ANDHRA PRADESH

DISTRICT CENSUS HANDBOOK

Part - A & B

PRAKASAM

VILLAGE & TOWN DIRECTORY

VILLAGE AND TOWNWISE PRIMARY CENSUS ABSTRACT

लोकाभिमुख
PEOPLE ORIENTED

Director of Census Operations, ANDHRA PRADESH

Foreword

The District Census Handbook (DCHB) published by Census Organisation since 1951 census, is one of the important publications in the context of planning and development at gross-root level. The publication, which is brought out for each district, contains several demographic and socio-economic characteristics village-wise and town-wise of the district along with the status of availability of civic amenities, infrastructural facilities, etc.

2. The scope of the DCHB was initially confined to a few Census Tables and Primary Census Abstract (PCA) of each village and town within the district. Thereafter, at successive censuses, its scope and coverage has been enlarged. The DCHB published at the 1961 census provided a descriptive account of the district, administrative statistics, census tables and a village and town directory including PCA. The 1971 census-DCHB series was in three parts: Part-A related to village and town directory, Part-B to village and town PCA and Part-C comprised analytical report, administrative statistics, district census tables and certain analytical tables based on PCA and amenity data in respect of villages. The 1981 census DCHB was in two parts: Part-A contained village and town directory and Part-B the PCA of village and town including the SCs and STs PCA up to tahsil/ town levels. New features alongwith restructuring of the formats of village and town directory were added into it In Village Directory, all amenities except electricity were brought together and if any amenity was not available in the referent village, the distance in broad ranges from the nearest place having such an amenity, was given. Information on new items such as adult literacy centres, primary health sub-centres and community health workers in the village were provided so as to meet the requirements of some of the Revised Minimum Needs Programme. Information on approach to the village was provided for the first time in the Village Directory so as to give the details on number of inaccessible villages in each district. In the Town Directory, a statement (IV-A) on slums was introduced to provide the details on civic and other amenities in the notified slums of Class I and Class II towns.

3. The 1991 census DCHB, by and large, followed the pattern of presentation of 1981 census, except the format of PCA was restructured. Nine-fold industrial classification of main workers was given against the four-fold industrial classification presented in the 1981 census. In addition, sex-wise population in 0-6 age group was included in the PCA for the first time with a view to enable the data users to compile more realistic literacy rate as all children below 7 years of age had been treated as illiterate at the time of 1991 census. One of the important innovations in the 1991 census was the Community Development Block (CD block) level presentation of village directory and PCA data instead of the traditional tahsil/taluk/PS level presentation. It was expected that the presentation of village directory and PCA data at CD block level will help the planners in formulation of micro level development plans, CD block being lowest administrative unit.

4. The present series of 2001 census DCHBs have been made more informative and exhaustive in terms of coverage and content. The Village Directory has been enlarged in scope by including a number of other facilities like banking, recreational and cultural facilities, newspapers and magazines and ‘most important commodity’ manufactured in village. Income and expenditure of gram panchayat, wherever possible, has been provided. Apart from these, more details on distance(s) at which basic amenities are available (if not available in the village), are given. This includes educational facilities (namely primary and middle schools and college), medical facilities (viz. Allopathic Hospital, Maternity & Child Welfare Centre and Primary Health Centre), drinking water, post & telegraph (post office and phone), communication, bank, credit societies and recreational

facilities. In Town Directory, the statement on Slums has been modified and its coverage enlarged by including details on all slums instead of 'notified slums'. The information is given in case of all statutory towns irrespective of their class, against only Class I and Class II towns in the 1981 and 1991 censuses. The basic amenities available in the villages and towns are analysed in depth with the help of a number of cross-classified inset tables and statements. Two other significant additions in the publication are inclusion of 'motif' highlighting significant characteristic of the district and analytical notes as annexures. The analytical notes on (i) fertility and mortality and (ii) various measures of fertility and mean age at marriage are prepared based on 1991 Census. Whereas, in the notes relating to (i) percentage distribution of migrants by place of birth/place of last residence, (ii) main religions, (iii) marital status of population, (iv) age, sex and education, and (v) distribution of spectrum of mother tongue, nature and extent of changes occurred in the district in its basic socio-demographic features during the decade 1991-2001 are analysed. The eight digits permanent location code (PLCN) to all the villages and towns have been assigned keeping in view the future needs.

5. The village and town level amenity data have been collected, compiled and computerized in prescribed record structure under the supervision of Shri. V.S. Bhaskar, IAS., Director of Census Operations, Andhra Pradesh. Thereafter, efforts have been made to ensure comparability of the information with that of 1991 census data and the information brought out by the respective state governments in their annual reports and statistical handbooks for various years after 1991. The task of planning, designing and coordination of this publication was carried out by Shri R.G. Mitra, Deputy Registrar General (C&T) and Dr. I.C. Agrawal, Senior Research Officer of Social Studies Division. Dr. R.P. Singh, Deputy Registrar General (Map) provided the technical guidance in the preparation of maps. Whereas, Shri Anil Kumar Arora, Deputy Director of Data Processing Division who worked under the overall supervision of Shri Himakar, Addl. Director (EDP) helped in preparation of record structure for computerization of village and town directory data and the programme for the generation of Village Directory and Town Directory statements including analytical inset tables. The draft DCHB manuscripts received from the Census Directorates have been scrutinized in the Social Studies Division under the guidance of Shri S.L. Jain, Deputy Director and Shri R.K. Mehta, Assistant Director. I am thankful to all of them and others who have contributed to make this publication possible.

D.K.Sikri
Registrar General &
Census Commissioner, India.

Cumbum Irrigation Tank

The motif selected for Prakasam Handbook is the magnificent and biggest irrigation tank at Cumbum. Cumbum is the headquarters village of Cumbum mandal. Evidences show that the tank was constructed 400 years ago during the rule of Vijayanagar Kings. The tank water spreads over 23.9 sq.km. providing irrigation in 16 revenue villages near about Cumbum. Although the registered ayacut is 2,792.33 hectares, crops are raised on 4,896.29 hectares.

There are nineteen inscriptions noted on the tank bund which resemble Telugu script. But till today the inscriptions are not understandable. This tank spot has also become a tourist centre attracting hundreds of visitors.

Cumbum lies 34 kms. North of Giddalur on the Giddalur - Markapur Road. It is also a railway station on Hubli - Machilipatnam line.

Preface

The District Census Hand Book (DCHB) containing Primary Census Abstract and data on "amenities" for each village and town in the district. The intention of this publication is to place the data collected at the Census alongwith the village and town level amenities data collected from the Mandal Revenue Officers/ Municipal officials in this publication. The amenities data is validated by comparing with secondary data obtained from Heads of the Departments. For example, information on schools was compared with data available with Commissioner, School Education and information on post offices was compared with data obtained from the Chief Post Master General and so on. Validation of data in the above manner was by no means an easy exercise. Scores of officials had put in gruelling efforts for months together. The entire data and manuscripts were computerized. We are now reasonably confident of the correctness of the data but we will not make any utopian claims of cent per cent accuracy. There may be errors but we will be safe in saying that they are minimal.

The District Census Hand Book is divided into the following major components.

1. Introduction.
2. Brief history of the district.
3. Census and non-Census concepts.
4. A detailed write up on the physical features, major cultural and social events, major developments during the decade, places of religious and historic importance etc.
5. Primary Census Abstract (PCA) at the district level, mandal/town level and village level.
6. Brief analysis of PCA data.
7. Village Directory and Town Directory.
8. Brief analysis on Village Directory and Town Directories.

It will not be out of place to mention here that there is perhaps no other publication from any agency that encapsulates so much data on a district. The amenities data includes information on sectors such as Education, Health, Water and Electricity supply, Communication and Transport facilities etc. The idea of presenting amenities data juxtaposed to the Census data is not only unique but also tremendously useful for the data users.

The District Census Hand Book is further enriched with a district map and mandal maps depicting villages/towns with population size and also amenities such as Educational Institutions, Hospitals, Telegraph and Telephone facilities, Banks, Police Station etc.

Some improvement over earlier DCHB have been made to bring more completeness to the data presented in this volume.

1. The names of Colleges, Girls' High Schools, Hospitals run by Government and others have been given as an additional information. Similarly the names of Cinema Halls have been given.
2. Ranking of Mandals according to population is also given.

3. More Appendices and Annexures to important statements are given to make the data more comprehensive.

In the previous Censuses, the manuscripts prepared by this department were supplied to Government of Andhra Pradesh who in turn brought out the publications at their cost. However due to the procedural rigmorale some delay was unavoidable in placing the DCHBs before the data users and planners.

This time, keeping in view the above difficulties, the printing and publication of District Census Hand Books has been taken up centrally under the arrangement of the office of the Registrar General and Census Commissioner, India, New Delhi. The processing of data and preparation of Camera Ready Copies electronically including finalisation of write up was attended to in the office of the Director of Census Operations.

I am grateful to the Chief Secretaries, Principal Secretaries, Secretaries, District Collectors, Municipal Commissioners and other senior officials of the Government of Andhra Pradesh for their co-operation and assistance throughout the Census Operations and in the process of collection of the non-Censal data.

I am extremely grateful to Sri D.K.Sikri, IAS, Registrar General and Census Commissioner, India for the help, guidance and constant support in finalising this volume. My sincere thanks to Sri R.P. Singh, Deputy Registrar General (Map) and Dr.I.C. Agrawal, Assistant Registrar General (SS). Sri. S.L. Jain, Deputy Director for giving guidence, help and co-ordinating this project work and their colleagues in the office of the Registrar General, India.

I also take this opportunity to acknowledge the valuable contribution made for this publication by Sri.J.K.Banthia, Ex-Registrar General, India.

Most of the work relating to DCHB has been carried out under the able guidance and direction of Sri V.S.Bhaskar, IAS, Director of Census Operations, Andhra Pradesh, Hyderabad. I take this opportunity to acknowledge his valuable contribution made for this publication.

The credit for preparation of District Census Handbooks goes to a team of devoted officers and staff of this Directorate who have involved in this project. The names of individuals associated with this project are shown in “Acknowledgements”. I am grateful to all of them.

I hope that the data users will find this publication very useful.

District Highlights - 2001 Census

1. Prakasam District stands 4th in terms of area size and ranks 15th in terms of population in the state.
2. Prakasam district stands 17th rank in terms of urbanization with a total Urban population 467,368 forming 15.28% to the total district population.
3. The sex ratio of the district is 971 against 970 in 1991 Census showing upward trend.
4. The density of the district is 174 against 157 in 1991 Census, showing increase over the decade.
5. Kanigiri (U) village, PLC No.02225300 is most populated with a population of 31,122 and Gurugupadu village, PLC No 02222700 is the least populated with a population of 2 in the district.
6. Ongole mandal is most populated with a population of 196,425 and Yeddanapudi Mandal is the least populated with a population of 29,585 in the district.
7. Ongole Municipality is most populated with a population of 150,471 and Kandukur Municipality is the least populated with a population of 50,326 in the district.
8. Out of 100 workers 68.4 are engaged in Agriculture sector, 3.7 in Household industry and 27.9 in other economic activities. Thus showing the predominance of Agriculture Sector.
9. Out of 100 Male workers in the district 60.5 are engaged in Agriculture sector.
10. Out of 100 Female workers in the district 79.4 are engaged in Agriculture sector.
11. There is a decrease in the proportion of main workers of the district in the decade (46.19 percent in 1991 to 42.7 percent in 2001).
12. There is a decrease in the proportion of Male main workers of the district in the decade (55.37 percent in 1991 to 52.7 percent in 2001).
13. There is a decrease in the proportion of Female main workers of the district in the decade (36.74 percent in 1991 to 32.4 percent in 2001)
14. The Prakasam district is famous for Slates, Cashew and Rice.
15. Chirala Mandal has the lowest number of inhabited villages (2) and the highest number of inhabited villages (36) are found in Chandrasekharapuram Mandal.
16. Santhamaguluru mandal has largest area of 12,406.40 hectares under irrigation, followed by Karamchedu mandal with 11,181.00 hectares in the district. The mandal with lowest area, 682.61 hectares under irrigation in Tarlupadu Mandal.
17. Pedda Irlapadu village bearing PLC No. 02243100 has the largest area (6,776 hectares) and Madam Chelama village bearing PLC No.02152300 has the smallest area (16 hectares) among the villages of the district.
18. Female work participation rate is 42.6 that of the Males in the district is 57.7.

(i) About the District Census Handbook

District manuals compiled and published prior to 1905 by the erstwhile composite Madras Government contained not only particulars of items of more or less similar and permanent characteristics like history, religion and ethnography, but also a few statistical tables including those relating to population which became obsolete within a few years of publication. Later, the Madras Government replaced the District Manuals by another publication viz., the District Gazetteer consisting of two Volumes A and B. Volume-A contained descriptive and general tables which explains the text and Volume-B contained detailed statistics. It was decided that Volume B should be brought out periodically after each decennial census so that they contain the latest statistics. Volume-A was published for some districts between 1905 and 1927 in the Composite Madras State. The publication of Volume-A was discontinued in 1927. Volume-B was published for all the districts of the Composite Madras State between 1906 and 1915. The publication of Volume-B was also stopped after 1931 Census.

Similarly the Gazetteer volumes were also brought for some of the districts in the erstwhile Hyderabad State. The scheme of publication of revised District Gazetteers was restarted in the year 1958 by the State Governments. The State Editor, District Gazetteers, Government of Andhra Pradesh had published the Gazetteers of all the districts.

The District Census Handbook series was initiated during the 1951 Census. The idea of compiling the District Census Handbooks was initiated during the 1951 census pioneered by Sri. R.A. Gopala Swamy, I.C.S. the then Registrar General, India and Ex-officio Census Commissioner of India, with a view to preserve the census records prepared for areas below the district level. He proposed that all the District Census Tables and Census Abstracts prepared during the process of sorting and compilation, should be bound together in a single manuscript volume and named as the District Census Handbook and suggested that the State Government should take up printing and publication at their own cost. Then onwards, the District Census Handbooks were published in each census with improved pattern with an aim to give the census and non-census data at micro level for the village and district as a whole to suit the requirements of various departments, scholars, research personnel , planners, industrialists, electoral authorities, and other data users, also for efficient public administration by the state.

Pattern at 2001 Census :

The present District Census Handbook of 2001 Census, like the previous Census, is brought out for each district comprising of two Parts. Part- A Village and Town Directory with additional information on amenities viz., availability of commercial banks, recreation, credit societies etc., and land use particulars in the rural areas and Part- B Primary Census Abstract. At the out set an analytical note is given which depicts a general back ground on the district and analytical results on the statements and tables included in the volume. The volume is also provided with brief history of the district, physical aspects, census concepts, non-census concepts, major characteristics with reference to economic resources and administrative set-up during the past decade, few appendixes, etc..

Part A–Village and Town Directory :

The Section- I i.e. Village Directory gives non-census data on the amenities available in each village in respect of educational, medical, drinking water, power supply, post and telegraph, telephone, approach to village, banks, credit societies, receipt of newspapers and magazines, recreation and cultural facilities, nearest town and its distance, distribution of land use area, income and expenditure of the village and name of the most important commodities manufactured.

If an amenity is not available in the referred village, the distance in broad ranges (Kms.) from the nearest place where the amenity is available is indicated. If the nearest place is situated in another state, name of the other state is also given.

The Section-II i.e. Town Directory has been presented in seven Statements viz., Statement – I Status and Growth History, Statement-II Physical aspects and Location of towns, Statement-III Municipal Finance(receipts and expenditure,1998-99), Statement-IV Civic and other amenities, Statement-V Medical, Educational, Recreational and Cultural facilities, Statement-VI Trade, Commerce, Industry and Banking etc., Statement-VII Civic and other amenities in Slums and an Appendix showing towns with out growths and their population. The reference period for the above statements is 1998-99 and the data is covered for all the statutorily notified towns in the district.

The non-census data at Village/Town level is collected from concerned authorities viz., Mandal Revenue Officers, Municipal Commissioners etc., and scrutinized with meticulous care and validated with the data collected from various departments to provide valid information to the data users.

Part B–Primary Census Abstract :

This data can be stated as the essence of the handbook. The latest census details such as area, total households, population, scheduled castes and tribes population, literates, workers, etc. are presented in these Abstracts.

(ii) History and Administrative Set up of the district

Brief History of the District:

Ongole (Prakasam) District was constituted on the 2nd of February, 1970 by carving out portions of Guntur, Nellore and Kurnool districts. It was renamed as Prakasam district in 1972 in memory of the eminent freedom fighter Sri Tanguturi Prakasam Pantulu who was the Chief Minister of the composite Madras state and the first Chief Minister of Andhra State.

Prakasam was known as Vangalaprolu, Vangavolu and Vangolu after the surname of an astrologer in the court of an Addanki chief. It was part of the 'Pungi Nadu' during the time of the Ikshavakus, 'Kamma or Karmarastra' during the Pallava period and 'Pakanadu' during the Kakatiya period.

Ancient period :

The history of Prakasam district starts with the rule of Nandas. The imperial dynasties that held sway over this district in the ancient period. after the Nandas were the Mauryas, Satavahanas, Ikshavakas, Pallavas, Chalukyas of Badami, Eastern Chalukyas of Vengi, Rashtrakutas, Cholas, Chalukyas of Kalyani, Yadavas and Kakatiyas. Besides these super powers, there were also local families ruling over portions of this district and they owed allegiance to one or the other of the contending imperial powers according to the exigencies of time. To have an over all idea of the history of the district, it is necessary to have a peep into the fluctuating fortunes of these ruling powers.

Though the evidence for the rule of Nandas and Mauryas is slender, there can be no doubt about the rule of later Satavahanas over this area for an inscription of Gautamiputra Satakarni dated in his 27th regnal year was noticed at Chinaganjam in Chirala taluk of this district. The discovery of a few gold coins pertaining to the Roman emperors of the 1st century B.C. or A.D. at Dharmavaripalem in Darsi taluk of Prakasam district shows that the Satavahanas traded with distant lands extending as far as Rome. Major part of the area comprising Prakasam district excluding the two taluks of Giddalur and Markapuram transferred from Kurnool district at the time of its formation in 1970. Prakasam district together with the entire Guntur district was known as Kamma rashtra from the 4th Century to the 14th Century A.D. Prominent references to Kamma rashtra are found in the *two famous copper plate inscriptions of Chandalur village (30 Kms. North of Ongole town), the first one dating around 650 A.D. and the second one to 673 A.D. respectively.

If the annexation was in its entirety, then the area comprising the present Prakasam district must have also passed fully under the Chola hegemony. Pallava Simha Vishnu, who ruled the Pallava Kingdom between 574 A.D. and 600, besides stalling the kalabhna submersion, revived the Pallava supremacy in this region.

The district became a bone of contention between the Chalukyas of Badami and the Pallavas of Kanchi. There were about nine rulers in the Chalukya dynasty and fourteen among the Pallavas. The rule of the Chalukyas began in the 2nd quarter of the 6th Century A.D. while that of the greater Pallavas in the 3rd quarter of the same Century. Though the rule of the Chalukyas ended a little over the middle of the 8th Century, the Pallavas, however continued beyond the 9th Century A.D. There were some outstanding warrior rulers among them both the dynasties. They were pulakesin-II on the side of the Chalukyas and Narsimhaswamy - I on the side of the pallavas.

At one time i.e., during the second quarter of the

**The first copper plate inscription of Chandalur was issued by the Chalukya king Kumara Vishnu-II in around 644 A.D. and the second copper plate inscription of Chandalur village was issued by king Sarvalokasraya alias Vijayasidhi and Mangi Yuva Raju, son of Maharaja Kumara Vishnu-II. This village Chandalur was sub-divisional headquarters in the district Karmanka or Kamma rashtra comprising the area south of Krishna river upto Manneru river in Kavali taluk of Nellore district.*

8th Century A.D. when Chalukya Vikramaditya II was at the helm of affairs at Badami, the Pallavas appeared to have asserted their sway over the territory in Nellore district which has now gone to make-up the Ongole district in 1970. With Kirthivarman II (744-757), the rule of the Badami Chalukyas came to an end and they were survived by the Eastern Chalukyas was taken by the Rashtrakutas . They were overthrown by Chola subordinates in about 912 A.D. The Rashtrakutas, though they appeared on the political scene much later, quit the field sixty years after the Pallavas and their place was taken by the Western Chalukyas of Kalyani.

With the ushering of the Western Chalukyas a period of internecine warfare began between the Chalukyas and the Cholas. All these wars were for controlling that fertile sketch of the coastal area of which Prakasam district was part and parcel. The Chalukya rulers dynasty was in existence till A.D.1200. Among the Cholas, the last ruler Rajendra III is said to have ruled till A.D.1279.

The sub-feudatories of the Cholas, the Velanadu Cholas and Nellore Telugu Cholas were important among the rising powers.

The branch of the Telugu Cholas was ruling in the southern marches of Kammanadu during this period. Though very few inscriptions of this family have come to light, an undated epigraph at Peda Cherukuru in Chirala taluk records seven generations of this family down to Malladeva -II, a subordinate of Kakatiya Ganapathideva. The Telugu Cholas of Konidena titled themselves as Kondukuru Puravardhisvaras instead of Oreyuri Pura-varadhisvaras and the lords of 21,000 villages of Pakanadu Vishaya.

Of the Telugu Chola families that ruled over parts of former Nellore district from the 10th Century A.D., Tondiyaraja of Kalujuvvalapadu, the Telugu Cholas of Nellore were important.

The Telugu Cholas of Konidena ruled over Kammanadu comprising among others modern Prakasam district for nearly two centuries with their capital at Konidena.

The Kingdom comprised Kamma-nadu, the tract from Kavali to Ongole in the northern part of Nellore district. Kammanadu consisted of parts of Satte-nnapalle, Narasaraopet and Vinukonda taluks and at the time spread beyond the Krishna on the north, beyond the Gundlakamma upto Srisailam on the west, into Guntur district on the north east, and Velanadu, Pakadu and Addanki Sima on the south.

Of the Western Chalukyas dynasty, five rulers held sway till A.D.1200 after Vikramaditya -VI, and contemporaneously seven Cholas ruled beyond this period starting from Kulothunga-I. Whatever be the length of their rule, their power declined gradually, Vikrama Chola, who followed Kulothunga-I was successful in regaining his hold on coastal Andhra with the help rendered by his subordinates. The Chalukya ruler Someswara-III, unable to protect the territorial acquisitions of his father Vikramaditya-III perhaps retired to his kingdom. No record was found in the former eastern part of Kurnool district (i.e. Giddaluru and Markapur taluks transferred from Kurnool to Prakasam district).

The Pandyas, who had been steadily growing power over the years, conquered the Chola Kingdom under the leadership of Jatavaraman Sundara Pandya-I and annexed it to their Kingdom. They considered themselves as the successors of Cholas, whose suzerainty the Telugu Cholas of Nellore acknowledged and invaded the Kingdom of Nellore.

The Kakatiyas were yet another dynasty to hold sway over the area comprised in Prakasam district. The first ruler who had anything to do with this district was Rudra (1150-1195).

The next phase in the conquest of this district appears to be in the time of Ganapathi Deva. He was the son of Mahadeva. So far as this district is concerned, Ganapathi Deva subdued the Velanadu Cholas, Telugu Cholas of Konidena and Chakranarayana princes. With the first, he acquired mastery over Podili and Darsi and seems to have entrusted it to the Kayastha chief Gangaya Sahini who was ruling from Panugal to Marajawadi. These series of conquests brought Podili, Darsi, Addanki, Markapur and Giddaluru taluks of this district under the sway of the Kakatiyas.

Imperial Cholas in the maritime Andhra witnessed the emergence of the Kakatiyas of Warangal who played a very prominent part in the history of the Deccan in general and Andhradesa in particular. The

Kakatiyas held sway over the whole of the Telugu-speaking area for nearly 325 years i.e. from A.D.1000 to 1323. This period was styled as the Age of Kakatiyas. It was an age of enquiry and criticism. Rudra, Ganapati, Rudramba and Prataparudra were the representatives of this great age.

After 1523 A.D. the whole of Andhra Pradesh passed under Moha-mmad-Bin-Tughluq, the then sultan of Delhi. However, this area did not remain long under them, for their rule was most oppressive in character and the people roused for a benefactor, whom they found one in Musunuri Prolaya Nayaka. Seventy five nayakas of coastal Andhra, nobles and common people alike flocked to his standard. The struggle was convulsing that some ventured to call it a National Movement, the first of its kind in Indian history. In the wake of this struggle, a few independent Kingdoms came to be established, the Chief among them being the Reddis, Vizianagara and Bahamanis and the order of their coming into existence being the years A.D. 1326 and A.D.1347 respectively.

Contemporaneous with the Yadavas of Devagiri, a dynasty of the Yadava lineage known as the Yadavas of Addanki ruled over a small kingdom in Prakasam district as feudatories of the Kakatiyas and the Telugu Cholas for a century from the middle of the 12th century with their capital at Addanki which subsequently became the first capital of the Reddi Kingdom. The Yadavas of Addanki also known as the Chakranarayana princes after one of their titles were a powerful local dynasty consisting of six kings who were great warriors.

Towards the close of the 13th century A.D. the Yadavas of Addanki disappeared and their territory incorporated.

The dynasty of the Nagas ruled over some area in Prakasam district with their capital at Darsi in the 13th and 14th centuries A.D. It consisted of ten generations of rulers who were warriors of merit.

The Reddis of Kondavidu :

Of the three Reddi Kingdoms of Kondavidu, Rajamahendravaram and Kandukuru, which shaped the destinies of the people of coastal Andhra, Kondavidu and Kandukuru, an off-shoot of Kondavidu, are relevant to Prakasam district. The Reddis of Kondavidu, who began as the subordinates of the Musunuri chiefs, soon became independent and played an important role during the revival of the Hindu supremacy in the post Kakatiya period.

The Reddis ruled the Telugu country in the 14th and 15th centuries. The sources for the history of the Reddis are the inscriptions copper plate and stone, Sanskrit and Telugu literature, Muslim historians and itinerary accounts of European travelers and traditional accounts.

Vema Reddi, son of Prolaya Reddi, a chieftain of Pakanadu was the founder of the Reddi Kingdom. His Mallavaram inscription dated 1247 (A.D.1325) refers to him as the supreme ruler of the region around Addanki. The mention of the Brahma Kundi or Kundi Prabha (Gundlakamma), the Krishna and Gautami in this inscription indicates Vema's sphere of action during this troublous period.

Vema Reddi, also known as Prolaya Vema, rendered great service to literature by extending patronage to scholars and teachers and granting them agraharas. Errapregada, also called Sambhudasa, was the court-poet of Prolaya Vema. He was the son of Suranarya and his ancestors migrated to Pakanadu from Venginadu and settled at Gudluru in Kandukuru taluk. He was a devotee of Siva and his guru Sankaraswami was a famous Saivite teacher. While at Gudluru, he became the favourite poet of Malla Reddi, the youngest brother of Prolaya Vema. After founding the Reddi Kingdom, Malla Reddi took him to his brother, ever since he became the court-poet of the Reddis of Addanki. He had four works to his credit and they were; (1) The Aranya Parva of the Mahabharata left unfinished by Nannaya and Tikkana, (2) Narasimhapuranam, (3) Ramayanam and (4) Harivamsam. The first of these won for him the title Prabhanda Parameswara. He is known to have written the Ramayanam at the request of Prolayavema. An inscription of Saka 1320 (A.D.1398) at Kandukuru belonging to Rachavema, grandson of Malla Reddi, corroborates this.

During the political turmoil after the fall of Warangal, when Prolaya Vema was busy establishing his authority to the south of the Krishna, his youngest brother Malla Reddi co-operated with him and took an active part in building up the Reddi power. The

Mallavaram inscription of Prolaya Vema styles him as Malla senapati, and the Telugu work Harivamsam as Malla rathininatha. The conquest of Motupalli was one of the chief achievements of Malla Reddi. When Sultan Alauddin Hasan Bahman Shah invaded the coastal region, Malla Reddi opposed and inflicted a severe defeat on him and saved the Kingdom which was then in the making. There is reasons to believe that the youngest brother of Prolaya Vema was put incharge of the southern province of the Reddi Kingdom, Kandukuru.

Very little is known of the history of the Reddis of Kandukuru. These chiefs refer in their records only to Addanki and not to Kondavidu. Srigiri Reddi, son of Pina Komati and grand son of Malla, was the first member of this family to assert his independence. He is represented by two inscriptions, one at Kandukuru dated Saka 1320 and the other at Konda-mudusupalem dated Saka 1322. The Kandukuru record states that he was the eldest son of Pina Komati and Gannambika.

