VILLAGE & TOWN DIRECTORY

VILLAGE AND TOWNWISE PRIMARY CENSUS ABSTRACT

लोकाभिमुख
PEOPLE ORIENTED

Director of Census Operations, ANDHRA PRADESH

Foreword

The District Census Handbook (DCHB) published by Census Organisation since 1951 census, is one of the important publications in the context of planning and development at gross-root level. The publication, which is brought out for each district, contains several demographic and socio-economic characteristics village-wise and town-wise of the district along with the status of availability of civic amenities, infrastructural facilities, etc.

2. The scope of the DCHB was initially confined to a few Census Tables and Primary Census Abstract (PCA) of each village and town within the district. Thereafter, at successive censuses, its scope and coverage has been enlarged. The DCHB published at the 1961 census provided a descriptive account of the district, administrative statistics, census tables and a village and town directory including PCA. The 1971 census-DCHB series was in three parts: Part-A related to village and town directory, Part-B to village and town PCA and Part-C comprised analytical report, administrative statistics, district census tables and certain analytical tables based on PCA and amenity data in respect of villages. The 1981 census DCHB was in two parts: Part-A contained village and town directory and Part-B the PCA of village and town including the SCs and STs PCA up to tahsil/ town levels. New features alongwith restructuring of the formats of village and town directory were added into it In Village Directory, all amenities except electricity were brought together and if any amenity was not available in the referent village, the distance in broad ranges from the nearest place having such an amenity, was given. Information on new items such as adult literacy centres, primary health sub-centres and community health workers in the village were provided so as to meet the requirements of some of the Revised Minimum Needs Programme. Information on approach to the village was provided for the first time in the Village Directory so as to give the details on number of inaccessible villages in each district. In the Town Directory, a statement (IV-A) on slums was introduced to provide the details on civic and other amenities in the notified slums of Class I and Class II towns.

3. The 1991 census DCHB, by and large, followed the pattern of presentation of 1981 census, except the format of PCA was restructured. Nine-fold industrial classification of main workers was given against the four-fold industrial classification presented in the 1981 census. In addition, sex-wise population in 0-6 age group was included in the PCA for the first time with a view to enable the data users to compile more realistic literacy rate as all children below 7 years of age had been treated as illiterate at the time of 1991 census. One of the important innovations in the 1991 census was the Community Development Block (CD block) level presentation of village directory and PCA data instead of the traditional tahsil/taluk/PS level presentation. It was expected that the presentation of village directory and PCA data at CD block level will help the planners in formulation of micro level development plans, CD block being lowest administrative unit.

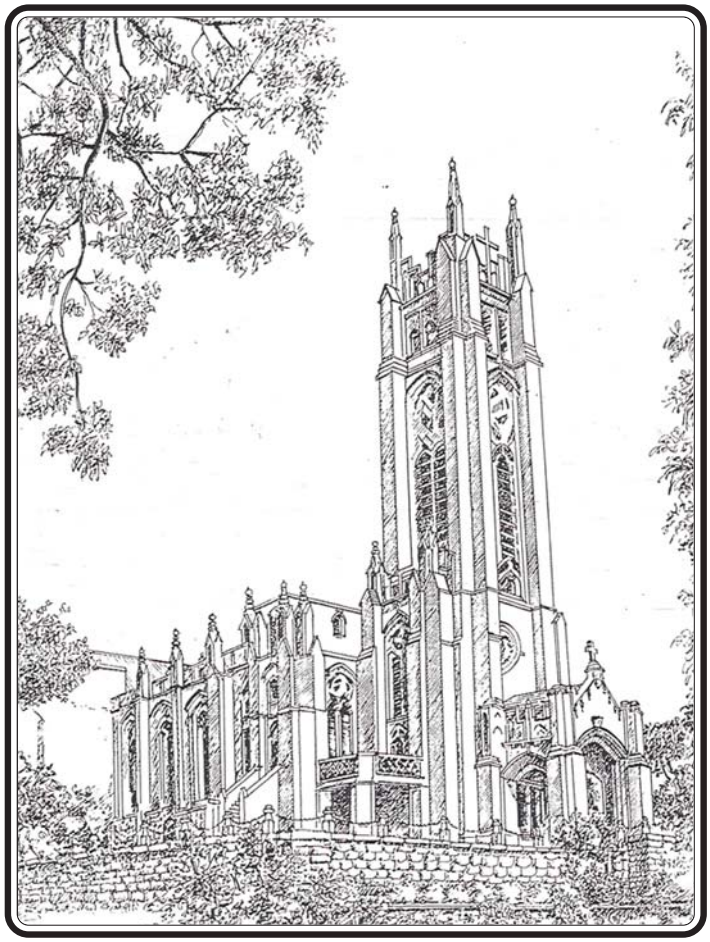

4. The present series of 2001 census DCHBs have been made more informative and exhaustive in terms of coverage and content. The Village Directory has been enlarged in scope by including a number of other facilities like banking, recreational and cultural facilities, newspapers and magazines and ‘most important commodity’ manufactured in village. Income and expenditure of gram panchayat, wherever possible, has been provided. Apart from these, more details on distance(s) at which basic amenities are available (if not available in the village), are given. This includes educational facilities (namely primary and middle schools and college), medical facilities (viz. Allopathic Hospital, Maternity & Child Welfare Centre and Primary Health Centre), drinking water, post & telegraph (post office and phone), communication, bank, credit societies and recreational

facilities. In Town Directory, the statement on Slums has been modified and its coverage enlarged by including details on all slums instead of 'notified slums'. The information is given in case of all statutory towns irrespective of their class, against only Class I and Class II towns in the 1981 and 1991 censuses. The basic amenities available in the villages and towns are analysed in depth with the help of a number of cross-classified inset tables and statements. Two other significant additions in the publication are inclusion of 'motif' highlighting significant characteristic of the district and analytical notes as annexures. The analytical notes on (i) fertility and mortality and (ii) various measures of fertility and mean age at marriage are prepared based on 1991 Census. Whereas, in the notes relating to (i) percentage distribution of migrants by place of birth/place of last residence, (ii) main religions, (iii) marital status of population, (iv) age, sex and education, and (v) distribution of spectrum of mother tongue, nature and extent of changes occurred in the district in its basic socio-demographic features during the decade 1991-2001 are analysed. The eight digits permanent location code (PLCN) to all the villages and towns have been assigned keeping in view the future needs.

5. The village and town level amenity data have been collected, compiled and computerized in prescribed record structure under the supervision of Shri. V.S. Bhaskar, IAS., Director of Census Operations, Andhra Pradesh. Thereafter, efforts have been made to ensure comparability of the information with that of 1991 census data and the information brought out by the respective state governments in their annual reports and statistical handbooks for various years after 1991. The task of planning, designing and coordination of this publication was carried out by Shri R.G. Mitra, Deputy Registrar General (C&T) and Dr. I.C. Agrawal, Senior Research Officer of Social Studies Division. Dr. R.P. Singh, Deputy Registrar General (Map) provided the technical guidance in the preparation of maps. Whereas, Shri Anil Kumar Arora, Deputy Director of Data Processing Division who worked under the overall supervision of Shri Himakar, Addl. Director (EDP) helped in preparation of record structure for computerization of village and town directory data and the programme for the generation of Village Directory and Town Directory statements including analytical inset tables. The draft DCHB manuscripts received from the Census Directorates have been scrutinized in the Social Studies Division under the guidance of Shri S.L. Jain, Deputy Director and Shri R.K. Mehta, Assistant Director. I am thankful to all of them and others who have contributed to make this publication possible.

D.K.Sikri
Registrar General &
Census Commissioner, India.

The Medak Church

The "Medak Church" has been selected as Motif for Medak Handbook. This Church is said to be the largest diocese in Asia. Credit goes to the reverend Charles Walker Posnett a Christian Missionary who served this beautiful Cathedral for about 43 years. Moved by the plight of the people due to famine that lasted for three years during World war-I, he proposed this great church during the year 1914 and opened the same for worship on 25.12.1924. This gothic cathedral is of 170 ft. height and accommodates 5,000 people.

The stained glass work on three huge windows of the church are worth having a view anytime of the day. No artificial light can provide the same back light effect. These glasses were imported from England and serves as a picture book of the Bible. The first window known as 'Ascension Window' with central figure as Ascending Lord Jesus Christ was installed in 1927. The second window installed in the year 1947 is known as 'Nativity Window' with Persona Grata the Virgin Mary, the mother of Jesus who is seen bending in her characteristic humility and modesty with deep devotion over the cradle in which baby Jesus kept. This window is therefore aptly dedicated to the 'Honour and Glory of Womanhood'. The last window was installed during the year 1958 and known as 'The Crucifixion Window' having the central figure as crucified Lord Jesus. This last window was brought to India with great difficulty from England by the intervention of the then Indian High Commissioner in Great Britain, Smt. Vijayalakshmi Pandit.

Thus stands the Cathedral to the glory of Lord Jesus Christ attracting numerous visitors of all nations.

Medak is at a distance of 120 Kms. from Hyderabad.

Preface

The District Census Hand Book (DCHB) containing Primary Census Abstract and data on "amenities" for each village and town in the district. The intention of this publication is to place the data collected at the Census alongwith the village and town level amenities data collected from the Mandal Revenue Officers/ Municipal officials in this publication. The amenities data is validated by comparing with secondary data obtained from Heads of the Departments. For example, information on schools was compared with data available with Commissioner, School Education and information on post offices was compared with data obtained from the Chief Post Master General and so on. Validation of data in the above manner was by no means an easy exercise. Scores of officials had put in gruelling efforts for months together. The entire data and manuscripts were computerized. We are now reasonably confident of the correctness of the data but we will not make any utopian claims of cent per cent accuracy. There may be errors but we will be safe in saying that they are minimal.

The District Census Hand Book is divided into the following major components.

1. Introduction.
2. Brief history of the district.
3. Census and non-Census concepts.
4. A detailed write up on the physical features, major cultural and social events, major developments during the decade, places of religious and historic importance etc.
5. Primary Census Abstract (PCA) at the district level, mandal/town level and village level.
6. Brief analysis of PCA data.
7. Village Directory and Town Directory.
8. Brief analysis on Village Directory and Town Directories.

It will not be out of place to mention here that there is perhaps no other publication from any agency that encapsulates so much data on a district. The amenities data includes information on sectors such as Education, Health, Water and Electricity supply, Communication and Transport facilities etc. The idea of presenting amenities data juxtaposed to the Census data is not only unique but also tremendously useful for the data users.

The District Census Hand Book is further enriched with a district map and mandal maps depicting villages/towns with population size and also amenities such as Educational Institutions, Hospitals, Telegraph and Telephone facilities, Banks, Police Station etc.

Some improvement over earlier DCHB have been made to bring more completeness to the data presented in this volume.

1. The names of Colleges, Girls' High Schools, Hospitals run by Government and others have been given as an additional information. Similarly the names of Cinema Halls have been given.
2. Ranking of Mandals according to population is also given.

3. More Appendices and Annexures to important statements are given to make the data more comprehensive.

In the previous Censuses, the manuscripts prepared by this department were supplied to Government of Andhra Pradesh who in turn brought out the publications at their cost. However due to the procedural rigmorale some delay was unavoidable in placing the DCHBs before the data users and planners.

This time, keeping in view the above difficulties, the printing and publication of District Census Hand Books has been taken up centrally under the arrangement of the office of the Registrar General and Census Commissioner, India, New Delhi. The processing of data and preparation of Camera Ready Copies electronically including finalisation of write up was attended to in the office of the Director of Census Operations.

I am grateful to the Chief Secretaries, Principal Secretaries, Secretaries, District Collectors, Municipal Commissioners and other senior officials of the Government of Andhra Pradesh for their co-operation and assistance throughout the Census Operations and in the process of collection of the non-Censal data.

I am extremely grateful to Sri D.K.Sikri, IAS, Registrar General and Census Commissioner, India for the help, guidance and constant support in finalising this volume. My sincere thanks to Sri R.P. Singh, Deputy Registrar General (Map) and Dr.I.C. Agrawal, Assistant Registrar General (SS). Sri. S.L. Jain, Deputy Director for giving guidence, help and co-ordinating this project work and their colleagues in the office of the Registrar General, India.

I also take this opportunity to acknowledge the valuable contribution made for this publication by Sri.J.K.Banthia, Ex-Registrar General, India.

Most of the work relating to DCHB has been carried out under the able guidance and direction of Sri V.S.Bhaskar, IAS, Director of Census Operations, Andhra Pradesh, Hyderabad. I take this opportunity to acknowledge his valuable contribution made for this publication.

The credit for preparation of District Census Handbooks goes to a team of devoted officers and staff of this Directorate who have involved in this project. The names of individuals associated with this project are shown in “Acknowledgements”. I am grateful to all of them.

I hope that the data users will find this publication very useful.

District Highlights – 2001 Census

1. Medak District stands 16th in terms of area size and ranks 16th in terms of population in the state.
2. Medak district stands 21st rank in terms of urbanisation with a total Urban population 383,524forming 14.4 percentage to the total district population.
3. The sex ratio of the district is 974 against 970 in 1991 Census showing upward trend.
4. The density of the district is 275 against 234 in 1991 Census, showing increase.
5. Siddipet(R) village, PLC No. 00403600 is most populated with a population of 25,190 and Yawapur village, PLC No. 00488100 is the least populated with a population of 3 in the district.
6. Siddipet mandal is most populated with a population of 152,365 and Regode Mandal is the least populated with a population of 33,056 in the district.
7. Siddipet Municipality is most populated with a population of 61,809and Sadasivpet Municipality is the least populated with a population of 36,334 in the district.
8. Out of 100 workers 67.70 are engaged in Agriculture sector, 4.38 in Household industry and 27.91 in other economic activities. Thus showing the predominance Agriculture Sector.
9. Out of 100 Male workers in the district 61.12 are engaged in Agriculture sector.
10. Out of 100 Female workers in the district 76.78 are engaged in Agriculture sector.
11. There is decrease in the proportion of main workers of the district in the decade (46.32 percent in 1991 to 39.70 percent in 2001).
12. There is decrease in the proportion of Male main workers of the district in the decade (54.74 percent in 1991 to 48.6 percent in 2001).
13. There is decrease in the proportion of Female main workers of the district in the decade (37.64 percent in 1991 to 30.6 percent in 2001).
14. The Medak district is famous for Location of a church, which is known to be one of finest and noblest christian shrines of India.
15. Ramachandrapuram Mandal has the lowest number of inhabited villages(5) and the highest number of inhabited villages (45) are found in Manoor Mandal .
16. Medak mandal has largest area 8931.94 hectares under irrigation, followed by Chinnakodur mandal with 8766.43 hectares in the district. The mandal with lowest area 389.60 hectares under irrigation is Munpalle Mandal.
17. Mogadampalle village bearing PLC No.00440300 has the largest area (4242 hectares) and Tunki Makta village bearing PLC No.00472800 has the smallest area (22 hectares) among the villages of the district.
18. Female work participation rate is 41.4 and that of the Males in the district is 55.34

(i) About the District Census Handbook

District manuals compiled and published prior to 1905 by the erstwhile composite Madras Government contained not only particulars of items of more or less similar and permanent characteristics like history, religion and ethnography, but also a few statistical tables including those relating to population which became obsolete within a few years of publication. Later, the Madras Government replaced the District Manuals by another publication viz., the District Gazetteer consisting of two Volumes A and B. Volume-A contained descriptive and general tables which explains the text and Volume-B contained detailed statistics. It was decided that Volume B should be brought out periodically after each decennial census so that they contain the latest statistics. Volume-A was published for some districts between 1905 and 1927 in the Composite Madras State. The publication of Volume-A was discontinued in 1927. Volume-B was published for all the districts of the Composite Madras State between 1906 and 1915. The publication of Volume-B was also stopped after 1931 Census.

Similarly the Gazetteer volumes were also brought for some of the districts in the erstwhile Hyderabad State. The scheme of publication of revised District Gazetteers was restarted in the year 1958 by the State Governments. The State Editor, District Gazetteers, Government of Andhra Pradesh had published the Gazetteers of all the districts.

The District Census Handbook series was initiated during the 1951 Census. The idea of compiling the District Census Handbooks was pioneered by Sri R.A. Gopala Swamy, I.C.S. the then Registrar General, India and Ex-officio Census Commissioner of India, with a view to preserve the census records prepared for areas below the district level. He proposed that all the District Census Tables and Census Abstracts prepared during the process of sorting and compilation, should be bound together in a single manuscript volume and named as the District Census Handbook and suggested that the State Government should take up printing and publication at their own cost. Then onwards, the District Census Handbooks were published in each census with improved pattern with an aim to give the census and non-census data at micro level for the village and district as a whole to suit the requirements of various departments, scholars, research personnel, planners, industrialists, electoral authorities, and other data users, also for efficient public administration by the state.

Pattern at 2001 Census :

The present District Census Handbook of 2001 Census, like the previous Census, is brought out for each district comprising of two Parts. Part- A Village and Town Directory with additional information on amenities viz., availability of commercial banks, recreation, credit societies etc., and land use particulars in the rural areas and Part- B Primary Census Abstract. At the out set an analytical note is given which depicts a general back ground on the district and analytical results on the statements and tables included in the volume. The volume is also provided with brief history of the district, physical aspects, census concepts, non-census concepts, major characteristics with reference to economic resources and administrative set-up during the past decade with few appendixes etc..

Part A–Village and Town Directory :

The Section- I i.e. Village Directory gives non-census data on the amenities available in each village in respect of educational, medical, drinking water, power supply, post and telegraph, telephone, approach to village, banks, credit societies, receipt of newspapers and magazines, recreation and cultural facilities, nearest town and its distance, distribution of land use area, income and expenditure of the village and name of the most important commodities manufactured.

If an amenity is not available in the referred village, the distance in broad ranges (Kms.) from the nearest place where the amenity is available is indicated. If the nearest place is situated in another state, name of the other state is also given.

The Section-II i.e. Town Directory has been presented in seven Statements viz., Statement – I Status and Growth History, Statement-II Physical aspects and Location of towns, Statement-III Municipal Finance (receipts and expenditure,1998-99), Statement-IV Civic and other amenities, Statement-V Medical, Educational, Recreational and Cultural facilities, Statement-VI Trade, Commerce, Industry and Banking etc., Statement-VII Civic and other amenities in slums and an appendix showing towns with out growths and their population. The reference period for the above statements is 1998-99 and the data is covered for all the statutorily notified towns in the district.

The non-census data at Village/Town level is collected from concerned authorities viz., Mandal Revenue Officers, Municipal Commissioners etc., and scrutinized with meticulous care and validated with the data collected from various departments to provide valid information to the data users.

Part B–Primary Census Abstract :

This data can be stated as the essence of the handbook. The latest census details such as area, total households, population, scheduled castes and scheduled tribes population, literates, workers, etc., are presented in these Abstracts.

(ii) History and Administrative Set-up of the District

(i) Brief History of the District :

A complete picture of the History of the district was presented in 1961 Medak District Census Handbook. In the present volume a very sketchy picture of the district is presented avoiding, however, information of transitory nature.

The district derived its name from Medak, the then headquarters town of taluk of the same name. Medak was originally known as Methukudurgam which subsequently changed into Methuku due to the growth of fine and coarse rice in this area. Medak district became part of the Kakatiya Kingdom to the Bahmani Kingdom and later the Golconda Kingdom. Finally on the fall of the Qutubshahi dynasty it was annexed to the Mughal Empire. During the formation of Hyderabad State by Asif Jahi, this district was detached and included in the Nizam's Dominions. It finally became a part of Andhra Pradesh with effect from 1st November, 1956 under the scheme of Re-organisation of States.

The early history of Medak district is not very clear. Its political history, however, commences with the advent of the Mouryas who extended their sway to the south during the reign of Asoka.

After the Mouryas, the Satavahanas gained prominence over the Deccan of which, Medak district formed a part. Several coins of the Satavahana rulers like Goutamiputra Satakarni, Vasishtiputra Pulumavi, Siv Sri, Yagna Sri Satakarni, etc., were unearthed during excavations at Kondapur village of Medak district. These archeological discoveries indicate the existence of a buried city of vast dimensions with a number of Chaityas, Viharas, Stupas and Monasteries.

After the Satavahanas, the district passed under the sway of the Mahisha dynasty. Though as many as eighteen rulers ruled this district for a period of 383 years, only two rulers Mana and Yasa proved to be powerful. Mana broke the domination of the Satavahanas, assumed the title of 'Rajan' and reigned the kingdom to its splendour. He enjoyed the previlege of striking his own coins. One of his lead coins exhibited the characteristics of the coins belonging to the close of 2nd or beginning of the 3rd century. The rule of this dynasty came to an end with the rise of Chalukyas of Badami, who later on lost to the Rashtrakutas. After the Rashtrakutas, Medak District passed into the hands of Western Chalukyas of Kalyani dynasty, whose rule lasted from 973 to 1200 A.D. Famous rulers like Ahavamalla Taila-II, Somesvara-I, Somesvara-II, Vikramaditya-VI and Trailokyamalla Taila-III belonged to this dynasty. The inscription of Koraprolu pertaining to the rule of Taila-II, throws light on his feudatory. Mahamandaleswara Soma Permadi's rule in this district. The inscriptions at Kohir, Chintalaghat, Alladurgam and Patancheru belonging to Somesvara-II and Vikramaditya-VI register gifts to Jinalayas by their subordinates.

The next dynasty which held sway over this district was the Kakatiya dynasty which included well known rulers like Prola-II, Ganapati, Rudramba and Prataparudra.

During the reign of Muhammad-I, the son of Alla-ud-din Bahman Shah, the Recherla Chief Anapota Nayaka of Rachakonda defeated and killed Kapaya Nayaka and captured Warangal which included a major portion of Medak district. On account of the cordial relations between the Bahmanis and the Recherlas, Muhammad-I did not invade Warangal. Feroz Shah ascended the Bahmani throne and attempted to extend his sway to the east coast at the expense of the Recherlas. This provoked the Recherlas and a war broke out between Feroz Shah and Anapota-II. Anapota-II attacked the Bahmani possessions in telangana and acquired Medak. But the Recherlas were ultimately overthrown and their territory was annexed to the Bahmani Kingdom. Medak continued to be under the Bahmani's till the break up of their kingdom into five States namely,

Bijapur, Ahmadnagar, Berar, Bidar and Golconda. After the fall of Bahmani dynasty, the Barid Shahi dynasty came into power.

Amir Barid, who assumed sole charge of the affairs of the Bahmani kingdom, after the fall of Bahmani dynasty, had many vicissitudes and constant wars with the rulers of Bijapur and Berar. After his death in 1538, he was succeeded by his son Ali Barid, who was the first to assume the title of `Shah'. Ali Barid, with the support of other Deccan Kings attacked the King of Vijayanagar in the famous battle of Tallikota, in which, the Vijayanagar ruler was defeated. Ali Barid died in 1582. Prola-II with his military skill, made the feudal fief he inherited, into a sovereign state which emerged into a powerful empire, embracing the whole of the Telugu speaking territory. During the reign of Prataparudra, the army led by Malik Kafur under the command of Ala-ud-din Khilji, while on its way to Warangal, captured this district. These invasions, however, ended with the overthrow of Prataparudra and the annexation of his Kingdom to the Delhi Sultanate.

After the fall of the Kakatiya empire, Muhammadbin-Tuglaq, the Sultan of Delhi, divided the Deccan and South India into five provinces and appointed Governors to administer them. Shihab-i-Sultani, entitled Nuzrat Khan was thus appointed Governor of Telangana, which included Medak District. Rebellions cropped up everywhere following imposition of tribute which gave rise to the Bahmani dynasty. Many such revolts jolted Tughlaq's rule. These revolts led to the establishment of independent principalities by the Musunuri Chiefs of Warangal and Recharlas of Rachakonda (Nalgonda District).

An important event relevant to this district was the rebellion of Qir-Khan, a subordinate of Ala-ud-din Bahman Shah. The Sultan despatched a vast army to curtail this revolt. Qir-Khan who was then at Kohir of this district, was confident of victory. However, his army was routed by the royal forces under Sikander Khan. Qir Khan was arrested and later executed and he was succeeded by three other kings after which, Qutub Shahi dyansty came into power. Sultan Kuli, a Turk of noble family, who was the Governor of the Golconda province under the Bahmanis took advantage of the distracted state of the kingdom under Muhammad Shah of Barid Shahi Dyansty and declared his independence, establishing the Qutub Shahi dynasty which reigned from 1512 to 1687A.D. Thereafter this Kingdom was annexed to the Mughal empire, by Aurangazeb.

During Aurangazeb's reign, the Marathas became very active, which proved to be a threat to Aurangazeb. Therefore, he sent troops to establish his supremacy over Medak.

Later, the Marathas organised a rebellion to overthrow Nizam-ul-Mulk, the Viceroy of the deccan. Nizam-ul-Mulk sent his body guard under the command of his elder son Ghaziu-d-Din Khan with Muhammad Ghiyas Khan and Mirza Beg Khan Bakshi as his guardians. This shook the Marathas, who fled and hid themselves in the dense forests of the tract. This Victory was celebrated by Nizam-ul-Mulk in a grand manner.

