Bavikonda

The Motif chosen for Visakhapatnam Handbook is "Bavikonda", the hill of wells. Bavikonda is an important Buddhist site lies about 15 Kms. from Visakhapatnam city on the beach road to Bheemunipatnam town. It is located on a hill at 138 metres altitude. The excavations carried out on the hilltop between 1982-1987 brought to light an extensive Buddhist establishment consisting of a mahachaitya with Buddhapada slabs, apsidal and circular chaitya grihas embedded with relic caskets, large vihara complex, stone and brick built votive stupas, a stone pillared hall, rectangular halls, congregation hall, stone pathways, a refectory etc. In association with these structures, a Sathavahana lead coin, 3 Roman silver coins, fragments of Brahmi label inscriptions, Buddapadas slabs decorated with asthamangala symbols and other early historic cultural milieu were recovered. Also three abandoned water tanks were found on the hill. Experts opine that apart from providing drinking water to the monastery, these tanks and their adjoining cisterns might have facilitated colouring of robes worn by the Buddhist monks. The settlement consists of 2 types of structures - Religious and Secular.

Bavikonda monastery flourished between 2nd century B.C. and 2nd Century A.D. These findings reflect that the Hinayana School of Buddhism was practiced at Bavikonda.

Foreword

The District Census Handbook (DCHB) published by Census Organisation since 1951 census, is one of the important publications in the context of planning and development at gross-root level. The publication, which is brought out for each district, contains several demographic and socio-economic characteristics village-wise and town-wise of the district along with the status of availability of civic amenities, infrastructural facilities, etc.

2. The scope of the DCHB was initially confined to a few Census Tables and Primary Census Abstract (PCA) of each village and town within the district. Thereafter, at successive censuses, its scope and coverage has been enlarged. The DCHB published at the 1961 census provided a descriptive account of the district, administrative statistics, census tables and a village and town directory including PCA. The 1971 census-DCHB series was in three parts: Part-A related to village and town directory, Part-B to village and town PCA and Part-C comprised analytical report, administrative statistics, district census tables and certain analytical tables based on PCA and amenity data in respect of villages. The 1981 census DCHB was in two parts: Part-A contained village and town directory and Part-B the PCA of village and town including the SCs and STs PCA up to tahsil/ town levels. New features alongwith restructuring of the formats of village and town directory were added into it In Village Directory, all amenities except electricity were brought together and if any amenity was not available in the referent village, the distance in broad ranges from the nearest place having such an amenity, was given. Information on new items such as adult literacy centres, primary health sub-centres and community health workers in the village were provided so as to meet the requirements of some of the Revised Minimum Needs Programme. Information on approach to the village was provided for the first time in the Village Directory so as to give the details on number of inaccessible villages in each district. In the Town Directory, a statement (IV-A) on slums was introduced to provide the details on civic and other amenities in the notified slums of Class I and Class II towns.

3. The 1991 census DCHB, by and large, followed the pattern of presentation of 1981 census, except the format of PCA was restructured. Nine-fold industrial classification of main workers was given against the four-fold industrial classification presented in the 1981 census. In addition, sex-wise population in 0-6 age group was included in the PCA for the first time with a view to enable the data users to compile more realistic literacy rate as all children below 7 years of age had been treated as illiterate at the time of 1991 census. One of the important innovations in the 1991 census was the Community Development Block (CD block) level presentation of village directory and PCA data instead of the traditional tahsil/taluk/PS level presentation. It was expected that the presentation of village directory and PCA data at CD block level will help the planners in formulation of micro level development plans, CD block being lowest administrative unit.

4. The present series of 2001 census DCHBs have been made more informative and exhaustive in terms of coverage and content. The Village Directory has been enlarged in scope by including a number of other facilities like banking, recreational and cultural facilities, newspapers and magazines and ‘most important commodity’ manufactured in village. Income and expenditure of gram panchayat, wherever possible, has been provided. Apart from these, more details on distance(s) at which basic amenities are available (if not available in the village), are given. This includes educational facilities (namely primary and middle schools and college), medical facilities (viz. Allopathic Hospital, Maternity & Child Welfare Centre and Primary Health Centre), drinking water, post & telegraph (post office and phone), communication, bank, credit societies and recreational

facilities. In Town Directory, the statement on Slums has been modified and its coverage enlarged by including details on all slums instead of 'notified slums'. The information is given in case of all statutory towns irrespective of their class, against only Class I and Class II towns in the 1981 and 1991 censuses. The basic amenities available in the villages and towns are analysed in depth with the help of a number of cross-classified inset tables and statements. Two other significant additions in the publication are inclusion of 'motif' highlighting significant characteristic of the district and analytical notes as annexures. The analytical notes on (i) fertility and mortality and (ii) various measures of fertility and mean age at marriage are prepared based on 1991 Census. Whereas, in the notes relating to (i) percentage distribution of migrants by place of birth/place of last residence, (ii) main religions, (iii) marital status of population, (iv) age, sex and education, and (v) distribution of spectrum of mother tongue, nature and extent of changes occurred in the district in its basic socio-demographic features during the decade 1991-2001 are analysed. The eight digits permanent location code (PLCN) to all the villages and towns have been assigned keeping in view the future needs.

5. The village and town level amenity data have been collected, compiled and computerized in prescribed record structure under the supervision of Shri. V.S. Bhaskar, IAS., Director of Census Operations, Andhra Pradesh. Thereafter, efforts have been made to ensure comparability of the information with that of 1991 census data and the information brought out by the respective state governments in their annual reports and statistical handbooks for various years after 1991. The task of planning, designing and coordination of this publication was carried out by Shri R.G. Mitra, Deputy Registrar General (C&T) and Dr. I.C. Agrawal, Senior Research Officer of Social Studies Division. Dr. R.P. Singh, Deputy Registrar General (Map) provided the technical guidance in the preparation of maps. Whereas, Shri Anil Kumar Arora, Deputy Director of Data Processing Division who worked under the overall supervision of Shri Himakar, Addl. Director (EDP) helped in preparation of record structure for computerization of village and town directory data and the programme for the generation of Village Directory and Town Directory statements including analytical inset tables. The draft DCHB manuscripts received from the Census Directorates have been scrutinized in the Social Studies Division under the guidance of Shri S.L. Jain, Deputy Director and Shri R.K. Mehta, Assistant Director. I am thankful to all of them and others who have contributed to make this publication possible.

D.K.Sikri
Registrar General &
Census Commissioner, India.

New Delhi
Dated: 17.10.2006.

Preface

The District Census Handbook (DCHB) containing Primary Census Abstract and data on "amenities" for each village and town in the district. The intention of this publication is to place the data collected at the Census alongwith the village and town level amenities data collected from the Mandal Revenue Officers/ Municipal officials in this publication. The amenities data is validated by comparing with secondary data obtained from Heads of the Departments. For example, information on schools was compared with data available with Commissioner, School Education and information on post offices was compared with data obtained from the Chief Post Master General and so on. Validation of data in the above manner was by no means an easy exercise. Scores of officials had put in gruelling efforts for months together. The entire data and manuscripts were computerized. We are now reasonably confident of the correctness of the data but we will not make any utopian claims of cent per cent accuracy. There may be errors but we will be safe in saying that they are minimal.

The District Census Handbook is divided into the following major components.

1. Introduction.
2. Brief history of the district.
3. Census and non-Census concepts.
4. A detailed write up on the physical features, major cultural and social events, major developments during the decade, places of religious and historic importance etc.
5. Primary Census Abstract (PCA) at the district level, mandal/town level and village level.
6. Brief analysis of PCA data.
7. Village Directory and Town Directory.
8. Brief analysis on Village Directory and Town Directories.

It will not be out of place to mention here that there is perhaps no other publication from any agency that encapsulates so much data on a district. The amenities data includes information on sectors such as Education, Health, Water and Electricity supply, Communication and Transport facilities etc. The idea of presenting amenities data juxtaposed to the Census data is not only unique but also tremendously useful for the data users.

The District Census Handbook is further enriched with a district map and mandal maps depicting villages/towns with population size and also amenities such as Educational Institutions, Hospitals, Telegraph and Telephone facilities, Banks, Police Station etc.

Some improvement over earlier DCHB have been made to bring more completeness to the data presented in this volume.

1. The names of Colleges, Girls' High Schools, Hospitals run by Government and others have been given as an additional information. Similarly the names of Cinema Halls have been given.
2. Ranking of Mandals according to population is also given.

3. More Appendices and Annexures to important statements are given to make the data more comprehensive.

In the previous Censuses, the manuscripts prepared by this department were supplied to Government of Andhra Pradesh who in turn brought out the publications at their cost. However due to the procedural rigmorale some delay was unavoidable in placing the DCHBs before the data users and planners.