The Saluvas ruled over the Podili area in the 15th century A.D., with their capital at Podili. A few inscriptions and the Kaifiyat of Podili form the sources of their history. The Saluvas were known as Sombuvarayas and are confused with the Saluvas of Guntur who acquitted and distinguished themselves better than the Saluvas of Podili and became celebrated in Srinatha's works. The rule of the Saluvas of Podili ended with Telugu Rayudu. Afterwards nothing is heard of his successors or sons as their territory was appropriated among the Gajapatis and the Rayas of Vijayanagara.

The history of the district in the year following the death of the Reddi King Racha Vema is obscure. Perhaps it also marked the beginning of wars between the Rayas of Vijayanagar and the Gajapatis of Orissa. In 1579, the Vijayanagara Kingdom witnessed an invasion by the Sultan of Golkonda - Ibrahim Qutub Shah. During this invasion, major portion of the present Prakasam district passed under the Qutub Shahis of Golkonda. Within a few years afterwards, i.e. in A.D.1687, the Qutub Shahis also disappeared from the political scene, giving place to the Mughals then led by Aurangazeb.

There are inscriptions at Cumbum in Bestawaripeta taluk, one of A.D.1706 and another of A.D.1729. The first refers to the death of one Khaja Muhammed Sheriff who was the Qiladar of Cumbum fort during the reign of Aurangazeb. The second refers to one Muhammed Sahib, son of Muhammed Khayum of Tab and governor of Cumbum in the reign of Muhammad Shah. It also states that Muhammad Sahib got a mosque constructed at Cumbum during his governorship. All these go to show that this district, like the other districts in the Qutub Shahi Kingdom, passed under the Mughal rule. It formed part of the Golkonda province, one of the six provinces into which the Deccan Suba was sub-divided.

The next dynasty to rule over the district was the Asaf Jahis. During Nizam-Ul-Mulks time, the Deccan Suba comprised five Nawabs charges, one of which was Kurnool. Nellore and Guntur districts, from which certain areas were taken out to constitute the present Prakasam district, were under the Nawabs of Arcot and Rajmundry. In 1801 A.D. the British acquired complete control over the three districts from which the present Prakasam district was formed.

The Zamindars and the Palegars rose to prominence during the period preceding the transfer of this region to the British. Some of them were descendants of the ancient Hindu ruling families, while some others were the agents of the Muslim rulers. They usurped certain hereditary rights and regarded themselves as the owners of the soil. They maintained retainers who helped them in the collection of revenue. The Zamindars appropriated to themselves most of this revenue and paid a fixed sum to their overlords. The chief among them were those of Ongole, Venkatagiri, Srikalahasti, Chundi, Mutyalapadu and Guntur.

Freedom Struggle :

Prakasam district was seriously disturbed in the subsequent decades by the freedom struggle. The Indian National Congress, founded in 1885, was only one of the symbols of reminiscent India. The people of this district contributed their due share to the growth and progress of the Indian National Congress and the liberation movement of the period.

The non-co-operation movement in 1920 shows the district setting with political turmoil. After the all India Congress Committee meeting was over, Gandhiji came to some of the coastal districts and spread the

message of nationalism. The boycott of courts by lawyers met with a slightly better response in favour of civil disobedience and no-tax campaign. Among those who suspended their practicing professions and who dedicated themselves to the cause of the country's freedom were some of the top ranking lawyers, with late Sri. T. Prakasam leading them all.

The district hardly returned to normalcy until the 20th of February, 1947 when the British Government declared its intention to quit India. There was widespread jubilation in the district when power was finally transferred by the British to the Indian National Government headed by Pandit Jawaharlal Nehru on the 15th August, 1947.

Three more events are relevant to this district, namely, formation of Andhra State in 1953, formation of Andhra Pradesh in 1956 and the constitution of Prakasam district in 1970. In 1953, the Telugu speaking districts of the Madras State, were separated and the Andhra State was formed. In 1956, the nine Telangana districts of the erstwhile Hyderabad State were added to the Andhra State under the States Re-organisational Committee's report thus giving birth to the Andhra Pradesh State. It was in 1970 that this district really took shape which is formed out of Guntur, Nellore and Kurnool districts. It was named after the patriot and the heroic among the freedom fighters 'Andhra Kesari' (Lion of Andhra) Late Sri Tanguturi Prakasam Pantulu.

Administrative Set-up

Changes in the Administrative Unit:

Prakasam district is one of the district in the state with parts from Kurnool, Guntur and Nellore districts. The district was formed on 2.2.1970. In 1985, the then existing 17 taluks were re-organised into 56 Mandals. Corresponding to the revenue Mandals, Mandal Praja Parishads were also formed which are co-terminus with the Revenue Mandals in all cases except that the statutory towns are not included in the jurisdiction of the MPPS. The 56 Mandals were organized into 3 Revenue Divisions i.e., Ongole, Kandukur and Markapur. During 2001 Census no new mandal has been carved out.

There are 1093 total revenue villages as per 2001 Census of which 10 i.e., Perala, Chirala, Vetapalem, Bestawaripeta, Ongole (NMA), Annavarappadu, Pamur, Mahadevapuram, Kandukur and Anandapuram villages are included fully in towns. Thus, the total rural villages are 1083 in the district. There is no increase of any village in 2001 Census.

During 1991 Census there were five Statutory Towns and six Census Towns in the district. Of which Vetapalem a statutory town has been degraded as census town and Ongole (NMA) has been merged in Ongole Municipality after 1991 Census. Four Census towns, viz., Addanki, Cumbum, Giddaluru and Kanigiri have attained the rural status. Two Census towns, viz., Bestawaripeta and Pamur have been newly formed in 2001 Census. Thus, as per 2001 Census this district has four statutory towns viz., Markapur, Chirala, Ongole and Kandukur and four Census Towns viz., Vetapalem, Bestawaripeta, Pamur and Singarayakonda(RS).

The 56 Mandals are organised into three Revenue Divisions in the district as follows.

Ongole Division :

(1) Ongole (2) Tangutur (3) Kothapatnam (4) Naguluppala padu (5) Chimakurthi (6) Maddipadu (7) Santhanuthala padu (8) Addanki (9) Korisapadu (10) Janakavaram Panguluru (11) Ballikurava (12) Santhamaguluru (13) Martur (14) Yeddana Pudi (15) Chirala (16) Vetapalem (17) Chinaganjam (18) Parchur (19) Inkollu and (20) Karamchedu.

Kandukur Division :

(21) Kandukur (22) Gudluru (23) Voletivaripalem (24) Ponnaluru (25) Kondapi (26) Zarugumilli (27) Singarayakonda (28) Ulavapadu (29) Lingasamudram (30) Kanigiri (31) Hanumanthunipadu (32) Pamur (33) Veligandla (34) Chandrasekhara Puram (35) Pedacherlo palle (36) Podili (37) Konakanamitla (38) Marripudi (39) Darsi (40) Tallur (41) Mundlamuru (42) Donakonda (43) Kurichedu and (44) Tarlupadu.

Markapur Division :

(45) Markapur (46) Dornala (47) Peda Araveedu (48) Yerragondapalem (49) Tripuranthakam (50) Pullalacheruvu (51) Giddaluruu (52) Racherla (53) Komarolu (54) Bestawaripeta (55) Cumbum and (56) Ardhaveedu.

(iii) Physical Features of the District

General :

Prakasam district is a part of the southern Andhra Coastal plain lying approximately between 15° 30' and 16° northern latitudes and 79° and 80° Eastern longitudes. It is bounded on the north by Mahbubnagar and Guntur districts, on the west by Kurnool district, on the south by Cuddapah and Nellore districts and the Bay of Bengal on the east. The central portion of the district contains large tracts of low shrubs jungle, diversified with rocky hills and stony plains which is a distinctive feature of the district. The district was formed on 2.2.1970. The district head quarters is Ongole town. It is connected by road and rail. The National High way between Chennai and Howrah passes through this town. The district occupies an area of 17,626 Sq. Kms. with a population of 3,059,423 as per 2001 Census. The density of population is 194 per Sq. Kms. Among 23 districts in the state, Prakasam district occupies 15th rank both in terms of area and population. The rural and urban break-up of population is 2,592,055 and 467,368 persons respectively. The percentage of rural population in the district works out 84.72% while that of urban population is 15.28%. The scheduled castes population in the district is 21.29% of the total population while Scheduled tribes population accounts for 3.86%. Of the 210 towns in the state, eight are located in this district.

Physiography :

The important hill ranges in the district are the picturesque Nallamalas and the Veligondas. The Nallamalas traverse the erstwhile taluks of Giddaluru and Markapur, while the Veligondas are formed in the erstwhile taluks of Giddaluru and Kanigiri. These hills separate this district from Krnool and Cuddapah districts. There are two passes in the Nallamalas namely the Nandi Kanuma and Manbala Kanuma. The Nandi Kanuma forms the main artery of communication between Kurnool and Bellary districts on the west and coastal districts on the east whereas the later links Atmakur and Kurnool on the west and Dornal, Yerragondapalem and Markapur on the east.

Drainage :

Gundla Kamma, Musi, Maneru and Paleru are the important principal rivers flow from west to east in the district. Of these, the river Gundlakamma which flows a length of 220 Kms. is the life giving source of this district for drinking water and irrigation purposes. There are also other minor rivers like the Tammileru, Sagileru and Gudisaleru and streams like Vaguru vagu, Nallavagu, Vedimangala vagu which flow in limited parts of the district.

Climate and Rainfall :

In Prakasam district the sea breeze renders the climate moderate both in winter and summer in the coastal areas of the district. In the non-coastal areas of the district the heat in the summer is severe, especially in the tracts of upland areas. The following table provides month-wise minimum and maximum temperature for the year 2000. According to the table Highest temperature 38.9° recorded in the month of May, while lowest temperature 19.5° recorded in the month of January.

Table(a)
Monthwise Maximum and Minimum temperature during the year 1997

Temperature	Jan	Feb	Mar	Apl	May	June	Jul	Aug	Sep	Oct.	Nov	Dec.
Range												
Maximum	31.6	33.8	35.6	38.6	38.9	38.0	36.1	35.1	34.8	31.9	32.5	31.5
Minimum	19.5	21.5	24.3	26.8	27.9	27.8	26.5	25.9	26.1	24.9	23.1	20.3

Source: Statistical Abstract of Andhra Pradesh, 2000

Rain fall :

The district rain fall is 698 mm during 1999-2000 as against the normal rain fall of 752 mm. The district has recorded highest rainfall 311 mm during south - west monsoon and 208 mm during the north - east monsoon. The following table shows season-wise rainfall of the district during 1999 - 2000.

Table(b)
Season-wise rain fall during 1999-2000

South West Monsoon (June - Sept.)	North East Monsoon (Oct. - Dec.)	Winter period (Jan. - Feb.)	Hot Weather (March - May)	Total (June to May)
311 mm	208 mm	118 mm	61 mm	698 mm

Source: Statistical Abstract of Andhra Pradesh, 2000

Soils :

Red loamy, black cotton, sandy loams, and Sandy soil are predominant soils in the district forming 51%, 41%, 6% and 2% respectively of the total area of the district. The black cotton soil predominantly occurs in the mandals of Ongole, Tangutur, Naguluppala Padu, Chimakurthy, Maddipadu, Santhanuthalapadu, Addanki, Korisapadu, J.Panguluru, Ballikurava, Santhamaguluru, Marturu, Yeddana pudi, Parchur, Inkollu and Karamchedu. The red-loams are predominant in the mandals of Kanigiri, Hanumanthunipadu, Pamur, Veligandla, Chandrasekharapuram, Pedacherlopalle, Podili, Konakanamitla, Marripudi, Donakonda, Kurichedu, Tarlupadu, Giddalur, Racherla, Komarolu, Yerragondapalem, Tripuranthakam and Pullalacheruvu where as the sandy loams are predominant only in four Mandals of Chirala, Vetapalem, China-ganjam and Ulavapadu. The Sandy soil found in two mandals of Ongole and Vetapalem only.

Flora and Fauna :

Forests occupied about 25.1% of the total geographical area in the district. In the coastal area Chirala, Vetapalem, Chinaganjam, Kothapatnam, Singarayakonda and Ulavapadu are having forests containing Casuarina and Cashew plantations. This district has two forest divisions viz., Markapur and Giddalur which are functioning under the charge of Divisional Forest Officers. In addition to the above two territorial Divisions viz. Logging Division at Giddalur and Social Forestry Division at Ongole are functioning in the district. There is also a special range called Departmental Extraction of Timber at Dornala.

The Forest Department has undertaken the schemes for the development of Forest in the district. They are 1.Water Shed Management, 2. Maintenance of teak plantation, 3.Raising Shelter belt plantations and 4.Social Forestry.

The ever green forests formed a belt along the sea-coast were converted into Casuarina plantations. The cashewnut has been successfully introduced which has grown as a dollar earning crop. Casuarina met the fuel needs of the people in the coast to a great extent and cashewnut converted the unproductive areas into potential revenue yielding orchards. Besides, 'Bongu Veduru' and 'Sadanapu Veduru' occur in the forests of Giddalur and Markapur. Best bamboo occurs in Iskagundamgudem plateau, Maddipenta and Rollapenta localities. The bamboo in Guttalacheruvu plateau consists of the solid variety

and is largely collected for goading and walking sticks.

As regard Fauna, the district is not rich in game, except in the Nallamalas and Veligondas. In the olden days there were large number of elephants and other wild animals. Tigers so plentiful that the Collectors were forced to take special steps to keep their population down. Now, the number of these wild animals has come down due to shooting down the wild lives, availability of improved transport facilities etc. The Wild life (protection) Act, brought by the Government of India has provided protection to all wild animals and birds.

The animals fairly found in the district are Bonnet Monkey, Common Langur, Capped Langur, Slender Loris, Tiger, Leopard, Jungle-Cat, Hyaena, Indian Fox etc. The Birds noticed in the district are house crow, jungle crow, Indian Robin, Common Myna, Swallow, Green Pigeons etc. The different snakes are present all over the district. Some of the poisonous snakes found in the district are Cobra, Indian Krait and Russell's viper etc. When a Census of Tigers was taken in 1978, there were 40 to 43 tigers in the Srisailam - Nagarjunasagar area. This area was found to be congenial for the growth and development of tigers, a project Tigers Scheme under the name Nagarjuna sagar - Srisailam Wild life Sanctuary covering an area of 3,568 sq.km. spread over 5 districts, one of them being Prakasam district launched in 1983. The stock of Tigers rose to 97 in 1991 in this sanctuary.

Mineral :

There is no much economic importance for the district except the slate and moulding sands of former Markapur and Chirala taluks suitable for polishing. Minor occurrences of Barytes, Clay, Foundry sand, Garnets, Granite, Gypsum, Iron Ore, Manganese, Saline Efflorescence, Slate and Building materials are also reported from the district.

Prakasam district came into prominence on account of the discovery of Granite useful for decoration. The varieties of Granite known as Black Granite, Galaxy Granite etc., have much demand within and out side the country. Manganese is chiefly used in Iron and Steel, Chemical and Fertiliser Industries. Saline efflorescence (Red salt) is used for manufacturing soda ash and caustic soda.

Slate of good quality is used for manufacturing slates for school children and insulators in electrical industry. A few hundred families in and around Markapur depend on them for their livelihood.

The following table gives the production of some of the principal minerals during the year - 1998-99.

Table(c)
Production of Principal Minerals for the year 1998 - 99

	Type of Minerals	Production (in Tonnes)	Value (in Rs.'000)
1.	Silica Sand	2,390	95
2.	Quartz	1,210	264
3.	Barytes	1,320	26

Agriculture:

The district is predominantly agriculture Oriented. The Principal Crops cultivated in the district are paddy, Jowar, Maize, Pulses, Chillies, Coriander, Castor, Cotton, gingelly, groundnut and tobacco.

Land use pattern :

The following table shows the land utilization for the year 1999-2000. According to the table 1/4th of the district Geographycal area is under forest. About 47% of the area is under cultivation.

Table(d)
Land Use Pattern

Sl.No.	Land use Pattern	Area (in Hectares)	%over Geographical Area
1	Forest	442,500	25.1
2	Barren and uncultivable land	152,683	8.7
3	Land put to Non Agriculture use	146,830	8.3
4	Cultivable Waste	115,820	6.6
5	Permanent Postures and other grazing land	67,540	3.8
6	Miscellaneous tree crops and groves including Aqua culture not included in net area sown	10,147	0.6
7	Current follows	159,415	9.0
8	Other follow land	136,657	7.8
9	Net area sown	531,008	30.1
	Total Geographical area	1,762,600	100.0

Cropping pattern:

There are two cropping seasons in the district viz., Kharif and Rabi. The Kharif starts from June to November and Rabi from December to May. The preparation of the soils for the Kharif season takes place in the month of June and for Rabi during January. Paddy is the main crop followed by Bajra, Maize etc. The food crops cover more than 60% of the cropped area. Among the millets, Bajra is an important crop in the district. Sugarcane is cultivated on a small scale in the areas where the Nagarjunasagar Project water is available. Prakasam district is one of the leading cotton producing centres in the State with a large area under this crop. Among the cash crops tobacco and cashew are most important crops. The following table gives area covered under principal crops, out -turn and their yields for the year 1999-2000.

Table(e)
Principal Crops and out-turn yield for the year , 1999-2000

Sl.No.	Name of the Crop	Area(in Hectares)	Out-turn(in Tonnes)	Yield per Hectare(in kgs.)
1	Paddy	125,074	320,124	2,632
2	Jowar	8,491	2,940	346
3	Bajra	16,119	21,632	1,342

Irrigation:

The chief sources of irrigation in the district are canals, tanks and wells including tube wells.  The main irrigation sources in the district are 1) The Kommamur canal, 2) The Nagarjunasagar Project Right Canal, 3) The Tippayapalem Project, 4) The Mopadu Project, 5) The Rallapadu Project, 6) The Paleru - Bitragunta Scheme, 7) The Panduvagandi Reservoir 8)The Upputeru Anicut.

The following table shows that canal irrigation is predominant, followed by tube wells and filter points. The net area irrigated by above said sources recorded as 1,84,162 hectares. Of which, 6,778 hectares was irrigated more than once.

Table(f)
Area irrigated by source

Sl.No.	Irrigated by Source	Area (in Hectares)
1	Canals	73,516
2	Tank	15,040
3	Tube Wells & Filter Points	39,954
4	Other Wells	29,172
5	Other Source	26,480
6	Net area irrigated	184,162
7	Gross area irrigated	190,940
8	Area irrigated more than once	6,778

Different crops during the year 1999-2000 shows that paddy was raised in 1,22,688 hectares followed by Bajra in 5,795 hectares. The following table gives the details of crops irrigated during 1999-2000.

Table(g)
Area of Different Crops Irrigated during the year 1999 - 2000

Sl.No.	Name of the Crops	Area(in Hectares)
1	Paddy	122,688
2	Jowar	535
3	Bajra	5,795
4	Maize	20

Jasmine and Rose are grown on commercial scale under the wells in the coastal villages and in urban areas a small extent in the backyards of the houses.

The agriculture machinery/ implements that are used in the year 1993 is shown in the following table.

Table(i)
Agricultural machinery implements

Sl.No.	Name of the machinery/ implement	No. of Machines
1	Ploughs	75762
2	Diesel Engines	7962
3	Electric Pumps	20339
4	Tractors	3403
5	Sugarcane Crushers	53

Animal husbandry:

Prakasam is one of the districts having a large livestock population. According to the following table, which provides live stock and poultry population as of 1999 (Provisional) there are 1,58,502 cattle, 847,623 Buffaloes, 564817 Sheep, 234,017 Goats etc.

Table(j)
Livestock are registered for the year 1999-2000

Sl.No.	Name of the Livestock	Population
1	Cattle	158,502
2	Buffaloes	847,623
3	Goats	234,017
4	Sheeps	564,817

Source: Write up report from District Collector, Prakasam

Table(j) (Concld..)
Livestock are registered for the year 1999-2000

Sl.No.	Name of the Livestock	Population
5	Pigs	37,260
6	Horse & Ponies	90
7	Other Livestock	1,064
8	Total Livestock	1,843,427
9	Dogs	62,481
10	Poultry	1,397,374

It is worth mention to say about Ongole bulls which have unique and composite characters found rarely by in other bulls. These bulls are famous in and out side the country. They are large and massive in size with fleshy dewlap hanging in folds. They have wide and deep heavy muscled chest. A pair of Ongole bulls proved that they could pull 25,000 Kgs. weight for 733 metres in 30 minutes. These bulls have attracted the foreigners and therefore they have great demand in many countries.

For catering veterinary aid, the following institutions are functioning in the district (1999-2000).

Table(k)
Veterinary Institutions, 1999-2000

Sl.No.	Name of the Institution	No. of Institutions
1	Veterinary Poly Clinic	1
2	Veterinary Hospital	9
3	Rural Livestock Units	100

The veterinary care activities in the district were taken up by the above said institutions.

No. of Technical Persons that are involved to undertake Livestock development services are shown below.

Table(l)
No. of Technical persons

Sl.No.	Particulars	Number
1	Joint Director (A.H.)	1
2	Deputy Director (A.H.)	1
3	Assistant Directors (A.H.)	17
4	Veterinary Assistant Surgeons	96
5	Junior Veterinary Officers	27

Several schemes were introduced in the district to develop and protect the live stock and poultry. Under these schemes, small farmers and weaker section people were covered to enable them to increase milk production, poultry meat, eggs etc.

Fisheries:

Prakasam district has a long coast line of about 102 km. in the east and has smaller rivers covering a length of 548 kms. of running water. There are about 809 big and small tanks in the district. These water sources have abundant deposits of marine and fresh water fishes. Up to 1998-99, 231,653 hectares of agriculture land has been converted into fish ponds.

Prakasam district with its long coast line and the Buckingham Canal connected rivers has abundant potential for brackish water fish-farming. About 5,105 hectares with water spread area about 4,084 hectares has been brought under development of shrimp culture benefiting 1,707 farmers. The Government constituted a Brakish Water Fish Farmers Development Agency for Prakasam district to develop brakish water area and to adopt improved culture practices and make the feed and seed available to progressive farmers. During 1998-99 brakish water shrimp production was 4,047 M. tonnes. The marine and inland fishing was produced about 10,408 tonnes and 1,513 tonnes respectively during the year 1998-99. There are two major corp fish seed rearing farms, one at Darsi and the another at Karamchedu.

The fishermen of this district possess 3,850 Dragnets, 2,297 Gillnets, 727 Trawlnets and 3,289 Castnets to undertake the fishing. There are 84 Fishermen Co-operative Societies in the district. The Government has taken up various welfare schemes for fishermen communities. For this community 1000 houses were constructed during the year 1998-99 and they were supplied with mechanised boats on hire purchase basis.

Industries:

Prakasam is one of the industrially backward districts. The major industries, quite a few number are mostly agro-based such as tobacco, vegetable oil and textiles etc. The following table provides the names of the large and medium scale industries.

Table(m)

Sl.No.	Name of the Industry	Capital investment Rs.
1	The Parchur Cotton Growers Spinning Mills	12.51 crores
2	The Amaravathi Textiles Private Ltd.,	1.8 crores

Table(m) (Concld..)

Sl.No.	Name of the Industry	Capital investment Rs.
3	Priyadarshini Spinning Mills	8.68 crores
4	The Indian Leaf Tobacco Development Divsion	1.07 crores
5	Premier Tobacco Packers Pvt. Ltd.	4.48 crores
6	M.L. Agro Products Pvt. Ltd.	3.0 crores
7.	Coromandal Agro products & Oils Ltd.	3.73 crores
8.	Raghunath Cotton & Oil Products Ltd.	5.74 crores
9.	The Kakatiya Agro Products & Oil Pvt. Ltd.	1.05 crores

Besides above, there are several small scale industries and cottage industries. According to the information available on factories register, this district has 580 factories with 7,342 lakhs fixed capital, 13,466 lakhs working capital and 20,808 lakhs productive capital. The working force of these was 16,510 workers and 19,657 employees.

Electricity:

All the villages of the district have been electrified as per the letter No. C.E/Plg. / E.M.E(i) /ABE(i) D.No. 188/99, dated 06.11.1999 of A.P.Transco.

The length of different transmission lines are as follows:

220 KV	-	591.12 Kms.
132 KV	-	309.05 Kms.
33 KV	-	1212.10 Kms.
11 KV	-	9695.41 Kms.
L.T. Lines	-	14746.83 Kms.

Table(n)

number of services available and the power sold

Category	No. of Services	Power Sold in Rs.
1. Domestic	462,374	196,893,170
2 Non-Domestic	29,385	30,327,430
3. Industries	3,889	50,582,093
4. Cottage Industries	315	395,819

6. Street lights	3,376	16,750,860
7. Others	2,390	2,533,184
8. High Tension	72	86,078,815
T otal	**545,158**	**648,044,233**

Trade:

In Prakasam district, agriculture products constitutes the bulk of trade within the district and inter district trade. Handloom fabrics constitute one of the principal items of domestic as well as foreign trade. The 'Bleeding Madras' variety of cloth is popular. Chirala town has been recognized as 'Chinna Bombay' on account of the heavy trading in cloth. Cashew nut is another industry in the district which earns foreign exchange. The important items of the trade are listed below:

1. Black & Colour Granite
2. Tobacco
3. Salt
4. Ongole bull
5. Cloth
6. Groundnut
7. Cashewnut
8. Slate

Transport:

Prakasam district is served by National Highways, Panchayat Raj Roads, forest Roads, Railways and Inland water ways. The road length in the district is about 9,379 kms. The National Highway No.5, connecting Chennai in the south and Kolkata in the north and many important towns on its way, traverses in the district from a distance of about 117 km. There are about 14 State High ways connecting Guntur, Chirala, Vadarevu, Narasaraopet, Piduguralla, Nandyal, Kurnool, Macherla, Srisailam etc. Besides this, this district has a long coast line of about 100 km connecting several fishermen's villages to enable them to transport fish and salt. Since this road provides facilities of exporting fish and salt from their productive units, this road and internal linking roads came to known as fisheries roads and salt roads.

The following table gives the number of different motor vehicles that are plying in the district during the year 1999 - 2000.The number of different Motor Vehicles that are plying in the district are shown hereunder as on 1999-2000.

Source: Write up report from District Collector, Prakasam

Table(o)
Type of Vehicles plying on roads

Sl.No.	Name of the Vehicle	On Roll	On Road
1	Stage Carriages		
	a)APSRTC	731	725
	b)Private	168	152
2	Goods Vehicles		
	a)Goods Carriage (other than TTS)	2447	2229

4	All India Tourist	17	16
5	Taxi cabs and Autos	2356	1881
6	Light Motor Vehicles	1405	1405
7	Motor Cycles	39730	39370
8	Jeeps	481	481
9	Others	3	3

This district has yet another category known as forest roads in Giddalur Forest Division and Markapur Forest Division. The roads in these two divisions comprising considerable portions of the forest and hill areas. These roads are important from the point of law and order and to transport the forest products.

Once upon the Buckingham canal is of great importance to Prakasam district to navigational needs. At present this canal has been curtailed due to silting and damages caused. Efforts are, however afoot to restore transport in the Buckingham canal to its original level in the wake of developing Kakinada port.

The Railways in the district has a total route of about 242 kms. with 33 railway stations. Of this about 112 kms., with 18 Railway Stations in Vijayawada - Gudur Section on the Chennai - Howrah lane are located. About 130 kms. with 15 Railway Stations are in Guntakal - Guntur section. Of this the Chennai - Vijayawada line was put on electric traction. Several important express trains passes through this district.

The following table gives the information on different type roads in the district.

Table(p)

Sl.No.	Type of Road	Length (in Kms.)
1	National High Way	117
2	Public Works Department	3296
3	Panchayat Raj	5996

(iv) Major Social and Cultural events, natural and administrative developments and significant activities during the decade.

During the decade 1991-2001 no significant social and cultural events have occurred in the district. In respect of administrative developments two new towns viz., Bestawaripeta and Pamur have been placed in the towns list and 5 towns viz., Addanki, Cumbum, Giddalur, Kanigiri and Ongole (NMA) are declassified. The town Vetapalem which was Municipality in 1991 Census was degraded as Census town.

As regards significant activities, the prevention of Child Labour, Social Security Schemes, Janmabhoomi, Cheyutha and Spandana programmes are worth mentionable in the district during the decade.

In the year 1996 under the Chairmanship of the District Collector the 'Bala Karmika Vikasa Samithi' has constituted. The main aims and objectives of the samithi are conducting surveys on vulnerable child labourers in hazardous occupations, creating awareness among the public about the steps taken by the government to eliminate child labour, implementing programmes like creating public awareness, running special schools, imparting non-formal education and generating income and employment opportunities, etc.

The social security schemes such as payment of pensions to the aged, widows, landless agricultural workers and physically handicapped persons are implemented in the district.

During the decade, as in the other districts, a novel scheme called "Janmabhoomi" has been launched on the new years day 1997 by the Government of Andhra Pradesh. This adds new dimension particularly in rural development in the sense that people are involved in decision making and development process. The main activities taken up under this programme are aimed at achieving the basic needs of the people belonging to both rural and urban through "Sramadhanam" with the people's partcipation.

