ANDHRA PRADESH

DISTRICT CENSUS HANDBOOK

Part - A & B

SRI POTTI SRIRAMULU NELLORE

VILLAGE & TOWN DIRECTORY

VILLAGE AND TOWNWISE PRIMARY CENSUS ABSTRACT

Director of Census Operations, ANDHRA PRADESH

Foreword

The District Census Handbook (DCHB) published by Census Organisation since 1951 census, is one of the important publications in the context of planning and development at gross-root level. The publication, which is brought out for each district, contains several demographic and socio-economic characteristics village-wise and town-wise of the district along with the status of availability of civic amenities, infrastructural facilities, etc.

2. The scope of the DCHB was initially confined to a few Census Tables and Primary Census Abstract (PCA) of each village and town within the district. Thereafter, at successive censuses, its scope and coverage has been enlarged. The DCHB published at the 1961 census provided a descriptive account of the district, administrative statistics, census tables and a village and town directory including PCA. The 1971 census-DCHB series was in three parts: Part-A related to village and town directory, Part-B to village and town PCA and Part-C comprised analytical report, administrative statistics, district census tables and certain analytical tables based on PCA and amenity data in respect of villages. The 1981 census DCHB was in two parts: Part-A contained village and town directory and Part-B the PCA of village and town including the SCs and STs PCA up to tahsil/ town levels. New features alongwith restructuring of the formats of village and town directory were added into it In Village Directory, all amenities except electricity were brought together and if any amenity was not available in the referent village, the distance in broad ranges from the nearest place having such an amenity, was given. Information on new items such as adult literacy centres, primary health sub-centres and community health workers in the village were provided so as to meet the requirements of some of the Revised Minimum Needs Programme. Information on approach to the village was provided for the first time in the Village Directory so as to give the details on number of inaccessible villages in each district. In the Town Directory, a statement (IV-A) on slums was introduced to provide the details on civic and other amenities in the notified slums of Class I and Class II towns.

3. The 1991 census DCHB, by and large, followed the pattern of presentation of 1981 census, except the format of PCA was restructured. Nine-fold industrial classification of main workers was given against the four-fold industrial classification presented in the 1981 census. In addition, sex-wise population in 0-6 age group was included in the PCA for the first time with a view to enable the data users to compile more realistic literacy rate as all children below 7 years of age had been treated as illiterate at the time of 1991 census. One of the important innovations in the 1991 census was the Community Development Block (CD block) level presentation of village directory and PCA data instead of the traditional tahsil/taluk/PS level presentation. It was expected that the presentation of village directory and PCA data at CD block level will help the planners in formulation of micro level development plans, CD block being lowest administrative unit.

4. The present series of 2001 census DCHBs have been made more informative and exhaustive in terms of coverage and content. The Village Directory has been enlarged in scope by including a number of other facilities like banking, recreational and cultural facilities, newspapers and magazines and ‘most important commodity’ manufactured in village. Income and expenditure of gram panchayat, wherever possible, has been provided. Apart from these, more details on distance(s) at which basic amenities are available (if not available in the village), are given. This includes educational facilities (namely primary and middle schools and college), medical facilities (viz. Allopathic Hospital, Maternity & Child Welfare Centre and Primary Health Centre), drinking water, post & telegraph (post office and phone), communication, bank, credit societies and recreational

facilities. In Town Directory, the statement on Slums has been modified and its coverage enlarged by including details on all slums instead of 'notified slums'. The information is given in case of all statutory towns irrespective of their class, against only Class I and Class II towns in the 1981 and 1991 censuses. The basic amenities available in the villages and towns are analysed in depth with the help of a number of cross-classified inset tables and statements. Two other significant additions in the publication are inclusion of 'motif' highlighting significant characteristic of the district and analytical notes as annexures. The analytical notes on (i) fertility and mortality and (ii) various measures of fertility and mean age at marriage are prepared based on 1991 Census. Whereas, in the notes relating to (i) percentage distribution of migrants by place of birth/place of last residence, (ii) main religions, (iii) marital status of population, (iv) age, sex and education, and (v) distribution of spectrum of mother tongue, nature and extent of changes occurred in the district in its basic socio-demographic features during the decade 1991-2001 are analysed. The eight digits permanent location code (PLCN) to all the villages and towns have been assigned keeping in view the future needs.

5. The village and town level amenity data have been collected, compiled and computerized in prescribed record structure under the supervision of Shri. V.S. Bhaskar, IAS., Director of Census Operations, Andhra Pradesh. Thereafter, efforts have been made to ensure comparability of the information with that of 1991 census data and the information brought out by the respective state governments in their annual reports and statistical handbooks for various years after 1991. The task of planning, designing and coordination of this publication was carried out by Shri R.G. Mitra, Deputy Registrar General (C&T) and Dr. I.C. Agrawal, Senior Research Officer of Social Studies Division. Dr. R.P. Singh, Deputy Registrar General (Map) provided the technical guidance in the preparation of maps. Whereas, Shri Anil Kumar Arora, Deputy Director of Data Processing Division who worked under the overall supervision of Shri Himakar, Addl. Director (EDP) helped in preparation of record structure for computerization of village and town directory data and the programme for the generation of Village Directory and Town Directory statements including analytical inset tables. The draft DCHB manuscripts received from the Census Directorates have been scrutinized in the Social Studies Division under the guidance of Shri S.L. Jain, Deputy Director and Shri R.K. Mehta, Assistant Director. I am thankful to all of them and others who have contributed to make this publication possible.

D.K.Sikri
Registrar General &
Census Commissioner, India.

Pulicat Birds Sanctuary

The Motif selected for Nellore Handbook is "Pulicat Birds Sanctuary". Nellore district has great potential for tourism with its temples, beach resorts, lakes and birds sanctuaries. Pulicat lake is the second largest brackish water lagoon in India which is spread over Andhra Pradesh and Tamil Nadu states with a length of 70 Kms. and width varying from one kilometre to 20 kilometres. The minimum and maximum depth of this lake are 0.2 metres to 4 metres respectively. Pulicat lake is situated adjacent to the Bay of Bengal formed with back waters of the sea. The lake has 16 island villages inside and about 30 villages adjacent to the lake. The people of these villages depend on this lake for their livelihood.

This lake is historical one and large number of migratory birds like Flamingos, Painted Storks, Egnats, Grey Herons, Pelicans, Spot-billed Ducks etc., visit during winters. On an average 1200 metric tonnes of fish is harvested annually from this lake.

This famous birds sanctuary can be reached from National Highway No.5 at five places viz. Tada, Bheemulavaripalem, Arambakkam, Ramapuram and Sullurpet. The Government of Andhra Pradesh provided facilities to visitors of this lake with an environmental education centre at 'Atakanithippa' to educate them about this unique sanctuary and the need to conserve the nature.

Preface

The District Census Hand Book (DCHB) containing Primary Census Abstract and data on "amenities" for each village and town in the district. The intention of this publication is to place the data collected at the Census alongwith the village and town level amenities data collected from the Mandal Revenue Officers/ Municipal officials in this publication. The amenities data is validated by comparing with secondary data obtained from Heads of the Departments. For example, information on schools was compared with data available with Commissioner, School Education and information on post offices was compared with data obtained from the Chief Post Master General and so on. Validation of data in the above manner was by no means an easy exercise. Scores of officials had put in gruelling efforts for months together. The entire data and manuscripts were computerized. We are now reasonably confident of the correctness of the data but we will not make any utopian claims of cent per cent accuracy. There may be errors but we will be safe in saying that they are minimal.

The District Census Hand Book is divided into the following major components.

1. Introduction.
2. Brief history of the district.
3. Census and non-Census concepts.
4. A detailed write up on the physical features, major cultural and social events, major developments during the decade, places of religious and historic importance etc.
5. Primary Census Abstract (PCA) at the district level, mandal/town level and village level.
6. Brief analysis of PCA data.
7. Village Directory and Town Directory.
8. Brief analysis on Village Directory and Town Directories.

It will not be out of place to mention here that there is perhaps no other publication from any agency that encapsulates so much data on a district. The amenities data includes information on sectors such as Education, Health, Water and Electricity supply, Communication and Transport facilities etc. The idea of presenting amenities data juxtaposed to the Census data is not only unique but also tremendously useful for the data users.

The District Census Hand Book is further enriched with a district map and mandal maps depicting villages/towns with population size and also amenities such as Educational Institutions, Hospitals, Telegraph and Telephone facilities, Banks, Police Station etc.

Some improvement over earlier DCHB have been made to bring more completeness to the data presented in this volume.

1. The names of Colleges, Girls' High Schools, Hospitals run by Government and others have been given as an additional information. Similarly the names of Cinema Halls have been given.
2. Ranking of Mandals according to population is also given.

3. More Appendices and Annexures to important statements are given to make the data more comprehensive.

In the previous Censuses, the manuscripts prepared by this department were supplied to Government of Andhra Pradesh who in turn brought out the publications at their cost. However due to the procedural rigmorale some delay was unavoidable in placing the DCHBs before the data users and planners.

This time, keeping in view the above difficulties, the printing and publication of District Census Hand Books has been taken up centrally under the arrangement of the office of the Registrar General and Census Commissioner, India, New Delhi. The processing of data and preparation of Camera Ready Copies electronically including finalisation of write up was attended to in the office of the Director of Census Operations.

I am grateful to the Chief Secretaries, Principal Secretaries, Secretaries, District Collectors, Municipal Commissioners and other senior officials of the Government of Andhra Pradesh for their co-operation and assistance throughout the Census Operations and in the process of collection of the non-Censal data.

I am extremely grateful to Sri D.K.Sikri, IAS, Registrar General and Census Commissioner, India for the help, guidance and constant support in finalising this volume. My sincere thanks to Sri R.P. Singh, Deputy Registrar General (Map) and Dr.I.C. Agrawal, Assistant Registrar General (SS). Sri. S.L. Jain, Deputy Director for giving guidence, help and co-ordinating this project work and their colleagues in the office of the Registrar General, India.

I also take this opportunity to acknowledge the valuable contribution made for this publication by Sri.J.K.Banthia, Ex-Registrar General, India.

Most of the work relating to DCHB has been carried out under the able guidance and direction of Sri V.S.Bhaskar, IAS, Director of Census Operations, Andhra Pradesh, Hyderabad. I take this opportunity to acknowledge his valuable contribution made for this publication.

The credit for preparation of District Census Handbooks goes to a team of devoted officers and staff of this Directorate who have involved in this project. The names of individuals associated with this project are shown in “Acknowledgements”. I am grateful to all of them.

I hope that the data users will find this publication very useful.

District Highlights - 2001 Census

1. Nellore District stands **10th** in terms of area size and ranks **17**th in terms of population in the state.
2. Nellore district stands **14**th rank in terms of urbanisation with a total Urban population **599,043** forming **22.45** percentage to the total district population.
3. The sex ratio of the district is **984** against **980** in 1991 Census showing upward trend.
4. The density of the district is **204** against **183** in 1991 Census, showing increase over the decade.
5. **Vavveru** village, PLC No. **02290500** is most populated with a population of **30,891** and **Surayapalem** village, PLC No. **02329300** is the least populated with a population of **6** in the district.
6. **Nellore** mandal is most populated with a population of **4,82014** and **Seetharamapuram** Mandal is the least populated with a population of **22,342** in the district.
7. **Nellore** Municipality is most populated with a population of **378,428** and **Gudur** Municipality is the least populated with a population of **63,518** in the district.
8. Out of 100 workers **62.3** are engaged in Agriculture sector, **4.0** in Household industry and **33.7** in other economic activities. Thus showing the predominance **Agriculture** Sector.
9. Out of 100 Male workers in the district **54.6** are engaged in **Agriculture** sector.
10. Out of 100 Female workers in the district **76.5** are engaged in **Agriculture** sector.
11. There is an decrease in the proportion of main workers of the district in the decade (**42.85** percent in 1991 to **36.9** percent in 2001).
12. There is an increase in the proportion of Male workers of the district in the decade (**57.1** percent in 1991 to **58.3** percent in 2001).
13. There is a decrease in the proportion of Female workers of the district in the decade (**33.89** percent in 1991 to **32.3** percent in 2001)
14. The Nellore district is famous for **Rice, Mica, Mines and Sarees .**
15. **Vidavalur and Kovur** Mandals has the lowest number of inhabited villages (**10 each**) and the highest number of inhabited villages (**58**) are found in **Venkatagiri** Mandal .
16. **Nellore** mandal has largest area **9473.00** hectares under irrigation, followed by **Chittamur** mandal with **9169.00** hectares in the district. The mandal with lowest area 1795.00 hectares under irrigation is **Seetharamapuram** Mandal.
17. **Shar Project** village bearing PLC No.**02376100** has the largest area (**10012** hectares) and **Adhvannapu Narayana Kattubadi** village bearing PLC No.**02324700** has the smallest area (**3** hectares) among the villages of the district.
18. Female work participation rate is **32.29** and that of the Males is **58.31** in the district.

(i) About the District Census Handbook

District manuals compiled and published prior to 1905 by the erstwhile composite Madras Government contained not only particulars of items of more or less similar and permanent characteristics like history, religion and ethnography, but also a few statistical tables including those relating to population which became obsolete within a few years of publication. Later, the Madras Government replaced the District Manuals by another publication viz., the District Gazetteer consisting of two Volumes A and B. Volume-A contained descriptive and general tables which explains the text and Volume-B contained detailed statistics. It was decided that Volume B should be brought out periodically after each decennial census so that they contain the latest statistics. Volume-A was published for some districts between 1905 and 1927 in the Composite Madras State. The publication of Volume-A was discontinued in 1927. Volume-B was published for all the districts of the Composite Madras State between 1906 and 1915. The publication of Volume-B was also stopped after 1931 Census.

Similarly the Gazetteer volumes were also brought for some of the districts in the erstwhile Hyderabad State. The scheme of publication of revised District Gazetteers was restarted in the year 1958 by the State Governments. The State Editor, District Gazetteers, Government of Andhra Pradesh had published the Gazetteers of all the districts.

The idea of compiling the District Census Handbooks was initiated during the 1951 census pioneered by Sri. R.A. Gopala Swamy, I.C.S. the then Registrar General, India and Ex-officio Census Commissioner of India, with a view to preserve the census records prepared for areas below the district level. He proposed that all the District Census Tables and Census Abstracts prepared during the process of sorting and compilation, should be bound together in a single manuscript volume and named as the District Census Handbook and suggested that the State Government should take up printing and publication at their own cost. Then onwards, the District Census Handbooks were published in each census with improved pattern with an aim to give the census and non-census data at micro level for the village and district as a whole to suit the requirements of various departments, scholars, research personnel , planners, industrialists, electoral authorities, and other data users, also for efficient public administration by the state.

Pattern at 2001 Census :

The present District Census Handbook of 2001 Census, like the previous Census, is brought out for each district comprising of two Parts. Part- A Village and Town Directory with additional information on amenities viz., availability of commercial banks, recreation, credit societies etc., and land use particulars in the rural areas and Part- B Primary Census Abstract. At the out set an analytical note is given which depicts a general back ground on the district and analytical results on the statements and tables included in the volume. The volume is also provided with brief history of the district, physical aspects, census concepts, non-census concepts, major characteristics with reference to economic resources and administrative set-up during the past decade, few appendixes, etc..

Part A–Village and Town Directory :

The Section- I i.e. Village Directory gives non-census data on the amenities available in each village in respect of educational, medical, drinking water, power supply, post and telegraph, telephone, approach to village, banks, credit societies, receipt of newspapers and magazines, recreation and cultural facilities, nearest town and its distance, distribution of land use area, income and expenditure of the village and name of the most important commodities manufactured.

If an amenity is not available in the referred village, the distance in broad ranges (Kms.) from the nearest place where the amenity is available is indicated. If the nearest place is situated in another state, name of the other state is also given.

The Section-II i.e. Town Directory has been presented in seven Statements viz., Statement – I Status and Growth History, Statement-II Physical

aspects and Location of towns, Statement-III Municipal Finance(receipts and expenditure,1998-99), Statement-IV Civic and other amenities, Statement-V Medical, Educational, Recreational and Cultural facilities, Statement-VI Trade, Commerce, Industry and Banking etc., Statement-VII Civic and other amenities in Slums and an Appendix showing towns with out growths and their population. The reference period for the above statements is 1998-99 and the data is covered for all the statutorily notified towns in the district.

The non-census data at Village/Town level is collected from concerned authorities viz., Mandal Revenue Officers, Municipal Commissioners etc., and scrutinized with meticulous care and validated with the data collected from various departments to provide valid information to the data users.

Part B–Primary Census Abstract :

This data can be stated as the essence of the handbook. The latest census details such as area, total households, population, scheduled castes and tribes population, literates, workers, etc. are presented in these Abstracts.

(ii) History and Administrative Set up of the district

Brief History of the District :

Nellore district is situated in the South Eastern portion of the state, has much evidence of the existence of human habitations since a very long time as innumerable urns of Megalithic culture were discovered on the Northern bank of river Pennar, opposite to Nellore. In the centuries before and after the advent of Christ, the district was inhabited by a tribe called the Aruvar or the Aruvalar, also referred to as the Aruvarnoi by Ptolemy. It indicates that Nellore district formed part of the Aruve country, which also included North and South Arcot districts and Chengalpattu district of the present Tamilnadu State. These Aruvars, who spoke a kind of corrupt Tamil, are believed to have belonged to the Naga tribe.

The district was originally known as Vikramasimhapuri and it appears to have continued under the same name till the 13th century. Later it came to be referred to as Nellore.

Although there is no direct evidence relating to the early phases of the history of Nellore district, the political history of the district, like that of the other districts in Andhra, commences with the Mauryas and the Satavahanas. The Satavahanas were succeeded by the Ikshvakus in the first quarter of the third century A.D., and the tract in which Nellore district was included was then known as Mundarashtra. During this period, this tract had brisk trade relations with the Roman Empire has evidence by the discovery of Roman coins at Nellore.

Later the Pallavas came to power, Samudragupta invaded the South about the middle of the 4th century A.D., and defeated the Pallavas Chief, Ugrasena of Palakkada. Palakkada had been identified variously by Scolars with Nellore, Pulicat and other places. The famous rock-cut temples in the rocky hill called the Bhairavakonda in the district, having close resemblance to the early Pallava monuments, are assigned to the Pallava rulers Mahendravarman-I and Narasimhavarman. After the Pallavas, the district passed into the hands of the Cholas during the period of Parantaka-I (907-955). About the time and in the subsequent centuries, several local dynasties like the Telugu Cholas of Gundikarthi, the Tondiyaraja of Kalujuvvalapadu and the Telugu Cholas of Nellore were ruling over different parts of the district. The Telugu Cholas of Nellore were the most important of the local dynasties.

The rule of the Telugu Cholas during the 12th and 13th Centuries has to be remembered for the vast Telugu literary activity. The great Telugu poet Tikkana Somayaji, who was the minister and the poet laureate of the Telugu Chola king Manumasiddhi-II, was the author of Nirvachanotthara Ramayana and translated the 15 Parvas of the Sanskrit Mahabharatha into Telugu. Other famous Telugu poets Ketana, Marana and Bayyana belong to this age. An important incident that occurred during the reign of Manumasiddhi-II was the famous battle, probably in 1258 A.D between Katamaraju, a cowherd chief and the forces of Manumasiddhi-II over a dispute on pullari (grazing tax). The army of Manumasiddhi-II was led by Khadga Tikkana, who fought valiantly and died in the battle. The incident is immortalised in the famous and popular Telugu ballet "Katamarajukatha".

After the Telugu Cholas the area was ruled successively by the Kakatiyas and Pandyas. The breach between the Cholas and Hoyasalas was availed of by Jatavarmaan Sundara Pandya (1257-64 A.D.) the greatest of Pandyan line. He is said to have occupied Nellore and celebrated his "Vijayabhishekam" there. The district next came under the political sway of the Kakatiyas until 1323. The Mohammadan conquest that started in the last quarter of 13th century created great confusions but they were soon ended with the rise of the Vijayanagar

Empire. The Vijayanagar Empire included the Nellore district from the very beginning, Udayagiri being one of its viceregal centers and even as early as the thirties of 14th century the capital of Kampana I, one of the five sons of Sangama I, who took part in the foundation of that Empire. In 1336, the very next year of the foundation of Vijayanagar Empire, Harihara I, made a grant of a village in Gudur taluk.

Ever since Udayagiri was regarded as a very important Rajya of Provincial division. It included almost the whole of the Nellore district as well as part of Cuddapah. One interesting fact to be noticed in regard to this period is that almost all the important taluk headquarters of the present day were headquarters of seemas then. For instance, Atmakur formed a part of Pranganadu Seema, and Kanigiri, Rapur and Udayagiri were other seemas figuring in inscriptions. The Governor of Udayagiri Rajya was given the title of the 'Lord of the Eastern Ocean'. The province was considered so important that only princes related to the royal family or only very trustworthy generals or nobles were appointed to administer it. The Udayagiri Rajya was founded on the north by Kondavidu Rajya, on the south by Chandragiri Rajya, and on the west by Penukonda Rajya. A small part of Nellore belonged to Kondavidu and Chandragiri provinces, while the main portions of it belonged to Udayagiri. Several records of Bukka-I are found in this district. In 1377 Harihara II, son of Bukka I, figures in Kanigiri taluk. In 1382 Harihara II had for his representative in Udayagiri province his own son the later Devaraya I. In 1386 the same monarch built at Udayagiri the temple of Siddeswhara, besides excavating a holy tank which resembled the "Manasa Lake" for men to battle in.

From 1390 onwards the province came under the reign of prince Devaraya I, the son and successor of Harihara II. Apparently Devaraya was incharge of this province for atleast 12 years before he ascended the imperial throne at Vijayanagar Devaraya I ruled over the country from 1406 to 1422 A.D. and he was succeeded by Ramachandra and Vijay Bukka. Devaraya II who, succeeded his father Vijaya Bukka, reigned the country from 1422 to 1446 A.D.

The chief feature in the reign of Devaraya was the control he came to exercise over the celebrated lines of Reddi chiefs, who ruled over the different parts of the Vijayanagar in the east. The Reddi clans first came into prominence in the age of the Kakatiyas. The Bhimeshwara Puranam, a Telugu poem dedicated to a chief Rajamahendravaram (Rajahmundry) Reddi ruler of the 15th century says that the earliest Reddi chiefs rose to power in the villages of Simhavikrama (Nellore), Duvvur and Gandavaram. Getting themselves, first appointed as soldiers and generals under the Kakatiyas, the Reddies carved out for themselves small feudal principalities during the trouble times which followed the withdrawal of the Mohammadans after their invasions in the first quarter of the 14th century and after. After the death of Prataparudra II in 1323 the local Nayaks or Chiefs in the Krishna, Guntur and Nellore districts carved out kingdoms for themselves in this manner. The Reddies were the most prominent of the Chiefs. According to one account they succeeded the Niyogi Brahmans in the Government of the country. It is clear from the inscriptions that the Reddi family which first rose to power belonged to the Pantakula and Pakanadu. The Panta Reddis still from an important class of the landed gentry of the district and Pakanadu is the land between Nellore and Ongole. When the Reddis became rulers, genealogies characteristic of the Kakatiya dynasties were framed for them. They all traced their political greatness to a common progenitor, Prolaya.

Vema Reddy the son of Prolaya ruled from 1340 to about 1369, the period when the Vijayanagar dynasty established itself in the Nellore district; but Vema Reddi did not recognize the Vijayanagar authority. The Reddies were great patrons of Telugu literature and culture and of Brahmans and temples. Several of them were themselves eminent scholars and poets. Venkatagiri Zamindars were important feudals in this period. One of the early Chiefs of Venkatagiri distinguished himself in the court of Kakatiya King, Ganapathi and was a man of great influence during the reign of Rudrama Devi. During the reign Krisha Devaraya the family lived at Velugodu and this came to use the title of Velugotivaru.

In the later part of the fifteenth century the control of Vijayanagar over the district slackened in consequence of the weakness of the emperors Mallikarjuna and Virupaksha. In the north Kondavidu

Reddies declined from the time of Komativema onwards on account of aggression of their cousins Kataya Vema and others of Rajahmundry. Taking advantage of these circumstances king Kapileswara Gajapathi of Orissa, who inaugurated a new era of imperial greatness for his kingdom, marched southward, subdued the Reddies and pushed his forces into the Nellore district. Kapileswara seems to have advanced far in the south. Udayagiri and Kondaveedu became viceroyalties under the Orissa kings Kapileswara and his successor Purushothama. The Saluva general Narasimha then tried to drive the Gajapathies out and in 1474 - 75 A.D., actually reconquered the whole province upto Rajahmundry. Later on the district came once again under Kapileswara, Purushothama and Prataparudra. Throughout the period when Vijayanagar was under the four Narasimhas, i.e., the two Saluvas and the first two Tuluvas, Nellore district was temporarily lost to Vijayanagar. A new epoch dawned with the occasion of the great Krishnadevaraya in 1509. The greatest of his conquests was the recovery of the Nellore or Udayagiri and Kondavidu Rajyas from the Orissa ruler Prataparudra, whose daughter he subsequently married. Krishna Devaraya as a prince had been first employed in Kondavidu province. The whole of the Nellore district was under the control of Krishnadevaraya throughout his reign and also of his successors Atchutaraya (1530 - 42 A.D.) and Sadasivaraya (1543 - 70) with the disaster at the great battle of Tallikota in 1565 and the transfer of the capital to Penukonda the muslims advanced into Bellary. Kurnool and Anantapur districts and asserted supremacy over the local Chiefs who had hitherto been the vassals of the Vijayanagar empire. The provincial Chiefs tried to assert independence and Nellore was not behind other northern districts in this respect. Tirumala I, who succeeded Sadasivaraya in 1571 had great trouble with the Muslims and his control over the northern parts of the Vijayanagar empire including Nellore became naturally weak. The growing pressure of the musalmans arms enabled provincial Governors to act like independent princess, Chennappa Nayudu, one of the generals of Sadasivaraya, otherwise known as Jagadevaraya, repulsed two invasions by the muslims. A third invasion in 1573 by both Adil Shah and Qutub Shah was more disastrous. The latter swept the country from Peddapuram to the Krishna River, crossed that river and captured Kondavidu, while the rest of the Bijapur troops advanced towards the Nellore district. Prince Sri Ranga who was later known as Sri Ranga I who was incharge of this part of the country checked the muslim activities. Many parts of the Nellore district were however, still subject to frequent muslim invasions.

