ANDHRA PRADESH

DISTRICT CENSUS HANDBOOK

Part - A & B

NIZAMABAD

VILLAGE & TOWN DIRECTORY

VILLAGE AND TOWNWISE PRIMARY CENSUS ABSTRACT

लोकाभिमुख
PEOPLE ORIENTED

Director of Census Operations, ANDHRA PRADESH

Foreword

The District Census Handbook (DCHB) published by Census Organisation since 1951 census, is one of the important publications in the context of planning and development at gross-root level. The publication, which is brought out for each district, contains several demographic and socio-economic characteristics village-wise and town-wise of the district along with the status of availability of civic amenities, infrastructural facilities, etc.

2. The scope of the DCHB was initially confined to a few Census Tables and Primary Census Abstract (PCA) of each village and town within the district. Thereafter, at successive censuses, its scope and coverage has been enlarged. The DCHB published at the 1961 census provided a descriptive account of the district, administrative statistics, census tables and a village and town directory including PCA. The 1971 census-DCHB series was in three parts: Part-A related to village and town directory, Part-B to village and town PCA and Part-C comprised analytical report, administrative statistics, district census tables and certain analytical tables based on PCA and amenity data in respect of villages. The 1981 census DCHB was in two parts: Part-A contained village and town directory and Part-B the PCA of village and town including the SCs and STs PCA up to tahsil/ town levels. New features alongwith restructuring of the formats of village and town directory were added into it In Village Directory, all amenities except electricity were brought together and if any amenity was not available in the referent village, the distance in broad ranges from the nearest place having such an amenity, was given. Information on new items such as adult literacy centres, primary health sub-centres and community health workers in the village were provided so as to meet the requirements of some of the Revised Minimum Needs Programme. Information on approach to the village was provided for the first time in the Village Directory so as to give the details on number of inaccessible villages in each district. In the Town Directory, a statement (IV-A) on slums was introduced to provide the details on civic and other amenities in the notified slums of Class I and Class II towns.

3. The 1991 census DCHB, by and large, followed the pattern of presentation of 1981 census, except the format of PCA was restructured. Nine-fold industrial classification of main workers was given against the four-fold industrial classification presented in the 1981 census. In addition, sex-wise population in 0-6 age group was included in the PCA for the first time with a view to enable the data users to compile more realistic literacy rate as all children below 7 years of age had been treated as illiterate at the time of 1991 census. One of the important innovations in the 1991 census was the Community Development Block (CD block) level presentation of village directory and PCA data instead of the traditional tahsil/taluk/PS level presentation. It was expected that the presentation of village directory and PCA data at CD block level will help the planners in formulation of micro level development plans, CD block being lowest administrative unit.

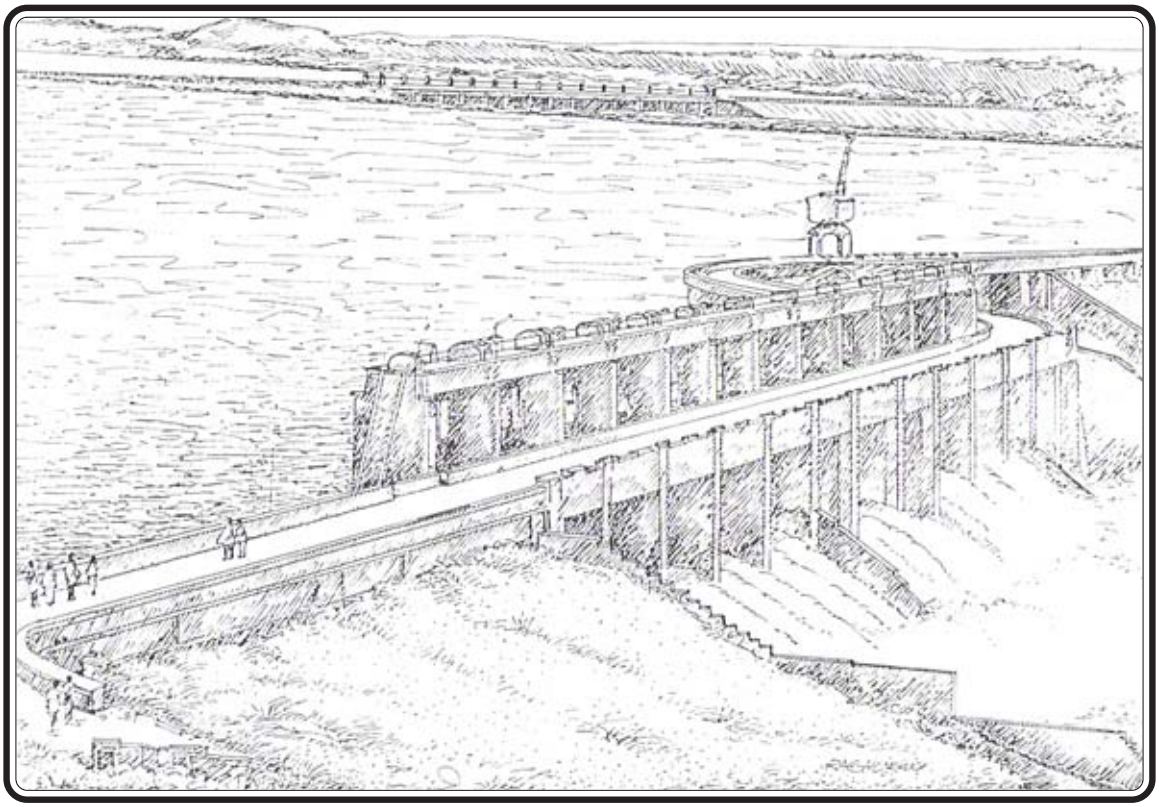

4. The present series of 2001 census DCHBs have been made more informative and exhaustive in terms of coverage and content. The Village Directory has been enlarged in scope by including a number of other facilities like banking, recreational and cultural facilities, newspapers and magazines and ‘most important commodity’ manufactured in village. Income and expenditure of gram panchayat, wherever possible, has been provided. Apart from these, more details on distance(s) at which basic amenities are available (if not available in the village), are given. This includes educational facilities (namely primary and middle schools and college), medical facilities (viz. Allopathic Hospital, Maternity & Child Welfare Centre and Primary Health Centre), drinking water, post & telegraph (post office and phone), communication, bank, credit societies and recreational

facilities. In Town Directory, the statement on Slums has been modified and its coverage enlarged by including details on all slums instead of 'notified slums'. The information is given in case of all statutory towns irrespective of their class, against only Class I and Class II towns in the 1981 and 1991 censuses. The basic amenities available in the villages and towns are analysed in depth with the help of a number of cross-classified inset tables and statements. Two other significant additions in the publication are inclusion of 'motif' highlighting significant characteristic of the district and analytical notes as annexures. The analytical notes on (i) fertility and mortality and (ii) various measures of fertility and mean age at marriage are prepared based on 1991 Census. Whereas, in the notes relating to (i) percentage distribution of migrants by place of birth/place of last residence, (ii) main religions, (iii) marital status of population, (iv) age, sex and education, and (v) distribution of spectrum of mother tongue, nature and extent of changes occurred in the district in its basic socio-demographic features during the decade 1991-2001 are analysed. The eight digits permanent location code (PLCN) to all the villages and towns have been assigned keeping in view the future needs.

5. The village and town level amenity data have been collected, compiled and computerized in prescribed record structure under the supervision of Shri. V.S. Bhaskar, IAS., Director of Census Operations, Andhra Pradesh. Thereafter, efforts have been made to ensure comparability of the information with that of 1991 census data and the information brought out by the respective state governments in their annual reports and statistical handbooks for various years after 1991. The task of planning, designing and coordination of this publication was carried out by Shri R.G. Mitra, Deputy Registrar General (C&T) and Dr. I.C. Agrawal, Senior Research Officer of Social Studies Division. Dr. R.P. Singh, Deputy Registrar General (Map) provided the technical guidance in the preparation of maps. Whereas, Shri Anil Kumar Arora, Deputy Director of Data Processing Division who worked under the overall supervision of Shri Himakar, Addl. Director (EDP) helped in preparation of record structure for computerization of village and town directory data and the programme for the generation of Village Directory and Town Directory statements including analytical inset tables. The draft DCHB manuscripts received from the Census Directorates have been scrutinized in the Social Studies Division under the guidance of Shri S.L. Jain, Deputy Director and Shri R.K. Mehta, Assistant Director. I am thankful to all of them and others who have contributed to make this publication possible.

D.K.Sikri
Registrar General &
Census Commissioner, India.

New Delhi

Nizamsagar Project

The "Nizamsagar Project" has been chosen as Motif for Nizamabad Handbook. This is an important project constructed in the year 1931 across Manjeera river, a tributary to river Godavari, at Achampet village of Nizamsagar Mandal. The height of the Dam above the river bed is 115.50ft. The gross capacity of the reservoir is 29.50 TMC and the live capacity is 25.60 TMC with an utilization of 58.00 TMC. The cultivable command area under this project is 1,10,000 hectares(2.75 lakh acres) and the area localised is 92,400 hectares (2.31 lakh acres). This project is rendering 326 villages green in 17 mandals of Nizamabad district.

In the year 1976 the Government of Andhra Pradesh have taken up several schemes as a part of remodeling the Nizamsagar project for stabilizing the ayacut and improving the distribution system. This project is an important irrigation project in Telangana area of Andhra Pradesh.

Preface

The District Census Hand Book (DCHB) containing Primary Census Abstract and data on "amenities" for each village and town in the district. The intention of this publication is to place the data collected at the Census alongwith the village and town level amenities data collected from the Mandal Revenue Officers/ Municipal officials in this publication. The amenities data is validated by comparing with secondary data obtained from Heads of the Departments. For example, information on schools was compared with data available with Commissioner, School Education and information on post offices was compared with data obtained from the Chief Post Master General and so on. Validation of data in the above manner was by no means an easy exercise. Scores of officials had put in gruelling efforts for months together. The entire data and manuscripts were computerized. We are now reasonably confident of the correctness of the data but we will not make any utopian claims of cent per cent accuracy. There may be errors but we will be safe in saying that they are minimal.

The District Census Hand Book is divided into the following major components.

1. Introduction.
2. Brief history of the district.
3. Census and non-Census concepts.
4. A detailed write up on the physical features, major cultural and social events, major developments during the decade, places of religious and historic importance etc.
5. Primary Census Abstract (PCA) at the district level, mandal/town level and village level.
6. Brief analysis of PCA data.
7. Village Directory and Town Directory.
8. Brief analysis on Village Directory and Town Directories.

It will not be out of place to mention here that there is perhaps no other publication from any agency that encapsulates so much data on a district. The amenities data includes information on sectors such as Education, Health, Water and Electricity supply, Communication and Transport facilities etc. The idea of presenting amenities data juxtaposed to the Census data is not only unique but also tremendously useful for the data users.

The District Census Hand Book is further enriched with a district map and mandal maps depicting villages/towns with population size and also amenities such as Educational Institutions, Hospitals, Telegraph and Telephone facilities, Banks, Police Station etc.

Some improvement over earlier DCHB have been made to bring more completeness to the data presented in this volume.

1. The names of Colleges, Girls' High Schools, Hospitals run by Government and others have been given as an additional information. Similarly the names of Cinema Halls have been given.
2. Ranking of Mandals according to population is also given.

3. More Appendices and Annexures to important statements are given to make the data more comprehensive.

In the previous Censuses, the manuscripts prepared by this department were supplied to Government of Andhra Pradesh who in turn brought out the publications at their cost. However due to the procedural rigmorale some delay was unavoidable in placing the DCHBs before the data users and planners.

This time, keeping in view the above difficulties, the printing and publication of District Census Hand Books has been taken up centrally under the arrangement of the office of the Registrar General and Census Commissioner, India, New Delhi. The processing of data and preparation of Camera Ready Copies electronically including finalisation of write up was attended to in the office of the Director of Census Operations.

I am grateful to the Chief Secretaries, Principal Secretaries, Secretaries, District Collectors, Municipal Commissioners and other senior officials of the Government of Andhra Pradesh for their co-operation and assistance throughout the Census Operations and in the process of collection of the non-Censal data.

I am extremely grateful to Sri D.K.Sikri, IAS, Registrar General and Census Commissioner, India for the help, guidance and constant support in finalising this volume. My sincere thanks to Sri R.P. Singh, Deputy Registrar General (Map) and Dr.I.C. Agrawal, Assistant Registrar General (SS). Sri. S.L. Jain, Deputy Director for giving guidence, help and co-ordinating this project work and their colleagues in the office of the Registrar General, India.

I also take this opportunity to acknowledge the valuable contribution made for this publication by Sri.J.K.Banthia, Ex-Registrar General, India.

Most of the work relating to DCHB has been carried out under the able guidance and direction of Sri V.S.Bhaskar, IAS, Director of Census Operations, Andhra Pradesh, Hyderabad. I take this opportunity to acknowledge his valuable contribution made for this publication.

The credit for preparation of District Census Handbooks goes to a team of devoted officers and staff of this Directorate who have involved in this project. The names of individuals associated with this project are shown in “Acknowledgements”. I am grateful to all of them.

I hope that the data users will find this publication very useful.

District Highlights - 2001 Census

1. Nizamabad District stands 18th in terms of area size and ranks 22nd in terms of population in the state.
2. Nizamabad district stands 19th rank in terms of urbanization with a total Urban population 424,738 forming 18.1 percentage to the total district population.
3. The sex ratio of the district is 1,017 against 1,017 in 1991 Census showing no change in sex ratio.
4. The density of the district is 295 against 256 in 1991 Census, showing increase over the decade.
5. Armur village, PLC No.00182000 is most populated with a population of 40,836 and Lingampalle village, PLC No 00206300 is the least populated with a population of 8 in the district.
6. Nizamabad mandal is most populated with a population of 372,350 and Nagireddipet Mandal is the least populated with a population of 32,053 in the district.
7. Nizamabad Municipality is most populated with a population of 288,722 and Kamareddy Municipality is the least populated with a population of 64,496 in the district.
8. Out of 100 workers 57.0 are engaged in Agriculture sector, 14.3 in Household industry and 28.7 in other economic activities. Thus showing the predominance of Agriculture Sector.
9. Out of 100 Male workers in the district 57.6 are engaged in Agriculture sector.
10. Out of 100 Female workers in the district 56.2 are engaged in Agriculture sector.
11. There is decrease in the proportion of main workers of the district in the decade (47.9 percent in 1991 to 41.4 percent in 2001).
12. There is decrease in the proportion of Male main workers of the district in the decade (53.9 percent in 1991 to 47.7 percent in 2001).
13. There is decrease in the proportion of Female main workers of the district in the decade (42.0 percent in 1991 to 35.2 percent in 2001)
14. The Nizamabad district is famous for Sugar Production and Beedi rolling
15. Ranjal Mandal has the lowest number of villages (10) and the highest number of villages (42) are found in Madnoor Mandal .
16. Bodhan mandal has largest area of 9,930.5 hectares under irrigation, followed by Dichpalle mandal with 9,740.4 hectares in the district. The mandal with lowest area, 871.2 hectares under irrigation in Jukkal Mandal.
17. Manal village bearing PLC No. 00188700 has the largest area (5,370 hectares) and Mahalsapur village bearing PLC No.00209600 has the smallest area (4 hectares) among the villages of the district.
18. Female work participation rate is 44.6 that of the Males in the district is 54.4.

(i) About the District Census Handbook

District manuals compiled and published prior to 1905 by the erstwhile composite Madras Government contained not only particulars of items of more or less similar and permanent characteristics like history, religion and ethnography, but also a few statistical tables including those relating to population which became obsolete within a few years of publication. Later, the Madras Government replaced the District Manuals by another publication viz., the District Gazetteer consisting of two Volumes A and B. Volume-A contained descriptive and general tables which explains the text and Volume-B contained detailed statistics. It was decided that Volume B should be brought out periodically after each decennial census so that they contain the latest statistics. Volume-A was published for some districts between 1905 and 1927 in the Composite Madras State. The publication of Volume-A was discontinued in 1927. Volume-B was published for all the districts of the Composite Madras State between 1906 and 1915. The publication of Volume-B was also stopped after 1931 Census.

Similarly the Gazetteer volumes were also brought for some of the districts in the erstwhile Hyderabad State. The scheme of publication of revised District Gazetteers was re-started in the year 1958 by the State Governments. The State Editor, District Gazetteers, Government of Andhra Pradesh had published the Gazetteers of all the districts.

The District Census Handbook series was initiated during the 1951 Census.The idea of compiling the District Census Handbooks was pioneered by Sri R.A. Gopala Swamy, I.C.S. the then Registrar General, India and Ex-officio Census Commissioner of India, with a view to preserve the census records prepared for areas below the district level. He proposed that all the District Census Tables and Census Abstracts prepared during the process of sorting and compilation, should be bound together in a single manuscript volume and named as the District Census Handbook and suggested that the State Government should take up printing and publication at their own cost. Then onwards, the District Census Handbooks were published in each census with improved pattern with an aim to give the census and non-census data at micro level for the village and district as a whole to suit the requirements of various departments, scholars, research personnel , planners, industrialists, electoral authorities and other data users, also for efficient public administration by the state.

Pattern at 2001 Census :

The present District Census Handbook of 2001 Census, like the previous Census, is brought out for each district comprising of two Parts. Part- A Village and Town Directory with additional information on amenities viz., availability of commercial banks, recreation, credit societies etc., and land use particulars in the rural areas and Part- B Primary Census Abstract. At the out set an analytical note is given which depicts a general back ground on the district and analytical results on the statements and tables included in the volume. The volume is also provided with brief history of the district, physical aspects, census concepts, non-census concepts major characteristics with reference to economic resources and administrative set-up during the past decade with few appendixes etc..

Part A –Village and Town Directory :

Section- I, i.e. Village Directory gives non-census data on the amenities available in each village in respect of educational, medical, drinking water, power supply, post and telegraph, telephone, approach to village, banks, credit societies, receipt of newspapers and magazines, recreation and cultural facilities, nearest town and its distance, distribution of land use area, and name of the most important commodities manufactured.

If an amenity is not available in the referred village, the distance in broad ranges (kms.) from the

nearest place where the amenity is available is indicated. If the nearest place is situated in another state, name of that state is also given.

The Section-II i.e. Town Directory has been presented in seven Statements viz., Statement – I Status and Growth History, Statement-II Physical aspects and Location of towns, Statement-III Municipal Finance(receipts and expenditure,1998-99), Statement-IV Civic and other amenities, Statement-V Medical, Educational, Recreational and Cultural facilities, Statement-VI Trade, Commerce, Industry and Banking etc., Statement-VII Civic and other amenities in slums and an appendix showing towns with out growths and their population. The reference period for the above statements is 1998-99 and the data is covered for all the statutorily notified towns in the district.

The non-census data at Village/Town level is collected from concerned authorities viz., Mandal Revenue Officers, Municipal Commissioners etc., and scrutinized with meticulous care and validated with the data collected from various departments to provide valid information to the data users.

Part B–Primary Census Abstract :

This data can be stated as the essence of the handbook. The latest census details such as area, total households, population, scheduled castes and scheduled tribes population, literates, workers, etc., are presented in these Abstracts.

(ii) History and Administrative Set up of the District

Brief History of the District :

The district derived its name Nizamabad from the Nizam of Hyderabad Asaf Jah VI who ruled Deccan during the 18th century A.D. Some of the major dynasties which extended their rule to the district were Mouryas, Sathavahanas, Rashtrakutas and Chalukyas during the ancient period, Kakatiyas, Bahamani Sultans, Qutub shahis and Barid Shahis during the medieval period and Mughals and Asafjahis during the modern period. Originally the district was called Indur supposed to have originated from the name of an ancient king. This king, it is said, was Indradatta of the rebel Trikutaka dynasty circa 388 A.D., who ruled over the lower region of Narmada and Tapati or the mighty Vishnukundin Indravarman 1 circa 500 A.D. It is not possible to confirm about derivation of the name, as no authentic record is available from 650 A.D. to 950A.D., Very little is known of the history of the district, but for a few inscriptions discovered by the Archaeological Department in and around the district throw some light on the history of the district during this period. In the early part of the 8th century Rashtrakutas supplanted the Chalukyas and ruled over the area for over 200 years. The name of Rashtrakuta had neither an ethnic, nor a tribal significance. Similar to Desais or Deshmukhs who were officers incharge of Desas or districts, Rashtrakutas were also officers incharge of territorial divisions called Rashtras, into which the kingdom were divided. The founder of the Rashtrakutas dynasty was Dantidurga who ruled from 735 AD to 755 AD. After the death of Dantidurga and probably in reign of Nityavarsha Indra III who ruled from 915AD to 917 AD, Bodhan was made the capital and the Emperor founded a temple in "BODANA" dedicating it to the God Indra Narayana evidently so named after himself. Indra or Indrapuri in which Bodhan was situated probably indicates the connection of Emperor Indra with this locality.

The fort of Nizamabad in which the Central Jail is now located was probably constructed by the Emperor Indra. In about 807AD Malkhed (the present city of Gulberga in Karnataka State) became the capital of the Rashtrakutas during the reign of Govinda III and continued to be so, till the extinction of this dynasty. The Sangali grant of Govinda IV and the Karda grant of Karkka II make a mention of Malkhed as the capital of these kings. It was during the reign of Karkka II (972AD-973AD) the last of the Rashtrakutas, that Malkhed was attacked by Taila II of the Chalukyan family. Karkka escaped from the battle field leaving Malkhed in the hands of Taila II. Consequently both Indur and Bodhan were annexed to the Chalukya Empire. "Jogaparaya one of the subjects of Trailokya Malladeva, a Chalukya king, noticing the ruined condition of the Bodhan temple erected a fine Vishnu Temple adorned with the lofty towers". Indur remained under the Chalukyan influence till about 1030 AD., when it was captured by the western Chalukyan Kings under the able leadership of Prola I. Delighted by the military ability and unswerving loyalty of Prola I, the Chalukyan Emperor Ahavamalla Someswara I granted him Anumakonda-Vishaya as a permanent fief. Prola I thus became the founder of the Kakatiya principality, which under his ambitious successors developed into a powerful kingdom in 1235 AD., embracing the whole of the Telangana region. Indur must have therefore been under the Kakatiyas till it came under the sway of the Muslim rulers from the North. The Muslims first made their appearance in the Deccan about the middle of the 13th century when Allauddin Khilji led his expedition against the Telangana. In 1310 AD, Malik Kafur, one of the ablest generals under Sultan Allauddin Khilji, marching towards Warangal conquered Indur and Bodhan and destroyed them.

Due to some political disturbances in the country, after the extinction of Khilji dynasty , Ghiyasuddin

Tuglaq ascended the throne and proclaimed himself as Sultan in 1320. After consolidating his authority he turned his attention to the South and in 1323 he sent an expedition against the Telangana under his son Mohammed-Bin-Tuglaq, who captured the forts of Qandhar and Indur and finally reached Warangal where he defeated and arrested king Prataparudra. Malik Maqbool was appointed as the Governor of the Telangana by Mohammed Bin Tuglaq. Thus Indur was also brought under the domain of the Tuglaqs.

In 1347, Zaferkhan, more popularly known as Hasan Gangu Bahamani, an able military officer under the Tuglaqs, declared independence and established himself as the king of the Deccan with Gulbarga as his capital under the title of Allauddin Bahamani shah. His dominion included the forts of Bodhan and Indur and on the break-up of that kingdom, these fell into the hands of the Qutub Shahis of Golconda. De Thevenot, a French traveller who visited Golconda gives a description about this district as follows. "We arrived at Indur which belongs to a Raja, who owns the Mughals no more than he thinks fit". He is maintained by the king of Golconda, and in the time of war he sides always with the strongest. He would have had us pay two rupees a wagon; but after much dispute, we paid out one, and passed on. We come before a village called Basantpuri, and being informed, that near to that place, on the top of a hill, there was a fair Pagod we alighted and went on foot to see it. From these descriptions it seems that Indur was under a Hindu Raja for some time during the Qutub Shahis of Golconda. As to who this person was and what was his name is not known.

In the year 1555 Indur was under the control of Akbar the Great, on account of the Berar province coming in possession of Prince Murad, Akbar's son, in which Nirmal, Balconda, Indur and Bodhan were included.

Aurangazeb appointed Md. Kazim as the Riasaldar of Indur fort under the supervision of Mubariz Khan, the Governor of Deccan Province. Mubariz Khan after some time was defeated by Nizam-Ul-Mulk, the Governor of Malwa, at the battle of Shakka Khera in Berar in 1724 AD. Consequently Indur and Bodhan fell into the hands of the Asif Jahi dynasty. During the time of the Prime Ministership of Sri Salar Jung I, in 1876 AD the districts in the Nizams Dominions were reorganized, where upon Indur became a district.

In 1905, the Taluks of Nirmal and Narsapur were transferred to the newly created district of Adilabad and Mudhole Taluks and a part of Banswada Taluk to Nanded district. The rest of Banswada divided into Bodhan and Yellareddy Taluks. While Bheemgal was merged in Armur Taluk. Other changes were made in Yellareddy and Kamareddy. The district in its new shape was came to known as Nizamabad. The existence of family developed megalithic culture was discovered at Armur, Yellareddy, Kamareddy erstwhile Taluks. After Independence to the country, this was in Hyderabad State. On re-organisation of States in the year 1956, this district has become part of Andhra Pradesh State.

Before 1979, there were 7 Taluks in the district and during December,1979 Armur and Kamareddy Taluks have been bifurcated and 2 New Taluks viz., Bheemgal and Domakonda were formed.

Administrative Set-Up :

a) Region of the State where the district is located :

This district is located at North-West of the State falling in Telangana region.

b) Total number of Revenue Divisions and Mandals :

In 1985, the then existing 9 Taluks were re-organised into 35 Mandals. Again in August,1988, Yedpalle Mandal was formed and brought to the total number of Mandals 36. Corresponding to the Revenue Mandals, Mandal Parishads were also formed which coterminous with Revenue Mandals, except statutory towns, which are not included in the jurisdiction of the Mandal Parishads. These 36 Mandals are organised into 3 Revenue Divisions. There is no increase in number of Revenue Divisions so also in Revenue Mandals, when compared to 1991 Census. The distribution of 36 Mandals among the 3 Revenue Divisions are hereunder shown:

Source: 1991 District Census Handbook of Nizamabad

1.Nizamabad Division : Nizamabad, Armur, Balkonda, Mortad, Kammarpalle, Bheemgal, Velpur, Jakranpalle, Makloor, Dichpalle, Dharpalle , Sirkonda, Nandipet and Navipet.

2.Bodhan Division : Ranjal, Yedpalle, Bodhan, Kotgiri, Madnoor, Jukkal, Bichkunda, Biknoor, Varni, Banswada, Pitlam and Nizamsagar.

3.Kamareddy Division : Kamareddy, Machareddy, Sadasivnagar, Gandhari, Nagareddypet, Lingampet, Tadwai, Bhiknoor, Domakonda and Yellareddy.

c) Total number of Villages/Towns :

There were 922 Villages in 1991 Census of which 6 Villages were fully included in Urban areas.Thus there were only 916 villages falling in Rural areas. Two villages viz. Armur and Banswada, which were Urban areas in 1991 Census, attained rural status during 2001 Census. Hence, the total number of villages have been accounted as 918 for 2001 Census. Arsepalle, Kanteswar and Nizamabad are still in Nizamabad Municipality. Similarly Kamareddy in Kamareddy municipality. Therefore at 2001 Census, 918 Villages are in rural areas and 4 villages in urban areas accounting for a total of 922 Villages. Thus it shows no new villages were created.

In respect of Towns, there were 6 Towns in 1991 Census, of which three are Census Towns and three are Statutory Towns. All the three Census Towns viz. Armur, Banswada and Sriramsagar have been declassified and attained rural status in 2001 Census. Hence this district has only 3 statutory Towns viz. Nizamabad, Bodhan and Kamareddy in 2001 Census. No urban agglomeration has been formed in the district.

