district are availing Banking facilities. In rural areas 28.2% households and in urban areas 29.3% households are availing. Among towns, Mahbubnagar town recorded 34.6% households availing Banking facility, followed by Narayanpet(NP) 25.2% and Gadwal urban area with 24.7%.

17.6% households have radios, 16.4% have television, 4.3% households have telephones, 17.2% have bicycles and 5.3% have two wheelers. Less than 1% households have 4 wheelers. Bomraspet and Narva Mandal Parishads are having less number of each 43 telephone connections and Veldanda mandal parishad is having only 22 cars, Jeeps etc.

Mahbubnagar mandal urban area ranks top in having specified assets. This is having 8,728 radios, 15,937 televisions, 6,734 telephone connections, 7,211 two wheelers and 756 four wheelers.

(xiii) Scope of Village directory and Town directory - column heading wise explanation and coverage of data

The village directory and the town directory presented in the District Census Handbooks are proved more useful. The formats of village directory and of seven statements on town directory are on the same pattern canvassed in 1991 census except for a few additional columns. These additional columns are introduced to throw more insight into the infrastructure of the villages and towns. All the amenities except recreational and cultural facilities, power supply and news papers/magazines are brought under one bracket, with corollary that in case any amenity is not available in the village, the distance of the nearest place where the facility is available is presented. Similar method is followed in respect of towns where educational and medical facilities are not available. The non-census data presented in the village and town directories relate to the year 1999. However, wherever the field agencies have indicated the later position, the information has been updated. Almost all the details in the statement have been indicated by codes. In respect of total population and total number of households, the figures as returned during the recent census i.e. 2001 census have been presented. The scope of village directory and town directory statements with column heading-wise explanation and coverage of data are hereunder presented.

Scope of Village Directory :

In the similar manner as was done in the past, the village directory has been prepared for all the villages in the state and these are presented mandal Parishad - wise in the District Census Handbook. This statement contains village-wise area, population, amenities such as educational, medical, communications, drinking water facilities, etc., and also the land use pattern details. The villages are shown in order of their permanent location code numbers. An alphabetical list of villages with their permanent location code numbers and a mandal map has been presented in the beginning of Village Directory of each mandal. This facilitates the reader in locating the mandal in which a particular village lies. The village directory now contains 23 columns as against 18 columns in the 1991 handbook. To give more information under amenities column, banking facilities such as commercial and co-operative banks, agricultural, non-agricultural and other credit societies have been included in the present statement. Similarly, a new column 'number of recreational and cultural facilities' showing cinema/video halls, sports club and stadium/auditorium has been added. In addition to the above a column showing newspapers/magazines received and name of the most important commodity manufactured in the village have been incorporated. Besides the above, the Village Directory is having 12 appendices viz.

Appendix I:	Abstract of Educational, Medical and other amenities in the villages Mandal Parishad level.
Appendix 1A:	Villages by number of primary schools
Appendix 1B:	Villages by primary, middle and secondary schools
Appendix 1C:	Villages with different sources of drinking water facilities available
Appendix II:	Villages with 5,000 and above population which do not have one or more amenities
Appendix IIA:	Census Towns which do not have one or more amenities
Appendix III:	Land utilization data in respect of census towns / non-municipal towns

Appendix IV	:	Mandal Parishad-wise list of inhabited villages where no amenity other than drinking water facility is available
Appendix V	:	Summary showing number of villages not having Scheduled castes population
Appendix VI	:	Summary showing number of villages not having Scheduled tribes population
Appendix VII A:		List of villages according to the proportion of the Scheduled Castes to the total population by ranges.
Appendix VII B:		List of villages according to the proportion of the Scheduled Tribes to the total population by ranges.
Appendix VIII	:	Statement showing number of Girls schools in the villages
Appendix IX:		List of Degree Colleges by village/towns in the District
Appendix X	:	List of Hospitals by village/ towns in the District
Appendix XI	:	List of Banks by village/ towns in the District
Appendix XII	:	List of Cinema Halls by village/towns in the District

It may be noted that the Appendix 1A, 1B, 1C, II, II-A, VIII, IX, X, XI and XII have been included afresh in comparison to the District Census Hand Books of 1991 Census.

Columns 1 to 3 relate to the serial number, location code number, name and total area of the village. The area given under column 3 is as per the data collected from the state survey department during 1991 census and presented even for 2001 census as the department clarified that there are no changes in the area figures. Column numbers 4 and 5 provide the total population and the total number of households in the village as per 2001 census. Columns 6 to 13 list out the basic amenities available in the village such as educational; medical; drinking water; post, telegraph and telephone; commercial and co-operative banks; agricultural, non-agricultural and other credit societies; recreation and cultural facilities and communications.

The columns 14 to 18 give the details of approach to the village, nearest town & distance, power supply, news paper/magazine circulation and most important commodity manufactured in the village.

The remaining columns 19 to 23 pertain to the land use pattern in the village. The extent of forest area has been given in column 19 while in columns 20 to 23 the extent of irrigated area together with different irrigational sources, the extent of culturable waste including gaucher and groves and the area not available for cultivation such as buildings, roads and railways or under water(rivers and canals), etc., have been given. Here it is worth mentionable that the total area figures of Col. 19 to 23 may not tally with the total area of the village as shown in Col. 3 due to various reasons such as water ways, etc., which are not generally included in the land use statistics.

The land use pattern in the Village Directory conforms to the pattern of clarification of land use as recommended by the Ministry of Agriculture, Government of India. The Ministry of Agriculture has recommended the maintenance of records of land use pattern under five categories viz. forests, not available for cultivation, other uncultivated lands excluding fallow lands, fallow lands and net area sown.

The concepts of various types of land use given under each of the columns 19 to 23 as given in the Village Directory schedule are reproduced below:

1. Forests (Col.19) :

These include all actually forested areas and the lands classified or administered as forests under any legal enactment dealing with forests whether State owned or private. If any portion of such land is not actually wooded but put to some agricultural use, that portion is included under the appropriate heading of cultivated or uncultivated land.

2. Cultivated area with break-up irrigated and un-irrigated (Col. 20 & 21):

This includes the land under the following three categories.

I) Net area sown :

The net area sown represents the area sown to crops counting areas sown more than once in the same year, only once.

II) Other fallow lands :

This includes all lands which were taken up for cultivation but are temporarily out of cultivation for a period of not less than one year and not more than five years. The reasons for keeping such lands fallow may be either due to poverty of the cultivators or inadequate supply of water or malarial climate or silting of canals or rivers or un-remunerative nature of farming, etc.

III) Current fallows :

This class comprises cropped areas which are kept fallow during the current year. If any seedling area is not cropped again in the same year, it is also treated as current fallows.

3. Culturable Waste (Col. 22):

This item includes the land under the following three categories.

i) Permanent pastures and other grazing lands:

These cover all grazing lands whether they are permanent pastures and meadows or not. Village common and grazing lands within forest areas are included under this head.

ii) Lands under miscellaneous tree crops and groves not included in the area sown:

Under this class is included all cultivable land which is not included under net area sown but is put to some agricultural use. Lands under casurina trees, thatching grass, bamboo bushes and other groves for fuel, etc., which are not included under 'Orchards' are classed under this category.

iii) Culturable waste:

This includes lands available for cultivation but not taken up for cultivation or abandoned after a few years for one reason or other. Such lands may be either fallow or covered with shrubs and jungles, which are not put to any use. They may be assessed or not assessed and may lie in isolated blocks or within cultivated holdings. Land once cultivated but not cultivated for five years in succession is also included in this category.

4. Area not available for cultivation (Col.23) :

This includes the land under the following two categories.

i) Land put to non-agricultural uses :

All lands occupied by buildings, roads and railways or under waters such as rivers and canals and other lands put to uses other than agricultural.

ii) Barren and uncultivable land :

This covers all barren and uncultivable land like mountains, etc., i.e. which cannot be brought under cultivation unless at a high cost. Whether such land is in isolated blocks or within cultivated holdings.

All the above particulars are based on the data received from the concerned departments like education, medical, postal electricity, etc., and also mainly from the Mandal Revenue Officers concerned.

Item on communications has been shown separately to spell in terms of availability of the public transport system. This is meant to see whether the village is served by any mode of transport such as bus or rail or waterway. It is against this back-ground that the item on approach to village has been given separately. This refers to road, etc., leading to the village and is to indicate whether the village is approachable both in fair and foul weather and whether it is inaccessible for all time or only some time in the year. Adult literacy class/centre under item on 'Education' and Primary health centre and Community health worker under item 'Medical' of Village Directory are included to indicate statistics on the Minimum Needs Programme of the Planning Commission.

Scope of Town Directory:

There are seven statements in the Town Directory, which include several particulars relating to the towns arranged as per the alphabetical order of their names. These statements are almost similar to those adopted

in 1991 census except for a few changes. During the 1991 there were six Town Directory statements besides providing a separate statement IV-A bringing out civic conditions of the notified slums in class I and II towns. In the present volume the statement IV-A of the 1991 handbook has been termed as statement-VII and the data is presented in respect of all towns having statutory bodies including un-notified slums. The column 4 of statement IV-A of the 1991 book i.e. area of the slum has been deleted in the present book duly substituting the same by giving the information - whether the slum is notified or not with a view that the local authorities are not in a position to provide exact area figures for each slum area. Further in the present statement-VII another item i.e. approximate number of households living in the slum is incorporated. The captions of the statements are as follows:

Statement I	: Status and growth history
Statement II	: Physical Aspects and location of town, 1999
Statement III	: Municipal Finance, 1998-99
Statement IV	: Civic and other Amenities, 1999
Statement V	:Medical, Educational, Recreational and Cultural Facilities, 1999
Statement VI	:Trade, Commerce, Industry and Banking, 1999
Statement VII	:Civic and other Amenities in slums, 1999

The formats of Town Directory have been devised to suit the Minimum Needs Programme of the Planning Commission. To reflect this programme, the columns scheduled castes and scheduled tribes population in statement IV and Adult Literacy classes/ Centres in statement V are identical.