As in the other districts, in this district also, with the inspiration of Janmabhoomi programme, 'Spandana' another novel scheme totally envisaged by the district administration for the overall development of villages has been taken up with the aims of

1.Education for all

2.Family planning programmes

3.Usage of Bio-gas plants / Smokeless chullas to prevent air pollution

4.Clean village concept

Yet another novel programme envisaged by the district administration for benefitting the physically handicapped in the district is called 'Cheyutha'. All the Government officials connected with the physically handicapped will sit under one roof and do the needful then and there. The benefits such as issue of physically handicapped certificate by the medical board, RTC passes, Railway passes, Registration in Employment Exchanges, etc., were extended besides giving aids and appliances to the identified handicapped persons.

(v) Brief description of Places of religious, historical or archaeological importance in villages and places of tourist interest in the towns of the district

1. Addanki :

Addanki lies 38 Kms., to the North West of Ongole - Narasaraopet road. The etymological explanation offered in respect of this village is that it was named after Addadu and Anki, the two Voddes (stone cutters). The history of the place can be traced to the period of the Eastern Chalukya ruler Vijayaditya III, whose undated inscription registering that the King appointed Panduranga as his General has come to light at the place. The manual refers to the old fort here (now in ruins) which is said to have been built about 300 years ago by Haripalakudu, son of the renowned Pratapa Rudrudu (Pratapa Rudra). Eight inscriptions on the pillars of the Nagareswaraswamy temple are noticed. Yerrapragada, one of the Kavitrayam, lived in this village when Prolaya Vema Reddy ruled from Addanki. Addanki Nancharamma is the most famous diety known throughout Andhra which is one of the forms of Goddess Durga or Parvathi consort of Lord Siva. She is reffered to along with Kanaka Durga of Vijayawada, Nookalamma of Anakapalle etc., and temples to this diety viz., Addanki Nancharamma, are found in several other districts also. Remnants of an old fort belonging to the Yadava Kings of Chakranarayana dynasty and of Reddy Kingdom could be traced here.

2. Ambavaram (Bhairava-konda) (Chandra sekhara Puram Mandal) :

This place is situated at a distance of 64 Kms. from Kanigiri, 114 Kms. from Singaraya Konda Railway Station and 42 Kms. from Pamur. The Bhairavudikona at this place contains an ancient temple, the presiding deity of which is the eight faced Durga Bhairava Swamy other wise called as Bhaira-weswara, the Lord Siva. The festival of Maha Sivarathri is celebrated with Religious favour and it draws maximum devotees from the neighbouring Mandals of Prakasam, Nellore and Kurnool districts. The temple is located in the thick forest amidst picturesque scenery. There is a waterfall by the side of the temple falling from a height of about 60 metres. The sculpture of the temple which is out of a single rock is of a very high order. The place is worth visiting especially during the summer as it is a good scenic spot apart from its religious importance.

3. Chandalur (Darsi Mandal) :

Situated 30 kms. towards the north of Ongole, is one of the ancient and most famous villages. The two copper plate inscriptions of the village known as Chandalur Sasanamulu found reference to it in the history of Andhra. These inscriptions date back to about 644 A.D. and 673 A.D., the former issued by the Chalukya King Kumara Vishnu II from Kanchipuram while the later was issued by King Vijayasidhi alias Sarvalokasraya Maharaj alias Mangiyuvaraju, son of Maharaja Kumara Vishnu II. Prominent references to Kamma rashtra find place in these two inscriptions.

The Siva temple in the centre of the village tank and the Vinayaka temple are very ancient temples said to have been in existence even prior to the advent of Christian era (B.C), while the Chennakesava temple is said to have been constructed by the Rajas of Vijayanagara empire.

Chandalur Mahalakshmi Ammavaru is the most famous deity and there are two Mandirs (Peetahs) in this village and another in Panguluru, a neighbouring village. A fair held in the name of the deity once in 2 to 4 years attracts large numbers. Navaratrulu (nine days festival) is celebrated for Dassera festival. This deity attracts devotees from the neighbouring districts and even from Chennai city. Temple of Sri

Rama constructed around 1947 is also there. This village was the central place of activity during the freedom struggle. The village Library Movement took shape through the establishment of a Library in the 1940s and it is now enlivened through the construction of a permanent building. There is a flagstaff of Sri Veera Brahmendraswamy and 'Aradhanas' are celebrated.

4. Chirala Town (Chirala Mandal) :

This town is a rail-head on the Madras - Vijayawada line, situated 16 kilometres to the South - West of Bapatla and is situated on the Chirala Vetapalem road adjacent to Jandrapeta. Till A.D. 1846 it formed part of Nellore district and later on was added to Guntur District. It is a centre of weavers and its handloom products constitute a major item of export. It is also the seat of I.L.T.D. company limited. The Chirala Co-operative Spinning Mills limited, oil extraction and manufacture of coments leather goods, paper and cane furniture are the other important industries.

5. Cumbum (Cumbum Mandal) :

Cumbum lies 34 Kms. north of Giddalur on the Giddalur - Markapur road. It is a railway station on the Hubli-Machilipatnam line. A large tank was constructed in the village during the reign of Vijayanagar Kings. The tank water spread over 23 Sq. Kms., and it has registered an ayacut of 2,835 hectares. It irrigates about 4,860 hectares in about 16 villges in Cumbum Mandal. Nineteen inscriptions have been noted on the tankbund near the choultry in the Jami masjid the Gachirala mosque and the Sailab-ka- Katta.

6. Dharmavaram (Addanki Mandal) :

Situated 48 Kms. North of Ongole and 5 Kms. East of the Addanki - Narasaraopet road. Dharmavaram derived its name from the Siva Linga established by Dharmaraja, the eldest brother of the Pandavas. Of the temples of Dharmeswaraswamy, Bhimeswaraswamy, Mallikarjunaswamy, Chennakesavaswamy and Sitaramaswamy in the village, the first four are ancient ones. An inscription of 1522 (A.D. 1600) noted at the first threshold of Sitaramaswamy temple mentions the terms of revenue of settlement of Eklaskhanpuram a village near Dharmavaram in Addanki seema was founded by Eklas Khan, the trusted General of Muhammad - Quli, son of Ibrahim Qutub Shah of Golkonda. Another undated inscription found in the southern compound wall of the same temple records the charitable endowments made for the religious merit of one khan Azyani Khan Abdul Saheb by the residents of the suburbs of Eklaskhanpuram and Balupuram.

7. Kandukur Town (Kandukur Mandal) :

Kandukur, the Headquarters of the Mandal and the Revenue Division of the same name, is situated at a distance of 15 Kms. towards the west of Singarayakonda railway station on the Gudur - Waltair section of the South Central Railway. There are ruins of two forts, of which one is said to have been built during the reign of Krishnadevaraya and the other by Malik Aslam Khan, a Fauzdar. There is a seven - headed tomb on a small hillock. The most important places of worship in this town are the old temples of Someswara and Janardhana for the Hindus and the Darga of the saint Shahjehangir for the Muslims.

8. Markapur Town (Markapur Mandal) :

Markapur town is situated on the bank of the Gundlakamma about 161 Kms. from Kurnool. It has a railway station named Markapur Road Railway Station on the Vijayawada - Guntakal section of the South Central Railway. The most important place of interest in the town is the shrine of Chennakesavaswamy. The Madhyaranga in the temple is a beautiful "Mantapam" standing on forty pillars between the "Mukha Mantapam" and "Dhwajastambham". It depicts beautiful carving of the figures of Krishna, Anjaneya, Garuda, Lakshmi and Vighneswara with their respective "Vahanams". It is said to be one of the seven local curiosities of Markapur Mandal. Few temples in this area have such a magnificent and marvellously sculptured Gopurams over this shrine. On the south-western corner of the Kalyana Mantapam, there are six pillars which on striking produce the seven musical notes. The most striking aspect about this temple is that the rays of the rising sun would fall on the feet of Chennakesavaswamy during Uttarayanam and on the feet of Sri Mahalakshmi during Dakshinayanam. There are twelve inscriptions ranging from S.1455 (A.D. 1533) to S.1491 (A.D. 1569) pertaining to the Vijayanagar rulers. Markapur is famous in the district for the celebration of Moharrum on a grand scale.

Commercially, it is a very important place for the slate industry and eighty percent of the slates and slate pencils manufactured in the country are from this place.

9. Motupalle: (Chinaganjam Mandal) :

This village is situated 27 Kms. to the south-west of Bapatla town. Motupalle is well known as an ancient port which flourished almost from the first century A.D. It was also referred to as "Mohanapuri". It was in a very prosperous condition during the reign of the Satavahanas, Pallavas, Chalukyas and Cholas. Very near this port, a township known as Velapuri or Dvelapuri is referred to as having been constructed by the Buddhists. Traces of Buddhist stupas and sculpture can be noticed at some places.

10. Ongole Town: (Ongole Mandal) :

Ongole is an ancient town situated on the grand trunk road at a distance of 109 Kms. from Guntur and is a Railway Station on the Chennai - Waltair broadguage line. This is the headquarters of Prakasam district and also of the Revenue Division and mandal bearing its name. The earliest reference to this place is found in the inscriptions of the Pallava rulers, Vijayaskandavarman and Simhavarman, whose period of rule was assigned to the last quarter of the third and the first quarter of the fourth centuries A.D.

Among the temples dedicated to Chennakesavaswamy, Kasivisweswaraswamy, Venugopalaswamy, Veeranjaneyaswamy, Prasannanjaneyaswamy, Anantasitaramaswamy, Rajarajeswaraswamy, Kodandaramaswamy and Kanyakaparameswari, the first two are presumed to relate to the 18th Century A.D. The main idol of Chennakesava with his consort Lakshmi is beautifully sculptured and quite inspiring. The shrine of Kasivisweswaraswamy which is situated by the side of the Chennakesavaswamy temple on the same hill is famous for its "Addaala Mandapam" constructed in 1945 by a local philanthrophist. The annual 'Kalyanotsavam' celebrated in the temples of Rajarajeswaraswamy and Sitaramaswamy during the month of Jyeshta (May-June) attracts a sizeable congregation.

11. Tripuranthakam: (Tripuranthakam Mandal):

This place is located at a distance of 16 Kms. from Vinukonda Railway Station and 40 Kms. north-east of Markapur on the Kurnool-Guntur highway. Tripuranthakam owes its importance to the temple of Tripuranthakeswara which is one of the prominent Saivite shrines in the State. The temple is located on a hill called Kumaradri. Another important temple at the place is that of "Balatripurasundari situated in the midst of a tank. Several inscriptions ranging from S.1761 (A.D. 1839) are noted at Tripuranthakam and they relate to the rule of the Chalukyas, Telugu Cholas, Kakatiyas, Reddis and Rayas of Vijayanagar.

12. Chundi (Voletivaripalem Mandal) :

Chundi is situated at a distance of 24 Kms. from Kandukur and 40 Kms. from Singarayakonda railway station. An ancient Vaishnavi temple dedicated to Janardhanaswamy at the place is said to have been built during the rule of the Reddi chiefs. There is a Mantapam supported on four carved stone pillars and granite of flagstaff sixty feet high and one foot square, covered with carbon. Six and a half kilometres away from Chundi, there is a place known as "Malakonda" where there is a temple of Malayadri Lakshmi-Narasimhaswamy. The temple is situated on a hillock amidst thick forest and the scenery around is delightful.

13. Katragunta : (Konakanamitla Mandal) :

Katragunta is situated at a distance of 22 Kms. from Markapur road Railway Station and 24 Kms. from Podili. The village assumed religious importance on account of the temple of Sri Velugondarayaswamy. The Vijayanagara Monarch, Krishnadevaraya, constructed the compound wall, Mantapams and Dhvajastambham of this temple and the Rajah of Venkatagiri endowed it with 285 hectares of land. Sri Velugondarayaswamy Brahmotsavam celebrated for 14 days during February - March is a very widely known ancient festival.

14. Pavuluru (Inkollu Mandal) :

This village lies 21 Kms. to the west of Chirala town and 6 Kms. from Inkollu, is connected by bus. There are four temples dedicated to Agastheswaraswamy, Chennakesavaswamy, Sitaramaswamy and Anjaneyaswamy. The icon of Agastheswaraswamy resembles a huge white marble pillar and attracts many visitors as a place of interest. The Anjaneyaswamy temple is visited by people of far away places and offerings are made in fulfillment of vowes.

(vi) Major characteristics of the district, contribution of the district in the form of any historical figures associated with the district.

Prakasam district was named after the patriot and the heroic among the freedom fighters 'Andhra Kesari (Lion of Andhra) Late Sri Tanguturi Prakasam Panthulu'. Sri Tanguturi Prakasam Panthulu was the first Chief Minister of Andhra and also for Andhra Pradesh State.

This district is a part of the Southern Coast of Andhra lying approximately between 15^0 13'and 16^0 0' Northern Latitudes and 79^o 0' and 80^0 0' Eastern Longitudes. This district endowed much by natural scenery with hill ranges if Nallamalas and the Veligondas. These hills separate this district from Kurnool and Cuddapah districts. Gundlakamma, Musi, Maneru and Paleru are the important rivers that watered in the district.

Forests occupy about 25% of the total geographical area in the district. The forest containing casuarina and cashew plantations.

Regarding the minerals, Iron Ore, Clays, Silican, Sand Kyanite, Slate etc., minerals are available. The slates are famous in the entire state for making "writing Slates" to school going children.

Telugu is local language, Hindi is also spoken. Hindus occupies first place with 91%; secondly by Muslims with 6.6% and Christians in third place with 2%.

(vii) Census Concepts

Population census is a great national task, which we are called upon to undertake for every ten years. In India, the 1872 marked as the beginning of modern census taking, when it was conducted at different points of time in different parts of the country. From 1881 onwards a complete and synchronous census was held. The present Census is a land mark administrative event, as this has generated a historic bench mark data to shed light on the state of nation's society and other demographic, economic and socio-cultural data which simultaneously makes transition from one century and millennium to the next. The 2001 Census was the 14th decennial Census of India and the 6th after independence.

The Census of India was conducted in two phases namely, I) House-listing Operations II) Population Enumeration. The first phase was conducted during April-June,2000 in different States/Union territories depending upon their local conditions. In Andhra Pradesh it was conducted from 11th May to 5th June 2000. The house-listing operations provide a base for the population enumeration, besides providing comprehensive database for assessing condition of human settlements, the housing deficit and future housing requirement for formulation of housing policies. This also provides a massive data on amenities available to the households which was much needed by various departments of the Central and State Governments and other Non-Governmental agencies, for planning and development in different sectors of the economy. Hence house-listing operation is a pre-requisite for population enumeration.

Unlike 1991 census, there are significant changes in house-listing schedule for 2001 census. The questions on condition of the census house, number of married couples living in the household and having independent room for sleeping, bathroom and kitchen within the house and using the means of entertainment and communication facility of radio, transistor, television, telephone and possessing of means of transport like bicycle, scooter/motor cycle, car/jeep/ van and availing of banking services by the household are added to the present house-list schedule.

The main population enumeration was conducted from 9th February to 28th February, 2001, followed by revisional round from 1st March, 2001 to 5th March, 2001, to update the data with reference to 00.00 hours of 1st March, 2001. The houseless population was enumerated at midnight of 28th February 2001.

The household schedule and individual slip of 1991 census were replaced by household schedule of A3 size containing three parts to collect the information from each household at 2001 Census. In the present Census, the house-hold schedule is designed in such a way to suit the requirement of capturing the data through scanners. At the 2001 Census, for the first time Image-based data capturing technology through scanners and computer network has been introduced with a view to provide error free data by avoiding keying in of data.

The house-hold schedule broadly covered the individual particulars under four major headings 1) General and Socio cultural characteristics (Q(1 to 15), 2) Characteristics of workers and non-workers 3) Migration characteristics (Q.21 to 22)and 4) Fertility particulars (Q.23). Part-I deals with location code particulars, Part-II relates to Individual particulars with 23 questions, consisting of 1 to 39 columns, Part-III covers on cultivation/plantation particulars like land possessed, type of tenancy enjoyed by the household/ household member. Some additional questions 1) on disability, 2) Particulars relating to travel to the place of work a) distance from residence to place of work, b) mode of travel to the place of work, 3) household engaged in cultivation/plantations are added in the present household schedule.

Marital status, mother tongue, religion and literacy status (for 7 and above) migration, fertility particulars

and the identification of SC/ST are repeated but the age at marriage is also ascertained for males at 2001 Census. For the people, who are attending educational institutions, a separate code has been provided to record the Vocational institute, other institute and literacy centre in addition to school/ college.

Criteria for enumeration of persons in a particular household

a) All those who normally reside and are present in that household during the entire period of enumeration from 9th February to 28th February, 2001, b) also those who are known to be normally residing and had actually stayed during a part of the enumeration period (Feb.9th to 28th Feb.2001) in the household but are not present at the time of enumerator's visit, c) also those who were known to be normally residing and are not present at the time of enumerators visit but are expected to return before 28th Feburary,2001 and d) Visitors who are present in the household censused and are away from the place of their usual residence during the entire enumeration period. For the purpose of enumeration, such visitor will be treated as normal resident of the household in which they are actually found during the enumeration period provided that they have not been enumerated elsewhere. One of the essential features of population enumeration in the second phase is each person enumerated and her/his individual particulars are collected at a well defined point of time.

Location Code Number

The procedure of assigning location code number in a zigzag manner starting from North-west corner and ending at South-east corner, is adopted for 2001 Census. The Andhra Pradesh state was assigned Location Code No.28 as against 02 in 1991 census. In a similar fashion, the location code numbers of the districts in Andhra Pradesh state have been changed and revised location code numbers were allotted in order of geographical contiguity, beginning from North-West point of the state and ending at the South East point. Thus the Adilabad district has been assigned Location Code No. as 01 and Chittoor district Location Code No. 23 at 2001 Census. Accordingly, the location code numbers of mandals in each district have been changed for 2001 census.

An important change at 2001 census is allotment of permanent location code numbers to all the villages in the state. Since the whole data ie., Village and Town Directory information is also being computerized, the allotment of permanent location code numbers would facilitate the data users for easy access and retrieval the data of a particular village at micro level by the click of a mouse. The Permanent Location Code Number (P.L.C. No.) is an eight digit number starting with 00000100 in a zig-zag fashion from North-West corner in the first Mandal of Adilabad district and run continuously for all the districts while ending South-East corner to the extent possible at last village in the last Mandal of Chittoor district. Since this State has 28,123 villages at 2001 census, last village of last mandal in Chittoor district will have PLC No.02812300. A significant provision has been made to allot PLC Nos. to newly created villages if any in future. The last two digits of PLC No's are kept as '00' only to provide for additional villages. For example a new village has been created after PLC.No.001231400 it will be assigned PLC No. as 001231401. Further, it is indicated that there is a provision for a minimum of 99 villages adjoining to a particular village allotting Permanent Location Code.

For urban areas also location code structure has been changed in a minimum way. Earlier, for towns in a district location code numbers were given roman letters in alphabetical order. This time, while assigning roman numbers instead of going to alphabetic order, location code numbers were given from North-West part of the district ending at South-East of the district to the extent possible.

Therefore, the PLC numbers of the villages and location codes of urban areas have under gone change in Census of India, 2001 as compared to 1991. In case an urban area is spread over in two districts, the location code of urban areas in both the districts will be the same irrespective of zigzag manner.

Building

A 'Building' is generally a single structure on the ground. Sometimes it is made up of more than component unit which are used or likely to be used as dwellings(residences)or

establishments such as shops, business houses, offices, factories, workshops, worksheds, Schools, places of entertainment, places of worship, godowns, stores etc. It is also possible that building which have component units may be used for a combination of purposes such as shop-cum-residence,workshop-cum-residence,office-cum-residence,etc.. Usually a structure will have four walls and a roof. But in some areas the very nature of construction of houses is such that there may not be any wall. Such is the case of conical structures where entrance is also provided but they may not have any walls. Therefore, such of the conical structures are also treated as separate buildings.

Permanent houses

Houses, the walls and roof of which are made of permanent materials. The material of walls can be any one from the following, namely, galvanized iron sheets or other metal sheets, asbestos sheets, burnt bricks, stones or concrete. Roof may be made of from any one of the following materials, namely, tiles, slate, galvanized iron sheets, metal sheets, asbestos sheets, bricks, stones or concrete.

Semi-permanent houses

Houses in which either the wall or the roof is made of permanent material and the other is made of temporary material.

Temporary houses

Houses in which both walls and roof are made of materials, which have to be replaced frequently. Walls may be made from any one of the following temporary materials, namely, grass, thatch, bamboo, plastic, polythene, mud, unburnt bricks or wood. Roof may be made from any one of the following temporary materials, namely, grass, thatch, bamboo, wood, mud, plastic or polythene.

Dwelling Room

A room is treated as a dwelling room if it has walls with a doorway and a roof and should be wide and long enough for a person to sleep in, i.e. it should have a length of not less than 2 meters and a breadth of at least 1.5 meters and a height of 2 meters. A dwelling room would include living room, bedroom, dining room, drawing room, study room, servant's room and other habitable rooms. Kitchen, bathroom, latrine, store room, passageway and verandah which are not normally usable for living are not considered as dwelling rooms. A room, used for multipurpose such as sleeping, sitting, dining, storing, cooking, etc., is regarded as a dwelling room. In a situation where a census houses is used as a shop or office., etc., and the household also stays in it then the room is not considered as a dwelling room. But if a garage or servant quarter is used by a servant and if she/ he also lives in it as a separate household then this has been considered as a dwelling room available to the servant's household. Tent or conical shaped hut if used for living by any household is also considered as dwelling room. A dwelling room, which is shared by more than one household, has not been counted for any of them. If two households have a dwelling room each but in addition also share a common dwelling room, then the common room has not been counted for either of the households.

Census house

A `census house' is a building or part of a building used or recognised as a separate unit because of having a separate main entrance from the road or common courtyard or staircase, etc. It may be occupied or vacant. It may be used for residential or non- residential purpose or both. In certain peculiar situations, the manner in which buildings and census houses were identified for numbering in the field by the enumerators is described hereunder: Sometimes a series of different buildings are found along a street which are joined with one another by common walls on either side looking like a continuous structure. These different units are practically independent of one another and are likely to have been built at different times and owned by different persons. In such cases, though the whole structure with all the adjoining units apparently appears to be one building, each portion was treated as a separate building and its constituent units as separate census houses. On the other hand, one may come across cases, particularly in large cities of multi-storeyed ownership flats. In these cases while the structure looks like one building, different persons own the flats. In case of such multi-storeyed structures, having a number of flats owned by different persons, the entire structure was treated as one building and each flat

as a separate census house. If within a large enclosed area, there are separate buildings owned by different persons then each such building is treated as a separate building. There can be a situation where within an enclosed compound there are separate buildings owned by an undertaking or company or even government that are actually in occupation of different persons. For example, Indian Oil Corporation colony where the buildings are owned by the Corporation but these are in occupation of their employees. Each such building was treated as a separate building. But if in any one of these buildings there were flats in occupation of different households, each such flat was reckoned as a separate census house. Sometimes if becomes difficult to apply the definition of census house strictly in certain cases. For example, in an urban area, if a flat has five rooms, each room having direct entrance from the common staircase or courtyard. By definition, this has to be treated as five census houses. If all these five rooms are occupied by a single household it was not realistic to treat them as five census houses. In such a case,`singleness' of use of these rooms along with the main house should be considered and the entire flat was treated as one census house. On the other hand, if two independent households occupy these five rooms, the first household living in 3 rooms and the second household occupying 2 rooms, then considering the use, the first three rooms together were treated as one census house and the remaining rooms as another census house. But if each room was occupied by an independent household, then each such room was treated as a separate census house. In case of hostels, hotels, etc., even if the door of each room in which an inmate lives opens to a common verandah, staircase, courtyard or a common room, as it happens almost invariably, the entire hostel/ Hotel building was treated as one census house. but if such hostels/ hotels have out- houses or other structures used for different purposes or the same purpose, then each such structure attached to the main hostel / hotel was treated as a separate census house. In some parts of the country, in rural areas, the pattern of habitation is such that a group of huts, located in a compound, whether enclosed or unenclosed, is occupied by one household. While the main residence may be located in one hut, other huts may be used for sleeping, as a kitchen, bath room, baithak, etc. Though each of the huts was a separates structure, they form a single housing unit and therefore, have to be treated collectively as one building and one census house. If some of the huts are used by one household and the others by a second household as residence, then the two groups of huts were treated as separate census houses. However, if there were also other huts in the compound used for other purposes and not as part of the household's residence such as, cattle shed, workshed, etc., these were treated as separate census houses. On the other hand, in urban areas, where more than one structure within an enclosed or open compound (premises) belonging to the same person, e.g., the main house, the servant's quarter, the garage, etc., only one building number was given for this group and each of the constituent a separate census house number. Only cases where a structure with roof and pillars has come up was treated as a building.

Village

The basic unit for rural areas is the revenue village which has definite surveyed boundaries. The revenue village may comprise of one or more hamlets but the entire village is treated as one unit for presentation of data. In un-surveyed areas, like villages within forest areas, each habitation area with locally recognized boundaries is treated as one village.

Rural - Urban area

The data in tables on Houses, Household Amenities and Assets are presented separately for rural and urban areas. The unit of classification in this regard is `town' for urban areas and `village' for rural areas. In the Census of India 2001, the definition of urban area adopted is as follows:

(a) All places with a municipality, corporation, cantonment board or notified town area committee, etc.

(b) A place satisfying the following three criteria simultaneously:

i) A minimum population of 5,000; ii) At least 75 per cent of the male working population engaged in non agricultural pursuits ; and iii) A density of population of at least 400 per sq. km. (1,000 per square mile). For identification of places which would qualify to be classified as 'urban' all villages, which,

as per the 1991 Census had a population of 4,000 and above, a population density of 400 persons per sq. km. and having at least 75 per cent of male working population engaged in non-agricultural activity were considered. To work out the proportion of male working population referred to above against b) (ii), the data relating to main workers were taken into account. Apart from these, the outgrowths(OGs) of cities and towns have also been treated as urban under 'Urban Agglomerations'. Examples of out-growths are railway colonies, university campuses, port areas, military camps, etc., that may have come up near a statutory town or city but within the revenue limits of a village or villages contiguous to the town or city. Each such individual area by itself may not satisfy the demographic criteria laid down at (b) above to qualify it to be treated as an independent urban unit but may deserve to be clubbed with the towns as a continuous urban spread. Thus, the town level data, wherever presented, also includes the data for outgrowths of such towns.

City

Towns with population of 1,00,000 and above are called cities.

Urban Agglomeration

An Urban Agglomeration is a continuous urban spread constituting a town and its adjoining urban outgrowths (OGs) or two or more physically contiguous towns together and any adjoining urban outgrowths of such towns. In some cases railway colonies, university campuses, port areas, etc., may come up near a city or statutory town outside its statutory limits but within the revenue limits of a village or villages contiguous to the town or city. Each such individual area by itself may not satisfy the minimum population limit to qualify it to be treated as an independent urban unit but may deserve to be clubbed with the town as a continuous urban spread.For the purpose of delineation of Urban Agglomerations during Census of India 2001, following criteria are taken as pre-requisites:(a) The core town or at least one of the constituent towns of an urban agglomeration should necessarily be a statutory town ; and(b) The total population of all the constituents (i.e., towns and outgrowths) of an Urban Agglomeration should not be less than 20,000 (as per the 1991 Census). With these two basic criteria having been met, the following are the possible different situations in which Urban Agglomerations would be constituted: i) a city or town with one or more contiguous outgrowths; ii) two or more adjoining towns with their outgrowths; and iii) a city and one or more adjoining towns with their outgrowths all of which form a continuous spread.

Household

A 'household' is usually a group of persons who normally live together and take their meals from a common kitchen unless the exigencies of work prevent any of them from doing so. Persons in a household may be related or unrelated or a mix of both. However, if a group of unrelated persons live in a census house but do not take their meals from the common kitchen, then they are not constituent of a common household. Each such person was to be treated as a separate household. The important link in finding out whether it was a household or not was a common kitchen. There may be one member households, two member households or multi-member households.

Institutional household

A group of unrelated persons who live in an institution and take their meals from a common kitchen is called an Institutional Household. Examples of Institutional Households are boarding houses, messes, hostels, hotels, rescue homes, jails, ashrams, orphanages, etc. To make the definition more clearly perceptible to the enumerators at the Census 2001, it was specifically mentioned that this category or households would cover only those households where a group of unrelated persons live in an institution and share a common kitchen.

Houseless household

Households who do not live in buildings or census houses but live in the open on roadside, pavements, in hume pipes, under fly-overs and staircases, or in the open in places of worship, mandaps, railway platforms, etc., are treated as Houseless Households.