(iii) Physical features of the District

Location and Size :

Nizamabad district lies between $18^0.5'$ and 19^0 of the Northern latitude and $77^0.40$ and $78^0.37$ of the Eastern longitude. The district is bounded on the North by Adilabad district, on the East by Karimnagar district, on the South by Medak district and on the West by Nanded district of Maharashtra State and Bidar of Karnataka State. The district headquarters is Nizamabad, it is connected by road and rail. The Geographical area of the district is 7,956 sq.kms. and has population of 2,345,685 persons as per 2001 Census. The density of Population is 295 per sq.km. Among 23 districts in the State, Nizamabad ranks 18^{th} in terms of area and 22^{nd} in terms of population. The shape of the district may be considered as un-even round circle with slight broad in length than width.

Physiography :

Nizamabad district is situated in the table land of Deccan and hills are considerable range and are quite rare. Isolated peaks and rocky clusters are occur frequently. The rocks are related to the Archean and Deccan trap formations. The Archean type occupies a very large area. A few minor hill ranges are found in the Eastern and Western parts of the district.

Irrigation Works :

The principal rivers flowing in the district are the Godavari and Manjira. Manjira is the chief tributary of the Godavari. The Godavari originates in the western ghats at Triambak near Nasik in Maharashtra State. It flows for about 113 kms. on the Northern boundary of the district separating it from Nanded and Adilabad districts and finally enters into Karimnagar district. The Manjira which is also originate in Maharashtra State rises in Potoda Taluk of Bhir district and crosses the district from South-West and joins Godavari near Kandukurthi of Ranjal Mandal. A dam has been constructed over Manjira at Achampet of Nizamsagar Mandal for irrigation purpose. Besides the above some other streams viz., Phulang, Yadalakattavagu etc., are also flow in the district. The perennial stream, Yadalakattavagu flows in the area of erstwhile Taluk of Kamareddy.

Climate and Rainfall :

Nizamabad district is situated at a considerable distance from the sea-coast, the climate is tropical. The temperature fluctuations are high in the district. Some times the temperature goes low as 5^0C during winter and rises high 47^oC.during peak summer. Normally this district receives more rain-fall compared to neighbouring districts. The year may be divided into four seasons. The cold season or winter is from November to February. The period from March to May is the summer season. May is the hottest month of the season. The rainy season commence with onset of the South-West monsoon, which lasts till the end of September. October forms the post monsoon season.

Table (a)
The Month-wise Maximum and Minimum Temperature in the district, 1999

Temperature range	Jan	Feb	March	April	May	June	July	Aug	Sep	Oct	Nov	Dec
Maximum	30.4	34.1	37.7	41.7	40.0	34.7	31.8	30.1	30.1	31.7	31.4	29.9
Minimum	13.1	18.7	21.6	25.0	27.7	25.3	24.4	23.5	23.2	21.4	16.4	13.7

As already stated the rainy season commences with onset of the South-West monsoon in the latter part of June. The rain fall in the district in general increases from the East towards the West. The average annual rain fall of the district during last five years shows that, the district has received highest rain fall during 1995-1996 followed by 1998-1999. The least average rain fall was in the year 1997-1998. The normal rain fall of the district is 1,089mm.

Table(b)
Average rain fall,1995-2000

Year	Average Annual rain fall (in mm.)
1995-1996	1,304
1996-1997	930
1997-1998	818
1998-1999	1,160
1999-2000	969

Table(c)
Monsoon-wise rain fall during 1999-2000

Season	**Rain fall (in mm)**
1. South West monsoon	
June to September	866
2. North East monsoon	
October to December	59
3. Winter period	
January to February	4
4. Hot weather period	
March to May	40
Total	**969**
Normal Rain Fall	**1,089**

Source: District Census Handbook of 1991 Census Statistical Abstract, Andhra Pradesh,2000,

The total rain fall in the district was 969mm during the year 1999-2000, which is below the normal rain fall 1089mm. During the South-West monsoon season the district received 866 mm rain fall, while North East monsoon was very weak. Generally July is the rainiest month.

In Nizamabad district, paddy and sugar cane are predominantly grown in the ayacut of Nizamsagar, Pocharam, Sriramsagar and Ramadugu projects and also grown in the other areas of the district under wells and tanks. Dry crops like maize, jowar and pulses, green grams, black grams and red grams are also grown in non-commercial areas in the district. Turmeric is also an important crop in the district and is grown in mostly in Armur and Bheemgal mandals.

As soon as the monsoon arrives, the farmers begin their activities in the agricultural fields such as ploughing, sowing etc., in the district. During the months of May-June, seed beds for paddy crops are arranged, then its harvesting comes during November-December. Other commercial crops are planted and harvested according their season.

Soils :

The important soils are black soils and chalka(sandy loams) constitute 55 percent and 45 percent of total area of the district respectively. The erstwhile taluks of Bodhan, Madnoor and Banswada are predominantly covered by black soil and the remaining mandals are covered by chalka soil.

Flora and Fauna :

Jungles and forests like sponge retain the moisture in the soil and also help to render the climate more equitable. The forests and jungles fall under the category of southern tropical dry deciduous type. A considerable area of the district is covered by these forests and jungles. The thick forest belt produces teak, ebony, black wood, nallamaddi, yippa, bijasali and tarwar. The teak forests, for which the district was once famous, have been considerably reduced due to the indiscriminate and un-scientific exploitation. The forest produce which includes timber fuel, bamboo and beedi leaves yield good revenue. Mangoes and custard apples grow well in this district.

The total forest area in the district comes to 169,341 hectares forming 21% of the total geographical area of the district. Presently Eucalyptus and other plantations are being raised in large extents with a view to develop the forest. This district comprises two forest divisions viz. Nizamabad and Kamareddy.

The Forest revenue collected during the period 1997-1998 product-wise is shown in the following table:

Table(d)

Product-wise Forest Revenue, 1997-98

Sl. No.	Revenue under item	Amount in rupees
1	Timber	24,86,652
2	Beedi leaves	19,669
3	Miscellaneous	8,79,681
	Total	**33,86,002**

Tigers, Panthers, Jungle Cats, Wild Sheep, Blue Bulls, Black Bulls, Sambar, Spotted Deer, Wild Boar, Common Deer, Rabbits, Hares, Squirrels, Porcupines etc., are some of the common animals found in the district. Birds like Ducks, Teals, Jungle Fowls, Peacocks, Partridges,, Pigeons etc., are also seen in the forests. But the fauna, like the flora, is under danger and unless urgent conservation measures taken, this once beautiful district would become barren.

Cropping Pattern :

The different land use particulars of the district for the year 1999-2000 are shown in the following table:

Table(e)

Land use particulars, 1999-2000

Sl.No.	Category	Area in Hectares
1	Forest	169,341
2	Barren and Uncultivable	65,574
3	Land put to Non-agricultural use	74,751
4	Cultivable waste	15,373
5	Permanent pastures and other Grazing lands	26,145
6	Miscellaneous trees, crops and groves not included in the net area sown	3,044
7	Current fallows	134,006
8	Other fallow land	58,471
9	Net area sown	259,510
	Total Geographical area	**806,215**

Source: *Chief Planning Officer, Nizamabad.*

1. The district geographical areas are supplied by Surveyor General, India.

2. The total area figures supplied by Directorate of Economics and Statistics.

As already stated, the major crops raised in the district are Paddy, Sugar cane, Maize, Jowar, Green grams, Black grams, Red grams, Turmeric etc. The following statement shows the area under principal crops, out turns and yields for the year 1999-2000.

Table(f)

Area under principal crop during the year 1999-2000

Sl. No.	Name of the Crop	Area (in Hectares)	Out turn (in Tonnes)	Yield Per Hectare in Kgs.

Irrigation :

Net area of 259,510 hectares was sown in the district as of 1999-2000. Of which 169,805 hectares were irrigated. 115,944 hectares irrigated more than once. The area irrigated by source is given below.

Table(h)
Area irrigated by source 1999-2000

Sl.No.	Irrigated by source	Area (in hectares)
1	Canals	24,746
2	Tanks	23,938
3	Tubewells	107,503
4	Other wells	9,972

Source: Statistical Abstract, Andhra Pradesh,2000, Directorate of Economics& Statistics.

To carry-out the agricultural activities, the following agricultural machinery and implements are being used in the district.

Table(k)

Agricultural Machinery and Implements, 1999-2000

S.No.	Name of the Implement	Number
1	Wooden Plough	100,561
2	Iron Plough	
	i) Soil Stirring	1,597
	ii) Soil Turning	4,789
3	Irrigation Purpose	
	i) Diesel Engine	817
	ii) Electric Pumps	40,828
4	Tractors	1,281
5	Sugar Cane Crushers	
	1.Worked by Power	2,767
	2.Worked by Bullocks	1,249

Natural wealth :

The forest is only the natural wealth in the district. This occupies 21% of total geographical area of the district. The forest wealth consists of teak, ebony, black wood, nallamaddi, ippa, bijasali and tarwar. Beedi leaves collected from the forest plays an important role in the beedi manufacturing industry of the district. Most of the households in the district are depend on beedi industry. The emphasis on forest development has been essential to be hold the forest as a National Resources with a stress on augmenting the revenue by raising commercial plantations.

Mineral Resources :

The district is not rich in minerals. Iron ore of poor quality occurs at few places. Other few economic minerals known are building stones, clay, semi- precious stones, sand, aluminous boles containing 24% to 35% aluminia are reported from Gurjakunta of Bhiknoor mandal and Kardpalle in Tadwai mandal. White Calcareous Kaolinised earth is found near Tippapur, Bhiknoor and Kupriyal. Granites of various quartzs and Deccan trap rocks yield excellent material for buildings and decorative works.

The following table shows the production and despatch of few minerals for the year 1995-1996.

Table(l)

Production and despatch of Minerals, 1995-96

S.No.	Name of the Mineral	Production	Despatch
1	Pink Granite	106.722 M^3	106.722 M^3
2	Road Metal	--	1100M^3
3	Ordinary Sand	--	8625 M^3

Animal Husbandry :

The distribution of live stock and poultry population among various animals as per 1999 live-stock Census is shown in the following table:

Table(m)

Live stock particulars, 1999

Sl.No.	Live stock	Total Number
1	Cattle	3,56,875
2	Buffaloes	2,67,846
3	Sheep	2,25,450
4	Goats	1,80,522
5	Horses and Ponies	87
6	Pigs	17,315
7	Camel	44
8	Other live stock	2,876
9	Dogs	36,075
10	Poultry	8,48,626

Source: Statistical Abstract, Andhra Pradesh,2000,Directorate of Economics & Statistics.

The following veterinary institutions are functioning in the district to protect the livestock against various categories of infectious diseases (1999-2000):

Table(n)

Number of Veterinary Institutions and technical persons, 1999-2000

Sl.No.	Name of the Veterinary Institution	Number
1	Veterinary polyclinic	1
2	Veterinary hospital	10
3	Live stock supervisory units	53
4	Rural live stock units	66

Number of technical persons working in the above institution , 1999-2000

1	Deputy Director	2
2	Assistant Director	16
3	Veterinary Assistant Surgeon	55
4	Para Veterinary staff	119

The district has 105 Artificial Insemination Centres. The veterinary services rendered during 1999-2000 are as follows:

Table(o)
Number of Veterinary services rendered, 1999-2000

Sl.No.	Particulars	1999-2000 (in lakhs)
1	Artificial Inseminations	21.79
2	Calves Born	0.06
3	Cases Treated	13.25
4	Castrations	0.29
5	Vaccinations	17.16
6	Area brought under Fodder Development (acres)	12,848

The department is also taking cultivation of improved nutrition fodder crops. It is also implementing various weaker sections programmes such as supply of milk animals, breeding rams, poultry units and increasing the production of meat, milk and egg thereby improving the economic status of farmers.

District Rural Development Agency, Nizamabad has sanctioned 200 Nellore breeding ranks to the members of 40 Primary Sheep Breeding Co-operative Societies at the rate of 5 rams per each society on 50% subsidiary basis.

Under central assistance scheme by the Central Wool Development Board, Jodhpur, an amount of Rs.10.00 lakhs is sanctioned for sheep and wool development in Kamareddy and Bhiknoor mandals for 50,000 sheep population of these two mandals. The details of the scheme are as follows:

Table(p)
Particulars of budget under various schemes

Sl.No.	Name of Scheme	Budget (in Rs.)
1	Health Coverage	4.00 Lakh
2	Breeding Rams supply (250 Deccan rams)	3.75 Lakhs
3	Product Development	2.25 Lakhs
4	Marketing Assistance	0.50 Lakhs
5	Training of Shepherds	0.50 Lakhs
	Total Budget	**11.00 Lakhs**

Implementation of the above scheme is under progress. Under training scheme programme 71 candidates (Voluntary veterinary workers) sponsored by the District Rural Development Agency, Nizamabad and S.C.Corporation have under gone training in Artificial Insemination and Veterinary First Aid at Veterinary Poly Clinic, Nizamabad. Out of 71 candidates 6 candidates have been rehabilitated and they are doing artificial insemination . At present 9 candidates are under going training at Veterinary Poly Clinic, Nizamabad.

Free veterinary health camps are being conducted at various gram panchayats and major habitations and treating Livestock and village poultry against various diseases. Vaccination and calf deworming are on free of cost on priority.

Fisheries :

Since this district is located far away from sea, only inland fishing is available in the district. The district has vast potentiality for inland lacustrine and river fishery. The majority of fishermen are part-time professionals depending on fishing during summer months. The fishermen residing in the villages surrounding of Sriramsagar and Nizamsagar projects are engaged in fishing for full time.

An extent of 9.80 hectares of agricultural land has been converted into fish tanks/ponds upto 1998-1999. The fishing tackle available in the district for the same period is as follows:

Table(q)
Number of fishing tackles available, 1998-99

Sl.No.	Name of Tackle	Number
1	Dragnet	6,681
2	Gil nets	1,644
3	Trowl nets	1,142
4	Cast nets	11,174
5	Others	2,221
	Total	**22,862**

The district has the following fishery potentiality:

Tanks/Water source:

Table(r)
Particulars of water sources for fishing

Sl.No.	Type of Water source	Department Number	Water spread area in hectares	Grampanchyat Number	Water spread area in hectares
1	Perennial	56	3,291.00	216	10,168.00

614 and 572 licences were issued for fishing in Sriramsagar and Nizamsagar respectively during the year 1999-2000 and an amount of Rs.92,640/- and Rs.81,980/- have been realised. Out of 414 tanks, 406 were leased out for Rs.8,41,775/- during the year 1999-2000. Similarly, an amount of Rs.26,000/- was realised for leasing-out reservoirs.

Table(v)
Fish Production in Tonnes during the year 1995-1996

Sl.No.	Name of the Species	Production (in Tonnes)
1	Barbus	—
2	Carps	12,044
3	Cat Fish	2,015
4	Murrel	268
5	Miscellaneous	743
	Total	**15,070**

For welfare of the fishermen, the Government had sanctioned 600 houses during the year 1998-1999 in the district. Due to various reasons all the sanctioned houses are not constructed in the year. Out of 600 houses 516 were constructed and the remaining 84 houses are under construction. The Group Insurance Accident Scheme is also introduced for their welfare. An amount of Rs.7,95,000/- was paid as exgratia in 29 cases from the said Scheme during the year under reference.

Industry :

There are 9 Large and Medium scale industries in the district. In addition to this, 670 small scale industries and 813 factories were registered under Factories Act,1948 during the year 1995-1996.

(i) Large and Medium scale industries:

The Government of India has issued letters of intent to the following 9 existing and 11 proposed large and medium scale industries.

Table(w)
Existing Large and Medium Scale Industries

Sl.No.	Name of the Unit	Product	Capacity	Investment (Rs.in lakhs)	Employment
1	Nizam Sugar Factory, Bodhan	Sugar	3,500 TCD	2291	1600
2	Nizamabad Co-operative Sugar Factory, Sarangapur	Sugar	1,000 TCD	649.18	491
3	Sukhjit Starch Mills, Mubaraknagar.	Glucose	7,500 MT

10	Mfg. Metal Products and parts except Machinery and Transport Equipment	6	270	--
11	Mfg. Machinery, Machine Tools and parts except Electric machinery.	2	120	--
12	Mfg. of Electric machinery Apparatus appliance and Supplied and parts	1	50	--
13	Mfg. of Medical, Surgical, Scientific and Measuring Equipment except optical Equipment	1	20	--
14	Repair & Maintenance, other than Mfg. of Machinery and equipment which are generally used as investment goods by industry.	4	83	--
15	Electricity	2	130	--
16	Repair services	8	990	--
17	Services not else where classified	2	70	--
	Total	**813**	**20,332**	**1,450**

Besides the above there are 130 trading and 480 non-trading rice mills with an installed capacity of 13,776 Quintals and 20,445 Quintals per day respectively existed during the year 1995-1996. So also 3 types of Household Industries as stated below were existed in the year 1995-1996.

Table(ab)
Particulars of Household Industries, 1995-96

Sl.No.	Type of Industry	No. of persons employed	Average daily earning (Rs.)
1	Confectionary	23	30
2	Papad and Vadiyam	8	32
3	Pickles	11	25

Electricity :

Nizamsagar and Pochampad Hydro-Electric power generation units are the main source of electricity in the district. The installed capacity of these two units are 10 M.W. and 27 M.W. respectively. During 1999-2000, Nizamsagar has generated 16.74 Million K.W.H, while Pochampad has generated 117.25 Million K.W.H.

All the villages in the district have been electrified. The length of different transmission lines in the district as on 31-3-1996 is shown in the following format.

Table(ac)
Length of different transmission lines as on 31.3.1999

Sl.No.	Category	Total Length (in kms.)
1	L.T. 430 Lines	18,177.65
2	11 KV Lines	5,479.14
3	33 KV Lines	1,244.45
4	132 KV Lines	425.83
5	220 KV Lines	147.34

The particulars of power consumption, number of services and connected load under various categories in the district during the year 1998-99 are furnished below:

Table(ad)
Category-wise power consumption during the year 1998-99

Sl.No.	Category	Power Consumption		No. of services and connected load as on 31.3.1999			
				Low Tension		High Tension	
		Low Tension (in Million KWH)	High Tension (in Million KWH)	No. of Connections	Connected load (KW)	No. of Connections	Connected load (KW)

11	Colony Lighting	--	1.61	--	--	2	216

Transportation :

The importance of transportation has been increased many folds in the district. The main transportation channels in the district are Road and Rail. Seeing the increased role of transport for both general public and goods, the Government and Private

Organisations have increased their activities by introducing more number of transport vehicles in the district.

A railway line linking Hyderabad with Manmad is passing through the district. Besides this, another railway line between Nizamabad and Bodhan is also existing in the district. The railway line between Nizamabad and Bodhan has been converted into broad –guage and the guage conversion between Bolaram, (a suburban railway station of Hyderabad) and Nizamabad is under progress. At present one express train and 3 ordinary trains are running between Secunderabad and Nizamabad. Laying of new railway line between Nizamabad and Peddapalle (Karimnagar district) has been proposed and this work is in preliminary stage. The National Highway No.7 with a length of 169 Kms. passes through the district.

Apart from this, there is also a State Highway from Hyderabad to Nanded in Maharashtra which passes through Nizamsagar, Pitlam, Bichkunda and Madnoor mandals of the district. Besides this, the district is having 1969 Kms., road under the supervision of PWD (R&B) and 2847 Kms., under the supervision of Panchayat Raj Department. The Number of different motor vehicles that are plying in the district as on 31.3.2000 are furnished below.

Table(ae)
Particulars of different types of Motor Vehicles, 1999-2000

Sl.No.	Name and category of vehicle	On Roll	On Road
1	Stage Carriage:		
	i. APSRTC	534	525
	ii. Private	36	26

14	Road Rollers	6	6
15	Others	15	15

Source : Statistical Abstract, A.P., 2001

(iv) Major Social and Cultural events, natural and administrative developments and significant activities during the decade

No worth mentioning major social and cultural events has occurred in the district during the decade 1991-2001. The natural calamity viz. drought was prevailed in the district as was in the remaining parts of the State. As regards administrative developments, no new mandals or villages were created except three Census towns viz. Armur, Sreeramsagar Project and Banswada have degraded to rural status due to strict application of demographical criteria. A significant activity i.e. convertion of Railway metre guage lines into broad guage between Nizamabad – Bodhan and Nizamabad – Mudhole has taken place. This has facilitated the commuters of Nizamabad to travel directly upto Mumbai.

(v) Brief description of places of religious, historical or archaeological importance in villages and places of tourist interest in the towns of the district

There are many tourist and religious places in the district. Details of such places are given in the following statement:

Places of Religious and Historical importance

Sl.No.	Name of the Mandal	Name of the Village / Town	Name of the Monuments/Temples/Mutts
1	Nizamsagar	Achampet	Nizamsagar project is constructed at Achampet on the river Manjeera a major tributary to Godavari. Beautiful flower gardens are grown on both the sides of Dam. It is a picnic spot and an important tourist centre.
2	Balkonda	Pochampad	Pochampad project which is known as Sreeramsagar Project constructed on the river Godavari. This place is of tourist interest.
3	Nagareddipet	Pocharam	Pocharam Reservoir is constructed on the river Aler. The dam site is considered to be beautiful picnic spot attracting many visitors.
4	Nizamabad	1.Alisagar	Alisagar reservoir is situated at a distance of 13 kms.from Nizamabad. It is the main drinking water source for Nizamabad. A beautiful garden is raised here, which attracts visitors as a picnic spot.
		2. Nizamabad	A fort was developed on a original temple of Ram Mandir constructed by Raghunath Das. He has also constructed a big tank which served as main water source for Nizamabad town in those days.
		3. Sarangapur	There is a huge Hanuman Temple at Sarangapur which is another holy shrine in the district. It is said that Saint Samartha Ramadas, the preceptor of Chatrapati Sivaji, has founded this temple.
		4. Madhava Nagar	Shri Sai baba temple, which attracts large number of Sai Devotees of Nizamabad town and from surrounding villages.

Places of Religious and Historical importance (Concld.)

Sl.No.	Name of the Mandal	Name of the Village / Town	Name of the Monuments/Temples/Mutts
5	Bheemgal	Limbadri	This temple is 4 kms. from Bheemgal. Sri Narasimha Swamy is the main diety.
6	Armur	Armur	The shrine of Venkateswara Swamy. Every Year as a custom, the Pujari collects offering of cash and kind made by the devotees in the temple and handover them along with a flag to the Tirumala Tirupati Devasthanams.
7	Varni	Badapahad	There is jatara spot where a huge gathering of both Hindus and Muslims pay their homage to Dargah Hazarat syed Sadullah Hussaini.
8	Bichkunda	Bichkunda	The Famous Basawa Lingappaswamy Jatara takes place on Sivaratri. Attracts several devotees from the State and near by Maharashtra State.
9	Dichpalle	Dichpalle	Sree Rama temple built on a flat hillock with a large square tank in front. It is enclosed by a strong masonry wall and has exquisite carvings and circular columns in Dravidian style.
10	Bodhan	Bodhan	1.Sri Rama Temple 2.Narasimhaswamy Temple 3.Gopala Krishna Temple 4. Bhavani Temple 5. Jamme Masjid 6. Darga of Syed Jalal Bukari 7. Eka Chakreswara Temple.
11	Bhiknoor	Bhiknoor	Sidda Rameswaralayam is located at a distance of 2 kms. from Bhiknoor. It is learnt that the temple was constructed by two saints Sri Siddagiri and Sriramagiri 400 years ago. It is believed that if bath is taken two times in a day with the water drawn from the well located in the temple will be relieved of all his/her ailments. If the lord is worshipped after taking bath with the water of well, his/her desires will be fulfilled.

(vi) Major characteristics of the district, contribution of the district in the form of any historical figures associated with the district

Nizamabad district is one of the agriculturally developed district in the economically backward Telangana region of Andhra Pradesh. Beedi rolling is an important household industry in the major part of the district. The sugarcane plantation is one of the major crops of the district. In view of this, a sugar factory known as "Nizam sugar factory" was established in 1938 under private management and later it has been taken over by the state Government. This industry plays an important role in the economy of Nizamabad district. In order to improve the irrigation facilities in the district, several projects viz., Nizamsagar, Sree ram sagar, Pocharam, Ramadugu and Nallavagu were constructed in the district.

As already stated, beedi rolling which is a well known household industry in the district, also plays an important role to provide economic activity among women. Forestry which is covering about 22% in the geographical area of the district is also contributing for the district economy.

This district is not endowed much by natural scenery and some of the historical and religious aspects are in the fore front. Here we find a fort which speaks about the rajas who ruled the area some of the temples viz., Sri Narasimhaswamy temple at Bheemgal, Sree Rama temple at Dichpalle, Sidda Rameswara temple at Bhiknoor and Baswa Lingappaswamy Jatara at Bichkunda attracts innumerable devotees from the state as well as near by area of Maharashtra state.

Telugu is the local language. Marathi and Kannada languages are also spoken effectively at the places which are adjacent to Karnataka and Maharashtra. However, Urdu language is also locally spoken as a sizable Muslim community is harmoniously living in many parts of the district. The important festivals like Dasara, Deepavali, Ganesh Chathurthi, Sankranthi etc., are celebrated in the district. During these festivals, people of the district living in the other parts of the state visit their native places to celebrate those festivals.

This district has contributed many freedom fighters and social workers for the nation. People of this district fought bravely with Razakars, who were armed with weapons and enjoyed the implicit support of Nizam's government, and finally this district along with other districts of Telangana merged with the Indian Union. The leaders of this district involved in the "Quit India Movement" launched by the Indian National Congress under the leadership of Mahatma Gandhiji along with the rest of Telangana.

(vii) Census Concepts

Population census is a great national task, which we are called upon to undertake for every ten years. In India, the 1872 marked as the beginning of modern census taking, when it was conducted at different points of time in different parts of the country. From 1881 onwards a complete and synchronous census was held. The present Census is a land mark administrative event, as this has generated a historic bench mark data to shed light on the state of nation's society and other demographic, economic and socio-cultural data which simultaneously makes transition from one century and millennium to the next. The 2001 Census was the 14th decennial Census of India and the 6th after independence.

The Census of India was conducted in two phases namely, I) House-listing Operations II) Population Enumeration. The first phase was conducted during April-June,2000 in different States/Union territories depending upon their local conditions. In Andhra Pradesh it was conducted from 11th May to 5th June 2000. The house-listing operations provide a base for the population enumeration, besides providing comprehensive database for assessing condition of human settlements, the housing deficit and future housing requirement for formulation of housing policies. This also provides a massive data on amenities available to the households which was much needed by various departments of the Central and State Governments and other Non-Governmental agencies, for planning and development in different sectors of the economy. Hence house-listing operation is a pre-requisite for population enumeration.

Unlike 1991 census, there are significant changes in house-listing schedule for 2001 census. The questions on condition of the census house, number of married couples living in the household and having independent room for sleeping, bathroom and kitchen within the house and using the means of entertainment and communication facility of radio, transistor, television, telephone and possessing of means of transport like bicycle, scooter/motor cycle, car/jeep/ van and availing of banking services by the household are added to the present house-list schedule.

The main population enumeration was conducted from 9th February to 28th February, 2001, followed by revisional round from 1st March, 2001 to 5th March, 2001, to update the data with reference to 00.00 hours of 1st March, 2001. The houseless population was enumerated at midnight of 28th February 2001.

The household schedule and individual slip of 1991 census were replaced by household schedule of A3 size containing three parts to collect the information from each household at 2001 Census. In the present Census, the house-hold schedule is designed in such a way to suit the requirement of capturing the data through scanners. At the 2001 Census, for the first time **Image-based data capturing technology through scanners and computer network has been introduced** with a view to provide error free data by avoiding keying in of data.

The house-hold schedule broadly covered the individual particulars under four major headings 1) General and Socio cultural characteristics (Q(1 to 15), 2) Characteristics of workers and non-workers 3) Migration characteristics (Q.21 to 22)and 4) Fertility particulars (Q.23). Part-I deals with location code particulars, Part-II relates to Individual particulars with 23 questions, consisting of 1 to 39 columns, Part-III covers on cultivation/plantation particulars like land possessed, type of tenancy enjoyed by the household/ household member. Some additional questions 1) on disability, 2) Particulars relating to travel to the place of work a) distance from residence to place of work, b) mode of travel to the place of work, 3) household engaged in cultivation/plantations are added in the present household schedule.