In case such of the amenity as Fire Fighting Service in statement IV, the Educational or Medical facility in statement V is not available in the town, the name of the nearest place and its distance from the referent town has been given. This feature is followed since 1981 census as it is necessary to identify the areas that have no specific facility in the district.

Statement I : Status and Growth History :

This statement provides basic information on civic status, population with decadal growth rate from 1901 to 2001, density for 2001 census and sex ratio from 1981 to 2001 censuses of each town besides presenting class of town, location code, name of the mandal, area in sq.kms. and number of households including houseless households returned in 2001 census.

The columns 1 and 2 relate to serial number and class, name and civic administrative status of the town. The class of town has been determined basing on the size of population as given below.

Population	Class
1,00,000 and above	I
50,000 - 99,999	II
20,000 - 49,999	III
10,000 - 19,999	IV
5,000 - 9,999	V
Below 5,000	VI

The civic status of the town is indicated in brackets by abbreviated letters like 'Mcorp.' for Municipal Corporation and 'NP' for Nagar Panchayat. The location code number under Col.3 for the town was framed to follow method of allocation location code to mandals in the district. This also facilitates easy location of the town in the map. After location code the Col. 4-7 indicate name of mandal, name of mandal parishad, area of the town in sq. kms. and number of households including houseless households recorded in 2001 census. The population of the town with decadal growth rate from 1901 census to 2001 census is given in Col. 8-18. The column 19 shows the density of population and column 20 to 22 give the sex ratio recorded during 1981 to 2001 censuses. The sex ratio defined here is number of females per 1,000 males.

The following seven places are treated as urban areas in Mahbubnagar District at the 2001 census.

1. Farooqnagar 2. Badepalle 3.Mahbubnagar 4.Narayanpet 5. Nagarkurnool 6. Wanaparthy. 7.Gadwal

Gadwal, Mahbubnagar, Narayanpet and Wanaparthy are statutory towns and remaining are Census towns.

Gadwal, Mahbubnagar and Narayanpet are continuing as urban areas since 1901, Wanaparthy since 1921 and Badepalle, Farooqnagar and Nagarkurnool are since 1951.

Mahbubnagar is the only town in class I town category, which has crossed 1 lakh population in 1991 Census.Badepalle,Gadwal,Wanaparthy, Narayanpet and Farooqnagar have categorized as class III towns and remaining town Nagarkurnool is in the Category of class IV.

Statement II : Physical aspects and location of town, 1999.

This statement contain 13 columns and depicts physical aspects and location of town in the district. Column numbers 1 and 2 relate to serial number, class,name and cities status of the town. The physical aspects such as rainfall in millimetres maximum and minimum temperature in centigrade have been shown in columns 3 to 5 by taking average for the last ten years i.e. from 1990 to 1999. Wanaparthy town has recorded highest rain fall of 812 mm. among towns of Mahbubnagar district and least rain fall is 465 mm. has recorded in Farooqnagar town. The district headquarters town, Mahbubnagar has recorded 765 mm. The maximum temperature of towns ranges between 32^0C to 43^0C and minimum temperatures between 20^0C to 28^0C. Both highest maximum and minimum temperature 43^0C and 28^0C respectively are recorded in Mahbubnagar Town.

The coloumns 6 to 12 gives the details of name and road distance in kms. from the referent town to State, district and Mandal headquarters, nearest city with poulation of one lakh and above, five lakhs and more, railway station and bus route. Farooqnagar is the nearest town with 48 kms. from State headquarters Hyderabad, while Gadwal is at a distance of 188 kms. District headquarters Mahbubnagar is 103 kms. away from Hyderabad. Badepalle town is nearer (18 kms.) and Mahbubnagar is far away (100 kms.) from district headquarters. Except Badepalle all towns are Mandal headquarters. Jadcherla at a distance of 3 kms. is the Mandal headquarters to Badepalle. Farooqnagar, Badepalle, Gadwal and Mahbubnagar towns are connected by Rail. For Gadwal town Krishna is Navigable river at a distance of 5 kms.

Statement III: Municipal Finance, 1998-99.

The details for inclusion in this statement were obtained from the respective statutory bodies. In the statement there are 16 columns. Column 1 & 2 relate to serial number,name and class of town with civic status. Columns 3 to 9 show the receipts of the local body under various sub-heads and columns 10 to 16 give the details of expenditure incurred on general administration, public safety, public health and convenience, public works and institutions, etc. Class I city Mahbubnagar Municipality was having 4.36 crores income, 3.77 crores expenditure for the year 1998-1999. Its main income source was Government grant 1.90 crores. An amount of Rs. 1.18 crores derived from Municipal properties and Rs. 1.09 crores through taxes. It also obtained 20 lakhs loan. Its main expenditure was on "other items", with 1.64 crores followed by the expenditure on administration with 1.31 crores. About 44 lakhs were spent on public works.

Nagarkurnool has received least income of Rs. 51.34 lakhs among towns of the district during the year 1998-99. About 42 lakhs expenditure was incurred on various items viz., Rs. 21.90 lakhs on administration, Rs. 5.48 lakhs on public safety, Rs. 4.60 lakhs on public health and convenience and Rs. 10 lakhs on public works etc.

Statement IV : Civic and other Amenities, 1999.

The title itself reveals that, this statement deals with the facilities provided to the people in the urban areas of the district.

This statement contain 20 columns. Column 1&2 relate to serial number, class, name of town and civic status of the town respectively. Column 3 gives population of the town whereas the column numbers 4 and 5 give population of SC and ST as per 2001 census. The lengths of pucca and kutcha roads are recorded separately for each town in column 6. The column 7 shows the details of sewerage systems

prevailing in the referent town. The number of latrines with different types is shown in columns 8 to 11. Column 12 is provided separately to show method of disposal of night soil. The source of protected water supply and the system of storage with capacity are recorded under column 13 and 14. Column 15 shows the availability of fire fighting services. In case if this service is not available in the town, the name of the nearest town along with distance where it is available to be mentioned under this column. The columns 16 to 20 relate to different types of electrical connection in number.

All towns have open surface drain system of sewerage. Largely water borne type latrines are existing and sewerage and septic tank are adopted as method of disposal of night soil. Water is stored in overhead tanks and service reservoirs and it is supplied through taps in all towns. Except Badepalle and Farooqnagar all towns are having fire fighting sevice stations. All types of Electrical Connections, including road lightings are provided.

Statement V : Medical, Educational, Recreational and Cultural facilities, 1999:

In this statement the availability of medical, educational, recreational and cultural facilities are presented with reference to the population of 2001 Census. The seven towns in the district are having all the facilities. This statement is containing 20 columns. Column 1, 2 and 3 relate to serial number, class and name along with the civic status of the town and the population recorded during 2001 census respectively. The columns 4 and 5 show about the availability of different hospitals, dispensaries, T.B. clinics, etc., together with beds strength. Columns 6 to 15 relate to educational facilities such as various schools/colleges at all levels including Medical, Engineering, Polytechnic, Technical Institutions and adult literacy centres. The column 16 is meant for working women's hostels with number of seats. The number of recreational and cultural facilities such as Stadia, Cinema, Auditorium, Community halls, Public Libraries including reading rooms available in the towns is recorded in columns 17 to 20.

Hospital facilities are available in all towns of the district. In Mahbubnagar town Ayurvedic, Unani and Homeopathic medical systems are available. T.B. centers are available in Mahbubnagar and Wanaparthy towns. Nursing homes with provision of beds are available in all towns.

Fortunately all Statutory and Census towns have Degree colleges, Junior colleges, Secondary, Upper Primary and Primary schools including Short-hand and type writing institutions in the district. Medical College is existing at Mahbubnagar, while Engineering colleges are available in all towns except in Badepalle(CT).

As regard recreational facilities, stadiums are available in Badepalle, Gadwal, Mahbubnagar and Wanaparthy towns. Cinema Halls, auditorium and drama/community halls are available in all towns except in Farooqnagar town.

Statement VI : Trade, Commerce, Industry and Banking, 1999

This statement deals with economic activities in the urban areas with 11 columns. Column 1 and 2 are serial number class, name and civic status of the town. The columns 3 to 5 give the details of three most important commodities exported and the columns 6 to 8 show the three most important commodities manufactured. The commercial banks, number of agricultural credit societies and the number of non-agricultural credit societies are furnished in the columns 9 to 11.

Handloom sarees, silk sarees, beedies, groundnut oil and tiles are some of important commodities that are manufactured and exported for urban areas of the district. Gadwal Sarees are very famous in the State. The urban population in the district is served by 47 Banks, 7 Agricultural Credit Societies and 178 Non- agricultural Credit Societies

Statement VII : Civic and other amenities in Slums, 1999

This statement give details of civic and other amenities provided in all slums whether notified or not. Keeping in view of slums problem in urban areas, during 1981 census this statement was first introduced limiting the details to class I and class II towns. The same pattern was adopted during 1991 census also.

Though the magnitude of slum problem is greater in class I and class II towns, it is accepted that they are associated with smaller towns also. Hence the information on slums has been presented in this

statement in respect of all towns having statutory bodies.