In A.D. 1715, Nizam-ul-Mulk was replaced by Husain Ali Khan, as the Viceroy of the Deccan. Nizam-ul-Mulk, who was unceremoniously removed, however, nurtured the desire of reoccupying the Deccan. Therefore in A.D 1720 , he proceeded against the Deccan and in a fierce battle that ensured near Balapur in Berar, Alam Ali Khan, the Deputy of Husain Ali Khan was killed. This victory established the supremacy of Nizam-ul-Mulk in the whole of the Deccan. Again in 1724 A.D. Nizam-ul-Mulk had to fight a battle at shakar Khere against Mubariz Khan.This battle established the independence of Nizam-ul-Mulk (Asaf jahi) who annexed Berar and fixed his residence at Hyderabad and established his dominions. Medak district alongwith the rest of the Telangana came under the control of Asaf Jahi dynasty. After Nizam-ul-Mulk, Nasir Jung, Mazaffar Jung and Salabat Jung ruled for short periods. Ali Jah rose in revolt against his father Nizam Ali Khan,the second Asaf Jah, with the help of Sadasiva Reddy the Medak Jagirdar. Nizam Ali Khan despatched Raymond, a french Commander to proceed against the rebels and subdue them. The Nizam's army came and pitched their tents at the village of `Chickrin' and Sadasiva Reddy also went to that place at the head of an army not to fight but to offer his submission. He was, however, suspected

and captured while attending the durbar., In the meanwhile, Ali Jah died and Medak was granted to Raymond. Though there was a protest by the British against this grant, no attention was paid to this protest and Raymond took possession of Medak and other areas held by Sadasiva Reddy and he had to pay sixteen lakhs of rupees annually as rent for these areas. This arrangement continued till the death of Raymond in 1798.

Nizam Ali Khan died in 1803. He was succeeded by Sikander Jah, Nasir-ud-doula, Afsal-ud-doula, and Mir Mehbub Ali Khan (7th Asif Jah) during whose time India got independence. The Nizam's dominions became a part of Indian union in 1948 as Part-B State and in 1956 during the re-organisation of States, the Hyderabad State was trifurcated the nine predominantly Telugu speaking districts of Mahbubnagar, Hyderabad, Medak, Nizamabad, Adilabad, Karimnagar, Warangal, Khammam and Nalgonda known as Telangana region were transferred to Andhra Pradesh. Major portions of predominantly Kannada speaking districts of Raichur, Gulbarga and Bidar were transferred to Karnataka State While Maratwada comprising the five districts of Aurangabad, Osmanabad, Bhir, Parbhani, Nanded and a portion of Bidar which is predominantly Marathi speaking was transferred to Maharashtra State. These changes were effected on 1st November, 1956.

Administrative Set-Up:

(a) Region of the district where the district is located:

This district is located at North-West of the State and in the middle West of Telangana region.

(b) Total number of Revenue Divisions and Mandals:

The administrative setup changes were made in 1988, May 25th. The existing 11 taluks were re-organised into 45 mandals. Corresponding to the Revenue Mandals, Mandal Parishads were also formed which co-terminous with Revenue Mandals, except statutory towns, which are not included in the jurisdiction of the Mandal Parishads. These 45 Mandals are organized into 3 Revenue Divisons so also in Revenue Mandals, when compared to 1991 Census. The distribution of 45 mandals among the 3 Revenue Divisions are hereunder shown:

Name of the Revenue Division	Name of Mandal
1. Sangareddy	1. Sangareddy
	2. Patancheru
	3. Ramachandrapuram
	4. Sadasivpet
	5. Munpalle
	6. Kondapur
	7. Zahirabad
	8. Kohir
	9. Jharasangam
	10. Raikode
	11. Nyalkal
	12. Narayankhed
	13. Kangti
	14. Kalher
	15. Manoor
2. Medak	1. Medak
	2. Kulcharam
	3. Papannapet
	4. Yeldurthy
	5. Ramayampet
	6. Shankarampet(R)
	7. Chegunta
	8. Narsapur
	9. Jinnaram
	10. Shivampet
	11. Kowdipalle
	12. Hathnoora
	13. Andole
	14. Pulkal
	15. Alladurg
	16. Shankarampet(A)
	17. Regode
	18. Tekmal
3. Siddipet	1. Siddipet
	2. Chinnakodur
	3. Nangnoor
	4. Kondapak
	5. Dubbak

***Source**:: District Census Handbook, Medak, 1991*

Name of the Revenue Division	Name of Mandal
3. Siddipet	6. Mirdoddi
(Concld..)	7. Gajwel
	8. Jagdevpur
	9. Doultabad
	10. Wargal
	11. Mulug
	12. Tupran

(c) Total number of Villages and Towns:

As per 1991 Census , there were 1265 villages, of which 11 villages were fully merged in urban areas. Thus there were only 1254 villages falling in rural areas. During 2001 Census the villages fully merged in towns and formed as out growth were not allotted PLC numbers. In 2001 Census also 1254 villages have been accounted. Though there is no changes in the number of villages during 1991 and 2001 Censuses, other changes occurred during the decade i.e., two Census towns declassified of which three villages attained rural status and at the same time three villages of 1991 Census have become Census towns for 2001 Census. During 1991 Census there were 10 towns (5 statutory and 5 Census towns). Of which Andole and Shankarampet have been declassified due to strict application of demographical criteria. Three new Census towns Eddumailaram, Bollaram and Isnapur have been created for 2001 Census. Thus 5 statutory towns and 6 Census towns are listed for 2001 Census.

(iii) Physical Features of the District

Location and size:

Medak district is part of the Telangana plateau and lies between 170^0 - 27' and 180^0 - 19' of North latitude and 770^0 - 28' and 790^0 - 10' of the eastern longitude. The district is bounded on the North by Nizamabad and Karimnagar districts, on the East by Warangal and Nalgonda districts, on the South by Rangareddi district, on the West by Bidar district of Karnataka State. The district headquarters at Sangareddy.

At 2001 census, the district occupies an area of 9,700.00 Sq. kms. The district population is 2,670,097 constitute 1,352,446 Males and 1,317,651 Females. The density of population is 275 per Sq. km. and this district occupied 16th rank both in terms of area and population in the State. The Scheduled Castes population in the district forms 17.58% of the total population, while scheduled tribes population in the district forms 5.04% as per 2001 Census.

Rivers:

Manjira a tributary of river Godavari, which rises in Bidar district of Karnataka State is the only significant river flowing in the district. It enters from the north-west and forms boundaries of erstwhile taluks Narayankhed, Manoor, Andole, Nyalkal, Raikode, Sadasivpet, Munpalle, Pulkal and Sangareddy. It flows for about 96 kms. in the south-east direction and changes its curve and flows towards the north forming the eastern and western boundaries of Andole and Narsapur mandals. The important streams are Haldi or Pasupuyeru and the Kudlair, Pasupuyeru a tributary of the Manjira, enters the district from the north and flows through Medak town. Kudlair is in Siddipet mandal.

Hills:

Medak district forms part of the table land of the Deccan and is crossed by different ranges of hills like the Medak hills. In addition, isolated peaks and rock clusters lie scattered all over the district. The hills in the forest division are eroding because of reckless felling and indiscriminate grazing. The rock formations are the oldest type(archean gneiss) and consists of peninsulas granite complex i.e., pink and grey granites and their metamorphic variations.

Physiography:

Medak district is a part of Telangana Plateau with an average height between 500 and 600 metres above the mean sea level, the topography of the district can be characterised by plain as well as upland/plateau. Significant areas of stony waste and boulder rocks characterise the district with open scrubs and dry channels ponds are quite frequent all over the district. A few ranges like that of Medak hills cross district. In addition isolated peaks and rocky clusters lie scattered. The hilly areas are covered under reserved forests comprising of maddi, chinangi, stainwood, mahua, nim and abnus.

Climate and Rainfall:

The climate of the district is generally dry with hot summers. The summer season commences from March and continues till May. The hottest month for the district is May. This is followed by the South-West monsoon season from June to September. October and November constitute the post monsoon period. The winter season starts from December and lasts till February. The average rainfall in the district is 682 mm as against normal rainfall of 959 mm. 574 mm rainfall has recorded during South-West mansoon period i.e. during June to September. The most rainy month is July. During the later part of summer and post monsoon season the rainfall is sometimes in the form of thundershowers. The following table shows month-wise maximum and minimum temperature recorded at Medak district for the year 1999.

Table (a)

Monthwise Maximum and Minimum Temperature recorded at Medak for the year 1999

Temp.	Jan.	Feb.	Mar.	Apr.	May	June	July	Aug	Sep	Oct	Nov	Dec
Maximum	30.0	33.7	37.7	41.2	38.8	33.1	30.7	29.4	29.7	31.2	30.8	29.4

Source: *Statistical Abstract 2000 of A.P., Directorate of Economics & Statistics*

Soils :

The soils of the district are mainly red earth comprising loamy sands, sandy loams and sandy clay loams. The soils of the erstwhile Zahirabad taluk are predominantly red latrite. Regode and black cotton soils consisting of clay loams, clay and silty clay are found in the district.

Flora and Fauna :

The entire district is covered by the southern tropical dry deciduous forests. The short monsoon period has a significant effect on the floristic composition of the forests of this district. The common species found in the district are maddi (terminalia tomentosa), Chirangi(larger stroemia parvijlora), satinwood (chloroxylon swietenia), mahua(bassia latifolia), neem(melia azadirachta), abnus(diospyrosmel anoylon). The leaves of abnus are used for making beedies which is the most important among the minor forest produce. During the dry season most of the trees are deciduous for a considerable period. The shedding of leaves starts around January and the trees remain leafless till June. Some dry ever green species like Korivi(lxore parvijlora), alli(memecylon edule) and pala or sapota(mimusopshexandra) are also commonly seen along with other species. Teak(tectora grandis) is the most valuable and important product in the district.

The total forest area in the district comes to 82,573 hectares forming 8.5% to the total geographical area of the district. The following statement shows the forest revenue collected for the year 1996-1997:

Table (c)

Forest product wise Revenue

1996-97

Sl.No.	Forest Product	Amount in Rs.
1	Timber	39,140
2	Firewood	20,72,291
3	Beedi leaves	1,260
4	Other minor products	20,500
5	Miscellaneous	6,41,187
	Total	**27,74,378**

Previously the forests of the district were active with wild life. The pocharam wild life sanctuary extending from Medak to Nizamabad district also had a variety of wild animals and birds. But lack of adequate drinking water facilities, adverse environmental factors, advent of modern weapons and other means of hunting are responsible for the destruction of fauna of this district

Among carnivora, wolf, jackal and fox can be found in the outskirts of the district. Beautiful four horned antelope, wild bear, black buck and the sloth bear are also found in the jungles. Occasionally sambar and spotted deer appear in the interior jungles. Among avifauna, patridge, pigeon, the great Indian bustard, peafowl, green pigeon, green jungle fowl and varities of ducks and cranes are common.

However, Rs. 87,51,917 was realized under beedi leaves trade for the year 1998-99. In order to improve vegetation, forest life, rains, climatic conditions and to combat the ever increase fuel problem, forest programmes are being under taken on waste lands

i.e., reserved forest area tank fore shore, communal lands, road margins, railway line margins, canal banks etc.

Cropping Pattern:

The total geographical area of the district is 9,70,000 hectares and the net area sown is 4,10,229 hectares, constituting 42.29% of the total geographical area. The land use pattern of the district during the year 1998-99 is as follows:

Table (d)
Land utilization of the year 1998-99

Sl. No.	Item	Area in Hectares
1	2	3
1	Forest area	82,573
2	Barren and uncultivable land	59,491
3	Land put to Non agriculture use	65,648
4	Permanent pastures and grazing land	46,365
5	Miscellaneous tree crops and groves not included in net area sown	7,314
6	Cultivable waste	21,594

Irrigation:-

Out of 410,229 hectares net area sown in the Medak district, the net area irrigated is 257,265 hectares forming 62.71% of the total net area. Of the total area irrigated 11,835 hectares irrigated under canals, 70,979 hectares under tanks, 130,184 hectares under tube wells and 118,488 hectares under dug wells. The following statement shows the source of irrigation for the year 1996-97.

Table (h)

Source of Irrigation 1996-97

Sl.No	Irrigated by source	Area in hectares
1	Canals	11,835
2	Tanks	70,979
3	Tube Wells	130,184
4	Dug wells	118,488
5	Lift Irrigation	3,177
6	Total irrigated area once	257,265
7	Area irrigated more than once	77,398
8	Gross area irrigated	334,663

The principal crops, which were irrigated during the year 1996-97 shows that paddy was raised in 214,003 acres followed by sugar cane in 96,071 acres and Maize in 8,042 acres. The following Table gives crop wise area irrigated for the period 1996-97.

Table (i)

Crop wise area Irrigated 1996-97

Sl.No.	Name of Crop	Kharif -Abi	Rabi-tabi	Area in acres

Besides above two Railway lines i.e., Secunderabad to Nizamabad and Hyderabad to Bidar with nine stations are passing through this district.

Minerals:

Medak district is not rich in mineral wealth. The minerals available in the district are quartz, ochres, silica sand and laterite. Quartz is used as input in the manufactures of glass. Silicon, Carbide etc., Amethyst, a crystalline quartz is a semiprecious stone used as pendant and in other cheap ornamental purposes. It is abundantly available in Siddipet Mandal. Laterite and red ochre are found in Zahirabad mandal.Laterite is used as a flux in the cement industry and also as ore of iron or aluminium and rarely in building materials red ochre is useful in paints and in other chemical industries. Silica sand found in Medak mandal is a raw material for glass, and other foundry purposes. It is also used in ceramic industry. The production of principal minerals for the year 1996-97 is furnished hereunder:

Table(p)

Production of principal minerals 1996-97

Sl.No.	Name of Mineral	Production in Tonnes.	Value (in '000) Rupees

3	Stone & Metal	46492.13M3	704,130

Source: *Statistical Abstract of A.P.2000, Directorate of Economics & Statistics.*

Electricity & Power:

As power is an important input as well as output in this computer age, it is impossible for any country to develop economically without it. The Government of India had undertaken electrification in a big way during 1970 itself. During the decade 1981-91 there has been a tremendous demand for power at the industrial area of Patancheru. Agricultural connections were provided in this area mainly to utilize the under ground water. The global economy is strongly stressing for power generation. To this effect, the Union Ministry of Non-conventional Energy Resources is formulating a comprehensive national policy on renewable energy sources, and is also contemplating to launch a national programme to generate power from bio-mass and agro-based wastes left behind in this fields after harvesting and Indian wind. It is rated that India's wind energy programme is the fastest growing programme in the entire world. Wind power is not only better electrical source than conventional bulk electrical sources like coal and natural gas but also the least expensive source of electricity.

By the end of 1990 almost all the villages in Medak district have been electrified. Rural electrification and distribution position is detailed in the following table, upto 1998-99 in the district:

Table (q)

Category - wise details of Electricity distribution 1998-99

Sl. No.	Category	Board	Rural Electrification Co-op. society	Total

Table (r)

Length of different transmission lines as on 1997-98

Sl.No.	Voltage of lines	Unit & Length
1	220 K.V.	148.10Kms.
2	132 K.V.	390.25 Kms.
3	33 K.V.	1342.60 Kms.
4	11 K.V .	7866.73 Kms.
5	L.T.	18465.24 Kms.

Fisheries:-

The fishery potential of Medak district is quite rich with its perennial source like Manjira, Haldi, Pocharam reservoirs and the tail end of Nizamsagar reservoir. In addition to these there are 4489 tanks in the district. At present the district is having around 354 fishermen co-operative societies with share capital of Rs. 2,00,222 providing employement to 12,507 members. Besides, 6 co-operative societies for women with 203 membership are existing. During 1998-99 this district has procured 9,520 tonnes of fish.

There are about 2,177 Dragnets, 1,178 Gillnets, 1,084 trawlnets, 4,859 Castnets and 2,388 other type of fishing tackles are available in the district. An area of 11.25 acres of land was provided to Fish seed production-cum-rearing farms. An amount of Rs.34,475/- has realized through issue of licences, Rs.256,272/- through disposal of tanks and Rs.258,560/-by sale of fish seed for the year 1998-99. As a welfare measure 350 houses were entrusted for fishermen during 1998-99.

Industries:

Medak district was industrially poor prior to 1970. But after 1970, numerous industries viz., Small, Cottage, Village Industries, Medium and Large Scale Industries have come up and contributed to the industrial development of the district. Bharat Heavy Electricals Limited, at Patancheru and Nizam Sugar Factory at Zahirabad etc., are some of the important industries in the district.

There are 259 large and medium scale industries with Rs.329,429.82 lakhs. Capital investment and providing employment to 64,954 persons. Similarly, 4,056 small scale industries with Rs. 30,607.20 lakhs. capital investment are providing livelihood to 53,623 persons. Apart from those industries, 231 Rice mills were registered in the district. The capital investment of these rice mills was Rs. 1,617.12 lakhs and providing employment to 2,248 persons.

The following statement shows the distribution of Large and Medium scale industries and Categories:

Table (s)

Large And Medium Scale Industries: Medak

Sl.No.	Category	Number of Units	investment (Rs.in lakhs)	Total no.of employment
1	2	3	4	5
1	Food Products	9	13206.12	2,789
2	Beverage and tobacco Products	3	929.14	356
3	Textiles	16	12168.83	6,038
4	Wood Products	1	1700.00	450
5	Paper and Paper Products	6	3976.00	961
6	Leather and Leather Products	1	67.00	86
7	Petroleum, Plastic and Rubber Products	29	2154.04	3,287
8	Chemical and Alloyed Industries	63	54762.77	10,501
9	Mineral Based Industries	21	13365.00	3,230
10	Basic Metal Products	25	15209.72	3,582
11	Metal Products	19	13804.00	5,293

(iv) Major Social and Cultural events, natural and administrative developments and significant activities during the decade.

During the decade 1991-2001 no significant social and cultural events have occurred in the district. In respect of administrative developments Andole-Jogipet urban area has been degraded and attained rural status. While Eddumailaram, Bollaram and Isnapur have been graded as Census Towns due to fulfillment of criteria for treating a place as town.

As regards significant activities, the prevention of Child Labour, Social Security Schemes, Janmabhoomi, Cheyutha and Spandana programmes are worth mentionable in the district during the decade.

In the year 1996 under the Chairmanship of the District Collector the 'Bala Karmika Vikasa Samithi' has constituted. The main aims and objectives of the samithi are conducting surveys on Vulnerable child labourers in hazardons occupations, creating awareness among the public about the steps taken by the government to eliminate child labour, implementing programmes like creating public awareness, running special schools, imparting non-formal education and generating income and employment opportunities, etc.

The social security schemes such as payment of pensions to the aged, widows, landless agricultural workers and physically handicapped persons are implemented in the district.

During the decade, as in the other districts, a novel scheme called "Janmabhoomi" has been launched on the new years day 1997 by the Government of Andhra Pradesh. This adds new dimension particularly in rural development in the sense that people are involved in decision making and development process. The main activities taken up under this programme are aimed at achieving the basic needs of the people belonging to both rural and urban through "Sramadhanam" with the people's partcipation.

As in the other districts, in this district also, with the inspiration of Janmabhoomi programme, 'Spandana' another novel scheme totally envisaged by the district administration for the overall development of villages has been taken up with the aims of

1.Education for all

2.Family planning programmes

3.Usage of Bio-gas plants / Smokeless

chullas to prevent air pollution

4.Clean village concept

Yet another novel programme envisaged by the district administration for benefitting the physically handicapped in the district is called 'Cheyutha'. All the Government officials connected with the physically handicapped will sit under one roof and do the needful then and there. The benefits such as issue of physically handicapped certificate by the medical board, RTC passes, railway passes, registration in employment exchanges, etc., were extended besides giving aids and appliances to the identified handicapped persons.

(v) Brief description of places of religious, historical or archaeological importance in villages and places of tourist interest in the towns of the district

Places of Religious, Institution (Temples), Mutts and historical or archaeological importance in the district are presented in the following statement.

Places of Religious and Historical or archaeological Importance:

Sl.No.	Name of Mandal	Name of Village/Town	Name of Monument/Temple/Mutt
1	2	3	4
1	Narayankhed	Shapur	Sri Lingayat Mutt
2	Andole	1. Nagasanpali	Sri Edupayala, Durgabhavani
		2. Jogipet	Sri Jangam Mutt
3	Medak	1. Medak	1. Hill fort(Hill fort similar in construction to the other Deccan built. The fort was built by the Rajas of Warangal and was at onetime in the possession of the Bahmani and Qutb-Shahi Kings). 2. Mubarak Mahal 3. Qutub Shahi Mosque Asaf Khan's Mosque and inscriptions.(The Mosque was built by Asaf Khan in 1641 A.D.) 4. Inscriptions(Canarese)
		2. Kasipalle	Prehistoric burials(Megalithic stone circles[graves])
4	Dubbak	Pullur	Rakasigudi
5	Siddipet	1. Kondapaka	Hindu temples & inscriptions(Relates to the 12th Century during which period Kakatiyas reigned)
		2. Siddipet	Ruined Tombs
		3. Punnal	Pre-historic burials(Megalithic burials)
		4. Ahsanpalli	Pre-historic burials(Megalithic burials)
		5. Marpadge	Pre-historic cairns(Megalithic graves)
		6. Mandapalli	Rakasagudi
		7. Palamkal	Rakasigudi
		8. Narmetta	Rakasigudi

Sl.No.	Name of Mandal	Name of Village/Town	Name ofMonument/Temple/Mutt
1	2	3	4
5	Siddipet (Concld..)	9. Duddeda	Siva temple
6	Gajwel	Nacharam	SriLakshmi Narasimhaswamy Temple
7	Narsapur	Bonthapalle	Sri Veerabhadraswamy Temple
8	Sangareddy	1. Between Muttangi and Asnathpur	1. Stone circles(Megalithic stone circles[graves])
		2. Patancheru	1. Remains of Hindu temples, etc.(These be longs to 12th to 15th century A.D. of early medieval period. There are two muslim tombs in Qutb-Shahi style)
			2. Remains of Jaina temples Sculptures and inscriptions.(The remains of Jaina basadis and temples of 13th century)
9	Sadasivpet	Sadasivpet	1. Sri Chouki Mutt
			2. Sri Pedda Mutt
10	Zahirabad	Jharasangam	Sri Sangameswaraswamy Temple.

Tourist Places in the district :

1.Alladurg(Allahdurg) :

Situated at a distance of 67 kms. from Shankarampalle Railway station in Andole mandal, this village has assumed archaeological importance as a result of the un-earthing of a number of sculptured idols. The most striking aspect in the village is a huge Nandi in front of the temple of Veerabhadra, which has been exquisitely carved. There is also a temple for Bethala and an annual festival is held in the month of April.

2.Ramayampet :

Ramayampet is situated at 22 kms. from Medak. It is famous for the manufacture of Brass and silverware, Wooden furniture and Statues. The important festival celebrated here is that of Lord Narasimha during December-January.

3.Medak :

Medak is situated at a distance of 96 kms. from Hyderabad. The important places of interest in the town are the fort and the Medak Church. The fort is said to have been originally constructed by the Kakatiya Kings. The existing fort belonging to the Qutub-Shahi Kings stands 90 metres above the surrounding plains. It is one of the important hill forts in the Deccan and contains a brass gun 10ft. long. The Mubarak Mahal in the fort has on one of its gateways, the carvings of a double headed eagle holding elephants in its teeth and talons.

The Medak Church is said to be one of the three big churches in South India. This church was completed in 1924. The main prayer hall of the church is 91 metres long and 45.5 metres wide. There are very large windows on either side of the hall and the windows at the entrance are provided with pieces of coloured glass fitted in metal frames. The coloured glass pieces are beautifully arranged to depict scenes from the Bible and the crucifixion of Jesus Christ. The Cathedral is 61 metres high and can accommodate 5,000 people. The tower over the entrance is 53 metres high.

To the South-east of Medak town, there is a place known as Yedupayala where seven tributaries of the Manjira join and flow in Unison. Yedupayala Jatara

held on Maha Sivaratri day attracts about Three lakh pilgrims.

4.Kondapur :

Kondapur of Sadasivpet erstwhile taluk is situated at a distance of 69 kms. from Hyderabad. The finds at this place are of great archaeological interest, and similar to those found at Nagarjunakonda and Amaravathi in Guntur district. The coins of the Satavahana kings discovered in this place led some scholars to come to the conclusion that it was one of the thirty walled towns of the Satavahanas. The remains of Chaityas and the Stupas which were unearthed, indicate that Kondapur was once a great Buddhist centre. Other things which were excavated include gold coins of the Roman Emperor Augustus, a few silver coins, beads, pieces of bangles of terracotta, shell, ivory, copper and glass embossed with designs. The museum maintained by the Archaeological department contains about 8,100 antiquities at present.