Marital status, mother tongue, religion and literacy status (for 7 and above) migration, fertility particulars

and the identification of SC/ST are repeated but the age at marriage is also ascertained for males at 2001 Census. For the people, who are attending educational institutions, a separate code has been provided to record the Vocational institute, other institute and literacy centre in addition to school/college.

Criteria for enumeration of persons in a particular household:

a) All those who normally reside and are present in that household during the entire period of enumeration from 9th February to 28th February, 2001, b) also those who are known to be normally residing and had actually stayed during a part of the enumeration period (Feb.9th to 28th Feb.2001) in the household but are not present at the time of enumerator's visit, c) also those who were known to be normally residing and are not present at the time of enumerators visit but are expected to return before 28th Feburary,2001 and d) Visitors who are present in the household censused and are away from the place of their usual residence during the entire enumeration period. For the purpose of enumeration, such visitor will be treated as normal resident of the household in which they are actually found during the enumeration period provided that they have not been enumerated elsewhere. One of the essential features of population enumeration in the second phase is each person enumerated and her/his individual particulars are collected at a well defined point of time.

Location Code Number

The procedure of assigning location code number in a zigzag manner starting from North-west corner and ending at South-east corner, is adopted for 2001 Census. The Andhra Pradesh state was assigned Location Code No.28 as against 02 in 1991 census. In a similar fashion, the location code numbers of the districts in Andhra Pradesh state have been changed and revised location code numbers were allotted in order of geographical contiguity, beginning from North-West point of the state and ending at the South East point. Thus the Adilabad district has been assigned Location Code No. as 01 and Chittoor district Location Code No. 23 at 2001 Census. Accordingly, the location code numbers of mandals in each district have been changed for 2001 census.

An important change at 2001 census is allotment of permanent location code numbers to all the villages in the state. Since the whole data ie., Village and Town Directory information is also being computerized, the allotment of permanent location code numbers would facilitate the data users for easy access and retrieval the data of a particular village at micro level by the click of a mouse. The Permanent Location Code Number (P.L.C. No.) is an eight digit number starting with 00000100 in a zig-zag fashion from North-West corner in the first Mandal of Adilabad district and run continuously for all the districts while ending South-East corner to the extent possible at last village in the last Mandal of Chittoor district. Since this State has 28,123 villages at 2001 census, last village of last mandal in Chittoor district will have PLC No.02812300. A significant provision has been made to allot PLC Nos. to newly created villages if any in future. The last two digits of PLC No's are kept as '00' only to provide for additional villages. For example a new village has been created after PLC No 001231400, it will be assigned PLC No. as 001231401. Further, it is indicated that there is a provision for a minimum of 99 villages adjoining to a particular village allotting Permanent Location Code.

For urban areas also location code structure has been changed in a minimum way. Earlier, for towns in a district location code numbers were given roman letters in alphabetical order. This time, while assigning roman numbers instead of going to alphabetic order, location code numbers were given from North-West part of the district ending at South-East of the district to the extent possible.

Therefore, the PLC numbers of the villages and location codes of urban areas have under gone change in Census of India, 2001 as compared to 1991. In case an urban area is spread over in two districts, the location code of urban areas in both the districts will be the same irrespective of zigzag manner.

Building

is generally a single structure on the ground. Sometimes it is made up of more than component unit which are used or likely to be used as dwellings(residences) or establishments such as shops, business houses, offices, factories, workshops, worksheds, Schools, places of

entertainment, places of worship, godowns, stores etc. It is also possible that building which have component units may be used for a combination of purposes such as shop-cum-residence, workshop-cum-residence,office-cum-residence,etc.. Usually a structure will have four walls and a roof. But in some areas the very nature of construction of houses is such that there may not be any wall. Such is the case of conical structures where entrance is also provided but they may not have any walls. Therefore, such of the conical structures are also treated as separate buildings.

Permanent houses:

Houses, the walls and roof of which are made of permanent materials. The material of walls can be any one from the following, namely, galvanized iron sheets or other metal sheets, asbestos sheets, burnt bricks, stones or concrete. Roof may be made of from any one of the following materials, namely, tiles, slate, galvanized iron sheets, metal sheets, asbestos sheets, bricks, stones or concrete.

Semi-permanent houses

Houses in which either the wall or the roof is made of permanent material and the other is made of temporary material.

Temporary houses

Houses in which both walls and roof are made of materials, which have to be replaced frequently. Walls may be made from any one of the following temporary materials, namely, grass, thatch, bamboo, plastic, polythene, mud, unburnt bricks or wood. Roof may be made from any one of the following temporary materials, namely, grass, thatch, bamboo, wood, mud, plastic or polythene.

Dwelling Room

A room is treated as a dwelling room if it has walls with a doorway and a roof and should be wide and long enough for a person to sleep in, i.e. it should have a length of not less than 2 metres and a breadth of at least 1.5 metres and a height of 2 metres. A dwelling room would include living room, bedroom, dining room, drawing room, study room, servant's room and other habitable rooms. Kitchen, bathroom, latrine, store room, passageway and verandah which are not normally usable for living are not considered as dwelling rooms. A room, used for multipurpose such as sleeping, sitting, dining, storing, cooking, etc., is regarded as a dwelling room. In a situation where a census houses is used as a shop or office., etc., and the household also stays in it then the room is not considered as a dwelling room. But if a garage or servant quarter is used by a servant and if she/ he also lives in it as a separate household then this has been considered as a dwelling room available to the servant's household. Tent or conical shaped hut if used for living by any household is also considered as dwelling room. A dwelling room, which is shared by more than one household, has not been counted for any of them. If two households have a dwelling room each but in addition also share a common dwelling room, then the common room has not been counted for either of the households.

Census house

A `census house' is a building or part of a building used or recognised as a separate unit because of having a separate main entrance from the road or common courtyard or staircase, etc. It may be occupied or vacant. It may be used for residential or non- residential purpose or both.

In certain peculiar situations, the manner in which buildings and census houses were identified for numbering in the field by the enumerators is described hereunder:

Sometimes a series of different buildings are found along a street which are joined with one another by common walls on either side looking like a continuous structure.

These different units are practically independent of one another and are likely to have been built at different times and owned by different persons. In such cases, though the whole structure with all the adjoining units apparently appears to be one building, each portion was treated as a separate building and its constituent units as separate census houses.

On the other hand, one may come across cases, particularly in large cities of multi-storeyed ownership flats. In these cases while the structure looks like one building, different persons own the flats. In case of such multi-storeyed structures, having a number of flats owned by different persons, the entire structure was treated as one building and each flat as a separate census house.

If within a large enclosed area, there are separate buildings owned by different persons then each such building is treated as a separate building. There can be a situation where within an enclosed compound there are separate buildings owned by an undertaking or company or even government that are actually in occupation of different persons. For example, Indian Oil Corporation colony where the buildings are owned by the Corporation but these are in occupation of their employees. Each such building was treated as a separate building. But if in any one of these buildings there were flats in occupation of different households, each such flat was reckoned as a separate census house.

Sometimes if becomes difficult to apply the definition of census house strictly in certain cases. For example, in an urban area, if a flat has five rooms, each room having direct entrance from the common staircase or courtyard. By definition, this has to be treated as five census houses. If all these five rooms are occupied by a single household it was not realistic to treat them as five census houses. In such a case,`singleness' of use of these rooms along with the main house should be considered and the entire flat was treated as one census house. On the other hand, if two independent households occupy these five rooms, the first household living in 3 rooms and the second household occupying 2 rooms, then considering the use, the first three rooms together were treated as one census house and the remaining rooms as another census house. But if each room was occupied by an independent household, then each such room was treated as a separate census house.

In case of hostels, hotels, etc., even if the door of each room in which an inmate lives opens to a common verandah, staircase, courtyard or a common room, as it happens almost invariably, the entire hostel/ Hotel building was treated as one census house. but if such hostels/ hotels have out- houses or other structures used for different purposes or the same purpose, then each such structure attached to the main hostel / hotel was treated as a separate census house.

In some parts of the country, in rural areas, the pattern of habitation is such that a group of huts, located in a compound, whether enclosed or unenclosed, is occupied by one household. While the main residence may be located in one hut, other huts may be used for sleeping, as a kitchen, bath room, baithak, etc. Though each of the huts was a separates structure, they form a single housing unit and therefore, have to be treated collectively as one building and one census house. If some of the huts are used by one household and the others by a second household as residence, then the two groups of huts were treated as separate census houses. However, if there were also other huts in the compound used for other purposes and not as part of the household's residence such as, cattle shed, workshed, etc., these were treated as separate census houses.

On the other hand, in urban areas, where more than one structure within an enclosed or open compound (premises) belonging to the same person, e.g., the main house, the servant's quarter, the garage, etc., only one building number was given for this group and each of the constituent a separate census house number.

Only cases where a structure with roof and pillars has come up was treated as a building.

Village

The basic unit for rural areas is the revenue village which has definite surveyed boundaries. The revenue village may comprise of one or more hamlets but the entire village is treated as one unit for presentation of data. In un-surveyed areas, like villages within forest areas, each habitation area with locally recognized boundaries is treated as one village.

Rural - Urban area

The data in tables on Houses, Household Amenities and Assets are presented separately for rural and urban areas. The unit of classification in this regard is `town' for urban areas and `village' for rural areas. In the Census of India 2001, the definition of urban area adopted is as follows:

(a) All places with a municipality, corporation, cantonment board or notified town area committee, etc.

(b) A place satisfying the following three criteria simultaneously:

i) A minimum population of 5,000;

ii) At least 75 per cent of the male working population engaged in non-agricultural pursuits ; and

iii) A density of population of at least 400 per sq. km. (1,000 per square mile).

For identification of places which would qualify to be classified as 'urban' all villages, which, as per the 1991 Census had a population of 4,000 and above, a population density of 400 persons per sq. km. and having at least 75 per cent of male working population engaged in non-agricultural activity were considered. To work out the proportion of male working population referred to above against b) (ii), the data relating to main workers were taken into account. Apart from these, the outgrowths(OGs) of cities and towns have also been treated as urban under 'Urban Agglomerations'. Examples of out-growths are railway colonies, university campuses, port areas, military camps, etc., that may have come up near a statutory town or city but within the revenue limits of a village or villages contiguous to the town or city. Each such individual area by itself may not satisfy the demographic criteria laid down at (b) above to qualify it to be treated as an independent urban unit but may deserve to be clubbed with the towns as a continuous urban spread. Thus, the town level data, wherever presented, also includes the data for outgrowths of such towns.

City

Towns with population of 1,00,000 and above are called cities.

Urban Agglomeration

An Urban Agglomeration is a continuous urban spread constituting a town and its adjoining urban outgrowths (OGs) or two or more physically contiguous towns together and any adjoining urban outgrowths of such towns. In some cases railway colonies, university campuses, port areas, etc., may come up near a city or statutory town outside its statutory limits but within the revenue limits of a village or villages contiguous to the town or city. Each such individual area by itself may not satisfy the minimum population limit to qualify it to be treated as an independent urban unit but may deserve to be clubbed with the town as a continuous urban spread.For the purpose of delineation of Urban Agglomerations during Census of India 2001, following criteria are taken as pre-requisites:

(a) The core town or at least one of the constituent towns of an urban agglomeration should necessarily be a statutory town ; and

(b) The total population of all the constituents (i.e., towns and outgrowths) of an Urban Agglomeration should not be less than 20,000 (as per the 1991 Census).

With these two basic criteria having been met, the following are the possible different situations in which Urban Agglomerations would be constituted:

i) a city or town with one or more contiguous outgrowths;

ii) two or more adjoining towns with their outgrowths; and

iii) a city and one or more adjoining towns with their outgrowths all of which form a continuous spread.

Household

A 'household' is usually a group of persons who normally live together and take their meals from a common kitchen unless the exigencies of work prevent any of them from doing so. Persons in a household may be related or unrelated or a mix of both. However, if a group of unrelated persons live in a census house but do not take their meals from the common kitchen, then they are not constituent of a common household. Each such person was to be treated as a separate household. The important link in finding out whether it was a household or not was a common kitchen. There may be one member households, two member households or multi-member households.

Institutional household

A group of unrelated persons who live in an institution and take their meals from a common kitchen is called an Institutional Household. Examples of Institutional Households are boarding houses, messes, hostels, hotels, rescue homes, jails, ashrams, orphanages, etc. To make the definition more clearly perceptible to the enumerators at the Census 2001, it was specifically mentioned that this category or households would cover only those households where a group of unrelated persons live in an institution and

share a common kitchen.

Houseless household

Households who do not live in buildings or census houses but live in the open on roadside, pavements, in hume pipes, under fly-overs and staircases, or in the open in places of worship, mandaps, railway platforms, etc., are treated as Houseless Households.

Scheduled Caste and Scheduled Tribe

Article 341 of the Constitution provides that the President may, with respect to any State or Union territory, specify the castes, races or tribes or parts of or groups within castes, races or tribes which shall for the purposes of the Constitution be deemed to be Scheduled Castes in relation to that State or Union territory. Article 342 similarly provides for specification of tribes or tribal communities or parts of or groups within tribes or tribal communities which are to be deemed for the purposes of the Constitution to be Scheduled Tribes in relation to the various States and Union territories. In pursuance of these provisions, the list of Scheduled Castes and / or Scheduled Tribes are notified for each State and Union territory and are valid only within the jurisdiction of that State or Union territory and not outside.

It is important to mention here that under the Constitution (Scheduled Castes) Order, 1950, no person who professed a religion different from Hinduism was deemed to be a member of a Scheduled Caste in addition to every member of the Ramdasi, Kabirpanthi, Majhabi or Sikligar caste resident in Punjab or Patiala and East Punjab States Union were in relation to that State whether they professed the Hindu or the Sikh religion. Subsequently, in September 1956, by an amendment, the Presidential Order of 1950 and in all subsequent Presidential Orders relating to Scheduled Castes, the Hindu and the Sikh religions were placed on the same footing with regard to the specification of Scheduled Castes. Later on, as per the amendment made in the Constitution (Scheduled Castes) Order 1990, the Hindu, the Sikh and the Buddhist were placed on the same footing with regard to the recognition of the Scheduled Castes.

The lists containing the names of the Scheduled Castes and the Scheduled Tribes applicable for the Census of India 2001 in the State/ Union territory are given below:

List of Scheduled castes in Andhra pradesh

1. Adi Andhra
2. Adi Dravida
3. Anamuk
4. Aray Mala
5. Arundhatiya
6. Arwa Mala
7. Bariki
8. Bavuri
9. Beda Jangam, Budga Jangam
10. Bindla
11. Byagara
12. Chachati
13. Chalavadi
14. Chamar, Mochi, Muchi
15. Chambhar
16. Chandala
17. Dakkal, Dokkalwar
18. Dandasi
19. Dhori
20. Dom, Dombara, Paidi, Pano
21. Ellamalawar, Yellammalawandlu
22. Ghasi, Haddi, Relli, Chachandi
23. Godagali
24. Godari
25. Gosangi
26. Holeya
27. Holeya Dasari
28. Jaggali
29. Jambuvulu
30. Kolupul Vandlu
31. MadasiKuruva,Madari Kuruva
32. Madiga
33. Madiga Dasu, Mashteen

34. Mahar
35. Mala
36. Mala Dasari
37. Mala Dasu
38. Mala Hannai
39. Malajangam
40. Mala Masti
41. Mala Sale, Netkani
42. Mala Sanyasi
43. Mang
44. Mang Garodi
45. Manne
46. Masht
47. Matangi
48. Mehtar
49. Mitha Ayyalvar
50. Mundala
51. Paky, Moti, Thoti
52. Pambada, Pambanda
53. Pamidi
54. Panchama, Pariah
55. Relli
56. Samagara
57. Samban
58. Sapru
59. Sindhollu, Chindollu

List of Scheduled Tribes in Andhra pradesh

1. Andh
2. Bagata
3. Bhil
4. Chenchu, Chenchwar
5. Gadabas
6. Gond, Naikpod, Rajgond
7. Goudu(in the Agency tracts)*
8. Hill Reddis
9. Jatapus
10. Kammara
11. Kattunayakan
12. Kolam, Mannervarlu
13. Konda Dhoras
14. Konda Kapus
15. Kondareddis
16. Kondhs, Kodi, Kodhu, Desaya Kondhs, Dongria Kondhs, Kuttiya Kondhs, Tikiria Kondhs, Yenity Kondhs.
17. Kotia, Bentho Oriya, Bartika, Dhulia, Dulia, Holva, Paiko, Putiya, Sanrona, Sidhopaiko
18. Koya,Goud,Rajah,Rasha Koya, Lingadhari Koya(ordinary), Kottu Koya, Bhine Koya, Rajkoya
19. Kulia
20. Malis(excluding Adilabad, Hyderabad,Karimnagar,Khammam, Mahbubnagar,Medak,Nalgonda, Nizamabad and Warangal districts)
21. Manna Dhora
22. Mukha Dhora, Nooka Dhora
23. Nayaks(in theAgency tracts)*
24. Pardhan
25. Porja, Parangiperja
26. Reddi Dhoras
27. Rona, Rena
28. Savaras, Kapu Savaras, Maliya Savaras, Khutto Savaras
29. Sugalis, Lambadis
30. Thoti(In Adilabad, Hyderabad, Karimnagar, Khammam, Mahbubnagar, Medak, Nalgonda, Nizamabad and Warangal Districts)
31. Valmiki (in the Agency tracts)
32. Yenadis
33. Yerukulas

***** *The agency tracts is comprised of Srikakulam, Vizianagaram, Visakhapatnam, East-Godavari, West-Godavari and Khammam districts.*

Language and Mother tongue

As per the census concept, each language is a group of mother tongues. The census questionnaire collects information on the mother tongue of each person and mother tongue is defined as the language spoken in childhood by the person's mother to the person. If the mother died in infancy, the language mainly spoken in the person's home in childhood will be the mother tongue. In the case of infants and deaf mutes, the language usually spoken by the mother is considered as mother tongue. It is not necessary that the language spoken as mother tongue should have a script. The mother tongues returned by the respondents in census are classified and grouped under appropriate languages according to their linguistic characteristics.

Literate

A person aged 7 years and above who can both read and write with understanding in any language is taken as literate. A person who can only read but cannot write is not literate. It is not necessary that to be considered as literate, a person should have received any formal education or passed any minimum educational standard. Literacy could also have been achieved through adult literacy classes or through any non-formal educational system. People who are blind and can read in Braille are treated as literates.

Literacy rate

Literacy rate of the population is defined as the percentage of literates in the age group seven years and above. For different age groups the percentage of literates in that age group gives the literacy rate.

Educational level

The highest level of education a person has completed

Work

Work is defined as participation in any economically productive activity with or without compensation, wages or profit. Such participation may be physical and/or mental in nature. Work involves not only actual work but also includes effective supervision and direction of work. It even includes part time help or unpaid work on farm, family enterprise or in any other economic activity. All persons engaged in 'work' as defined above are workers. Persons who are engaged in cultivation or milk production even solely for domestic consumption are also treated as workers. Reference period for determining a person as worker and non-worker is one year preceding the date of enumeration.

Main worker

A person who has worked for major part of the reference period (i.e. six months or more during the last one year preceding the date of enumeration) in any economically productive activity is termed as `Main worker'.

Marginal worker

A person who worked for less than six months of the reference period (i.e. in the last one year preceding the date of enumeration) in any economic activity is termed as `Marginal worker' .

Non worker

A person who has not worked at all in any economically productive activity during the reference period (i.e. last one year preceding the date of enumeration) is termed as `Non worker'.

Cultivator

For purposes of the Census a person is classified as cultivator if he or she is engaged in cultivation on land owned or held from government or held from private persons or institutions for payment in money, kind or share. Cultivation includes effective supervision or direction in cultivation. A person who has given out her/his land to another person or persons or institution(s) for cultivation for money, kind or share of crop and who does not even supervise or direct cultivation in exchange of land, is not treated as cultivator. Similarly, a person working on another person's land for wages in cash or kind or a combination of both (agricultural labourer) is not treated as cultivator. Cultivation involves ploughing, sowing, harvesting and production of cereals and millet crops such as wheat, paddy, jowar, bajra, ragi,

etc., and other crops such as sugarcane, tobacco, ground-nuts, tapioca, etc., and pulses, raw jute and kindred fibre crop, cotton, cinchona and other medicinal plants, fruit growing, vegetable growing or keeping orchards or groves, etc. Cultivation does not include the following plantation crops - tea, coffee, rubber, coconut and betel-nuts (areca).

Agricultural labourer

A person who works on another person's land for wages in money or kind or share is regarded as an agricultural labourer. She/he has no risk in the cultivation, but merely works on another person's land for wages. An agricultural labourer has no right of lease or contract on land on which she/he works.

Household industry worker

Household industry is defined as an industry conducted by the head of the household herself/himself and or by the members of the household at home or within the village in rural areas and only within the precincts of the house where the household lives in urban areas. The larger proportion of workers in household industry should consist of members of the household including the head. The industry should not be run on the scale of a registered factory which would qualify or has to be registered under the Indian Factories Act and should be engaged in manufacturing, processing, servicing and repairs of goods. It does not include professions such as a Pleader, Doctor, Musician, Dancer, Waterman, Astrologer, Dhobi, Barber, etc. or merely trade or business, even if such professions, trade or services are run at home by members of the household.

Other worker

A person who has been engaged in some economic activity during the reference period but not as a cultivator or agricultural labourer or in Household Industry is termed as a 'Other Worker (OW)'. The type of workers that come under this category of 'OW' include all government servants, municipal employees, teachers, factory workers, plantation workers, those engaged in trade, commerce, business, transport, banking, mining, construction, political or social work, priests, entertainment artists, etc. In effect, all those workers other than cultivators or agricultural labourers or household industry workers, are 'Other Workers'.

Work participation rate

Percentage of workers (main + marginal) to total population

Population density

Population density is the number of persons inhabited per square kilometre of the area.

Age

Age is measured in terms of the completed number of years

Sex -ratio

Number of females per 1000 males in a population.

(viii) Non Census Concepts

Improved drinking water :

If the household had access to drinking water supplied from a tap, hand pump, tube well or well (protected or covered) situated within or outside the premises, it is considered as having access to improved drinking water. It may be mentioned that such uniform definition may not be valid across all states.

System of sewerage :

Generally, a sewerage system would mean a network of mains and branches of underground conduits for the conveyance of sewerage to the point of disposal. Sewers that carry only household and industrial wastage are called separate sewers; those that carry storm water from roofs, streets and other surfaces are known as storm water drains, while those carrying both sewage and storm water are called combined sewers. However, in some towns which are not provided with such underground sewerage system, it is served by open surface drain, box drain, sylk pattern drain, etc., in these towns.

Type of latrine and Method of disposal of night soil :

There are three prevalent systems of disposal of human wastes, viz.(i) underground sewerage, (ii) sanitary water flush latrines with individual disposal systems, like septic tank, leaching cess pool and collecting well, and (iii) dry type of latrines with manual scavenging. The system of underground sewerage provides for the street sewerage with which are connected the sanitary latrines constructed in the houses having water closets and fitted with flushing cistern (or hand flushing). Through this sewer the faecal matter is transported without the need for scavenging. This system generally exists in cities and big towns. Where the streets sewer does not exist these sanitary water flush latrines are connected to a local septic tank with a sub-soil dispersion system or a leaching pit. Here the liquid wastes from the water closet is disposed of locally in leaching pit, a septic tank with a soil dispersion system is constructed. This dispersion requires an optimum travel through the pores of the soil which renders the harmful liquid bacterially innocuous by the slow process of filtration through the soil traversed. Where the soil is impermeable, collecting wells are constructed and the sanitary water flush latrines are connected with them. These wells are cleaned at periodic intervals by a suitable device. The dry type of latrines are of service type latrines from where human excreta is removed by scavengers from house to house, in most cases carrying it on their heads or shoulders or in baskets with handle or wheel barrows. These are then collected in bullock carts or trucks or tractors and trolleys for being carried to the dumping grounds.

Fertility :

In demography, the word fertility is used in relation to the actual production of children or occurrence of births specially live births. Fertility is a measure of rate at which population adds to itself by births and normally assessed by relating the number of births to a full or part of the population, such as number of married women or number of women of child bearing age. The definitions of the terminology used in computing different fertility rates are mentioned below:

Crude birth rate(CBR) :

Ratio of the number of live births in a year to the mid year population, normally expressed per 1000 population.

$$CBR = \frac{\text{Number of live births during the year}}{\text{Mid –year Population}} \times 1000$$

Crude death rate(CDR)

Ratio of the number of deaths in a year to the mid year population, normally expressed per 1000 population.

$$CDR = \frac{\text{Number of deaths during the year}}{\text{Mid- year Population}} \times 1000$$

Natural growth rate

Growth rate is obtained as the difference between crude birth rate and crude death rate in the absence of migration.

Age specific fertility rate (ASFR)

Number of live births in a year to female population in any specified age group normally expressed per 1000 women.

$$ASFR = \frac{\text{Number of live births in a particular age-group}}{\text{Mid-year female population of the same age-group}} \times 1000$$

Age specific marital fertility rate (ASMFR)

Number of live births in a year to married female population in any specified age group normally expressed per 1000 married women .

$$ASMFR = \frac{\text{Number of live births in a particular age-group}}{\text{Mid-year married female population of the same age-group}} \times 1000$$

General fertility rate (GFR)

Number of live births per 1000 women in the reproductive age-group (15-49) years in a given year.

$$GFR = \frac{\text{Number of live births in a year}}{\text{Mid-year female population in the age-group (15-49) years}} \times 1000$$

General marital fertility rate (GMFR)

Number of live births per 1000 married women in reproductive age-group (15-49) years in a given year.

$$GMFR = \frac{\text{Number of live births in a year}}{\text{Mid-year married female population in the age-group (15-49) years.}} \times 1000$$

Total fertility rate (TFR)

It is obtained as the total of the age specific fertility rates (number of children born per woman of the particular age) for the entire reproductive age span. It provides the average number of children that will be born to a woman under the fertility levels indicated by the age specific fertility rates assuming that there is no mortality of women till the completion of reproductive period.

$$TFR = \frac{5 \times \sum_{15-19}^{45-49} ASFR}{1000}$$

Total marital fertility rate (TMFR)

Average number of children that would be born to a married woman if she experiences the current fertility pattern throughout her reproductive span (15-49) years assuming that there is no mortality of women till the completion of reproductive period.

$$TMFR = \frac{5 \times \sum_{15-19}^{45-49} ASMFR}{1000}$$

Age-specific mortality rate (ASMR)

Number of deaths in a particular age and sex group per 1000 population of the same age group.

$$ASMR = \frac{\text{Number of deaths in a particular age-group}}{\text{Mid-year population of the same age-group}} \times 1000$$

q1

Probability of dying between birth and age 1. This can be used as approximate value of Infant Mortality Rate (IMR) which gives the ratio of number of deaths in a year of children aged less than one year to the number of births in that year.

q2

Probability of dying between birth and age 2.

q5

Probability of dying between birth and age 5. This indicator is also known as Under Five Mortality Rate (U5MR)

Infant mortality rate (IMR)

Ratio of the number of infant deaths (deaths of children below one year) in a year to the number of live births in that year.

$$IMR = \frac{\text{Number of infant deaths during the year}}{\text{Number of live births during the year}} \times 1000$$

Infant mortality rate comprises of two parts, viz., Neo-natal mortality rate and Post neo-natal mortality rate. The neo-natal mortality rate also comprises of two parts viz., Early neo-natal mortality rate and late neo-natal mortality rate. These are defined as:

Neo-natal mortality rate (NMR)

Number of infants dying within the first month of life (28 days or under) in a year per 1000 live births of the same year.

$$NMR = \frac{\text{Number of infant deaths aged 28 days or under during the year}}{\text{Number of live births during the year}} \times 1000$$

Early neo- natal mortality rate (ENMR)

$$ENMR = \frac{\text{Number of infant deaths of less than 7 days During the year}}{\text{Number of live births during the year}} \times 1000$$

Late neo-natal mortality rate

$$LNMR = \frac{\text{Number of infant deaths of 7 days to less than 29 days during the year}}{\text{Number of live births during the year}} \times 1000$$

Post neo-natal mortality rate (PNMR)

$$PNMR = \frac{\text{Number of deaths of 29 days to less than one year during the year}}{\text{Number of live births during the year}} \times 1000$$

Peri-natal mortality rate (PMR)

Number of still births plus deaths within 1st week of delivery per 1000 births in a year.

$$PMR = \frac{\text{Number of still births and infant deaths of less than 7 days during the year}}{\text{Number of live births and still births during the year}} \times 1000$$

Still birth rate(SBR)

$$SBR = \frac{\text{Number of still births during the year}}{\text{Number of live births and still births during the year}} \times 1000$$

Maternal mortality rate(MMR)

Number of deaths of women in the age group 15-49 while pregnant or within 42 days of termination of pregnancy from any cause related to pregnancy and child birth per 1,00,000 live births in a given year.

$$MMR = \frac{\text{Number of maternal deaths to women in the age group 15-49}}{\text{Number of live birth}} \times 1,00,000$$

Eligible couple (Couples per 1000 population)

Number of currently married females in the age group15-44 years per 1000 persons of all ages.