The statement on slums contains 17 columns. The columns 1 to 4 show the serial number, class and name of town, name of the slum and whether the slum is notified or not respectively. Column 5 and 6 give the details of approximate number of households and population of the slum during 1999. The length of the paved road in the slum have been shown in Kms. under column 7. The columns 8 to 13 present system of sewerage, number of latrines both private and community and method of disposal of night soil. The column 14 is meant for showing number of tap points / public hydrants. The last 3 columns i.e columns 15 to 17 relate to number of electric connections under domestic, road lighting points and others.

All statutory towns in the district are having slum areas. The district headquarters Mahbubnagar has 24 slum areas with 6750 households and 32,641 population as of 1999. Road length with in the slum has measured as 29 kms. Water borne (2,690) and 5 community latrines are existing. Open surface drain is the system of sewerage. There are 275 drinking water taps/public hydrants, 2,900 domestic electric connections and 600 Road lights.

In Narayanpet 20,105 persons are residing in 3516 households of 18 slum areas. Open surface drain is the system of sewerage. All the dry latrines are converted into pour flush latrines. There are 174 tap points/public hydrants, 2,065 domestic electric connections and 857 road lightings.

Wanaparthy town has 15 slums with 3144 householids 18,113 population. Length of paved roads in slums in 28 kms. and system of sewerage is open surface drain. Septic tank is method of disposal of night soil of 2,721 water borne and 10 community latrines. There are 3,796 domestic electric connections and 745 road lightings.

Gadwal Municipality has 19 slum areas, where open surface drain is sewerage system and night soil is disposed by the method of septic tank and pit system. Almost all slum areas in the town have water tap points and street lighting.

Section I - Village Directory

(a) Note explaining the abbreviations used in Village Directory :

The "Village Directory" is one of the traditional compilations of the Census. It gives the list of villages, their location numbers, their area, population, number of households, amenities such as educational, medical, drinking water, post and telegraph, commercial and co-operative banks, agricultural non-agricultural and other credit societies, recreational and cultural facilities, communication, approach to village, nearest town with a distance, power supply availability of newspaper and magazines, most important commodity manufactured and land use of each village.

Village is a statutory recognized unit having a definite boundary and separate land records. In case, a complete village is treated as an outgrowth of urban agglomeration, data on amenities for that village, have not been given in the Village Directory but shown along with the urban component. The villages which are consider as a Census Town , the amenities data are shown in the Town Directory. For those villages which have partly merged in an outgrowth of U.A., the amenities data are shown in the Village Directory for that particular village.

The 'un-inhabited' villages (villages with no population) have been indicated as such after furnishing details in columns 1 to 3 i.e., Serial number, Name of village & location code number and area of the village against column no. 4 to 18. The land use data for such villages are shown in col. 19 to 23.

The Village Directory format has 23 columns and the details given under each column are for the village are as follows:-

Columns 1 : Serial Number

Self explanatory. All the villages within the Mandal Parishad are presented serially in the ascending order of their location code number.

Columns 2 : Name and Location Code Number of village

The name and location code number of the village are shown against these columns. This also includes the forest and uninhabited villages.

Column 3 : Area of the village

The area of the villages in hectares are given. Wherever the area figures was not furnished by the concerned department the column is left blank.

Column 4 : Total population

The total population of the village as per 2001 Census is given against this column.

Column 5 : Number of households

The number of households as per 2001 Census is given in this column.

Amenities :

In column 6 to 23, availability in respect of different amenities such as education, medical, drinking water, post, telegraph, banks, credit societies, communication, power, approach road etc. in each village has been depicted with appropriate codes against the column concerned. Wherever the amenities are not available in the village, a dash (-) is shown in the column and next to it in brackets the distance in broad ranges viz.< 5 kms., 5-10 kms. and 10+ kms of the nearest place where the facility is available is given. Column wise details are given below

Column 6 : Educational

Classes upto class V included in Primary School. This will include nursery school, kindergarten school. Pre-basic school, pre-primary school, junior basic school upto class V.

Classes from VI to VII are included in the middle school.

Classes from VIII to X included in Higher secondary school. Classes XI and XII are included in senior secondary school.

In case of composite schools like middle school with primary school or secondary school with middle school, these are also included in the number of primary and middle schools, respectively.

Accordingly any of the following types of institutions if exists within the village is shown as per codes given below :

(i)	Primary School	P
(ii)	Middle School	M
(iii)	Secondary School	S
(iv)	Senior Secondary School	PUC/JC
(v)	College	C
(vi)	Industrial School	I
(vii)	Training School	Tr
(viii)	Adult literacy class/centre	AC
(ix)	Others (specify) e.g. Sanskrit Pathshala, Senior basic school, Navodaya Vidyalaya, Makhtab, etc.	O

More than one institution of a type in the village is indicated by the number within brackets against the abbreviation, e.g. P(3), M(4), etc.

Column 7 : Medical

Availability of medical facility within the village is indicated by following codes :

(i)	Allopathic Hospital	H
	Ayurvedic Hospital	HA
	Unani Hospital	HU
	Homeopathic Hospital	H Hom
(ii)	Allopathic Dispensary	D
	Ayurvedic Dispensary	DA
	Unani Dispensary	DU
	Homeopathic Dispensary	D Hom
(iii)	Maternity & Child Welfare	MCW
(iv)	Maternity Home	MH
(v)	Child Welfare Centre	CWC
(vi)	Health Centre	HC
(vii)	Primary Health Centre	PHC
(viii)	Primary Health Sub-Centre	PHS
(ix)	Family Welfare Centre	FWC
(x)	T.B. Clinic	TB
(xi)	Nursing Home	NH
(xii)	Registered Private Medical Practitioner	RMP
(xiii)	Subsidised Medical Practitioner	SMP
(xiv)	Community Health Worker	CHW
(xv)	Others	O

More than one institution of a type in the village is indicated by the number within brackets against the abbreviations, e.g. H(3), D(4), etc.

Column 8 : Drinking Water

The type of the drinking water supply sources available within the village are indicated by codes as follows :

(i)	Tap Water	T
(ii)	Well Water	W
(iii)	Tank Water	TK
(iv)	Tubewell Water	TW
(v)	Handpump	HP
(vi)	River Water	R
(vii)	Canal	C
(viii)	Lake	L
(ix)	Spring	S
(x)	Others	O
(xi)	Summer Source	SS-

Column 9 : Post, Telegraph and Telephone

It is indicated by codes as shown below whether within the village exists the following amenities:

(i)	Post Office	PO
(ii)	Telegraph Office	TO
(iii)	Post & Telegraph Office	PTO
(iv)	Telephone Connection	PH

Column 10: Commercial and Co-operative Banks

If the village is served by any banking service, commercial bank, co-operative bank etc. the same is indicated in codes mentioned below along with the number of banks in brackets. If not available the distance of nearest place where the facility exist is given:

(i)	Commercial Bank	CM
(ii)	Co-operative Bank	CP

Column 11: Credit Societies

If the village enjoys the services of Credit Societies i.e. Agricultural Credit Societies, Non Agricultural Credit Society or Other Credit Societies, the same is indicated in codes mentioned below along with the number of such societies in brackets. In case the facility is not available within the village the distance of the nearest place where such facility exist is given:

(i)	Agricultural Credit Society	ACS
(ii)	Non- Agricultural Credit Society	NCS
(iii)	Other Credit Society	OCS

Column 12 : Recreational and cultural facilities

If facilities such as Cinema/Video hall, Sports Club, Stadium/Auditorium is available in the village. The same is recorded in these columns. If not available the particulars of the nearest place with the facility is recorded. The information is indicated in codes mentioned below along with the number of such facilities in brackets:

(i)	Cinema / Video Hall	CV
(ii)	Sports Club	SP
(iii)	Stadium / Auditorium	ST

Column 13 : Communications

If the village is served by any mode of public / private transport like Bus, Railway station or Navigable water ways they are to be mentioned as follows:

(i)	Bus Service	BS
(ii)	Railway Station	RS
(iii)	Navigable Waterway	NW

Column 14 : Approach to village

Approach to village refers to the state of road leading to village. The approach to the village is indicated in following codes :

(i)	Paved Road	PR
(ii)	Mud road	MR
(iii)	Foot path	FP
(iv)	Navigable River	NR
(v)	Navigable Canal	NC
(vi)	Navigable waterways other than River, Canal	NW

Column 15 : Nearest Town and distance

The distance is given in kilometres in brackets against the name of the town nearest to the village.

Column 16 : Power supply

Availability of Power Supply in the village, whatever may be the form of its use is given by using following codes :

(i)	Electricity for domestic use	ED
(ii)	Electricity for agricultural use	EAG
(iii)	Electricity for other purposes	EO
(iv)	Electricity for all purposes	EA

Column 17 : News Paper / Magazine

If village receives any News Paper/Magazines the same is noted in this column using following codes

(i)	News Paper	N
(ii)	Magazine	M

Column 18 : Most important commodities manufactured

The name of three most important commodities manufactured in the village is recorded against this column.

