CENSUS OF INDIA 2001

ANDHRA PRADESH

DISTRICT CENSUS HANDBOOK

Part - A & B

NALGONDA

VILLAGE & TOWN DIRECTORY

VILLAGE AND TOWNWISE PRIMARY CENSUS ABSTRACT

Director of Census Operations, ANDHRA PRADESH

Foreword

The District Census Handbook (DCHB) published by Census Organisation since 1951 census, is one of the important publications in the context of planning and development at gross-root level. The publication, which is brought out for each district, contains several demographic and socio-economic characteristics village-wise and town-wise of the district along with the status of availability of civic amenities, infrastructural facilities, etc.

2. The scope of the DCHB was initially confined to a few Census Tables and Primary Census Abstract (PCA) of each village and town within the district. Thereafter, at successive censuses, its scope and coverage has been enlarged. The DCHB published at the 1961 census provided a descriptive account of the district, administrative statistics, census tables and a village and town directory including PCA. The 1971 census-DCHB series was in three parts: Part-A related to village and town directory, Part-B to village and town PCA and Part-C comprised analytical report, administrative statistics, district census tables and certain analytical tables based on PCA and amenity data in respect of villages. The 1981 census DCHB was in two parts: Part-A contained village and town directory and Part-B the PCA of village and town including the SCs and STs PCA up to tahsil/ town levels. New features alongwith restructuring of the formats of village and town directory were added into it In Village Directory, all amenities except electricity were brought together and if any amenity was not available in the referent village, the distance in broad ranges from the nearest place having such an amenity, was given. Information on new items such as adult literacy centres, primary health sub-centres and community health workers in the village were provided so as to meet the requirements of some of the Revised Minimum Needs Programme. Information on approach to the village was provided for the first time in the Village Directory so as to give the details on number of inaccessible villages in each district. In the Town Directory, a statement (IV-A) on slums was introduced to provide the details on civic and other amenities in the notified slums of Class I and Class II towns.

3. The 1991 census DCHB, by and large, followed the pattern of presentation of 1981 census, except the format of PCA was restructured. Nine-fold industrial classification of main workers was given against the four-fold industrial classification presented in the 1981 census. In addition, sex-wise population in 0-6 age group was included in the PCA for the first time with a view to enable the data users to compile more realistic literacy rate as all children below 7 years of age had been treated as illiterate at the time of 1991 census. One of the important innovations in the 1991 census was the Community Development Block (CD block) level presentation of village directory and PCA data instead of the traditional tahsil/taluk/PS level presentation. It was expected that the presentation of village directory and PCA data at CD block level will help the planners in formulation of micro level development plans, CD block being lowest administrative unit.

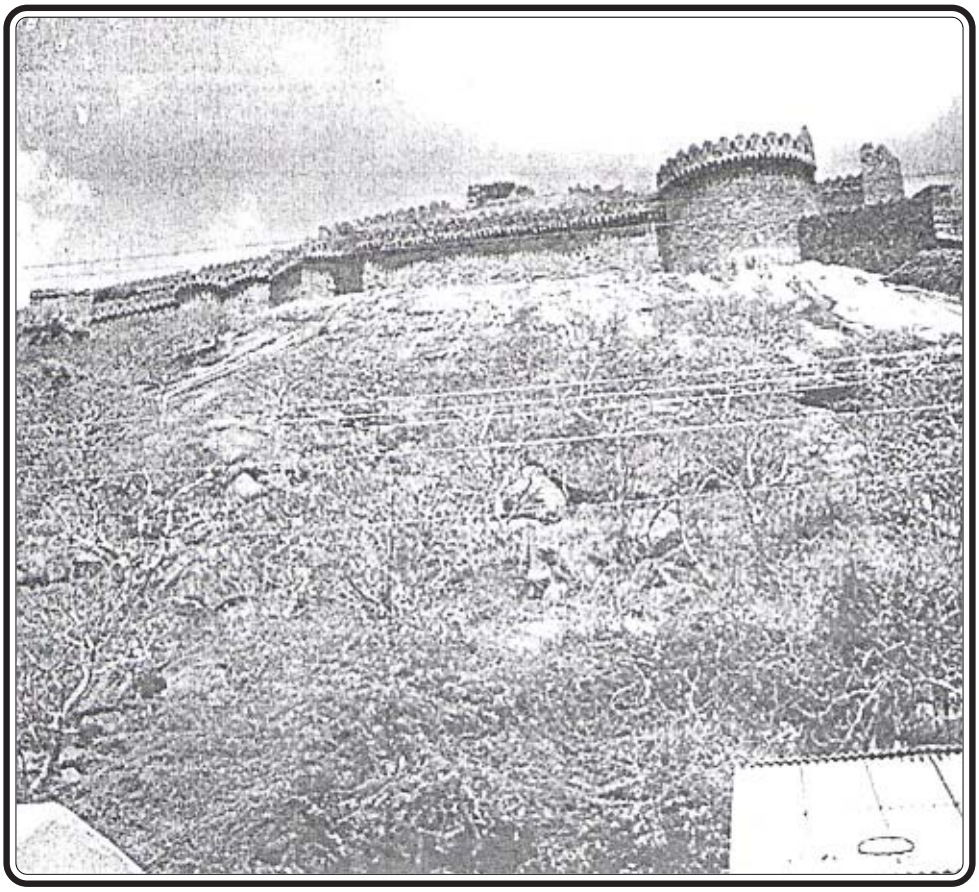

4. The present series of 2001 census DCHBs have been made more informative and exhaustive in terms of coverage and content. The Village Directory has been enlarged in scope by including a number of other facilities like banking, recreational and cultural facilities, newspapers and magazines and ‘most important commodity’ manufactured in village. Income and expenditure of gram panchayat, wherever possible, has been provided. Apart from these, more details on distance(s) at which basic amenities are available (if not available in the village), are given. This includes educational facilities (namely primary and middle schools and college), medical facilities (viz. Allopathic Hospital, Maternity & Child Welfare Centre and Primary Health Centre), drinking water, post & telegraph (post office and phone), communication, bank, credit societies and recreational

facilities. In Town Directory, the statement on Slums has been modified and its coverage enlarged by including details on all slums instead of 'notified slums'. The information is given in case of all statutory towns irrespective of their class, against only Class I and Class II towns in the 1981 and 1991 censuses. The basic amenities available in the villages and towns are analysed in depth with the help of a number of cross-classified inset tables and statements. Two other significant additions in the publication are inclusion of 'motif' highlighting significant characteristic of the district and analytical notes as annexures. The analytical notes on (i) fertility and mortality and (ii) various measures of fertility and mean age at marriage are prepared based on 1991 Census. Whereas, in the notes relating to (i) percentage distribution of migrants by place of birth/place of last residence, (ii) main religions, (iii) marital status of population, (iv) age, sex and education, and (v) distribution of spectrum of mother tongue, nature and extent of changes occurred in the district in its basic socio-demographic features during the decade 1991-2001 are analysed. The eight digits permanent location code (PLCN) to all the villages and towns have been assigned keeping in view the future needs.

5. The village and town level amenity data have been collected, compiled and computerized in prescribed record structure under the supervision of Shri. V.S. Bhaskar, IAS., Director of Census Operations, Andhra Pradesh. Thereafter, efforts have been made to ensure comparability of the information with that of 1991 census data and the information brought out by the respective state governments in their annual reports and statistical handbooks for various years after 1991. The task of planning, designing and coordination of this publication was carried out by Shri R.G. Mitra, Deputy Registrar General (C&T) and Dr. I.C. Agrawal, Senior Research Officer of Social Studies Division. Dr. R.P. Singh, Deputy Registrar General (Map) provided the technical guidance in the preparation of maps. Whereas, Shri Anil Kumar Arora, Deputy Director of Data Processing Division who worked under the overall supervision of Shri Himakar, Addl. Director (EDP) helped in preparation of record structure for computerization of village and town directory data and the programme for the generation of Village Directory and Town Directory statements including analytical inset tables. The draft DCHB manuscripts received from the Census Directorates have been scrutinized in the Social Studies Division under the guidance of Shri S.L. Jain, Deputy Director and Shri R.K. Mehta, Assistant Director. I am thankful to all of them and others who have contributed to make this publication possible.

D.K.Sikri
Registrar General &
Census Commissioner, India.

Bhongir Fort

Bhongir, the headqurters of the taluk and the Revenue Division of the same name, is situated at a distance of 51.5 kilometres from Hyderabad and is a railway station on Hyderabad - Vijayawada section of South Central Railway. It is connected with Hyderabad and Nalgonda by road on which buses ply regularly.

The fort was built on an isolated rock, the eastern and southern sides of which are difficult to climb. It is believed that the western Chalukya ruler Tribhuvanamalla Vikramaditya VI got the fort at this place constructed which was named after him as Tribhuvanagiri. The name subsequently became Bhuvanagiri and Bhongir. The awe-inspiring rock of Bhongir and its impregnable fort and the beautifully fortified courts, which have survived the vicissitudes of time, excite the imagination of the visitors. The fort is associated with the rule of the heroic queen Rudramadevi and her grandson Prataparudra. From the Bala Hisar or citadel on the top of the hill, a good view can be had of the surrounding area for long distances.

Source : District Collector, Nalgonda

Preface

The District Census Handbook (DCHB) containing Primary Census Abstract and data on "amenities" for each village and town in the district. The intention of this publication is to place the data collected at the Census alongwith the village and town level amenities data collected from the Mandal Revenue Officers/ Municipal officials in this publication. The amenities data is validated by comparing with secondary data obtained from Heads of the Departments. For example, information on schools was compared with data available with Commissioner, School Education and information on post offices was compared with data obtained from the Chief Post Master General and so on. Validation of data in the above manner was by no means an easy exercise. Scores of officials had put in gruelling efforts for months together. The entire data and manuscripts were computerized. We are now reasonably confident of the correctness of the data but we will not make any utopian claims of cent per cent accuracy. There may be errors but we will be safe in saying that they are minimal.

The District Census Handbook is divided into the following major components.

1. Introduction.
2. Brief history of the district.
3. Census and non-Census concepts.
4. A detailed write up on the physical features, major cultural and social events, major developments during the decade, places of religious and historic importance etc.
5. Primary Census Abstract (PCA) at the district level, mandal/town level and village level.
6. Brief analysis of PCA data.
7. Village Directory and Town Directory.
8. Brief analysis on Village Directory and Town Directories.

It will not be out of place to mention here that there is perhaps no other publication from any agency that encapsulates so much data on a district. The amenities data includes information on sectors such as Education, Health, Water and Electricity supply, Communication and Transport facilities etc. The idea of presenting amenities data juxtaposed to the Census data is not only unique but also tremendously useful for the data users.

The District Census Handbook is further enriched with a district map and mandal maps depicting villages/towns with population size and also amenities such as Educational Institutions, Hospitals, Telegraph and Telephone facilities, Banks, Police Station etc.

Some improvement over earlier DCHB have been made to bring more completeness to the data presented in this volume.

1. The names of Colleges, Girls' High Schools, Hospitals run by Government and others have been given as an additional information. Similarly the names of Cinema Halls have been given.
2. Ranking of Mandals according to population is also given.

3. More Appendices and Annexures to important statements are given to make the data more comprehensive.

In the previous Censuses, the manuscripts prepared by this department were supplied to Government of Andhra Pradesh who in turn brought out the publications at their cost. However due to the procedural rigmorale some delay was unavoidable in placing the DCHBs before the data users and planners.

This time, keeping in view the above difficulties, the printing and publication of District Census Handbooks has been taken up centrally under the arrangement of the office of the Registrar General and Census Commissioner, India, New Delhi. The processing of data and preparation of Camera Ready Copies electronically including finalisation of write up was attended to in the office of the Director of Census Operations.

I am grateful to the Chief Secretaries, Principal Secretaries, Secretaries, District Collectors, Municipal Commissioners and other senior officials of the Government of Andhra Pradesh for their co-operation and assistance throughout the Census Operations and in the process of collection of the non-Censal data.

I am extremely grateful to Sri D.K.Sikri, IAS, Registrar General and Census Commissioner, India for the help, guidance and constant support in finalising this volume. My sincere thanks to Sri R.P. Singh, Deputy Registrar General (Map) and Dr.I.C. Agrawal, Assistant Registrar General (SS). Sri. S.L. Jain, Deputy Director for giving guidence, help and co-ordinating this project work and their colleagues in the office of the Registrar General, India.

I also take this opportunity to acknowledge the valuable contribution made for this publication by Sri.J.K.Banthia, Ex-Registrar General, India.

Most of the work relating to DCHB has been carried out under the able guidance and direction of Sri V.S.Bhaskar, IAS, Director of Census Operations, Andhra Pradesh, Hyderabad. I take this opportunity to acknowledge his valuable contribution made for this publication.

The credit for preparation of District Census Handbooks goes to a team of devoted officers and staff of this Directorate who have involved in this project. The names of individuals associated with this project are shown in “Acknowledgements”. I am grateful to all of them.

I hope that the data users will find this publication very useful.

District Highlights – 2001 Census

1. Nalgonda District stands 9th in terms of area size and ranks 13th in terms of population in the state.
2. Nalgonda district stands 18th rank in terms of urbanization with a total Urban population 432,678 forming 13.3 percentage to the total district population.
3. The sex ratio of the district is 966 against 962 in 1991 Census showing upward trend.
4. The density of the district is 228 against 200 in 1991 Census, showing increase during the decade.
5. Kodad village, PLC No. 00857400 is most populated with a population of 50,147 and Rajpet village, PLC No 00803600 is the least populated with a population of 6 in the district.
6. Nalgonda mandal is most populated with a population of 163,382 and M.Turkapalle Mandal is the least populated with a population of 32,142 in the district.
7. Nalgonda Municipality is most populated with a population of 110,286 and Bhongir Municipality is the least populated with a population of 50,407 in the district.
8. Out of 100 workers 67.6 are engaged in Agriculture sector, 4.4 in Household industry and 28.0 in other economic activities. Thus showing the predominance Agriculture sector.
9. Out of 100 Male workers in the district 57.0 are engaged in Agriculture sector.
10. Out of 100 Female workers in the district 81.5 are engaged in Agriculture sector.
11. There is decrease in the proportion of main workers of the district in the decade (45.3 percent in 1991 to 40.3 percent in 2001).
12. There is decrease in the proportion of Male workers of the district in the decade (54.5 percent in 1991 to 49.9 percent in 2001).
13. There is decrease in the proportion of Female workers of the district in the decade (35.8 percent in 1991 to 30.4 percent in 2001)
14. The Nalgonda district is famous for existance of Nagarjuna Sagar Dam, Bhongir fort and Laxmi Narasimha Swamy Temple, Yadagirigutta.
15. Chilkur Mandal has the lowest number of inhabited villages (4) and the highest number of inhabited villages (29) are found in both Nalgonda and Nampalle Mandals.
16. Anumula mandal has largest area 15,645.5 hectares under irrigation, followed by Miryalaguda mandal with 12,053.0 hectares in the district. The mandal with lowest area 941 hectares under irrigation is Choutuppal Mandal.
17. Mellacheruvu village bearing PLC No.00860100 has the largest area (5,797 hectares) and Bagdayara village bearing PLC No.00780100 has the smallest area (8 hectares) among the villages of the district.
18. Female work participation rate is 43.0 and that of the Males is 54.9 in the district

(i) About the District Census Handbook

District manuals compiled and published prior to 1905 by the erstwhile composite Madras Government contained not only particulars of items of more or less similar and permanent characteristics like history, religion and ethnography, but also a few statistical tables including those relating to population which became obsolete within a few years of publication. Later, the Madras Government replaced the District Manuals by another publication viz., the District Gazetteer consisting of two Volumes A and B. Volume-A contained descriptive and general tables which explains the text and Volume-B contained detailed statistics. It was decided that Volume B should be brought out periodically after each decennial census so that they contain the latest statistics. Volume-A was published for some districts between 1905 and 1927 in the Composite Madras State. The publication of Volume-A was discontinued in 1927. Volume-B was published for all the districts of the Composite Madras State between 1906 and 1915. The publication of Volume-B was also stopped after 1931 Census.

Similarly the Gazetteer volumes were also brought for some of the districts in the erstwhile Hyderabad State. The scheme of publication of revised District Gazetteers was restarted in the year 1958 by the State Governments. The State Editor, District Gazetteers, Government of Andhra Pradesh had published the Gazetteers of all the districts.

The district Census Handbook series was introduced during the 1951 Census. The idea of compiling the District Census Handbooks was initiated during the 1951 census pioneered by Sri. R.A. Gopala Swamy, I.C.S. the then Registrar General, India and Ex-officio Census Commissioner of India, with a view to preserve the census records prepared for areas below the district level. He proposed that all the District Census Tables and Census Abstracts prepared during the process of sorting and compilation, should be bound together in a single manuscript volume and named as the District Census Handbook and suggested that the State Government should take up printing and publication at their own cost. Then onwards, the District Census Handbooks were published in each census with improved pattern with an aim to give the census and non-census data at micro level for the village and district as a whole to suit the requirements of various departments, scholars, research personnel , planners, industrialists, electoral authorities, and other data users, also for efficient public administration by the state.

Pattern at 2001 Census :

The present District Census Handbook of 2001 Census, like the previous Census, is brought out for each district comprising of two Parts. Part- A Village and Town Directory with additional information on amenities viz., availability of commercial banks, recreation, credit societies etc., and land use particulars in the rural areas and Part- B Primary Census Abstract. At the out set an analytical note is given which depicts a general back ground on the district and analytical results on the statements and tables included in the volume. The volume is also provided with brief history of the district, physical aspects, census concepts, non-census concepts, major characteristics with reference to economic resources and administrative set-up during the past decade, few appendixes etc..

Part A–Village and Town Directory :

Section- I i.e. Village Directory gives non-census data on the amenities available in each village in respect of educational, medical, drinking water, power supply, post and telegraph, telephone, approach to village, banks, credit societies, receipt of newspapers and magazines, recreation and cultural facilities, nearest town and its distance, distribution of land use area, income and expenditure of the village and name of the most important commodities manufactured.

If an amenity is not available in the referred village, the distance in broad ranges (kms.) from the nearest place where the amenity is available is indicated. If the nearest place is situated in another state, name of that state is also given.

Section-II i.e. Town Directory has been presented in seven Statements viz., Statement – I Status and Growth History, Statement-II Physical aspects and Location of towns, Statement-III Municipal Finance (receipts and expenditure,1998-99), Statement-IV Civic and other amenities, Statement-V Medical, Educational, Recreational and Cultural facilities, Statement-VI Trade, Commerce, Industry and Banking etc., Statement-VII Civic and other amenities in slums and an appendix showing towns with out growths and their population. The reference period for the above statements is 1998-99 and the data is covered for all the statutorily notified towns in the district.

The non-census data at Village/Town level is collected from concerned authorities viz., Mandal Revenue Officers, Municipal Commissioners etc., and scrutinized with meticulous care and validated with the data collected from various departments to provide valid information to the data users.

Part B–Primary Census Abstract :

This data can be stated as the essence of the handbook. The latest census details such as area, total households, population, scheduled castes and scheduled tribes population, literates, workers, etc., are presented in these Abstracts.

(ii) History and Administrative Set up of the district

Brief History of the District :

Nalgonda district formed part of the Kakatiya kingdom and after its downfall, it became part of Bahmani kingdom and subsequently passed on to Qutub Shahi dynasty of Golconda and on its fall was annexed to Mughal empire from which it was detached in the early part of the eighteenth century on the establishment of Hyderabad State by the Asaf Jahi dynasty. Finally it became part of Andhra Pradesh with effect from 1st November, 1956 under the scheme of Reorganisation of States. The early history of the Deccan which Nalgonda district forms a part is given below.

Early Hindu Period: In pre-historic times, the great Dravidian race occupied Southern India including a major portion of the Deccan plateau. It is uncertain as to when the Aryans invaded the Deccan. The empire of Asoka (273-231 B.C.), however, seems to have had control over the whole of Berar and a considerable portion of the Deccan plateau. The Andhras were the next kings who ruled the Deccan. They are mentioned in the Asokan inscriptions but their rise to power dates from about 220 B.C. Gradually extending their sway from Krishna delta, they soon possessed an empire reaching to Nasik. This dynasty seems to have come to an end in the third century A.D., but the reasons for the collapse are little known. The Pallavas who ruled south of Krishna possibly might have extended their power to this region. The next dynasty of importance is that of the Chalukyas who rose to power in Bijapur district by about 550 A.D., and founded an empire spreading east and west across the peninsula with their capital at Kalyani. Pulakesin- II (608-642 A.D.) ruled practically the whole of India south of Narmada river and even came into contact with Harshavardhana of Kanoj. Throughout their period of supremacy the Chalukyas were at war with the Pallavas. In the middle of the eighth century the Chalukyas were displaced by the Rashtrakutas of Malkhed in Gulbarga district. About 973 A.D., the Chalukyan dynasty was restored and for nearly 200 years maintained its position, inspite of fierce struggles with the Cholas and Hoyasalas of Dorasamudra. The Chalukya power fell about 1189 A.D., to the Hoyasalas and Yadavas, the later of whom established themselves at Deogiri. The Yadavas were the last great Hindu rulers of the Deccan, for Vijayanagar Kingdom which was founded half a century later after the advent of the Muhammadans, never acquired much sway in the Deccan proper.

Muhammadan Period

Alla-ud-din Khilji led the first Muhammadan expedition into the Deccan in 1294 against the Yadava ruler of Deogiri and coerced him into submission. In 1296, he assassinated his own uncle and seized the

throne, and sent an expedition to Deogiri. His first expedition was dispatched in 1303 against the Kakatiya Kings of Warangal, who had established themselves there since the middle of the 12th century. This having failed, he sent a second expedition under Malik Kafur in 1309, which resulted in the submission of Raja who agreed to pay tributes. Muhammad-bin-Tughlak conducted a later campaign against Warangal and finally broke the Kakatiya power in 1321. In 1310 Malik Kafur was sent against the Hoyasala Raja of Dwarasamudra (Halebid in Mysore). In 1318 when Harpal, the Deogiri ruler rebelled, he was defeated and put to death and with him the Yadava dynasty ended. When Muhammad-bin-Tughlak ascended the throne in 1325 at Delhi, the Muhammadans were masters of the Deccan from North to South. The chief Rajas of Telangana acknowledged their sway and paid tributes. He changed the name of Deogiri as Daulatabad and made it his capital. A few years later, the Imperial Governors of the Deccan revolted resulting in the establishment of the Bahmani dynasty. Zafar Khan, who styled himself as Ala-ud-din Hasan Shah Gangu founded this line and having taken possession of the Deccan provinces including Bidar and Gulbarga, he made the latter place his capital and commenced his reign in 1347 A.D. The Bahmani Kingdom extended from Berar in the north to the left bank of the Tungabhadra in the south and from Dabal on the west coast to the Telangana tracts in the east. After the fall of this dynasty, the Barid Shahi dynasty came into power. Amir Barid, who assumed sole charge of the affairs of the Bahmani Kingdom after the downfall of the Bahmani dynasty, was engaged in constant wars with the rulers of Bijapur and Berar; seen many vicissitudes and finally died in Daulatabad in 1538. He was succeeded by his son Ali Barid who was the first to assume the title of Shah. In 1565, he marched along with the other Deccan Kings against the Rajah of Vijayanagar and in the memorable battle of Tallikota, the Vijayanagar ruler was defeated and his fate sealed. Ali Barid died in 1582 and he was succeeded by three other Kings. The Qutub Shahi dynasty next came into prominence. Qutub-ul-Mulk Sultan Kuli, a Turk of noble family, who was Governor of the Golconda province under the Bahmanis took advantage of the distracted state of the Kingdom under Muhammad Shah of the Barid Shahi dynasty and declared his independence establishing the Qutub Shahi dynasty which reigned from 1512 to 1687 A.D.

When the Mughals invaded the Deccan, the local rulers formed an alliance against them, but after defeating the invaders, they fell out among themselves, enabling the Mughal troops to subdue the country. Shah Jahan after rebelling against his father fled from Burhanpur and was welcomed at Golconda by Abdullah Qutub Shah. In 1635 A.D., Shah Jahan who had then become the emperor, sent a farman to Golconda which was well received. Mir Jumla, the king's minister, appealed to Aurangzeb to invade the territory Hyderabad was plundered, but Abdullah sued for peace and paid arrears of tribute. He died in 1674 A.D., and was succeeded by his nephew Abdul Hasan also called Tana Shah. After the fall of Bijapur in 1686 A.D., Aurangazeb turned his attention to Golconda which was taken in the following year. Tana Shah was made a prisoner and died in 1704 A.D., and with him the Qutub Shahi line ended. This dynasty was founded by Asaf Jah, distinguished General of Aurangazeb, a Turkoman by descent. After a long service under the Delhi emperor, he was appointed as Subedar or Viceroy of the Deccan in 1713 A.D., with the title of Nizam-ul-Mulk, which has since become the hereditary title of the family. The Mughal empire at this period was on the verge of decline owing to internal descensions and attacks from within. Amidst the general confusion, Asaf Jah had little difficulty in asserting his independence against the degenerate and weak occupants of the throne of Delhi, but he had to repel the inroads of Marathas who were harassing the western part of his newly acquired territory. His independence was the cause of much jealously at Delhi and the court party secretly instructed Mubariz Khan, Governor of Khandesh to oppose him by force of arms. A battle was fought at Shakarkhelda in the Buldana district of Berar in 1724 A.D., when Mubariz Khan was totally defeated and lost his life. This battle established the independence of Asaf Jah who annexed Berar and fixed his residence at Hyderabad and established his dominions. Nalgonda district along with the rest of the Telangana came under the control of the Asaf Jahi dynasty.

After the death of Asaf Jah, Nazir Jung his second son and Muzaffar Jung his grandson by one of his daughters, strove for the succession. At this time the English and French were contending for supremacy

in the East and each of the claimants secured the support of one of these powers; Nazir Jung's cause was espoused by the English, while Muzaffar Jung was supported by the French. The latter, however, fell a prisoner to his uncle, but on the assassination of Nazir Jung, Muzaffar Jung was proclaimed the sovereign. Dupleix, the French Governor, became the controller of the Nizam's authority. Muzaffar Jung was killed by some Pathan chiefs and the French then selected Salabat Jung, a brother of Nazir Jung and son of Asaf Jah, as ruler. Ghazi-ud-din, the eldest son of Asaf Jah, who, it was alleged, had relinquished his claim at first now appeared as a claimant, supported by the Marathas, but his sudden death put a stop to further struggles. The English and the French were now contesting power and influence in the Deccan, but the victories of Clive in the Carnatic caused the latter to turn their attention to their own possession which were threatened and to leave Salabat Jung to shift for himself. Nizam Ali Khan, the fourth son of Asaf Jah, at this juncture obtained the support of the English on the promise of dismissing French from his service. Salabat Jung was dethroned in 1761 A.D., and Nizam Ali Khan was proclaimed ruler.

In 1766 A.D., the Northern Circars were ceded to the British on the condition that the Nizam was to be furnished with a subsidiary force in times of war, and receive 6 lakhs of rupees per annum when no troops were required, the Nizam on his part promising to support the British with his troops. This was followed by the treaty of 1768 A.D., by which the East India Company and the Nawab of Carnatic engaged to assist the Nizam with troops whenever required by him, on payment. In 1790 A.D., war broke out between Tipu Sultan and the British and a treaty of alliance was concluded between the Nizam, the Marathas and the British. Tipu, however, concluded peace and had to relinquish half of his dominions which was divided among the allies. In 1798 A.D., another treaty was concluded between the Nizam and the British. On the fall of Seringapatnam (Srirangapattanam) and the death of the Tipu Sultan, the Nizam participated largely under the treaty of Mysore in 1799 in the division of territory and his share was increased because of the withdrawal of the Peshwas from the treaty. In 1800 A.D., a fresh treaty was concluded between the Nizam and the British by which Nizam ceded all the territories which had accrued to him under the treaties of 1792 and 1799, i.e., Cuddapah, Kurnool, Anantapur and Bellary districts known as the 'ceded districts' of Madras. Nizam Ali Khan died in 1803 and he was succeeded by his son, Sikandar Jah. On the death of Sikandar Jah in 1829 his son Nasir-ud-Doula succeeded. Nasir-ud-Doula died in May, 1857 and he was succeeded by his son Afzal-ud-Doula. In 1869 on the death of Afzal-ud-Doula, his son Mir Mahbub Ali Khan Bahadur became the ruler. As he was only three years old then, a regency was constituted for the administration of the country, with Salar Jung I as regent and Nawab Shams-ul-Umara as co-regent, the British Resident being consulted on all important matters concerning the welfare of the State. On the death of the co-regent in 1877, his half-brother Nawab Vikar-ul-Umara was appointed as co-administrator, but he also died in 1881. With this Sir Salar Jung remained the sole administrator and regent till his death in 1883. In 1884, Mir Mahbub Ali Khan having attained majority was installed as ruler by Lord Rippon. On the death of Mir Mahbub Ali Khan in 1911, Mir Osman Ali Khan ascended the throne.

In 1947 when the country attained independence, the princely states were given the choice either to remain independent or to join the Indian Union. The Nizam's dominions became part of the Indian Union in 1948 as a part 'B' State and in 1956, during the Reorganisation of States, the Hyderabad State was trifurcated and the nine predominantly Telugu speaking districts of Mahbubnagar, Hyderabad, Medak, Nizamabad, Adilabad, Karimnagar, Warangal, Khammam and Nalgonda known as the Telangana region were transferred to Andhra Pradesh. Major portions of the predominantly Kannada speaking districts of Raichur, Gulbarga and Bidar were transferred to Mysore (Karnataka) State while the Marathwada comprising the five districts of Aurangabad, Osmanabad, Bhir, Parbhani, Nanded and portion of Bidar which is predominantly Marathi speaking was transferred to Maharashtra State. These changes were effected on 1st November, 1956.