Child woman ratio (0-4)

1. Number of children in the age group 0-4 years per 1000 women in the age group 15-49 years.

Child woman ratio (5-9)

2. Number of children in the age group 5-9 years per 1000 women in the age group 15-49 years.

Migration

Migration is the third component of population change, the other two being mortality and fertility. A person is considered as a migrant by place of birth if the place in which he/she is enumerated during the census is other than the place of his/her birth. Similarly a person is considered as a migrant by place of last residence if the place in which he/she is enumerated during the census is other than his/her place of immediate last residence outside the village or town and not simply in another house or locality in the same village or town. Certain aspects concerning temporary movement/migration of people has been explained below as these are important components concerning migration :-(i) Migration of persons in search of job is high in the country. In many cases such migrants are only seasonal in nature. People migrate to other places for work in a particular season and come back again to their usual place of residence after three or four months. All such workers are treated as migrants. Similarly, if a person moved to any other place for attending short term vocational or educational course that lasted for only few months of a year, she/he too were considered as a migrant. (ii) Where a person had merely gone out to another place or had been shifting from one place to another purely on tour, pilgrimage, visit to hospital for treatment or for temporary business purposes, such persons are

not deemed to have had another residence different from the place where she/he or her/his family normally resides. She/he is not considered as migrant. (iii) A woman temporarily moves into a hospital or to her parents or other relative's house for delivery and if the hospital or the parents/relatives houses is in a place different from usual place of residence, the place where the hospital or parents/relative's house is the place of last residence of the child but not of the mother. A new response category 'Moved after birth' was added in Census of India 2001 in the question on 'reasons for migration' to bring out additional migration patterns. Natural calamities or distress migration as a reason for migration for last residence migrants included in 1991 Census, is covered under category of 'Others'. The reason for migration has been determined as applicable at the time of migration and not in reference to any point of time after that. For example, if a person had moved from the place of her/his last residence for the purpose of education and subsequently at some point of time got employment there only, the reason for migration would be 'education' and not 'work/employment'.

Internal and International migration :

The migrational movements are of three types (i) Migration within the state itself with its components (a) Migration within the district of enumeration (intra district migration) (b) Migration from one district of state to another district of state (inter district migration), (ii) Migration from one state to another State of the country (inter-state migration), (iii) Migration from one country to another country. The first two streams together constitute internal migration, while the last type of movement is called international migration. The present name of the country, state or district and not the name by which they were known at the time of her/his birth or last residence were recorded.

Rural - Urban components of migration:

Rural or Urban status in respect of migrants have been determined as applicable at the time of migration and not with reference to any point of time after that. The flow of migrants consists of four streams viz. rural to rural, rural to urban, urban to rural and urban to urban.

Civic status of urban units

Civic Status of a town/city is determined on the basis of Civic Administrative authority of the town e.g., Municipal Corporation / Corporation, Municipal Committee/ Municipal council, Municipality etc.

Size class of UA / town :

Size-class of UA/Town is based on the population size of the UA/City/Town UAs./Towns with 1,00,000 and above population are classified as Class I UAs. / towns. These Class I UAs. / towns are now further sub classified in to seven sub classes namely M1 to M7 depending on the population size of UA/City/ Town. These are M7(5,000,000 and above); M6(2,000,000 to 4,999,999); M5 (1,000,000-1,999,999) M4 (500,000-999,999); M3(300,000-499,999), M2 (200,000-299,999) & M1 (100,000-199,999). towns with, 50,000 to 99,999 population are classified as Class II towns, 20,000 to 49,999 population are Class III towns, population with 10,000-19,999 are Class IV towns, population with 5000 and 9999 are Class V towns and towns with less than 5000 population are Class VI towns.

Slum area :

The Slum Areas (Improvement and Clearance) Act, 1956 which was enacted by the Central Govt. defined slums as a) Areas where buildings are in any respect unfit for human habitation; or b) are by reasons of dilapidation, overcrowding, fault arrangement and design of such buildings, narrowness or faulty arrangement of streets, lack of ventilation, light or sanitation facilities, or any combination of these factors, are detrimental to safety, health or morals.

Mega city :

The concept of 'Mega city' is a recent phenomenon in the Urban Sociology and is defined in term of metropolitan city in the form of large size, problem of management of civic amenities and capacity to absorb the relatively high growth of population. Indian Census in 1991 treated the population size of 5 million and above as the cut off point to identify a place as the mega city. Whereas, for the purpose of inclusion in Centrally Sponsored Scheme for Infrastructure Development in Mega cities the Ministry of Urban Affairs and employment, Department of Urban Development adopted the criteria of 4 million and above population as per 1991 Census for Mega Cities. In 2001 Census, cities with 10 millions and above population have been treated as Mega cities.

Analytical Note
(ix) 2001 Census Findings – Population and its Distribution

(a) Distribution of Population in Rural - Urban areas :

According to 2001 Census the total population of Nizamabad district is 2,345,685 persons with 1,162,905 males and 1,182,780 females. The district stands at 22nd rank in the state as far as population size is concerned. Out of the total population of the district, 81.9% are residing in rural areas and the remaining 18.1% in urban areas. The proportion of urban to total population regarded as an index of urbanization. The corresponding urban population of the state is 27.30%. Average number of towns for 100 inhabited villages in the district is less than 1% i.e. 0.35%.

Nizamabad district has 918 villages in 36 mandals of which 854 are inhabited villages. The average number of inhabited villages per mandal is 23.7. Nizamabad mandal is the largest mandal in terms of population accounting 15.9% of the district population. In terms of number of villages, Madnoor mandal leads with 42 villages, wherein 4 are un-inhabited villages, and 38 are inhabited villages. Ranjal and Yedpalle mandals have least number of inhabited villages with 10 each. In respect of population, Nagareddipet mandal reported least population i.e.32,053 in the district.

The urban population is distributed among 3 statutory towns. The average size of an urban center in the district works out to 141,579 persons. Nizamabad Municipality has the largest population of 288,722 persons whereas Kamareddy town is the smallest with a population of 64,496 persons. There is no town in the district which has less than 5,000 population.

(b) Size class and status of towns, population growth, density and sex ratio, work participation rate and Literacy rate:

Size class and status of Town :

During every Census the number of Census towns and statutory towns changes due to addition of new Census towns declassification of old Census towns, notifying of new statutory towns, de-notifying of old statutory towns etc., for the purpose of analysis of varied demographic characteristics. Urban areas have been divided into six classes by size of population. Of the 3 towns in the district, Nizamabad is categorised as class I town while remaining two are class II towns.

Population Growth :

The population of district was 2,037,621 in 1991 Census and has gone up to 2,345,685 persons in 2001 adding 308,064 persons during the decade 1991-2001 showing a growth rate of 15.12 which is more than the state growth rate of 14.59 during the decade. Nizamabad district ranks 9th in growth rate among 23 districts in the state.

Rural-Urban growth rates show wide variations. The rural growth rate is recorded as 18.23 while urban growth rate is 2.86. As regards growth rate in rural population, the district occupies 4th position, whereas in respect of urban growth rate, it occupies 22nd place in the state.

Density :

The overall density of population in the district is 295 persons per sq.km. which is above the state average of 277. Among urban areas Kamareddy town recorded highest with 9,466 persons per sq.km followed by 4,574 persons in Kamareddy town. Least density i.e.3,342 persons per sq.km. has been reported in Bodhan town.

Sex Ratio :

As per 2001 Census the sex ratio in Nizamabad district is 1,017 females per 1,000 males and the ratio during 1991 is also the same. It is higher than the state average sex ratio of 978. The district occupied 1st rank in respect of sex ratio among 23 districts. Jakranpalle mandal has the highest sex ratio of 1,104. While Jukkal mandal has lowest sex ratio of 957.

Among urban units Bodhan town has reported highest sex ratio of 978 and Kamareddy Town reported lowest sex ratio of 968.

Work Participation Rate :

The work participation rate for total workers is defined as percentage of total workers to total population. The total workers participation rate in Nizamabad district is 49.4%. Again percentage of main workers stands at 41.4%. The total workers participation rate separately for males and females in the rural areas are 55.9% and 50% respectively. The corresponding figures for urban areas works out to 47.6% and 19.3% respectively. The female male workers participation has come down from 42.% in 1991 Census to 35.2% at 2001 Census and male main workers participation has also come down from 53.9% to 47.7% during the decade.

Literacy Rate:

While calculating effective literacy rate, children in 0-6 age group have been excluded. The district returned 10,44,788 literates forming 52% of the population of the district, excluding 0-6 age group. For urban and rural areas the literacy rate worksout to 47.7% and 71.4% respectively. Again within the urban areas male and female literacy rates workout to 80.2% and 62.4%. For the rural population the male and female literacy rates workout to 61.4% and 34.5% respectively.

(c) Scheduled Castes and Scheduled Tribes of earlier Censuses :

To uplift social and economical status of scheduled castes and scheduled tribes, one of the basic requirement of these population is the availability of data on age, sex, marital status, economy, education, fertility etc. In this regard these particulars are being collected in each census from 1951 onwards and provided to planners and administrators to take-up necessary steps to evolve suitable plans for the development of scheduled castes and scheduled tribes.

The President of India has notified some castes, races or tribes or parts of groups within castes, races or tribes as scheduled castes under article 341 of the constitution of India. Similarly, under article 342 of the Indian constitution, President of India has declared all such tribes or tribal communities or parts of groups within the tribes or tribal communities as scheduled tribes. The list of scheduled castes and scheduled tribes are notified for each state or union territory and are valid only within the jurisdiction of that state and union territory. The list of scheduled castes and scheduled tribes is provided in this volume under the chapter on 'census concepts'.

Scheduled Castes Population in the district as per 1991 Census :

As per 1991 census, there were 3,07,997 scheduled castes population comprising 1,50,598 males and 1,57,399 females. This works out to 15.12% to the total population of the district. Of the total population of scheduled castes, 89.12% were living in rural areas of the district.

The following statement reveals that scheduled castes population has recorded 18.99% growth rate during the decade 1981-91. It was 18.54% in rural areas which is equal to the growth rate of total district. Growth rate in urban areas was 22.83% which is nearly 4% more than the district and rural areas.

The sex ratio of scheduled castes population (1045) was higher in comparison to that of the general population in the district(1,017). The sex ratio in rural area of the district was little higher than total district sex ratio among scheduled castes population. In urban areas it was 1019. Literacy rate among scheduled castes 19.54% which was lower than the district (34.18%). In urban areas their literacy rate was 37.98%. Proportion of main workers among scheduled castes was 56.12 percent and the marginal workers was 1.63 percent. In rural areas workers population was 58.14 percent and in urban areas their percentage was 39.56.

Statement (i)

Particulars of Decadal Variation, Sex Ratio, Literacy and Workers Participation of Scheduled Castes Population-1991

Sl.No.	Particulars	Total	Rural	Urban
1	Percentage Decadal Variation:			
	1981	258,840	231,570	27,270
	1991	307,997	274,502	33,495
		(18.99)	(18.54)	(22.83)
2	Sex Ratio	1045	1048	1018
3	Percentage of Literacy	19.54	17.32	37.98
4	Percentage of :			
	i. Main Workers	56.12	58.14	39.56
	ii. Marginal Workers	1.63	1.71	0.99
	iii. Non-Workers	42.25	40.15	59.45

Source : *District Census Handbooks of Nizamabad, 1981 & 1991 Censuses*

It is seen from the below furnished table that scheduled castes population in the district has registered 22.64% growth rate during the decade 1961-1971. The same for the decade 1971-1981 and 1981-1991 was 29.40% and 18.99% respectively. The growth rate during 1971-1981 was more than the growth rate of 1961-1971. However growth rate has been decreased from 29.40% during 1971-1981 to 18.99% during 1981-1991.

Statement (ii)

Statement showing the decadal variation in Scheduled Castes population in Nizamabad district in comparison to Andhra Pradesh state between 1961-1991 Censuses

Sl.No.	Census Year	Scheduled Caste Population in the District (Percent variation shown in brackets)	Scheduled Caste Population in the State (Percent variation shown in brackets)
1	1961	163,104 (--)	49,73,616 (--)
2	1971	2,00,024 (+ 22.64)	57,74,548 (+ 16.10)
3	1981	2,58,840 (+ 29.40)	79,61,730 (+ 37.88)
4	1991	3,07,997 (+ 18.99)	1,05,92,066 (+ 33.04)

Source: *Part II-A, 1991 Census.*

The following statement gives the proportion of scheduled castes population to total population in the villages. Out of 818 villages where scheduled caste population returned in the district, 35 villages constituting 4.28% were having less than 6% of scheduled caste population. Of the remaining villages, 93(11.4%) were having 6 to 10% of scheduled castes population, 174(21.3%) having 11 to 15% 193(23.59%) having 16-20%, 210(25.67% having 21-30% and 113(13.8%) having 31% and above to total population of the respective villages.

Statement (iii)
Proportion of scheduled castes population to total population in the villages-1991

Percentage Range of Scheduled castes Population to Total population	Number of villages in each range	Percentage of villages in each range
1	2	3
5 and below	35	4.28
6-10	93	11.37
11-15	174	21.27
16-20	193	23.59
21-30	210	25.67
31 and above	113	13.82
Total	**818**	**100.00**

***Source** : District Census Handbook 1991, Nizamabad, district.*

The following statement shows the percentage of scheduled castes population to the total population of the towns in the district. Out of 4,12,944 urban population, scheduled castes population of 33,495 constituted 8.11%. Banswada town has 9.88% highest scheduled castes population to the total population of the towns, followed by Bodhan municipality 9.63%. Nizamabad and Kamareddy municipalities were as low as 7.54% and 7.68% respectively which were below the district average.

Statement (iv)
Percentage of Scheduled Castes Population in Towns - 1991

Class and name of Town	Total Population	Total Scheduled Castes Population	Percentage of Scheduled Caste Population to the Total Population
III Armur (P)	34,379	2,969	8.64
IV Banswada (P)	19,093	1,886	9.88
II Bodhan (M)	64,406	6,201	9.63
III Kamareddy (M)	48,666	3,737	7.68
I Nizamabad (M)	2,41,034	18,183	7.54
V Sriramasagar+ (Pochampad Project Right Flank Colony)	5,366	519	9.67
All Towns	**4,12,944**	**33,495**	**8.11**

Source : District Census Handbook 1991, Nizamabad, district.

The Scheduled Tribes Population in the District as per 1991 Census :

As per 1991 census, there were 1,20,716 scheduled tribes population comprising 61,156 males and 59,560 females. This works out 5.92% to the total population of the district. Of the total population of the scheduled tribes 96.46% were living in rural areas of the district.

The following statement reveals that scheduled tribes population in the district has registered 33.74% growth rate during the decade 1981-91. Almost same growth rate 33.13% has been recorded in the rural areas of the district. In urban areas it was 52.75%. The sex ratio in the district was 974, while in rural areas it was 976 and in urban areas 914. As regards the literacy rate among the tribes, it was 12.22% , while in rural areas it was 11.24%. However in urban areas it was higher (38.18%) than rural areas as well as the district total.

The population of workers and marginal workers among tribals in the district was 51.87% and 1.68% respectively where as in rural areas of the district it was 52.53% and 1.72% respectively. But in urban areas they were reported 33.83% and 0.70% respectively.

Statement (v)

Particulars of decadal variation, Sex ratio, literacy and workers participation of Scheduled Tribes Population-1991

Sl.No.	Particulars	Total	Rural	Urban
1	Percentage Decadal Variation:			
	1981	90,262	87,462	2,800
	1991	120,716	116,439	4,277
		(33.74)	(33.13)	(52.75)
2	Sex Ratio	974	976	914
3	Percentage of Literacy	12.22	11.24	38.18
4	Percentage of :			
	i. Main Workers	51.87	52.53	33.83
	ii. Marginal Workers	1.68	1.72	0.70
	iii. Non-Workers	46.45	45.75	65.47

It is seen from the following statement that the scheduled tribes population growth rate declined during the decade 1961-71, when it is compared with 1971-81 and 1981-91, while it has recorded abnormal increase i.e. 15,516% during the decade 1971-81. This abnormal increase was due to inclusion of some of the tribes in the list of scheduled tribes during the decade. However the variation between 1981-91 was on par with the state variation.

Statement (vi)

Statement showing the decadal variation in Scheduled Tribes Population in Nizamabad district in comparison to Andhra Pradesh State between 1961-1991 Censuses

Sl.No.	Census Year	Scheduled Tribe Population in the District (Percent variation shown in brackets)	Scheduled Tribe Population in the State (Percent variation shown in brackets)
1	1961	739	13,24,368
		(--)	(--)
2	1971	578	16,57,657
		(- 21.79)	(+ 25.17)
3	1981	90,262	31,76,001
		(+15,516.26)	(+ 91.60)
4	1991	1,20,716	41,99,481
		(+ 33.74)	(+ 32.23)

***Source**: Part II-A, 1991 Census.*

The following statement shows the proportion of scheduled tribes population to total population in the villages. Out of 539 villages, where scheduled tribes were recorded, 288 villages forming 53.43% were having less than 6% scheduled tribes population. The proportion of tribals was between 26 to 50 percent in 61 villages(11.31%) and in 45 villages(8.36%) they were more than 51 percent.

Statement (vii)

Proportion of Scheduled Tribes Population to Total Population in the villages-1991

Percentage Range of Scheduled Tribes Population to Total population	Number of villages in each range	Percentage of villages in each range
1	2	3
5 and below	288	53.43
6-15	93	17.25
16-25	52	9.65
26-35	33	6.12
36-50	28	5.19
51 and above	45	8.36
Total	**539**	**100.00**

***Source** : District Census Handbook 1991, Nizamabad, district.*

While going through the following table it is observed that scheduled tribes population constituted 1.04% to total urban population in the district. The proportion of scheduled tribes population was above the district average in Banswada, Bodhan and Kamareddy towns, while it was below in Armur, Nizamabad and Sriramsagar Project(RFC) Town Ship. However proportion of scheduled tribes population in urban areas ranges between 0.63% in Armoor and 2.39% in Banswada.

Statement (viii)
Percentage of Scheduled Tribes Population in Towns

Class and name of Town	Total Population	Total Scheduled Tribes Population	Percentage of Scheduled Tribes Population to the Total Population
III Armur (P)	34,379	218	0.63
IV Banswada (P)	19,093	457	2.39
II Bodhan (M)	64,406	755	1.17
III Kamareddy (M)	48,666	694	1.43
I Nizamabad (M)	2,41,034	2,113	0.88
V Sriramasagar+ (Pochampad Project Right Flank Colony)	5,366	40	0.75

This table shows Decadal changes in population of mandals (Rural and Urban), Growth and Urbanisation. This district has recorded 15.1% growth during the decade, which is more than the state average growth. The rural and urban growth rates are recorded as 18.2 and 2.9 respectively.

The district percentage of urban population works out to 18.1. Out of 36 mandals only 3 mandals have

urban units. Among these 3 mandals, Nizamabad mandal reported 77.5% urban population followed by 60.7% in Kamareddy mandal and 54.1% in Bodhan mandal and all these are above the district average urban population.

Note: Percentages in brackets.

This table reveals Number and percentage of inhabited villages in specific population size. Out of 854 inhabited villages in the district, maximum number i.e. 38 villages found in Madnoor mandal while least number i.e. 10 villages found in Ranjal and Yedpalle mandals. The population of 30.6% villages are between 2000-5000 range and almost equal percentage of villages i.e. 30% are in the population range of 1000-2000. Only 2.6% villages are having less than 200 population, while 1.6% villages are having above 10,000 population.

TABLE - 3
NEW TOWNS, DENOTIFIED, DECLASSIFIED AND MERGED TOWNS IN 2001 CENSUS

	Name of Town
	1
(a) New	
(i) Statutory Town	
	-Nil-
(ii) Census Town	
	-Nil-

TABLE - 3 (Concld.)
NEW TOWNS, DENOTIFIED, DECLASSIFIED AND MERGED TOWNS IN 2001 CENSUS

	Name of Town
	1
(b) Denotified	
(i) Statutory towns of 1991 Census denotified and also did not satisfy the criteria to be treated as Census towns	-Nil-
(ii) Statutory towns of 1991 Census denotified but identified as Census towns based on demographic and economic criteria	-Nil-
(iii) Census towns of 1991 Census are notified as statutory town in 2001 Census	-Nil-
(c) Declassified	1. Armur 2. Banswada 3. Sree Ram Sagar
(d) Wholly merged with other town(s)	-Nil-

Declassified means the census towns of 1991 census which failed to satisfy the demographic and economic criteria.

The above table indicates new, denotified, declassified and merged towns. As per 2001 Census this district has 3 statutory towns which were also statutory towns in 1991 Census. No new towns either statutory or Census towns have been notified for this Census. Three Census towns of 1991 viz. Armur, Banswada, Sree Ram Sagar have been declassified in 2001 Census.

TABLE - 4
DISTRIBUTION OF VILLAGES BY POPULATION DENSITY, 2001

Range of population density (per square kilometre)	Total number of villages in each population density range	Percentage of villages in each population density range	Population	Percentage distribution of population
1	2	3	4	5
0-10	1	0.1	8	-
11-20	4	0.5	704	-
21-50	21	2.5	7,024	0.4

201-300	238	27.9	525,655	27.4
301-500	203	23.7	523,666	27.3
501 +	85	10.0	458,526	23.8
Not known	-	-	-	-
District Total:	**854**	**100.0**	**1,920,947**	**100.0**

Population Density (Rural) of the district : 243

This table shows distribution of villages by population density. The density of population shows that highest percentage 27.9% villages with 27.4% of district population are falling in the range of population density of 201-300 persons per sq.km. Only one village with 8 persons is found in 10 and below range of population density. 23.8% of district population is living in 10% villages, where range of population density is above 500.

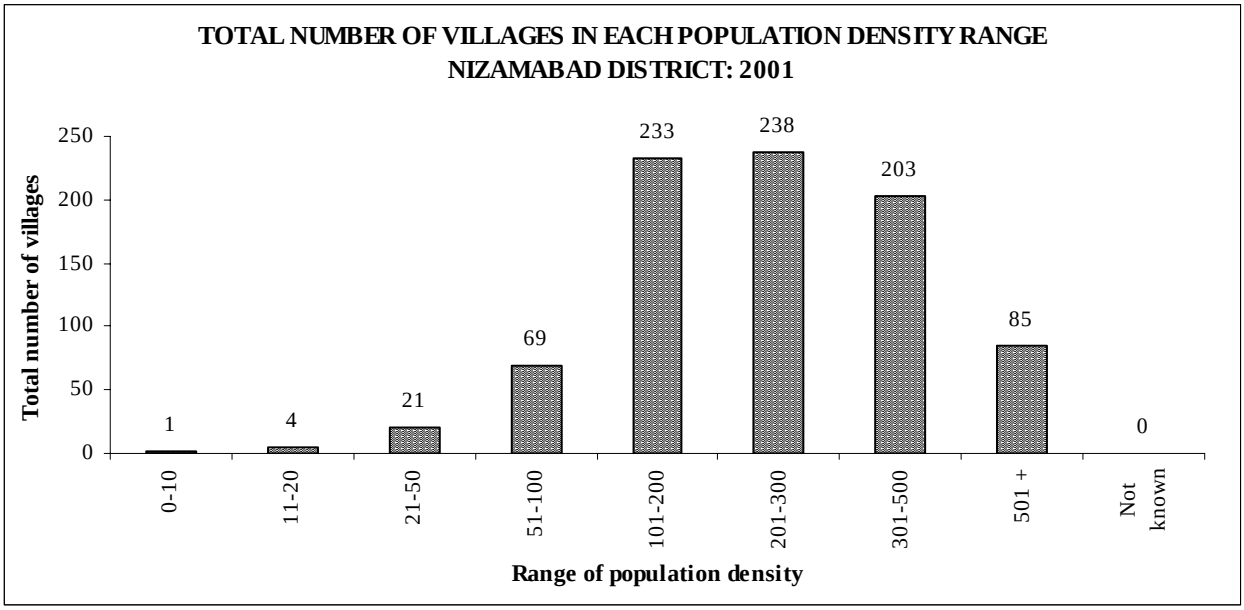

TABLE - 5

SEX RATIO OF STATE AND DISTRICT, 1901 - 2001

Census Year	State			District		
	Total	Rural	Urban	Total	Rural	Urban
1	2	3	4	5	6	7
1901	985	983	999	1,006	1,007	990
1911	992	991	1,000	1,006	1,006	998
1921	993	994	936	1,016	1,023	919
1931	987	989	966	990	990	994
1941	980	981	975	994	1,002	934
1951	986	985	987	1,019	1,028	972
1961	981	988	951	1,007	1,020	934
1971	977	983	949	999	1,012	932
1981	975	984	948	1,013	1,029	945
1991	972	977	959	1,017	1,028	976
2001	978	983	965	1,017	1,027	974

Note : Sex ratio has been defined here as the number of females per 1000 males

The above table gives sex ratio of State and District, 1901-2001. The district sex ratio for 2001 census is recorded as 1,017 for whole district, while it is 1,027 in rural areas and 974 in urban areas. During last 11 Censuses, highest sex ratio was noticed in 1951 Census. Females were more in all the censuses except in 1931, 1941 and 1971 censuses. It is also evident, in all the censuses, except in 1931, females were more than males in rural areas, while always females were less in urban areas. But state figures show that females were less than males at all levels and in all Censuses except recording equal in strength in the urban areas during 1911.

34	Kamareddy	1,019
35	Bhiknoor	989
36	Domakonda	1,011
	District (Rural) Sex Ratio:	**1,027**

The above table shows mandal parishad wise sex ratio for rural population in the district. As already stated, Jakranpalle mandal parishad is shown highest sex ratio of 1104 and Jukkal mandal parishad is shown lowest sex ratio of 957. The female population is more than the males in 30 out of 36 mandal parishads as against the district rural sex ratio is 1,027.

TABLE - 8
SEX RATIO OF RURAL POPULATION BY RANGES, 2001

Range of sex ratio for villages	Number of inhabited villages	Percentage of villages in each range	Population 2001	Percentage distribution of population
1	2	3	4	5
Less than 700	3	0.4	3,514	0.2
700-749	1	0.1	3,318	0.2
750-799	-	-	-	-
800-849	3	0.4	492	-
850-899	19	2.2	27,728	1.4
900-949	54	6.3	91,870	4.8
950-999	187	21.9	391,127	20.4
1000-1099	475	55.6	1,201,557	62.5
1100+	112	13.1	201,341	10.5
District Total :	**854**	**100.0**	**1,920,947**	**100.0**
Sex ratio (Rural) for District:		**1,027**		

The above table shows sex ratio of rural population by ranges, 2001. The sex ratio in rural parts of the district is 1027. The sex ratio is less than 700 in 3 villages, while it is above 1100 in 13.1%(112) villages. About 56%(475) villages with 1,201,557(62.5%) population are falling in the sex ratio range of 1000-1099. It is followed by the sex ratio range 950-999, which claim 187 villages(21.9%) covering 20.4% rural population. Females are either equal to males or more than the males in about 69% villages in the district.

TABLE - 9
SEX RATIO OF TOWNS, 2001

Sl.No.	Name of Town+	Urban status	Sex ratio
1	2	3	4
1	Bodhan (M)	M	978
2	Kamareddy (M)	M	968
3	Nizamabad (M)	M	975
	Sex ratio (Urban) for the district:		**974**

+ Towns arranged in alphabetical order.