5.Kondapaka :

This village is situated at a distance of 16 kms. from Siddipet. Several sculptured stones unearthed during the excavations at the place indicate that it was once a flourishing place. There are seven ramparts that were in existence in the past, only two can be seen now. A big Siva Lingam known as Mahalingam and a temple dedicated to Sri Rama are important. Sri Rama Kalayanotsavam is celebrated during March-April.

6.Patancheru:

Patancheru a town is situated at a distance of 32 kms. from Hyderabad city on the Hyderabad-Sholapur National Highway. Groups of temples belonging to the period from the 12th to 15th centuries A.D. are scattered in and around the town. The remains of habitation found on mounds in various localities are indicative of the religious and political importance of the place during the early medieval period. Two muslim tombs in Qutub-Shahi style are situated on the outskirts of the town. One of the tombs contains a long Arabic inscription. Apart from these, relics belonging to Jain religion of 13th century A.D. prove that this place was once a stronghold of the Jains.

(vi) Major characteristics of the district, contribution of the district in the form of any historical figures associated with the district.

Medak district has derived its name from its headquarters town Medak under reorganisation of states in 1956, certain jurisdictional changes have taken place. Eleven villages of Sangareddy taluk have transferred to Hyderabad district, one village to Nizamabad district. Some villages from Bidar district of Karnataka and Teegala Narsapur from Warangal district were transferred to this district.

The district has not produced any major historical figures. This district has been categorized as one of the industrially developing districts due to location of Bharat Heavy Electricals limited a Government of India under taking and manufacturing heavy electrical equipments besides setting up of several Industrial units at Patancheru being very nearer to Hyderabad. Another international institute known as ICRISAT with Russian Collaboration is also located in the district at Patancheru for research and development of Dry land crops. A reservoir constructed over river Manjira at Singore is one of the major source of drinking water for the twin cities of Hyderabad and Secunderabad.

Telugu is local Language, and Kannada language spoken especially at places which are adjacent to Karnataka State. However Urdu language also spoken by a sizable muslims living in many parts of the district.

(vii) Census Concepts

Population census is a great national task, which we are called upon to undertake for every ten years. In India, the 1872 marked as the beginning of modern census taking, when it was conducted at different points of time in different parts of the country. From 1881 onwards a complete and synchronous census was held. The present Census is a land mark administrative event, as this has generated a historic bench mark data to shed light on the state of nation's society and other demographic, economic and socio-cultural data which simultaneously makes transition from one century and millennium to the next. The 2001 Census was the 14th decennial Census of India and the 6th after independence.

The Census of India was conducted in two phases namely, I) House-listing Operations II) Population Enumeration. The first phase was conducted during April-June,2000 in different States/Union territories depending upon their local conditions. In Andhra Pradesh it was conducted from 11th May to 5th June 2000. The house-listing operations provide a base for the population enumeration, besides providing comprehensive database for assessing condition of human settlements, the housing deficit and future housing requirement for formulation of housing policies. This also provides a massive data on amenities available to the households which was much needed by various departments of the Central and State Governments and other Non-Governmental agencies, for planning and development in different sectors of the economy. Hence house-listing operation is a pre-requisite for population enumeration.

Unlike 1991 census, there are significant changes in house-listing schedule for 2001 census. The questions on condition of the census house, number of married couples living in the household and having independent room for sleeping, bathroom and kitchen within the house and using the means of entertainment and communication facility of radio, transistor, television, telephone and possessing of means of transport like bicycle, scooter/motor cycle, car/jeep/ van and availing of banking services by the household are added to the present house-list schedule.

The main population enumeration was conducted from 9th February to 28th February, 2001, followed by revisional round from 1st March, 2001 to 5th March, 2001, to update the data with reference to 00.00 hours of 1st March, 2001. The houseless population was enumerated at midnight of 28th February 2001.

The household schedule and individual slip of 1991 census were replaced by household schedule of A3 size containing three parts to collect the information from each household at 2001 Census. In the present Census, the house-hold schedule is designed in such a way to suit the requirement of capturing the data through scanners. At the 2001 Census, for the first time **Image-based data capturing technology through scanners and computer network has been introduced** with a view to provide error free data by avoiding keying in of data.

The house-hold schedule broadly covered the individual particulars under four major headings 1) General and Socio cultural characteristics (Q(1 to 15), 2) Characteristics of workers and non-workers 3) Migration characteristics (Q.21 to 22)and 4) Fertility particulars (Q.23). Part-I deals with location code particulars, Part-II relates to Individual particulars with 23 questions, consisting of 1 to 39 columns, Part-III covers on cultivation/plantation particulars like land possessed, type of tenancy enjoyed by the household/ household member. Some additional questions 1) on disability, 2) Particulars relating to travel to the place of work a) distance from residence to place of work, b) mode of travel to the place of work, 3) household engaged in cultivation/plantations are added in the present household schedule.

Marital status, mother tongue, religion and literacy status (for 7 and above) migration, fertility particulars

and the identification of SC/ST are repeated but the age at marriage is also ascertained for males at 2001 Census. For the people, who are attending educational institutions, a separate code has been provided to record the Vocational institute, other institute and literacy centre in addition to school/college.

Criteria for enumeration of persons in a particular household:

a) All those who normally reside and are present in that household during the entire period of enumeration from 9th February to 28th February, 2001, b) also those who are known to be normally residing and had actually stayed during a part of the enumeration period (Feb.9th to 28th Feb.2001) in the household but are not present at the time of enumerator's visit, c) also those who were known to be normally residing and are not present at the time of enumerators visit but are expected to return before 28th Feburary,2001 and d) Visitors who are present in the household censused and are away from the place of their usual residence during the entire enumeration period. For the purpose of enumeration, such visitor will be treated as normal resident of the household in which they are actually found during the enumeration period provided that they have not been enumerated elsewhere. One of the essential features of population enumeration in the second phase is each person enumerated and her/his individual particulars are collected at a well defined point of time.

Location Code Number

The procedure of assigning location code number in a zigzag manner starting from North-west corner and ending at South-east corner, is adopted for 2001 Census. The Andhra Pradesh state was assigned Location Code No.28 as against 02 in 1991 census. In a similar fashion, the location code numbers of the districts in Andhra Pradesh state have been changed and revised location code numbers were allotted in order of geographical contiguity, beginning from North-West point of the state and ending at the South East point. Thus the Adilabad district has been assigned Location Code No. as 01 and Chittoor district Location Code No. 23 at 2001 Census. Accordingly, the location code numbers of mandals in each district have been changed for 2001 census.

An important change at 2001 census is allotment of permanent location code numbers to all the villages in the state. Since the whole data ie., Village and Town Directory information is also being computerized, the allotment of permanent location code numbers would facilitate the data users for easy access and retrieval the data of a particular village at micro level by the click of a mouse. The Permanent Location Code Number (P.L.C. No.) is an eight digit number starting with 00000100 in a zig-zag fashion from North-West corner in the first Mandal of Adilabad district and run continuously for all the districts while ending South-East corner to the extent possible at last village in the last Mandal of Chittoor district. Since this State has 28,123 villages at 2001 census, last village of last mandal in Chittoor district will have PLC No.02812300. A significant provision has been made to allot PLC Nos. to newly created villages if any in future. The last two digits of PLC No's are kept as '00' only to provide for additional villages. For example a new village has been created after PLC No 001231400, it will be assigned PLC No. as 001231401. Further, it is indicated that there is a provision for a minimum of 99 villages adjoining to a particular village allotting Permanent Location Code.

For urban areas also location code structure has been changed in a minimum way. Earlier, for towns in a district location code numbers were given roman letters in alphabetical order. This time, while assigning roman numbers instead of going to alphabetic order, location code numbers were given from North-West part of the district ending at South-East of the district to the extent possible.

Therefore, the PLC numbers of the villages and location codes of urban areas have under gone change in Census of India, 2001 as compared to 1991. In case an urban area is spread over in two districts, the location code of urban areas in both the districts will be the same irrespective of zigzag manner.

Building

A building is generally a single structure on the ground. Sometimes it is made up of more than component unit which are used or likely to be used as dwellings(residences) or establishments such as shops, business houses, offices, factories, workshops, worksheds, Schools, places of

entertainment, places of worship, godowns, stores etc. It is also possible that building which have component units may be used for a combination of purposes such as shop-cum-residence, workshop-cum-residence,office-cum-residence,etc.. Usually a structure will have four walls and a roof. But in some areas the very nature of construction of houses is such that there may not be any wall. Such is the case of conical structures where entrance is also provided but they may not have any walls. Therefore, such of the conical structures are also treated as separate buildings.

Permanent houses:

Houses, the walls and roof of which are made of permanent materials. The material of walls can be any one from the following, namely, galvanized iron sheets or other metal sheets, asbestos sheets, burnt bricks, stones or concrete. Roof may be made of from any one of the following materials, namely, tiles, slate, galvanized iron sheets, metal sheets, asbestos sheets, bricks, stones or concrete.

Semi-permanent houses

Houses in which either the wall or the roof is made of permanent material and the other is made of temporary material.

Temporary houses

Houses in which both walls and roof are made of materials, which have to be replaced frequently. Walls may be made from any one of the following temporary materials, namely, grass, thatch, bamboo, plastic, polythene, mud, unburnt bricks or wood. Roof may be made from any one of the following temporary materials, namely, grass, thatch, bamboo, wood, mud, plastic or polythene.

Dwelling Room

A room is treated as a dwelling room if it has walls with a doorway and a roof and should be wide and long enough for a person to sleep in, i.e. it should have a length of not less than 2 metres and a breadth of at least 1.5 metres and a height of 2 metres. A dwelling room would include living room, bedroom, dining room, drawing room, study room, servant's room and other habitable rooms. Kitchen, bathroom, latrine, store room, passageway and verandah which are not normally usable for living are not considered as dwelling rooms. A room, used for multipurpose such as sleeping, sitting, dining, storing, cooking, etc., is regarded as a dwelling room. In a situation where a census houses is used as a shop or office., etc., and the household also stays in it then the room is not considered as a dwelling room. But if a garage or servant quarter is used by a servant and if she/ he also lives in it as a separate household then this has been considered as a dwelling room available to the servant's household. Tent or conical shaped hut if used for living by any household is also considered as dwelling room. A dwelling room, which is shared by more than one household, has not been counted for any of them. If two households have a dwelling room each but in addition also share a common dwelling room, then the common room has not been counted for either of the households.

Census house

A `census house' is a building or part of a building used or recognised as a separate unit because of having a separate main entrance from the road or common courtyard or staircase, etc. It may be occupied or vacant. It may be used for residential or non- residential purpose or both.

In certain peculiar situations, the manner in which buildings and census houses were identified for numbering in the field by the enumerators is described hereunder:

Sometimes a series of different buildings are found along a street which are joined with one another by common walls on either side looking like a continuous structure.

These different units are practically independent of one another and are likely to have been built at different times and owned by different persons. In such cases, though the whole structure with all the adjoining units apparently appears to be one building, each portion was treated as a separate building and its constituent units as separate census houses.

On the other hand, one may come across cases, particularly in large cities of multi-storeyed ownership flats. In these cases while the structure looks like one building, different persons own the flats. In case of such multi-storeyed structures, having a number of flats owned by different persons, the entire structure was treated as one building and each flat as a separate census house.

If within a large enclosed area, there are separate buildings owned by different persons then each such building is treated as a separate building. There can be a situation where within an enclosed compound there are separate buildings owned by an undertaking or company or even government that are actually in occupation of different persons. For example, Indian Oil Corporation colony where the buildings are owned by the Corporation but these are in occupation of their employees. Each such building was treated as a separate building. But if in any one of these buildings there were flats in occupation of different households, each such flat was reckoned as a separate census house.

Sometimes if becomes difficult to apply the definition of census house strictly in certain cases. For example, in an urban area, if a flat has five rooms, each room having direct entrance from the common staircase or courtyard. By definition, this has to be treated as five census houses. If all these five rooms are occupied by a single household it was not realistic to treat them as five census houses. In such a case,`singleness' of use of these rooms along with the main house should be considered and the entire flat was treated as one census house. On the other hand, if two independent households occupy these five rooms, the first household living in 3 rooms and the second household occupying 2 rooms, then considering the use, the first three rooms together were treated as one census house and the remaining rooms as another census house. But if each room was occupied by an independent household, then each such room was treated as a separate census house.

In case of hostels, hotels, etc., even if the door of each room in which an inmate lives opens to a common verandah, staircase, courtyard or a common room, as it happens almost invariably, the entire hostel/ Hotel building was treated as one census house. but if such hostels/ hotels have out- houses or other structures used for different purposes or the same purpose, then each such structure attached to the main hostel / hotel was treated as a separate census house.

In some parts of the country, in rural areas, the pattern of habitation is such that a group of huts, located in a compound, whether enclosed or unenclosed, is occupied by one household. While the main residence may be located in one hut, other huts may be used for sleeping, as a kitchen, bath room, baithak, etc. Though each of the huts was a separates structure, they form a single housing unit and therefore, have to be treated collectively as one building and one census house. If some of the huts are used by one household and the others by a second household as residence, then the two groups of huts were treated as separate census houses. However, if there were also other huts in the compound used for other purposes and not as part of the household's residence such as, cattle shed, workshed, etc., these were treated as separate census houses.

On the other hand, in urban areas, where more than one structure within an enclosed or open compound (premises) belonging to the same person, e.g., the main house, the servant's quarter, the garage, etc., only one building number was given for this group and each of the constituent a separate census house number.

Only cases where a structure with roof and pillars has come up was treated as a building.

Village

The basic unit for rural areas is the revenue village which has definite surveyed boundaries. The revenue village may comprise of one or more hamlets but the entire village is treated as one unit for presentation of data. In un-surveyed areas, like villages within forest areas, each habitation area with locally recognized boundaries is treated as one village.

Rural - Urban area

The data in tables on Houses, Household Amenities and Assets are presented separately for rural and urban areas. The unit of classification in this regard is `town' for urban areas and `village' for rural areas. In the Census of India 2001, the definition of urban area adopted is as follows:

(a) All places with a municipality, corporation, cantonment board or notified town area committee, etc.

(b) A place satisfying the following three criteria simultaneously:

i) A minimum population of 5,000;

ii) At least 75 per cent of the male working population engaged in non-agricultural pursuits ; and

iii) A density of population of at least 400 per sq. km. (1,000 per square mile).

For identification of places which would qualify to be classified as 'urban' all villages, which, as per the 1991 Census had a population of 4,000 and above, a population density of 400 persons per sq. km. and having at least 75 per cent of male working population engaged in non-agricultural activity were considered. To work out the proportion of male working population referred to above against b) (ii), the data relating to main workers were taken into account.

Apart from these, the outgrowths(OGs) of cities and towns have also been treated as urban under 'Urban Agglomerations'. Examples of out-growths are railway colonies, university campuses, port areas, military camps, etc., that may have come up near a statutory town or city but within the revenue limits of a village or villages contiguous to the town or city. Each such individual area by itself may not satisfy the demographic criteria laid down at (b) above to qualify it to be treated as an independent urban unit but may deserve to be clubbed with the towns as a continuous urban spread. Thus, the town level data, wherever presented, also includes the data for outgrowths of such towns.

City

Towns with population of 1,00,000 and above are called cities.

Urban Agglomeration

An Urban Agglomeration is a continuous urban spread constituting a town and its adjoining urban outgrowths (OGs) or two or more physically contiguous towns together and any adjoining urban outgrowths of such towns. In some cases railway colonies, university campuses, port areas, etc., may come up near a city or statutory town outside its statutory limits but within the revenue limits of a village or villages contiguous to the town or city. Each such individual area by itself may not satisfy the minimum population limit to qualify it to be treated as an independent urban unit but may deserve to be clubbed with the town as a continuous urban spread.For the purpose of delineation of Urban Agglomerations during Census of India 2001, following criteria are taken as pre-requisites:

(a) The core town or at least one of the constituent towns of an urban agglomeration should necessarily be a statutory town ; and

(b) The total population of all the constituents (i.e., towns and outgrowths) of an Urban Agglomeration should not be less than 20,000 (as per the 1991 Census).

With these two basic criteria having been met, the following are the possible different situations in which Urban Agglomerations would be constituted:

i) a city or town with one or more contiguous outgrowths;

ii) two or more adjoining towns with their outgrowths; and

iii) a city and one or more adjoining towns with their outgrowths all of which form a continuous spread.

Household

A 'household' is usually a group of persons who normally live together and take their meals from a common kitchen unless the exigencies of work prevent any of them from doing so. Persons in a household may be related or unrelated or a mix of both. However, if a group of unrelated persons live in a census house but do not take their meals from the common kitchen, then they are not constituent of a common household. Each such person was to be treated as a separate household. The important link in finding out whether it was a household or not was a common kitchen. There may be one member households, two member households or multi-member households.

Institutional household

A group of unrelated persons who live in an institution and take their meals from a common kitchen is called an Institutional Household. Examples of Institutional Households are boarding houses, messes, hostels, hotels, rescue homes, jails, ashrams, orphanages, etc. To make the definition more clearly perceptible to the enumerators at the Census 2001, it was specifically mentioned that this category or households would cover only those households where a group of unrelated persons live in an institution and

share a common kitchen.

Houseless household

Households who do not live in buildings or census houses but live in the open on roadside, pavements, in hume pipes, under fly-overs and staircases, or in the open in places of worship, mandaps, railway platforms, etc., are treated as Houseless Households.

Scheduled Caste and Scheduled Tribe

Article 341 of the Constitution provides that the President may, with respect to any State or Union territory, specify the castes, races or tribes or parts of or groups within castes, races or tribes which shall for the purposes of the Constitution be deemed to be Scheduled Castes in relation to that State or Union territory. Article 342 similarly provides for specification of tribes or tribal communities or parts of or groups within tribes or tribal communities which are to be deemed for the purposes of the Constitution to be Scheduled Tribes in relation to the various States and Union territories. In pursuance of these provisions, the list of Scheduled Castes and / or Scheduled Tribes are notified for each State and Union territory and are valid only within the jurisdiction of that State or Union territory and not outside.

It is important to mention here that under the Constitution (Scheduled Castes) Order, 1950, no person who professed a religion different from Hinduism was deemed to be a member of a Scheduled Caste in addition to every member of the Ramdasi, Kabirpanthi, Majhabi or Sikligar caste resident in Punjab or Patiala and East Punjab States Union were in relation to that State whether they professed the Hindu or the Sikh religion. Subsequently, in September 1956, by an amendment, the Presidential Order of 1950 and in all subsequent Presidential Orders relating to Scheduled Castes, the Hindu and the Sikh religions were placed on the same footing with regard to the specification of Scheduled Castes. Later on, as per the amendment made in the Constitution (Scheduled Castes) Order 1990, the Hindu, the Sikh and the Buddhist were placed on the same footing with regard to the recognition of the Scheduled Castes.

The lists containing the names of the Scheduled Castes and the Scheduled Tribes applicable for the Census of India 2001 in the State/ Union territory are given below:

List of Scheduled castes in Andhra pradesh

1. Adi Andhra
2. Adi Dravida
3. Anamuk
4. Aray Mala
5. Arundhatiya
6. Arwa Mala
7. Bariki
8. Bavuri
9. Beda Jangam, Budga Jangam
10. Bindla
11. Byagara
12. Chachati
13. Chalavadi
14. Chamar, Mochi, Muchi
15. Chambhar
16. Chandala
17. Dakkal, Dokkalwar
18. Dandasi
19. Dhori
20. Dom, Dombara, Paidi, Pano
21. Ellamalawar, Yellammalawandlu
22. Ghasi, Haddi, Relli, Chachandi
23. Godagali
24. Godari
25. Gosangi
26. Holeya
27. Holeya Dasari
28. Jaggali
29. Jambuvulu
30. Kolupul Vandlu
31. MadasiKuruva,Madari Kuruva
32. Madiga
33. Madiga Dasu, Mashteen

34. Mahar
35. Mala
36. Mala Dasari
37. Mala Dasu
38. Mala Hannai
39. Malajangam
40. Mala Masti
41. Mala Sale, Netkani
42. Mala Sanyasi
43. Mang
44. Mang Garodi
45. Manne
46. Masht
47. Matangi
48. Mehtar
49. Mitha Ayyalvar
50. Mundala
51. Paky, Moti, Thoti
52. Pambada, Pambanda
53. Pamidi
54. Panchama, Pariah
55. Relli
56. Samagara
57. Samban
58. Sapru
59. Sindhollu, Chindollu

List of Scheduled Tribes in Andhra pradesh

1. Andh
2. Bagata
3. Bhil
4. Chenchu, Chenchwar
5. Gadabas
6. Gond, Naikpod, Rajgond
7. Goudu(in the Agency tracts)*
8. Hill Reddis
9. Jatapus
10. Kammara
11. Kattunayakan
12. Kolam, Mannervarlu
13. Konda Dhoras
14. Konda Kapus
15. Kondareddis
16. Kondhs, Kodi, Kodhu, Desaya Kondhs, Dongria Kondhs, Kuttiya Kondhs, Tikiria Kondhs, Yenity Kondhs.
17. Kotia, Bentho Oriya, Bartika, Dhulia, Dulia, Holva, Paiko, Putiya, Sanrona, Sidhopaiko
18. Koya,Goud,Rajah,Rasha Koya, Lingadhari Koya(ordinary), Kottu Koya, Bhine Koya, Rajkoya
19. Kulia
20. Malis(excluding Adilabad, Hyderabad,Karimnagar,Khammam, Mahbubnagar,Medak,Nalgonda, Nizamabad and Warangal districts)
21. Manna Dhora
22. Mukha Dhora, Nooka Dhora
23. Nayaks(in theAgency tracts)*
24. Pardhan
25. Porja, Parangiperja
26. Reddi Dhoras
27. Rona, Rena
28. Savaras, Kapu Savaras, Maliya Savaras, Khutto Savaras
29. Sugalis, Lambadis
30. Thoti(In Adilabad, Hyderabad, Karimnagar, Khammam, Mahbubnagar, Medak, Nalgonda, Nizamabad and Warangal Districts)
31. Valmiki (in the Agency tracts)*
32. Yenadis
33. Yerukulas

***** *The agency tracts is comprised of Srikakulam, Vizianagaram, Visakhapatnam, East-Godavari, West-Godavari and Khammam districts.*

Language and Mother tongue

As per the census concept, each language is a group of mother tongues. The census questionnaire collects information on the mother tongue of each person and mother tongue is defined as the language spoken in childhood by the person's mother to the person. If the mother died in infancy, the language mainly spoken in the person's home in childhood will be the mother tongue. In the case of infants and deaf mutes, the language usually spoken by the mother is considered as mother tongue. It is not necessary that the language spoken as mother tongue should have a script. The mother tongues returned by the respondents in census are classified and grouped under appropriate languages according to their linguistic characteristics.

Literate

A person aged 7 years and above who can both read and write with understanding in any language is taken as literate. A person who can only read but cannot write is not literate. It is not necessary that to be considered as literate, a person should have received any formal education or passed any minimum educational standard. Literacy could also have been achieved through adult literacy classes or through any non-formal educational system. People who are blind and can read in Braille are treated as literates.

Literacy rate

Literacy rate of the population is defined as the percentage of literates in the age group seven years and above. For different age groups the percentage of literates in that age group gives the literacy rate.

Educational level

The highest level of education a person has completed

Work

Work is defined as participation in any economically productive activity with or without compensation, wages or profit. Such participation may be physical and/or mental in nature. Work involves not only actual work but also includes effective supervision and direction of work. It even includes part time help or unpaid work on farm, family enterprise or in any other economic activity. All persons engaged in 'work' as defined above are workers. Persons who are engaged in cultivation or milk production even solely for domestic consumption are also treated as workers.

Reference period for determining a person as worker and non-worker is one year preceding the date of enumeration.

Main worker

A person who has worked for major part of the reference period (i.e. six months or more during the last one year preceding the date of enumeration) in any economically productive activity is termed as `Main worker'.

Marginal worker

A person who worked for less than six months of the reference period (i.e. in the last one year preceding the date of enumeration) in any economic activity is termed as `Marginal worker' .

Non worker

A person who has not worked at all in any economically productive activity during the reference period (i.e. last one year preceding the date of enumeration) is termed as `Non worker'.

Cultivator

For purposes of the Census a person is classified as cultivator if he or she is engaged in cultivation on land owned or held from government or held from private persons or institutions for payment in money, kind or share. Cultivation includes effective supervision or direction in cultivation.

A person who has given out her/his land to another person or persons or institution(s) for cultivation for money, kind or share of crop and who does not even supervise or direct cultivation in exchange of land, is not treated as cultivator. Similarly, a person working on another person's land for wages in cash or kind or a combination of both (agricultural labourer) is not treated as cultivator. Cultivation involves ploughing, sowing, harvesting and production of cereals and millet crops such as wheat, paddy, jowar, bajra, ragi,

etc., and other crops such as sugarcane, tobacco, ground-nuts, tapioca, etc., and pulses, raw jute and kindred fibre crop, cotton, cinchona and other medicinal plants, fruit growing, vegetable growing or keeping orchards or groves, etc. Cultivation does not include the following plantation crops - tea, coffee, rubber, coconut and betel-nuts (areca).

