CENSUS OF INDIA 2001

ANDHRA PRADESH

DISTRICT CENSUS HANDBOOK

Part - A & B

SRIKAKULAM

VILLAGE & TOWN DIRECTORY

VILLAGE AND TOWNWISE PRIMARY CENSUS ABSTRACT

लोकाभिमुख
PEOPLE ORIENTED

Director of Census Operations, ANDHRA PRADESH

Foreword

The District Census Handbook (DCHB) published by Census Organisation since 1951 census, is one of the important publications in the context of planning and development at gross-root level. The publication, which is brought out for each district, contains several demographic and socio-economic characteristics village-wise and town-wise of the district along with the status of availability of civic amenities, infrastructural facilities, etc.

2. The scope of the DCHB was initially confined to a few Census Tables and Primary Census Abstract (PCA) of each village and town within the district. Thereafter, at successive censuses, its scope and coverage has been enlarged. The DCHB published at the 1961 census provided a descriptive account of the district, administrative statistics, census tables and a village and town directory including PCA. The 1971 census-DCHB series was in three parts: Part-A related to village and town directory, Part-B to village and town PCA and Part-C comprised analytical report, administrative statistics, district census tables and certain analytical tables based on PCA and amenity data in respect of villages. The 1981 census DCHB was in two parts: Part-A contained village and town directory and Part-B the PCA of village and town including the SCs and STs PCA up to tahsil/ town levels. New features alongwith restructuring of the formats of village and town directory were added into it In Village Directory, all amenities except electricity were brought together and if any amenity was not available in the referent village, the distance in broad ranges from the nearest place having such an amenity, was given. Information on new items such as adult literacy centres, primary health sub-centres and community health workers in the village were provided so as to meet the requirements of some of the Revised Minimum Needs Programme. Information on approach to the village was provided for the first time in the Village Directory so as to give the details on number of inaccessible villages in each district. In the Town Directory, a statement (IV-A) on slums was introduced to provide the details on civic and other amenities in the notified slums of Class I and Class II towns.

3. The 1991 census DCHB, by and large, followed the pattern of presentation of 1981 census, except the format of PCA was restructured. Nine-fold industrial classification of main workers was given against the four-fold industrial classification presented in the 1981 census. In addition, sex-wise population in 0-6 age group was included in the PCA for the first time with a view to enable the data users to compile more realistic literacy rate as all children below 7 years of age had been treated as illiterate at the time of 1991 census. One of the important innovations in the 1991 census was the Community Development Block (CD block) level presentation of village directory and PCA data instead of the traditional tahsil/taluk/PS level presentation. It was expected that the presentation of village directory and PCA data at CD block level will help the planners in formulation of micro level development plans, CD block being lowest administrative unit.

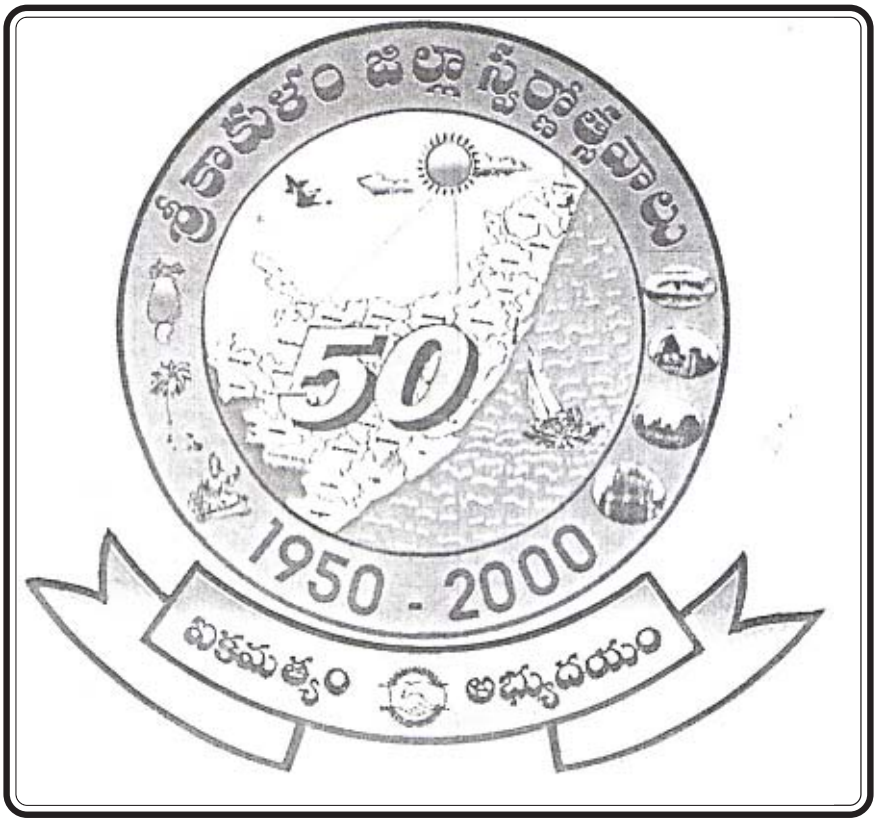

4. The present series of 2001 census DCHBs have been made more informative and exhaustive in terms of coverage and content. The Village Directory has been enlarged in scope by including a number of other facilities like banking, recreational and cultural facilities, newspapers and magazines and ‘most important commodity’ manufactured in village. Income and expenditure of gram panchayat, wherever possible, has been provided. Apart from these, more details on distance(s) at which basic amenities are available (if not available in the village), are given. This includes educational facilities (namely primary and middle schools and college), medical facilities (viz. Allopathic Hospital, Maternity & Child Welfare Centre and Primary Health Centre), drinking water, post & telegraph (post office and phone), communication, bank, credit societies and recreational

facilities. In Town Directory, the statement on Slums has been modified and its coverage enlarged by including details on all slums instead of 'notified slums'. The information is given in case of all statutory towns irrespective of their class, against only Class I and Class II towns in the 1981 and 1991 censuses. The basic amenities available in the villages and towns are analysed in depth with the help of a number of cross-classified inset tables and statements. Two other significant additions in the publication are inclusion of 'motif' highlighting significant characteristic of the district and analytical notes as annexures. The analytical notes on (i) fertility and mortality and (ii) various measures of fertility and mean age at marriage are prepared based on 1991 Census. Whereas, in the notes relating to (i) percentage distribution of migrants by place of birth/place of last residence, (ii) main religions, (iii) marital status of population, (iv) age, sex and education, and (v) distribution of spectrum of mother tongue, nature and extent of changes occurred in the district in its basic socio-demographic features during the decade 1991-2001 are analysed. The eight digits permanent location code (PLCN) to all the villages and towns have been assigned keeping in view the future needs.

5. The village and town level amenity data have been collected, compiled and computerized in prescribed record structure under the supervision of Shri. V.S. Bhaskar, IAS., Director of Census Operations, Andhra Pradesh. Thereafter, efforts have been made to ensure comparability of the information with that of 1991 census data and the information brought out by the respective state governments in their annual reports and statistical handbooks for various years after 1991. The task of planning, designing and coordination of this publication was carried out by Shri R.G. Mitra, Deputy Registrar General (C&T) and Dr. I.C. Agrawal, Senior Research Officer of Social Studies Division. Dr. R.P. Singh, Deputy Registrar General (Map) provided the technical guidance in the preparation of maps. Whereas, Shri Anil Kumar Arora, Deputy Director of Data Processing Division who worked under the overall supervision of Shri Himakar, Addl. Director (EDP) helped in preparation of record structure for computerization of village and town directory data and the programme for the generation of Village Directory and Town Directory statements including analytical inset tables. The draft DCHB manuscripts received from the Census Directorates have been scrutinized in the Social Studies Division under the guidance of Shri S.L. Jain, Deputy Director and Shri R.K. Mehta, Assistant Director. I am thankful to all of them and others who have contributed to make this publication possible.

D.K.Sikri
Registrar General &
Census Commissioner, India.

New Delhi
Dated: 17.10.2006.

Srikakulam (Golden Jubilee 1950-2000)

The Motif selected for Srikakulam Handbook is the 'LOGO' brought out by the District Administration in connection with the Golden Jubilee Celebrations of the district held from 12.8.2000 to 31.12.2000. It is interesting to note that the Census of India 2001 coincides with the 50 years of formation of Srikakulam district. The Logo depicts the heritage of the district. It has all mandals in the district with long coastline, cashew fruit signifying large production of cashew in the district, coconut tree signifying Uddanam area famous for coconut production. The Temples of Arasavilli, Srikurmam, Srimukhalingam and Buddhist relies of Salihundam are also depicted on the Logo. Srikakulam is the extreme North-Eastern district of Andhra Pradesh with a total area of 5,837 Sq.Kms.

***Source**: District Collector, Srikakulam.*

Preface

The District Census Hand Book (DCHB) containing Primary Census Abstract and data on "amenities" for each village and town in the district. The intention of this publication is to place the data collected at the Census alongwith the village and town level amenities data collected from the Mandal Revenue Officers/ Municipal officials in this publication. The amenities data is validated by comparing with secondary data obtained from Heads of the Departments. For example, information on schools was compared with data available with Commissioner, School Education and information on post offices was compared with data obtained from the Chief Post Master General and so on. Validation of data in the above manner was by no means an easy exercise. Scores of officials had put in gruelling efforts for months together. The entire data and manuscripts were computerized. We are now reasonably confident of the correctness of the data but we will not make any utopian claims of cent per cent accuracy. There may be errors but we will be safe in saying that they are minimal.

The District Census Hand Book is divided into the following major components.

1. Introduction.
2. Brief history of the district.
3. Census and non-Census concepts.
4. A detailed write up on the physical features, major cultural and social events, major developments during the decade, places of religious and historic importance etc.
5. Primary Census Abstract (PCA) at the district level, mandal/town level and village level.
6. Brief analysis of PCA data.
7. Village Directory and Town Directory.
8. Brief analysis on Village Directory and Town Directories.

It will not be out of place to mention here that there is perhaps no other publication from any agency that encapsulates so much data on a district. The amenities data includes information on sectors such as Education, Health, Water and Electricity supply, Communication and Transport facilities etc. The idea of presenting amenities data juxtaposed to the Census data is not only unique but also tremendously useful for the data users.

The District Census Hand Book is further enriched with a district map and mandal maps depicting villages/towns with population size and also amenities such as Educational Institutions, Hospitals, Telegraph and Telephone facilities, Banks, Police Station etc.

Some improvement over earlier DCHB have been made to bring more completeness to the data presented in this volume.

1. The names of Colleges, Girls' High Schools, Hospitals run by Government and others have been given as an additional information. Similarly the names of Cinema Halls have been given.
2. Ranking of Mandals according to population is also given.

3. More Appendices and Annexures to important statements are given to make the data more comprehensive.

In the previous Censuses, the manuscripts prepared by this department were supplied to Government of Andhra Pradesh who in turn brought out the publications at their cost. However due to the procedural rigmorale some delay was unavoidable in placing the DCHBs before the data users and planners.

This time, keeping in view the above difficulties, the printing and publication of District Census Hand Books has been taken up centrally under the arrangement of the office of the Registrar General and Census Commissioner, India, New Delhi. The processing of data and preparation of Camera Ready Copies electronically including finalisation of write up was attended to in the office of the Director of Census Operations.

I am grateful to the Chief Secretaries, Principal Secretaries, Secretaries, District Collectors, Municipal Commissioners and other senior officials of the Government of Andhra Pradesh for their co-operation and assistance throughout the Census Operations and in the process of collection of the non-Censal data.

I am extremely grateful to Sri D.K.Sikri, IAS, Registrar General and Census Commissioner, India for the help, guidance and constant support in finalising this volume. My sincere thanks to Sri R.P. Singh, Deputy Registrar General (Map) and Dr.I.C. Agrawal, Assistant Registrar General (SS). Sri. S.L. Jain, Deputy Director for giving guidence, help and co-ordinating this project work and their colleagues in the office of the Registrar General, India.

I also take this opportunity to acknowledge the valuable contribution made for this publication by Sri.J.K.Banthia, Ex-Registrar General, India.

Most of the work relating to DCHB has been carried out under the able guidance and direction of Sri V.S.Bhaskar, IAS, Director of Census Operations, Andhra Pradesh, Hyderabad. I take this opportunity to acknowledge his valuable contribution made for this publication.

The credit for preparation of District Census Handbooks goes to a team of devoted officers and staff of this Directorate who have involved in this project. The names of individuals associated with this project are shown in “Acknowledgements”. I am grateful to all of them.

I hope that the data users will find this publication very useful.

District Highlights - 2001 Census

1. Srikakulam District stands 22nd in terms of area size and ranks 20 in terms of population in the state.
2. Srikakulam district stands 23rd rank in terms of urbanization with a total Urban population 2,78,659 forming 10.98 percentage to the total district population.
3. The sex ratio of the district is 1,014 against 1,012 in 1991 Census showing upward trend in sex ratio.
4. The density of the district is 435 against 398 in 1991 Census, showing increase over the decade.
5. Tekkali village, PLC No.01198300 is most populated with a population of 23,288 and Chinakinga village, PLC No 01113400 is the least populated with a population of 2 in the district.
6. Srikakulam Mandal is the most populated with a population of 1,87,132 and Laxminarusupeta Mandal is the least populated with a population of 27,141 in the district.
7. Srikakulam Municipality is the most populated with a population of 1,17,320 and Palasa-Kasibugga Nagar Panchayat is the least populated with a population of 49,899 in the district.
8. Out of 100 workers 68.54 are engaged in Agriculture sector, 4.12 in Household industry and 27.34 in other economic activities. Thus showing the predominance of Agriculture Sector.
9. Out of 100 Male workers in the district 60.42 are engaged in Agriculture sector.
10. Out of 100 Female workers in the district 80.31 are engaged in Agriculture sector.
11. There is decrease in the proportion of main workers of the district in the decade (43.99 percent in 1991 to 47.36 percent in 2001).
12. There is increase in the proportion of Male workers of the district in the decade (55.80 percent in 1991 to 56.44 percent in 2001).
13. There is increase in the proportion of Female workers of the district in the decade (32.32 percent in 1991 to 38.41 percent in 2001)
14. The Srikakulam district is famous for Salt Production and Jute twine.
15. Kaviti Mandal has the lowest number of inhabited villages (21) and the highest number of inhabited villages (113) are found in Seetampeta Mandal .
16. Polaki mandal has the largest area of 7,795.65 hectares under irrigation, followed by Narasannapeta mandal with 7,725.15 hectares in the district. The mandal with the lowest area, 882.32 hectares under irrigation in Kaviti Mandal.
17. Srikurmam village bearing PLC No. 01253200 has the largest area (3,687 hectares) and Bourasingi village bearing PLC No.01124200 has the smallest area (2 hectares) among the villages of the district.
18. Female work participation rate is 38.41 that of the Males in the district is 56.44.

(i) About the District Census Handbook

District manuals compiled and published prior to 1905 by the erstwhile composite Madras Government contained not only particulars of items of more or less similar and permanent characteristics like history, religion and ethnography, but also a few statistical tables including those relating to population which became obsolete within a few years of publication. Later, the Madras Government replaced the District Manuals by another publication viz., the District Gazetteer consisting of two Volumes A and B. Volume-A contained descriptive and general tables which explains the text and Volume-B contained detailed statistics. It was decided that Volume B should be brought out periodically after each decennial census so that they contain the latest statistics. Volume-A was published for some districts between 1905 and 1927 in the Composite Madras State. The publication of Volume-A was discontinued in 1927. Volume-B was published for all the districts of the Composite Madras State between 1906 and 1915. The publication of Volume-B was also stopped after 1931 Census.

Similarly the Gazetteer volumes were also brought for some of the districts in the erstwhile Hyderabad State. The scheme of publication of revised District Gazetteers was restarted in the year 1958 by the State Governments. The State Editor, District Gazetteers, Government of Andhra Pradesh had published the Gazetteers of all the districts.

The idea of compiling the District Census Handbooks was initiated during the 1951 census pioneered by Sri. R.A. Gopala Swamy, I.C.S. the then Registrar General, India and Ex-officio Census Commissioner of India, with a view to preserve the census records prepared for areas below the district level. He proposed that all the District Census Tables and Census Abstracts prepared during the process of sorting and compilation, should be bound together in a single manuscript volume and named as the District Census Handbook and suggested that the State Government should take up printing and publication at their own cost. Then onwards, the District Census Handbooks were published in each census with improved pattern with an aim to give the census and non-census data at micro level for the village and district as a whole to suit the requirements of various departments, scholars, research personnel , planners, industrialists, electoral authorities, and other data users, also for efficient public administration by the state.

Pattern at 2001 Census :

The present District Census Handbook of 2001 Census, like the previous Census, is brought out for each district comprising of two Parts. Part- A Village and Town Directory with additional information on amenities viz., availability of commercial banks, recreation, credit societies etc., and land use particulars in the rural areas and Part- B Primary Census Abstract. At the out set an analytical note is given which depicts a general back ground on the district and analytical results on the statements and tables included in the volume. The volume is also provided with brief history of the district, physical aspects, census concepts, non-census concepts, major characteristics with reference to economic resources and administrative set-up during the past decade, few appendixes, etc..

Part A–Village and Town Directory :

The Section- I i.e. Village Directory gives non-census data on the amenities available in each village in respect of educational, medical, drinking water, power supply, post and telegraph, telephone, approach to village, banks, credit societies, receipt of newspapers and magazines, recreation and cultural facilities, nearest town and its distance, distribution of land use area, income and expenditure of the village and name of the most important commodities manufactured.

If an amenity is not available in the referred village, the distance in broad ranges (Kms.) from the nearest place where the amenity is available is indicated. If the nearest place is situated in another state, name of the other state is also given.

The Section-II i.e. Town Directory has been presented in seven Statements viz., Statement – I Status and Growth History, Statement-II Physical

aspects and Location of towns, Statement-III Municipal Finance(receipts and expenditure,1998-99), Statement-IV Civic and other amenities, Statement-V Medical, Educational, Recreational and Cultural facilities, Statement-VI Trade, Commerce, Industry and Banking etc., Statement-VII Civic and other amenities in Slums and an Appendix showing towns with out growths and their population. The reference period for the above statements is 1998-99 and the data is covered for all the statutorily notified towns in the district.

The non-census data at Village/Town level is collected from concerned authorities viz., Mandal Revenue Officers, Municipal Commissioners etc., and scrutinized with meticulous care and validated with the data collected from various departments to provide valid information to the data users.

Part B–Primary Census Abstract :

This data can be stated as the essence of the handbook. The latest census details such as area, total house holds, population, scheduled castes and Tribes population, literates, workers, etc. are presented in these Abstract.

(ii) History and Administrative Set up of the district

The district originally formed part of the ancient Kingdom of Kalinga which is supposed to have been founded in the 9th century B.C. The name of Kalinga still survives in the sea side village of Kalingapatnam not far from Srikakulam and in early times a place of importance. Kalinga was for many centuries the citadel of Buddhism in India. The good relations of Kalinga with Ceylon presently known as Srilanka were also kept up for many centuries and in 275 A.D. the celebrated tooth of Buddha was said to have been obtained by the king of Ceylon and shifted to Kandy, a place in Ceylon.

In 260 B.C. King Asoka attacked and conquered Kalinga. One of the famous rock edicts shows clearly that it was the remorse that he had felt for the horrors of this campaign which led him in the same year to espouse the Buddhist religion which he afterwards spread throughout India and Ceylon. The edict states that about 150 thousand persons were carried away captive from Kalinga, 100 thousand were slain and many times that number perished. Some of the terms of this inscription show that Kalinga at that time was quite capable of offering considerable resistance even to such a powerful emperor as Asoka, and that its people were a civilized race. For several centuries after this the history of Kalinga was quite obscure. Inscriptions, however, show that in the 6th century A.D. Kalinga was conquered by the Chalukyas of Badami and in the 7th century by their offshoot the Eastern Chalukyas. The result of this latter campaign was the establishment of the Vengi Kingdom (the ruins of the capital can be found six miles north of Eluru) under the Eastern Chalukya King Vishnu Vardhana I (615-33 A.D.). Copper grants of this monarch found at Cheepurupalle show that he once ruled this tract.

The chronicles are continued by the grants of a series of kings who describe themselves as of the Ganga family, Lords of Kalinga, and worshippers of the Gokarnaswami (Siva) on the Mahendragiri hill and as ruling from Kalinganagara, which has been identified with Mukhalingam on the banks of the Vamsadhara, where notable temples and inscriptions have survived.

The Eastern Chalukyas of Vengi appear to have constantly interfered in the affairs of Kalinga, and Vimaladitya of that line seems to have conquered much of it, since an inscription on Mahendragiri states that the Chola king Rajaraja I of Tanjore overthrew him in 999-1000 and set up a pillar of victory on that hill.

The Gangas were followed by a later line of the same name who, as they also worshipped the Gokarnaswami on Mahendragiri and ruled from Kalinganagara, were apparently of the same family. Calculations from dates in copper grants show that they were in power from the end of the 9th century. One of them, Rajaraja, ascended the throne in 1070-71 and reigned eight years, during which time he is said to have helped the Vengi kings against the Cholas, and afterwards defeated both of them and also the ruler of Utkala (Orissa) and other monarchs. Under his son, Anantavaraman-Choda-Ganga, who ruled from 1078 for about 72 years, this family reached the zenith of its power. Many copper grants and inscriptions of this monarch have been found and these state that he replaced on their thrones the fallen kings of Vengi and Orissa, engaged in wars extending from the Ganges in the north to the Godavari in the south and built the famous temple of Jagannath at Puri. He married at least five times and had by them four sons who ruled after him. The country eventually fell to the Eastern Chalukyas of Vengi and their feudatories. The Yadavas of Devagiri (Daulatabad) and the Kakatiyas of Warangal also claim to have humbled Kalinga at this period.

The Simhachalam temple in Visakhapatnam district contains inscriptions of several of the later Ganga kings but few details regarding them survive. Their power was on the wane. Narasimha I and two of his successors are said to have resisted attacks from the Muslim kings of Bengal and Delhi. The Reddy kings of Kondavidu in Guntur district are also said to have penetrated into this kingdom. On the death

of Ganga king Banudeva IV, his Minister usurped the throne and in 1434-35 founded the Gajapathi dynasty under the title Pratapa Kapileswara with his capital at Cuttack. He started expanding his dominions until they extended from the river Ganges to the river Krishna. His whole reign was spent in warring with the Hindu kings of Vijayanagar who by then were powerful in the south and with the Muslim Bahmani dynasty of the Deccan. His son, Purushottama reigned from 1469 to 1497. His successor was Prataparudra. He is said to have had reverses at the hands of the Vijayanagar king, Krishna Devaraya. The latter seized Udayagiri in Nellore, Kondavidu and Kondapalli in Krishna, Rajahmundry and other fortresses and finally halted at Simhachalam. The Simhachalam temple still contains inscriptions recounting successes and relating how he and his queens presented the God with a necklace of 991 pearls and other costly gifts.

About the end of the 15th century the Bahmani kingdom split up into several smaller States such as Bijapur (A.D. 1489,) Ahmednagar (1490), and Bidar (1498). In 1512 the kingdom of Golconda was founded by Sultan Kutub Shah, said to have been a native of Persia. The latter was so successful that at the end of a long reign he left a territory extending from the river Godavari to beyond the river Krishna and from the sea to a line drawn west of Hyderabad about the 78th degree of east longitude. In 1520 Sultan Kutub Shah defeated the forces of the Hindu chiefs of the Telangana at Kondapalli and there is reason to suppose that Prataparudra was one of the chiefs who suffered discomfiture. In 1571 Ibrahim, the 4th monarch of the Kutub Shahi dynasty, taking advantage of the disturbed conditions of Orissa, made himself master of the Godavari and other districts as far north as Srikakulam. For about 180 years since then this tract which also included the Ichchapur area then known by the name of the 'Chicacole-Circar' was controlled more or less directly by the Muslim authority from Hyderabad.

The principal seat of Government was at Srikakulam where the Faujdar or deputy of the Subha resided, while a Sub-Governor or Naib resided at Ichchapur. The revenues of the country were collected by these two Muslim officers and remitted to the seat of Government at Hyderabad. In the year 1641 Abdullah Kutub Shah sent Sher Mohammed Khan from Hyderabad to Srikakulam to rule over the dependencies north of the Krishna river. Sher Mohammed Khan during his period built a fine mosque at Srikakulam. In 1687 the Kutub Shahi dynasty came to an end when Aurangazeb, the Moghul Emperor, marched down to reduce the south to obedience and had wiped out the kingdom of Golconda and brought the whole country under his direct control. He appointed to the charge of it an officer called the Subedar of the Deccan under whom were a number of local subordinates in control of the various smaller divisions of territory. The five northern circars of Guntur, Kondapalli, Eluru, Rajahmundry and Chicacole had Masulipatnam for their chief town, and the northern most of them, Chicacole continued to be ruled in the same manner as before by a Faujdar residing in that town.

Aurangazeb died in 1707 and his death was followed by great disorder in his southern possessions. In 1724, the Subedar of the Deccan though still continuing nominally subject to the authority of Delhi made himself virtually independent and began appointing his own officers. His first Faujdar of Srikakulam was Anwar-ud-din who afterwards became very famous in the wars of the Carnatic and subsequently came to be known as the Nawab of Carnatic and is the ancestor of the Prince of Arcot. His firm but kindly rule was gratefully remembered for many years afterwards.

This Subedar of the Deccan died in 1748 whereupon the French and the English took opposite sides in the disputed succession which followed. Eventually a French protégé, Salabat Jung, secured the post of Subedar and Bussy, the French General, obtained from him in 1753 the four Northern Circars (excluding Guntur) for the support of his troops. Masulipatnam and the country adjacent had been already ceded to the French in 1750; and Bussy sent M.Moracin, the French officer with instructions to take possession of the new acquisitions.

The Faujdar of Srikakulam, Jafar Ali, was extremely disinclined to give up his charge to the French and he persuaded Gajapati Viziarama Raju, head of the Vijayanagar family and the most powerful of the local renter-chieftains, who had come into being during the Muslim rule, to join him in opposing Moracin's entry. The latter, however, seduced

Viziarama Raju from this compact by promising to lease him the Rajahmundry and Srikakulam Circars at a rate much below their value. Finding himself deserted, Jafar Ali called in the help of the Maharattas of Nagpur, who crossed the hills, devastated the two Circars, plundered and burnt the Dutch factory at Bheemunipatnam, defeated Viziarama Raju near Vijayanagar; fought an irregular action against the combined forces of that chief and M.Moracin at Tummapala near Anakapalle; and after few adventures returned home with immense booty. Having secured the loot the Maharattas troubled no further about Jafar Ali's aspiration, whereupon that gentleman was obliged to submit.

In July, 1754 Bussy went in person to Masulipatnam and Rajahmundry, settled affairs in the Circars and appointed Ibrahim Khan as the Faujdar of Srikakulam. Soon afterwards however relations between him and the Subedar of the Deccan became strained at last an open rupture occurred, and for several weeks in the summer of 1756 Bussy was obliged to entrench himself against attack near Hyderabad. The authorities at Madras were only prevented from joining the Subedar against him by the necessity of sending every available man to Bengal. Further Bussy's officers in Circars including Ibrahim Khan disavowed his authority and refused to pay their tribute. Viziarama Raju was the only man who stood by Bussy. He ordered his agents at Hyderabad to assure M.Bussy of his fidelity and the regular payment of his tributes.

Bussy was eventually relieved by reinforcements from Masulipatnam and was received back into the Subedar's favour; and at the end of 1756 he marched into the Circars to restore his fallen authority. Ibrahim Khan fled in terror at his approach. But Viziarama Raju, confident in the proofs of attachment he had given, went to meet him with a body of troops, belonging to him and others of the local chiefs, which numbered 10,000 men. Taking advantage of the support of Bussy he persuaded the latter to attack his bitterest enemy, the chief of Bobbili. Bussy proposed to Bobbili that he should leave his fort and receive instead of other land of greater extent and value in another part of the province, but the suggestion was received as an insult. Soon afterwards one of Bussy's detachments was cut off in the woods of Bobbili and in his anger the general determined to expel that chief and all his family. The result was "one of the most ghastly stories which even Indian History has to record." Orme's description is as follows:

"The province of Chicacole has few extensive plains, and its hills increase in frequency and magnitude, as they approach the vast range of mountains that bound this, and the province of Rajahmundry, to the north-west. The hills, and the narrower bottoms which separate them, are suffered to over-run with wood, as the best protection to the opener valleys allotted for cultivation. The Polygar (chieftain), besides his other towns and forts, has always one situated in the most difficult part of his country, which is intended as the last refuge for himself and all of his own blood. The singular construction of this fort is adequate to all the intentions of defence amongst a people unused to cannon, or other means of battery. Its outline is a regular square, which rarely exceeds 200 yards; a large round tower is raised at each of the angles, and a square projection in the middle of each of the side. The height of the wall is 22 feet, but of the rampart with in only 12, which is likewise its breadth at top, although it is laid much broader at bottom; the whole is of tempered clay, raised in distinct layers, of which each is left exposed to the sun, until thoroughly hardened, before the next is applied. The parapet rises 10 feet above the rampart, and is only three feet thick. It is indented five feet down from the top in interstices six inches wide, which are three or four feet as under. A foot above the bottom of these interstices and battlements, runs a line of round holes, another two feet lower, and a third within two feet of the rampart. These holes are, as usual, formed with pipes of baked clay; they serve for the employment of fire-arms, arrows, and lances; and the interstices for the freer use of all these arms, instead of loop-holes, which cannot be inserted or cut in the clay. The towers, and the square projections in the middle, have the same parapet as the rest of the wall; and in two of the projections, on opposite sides of the fort, are gateways, of which the entrance is not in the front, but on one side, from whence it continues through half the mass, and then turns by a right angle into the place; and, on any alarm, the whole passage is choked up with trees, and the outside surrounded to some distance with a thick bed

of strong brambles. The rampart and parapet are covered by a shed of strong thatch, supported by posts; the eaves of this shed project over the battlements, but fall so near, that a man can scarcely sqeeze his body between; this shed is shelter both to the rampart and guards against the sun and rain. An area of 500 yards, or more, in every direction round the fort, is preserved clear, of which the circumference joins the high wood, which is kept thick, three, four or five miles in breadth around this centre. Few of these forts permit more than one path through the wood. The entrance of the path from without is defended by a wall, exactly similar in construction and strength to one of the sides of the fort; having its round towers at the ends, and the square projection with its gateway in the middle. From natural sagacity they never raise this redoubt on the edge of the wood; but at the bottom of a recess, cleared on purpose, and on each side of the recess, raise breast-works of earth or hedge, to gall the approach. The path admits only three men abreast, winds continually, is everywhere commanded by breast-works in the thicket, and has in its course several redoubts, similar to that of the entrance, and like that flanked by breast-works on each hand. Such were the defences of Bobbili; against which Mr.Bussy marched, with 750 Europeans, of whom 250 were horse, four field pieces and 11,000 peons and Sepoys, the army of Viziarama Raju, who commanded them in person.

Whilst the field-pieces plied the parapet of the first redoubt at the entrance of the wood, detachments entered into the side of the recess with fire and hatchet, and began to make a way, which tended to bring them in the rear of the redoubt; and the guard, as soon as convinced of their danger, abandoned their station, and joined those in the posts behind; the same operations, continued through the whole path, which was five miles in length, and with the same success, although not without loss. When in sight of the fort, Mr. Bussy divided his troops into four divisions, allotting one, with the field-piece, to the attack of each of the towers. Ranga Rao was here, with all his parentage, 250 men bearing arms, and nearly twice this number of women and children.