Scheduled Caste and Scheduled Tribe

Article 341 of the Constitution provides that the President may, with respect to any State or Union

territory, specify the castes, races or tribes or parts of or groups within castes, races or tribes which shall for the purposes of the Constitution be deemed to be Scheduled Castes in relation to that State or Union territory. Article 342 similarly provides for specification of tribes or tribal communities or parts of or groups within tribes or tribal communities which are to be deemed for the purposes of the Constitution to be Scheduled Tribes in relation to the various States and Union territories. In pursuance of these provisions, the list of Scheduled Castes and / or Scheduled Tribes are notified for each State and Union territory and are valid only within the jurisdiction of that State or Union territory and not outside.It is important to mention here that under the Constitution (Scheduled Castes) Order, 1950, no person who professed a religion different from Hinduism was deemed to be a member of a Scheduled Caste in addition to every member of the Ramdasi, Kabirpanthi, Majhabi or Sikligar caste resident in Punjab or Patiala and East Punjab States Union were in relation to that State whether they professed the Hindu or the Sikh religion. Subsequently, in September 1956, by an amendment, the Presidential Order of 1950 and in all subsequent Presidential Orders relating to Scheduled Castes, the Hindu and the Sikh religions were placed on the same footing with regard to the specification of Scheduled Castes. Later on, as per the amendment made in the Constitution (Scheduled Castes) Order 1990, the Hindu, the Sikh and the Buddhist were placed on the same footing with regard to the recognition of the Scheduled Castes. The lists containing the names of the Scheduled Castes and the Scheduled Tribes applicable for the Census of India 2001 in the State/ Union territory are given below:

List of Scheduled castes in Andhra pradesh

1. Adi Andhra
2. Adi Dravida
3. Anamuk
4. Aray Mala
5. Arundhatiya
6. Arwamala
7. Bariki
8. Bavuri
9. Beda Jangam, Budga Jangam
10. Bindla
11. Byagara
12. Chachati
13. Chalavadi
14. Chamar, Mochi, Muchi

20. Malis(excluding Adilabad, Hyderabad,Karimnagar,Khammam, Mahbubnagar,Medak,Nalgonda, Nizamabad and Warangal districts)
21. Manna Dora
22. Mukha Dora, Nooka Dhora
23. Nayaks(in theAgency tracts)*
24. Pardhan
25. Porja, Parangiperja
26. Reddi Dhoras
27. Rona, Rena
28. Savaras, Kapu Savaras, Maliya Savaras, Khutto Savaras
29. Sugalis, Lambadis
30. Thoti(In Adilabad, Hyderabad, Karimnagar, Khammam, Mahbubnagar, Medak, Nalgonda, Nizamabad and Warangal Districts)
31. Valmiki (in the Agency tracts)*
32. Yenadis
33. Yerukulas

Language and Mother tongue

As per the census concept, each language is a group of mother tongues. The census questionnaire collects information on the mother tongue of each person and mother tongue is defined as the language spoken in childhood by the person's mother to the person. If the mother died in infancy, the language mainly spoken in the person's home in childhood will be the mother tongue. In the case of infants and deaf mutes, the language usually spoken by the mother is considered as mother tongue. It is not necessary that the language spoken as mother tongue should have a script. The mother tongues returned by the respondents in census are classified and grouped under

***** *The agency tracts is comprised of Srikakulam, Vizianagaram, Visakhapatnam, East-Godavari, West-Godavari and Khammam districts.*

appropriate languages according to their linguistic characteristics.

Literate

A person aged 7 years and above who can both read and write with understanding in any language is taken as literate. A person who can only read but cannot write is not literate. It is not necessary that to be considered as literate, a person should have received any formal education or passed any minimum educational standard. Literacy could also have been achieved through adult literacy classes or through any non-formal educational system. People who are blind and can read in Braille are treated as literates.

Literacy rate

Literacy rate of the population is defined as the percentage of literates in the age group seven years and above. For different age groups the percentage of literates in that age group gives the literacy rate.

Educational level

The highest level of education a person has completed.

Work

Work is defined as participation in any economically productive activity with or without compensation, wages or profit. Such participation may be physical and/or mental in nature. Work involves not only actual work but also includes effective supervision and direction of work. It even includes part time help or unpaid work on farm, family enterprise or in any other economic activity. All persons engaged in 'work' as defined above are workers. Persons who are engaged in cultivation or milk production even solely for domestic consumption are also treated as workers. Reference period for determining a person as worker and non-worker is one year preceding the date of enumeration.

Main worker

A person who has worked for major part of the reference period (i.e. six months or more during the last one year preceding the date of enumeration) in any economically productive activity is termed as `Main worker'.

Marginal worker

A person who worked for less than six months of the reference period (i.e. in the last one year preceding the date of enumeration) in any economic activity is termed as `Marginal worker'.

Non worker

A person who has not worked at all in any economically productive activity during the reference period (i.e. last one year preceding the date of enumeration) is termed as `Non worker'.

Cultivator

For purposes of the Census a person is classified as cultivator if he or she is engaged in cultivation on land owned or held from government or held from private persons or institutions for payment in money, kind or share. Cultivation includes effective supervision or direction in cultivation. A person who has given out her/his land to another person or persons or institution(s) for cultivation for money, kind or share of crop and who does not even supervise or direct cultivation in exchange of land, is not treated as cultivator. Similarly, a person working on another person's land for wages in cash or kind or a combination of both (agricultural labourer) is not treated as cultivator. Cultivation involves ploughing, sowing, harvesting and production of cereals and millet crops such as wheat, paddy, jowar, bajra, ragi, etc., and other crops such as sugarcane, tobacco, ground-nuts, tapioca, etc., and pulses, raw jute and kindred fibre crop, cotton, cinchona and other medicinal plants, fruit growing, vegetable growing or keeping orchards or groves, etc. Cultivation does not include the following plantation crops - tea, coffee, rubber, coconut and betel-nuts (areca).

Agricultural labourer

A person who works on another person's land for wages in money or kind or share is regarded as an agricultural labourer. She/he has no risk in the cultivation, but merely works on another person's land for wages. An agricultural labourer has no right of lease or contract on land on which she/he works.

Household industry worker

Household industry is defined as an industry conducted by the head of the household herself/

himself and or by the members of the household at home or within the village in rural areas and only within the precincts of the house where the household lives in urban areas. The larger proportion of workers in household industry should consist of members of the household including the head. The industry should not be run on the scale of a registered factory which would qualify or has to be registered under the Indian Factories Act and should be engaged in manufacturing, processing, servicing and repairs of goods. It does not include professions such as a pleader, Doctor, Musician, Dancer, Waterman, Astrologer, Dhobi, Barber, etc. or merely trade or business, even if such professions, trade or services are run at home by members of the household.

Other worker

A person who has been engaged in some economic activity during the reference period but not as a cultivator or agricultural labourer or in Household Industry is termed as a 'Other Worker (OW)'. The type of workers that come under this category of 'OW' include all government servants, municipal employees, teachers, factory workers, plantation workers, those engaged in trade, commerce, business, transport, banking, mining, construction, political or social work, priests, entertainment artists, etc. In effect, all those workers other than cultivators or agricultural labourers or household industry workers, are 'Other Workers'.

Work participation rate

Percentage of workers (main + marginal) to total population.

Population density

Population density is the number of persons inhabited per square kilometre of the area.

Age

Age is measured in terms of the completed number of years.

Sex -ratio

Number of females per 1000 males in a population.

(viii) Non Census Concepts

Improved drinking water :

If the household had access to drinking water supplied from a tap, hand pump, tube well or well (protected or covered) situated within or outside the premises, it is considered as having access to improved drinking water. It may be mentioned that such uniform definition may not be valid across all states.

System of sewerage :

Generally, a sewerage system would mean a network of mains and branches of underground conduits for the conveyance of sewerage to the point of disposal. Sewers that carry only household and industrial wastage are called separate sewers; those that carry storm water from roofs, streets and other surfaces are known as storm water drains, while those carrying both sewage and storm water are called combined sewers. However, in some towns which are not provided with such underground sewerage system, it is served by open surface drain, box drain, sylk pattern drain, etc., in these towns.

Type of latrine and Method of disposal of night soil :

There are three prevalent systems of disposal of human wastes, viz.(i) underground sewerage, (ii) sanitary water flush latrines with individual disposal systems, like septic tank, leaching cess pool and collecting well, and (iii) dry type of latrines with manual scavenging. The system of underground sewerage provides for the street sewerage with which are connected the sanitary latrines constructed in the houses having water closets and fitted with flushing cistern (or hand flushing). Through this sewer the faecal matter is transported without the need for scavenging. This system generally exists in cities and big towns. Where the streets sewer does not exist these sanitary water flush latrines are connected to a local septic tank with a sub-soil dispersion system or a leaching pit. Here the liquid wastes from the water closet is disposed of locally in leaching pit, a septic tank with a soil dispersion system is constructed. This dispersion requires an optimum travel through the pores of the soil which renders the harmful liquid bacterially innocuous by the slow process of filtration through the soil traversed. Where the soil is impermeable, collecting wells are constructed and the sanitary water flush latrines are connected with them. These wells are cleaned at periodic intervals by a suitable device. The dry type of latrines are of service type latrines from where human excreta is removed by scavengers from house to house, in most cases carrying it on their heads or shoulders or in baskets with handle or wheel barrows. These are then collected in bullock carts or trucks or tractors and trolleys for being carried to the dumping grounds.

Fertility :

In demography, the word fertility is used in relation to the actual production of children or occurrence of births specially live births. Fertility is a measure of rate at which population adds to itself by births and normally assessed by relating the number of births to a full or part of the population, such as number of married women or number of women of child bearing age. The definitions of the terminology used in computing different fertility rates are mentioned below:

Crude birth rate(CBR) :

Ratio of the number of live births in a year to the mid year population, normally expressed per 1000 population.

$$CBR = \frac{\text{Number of live births during the year}}{\text{Mid –year Population}} \times 1000$$

Crude death rate(CDR)

Ratio of the number of deaths in a year to the mid year population, normally expressed per 1000 population.

$$CDR = \frac{\text{Number of deaths during the year}}{\text{Mid- year Population}} \times 1000$$

Natural growth rate :

Growth rate is obtained as the difference between crude birth rate and crude death rate in the absence of migration.

Age specific fertility rate (ASFR) :

Number of live births in a year to female population in any specified age group normally expressed per 1000 women.

$$ASFR = \frac{\text{Number of live births in a particular age-group}}{\text{Mid-year female population of the same age-group}} \times 1000$$

Age specific marital fertility rate (ASMFR) :

Number of live births in a year to married female population in any specified age group normally expressed per 1000 married women .

$$ASMFR = \frac{\text{Number of live births in a particular age-group}}{\text{Mid-year married female population of the same age-group}} \times 1000$$

General fertility rate (GFR) :

Number of live births per 1000 women in the reproductive age-group (15-49) years in a given year.

$$GFR = \frac{\text{Number of live births in a year}}{\text{Mid-year female population in the age-group (15-49) years}} \times 1000$$

General marital fertility rate (GMFR) :

Number of live births per 1000 married women in reproductive age-group (15-49) years in a given year.

$$GMFR = \frac{\text{Number of live births in a year}}{\text{Mid-year married female population in the age-group (15-49) years.}} \times 1000$$

Total fertility rate (TFR) :

It is obtained as the total of the age specific fertility rates (number of children born per woman of the particular age) for the entire reproductive age span. It provides the average number of children that will be born to a woman under the fertility levels indicated by the age specific fertility rates assuming that there is no mortality of women till the completion of reproductive period.

$$TFR = \frac{5 \times \sum_{15-19}^{45-49} ASFR}{1000}$$

Total marital fertility rate (TMFR) :

Average number of children that would be born to a married woman if she experiences the current fertility pattern throughout her reproductive span (15-49) years assuming that there is no mortality of women till the completion of reproductive period.

$$TMFR = \frac{5 \times \sum_{15-19}^{45-49} ASMFR}{1000}$$

Age-specific mortality rate (ASMR) :

Number of deaths in a particular age and sex group per 1000 population of the same age group.

$$ASMR = \frac{\text{Number of deaths in a particular age-group}}{\text{Mid-year population of the same age-group}} \times 1000$$

q1

Probability of dying between birth and age 1. This can be used as approximate value of Infant Mortality Rate (IMR) which gives the ratio of number of deaths in a year of children aged less than one year to the number of births in that year.

q2

Probability of dying between birth and age 2.

q5

Probability of dying between birth and age 5. This indicator is also known as Under Five Mortality Rate (U5MR) .

Infant mortality rate (IMR) :

Ratio of the number of infant deaths (deaths of children below one year) in a year to the number of live births in that year.

$$IMR = \frac{\text{Number of infant deaths during the year}}{\text{Number of live births during the year}} \times 1000$$

Infant mortality rate comprises of two parts, viz., Neo-natal mortality rate and Post neo-natal mortality rate. The neo-natal mortality rate also comprises of two parts viz., Early neo-natal mortality rate and late neo-natal mortality rate. These are defined as:

Neo-natal mortality rate (NMR) :

Number of infants dying within the first month of life (28 days or under) in a year per 1000 live births of the same year.

$$NMR = \frac{\text{Number of infant deaths aged 28 days or under during the year}}{\text{Number of live births during the year}} \times 1000$$

Early neo- natal mortality rate :

$$ENMR = \frac{\text{Number of infant deaths of less than 7 days During the year}}{\text{Number of live births during the year}} \times 1000$$

Late neo-natal mortality rate :

$$LNMR = \frac{\text{Number of infant deaths of 7 days to less than 29 days during the year}}{\text{Number of live births during the year}} \times 1000$$

Post neo-natal mortality rate (PNMR) :

$$PNMR = \frac{\text{Number of deaths of 29 days to less than one year during the year}}{\text{Number of live births during the year}} \times 1000$$

Peri-natal mortality rate (PMR) :

Number of still births plus deaths within 1st week of delivery per 1000 births in a year.

$$PMR = \frac{\text{Number of still births and infant deaths of less than 7 days during the year}}{\text{Number of live births and still births during the year}} \times 1000$$

Still birth rate(SBR) :

$$SBR = \frac{\text{Number of still births during the year}}{\text{Number of live births and still births during the year}} \times 1000$$

Maternal mortality rate(MMR) :

Number of deaths of women in the age group 15-49 while pregnant or within 42 days of termination of pregnancy from any cause related to pregnancy and child birth per 1,00,000 live births in a given year.

$$MMR = \frac{\text{Number of maternal deaths to women in the age group 15-49}}{\text{Number of live birth}} \times 1,00,000$$

Eligible couple (Couples per 1000 population):

Number of currently married females in the age group15-44 years per 1000 persons of all ages.

Child woman ratio (0-4) :

1. Number of children in the age group 0-4 years per 1000 women in the age group 15-49 years.

Child woman ratio (5-9) :

2. Number of children in the age group 5-9 years per 1000 women in the age group 15-49 years.

Migration :

Migration is the third component of population change, the other two being mortality and fertility. A person is considered as a migrant by place of birth if the place in which he/she is enumerated during the census is other than the place of his/her birth. Similarly a person is considered as a migrant by place of last residence if the place in which he/she is enumerated during the census is other than his/her place of immediate last residence outside the village or town and not simply in another house or locality in the same village or town. Certain aspects concerning temporary movement/migration of people has been

explained below as these are important components concerning migration :-

(i) Migration of persons in search of job is high in the country. In many cases such migrants are only seasonal in nature. People migrate to other places for work in a particular season and come back again to their usual place of residence after three or four months. All such workers are treated as migrants. Similarly, if a person moved to any other place for attending short term vocational or educational course that lasted for only few months of a year, she/he too were considered as a migrant.

(ii) Where a person had merely gone out to another place or had been shifting from one place to another purely on tour, pilgrimage, visit to hospital for treatment or for temporary business purposes, such persons are not deemed to have had another residence different from the place where she/he or her/his family normally resides. She/he is not considered as migrant.

(iii) A woman temporarily moves into a hospital or to her parents or other relative's house for delivery and if the hospital or the parents/relatives houses is in a place different from usual place of residence, the place where the hospital or parents/relative's house is the place of last residence of the child but not of the mother. A new response category 'Moved after birth' was added in Census of India 2001 in the question on 'reasons for migration' to bring out additional migration patterns. Natural calamities or distress migration as a reason for migration for last residence migrants included in 1991 Census, is covered under category of 'Others'. The reason for migration has been determined as applicable at the time of migration and not in reference to any point of time after that. For example, if a person had moved from the place of her/his last residence for the purpose of education and subsequently at some point of time got employment there only, the reason for migration would be 'education' and not 'work/employment'.

Internal and International migration :

The migrational movements are of three types

(i) Migration within the state itself with its components.

(a) Migration within the district of enumeration (intra district migration).

(b) Migration from one district of state to another district of state (inter district migration),

(ii) Migration from one state to another State of the country (inter-state migration),

(iii) Migration from one country to another country. The first two streams together constitute internal migration, while the last type of movement is called international migration. The present name of the country, state or district and not the name by which they were known at the time of her/his birth or last residence were recorded.

Rural - Urban components of migration:

Rural or Urban status in respect of migrants have been determined as applicable at the time of migration and not with reference to any point of time after that. The flow of migrants consists of four streams viz. rural to rural, rural to urban, urban to rural and urban to urban.

Civic status of urban units

Civic Status of a town/city is determined on the basis of Civic Administrative authority of the town e.g., Municipal Corporation / Corporation, Municipal Committee/ Municipal council, Municipality etc.

Size class of UA / town

Size-class of UA/Town is based on the population size of the UA/City/Town UAs./Towns with 1,00,000 and above population are classified as Class I UAs./ towns. These Class I UAs. / towns are now further sub classified in to seven sub classes namely M1 to M7 depending on the population size of UA/City/ Town. These are M7(5,000,000 and above); M6(2,000,000 to 4,999,999); M5 (1,000,000-1,999,999) M4 (500,000-999,999); M3(300,000-499,999), M2 (200,000-299,999) & M1 (100,000-199,999). towns with, 50,000 to 99,999 population are classified as Class II towns, 20,000 to 49,999 population are Class III towns, population with 10,000-19,999 are Class IV towns, population with 5000 and 9999 are Class V towns and towns with less than 5000 population are Class VI towns.

Slum area

The Slum Areas (Improvement and Clearance) Act, 1956 which was enacted by the Central Govt. defined slums as a) Areas where buildings are in any respect unfit for human habitation; or b) are by reasons of dilapidation, overcrowding, fault arrangement and design of such buildings, narrowness or faulty arrangement of streets, lack of ventilation, light or sanitation facilities, or any combination of these factors, are detrimental to safety, health or morals.

Mega city

The concept of 'Mega city' is a recent phenomenon in the Urban Sociology and is defined in term of metropolitan city in the form of large size, problem of management of civic amenities and capacity to absorb the relatively high growth of population. Indian Census in 1991 treated the population size of 5 million and above as the cut off point to identify a place as the mega city. Whereas, for the purpose of inclusion in Centrally Sponsored Scheme for Infrastructure Development in Mega cities the Ministry of Urban Affairs and employment, Department of Urban Development adopted the criteria of 4 million and above population as per 1991 Census for Mega Cities. In 2001 Census, cities with 10 millions and above population have been treated as Mega cities.

Analytical Note
(ix) 2001 Census findings – Population and its distribution

(a) Distribution of Population in Rural - Urban Areas :

According to 2001 Census the total population of Prakasam district stands at 3,059,423 with 1,552,332 males and 1,507,091 females. The district stands at 15th rank as far as population is concerned in the State. Out of the total population of the district 2,592,055 persons constituting 84.72% are residing in rural areas and the remaining 467,368 persons 15.28% are residing in urban areas. The proportion of urban to total population regarded as an index of urbanization is 15.28% for Prakasam district, corresponding to state figure of 27.30%. Average number of towns for 100 inhabited villages in the district is less than 1% i.e.(0.95%).

Prakasam district has 1083 villages in 56 mandals of which 992 are inhabited villages. The average number of inhabited villages per mandal is 18. Ongole mandal is the largest mandal in terms of population accounting 6.42% of the district population. In terms of number of villages, Kanigiri mandal leads with 40 villages, wherein 6 are un-inhabited villages. Large number i.e. 36 inhabited villages are found in Chandrasekharapuram mandal. Chirala mandal has least i.e. 2 inhabited villages. As regards population, Yeddanapudi mandal reported least population i.e. 29,585 persons in the district.

The urban population is distributed among 8 urban units of which 4 are statutory towns. The average size of an urban centre in the district works out to 58,421 persons. Ongole Municipality has largest population 150,471 whereas Bestawaripeta is the smallest town with a population of 6,526. There is no town in the district which has less than 5000 population.

(b) Size class and status of towns, population growth, density, sex ratio, work participation rate and Literacy rates - in the district:

Size class and status of Towns :

During every Census the number of Census towns and statutory towns changes due to addition of new Census towns declassification of old Census towns, notifying of new Census towns, de-notifying of old statutory towns etc., for the purpose of analysis of varied demographic characteristics. Urban areas have been divided into six classes by size of population. Of the 8 towns in the district, Ongole and Chirala are categorised as class I towns while there are 2 in class II, 1 in class III, 2 in class IV and 1 in class V not a single town is categorized as class VI.

Population Growth :

The population of the district was 2,759,166 persons as per 1991 Census and has gone up to 3,059,423 persons in 2001 by adding 300,257 persons during the decade 1991-2001. The growth rate revealed by the district 10.88% is less than the state growth of 14.59% during the decade. Prakasam district ranks 15th in growth rate among 23 districts in the state.

Rural-Urban growth rates show wide variation. The rural growth rate has recorded 12.44 while urban growth rate is 2.97. The district occupies 14th place in the state in respect of rural population growth rate and 21st place in respect of urban growth rate.

Density :

The overall density of population in the district is 174 persons per sq.km. and it is below the state average of 277. Among urban areas Chirala town recorded highest with 6,389 persons per sq.km followed by 5,532 persons in Ongole municipality. Least density i.e.700 persons per sq.km. has been reported in Kandukur Municipal town.

Sex Ratio :

During 2001 census Prakasam district has recorded 971 females per 1,000 males while it was 970 in 1991 census. It is lower than the state average

sex ratio i.e. 978. The district occupied 16th rank in respect of sex ratio among 23 districts. Lingasamudram mandal has the highest sex ratio of 1,039 followed by Yeddanapudi and Singarayakonda mandals with 1,037 and 1,017 respectively. Among urban units Singara-yakonda census town has reported highest sex ratio of 1,075 and Bestawaripeta census town reported lowest sex ratio of 893.

Work Participation Rate :

The work participation rate for total workers is defined as percentage of total workers to total population. The total work participation rate in Prakasam district is 50.3%. Again percentage of main workers stands at 42.7%. The total work participation rate separately for males and females in the rural are 58.4% and 46.9% respectively as against corresponding figures for urban areas with 53.8% and 18.9% respectively. The proportion of main workers in the district has decreased to 42.7% in 2001 from 46.2% in 1991. The female work participation has gone up from 41.39% in 1991 Census to 42.6% at 2001 Census.

Literacy Rate:

While calculating effective literacy rate, children in 0-6 age group have been excluded. The district returned 1,532,126 literates forming 57.4% of the population of the district, excluding 0-6 age group. Seperating for rural and urban areas the literacy rate worksout to 54.5% and 73.3% respectively. Again within the urban areas male and female literates workout to 82.2% and 64.3%. For the rural population the male and female literacy rate worksout to 67% and 41.5%.

(C) Scheduled Castes And Scheduled Tribes of earlier Censuses :

To uplift social and economical status of Scheduled Castes and Scheduled Tribes, one of the basic requirement of these population is the availability of data on age, sex, marital status, economy, education, fertility etc. In this regard these particulars are being collected in each Census from 1951 onwards and provided to planners and administrators to take-up necessary steps to evolve suitable plans for the development of Scheduled Castes and Scheduled Tribes.

The President of India has notified some castes, races or tribes or parts of groups within castes, races or tribes as Scheduled Castes under Article 341 of the Constitution of India. Similarly, under Article 342 of the Indian Constitution, President of India has declared all such tribes or tribal communities or parts of groups within the tribes or tribal communities as Scheduled Tribes. The list of Scheduled Castes and Scheduled Tribes are notified for each State or Union Territory and are valid only within the jurisdiction of that State and Union Territory. The list of Scheduled Castes and Scheduled Tribes is provided in this volume under the chapter on 'Census concepts'.

Scheduled Castes population in the district as per 1991 Census:

As per 1991 census, there were 5,52,640 Scheduled Castes population comprising 2,81,314 males and 2,71,326 females. This works out to 20.03% to the total population of the district. Of the total population of Scheduled Castes, 91.52% were living in rural areas of the district.

The following statement reveals that Scheduled Castes population has recorded 48.20% growth rate during the decade 1981-91. It was 46.42% in rural areas which is less than the growth rate of total district. Growth rate in Urban areas was 70.62% which is nearly 24% more than the rural areas.

The sex ratio of Scheduled Castes population (964) was a little less in comparison to that of the general population in the district(971). The sex ratio in rural area of the district was lower than total district sex ratio among Scheduled Castes population. In urban areas it was 992. Literacy rate among Scheduled Castes 31.39% which was lower than the district (57.4%). In urban areas their literacy rate was 55.34%.

Proportion of main workers among Scheduled Castes was 50.67 percent and the Marginal workers was 2.16 percent. In rural areas main workers population was 52.03 percent and in urban areas their percentage was 35.95.

Statement (i)

Particulars of decadal variation, sex ratio, literacy and workers participation of Scheduled Castes population-1991

Sl.No.	Particulars	Total	Rural	Urban
1	Percentage decadal Variation:			
	1981	372908	345452	27456
	1991	552640	505794	46846
		(48.20)	(46.42)	(70.62)
2	Sex ratio	964	962	992
3	Percentage of Literacy	31.39	29.09	55.34
4	Percentage of			
	:i. Main Workers	50.67	52.03	35.95
	ii. Marginal Workers	2.16	2.20	1.75
	iii. Non-workers	47.17	45.77	62.29

Source : *District Census Handbooks of Prakasam, 1981 & 1991*

It is seen from the below furnished table that Scheduled Castes population in the district has been decreased from 109.67% during 1971-1981 to 48.20% during 1981-1991 due to the strict adherence of the religion.

Statement (ii)

Statement showing the decadal variation in Scheduled Castes population in Prakasam district in comparison to Andhra Pradesh State between 1971-1991 Censuses

Sl. No.	Census Year	Scheduled Castes Population in district (percent variation shown in bracket)	Scheduled Castes Population in State (percent variation shown in bracket)
1	1971	177855	5774548
		--	--
2	1981	372908	7961730
		(+109.67)	(+37.88)
3	1991	552640	10592066
		(+48.20)	(+33.04)

Source: *Part II-B (ii), 91 and District Census Handbook of 1971, 1981*

The following statement gives the proportion of Scheduled Castes population to total population in the villages. Out of 913 villages where Scheduled Caste population returned in the district, 42 villages constituting 4.60% were having less than 6% of Scheduled Caste population. Of the remaining villages, 56 (6.13%) were having 6 to 10% of Scheduled Castes population, 103 (11.28%) having 11 to 15% and 246 (26.95%) having 31% and above to total population of the respective villages. The highest percentage of villages is seen in the range of 21-30 with 33.08%

Statement (iii)

Proportion of Scheduled Castes Population to Total Population in the villages-1991

Percentage range of Scheduled Castes population to Total population	Number of villages In each range	Percentage of villages in each range
1	2	3
5 and below	42	4.60
6-10	56	6.13
11-15	103	11.28
16-20	164	17.96
21-30	302	33.08
31 and above	246	26.95
Total	**913**	**100.00**

Source: *District Census Handbook, Prakasam, 1991.*

The following statement shows the percentage of Scheduled Castes population to the total population of the towns in the district. Out of 4,53,902 Urban population, Scheduled Castes population of 46,846 constituted 10.32%. Kandukur town has 13.95% Scheduled Castes population to the total population of the towns, followed by Addanki (13.51%) and Chirala (13.45%). Ongole town has registered (10.11%) which is equal to district average. For the remaining towns S.Cs. proportion is less than dist. average.

Statement (iv)

Percentage of Scheduled Castes Population in Towns - 1991

Class & Name of Town		Total Population of Town	Total scheduled Castes Population	Percentage of Scheduled Castes Population to Total Population
III	Addanki (P)	24,048	3,250	13.51
I	Chirala (M)	80,861	12,885	13.45
IV	Cumbum (P)	12,815	393	3.07
III	Giddalur (P)	23,707	1,549	6.53

	Total	**426,296**	**45,140**	**10.32**

Source: *District Census Handbook, Prakasam, 1991.*

The Scheduled Tribes population in the district as per 1991 Census :

As per 1991 Census, there were 98,854 Scheduled Tribes population comprising 51,044 males and 47,810 females. This works out 3.58% to the total population of the district. Of the total population of the Scheduled Tribes 82.27% were living in rural areas of the district.