Agricultural labourer

A person who works on another person's land for wages in money or kind or share is regarded as an agricultural labourer. She/he has no risk in the cultivation, but merely works on another person's land for wages. An agricultural labourer has no right of lease or contract on land on which she/he works.

Household industry worker

Household industry is defined as an industry conducted by the head of the household herself/himself and or by the members of the household at home or within the village in rural areas and only within the precincts of the house where the household lives in urban areas. The larger proportion of workers in household industry should consist of members of the household including the head. The industry should not be run on the scale of a registered factory which would qualify or has to be registered under the Indian Factories Act and should be engaged in manufacturing, processing, servicing and repairs of goods.

It does not include professions such as a Pleader, Doctor, Musician, Dancer, Waterman, Astrologer, Dhobi, Barber, etc. or merely trade or business, even if such professions, trade or services are run at home by members of the household.

Other worker

A person who has been engaged in some economic activity during the reference period but not as a cultivator or agricultural labourer or in Household Industry is termed as a 'Other Worker (OW)'. The type of workers that come under this category of 'OW' include all government servants, municipal employees, teachers, factory workers, plantation workers, those engaged in trade, commerce, business, transport, banking, mining, construction, political or social work, priests, entertainment artists, etc. In effect, all those workers other than cultivators or agricultural labourers or household industry workers, are 'Other Workers'.

Work participation rate

Percentage of workers (main + marginal) to total population

Population density

Population density is the number of persons inhabited per square kilometre of the area.

Age

Age is measured in terms of the completed number of years

Sex -ratio

Number of females per 1000 males in a population.

(viii) Non Census Concepts

Improved drinking water :

If the household had access to drinking water supplied from a tap, hand pump, tube well or well (protected or covered) situated within or outside the premises, it is considered as having access to improved drinking water. It may be mentioned that such uniform definition may not be valid across all states.

System of sewerage :

Generally, a sewerage system would mean a network of mains and branches of underground conduits for the conveyance of sewerage to the point of disposal. Sewers that carry only household and industrial wastage are called separate sewers; those that carry storm water from roofs, streets and other surfaces are known as storm water drains, while those carrying both sewage and storm water are called combined sewers. However, in some towns which are not provided with such underground sewerage system, it is served by open surface drain, box drain, sylk pattern drain, etc., in these towns.

Type of latrine and Method of disposal of night soil :

There are three prevalent systems of disposal of human wastes, viz.(i) underground sewerage, (ii) sanitary water flush latrines with individual disposal systems, like septic tank, leaching cess pool and collecting well, and (iii) dry type of latrines with manual scavenging. The system of underground sewerage provides for the street sewerage with which are connected the sanitary latrines constructed in the houses having water closets and fitted with flushing cistern (or hand flushing). Through this sewer the faecal matter is transported without the need for scavenging. This system generally exists in cities and big towns. Where the streets sewer does not exist these sanitary water flush latrines are connected to a local septic tank with a sub-soil dispersion system or a leaching pit. Here the liquid wastes from the water closet is disposed of locally in leaching pit, a septic tank with a soil dispersion system is constructed. This dispersion requires an optimum travel through the pores of the soil which renders the harmful liquid bacterially innocuous by the slow process of filtration through the soil traversed. Where the soil is impermeable, collecting wells are constructed and the sanitary water flush latrines are connected with them. These wells are cleaned at periodic intervals by a suitable device. The dry type of latrines are of service type latrines from where human excreta is removed by scavengers from house to house, in most cases carrying it on their heads or shoulders or in baskets with handle or wheel barrows. These are then collected in bullock carts or trucks or tractors and trolleys for being carried to the dumping grounds.

Fertility :

In demography, the word fertility is used in relation to the actual production of children or occurrence of births specially live births. Fertility is a measure of rate at which population adds to itself by births and normally assessed by relating the number of births to a full or part of the population, such as number of married women or number of women of child bearing age. The definitions of the terminology used in computing different fertility rates are mentioned below:

Crude birth rate(CBR) :

Ratio of the number of live births in a year to the mid year population, normally expressed per 1000 population.

$$CBR = \frac{\text{Number of live births during the year}}{\text{Mid –year Population}} \times 1000$$

Crude death rate(CDR)

Ratio of the number of deaths in a year to the mid year population, normally expressed per 1000 population.

$$CDR = \frac{\text{Number of deaths during the year}}{\text{Mid- year Population}} \times 1000$$

Natural growth rate

Growth rate is obtained as the difference between crude birth rate and crude death rate in the absence of migration.

Age specific fertility rate (ASFR)

Number of live births in a year to female population in any specified age group normally expressed per 1000 women.

$$ASFR = \frac{\text{Number of live births in a particular age-group}}{\text{Mid-year female population of the same age-group}} \times 1000$$

Age specific marital fertility rate (ASMFR)

Number of live births in a year to married female population in any specified age group normally expressed per 1000 married women .

$$ASMFR = \frac{\text{Number of live births in a particular age-group}}{\text{Mid-year married female population of the same age-group}} \times 1000$$

General fertility rate (GFR)

Number of live births per 1000 women in the reproductive age-group (15-49) years in a given year.

$$GFR = \frac{\text{Number of live births in a year}}{\text{Mid-year female population in the age-group (15-49) years}} \times 1000$$

General marital fertility rate (GMFR)

Number of live births per 1000 married women in reproductive age-group (15-49) years in a given year.

$$GMFR = \frac{\text{Number of live births in a year}}{\text{Mid-year married female population in the age-group (15-49) years.}} \times 1000$$

Total fertility rate (TFR)

It is obtained as the total of the age specific fertility rates (number of children born per woman of the particular age) for the entire reproductive age span. It provides the average number of children that will be born to a woman under the fertility levels indicated by the age specific fertility rates assuming that there is no mortality of women till the completion of reproductive period.

$$TFR = \frac{5 \times \sum_{15-19}^{45-49} ASFR}{1000}$$

Total marital fertility rate (TMFR)

Average number of children that would be born to a married woman if she experiences the current fertility pattern throughout her reproductive span (15-49) years assuming that there is no mortality of women till the completion of reproductive period.

$$TMFR = \frac{5 \times \sum_{15-19}^{45-49} ASMFR}{1000}$$

Age-specific mortality rate (ASMR)

Number of deaths in a particular age and sex group per 1000 population of the same age group.

$$ASMR = \frac{\text{Number of deaths in a particular age-group}}{\text{Mid-year population of the same age-group}} \times 1000$$

q1

Probability of dying between birth and age 1. This can be used as approximate value of Infant Mortality Rate (IMR) which gives the ratio of number of deaths in a year of children aged less than one year to the number of births in that year.

q2

Probability of dying between birth and age 2.

q5

Probability of dying between birth and age 5. This indicator is also known as Under Five Mortality Rate (U5MR)

Infant mortality rate (IMR)

Ratio of the number of infant deaths (deaths of children below one year) in a year to the number of live births in that year.

$$IMR = \frac{\text{Number of infant deaths during the year}}{\text{Number of live births during the year}} \times 1000$$

Infant mortality rate comprises of two parts, viz., Neo-natal mortality rate and Post neo-natal mortality rate. The neo-natal mortality rate also comprises of two parts viz., Early neo-natal mortality rate and late neo-natal mortality rate. These are defined as:

Neo-natal mortality rate (NMR)

Number of infants dying within the first month of life (28 days or under) in a year per 1000 live births of the same year.

$$NMR = \frac{\text{Number of infant deaths aged 28 days or under during the year}}{\text{Number of live births during the year}} \times 1000$$

Early neo- natal mortality rate

$$ENMR = \frac{\text{Number of infant deaths of less than 7 days During the year}}{\text{Number of live births during the year}} \times 1000$$

Late neo-natal mortality rate

$$LNMR = \frac{\text{Number of infant deaths of 7 days to less than 29 days during the year}}{\text{Number of live births during the year}} \times 1000$$

Post neo-natal mortality rate (PNMR)

$$PNMR = \frac{\text{Number of deaths of 29 days to less than one year during the year}}{\text{Number of live births during the year}} \times 1000$$

Peri-natal mortality rate (PMR)

Number of still births plus deaths within 1st week of delivery per 1000 births in a year.

$$PMR = \frac{\text{Number of still births and infant deaths of less than 7 days during the year}}{\text{Number of live births and still births during the year}} \times 1000$$

Still birth rate(SBR)

$$SBR = \frac{\text{Number of still births during the year}}{\text{Number of live births and still births during the year}} \times 1000$$

Maternal mortality rate(MMR)

Number of deaths of women in the age group 15-49 while pregnant or within 42 days of termination of pregnancy from any cause related to pregnancy and child birth per 1,00,000 live births in a given year.

$$MMR = \frac{\text{Number of maternal deaths to women in the age group 15-49}}{\text{Number of live birth}} \times 1,00,000$$

Eligible couple (Couples per 1000 population)

Number of currently married females in the age group15-44 years per 1000 persons of all ages.

Child woman ratio (0-4)

1. Number of children in the age group 0-4 years per 1000 women in the age group 15-49 years.

Child woman ratio (5-9)

2. Number of children in the age group 5-9 years per 1000 women in the age group 15-49 years.

Migration

Migration is the third component of population change, the other two being mortality and fertility. A person is considered as a migrant by place of birth if the place in which he/she is enumerated during the census is other than the place of his/her birth. Similarly a person is considered as a migrant by place of last residence if the place in which he/she is enumerated during the census is other than his/her place of immediate last residence outside the village or town and not simply in another house or locality in the same village or town. Certain aspects concerning temporary movement/migration of people has been explained below as these are important components concerning migration :-(i) Migration of persons in search of job is high in the country. In many cases such migrants are only seasonal in nature. People migrate to other places for work in a particular season and come back again to their usual place of residence after three or four months. All such workers are treated as migrants. Similarly, if a person moved to any other place for attending short term vocational or educational course that lasted for only few months of a year, she/he too were considered as a migrant. (ii) Where a person had merely gone out to another place or had been shifting from one place to another purely on tour, pilgrimage, visit to hospital for treatment or for temporary business purposes, such persons are

not deemed to have had another residence different from the place where she/he or her/his family normally resides. She/he is not considered as migrant.

(iii) A woman temporarily moves into a hospital or to her parents or other relative's house for delivery and if the hospital or the parents/relatives houses is in a place different from usual place of residence, the place where the hospital or parents/relative's house is the place of last residence of the child but not of the mother. A new response category 'Moved after birth' was added in Census of India 2001 in the question on 'reasons for migration' to bring out additional migration patterns. Natural calamities or distress migration as a reason for migration for last residence migrants included in 1991 Census, is covered under category of 'Others'. The reason for migration has been determined as applicable at the time of migration and not in reference to any point of time after that. For example, if a person had moved from the place of her/his last residence for the purpose of education and subsequently at some point of time got employment there only, the reason for migration would be 'education' and not 'work/employment'.

Internal and International migration :

The migrational movements are of three types

(i) Migration within the state itself with its components (a) Migration within the district of enumeration (intra district migration) (b) Migration from one district of state to another district of state (inter district migration)

(ii) Migration from one state to another State of the country (inter-state migration)

(iii) Migration from one country to another country. The first two streams together constitute internal migration, while the last type of movement is called international migration. The present name of the country, state or district and not the name by which they were known at the time of her/his birth or last residence were recorded.

Rural - Urban components of migration:

Rural or Urban status in respect of migrants have been determined as applicable at the time of migration and not with reference to any point of time after that. The flow of migrants consists of four streams viz. rural to rural, rural to urban, urban to rural and urban to urban.

Civic status of urban units

Civic Status of a town/city is determined on the basis of Civic Administrative authority of the town e.g., Municipal Corporation / Corporation, Municipal Committee/ Municipal council, Municipality etc.

Size class of UA / town :

Size-class of UA/Town is based on the population size of the UA/City/Town UAs./Towns with 1,00,000 and above population are classified as Class I UAs. / towns. These Class I UAs. / towns are now further sub classified in to seven sub classes namely M1 to M7 depending on the population size of UA/City/ Town. These are M7(5,000,000 and above); M6(2,000,000 to 4,999,999); M5 (1,000,000-1,999,999) M4 (500,000-999,999); M3(300,000-499,999), M2 (200,000-299,999) & M1 (100,000-199,999). towns with, 50,000 to 99,999 population are classified as Class II towns, 20,000 to 49,999 population are Class III towns, population with 10,000-19,999 are Class IV towns, population with 5000 and 9999 are Class V towns and towns with less than 5000 population are Class VI towns.

Slum area :

The Slum Areas (Improvement and Clearance) Act, 1956 which was enacted by the Central Govt. defined slums as a) Areas where buildings are in any respect unfit for human habitation; or b) are by reasons of dilapidation, overcrowding, fault arrangement and design of such buildings, narrowness or faulty arrangement of streets, lack of ventilation, light or sanitation facilities, or any combination of these factors, are detrimental to safety, health or morals.

Mega city :

The concept of 'Mega city' is a recent phenomenon in the Urban Sociology and is defined in term of metropolitan city in the form of large size, problem of management of civic amenities and capacity to absorb the relatively high growth of population. Indian Census in 1991 treated the population size of 5 million and above as the cut off point to identify a place as the mega city. Whereas, for the purpose of inclusion in Centrally Sponsored Scheme for Infrastructure Development in Mega cities the Ministry of Urban Affairs and employment, Department of Urban Development adopted the criteria of 4 million and above population as per 1991 Census for Mega Cities. In 2001 Census, cities with 10 millions and above population have been treated as Mega cities.

Analytical Note

(ix) 2001 Census findings - Population and its distribution

(a) Distribution of Population in Rural - Urban areas:

According to 2001 Census the total population of Medak district stands at 2,670,097 with 1,352,446 males and 1,317,651 females. The district stands at 16th rank as far as population is concerned in the state. Out of the total population of the district 2,286,573 persons constituting 85.64% are residing in rural areas and the remaining 383,524 persons (14.36%) are residing in urban areas. The proportion of urban to total population regarded as an index of urbanization is 14.36% for Medak district corresponding to state figure of 27.30%. Average number of towns for 100 inhabited villages in the district is less 1% (0.90%).

Medak district has 1,254 villages in 45 mandals of which 1,225 are inhabited villages. The average number of inhabited villages per mandal is 27. Siddipet mandal is the largest mandal in terms of population accounting 5.70% of the district population. In term of number of villages, Manoor mandal leads with 45 villages and all are inhabited villages. Ramachandrapuram mandal has least i.e. 5 inhabited villages. As regard population, Regode mandal reported least population i.e. 33,056 in the district.

The urban population is distributed among 11 urban units of which 5 are statutory towns. The average size of an urban centre in the district works out to 34,866 persons. Siddipet Municipality has largest population (61,809) where as Isnapur is the smallest town with a population of (7,576). There is no town in the district which has less than 5,000 population.

(b) Size class and status of towns, population Growth, density and sex ratio, work participation rate and Literacy rate.

Size class and status of the town:

During every Census the number of Census towns and statutory towns changes due to addition of new Census towns declassification of old Census towns, notifying of new statutory towns, de-notifying of old statutory towns etc., For the purpose of analysis of varied demographic characteristics urban areas have been divided into six classes by size of population. Of the 11 towns in the district, 3 class II, 4 class III, 3 class IV and one is class V town, not a single town is categorized as class I and Class VI.

Population Growth:

The population of district was 2,269,800 as per 1991 Census and has gone upto 2,670,097 persons in 2001 adding 400,297 persons during the decade 1991-2001. The growth rate revealed by the district(17.64%) is more than the state growth of 14.59% during the decade. Medak district ranks 5th in growth rate among 23 districts in the state.

Rural Urban growth rates shows little variation. The rural growth rate is recorded as 17.78 while urban growth rate is 16.75. As regard growth rate in rural population the district occupies 5th position, when we speak about urban growth rate, it occupies 8th place of the state.

Density:

The overall density of population in the district is 275 persons per sq.km and is below the state average of 277. Among urban areas Siddipet town recorded highest 19,315 persons per sq.km followed by 8,575 persons in Zahirabad town. Least density i.e. 842 persons per sq.km. has been reported in Isnapur town.

Sex-Ratio:

The Medak district has sex-ratio 974 females per 1000males while it was 970 in 1991 Census. It is below than state average sex ratio of 978. The district occupied 13th rank in respect of

sex ratio among 23 districts. Medak mandal has the highest sex ratio of 1,027. While Patancheru has lowest sex ratio of 922. Among urban units Medak town has reported highest sex ratio of 1,011 and Bollaram Census Town reported lowest sex ratio of 709.

Work participation rate:

The work participation rate for total workers is defined as percentage of total workers to total population. The total workers participation rate in Medak district is 48.45. Among the total workers the percentage of main workers stands at 39.70%. The total workers participation rate separately for males and females in the rural areas are 56.3% and 46.1% respectively, against corresponding figures for urban areas are 49.6% and 13% respectively. Among the main workers as seen from the percentage of workers of 2001 over than 1991, a decrease is indicated. The female workers participation has slightly gone up from 40.33 in 1991 Census to 41.38 at 2001 Census.

Literacy Rate:

While calculating effective literacy rate, children in 0-6 age group have been excluded. The district returned 1,171,134 literates forming 51.65% of the population of the district, excluding 0-6 age group. Separately for urban and rural areas the literacy rate workout to 76.5% and 47.4% respectively. Again within the urban areas male and female literacy rates separately workout to 85.1% and 67.3%. For the rural population the male and female literacy rates workout to 60.7% and 33.9%.

(c) Scheduled Castes and Scheduled Tribes of earlier Censuses :

To uplift social and economical status of Scheduled Castes and Scheduled Tribes, one of the basic requirement of these population is the availability of data on age, sex, marital status, economy, education, fertility etc. In this regard these particulars are being collected in each census from 1951 onwards and provided to planners and administrators to take-up necessary steps to evolve suitable plans for the development of Scheduled Castes and Scheduled Tribes.

The President of India has notified some castes, races or tribes or parts of groups within castes, races or tribes as Scheduled Castes under Article 341 of the Constitution of India. Similarly, under Article 342 of the Indian Constitution, President of India has declared all such tribes or tribal communities or parts of groups within the tribes or tribal communities as Scheduled Tribes. The list of Scheduled Castes and Scheduled Tribes are notified for each State or Union Territory and are valid only within the jurisdiction of that State and Union Territory. The list of Scheduled Castes and Scheduled Tribes is provided in this volume under the chapter on 'Census concepts'.

Scheduled Castes population in the district as per 1991 Census:

As per 1991 census, there were 4,05,722 comprising 2,05,310 males and 2,00,412 females. This works out to 15.93% to the total population of the district. Of the total population of Scheduled Castes, 91.75% were living in rural areas of the district.

The following statement reveals that Scheduled Castes population has recorded 30.88% growth rate during the decade 1981-91. It was 28.02% in rural areas which is below to the growth rate of total district. Growth rate in Urban areas was 74.10% more than double to the district growth rate.

The sex ratio of Scheduled Castes population (976) was higher in comparison to that of the general population in the district(970). The sex ratio in rural area and Urban of the district was also (976). Literacy rate among Scheduled Castes 17.27% which was lower than the district (32.41%). In urban areas their literacy rate was 43.34%. Proportion of main workers among Scheduled Castes was 54.56 percent and the Marginal workers was 1.71 percent. In rural areas workers population was 56.26 percent and in urban areas their percentage was 35.59.

Statement (i)

Particulars of decadal variation, sex ratio, literacy and workers participation of Scheduled Castes population-1991

Sl.No.	Particulars		Total	Rural	Urban
1	Percentage decadal Variation:				
		1981	310,001	290,775	19,226
		1991	405,722	372,249	33,473
			(30.88)	(28.02)	(74.10)
2	Sex ratio		976	976	976
3	Percentage of Literacy		17.27	14.93	43.34
4	Percentage of				
	:i. Main Workers		54.56	56.26	35.59
	ii. Marginal Workers		1.71	1.81	0.69
	iii. Non-workers		43.73	41.93	63.72

It is seen from the below furnished table that Scheduled Castes population in the district has registered 11.13% growth rate during the decade 1961-1971. The same for the decade 1971-1981 and 1981-1991 was 33.25% and 30.88% respectively. The growth rate during 1971-1981 was more than the growth rate of 1961-1971. However growth rate has been decreased from 33.25% during 1971-1981 to 30.88% during 1981-1991.

Statement (ii)

Statement showing the decadal variation in Scheduled Castes population in Medak district in comparison to Andhra Pradesh State between 1961-1991 Censuses

Sl. No.	Census Year	Scheduled Castes Population in district (percent variation shown in bracket)	Scheduled Castes Population in State (percent variation shown in bracket)

The following statement gives the proportion of Scheduled Castes population to total population in the villages. Out of 1,181 villages where Scheduled Caste population returned in the district, 25 villages constituting 2.12% were having less than 6% of Scheduled Caste population. Of the remaining villages, 92(7.79%) were having 6 to 10% of Scheduled Castes population, 236(19.98%) having 11 to 15% and 179(15.15%) having 31% and above to total population of the respective villages. The maximum number of villages i.e., 275 and 374 forming 23.29% and 31.67% having 16-20 and 21-30 percentage range returned in the district.

Statement (iii)

Proportion of Scheduled Castes Population to Total Population in the villages-1991

Percentage range of Scheduled Castes population to Total population	Number of villages in each range	Percentage of villages in each range
1	2	3
5 and below	25	2.12
6-10	92	7.79
11-15	236	19.98
16-20	275	23.29
21-30	374	31.67
31 and above	179	15.15
Total	**1,181**	**100.00**

The following statement shows the percentage of Scheduled Castes population to the total population of the towns in the district. Out of 328,487 Urban population, Scheduled Castes population of 33,473 constituted 10.19%. Ramachandrapuram BHEL township has 13.87% Scheduled Castes population to the total population of the town, followed by Ramachandrapuram town 13.84%. Shankarampet and Siddipet towns were as low as 4.99% and 7.46% respectively which were below the district average.

Statement (iv)

Percentage of Scheduled Castes Population in Towns

Class & Name of Town		Total Population	Total scheduled Castes population	Percentage of Scheduled Castes Population to Total Population
III	Andole(P)	20,761	2,659	12.81
III	Medak(M)	35,775	3,248	9.08

The Scheduled Tribes population in the district as per 1991 Census :

As per 1991 Census, there were 95,042 Scheduled Tribes population comprising 48,950 males and 46,092 females. This works out 4.19 % to the total population of the district. Of the total population of the Scheduled Tribes 96.90% were living in rural areas of the district.

The following statement reveals that Scheduled Tribes population in the district has registered 38.72% growth rate during the decade 1981-91. The growth rate 36.42% has been recorded in the rural areas of the district. In urban areas it was 192.35%. The sex ratio in the district was 941, while in rural areas it was 946 and in urban areas 790. As regards the Literacy rate among the tribes, it was 11.49% , while in rural areas it was 10.47%. However in urban areas it was higher (40.91%) than rural areas as well as the district total.

The population of Main workers and marginal workers among tribals in the district was 49.51% and 1.75% respectively where as in rural areas of the district it was 50.04% and 1.79% respectively. But in urban areas they were reported 32.98% and 0.37% respectively.

Statement (v)

Particulars of decadal variation, sex ratio, literacy and workers participation of Scheduled Tribes population-1991

Sl.No .	Particulars		Total	Rural	Urban
1	Percentage decadal Variation:	1981	68,516	67,509	1,007
		1991	95,042	92,098	2,944
			(38.72)	(36.42)	(192.35)
2	Sex ratio		941	946	790
3	Percentage of Literacy		11.49	10.47	40.91
4	Percentage of				
	i. Main Workers		49.51	50.04	32.98
	ii. Marginal Workers		1.75	1.79	0.37
	iii. Non-workers		48.74	48.17	66.65

It is seen from the following statement that the Scheduled Tribes population growth rate 1961-1971 was 41.18, while it has recorded abnormal increase i.e. 56997% during the decade 1971-1981. This

abnormal increase was due to inclusion of some of the tribes in the list of Scheduled Tribes during the decade. However the variation between 1981-1991 was 38.72%.

Statement (vi)

Statement showing the decadal variation in Scheduled Tribes population in Medak district in comparison to Andhra Pradesh State between 1961-1991 Censuses

Sl. No.	Census Year	Scheduled Tribes Population in district (percent variation shown in bracket)	Scheduled Tribes Population in State (percent variation shown in bracket)
1	1961	85(--)	1,324,368 (--)

Note: *Decrease in urban population in certain mandals is due to declasification of census towns.*

The above table shows decadal changes in population of Mandals (Rural and Urban) growth and urbanization. This district has recorded 17.6% growth during the decade, which is more than the state average growth. The rural and urban growth rates are recorded as 17.8% and 16.8% respectively. At mandal level Kangti, Jinnaram and Patancheru recorded more than 40% growth. Least growth rate i.e., 4.6% is in Kohir mandal.

The district percentage of urban population work out to 14.4%. During 1991 Census also urban population was 14.5% to the total population of the district. Out of 45 mandals only 8 mandals have urban units. Among these 8 mandals, Ramachandrapuram mandal reported 83.9% urban population followed by 54.8% in Sangareddy mandal, all these are above the district average urban population.