Administrative Set-Up

Region of the state where district is located:

Nalgonda was formally known as Neelagiri (Blue hill). This district is located in the middle of the state and in the south of Telangana Region.The shape of the district is triangular. The bottom is widen, while going upwards it is taken narrow shape towards North - East corner.

Total number of Mandals and the changes therein including jurisdictional changes during 1991-2001 :

The district at present comprises 59 Revenue Mandals. Corresponding to them, Mandal Praja Parishads were also formed which are co-terminus with the Revenue Mandals in all cases except in case of the statutory towns which are not included in the jurisdiction of Mandal Parishads. At 1991 Census this district has 3 Revenue Divisions with 59 Mandals. But in 2001 Census, these 59 Mandals have been re-organised into 4 Revenue Divisions in the district by forming a new Revenue Division, Suryapet.

The Revenue Division-wise Mandals are as follows :

1. Bhongir Revenue Division :

1. Yadagirigutta
2. Alair
3. Rajapet
4. M.Turkapalle
5. Bhongir
6. Bommalaramaram
7. Pochampalle
8. Bibinagar
9. Ramannapeta
10. Valigonda
11. Choutuppal
12. Mothkur
13. Atmakur (M)
14. Gundala

2. Nalgonda Revenue Division:

15. Nakrekal
16. Kethepalle
17. Saligouraram
18. Kattangoor
19. Chandur
20. Munugode
21. Narayanapur
22. Nalgonda
23. Narketpalle
24. Kangal
25. Thipparthi
26. Chityala
27. Nampalle
28. Chinthapalle
29. Gurrampode
30. Marriguda

3. Miryalaguda Revenue Division:

31. Devarakonda
32. Pedda Adiserlapalle
33. Chandampet
34. Gundlapalle
35. Nidamanur
36. Peddavoora
37. Anumula
38. Tripuraram
39. Miryalaguda
40. Dameracherla
41. Vemulapalle
42. Huzurnagar
43. Neredcherla
44. Garidepalle
45. Mattampalle

4. Suryapet Revenue Division:

46. Thungathurthi
47. Thirumalgiri
48. Nuthankal

49. Jajireddigudem
50. Suryapet
51. Penpahad
52. Atmakur(S)
53. Mothey
54. Chivvemla
55. Kodad
56. Mella Cheruvu
57. Chilkur
58. Nadigudem
59. Munagala

The district did not undergo any change after 1991 Census and no new Mandal has been carved out at 2001 Census. In 1991 Census, this district had 4 statutory towns and 4 Census towns. Out of which one census town is declassified and 2 new Census Towns have been formed in 2001 census. At present this district is having 4 statutory towns and 5 census towns. But when compared, the list of villages at 2001 census with that of 1991 census, there is an increase of one village in the total number of villages. In 1991 Census there were 1158 villages of which, 11 villages were included in towns. Hence 1147 villages were under rural status. 3 villages viz., Arjalabhavi, Mamillagudem and Gandhamvarigudem bearing PLC Nos. 00810200, 00811500 and 00811800 respectively have newly sprung up after 1991 census in Nalgonda Mandal. In addition to the above Kodad Town of 1991 Census was declassified and has been added to the list of villages. One village Nalgonda (R), now became an out-growth to Nalgonda(M) of Nalgonda Urban Agglomeration. Hence, this village is now deleted from the list of villages of Nalgonda Mandal. Further, two villages viz., Chandur and Choutuppal have been treated as Census Towns. As such these two villages are also deleted from the list of villages. Thus for 2001 Census 1148 villages have been accounted for.

(iii) Physical Features of the District

Location and size :

Nalgonda district lies between 16^0 25' and 17^0 50' of the Northern latitude and 78^0 40' and 80^0 5' of the Eastern longitude. It is bounded on the North by Medak and Warangal districts, on the South by Guntur and partly Mahbubnagar district, on the East by Khammam and Krishna districts and on the West by Rangareddi and Mahbubnagar districts. The total area of the district is 14,240 sq.kms. and recorded a population of 3,247,982 persons during 2001 Census. The density of population is 228 per sq.km. Among 23 districts in the State, Nalgonda ranks 9^{th} in terms of area and 13^{th} rank in terms of population. It is connected by both Rail and Road and about 100 kms. away from State headquarters.

Physiography :

The general slope of the district is from west and northwest to Southeast. One range of hills run through the Mandals of Nalgonda and Devarakonda and enters Achampet Mandal of Mahbubnagar district. Another range of low hills starts in the south west of the district and extends up to the vicinity of Dindi river. A third range known as the Nalla pahad, after reaching Dindi and Peddavagu rivers bifurcates one span extending towards North and the other joining the second range. A fourth range, in the North-West of the district runs in the same direction upto Sirikonda and then taking a sudden turn by changing its direction towards the East extending about 18 kms. It also passes through Narayanpur, Ibrahimpatnam and Vemulakonda. Besides these, there are a number of isolated hills situated in the district.

Drainage :

The district is drained and watered by the rivers Krishna, Musi, Aler, Peddavagu, Dindi, Hallai(ruralised form of Ahalya), Paleru and Kongal. The Krishna river which is the important river forms the southern boundary while Peleru river flows along its eastern border. The river Krishna first touches the district at Yeleswaram in Devarakonda mandal and flows 85 kilometres in the easterly direction and enters Krishna district. The river Musi is the next important river in the district. It enters the district from North-West and flows towards East to a distance of 64 kms. After joining river Aler it flows to a distance of 153kms. in South-Eastern direction and finally falls into river Krishna near Vadapalle village of Dameracherla Mandal in the district. Peddavagu and Dindi are two other important rivers that flow in Devarakonda mandal which eventually merge into river Krishna. Another river called Hallai which rises in the hills west of Nalgonda mandal, flows in South-East direction for about 72 kms. joins Kongal river near Kujal village and continues in the same direction to fall in the river Krishna. Its total length is 132 kilometres. One more river Aler flows in Yadagirigutta Mandal

and joins Musi river. All these rivers are tapped for irrigation purpose. The Nagarjunasagar, Musi and Dindi projects constructed across the rivers Krishna, Musi and Dindi respectively in the district are worth mentioning.

Climate :

The climate of this district is very hot in summer and is generally dry except during the Southwest Monsoon season. The year may be divided into four seasons. The winter season from December to mid February followed by the summer season which lasts till the first week of June. June to September is the southwest monsoon. October and November constitute the post monsoon or retreating monsoon season. The following table gives Maximum and Minimum temperature recorded in the district for the year 1997-1998.

Table(a)

Month wise maximum and minimum temperature

Temperature	Jan	Feb	March	April	May	June	July	Aug.	Sept.	Oct	Nov.	Dec.
Maximum	NA	NA	37.4	39.7	41.8	34.4	32.8	32.8	34.4	33.3	28.9	29.3
Minimum	NA	NA	23.0	26.3	26.9	25.5	25.4	25.0	25.4	24.0	20.2	17.3

Rainfall :

The rainy season starts in June and ends in September constitutes about 71% of the annual rainfall. The rainfall in the district increases from south west to north east. There is some rainfall during the summer and post monsoon months and it is mainly in the form of thundershowers. The average annual rainfall in the district is 879.8 mm. during 1998-1999.

Table(b)

Season/Month-wise average rainfall in the district, 1998-1999 (in mm.)

South-West Monsoon					North-west Monsoon				Winter Period		
June	July	Aug.	Sept.	Total	Oct.	Nov.	Dec.	Total	Jan	Feb	Total
1	2	3	4	5	6	7	8	9	10	11	12
55.6	196.5	199.5	194.4	646.0	178.1	18.3	--	196.4	--	7.6	7.6

Hot Period				Total for the year	Normal Rainfall
March	April	May	Total		
13	14	15	16	17	18
6.0	--	23.8	29.8	879.8	740.6

Flora and Fauna :

There are no large forests in Nalgonda District. The total forest area in the district is 85,830 hectares forming 6.03% of the geographical area of the district. To improve vegetation, rainfall, forestry and to meet ever increasing fuel problems, various national and social forest programmes have been adopted. The forest vegetation of the district belongs to the dry deciduous tropical thorne forest type of the Krishna basin. The forest produce of the district is only of fuel types and fit for the manufacture of agriculture implements. The product-wise forest revenue is detailed in the following table for the period from 1996-97 to 1998-1999.

Table(c)
Product-Wise Forest Revenue (in rupees)

Revenue under	1996-97	1997-98	1998-99
Timber	--	2,435	--
Beedi-leaves	--	--	172,235
Fire wood	450	7,515	8,600
Other minor forest products	67,450	48,302	35,500
Miscellaneous	4,805,209	2,252,774	434,573

Fauna : Once the district was rich in wild life. Now its number has been reduced due to various reasons. Among the carnivorous, Leopard, Jungle Cat (fellis chaus), Striped hyaena and Jackal are occasionally seen in the forest. The large flying foxes, yellow bats, five striped palm squirrel, porcupine (Hystrix indica), wild bear, antelopes represented by the Indian chinkara(Gazella Gazella) are some of the common flesh eating wild animals found in the district. Among the avifauna, peafowl, partridges, quail rock pigeon and jungle fowl are found in the district.

Minerals :

The minerals available in the Nalgonda district are divided into major minerals and minor minerals. The major minerals available are lime stone(cement grade), quartz feldspars. Apart from the above major minerals like limestone slabs, granites and rough stone and road metal are also available in Nalgonda District.

"The cement grade lime stone is occurring in Dameracherla, Neredcherla, Mattampalle and Mellacheruvu mandals of the district. The economically workable quartz and feldspar deposits are mostly occurring in Devarakonda, Pedda Adiserla Palle, Dindi, Chinthapalle, Gurrampode, Choutuppal, Nalgonda and Narayanapur mandals of the district. The limestone slabs useful for flooring purposes are occurring in Dameracherla, Neredcherla, Mattampalle and Mella Cheruvu mandals of the district. The economically workable granite deposits useful for cutting and polishing are mostly occurring in Kodad, Kethepalle, Nakrekal, Narketpalle and Chinthapalle mandals of the district. The rough stone and road metal deposits are occurring in almost all the mandals of the district.

Table(d)
Mineral wealth

Name of the Mandal	Mineral
Dameracherla Neredcherla Mattampalle	Limestone(Cement grade) "Lime stone, slabs (useful for flooring purposes)Building stone and road metal.
Mellacheruvu	Limestone (Cement grade)Limestone slabs (useful for flooring purposes)
Kodad	Granites (useful for cutting and polishing)Building stone and road metal.
Kattangoor	Building stone and road metal.
Kethepalle	QuartzGranites (useful for cutting and polishing)Building stone and roadmetal.
Chintapalle	
Devarakonda	Quartz, Building stone and road metal.
Pedda Adiserla Palle	Building stone and roadmetal.
Tripuraram	
Nidamanoor	

The building stone and road metal are found in all the remaining mandals.

Soils :

The soils of the district are very poor and it consists red soil. 9% of fertile black soil occurs here and there on the bank of river Krishna. Among the red soil, 47% is Dubba (loamy sands) which has very low moisture retaining capacity and the rest is Chalka soil forming 44%.

Agriculture :

The district is predominantly agriculture oriented. The principal crops cultivated are Paddy, Jowar, Maize, Redgram, Bengalgram, Blackgram, Greengram, Horsegram, Chillies, Sugar cane, Cotton, Groundnut, Seasamum, Sunflower and Caster. In respect of cultivation, Nalgonda is in an advantageous position compared to many districts of the state. The practice of mixed cropping system in the area is limited to dry crops only. For instance Redgram is grown mixed with Jowar plus Bajra or Jowar or Castor. The chief sources of irrigation of the district are the Nagarjuna Sagar, Musi, Dindi, Asifnahar, Pendlipakala, the Saligouraram and Bheemanpalle projects benefiting mainly Nidamanur, Anumula, Tripuraram, Miryalaguda, Dameracherla, Vemulapalle, Huzurnagar, Garidepalle, Neredcherla, Mattampalle, Nadigudem, Munagala, Penpahad, Chilkur, Kodad and Mella Cheruvu

mandals. There are also a large number of tanks and wells as well as borewells in the district. Land under cultivation is 5,34,370 hectares forming 37.6% of the total Geographical area of the district (14,22,324 hectares).

Table(e)

The land use particulars of the district 1999-2000

Sl.No.	Type of utilization	Area in hectares(1999-2000)
1	Forest	85,830
2	Barren and Uncultivable	90,429
3	Land put to Non-agricultural uses	119,348
4	Cultivable waste	34,077
5	Permanent pastures and other grazing lands	66,088
6	Land under miscellaneous crops and groves not included in net area shown	10,072
7	Current fallows	312,089
8	Other fallow lands	170,021
9	Net area sown	534,370
10	Total Geographical area	1,422,324

Table(e) (Concld..)

The land use particulars of the district 1999-2000

The crops raised during the year 1999-2000 in the district shows that major area (38.8%) has been covered under paddy cultivation followed by Jowar (3.7%). The crop-wise area, out turn and yield has been shown in the following format:

Table(f)

Crop wise area, Out turn and Yield

Sl.No.	Name of crop	Area (in hectares)	Out turn (in tonnes)	Yield per hectare (in kgs)
1	Paddy	238,997	576,048	2,410
2	Jowar	22,620	9,032	399
3	Bajra	17,044	11,675	685

Agricultural implements,1993

Sl.No.	Name of Machinery Implemented	Number
1	(i) Plough Wooden	218,395
	(ii) Plough Iron	24,060
2	Diesel Engines	3,576
3	Electric Pumps	99,295
4	Tractors	4,561
5	Sugar Cane Crushers	843
	i Power	105
	ii Bullock	738

A unit of Nizamsagar Sugar Factory is functioning at Amruthnagar, Miryalaguda in the district. During the year 1996-1997, about 3,704.750 Metric Tonnes Sugarcane was crushed. Out of which 3,353.100 Metric Tonnes sugar was produced.

Irrigation :

This district has more irrigation facilities provided by River Krishna, Musi, Aler, Peddavagu, Dindi, Haliya, Kongal etc., rivers. The major multipurpose project Nagarjuna Sagar and other 6 minor projects are meeting the needs of irrigation in the district. The Ayacut area under each project is shown hereunder:

Table(j)

Ayacut area under each project

Sl.No.	Name of Project	Ayacut (in hectares)
1	Nagarjuna Sagar Project	123987
2	Musi Project	16,923
3	Dindi Project	5,061
4	Asif Nahar Project	2,972
5	Pendlipakala Project	1,971
6	Saligouraram Project	924
7	Bheemanpalle Project	486

Out of the net area of 534,370 hectares sown, 2,11,687 hectares were irrigated and 71,818 hectares were irrigated more than once. The area under irrigation has been decreased from 3,13,995 hectares in 1990-1991 to 211,687 during 1999-2000

Table(k)

Area irrigated by source 1999-2000

Sl.No.	Name of Source	Area Irrigated (in hectares)
1	Canals	79,189
2	Tanks	10,330
3	Tube-Wells	34,553
4	Other Wells	71,374
5	Other Sources	16,241
	Total	**211,687**

Table(l)

Area of crop irrigated (Area in hectares) 1999-2000

Sl.No.	Crop	Area Irrigated(in hectares)

11	Other crops	21,478
	Total	**283,505**

Animal Husbandry:

Livestock occupies second important position in the district next to the agriculture consisting of animals used for production of milk and in agricultural activities. According to 1999 Livestock Census the total livestock population in the district is 2,566,703 while the total poultry is 3,447,103 birds. The variation in livestock and poultry during 1966 to 1999 is detailed in the table given below.

Table(m)

Livestock and poultry population

Sl.No.	Particulars	1966	1972	1977	1983	1987	1993	1999

During the decade 1990-2000, the veterinary services and institutions have been increased substantially and their details are furnished below.

Table(n)

Veterinary service institutions during 1990-91 and 1999-2000

Sl.No.	Particulars	1990-1991	1999-2000
1	No. of Joint Directors	-	1
2	No. of Dy. Directors	2	1
3	No. of Asst. Directors	21	21
4	No. of Veterinary Asst. Surgeons	85	97
5	No. of Junior Veterinary Officers(Livestock+Veterinary assistants)	250	268
6	No. of Veterinary Polyclinics	1	1
7	No. of Veterinary Hospitals	12	13
8	No. of Livestock Supervisory units	74	86
9	No. of Rural Livestock units	153	153
10	No. of Ambulatory clinics	1	1
11	Animal Health Centres	1	1
12	Mobile input Projects	1	1
13	Government Livestock Farms	1	0
14	Centralised Semen Collection Centres	1	1
15	Intensive Sheep Development Projects	1	1
16	Sheep Supervisory Units(shifted to Veterinary Dispensaries)	3	3
17	Sheep Extension Units(shifted to Rural Livestock Units)	24	24

Table(o)
Activity of Veterinary Officials to improve and to protect Live Stock

Sl.No.	Item	Number
1	Cases Treated	215,100
2	Castrations	0.52 lakhs.
3	Vaccinations	19.33 lakhs.
4	A.I. done	40.56 Lakhs.
5	Calves Born	12150 numbers
6	Area brought under fodder development	28954 Acres

Dairy Development:

There are 6 milk chilling centres in the district. Besides this, 600 milk collection centres and 260 Co-operative Societies are functioning with 340 pick-up points. Average monthly procurement accounts 1,371,270 litres against average monthly sale of 1,700,000 litres. The procurement price is Rs. 7.15 per litre, while sale price is Rs. 8.00 per litre (Toned Milk) and Rs. 12.00 per litre (Whole Milk).

Fisheries :

The fishery potential of the district is considerably rich with perennial sources like the river Krishna, the Moosi and the Dindi besides a good number of tanks. The district also has a vast potential for the development of inland fisheries. The Musi empties its water at Solipet into the Reservoir with an extent of 2,524 sq.kms.. The total number of tanks in the district are 3,523 at the beginning of 1991, out of which 650 are perennial and long seasonal which are suitable for development of fisheries. The total water spread area accounts to 78,484 acres of which 36,310 acres are watered by the perennial and long seasonal tanks. The total fish production is estimated to be 12,000 tonnes to 16,000 tonnes per annum.

There are two fish seed farms one at Dindi and another at Thummadam in Nalgonda district with an extent of 80.27 acres. The fish seed production from these two farms are supplied to various fishermen co-operative societies in the district for rearing the fish in the tanks of Gram Panchayat and fish culturists.

In Nalgonda district there are 318 fishermen Co-operative Societies functioning with total membership of 31,150 and paidup share capital of Rs.3,11,500/-. Besides this there is a District Fishermen Co-operative Society Ltd., at Nalgonda with a membership of 199 Primary Fishermen Co-operative Societies with a paid-up share capital of Rs.24,875/-.

Electricity and Power :

As electricity has immense importance in the electronic age, the global economy considers it as not only essential in-put, but also essential out-put.

To this effect the Union Ministry of Non-convential Energy Resources is formulating comprehensive National Policy on renewable energy resources and is also contemplating to launch National Programme to generate power from bio-mass, agrobased wastes and wind. Wind power is better electrical source than coal and natural gas and is less expensive.

During the decade, all the 1,119 Grampanchayat villages existing in the district are electrified, achieving 100% progress. The Nalgonda District stands first in the state, in regard to the substations. It is having four 220/132 KV, nine 132/33 KV and one hundred and twenty seven 33/11 KV substations in the district. During the last decade, the total number of services increased multi-fold i.e., from 1.09 lakh in 1981 to 6.00 lakh services as on 31.3.2000.

Andhra Pradesh State Electricity Board(APSEB) has been restructured as APGENCO and APTRANSCO. The APTRANSCO has further formed four power distribution companies besides APTRANSCO itself look after with EHT system in the state.

The district Nalgonda falls under the jurisdiction of Central Power distribution company of Andhra Pradesh Limited (APCPDCL) with corporate office headquarters at Hyderabad.

There are three Hydro Electrical Power stations in the district at Nagarjuna Sagar. Their installed capacity and power generation for the period 1996-2000 is given below.

Table(p)

Installed Capacity and Generation of power 1996 - 2000

Sl.No.	Name of power station	Installed capacity as on 31.3.2000 (M.W)	Generation (Million kilo Watts Per Hour)			
			1996-97	1997-98	1998-99	1999-2000
1	Nagarjuna Sagar Main Power House	810	2,211.00	2,277.00	2,383.10	2,397.67
2	Nagarjuna Sagar Right canal Power House	90	125.87	197.84	254.02	202.89
3	Nagarjuna Sagar Left canal Power House	60	56.70	90.31	105.70	85.28

The category-wise number of services together with power consumption (units in lakhs) for the year 1999-2000 is shown in the following table.

Table(q)

Category- wise power consumption

Sl.No.	Category	No. of Services(in lakhs)	Power sold in1999-2000 (units in lakhs)
1	Domestic	3.60	1,523.00
2	Non-Domestic	0.30	598.00
3	Industries	0.07	2,325.00
4	Cottage Industries	0.02	43.00
5	Agricultural	1.95	11,692.00
6	Public Lighting	0.03	169.00
7	General and Others	0.03	28.00
	Total	**6.00**	**16,378.00**

The length of transmission and Distribution lines in the district as on 31.3.1999 are as follows.

Table(r)

Length of transmission and distribution lines

S.No.	Voltage of Lines	Length (in Kms.)
1	220 K.V.	506.07
2	132 K.V.	570.00
3	33 K.V.	1,790.20
4	11 K.V.	10,795.28
5	LT	36,032.40

Industry :

Sugar, Cotton, Jute, Drugs, Cement, Chemicals, Oils, Paper, Plastic Industries etc., are the large and medium scale industries in the district.

During 1997-1998, there are 86 large and medium scale industries and 10,069 small scale industries in the district, besides having 491 factories registered under Factories Act, 1948 and 291 trading and 518 un-trading Rice mills. List of large and medium scale industries and production of selected industries is provided hereunder:

Table(s)

Transport :

Nalgonda district is connected by Road and Rail. Two Railway lines i.e. one double electrified broad gauge line from Hyderabad to Vijayawada and another broad gauge line from Hyderabad to Guntur via., Nalgonda town passes through this district. Length of those Railway lines is 173 kms. with 22 Railway stations.

Provisionally, as stated in the Statistical Abstract,2000 of Andhra Pardesh published by the Directorate of Economics and Statistics, this district has214kms. National High way, 3404 kms. P.W.D (R&B) Roads and 5883 kms. Panchyatraj roads as of 1999-2000. The vehicles of different class and category that are existing in the district, as per the Statistical Abstract, 2000 of A.P. is shown in the following table:

Table(w)

Category- wise number of Vehicles

Sl. No.	Name and Category of Vehicle	On Roll	On Road
1	Service Carriages: (i)A.P.S.R.T.C. (ii)Private	66,928	66,822

(iv) Major social and cultural events, natural and administrative developments and significant activities during the decade

During the decade 1991-2001 no significant social and cultural events have occurred in the district. In respect of administrative developments one new Revenue Division Suryapet and two urban areas viz., Choutuppal and Chandur and three new Revenue villages Arjalbhavi (PLCN 00810200), Mamillagudem (PLCN 00811500) and Gandhamvarigudem (PLCN 00811800) have come up. Kodad urban area attained rural status due to strict application of demographical criteria. Another significant activity i.e. laying of a new broadguage Railway line between Hyderabad and Guntur has taken place during the decade. This route reduces about 100 kms. distance between Hyderabad and Guntur, when it is compared with journey via Vijayawada.

In the year 1996 under the Chairmanship of the District Collector the 'Bala Karmika Vikasa Samithi' has constituted. The main aim and objectives of the samithi are conducting surveys on Vulnerable child labourers in hazardous occupations, creating awareness among the public about the steps taken by the Government to eliminate child labour, implementing programmes like creating public awareness, running special schools, imparting non-formal education and generating income and employment opportunities, etc.

The social security schemes such as payment of pensions to the aged, widows, landless agricultural workers and physically handicapped persons are implemented in the district.

During the decade, as in the other districts, a novel scheme called "Janmabhoomi" has been launched on the new years day 1997 by the Government of Andhra Pradesh. This adds new dimension particularly in rural development in the sense that people are involved in decision making and development process. The main activities taken up under this programme are aimed at achieving the basic needs of the people belonging to both rural and urban through "Sramadanam" with the people's partcipation.

As in the other districts, in this district also, with the inspiration of Janmabhoomi programme, 'Spandana' another novel scheme totally envisaged by the district administration for the overall development of villages has been taken up with the aims of

1. Education for all
2. Family planning programmes
3. Usage of Bio-gas plants/Smokeless chullas to prevent air pollution
4. Clean village concept

Yet another novel programme envisaged by the district administration for benefitting the physically handicapped in the district is called 'Cheyutha'. All the government officials connected with the physically handicapped will sit under one roof and do the needful then and there. The benefits such as issue of physically handicapped certificate by the medical board, RTC passes, railway passes, registration in employment exchanges, etc., were extended besides giving aids and appliances to the identified handicapped persons.

(v) Brief description of places of religious, historical or archaeological importance in villages and places of tourist interest in the towns of the district

Places of Religious, Historical or Archaeological Importance:

Places of Religious institutions (Temples), Mutts and Historical or archaeological importance in the district are presented here under.

1. Alair (Alair Mandal):

Alair, named after the river Aleru flowing near by, is situated at a distance of 22 kms. from Bhongir. It has a railway station on the Secunderabad-Kazipet section of the South Central Railway. This is connected with Hyderabad, Warangal and Siddipet (Medak district) by road. The important places of tourist interest at Alair are temples of 'Sri Rama', 'Ranganayakaswamy' and 'Lord Siva'. The place is noted for a rock known as 'Ramula Banda' which has a legendary association with the Ramayana. There is a sacred 'Gundam' (pool) of 9.14 metres diameter in which Hindus take a sacred dip on auspicious days. 'Srirama Navami' is celebrated here for 7 days from Chaitra Sudda Navami to Purnima(March- April). In the Ranganayakaswamy temple the annual festival is celebrated for 5 days from Jyestha Suddha Ekadasi to Purnima(May-June) on large scale.

2. Kolanpak (Alair Mandal):

This village is situated at 6.44 kms. from Alair railway station on Hyderabad-Kazipet section of the South Central Railway. This place was once a prosperous city covering an area of 93.24 sq.kms and the ruins of the old fortifications can still be seen.Kolanpaka is a place of much historical importance. As many as thirteen huge stone pillars with inscriptions were dug out from a single spot. The main attraction of the place is, 1800 years old well maintained Jain Temple of Mahavira. During annual 'Utsavam' in Jain temple, pilgrims of Jain religion from all over India congregate here to perform poojas. The place is also noted for the temples of Viranarayana, Someswara, Visweswara and Hanuman and all these temples are rich in sculptural beauty. A note worthy phenomenon of Kolanpaka is that, if one stands on the tank bund which is about 1.6 kms. from the village and calls out 'Dhana Malli', a plaintive voice responds to the call though there is no hillock or a rock nearby to treat the response as an echo.

As per the inscriptions available, Veeranarayana Temple, originally a Jain Temple was converted into a Hindu Temple by Velama kings in 18th Century. Thereafter it was renovated by a poet, Ravoori Sanjeeva Kavi who wrote a book praising the deity. Another temple from this place, which attracts devotees from far and near and even beyond frontiers of our country is Someswara Temple. An idol of Chandrika is seen there along with a lingam inscribed with innumerable lingams called 'Koti Lingam'.

Sri Ramanavami and Viranarayanaswamy Utsavam are important festivals celebrated here by large number of devotees during March- April.

3. Bhongir (Bhongir Mandal):

Bhongir Municipality is located at a distance of 51.5 kms. from Hyderabad. It is situated at the foot of a fortified rock, 609.6 metres above the sea level.The fort was built on a single isolated rock. It is believed that the Western Chalukya ruler Thribhuvanamalla Vikramaditya VI constructed the fort, which was named after him as Tribhuvanagiri. The name subsequently became Bhuvanagiri and presently 'Bhongir'. The awe inspiring rock of Bhongir and its impregnable fort and beautifully fortified courts which have survived the vicissitudes of time, excite the imagination of the visitors. From the 'Bala Hisar'

or citadel on the top of the hill a good view can be had for long distances. This town is an important trading centre noted for its pottery. There are three temples of 'Siva', two temples of Anjaneya, four Mosques, a Church and a Darga of Syed Jamal Bahar. Sri Rama Navami occurring in March-April and Sayed Jamal Bahar Urs in September- October are most important festivals which attract large number of devotees. An Ashram, known as 'Kanduri Narasimhachari Rajayogi Guru Ashram' is also worth seeing place.

4.Yadagiripalle (Yadagirigutta Mandal):

Yadagiripalle is situated at a distance of 4.82 kms. from Rayagiri railway station on the Hyderabad-Kazipet section of the South Central Railway and 64.37 kms. from Hyderabad. There is a hill called Yadagirigutta in the village on which the famous shrine of Sri Lakshmi Narasimha Swamy stands. Tradition records that Yadagirigutta was constructed by Yadava Chiefs and is accessible to the pilgrims by four routes. There are wide stone steps to ascend the hill and also a motorable road to the top from down below. There is a well laid out township on the top of the hill consisting mostly of Dharmasala constructed by the devotees. Sri Lakshmi Narasimha Swamy Brahmotsavam is celebrated for eleven days from Phalguna Suddha Vidiya to Dwadasi (February-Mar) with much grandeur and is well attended by thousands of the devotees from all over the State. It is one of the most important tourist centres in the State.