The following statement reveals that Scheduled Tribes population in the district has registered 26.98% growth rate during the decade 1981-91. Almost same growth rate with marginal variation 25.37% has been recorded in the rural areas of the district. In urban areas it was 35.03%. The sex ratio in the district was 937, while in rural areas it was 931 and in urban areas 962. As regards the Literacy rate among the tribes, it was 21.17% , while in rural areas it was 19.91%. However in urban areas it was higher (26.96%) than rural areas as well as the district total.

The population of main workers and marginal workers among tribals in the district was 49.33% and 2.04% respectively where as in rural areas of the district it was 50.72% and 2.27% respectively. But in urban areas they were reported 42.89% and 0.95% respectively.

Statement (v)

Particulars of decadal variation, sex ratio, literacy and workers participation of Scheduled Tribes population-1991

Sl.No.	Particulars	Total	Rural	Urban
1	Percentage decadal Variation:			
	1981	77,847	64,865	12,982
	1991	98,854	81,324	17,530
		(26.98)	(25.37)	(35.03)
2	Sex ratio	937	931	962
3	Percentage of Literacy	21.17	19.91	26.96
4	Percentage of			
	i. Main Workers	49.33	50.72	42.89
	ii. Marginal Workers	2.04	2.27	0.95
	iii. Non-workers	48.64	47.01	56.17

It is seen from the following statement that the Scheduled Tribes population growth rate decreased during the decade 1981-91, when it is compared with 1971-81. However the variation between 1981-91 was less than the State variation.

Statement (vi)
Statement showing the decadal variation in Scheduled Tribes population in Prakasam district in comparison to Andhra Pradesh State between 1971-1991 Censuses

Sl. No.	Census Year	Scheduled Tribes Population in district (percent variation shown in bracket)	Scheduled Tribes Population in State (percent variation shown in bracket)
1	1971	55,111	1,657,657
		---	--
2	1981	77,847	3,176,001
		(+41.25)	(+91.60)
3	1991	98,854	4,199,481
		(+26.98)	(+32.23)

Source: *Part II-B (iii) and District Census Handbooks of 1971 and 1981*

The following statement shows the proportion of Scheduled Tribes population to total population in the villages. Out of 684 villages, where Scheduled Tribes were recorded, 520 villages forming 76.02% were having less than 6% Scheduled Tribes population. The proportion of Tribals was between 26 to 50 percent in 10 villages(1.46%) and in 32 villages(4.68%) they were more than 51 percent.

Statement (vii)
Proportion of Scheduled Tribes Population to Total Population in the villages - 1991

Percentage range of Scheduled Tribes population to Total population	Number of villages in each range	Percentage of villages in each range
1	2	3
5 and below	520	76.02
6-15	108	15.79
16-25	14	2.05
26-35	5	0.73
36-50	5	0.73
51 and above	32	4.68
Total	**684**	**100.00**

Source *: District Census Handbook, Prakasam, 1991*

While going through the following table it is observed that Scheduled Tribes population constituted 3.86% to total urban population in the district. The proportion of Scheduled Tribes population was above the district average in Singarayakonda, Vetapalem, Chirala and Kandukur towns, while it was below in Addanki, Cumbum, Giddaluru, Kanigiri, Markapur, Ongole (M) and Ongole (NMA) respectively.

Statement (viii)
Percentage of Scheduled Tribes Population in Towns - 1991

Class & Name of Town	Total Population	Total scheduled Tribes Population	Percentage of Scheduled Tribes Population to Total Population

Note : *Percentages in brackets*

This district has 992 inhabited villages. Among them 50 inhabited villages (5.0) having less than 200 population, 81 (8.2%) villages are having 200 - 499 population, 154 (15.5%) villages are having between 500 - 999 persons, 254 (25.6%) villages are having 1000-1999 population range, (33.7%) 334 villages are the highest range are noticed in 2000 - 4999 range. 94 villages with 9.5% have 5000 - 9999 population, only 25 villages with 2.5% have 10000 and above population, which are mostly mandal headquarters.

TABLE - 3
NEW TOWNS, DENOTIFIED, DECLASSIFIED AND MERGED TOWNS IN 2001 CENSUS

	Name of Town
	1
(a) New	
(i) Statutory Town	
	-Nil-
(ii) Census Town	
	1. Bestawaripeta
	2. Pamur
(b) Denotified	
(i) Statutory towns of 1991 Census denotified and also did not satisfy the criteria to be treated as Census towns	
	-Nil-
(ii) Statutory towns of 1991 Census denotified but identified as Census towns based on demographic and economic criteria	
	1. Vetapalem
(iii) Census towns of 1991 Census are notified as statutory town in 2001 Census	
	-Nil-
(c) Declassified	
	1. Adddanki
	2. Giddalur
	3. Kanigiri
	4. Cumbum
(d) Wholly merged with other town(s)	
	-Nil-

Declassified means the census towns of 1991 census which failed to satisfy the demographic and economic criteria.

Out of 11 urban areas in 1991 census four census towns Addanki, Giddalur, Kanigiri and Cumbum attained rural status due to strict implementation of demographic criteria in 2001 census. No census town of 1991 has been notified as statutory town in 2001 census. Besides these changes, 2 new census towns Bestawaripeta and Pamur have been declared for 2001 census.

In this district, Vetapalem which was a Statutory town of 1991 Census has been degraded as Census town in 2001 Census based on demographic and economic criteria.

TABLE - 4
DISTRIBUTION OF VILLAGES BY POPULATION DENSITY, 2001

Range of population density (per square kilometre)	Total number of villages in each population density range	Percentage of villages in each population density range	Population	Percentage distribution of population
1	2	3	4	5
0-10	24	2.4	31,734	1.2
11-20	8	0.8	989	-
21-50	33	3.3	14,036	0.5
51-100	168	16.9	187,018	7.2
101-200	358	36.1	772,396	29.8
201-300	226	22.8	685,524	26.4

TABLE - 4(Concld..)
DISTRIBUTION OF VILLAGES BY POPULATION DENSITY, 2001

Range of population density (per square kilometre)	Total number of villages in each population density range	Percentage of villages in each population density range	Population	Percentage distribution of population
1	2	3	4	5
301-500	123	12.4	470,301	18.1
501 +	52	5.2	430,057	16.6
Not known	-	-	-	-
District Total:	**992**	**100.0**	**2,592,055**	**100.0**

Population Density (Rural) of the district: 199.8

In 24 villages with 31,734 population the density of population per sq.km. has been recorded as below 11 persons range of population. The highest number of villages i.e., 358 with a population 772,396 forming 29.8% has been recorded in 101 - 200 range of population density. Out of 992 total inhabited villages 52 villages with a population of 430,057 (16.6%) are living where the range of population density is more than 500 persons per sq.km.

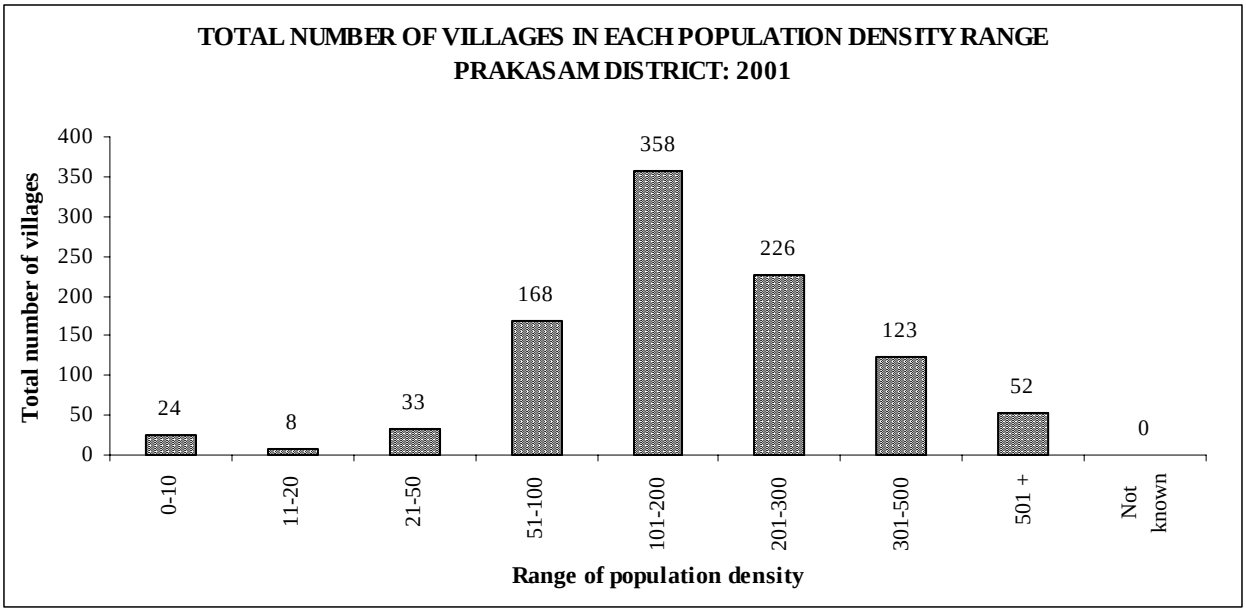

TABLE - 5
SEX RATIO OF STATE AND DISTRICT, 1901 - 2001

Census Year	State			District		
	Total	Rural	Urban	Total	Rural	Urban
1	2	3	4	5	6	7
1901	985	983	999	996	994	1,020
1911	992	991	1,000	998	996	1,032
1921	993	994	986	992	990	1,023
1931	987	989	966	994	993	1,004
1941	980	981	975	983	982	1,004
1951	986	985	987	981	980	993
1961	981	988	951	991	992	982
1971	977	983	949	987	989	969
1981	975	984	948	978	1,067	955
1991	972	977	959	970	969	976
2001	978	983	965	971	969	982

In the Census count during 1901, 1911, 1931, 1941, 1961, 1971, 1981 the district sex ratio was more than State average sex ratio. But during 2001 Census, the sex ratio of the district is lower with 971 as against 978 over the state sex ratio. Mostly sex ratio in rural areas was higher than the urban areas, but in this district it is different upto the decade 1951. From the decade 1961 onwards this has been changed.

	District Total:	**971**	**969**	**982**

This table shows that during 2001 census there were 971 females per 1000 males in the district. Almost half of the mandals i.e., 29 mandals in the district reported less sex ratio than the district. Three mandals are equal to the district sex ratio and 24 mandals are noticed the sex ratio is more than the district sex ratio. The least sex ratio i.e., 921 females per 1000 males is noticed in Pullalacheruvu mandal. The highest number of females 1039 per 1000 males are in Lingasamudram mandal.

TABLE - 7

27	Chirala	966	56	Ulavapadu	971
28	Vetapalem	990			
29	Chinaganjam	997		**District (Rural) Total:**	**969**

The sex ratio in rural areas is 969 which is nearer to the district sex ratio i.e., 971. In 8 mandals where urban areas are existing, the sex ratio in rural areas is more than the total average sex ratio of the respective mandals except in Bestawaripeta, Ongole, Pamur and Kandukur mandals where urban sex ratio is higher than rural as well as total.

TABLE - 8
SEX RATIO OF RURAL POPULATION BY RANGES, 2001

Range of sex ratio for villages	Number of inhabited villages	Percentage of villages in each range	Population (2001)	Percentage distribution of population
1	2	3	4	5
Less than 700	7	0.7	3,810	0.1
700-749	2	0.2	14,132	0.5
750-799	5	0.5	7,872	0.3
800-849	16	1.6	11,732	0.5
850-899	61	6.1	94,774	3.7
900-949	241	24.3	653,468	25.2
950-999	375	37.8	1,207,599	46.6
1000-1099	253	25.5	570,512	22.0
1100+	32	3.2	28,156	1.1
District Total:	**992**	**100.0**	**2,592,055**	**100.0**

Sex ratio (Rural) for District: 969

Large variation in district rural sex ratio i.e., less than 700 females per 1000 males are recorded in 7 villages. There are 375 inhabited villages in the range of sex ratio 950 - 999, in which the sex ratio of total and rural areas of the district has also fallen. It is evident from the last two ranges of sex ratio shown in the above table i.e., 28.7% of inhabited villages are having more number of females than males covering almost 23.1% of the total rural population.

TABLE - 9
SEX RATIO OF URBAN AGGLOMERATIONS / TOWNS, 2001

Sl.No.	Name of U.A. / Town	Urban status	Sex ratio
1	2	3	4
1	Bestawaripeta	CT	893

11	Pamur	CT	955
12	Singarayakonda (RS)	CT	1,075
	Sex ratio (Urban) for the district :		**982**

This table gives the urban sex ratio. The urban sex ratio in the district is 982. The highest sex ratio i.e., 1075 is seen in Singarayakonda (C.T.) and whereas the lowest sex ratio of 893 is recorded in Bestawaripeta (C.T.). Among statutory towns Chirala Municipality has reported higher sex ratio than district urban sex ratio with 1002.

		Urban	-	-	-	-
	District Total:	**Total**	**389,344**	**199,153**	**190,191**	**955**
		Rural	**336,720**	**172,248**	**164,472**	**955**
		Urban	**52,624**	**26,905**	**25,719**	**956**

The sex ratio of population in the age-group 0-6 is 955 in total, 955 in rural and 956 in urban of the district as against 971, 969 and 982 respectively for total population of the district. It reveals that sex ratio in rural and total district is equal in the age - group 0-6, but it is slightly higher with 956 in the urban areas of the district. Similar to total population, sex ratio of urban areas in the age-group of 0-6 also is less than district average sex ratio. Female children are more in number to male children in Dornala and Yeddana Pudi mandals. But in Pamur mandal the female children are more in number in Rural area (1007) whereas the females are more than males in the urban area of Singarayakonda with 1048 in the 0-6 age-group in the district.

56	Ulavapadu	6,397	3,278	3,119	951
	District (Rural) Total:	**336,720**	**172,248**	**164,472**	**955**

This table gives the details of sex ratio in the age-group 0-6 for each mandal parishad of the district. It can be noticed that sex ratio of the population in the age-group 0-6 is highest in Dornala, Yeddana Pudi and Pamur mandal parishad with 1002, 1019 and 1007 females respectively per 1000 males while the lowest has been noticed in Kondapi mandal parishad with 911 females per 1000 males in the district.

TABLE -12
SEX RATIO OF RURAL POPULATION IN THE AGE GROUP 0-6 BY RANGES, 2001

Range of sex ratio for villages	Number of inhabited villages	Percentage distribution of villages	Population (2001)	Percentage distribution of population
1	2	3	4	5
Less than 700	51	5.1	2,944	0.9
700-749	20	2.0	2,645	0.8
750-799	42	4.2	8,304	2.5
800-849	79	8.0	21,701	6.4
850-899	123	12.4	42,477	12.6
900-949	163	16.4	87,835	26.1
950-999	127	12.8	67,945	20.2
1000-1099	222	22.4	75,248	22.3
1100+	165	16.6	27,621	8.2
District (Rural) Total	**992**	**100.0**	**336,720**	**100.0**
Sex ratio (Rural) for District:	**955**			

It is seen from the above table that in 22.4% of villages, female children in the age-group 0-6 are either equal or more than the male children. In 127 villages forming 12.8% to total-in habited villages, the range of sex ratio is 950-999, in which the district average sex ratio 992 has also falls in.

		Rural	50,375	10,899	6,395	21.6	12.7
		Urban	-	-	-	-	-
	District Total:	**Total**	**3,059,423**	**651,498**	**118,241**	**21.3**	**3.9**
		Rural	**2,592,055**	**597,898**	**99,116**	**23.1**	**3.8**
		Urban	**467,368**	**53,600**	**19,125**	**11.5**	**4.1**

This table shows the number and percentage of Scheduled Castes and Scheduled Tribes population in the mandals recorded during 2001 Census. Out of district total population of 30,59,423 the SCs and STs constituted 21.3% and 3.9% respectively. In rural areas of the district the SCs accounted 23.1% and STs 3.8% whereas in urban areas they accounted (i.e., SCs and STs) with 11.5% and 4.1% of the total population respectively. The percentage of SCs in rural areas is more than urban while the percentage of STs are more in the urban areas..

In Tangutur mandal the highest number of S.Cs recorded with 34% totally under rural areas followed by Maddipadu with 33.8% and Zarugumilli with 32.5% both are also totally in rural areas. The lowest percentage of SCs recorded in the mandals of Cumbum with 10.5%, Racherla with 12.7% and Giddalur with 13.7%.

In Pullalacheruvu mandal the highest number of STs recorded with 15% totally in rural areas followed by Dornala mandal with 13.9% and Ulavapadu mandal with 12.7% both are also totally in rural areas. The lowest percentage of STs recorded in the mandals of Hanumanthunipadu, Konkanamitta and Tarlupadu mandals with 0.3%, 0.5% and 0.7% respectively.

	District (Rural) Total:	**2,592,055**	**597,898**	**99,116**	**23.1**	**3.8**

This table reveals the percentage distribution of SCs and STs population among the Mandal Parishads (C.D.Blocks). The highest percentage of SC population has been noticed in Tanguturu mandal parishad with 34% followed by Maddipadu mandal parishad with 33.8% and Zarugumilli mandal parishad with 32.5% which is higher than the district average percentage of SC population. Like-wise highest ST population has been noticed in Dornala mandal with 13.9% followed by Ulavapadu mandal parishad with 12.7% which were higher than the district average percentage of ST population. The lowest SC population has been recorded in Vetapalem Mandal Parishad with 6.6% while the lowest ST population recorded in Hanumanthunipadu mandal parishad with 0.3%.

TABLE - 16
PROPORTION OF SCHEDULED CASTES POPULATION TO TOTAL POPULATION IN VILLAGES, 2001

Percentage range of Scheduled Castes Population to total population	Number of villages	Percentage	Scheduled Castes Population	Percentage
1	2	3	4	5
Nil	78	7.9	-	-
Less than 5	27	2.7	1,150	0.2
5-10	56	5.6	22,093	3.7
11-20	254	25.6	140,970	23.6

55	Gudluru	984	937
56	Ulavapadu	991	949
	District (Rural) Total	**968**	**945**

The sex ratio among the SCs and STs is given in this table at Mandal Parishad level. The sex ratio of SC and ST in rural areas of Prakasam district is 968 and 945 respectively while it is 971 in respect of total population. It shows that sex ratio among district total and SCs is almost in the same range but it is lower than the district sex ratio among STs. The lowest sex ratio 822 among SCs is reported in Ardhaveedu Mandal Parishad. The highest sex ratio among SCs is reported in Lingasamudram Mandal Parishad and 1071 among STs in Santhanuthalapadu Mandal Parishad. The SC females are more than males in Vetapalem, Chinaganjam, Chimakurthi, Pamur, Voletivaripalem, Kandukur and Lingasamudram Mandal Parishads. Among STs, more females than males are available in Yeddana Pudi, Inkollu, Chirala, Santhanuthalapadu, Tangutur, Ponnaluru, Pamur, Voletivaripalem, Kandukur and Lingasamudram Mandal Parishads. In 25 Mandal Parishads the sex ratio among SCs are lower than the district average sex ratio of SCs. Among STs this sex ratio is lower in 28 mandal parishads than the district average sex ratio of STs.

	Sex ratio (Urban) for the district:	**1,002**	**972**

+ Arranged in alphabetical order

^ The names of constituents of UA are given separately

The sex ratio among the SCs and STs has been shown in this table for urban Agglomerations/Towns of 2001 Census. Among the Towns Singarayakonda (RS) (CT) has the highest sex ratio of 1869 and the lowest in Bestawaripeta (CT) with 871 among SCs population. Females are more than males in Chirala, Ongole Municipalities, Pamur and Singarayakonda (RS) Census Towns and these four towns SCs sex ratio is more than the sex ratio of district urban average sex ratio. Like-wise, among STs the females are more than males in Markapur Municipality and also the highest sex ratio is recorded in this Municipality only with 1084 ratio and the lowest with 812 in Bestawaripeta Census Town.

This table gives the details of the district and mandalwise literacy rates besides the number of literates and illiterates for total, rural and urban areas with sex breakup. The literacy rates are workedout by excluding population in the age-group 0-6. As per 2001 Census, the proportion of literates to total population excluding 0-6 age-group comes to 57.4% in the district. This proportion in rural area is 54.5% as against 73.3% in urban areas. The literacy rates among males 69.4% is much higher than females literacy rate of 45.1%. The gap between male and female literacy rate is very high with 24.3% in the district as a whole. The situation among mandals also seen high. Among mandals the highest literacy rate recorded in Inkollu mandal with 69.2% and the lowest rate in Pullalacheruvu mandal with 33.1% in the district.

This table gives the number and percentage of main workers, marginal workers and non-workers by sex at mandal level in the district as per 2001 Census. The proportion of total workers works out 50.3% of the total population in the district. The total workers are comprised of 42.7% of main workers and 7.5% of marginal workers and the remaining 49.7% are the non-workers.

Among the main workers, the male main workers rate is 52.7% and female participation rate is 32.4%. The marginal workers participation rate among males and females is 4.9% and 10.2% respectively.

***Note**: Percentage of Workers to total workers are given in brackets*

This table gives the details of distribution of workers by sex in four categories of economic activity in Mandals of the district as recorded in 2001 Census. The economy of the district primarily dependent on agriculture due to the fact that cultivators and agricultural labourers constituted more among the workers. In the district the total workers (main+marginal) constituted 50.3% . Among the workers 43.8% workers are engaged as agricultural labourers, 3.7% in household industry and 27.9% formed other workers in the district.

The distribution of workers by four categories of economic activity at mandal level shows very high dependence of population on agriculture sector absorbing large number of workers. The percentage of female cultivators is 20.6% which is lower as compared to 27.5% male cultivators in the district.

Note: Percentage of Workers to total workers are given in brackets

This table presents Mandal Parishad-wise distribution of workers by sex in four categories of economic activity as per 2001 Census. In the rural areas of the district total workers constitute (main + marginal) 52.7% of total population. Among these workers, cultivators constitute 27.4%, 47.8% Agricultural Labourers, 2.4% Household Industry and 22.5% other workers. The agricultural sector plays a major role in providing employment to the working force of rural population despite the fact that it is not commercially viable. Household Industries also could not make much progress in rural areas as reflected in the data and these household industries employ only 2.4% workers of the total working force. Therefore surplus working force has to depend on primary activity. Among cultivators, the percentage of females 21.8% is lesser than males (31.6%) in the rural areas of the district.

+ Arranged in alphabetical order

^ The names of constituents of UA are given separately

This table shows the distribution of workers by sex in four categories of economic activity of Urban Agglomerations/Towns. In the urban areas of the district total workers form (main + marginal) 36.5% of total population. Among these workers, Cultivators constitute 2.7%, Agricultural Labourers 11.8%, Household Industry 14.1% and Other Workers 71.4%. The other workers plays a major role in providing employment to the working force of urban population. Household Industries also could not make much progress in urban areas as these Household Industries employ only 14.1% of the total working force. Therefore surplus working force has to depend on other working activities. Among Cultivators, the percentage of females (3.1%) is higher than males (2.5%) in the urban areas of the district.

		(100)	**(95.4)**	**(52.6)**	**(96.8)**	**(69.9)**	**(56.7)**	**(88.6)**	**(16.1)**	**(22.0)**	**(91.6)**	**(99.9)**

Note : - Percentages are given in brackets.

** Based on the improved drinking water source, drinking water supply has been classified as `Improved ' or otherwise. If the household has access to drinking water supplied from a tap or a hand pump / tube well situated within or outside the premises it is considered as having access to `Improved drinking water source'. However, the concept of improved drinking water is state specific and this is to be considered accordingly.*

 # Post office includes Post office, telegraph office and Post and telegraph office.

$ Transport communication includes bus service, rail facility and navigable waterways.

This table deals with the Mandal Parishad-wise distribution of villages according to the availability of different amenities like Education, Medical, improved Drinking water, post office, Telephone, Transport, Communications, Agricultural Credit Socieites, Approach by pucca road and Power Supply within the village. Out of 992 inhabited villages in the district 946 villages (95.4%) have been provided with the education facilities of one type or the other. 522 villages or 52.6% have the medical facilities of one type or the other. Improved drinking water facility is available in 960 villages constituting 96.8%. As regards post office facility which includes facilities like telegraph office and post and telegraph 693 (69.9%) villages have been provided within the village. 562 (56.7%) villages have been provided with telephone facility, 879 (88.6%) villages with transport facility 160 (16.1%) villages with bank facility and 218 (22.0%) villages with agricultural credit socieities. Similarly, 909 or 91.6% villages have been linked with the pucca road. 991 villages or 99.9% have been provided with the electricity supply. Almost similar pattern of distribution of villages by availability of amenities in the villages at Mandal Parishads.

This table gives the data on number and percentage of rural population served by different amenities during 2001 census. Out of 2,592,055 rural population of the district, 2,581,000 or 99.6% villagers are served with the Educational Facilities of one type or other. Similarly, 2,021,507 or 78.0% villagers served with Medical Facilities while 2,496,214 or 96.3% of villagers have been provided with the Improved Drinking Water Facilities. Post Office Facilities are available for 2,359,223 persons or 91.0%. Telephone Facility is also being utilised by 1,997,834 persons or 77.1% in the villages. 97.2% or 2,518,295 persons have been provided with the Transport and Communication Facilities, 1,028,686 or 39.7% people are utilising the Bank Services, 1,089,411 persons or 42.0% are availing the amenity of Co-op. Credit Socieites. 2,546,072 persons or 98.2% have been provided with the facility of Approach by Pucca Road. Power Supply is available for all the villages in the district. Similar pattern of availability of facilities is visible to the rural population at Mandal Parishad level.

TABLE - 39
DISTRIBUTION OF VILLAGES NOT HAVING CERTAIN AMENITIES ARRANGED BY DISTANCE RANGES FROM THE PLACES WHERE THESE ARE AVAILABLE, 2001

This table depicts the distribution of villages not having certain amenities, arranged by distance ranges from the places where these are available is given at district level. There are 54 villages which do not have the facility of primary school in their villages and out of these villages, children of 29 villages have to travel less than 5 kms, 6 villages have to go to 5-10 kms and 19 villages have to travel 10+ kms. Out of 992 inhabited villages as many as 577 are deprived of middle school and 961 of degree college facilities. Of these 246 villages avail the facility of middle school at a distance of less than 5 kms. 174 villages at a distance of 5-10 kms and the remaining 157 villages at a distance of 10+ kms. In respect of degree

college 73 villages avail this facility at a distance of less than 5 kms., 171 villages 5-10 kms. distance and the rest 717 villages at a distance of 10+ kms.

Similarly, there are 976 villages in the district which have been deprived of Hospital facility and 918 villages which are deprived of PHC facilities. Of them, people in 70 villages have to run for treatment within 5 kms, 147 village people have to travel 5-10 and the remaining 759 villages have to travel at a distance of 10+ kms. As regards PHC, people 143 villages have to travel at a distance of less than 5 kms, 267 villages at a distance of 5-10 kms and the remaining 508 have to travel at a distance of 10+ kms.

Regarding Post Office, 299 villages do not have this facility in the villages itself. Of these majority number i.e., 201 Villages have this facility at a distance of less than 5 kms., 41 villages at a distance of 5-10Kms., and the people of remaining 57 Villages have to travel 10+Kms., to avail this amenity.

In respect of Telephones, 431 villages in the district do not have the Telephone facility. If they have to utilise this facility people of 120 villages avail within 5 kms, 76 villages have to travel 5-10Kms., and 235 villages have to travel for 10+Kms.

As regards the Bus Service, 114 villages do not have this facility. Out of which 79 village inhabitants have to travel below 5 kms, 15 village inhabitants for 5-10Kms. and 20 village inhabitants have to travel 10+ kms to utilise the bus service.

In respect of Banks, the Commercial Bank Services are not available in 840 villages. Out of these 840 villages, people in 239 villages have to travel to reach this facility at a distance of less than 5 kms, 332 villages for 5-10 kms, 269 for 10+ kms.

The Co-operative Bank facility is not available in 966 villages of the district. Of them inhabitants of 98 villages have to travel below 5 kms, 190 villages for 5-10 kms and 678 villages have to go to 10+ kms. to meet the necessity of the Co-op. Bank.

The facility of Agricultural Credit Society is not available in 773 villages. Out of this people of 183 villages have to travel for less than 5 kms, 238 villages for 5-10 kms and 352 villages for 10+ kms to avail this facility.

 # Post office includes Post office, Telegraph office and Post and telegraph office.

$ Transport communication includes bus service, rail facility and navigable waterways.