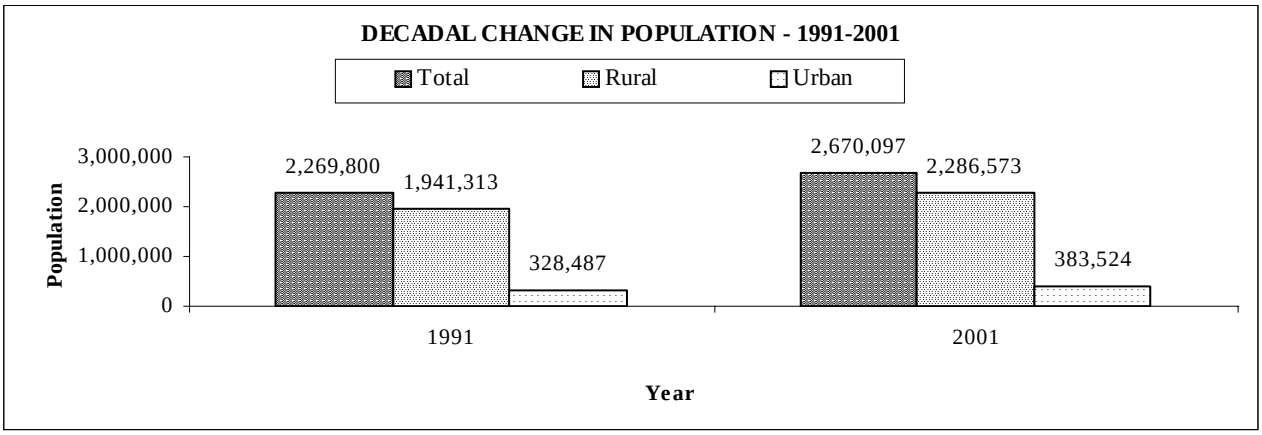

TABLE 2

District (Rural) Total:		**47 (3.8)**	**145,992**	**141,638**	**11 (0.9)**	**87,048**	**82,994**

Note: *Percentage in brackets.*

** Excludes Census Towns and OGs*

The table reveals number and percentage of inhabited villages in specific population ranges. Out of 1,225 inhabited villages in the district, maximum number i.e. 45 villages found in Manoor mandal while least number i.e. 5 villages in Ramachandrapuram. 24 (2%) villages are in less than 200 population range and 299 (24.4%) villages are in the population range of 2,000-4,999 and the population of 11 (0.9%) villages are having more than 10,000 population. 26 mandals do not have the villages with less than 200 population, while 11 mandals have one village each with more than 10,000 population.

TABLE 3

NEW TOWNS, DENOTIFIED, DECLASSIFIED AND MERGED TOWNS IN 2001 CENSUS

	Name of Town
	1
(a) New	
(i) Statutory Town	
	-Nil-
(ii) Census Town	
	1. Eddumailaram
	2. Bollaram
	3. Isnapur
(b) Denotified	
(i) Statutory towns of 1991 Census denotified and also did not satisfy the criteria to be treated as Census towns	
	-Nil-
(ii) Statutory towns of 1991 Census denotified but identified as Census towns based on demographic and economic criteria	
	-Nil-
(iii) Census towns of 1991 Census are notified as statutory town in 2001 Census	
	-Nil-
(c) Declassified	
	1. Andole
	2. Shankarampet
(d) Wholly merged with other town(s)	
	-Nil-

Declassified means the census towns of 1991 census which failed to satisfy the demographic and economic criteria

The above table indicates new denotified, declassified and merged towns. As per 2001 Census this district has 5 statutory towns which are continuing since 1991 Census. No new statutory town has been notified, but 3 new Census towns have been notified for this Census. Two Census towns of 1991 Census have been declassified.

TABLE 4

DISTRIBUTION OF VILLAGES BY POPULATION DENSITY, 2001

Range of population density (per square kilometre)	Total number of villages in each population density range	Percentage of villages in each population density range	Population	Percentage distribution of population
1	2	3	4	5
0-10	4	0.3	26	-
11-20	-	-	-	-
21-50	14	1.1	5,077	0.2
51-100	51	4.2	33,202	1.5

District Total:	**1,225**	**100.0**	**2,286,573**	**100.0**

Population Density (Rural) of the district: 242.6

The above table shows distribution of villages by population density. The density of population shows that highest percentage 38.4% villages with 39.0% of district rural population are falling in the range of population density of 201-300 persons per Sq.km. Only 4 villages with 26 persons is found in 10 and below range of population density. 15.3% of district population is living in 6.6%. Villages, where range of population density is above 500. The density of district (Rural) is 242.6 persons per Sq.km.

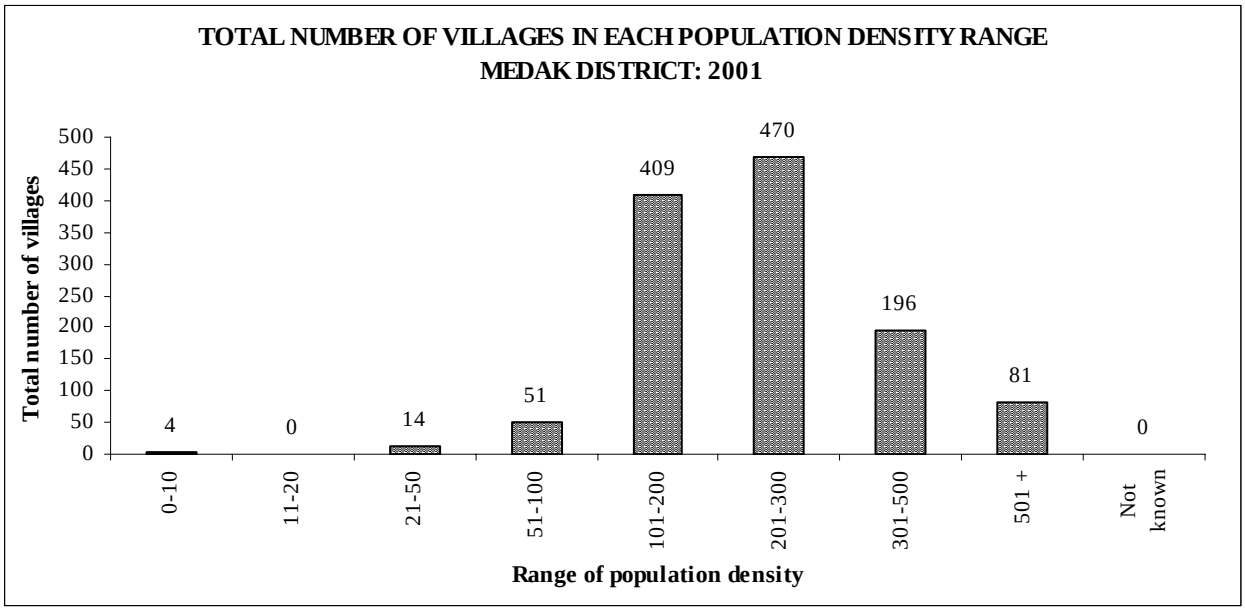

TABLE 5

SEX RATIO OF STATE AND DISTRICT, 1901 - 2001

Census Year	State			District		
	Total	Rural	Urban	Total	Rural	Urban
1	2	3	4	5	6	7
1901	985	983	999	977	976	991
1911	992	991	1,000	976	974	1,000
1921	993	994	986	977	975	1,006
1931	987	989	966	979	978	992
1941	980	981	975	967	968	956
1951	986	985	987	991	989	1,007
1961	981	988	951	996	1,000	955
1971	977	983	949	986	988	963
1981	975	984	948	982	989	930
1991	972	977	959	970	974	946
2001	978	983	965	974	979	947

Note : *Sex ratio has been defined here as the number of females per 1000 males*

The above table gives sex ratio for total, rural and urban areas at mandal level. The sex ratio in the district is 974 for whole district, while it is 979 in the rural and 947 in the urban areas. During last 11 Censuses, highest sex ratio in urban was noticed in 1951 Census followed by 1921 Census where females were 1,007 and 1,006 per 1,000 males respectively. Females were equal in 1911 Census. It is also evident, females were equal to males in rural area in 1961 Census.

**Excludes Census Towns and O.Gs.*

The above table gives sex ratio among 0-6 age group population at district level and mandal parishad level. Chinnakodur mandal parishad has highest ratio of 1,009 females per 1,000 males and Kondapur mandal parishad have lowest ratio of 908 females, when the district sex ratio is 966. Among 45 mandals, 19 mandals have reported less sex ratio than the district average sex ratio, while Kalher mandal parishad equal the district average sex ratio 966.

TABLE 12

SEX RATIO OF RURAL POPULATION IN THE AGE GROUP 0-6 BY RANGES, 2001

Range of sex ratio for villages	Number of inhabited villages	Percentage distribution of villages	Population (2001)	Percentage distribution of population
1	2	3	4	5
, Less than 700	32	2.6	2,765	0.8
700-749	28	2.3	4,307	1.2
750-799	62	5.1	11,695	3.3
800-849	96	7.8	27,890	8.0
850-899	159	13.0	47,283	13.5
900-949	177	14.4	60,949	17.5
950-999	163	13.3	66,703	19.1
1000-1099	275	22.5	84,094	24.1
1100+	233	19.0	43,520	12.5
District (Rural) Total	**1,225**	**100.0**	**349,206**	**100.0**
Sex ratio (Rural) for District:		**966**		

The above table gives sex ratio of rural population in the age group of 0-6 by ranges as per 2001 Census count. Out of 1,225 villages, the highest number of villages 275 (22.5%) covering 24.1% of rural population in the age group 0-6 is falling the sex ratio of 1000-1099 followed by 233 (19.0%) villages covering 12.5 % population in the rural area in the range of 1100+. Next, to it, 177 (14.4%) villages with 17.5% population are in the range 900-949 sex ratio. In 508 villages sex ratio of 0-6 population shows that females are either equal to males or more than males.

TABLE 13

SEX RATIO OF POPULATION IN THE AGE GROUP 0-6 OF URBAN AGGLOMERATIONS/TOWNS, 2001

Sl. No.	Name of UA/Town+	Urban status of town	Total population in 0-6 age group			Sex ratio for 0-6 age group
			Persons	Males	Females	
1	2	3	4	5	6	7
1	Bollaram	CT	1,951	1,011	940	930
2	Eddumailaram	CT	1,887	1,037	850	820

9	Sangareddy	M	7,815	4,025	3,790	942
10	Siddipet	M	8,033	4,048	3,985	984
11	Zahirabad	NP	7,479	3,837	3,642	949
	District(Urban) Total		**53,437**	**27,349**	**26,088**	**954**

+ Towns arranged in alphabetical order

The above table furnishes sex ratio of population in the age group 0-6 of towns in the district. In Ramachandrapuram BHEL township highest sex ratio 1,019 is recorded and lowest 820 in Eddumailaram (CT). Patancheru (CT) sex ratio nearly equal the district urban average sex ratio i.e. 958 as against 954 of the district (urban).

The above table has furnished the percentage of scheduled castes and scheduled tribes population to the total population at mandal level for both rural and urban areas of district. Of 26,70,097 total population of the district, 17.6% population belong to scheduled castes population and 5% belong to scheduled tribes population. In rural areas scheduled castes population formed 18.9% and in urban area it is 9.8%. The rural and urban percentage of scheduled tribes population is 5.7% and 1.2% respectively. As regard at mandal

level is concerned, scheduled caste population in Medak mandal is recorded 13.9% in which rural is 16.9% and urban is 9.2%. Sadasivpet mandal is recorded 16.6% in which rural is 22.5% and 8.6% in urban. Jharasangam mandal has recorded highest percentage of scheduled castes population i.e. 27.5% to the total mandal population, Siddipet is recorded lowest scheduled caste population (12.8%).

The concentration of scheduled tribes population is more in Kowdipalle mandal where they have recorded 18.2% and low 0.4% in Munpalle mandal. Speaking about mandals having urban area it is noticed that highest scheduled tribes population in Zahirabad mandal is 7.5%, while in rural area of the mandal is 10.8% and in urban area is 0.5%.

**Excludes Census Towns and O.Gs.*

The above table shows the number and percentage of literate among scheduled tribes at mandal parishad level. Their literacy rate in the rural area of the district is 26.7% when 39.7% males and 13.0% females are literates. Literacy rate of schedule tribes population is very low (12.8%) in Shankarampet (A) and it is high (50.6%) in Siddipet mandal parishads. Literacy rate in 17 mandal parishad is lower than the district average rate. Large gap 45.7 is seen between literacy rate of males and females in Munpalle mandal parishad where it is 26.7 in the district (rural).

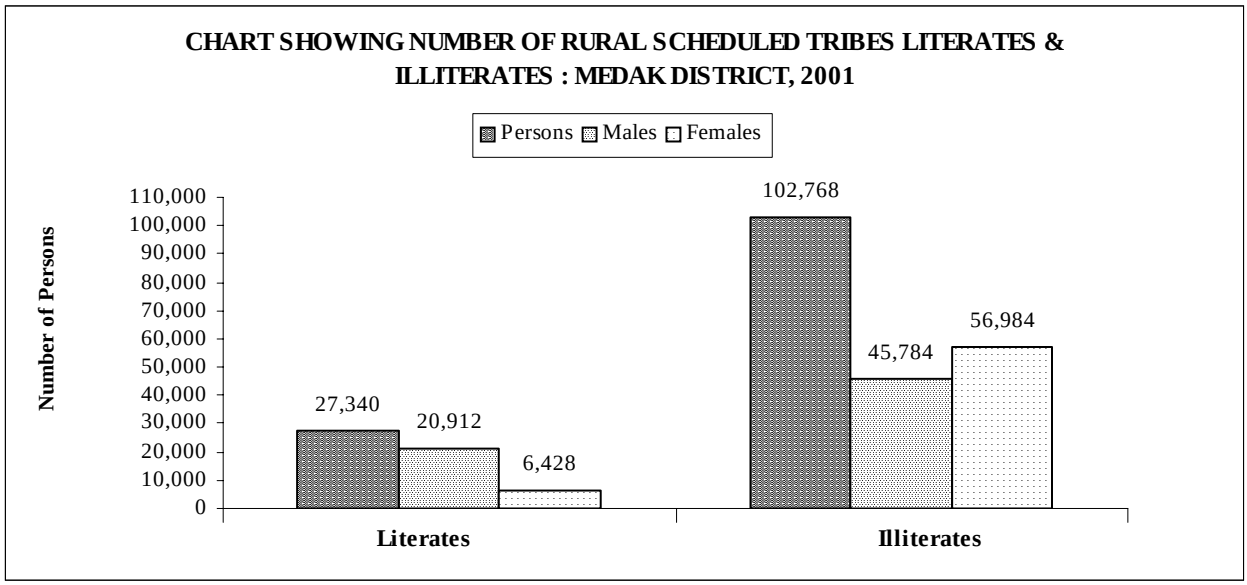

TABLE 29

DISTRIBUTION OF VILLAGES BY LITERACY RATE RANGE FOR SCHEDULED TRIBES POPULATION, 2001

Range of literacy rate for villages	Number of inhabited villages	Percentage distribution of villages	Scheduled Tribes Population	Percentage distribution of population

+ Towns arranged in alphabetical order

The above table shows town wise number and percentages of main workers, marginal workers and non-workers. The percentage of urban main workers of the district comes to 27.1%, marginal workers to 4.7% and total workers 31.8%. 43.6% males and 9.6% females are in the category of main workers, males and females marginal workers are 5.9% and 3.4% respectively. Bollaram(CT) has highest population of main workers with 48.1% and lowest in Sangareddy(M) with 21.6%. Similar trend is prevailed among total workers i.e. 52.5% in Bollaram and 27.1% in Sangareddy towns. Percentage among male and female total workers also in Bollaram town is in top with 71.2% and 26.1% respectively.

Note: *Percentage of Workers to total workers are given in brackets*

This table reveals that total workers are distributed by four categories of economic activity, 37.5% are agricultural labourers, followed by other workers 27.9%. Next to it cultivators are 30.2%. The household industry workers are 4.4%. The sex wise break up shows the males participation is more in other workers category 36.0%, followed by cultivators 33.3% and agricultural labourers (27.8%). The least male workers (2.8%) are in household industry. As regard females they are more in Agricultural labourers category (50.9%), and (6.5%) in household industry. 25.9% of female workers are cultivator, (16.8%) are other workers. In Kowdipalle mandal (48.7%) cultivators are recorded which is highest in the district, Manoor mandal has recorded highest agricultural labourers of 57.0%. Ramayampet mandal is highest in Household industry 16.7%, Ramachandrapuram is highest percentage in other category (81.3%) workers.

Note: *Percentage of Workers to total workers are given in brackets*

**Excludes Census Towns and O.Gs.*

It can be seen from this table, the workers participation is 51.2% to the total rural population of the district. At the same time sex wise breakup among rural workers 56.3% are males and 46.1% are females. Among total workers 40.7% are agricultural labourers, 33.1% are cultivators, 21.8% are engaged in other works and 4.4% are in household industry. Males and females in four economic activities are 38.0% and 27.0% (cultivator), 31.4% and 52.4% (agricultural labourers) 2.8% and 6.3% (household industry) and 27.8% and 14.3% (other workers). As already discussed in table 34, highest cultivators 48.7% are in Kowdipalle, agricultural labourers (57%) are in Manoor, 16.7% household industry workers are in Ramayampet and 53.6% other category workers in Patancheru mandal Parishads.

+ Towns arranged in alphabetical order

The above table reveals the town wise distribution of workers by sex in four categories of economic activities. The percentage of workers of urban part of the district comes to 31.8% total workers. Of these 49.6% are male workers and 13% are female workers. Of the total workers 86.6% are engaged in other works and remaining 13.4% are engaged as cultivators (2%), agricultural labourers (6.8%) and in household industry (4.6%). The highest percentage of 98.9% of workers in Ramachandrapuram (BHEL) township (CT) are categorized as other workers, followed by Bollaram(CT) 97.4%. Medak(NP) is at bottom with 73.1% in other workers category, while Siddipet(M) stood at top in the percentage of household industry workers (9%) among the town of Medak district.

Note : *- Percentages are given in brackets.*

*** Excludes Census Towns and OGs*

** Based on the improved drinking water source, drinking water supply has been classified as `Improved ' or otherwise. If the household has access to drinking water supplied from a tap or a hand pump / tube well situated within or outside the premises it is considered as having access to `Improved drinking water source'. However, the concept of improved drinking water is state specific and this is to be considered accordingly.*

 # Post office includes Post office, telegraph office and Post and telegraph office.

$ Transport communication includes bus service, rail facility and navigable waterways.

The table speaks about availability of amenities in villages by mandals. All the inhabited villages in the district have atleast one primary amenity. Education facilities are available in (99.3%) villages of the district. Medical facilities are available in 53.8% villages. Almost all the facilities are available in all the villages of Kohir mandal except the facilities of Banks and Agricultural Credit Societies. The postal facilities are available in 45.7% villages. Most of villages in Dubbak, Siddipet, Chinnakodur, Mirdoddi, Kohir, Gajwel and Jagdevpur mandal parishads are denied with postal facilities. Improved drinking water facilities are available in all the villages. Telephone facilities are available in 588 (48%) villages.

Out of 1,225 villages 978 (79.8) villages have pucca roads. The villages (36%) are still deprived of transport facilities. This can be improved only when these villages are connected by pucca roads facility. Commercial bank is in 110 (9%) villages and Agricultural Credit Societies in 270 villages are available. All the villages in the district have been electrified.

Note : *- Percentages are given in brackets.*

***Excludes Census Towns and O.Gs.*

** Based on the improved drinking water source, drinking water supply has been classified as `Improved ' or otherwise. If the household has access to drinking water supplied from a tap or a hand pump / tube well situated within or outside the premises it is considered as having access to `Improved drinking water source'. However, the concept of improved drinking water is state specific and this is to be considered accordingly.*

 # Post office includes Post office, telegraph office and Post and telegraph office.

$ Transport communication includes bus service, rail facility and navigable waterways.

******Excludes Census Town and O.Gs.

The above table shows that out of 22,86,573 rural population of the district, 73.5% have Medical facilities, 70.2% have Post Office, 59.8% have Telephone, 90.5% have Transport facility, 24% have Banks, 39% have Agricultural Credit Societies and 87.5% have pucca approach road to their villages. Education, improved drinking water and electricity facilities are available to all the persons living in rural part of the district.

More than 90% villages Manoor, Dubbak, Siddipet, Nangnoor, Mirdoddi, Shankarampet(R), Jagdevpur and Ramachandrapuram mandal parishads are availing Medical facilities within their villages. Very poor position is seen in Regode (39.1%), Jharasangam (24%) and Munpalle(36.7%) mandal parishads. Telephone facility is not available to the villages of Nangnoor mandal parishad and only 8.1% persons of Kangti mandal parishad are enjoying within their villages. About 10% persons only availing Bank facilities in Manoor, Medak, Shankarampet(R) and Hathnoora mandal parishads within the villages.While in Ramachandrapuram mandal parishad no Bank is available in rural part of the mandal. Still less than 50% people of Kangti, Doultabad mandal parishads deprived of pucca approach road to their respective villages. For all rural people in the district have facility of improved drinking water and power supply within their villages.

TABLE 39
DISTRIBUTION OF VILLAGES NOT HAVING CERTAIN AMENITIES ARRANGED BY DISTANCE RANGES FROM THE PLACES WHERE THESE ARE AVAILABLE, 2001

Village not having the amenity of	Distance range of place from the village where the amenity is available			
	Less than 5 kilometres	5-10 kilometres	10+ kilometres	Total (Col 2 to 4)
1	2	3	4	5
1. Education :-				
(a) Primary School	8	1	1	10
(b) Middle School	404	192	74	670
(c) Degree College	52	136	1,030	1,218
2. Medical:-				
(a) Hospital	127	240	849	1,216
(b) PHC	195	349	623	1,167
3. Post Office	489	144	32	665
4. Telephone	149	152	336	637
5. Bus Service	160	43	17	220
6. Banks				
(a) Commercial Bank	297	444	376	1,117
(b) Cooperative Bank	141	269	803	1,213
7. Agricultural Credit Societies	350	343	262	955

The above table shows distribution of villages not having certain amenities within the villages at district level. Students of one villages have to travel 10+ kms. to get primary education and for middle school education students of 74 villages have to go to over 10+ kms. from their villages. Probably these villages might having less population. The students of 1,030 villages have to travel beyond 10 kms. to have degree colleges education. Out of 670 villages, 404 have middle school facility at a distance of less than 5 kms. for 192 villages at 5-10 kms. Out of 1,218 villages where degree colleges are not available within the villages, 52 have this facility at below 5 kms. for 136, at a distance of 5-10 kms.

Similarly, out of 1,225 villages 1,216 have deprived of hospitals facility and 1,167 of PHC facility. Of these 127 villages have hospitals facility within 5 kms., 240 villages have to go 5-10 kms. and 849 villages cover more than 10 kms.

As regard PHC 195 avail this facility within 5 kms., 349 at 5-10 kms. and remaining 623 at above 10 kms. Regarding Post Offices, 665 villages do not have the facility within the villages. Of these 32 have this facility at 10 kms. and above 144 have at 5-10 kms. and 489 villages have at below 5 kms.

About Telephone is concerned, 637 villages do not have this facility. Of these 149 villages at below

5 kms., 152 at 5-10 kms. and for 336 villages are available at 10+ kms.

For Bus facility out of 220 villages where this facility is not available within this villages,160 villages avail this facility at less than 5 kms,43 at 5-10 kms. and 17 at 10+kms.

Of the total villages 1,117 deprived of Commercial Bank and 1,213 of Co-operative banks. At a distance below 5 kms., 297 villages availing Commercial Bank facility and 141 Co-operative bank facility. At 5-10 kms. 444 villages availing Commercial Bank facility and 269 Co-operative Banks and at a distance above 10 kms. 376 Commercial Bank facility and 803 Co-operative bank facility. 955 villages do not have Agricultural Credit Societies. 350 villages have at less than 5 kms., 343 at 5-10 kms. and for 262 village at a distance of 10+ kms.

However, the concept of improved drinking water is state specific and this is to be considered accordingly.*

The above table shows the number and percentage of villages according to population range 2001 Census at district level. There are 109 villages with less than 500 population. Of these 100 (91.7%) have Education, 19 (17.4%) Medical, 28 (25.7%) Telephone and only one village has Post Office facility within the village. Of 263 villages with 500-999 population 64 (24.3%) villages have Medical, 22 (8.4%) Post Office and 96 (36.5%) have Telephone within the village. Of the 496 villages with 1,000-1,999 population 257 (51.8%) have Medical, 213 (42.9%) have Post Office and 234 (47.2%) have Telephone facility. 299 villages having population between 2,000-4,999. Of these villages 261 (87.3%) have Medical 267 (89.3%) have Post Office and 184 (61.5%) have Telephone facility. Almost all the villages with population between 5,000 and 9,999 have all facilities except Telephone, which is available for 74.5% villages. The villages with more than 10,000 population have all the important amenities. Improved drinking water and power supply is available to all villages irrespective of range of population. Transport, Banks, Agricultural Credit Societies and approach road facilities are available to more number of villages of most populated than less populated villages.