The English established a factory at Dugarajapatnam in Vakadu Mandal in the district in or about 1625 A.D. It is also known as Armagoan after a local Karanam, Arumughe Mudaliar, who was instrumental in securing it for the English. It was finally abandoned in 1641 A.D. in favour of Madras (Channai).

After the fall of Qutub Shahis, as a result of the Mughal invasion under Aurangazeb in 1687 A.D. The area comprising Nellore and Chittoor districts were under the Nawab of Arcot as a representative of the Asaf Jhahis. Subsequent important events in the history of the district were marked by the attempts of the English to establish their rule in Carnatic. As the Nawab of Arcot resisted to attempts, the tract was taken over by the English and in July, 1790 A.D., Dighton was appointed as the collector of Nellore. Although by August 1792 A.D. the district was transferred to the Nawab's officers, it again passed into the hands of the British in July 1801 A.D., when the Nawab of Carnatic renounced his rights of civil and military government. Thus the English took complete control of the administration of the district which continued till Indian Independence in 1947 A.D.

The people of the district took active part in the freedom movement. Delegates from Nellore district attended the first session of the Indian National Congress at Bombay in 1885. The people responded enthusiastically during the Vandemataram movement (1907), Home Rule movement (1916), the Non-cooperation movement in 1920, the Salt Satyagraha movement in 1930, the Civil Disobedient movement in 1932, and the Quit India movement 1942 A.D. Mahatma Gandhi opened an Ashram, modeled after the Sabarmathi, at Pallipadu on the banks of the Pennar on the 7th of April 1921. During the Salt Satyagraha movement, Maipadu and other places were selected for breaking the salt laws in the district.

The district occupies an important places in the scientific map of the country. In that there is Sriharikota High Attitude Rocket (SHAR) center of the Indian space Research Organisation (ISRO) at Sriharikota. The district also takes the credit for spearheading a campaign against the sale and consumption of intoxicant liquor by the women of Dubagunta village of the district resulting in the total prohibition of the sale and consumption of liquor throughout the state from the 2nd of October, 1993.

The territorial changes of the district, since the acquisition of the district by the English in 1801 included the transfer of Ongole taluk to the newly created district of Guntur in 1904 and of the taluks of Kanigiri, Kandukuru, Podili and Darsi in 1970 to the newly created Prakasam district.

Administrative Set Up

(i) Region of the district where the district is located :This District is located in the South of Andhra Region in the State. In 1985, the then existing 15 taluks were re-organised into 46 Mandals corresponding to all the Revenue Mandals, Mandal Praja Parishads, were also formed which are co-terminus with Revenue Mandals, with the exceptions that the statutory towns are not included in the jurisdiction of the Mandal Praja Parishads.

(ii) Total number of Revenue Divisions and Mandals: During 2001 Census no new Mandals have been carved out. All these 46 Mandals have been grouped under 3 Revenue divisions. When compared the list of villages at 2001 census with that of 1991 Census, there is an increase of 13 villages due to following changes. One village of i.e., Cherlapalli is newly sprung up after 1991 Census in Kovur Mandal. Four Census towns namely Kovur, Naidupet, Sullurpet and shar project are declassified and 14 villages which were fully included in them attained rural status and added to the list of villages. Two villages are deleted from the list of villages which are now fully included in Nellore (M) in addition to the 3 fully included villages in 1991 Census. Thus this district has 1192 villages as per 2001 Census 3 statutory towns i.e., Nellore, Kavali and Gudur and two Census towns i.e., Kovurpalle and Venkatagiri.

The Revenue Division wise Mandals are listed below:

1. Kavali Division: (1) Seetharamapuram (2) Udayagiri (3) Varikuntapadu (4) Duttalur (5) Marripadu (6) Vinjamur (7) Kaligir (8) Kondapuram (9) Kavali (10) Jaladanki (11) Bogole (12) Kovur (13) Vidavalur (14) Dagadarthi (15) Allur (16) Buchireddi Palem (17) Kodavalur (18) Sangam.

2. Nellore Division : (19) Atmakur (20) Anumasamudrampeta (21) Ananthasagaram (22) Indukurpet (23) Thotapallegudur (24) Nellore (25) Venkatachalam (26) Muthukur (27) Podalakur (28) Chejerla (29) Kaluvoya (30) Rapur (31) Sydapuram

3. Gudur Division: (32) Gudur (33) Manubolu (34) Chillakur (35) Vakadu (36) Kota (37) Chittamur (38) Doravarisatram (39) Pellakur (40) Ojili (41) Sullurpet (42) Doravarisatram (43) Tada (44) Venkatagiri (45) Balayapalle (46) Dakkili.

(iii) Physical Features of the District

Location & Size

Nellore district is the most southern coastal district lies between 13o - 30' and 15o - 6' of the northern latitude and 70o - 5' and 80o - 15' of eastern longitude and extends over an area of 13076 sq.kms., accounting for 4.75% of total area of the state. It is bounded on the north by Prakasam district, on the east by the Bay of Bengal on the south by Chittoor district and Changalpat district of Tamilnadu and on the west by Veligonda Hills which separate it from Cuddapah district.

Physiography

The district is generally flat and of low elevation and forms part of the Karnatic plains. The sandy coastal belt extends from the sea for 5 to 7 kms., interior, all along the length of the district. There are numerous back waters along the coast and the best known of them in the pulicat lake.

This district can broadly devided into 2 natural divisions from north to south. The eastern half of the district that adjoins the Coastal belt is fairly fertile with large tracks of paddy cultivating areas and the coast is fringed with large tracks of shrub jungle. Interspersed with coconut, palmyrah, cashew and casuarina plantations. The western half of the district has low elevation towards west with large tracks of low shrub jungles diversified with rocky hills and stony plains.

Drainage

The principal rivers which drain the district are Pennar and Swarnamukhi. Other streams occasional and torrential in character are Kandaleru and Boggeru. All these rivers and riveelets got dry for major part of the year and carry heavy floods during rainy season. The Pennar river is most important rivar a boon to Kovur, Kodavalur, Vidavalur, Indukurpet, Nellore, Buchireddipalem, Muthukur and Thotapallegudur Mandals. It flows for about 112 kms. in the district through Atmakur and between Kovur and Nellore and falls into the Bay of Bengal. It has two anicuts one at Sangam and the other at Nellore.

Climate and Rainfall

The Climate of the district is generally dry and salubrious. April to June are the hottest months with highest and maximum temperature recorded at 39oc. The temperature is low in the months of December and January and the mean minimum temperature is above 20oc in January. The following table shows the maximum and minimum month wise temperature for the year 1999.

Table (a)
Monthwise Maximum and Minimum temperature during the year 1997

Temp. Range	Jan	Feb	Mar	April	May
Maximum	29.9	32.1	36.3	38.7	39.2
Minimum	20.5	22.0	24.0	27.1	28.3

June	July	Aug	Sept.	Oct.	Nov.	Dec.
38.0	36.2	35.4	35.3	32.2	36.6	28.7
28.3	27.8	27.0	26.9	24.5	23.0	20.1

The district lies in an area of precarious and uncertain rainfall. Bulk of the rainfall is received from north - east monsoon only. During the period October to December forming 93.4% of the annual rainfall. The following rain fall for the year 1999 - 2000 shows the average rain season wise in the district. It has received less rain season wise in the district. It has received less rain than normal rain during the year.

Table(b)
Season-wise rain fall during 1999-2000

South-west monsoon June - Sept	North-east monsoon Oct - Dec	Winter period Jan - Feb	Hot weather March-May	Total June-May
186.3	434.7	143.5	51.9	816.4

Soils

Soils of the district may be classified as black, red and sandy. The red soil occupies most of the district but a belt of sand runs along the sea coast. The black cotton soil account for 23% while the red loamy soil is found in 43% and sandy loam found in 34% of the total area.

Flora and Fauna

18.8% of the total area is occupied by forests. But all the forests are not productive. These forests were under scientific management for a long time for good growth. The main forest produce are Teak, Bamboo, Eucalyptus, Cashew, Casurina, Beedileaves etc.

Rabbit, Porcupine and Bear are found in the plain forest. But the hill forests harbour wild life Bear, Panther, Spotted deer and Sambar occasionally, Tigers cross over this district from the forests of Cuddapah district.

The Pulicat lake is situated on the route of migratory birds and harbour which is the host of water birds. Flamingo, Pelicon, King fisher, Snipe, Cormorant, Darter, Egret, Shrike, Herene, Spoon billebis, Teel and Duck are found in this lake. Fish and other marine organisms also thrive in the lake. Apart from the above, reptiles and snakes are also found in the district.

Forest

The total forest area in the district is 2215 sq.km. The plantations raised with them important produces and the total revenue formed by the Forest Department during 1999-2000 is as follows:

Table(c)

Sl.No.	I t e m	Area in Sq. Km.	Revenue derived (Rs. in 000)
1	Bamboo	--	--
2	Others	--	30.812
	a. Fuel	4.00	673.227
	b. Beedi leaves	2,200.00	144.421
	c. Cashew nuts	11.00	324.250
	d. Others	--	1,718.883
	e. Wood	--	--
	T o t a l	**2,215.00**	**2,891.593**

Source: *Collector's report*

Agricultural activity

Agriculture is the main stay of the people of the district. Nearly 2/3rd of the total main workers are engaged in agriculture and its allied activities. More than 79% of the total male workers are in the rural areas depend on agriculture for their livelihood. The total irrigated area is 319049 hect. Of which 1,19,300 hect, is covered under Pennar delta system of irrigation and the remaining is covered by other sources in which the rain fed tanks are the bulk source of irrigation.

Land and Land use Pattern

The soils in the district are predominantly red loamy with sand belt running along the seacoast. The read soil have got a fair coverage of 41.5% with sandy soil coming next with 34.2% black cotton soil with 22.3%. More than 3% of the villages covered by red soil in the district. The red soil account for more than 50% of villages in the mandal that were carved out from Rapur, Atmakur and Udayadiri erstwhile taluks. Sandy loams are more in the mandals that were carved out viz., Kovur, Nellore, Gudur, Sullurpet and Venkatagiri erstwhile taluks. The maximum area of about 76.73% in Sullurpet is covered by sandy loam soil. Black cotton soil occurs predominately in the mandals that were carved out from Venkatagiri, Rapur, Nellore, Atmakur, Udayagiri and Kovur erstwhile taluks. Even in these mandals the coverage ranges between 22% to 38%. The maximum of 38% in Venkatagiri mandal. The following table shows the timetable of agricultural operations in the district in normal year. The figures shown and harvested against each crop represents the percentage of the area of the crop shown separately in each month.

Table(d)

Name of Crop	Jan.	Feb.	March	April	May
Paddy	7.0	5.6	1.8	--	--
Cholam	6.2	0.3	0.7	--	--
Cumbu	0.1	0.1	0.7	2.0	3.5
Ragi	38.6	4.7	0.8	--	--
Korra	0.1	--	1.4	--	--
Varagu	0.4	--	--	--	--

June	July	Aug	Sept.	Oct.	Nov.	Dec.
0.2	1.8	15.5	32.8	19.5	8.6	7.1
--	1.7	5.2	3.6	1.3	38.5	42.5
39.9	33.6	18.4	1.2	0.3	0.1	0.1
1.1	4.2	3.3	7.2	1.2	5.6	33.3
--	77.0	13.9	4.7	1.7	0.2	1.0
--	7.5	47.7	34.8	5.7	2.9	1.0

Cropping Pattern

Abbreviations in weather and seasons has become a hall mark of Nellore district. Though there are four districts showing periods namely 1. Early Kharif, 2. Late or main Kharif, 3. Early Rabi and 4. Late Rabi, essentially the crop seasons are only three. They are early kharif, main rabi and late rabi. This is due to constant failure of monsoon, particularly in the southern belt and also due to chains of series cyclones on account of depressions in November and December months. Thus, main season gets postponed. There is the occurrence of frequent drought during the south-west monsoon followed by cyclone in north-east monsoon which has become the order of the day in recent ten years. The areas shown up to September and from October under each crop will have glaring fluctuations basing on the abbreviations in weather as explained above. Contingency cropping has therefore, become an annual feature in the district.

Table(e)

Details of the areas under irrigation during kharif and rabi under different sources

Source	Area under Irrigation (in hectares)		
	Kharif	Rabi	Total
Canals	49,709	61,719	1,11,428
Tanks	14,762	81,447	96,209
Filter points	19,258	26,716	45,974
Borewells & other Wells	25,840	29,889	55,729
Other sources	1,928	7,781	9,709
TOTAL	**1,11,497**	**2,07,552**	**3,19,049**

The following table shows the pattern of land utilization in the district for the year 1999-2000.

Table (f)

Land utilization particulars of the District

Sl.No.	Item	Area in Hectare	Percentage
1	Forest	2,46,400	18.8
2	Barren and Un-cultivable land	1,61,301	12.3
3	Land put to non Agricultural use	2,32,179	17.8
4	Cultivable Waste	1,05,503	8.1
5	Permanent Pasture and other grazing land	1,00,016	7.6
6	Miscellaneous tree crops and groves including Aquaculture not included in net area shown	17,082	1.3
7	Current follows	58,410	4.5
8	Other follow lands	92,953	7.1
9	Net area shown	2,93,756	22.5
10	Area shown more than once	44,975	--
11	Total Geographical area	13,07,600	100.0

***Source** : C.P.O. Nellore*

Due to change of food habits and low market rates etc., the area under bajra, jowar, ragi etc., are on the down-ward trend year by year. The area under oil seeds like ground and pulses like green gram, black gram, red gram etc., is on the upward trend year after year.

Table(g)

Area under Principal Crop during the year 1999-2000

Sl.No.	Name of the Crop	Area (in Hectare)	Out-turn (in Tonnes)	Yield per Hectare (in Kgs.)
1	Paddy	198,209	543,926	2,858
2	Jowar	529	294	556
3	Bajra	2,146	3,848	1,793
4	Maize	21	60	2,841

Irrigation

The district has plenty of irrigated sources of which major portions are covered under Pennar delta system of irrigation and  remaining is covered by other sources in which the rain fed tanks are the bulk source of irrigation. The following table shows the area irrigated under major and medium irrigation projects for the year 1999-2000.

Table(h)

Sl.No	Major / Med ium	Name of the Project	RegisteredAyacut	Actual irrigated in hectors	
				Net	Gross
1	Major	Pennar river canal system	70,850	70,850	1,00,000
2	Medium	Kanupur Canal	7,638	7,000	7,000
3	Medium	Gandipalem	6,475	1,620	1,620

The following tables reveals the area irrigated under each source and principal crops for the year 1999-2000.

Table(i)
Area irrigated by source

Sl.No.	Irrigated by Source	Area in Hectare	Remarks
1	Canals	88,059	
2	Tanks	67,638	
3	Tube wells & Filter points	63,046	
4	Other Wells	43,263	
5	Lift Irrigation	6,260	
6	Other Source	1,626	
7	Net area Irrigated	2,31,849	
8	Gross area Irrigated	2,69,416	
9	Area Irrigated more than once	37,567

By adopting special programmes to Scheduled Castes , Scheduled Tribes, like assigned lands, development package programme of Agricultural department etc., the formers among Scheduled Castes, Scheduled Tribes are encouraged to adopt the latest technology along with the use of seed of high yielding varieties for getting better yields to up lift them the above the poverty level.

Agricultural machinery implements that are using in Nellore district is as follows:

1	Ploughs	98,579
2.	Diesel Engines	9,947
3.	Electric Pumps	43,352
4.	Tractors	3,854

Natural Wealth

The district is endowed with variety of major and minor Minerals. They are Mica, Silica, Vermiculite etc. The district is the sole producer of Mica in the State. The mine which produces the largest quantity of Mica is the Kalichelam mine situated in Kalichedu, Jotipalle, Motkur and Saidapur mandals. The other mines also produce fairly large quantities of Mica. The Mica mined is brought mostly to the factories at Gudur and there it is exposed to foreign countries.

Mineral Resources

The district is endowed with Minerals like Mica, Barites, Lime shell, Clays, Quartz, Copper, Feldspar, Gypsum, Iron, Ore and Limestone, Granite.

Mica

The Mica belt of Nellore District is one of the three important products. Mica producing near of the spreading about 100 km., in Gudur-Rapur mandal areas. This is capable of resisting enoromous heat. Mica is being used in the manufacture of electricity motor spare parts, Mica sheets and aeroplanes etc. The productive Mica is pegmatities mica mines are situated in Kalichedu, Talupur and Sydapuram areas. Mica being no conductor of electricity is being used in various electrical appliances. The following statement shows the production and dispatch few minerals for the year 1999-2000.

Table(n)

Major / Minor	Type of Minerals	Production (in M.Ts.)	Value (Rs. In lakhs)
M	1.Crude Mica	382	22.92
	2. Scrap Mica	4,754	4.75

Lime Shells

Lime shells are available abundant in the pulicot lake and also available at Attakanithippa Kudiri.

Industries

The industries in the district are mainly non-agro based. The minerals available in the district are mica, Quartz, Feldspar, Silica, Sand, Lime shell, Lime Khankar, Vermicutti Black Granite Barites Copper Ore chin and clay. Based on these minerals a few units have come up in small scale sector and there is scope for some more units if encouraged.

Salt

The salt industry has been well developed at Zugulapalle and Iskapalle villages and to some extent at Krishnapatnam salt manufacturing has been taken up extensively in the district of iodized salt units have also started functioning in the district.

The large and medium scale industries in the district are listed below.

Table(o)
Large and Medium Scale Industries - 1999-2000

Sl.No.	Name of the Industry	Installed Capacity	Investment in (Lakhs)	No. of Employees

Animal Husbandry:

The total live stock in Nellore district is about 27.99 lakhs, of which 2.59 lakhs are cattle 6.07 lakhs are Buffaloes and 5.47 lakhs of sheep and goat. The poultry population in the district is 16.01 lakhs. There are 98 veterinary institutions out of them one is exclusively functioning with artificial insemination facility located at Kovur. to take care and development activities in live stock.

The following Live-stock are registered in the year 1999 - 2000

Table(q)

Sl. No.	Name of the Livestock	Population
1	Cattle	2,58,934

Fisheries

The Nellore district is having a coast line of 163 km., spreading over 8 mandals in the district. Along the coast 23 fishermen villages were there with additional 50 hamlets having active fishermen of 11,550. The estimated Marine landings in the district is 20,785 tonnes. The Pulicat lake which is a biggest brackish, water lake in the country is situated in the district covering an area of 461 sq.km. in the southern part of the district. The fishermen population 72,652 are living around the lake, will have livelihood throughout the year. It is estimated that an annual production of 24,837 tonnes of fish and prawn in the main source of livelihood for the entire fishermen community. In Krishnapatnam village where the Kandaleru river will join the sea only Jetties were formed which are now in deterioration condition. A proposal was already initiated to construct a fishing harbour with the assistance of U.K. Mission to facilitate the mechanized fishing boats for their landing it is now under the consideration of the Government.

Besides 5 fish seed farms functioning at Ipur, Padugupadu, Padamatipalem, Kavali, Gandipalem another National fish seed farm was constructed with an outlay of Rs. 54.00 lakhs and started functioning from the year 1992. Thus the total fish seed farms in the district are 6. The National fish seed farm has demonstrated its capacity for speedy progress making and even speedier implementation of the largest fished from year by year and its performance is quite encouraging through the Technical Officers bestowed their attention surprising the adverse climate conditions during breeding operations. And with in no time the big project will command the speed in meeting the growing demand of fish seed requirements to the formers of the Nellore district. The total nursing area of these farms is 29.46 hectares and estimated seed production is 283 lakhs as against the requirements of 400 crores fish seed for stocking all the cultivable water bodies in the district. There are 7 reservoirs with water spread area 70,677 hectares and 416 tanks covering the effective water spread area of 7,629 hectares.Under fishermen welfare scheme 137 fishermen co-operative societies and 7 fisherwomen co-operative societies are functioning with a total membership of 26,211.

(iv) Major Social and Cultural events, natural and administrative developments and significant activities during the decade.

During the decade 1991-2001 no significant social and cultural events have occurred in the district. In respect of administrative developments no new revenue division has been carved out and also no new mandals have been carved out. When compared the list of villages at 2001 Census with that of 1991 Census, i.e., there is an increase of 13 villages due to the following changes. In Kovur mandal one village by name Cherlapalle is newly sprung up after 1991 Census. Four Census towns viz., Kovur, Naidupet, Sullurpet and Shar Project are declassified and 14 villages which were fully included in them attained rural and added to the list of villages. Two villages are deleted from the list of villages which are now fully included in Nellore Municipality. As such Nellore district has 1192 villages 3 statutory towns viz., Nellore, Kavali and Gudur and two Census towns i.e., Kovvurpalle and Venkatagiri.

As regards significant activities, the prevention of Child Labour, Social Security Schemes, Janmabhoomi, Cheyutha and Spandana programmes are worth mentionable in the district during the decade.

In the year 1996 under the Chairmanship of the District Collector the 'Bala Karmika Vikasa Samithi' has constituted. The main aims and objectives of the samithi are conducting surveys on Valnerable child labourers in hazardons occupations, creating awareness among the public about the steps taken by the government to eliminate child labour, implementing programmes like creating public awareness, running special schools, imparting non-formal education and generating income and employment opportunities, etc.

The social security schemes such as payment of pensions to the aged, widows, landless agricultural workers and physically handicapped persons are implemented in the district.

During the decade, as in the other districts, a novel scheme called "Janmabhoomi" has been launched on the new years day 1997 by the Government of Andhra Pradesh. This adds new dimension particularly in rural development in the sense that people are involved in decision making and development process. The main activities taken up under this programme are aimed at achieving the basic needs of the people belonging to both rural and urban through "Sramadhanam" with the people's partcipation.

As in the other districts, in this district also, with the inspiration of Janmabhoomi programme, 'Spandana' another novel scheme totally envisaged by the district administration for the overall development of villages has been taken up with the aims of

1.Education for all

2.Family planning programmes

3.Usage of Bio-gas plants / Smokeless chullas to prevent air pollution

4.Clean village concept

Yet another novel programme envisaged by the district administration for benefitting the physically handicapped in the district is called 'Cheyutha'. All the government officials connected with the physically handicapped will sit under one roof and do the needful then and there. The benefits such as issue of physically handicapped certificate by the medical board, RTC passes, railway passes, registration in employment exchanges, etc., were extended besides giving aids and appliances to the identified handicapped persons.

(v) Brief description of Places of religious, historical or archaeological importance in Villages and places of tourist interest in the towns of the district.

There are many important tourist and religious places in the district. Details of such places are given below.

Places of Religious and Historical importance

1. Anumasamudrampet (Anumasamudrampet Mandal)

This village is situated at a distance of 11 kms. from Atmakur. There is an ancient mosque built by Khaja Rahmthulla Saheb. There is also a tomb of Hazarat Khaja Nawa Rasool containing a dome minar near a ruined fort on the summit of a small hill, where 'urs' of Hazrat Khaja Nawab Rasool is celebrated here annually during September and is attended by a large number of muslim devotees coming even from far of places such as Hyderabad, Nagapur, Chennai, Cuddapah and Kurnool etc.

2. Duggarajapatnam (Vakadu Mandal)

Dugarajapatnam, situated at distance of 40 kms. to the east Gudur, is a coastal village on the west of the Buckingham Canal and was one of the natural ports in the country. The English are said to have first landed at this port. Some relics of the old constructions such as the lighthouse can still be seen here.

3. Penchalakona (Rapur Mandal)

Penchalakona is a hamlet of Gonupalle revenue village. It is about 8 kms. from Gonupalle village and 24 kms. from Rapur. It is a famous for the temples of Penusila Narasimha swamy or Penchalaswami and Ankamma. The temple is situated at the foot of a hill in Penchalakona valley and said to have been found by a Sage called Kanva Mahamuni. The annual festival of the deity celebrated during April-May attracts large number of devotees from this district as well as far away places. Penchalakonda is a beautiful scenic spot. It is pleasant during summer and tourist resort.

4. Narasimhakonda (Nellore Mandal)

It is 8 kms. from Nellore town. On the hill there is Vedagiri Narasimha Swami temple. Large number of devotees participates in Brahmostavam in the month of May.

5. Jonnawada (Buchireddipalem Mandal)

It is 8 kms. from Buchireddi Palem. There is Kamakshi Tai temple. So many devotees especially women visit the temple daily. The village is said to have got its name from the "Janam" (sacrifice) performed by Kasyapa Praja Pati. It has an ancient Siva temple dedicated to Mallikarjuna Swamy and Kamakshamma. The name of Kamakshamma is particularly famous. Annual festival is held in the month of June when people from different parts of the state assemble here with their offering to the deities.