This table deals with the distribution of villages according to distance from the nearest statutory town and availability of different amenities within the village. Out of 992 inhabited villages in the district, there are 16 villages which have nearest towns upto a distance of 5 kms. Of these only 15 villages or 93.8% having the Educational facility of one type or other and 10 villages or 62.5% having the Medical facilities, 12 villages or 75.0% each having the facility of Post Office (Post Office includes Post Office, Telegraph Office and Post and Telegraph Office), Telephone and Transport Communications. 2 villages or 12.5% having the facility of Banks while one village or 6.3% have the Agricultural Credit Socieities and the amenity of Approach by Pucca Road is having by 12 villages or 75.0% within the range of less than 5 kms.

In the range of 5-15 kms., people in 118 inhabited villages have to travel to the nearest statutory town to avail the basic amenities. People in 115 villages (or 97.5%) to go for Educational facilities, 78 villages (or 66.1%) for Medical facilities, 90 villages (or 76.3%) for Post Office facility, 81 villages (or 68.6%) for Telephone facilities, 107 villages (or 90.7%) have to go for Transport and Communications, 23 villages (or 19.5%) for Bank facilities, 34 villages (or 28.8%) for Agricultural Credit Socieities and people in 109 villages (or 92.4%) have to walk to reach Pucca Road.

Similarly, 509 inhabited villages are at a distance of 16-50 kms range from the nearest statutory town where basic amenities are available. Educational facilities for 498 (or 97.8%) villages, Medical facilities for 274 (or 53.8%) villages, Post Office facilities for 391 (or 76.8%) villages, 317 (or 62.3%) villages for Telephone facilities, 468 villages (or 91.9%) for Transport and Communication, 100 villages (19.6%) for Banks, 148 villages (or 29.1%) have Agricultural Credit Socieities and 482 (or 94.7%) villages have Pucca Road at a distance range of 16-50 Kms.

For 348 inhabited villages the basic amenities are in the distance range of 51+Kms. In this range 91.4% villages have educational, 46.0% Medical, 57.5% Post Office, 43.7% Telephone, 83.9% Transport and Communications 10.1% each banking and Agricultural Credit Socieities and 87.9% villages have Pucca Road.

In the unspecified distance range there is only one village which is not having any amenities.

TABLE - 41
DISTRIBUTION OF VILLAGES ACCORDING TO POPULATION RANGE AND AMENITIES AVAILABLE, 2001

 # Post office includes Post office, Telegraph office and Post and telegraph office.

$ Transport communication includes bus service, rail facility and navigable waterways.

** Based on the improved drinking water source, drinking water supply has been classified as `Improved ' or otherwise. If the household has access to drinking water supplied from a tap or a hand pump / tube well situated within or outside the premises it is considered as having access to `Improved drinking water source'.However, the concept of improved drinking water is state specific and this is to be considered accordingly.*

This table presents the data on distribution of villages according to population range and amenities available as per 2001 Census. Out of 992 inhabited villages, 946 villages or 95.4% are having the Educational facilities, while 522 villages or 52.6% are having Medical facilities, 960 or 96.8% village with Improved Drinking Water facility. The facility of Post Office is available in 693 or 69.9% villages whereas the Telephone facility is available in 562 or 56.7% villages. The Transport and Communications amenity have been provided in 879 or 88.6% villages and 160 or 16.1% villages have the Banking Services. The Agricultural Credit Socieities are also available in 218 or 22.0% villages. 909 or 91.6% villages are having Pucca Approachable Road in the district and 99.9% or 991 villages, that means almost all the villages possess the Electricity for all purposes.

Source : *Census of India 2001, H-series; "Tables on houses, household amenities and assets"*

The data presented in this Table depicts number of households by tenure status and number of rooms occupied in the district. As per 2001 Census the total number of households in the district is 714,829 consisting of 609,896 rural and 104,937 urban households. Of them 154,764 households belong to Scheduled Castes and 32,753 households belong to Scheduled Tribes. Of these households, the largest number of households 399,794 have occupied single room accommodation and is followed by double roomed accomodation numbering 145,683 households. Third place occupied by three roomed accommodation. 3+ roomed occupation is the last place with 17,837 households. 20,426 households are living without any exclusive rooms.

84,673 households are living in rented accommodation in the district. In the rental tenure the largest number i.e., 40,616 households have occupied single roomed accommodation. 24,078 households stands in the second, 13,496 households in third place. 4th place occupied by 3+ roomed accommodation in the district i.e., 4,643 households. 1,839 households are living without any exclusive rooms.

The tenure status of "others" numbering 7,462 households have distributed with 4,726 households with single roomed accommodation, 994 double roomed, 473 three roomed and 135 households with 3+ roomed accommodation. In rural areas majority of the households have their own houses with spacious rooms but in urban areas it is entirely different.

TABLE - 50 (Concld.)
PERCENTAGE OF HOUSEHOLDS HAVING IMPROVED DRINKING WATER SOURCE, ELECTRICITY, BATHROOM, TOILET AND DRAINAGE FACILITY - 2001

Sl. No.	District / Mandal name	Total/ Rural/ Urban	Number of households	Number and percentage of households having				
				Improved drinking water	Electricity	Bathroom	Toilet	Drainage
1	2	3	4	5	6	7	8	9
56	Ulavapadu	Total	12,379	6,272	7,736	2,608	1,757	2,328
				(50.7)	(62.5)	(21.1)	(14.2)	(18.8)
		Rural	12,379	6,272	7,736	2,608	1,757	2,328
				(50.7)	(62.5)	(21.1)	(14.2)	(18.8)
		Urban	-	-	-	-	-	-

This table indicates that 58.6% households in the district have been provided with improved drinking water through tap system or a hand pump/tube-well. 61.4% households have the provision of Electricity to their houses. Only 34.7% households have the bathroom facility within their premises. In rural areas 58.9% households have supplied with improved drinking water. 57.4% households have the electricity but this facility in urban areas have extended to 84.1% households. Like-wise 29.4% households in rural areas and 65.7% in urban areas have the bathroom facility. The Toilet and Drainage facility in the district are available to 22.6% and 42.4% households respectively. This percentage is higher in urban area when compared to the rural areas. The same pattern is noticed at Mandals level in the district pattern analysed.

Source : *Census of India 2001, H-series; "Tables on houses, household amenities and assets"*

The percentage distribution of households by type of fuel used for cooking purposes is given in this table. The data for nine types of fuel used by the households in the district have been presented in this table. It is observed that the wood is most predominent fuel used for cooking. In rural areas use of wood for cooking is high while in urban areas it is less due to the availability of L.P.G 78.4% households are using the Firewood as fuel for cooking in the district while it is used in the rural areas by 83.5% households. In urban areas 48.8% households are using the firewood though the availability of L.P.G. is good. The next cooking fuel is gas which is used by 14.8% households in the district. This proportion in rural and urban areas is 10.5% and 39.8% respectively. Use of L.P.G. for cooking in the rural areas is less as compared to urban at Mandal level. Using of crop residue for cooking in the district level is 3.5% households. In rural it is recorded as 3.6% households and in urban areas of the district it is 2.5%. Urban households using 0kerosene for cooking comes to 2.0% at district level. Kerosene is used by households in rural and 6.7% in urban areas. The percentage of households using other type of fuel such as Cow dung cake, Coal, Lignite, Charcoal, Electricity, Biogas etc., is insignificant.

Source : *Census of India 2001, H-series; "Tables on houses, household amenities and assets"*

This table gives the data for total, rural and urban areas at district/mandal level about number of households availing banking services and in possession of assets such radio/transistor, telephone, bicycle, scooter, car etc. There are 714,826 households in the district and among them 262,941 households are availing Banking Services, 126,085 households have radio/transistor, 185,156 households are possessing television, 36,412 households have Telephone favility. Bicycle is used as a major means of transport and is available in 196,269 households. 38,907 households are using scooter, motor cycle, moped, car, jeep and van. The picture in usage of banking services and possession of assests by households at mandal level is almost similar as analysed above for the district as a whole.

(xiii) Scope of Village Directory and Town Directory - Column heading wise explanation and coverage of data

The village directory and the town directory presented in the District Census Handbooks are proved more useful. The formats of village directory and of seven statements on town directory are on the same pattern canvassed in 1991 census except for a few additional columns. These additional columns are introduced to throw more insight into the infrastructure of the villages and towns. All the amenities except recreational and cultural facilities, power supply and news papers/magazines are brought under one bracket, with corollary that in case any amenity is not available in the village, the distance of the nearest place where the facility is available is presented. Similar method is followed in respect of towns where educational and medical facilities are not available. The non-census data presented in the village and town directories relate to the year 1999. However, wherever the field agencies have indicated the later position, the information has been updated. Almost all the details in the statement have been indicated by codes. In respect of total population and total number of households, the figures as returned during the recent census i.e. 2001 census have been presented. The scope of village directory and town directory statements with column heading-wise explanation and coverage of data are hereunder presented.

Scope of Village Directory :

In the similar manner as was done in the past, the village directory has been prepared for all the villages in the state and these are presented mandal Parishad - wise in the District Census Handbook. This statement contains village-wise area, population, amenities such as educational, medical, communications, drinking water facilities, etc., and also the land use pattern details. The villages are shown in order of their permanent location code numbers. An alphabetical list of villages with their permanent location code numbers and a mandal map has been presented in the beginning of Village Directory of each mandal. This facilitates the reader in locating the mandal in which a particular village lies. The village directory now contains 23 columns as against 18 columns in the 1991 handbook. To give more information under amenities column, banking facilities such as commercial and co-operative banks, agricultural, non-agricultural and other credit societies have been included in the present statement. Similarly, a new column 'number of recreational and cultural facilities' showing cinema/video halls, sports club and stadium/auditorium has been added. In addition to the above a column showing newspapers/magazines received and name of the most important commodity manufactured in the village have been incorporated. Besides the above, the Village Directory is having 12 appendices viz.

Appendix I	:	Abstract of Educational, Medical and other amenities in the villages – Mandal level.
Appendix 1A	:	Villages by number of primary schools
Appendix 1B	:	Villages by primary, middle and secondary schools
Appendix 1C	:	Villages with different sources of drinking water facilities available
Appendix II	:	Villages with 5,000 and above population which do not have one or more amenities
Appendix IIA	:	Census Towns which do not have one or more amenities.

Appendix III	:	Land utilization data in respect of census towns / non-municipal towns.
Appendix IV	:	Mandal parishad wise list of inhabited villages where no amenity other than drinking water facility is available.
Appendix V	:	Summary showing number of villages not having Scheduled Castes population.
Appendix VI	:	Summary showing number of villages not having Scheduled Tribes population
Appendix VIIA	:	List of villages according to the proportion of the Scheduled Castes to the total population by ranges.
Appendix VIIB	:	List of villages according to the proportion of the Scheduled Tribes to the total population by ranges.
Appendix VIII	:	Statement showing number of Girls Schools in the villages.
Appendix IX	:	List of Degree Colleges by Village / Town in the District.
Appendix X	:	List of Hospitals by Village / Town in the District.
Appendix XI	:	List of Banks by Village / Town in the District.
Appendix XII	:	List of Cinema Halls by Village / Town in the District.

It may be noted that the Appendix 1A, 1B, 1C, II, II-A, VIII, IX, X, XI and XII have been included afresh in comparison to the District Census Hand Books of 1991 Census.

Columns 1 to 3 relate to the serial number, location code number, name and total area of the village. The area given under column 3 is as per the data collected from the state survey department during 1991 census and presented even for 2001 census as the department clarified that there are no changes in the area figures. Column numbers 4 and 5 provide the total population and the total number of households in the village as per 2001 census. Columns 6 to 13 list out the basic amenities available in the village such as educational; medical; drinking water; post, telegraph and telephone; commercial and co-operative banks; agricultural, non-agricultural and other credit societies; recreation and cultural facilities and communications.

The columns 14 to 18 give the details of approach to the village, nearest town & distance, power supply, news paper/magazine circulation and most important commodity manufactured in the village.

The remaining columns 19 to 23 pertain to the land use pattern in the village. The extent of forest area has been given in column 19 while in columns 20 and 23 the extent of irrigated area together with different irrigational sources, the extent of culturable waste including gaucher and groves and the area not available for cultivation such as buildings, roads and railways or under water(rivers and canals), etc., have been given. Here it is worth mentionable that the total area figures of Col. 19 to 23 may not tally with the total area of the village as shown in Col. 3 due to various reasons such as water ways, etc., which are not generally included in the land use statistics.

The land use pattern in the Village Directory conforms to the pattern of classification of land use as recommended by the Ministry of Agriculture, Government of India. The Ministry of Agriculture has recommended the maintenance of records of land use pattern under five categories viz. forests, not available for cultivation, other uncultivated lands excluding fallow lands, fallow lands and net area sown.

The concepts of various types of land use given under each of the columns 19 to 23 as given in the Village Directory schedule are reproduced below:

1. Forests (Col.19) :

These include all actually forested areas and the lands classified or administered as forests under any

legal enactment dealing with forests whether State owned or private. If any portion of such land is not actually wooded but put to some agricultural use, that portion is included under the appropriate heading of cultivated or uncultivated land.

2. Cultivated area with break-up irrigated and un-irrigated (Col. 20 & 21):

This includes the land under the following three categories.

I) Net area sown :

The net area sown represents the area sown to crops counting areas sown more than once in the same year, only once.

II) Other fallow lands :

This includes all lands which were taken up for cultivation but are temporarily out of cultivation for a period of not less than one year and not more than five years. The reasons for keeping such lands fallow may be either due to poverty of the cultivators or inadequate supply of water or malarial climate or silting of canals or rivers or un-remunerative nature of farming, etc.

III) Current fallows :

This class comprises cropped areas which are kept fallow during the current year. If any seedling area is not cropped again in the same year, it is also treated as current fallows.

3. Culturable Waste (Col. 22):

This item includes the land under the following three categories.

i) Permanent pastures and other grazing lands:

These cover all grazing lands whether they are permanent pastures and meadows or not. Village common and grazing lands within forest areas are included under this head.

ii) Lands under miscellaneous tree crops and groves not included in the area sown:

Under this class is included all cultivable land which is not included under net area sown but is put to some agricultural use. Lands under casurina trees, thatching grass, bamboo bushes and other groves for fuel, etc., which are not included under 'Orchards' are classed under this category.

iii) Culturable waste:

This includes lands available for cultivation but not taken up for cultivation or abandoned after a few years for one reason or other. Such lands may be either fallow or covered with shrubs and jungles, which are not put to any use. They may be assessed or not assessed and may lie in isolated blocks or within cultivated holdings. Land once cultivated but not cultivated for five years in succession is also included in this category.

4. Area not available for cultivation (Col.23) :

This includes the land under the following two categories.

i) Land put to non-agricultural uses :

All lands occupied by buildings, roads and railways or under waters such as rivers and canals and other lands put to uses other than agricultural.

ii) Barren and uncultivable land :

This covers all barren and uncultivable land like mountains, etc., i.e. which cannot be brought under cultivation unless at a high cost. Whether such land is in isolated blocks or within cultivated holdings.

All the above particulars are based on the data received from the concerned departments like education, medical, postal, electricity, etc., and also mainly from the Mandal Revenue Officers concerned.

Item on communications has been shown separately to spell in terms of availability of the public transport system. This is meant to see whether the village is served by any mode of transport such as bus or rail or waterway. It is against this back-ground that the item on approach to village has been given separately. This refers to road, etc., leading to the village and is to indicate whether the village is approachable both in fair and foul weather and whether it is inaccessible for all time or only some time in the year. Adult literacy class/centre under item on 'Education' and Primary health centre and Community health worker under item 'Medical' of Village Directory are included to indicate statistics on the Minimum Needs Programme of the Planning Commission.

Scope of Town Directory :

There are seven statements in the Town Directory, which include several particulars relating to the towns arranged as per the alphabetical order of their names. These statements are almost similar to those adopted in 1991 census except for a few changes. During the 1991 there were six Town Directory statements besides providing a separate statement IV-A bringing out civic conditions of the notified slums in class I and II towns. In the present volume the statement IV-A of the 1991 handbook has been termed as statement-VII and the data is presented in respect of all towns having statutory bodies including un-notified slums. The column 4 of statement IV-A of the 1991 book i.e. area of the slum has been deleted in the present book duly substituting the same by giving the information – whether the slum is notified or not with a view that the local authorities are not in a position to provide exact area figures for each slum area. Further in the present statement-VII another item i.e. approximate number of households living in the slum is incorporated. The captions of the statements are as follows:

Statement I	:	Status and growth history
Statement II	:	Physical Aspects and location of town, 1999
Statement III	:	Municipal Finance, 1998-99
Statement IV	:	Civic and other Amenities, 1999
Statement V	:	Medical, Educational, Recreational and Cultural Facilities, 1999
Statement VI	:	Trade, Commerce, Industry and Banking, 1999
Statement VII	:	Civic and other Amenities in slums, 1999

In addition to the above seven statements one appendix for the towns showing their outgrowths population has also been presented.

The formats of Town Directory have been devised to suit the Minimum Needs Programme of the Planning Commission. To reflect this programme, the columns scheduled castes and scheduled tribes population in statement IV and Adult Literacy classes/ Centres in statement V are identical.

In case such of the amenity as Fire Fighting Service in statement IV, the Educational or Medical facility in statement V is not available in the town, the name of the nearest place and its distance from the referent town has been given. This feature is followed since 1981 census as it is necessary to identify the areas that have no specific facility in the district.

The following eight places are treated as urban areas in Prakasam District.

1. Bestawaripeta
2. Chirala
3. Kandukur
4. Markapur
5. Ongole
6. Pamur
7. Singarayakonda
8. Vetapalem

Markapur town is treated as Municipality since 1941 whereas Chirala, Kandukur and Ongole towns are constituting as Municipalities since 1901 and also Chirala and Ongole Municipalities are treated as Urban Agglomerations from 1991 Census. The places of Addanki, Cumbum, Giddalur and Kanigiri which were treated as panchayat towns during 1991 Census have been declassified at 2001 Census due to strict application of criteria for treating a place as town. The place of Vetapalem was were treated as Municipality (Nagar Panchayat) during 1991 Census has been declassified at 2001 Census due to strict application of the criteria for treating a place as town. The places of Pamur and Bestawaripeta have been upgraded as Census towns.

Chirala and Ongole are class I towns i.e., towns with a population of one lakh and above. Markapur and Kandukur are class II towns i.e. with a population of 50,000 to 99,999. Vetapalem which is a Census town with 20000 - 49999 falling under Class III. Singrayakonda and Pamur are class IV towns i.e., with a population of 10,000 - 19,999. Bestawaripeta is class V town i.e., with a population of 5,000 to 9,999.

Statement I : Status and Growth History :

This statement provides basic information on civic status, population with decadal growth rate from 1901 to 2001, density for 2001 census and sex ratio from 1981 to 2001 censuses of each town besides presenting class of town, location code, name of the mandal, area in sq.kms. and number of households including houseless households returned in 2001 census.

The columns 1 and 2 relate to serial number and class, name and civic administrative status of the town. The class of town has been determined basing on the size of population as given below.

Population	Class
1,00,000 and above	I
50,000 – 99,999	II
20,000 – 49,999	III
10,000 – 19,999	IV
5,000 – 9,999	V
Below 5,000	VI

The civic status of the town is indicated in brackets by abbreviated letters like 'M.Corp.' for Municipal Corporation and 'NP' for Nagar Panchayat. The location code number under column 3 for the town has been framed in the order of geographical contiguity, beginning from North West point of the district and ending at South East point. After location code the Col. 4-7 indicate name of mandal, name of mandal parishad, area of the town in sq. kms. and number of households including houseless households recorded in 2001 census. The population of the town with decadal growth rate from 1901 census to 2001 census is given in Col. 8-18. The column 19 shows the density of population and column 20 to 22 give the sex ratio recorded during 1981 to 2001 censuses. The sex ratio defined here is number of females per 1,000 males.

Statement II: Physical aspects and location of Town, 1999 :

This statement contains 13 columns and depicts physical aspects and location of town in the district. Column numbers 1 and 2 relate to serial number and class name and civic status of the town. The physical aspects such as rainfall in millimeters maximum and minimum temperature in centigrade have been shown in columns 3 to 5 by taking average for the last ten years i.e., from 1990 to 1999. Bestawaripeta, Chirala, Markapur, Ongole, Pamur, Singarayakonda, Vetapalem and Kandukur have been recorded average rainfall of 636 mm, 1112 mm, 687 mm, 986 mm, 650 mm 888 mm, 889 mm and 867 mm respectively. In respect of Markapur and Ongole maximum and minimum average temperature have been recorded 31°c and 19°c and 34°c and 25°c respectively. The columns 6 to 12 give the details of name and distance in kms. from the referent town to state, district and mandal headquarters, nearest city with population of one lakh and more, railway station and bus route. Markapur town is 94 kms. Chirala town is 48 kms. Vetapalem town is 42 kms., Bestawaripeta town is 110 kms., Pamur town is 115 kms., Kandukur town is 43 kms., and Singarayakonda town is 30 kms., away from district headquarters Ongole and 312 kms. from Ongole to state headquarters. The above towns are also mandal headquarters. The last column i.e., column number 13 is ment for showing name of the navigable river / Canal within the distance of 10 kms., from the referent town. There is no navigable river / Canal in the district for providing navigational facilities.

Statement III: Municipal Finance, 1998-99 :

The details for inclusion in this statement were obtained from the respective towns. In the statement there are 16 columns. Column 1 to 2 relate to serial number, name and class of town with civic administration status. Columns 3 to 9 show the receipts of the local body under various sub-heads and columns 10 to 16 give the details of expenditure incurred on general administration, public safety, public health and convenience, public works and institutions etc. During the year 1998-99 the total income of Markapur Municipality was 1.12 crores and the total expenditure was Rs. 1.28 crores. In respect of incurred expenditure incurred 6 lakhs towards administration and 15 thousands on public works the public safety has taken back seat with 2.8 lakhs of the total expenditure. The Kandukur Municipality total receipts during the year 1998-99 is 1.36 crores and the total expenditure was at 1.34 crores. The bulk of the income constituted through Government grants at 3.6 lakhs and the income derived through tax collection has been recorded 4.4 lakhs. In respect of expenditure 28.7 lakhs towards administration and 70 lakhs on public works incurred. The Singarayakonda town total receipts during the year 1998-99 was 18.61 lakhs and the total expenditure was at 17.28 lakhs. The bulk of the income constituted through Government grants was 3 lakhs and the income derived through tax collection has been recorded 11.28 lakhs. In respect of expenditure, it was incurred 1.9 lakhs towards administration and 2.24 lakhs on public works.

Statement IV : Civic and other Amenities, 1999:

The title itself reveals that, this statement deals with the facilities provided to the people in the urban areas of the district.

This statement contained 20 columns, column 1 and 2 relate to serial number, class and name of town and civic administration status of the town respectively. Column 3 gives population of the town where as the column number 4 and 5 gives population of SC. and ST. as per 2001 Census. The lengths of pucca and kutcha roads are recorded separately for each town in column 6. The column 7 shows the details of sewerage systems prevailing in the referent towns. The number of latrines with different types is shown in columns 8 to 11. Column 12 is provided separately to show method of disposal of night soil. The source of protected water supply and the system of storage with capacity are recorded under column 13 and 14. Column 15 shows the availability of fire fighting services. In case if this service is not available in the town the name of the nearest town along with distance where available to be mentioned under this column. Fortunately all municipal towns are having fire fighting services. The columns 16 to 20 relate to different types of electrical connections in number.

Markapur town is having 72 kms. Pucca and 12 kms. Kutcha roads, open surface drainage system, 7,915 water and 8 other types of latrines. Night soil is disposed of by the method of sewerage lines. Tube well is the source of supply of protected water by storing the water in overhead service reservoir having capacity of 1,125 kilo litres. Markapur is having electrical connections of 10,578 domestic, 248 Industrial, 1495 commercial and 65 road lighting points.

Chirala town is having 16 kms. pucca and 36 kms. kutcha roads, open surface drainage system 8,188 water borne type latrines. Night soil is disposed

of by the method of sewerage lines. Tube well is the source of supply of protected water by storing the water in overhead service reservoir having capacity of 545 kilo litres. Chirala is having electrical connections of 14,371 domestic, 104 industrial, 2,188 commercial and 43 road lighting points.

Vetapalem towns is having 15 kms. pucca road, open surface drainage system, 900 water borne and 5 other types of latrines. Night soil is disposed of by the method of septic tank latrines. Well is source of water supply. Vetapalem is having electrical connections of 527 domestic, 51 industrial, 323 commercial and 27 road light points.

Bestawaripeta town is having 20 kms. pucca road and 13 kms. kutcha road, open surface drainage system, 1,226 water borne and 75 other types latrines. Night soil is disposed of by the method of septic tank latrines. Tube well and hand pump is the source of supply of protected water by storing the water in over head service reservoir having capacity of 75 kilo litres. Bestawaripeta is having electrical connections of 1731 domestic, 19 industrial, 305 commercial and 10 road lighting points.

Ongole Municipality is having 140 kms. pucca roads, open surface drainage system, 28,237 water borne and 8 other types of latrines. Night soil is disposed of by the method of septic tank latrines. Tube well is the source of supply of protected water by storing the water in overhead service reservoir. Ongole town is having electrical connections of 34,354 domestic, 359 Industrial, 5,915 Commercial and 120 road lighting points.

Kandukur town is having 40 kms. pucca road and 81 kms. kutcha road, open surface drainage system, 5,214 water borne and 112 other types of latrines night soils disposed of by the method of septic tank latrines. Tube well is the source of supply of protected water by storing the water in over head service reservoir. Kandukur town is having electrical connections of 8,460 domestic, 66 industrial, 1,278 commerical and 68 road lighting points.

Pamur town is having 7 kms. pucca road and 20 kms. kutcha road, open surface drainage system, 1,400 water borne latrines. Night soil is disposed of by the method of wheel barrows. Tube well and well is the source of supply of protected water by storing the water is over head service reservoir having capacity of 150 kilo litres. Pamur town is having electrical connections of 1,983 domestic, 28 Industrial. 530 Commercial and 13 road lighting points.

Singarayakonda town is having 8 kms. pucca road and 7 kms. kutcha road, open surface drainage system is available. Night soil disposed of by the method of septic tank latrines and other system. Tube well is the source of protected water supply by storing the water in over head tank reservoir having capacity of 280 kilo liters. Singarayakonda town is having electrical connections of 3,719 domestic. 79 Industrial, 675 Commercial and 10 road lighting points.

Statement V : Medical, Educational, Recreational and Cultural facilities, 1999:

In this statement the availability of Medical, Educational, Recreational and Cultural facilities are presented with reference to the population 2001 Census. This statement is containing 20 columns. Column 1,2 and 3 relate to serial number, class and name of the town and the population recorded during 2001 Census respectively. The columns 4 and 5 show about the availability of different hospitals, dispensaries. T.B. clinics etc., together with strength. Columns 6 to 15 relate to educational facilities such as various schools / colleges at all levels including Medical. Engineering, Polytechnic, Technical Institutional and adult literacy centres. The column 16 is meant for working woman's hostels with number of seats. The number of recreational and cultural facilities such as Stadium, Cinema, Auditorium, Community halls, Public libraries including reading rooms available in the towns is recorded in columns 17 to 20.

In Markapur town there are 5 dispensaries 5 nursing homes and One Family Welfare Centre with a provision of 100 beds. There are one degree college, and one Law College, one Engineering college and one Polytechnic institute in this town. Further this town is having 8 short hand and type writing institutions to meet the needs of the students. In the town there are 4 Higher Secondary 8 Secondary 12 Junior Secondary, 20 Primary Schools and 3 Adult literacy Centers are existing. For professional courses the students of the town have to go to the nearest town Guntur at a distance of 140 kms. For

recreational and cultural purposes the town is having 5 Cinema halls. 3 Auditorium / Drama / Community halls and 2 Public Libraries.

In Chirala town there are One Hospital, One Dispensary, 18 Nursing Homes etc., with a provision of 100 beds. There are 3 Degree Collges in this town. Further the town is having 4 shorthand / Typewriting institutes to meet the needs of the students. In the town there are 6 Higher Secondary, 9 Secondary, 14 Junior Secondary, 73 Primary schools and One Adult Literacy Cenre are existing. For professional courses the students of the town have to go to the nearest towns of Guntur, Bapatla and Ongole at a distance of 66 kms., 15 kms., and 48 kms. respectively. For recreational and Cultural purposes the town is having 9 Cinema halls, 1 Auditorium / Drama / Community hall and 4 Public Libraries.

In Vetapalem town there are One Family Welfare Centre and One other type of Medical Institute is available. There is one Degree College in the town. Further the town is having 2 shorthand / Type writing institutes to meet the needs of the students. In the town there are one Higher Secondary, 3 Secondary, 9 Junior Secondary, 35 Primary Schools and 4 Adult Literacy centres are existing. For professional courses the students of the town have to go to the nearest towns of Guntur, Bapatla and Ongole at a distance of 72 kms. 21 kms. and 56 kms. For recreational and cultural purposes the town is having 3 Cinema halls and 4 Auditorium / Drama / Community halls and one public library.