The attack commenced at daybreak, on the 24th January, 1757, with the field-pieces against the four towers; and the defenders, lest fire might catch the thatch of the rampart, had pulled it down. By nine O' clock, several of the battlements were broken, when all the leading parties of the four divisions advanced at the same time with scaling ladders; but, after much endeavour for an hour, not a man had been able to get over the parapet; and many had fallen wounded; other parties followed with as little success, until all were so fatigued, that a cessation was ordered, during which the field-pieces, having beaten down more of the parapet, gave the second attack more advantage; but the ardour of the defence increased with the danger. The garrison fought with the indignant ferocity of wild beasts defending their dens and families. Several of them stood, as in defiance, on the top of the battlements, and endeavoured to grapple with the first ascendants, hoping with them to twist the ladders down; and this failing, stabbed with their lances, but being wholly exposed themselves, were easily shot by aim from the rear of the escalade. The assailants admired, for no European had ever seen such excess of courage in the natives of Indostan, and continually offered quarter, which was always answered by the menace and intention of death not a man had gained the rampart at two O' clock in the afternoon, when another cessation of the attack ensured; on which Ranga Rao assembled the principal men, told them that there were no hopes of maintaining the fort, and that it was immediately necessary to preserve their wives and children from the violation of Europeans, and the more ignominious authority of Viziarama Raju, A number called without distinction were alloted to the work; they proceeded, every man with a torch, his lance, and poignard, to the habitations in the middle of the fort to which they set fire indiscriminately, plying the flame with straw prepared with pitch and brims tone, and every man stabbed without remorse, the woman or child, whichsoever attempted to escape the flame and suffocation. Not the helpless infant, clinging to the bosom of its mother, saved the life of either from the hand of the husband and father. The utmost excesses whether of revenge or rage, were exceeded by the atrocious prejudices which dictated and performed this horrible sacrifice. The massacre being finished, those who accomplished it returned, like men agitated by the furies, to die themselves on the walls. Mr. Law, who commanded one of the divisions, observed, whilst looking at the conflagration, that the number of the defenders was considerably diminished,

and advanced again to the attack. After several ladders had failed, a few grenadiers got over the parapet, and maintained their footing in the tower until more secured the possession. Ranga Rao hastening to the defence of the tower, was in this instant killed by a musket-ball. His fall increased, if possible, the desperation of his friends; who, crowding to revenge his death, left the other parts of ramparts bare; and the other divisions of the French troops, having advanced likewise to their respective attacks, numbers on all sides got over the parapet without opposition; nevertheless none of the defenders quitted the rampart, or would accept quarter; but each fell advancing against or struggling with, an antagonist; and even when fallen and in the last agony, would resign his poignard only to death. The slaughter of the conflict being completed, another much more dreadful, presented itself in the area below : the transport of victory lost all its joy : all gazed on one another with silent astonishment and remorse, and the fiercest could not refuse a tear to the deplorable destruction spread before them Whilst contemplating it, an old man, leading a boy, was perceived advancing from a distant recess : he was welcomed with much attention and respect, and conducted by the crowd to Mr.Law, to whom he presented the child with these words : "This is the son of Ranga Rao, whom I have preserved against his father's will". Another emotion now succeeded, and the preservation of this infant was felt by all as some alleviation to the horrible catastrophe, of which they had been the unfortunate authors. The tutor and the child were immediately sent to Mr. Bussy, who, having heard of the condition of the fort, would not go into it, but remained in his tent, where he received the sacred captives with the humanity of a guardian appointed by the strongest claims of nature, and immediately commanded patents to be prepared, appointing the son lord of the territory which he had offered the father in exchange for the districts of Bobbili; and ordered them to be strictly guarded in the camp from the malevolence of enemies.

The ensuing night and the two succeeding days passed in the usual attentions, especially the care of the wounded, who were many; but in the middle of the third night, the camp was alarmed by tumult in the quarter of Viziarama Raju, Four of soldiers of Ranga Rao, on seeing him fall, concealed themselves in an unfrequented part of the fort until the night was far advanced, when they dropped down the walls and speaking the same language, passed unsuspected through the quarters of Viziarama Raju, and gained the neighbouring thickets; where they remained the two succeeding days, watching until the bustle of the camp had subsided; when two of them quitted their retreat, and having by their language again deceived those by whom they were questioned, got near the tent of Viziarama Raju; then creeping on the ground they passed under the back part, and entering the tent found him lying on his bed, alone and asleep. Viziarama Raju was extremely corpulent, in so much that he could scarcely raise himself from his seat without assistance; the two men, restraining their very breath, struck in the same instant with their poignards at his heart; the first groan brought in a sentinel, who fired, but missed; more immediately thronged in, but the murderers, headless of themselves, cried out, pointing to the body, "Look here! We are satisfied". They were instantly shot by the crowd, and mangled after they had fallen; but had stabbed Viziarama Raju in thirty two places. Had they failed, the other two remaining in the forest were bound by the same oath to perform the deed or perish in the attempt".

The situation of this historic fort can still be traced on the west side of the town, and where the subsequent Maharaja of Bobbili in 1891 erected an obelisk bearing inscriptions on stone commemorating the tragedy.

From Bobbili Bussy marched on into Ganjam receiving the submission of the various local chiefs and Zamindars as he went; sent a body of troops from Masulipatnam to capture the English factories at Injaram, Madapollam and Bandarulanka in the Godavari district and then turned back to attack Vizagapatam settlement in person. Bussy then proceeded southwards and eventually returned to Hyderabad. In July of the next year (1758) he proceeded south to help in the war in the Carnatic and the siege of Madras.

Viziarama Raju's successor Ananda Raju, dissatisfied with the arrangements made by Bussy on the death of his predecessor had waited for an opportunity to take his revenge. As soon as Bussy went down south, he captured Vizagapatam from the

French garrison which was holding it, sent news of the event to Madras and invited the English there to join him in expelling the French from the Northern Circars. Since Madras authorities were fully occupied, at that time this offer was repeated to the English in Bengal. Clive sent Colonel Forde to Vizagapatam by sea with a force of 500 Europeans, 2,000 sepoys and 100 lascars which arrived on the 20th of October, 1758. The first step that Colonel Forde took, after joining the troops to those of Ananda Raju was to re-establish the factory of Vizagapatam where the French had left a small garrison. The united forces then moved south and on the 9th December near Condore, about 35 miles north-east of Rajahmundry, an action was fought with the French which ranks as one of the decisive battles of India in which the French were utterly routed. Forde then pushed on to Rajahmundry the next day without the Raja's rabble and shortly afterwards took Masulipatnam by a most brilliant assault. Salabat Jung, the Subedar of the Deccan, who had advanced within fifteen miles of the place to assist the French changed sides at once and on the 14th May, 1759 concluded a treaty with the English granting them the country around Masulipatam, renouncing all friendship with the French and prohibiting the latter from ever again settling in the Northern Circars. Except the tract then ceded to the Company, the rest of the Northern Circars fell once more with dramatic suddenness under the sway of the Subedar of the Deccan. His rule however, extended to it in name only. For the seven succeeding years the completest anarchy ever recorded in history, therefore, prevailed over the Northern Circars.

In 1765 Clive obtained from the Moghul Emperor at Delhi a Firman granting to the company the five Northern Circars. The Subedar, however was in no way pleased at this cession of territory which he regarded as his own and threatened to retaliate by an eruption into the Carnatic in November, 1766 a treaty was hastily concluded with him by the British, by which the English agreed to pay Rs. 9 lakhs annually for the territory that had already been granted to them as a free gift by the Moghul Emperor. Later however, this tribute was reduced and finally it was completely dropped.

After the withdrawal of all opposition by the Subedar of the Deccan the English Government at Madras at once took steps to secure Ganjam and the province of Ichchapur by passing a resolution in council on the 2nd December, 1766. The idea was not only to settle the tract but also for the purpose of investment and promotion of sale of European goods. Mr. Cotsford was appointed both as Engineer and Resident. He was instructed to make himself acquainted with investments at different factories to assist in finishing the fortifications at Vizagapatam, to report on the condition of the country especially with reference to the requirements of the stores; prospects of providing investments and disposing of any part of European commodities, etc.

In obedience to these instructions Mr. Cotsford proceeded first to Vizagapatam and afterwards to Ganjam early in 1765. He found the country to the north of Vizagapatam in a very disturbed state. Narayana Deo, the Zamindar of Parlakimidi (now in Orissa State), the largest and the most important Zamindar then in that area had possessed himself of the country and refused to submit to the authority of the English, intercepting communication between Bengal and Madras. Sitarama Raju of Vizianagaram also contributed to the worsening of the state of affairs. Mr. Cotsford, though with reservations, reported favourably upon the situation of Ganjam and the chances of making an investment there, but as it was evident that nothing could be done in the district without the presence of troops, he shortly returned to Madras.

In the following year 1768, the English determined to reduce Narayana Deo of Parlakimidi to obedience. Colonel Peach of the Bengal battalion stationed at Masulipatam was ordered to proceed against him. Mr. Cotsford was also instructed to accompany Mr. Peach and to take up his appointment at Ganjam as Resident. Mr. Cotsford arrived in April, 1768. The force under Colonel Peach soon afterwards defeated Narayana Deo in May, 1768 and compelled him to take refuge in the forest country. On the advice of Mr. Cotsford the defeated Raja's son was declared as his successor. However, the actual management of the parlakimidi country was entrusted to a person nominated by the Company. Colonel Peach's battalion continued in the Parlakimidi Zamindari until the country to the south had been partially settled and Mr. Cotsford meanwhile proceeded northward to Ganjam and entered upon

his duties of appointment as Resident in July, 1768.

The Chicacole Circar, as administered by the Muslims, had been divided and managed in three divisions, under the names of Ichchapur, Chicacole and Kasimkota. Under the reorganised set up Chicacole and Kasimkota being nearer to Vizagapatam were placed under the control of the Chief and Council at that place but the Ichchapur province on account of its extreme northern location rendered the presence of a Resident at Ganjam absolutely necessary to administer its affairs.

Upon Mr. Cotsford's first assuming possession of the country, his position was somewhat precarious, for to the north at Cuttack there was a large force of Maharattas, whilst in the province itself there were 19 Zamindars, all of a more or less turbulent character. His authority in the district was, therefore, liable to danger at the least appearance of any external troubles. The Zamindars, being semi-independent entertained considerable bodies of feudal retainers, and in all could muster amongst them, no less than 32,170 foot soldiers, while they had possession of 34 forts for the protection of their respective territories. It was therefore, the Resident's chief care to provoke as little opposition in his management of the country and by gradually destroying the country forts he hoped to reduce the Zamindars to obedience. To assist the Resident in governing the country and collecting its revenues an aggregate force of about 2,000 men commanded by Captain Bandinell was located in different parts of the country but chiefly at Ichchapur, Ganjam and Aska.

The various Zamindars continued to give trouble to the Resident in the payment of tribute and at the slightest provocation they would stop payment. It was only by a show of force that the tributes could be extracted from them. Among the more troublesome were the Raja of Vijayanagar, the Rajas of Goomsur, Atagada and Mohiri. In some cases the Resident had to send forces to take possession of the standing crops upon their failing to settle satisfactorily their tribute. The Agent also felt that he could not deprive the Zamindars of their respective territories and place others in their stead as it would become very difficult to find anyone to accept such a place and who could maintain himself in authority without the assistance of a considerable detachment from the English: the Company at the same time running the risk of promoting a man equally unworthy as the one removed.

The Bengal detachment under Colonel Peach was to leave the country in December, 1768. As there were no other troops, Mr. Cotsford began to enlist a company of peons. He also proceeded to store the fort at Ganjam with provisions as news kept coming from Madras that the Northern Circars were likely to be invaded by the Nizam and the Maharattaas. The Resident also thought it advisable to purchase a vessel and keep it in readiness at Ganjam in case matters came to the worst. Although all measures for the security of the country had been taken with as much caution as possible the news of an expected invasion soon leaked out and the Zamindars at once made a dead stop in their payment to the Company. Upon the appearance of an English force the Goomsur Raja retired to the hills and thinking it more prudent not to offer any further resistance he shortly afterwards gave immediate security for the payment of his tribute and prevailed on the detachment to retire from the fort into the camp.

Colonel Peach's Bengal detachment quitted the Parlakimidi Zamindari about the 12th December, 1768 and marched southwards to Vizagapatam. They had hardly left the place before the disturbances commenced. Narayana Deo, the rebel Zamindar immediately began intriguing with the Maharattas in Cuttack inviting them to attack the British and also promising co-operation of Sitarama Raju, the Nizam's former Faujdar and also of the Rajah of Vijayanagar. The British Resident in Cuttack, however, informed Mr. Cotsford that the Maharattas were in no mood to undertake any invasion on account of dissensions among themselves. Mr. Cotsford meanwhile suggested to the Madras Council the expediency of appointing a Resident or Chief at Chicacole supported by five companies of Sepoys for the management of the affairs of Kasimkota and Chicacole. It was not until 1787 that Mr. Cotsford's recommendations appear to have been acted upon.

The Resident's hands had been so fully occupied in coercing the refractory Zamindars of the district that the Company's commercial operations were almost forgotten. In 1771 Mr. Cotsford wrote stating

that on mature consideration he thought that the Company would be running a risk in making contracts as for the most part the merchants live under the Governments of the Zamindars and that they are very insolent and cannot be depended upon. Mr. Cotsford continued to have difficulties with the Estates of Parlakimidi, Vijayanagar and a few other major Zamindaris. Some of their forts had therefore, to be occupied and destroyed resulting in heavy casualties on either side.

At the end of 1773 Mr. Cotsford resigned his appointment as Resident on the plea of his failing health and the Government of fort St. George expressed their appreciation of his able and vigorous administration of the country.

Upon the retirement of Mr. Cotsford it was determined to alter the form of management and therefore, Mr. Charles Smith was appointed as the Chief at Ganjam with a Council to assist him in the administration of his affairs. Disturbances broke out again in 1774, 1775 and 1776 on account of certain Zamindars withholding payments of tribute. Murders and disturbances together with the usual attendent consequences of military expeditions and assignments of villages to the Company appear to have been constant throughout the period of Mr. Smith's tenure of office as Chief. The Company's troops were constantly employed either in demanding the tributes of the Zamindars who but rarely paid without either compulsion or threats or in quelling disturbances and calling the murderers of the Company's Tahsildars to account. When a Zamindar was refractory the troops were quartered upon him and he was made to pay for their keep.

On the 25th September, 1779, the Ichchapur district was rented to Balakrishna Naidu, formerly the Company's dubash for a period of 10 years and the Zamindars instead of paying tributes to the Residents or Chief in Council were ordered to pay the tribute through the renter into the Company's treasury. Balakrishna soon found himself quite unable to cope with the difficulties of his position although assisted by the Company's troops, and upon falling irretrievably in arrears with all his payments, and giving great dissatisfaction to all the district Zamindars, his own cowle was finally revoked in October 1781 by an order from the Court of Directors.

On the 3rd October, 1780 a serious mutiny occurred among the Sepoys at Vizagapatam. The settlment at Ganjam was startled by this news. All the English Officers were killed and the Governor of Vizag had been taken prisoner. The ostensible reason for this conduct appears to have been that they were under orders to sail from Vizag to Madras where their services were needed to meet the invasion of Carnatic by Hyder Ali of Mysore. The Zamindar of Parlakimidi, then under surveillance at Vizag was strongly suspected of having engineered this outrage. The Resident at Ganjam upon receiving this information directed Captain Bruce at Aska to march to Chicacole, take the command of the troops there, and proceed against the mutineers, who had placed themselves under Captain Brule, a French prisoner for treasonable correspondence, whom they had released. Subsequently, on hearing that no help was necessary from Chicacole Captain Bruce was directed to report back to Aska.

In 1781 the Circars were within an ace of being ceded back again to Hyderabad in return for a body of horse to be placed at the disposal of the Governor General. Lord Macartney, who had just arrived as Governor of Madras protested, however, with such force against the proposal that it was abandoned.

On the 19th May, 1782 the office of the Resident was abolished. The Council was increased to five members. In 1783 quarrels took place in the settlement at Ganjam which continued almost without intermission until 1786. They appear to have originated at the Council Board out of jealousy of the Chief Mr. John Maxwell Stone, on account of his retaining the immediate management of Haveli lands in his own hands, and the other members of the Council complained that the whole power of the settlement was absorbed by Chengulroy, the Chief's dubash or manager. The quarrels of the Council Board at length became so notorious as to call for the interference of the Government. Mr. Henry Crawford was deputed to Ganjam in 1784 to investigate the complaints and counter complaints made by the different Members. Upon receiving his report on the subject, the Government came to the conclusion, that "the disputes

originated from private pique to the chief". They reduced the number of members of Council from 5 to 3.

In 1787 a Circuit Committee arrived and commenced to investigate the revenue resources of the district. Their report dated 25th April, 1788 forms the chief data upon which the permanent settlement was afterwards effected. Mr. Morgan Williams, the Chief in Council in a report dated 31st December, 1787 describes the revenue of Ichchapur district as on the increase and estimates its population at 465,755 persons. The total revenue of the country excluding the whole of the Chicacole Sub-Division was given as 6,35,252 rupees. The trade of the district was described, however, as being on the decline.

On the 17th November, 1790, Mr. H. Crawford who had been previously Collector of the Chicacole Division was appointed as Resident and the Council was abolished. Troubles were meanwhile ripe in the district and a very severe famine was also about to add its horrors to the existing disturbances. The various Zamindars gave any amount of trouble in the form of petty rebellions and also inter-Zamindari skirmishes. It was, therefore, no wonder that with all the troubles of famine and rebellion prevailing from one end of the district to the other Mr. H. Crawford, the resident announced to the Government that he was unable to reduce the refractory Zamindars until the situation of affairs in the carnatic will admit of an addition to his military strength.add its horrors to the existing disturbances. The various Zamindars gave any amount of trouble in the form of petty rebellions and also inter-Zamindari skirmishes. It was, therefore, no wonder that with all the troubles of famine and rebellion prevailing from one end of the district to the other Mr. H. Crawford, the resident announced to the Government that he was unable to reduce the refractory Zamindars until the situation of affairs in the carnatic will admit of an addition to his military strength.

As a famine relief measure on the 7th November, 1789 Mr. Crawford issued a proclamation suspending all import and transport duties on grain and other edibles in the Company's Haveli lands. In the Ichchapur and Chicacole divisions people died in thousands. Government seem to have done their best to mitigate the horrors of famine but were powerless to control the evil in an effective manner. In the Chicacole Division Mr. Keating, the Collector, calculated that an average of 3,000 poor people had daily subsisted on the Company's bounty for a period of two years. The importation of paddy for the relief of the poor was ordered by the Board of Revenue and it was found from the Chicacole records that in June, 1792, rice to the extent of 10,519 bags were dispatched from Kalingapatnam to Ganjam. Large quantities of rice also appear to have been imported from Cuttack via Chilka lake.

The country was plunged in a state of misery and desolation truly deplorable. Whole tracts were depopulated and people were not forthcoming to cultivate the land. Authentic records about the number of people who died etc., and the number of people relieved are not available. Mr. Warricker, Assistant Collector, wrote on the 15th January, 1792 to Mr. Keating, the Collector at Chicacole as follows "I was an eye-witness of the melancholy effects of famine. About six persons were gathered around a fire and were feeding upon the carcass of a dog killed on suspicion of its being mad". The duration of the famine was increased by the failure of the dry crops in 1792, and the floods that occurred in that year did further damage. The famine seems to have been at its worst about Chicacole, and the Zamindaris of Jalantra, Mandasa and around the fort of Mahendragiri.

In 1794 the office of Resident and Chief at all the settlements along the coast was abolished and the office of the Collector was established.

By the permanent settlement of 1802 all these ancient Zamindaris were handed over to their owners in perpetuity on a fixed peshkush and a number of other proprietary estates were also called into being by parcelling out the Haveli land into a series of properties and selling these by auction subject to the payment of a permanent peshkush.

Politically this settlement was a failure. These men had for years been treated as feudatories rather than as private landholders; and the functions of the Government had been in part conducted through them; some of them having been entrusted with the responsibility of keeping the hill tribes in order. But under the new arrangement they were

unceremoniously set aside; authority over the hillmen was taken away from them; their estates were declared liable to immediate attachment and sale for the default in paying a single instalment of the peshkush; they were irritated by the working of the new revenue and judicial regulations; and the new police force no longer under their control took every opportunity under cover of a pretence of enforcing law and order, of harassing and annoying them.

Owing to all these causes the Zamindars for many years after the introduction of a permanent settlement, were in a chronic state of discontent and disaffection. Too often internal and domestic troubles accentuated their restlessness.

At first, troops were called out and an attempt was made to chastise these disturbers of the public peace. But these expeditions were by no means uniformly successful and cost much in blood and treasure. Recourse was then had to negotiation, the only result of which was to increase the insolence of the malcontents. Around 1832 disturbances became so serious that Mr. George Russell, First Member of the Board of Revenue was sent as Special Commissioner to investigate their causes and concert measures for their suppression.

He was invested with the extraordinary powers, including that of proclaiming martial law if necessary and was supported by a strong force of troops. He took severe action and most of the disturbances were controlled and some of the Estates were forfeited. To check further disturbances of the same kind Act XXIV of 1839 was passed and parts of the district were removed from the operation of much of the ordinary law and were administered directly by the Collector with extraordinary powers conferred upon him in the capacity of the Agent to the Governor. Subsequently a few of the Zamindaris in the south were from time to time bought in by Government at sales for arrears of revenue and formed into taluks for the purpose of direct administration. Slowly, peace dawned over this disturbed land and law and order prevailed as was the case with the rest of the tract comprising the erstwhile Madras Presidency.

It is now necessary to turn to the history of the Chicacole division between 1767 and 1802, in which year it was incorporated in the Ganjam district. Previous to this date, it had formed the 3rd division of the Vizagapatam district, and included Kasimkota, attached to Vizagapatam. The limits of the 3rd division extended from Chinna Pantulu Daba, 20 miles south of Chicacole, to Kasibugga, 50 miles north of it. Upon the acquisition of the Northern Circars, the district was rented out to Sitaram Raju the brother of Viziaram Raju, Rajah of Vizianagaram, for a period of 10 years until 1777. In 1777 the rent of the country to Sitaram Raju appears to have been renewed for a further period of ten years, which expired in 1787. Sitaram Raju's management of the country was most oppressive, and seems to have been highly detrimental to the Company's interests. The country was rack-rented in a wholesale manner, and the renters took what share of the produce they pleased, leaving the remainder to the ryot. Sitaram Raju dispossessed the Brahmins of their charity lands or Agraharams and in-recompense, bestowed upon them Haveli villages. The manufacturers and artisans of the country emigrated in large numbers and went to other places where they were less oppressed. At the expiration of Sitaram Raju's lease, Mr. Henry Crawford was appointed in 1787 the first Collector of the Chicacole Division subject to the authority of the Chief and Council at Vizagapatam. Mr. Crawford estimated the probable revenue of the country at four lakhs, including the two large Zamindaris of Parlakimidi and Tekkali. The alienations made by Sitaram Raju had been considerable, so that all lands not uninterruptedly enjoyed for twenty years were ordered to be resume. As in Ganjam, so in Chicacole, the land customs were numerous and burdensome preventing the produce of the country being sent from those parts where it was plentiful to others where it was scarce.

Mr. Cherry was the last Collector to succeed to the management of the Chicacole division in 1800, and in 1802 when Chicacole was incorporated with Ganjam, Mr. Cherry became the first Collector.

With regard to the revenues of the Chicacole Division they never seem to have exceeded even considerably Mr. Crawford's first estimate of 4 lakhs. The Jama or rent paid by Gajapati Narayana Deo for Parlakimedi was Rs. 86,000, whilst for Tekkali, the last Zamindar, Ram Kistna Jagga Deo, had paid Rs. 24,472 yearly. The average gross collections of the Chicacole Haveli lands from Fasli 1202 to 1206 (1792-1796) were Rs. 2,94,760 making a grand total of Rs.

4,05,232.

Mr. Peter Cherry, who succeeded Mr. Brown in 1802 was the first Collector of Ganjam. In 1803 the Ganjam district comprised all the territory north of the Langulya river near Srikakulam and extended from Mofusbandar on the sea coast in the south to Priagi on the Chilka lake in the north. It included four distinct Havelis and 21 Zamindaris including the large and important one of Parlakimedi. Mr. Cherry's management of the country was vigorous and praiseworthy. He not only introduced the permanent settlement but also established Courts of Judicature. He sold the Haveli or the Government lands and constituted them into proprietary Estates.

During 1816 this district was invaded by the Pindaries. The latter were an off-shoot of the Maharatta armies who had taken to robbing and plundering the country when their Chiefs could no longer afford to pay them. Their strength seems to have been between 4,000 and 5,000 men and they were well mounted. They entered the district through the Jeypore area and proceeded northwards burning and plundering as they went. The Ichchapur and Mansurkota valleys suffered most from their ravages, and as they spread over the country in small detached bodies it was difficult to account for their movements. The troops at Berhampore prevented their molesting this town and near Boirani a body of Pindaries, 1,000 strong, were surprised by Lieutenant Borthwick and a small force, and completely routed them. The Pindaries finally left the region.

In 1816 the Collector was invested with magisterial powers and a separate office of Magistrate was abolished.

There had been bad years in 1837-1838, but in 1839 the season was so disastrous that the inhabitants were put to the greatest distress, and many of them migrated, whilst cholera and other diseases carried off multitudes of those who remained. To add to this calamity, the drought that prevailed in the district after September was so severe that several coconut plantations also withered and died from its effects. The Government of that day tried its best to relieve those severely affected by this famine.

The next great famine occurred in 1865. Between 1865 and 1866, a famine of the most unparalleled severity desolated the country and slew between 10,000 and 15,000 people by actual starvation. The number of deaths reported was 10,898 but there is no doubt that the total loss of life by starvation was greatly in excess of the return as many hundreds must have perished of whom, no account was kept.

Administrative Setup

Srikakulam district lies in the northeastern corner of the state approximately between the north latitudes of 18° 20' and 19° 10' and between the eastern longitudes of 83° 5' and 84° 50'. It is bounded on the northwest by Koraput and Ganjam districts of Orissa State, on the east by Bay of Bengal and on the south by Vizianagaram district. The district may be divided into two natural regions namely the hilly region called the Agency area in the north-western part of the district and the plains portion which is mostly sandy on account of its proximity to the sea. The Eastern Ghats run roughly parallel to the sea, therefore, this district drains from the Ghats to the sea.

Total number of Revenue Divisions and Mandals:

In 1985 the then existing 14 taluks were reorganised into 37 mandals. Corresponding to the Revenue mandals, Mandal Parishads were also formed which are co-terminus with the revenue mandals in all cases except that the statutory towns are not included in this jurisdiction of the Mandal Parishads. 14 mandals have been formed by taking villages from two earstwhile taluks. Five mandals have been carvedout by taking villages from 3 earstwhile taluks and one mandal viz. Kotabommali has been formed by including villages from 4 earstwhile taluks. The remaining 17 mandals have been formed by taking villages exclusively from each of the earstwhile 9 taluks (i.e without including villages from a second taluk).

In the interest of better administration and quick development of the areas concerned, the district had undergone some changes during 2001 census. As per the Government of Andhra Pradesh Abstract vide G.O.MSNo. 1027, dated 22.12.1998, one new revenue mandal Laxminarsumpeta has been formed with headquarters at Lakshminarsupeta by transferring 48 villages from Sarubujjili mandal. In the said Government

Source: *DCHB Srikakulam District-Census 1981*

Order certain re-adjustment of villages have also taken place among the mandals of the district. They are transfer of 2 villages from Burja mandal to Sarubujjili mandal and one village together with its hamlets from Burja mandal to Amadalavalasa mandal. Further after 1991 Census taking, one village from Polaki mandal has been transferred to Narasannapeta mandal vide G.O.Ms.No.831 dated 19.9.1991.

When compared, the list of villages at 2001 census with that of 1991 census there is a decrease of 17 villages in the total number of villages due to following changes.Four towns namely Mandasa, Narasannapeta, Palakonda and Tekkali are declassified and seven villages are fully included in them are shown as revenue villages. In Palasa mandal 18 villages are now fully included in Palasa-Kasibugga town (in addition to the 7 revenue villages in 1991 census) are also deleted from the list of the villages. Two towns of 1991 census namely Palasa(P) and Parasamba @ Kasibugga (P) are merged and formed as one town namely Palasa-Kasibugga (M). In Tekkali mandal 5 villages of 1991 census are treated as hamlets now and one village (Raghunathapuram) has been included in Tekkali village. As per 2001 census this district has 4 statutory towns, 2 census towns and 38 mandals. These mandals bave been grouped in 3 Revenue Divisions as given below.

Sl.No	Name of the Revenue Division	Name of the Mandal
1	2	3
1	Tekkali	Palasa
		Mandasa
		Kanchili
		Ichchapuram
		Kaviti
		Sompeta
		Vajrapukothuru
		Nandigam
		Tekkali
		Santhabommali
		Kotabommali
		Jalumuru
2	Palakonda	Veeraghattam
		Seethampeta
		Bhamini
		Kothuru
		Pathapatnam
		Meliaputtu
		Hiramandalam
		Palakonda
		Vangara
		Regidi
		Amadalavalasa
		Saravakota
		Santhakaviti and
		Rajam
3	Srikakulam	Lakshminarsupeta
		Sarubujili
		Burja
		Ganguvarisigadam
		Amadalavalasa
		Narasannapeta
		Polaki
		Gara
		Srikakulam
		Ponduru
		Laveru
		Ranasthalam
		Etcherla

Total Number of Villages and Towns:

At 2001 census the district consisted 1,814 villages and 6 towns. 52 villages are fully included in urban areas while 4 villages have been partly included in urban areas. 99villages are uninhabited and 1,715 villages formed part of rural area. A comparative statement showing number of villages, towns fully and partly included villages during 1991 and 2001 census is given below.

Sl.No.	Description	Census	
		1991	2001
1	2	3	4
1	Total No. of villages	1831	1,814
2	Total No. of towns	11	6
3	Total No. of inhabited villages	1728	1,715
4	Total No. of un-inhabited villages	103	99
5	Total No. of fully included villages	40	52
6	Total No. of partly included villages	7	4

(iii) Physical Features of the District

General:

Srikakulam District is the extreme north-eastern district of Andhra Pradesh situated within the geographic co-ordinates of 18° 20' and 19° 10' of northern latitude and 83° 5' and 84° 50' of eastern longitude and 1660 meters above the mean sea level. The district is skirted to a distance by Kandivalasa gedda, Vamsadhara and Bahuda at certain streches of their courses while a line of heights of the great eastern ghats run from north-east. Vizianagaram district flanks in on the south and west of the district while Orissa bounds on the north and Bay of Bengal on the East. The district may be divided into two natural regions namely, the hilly region called the Agency area in the north-western part of the district and the plains portion which is mostly sandy on account of its proximity to the sea. The eastern ghats run roughly parallel to the sea from the North-east to South-west and therefore this district drains from the ghats to the sea.