6. Kasumur (Venkatachalam Mandal)

Kasumur is situated at a distance of 8 kms. from Venkatachalam Railway Station and 24 kms. from Nellore. This village is famous for the 'urs' of Saik Mastan vali also known Mastanayya, celebrated on 25th day of Rabi-ul-Auwal. Large number of devotees congregate on the occasion of 'urs' from the neighbouring villages irrespective of caste, creed or religion.

7. Nellore Town (Nellore Mandal)

Nellore is the headquarters of the district, Revenue division and the Mandal of the same name. One of the explanations offered is that it got its name from the extensive paddy cultivation in and around

the other neighboring villages of Nellore (Nellu means paddy in Tamil, ur means village). Nellore was also known Vikramasimhapuri because of the town is believed to have been built either by or during the time of Vikramasimha, a local chieftain of a remote date. One of the most important temple in Nellore is Talpagiri Ranganathaswami, also known as Ranga Nayakulu and it is the most frequented one by the tourists. It stands just on the southern Bank of the river Pennar. This Temple has a Galigopuram which is 29 metres high having seven gold kalasams. The attractive aspect in the temple in the Addalamandapam. Mirrors are arranged at angles with a elevated and decorated seat for Lord Krishna in the centre. When the deity is placed on the seat, hundreds of images are reflected presenting a panoramic view. The biggest mosque in the town is the Jumma Mosque. Ayyappa Swamy temple is situated at Vedayapalem in Nellore town. It is constructed with donations recently. Daily so many devotees and tourists visit the temple.

8. Mypadu (Indukurupet Mandal)

It is at a distance of 22 kms. from Nellore town. It is a village on the coastal line having transport facilities and also famous as a summer resort with guest houses.

9. Somasila (Anantasagaram Mandal)

Somasila is situated in the south-west corner of erstwhile Atmakur Taluk at the foot of the Veligondas. The river Pennar breacks through the Veligondas from Cuddapah district and enters Nellore district. Someswara Temple on the northern bank of pennar has a great religious importance. The Bramhmostavam celebrated during April, May draws a large number of piligrims from distant places. The village was chosen for construction of "Somasila project".

10. Sullurpet (Sullurpet Mandal)

SHAR (Sriharikota High Attitude Rocket) center of the Indian Space Research Organisation (ISRO) at Srihari Kota in Sullurpet Mandal. Sriharikota Rocket launching Station is situated here. Pulicot lake is covered between the villages Kuridi and Pantrangam along 12 kms. Different varieties of birds come from distant places in the month of November.

11. Nelapattu (Doravarisatram Mandal)

There is a bird sanctuary. Every year, from October to February and March different varieties of birds come here from different places.

12. Udayagiri (Udayagiri Mandal)

Udayagiri village the Mandal head quarters is situated at a distance of 96 kms. from Nellore and 80 kms. from Kavali. Udayagiri was also known as Kondayapalem in ancient times. It lies at the foot of the Udayagiri hill on which as about 938 meters above the sea level. The hill fort is supposed to have been built by laungula Gajapathi, a Hindu King and appears to have been improved by his successors. On most of its side, the fort is inaccessible but it may be reached by a jungle track on the eastern face of the hill and by path-way along the ravine on the northern side. The fort came under the sway of the Vijayanagar dynasty during the reign of Sri Krishna Devaraya and after the fall of the Vijayanagar empire, it was taken possession of by Mohammadan kings. It is said that during Sri Krishna Devaraya's regime there was a big town here with a diameter of eight miles and after him disintegrated into a small village leaving the traces of its old glory in a good number of ruined temples. On the hill there are two mosques built by the muslim rulers. There are also ancient temples in the village. There are many archaeological ruins in the village which indicate that the place was once an extensive and populous town of great importance.

The temple of Lord Krishna situated on the southern part of the village belongs to the Pallava type with the Stupa on the top of the "Garbhagudi" (Sanctum Sanctorum) and with the Prakarams enclosed by high walls. A hundred yards from it are the ruined compound walls with entrance gate, tower and an un finished "Kalyana Mantam". The Kalyana Mantapam is a peculiar feature of the Vijayanagar type of temple architecture. But the temple proper is an old construction which is the standing evidence of the fact that its greatness dated back to the eleventh century. The frame work of the stupa is still in good condition though the images have all disappeared. The remains of the compound wall and the entrance gate which are of the Chola type indicate apparently the existence of another temple on whose site the "Kalyanamantapam" was built. The

Mantapam is a splendid type of architecture with finally carved pillars.

The Ranganayaka temple is of the Chola type with two high walled enclosures (Prakarams) with long corridors. The eastern gate which was probably started during the regime of Srikrishna Devaraya is left unfinished. The Kalyanamantapam and some other structures are probably the later additions. The temple though large does not present any high style of architectural importance. After the fall of Vijanagar empire, the image of Ranganayaka is said to have been transferred to "Ranganayaka" temple of Nellore town.

There is one small temple (the Anjaneya temple) which is situated at the center of the village and which contains some finally carved images of Vighneswara.

There is another temple on the hill, the Vallabhacharya temple named after the constructor who was apparently one of the Ministers or Governors of Sri Krishna Devaraya. There is a "Koneru" (tank) by the side of the temple and the location is very picturesque.

The Udayagiri hill is noted for different medicinal herbs required for Ayurvedic preparations. The local people there fore call this as the "Sanjiva Hill".

On the hill at a height of about 2,000 feets there is a cool spot where water falls down in drops from a height of 20 fts. These water drops trickle down from the boulders perched above. The mere taste of this water is invigorating and makes tired persons feel fresh and cool. This spot is called "Tapaka" which means oozing.

13. Venkatagiri (Venkatagiri Mandal)

Venkatagiri town is the head quarters of the mandal of the same name and is situated at a distance of about 35 kms. from Naidupet Railway station and 3 kms. from Venkatagiri Railway station. It is good communication facilities by road. It is famous for handloom weaving and Venkatagiri sarees are in great demand from all over the country. Fine lace bordered and Zari bordered sarees and dhotis are woven and exported to different parts of the country. There are a few fine buildings here constructed by the former Zamindars. These buildings known as Indra Mahal, Rajah Mahal and Taj Mahal are of tourist interest. The town contains two big temples dedicated to Kasiviswanatha-swami and Vardarajaswami. Annual festival of Viswanathaswami held in July attracts a large number of devotees.

(vi) Major characteristics of the district, contribution of the district in the form of any historical figure associated with the district.

The district was originally known as Vikramsimhapuri and it appears to have continued under the same name till the 13th century. Later it came to be referred to as Nellore. Though the district has not produced major historical figures, it has worth mentionable man late Sri Potti Sriramulu who fought for the formation of the states on linguistic basis.

This district occupies an important place in the scientific map of the country in that there is Sriharikota High Altitude Rocket (SHAR) center of the Indian Space Research Organisation (ISRO) at Sriharikota. The district also takes the credit for sphearheading a campaign against the sale and consumption of intoxicant liquor by the women of Dubagunta village of the district resulting in the total prohibition of the state and consumption of liquor throughout the State from the 2nd of October 1993.

This district can broadly be divided into 2 natural divisions from north to south. The eastern half of the district that adjoins the coastal belt is fairly fertile with large tracks of paddy cultivating areas and the coast is fringed with large tracks of shrub jungle.

The important rivers which drain the district are Pennar and Swarnamukhi. The climate of this district is generally dry and salubrious.

The Pulicat lake is situated on the route of migratory birds and harbour which is the host of water birds.

Regarding the minerals, the district is the sole producer of Mica in the state.

In this district Venkatagiri town is the headquarters of the mandal of the same name and is situated at a distance of about 35 kms from Naidupet Railway Station . It is famous for handloom weaving and Venkatagiri sarees are in great demand all over the country.

The 3 railway lines travelling the district are the Renigunta - Gudur line, Vijayawada and Guntakal line and the Madras and Calcutta line. In the district, there are 27 railway stations connecting 12 mandal head quarters. The National Highway number 5 connecting Madras with Vijayawada passes through this district and measures about 185 kms.

The main staple food of the people in the district is Rice. In a few parts Ragi and Jowar are also reported.

(vii) Census Concepts

Population census is a great national task, which we are called upon to undertake for every ten years. In India, the 1872 marked as the beginning of modern census taking, when it was conducted at different points of time in different parts of the country. From 1881 onwards a complete and synchronous census was held. The present Census is a land mark administrative event, as this has generated a historic bench mark data to shed light on the state of nation's society and other demographic, economic and socio-cultural data which simultaneously makes transition from one century and millennium to the next. The 2001 Census was the 14th decennial Census of India and the 6th after independence.

The Census of India was conducted in two phases namely, I) House-listing Operations II) Population Enumeration. The first phase was conducted during April-June,2000 in different States/Union territories depending upon their local conditions. In Andhra Pradesh it was conducted from 11th May to 5th June 2000. The house-listing operations provide a base for the population enumeration, besides providing comprehensive database for assessing condition of human settlements, the housing deficit and future housing requirement for formulation of housing policies. This also provides a massive data on amenities available to the households which was much needed by various departments of the Central and State Governments and other Non-Governmental agencies, for planning and development in different sectors of the economy. Hence house-listing operation is a pre-requisite for population enumeration.

Unlike 1991 census, there are significant changes in house-listing schedule for 2001 census. The questions on condition of the census house, number of married couples living in the household and having independent room for sleeping, bathroom and kitchen within the house and using the means of entertainment and communication facility of radio, transistor, television, telephone and possessing of means of transport like bicycle, scooter/motor cycle, car/jeep/ van and availing of banking services by the household are added to the present house-list schedule.

The main population enumeration was conducted from 9th February to 28th February, 2001, followed by revisional round from 1st March, 2001 to 5th March, 2001, to update the data with reference to 00.00 hours of 1st March, 2001. The houseless population was enumerated at midnight of 28th February 2001.

The household schedule and individual slip of 1991 census were replaced by household schedule of A3 size containing three parts to collect the information from each household at 2001 Census. In the present Census, the house-hold schedule is designed in such a way to suit the requirement of capturing the data through scanners. At the 2001 Census, for the first time ***Image-based data capturing technology through scanners and computer network has been introduced*** with a view to provide error free data by avoiding keying in of data.

The house-hold schedule broadly covered the individual particulars under four major headings 1) General and Socio cultural characteristics (Q(1 to 15), 2) Characteristics of workers and non-workers 3) Migration characteristics (Q.21 to 22)and 4) Fertility particulars (Q.23). Part-I deals with location code particulars, Part-II relates to Individual particulars with 23 questions, consisting of 1 to 39 columns, Part-III covers on cultivation/plantation particulars like land possessed, type of tenancy enjoyed by the household/ household member. Some additional questions 1) on disability, 2) Particulars relating to travel to the place of work a) distance from residence to place of work, b) mode of travel to the place of work, 3) household engaged in cultivation/plantations are added in the present household schedule.

Marital status, mother tongue, religion and literacy status (for 7 and above) migration, fertility particulars and the identification of SC/ST are repeated but the age at marriage is also ascertained for males at 2001

Census. For the people, who are attending educational institutions, a separate code has been provided to record the Vocational institute, other institute and literacy centre in addition to school/ college.

Criteria for enumeration of persons in a particular household :

a) All those who normally reside and are present in that household during the entire period of enumeration from 9th February to 28th February, 2001, b) also those who are known to be normally residing and had actually stayed during a part of the enumeration period (Feb.9th to 28th Feb.2001) in the household but are not present at the time of enumerator's visit, c) also those who were known to be normally residing and are not present at the time of enumerators visit but are expected to return before 28th Feburary,2001 and d) Visitors who are present in the household censused and are away from the place of their usual residence during the entire enumeration period. For the purpose of enumeration, such visitor will be treated as normal resident of the household in which they are actually found during the enumeration period provided that they have not been enumerated elsewhere. One of the essential features of population enumeration in the second phase is each person enumerated and her/his individual particulars are collected at a well defined point of time.

Location Code Number :

The procedure of assigning location code number in a zigzag manner starting from North-west corner and ending at South-east corner, is adopted for 2001 Census. The Andhra Pradesh state was assigned Location Code No.28 as against 02 in 1991 census. In a similar fashion, the location code numbers of the districts in Andhra Pradesh state have been changed and revised location code numbers were allotted in order of geographical contiguity, beginning from North-West point of the state and ending at the South East point. Thus the Adilabad district has been assigned Location Code No. as 01 and Chittoor district Location Code No. 23 at 2001 Census. Accordingly, the location code numbers of mandals in each district have been changed for 2001 census.

An important change at 2001 census is allotment of permanent location code numbers to all the villages in the state. Since the whole data ie., Village and Town Directory information is also being computerized, the allotment of permanent location code numbers would facilitate the data users for easy access and retrieval the data of a particular village at micro level by the click of a mouse. The Permanent Location Code Number (P.L.C. No.) is an eight digit number starting with 00000100 in a zig-zag fashion from North-West corner in the first Mandal of Adilabad district and run continuously for all the districts while ending South-East corner to the extent possible at last village in the last Mandal of Chittoor district. Since this State has 28,123 villages at 2001 census, last village of last mandal in Chittoor district will have PLC No.02812300. A significant provision has been made to allot PLC Nos. to newly created villages if any in future. The last two digits of PLC No's are kept as '00' only to provide for additional villages. For example a new village has been created after PLC.No.001231400 it will be assigned PLC No. as 001231401. Further, it is indicated that there is a provision for a minimum of 99 villages adjoining to a particular village allotting Permanent Location Code.

For urban areas also location code structure has been changed in a minimum way. Earlier, for towns in a district location code numbers were given roman letters in alphabetical order. This time, while assigning roman numbers instead of going to alphabetic order, location code numbers were given from North-West part of the district ending at South-East of the district to the extent possible.

Therefore, the PLC numbers of the villages and location codes of urban areas have under gone change in Census of India, 2001 as compared to 1991. In case an urban area is spread over in two districts, the location code of urban areas in both the districts will be the same irrespective of zigzag manner.

Building :

A `Building' is generally a single structure on the ground. Sometimes it is made up of more than component unit which are used or likely to be used as dwellings(residences) or establishments such as shops, business houses, offices,

factories, workshops, worksheds, Schools, places of entertainment, places of worship, godowns, stores etc. It is also possible that building which have component units may be used for a combination of purposes such as shop-cum-residence, workshop-cum-residence, office-cum-residence, etc..

Usually a structure will have four walls and a roof. But in some areas the very nature of construction of houses is such that there may not be any wall. Such is the case of conical structures where entrance is also provided but they may not have any walls. Therefore, such of the conical structures are also treated as separate buildings.

Permanent houses :

Houses, the walls and roof of which are made of permanent materials. The material of walls can be any one from the following, namely, galvanized iron sheets or other metal sheets, asbestos sheets, burnt bricks, stones or concrete. Roof may be made of from any one of the following materials, namely, tiles, slate, galvanized iron sheets, metal sheets, asbestos sheets, bricks, stones or concrete.

Semi-permanent houses :

Houses in which either the wall or the roof is made of permanent material and the other is made of temporary material.

Temporary houses :

Houses in which both walls and roof are made of materials, which have to be replaced frequently. Walls may be made from any one of the following temporary materials, namely, grass, thatch, bamboo, plastic, polythene, mud, unburnt bricks or wood. Roof may be made from any one of the following temporary materials, namely, grass, thatch, bamboo, wood, mud, plastic or polythene.

Dwelling Room :

A room is treated as a dwelling room if it has walls with a doorway and a roof and should be wide and long enough for a person to sleep in, i.e. it should have a length of not less than 2 meters and a breadth of at least 1.5 meters and a height of 2 meters. A dwelling room would include living room, bedroom, dining room, drawing room, study room, servant's room and other habitable rooms. Kitchen, bathroom, latrine, store room, passageway and verandah which are not normally usable for living are not considered as dwelling rooms. A room, used for multipurpose such as sleeping, sitting, dining, storing, cooking, etc., is regarded as a dwelling room. In a situation where a census houses is used as a shop or office., etc., and the household also stays in it then the room is not considered as a dwelling room. But if a garage or servant quarter is used by a servant and if she/ he also lives in it as a separate household then this has been considered as a dwelling room available to the servant's household. Tent or conical shaped hut if used for living by any household is also considered as dwelling room.

A dwelling room, which is shared by more than one household, has not been counted for any of them. If two households have a dwelling room each but in addition also share a common dwelling room, then the common room has not been counted for either of the households.

Census house :

A `census house' is a building or part of a building used or recognised as a separate unit because of having a separate main entrance from the road or common courtyard or staircase, etc. It may be occupied or vacant. It may be used for residential or non- residential purpose or both.

In certain peculiar situations, the manner in which buildings and census houses were identified for numbering in the field by the enumerators is described hereunder :

Sometimes a series of different buildings are found along a street which are joined with one another by common walls on either side looking like a continuous structure.

These different units are practically independent of one another and are likely to have been built at different times and owned by different persons. In such cases, though the whole structure with all the adjoining units apparently appears to be one building, each portion was treated as a separate building and its constituent units as separate census houses.

On the other hand, one may come across cases, particularly in large cities of multi-storeyed ownership flats. In these cases while the structure looks like

one building, different persons own the flats. In case of such multi-storeyed structures, having a number of flats owned by different persons, the entire structure was treated as one building and each flat as a separate census house.

If within a large enclosed area, there are separate buildings owned by different persons then each such building is treated as a separate building. There can be a situation where within an enclosed compound there are separate buildings owned by an undertaking or company or even government that are actually in occupation of different persons. For example, Indian Oil Corporation colony where the buildings are owned by the Corporation but these are in occupation of their employees. Each such building was treated as a separate building. But if in any one of these buildings there were flats in occupation of different households, each such flat was reckoned as a separate census house.

Sometimes if becomes difficult to apply the definition of census house strictly in certain cases. For example, in an urban area, if a flat has five rooms, each room having direct entrance from the common staircase or courtyard. By definition, this has to be treated as five census houses. If all these five rooms are occupied by a single household it was not realistic to treat them as five census houses. In such a case,`singleness' of use of these rooms along with the main house should be considered and the entire flat was treated as one census house. On the other hand, if two independent households occupy these five rooms, the first household living in 3 rooms and the second household occupying 2 rooms, then considering the use, the first three rooms together were treated as one census house and the remaining rooms as another census house. But if each room was occupied by an independent household, then each such room was treated as a separate census house.

In case of hostels, hotels, etc., even if the door of each room in which an inmate lives opens to a common verandah, staircase, courtyard or a common room, as it happens almost invariably, the entire hostel/ Hotel building was treated as one census house. but if such hostels/ hotels have out- houses or other structures used for different purposes or the same purpose, then each such structure attached to the main hostel / hotel was treated as a separate census house.

In some parts of the country, in rural areas, the pattern of habitation is such that a group of huts, located in a compound, whether enclosed or unenclosed, is occupied by one household. While the main residence may be located in one hut, other huts may be used for sleeping, as a kitchen, bath room, baithak, etc. Though each of the huts was a separates structure, they form a single housing unit and therefore, have to be treated collectively as one building and one census house. If some of the huts are used by one household and the others by a second household as residence, then the two groups of huts were treated as separate census houses. However, if there were also other huts in the compound used for other purposes and not as part of the household's residence such as, cattle shed, workshed, etc., these were treated as separate census houses.

On the other hand, in urban areas, where more than one structure within an enclosed or open compound (premises) belonging to the same person, e.g., the main house, the servant's quarter, the garage, etc., only one building number was given for this group and each of the constituent a separate census house number.

Only cases where a structure with roof and pillars has come up was treated as a building.

Village :

The basic unit for rural areas is the revenue village which has definite surveyed boundaries. The revenue village may comprise of one or more hamlets but the entire village is treated as one unit for presentation of data. In un-surveyed areas, like villages within forest areas, each habitation area with locally recognized boundaries is treated as one village.

Rural - Urban area :

The data in tables on Houses, Household Amenities and Assets are presented separately for rural and urban areas. The unit of classification in this regard is `town' for urban areas and `village' for rural areas. In the Census of India 2001, the definition of urban area adopted is as follows :

(a) All places with a municipality, corporation, cantonment board or notified town area committee, etc.

(b) A place satisfying the following three criteria simultaneously :

i) A minimum population of 5,000 ;

ii) At least 75 per cent of the male working population engaged in non agricultural pursuits ; and

iii) A density of population of at least 400 per sq. km. (1,000 per square mile).

For identification of places which would qualify to be classified as 'urban' all villages, which, as per the 1991 Census had a population of 4,000 and above, a population density of 400 persons per sq. km. and having at least 75 per cent of male working population engaged in non-agricultural activity were considered. To work out the proportion of male working population referred to above against b) (ii), the data relating to main workers were taken into account.

Apart from these, the outgrowths(OGs) of cities and towns have also been treated as urban under 'Urban Agglomerations'. Examples of out-growths are railway colonies, university campuses, port areas, military camps, etc., that may have come up near a statutory town or city but within the revenue limits of a village or villages contiguous to the town or city. Each such individual area by itself may not satisfy the demographic criteria laid down at (b) above to qualify it to be treated as an independent urban unit but may deserve to be clubbed with the towns as a continuous urban spread. Thus, the town level data, wherever presented, also includes the data for outgrowths of such towns.

City :

Towns with population of 1,00,000 and above are called cities.

Urban Agglomeration :

An Urban Agglomeration is a continuous urban spread constituting a town and its adjoining urban outgrowths (OGs) or two or more physically contiguous towns together and any adjoining urban outgrowths of such towns. In some cases railway colonies, university campuses, port areas, etc., may come up near a city or statutory town outside its statutory limits but within the revenue limits of a village or villages contiguous to the town or city. Each such individual area by itself may not satisfy the minimum population limit to qualify it to be treated as an independent urban unit but may deserve to be clubbed with the town as a continuous urban spread.For the purpose of delineation of Urban Agglomerations during Census of India 2001, following criteria are taken as pre-requisites :

(a) The core town or at least one of the constituent towns of an urban agglomeration should necessarily be a statutory town ; and

(b) The total population of all the constituents (i.e., towns and outgrowths) of an Urban Agglomeration should not be less than 20,000 (as per the 1991 Census).

With these two basic criteria having been met, the following are the possible different situations in which Urban Agglomerations would be constituted :

i) a city or town with one or more contiguous outgrowths;

ii) two or more adjoining towns with their outgrowths; and

iii) a city and one or more adjoining towns with their outgrowths all of which form a continuous spread.

Household :

A 'household' is usually a group of persons who normally live together and take their meals from a common kitchen unless the exigencies of work prevent any of them from doing so. Persons in a household may be related or unrelated or a mix of both. However, if a group of unrelated persons live in a census house but do not take their meals from the common kitchen, then they are not constituent of a common household. Each such person was to be treated as a separate household. The important link in finding out whether it was a household or not was a common kitchen. There may be one member households, two member households or multi-member households.

Institutional household :

A group of unrelated persons who live in an institution and take their meals from a common kitchen is called an Institutional Household. Examples of Institutional Households are boarding houses, messes, hostels, hotels, rescue homes, jails, ashrams, orphanages, etc. To make the definition more clearly perceptible to the enumerators at the Census 2001,

it was specifically mentioned that this category or households would cover only those households where a group of unrelated persons live in an institution and share a common kitchen.

Houseless household :

Households who do not live in buildings or census houses but live in the open on roadside, pavements, in hume pipes, under fly-overs and staircases, or in the open in places of worship, mandaps, railway platforms, etc., are treated as Houseless Households.

Scheduled Caste and Scheduled Tribe :

Article 341 of the Constitution provides that the President may, with respect to any State or Union territory, specify the castes, races or tribes or parts of or groups within castes, races or tribes which shall for the purposes of the Constitution be deemed to be Scheduled Castes in relation to that State or Union territory. Article 342 similarly provides for specification of tribes or tribal communities or parts of or groups within tribes or tribal communities which are to be deemed for the purposes of the Constitution to be Scheduled Tribes in relation to the various States and Union territories. In pursuance of these provisions, the list of Scheduled Castes and / or Scheduled Tribes are notified for each State and Union territory and are valid only within the jurisdiction of that State or Union territory and not outside.

It is important to mention here that under the Constitution (Scheduled Castes) Order, 1950, no person who professed a religion different from Hinduism was deemed to be a member of a Scheduled Caste in addition to every member of the Ramdasi, Kabirpanthi, Majhabi or Sikligar caste resident in Punjab or Patiala and East Punjab States Union were in relation to that State whether they professed the Hindu or the Sikh religion. Subsequently, in September 1956, by an amendment, the Presidential Order of 1950 and in all subsequent Presidential Orders relating to Scheduled Castes, the Hindu and the Sikh religions were placed on the same footing with regard to the specification of Scheduled Castes. Later on, as per the amendment made in the Constitution (Scheduled Castes) Order 1990, the Hindu, the Sikh and the Buddhist were placed on the same footing with regard to the recognition of the Scheduled Castes.