This table gives sex ratio among the towns of the district. Bodhan town has highest sex ratio of 978, followed by Nizamabad town 975 and Kamareddy town 968 as against district average urban sex ratio of 974.

		Rural	**278,642**	**142,173**	**136,469**	**960**
		Urban	**58,787**	**30,105**	**28,682**	**953**

This table presents population and sex ratio in the age group of 0-6 at mandal level. The district average sex ratio is 959 and it is 960 in rural areas and 953 in urban areas of the district. It shows that during last 6 years i.e. preceding to Census, male babies were born more than female babies in all mandals so also in rural area, urban area and district as a whole, except in Dharpalle mandal, where females were 1006 per 1000 males in 0-6 age group. The lowest sex ratio 913 is found in Varni mandal. As of urban areas in the district, the highest sex ratio of 969 is seen in Kamareddy mandal, followed by Nizamabad mandal urban area with 953 and least sex ratio of 940 is in Bodhan mandal urban area.

Among 3 urban areas in the district Kamareddy Municipality stood first in the sex ratio with 969, second place occupied by Nizamabad(M) with 953 and last place by Bodhan(M) with 940 ratio.

34	Kamareddy	5,831	3,014	2,817	935
35	Bhiknoor	8,018	4,102	3,916	955
36	Domakonda	7,578	3,865	3,713	961
	District (Rural) Total:	**278,642**	**142,173**	**136,469**	**960**

This table gives sex ratio among 0-6 age group population at district level and mandal parishad level. As already stated at table 10, Dharpalle mandal parishad has highest ratio of 1,006 females per 1,000 males and Varni mandal parishad has lowest ratio of 913 females, when district (rural) average sex ratio is 960. Among 36 mandal parishads, 16 mandal parishads have reported less sex ratio than the district average sex ratio, while Machareddy mandal parishad equals to the district average.

TABLE - 12
SEX RATIO OF RURAL POPULATION IN THE AGE GROUP 0-6 BY RANGES, 2001

Range of sex ratio for villages	Number of inhabited villages	Percentage distribution of villages	Population 2001	Percentage distribution of population
1	2	3	4	5
Less than 700	30	3.5	2,225	0.8
700-749	15	1.8	2,742	1.0
750-799	32	3.8	7,002	2.5
800-849	68	8.0	18,878	6.8
850-899	108	12.6	36,310	13.0
900-949	125	14.6	62,462	22.4
950-999	136	15.9	55,564	19.9
1000-1099	206	24.1	68,475	24.6
1100+	134	15.7	24,984	9.0
District (Rural) Total	**854**	**100.0**	**278,642**	**100.0**

Sex ratio (Rural) for District: 960

The above table gives sex ratio of rural population in the age group of 0-6 by ranges as per 2001 Census count. Out of 854 villages, the highest number of villages 206(24%) covering 24.6% of rural population in the age group 0-6 is falling in the sex ratio range of 1000-1099, followed by 136(15.9%) villages covering 19.9% population of rural area in the range of 950-999. Next to it, 134(15.7%) villages with 9% population are in the range 1100+ sex ratio. As already stated male babies are dominating in about 60% of the villages in which about 66% population is covered.

TABLE - 13
SEX RATIO OF POPULATION IN THE AGE GROUP 0-6 OF TOWNS, 2001

Sl. No.	Name of Town+	Urban status of town	Total population in 0-6 age group			Sex ratio for 0-6 age group
			Persons	Males	Females	
1	2	3	4	5	6	7
1	Bodhan	M	10,282	5,301	4,981	940
2	Kamareddy	M	8,633	4,385	4,248	969
3	Nizamabad	M	39,872	20,419	19,453	953
	District(Urban) Total		**58,787**	**30,105**	**28,682**	**953**

+ Towns arranged in alphabetical order.

This table furnishes sex ratio of population in the age group 0-6 of towns in the district. In Bodhan town sex ratio is recorded as 940, while it is 969 in Kamareddy town. Nizamabad town sex ratio equals the district urban average sex ratio i.e. 953 in the age group of 0-6.

		Rural	**1,920,947**	**315,635**	**161,610**	**16.4**	**8.4**
		Urban	**424,738**	**32,523**	**4,125**	**7.7**	**1.0**

The above table furnishes the percentage of Scheduled Castes and Scheduled Tribes population to the total population at mandal level for both rural and urban areas with district. Of 2,345,685 total population of the district, 14.8% population belong to Scheduled Castes population and 7.1% belong to Scheduled Tribes population. In rural areas Scheduled Castes population formed 16.4% and in Urban areas it is 7.7%. The rural and urban percentage of Scheduled Tribes population is 8.4% and 1% respectively. As regards the mandals which is having urban area, Nizamabad mandal has recorded 9.2% in which rural is 14.2% and urban is 7.7%, Bodhan has recorded 13.7% in which rural is 20.1% and urban is 8.4%. Similarly Kamareddy mandal has recorded 11% in which 17.8% is in rural and 6.6% is in urban areas. Madnoor mandal has recorded highest percentage of Scheduled Castes population i.e. 23.7% to the total mandal population. Nizamabad mandal has recorded lowest i.e. 9.2% Scheduled Castes population.

The concentration of Scheduled Tribes population is more in Gandhari mandal, where they have recorded 27% to the total mandal population, followed by Sirkonda mandal with 20.6%. Below 1% Scheduled Tribes population recorded in Madnoor and Domakonda mandals. Speaking about mandals having urban areas it is noticed that Scheduled Tribes population in Nizamabad mandal is 3.9%, while in rural areas of the mandal is 13.7% and in urban areas 1.1%. Similar figures for Bodhan and Kamareddy mandals are 2.4%, 4.6%, 0.7% and 2.1%, 4.0%, 0.9% respectively.

This table gives number and percentage of Scheduled Castes literates at mandal parishad level in the district. The highest literacy rate (51.8) among Scheduled Castes is seen in Bheemgal mandal parishad, where 68.4 is literacy rate among males and 36.5% among females. The lowest literacy rate 23.1 is in Gandhari mandal parishad, in which male literacy rate is 33.0 and female literacy rate is 13.5. In 16 mandal parishads, literacy rate is above district average literacy rate (rural) 38.9, while Yellareddy mandal parishad is equal to the literacy rate of district (rural). The gap in male-female literacy rate is more in Bheemgal(31.9)than any mandal parishad in the district.

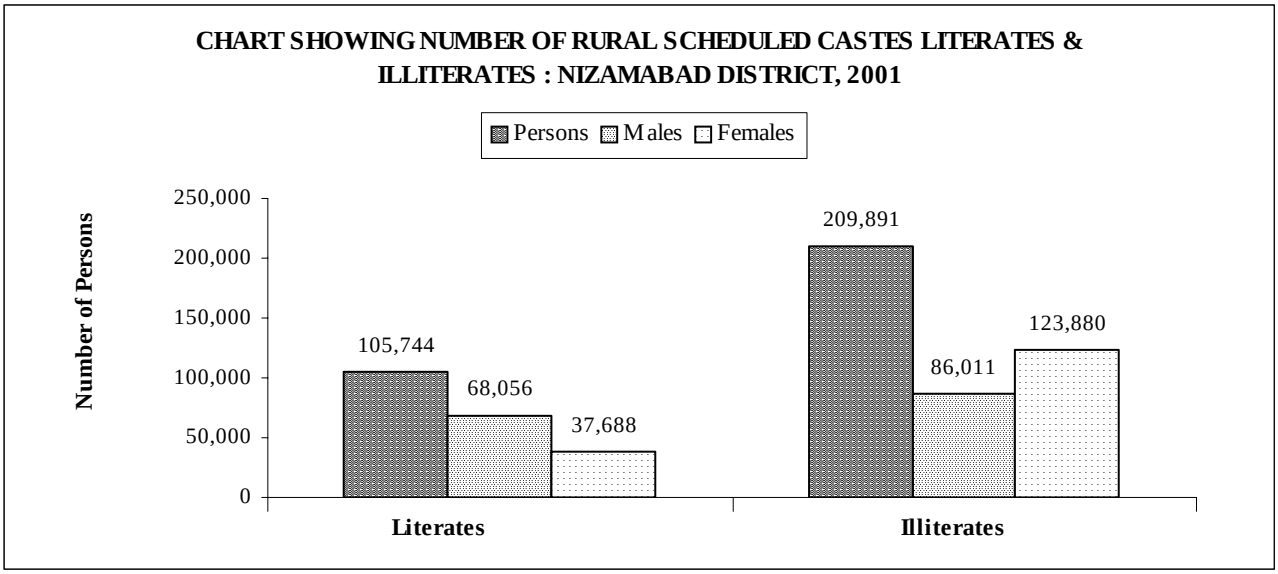

TABLE - 26
DISTRIBUTION OF VILLAGES BY LITERACY RATE RANGE FOR SCHEDULED CASTES POPULATION, 2001

Range of literacy rate for villages	Number of inhabited villages	Percentage distribution of villages	Scheduled Castes Population	Percentage distribution of population
1	2	3	4	5
0	2	0.2	40	-
1-10	11	1.4	1,649	0.5
11-20	77	9.5	18,661	5.9
21-30	158	19.5	51,194	16.2
31-40	283	34.9	103,757	32.9
41-50	196	24.1	95,418	30.2
51-60	64	7.9	37,444	11.9
61-70	13	1.6	6,193	2.0
71-80	6	0.7	1,243	0.4
81-90	1	0.1	22	-
91-99	1	0.1	14	-
100	-	-	-	-
District Total:	**812**	**100.0**	**315,635**	**100.0**

Literacy rate for District (Rural): **38.9**

The above table shows the distribution of inhabited villages for Scheduled Castes population. Out of 854 inhabited villages, Scheduled Castes people are seen in 812 villages. Total persons (40) belong to Scheduled Castes in 2 villages are totally illiterates. One village with 14 persons fall in range of literacy rate 91-99, followed by another village with 22 persons falling in the range 81-90 literacy rate. It is seen that about 10% of villages (with Scheduled Castes population) covering about 14% Scheduled Castes population are reported more than 50% literacy rate. Literacy rate range for maximum number of villages 283(34.9) is 31-40, followed by 196 villages(24.1) falling in 41-50 range. Next to it 158 villages(19.5) fall in 21-30 range.

TABLE - 27
NUMBER AND PERCENTAGE OF SCHEDULED CASTES LITERATES AND ILLITERATES BY SEX IN TOWNS, 2001

Sl. No.	Name and Urban status of Town +	Number of literates and illiterates						Percentage of literates			Gap in male-female literacy rate
		Number of literates			Number of illiterates

This table gives the number and percentage of main workers, marginal workers and non-workers by sex at mandal level for district as per 2001 Census. The population of total workers works out to 49.4% of the total population of the district. The total workers are categorised as 41.4% main workers and 8% marginal workers. Among the main workers, male participation rate in the district is 47.7% and 35.2% of females. Male and female marginal workers account for 6.6% and 9.4% respectively. The percentage of female marginal workers is higher than males. Total workers (main and marginal) among mandals varies from 57.6% in Mortad mandal to 38.5% in Nizamabad mandal.

TABLE - 32

				(54.4)	**(31.3)**	**(26.3)**	**(4.3)**	**(38.1)**
		Females	**1,182,780**	**527,402**	**117,876**	**178,497**	**138,782**	**92,247**
				(44.6)	**(22.4)**	**(33.8)**	**(26.3)**	**(17.5)**

Note: Percentage of Workers to total workers are given in brackets.

It is seen from the above table that the total workers are distributed by four categories of economic activity. Among these four categories of economic activity, agricultural labourers occupy major share with 29.7%, followed by other workers 28.7%. Next to it, cultivators are forming 27.2%. The household industry workers comes to 14.3%. The sex wise breakup shows that males participation in other workers category is more(38.1%), followed by cultivators (31.3%) and agricultural labourers(26.3%). The least male workers participation (4.3%) is seen in household industry. As regard females their participation is more in agricultural labourers category(33.8%), followed by household industry(26.3%). 22.4% of female workers are cultivators. Their percentage in other workers category is less i.e. 17.5 only. In Gandhari mandal 60.3%, cultivators are recorded, which is the highest in the district, while in Kotgiri mandal agricultural labourers are recorded highest at 58.7%. Among household industry, the highest percentage 29.0 is recorded in Bheemgal mandal. The district headquarters mandal Nizamabad has recorded highest percentage 64.7 in other workers category.

TABLE - 35
DISTRIBUTION OF WORKERS BY SEX IN FOUR CATEGORIES OF ECONOMIC ACTIVITY IN MANDAL PARISHADS, 2001

Sl. No.	Name of Mandal Parishad	Persons / Males / Females	Total population	Total number of workers (Main + Marginal)	Category of workers			
					Cultivators	Agricultural Labourers	Household Industry Workers	Other Workers

				(50.0)	**(24.1)**	**(35.8)**	**(25.9)**	**(14.3)**

Note: Percentage of Workers to total workers are given in brackets.

It can be seen from this table the workers participation is 52.9% to the total rural population of the district. At the same time sex wise breakup among rural workers shows that 55.9% are males and 50.% are females. Among total workers 32.8% are agricultural labourers, 30.9% are cultivators, 21.6% are engaged in other workers and 14.7% are in household industry. Male-Female participation in four economic activities accounts, 37.1% and 24.1% as cultivators, 30.2% and 35.8% as agricultural labourers, 4.4% and 25.9% in household industry and 28.3% and 14.3% are in the category of other workers. About 57% are reported as workers in Mortad, Kammarpalle and Velpur mandal parishads. The lowest workers participation rate i.e.,45.2% is recorded in Banswada mandal parishad. As already discussed in table 34, highest cultivators 60.3% are in Gandhari mandal parishad, agricultural labourers 58.7% are in Kotgiri, 29% household industry workers in Bheemgal and 33.5% other category workers in Balkonda mandal parishads.

Note : *Percentage of workers to total workers are given in brackets.*
+ Towns arranged in alphabetical order.

This table reveals the town-wise distribution of workers by sex in four categories of economic activity. The percentage of workers in urban part of the district comes to 33.6%. It comprises 47.6% male workers and 19.3% female workers. The economy of the urban part of the district is primarily other workers category as supported by the fact that other workers contributed 79.7% of the total workers and remaining 20.3% of total workers are engaged as cultivators(1.4%), agricultural labourers(7.5%) and household industry(11.4%). The highest percentage 83.5% of workers in other activity is in Kamareddy town followed by Nizamabad town 81.6 and Bodhan town is 67.5. In the category of other workers, male percentage 91.4 is observed in Nizamabad town. Next to it Kamareddy town (89.3%) and Bodhan town (77.9%). Again Kamareddy stood first in ranking of female participation (68%) in other activities and at the bottom level stood Bodhan town(37.1%). The percentage of cultivators in all the towns is very low while agricultural labourers are 21.2% in Bodhan town, 7.1% in Kamareddy town and 4.5% in Nizamabad town. The highest percentage of household industry workers are in Nizamabad town(12.7%) and in remaining two towns it is about 8%. The females participation is more in this activity than males in all the three towns. Beedi rolling is famous in this district which is an household industry.

Note *: - Percentages are given in brackets.*

* *Based on the improved drinking water source, drinking water supply has been classified as 'Improved ' or otherwise. If the household has access to drinking water supplied from a tap or a hand pump / tube well situated within or outside the premises it is considered as having access to 'Improved drinking water source'. However, the concept of improved drinking water is state specific and this is to be considered accordingly.*

\# *Post office includes Post office, telegraph office and Post and telegraph office.*

$ *Transport communication includes bus service, rail facility and navigable waterways.*

This table speaks about availability of amenities in the villages by mandal parishads. All the inhabited villages in the district have atleast one primary amenity. Education facilities are available in 98.5% villages i.e., only 13 villages did not posses this facility. Of 36 mandal parishads, all villages in 24 mandals have this facility. Out of 26 villages in Nizamsagar mandal parishad, about 8 percent villages have no educational facility. Similarly, 7% villages in Kammarpalle mandal parishad also deprived of this facility.

Medical facilities are available in 71.9% villages. Medical facilities are available in all the villages of Armur, Balkonda, Mortad, Yedpalle and Nagareddipet mandal parishads. Least percentage of villages in Pitlam mandal parishad are provided this facility.

The postal facilities are available in 52% villages. Safe drinking water facility is available in all the

villages.Telephone facilities are available in 403(47.2%) villages, which shows need of much more improvement. These facilities are available in 90% villages of Yedpalle mandal parishad, closely followed by Kotgiri mandal parishad, with 80% of villages. No village in Tadwai and Machareddy mandal parishads have telephone facility. 13% villages are still deprived of transport facilities. This can be improved only when these villages are connected by pucca road facility. Total villages of 9 mandal parishads in the district have transport facilities while more than 90% villages in another 19 mandals possess this facility. About 50% of villages in Madnoor Mandal Parishad deprived of this facility. Out of 854 villages 760(89%) villages have pucca approach roads. All villages among 12 mandal parishads in the district are connected by pucca road. But, in Makloor mandal parishad only 54.5% villages are connected by pucca road. Commercial Banks are located in 153(17.9%) villages. Number of banks varies from 8 each in Bheemgal, Bodhan and Dichpalle to one each in Jukkal and Lingampet Mandal Parishads. Agricultural Credit Societies are available in 192 villages. The number of villages with agricultural credit societies varies from 14 in Bodhan and two each in Bheemgal, Madnoor, Jukkal and Machareddy mandal parishads. All the villages in the district have been electrified.

* *Based on the improved drinking water source, drinking water supply has been classified as 'Improved ' or otherwise. If the household has access to drinking water supplied from a tap or a hand pump / tube well situated within or outside the premises it is considered as having access to 'Improved drinking water source'. However, the concept of improved drinking water is state specific and this is to be considered accordingly.*

\# *Post office includes Post office, telegraph office and Post and telegraph office.*

$ *Transport communication includes bus service, rail facility and navigable waterways.*

The above table shows number and proportion of rural population served by different amenities like education, improved drinking water, electricity, medical, post offices, transport and pucca approach road etc., are available to good number of rural population (above 80%). While telephone, commercial banks and agricultural credit societies are serving to 59.6%, 41.3% and 45.7% of rural population respectively.

Less than 20% rural population of Jukkal, Sirkonda, Nizamsagar, Nagareddipet and Kamareddy mandals are getting Bank facilities with in their respective villages. Similarly postal service is seen in Madnoor, Jukkal and Nizamsagar mandals where only 53.3%, 46.2% and 52.1% is available. All the inhabited villages in the district have atleast one primary amenity. Regarding the Educational facilities are concerned, these faciities are available to 99.9% population of the district.

The medical facilities are available to 89.3% population of the district. At mandal parishad level these medical facilities are available in all the villages of Armur, Balkonda, Mortad, Yedpalle and

Nagareddipet mandal parishads. Least percentage of population in Pitlam mandal parishad is provided with this facility.

The postal facilities are available for 79.8% population, whereas about 50% population in Jukkal, Bichkunda, Madnoor, Kotgiri, Nizamsagar and Gandhari mandals are denied with this facility. Safe drinking water facility is available in all the villages.Telephone facilities are available to 59.6% population, which shows need of some more improvement. At mandal parishad level this facility is available to 96.9% population of Kotgiri mandal parishad stood first, Yedpalle with 93.7% which occupied the second place, and third place by Ranjal mandal parishad with 91.4%. No village in Tadwai and Machareddy mandal parishads have telephone facility. 4% population is still deprived of transport facilities. This can be improved only when these villages are connected by pucca road facility. Total villages of 9 mandal parishads in the district have transport facilities while more than 90% villages in another 24 mandals possess this facility. About 35% of population in Madnoor Mandal Parishad deprived this facility. Out of 854 villages 94.7% population have pucca approach roads. All villages among 12 mandal parishads in the district are connected by pucca road. Commercial Banks are provided to 41.3% population. Agricultural Credit Societies are also available to 45.7% population. All the villages in the district have been electrified.

.

TABLE - 39
DISTRIBUTION OF VILLAGES NOT HAVING CERTAIN AMENITIES ARRANGED BY DISTANCE RANGES FROM THE PLACES WHERE THESE ARE AVAILABLE, 2001

Village not having the amenity of	Distance range of place from the village where the amenity is available			
	Less than 5 kilometers	5-10 kilometres	10+ kilometres	Total
1	2	3	4	5
1. Education :-				
(a) Primary School	14	-	1	15
(b) Middle School	276	90	71	437
(c) Degree College	40	131	673	844
2. Medical:-				
(a) Hospital	85	185	565	835
(b) PHC	163	236	405	804
3. Post Office	306	62	41	409
4. Telephone	79	61	311	451
5. Bus Service	94	6	10	110
6. Banks				
(a) Commercial Bank	305	245	164	714
(b) Cooperative Bank	138	260	407	805
7. Agricultural Credit Societies	302	202	158	662

This table shows distribution of villages not having certain amenities within the village at district level. It is very strange to note that primary education for students of one village and middle school education for students of 71 villages available at a distance of 10+ kms. from their villages. Probably these villages may be having less population. The students of 673 villages have to travel beyond 10kms. to have degree colleges education. Out of 437 villages, 276 have middle school facility at a distance of less than 5 kms. for 90 villages at 5-10 kms. Out of 844 villages where degree colleges are not available with in the village, 40 have this facility at below 5 kms. for 131, at a distance of 5-10 kms.

Similarly, out of 854 villages 835 have deprived of hospital facility and 804 of PHC facility. Of them 85 villages have hospital facility within 5 kms., inhabitants of 185 villages have to go 5 to 10 kms. and of 565 villages, they have to cover more than 10 kms.

As regards PHCs 163 villages avail this facility within 5 kms., 236 at 5-10 kms. and remaining 405 at above 10 kms. Regarding post offices, 409 villages do not have the facility within the village. Of these 41 have this facility at a distance 10 kms. and above, 62 have at 5-10 kms. and 306 villages have at below 5 kms.

About telephones are concerned , 451 villages do not have this facility. Of these, 79 villages get this facility at a distance of below 5 kms., 61 at 5-10 kms. and for 311 villages it is available at 10+ kms.

For bus facility, out of 110 villages where this facility is not available within the village, 94 villages avail this facility at a distance of less than 5 kms., 6 at a distance 5-10 kms., and 10 at a distance of 10+ kms.

Of the total villages, 714 deprived of commercial banks and 805 of cooperative banks. At a distance below 5 kms, 305 villages availing commercial banks facility and 138 cooperative banks. At a distance between 5-10 kms., 245 villages availing commercial banks and 260 cooperative bank facility at a distance beyond 10 kms. 164 availing commercial banks facility 407 cooperative bank facility. 662 villages do not have Agricultural credit societies. This facility to 302 villages is available at a distance less than 5 kms., 202 at a distance of 5-10 kms. and for 158 villages at a distance of 10+ kms.

 # Post office includes Post office, Telegraph office and Post and telegraph office.

$ Transport communication includes bus service, rail facility and navigable waterways.

The above table shows the number and percentage of villages according to population range and amenities available as of 2001 census at district level. Education facilities are available in all the

villages having more than 1000 population. 11 villages are in below 500 population range and 2 are in 500-999 population range deprived of this facility. 76% villages in below 500 and about 56% villages in 500-999 and 25% villages in 1000-1999 population range do not have medical facilities within the village. Out of remaining ranges about 4% Villages in 2000-4999 population do not have this facility and in other ranges all the villages are with this facility within the village. All villages in the district have improved drinking water and electricity facilities within the village. The remaining facilities are not available in majority of villages falling in less population ranges. It is noticed that villages follow in the higher range of population were provided with these facilities. Above 10,000 population villages have all amenities.

TABLE - 42
DISTRIBUTION OF VILLAGES ACCORDING TO LAND USE, 2001

Sl. No.	Name of Mandal Parishad	Number of inhabited villages	Total area (in hactares)	Percentage of cultivable area to total area	Percentage of irrigated area to total cultivable area

33	Tadwai	22	23,475	38.3	26.5
34	Kamareddy	21	12,428	40.0	45.4
35	Bhiknoor	19	17,988	67.3	38.4
36	Domakonda	20	16,914	58.9	55.8
	District Total:	**854**	**742,592**	**44.3**	**53.2**

Note : - Cultivable area = irrigated area + unirrigated area

The above table gives mandal parishad-wise distribution of villages according to land use. This district has 742,592 hectares area, of which 44.3% is cultivable area. Of the cultivable area 53.2% is irrigated. Velpur mandal parishad has highest cultivable area with 88.7% of which only 15.2% is irrigated. Nizamsagar and Yellareddy mandal parishads have recorded very less area under cultivation i.e.,21% each, whereas their percentage of irrigated area to total cultivable area works out to 93.3 and 88.5 respectively. In Balkonda mandal parishad 53% of the total area is under cultivation. The entire cultivable area of this mandal has been brought under irrigation mainly due to the location of Sri Ram Sagar project.

TABLE - 43
PER CAPITA RECEIPT AND EXPENDITURE IN STATUTORY TOWNS

Sl. No.	Class, name & urban status of Town +	Per capita receipt (in Rs.'00)			Per capita expenditure (in Rs.'00)					
		Total	Through taxes	From all other sources	Total	General Administration	Public health and conveniences	Public works	Public institutions	Other(s)
1	2	3	4	5	6	7	8	9	10	11
1	II Bodhan (M)	215	83	132	178	85	1	72	-	20

3	I Nizamabad (M)	186	58	128	163	105	7	19	-	32
	District Total	**206**	**73**	**133**	**183**	**114**	**6**	**27**	**8**	**28**

+ Towns arranged in alphabetical order.

The above table shows per capita receipt and expenditure (in hundreds of rupees) in towns of the district. The per capita income of statutory towns of the district is Rs.206 and per capita expenditure is Rs.183. Kamareddy town has shown highest per capita income of Rs.286 and highest expenditure of Rs.277. The lowest per capita income is shown in Nizamabad town i.e. Rs.186 and per capita expenditure Rs.163.

More per capita expenditure is incurred on General Administration in all three Municipalities. The highest per capita expenditure of Rs.72 is incurred on public works in Bodhan Municipality, Rs.49 per capita expenditure on public institutions in Kamareddy town and in Nizamabad town the highest per capita expenditure of Rs.32 is incurred on other works.

TABLE - 44
SCHOOLS / COLLEGES PER 10,000 POPULATION IN STATUTORY TOWNS, 2001

Sl. No.	Name and urban status of Town +	Type of educational institution				
		Primary	Junior Secondary/ Middle	Secondary/ Matriculation	Senior Secondary	College
1	2	3	4	5	6	7
1	Bodhan (M)	4.8	3.5	1.7	0.8	0.4
2	Kamareddy (M)	6.5	5.3	3.1	1.1	0.3
3	Nizamabad (M)	4.4	3.9	1.9	0.6	0.2
	District Total	**4.8**	**4.0**	**2.0**	**0.7**	**0.3**

+ Towns arranged in alphabetical order.

The above table shows number of educational institutions per 10,000 population. As regards educational institutions are concerned 4.8 primary, 4 middle, 2 secondary schools are available per 10,000 population of statutory towns, while 0.7 Junior colleges and 0.3 Degree colleges are available. Kamareddy town has better position among statutory towns as for as educational institutions are concerned.

TABLE - 45
NUMBER OF BEDS IN MEDICAL INSTITUTIONS IN TOWNS, 2001

Sl. No.	Name and urban status of the Town+	Number of beds in medical institutions per 10,000 population
1	2	3
1	Bodhan(M)	22
2	Kamareddy(M)	22
3	Nizamabad(M)	17
	District Total	**18**

+ Towns arranged in alphabetical order.

This table gives number of beds in medical institutions in the towns of district. There are 18 beds per 10,000 population in the statutory towns of the district. 22 beds each are available per 10,000 population in Bodhan and in Kamareddy towns and in Nizamabad town it is 17.