The district occupies an area of 5837 Sq.Kms. According to 2001 Census it has a population of 2,537,593 persons of which 2,258,934 rural and 278,659 urban population. The percentage of rural population is 89% and while that of urban population is 11%. Scheduled Caste population in the district forms 9.05% of the total population, while Scheduled Tribe account for 5.96% .There are 210 towns in the state and 6 towns are located in the district including 2 Census Towns. The density of population is 435 per Sq. Km. and the sex ratio is 1,014 (females per 1000 males). Among 23 districts in the state Srikakulam district ranks 22 in terms of area and 20th rank in terms of population. The literacy rate of the district is 55.31 excluding the population in the age group 0-6 years and the male-female literacy rate in the district works out to 67.19 and 43.68 respectively.

Physiography:

Srikakulam district is constituted of rocks of Archaeam ages comprising granites and charnockites which had been intruded into the highly folded and metamorphosed sedimentary rocks represented by Khondalite series. The district forms a part of the stable shield of peninsula where the intense erogenic activity and igneons instrusions were confined to Archaeon Era. These are overlain by laterite and alluvial soils of recent age.

From the point of distribution of various rock types, the district could be divided into two parts i.e. 1. The coastal plain on the eastern and southern parts, covered with soil and alluvium dotted with isolated hills 2. Hilly country forming part of the Eastern Ghats covered with forests on the northern and western parts. The Agency area of Palakonda, Veeraghattam, Vangara, Burja, Seethampeta, Bhamini, Kothuru, Sarvakota, Pathapatnam, Mallipudi and Tekkali mandals constitute the Western and Northern rough terrian of the district. Alluvium and soils laterite, pegmatite and Quartz veins, Granite rocks, Charnokitic series are the chief rocks occurring in the district. The said rock types occur as parallel bands with regional strike of foliation in the direction of North-east, South-west with steep dips and show signs of several disturbance.

This district forms part of mountains and plains. Among the mountains Barakonda, Antikonda, Palakonda, Kadigandi and Gamatikonda are worth mentionable. These mountain ranges are 822 metres above the sea level. The eastern part of the district is full of plains. These coastal plains start from this district entering towards southwards upto Nellore district. The width of these plains is about 3.7 Kms.

Drainage:

Srikakulam district is predominantly an agricultural

district as 74.14% of the workers are engaged in agriculture and 89% of the population of the district is living in rural areas depending on agriculture for their lively hood. The Nagavalli, Vamsadhara, Suvarnamukhi, Vegavathi, Mahendra tanaya, Gomukhi, Champavathi, Bahuda and Kumbikotagedda are the important rivers of the district. The Vamsadhara river rises in the Eastern Ghats in Orissa State and enters Srikakulam district in Bhamini mandal and finally falls into the Bay of Bengal near Kalingapatnam. The Nagavalli and Suvarnamukhi rivers also originate in the Eastern Ghats while Nagavalli enters the district in Vangara mandal. Suvarnamukhi joins Nagavalli at Sangam village in Vangara mandal and the confluence joins the Bay of Bengal at Kallepalle near Srikakulam. Rising in Pachipenta hills the Vegavathi river flows from west to east ultimately joining the river Suvarnamukhi . Gomukhi joins Suvarnamukhi at Sirlam village of Vizianagaram district. Mahendratanaya, which is a tributory of Vamsadhara joins the latter at Komanapalli village in Hiramandalam mandal. Another river of the same name which rises in the Eastern Ghats flows through Mandasa and Sompeta mandals and falls into the Bay of Bengal at Baruva. The Bhuda river also rises in the Eastern Ghats enters Srikakulam district at Boddabada village of Ichchapuram mandal and flows through Ichchapuram and Kaviti mandals and empties into the Bay of Bengal at Donkuru. The district has a sea coast of 200 Kms. There are 9 major irrigation projects in the district with an ayacut of 1,15,381 hectares. Besides this, there are 1757 minor irrigation sources in the ayacut of 1,57,332 hectares and 4745 minor irrigation projects with an ayacut of 43,638 hectares are being maintained by Public Works Department and Panchayati Raj Department respectively

Climate and Rainfall:

In Srikakulam district throughout the year the climate is characterised by humidity. Though the summer is oppressive the seasonal rainfall is quite good. The Southwest monsoon that follows the summer season lasts up to the second week of October. The retreating Northeast monsoon starts from mid October to the end of November. The period from December to mid February enjoys generally a fine weather. The mean maximum temperature are usually high in the hot weather period i.e. from April to June (35.7° C to 37.5° C). The mean maximum temperature usually towards low in the months of December(15.1° C) and in January (12.4° C). From July to November, the mean maximum temperature generally varies from 39.5° C to 29.5° C.

In general, low sunshine prevails in the month of October which coincides with the flowering period of rice crop grown in the district. The low sunshine with cloudy atmosphere usually deplets rice grain yields.

The month wise-maximum and minimum temperatures recorded during the year 1999 in Srikakulam district is given in the following table.

Table (a)
Monthwise maximum and minimum temperature, 1999 (in Celsius)

Temperature range	Jan	Feb	March	April	May	June	July	Aug	Sept	Oct	Nov	Dec
Maximum	28.9	29.5	32.7	33.9	34.7	33.2	31.7	31.3	31.9	31.1	28.3	28.2
Minimum	17.6	20.7	23.7	25.8	26.3	27.8	25.9	25.9	25.7	24.3	21.0	17.7

In the year 1999-2000, a total of 1623.90 mm rainfall was received in 65 rainy days against the decennial average of 1386.80 mm rainfall in 65 raining days except in the month of July 1999 where the rainfall received is less 65.5 mm than the decennial mean (172.7 mm). In general a drought period of atleast 15 to 30 days is being experienced usually in the month of July and August.

The district gets the benefit of summer showers during hot weather period. During Southwest monsoon period (June to September) the district has received 628 mm moderate rainfall and during the Northeast monsoon

period (October to December) it is 249 mm. The district has recorded an average rainfall of 1033 mm during 1999-2000 as against the normal rainfall of 1086 mm. The season-wise rainfall for 1999-2000 is given in the following table..

Table(b)
Monsoon-wise rainfall during 1999-2000

Southwest monsoon (June-Sept)	Northeast monsoon (Oct-Dec)	Winter period (Jan-Feb)	Hot weather (March-May)	Total (June to May)
628.0	249.0	40.0	116.0	1,033.0

The following table presents average rainfall season wise and monthwise (in mm.) for 10 years i.e. 1990-1991 to 1999-2000

Table(c)
Average rainfall season-wise and month-wise from 1990-2000

		Southwest monsoon					Northeast monsoon			
Sl.No	Year	June	July	August	Sept.	Total	Oct	Nov	Dec	Total

***Source**: 1. Hand Book of Statistics, Srikakulam, 1994-95*
2.Statistical Abstract of Andhra Pradesh state, 2000.

The above table reveals that the district has recorded less rain fall during the year 1999-2000, while more rainfall recorded during the year 1994-95. Above the normal rainfall has recorded during the years 1991-92, 1992-1993 and 1994-95.

Forestry:

The total forest area of the district comes to 70840.00 hectares forming 12.12% of the Geographical area of the district. The Srikakulam forest division is having 87 forest blocks. The total length of the forest boundary is 1240.86 Kms. It can be broadly classified as follows:

1.The South Indian moist deciduous which include mixed forests, sal forests and Savannahs.

2.The South Indian dry deciduous forests, which include mixed forest and Thorn forest and

3.The South Indian dry evergreen miscellaneous forests.

The plants that are available in the forest area are Teak, Bamboo, Casuarina, Cashew, Fuel wood and miscellaneous plants. The forest department has raised the following plantations upto the year 1999.

Table(d)

Area under various plantations

Sl.No.	Item	Area in Hectares
1	2	3
1	Teak	1,125
2	Bamboo	31,610

Flora And Fauna:

The forests in the district exhibit a variety of local changes in quality, composition and density. The forests are of varying types generally differing in nature, intermixed and inter updated by superior or inferior types. These show, much diversity in representation and combination of the main species.

The land fauna in Srikakulam district is very little. In the past, the district must have been the resort of several wild animals. Human habitation and the indiscriminate destruction of forest resulted in the disappearance of many species. Among the carnivora the tiger is almost extinct, but leopard, hyena and wolf are occasionally seen in the forest. The Jacklas, Foxes, Wild cats and wild dogs are the other carnivorous animals found in the district. The herbivorous class is represented by the Sambar and Spotted deer or Chital, wild goat, bears and wild boars are the common. The black buck, the blue bull and the bison are conspicuously absent in these parts. Among the birds the peafowl, peacock, jungle-fowl, pigeon, parrot, myna, goose, patridges, doves etc. are common.

Minerals And Mining:

Srikakulam district is the regulatory of major and minor minerals for investigation of new mineral's and identification of new areas of minerals, fertility. The important minor minerals occurring in the district are colour granite of various shades commercially named as Srikakulam Blue, Orient Blue, Ocean Blue and White granites having good export value.

Charnokite used as road metal, Khondalites used as building stone and other than the above minerals, ordinary Sandies also available in the district. Now in the district, 200 colour granite quarries and 62 road metal and building stone quarries are functioning. The important major minerals occuring in the district are Quartz, Quartzite, Limekankar, Lime shell and manganese. At present only two major and seven minor mineral based industries are functioning in the district.

The colour granite available in the district is unique variety and got recognition in the international granite market. The demand comes from different countries like Italy, Spain and Germany. A good sum of foreign exchange is being earned by way of exporting the colour granite from this district besides occuring

considerable mineral revenue to State exchequer.

The production of principal minerals in tonnes is shown in the following table.

Table(f)

Major and minor minerals produced

Sl.No.	Type of Mineral	Production
1	2	3
A	Major Minerals	
	1. Lime Kankar	3600 M.T
	2. Lime Shell	225 M.T
	3. Quartz	250 M.T
B	Minor Minerals	
	1. Road metal & B.S	9825 C.B.M
	2. Colour granite	28387 C.B.M
	3. Sand	17700 C.B.M

Soils:

The Soil of the district belongs chiefly to the regar or black cotton and red ferruginous series. Near the hills the red varieties are predominant, but towards the coast the soil becomes finer and in the richest valleys there is fertile clay with a tendency to crack on dying valuable food crops such as paddy, sugar cane, ragi, bajra and other cereals are cultivated mainly in black loams. In black clay Jowar and redgram are generally raised. In mud loam, gingelly, ragi, bajra, Jowar, horsegram and greengram are grown extensively and paddy and sugarcane to more extent. Pulses, groundnuts, sweet potatoes and chillies are grown in sandy soils. The gneisses of the area give rise to both red ferruginous soil and sandy soils.

In general the hill peaks and slopes are covered with loose falus of the different gneisses specially weathered Khondalities (Sillimanite gneisses). Below the falus occurs a thin and grilty red soil cover which is very fertile and promotes good forests and crops. The red soils are generally deficient in humus lime, manganese, alkalies, nitrogen and phosphorous.

In the low lying tracks on the southern and eastern parts, the soil is sandy alternating to loam and silty at places. Nodular kankar patches are common in the soil. The thickness of soil cover varies from place to place between land 5 metres. This soil is very fertile and is intensively cultivated.

The soil near the river courses and near the coast is more sandy varying from fine to very coarse in size. Mineralogically, it is made up of Quartz, felspar, granite, iliminete, sillimenite occassionally zircan and monozite are also present.

Agriculture:

Srikakulam district is predominantly agricultural in character. The soils are mainly "Regar" or "Black Cotton" "Red Ferrugineous Alluvail" and "Sandy Loams". About 80% of the area sown with food crops as 68.4% of the workers are engaged with agriculture and about 89% of the population of the district is living in rural areas and depended on agriculture for their liveli hood. Paddy is the chief food crop grown in this district. Groundnut, sugarcane and chillies are the chief commercial crops. About 21.2% of the total area sown in the district is under food crops and these largely depend upon the rainfall. During the southwest monsoon paddy which covers about 46.2% of the total cropped area is sown. The tillage operations will be completed in April and May and raising of crops like paddy, ragi, sugarcane, groundnut, jowar, bajra, mesta and small millets will begin. The sowing operations of paddy are completed by August in irrigated lands. The northeast monsoon is useful for augmenting supplies to irrigated crop like paddy and sugarcane. Due to close proximity to the hills which are covered with fairly thick forest, the irrigation sources receive a good supply of water during the rainy season.

The pattern of land utilization particulars in the district during the year 1999-2000 are as follows:

Table(g)

Land utilization, 1999-2000

Sl.No.	Item	Area in Lakhs Hectares	% over Geographical area
1	2	3	4
1	Forest	0.71	12.2
2	Barron and unculturable land	0.53	9.1
3	Land put to non-agriculture use	0.89	15.2
4	Permanent pastures and other grazing lands	0.01	0.2

Table(g) (concld..)

Sl.No.	Item	Area in Lakhs Hectares	% over Geographical area
1	2	3	4
5	Miscellaneous tree crops and grooves not included in net area sown	0.03	0.5
6	Cultivable waste	-	-
7	Other fallow lands	0.03	0.5
8	Current fallows	0.44	7.5
9	Net area sown	3.19	54.6
10	Area under fish ponds	0.01	0.02
11	Total geographical area	5.84	100.0

The total Geographical area of the district is 5.84 lakhs hectares of which the current fallows contribute 7.5% while the area net available for cultivation is about 54.6% forest area accounts for 12.2%. The principal crops of the district are Paddy, Groundnut, Bajra, Sugarcane, Ragi and Mesta food crops accounts for 74.9% and the remaining non-food crops accounts for 25.1%.

The following table describes about the area under principal crops and out-turn and yield for the year 1999-2000.

Table(h)

Area under various principal crops and their out turn and yield, 1999-2000

Sl. No.	Name of the crop	Area in hectares	Out turn (in Tonnes)	Yield per hectare (in Kgs.)

Irrigation:

The irrigation work in the district are Vamsadhara project, Narayanapuram project, Vamsadhara open head channel, Nagavali

project, Nagavali open head channel, Bahuda river, Mahendrathanaya openhead channel, Pydigam project and vonigedda project. Besides these, 77517 tanks and 20452 wells are serving for irrigation in the district. Net area of 1,97,811 hectares was sown in the district of which 1,87,620 hectares were irrigated, 10,191 hectares were irrigated more than once. Areas irrigated by sources are given below.

Table(j)

Area irrigated by different sources

Sl.No.	Irrigated by source	Area in Hectares
1	2	3
1	Canals	92,461
2	Tanks	77,517
3	Tubewells	10,107
4	Otherwells	10,345
5	Lift irrigation	331
6	Other sources	7,050
7	Net area irrigated	1,87,620
8	Gross area irrigated	1,97,811
9	Area irrigated more than once	10,191

Among the different crops that are irrigated the paddy was raised in 1,71,553 hectares followed by groundnut in 8,375 hectares. The following table gives the information on area of crops raised in the district.

Table(k)

Crops irrigated by area

Sl.No.	Name of the Crop	Area in Hectares
1	2	3
1	Paddy	1,71,553
2	Ragi	2,850

***Source**: Handbook of Statistics, Srikakulam 1994-95*

Animal Husbandry:

About 87.50% of the population in Srikakulam district are mainly depended on agriculture. However the live-stock also plays an important role in rural economy of the district. There are three milk chilling centers with a capacity of 20,000 litres per day are functioning in the district and their details are furnished below.

Table(l)

Various milk chilling centres together with capacity

Sl.No.	Details	Milk chilling centers		
		Srikakulam	Tekkali	Seethampeta
1	2	3	4	5
1	Capacity per day (in litres)	12,000	6,000	2,000
2	No. of Milk routs	4	2	1
3	No. of Milk-Collection Centres	72	20	21
4	Milk procured (in lakhs litres)	25.70	2.80	2.35
5	No. of Milk-Co-operative-societies	30	2	1

The following livestock are registered in Srikakulam district during the year, 1999-2000.

Table(m)

Livestock Census, 1999-2000

Sl.No.	Name of the Livestock	Live Stock Population
1	2	3
1	White cattle	6,02,959
2	Black cattle/Buffaloes	2,04,390
3	Goats	1,47,888
4	Sheep	2,40,033

Fisheries:

Srikakulam district has a long coastal line of nearly 200 Kms. with 104 fisherman villages in 11 marine mandals with a population of 1.16 lakhs. Apart from this there are good scope for inland fisheries. There are about 647.30 hectares of Brakish water land available under prawn culture owned by 211 farmers in the district. There are 146 fishermen Co-operative societies available in the distict. Bhavanapadu harbour is being developed to provide berthing facilities to Mechanised Boats.

Fish Farmers Development Agency for development of pisciculture in inland water B.W.F.F.D.A for development of pisciculture in Brakish water have been functioning in the district. The following are the achievements during the year 1995-1996

	F.F.D.A	B.F.D.A
1. No. of new fish tanks constructions (one hectare tanks)	11	13
2.. Subsidy released (Rs. In lakhs)	3.51	3.90

The inland fish production is furnished below.

Industries:

Srikakulam is an industrially very backward district. There are 31 major and medium scale industries existing in the district with an investment of Rs. 367.73 crores and providing employment to 5173 persons. There are nearly 5515 small scale units registered with a capital investment of Rs. 85 crores and providing employment to 39690 persons. The details of Small Scale Industries existed during 1994-95 are furnished below.

Table(s)

Small Scale Industries, 1994-95

Sl.No	Category	No. of Units	Capital Investment Rs. In Lakhs	Employment
1	2	3	4	5
1	Agro based	860	1,075	5,631
2	Forest based	647	420	3,499
3	Mineral based	36	9	396
4	Textile based	14	21	84

Trade And Commerce:

Srikakulam district is industrially very backward and there is no importance in terms of revenue (of commercial taxes) under industrial sector. The revenue of the district is mainly dependent upon agricultural commodities namely Paddy, Liquors, Cashewnuts, Coconuts, Jute, Pulses, Oilseeds, Chillies, Vegetables, Oil and Wheat products. The principal source of revenue of the district as recorded during 1994-1995 is given below.

Table(w)

Principal Sources of Revenue 1994-95 (Rs. in lakhs)

Sl.No.	Item	Revenue 1994-95		
		Demand	Collection	Balance
1	2	3	4	5
	State			
1	Land Revenue	846.301	6.56	839.74

Transport:

Srikakulam district has an exceptionally long coast line parallel to which run the national highway No.5. he Railway line linking Chennai with Kolkata broadguage line of the Southeastern railway traverses15 mandals viz Ganguvarisigadam, Pondur, Amadalvalasa, Narasannapeta, Jalamur, Pathapatnam, Santhabommali, Nandigama, Vajrapukothur, Sompeta, Kanchili, Mandasa, Palasa, Tekkali and Kotabommali covering with 37 railway stations in the district. The district has got 32 broadguage and 5 narrow guage railway stations giving 175 and 37 kms. of railway line respectively. The narrow guage line which takes off from Navpada village proceeds to Parlakimidi and Gunupur in Orissa state via Pathapatnam. The nearest railway station to Srikakulam district headquarters is situated near Amadalavalasa at a distance of 13 kms. on Chennai to Kolkata broadguage line.

As regards road transport, it is stated that the total length of roads in the district as on 1999-2000 is 5,230 Kms. Out of this 11 km. length pertains to cement concrete, 1,570 Km. black top or asphalt, 2,034 Km. metalled and 1,615 Km. unmetalled roads. These roads are maintained by National Highways, P.W.D (R&B) and Panchayati Raj Departments with

a road length of 173 Kms., 1,591 Kms., and 3,466 Kms. respectively. The APSRTC Srikakulam presently have 3 bus depots with 428 Buses. The Headquarters of 3 depots are Srikakulam, Tekkali and Palakonda. The number of different motor vehicles that are plying in the district are shown hereunder as on 1998.

Table(y)

2.Statistical Abstract of AP 2000
3 .District Census Hand Book of Srikakulam, 1981 Census

In the district almost all bus routes are nationalised. During the year 1995-96, the Andhra Pradesh Road Transport Corporation has earned an amount of Rs.3,222.00 lakhs towards passenger and goods transportation charges.

Electricity:

The State Electricity Department authorities have informed vide their Lr.No.C.E/plg/ E.M.E(1)/ABE(1)/D.No.188/99, dated 6.11.99, that all the revenue villages in Andhra Pradesh have been electrified for "All purposes". Hence, all the villages in Andhra Pradesh state are treated as electrified for all purposes. The total power consumption in Srikakulam district during the year 1998-1999 was 308.36 million K.W.

The length of different transmission lines as on 31.3.2000 is as follows.

Table(z)

Electricity transmission and distribution during 1999-2000

Sl.No	Transmission line	1999-2000
1	2	3
1	132 KV	152.923
2	33 KV	580.110
3	11 KV	3,668.360
4	L.T.lines	8,685.520
	Total	13,086.913

The details regarding the number of electricity services available as on 31.3.2000 and the power sold during 1999-2000 are as follows:

Table(aa)

Category-wise usage of power during 1999-2000

Sl.No.	Category	No. of Services	Connected load	Power sold M.K.W	Per capita consumption in K.W

3.Writeup reports from District Collector, Srikakulam

There are 2 Operation Divisions with the distribution network covering 4 numbers 132/33 K.V sub-sections and 21 numbers 33/11 K.V Sub-sections in the district. There are 3,083 numbers distribution transformers in the district as on 31.2.2000. During 2000-2001 it was programmed to commission 5 new Sub-stations to strengthen the distribution net work in Srikakulam district.

(iv) Major social and cultural events, natural and administrative developments and significant activities during the decade.

During the decade 1991-2001 no significant social and cultural events have occurred in the district. In respect of natural and administrative developments also no changes have taken place in the district during the decade.

As regards significant activities, the prevention of Child Labour, Social Security schemes, Janmaboomi, Cheyutha and Spandana programmes are worth mentionable in the district during the decade.

In the year 1996 under the chairmanship of the district Collector the 'Bala Karmika Vikasa Samithi' has constituted. The main aims and objectives of the samithi are conducting surveys on vulnerable child labourers in hazardous occupations, creating awareness among the public about the steps taken by the government to eliminate child labour, implementing programmes like creating public awareness, running special schools, imparting non-formal education and generating income and employment opportunities, etc.

The Social Security Schemes such as payment of pensions to the aged, widows, landless agricultural workers and physically handicapped persons are implemented in the district.

During the decade, as in the other districts, a novel scheme called "Janmabhoomi" has been launched on the new years day 1997 by the Government of Andhra Pradesh. This adds new dimension particularly in rural development in the sense that people are involved in decision making and development process. The main activities taken up under this programme are aimed at achieving the basic needs of the people belonging to both rural and urban through "Sramadhanam" with the people's partcipation.

As in the other districts, in this district also, with the inspiration of Janmabhoomi programme, 'Spandana' another novel scheme totally envisaged by the district administration for the overall development of villages has been taken up with the aims of

1. Education for all
2. Family planning programmes
3. Usage of Bio-gas plants / Smokeless chullas to prevent air pollution
4. Clean village concept

Yet another novel programme envisaged by the district administration for benefitting the physically handicapped in the district is called 'Cheyutha'. All the Government officials connected with the physically handicapped will sit under one roof and do the needful then and there. The benefits such as issue of physically handicapped certificate by the Medical Board, RTC passes, Railway passes, Registration in Employment Exchanges, etc., were extended besides giving aids and appliances to the identified handicapped persons.

(v) Brief description of places of religious, historical or archaeological importance in villages and places of tourist interest in the towns of the district.

(a) Statement showing the Monuments, temples and Mutts in Srikakulam District

Sl. No.	Name of the Mandal	Name of the Town/Village	Name of the monument/temple/Mutt

3	Meliaputti	Meliaputti	Radha Govinda swamy temple
4	Amudalavalasa	Sayadala	Jaina Caves on sangamayya Konda @ Goppakonda

(b) Places of tourist interest:

Arasavilli:

It is situated at a distance of about 1.6 kms from Srikakulam, the district headquarters and 17 kms from Srikakulam road, the railway station on Visakhapatnam-Howrah Line. The original name is believed to have been 'Harshavalli' meaning abode of joy. Another version credits this place with curing of piles and indicates the name of the village as 'Arsohari (also means piles). The present name is the corrupted one of either of the two names mentioned above. The famous Sun-God temple existing in Arasavilli village is one of ancient and very few Sun-God temples in our Country.. The Sthalapurana of this temple narrates that Lord Devendra had founded this temple and installed the existing idol of the Sun-God commonly known as 'Lord Suryanarayana Swamivaru'. The temple is built in such a way that the sun rays fall on the feet of the God twice in a year in the months of February and June in the early hours of the day. The rays fall on the feet of the idol for a few minutes though the five entrance gates of the temple remain closed. The five idols installed in one place in the temple are of 1. Aditya, 2. Ambica, 3. Vishnu, 4. Ganesa and 5. Maheswara representing different faiths. The Sun-God is depicted riding over a chariot drawn by seven horses driven by Anuru, the Ratha Sarathi. All these figures are exquisitely carved out of a single black granite stone. All Sundays during the five months starting with Magha are considered sacred.

Baruva:

Baruva is situated at a disance of 109 kms. from Srikakulam town. The famous Sri Kotilingeswara Swamy and Janardhana Swamy temples are located at this place. Further, a coconut nursery and a coir industry are also located here. The river Mahendra Tanaya joins into the sea at this place. Thousands of people take sea bath during festival days. Baruva was once an important sea-port. Large groves of coconut trees and green paddy fields make the place picturesque.

Kalingapatnam:

Situated at a distance of 26 Kms. from Srikakulam, this is an important coastal village. Dargah Shariff of Shaik Madeena Acquiline is situated at this place. Once it was a minor port and some European merchants resided here during East India Company regime. There is one light house functioning here focusing to a distance of 23 kms.

Kaviti:

Kaviti village which is located at a distance of 130 kms. from the district headquarters Srikakulam lies in between two towns Sompeta and Ichchapuram towards East. The coastal belt at this place which presents a pleasant appearance, covered with large extent of Coconut, Cashewnut, Jack and other fruit trees, is popularly known as Udyanam or Udyanavanam. The area is a scenic spot and attracts visitors. Two famous temples viz., Chintamani Ammavari temple and Sri Sitaramaswamy temple are situated in the Village.

Mandasa:

This place is situated at a distance of 26 kms. from Sompeta at the foot of Mahendragiri. Nearby is a fort which is considered to be the highest in South India. The temple of Varahaswamy located in the village attracts pilgrims and tourists..

Ponduru:

Ponduru is situated at a distance of 21 kms. from Srikakulam town. This village is famous for the production of fine quality of Khadi which is popular throughout India.

Rajam:

Rajam is situated at a distance of 40 kms. from Srikakulam town. This place has nostalgic association with Tandra Papayya, the valiant Sardar of Bobbili.

Ravivalasa:

This village is nearer to Tekkali Town. There is one famous temple, the presiding deity of which is Sri Mallikarjune Swamy. Thousands of people visit this place during Mahasivarathri and Karthika Mondays every year.

Salihundam:

Salihundam is situated at a distance of 18 Kms from Srikakulam town. The village assumed archaeological importance due to the excavation of

Buddhist stupas.

Srikakulam:

Srikakulam is the headquarters of the district. It is located on the left bank of the river Nagavali. Srikakulam was formerly known as 'Chicacole'. Being the headquarters of the district, this place is connected by road to all important places in the district. Train facilities are available from Amadalavalasa at a distance of 13 kms. There is one famous Mosque known as 'Jumma Masjid'. Two important temples Viz., Sri Koteswara Swamy temple and Sri Kodandaramaswamy temple are located in the town.

Srikurmam:

Srikurmam village is situated at a distance of 14.5 kms. to the South-East of Srikakulam town. The village was named after the temple, the presiding deity of which is Lord Vishnu in Kurmavathara. Sri Kurmam is a famous place of pilgrimage and the temple here is unique of its kind in the entire India. The temple is noted for its architectural beauty and contains many inscriptions ranging from the Eleventh Century A.D. to the Nineteenth Century A.D. The inscriptions throw light on the dynasties which held sway over this region. Dolotsavam is the important festival and more than 20,000 pilgrims congregate on this occasion.

Srimukhalingam Or Mukhalingam:

Srimukhalingam is situated on the left bank of the river Vamsadhara at a distance of about 48 kms. from Srikakulam. It is famous for the temple of Srimukhalingeswara (Siva), believed to have been built in 9th century. The sculpture in this temple is remarkably elegant and precise representing the Indo Aryan style of architecture. Here Mahasivarathri is the main festival and about 25,000 pilgrims congregate on this holy occasion.

Teelineelapuram:

Situated at a distance of 65 kms. from Srikakulam it has a bird sanctuary which attracts Pelicans from Siberia (Russia) in winter season.

Sangam:

Sangam is located at a distance of 56 kms. from Srikakulam. Here, three rivers viz., Nagavali, Suvarnamukhi and Vegavathi converge. The Sangameswara temple located here is one of the Panchalinga Kshetras. Thousands of people congregate here on Mahasivaratri day.

(vi) Major characteristics of the district, contribution of the district in the form of any historical figure associated with the district

Srikakulam district was carved out in the year 1950 by bifurcating it from Visakhapatnam district. It remained unaffected in its territorial jurisdiction for 19 years. In November, 1969 the district lost 63 villages from Salur taluk and 44 villages from Bobbili taluk on account of their transfer to the then newly constituted Gajapathinagaram taluk of Visakhapatnam district. Again in May, 1979 the district had undergone major territorial changes on account of the formation of new district Vizianagaram which involved transfer of Salur, Bobbili, Parvathipuram and Cheepurupalli taluks to the new district.

Though the district has not produced major historical figures, it has few worth mentionable men-of-letters. They are Sarva Sri Gidugu Ramamoorthy, Gouthu Lachchanna, the scientist Dr. Sankaram, Vajjala Sitaramaswamy Sastry, Parumalli Ramakrishnaiah Pantulu and Kaliyuga Bheema - Kodi Ramamurthy. Among the above Sri Gouthu Lachchanna participated in Mahatma Gandhi's Salt Satyagraha and Non-co-operation Movement. He worked as a Minister in the Ministries of Tanguturi Prakasam and Bezawada Gopalareddy. He was also the Vice-President of Swatantra party wing of Andhra Pradesh, which was established by Sri Chakravarthi Rajagopalachary.

(vii) Census Concepts

Population census is a great national task, which we are called upon to undertake for every ten years. In India, the 1872 marked as the beginning of modern census taking, when it was conducted at different points of time in different parts of the country. From 1881 onwards a complete and synchronous census was held. The present Census is a land mark administrative event, as this has generated a historic bench mark data to shed light on the state of nation's society and other demographic, economic and socio-cultural data which simultaneously makes transition from one century and millennium to the next. The 2001 Census was the 14th decennial Census of India and the 6th after independence.

The Census of India was conducted in two phases namely, I) House-listing Operations II) Population Enumeration. The first phase was conducted during April-June,2000 in different States/Union territories depending upon their local conditions. In Andhra Pradesh it was conducted from 11th May to 5th June 2000. The house-listing operations provide a base for the population enumeration, besides providing comprehensive database for assessing condition of human settlements, the housing deficit and future housing requirement for formulation of housing policies. This also provides a massive data on amenities available to the households which was much needed by various departments of the Central and State Governments and other Non-Governmental agencies, for planning and development in different sectors of the economy. Hence house-listing operation is a pre-requisite for population enumeration.

Unlike 1991 census, there are significant changes in house-listing schedule for 2001 census. The questions on condition of the census house, number of married couples living in the household and having independent room for sleeping, bathroom and kitchen within the house and using the means of entertainment and communication facility of radio, transistor, television, telephone and possessing of means of transport like bicycle, scooter/motor cycle, car/jeep/ van and availing of banking services by the household are added to the present house-list schedule.