The lists containing the names of the Scheduled Castes and the Scheduled Tribes applicable for the Census of India 2001 in the State/ Union territory are given below:

List Of Scheduled Castes In Andhra Pradesh

1. Adi Andhra
2. Adi Dravida
3. Anamuk
4. Aray Mala
5. Arundhatiya
6. Arwa Mala
7. Bariki
8. Bavuri
9. Beda Jangam, Budga Jangam
10. Bindla
11. Byagara
12. Chachati
13. Chalavadi
14. Chamar, Mochi, Muchi
15. Chambhar
16. Chandala
17. Dakkal, Dokkalwar
18. Dandasi
19. Dhor
20. Dom, Dombara, Paidi, Pano
21. Ellamalawar, Yellammalawandlu
22. Ghasi, Haddi, Relli, Chachandi
23. Godagali
24. Godari
25. Gosangi
26. Holeya
27. Holeya Dasari
28. Jaggali
29. Jambuvulu
30. Kolupul Vandlu
31. MadasiKuruva, Madari Kuruva
32. Madiga
33. Madiga Dasu, Mashteen
34. Mahar
35. Mala
36. Mala Dasari
37. Mala Dasu
38. Mala Hannai

39. Malajangam
40. Mala Masti
41. Mala Sale, Netkani
42. Mala Sanyasi
43. Mang
44. Mang Garodi
45. Manne
46. Mashti
47. Matangi
48. Mehtar
49. Mitha Ayyalvar
50. Mundala
51. Paky, Moti, Thoti
52. Pambada, Pambanda
53. Pamidi
54. Panchama, Pariah
55. Relli
56. Samagara
57. Samban
58. Sapru
59. Sindhollu, Chindollu

List of Scheduled Tribes in Andhra Pradesh :

1. Andh
2. Bagata
3. Bhil
4. Chenchu, Chenchwar
5. Gadabas
6. Gond, Naikpod, Rajgond
7. Goudu(in the Agency tracts)*
8. Hill Reddis
9. Jatapus
10. Kammara
11. Kattunayakan
12. Kolam, Mannervarlu
13. Konda Dhoras
14. Konda Kapus
15. Kondareddis
16. Kondhs, Kodi, Kodhu, Desaya Kondhs, Dongria Kondhs, Kuttiya Kondhs, Tikiria Kondhs, Yenity Kondhs.
17. Kotia, Bentho Oriya, Bartika, Dhulia, Dulia, Holva, Paiko,Putiya, Sanrona, Sidhopaiko
18. Koya,Goud,Rajah,Rasha Koya,Lingadhari Koya(ordinary), Kottu Koya, Bhine Koya, Rajkoya
19. Kulia
20. Malis(excluding Adilabad, Hyderabad, Karimnagar, Khammam, Mahbubnagar, Medak, Nalgonda, Nizamabad and Warangal districts)
21. Manna Dhora
22. Mukha Dhora, Nooka Dhora
23. Nayaks(in theAgency tracts)*
24. Pardhan
25. Porja, Parangiperja
26. Reddi Dhoras
27. Rona, Rena
28. Savaras, Kapu Savaras, Maliya Savaras, Khutto Savaras
29. Sugalis, Lambadis
30. Thoti (In Adilabad, Hyderabad, Karimnagar, Khammam, Mahbubnagar, Medak, Nalgonda, Nizamabad and Warangal Districts)
31. Valmiki(in the Agency tracts)*
32. Yenadis
33. Yerukula

Language and Mother tongue :

As per the census concept, each language is a group of mother tongues. The census questionnaire collects information on the mother tongue of each person and mother tongue is defined as the language spoken in childhood by the person's mother to the person. If the mother died in infancy, the language mainly spoken in the person's home in childhood will be the mother tongue. In the case of infants and deaf mutes, the language usually spoken by the mother is considered as mother tongue. It is not necessary that the language spoken as mother tongue should have a script. The mother tongues returned by the respondents in census are classified and grouped under appropriate languages according to their linguistic characteristics.

Literate :

A person aged 7 years and above who can both read and write with understanding in any language is taken as literate. A person who can only read but

** The agency tracts is comprised of Srikakulam, Vizianagaram, Visakhapatnam, East-Godavari, West-Godavari and Khammam districts.*

cannot write is not literate. It is not necessary that to be considered as literate, a person should have received any formal education or passed any minimum educational standard. Literacy could also have been achieved through adult literacy classes or through any non-formal educational system. People who are blind and can read in Braille are treated as literates.

Literacy rate :

Literacy rate of the population is defined as the percentage of literates in the age group seven years and above. For different age groups the percentage of literates in that age group gives the literacy rate.

Educational level :

The highest level of education a person has completed

Work :

Work is defined as participation in any economically productive activity with or without compensation, wages or profit. Such participation may be physical and/or mental in nature. Work involves not only actual work but also includes effective supervision and direction of work. It even includes part time help or unpaid work on farm, family enterprise or in any other economic activity. All persons engaged in 'work' as defined above are workers. Persons who are engaged in cultivation or milk production even solely for domestic consumption are also treated as workers. Reference period for determining a person as worker and non-worker is one year preceding the date of enumeration.

Main worker :

A person who has worked for major part of the reference period (i.e. six months or more during the last one year preceding the date of enumeration) in any economically productive activity is termed as `Main worker'.

Marginal worker :

A person who worked for less than six months of the reference period (i.e. in the last one year preceding the date of enumeration) in any economic activity is termed as `Marginal worker' .

Non worker :

A person who has not worked at all in any economically productive activity during the reference period (i.e. last one year preceding the date of enumeration) is termed as `Non worker'.

Cultivator :

For purposes of the Census a person is classified as cultivator if he or she is engaged in cultivation on land owned or held from government or held from private persons or institutions for payment in money, kind or share. Cultivation includes effective supervision or direction in cultivation.

A person who has given out her/his land to another person or persons or institution(s) for cultivation for money, kind or share of crop and who does not even supervise or direct cultivation in exchange of land, is not treated as cultivator. Similarly, a person working on another person's land for wages in cash or kind or a combination of both (agricultural labourer) is not treated as cultivator.

Cultivation involves ploughing, sowing, harvesting and production of cereals and millet crops such as wheat, paddy, jowar, bajra, ragi, etc., and other crops such as sugarcane, tobacco, ground-nuts, tapioca, etc., and pulses, raw jute and kindred fibre crop, cotton, cinchona and other medicinal plants, fruit growing, vegetable growing or keeping orchards or groves, etc. Cultivation does not include the following plantation crops - tea, coffee, rubber, coconut and betel-nuts (areca).

Agricultural labourer :

A person who works on another person's land for wages in money or kind or share is regarded as an agricultural labourer. She/he has no risk in the cultivation, but merely works on another person's land for wages. An agricultural labourer has no right of lease or contract on land on which she/he works.

Household industry worker:

Household industry is defined as an industry conducted by the head of the household herself/himself and or by the members of the household at home or within the village in rural areas and only within the precincts of the house where the household lives in urban areas. The larger proportion of workers in household industry should consist of members of the household including the head. The industry should not be run on the scale of a registered factory which would qualify or has to be registered under the Indian Factories Act and should be engaged in manufacturing, processing, servicing and repairs of goods.

It does not include professions such as a pleader, Doctor, Musician, Dancer, Waterman, Astrologer, Dhobi, Barber, etc. or merely trade or business, even if such professions, trade or services are run at home by members of the household.

Other worker :

A person who has been engaged in some economic activity during the reference period but not as a cultivator or agricultural labourer or in Household Industry is termed as a 'Other Worker (OW)'. The type of workers that come under this category of 'OW' include all government servants, municipal employees, teachers, factory workers, plantation workers, those engaged in trade, commerce, business, transport, banking, mining, construction, political or social work, priests, entertainment artists, etc. In effect, all those workers other than cultivators or agricultural labourers or household industry workers, are 'Other Workers'.

Work participation rate :

Percentage of workers (main + marginal) to total population

Population density :

Population density is the number of persons inhabited per square kilometre of the area.

Age :

Age is measured in terms of the completed number of years

Sex -ratio :

Number of females per 1000 males in a population.

(viii) Non Census Concepts

Improved drinking water :

If the household had access to drinking water supplied from a tap, hand pump, tube well or well (protected or covered) situated within or outside the premises, it is considered as having access to improved drinking water. It may be mentioned that such uniform definition may not be valid across all states.

System of sewerage :

Generally, a sewerage system would mean a network of mains and branches of underground conduits for the conveyance of sewerage to the point of disposal. Sewers that carry only household and industrial wastage are called separate sewers; those that carry storm water from roofs, streets and other surfaces are known as storm water drains, while those carrying both sewage and storm water are called combined sewers. However, in some towns which are not provided with such underground sewerage system, it is served by open surface drain, box drain, sylk pattern drain, etc., in these towns.

Type of latrine and Method of disposal of night soil :

There are three prevalent systems of disposal of human wastes, viz.(i) underground sewerage, (ii) sanitary water flush latrines with individual disposal systems, like septic tank, leaching cess pool and collecting well, and (iii) dry type of latrines with manual scavenging. The system of underground sewerage provides for the street sewerage with which are connected the sanitary latrines constructed in the houses having water closets and fitted with flushing cistern (or hand flushing). Through this sewer the faecal matter is transported without the need for scavenging. This system generally exists in cities and big towns. Where the streets sewer does not exist these sanitary water flush latrines are connected to a local septic tank with a sub-soil dispersion system or a leaching pit. Here the liquid wastes from the water closet is disposed of locally in leaching pit, a septic tank with a soil dispersion system is constructed. This dispersion requires an optimum travel through the pores of the soil which renders the harmful liquid bacterially innocuous by the slow process of filtration through the soil traversed. Where the soil is impermeable, collecting wells are constructed and the sanitary water flush latrines are connected with them. These wells are cleaned at periodic intervals by a suitable device. The dry type of latrines are of service type latrines from where human excreta is removed by scavengers from house to house, in most cases carrying it on their heads or shoulders or in baskets with handle or wheel barrows. These are then collected in bullock carts or trucks or tractors and trolleys for being carried to the dumping grounds.

Fertility :

In demography, the word fertility is used in relation to the actual production of children or occurrence of births specially live births. Fertility is a measure of rate at which population adds to itself by births and normally assessed by relating the number of births to a full or part of the population, such as number of married women or number of women of child bearing age. The definitions of the terminology used in computing different fertility rates are mentioned below:

Crude birth rate(CBR) :

Ratio of the number of live births in a year to the mid year population, normally expressed per 1000 population.

$$CBR = \frac{\text{Number of live births during the year}}{\text{Mid –year Population}} \times 1000$$

Crude death rate(CDR)

Ratio of the number of deaths in a year to the mid year population, normally expressed per 1000 population.

$$CDR = \frac{\text{Number of deaths during the year}}{\text{Mid- year Population}} \times 1000$$

Natural growth rate :

Growth rate is obtained as the difference between crude birth rate and crude death rate in the absence of migration.

Age specific fertility rate (ASFR) :

Number of live births in a year to female population in any specified age group normally expressed per 1000 women.

$$ASFR = \frac{\text{Number of live births in a particular age-group}}{\text{Mid-year female population of the same age-group}} \times 1000$$

Age specific marital fertility rate (ASMFR) :

Number of live births in a year to married female population in any specified age group normally expressed per 1000 married women .

$$ASMFR = \frac{\text{Number of live births in a particular age-group}}{\text{Mid-year married female population of the same age-group}} \times 1000$$

General fertility rate (GFR) :

Number of live births per 1000 women in the reproductive age-group (15-49) years in a given year.

$$GFR = \frac{\text{Number of live births in a year}}{\text{Mid-year female population in the age-group (15-49) years}} \times 1000$$

General marital fertility rate (GMFR) :

Number of live births per 1000 married women in reproductive age-group (15-49) years in a given year.

$$GMFR = \frac{\text{Number of live births in a year}}{\text{Mid-year married female population in the age-group (15-49) years.}} \times 1000$$

Total fertility rate (TFR) :

It is obtained as the total of the age specific fertility rates (number of children born per woman of the particular age) for the entire reproductive age span. It provides the average number of children that will be born to a woman under the fertility levels indicated by the age specific fertility rates assuming that there is no mortality of women till the completion of reproductive period.

$$TFR = \frac{5 \times \sum_{15-19}^{45-49} ASFR}{1000}$$

Total marital fertility rate (TMFR) :

Average number of children that would be born to a married woman if she experiences the current fertility pattern throughout her reproductive span (15-49) years assuming that there is no mortality of women till the completion of reproductive period.

$$TMFR = \frac{5 \times \sum_{15-19}^{45-49} ASMFR}{1000}$$

Age-specific mortality rate (ASMR) :

Number of deaths in a particular age and sex group per 1000 population of the same age group.

$$ASMR = \frac{\text{Number of deaths in a particular age-group}}{\text{Mid-year population of the same age-group}} \times 1000$$

q1

Probability of dying between birth and age 1. This can be used as approximate value of Infant Mortality Rate (IMR) which gives the ratio of number of deaths in a year of children aged less than one year to the number of births in that year.

q2

Probability of dying between birth and age 2.

q5

Probability of dying between birth and age 5. This indicator is also known as Under Five Mortality Rate (U5MR) .

Infant mortality rate (IMR) :

Ratio of the number of infant deaths (deaths of children below one year) in a year to the number of live births in that year.

$$IMR = \frac{\text{Number of infant deaths during the year}}{\text{Number of live births during the year}} \times 1000$$

Infant mortality rate comprises of two parts, viz., Neo-natal mortality rate and Post neo-natal mortality rate. The neo-natal mortality rate also comprises of two parts viz., Early neo-natal mortality rate and late neo-natal mortality rate. These are defined as:

Neo-natal mortality rate (NMR) :

Number of infants dying within the first month of life (28 days or under) in a year per 1000 live births of the same year.

$$NMR = \frac{\text{Number of infant deaths aged 28 days or under during the year}}{\text{Number of live births during the year}} \times 1000$$

Early neo- natal mortality rate :

$$ENMR = \frac{\text{Number of infant deaths of less than 7 days During the year}}{\text{Number of live births during the year}} \times 1000$$

Late neo-natal mortality rate :

$$LNMR = \frac{\text{Number of infant deaths of 7 days to less than 29 days during the year}}{\text{Number of live births during the year}} \times 1000$$

Post neo-natal mortality rate (PNMR) :

$$PNMR = \frac{\text{Number of deaths of 29 days to less than one year during the year}}{\text{Number of live births during the year}} \times 1000$$

Peri-natal mortality rate (PMR) :

Number of still births plus deaths within 1st week of delivery per 1000 births in a year.

$$PMR = \frac{\text{Number of still births and infant deaths of less than 7 days during the year}}{\text{Number of live births and still births during the year}} \times 1000$$

Still birth rate(SBR) :

$$SBR = \frac{\text{Number of still births during the year}}{\text{Number of live births and still births during the year}} \times 1000$$

Maternal mortality rate(MMR) :

Number of deaths of women in the age group 15-49 while pregnant or within 42 days of termination of pregnancy from any cause related to pregnancy and child birth per 1,00,000 live births in a given year.

$$MMR = \frac{\text{Number of maternal deaths to women in the age group 15-49}}{\text{Number of live birth}} \times 1{,}00{,}000$$

Eligible couple (Couples per 1000 population):

Number of currently married females in the age group15-44 years per 1000 persons of all ages.

Child woman ratio (0-4) :

1. Number of children in the age group 0-4 years per 1000 women in the age group 15-49 years.

Child woman ratio (5-9) :

2. Number of children in the age group 5-9 years per 1000 women in the age group 15-49 years.

Migration :

Migration is the third component of population change, the other two being mortality and fertility. A person is considered as a migrant by place of birth if the place in which he/she is enumerated during the census is other than the place of his/her birth. Similarly a person is considered as a migrant by place of last residence if the place in which he/she is enumerated during the census is other than his/her place of immediate last residence outside the village or town and not simply in another house or locality in the same village or town. Certain aspects concerning temporary movement/migration of people has been

explained below as these are important components concerning migration :-

(i) Migration of persons in search of job is high in the country. In many cases such migrants are only seasonal in nature. People migrate to other places for work in a particular season and come back again to their usual place of residence after three or four months. All such workers are treated as migrants. Similarly, if a person moved to any other place for attending short term vocational or educational course that lasted for only few months of a year, she/he too were considered as a migrant.

(ii) Where a person had merely gone out to another place or had been shifting from one place to another purely on tour, pilgrimage, visit to hospital for treatment or for temporary business purposes, such persons are not deemed to have had another residence different from the place where she/he or her/his family normally resides. She/he is not considered as migrant.

(iii) A woman temporarily moves into a hospital or to her parents or other relative's house for delivery and if the hospital or the parents/relatives houses is in a place different from usual place of residence, the place where the hospital or parents/relative's house is the place of last residence of the child but not of the mother. A new response category 'Moved after birth' was added in Census of India 2001 in the question on 'reasons for migration' to bring out additional migration patterns. Natural calamities or distress migration as a reason for migration for last residence migrants included in 1991 Census, is covered under category of 'Others'. The reason for migration has been determined as applicable at the time of migration and not in reference to any point of time after that. For example, if a person had moved from the place of her/his last residence for the purpose of education and subsequently at some point of time got employment there only, the reason for migration would be 'education' and not 'work/employment'.

Internal and International migration :

The migrational movements are of three types

(i) Migration within the state itself with its components.

(a) Migration within the district of enumeration (intra district migration).

(b) Migration from one district of state to another district of state (inter district migration),

(ii) Migration from one state to another State of the country (inter-state migration),

(iii) Migration from one country to another country. The first two streams together constitute internal migration, while the last type of movement is called international migration. The present name of the country, state or district and not the name by which they were known at the time of her/his birth or last residence were recorded.

Rural - Urban components of migration:

Rural or Urban status in respect of migrants have been determined as applicable at the time of migration and not with reference to any point of time after that. The flow of migrants consists of four streams viz. rural to rural, rural to urban, urban to rural and urban to urban.

Civic status of urban units

Civic Status of a town/city is determined on the basis of Civic Administrative authority of the town e.g., Municipal Corporation / Corporation, Municipal Committee/ Municipal council, Municipality etc.

Size class of UA / town

Size-class of UA/Town is based on the population size of the UA/City/Town UAs./Towns with 1,00,000 and above population are classified as Class I UAs./ towns. These Class I UAs. / towns are now further sub classified in to seven sub classes namely M1 to M7 depending on the population size of UA/City/ Town. These are M7(5,000,000 and above); M6(2,000,000 to 4,999,999); M5 (1,000,000-1,999,999) M4 (500,000-999,999); M3(300,000-499,999), M2 (200,000-299,999) & M1 (100,000-199,999). towns with, 50,000 to 99,999 population are classified as Class II towns, 20,000 to 49,999 population are Class III towns, population with 10,000-19,999 are Class IV towns, population with 5000 and 9999 are Class V towns and towns with less than 5000 population are Class VI towns.

Slum area

The Slum Areas (Improvement and Clearance) Act, 1956 which was enacted by the Central Govt. defined slums as a) Areas where buildings are in any respect unfit for human habitation; or b) are by reasons of dilapidation, overcrowding, fault arrangement and design of such buildings, narrowness or faulty arrangement of streets, lack of ventilation, light or sanitation facilities, or any combination of these factors, are detrimental to safety, health or morals.

Mega city

The concept of 'Mega city' is a recent phenomenon in the Urban Sociology and is defined in term of metropolitan city in the form of large size, problem of management of civic amenities and capacity to absorb the relatively high growth of population. Indian Census in 1991 treated the population size of 5 million and above as the cut off point to identify a place as the mega city. Whereas, for the purpose of inclusion in Centrally Sponsored Scheme for Infrastructure Development in Mega cities the Ministry of Urban Affairs and employment, Department of Urban Development adopted the criteria of 4 million and above population as per 1991 Census for Mega Cities. In 2001 Census, cities with 10 millions and above population have been treated as Mega cities.

(ix) Analytical Note

2001 Census findings - Population and its distribution

(a) Distribution of Population in Rural Urban areas:

According to 2001 Census the total population of Nellore district stands at 2668564 with 1344935 males and 1323629 females. The district stands at 17th rank as far as population is concerned in the State. Out of the total population of the district 2069521 persons constituting 77.55% are residing in rural areas and the remaining 599043 persons(22.45%) are residing in urban areas. The proportion of urban to total population regarded as an index of urbanization is 22.45% for Nellore district. Corresponding to state figure of 27.30%. Average number of towns for 100 inhabited villages in the district is less 1% (0.45%).

Nellore district has 1192 villages in 46 mandals of which 1110 are inhabited villages. The average number of inhabited villages per mandal is 24. Nellore mandal is the largest mandal in terms of population accounting 18.06% of the district population. In terms of number of villages, Venkatagiri mandal leads with 75 villages, wherein 17 are un-inhabited villages. Large number i.e. 58 inhabited villages are found in this mandal itself. Vidavalur and Kovur mandals have least i.e. 10 inhabited villages. As regard population, Seetharamapuram mandal reported least population i.e. 22,342 in the district.

The urban population is distributed among 5 urban units of which 3 are statutory towns. The average size of an urban center in the district works out to 119,809 persons. Nellore Municipality has largest population (378428) whereas Kovurpalle is the smallest town with a population of (8529). There is no town in the district which has less than 5000 population.

(b) Size class and status of towns, population, Growth, density and sex ratio, work participation rate and Literacy rates in the district:

Size class and status of towns :

During every Census the number of Census towns and statutory towns changes due to addition of new Census towns, declassification of old Census towns, notifying of new Census towns, de-notifying of old statutory towns etc., for the purpose of analysis of varied demographic characteristic urban areas have been divided into six classes by size of population of the 5 towns in the district. Nellore is categorized as class I town while there are 2 class II, 1 class III and one in class V. Not a single town is categorized as class VI.

Population Growth:

The population of district was 2392260 as per 1991 Census and has gone upto 2668564 persons in 2001 adding 276304 persons during the decade 1991-2001. The growth rate revealed by the district (11.55%) is less than the state growth of 14.59% during the decade. Nellore district ranks 17th in growth rate among 23 districts in the state.

Rural Urban growth rates shows wide variations. The rural growth rate is recorded as 13.51 while urban growth rate is 5.27. As regard growth rate in rural population the district occupies 13th position, when the speak about urban growth rate it occupies 18th place of the state.

Density:

The overall density of population in the district is 204 persons per sq.km and is below the state average of 277. Among urban areas Nellore town recorded highest 7820 persons per sq.km followed by 6743 persons of Gudur (M) Town. Least density i.e. 3472 persons per sq.km. has been reported in Kavali (M) Town.

Sex Ratio:

Nellore district has possessed 984 females per 1000males while it was 980 in 1991 Census. It is higher than state average sex ratio is 978. The district occupied 9th rank in respect of sex ratio among 23 districts. Varikuntapadu mandal has the highest sex ratio of 1049. While Kota mandal has largest sex ratio of 938. Among urban units Gudur (M) Town has reported highest sex ratio of 1047 and Kovurpalle Census Town reported lowest sex ratio of 932.

Work Particpation Rate:

The work participation rate for total workers is defined as percentage of total workers to total population. The total workers participation rate in Nellore district is 45.4%. Again percentage of main workers stands at 36.9%. The total workers participation rate separately for males and females in the rural areas are 59.5% and 38.2% respectively. Against corresponding figures for urban areas are 54.3% and 11.9% respectively. Among the main workers as seen for the percentage of workers of 2001 over 1991, increased in the percentage of worker. The female workers participation has slightly down from 33.89 in 1991 Census to 32.3 at 2001 Census.

Literacy Rate:

While calculating effective the literacy rate, children in 0-6 age group have been excluded. The district returned 1522866 literates forming 65% of the population of the district, excluding 0-6 age group. Separating for urban and rural areas the literacy rate workout to 77.7% and 61.4% respectively. Again within the urban areas male and female literact rates separating workout to 84.1% and 71.2%. For the rural population the male and female literacy rates workout to 70.6% and 52%.

(c) Scheduled Castes and Scheduled Tribes of earlier Censuses:

To uplift social and economical status of Scheduled Castes and Scheduled Tribes, one of the basic requirement of these population is the availability of data on age, sex, marital status, economy, education, fertility etc. In this regard these particulars are being collected in each census from 1951 onwards and provided to planners and administrators to take-up necessary steps to evolve suitable plans for the development of Scheduled Castes and Scheduled Tribes.

The President of India has notified some castes, races or tribes or parts of groups within castes, races or tribes as Scheduled Castes under Article 341 of the Constitution of India. Similarly, under Article 342 of the Indian Constitution, President of India has declared all such tribes or tribal communities or parts of groups within the tribes or tribal communities as Scheduled Tribes. The list of Scheduled Castes and Scheduled Tribes are notified for each State or Union Territory and are valid only within the jurisdiction of that State and Union Territory. The list of Scheduled Castes and Scheduled Tribes is provided in this volume under the chapter on 'Census concepts'.

Scheduled Castes population in the district as per 1991 Census:

As per 1991 census, there were 522819 Scheduled Castes population comprising 264,054 males and 258,763 females. This has worked out to 21.85% to the total population of the district. Of the total population of Scheduled Castes, 87.00% were living in rural areas of the district.

The following statement reveals that Scheduled Castes population has recorded 25.55% growth rate during the decade 1981-91. It was 22.66% in rural areas which is less than the growth rate of total district. Growth rate in Urban areas was 49.02% which is nearly 27% more than the district.

The sex ratio of Scheduled Castes population (980) was same in comparison to that of the general population in the district (980). The sex ratio in rural area of the district was little lower than total district sex ratio among Scheduled Castes population. In urban areas it was 1002. Literacy rate among Scheduled Castes 35.06%

which was lower than the district (47.61%). In urban areas their literacy rate was 57.52%.

Proportion of main workers among Scheduled Castes was 48.64% and the Marginal workers was 2.77%. In rural areas workers population was 50.69% and in urban areas their percentage was 34.91%.

The Scheduled Tribes population in the district as per 1991 Census :

As per 1991 Census, there were 2,14,062 Scheduled Tribes population comprising 1,09,986 males and 1,04,076 females. This works out 8.95% to the total population of the district. Of the total population of the Scheduled Tribes 7.42% were living in rural areas of the district.

The following statement reveals that Scheduled Tribes population in the district has registered 20.60% growth rate during the decade 1981-91. This growth rate 18.78% has been recorded in the rural areas of the district. In urban areas it was 30.29%. The sex ratio in the district was 946, while in rural areas it was 942 and in urban areas 969. As regards the Literacy rate among the tribes, it was 16.36% , while in rural areas it was 14.49%. However in urban areas it was higher (25.33%) than rural areas as well as the district total.