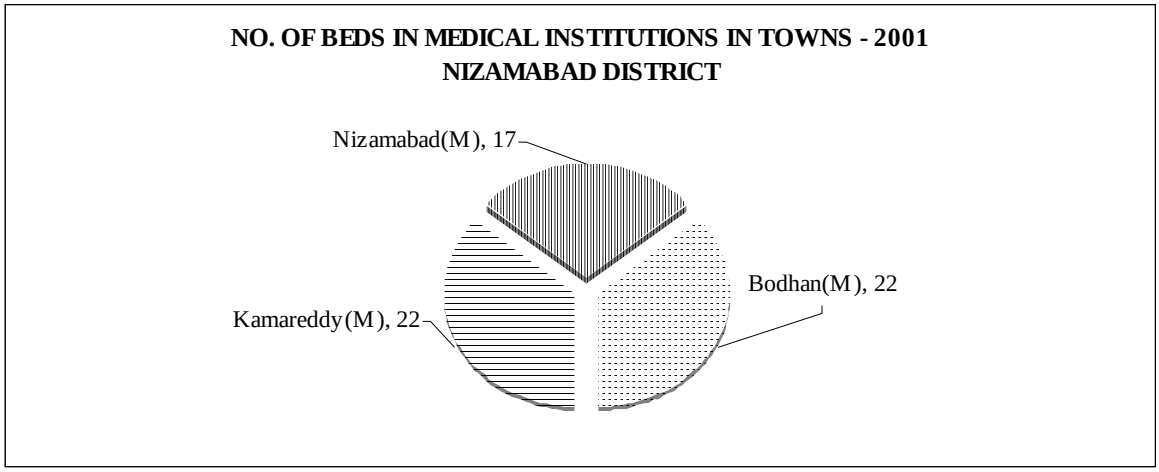

TABLE - 46
PROPORTION OF SLUM POPULATION IN TOWNS, 2001

Sl. No.	Name of the Town +	Total Population	Slum Population	Percentage of slum population to total population
1	2	3	4	5
1	Bodhan	71,520	53,499	74.8
2	Kamareddy	64,496	19,601	30.4
3	Nizamabad	288,722	101,675	35.2
	District Total	**424,738**	**174,775**	**41.1**

+ Towns arranged in alphabetical order.

This table shows slum population in towns of Nizamabad district is 41.1%. The highest proportion of slum population (74.8%) is seen in Bodhan town followed by Nizamabad town, where only 35.2% is recorded. In Kamareddy town, slum population is formed 30.4%.

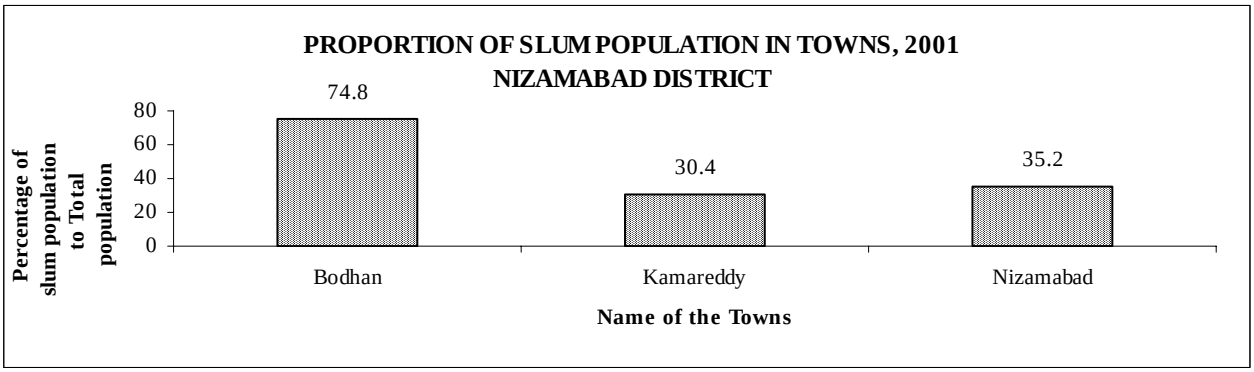

TABLE -47
MOST IMPORTANT COMMODITY EXPORTED OUT OF AND MANUFACTURED IN TOWNS, 2001

Sl. No.	Name and urban status of Town+	Most important commodity	
		Manufactured	Exported
1	2	3	4
1	Bodhan (M)	Sugar	Rice Turmeric Maize
2	Kamareddy (M)	Pipes Khara,Sweets Ice,Food Items	Jaggery Beedies Maize
3	Nizamabad (M)	Jaggery Sugar Beedies	Paddy Sugar Turmeric

+ Towns arranged in alphabetical order.

This table narrates most important commodity exported and manufactured in the towns of the district. Sugar , Jaggery, Beedies, pipes etc., are most important commodities manufactured in urban areas of the district. Beedi rolling among females in the district is predominant occupation. Rice, Turmeric, Sugar, Beedies, Jaggery etc., are most important commodities, exported from the urban areas of the district. The famous Nizam Sugar Factory is located in Bodhan town.

Data Source : Census of India, 2001, H-Series : "Tables on Houses, Household Amenities and Assets".

This table gives number of households by tenure status and number of rooms occupied in the district. This district has 477,566 households, of which 400,999 are in rural areas and 76,567 in urban areas. Of the total households, 400,740 households are living in owned houses. Of which 8,167 have no exclusive dwelling room, 132,208 households have one dwelling room, 162,000 households have two dwelling rooms, 51,797 households have 3 dwelling rooms and 46,568 households have more than 3 dwelling rooms. The households without dwelling rooms formed 2.23% in rural areas and 1.1% in urban areas. Households with one room are forming 35.3% in rural areas, 29.4% in urban areas, with two rooms are forming 40.9% and 35.2% respectively. But households with three rooms and more than three rooms are forming more percentage in urban areas i.e. 18.0% and 16.3% respectively against 11.9 and 9.6% in rural areas.

Out of 71,857 households, who are residing in rented houses, 1,141 have no exclusive dwelling rooms, 29,594 have one dwelling room, 27,610 have two

dwelling rooms, 9,455 have three dwelling rooms and 4,057 more than three dwelling rooms. When compared rural – urban figures, households without dwelling room, with one and two dwelling rooms are forming more percentage in rural areas, while households with three dwelling rooms and more than three rooms are forming more percentage in urban areas to the total households of respective areas.

72,418 households belongs to S.C. population are living in owned houses. Of which 2.4% households do not have dwelling room, about 44% households have single dwelling room, 42% households have two dwelling rooms, households with three and more than three rooms are forming 7.1% and 4.9% respectively. In urban areas households with three dwelling rooms and more are forming 12% and 11% respectively.

Of 6,294 households of S.C. population who are residing in rented houses, more than 50% households are residing in single dwelling room both in rural and urban areas. But percentage of households living with 3 dwelling rooms and more to total households of rural and urban areas, separately is higher in urban areas than rural areas as 12.1% and 4.0% respectively in urban areas against 4.8% and 1.6% respectively in rural areas.

Similarly, among S.T. population, 30,095 households are residing in owned houses and 2,067 are residing in rented houses. About 1/3 households who have own houses and 1/4 of households residing in rented houses are in urban areas. About 43% of households, residing in own houses, have single dwelling room so also 40% percentage of households have two dwelling rooms. In urban areas they are forming about 35% and 43% respectively. About 50% households living in rented houses have single dwelling room. About 13% households who are residing in own houses and 11% households are residing in rented houses have three or more than three dwelling rooms

Data source : Census of India, 2001, H-Series; "Tables on Houses, Household amenities and Assets".

The above table shows out of 477,566 total households in the district, 73.4% have improved Drinking water facility, 74.1% households have electricity connection, 44.3% households have bath room facility, about 26.5% households have toilet facility with in their houses. Drainage facility is

available to 72% households. The highest percentage i.e. about 85% households of Velpur mandal and lowest percentage(56%) is in Gandhari mandal have improved drinking water facility with in their reach. More than 80% households in 6 mandals of the district are having improved drinking water facility. In Armur, Balkonda, Mortad, Kammarpalle, Bheemgal, Velpur and Jakranpalle mandals more than 90% of households have power connections.

About 72% households have bathrooms and 70% households have toilets with in their houses which is highest percentage in Nizamabad mandal Parishad. Least percentage about 12-15% having bathroom facilities are noticed in Jukkal, Lingampet and Tadwai mandals and 15 and below percentage of households having toilets are noticed in 23 mandal parishads, whereas the least percentage being 5.8% in Gandhari mandal Parishad. Drainage facilities having highest percentage(80% and above) are found in Armur, Balkonda, Velpur, Nizamabad, Bodhan, Kamareddy and Nizamsagar mandals. The least percentage (about 40%) of households having drainage facilities is noticed in Gandhari Mandal. More than 80% of households in three towns of the district have all those facilities, except Bodhan, where only 78% households have power connections, 66% have bathrooms, 67% have toilets and in Nizamabad 77% households have improved drinking water facility.

Data source : Census of India, 2001, H-Series; "Tables on Houses, Household amenities and Assets".

Note: Percentage has given in brackets after the total households.

While looking at the figures available in this table for households by type of fuel used for cooking, it is noticed that 72.7% households are using fire wood as fuel, followed by 17% households use L.P.G., 4.9% households use Kerosene and 3.6% households use crops residues. The remaining fuels are forming less than 1%. More than 90% households in Sirkonda, Machareddy, Sadasivnagar, Gandhari, Nizamsagar, Nagareddipet, Lingampet and Tadwai mandal parishads use fire wood, while in Nizamabad mandal parishad only 40% households use fire wood.Usage of LPG is found more than 20% of households in Armur(35.5%), Balkonda(23.3%), Velpur (25.9%), Jakranpalle(26.4%) Nizamabad (39.6%), mandal Parishads. The highest percentage(16.7%) Kerosene users are found in Nizamabad mandal parishad, followed by Kamareddy mandal Parishad(14%). In Jukkal mandal parishad only 56 LPG connections are existing.

In respect of the three towns of the district, 47.8% households in Nizamabad town use LPG as a fuel for cooking, followed by 27.2% households use fire wood and 21.5% households use kerosene. In Bodhan about 51% households use fire wood, 31% households LPG, 10% households use kerosene and 7% households use crop residue as fuel for cooking. 45.3% of households in Kamareddy town have LPG connections, 28.6% households use fire wood and Bodhan (21.9%) and Kamareddy(30.6%), 22.9% households use Kerosene as fuel for cooking.

Data Source : *Census of India 2001, H-series; "Tables on houses, household amenities and assets"*

This table shows about 36% households in the district are availing Banking facilities. In rural areas 37.3% households and in urban areas 28.2% households are availing their facility. Among towns, Kamareddy town recorded 31.4% households availing Banking facility, followed by Nizamabad town 28.6% and Bodhan town with 23.7%.

There are 21.5% households have radio, 27.1% have television, 8.3% households have telephones, 38.2% have bicycles and 9.4% have two wheelers. Less than 1% households have 4 wheelers. Gandhari Mandal Parishad has less number(30) telephone connections and Tadwai mandal parishad has only 14 cars, Jeeps etc.

Nizamabad town ranks top in having specified assets. This town has 11,790 radios, 31,172 televisions, 12,105 telephone connections, 11,543 two wheelers and 1,371 four wheelers.

(xiii) Scope of Village Directory and Town Directory - Column heading wise explanation and coverage of data

The village directory and the town directory presented in the District Census Handbooks are proved more useful. The formats of village directory and of seven statements on town directory are on the same pattern canvassed in 1991 census except for a few additional columns. These additional columns are introduced to throw more insight into the infrastructure of the villages and towns. All the amenities except recreational and cultural facilities, power supply and news papers/magazines are brought under one bracket, with corollary that in case any amenity is not available in the village, the distance of the nearest place where the facility is available is presented. Similar method is followed in respect of towns where educational and medical facilities are not available. The non-census data presented in the village and town directories relate to the year 1999. However, wherever the field agencies have indicated the later position, the information has been updated. Almost all the details in the statement have been indicated by codes. In respect of total population and total number of households, the figures as returned during the recent census i.e. 2001 census have been presented. The scope of village directory and town directory statements with column heading-wise explanation and coverage of data are hereunder presented.

Scope of Village Directory :

In the similar manner as was done in the past, the village directory has been prepared for all the villages in the state and these are presented mandal-wise in the District Census Handbook. This statement contains village-wise area, population, amenities such as educational, medical, communications, drinking water facilities, etc., and also the land use pattern details. The villages are shown in order of their permanent location code numbers. An alphabetical list of villages with their permanent location code numbers and a mandal map has been presented in the beginning of Village Directory of each mandal. This facilitates the reader in locating the mandal in which a particular village lies. The village directory now contains 23 columns as against 18 columns in the 1991 handbook. To give more information under amenities column, banking facilities such as commercial and co-operative banks, agricultural, non-agricultural and other credit societies have been included in the present statement. Similarly, a new column 'number of recreational and cultural facilities' showing cinema/video halls, sports club and stadium/ auditorium has been added. In addition to the above a column showing newspapers/magazines received and name of the most important commodity manufactured in the village have been incorporated. Besides the above, the Village Directory is having 12 appendices viz.

Appendix I	:	Abstract of Educational, Medical and other amenities in the villages – Mandal Parishad level.
Appendix 1A	:	Villages by number of primary schools
Appendix 1B	:	Villages by primary, middle and secondary schools
Appendix 1C	:	Villages with different sources of drinking water facilities available

Appendix II	:	Villages with 5,000 and above population which do not have one or more amenities
Appendix IIA	:	Census Towns which do not have one or more amenities
Appendix III	:	Land utilization data in respect of census towns / non-municipal towns
Appendix IV	:	Mandal Parishad-wise list of inhabited villages where no amenity other than drinking water facility is available
Appendix V	:	Summary showing number of villages not having Scheduled castes population
Appendix VI	:	Summary showing number of villages not having Scheduled tribes population
Appendix VII A	:	List of villages according to the proportion of the Scheduled Castes to the total population by ranges.
Appendix VII B	:	List of villages according to the proportion of the Scheduled Tribes to the total population by ranges.
Appendix VIII	:	Statement showing number of Girls schools in the villages
Appendix IX	:	List of Degree Colleges by Village/Town in the district
Appendix X	:	List of Hospitals by Village/Town in the district
Appendix XI	:	List of Banks by Village/Town in the district
Appendix XII	:	List of Cinema Halls by Village/Town in the district

It may be noted that the Appendix 1A, 1B, 1C, II, II-A, VIII, IX, X, XI and XII have been included afresh in comparison to the District Census Hand Books of 1991 Census.

Columns 1 to 3 of Village Directory relate to the serial number, location code number, name and total area of the village. The area given under column 3 is as per the data collected from the state survey department during 1991 census and presented even for 2001 census as the department clarified that there are no changes in the area figures. Column numbers 4 and 5 provide the total population and the total number of households in the village as per 2001 census. Columns 6 to 13 list out the basic amenities available in the village such as educational, medical, drinking water, post, telegraph and telephone, commercial and co-operative banks, agricultural, non-agricultural and other credit societies, recreation and cultural facilities and communications.

The columns 14 to 18 give the details of approach to the village, nearest town & distance, power supply, news paper/magazine circulation and most important commodity manufactured in the village.

The remaining columns 19 to 23 pertain to the land use pattern in the village. The extent of forest area has been given in column 19 while in columns 20 and 23 the extent of irrigated area together with different irrigational sources, the extent of culturable waste including gaucher and groves and the area not available for cultivation such as buildings, roads and railways or under water(rivers and canals), etc., have been given. Here it is worth mentionable that the total area figures of Col. 19 to 23 may not tally with the total area of the village as shown in Col. 3 due to various reasons such as water ways, etc., which are not generally included in the land use statistics.

The land use pattern in the Village Directory conforms to the pattern of classification of land use as recommended by the Ministry of Agriculture, Government of India. The Ministry of Agriculture has recommended the maintenance of records of land use pattern under five categories viz. forests, not available for cultivation, other uncultivated lands excluding fallow lands, fallow lands and net area sown.

The concepts of various types of land use given under each of the columns 19 to 23 as given in the Village Directory schedule are reproduced below:

1. Forests (Col.19) :

These include all actually forested areas and the lands classified or administered as forests under any legal enactment dealing with forests whether State owned or private. If any portion of such land is not actually wooded but put to some agricultural use, that portion is included under the appropriate heading of cultivated or uncultivated land.

2. Cultivated area with break-up irrigated and un-irrigated (Col. 20 & 21):

This includes the land under the following three categories.

I) Net area sown :

The net area sown represents the area sown to crops counting areas sown more than once in the same year, only once.

II) Other fallow lands :

This includes all lands which were taken up for cultivation but are temporarily out of cultivation for a period of not less than one year and not more than five years. The reasons for keeping such lands fallow may be either due to poverty of the cultivators or inadequate supply of water or malarial climate or silting of canals or rivers or un-remunerative nature of farming, etc.

III) Current fallows :

This class comprises cropped areas which are kept fallow during the current year. If any seedling area is not cropped again in the same year, it is also treated as current fallows.

3. Culturable Waste (Col. 22):

This item includes the land under the following three categories.

i) Permanent pastures and other grazing lands:

These cover all grazing lands whether they are permanent pastures and meadows or not. Village common and grazing lands within forest areas are included under this head.

ii) Lands under miscellaneous tree crops and groves not included in the area sown:

Under this class is included all cultivable land which is not included under net area sown but is put to some agricultural use. Lands under casurina trees, thatching grass, bamboo bushes and other groves for fuel, etc., which are not included under 'Orchards' are classed under this category.

iii) Culturable waste:

This includes lands available for cultivation but not taken up for cultivation or abandoned after a few years for one reason or other. Such lands may be either fallow or covered with shrubs and jungles, which are not put to any use. They may be assessed or not assessed and may lie in isolated blocks or within cultivated holdings. Land once cultivated but not cultivated for five years in succession is also included in this category.

4. Area not available for cultivation (Col.23) :

This includes the land under the following two categories.

i) Land put to non-agricultural uses :

All lands occupied by buildings, roads and railways or under waters such as rivers and canals and other lands put to uses other than agricultural.

ii) Barren and uncultivable land :

This covers all barren and uncultivable land like mountains, etc., i.e. which cannot be brought under cultivation unless at a high cost. Whether such land is in isolated blocks or within cultivated holdings.

All the above particulars are based on the data received from the concerned departments like education, medical, postal, electricity, etc., and also mainly from the Mandal Revenue Officers concerned.

Item on communications has been shown separately to spell in terms of availability of the public transport system. This is meant to see whether the village is served by any mode of transport such as bus or rail or waterway. It is against this back-ground that the item on approach to village has been given separately. This refers to road, etc., leading to the village and is to indicate whether the village is approachable both in fair and foul weather and whether it is inaccessible for all time or only some time in the year. Adult literacy class/centre under item on 'Education' and Primary health centre and

Community health worker under item 'Medical' of Village Directory are included to indicate statistics on the Minimum Needs Programme of the Planning Commission.

Scope of Town Directory :

There are seven statements in the Town Directory, which include several particulars relating to the towns arranged as per the alphabetical order of their names. These statements are almost similar to those adopted in 1991 census except for a few changes. During the 1991 there were six Town Directory statements besides providing a separate statement IV-A bringing out civic conditions of the notified slums in class I and II towns. In the present volume, the statement IV-A of the 1991 handbook has been termed as statement-VII and the data is presented in respect of all towns having statutory bodies including un-notified slums. The column 4 of statement IV-A of the 1991 book i.e. area of the slum has been deleted in the present book duly substituting the same by giving the information – whether the slum is notified or not with a view that the local authorities are not in a position to provide exact area figures for each slum area. Further in the present statement-VII another item i.e. approximate number of households living in the slum is incorporated. The captions of the statements are as follows:

Statement I	: Status and growth history
Statement II	: Physical Aspects and location of town, 1999
Statement III	: Municipal Finance, 1998-99
Statement IV	: Civic and other Amenities, 1999
Statement V	: Medical, Educational, Recreational and Cultural Facilities, 1999
Statement VI	: Trade, Commerce, Industry and Banking, 1999
Statement VII	: Civic and other Amenities in slums, 1999

The formats of Town Directory have been devised to suit the Minimum Needs Programme of the Planning Commission. To reflect this programme, the columns scheduled castes and scheduled tribes population in statement IV and Adult Literacy classes/ Centres in statement V are identical.

In case such of the amenity as Fire Fighting Service in statement IV, the Educational or Medical facility in statement V is not available in the town, the name of the nearest place and its distance from the referent town has been given. This feature is followed since 1981 census as it is necessary to identify the areas that have no specific facility in the district.

Statement I : Status and Growth History :

This statement provides basic information on civic status, population with decadal growth rate from 1901 to 2001, density for 2001 census and sex ratio from 1981 to 2001 censuses of each town besides presenting class of town, location code, name of the mandal, area in sq.kms. and number of households including houseless households returned in 2001 census.

The columns 1 and 2 relate to serial number and class, name and civic status of the town. The class of town has been determined basing on the size of population as given below.

Population	Class
1,00,000 and above	I
50,000 – 99,999	II
20,000 – 49,999	III
10,000 – 19,999	IV
5,000 – 9,999	V
Below 5,000	VI

The civic status of the town is indicated in brackets by abbreviated letters like 'M.Corp.' for Municipal Corporation and 'NP' for Nagar Panchayat. The location code number under column 3 for the town has been framed in the order of geographical contiguity, beginning from North West point of the district and ending at South East point. After location code the Col. 4-7 indicate name of mandal, name of mandal parishad, area of the town in sq. kms. and number of households including houseless households recorded in 2001 census. The population of the town with decadal growth rate from 1901 census to 2001 census is given in Col. 8-18. The column 19 shows the density of population and column 20 to 22 give

the sex ratio recorded during 1981 to 2001 censuses. The sex ratio defined here is number of females per 1,000 males.

The following three places are treated as urban areas in Nizamabad District at the 2001 Census.

1.Bodhan

2.Kamareddy

3.Nizamabad

Nizamabad and Bodhan are continuing as urban areas since 1901, and Kamareddy since 1941. The places Armoor, Banswada and Sriramsagar which were urban areas since 1971 Census have been declassified at 2001 Census due to strict application of criteria for treating a place as town.

Nizamabad is a class I town, which has crossed 1 lakh population during 1991 Census and the remaining two towns Bodhan and Kamareddy are class II towns whose population falls in the range of 50,000 and 99,999. Both Nizamabad and Bodhan have registered highest growth rate with 74.1% and 176% respectively during 1941 Census over the population of 1931 Census. Similarly Kamareddy(M) was also recorded highest growth rate of 85.3% during 1981 over the 1971 Census population.

Statement II: Physical aspects and location of Towns, 1999 :

This statement contain 13 columns and depicts physical aspects and location of town in the district. Column numbers 1 and 2 relate to serial number and class and name of the town. The physical aspects such as rainfall in millimetres maximum and minimum temperature in centigrade have been shown in columns 3 to 5 by taking average for the last ten years i.e. from 1990 to 1999. Nizamabad town has recorded 1089 mm of average rainfall and Bodhan and Kamareddy 920 mm and 892 mm respectively. In respect of maximum and minimum average temperature, both the towns Nizamabad and Bodhan have recorded 37^0C and 12^0C and Kamareddy 43^0C and 10^0C respectively. The columns 6 to 12 give the details of name and road distance in Kms. from the referent town to state, district and mandal headquarters, nearest city with population of one lakh and more and 5 lakh and more, railway station and bus service. Nizamabad city is 170kms. away from State headquarters, while Bodhan and Kamareddy are 190kms. and 111kms. respectively. Bodhan and Kamareddy towns are 22kms. and 55 kms away from District headquarters Nizamabad. All these three are Mandal headquarters. The last column i.e. column number 13 is meant for showing name of the navigable river/canal within the distance of 10 Kms. from the referent town. There is no navigable river/ canal in the district for providing cheap navigational facilities.

Statement III: Municipal Finance, 1998-99 :

The details for inclusion in this statement were obtained from the respective statutory bodies. In the statement there are 16 columns. Column 1 & 2 relate to serial number, name and class of town with civic status. Columns 3 to 9 show the receipts of the local body under various sub-heads and columns 10 to 16 give the details of expenditure incurred on general administration, public safety, public health and conveniences, public works and institutions, etc. During the year 1998-99, the total income of Nizamabad, Bodhan and Kamareddy was 5.38, 1.54 and 1.85 crores of rupees respectively and the total expenditure was 4.70, 1.28 and 1.78 crores of rupees. The income derived through taxes was 31% in respect of Nizamabad town, 38.48% in Bodhan town and 46.48% in Kamareddy town. These three towns have received 12.1%, 39.1% and 21.7% respectively as Government Grant.

In respect of expenditure, it is noticed that 64.31%, 47.54% and 67.49% of total expenditure was incurred on administration by Nizamabad, Bodhan and Kamareddy Municipalities respectively. The Nizamabad Municipality has spent 26.73% on other expenditure and 11.93% on public works while 4.57% on public health and convenience. Similarly Bodhan Municipality has incurred 40.37% on public works and 11.54% on other expenditure. As regards Kamareddy Municipality it has incurred 17.88% on public institutions and 7.34% on other expenditure. On public works this municipality has spent and 4.55% of total expenditure.

Statement IV : Civic and other Amenities, 1999:

The title itself reveals that, this statement deals with the facilities provided to the people in the urban areas of the district.

This statement contains 20 columns. Column 1 and 2 relate to serial number, class name and civic status of the town respectively. Column 3 gives population of the town whereas the column numbers 4 and 5 give population of SC and ST as per 2001 census. The length of pucca and kutcha roads is recorded separately for each town in column 6. The column 7 shows the details of sewerage systems prevailing in the referent town. The number of latrines with different types is shown in columns 8 to 11. Column 12 is provided separately to show method of disposal of night soil. The source of protected water supply and the system of storage with capacity are recorded under column 13 and 14. Column 15 shows the availability of fire fighting services. In case if this service is not available in the town, the name of the nearest town along with distance where available to be mentioned under this column. All these three towns have fire fighting services. The columns 16 to 20 relate to different types of electrical connection in number.

Nizamabad town is having 271 kms. pucca road and 105 kms. kutcha road, open surface drainage system and 28,975 water borne latrines. Night soil is disposed of by the method of sewerage lines and septic tank system. Tap is the source of supply of protected water by storing the water in service reservoir having capacity 11,383 kilolitres. Nizamabad is having electrical connections of 39,101 domestic, 629 industrial, 8,900 commercial and 5,590 road lighting points.

Bodhan town is having 96 kms. pucca road and 45 kms. kutcha road, open surface drainage system, 10,805 water borne and 2,242 service latrines. Night soil is disposed of by method of sewerage lines and septic tank system. Tap is the source of supply of protected water by storing the water in service reservoir having capacity 2,764 kilolitres. Bodhan is having electrical connections of 7,801 domestic, 134 industrial, 1,540 commercial and 1,027 road lighting points.

Kamareddy town is having 45 kms. pucca road and 10 kms. kutcha road, open surface drainage system, 6,842 water borne and 6,810 service latrines. Night soil is disposed of by method of sewerage lines and septic tank system. Tap is the source of supply of protected water by storing the water in service reservoir having capacity 1,772 kilolitres. Kamareddy is having electrical connections of 8,915 domestic, 174 industrial, 2,221 commercial and 2,100 road lighting points.

Statement V : Medical, Educational, Recreational and Cultural facilities, 1999:

In this statement the availability of medical, educational, recreational and cultural facilities are presented with reference to the population of 2001 Census. The three towns in the district viz. Nizamabad , Bodhan and Kamareddy are having all the facilities. This statement is containing 20 columns. Column 1, 2 and 3 relate to serial number, class name and Civic status of the town and the population recorded during 2001 census respectively. The columns 4 and 5 show about the availability of different hospitals, dispensaries, T.B. clinics, etc., together with beds strength. Columns 6 to 15 relate to educational facilities such as various schools/ colleges at all levels including Medical, Engineering, Polytechnic, Technical Institutions and Adult Literacy Centres. The column 16 is meant for working women's hostels with number of seats. The number of recreational and cultural facilities such as Stadia, Cinema, Auditorium, Community halls, Public Libraries including reading rooms available in the towns is recorded in columns 17 to 20.

In Nizamabad town there are 29 different types of medical institutions. Out of this, 10 are Government run institutions with a bed strength of 350 and 19 are private nursing homes having 136 beds. There are 7 degree colleges and 2 polytechnic institutions in Nizamabad town. Further the town is having 10 typewriting and shorthand institutions to meet the needs of the students. 18 Junior colleges, 55 secondary, 112 upper primary and 128 primary schools are existing in the town. Women hostel facility is available to accommodate working women. For recreational and cultural purposes the town is having10Cinemahalls,13Auditoria/Drama/Community halls and 2 Public Libraries.