Column 19 to 23 : Land use i.e. area under different types of land use

Land use data maintained by the State/ UT Govts. are furnished against these columns. The data concerning area under Forest, Irrigated land (by source), Un-irrigated land, Culturable waste and Area not available for cultivation in the village are shown against these columns. The area figures are given in hectare(s) up to one decimal. Dash '-' is recorded wherever the information is not made available by the concerned department. The codes used for different types of irrigation facilities available in the village are indicated below:

(i)	Government Canal	GC
(ii)	Private Canal	PC
(iii)	Well (without electricity)	W
(iv)	Well (with electricity)	WE
(v)	Tubewell(without electricity)	TW
(vi)	Tubewell(with electricity)	TWE
(vii)	Tank	TK
(viii)	River	R
(ix)	Lake	L
(x)	Waterfall	WF
(xi)	Others	O
(xii)	Total	T

(b) List of Villages merged in Towns and Outgrowths at 2001 Census

(i) List of Revenue Villages that have been fully merged in Towns and Outgrowths at 2001 Census

Serial number	Name of mandal	Name of village	Name of the Municipality/ Nagar Panchayat/ Census Town in which the village is merged
1	2	3	4
1	Farooqnagar	Farooqnagar	Farooqnagar (CT)
2	Jadcherla	Badepalle	Badepalle (CT)
3	Narayanpet	Narayanpet	Narayanpet (M)
4	Nagarkurnool	Nagarkurnool	Nagarkurnool (CT)
5	Wanaparthy	Wanaparthy	Wanaparthy (M)

(ii) List of Revenue Villages that have been Partly merged in Towns and Outgrowths at 2001 Census

Serial number	Name of mandal	Name of village	Name of the Municipality/ Nagar Panchayat/ Census Town in which the village is merged
1	2	3	4
1	Mahbubnagar	Mahbubnagar	Mahbubnagar (M)
		Mahbubnagar (R) (Partly) OG	Mahbubnagar (M)
		Yenugonda (R) (Partly) OG	Mahbubnagar (M)
		Boyapalle (R) (Partly) OG	Mahbubnagar (M)
		Palakonda (Partly)	Mahbubnagar (M)
2	Gadwal	Gadwal (R) (Partly) OG	Gadwal(M)

Section II - Town Directory

Note explaining the abbreviations used in the town directory

Town Directory statements (I to VII)

Statement I : Status and Growth History

Column (2) : Class, name and civic status of town :

Class has been introduced to facilitate analysis of town directory data at the state and all India levels. It is presented according to 2001 Census Population of the town as follows :

Population	Class
100,000 and above	I
50,000 - 99,999	II
20,000 - 49,999	III
10,000 - 19,999	IV
5,000 - 9,999	V
Below 5,000	VI

Town with a population of one hundred thousand (1,00,000)and above is treated as a city.

The civic status of the towns is indicated within bracket against the name of the town. The following abbreviations are used to denote civic status of town.

(I)	Municipal Corporation	M. Corp.
(II)	Municipal Committee	MC
(III)	Municipal Council	M Cl
(IV)	City Municipal Council	CMC
(V)	Town Municipal Council	TMC
(VI)	Municipal Board	MB
(VII)	Municipality	M
(VIII)	Cantonment Board/Cantonment	CB
(IX)	Notified Area	NA
(X)	Notified Town	NT
(XI)	Notified Area Committee/ Notified Area Council	NAC
(XII)	Notified Town Area	NTA
(XIII)	Industrial Notified Area	INA
(XIV)	Industrial Township	ITS
(XV)	Township	TS
(XVI)	Town Panchayat	TP
(XVII)	Nagar Panchayat	NP
(XVIII)	Town Committee/ Town Area Committee	TC
(XIX)	Small Town Committee	ST
(XX)	Estate office	EO
(XXI)	Gram Panchayat	GP
(XXII)	Census Town	CT

Others columns need no comments.

Statement II - Physical Aspects and Location of towns, 1999

Column 3 to 5 : Physical Aspects

In these columns the Rainfall and Maximum & Minimum Temperature of the town is recorded.

Column 6, 7 and 8 :

Name of the State headquarters, District headquarters and Sub-Divisional headquarters with distance from the referent town in kilometers, is to be recorded respectively. If the names mentioned in these columns are the same as the referent town itself, the distance is recorded as (0) zero.

Column 9& 10 :

Name of the nearest city with one lakh and more and five lakhs and more population are recorded.

Column 11, 12 and 13 :

If referent town enjoys the facility of railway station, bus route facility or navigable river/canal. Its name is to be mentioned. If not available, then the name of nearest place with distance, where such

facility exists is to be mentioned.

Statement III : Municipal Finance 1998 - 99

Item-wise amount of receipt and expenditure in thousand rupees, relating to municipal finance of the town for the year 1998-99 is to be recorded.

Statement IV : Civic and Other amenities, 1999

Column (1 to 5) : Self explanatory.

Column (6) : Road length (in kms.)

Information about kutcha / pucca road is to be recorded separately for the roads within the limits of the referent town.

(i)	Pucca Road	PR
(ii)	Kutcha Road	KR

Column (7) : System of Sewerage

Generally, by sewerage system is implied the network of mains and branches of underground conduits for the conveyance of sewerage to the point of disposal. Sewers that carry only household and industrial wastes are called separate sewers, those that carry storm water from roofs, streets and other surface are known as storm water drains, while those carrying both sewage and storm water are called combined sewers.

The codes used for different types of drainage system are as follows :

(i)	Sewer	S
(ii)	Open Surface Drains	OSD
(iii)	Box Surface Drains	BSD
(iv)	Sylk Drains	SD
(v)	Cesspool method	CP
(vi)	Pit System	Pt
(vii)	Others	O

Column 8 to 11 : Number of latrines

Number of various types of latrines both Public and Private are given in these columns.

Column 12 : Method of disposal of night soil

The various prevalent method of disposal of night soil are given below with codes :

Head Loads	HL
Basket	B
Wheel Barrows	WB
Septic Tank	ST
Pit System	Pt
Sewerage	S
Others	O

Column 13 and 14 : Water supply

Source and capacity of storage system. The following codes are used in these columns:

Column 13:

(i)	Tap water	T
(ii)	Tube-well water	TW
(iii)	Tank Water	TK
(iv)	Well water	W

Column 14:

(v)	Over Head Tank	OHT
(vi)	Service Reservoir	SR
(vii)	River Infiltration Gallery	RIG
(viii)	Bore Well Pumping System	BWP
(ix)	Pressure Tank	PT

The information on major source of water supply are given in column 13 and the storage capacity against each in kilo-litres (in bracket) are presented in column 14.

Column 15 : Fire Fighting Service

In case the fire fighting service is available in the referent town 'yes' is recorded. If the facility is not available within the town. The name of the nearest place having this facility with its distance from the referent town has been recorded.

Column 16 to 20 : Electrification (Number of connections)

Different types of electric connections have been shown in these columns, i.e. Domestic, Industrial, Commercial, Road lighting (points) & others.

Statement V : Medical, Educational, Recreational and Cultural Facilities, 1999

Column 1 to 3 : Self explanatory.

Column 4 & 5 :

The data covers all such medical institutions

run by or aided by Government/Semi Government/ Local bodies and Charitable institutions or Social agencies like the Missionaries. Where the family planning centres are attached to hospitals or maternity and child welfare centres or Primary Health Centres, may be treated as independent units and counted separately using following codes :

(i)	Hospital	H
(ii)	Dispensary	D
(iii)	Health Centre	HC
(iv)	Family Welfare Centre	FWC
(v)	T.B. Clinic	TB
(vi)	Nursing Home	NH
(vii)	Others	O

In case of more than one institutions of any type, it is indicated within brackets the number of such institution (s) e.g. D(3), NH(8), etc. The institutions have further been distinguished by providing additional codes within the bracket as given below :

Ayurvedic	A
Unani	U
Homoeopathic	Hom

Column 6 to 9 :

The codes used for these columns are as follows:

(i)	Arts only	A
(ii)	Science only	S
(iii)	Commerce only	C
(iv)	Arts & Science only	AS
(v)	Arts & Commerce only	AC
(vi)	Combined for all categories-Arts, Science and Commerce	ASC
(vii)	Law	L
(viii)	University	U
(ix)	Others	O

Column 10 : Recognized shorthand, typewriting and vocational training institutes

"Recognised" should mean recognised by some statutory authority, like education department, commerce department, labour department etc. of the government or semi government or autonomous bodies, public sector undertakings etc.

The following codes are used :

(i)	Vocational Training Institute	VT
(ii)	Shorthand	SH
(iii)	Typewriting	Type
(iv)	Shorthand & Typewriting	SH Type
(v)	Others	O

The vocational institutions like - Applied Art/Painting college, Pharmacy college, B. Ed. College, Teacher's Training Institute, Music / Dance School, Nursing School etc. are covered under 'Others'.

Column 11 to 14:

Higher Secondary/Intermediate/Senior Secondary/ PUC/Junior College level, Secondary/Matriculation, Middle Schools/ Junior Secondary and Primary Schools.

School up to class V are treated as Primary or elementary schools. These include Nursery schools, Kindergarten schools, Pre-Primary schools, Junior Basic schools upto class V and Primary schools upto class IV.

Schools upto VII are considered as Middle school or Junior Secondary.

Schools upto class X are considered as Matriculation or Secondary schools.

Schools upto XI or XII classes are considered as Higher Secondary / Intermediate / Pre University / Junior College etc. This would cover 10+2 classes whether held in schools or college.

If there are composite schools like middle schools with primary classes or Secondary schools with Middle classes, these are also included in the number of Primary and Middle schools, respectively. For example, if in a town, there are two Primary Schools and one Middle school with Primary classes, the number of Primary schools in the town is given as three and that of Middle schools as one though there are only three educational institutions.

If there are more institutions of a type in the town, the number is indicated within bracket along with the abbreviation, e.g. P(4), M(3).