The population of main workers and marginal workers among tribals in the district was 54.65% and 2.48% respectively where as in rural areas of the district it was 56.39% and 2.66% respectively. But in urban areas they were reported 46.25% and 1.62% respectively.

Statement (v)

	iii. Non-workers	42.87	40.95	52.13

***Source**:District Census Handbooks of 1981-1991*

It is seen from the following statement that the Scheduled Tribes population growth rate (-0.94) declined during the decade 1961-71. However the variation between 1971 - 81 and 1981 - 91 it was recorded 36.25% and 20.60% respectively. This abnormal increase was due to inclusion of some of the tribes in the list of Scheduled Tribes during the decade.

Statement (vi)

Note : *Percentages in brackets*

This district has 1110 inhabited villages. Out of 46 mandals, the highest number of 58 villages are in Venkatagiri mandal, followed by 46 villages in Balayapalle mandal, 44 in Ojili mandal. The least number i.e., 10 villages each in Vidavalur and Kovur mandals are existing of the total inhabited villages, 83 villages (7.5%) are having less than 200 population, 178 villages (16.0%) are having between 200-499 persons, 255 with 23.0% are in 500-999, the highest no. of villages i.e., 278 with 25.0% are in 1000-1999 persons, 244 villages with 22.0% are in 2000-4999 persons, 52 villages (4.7%) are having 5000-9999, lastly, 20 villages (1.8%) are having 10,000 and above which are mostly mandal headquarters.

Of 46 mandals 20 mandals do not have the villages having less than 200 population, 19% inhabited villages in Venkatagiri and Doravarisatram mandals have less than 200 population, 32% above of inhabited villages in Varikuntapadu, Rapur and Venkatagiri mandals are having the population between 200-499 persons. Like-wise 47.8% inhabited villages of Balayapalle mandal fall in population size range 500-999 persons. In vidavalur and Indukurpet mandals 4 and 5 inhabited villages respectively are having 5000 and more population.

TABLE - 3

NEW TOWNS, DENOTIFIED, DECLASSIFIED AND MERGED TOWNS IN 2001 CENSUS

Name of Town
1
(a) New
(i) Statutory Town
-Nil-
(ii) Census Town
-Nil-
(b) Denotified
(i) Statutory towns of 1991 Census denotified and also did not satisfy the criteria to be treated as Census towns
-Nil-
(ii) Statutory towns of 1991 Census denotified but identified as Census towns based on demographic and economic criteria
-Nil-
(iii) Census towns of 1991 Census are notified as statutory town in 2001 Census
-Nil-
(c) Declassified
Sullurpet (C.T); Naidupet (C.T); Kovur (C.T); Shar Project Township.
(d) Wholly merged with other town(s)
-Nil-

Declassified means the census towns of 1991 census which failed to satisfy the demographic and economic criteria.

Of 9 urban areas in 1991 Census 3 Census towns and one Township attained rural status due to strict implementation of demographic criteria in 2001 Census. No new towns have been declared in 2001 Census.

TABLE 4
DISTRIBUTION OF VILLAGES BY POPULATION DENSITY, 2001

Range of population density (per square kilometer)	Total number of villages in each population density range	Percentage of villages in each population density range	Population	Percentage distribution of population
1	2	3	4	5
0-10	4	0.4	150	-
11-20	9	0.8	1,043	0.1
21-50	58	5.2	23,894	1.2

Source : *General Population tables part-IIA - 1991 Census.*

Table 5: In the Census count during 1911, 1931, 1941, 1961, 1971, 1981 & 1991 the sex ratio was more than the State average sex ratio. Similarly, during 2001 Census also the district has reported high sex ratio of 984 over the state sex ratio of 978. During 1901 the sex ratio of the district was equal to the State sex ratio of 985. The sex ratio of urban when compared with rural areas, it was higher during 1901 to 1951 and 2001 Census. The sex ratio in urban areas was declined and large variation between rural and urban was noticed during 1961, 1971 and 1981 i.e. 951, 966 and 959 respectively.

District (Rural) Total:		**984**

The sex ratio in rural areas is 984, which is equal to the district sex ratio. In 5 mandals where urban areas are existing, the sex ratio in rural areas is more than the total average sex ratio of the respective mandals except in Nellore, Gudur Venkatagiri and Bogole mandals, where urban sex ratio is higher than rural as well as total except Kavali (M).

TABLE 8
SEX RATIO OF RURAL POPULATION BY RANGES, 2001

Range of sex ratio for villages	Number of inhabited villages	Percentage of villages in each range	Population (2001)	Percentage distribution of population
1	2	3	4	5
Less than 700	5	0.5	65	-
700-749	3	0.3	6,040	0.3
750-799	12	1.1	27,160	1.3
800-849	17	1.5	14,884	0.7
850-899	58	5.2	65,616	3.2
900-949	162	14.6	283,576	13.7
950-999	398	35.9	879,982	42.5
1000-1099	384	34.6	739,372	35.7
1100+	71	6.4	52,826	2.6
District Total:	**1,110**	**100.0**	**2,069,521**	**100.0**
Sex ratio (Rural) for District:		**984**		

As per the table 700-749 females per 1000 males are recorded in 3 villages. There are 398 (35.9%) villages where range of sex ratio is 950-999, in which sex ratio of total and rural areas of the district also fallen. It is evident from the above table that 41.0% of inhabited villages are having more number of females than males covering almost 38% of the total rural population.

TABLE 9
SEX RATIO OF URBAN AGGLOMERATIONS / TOWNS, 2001

Sl.No.	Name of U.A. / Town	Urban status	Sex ratio
1	2	3	4
1	Kavali	UA	935
2	Kavali	M+OG	935
3	(i) Kavali	M	932
4	Kovurpalle	CT	1021
5	Nellore	UA	986
6	Nellore	M+OG	986
7	(i) Nellore	M	986
8	Gudur	UA	1040
9	Gudur	M+OG	1040
10	(i) Gudur	M	1047
11	Venkatagiri	CT	1006
	Sex ratio (Urban) for the district:		**986**

This table gives urban sex ratio. The average urban sex ratio is 986 in the district. The highest sex ratio of 1047 is seen in Gudur Municipality and the lowest sex ratio of 932 is in Kavali Municipality among statutory towns. Gudur town reported higher sex ratio than district urban sex ratio.

	District Total:	**Total**	**328,412**	**168,063**	**160,349**	**954**
		Rural	**260,438**	**133,333**	**127,105**	**953**
		Urban	**67,974**	**34,730**	**33,244**	**957**

The sex ratio of population in the age-group of 0-6 is 954 in total, 953 in rural and 957 in the urban areas of the district as against 984, 984 and 986 respectively of total population to the district. It reveals that sex ratio in rural and total district is almost equal in the age group 0-6, but it is slightly higher with 957 in the urban areas of the district. Similar to total population, sex ratio of urban areas in the age- group of 0-6 also is less than district average sex ratio. Female children are equal in number to male children in Doravarisatram mandal rural area. But in Duttalur mandal female children are more than male children in age-group of 0-6 in the district.

District (Rural) Total:		**260,438**	**133,333**	**127,105**	**953**

This table gives the details of sex ratio in the age-group 0-6 for each mandal of the district. It can be noticed that the sex ratio of the population in the age-group 0-6 is highest in Duttalur, Ojili and Doravarisatram mandals each with 1035, 1002 and 1003 females respectively per 1000 males whereas the lowest has been seen in Jaladanki mandal with 910 females per 1000 males.

TABLE 12
SEX RATIO OF RURAL POPULATION IN THE AGE GROUP 0-6 BY RANGES, 2001

Range of sex ratio for villages	Number of inhabited villages	Percentage distribution of villages	Population 2001	Percentage distribution of population
1	2	3	4	5
Less than 700	72	6.5	3,505	1.3
700-749	36	3.2	3,860	1.5
750-799	71	6.4	9,877	3.8
800-849	93	8.4	18,376	7.1
850-899	124	11.2	37,580	14.4
900-949	152	13.7	61,742	23.7
950-999	125	11.3	40,656	15.6
1000-1099	224	20.2	58,863	22.6
1100+	213	19.2	25,979	10.0
District (Rural) Total	**1,110**	**100.0**	**260,438**	**100.0**
Sex ratio (Rural) for District:	**953**			

In 39.4% of villages, female children in the age-group 0-6 are either equal or more than the male children. In 125 villages forming 11.3% to total inhabited villages, the range of sex ratio is 950 - 999, in which the district average sex ratio (953) also falls in.

This table shows the number and percentage of Scheduled Casts and Scheduled Tribes population in the mandals recorded during 2001 Census. Out of district total population of 2668564, the S.Cs and S.Ts constituted 22% and 9.1% respectively. In rural areas of the district the S.Cs accounted 24.9% whereas in urban areas it is 12.1%. In respect of S.Ts., they accounted 10.2% in rural and 5.2% in urban areas of the total population. Their percentage is more in rural areas than urban.

In Vakadu mandal the highest number of S.Cs recorded with 39.8% totally under rural areas followed by Chittamur mandal with 38.8%, and Doravarisatram mandal with 38.2% both are totally in rural areas. The lowest percentage of S.Cs recorded in the mandals of Nellore, Vinjamur and Anumasamudrampet with 13.1%, 13.9% and 14.1% respectively.

In Allur mandal the highest number of S.Ts recorded with 18.1% of the total population entirely under the rural areas followed by Kodavalur and Kovur mandals with 15.8% each. The lowest percentage of S.Ts recorded in the mandals of Duttalur and Marripadu with 1.8% and 2.5% respectively.

	District (Rural) Total	**984**	**956**

The sex ratio among the SCs and STs is given in this table at Mandal Parishad level. The sex ratio of SC and STs in rural areas of Nellore district is 984 and 956 respectively while it is 984 in respect of total population. It shows that sex ratio among total SC is almost in the same range i.e., 988-994. But the sex ratio of STs is lower than the total sex ratio. The lowest sex ratio 917 among SCs is reported in Chillakur Mandal Parishad and 789 among STs in Ananthasagaram Mandal Parishad. The highest sex ratio 1070 among SCs in Varikuntapadu Mandal Parishad 1077 among STs in Udayagiri Mandal Parishad. Among SCs females are more than males in 14 Mandal Parishads. As regards STs, 6 Mandal Parishads are noticed more females than males. In 17 Mandal Parishads sex ratio of SCs is lower than the district average of sex ratio. Among STs it covers in 23 Mandal Parishads.

	Sex ratio (Urban) for the district:	**1,001**	**992**

+ Arranged in alphabetical order

^ The names of constituents of UA are given separately

The sex ratio among the SCs and STs has been shown in this table for urban Agglomerations/Towns of 2001 Census. Among the towns, Nellore Municipality has highest sex ratio of 1,037 and lowest 817 in Kavali Municipality among SC population. Females are more than males among SCs are seen in Kovurpalle (CT), Nellore (M), Gudur (M) and Venkatagiri (CT) and also these four towns are higher than the District urban average. As regards STs highest sex ratio 1,078 is noticed in Gudur Municipality and the lowest i.e., 881 in Venkatagiri (CT). Females are more in number than males in Gudur Municipality only and in the same town the sex ratio also more than the district urban average.

District and Mandal wise literacy rates besides the number of literates and illiterates for total, rural and urban areas with sex break-up are given in table 21. The literacy rates are worked out by excluding population in the age group 0-6. As per 2001 census, the proportion of literates to total population excluding the age group 0-6 comes to 65.1% in this district. This proportion in rural areas comes to 61.4% and in urban areas 77.7%. In the district, the literacy rates of males (73.7%) is much higher than females (56.4%). Among the mandals Nellore Mandal tops with 77.2% literates followed by Kovur Mandal with 73.0%. Doravarisatram Mandal with 52.7% literates stands at the lowest in the district.

The gap between male and female literacy is high with 17.3% in the district as a whole.

This table shows Mandal Parishad wise number and percentage of main workers, marginal workers and non-workers by sex for rural population of the district 38.8% has been categorised as main workers and the marginal workers constitute 10.1% and remaining 51.1% fall in the category of non-workers. The sex-wise breakup at the district level shows that 52.1% males and 25.3% females are in the category of main-workers. Male and female marginal workers account for 7.4% and 12.9% respectively. The percentage of female marginal workers is higher than the male marginal workers. Similar trend is seen at Mandal Parishad level.

The percentage of total rural workers of the district comes to 48.9%. At the Mandal Parishad level, Balayapalle Mandal has highest proportion of total workers forming 60% of the total population. It is followed by Kaligiri Mandal with 56.9%. The lowest percentage of 36.4% is recorded in Udayagiri Mandal Parishad.

This table gives number and percentage of Main Workers, Marginal Workers and Non-Workers by sex in urban Agglomerations/Towns, as per 2001 Census. Of the 5,99,043 total urban population of the district, 30.4% constituted as Main workers and 2.9% as Marginal workers. The remaining 66.7% fall in the category of non-workers. The sex-wise break-up at the district level shows that 50.9% males, 9.6% females are in the category of Main Workers. Male and Female Marginal Workers account for 3.4% and 2.3% respectively. Similar trend is visible at town/ U.A. level.

The percentage of total urban workers of the district comes to 33.3%. Venkatagiri(CT.) recorded highest population of total workers forming 37.6% of the total population. It is followed by Nellore(M) with 33.3%. The lowest percentage recorded in Kovurpalle(CT) with 29.6%.

Note: Percentage of Workers to total workers are given in brackets

This table gives the details on distribution of workers by sex in four categories of economic acitvity in Mandal Parishads of the district as recorded in 2001 Census. It can be seen that economy of the district is primarily dependent on agriculture due to the fact that cultivators constitute 45.4% of the total workers (Main and Marginal) and remaining 44.7% of total workers are engaged as agricultural labourers, household industry workers 4.0% and other workers 33.7% in the district.

The distribution of workers by four categories of economic activity of Mandal level shows very high dependence of population on agriculture sector absorbing large number of workers. The percentage of female cultivators is 11.8% which is lower as compared to 20.8% of male cultivators in the district.

Note: Percentage of Workers to total workers are given in brackets

In this table the information presents Mandal Parishad-wise distribution of workers by sex in four categories of economic acitivity as per 2001 Census. In the rural areas of the district total workers constitute (main + marginal) 48.9% of total population. Among these workers cultivators constitute 20.7%, 52.1% Agricultural labourers, 3.7% household industry and 23.4% other workers. The agricultural sectors plays a major role in porividing employment to the working force of rural population despite the fact that it is not commercially viable. Household industries employ only 3.7% workers of the total working force. Therefore surplus working force has to depend on primary activities. Among cultivators, the percentage of females 12.8% is lesser than males (25.8%) in the rural areas of the district.

Note : *Percentage of Workers to total workers are given in brackets*
+ Arranged in Alphabetical Order
^ The names of constituents of UA are given seperately

This table shows the distribution of workers by sex in four categories of econommic activity of urban agglomerations/towns. In the urban areas of the district total workers form (main + marginal) 33.3% of total population. Among these workers, cultivators constitute 1.7%, 7.2%. Agricultural labourers; 5.4 % Household Industry workers and 85.7% other workers in the district. The other workers plays a major role in providing employment to the working force of urban population. Household Industires also could not make much progress in urban areas as reflected in the data and these household industries employ only 5.4% workers of the total working force, therefore surplus working force has to depend on other working activities. Among cultivators, the percentage of females is very poor percentage and can see only 1.0% in the urban areas of the district.

Note : - Percentages are given in brackets.

** Based on the improved drinking water source, drinking water supply has been classified as `Improved ' or otherwise. If the household has access to drinking water supplied from a tap or a hand pump / tube well situated within or outside the premises it is considered as having access to `Improved drinking water source'. However, the concept of improved drinking water is state specific and this is to be considered accordingly.*

 # Post office includes Post office, telegraph office and Post and telegraph office.

$ Transport communication includes bus service, rail facility and navigable waterways.

This table deals with the Mandal Parishad-wise distribution of villages to the availability of different amenities like education, medical, improved drinking water, post office, telephone, transport, communications, agricultural credit societies, approach by pucca road and power supply within the village. Out of 1,110 inhabited villages in the district only 1,059 villages of 95.4% have been provided with the education facilities of one type or the other. 499 villages in the district constituting 45.0% have medical facilities of one type or the other. Improved drinking water facility is available in 1,077 villages or 97.0% villages. As regards post office facility 645 villages or 58.1% have been provided with post offices facility within the village. 701 or 63.2% villages have been provided with telephone facilities, 984 88.6% with transport facilities, 132 or 11.9% villages provided with banks facility, 199 or 17.9% villages have provided with Agricultural credit societies. 1,099 or 99.0% have connected with the pucca road. Similarly, 1,104 or 99.5% villages have been provided with the power supply. Almost all the above said facilities have provided to all the villages at Mandal Parishad.

Note : *- Percentages are given in brackets.*

** Based on the improved drinking water source, drinking water supply has been classified as `Improved ' or otherwise. If the household has access to drinking water supplied from a tap or a hand pump / tube well situated within or outside the premises it is considered as having access to `Improved drinking water source'. However, the concept of improved drinking water is state specific and this is to be considered accordingly.*

 # Post office includes Post office, telegraph office and Post and telegraph office.

$ Transport communication includes bus service, rail facility and navigable waterways.

This table provides the information on number and percentage of rural population served by different kinds of amenities. Out of 2,069.521 total rural population in the district 2,050,794 or 99.1% have educational facilities of one type or other. As regards Medical facilities, 1,538,478 or 74.3% population are enjoying this facility while 2,049,065 or 99.0% population have got improved drinking water facility. Post office, Telephone, Transport and Banks facilities 1,753,682 (84.7%); 1,675,052 (80.9%); 2,014,785 (97.4%) and 713,321 (34.5%) persons respectively are enjoying.

Further, 756,938 (36.6%) persons have been provided with the facility of Agricultural Credit Societies. 2,063,951 (99.7%) have been connected with the pucca road and 206,922 (100%) persons i.e., entire district rural population has supplied the power. Similar pattern of availability of facilities is seen to the rural population at Mandal Parishad level.

TABLE 39
DISTRIBUTION OF VILLAGES NOT HAVING CERTAIN AMENITIES ARRANGED BY DISTANCE RANGES FROM THE PLACES WHERE THESE ARE AVAILABLE, 2001

7. Agricultural Credit Societies	330	338	237	905

This table presents the data on the distribution of villages not having certain amenities within the village at district level. They have to go out of their village to avail these facilities. Such villages have been presented in this table according to various distance ranges. 54 villages do not have primary school facility in their villages and out of these villages, children of 52 villages have to travel less than 5 kms for schooling. Out of 1110 inhabited villages 709 are deprived of middle school and 1085 of degree college facilities. Of these 334 villages avail the facility of middle school at a distance of less than 5 kms, 244 villages at 5-10 kms, 131 at a distance of 10+ kms. In respect of degree colleges 71 avail at a distance of less than 5 kms, 215 villages at a distance of 5-10 kms and 799 at a distance of 10+ kms.

Similarly, there are 1090villages in the district which have been deprived of Hospital facility and 1039 villages are available PHC facility. Out of 1090 villages, 77 villages have the facility of Hospital within 5 Kms. While 201 villages, the villagers have to travel 5-10 kms distance and the rest of 812 village people have to go to the hospital at a distance of 10+ kms.

As far as the Post Offices concerned, this facility is available in 367 villages at a distance of below 5 kms., 70 villages within 5 - 10 kms and 23 villages at a distance of 10+ kms. Out of 1110 inhabited villages this facility is available only in 460. In these days also 550 villages are not having to avail this opportunity.

As regards the Telephones, there are only 405 villages are enjoying this facility. Of these, 190 villages avail this facility at a distance of less than 5 kms., 83 villages at a distance of 5 - 10 kms and 132 at a distance of 10+ kms.

Regarding Bus services, the people of 111 villages have connected with this amenity at a distance of less than 5 kms., 9 villages at a distance of 5 - 10 kms and only 2 villages have connected at a distance of 10+ kms. The remaining villages do not have this facility.

As far as the Banks concerned, 979 Commercial Banks are available in the entire Nellore district. Of them, 273 villages are availing the Bank facility at a distance of less than 5 kms., 392 at a distance of 5 - 10 km and 314 at a distance of 10+. The Co-operative Banks are available in 1090 out of 1110 inhabited villages. With this it is noticed that almost all the villages are having this facility.

Lastly, the aminity of Agricultural Credit Societies concerned, in 905 villages these socieities are established. Thus, almost every farmer in the villages of Nellore District is availing the financial help from these Agricultural Credit Societies.

TABLE 40
DISTRIBUTION OF VILLAGES ACCORDING TO THE DISTANCE FROM THE NEAREST STATUTORY TOWN AND AVAILABILITY OF DIFFERENT AMENITIES, 2001

Distance range from the nearest statutory town (in kilometers)	Number of inhabited villages in each range	Type of amenity available

 # Post office includes Post office, Telegraph office and Post and telegraph office.
$ Transport communication includes bus service, rail facility and navigable waterways.

This table deals with the distribution of villages according to the distance from the nearest statutory town and availability of different amenities within the village. Out of total 1110 inhabited villages in the district, there are 4 villages which have nearest towns upto a distance of 5 kms. Of these 4 villages forming 100% of these total villages, 4 villages are having the educational facility of one type or the other and 2 villages constituting 50.0% have the medical facilities within the village, 2 villages forming 50.0% have the facility of post office within the village and 3 or 75.0% have the facility of telephone. 4 villages constituting 100.0% have been linked by transport service. No village has been provided with the Bank facility in the distance range. 2 villages constituting 50.0% have been provided by agricultural credit societies. 4 villages comprising 100.0% have been provided with pucca road.

Similarly 138 inhabited villages are at a distance of 5 - 15 kms. from the nearest statutory town having educational facility in 134 (97.1%) villages, medical facility in 55.1%, post office in 68.1%, telephone in 74.6%, transport and communication 94.2%, banks 19.6%, agricultural credit socieities 25.4% and pucca road facility for 100.0% villages.

Maximum number of villages i.e., 593 villages fall in the distance range of 16 - 50 kms. from the statutoty town. Out of these villages, 96.1% posses educational facilities, 46.2% medical, 58.5% post office, 64.9% telephone, 90.1% transport and communication, 11.5% banking, 19.6% agricultural credit societies and 99.8% of villages have pucca approachable roads.

369 villages are at a distance of 51+ kms. In this 95.1% villages possess educational, 39.8% medical, 54.7% post office, 56.9% telephone, 85.6% transport and communication, 10.0% banking, 12.5% agricultural credit socieites and 98.9% villages have pucca roads.

Only 6 villages lie at an unspecified distance to the statutory town having no amenity.

TABLE 41

 # Post office includes Post office, Telegraph office and Post and telegraph office.

$Transport communication includes bus service, rail facility and navigable waterways.

** Based on the improved drinking water source, drinking water supply has been classified as `Improved ' or otherwise. If the household has access to drinking water supplied from a tap or a hand pump / tube well situated within or outside the premises it is considered as having access to `Improved drinking water source'. However, the concept of improved drinking water is state specific and this is to be considered accordingly.*

This table deals with the distribution of villages by population range and amenities available therein as recorded in 2001 census. In Nellore District out of total 1110 inhabited villages 1059 (95.4%) villages have educational facilities, 499 (45.0%) villages have medical 1077 (97.0%) improved drinking water facility. 645 (58.1%) have post office facility 701 (63.2%) have telephone facility. 984 villages constituting 88.6% have been linked by bus services, 132 (11.9%) have bank facility. 199 (17.9%) agricultural credit socieities 1099 (99.0%) approach by pucca road and almost all villages 1104 (99.5%) posses electricity for all puroses.

As many as 261 villages have below 500 population. 255 villages in the range of 500 - 999 population, 278 villages 1000 - 1999 range, 244 villages 2000 - 4999, 52 villages 5000 - 9999 population. In 10,000+ population range only 20 villages fallen. A study of amenities available of these smaller villages reveals that they posses lesser amenities and they have to depend on near by towns to avail the facilities.

TABLE 42

Data Source : Census of India, 2001, H-Series : "Tables on Houses, Household Amenities and Assets".

The data presented in this table-49 revelas that 57.32% of households of the district are living in houses made of pucca materials, residences of 10.51% households are of semi-permanent nature and houses of only 32.17% households are made of temporary materials.

In the rural areas, however, the percentage of households living in permanent houses is 52.60%, 11.20% in semi permanent and only 36.21% in temporary houses.

The district percentage in urban areas indicates that majority of households i.e.,75.18% are living in houses constructed with pucca materials whereas 7.94% in semi-permanent structures and the percentage of households living in temporary houses is 16.89 i.e., constructed with kutcha materials.

Data source : Census of India, 2001, H-Series; "Tables on Houses, Household amenities and Assets".

Note: Percentage has given after the total households.

This table shows that the percentage distribution of households by type of fuel used for cooking purposes. There are nine types of fuel used for which the data have been presented in this table. It is observed that wood is the most predominate fuel used for cooking by 78.01% households in the district. In rural areas use of wood for cooking is high while in urban areas it is less due to availability of L.P.Gas. The next cooking fuel is gas which comes to 14.01% households in the district. This proportion in urban and rural areas as 37.21% and 7.94% respectively. In rural areas use of gas per cooking is very low as compared to urban areas at mandal level. There are 4.97% households using kerosene in the district. Use of kerosene for cooking by urban households comes to 17.79% while in rural areas its proportion is only 1.58% as a whole. The percentage of households using other types of fuel such as crop residue, cowdung cakes, electricity, coal, biogas etc., is insignificant.