This time, keeping in view the above difficulties, the printing and publication of District Census Handbooks has been taken up centrally under the arrangement of the office of the Registrar General and Census Commissioner, India, New Delhi. The processing of data and preparation of Camera Ready Copies electronically including finalisation of write up was attended to in the office of the Director of Census Operations.

I am grateful to the Chief Secretaries, Principal Secretaries, Secretaries, District Collectors, Municipal Commissioners and other senior officials of the Government of Andhra Pradesh for their co-operation and assistance throughout the Census Operations and in the process of collection of the non-Censal data.

I am extremely grateful to Sri D.K.Sikri, IAS, Registrar General and Census Commissioner, India for the help, guidance and constant support in finalising this volume. My sincere thanks to Sri R.P. Singh, Deputy Registrar General (Map) and Dr.I.C. Agrawal, Assistant Registrar General (SS). Sri. S.L. Jain, Deputy Director for giving guidence, help and co-ordinating this project work and their colleagues in the office of the Registrar General, India.

I also take this opportunity to acknowledge the valuable contribution made for this publication by Sri.J.K.Banthia, Ex-Registrar General, India.

Most of the work relating to DCHB has been carried out under the able guidance and direction of Sri V.S.Bhaskar, IAS, Director of Census Operations, Andhra Pradesh, Hyderabad. I take this opportunity to acknowledge his valuable contribution made for this publication.

The credit for preparation of District Census Handbooks goes to a team of devoted officers and staff of this Directorate who have involved in this project. The names of individuals associated with this project are shown in “Acknowledgements”. I am grateful to all of them.

I hope that the data users will find this publication very useful.

D.HANUMANTHARAYA
Deputy Director of Census Operations

District Highlights – 2001 Census

1. Visakhapatnam District stands 14th in terms of area size and ranks 4th in terms of population in the state.

2. Visakhapatnam district stands 3rd rank in terms of urbanization with a total Urban population 1,530,899 forming 39.9 percentage to the total District population.

3. The sex ratio of the district is 985 against 975 in 1991 Census showing increase over the decade.

4. The density of the District is 343 against 294 in 1991 Census, showing increase over the decade.

5. Thummapala village, PLC No. 01721000 is most populated with a population of 28,187 and Gulamalapalle village, PLC No 1538400 is the least populated with a population of 1 in the District.

6. Visakhapatnam (U) mandal is most populated with a population of 982,904 and Pedagantyada Mandal is the least populated with a population of 12,741 in the District.

7. Visakhapatnam M.Corp. is most populated with a population of 10,42,388 and Bheemunipatnam Municipality is the least populated with a population of 48,664 in the District.

8. Out of 100 workers 53 are engaged in Agriculture sector, 4 are in Household industry and 43 in other economic activities. Thus showing the predominance of agricultural Sector.

9. Out of 100 Male workers in the District 43.8 are engaged in agriculture sector.

10. Out of 100 Female workers in the District 72.5 are engaged in agriculture sector.

11. There is a decrease in the proportion of main workers of the District in the decade (40.0 percent in 1991 to 34.1 percent in 2001).

12. There is a decrease in the proportion of Male main workers of the District in the decade (55.8 percent in 1991 to 48.3 percent in 2001).

13. There is a decrease in the proportion of Female main workers of the District in the decade (23.8 percent in 1991 to 19.6 percent in 2001)

14. The District is famous for Port Trust and Agency.

15. Gajuwaka Mandal has the lowest number of inhabited villages (1) and the highest number of inhabited villages (304) are found in Munchingi Puttu Mandal .

16. Nathavaram Mandal has maximum area with 6542.2 hectares under irrigation, followed by Madugula Mandal with 6011.0 hectares and Visakhapatnam(Rural) mandal has minimum area with 14.97 hectares under irrigation. Pedagantyada mandal has no irrigated area.

17. Kommika village bearing PLC No.1661300 has the largest area (16311 hectares) and Madam village bearing PLC No.01647300 has the smallest area (1 hectare) among the villages of the District.

18. Female work participation rate is 28.0 that of the Males 55.4 in the District

About the District Census Handbook

District manuals compiled and published prior to 1905 by the erstwhile composite Madras Government contained not only particulars of items of more or less similar and permanent characteristics like history, religion and ethnography, but also a few statistical tables including those relating to population which became obsolete within a few years of publication. Later, the Madras Government replaced the District Manuals by another publication viz., the District Gazetteer consisting of two Volumes A and B. Volume-A contained descriptive and general tables which explains the text and Volume-B contained detailed statistics. It was decided that Volume B should be brought out periodically after each decennial census so that they contain the latest statistics. Volume-A was published for some districts between 1905 and 1927 in the Composite Madras State. The publication of Volume-A was discontinued in 1927. Volume-B was published for all the districts of the Composite Madras State between 1906 and 1915. The publication of Volume-B was also stopped after 1931 Census.

Similarly the Gazetteer volumes were also brought for some of the districts in the erstwhile Hyderabad State. The scheme of publication of revised District Gazetteers was re-started in the year 1958 by the State Governments. The State Editor, District Gazetteers, Government of Andhra Pradesh had published the Gazetteers of all the districts.

The idea of compiling the District Census Handbooks was pioneered by Sri. R.A. Gopala Swamy, I.C.S. the then Registrar General, India and Ex-officio Census Commissioner of India, with a view to preserve the census records prepared for areas below the district level. He proposed that all the District Census Tables and Census Abstracts prepared during the process of sorting and compilation, should be bound together in a single manuscript volume and named as the District Census Handbook and suggested that the State Government should take up printing and publication at their own cost. Then onwards, the District Census Handbooks were published in each census with improved pattern with an aim to give the census and non-census data at micro level for the village and district as a whole to suit the requirements of various departments, scholars, research personnel , planners, industrialists, electoral authorities, and other data users, also for efficient public administration by the state.

Pattern at 2001 Census :

The present District Census Handbook of 2001 Census, like the previous Census, is brought out for each district comprising of two Parts. Part- A Village and Town Directory with additional information on amenities viz., availability of commercial banks, recreation, credit societies etc., and land use particulars in the rural areas and Part- B Primary Census Abstract. At the outset an analytical note is given which depicts a general background on the district and analytical results on the statements and tables included in the volume. The volume is also provided with brief history of the district, physical aspects, census concepts, non-census concepts, major characteristics with reference to economic resources administrative setup during the past decade and few appendices etc..

Part A –Village and Town Directory :

Section- I Village Directory gives non-census data on the amenities available in each village in respect of educational, medical, drinking water, power supply, post and telegraph, telephone, approach to village, banks, credit societies, receipt of newspapers and magazines, recreation and cultural facilities, nearest town and its distance, distribution of land use area, income and expenditure of the village and name of the most important commodities manufactured.

If an amenity is not available in the referred village, the distance in broad ranges (kms.) from the nearest place where the amenity is available is

indicated. If the nearest place is situated in another state, name of the other state is also given.

Section-II Town Directory has been presented in seven Statements viz., Statement – I Status and Growth History, Statement-II Physical aspects and Location of towns, Statement-III Municipal Finance (receipts and expenditure,1998-99), Statement-IV Civic and other amenities, Statement-V Medical, Educational, Recreational and Cultural facilities, Statement-VI Trade, Commerce, Industry and Banking etc., Statement-VII Civic and other amenities in Slums and appendix showing towns with outgrowths and their population. The reference period for the above statements is 1998-99 and the data is covered for all the statutorily notified towns in the district.

The non-census data at Village/Town level is collected from concerned authorities viz., Mandal Revenue Officers, Municipal Commissioners etc., and scrutinized with meticulous care and validated with the data collected from various departments to provide valid information to the data users.

Part-B:- Primary Census Abstract:

This data can be stated as the essense of the Handbook. The latest census details such as area, total households, population, scheduled castes and scheduled tribes population, literates, workers etc., are presented in those abstracts.

(ii) History and Administrative Set-up of the District

Brief History of the District :

Region of the state where district is located:

Visakhapatnam district is one of the North Eastern coastal district of Andhra Pradesh and it lies between 17°- 15' and 18° - 32' Northern latitude and 81° - 54' and 83° - 30' in Eastern longitude. It is bounded on the North partly by Orissa state and partly by Vizianagaram district, on the south by East Godavari district on the west by Orissa state and on the east by Bay of Bengal.