The main population enumeration was conducted from 9th February to 28th February, 2001, followed by revisional round from 1st March, 2001 to 5th March, 2001, to update the data with reference to 00.00 hours of 1st March, 2001. The houseless population was enumerated at midnight of 28th February 2001.

The household schedule and individual slip of 1991 census were replaced by household schedule of A3 size containing three parts to collect the information from each household at 2001 Census. In the present Census, the house-hold schedule is designed in such a way to suit the requirement of capturing the data through scanners. At the 2001 Census, for the first time Image-based data capturing technology through scanners and computer network has been introduced with a view to provide error free data by avoiding keying in of data.

The house-hold schedule broadly covered the individual particulars under four major headings 1) General and Socio cultural characteristics (Q(1 to 15), 2) Characteristics of workers and non-workers 3) Migration characteristics (Q.21 to 22)and 4) Fertility particulars (Q.23). Part-I deals with location code particulars, Part-II relates to Individual particulars with 23 questions, consisting of 1 to 39 columns, Part-III covers on cultivation/plantation particulars like land possessed, type of tenancy enjoyed by the household/ household member. Some additional questions 1) on disability, 2) Particulars relating to travel to the place of work a) distance from residence to place of work, b) mode of travel to the place of work, 3) household engaged in cultivation/plantations are added in the present household schedule.

Marital status, mother tongue, religion and literacy status (for 7 and above) migration, fertility particulars

and the identification of SC/ST are repeated but the age at marriage is also ascertained for males at 2001 Census. For the people, who are attending educational institutions, a separate code has been provided to record the Vocational institute, other institute and literacy centre in addition to school/ college.

Criteria for enumeration of persons in a particular household

a) All those who normally reside and are present in that household during the entire period of enumeration from 9th February to 28th February, 2001, b) also those who are known to be normally residing and had actually stayed during a part of the enumeration period (Feb.9th to 28th Feb.2001) in the household but are not present at the time of enumerator's visit, c) also those who were known to be normally residing and are not present at the time of enumerators visit but are expected to return before 28th Feburary,2001 and d) Visitors who are present in the household censused and are away from the place of their usual residence during the entire enumeration period. For the purpose of enumeration, such visitor will be treated as normal resident of the household in which they are actually found during the enumeration period provided that they have not been enumerated elsewhere. One of the essential features of population enumeration in the second phase is each person enumerated and her/his individual particulars are collected at a well defined point of time.

Location Code Number

The procedure of assigning location code number in a zigzag manner starting from North-west corner and ending at South-east corner, is adopted for 2001 Census. The Andhra Pradesh state was assigned Location Code No.28 as against 02 in 1991 census. In a similar fashion, the location code numbers of the districts in Andhra Pradesh state have been changed and revised location code numbers were allotted in order of geographical contiguity, beginning from North-West point of the state and ending at the South East point. Thus the Adilabad district has been assigned Location Code No. as 01 and Chittoor district Location Code No. 23 at 2001 Census. Accordingly, the location code numbers of mandals in each district have been changed for 2001 census.

An important change at 2001 census is allotment of permanent location code numbers to all the villages in the state. Since the whole data ie., Village and Town Directory information is also being computerized, the allotment of permanent location code numbers would facilitate the data users for easy access and retrieval the data of a particular village at micro level by the click of a mouse. The Permanent Location Code Number (P.L.C. No.) is an eight digit number starting with 00000100 in a zig-zag fashion from North-West corner in the first Mandal of Adilabad district and run continuously for all the districts while ending South-East corner to the extent possible at last village in the last Mandal of Chittoor district. Since this State has 28,123 villages at 2001 census, last village of last mandal in Chittoor district will have PLC No.02812300. A significant provision has been made to allot PLC Nos. to newly created villages if any in future. The last two digits of PLC No's are kept as '00' only to provide for additional villages. For example a new village has been created after PLC.No.001231400 it will be assigned PLC No. as 001231401. Further, it is indicated that there is a provision for a minimum of 99 villages adjoining to a particular village allotting Permanent Location Code.

For urban areas also location code structure has been changed in a minimum way. Earlier, for towns in a district location code numbers were given roman letters in alphabetical order. This time, while assigning roman numbers instead of going to alphabetic order, location code numbers were given from North-West part of the district ending at South-East of the district to the extent possible.

Therefore, the PLC numbers of the villages and location codes of urban areas have under gone change in Census of India, 2001 as compared to 1991. In case an urban area is spread over in two districts, the location code of urban areas in both the districts will be the same irrespective of zigzag manner.

Building

A 'Building' is generally a single structure on the ground. Sometimes it is made up of more than component unit which are used or likely to be used as dwellings(residences)or

establishments such as shops, business houses, offices, factories, workshops, worksheds, Schools, places of entertainment, places of worship, godowns, stores etc. It is also possible that building which have component units may be used for a combination of purposes such as shop-cum-residence,workshop-cum-residence,office-cum-residence,etc.. Usually a structure will have four walls and a roof. But in some areas the very nature of construction of houses is such that there may not be any wall. Such is the case of conical structures where entrance is also provided but they may not have any walls. Therefore, such of the conical structures are also treated as separate buildings.

Permanent houses

Houses, the walls and roof of which are made of permanent materials. The material of walls can be any one from the following, namely, galvanized iron sheets or other metal sheets, asbestos sheets, burnt bricks, stones or concrete. Roof may be made of from any one of the following materials, namely, tiles, slate, galvanized iron sheets, metal sheets, asbestos sheets, bricks, stones or concrete.

Semi-permanent houses

Houses in which either the wall or the roof is made of permanent material and the other is made of temporary material.

Temporary houses

Houses in which both walls and roof are made of materials, which have to be replaced frequently. Walls may be made from any one of the following temporary materials, namely, grass, thatch, bamboo, plastic, polythene, mud, unburnt bricks or wood. Roof may be made from any one of the following temporary materials, namely, grass, thatch, bamboo, wood, mud, plastic or polythene.

Dwelling Room

A room is treated as a dwelling room if it has walls with a doorway and a roof and should be wide and long enough for a person to sleep in, i.e. it should have a length of not less than 2 meters and a breadth of at least 1.5 meters and a height of 2 meters. A dwelling room would include living room, bedroom, dining room, drawing room, study room, servant's room and other habitable rooms. Kitchen, bathroom, latrine, store room, passageway and verandah which are not normally usable for living are not considered as dwelling rooms. A room, used for multipurpose such as sleeping, sitting, dining, storing, cooking, etc., is regarded as a dwelling room. In a situation where a census houses is used as a shop or office., etc., and the household also stays in it then the room is not considered as a dwelling room. But if a garage or servant quarter is used by a servant and if she/ he also lives in it as a separate household then this has been considered as a dwelling room available to the servant's household. Tent or conical shaped hut if used for living by any household is also considered as dwelling room. A dwelling room, which is shared by more than one household, has not been counted for any of them. If two households have a dwelling room each but in addition also share a common dwelling room, then the common room has not been counted for either of the households.

Census house

A `census house' is a building or part of a building used or recognised as a separate unit because of having a separate main entrance from the road or common courtyard or staircase, etc. It may be occupied or vacant. It may be used for residential or non- residential purpose or both. In certain peculiar situations, the manner in which buildings and census houses were identified for numbering in the field by the enumerators is described hereunder: Sometimes a series of different buildings are found along a street which are joined with one another by common walls on either side looking like a continuous structure. These different units are practically independent of one another and are likely to have been built at different times and owned by different persons. In such cases, though the whole structure with all the adjoining units apparently appears to be one building, each portion was treated as a separate building and its constituent units as separate census houses. On the other hand, one may come across cases, particularly in large cities of multi-storeyed ownership flats. In these cases while the structure looks like one building, different persons own the flats. In case of such multi-storeyed structures, having a number of flats owned by different persons, the entire structure was treated as one building and each flat

as a separate census house. If within a large enclosed area, there are separate buildings owned by different persons then each such building is treated as a separate building. There can be a situation where within an enclosed compound there are separate buildings owned by an undertaking or company or even government that are actually in occupation of different persons. For example, Indian Oil Corporation colony where the buildings are owned by the Corporation but these are in occupation of their employees. Each such building was treated as a separate building. But if in any one of these buildings there were flats in occupation of different households, each such flat was reckoned as a separate census house. Sometimes if becomes difficult to apply the definition of census house strictly in certain cases. For example, in an urban area, if a flat has five rooms, each room having direct entrance from the common staircase or courtyard. By definition, this has to be treated as five census houses. If all these five rooms are occupied by a single household it was not realistic to treat them as five census houses. In such a case,`singleness' of use of these rooms along with the main house should be considered and the entire flat was treated as one census house. On the other hand, if two independent households occupy these five rooms, the first household living in 3 rooms and the second household occupying 2 rooms, then considering the use, the first three rooms together were treated as one census house and the remaining rooms as another census house. But if each room was occupied by an independent household, then each such room was treated as a separate census house. In case of hostels, hotels, etc., even if the door of each room in which an inmate lives opens to a common verandah, staircase, courtyard or a common room, as it happens almost invariably, the entire hostel/ Hotel building was treated as one census house. but if such hostels/ hotels have out- houses or other structures used for different purposes or the same purpose, then each such structure attached to the main hostel / hotel was treated as a separate census house. In some parts of the country, in rural areas, the pattern of habitation is such that a group of huts, located in a compound, whether enclosed or unenclosed, is occupied by one household. While the main residence may be located in one hut, other huts may be used for sleeping, as a kitchen, bath room, baithak, etc. Though each of the huts was a separates structure, they form a single housing unit and therefore, have to be treated collectively as one building and one census house. If some of the huts are used by one household and the others by a second household as residence, then the two groups of huts were treated as separate census houses. However, if there were also other huts in the compound used for other purposes and not as part of the household's residence such as, cattle shed, workshed, etc., these were treated as separate census houses. On the other hand, in urban areas, where more than one structure within an enclosed or open compound (premises) belonging to the same person, e.g., the main house, the servant's quarter, the garage, etc., only one building number was given for this group and each of the constituent a separate census house number. Only cases where a structure with roof and pillars has come up was treated as a building.

Village

The basic unit for rural areas is the revenue village which has definite surveyed boundaries. The revenue village may comprise of one or more hamlets but the entire village is treated as one unit for presentation of data. In un-surveyed areas, like villages within forest areas, each habitation area with locally recognized boundaries is treated as one village.

Rural - Urban area

The data in tables on Houses, Household Amenities and Assets are presented separately for rural and urban areas. The unit of classification in this regard is `town' for urban areas and `village' for rural areas. In the Census of India 2001, the definition of urban area adopted is as follows:

(a) All places with a municipality, corporation, cantonment board or notified town area committee, etc.

(b) A place satisfying the following three criteria simultaneously:

i) A minimum population of 5,000; ii) At least 75 per cent of the male working population engaged in non agricultural pursuits ; and iii) A density of population of at least 400 per sq. km. (1,000 per square mile). For identification of places which would qualify to be classified as 'urban' all villages, which,

as per the 1991 Census had a population of 4,000 and above, a population density of 400 persons per sq. km. and having at least 75 per cent of male working population engaged in non-agricultural activity were considered. To work out the proportion of male working population referred to above against b) (ii), the data relating to main workers were taken into account. Apart from these, the outgrowths(OGs) of cities and towns have also been treated as urban under 'Urban Agglomerations'. Examples of out-growths are railway colonies, university campuses, port areas, military camps, etc., that may have come up near a statutory town or city but within the revenue limits of a village or villages contiguous to the town or city. Each such individual area by itself may not satisfy the demographic criteria laid down at (b) above to qualify it to be treated as an independent urban unit but may deserve to be clubbed with the towns as a continuous urban spread. Thus, the town level data, wherever presented, also includes the data for outgrowths of such towns.

City

Towns with population of 1,00,000 and above are called cities.

Urban Agglomeration

An Urban Agglomeration is a continuous urban spread constituting a town and its adjoining urban outgrowths (OGs) or two or more physically contiguous towns together and any adjoining urban outgrowths of such towns. In some cases railway colonies, university campuses, port areas, etc., may come up near a city or statutory town outside its statutory limits but within the revenue limits of a village or villages contiguous to the town or city. Each such individual area by itself may not satisfy the minimum population limit to qualify it to be treated as an independent urban unit but may deserve to be clubbed with the town as a continuous urban spread.For the purpose of delineation of Urban Agglomerations during Census of India 2001, following criteria are taken as pre-requisites:(a) The core town or at least one of the constituent towns of an urban agglomeration should necessarily be a statutory town ; and(b) The total population of all the constituents (i.e., towns and outgrowths) of an Urban Agglomeration should not be less than 20,000 (as per the 1991 Census). With these two basic criteria having been met, the following are the possible different situations in which Urban Agglomerations would be constituted: i) a city or town with one or more contiguous outgrowths; ii) two or more adjoining towns with their outgrowths; and iii) a city and one or more adjoining towns with their outgrowths all of which form a continuous spread.

Household

A 'household' is usually a group of persons who normally live together and take their meals from a common kitchen unless the exigencies of work prevent any of them from doing so. Persons in a household may be related or unrelated or a mix of both. However, if a group of unrelated persons live in a census house but do not take their meals from the common kitchen, then they are not constituent of a common household. Each such person was to be treated as a separate household. The important link in finding out whether it was a household or not was a common kitchen. There may be one member households, two member households or multi-member households.

Institutional household

A group of unrelated persons who live in an institution and take their meals from a common kitchen is called an Institutional Household. Examples of Institutional Households are boarding houses, messes, hostels, hotels, rescue homes, jails, ashrams, orphanages, etc. To make the definition more clearly perceptible to the enumerators at the Census 2001, it was specifically mentioned that this category or households would cover only those households where a group of unrelated persons live in an institution and share a common kitchen.

Houseless household

Households who do not live in buildings or census houses but live in the open on roadside, pavements, in hume pipes, under fly-overs and staircases, or in the open in places of worship, mandaps, railway platforms, etc., are treated as Houseless Households.

Scheduled Caste and Scheduled Tribe

Article 341 of the Constitution provides that the President may, with respect to any State or Union

territory, specify the castes, races or tribes or parts of or groups within castes, races or tribes which shall for the purposes of the Constitution be deemed to be Scheduled Castes in relation to that State or Union territory. Article 342 similarly provides for specification of tribes or tribal communities or parts of or groups within tribes or tribal communities which are to be deemed for the purposes of the Constitution to be Scheduled Tribes in relation to the various States and Union territories. In pursuance of these provisions, the list of Scheduled Castes and / or Scheduled Tribes are notified for each State and Union territory and are valid only within the jurisdiction of that State or Union territory and not outside.It is important to mention here that under the Constitution (Scheduled Castes) Order, 1950, no person who professed a religion different from Hinduism was deemed to be a member of a Scheduled Caste in addition to every member of the Ramdasi, Kabirpanthi, Majhabi or Sikligar caste resident in Punjab or Patiala and East Punjab States Union were in relation to that State whether they professed the Hindu or the Sikh religion. Subsequently, in September 1956, by an amendment, the Presidential Order of 1950 and in all subsequent Presidential Orders relating to Scheduled Castes, the Hindu and the Sikh religions were placed on the same footing with regard to the specification of Scheduled Castes. Later on, as per the amendment made in the Constitution (Scheduled Castes) Order 1990, the Hindu, the Sikh and the Buddhist were placed on the same footing with regard to the recognition of the Scheduled Castes. The lists containing the names of the Scheduled Castes and the Scheduled Tribes applicable for the Census of India 2001 in the State/ Union territory are given below:

List of Scheduled castes in Andhra pradesh

1. Adi Andhra
2. Adi Dravida
3. Anamuk
4. Aray Mala
5. Arundhatiya
6. Arwamala
7. Bariki
8. Bavuri
9. Beda Jangam, Budga Jangam
10. Bindla
11. Byagara
12. Chachati
13. Chalavadi
14. Chamar, Mochi, Muchi
15. Chambhar
16. Chandala
17. Dakkal, Dokkalwar
18. Dandasi
19. Dhori
20. Dom, Dombara, Paidi, Pano
21. Ellamalawar, Yellammalawandlu
22. Ghasi, Haddi, Relli, Chachandi
23. Godagali
24. Godari
25. Gosangi
26. Holeya
27. Holeya Dasari
28. Jaggali
29. Jambuvulu
30. Kolupulvandlu
31. Madasi Kuruva,Madari Kuruva
32. Madiga
33. Madiga Dasu, Mashteen
34. Mahar
35. Mala
36. Mala Dasari
37. Mala Dasu
38. Mala Hannai
39. Malajangam
40. Mala Masti
41. Mala Sale, Netkani
42. Mala Sanyasi
43. Mang
44. Mang Garodi

45. Manne
46. Masht
47. Matangi
48. Mehtar
49. Mitha Ayyalvar
50. Mundala
51. Paky, Moti, Thoti
52. Pambada, Pambanda
53. Pamidi
54. Panchama, Pariah
55. Relli
56. Samagara
57. Samban
58. Sapru
59. Sindhollu, Chindollu

List of Scheduled Tribes in Andhra pradesh

1. Andh
2. Bagata
3. Bhil
4. Chenchu, Chenchwar
5. Gadabas
6. Gond, Naikpod, Rajgond
7. Goudu(in the Agency tracts)*
8. Hill Reddis
9. Jatapus
10. Kammara
11. Kattunayakan
12. Kolam, Mannervarlu
13. Konda Dhoras
14. Konda Kapus
15. Kondareddis

18. Koya,Goud,Rajah,Rasha Koya, Lingadhari Koya(ordinary), Kottu Koya, Bhine Koya, Rajkoya
19. Kulia
20. Malis(excluding Adilabad, Hyderabad,Karimnagar,Khammam, Mahbubnagar,Medak,Nalgonda, Nizamabad and Warangal districts)
21. Manna Dora
22. Mukha Dora, Nooka Dhora
23. Nayaks(in theAgency tracts)*
24. Pardhan
25. Porja, Parangiperja
26. Reddi Dhoras
27. Rona, Rena
28. Savaras, Kapu Savaras, Maliya Savaras, Khutto Savaras
29. Sugalis, Lambadis
30. Thoti(In Adilabad, Hyderabad, Karimnagar, Khammam, Mahbubnagar, Medak, Nalgonda, Nizamabad and Warangal Districts)
31. Valmiki (in the Agency tracts)*
32. Yenadis
33. Yerukulas

Language and Mother tongue

As per the census concept, each language is a group of mother tongues. The census questionnaire collects information on the mother tongue of each person and mother tongue is defined as the language spoken in childhood by the person's mother to the person. If the mother died in infancy, the language mainly spoken in the person's home in childhood will be the mother tongue. In the case of infants and deaf mutes, the language usually spoken by the mother is considered as mother tongue. It is not necessary that the language spoken as mother tongue should have a script. The mother tongues returned by the respondents in census are classified and grouped under

** The agency tracts is comprised of Srikakulam, Vizianagaram, Visakhapatnam, East-Godavari, West-Godavari and Khammam districts.*

appropriate languages according to their linguistic characteristics.

Literate

A person aged 7 years and above who can both read and write with understanding in any language is taken as literate. A person who can only read but cannot write is not literate. It is not necessary that to be considered as literate, a person should have received any formal education or passed any minimum educational standard. Literacy could also have been achieved through adult literacy classes or through any non-formal educational system. People who are blind and can read in Braille are treated as literates.

Literacy rate

Literacy rate of the population is defined as the percentage of literates in the age group seven years and above. For different age groups the percentage of literates in that age group gives the literacy rate.

Educational level

The highest level of education a person has completed.

Work

Work is defined as participation in any economically productive activity with or without compensation, wages or profit. Such participation may be physical and/or mental in nature. Work involves not only actual work but also includes effective supervision and direction of work. It even includes part time help or unpaid work on farm, family enterprise or in any other economic activity. All persons engaged in 'work' as defined above are workers. Persons who are engaged in cultivation or milk production even solely for domestic consumption are also treated as workers. Reference period for determining a person as worker and non-worker is one year preceding the date of enumeration.

Main worker

A person who has worked for major part of the reference period (i.e. six months or more during the last one year preceding the date of enumeration) in any economically productive activity is termed as `Main worker'.

Marginal worker

A person who worked for less than six months of the reference period (i.e. in the last one year preceding the date of enumeration) in any economic activity is termed as `Marginal worker'.

Non worker

A person who has not worked at all in any economically productive activity during the reference period (i.e. last one year preceding the date of enumeration) is termed as `Non worker'.

Cultivator

For purposes of the Census a person is classified as cultivator if he or she is engaged in cultivation on land owned or held from government or held from private persons or institutions for payment in money, kind or share. Cultivation includes effective supervision or direction in cultivation. A person who has given out her/his land to another person or persons or institution(s) for cultivation for money, kind or share of crop and who does not even supervise or direct cultivation in exchange of land, is not treated as cultivator. Similarly, a person working on another person's land for wages in cash or kind or a combination of both (agricultural labourer) is not treated as cultivator. Cultivation involves ploughing, sowing, harvesting and production of cereals and millet crops such as wheat, paddy, jowar, bajra, ragi, etc., and other crops such as sugarcane, tobacco, ground-nuts, tapioca, etc., and pulses, raw jute and kindred fibre crop, cotton, cinchona and other medicinal plants, fruit growing, vegetable growing or keeping orchards or groves, etc. Cultivation does not include the following plantation crops - tea, coffee, rubber, coconut and betel-nuts (areca).

Agricultural labourer

A person who works on another person's land for wages in money or kind or share is regarded as an agricultural labourer. She/he has no risk in the cultivation, but merely works on another person's land for wages. An agricultural labourer has no right of lease or contract on land on which she/he works.

Household industry worker

Household industry is defined as an industry conducted by the head of the household herself/

himself and or by the members of the household at home or within the village in rural areas and only within the precincts of the house where the household lives in urban areas. The larger proportion of workers in household industry should consist of members of the household including the head. The industry should not be run on the scale of a registered factory which would qualify or has to be registered under the Indian Factories Act and should be engaged in manufacturing, processing, servicing and repairs of goods. It does not include professions such as a pleader, Doctor, Musician, Dancer, Waterman, Astrologer, Dhobi, Barber, etc. or merely trade or business, even if such professions, trade or services are run at home by members of the household.

Other worker

A person who has been engaged in some economic activity during the reference period but not as a cultivator or agricultural labourer or in Household Industry is termed as a 'Other Worker (OW)'. The type of workers that come under this category of 'OW' include all government servants, municipal employees, teachers, factory workers, plantation workers, those engaged in trade, commerce, business, transport, banking, mining, construction, political or social work, priests, entertainment artists, etc. In effect, all those workers other than cultivators or agricultural labourers or household industry workers, are 'Other Workers'.

Work participation rate

Percentage of workers (main + marginal) to total population.

Population density

Population density is the number of persons inhabited per square kilometre of the area.

Age

Age is measured in terms of the completed number of years.

Sex -ratio

Number of females per 1000 males in a population.

(viii) Non Census Concepts

Improved drinking water :

If the household had access to drinking water supplied from a tap, hand pump, tube well or well (protected or covered) situated within or outside the premises, it is considered as having access to improved drinking water. It may be mentioned that such uniform definition may not be valid across all states.

System of sewerage :

Generally, a sewerage system would mean a network of mains and branches of underground conduits for the conveyance of sewerage to the point of disposal. Sewers that carry only household and industrial wastage are called separate sewers; those that carry storm water from roofs, streets and other surfaces are known as storm water drains, while those carrying both sewage and storm water are called combined sewers. However, in some towns which are not provided with such underground sewerage system, it is served by open surface drain, box drain, sylk pattern drain, etc., in these towns.

Type of latrine and Method of disposal of night soil :

There are three prevalent systems of disposal of human wastes, viz.(i) underground sewerage, (ii) sanitary water flush latrines with individual disposal systems, like septic tank, leaching cess pool and collecting well, and (iii) dry type of latrines with manual scavenging. The system of underground sewerage provides for the street sewerage with which are connected the sanitary latrines constructed in the houses having water closets and fitted with flushing cistern (or hand flushing). Through this sewer the faecal matter is transported without the need for scavenging. This system generally exists in cities and big towns. Where the streets sewer does not exist these sanitary water flush latrines are connected to a local septic tank with a sub-soil dispersion system or a leaching pit. Here the liquid wastes from the water closet is disposed of locally in leaching pit, a septic tank with a soil dispersion system is constructed. This dispersion requires an optimum travel through the pores of the soil which renders the harmful liquid bacterially innocuous by the slow process of filtration through the soil traversed. Where the soil is impermeable, collecting wells are constructed and the sanitary water flush latrines are connected with them. These wells are cleaned at periodic intervals by a suitable device. The dry type of latrines are of service type latrines from where human excreta is removed by scavengers from house to house, in most cases carrying it on their heads or shoulders or in baskets with handle or wheel barrows. These are then collected in bullock carts or trucks or tractors and trolleys for being carried to the dumping grounds.

Fertility :

In demography, the word fertility is used in relation to the actual production of children or occurrence of births specially live births. Fertility is a measure of rate at which population adds to itself by births and normally assessed by relating the number of births to a full or part of the population, such as number of married women or number of women of child bearing age. The definitions of the terminology used in computing different fertility rates are mentioned below:

Crude birth rate(CBR) :

Ratio of the number of live births in a year to the mid year population, normally expressed per 1000 population.

$$CBR = \frac{\text{Number of live births during the year}}{\text{Mid –year Population}} \times 1000$$

Crude death rate(CDR)

Ratio of the number of deaths in a year to the mid year population, normally expressed per 1000 population.

$$CDR = \frac{\text{Number of deaths during the year}}{\text{Mid- year Population}} \times 1000$$

Natural growth rate :

Growth rate is obtained as the difference between crude birth rate and crude death rate in the absence of migration.

Age specific fertility rate (ASFR) :

Number of live births in a year to female population in any specified age group normally expressed per 1000 women.

$$ASFR = \frac{\text{Number of live births in a particular age-group}}{\text{Mid-year female population of the same age-group}} \times 1000$$

Age specific marital fertility rate (ASMFR) :

Number of live births in a year to married female population in any specified age group normally expressed per 1000 married women .

$$ASMFR = \frac{\text{Number of live births in a particular age-group}}{\text{Mid-year married female population of the same age-group}} \times 1000$$

General fertility rate (GFR) :

Number of live births per 1000 women in the reproductive age-group (15-49) years in a given year.

$$GFR = \frac{\text{Number of live births in a year}}{\text{Mid-year female population in the age-group (15-49) years}} \times 1000$$

General marital fertility rate (GMFR) :

Number of live births per 1000 married women in reproductive age-group (15-49) years in a given year.

$$GMFR = \frac{\text{Number of live births in a year}}{\text{Mid-year married female population in the age-group (15-49) years.}} \times 1000$$

Total fertility rate (TFR) :

It is obtained as the total of the age specific fertility rates (number of children born per woman of the particular age) for the entire reproductive age span. It provides the average number of children that will be born to a woman under the fertility levels indicated by the age specific fertility rates assuming that there is no mortality of women till the completion of reproductive period.

$$TFR = \frac{5 \times \sum_{15\text{-}19}^{45\text{-}49} ASFR}{1000}$$

Total marital fertility rate (TMFR) :

Average number of children that would be born to a married woman if she experiences the current fertility pattern throughout her reproductive span (15-49) years assuming that there is no mortality of women till the completion of reproductive period.

$$TMFR = \frac{5 \times \sum_{15\text{-}19}^{45\text{-}49} ASMFR}{1000}$$

Age-specific mortality rate (ASMR) :

Number of deaths in a particular age and sex group per 1000 population of the same age group.

$$ASMR = \frac{\text{Number of deaths in a particular age-group}}{\text{Mid-year population of the same age-group}} \times 1000$$

q1

Probability of dying between birth and age 1. This can be used as approximate value of Infant Mortality Rate (IMR) which gives the ratio of number of deaths in a year of children aged less than one year to the number of births in that year.

q2

Probability of dying between birth and age 2.

q5

Probability of dying between birth and age 5. This indicator is also known as Under Five Mortality Rate (U5MR) .

Infant mortality rate (IMR) :

Ratio of the number of infant deaths (deaths of children below one year) in a year to the number of live births in that year.

$$IMR = \frac{\text{Number of infant deaths during the year}}{\text{Number of live births during the year}} \times 1000$$

Infant mortality rate comprises of two parts, viz., Neo-natal mortality rate and Post neo-natal mortality rate. The neo-natal mortality rate also comprises of two parts viz., Early neo-natal mortality rate and late neo-natal mortality rate. These are defined as:

Neo-natal mortality rate (NMR) :

Number of infants dying within the first month of life (28 days or under) in a year per 1000 live births of the same year.

$$NMR = \frac{\text{Number of infant deaths aged 28 days or under during the year}}{\text{Number of live births during the year}} \times 1000$$

Early neo- natal mortality rate :

$$ENMR = \frac{\text{Number of infant deaths of less than 7 days During the year}}{\text{Number of live births during the year}} \times 1000$$

Late neo-natal mortality rate :

$$LNMR = \frac{\text{Number of infant deaths of 7 days to less than 29 days during the year}}{\text{Number of live births during the year}} \times 1000$$

Post neo-natal mortality rate (PNMR) :

$$PNMR = \frac{\text{Number of deaths of 29 days to less than one year during the year}}{\text{Number of live births during the year}} \times 1000$$

Peri-natal mortality rate (PMR) :

Number of still births plus deaths within 1st week of delivery per 1000 births in a year.

$$PMR = \frac{\text{Number of still births and infant deaths of less than 7 days during the year}}{\text{Number of live births and still births during the year}} \times 1000$$

Still birth rate(SBR) :

$$SBR = \frac{\text{Number of still births during the year}}{\text{Number of live births and still births during the year}} \times 1000$$

Maternal mortality rate(MMR) :

Number of deaths of women in the age group 15-49 while pregnant or within 42 days of termination of pregnancy from any cause related to pregnancy and child birth per 1,00,000 live births in a given year.

$$MMR = \frac{\text{Number of maternal deaths to women in the age group 15-49}}{\text{Number of live birth}} \times 1,00,000$$

Eligible couple (Couples per 1000 population):

Number of currently married females in the age group15-44 years per 1000 persons of all ages.

Child woman ratio (0-4) :

1. Number of children in the age group 0-4 years per 1000 women in the age group 15-49 years.

Child woman ratio (5-9) :

2. Number of children in the age group 5-9 years per 1000 women in the age group 15-49 years.

Migration :

Migration is the third component of population change, the other two being mortality and fertility. A person is considered as a migrant by place of birth if the place in which he/she is enumerated during the census is other than the place of his/her birth. Similarly a person is considered as a migrant by place of last residence if the place in which he/she is enumerated during the census is other than his/her place of immediate last residence outside the village or town and not simply in another house or locality in the same village or town. Certain aspects concerning temporary movement/migration of people has been

explained below as these are important components concerning migration :-

(i) Migration of persons in search of job is high in the country. In many cases such migrants are only seasonal in nature. People migrate to other places for work in a particular season and come back again to their usual place of residence after three or four months. All such workers are treated as migrants. Similarly, if a person moved to any other place for attending short term vocational or educational course that lasted for only few months of a year, she/he too were considered as a migrant.

(ii) Where a person had merely gone out to another place or had been shifting from one place to another purely on tour, pilgrimage, visit to hospital for treatment or for temporary business purposes, such persons are not deemed to have had another residence different from the place where she/he or her/his family normally resides. She/he is not considered as migrant.