5. Gundlapalle(Gundlapalle Mandal):

This village assumed importance owing to the construction of a dam across the river Dindi which passes near the village. This is an ideal spot for excursion and has two posh traveller bungalows providing all halting facilities.

6. Mella Cheruvu (Mella Cheruvu Mandal):

This village is situated at a distance of 67.6 kms. from Khammam railway station and 19.31 kms. from Mukthyala from where boats ply to Vijayawada on the river Krishna. The village is famous for temple of Sri Swayambhu Sambhulingeswaraswamy built by the Kakatiya Kings which is known as Dakshina Kasi (Varanasi of the South). A noble feature of the temple is that on the top of the Lingam there is a hole of about 2 inches in circumference which is full of water in all seasons. It is locally believed that the Lingam in the temple is growing in height. Kalyanothsavam of the deity is celebrated annually during Mahasivaratri and on this auspicious occasion about 10,000 devotees from different parts of the country congregate here.

7. Mattam Palle (Mattam Palle Mandal):

The village Mattampalle is situated at a distance of 32.19 kms. from Huzurnagar on the bank of the river Krishna and is considered to be a very sacred place. The temple, known as Lakshmi Narasimha Kshetram, is an ancient cave-temple and the atmosphere here is extremely serene and rich in vegetation. The image is believed to be self-revealed and is in existence from time immemorial. The annual festival of the deity celebrated during April-May draws a congregation of about five thousand devotees.

8. Nandikonda (Peddavoora Mandal):

Nandikonda is a small village on the bank of the river Krishna and about 64.37 kms. away from Miryalaguda. The village became prominent owing to the construction of Nagarjunasagar project across the river Krishna. The world famous Nagarjunakonda where the Buddhist remains were excavated is about 8.05 kms. from here. The most important structure discovered was the Ikshvaku citadel with its grand fortification wall, ditch, gates and army barracks inside and a great rectangular stadium. Several Buddhist structures like monasteries and pillared halls were unearthed as some of them are preserved in the museum of the Central Archeological Department which is worth visiting.

9. Vadapalle (Dameracherla Mandal):

This place is located on the borders of Nalgonda and Guntur districts at the confluence (Sangamam) of Krishna and the Musi rivers. There is a fort at the place constructed by the Kakatiya King Prataparudra. The fort is in ruins, it gives the viewers a glorious historical past, the beauty of the sculpture, the religious beliefs and the social customs of the past. The two renowned temples of the place are those of Sri Narasimhaswamy and Agastheswara Swamy. The significance of Agastheswara Swamy temple is that there is a crevice on the top of the Sivalingam

which is always get filled with water even if water is removed. The level is reached within no time. Sthalapuranam says that this temple was built by Sage Agasthya whose statue is installed. The significance of the Narasimhaswamy temple is that there are three 'Dipams' before the idol of the diety and the middle one placed directly below the nose of the Lord twinkles, while the other two remains steady. The carving of the Vigraham is so skillful that the viewer gets an impression that the twinkling is due to the respiration of the Almighty. These mysterious factors made this place as one of the important pilgrim centres in the district. Mahasivaratri is an important occasion celebrated at this place when thousands of Hindus congregate.

10. Vijayapuri North (Peddavoora Mandal):

Vijayapuri North lies on the north side of the river Krishna and is about 160.93 kms. from Hyderabad. The site gained prominence owing to the construction of Nagarjuna Sagar Dam. It has become a tourist spot having beautiful air-conditioned rest-houses and attracts visitors even from foreign countries every year.

11. Nalgonda (Nalgonda Mandal):

Nalgonda town, the headquarters of the district is situated at a distance of 103 kms. from Hyderabad. It enjoys communication facilities to many important places like Hyderabad, Nagarjunasagar, Suryapet, Miryalaguda and Devarakonda. The town was formerly called 'Nilagiri' (blue hill) but subsequently came to be known as Nalgonda after its conquest by Ala- Ud-Din Bahaman Shah. There are many worth seeing monuments like forts and temples which have survived the ravages of the time and human vandalism, proclaiming the glorious past of the place. An item of archeological interest at the town is the monolithic pillar of the Kakatiya period (13th Century), nearly 13 metres high erected on a platform. There are many Government offices, educational institutions and industries at this place. The places of worship in this township are two Siva Temples, one Sri Rama Temple, eight mosques and two churches proclaiming communal equality. 'Sivaratri' and 'Sriramanavami' and Urs of Lateef Shah Vali Ullah Khadri are the most important festivals celebrated at this place during February-March, March-April and August-September respectively.

At the distance of 2.4 kms. from Nalgonda there is a place called Panagal which has much historical importance. It is said to be the capital of Kakatiya King. The kakatiya of Warangal constructed many temples, which are renowned for their architectural beauty. Among these shrines Pachchala Someswaraswamy, Chaya Someswaraswamy andChennakesavaswamy are worth mentioning. Sivaratri, celebrated here annually attracts thousands of devotees, Panagal, with its historic antiquity and religious sanctity draws tourists from all parts of the State. Making of brass vessels is an important industry in this place. There is a large tank adjacent to the village called as panagal tank. Government of Andhra Pradesh, launched an irrigation project called Srisailam left bank canal (now it is renamed as Yelimineti Madhava Reddy Project). This project area starts from Akkarampalle village beside Krishna river basin of Pedda Adiserlapalle Mandal. This canal merge in the Panagal tank and panagal tank is expected to become a reservoir in future. The project construction work is under progress.

12. Rachakonda (Narayanapur Mandal):

This place, situated amidst hill ranges, and 48.28 kms.from Hyderabad, has great historical value. There are five temples at this place, depicting the beauty of kakatiya art and architecture. Of them, the temple of Sri Rama is most important.The base of the hillock on the left side is called Pattabhigutta. There is a small cave with a tunnel at a height of over 16 metres on the right hand side through which five images of Sri Rama Pattabhishekam and Dasavatharams sculptured on the rock can be seen. Sri Ramanavami and Urs near Galib Shahid Darga are the most important festivals celebrated here with much devotion.

13. Mothkur (Mothkur Mandal):

This village is situated at a distance of 32.17 kms. from Ramannapet and equidistance from Alair railway station. The village has a temple of Ramalingaswamy, constructed during the reign of Kakatiyas of Warangal. An interesting feature is that the sculpture in the temple resembles that of the gateways of Warangal fort. There are two footprints on one of the nearby

hillocks and the people believe that they belongs to Lord Srirama. Sri Ramalingeswaraswamy Uthsavam, celebrated for 12 days during March-April, is an important annual event which draws large number of devotees.

14. Pillalamarri (Suryapet Mandal):

This is an ancient village, of much historical importance, lies at a distance of 4.83 kms. from Suryapet. There are beautiful ancient temples which are preserved and maintained by the State Government and these are fine specimens depicting the history of Hindu religion in the temples with exquisitively carved stone pillars. Ancient coins were also unearthed here. Pillamarri is said to be the birth place of the famous Telugu poet Pillamarri Pina Veerabhadrudu. Large number of devotees assemble here during February-March to offer their prayers on the occasion of Chennakesavaswami Utsavam.

(vi) Major characteristics of the district, contribution of the district in the form of any historical figures associated with the district.

Nalgonda district has derived its name from the headquarters town Nalgonda. Formerly, it was known as Neelagiri(blue hill). After merger of Nizam's dominions in 1948, this district was a part of Hyderabad state. In 1956, during the reorganization of states, this district was included in Andhra Pradesh state along with other Telugu speaking districts.

Though the district has not produced major historical figures, it has few worth mentionable men of letters who have participated in freedom fighting and social work. The people of this district mostly under communist banner fought against Razakars and Nizams. Among them Sri Vatti Kota Alwar Swamy, who worked in 'Golkonda' news paper which was a very famous daily news paper in Telangana, was arrested several times, when he opposed against bonded labour and collection of compulsory of levy. In 1938 he has established 'Deshoddaraka Granthalaya' and evoked political awareness among the people of the district. Another weekly paper Neelagiri was started by Sri Narasimha Rao another well known social worker in the district who used to awake people against Nizam's rule through this weekly magazine. He has struggled through this weekly magazine for five years. However the Nizam has stopped circulation of this weekly very rudly.

Sree Vinobha Bhave has initiated Bhoodan movement from Pochampalle village of this district. Hence this village is presently called as Bhoodan Pochampalle.

Nagarjuna Sagar dam with 1247 metre high, known to be the highest masonry dam in the world has been constructed across the river Krishna in this district. Due to construction of this project along with other notable projects this district has improved irrigation facilities. A tiger project all along Nagarjuna Sagar to Srisailam Project has been established with a view to protect wild animals.

Well known Jain temple at Kolanpak and Sri Laxmi Narasimha Swamy temple at Yadagirigutta of this district attracts many people all over the state and from other states.

(vii) Census Concepts

Population census is a great national task, which we are called upon to undertake for every ten years. In India, the 1872 marked as the beginning of modern census taking, when it was conducted at different points of time in different parts of the country. From 1881 onwards a complete and synchronous census was held. The present Census is a land mark administrative event, as this has generated a historic bench mark data to shed light on the state of nation's society and other demographic, economic and socio-cultural data which simultaneously makes transition from one century and millennium to the next. The 2001 Census was the 14th decennial Census of India and the 6th after independence.

The Census of India was conducted in two phases namely, I) House-listing Operations II) Population Enumeration. The first phase was conducted during April-June,2000 in different States/Union territories depending upon their local conditions. In Andhra Pradesh it was conducted from 11th May to 5th June 2000. The house-listing operations provide a base for the population enumeration, besides providing comprehensive database for assessing condition of human settlements, the housing deficit and future housing requirement for formulation of housing policies. This also provides a massive data on amenities available to the households which was much needed by various departments of the Central and State Governments and other Non-Governmental agencies, for planning and development in different sectors of the economy. Hence house-listing operation is a pre-requisite for population enumeration.

Unlike 1991 census, there are significant changes in house-listing schedule for 2001 census. The questions on condition of the census house, number of married couples living in the household and having independent room for sleeping, bathroom and kitchen within the house and using the means of entertainment and communication facility of radio, transistor, television, telephone and possessing of means of transport like bicycle, scooter/motor cycle, car/jeep/ van and availing of banking services by the household are added to the present house-list schedule.

The main population enumeration was conducted from 9th February to 28th February, 2001, followed by revisional round from 1st March, 2001 to 5th March, 2001, to update the data with reference to 00.00 hours of 1st March, 2001. The houseless population was enumerated at midnight of 28th February 2001.

The household schedule and individual slip of 1991 census were replaced by household schedule of A3 size containing three parts to collect the information from each household at 2001 Census. In the present Census, the house-hold schedule is designed in such a way to suit the requirement of capturing the data through scanners. At the 2001 Census, for the first time **Image-based data capturing technology through scanners and computer network has been introduced** with a view to provide error free data by avoiding keying in of data.

The house-hold schedule broadly covered the individual particulars under four major headings 1) General and Socio cultural characteristics (Q(1 to 15), 2) Characteristics of workers and non-workers 3) Migration characteristics (Q.21 to 22)and 4) Fertility particulars (Q.23). Part-I deals with location code particulars, Part-II relates to Individual particulars with 23 questions, consisting of 1 to 39 columns, Part-III covers on cultivation/plantation particulars like land possessed, type of tenancy enjoyed by the household/ household member. Some additional questions 1) on disability, 2) Particulars relating to travel to the place of work a) distance from residence to place of work, b) mode of travel to the place of work, 3) household engaged in cultivation/plantations are added in the present household schedule.

Marital status, mother tongue, religion and literacy status (for 7 and above) migration, fertility particulars

and the identification of SC/ST are repeated but the age at marriage is also ascertained for males at 2001 Census. For the people, who are attending educational institutions, a separate code has been provided to record the Vocational institute, other institute and literacy centre in addition to school/college.

Criteria for enumeration of persons in a particular household:

a) All those who normally reside and are present in that household during the entire period of enumeration from 9th February to 28th February, 2001, b) also those who are known to be normally residing and had actually stayed during a part of the enumeration period (Feb.9th to 28th Feb.2001) in the household but are not present at the time of enumerator's visit, c) also those who were known to be normally residing and are not present at the time of enumerators visit but are expected to return before 28th Feburary,2001 and d) Visitors who are present in the household censused and are away from the place of their usual residence during the entire enumeration period. For the purpose of enumeration, such visitor will be treated as normal resident of the household in which they are actually found during the enumeration period provided that they have not been enumerated elsewhere. One of the essential features of population enumeration in the second phase is each person enumerated and her/his individual particulars are collected at a well defined point of time.

Location Code Number

The procedure of assigning location code number in a zigzag manner starting from North-west corner and ending at South-east corner, is adopted for 2001 Census. The Andhra Pradesh state was assigned Location Code No.28 as against 02 in 1991 census. In a similar fashion, the location code numbers of the districts in Andhra Pradesh state have been changed and revised location code numbers were allotted in order of geographical contiguity, beginning from North-West point of the state and ending at the South East point. Thus the Adilabad district has been assigned Location Code No. as 01 and Chittoor district Location Code No. 23 at 2001 Census. Accordingly, the location code numbers of mandals in each district have been changed for 2001 census.

An important change at 2001 census is allotment of permanent location code numbers to all the villages in the state. Since the whole data ie., Village and Town Directory information is also being computerized, the allotment of permanent location code numbers would facilitate the data users for easy access and retrieval the data of a particular village at micro level by the click of a mouse. The Permanent Location Code Number (P.L.C. No.) is an eight digit number starting with 00000100 in a zig-zag fashion from North-West corner in the first Mandal of Adilabad district and run continuously for all the districts while ending South-East corner to the extent possible at last village in the last Mandal of Chittoor district. Since this State has 28,123 villages at 2001 census, last village of last mandal in Chittoor district will have PLC No.02812300. A significant provision has been made to allot PLC Nos. to newly created villages if any in future. The last two digits of PLC No's are kept as '00' only to provide for additional villages. For example a new village has been created after PLC No 001231400, it will be assigned PLC No. as 001231401. Further, it is indicated that there is a provision for a minimum of 99 villages adjoining to a particular village allotting Permanent Location Code.

For urban areas also location code structure has been changed in a minimum way. Earlier, for towns in a district location code numbers were given roman letters in alphabetical order. This time, while assigning roman numbers instead of going to alphabetic order, location code numbers were given from North-West part of the district ending at South-East of the district to the extent possible.

Therefore, the PLC numbers of the villages and location codes of urban areas have under gone change in Census of India, 2001 as compared to 1991. In case an urban area is spread over in two districts, the location code of urban areas in both the districts will be the same irrespective of zigzag manner.

Building

is generally a single structure on the ground. Sometimes it is made up of more than component unit which are used or likely to be used as dwellings(residences) or establishments such as shops, business houses, offices, factories, workshops, worksheds, Schools, places of

entertainment, places of worship, godowns, stores etc. It is also possible that building which have component units may be used for a combination of purposes such as shop-cum-residence, workshop-cum-resi-dence,office-cum-residence,etc.. Usually a structure will have four walls and a roof. But in some areas the very nature of construction of houses is such that there may not be any wall. Such is the case of conical structures where entrance is also provided but they may not have any walls. Therefore, such of the conical structures are also treated as separate buildings.

Permanent houses:

Houses, the walls and roof of which are made of permanent materials. The material of walls can be any one from the following, namely, galvanized iron sheets or other metal sheets, asbestos sheets, burnt bricks, stones or concrete. Roof may be made of from any one of the following materials, namely, tiles, slate, galvanized iron sheets, metal sheets, asbestos sheets, bricks, stones or concrete.

Semi-permanent houses

Houses in which either the wall or the roof is made of permanent material and the other is made of temporary material.

Temporary houses

Houses in which both walls and roof are made of materials, which have to be replaced frequently. Walls may be made from any one of the following temporary materials, namely, grass, thatch, bamboo, plastic, polythene, mud, unburnt bricks or wood. Roof may be made from any one of the following temporary materials, namely, grass, thatch, bamboo, wood, mud, plastic or polythene.

Dwelling Room

A room is treated as a dwelling room if it has walls with a doorway and a roof and should be wide and long enough for a person to sleep in, i.e. it should have a length of not less than 2 metres and a breadth of at least 1.5 metres and a height of 2 metres. A dwelling room would include living room, bedroom, dining room, drawing room, study room, servant's room and other habitable rooms. Kitchen, bathroom, latrine, store room, passageway and verandah which are not normally usable for living are not considered as dwelling rooms. A room, used for multipurpose such as sleeping, sitting, dining, storing, cooking, etc., is regarded as a dwelling room. In a situation where a census houses is used as a shop or office., etc., and the household also stays in it then the room is not considered as a dwelling room. But if a garage or servant quarter is used by a servant and if she/ he also lives in it as a separate household then this has been considered as a dwelling room available to the servant's household. Tent or conical shaped hut if used for living by any household is also considered as dwelling room. A dwelling room, which is shared by more than one household, has not been counted for any of them. If two households have a dwelling room each but in addition also share a common dwelling room, then the common room has not been counted for either of the households.

Census house

A `census house' is a building or part of a building used or recognised as a separate unit because of having a separate main entrance from the road or common courtyard or staircase, etc. It may be occupied or vacant. It may be used for residential or non- residential purpose or both.

In certain peculiar situations, the manner in which buildings and census houses were identified for numbering in the field by the enumerators is described hereunder:

Sometimes a series of different buildings are found along a street which are joined with one another by common walls on either side looking like a continuous structure.

These different units are practically independent of one another and are likely to have been built at different times and owned by different persons. In such cases, though the whole structure with all the adjoining units apparently appears to be one building, each portion was treated as a separate building and its constituent units as separate census houses.

On the other hand, one may come across cases, particularly in large cities of multi-storeyed ownership flats. In these cases while the structure looks like one building, different persons own the flats. In case of such multi-storeyed structures, having a number of flats owned by different persons, the entire structure was treated as one building and each flat as a separate

If within a large enclosed area, there are separate buildings owned by different persons then each such building is treated as a separate building. There can be a situation where within an enclosed compound there are separate buildings owned by an undertaking or company or even government that are actually in occupation of different persons. For example, Indian Oil Corporation colony where the buildings are owned by the Corporation but these are in occupation of their employees. Each such building was treated as a separate building. But if in any one of these buildings there were flats in occupation of different households, each such flat was reckoned as a separate census house.

Sometimes if becomes difficult to apply the definition of census house strictly in certain cases. For example, in an urban area, if a flat has five rooms, each room having direct entrance from the common staircase or courtyard. By definition, this has to be treated as five census houses. If all these five rooms are occupied by a single household it was not realistic to treat them as five census houses. In such a case,`singleness' of use of these rooms along with the main house should be considered and the entire flat was treated as one census house. On the other hand, if two independent households occupy these five rooms, the first household living in 3 rooms and the second household occupying 2 rooms, then considering the use, the first three rooms together were treated as one census house and the remaining rooms as another census house. But if each room was occupied by an independent household, then each such room was treated as a separate census house.

In case of hostels, hotels, etc., even if the door of each room in which an inmate lives opens to a common verandah, staircase, courtyard or a common room, as it happens almost invariably, the entire hostel/ Hotel building was treated as one census house. but if such hostels/ hotels have out- houses or other structures used for different purposes or the same purpose, then each such structure attached to the main hostel / hotel was treated as a separate census house.

In some parts of the country, in rural areas, the pattern of habitation is such that a group of huts, located in a compound, whether enclosed or unenclosed, is occupied by one household. While the main residence may be located in one hut, other huts may be used for sleeping, as a kitchen, bath room, baithak, etc. Though each of the huts was a separates structure, they form a single housing unit and therefore, have to be treated collectively as one building and one census house. If some of the huts are used by one household and the others by a second household as residence, then the two groups of huts were treated as separate census houses. However, if there were also other huts in the compound used for other purposes and not as part of the household's residence such as, cattle shed, workshed, etc., these were treated as separate census houses.

On the other hand, in urban areas, where more than one structure within an enclosed or open compound (premises) belonging to the same person, e.g., the main house, the servant's quarter, the garage, etc., only one building number was given for this group and each of the constituent a separate census house number.

Only cases where a structure with roof and pillars has come up was treated as a building.

Village

The basic unit for rural areas is the revenue village which has definite surveyed boundaries. The revenue village may comprise of one or more hamlets but the entire village is treated as one unit for presentation of data. In un-surveyed areas, like villages within forest areas, each habitation area with locally recognized boundaries is treated as one village.

Rural - Urban area

The data in tables on Houses, Household Amenities and Assets are presented separately for rural and urban areas. The unit of classification in this regard is `town' for urban areas and `village' for rural areas. In the Census of India 2001, the definition of urban area adopted is as follows:

(a) All places with a municipality, corporation, cantonment board or notified town area committee, etc.

(b) A place satisfying the following three criteria simultaneously:

i) A minimum population of 5,000;

ii) At least 75 per cent of the male working population engaged in non-agricultural pursuits ; and

iii) A density of population of at least 400 per sq. km. (1,000 per square mile).

For identification of places which would qualify to be classified as 'urban' all villages, which, as per the 1991 Census had a population of 4,000 and above, a population density of 400 persons per sq. km. and having at least 75 per cent of male working population engaged in non-agricultural activity were considered. To work out the proportion of male working population referred to above against b) (ii), the data relating to main workers were taken into account.

Apart from these, the outgrowths(OGs) of cities and towns have also been treated as urban under 'Urban Agglomerations'. Examples of out-growths are railway colonies, university campuses, port areas, military camps, etc., that may have come up near a statutory town or city but within the revenue limits of a village or villages contiguous to the town or city. Each such individual area by itself may not satisfy the demographic criteria laid down at (b) above to qualify it to be treated as an independent urban unit but may deserve to be clubbed with the towns as a continuous urban spread. Thus, the town level data, wherever presented, also includes the data for outgrowths of such towns.

City

Towns with population of 1,00,000 and above are called cities.

Urban Agglomeration

An Urban Agglomeration is a continuous urban spread constituting a town and its adjoining urban outgrowths (OGs) or two or more physically contiguous towns together and any adjoining urban outgrowths of such towns. In some cases railway colonies, university campuses, port areas, etc., may come up near a city or statutory town outside its statutory limits but within the revenue limits of a village or villages contiguous to the town or city. Each such individual area by itself may not satisfy the minimum population limit to qualify it to be treated as an independent urban unit but may deserve to be clubbed with the town as a continuous urban spread.For the purpose of delineation of Urban Agglomerations during Census of India 2001, following criteria are taken as pre-requisites:

(a) The core town or at least one of the constituent towns of an urban agglomeration should necessarily be a statutory town ; and

(b) The total population of all the constituents (i.e., towns and outgrowths) of an Urban Agglomeration should not be less than 20,000 (as per the 1991 Census).

With these two basic criteria having been met, the following are the possible different situations in which Urban Agglomerations would be constituted:

i) a city or town with one or more contiguous outgrowths;

ii) two or more adjoining towns with their outgrowths; and

iii) a city and one or more adjoining towns with their outgrowths all of which form a continuous spread.

Household

A 'household' is usually a group of persons who normally live together and take their meals from a common kitchen unless the exigencies of work prevent any of them from doing so. Persons in a household may be related or unrelated or a mix of both. However, if a group of unrelated persons live in a census house but do not take their meals from the common kitchen, then they are not constituent of a common household. Each such person was to be treated as a separate household. The important link in finding out whether it was a household or not was a common kitchen. There may be one member households, two member households or multi-member households.

Institutional household

A group of unrelated persons who live in an institution and take their meals from a common kitchen is called an Institutional Household. Examples of Institutional Households are boarding houses, messes, hostels, hotels, rescue homes, jails, ashrams, orphanages, etc. To make the definition more clearly perceptible to the enumerators at the Census 2001, it was specifically mentioned that this category or households would cover only those households where a group of unrelated persons live in an institution and

share a common kitchen.

Houseless household

Households who do not live in buildings or census houses but live in the open on roadside, pavements, in hume pipes, under fly-overs and staircases, or in the open in places of worship, mandaps, railway platforms, etc., are treated as Houseless Households.

Scheduled Caste and Scheduled Tribe

Article 341 of the Constitution provides that the President may, with respect to any State or Union territory, specify the castes, races or tribes or parts of or groups within castes, races or tribes which shall for the purposes of the Constitution be deemed to be Scheduled Castes in relation to that State or Union territory. Article 342 similarly provides for specification of tribes or tribal communities or parts of or groups within tribes or tribal communities which are to be deemed for the purposes of the Constitution to be Scheduled Tribes in relation to the various States and Union territories. In pursuance of these provisions, the list of Scheduled Castes and / or Scheduled Tribes are notified for each State and Union territory and are valid only within the jurisdiction of that State or Union territory and not outside.

It is important to mention here that under the Constitution (Scheduled Castes) Order, 1950, no person who professed a religion different from Hinduism was deemed to be a member of a Scheduled Caste in addition to every member of the Ramdasi, Kabirpanthi, Majhabi or Sikligar caste resident in Punjab or Patiala and East Punjab States Union were in relation to that State whether they professed the Hindu or the Sikh religion. Subsequently, in September 1956, by an amendment, the Presidential Order of 1950 and in all subsequent Presidential Orders relating to Scheduled Castes, the Hindu and the Sikh religions were placed on the same footing with regard to the specification of Scheduled Castes. Later on, as per the amendment made in the Constitution (Scheduled Castes) Order 1990, the Hindu, the Sikh and the Buddhist were placed on the same footing with regard to the recognition of the Scheduled Castes.

The lists containing the names of the Scheduled Castes and the Scheduled Tribes applicable for the Census of India 2001 in the State/ Union territory are given below:

List of Scheduled castes in Andhra pradesh

1. Adi Andhra
2. Adi Dravida
3. Anamuk
4. Aray Mala
5. Arundhatiya
6. Arwa Mala
7. Bariki
8. Bavuri
9. Beda Jangam, Budga Jangam
10. Bindla
11. Byagara
12. Chachati
13. Chalavadi
14. Chamar, Mochi, Muchi
15. Chambhar
16. Chandala
17. Dakkal, Dokkalwar
18. Dandasi
19. Dhori
20. Dom, Dombara, Paidi, Pano
21. Ellamalawar, Yellammalawandlu
22. Ghasi, Haddi, Relli, Chachandi
23. Godagali
24. Godari
25. Gosangi
26. Holeya
27. Holeya Dasari
28. Jaggali
29. Jambuvulu
30. Kolupul Vandlu
31. MadasiKuruva,Madari Kuruva
32. Madiga
33. Madiga Dasu, Mashteen

34. Mahar
35. Mala
36. Mala Dasari
37. Mala Dasu
38. Mala Hannai
39. Malajangam
40. Mala Masti
41. Mala Sale, Netkani
42. Mala Sanyasi
43. Mang
44. Mang Garodi
45. Manne
46. Masht
47. Matangi
48. Mehtar
49. Mitha Ayyalvar
50. Mundala
51. Paky, Moti, Thoti
52. Pambada, Pambanda
53. Pamidi
54. Panchama, Pariah
55. Relli
56. Samagara
57. Samban
58. Sapru
59. Sindhollu, Chindollu

List of Scheduled Tribes in Andhra pradesh

1. Andh
2. Bagata
3. Bhil
4. Chenchu, Chenchwar
5. Gadabas
6. Gond, Naikpod, Rajgond
7. Goudu(in the Agency tracts)*
8. Hill Reddis
9. Jatapus
10. Kammara
11. Kattunayakan
12. Kolam, Mannervarlu
13. Konda Dhoras
14. Konda Kapus
15. Kondareddis
16. Kondhs, Kodi, Kodhu, Desaya Kondhs, Dongria Kondhs, Kuttiya Kondhs, Tikiria Kondhs, Yenity Kondhs.
17. Kotia, Bentho Oriya, Bartika, Dhulia, Dulia, Holva, Paiko, Putiya, Sanrona, Sidhopaiko
18. Koya,Goud,Rajah,Rasha Koya, Lingadhari Koya(ordinary), Kottu Koya, Bhine Koya, Rajkoya
19. Kulia
20. Malis(excluding Adilabad, Hyderabad,Karimnagar,Khammam, Mahbubnagar,Medak,Nalgonda, Nizamabad and Warangal districts)
21. Manna Dhora
22. Mukha Dhora, Nooka Dhora
23. Nayaks(in theAgency tracts)*
24. Pardhan
25. Porja, Parangiperja
26. Reddi Dhoras
27. Rona, Rena
28. Savaras, Kapu Savaras, Maliya Savaras, Khutto Savaras
29. Sugalis, Lambadis
30. Thoti(In Adilabad, Hyderabad, Karimnagar, Khammam, Mahbubnagar, Medak, Nalgonda, Nizamabad and Warangal Districts)
31. Valmiki (in the Agency tracts)
32. Yenadis
33. Yerukulas

***** *The agency tracts is comprised of Srikakulam, Vizianagaram, Visakhapatnam, East-Godavari, West-Godavari and Khammam districts.*

Language and Mother tongue

As per the census concept, each language is a group of mother tongues. The census questionnaire collects information on the mother tongue of each person and mother tongue is defined as the language spoken in childhood by the person's mother to the person. If the mother died in infancy, the language mainly spoken in the person's home in childhood will be the mother tongue. In the case of infants and deaf mutes, the language usually spoken by the mother is considered as mother tongue. It is not necessary that the language spoken as mother tongue should have a script. The mother tongues returned by the respondents in census are classified and grouped under appropriate languages according to their linguistic characteristics.