This district originally formed part of the ancient Kingdom of Kalinga which is supposed to have been founded in the 9th Century B.C. The history of this tract has to be considered along with that falling in Srikakulam district. The name of Kalinga still survives in the sea side village of Kalingapatnam not far from Srikakulam and in the early times a place of importance. Kalinga was for many centuries, the citadel of Buddhism in India. The good relations of Kalinga with Ceylon(now Srilanka) were also kept up for many centuries and in 275 A.D., the celebrated tooth of Buddha was said to have been obtained by the king of Ceylon and shifted to Kandy, a place in Ceylon (Srilanka).

In 260 B.C., King Ashoka attacked and conquered Kalinga after the historic Kalinga war fought on the banks of river Mahanadi at Dhavalagiri with the Kalinga King Anangapala. One of the famous rock edicts shows clearly that it was the remorse that he had felt for the horrors of this campaign which led him in the same year to espouse the Buddhist religion which he afterwards spread throughout India and Ceylon (Srilanka). This Kalinga campaign thus turned out to be an epoch-making events in the career of Ashoka the Great. The edict states that about 150,000 persons were carried away captive from Kalinga, 100,000 were slained and many times that number perished. Some of the terms of this inscription show that Kalinga at that time was quite capable of offering considerable resistance even to such a powerful emperor as Ashoka and that its people were a civilised race. For several centuries after this, the history of Kalinga was quite obscure. Inscriptions, however, show that in the 6th Century A.D. Kalinga was conquered by the Chalukyas of Badami and in the 7th Century, by their off-shoot the Eastern Chalukyas. The result of this latter campaign was the establishment of the Vengi Kingdom (the ruins of the capital can be found 6 miles north of Eluru) under the Eastern Chalukya King, Vishnu Vardhana I (615-633 A.D.). Copper grants of this monarch found at Cheepurupalle show that he once ruled this tract.

The chronicles are continued by the grants of a series of kings who describe themselves as of the Ganga family, Lords of Kalinga, and worshipers of the Gokarnaswami (Siva) on the Mahendragiri hill in Ganjam, and as ruling from Kalinganagara which has been identified with Mukhalingam on the banks of the Vamsadhara, where notable temples and inscriptions have survived.

The Eastern Chalukyas of Vengi appear to have constantly interfered in the affairs of Kalinga, and Vimaladitya of that line seems to have conquered much of it, since an inscription at Mahendragiri states that the Chola King Rajaraja I of Tanjore overthrew him in 999-1000 and set up a pillar of victory on the hill.

The Gangas were followed by the later line of the same name who, as they also worshiped the Gokarnaswami on Mahendragiri and ruled from Kalinganagara, were apparently of the same family. Calculations from dates in copper grants show that they were in power from the end of the 9th Century. One of them, Rajaraja, ascended the throne in 1070-71 and reigned eight years, during which time he is said to have helped the Vengi kings against the Cholas and afterwards defeated both of them and also the ruler of Utkala (Orissa) and other monarchies. Under

his son, Anantavarman-Choda-Ganga, who ruled from 1078 A.D. for about 72 years, this family reached the zenith of its power. Many copper grants and inscriptions of this monarch have been found and these state that he replaced on their thrones the fallen kings of Vengi and Orissa engaged in wars extending from the Ganges in the north to the Godavari in the south and built the famous temple of Jagannatha at Puri. He married at least five queens and had by them four sons who ruled after him. The country eventually fell to the Eastern Chalukyas of Vengi and their feudatories. The Yadavas of Devagiri (Doulatabad) and the Kakatiyas of Warangal also claim to have humbled Kalinga at this period.

The Simhachalam temple in Visakhapatnam district contains inscriptions of several of the later Ganga kings, but few details regarding them survive. Their power was on the wane. Narasimha I and II are said to have resisted attacks from the Muslim kings of Bengal and Delhi. The Reddy kings of Kondavidu in Guntur district also penetrated into this Kingdom. On the death of Ganga King Bahnudeva IV, his minister usurped the throne and in 1434-35 founded the Gajapathi dynasty under the title Pratapa Kapileswara with his capital at Cuttack. He started expanding his dominions until they extended from the river Ganges to the river Krishna. His whole reign was spent in warring with Hindu kings of Vijayanagar who by then were powerful in the south and with the Muslim Bahmani dynasty of the Deccan. His son Purushottama reigned from 1469 to 1497. His successor was Prataparudra. He was said to have had reverses at the hands of the Vijayanagar King, Krishna Devaraya. The latter seized Udayagiri in Nellore, Kondavidu, Kondapalli in Krishna, Rajahmundry and other fortresses and finally halted at Simhachalam. The Simhachalam temple still contains inscriptions recounting successes and relating how he and his queen presented the God with a necklace of 991 pearls and other costly gifts.

About the end of the 15th Century the Bahmani Kingdom split up into several smaller States such as Bijapur in 1489, Ahmednagar in 1490 and Bidar in 1498. In 1512, the Kingdom of Golconda was founded by Sultan Qutub Shah said to have been a native of Persia. He was so successful that at the end of a long reign, he left a territory extending from the river Godavari to beyond the river Krishna and from the sea to a line drawn west of Hyderabad about the 78th degree of east longitude. In 1520, Sultan Qutub Shah defeated the forces of the Hindu chiefs of the Telangana at Kondapalli and there is reason to suppose that Prataparudra, was one of the chiefs who suffered discomfiture. In 1571, Ibrahim, the 4th monarch of the Qutub Shahi dynasty, taking advantage of the disturbed conditions of Orissa made himself master of the Godavari and other districts at far north as Srikakulam. For about 180 years since then this tract which also included the Ichchapur area then known by the name of the "Chicacole Circar" was controlled more or less directly by the Muslim authority from Hyderabad.

The principal seat of Government was at Srikakulam where the Faujdar or Deputy of the Subah resided, while a Sub-Governor or Naib resided at Ichchapur. The revenues of the country were collected by these two Muslim officers and remitted to the seat of Government of Hyderabad. In the year 1641 Abdullah Qutub Shah sent Sher Mohammed Khan from Hyderabad to Srikakulam to rule over the dependencies north of the Krishna river. Sher Mohammed Khan during his period built a fine mosque at Srikakulam. In 1687, the Qutub Shahi dynasty came to an end when Aurangazeb, the Mughal emperor, marched down to reduce the south to obedience and had wiped out the Kingdom of Golconda and brought the whole country under his direct control. He appointed to the charge of it an officer called the Subadar of the Deccan under whom were a number of local subordinates in control of the various smaller divisions of territory. The five Northern Circars of Guntur, Kondapalli, Eluru, Rajahmundry and Srikakulam had Masulipatnam for their chief town and the northern most of them, Srikakulam continued to be ruled in the same manner as before by a Faujdar residing in that town.

Aurangazeb died in 1707 and his death was followed by great disorder in his southern possessions. In 1724 the Subadar of the Deccan, though still continuing nominally subject to the authority of Delhi, made himself virtually independent and began appointing his own officers. His first Faujdar of Srikakulam was Anwar-ud-din who afterwards became very famous in the wars of the Carnatic and

was subsequently came to be known as the Nawab of Carnatic. His firm but kindly rule was gratefully remembered for many years afterwards.

This Subadar of the Deccan died in 1748 whereupon the French and English took opposite sides in the disputed succession which followed. Eventually a French protege, Salabat Jung, secured the post of Subadar and Bussy, the French General, obtained from him in 1753 the four Northern Circars (excluding Guntur) for the support of his troops. Masulipatam and the country adjacent had been already ceded to the French in 1750; and Bussy sent M.Moracin, the French officer with instructions to take possession of the new acquisitions.

The Faujdar of Srikakulam, Jafar Ali, was extremely disinclined to give up his charge to the French, and he persuaded Gajapati Viziarama Raju, head of the Vijayanagar family and the most powerful of the local renter chieftains, who had come into being during the Muslim rule, to join him in opposing Moracin's entry. The latter, however, seduced Viziarama Razu from this compact by promising to lease him the Rajahmundry and Srikakulam Circars at a rate much below their value. Finding himself deserted, Jafar Ali called in the help of the Maharathas of Nagpur, who crossed the hills; devastated the two circars; plundered and burnt the Dutch factory at Bheemunipatnam, defeated Viziarama Razu near Vizianagaram; fought an irregular action against the combined forces of that chief and Moracin at Tummapala near Anakapalle; and after a few adventures returned home with immense booty. Having secured the loot, they troubled no further about Jafar Ali's aspirations, whereupon that gentleman was obliged to submit.