Column 15 : Adult literacy classes/centres

This column has been introduced keeping in view the Minimum Needs Programme of the Planning Commission. There are number of Adult Education Centres which are included in these columns.

If an educational facility is not available in the town, the name of the nearest place and its distance in kilometres from the town where the facility is available is mentioned.

Column 16 : Working Women's hostels with number of seats

The number of working women's hostel if available in the referent town is mentioned with number of seats. If the facility is not available in the town the name of nearest place with distance where the facility is available is recorded.

Column 17 to 19 : Recreational and Cultural Facilities

Stadium, Cinema, Auditorium/Drama/Community Hall are covered under recreational & cultural facilities. The particulars of permanent recreational facilities are considered for these columns.

Column 20 : Public Libraries, Reading Rooms

Number of public libraries and reading rooms available in the referent town are recorded in codes as follows :

(i) Public Library	PL
(ii) Reading room	RR

Statement VI : Trade, Commerce, Industry and Banking, 1999

Column 3 to 8 :

Name of three most important commodities exported and names of three most important commodities manufactured in the town are recorded.

Column 9 : Number of Banks

Number of Banks available in the referent town both Commercial and Co-operative banks are recorded against this column.

Column 10 & 11 :

Number of Agricultural Credit Societies and Non Agricultural Credit Societies

The total number of Agricultural Credit Societies and Non Agricultural Credit Societies in the referent town are recorded against these columns.

Statement VII : Civic and other Amenities in Slums, 1999

This is the statement on civic and other amenities in all slums whether notified or not and for all towns having statutory bodies, like municipality, Municipal Corporation, Town area committee etc.

Brief note on Primary Census Abstract

The first census of the third millennium and twenty first century the Census of India, 2001 was the 14th continuous and uninterrupted Indian census since 1872. Thus, 2001 Census will provide data on population and its characteristics marking transition from one century and millennium to another.

The gigantic operation of Population Enumeration (considered by many to be the single largest and complex peace time administrative exercise in the world) was made possible due to the door to door universal canvassing of the Household Schedule by about 2 million enumerators and supervisors covering 593 districts, 5,463 sub-districts, 5,161 towns and 638,588 villages. The comprehensive Household Schedule which replaced the individual slip had three parts and two sides A and B. Part I contained the Location Particulars; Part II related to the Individual Particulars and Part III contained questions for Household engaged in Cultivation/Plantation. The part II of the Household Schedule had 39 columns and 23 questions all of which were universally canvassed and no sampling was resorted to during enumeration.

Data Processing

A quantum leap was made in the technology front while processing the Census 2001 data both for Houselisting and Population Enumeration. The Census schedules for both the phases were scanned through high speed scanners in fifteen data centers across the country and hand-written data from the schedules were converted into digitized form through Intelligent Character Reading (ICR) software for creation of ASCII records for further processing. The designing and formatting of the Household Schedule had to be done very carefully using specialized software so as to ensure uniformity, which was an essential pre-requisite for scanning. The selection of appropriate state-of-art technology in data processing has made it possible to produce all the Houselisting as well as Population Enumeration tables on full count basis for the first time in the history of Census. For Census 2001, about 202 million schedules consisting of about 1,028 million records were scanned and processed within a span of only 10 months starting October, 2002.

Task Force on Quality Assurance

After the data is processed, it is expedient on the part of the data producing agency to satisfy itself about its quality before putting the same in public domain. This has to be done mainly through the process of internal consistency, comparison with similar data in the past and also through validation with likewise data if available, from external sources. Quite often the local knowledge and perception has to be brought into play to understand both the existing and the new emerging trends of population distribution and characteristics. The other very important aspect of the data quality is to ensure complete coverage of all geographical areas especially for the population enumeration phase where the data is disseminated right up to the village level in the rural areas and the ward level in the urban areas. Thus ensuring the complete coverage and correct geographical linkage of each enumeration block was one of the major planks of the quality control, specially for small area population statistics.

A very comprehensive check and edit mechanism was put in place to objectively examine the preliminary Census 2001 Population Enumeration results and finally clear them for use. The responsibility of the final clearance of data was with the Task Force on Quality Assurance (TFQA), headed by the Registrar General and Census Commissioner, India. The other members of the TFQA were the Heads and senior officers of the Census Division, Data Processing Division, Map Division, Demography Division and Social Studies Division. The Directors of Census Operations were co-opted as members whenever the TFQA discussed the data for their States/Union territories. The Directors and their senior officers were required to make detailed presentations of data for their own state both in respect to the quality and the coverage and only after the full possible cleared.

There has been a major departure in Census 2001 from the past in respect of the procedure followed for finalization of the Scheduled Castes and the Scheduled Tribes population. In the earlier censuses, the total Scheduled Castes and Scheduled Tribes populations were finalized at the time of the manual compilation of the Primary Census Abstracts (PCA) at the Regional Tabulation Offices which were specially set up for this purpose. The individual Scheduled Castes and the Scheduled Tribes population for each state was finalized much later based on manual coding done by the coders. In 2001 Census, each individual Scheduled Caste and the Scheduled Tribe have been coded directly on the computers by the Data Entry Operators through a process known as Computer Assisted Coding (CAC) and taken up along with the processing of PCA data. The CAC process involves pulling down, from the relevant dictionary of the Scheduled Castes and the Scheduled Tribes, on the computer screen and coding from the dictionary by referring to the image of the specific individual entry in the Household Schedule appearing on the screen. The CAC of the response on Religion wherever required, was also undertaken along with the processing of PCA. This is because the Scheduled Castes status had to be determined in relation to the religion of the individual. Two Special Task Forces, one on Religion and the other on Scheduled Castes/ Scheduled Tribes were constituted for scrutiny and appropriate classification of these responses.

The main task of the Special Task Force on Religion was to appropriately merge or group the new responses encountered and code it into the appropriate religious community based on available literature and local knowledge. The Special Task Force on Scheduled Castes and Scheduled Tribes examined the different Scheduled Castes and Scheduled Tribes entries encoun-tered and classified these into appropriate category of the Scheduled Castes or the Scheduled Tribes principally based on the Presidential Notification and the available literature. Thus a very systematic and scientific mechanism was operationalised to firm up the individual religion and the individual Scheduled Castes/Tribes returns. The Scheduled Castes and the Scheduled Tribes population in 2001 Census, is thus being finalized by aggregating the population data for individual Scheduled Castes and the Scheduled Tribes at appropriate geographical levels.

The entire work relating to the data validation and scrutiny was completed by all the States/Union Territories under the overall supervision and monitoring of the Census Division of the Office of the Registrar General, India with active cooperation and support of the Social Studies Division, Data Processing Division, Data Dissemination Division and Map Division.

Primary Census Abstract

The Primary Census Abstract which is yet another important publication of 2001 census gives basic information on Area, Total Households, Total population, Scheduled Castes, Scheduled Tribes population, Population in the age group 0-6, Literates, Main workers and Marginal workers classified by the four broad industrial categories, namely, (i) Cultivators, (ii) Agricultural labourers, (iii) Household Industry Workers, and (iv) Other workers and also Non-workers. The characteristics of the Total Population includes Scheduled Castes, Scheduled Tribes, Institutional and Houseless population and are presented by sex and rural-urban residence. This data is presented at different levels, namely, India, States/Union territories, Districts and Cities, Urban Agglomerations (Population 1,00,000 and above) in three different tables. In addition, the Appendix of said publication provides Houseless and Institutional Households and their population by residence and sex for 2001 for India, State and Union territory.

Apart from the India and State/Union Territory volumes for Primary Census Abstract, the District Census Handbook contains District Primary Census Abstract, Appendix to District Primary Census Abstract, Primary Census Abstract for Scheduled Castes, Primary Census Abstract for Scheduled Tribes, Village Primary Census Abstract and Urban Primary Census Abstract of the concerned district in the state.

It was for the first time at the 1981 Census that the Primary Census Abstract (PCA) was brought out for the Scheduled Castes and the Scheduled Tribes separately on the pattern of General Primary Census Abstract. This practice was continued in 1991 also. In the 1961 and 1971 Censuses, such data were made available in Table C-VIII-Social and Cultural table and to some extent in the series 'Special Tables for Scheduled Castes/Scheduled Tribes'.

The format of Primary Census Abstract has been restructured slightly in the 2001 Census as compared to that of 1991 Census. The nine-fold industrial classification of main workers given in the Primary Census Abstract of 1991 Census has been discontinued and its place, four-fold industrial classification of both 'main workers' and 'marginal workers' are included. In 1981 census only main workers were presented into four categories. One of the novel features of the primary census abstract of 1991 census was the presentation of data of the population of age group 0-6 is continued in 2001 Census also. This will help the data users in better analysis and understanding of this literacy data.

Level of presentation in District Census Handbooks:

The Primary Census Abstract data in different PCAs are presented at different levels. The level of presentation of Primary Census Abstracts are as under:

Name of the Primary Census Abstract	Level of presentation
1.Disstrict Primary Census Abstract	District/Mandal Parishad/UA/City/Town
2.Primary Census Abstract for Scheduled Castes	District/Mandal Parishad/Town
3.Primary Census Abstract for Scheduled Tribes	District/Mandal Parishad/Town
4.Village Primary Census Abstract	Mandal Parishad/Village wise
5.Urban Primary Census Abstract	Town/Ward level

The PCA Data for villages was presented Mandal Parishad wise for the first time in 1991 Census. This practice is continued in 2001 Census also. The data for each Mandal Parishad is presented both for rural and urban areas separately. All the villages within the Mandal Parishad constitute the rural portion and the Census Towns and Outgrowths are shown under the urban portion of the Mandal Parishad. In case a Mandal Parishad is spread over two or more districts, than portion which falls within the district is presented, the data pertaining to remaining portion of the Mandal Parishad is presented in the concerned District Census Handbook. The data in the Urban Primary Census Abstract for each town as well as for town with outgrowths in the district are presented. The data for all the wards and the outgrowths of the town(s) are also presented separately below the concerned town(s).