In Bodhan town there are 11 different types of medical institutions run by Government and private Nursing Homes with a provision of 155 beds. There are 3 Degree colleges and 1 Engineering College in Bodhan town. Further the town is having 3 type-writing, 2 vocational training and 1 shorthand

institution to meet the needs of the students. 6 junior colleges, 12 secondary, 25 upper primary and 34 primary schools are existing in the town. No women hostel facility is available to accommodate working women in the town. For recreational and cultural purposes the town is having 3 Cinema halls, 16 Auditorium/Drama/Community halls and 1 Public Library.

In Kamareddy town there are 12 different types of medical institutions run by Government and private Nursing Homes with a provision of 143 beds. There are 2 Degree colleges in Kamareddy town. Further the town is having 6 typewriting and shorthand institutions to meet the needs of the students. 7 junior colleges, 20 secondary, 34 upper primary and 42 primary schools are existing in the town. For recreational and cultural purposes the town is having 7 Cinemahalls,1Auditorium/Drama/Community hall and 1 Public Library.

Statement VI :Trade, Commerce, Industry and Banking, 1999

This statement deals with economic activities in the urban areas with 11 columns. Column 1 and 2 are serial number class and name of the town with its civic status. The columns 3 to 5 give the details of three most important commodities exported and the columns 6 to 8 show the three most important commodities manufactured. The commercial banks, number of agricultural credit societies and the number of non-agricultural credit societies are furnished in the columns 9 to 11.

The urban population of the district exports Rice, Turmeric, Maize, Jaggery, and Beedies. The items which are manufactured in Nizamabad are Jaggery, Sugar and Beedies. In Bodhan town Sugar is manufactured and while in Kamareddy pipes, Khara, Sweets, Ice and Food items are mainly manufactured. The urban population in the district is served by a network of 44 commercial banks, 7 agricultural credit societies and 41 non-agricultural credit societies.

Statement VII : Civic and other amenities in Slums, 1999

This statement give details of civic and other amenities provided in all slums whether notified or not. Keeping in view of slums problem in urban areas, during 1981 census this statement was first introduced limiting the details to class I and class II towns. The same pattern was adopted during 1991 census also.

Though the magnitude of slum problem is greater in class I and class II towns, it is accepted that they are associated with smaller towns also. Hence the information on slums has been presented in this statement in respect of all towns having statutory bodies.

The statement on slums contain 17 columns. The columns 1 to 4 show the serial number, class and name of town, name of the slum and whether the slum is notified or not respectively. Column 5 and 6 give the details of approximate number of households and population of the slum during 1999. The length of the paved road in the slum has been shown in Kms. Under column 7. The columns 8 to 13 present system of sewerage, number of latrines both private and community and method of disposal of night soil. The column 14 is meant for showing number of tap points / public hydrants. The last 3 columns i.e columns 15 to 17 relate to number of electric connections under domestic, road lighting points and others.

In Nizamabad town there are 55 slum pockets with approximately 17,665 households and 1,01,675 population with 124kms. paved road. They have 11,200 water borne and 18 community latrines. Night soil is disposed of by septic tank system. These slums are provided with 1,200 tap points for supply of protected water besides having electricity for 13,854 domestic connections and 1,980 road lighting points.

In Bodhan town there are 32 slum pockets with approximately 9,302 households and 53,499 population and 94kms. paved road is available. They have 4,602 water borne , 1,476 service and 6 community latrines. Night soil is disposed of by septic tank system. These slums are provided with 265 tap points for supply of protected water besides having electricity for 4,200 domestic connections and 823 road lighting points.

In Kamareddy town there are 17 slum pockets with approximately 3,448 households and 19,601 population, 21 kms. paved road is provided in this town. They have 2,088 water borne latrines along with 1,200 service latrines. Night soil is disposed of by septic tank system. These slums are provided with 326 tap points for supply of protected water besides having electricity for 2,586 domestic connections and 427 road lighting points.

Section I - Village Directory

(a) Note explaining the abbreviations used in Village Directory :

The "Village Directory" is one of the traditional compilations of the Census. It gives the list of villages, their location numbers, their area, population, number of households, amenities such as educational, medical, drinking water, post and telegraph, commercial and co-operative banks, agricultural non-agricultural and other credit societies, recreational and cultural facilities, communication, approach to village, nearest town with a distance, power supply, availability of newspaper and magazines, most important commodity manufactured and land use of each village.

Village is a statutory recognized unit having a definite boundary and separate land records. In case, a complete village is treated as an outgrowth of urban agglomeration, data on amenities for that village, have not been given in the Village Directory but shown along with the urban component. The villages which are consider as a Census Town , the amenities data are shown in the Town Directory. For those villages which have partly merged in an outgrowth of U.A., the amenities data are shown in the Village Directory for that particular village.

The 'un-inhabited' villages (villages with no population) have been indicated as such after furnishing details in columns 1 to 3 i.e., Serial number, Name of village & location code number and area of the village against column no. 4 to 18. The land use data for such villages are shown in col. 19 to 23.

The Village Directory format has 23 columns and the details given under each column are for the village are as follows:-

Columns 1 : Serial Number

Self explanatory. All the villages within the Mandal Parishad are presented serially in the ascending order of their location code number.

Columns 2 : Name and Location Code Number of village

The name and location code number of the village are shown against these columns. This also includes the forest and uninhabited villages.

Column 3 : Area of the village

The area of the villages in hectares are given. Wherever the area figures was not furnished by the concerned department the column is left blank.

Column 4 : Total population

The total population of the village as per 2001 Census is given against this column.

Column 5 : Number of households

The number of households as per 2001 Census is given in this column.

Amenities :

In column 6 to 23, availability in respect of different amenities such as education, medical, drinking water, post, telegraph, banks, credit societies, communication, power, approach road etc. in each village has been depicted with appropriate codes against the column concerned. Wherever the amenities are not available in the village, a dash (-) is shown in the column and next to it in brackets the distance in broad ranges viz.< 5 kms., 5-10 kms. and 10+ kms of the nearest place where the facility is available is given. Column wise details are given below

Column 6 : Educational

Classes upto class V included in Primary School. This will include nursery school, kindergarten school. Pre-basic school, pre-primary school, junior basic school upto class V.

Classes from VI to VII are included in the middle school.

Classes from VIII and X included in Higher secondary school. Classes XI and XII are included in senior secondary school.

In case of composite schools like middle school with primary school or secondary school with middle school, these are also included in the number of primary and middle schools, respectively.

Accordingly any of the following types of institutions if exists within the village is shown as per codes given below :

(i)	Primary School	P
(ii)	Middle School	M
(iii)	Secondary School	S
(iv)	Senior Secondary School	PUC/JC
(v)	College	C
(vi)	Industrial School	I
(vii)	Training School	Tr
(viii)	Adult literacy class/centre	AC
(ix)	Others (specify) e.g. Sanskrit Pathshala, Senior basic school, Navodaya Vidyalaya, Makhtab, etc.	O

More than one institution of a type in the village is indicated by the number within brackets against the abbreviation, e.g. P(3), M(4), etc.

Column 7 : Medical

Availability of medical facility within the village is indicated by following codes :

(i)	Allopathic Hospital	H
	Ayurvedic Hospital	HA
	Unani Hospital	HU
	Homeopathic Hospital	H Hom
(ii)	Allopathic Dispensary	D
	Ayurvedic Dispensary	DA
	Unani Dispensary	DU
	Homeopathic Dispensary	D Hom
(iii)	Maternity & Child Welfare	MCW
(iv)	Maternity Home	MH
(v)	Child Welfare Centre	CWC
(vi)	Health Centre	HC
(vii)	Primary Health Centre	PHC
(viii)	Primary Health Sub-Centre	PHS
(ix)	Family Welfare Centre	FWC
(x)	T.B. Clinic	TB
(xi)	Nursing Home	NH
(xii)	Registered Private Medical Practitioner	RMP
(xiii)	Subsidised Medical Practitioner	SMP
(xiv)	Community Health Worker	CHW
(xv)	Others	O

More than one institution of a type in the village is indicated by the number within brackets against the abbreviations, e.g. H(3), D(4), etc.

Column 8 : Drinking Water

The type of the drinking water supply sources available within the village are indicated by codes as follows :

(i)	Tap Water	T
(ii)	Well Water	W
(iii)	Tank Water	TK
(iv)	Tubewell Water	TW
(v)	Handpump	HP
(vi)	River Water	R
(vii)	Canal	C
(viii)	Lake	L
(ix)	Spring	S
(x)	Others	O
(xi)	Summer Source	SS-

Column 9 : Post, Telegraph and Telephone

It is indicated by codes as shown below whether within the village exists the following amenities:

(i)	Post Office	PO
(ii)	Telegraph Office	TO
(iii)	Post & Telegraph Office	PTO
(iv)	Telephone Connection	PH

Column 10: Commercial and Co-operative Banks

If the village is served by any banking service, commercial bank, co-operative bank etc. the same is indicated in codes mentioned below along with the number of banks in brackets. If not available the distance of nearest place where the facility exist is given:

(i)	Commercial Bank	CM
(ii)	Co-operative Bank	CP

Column 11: Credit Societies

If the village enjoys the services of Credit Societies i.e. Agricultural Credit Societies, Non Agricultural Credit Society or Other Credit Societies, the same is indicated in codes mentioned below along with the number of such societies in brackets. In case the facility is not available within the village the distance of the nearest place where such facility exist is given:

(i)	Agricultural Credit Society	ACS
(ii)	Non- Agricultural Credit Society	NCS
(iii)	Other Credit Society	OCS

Column 12 : Recreational and cultural facilities

If facilities such as Cinema/Video hall, Sports Club, Stadium/Auditorium is available in the village. The same is recorded in these columns. If not available the particulars of the nearest place with the facility is recorded. The information is indicated in codes mentioned below along with the number of such facilities in brackets:

(i)	Cinema / Video Hall	CV
(ii)	Sports Club	SP
(iii)	Stadium / Auditorium	ST

Column 13 : Communications

If the village is served by any mode of public / private transport like Bus, Railway station or Navigable water ways they are to be mentioned as follows:

(i)	Bus Service	BS
(ii)	Railway Station	RS
(iii)	Navigable Waterway	NW

Column 14 : Approach to village

Approach to village refers to the state of road leading to village. The approach to the village is indicated in following codes :

(i)	Paved Road	PR
(ii)	Mud road	MR
(iii)	Foot path	FP
(iv)	Navigable River	NR
(v)	Navigable Canal	NC
(vi)	Navigable waterways other than River, Canal	NW

Column 15 : Nearest Town and distance

The distance is given in kilometres in brackets against the name of the town nearest to the village.

Column 16 : Power supply

Availability of Power Supply in the village, whatever may be the form of its use is given by using following codes :

(i)	Electricity for domestic use	ED
(ii)	Electricity for agricultural use	EAG
(iii)	Electricity for other purposes	EO
(iv)	Electricity for all purposes	EA

Column 17 : News Paper / Magazine

If village receives any News Paper/Magazines the same is noted in this column using following codes

(i)	News Paper	N
(ii)	Magazine	M

Column 18 : Most important commodities manufactured

The name of three most important commodities manufactured in the village is recorded against this column.

Column 19 to 23 : Land use i.e. area under different types of land use

Land use data maintained by the State/ UT Govts. are furnished against these columns. The data concerning area under Forest, Irrigated land (by source), Un-irrigated land, Culturable waste and Area not available for cultivation in the village are shown against these columns. The area figures are given in hectare(s) up to one decimal. Dash '-' is recorded wherever the information is not made available by the concerned department. The codes used for different types of irrigation facilities available in the village are indicated below:

(i)	Government Canal	GC
(ii)	Private Canal	PC
(iii)	Well (without electricity)	W
(iv)	Well (with electricity)	WE
(v)	Tubewell(without electricity)	TW
(vi)	Tubewell(with electricity)	TWE
(vii)	Tank	TK
(viii)	River	R
(ix)	Lake	L
(x)	Waterfall	WF
(xi)	Others	O
(xii)	Total	T

(b) List of Villages merged in Towns and Outgrowths at 2001 Census

(i) List of Revenue Villages that have been fully merged in Towns and Outgrowths at 2001 Census

Serial number	Name of mandal	Name of village	Name of the Municipality/ Nagar Panchayat/ Census Town in which the village is merged
1	2	3	4
1	Nizamabad	Arsepalle	Nizamabad Municipality
		Kanteswar	Nizamabad Municipality
		Nizamabad	Nizamabad Municipality
2	Kamareddy	Kamareddy	Kamareddy Municipality

(ii) List of Revenue Villages that have been partly merged in Towns and Outgrowths at 2001 Census

Serial number	Name of mandal	Name of village	Name of the Municipality/ Nagar Panchayat/ Census Town in which the village is merged
1	2	3	4
1	Bodhan	1. Bodhan (Rural)	Bodhan Municipality
		2. Achampalle (Rural)	Bodhan Municipality

Section II - Town Directory

Note explaining the abbreviations used in the town directory

Town Directory statements (I to VII)

Statement I : Status and Growth History

Column (2) : Class, name and civic status of town :

Class has been introduced to facilitate analysis of town directory data at the state and all India levels. It is presented according to 2001 Census Population of the town as follows :

Population	Class
100,000 and above	I
50,000 - 99,999	II
20,000 - 49,999	III
10,000 - 19,999	IV
5,000 - 9,999	V
Below 5,000	VI

Town with a population of one hundred thousand (1,00,000)and above is treated as a city.

The civic status of the towns is indicated within bracket against the name of the town. The following abbreviations are used to denote civic status of town.

(I)	Municipal Corporation	M. Corp.
(II)	Municipal Committee	MC
(III)	Municipal Council	M Cl
(IV)	City Municipal Council	CMC
(V)	Town Municipal Council	TMC
(VI)	Municipal Board	MB
(VII)	Municipality	M
(VIII)	Cantonment Board/Cantonment	CB
(IX)	Notified Area	NA
(X)	Notified Town	NT
(XI)	Notified Area Committee/ Notified Area Council	NAC
(XII)	Notified Town Area	NTA
(XIII)	Industrial Notified Area	INA
(XIV)	Industrial Township	ITS
(XV)	Township	TS
(XVI)	Town Panchayat	TP
(XVII)	Nagar Panchayat	NP
(XVIII)	Town Committee/ Town Area Committee	TC
(XIX)	Small Town Committee	ST
(XX)	Estate Office	EO
(XXI)	Gram Panchayat	GP
(XXII)	Census Town	CT

Others columns need no comments.

Statement II - Physical Aspects and Location of towns, 1999

Column 3 to 5 : Physical Aspects

In these columns the Rainfall and Maximum & Minimum Temperature of the town is recorded.

Column 6, 7 and 8 :

Name of the State headquarters, District headquarters and Sub-Divisional headquarters with distance from the referent town in kilometres, is to be recorded respectively. If the names mentioned in these columns are the same as the referent town itself, the distance is recorded as (0) zero.

Column 9& 10 :

Name of the nearest city with one lakh and more and five lakhs and more population are recorded.

Column 11, 12 and 13 :

If referent town enjoys the facility of railway station, bus route facility or navigable river/canal. Its name is to be mentioned. If not available, then the name of nearest place with distance, where such

facility exists is to be mentioned.

Statement III : Municipal Finance 1998 - 99

Item-wise amount of receipt and expenditure in thousand rupees, relating to municipal finance of the town for the year 1998-99 is to be recorded.

Statement IV : Civic and Other amenities, 1999

Column (1 to 5) : Self explanatory.

Column (6) : Road length (in kms.)

Information about kutcha / pucca road is to be recorded separately for the roads within the limits of the referent town.

(i)	Pucca Road	PR
(ii)	Kutcha Road	KR

Column (7) : System of Sewerage

Generally, by sewerage system is implied the network of mains and branches of underground conduits for the conveyance of sewerage to the point of disposal. Sewers that carry only household and industrial wastes are called separate sewers, those that carry storm water from roofs, streets and other surface are known as storm water drains, while those carrying both sewage and storm water are called combined sewers.

The codes used for different types of drainage system are as follows :

(i)	Sewer	S
(ii)	Open Surface Drains	OSD
(iii)	Box Surface Drains	BSD
(iv)	Sylk Drains	SD
(v)	Cesspool method	CP
(vi)	Pit System	Pt
(vii)	Others	O

Column 8 to 11 : Number of latrines

Number of various types of latrines both Public and Private are given in these columns.

Column 12 : Method of disposal of night soil

The various prevalent method of disposal of night soil are given below with codes :

Head Loads	HL
Basket	B
Wheel Barrows	WB
Septic Tank	ST
Pit System	Pt
Sewerage	S
Others	O

Column 13 and 14 : Water supply

Source and capacity of storage system. The following codes are used in these columns:

Column 13:

(i)	Tap water	T
(ii)	Tube-well water	TW
(iii)	Tank Water	TK
(iv)	Well water	W

Column 14:

(v)	Over Head Tank	OHT
(vi)	Service Reservoir	SR
(vii)	River Infiltration Gallery	RIG
(viii)	Bore Well Pumping System	BWP
(ix)	Pressure Tank	PT

The information on major source of water supply are given in column 13 and the storage capacity against each in kilo-litres (in bracket) are presented in column 14.

Column 15 : Fire Fighting Service

In case the fire fighting service is available in the referent town 'yes' is recorded. If the facility is not available within the town. The name of the nearest place having this facility with its distance from the referent town has been recorded.

Column 16 to 20 : Electrification (Number of connections)

Different types of electric connections have been shown in these columns, i.e. Domestic, Industrial, Commercial, Road lighting (points) & others.

Statement V : Medical, Educational, Recreational and Cultural Facilities, 1999

Column 1 to 3 : Self explanatory.

Column 4 & 5 :

The data covers all such medical institutions

run by or aided by Government/Semi Government/ Local bodies and Charitable institutions or Social agencies like the Missionaries. Where the family planning centres are attached to hospitals or maternity and child welfare centres or Primary Health Centres, may be treated as independent units and counted separately using following codes :

(i)	Hospital	H
(ii)	Dispensary	D
(iii)	Health Centre	HC
(iv)	Family Welfare Centre	FWC
(v)	T.B. Clinic	TB
(vi)	Nursing Home	NH
(vii)	Others	O

In case of more than one institutions of any type, it is indicated within brackets the number of such institution (s) e.g. D(3), NH(8), etc. The institutions have further been distinguished by providing additional codes within the bracket as given below :

Ayurvedic	A
Unani	U
Homoeopathic	Hom

Column 6 to 9 :

The codes used for these columns are as follows:

(i)	Arts only	A
(ii)	Science only	S
(iii)	Commerce only	C
(iv)	Arts & Science only	AS
(v)	Arts & Commerce only	AC
(vi)	Combined for all categories-Arts, Science and Commerce	ASC
(vii)	Law	L
(viii)	University	U
(ix)	Others	O

Column 10 : Recognized shorthand, typewriting and vocational training institutes

"Recognised" should mean recognised by some statutory authority, like education department, commerce department, labour department etc. of the government or semi government or autonomous bodies, public sector undertakings etc.

The following codes are used :

(i)	Vocational Training Institute	VT
(ii)	Shorthand	SH
(iii)	Typewriting	Type
(iv)	Shorthand & Typewriting	SH Type
(v)	Others	O

The vocational institutions like - Applied Art/Painting College, Pharmacy College, B. Ed. College, Teacher's Training Institute, Music / Dance School, Nursing School etc. are covered under 'Others'.

Column 11 to 14:

Higher Secondary/Intermediate/Senior Secondary/ PUC/Junior College level, Secondary/Matriculation, Middle Schools/ Junior Secondary and Primary Schools.

School up to class V are treated as Primary or elementary schools. These include Nursery schools, Kindergarten schools, Pre-Primary schools, Junior Basic schools upto class V and Primary schools upto class IV.

Schools upto VIII are considered as Middle school or Junior Secondary.

Schools upto class X are considered as Matriculation or Secondary schools.

Schools upto XI or XII classes are considered as Higher Secondary / Intermediate / Pre University / Junior College etc. This would cover 10+2 classes whether held in schools or college.

If there are composite schools like middle schools with primary classes or Secondary schools with Middle classes, these are also included in the number of Primary and Middle schools, respectively. For example, if in a town, there are two Primary Schools and one Middle school with Primary classes, the number of Primary schools in the town is given as three and that of Middle schools as one though there are only three educational institutions.

If there are more institutions of a type in the town, the number is indicated within bracket along with the abbreviation, e.g. P(4), M(3).

Column 15 : Adult literacy classes/centres

This column has been introduced keeping in view the Minimum Needs Programme of the Planning Commission. There are number of Adult Education Centres which are included in these columns.

If an educational facility is not available in the town, the name of the nearest place and its distance in kilometres from the town where the facility is available is mentioned.

Column 16 : Working Women's hostels with number of seats

The number of working women's hostel if available in the referent town is mentioned with number of seats. If the facility is not available in the town the name of nearest place with distance where the facility is available is recorded.

Column 17 to 19 : Recreational and Cultural Facilities

Stadium, Cinema, Auditorium/Drama/Community Hall are covered under recreational & cultural facilities. The particulars of permanent recreational facilities are considered for these columns.

Column 20 : Public Libraries, Reading Rooms

Number of public libraries and reading rooms available in the referent town are recorded in codes as follows :

(i) Public Library	PL
(ii) Reading Room	RR

Statement VI : Trade, Commerce, Industry and Banking, 1999

Column 3 to 8 :

Name of three most important commodities exported and names of three most important commodities manufactured in the town are recorded.

Column 9 : Number of Banks

Number of Banks available in the referent town both Commercial and Co-operative banks are recorded against this column.

Column 10 & 11 :

Number of Agricultural Credit Societies and Non Agricultural Credit Societies

The total number of Agricultural Credit Societies and Non Agricultural Credit Societies in the referent town are recorded against these columns.

Statement VII : Civic and other Amenities in Slums, 1999

This is the statement on civic and other amenities in all slums whether notified or not and for all towns having statutory bodies, like municipality, Municipal Corporation, Town area committee etc.

APPENDIX TO TOWN DIRECTORY
TOWNS SHOWING THEIR OUTGROWTHS WITH POPULATION

Serial number	Name of the town with location code	Population of core town	Name of Outgrowth	Population of Outgrowth
1	2	3	4	5

In respect of Nizamabad district no town is having Out Growths

Brief note on Primary Census Abstract

The first census of the third millennium and twenty first century the Census of India, 2001 was the 14th continuous and uninterrupted Indian census since 1872. Thus, 2001 Census will provide data on population and its characteristics marking transition from one century and millennium to another.

The gigantic operation of Population Enumeration (considered by many to be the single largest and complex peace time administrative exercise in the world) was made possible due to the door to door universal canvassing of the Household Schedule by about 2 million enumerators and supervisors covering 593 districts, 5,463 sub-districts, 5,161 towns and 638,588 villages. The comprehensive Household Schedule which replaced the individual slip had three parts and two sides A and B. Part I contained the Location Particulars; Part II related to the Individual Particulars and Part III contained questions for Household engaged in Cultivation/Plantation . The part II of the Household Schedule had 39 columns and 23 questions all of which were universally canvassed and no sampling was resorted to during enumeration.

Data Processing

A quantum leap was made in the technology front while processing the Census 2001 data both for Houselisting and Population Enumeration. The Census schedules for both the phases were scanned through high speed scanners in fifteen data centers across the country and hand-written data from the schedules were converted into digitized form through Intelligent Character Reading (ICR) software for creation of ASCII records for further processing. The designing and formatting of the Household Schedule had to be done very carefully using specialized software so as to ensure uniformity, which was an essential pre-requisite for scanning. The selection of appropriate state-of-art technology in data processing has made it possible to produce all the Houselisting as well as Population Enumeration tables on full count basis for the first time in the history of Census. For Census 2001, about 202 million schedules consisting of about 1,028 million records were scanned and processed within a span of only 10 months starting October, 2002.

Task Force on Quality Assurance

After the data is processed, it is expedient on the part of the data producing agency to satisfy itself about its quality before putting the same in public domain. This has to be done mainly through the process of internal consistency, comparison with similar data in the past and also through validation with likewise data if available, from external sources. Quite often the local knowledge and perception has to be brought into play to understand both the existing and the new emerging trends of population distribution and characteristics. The other very important aspect of the data quality is to ensure complete coverage of all geographical areas especially for the population enumeration phase where the data is disseminated right up to the village level in the rural areas and the ward level in the urban areas. Thus ensuring the complete coverage and correct geographical linkage of each enumeration block was one of the major planks of the quality control, specially for small area population statistics.

A very comprehensive check and edit mechanism was put in place to objectively examine the preliminary Census 2001 Population Enumeration results and finally clear them for use. The responsibility of the final clearance of data was with the Task Force on Quality Assurance (TFQA), headed by the Registrar General and Census Commissioner, India. The other members of the TFQA were the Heads and senior officers of the Census Division, Data Processing Division, Map Division, Demography Division and Social Studies Division. The Directors of Census Operations were co-opted as members whenever the TFQA discussed the data for their States/Union territories. The Directors and their senior officers were required to make detailed presentations of data for their own state both in respect to the

quality and the coverage and only after the full possible cleared.

There has been a major departure in Census 2001 from the past in respect of the procedure followed for finalization of the Scheduled Castes and the Scheduled Tribes population. In the earlier censuses, the total Scheduled Castes and Scheduled Tribes populations were finalized at the time of the manual compilation of the Primary Census Abstracts (PCA) at the Regional Tabulation Offices which were specially set up for this purpose. The individual Scheduled Castes and the Scheduled Tribes population for each state was finalized much later based on manual coding done by the coders. In 2001 Census, each individual Scheduled Caste and the Scheduled Tribe have been coded directly on the computers by the Data Entry Operators through a process known as Computer Assisted Coding (CAC) and taken up along with the processing of PCA data. The CAC process involves pulling down, from the relevant dictionary of the Scheduled Castes and the Scheduled Tribes, on the computer screen and coding from the dictionary by referring to the image of the specific individual entry in the Household Schedule appearing on the screen. The CAC of the response on Religion wherever required, was also undertaken along with the processing of PCA. This is because the Scheduled Castes status had to be determined in relation to the religion of the individual. Two Special Task Forces, one on Religion and the other on Scheduled Castes/ Scheduled Tribes were constituted for scrutiny and appropriate classification of these responses.

The main task of the Special Task Force on Religion was to appropriately merge or group the new responses encountered and code it into the appropriate religious community based on available literature and local knowledge. The Special Task Force on Scheduled Castes and Scheduled Tribes examined the different Scheduled Castes and Scheduled Tribes entries encoun-tered and classified these into appropriate category of the Scheduled Castes or the Scheduled Tribes principally based on the Presidential Notification and the available literature. Thus a very systematic and scientific mechanism was operationalised to firm up the individual religion and the individual Scheduled Castes/Tribes returns. The Scheduled Castes and the Scheduled Tribes population in 2001 Census, is thus being finalized by aggregating the population data for individual Scheduled Castes and the Scheduled Tribes at appropriate geographical levels.

The entire work relating to the data validation and scrutiny was completed by all the States/Union Territories under the overall supervision and monitoring of the Census Division of the Office of the Registrar General, India with active cooperation and support of the Social Studies Division, Data Processing Division, Data Dissemination Division and Map Division.

Primary Census Abstract

The Primary Census Abstract which is yet another important publication of 2001 Census gives basic information on Area, Total Households, Total population, Scheduled Castes, Scheduled Tribes population, Population in the age group 0-6, Literates, Main workers and Marginal workers classified by the four broad industrial categories, namely, (i) Cultivators, (ii) Agricultural labourers, (iii) Household Industry Workers, and (iv) Other workers and also Non-workers. The characteristics of the Total Population includes Scheduled Castes, Scheduled Tribes, Institutional and Houseless population and are presented by sex and rural-urban residence. This data is presented at different levels, namely, India, States/Union territories, Districts and Cities, Urban Agglomerations (Population 1,00,000 and above) in three different tables. In addition, the Appendix of said publication provides Houseless and Institutional Households and their population by residence and sex for 2001 for India, State and Union territory.