In July 1754, Bussy went in person to Masulipatam and Rajahmundry, settled affairs in the Circars, and appointed Ibrahim Khan as the Faujdar of Srikakulam. Soon afterwards, however, relations between him and the Subadar of the Deccan became strained, at last an open rupture occurred, and for several weeks in the summer of 1756 Bussy was obliged to entrench himself against attack near Hyderabad. The authorities at Madras were only prevented from joining the Subadar against him by the necessity of sending every available man to Bengal. Further, Bussy's Officers in Circars including Ibrahim Khan disvowed his authority and refused to pay their tribute. Viziarama Razu was the only man who stood by Bussy. He ordered his Agents at Hyderabad to assure M.Bussy of his fidelity and the regular payment of his tributes.

Bussy was eventually relieved by reinforcements from Masulipatam and was received back into the Subadar's favour; and at the end of 1756 he marched into the Circars to restore his fallen authority. Ibrahim Khan fled in terror at his approach. But Viziarama Razu, confident in the proofs of attachment he had given, went to meet him with a body of troops belonging to him and others of the local Chiefs which numbered 10,000 men. Taking advantage of the support of Bussy he persuaded the latter to attack his bitterest enemy, the Chief of Bobbili. Bussy proposed to Bobbili that he should leave his fort and received instead other land of greater extent and value in another part of the province, but the suggestion was received as an insult. Soon afterwards one of Bussy's detachments was cut off in the woods of Bobbili and in his anger this Frenchman determined to expel that chief and all his family. The result was 'one of the most ghastly stories which Indian History has to record'.

From Bobbili Bussy marched on into Ganjam receiving the submission of the various local Chiefs and Zamindars as he went; sent a body of troops from Masulipatam to capture the English factories at Injaram, Madapollam and Bandamurlanka in the Godavari district and then turned back to attack the Vizagapatam settlement in person. Bussy then proceeded southwards and eventually returned to Hyderabad. In July of the next year (1758) he proceeded south to help in the war in the Carnatic and the siege of Madras.

Viziarama Razu's successor Ananda Razu, dissatisfied with the arrangements made by M.Bussy on the death of his predecessor had waited for an opportunity to take his revenge. As soon as Bussy went down south, he captured Vizagapatam from the French garrison which was holding it, sent news of the event to Madras and invited the English there to join him in expelling the French from the Northern Circars. Since Madras authorities were fully occupied at that time, this offer was repeated to the English in Bengal. Clive sent Colonel Forde to Vizagapatam;

by sea with a force of 500 Europeans, 2,000 sepoys and 100 lascars which arrived on the 20th October, 1758. The first step that Colonel Forde took, after joining the troops to those of Ananda Razu was to re-establish the factory of Vizagapatam where the French had left a small garrison. The united forces then moved south and on the 9th of December near Condore, about 35 miles east-north-east of Rajahmundry an action was fought with the French which ranks as one of the decisive battles of India and in which the French were utterly routed. Forde then pushed on to Rajahmundry the next day without the Raja's rabble and shortly afterwards took Masulipatam by a most brilliant assault. Salabat Jung, the Subadar of the Deccan, who had advanced within fifteen miles of the place to assist the French, changed sides at once and on the 14th May, 1759 concluded a treaty with the English granting them the country around Masulipatam, renouncing all friendship with the French and prohibiting the latter from ever again settling in the Northern Circars. Except the tract then ceded to the Company, the rest of the Northern Circars fell once more with dramatic suddenness under the sway of the Subadar of the Deccan. His rule, however, extended to it in name only. For the seven succeeding years the completest anarchy ever recorded in history therefore prevailed over the Northern Circars.

In 1765 Clive obtained from the Mughal Emperor at Delhi a firman granting to the Company the five Northern Circars. The Subadar, however, was in no way pleased at this cession of territory which he regarded as his own and threatened to retaliate by an irruption into the Carnatic. In November, 1766 a treaty was hastily concluded with him by the British, by which the English agreed to pay Rs.9 lakhs annually for the territory that had already been granted to them as a free gift by the Mughal Emperor. Later, however, this tribute was reduced and finally it was completely dropped.

At this stage it will be of interest to trace the fortunes of the English settlement at Vizagapatam from its inception until it became the capital of the district. This settlement was founded in 1682. In February of that year the Directors wrote to Fort St.George that an unauthorized trader (interloper) was designed for Masulipatam or Vizagapatam and left it to the Madras authorities to decide whether a factory should not be established at the latter place. It was largely, therefore the fear or rivalry of the ubiquitous interloper which led the Company to first settle in Vizagapatam, 13 days later the first official letter was sent from Fort St.George to Vizagapatam and thereafter correspondence with the factory appears regularly in the records.

Messrs. Ramsden and du Jardin did not let the grass grow under their feet. In October of the same year they wrote that inspite of the bitter hostility of the Dutch at Bhimilipatam they had made a respectable investment; had obtained a cowle from the Faujdar of Chicacole giving them liberties throughout the Kalinga country far greater than ever was granted to the Dutch and that this has caused a great deal of heart-burning.

The records of 1684 show that the settlement was very small at that time, the monthly expenditure being only about Rs.350/-, but however, had possessed the right to collect dues in the town. The annual rent paid to the Faujdar of Chicacole was Rs.4,500/-. At the end of that year the Madras Council, desirous of obtaining less limited privileges, resolved to send the new Chief Mr.Browne to the Faujdar with a big retinue hired for the purpose. The mission was crowned with success. A new cowle was obtained which exempted the Company's goods from land customs, granted privileges over Vizagapatam and permission to build a factory there, and brought the settlement into a position as good as any other in India. In 1685 the friendship with the Faujdar was further cemented by a present of saltpetre, powder and lead, which he earnestly desired owing to the possibility of a war with his northern neighbours, but which the Dutch at Bhimilipatam had steadfastly refused to supply.

In 1689 the footing in the country which had been won with such determination was suddenly lost. The Company fell out with Emperor Aurangazeb. As a result the latter issued orders that the English should be driven out from his dominions and all the property seized. On the 13th September, therefore, the Faujdar sent his 'Rashwar' to Vizagapatam for seizing and bringing away the English. The British factory was surrounded. There was a small skirmish and finally the Company's property was seized and the

Englishmen taken prisoners. In 1690 peace was made with Aurangazeb whereupon the Faujdar released the prisoners and restored the Company's property. Later on account of disturbances of a local nature and also on account of the threatened invasion from the Maharattas the factory and its surrounding areas had to be fortified.

In 1753 the Circars were ceded to the French; and at the end of 1756 Bussy, free at last from other embarrassment, marched into them to restore his shaken authority, seized Bobbili, quieted Ganjam, captured Injaram and the other English factories in the Godavari area and then marched in person against Vizagapatam. He reached that place on the 24th of June, 1757 with a large force of 600 Europeans, 6,000 sepoys and 30 pieces of cannon. Orme gives the following disparaging account of the then fortifications of the place:

"A river coming from the north and turning south-eastward to the sea, forms an arm of Land, a mile and a half in length and 600 yards in breadth. Nearly in the middle of this ground stands the fort, of which the construction by repeated mistakes was become so absurd, that it was much less defensible than many of the ancient barons' castles of Europe. The face towards the river was choked by houses. A whole town lay within 300 yards to the north, a village at the same distance to the south, and several buildings on each of these sides stood much nearer the walls; towards the sea, the esplanade was clear, excepting a saluting battery, where a lodgement might be easily made; after many injudicious additions of works round the fort, which only made it worse, it was found necessary to throw up an entrenchment to the north, beyond the town, in the shoulder of the peninsula, quite across from the river to the sea, with a battery at each extremity, and another on a hillock near the centre but this was commanded by a sand-hill directly opposite, and within point-blank. The access across the river from the south was sufficiently secured by batteries, which commanded not only the passage, but the entrance of the river itself, through which all embarkations from the sea must gain the shore, as the surf prevents even a boat from landing on the beach. Indeed the whole scheme of the defences seemed to have been calculated only to oppose the attempts of prirates and polygars. The garrison consisted of 150 excellent Europeans, and 300 sepoys; the English families in the town were 50 persons.