Source : *Census of India 2001, H-series; "Tables on houses, household amenities and assets"*
Note: Percentage has given after the total households.

This table presents data for total, rural and urban areas at district/mandal level about households availing banking services and inposession of assets such as radio/transistor, telephone, bicycle, scooters, car etc. There are 644,483 households in the district and among them, 182,166 households have been availing banking services. 95,172 households have radio/transistor, Television is posessed by 220,056 households. Telephone is available in 45,586 households. Bicycle is used as a major means of transport and is available in 144,214 households. Scooter, motor cycle and moped are used by 40,698 households. Whereas, 5,373 households are in posession of car, jeep and van. The picture in usage of banking services and posession of assets by households at mandal level is almost similar as analysed above for the district as a whole.

(xiii) Scope of Village Directory and Town Directory - Column heading wise explanation and coverage of data

The village directory and the town directory presented in the District Census Handbooks are proved more useful. The formats of village directory and of seven statements on town directory are on the same pattern canvassed in 1991 census except for a few additional columns. These additional columns are introduced to throw more insight into the infrastructure of the villages and towns. All the amenities except recreational and cultural facilities, power supply and news papers/magazines are brought under one bracket, with corollary that in case any amenity is not available in the village, the distance of the nearest place where the facility is available is presented. Similar method is followed in respect of towns where educational and medical facilities are not available. The non-census data presented in the village and town directories relate to the year 1999. However, wherever the field agencies have indicated the later position, the information has been updated. Almost all the details in the statement have been indicated by codes. In respect of total population and total number of households, the figures as returned during the recent census i.e. 2001 census have been presented. The scope of village directory and town directory statements with column heading-wise explanation and coverage of data are hereunder presented.

Scope of Village Directory :

In the similar manner as was done in the past, the village directory has been prepared for all the villages in the state and these are presented mandal-wise in the District Census Handbook. This statement contains village-wise area, population, amenities such as educational, medical, communications, drinking water facilities, etc., and also the land use pattern details. The villages are shown in order of their permanent location code numbers. An alphabetical list of villages with their permanent location code numbers and a mandal map has been presented in the beginning of Village Directory of each mandal. This facilitates the reader in locating the mandal in which a particular village lies. The village directory now contains 23 columns as against 18 columns in the 1991 handbook. To give more information under amenities column, banking facilities such as commercial and co-operative banks, agricultural, non-agricultural and other credit societies have been included in the present statement. Similarly, a new column 'number of recreational and cultural facilities' showing cinema/video halls, sports club and stadium/ auditorium has been added. In addition to the above a column showing newspapers/magazines received and name of the most important commodity manufactured in the village have been incorporated.

Besides the above, the Village Directory is having 12 appendices viz.

Appendix I	:	Abstract of educational, Medical and other amenities inthe village-Mandal Parishad level.
Appendix 1A	:	Villages by number of primary schools
Appendix 1B	:	Villages by primary, middle and secondary schools
Appendix 1C	:	Villages with different sources of drinking water facilities available
Appendix II	:	Villages with 5,000 and above population which do not have one or ore amenities available.
Appendix IIA	:	Census Towns which do not have one or more amenities.

Appendix III	:	Land utilization data in respect of census towns /non-municipal towns.
Appendix IV	:	Mandal parishad wise list of inhabited villages where no amenity ther than drinking water facility is available.
Appendix V	:	Summary showing number of villages not having Scheduled Castes population.
Appendix VI	:	Summary showing number of villages not having Scheduled tribes population.
Appendix VIIA	:	List of villages according to the proportion of the Scheduled Castes to the total population by ranges.
Appendix VIIB	:	List of villages according to the proportion of the Scheduled Tribes to the total population by ranges.
Appendix VIII	:	Statement showing number of Girls Schools in the villages.
Appendix IX	:	List of Degree Colleges by Village / Town in the District.
Appendix X	:	List of Hospitals by Village / Town in the District.
Appendix XI	:	List of Banks by Village / Town in the District.
Appendix XII	:	List of Cinema Halls by Village / Town in the District.

It may be noted that the Appendix 1A, 1B, 1C, II, II-A, VIII, IX, X, XI and XII have been included afresh in comparison to the District Census Hand Books of 1991 Census.

Columns 1 to 3 relate to the serial number, location code number, name and total area of the village. The area given under column 3 is as per the data collected from the state survey department during 1991 census and presented even for 2001 census as the department clarified that there are no changes in the area figures. Column numbers 4 and 5 provide the total population and the total number of households in the village as per 2001 census. Columns 6 to 13 list out the basic amenities available in the village such as educational; medical; drinking water; post, telegraph and telephone; commercial and co-operative banks; agricultural, non-agricultural and other credit societies; recreation and cultural facilities and communications.

The columns 14 to 18 give the details of approach to the village, nearest town & distance, power supply, news paper/magazine circulation and most important commodity manufactured in the village.

The remaining columns 19 to 23 pertain to the land use pattern in the village. The extent of forest area has been given in column 19 while in columns 20 and 23 the extent of irrigated area together with different irrigational sources, the extent of culturable waste including gaucher and groves and the area not available for cultivation such as buildings, roads and railways or under water(rivers and canals), etc., have been given. Here it is worth mentionable that the total area figures of Col. 19 to 23 may not tally with the total area of the village as shown in Col. 3 due to various reasons such as water ways, etc., which are not generally included in the land use statistics.

The land use pattern in the Village Directory conforms to the pattern of clarification of land use as recommended by the Ministry of Agriculture, Government of India. The Ministry of Agriculture has recommended the maintenance of records of land use pattern under five categories viz. forests, not available for cultivation, other uncultivated lands excluding fallow lands, fallow lands and net area sown.

The concepts of various types of land use given under each of the columns 19 to 23 as given in the Village Directory schedule are reproduced below:

1. Forests (Col.19) :

These include all actually forested areas and the lands classified or administered as forests under any legal enactment dealing with forests whether State

owned or private. If any portion of such land is not actually wooded but put to some agricultural use, that portion is included under the appropriate heading of cultivated or uncultivated land.

2. Cultivated area with break-up irrigated and un-irrigated (Col. 20 & 21):

This includes the land under the following three categories.

I) Net area sown :

The net area sown represents the area sown to crops counting areas sown more than once in the same year, only once.

II) Other fallow lands :

This includes all lands which were taken up for cultivation but are temporarily out of cultivation for a period of not less than one year and not more than five years. The reasons for keeping such lands fallow may be either due to poverty of the cultivators or inadequate supply of water or malarial climate or silting of canals or rivers or un-remunerative nature of farming, etc.

III) Current fallows :

This class comprises cropped areas which are kept fallow during the current year. If any seedling area is not cropped again in the same year, it is also treated as current fallows.

3. Culturable Waste (Col. 22):

This item includes the land under the following three categories.

i) Permanent pastures and other grazing lands:

These cover all grazing lands whether they are permanent pastures and meadows or not. Village common and grazing lands within forest areas are included under this head.

ii) Lands under miscellaneous tree crops and groves not included in the area sown:

Under this class is included all cultivable land which is not included under net area sown but is put to some agricultural use. Lands under casurina trees, thatching grass, bamboo bushes and other groves for fuel, etc., which are not included under 'Orchards' are classed under this category.

iii) Culturable waste:

This includes lands available for cultivation but not taken up for cultivation or abandoned after a few years for one reason or other. Such lands may be either fallow or covered with shrubs and jungles, which are not put to any use. They may be assessed or not assessed and may lie in isolated blocks or within cultivated holdings. Land once cultivated but not cultivated for five years in succession is also included in this category.

4. Area not available for cultivation (Col.23) :

This includes the land under the following two categories.

i) Land put to non-agricultural uses :

All lands occupied by buildings, roads and railways or under waters such as rivers and canals and other lands put to uses other than agricultural.

ii) Barren and uncultivable land :

This covers all barren and uncultivable land like mountains, etc., i.e. which cannot be brought under cultivation unless at a high cost. Whether such land is in isolated blocks or within cultivated holdings.

All the above particulars are based on the data received from the concerned departments like education, medical, postal electricity, etc., and also mainly from the Mandal Revenue Officers concerned.

Item on communications has been shown separately to spell in terms of availability of the public transport system. This is meant to see whether the village is served by any mode of transport such as bus or rail or waterway. It is against this back-ground that the item on approach to village has been given separately. This refers to road, etc., leading to the village and is to indicate whether the village is

approachable both in fair and foul weather and whether it is inaccessible for all time or only some time in the year. Adult literacy class/centre under item on 'Education' and Primary health centre and Community health worker under item 'Medical' of Village Directory are included to indicate statistics on the Minimum Needs Programme of the Planning Commission.

Scope of Town Directory:

There are seven statements in the Town Directory, which include several particulars relating to the towns arranged as per the alphabetical order of their names. These statements are almost similar to those adopted in 1991 census except for a few changes. During the 1991 there were six Town Directory statements besides providing a separate statement IV-A bringing out civic conditions of the notified slums in class I and II towns. In the present volume the statement IV-A of the 1991 handbook has been termed as statement-VII and the data is presented in respect of all towns having statutory bodies including un-notified slums. The column 4 of statement IV-A of the 1991 book i.e. area of the slum has been deleted in the present book duly substituting the same by giving the information - whether the slum is notified or not with a view that the local authorities are not in a position to provide exact area figures for each slum area. Further in the present statement-VII another item i.e. approximate number of households living in the slum is incorporated. The captions of the statements are as follows:

Statement I	:	Status and growth history
Statement II	:	Physical Aspects and location of town, 1999
Statement III	:	Municipal Finance, 1998-99
Statement IV	:	Civic and other Amenities, 1999
Statement V	:	Medical, Educational, Recreational and Cultural Facilities, 1999
Statement VI	:	Trade, Commerce, Industry and Banking, 1999
Statement VII	:	Civic and other Amenities in slums, 1999

In addition to the above seven statements one appendix for the towns showing their outgrowth with population has also been presented.

The formats of Town Directory have been devised to suit the Minimum Needs Programme of the Planning Commission. To reflect this programme, the columns scheduled castes and scheduled tribes population in statement IV and Adult Literacy classes/ Centres in statement V are identical.

In case such of the amenity as Fire Fighting Service in statement IV, the Educational or Medical facility in statement V is not available in the town, the name of the nearest place and its distance from the referent town has been given. This feature is followed since 1981 census as it is necessary to identify the areas that have no specific facility in the district.

The following five places are treated as urban areas in Nellore district at 2001 Census.

1. Kavali
2. Kovurpalle
3. Gudur
4. Nellore
5. Venkatagiri

Kavali, Gudur, Nellore and Venkatagiri towns are continued since 1901. Nellore, Kavali and Gudur Municipalities are treated as urban Agglomeration from 2001 Census. Kovurpalle is treated as Census town since 1981 Census. Kovur, Naidupet, Shar project (Town slip) and Sullurpet were treated as Census towns during 1991 Census have been declassified at 2001 Census due to strict application of criteria for treating a place as town.

As per 2001 Census Nellore is classified as Class-I town with a population of 378,428. There are two towns viz., Kavali and Gudur classified as Class-II with a population of 79682 and 63518 respectively. This district is also having Class-III and Class-V towns viz., Venkategiri with a population of 31,341 and Kovurpalle recorded 8,529 population. There is no Class IV and Class-VI towns in the district according to 2001 Census.

Statement - I : Status and Growth History:

This statement provides basic information on civic status, population with decadal growth rate from 1901 to 2001, density for 2001 Census and sex ratio from 1981 to 2001 censuses of each town besides presenting class of town, location code, name of the mandal, area in sq.kms. and number of households including houseless households returned in 2001 Census.

The columns 1 and 2 relate to serial number and class, name and civic administrative status of the town. The class of town has been determined basing on the size of population as given below.

Population	Class
1,00,000 and above	I
50,000 - 99,999	II
20,000 - 49,999	III
10,000 - 19,999	IV
5,000 - 9,999	V
Below 5,000	VI

The civic administrative status of the town is indicated in brackets by abbreviated letters like 'MC' for Municipal Corporation and 'NP' for Nagar Panchayat. The location code number under Col.3 for the town was framed to follow the alphabetical order of the towns in the district. This also facilitates easy location of the town in the map. After location code the Col. 4-7 indicate name of mandal, name of mandal parishad, area of the town in sq. kms. And number of households including houseless households recorded in 2001 Census. The population of the town with decadal growth rate from 1901 Census to 2001 Census is given in Col. 8-18. The column 19 shows the density of population and column 20 to 22 give the sex ratio recorded during 1981 to 2001 Censuses. The sex ratio defined here is number of females per 1,000 males.

Statement - II : Physical aspects and location of town 1999:

This statement contains 13 columns and depicts physical aspects and location of town in the district. Column numbers 1 and 2 relate to serial number and class, name and civic status of the twon. The physical aspects such as rain fall in millimeters maximum and minimum temperatures in centigrade have been shown in columns 3 to 5 by taking average for the last 10 years i.e., from 1990 to 1999. The highest rain fall is recorded in Nellore (M) with 1263.3 mm followed by Kovurpalle with 1202.8. Guduru (M) recorded the least rain fall with 53.63 mm.

In respect of maximum and minimum average temperature Kavali stands at the top with 45^{o} and 18^{o} followed by Nellore with 40^{o} and 19^{o}. Guduru with 39.2^{o} and 22.4^{o} stands in bottom position.

The columns 6 to 12 give the details of name and road distance in kms., from the referent town, State, District and Mandal headquarters, nearest city with population of one lakh and more, Railway Station and Bus route. In this concerned Venkatagiri (CT) is far away from State Headquarters with 800 kms., and Kavali is nearest with 407 km.

Also Venkatagiri is far away from the district headquarters with 85 kms., Next place occupies by Kavali with 53 kms., from the District Headqwuarters.

Regarding the nearest city with population of one lakh and more, all the three towns viz., Kavali, Kovurpalle and Gudur are nearer to Nellore town with 53, 33 and 35 kms., respectively. But Venkatagiri town is situated at a distance of 55 kms., from Tirupati (M) of Chittoor district.

As regards nearest city with population of five lakh and more, Chennai is the nearest city of the above said 5 towns of Nellore district.

In respect of Railway Station concerned, all the five towns of this district are connected to the Railway line and also the Bus facility.

The last column, i.e., column No.13 is meant for showing name of the navigable river/canal with in the distance of 10 kms., from the referent town. There is no navigable river / canal in this district.

Statement III Municipal finance, 1998-99 :

The details for inclusion in this statement were obtained from the respective statutory bodies. In the

statement there are 16 columns. Column 1 to 2 relate to serial number, name and class of town with civic administration status. Columns 3 to 9 shown the receipts of the local body under various sub heads and columns 10 to 16 give the details of expenditure incurred on general administration, public safety, public health and convenience, public works, and institutions etc. During the year 1998-99 of Nellore (M) has highest income of Rs. 31.91 crores among the towns of Nellore district. The least income of Rs. 1.19 crores recorded in Gudur (M). Venkatagiri (CT) was reported the highest expenditure of Rs. 2.17 crore followed by Nellore (M) with Rs. 2.01 crores. The least expenditure recorded in Gudur (M) with 1.60 lakhs.

The income of the urban areas of Nellore district is derived through taxes and from Municipal properties and also from the Government grant.

The expenditure is concerned, Gudur (M) incurring more expenditure on public safty, public health and conveniences with 5.2 and 3.0 lakhs while the least expenditure is noticed in Kavali (M) with 8000 on public safety and 2000 on public health. But on public works this municipality spending highest expenditure with Rs. 50,000/-.

Statement IV : Civic and other Amenities, 1999:

The title itself reveals that this statement deals with the facilities provided to the people in the urban areas of the district.

This statement contains 20 columns. Column 1 and 2 relate to serial numbers class and name of town and civic administration status of the town respectively. Column 3 gives population of the town whereas the column number 4 and 5 gives population of SC and ST as per 2001 Census. The lengths of pucca and katcha roads are recorded separately for each town in column 6. The column 7 shows the details of sewerage systems prevailing in the referent town. The number of latrines with different types is shown in columns 8 to 11. Column 12 is provided separately to show method of disposal of night soil. The source of protected water supply and the system of storage with capacity are recorded under column 13 and 14. Column 15 shows the availability of fire fighting services. In case if this service is not available in the town the name of the nearest town along distance where available to be mentioned under this column. Fortunately the five towns in Nellore district is having fire lighting services. The columns 16 to 20 relate to different types of electrical connection in number.

Kavali town is having 43 kms. pucca and 51 kms. kutcha roads, open surface drainage system 10,908 water borne. Night soil is disposed of by the method of sewerage lines and pit system. Tube well is the source of supply of protected water by storing the water in over head service reservoir having capacity of 1750 kilolitres. Electrical connections is having of 15172 domestic 156 industrial, 2285 commerce and 3200 road lighting points.

In respect of Nellore town it is having 498 kms. pucca roads. The drainage system of sewerage lines with open surface drains and 19,438 water borne and 12,409 service latrines are there in the town. In Nellore town night soil is dispersed of by way of sewerage lines. Tap water is the source of supply of protected water through service reservoir overhead tank with a total storage capacity of 4273 kilolitres. In this town the number of electrical connections existing for domestic, industrial, commercial and road lighting points are 79,445, 960, 16,038 and 12298 respectively.

Guduru town is having 41 kms. pucca and 21 kms. kutcha roads, open surface drainage system, 2200 water borne and 1000 other types of latrines. Night soil is disposed of by the method of sewerage lines. Tube well is the source of supply of protected water by storing the water is over head services reservoir having capacity of 710 k.litres. In this town there are electrical connections of 12,665 domestic 145 industrial 2117 commercial and 2350 road lighting points.

Kovurpalle town is having 3 kms. pucca roads, open surface drainage system, 1,270 water borne. Night soil is disposed of by the method of sewerage lines. Tube well and well is the source of supply of protected water by storing the water in over head tank reservoir. Kovurpalle is having electrical connections of 2689 domestic, 33 industrial, 8 commercial and 210 road lighting points.

Venkatagiri town is having 62 kms. pucca roads, open surface drainage system 4870 water borne. Night soil is disposed of by the method wheel barrow. Tap water is the source of supply of protected water through bore well pump and over head tank with a total storage capacity of 1040 k.litres. In Venkatagiri the number of electrical connections existing for domestic, industrial, commercial and road lighting points are 9831, 33, 885 and 790 respectively.

Statement V : Medical, Educational, Recreational and cultural facilities, 1999:

In this statement the availability of Medical, Educational, Recreational and Cultural facilities are presented with reference to the population 2001 census. This statement is containing 20 columns. Columns 1,2 and 3 relate to serial number, class and name of the town and the population recorded during 2001 census respectively. The columns 4 and 5 show about the availability of different hospitals, dispensaries, T.B.Clinics etc.,together with strength. Columns 6 to 15 relate to educational facilities such as various schools/colleges at all levels including Medical, Engineering, Polytechnic, Technical Institutions and adult literacy centres. The column 16 is meant for working women's hostels with number of seats. The number of recreational and cultural facilities such as Stadium, Cinema, Auditorium, Community halls, Public Libraries including Reading rooms available in the towns is recorded in columns 17 to 20. In Kavali town there are 2 Hospitals, 2 dispensaries and 24 Nursing Homes with a provision of 127 beds. There are 4 Degree Colleges and one Engineering college, 5 typewriting and 2 shorthand institutions in Kavali town. In this town 6 higher secondary / intermediate, 17 secondary, 24 junior secondary and 36 primary schools are existing for professional courses the students of the town have to go to the nearest towns of Tirupathi and Nellore at a distance of 172 and 52 kms. For recreational and cultural purposes of the town is having 6 cinema halls, 1Drama / Community hall and 4 public libraries including reading rooms.

In Kovurpalle town there is one HC. There is one middle school 6 primary schools are existing. For professional courses, colleges the students have to go to nearest towns of Kavali, Nellore and Tirupathi at a distance of 16,38 and 154 kms., respectively.

In respect of Nellore town there are 7 hospitals, dispensaries and nursing homes etc., with a total bed strength of 670. There are 16 degree colleges, one medical college 2 engineering colleges and 3 polytechnic institutes in this town. In this town 13 type writing / short hand institutes. As regards school education facilities in Nellore town 28 higher secondary, 59 secondary 93 junior secondary 189 primary schools besides having 27 adult literacy centers. For catering recreational and cultural needs in this town there are 17 cinema halls, one stadium and 3 auditorium / drama / community halls. In addition to the above 17 public libraries including reading rooms are available.

In Guduru town there are 2 hospitals, dispensaries, family welfare center and nursing homes etc., with a provision of 55 beds. There are 5 degree colleges, 3 polytechnic institutes and two type institutes / vocational training institute in this town. In this town there are 4 higher secondary, 2 secondary, 2 junior secondary and 15 primary schools besides having 9 adult literacy centers. The professional courses the students of the town have to go to the nearest towns of Nellore and Tirupathi at a distance of 35 kms. and 90 kms. For recreational and cultural purposes the town is having 6 cinema halls, one stadium 1 community hall and 1 public library and 7 reading rooms.

In respect of Venkatagiri town there are 2 hospitals. Dispensaries, health centers, family welfare center, nursing homes and primary health centers etc., with a provision of 22 beds. There are 2 degree colleges, 3 higher secondary 4 secondary 8 junior secondary and 20 primary schools besides having 11 adult literacy centers. For professional courses the students of the town have to go to nearest towns of Nellore, Guduru and Tirupathi at a distance of 82 kms., 47 kms., and 55 kms., respectively. For recreational and cultural purposes the town is having 3 cinema halls and 2 public libraries / reading rooms.

Statement - VI: Trade, Commerce, Industry and Banking, 1999:

This statement deals with economic activities in the urban areas with 11 columns. Column 1 and 2 are serial number and class and name of the town.

The columns 3 to 5 give the details of three most exported commodities. In column 6 to 8 the names of three most important commodities manufactured in the respective towns are recorded. The commercial banks, number of agricultural societies and the non-agricultural societies are furnished in columns 9 to 11.

The urban population of the district exports of paddy, readymade garments, fish and prawns, nippo batteries, sugar cane, mica, chemicals, zari sarees, cotton sarees, lime, citrus. The items which are manufactured in urban areas in this district are readymade garments, ice creams, ground nut oil, nippo batteries, straw boards electrical, P.V.C. pipes ceramics, lime, zari sarees and cotton sarees etc. The urban population in the district is served by a net work of 58 commercial banks 2 agricultural credit societies and 146 non agricultural credit societies.

Statement VII - Civic and Other Amenities in Slums, 1999:

The statement give details of civic amenities provided in all slums whether notified or not keeping in view of slums problem in urban areas, during 1981 Census this statement was first introduced limiting the details of Class-I and Class-II towns. The same pattern was adopted during 1991 Census also.

Though the magnitude of slum problem is greater in Class-I and Class-II towns, it is accepted that they are associated with smaller towns also. Hence the information on slums has been presented in this statement in respect of all towns having statutory bodies.

The statement on slums contains 17 columns. The columns 1 to 4 show the serial number class and name of town, name of the slum and whether the slum is notified or not respectively. Columns 5 and 6 give the details of approximate number of households and population of the slum during 1999. The length of the paved road in the slum has been shown in km., under column 7. The columns 8 to 13 present system of sewerage number of latrines both private and community and method of disposal of night soil. The column 14 is meant showing number of tap points / public hydrants. The last 3 columns i.e., columns 15 to 17 relate to number of electric connections under domestic, road lighting points and others.

Gudur town has 30 slums with approximately 4,348 households and 19,916 population. These slums are having 13 kms., paved road. Night soil of these slums are disposed of by way of sewerage line septic tank and pit system. For drinking water facility 422 tap points are in existence 600 electric connections and 1300 road lighting points are available.

Kavali town has 25 slums with 5,747 households and the population of these slum areas is 26,285. 36 kms., length of paved road is in existence, open surface drain system and 2,170 latrines. Night soil of these slums are disposed of by way of septic tank. For drinking water facility 1381 taps are existing. Electric connections in the slums are 4,509 and 686 road lightings.

Nellore town there are 73 slum areas with 21,791 households and 100,334 population, 44 kms., length of paved road is available in the slum areas of Nellore town. This slums in this town are with open surface drain system. For drinking water facility 780 tap points are existing. 2,777 road lighting points are also available in the slum areas.

Section I - Village Directory

(a) Note explaining the abbreviations used in Village Directory :

The "Village Directory" is one of the traditional compilations of the Census. It gives the list of villages, their location numbers, their area, population, number of households, amenities such as educational, medical, drinking water, post and telegraph, commercial and co-operative banks, agricultural non-agricultural and other credit societies, recreational and cultural facilities, communication, approach to village, nearest town with a distance, power supply availability of newspaper and magazines, most important commodity manufactured and land use of each village.

Village is a statutory recognized unit having a definite boundary and separate land records. In case, a complete village is treated as an outgrowth of urban agglomeration, data on amenities for that village, have not been given in the Village Directory but shown along with the urban component. The villages which are consider as a Census Town , the amenities data are shown in the Town Directory. For those villages which have partly merged in an outgrowth of U.A., the amenities data are shown in the Village Directory for that particular village.

The 'un-inhabited' villages (villages with no population) have been indicated as such after furnishing details in columns 1 to 3 i.e., Serial number, Name of village & location code number and area of the village against column no. 4 to 18. The land use data for such villages are shown in col. 19 to 23.

The Village Directory format has 23 columns and the details given under each column are for the village are as follows:-

Columns 1 : Serial Number

Self explanatory. All the villages within the CD Block are presented serially in the ascending order of their location code number.

Columns 2 : Name and Location Code Number of village

The name and location code number of the village are shown against these columns. This also includes the forest and uninhabited villages.