(iii) A woman temporarily moves into a hospital or to her parents or other relative's house for delivery and if the hospital or the parents/relatives houses is in a place different from usual place of residence, the place where the hospital or parents/relative's house is the place of last residence of the child but not of the mother. A new response category 'Moved after birth' was added in Census of India 2001 in the question on 'reasons for migration' to bring out additional migration patterns. Natural calamities or distress migration as a reason for migration for last residence migrants included in 1991 Census, is covered under category of 'Others'. The reason for migration has been determined as applicable at the time of migration and not in reference to any point of time after that. For example, if a person had moved from the place of her/his last residence for the purpose of education and subsequently at some point of time got employment there only, the reason for migration would be 'education' and not 'work/employment'.

Internal and International migration :

The migrational movements are of three types

(i) Migration within the state itself with its components.

(a) Migration within the district of enumeration (intra district migration).

(b) Migration from one district of state to another district of state (inter district migration),

(ii) Migration from one state to another State of the country (inter-state migration),

(iii) Migration from one country to another country. The first two streams together constitute internal migration, while the last type of movement is called international migration. The present name of the country, state or district and not the name by which they were known at the time of her/his birth or last residence were recorded.

Rural - Urban components of migration:

Rural or Urban status in respect of migrants have been determined as applicable at the time of migration and not with reference to any point of time after that. The flow of migrants consists of four streams viz. rural to rural, rural to urban, urban to rural and urban to urban.

Civic status of urban units

Civic Status of a town/city is determined on the basis of Civic Administrative authority of the town e.g., Municipal Corporation / Corporation, Municipal Committee/ Municipal council, Municipality etc.

Size class of UA / town

Size-class of UA/Town is based on the population size of the UA/City/Town UAs./Towns with 1,00,000 and above population are classified as Class I UAs./ towns. These Class I UAs. / towns are now further sub classified in to seven sub classes namely M1 to M7 depending on the population size of UA/City/ Town. These are M7(5,000,000 and above); M6(2,000,000 to 4,999,999); M5 (1,000,000-1,999,999) M4 (500,000-999,999); M3(300,000-499,999), M2 (200,000-299,999) & M1 (100,000-199,999). towns with, 50,000 to 99,999 population are classified as Class II towns, 20,000 to 49,999 population are Class III towns, population with 10,000-19,999 are Class IV towns, population with 5000 and 9999 are Class V towns and towns with less than 5000 population are Class VI towns.

Slum area

The Slum Areas (Improvement and Clearance) Act, 1956 which was enacted by the Central Govt. defined slums as a) Areas where buildings are in any respect unfit for human habitation; or b) are by reasons of dilapidation, overcrowding, fault arrangement and design of such buildings, narrowness or faulty arrangement of streets, lack of ventilation, light or sanitation facilities, or any combination of these factors, are detrimental to safety, health or morals.

Mega city

The concept of 'Mega city' is a recent phenomenon in the Urban Sociology and is defined in term of metropolitan city in the form of large size, problem of management of civic amenities and capacity to absorb the relatively high growth of population. Indian Census in 1991 treated the population size of 5 million and above as the cut off point to identify a place as the mega city. Whereas, for the purpose of inclusion in Centrally Sponsored Scheme for Infrastructure Development in Mega cities the Ministry of Urban Affairs and employment, Department of Urban Development adopted the criteria of 4 million and above population as per 1991 Census for Mega Cities. In 2001 Census, cities with 10 millions and above population have been treated as Mega cities.

Analytical Note

(ix) 2001 Census findings - Population, its distribution

(a) Distribution of Population in rural urban areas :

According to 2001 Census the total population of Srikakulam district stands at 2,537,593 with 1,260,020 males and 1,277,573 females. The district stands at 20th rank in the state as far as population is concerned. Out of the total population of the district 2258934 persons constituting 89.02% are residing in rural areas and the remaining 278,659 persons(10.98%) are residing in urban areas. The proportion of urban to total population regarded as an index of urbanization is 10.98% for Srikakulam district. Corresponding to state figure of 27.30%. Average number of towns for 100 inhabited villages in the district is 0.35%.

In Srikakulam district there are 38 mandals with 1,814 villages. Among these, 1,715 are inhabited villages and the remaining 99 villages are un-inhabited. The average number of inhabited villages per mandal is 45. In terms of population Srikakulam mandal occupies 1st place with 7.37% of district population while Laxminarsupeta mandal reported least population accounting 1.07% of district population. Seethampet mandal is having more villages (118) including 5 un-inhabited villages. Next comes Nandigama mandal with 112 villages including 12 un-inhabited villages. Kaviti mandal is the smallest mandal with 21 villages and all of them are inhabited villages.

The urban population is distributed among 6 urban units of which 4 are statutory towns. The average size of an urban center in the district works out to 46,443 persons. Srikakulam Municipality has largest population (109,905) whereas Sompeta (C.T) is the smallest town with a population of (17,423). There is no town in the district which has less than 5000 population.

(b) Size class and status of towns, Population Growth, Density,sex ratio, Work participation rate and Literacy-rates in the district :

Size class and status of towns :

During every Census the number of Census towns and statutory towns changes due to addition of new Census towns declassification of old Census towns, notifying of new Census towns, de-notifying of old statutory towns etc., for the purpose of analysis of varied demographic characteristics urban areas have been divided into six classes by size of population of the 6 towns in the district. Srikakulam (M) is categorized as class I town while there are 4 class III, one class IV town. There are no towns under class II, V and VI.

Population Growth :

The population of district was 2,321,126 as per 1991 Census and has gone upto 2,537,593 persons in 2001 adding 216,467 persons during the decade 1991-2001. The growth rate revealed by the district (9.33%) is less than the state growth of 14.59% during the decade. Srikakulam district ranks 19th in growth rate among 23 districts in the state.

Rural Urban growth rates shows wide variation. The rural growth rate is recorded as 11.23 while urban growth rate is 3.99%. As regard growth rate in rural population the district occupies 18th position, when we speak about urban growth rate it occupies 19th place of the state.

Density :

The overall density of population in the district is 435 persons per sq.km. and is above the state average of 277. Among urban areas Srikakulam town recorded highest 8,321 persons per sq.km. followed by 2,928 persons Rajam Census Town. Least density i.e. 1,291 persons per sq.km. has been reported in Ichchapuram (NP).

Sex Ratio:

Srikakulam district possessed 1,014 females per 1,000 males while it was 1,012 in 1991 Census. It is higher than state average sex ratio is 978. The district occupied 2nd rank in respect of sex ratio among 23 districts. Ichchapuram mandal has the highest sex ratio of 1,129. While Kaviti and Sompeta mandals have largest sex ratio of 1112 and 1090. Among urban units Ichchapuram (N.P) town has reported highest sex ratio of 1065 and Rajam Census Town reported lowest sex ratio of 963.

Work Participation rate:

The work participation rate for total workers is defined as percentage of total workers to total population. The total workers participation rate in Srikakulam district is 47.36%. Again percentage of main workers stands at 34.31%. The total workers participation rate separately for males and females in the rural areas are 57.00% and 41.00% respectively. Against corresponding figures for urban areas are 51.60% and 17.00% respectively. Among the main workers as seen for the percentage of workers of 2001 over 1991, is decreased in the percentage of worker. The female workers participation has gone down from 32.32% in 1991 Census to 21.87% at 2001 Census.

Literacy Rate:

While calculating the effective literacy rate, children in 0-6 age group have been excluded. The district returned 1,217,659 literates forming 55.31% of the population of the district. Separating for urban and rural areas the literacy rate workout to 74.30% and 52.90% respectively. Again within the urban areas male and female literacy rates separating workout to 84.10% and 64.60%. For the rural population the male and female literacy rates workout to 65.10% and 41.10%.

(c) Scheduled Castes and Scheduled Tribes of earlier censuses:

To uplift social and economical status of Scheduled Castes and Scheduled Tribes, one of the basic requirement of these population is the availability of data on age, sex, marital status, economy, education, fertility etc. In this regard these particulars are being collected in each census from 1951 onwards and provided to planners and administrators to take-up necessary steps to evolve suitable plans for the development of Scheduled Castes and Scheduled Tribes.

The President of India has notified some castes, races or tribes or parts of groups within castes, races or tribes as Scheduled Castes under Article 341 of the Constitution of India. Similarly, under Article 342 of the Indian Constitution, President of India has declared all such tribes or tribal communities or parts of groups within the tribes or tribal communities as Scheduled Tribes. The list of Scheduled Castes and Scheduled Tribes are notified for each State or Union Territory and are valid only within the jurisdiction of that State and Union Territory. The list of Scheduled Castes and Scheduled Tribes is provided in this volume under the chapter on 'Census concepts'.

Scheduled Castes population in the district as per 1991 Census:

As per 1991 census, there were 2,16,898 Scheduled Castes population comprising 1,08,438 males and 1,08,460 females. This works out to 9.34% to the total population of the district. Of the total population of Scheduled Castes, 87.97% were living in rural areas of the district.

Statement

Particulars of decadal variation, sex ratio, literacy and workers participation of Scheduled Castes Population-1991

Sl.No.	Particulars		Total	Rural	Urban
1	Percentage decadal	1981	1,79,775	1,61,956	17,819
	Variation:	1991	2,16,898	1,90,802	26,096
			(20.65)	(17.81)	(46.45)
2	Sex ratio		1,000	996	1,033
3	Percentage of Literacy		31.01	28.33	50.15
4	Percentage of :				
	i. Main Workers		47.09	48.92	33.71
	ii. Marginal Workers		4.36	4.75	1.46
	iii. Non-workers		48.55	46.33	64.83

Source: *Districr Census Handbooks of 1981 & 91*

The above statement reveals that Scheduled Castes population has recorded 20.65% growth rate during the decade 1981-91. It was 17.81% in rural areas which is lower to the growth rate of total district. Growth rate in Urban areas was 46.45% which is above 26% more than the district and rural areas.

The sex ratio of Scheduled Castes population (1,000) was lower in comparison to that of the general population in the district(1,012). The sex ratio in rural area of the district was little lower than total district sex ratio among Scheduled Castes population. In urban areas it was 1,033. Literacy rate among Scheduled Castes 31.01% which was lower than the district (36.22%). In urban areas their literacy rate was 50.15%.

Proportion of main workers among Scheduled Castes was 47.09 percent and the Marginal workers was 4.36 percent. In rural areas main workers population was 48.92 percent and in urban areas their percentage was 33.71.

Statement (ii)
Statement showing the decadal variation in Scheduled Castes population in Srikakulam district in comparison to Andhra Pradesh State between 1961-1991 Censuses

Sl. No.	Census Year	Scheduled Caste Population in district (percent variation shown in brackets)	Scheduled Caste Population in State (percent variation shown in brackets)
1	1961	2,03,193 (--)	49,73,616 (--)
2	1971	2,38,489 (+17.37)	57,74,548 (+16.10)
3	1981	1,79,775 (-24.62)	79,61,730 (+37.88)
4	1991	2,16,898 (+20.65)	1,05,92,066 (+33.04)

Source: *Part B(II)/Table No.6, 1991 Census.*

It is seen from the below furnished table that Scheduled Castes population in the district has registered 17.37% growth rate during the decade 1961-1971. The same for the decade 1971-1981 and 1981-1991 was -24.62% and 20.65% respectively. The growth rate during 1971-1981 was less than the growth rate of 1961-1971. However growth rate has been increased from -24.62% during 1971-1981 to 20.65% during 1981-1991.

Statement (iii)
Proportion of Scheduled Castes Population to Total Population in the villages-1991

Percentage range of Scheduled Castes population to total total population	Number of villages in each range	Percentage of villages in each range
1	2	3
5 and below	405	31.69
6-10	305	23.87
11-15	232	18.15
16-20	137	10.72
21-30	124	9.70
31 and above	75	5.87
Total	**1,278**	**100.00**

Source: *District Census Handbook, Srikakulam, 1991.*

The above statement gives the proportion of Scheduled Castes population to total population in the villages. Out of 1,278 villages where Scheduled Caste population returned in the district, 405 villages constituting 31.69% were having less than 6% of Scheduled Caste population. Of the remaining villages, 305(23.87%) were having 6 to 10% of Scheduled Castes population, 232(18.15%) having 11 to 15% and 75(5.87%) having 31% and above to total population of the respective villages.

Statement (iv)

Percentage of Scheduled Castes Population in Towns - 1991

Class & Name of Town	Total Population	Total scheduled Castes Population	Percentage of Scheduled Castes Population to Total Population
III Amadalavalasa(M)	34,395	2,598	7.55
III Ichchapuram (M)	29,654	1,065	3.59
V Mandasa (P)	8,508	827	9.72
III Narasannapeta (P)	20,131	1,563	7.76
III Palakonda (P)	24,748	2,946	11.90
IV Palasa (P)	15,581	1,337	8.58
IV Parasamba @ Kasibugga (P)	17,476	1,800	10.30
IV Rajam (P)	14,285	2,303	16.12
IV Sompeta (P)	15,785	1,001	6.34
II Srikakulam (M)	88,883	7,764	8.74
III Tekkali (P)	20,792	2,892	13.91
Total	**2,90,238**	**26,096**	**8.99**

Source: *Districr Census Handbook, Srikakulam, 1991.*

The above statement shows the percentage of Scheduled Castes population to the total population of the towns in the district. Out of 2,90,238 Urban population, Scheduled Castes population of 26,096 constituted 8.99%. Rajam town has 16.12% Scheduled Castes population to the total population of the towns, followed by Tekkali, Palakonda, Parasamba @ Kasibugga and Mandasa Panchayats with 13.91%, 11.90%, 10.30% and 9.72% respectively. The towns of Srikakulam(M), Palasa(P), Narasannapeta(P), Amadalavalasa(M) has recorded 8.74%, 8.58%, 7.76% and 7.55% of SC population which are below the district percentage.

The Scheduled Tribes population in the district as per 1991 Census :

As per 1991 Census, there were 1,34,067 Scheduled Tribes population comprising 67,231 males and 66,836 females in the district. This works out 5.78% to the total population of the district. Of the total population of the Scheduled Tribes 97.88% were living in rural areas of the district.

Statement (v)

Particulars of decadal variation, sex ratio, literacy and workers participation of Scheduled Tribes population-1991

Sl.No.	Particulars		Total	Rural	Urban
1	Percentage decadal Variation:	1981	1,05,142	1,03,836	1,306
		1991	1,34,067(27.51)	1,31,225(20.93)	2,842(117.61)
2	Sex ratio		994	999	781
3	Percentage of Literacy		19.71	18.90	55.06
4	Percentage of :				
	i. Main Workers		53.17	53.70	29.20
	ii. Marginal Workers		2.66	2.66	2.36
	iii. Non-workers		44.17	43.64	68.44

The statement given above reveals that the Scheduled Tribes population in the district has registered 27.51% growth rate during the decade 1981-91. The growth rate of 20.93% has been

recorded in the rural areas of the district. In urban areas it was 117.61%. The sex ratio in the district was 994, while in rural areas it was 999 and in urban areas 781. As regards the literacy rate among the tribes, it was 19.71% , while in rural areas it was 18.90%. However in urban areas it was higher (55.06%) than rural areas as well as the district total.

The population of main workers and marginal workers among tribals in the district was 53.17% and 2.66% respectively where as in rural areas of the district it was 53.76% and 2.66% respectively. But in urban areas they were reported 29.20% and 2.36% respectively.

Statement (vi)
Statement showing the decadal variation in Scheduled Tribes population in Srikakulam district in comparison to Andhra Pradesh State between 1961-1991 Censuses

Sl.No	Census Year	Scheduled Tribes Population in district (percent variation shown in bracket)	Scheduled Tribes Population in State (percent variation shown in bracket)
1	1961	1,91,524 (--)	13,24,368 (--)
2	1971	2,12,459 (+10.93)	16,57,657 (+25.17)
3	1981	1,05,142 (-50.51)	31,76,001 (+91.60)
4	1991	1,34,067 (+27.51)	41,99,481 (+32.23)

Source: *Part II-A, 1991 Census.*

It is seen from the above table that Scheduled Tribes population in the district has registered +10.93% growth rate during the decade 1961-71. The same for the decades 1971-1981 and 1981-91 was -50.51% and +27.51% respectively. The growth rate during 1971-1981 less than the growth rate of 1961-1971. However growth rate has been increased from -50.51% during 1971-1981 to +27.51% during 1981-1991censuses.

Statement (vii)
Proportion of Scheduled Tribes Population to Total Population in the villages-1991

Percentage range of Scheduled Tribes population to total total population	Number of villages in each range	Percentage of villages in each range
1	2	3
0 - 5	395	48.40
6-15	90	11.03
16-25	27	3.31
26-35	23	2.82
36-50	27	3.31
51 and above	254	31.13
Total	**816**	**100.00**

Source: *Districr Census Handbook, Srikakulam, 1991.*

The above statement shows the proportion of Scheduled Tribes population to total population in the district as per 1991 census. Out of 816 villages 395 villages forms 48.40% were having less than 6% Scheduled Tribes population. The proportion of Scheduled Tribes in the percentage range of 51 and above has 254 villages (31.13%). The least percentage of villages i.e., 2.82 has fallen in the percentage range of Scheduled Tribes population 26-35.

Statement (viii)
Percentage of Scheduled Tribes Population in Towns

Class & Name of Town	Total Population	Total Scheduled Tribes Population	Percentage of Scheduled Tribes Population to Total Population
III Amadalavalasa(M)	34,395	141	0.41
III Ichchapuram (M)	29,654	723	2.44
V Mandasa (P)	8,508	287	3.37
III Narasannapeta (P)	20,131	43	0.21
III Palakonda (P)	24,748	240	0.97
IV Palasa (P)	15,581	36	0.23
IV Parasamba @ Kasibugga (P)	17,476	92	0.53
IV Rajam (P)	14,286	70	0.49
IV Sompeta (P)	15,785	19	0.12

III Tekkali (P)	20,792	591	2.84
Total	**2,90,238**	**2,842**	**0.98**

Source : *Districr Census Handbook, Srikakulam, 1991*

It is noticed from the above statement that during 1991 census there were 11 towns in the district including three municipalities. The Scheduled Tribe population in these constitute less than 1% each except in Ichchapuram (M), Mandasa(P) and Tekkali(P) where the percentage of STs recorded at 2.44, 3.37 and 2.84 respectively. The percentage of ST population to total population of the district constitutes 0.98.

This table gives the details of decadal growth rates for population in the mandals of the district. The district has registered 9.3 growth during the decade which is less than the state average growth rate of 14.59. The rural and urban growth rates are recorded as 11.2 and 4.0 respectively. The district percentage of urban population works out to 11.0. Out of 38 mandals, only 6 mandals have urban units. Among 6 mandals Srikakulam recorded 62.7% urban population followed by Palasa 56.8%. All the 6 urban mandals have reported more percentage of urban population than the district average percentage urban population.

This district has 1715 inhabited villages. Out of 38 mandal parishad the highest number of 113 inhabited villages is seen in Seethampeta mandal parishad followed by 100 villages in Nandigam mandal and 76 in Mandasa mandal. The least number is 21 villages in Kaviti and 22 of Bhamini mandal parishad are existing the total inhabited villages, 200(11.7%) villages are having less than 200 population, 341(19.9%) villages are having between 200 to 499. The highest number of villages 444(25.9%) are in the population range of 1000 to 1999. 35 villages(2.0%) are having 5000 and more population of which 10(0.6%) villages have more than 10,000 population which are mostly mandal parishad headquarters.

Of the 38 mandal parishads 7 mandal parishads do not have the villages having less than 200 population. More than 25% inhabited villages in Seethampeta , Meliaputti and Nandigam mandals have less than 200 population. 40% of inhabited villages in Seetampeta are having the population between 200-499. Likewise 38.9% inhabited villages of Amadalavalasa fall in population size range 500-999. In Kaviti, Hira mandalam, Polaki and Srikakulam mandal parishads are having 2 villages each with 5,000 above and below 10,000 persons and also Rajam and Gara each with 3 villages are having population range 5,000-9,999.

There are 10 villages falling in the range of 10,000 population and above which are most of them are the Mandal Parishad Headquarters.

TABLE - 3

NEW TOWNS, DENOTIFIED, DECLASSIFIED AND MERGED TOWNS IN 2001 CENSUS

Name of Town
1
(a) New
(i) Statutory Town
-Nil-
(ii) Census Town
-Nil-
(b) Denotified
(i) Statutory towns of 1991 Census denotified and also did not satisfy the criteria to be treated as Census towns
-Nil-
(ii) Statutory towns of 1991 Census denotified but identified as Census towns based on demographic and economic criteria
-Nil-
(iii) Census towns of 1991 Census are notified as statutory town in 2001 Census
-Nil-
(c) Declassified
1. Mandasa
2. Narasannapeta
3. Palakonda
4. Tekkali
(d) Wholly merged with other town(s)
1. Parasamba @ Kasibugga

Declassified means the census towns of 1991 census which failed to satisfy the demographic and economic criteria.

Out of 11 urban areas in 1991 Census, four panchayat towns i.e. Mandasa, Narasannapeta, Palakonda and Tekkali attained rural status due to strict implementation of demographic and economic criteria in 2001 Census. One more town Parasamba @ Kasibugga merged with Palasa.

TABLE 4
DISTRIBUTION OF VILLAGES BY POPULATION DENSITY, 2001

Range of population density (per square kilometre)	Total number of villages in each population density range	Percentage of villages in each population density range	Population	Percentage distribution of population
1	2	3	4	5
0-10	7	0.4	337	-
11-20	6	0.3	275	-
21-50	23	1.3	1,663	0.1

101-200	159	9.3	67,886	3.0
201-300	225	13.1	186,009	8.2
301-500	577	33.6	775,353	34.3
501 +	659	38.4	1,210,318	53.6
Not known	-	-	-	-
District Total:	**1,715**	**100.0**	**2,258,934**	**100.0**

Population Density (Rural) of the district: 452.0

There are 7 villages with 337 population where density of population recorded below 11 persons per sq.kilometre. The average population size of these seven villages works out to 48 persons per village. Of the total district rural population, 53.6% are living in 659 villages where density of population is more than 500 persons per sq.km. The next highest number of villages is 577 forming 33.6% with 775,353 persons are in 301-500 range of population density.

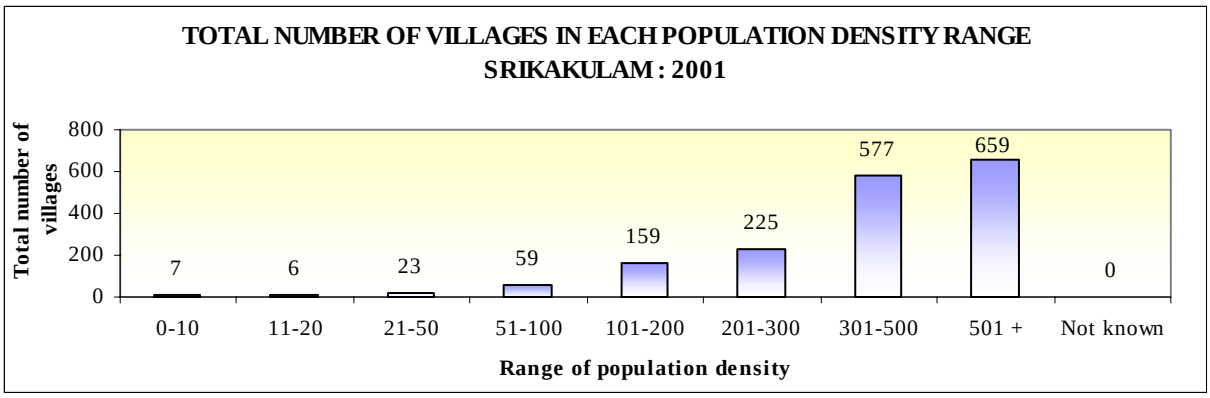

TABLE - 5
SEX RATIO OF STATE AND DISTRICT, 1901 - 2001

Census Year	State			District		
	Total	Rural	Urban	Total	Rural	Urban
1	2	3	4	5	6	7
1901	985	983	999	1,076	1,072	1,132
1911	992	991	1,000	1,098	1,094	1,164
1921	993	994	936	1,093	1,091	1,128
1931	987	989	966	1,078	1,076	1,103
1941	980	981	975	1,059	1,053	1,136
1951	986	985	987	1,062	1,062	1,066
1961	981	988	951	1,047	1,049	1,023
1971	977	983	949	1,033	1,035	1,005
1981	975	984	948	1,023	1,026	997
1991	972	977	959	1,012	1,013	1,001
2001	978	983	965	1,014	1,014	1,011

It is noticed from the above table that females were out numbering males for the past 100 years except in 1981 where the sex ratio of the district was 997. In the census count during 1901 to 2001 the district sex ratio was more than that of state. Further, the sex ratio in urban areas of the district was higher than rural areas during the censuses 1901 to 1951. From 1961 census onwards the sex ratio in rural areas dominated urban figures.

34	Srikakulam	1,008	38	Etcherla	969
				District (Rural) Total:	**1,014**

The sex-ratio in rural areas is 1,014, which is higher than the state sex-ratio. In 23 mandal parishads the sex ratio is out numbered than males. The highest sex ratio is noticed with 1,179 in Ichchapuram Mandal Parishad followed by Kaviti Mandal Parishad with 1,112. The least sex ratio is noticed in Ranasthalam with 956.

TABLE 8
SEX RATIO OF RURAL POPULATION BY RANGES, 2001

Range of sex ratio for villages	Number of inhabited villages	Percentage of villages in each range	Population (2001)	Percentage distribution of population
1	2	3	4	5
Less than 700	15	0.9	7,856	0.3
700-749	8	0.5	7,286	0.3
750-799	13	0.8	4,965	0.2
800-849	21	1.2	15,212	0.7
850-899	57	3.3	64,722	2.9
900-949	172	10.0	198,716	8.8
950-999	413	24.1	680,099	30.1
1000-1099	702	40.9	1,003,674	44.4
1100+	314	18.3	276,404	12.2
District Total:	**1,715**	**100.0**	**2,258,934**	**100.0**
Sex ratio (Rural) for District:		**1014**		

Large variation is seen in the range below 700 females per 1000 males in 15 villages. There are 413 (24.1%) villages in the range of sex-ratio 950-999. It is evident from the above table that 40.9% of inhabited villages are having equal or more number of females than males covering almost 44.4% of the total rural population.

TABLE 9
SEX RATIO OF URBAN AGGLOMERATIONS / TOWNS, 2001

Sl.No.	Name of U.A. / Town	Urban status	Sex ratio	Sl.No.	Name of U.A. / Town	Urban status	Sex ratio
1	2	3	4	1	2	3	4
1	Amadalavalasa	NP	983	5	Sompeta	CT	1,028
2	Ichchapuram	NP	1,065	6	Srikakulam	UA	997
3	Palasa Kasibugga	NP	1,047	7	Srikakulam	M+OG	997
4	Rajam	CT	963	8	Srikakulam	M	1,001
					Sex ratio (Urban) for the district:		**1,011**

This table gives sex-ratio in urban areas. The average urban sex-ratio is 1,011 in the district, which is lower than the average of the district. The higher sex-ratio 1,028 is seen in Sompeta(CT) and the lowest sex-ratio 963 is seen in Rajam (CT).

Among statutory towns, Ichchapuram and Palasa Kasibugga towns reported higher sex-rato than the district urban sex-ratio.

34	Srikakulam	9,000	4,576	4,424	967
35	Ponduru	9,374	4,822	4,552	944
36	Laveru	8,950	4,543	4,407	970
37	Ranastalam	12,005	6,121	5,884	961
38	Etcherla	10,965	5,567	5,398	970
	District (Rural) Total:	**303,477**	**154,231**	**149,246**	**968**

This table gives the details of sex-ratio in the age group 0-6 for each mandal parishad of the district. It can be noticed that the sex-ratio of the population in the age group 0-6 is highest in Seethampeta mandal parishad with 1,026 females per 1,000 males where as the lowest has been seen in Kanchili and Regidi Amadalavalasa mandal parishad each with 936 females per 1,000 males.

TABLE 12
SEX RATIO OF RURAL POPULATION IN THE AGE GROUP 0-6 BY RANGES, 2001

Range of sex ratio for villages	Number of inhabited villages	Percentage distribution of villages	Population	Percentage distribution of population
1	2	3	4	5
Less than 700	143	8	7,938	2.6
700-749	50	3	5,246	1.7
750-799	88	5	9,758	3.2
800-849	133	8	20,838	6.9
850-899	161	9	36,604	12.1
900-949	208	12	48,920	16.1
950-999	172	10	54,947	18.1
1000-1099	345	20	75,764	25.0
1100+	415	24	43,462	14.3
District (Rural) Total	**1,715**	**100**	**303,477**	**100.0**
Sex ratio (Rural) for District:		**968**		

In 20% villages, female children in the age group 0-6 are either equal or more than male children. In 172 villages forming 10.0% to the total inhabited villages the range of sex-ratio is 950-999 in which the district average sex-ratio (968) also falls in.

TABLE 13
SEX RATIO OF POPULATION IN THE AGE GROUP 0-6 OF URBAN AGGLOMERATIONS/TOWNS, 2001

Sl. No.	Name of UA/Town	Urban status of town	Total population in 0-6 age group			Sex ratio for 0-6 age group
			Persons	Males	Females	
1	2	3	4	5	6	7
1	Amadalavalasa	NP	4,308	2,206	2,102	953
2	Ichchapuram	NP	4,564	2,343	2,221	948
3	Palasa Kasibugga	NP	6,150	3,059	3,091	1,010
4	Rajam	CT	2,642	1,354	1,288	951
5	Sompeta	CT	2,042	1,051	991	943
6	Srikakulam	UA	12,910	6,587	6,323	960
7	Srikakulam	(M+OG)	12,910	6,587	6,323	960
8	Srikakulam	M	12,223	6,233	5,990	961
	District(Urban) Total		**32,616**	**16,600**	**16,016**	**965**

The above table gives details of sex-ratio of population in the age group 0-6 of Urban Agglomerations/ Towns recorded in 2001 Census. It is noticed that Sompeta (CT) reports lowest sex-ratio 943 where as highest sex-ratio 1,010 is seen in Palasa Kasibugga (NP) in the same age group which is higher than district Urban sex-ratio.

		Urban	**278,659**	**24,041**	**2,492**	**8.6**	**-.9**

The above table shows the number and percentage of scheduled castes and scheduled tribes population in the mandals recorded during 2001 census. Out of district total population of 2537593, the SCs and STs constitutes 9.0% and 6.0% respectively.

In rural areas of the district the SCs accounted 9.1% where as in urban areas it is 8.6%. In respect of STs, they accounts 6.6% in rural and 0.9% in urban areas of the total population. Their percentage is more in rural areas than urban.

In Veeraghattam mandal, the highest number of SCs recorded with 19.1% followed by Bhamini with 18.3% and 14.8% in Vangara mandal which are totally rural areas. The lowest percentage of SCs is recorded in the mandals of Kaviti, Vajrapukothuru with 1.7% each and Ichchapuram and Polaki with 3.2% and 4.4% respectively.

In Seethampeta mandal, the highest number of STs recorded with 87.5% of the total population entirely under rural areas followed by Meliaputti mandal with 26.6% and Bhamini mandal with 19.9%. The lowest percentage of STs recorded in the mandals of Vajrapukothuru, Santhakaviti, Polaki and Ranasthalam with 0.2% respectively.

31	Narasannapeta	1,041	1,104
32	Polaki	951	895
33	Gara	958	1,097
34	Srikakulam	1,031	1,109
35	Ponduru	1,016	869
36	Laveru	968	905
37	Ranastalam	952	871
38	Etcherla	990	1,055
	District (Rural) Total	**1,012**	**1,010**

The sex-ratio among the SCs and STs is given in this table at Mandal Parishad level. The sex-ratio of SC and ST in rural areas of Srikakulam district is 1,012 and 1,010 respectively while it is 1,014 in respect of total population. It shows that sex-ratio among total, SC and ST population is almost in the same range 1010-1014.