On the same day that the van of Mr.Bussy's army appeared in sight, the Company's Ship marlborough anchored in the road, on board of which was the Chief Engineer of Madras proceeding to Bengal. He landed, and having the next morning reviewed the works with Captain Charles Campbell, who commanded the troops, both gave their opinion that the extent could not be defended, even with a much greater force; and advised that all the Europeans should be immediately embarked, and the sepoys, with two or three officers, left to make the best capitulation they could; but all the boat and fishermen had deserted in the night, and the wind blew so strong from the sea, that none but those accustomed could manage the boats over the bar, which that of the Marlborough carrying back the engineer experienced, being twice overset and a man drowned before she got out. At noon, cannon appeared on the sand hill; soon after, the main body of the enemy, and a summons to surrender; after two or three messages. The capitulation was signed 11 at night. All the Europeans, whether troops or inhabitants, were to be prisoners of war; the sepoys and natives free to go where they liked; the Company's effects, capture; individuals, Mr.Bussy said, should have no reason to complain; he kept his word with the utmost liberality, resigning without discussion what so ever property any one claimed as his own. The Marlborough having anchored at the Dutch factory of Bhimilipatam, 12 miles to the northward, he permitted the chief, Mr.Percival, Captain Campbell, and several others to proceed in her to Bengal".

The subsequent history of the Vizagapatam settlement its seizure from the French by the Raja of Vizianagaram in 1758, the expulsion of the French from the Circars by Colonel Forde's expedition in the next year, the eventual cession of the country to the English in 1765 etc., have already been described in some detail above.

The twelve years of anarchy which followed Bussy's departure had enabled the Raja of Vizianagaram to make himself more powerful than ever. The Raja, Ananda Razu who had accompanied

Forde's expedition died of small-pox at RAjahmundry. He had no son, and the widow of his predecessor Viziarama Razu, had adopted Venkatapati Razu, a boy of twelve and the second son of her husband's cousin Ramabhadra Razu and caused him to assume the name of Viziarama Razu, by which he was afterwards so well-known. This boy had a half brother, considerably older than himself, named Sitarama Razu who cherished considerable resentment because of his apparent supersession. Thus owing to the new Raja's minority, all authority and State fell into Sitarama's hands and for very many years he succeeded in maintaining the position of superiority over his younger brother.

The two brothers were very powerful. They controlled almost all the districts except the Haveli land near about Vizagapatam, Kadimkota, and Chicacole. In 1761 they seized by force much of the Estate of Parlakimedi in Ganjam. When the English came into possession of the country they persuaded the brothers to relinquish Parlakimedi and settled a peshkash of three lakhs annually and rest of their estate. This also included indefinite rights in Jeypore.

Soon afterwards the various zamindars formed a strong confederacy to throw off the Vizianagaram yoke. Sitaram Razu, however, was equal to the occasion. He persuaded the Chief and Council to regard this as a challenge to their newly constituted authority, and with the aid of the Company's troops he easily defeated the opponents one after the other. At the close of the campaign, those zamindars in the district who had opposed him were dispossessed.

On the 3rd of October, 1780 a serious mutiny occurred among the Sepoys at Vizagapatam. To meet the invasion of the Carnatic by Hyder Ali of Mysore, the Government ordered four companies of troops to embark from Madras. The result is described as follows by the newswriter in Hickey's Gazzette.

"We are informed that the Sepoy troops lately draughted at Vizagapatam, having all their arms, accoutrements, baggage, etc., ready to embark on board the Sartine Frigue and some other Vessels then in that harbour in order to carry them to Madras, the day of their intended departure, the Governor of Vizag invited all the military officers to dine with him and the Council. The troops were to embark that afternoon. The gentlemen made a cheerful repast, drank success to the British arms and sat in company with all the tranquility of mind imaginable, but were soon alarmed by an uncommon noise. They sent some of their servants out to learn the cause, and was soon informed that the troops draughted for Madras had mutinied, and was endeavouring to force those Sepoys who were to remain behind in the barracks to join them, which they refused. This account soon brought their officers out, who instantly resumed their commands, and ordered them immediately to march down to the beach and go on board. This they refused one and all. The grenadiers levelled their pieces took aim, discharged a volley, and killed every officer on the spot. They took the Governor prisoner and all the civil servants, set free a French spy who had been confined there for some time, and placed him at their head, at the same time put the Governor and all the civil servants in the prison from whence they took the Frenchman. They plundered the Governor's house and factory of the treasure, plate and every other valuable that night, took the civilians out the next morning, tied them, and marched them off with them, with an intent to carry their prisoners to Hyder Ali, whom themselves intended to join. After they had marched several miles from Vizag, they unty'd the Governor Mr.Casamajor and the rest of the gentlemen, and told them they might return to Vizag if they pleased. Ensign Butler, the only surviving officer on that establishment, and who very fortunately had been on a visit to a friend at some distance from the settlement, finding what had happened, drew up a detachment of the remaining troops the next morning with a few field pieces, marched at the head of them in quest of the deserters, came up with them, and discharged a few rounds of grape shot amongst them, which brought several of them to the ground. Some ran off, leaving the most part of their arms behind, and the remainder he took prisoners, marching them in the front with the field pieces in the rear".

The Zamindar of Parlakimedi, then under surveillance at Vizagapatam, was strongly suspected of having engineered this outbreak, but he boldly claimed to have saved the lives of the other Europeans in the station and was eventually given back his estate as a reward for his doubtful services.

In 1781 the Circars were within an ace of being ceded back again to Hyderabad in return for a body

of horse to be placed at the disposal of the Governor General. Lord Macartney, who had just arrived as Governor of Madras, protested, however, with such force against the proposal that it was abandoned.

Viziarama Razu and Seeetharama Razu through their oppressive measures against the ryots had brought the district in a very unsatisfactory state. At the same time the British administration in the area had also become weak and corrupt thereby contributing to the further decline in the moral tone of administration. Therefore a Committee of Circuit consisting of five Members of Council was sent to investigate matters. This committee in 1784 submitted its report which condemned the administration in no uncertain terms. It stated that maladministration by Seetharama Razu and the constantly increasing taxes had resulted in a decrease of population and the ruin of several of the handicrafts; that the ryots were allowed to retain barely one-fifth of their crops; that the excessive customs duties had strangled trade; that there were no courts of justice; that the villages were composed of wretched hovels; that the zamindar was converting all his gains to private purposes; that the Raja of Vizianagaram was maintaining 7,760 troops including 1,620 sepoys dressed and armed after the European manner at an annual cost of nearly five and a half lakhs of rupees etc. The Committee therefore considered it necessary in the interests of the people at large that the power of Vizianagaram should be curbed and recommended that all his troops except some, 2,000 sibbandis for service in the malarious hills and a body-guard of 767 peons and 50 horses should be ordered to be disbanded. The committee also suggested that separate cowles be granted to the Jeypore, Palakonda and Golgonda Chiefs and that they should be rendered independent of Vizianagaram. They made several other proposals for the improvement of the revenue and other branches of administration.

The Raja agreed at the time to disband his troops except certain Rajputs who belonged to his own clan and in 1788 he was formally ordered to reduce his forces and was granted a new lease at the enhanced peshkash of 9 lakhs recommended by the committee, his Zamindari, however, being increased by the addition of Estates of Anakapalle, Uratla and Satyavaram.

Sitarama Razu who had for a long time usurped real authority was removed from the office of Diwan in 1784. In 1790, however, he regained his post; was dismissed by his brother in 1791; taken back again in February, 1792; removed by order of Government; and required in August, 1793 to reside in Madras, to which place he proceeded accordingly and lived on a pension from Government of Rs.5,000 a month.

By this time the Raja's incompetent management of the estate had led to the accrual of arrears of peshkash amounting to no less than Rs.6 1/4 lakhs and the Chief and Council reported that the security of the revenue and the general welfare of the country would be ensured by no method short of the sequestration of the Zamindari. The Government therefore threatened that unless all the arrears were paid the estate would be attached and the Raja removed and pensioned. The Raja thereupon offered to pay Rs.5 1/2 lakhs of arrears (which had grown to 8 1/2 lakhs) in three equal installments in a reasonable time, but the proposal was rejected by the Board of Revenue and the Government, and on 2nd August, 1793 the sequestration was effected by Colonel Prendergast by taking possession of the Vizianagaram Fort. The Raja was, however, so powerful that no one would come forward to rent any part of the estate. He also intrigued to render impossible any management but his own. The sequestration continued. The Board of Revenue in 1794 stated as follows:

"The objects we had in view and which we trusted would result from the sequestration of the Zamindari, were, to reduce the military force which this Zamindar (not withstanding the repeated orders, to the contrary, of the Honourable Court of Directors, within the last twenty years, and of successive Governments) has not only retained, but even increased; to ameliorate the condition of the inhabitants and families of those Zamindars, who had been dispossessed by the most unjust and ambitious projects of the Vizianagaram Zamindar; to afford relief to those who retained their countries, but who have been exposed to great oppressions; to heal the distractions, which had so long prevailed under a weak, fluctuating and improvident administration; to ascertain the real

value of the different parganahs and the extent of the improper alienations of land, whether for military services or to Brahmins and favourites; to clear off all debts (particularly to the Raja's troops); to introduce some fixed principle of management, order to secure tranquility, and the realisation of an adequate revenue; and by affording the Zamindar a more intimate knowledge of the resources of his country. We hoped to provide for the punctual discharge of the Company's future demands".