Column 3 : Area of the village

The area of the villages in hectares are given. Wherever the area figures was not furnished by the concerned department the column is left blank.

Column 4 : Total population

The total population of the village as per 2001 Census is given against this column.

Column 5 : Number of households

The number of households as per 2001 Census is given in this column.

Amenities :

In column 6 to 23, availability in respect of different amenities such as education, medical, drinking water, post, telegraph, banks, credit societies, communication, power, approach road etc. in each village has been depicted with appropriate codes against the column concerned. Wherever the amenities are not available in the village, a dash (-) is shown in the column and next to it in brackets the distance in broad ranges viz.< 5 kms., 5-10 kms. and 10+ kms of the nearest place where the facility is available is given. Column wise details are given below

Column 6 : Educational

Classes upto class V included in Primary School. This will include nursery school, kindergarten school. Pre-basic school, pre-primary school, junior basic school upto class V.

Classes from VI to VII are included in the middle school.

Classes from VIII and X included in Higher secondary school. Classes XI and XII are included in senior secondary school.

In case of composite schools like middle school with primary school or secondary school with middle school, these are also included in the number of primary and middle schools, respectively.

Accordingly any of the following types of institutions if exists within the village is shown as per codes given below :

(i)	Primary School	P
(ii)	Middle School	M
(iii)	Secondary School	H
(iv)	Senior Secondary School	PUC/JC
(v)	College	C
(vi)	Industrial School	I
(vii)	Training School	Tr
(viii)	Adult literacy class/centre	AC
(ix)	Others (specify) e.g. Sanskrit Pathshala, Senior basic school, Navodaya Vidyalaya, Makhtab, etc.	O

More than one institution of a type in the village is indicated by the number within brackets against the abbreviation, e.g. P(3), M(4), etc.

Column 7 : Medical

Availability of medical facility within the village is indicated by following codes :

(i)	Allopathic Hospital	H
	Ayurvedic Hospital	HA
	Unani Hospital	HU
	Homeopathic Hospital	H Hom
(ii)	Allopathic Dispensary	D
	Ayurvedic Dispensary	DA
	Unani Dispensary	DU
	Homeopathic Dispensary	D Hom
(iii)	Maternity & Child Welfare	MCW
(iv)	Maternity Home	MH
(v)	Child Welfare Centre	CWC
(vi)	Health Centre	HC
(vii)	Primary Health Centre	PHC
(viii)	Primary Health Sub-Centre	PHS
(ix)	Family Welfare Centre	FWC
(x)	T.B. Clinic	TB
(xi)	Nursing Home	NH
(xii)	Registered Private Medical Practitioner	RMP
(xiii)	Subsidised Medical Practitioner	SMP
(xiv)	Community Health Worker	CHW
(xv)	Others	O

More than one institution of a type in the village is indicated by the number within brackets against the abbreviations, e.g. H(3), D(4), etc.

Column 8 : Drinking Water

The type of the drinking water supply sources available within the village are indicated by codes as follows :

(i)	Tap Water	T
(ii)	Well Water	W
(iii)	Tank Water	TK
(iv)	Tubewell Water	TW
(v)	Handpump	HP
(vi)	River Water	R
(vii)	Canal	C
(viii)	Lake	L
(ix)	Spring	S
(x)	Others	O
(xi)	Summer Sorce	SS-

Column 9 : Post, Telegraph and Telephone

It is indicated by codes as shown below whether within the village exists the following amenities:

(i)	Post Office	PO
(ii)	Telegraph Office	TO
(iii)	Post & Telegraph Office	PTO
(iv)	Telephone Connection	PH

Column 10: Commercial and Co-operative Banks

If the village is served by any banking service, commercial bank, co-operative bank etc. the same is indicated in codes mentioned below along with the number of banks in brackets. If not available the distance of nearest place where the facility exist is given:

(i)	Commercial Bank	CM
(ii)	Co-operative Bank	CP

Column 11: Credit Societies

If the village enjoys the services of Credit Societies i.e. Agricultural Credit Societies, Non Agricultural Credit Society or Other Credit Societies, the same is indicated in codes mentioned below along with the number of such societies in brackets. In case the facility is not available within the village the distance of the nearest place where such facility exist is given:

(i)	Agricultural Credit Society	ACS
(ii)	Non- Agricultural Credit Society	NCS
(iii)	Other Credit Society	OCS

Column 12 : Recreational and cultural facilities

If facilities such as Cinema/Video hall, Sports Club, Stadium/Auditorium is available in the village. The same is recorded in these columns. If not available the particulars of the nearest place with the facility is recorded. The information is indicated in codes mentioned below along with the number of such facilities in brackets:

(i)	Cinema / Video Hall	CV
(ii)	Sports Club	SP
(iii)	Stadium / Auditorium	ST

Column 13 : Communications

If the village is served by any mode of public / private transport like Bus, Railway station or Navigable water ways they are to be mentioned as follows:

(i)	Bus	BS
(ii)	Railway Station	RS
(iii)	Navigable Waterway	NW

Column 14 : Approach to village

Approach to village refers to the state of road leading to village. The approach to the village is indicated in following codes :

(i)	Paved Road	PR
(ii)	Mud road	MR
(iii)	Foot path	FP
(iv)	Navigable River	NR
(v)	Navigable Canal	NC
(vi)	Navigable waterways other than River, Canal	NW

Column 15 : Nearest Town and distance

The distance is given in kilometers in brackets against the name of the town nearest to the village.

Column 16 : Power supply

Availability of Power Supply in the village, whatever may be the form of its use is given by using following codes :

(i)	Electricity for domestic use	ED
(ii)	Electricity for agricultural use	EAG
(iii)	Electricity for other purposes	EO
(iv)	Electricity for all purposes	EA

Column 17 : News Paper / Magazine

If village receives any News Paper/Magazines the same is noted in this column using following codes

(i)	News Paper	N
(ii)	Magazine	M

Column 18 : Most important commodities manufactured

The name of three most important commodities manufactured in the village is recorded against this column.

Column 19 to 23 : Land use i.e. area under different types of land use

Land use data maintained by the State/ UT Govts. are furnished against these columns. The data concerning area under Forest, Irrigated land (by source), Un-irrigated land, Culturable waste and Area not available for cultivation in the village are shown against these columns. The area figures are given in hectare(s) up to one decimal. Desh '-' is recorded wherever the information is not made available by the concerned department. The codes used for different types of irrigation facilities available in the village are indicated below:

(i)	Government Canal	GC
(ii)	Private Canal	PC
(iii)	Well (without electricity)	W
(iv)	Well (with electricity)	WE
(v)	Tubewell(with electricity)	TW
(vi)	Tubewell(with electricity)	TWE
(vii)	Tank	TK
(viii)	River	R
(ix)	Lake	L
(x)	Waterfall	WF
(xi)	Others	O
(xii)	Total	T

(b) List of Villages merged in Towns and Out Growths at 2001 Census

(i) List of Revenue Villages that have been fully merged in Towns and Outgrowths at 2001 Census

Serial number	Name of mandal	Name of village	Name of the Municipality/ Nagar Panchayat/ Census Town in which the village is merged
1	2	3	4
1	Kavali	Kavali	Fully included in Kavali (M)
2	Bogole	Kovurpalle	Fully included in Kovurpalle (CT)
3	Nellore	Nellore	Fully included in Nellore (M)
		Podarupalle	Fully included in Nellore (M)
		Vedayapalem	Fully included in Nellore (M)
		Kondayapalem	Fully included in Nellore (M)
		Nellore (Bit -I)	Fully included in Nellore (M)
		Nellore (Bit-II)	Fully included in Nellore (M)
4	Gudur	Gudur	Fully included in Gudur (M)
5	Venkatagiri	Venkatagiri	Fully included in Venkatagiri (CT)
		Dharmapuram	Fully included in Venkatagiri (CT)
		Manulapeta	Fully included in Venkatagiri (CT)

(ii) List of Revenue Villages that have been partly merged in Towns and Outgrowths at 2001 Census

Serial number	Name of mandal	Name of village	Name of the Municipality/ Nagar Panchayat/ Census Town in which the village is merged
1	2	3	4
1	Kavali	Kavali (Bit -II)	Partly included in Kavali (M)
		Kavali (Bit-I)	Partly included in Kavali (M)
		Maddurupadu	Partly included in Kavali (M)
		Musunuru	Partly included in Kavali (M)
2	Nellore	Buja Buja Nellore	Partly included in Nellore (M)
		Kallurpalle	Partly included in Nellore (M)
		Allipuram	Partly included in Nellore (M)
3	Gudur	Gudur (E)	Partly included in Gudur (M)
		Gudur (W)	Partly included in Gudur (M)
4	Venkatagiri	Chevireddipalle	Partly included in Venkatagiri (CT)

Section II - Town Directory

Note explaining the abbreviations used in the town directory

Town Directory statements (I to VII)

Statement I : Status and Growth History

Column (2) : Class, name and civic administration status of town :

Class has been introduced to facilitate analysis of town directory data at the state and all India levels. It is presented according to 2001 Census Population of the town as follows :

Population	Class
100,000 and above	I
50,000 - 99,999	II
20,000 - 49,999	III
10,000 - 19,999	IV
5,000 - 9,999	V
Below 5,000	VI

Town with a population of one hundred thousand (1,00,000)and above is treated as a city.

The civic administration status of the towns is indicated within bracket against the name of the town. The following abbreviations are used to denote civic status of town.

(I)	Municipal Corporation	M. Corp.
(II)	Municipal Committee	MC
(III)	Municipal Council	M Cl
(IV)	City Municipal Council	CMC
(V)	Town Municipal Council	TMC
(VI)	Municipal Board	MB
(VII)	Municipality	M
(VIII)	Cantonment Board/Cantonment	CB
(IX)	Notified Area	NA
(X)	Notified Town	NT
(XI)	Notified Area Committee/ Notified Area Council	NAC
(XII)	Notified Town Area	NTA
(XIII)	Industrial Notified Area	INA
(XIV)	Industrial Township	ITS
(XV)	Township	TS
(XVI)	Town Panchayat	TP
(XVII)	Nagar Panchayat	NP
(XVIII)	Town Committee/ Town Area Committee	TC
(XIX)	Small Town Committee	ST
(XX)	Estate office	EO
(XXI)	Gram Panchayat	GP
(XXII)	Census Town	CT

Others columns need no comments.

Statement II - Physical Aspects and Location of towns, 1999

Column 3 to 5 : Physical Aspects

In this columns the Rainfall and Maximum & Minimum Temperature of the town is recorded.

Column 6, 7 and 8 :

Name of the State headquarters, District headquarters and Sub-Divisional headquarters with distance from the referent town in kilometers, is to be recorded respectively. If the names mentioned in these columns are the same as the referent town itself, the distance is recorded as (0) zero.

Column 9& 10 :

Name of the nearest city with one lakh and more and five lakhs and more population are recorded.

Column 11, 12 and 13 :

If referent town enjoys the facility of railway station, bus route facility or navigable river/canal. Its name is to be mentioned. If not available, then the name of nearest place with distance, where such

facility exists is to be mentioned.

Statement III : Municipal Finance 1998 - 1999

Item-wise amount of receipt and expenditure in thousand rupees, relating to municipal finance of the town for the year 1998-99 is to be recorded.

Statement IV : Civic and Other amenities, 1999

Column (1 to 5) : Self explanatory.

Column (6) : Road length (in kms.)

Information about kutcha / pucca road is to be recorded separately for the roads within the limits of the referent town.

(i)	Pucca Road	PR
(ii)	Kutcha Road	KR

Column (7) : System of Sewerage

Generally, by sewerage system is implied the network of mains and branches of underground conduits for the conveyance of sewerage to the point of disposal. Sewers that carry only household and industrial wastes are called separate sewers, those that carry storm water from roofs, streets and other surface are known as storm water drains, while those carrying both sewage and storm water are called combined sewers.

The codes used for different types of drainage system are as follows :

(i)	Sewer	S
(ii)	Open Surface Drains	OSD
(iii)	Box Surface Drains	BSD
(iv)	Sylk Drains	SD
(v)	Cesspool method	CP
(vi)	Pit System	Pt
(vii)	Others	O

Column 8 to 11 : Number of latrines

Number of various types of latrines both Public and Private are given in these columns.

Column 12 : Method of disposal of night soil

The various prevalent method of disposal of night soil are given below with codes :

Head Loads	HL
Basket	B
Wheel Barrows	WB
Septic Tank	ST
Pit System	Pt
Sewerage	S
Others	O

Column 13 and 14 : Water supply

Source and capacity of storage system. The following codes are used in these columns:

Column 13:

(i)	Tap water	T
(ii)	Tube-well water	TW
(iii)	Tank Water	TK
(iv)	Well water	W

Column 14:

(v)	Over Head Tank	OHT
(vi)	Service Reservoir	SR
(vii)	River Infiltration Gallery	RIG
(viii)	Bore Well Pumping System	BWP
(ix)	Pressure Tank	PT

The information on major source of water supply are given in column 14 and the storage capacity against each in kilo-litres (in bracket) are presented in column 15.

Column 15 : Fire Fighting Service

In case the fire fighting service is available in the referent town 'yes' is recorded. If the facility is not available within the town. The name of the nearest place having this facility with its distance from the referent town has been recorded.

Column 16 to 20 : Electrification (Number of connections)

Different types of electric connections have been shown in these columns, i.e. Domestic, Industrial, Commercial, Road lighting (points) & others.

Statement V : Medical, Educational, Recre ationaland Cultural Facilities, 1999

Column 1 to 3 : Self explanatory.

Column 4 & 5 :

The data covers all such medical institutions

run by or aided by Government/Semi Government/ Local bodies and Charitable institutions or Social agencies like the Missionaries. Where the family planning centres are attached to hospitals or maternity and child welfare centres or Primary Health Centres, may be treated as independent units and counted separately using following codes :

(i)	Hospital	H
(ii)	Dispensary	D
(iii)	Health Centre	HC
(iv)	Family Welfare Centre	FWC
(v)	T.B. Clinic	TB
(vi)	Nursing Home	NH
(vii)	Others	O

In case of more than one institutions of any type, it is indicated within brackets the number of such institution (s) e.g. D(3), NH(8), etc. The institutions have further been distinguished by providing additional codes within the bracket as given below :

Ayurvedic	A
Unani	U
Homoeopathic	Hom

Column 6 to 9 :

The codes used for these columns are as follows:

(i)	Arts only	A
(ii)	Science only	S
(iii)	Commerce only	C
(iv)	Arts & Science only	AS
(v)	Arts & Commerce only	AC
(vi)	Combined for all categories-Arts, Science and Commerce	ASC
(vii)	Law	L
(viii)	University	U
(ix)	Others	O

Column 10 : Recognized shorthand, typewriting and vocational training institutes

"Recognised" should mean recognised by some statutory authority, like education department, commerce department, labour department etc. of the government or semi government or autonomous bodies, public sector undertakings etc.

The following codes are used :

(i)	Vocational Training Institute	VT
(ii)	Shorthand	SH
(iii)	Typewriting	Type
(iv)	Shorthand & Typewriting	SH Type
(v)	Others	O

The vocational institutions like - Applied Art/Painting college, Pharmacy college, B. Ed. College, Teacher's Training Institute, Music / Dance School, Nursing School etc. are covered under 'Others'.

Column 11 to 14:

Higher Secondary/Intermediate/Senior Secondary/ PUC/Junior College level, Secondary/Matriculation, Middle Schools/ Junior Secondary and Primary Schools.

School up to class V are treated as Primary or elementary schools. These include Nursery schools, Kindergarten schools, Pre-Primary schools, Junior Basic schools upto class V and Primary schools upto class IV.

Schools upto VIII are considered as Middle school or Junior Secondary.

Schools upto class X are considered as Matriculation or Secondary schools.

Schools upto XI or XII classes are considered as Higher Secondary / Intermediate / Pre University / Junior College etc. This would cover 10+2 classes whether held in schools or college.

If there are composite schools like middle schools with primary classes or Secondary schools with Middle classes, these are also included in the number of Primary and Middle schools, respectively. For example, if in a town, there are two Primary Schools and one Middle school with Primary classes, the number of Primary schools in the town is given as three and that of Middle schools as one though there are only three educational institutions.

If there are more institutions of a type in the town, the number is indicated within bracket along with the abbreviation, e.g. P(4), M(3).

Column 15 : Adult literacy class/centres

This column has been introduced keeping in view the Minimum Needs Programme of the Planning Commission. There are number of Adult Education Centres which are included in these columns.

If an educational facility is not available in the town, the name of the nearest place and its distance in kilometres from the town where the facility is available is mentioned.

Column 16 : Working Women's hostels with number of seats

The number of working women's hostel if available in the referent town is mentioned with number of seats. If the facility is not available in the town the name of nearest place with distance where the facility is available is recorded.

Column 17 to 19 : Recreational and Cultural Facilities

Stadium, Cinema, Auditorium/Drama/Community Hall are covered under recreational & cultural facilities. The particulars of permanent recreational facilities are considered for these columns.

Column 20 : Public Libraries, Reading Rooms

Number of public libraries and reading rooms available in the referent town are recorded in codes as follows :

(i) Public Library	PL
(ii) Reading room	RR

Statement VI : Trade, Commerce, Industry and Banking, 1999

Column 3 to 8 :

Name of three most important commodities exported and names of three most important commodities manufactured in the town are recorded.

Column 9 : Number of Banks

Number of Banks available in the referent town both Commercial and Co-operative banks are recorded against this column.

Column 10 & 11 :

Number of Agricultural Credit Societies and Non Agricultural Credit Societies

The total number of Agricultural Credit Societies and Non Agricultural Credit Societies in the referent town are recorded against these columns.

Statement VII : Civic and other Amenities in Slums, 1999

This is the statement on civic and other amenities in all slums whether notified or not and for all towns having statutory bodies, like municipality, Municipal Corporation, Town area committee etc.

Brief note on Primary Census Abstract

The first census of the third millennium and twenty first century the Census of India, 2001 was the 14th continuous and uninterrupted Indian census since 1872. Thus, 2001 Census will provide data on population and its characteristics marking transition from one century and millennium to another.

The gigantic operation of Population Enumeration (considered by many to be the single largest and complex peace time administrative exercise in the world) was made possible due to the door to door universal canvassing of the Household Schedule by about 2 million enumerators and supervisors covering 593 districts, 5,463 sub-districts, 5,161 towns and 638,588 villages. The comprehensive Household Schedule which replaced the individual slip had three parts and two sides A and B. Part I contained the Location Particulars; Part II related to the Individual Particulars and Part III contained questions for Household engaged in Cultivation/Plantation . The part II of the Household Schedule had 39 columns and 23 questions all of which were universally canvassed and no sampling was resorted to during enumeration.

Data Processing

A quantum leap was made in the technology front while processing the Census 2001 data both for Houselisting and Population Enumeration. The Census schedules for both the phases were scanned through high speed scanners in fifteen data centers across the country and hand-written data from the schedules were converted into digitized form through Intelligent Character Reading (ICR) software for creation of ASCII records for further processing. The designing and formatting of the Household Schedule had to be done very carefully using specialized software so as to ensure uniformity, which was an essential pre-requisite for scanning. The selection of appropriate state-of-art technology in data processing has made it possible to produce all the Houselisting as well as Population Enumeration tables on full count basis for the first time in the history of Census. For Census 2001, about 202 million schedules consisting of about 1,028 million records were scanned and processed within a span of only 10 months starting October, 2002.

Task Force on Quality Assurance

After the data is processed, it is expedient on the part of the data producing agency to satisfy itself about its quality before putting the same in public domain. This has to be done mainly through the process of internal consistency, comparison with similar data in the past and also through validation with likewise data if available, from external sources. Quite often the local knowledge and perception has to be brought into play to understand both the existing and the new emerging trends of population distribution and characteristics. The other very important aspect of the data quality is to ensure complete coverage of all geographical areas especially for the population enumeration phase where the data is disseminated right up to the village level in the rural areas and the ward level in the urban areas. Thus ensuring the complete coverage and correct geographical linkage of each enumeration block was one of the major planks of the quality control, specially for small area population statistics.

A very comprehensive check and edit mechanism was put in place to objectively examine the preliminary Census 2001 Population Enumeration results and finally clear them for use. The responsibility of the final clearance of data was with the Task Force on Quality Assurance (TFQA), headed by the Registrar General and Census Commissioner, India. The other members of the TFQA were the Heads and senior officers of the Census Division, Data Processing Division, Map Division, Demography Division and Social Studies Division. The Directors of Census Operations were co-opted as members whenever the TFQA discussed the data for their States/Union territories. The Directors and their senior officers were required to make detailed presentations of data for their own state both in respect to the

quality and the coverage and only after the full possible cleared.

There has been a major departure in Census 2001 from the past in respect of the procedure followed for finalization of the Scheduled Castes and the Scheduled Tribes population. In the earlier censuses, the total Scheduled Castes and Scheduled Tribes populations were finalized at the time of the manual compilation of the Primary Census Abstracts (PCA) at the Regional Tabulation Offices which were specially set up for this purpose. The individual Scheduled Castes and the Scheduled Tribes population for each state was finalized much later based on manual coding done by the coders. In 2001 Census, each individual Scheduled Caste and the Scheduled Tribe have been coded directly on the computers by the Data Entry Operators through a process known as Computer Assisted Coding (CAC) and taken up along with the processing of PCA data. The CAC process involves pulling down, from the relevant dictionary of the Scheduled Castes and the Scheduled Tribes, on the computer screen and coding from the dictionary by referring to the image of the specific individual entry in the Household Schedule appearing on the screen. The CAC of the response on Religion wherever required, was also undertaken along with the processing of PCA. This is because the Scheduled Castes status had to be determined in relation to the religion of the individual. Two Special Task Forces, one on Religion and the other on Scheduled Castes/ Scheduled Tribes were constituted for scrutiny and appropriate classification of these responses.

The main task of the Special Task Force on Religion was to appropriately merge or group the new responses encountered and code it into the appropriate religious community based on available literature and local knowledge. The Special Task Force on Scheduled Castes and Scheduled Tribes examined the different Scheduled Castes and Scheduled Tribes entries encoun-tered and classified these into appropriate category of the Scheduled Castes or the Scheduled Tribes principally based on the Presidential Notification and the available literature. Thus a very systematic and scientific mechanism was operationalised to firm up the individual religion and the individual Scheduled Castes/Tribes returns. The Scheduled Castes and the Scheduled Tribes population in 2001 Census, is thus being finalized by aggregating the population data for individual Scheduled Castes and the Scheduled Tribes at appropriate geographical levels.

The entire work relating to the data validation and scrutiny was completed by all the States/Union Territories under the overall supervision and monitoring of the Census Division of the Office of the Registrar General, India with active cooperation and support of the Social Studies Division, Data Processing Division, Data Dissemination Division and Map Division.

Primary Census Abstract

The Primary Census Abstract which is yet another important publication of 2001 Census. Population gives basic information on Area, Total Households, Total population, Scheduled Castes, Scheduled Tribes population, Population in the age group 0-6, Literates, Main workers and Marginal workers classified by the four broad industrial categories, namely, (i) Cultivators, (ii) Agricultural laborers, (iii) Household Industry Workers, and (iv) Other workers and also Non-workers. The characteristics of the Total Population includes Scheduled Castes, Scheduled Tribes, Institu-tional and Houseless population and are presented by sex and rural-urban residence. This data is presented at different levels, namely, India, States/Union territories, Districts and Cities, Urban Agglomerations (Population 1,00,000 and above) in three different tables. In addition, the Appendix of said publication provides Houseless and Institutional Households and their population by residence and sex for 2001 for India, State and Union territory.

Apart from the India and State/Union Territory volumes for Primary Census Abstract, the District Census Handbook contains District Primary Census Abstract, Appendix to District Primary Census Abstract, Primary Census Abstract for Scheduled Castes, Primary Census Abstract for Scheduled Tribes, Village Primary Census Abstract and Urban Primary Census Abstract of the concerned district in the state.

It was for the first time at the 1981 Census that the Primary Census Abstract (PCA) was brought out for the Scheduled Castes and the Scheduled Tribes separately on the pattern of General Primary Census Abstract. This practice was continued in 1991 also. In the 1961 and 1971 Censuses, such data were made available in Table C-VIII-Social and Cultural table and to some extent in the series 'Special Tables for

Scheduled Castes/Scheduled Tribes'.

The format of Primary Census Abstract has been restructured slightly in the 2001 Census as compared to that of 1991 Census. The nine-fold industrial classification of main workers given in the Primary Census Abstract of 1991 Census has been discontinued and its place, four-fold industrial classification of both 'main workers' and 'marginal workers' are included. In 1981 census only main workers were presented in to four categories. One of the novel features of the primary census abstract of 1991 census was the presentation of data of the population of age group 0-6 is continued in 2001 Census also. This will help the data users in better analysis and understanding of this literacy data.

Level of presentation in District Census Handbooks:

The Primary Census Abstract data in different PCAs are presented at different levels. The level of presentation of Primary Census Abstracts are as under:

	Name of the Primary Census Abstract	Level of presentation
1.	District Primary Census Abstract	District/Mandal Parishad/UA/City/Town
2.	Primary Census Abstract for Scheduled Castes	District/Mandal Parishad/Town
3.	Primary Census Abstract for Scheduled Tribes	District/Mandal Parishad/Town
4.	Village Primary Census Abstract	Mandal Parishad/Village wise
5.	Urban Primary Census Abstract	Town/Ward level

The PCA Data for villages was presented Mandal Parishad wise for the first time in 1991 Census. This practice is continued in 2001 Census also. The data for each Mandal Parishad is presented both for rural and urban areas separately. All the villages within the Mandal Parishad constitute the rural portion and the Census Towns and Outgrowths are shown under the urban portion of the Mandal Parishad. In case a Mandal Parishad is spread over two or more districts, than portion which falls within the district is presented, the data pertaining to remaining portion of the Mandal Parishad is presented in the concerned District Census Handbook. The data in the Urban Primary Census Abstract for each town as well as for town with outgrowths in the district are presented. The data for all the wards and the outgrowths of the town(s) are also presented separately below the concerned town(s).