The District Primary Census Abstract is presented in 59 columns. The Primary Census Abstract for Scheduled Castes and Primary Census Abstract for Scheduled Tribes are presented in 52 columns. The Village Primary Census Abstract and Urban Primary Census Abstract are presented in 58 columns.

The concepts and definitions used in the column heading are explained under the sub heading 'Census Concepts' in the Analytical Note. The term 'Total Population' includes the Scheduled Castes, the Scheduled Tribes, the Institutional and the Houseless populations. The explanation regarding area figures presented at various level in the Primary Census Abstracts are as follows:

Area Figures

The area figures supplied by local revenue authorities of the district in respect of mandals, Police Stations and by the local bodies in respect of towns are given in square kilometres. The area figures of the villages supplied in acres have been converted and shown in hectares. The area figures of the Mandal Parishad is the total of the village areas coming under each Mandal Parishad. The area figures for the district are the same as adopted by the Surveyor General of India to maintain uniformity at the national level. The total area figures of all the Mandals/Mandal Parishad within the district may not tally with area figures of the district because former represents land use area only. Similarly, the total of all the villages area may not tally with the entire rural of Mandal. The difference may be due to the fact that while the area covered by hills, forests and rivers etc, have been accounted in the level the same may not be covered under the area of the villages. Apart from this it may also differ due to varying methods of computation adopted at different levels.

An appendix to District Primary Census Abstract has also been furnished showing urban enumeration block-wise particulars on Total Population, the Scheduled Castes Population and the Scheduled Tribes Population for each town.

Annexure - I
Fertility and Mortality, 1991 Census

Crude birth rate is the most commonly used measures of fertility. To know the fertility rates, certain information was collected from all ever married women during 1991 Census such as (i) Age at marriage (ii) Number of children ever born alive. For currently married women, in addition to above data, if any child born at preceding one year to the Census has also collected.

Definition of fertility measures is given in the chapter on Census concepts.

Fertility Levels:

Fertility is a natural growth of population to know the fertility rate, during 1991 Census, certain information was collected from all ever married women such as (i) Age, Age at marriage, Number of Children surviving at present, Number of Children ever born alive and for Currently married women if any child born at preceding one year to the Census. Fertility, measures were worked out on F-Series Tables of 1991 Census of Andhra Pradesh. Definition of fertility measures is given in the chapter on census concepts.

Age Specific Fertility Rate:

The following statement shows the age specific fertility rates for total, rural and urban areas along with the corresponding fertility rates of state during 1991 Census.

Annexure –I (a)

Age Specific Fertility Rates/Levels, 1991

Age Group	Mahbubnagar District			Andhra Pradesh State		
	Total	Rural	Urban	Total	Rural	Urban
1	2	3	4	5	6	7
15-19	0.099	0.103	0.070	0.085	0.092	0.066
20-24	0.189	0.191	0.176	0.179	0.185	0.162
25-29	0.170	0.171	0.166	0.150	0.155	0.137
30-34	0.125	0.127	0.107	0.103	0.108	0.087
35-39	0.086	0.087	0.082	0.068	0.071	0.055

45-49	0.019	0.019	0.018	0.020	0.021	0.017

Source: F-Series tables of 1991 Census & Andhra Pradesh District profile, 1991.

It is seen from the above statement that the A.S.F.R is higher in the age group 20 - 24 of rural areas of Mahbubnagar district among all the age groups of district and State. The district ASFR is higher than that of State figures in all age groups except 45-49.

Annexure –I (b)

Age Specific Marital Fertility Rates/Levels, 1991

Age Group	Mahbubnagar District			Andhra Pradesh State		
	Total	Rural	Urban	Total	Rural	Urban
1	2	3	4	5	6	7
15-19	0.132	0.132	0.139	0.150	0.149	0.158
20-24	0.200	0.200	0.202	0.198	0.199	0.196
25-29	0.177	0.178	0.174	0.158	0.162	0.147
30-34	0.134	0.136	0.114	0.111	0.116	0.093
35-39	0.094	0.095	0.089	0.074	0.078	0.060
40-44	0.052	0.052	0.055	0.044	0.046	0.035
45-49	0.024	0.024	0.022	0.026	0.026	0.023

Age Specific Marital Fertility Rate:

It is seen from the above given table the ASMFR are higher at all age groups except 15-19 and 45-49 in the district than that of State figures. The highest ASMFR is repoted in the age group of 20-24 in rural and urban areas of the district and State.

3. R.G's occasional paper of 1997

Fertility Measures:

It is seen from the above fertility measures that all the rates of Mahbubnagar District are higher than that of State except Mean age at marriage.

Annexure III
Percentage distribution of Migrants by place of birth/place of last residence, 1991 Census and 2001 Census

Migration :

As per the 1991 Census Migration by place of Birth, the migrants in Andhra Pradesh State were 194.64 lakhs comprising of 62.53 lakhs Males and 132.12 lakhs Females. These migrants constitute 29.27% of the Total Population. Males constitute 18.54% of the Males population and Females constitute 40.30% of the Female population. As for Mahbubnagar district is concerned, the migrant population is 8.19 lakhs comprising 1.73 lakhs Males and 6.45 lakhs Females. As far the percentages are concerned the migrants constitute 26.61% of the total population, with males11.12% and females 42.53% to total males and females respectively.

From the distribution of total migrants by place of Birth, it can be seen that in intra-district migration is more in the district than that of State in both the sexes. While migrants from other districts of the State and other States of India are lesser the percentage in the district than that of State.

Source: *Migration Tables (D Series) - 2001*

The migrants by place of birth were returned 194.6 and 228.3 lakhs in Andhra Pradesh State as per the 1991 and 2001 Censuses respectively. It shows a growth rate of 17.3% total migrants over 1991 Census with a breakup of 21.8% males and 15.2% females. In Mahbubnagar district the migrants are 818,830 persons as per 1991 Census whereas 932,534 persons are in 2001 Census with a growth rate of 13.9% over 1991 census. The female migrants are more than male migrants due to marriages.

In respect of inter district migrants, male migrants are forming less percentage than female migrants whereas it differs in intra district migration. In the case of intra-state migrants the males are more than females in 2001 Censuses but in 1991 female migration is dominating. Similar is in case of International Migrants, negligible percentage is noticed in 2001 census as well as in 1991census.

	(22.59)	(14.64)	(7.95)

Note: 1. Birth place un-classified included in total
2.Figures noted as unspecified are included in totals only.

Rural - urban components of migration

The flow of migrants would consists of four streams such as rural to rural, rural to urban, urban to rural and urban to urban. The data on the basis of these four streams in case of migrants is classified by place of birth. It presents data only in relation to internal migrants.

Of the total 184.07 lakhs intra State migrants of Andhra Pradesh 63.92% have moved from rural to rural, 20.95% from rural to urban. 5.72% people have moved from urban to rural and 9.34% from urban to urban. In case of Mahbubnagar district of the total 7.93 lakhs intra-State migrants 84.68% have moved from rural to rural and 2.75% have moved from urban to urban, 8.58% have moved from rural to urban and 3.95% from urban to rural.

In case of migrants from other States numbering 10.27 lakhs., in Andhra Pradesh 33.94% have migrated from rural to rural, 33.39% have moved from urban to urban, 21.77% migrants have moved from rural to urban and 10.73% from urban to rural. In case of Mahbubnagar district 24.66 thousands migrants were from other States. Of these 67.92% have moved from rural to rural, 9.45% from rural to urban, 14.64% from urban to rural and 7.95% from urban areas of othrer States to urban areas of this district.

Inset table to Annexure III(b)
Rural and Urban composition of internal Migrants by place of birth, 2001 Census

Place of Birth	Place of Enumeration					
	Andhra Pradesh			Mahbubnagar District

This annexure shows percentage distribution of migrants by place of birth as recorded in 1991 census. For all districts of Andhra pradesh the persons born elsewhere in the district of enumeration works out to 71.0 percent whereas in respect of persons born in other districts of Andhra Pradesh, born in other states and other countries works out to 23.6%, 5.3% and 0.2% respectively. In respect of Cuddapah district the persons born elsewhere in the district of the enumeration recorded 86.4% and the persons born in other districts of the state returned 10.6%. Among the migrants of the district, the persons born in other states and other countries works out to 3.0% and 0% respectively. Out of 1.95 crores of migrants of the state, 8.18 lakh migrants belong to Mahbubnagar district. It is interesting to note that the female migrants are more in number than males in all the districts of the state.

Source: *Migration Tables (D Series) - 2001*

The above annexures show the percentage distribution of migrants by place of birth as recorded in both the Censuses of 1991 and 2001 in Andhra Pradesh state. It is observed that 3.0% increase in the migration who were born elsewhere in the district of enumeration with a sex breakup of 3.0% each, whereas in respect of the migrants who were born in other districts of the state, in other states of the country and in other countries are recorded with a difference of (-)2.2% to (-)0.8% and (-)0.1% respectively between two censuses of 1991 and 2001.