In Bestawaripeta town there are one Health Centre, 2 Nursing Homes and 4 other institutes are existing. There are one Degree College and 2 Typewriting institutes in this town. There are 1 Higher secondary, 6 Secondary, 7 Junior Secondary, 8 Primary Schools and 3 Adult Literacy Centres are existing. For Professional Courses the students of the town have to go to nearest towns i.e., Guntur and Markapur at a distance of 205 kms. and 30 kms. For recreational and cultural facilities of the town is having 2 Cinema Halls one public Library.

In Ongole Municipality there are One Hospital, One T.B. Clinic and 18 Nursing Homes with provision of 600 beds. There are 13 Degree Colleges, One Law College, One Engineering College and 2 Polytechnic Institutions in Ongole town. Further the town is having 14 Type/Short hand institutes to meet the needs of the students. In the town there are 18 Higher secondary, 14 Secondary, 28 Junior Secondary, 73 Primary Schools and 8 Adult Literacy Centres are existing. For professional Courses the students of the town have to go to the nearest town of Guntur at a distance of 130 kms. For recreational and cultural facilities of the town is having 1 Stadium 15 Cinema Halls, 5 Auditorium / Drama / Community Halls and 2 Public Libraries. Further the town is having 4 working women's hostels are existing.

In Pamur town there is One Dispensary and One other type of Medical facility with a provision of 5 beds are existing. There is one Degree College also existing. In this town there are 2 Higher Secondary, 4 Secondary, 5 Junior Secondary, 11 Primary Schools and 3 Adult Literacy centers are existing. For professional courses the students of the town have to go to the nearest towns i.e., Guntur and Ongole at a distance of 200 kms. and 115 kms respectively. For recreational and cultural facilities the town is having 3 Cinema halls one Auditorium / Drama / Community hall and 1 Public Library.

In Kandukur town there are One Hospital 6 Nursing Homes and One Family Welfare Centre with a provision of 100 beds. There are 2 Degree Colleges and one engineering collge in this town. Further the town is having 5 type writing institutes and one short hand institute to meat the needs of the students. In the town there are 4 Higher Secondary, 2 Secondary, 7 Junior Secondary, 40 Primary Schools and 39 Adult Literacy Centres are existing. For professional courses the students of the town have to go to the nearest towns i.e., Ongole and Guntur at a distance of 43 kms. and 173 kms. For recreational and cultural purposes the town is having 5 Cinema halls and One Public Library including reading room.

In Singarayakonda town there is One other type of Medical Institute with a provision of 3 beds is in existence. There are one degree college, one type / Short hand institute to meet the needs of the students. In the town there are 1 Higher secondary, 3 Secondary, 6 Junior Secondary, 19 Primary Schools and 39 Adult literacy centres are existing. For professional courses the students of the town have to go to nearest town i.e., Kandukur, Guntur and

Ongole at a distance of 28 kms., 154 kms., and 28 kms. For recreational and cultural facilities the town is having 2 Cinema Halls and one Public Library.

Statement VI : Trade, Commerce, Industry and Banking, 1999

This statement deals with economic activities in the urban areas with 11 columns. Column 1 and 2 are serial number and class and name of the town. The columns 3 to 5 give the details of three most important commodities exported and the columns 6 to 8 show the three most important commodities manufactured. In columns 9 to 11 the commercial banks, number of agricultural credit societies and the number of non-agricultural credit societies are furnished.

The urban population of the district exports design slates, slates pencils, edible oil, cotton yarn, tobacco, Cashew, Dhoop sticks, Beedies, Jaggery, Fish, Rice, Groundnut oil, Plastic fitting, Mirchi and Salt. The items which are manufactured slates, Edible oil, Cotton yarn, Tobacco, Dhoop Sticks, Agarbatties, Cashew, Sarees, Cloths, Groundnut Oil, Furniture, Beedies, Soaps and others etc. The urban population in the district is served by a net work of 63 Commercial Banks 6 Agricultural Credit Societies, 136 Non-Agricultural credit societies.

Statement VII : Civic and other amenities in Slums, 1999

This statement deals with Civic and other Amenities that are available in the slums whether notified or not and for all towns having statutory bodies Col. 1 and 2 are serial number and class and name of town, Cols. 3 and 4 gives name of the slum and whether it is notified or not. Col. 5 and 6 approximate number of Households and population pertaining to 1999. Col. 7 shows the length of paved roads in slums. Type of sewerage, number of different type latrines and methods of disposal are shown in Cols.8 to 13 and Col. 14 gives number of tap points. Number of electrical connections by different category are provided in Cols. 15 to 17.

In Markapur Municipality there are approximately 8,487 Households and 26,186 Population. They have 7,800 water bornes and 11 Community latrines with night soil disposed of by septic tank system. They were provided with 1,290 tap points for supply of protected water. There are electrical connection of 8,129 domestic, 1,805 road lighting points and 147 others.

In Chirala Municipality, there are 35 slum pockets with approximately 4,609 households and 34,008 population. They have 1,206 water borne and 6 community latrines with night soil disposed of by the septic tank system. They were provided with 100 tap points for supply of protected water. There are electric connections of 3,000 for domestic, 1,100 for road lighting points and 5 for others.

In Kandukur Municipality there are 31 slums with approximately 4,403 Households and 20,203 Population. They have 1,946 water borne and 4 Community latrines with night soil disposed of by septic tank system. They were provided with 162 tap points for supply of protected water. There are electric connections of 3,177 domestic and 492 road lighting points.

In Ongole Municipality there are 73 slum pockets with approximately 11,063 Households and 55,899 Population. They have 9,522 water borne and 8 Community latrines with night soil disposed by septic tank system. They were provided with 80 tap points for supply of protected water. There are electrical connections of 10,647domestic and 1,671 road lighting points.

Section I - Village Directory

(a) Note explaining the abbreviations used in Village Directory :

The "Village Directory" is one of the traditional compilations of the Census. It gives the list of villages, their location numbers, their area, population, number of households, amenities such as educational, medical, drinking water, post and telegraph, commercial and co-operative banks, agricultural non-agricultural and other credit societies, recreational and cultural facilities, communication, approach to village, nearest town with a distance, power supply availability of newspaper and magazines, most important commodity manufactured and land use of each village.

Village is a statutory recognized unit having a definite boundary and separate land records. In case, a complete village is treated as an outgrowth of urban agglomeration, data on amenities for that village, have not been given in the Village Directory but shown along with the urban component. The villages which are consider as a Census Town , the amenities data are shown in the Town Directory. For those villages which have partly merged in an outgrowth of U.A., the amenities data are shown in the Village Directory for that particular village.

The 'un-inhabited' villages (villages with no population) have been indicated as such after furnishing details in columns 1 to 3 i.e., Serial number, Name of village & location code number and area of the village against column no. 4 to 18. The land use data for such villages are shown in col. 19 to 23.

The Village Directory format has 23 columns and the details given under each column are for the village are as follows:-

Columns 1 : Serial Number

Self explanatory. All the villages within the CD Block are presented serially in the ascending order of their location code number.

Columns 2 : Name and Location Code Number of village

The name and location code number of the village are shown against these columns. This also includes the forest and uninhabited villages.

Column 3 : Area of the village

The area of the villages in hectares are given. Wherever the area figures was not furnished by the concerned department the column is left blank.

Column 4 : Total population

The total population of the village as per 2001 Census is given against this column.

Column 5 : Number of households

The number of households as per 2001 Census is given in this column.

Amenities :

In column 6 to 23, availability in respect of different amenities such as education, medical, drinking water, post, telegraph, banks, credit societies, communication, power, approach road etc. in each village has been depicted with appropriate codes against the column concerned. Wherever the amenities are not available in the village, a dash (-) is shown in the column and next to it in brackets the distance in broad ranges viz.< 5 kms., 5-10 kms. and 10+ kms of the nearest place where the facility is available is given. Column wise details are given below

Column 6 : Educational

Classes upto class V included in Primary School. This will include nursery school, kindergarten school. Pre-basic school, pre-primary school, junior basic school upto class V.

Classes from VI and VII are included in the middle school.

Classes from VIII to X included in Higher secondary school. Classes XI and XII are included in senior secondary school.

In case of composite schools like middle school with primary school or secondary school with middle school, these are also included in the number of primary and middle schools, respectively.

Accordingly any of the following types of institutions if exists within the village is shown as per codes given below :

(i)	Primary School	P
(ii)	Middle School	M
(iii)	Secondary School	S
(iv)	Senior Secondary School	PUC/JC
(v)	College	C
(vi)	Industrial School	I
(vii)	Training School	Tr
(viii)	Adult literacy class/centre	AC
(ix)	Others (specify) e.g. Sanskrit Pathshala, Senior basic school, Navodaya Vidyalaya, Makhtab, etc.	O

More than one institution of a type in the village is indicated by the number within brackets against the abbreviation, e.g. P(3), M(4), etc.

Column 7 : Medical

Availability of medical facility within the village is indicated by following codes :

(i)	Allopathic Hospital	H
	Ayurvedic Hospital	HA
	Unani Hospital	HU
	Homeopathic Hospital	H Hom
(ii)	Allopathic Dispensary	D
	Ayurvedic Dispensary	DA
	Unani Dispensary	DU
	Homeopathic Dispensary	D Hom
(iii)	Maternity & Child Welfare	MCW
(iv)	Maternity Home	MH
(v)	Child Welfare Centre	CWC
(vi)	Health Centre	HC
(vii)	Primary Health Centre	PHC
(viii)	Primary Health Sub-Centre	PHS
(ix)	Family Welfare Centre	FWC
(x)	T.B. Clinic	TB
(xi)	Nursing Home	NH
(xii)	Registered Private Medical Practitioner	RMP
(xiii)	Subsidised Medical Practitioner	SMP
(xiv)	Community Health Worker	CHW
(xv)	Others	O

More than one institution of a type in the village is indicated by the number within brackets against the abbreviations, e.g. H(3), D(4), etc.

Column 8 : Drinking Water

The type of the drinking water supply sources available within the village are indicated by codes as follows :

(i)	Tap Water	T
(ii)	Well Water	W
(iii)	Tank Water	TK
(iv)	Tubewell Water	TW
(v)	Handpump	HP
(vi)	River Water	R
(vii)	Canal	C
(viii)	Lake	L
(ix)	Spring	S
(x)	Others	O
(xi)	Summer Sorce	SS-

Column 9 : Post, Telegraph and Telephone

It is indicated by codes as shown below whether within the village exists the following amenities:

(i)	Post Office	PO
(ii)	Telegraph Office	TO
(iii)	Post & Telegraph Office	PTO
(iv)	Telephone Connection	PH

Column 10: Commercial and Co-operative Banks

If the village is served by any banking service, commercial bank, co-operative bank etc. the same is indicated in codes mentioned below along with the number of banks in brackets. If not available the distance of nearest place where the facility exist is given:

(i)	Commercial Bank	CM
(ii)	Co-operative Bank	CP

Column 11: Credit Societies

If the village enjoys the services of Credit Societies i.e. Agricultural Credit Societies, Non Agricultural Credit Society or Other Credit Societies, the same is indicated in codes mentioned below along with the number of such societies in brackets. In case the facility is not available within the village the distance of the nearest place where such facility exist is given:

(i)	Agricultural Credit Society	ACS
(ii)	Non- Agricultural Credit Society	NCS
(iii)	Other Credit Society	OCS

Column 12 : Recreational and cultural facilities

If facilities such as Cinema/Video hall, Sports Club, Stadium/Auditorium is available in the village. The same is recorded in these columns. If not available the particulars of the nearest place with the facility is recorded. The information is indicated in codes mentioned below along with the number of such facilities in brackets:

(i)	Cinema / Video Hall	CV
(ii)	Sports Club	SP
(iii)	Stadium / Auditorium	ST

Column 13 : Communications

If the village is served by any mode of public / private transport like Bus, Railway station or Navigable water ways they are to be mentioned as follows:

(i)	Bus	BS
(ii)	Railway Station	RS
(iii)	Navigable Waterway	NW

Column 14 : Approach to village

Approach to village refers to the state of road leading to village. The approach to the village is indicated in following codes :

(i)	Paved Road	PR
(ii)	Mud road	MR
(iii)	Foot path	FP
(iv)	Navigable River	NR
(v)	Navigable Canal	NC
(vi)	Navigable waterways other than River, Canal	NW

Column 15 : Nearest Town and distance

The distance is given in kilometers in brackets against the name of the town nearest to the village.

Column 16 : Power supply

Availability of Power Supply in the village, whatever may be the form of its use is given by using following codes :

(i)	Electricity for domestic use	ED
(ii)	Electricity for agricultural use	EAG
(iii)	Electricity for other purposes	EO
(iv)	Electricity for all purposes	EA

Column 17 : News Paper / Magazine

If village receives any News Paper/Magazines the same is noted in this column using following codes

(i)	News Paper	N
(ii)	Magazine	M

Column 18 : Most important commodities manufactured

The name of three most important commodities manufactured in the village is recorded against this column.

Column 19 to 23 : Land use i.e. area under different types of land use

Land use data maintained by the State Govt. are furnished against these columns. The data concerning area under Forest, Irrigated land (by source), Un-irrigated land, Culturable waste and Area not available for cultivation in the village are shown against these columns. The area figures are given in hectare(s) up to one decimal. Dash '-' is recorded wherever the information is not made available by the concerned department. The codes used for different types of irrigation facilities available in the village are indicated below:

(i)	Government Canal	GC
(ii)	Private Canal	PC

APPENDIX - XII - VILLAGE DIRECTORY

LIST OF CINEMA HALLS BY VILLAGE / TOWN IN THE DISTRICT

Sl. No.	Name of Mandal Parishad	Village / Town Location Code number	Name of Village / Town	Name of Cinema Hall
1	2	3	4	5

List not available

Section II - Town Directory

Note explaining the abbreviations used in the town directory

Town Directory statements (I to VII)

Statement I : Status and Growth History

Column (2) : Class, name and civic administration status of town :

Class has been introduced to facilitate analysis of town directory data at the state and all India levels. It is presented according to 2001 Census Population of the town as follows :

Population	Class
100,000 and above	I
50,000 - 99,999	II
20,000 - 49,999	III
10,000 - 19,999	IV
5,000 - 9,999	V
Below 5,000	VI

Town with a population of one hundred thousand (1,00,000)and above is treated as a city.

The civic administration status of the towns is indicated within bracket against the name of the town. The following abbreviations are used to denote civic status of town.

(I)	Municipal Corporation	M. Corp.
(II)	Municipal Committee	MC
(III)	Municipal Council	M Cl
(IV)	City Municipal Council	CMC
(V)	Town Municipal Council	TMC
(VI)	Municipal Board	MB
(VII)	Municipality	M
(VIII)	Cantonment Board/Cantonment	CB
(IX)	Notified Area	NA
(X)	Notified Town	NT
(XI)	Notified Area Committee/ Notified Area Council	NAC
(XII)	Notified Town Area	NTA
(XIII)	Industrial Notified Area	INA
(XIV)	Industrial Township	ITS
(XV)	Township	TS
(XVI)	Town Panchayat	TP
(XVII)	Nagar Panchayat	NP
(XVIII)	Town Committee/ Town Area Committee	TC
(XIX)	Small Town Committee	ST
(XX)	Estate office	EO
(XXI)	Gram Panchayat	GP
(XXII)	Census Town	CT

Others columns need no comments.

Statement II - Physical Aspects and Location of towns, 1999

Column 3 to 5 : Physical Aspects

In these columns the Rainfall and Maximum & Minimum Temperature of the town is recorded.

Column 6, 7 and 8 :

Name of the State headquarters, District headquarters and Sub-Divisional headquarters with distance from the referent town in kilometers, is to be recorded respectively. If the names mentioned in these columns are the same as the referent town itself, the distance is recorded as (0) zero.

Column 9& 10 :

Name of the nearest city with one lakh and more and five lakhs and more population are recorded.

Column 11, 12 and 13 :

If referent town enjoys the facility of railway station, bus route facility or navigable river/canal. Its name is to be mentioned. If not available, then the name of nearest place with distance, where such

facility exists is to be mentioned.

Statement III : Municipal Finance 1998 - 1999

Item-wise amount of receipt and expenditure in thousand rupees, relating to municipal finance of the town for the year 1998-99 is to be recorded.

Statement IV : Civic and Other amenities, 1999

Column (1 to 5) : Self explanatory.

Column (6) : Road length (in kms.)

Information about kutcha / pucca road is to be recorded separately for the roads within the limits of the referent town.

(i)	Pucca Road	PR
(ii)	Kutcha Road	KR

Column (7) : System of Sewerage

Generally, by sewerage system is implied the network of mains and branches of underground conduits for the conveyance of sewerage to the point of disposal. Sewers that carry only household and industrial wastes are called separate sewers, those that carry storm water from roofs, streets and other surface are known as storm water drains, while those carrying both sewage and storm water are called combined sewers.

The codes used for different types of drainage system are as follows :

(i)	Sewer	S
(ii)	Open Surface Drains	OSD
(iii)	Box Surface Drains	BSD
(iv)	Sylk Drains	SD
(v)	Cesspool method	CP
(vi)	Pit System	Pt
(vii)	Others	O

Column 8 to 11 : Number of latrines

Number of various types of latrines both Public and Private are given in these columns.

Column 12 : Method of disposal of night soil

The various prevalent method of disposal of night soil are given below with codes :

Head Loads	HL
Basket	B
Wheel Barrows	WB
Septic Tank	ST
Pit System	Pt
Sewerage	S
Others	O

Column 13 and 14 : Water supply

Source and capacity of storage system. The following codes are used in these columns:

Column 13:

(i)	Tap water	T
(ii)	Tube-well water	TW
(iii)	Tank Water	TK
(iv)	Well water	W

Column 14:

(v)	Over Head Tank	OHT
(vi)	Service Reservoir	SR
(vii)	River Infiltration Gallery	RIG
(viii)	Bore Well Pumping System	BWP
(ix)	Pressure Tank	PT

The information on major source of water supply are given in column 13 and the storage capacity against each in kilo-litres (in bracket) are presented in column 14.

Column 15 : Fire Fighting Service

In case the fire fighting service is available in the referent town 'yes' is recorded. If the facility is not available within the town. The name of the nearest place having this facility with its distance from the referent town has been recorded.

Column 16 to 20 : Electrification (Number of connections)

Different types of electric connections have been shown in these columns, i.e. Domestic, Industrial, Commercial, Road lighting (points) & others.

Statement V : Medical, Educational, Recre ationaland Cultural Facilities, 1999

Column 1 to 3 : Self explanatory.

Column 4 & 5 :

The data covers all such medical institutions

run by or aided by Government/Semi Government/ Local bodies and Charitable institutions or Social agencies like the Missionaries. Where the family planning centres are attached to hospitals or maternity and child welfare centres or Primary Health Centres they may be treated as independent units and counted separately using following codes :

(i)	Hospital	H
(ii)	Dispensary	D
(iii)	Health Centre	HC
(iv)	Family Welfare Centre	FWC
(v)	T.B. Clinic	TB
(vi)	Nursing Home	NH
(vii)	Others	O

In case of more than one institutions of any type, it is indicated within brackets the number of such institution (s) e.g. D(3), NH(8), etc. The institutions have further been distinguished by providing additional codes within the bracket as given below :

Ayurvedic	A
Unani	U
Homoeopathic	Hom

Column 6 to 9 :

The codes used for these columns are as follows:

(i)	Arts only	A
(ii)	Science only	S
(iii)	Commerce only	C
(iv)	Arts & Science only	AS
(v)	Arts & Commerce only	AC
(vi)	Combined for all categories-Arts, Science and Commerce	ASC
(vii)	Law	L
(viii)	University	U
(ix)	Others	O

Column 10 : Recognized shorthand, typewriting and vocational training institutes

"Recognised" should mean recognised by some statutory authority, like education department, commerce department, labour department etc. of the Government or semi Government or autonomous bodies, public sector undertakings etc.

The following codes are used :

(i)	Vocational Training Institute	VT
(ii)	Shorthand	SH
(iii)	Typewriting	Type
(iv)	Shorthand & Typewriting	SH Type
(v)	Others	O

The vocational institutions like - Applied Art/Painting college, Pharmacy college, B. Ed. College, Teacher's Training Institute, Music / Dance School, Nursing School etc. are covered under 'Others'.

Column 11 to 14:

Higher Secondary/Intermediate/Senior Secondary/ PUC/Junior College level, Secondary/Matriculation, Middle Schools/ Junior Secondary and Primary Schools.

School up to class V are treated as Primary or elementary schools. These include Nursery schools, Kindergarten schools, Pre-Primary schools, Junior Basic schools upto class V and Primary schools upto class IV.

Schools upto VIII are considered as Middle school or Junior Secondary.

Schools upto class X are considered as Matriculation or Secondary schools.

Schools upto XI or XII classes are considered as Higher Secondary / Intermediate / Pre University / Junior College etc. This would cover 10+2 classes whether held in schools or college.

If there are composite schools like middle schools with primary classes or Secondary schools with Middle classes, these are also included in the number of Primary and Middle schools, respectively. For example, if in a town, there are two Primary Schools and one Middle school with Primary classes, the number of Primary schools in the town is given as three and that of Middle schools as one though there are only three educational institutions.

If there are more institutions of a type in the town, the number is indicated within bracket along with the abbreviation, e.g. P(4), M(3).

Column 15 : Adult literacy class/centres

This column has been introduced keeping in view the Minimum Needs Programme of the Planning Commission. There are number of Adult Education Centres which are included in these columns.

If an educational facility is not available in the town, the name of the nearest place and its distance in kilometres from the town where the facility is available is mentioned.

Column 16 : Working Women's hostels with number of seats

The number of working women's hostel if available in the referent town is mentioned with number of seats. If the facility is not available in the town the name of nearest place with distance where the facility is available is recorded.

Column 17 to 19 : Recreational and Cultural Facilities

Stadium, Cinema, Auditorium/Drama/Community Hall are covered under recreational & cultural facilities. The particulars of permanent recreational facilities are considered for these columns.

Column 20 : Public Libraries, Reading Rooms

Number of public libraries and reading rooms available in the referent town are recorded in codes as follows :

(i) Public Library	PL
(ii) Reading room	RR

Statement VI : Trade, Commerce, Industry and Banking, 1999

Column 3 to 8 :

Name of three most important commodities exported and names of three most important commodities manufactured in the town are recorded.

Column 9 : Number of Banks

Number of Banks available in the referent town both Commercial and Co-operative banks are recorded against this column.

Column 10 & 11 :

Number of Agricultural Credit Societies and Non Agricultural Credit Societies

The total number of Agricultural Credit Societies and Non Agricultural Credit Societies in the referent town are recorded against these columns.

Statement VII : Civic and other Amenities in Slums, 1999

This is the statement on civic and other amenities in all slums whether notified or not and for all towns having statutory bodies, like municipality, Municipal Corporation, Town area committee etc.

TOWNS SHOWING THEIR OUTGROWTHS WITH POPULATION

Serial number	Name of the town with location code	Population of core town	Name of Outgrowth	Population of Outgrowth
1	2	3	4	5
1.	Chirala (M) 41802000	84,970	i) Chirala (R) ii) Ipurupalem	28,278 13,119
2.	Vetapalem 41803000	37,052	i) Kothapeta	2,875
3.	Ongole 41805000	150,471	i) Pernamitta	3,358

Brief note on Primary Census Abstract

The first census of the third millennium and twenty first century the Census of India, 2001 was the 14th continuous and uninterrupted Indian census since 1872. Thus, 2001 Census will provide data on population and its characteristics marking transition from one century and millennium to another.

The gigantic operation of Population Enumeration (considered by many to be the single largest and complex peace time administrative exercise in the world) was made possible due to the door to door universal canvassing of the Household Schedule by about 2 million enumerators and supervisors covering 593 districts, 5,463 sub-districts, 5,161 towns and 638,588 villages. The comprehensive Household Schedule which replaced the individual slip had three parts and two sides A and B. Part I contained the Location Particulars; Part II related to the Individual Particulars and Part III contained questions for Household engaged in Cultivation/Plantation. The part II of the Household Schedule had 39 columns and 23 questions all of which were universally canvassed and no sampling was resorted to during enumeration.

Data Processing

A quantum leap was made in the technology front while processing the Census 2001 data both for Houselisting and Population Enumeration. The Census schedules for both the phases were scanned through high speed scanners in fifteen data centers across the country and hand-written data from the schedules were converted into digitized form through Intelligent Character Reading (ICR) software for creation of ASCII records for further processing. The designing and formatting of the Household Schedule had to be done very carefully using specialized software so as to ensure uniformity, which was an essential pre-requisite for scanning. The selection of appropriate state-of-art technology in data processing has made it possible to produce all the Houselisting as well as Population Enumeration tables on full count basis for the first time in the history of Census. For Census 2001, about 202 million schedules consisting of about 1,028 million records were scanned and processed within a span of only 10 months starting October, 2002.

Task Force on Quality Assurance

After the data is processed, it is expedient on the part of the data producing agency to satisfy itself about its quality before putting the same in public domain. This has to be done mainly through the process of internal consistency, comparison with similar data in the past and also through validation with likewise data if available, from external sources. Quite often the local knowledge and perception has to be brought into play to understand both the existing and the new emerging trends of population distribution and characteristics. The other very important aspect of the data quality is to ensure complete coverage of all geographical areas especially for the population enumeration phase where the data is disseminated right up to the village level in the rural areas and the ward level in the urban areas. Thus ensuring the complete coverage and correct geographical linkage of each enumeration block was one of the major planks of the quality control, specially for small area population statistics.

A very comprehensive check and edit mechanism was put in place to objectively examine the preliminary Census 2001 Population Enumeration results and finally clear them for use. The responsibility of the final clearance of data was with the Task Force on Quality Assurance (TFQA), headed by the Registrar General and Census Commissioner, India. The other members of the TFQA were the Heads and senior officers of the Census Division, Data Processing Division, Map Division, Demography Division and Social Studies Division. The Directors of Census Operations were co-opted as members whenever the TFQA discussed the data for their States/Union territories. The Directors and their senior officers were required to make detailed presentations of data for their own state both in respect to the quality and the coverage and only after the full possible cleared.

There has been a major departure in Census 2001 from the past in respect of the procedure followed for finalization of the Scheduled Castes and the Scheduled Tribes population. In the earlier censuses, the total Scheduled Castes and Scheduled Tribes populations were finalized at the time of the manual compilation of the Primary Census Abstracts (PCA) at the Regional Tabulation Offices which were specially set up for this purpose. The individual Scheduled Castes and the Scheduled Tribes population for each state was finalized much later based on manual coding done by the coders. In 2001 Census, each individual Scheduled Caste and the Scheduled Tribe have been coded directly on the computers by the Data Entry Operators through a process known as Computer Assisted Coding (CAC) and taken up along with the processing of PCA data. The CAC process involves pulling down, from the relevant dictionary of the Scheduled Castes and the Scheduled Tribes, on the computer screen and coding from the dictionary by referring to the image of the specific individual entry in the Household Schedule appearing on the screen. The CAC of the response on Religion wherever required, was also undertaken along with the processing of PCA. This is because the Scheduled Castes status had to be determined in relation to the religion of the individual. Two Special Task Forces, one on Religion and the other on Scheduled Castes/ Scheduled Tribes were constituted for scrutiny and appropriate classification of these responses.

The main task of the Special Task Force on Religion was to appropriately merge or group the new responses encountered and code it into the appropriate religious community based on available literature and local knowledge. The Special Task Force on Scheduled Castes and Scheduled Tribes examined the different Scheduled Castes and Scheduled Tribes entries encoun-tered and classified these into appropriate category of the Scheduled Castes or the Scheduled Tribes principally based on the Presidential Notification and the available literature. Thus a very systematic and scientific mechanism was operationalised to firm up the individual religion and the individual Scheduled Castes/Tribes returns. The Scheduled Castes and the Scheduled Tribes population in 2001 Census, is thus being finalized by aggregating the population data for individual Scheduled Castes and the Scheduled Tribes at appropriate geographical levels.

The entire work relating to the data validation and scrutiny was completed by all the States/Union Territories under the overall supervision and monitoring of the Census Division of the Office of the Registrar General, India with active cooperation and support of the Social Studies Division, Data Processing Division, Data Dissemination Division and Map Division.

Primary Census Abstract

The Primary Census Abstract which is yet another important publication of 2001 census gives basic information on Area, Total Households, Total population, Scheduled Castes, Scheduled Tribes population, Population in the age group 0-6, Literates, Main workers and Marginal workers classified by the four broad industrial categories, namely, (i) Cultivators, (ii) Agricultural laborers, (iii) Household Industry Workers, and (iv) Other workers and also Non-workers. The characteristics of the Total Population includes Scheduled Castes, Scheduled Tribes, Institu-tional and Houseless population and are presented by sex and rural-urban residence. This data is presented at different levels, namely, India, States/Union territories, Districts and Cities, Urban Agglomerations (Population 1,00,000 and above) in three different tables. In addition, the Appendix of said publication provides Houseless and Institutional Households and their population by residence and sex for 2001 for India, State and Union territory.