Apart from the India and State/Union Territory volumes for Primary Census Abstract, the District Census Handbook contains District Primary Census Abstract, Appendix to District Primary Census Abstract, Primary Census Abstract for Scheduled Castes, Primary Census Abstract for Scheduled Tribes, Village Primary Census Abstract and Urban Primary Census Abstract of the concerned district in the state.

It was for the first time at the 1981 Census that the Primary Census Abstract (PCA) was brought out for the Scheduled Castes and the Scheduled Tribes separately on the pattern of General Primary Census Abstract. This practice was continued in 1991 also. In the 1961 and 1971 Censuses, such data were made available in Table C-VIII-Social and Cultural table and to some extent in the series 'Special Tables for

Scheduled Castes/Scheduled Tribes'.

The format of Primary Census Abstract has been restructured slightly in the 2001 Census as compared to that of 1991 Census. The nine-fold industrial classification of main workers given in the Primary Census Abstract of 1991 Census has been discontinued and its place, four-fold industrial classification of both 'main workers' and 'marginal workers' are included. In 1981 census only main workers were presented in to four categories. One of the novel features of the primary census abstract of 1991 census was the presentation of data of the population of age group 0-6 is continued in 2001 Census also. This will help the data users in better analysis and understanding of this literacy data.

Level of presentation in District Census Handbooks:

The Primary Census Abstract data in different PCAs are presented at different levels. The level of presentation of Primary Census Abstracts are as under:

	Name of the Primary Census Abstract	Level of presentation
1.	District Primary Census Abstract	District/Mandal Parishad/UA/City/Town
2.	Primary Census Abstract for Scheduled Castes	District/Mandal Parishad/Town
3.	Primary Census Abstract for Scheduled Tribes	District/Mandal Parishad/Town
4.	Village Primary Census Abstract	Mandal Parishad/Village wise
5.	Urban Primary Census Abstract	Town/Ward level

The PCA Data for villages was presented Mandal Parishad wise for the first time in 1991 Census. This practice is continued in 2001 Census also. The data for each Mandal Parishad is presented both for rural and urban areas separately. All the villages within the Mandal Parishad constitute the rural portion and the Census Towns and Outgrowths are shown under the urban portion of the Mandal Parishad. In case a Mandal Parishad is spread over two or more districts, than portion which falls within the district is presented, the data pertaining to remaining portion of the Mandal Parishad is presented in the concerned District Census Handbook. The data in the Urban Primary Census Abstract for each town as well as for town with outgrowths in the district are presented. The data for all the wards and the outgrowths of the town(s) are also presented separately below the concerned town(s).

The District Primary Census Abstract is presented in 59 columns. The Primary Census Abstract for Scheduled Castes and Primary Census Abstract for Scheduled Tribes are presented in 52 columns. The Village Primary Census Abstract and Urban Primary Census Abstract are presented in 58 columns.

The concepts and definitions used in the column heading are explained under the sub heading 'Census Concepts' in the Analytical Note. The term 'Total Population' includes the Scheduled Castes, the Scheduled Tribes, the Institutional and the Houseless populations. The explanation regarding area figures presented at various level in the Primary Census Abstracts are as follows:

Area Figures

The area figures supplied by local revenue authorities of the district in respect of mandals, Police Stations and by the local bodies in respect of towns are given in square kilometres. The area figures of the villages supplied by the Mandal Revenue Officer in acres have been converted and shown in hectares. The area figures of the Mandal Parishad is the total of the village areas coming under each Mandal Parishad. The area figures for the district are the same as adopted by the Surveyor General of India to maintain uniformity at the national level. The total area figures of all the mandals/Mandal Parishads within the district may not tally with area figures of the district because former represents land use area only. Similarly, the total of all the villages area may not tally with the entire rural of mandal. The difference may be due to the fact that while the area covered by hills, forests and rivers etc, have been accounted in the level the same may not be covered under the area of the villages. Apart from this it may also differ due to varying methods of computation adopted at different levels.

An appendix to District Primary Census Abstract has also been furnished showing urban enumeration block-wise particulars on Total Population, the Scheduled Castes Population and the Scheduled Tribes Population for each town.

Annexure - I
Fertility and Mortality, 1991 Census

Crude birth rate is the most commonly used measures of fertility**.** To know the fertility rates, certain information was collected from all ever married women during 1991 Census such as (i) Age at marriage (ii) Number of children ever born alive. For currently married women, in addition to above data, if any child born at preceding one year to the Census has also collected. Definition of fertility measures is given in the chapter on Census concepts.

Fertility Levels :

This is dependent on fertility pattern by age, which is indicated by the age specific fertility rates. General fertility rate, total fertility rate and gross reproduction rate are other indicators of fertility. Fertility measures were worked out on F-series tables of 1991 Census of Andhra Pradesh. An analysis of these measures is given in the subsequent paragraphs.

Age Specific Fertility Rate :

The following statement shows the age specific fertility rates for Total, Rural and Urban areas along with the corresponding fertility rates of State during 1991 Census.

Annexure –I (a)
Age Specific Fertility Rates/Levels, 1991

Age Group	Nizamabad District			Andhra Pradesh State		
	Total	Rural	Urban	Total	Rural	Urban
1	2	3	4	5	6	7
15-19	0.079	0.082	0.137	0.085	0.092	0.066
20-24	0.159	0.154	0.203	0.179	0.185	0.162
25-29	0.141	0.138	0.158	0.150	0.155	0.137
30-34	0.092	0.093	0.095	0.103	0.108	0.087
35-39	0.067	0.065	0.084	0.068	0.071	0.055
40-44	0.032	0.033	0.038	0.037	0.039	0.029
45-49	0.016	0.016	0.018	0.020	0.021	0.017

***Source**: F-Series tables of 1991 Census & Andhra Pradesh district profile,1991.*

It may be seen from the above statement that the age specific fertility rate is higher in the age group of 20-24 both in rural and urban areas of the district. However, the same is lesser than that of State rate except in urban areas of the district. Among the other age groups, the rates are either slightly increased or decreased over the State average. This trend of age specific fertility rate particularly in the age group 20-24 indicates that the people of the district are conscious of population problems and the early marriages are gradually decreasing.

Annexure –I (b)
Age Specific Marital Fertility Rates/Levels, 1991

Age Group	Nizamabad District			Andhra Pradesh State		
	Total	Rural	Urban	Total	Rural	Urban
1	2	3	4	5	6	7
15-19	0.111	0.106	0.069	0.150	0.149	0.158
20-24	0.173	0.166	0.179	0.198	0.199	0.196
25-29	0.149	0.147	0.152	0.158	0.162	0.147
30-34	0.100	0.101	0.090	0.111	0.116	0.093
35-39	0.074	0.072	0.079	0.074	0.078	0.060
40-44	0.039	0.040	0.032	0.044	0.046	0.035
45-49	0.021	0.022	0.014	0.026	0.026	0.023

Age Specific Marital Fertility Rate :

The following statement shows age specific marital fertility rates of Nizamabad district as well as State recorded during 1991 Census.

It is seen from the above table, the age specific marital fertility rates are very low in the age group of 15-19 in the district and slight lower in the age group of 20-24, 40-44 and 45-49 than that of State totals. Age Specific Marital Fertility Rate total in the age group of 25-29 stands equal both for district and State. It can be observed that the rates were slightly higher or lower except 15-19 age group of the above table.

Fertility Measures :

The above table shows the various measures of fertility and mean age at marriage recorded during 1991 Census. The district has recorded 27.5 CBR, 3.3. TFC, 4.2 TMFR, 109 GFR, 132 GMFR, 3.7 children per ever married women (45-49 years), 445 CWR and 15.7 is mean age at marriage of currently married women.

Annexure III
Percentage distribution of Migrants by place of birth/place of last residence, 1991 Census and 2001 Census

Migration :

During 1991 Census, the migrants by place of birth were returned 194.64 lakhs in Andhra Pradesh State comprising 62.53 lakhs of male and 132.12 lakhs of female. This migrants constitute 29.27% of the total population, with a breakeup of 18.54% of male and 40.30% of female population.

The following statement shows the distribution of migrants by place of birth with sex break-up in the district as well as in the State together with percentages.

Annexure – III(a)
Distribution of Migrants by Place of Birth and Percentage, 1991 Census

Source: *Part –VA and VB – D Series, 1991 (Vol-I)*

In the above statement the migrants were broadly classified as (A) migrants born within the State of Enumeration (B) Migrants born in other States of India and (C) Migrants born in other countries. The migrants born within the State have divided again as (i) Migrants born elsewhere in the district of Enumeration and (ii) Migrants born in other districts of the State.

As usual the migration by place of birth is found more in Inter-district both Nizamabad district and

State for both male & female. The migrants from other districts of the State and other States of India are lesser than that of Inter-district migrants. Among the three classifications of migrants, the migrants born within the State of Enumeration has occupied 1st place both in Nizamabad district and Andhra Pradesh State with 91.50% and 94.56% respectively. The percentage of female migrants is more in Inter-district migration and slightly less in other two categories in the State and also in the district. Domination of females in Inter-district migration may be due to marriages.

The following statement shows the Rural and Urban Composition of internal migrants by place of birth at 1991 Census for Andhra Pradesh and Nizamabad district.

Inset table to Annexure III(a)
Distribution of Migrants by Place of Birth and Percentage, 2001 Census

Source: *Migration Tables (D Series) - 2001*

The migrants by place of birth were returned 194.6 and 228.3 lakhs in Andhra Pradesh State as per the 1991 and 2001 Censuses respectively. It shows a growth rate of 17.3% total migrants over 1991 Census with a breakup of 21.8% males and 15.2% females. In Nizamabad district the migrants are 581,829 persons as per 1991 Census whereas 611,603 persons are in 2001 Census with a growth rate of 5.1% over 1991 census. In both the Censuses the female migrants are more than male migrants due to marriages.

In respect of inter district migrants, male migrants are forming less percentage than female migrants whereas the intra district migration males percentage is dominating. In the case of intra-state migrants the males are more than females in both the Censuses. In case of International Migrants, a mild variation can be observed i.e. 0.1%.

Rural and Urban Components of Migration :

The flow of migrants by place of birth have classified into four streams such as (i) Rural to Rural (ii) Rural to Urban (iii) Urban to Rural and (iv) Urban to Urban. The data on the basis of these four streams in case of migrants is classified by place of birth. It presents data only in relation to internal migrants. The above statement gives the information on movement of migration in Andhra Pradesh and Nizamabad district through the four streams within the State and from other States of India. Of the total 184.07 lakhs of Intra-State migrants in Andhra Pradesh have been moved from Rural to Rural with 63.93%, followed by Rural to Urban with 20.95%, Urban to Urban with

9.34% and Urban to Rural 5.72%. In case of migrants by place of birth from other States to Andhra Pradesh, they have been accounted for 10.27 lakhs. The distribution of 10.27 lakhs of migrants were from Rural to Rural with 33.94%, Rural to Urban 21.77%, Urban to Rural with 10.73% and Urban to Urban by 33.39%. The higher migration by place of birth has found in Rural to Rural in the State.

In the Nizamabad district Intra-State migrants by place of birth consists 5.32 lakhs and 0.49 lakhs were from various States of India. The flow of Intra-State in the district has Rural to Rural, Rural to Urban, Urban to Rural and Urban to Urban with 74.07% , 14.92%, 5.37% and 5.64% respectively. While the migrants from other States of India have constituted with 55.03%. Rural to Rural 22.74% of Rural to Urban, 9.23% of urban to Rural and Urban to Urban has formed 12.98%. The highest percentage of migration by place of birth in the district was noticed in Rural to Rural as found in the State.

This annexure shows percentage distribution of migrants by place of birth as recorded in 1991 census. For all districts of Andhra pradesh the persons born elsewhere in the district of enumeration works out to 71.0 percent whereas in respect of persons born in other districts of Andhra Pradesh, born in other states and other countries works out to 23.6%, 5.3% and 0.2% respectively. In respect of Nizamabad district the persons born elsewhere in the district of the enumeration recorded 65.8% and the persons born in other districts of the state returned 25.7%. Among the migrants of the district, the persons born in other states works out to 8.5% whereas in respect of persons born in other countries, their percentage is negligible. Out of 1.95 crores of migrants of the state, 5.8 lakh migrants belong to Nizamabad district. It is interesting to note that the female migrants are more in number than males in all the districts of the state except Hyderabad district.

Source: *Migration Tables (D Series) - 2001*

The above annexures show the percentage distribution of migrants by place of birth as recorded in both the Censuses of 1991 and 2001 in Andhra Pradesh state. It is observed that 3.0% increase in the migration who were born elsewhere in the district of enumeration with a sex breakup of 3.0% each, whereas in respect of the migrants who were born in other districts of the state, in other states of the country and in other countries are recorded with a difference of -2.2% to -0.8% and -0.1% respectively between two censuses of 1991 and 2001.

In respect of Nizamabad district the difference between the two Censuses can be observed with 7.1% of persons, 11.1% males and 5.5% females in the persons born elsewhere in the district of the enumeration. Regarding the migrants from other states in India only a minor variation is recorded with (-)1.6%.

Among the migrants that are born in the Abroad no change is noticed in the percentage variation between 1991 and 2001 censuses.

Annexure IV
Brief account of Main religions in the district/ mandal as per 1991 Census and 2001 Census

Religion :

During 1991 Census the religion data was collected through question No.8 of the individual slips and recorded the religion as stated by the individual under six major religions. The minor religions other than these six religions, as reported by the respondent, recorded and classified under the category "Others".

Nizamabad district has returned 20,37,621 population in 1991 Census comprising 17,34,523 Hindus, 2,87,503 Muslims, 11,447 Christians , 408 Jains, 1,380 Buddhists and 1,360 Sikhs. Hindus, Muslims and Christians were occupied 1st, 2nd , and 3rd places in the State as well as in the district. The percentage of the three religions in the district were 85.12, 14.11 and 0.56 respectively.

Hindus, Muslims and Christians were returned in all the 36 mandals of the district. Hindus were dominated in all the mandals of the district. The Muslims were recorded more in Nizamabad mandal with 85,810 persons followed by Bodhan with 37,112 persons and Kamareddy 14,994 persons, while lowest recorded in Tadwai mandal with 1,515 persons. The Christian religion were covered in all the mandals with its little population. The highest number of Christians was recorded in Nizamabad mandal with 2,949 persons followed by Bodhan mandal 2,110 and Dichpalle mandal 686 persons while lowest in Jukkal mandal with only one female. Among 408 Jains in the district, they were spread over in 5 mandals. The Buddhist religion was returned with 1,380 persons in the district and they were covered in 13 mandals. 1,360 Sikhs have been recorded in 20 mandals of Nizamabad District.

India-State-District differentials :

The comparative data on religion among India, Andhra Pradesh and Nizamabad district reveals that concentration of Hindus was higher followed by Muslims and Christians as per 1991 Census findings. Hindus were returned on the higher side in the State with nearly seven percent more than the national average, while in Nizamabad district they were more over three percent than national and nearly four percent less than the State. They constituted 82.4%, 89.14% and 85.12% in India, Andhra Pradesh and Nizamabad district respectively. Muslims recorded as 11.7% in India, 8.91% in Andhra Pradesh and 14.11% in the district. It shows their percentage in the district is more than the percentage of India and the State. The percentage of Muslims in the State is less than the Country, while the percentage of Christians in the country is more than the State i.e.,2.3% in India 1.83% in the State and 0.56% in the district. Buddhists, Sikhs and Jains formed less than 1% both in the State and district, whereas Sikhs recorded 2% in the Country.

Source: Religion Data, Andhra Pradesh - 2001

The above table gives the details of Main Religions in the district for 2001 census whereas the previous Annexure shows the details of main religion in 1991 census. During 2001 census the religion data was collected through question number 7 of household schedule. Out of the total population of the district Hindus have returned 84.5% during 2001 census as against 85.1% in 1991 census. In respect of Muslims they have returned 14.4% in 2001 whereas their percentage during 1991 was 14.1%. The next main religion in the district is Christians who returned 0.7% during 2001 census as against 0.6% in 1991 census. In respect of remaining main religions viz. Sikhs, Buddhists, Jains and others their strength in the district is negligible.

Annexure-IV(b)

Percentage distribution of population by major religions in India, Andhra Pradesh and Nizamabad district and its growth rate during 1981-1991

Source: Religion Data, Andhra Pradesh - 2001

The above table gives the comparative data on religions among India, Andhra Pradesh and Nizamabad district between 1991 and 2001 census, whereas the previous Annexure furnish the comparative data on religion during 1981 and 1991. At India level among the total population returned in the 2001 census Hindus constituted 80.5% as against 82.4% in 1991. The percentage growth rate of Hindus during the decade 1991-2001 has recorded 20.3 whereas the corresponding growth rate during 1981 and 1991 was 22.3%. It clearly shows that growth rate in Hindu population is diminishing which can be attributed that the people of this religion is more conscious about family planning methods. In Andhra Pradesh the percentage of Hindus has recorded 89.0 whereas the corresponding figure during 1991 was 89.1%. However the percentage growth rate of Hindus has fallen to 14.4 from the percentage growth rate of 24.7 as recorded during the decade 1981-1991. In Nizamabad district though the percentage of population of Hindus recorded 84.5% as against 85.1% in 1991 their growth rate in 1991-2001 has fallen to 14.3% as against the growth rate of 19.9% in 1981-1991.

In respect of Muslims, their percentage to total population has recorded 13.4 at India level as against

11.7% in 1991. In Andhra Pradesh their percentage has gone up to 9.2% from 8.9% in 1991. In respect of Nizamabad district, Muslims constituted 14.4% of total population during 2001, whereas the corresponding figure recorded in 1991 was 14.1%. However in this district the growth rate in the decade 1991-2001 has declined to 17.9% as against the growth rate of 31.5% recorded in 1981-1991.

The other main religion going by numerical strength is Christians. They constituted 2.3% of total population at India level during 2001census. Their growth rate during the decade 1991-2001 is 22.6% at India level as against the growth rate of 16.9% recorded in 1981-91. In Andhra Pradesh their percentage growth rate continues to show the negative trend. The percentage growth rate of this community recorded during 1991-2001 is (-) 2.8 as against (-) 15.1 recorded during decade 1981-1991. In Nizamabad district during 2001 Christians constituted 0.7% to total population as against 0.6% in 1991. The percentage growth rate of this community during 1991-2001 has recorded 41.6% as against (-)2.4% in 1981-1991. In respect of other main communities their growth rate is negligible.

Annexure-IV(c)

Distribution between Rural and Urban area of Major religions in Andhra Pradesh and Nizamabad district -1991

Sl. No.	Name of Religion	Andhra Pradesh(in %)		Nizamabad District(in %)	
		Rural	Urban	Rural	Urban
1	Hindus	76.55	23.45	84.46	15.54
2	Muslims	41.83	58.17	52.56	47.44
3	Christians	60.48	39.52	56.92	43.08
4	Jains	4.11	95.89	2.70	97.30
5	Buddhists	80.41	19.59	67.83	32.17
6	Sikhs	10.85	89.15	32.79	67.20

Rural – Urban differentials :

In Andhra Pradesh and Nizamabad district, it is seen that Hindus form considerably higher in rural areas i.e., 76.55% and 84.46% respectively. Similarly Christians and Buddhists form higher percentage in rural areas than urban both in the State and district. But Muslims form higher percentage in the urban areas of the State, while it is vise-versa in case of the district. The Sikhs and Jains are more in urban areas than rural areas both in the State and district.

Inset table to Annexure IV (c)

Distribution between Rural and Urban area of Major religions in Andhra Pradesh and Nizamabad district - 2001

Sl. No.	Name of Religion	Andhra Pradesh (in %)		Nizamabad District (in %)	
		Rural	Urban	Rural	Urban
1	Hindus	76.3	23.7	86.7	13.3
2	Muslims	41.9	58.1	55.4	44.6
3	Christians	55.0	45.0	66.0	34.0
4	Jains	5.0	95.0	5.0	95.0
5	Buddhists	66.0	34.0	38.0	62.0
6	Sikhs	17.0	83.0	33.0	67.0

Source: Religion Data, Andhra Pradesh - 2001

The above table indicates the distribution of major religions between rural and urban in Andhra Pradesh and Nizamabad district during 2001 census whereas the previous Annexure has given details recorded in 1991 census. The above inset table to Annexure shows that the percentage of Hindus and Muslims are more in the rural areas of the district than the State and whereas in urban it gives vice-versa. The above Annexure and inset table to Annexure show that the distribution of Hindus and Muslims between rural and urban at state level as well as at district level. In 2001 census 55.0% Christians lived in rural areas as against 60.5% in 1991 at state level. The concentration of Jains and Sikhs is more in urban areas than rural areas both at state level and district during 1991 and as well as 2001. It is interesting to note that Buddhists lived more in rural areas than in urban areas both at state and district level during 91 and 2001 censuses.

Annexure V
Marital status of population as per 1991 Census and 2001 Census

Marital status has been classified as (i) Never Married, (ii) Married, (iii) Widowed and (iv) Divorced or Separated. To ascertain the marital status of a person, it has been made in the following manner.

(i) A person who has never married at any time before, treated him/her as never married

(ii) A person who has been married, whether for the First or another or at any time and whose marriage is subsisting at the time of Enumeration with the spouse living treated such a person as married

(iii) A person whose husband/wife is dead and who has not been married again, treated her/him as widowed

(iv) A person who has been separated from wife or husband and is living apart with no apparent intention of living together again or who has been divorced either by decree of a law of court or by an accepted social or religious custom but who has not re-married, treated such a person as Divorced/Separated.

The following statement shows the Age, Sex and Marital Status composition of the population separately for Total, Rural and Urban in Nizamabad district.

The district has returned 20,37,621 persons during 1991 Census, comprising never married, married, widowed and divorced or separated with 917634 (45.03%), 985916 (48.39%), 112598 (5.53%) and 21443 (1.05%) respectively.

In the sex break-up, the percentage among males and females under the above 4 categories were recorded as 55.77 and 44.23 of never married, 48.49 and 51.51 of married, 13.16 and 86.84 of widowed and 24.78 and 75.22 of divorced or separated

respectively in the district. The female percentage is dominated in all the categories except in never married category.

The population have been distributed in 17 age groups starting from 0-9, 10-14 etc. The above statement shows that married, widowed and divorced/ separated persons were found in the age group of 10-14 which reflect bad events such as child marriages, etc. In the never married category both males and females were covered in almost all categories. The reasons for never married persons found in the old age group may be due to physically handicapped or mentally disabled, etc. There was no separate data collected in the Census for such reasons.

Source: Socio-cultural Tables (C-Series) - 2001

The above inset table gives the details by age, sex and marital status composition of the population separately for total, rural and urban areas of the district during 2001 census, whereas the previous Annexure shows the above details for 1991 census. In 1991 while furnishing age group-wise marital status data, a separate age group 15-44 where the marital status was high has been shown. In 2001 census keeping in view of persons aged less than 18 years and persons aged less than 21 years, being high concentration of marital status, has been furnished. In the district population of 2,345,685 persons, 589,348 (25.1%) males and 468,431 (20.0%) females were recorded as never married. In the total district population, 554,856(23.7) males and 585,191(25.0) females were found married during 2001 census. It is pity to note that as against 114,129 widows 15.433 widowers were found in the district during 2001

census. The reason for high percentage of widows can be attributed to aged males marrying younger females. As against total population of 911,035 persons in the age group less than 18 years, 51.1% males and 47.0% females were found never married in 2001 census. In respect of married persons under the age group less than 18 years, only 0.3% males and 1.6% females were recorded in 2001 census which means public are more conscious about Marriage Act and also ill-fate of early marriages. Similar trend is noticed both at rural and urban areas even for age group less than 21 years. There is no much variation in the figures of marital status of the district between 1991 and 2001 censuses.

Annexure VI
Age , sex and Education in the district as per 1991 Census and 2001 Census

The education table was worked-out on the basis of literates in the district.

Definition of literate :

A person who can both read and write with understanding in any language is to be considered as literate. If a person who can merely read but cannot write is not a literate. It is not necessary that a person who is literate should have received any formal education or should have passed any minimum educational standard. All the children in the age of 6 years or less have been treated as illiterate even if the child is going to school and may have picked up reading and writing.

The following table gives age, sex and education in the district at 1991 Census:

Annexure VI

Source: Socio-Cultural tables, part IV A - C series, Census of India, 1991 Andhra Pradesh

This district has registered 34.18% literacy of the total population which is below the State literacy rate i.e. 44.09% as per 1991 Census. The female literacy with 21.35% was very poor in the district, when compared with the male literacy rate i.e. 47.33% which is more than double the rate of female literacy.

Among the age group, the higher literacy rate is the age 11 years with 65.87%, while lower literacy rate registered with 9.55% in the age group 70-74 years. However, the literacy improvement found in the child age group when compared with the persons who were 15 and above. It is interesting to note that among 8,730 persons who have returned as age not stated, 8,300 persons were literates. They were not able to decide their age even though they are literates.

Source: Socio-cultural Tables (C-Series) - 2001

The Annexure presented in the pre-page gives the details of Age, Sex and Education in the district for 1991 census whereas the above inset table reveals the data for 2001 Census. As was done in the previous Census, the children in the Age group 0-6 have been treated as illiterates even in 2001 census. It is seen from the above table that the district has recorded 52.0% literates in 2001 as against 34.2 % literates in

1991. In the district the literacy rate for males has recorded 64.9% as against 39.5% in females during 2001 Census. From the above inset table it is noticed that in the school going age groups i.e 7 to 14 years, their literacy rate recorded between 67.2% and 81.9%. In all the age groups male literates are dominating females. The highest educated are found in the age group 11 years with 87.2% and their sex-wise breakup recorded 90.5% in males and 83.7% in females. It is a good trend that the essentiality of the education is felt much by the general public.

Annexure VII
Distribution of different mother tongues returned in 1991 Census at District/ Mandal level and the data at District level for 2001 Census

Mother Tongue :

Mother tongue is the language spoken in the childhood by a person mother to the person. If mother dies in infancy, the language mainly spoken in the person's home in childhood will be treated as mother tongue. In the case of infants and deaf-mutes the language usually spoken by the mother will be the mother tongue. A very large number of mother tongues have been returned during 1991 Census. It leads to thorough scrutiny and rationalisation, which resulted in 1,576 rationalised mother tongues and 1,796 names were treated as unclassified or "others". The 1,576 rationalised mother tongues were further classified with the following usual linguistic methods for rational grouping based on available linguistic information. Thus a total inventory of classified mother tongues returned by 10,000 or more speakers at the all India level were grouped under appropriate languages, where possible, was prepared for final presentation of the 1991 Census data. The total number of languages so arrived at is 114. Of which 18 languages are included in Eighth Schedule to the constitution of India (Scheduled languages).

The details of language returned in the district are given in the following Anexure with rural,urban break up by sex in the mandals.

	Grand Total (part A&B)	**2,037,621**	

It is seen from the above shown statement that as many as 22 languages have been returned in Nizamabad district. Out of which 16 are Scheduled languages and 6 are non-scheduled languages. Though there are 22 languages spoken in the district, Telugu speaking people were in majority with 75.32% to total population in 1991 Census, followed by Urdu speaking people with 13.87%. The third place was occupied by the people, whose mother tongue was Hindi(5.76%). Since Maharashtra is neighbouring State to the district, Marathi speaking people were placed at fourth place with 2.58%. Karnataka also being a neighbouring State, Kannada speaking people were reported as 1.83%. The remaining 17 languages formed below one percent.

N= Negligible

The above inset table gives the abstract of the languages as mother tongues and their strength in the district recorded in 2001 Census whereas the previous annexure shows the details for 1991 census. In 1991 the data was presented in alphabetical order whereas in 2001 the mother tongue data has been presented basing on their numerical strength in descending order. The mother tongues having minor returns have been clubbed together and added in the category of 'Others'. Telugu being the region's language has recorded 74.0% to total population in the district with a slight decline in the percentage recorded in 1991 (75.3%). The next highest language being spoken is Urdu with 14.1% to total population of the district whereas in 1991 the percentage of Urdu speaking people recorded 13.9. In respect of other scheduled languages it is noticed that their strength is negligible both in 1991 and 2001. In the district almost all the scheduled languages (except Kashmiri) returned.