Sources: *Census of India 2001, H-Series;"Tables on houses, households amenities and assets"*

The table gives number of households by tenure status and number of rooms occupied in the district. This district has 5,29,096 households, of which 4,52,779 are in rural areas and 76,317 in urban areas. Of the total 4,55,576 households are living in owned houses, of which 11,497 have no exclusive dwelling room, 1,68,788 households have one dwelling room, 1,49,765 households have two dwelling rooms, 71,178 households have 3 rooms and 54,348 households have more than 3 dwelling rooms. The households without dwelling rooms formed 2.65% in rural areas and less than 0.6% in urban areas. Households with one room are forming 38.8% in rural areas, 25.6% in urban areas, with two rooms are forming 33.3% and 34.7% respectively. But households with three rooms and more than three rooms are forming more percentage in urban area i.e. 22.3% and 16.9% against 15.2 and 10.0 in rural areas.

Out of 68,023 households, who are residing in rental houses 608 have no exclusive dwelling rooms, 23,180 have one dwelling room, 26,711 have two dwelling room, 13,936 have three dwelling room and 3,588 more than three rooms. When compared rural and urban, households without dwelling room and one dwelling room are forming more percentage in rural areas, while household with two and three and more than three rooms are forming more percentage in urban areas to the total households of respective areas.

97,029 households belonging to scheduled caste population are living in owned houses. Among them 3.6% households do not have dwelling rooms, about 49% households have single rooms, 33.4% households have two rooms and three rooms and more than three rooms are forming 9.5% and 4.6% respectively. In urban areas the households with three rooms and more than three rooms have recorded 16.7% and 18.9% respectively.

Of the 6,298 households of scheduled castes residing in rented houses, 38.6% are residing in single room and 39.4% are residing in double rooms. But the percentage of households living with three rooms and more than three rooms are formed 17.9% and 2.6% respectively.

Similarly among scheduled tribes population 25,925 households are residing in owned houses and 1,962 are residing in rented houses.

The above table shows that out of the total households (2,60,695), 49.27% are living in permanent houses and 42.62% are in semi-permanent houses. About 8% are living in temporary houses. The highest number of households living in permanent houses has recorded in Regode mandal with 88.0% whereas the lowest number of households having permanent houses is noticed in Mirdoddi mandal with 13.8%. In Dubbak mandal about 82.49% households are living in semi-permanent condition, at the same time about 11% households living in Munpalle Mandal are semi-permanent. Similarly highest percentage of households i.e. about 24.49% in Kowdipalle mandal and lowest 4.85% of households in Regode mandal are temporary houses. When compared with rural figures with urban 78% households are living in permanent houses in urban areas against 44% in rural areas. It is also noticed that 20% households live in semi-permanent houses in urban areas and 46% are in rural areas.

Data source : *Census of India, 2001, H-Series; "Tables on Houses, Household amenities and Assets".*

The above table shows the total households in the district, 75.80% have improved drinking water facility, 63.26% have electricity connection, 31.91% households have bathroom facility, about 25.18% households have toilet facility within their houses. Drainage facility is available to 66.4% households. The highest percentage i.e. about 94.4% households of Nangnoor mandal and lowest percentage 55.14%

is in Kangti mandal have improved drinking water facility within their reach. More than 80% households in 15 mandals of the district are having improved drinking water facility. More than 90% of households in Patancheru and Ramachandrapuram mandals have power connection. About 80% households have bathrooms and 78.41% households have toilets within their houses in Ramachandrapuram mandal. Least percentage is noticed in 11 mandals i.e., 15% of the households having bathroom facility below 15% of households have toilets are noticed in 27 mandals and the least percentage being 1.56% in Kangti mandal. Drainage facilities having highest percentage (93% and above) are found in Ramachandrapuram mandal. The least percentage (24.25%) of households having drainage facility is noticed in Jharasangam mandal. More than 80% of households in all the towns of the district have all facilities, except Zahirabad and Sadasivpet towns.

Data source: *Census of India 2001, H-series; Tables on houses, household amenities.*

Note : *Percentage has given in brackets after the tatoal households*

While looking at the figures the above table available for households by type of fuel used for cooking, it is noticed that 78.2% are using fire wood as fuel, and 12.3% households use LPG, 4.6% households use Kerosene and 3.2% households crops residues. A negligible percentage i.e., 0.1% of households are using Coal, Lignite and Charcole as fuel. More than 90% households in 19 mandal parishads in the district use fire wood as a fuel while in Ramachandrapuram mandal only 19.1% households use fire wood. Usage of LPG is found more than 20% of household in Sangareddy (37.8%) Patancheru (35.7%) and Siddipet (23.4%) mandal parishads. The highest percentage of (19.1%) Kerosene uses are found in Jinnaram mandal parishad, followed by Ramachandrapuram mandal parishad (19.0%).

Source : *Census of India 2001, H-series; "Tables on houses, household amenities and assets"*

The above table shows about 35% households in the district are availing Bank facilities. While in rural areas 35.8% households and in urban 32.5% households are availing this facility. Among towns Ramachandrapuram town recorded 46.7% households availing banking facility, followed by Sadasivpet town 45.5% and Sangareddy with 39.1%.

There are 22.16% households have radio 23.84% have television, 6.36% households have Telephones, 37.12% have bicycles, 8.71% have two wheelers. Less than 1% households have four wheelers. Out of 46 mandal parishads the least number of household assets are noticed in Raikode mandal parishad only.

Among towns Sangareddy town ranks top in having specified assets. This town has 5,157 radios, 9,513 Televisions, 7,157 Bicycles, 4,602 Telephone connections, 4,324 two wheelers and 357 four wheelers.

(xiii) Scope of Village directory and Town directory - column heading wise explanation and coverage of data

The village directory and the town directory presented in the District Census Handbooks are proved more useful. The formats of village directory and of seven statements on town directory are on the same pattern canvassed in 1991 census except for a few additional columns. These additional columns are introduced to throw more insight into the infrastructure of the villages and towns. All the amenities except recreational and cultural facilities, power supply and news papers/magazines are brought under one bracket, with corollary that in case any amenity is not available in the village, the distance of the nearest place where the facility is available is presented. Similar method is followed in respect of towns where educational and medical facilities are not available. The non-census data presented in the village and town directories relate to the year 1999. However, wherever the field agencies have indicated the later position, the information has been updated. Almost all the details in the statement have been indicated by codes. In respect of total population and total number of households, the figures as returned during the recent census i.e. 2001 census have been presented. The scope of village directory and town directory statements with column heading-wise explanation and coverage of data are hereunder presented.

Scope of Village Directory :

In the similar manner as was done in the past, the village directory has been prepared for all the villages in the state and these are presented mandal parished wise in the District Census Handbook. This statement contains village-wise area, population, amenities such as educational, medical, communications, drinking water facilities, etc., and also the land use pattern details. The villages are shown in order of their permanent location code numbers. An alphabetical list of villages with their permanent location code numbers and a mandal map has been presented in the beginning of Village Directory of each mandal. This facilitates the reader in locating the mandal in which a particular village lies. The village directory now contains 23 columns as against 18 columns in the 1991 handbook. To give more information under amenities column, banking facilities such as commercial and co-operative banks, agricultural, non-agricultural and other credit societies have been included in the present statement. Similarly, a new column 'number of recreational and cultural facilities' showing cinema/video halls, sports club and stadium/auditorium has been added. In addition to the above a column showing newspapers/magazines received and name of the most important commodity manufactured in the village have been incorporated. Besides the above, the Village Directory is having 12 appendices viz.

Appendix I :		Abstract of Educational, Medical and other amenities in the villages –Mandal parishad level.
Appendix 1A	:	Villages by number of primary schools
Appendix 1B	:	Villages by primary ,middle and secondary schools
Appendix 1C	:	Villages with different sources of drinking water facilities available
Appendix II	:	Villages with 5,000and above population which do not have one or more amenities

Appendix IIA	:	Census Towns which do not have one or more amenities
Appendix III	:	Land utilization data in respect of census towns / non-municipal towns
Appendix IV	:	Mandal Parishad - wise list of inhabited villages where no amenity other than drinking water facility is available
Appendix V	:	Summary showing number of villages not having Scheduled castes population
Appendix VI	:	Summary showing number of villages not having Scheduled tribes population
Appendix VII A:		List of villages according to the proportion of the Scheduled Castes to the total population by ranges.
Appendix VII B:		List of villages according to the proportion of the Scheduled Tribes to the total population by ranges.
Appendix VIII :		Statement showing number of Girls schools in the villages
Appendix IX	:	List of Degree Colleges by village/ Town in the district
Appendix X	:	List of Hospitals by village/ town in the district.
Appendix XI	:	List of Banks by village/ town in the district.
Appendix XII	:	List of Cinema Halls by village / town in the district.

It may be noted that the Appendix 1A, 1B, 1C, II, II-A, VIII, IX, X, XI and XII have been included afresh in comparison to the District Census Hand books of 1991 Census.

Columns 1 to 3 relate to the serial number, name of village and location code number and total area of the village. The area given under column 3 is as per the data collected from the state survey department during 1991 census and presented even for 2001 census as the department clarified that there are no changes in the area figures. Column numbers 4 and 5 provide the total population and the total number of households in the village as per 2001 census. Columns 6 to 13 list out the basic amenities available in the village such as educational; medical; drinking water; post, telegraph and telephone; commercial and co-operative banks; agricultural, non-agricultural and other credit societies; recreational and cultural facilities and communications.

The columns 14 to 18 give the details of approach to the village, nearest town & distance, power supply, news paper/magazine circulation and most important commodity manufactured in the village.

The remaining columns 19 to 23 pertain to the land use pattern in the village. The extent of forest area has been given in column 19 while in columns 20 to 23 the extent of irrigated area together with different irrigational sources, the extent of culturable waste including gaucher and groves and the area not available for cultivation such as buildings, roads and railways or under water(rivers and canals), etc., have been given. Here it is worth mentionable that the total

area figures of Col. 19 to 23 may not tally with the total area of the village as shown in Col. 3 due to various reasons such as water ways, etc., which are not generally included in the land use statistics.

The land use pattern in the Village Directory conforms to the pattern of classification of land use as recommended by the Ministry of Agriculture, Government of India. The Ministry of Agriculture has recommended the maintenance of records of land use pattern under five categories viz. forests, not available for cultivation, other uncultivated lands excluding fallow lands, fallow lands and net area sown.

The concepts of various types of land use given under each of the columns 19 to 23 as given in the Village Directory schedule are reproduced below:

1. Forests (Col.19) :

These include all actually forested areas and the lands classified or administered as forests under any legal enactment dealing with forests whether State owned or private. If any portion of such land is not actually wooded but put to some agricultural use, that portion is included under the appropriate heading of cultivated or uncultivated land.

2. Cultivated area with break-up irrigated and un-irrigated (Col. 20 & 21):

This includes the land under the following three categories.

I) Net area sown :

The net area sown represents the area sown to crops counting areas sown more than once in the same year, only once.

II) Other fallow lands :

This includes all lands which were taken up for cultivation but are temporarily out of cultivation for a period of not less than one year and not more than five years. The reasons for keeping such lands fallow may be either due to poverty of the cultivators or inadequate supply of water or malarial climate or silting of canals or rivers or un-remunerative nature of farming, etc.

III) Current fallows :

This class comprises cropped areas which are kept fallow during the current year. If any seedling area is not cropped again in the same year, it is also treated as current fallows.

3. Culturable Waste (Col. 22):

This item includes the land under the following three categories.

i) Permanent pastures and other grazing lands:

These cover all grazing lands whether they are permanent pastures and meadows or not. Village common and grazing lands within forest areas are included under this head.

ii) Lands under miscellaneous tree crops and groves not included in the area sown:

Under this class is included all cultivable land which is not included under net area sown but is put to some agricultural use. Lands under casurina trees, thatching grass, bamboo bushes and other groves for fuel, etc., which are not included under 'Orchards' are classed under this category.

iii) Culturable waste:

This includes lands available for cultivation but not taken up for cultivation or abandoned after a few years for one reason or other. Such lands may be either fallow or covered with shrubs and jungles, which are not put to any use. They may be assessed or not assessed and may lie in isolated blocks or within cultivated holdings. Land once cultivated but not cultivated for five years in succession is also included in this category.

4. Area not available for cultivation (Col.23) :

This includes the land under the following two categories.

i) Land put to non-agricultural uses :

All lands occupied by buildings, roads and railways or under waters such as rivers and canals and other lands put to uses other than agricultural.

ii) Barren and uncultivable land :

This covers all barren and uncultivable land like mountains, etc., i.e. which cannot be brought under cultivation unless at a high cost. Whether such land is in isolated blocks or within cultivated holdings.

All the above particulars are based on the data received from the concerned departments like education, medical, postal, electricity, etc., and also mainly from the Mandal Revenue Officers concerned.

Item on communications has been shown separately to spell in terms of availability of the public transport system. This is meant to see whether the village is served by any mode of transport such as bus or rail or waterway. It is against this back-ground that the item on approach to village has been given separately. This refers to road, etc., leading to the village and is to indicate whether the village is approachable both in fair and foul weather and whether it is inaccessible for all time or only some time in the year. Adult literacy class/centre under item on 'Education' and Primary health centre and Community health worker under item 'Medical' of Village Directory are included to indicate statistics on the Minimum Needs Programme of the Planning Commission.

Scope of Town Directory:

There are seven statements in the Town Directory, which include several particulars relating to the towns arranged as per the alphabetical order of their names. These statements are almost similar to those adopted in 1991 census except for a few changes. During the 1991 there were six Town Directory statements besides providing a separate statement IV-A bringing out civic conditions of the notified slums in class I and II towns. In the present volume the statement IV-A of the 1991 handbook has been termed as statement-VII and the data is presented in respect of all towns having statutory bodies including un-notified slums. The column 4 of statement IV-A of the 1991 book i.e. area of the slum has been deleted in the present book duly substituting the same by giving the information – whether the slum is notified or not with a view that the local authorities are not in a position to provide exact area figures for each slum area. Further in the present statement-VII another item i.e. approximate number of households living in the slum is incorporated. The captions of the statements are as follows:

Statement I	: Status and growth history
Statement II	: Physical Aspects and location of town, 1999
Statement III	: Municipal Finance, 1998-99
Statement IV	: Civic and other Amenities, 1999
Statement V	: Medical, Educational, Recreational and Cultural Facilities, 1999
Statement VI	: Trade, Commerce, Industry and Banking, 1999
Statement VII	: Civic and other Amenities in slums, 1999

In addition to the above seven statements one appendix for the towns shows their outgrowth with population has also been presented.

The formats of Town Directory have been devised to suit the Minimum Needs Programme of the Planning Commission. To reflect this programme, the columns scheduled castes and scheduled tribes population in statement IV and Adult Literacy classes/ Centres in statement V are identical.

In case such of the amenity as Fire Fighting Service in statement IV, the Educational or Medical facility in statement V is not available in the town, the name of the nearest place and its distance from the referent town has been given. This feature is followed since 1981 census as it is necessary to identify the areas that have no specific facility in the district.

Statement I : Status and Growth History :

This statement provides basic information on civic status, population with decadal growth rate from 1901 to 2001, density for 2001 census and sex ratio from 1981 to 2001 censuses of each town besides presenting class of town, location code, name of the mandal, area in sq.kms. and number of households including houseless households returned in 2001 census.

The columns 1 and 2 relate to serial number and class, name and civic status of the town. The class of town has been determined basing on the size of population as given below.

Population	Class
1,00,000 and above	I
50,000 - 99,999	II
20,000 - 49,999	III
10,000 - 19,999	IV
5,000 - 9,999	V
Below 5,000	VI

The civic status of the town is indicated in brackets by abbreviated letters like 'M.Corp.' for Municipal Corporation and 'NP' for Nagar Panchayat. The location code number under Col.3 for the town has been framed in the order of geographical contiguity, beginning from North West point of the district and ending at South East point. After location code the Col. 4-7 indicate name of mandal, name of mandal parishad, area of the town in sq. kms. and number of households including houseless households recorded in 2001 census. The population of the town with decadal growth rate from 1901 census to 2001 census is given in Col. 8-18. The column 19 shows the density of population and column 20 to 22 give the sex ratio recorded during 1981 to 2001 censuses. The sex ratio defined here is number of females per 1,000 males.

The following Eleven places are treated as urban areas in Medak District.

1. Medak
2. Siddipet
3. Zahirabad
4. Sadasivpet
5. Eddumailaram
6. Sangareddy
7. Bollaram
8. Patancheru
9. Isnapur
10. Ramachandrapuram
11. Ramachandrapuram BHEL township

Medak, Sadasivpet and Siddipet are continuing as urban areas since 1901 and Sangareddy and Zahirabad since 1911. In 1971, Ramachandrapuram BHEL township was declared as urban area, where as Patancheru in 1981 and Ramachandrapuram in 1991. Eddumailaram, Bollaram and Isnapur are treated as urban areas for the first time during 2001 Census. It is seen from the statement that few towns have registered negative growth rate during one decade or other. Zahirabad has registered negative growth rate twice during 1911-1921 and 1931-1941. During the decade 1981-1991 Ramachandrapuram BHEL town ship has recorded low growth rate of -15.91%. The highest growth rate during the same decade was 124.32 in Patancheru.

Statement II: Physical aspects and location of town, 1999.

This statement contains 13 columns and depicts physical aspects and location of town in the district. Column numbers 1 and 2 relate to serial number and class, name and civic status of the town. The physical aspects such as rainfall in millimetres maximum and minimum temperature in centigrade have been shown in columns 3 to 5 by taking average for the last ten years i.e. from 1990 to 1999. The district headquarters town Sangareddy has recorded 1,287 mm. of average rainfall, which is highest among the towns of the district. Other statutory towns Medak, Sadasivpet, Siddipet and Zahirabad have received average rainfall of 159 mm., 795 mm., 822 mm., and 100 mm. respectively. In respect of maximum temperature, the highest 42°C has been recorded in Bollaram, Sadasivpet whereas the lowest minimum temperature 9.3°C in Sadasivpet has been recorded. The columns 6 to 12 gives the details of name and distance in kms. from the referent town to state, district and mandal headquarters, nearest city with population of one lakh and more, railway station and bus route. The district headquarters town Sangareddy is 60 kms. away from the state headquarters, Hyderabad. While Medak is at 121 kms., Patancheru, Ramachandrapuram and Ramachandrapuram BHEL towns are constituent units of Hyderabad urban Agglomeration which are at a distance of 32, 27 and 25 kms. respectively. Siddipet is nearer to the state headquarters than district headquarters i.e., 103 kms.

from the state headquarters while it is 138 kms. away from district headquarters. Eddumailaram, Sadasivpet, Ramachandrapuram and Patancheru are very nearer to the district headquarters with a distance of 16, 18 and each 28 kms. respectively. Except Zahirabad other towns are not directly connected by railways, there are no navigable river or canal in the district.

Statement III: Municipal Finance, 1998-99.

The details for inclusion in this statement were obtained from the respective towns. In the statement there are 16 columns. Column 1 to 2 relate to serial number, name and class of town with Civic status. Columns 3 to 9 show the receipts of the local body under various sub-heads and columns. 10 to 16 give the details of expenditure incurred on general administration, public safety, public health and convenience, public works and institutions etc.

During the year 1998-99 the total income of five statutory towns of the district was Rs. 53,578 thousands, whereas Rs. 40,338 thousands was expenditure. The income derived through taxes was 47.7%(Rs. 25,535 thousands), and through Government grants was Rs. 13,708 thousands i.e. 25.6%. The highest income of Rs. 17, 015 thousands was derived in Siddipet Municipality and the lowest expenditure of Rs. 5,301 thousands recorded in Sadasivpet Municipality

In respect of expenditure thousands share goes to Public health and Public convenience i.e. Rs. 15,346 thousands (38.0%) followed by General Administration i.e. Rs.13,566 thousands (33.6%). In expenditure side for Siddipet stood top with Rs. 11,452 thousands followed by Sangareddy Municipality with 9,312.

Statement IV : Civic and other Amenities, 1999.

The title itself reveals that, this statement deals with the facilities provided to the people in the urban areas of the district.

This statement contain 20 columns. Column 1 and 2 relate to serial number, class and name of town and civic status of the town respectively. Column 3 gives population of the town whereas the column numbers 4 and 5 give population of SC and ST as per 2001 census. The lengths of pucca and kutcha roads are recorded separately for each town in column 6. The column 7 shows the details of sewerage systems prevailing in the referent towns. The number of latrines with different types is shown in columns 8 to 11. Column 12 is provided separately to show method of disposal of night soil. The source of protected water supply and the system of storage with capacity are recorded under column 13 and 14. Column 15 shows the availability of fire fighting services. In case if this service is not available in the town the name of the nearest town along with distance where available is mentioned. The columns 16 to 20 relate to different types of electrical connections in number.

All statutory towns, besides Ramachandrapuram BHEL township and Patancheru Census towns have fire fighting services. However these facilities are within the reach to above said towns.

Sangareddy district headquarters town is having 57 kms pucca road, open surface drainage system and 6,000 latrines. Night soil disposed of by the methods of sewerage lines and septic tank system. Tap is the source of supply of safe drinking water by storing water in service reservoir having capacity of 1,990 kilolitres. This town is having electrical connections of 9,863 domestic, 1,510 industrial, 165 commercial and 1382 road lighting points.

The highly populated town Siddipet is having 68 kms pucca road, 14 kms kutcha road and open surface drainage system. In this town, the night soil is disposed of by the method of sewerage lines and septic tank and pit system. Safe drinking water is stored in service reservoir having capacity 2,541 kilolitres and supplied through taps in this town. As regards electrical connections, there are about 13,900 domestic, 2,628 industrial, 633 commercial connections and 1,818 road lighting points are provided in the town.

All the urban areas in the district have been provided with safe drinking water with storage facility, and drainage system. They also possess the required amenities.

Statement V : Medical, Educational, Recreational and Cultural facilities, 1999:

In this statement the availability of medical, educational, recreational and cultural facilities are presented with reference to the population of 2001 Census. This statement is containing 20 columns. Column 1, 2 and 3 relate to serial number, class, name

and civic status of the town and the population recorded during 2001 census respectively. The columns 4 and 5 show about the availability of different hospitals, dispensaries, T.B. clinics, etc., together with beds strength. Columns 6 to 15 relate to educational facilities such as various schools/ colleges at all levels including Medical, Engineering, Polytechnic, Technical Institutions and adult literacy centres. The column 16 is meant for working women's hostels with number of seats. The number of recreational and cultural facilities such as Stadium, Cinema, Auditorium, Community halls, Public Libraries including reading rooms available in the towns is recorded in columns 17 to 20.

All statutory town possesses good medical facilities. Census towns, which are within the proximity of statutory town,.people of these towns depends for medical facility on respective statutory towns closer to them. Hospital facilities are available in all statutory towns.

Statement VI : Trade, Commerce, Industry and Banking, 1999

This statement deals with economic activities in the urban areas with 11 columns. Column 1 and 2 are serial number, class, name and civic status of the town. The columns 3 to 5 give the details of three most important commodities exported and the columns 6 to 8 show the three most important commodities manufactured. The commercial banks, number of agricultural credit societies and the number of non-agricultural credit societies are furnished in the columns 9 to 11.

The district is located adjacent to Hyderabad city and some of the towns in the district are constituent units of Hyderabad Urban Agglomeration. Several industrial units are existing and from there products of Engineering , Chemical, Defence, etc., are manufactured and exported. In addition to the above items, Sugar, Rice, Jaggery, etc., are also manufactured and exported from the urban areas of the district. The urban population in the district is served by a net work of 43 commercial Banks, 6 Agricultural Credit Societies and 142 Non-agricultural Credit Societies.

Statement VII : Civic and other amenities in Slums, 1999

This statement deals with civic and other amenities that are available in the slums whether notified or not and for all towns having statutory bodies. Col. 1 and 2 are serial number and class and name of town, Cols, 3 and 4 gives name of the slum and whether it is notified or not. Col. 5 and 6 approximate number of households and population pertaining to 1999. Column 7 shows the length of paved roads in slums. System of sewerage, number of different type of latrines and method of disposal of night soil are shown in columns 8 to 13 and 14 gives number of tap points. Number of electrical connections by different category are provided in columns 15 to 17.

In Medak town there are 25 slums with approximately 3,728 households and 18,637 population during 1999. They have 2,260 water borne latrines. Night soil disposed of by septic tank system. These slums are provided with 18 kms paved roads, 175 water taps, besides having 2,885 domestic electrical connections and 800 road lighting points.

The district headquarters town Sangareddy has 29 slum areas with 2,833 households and 17,314 population approximately. They have 350 water borne latrines and 161 points for supply of safe drinking water. About 3000 domestic electrical connections and 590 street lights are provided in the slum areas.