The District Primary Census Abstract is presented in 59 columns. The Primary Census Abstract for Scheduled Castes and Primary Census Abstract for Scheduled Tribes are presented in 52 columns. The Village Primary Census Abstract and Urban Primary Census Abstract are presented in 58 columns.

The concepts and definitions used in the column heading are explained under the sub heading 'Census Concepts' in the Analytical Note. The term 'Total Population' includes the Scheduled Castes, the Scheduled Tribes, the Institutional and the Houseless populations. The explanation regarding area figures presented at various level in the Primary Census Abstracts are as follows:

Area Figures

The area figures supplied by local revenue authorities of the district in respect of mandals, Police Stations and by the local bodies in respect of towns are given in square kilometers. The area figures of the villages supplied by the Mandal Revenue Officer in acres have been converted and shown in hectares. The area figures of the Mandal Parishad is the total of the village areas coming under each Mandal Parishad. The area figures for the district are the same as adopted by the Surveyor General of India to maintain uniformity at the national level. The total area figures of all the mandals/Mandal Parishads within the district may not tally with area figures of the district because former represents land use area only. Similarly, the total of all the villages may not tally with the entire rural of Police Station/mandal. The difference may be due to the fact that while the area covered by hills, forests and rivers etc, have been accounted in the Mandals and P.S. level the same may not be covered under the area of the villages. Apart from this it may also differ due to varying methods of computation adopted at different levels.

An appendix to District Primary Census Abstract has also been furnished showing urban enumeration block-wise particulars on Total Population, the Scheduled Castes Population and the Scheduled Tribes Population for each town.

Annexure - I
Fertility and Mortality, 1991 Census

Crude Birth Rate is the most commonly used measures of fertility. To know the fertility rates, certain information was collected from all ever married women during 1991 Census such as (i) Age at marriage (ii) Number of children ever born alive. For currently married women, in addition to above data, if any child born at preceding one year from the date of Census is also collected. Definition of fertility measures is given in the chapter on Census concepts.

Fertility Levels: This is dependent on fertility pattern by age, which is indicated by the age specific fertility rates. General Fertility Rate, Total Fertility Rate and Gross Reproduction Rate are other indicators of fertility. Fertility measures were worked out on F-series tables of 1991 Census of Andhra Pradesh. An analysis of these measures is given in the subsequent paragraphs.

Age Specific Fertility Rates, 1991 Census: The following statement shows the age specific fertility rates for Total, Rural and Urban areas of the district along with the corresponding fertility rates of State during 1991 Census.

Annexure –I (a)
Age Specific Fertility Rates,Levels, 1991

Age Group	Nellore District			Andhra Pradesh State		
	Total	Rural	Urban	Total	Rural	Urban
1	2	3	4	5	6	7
15-19	0.078	0.084	0.060	0.085	0.092	0.066
20-24	0.183	0.187	0.171	0.179	0.185	0.162
25-29	0.145	0.148	0.136	0.150	0.155	0.137

***Source** : F-Series tables of 1991 Census and Andhra Pradesh District Profile, 1991*

It may be seen from the above Annexure that the age specific fertility rate is higher in the age group in 20-24 both in rural and urban areas of the district as well as in the state. However, when compared with that of the state rates it is lesser. Among 15-19,25-29,30-34 and 35-39 age groups the district rates are lesser than the state rates in both rural and urban except in rural in the age group of 40-44,45-49 but it is equal in the age group of 40-44, 45-49 in the state total and district total.

Age Specific Marital Fertility Rates, 1991 Census:

It is seen from the below Annexure, the Age Specific Marital Fertility Rates are low in the age groups of 25-29 and 30-34,35-39 and urban areas of 40-44, 45-49 when compared with that of the State rates except in the age-group of 15-19, 20-24 in all the three i.e., Total, Rural and Urban. The district total figures in the age-group of 40-44,45-49 and rural figures in the age group of 35-39, 40-44 and 45-49 are slightly more than the state figures.

NA : Not available

The above table shows the various measures of fertility and mean age at marriage recorded during 1991 Census. The district has recorded 26.6 CBR, 3.1 TFR, 4.3 TMFR, 103 GFR, 127 GMFR, 3.5 children per ever married women (45-49 years), 387 CWR and 17.6 is mean age at marriage of currently married women.

Annexure III
Percentage distribution of Migrants by place of birth/place of last residence, 1991 Census and 2001 Census

Migration :

During 1991 Census, the migrants by place of birth were broadly classified as (A) Migrants born within the State of Enumeation (B) Migrants born in other States of India and (C) Migrants born in other Countries. The migrants born within the State are divided again as (i) Migrants born elsewhere in the district of Enumeration and (ii) Migrants born in other districts of State. Migrants by place of birth have returned 194.64 lakhs in Andhra Pradesh State comprising 62.53 lakhs of males and 132.11 lakhs of females. It has been constituted 29.27%, 18.54% of male and 40.30% to the total population males and females respectively in the State.

The following statement shows the distribution of migrants by place of birth, by sex in the district and State.

Annexure – III(a)
Distribution of Migrants by Place of Birth and Percentage, 1991 Census

Place of Birth	Nellore District 1991 Census			Andhra Pradesh State 1991 Census		
	Persons	Males	Females	Persons	Males	Females
1	2	3	4	5	6	7
(a) Migrants born within the state of enumeration	652,800 (94.94)	219,216 (93.70)	433,584 (95.58)	18,406,950 (94.56)	5,847,797 (93.52)	12,559,153 (95.06)
(i) Migrants born elsewhere in the District of enumeration	520,359 (75.68)	166,780 (71.29)	353,579 (77.94)	13,816,569 (70.98)	4,038,900 (64.59)	9,777,669 (74.01)
(ii) Migrants born in other Districts of State	1,32,441 (19.26)	52,436 (22.41)	80,005 (17.64)	4,590,381 (23.58)	1,808,897 (28.93)	2,781,484 (21.05)
(b) Migrants born in other States of India	33,912 (4.93)	14,323 (6.12)	19,589 (4.32)	1,026,863 (5.28)	388,924 (6.22)	637,939 (4.83)
(c) Migrants born in other countries	900 (0.13)	420 (0.18)	480 (0.10)	30,610 (0.16)	16,120 (0.26)	14,490 (0.11)
Total Migrants	687,612 (100.00)	233,959 (100.00)	453,653 (100.00)	19,464,423 (100.00)	6,252,841 (100.00)	13,211,582 (100.00)

Source: *Part –VA and VB – D Series, 1991 (Vol-I)*

In the above statement the migrants were broadly classified as (A) Migrants born within the state of Enumeration (B) Migrants born in other states of India and (C) Migrants born in other countries. The migrants born within the State have divided again as (i) Migrants born elsewhere in the district of Enumeration and (ii) Migrants born in other districts of the State.

As usual the migration by place of birth is foundmore in intra-district both Nellore district and State for both male and female. The migrants from other districts of the state and other states of India are higher than that of intra-district migrants. Among the three classifications of migrants, the migrants born within the state of enumeration has occupied 1st place both in Nellore district and Andhra Pradesh State with

94.94% and 94.56% respectively. The percentage of female migrants is more in intra district migration and slightly less in other two categories in the state and also in the district. Domination of females in intra-district migration may be due to marriages.

Inset table to Annexure III(a)
Distribution of Migrants by Place of Birth and Percentage, 2001 Census

Place of Birth	Nellore District			Andhra Pradesh State		
	Persons	Males	Females	Persons	Males	Females

Source: *Migration Tables (D Series) - 2001*

The migrants by place of birth were returned 194.6 and 228.3 lakhs in Andhra Pradesh State as per the 1991 and 2001 Censuses respectively. It shows a growth rate of 17.3% total migrants over 1991 Census with a breakup of 21.8% males and 15.2% females. In Nellore district the migrants are 687,612 persons as per 1991 Census whereas 871,685 persons are in 2001 Census with a growth rate of 26.8% over 1991 census. In both the Censuses the female migrants are more than male migrants due to marriages.

In respect of inter district migrants, male migrants are forming less percentage than female migrants. Whereas male migrants are more in migrants born in other districts of the state. In the case of inter-state migrants the males are more than females in both the Censuses. Similar is in case of International Migrants.

2. Figures noted as unspecified are included in totals only.

Sorce: Migration tables (vol.I) Part VA and VB-D series.1991 Census

Rural and urban components of migration :

The flow of migrants by place of birth have classified into four streams such as (i) Rural to Rural (ii) Rural to Urban (iii) Urban to Rural and (iv) Urban to Urban. The data on the basis of these four streams in case of migrants is classified by place of birth. It presents data only in relation to internal migrants.

The below statement gives the information on movement of migration in Andhra Pradesh and Nellore district through the four streams within the State and from other States of India. Of the total 184.07 lakhs of Intra-State migrants in Andhra Pradesh have been moved from Rural to Rural with 63.92%, followed by Rural to Urban with 20.95%, Urban to Urban with 9.34% and Urban to Rural 5.72%. In case of migrants by place of birth from other States to Andhra Pradesh, they have been accounted for 10.27 lakhs. The distribution of 10.27 lakhs of migrants were from Rural to Rural with 33.94%, Rural to Urban 21.77%, Urban to Rural with 10.73% and Urban to Urban by 33.39%. The higher migration by place of birth has found in Rural to Rural in the State.

In the Nellore district Intra-State Migrants by place of birth consists 6.52 lakhs and 0.34 lakhs were from various States of India. The flow of Intra-State in the district has Rural to Rural, Rural to Urban, Urban to Rural and Urban to Urban with 63.19% , 6.80%, 21.92% and 8.09% respectively. While the migrants from other States of India have constituted with 19.64%. Rural to Rural 20.08% Rural to Urban, 16.95% Urban to Rural and 43.30% Urban to Urban. The highest percentage of migrants by place of birth in the district is noticed in Urban to Urban.

The following statement shows the Rural and Urban Composition of internal migrants by place of birth at 1991 Census for Andhra Pradesh and Nellore district.

Inset table to Annexure III(b)
Rural and Urban composition of internal Migrants by place of birth, 2001 Census

The above annexures show the percentage distribution of migrants by place of birth as recorded in both the Census of 1991 and 2001 in Andhra Pradesh state. It is observed that 3.0% increase in the migration who were born elsewhere in the district of enumeration with a sex breakup of 3.0% each, whereas in respect of the migrants who were born in other districts of the state, in other states of the country and in other countries are recorded with a difference of -2.2%, -0.8% and -0.1% respectively between two censuses of 1991 and 2001.

In respect of Nellore district the difference between the two Censuses can be observed. with 6% with these breakup of 6.9% males and 5.7% females in the persons born elsewhere in the district of the enumeration. Regarding the migrants from other states in India only a minor variation is recorded with -1.3%.

Among the migrants that are born in the Abroad a minor change i.e., 0.1% is noticed in the percentage variation between 1991 and 2001 censuses.

Annexure IV
Brief account of Main religions in the district/ mandal as per 1991 Census and 2001 Census

Religion :

The data on religion has been collected and presented for 6 major religions viz. Hindus, Muslims, Christians, Sikhs, Jains and Buddhists. In respect of minor religions, they have been classified and shown under the category "Others".

During 1991 Census the religion data was collected through question No.8 of the individual slips and recorded the religion as stated by the individual under six major religions. The minor religions other than these six religions, as reported by the respondent, recorded and classified under the category "Others".

Nellore district has returned 2,392,260 population in 1991 Census comprising 2,142,913 (89.6%) Hindus, 216,177 (9.0%) Muslims; 30,062 (1.26%) Christions; 1,999 (0.1%) Jains; 40 Buddhists; 385 Sikhs. Hindus, Muslims and Christians occupied 1st 2nd and 3rd places in this district. Similar trend can be seen at the Mandal levels also.

India-State-District differentials :

The comparative data on religion among India, Andhra Pradesh and Nellore district reveals that concentration of Hindus was higher followed by Muslims and Christians as per 1991 Census findings. Hindus were returned on the higher side in the State with nearly seven percent more than the national average, while in Nellore district they were more over seven percent than national and a small percent is higher than the State. They constituted 82.4%, 89.14% and 89.58% in India, Andhra Pradesh and Nellore district respectively. Muslims recorded as 11.7% in India, 8.91% in Andhra Pradesh and 9.04% in the district. It shows their percentage in the district is more than the percentage of the State and less than India. The percentage of Muslims in the State is less than the Country, while the percentage of Christians in the country is more than the State

i.e.,2.3% in India 1.83% in the State and 1.26% in the district. Buddhists, Sikhs and Jains formed less than 1% both in the State and district, whereas Sikhs recorded 2% in the Country and their population in the State as well as in the district is less than 1%.

Source: Religion Data, Andhra Pradesh - 2001

The above table gives the details of Main Religions in the district for 2001 census whereas the previous Annexure shows the details of main religion in 1991 census. During 2001 census the religion data was collected through question number 7 of household schedule. Out of the total population of the district Hindus have returned 89.3% during 2001 census as against 89.6% in 1991 census. In respect of Muslims they have returned 9.3% in 2001 whereas their percentage during 1991 was 9.0. The next main

religion in the district is Christians who returned 1.2% during 2001 census as against 1.3% in 1991 census. The main reason for decrease in the decadal growth among Christians can be attributed to get enrolled under Scheduled Castes to get benefits from the government. In respect of remaining main religions viz. Sikhs, Buddhists, Jains and others their strength in the district is negligible.

Annexure-IV(b)

Percentage distribution of population by major religions in India, Andhra Pradesh and Nellore district and its growth rate during 1981-1991

Sl. No.	Name of Religion	India		Andhra Pradesh		Nellore District

Source: Part IV (Bii) - AP

Religion-wise growth in the State during the decade 1981-1991 shows that Hindus recorded higher growth rate than India as a whole i.e. 24.74% as against 22.3% in India respectively. The growth rate of Hindus in the district is less than State and Country i.e. 19.09%. The growth rate among the Muslims is less than that of State and Country i.e. 20.85%. The Christians population has decreased in the State as well as in the district during the decade.

Inset Table to Annexure IV (b)

Percentage distribution of population by major religions in India, Andhra Pradesh and Nellore district and its growth rate during 1991-2001

Sl. No.	Name of Religion	India		Andhra Pradesh		Nellore District	
		Percentage of Population	Percentage growth rate 1991-2001	Percentage of Population	Percentage growth rate 1991-2001	Percentage of Population	Percentage growth rate 1991-2001

4	Sikhs	1.9	18.2	0.0	41.5	0.0	-21.8
5	Buddhists	0.8	24.5	0.0	44.6	0.0	37.7
6	Jains	0.4	0.3	0.1	57.5	0.1	20.1
7	Others	0.6	103.1	-	86.0	-	1,342.9

This table gives the comparative data on religions among India, Andhra Pradesh and Nellore district between 1991 and 2001 census, whereas the previous Annexure furnish the comparative data on religion during 1981 and 1991. At India level among the total population returned in the 2001 census Hindus constituted 80.5% as against 82.4% in 1991. The percentage growth rate of Hindus during the decade 1991-2001 has recorded 20.3 whereas the corresponding growth rate during 1981 and 1991 was 22.3%. It clearly shows that growth rate in Hindu population is diminishing which can be attributed that the people of this religion is more conscious about family planning methods. In Andhra Pradesh the percentage of Hindus has recorded 89.0 whereas the corresponding figure during 1991 was 89.1%. However the percentage growth rate of Hindus has fallen to 14.4 from the percentage growth rate of 24.7 as recorded during the decade 1981-1991. In Nellore district though the percentage of population of Hindus recorded 89.3 as against 89.6 in 1991 their growth rate in 1991-2001 has fallen to 11.2% as against the growth rate of 19.9 % in 1981-1991.

In respect of Muslims, their percentage to total population has recorded 13.4 at India level as against 11.7% in 1991. In Andhra Pradesh their percentage has gone up to 9.2% from 8.9% in 1991. In respect of Nellore district, Muslims constituted 9.3% of total population during 2001, whereas the corresponding figure recorded in 1991 was 9.0. However in this district the growth rate in the decade 1991-2001 has declined to 15.0% as against the growth rate of 20.9% recorded in 1981-1991.

The other main religion going by numerical strength is Christians. They constituted 2.3% of total population at India level during 2001census. Their growth rate during the decade 1991-2001 is 22.6% at India level as against the growth rate of 16.9% recorded in 1981-91. In Andhra Pradesh the percentage growth rate continues to show the negative trend. The percentage growth rate of this community recorded during 1991-2001 is (-) 2.8 as against (-) 15.1 recorded during decade 1981-1991. In Nellore district during 2001 Christians constituted 1.2 % to total population as against 1.3 % in 1991. The percentage growth rate of this community during 1991-2001 has recorded 5.1% as against (-) 8.8% in 1981-1991. In respect of other main communities their growth rate is negligible.

Annexure-IV(c)

Distribution between Rural and Urban area of Major religions in Andhra Pradesh and Nellore district - 1991

Sl. No.	Name of Religion	Andhra Pradesh(in %)		Nellore District(in %)	
		Rural	Urban	Rural	Urban
1	Hindus	76.55	23.45	78.63	21.37
2	Muslims	41.83	58.17	58.45	41.55
3	Christians	60.48	39.52	39.15	60.85
4	Jains	4.11	95.89	0.20	99.80
5	Buddhists	80.41	19.59	37.50	62.50
6	Sikhs	10.85	89.15	23.12	76.88

Source: *Part IV B(ii) - AP*

Rural – Urban differentials :

In Andhra Pradesh and Nellore district, it is seen that Hindus form considerably higher in rural areas i.e., 76.55% and 78.63% respectively. Similarly Muslims form higher percentage in rural areas than urban both in the State and district. But Muslims form higher percentage in the urban areas of the State. The Sikhs and Budhist, Christians are more in urban areas of the district, while they are more in rural areas of the State and Jains are more in urban areas than rural areas both in the State and district.

Inset table to Annexure IV (c)
Distribution between Rural and Urban area of Major religions in Andhra Pradesh and Nellore district - 2001

Sl. No.	Name of Religion	Andhra Pradesh (in %)		Nellore District (in %)	
		Rural	Urban	Rural	Urban

6	Sikhs	17.0	83.0	54.0	46.0

Source: Religion Data, Andhra Pradesh - 2001

The above table indicates the distribution of major religions between rural and urban in Andhra Pradesh and Nellore district during 2001 census whereas the previous Annexure has given details recorded in 1991 census. The above Annexure and inset table to Annexure show that the distribution of the religions percentage which are available between rural and urban at state level as well as at district level. In 2001 Census among the religions, all the five religions except Jains are residing more in rural areas at the district level whereas at the state level Hindus, Christians and Jains are more in rural areas. In 1991 census only Hindus and Muslims are more in rural areas.

Annexure V
Marital status of population as per 1991 Census and 2001 Census

Marital status is classified as (i) Never Married, (ii) Married, (iii) Widowed and (iv) Divorced or Separated. The marital status of a person, can be ascertained in the following manner.

(i) A person who has never married at any time before, treated him/her as never married

(ii) A person who has been married, whether for the First or another or at any time and whose marriage is subsisting at the time of Enumeration with the spouse living treated such a person as married

(iii) A person whose husband/wife is dead and who has not been married again, treated her/him as widowed

(iv) A person who has been separated from wife or husband and is living apart with no apparent intention of living together again or who has been divorced either by decree of a law of court or by an accepted social or religious custom but who has not re-married, treated such a person as Divorced/Separated.

The following statement shows the Age, Sex and Marital Status composition of the population separately for Total, Rural and Urban in Nellore district during the 1991 census.

The district has returned 2,392,260 persons during 1991 Census, comprising never married, currently married, widowed and divorced or separated with 10,93,786 (45.72%), 11,51,588 (48.14%), 1,35,806 (5.68%) and 11,060 (0.46%) respectively. In the sex breakup, the percentage among males and females under the above four categories were 56.94 and 40.40 of never married, 47.00 and 49.30 of married, 1.80 and 9.63 of widowed and 0.26 and 0.67 of divorced or separated recorded respectively in the district. The

female percentage is dominated in all the categories except never married.

The population have been distributed in 18 age groups starting from 0-9, 10-14 etc., by marital status. According to the distribution the married , widowed and divorced/separated were found in the age group of 10-14, which shows that child marriages are in vogue. In the old age group both males and females were found in the never married category. No separate data was collected on the reasons for not married.

Source: Socio-cultural Tables (C-Series) - 2001

The above inset table gives the details by age, sex and marital status composition of the population separately for total, rural and urban areas of the district during 2001 census, whereas the previous Annexure shows the above details for 1991 census. In 1991 while furnishing age group-wise marital status data, a separate age group 15-44 where the marital status was high has been shown. In 2001 census keeping in view of persons aged less than 18 years and persons aged less than 21 years, being high concentration of marital status, has been furnished. In the district population of 2,668,564 persons, 648,484 (24.3%) males and 496,561 (18.6%) females were recorded as never married. In the total district population, 669,949 (25.1%) males and 686,204 (25.7%) females were found married during 2001 census. It is pity to note that as against 130,580 widows 23,059 widowers were found in the district during 2001 census. The reason for high percentage of widows can be attributed to aged males marrying younger females. As against total population of 935,080 persons in the age group less than 18 years, 51.5% males and 47.1% females were found never married in 2001 census. In respect of married persons under the age group less than 18 years, only 0.1% males and 1.2% females were recorded in 2001 census which means public are more conscious about Marriage Act and also ill-fate of early marriages. Similar trend is noticed both at rural and urban areas even for age group less than 21 years. There is no much variation in the figures of marital status of the district between 1991 and 2001 censuses.

Annexure VI
Age , sex and Education in the district as per 1991 Census and 2001 Census

The education table was worked-out on the basis of literates in the district.

Definition of literate :

A person who can both read and write with understanding in any language is to be considered as literate. If a person who can merely read but cannot write is not a literate. It is not necessary that a person who is literate should have received any formal education or should have passed any minimum educational standard. All the children in the age of 6 years or less have been treated as illiterate even if the child is going to school and may have picked up reading and writing.

The following table gives age, sex and education in the district at 1991 Census:

Age, Sex And Education In The District Of Nellore, 1991 Census

Age group	Total Population			Literates			Percentage of Literates		
	Total	Males	Females	Total	Males	Females	Total	Males	Females

Source: Socio-cultural Tables (C-Series) - 2001

The Annexure presented in the pre-page gives the details of Age, Sex and Education in the district for 1991 census whereas the above inset table reveals the data for 2001 Census. As was done in the previous Census, the children in the Age group 0-6 have been treated as illiterates even in 2001 census. It is seen from the above table that the district has recorded 65.1% literates in 2001 as against 47.6% literates in 1991. In the district the literacy rate for males has recorded 73.7% as against 56.4% in females during 2001 Census. From the above inset table it is noticed that in the school going age groups i.e 7 to 14 years, their literacy rate recorded between 77.0% and 87.9%. In all the age groups male literates are dominating females. The highest educated are found in the age group 11 years with 93.8% and their sex-wise breakup recorded 95.2% in males and 92.2% in females. It is a good trend that the essentiality of the education is felt much by the general public.

Annexure VII
Distribution of different mother tongues returned in 1991 Census and 2001 Census

Mother Tongue :

Mother tongue is the language spoken in the childhood by a persons mother to the person. If mother dies in infancy, the language mainly spoken in the person's home in childhood will be treated as mother tongue. In the case of infants and deaf-mutes the language usually spoken by the mother will be the mother tongue. A very large number of mother tongues have been returned during 1991 Census. It lead to thorough scrutiny and rationalisation, which resulted in 1576 rationalised mother tongues and 1796 names were treated as unclassified or "others". The 1576 rationalised mother tongues were further classified following the usual linguistic methods for rational grouping based on available linguistic information. Thus a total inventory of classified mother tongues returned by 10,000 or more speakers at the all India level were grouped under appropriate languages, where possible, was prepared for final presentation of the 1991 Census data. The total number of languages so arrived at is 114. Of which 18 languages are included in Eighth Schedule to the constitution of India (Scheduled languages).

It is seen from the below shown statement that as many as 21 languages have been returned in Nellore district. Out of which 16 are Scheduled languages and 5 are non-scheduled languages. Though there are 21 languages spoken in the district, Telugu speaking people were in majority with 88.63% to total population in 1991 Census, followed by Urdu speaking people with 8.32%. The third place was occupied by the people, whose mother tongue was Tamil (2.59%) and all other 13 languages were negligible.

N= Negligible

The above inset table gives the abstract of the languages as mother tongues and their strength in the district recorded in 2001 Census whereas the previous annexure shows the details for 1991 census. In 1991 the data was presented in alphabetical order whereas in 2001 the mother tongue data has been presented basing on their numerical strength in descending order. The mother tongues having minor returns have been clubbed together and added in the category of 'Others'. Telugu being the region's language has recorded 88.5% to total population in the district with a slight decline in the percentage recorded in 1991 (88.6). The next highest language being spoken is Urdu with 8.5% to total population of the district whereas in 1991 the percentage of Urdu speaking people recorded 8.3. In respect of other scheduled languages it is noticed that their strength is negligible both in 1991 and 2001. In the district almost all the scheduled languages (except Sindhi & Kashmiri) returned.