The lowest sex-ratio 832 among SCs is reported in Kanchili mandal parishad and 739 among STs in Amadalavalasa mandal parishad. The highest sex-ratio 1,246 among SCs is in Mandasa mandal parishad and 1,276 among STs in Santhakaviti mandal parishad.

Among SCs, females are more than males in 21 mandals. As regards ST population is concerned females are more than males in 21 mandals. In 21 mandals sex-ratio is lower than district average sex-ratio (SC). Like wise the sex-ratio of 19 mandals is lower than the district average sex-ratio (ST).

TABLE 20
SEX RATIO AMONG SCHEDULED CASTES AND SCHEDULED TRIBES IN URBAN AGGLOMERATIONS / TOWNS, 2001

Sl. No.	Name of U.A. / Town	Scheduled Castes sex ratio	Scheduled Tribes sex ratio
1	2	3	4
1	Amadalavalasa (NP)	977	1,067
2	Ichchapuram (NP)	1,165	1,033
3	Palasa Kasibugga (NP)	1,103	1,058
4	Rajam (CT)	1,068	909
5	Sompeta (CT)	1,101	614
6	Srikakulam UA	1,080	745
7	Srikakulam (M+OG)	1,080	745
8	(i) Srikakulam (M)	1,083	734
	Sex ratio (Urban) for the district:	**1,075**	**932**

The sex-ratio among the SCs & STs have been shown in this table for Urban Agglomerations/Towns of 2001 Census. Among the towns, Ichchapuram (NP) has the highest sex-ratio of 1,165 and lowest 977 in Amadalavalasa (NP) among SC population. Females are more than males among SCs in Palasa Kasibugga (NP), Ichchapuram (NP), Sompeta (CT), Rajam (CT) and Srikakulam (UA). All the above towns except Amadalavalasa (NP) are having higher sex-ratio than the district urban average sex-ratio.

Similarly, among STs females are more than males in Palasa Kasibugga (NP), Ichchapuram (NP) and Amadalavalasa (NP). The highest sex-ratio is reported in Amadalavalasa (NP) and the lowest 614 reported in Sompeta (CT) among STs.

The district and mandal-wise literacy rates besides the number of literates and illiterates for total, rural and urban areas with sex break-up are given in this table. The literacy rates are worked out by excluding population in the age group 0-6. As per 2001 Census the proportion of literates to total population excluding the age group 0-6 comes to 55.3 percent in the district. The proportion in the rural area is 52.9% against 74.3 percent in urban areas.

In the district, the literacy rate of males 67.2% is much higher than that of females (43.7%). Among the mandals, Srikakulam mandal tops with 71.8% literates followed by Palasa and Amadalavalasa mandals 65.0% each. Seethampeta with 37.0% literates stands at the lowest in the district.

The gap between male and female literates is very high which comes to 23.5% in the district. The situation at mandal level is not much different.

	District (Rural) Total:	**1,034,953**	**629,181**	**405,772**	**1,223,981**	**492,239**	**731,742**	**53**	**65**	**41**	**24**

The above table reveals number of literates, illiterates and the literacy rates in rural areas at Mandal Parishad level in the district. 52.9% of the total rural population excluding the age group 0-6 are literates in the rural areas of the district. The corresponding proportion of male and female literates comes to 65.1% and 41.1% respectively which shows very wide gap of 24 percent in male and female literacy. At Mandal Parishad, Narasannapeta has the highest rural literacy rate of 61.7 percent while 72.9% males and 50.8% females are literates in this mandal parishad.

The lowest literacy rate in rural areas is noted in Seethampeta mandal parishad with 37.2%.

TABLE 23
DISTRIBUTION OF VILLAGES BY LITERACY RATE RANGE, 2001

Range of literacy rate for villages	Number of inhabited villages	Percentage distribution of villages	Population	Percentage distribution of population
1	2	3	4	5
-	5	0.3	106	-
1-10	14	0.8	4,826	0.2
11-20	49	2.9	16,924	0.8
21-30	93	5.4	64,727	2.9
31-40	192	11.2	182,932	8.1
41-50	465	27.1	681,914	30.2
51-60	519	30.3	741,019	32.8
61-70	266	15.5	409,860	18.1
71-80	93	5.4	140,579	6.2
81-90	14	0.8	15,292	0.7
91-99	3	0.2	739	-
100	2	0.1	16	-
District Total:	**1715**	**100.0**	**2,258,934**	**100.0**
Literacy rate for District:		**55.3**		

The above table gives distribution of villages by literacy rate range in the district for 2001 Census.

There is no literate in 5 villages (0.3%) of the district and the population of these villages is only 106 persons. 519 villages accounts 30.3% of the total villages are in the literacy rate range of 51-60 and 465 villages (27.1%) falls in the literacy range 41-50.

The lowest literacy rate covering the ranges from 1 to 40 observed in 348 villages of the district.

The higher literacy covering the ranges from 61-100 covers only 378 villages. The literacy rate for the district is 55.3

This table gives the number and percentage of main workers, marginal workers, and non-workers by sex at Mandal level in the district as per 2001 Census. The proportion of total workers works out to 47.4% of the total population in the district.

The total workers are comprised of 34.3% main workers and 13.1% marginal workers and 52.6% non-workers.

Among the main workers, male participation rate is 46.9 where as females it is 21.9.

Male and female marginal workers account for 9.5 and 16.5 respectively.

The percentage of female marginal workers is higher than the male marginal workers.

This table shows Mandal wise number and percentage of main workers marginal workers, and Non-workers by sex for rural population of the district as per 2001 Census. Of the 2,258,934 total rural population of the district 35% has been categorised as main workers and the marginal workers constitutes 14% and the remaining 51% fall in the category of Non-workers. The sex break up at the district level shows that 47% males and 23.1% females are in the category of main workers. Male and female marginal workers account for 10% and 17.9% respectively. The percentage of female marginal workers is higher than male marginal workers. Similar trend is visible at Mandal level.

The percentage of total rural workers of the district comes to 49%with a sex breakup of 57% males and 41% females.

At the mandal level, Vangara has highest proportion of total workers forming 55.7% of the total population. It is closely followed by Saravakota (55.5%), Laveru (54.5%), Seethampeta (53.9%), Jalumuru (53.1%) and Regidi Amadalavalasa (52.6%). The lowest percentage of 41.6 is recorded in Sompeta mandal.

This table gives number and percentage of main workers, marginal workers and non-workers by sex in Urban Agglomerations/Towns recorded in the district of Srikakulam. Of the 278,659 total urban population of the district 28.9% has been categorised as main workers and 5.4% as marginal workers. The remaining 65.8% fall in the category of non-workers. The sex-wise break up at the district level shows that 46.3% males and 11.6% females are in the category of main workers. Male and female marginal workers account for 5.3% and 5.4% respectively.

The percentage of total urban workers comes to 34.2%. Palasa Kasibugga recorded highest proportion of total workers forming 40.9% of the total population. It is followed by Amadalavalasa with 37.3%. The lowest percentage is recorded in Srikakulam(UA) with 30%.

PERCENTAGE OF MAIN, MARGINAL AND NON-WORKERS IN U.As. / TOWNS IN

Note: *Percent of Worker to total worker are given in brackets*

This table shows the details of distribution of workers by sex in four categories of economic activities in mandals of the district as recorded in 2001 Census. It can be seen that the economy of the district is primarily dependant on agriculture due to the fact that cultivators constitute 22.2% of the total workers and 46.3% of workers are engaged in agriculture labour, house hold industry (4.1) and other workers (27.3%). The distribution of workers by four categories of economic activity at mandal level shows very high dependance of population on agriculture sector observing large number of workers.

The percentage of female cultivators is 19.0% which is lower as compared to 24.4% of male cultivators in the district.

Note: *Percent of Worker to total worker are given in brackets*

This table presents mandal wise distribution of workers by sex in four categories of economic activity as per 2001 Census. In the rural aeas of the district total workers constitute 49.0% of the totoal population. Among them, cultivators constitute 23.8%., Agriculture labourers 49.4%, household industry 4.0% and other workers 22.8%. The agricultural sector plays a major role in providing employment to the working force of rural population despite the fact that it is not economically viable. Household industry could not make much progress in rural areas as reflected in the data that these house hold industries employ only 4.0% workers of total working force.

Therefore surplus working force has to depend on primary activities. Among cultivation, the percentage of females (19.8) is lesser than males (26.7%) in the rural areas of the district.

^ *Name of constituent units of U.A. are given separately.*

\+ *Towns arranged in alphabetical order.*

* *In case of Town having O.G. an Asterisk mark should be placed against the name to indicate that they have O.G. which are not separately Towns.*

This table shows the distribution of workers by sex in four categories of economic activity of Urban Agglomertions/Towns. In the urban areas of the district, total workers from 34.2% of total population. Among them cultivators constitute 3.6%, agriculture labourers 11.3%, household industry workers 5.1% and other workers 80.0% in the district. The other workers play a major role in providing employment to the working force of urban population. Household industry could not make much progress in urban areas as reflected in the data and these household industries employ only 5.1% of total working force. The surplus working force has to depend on other working activities.

Among cultivators, the percentage of females (4.0%) is higher than males (3.4%) in the urban areas of the district.

Note :- *Percentages are given in brackets.*

* *Based on the improved drinking water source, drinking water supply has been classified as 'Improved ' or otherwise. If the household has access to drinking water supplied from a tap or a hand pump / tube well situated within or outside the premises it is considered as having access to 'Improved drinking water source'. However, the concept of improved drinking water is state specific and this is to be considered accordingly.*

\# *Post office includes Post office, telegraph office and Post and telegraph office.*

$ *Transport communication includes bus service, rail facility and navigable waterways.*

This table deals with distribution of villages at mandal parishad level according to the availability of different amenities like education, medical, improved drinking water, post office, telephone, transport, communication, agriculture, credit societies, approach by pucca road, and power supply within the village.

Out of 1715 inhabited villages, 1645 villages or 95.9% have been provided with education facility of one type or other.

Similarly, 649 villages or 37.8% have medical facilities one type or other. Improved drinking water facility is available in 1479 or 86.2% villages. As regards post office facility, which includes facilities like telegraph office and post & telegraph, 530 villages constituting 30.9% have been provided with this facility within the village. 759 or 44.3% villages have been provided with telephone facility. 1017 or 59.3% with transport facility, 121 or 7.1% villages with bank facility and 181 or 10.6% have agriculture credit society. Similarly, there are 1153 or 67.2% villages have been linked with Pucca Road. 1714 or 99.9% villages have been provided with electricity supply.

Almost similar pattern of distribution of villages by availability of amenities in the villages at mandal parishad level is noticed.

Note : *- Percentages are given in brackets.*

* *Based on the improved drinking water source, drinking water supply has been classified as 'Improved ' or otherwise. If the household has access to drinking water supplied from a tap or a hand pump / tube well situated within or outside the premises it is considered as having access to 'Improved drinking water source'. However, the concept of improved drinking water is state specific and this is to be considered accordingly.*

\# *Post office includes Post office, telegraph office and Post and telegraph office.*

$ *Transport communication includes bus service, rail facility and navigable waterways.*

The above table depicts the number and percentage of rural population served by different kinds of amenities. Out of total rural population 2,258,934, 2,251,862 persons or 99.7% have education facilities of one type or the other. Similarly, 1,413,939 or 62.6% have medical facilities while 2,089,769 persons or 92.5% have got improved drinking water facility. Post office facility is available to 1,328,655 persons or 58.8% population.

Telephone facility is available to 1,399,542 persons or 62.0%. Transport and Communication facility is available to 1,751,918 persons or 77.6%. Bank facility is available to 489,811 persons or 21.7%. Above 574,930 persons or 25.5% have been provided with the facility of agriculture credit society. 1,821,759 persons or 80.6% have been provided with the facility of approach by Pucca Road Power Supply is available to 2,258,424 persons or 100.0% rural population in the district.

Similar pattern of availability of facilities is visible for the rural population at Mandal parishad level.

The above table presents distribution of villages not having certain amenities within the village. They have to go out of their village to avail these facilities. Such villages have been presented in this table according to various distance ranges. 70 villages do not have primary school in their villages and out of these villages children of 67 villages have to travel less than 5 kms for schooling.

Out of 1,715 inhabited villages 1,205 are deprived of middle school and 1,691 degree college facilities. Of these, 739 villages avail the facilities of middle school at a distance of less than 5 km.270 villages at a distance of 5-10 km and the remaining 196 at a distance of 10+ km.

In respect of degree college, 120 villages avail this facility at a distance less than 5 km; 409 villages between 5-10 km and rest 1,162 villages at a distance of 10+ km.

Similarly, there are 1685 villages in the district which have been deprived of Hospital facilities and 1,648 villages which are deprived of PHC facilities. Of these, 204 villages have the facilities of hospital available within 5 km. While in respect of 430 villages the inhabitants have to cover a distance of 5-10 km in order to avail the facilities. Similarly, 1,051 villages have this facility at a distance of 10+ km. As regards PHC 370 villages avail this facility at a distance of less than 5 km. 502 villages at a distance of 5-10 km and the remaining 776 villages have to travel a distance of more than 10 km to avail this facility.

Regarding post office, 1,184 villages do not have this facility in the village it self. Of these, is 921 villages have this facility at a distance of less than 5 kms. another 194 villages avail it at a distance of less than 5-10 kms. In the remaining 69 villages, habitants have to travel a distance of 10+ km. As regards telephone, there are 956 villages in the district which are not having the telephone facility. Of these 352 villages avail this facility at a distance of less than 5 km. 159 villages at a distnace of 5-10 kms and the remaining 445 villages have to travel a distance of 10+ km. In respect of bus service, 711 villages do not have facility. Among these, 524 villages avail this facility at a distance of less than 5 km, 146 at a distance of 5-10 km and 41 villages at a distance of 10+ km.

In the entire district, 1,616 villages are deprived of Commercial Bank facilities and 1,682 villages are not having Co-operative bank. Of these 1,616 villages which are deprived of Commercial bank, 549 villages avail this facility at a distance of less than 5 km., 665 villages between 5-10 and the remaining 402 at a distance of 10+. Regarding Co-operative banks, out of 1,682 villages 177 villages avail the facility at a distance of less than 5 km. 349 at a distance of 5-10 km and the remaining 1,156 villages at a distance of 10+ km.

1,533 villages do not have agricultural credit society. This facility is available to 627 villages at a distance of less than 5 km, 461 villages at a distance of 5-10 kms and the remaining 445 villages at a distance of 10+ kms.

** Based on the improved drinking water source, drinking water supply has been classified as "improved" or otherwise. If the household has access to drinking water supplied from a tap or a handpump/tubewell situated within or outside the premises, it is considered as having access to "improved drinking water source". However, the concept of the improved drinking water is state specific and this is to be considered accordingly.*

 # Post office includes Post office, Telegraph office and Post and telegraph office.

$ Transport communication includes bus service, rail facility and navigable waterways.

This table deals with the distribution of villages by population range and amenities available there in as recorded in 2001 Census. Out of total 1,715 inhabited villages 1,645 (95.9%) have education facility, 649 (37.8%) have medical facility, 1,479 (86.2%) have improved drinking water facility 530 (30.9%) have post office facility 759 (44.3%) have telephone facility, 1,017 (59.3%) have been linked by bus service and 121 (7.1%) have bank facility. 181 (10.6%) villages have been served with agricultural credit societies. 1,153 (67.2%) villages have pucca approachable road and almost all villages 99.9% possess electricity for all purposes.

As many as 541 villages have below 500 population. 404 villages have fallen in the population range 500-999 and 444 villages with in the range of 1000-1999. In the population range of 2000-4999 the number of villages fallen are 281.

A study of amenities available for the small villages reveal that they posess lesser amenities and they have to depend on nearby town to avail the facility.

Data Source : *Census of India, 2001, H-Series : "Tables on Houses, Household Amenities and Assets".*

Note : *Permanent :* *1. Permanent Houses refers to those houses whose wall and roofs are made of pucca materials i.e., where burnt bricks, G.I. Sheets or other metal sheets, stones, cement concrete is used for wall and tiles, slate shingle, corrugated iron, zinc or other metal sheets asbetos sheets, bricks, lime and stone and RBC/RCC concrete are used for roofs.*

Semi-permanent : *2. Semi-permanent houses refer to those houses made of other types of materials.*

Temporary : *3. Temporary houses refers to those houses having wall and roofs made of Kutcha materials i.e. where grass, leaves, reeds, bamboo, mud, un-burnt bricks are used for the construction of walls and grass, leaves, reeds, bamboo hatch, mud, un-burnt bricks, wood etc. are used for roofs.*

The data presented in the above table reveals that 47.8% of households of the district are living in houses made of pucca material, residences of 8.7% households are of semi-permanent nature and houses of only 43.5% households are made of temporary material.

In the rural areas, however, the percentage of households living in permanent houses is 45.1%, 8.7% in semi-permanent and 46.2% of households in temporary houses.

The district percentage in urban areas indicates that majority of households i.e. 72% are living in house constructed with pucca material where as 8.2% in semi-permanent structures and the percentage of households living in temporary houses is 19.8% i.e. constructed with kutcha materials.

Data source : *Census of India, 2001, H-Series; "Tables on Houses, Household amenities and Assets".*

***** *Based on the improved drinking water source, drinking water supply has been classified as "improved" or otherwise. If the household has access to drinking water supplied from a tap or a handpump/tubewell situated within or outside the premises, it is considered as having access to "improved drinking water source". However, the concept of the improved drinking water is state specific and this is to be considered accordingly.*

Note: *Percentage has given in brackets after the number of households.*

Bathroom means bathroom within the house.

Toilet means toilet within the house.

Drainage means closed and open drainage.

This table indicates that 37.8% households in the district have been provided with improved drinking water supplied from a tap or a hand pump/tube well. 44.6% households have provision of electricity to their houses. The bathroom facility is available to only 12.6% households within their premises.

As regards rural areas, 8.4% households are having bathroom facility where as this proportion in urban areas comes to 50.4%. 40.60% rural households have facility of electricity as against 79.8% in urban areas.

Toilet and drainage facilities in the district are available to 14.2% and 42.6% households respectively. Their percentage is higher in urban areas as compared to rural areas. The trend of these amenities available to the households at mandal level is almost conform to the district pattern analysed.

Data source : *Census of India, 2001, H-Series; "Tables on Houses, Household amenities and Assets".*

Note: *Percentage has given in brackets after the total households.*

The percentage distribution of households by type of fuel used for cooking purposes is given in this table.

There are nine types of fuels used for which data have been presented in this table. It is observed that wood is the most predominent fuel used for cooking by 68.4% households in the district. In rural areas, use of wood for cooking is high while in urban areas it is less due to availability of L.P.G. The next cooking fuel is gas which is used by 11.9% households in the district. This proportion in urban and rural areas is 41.9% and 8.5% respectively. In rural areas, use of gas for cooking is very low as compared to urban areas at mandal level. There are 2% households using kerosene in the district. Use of kerosene for cooking by urban households comes to 10.6% while in rural areas its proportion is only 1% as a whole. The percentage of households, using other types of fuel such as crop residue, cowdung cakes, electricity, coal, biogas etc is insignificant.

Data source : *Census of India, 2001, H-Series; "Tables on Houses, Household amenities and Assets".*

The above table presents data for total, rural and urban areas at district/mandal level about households availing banking services and in possession of assets such as radio/transistor, television, telephone, bicycle, scooter, car etc. There are 593,350 households in the district and among them 171,170 households have been availing banking services, 86,184 households have radio/transistor facility. Television is possessed by 95,115 households in the district.

Telephone is available in 19,417 households. Bicycle is used as a major means of transportation and is available in 119,897 households.

Scooter, Motor cycle and Moped are used by 22,698 households, where as 2,466 households are in possession of Car, Jeep, and Van. The picture in usage of banking services, and possession of assets by households at Mandal level is almost similar as analysed above for the district as a whole.

(xiii) Scope of Village Directory and Town Directory - Column heading wise explanation and coverage of data

The village directory and the town directory presented in the District Census Handbooks are proved more useful. The formats of village directory and of seven statements on town directory are on the same pattern canvassed in 1991 census except for a few additional columns. These additional columns are introduced to throw more insight into the infrastructure of the villages and towns. All the amenities except recreational and cultural facilities, power supply and news papers/magazines are brought under one bracket, with corollary that in case any amenity is not available in the village, the distance of the nearest place where the facility is available is presented. Similar method is followed in respect of towns where educational and medical facilities are not available. The non-census data presented in the village and town directories relate to the year 1999. However, wherever the field agencies have indicated the later position, the information has been updated. Almost all the details in the statement have been indicated by codes. In respect of total population and total number of households, the figures as returned during the recent census i.e. 2001 census have been presented. The scope of village directory and town directory statements with column heading-wise explanation and coverage of data are hereunder presented.

Scope of Village Directory :

In the similar manner as was done in the past, the village directory has been prepared for all the villages in the state and these are presented mandal parishad wise in the District Census Handbook. This statement contains village-wise area, population, amenities such as educational, medical, communications, drinking water facilities, etc., and also the land use pattern details. The villages are shown in order of their permanent location code numbers. An alphabetical list of villages with their permanent location code numbers and a mandal map has been presented in the beginning of Village Directory of each mandal. This facilitates the reader in locating the mandal in which a particular village lies. The village directory now contains 23 columns as against 18 columns in the 1991 handbook. To give more information under amenities column, banking facilities such as commercial and co-operative banks, agricultural, non-agricultural and other credit societies have been included in the present statement. Similarly, a new column 'number of recreational and cultural facilities' showing cinema/video halls, sports club and stadium/auditorium has been added. In addition to the above a column showing newspapers/magazines received and name of the most important commodity manufactured in the village have been incorporated. Besides the above, the Village Directory is having 12 appendices viz.

Appendix I	:	Abstract of Educational, Medical and other amenities in the villages Mandal Parishad level.
Appendix 1A	:	Villages by number of primary schools
Appendix 1B	:	Villages by primary, middle and secondary schools
Appendix 1C	:	Villages with different sources of drinking water facilities available
Appendix II	:	Villages with 5,000 and above population which do not have one or more amenities available
Appendix IIA	:	Census Towns which do not have one or more amenities
Appendix III	:	Land utilization data in

		respect of Census Towns / Non-Municipal Towns
Appendix IV	:	Mandal Parishad-wise list of inhabited villages where no amenity other than drinking water facility is available
Appendix V	:	Summary showing number of villages not having Scheduled Castes population
Appendix VI	:	Summary showing number of villages not having Scheduled Tribes population
Appendix VII A:		List of villages according to the proportion of the Scheduled Castes to the total population by ranges.
Appendix VII B:		List of villages according to the proportion of the Scheduled Tribes to the total population by ranges.
Appendix VIII	:	Statement showing number of Girls Schools by village/ town in the district
Appendix IX	:	List of Degree Colleges by Village / Town in the District.
Appendix X	:	List of Hospitals by Village / Town in the District.
Appendix XI	:	List of Banks by Village/ Town in the District.
Appendix XII:		List of Cinema Halls by Village/ Town in the District.

It may be noted that the Appendix 1A, 1B, 1C, II, II-A, VIII, IX, X, XI and XII have been included afresh in comparison to the District Census Hand books of 1991 Census.

Columns 1 to 4 relate to the serial number, location code number, name and total area of the village. The area given under column 3 is as per the data collected from the state survey department during 1991 census and presented even for 2001 census as the department clarified that there are no changes in the area figures. Column numbers 5 and 6 provide the total population and the total number of households in the village as per 2001 census. Columns 7 to 14 list out the basic amenities available in the village such as educational; medical; drinking water; post, telegraph and telephone; commercial and co-operative banks; agricultural, non-agricultural and other credit societies; recreation and cultural facilities and communications.

The columns 14 to 18 give the details of approach to the village, nearest town & distance, power supply, news paper/magazine circulation and most important commodity manufactured in the village.

The remaining columns 19 to 23 pertain to the land use pattern in the village. The extent of forest area has been given in column 19 while in columns 20 and 23 the extent of irrigated area together with different irrigational sources, the extent of culturable waste including gaucher and groves and the area not available for cultivation such as buildings, roads and railways or under water(rivers and canals), etc., have been given. Here it is worth mentionable that the total area figures of Col. 19 to 23 may not tally with the total area of the village as shown in Col. 3 due to various reasons such as water ways, etc., which are not generally included in the land use statistics.

The land use pattern in the Village Directory conforms to the pattern of classification of land use as recommended by the Ministry of Agriculture, Government of India. The Ministry of Agriculture has recommended the maintenance of records of land use pattern under five categories viz. forests, not available for cultivation, other uncultivated lands excluding fallow lands, fallow lands and net area sown.

The concepts of various types of land use given under each of the columns 19 to 20 as given in the Village Directory schedule are reproduced below:

1. Forests (Col.19) :

These include all actually forested areas and the lands classified or administered as forests under any legal enactment dealing with forests whether State owned or private. If any portion of such land is not actually wooded but put to some agricultural use, that portion is included under the appropriate heading of cultivated or uncultivated land.

2. Cultivated area with break-up irrigated and un-irrigated (Col. 20 & 21):

This includes the land under the following three categories.

I) Net area sown :

The net area sown represents the area sown to crops counting areas sown more than once in the same year, only once.

II) Other fallow lands :

This includes all lands which were taken up for cultivation but are temporarily out of cultivation for a period of not less than one year and not more than five years. The reasons for keeping such lands fallow may be either due to poverty of the cultivators or inadequate supply of water or malarial climate or silting of canals or rivers or un-remunerative nature of farming, etc.

III) Current fallows :

This class comprises cropped areas which are kept fallow during the current year. If any seedling area is not cropped again in the same year, it is also treated as current fallows.

3. Culturable Waste (Col. 22):

This item includes the land under the following three categories.

i) Permanent pastures and other grazing lands:

These cover all grazing lands whether they are permanent pastures and meadows or not. Village common and grazing lands within forest areas are included under this head.

ii) Lands under miscellaneous tree crops and groves not included in the area sown:

Under this class is included all cultivable land which is not included under net area sown but is put to some agricultural use. Lands under casurina trees, thatching grass, bamboo bushes and other groves for fuel, etc., which are not included under 'Orchards' are classed under this category.

iii) Culturable waste:

This includes lands available for cultivation but not taken up for cultivation or abandoned after a few years for one reason or other. Such lands may be either fallow or covered with shrubs and jungles, which are not put to any use. They may be assessed or not assessed and may lie in isolated blocks or within cultivated holdings. Land once cultivated but not cultivated for five years in succession is also included in this category.

4. Area not available for cultivation (Col.23) :

This includes the land under the following two categories.

i) Land put to non-agricultural uses :

All lands occupied by buildings, roads and railways or under waters such as rivers and canals and other lands put to uses other than agricultural.

ii) Barren and uncultivable land :

This covers all barren and uncultivable land like mountains, etc., i.e. which cannot be brought under cultivation unless at a high cost. Whether such land is in isolated blocks or within cultivated holdings.

All the above particulars are based on the data received from the concerned departments like education, medical, postal electricity, etc., and also mainly from the Mandal Revenue Officers concerned.

Item on communications has been shown separately to spell in terms of availability of the public transport system. This is meant to see whether the village is served by any mode of transport such as bus or rail or waterway. It is against this back-ground that the item on approach to village has been given separately. This refers to road, etc., leading to the village and is to indicate whether the village is approachable both in fair and foul weather and whether it is inaccessible for all time or only some time in the year. Adult literacy class/centre under item on 'Education' and Primary health centre and Community health worker under item 'Medical' of Village Directory are included to indicate statistics on the Minimum Needs Programme of the Planning Commission.

Scope of Town Directory :

There are seven statements in the Town Directory, which include several particulars relating to the towns arranged as per the alphabetical order of their names. These statements are almost similar to those adopted

in 1991 census except for a few changes. During the 1991 there were six Town Directory statements besides providing a separate statement IV-A bringing out civic conditions of the notified slums in class I and II towns. In the present volume the statement IV-A of the 1991 handbook has been termed as statement-VII and the data is presented in respect of all towns having statutory bodies including un-notified slums. The column 4 of statement IV-A of the 1991 book i.e. area of the slum has been deleted in the present book duly substituting the same by giving the information - whether the slum is notified or not with a view that the local authorities are not in a position to provide exact area figures for each slum area. Further in the present statement-VII another item i.e. approximate number of households living in the slum is incorporated. The captions of the statements are as follows:

Statement I	:	Status and growth history
Statement II	:	Physical Aspects and location of town, 1999
Statement III	:	Municipal Finance, 1998-99
Statement IV	:	Civic and other Amenities, 1999
Statement V	:	Medical, Educational, Recreational and Cultural Facilities, 1999
Statement VI	:	Trade, Commerce, Industry and Banking, 1999
Statement VII	:	Civic and other Amenities in slums, 1999

The formats of Town Directory have been devised to suit the Minimum Needs Programme of the Planning Commission. To reflect this programme, the columns scheduled castes and scheduled tribes population in statement IV and Adult Literacy classes/ Centres in statement V are identical.

In case such of the amenity as Fire Fighting Service in statement IV, the Educational or Medical facility in statement V is not available in the town, the name of the nearest place and its distance from the referent town has been given. This feature is followed since 1981 census as it is necessary to identify the areas that have no specific facility in the district.

The following six places are treated as urban areas in Srikakulam District at the 2001 census.

1. Amadalavalasa
2. Ichchapuram
3. Palasa-Kasibugga
4. Rajam
5. Sompeta
6. Srikakulam

Among them, Srikakulam is a Municipal town and Amadalavalasa, Palasa-Kasibugga and Ichchapuram are Nagar Panchayats. The remaining two towns are treated as Census Towns during 2001 census. During 1991 census there were 11 towns in the district. In 2001 census 5 towns have been declassified due to strict application of criteria for treating a place as town. Srikakulam is the only town in the district treated as class I town with a population range of one lakh and above persons. The towns Amadalavalasa, Ichchapuram, Palasa-Kasibugga and Rajam fallen under class III town with a population range of 20,000 - 49,999 persons. The town Sompeta classified under class IV town with a population range of 10,000 - 19,999 persons. There are no class II, class V and class VI towns in the district.

Statement I : Status and Growth History

This statement provides basic information on civic status, population with decadal growth rate from 1901 to 2001, density for 2001 census and sex ratio from 1981 to 2001 censuses of each town besides presenting class of town, location code, name of the mandal, area in sq.kms. and number of households including houseless households returned in 2001 census.

The columns 1 and 2 relate to serial number and class, name and civic administrative status of the town. The class of town has been determined basing on the size of population as given below.

Population	Class
1,00,000 and above	I
50,000 - 99,999	II
20,000 - 49,999	III
10,000 - 19,999	IV
5,000 - 9,999	V
Below 5,000	VI

The civic administrative status of the town is indicated in brackets by abbreviated letters like 'MC' for Municipal Corporation and 'NP' for Nagar Panchayat. The location code number under Col.3 for the town was framed to follow the alphabetical order of the towns in the district. This also facilitates easy location of the town in the map. After location code the Col. 4-7 indicate name of mandal, name of mandal prajaparishad, area of the town in sq. kms. And number of households including houseless households recorded in 2001 census. The population of the town with decadal growth rate from 1901 census to 2001 census is given in Col. 8-18. The column 19 shows the density of population and column 20 to 22 give the sex ratio recorded during 1981 to 2001 censuses. The sex ratio defined here is number of females per 1,000 males.