Literate

A person aged 7 years and above who can both read and write with understanding in any language is taken as literate. A person who can only read but cannot write is not literate. It is not necessary that to be considered as literate, a person should have received any formal education or passed any minimum educational standard. Literacy could also have been achieved through adult literacy classes or through any non-formal educational system. People who are blind and can read in Braille are treated as literates.

Literacy rate

Literacy rate of the population is defined as the percentage of literates in the age group seven years and above. For different age groups the percentage of literates in that age group gives the literacy rate.

Educational level

The highest level of education a person has completed

Work

Work is defined as participation in any economically productive activity with or without compensation, wages or profit. Such participation may be physical and/or mental in nature. Work involves not only actual work but also includes effective supervision and direction of work. It even includes part time help or unpaid work on farm, family enterprise or in any other economic activity. All persons engaged in 'work' as defined above are workers. Persons who are engaged in cultivation or milk production even solely for domestic consumption are also treated as workers.

Reference period for determining a person as worker and non-worker is one year preceding the date of enumeration.

Main worker

A person who has worked for major part of the reference period (i.e. six months or more during the last one year preceding the date of enumeration) in any economically productive activity is termed as `Main worker'.

Marginal worker

A person who worked for less than six months of the reference period (i.e. in the last one year preceding the date of enumeration) in any economic activity is termed as `Marginal worker' .

Non worker

A person who has not worked at all in any economically productive activity during the reference period (i.e. last one year preceding the date of enumeration) is termed as `Non worker'.

Cultivator

For purposes of the Census a person is classified as cultivator if he or she is engaged in cultivation on land owned or held from government or held from private persons or institutions for payment in money, kind or share. Cultivation includes effective supervision or direction in cultivation.

A person who has given out her/his land to another person or persons or institution(s) for cultivation for money, kind or share of crop and who does not even supervise or direct cultivation in exchange of land, is not treated as cultivator. Similarly, a person working on another person's land for wages in cash or kind or a combination of both (agricultural labourer) is not treated as cultivator. Cultivation involves ploughing, sowing, harvesting and production of cereals and millet crops such as wheat, paddy, jowar, bajra, ragi,

etc., and other crops such as sugarcane, tobacco, ground-nuts, tapioca, etc., and pulses, raw jute and kindred fibre crop, cotton, cinchona and other medicinal plants, fruit growing, vegetable growing or keeping orchards or groves, etc. Cultivation does not include the following plantation crops - tea, coffee, rubber, coconut and betel-nuts (areca).

Agricultural labourer

A person who works on another person's land for wages in money or kind or share is regarded as an agricultural labourer. She/he has no risk in the cultivation, but merely works on another person's land for wages. An agricultural labourer has no right of lease or contract on land on which she/he works.

Household industry worker

Household industry is defined as an industry conducted by the head of the household herself/himself and or by the members of the household at home or within the village in rural areas and only within the precincts of the house where the household lives in urban areas. The larger proportion of workers in household industry should consist of members of the household including the head. The industry should not be run on the scale of a registered factory which would qualify or has to be registered under the Indian Factories Act and should be engaged in manufacturing, processing, servicing and repairs of goods.

It does not include professions such as a Pleader, Doctor, Musician, Dancer, Waterman, Astrologer, Dhobi, Barber, etc. or merely trade or business, even if such professions, trade or services are run at home by members of the household.

Other worker

A person who has been engaged in some economic activity during the reference period but not as a cultivator or agricultural labourer or in Household Industry is termed as a 'Other Worker (OW)'. The type of workers that come under this category of 'OW' include all government servants, municipal employees, teachers, factory workers, plantation workers, those engaged in trade, commerce, business, transport, banking, mining, construction, political or social work, priests, entertainment artists, etc. In effect, all those workers other than cultivators or agricultural labourers or household industry workers, are 'Other Workers'.

Work participation rate

Percentage of workers (main + marginal) to total population

Population density

Population density is the number of persons inhabited per square kilometre of the area.

Age

Age is measured in terms of the completed number of years

Sex -ratio

Number of females per 1000 males in a population.

(viii) Non Census Concepts

Improved drinking water :

If the household had access to drinking water supplied from a tap, hand pump, tube well or well (protected or covered) situated within or outside the premises, it is considered as having access to improved drinking water. It may be mentioned that such uniform definition may not be valid across all states.

System of sewerage :

Generally, a sewerage system would mean a network of mains and branches of underground conduits for the conveyance of sewerage to the point of disposal. Sewers that carry only household and industrial wastage are called separate sewers; those that carry storm water from roofs, streets and other surfaces are known as storm water drains, while those carrying both sewage and storm water are called combined sewers. However, in some towns which are not provided with such underground sewerage system, it is served by open surface drain, box drain, sylk pattern drain, etc., in these towns.

Type of latrine and Method of disposal of night soil :

There are three prevalent systems of disposal of human wastes, viz.(i) underground sewerage, (ii) sanitary water flush latrines with individual disposal systems, like septic tank, leaching cess pool and collecting well, and (iii) dry type of latrines with manual scavenging. The system of underground sewerage provides for the street sewerage with which are connected the sanitary latrines constructed in the houses having water closets and fitted with flushing cistern (or hand flushing). Through this sewer the faecal matter is transported without the need for scavenging. This system generally exists in cities and big towns. Where the streets sewer does not exist these sanitary water flush latrines are connected to a local septic tank with a sub-soil dispersion system or a leaching pit. Here the liquid wastes from the water closet is disposed of locally in leaching pit, a septic tank with a soil dispersion system is constructed. This dispersion requires an optimum travel through the pores of the soil which renders the harmful liquid bacterially innocuous by the slow process of filtration through the soil traversed. Where the soil is impermeable, collecting wells are constructed and the sanitary water flush latrines are connected with them. These wells are cleaned at periodic intervals by a suitable device. The dry type of latrines are of service type latrines from where human excreta is removed by scavengers from house to house, in most cases carrying it on their heads or shoulders or in baskets with handle or wheel barrows. These are then collected in bullock carts or trucks or tractors and trolleys for being carried to the dumping grounds.

Fertility :

In demography, the word fertility is used in relation to the actual production of children or occurrence of births specially live births. Fertility is a measure of rate at which population adds to itself by births and normally assessed by relating the number of births to a full or part of the population, such as number of married women or number of women of child bearing age. The definitions of the terminology used in computing different fertility rates are mentioned below:

Crude birth rate(CBR) :

Ratio of the number of live births in a year to the mid year population, normally expressed per 1000 population.

$$CBR = \frac{\text{Number of live births during the year}}{\text{Mid –year Population}} \times 1000$$

Crude death rate(CDR)

Ratio of the number of deaths in a year to the mid year population, normally expressed per 1000 population.

$$CDR = \frac{\text{Number of deaths during the year}}{\text{Mid- year Population}} \times 1000$$

Natural growth rate

Growth rate is obtained as the difference between crude birth rate and crude death rate in the absence of migration.

Age specific fertility rate (ASFR)

Number of live births in a year to female population in any specified age group normally expressed per 1000 women.

$$ASFR = \frac{\text{Number of live births in a particular age-group}}{\text{Mid-year female population of the same age-group}} \times 1000$$

Age specific marital fertility rate (ASMFR)

Number of live births in a year to married female population in any specified age group normally expressed per 1000 married women .

$$ASMFR = \frac{\text{Number of live births in a particular age-group}}{\text{Mid-year married female population of the same age-group}} \times 1000$$

General fertility rate (GFR)

Number of live births per 1000 women in the reproductive age-group (15-49) years in a given year.

$$GFR = \frac{\text{Number of live births in a year}}{\text{Mid-year female population in the age-group (15-49) years}} \times 1000$$

General marital fertility rate (GMFR)

Number of live births per 1000 married women in reproductive age-group (15-49) years in a given year.

$$GMFR = \frac{\text{Number of live births in a year}}{\text{Mid-year married female population in the age-group (15-49) years.}} \times 1000$$

Total fertility rate (TFR)

It is obtained as the total of the age specific fertility rates (number of children born per woman of the particular age) for the entire reproductive age span. It provides the average number of children that will be born to a woman under the fertility levels indicated by the age specific fertility rates assuming that there is no mortality of women till the completion of reproductive period.

$$TFR = \frac{5 \times \sum_{15-19}^{45-49} ASFR}{1000}$$

Total marital fertility rate (TMFR)

Average number of children that would be born to a married woman if she experiences the current fertility pattern throughout her reproductive span (15-49) years assuming that there is no mortality of women till the completion of reproductive period.

$$TMFR = \frac{5 \times \sum_{15-19}^{45-49} ASMFR}{1000}$$

Age-specific mortality rate (ASMR)

Number of deaths in a particular age and sex group per 1000 population of the same age group.

$$ASMR = \frac{\text{Number of deaths in a particular age-group}}{\text{Mid-year population of the same age-group}} \times 1000$$

q1

Probability of dying between birth and age 1. This can be used as approximate value of Infant Mortality Rate (IMR) which gives the ratio of number of deaths in a year of children aged less than one year to the number of births in that year.

q2

Probability of dying between birth and age 2.

q5

Probability of dying between birth and age 5. This indicator is also known as Under Five Mortality Rate (U5MR)

Infant mortality rate (IMR)

Ratio of the number of infant deaths (deaths of children below one year) in a year to the number of live births in that year.

$$\text{IMR} = \frac{\text{Number of infant deaths during the year}}{\text{Number of live births during the year}} \times 1000$$

Infant mortality rate comprises of two parts, viz., Neo-natal mortality rate and Post neo-natal mortality rate. The neo-natal mortality rate also comprises of two parts viz., Early neo-natal mortality rate and late neo-natal mortality rate. These are defined as:

Neo-natal mortality rate (NMR)

Number of infants dying within the first month of life (28 days or under) in a year per 1000 live births of the same year.

$$\text{NMR} = \frac{\text{Number of infant deaths aged 28 days or under during the year}}{\text{Number of live births during the year}} \times 1000$$

Early neo- natal mortality rate

$$\text{ENMR} = \frac{\text{Number of infant deaths of less than 7 days During the year}}{\text{Number of live births during the year}} \times 1000$$

Late neo-natal mortality rate

$$\text{LNMR} = \frac{\text{Number of infant deaths of 7 days to less than 29 days during the year}}{\text{Number of live births during the year}} \times 1000$$

Post neo-natal mortality rate (PNMR)

$$\text{PNMR} = \frac{\text{Number of deaths of 29 days to less than one year during the year}}{\text{Number of live births during the year}} \times 1000$$

Peri-natal mortality rate (PMR)

Number of still births plus deaths within 1st week of delivery per 1000 births in a year.

$$\text{PMR} = \frac{\text{Number of still births and infant deaths of less than 7 days during the year}}{\text{Number of live births and still births during the year}} \times 1000$$

Still birth rate(SBR)

$$\text{SBR} = \frac{\text{Number of still births during the year}}{\text{Number of live births and still births during the year}} \times 1000$$

Maternal mortality rate(MMR)

Number of deaths of women in the age group 15-49 while pregnant or within 42 days of termination of pregnancy from any cause related to pregnancy and child birth per 1,00,000 live births in a given year.

$$\text{MMR} = \frac{\text{Number of maternal deaths to women in the age group 15-49}}{\text{Number of live birth}} \times 1,00,000$$

Eligible couple (Couples per 1000 population)

Number of currently married females in the age group15-44 years per 1000 persons of all ages.

Child woman ratio (0-4)

1. Number of children in the age group 0-4 years per 1000 women in the age group 15-49 years.

Child woman ratio (5-9)

2. Number of children in the age group 5-9 years per 1000 women in the age group 15-49 years.

Migration

Migration is the third component of population change, the other two being mortality and fertility. A person is considered as a migrant by place of birth if the place in which he/she is enumerated during the census is other than the place of his/her birth. Similarly a person is considered as a migrant by place of last residence if the place in which he/she is enumerated during the census is other than his/her place of immediate last residence outside the village or town and not simply in another house or locality in the same village or town. Certain aspects concerning temporary movement/migration of people has been explained below as these are important components concerning migration :-(i) Migration of persons in search of job is high in the country. In many cases such migrants are only seasonal in nature. People migrate to other places for work in a particular season and come back again to their usual place of residence after three or four months. All such workers are treated as migrants. Similarly, if a person moved to any other place for attending short term vocational or educational course that lasted for only few months of a year, she/he too were considered as a migrant. (ii) Where a person had merely gone out to another place or had been shifting from one place to another purely on tour, pilgrimage, visit to hospital for treatment or for temporary business purposes, such persons are

not deemed to have had another residence different from the place where she/he or her/his family normally resides. She/he is not considered as migrant.

(iii) A woman temporarily moves into a hospital or to her parents or other relative's house for delivery and if the hospital or the parents/relatives houses is in a place different from usual place of residence, the place where the hospital or parents/relative's house is the place of last residence of the child but not of the mother. A new response category 'Moved after birth' was added in Census of India 2001 in the question on 'reasons for migration' to bring out additional migration patterns. Natural calamities or distress migration as a reason for migration for last residence migrants included in 1991 Census, is covered under category of 'Others'. The reason for migration has been determined as applicable at the time of migration and not in reference to any point of time after that. For example, if a person had moved from the place of her/his last residence for the purpose of education and subsequently at some point of time got employment there only, the reason for migration would be 'education' and not 'work/employment'.

Internal and International migration :

The migrational movements are of three types

(i) Migration within the state itself with its components (a) Migration within the district of enumeration (intra district migration) (b) Migration from one district of state to another district of state (inter district migration)

(ii) Migration from one state to another State of the country (inter-state migration)

(iii) Migration from one country to another country. The first two streams together constitute internal migration, while the last type of movement is called international migration. The present name of the country, state or district and not the name by which they were known at the time of her/his birth or last residence were recorded.

Rural - Urban components of migration:

Rural or Urban status in respect of migrants have been determined as applicable at the time of migration and not with reference to any point of time after that. The flow of migrants consists of four streams viz. rural to rural, rural to urban, urban to rural and urban to urban.

Civic status of urban units

Civic Status of a town/city is determined on the basis of Civic Administrative authority of the town e.g., Municipal Corporation / Corporation, Municipal Committee/ Municipal council, Municipality etc.

Size class of UA / town :

Size-class of UA/Town is based on the population size of the UA/City/Town UAs./Towns with 1,00,000 and above population are classified as Class I UAs. / towns. These Class I UAs. / towns are now further sub classified in to seven sub classes namely M1 to M7 depending on the population size of UA/City/ Town. These are M7(5,000,000 and above); M6(2,000,000 to 4,999,999); M5 (1,000,000-1,999,999) M4 (500,000-999,999); M3(300,000-499,999), M2 (200,000-299,999) & M1 (100,000-199,999). towns with, 50,000 to 99,999 population are classified as Class II towns, 20,000 to 49,999 population are Class III towns, population with 10,000-19,999 are Class IV towns, population with 5000 and 9999 are Class V towns and towns with less than 5000 population are Class VI towns.

Slum area :

The Slum Areas (Improvement and Clearance) Act, 1956 which was enacted by the Central Govt. defined slums as a) Areas where buildings are in any respect unfit for human habitation; or b) are by reasons of dilapidation, overcrowding, fault arrangement and design of such buildings, narrowness or faulty arrangement of streets, lack of ventilation, light or sanitation facilities, or any combination of these factors, are detrimental to safety, health or morals.

Mega city :

The concept of 'Mega city' is a recent phenomenon in the Urban Sociology and is defined in term of metropolitan city in the form of large size, problem of management of civic amenities and capacity to absorb the relatively high growth of population. Indian Census in 1991 treated the population size of 5 million and above as the cut off point to identify a place as the mega city. Whereas, for the purpose of inclusion in Centrally Sponsored Scheme for Infrastructure Development in Mega cities the Ministry of Urban Affairs and employment, Department of Urban Development adopted the criteria of 4 million and above population as per 1991 Census for Mega Cities. In 2001 Census, cities with 10 millions and above population have been treated as Mega cities.

Analytical Note
(ix) 2001 Census findings – Population and its distribution

(a) Distribution of Population in Rural - Urban areas :

According to 2001 Census the total population of Nalgonda district stands at 3,247,982 personswith 1,651,990 males and 1,595,992 females. The district stands at 13th rank as far as population is concerned in the state. Out of the total population of the district 2,815,304 persons constituting 86.7% are residing in rural areas and the remaining 432,678 persons(13.3%) are residing in urban areas. The proportion of urban to total population regarded as an index of urbanization is 13.3% for Nalgonda district, corresponding to state figure of 27.3%. Average number of towns for 100 inhabited villages in the district is less than 1% (0.8%).

Nalgonda district has 1,148 villages in 59 mandals of which 1,124 are inhabited villages. The average number of inhabited villages per mandal is 19. Nalgonda mandal is the largest mandal in terms of population accounting. 5.0% of the district population. In term of number of villages, Nalgonda and Nampalle mandals leads with 28 villages in each mandal, whereas 1 village each is un-inhabited in these mandals. Chilkur mandal has least i.e. 4 inhabited villages. As regards population, M.Turkapalle mandal reported least population i.e. 32,142 persons in the district.

The urban population is distributed among 9 urban units of which 4 are statutory towns. The average size of an urban centre in the district works out to 48,075 persons. Nalgonda Municipality has largest population 110,286 persons whereas Chandoor is the smallest town with a population of 10,859 persons. There is no town in the district which has less than 5000 population.

(b)Size class and status of towns, population Growth, density and sex ratio, work participation rate and literacy rate:

Size class and status of towns:

During every Census the number of Census towns and statutory towns change due to addition of new Census towns declassification of old Census towns, notifying of new statutory towns, de-notifying of old statutory towns etc. For the purpose of analysis of varied demographic characteristics urban areas have been divided into six classes by size of population. Of the 9 towns in the districts, Nalgonda is categorized as class I town while Suryapet and Miryalaguda are class II, Bhongir and Devarakonda are class III, Vijayapuri(north), Yadagirigutta, Choutuppal and Chandur are class IV and not a single town is categorized as class V and VI.

Population Growth:

The population of district was 2,852,092 persons as per 1991 Census and has gone upto 3,247,982 persons in 2001 adding 395,890 persons during the decade 1991-2001. The growth rate revealed by the district (13.9%) is less than the state growth of 14.6% during the decade. Nalgonda district ranks 15th in growth rate among 23 districts in the state.

Rural-Urban growth rates shows wide variations. The rural growth rate is recorded as 12% while urban growth rate is 27.8%. As regards growth rate in rural population the district occupies 16th position, when it speaks about urban growth rate it occupies 3rd place in the state.

Density:

The overall density of population in the district is 228 persons per sq.km and is below the state average of 277. Among urban areas Nalgonda town recorded highest 9,359 persons per sq.km followed by 5,250 persons in Bhongir town. Least density i.e. 973 persons per sq.km. has been reported in Devarakonda town.

Sex Ratio:

Nalgonda district has sex ratio of 966 females per 1,000 males while it was 962 in 1991 Census. It is lower than state average sex ratio of 978. The district occupied 17th rank in respect of sex ratio among 23 districts. Yadagirigutta mandal has the highest sex ratio of 1003. While Chandampet mandal has lowest sex ratio of 932. Among urban units Choutuppal Census town has reported highest sex ratio of 997 and Devarakonda Census Town reported lowest sex ratio of 900.

Work Participation Rate:

The work participation rate for total workers is defined as percentage of total workers to total population. The total workers participation rate in Nalgonda district is 49.1%. Again percentage of main workers stands at 40.3%. The total workers participation rate separately for males and females in the rural areas are 56.1% and 47.4% respectively, against corresponding figures for urban areas are 47.8% and 14.4% respectively. Among the main workers as seen for the percentage of workers of 2001 over 1991, a decrease is noticed. The female workers participation has slightly gone up from 41.6% in 1991 Census to 43% at 2001 Census.

Literacy Rate:

While calculating effective literacy rate, children in 0-6 age group have been excluded. The district returned 1,595,643 literates forming 57.2% of the population of the district, excluding 0-6 age group. Separately for rural and urban areas the literacy rate worksout to 53.5% and 80.2% respectively. Again within the urban areas male and female literacy rates separately worksout to 88.6% and 71.3%. For the rural population the male and female literacy rates worksout to 66.2% and 40.6%.

(c) Scheduled Castes and Scheduled Tribes of earlier Census:

To uplift social and economical status of Scheduled Castes and Scheduled Tribes, one of the basic requirement of these population is the availability of data on age, sex, marital status, economy, education, fertility etc. In this regard these particulars are being collected in each census from 1951 onwards and provided to planners and administrators to take-up necessary steps to evolve suitable plans for the development of Scheduled Castes and Scheduled Tribes.

The President of India has notified some castes, races or tribes or parts of groups within castes, races or tribes as Scheduled Castes under Article 341 of the Constitution of India. Similarly, under Article 342 of the Indian Constitution, President of India has declared all such tribes or tribal communities or parts of groups within the tribes or tribal communities as Scheduled Tribes. The list of Scheduled Castes and Scheduled Tribes are notified for each State or Union Territory and are valid only within the jurisdiction of that State and Union Territory. The list of Scheduled Castes and Scheduled Tribes is provided in this volume under the chapter on 'Census concepts'.

Scheduled Castes population in the district:

As per 1991 census, there were 504,206 Scheduled Castes population comprising 257,011 males and 247,195 females. This works out to 17.7% to the total population of the district. Of the total population of Scheduled Castes, 92.6% were living in rural areas of the district.

The following statement reveals that Scheduled Castes population has recorded 35.4% growth rate during the decade 1981-91. It was 35.4% in rural areas which is more than the growth rate of total district. Growth rate in Urban areas was 35.8% which is slightly varied to the district and rural areas.

The sex ratio of Scheduled Castes population (961) was lower in comparison to that of the general population in the district(962). The sex ratio in rural area (964) of the district was little higher than total district sex ratio among Scheduled Castes population.

In urban areas it was 933. Literacy rate among Scheduled Castes 24.6% which was lower than the district (38.0%). In urban areas their literacy rate was 57.6%. Proportion of main workers among Scheduled Castes was 50.6 percent and the Marginal workers was 3 percent. In rural areas workers population was 52.08 percent and in urban areas their percentage was 31.7.

Statement (i)

Particulars of decadal variation, sex ratio, literacy and workers participation of Scheduled Castes population-1991

Sl.No.	Particulars	Total	Rural	Urban
1	Percentage decadal Variation:1981	372,413	345,031	27,382
	1991	504,206	467,035	37,171
		(35.39)	(35.36)	(35.75)
2	Sex ratio	961	964	933
3	Percentage of Literacy	24.60	22.03	57.55
4	Percentage of :			
	i. Main Workers	50.58	52.08	31.69
	ii. Marginal Workers	2.96	3.09	1.33
	iii. Non-workers	46.46	44.83	66.98

It is seen from the below furnished table that Scheduled Castes population in the district has registered 7.4% growth rate during the decade 1961-1971. The same for the decade 1971-1981 and 1981-1991 was 28.8% and 35.4% respectively. The growth rate during 1971-1981 was more than the growth rate over 1961-1971 and the rate during 1981-91 was more than preceding decades.

Statement (ii)
Statement showing the decadal variation in Scheduled Castes population in Nalgonda district in comparison to Andhra Pradesh State between 1961-1991 Censuses

Sl. No.	Census Year	Scheduled Castes Population in district (percent variation shown in bracket)	Scheduled Castes Population in State (percent variation shown in bracket)
1	1961	269,449 (--)	4,973,616 (--)
2	1971	289,247 (+7.35)	5,774,548 (+16.10)
3	1981	372,413 (+28.75)	7,961,730 (+37.88)
4	1991	504,206 (+35.39)	10,592,066 (+33.04)

Source: *Part II-A, Andhra Pradesh, 1991 Census.*

The following statement gives the proportion of Scheduled Castes population to total population in the villages. Out of 1,083 villages where Scheduled Caste population returned in the district, 39 villages constituting 3.6% were having less than 5% of Scheduled Caste population. Of the remaining villages, 88(8.1%) were having 6 to 10% of Scheduled Castes population, 216(19.9%) having 11 to 15% the maximum no. of villages 632(44.1%) having 16 to 30% and 138(12.8%) having 31% and above to total population of the respective villages.

Statement (iii)

Proportion of Scheduled Castes Population to Total Population in the villages-1991

Percentage range of Scheduled Castes population to Total population	Number of villages in each range	Percentage of villages in each range
1	2	3
5 and below	39	3.60
6-10	88	8.13
11-15	216	19.94
16-20	263	24.28
21-30	339	31.30
31 and above	138	12.75
Total	**1083**	**100.00**

Source: *District Census Handbook, Nalgonda, 1991.*

The following statement shows the percentage of Scheduled Castes population to the total population of the towns in the district. Out of 338,453 Urban population, Scheduled Castes population of 37,171 constituted 11.0%. Bhongir town has 12.6% Scheduled Castes population to the total population of the town, followed by Kodad Town 12.1%. Devarakonda and Yadagirigutta Towns were as low as 7.1% and 8.9% respectively which were below the district average.

Statement (iv)

Percentage of Scheduled Castes Population in Towns

Class & Name of Town	Total Population	Total scheduled Castes Population	Percentage of Scheduled Castes Population to Total Population
III Bhongir	40,744	5,113	12.55
III Devarakonda	21,089	1,499	7.11
III Kodad	33,860	4,086	12.07
II Miryalaguda(M)	65,879	6,215	9.43
II Nalgonda (M)	84,910	9,810	11.55
II Suryapet(M)	60,630	6,101	10.06
III Vijayapuri North	20,290	3,368	16.60
IV Yadagirigutta	11,051	979	8.86
All Towns	**338,453**	**37,171**	**10.98**

Source: *District Census Handbook, Nalgonda, 1991.*

The Scheduled Tribes population in the district as per 1991 Census :

As per 1991 Census, there were 275,638 Scheduled Tribes population comprising 143135 males and 132,503 females. This works out 9.7 % to the total population of the district. Of the total population of the Scheduled Tribes 96.7% were living in rural areas of the district.

The following statement reveals that Scheduled Tribes population in the district has registered 40.9% growth rate during the decade 1981-91. Almost same growth rate 40.7% has been recorded in the rural areas of the district. In urban areas it was 45.4%. The sex ratio in the district was 925, while in rural areas it was 931 and in urban areas 783. As regards the Literacy rate among the Tribes, it was 14.5% , while in rural areas it was 13.5%. However in urban areas it was higher (42.5%) than rural areas as well as the district total.

The population of Main workers and marginal workers among tribals in the district was 48.3% and 4.0% respectively where as in rural areas of the district it was 48.8% and 4.1% respectively. But in urban areas they were reported 33% and 0.8% respectively.

Statement (v)

Particulars of decadal variation, sex ratio, literacy and workers participation of Scheduled Tribes population-1991

Sl.No.	Particulars	Total	Rural	Urban
1	Percentage decadal Variation:1981	195,660	189,305	6,355
	1991	275,638	266,400	9,238
		(40.88)	(40.73)	(45.37)
2	Sex ratio	925	931	783
3	Percentage of Literacy	14.50	13.51	42.54
4	Percentage of :			
	i. Main Workers	48.26	48.79	32.96
	ii. Marginal Workers	4.00	4.11	0.76
	iii. Non-workers	47.74	47.10	66.28

It is seen from the following statement that the Scheduled Tribes population growth rate was low during 1961-1971,when it is compared with 1971-81 and 1981-1991, while it has recorded abnormal increase i.e. 37,599% during the decade 1971-1981. This abnormal increase was due to inclusion of some of the tribes in the list of Scheduled Tribes during the decade. However the variation between 1981-1991 was nearly eight percent more than State variation.

Statement (vi)

Statement showing the decadal variation in Scheduled Tribes population in Nalgonda district in comparison to Andhra Pradesh State between 1961-1991 Censuses

Sl. No.	Census Year	Scheduled Tribes Population in district (percent variation shown in bracket)	Scheduled Tribes Population in State (percent variation shown in bracket)

The following statement shows the proportion of Scheduled Tribes population to total population in the villages. Out of 763 villages, where Scheduled Tribes were recorded, 436 villages forming 57.1% were having less than 5% Scheduled Tribes population. The proportion of Tribals was between 26 to 50 percent in 83 villages(10.9%) and in 84villages(11.0%) they were more than 51 percent.

Statement (vii)

Proportion of Scheduled Tribes Population to Total Population in the villages - 1991

Percentage range of Scheduled Tribes population to Total population	Number of villages in each range	Percentage of villages in each range
1	2	3
5 and below	436	57.14
6-15	98	12.84
16-25	62	8.13
26-35	40	5.24
36-50	43	5.64
51 and above	84	11.01
Total	**763**	**100.00**

Source: *District Census Handbook, Nalgonda, 1991.*

While going through the following table it is observed that Scheduled Tribes population constituted 2.7% to total urban population in the district. The proportion of Scheduled Tribes population was above the district average in Kodad, Miryalaguda, Suryapet and Vijayapuri North towns, while it was below in Bhongir, Devarakonda, Nalgonda and Yadagirigutta towns. However proportion of Scheduled Tribes population in urban areas ranges between 5.4% in Kodad and 0.5% in Yadagirigutta.

Statement (viii)

District Total:		**2,852,092**	**2,513,639**	**338,453**	**3,247,982**	**2,815,304**	**432,678**	**13.9**	**12.0**	**27.8**	**11.9**	**13.3**

The above table shows decadal changes in population of mandals (Rural and Urban), Growth and Urbanization. This district has recorded 13.9% growth during the decade 1991-2001. The growth rate in rural area is 12.0%, while in urban areas it is 27.8%. All statutory towns in the district shown more than 50% growth. The least growth rate is seen in Choutuppal Census Town.