Another important town in the district is Siddipet where 17 slum areas with 5,648 households and 31,162 population are existing. In all 5688 latrines and 335 water taps are provided. As regards electrical connections, 5,643 domestic and 908 street light points are available.

The remaining two statutory towns viz., Zahirabad and Sadasivpet are also having slum areas and they possess minimum needed civic facilities.

Section I - Village Directory

(a) Note explaining the abbreviations used in Village Directory :

The "Village Directory" is one of the traditional compilations of the Census. It gives the list of villages, their location numbers, their area, population, number of households, amenities such as educational, medical, drinking water, post and telegraph, commercial and co-operative banks, agricultural non-agricultural and other credit societies, recreational and cultural facilities, communication, approach to village, nearest town with a distance, power supply availability of newspaper and magazines, most important commodity manufactured and land use of each village.

Village is a statutory recognized unit having a definite boundary and separate land records. In case, a complete village is treated as an outgrowth of urban agglomeration, data on amenities for that village, have not been given in the Village Directory but shown along with the urban component. The villages which are consider as a Census Town , the amenities data are shown in the Town Directory. For those villages which have partly merged in an outgrowth of U.A., the amenities data are shown in the Village Directory for that particular village.

The 'un-inhabited' villages (villages with no population) have been indicated as such after furnishing details in columns 1 to 3 i.e., Serial number, Name of village & location code number and area of the village against column no. 4 to 18. The land use data for such villages are shown in col. 19 to 23.

The Village Directory format has 23 columns and the details given under each column are for the village are as follows:-

Columns 1 : Serial Number

Self explanatory. All the villages within the Mandal Parishad are presented serially in the ascending order of their location code number.

Columns 2 : Name and Location Code Number of village

The name and location code number of the village are shown against these columns. This also includes the forest and uninhabited villages.

Column 3 : Area of the village

The area of the villages in hectares are given. Wherever the area figures was not furnished by the concerned department the column is left blank.

Column 4 : Total population

The total population of the village as per 2001 Census is given against this column.

Column 5 : Number of households

The number of households as per 2001 Census is given in this column.

Amenities :

In column 6 to 23, availability in respect of different amenities such as education, medical, drinking water, post, telegraph, banks, credit societies, communication, power, approach road etc. in each village has been depicted with appropriate codes against the column concerned. Wherever the amenities are not available in the village, a dash (-) is shown in the column and next to it in brackets the distance in broad ranges viz.< 5 kms., 5-10 kms. and 10+ kms of the nearest place where the facility is available is given. Column wise details are given below

Column 6 : Educational

Classes upto class V included in Primary School. This will include nursery school, kindergarten school. Pre-basic school, pre-primary school, junior basic school upto class V.

Classes from VI to VII are included in the middle school.

Classes from VIII and X included in High secondary school. Classes XI and XII are included in senior secondary school.

In case of composite schools like middle school with primary school or secondary school with middle school, these are also included in the number of primary and middle schools, respectively.

Accordingly any of the following types of institutions if exists within the village is shown as per codes given below :

(i)	Primary School	P
(ii)	Middle School	M
(iii)	Secondary School	S
(iv)	Senior Secondary School	PUC/JC
(v)	College	C
(vi)	Industrial School	I
(vii)	Training School	Tr
(viii)	Adult literacy class/centre	AC
(ix)	Others (specify) e.g. Sanskrit Pathshala, Senior basic school, Navodaya Vidyalaya, Makhtab, etc.	O

More than one institution of a type in the village is indicated by the number within brackets against the abbreviation, e.g. P(3), M(4), etc.

Column 7 : Medical

Availability of medical facility within the village is indicated by following codes :

(i)	Allopathic Hospital	H
	Ayurvedic Hospital	HA
	Unani Hospital	HU
	Homeopathic Hospital	H Hom
(ii)	Allopathic Dispensary	D
	Ayurvedic Dispensary	DA
	Unani Dispensary	DU
	Homeopathic Dispensary	D Hom
(iii)	Maternity & Child Welfare	MCW
(iv)	Maternity Home	MH
(v)	Child Welfare Centre	CWC
(vi)	Health Centre	HC
(vii)	Primary Health Centre	PHC
(viii)	Primary Health Sub-Centre	PHS
(ix)	Family Welfare Centre	FWC
(x)	T.B. Clinic	TB
(xi)	Nursing Home	NH
(xii)	Registered Private Medical Practitioner	RMP
(xiii)	Subsidised Medical Practitioner	SMP
(xiv)	Community Health Worker	CHW
(xv)	Others	O

More than one institution of a type in the village is indicated by the number within brackets against the abbreviations, e.g. H(3), D(4), etc.

Column 8 : Drinking Water

The type of the drinking water supply sources available within the village are indicated by codes as follows :

(i)	Tap Water	T
(ii)	Well Water	W
(iii)	Tank Water	TK
(iv)	Tubewell Water	TW
(v)	Handpump	HP
(vi)	River Water	R
(vii)	Canal	C
(viii)	Lake	L
(ix)	Spring	S
(x)	Others	O
(xi)	Summer Source	SS-

Column 9 : Post, Telegraph and Telephone

It is indicated by codes as shown below whether within the village exists the following amenities:

(i)	Post Office	PO
(ii)	Telegraph Office	TO
(iii)	Post & Telegraph Office	PTO
(iv)	Telephone Connection	PH

Column 10: Commercial and Co-operative Banks

If the village is served by any banking service, commercial bank, co-operative bank etc. the same is indicated in codes mentioned below along with the number of banks in brackets. If not available the distance of nearest place where the facility exist is given:

(i)	Commercial Bank	CM
(ii)	Co-operative Bank	CP

Column 11: Credit Societies

If the village enjoys the services of Credit Societies i.e. Agricultural Credit Societies, Non Agricultural Credit Society or Other Credit Societies, the same is indicated in codes mentioned below along with the number of such societies in brackets. In case the facility is not available within the village the distance of the nearest place where such facility exist is given:

(i)	Agricultural Credit Society	ACS
(ii)	Non- Agricultural Credit Society	NCS
(iii)	Other Credit Society	OCS

Column 12 : Recreational and cultural facilities

If facilities such as Cinema/Video hall, Sports Club, Stadium/Auditorium is available in the village. The same is recorded in these columns. If not available the particulars of the nearest place with the facility is recorded. The information is indicated in codes mentioned below along with the number of such facilities in brackets:

(i)	Cinema / Video Hall	CV
(ii)	Sports Club	SP
(iii)	Stadium / Auditorium	ST

Column 13 : Communications

If the village is served by any mode of public / private transport like Bus, Railway station or Navigable water ways they are to be mentioned as follows:

(i)	Bus Service	BS
(ii)	Railway Station	RS
(iii)	Navigable Waterway	NW

Column 14 : Approach to village

Approach to village refers to the state of road leading to village. The approach to the village is indicated in following codes :

(i)	Paved Road	PR
(ii)	Mud road	MR
(iii)	Foot path	FP
(iv)	Navigable River	NR
(v)	Navigable Canal	NC
(vi)	Navigable waterways other than River, Canal	NW

Column 15 : Nearest Town and distance

The distance is given in kilometres in brackets against the name of the town nearest to the village.

Column 16 : Power supply

Availability of Power Supply in the village, whatever may be the form of its use is given by using following codes :

(i)	Electricity for domestic use	ED
(ii)	Electricity for agricultural use	EAG
(iii)	Electricity for other purposes	EO
(iv)	Electricity for all purposes	EA

Column 17 : News Paper / Magazine

If village receives any News Paper/Magazines the same is noted in this column using following codes

(i)	News Paper	N
(ii)	Magazine	M

Column 18 : Most important commodities manufactured

The name of three most important commodities manufactured in the village is recorded against this column.

Column 19 to 23 : Land use i.e. area under different types of land use

Land use data maintained by the State/ UT Govts. are furnished against these columns. The data concerning area under Forest, Irrigated land (by source), Un-irrigated land, Culturable waste and Area not available for cultivation in the village are shown against these columns. The area figures are given in hectare(s) up to one decimal. Dash '-' is recorded wherever the information is not made available by the concerned department. The codes used for different types of irrigation facilities available in the village are indicated below:

(i)	Government Canal	GC
(ii)	Private Canal	PC
(iii)	Well (without electricity)	W
(iv)	Well (with electricity)	WE
(v)	Tubewell(without electricity)	TW
(vi)	Tubewell(with electricity)	TWE
(vii)	Tank	TK
(viii)	River	R
(ix)	Lake	L
(x)	Waterfall	WF
(xi)	Others	O
(xii)	Total	T

(b) List of Villages merged in Towns and Outgrowths at 2001 Census

(i) List of Revenue Villages that have been fully merged in Towns and Outgrowths at 2001 Census

Serial number	Name of mandal	Name of village	Name of the Municipality/ Nagar Panchayat/ Census Town in which the village is merged
1	2	3	4
1	Sadasivpet	Sadasivpet	Sadasivpet (M)
2	Sangareddy	Eddumailaram	Eddumailaram (CT)
		Sangareddy	Sangareddy (M)
		Kalwakunta	Sangareddy (M)
3	Jinnaram	Bollaram	Bollaram (CT)
4	Patancheru	Patancheru	Patancheru (CT)
		Isnapur	Isnapur (CT)
5	Ramachandrapuram	Ramachandrapuram	Ramachandrapuram (CT)
			Ramachandrapuram BHEL Township (CT)
		Bandlaguda	Ramachandrapuram (CT)
		Kachireddypalle	Ramachandrapuram (CT)
		Manmole	Ramachandrapuram (CT)

(ii) List of Revenue Villages that have been Partly merged in Towns and Outgrowths at 2001 Census

Serial number	Name of mandal	Name of village	Name of the Municipality/ Nagar Panchayat/ Census Town in which the village is merged
1	2	3	4
1	Medak	Medak (Rural)	Medak (NP)
2	Siddipet	Siddipet (Rural)	Siddipet (M)
3	Zahirabad	Zahirabad (Rural)	Zahirabad (NP)
4	Sadasivpet	Siddapur (Rural)	Sadasivpet (M)

Section II - Town Directory

Note explaining the abbreviations used in the town directory

Town Directory statements (I to VII)

Statement I : Status and Growth History

Column (2) : Class, name and civic status of town :

Class has been introduced to facilitate analysis of town directory data at the state and all India levels. It is presented according to 2001 Census Population of the town as follows :

Population	Class
100,000 and above	I
50,000 - 99,999	II
20,000 - 49,999	III
10,000 - 19,999	IV
5,000 - 9,999	V
Below 5,000	VI

Town with a population of one hundred thousand (1,00,000)and above is treated as a city.

The civic status of the towns is indicated within bracket against the name of the town. The following abbreviations are used to denote civic status of town.

(I)	Municipal Corporation	M. Corp.
(II)	Municipal Committee	MC
(III)	Municipal Council	M Cl
(IV)	City Municipal Council	CMC
(V)	Town Municipal Council	TMC
(VI)	Municipal Board	MB
(VII)	Municipality	M
(VIII)	Cantonment Board/Cantonment	CB
(IX)	Notified Area	NA
(X)	Notified Town	NT
(XI)	Notified Area Committee/ Notified Area Council	NAC
(XII)	Notified Town Area	NTA
(XIII)	Industrial Notified Area	INA
(XIV)	Industrial Township	ITS
(XV)	Township	TS
(XVI)	Town Panchayat	TP
(XVII)	Nagar Panchayat	NP
(XVIII)	Town Committee/ Town Area Committee	TC
(XIX)	Small Town Committee	ST
(XX)	Estate Office	EO
(XXI)	Gram Panchayat	GP
(XXII)	Census Town	CT

Others columns need no comments.

Statement II - Physical Aspects and Location of towns, 1999

Column 3 to 5 : Physical Aspects

In these columns the Rainfall and Maximum & Minimum Temperature of the town is recorded.

Column 6, 7 and 8 :

Name of the State headquarters, District headquarters and Sub-Divisional headquarters with distance from the referent town in kilometres, is to be recorded respectively. If the names mentioned in these columns are the same as the referent town itself, the distance is recorded as (0) zero.

Column 9& 10 :

Name of the nearest city with one lakh and more and five lakhs and more population are recorded.

Column 11, 12 and 13 :

If referent town enjoys the facility of railway station, bus route facility or navigable river/canal. Its name is to be mentioned. If not available, then the name of nearest place with distance, where such

facility exists is to be mentioned.

Statement III : Municipal Finance 1998 - 1999

Item-wise amount of receipt and expenditure in thousand rupees, relating to municipal finance of the town for the year 1998-99 is to be recorded.

Statement IV : Civic and Other amenities, 1999

Column (1 to 5) : Self explanatory.

Column (6) : Road length (in kms.)

Information about kutcha / pucca road is to be recorded separately for the roads within the limits of the referent town.

(i)	Pucca Road	PR
(ii)	Kutcha Road	KR

Column (7) : System of Sewerage

Generally, by sewerage system is implied the network of mains and branches of underground conduits for the conveyance of sewerage to the point of disposal. Sewers that carry only household and industrial wastes are called separate sewers, those that carry storm water from roofs, streets and other surface are known as storm water drains, while those carrying both sewage and storm water are called combined sewers.

The codes used for different types of drainage system are as follows :

(i)	Sewer	S
(ii)	Open Surface Drains	OSD
(iii)	Box Surface Drains	BSD
(iv)	Sylk Drains	SD
(v)	Cesspool method	CP
(vi)	Pit System	Pt
(vii)	Others	O

Column 8 to 11 : Number of latrines

Number of various types of latrines both Public and Private are given in these columns.

Column 12 : Method of disposal of night soil

The various prevalent method of disposal of night soil are given below with codes :

Head Loads	HL
Basket	B
Wheel Barrows	WB
Septic Tank	ST
Pit System	Pt
Sewerage	S
Others	O

Column 13 and 14 : Water supply

Source and capacity of storage system. The following codes are used in these columns:

Column 13:

(i)	Tap water	T
(ii)	Tube-well water	TW
(iii)	Tank Water	TK
(iv)	Well water	W

Column 14:

(v)	Over Head Tank	OHT
(vi)	Service Reservoir	SR
(vii)	River Infiltration Gallery	RIG
(viii)	Bore Well Pumping System	BWP
(ix)	Pressure Tank	PT

The information on major source of water supply are given in column 13 and the storage capacity against each in kilo-litres (in bracket) are presented in column 14.

Column 15 : Fire Fighting Service

In case the fire fighting service is available in the referent town 'yes' is recorded. If the facility is not available within the town. The name of the nearest place having this facility with its distance from the referent town has been recorded.

Column 16 to 20 : Electrification (Number of connections)

Different types of electric connections have been shown in these columns, i.e. Domestic, Industrial, Commercial, Road lighting (points) & others.

Statement V : Medical, Educational, Recreational and Cultural Facilities, 1999

Column 1 to 3 : Self explanatory.

Column 4 & 5 :

The data covers all such medical institutions

run by or aided by Government/Semi Government/ Local bodies and Charitable institutions or Social agencies like the Missionaries. Where the family planning centres are attached to hospitals or maternity and child welfare centres or Primary Health Centres, may be treated as independent units and counted separately using following codes :

(i)	Hospital	H
(ii)	Dispensary	D
(iii)	Health Centre	HC
(iv)	Family Welfare Centre	FWC
(v)	T.B. Clinic	TB
(vi)	Nursing Home	NH
(vii)	Others	O

In case of more than one institutions of any type, it is indicated within brackets the number of such institution (s) e.g. D(3), NH(8), etc. The institutions have further been distinguished by providing additional codes within the bracket as given below :

Ayurvedic	A
Unani	U
Homoeopathic	Hom

Column 6 to 9 :

The codes used for these columns are as follows:

(i)	Arts only	A
(ii)	Science only	S
(iii)	Commerce only	C
(iv)	Arts & Science only	AS
(v)	Arts & Commerce only	AC
(vi)	Combined for all categories-Arts, Science and Commerce	ASC
(vii)	Law	L
(viii)	University	U
(ix)	Others	O

Column 10 : Recognized shorthand, typewriting and vocational training institutes

"Recognised" should mean recognised by some statutory authority, like education department, commerce department, labour department etc. of the government or semi government or autonomous bodies, public sector undertakings etc.

The following codes are used :

(i)	Vocational Training Institute	VT
(ii)	Shorthand	SH
(iii)	Typewriting	Type
(iv)	Shorthand & Typewriting	SH Type
(v)	Others	O

The vocational institutions like - Applied Art/Painting College, Pharmacy College, B. Ed. College, Teacher's Training Institute, Music / Dance School, Nursing School etc. are covered under 'Others'.

Column 11 to 14:

Higher Secondary/Intermediate/Senior Secondary/ PUC/Junior College level, Secondary/Matriculation, Middle Schools/ Junior Secondary and Primary Schools.

School up to class V are treated as Primary or elementary schools. These include Nursery schools, Kindergarten schools, Pre-Primary schools, Junior Basic schools upto class V and Primary schools upto class IV.

Schools upto VII are considered as Middle school or Junior Secondary.

Schools upto class X are considered as Matriculation or Secondary schools.

Schools upto XI or XII classes are considered as Higher Secondary / Intermediate / Pre University / Junior College etc. This would cover 10+2 classes whether held in schools or college.

If there are composite schools like middle schools with primary classes or Secondary schools with Middle classes, these are also included in the number of Primary and Middle schools, respectively. For example, if in a town, there are two Primary Schools and one Middle school with Primary classes, the number of Primary schools in the town is given as three and that of Middle schools as one though there are only three educational institutions.

If there are more institutions of a type in the town, the number is indicated within bracket along with the abbreviation, e.g. P(4), M(3).

Column 15 : Adult literacy classes/centres

This column has been introduced keeping in view the Minimum Needs Programme of the Planning Commission. There are number of Adult Education Centres which are included in these columns.

If an educational facility is not available in the town, the name of the nearest place and its distance in kilometres from the town where the facility is available is mentioned.

Column 16 : Working Women's hostels with number of seats

The number of working women's hostel if available in the referent town is mentioned with number of seats. If the facility is not available in the town the name of nearest place with distance where the facility is available is recorded.

Column 17 to 19 : Recreational and Cultural Facilities

Stadium, Cinema, Auditorium/Drama/Community Hall are covered under recreational & cultural facilities. The particulars of permanent recreational facilities are considered for these columns.

Column 20 : Public Libraries, Reading Rooms

Number of public libraries and reading rooms available in the referent town are recorded in codes as follows :

(i) Public Library	PL
(ii) Reading Room	RR

Statement VI : Trade, Commerce, Industry and Banking, 1999

Column 3 to 8 :

Name of three most important commodities exported and names of three most important commodities manufactured in the town are recorded.

Column 9 : Number of Banks

Number of Banks available in the referent town both Commercial and Co-operative banks are recorded against this column.

Column 10 & 11 :

Number of Agricultural Credit Societies and Non Agricultural Credit Societies

The total number of Agricultural Credit Societies and Non Agricultural Credit Societies in the referent town are recorded against these columns.

Statement VII : Civic and other Amenities in Slums, 1999

This is the statement on civic and other amenities in all slums whether notified or not and for all towns having statutory bodies, like municipality, Municipal Corporation, Town area committee etc.

NIL

Brief note on Primary Census Abstract

The first census of the third millennium and twenty first century the Census of India, 2001 was the 14th continuous and uninterrupted Indian census since 1872. Thus, 2001 Census will provide data on population and its characteristics marking transition from one century and millennium to another.

The gigantic operation of Population Enumeration (considered by many to be the single largest and complex peace time administrative exercise in the world) was made possible due to the door to door universal canvassing of the Household Schedule by about 2 million enumerators and supervisors covering 593 districts, 5,463 sub-districts, 5,161 towns and 638,588 villages. The comprehensive Household Schedule which replaced the individual slip had three parts and two sides A and B. Part I contained the Location Particulars; Part II related to the Individual Particulars and Part III contained questions for Household engaged in Cultivation/Plantation. The part II of the Household Schedule had 39 columns and 23 questions all of which were universally canvassed and no sampling was resorted to during enumeration.

Data Processing

A quantum leap was made in the technology front while processing the Census 2001 data both for Houselisting and Population Enumeration. The Census schedules for both the phases were scanned through high speed scanners in fifteen data centers across the country and hand-written data from the schedules were converted into digitized form through Intelligent Character Reading (ICR) software for creation of ASCII records for further processing. The designing and formatting of the Household Schedule had to be done very carefully using specialized software so as to ensure uniformity, which was an essential pre-requisite for scanning. The selection of appropriate state-of-art technology in data processing has made it possible to produce all the Houselisting as well as Population Enumeration tables on full count basis for the first time in the history of Census. For Census 2001, about 202 million schedules consisting of about 1,028 million records were scanned and processed within a span of only 10 months starting October, 2002.

Task Force on Quality Assurance

After the data is processed, it is expedient on the part of the data producing agency to satisfy itself about its quality before putting the same in public domain. This has to be done mainly through the process of internal consistency, comparison with similar data in the past and also through validation with likewise data if available, from external sources. Quite often the local knowledge and perception has to be brought into play to understand both the existing and the new emerging trends of population distribution and characteristics. The other very important aspect of the data quality is to ensure complete coverage of all geographical areas especially for the population enumeration phase where the data is disseminated right up to the village level in the rural areas and the ward level in the urban areas. Thus ensuring the complete coverage and correct geographical linkage of each enumeration block was one of the major planks of the quality control, specially for small area population statistics.

A very comprehensive check and edit mechanism was put in place to objectively examine the preliminary Census 2001 Population Enumeration results and finally clear them for use. The responsibility of the final clearance of data was with the Task Force on Quality Assurance (TFQA), headed by the Registrar General and Census Commissioner, India. The other members of the TFQA were the Heads and senior officers of the Census Division, Data Processing Division, Map Division, Demography Division and Social Studies Division. The Directors of Census Operations were co-opted as members whenever the TFQA discussed the data for their States/Union territories. The Directors and their senior officers were required to make detailed presentations of data for their own state both in respect to the quality and the coverage and only after the full possible cleared.

There has been a major departure in Census 2001 from the past in respect of the procedure followed for finalization of the Scheduled Castes and the Scheduled Tribes population. In the earlier censuses, the total Scheduled Castes and Scheduled Tribes populations were finalized at the time of the manual compilation of the Primary Census Abstracts (PCA) at the Regional Tabulation Offices which were specially set up for this purpose. The individual Scheduled Castes and the Scheduled Tribes population for each state was finalized much later based on manual coding done by the coders. In 2001 Census, each individual Scheduled Caste and the Scheduled Tribe have been coded directly on the computers by the Data Entry Operators through a process known as Computer Assisted Coding (CAC) and taken up along with the processing of PCA data. The CAC process involves pulling down, from the relevant dictionary of the Scheduled Castes and the Scheduled Tribes, on the computer screen and coding from the dictionary by referring to the image of the specific individual entry in the Household Schedule appearing on the screen. The CAC of the response on Religion wherever required, was also undertaken along with the processing of PCA. This is because the Scheduled Castes status had to be determined in relation to the religion of the individual. Two Special Task Forces, one on Religion and the other on Scheduled Castes/ Scheduled Tribes were constituted for scrutiny and appropriate classification of these responses.

The main task of the Special Task Force on Religion was to appropriately merge or group the new responses encountered and code it into the appropriate religious community based on available literature and local knowledge. The Special Task Force on Scheduled Castes and Scheduled Tribes examined the different Scheduled Castes and Scheduled Tribes entries encoun-tered and classified these into appropriate category of the Scheduled Castes or the Scheduled Tribes principally based on the Presidential Notification and the available literature. Thus a very systematic and scientific mechanism was operationalised to firm up the individual religion and the individual Scheduled Castes/Tribes returns. The Scheduled Castes and the Scheduled Tribes population in 2001 Census, is thus being finalized by aggregating the population data for individual Scheduled Castes and the Scheduled Tribes at appropriate geographical levels.

The entire work relating to the data validation and scrutiny was completed by all the States/Union Territories under the overall supervision and monitoring of the Census Division of the Office of the Registrar General, India with active cooperation and support of the Social Studies Division, Data Processing Division, Data Dissemination Division and Map Division.

Primary Census Abstract

The Primary Census Abstract which is yet another important publication of 2001 census gives basic information on Area, Total Households, Total population, Scheduled Castes, Scheduled Tribes population, Population in the age group 0-6, Literates, Main workers and Marginal workers classified by the four broad industrial categories, namely, (i) Cultivators, (ii) Agricultural labourers, (iii) Household Industry Workers, and (iv) Other workers and also Non-workers. The characteristics of the Total Population includes Scheduled Castes, Scheduled Tribes, Institutional and Houseless population and are presented by sex and rural-urban residence. This data is presented at different levels, namely, India, States/Union territories, Districts and Cities, Urban Agglomerations (Population 1,00,000 and above) in three different tables. In addition, the Appendix of said publication provides Houseless and Institutional Households and their population by residence and sex for 2001 for India, State and Union territory.