It seemed therefore clear that as long as the Raja remained in the district the arrears would continue uncollected and the estate would remain unmanageable. He was accordingly directed to leave the district and proceed to Masulipatam. He was given an allowance of Rs.1,200 a month and an advance of Rs.30,000/- was granted to him for the expense of his journey. He marched for about 12 miles and then on the 11th of May, 1794 wrote to the Chief stating his inability to proceed further owing to the turbulence of his peons, who clamoured for the arrears of their pay. These people were pacified by an assurance from the Chief that the Company would discharge their claims and the Raja was left without excuse for further non-compliance with the orders of the Government. His reluctance to leave his country was however, extreme. He considered the orders not only harsh and disparaging to his position, but as a sure precursor of the entire extinction of his power. He seems to have hoped that a determined attitude would save extreme measures, and so retired with his camp to Padmanabham, a village between Vizianagaram and Bhimilipatam and in quite the opposite direction to the main road to Masulipatam.

By this open movement he was now declared by the Chief and Council to have broken with the Company; and intelligence was shortly received which left very little doubt of his intentions. It was found that he was moving his family and effects; that some sepoys and cavalry who were in course of being paid of by the Chief of Vizagapatam had been recalled by the Raja and had actually joined him at Padmanabham; that the country peons were collecting; that promises had been made to the other Zamindars for the purpose of conciliating them; and that it was imagined to be the Raja's intention to proceed to Jeypore or further still, to the Bastar country of Nagpur. Once in the hills, a very large force was expected to be at his disposal. On the 14th May a Company of the Raja's sepoys stationed at Vizianagaram marched off, without informing the commanding officers of their intentions to join the Raja at Padmanabham, and three companies which were at Srungavarapukota acted in the same manner. Spies which were sent out by the Chief and Council returned with the news that it was the Raja's intention to resist the company's forces to the last, and if finally over powered, "then to do as the Bobbili family did formerly" when their fort was captured by Bussy.

On the 29th May, Lieutenant Colonel Prendergast arrived at Bhimilipatam from Chicacole with five companies of sepoys and was joined by Captain Cox from Viziangaram with two and a half companies. Madras and Vizagapatam also provided some more help in the form of ammunition etc.

By this time the number of fighting men who had joined the Raja amounted to four thousand men. He appeared to be aware that he was engaged in a desperate enterprise. He sent for Dr.Martin, who was with the troops at Bhimilipatam and to whom he was known, on the plea that he required his professional advice. The Doctor who was permitted to proceed by the Chief found the Raja prostrated both in mind and body and after prescribing for his bodily ailments, he was asked by his patient whether he would administer to a diseased mind. The doctor replied that his skill did not extend so far, but that he hoped and believed that the Raja was not inflicted in that way beyond all cure. The Raja replied by a long narrative of his grievances and difficulties and ended by entrusting the doctor with a letter for the Chief, in which he attributed his disobedience to the Company's orders to the restraint laid upon him by the rabble of sibbandis and others that had gathered around him. The Chief in his reply offered to employ force against these obstructions but to this no answer appears to have been received.

On the tidings of these events reaching Madras the Governor himself addressed a letter to Viziarama Razu informing him that the Company would settle every just demand of his troops, requiring him to repair forthwith to Vizagapatam accompanied by his personal attendants only. He was also warned that in the event

of his declining compliance to these summons he would be considered in a state of armed and wilful disobedience to the Government; that the Commanding officer would proceed against his so soon as he might be prepared for that purpose; and use the most effectual means, in his power for dispersing his people and securing his person and the persons of his principal adherents. No reply was received from Viziarama Razu and on the 5th July Colonel Prendergast was directed to enforce the orders of Government, after giving the Raja twenty four hours for the necessary preparations for his departure.

Information reached the British that the Raja and all his men had sworn to die sword in hand. Early on the morning of 10th all was over. The following brief report from Colonel Prendergast was received at Vizagapatam the same evening:- "I arrived at Padmanabham at half past five 'O' clock this morning and finding the Raja's troops all arrived and prepared, attacked them, and after a severe conflict for about three-quarters of an hour, dispersed them. The Raja was killed, with many of his followers, Further returns to-morrow".

Matters however were very far from being at once adjusted. The late Raja had placed the ladies of his family, with his young son Narayana Razu, a boy of 8 years of age at Annamarazupeta, a village very close to Padmanabham; and on the eve of the battle he sent instructions to his son to surrender in the event of his own death to the Chief and Council. It had become necessary for him to yield up his life to save his honour but the "Company were very just people" and would not visit their quarrel with the father on his own son. He at the same time induced his wife and mother to swear to him that they would not kill themselves on receiving the news of his death.

As soon as the fate of Viziarama Razu and his army was known, the guardians of the women and the child fled to Kasipuram at the foot of the hills. Mukki Rajabhupala Razu, who was in charge of the place received the fugitives with every attention, and shortly afterwards escorted them to Mukkuva, a place further north. Negotiations were opened with several Zamindars. The young Raja was soon surrounded with several thousand armed peons; the leaders collected the kists from the ryots and seemed resolved to set the Company's Government at defiance.

The Chief and Council despatched letters to the chief surviving members of the late Raja's family inviting them to come, as the Company's Government did not intend to take any further notice of the past proceedings. This invitation was not accepted by the Raja and his supporters. Thereupon the Governor sent a letter under his own hand dated 20th August, 1794 promising that Narayana Razu and all the late Raja's family etc., would be taken under the Company's protection provided they return within 30 days. To this the boy's friends replied that they would return at an early date. Subsequently Narayana Razu was given a cowle for three years for the estate on a peshkash of rupees six lakhs, but the property was curtailed not only by the severance from it of the zamindaris which had been restored to the original proprietors, but by the absorption into the haveli lands of Anakapalle taluk and some adjacent areas.

By the permanent settlement of 1802 all the ancient zamindaris were handed over to their owners in perpetuity on a fixed peshkash and a number of other proprietary estates were also called into being by parcelling out the haveli land into a series of properties and selling these by auction subject to the payment of a permanent peshkash.

Politically, this settlement was a failure. It took no account of the personal equation among the zamindars. These men had for years been treated as feudatories rather than as mere farmers of the revenue, 'rather as captains of the borders, lords of the marches, chiefs of the hills, than as private land holders'; and the Government had been in part conducted through them, some of them having been entrusted with the responsibility of keeping the hill tribes in order. But under the new arrangement they were unceremoniously set aside; authority over the hill men was taken from them; their estates were declared liable to immediate attachment and sale for default in paying a single installment of the peshkash; they were irritated by the working of the new revenue and judicial regulations; and the new police force, no longer under their control, took every opportunity, under cover of a pretence of enforcing law and order, of harassing and annoying them. Mr.Thackeray, the well known Members of the Board of Revenue, wrote

in 1819 as follows:

"The (police) darogahs were generally low men, such as kotwals, turned-off writers dubashes and butlers, the dregs of the courts and cutcherry: their peons good for nothing, batta peons, such as hang about every cutcherry and follow every dubash. Sending such men into the zamindaris was as if the Government, a hundred years ago, had sent a dozen London attorney's clerks, with some Bow Street runners, to the highlands of Scotland, to control those proud chiefs, and establish a good police in that country".

Owing to all these causes, the zamindars, for many years after the introduction of the permanent settlement, were in a chronic state of discontent and disaffection. Too often internal and domestic troubles accentuated their restlessness. Those of them who had been restored to their ancient patrimonies on the death of the Raja of Vizianagaram in 1794 returned to them, of course, without capital or credit; and in several instances an illegitimate brother or a cousin disputed their title, got together a band of paiks, and seizing upon a portion of the estate contrived to hold it by force.