In respect of Mahbubnagar district the difference between the two Censuses can be observed 0.2% in the persons born elsewhere in the district of the enumeration, but the sex-wise break up differs with (-) 3.5% males and 1.1% females. The reason is that to lack of economical resources in this district. As such the males migration has been decreased with (-)3.5% when compared with 1991 census.. Regarding the migrants from other states in India only a minor variation is recorded with (-)0.2%.

Among the migrants that are born in the Abroad no change is noticed in the percentage variation between 1991 and 2001 censuses.

Annexure IV
Brief account of Main religions in the district/ mandal as per 1991 Census and 2001 Census

Religion :

During 1991 Census the religion data was collected through question No.8 of the individual slips and recorded the religion as stated by the individual under six major religions viz. Hindus, Muslims, Christians, Sikhs, Jains and Buddhists. The minor religions other than these six religions as reported by the respondent, recorded and classified under the category "Others".

Source: Religion Data, Andhra Pradesh - 2001

The above table gives the details of Main Religions in the district for 2001 census whereas the previous Annexure shows the details of main religion in 1991 census. During 2001 census the religion data was collected through question number 7 of household schedule. Out of the total population of the district Hindus have returned 90.9% during 2001 census as against 90.8% in 1991 census. In respect of Muslims they have returned 8.5% in 2001 whereas their percentage during 1991 was 8.7. The next main religion in the district is Christians who returned 0.5% during 2001 census as well as 1991 census. The main reason for decrease in the decadal growth among Christians can be attributed to get enrolled under Scheduled Castes to get benefits from the government. In respect of remaining main religions viz. Sikhs, Buddhists, Jains and others their strength in the district is negligible.

Annexure IV (b)

Percentage distribution of population by major religions in India, Andhra Pradesh and Mahbubnagar district and its growth rate during 1981-1991

Sl. No.	Name of Religion	India		Andhra Pradesh		Mahbubnagar District	
		Percentage of Population	Percentage growth rate Population	Percentage of 1981-91	Percentage growth rate Population	Percentage of 1981-91	Percentage growth rate Population 1981-91
1	2	3	4	5	6	7	8
1	Hindus	82.4	22.3	89.14	24.74	90.79	26.68
2	Muslims	11.7	32.8	8.91	30.66	8.66	22.15
3	Christians	2.3	16.9	1.83	(-) 15.14	0.51	- 25.53
4	Sikhs	2.0	25.5	0.03	35.06	Negligible	Negligible
5	Buddhists	0.8	36.0	0.03	71.33	Negligible	Negligible
6	Jains	0.4	4.4	0.04	42.50	Negligible	- 87.67
7	Others	0.4	13.1	Negligible	201.29	Negligible	Negligible

Religion-wise growth in the State during the decade 1981-1991 shows that Hindus recorded higher growth rate than India as a whole i.e. 24.74% as against 22.3% in India. The growth rate of Hindus in the district is more than State and Country i.e. 26.68%. The growth rate among the Muslims is less than that of State and less than Country i.e. 22.15%. The Christians population has decreased in the State as well as in the district during the decade.

India- State- District differentials :

The comparative data on religion among India, Andhra Pradesh and Mahbubnagar district reveals that concentration of Hindus was higher followed by Muslims and Christians as per 1991 Census findings. Hindus were returned on the higher side in the State with nearly seven percent more than the national average, while in Mahbubnagar district they were more over eight percent than national and nearly one percent than the State. They constituted 82.4%, 89.14% and 90.79% in India, Andhra Pradesh and Mahbubnagar district respectively. Muslims recorded as 11.7% in India, 8.91% in Andhra Pradesh and 8.66% in the district. It shows their percentage in the district is less than the percentage of India and the State. The percentage of Muslims in the State is less than the Country, while the percentage of Christians in the country is more than the State average (i.e,1.8%) and district average (i.e., 0.51%). Buddhists, Sikhs and Jains formed less than 1% both in the State and district, whereas Sikhs recorded 2% in the Country and their population in the State is 0.03 and in the district is negligible.

Inset Table to Annexure IV (b)

Percentage distribution of population by major religions in India, Andhra Pradesh and Mahbubnagar district and its growth rate during 1991-2001

Sl. No.	Name of Religion	India		Andhra Pradesh		Mahbubnagar District	
		Percentage of Population	Percentage growth rate 1991-2001	Percentage of Population	Percentage growth rate 1991-2001	Percentage of Population	Percentage growth rate 1991-2001

7	Others	0.6	103.1	-	86.0	-	1,100.0

Source: Religion Data, Andhra Pradesh - 2001

This table gives the comparative data on religions among India, Andhra Pradesh and Mahbubnagar district between 1991 and 2001 census, whereas the previous Annexure furnish the comparative data on religion during 1981 and 1991. At India level among the total population returned in the 2001 census Hindus constituted 80.5% as against 82.4% in 1991. The percentage growth rate of Hindus during the decade 1991-2001 has recorded 20.3 whereas the corresponding growth rate during 1981 and 1991 was 22.3%. It clearly shows that growth rate in Hindu population is diminishing which can be attributed that the people of this religion is more conscious about family planning methods. In Andhra Pradesh the percentage of Hindus has recorded 89.0 whereas the corresponding figure during 1991 was 89.1%. However the percentage growth rate of Hindus has fallen to 14.4 from the percentage growth rate of 24.7 as recorded during the decade 1981-1991. In Mahbubnagar district though the percentage of population of Hindus recorded 90.9 as against 90.8 in 1991 their growth rate in 1991-2001 has fallen to 14.3% as against the growth rate of 26.7 % in 1981-1991.

In respect of Muslims, their percentage to total population has recorded 13.4 at India level as against 11.7% in 1991. In Andhra Pradesh their percentage has gone up to 9.2% from 8.9% in 1991. In respect of Mahbubnagar district, Muslims constituted 8.5% of total population during 2001, whereas the corresponding figure recorded in 1991 was 8.7. However in this district the growth rate in the decade 1991-2001 has declined to 11.5% as against the growth rate of 22.2% recorded in 1981-1991.

The other main religion going by numerical strength is Christians. They constituted 2.3% of total population at India level during 2001census. Their growth rate during the decade 1991-2001 is 22.6% at India level as against the growth rate of 16.9% recorded in 1981-91. In Andhra Pradesh their percentage growth rate continues to show the negative trend. The percentage growth rate of this community recorded during 1991-2001 is (-) 2.8 as against (-) 15.1 recorded during decade 1981-1991. In Mahbubnagar district during 2001 and 1991 also Christians constituted 0.5% to total population as against 6.1 % in 1991. The percentage growth rate of this community during 1991-2001 has recorded 19.8% as against (-) 25.5% in 1981-1991. In respect of other main communities their growth rate is negligible.

Annexure IV (c)

Distribution between Rural and Urban areas of Major religions in Andhra Pradesh and Mahbubnagar district - 1991

Sl. No.	Name of Religion	Andhra Pradesh (in %)		Mahbubnagar District (in %)	
		Rural	Urban	Rural	Urban
1	Hindus	76.55	23.45	91.26	8.74
2	Muslims	41.83	58.17	64.80	35.20
3	Christians	60.48	39.52	74.18	25.82
4	Jains	4.11	95.89	--	9 persons
5	Buddhists	80.41	19.59	1 person	--
6	Sikhs	10.85	89.15	29.41	70.59

Rural - Urban differentials :

In Andhra Pradesh and Mahbubnagar district, it is seen that Hindus form considerably higher in rural areas i.e., 76.55% and 91.26% respectively. Similarly Christians form higher percentage in rural areas than urban both in the State and district. But Muslims form higher percentage in the urban areas of the State, while it is vise-versa in case of the district. The Sikhs are more in urban areas than rural areas both in the State and district. Only 9 Jains in urban areas and one Buddhist in rural areas were living in the district.

Inset table to Annexure IV (c)

Distribution between Rural and Urban areas of Major religions in Andhra Pradesh and Mahbubnagar district - 2001

Sl. No.	Name of Religion	Andhra Pradesh (in %)		Mahbubnagar District (in %)	
		Rural	Urban	Rural	Urban
1	Hindus	76.3	23.7	91.7	8.3
2	Muslims	41.9	58.1	65.6	34.4
3	Christians	55.0	45.0	73.0	27.0
4	Jains	5.0	95.0	85.0	15.0
5	Buddhists	66.0	34.0	81.0	19.0
6	Sikhs	17.0	83.0	78.0	22.0

Source: Religion Data, Andhra Pradesh - 2001

The above table indicates the distribution of major religions between rural and urban in Andhra Pradesh and Mahbubnagar district during 2001 census whereas the previous Annexure has given details recorded in 1991 census. The above Annexure and inset table to Annexure show that the distribution of religions between rural and urban at state level as well as at district level. All religions of this district, majority of the people are concentrated in rural areas in 2001 Census. But in 1991 only Hindus, Muslims and Christians were more in rural areas.

The position of the religions at the state level, the concentration is one and the same in both the censuses.In 2001 census 55.0% Christians lived in rural areas as against 60.5% in 1991 at state level. The concentration of Jains and Sikhs is more in urban areas than rural areas both at state level and district during 1991 but in 2001 the said religions are concentrated in rural only. It is interesting to note that Buddhists lived more in rural areas than in urban areas both at state and district level during 91 and 2001 censuses.

Annexure V
Marital status of population as per 1991 Census and 2001 Census

Marital status has been classified as (i) Never Married, (ii) Married, (iii) Widowed and (iv) Divorced or Separated. To ascertain the marital status of a person, it has been made in the following manner.