Apart from the India and State/Union Territory volumes for Primary Census Abstract, the District Census Handbook contains District Primary Census Abstract, Appendix to District Primary Census Abstract, Primary Census Abstract for Scheduled Castes, Primary Census Abstract for Scheduled Tribes, Village Primary Census Abstract and Urban Primary Census Abstract of the concerned district in the state.

It was for the first time at the 1981 Census that the Primary Census Abstract (PCA) was brought out for the Scheduled Castes and the Scheduled Tribes separately on the pattern of General Primary Census Abstract. This practice was continued in 1991 also. In the 1961 and 1971 Censuses, such data were made available in Table C-VIII-Social and Cultural table and to some extent in the series 'Special Tables for Scheduled Castes/Scheduled Tribes'.

The format of Primary Census Abstract has been restructured slightly in the 2001 Census as compared to that of 1991 Census. The nine-fold industrial classification of main workers given in the Primary Census Abstract of 1991 Census has been discontinued and its place, four-fold industrial classification of both 'main workers' and 'marginal workers' are included. In 1981 census only main workers were presented into four categories. One of the novel features of the primary census abstract of 1991 census was the presentation of data of the population of age group 0-6 is continued in 2001 Census also. This will help the data users in better analysis and understanding of this literacy data.

Level of presentation in District Census Handbooks:

The Primary Census Abstract data in different PCAs are presented at different levels. The level of presentation of Primary Census Abstracts are as under:

	Name of the Primary Census Abstract	Level of presentation
1.	District Primary Census Abstract	District/Mandal Parishad/UA/City/Town
2.	Primary Census Abstract for Scheduled Castes	District/Mandal Parishad/Town
3.	Primary Census Abstract for Scheduled Tribes	District/Mandal Parishad/Town
4.	Village Primary Census Abstract	Mandal Parishad/Village wise
5.	Urban Primary Census Abstract	Town/Ward level

The PCA Data for villages was presented Mandal Parishad wise for the first time in 1991 Census. This practice is continued in 2001 Census also. The data for each Mandal Parishad is presented both for rural and urban areas separately. All the villages within the Mandal Parishad constitute the rural portion and the Census Towns and Outgrowths are shown under the urban portion of the Mandal Parishad. In case a Mandal Parishad is spread over two or more districts, than portion which falls within the district is presented, the data pertaining to remaining portion of the Mandal Parishad is presented in the concerned District Census Handbook. The data in the Urban Primary Census Abstract for each town as well as for town with outgrowths in the district are presented. The data for all the wards and the outgrowths of the town(s) are also presented separately below the concerned town(s).

The District Primary Census Abstract is presented in 59 columns. The Primary Census Abstract for Scheduled Castes and Primary Census Abstract for Scheduled Tribes are presented in 52 columns. The Village Primary Census Abstract and Urban Primary Census Abstract are presented in 58 columns.

The concepts and definitions used in the column heading are explained under the sub heading 'Census Concepts' in the Analytical Note. The term 'Total Population' includes the Scheduled Castes, the Scheduled Tribes, the Institutional and the Houseless populations. The explanation regarding area figures presented at various level in the Primary Census Abstracts are as follows:

Area Figures

The area figures supplied by local revenue authorities of the district in respect of mandals, Police Stations and by the local bodies in respect of towns are given in square kilometres. The area figures of the villages supplied in acres have been converted and shown in hectares. The area figures of the Mandal Parishad is the total of the village areas coming under each Mandal Parishad. The area figures for the district are the same as adopted by the Surveyor General of India to maintain uniformity at the national level. The total area figures of all the Mandals/Mandal Parishad within the district may not tally with area figures of the district because former represents land use area only. Similarly, the total of all the villages area may not tally with the entire rural of Mandal. The difference may be due to the fact that while the area covered by hills, forests and rivers etc, have been accounted in the level the same may not be covered under the area of the villages. Apart from this it may also differ due to varying methods of computation adopted at different levels.

An appendix to District Primary Census Abstract has also been furnished showing urban enumeration block-wise particulars on Total Population, the Scheduled Castes Population and the Scheduled Tribes Population for each town.

Annexure - I
Fertility and Mortality, 1991 Census

Crude Birth Rate is the most commonly used measures of fertility. To know the fertility rates, certain information was collected from all ever married women during 1991 Census such as (i) Age at marriage (ii) Number of children ever born alive. For currently married women, in addition to above data, if any child born at preceding one year from the date of Census is also collected. Definition of fertility measures is given in the chapter on Census concepts.

Fertility Levels: This is dependent on fertility pattern by age, which is indicated by the age specific fertility rates. General Fertility Rate, Total Fertility Rate and Gross Reproduction Rate are other indicators of fertility. Fertility measures were worked out on F-series tables of 1991 Census of Andhra Pradesh. An analysis of these measures is given in the subsequent paragraphs.

Age Specific Fertility Rates, 1991 Census

The following statement shows the age specific fertility rates for Total, Rural and Urban areas of the district along with the corresponding fertility rates of State during 1991 Census.

Annexure –I (a)
Age Specific Fertility Rates/Levels, 1991

Age Group	Medak District			Andhra Pradesh State		
	Total	Rural	Urban	Total	Rural	Urban
1	2	3	4	5	6	7
15-19	0.095	0.097	0.078	0.085	0.092	0.066
20-24	0.176	0.178	0.163	0.179	0.185	0.162
25-29	0.156	0.157	0.148	0.150	0.155	0.137
30-34	0.114	0.116	0.097	0.103	0.108	0.087
35-39	0.078	0.079	0.072	0.068	0.071	0.055
40-44	0.037	0.037	0.041	0.037	0.039	0.029
45-49	0.020	0.019	0.034	0.020	0.021	0.017

Source : *F-series tables of 1991 Census & Andhra Pradesh District profile, 1991.*

It may be seen from the above Annexure that the age specific fertility rate is higher in the age group in 20-24 both in rural and urban areas of the district. However the same is less than that of State rate except in urban areas. Among the 15-19,25-29,30-34 and 35-39 age groups the district rates are more than the state rates in both rural and urban.

Annexure –I (b)

Age Specific Marital Fertility Rates/Levels, 1991

Age Group	Medak District			Andhra Pradesh State		
	Total	Rural	Urban	Total	Rural	Urban
1	2	3	4	5	6	7
15-19	0.130	0.128	0.151	0.150	0.149	0.158

3. R.G's occasional paper of 1997

NA : *Not available*

The above table shows the various measures of fertility and mean age at marriage recorded during 1991 Census. Medak district recorded higher rates than that of State except in mean age at marriage. This district has recorded 15.7 mean age at marriage against state figure 16.8.

Annexure III

Percentage distribution of Migrants by place of birth/place of last residence, 1991 Census and 2001 Census

Migration :

During 1991 Census, the migrants by place of birth were broadly classified as (A) Migrants born within the State of Enumeation (B) Migrants born in other States of India and (C) Migrants born in other Countries. The migrants born within the State are divided again as (i) Migrants born elsewhere in the district of Enumeration and (ii) Migrants born in other districts of State. Migrants by place of birth have returned 194.64 lakhs in Andhra Pradesh State comprising 62.53 lakhs of males and 132.11 lakhs of females. It has been constituted 29.27%, 18.54% of male and 40.30% to the total population males and females respectively in the State.

The following statement shows the distribution of migrants by place of birth, by sex in the district and State.

Annexure – III(a)

Distribution of Migrants by Place of Birth and Percentage, 1991 Census

Place of Birth	Medak District			Andhra Pradesh State

Source: *Migration Tables (D Series) - 2001*

The migrants by place of birth were returned 194.6 and 228.3 lakhs in Andhra Pradesh State as per the 1991 and 2001 Censuses respectively. It shows a growth rate of 17.3% total migrants over 1991 Census with a breakup of 21.8% males and 15.2% females. In Medak district the migrants are 674,507 persons as per 1991 Census whereas 818,607 persons are in 2001 Census with a growth rate of 21.4% over 1991 census. In both the Censuses the female migrants are more than male migrants due to marriages.

In respect of inter district migrants, male migrants are forming less percentage than female migrants. In the case of inter-state migrants the males are more than females in both the Censuses. Similar is in case of International Migrants.

The following statement shows the Rural and Urban Composition of internal migrants by place of birth at 1991 Census for Andhra Pradesh and Medak district.

Rural and Urban Components of Migration :

The flow of migrants by place of birth have classified into four streams such as (i) Rural to Rural (ii) Rural to Urban (iii) Urban to Rural and (iv) Urban to Urban. The data on the basis of these four streams in case of migrants is classified by place of birth. It presents data only in relation to internal migrants.

The above statement gives the information on movement of migration in Andhra Pradesh and Medak district through the four streams within the State and from other States of India. Of the total 184.07 lakhs of Intra-State migrants in Andhra Pradesh have been moved from Rural to Rural with 63.92%, followed by Rural to Urban with 20.95%, Urban to Urban with 9.34% and Urban to Rural 5.72%. In case of migrants by place of birth from other States to Andhra Pradesh, they have been accounted for 10.27 lakhs. The distribution of 10.27 lakhs of migrants were from Rural to Rural with 33.94%, Rural to Urban 21.77%, Urban to Rural with 10.73% and Urban to Urban by 33.39%. The higher migration by place of birth has found in Rural to Rural in the State.

In the Medak district Intra-State migrants by place of birth consists 6.39 lakhs and 0.35 lakhs were from various States of India. The flow of Intra-State in the district has Rural to Rural, Rural to Urban, Urban to Rural and Urban to Urban with 74.81% , 13.71%, 5.97% and 5.48% respectively. While the migrants from other States of India have constituted with 52.53%. Rural to Rural 15.33% of Rural to Urban, 14.87% of urban to Rural and Urban to Urban has formed 17.07%. The highest percentage of migration by place of birth in the district was noticed in Rural to Rural as found in the State.

This annexure shows percentage distribution of migrants by place of birth as recorded in 1991 census. For all districts of Andhra pradesh the persons born elsewhere in the district of enumeration works out to 70.98% whereas in respect of persons born in other districts of Andhra Pradesh, born in other states and other countries works out to 23.6%, 5.3% and 0.2% respectively. In respect of Medak district the persons born elsewhere in the district of the enumeration recorded 71.3% and the persons born in other districts of the state returned 23.4%. Among the migrants of the district, the persons born in other states and other countries works out to 5.3% and 0.1% respectively. Out of 1.95 crores of migrants of the state, 6.7 lakh migrants belong to Medak district. It is interesting to note that the female migrants are more in number than males in all the districts of the state.

Source: *Migration Tables (D Series) - 2001*

The above annexures show the percentage distribution of migrants by place of birth as recorded in both the Censuses of 1991 and 2001 in Andhra Pradesh state. It is observed that 3.0% increase in the migration who were born elsewhere in the district of enumeration with a sex breakup of 3.0% each, whereas in respect of the migrants who were born in other districts of the state, in other states of the country and in other countries are recorded with a difference of -2.2%, -0.8% and -0.1% respectively between two censuses of 1991 and 2001.

In respect of Medak district the difference between the two Censuses can be observed with the percentage of 3.8 persons, 6.4% males and 3.4% females in the persons born elsewhere in the district of the enumeration. Regarding the migrants from other states in India only a minor variation is recorded with -0.3%.

Among the migrants that are born Abroad no change is noticed in the percentage variation between 1991 and 2001 censuses, except in females with -0.1% which is very much negligible.

Annexure IV
Brief account of Main religions in the district/ mandal as per 1991 Census and 2001 Census

Religion :

During 1991 Census six main religions have been identified in the state. This district has also returned these six religions viz., 1. Hindus, 2. Muslims, 3. Christians, 4. Jains, 5. Buddhists and 6. Sikhs.

Source: Religion Data, Andhra Pradesh - 2001

The above table gives the details of Main Religions in the district for 2001 census whereas the previous Annexure shows the details of main religion in 1991 census. During 2001 census the religion data was collected through question number 7 of household schedule. Out of the total population of the district Hindus have returned 87.4% during 2001 census as against 87.2% in 1991 census. In respect of Muslims they have returned 11.1% in 2001 whereas their percentage during 1991 was 11.5. The next main religion in the district is Christians who returned 1.3% in both the censuses. In respect of remaining main religions viz. Sikhs, Buddhists, Jains and others their strength in the district is negligible.

Annexure IV (b)

Percentage distribution of population by major religions in India, Andhra Pradesh and Medak district and its growth rate during 1981-1991

Sl. No.	Name of Religion	India		Andhra Pradesh		Medak	
		Percentage of Population	Percentage growth rate 1981-91	Percentage of Population	Percentage growth rate 1981-91	Percentage of Population	Percentage growth rate 1981-91
1	2	3	4	5	6	7	8
1	Hindus	82.4	22.3	89.14	24.74	87.19	26.43
2	Muslims	11.7	32.8	8.91	30.66	11.52	29.65
3	Christians	2.3	16.9	1.83	(-) 15.14	1.26	-2.41
4	Sikhs	2.0	25.5	0.03	35.06	0.02	32.92
5	Buddhists	0.8	36.0	0.03	71.33	0.01	1425.00
6	Jains	0.4	4.4	0.04	42.50	0.01	-24.71
7	Others	0.4	13.1	Negligible	201.29	-	-

Religion-wise growth in the State during the decade 1981-1991 shows that Hindus recorded higher growth rate than India as a whole i.e. 24.74% as against 22.3% in India. The growth rate of Hindus in the district and the State is more than Country i.e. 26.43%. The growth rate among the Muslims is less than that of State and Country i.e. 29.65%. The Christians population has decreased in the State and district.

Inset Table to Annexure IV (b)
Percentage distribution of population by major religions in India, Andhra Pradesh and Medak district and its growth rate during 1991-2001

Source: Religion Data, Andhra Pradesh - 2001

This table gives the comparative data on religions among India, Andhra Pradesh and Medak district between 1991 and 2001 census, whereas the previous Annexure furnish the comparative data on religion during 1981 and 1991. At India level among the total population returned in the 2001 census Hindus constituted 80.5% as against 82.4% in 1991. The percentage growth rate of Hindus during the decade 1991-2001 has recorded 20.3 whereas the corresponding growth rate during 1981 and 1991 was 22.3%. It clearly shows that growth rate in Hindu population is diminishing which can be attributed that the people of this religion is more conscious about family planning methods. In Andhra Pradesh the percentage of Hindus has recorded 89.0 whereas the corresponding figure during 1991 was 89.1%. However the percentage growth rate of Hindus has fallen to 14.4 from the percentage growth rate of 24.7 as recorded during the decade 1981-1991. In Medak district though the percentage of population of Hindus recorded 87.4 as against 87.2 in 1991 their growth rate in 1991-2001 has fallen to 18.0% as against the growth rate of 26.4 % in 1981-1991.

In respect of Muslims, their percentage to total population has recorded 13.4 at India level as against 11.7% in 1991. In Andhra Pradesh their percentage has gone up to 9.2% from 8.9% in 1991. In respect of Medak district, Muslims constituted 11.1% of total population during 2001, whereas the corresponding figure recorded in 1991 was 11.5. However in this district the growth rate in the decade 1991-2001 has declined to 13.4% as against the growth rate of 29.7% recorded in 1981-1991.

The other main religion going by numerical strength is Christians. They constituted 2.3% of total population at India level during 2001census. Their growth rate during the decade 1991-2001 is 22.6% at India level as against the growth rate of 16.9% recorded in 1981-91. In Andhra Pradesh their percentage growth rate continues to show the negative trend. The percentage growth rate of this community recorded during 1991-2001 is (-) 2.8 as against (-) 15.1 recorded during decade 1981-1991. In Medak district Christians constituted 1.3% to total population in both the censuses. The percentage growth rate of this community during 1991-2001 has recorded 21.4% as against (-) 2.4% in 1981-1991. In respect of other main communities their growth rate is negligible.

Annexure IV (c)
Distribution between Rural and Urban area of Major religions in Andhra Pradesh and Medak district - 1991 Census

Sl. No.	Name of Religion	Andhra Pradesh (in %)		Medak District (in %)	
		Rural	Urban	Rural	Urban
1	Hindus	76.55	23.45	87.83	12.17
2	Muslims	41.83	58.17	69.27	30.73
3	Christians	60.48	39.52	76.19	23.81
4	Jains	4.11	95.89	63.59	36.41
5	Buddhists	80.41	19.59	86.89	13.11
6	Sikhs	10.85	89.15	37.90	62.10

***Source**: Part-IV-B(ii) of Andhra Pradesh 1991 Census.*

Rural - Urban differentials :

In Andhra Pradesh and Medak district, it is seen that Hindus form considerably higher in rural areas i.e., 76.55% and 87.83% respectively. Similarly Muslims,Christians, Buddhists and Jains form higher percentage in rural areas than urban in the district. But Sikhs form higher percentage in the urban areas both in the State and District..

Inset table to Annexure IV (c)
Distribution between Rural and Urban area of Major religions in Andhra Pradesh and Medak district - 2001

Sl. No.	Name of Religion	Andhra Pradesh (in %)		Medak District (in %)	
		Rural	Urban	Rural	Urban
1	Hindus	76.3	23.7	87.9	12.1
2	Muslims	41.9	58.1	70.0	30.0
3	Christians	55.0	45.0	72.0	28.0
4	Jains	5.0	95.0	55.0	45.0
5	Buddhists	66.0	34.0	90.0	10.0
6	Sikhs	17.0	83.0	35.0	65.0

Source: Religion Data, Andhra Pradesh - 2001

The above table indicates the distribution of major religions between rural and urban in Andhra Pradesh and Medak district during 2001 census whereas the previous Annexure has given details recorded in 1991 census. The above Annexure and inset table to Annexure show that the distribution of religions population between rural and urban at state level as well as at district level. In 2001 census as well as in 1991 census all the religions except Sikhs are concentrated more in rural areas of the district but at the State level in both the censuses Hindus, Christians and Buddhists lived more in rural areas than in urban areas.

Annexure V
Marital status of population as per 1991 Census and 2001 Census

Marital status is classified as (i) Never Married, (ii) Married, (iii) Widowed and (iv) Divorced or Separated. The marital status of a person, can be ascertained in the following manner.

(i)A person who has never married at any time before, treated him/her as never married

(ii) A person who has been married, whether for the First or another or at any time and whose marriage is subsisting at the time of Enumeration with the spouse living treated such a person as married

(iii)A person whose husband/wife is dead and who has not been married again, treated her/him as widowed

(iv)A person who has been separated from wife or husband and is living apart with no apparent intention of living together again or who has been divorced either by decree of a law of court or by an accepted social or religious custom but who has not re-married, treated such a person as Divorced/ Separated.

The following statement shows the Age, Sex and Marital Status composition of the population separately for Total, Rural and Urban in Medak district during the 1991 Census.

The district has returned 22,69,800 persons during 1991 Census, comprising never married, currently married, widowed and divorced or separated with 1065827(46.96%), 1080508(47.60%), 110835(4.84%) and 12540(0.55%) respectively.

In the sex breakup, the percentage among males and females under the above four categories were 56.39 and 43.61 of never married, 49.18 and 50.92 of married, 14.21 and 85.79 of widowed and 30.78 and 69.22 of divorced or separated recorded respectively in the district. The female percentage is dominated in all the categories except never married.

The population have been distributed in 18 age groups starting from 0-9, 10-14 etc., by marital status. According to the distribution the married , widowed and divorced/separated were found in the age group of 10-14, which shows that child marriages are in vogue. In the old age group both males and females were found in the never married category. No separate data was collected reasons for not married.

Source: Socio-cultural Tables (C-Series) - 2001

The above inset table gives the details by age, sex and marital status composition of the population separately for total, rural and urban areas of the district during 2001 census, whereas the previous Annexure shows the above details for 1991 census. In 1991 while furnishing age group-wise marital status data, a separate age group 15-44 where the marital status was high has been shown. In 2001 census keeping in view of persons aged less than 18 years and persons aged less than 21 years, being high concentration of marital status, has been furnished. In the district population of 2,670,097 persons, 704,533 (26.39) males and 546,887 (20.48%) females were recorded as never married. In the total district population, 628,619 (23.54%) males and 649,928 (24.34%) females were found married during 2001 census. It is pity to note that as against 111,562 widows 16,846 widowers were found in the district during 2001 census. The reason for high percentage of widows can be attributed to aged males marrying younger females. As against total population of 1,080,032 persons in the age group less than 18 years, 51.2% males and 47.0% females were found never married in 2001 census. In respect of married persons under the age group less than 18 years, only 0.2% males and 1.45% females were recorded in 2001 census which means public are more conscious about Marriage Act and also ill-fate of early marriages. Similar trend is noticed both at rural and urban areas even for age group less than 21 years. There is no much variation in the figures of marital status of the district between 1991 and 2001 censuses.

Annexure VI
Age , sex and Education in the district as per 1991 Census and 2001 Census

The education table was worked-out on the basis of literates in the district.

Definition of literate: A person who can both read and write with understanding in any language is to be considered as literate. If a person who can merely read but cannot write is not a literate. It is not necessary that a person who is literate should have received any formal education or should have passed any minimum educational standard. All the children in the age of 6 years or less have been treated as illiterate even if the child is going to school and may have picked up reading and writing.

The following table gives age, sex and education in the district at 1991 Census:

Annexure VI

***Source**:Socio-cultural tables, Part IVA-C series,Census of India, 1991 Andhra Pradesh.*

This district has registered 32.41% effective literacy rate of the total population (excluding 0-6 year population) which is below the state literacy rate i.e. 44.08%. The female effective literacy with 19.25% was very poor in the district when compared with the male effective literacy rate i.e. 45.15%, which is more than double the rate of female literacy . About 1.43% of literates received education through non-formal system. While 33.47% received formal education without any level. Literates attained primary level education were 26.81%, middle 11.43% and matriculation 15.09%. Among literates 5.98% attained Intermediate level education, 4.15% were Graduates and above. Technical and non-technical Diploma holder were recorded as 1.48% and 0.15% respectively.

Source: Socio-cultural Tables (C-Series) - 2001

The Annexure presented in the pre-page gives the details of Age, Sex and Education in the district for 1991 census whereas the above inset table reveals the data for 2001 Census. As was done in the previous Census, the children in the Age group 0-6 have been treated as illiterates even in 2001 census. It is seen from the above table that the district has recorded 51.6% literates in 2001 as against 32.4% literates in 1991. In the district the literacy rate for males has recorded 64.3% as against 38.7% in females during 2001 Census. From the above inset table it is noticed that in the school going age groups i.e 7 to 14 years, their literacy rate recorded between 66.3% and 78.1%. In all the age groups male literates are dominating females. The highest educated are found in the age group 11 years with 85.7% and their sex-wise breakup recorded 90.7% in males and 80.3% in females. It is a good trend that the essentiality of the education is felt much by the general public.

Annexure VII
Distribution of different mother tongues returned in 1991 Census at District/ Mandal level and the data at District level for 2001 Census

Mother Tongue :

Mother tongue is the language spoken in the childhood by a person's mother to the person. If mother dies in infancy, the language mainly spoken in the person's home in childhood will be treated as mother tongue. In the case of infants and deaf-mutes the language usually spoken by the mother will be the mother tongue. A very large number of mother tongues have been returned during 1991 Census. It lead to thorough scrutiny and rationalisation, which resulted in 1576 rationalised mother tongues and 1796 names were treated as unclassified or "others". The 1576 rationalised mother tongues were further classified following the usual linguistic methods for rational grouping based on available linguistic information. Thus a total inventory of classified mother tongues returned by 10,000 or more speakers at the all India level were grouped under appropriate languages, where possible, was prepared for final presentation of the 1991 Census data. The total number of languages so arrived at is 114. Of which 18 languages are included in Eighth Schedule to the Constitution of India (Scheduled languages).

N= Negligible

Part B: Languages not Specified in the Eighth Schedule to the Constitution

Sl. No.	Name of the MotherTongue / Language	Strength	Percentage to total population
1	2	3	4

Nil

It is seen from the above annexure that as many as 16 scheduled languages out of 18 have been returned in Medak district. The languages not specified in the eighth schedule of the constitution were not returned in the district during 1991 Census. Telugu speaking people were in majority with 81.4% to total population, followed by Urdu speaking people with 11.43%, Hindi speaking people with 3.75% and Kannada speaking people with 2.05% during 1991. The remaining 12 languages speaking people were negligible in strength.

Inset Table to Annexure VII (b)
Abstract of languages as Mother Tongues and their strength in in the District – 2001 Census

N= Negligible

The above inset table gives the abstract of the languages as mother tongues and their strength in the district recorded in 2001 Census whereas the previous annexure shows the details for 1991 census. In 1991 the data was presented in alphabetical order whereas in 2001 the mother tongue data has been presented basing on their numerical strength in descending order. The mother tongues having minor returns have been clubbed together and added in the category of 'Others'. Telugu being the region's language has recorded 80.5% to total population in the district with a slight decline in the percentage recorded in 1991(81.4%). The next highest language being spoken is Urdu with 10.9% to total population of the district whereas in 1991 the percentage of Urdu speaking people recorded(11.4%). In respect of other scheduled languages it is noticed that their strength is negligible both in 1991 and 2001. In the district almost all the scheduled languages (except Kashmiri) returned.