At first, troops were called out and an attempt was made to chastise these disturbers of the public peace and drive them from their fastnesses. But these expeditions were by no means uniformly successful and cost much in blood and treasure. Recourse was then had no negotiation, the only result of which was to increase the insolence of the malcontents. Fresh leaders of banditti started up in every direction, and the zamindars, believing that the English were afraid to put the law in operation against them, began neglecting to pay their peshkash. Sir Thomas Munro, Governor of Madras, in a minute of 7th January 1823 written at the close of a tour through the country, summed up the then position as follows:

"The weakness of the authority of Government in the Circars is owing to our restoring the districts of the petty zamindars, who had been subdued, contrary to the opinion of the Committee of Circuit; to our erecting by the permanent settlement a new set of proprietary zamindars; to our not reserving a single village in which we could exercise direct control over the ryots; and to our transferring to these proprietors the karnams, who are the source of all information. In open countries long under the immediate authority of Government, the permanent settlement, though it tends to conceal the real state of the country, does not seriously affect the public authority by encouraging resistance of rebellion; but in mountainous unhealthy districts like the Northern Circars, the greater part of which has long been in the hands of a number of petty Rajas, some claiming independence, and all constantly ready to withhold their tribute and to raise disturbances whenever they see a favourable opportunity, the permanent settlement has the effect of weakening the authority of Government over the whole province, and of rendering the establishment of security and of good order more difficult than before.... Our system in the Circars is one of forbearance, and we are obliged to connive at irregularities which would not be tolerated in other provinces, lest we should be compelled to use force and involve ourselves in a petty warfare against banditti in a pestilential climate among hills and jungles.

The affairs of Circars can never be well administered, nor the great body of the people protected against oppression, nor the country be secured from disturbance and the incursion of plunderers, until our Government becomes more respected in those provinces than it is at present ___. No zamindari once forfeited for rebellion should ever be restored, whatever temporary evil the retention of it might occasion. All estates falling in should invariably be kept and annexed to the sirkar lands... The gradual extension of the sirkar lands should be our main object, because it is by having the direct possession and management of landed property that we can best protect the ryots, grant them remissions of tent, assist them in agricultural improvements and attach them to our Government".

Ten years later, at the close of 1832, the disturbances in this district and in the Parlakimedi Zamindari of Ganjam became so serious that Mr.George Russel, First Member of the Board of Revenue, was sent as Special Commissioner to investigate their causes and concert measures for their suppression. He was invested with extraordinary powers, including that the proclaiming martial law if necessary, and was supported by a strong force of troops.

To check further disturbance of the same kind Act XXIV of 1839 was passed and seven-eighths of the district was removed from the operation of much of the ordinary law, and administered directly by the Collector with extraordinary powers conferred upon him in the capacity of 'Agent to the Governor'. Several of the Zamindaris in the south were, from time to time, bought in by Government at sales for arrears of revenue, and these were formed into the taluks of Golugonda and Sarvasiddi, but the owners of others were quieted permanently.

In 1936, Orissa State was formed and this resulted in the territorial readjustment of the Visakhapatnam district, parts of which had to be given away to the newly formed State of Orissa. The plains portion of Visakhapatnam district however, remained unaffected during these transfers. The following are the portions of the district that were transferred to Orissa:

Complete taluks of Bissam Cuttack, Jeypore, Koraput, Malkanagiri, Naurangapur, Pottangi and Rayagada and portions of Gunupur, Padwa and Parvatipur taluks from the Agency portion of the Visakhapatnam district.

The residuary portion of Ganjam district, namely Chicacole, Sompeta, and Tekkali taluks and portions of Parlakimedi, Ichchapur and Berhampur taluks of Ganjam district retained in Madras State was added to Visakhapatnam district. The major portion of Parlakimedi taluk (plains) retained in Madras State was constituted into Pathapatnam taluk. Portions of Berhampur and Ichchapur taluks retained in Madras State were clubbed and constituted into Ichchapur Independent Sub-Taluk. Srikakulam taluk was bifurcated into Srikakulam and Narsannapet taluks. All the above changes were made for administrative convenience. After the estates were abolished under the Madras Estates (Abolition and Conversion into Ryotwari) Act, 1948 (Act, XXVI of 1948) survey and resettlement was undertaken in the taken over Estates and Inam villages.

As it was found that the enlarged Visakhapatnam district was very unwieldy for administration it was bifurcated into Srikakulam and Visakhapatnam districts in the year 1950. The northern half of the old Visakhapatnam district was included in Srikakulam district with headquarters at Srikakulam and the southern half was constituted into Visakhapatnam district with headquarters at Visakhapatnam.

Administrative Setup :

Total Number of Revenue Divisions and Mandals :

Visakhapatnam district has 43 mandals and these have been organized into 3 revenue divisions in the district as follows.

1. Paderu Division:	1.	Chintapalle
	2.	Koyyuru
	3.	GudemKotha Veedhi
	4.	Paderu
	5.	G.Madugula
	6.	Munchingi Puttu
	7.	Peda Bayalu
	8.	Hukumpeta
	9.	Araku Valley
	10.	Ananthagiri
	11.	Dumbriguda
2. Visakhapatnam: Division	1.	Chodavaram
	2.	Ravikamatham
	3.	Butchayyapeta
	4.	Cheedikada
	5.	Anakapalle
	6.	Munagapaka
	7.	Kasimkota
	8.	K.Kotapadu
	9.	Devarapalle
	10.	Sabbavaram
	11.	Paravada
	12.	Visakhapatnam(U)
	13.	Pendurthi
	14.	Gajuwaka
	15.	Pedagantyada
	16.	Bheemunipatnam
	17.	Padmanabham
	18.	Anandapuram
	19.	Visakhapatnam (Rural)
3. Narsipatnam Division:	1.	Madugula
	2.	Narsipatnam
	3.	Golugonda