The district percentage of urban population (432,678) works out to 13.3%. Out of 59 mandals only 9 mandals have urban units. The highest percentage of urban population is seen in Nalgonda mandal, followed by Suryapet mandal. All the mandals which have statutory towns have recorded more than 50% urban population. The least percentage of urban population is seen in Choutuppal mandal with 21.3%. Yadagirigutta mandal in which the famous pilgrim town, Yadagirigutta is located , has registered 25.6% urban population.

Note: Percentage in brackets.

* *Excludes Census Towns and OGs*

This table gives mandal parishadwise population, number and percentage of villages falling in each range of population. Nalgonda district has 1,124 inhabited villages with 2,815,304 rural population wherein males are 1,429,458 and females are 1,385,846. 29 (2.6%) villages are having less than 200 population in the district. Of these villages, 4 are in Devarakonda mandal with 658 population. Another 65(5.8%) villages have population between 200-499. The maximum number of villages i.e. 5 are in this range found in Chandampet mandal with 1,789 population. The highest number of villages 405(36%) are having population between 2,000 - 4,999 persons per village in the district. There are 110 villages (10%) with more than 5,000 population, of which 19 are more than 10,000 persons. 16 mandals are having villages with more than 10,000 population. Of these, 16 mandals have two villages in each Chilkur, Kodad and Mella Cheruvu mandals with more than 10,000 population.

TABLE 3
NEW TOWNS, DENOTIFIED, DECLASSIFIED AND MERGED TOWNS IN 2001 CENSUS

	Name of Town
	1
(a) New	
(i) Statutory Town	-Nil-
(ii) Census Town	1. Choutuppal 2. Chandur
(b) Denotified	
(i) Statutory towns of 1991 Census denotified and also did not satisfy the criteria to be treated as Census towns	-Nil-
(ii) Statutory towns of 1991 Census denotified but identified as Census towns based on demographic and economic criteria	-Nil-
(iii) Census towns of 1991 Census are notified as statutory town in 2001 Census	-Nil-
(c) Declassified	1. Kodad
(d) Wholly merged with other town(s)	-Nil-

Declassified means the census towns of 1991 census which failed to satisfy the demographic and economic criteria

This table shows about towns newly created, denotified, declassified and merged towns in 2001 census. In this district two new census towns viz., Choutuppal and Chandur are created and Kodad Census town of 1991 census declassified. No other changes have been taken place, in the district during the decade.

TABLE 4
DISTRIBUTION OF VILLAGES BY POPULATION DENSITY, 2001

Range of population density (per square kilometrs)	Total number of villages in each population density range	Percentage of villages in each population density range	Population	Percentage distribution of population
1	2	3	4	5
0-10	4	0.4	336	-
11-20	5	0.5	1,352	-
21-50	27	2.4	9,732	0.4
51-100	87	7.7	85,634	3.0
101-200	478	42.5	939,364	33.4
201-300	351	31.2	1,008,481	35.8
301-500	128	11.4	480,664	17.1
501 +	44	3.9	289,741	10.3
Not known	-	-	-	-
District Total:	**1,124**	**100.0**	**2,815,304**	**100.0**
Population Density (Rural) of the district:		**200**		

This table shows distribution of villages by Population Density. The density of population of rural areas of the district is 209.5 persons. The highest number of villages 478(42.5%) covering 33.4% of rural population are falling in the range of 101-200 population density, followed by 351 villages covering 35.8% rural population are in the range of 201-300 population. There are 4 villages with 10 or less persons per sq.km.and 5 villages with 11 to 20 persons per sq.km. Density of 44 villages with 289,741(10.3%) rural population is more than 501 persons.

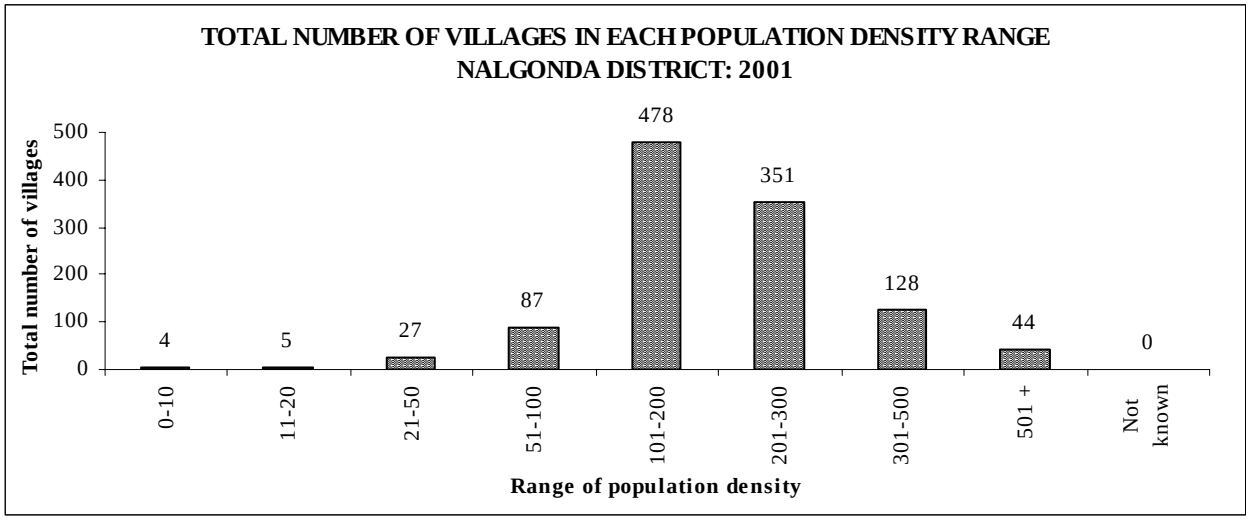

TABLE 5
SEX RATIO OF STATE AND DISTRICT, 1901 - 2001

Census Year	State			District		
	Total	Rural	Urban	Total	Rural	Urban
1	2	3	4	5	6	7
1901	985	983	999	892	891	964
1911	992	991	1,000	946	945	970
1921	993	994	986	955	955	995
1931	987	989	966	953	952	990
1941	980	981	975	945	946	936
1951	986	985	987	946	946	942
1961	981	988	951	952	961	851
1971	977	983	949	965	969	913
1981	975	984	948	969	978	904
1991	972	977	959	962	966	931
2001	978	983	965	966	969	944

Note : *Sex ratio has been defined here as the number of females per 1000 males*

This table gives sex ratio of State and District, 1901-2001. The district sex ratio for 2001 census is recorded as 966 for whole district, as against state average of 978. The sex ratio of the district was low as compared to the state average figures from 1901 to 2001.The lowest sex ratio of 945 females per 1,000 males were recorded during 1941, against the state average 980 females. It is also observed that the proportion of females in urban areas is higher than rural areas till 1931 in the district while the subsequent decades show declined trend.

This table presents population in the age group of 0-6 and sex ratio for total, rural and urban areas in respect of each mandal of the district. Total population in the age group 0-6 is 455,958 persons comprising 233,626 males and 222332 females. The total sex ratio in this age group comes to 952 females per 1,000 males in the district. The proportion of females in rural areas is 951 and in urban areas is 955. The lowest sex ratio (894) among 0-6 age group is noticed in Pedda Adiserla Palle mandal and highest sex ratio 1,020 is found in Munagala mandal. There are 30 mandals, which have sex ratio above the district average sex ratio. Among urban areas of the district, Chandur mandal urban areas is reported highest sex ratio 1,012 females per 1,000 males and lowest 895 in Devarakonda mandal urban area.

	District (Rural) Total:	**401,693**	**205,872**	**195,821**	**951**

This table gives sex ratio among 0-6 age group population at district level and mandal parishad level. The sex rato is 951 for the district rural area. The sex ratio ranges between 894 in Pedda Adiserla palle mandal parishad and 1,020 in Munagala mandal parishad. The sex ratio of 28 mandal parishads is above the average sex ratio of the district and Thripuraram mandal parishad equal to the district average.

TABLE 12

SEX RATIO OF RURAL POPULATION IN THE AGE GROUP 0-6 BY RANGES, 2001

Range of sex ratio for villages	Number of inhabited villages	Percentage of villages in each range	Population	Percentage distribution of population
1	2	3	4	5
Less than 700	44	3.9	4,214	1.0
700-749	22	2.0	4,183	1.0
750-799	48	4.3	10,810	2.7
800-849	102	9.0	31,815	7.9
850-899	149	13.3	60,181	15.0
900-949	183	16.3	91,490	22.8
950-999	180	16.0	86,998	21.7
1000-1099	218	19.4	79,392	19.8
1100+	178	15.8	32,610	8.1
District Total (Rural)	**1,124**	**100.0**	**401,693**	**100.0**
Sex ratio (Rural) for District:		**951**		

This table shows the distribution of villages by range of sex ratio for villages at district level. Sex ratio among 0-6 age group population in the district is 952. It is 951 in rural areas and 955 in urban areas. There are 44 villages where 0-6 age group population is 4,214 persons and females are less than 700 per 1,000 male children of the same age group. In 396 villages(about 35%) the female children are equal or more than male children under 0-6 age group. About 23% of rural population in the age group 0-6 covering in 183 villages are in 900-949 range of sex ratio. Next to it, 180 villages with 21.7% of rural population in the same age group are falling in 950-999 range of sex ratio.

This table furnishes number and percentage of Scheduled Castes and Scheduled Tribes population to the total population at mandal level for both rural and urban areas of district. Out of 3,247,982 total population of the district 575,788 are Scheduled Castes and 342676 are Scheduled Tribes forming 17.7% and 10.6% respectively. The Scheduled Castes population constituted 18.7% in rural areas and 11.5% in urban areas. Similarly the Scheduled Tribes population constituted 11.6% in rural areas and 3.6% in urban areas. The highest percentage of Scheduled Castes population is recorded in Kethepalle mandal with 27.7% followed by Nadigudem, Vemulapalle and Thipparthi mandals(about 25% each) and in another 10 mandals it is above 20%. Dameracherla mandal has reported low proportion of Scheduled Castes population as 11.4%. The proportion of Scheduled Castes population ranges between 6.8% in Chandur mandal to 17.3%, in Peddavoora mandal urban areas of the district.

As regard Scheduled Tribes population is concerned, the highest proportion of Scheduled Tribes population i.e. about 49% is seen in Chandampet mandal, followed by Dameracherla mandal with about 40%. Next to it, Chivvemla mandal and Pedda Adiserla Palle mandal have 32% above Scheduled Tribes population. In another 8 mandals their population is more than 20%, while it is less than 1% in other 9 mandals i.e. Mothkur, Atmakur(M), Valigonda, Ramannapet, Chityala, Narketpalle, Kethepalle, Thipparthi and Munugode. The proportion of Scheduled Tribes population ranges between 0.6% and 6.1% in urban areas of the district. The highest percentage 6.1 is seen in Peddavoora mandal urban area and lowest percentage 0.6 in Yadagirigutta mandal urban area.

	District (Rural) Total:	**2,815,304**	**525,998**	**326,906**	**18.7**	**11.6**

This table gives distribution of Scheduled Castes population and Scheduled Tribes population and their percentage to total population at mandal parishads level. Total Scheduled Castes population in the rural areas of the district is 18.7% and 11.6% is Scheduled Tribes population. At mandal parishad level Scheduled Castes population varies between 11.4% and 27.7%. The highest being 27.7% is seen in Kethepalle mandal parishad. The other mandal parishads containing the highest percentage of Scheduled Castes population are Nalgonda(25.8), Nadigudem (24.8), Vemulapalle (24.8) and Thipparthi (24.5). Dameracherla mandal parishad has lowest Scheduled Castes population (11.4%).

As regards Scheduled Tribes population at mandal parishad level, the highest percentage 48.6 is seen in Chandampet mandal parishad followed by, Dameracherla (39.8), Devarakonda (38.2), Peddavoora (37.5) and Chivvemla (34.4) mandal parishads. There are 9 mandal parishads with less than 1% Scheduled Tribes population to the total population of respective mandal parishads.

TABLE 16
PROPORTION OF SCHEDULED CASTES POPULATION TO TOTAL POPULATION IN VILLAGES, 2001

Percentage range of Scheduled Castes Population to total population	Number of villages	Percentage	Scheduled Castes Population	Percentage
1	2	3	4	5
Nil	42	3.7	-	-
Less than 5	40	3.5	2,048	0.3
5-10	106	9.4	26,200	5.0
11-20	451	40.1	230,265	43.8
21-30	346	30.8	196,892	37.4
31-40	101	9.0	53,618	10.2

51-75	13	1.2	4,542	0.9
76 and above	3	0.3	392	0.1
District Total	**1,124**	**100.0**	**525,998**	**100.0**

This table reflects the number of villages according to the proportion of Scheduled Castes population to their total population in different ranges of percentage at district level. 42 villages accounting for 3.7% of total 1124 inhabited villages in the district do not have Scheduled Castes population. The Scheduled Castes population is less than 5% in 40 villages(3.5%). In 106 villages it varies between 5-10 percent, while the next range of 11-20 percent accounts for 451 villages constituting 40.1% of the total villages. The range of 21-30 and 31-40 percent contains 346 and 101 villages respectively. Both these

ranges together accounts for 39.8% villages of the district. 22 villages fall in the range of 41-50 and 13 villages in 51-75. Only 3 villages where the proportion of Scheduled Castes is more than 76%. These three villages contain 392(0.1%) Scheduled Castes population. The maximum of 43.8% of Scheduled Castes population is covered by range of 11-20 percent.

TABLE 17
PROPORTION OF SCHEDULED TRIBES POPULATION TO TOTAL POPULATION IN VILLAGES, 2001

Percentage range of Scheduled Tribes Population to total population	Number of villages	Percentage	Scheduled Tribes Population	Percentage
1	2	3	4	5
Nil	335	29.8	-	-
Less than 5	445	39.6	18,543	5.7
5-10	64	5.7	18,404	5.6
11-20	76	6.8	37,933	11.5

+ Towns arranged in alphabetical order

^ The names of constituents of UA are given separately

** In case of the towns having out growth an asterisk mark placed against their name to indicate that they have outgrowths which are not separate towns.*

This table reveals the number and percentage of Scheduled Castes population and Scheduled Tribes population at town level in the district. Scheduled Castes population constituted 11.5% and Scheduled Tribes population 3.6% in urban areas of the district. The proportion of Scheduled Castes population ranges between 6.8% to 17.3% in the towns of the district. Chandur town has recorded lowest proportion of 6.8% and Vijayapuri North has recorded highest proportion of 17.3%. Similarly among Scheduled Tribes their percentage ranges between 0.6% and 6.1% in the towns of the district. Vijayapuri (North) Census town has recorded highest 6.1% and Yadagirigutta town has recorded lowest 0.6% proportion of Scheduled Tribes population to the total population of respective towns.

	District (Rural) Sex Ratio	**973**	**932**

This table speaks about the sex ratio among Scheduled Castes and Scheduled Tribes at mandal parishad level recorded during 2001 Census. The sex ratio of Scheduled Castes in rural areas of the district is 973 and Scheduled Tribes is 932. The highest sex ratio 1097 is recorded in Mattampalle mandal parishad and 866 is the lowest sex ratio in Rajapet mandal parishad among Scheduled Castes population. Female population among Scheduled Castes is more than males in 10 mandal parishads. Similarly among Scheduled Tribes, the highest sex ratio is 1053 in Narketpalle mandal parishad in the district and lowest 618 is in Chandur mandal parishad. Females among Scheduled Tribes in Narketpalle, Nadigudem, Vemulapalle and Nalgonda mandal parishads are more than males.

TABLE 20
SEX RATIO AMONG SCHEDULED CASTES AND SCHEDULED TRIBES IN URBAN AGGLOMERATIONS / TOWNS, 2001

Sl. No.	Name of U.A.^ / Town+*	Scheduled Castes sex ratio	Scheduled Tribes sex ratio

15	Yadagirigutta (CT)	1,023	1,270
	Sex ratio (Urban) for the district:	**962**	**712**

+ Towns arranged in alphabetical order
^ The names of constituents of UA are given separately
** In case of the towns having outgrowth an asterisk mark placed against their name to indicate that they have outgrowths which are not separate towns.*

The above table indicates sex ratio among Scheduled Castes and Scheduled Tribes in urban agglomerations/towns in the district as per 2001 census. The sex ratio among Scheduled Castes is 962 in urban area of the district. The highest sex ratio 1,024 is observed in Choutuppal (C.T) and 871 is the lowest sex ratio in Bhongir town.Bhongir,Chandur and Suryapet towns have the lowest sex ratio than district average sex ratio (urban).

Similarly, sex ratio among Scheduled tribes in urban areas of the district is 712, which is lower than Scheduled Castes population and total population. The highest sex ratio 1,767 is seen in Choutuppal (C.T), followed by Yadagirigutta with 1,270 females per 1,000 males among Scheduled Tribes. Very large gap is seen in number of males and females in Bhongir, Devarakonda and Chandur towns where sex ratio is 471, 491 and 578 females per 1,000 males respectively. The sex ratio ranges between 471 and 1,767 in the towns of the district.

		Urban	-	-	-	-	-	-	-	-	-	-
	District Total:	**Total**	**1,595,643**	**981,875**	**613,768**	**1,652,339**	**670,115**	**982,224**	**57.2**	**69.2**	**44.7**	**24.5**
		Rural	**1,292,171**	**809,398**	**482,773**	**1,523,133**	**620,060**	**903,073**	**53.5**	**66.2**	**40.6**	**25.6**
		Urban	**303,472**	**172,477**	**130,995**	**129,206**	**50,055**	**79,151**	**80.2**	**88.6**	**71.3**	**17.2**

In this table :as per 2001 Census, the proportion of literates to total population excluding the age group 0-6 comes to 57.2% in the district. This proportion in the rural area is 53.5% against 80.2% in urban areas. In the district the literacy rate of males (69.2%) is much higher than that of females (44.7%). Among the mandals, Nalgonda mandal tops with 78.2% literates followed by Suryapet mandal (70%). Chandampet mandal with 36.8% literates stands at the lowest in the district.

The gap between male and female literacy is very high which comes to 24.5% in the district as a whole. The situation at mandal level is not much different. This gap varies from 17.5% to 30.7%.

This table reveals number of literates, illiterates and the literacy rates in rural areas at mandal parishad level in the district. 53.5% of the total rural population excluding the age group 0-6 are literates in the district. The corresponding proportion of male and female literates comes to 66.1% and 40.6% respectively which shows very wide gap of 25.6%. At mandal parishad level, Nakrekal mandal parishad has the highest rural literacy rate of 65.4% where 76.6% males and 53.9% females are literates. The lowest literacy rate in rural area is noted in Chandampet mandal parishad with 36.8%.

TABLE 23

DISTRIBUTION OF VILLAGES BY LITERACY RATE RANGE, 2001

Range of literacy rate for villages	Number of inhabited villages	Percentage distribution of villages	Population	Percentage distribution of population
1	2	3	4	5
-	-	-	-	-
1-10	5	0.4	1,517	0.1
11-20	8	0.7	6,686	0.2
21-30	35	3.1	48,750	1.7
31-40	120	10.7	250,852	8.9
41-50	347	30.9	784,758	27.9
51-60	412	36.7	1,087,117	38.6
61-70	151	13.4	392,001	13.9
71-80	40	3.6	238,304	8.5
81-90	6	0.5	5,319	0.2
91-99	-	-	-	-
100	-	-	-	-
District Total:	**1,124**	**100.0**	**2,815,304**	**100.0**
	Literacy rate for District:	**57.2**		

This table gives the distribution of villages by literacy rate range in the district. There are 1-10% literates in 5 villages (0.4%) of the district and population of these villages is 1,517 persons. 412 villages accounting 36.7% of the total villages are in the literacy range of 51-60% and 151 villages (13.4%) fall in the literacy range of 61-70%. The lower literacy rate of 1-50% observed in 515 villages of the district. The higher literacy ranges of 71-90% covers only 46 villages. The range of 51-70% have the 563 villages of the total inhabited villages. No village is having literacy rate more than 90% in the district.

This table gives the number and percentage of main workers, marginal workers and non- workers by sex at mandal level for district as per 2001 census. The percentage of total workers workout to 49.1% of the total population in the district. The total workers are comprised of 40.3% main workers and 8.8% marginal workers and the remaining 50.9% are non-workers.

Among the main workers, male participation rate is 49.9% whereas in females it is 30.4%. Male and Female marginal workers account for 5.1% and 12.7% respectively. The percentage of female marginal workers is higher than male marginal workers.

This table 32 shows mandal parishadwise number and percentage of main workers, marginal workers and non-workers for rural population of the district. Of the 2,815,304 total rural population of the district, 42.1% has been categorised as main workers and marginal workers consistutes 9.7% and the remaining 48.2% fall in the category of non workers. The sex wise breakup at the district level shows that 50.6% males and 33.3% females are in category of main workers. Male and female marginal workers account for 5.5% and 14% respectively. The percentage of female marginal workers is higher than male marginal workers. Similar trend is visible in most of the mandal parishads.

The percentage of total rural workers of the district comes to51.8. At mandal parishad level, Mothey has highest proportion of total workers forming 57.7% of the total population. It is closely followed by Mella Cheruvu with 57.1%, Penpahad (56.9%),Atmakur(S) (56.7%) and Peddavoora and Gurrampode(55.5%) each. The lowest percentage of 43.7% is recorded in Nakrekal mandal parishad.

+ Towns arranged in alphabetical order

^ The names of constituents of UA are given separately

** In case of the towns having outgrowth an asterisk mark placed against their name to indicate that they have outgrowths which are not seprate towns.*

This table deals with number and percentage of main workers, marginal workers and non-workers by sex at town level in the district. Out of 432,678 total urban population of the district; 28.6% has been categorized as main workers and marginal workers 3% as and remaining (68.4%) are non-workers. The sex wise breakup at district level shows that 45.3% males and 11% females are main workers. Male and female marginal workers account 2.6% and 3.5% respectively. Thus total male workers are 47.8% and total female workers are 14.4%. Similar trend is prevailing in each town level also.

				(43.0)	**(20.3)**	**(61.2)**	**(4.5)**	**(14.0)**

Note: Percentage of Workers to total workers are given in brackets

It can be seen from the above table, the economy of the district is primarily dependent on agriculture due to the fact that workers in agriculture sector constitute 67.6% to the total workers (main + marginal) 4.4% of total workers engaged in household industry and remaining 28.0% in the category of other workers in the district.

The distribution of workers by four categories of economic activity at mandal level shows very high dependence on agriculture sector absorbing large number of workers. The percentage of female cultivators is 20.3% which is lower when compared with 29.4% of male cultivators in the district.

TABLE 35

Note: Percentage of workers to total workers are given in brackets

This table presents mandal parishadwise distribution of workers by sex in four categories of economic activity. In the rural areas of the district total workers constitute (main+marginal) 51.8% of total rural population. Among these workers, cultivators constitute 27.7%, agriculture labourers 45.4%, Household industry workers 4.4% and other workers 22.5%.

The agricultural sector plays a major role in providing employment to the working force of rural population despite the fact that it is not commercially viable. Household industries also could not make much progress in rural areas as reflected in the data as the household industries employ 4.4% workers of the total working force. Therefore surplus working force has to depend on primary activities. Among cultivators, the percentage of females (21.1%) is less than males (33.1%) in the rural areas of the district.

+ Towns arranged in alphabetical order

^ The names of constituents of UA are given separately

** In case of the towns having outgrowth an asterisk mark placed against their name to indicate that they have outgrowths which are not seprate towns.*

Note: Percentage of workers to total workers are given in brackets.

The above table shows the distribution of workers by sex in four categories of economic activity of towns in the district. In the urban areas of the district total workers constitute 31.6% of the total urban population. Among these workers, cultivators constitute 2.1%, agriculture labourers 7.2%, household industry workers 4.3% and other workers 86.4. In urban areas other category of workers play major role in providing employment. Household industries could not make much progress on urban people as reflected in the data.Males constitute 91.1% and females constitute 70.2% in category of other workers.

Note : - Percentages are given in brackets.

* *Based on the improved drinking water source, drinking water supply has been classified as `Improved ' or otherwise. If the household has access to drinking water supplied from a tap or a hand pump / tube well situated within or outside the premises it is considered as having access to `Improved drinking water source'. However, the concept of improved drinking water is state specific and this is to be considered accordingly.*

\# *Post office includes Post office, telegraph office and Post and telegraph office.*

$ *Transport communication includes bus service, rail facility and navigable waterways.*

This table deals with the mandal parishad-wise distribution of villages, according to the availability of different amenities like education, telephone, transport, communication, agricultural credit societies, approach by pucca roads and power supply within the village. Out of 1,124 inhabited villages in the district 1,099 villages or 97.8% have been provided with the educational facilities of one type or other. Similarly 872 villages in the district constitute 77.6% have medical facilities of one type or the other. Improved drinking water facility is available in 1,122 or 99.8% villages. As regards, post office facility which includes facilities like telegraph office and post and telegraph, 691 villages constituting 61.5% of villages have been provided post office facility within the village. 611 or 54.4% villages have been provided with telephone facility, 1,020 or 90.7% with transport facility, 121 or 10.8% villages with bank facility and 303 or 27.0% with agricultural credit societies. Similarly, there are 934 or 83.1% villages which have been linked with the pucca roads. Total 1,124 or 100% of villages have been provided with the electricity supply. Almost similar pattern of distribution of villages by availability of amenities in the villages is visible at mandal parishads.

Note : - Percentages are given in brackets.

* *Based on the improved drinking water source, drinking water supply has been classified as `Improved ' or otherwise. If the household has access to drinking water supplied from a tap or a hand pump / tube well situated within or outside the premises it is considered as having access to `Improved drinking water source'. However, the concept of improved drinking water is state specific and this is to be considered accordingly.*

\# *Post office includes Post office, telegraph office and Post and telegraph office.*

$ *Transport communication includes bus service, rail facility and navigable waterways.*

	District Total:	**2,720,491**	**825,321**	**1,331,109**	**2,540,806**	**2,815,304**
		(96.6)	**(29.3)**	**(47.3)**	**(90.2)**	**(100.0)**

This table depicts the number and proportion of rural population served by different kinds of amenities. Out of total rural population of 2,815,304 persons in the district, 2,810,854 or 99.8 per cent have educational facility of one or the other type. Similarly 2,572,386 or 91.4 per cent population has medical facilities while 2,815,086 or 100.0 per cent have got improved drinking water facility. Post office facilities are available to 2,353,413 or 83.6 percent population. Telephone facility is available to 1,972,581 or 70.1 per cent. Transport communications facility is available to 2,720,491 or 96.6 per cent. Bank facility is available to 825,321 or 29.3 per cent. 1,331,109 or 47.3 per cent have been provided with the facility of agricultural credit societies. 2,540,806 or 90.2 percent have been provided with the facility of approach by pucca road. Power supply is available to 2,815,304 or 100.0 percent rural population in the district. Similar pattern of availability of facilities is visible to the rural population at Mandal Parishad level.

TABLE 39
DISTRIBUTION OF VILLAGES NOT HAVING CERTAIN AMENITIES ARRANGED BY DISTANCE RANGES FROM THE PLACES WHERE THESE ARE AVAILABLE, 2001

Village not having the amenity of	Distance range of place from the village where the amenity is available			
	Less than 5 kilometres	5-10 kilometres	10+ kilometres	Total (Col. 2 to 4)
1	2	3	4	5
1. Education :-				
(a) Primary School	23	3	-	26
(b) Middle School	312	146	67	525
(c) Degree College	54	184	875	1,113
2. Medical:-				
(a) Hospital	88	198	831	1,117
(b) PHC	199	338	518	1,055
3. Post Office	322	77	34	433
4. Telephone	159	82	272	513
5. Bus Service	84	10	13	107
6. Banks				
(a) Commercial Bank	226	375	403	1,004
(b) Cooperative Bank	100	253	754	1,107
7. Agricultural Credit Societies	252	301	268	821

This table presents distribution of villages not having certain amenities within the village at district level. They have to go out of their village to avail these facilities. Such villages have been presented according to various distance ranges in this table. 26 villages do not have primary school in their villages and out of these villages, children of 23 villages have to travel less than 5 kms. for schooling. Out of 1586 inhabited villages as many as 525 are deprived of middle school and 1,113 of degree college facilities. Of these 312 avail the facility of middle school at a distance of less than 5 kms., 146 at a distance 5-10 kms. and the remaining 67 at a distance of 10+ kms. In respect of degree college 54 avail this facility at a distance of less than 5 kms., 184 between 5 to 10 kms. and rest 875 villages at a distance of 10+ kms.

Similarly there are 1,117 villages in the district which have been deprived of Hospital facility and 1,055 villages which are deprived of PHC facilities. Of these, 88 villages have the facility of Hospital available within 5 kms. while in respect of 198 villages the inhabitants have to cover a distance of 5-10 kms. in order to avail this facility. Similarly overwhelming number i.e. 831 villages have this facility at a distance of 10+ kms. As regards PHC 199 avail this facility at a distance of less than 5 kms., 338 at a distance of 5-10 kms. and the remaining 518 have to travel a distance of more than 10 kms. to avail this facility.

Regarding Post Office, 433 villages do not have this facility in the village itself. Of these majority i.e. 322 have this facility at a distance of less than 5 kms., another 77 villages avail it at a distance of 5-10 kms. Habitants of the remaining 34 villages have to travel a distance of 10+ kms.

As regards Telephone, there are 513 villages in the district which are not having the telephone facilitiy. Of these, 159 villages avail this facility at a distance of less than 5 kms., 82 at a distance of 5-10 kms. and remaining 272 have to traverse a distance of 10+ kms.