Statement II: Physical aspects and location of towns, 1999.

This statement contains 13 columns and depicts physical aspects and location of towns in the district. Column numbers 1 and 2 relate to serial number and class, name and civic status of the town. The physical aspects such as rainfall in millimetres maximum and minimum temperature in centigrade have been shown in columns 3 to 5 by taking average for the last ten years i.e. from 1990 to 1999. Ichchapuram has recorded highest rainfall of 1829.8mm followed by Palasa-Kasibugga with 1705.2 mm, Sompeta with 1560.6 mm and Amadalavalasa with 1321.9 mm. The remaining two towns i.e Rajam and Srikakulam have recorded low rainfall of 1123 mm and 1033 mm respectively. In respect of maximum and minimum average temperature, the town Ichchapuram has recorded highest with a maximum temperature of 48.7o C and minimum temperature 22.5o C followed by Amadalavalasa with 36°C maximum and 29°C minimum and Srikakulam with 31°C maximum and 23.4°C minimum temperature. The temperature details in respect of Palasa-Kasibugga, Rajam and Sompeta are with maximum 31.0°C and minimum 23.4°C The column 6 to 13 give the details of name and road distance in kms. from the referent town to state, district and mandal headquarters, nearest city with population of one lakh and more the nearest city with population of five lakhs and above railway station, bus route and navigable river within 10 kms. distance. The district headquarters Srikakulam is at a distance of 840 kms. from the state headquarters, Hyderabad. Similarly all the other towns are also above 800 kms. range from the state headquarters. For the towns Ichchapuram, Palasa-Kasibugga and Sompeta the nearest city with population of one lakh and more is Srikakulam. For the towns Amadalavalasa, Rajam and Srikakulam the nearest city with population of one lakh and more is Vizianagaram. For all the towns in the district, the nearest city with population of five lakhs and more is Visakhapatnam. The towns Ichchapuram, Palasa-Kasibugga, Sompeta and Srikakulam are having railway station. The people at Amadalavalasa have to travel 13 kms to have railway facility at Srikakulam. Similarly for Rajam town, Chepurupalle railway station is at a distance of 18 kms. All the towns in the district are having bus routes. In the towns of Amadalavalasa and Ichchapuram the navigable rivers Vamsadhara and Bahuda are flowing.

Statement III: Municipal Finance, 1998-99.

The details for inclusion in this statement were obtained from the respective statutory bodies. In the statement there are 16 columns. Column 1 to 2 relate to serial number, name and class of town with civic administration status. Columns 3 to 9 show the receipts of the local body under various sub-heads and columns 10 to 16 give the details of expenditure incurred on general administration, public safety, public health and convenience, public works and institutions, etc.

Among the six towns in the district Srikakulam is the biggest town having municipality. The towns Amadalavalasa, Ichchapuram and Palasa-Kasibugga are Nagar panchayats and the other two small towns viz. Rajam and Sompeta are census towns.

Srikakulam derived finances to a tune of Rs. 6.75 crores during the year 1998-99, while the expenditure during the same period is Rs.2.86 crores which shows a surplus of Rs. 3.89 crores. The next major town in the district is Amadalavalasa Nagar panchayat having an income of Rs. 2.08 crores and expenditure of Rs. 1.54 crores. The Ichchapuram Nagar panchayat had a total receipt of Rs. 1.80 crores and spent an amount of Rs. 1.75 crores whereas the Nagar panchayat Palasa-Kasibugga had an income of Rs. 59.57 lakhs and spent an amount of Rs. 58.60 lakhs. The other two small census towns viz. Rajam and Sompeta had an income of Rs. 26.80 lakhs and Rs. 32.18 lakhs and spent Rs. 17.69 lakhs and Rs. 29.91 lakhs respectively. For all the towns in the district the major source of income is government grants. Under expenditure, the general administration, public safety and public institutions claimed much share for almost all towns in the district.

Statement IV : Civic and other Amenities, 1999.

The title itself reveals that, this statement deals with the facilities provided to the people in the urban areas of the district.

This statement contains 20 columns. Column 1 & 2 relate to serial number, class and name of town and civic administration status of the town respectively. Column 3 gives population of the town whereas the column number 4 and 5 gives population of SC and ST as per 2001 census. The lengths of pucca and kutcha roads are recorded separately for each town in column 6. The column 7 shows the details of sewerage systems prevailing in the referent town. The number of latrines with different types is shown in columns 8 to 11. Column 12 is provided separately to show method of disposal of night soil. The source of protected water supply and the system of storage with capacity are recorded under column 13 and 14. Column 15 shows the availability of fire fighting services. In case if this service is not available in the town, the name of the nearest town along with distance where available to be mentioned under this column. The columns 16 to 20 relate to different types of electrical connection in number.

All the towns are having pucca roads. The towns Amadalavalasa, Ichchapuram, Palasa-Kasibugga and Srikakulam possess kutcha roads also. The open surface drainage system of sewerage is prevailing in all the towns of the district. All the houses in the towns of Srikakulam district possess latrines and the method of disposal of night soil in all the towns except Amadalavalasa the basket method of disposal of night soil is still prevailing. In certain localities of Srikakulam municipality pit system method is also prevailing. Similarly in Ichchapuram in certain localities basket method is practiced. In the towns of Ichchapuram, Rajam and Srikakulam protected water is supplied through tube well. Whereas in the towns of Amadalavalasa and Sompeta water is supplied through taps The people in Palasa-Kasibugga have to depend on wells for protected water. All the towns in Srikakulam district are having fire fighting service. A good number of domestic, industrial, commercial, road lighting and other electrical connections is existing in all the towns of the district.

Statement V : Medical, Educational, Recreational and Cultural facilities, 1999

In this statement the availability of medical, educational, recreational and cultural facilities are presented with reference to the population of 2001 Census. This statement is containing 20 columns. Column 1, 2 and 3 relate to serial number, class and name of the town and the population recorded during 2001 census respectively. The columns 4 and 5 show about the availability of different hospitals, dispensaries, T.B. clinics, etc., together with beds strength. Columns 6 to 15 relate to educational facilities such as various schools/colleges at all levels including Medical, Engineering, Polytechnic, Technical Institutions and adult literacy centres. The column 16 is meant for working women's hostels with number of seats. The number of recreational and cultural facilities such as Stadia, Cinema, Auditorium, Community halls, Public Libraries including reading rooms available in the towns is recorded in columns 17 to 20.

Amadalavalasa is having 11 hospitals and 17 dispensaries with a bed strength of 30 to cater medical needs. In Ichchapuram town there is one hospital and a family welfare center with a bed strength of 30 whereas in Palasa-Kasibugga there are one hospital,

five nursing homes are existing with 50 beds. Rajam town is having one hospital, one dispensary, three nursing homes and three health centres, but the bed strength is very meager with 6 beds. In Sompeta there are seven hospitals, one dispensary and three nursing homes with 30 beds. The district headquarters Srikakulam is having 5 hospitals, 19 dispensaries, 2 health centres and 7 nursing homes with 529 beds for giving good medical attention the urban population have to run either to district headquarters or to Visakhapatnam.

All the towns except Sompeta are having educational facilities upto degree level. The students of Sompeta have to go to nearby village Baruva situated at a distance of 8 kms. for degree college education The district is not having medical college education, as such the people have to go to Visakhapatnam for medicine studies. For polytechnic education, no town is having such colleges except Srikakulam. All the towns except Sompeta are having typewriting and short-hand institutes. The people of Sompeta have to go to either divisional headquarters Tekkali (62 kms.) or to district headquarters Srikakulam (128 kms.) for technical education. Every town in the district is having primary, middle, secondary, higher secondary or intermediate or junior college level education facility besides having number of adult literacy centres. Only one working women's hostel is existing at Srikakulam. The main source of recreational and cultural facilities of urban population in the district is cinema halls. In Srikakulam town there are 22 Auditoria/drama/community halls. All the towns are having public latrines.

Statement VI : Trade, Commerce, Industry and Banking, 1999

This statement deals with economic activities in the urban areas with 11 columns. Column 1 and 2 are serial number and class and name of the town. The columns 3 to 5 give the details of three most important commodities exported and the columns 6 to 8 show the three most important commodities manufactured. The commercial banks, number of agricultural credit societies and the number of non-agricultural credit societies are furnished in the columns 9 to 11.

The urban population of the district export items like jute, dry fish, cashew, paddy, groundnut, prawns, fish and other sea foods. The items of rice, sugar, coconut kernel, cashew, jute twine, sea-foods are manufactured in the urban areas of the town. All the towns in the district are having a good number of commercial banks, agricultural and non-agricultural societies to meet the economic needs of the peoples. Amadalavalasa is the only town when there are no agricultural credit societies.

Statement VII : Civic and other amenities in Slums, 1999

This statement gives information on civic and other amenities provided in all slums whether notified or not. Keeping in view of slums problem in urban areas, during 1981 census this statement was first introduced limiting the details to class I and class II towns. The same pattern was adopted during 1991 census also.

Though the magnitude of slum problem is greater in class I and class II towns, it is accepted that they are associated with smaller towns also. Hence the information on slums has been presented in this statement in respect of all towns having statutory bodies.

The statement on slums contain 17 columns. The columns 1 to 4 show the serial number, class and name of town, name of the slum and whether the slum is notified or not respectively. Column 5 and 6 give the details of approximate number of households and population of the slum during 1999. The length of the paved roads in the slum has been shown in kms. under column 7. The columns 8 to 13 present system of sewerage, number of latrines both private and community and the method of disposal of night soil. The column 14 is meant for showing number of tap points/public hydrants. The last 3 columns i.e columns 15 to 17 relate to number of electric connections under domestic, road lighting points and others.

In Srikakulam district all the towns except Rajam are having slum areas.

In Amadalavalasa Nagar panchayat there are 36 unnotified slums with an estimated 2,811 households

having approximate population of 18,154 persons as on 1999. The total length of paved roads in the slum area is 28 kms. In this notified slum the prevailing system of sewerage is open surface drainage. The slum is having electrical connection with 36 road lighting points and 9 others.

There are 26 notified slums in Ichchapuram Nagar panchayat having roughly 3,473 households with an approximate population of 17,378 persons during 1999. The length of paved roads in the slum is 23 kms. The system of sewerage is open surface drainage. In the slum areas of Ichchapuram there are 1,121 private and 2 community latrines are existing. The basket method of disposal of night soil is being practiced in the slums. There are 103 tap points installed for supply of protected water. As regards electrical connections there are 1,892 domestic, 278 road lights and 51 other electrical connections are existing.

In Palasa-Kasibugga there are 41 unnotified slums and with an approximate 3,376 households having a population of 16,879 persons as on 1999. 32 kms. paved road is there in the slum areas. 1,207 private latrines are existing in these slums. The pit system of disposal of night soil is prevailing in the slum areas of Palasa-Kasibugga. These slums are electrified and having good number of domestic, road lighting points and other connections.

There are 56 notified slums in Srikakulam Municipality with an estimated 7,928 households having approximate population of 36,748 persons. The length of paved road in the slums is 20 kms. The prevailing system of sewerage is open surface drainage. There are 3,834 water borne, 1,020 others and 19 community latrines are existing. The method of disposal of night soil in these slum areas is pit system. The protected water is supplied through 110 tap points in the slums. 3,834 domestic and 1,046 road lighting points are existing in these slums.

Section I - Village Directory

(a) Note explaining the abbreviations used in Village Directory :

The "Village Directory" is one of the traditional compilations of the Census. It gives the list of villages, their location numbers, their area, population, number of households, amenities such as educational, medical, drinking water, post and telegraph, commercial and co-operative banks, agricultural non-agricultural and other credit societies, recreational and cultural facilities, communication, approach to village, nearest town with a distance, power supply, availability of newspaper and magazines, most important commodity manufactured and land use of each village.

Village is a statutory recognized unit having a definite boundary and separate land records. In case, a complete village is treated as an outgrowth of urban agglomeration, data on amenities for that village, have not been given in the Village Directory but shown along with the urban component. The villages which are consider as a Census Town , the amenities data are shown in the Town Directory. For those villages which have partly merged in an outgrowth of U.A., the amenities data are shown in the Village Directory for that particular village.

The 'un-inhabited' villages (villages with no population) have been indicated as such after furnishing details in columns 1 to 3 i.e., Serial number, Name of village & location code number and area of the village against column no. 4 to 18. The land use data for such villages are shown in col. 19 to 23.

The Village Directory format has 23 columns and the details given under each column are for the village are as follows:-

Columns 1 : Serial Number

Self explanatory. All the villages within the Mandal Parishad are presented serially in the ascending order of their location code number.

Columns 2 : Name and Location Code Number of village

The name and location code number of the village are shown against these columns. This also includes the forest and uninhabited villages.

Column 3 : Area of the village

The area of the villages in hectares are given. Wherever the area figures was not furnished by the concerned department the column is left blank.

Column 4 : Total population

The total population of the village as per 2001 Census is given against this column.

Column 5 : Number of households

The number of households as per 2001 Census is given in this column.

Amenities :

In column 6 to 23, availability in respect of different amenities such as education, medical, drinking water, post, telegraph, banks, credit societies, communication, power, approach road etc. in each village has been depicted with appropriate codes against the column concerned. Wherever the amenities are not available in the village, a dash (-) is shown in the column and next to it in brackets the distance in broad ranges viz.< 5 kms., 5-10 kms. and 10+ kms of the nearest place where the facility is available is given. Column wise details are given below

Column 6 : Educational

Classes upto class V included in Primary School. This will include nursery school, kindergarten school. Pre-basic school, pre-primary school, junior basic school upto class V.

Classes from VI to VII are included in the middle school.

Classes from VIII and X included in Higher secondary school. Classes XI and XII are included in senior secondary school.

In case of composite schools like middle school with primary school or secondary school with middle school, these are also included in the number of primary and middle schools, respectively.

Accordingly any of the following types of institutions if exists within the village is shown as per codes given below :

(i)	Primary School	P
(ii)	Middle School	M
(iii)	Secondary School	S
(iv)	Senior Secondary School	PUC/JC
(v)	College	C
(vi)	Industrial School	I
(vii)	Training School	Tr
(viii)	Adult literacy class/centre	AC
(ix)	Others (specify) e.g. Sanskrit Pathshala, Senior basic school, Navodaya Vidyalaya, Makhtab, etc.	O

More than one institution of a type in the village is indicated by the number within brackets against the abbreviation, e.g. P(3), M(4), etc.

Column 7 : Medical

Availability of medical facility within the village is indicated by following codes :

(i)	Allopathic Hospital	H
	Ayurvedic Hospital	HA
	Unani Hospital	HU
	Homeopathic Hospital	H Hom
(ii)	Allopathic Dispensary	D
	Ayurvedic Dispensary	DA
	Unani Dispensary	DU
	Homeopathic Dispensary	D Hom
(iii)	Maternity & Child Welfare	MCW
(iv)	Maternity Home	MH
(v)	Child Welfare Centre	CWC
(vi)	Health Centre	HC
(vii)	Primary Health Centre	PHC
(viii)	Primary Health Sub-Centre	PHS
(ix)	Family Welfare Centre	FWC
(x)	T.B. Clinic	TB
(xi)	Nursing Home	NH
(xii)	Registered Private Medical Practitioner	RMP
(xiii)	Subsidised Medical Practitioner	SMP
(xiv)	Community Health Worker	CHW
(xv)	Others	O

More than one institution of a type in the village is indicated by the number within brackets against the abbreviations, e.g. H(3), D(4), etc.

Column 8 : Drinking Water

The type of the drinking water supply sources available within the village are indicated by codes as follows :

(i)	Tap Water	T
(ii)	Well Water	W
(iii)	Tank Water	TK
(iv)	Tubewell Water	TW
(v)	Handpump	HP
(vi)	River Water	R
(vii)	Canal	C
(viii)	Lake	L
(ix)	Spring	S
(x)	Others	O

Column 9 : Post, Telegraph and Telephone

It is indicated by codes as shown below whether within the village exists the following amenities:

(i)	Post Office	PO
(ii)	Telegraph Office	TO
(iii)	Post & Telegraph Office	PTO
(iv)	Telephone Connection	PH

Column 10: Commercial and Co-operative Banks

If the village is served by any banking service, commercial bank, co-operative bank etc. the same is indicated in codes mentioned below along with the number of banks in brackets. If not available the distance of nearest place where the facility exist is given:

(i)	Commercial Bank	CM
(ii)	Co-operative Bank	CP

Column 11: Credit Societies

If the village enjoys the services of Credit Societies i.e. Agricultural Credit Societies, Non Agricultural Credit Society or Other Credit Societies, the same is indicated in codes mentioned below along with the number of such societies in brackets. In case the facility is not available within the village the distance of the nearest place where such facility exist is given:

(i)	Agricultural Credit Society	ACS
(ii)	Non- Agricultural Credit Society	NCS
(iii)	Other Credit Society	OCS

Column 12 : Recreational and cultural facilities

If facilities such as Cinema/Video hall, Sports Club, Stadium/Auditorium is available in the village. The same is recorded in these columns. If not available the particulars of the nearest place with the facility is recorded. The information is indicated in codes mentioned below along with the number of such facilities in brackets:

(i)	Cinema / Video Hall	CV
(ii)	Sports Club	SP
(iii)	Stadium / Auditorium	ST

Column 13 : Communications

If the village is served by any mode of public / private transport like Bus, Railway station or Navigable water ways they are to be mentioned as follows:

(i)	Bus	BS
(ii)	Railway Station	RS
(iii)	Navigable Waterway	NW

Column 14 : Approach to village

Approach to village refers to the state of road leading to village. The approach to the village is indicated in following codes :

(i)	Paved Road	PR
(ii)	Mud road	MR
(iii)	Foot path	FP
(iv)	Navigable River	NR
(v)	Navigable Canal	NC
(vi)	Navigable waterways other than River, Canal	NW

Column 15 : Nearest Town and distance

The distance is given in kilometres in brackets against the name of the town nearest to the village.

Column 16 : Power supply

Availability of Power Supply in the village, whatever may be the form of its use is given by using following codes :

(i)	Electricity for domestic use	ED
(ii)	Electricity for agricultural use	EAG
(iii)	Electricity for other purposes	EO
(iv)	Electricity for all purposes	EA

Column 17 : News Paper / Magazine

If village receives any News Paper/Magazines the same is noted in this column using following codes

(i)	News Paper	N
(ii)	Magazine	M

Column 18 : Most important commodities manufactured

The name of three most important commodities manufactured in the village is recorded against this column.

Column 19 to 23 : Land use i.e. area under dif ferent types of land use

Land use data maintained by the State/ UT Govts. are furnished against these columns. The data concerning area under Forest, Irrigated land (by source), Un-irrigated land, Culturable waste and Area not available for cultivation in the village are shown against these columns. The area figures are given in hectare(s) up to one decimal. Dash '-' is recorded wherever the information is not made available by the concerned department. The codes used for different types of irrigation facilities available in the village are indicated below:

(i)	Government Canal	GC
(ii)	Private Canal	PC
(iii)	Well (without electricity)	W
(iv)	Well (with electricity)	WE
(v)	Tubewell(without electricity)	TW
(vi)	Tubewell(with electricity)	TWE
(vii)	Tank	TK
(viii)	River	R
(ix)	Lake	L
(x)	Waterfall	WF
(xi)	Others	O
(xii)	Total	T

(b) List of Villages merged in Towns and Out Growths at 2001 Census

(i) List of Revenue Villages that have been fully merged in Towns and Outgrowths at 2001 Census

Serial number	Name of mandal	Name of village	Name of the Municipality/ Nagar Panchayat/ Census Town in which the village is merged
1	2	3	4
1	Palasa	Palasa	Palasa Kasibugga (NP)

Section II - Town Directory

(a) Note explaining the abbreviations used in the town directory

Town Directory statements (I to VII)

Statement I : Status and Growth History

Column (2) : Class, name and civic administration status of town :

Class has been introduced to facilitate analysis of town directory data at the state and all India levels. It is presented according to 2001 Census Population of the town as follows :

Population	Class
100,000 and above	I
50,000 - 99,999	II
20,000 - 49,999	III
10,000 - 19,999	IV
5,000 - 9,999	V
Below 5,000	VI

Town with a population of one hundred thousand (1,00,000)and above is treated as a city.

The civic administration status of the towns is indicated within bracket against the name of the town. The following abbreviations are used to denote civic status of town.

(I)	Municipal Corporation	M. Corp.
(II)	Municipal Committee	MC
(III)	Municipal Council	M Cl
(IV)	City Municipal Council	CMC
(V)	Town Municipal Council	TMC
(VI)	Municipal Board	MB
(VII)	Municipality	M
(VIII)	Cantonment Board/Cantonment	CB
(IX)	Notified Area	NA
(X)	Notified Town	NT
(XI)	Notified Area Committee/ Notified Area Council	NAC
(XII)	Notified Town Area	NTA
(XIII)	Industrial Notified Area	INA
(XIV)	Industrial Township	ITS
(XV)	Township	TS
(XVI)	Town Panchayat	TP
(XVII)	Nagar Panchayat	NP
(XVIII)	Town Committee/ Town Area Committee	TC
(XIX)	Small Town Committee	ST
(XX)	Estate office	EO
(XXI)	Gram Panchayat	GP
(XXII)	Census Town	CT

Others columns need no comments.

Statement II - Physical Aspects and Location of towns, 1999

Column 3 to 5 : Physical Aspects

In this columns the Rainfall and Maximum & Minimum Temperature of the town is recorded.

Column 6, 7 and 8 :

Name of the State headquarters, District headquarters and Sub-Divisional headquarters with distance from the referent town in kilometers, is to be recorded respectively. If the names mentioned in these columns are the same as the referent town itself, the distance is recorded as (0) zero.

Column 9& 10 :

Name of the nearest city with one lakh and more and five lakhs and more population are recorded.

Column 11, 12 and 13 :

If referent town enjoys the facility of railway station, bus route facility or navigable river/canal. Its name is to be mentioned. If not available, then the name of nearest place with distance, where such

facility exists is to be mentioned.

Statement III : Municipal Finance 1998 - 1999

Item-wise amount of receipt and expenditure in thousand rupees, relating to municipal finance of the town for the year 1998-99 is to be recorded.

Statement IV : Civic and Other amenities, 1999

Column (1 to 5) : Self explanatory.

Column (6) : Road length (in kms.)

Information about kutcha / pucca road is to be recorded separately for the roads within the limits of the referent town.

(i)	Pucca Road	PR
(ii)	Kutcha Road	KR

Column (7) : System of Sewerage

Generally, by sewerage system is implied the network of mains and branches of underground conduits for the conveyance of sewerage to the point of disposal. Sewers that carry only household and industrial wastes are called separate sewers, those that carry storm water from roofs, streets and other surface are known as storm water drains, while those carrying both sewage and storm water are called combined sewers.

The codes used for different types of drainage system are as follows :

(i)	Sewer	S
(ii)	Open Surface Drains	OSD
(iii)	Box Surface Drains	BSD
(iv)	Sylk Drains	SD
(v)	Cesspool method	CP
(vi)	Pit System	Pt
(vii)	Others	O

Column 8 to 11 : Number of latrines

Number of various types of latrines both Public and Private are given in these columns.

Column 12 : Method of disposal of night soil

The various prevalent method of disposal of night soil are given below with codes :

Head Loads	HL
Basket	B
Wheel Barrows	WB
Septic Tank	ST
Pit System	Pt
Sewerage	S
Others	O

Column 13 and 14 : Water supply

Source and capacity of storage system. The following codes are used in these columns:

Column 13:

(i)	Tap water	T
(ii)	Tube-well water	TW
(iii)	Tank Water	TK
(iv)	Well water	W

Column 14:

(v)	Over Head Tank	OHT
(vi)	Service Reservoir	SR
(vii)	River Infiltration Gallery	RIG
(viii)	Bore Well Pumping System	BWP
(ix)	Pressure Tank	PT

The information on major source of water supply are given in column 13 and the storage capacity against each in kilo-litres (in bracket) are presented in column 14.

Column 15 : Fire Fighting Service

In case the fire fighting service is available in the referent town 'yes' is recorded. If the facility is not available within the town. The name of the nearest place having this facility with its distance from the referent town has been recorded.

Column 16 to 20 : Electrification (Number of connections)

Different types of electric connections have been shown in these columns, i.e. Domestic, Industrial, Commercial, Road lighting (points) & others.

Statement V : Medical, Educational, Recreational and Cultural Facilities, 1999

Column 1 to 3 : Self explanatory.

Column 4 & 5 :

The data covers all such medical institutions

run by or aided by Government/Semi Government/ Local bodies and Charitable institutions or Social agencies like the Missionaries. Where the family planning centres are attached to hospitals or maternity and child welfare centres or Primary Health Centres, may be treated as independent units and counted separately using following codes :

(i)	Hospital	H
(ii)	Dispensary	D
(iii)	Health Centre	HC
(iv)	Family Welfare Centre	FWC
(v)	T.B. Clinic	TB
(vi)	Nursing Home	NH
(vii)	Others	O

In case of more than one institutions of any type, it is indicated within brackets the number of such institution (s) e.g. D(3), NH(8), etc. The institutions have further been distinguished by providing additional codes within the bracket as given below :

Ayurvedic	A
Unani	U
Homoeopathic	Hom

Column 6 to 9 :

The codes used for these columns are as follows:

(i)	Arts only	A
(ii)	Science only	S
(iii)	Commerce only	C
(iv)	Arts & Science only	AS
(v)	Arts & Commerce only	AC
(vi)	Combined for all categories-Arts, Science and Commerce	ASC
(vii)	Law	L
(viii)	University	U
(ix)	Others	O

Column 10 : Recognized shorthand, typewriting and vocational training institutes

"Recognised" should mean recognised by some statutory authority, like education department, commerce department, labour department etc. of the government or semi government or autonomous bodies, public sector undertakings etc.

The following codes are used :

(i)	Vocational Training Institute	VT
(ii)	Shorthand	SH
(iii)	Typewriting	Type
(iv)	Shorthand & Typewriting	SH Type
(v)	Others	O

The vocational institutions like - Applied Art/Painting college, Pharmacy college, B. Ed. College, Teacher's Training Institute, Music / Dance School, Nursing School etc. are covered under 'Others'.

Column 11 to 14:

Higher Secondary/Intermediate/Senior Secondary/ PUC/Junior College level, Secondary/Matriculation, Middle Schools/ Junior Secondary and Primary Schools.

School up to class V are treated as Primary or elementary schools. These include Nursery schools, Kindergarten schools, Pre-Primary schools, Junior Basic schools upto class V and Primary schools upto class IV.

Schools upto VIII are considered as Middle school or Junior Secondary.

Schools upto class X are considered as Matriculation or Secondary schools.

Schools upto XI or XII classes are considered as Higher Secondary / Intermediate / Pre University / Junior College etc. This would cover 10+2 classes whether held in schools or college.

If there are composite schools like middle schools with primary classes or Secondary schools with Middle classes, these are also included in the number of Primary and Middle schools, respectively. For example, if in a town, there are two Primary Schools and one Middle school with Primary classes, the number of Primary schools in the town is given as three and that of Middle schools as one though there are only three educational institutions.

If there are more institutions of a type in the town, the number is indicated within bracket along with the abbreviation, e.g. P(4), M(3).

Column 15 : Adult literacy class/centres

This column has been introduced keeping in view the Minimum Needs Programme of the Planning Commission. There are number of Adult Education Centres which are included in these columns.

If an educational facility is not available in the town, the name of the nearest place and its distance in kilometres from the town where the facility is available is mentioned.

Column 16 : Working Women's hostels with number of seats

The number of working women's hostel if available in the referent town is mentioned with number of seats. If the facility is not available in the town the name of nearest place with distance where the facility is available is recorded.

Column 17 to 19 : Recreational and Cultural Facilities

Stadium, Cinema, Auditorium/Drama/Community Hall are covered under recreational & cultural facilities. The particulars of permanent recreational facilities are considered for these columns.

Column 20 : Public Libraries, Reading Rooms

Number of public libraries and reading rooms available in the referent town are recorded in codes as follows :

(i) Public Library	PL
(ii) Reading room	RR

Statement VI : Trade, Commerce, Industry and Banking, 1999

Column 3 to 8 :

Name of three most important commodities exported and names of three most important commodities manufactured in the town are recorded.

Column 9 : Number of Banks

Number of Banks available in the referent town both Commercial and Co-operative banks are recorded against this column.

Column 10 & 11 :

Number of Agricultural Credit Societies and Non Agricultural Credit Societies

The total number of Agricultural Credit Societies and Non Agricultural Credit Societies in the referent town are recorded against these columns.

Statement VII : Civic and other Amenities in Slums, 1999

This is the statement on civic and other amenities in all slums whether notified or not and for all towns having statutory bodies, like municipality, Municipal Corporation, Town area committee etc.

Brief note on Primary Census Abstract

The first census of the third millennium and twenty first century the Census of India, 2001 was the 14th continuous and uninterrupted Indian census since 1872. Thus, 2001 Census will provide data on population and its characteristics marking transition from one century and millennium to another.

The gigantic operation of Population Enumeration (considered by many to be the single largest and complex peace time administrative exercise in the world) was made possible due to the door to door universal canvassing of the Household Schedule by about 2 million enumerators and supervisors covering 593 districts, 5,463 sub-districts, 5,161 towns and 638,588 villages. The comprehensive Household Schedule which replaced the individual slip had three parts and two sides A and B. Part I contained the Location Particulars; Part II related to the Individual Particulars and Part III contained questions for Household engaged in Cultivation/Plantation. The part II of the Household Schedule had 39 columns and 23 questions all of which were universally canvassed and no sampling was resorted to during enumeration.

Data Processing

A quantum leap was made in the technology front while processing the Census 2001 data both for Houselisting and Population Enumeration. The Census schedules for both the phases were scanned through high speed scanners in fifteen data centers across the country and hand-written data from the schedules were converted into digitized form through Intelligent Character Reading (ICR) software for creation of ASCII records for further processing. The designing and formatting of the Household Schedule had to be done very carefully using specialized software so as to ensure uniformity, which was an essential pre-requisite for scanning. The selection of appropriate state-of-art technology in data processing has made it possible to produce all the Houselisting as well as Population Enumeration tables on full count basis for the first time in the history of Census. For Census 2001, about 202 million schedules consisting of about 1,028 million records were scanned and processed within a span of only 10 months starting October, 2002.

Task Force on Quality Assurance

After the data is processed, it is expedient on the part of the data producing agency to satisfy itself about its quality before putting the same in public domain. This has to be done mainly through the process of internal consistency, comparison with similar data in the past and also through validation with likewise data if available, from external sources. Quite often the local knowledge and perception has to be brought into play to understand both the existing and the new emerging trends of population distribution and characteristics. The other very important aspect of the data quality is to ensure complete coverage of all geographical areas especially for the population enumeration phase where the data is disseminated right up to the village level in the rural areas and the ward level in the urban areas. Thus ensuring the complete coverage and correct geographical linkage of each enumeration block was one of the major planks of the quality control, specially for small area population statistics.

A very comprehensive check and edit mechanism was put in place to objectively examine the preliminary Census 2001 Population Enumeration results and finally clear them for use. The responsibility of the final clearance of data was with the Task Force on Quality Assurance (TFQA), headed by the Registrar General and Census Commissioner, India. The other members of the TFQA were the Heads and senior officers of the Census Division, Data Processing Division, Map Division, Demography Division and Social Studies Division. The Directors of Census Operations were co-opted as members whenever the TFQA discussed the data for their States/Union territories. The Directors and their senior officers were required to make detailed presentations of data for their own state both in respect to the

quality and the coverage and only after the full possible cleared.