Apart from the India and State/Union Territory volumes for Primary Census Abstract, the District Census Handbook contains District Primary Census Abstract, Appendix to District Primary Census Abstract, Primary Census Abstract for Scheduled Castes, Primary Census Abstract for Scheduled Tribes, Village Primary Census Abstract and Urban Primary Census Abstract of the concerned district in the state.

It was for the first time at the 1981 Census that the Primary Census Abstract (PCA) was brought out for the Scheduled Castes and the Scheduled Tribes separately on the pattern of General Primary Census Abstract. This practice was continued in 1991 also. In the 1961 and 1971 Censuses, such data were made available in Table C-VIII-Social and Cultural table and to some extent in the series 'Special Tables for Scheduled Castes/Scheduled Tribes'.

The format of Primary Census Abstract has been restructured slightly in the 2001 Census as compared to that of 1991 Census. The nine-fold industrial classification of main workers given in the Primary Census Abstract of 1991 Census has been discontinued and its place, four-fold industrial classification of both 'main workers' and 'marginal workers' are included. In 1981 census only main workers were presented into four categories. One of the novel features of the primary census abstract of 1991 census was the presentation of data of the population of age group 0-6 is continued in 2001 Census also. This will help the data users in better analysis and understanding of this literacy data.

Level of presentation in District Census Handbooks:

The Primary Census Abstract data in different PCAs are presented at different levels. The level of presentation of Primary Census Abstracts are as under:

Name of the Primary Census Abstract	Level of presentation
1. District Primary Census Abstract	District/Mandal Parishad/UA/City/Town
2. Primary Census Abstract for Scheduled Castes	District/Mandal Parishad/Town
3. Primary Census Abstract for Scheduled Tribes	District/Mandal Parishad/Town
4. Village Primary Census Abstract	Mandal Parishad/Village wise
5. Urban Primary Census Abstract	Town/Ward level

The PCA Data for villages was presented Mandal Parishad wise for the first time in 1991 Census. This practice is continued in 2001 Census also. The data for each Mandal Parishad is presented both for rural and urban areas separately. All the villages within the Mandal Parishad constitute the rural portion and the Census Towns and Outgrowths are shown under the urban portion of the Mandal Parishad. In case a Mandal Parishad is spread over two or more districts, than portion which falls within the district is presented, the data pertaining to remaining portion of the Mandal Parishad is presented in the concerned District Census Handbook. The data in the Urban Primary Census Abstract for each town as well as for town with outgrowths in the district are presented. The data for all the wards and the outgrowths of the town(s) are also presented separately below the concerned town(s).

The District Primary Census Abstract is presented in 59 columns. The Primary Census Abstract for Scheduled Castes and Primary Census Abstract for Scheduled Tribes are presented in 52 columns. The Village Primary Census Abstract and Urban Primary Census Abstract are presented in 58 columns.

The concepts and definitions used in the column heading are explained under the sub heading 'Census Concepts' in the Analytical Note. The term 'Total Population' includes the Scheduled Castes, the Scheduled Tribes, the Institutional and the Houseless populations. The explanation regarding area figures presented at various level in the Primary Census Abstracts are as follows:

Area Figures

The area figures supplied by local revenue authorities of the district in respect of mandals, Police Stations and by the local bodies in respect of towns are given in square kilometers. The area figures of the villages supplied by the Mandal Revenue Officer in acres have been converted and shown in hectares. The area figures of the Mandal Parishad is the total of the village areas coming under each Mandal Parishad. The area figures for the district are the same as adopted by the Surveyor General of India to maintain uniformity at the national level. The total area figures of all the Mandals/Mandal Parishad within the district may not tally with area figures of the district because former represents land use area only. Similarly, the total of all the villages may not tally with the entire rural of Police Station/Mandal. The difference may be due to the fact that while the area covered by hills, forests and rivers etc, have been accounted in the Mandals and P.S.level the same may not be covered under the area of the villages. Apart from this it may also differ due to varying methods of computation adopted at different levels.

An appendix to District Primary Census Abstract has also been furnished showing urban enumeration block-wise particulars on Total Population, the Scheduled Castes Population and the Scheduled Tribes Population for each town.

Annexure - I
Fertility and Mortality, 1991 Census

Crude birth rate is the most commonly used measures of fertility**.** To know the fertility rates, certain information was collected from all ever married women during 1991 Census such as (i) Age at marriage (ii) Number of children ever born alive. For currently married women, in addition to above data, if any child born at preceding one year to the Census has also collected. Definition of fertility measures is given in the chapter on Census concepts.

Fertility Levels :

This is dependent on fertility pattern by age, which is indicated by the age specific fertility rates. General fertility rate, total fertility rate and gross reproduction rate are other indicators of fertility. Fertility measures were worked out on F-series tables of 1991 Census of Andhra Pradesh. An analysis of these measures is given in the subsequent paragraphs.

Age Specific Fertility Rates :

The following statement shows the age specific fertility rates for Total, Rural and Urban areas along with the corresponding fertility rates of State during 1991 Census.

Annexure –I (a)
Age Specific Fertility Rates/Levels, 1991

Age Group	Prakasam District			Andhra Pradesh State		
	Total	Rural	Urban	Total	Rural	Urban
1	2	3	4	5	6	7
15 - 19	0.089	0.094	0.067	0.085	0.092	0.066
20 - 24	0.192	0.197	0.168	0.179	0.185	0.162

Source : *F-series tables of 1991 Census & Andhra Pradesh District profile, 1991.*

It can be seen from the above table that the level of fertility in the district is higher than the State in all age groups. While comparing the rural and urban fertility in the district, the rural is also higher than the state in all the age groups. In the case of urban, lower fertility rate has been recorded in the age group of 25-29 to 45-49 and higher rate in the age group of 15-24.

Age Specific Marital Fertility Rate :

The following statement shows age specific marital fertility rates of Prakasam district as well as State recorded during 1991 Census.

Annexure –I (b)
Age Specific Marital Fertility Rates/Levels, 1991

Age Group	Prakasam District			Andhra Pradesh State		
	Total	Rural	Urban	Total	Rural	Urban
1	2	3	4	5	6	7

3. R.G's occasional Paper number 1 of 1997
4. Part IV-A - C series tables

Child Mortality :

Information on the questions on children ever born and children surviving canvassed for all ever married women has been tabulated by age of the mother from this, estimates of child mortality have been workedout by using Brass Technique.

From the estimates of child mortality (number of deaths by ages 1,2 and 5 given above as Q1,Q2, Q3 and Q5) It is observed that mortality in Prakasam district is subsequently lower when compared to the state.

Annexure - II
Various measures of Fertility and Mean Age at Marriage
1991 Census

The below given table shows the various measures of fertility and mean age at marriage recorded during 1991 census.

Sl. No.	Name of District	Child Birth Rate	Total Fertility Rate	Total Mortal Fertility Rate	General Fertility Rate	General Mortal Fertility Rate	No. of children per ever married women in the age group 45-49	Child-Woman Ratio (0-4)	Mean age at marriage of currently married women

***Source**: 1. F-Series tables of 1991 Census*
2. Andhra Pradesh district profile,1991 Census
3. R.G's occasional paper of 1997

It is seen from the above table that the rates of fertility measures in the district are recorded higher than that of State.

Different fertility measures given above reveal higher level of fertility in the district compared to the state in G.F.R, G.M.F.R and T.F.R. The mean age at marriage is however only marginally different in the district when compared with the state. Child woman ratio in the district is lower when compared to the state average.

Annexure III
Percentage distribution of Migrants by place of birth/place of last residence, 1991 Census and 2001 Census

Migration

Migration is the third component of population change the other two being mortality and fertility. A person is considered as a migrant by place of birth if the place in which he is enumerated during the Census is other than the place of his birth. Similarly a person is considered as a migrant by place of last residence. If the place in which he is enumerated during the Census is other than his place of immediate last residence.

The migrational movements are of three types (i) Migration with in the State itself with its components (a) Migration within the District of enumeration (intra district migration) (b) Migration from one district of state to another district of the state (Interdistrict migration) (ii) Migration from one state to another state of the country (interstate migration) and (iii) Migration from one country to another country. The first two streams together constitute internal migration. While the last type of movement is called international migration.

For the first time in the Census, reasons for migration were elicited in 1981. Keeping operational constraints in view, the reasons for migration were broadly categorized as (i) employment (2) Education (3) Marriage (4) Family movement and (5) Other reasons. Reasons for migration have been elicited only with reference to movement from place of last residence.

The growth of population of a particular place depends upon natural increase due to excess of births over deaths and migration. The knowledge of trends in migration helps in future planning of a region.

Annexure – III(a)
Distribution of Migrants by Place of Birth and Percentage, 1991 Census

Place of Birth	Prakasam District 1991 Census			Andhra Pradesh State 1991 Census

Source: *Part –VA and VB – D Series, 1991 (Vol-I)*

On the basis of migrants by place of birth, there were 194.64 lakh migrants in Andhra Pradesh in 1991 Census comp rising of 62.53 lakh males and 132.11 lakh females. These migrants constitute 29.27 % of total population. Male migrants constitute 18.54% of male population. While female migrants account for 40.30% of female population.

In Prakasam district there were 6.53 lakh migrants comprising 1.90 lakh males and 4.63 lakh females. The migrants of this district constitute 23.66% of total population. Male and Female migrants constitute for 13.55% and 34.07% respectively of Males and Females. From the distribution of total migrants in Andhra Pradesh by place of birth, it can be clearly seen that female predominate in intradistrict and inter-district migration while males predominate in interstate and international migration. Similar trend is noticed in case of Prakasam district also.

Number of migrants born in other states of India was 10.26 lakh in 1991 Census. It is seen that 1.54% of the total migrants in Andhra Pradesh were from other States. In case of Prakasam district 0.25% of the total migrants were from other states.

In case of Andhra Pradesh nine states namely Karnataka, Kerala, Madhya Pradesh, Maharastra, Orissa, Rajasthan, Tamilnadu, Uttarpradesh and West Bengal together account for 9.19 lakh (89.52%) out of 10.27 lakh interstate migrants. In respect of Prakasam district of the total 6.10 thousand 1.07% inter-statemigrants. Tamilnadu account for 50.97% Karnataka accounts for 11.72 % . Sikkim accounts for 8.58% and Kerala accounts for 6.86% interstate migrants.

Inset table to Annexure III(a)

Total Migrants	775,406 (100.0)	224,658 (100.0)	550,748 (100.0)	22,834,306 (100.0)	7,617,454 (100.0)	15,216,852 (100.0)

Source: *Migration Tables (D Series) - 2001*

The migrants by place of birth were returned 194.6 and 228.3 lakhs in Andhra Pradesh State as per the 1991 and 2001 Censuses respectively. It shows a growth rate of 17.3% total migrants over 1991 Census with a breakup of 21.8% males and 15.2% females. In Prakasam district the migrants are 652,747 persons as per 1991 Census whereas 775,406 persons are in 2001 Census with a growth rate of 18.8% over 1991 census. In both the Censuses the female migrants are more than male migrants due to marriages.

In respect of inter district migrants, male migrants are forming less percentage than female migrants. In the case of intra-state migrants the males are more than females in both the Censuses. Similar is in case of International Migrants.

2. Figures noted as unspecified are included in totals only.
Sorce: Migration tables (vol.I) Part VA and VB-D series.

Rural - Urban components of Migration :

The flow of Migrants would consist of four streams such as rural to rural, rural to urban, urban to rural and urban to urban. The data on the basis of these various streams in case of migrants is classified by place of birth. It presents data only in relation to internal migrants. The data for Prakasam district is presented separately.

Of the total interstate migrants of 184.07 lakh 63.92% were from rural to rural 9.34% from urban to urban 20.95% from rural to urban and 5.72% from urban to rural. In case of Prakasam district of the total 6.46 lakh interstate migrants. 70.12% were from rural to rural. 6.03% from urban to urban 17.35% from rural to urban and 6.49% from urban to rural.

In case of migrants from other states numbering 10.27 lakh 33.94% have migrated from rural to rural 33.39% from urban to urban 21.77% from rural to urban and only 10.73% from urban to rural. In case of Prakasam district of the total 6.10 thousands migrants 24.02% from rural to rural 30.45% were from urban to urban 16.15% from rural to urban and 29.38% from urban to rural.

The following Statement shows the Rural and Urban composition of internal Migrants by place of Birth, 1991 Census in Andhra Pradesh and Prakasam District

This annexure shows percentage distribution of migrants by place of birth as recorded in 1991 census. For all districts of Andhra pradesh the persons born elsewhere in the district of enumeration works out to 71.0 percent whereas in respect of persons born in other districts of Andhra Pradesh, born in other states and other countries works out to 23.6%, 5.3% and 0.2% respectively. In respect of Prakasam district the persons born elsewhere in the district of the enumeration recorded 78.6% and the persons born in other districts of the state returned 20.3%. Among the migrants of the district, the persons born in other states and other countries works out to 1.1% and 0% respectively. Out of 1.95 crores of migrants of the state, 6.5 lakh migrants belong to Prakasam district. It is interesting to note that the female migrants are more in number than males in all the districts of the state except in Hyderabad district where male migrants are a little more.

Source: *Migration Tables (D Series) - 2001*

The above annexures show the percentage distribution of migrants by place of birth as recorded in both the Censuses of 1991 and 2001 in Andhra Pradesh state. It is observed that 3.0% increase in the migration who were born elsewhere in the district of enumeration with a sex breakup of 3.0% each, whereas in respect of the migrants who were born in other districts of the state, in other states of the country and in other countries are recorded with a difference of -2.2%, -0.8% and -0.1% respectively between two censuses of 1991 and 2001.

In respect of Prakasam district the difference between the two Censuses can be observed with 4.6% in the persons 3.8% males and 4.8% females born elsewhere in the district of the enumeration. Regarding the migrants from other states in India only a minor variation is recorded with -0.4%.

Among the migrants that are born in Abroad no change is noticed in the percentage variation between 1991 and 2001 censuses.

Annexure IV
Brief account of Main religions in the district / mandal as per 1991 Census and 2001 Census

Religion :

The data on religion has been collected and presented for 6 major religions viz. Hindus, Muslims, Christians, Sikhs, Jains and Buddhists. In respect of minor religions, they have been classified and shown under the category "Others".

During 1991 Census the religion data was collected through question No.8 of the individual slips and recorded the religion as stated by the individual under six major religions. The minor religions other than these six religions, as reported by the respondent, recorded and classified under the category “Others”.

Source: Religion Data, Andhra Pradesh - 2001

The above table gives the details of Main Religions in the district for 2001 census whereas the previous Annexure shows the details of main religion in 1991 census. During 2001 census the religion data was collected through question number 7 of household schedule. Out of the total population of the district Hindus have returned 92.4% during 2001 census as against 91.3% in 1991 census. In respect of Muslims they have returned 6.4% in 2001 whereas their percentage during 1991 was 6.6. The next main religion in the district is Christians who returned 1.1% during 2001 census as against 2.3% in 1991 census. The main reason for decrease in the decadal growth among Christians can be attributed to get enrolled under Scheduled Castes to get benefits from the government. In respect of remaining main religions viz. Sikhs, Buddhists, Jains and others their strength in the district is negligible.

Annexure-IV(b)

Percentage distribution of population by major religions in India, Andhra Pradesh and Prakasam district and its growth rate during 1981-1991

Sl. No.	Name of Religion	India		Andhra Pradesh		Prakasam District	
		Percentage of Population	Percentage growth rate 1981-91	Percentage of Population	Percentage growth rate 1981-91	Percentage of Population	Percentage growth rate 1981-91

Source: Part IV B (ii) - AP.

India-State-District differentials :

The comparative data on religion among India, Andhra Pradesh and Prakasam district reveals that concentration of Hindus was higher followed by Muslims and Christians as per 1991 Census findings. Hindus were returned on the higher side in the State with nearly seven percent more than the national average, while in Prakasam district they were more over nine percent than national and nearly two percent more than the State. They constituted 82.4%, 89.14% and 91.34% in India, Andhra Pradesh and Prakasam district respectively. Muslims recorded as 11.7% in India, 8.91% in Andhra Pradesh and 6.62% in the district. It shows their percentage in the district is less than the percentage of India and the State. The percentage of Muslims in the State is less than the Country, while the percentage of Christians in the country is more than the State i.e.,2.3% in India

1.83% in the State and 2.03% in the district. Buddhists, Sikhs and Jains formed less than 1% in the State and negligible in the district, whereas Sikhs recorded 2% in the Country and their population in the State is 0.03 and in the district is negligible.

Religion-wise growth in the State during the decade 1981-1991 shows that Hindus recorded higher growth rate than India as a whole i.e. 24.74% as against 22.3% in India respectively. The growth rate of Hindus is same in the district and Country, while in the district it is less than State. The growth rate among the Muslims is less than that of State and Country i.e. 13.26%. The Christians population has decreased in the State as well as in the district during the decade.

Inset Table to Annexure IV (b)
Percentage distribution of population by major religions in India, Andhra Pradesh and Prakasam district and its growth rate during 1991-2001

Source: Religion Data, Andhra Pradesh - 2001

This table gives the comparative data on religions among India, Andhra Pradesh and Prakasam district between 1991 and 2001 census, whereas the previous Annexure furnish the comparative data on religion during 1981 and 1991. At India level among the total population returned in the 2001 census Hindus constituted 80.5% as against 82.4% in 1991. The percentage growth rate of Hindus during the decade 1991-2001 has recorded 20.3 whereas the corresponding growth rate during 1981 and 1991 was 22.3%. It clearly shows that growth rate in Hindu population is diminishing which can be attributed that the people of this religion is more conscious about family planning methods. In Andhra Pradesh the percentage of Hindus has recorded 89.0 whereas the corresponding figure during 1991 was 89.1%. However the percentage growth rate of Hindus has fallen to 14.4 from the percentage growth rate of 24.7 as recorded during the decade 1981-1991. In Prakasam district though the percentage of population of Hindus recorded 92.4 as against 91.3 in 1991 their growth rate in 1991-2001 has fallen to 12.1% as against the growth rate of 22.5 % in 1981-1991.

In respect of Muslims, their percentage to total population has recorded 13.4 at India level as against 11.7% in 1991. In Andhra Pradesh their percentage has gone up to 9.2% from 8.9% in 1991. In respect of Prakasam district, Muslims constituted 6.4% of total population during 2001, whereas the corresponding figure recorded in 1991 was 6.6. However in this district the growth rate in the decade 1991-2001 has declined to 7.0% as against the growth rate of 20.9% recorded in 1981-1991.

The other main religion going by numerical strength is Christians. They constituted 2.3% of total population at India level during 2001census. Their growth rate during the decade 1991-2001 is 22.6% at India level as against the growth rate of 16.9% recorded in 1981-91. In Andhra Pradesh their percentage growth rate continues to show the negative trend. The percentage growth rate of this community recorded during 1991-2001 is (-) 2.8 as against (-) 15.1 recorded during decade 1981-1991. In Prakasam district during 2001 Christians constituted 1.1 % to total population as against 2.03% in 1991. The percentage growth rate of this community during 1991-2001 has recorded (-)41.7% as against (-)48.7% in 1981-1991. In respect of other main communities their growth rate is negligible.

Annexure-IV(c)

Distribution between Rural and Urban area of Major religions in Andhra Pradesh and Prakasam district - 1991

Sl. No.	Name of Religion	Andhra Pradesh(in %)		Prakasam District(in %)	
		Rural	Urban	Rural	Urban
1	Hindus	76.55	23.45	85.11	14.89
2	Muslims	41.83	58.17	65.66	34.34
3	Christians	60.48	39.52	71.96	28.04
4	Jains	4.11	95.89	–	100.00
5	Buddhists	80.41	19.59	98.48	1.52
6	Sikhs	10.85	89.15	31.03	68.97

***Source**: Part-IV-B(ii) of Andhra Pradesh 1991 Census.*

Rural – Urban differentials :

In Andhra Pradesh and Prakasam district, it is seen that Hindus form considerably higher in rural areas i.e., 76.55% and 85.11% respectively. Similarly Christians and Buddhists form higher percentage in rural areas than urban both in the State and district. But Muslims form higher percentage in the urban areas of the State, while it is vise-versa in case of the district. The Sikhs and Jains are more in urban areas than rural areas both in the State and district.

Inset table to Annexure IV (c)

Distribution between Rural and Urban area of Major religions in Andhra Pradesh and Prakasam district - 2001

Sl. No.	Name of Religion	Andhra Pradesh (in %)		Prakasam District (in %)	
		Rural	Urban	Rural	Urban
1	Hindus	76.3	23.7	86.0	14.0
2	Muslims	41.9	58.1	70.6	29.4
3	Christians	55.0	45.0	64.0	36.0
4	Jains	5.0	95.0	69.0	31.0
5	Buddhists	66.0	34.0	77.0	23.0
6	Sikhs	17.0	83.0	69.0	31.0

Source: Religion Data, Andhra Pradesh - 2001

The above table indicates the distribution of major religions between rural and urban in Andhra Pradesh and Prakasam district during 2001 census whereas the previous Annexure has given details recorded in 1991 census. The above Annexure and inset table to Annexure show that the distribution of Hindus, Muslims, Christians and other religions between rural and urban at state level as well as at district level. In this district all the six major religions people are living more in rural areas at 2001 census where as in 1991 census Hindus, Muslims, Christians and Buddhists percentage is more in rural areas and the remaining religion of Sikhs percentage is more in urban.

In the case of Jains, cent-per-cent people are living in urban only.

Annexure V
Marital status of population as per 1991 Census and 2001 Census

Marital status has been classified as (i) Never Married, (ii) Married, (iii) Widowed and (iv) Divorced or Separated. To ascertain the marital status of a person, it has been made in the following manner.

(i) A person who has never married at any time before, treated him/her as never married

(ii) A person who has been married, whether for the First or another or at any time and whose marriage is subsisting at the time of Enumeration with the spouse living treated such a person as married

(iii) A person whose husband/wife is dead and who has not been married again, treated her/him as widowed

(iv) A person who has been separated from wife or husband and is living apart with no apparent intention of living together again or who has been divorced either by decree of a law of court or by an accepted social or religious custom but who has not re-married, treated such a person as Divorced/Separated.

The following statement shows the Age, Sex and Marital Status composition of the population separately for Total, Rural and Urban in Prakasam district during the 1991 Census.

The district has returned 2,759,166 persons during 1991 Census, comprising never married, married, widowed and divorced or separated with 1,260,981 (45.70%), 1,334,995 (48.38%), 152,430 (5.52%) and 10,750 (0.39%) respectively.

In the sex break-up, the percentage among males and females under the above 4 categories were 50.92 and 40.32 of never married, 47.08 and 49.73 of married, 1.76 and 9.41 of widowed and 0.24 and 0.54 of divorced or separated recorded respectively in the

district. The female percentage is dominated in all the categories except never married category.

The population have been distributed in 18 age groups starting from 0-9, 10-14 etc. The above statement shows that married, widowed and divorced/ separated persons were found in the age group of 10-14 which reflect bad events such as child marriages, etc. In the never married category both males and females were covered in almost all categories(no data recorded under age not stated). The reasons for never married persons found in the old age group may be due to physically handicapped or mentally disabled, etc. There was no separate data collected in the Census for such reasons.

Source: Socio-cultural Tables (C-Series) - 2001

The above inset table gives the details by age, sex and marital status composition of the population separately for total, rural and urban areas of the district during 2001 census, whereas the previous Annexure shows the above details for 1991 census. In 1991 while furnishing age group-wise marital status data, a separate age group 15-44 where the marital status was high has been shown. In 2001 census keeping in view of persons aged less than 18 years and persons aged less than 21 years, being high concentration of marital status, has been furnished. In the district population of 3,059,423 persons, 755,013 (24.7%) males and 569,022 (18.6%) females were recorded as never married. In the total district population, 767,010 (25.0%) males and 787,011 (25.7%) females were found married during 2001 census. It is pity to note that as against 141,481 widows 26,931 widowers were found in the district during 2001 census. The reason for high percentage of widows can be attributed to aged males marrying younger females. As against total population of 1,123,027 persons in the age group less than 18 years, 51.2% males and 48.0% females were found never married in 2001 census. In respect of married persons under the age group less than 18 years, only 0.1% males and 1.6% females were recorded in 2001 census which means public are more conscious about Marriage Act and also ill-fate of early marriages. Similar trend is noticed both at rural and urban areas even for age group less than 21 years. There is no much variation in the figures of marital status of the district between 1991 and 2001 censuses.

Annexure VI
Age , sex and Education in the district as per 1991 Census and 2001 Census

The education table was worked-out on the basis of literates in the district.

Definition of literate :

A person who can both read and write with understanding in any language is to be considered as literate. If a person who can merely read but cannot write is not a literate. It is not necessary that a person who is literate should have received any formal education or should have passed any minimum educational standard. All the children in the age of 6 years or less have been treated as illiterate even if the child is going to school and may have picked up reading and writing.

The following table gives age, sex and education in the district at 1991 Census:

Annexure VI

Age not stated	180	100	80	80	70	10	44.44	70	12.5

The education table was worked-out on the basis of literates in the district.

It is seen from the above table that literates percentage among school going age group 7-14 years children is 59.53 in the district, while total literates in the district has been worked out to 40.30 only. Female literacy rate is 27.06 % as against 53.14% of males. In all the age groups males literacy is dominating with that of female literacy. Highest educated are found among the persons age 11 years. Literacy among the persons who born after independence i.e., age between 15-49 is more than the persons whose age is above 50 years.

Source: Socio-cultural Tables (C-Series) - 2001

The Annexure presented in the pre-page gives the details of Age, Sex and Education in the district for 1991 census whereas the above inset table reveals the data for 2001 Census. As was done in the previous Census, the children in the Age group 0-6 have been treated as illiterates even in 2001 census. It is seen from the above table that the district has recorded 57.4% literates in 2001 as against 40.3% literates in 1991. In the district the literacy rate for males has recorded 69.4% as against 45.1% in females during 2001 Census. From the above inset table it is noticed that in the school going age groups i.e 7 to 14 years, their literacy rate recorded between 74.7% and 80.7%. In all the age groups male literates are dominating females. The highest educated are found in the age group 9 years with 89.4% and their sex-wise breakup recorded 92.4% in males and 86.2% in females. It is a good trend that the essentiality of the education is felt much by the general public.

Annexure VII
Distribution of different mother tongues returned in 1991 Census at District/ Mandal level and the data at District level for 2001 Census

Mother Tongue :

Mother tongue is the language spoken in the childhood by a persons mother to the person. If mother dies in infancy, the language mainly spoken in the person's home in childhood will be treated as mother tongue. In the case of infants and deaf-mutes the language usually spoken by the mother will be the mother tongue. A very large number of mother tongues have been returned during 1991 Census. It lead to thorough scrutiny and rationalisation, which resulted in 1576 rationalised mother tongues and 1796 names were treated as unclassified or "others". The 1576 rationalised mother tongues were further classified following the usual linguistic methods for rational grouping based on available linguistic information. Thus a total inventory of classified mother tongues returned by 10,000 or more speakers at the all India level were grouped under appropriate languages, where possible, was prepared for final presentation of the 1991 Census data. The total number of languages so arrived at is 114. Of which 18 languages are included in Eighth Schedule to the constitution of India (Scheduled languages).

It is seen from the below shown statement that as many as 18 languages have been returned in Prakasam district. Out of which 15 are Scheduled languages and 3 are non-scheduled languages. Though there are 18 languages spoken in the district, Telugu speaking people were in majority with 93.50% to total population in 1991 Census, followed by Hindi speaking people with 5.76% and Urdu speaking people with 5.41%. The remaining 15 languages formed below one percent.

N= Negligible

The above inset table gives the abstract of the languages as mother tongues and their strength in the district recorded in 2001 Census whereas the previous annexure shows the details for 1991 census. In 1991 the data was presented in alphabetical order whereas in 2001 the mother tongue data has been presented basing on their numerical strength in descending order. The mother tongues having minor returns have been clubbed together and added in the category of 'Others'. Telugu being the region's language has recorded 93.4% to total population in the district with a slight decline in the percentage recorded in 1991 (93.5). The next highest language being spoken is Urdu with 5.5% to total population of the district whereas in 1991 the percentage of Urdu speaking people recorded 5.4. In respect of other scheduled languages it is noticed that their strength is negligible both in 1991 and 2001. Out of 18 scheduled languages the district has recorded 14 languages in 2001 Census. The four languages which were not returned are Manipuri, Sanskrit, Kashmiri and Assamese.