In respect of Bus services it is noticed that 107 villages do not have facility. Among these villages, 84 villages avail this facility at a distance of less than 5 kms., 10 at a distance between 5-10 kms. and 13 at a distance of 10+ kms.

In the entire district, 1,004 villages are deprived of Commercial Bank facilities & 1,107 of Co-operative Bank. Of these 1,004 villages which are deprived of Commercial Banks, 226 villages avail this facility at a distance of less than 5 kms., 375 between 5-10 kms. & the remaining 403 at a distance of 10+ kms. Regarding Co-operative Banks out of 1,107 villages, 100 villages avail this facility at a distance of less than 5 kms., 253 at a distance of 5-10 kms. and remaining 754 at a distance of 10+ kms. 821 villages do not have agricultural credit societies. This facility to 252 villages is available at a distance of less than 5 kms., 301 at a distance of 5-10 kms. and the remaining 268 at a distance of 10+ kms.

 # Post office includes Post office, Telegraph office and Post and telegraph office.

$ Transport communication includes bus service, rail facility and navigable waterways.

This table deals with the distribution of villages according to distance from the nearest statutory town and availability of different amenities within the village. Out of total 1,124 inhabited villages in the district, there are 10 villages which have nearest towns upto a distance of 5 kms. Of these all 10 villages forming 100 per cent of these total villages, are having the educational facility of one type or the other and 7 villages constituting 70 per cent, have the medical facilities within the village, 9 villages forming 90 per cent have the facility of post office within the village and 8 or 80 per cent have the facility of telephone. All 10 villages constituting 100 per cent have been linked by transport service. The Bank facility for all these 10 villages have not been provided, while 2 villages constituting only 20 percent have been provided by agricultural credit societies. 9 villages comprising 90.0 per cent have been provided with pucca road.

There are 186 villages in the district which fall the distance range of 5-15 kms. Of these, 179 villages forming 96.2% of these total villages, are having the educational facility one type or the other and 147 villages constituting 79%, have the medical facilities within the village, 107 villages forming 58% have the facility of post-office within the village and 103 villages constituting 55.4% have the facility of telephone. 173 villages constituting 93% have been linked by transport service. 24 villages comprising 13% have been provided bank facility, while 59 villages constituting 31.7% have been provided by agricultural credit societies. 157 villages comprising 84.4% have been provided with pucca road.

There are 738 villages in the district which fall in the distance range of 16-50 kms. Of these, 724 villages forming 98.1% of these total villages are having the educational facility one type or the other and 569 villages constituting 77.1%, have the medical facilities within the village, 461 villages forming 62.5% have the facility of post-office within the village and 416 villages constituting 56.4% have the facility of telephone. 670 villages constituting 91% have been linked by transport service. 78 villages comprising 10.6% have been provided bank facility while 206 villages constituting (27.9%) have been provided by Bank while 206 villages constituting 27.9% have been provided with Agricultural Credit Societies and 604 villages comprising 81.8% have been provided with pucca road.

There are 190 villages in the district which are situated beyond 51 kms from the nearest statutory town and out of these 186 villages constituting 97.9%

enjoy the educational facilities within the village itself, whereas 149 villages comprising 78.4% have been provided with medical facilities. 114 such villages comprising 60% have the post-office facility. 84 villages comprising 44.2% have been provided with telephone facility. 167 villages constituting 87.9% have been linked with bus services whereas 19 villages comprising 10% have been provided with bank facilities. 36 villages comprising 18.9% are having agricultural credit societies while 164 villages constituting 86.3% have been linked by pucca road.

 # Post office includes Post office, Telegraph office and Post and telegraph office.

$ Transport communication includes bus service, rail facility and navigable waterways.

** Based on the improved drinking water source, drinking water supply has been classified as `Improved ' or otherwise. If the household has access to drinking water supplied from a tap or a hand pump / tube well situated within or outside the premises it is considered as having access to `Improved drinking water source'. However, the concept of improved drinking water is state specific and this is to be considered accordingly.*

The above table 41 deals with the distribution of villages by population ranges and amenities available therein. In Nalgonda district out of total 1,124 inhabited villages, 94 villages have below 500 population. Of these 70 (74.5%) have education, 20 (21.3%) have medical 92(97.9) have improved drinking water facility 5(5.3) have post office, 17 (18.1%) have telephone facilities. 43 (45.7%) have transport, 5 (5.3%) have agricultural credit societies 49 (52.1%) have pucca approach road and 94 (100.00) have power supply. There are 160 villages which have population between 500-999. All 160 villages have educational facilities, improved drinking water and power supply facilities. 74 (46.3%) have medical facilities, 20 (12.5%) have post-office facility and 54 (33.8%) have telephone facility, 141 (88.1%) transport and 9(5.6%) have agricultural credit societies, 121 (75.6%) have pucca approach road within the village. There are 355 villages with 1,000 and 1,999 population. Of these 354 villages constituting 99.7% have education facilities within the village. 285 (80.3) have medical 190 (53.5%) villages have post office facilities, 333 (93.8%) have transport, 6 (1.7) have bank facilities, 52(14.6%) have agricultural credit societies 297 (83.7%) have pucca approach road and 167 (47%) have telephone facilities, whereas all 355 villages have improved drinking water and power supply facilities within the village.

There are 405 villages, with 2,000-4,999 population in each village. All the 405 villages have educational, power supply and improved drinking water supply facilities within the village. 384 (94.8%) have medical 367 (90.6%) have post-offices, 394 (97.3%) have transport, 47 (11.6%) have bank facilities, 156(38.5%) have agricultural credit societies, 363 (89.6%) have pucca road ,278 (68.6%) have telephone facilities within the village.

There are 91 villages with population 5,000-9,999 in each village. Almost all villages have education, medical, improved drinking water, transport, power supply and post-office facilities within the village except telephone, banks, agricultural credit societies and pucca approach road facility. All these are provided in 76 (83.5%), 50 (54.9%), 63 (69.2%) and 85 (93.4%) villages respectively.

There are 19 villages with more than 10,000 population in the district and all these villages have all amenities within the villages except one village do not have bank and agricultural credit societies facility.

Note : Cultivable area = Irrigated area + Unirrigated area

This table presents Mandal Parishad-wise distribution of villages according to land use. It also gives details of total area and cultivable area in the inhabited villages of the district. Cultivated area includes irrigated as well as un-irrigated area. It further elaborates that what is the extent of cultivable area under irrigation. There are total 1,124 inhabited villages in the district covering a total area of 1,344,321 hectares. Of this, 62.7 percent is cultivable and 28.9 per cent of total cultivable area has got the irrigation facility. The area figures for the villages have been collected from the revenue records maintained by the State Government.

The highest percentage of cultivable area 88.4% to the total area of mandal parishad is seen in Penpahad mandal parishad, followed by Chandur (87.7%), Chinthapalle (85.5%), Devarakonda(85%), Nidamanu (83.7%) and Kattangoor (83.3%) mandal parishads. About 24% of area of Atmakur (M) mandal parishad is cultivable area which is lowest in the dstrict. About 90% of cultivable area in Chilkur mandal parishad is irrigated area followed by Miryalaguda (74.3%), Kodad (71.8%) Garidepalli (71.6%) and Huzurnagar (69.7%). Gurrampode mandal has least irrigated area (5.0%) in the district.

TABLE 43

PER CAPITA RECEIPT AND EXPENDITURE IN STATUTORY TOWNS

Sl. No.	Class, name & urban status of Town	Per capita receipt(in Rs.'00)			Per capita expenditure (in Rs.'00)					
		Total	Through taxes	From all other sources	Total	General Administration	Public health and conveniences	Public works	Public institutions	Other(s)
1	2	3	4	5	6	7	8	9	10	11
1	III Bhongir (M)	141	64	76	132	97	12	-	-	22
2	II Miryalaguda (M)	184	120	63	183	63	20	50	-	49
3	I Nalgonda (M)	397	10	307	404	107	17	61	4	216
4	II Suryapet (M)	228	121	107	248	23	67	53	-	104
	District Total	**258**	**103**	**155**	**264**	**72**	**30**	**47**	**1.0**	**113**

The above table gives the per capita receipt and expenditure (in hundreds of rupees) for each statutory town in the district. The average per capita receipts for all statutory towns of the district Nalgonda works out to Rs.258 of which Rs.103 are derived through local taxes and the remaining Rs.155 received from all other sources. The average of total expenditure incurred per head is Rs.264. Out of this Rs.72 are spent on general administration, Rs.30 on public health and conveniences, Rs.47 on public works and Rs.113 is spent other items. Among all the towns the receipt 397 is highest in Nalgonda(M) and highest expenditure of 404 per head also recorded in Nalgonda (M) only.

TABLE 44

SCHOOLS / COLLEGES PER 10,000 POPULATION IN STATUTORY TOWNS, 2001

Sl. No.	Name and urban status of Town	Type of educational institution				
		Primary	Junior Secondary/ Middle	Secondary/ Matriculation	Senior Secondary	College
1	2	3	4	5	6	7
1	Bhongir (M)	7.1	6.0	3.4	1.2	1.2
2	Miryalaguda (M)	5.5	4.4	2.0	1.0	0.5
3	Nalgonda (M)	6.9	5.7	3.1	1.2	0.8
4	Suryapet (M)	5.5	5.2	3.2	1.5	1.2
District Total		**6.2**	**5.3**	**2.8**	**1.2**	**0.9**

The above table gives the details of schools/ colleges per 10,000 population in statutory towns existed during 2001. In statutory towns of Nalgonda district the average number of primary school per 10,000 population comes to 6.2 schools, 5.3 junior secondary/middle, 2.8 secondary/matriculation, 1.2 senior secondary schools and the ratio of colleges is only 0.9 per 10,000 population. Among the statutory towns, the ratio of primary and junior secondary/ middle and secondary/ matriculation schools are highest ratio in Bhongir(M) while in case of senior secondary school this position is claimed by Suryapet (M) and in case of colleges is claimed by Bhongir and Suryapet.

TABLE 45

NUMBER OF BEDS IN MEDICAL INSTITUTIONS IN TOWNS, 2001

District Total		**728,975**	**642,442**	**86,533**	**134,431**	**124,381**	**10,050**	**75,203**	**71,386**	**3,817**

The data presented in the table depicts number of households by tenure status and number of rooms occupied in the district. As per 2001 census the total number of households in the district is 728,975 consisting of 642,442 rural and 86,533 urban households. 134,431 households belong to Scheduled Castes and 75203 to Scheduled Tribes. 644,088 households are living in their own houses. Of these households, the largest number of households (236,381) have occupied two rooms accommodation and is followed by single roomed accommodation numbering 223,349 households. Next position is claimed by households (93,612) occupying three plus roomed accommodation. While 8,117 households are without any exclusive dwelling room.

75,085 households living in rented accommodation in the district. The largest number of 28,519 households are living in single roomed accommodation, followed by 28,027 households in double roomed accommodation. Households with three rooms and three plus are 12,436 and 5,394 respectively. Other households numbering to 9,802 of total households are distributed in single roomed accommodation numbering 5,675, double roomed 1,994, three roomed accommodation 963 and 423 in 3+ roomed accommodation. In rural areas majority of households have two roomed accomodation and majority of them have their own houses while in urban areas too same picture is seen.

The data presented in this table reveals that 50.1 percent of households of the district are living in houses made of pucca materials, residences of 26.9 per cent households are of semi-permanent nature and houses of 23 per cent households are made of temporary materials.

In the rural areas, however, the percentage of households living in permanent houses is 46.1 per cent, 28.6 per cent in semi-permanent and 25.4 per cent in temporary houses.

District-wise percentage in urban areas indicates that majority of households i.e. 80.6 per cent are living in houses constructed with pucca materials, 14.3 per cent in semi-permanent structures and the percentage of households living in temporary houses is 5.1 i.e. constructed with kutcha materials.

Data source : Census of India, 2001, H-Series; "Tables on Houses, Household amenities and Assets".

The above table indicates that 74.4 percent households in the district have been provided with improved drinking water supplied from a tap or a hand-pump/tube-well. 64.4 percent households have provision of electricity to their houses. The bathroom facility is available to only 31.5 percent households within their premises . As regards rural areas, 25 per cent households are having bathroom facility, whereas this proportion in urban areas comes to 80 percent. 60.7 percent rural households have facility of electricity against 91.7 percent in urban areas. Toilet and drainage facilities in the district are available to 23.8 percent and 48.1 percent households respectively. Their percentage is higher in urban areas as compared to rural areas. The trend of these amenities available to the households at mandal level is almost conform to the district pattern analysed., except in Nadigudem, Munagala, Penpahad and Vemulapalle where improved drinking water facility is availed by less households.

2. Percentage to be given in brackets after the total households

The percentage distribution of households by type of fuel used for cooking purposes is given in this table. There are nine types of fuel used for which data have been presented in this table. It is observed that wood is the most predominant fuel used for cooking by 79.4 per cent households in the district. In rural areas use of wood for cooking is high while in urban areas it is less due to availability of L.P.G. The next cooking fuel is gas which is used by 12.3 percent households in the district. This proportion in urban and rural areas is 42.0 and 8.3 percent respectively. In rural areas use of gas for cooking is very low as compared to urban areas at mandal level. There are 4.1 percent households using kerosene in the district. Use of kerosene for cooking by urban households comes to 19.9 percent while in rural areas its proportion is only 1.9 percent as a whole. The percentage of households using other types of fuel such as crop residue, cow dung cakes, electricity, coal, biogas etc. is insignificant. In rural areas wood is main fuel and in urban areas cooking gas is used as predominant fuel. There are some households (1.7%), where Biogas is used as a fuel for cooking.

Source : *Census of India 2001, H-series; "Tables on Houses, Household Amenities and Assets"*

This table presents data for total, rural and urban areas at district/mandal level about households availing banking services and possession of assets such as radio/transistor, telephone, bicycle, scooter, car etc. There are 728,975 households in the district and among them, 199,300 households have been availing banking services. 135,829 households have Radio/Transistor. Television is possessed by 208,144 households. Telephone is available in 43,803 households. Bicycle is used as a major means of transportation and is available in 262,195 households. Scooter, Motor cycle and Moped are used by 56,367 households whereas 5,316 households are in possession of Car, Jeep and Van. The picture in usage of banking services and possession of assets by households at mandal level is almost similar as analysed above for the district as a whole. About 47% households in the district do not have any of the specified assets.

(xiii) Scope of Village directory and Town directory - Column heading wise explanation and coverage of data

The village directory and the town directory presented in the District Census Handbooks are proved more useful. The formats of village directory and of seven statements of town directory are on the same pattern canvassed in 1991 census except for a few additional columns. These additional columns are introduced to throw more insight into the infrastructure of the villages and towns. All the amenities except recreational and cultural facilities, power supply and news papers/magazines are brought under one bracket, with corollary that in case any amenity is not available in the village, the distance of the nearest place where the facility is available is presented. Similar method is followed in respect of towns where educational and medical facilities are not available. The non-census data presented in the village and town directories relate to the year 1999. However, wherever the field agencies have indicated the later position, the information has been updated. Almost all the details in the statement have been indicated by codes. In respect of total population and total number of households, the figures as returned during the recent census i.e. 2001 census have been presented. The scope of village directory and town directory statements with column heading-wise explanation and coverage of data are hereunder presented.

Scope of Village Directory :

In the similar manner as was done in the past, the village directory has been prepared for all the villages in the state and these are presented mandal parishad wise in the District Census Handbook. This statement contains village-wise area, population, amenities such as educational, medical, communications, drinking water facilities, etc., and also the land use pattern details. The villages are shown in order of their permanent location code numbers. An alphabetical list of villages with their permanent location code numbers and a mandal map has been presented in the beginning of Village Directory of each mandal. This facilitates the reader in locating the mandal in which a particular village lies. The village directory now contains 23 columns as against 18 columns in the 1991 handbook. To give more information under amenities column, banking facilities such as commercial and co-operative banks, agricultural, non-agricultural and other credit societies have been included in the present statement. Similarly, a new column 'number of recreational and cultural facilities' showing cinema/video halls, sports club and stadium/auditorium has been added. In addition to the above a column showing newspapers/magazines received and name of the most important commodity manufactured in the village have been incorporated. Besides the above, the Village Directory is having 12 appendices viz.

Appendix I	:	Abstract of Educational, Medical and other amenities in the villages Mandal Parishad level.
Appendix 1A	:	Villages by number of primary schools
Appendix 1B	:	Villages by primary, middle and secondary schools
Appendix 1C	:	Villages with different sources of drinking water facilities available
Appendix II	:	Villages with 5,000 and above population which do not have one or more amenities
Appendix IIA	:	Census Towns which do not have one or more amenities
Appendix III	:	Land utilization data in respect of census towns / non-municipal towns

Appendix IV	:	Mandal Parishad-wise list of inhabited villages where no amenity other than drinking water facility is available
Appendix V	:	Summary showing number of villages not having Scheduled castes population
Appendix VI	:	Summary showing number of villages not having Scheduled tribes population
Appendix VII A:		List of villages according to the proportion of the Scheduled Castes to the total population by ranges.
Appendix VII B:		List of villages according to the proportion of the Scheduled Tribes to the total population by ranges.
Appendix VIII	:	Statement showing number of Girls schools in the villages
Appendix IX	:	List of Degree Colleges Village/Town in the District
Appendix X	:	List of Hospitals Village/Town in the District
Appendix XI	:	List of Banks Village/Town in the District
Appendix XII	:	List of Cinema Halls Village/Town in the District

It may be noted that the Appendix 1A, 1B, 1C, II, II-A, VIII, IX, X, XI and XII have been included afresh in comparison to the District Census Hand books of 1991 Census.

Columns 1 to 3 relate to the serial number, location code number, name and total area of the village. The area given under column 3 is as per the data collected from the state survey department during 1991 census and presented even for 2001 census as the department clarified that there are no changes in the area figures. Column numbers 4 and 5 provide the total population and the total number of households in the village as per 2001 census. Columns 6 to 13 list out the basic amenities available in the village such as educational; medical; drinking water; post, telegraph and telephone; commercial and co-operative banks; agricultural, non-agricultural and other credit societies; recreation and cultural facilities and communications.

The columns 14 to 18 give the details of approach to the village, nearest town & distance, power supply, news paper/magazine circulation and most important commodity manufactured in the village.

The remaining columns 19 to 23 pertain to the land use pattern in the village. The extent of forest area has been given in column 19 while in columns 20 to 23 the extent of irrigated area together with different irrigational sources, the extent of culturable waste including gaucher and groves and the area not available for cultivation such as buildings, roads and railways or under water(rivers and canals), etc., have been given. Here it is worth mentionable that the total area figures of Col. 19 to 23 may not tally with the total area of the village as shown in Col. 3 due to various reasons such as water ways, etc., which are not generally included in the land use statistics, the last column i.e. col.1 & 2 repeats the name and serial number of the village.

The land use pattern in the Village Directory conforms to the pattern of classification of land use as recommended by the Ministry of Agriculture, Government of India. The Ministry of Agriculture has recommended the maintenance of records of land use pattern under five categories viz. forests, not available for cultivation, other uncultivated lands excluding fallow lands, fallow lands and net area sown.

The concepts of various types of land use given under each of the columns 19 to 20 as given in the Village Directory schedule are reproduced below:

1. Forests (Col.19) :

These include all actually forested areas and the lands classified or administered as forests under any legal enactment dealing with forests whether State owned or private. If any portion of such land is not actually wooded but put to some agricultural use, that portion is included under the appropriate heading of cultivated or uncultivated land.

2. Cultivated area with break-up irrigated and un-irrigated (Col. 20 & 21):

This includes the land under the following three categories.

I) Net area sown :

The net area sown represents the area sown to crops counting areas sown more than once in the same year, only once.

II) Other fallow lands :

This includes all lands which were taken up for cultivation but are temporarily out of cultivation for a period of not less than one year and not more than five years. The reasons for keeping such lands fallow may be either due to poverty of the cultivators or inadequate supply of water or malarial climate or silting of canals or rivers or un-remunerative nature of farming, etc.

III) Current fallows :

This class comprises cropped areas which are kept fallow during the current year. If any seedling area is not cropped again in the same year, it is also treated as current fallows.

3. Culturable Waste (Col. 22):

This item includes the land under the following three categories.

i) Permanent pastures and other grazing lands:

These cover all grazing lands whether they are permanent pastures and meadows or not. Village common and grazing lands within forest areas are included under this head.

ii) Lands under miscellaneous tree crops and groves not included in the area sown:

Under this class is included all cultivable land which is not included under net area sown but is put to some agricultural use. Lands under casuarina trees, thatching grass, bamboo bushes and other groves for fuel, etc., which are not included under 'Orchards' are classed under this category.

iii) Culturable waste:

This includes lands available for cultivation but not taken up for cultivation or abandoned after a few years for one reason or other. Such lands may be either fallow or covered with shrubs and jungles, which are not put to any use. They may be assessed or not assessed and may lie in isolated blocks or within cultivated holdings. Land once cultivated but not cultivated for five years in succession is also included in this category.

4. Area not available for cultivation (Col.23) :

This includes the land under the following two categories.

i) Land put to non-agricultural uses :

All lands occupied by buildings, roads and railways or under waters such as rivers and canals and other lands put to uses other than agricultural.

ii) Barren and uncultivable land :

This covers all barren and uncultivable land like mountains, etc., i.e. which cannot be brought under cultivation unless at a high cost. Whether such land is in isolated blocks or within cultivated holdings.

All the above particulars are based on the data received from the concerned departments like education, medical, postal electricity, etc., and also mainly from the Mandal Revenue Officers concerned.

Item on communications has been shown separately to spell in terms of availability of the public transport system. This is meant to see whether the village is served by any mode of transport such as bus or rail or waterway. It is against this back-ground that the item on approach to village has been given separately. This refers to road, etc., leading to the village and is to indicate whether the village is approachable both in fair and foul weather and whether it is inaccessible for all time or only some time in the year. Adult literacy class/centre under item on 'Education' and Primary health centre and Community health worker under item 'Medical' of Village Directory are included to indicate statistics on the Minimum Needs Programme of the Planning Commission.

Scope of Town Directory:

There are seven statements in the Town Directory, which include several particulars relating to the towns arranged as per the alphabetical order of their names. These statements are almost similar to those adopted

in 1991 census except for a few changes. During the 1991 there were six Town Directory statements besides providing a separate statement IV-A bringing out civic conditions of the notified slums in class I and II towns. In the present volume the statement IV-A of the 1991 handbook has been termed as statement-VII and the data is presented in respect of all towns having statutory bodies including un-notified slums. The column 4 of statement IV-A of the 1991 book i.e. area of the slum has been deleted in the present book duly substituting the same by giving the information – whether the slum is notified or not with a view that the local authorities are not in a position to provide exact area figures for each slum area. Further in the present statement-VII another item i.e. approximate number of households living in the slum is incorporated. The captions of the statements are as follows:

Statement I	: Status and growth history
Statement II	: Physical Aspects and location of town, 1999
Statement III	: Municipal Finance, 1998-99
Statement IV	: Civic and other Amenities, 1999
Statement V	: Medical, Educational, Recreational and Cultural Facilities, 1999
Statement VI	: Trade, Commerce, Industry and Banking, 1999
Statement VII	: Civic and other Amenities in slums, 1999

In addition to the above seven statements one appendix for the towns shows their outgrowth with population has also been presented.

The formats of Town Directory have been devised to suit the Minimum Needs Programme of the Planning Commission. To reflect this programme, the columns of scheduled castes and scheduled tribes population in statement IV and Adult Literacy classes/ Centres in statement V are identical.

In case such of the amenity as Fire Fighting Service in statement IV, the Educational or Medical facility in statement V is not available in the town, the name of the nearest place and its distance from the referent town has been given. This feature is followed since 1981 census as it is necessary to identify the areas that have no specific facility in the district.

Statement I : Status and Growth History :

This statement provides basic information on civic status, population with decadal growth rate from 1901 to 2001, density for 2001 Census and sex ratio from 1981 to 2001 Censuses of each town besides presenting class of town, location code, name of the mandal, area in sq.kms. and number of households including houseless households returned in 2001 Census.

The columns 1 and 2 relate to serial number and class, name and civic administrative status of the town. The class of town has been determined basing on the size of population as given below.

Population	Class
1,00,000 and above	I
50,000 - 99,999	II
20,000 - 49,999	III
10,000 - 19,999	IV
5,000 - 9,999	V
Below 5,000	VI

The civic status of the town is indicated in brackets by abbreviated letters like 'M Corp' for Municipal Corporation and 'NP' for Nagar Panchayat. The location code number under Col.3 for the town has been framed in the order of geographical contingnity beginning from North West point of the district and ending at South East point. After location code the Col. 4-7 indicate name of mandal, name of mandal parishad, area of the town in sq. kms. and number of households including houseless households recorded in 2001 Census. The population of the town with decadal growth rate from 1901 Census to 2001 Census is given in Col. 8-18. The column 19 shows the density of population and column 20 to 22 give the sex ratio recorded during 1981 to 2001 Censuses. The sex ratio defined here is number of females per 1,000 males.

The following places are treated as urban areas in Nalgonda District at the 2001 Census.

1.Bhongir, 2.Chandur, 3.Choutuppal

4. Devarakonda, 5. Miryalaguda, 6. Nalgonda
7. Suryapet, 8. Vijayapuri North and 9. Yadagirigutta

Among the above towns Nalgonda, Suryapet, Miryalaguda and Bhongir are statutory towns.

Nalgonda and Bhongir are continuing as urban areas since 1901 where as Miryalaguda and Suryapet since 1941, Vijayapuri North since 1961 and Yadagirigutta and Devarakonda since 1981 are also continuing as towns. Chandur and Choutuppal have attained urban status during 2001 Census. Kodad which was Census town during 1991 Census, lost its urban character due to the criteria adopted for treating a place as urban during 2001 Census.

Nalgonda is a class I town, which has crossed 1 lakh population during 2001 Census.Bhongir, Miryalaguda and Suryapet are class II towns in the population range of 50,000-99,999. Devarakonda town is treated as class III towns falling in the population range 20,000-49,999, while the remaining towns are under class IV category with a population range of 10,000-19,999. No town has been fallen under the category of class V and VI in this district.

Statement II: Physical aspects and location of town, 1999.

This statement contain 13 columns and depicts physical aspects and location of town in the district. Column numbers 1 and 2 relate to serial number and class and name of the town. The physical aspects such as rainfall in millimetres maximum and minimum temperature in centigrade have been shown in columns 3 to 5 by taking average for the last ten years i.e. from 1990 to 1999. Among urban areas in the district, Chandur town has recorded highest rain fall of 832 millimetres, while lowest 458 millimetres recorded in Bhongir town. Second place in highest rain fall occupied by Suryapet with 797 mm. The district Headquarters Nalgonda has recorded 740 mm rain fall. The highest maximum and minimum temperatures 49^0C and 29^0C have been recorded in Devarakonda and lowest maximum and minimum temperatures 43^0C and 10^0C recorded in Bhongir and Yadagirigutta towns. The maximum and minimum temperatures in Nalgonda town are recorded as 45^0C and 18^0C respectively. The columns 6 to 12 give the details of name of and road distance in kms. from the referent town to state, district and mandal headquarters, nearest city with population of one lakh and more, nearest city with population of five lakh and more, railway station and bus route. Bhongir and Choutuppal towns of Nalgonda district are nearer to State headquarters at a distance of 47 kms. and 50 kms. respectively. Vijayapuri North is 160 kms. away from State headquarters. The district headquarters Nalgonda is 103 kms. away from State headquarters Hyderabad. Chandur town is very nearer to District headquarters Nalgonda with 32 kms. followed by Miryalaguda with 42 kms. Yadagirigutta is at a distance of 87 kms. from Nalgonda followed by Bhongir town at a distance of 75 kms. All these towns are Mandal Headquarters. The last column i.e. column number 13 is meant for showing name of the navigable river/canal within the distance of 10 Kms. from the referrent town. There is navigable river in the district for providing cheap navigational facility at Vijaypuri North town..

Statement III: Municipal Finance, 1998-99.

The details for inclusion in this statement were obtained from the respective statutory bodies. In the statement there are 16 columns. Column 1 to 2 relate to serial number, name and class of town with civic administration status. Columns 3 to 9 show the receipts of the local body under various sub-heads and columns 10 to 16 give the details of expenditure incurred on general administration, public safety, public health and convenience, public works and institutions, etc. Nalgonda being class I town had an income of Rs. 4.43 crores during 1998-1999 while its expenditure was Rs. 4.50 crores, which has deficit budget for the year 1998-1999. It has realized Rs.1 crore rupees through taxes and Rs.1.67 crores by way of loans. The major expenditure of Rs. 1.88 crores was on other items followed by Rs. 1.20 crores on administration. Public works and public safety were undertaken with Rs. 0.67 crores and Rs.0.52 crores respectively. Among class II towns, Suryapet has Rs. 2.16 crores income and Miryalaguda with Rs. 1.68 crores income. Bulk of the income was through taxes amounting to Rs. 1.15 crores and Rs.1.10 crores respectively in the above said two towns. Suryapet town has incurred more expenditure, i.e.,Rs. 2.34 crores, than its income. Major portion of the expenditure i.e., Rs.0.63 crores was on public health followed by Rs.0.60 crores on public safety. They

spent Rs.0.22 crores on administration. Where as Miryalaguda has spent Rs.0.58 crores on administration, Rs.0.46 crores on public works and Rs.0.45 crores on public safety out of Rs.1.67 crores total expenditure. Next Statutory town is Bhongir with Rs. 70.1 crores income and Rs. 0.66 crores expenditure. The class III town of Devarakonda is a Census town which has Rs. 0.26 crores income and same amount has been spent. The major income source of the town was through Government Grant i.e., Rs. 0.14 crores and major expenditure of Rs. 0.23 crores incurred on public works.