There has been a major departure in Census 2001 from the past in respect of the procedure followed for finalization of the Scheduled Castes and the Scheduled Tribes population. In the earlier censuses, the total Scheduled Castes and Scheduled Tribes populations were finalized at the time of the manual compilation of the Primary Census Abstracts (PCA) at the Regional Tabulation Offices which were specially set up for this purpose. The individual Scheduled Castes and the Scheduled Tribes population for each state was finalized much later based on manual coding done by the coders. In 2001 Census, each individual Scheduled Caste and the Scheduled Tribe have been coded directly on the computers by the Data Entry Operators through a process known as Computer Assisted Coding (CAC) and taken up along with the processing of PCA data. The CAC process involves pulling down, from the relevant dictionary of the Scheduled Castes and the Scheduled Tribes, on the computer screen and coding from the dictionary by referring to the image of the specific individual entry in the Household Schedule appearing on the screen. The CAC of the response on Religion wherever required, was also undertaken along with the processing of PCA. This is because the Scheduled Castes status had to be determined in relation to the religion of the individual. Two Special Task Forces, one on Religion and the other on Scheduled Castes/ Scheduled Tribes were constituted for scrutiny and appropriate classification of these responses.

The main task of the Special Task Force on Religion was to appropriately merge or group the new responses encountered and code it into the appropriate religious community based on available literature and local knowledge. The Special Task Force on Scheduled Castes and Scheduled Tribes examined the different Scheduled Castes and Scheduled Tribes entries encoun-tered and classified these into appropriate category of the Scheduled Castes or the Scheduled Tribes principally based on the Presidential Notification and the available literature. Thus a very systematic and scientific mechanism was operationalised to firm up the individual religion and the individual Scheduled Castes/Tribes returns. The Scheduled Castes and the Scheduled Tribes population in 2001 Census, is thus being finalized by aggregating the population data for individual Scheduled Castes and the Scheduled Tribes at appropriate geographical levels.

The entire work relating to the data validation and scrutiny was completed by all the States/Union Territories under the overall supervision and monitoring of the Census Division of the Office of the Registrar General, India with active cooperation and support of the Social Studies Division, Data Processing Division, Data Dissemination Division and Map Division.

Primary Census Abstract

The Primary Census Abstract which is yet another important publication of 2001 Census. Population gives basic information on Area, Total Households, Total population, Scheduled Castes, Scheduled Tribes population, Population in the age group 0-6, Literates, Main workers and Marginal workers classified by the four broad industrial categories, namely, (i) Cultivators, (ii) Agricultural laborers, (iii) Household Industry Workers, and (iv) Other workers and also Non-workers. The characteristics of the Total Population includes Scheduled Castes, Scheduled Tribes, Institu-tional and Houseless population and are presented by sex and rural-urban residence. This data is presented at different levels, namely, India, States/Union territories, Districts and Cities, Urban Agglomerations (Population 1,00,000 and above) in three different tables. In addition, the Appendix of said publication provides Houseless and Institutional Households and their population by residence and sex for 2001 for India, State and Union territory.

Apart from the India and State/Union Territory volumes for Primary Census Abstract, the District Census Handbook contains District Primary Census Abstract, Appendix to District Primary Census Abstract, Primary Census Abstract for Scheduled Castes, Primary Census Abstract for Scheduled Tribes, Village Primary Census Abstract and Urban Primary Census Abstract of the concerned district in the state.

It was for the first time at the 1981 Census that the Primary Census Abstract (PCA) was brought out for the Scheduled Castes and the Scheduled Tribes separately on the pattern of General Primary Census Abstract. This practice was continued in 1991 also. In the 1961 and 1971 Censuses, such data were made available in Table C-VIII-Social and Cultural table and to some extent in the series 'Special Tables for

Scheduled Castes/Scheduled Tribes'.

The format of Primary Census Abstract has been restructured slightly in the 2001 Census as compared to that of 1991 Census. The nine-fold industrial classification of main workers given in the Primary Census Abstract of 1991 Census has been discontinued and its place, four-fold industrial classification of both 'main workers' and 'marginal workers' are included. In 1981 census only main workers were presented in to four categories. One of the novel features of the primary census abstract of 1991 census was the presentation of data of the population of age group 0-6 is continued in 2001 Census also. This will help the data users in better analysis and understanding of this literacy data.

Level of presentation in District Census Handbooks :

The Primary Census Abstract data in different PCAs are presented at different levels. The level of presentation of Primary Census Abstracts are as under:

	Name of the Primary Census Abstract	Level of presentation
1.	District Primary Census Abstract	District/Mandal Parishad/UA/City/Town
2.	Primary Census Abstract for Scheduled Castes	District/Mandal Parishad/Town
3.	Primary Census Abstract for Scheduled Tribes	District/Mandal Parishad/Town
4.	Village Primary Census Abstract	Mandal Parishad/Village wise
5.	Urban Primary Census Abstract	Town/Ward level

The PCA Data for villages was presented Mandal Parishad wise for the first time in 1991 Census. This practice is continued in 2001 Census also. The data for each Mandal Parishad is presented both for rural and urban areas separately. All the villages within the Mandal Parishad constitute the rural portion and the Census Towns and Outgrowths are shown under the urban portion of the Mandal Parishad. In case a Mandal Parishad is spread over two or more districts, than portion which falls within the district is presented, the data pertaining to remaining portion of the Mandal Parishad is presented in the concerned District Census Handbook. The data in the Urban Primary Census Abstract for each town as well as for town with outgrowths in the district are presented. The data for all the wards and the outgrowths of the town(s) are also presented separately below the concerned town(s).

The District Primary Census Abstract is presented in 59 columns. The Primary Census Abstract for Scheduled Castes and Primary Census Abstract for Scheduled Tribes are presented in 52 columns. The Village Primary Census Abstract and Urban Primary Census Abstract are presented in 58 columns.

The concepts and definitions used in the column heading are explained under the sub heading 'Census Concepts' in the Analytical Note. The term 'Total Population' includes the Scheduled Castes, the Scheduled Tribes, the Institutional and the Houseless populations. The explanation regarding area figures presented at various level in the Primary Census Abstracts are as follows:

Area Figures

The area figures supplied by local revenue authorities of the district in respect of mandals, Police Stations and by the local bodies in respect of towns are given in square kilometers. The area figures of the villages supplied by the Mandal Revenue Officers in acres have been converted and shown in hectares. The area figures of the Mandal Parishad is the total of the village areas coming under each Mandal Parishad. The area figures for the district are the same as adopted by the Surveyor General of India to maintain uniformity at the national level. The total area figures of all the mandals/Mandal Parishads within the district may not tally with area figures of the district because former represents land use area only. Similarly, the total of all the villages may not tally with the entire rural of Police Station/mandal. The difference may be due to the fact that while the area covered by hills, forests and rivers etc, have been accounted in the mandals and P.S. level the same may not be covered under the area of the villages. Apart from this it may also differ due to varying methods of computation adopted at different levels.

An appendix to District Primary Census Abstract has also been furnished showing urban enumeration block-wise particulars on Total Population, the Scheduled Castes Population and the Scheduled Tribes Population for each town.

Annexure - I
Fertility and Mortality, 1991 Census

Crude birth rate is the most commonly used measures of fertility**.** To know the fertility rates, certain information was collected from all ever married women during 1991 Census such as (i) Age at marriage (ii) Number of children ever born alive. For currently married women, in addition to above data, if any child born at preceding one year to the Census has also collected. Definition of fertility measures is given in the chapter on Census concepts.

Fertility Levels :

Fertility is a natural growth of population to know the fertility rate. During 1991 Census, certain information such as age, age at marriage, number of children surviving at present, number of children ever born alive and for currently married women, if any child born at preceding one year to the Census. Fertility measures were worked out on F-Series Tables of 1991 Census of Andhra Pradesh .

Age Specific Fertility Rate :

The following statement shows the age specific fertility rates for Total, Rural and Urban areas along with the corresponding fertility rates of State during 1991 Census.

Annexure –I (a)
Age Specific Fertility Rates/Levels, 1991

Age Group	Srikakulam District			Andhra Pradesh State		
	Total	Rural	Urban	Total	Rural	Urban
1	2	3	4	5	6	7
15-19	0.060	0.059	0.062	0.085	0.092	0.066
20-24	0.161	0.163	0.149	0.179	0.185	0.162
25-29	0.149	0.153	0.125	0.150	0.155	0.137
30-34	0.107	0.110	0.074	0.103	0.108	0.087
35-39	0.067	0.069	0.046	0.068	0.071	0.055
40-44	0.037	0.038	0.021	0.037	0.039	0.029
45-49	0.017	0.018	0.008	0.020	0.021	0.017

The Age Specific Fertility rate is higher in the age group 20-24 of rural areas of Srikakulam district. However the same age group of the total rate of the district is less than the total rate of the state figures. Among the other age groups, the rates are either slightly increased or decreased over the state average.

Age Specific Marital Fertility Rate :

It is seen from the table the Age Specific Marital Fertility rate is higher at some instances in the district than that of state figures, while it is below at some instances. These rates are higher in the age group of 20-24 than that of other age groups both in the state and district, however the same age group of the total, rural, urban are stand equal in the district.

Annexure –I (b)

Age Specific Marital Fertility Rates/Levels, 1991

The above table shows the various measures of fertility and mean age at marriage recorded during 1991 Census. The district has recorded 27.1 CBR, 3.4 TFR, 4.5 TMFR, 107 GFR, 134 GMFR, 3.8 children per ever married women (45-49 years), 446 CWR and 17.7 is mean age at marriage of currently married women.

Annexure III
Percentage distribution of Migrants by place of birth/place of last residence, 1991 Census and 2001 Census

Migration :

During 1991 Census, the migrants by place of birth were returned 194.64 lakhs in Andhra Pradesh State comprising 62.53 lakhs of male and 132.12 lakhs of female. This migrants constitute 29.27% of the total population, with a breakup of 18.54% of male and 40.30% of female population.

In Srikakulam district 6,08,537 persons constitute 26.2% are migrants, male migrants constitute 14.4% and female migrants constitute 37.9% to the respective sex. Males are forming more percentage in inter district migrants to total more migrants than that of female inter district migrants percentage to total female migrants. Similar is in case of international migrants, male migration is more among inter state migration than females.

The following statement shows the distribution of migrants by place of birth with sex break-up inthe district as well as in the State together with percntages.

Annexure – III(a)
Distribution of Migrants by Place of Birth and Percentage, 1991 Census

Source: *Part –VA and VB – D Series, 1991 (Vol-I)*

In the above statement the migrants were broadly classified as (A) migrants born within the State of Enumeration (B) Migrants born in other States of India and (C) Migrants born in other countries. The migrants born within the State have divided again as (i) Migrants born with in the district of Enumeration and (ii) Migrants born in other districts of the State.

In Srikakulam District Female migrants are more in number than that of males except those who born in other countries. Male migrants are forming more percentage in inter district to total male migrants than that of Female inter district migrants percentage to total Female migrants. Similar position exists with inter State migrants also.

The following statement shows the Rural and Urban Composition of internal migrants by place of birth at 1991 Census for Andhra Pradesh and Srikakulam district.

Inset table to Annexure III(a)
Distribution of Migrants by Place of Birth and Percentage, 2001 Census

Rural and Urban Components of Migration :

The flow of migrants by place of birth have classified into four streams such as (i) Rural to Rural (ii) Rural to Urban (iii) Urban to Rural and (iv) Urban to Urban. The data on the basis of these four streams in case of migrants is classified by place of birth. It presents data only in relation to internal migrants. The above statement gives the information on movement of migration in Andhra Pradesh and Srikakulam district through the four streams within the State and from other States of India. Of the total 184.07 lakhs of Intra-State migrants in Andhra Pradesh have been moved from Rural to Rural with 63.92%, followed by Rural to Urban with 20.95%, Urban to Urban with 9.34% and Urban to Rural 5.72%. In case of migrants by place of birth from other States to Andhra Pradesh, they have been accounted for 10.27 lakhs. The distribution of 10.27 lakhs of migrants were from Rural to Rural with 33.94%, Rural to Urban 21.77%, Urban to Rural with 10.73% and Urban to Urban by 33.39%. The higher migration by place of birth has found in Rural to Rural in the State.

Of the total internal migrantes of 5.60 lakhs in the district 77.83% have moved from Rural to Rural and 4.62% have moved from Urban to Urban, 13.35% have moved from Rural to Urban and 4.20% from Urban to Rural.

In Srikakulam district 44,174 migrants from other states half of the (50.10%) of people who born in rural areas have settled in rural areas of the district and one fourth of the (12.28%) of people from rural areas of other states settled in urban areas. Similarly above one fourth of the (18.86%) of people who born in urban areas of other states settled in urban areas and nearly half of the (37.62%) in rural areas.

This annexure shows percentage distribution of migrants by place of birth as recorded in 1991 census. For all districts of Andhra pradesh the persons born elsewhere in the district of enumeration works out to 70.98% percent whereas in respect of persons born in other districts of Andhra Pradesh, born in other states and other countries comes to 23.58%, 5.28% and 0.16% respectively. In respect of Srikakulam district the persons born elsewhere in the district of the enumeration recorded 83.73% and the persons

born in other districts of the state returned 8.93%. Among the migrants of the district, the persons born in other states and other countries works out to 7.29% 0.05% respectively. Out of 1.95% crores of migrants of the state, 6.08 lakh migrants belong to Srikakulam district. It is interesting to note that the female migrants are more in number than males in all the districts of the state.

Source: *Migration Tables (D Series) - 2001*

The above annexures show the percentage distribution of migrants by place of birth as recorded in both the Censuses of 1991 and 2001 in Andhra Pradesh state. It is observed that 3.0% increase in the migration who were born elsewhere in the district of enumeration with a sex breakup of 3.0% each, whereas in respect of the migrants who were born in other districts of the state, in other states of the country and in other countries are recorded with a difference of -2.2%, -0.8% and -0.1% respectively between two censuses of 1991 and 2001.

In respect of Srikakulam district the difference between the two Censuses can be observed with the percentage of 2.2% in the persons born elsewhere in the district of the enumeration, with the sex-wise break up of 1.5% and 2.3%. Regarding the migrants from other states in India only a minor variation is recorded with (-)1.3%.

Among the migrants that are born in Abroad a minor decrease i.e., (-) 0.1% is noticed in the percentage variation between 1991 and 2001 censuses.

Annexure IV
Brief account of Main religions in the district/ mandal as per 1991 Census and 2001 Census

Religion :

The data on religion has been collected and presented for six (6) major religions viz; Hindus, Muslims, Christians, Sikhs, Jains and Buddhists. In respect of minor religions, they have been classified and shown under the category "Others."

During 1991 Census the religion data was collected through question No.8 of the individual slips and recorded the religion as stated by the individual.

India-State-District differentials :

In 1991 census all the six Major religions viz. Hindu, Muslim, Christian, Jain, Buddhist and Sikh were returned in Srikakulam district. The total population of the district comprises of 23,21,126 persons. Out of which 23,10,267 persons belong to Hindus, 5,759 persons were Muslims, 4,903 persons were Christians, 24 persons were Jains. 54 persons belong to Sikhs and 11 persons are Buddhist religion. The percentage to total population of Hindus has returned with 99.53% followed by Muslims with 0.24% and 0.21% of Christians. There are 108 persons returned as no religion in the district.

In all 38 mandals Hindu, Muslim and Christian religions have been returned in both rural and urban areas of the district in 1991 Census. Among these three religions Hindu religion is the predominant in all mandals of the district.

Muslim religion occupies 2nd position in the district with 5,759 persons. Srikakulam mandal has recorded highest Muslim population in the district with 1,953 persons forming 1.27 percentage to total mandal population followed by Palasa mandal with 593 persons and Ichchapuram mandal with 501 persons. There is no Muslim population were returned in Jalumuru mandal.

Though the Christian religion was identified in all 38 mandals, the number of Christians is very less when compared with Hindus. Palasa mandal has recorded highest Christians in the district with 948 persons followed by Srikakulam mandal with 566 persons and Vangara mandal with 358 persons. Only 14 persons have recorded as Christians in Regidi Amadalavalasa mandal.

The Jain religion has been recorded with 24 persons in the district. They were returned in the urban area of Amadalavalasa only.

Only 11 persons belong to Buddhist, out of which 7 were found in Rajam mandal and 4 persons in Mandasa mandal.

This district has 54 persons belongs to Sikh religion and spread over in 7 mandals.

Source: Religion Data, Andhra Pradesh - 2001

The above table gives the details of Main Religions in the district for 2001 census whereas the previous Annexure shows the details of main religion in 1991 census. During 2001 census the religion data was collected through question number 7 of household schedule. Out of the total population of the district Hindus have returned 99.0% during 2001 census as against 99.5% in 1991 census. In respect of Muslims they have returned 0.3% in 2001 whereas their percentage during 1991 was also same. The next main religion in the district is Christians who returned 0.6% during 2001 census as against 0.2% in 1991 census. In respect of remaining main religions viz. Sikhs, Buddhists, Jains and others their strength in the district is negligible.

Annexure-IV(b)

Percentage distribution of population by major religions in India, Andhra Pradesh and Srikakulam district and its growth rate during 1981-1991

Source: Part IV-B(II) of AP,1991

India-State-District differentials: The comparitive data on religion among India, Andhra Pradesh and Srikakulam district levels that concentration of Hindus was higher followed by Muslims and Christians as per 1991 Census findings, Hindus were returned on the higher side in the state with nearly seven percent more than the national average, while in Srikakulam district there were more than sixteen percent than national nearly ten percent than the state. They constituted 82.4%, 89.14% and 99.53% in India, Andhra Pradesh and Srikakulam district respectively. Muslims returned as 11.7% in India, 8.91% in State and 0.25% in district. It shows their percentage in the district is less than the Courntry, while the percentage of Christians in the Country is more than the state i.e. 2.3% in India 1.83% in the state and 0.21% in the district. The strength of Buddist and Sikhs in the state as well as in the district is negligible. Jains returned less than one percent both in the country and state too. Religion wise growth in the state during the decade 1981-1991 shows that Hindus 24.74% as against 22.3% in India. The growth rate of Hindus in the district is less than the state and country i.e. 18.42%. The growth rate among the Muslims is also less than that of state and country i.e 18.96%. In the state during the decade 1981-1991 the Christian population showed as 4903 and the percentage of Christian growth rate is 39.17 in the district.

Source: Religion Data, Andhra Pradesh - 2001

This table gives the comparative data on religions among India, Andhra Pradesh and Srikakulam district between 1991 and 2001 census, whereas the previous Annexure furnish the comparative data on religion during 1981 and 1991. At India level among the total population returned in the 2001 census Hindus constituted 80.5% as against 82.4% in 1991. The percentage growth rate of Hindus during the decade 1991-2001 has recorded 20.3 whereas the corresponding growth rate during 1981 and 1991 was 22.3%. It clearly shows that growth rate in Hindu population is diminishing which can be attributed that the people of this religion is more conscious about family planning methods. In Andhra Pradesh the percentage of Hindus has recorded 89.0 whereas the corresponding figure during 1991 was 89.1%. However the percentage growth rate of Hindus has fallen to 14.4 from the percentage growth rate of 24.7 as recorded during the decade 1981-1991. In Srikakulam district though the percentage of population of Hindus recorded 99.0% as against 99.5% in 1991 their growth rate in 1991-2001 has fallen to 8.8% as against the growth rate of 18.4 % in 1981-1991.

In respect of Muslims, their percentage to total population has recorded 13.4 at India level as against 11.7% in 1991. In Andhra Pradesh their percentage has gone up to 9.2% from 8.9% in 1991. In respect of Srikakulam district, Muslims constituted the same percentage with 0.3% in both the census. However in this district the growth rate in the decade 1991-2001 has declined to 34.7% as against the growth rate of 19.0% recorded in 1981-1991.

The other main religion going by numerical strength is Christians. They constituted 2.3% of total population at India level during 2001census. Their growth rate during the decade 1991-2001 is 22.6% at India level as against the growth rate of 16.9% recorded in 1981-91. In Andhra Pradesh their percentage growth rate continues to show the negative trend. The percentage growth rate of this community recorded during 1991-2001 is (-) 2.8 as against (-) 15.1 recorded during decade 1981-1991. In Srikakulam district during 2001 Christians constituted 0.6% to total population as against 0.2% in 1991. The percentage growth rate of this community during 1991-2001 has recorded 189.6% as against 39.2% in 1981-1991. In respect of other main communities their growth rate is negligible.

Annexure-IV(c)

Distribution between Rural and Urban area of Major religions in Andhra Pradesh and Srikakulam district

Sl. No.	Name of Religion	Andhra Pradesh(in %)		Srikakulam District(in %)	
		Rural	Urban	Rural	Urban
1	Hindus	76.55	23.45	87.66	12.34
2	Muslims	41.83	58.17	35.72	64.28
3	Christians	60.48	39.52	72.85	27.15
4	Jains	4.11	95.89	-	100%
5	Buddhists	80.41	19.59	72.73	27.27
6	Sikhs	10.85	89.15	35.19	64.81

Source:- Part IV b (ii) of Andhra Pradesh 1991 Census

Religion wise growth in the state during the decade 1981-1991 shows that Hindus recorded higher growth rate than India as a whole in 24.74%, as against 22.3% in India. The growth rate of Hindus in the district is less than state and country i.e.18.42%. The growth rate among muslims is less than that of state and Country i.e.18.96%, the Christian population has decreased in the state and where as 39.17% increased in the district during the decade.

Rural-Urban differentials:

In Andhra Pradesh state and Srikakulam district, it is seen that Hindus form considerably higher in rural areas i.e. 76.55% and 87.66% respectively. Christians and Buddhists form higher percentage in rural areas than in urban both in the state and district. Muslims formed the percentage of 35.72% is lower than Urban areas of the district as well as of the state. Where as Sikhs formed the percentage of 35.19% is lower than of Urban of the district and higher than of state.

Inset table to Annexure IV (c)
Distribution between Rural and Urban area of Major religions in Andhra Pradesh and Srikakulam district - 2001

Sl. No.	Name of Religion	Andhra Pradesh (in %)		Srikakulam District (in %)	
		Rural	Urban	Rural	Urban
1	Hindus	76.3	23.7	73.8	26.2

3	Christians	55.0	45.0	60.0	40.0
4	Jains	5.0	95.0	4.0	96.0
5	Buddhists	66.0	34.0	63.0	37.0
6	Sikhs	17.0	83.0	46.0	54.0

Source: Religion Data, Andhra Pradesh - 2001

The above table indicates the distribution of major religions between rural and urban in Andhra Pradesh and Srikakulam district during 2001 census whereas the previous Annexure has given details recorded in 1991 census. The above Annexure and inset table to Annexure show that the distribution of religions between rural and urban at state level as well as at district level. At district level in 2001 Census all th religions except Hindus and Christians is more in urban areas than rural areas. At the State level Buddhist are also added to the abovesaid two religions of Hindus and Christians who are more in rural areas.

In 1991 Census, Hindus, Christians and Buddhists concentration is more in rural areas than urban areas at the district as well as at the state level.

Annexure V
Marital status of population as per 1991 Census and 2001 Census

Marital status has been classified as (i) Never Married, (ii) Married, (iii) Widowed and (iv) Divorced or Separated. To ascertain the marital status of a person, it has been made in the following manner.

(i) A person who has never married at any time before, treated him/her as never married

(ii) A person who has been married, whether for the First or another or at any time and whose marriage is subsisting at the time of Enumeration with the spouse living treated as married

(iii) A person whose husband/wife is dead and who has not been married again, treated her/him as widowed

(iv) A person who has been separated from wife or husband and is living apart with no apparent intention of living together again or who has been divorced either by decree of a law of court or by an accepted social or religious custom but who has not remarried, treated such a person as divorced/separated.

The following statement shows the Age, Sex and Marital Status composition of the population separately for Total, Rural and Urban in Srikakulam district.

Marital Status of Population as per Census 1991

Marital Status :

It is noticed from the above table that out of 2,321,126 persons of district 47.07% were never married, 46.43% are currently married and 5.90% are widowed, 0.57% are divorced or separated persons in all the age groups i.e. even after the age of 44 years. It is evident ,that childhood marriages were prevailed in the district. As per the statement 2,020 males and 4,030 females were currently married in the age group of 10-14 years. It is also noticed that about 330 persons were found widowed in the

age group of 10-19 years, further the childhood marriages resulted in going for divorce or separation. About 620 persons got separated in the age group of 10-19 years. Among the divorced or separated persons highest percentage i.e. 1.34% was found in the age group of 30-34 years.

The population have been distributed in 18 age groups starting from 0-9, 10-14 etc. The above statement shows that married, widowed and divorced/ separated persons were found in the age group of 10-14 which reflect bad events such as child marriages, etc. In the never married category both males and females were covered in almost all categories (no data recorded under age not stated). The reasons for never married persons found in the old age group may be due to physically handicapped or mentally disabled, etc. There was no separate data collected in the Census for such reasons.

Source: Socio-cultural Tables (C-Series) - 2001

The above inset table gives the details by age, sex and marital status composition of the population separately for total, rural and urban areas of the district during 2001 census, whereas the previous Annexure shows the above details for 1991 census. In 1991 while furnishing age group-wise marital status data, a separate age group 15-44 where the marital status was high has been shown. In 2001 census keeping in view of persons aged less than 18 years and persons aged less than 21 years, being high concentration of marital status, has been furnished. In the district population of 2,537,593 persons, 645,941 (25.5%) males and 508,710 (20.0%) females were recorded as never married. In the total district population, 591,977 (23.3%) males and 624,793 (24.6%) females were found married during 2001 census. It is pity to note that as against 132,449 widows 19,771 widowers were found in the district during 2001 census. The reason for high percentage of widows can be attributed to aged males marrying younger females. As against total population of 954,945 persons in the age group less than 18 years, 51.2% males and 47.4% females were found never married in 2001 census. In respect of married persons under the age group less than 18 years, only 0.1% males and 1.0% females were recorded in 2001 census which means public are more conscious about Marriage Act and also ill-fate of early marriages. Similar trend is noticed both at rural and urban areas even for age group less than 21 years. There is no much variation in the figures of marital status of the district between 1991 and 2001 censuses.

Annexure VI
Age , Sex and Education in the district as per 1991 Census and 2001 Census

The education table was worked-out on the basis of literates in the district.

Definition of literate :

A person who can both read and write with understanding in any language is to be considered as literate. If a person who can merely read but cannot write is not a literate. It is not necessary that a person who is literate should have received any formal education or should have passed any minimum educational standard. All the children in the age of 6 years or less have been treated as illiterate even if the child is going to school and may have picked up reading and writing.

The following table gives age, sex and education in the district at 1991 Census:

Age, Sex and Education in the District as per 1991 Census

Age group	Total Population			Literates			Percentage of Literates		
	Persons	Males	Females	Persons	Males	Females	Persons	Males	Females

50-54	106,407	51,978	54,429	19,498	15,808	3,690	18.3	30.4	6.8
55-59	63,764	30,694	33,070	12,300	9,980	2,320	19.3	32.5	7.0
60-64	75,142	35,920	39,222	11,640	9,750	1,890	15.5	27.1	4.8
65-69	33,501	15,851	17,650	6,160	5,210	950	18.4	32.9	5.4
70-74	29,070	1,381	15,260	4,050	3,520	530	13.9	25.5	3.5
75-79	8,780	4,310	4,470	1,830	1,530	300	20.8	35.5	6.7
80+	12,650	5,850	6,800	2,290	1,820	470	18.1	31.3	6.9
Age not stated	3,160	1,780	1,380	1,100	760	340	34.8	42.7	24.6

It is seen from above statement that the literacy rate among the age groups from 7 years to 20-24 is higher side above 37.66%. In the age group of 11 years it is the highest with 71.29%. The literacy rate among aged people i.e. 80+ years is the lowest with 18.10%. The total literacy in the district has been worked at 36.22% with 49.14% in males and 23.52% in females. In all age groups male literacy rate is higher than the females.

Source: Socio-cultural Tables (C-Series) - 2001

The Annexure presented in the pre-page gives the details of Age, Sex and Education in the district for 1991 census whereas the above inset table reveals the data for 2001 Census. As was done in the previous Census, the children in the Age group 0-6 have been treated as illiterates even in 2001 census. It is seen from the above table that the district has recorded 55.3% literates in 2001 as against 36.2% literates in 1991. In the district the literacy rate for males has recorded 67.2% as against 43.7% in females during 2001 Census. From the above inset table it is noticed that in the school going age groups i.e 7 to 14 years, their literacy rate recorded between 76.7% and 82.1%. In all the age groups male literates are dominating females. The highest educated are found in the age group 9 years with 91.8% and their sex-wise breakup recorded 93.8% in males and 89.8% in females. It is a good trend that the essentiality of the education is felt much by the general public.

Annexure VII
Distribution of different mother tongues returned in 1991 Census at District/ Mandal level and the data at District level for 2001 Census

Mother Tongue :

Mother tongue is the language spoken in the childhood by a person mother to the person. If mother dies in infancy, the language mainly spoken in the person's home in childhood will be treated as mother tongue. In the case of infants and deaf-mutes the language usually spoken by the mother will be the mother tongue. A very large number of mother tongues have been returned during 1991 Census. It lead to thorough scrutiny and rationalisation, which resulted in 1576 rationalised mother tongues and 1796 names were treated as unclassified or "others". The 1576 rationalised mother tongues were further classified following the usual linguistic methods for rational grouping based on available linguistic information. Thus a total inventory of classified mother tongues returned by 10,000 or more speakers at the all India level were grouped under appropriate languages, where possible, was prepared for final presentation of the 1991 Census data. The total number of languages so arrived at is 114. Of which 18 languages are included in Eighth Schedule to the constitution of India (Scheduled languages).

The State language "Telugu" is mainly spoken in Srikakulam district. During 1991 census this language has returned with a strength of 21,34,672 comprising 93.69 percent and followed by Oriya language with 5.93% percent and Urdu with 0.18 percent. Besides this many other languages were returned in the district, but their percentage is negligible. Telugu language has occupied 1st rank in the district being the regional language in the state.

Telugu is the predominant language in 38 mandals of the district. Similarly Urdu, Oriya, Relli and Hindi took their places in the district. Oriya and Urdu languages have returned in 38 mandals. Oriya has occupied 2nd place in 28 mandals whereas major Urdu speaking persons were available only in 5 mandals. The Relli and Hindi language speaking persons were available only in 10 and 30 mandals respectively.

N= Negligible

The above inset table gives the abstract of the languages as mother tongues and their strength in the district recorded in 2001 Census whereas the previous annexure shows the details for 1991 census. In 1991 the data was presented in alphabetical order whereas in 2001 the mother tongue data has been presented basing on their numerical strength in descending order. The mother tongues having minor returns have been clubbed together and added in the category of 'Others'. Telugu being the region's language has recorded 92.0% to total population in the district with a slight decline in the percentage recorded in 1991(93.7). The next highest language being spoken is Oriya with 5.0% to total population of the district whereas in 1991 the percentage of Oriya speaking people recorded 6.0. In respect of other scheduled languages it is noticed that their strength is negligible both in 1991 and 2001. In the district as many as 15 scheduled languages out of 18 have returned in 2001 Census. The other 3 scheduled languages which are not recorded in the district in 2001 are Konkani, Manipuri and Kashmiri.