(i) A person who has never married at any time before, treated him/her as never married

(ii) A person who has been married, whether for the First or another or at any time and whose marriage is subsisting at the time of Enumeration with the spouse living treated such a person as married

(iii) A person whose husband/wife is dead and who has not been married again, treated her/him as widowed

(iv) A person who has been separated from wife or husband and is living apart with no apparent intention of living together again or who has been divorced either by decree of a law of court or by an accepted social or religious custom but who has not remarried, treated such a person as Divorced/Separated.

The following statement shows the Age, Sex and Marital Status composition of the population separately for Total, Rural and Urban in Mahbubnagar district.

Of the total population 30,77,050, there were 14,92,243 persons constituting 48.50% were Never married, 14,25,837 persons constituting 46.34% were married and Widowed were 1,48,740 constituting 4.83%, Negligible percentage i.e. 0.33% (10120 persons) were under Divorced/Separated category. Sex-wise breakup shows that 53.72% Males population and 43.13% of Females were Never Married. Similarly 46.34% of Male population and 47.92% of Female Population were married. Widowed percentage of Females was more than Male i.e.) 1.30% males and 8.46% females. However percentage of Divorced/Separated among both the sexes to the respective total population was under 1% Never married persons were found even after 44 years, forming below 1% to total Never married persons. Married persons were found under age group of 10-14 in both the sexes as 0.39% and 1.79% and in 15-19 age groups as 1.91% and 10.70% respectively which shows that child marriages are still in vogue(practice). About 17% persons were widowed in the age group of 15-44 age group. It is very grief to note that there were 50(0.40%) Females in the age group of 10-14, 30(0.15%) Males and 450(0.35%) Females in the age group of 15-19 years who were widowed. Similarly Divorced/Separated were found in the age group of 10-14 years among Males and Females as 0.74% and 2.42% respectively.

Source: Socio-cultural Tables (C-Series) - 2001

The above inset table gives the details by age, sex and marital status composition of the population separately for total, rural and urban areas of the district during 2001 census, whereas the previous Annexure shows the above details for 1991 census. In 1991 while furnishing age group-wise marital status data, a separate age group 15-44 where the marital status was high has been shown. In 2001 census keeping in view of persons aged less than 18 years and persons aged less than 21 years, being high concentration of marital status, has been furnished. In the district population of 3,513,934 persons, 954,446 (27.2%) males and 730,262 (21.0%) females were recorded as never married. In the total district population, 800,456 (23.0%) males and 837,467 (24.0%) females were found married during 2001 census. It is pity to note that as against 152,628 widows 24,707 widowers were found in the district during 2001 census. The reason for high percentage of widows can be attributed to aged males marrying younger females. As against total population of 1,468,262 persons in the age group less than 18 years, 52.0% males and 46.1% females were found never married in 2001 census. In respect of married persons under the age group less than 18 years, only 0.2% males and 1.8% females were recorded in 2001 census which means public are more conscious about Marriage Act and also ill-fate of early marriages. Similar trend is noticed both at rural and urban areas even for age group less than 21 years. There is no much variation in the figures of marital status of the district between 1991 and 2001 censuses.

Annexure VI
Age , sex and Education in the district as per 1991 Census and 2001 Census

The education table was worked-out on the basis of literates in the district.

Definition of literate: A person who can both read and write with understanding in any language is to be considered as literate. If a person who can merely read but cannot write is not a literate. It is not necessary that a person who is literate should have received any formal education or should have passed any minimum educational standard. All the children in the age of 6 years or less have been treated as illiterate even if the child is going to school and may have picked up reading and writing.

The following table gives age, sex and education in the district at 1991 Census:

Annexure VI

Age, Sex and Education in the district as per - 1991 Census

75-79	11,990	6,110	5,880	1,230	1,060	170	10	17	3
80+	18,650	8,120	10,530	1,880	1,540	340	10	19	3
Age not stated	12,890	7,640	5,250	12,240	7,330	4,910	95	96	94

It is seen from the above statement that among the total population of the district, 29.6% were literates. Of the total males, literates were 40.8% and females were 18.0% to total females. The highest literates i.e. 59.23% were found among 11 years age population, while least i.e. 9.26% literates were recorded in the age group 70-74 years. Literacy among females was poor when compared with males in all the age groups.

Inset table to Annexure VI

Source: Socio-cultural Tables (C-Series) - 2001

The Annexure presented in the pre-page gives the details of Age, Sex and Education in the district for 1991 census whereas the above inset table reveals the data for 2001 Census. As was done in the previous Census, the children in the Age group 0-6 have been treated as illiterates even in 2001 census. It is seen from the above table that the district has recorded 44.4% literates in 2001 as against 29.6% literates in 1991. In the district the literacy rate for males has recorded 56.6% as against 31.9% in females during 2001 Census. From the above inset table it is noticed that in the school going age groups i.e 7 to 14 years, their literacy rate recorded between 54.2% and 67.0%. In all the age groups male literates are dominating females. The highest educated are found in the age group 11 years with 75.4% and their sex-wise breakup recorded 84.4% in males and 65.5% in females. It is a good trend that the essentiality of the education is felt much by the general public.

Annexure VII
Distribution of different mother tongues returned in 1991 Census at District/ Mandal level and the data at District level for 2001 Census

Mother Tongue :

Mother tongue is the language spoken in the childhood by a persons mother to the person. If mother dies in infancy of the child, the language mainly spoken in the person's home in childhood will be treated as mother tongue. In the case of infants and deaf-mutes the language usually spoken by the mother will be the mother tongue. A very large number of mother tongues have been returned during 1991 Census. It lead to thorough scrutiny and rationalisation, which resulted in 1576 rationalised mother tongues and 1796 names were treated as unclassified or "others". The 1576 rationalised mother tongues were further classified following the usual linguistic methods for rational grouping based on available linguistic information. Thus a total inventory of classified mother tongues returned by 10,000 or more speakers at the all India level were grouped under appropriate languages, where ever possible, was prepared for final presentation of the 1991 Census data. The total number of languages so arrived at is 114. Of which 18 languages are included in the Eighth Schedule to the constitution of India(Scheduled languages).

The Annexure - VII(a) shows the detailed information on Mother Tongue Mandal wise, Male-Female break-up in the Mahbubnagar district.

The compilation of Mother Tongue has been done for all the 23 districts in the State during 1991 Census. Telugu Mother Tongue has occupied 1st place with 84.1% followed by Urdu 8.5% and Lambadi with 5.5% occupied 2nd and 3rd places respectively. The differential rate between. Telugu and other two Languages is too wide as Telugu is Regional Language and mother tongue of many in the State.

In all 64 Mandals, the above said three Mother Tongues have been returned except in Kosgi, Mahbubnagar, Nagarkurnool, Maldakal, Aiza and Alampur mandals, where Lambadi has not been registered in the above Six mandals at 1991 Census, while it occupied 2nd Rank in Bommaraspeta, Doultabad, Maddur, Koilkonda, Hanwada, Nawabpet, Balanagar, Kothur, Kesampeta, Talakondapalle, Madgul, Vangoor, Veldanda,Thimmajipeta,Bijinepalle, Uppunuthala, Achampeta, Lingal, Kodair, Gopalpeta and Pangal mandals. Kannada and Marathi regional languages of adjoining State of Karnataka and Maharashtra respectively also were returned as 2nd or 3rd place in some of the mandals. Kannada was registered as 2nd place in Magnoor Mandal and 3rd place in Waddepalle, Aiza and Maldakal Mandals. The Marathi was registered as 3rd place in Gadwal Mandal.

The above inset table shows the language data recorded in the district during 2001 census while the previous Annexure-VII(a) gives the details of languages returned in 1991 census at district/mandal level. During 1991 the language data was presented in alphabetical order while in 2001 the data has been presented basing on their numerical strength in descending order. The district has recorded 34 languages in 2001 census besides showing the total of other mother tongues at Sl.No. 8 of the above statement.

Annexure VII (b)

Abstract of Languages as Mother tongues and their strength in Mahbubnagar district-1991

Part A : Languages specified in the Eighth Schedule to the Constitution.

	i. Others	1,153	
	Total	**1,210**	
	Grand Total (part A&B)	**3,077,050**	

It is seen from the above shown in Annexure-VII(b) that as many as 21 languages have been returned in Mahbubnagar district. Out of which 15 are Scheduled languages and 6 are non-scheduled languages. Though there are 21 languages spoken in the district, Telugu speaking people were in majority with 84.09% to total population in 1991 Census, followed by Urdu speaking people with 8.49%. The third place was occupied by the people, whose mother

tongue was Hindi(5.81%). Karnataka being a neighbouring State, Kannada speaking people were reported as 1.02%. The remaining 16 languages formed below one percent.

	Grand Total	**3,513,934**	**-**

N= Negligible

The above inset table gives the abstract of the languages as mother tongues and their strength in the district recorded in 2001 Census whereas the previous annexure shows the details for 1991 census. In 1991 the data was presented in alphabetical order whereas in 2001 the mother tongue data has been presented basing on their numerical strength in descending order. The mother tongues having minor returns have been clubbed together and added in the category of 'Others'. Telugu being the region's language has recorded 82.7% to total population in the district with a slight decline in the percentage recorded in 1991 (84.09). The next highest language being spoken is Urdu with 8.3% to total population of the district whereas in 1991 the percentage of Urdu speaking people recorded 8.5. In respect of other scheduled languages it is noticed that their strength is negligible both in 1991 and 2001. In the district almost all the scheduled languages (except Manipuri and Assamese) returned.