Statement IV : Civic and other Amenities, 1999.

The title itself reveals that, this statement deals with the facilities provided to the people in the urban areas of the district.

This statement contain 20 columns. Column 1&2 relate to serial number, class, name of town and civic administration status of the town respectively. Column 3 gives population of the town whereas the column numbers 4 and 5 give population of SC and ST as per 2001 census. The length of pucca and kutcha roads are recorded separately for each town in column 6. The column 7 shows the details of sewerage systems prevailing in the referent town. The number of latrines with different types is shown in columns 8 to 11. Column 12 is provided separately to show method of disposal of night soil. The source of protected water supply and the system of storage with capacity are recorded under column 13 and 14. Column 15 shows the availability of fire fighting services. In case if this service is not available in the town, the name of the nearest town along with distance where available to be mentioned under this column. All towns except Chandur, Choutuppal, Vijayapuri North and Yadagirigutta in the district have fire fighting services. The columns 16 to 20 relate to different types of electrical connection in number.

Nalgonda is having 290 kms. road in the town. While Suryapet has 130 kms. pucca road and 79 kms. kutcha road and Miryalaguda has 132 kms. pucca road. Another statutory town Bhongir has 42 kms. pucca Road and 17 kms. Kutcha road. Urban population of the entire district is provided with Tap water supply for drinking purpose. Some residents of Bhongir and Suryapet are using tank water for drinking purpose. Some of the residents of Chandur and Choutuppal are drawing drinking water from wells. All these towns have storage facility of drinking water. Electric connections of different categories including road lightings are available in all the towns of the district.

Statement V : Medical, Educational, Recreational and Cultural facilities, 1999:

In this statement the availability of medical, educational, recreational and cultural facilities are presented with reference to the population of 2001 Census. The towns in the district are having all the facilities. This statement is containing 20 columns. Column 1, 2 and 3 relate to serial number, class and name of the town and the population recorded during 2001 census respectively. The columns 4 and 5 show about the availability of different hospitals, dispensaries, T.B. clinics, etc., together with beds strength. Columns 6 to 15 relate to educational facilities such as various schools/colleges at all levels including Medical, Engineering, Polytechnic, Technical Institutions and Adult Literacy centres. The column 16 is meant for working women's hostels with number of seats. The number of recreational and cultural facilities such as Stadia, Cinema, Auditoria, Community Halls, Public Libraries including reading rooms available in the towns is recorded in columns 17 to 20.

Hospital facility is available in all the towns except Chandur and Yadagirigutta. T.B. Centres are working at Bhongir, Nalgonda and Vijayapuri North. However all the towns have one or other medical facility.

Chandur and Yadagirigutta towns do not have degree colleges. Engineering colleges and Polytechnic Institutions are located at Bhongir, Miryalaguda, Nalgonda and Suryapet towns. School education is available in all the towns of the district. Only Nalgonda town possess working women's hostel.

Regarding recreational facilities, Cinema theatres are available in all the towns. Stadia are also available in Miryalaguda, Bhongir and Nalgonda towns. Auditoria, etc., are available in all the towns except Chandur, Choutuppal and Yadagirigutta.

Statement VI : Trade, Commerce, Industry and Banking, 1999

This statement deals with economic activities in the urban areas with 11 columns. Column 1 and 2

are serial number and class and name of the town. The columns 3 to 5 give the details of three most important commodities exported and the columns 6 to 8 show the three most important commodities manufactured. The commercial banks, number of agricultural credit societies and the number of non-agricultural credit societies are furnished in the columns 9 to 11.

Handloom clothes, Silk sarees, Brass vessels, Para Boiled Rice are some of the important commodities, which are manufactured and exported from urban areas of the district.

Altogether there are 54 Banks, 12 Agricultural Credit Societies and 97 Non- Agricultural Credit Societies are functioning in the urban areas of Nalgonda District.

Statement VII : Civic and other amenities in Slums, 1999

This statement give details of civic and other amenities provided in all slums whether notified or not. Keeping in view of slums problem in urban areas, during 1981 census this statement was first introduced limiting the details to class I and class II towns. The same pattern was adopted during 1991 census also.

Though the magnitude of slum problem is greater in class I and class II towns, it is accepted that they are associated with smaller towns also. Hence the information on slums has been presented in this statement in respect of all towns having statutory bodies.

The statement on slums contains 17 columns. The columns 1 to 4 show the serial number, class and name of town, name of the slum and whether the slum is notified or not respectively. Column 5 and 6 give the details of approximate number of households and population of the slum during 1999. The length of the paved road in the slum has been shown in Kms. under column 7. The columns 8 to 13 present system of sewerage, number of latrines both private and community and method of disposal of night soil. The column 14 is meant for showing number of tap points / public hydrants. The last 3 columns i.e columns 15 to 17 relate to number of electric connections under domestic, road lighting points and others.

In Bhongir town there are 32 slum pockets with approximately 4,433 households and 22,486 population. These slums are having Open Surface Drainage system. They have 572 water borne, 620 other type and 13 community latrines. Night soil is disposed of by pit and septic tank system. These slums are provided with 150 tap points for supply of protected water besides having electricity for 3,952 domestic connections, 11 road lighting pointsand 152 other category.

In Miryalaguda town there are 19 slum pockets with approximately 3,000 households and 20,000 population. They have paved road of 40kms., 1,100 water borne, 200 other type and 2 community latrines. Night soil is disposed of by Sewerage system. These slums are provided with 28 tap points for supply of protected water besides having electricity for 2,850 domestic connections and 650 road lighting points.

In Nalgonda town there are 18 slum pockets with approximately 6,019 households and 31,077 population. They have 4,000 water borne and 6 community latrines, 81 kms. paved road and open surface drain system. These slums are provided with 650 tap points for supply of protected water besides having electricity for 5,827 domestic connections and 452 road lighting points.

In Suryapet town there are 44 slum pockets with approximately 7,155 households and 42,931 population. 90 kms. is the length of paved roads and Open Surface Drainage System is the system of disposal of night soil and box surface drainage system. They have 2,200 water borne and 8 community latrines. These slums are provided with 3,311 tap points for supply of protected water besides having electricity for domestic and road lighting points are 7,048.

Section I - Village Directory

(a) Note explaining the abbreviations used in Village Directory :

The "Village Directory" is one of the traditional compilations of the Census. It gives the list of villages, their location numbers, their area, population, number of households, amenities such as educational, medical, drinking water, post and telegraph, commercial and co-operative banks, agricultural non-agricultural and other credit societies, recreational and cultural facilities, communication, approach to village, nearest town with a distance, power supply availability of newspaper and magazines, most important commodity manufactured and land use of each village.

Village is a statutory recognized unit having a definite boundary and separate land records. In case, a complete village is treated as an outgrowth of urban agglomeration, data on amenities for that village, have not been given in the Village Directory but shown along with the urban component. The villages which are consider as a Census Town , the amenities data are shown in the Town Directory. For those villages which have partly merged in an outgrowth of U.A., the amenities data are shown in the Village Directory for that particular village.

The 'un-inhabited' villages (villages with no population) have been indicated as such after furnishing details in columns 1 to 3 i.e., Serial number, Name of village & location code number and area of the village against column no. 4 to 18. The land use data for such villages are shown in col. 19 to 23.

The Village Directory format has 23 columns and the details given under each column are for the village are as follows:-

Columns 1 : Serial Number

Self explanatory. All the villages within the Mandal Parishad are presented serially in the ascending order of their location code number.

Columns 2 : Name and Location Code Number of village

The name and location code number of the village are shown against these columns. This also includes the forest and uninhabited villages.

Column 3 : Area of the village

The area of the villages in hectares are given. Wherever the area figures was not furnished by the concerned department the column is left blank.

Column 4 : Total population

The total population of the village as per 2001 Census is given against this column.

Column 5 : Number of households

The number of households as per 2001 Census is given in this column.

Amenities :

In column 6 to 23, availability in respect of different amenities such as education, medical, drinking water, post, telegraph, banks, credit societies, communication, power, approach road etc. in each village has been depicted with appropriate codes against the column concerned. Wherever the amenities are not available in the village, a dash (-) is shown in the column and next to it in brackets the distance in broad ranges viz.< 5 kms., 5-10 kms. and 10+ kms of the nearest place where the facility is available is given. Column wise details are given below

Column 6 : Educational

Classes upto class V included in Primary School. This will include nursery school, kindergarten school. Pre-basic school, pre-primary school, junior basic school upto class V.

Classes from VI to VII are included in the middle school.

Classes from VIII and X included in Higher secondary school. Classes XI and XII are included in senior secondary school.

In case of composite schools like middle school with primary school or secondary school with middle school, these are also included in the number of primary and middle schools, respectively.

Accordingly any of the following types of institutions if exists within the village is shown as per codes given below :

(i)	Primary School	P
(ii)	Middle School	M
(iii)	Secondary School	S
(iv)	Senior Secondary School	PUC/JC
(v)	College	C
(vi)	Industrial School	I
(vii)	Training School	Tr
(viii)	Adult literacy class/centre	AC
(ix)	Others (specify) e.g. Sanskrit Pathshala, Senior basic school, Navodaya Vidyalaya, Makhtab, etc.	O

More than one institution of a type in the village is indicated by the number within brackets against the abbreviation, e.g. P(3), M(4), etc.

Column 7 : Medical

Availability of medical facility within the village is indicated by following codes :

(i)	Allopathic Hospital	H
	Ayurvedic Hospital	HA
	Unani Hospital	HU
	Homeopathic Hospital	H Hom
(ii)	Allopathic Dispensary	D
	Ayurvedic Dispensary	DA
	Unani Dispensary	DU
	Homeopathic Dispensary	D Hom
(iii)	Maternity & Child Welfare	MCW
(iv)	Maternity Home	MH
(v)	Child Welfare Centre	CWC
(vi)	Health Centre	HC
(vii)	Primary Health Centre	PHC
(viii)	Primary Health Sub-Centre	PHS
(ix)	Family Welfare Centre	FWC
(x)	T.B. Clinic	TB
(xi)	Nursing Home	NH
(xii)	Registered Private Medical Practitioner	RMP
(xiii)	Subsidised Medical Practitioner	SMP
(xiv)	Community Health Worker	CHW
(xv)	Others	O

More than one institution of a type in the village is indicated by the number within brackets against the abbreviations, e.g. H(3), D(4), etc.

Column 8 : Drinking Water

The type of the drinking water supply sources available within the village are indicated by codes as follows :

(i)	Tap Water	T
(ii)	Well Water	W
(iii)	Tank Water	TK
(iv)	Tubewell Water	TW
(v)	Handpump	HP
(vi)	River Water	R
(vii)	Canal	C
(viii)	Lake	L
(ix)	Spring	S
(x)	Others	O
(xi)	Summer Source	SS-

Column 9 : Post, Telegraph and Telephone

It is indicated by codes as shown below whether within the village exists the following amenities:

(i)	Post Office	PO
(ii)	Telegraph Office	TO
(iii)	Post & Telegraph Office	PTO
(iv)	Telephone Connection	PH

Column 10: Commercial and Co-operative Banks

If the village is served by any banking service, commercial bank, co-operative bank etc. the same is indicated in codes mentioned below along with the number of banks in brackets. If not available the distance of nearest place where the facility exist is given:

(i)	Commercial Bank	CM
(ii)	Co-operative Bank	CP

Column 11: Credit Societies

If the village enjoys the services of Credit Societies i.e. Agricultural Credit Societies, Non Agricultural Credit Society or Other Credit Societies, the same is indicated in codes mentioned below along with the number of such societies in brackets. In case the facility is not available within the village the distance of the nearest place where such facility exist is given:

(i)	Agricultural Credit Society	ACS
(ii)	Non- Agricultural Credit Society	NCS
(iii)	Other Credit Society	OCS

Column 12 : Recreational and cultural facilities

If facilities such as Cinema/Video hall, Sports Club, Stadium/Auditorium is available in the village. The same is recorded in these columns. If not available the particulars of the nearest place with the facility is recorded. The information is indicated in codes mentioned below along with the number of such facilities in brackets:

(i)	Cinema / Video Hall	CV
(ii)	Sports Club	SP
(iii)	Stadium / Auditorium	ST

Column 13 : Communications

If the village is served by any mode of public / private transport like Bus, Railway station or Navigable water ways they are to be mentioned as follows:

(i)	Bus Service	BS
(ii)	Railway Station	RS
(iii)	Navigable Waterway	NW

Column 14 : Approach to village

Approach to village refers to the state of road leading to village. The approach to the village is indicated in following codes :

(i)	Paved Road	PR
(ii)	Mud road	MR
(iii)	Foot path	FP
(iv)	Navigable River	NR
(v)	Navigable Canal	NC
(vi)	Navigable waterways other than River, Canal	NW

Column 15 : Nearest Town and distance

The distance is given in kilometres in brackets against the name of the town nearest to the village.

Column 16 : Power supply

Availability of Power Supply in the village, whatever may be the form of its use is given by using following codes :

(i)	Electricity for domestic use	ED
(ii)	Electricity for agricultural use	EAG
(iii)	Electricity for other purposes	EO
(iv)	Electricity for all purposes	EA

Column 17 : News Paper / Magazine

If village receives any News Paper/Magazines the same is noted in this column using following codes

(i)	News Paper	N
(ii)	Magazine	M

Column 18 : Most important commodities manufactured

The name of three most important commodities manufactured in the village is recorded against this column.

Column 19 to 23 : Land use i.e. area under different types of land use

Land use data maintained by the State/ UT Govts. are furnished against these columns. The data concerning area under Forest, Irrigated land (by source), Un-irrigated land, Culturable waste and Area not available for cultivation in the village are shown against these columns. The area figures are given in hectare(s) up to one decimal. Dash '-' is recorded wherever the information is not made available by the concerned department. The codes used for different types of irrigation facilities available in the village are indicated below:

(i)	Government Canal	GC
(ii)	Private Canal	PC
(iii)	Well (without electricity)	W
(iv)	Well (with electricity)	WE
(v)	Tubewell(without electricity)	TW
(vi)	Tubewell(with electricity)	TWE
(vii)	Tank	TK
(viii)	River	R
(ix)	Lake	L
(x)	Waterfall	WF
(xi)	Others	O
(xii)	Total	T

(b) List of Villages merged in towns and outgrowths at 2001 Census

(i) List of Revenue Villages that have been fully merged in Towns and Outgrowths at 2001 Census

Serial number	Name of mandal	Name of village	Name of the Municipality/ Nagar Panchayat/ Census Town in which the village is merged
1	2	3	4
1	Yadagirigutta	Yadagiripalle	Yadagirigutta (CT)
		Gundlapalle	Yadagirigutta (CT)
2	Bhongir	Hussainabad	Bhongir (M)
		Bhagath Bhuvanagiri	Bhongir (M)
		Bhuvanagiri	Bhongir (M)
3	Choutuppal	Choutuppal	Choutuppal (CT)
4	Suryapet	Bechiragmadharam	Suryapet (M)
		Suryapet	Suryapet (M)
5	Nalgonda	Nalgonda	Nalgonda (M)
6	Devarakonda	Devarakonda	Devarakonda (CT)
7	Chandur	Chandur	Chandur (CT)
8	Peddavoora	Vijayapuri North	Vijayapuri North (CT)
9	Miryalaguda	Miryalaguda	Miryalaguda (M)

(ii) List of Revenue Villages that have been Partly merged in Towns and Outgrowths at 2001 Census

Serial number	Name of mandal	Name of village	Name of the Municipality/ Nagar Panchayat/ Census Town in which the village is merged
1	2	3	4
1	Bhonagir	Rayagiri (Rural)	Bhongir (M)
		Anantharam (Rural)	Bhongir (M)
2	Suryapet	Pillalamarri (Rural)	OG to Suryapet (M)
3	Nalgonda	Panagallu (Rural)	OG(Part) to Nalgonda(M)
		Nalgonda (Rural)	Nalgonda(M)
		Gollaguda (Rural)	OG to Nalgonda(M)
4	Miryalaguda	Nandipahad (Rural)	OG Part to Miryalaguda(M)

Section II - Town Directory

Note explaining the abbreviations used in the town directory

Town Directory statements (I to VII)

Statement I : Status and Growth History

Column (2) : Class, name and civic status of town :

Class has been introduced to facilitate analysis of town directory data at the state and all India levels. It is presented according to 2001 Census Population of the town as follows :

Population	Class
100,000 and above	I
50,000 - 99,999	II
20,000 - 49,999	III
10,000 - 19,999	IV
5,000 - 9,999	V
Below 5,000	VI

Town with a population of one hundred thousand (1,00,000)and above is treated as a city.

The civic status of the towns is indicated within bracket against the name of the town. The following abbreviations are used to denote civic status of town.

(I)	Municipal Corporation	M. Corp.
(II)	Municipal Committee	MC
(III)	Municipal Council	M Cl
(IV)	City Municipal Council	CMC
(V)	Town Municipal Council	TMC
(VI)	Municipal Board	MB
(VII)	Municipality	M
(VIII)	Cantonment Board/Cantonment	CB
(IX)	Notified Area	NA
(X)	Notified Town	NT
(XI)	Notified Area Committee/ Notified Area Council	NAC
(XII)	Notified Town Area	NTA
(XIII)	Industrial Notified Area	INA
(XIV)	Industrial Township	ITS
(XV)	Township	TS
(XVI)	Town Panchayat	TP
(XVII)	Nagar Panchayat	NP
(XVIII)	Town Committee/ Town Area Committee	TC
(XIX)	Small Town Committee	ST
(XX)	Estate Office	EO
(XXI)	Gram Panchayat	GP
(XXII)	Census Town	CT

Others columns need no comments.

Statement II - Physical Aspects and Location of towns, 1999

Column 3 to 5 : Physical Aspects

In these columns the Rainfall and Maximum & Minimum Temperature of the town is recorded.

Column 6, 7 and 8 :

Name of the State headquarters, District headquarters and Sub-Divisional headquarters with distance from the referent town in kilometres, is to be recorded respectively. If the names mentioned in these columns are the same as the referent town itself, the distance is recorded as (0) zero.

Column 9& 10 :

Name of the nearest city with one lakh and more and five lakhs and more population are recorded.

Column 11, 12 and 13 :

If referent town enjoys the facility of railway station, bus route facility or navigable river/canal. Its name is to be mentioned. If not available, then the

facility exists is to be mentioned.

Statement III : Municipal Finance, 1998 - 99

Item-wise amount of receipt and expenditure in thousand rupees, relating to municipal finance of the town for the year 1998-99 is to be recorded.

Statement IV : Civic and Other amenities, 1999

Column (1 to 5) : Self explanatory.

Column (6) : Road length (in kms.)

Information about kutcha / pucca road is to be recorded separately for the roads within the limits of the referent town.

(i)	Pucca Road	PR
(ii)	Kutcha Road	KR

Column (7) : System of Sewerage

Generally, by sewerage system is implied the network of mains and branches of underground conduits for the conveyance of sewerage to the point of disposal. Sewers that carry only household and industrial wastes are called separate sewers, those that carry storm water from roofs, streets and other surface are known as storm water drains, while those carrying both sewage and storm water are called combined sewers.

The codes used for different types of drainage system are as follows :

(i)	Sewer	S
(ii)	Open Surface Drains	OSD
(iii)	Box Surface Drains	BSD
(iv)	Sylk Drains	SD
(v)	Cesspool method	CP
(vi)	Pit System	Pt
(vii)	Others	O

Column 8 to 11 : Number of latrines

Number of various types of latrines both Public and Private are given in these columns.

Column 12 : Method of disposal of night soil

The various prevalent method of disposal of night soil are given below with codes :

Head Loads	HL
Basket	B
Wheel Barrows	WB
Septic Tank	ST
Pit System	Pt
Sewerage	S
Others	O

Column 13 and 14 : Water supply

Source and capacity of storage system. The following codes are used in these columns:

Column 13:

(i)	Tap water	T
(ii)	Tube-well water	TW
(iii)	Tank Water	TK
(iv)	Well water	W

Column 14:

(v)	Over Head Tank	OHT
(vi)	Service Reservoir	SR
(vii)	River Infiltration Gallery	RIG
(viii)	Bore Well Pumping System	BWP
(ix)	Pressure Tank	PT

The information on major source of water supply are given in column 13 and the storage capacity against each in kilo-litres (in bracket) are presented in column 14.

Column 15 : Fire Fighting Service

In case the fire fighting service is available in the referent town 'yes' is recorded. If the facility is not available within the town. The name of the nearest place having this facility with its distance from the referent town has been recorded.

Column 16 to 20 : Electrification (Number of connections)

Different types of electric connections have been shown in these columns, i.e. Domestic, Industrial, Commercial, Road lighting (points) & others.

Statement V : Medical, Educational, Recreational and Cultural Facilities, 1999

Column 1 to 3 : Self explanatory.

Column 4 & 5 :

The data covers all such medical institutions

run by or aided by Government/Semi Government/ Local bodies and Charitable institutions or Social agencies like the Missionaries. Where the family planning centres are attached to hospitals or maternity and child welfare centres or Primary Health Centres, may be treated as independent units and counted separately using following codes :

(i)	Hospital	H
(ii)	Dispensary	D
(iii)	Health Centre	HC
(iv)	Family Welfare Centre	FWC
(v)	T.B. Clinic	TB
(vi)	Nursing Home	NH
(vii)	Others	O

In case of more than one institutions of any type, it is indicated within brackets the number of such institution (s) e.g. D(3), NH(8), etc. The institutions have further been distinguished by providing additional codes within the bracket as given below :

Ayurvedic	A
Unani	U
Homoeopathic	Hom

Column 6 to 9 :

The codes used for these columns are as follows:

(i)	Arts only	A
(ii)	Science only	S
(iii)	Commerce only	C
(iv)	Arts & Science only	AS
(v)	Arts & Commerce only	AC
(vi)	Combined for all categories-Arts, Science and Commerce	ASC
(vii)	Law	L
(viii)	University	U
(ix)	Others	O

Column 10 : Recognized shorthand, typewriting and vocational training institutes

"Recognised" should mean recognised by some statutory authority, like education department, commerce department, labour department etc. of the Government or Semi Government or autonomous bodies, public sector undertakings etc.

The following codes are used :

(i)	Vocational Training Institute	VT
(ii)	Shorthand	SH
(iii)	Typewriting	Type
(iv)	Shorthand & Typewriting	SH Type
(v)	Others	O

The vocational institutions like - Applied Art/Painting College, Pharmacy College, B. Ed. College, Teacher's Training Institute, Music / Dance School, Nursing School etc. are covered under 'Others'.

Column 11 to 14:

Higher Secondary/Intermediate/Senior Secondary/ PUC/Junior College level, Secondary/Matriculation, Middle Schools/ Junior Secondary and Primary Schools.

School up to class V are treated as Primary or elementary schools. These include Nursery schools, Kindergarten schools, Pre-Primary schools, Junior Basic schools upto class V and Primary schools upto class IV.

Schools upto VII are considered as Middle school or Junior Secondary.

Schools upto class X are considered as Matriculation or Secondary schools.

Schools upto XI or XII classes are considered as Higher Secondary / Intermediate / Pre University / Junior College etc. This would cover 10+2 classes whether held in schools or college.

If there are composite schools like middle schools with primary classes or Secondary schools with Middle classes, these are also included in the number of Primary and Middle schools, respectively. For example, if in a town, there are two Primary Schools and one Middle school with Primary classes, the number of Primary schools in the town is given as three and that of Middle schools as one though there are only three educational institutions.

If there are more institutions of a type in the town, the number is indicated within bracket along with the abbreviation, e.g. P(4), M(3).

Column 15 : Adult literacy classes/centres

This column has been introduced keeping in view the Minimum Needs Programme of the Planning Commission. There are number of Adult Education Centres which are included in these columns.

If an educational facility is not available in the town, the name of the nearest place and its distance in kilometres from the town where the facility is available is mentioned.

Column 16 : Working Women's hostels with number of seats

The number of working women's hostel if available in the referent town is mentioned with number of seats. If the facility is not available in the town the name of nearest place with distance where the facility is available is recorded.

Column 17 to 19 : Recreational and Cultural Facilities

Stadium, Cinema, Auditorium/Drama/Community Hall are covered under recreational & cultural facilities. The particulars of permanent recreational facilities are considered for these columns.

Column 20 : Public Libraries, Reading Rooms

Number of public libraries and reading rooms available in the referent town are recorded in codes as follows :

(i) Public Library	PL
(ii) Reading room	RR

Statement VI : Trade, Commerce, Industry and Banking, 1999

Column 3 to 8 :

Name of three most important commodities exported and names of three most important commodities manufactured in the town are recorded.

Column 9 : Number of Banks

Number of Banks available in the referent town both Commercial and Co-operative banks are recorded against this column.

Column 10 & 11 :

Number of Agricultural Credit Societies and Non Agricultural Credit Societies

The total number of Agricultural Credit Societies and Non Agricultural Credit Societies in the referent town are recorded against these columns.

Statement VII : Civic and other Amenities in Slums, 1999

This is the statement on civic and other amenities in all slums whether notified or not and for all towns having statutory bodies, like municipality, Municipal Corporation, Town area committee etc.

Brief note on Primary Census Abstract

The first census of the third millennium and twenty first century the Census of India, 2001 was the 14th continuous and uninterrupted Indian census since 1872. Thus, 2001 Census will provide data on population and its characteristics marking transition from one century and millennium to another.

The gigantic operation of Population Enumeration (considered by many to be the single largest and complex peace time administrative exercise in the world) was made possible due to the door to door universal canvassing of the Household Schedule by about 2 million enumerators and supervisors covering 593 districts, 5,463 sub-districts, 5,161 towns and 638,588 villages. The comprehensive Household Schedule which replaced the individual slip had three parts and two sides A and B. Part I contained the Location Particulars; Part II related to the Individual Particulars and Part III contained questions for Household engaged in Cultivation/Plantation. The part II of the Household Schedule had 39 columns and 23 questions all of which were universally canvassed and no sampling was resorted to during enumeration.

Data Processing

A quantum leap was made in the technology front while processing the Census 2001 data both for Houselisting and Population Enumeration. The Census schedules for both the phases were scanned through high speed scanners in fifteen data centers across the country and hand-written data from the schedules were converted into digitized form through Intelligent Character Reading (ICR) software for creation of ASCII records for further processing. The designing and formatting of the Household Schedule had to be done very carefully using specialized software so as to ensure uniformity, which was an essential pre-requisite for scanning. The selection of appropriate state-of-art technology in data processing has made it possible to produce all the Houselisting as well as Population Enumeration tables on full count basis for the first time in the history of Census. For Census 2001, about 202 million schedules consisting of about 1,028 million records were scanned and processed within a span of only 10 months starting October, 2002.

Task Force on Quality Assurance

After the data is processed, it is expedient on the part of the data producing agency to satisfy itself about its quality before putting the same in public domain. This has to be done mainly through the process of internal consistency, comparison with similar data in the past and also through validation with likewise data if available, from external sources. Quite often the local knowledge and perception has to be brought into play to understand both the existing and the new emerging trends of population distribution and characteristics. The other very important aspect of the data quality is to ensure complete coverage of all geographical areas especially for the population enumeration phase where the data is disseminated right up to the village level in the rural areas and the ward level in the urban areas. Thus ensuring the complete coverage and correct geographical linkage of each enumeration block was one of the major planks of the quality control, specially for small area population statistics.

A very comprehensive check and edit mechanism was put in place to objectively examine the preliminary Census 2001 Population Enumeration results and finally clear them for use. The responsibility of the final clearance of data was with the Task Force on Quality Assurance (TFQA), headed by the Registrar General and Census Commissioner, India. The other members of the TFQA were the Heads and senior officers of the Census Division, Data Processing Division, Map Division, Demography Division and Social Studies Division. The Directors of Census Operations were co-opted as members whenever the TFQA discussed the data for their States/Union territories. The Directors and their senior officers were required to make detailed presentations of data for their own state both in respect to the quality and the coverage and only after the full possible cleared.

There has been a major departure in Census 2001 from the past in respect of the procedure followed for finalization of the Scheduled Castes and the Scheduled Tribes population. In the earlier censuses, the total Scheduled Castes and Scheduled Tribes populations were finalized at the time of the manual compilation of the Primary Census Abstracts (PCA) at the Regional Tabulation Offices which were specially set up for this purpose. The individual Scheduled Castes and the Scheduled Tribes population for each state was finalized much later based on manual coding done by the coders. In 2001 Census, each individual Scheduled Caste and the Scheduled Tribe have been coded directly on the computers by the Data Entry Operators through a process known as Computer Assisted Coding (CAC) and taken up along with the processing of PCA data. The CAC process involves pulling down, from the relevant dictionary of the Scheduled Castes and the Scheduled Tribes, on the computer screen and coding from the dictionary by referring to the image of the specific individual entry in the Household Schedule appearing on the screen. The CAC of the response on Religion wherever required, was also undertaken along with the processing of PCA. This is because the Scheduled Castes status had to be determined in relation to the religion of the individual. Two Special Task Forces, one on Religion and the other on Scheduled Castes/ Scheduled Tribes were constituted for scrutiny and appropriate classification of these responses.

The main task of the Special Task Force on Religion was to appropriately merge or group the new responses encountered and code it into the appropriate religious community based on available literature and local knowledge. The Special Task Force on Scheduled Castes and Scheduled Tribes examined the different Scheduled Castes and Scheduled Tribes entries encoun-tered and classified these into appropriate category of the Scheduled Castes or the Scheduled Tribes principally based on the Presidential Notification and the available literature. Thus a very systematic and scientific mechanism was operationalised to firm up the individual religion and the individual Scheduled Castes/Tribes returns. The Scheduled Castes and the Scheduled Tribes population in 2001 Census, is thus being finalized by aggregating the population data for individual Scheduled Castes and the Scheduled Tribes at appropriate geographical levels.

The entire work relating to the data validation and scrutiny was completed by all the States/Union Territories under the overall supervision and monitoring of the Census Division of the Office of the Registrar General, India with active cooperation and support of the Social Studies Division, Data Processing Division, Data Dissemination Division and Map Division.

Primary Census Abstract

The Primary Census Abstract which is yet another important publication of 2001 census gives basic information on Area, Total Households, Total population, Scheduled Castes, Scheduled Tribes population, Population in the age group 0-6, Literates, Main workers and Marginal workers classified by the four broad industrial categories, namely, (i) Cultivators, (ii) Agricultural labourers, (iii) Household Industry Workers, and (iv) Other workers and also Non-workers. The characteristics of the Total Population includes Scheduled Castes, Scheduled Tribes, Institutional and Houseless population and are presented by sex and rural-urban residence. This data is presented at different levels, namely, India, States/Union territories, Districts and Cities, Urban Agglomerations (Population 1,00,000 and above) in three different tables. In addition, the Appendix of said publication provides Houseless and Institutional Households and their population by residence and sex for 2001 for India, State and Union territory.

Apart from the India and State/Union Territory volumes for Primary Census Abstract, the District Census Handbook contains District Primary Census Abstract, Appendix to District Primary Census Abstract, Primary Census Abstract for Scheduled Castes, Primary Census Abstract for Scheduled Tribes, Village Primary Census Abstract and Urban Primary Census Abstract of the concerned district in the state.

It was for the first time at the 1981 Census that the Primary Census Abstract (PCA) was brought out for the Scheduled Castes and the Scheduled Tribes separately on the pattern of General Primary Census Abstract. This practice was continued in 1991 also. In the 1961 and 1971 Censuses, such data were made available in Table C-VIII-Social and Cultural table and to some extent in the series 'Special Tables for Scheduled Castes/Scheduled Tribes'.

The format of Primary Census Abstract has been restructured slightly in the 2001 Census as compared to that of 1991 Census. The nine-fold industrial classification of main workers given in the Primary Census Abstract of 1991 Census has been discontinued and its place, four-fold industrial classification of both 'main workers' and 'marginal workers' are included. In 1981 census only main workers were presented into four categories. One of the novel features of the primary census abstract of 1991 census was the presentation of data of the population of age group 0-6 is continued in 2001 Census also. This will help the data users in better analysis and understanding of this literacy data.

Level of presentation in District Census Handbooks:

The Primary Census Abstract data in different PCAs are presented at different levels. The level of presentation of Primary Census Abstracts are as under:

Name of the Primary Census Abstract	Level of presentation
1.District Primary Census Abstract	District/Mandal Parishad/UA/City/Town
2.Primary Census Abstract for Scheduled Castes	District/Mandal Parishad/Town
3.Primary Census Abstract for Scheduled Tribes	District/Mandal Parishad/Town
4.Village Primary Census Abstract	Mandal Parishad/Village wise
5.Urban Primary Census Abstract	Town/Ward level

The PCA Data for villages was presented Mandal Parishad wise for the first time in 1991 Census. This practice is continued in 2001 Census also. The data for each Mandal Parishad is presented both for rural and urban areas separately. All the villages within the Mandal Parishad constitute the rural portion and the Census Towns and Outgrowths are shown under the urban portion of the Mandal Parishad. In case a Mandal Parishad is spread over two or more districts, than portion which falls within the district is presented, the data pertaining to remaining portion of the Mandal Parishad is presented in the concerned District Census Handbook. The data in the Urban Primary Census Abstract for each town as well as for town with outgrowths in the district are presented. The data for all the wards and the outgrowths of the town(s) are also presented separately below the concerned town(s).

The District Primary Census Abstract is presented in 59 columns. The Primary Census Abstract for Scheduled Castes and Primary Census Abstract for Scheduled Tribes are presented in 52 columns. The Village Primary Census Abstract and Urban Primary Census Abstract are presented in 58 columns.

The concepts and definitions used in the column heading are explained under the sub heading 'Census Concepts' in the Analytical Note. The term 'Total Population' includes the Scheduled Castes, the Scheduled Tribes, the Institutional and the Houseless populations. The explanation regarding area figures presented at various level in the Primary Census Abstracts are as follows:

Area Figures

The area figures supplied by local revenue authorities of the district in respect of mandals, Police Stations and by the local bodies in respect of towns are given in square kilometres. The area figures of the villages supplied in acres have been converted and shown in hectares. The area figures of the Mandal Parishad is the total of the village areas coming under each Mandal Parishad. The area figures for the district are the same as adopted by the Surveyor General of India to maintain uniformity at the national level. The total area figures of all the Mandals/Mandal Parishad within the district may not tally with area figures of the district because former represents land use area only. Similarly, the total of all the villages area may not tally with the entire rural of Mandal. The difference may be due to the fact that while the area covered by hills, forests and rivers etc, have been accounted in the level the same may not be covered under the area of the villages. Apart from this it may also differ due to varying methods of computation adopted at different levels.

An appendix to District Primary Census Abstract has also been furnished showing urban enumeration block-wise particulars on Total Population, the Scheduled Castes Population and the Scheduled Tribes Population for each town.

Annexure - I
Fertility and Mortality, 1991 Census

Fertility: Fertility is a major component of population growth. In the 1991 Census, questions on Fertility related to age at marriage, number of surviving children, number of children ever born alive and children born alive during the last year were asked. The first three questions were asked to all ever married women and the last question related to currently married women. The measures of fertility worked out are based on the F-Series Tables of 1991 Census.

Annexure –I (a)

Source: *F.16 of 1991 Census and Andhra Pradesh District Profile, 1991 Census*

Age Specific Marital Fertility Rate :

It can be seen from the above table that fertility levels in the district were lower in the age group of 15-19 and 20-24 when compared to the state figures. Rural fertility, rates were higher than the urban rates in the age group 35-39, 40-44 and 45-49 in the district.

Child Mortality levels:

Information on the questions on children ever born and children surviving canvassed for all ever married women has been tabulated by the age of mother. From this, estimates of child mortality have been worked out by using Brass technique.

Annexure –I (c)
Estimates of Child Mortality, 1991 Census

Age-Group	Nalgonda District			Andhra Pradesh State		
	Persons	Males	Females	Persons	Males	Females
1	2	3	4	5	6	7
Q1	58	57	54	55	67	51
Q2	60	62	58	56	59	50
Q3	63	65	61	59	61	56
Q5	72	75	68	67	68	66

Source: *1. Table F16 Series of 1991 Census*
2. Andhra Pradesh District Profile, 1991
3. R.Gs occasional Paper number 1 of 1997

From the estimates of child mortality (No. of deaths by age 1,2,3 and 5 given above as q(1), q(2), q(3) and q(5), it is observed that the level of child mortality in the district is higher when compared to the State. A notable feature is that the lower female child mortality compared to male child mortality in the district (with minor variation) as well as the state.

Annexure - II
Various measures of Fertility and Mean Age at Marriage
1991 Census

In demography, the terminology used in computing the different fertility rates (The definitions of the terminology used in computing different fertility rates) are mentioned in the Non-Census concepts chapter i.e., Analytical note item No.VIII

The following statement shows the various measures of fertility and mean age at marriage recorded during 1991 Census in Nalgonda and other district of Andhra Pradesh State.

Sl. No.	Name of State/ District	Child Birth Rate	Total Fertility Rate	Total Marital Fertility Rate	General Fertility Rate	General Marital Fertility Rate	No. of children per ever married women in the age group 45-49	Child-Woman Ratio (0-4)	Mean age at marriage of currently married women

NA : Not available

Fertility Measures:

As per the above statement, it is noticed that the various measures of Fertility rates are high when compared to the state figures except Mean age at marriage of currently married women.

Annexure III
Percentage distribution of Migrants by place of birth/place of last residence, 1991 Census and 2001 Census

Migration

Migration is the third component of population change, the other two being mortality and fertility. A person is considered as a migrant by place of birth if the place in which he is enumerated during the census is other than the place of his birth. Similarly a person is considered as a migrant by place of last residence, if the place in which he is enumerated during the Census is other than his place of immediate last residence.

Internal and International Migration:

The migrational movements are of three types.

1. Migration within the State itself with its com ponents
   a. Migration within the District of enumeration (intra district migration)
   b. Migration from one District of the State to another District of the State (inter district migration)
2. Migration from one State to another State of the Country (inter state migration)
3. Migration from one Country to another Country

The first two streams together constitute internal migration, while the last type of movement is called international migration.

Why the people migrate?

For the first time in the Census, reasons for migration were elicited in 1981. Keeping operational constraints in view, the reasons for migration were broadly categorized as (1) Employment (2) Education (3) Marriage (4) Family movement and (5) Other reasons. Reasons for migration have been elicited only with reference to movement from place of last residence.

Impact of migration:

The growth of population of a particular place depends upon the biological variates such as mortality and fertility and migration. The knowledge of trend in migration helps in future planning of a place.

Source: *Part –VA and VB – D Series, 1991 (Vol-I)*

On the basis of above annexure, there are 194.6 lakh migrants in Andhra Pradesh State in 1991 comprising 62.5 lakh males and 132 lakh females. These migrants constitute 29.3 percent of the total population. Male migrants constitute 18.5 percent of male population while female migrants constitute 40.3 percent of female population. In Nalgonda district there are 9.0 lakh migrants comprising of 2.6 males and 6.4 lakh females.The migrants of this district constitute 31.5 percent of total population . Male and Female migrants constitute 17.6 and 46.0 percent respectively of the total population.

From the distribution of total migrants in Andhra Pradesh by place of birth, it can be clearly seen that females predominate. Similar trend is noticed in case of Nalgonda District also.

The number of migrants born in other states of India was 10.3 lakhs in 1991. It is seen that 5.3 percent of the total migrants in Andhra Pradesh were from other states. In case of Nalgonda district 0.8% of the total migrants from other states.

Source: *Migration Tables (D Series) - 2001*

The migrants by place of birth were returned 194.6 and 228.3 lakhs in Andhra Pradesh State as per the 1991 and 2001 Censuses respectively. It shows a growth rate of 17.3% total migrants over 1991 Census with a breakup of 21.8% males and 15.2% females. In Nalgonda district the migrants are 897,881 persons as per 1991 Census whereas 1,029,116 persons are in 2001 Census with a growth rate of 14.6% over 1991 census. In both the Censuses the female migrants are more than male migrants due to marriages.

In respect of inter district migrants, male migrants are forming less percentage than female migrants. In the case of intra-state migrants the males are more than females in both the Censuses. Similar is in case of International Migrants.

Rural - Urban components of Migration:

The flow of migrants would consist of four streams such as rural to rural, rural to urban, urban to rural and urban to urban. The data on the basis of these various streams in case of migrants is classified by place of birth. It presents the data only in relation to internal migrants. The data for Nalgonda district is as follows.

Of the total intrastate migrants of 184.1 lakhs, 63.9 percent have moved from rural to rural, 9.3 percent have from urban to urban, 21.0 percent from rural to urban and 5.7 percent from urban to rural. In case of Nalgonda district of the total 8.9 lakhs intra state migrants, 80.2 percent have moved from rural to rural, 3.6 percent from urban to urban, 11.6 percent from rural to urban and 4.4 percent from urban to rural.

In case of migrants from other states numbering 10.3 lakhs 33.9 percent have migrated from rural to rural, 33.4 percent from urban to urban, 21.8 percent from rural to urban and only 10.7 percent from urban to rural. In case of Nalgonda district, of the total 7,480 migrants 48.3 percent have moved from rural to rural, 16.0 percent from urban to urban, 11.8 percent from rural to urban and 23.9 percent from urban to rural.

Source: *Migration Tables (D Series) - 2001*

The above annexures show the percentage distribution of migrants by place of birth as recorded in both the Censuses of 1991 and 2001 in Andhra Pradesh state. It is observed that 3.0% increase in the migration who were born elsewhere in the district of enumeration with a sex breakup of 3.0% each, whereas in respect of the migrants who were born in other districts of the state, in other states of the country and in other countries are recorded with a difference of -2.2%, -0.8% and -0.1% respectively between two censuses of 1991 and 2001.

In respect of Nalgonda district the difference between the two Censuses can be observed with a variation of 1.9 percent in the persons born elsewhere in the district of the enumeration and the sex-wise break up differs with (-) 0.5% and 2.6% females. The less percentage is seen among males compared with 1991 due to lack of economical resourses and lack of educational facilities. Regarding the migrants from other states in India no variation is recorded.

Among the migrants that are born in the Abroad no change is noticed in the percentage variation between 1991 and 2001 censuses.

Annexure IV
Brief account of Main religions in the district/ mandal as per 1991 Census and 2001 Census

Religion :

The data on religion has been collected and presented for 6 major religions viz. Hindus, Muslims, Christians, Sikhs, Jains and Buddhists. In respect of minor religions, they have been classified and shown under the category "Others".

During 1991 Census the religion data was collected through question No.8 of the individual slips and recorded the religion as stated by the individual under six major religions. The minor religions other than these six religions, as reported by the respondent, recorded and classified under the category "Others". Distribution of main religions by mandals is shown here under. Hindus form the major religious group accounting for 93.8% of the district population. Muslims who comes next, account for 5.3% of the district total population. Next numerous religious group is Christians who form 0.9% of the district. Similar trend is noticed in the Mandals also. Among other religious groups in the district 51 were Jains, 25 Buddhists, 409 Sikhs and 8 Others. 129 persons have not reported their religion.

Annexure IV a shows the distribution of population and religion at mandal/ town level. Hindus, Muslims and Christians were found in all the mandals/ towns. But the remaining religions were very less in number and their existence was not found in many of the mandals. More than 93% of Hindus were found in this district. 5% of Muslims were found in this district stood in second place and the Christians occupy the third place with 0.9%. The same trend is noticed at mandal level also.

Source: Religion Data, Andhra Pradesh - 2001

The above table gives the details of Main Religions in the district for 2001 census whereas the previous Annexure shows the details of main religion in 1991 census. During 2001 census the religion data was collected through question number 7 of household schedule. Out of the total population of the district Hindus have returned 93.6% during 2001 census as against 93.8% in 1991 census. In respect of Muslims they have returned 5.3% in 2001 whereas their percentage during 1991 was 5.3. The next main religion in the district is Christians who returned 1% each in both the censuses. In respect of remaining main religions viz. Sikhs, Buddhists, Jains and others their strength in the district is negligible.

India- State- District differentials :

The comparative data on religion among India and Andhra Pradesh reveals that concentration of Hindus was higher followed by Muslims and Christians as per 1991 Census findings. Nalgonda district, also, followed same pattern. Hindus were returned on the higher side in the State with nearly seven percent more than the national average, while in Nalgonda district they were more over eleven percent than national and nearly four percent more than the State. They constituted 82.4%, 89.1% and 93.8% in India, Andhra Pradesh and Nalgonda district respectively. Muslims recorded as 11.7% in India, 8.9% in Andhra Pradesh and 5.3% in the district. It shows their percentage in the district is less than the percentage of India and the State. The percentage of Muslims in the State is less than the Country, while the percentage of Christians in the district is less than the State i.e.,2.3% in India 1.8% in the State and 0.9% in the district. Buddhists and Jains formed less than 1% both in the State and district, whereas Sikhs recorded 2% in the country and their population in the State as 0.03% and in the district is 0.01%.

Annexure IV (b)
Percentage distribution of population by major religions in India, Andhra Pradesh and Nalgonda district and its growth rate during 1981-1991

Sl. No.	Name of Religion	India		Andhra Pradesh		Nalgonda District	
		Percentage of Population	Percentage growth rate 1981-91	Percentage of Population	Percentage growth rate 1981-91	Percentage of Population	Percentage growth rate 1981-91
1	2	3	4	5	6	7	8
1	Hindus	82.4	22.3	89.14	24.74	93.76	25.92
2	Muslims	11.7	32.8	8.91	30.66	5.29	25.26
3	Christians	2.3	16.9	1.83	(-) 15.14	0.93	(-) 24.11
4	Sikhs	2.0	25.5	0.03	35.06	0.01	240.83
5	Buddhists	0.8	36.0	0.03	71.33	Negligible	Negligible
6	Jains	0.4	4.4	0.04	42.50	Negligible	53.98
7	Others	0.4	13.1	Negligible	201.29	Negligible	Negligible

Religion-wise growth in the State during the decade 1981-1991 shows that Hindus recorded higher growth rate than India as a whole i.e. 24.7% as against 22.3% in India. The growth rate of Hindus in the district is more than State and more than Country i.e. 25.9%. The growth rate among the Muslims is less than that of State and Country i.e. 25.3%. The Christians population has decreased in the State as well as in the district during the decade.

Inset Table to Annexure IV (b)

Percentage distribution of population by major religions in India, Andhra Pradesh and Nalgonda district and its growth rate during 1991-2001

7	Others	0.6	103.1	-	86.0	-	425.0

Source: Religion Data, Andhra Pradesh - 2001

This table gives the comparative data on religions among India, Andhra Pradesh and Nalgonda district between 1991 and 2001 census, whereas the previous Annexure furnish the comparative data on religion during 1981 and 1991. At India level among the total population returned in the 2001 census Hindus constituted 80.5% as against 82.4% in 1991. The percentage growth rate of Hindus during the decade 1991-2001 has recorded 20.3 whereas the corresponding growth rate during 1981 and 1991 was 22.3%. It clearly shows that growth rate in Hindu population is diminishing which can be attributed that the people of this religion is more conscious about family planning methods. In Andhra Pradesh the percentage of Hindus has recorded 89.0 whereas the corresponding figure during 1991 was 89.1%. However the percentage growth rate of Hindus has fallen to 14.4 from the percentage growth rate of 24.7 as recorded during the decade 1981-1991. In Nalgonda district though the percentage of population of Hindus recorded 93.6 as against 93.8 in 1991 their growth rate in 1991-2001 has fallen to 13.7% as against the growth rate of 25.9 % in 1981-1991.

In respect of Muslims, their percentage to total population has recorded 13.4 at India level as against 11.7% in 1991. In Andhra Pradesh their percentage has gone up to 9.2% from 8.9% in 1991. In respect of Nalgonda district, Muslims constituted 5.3% of total population during 2001, whereas the corresponding figure recorded in 1991 was 5.3. However in this district the growth rate in the decade 1991-2001 has declined to 13.1% as against the growth rate of 25.3% recorded in 1981-1991.

The other main religion going by numerical strength is Christians. They constituted 2.3% of total population at India level during 2001census. Their growth rate during the decade 1991-2001 is 22.6% at India level as against the growth rate of 16.9% recorded in 1981-91. In Andhra Pradesh their percentage growth rate continues to show the negative trend. The percentage growth rate of this community recorded during 1991-2001 is (-) 2.8 as against (-) 15.1 recorded during decade 1981-1991. In Nalgonda district Christians constituted 1 % each to total population In both the censuses. But the percentage growth rate of this community during 1991-2001 has recorded 22.9% as against (-) 24.1% in 1981-1991. In respect of other main communities their growth rate is negligible.

Annexure IV (c)
Distribution between Rural and Urban area of Major religions in Andhra Pradesh and Nalgonda district, 1991

Sl. No.	Name of Religion	Andhra Pradesh (in %)		Nalgonda District (in %)	
		Rural	Urban	Rural	Urban
1	Hindus	76.55	23.45	89.67	10.33
2	Muslims	41.83	58.17	62.37	37.63
3	Christians	60.48	39.52	80.67	19.33
4	Jains	4.11	95.89	58.82	41.18
5	Buddhists	80.41	19.59	48.00	52.00
6	Sikhs	10.85	89.15	24.94	75.06

Source: Part IV B (ii) of Andhra Pradesh, 1991 Census

Rural - Urban differentials :

In Andhra Pradesh and Nalgonda district, it is seen that Hindus form considerably higher in rural areas i.e., 76.6% and 89.7% respectively. Similarly Christians and Jains form higher percentage in rural areas than urban areas of the district. But Muslims and Jains form higher percentage in the urban areas of the State, while it is vise-versa in case of the district. The Sikhs and Buddhists are more in urban areas than rural areas in the district.

Inset table to Annexure IV (c)
Distribution between Rural and Urban area of Major religions in Andhra Pradesh and Nalgonda district - 2001

Sl. No.	Name of Religion	Andhra Pradesh (in %)		Nalgonda District (in %)	
		Rural	Urban	Rural	Urban
1	Hindus	76.3	23.7	88.1	11.9
2	Muslims	41.9	58.1	62.5	37.5
3	Christians	55.0	45.0	78.0	22.0
4	Jains	5.0	95.0	60.0	40.0
5	Buddhists	66.0	34.0	70.0	30.0
6	Sikhs	17.0	83.0	37.0	63.0

Source: Religion Data, Andhra Pradesh - 2001

The above table indicates the distribution of major religions between rural and urban in Andhra Pradesh and Nalgonda district during 2001 census whereas the previous Annexure has given details recorded in 1991 census. The above Annexure and inset table to Annexure shows that the distribution of religions between rural and urban at state as well as district level. In 2001 Census 88.1% Hindus lived in rural areas as against 89.7% in 1991 Census at district level. Muslims and Christians in both the Census are lived the rural with minor variations. The other religions Jains and Buddhists are lived more in rural areas with 60% and 70% respectively as against 58.8% and 48%. Whereas the Sikhs lived more in urban areas only in both the Censuses.

Regarding the percentage distribution of religious population between rural and urban areas at state level in both the Census is one and the same.

Annexure V
Marital status of population as per 1991 Census and 2001 Census

Marital status:

In Nalgonda District the total population was 2,852,092 in 1991 Census. There were 1,337,973 persons constituting 46.9% were Never Married. Among them the males percentage 52.1% was more than females (41.6%). The married persons were 1,381,170 constituting 48.4%, Widowed 121,969 persons were forming 4.3%, Widowed females percentage 7.2 more than the males (1.5%). However the percentage of Divorced and Separated persons were very low.

Married males and females in the age group of 10-14 were (10,370) constituted 0.1% and 0.3% respectively among the total population of the district which shows the child marriages were still in practice in this district. Under the same age-group i.e., 10-14 years, 30 persons each were found among males and females under widowed and divorced or separated category. Un-married persons were found in all the age groups even after 30 years of age.

Annexure V
Marital Status of Population in the district as per 1991 Census

In Nalgonda district the total population is 2,852,092 persons in 1991 Census. There were 1,337,973 persons constituting 46.9% were never married. Among the males and females 52.1% and 41.6% were never married, when compared have formed to the total males and females respectively. The married and widowed persons numbering 1,381,170 and 121,969 constituted 48.4% and 4.3% respectively. The widowed females percentage was 7.2% more than the males percentage which was 1.5%. In case of divorced or separated persons their number was very low.

Married persons under the age group of 10-14 were 10,370 constgituting 0.4%. Among them 0.1% were males and females were 0.3%. This shows that child marriages were still in practice in the district. Under the same age group i.e. 10.14 years the widowed and divorced or separated were each 60 persons resoectuvely.

Source: Socio-cultural Tables (C-Series) - 2001

The above inset table gives the details by age, sex and marital status composition of the population separately for total, rural and urban areas of the district during 2001 census, whereas the previous Annexure shows the above details for 1991 census. In 1991 while furnishing age group-wise marital status data, a separate age group 15-44 where the marital status was high has been shown. In 2001 census keeping in view of persons aged less than 18 years and persons aged less than 21 years, being high concentration of marital status, has been furnished. In the district population of 3,247,982 persons, 834,020 (25.7%) males and 638,475 (20.0%) females were recorded as never married. In the total district population, 793,108 (24.4%) males and 817,235 (25.2%) females were found married during 2001 census. It is pity to note that as against 130,091 widows 21,421 widowers were found in the district during 2001 census. The reason for high percentage of widows can be attributed to aged males marrying younger females. As against total population of 1,283,212 persons in the age group less than 18 years, 51.5% males and 46.4% females were found never married in 2001 census. In respect of married persons under the age group less than 18 years, only 0.2% males and 2.0% females were recorded in 2001 census which means public are more conscious about Marriage Act and also ill-fate of early marriages. Similar trend is noticed both at rural and urban areas even for age group less than 21 years. There is no much variation in the figures of marital status of the district between 1991 and 2001 censuses.

Annexure VI
Age , Sex and Education in the district as per 1991 Census and 2001 Census

The education table was worked out on the basis of literates in the district.

Definition of Literate : A person who can both read and write understanding in any language is to be considered as literate. If a person who can merely read but cannot write is not a literate. It is not necessary that a person who is literate should have received any formal education standard. All the children in the age of 6 years or less have been treated as illiterate even if the child is going to school and may have picked up reading and writing.

The following table gives age, sex and educagtion in the district at 1991 Census.

Annexure VI

Age, Sex And Education In The District as per, 1991 Census

80+	20,010	9,530	10,480	2,800	2,310	490	14.0	24.2	4.7
Age not stated	8,200	4,600	3,600	4,620	2,830	1,790	56.3	61.5	49.7

This table gives the distribution of total population by literacy, sex and broad age-groups. This table is useful in ascertaining the growth of literacy in the total population as well as in the different age-groups since the last Census. More literates were found in 11 years age in both the sexes. As usual males were more literates in all the age groups. The average literacy rate was 38.0% in the district.

Inset table to Annexure VI

Age, Sex And Education In The District as per, 2001 Census

Source: Socio-cultural Tables (C-Series) - 2001

The Annexure presented in the pre-page gives the details of Age, Sex and Education in the district for 1991 census whereas the above inset table reveals the data for 2001 Census. As was done in the previous Census, the children in the Age group 0-6 have been treated as illiterates even in 2001 census. It is seen from the above table that the district has recorded 57.2% literates in 2001 as against 38.0% literates in 1991. In the district the literacy rate for males has recorded 69.2% as against 44.7% in females during 2001 Census. From the above inset table it is noticed that in the school going age groups i.e 7 to 14 years, their literacy rate recorded between 69.3% and 84.3%. In all the age groups male literates are dominating females. The highest educated are found in the age group 11 years with 90.5% and their sex-wise breakup recorded 94.8% in males and 85.7% in females. It is a good trend that the essentiality of the education is felt much by the general public.

Annexure VII
Distribution of different mother tongues returned in 1991 Census at District/ Mandal level and the data at District level for 2001 Census

Mother Tongue :

Mother tongue is the language spoken in the childhood by a persons mother to the person. If mother dies in infancy, the language mainly spoken in the person's home in childhood will be treated as mother tongue. In the case of infants and deaf-mutes the language usually spoken by the mother will be the mother tongue. A very large number of mother tongues have been returned during 1991 Census. It lead to thorough scrutiny and rationalisation, which resulted in 1,576 rationalised mother tongues and 1,796 names were treated as unclassified or "others". The 1,576 rationalised mother tongues were further classified following the usual linguistic methods for rational grouping based on available linguistic information. Thus a total inventory of classified mother tongues returned by 10,000 or more speakers at the all India level were grouped under appropriate languages, where possible, was prepared for final presentation of the 1991 Census data. The total number of languages so arrived at is 114. Of which 18 languages are included in Eighth Schedule to the constitution of India(Scheduled languages).

The details of language returned in the district are given in the following Annexure with rural and urban breakup by sex in the mandals.

Sl. No.	Name of the MotherTongue / Language	Strength	Percentage to total population
1	English	12	Negligible
	i. English	12	
2	Gondi	5	Negligible
	i. Gondi	5	
3	Koya	20	Negligible
	i. Koya	20	
4	Others	5	Negligible
	i. Others	5	
	Total	**42**	
	Grand Total (part A&B)	**2,852,092**	

It is seen from the above shown statements that as many as 19 languages have been returned in Nalgonda district. Out of which 16 are Scheduled languages and 3 are non-scheduled languages. Though there are 19 languages spoken in the district, Telugu speaking people were in majority with 86.5% to total population in 1991 Census, followed by Hindi speaking people with 8.3%. The third place was occupied by the people, whose mother tongue was Urdu(4.9%). The remaining 16 languages formed one percent and below.

The Annexures on Mother Tongue exhibits separately for the total, rural and urban population of the district and the number of persons, males and females speaking a particular language as Mother Tongue. The language returned at 1991 Census are given in these Annexures in an alphabetical order.

These Annexures are very important in view of the large number of languages and dialacts spoken in the country and will be of great assistance for ensuring the implementation of the various safe guards granted to the linguistic minorities under the constitution.

N= Negligible

The above inset table gives the abstract of the languages as mother tongues and their strength in the district recorded in 2001 Census whereas the previous annexure shows the details for 1991 census. In 1991 the data was presented in alphabetical order whereas in 2001 the mother tongue data has been presented basing on their numerical strength in descending order. The mother tongues having minor returns have been clubbed together and added in the category of 'Others'. Telugu being the region's language has recorded 84.8% to total population in the district with a slight decline in the percentage recorded in 1991(86.5%). The next highest language being spoken is Hindi with 9.5% to total population of the district whereas in 1991 the percentage of Hindi speaking people recorded 8.3%. In respect of other scheduled languages it is noticed that their strength is negligible both in 1991 and 2001. In this district as many as 15 scheduled languages out of 18 recorded during 2001 Census. The scheduled languages Konkani, Manipuri and Kashmiri were not returned.