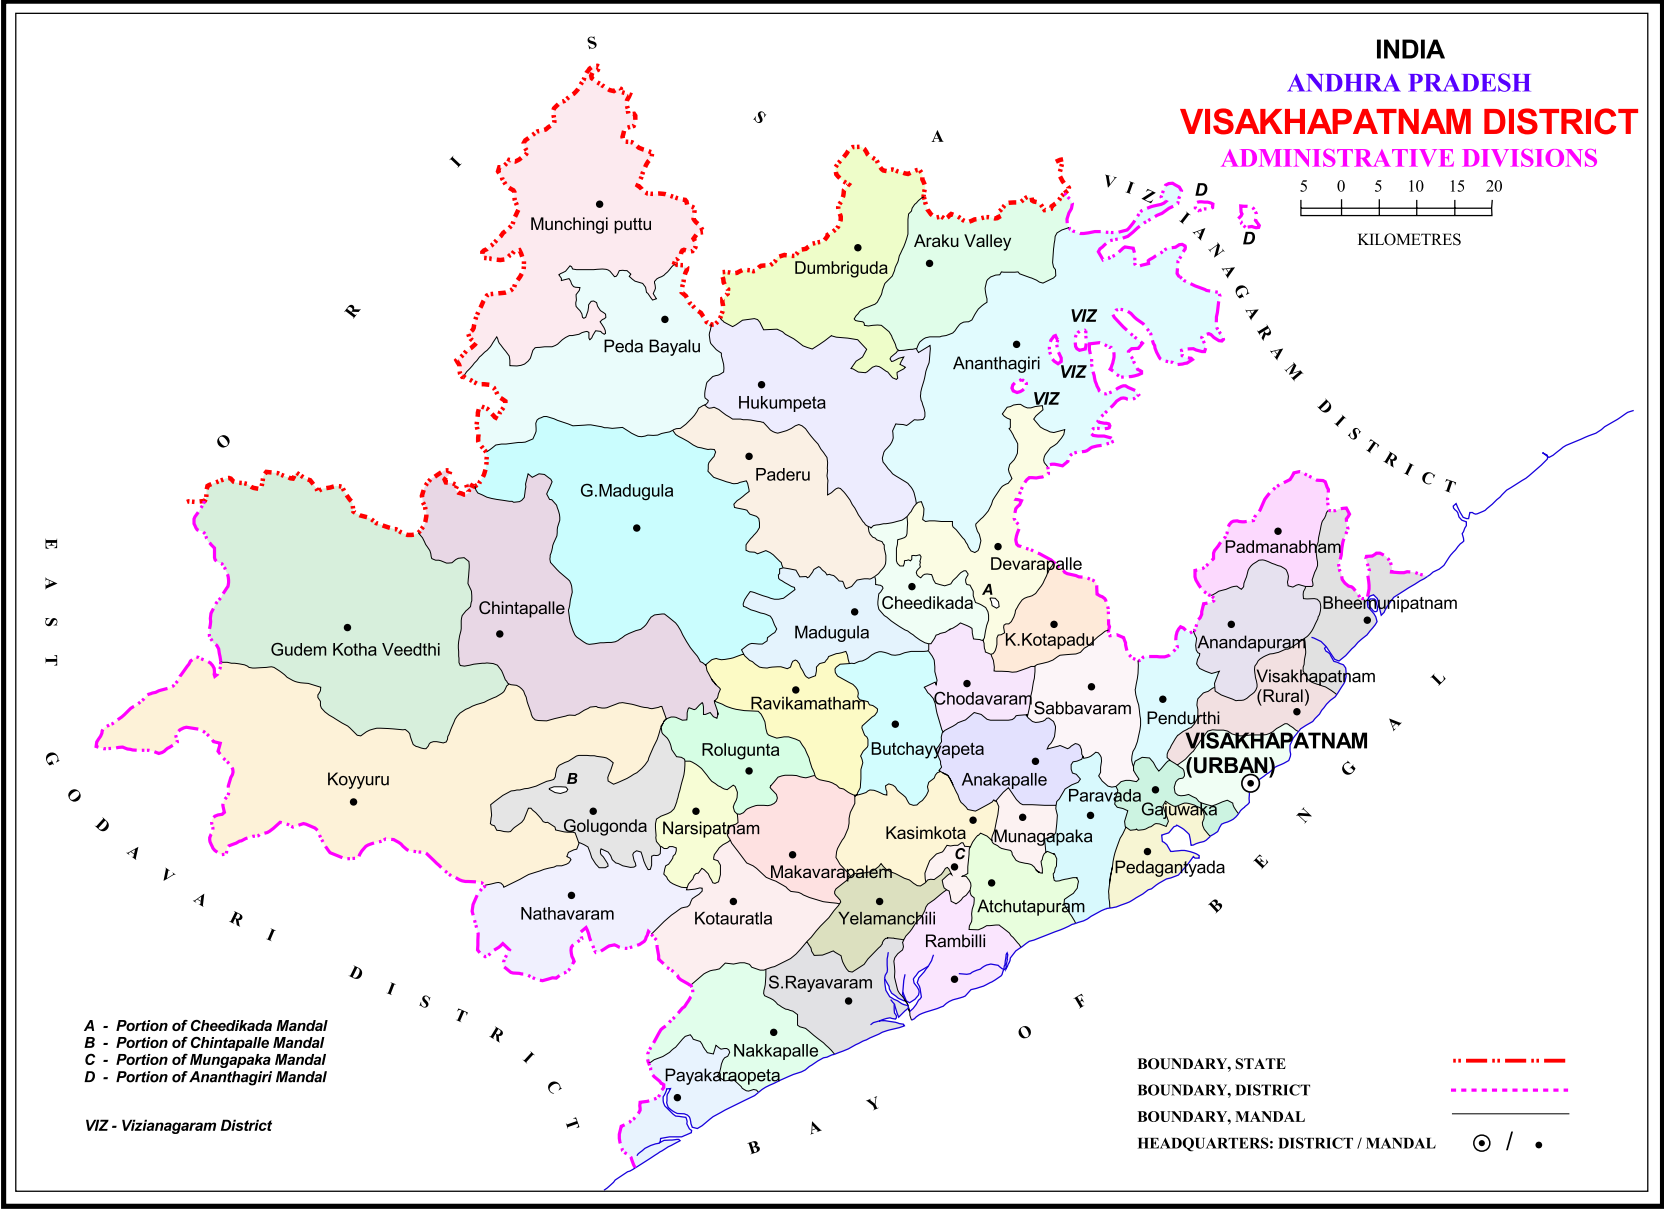

3. Narsipatnam Division:(Concld.)	4.	Rolugunta
	5.	Kotauratla
	6.	Makavarapalem
	7.	Nathavaram
	8.	Nakkapalle
	9.	Payakaraopeta
	10.	Yelamanchili
	11.	S.Rayavaram
	12.	Atchutapuram
	13.	Rambilli

Total number of Towns/Villages :

As per 1991 census, there were 3,258 revenue villages, of which 68 villages were merged in urban areas. Thus there were 3,190 villages among them 3,082 were inhabited and 108 were uninhabited. When compared with 2001 census, the number of revenue villages accounted for 3,294 in rural areas of the district.Among them 3,108 are inhabited and 186 villages are un-inhabited. It shows an increase of 104 villages. The reason for such increase is illustrated below.

1.	New villages formed during the decade	136
2.	Total No. of towns along with its fully included villages declassified	11
3.	Total No. of villages became hamlets	39
4.	Total No. of villages merged in urban areas	2
5.	Total No. of villages attained urban status	2

Among the 23 towns of 1991 Census, 3 were Statutory and the remaining 20 were Census Towns. Among these towns, 5 Census Towns viz., 1.Payakaraopet 2. Chodavaram 3. Madugula 4. Pendurthi and 5.Yelamanchili have been declassified at 2001 Census. Further Venkatapuram, Chinagadila are fully merged and Gopalpatnam town has been partly merged in Visakhapatnam Municipal Corporation at 2001 Census. Aganampudi, Ukkunagaram, Chinagantyada (including Thokada), Vadlapudi, Mindi, Nathayyapalem (including Tungalam), Akkireddipalem and Peda Gantyada (including Dibbapalem) have been merged with Gajuwaka(M) at 2001 census. Kantabamsuguda and Gudivada have been formed as new census towns during 2001 census. Gazuwaka which was a census town during 1991 census has become a statutory town. Thus in 2001 census, there are altogether 9 urban towns (4 statutory and 5 census towns).

Based upon Survey of India map with the permission of the Surveyor General of India.
The territorial waters of India extend into the sea to a distance of twelve nautical miles measured from the appropriate base line.

(vi) Major characteristics of the district, contribution of the district in the form of any historical figure associated with the district.

Visakhapatnam District is one of the North Eastern coastal districts of Andhra Pradesh. The district is situated on the Grand Trunk Road by Road and Rail which is connected from Chennai to Kolkatta. There is a big Railway Junction at Waltair and nearly 40 to 50 Trains are passing through the Junction daily to all over India. The district was originally a part of Kalinga Kingdom. Subsequently conquered by the Eastern Chalukyas in the 7th Century. The district is having a natural gods gift of 11 Agency Mandals named 1.Munchingi Puttu 2. Pedabayalu 3.Dumbriguda 4. Hukumpeta 5. Araku Valley 6. G.. Madugula 7. Paderu 8.Chintapalle 9. Ananthagiri 10.G.K.Veedhi 11.Koyyuru are producing Forest products and selling through out the country through Girijan corporation. The second significant God's gift is Eastern sea coast having a big harbour which is second in India having overshed shelling birds throughout the world.

The district is bounded by a part of Orissa State on the North, partly by Vizianagaram Distirct, on the south, East Godavari district on the West partly by Orissa state and Khammam districts. On the East by Bay of Bengal.

Araku Valley is a natural gift, about 115 km. from Visakhapatnam lying on the Top of the Eastern Ghats. Borra caves being the natural formation at Eastern Ghats is situated in Ananthagiri Mandal at a distance of 100 km. from Visakhapatnam and 10 kms. from Visakhapatnam to Araku Valley road point. The Dandakaranya Balangiri Kirbur Roadway line passes through this village and there is a Railway station at "Borra Caves". The caves popularly known as Borra Caves have geological importance. Deep in the caves there is Sivalingam at river Gouthami. The Gouthami flowing from these caves with natural roaring sounds is a beautiful sight to enjoy. These caves were beautifully electrified and illuminated and a large number of tourists including foreigners are visiting every day. In addition to that the district is having important land marks like 1. Steel Plant 2. Shipyard 3. Dock Yard 4. Sindu Co and Coltax.

The famous pilgrimage centre in Visakhapatnam is situated on the Simhachalam range of hills about 16 kms. from Visakhapatnam connected by both Rail and Road. The Simhachalam temple the man lion incarnation of Vishnu is the most famous, the richest and the best sculptured shrine.The word Simhachalam etymologically means the hill of lion.

Kailasgiri, Yerada Park, Lumbini Park, Ramakrishna Mission and Beach, Dolphins nose, Ross Hills, Victory at sea, Kali Temple, Visakha Museum, Yerada Beach, Gangavaram Beach, Mutyalamma Palem Beach, Rushikonda Beach are also historical places in Visakhapatnam district.

(iv) Major social and cultural events, natural and administrative developments and significant activities during the decade.

During the decade 1991 - 2001, no significant social and cultural events have occured in the district except administrative changes. The following administrative changes have taken place in the district for the decade 1991-2001.

5 Census Towns were declassified i.e 1.Payakaraopet, 2. Chodavaram, 3. Madugula, 4.Pendurthi and 5. Yelamanchili attained rural status. Three Towns viz., 1.Venkatapuram, 2.China Gadila and 3.Gopalapatnam(partly) have been merged in Visakhapatnam(M.Corp.) and eight towns which were merged in Gajuwaka(M). They are 1.Aganampudi 2.Ukkunagaram 3.China Gantyada 4.Vadlapudi 5.Mindi 6.Nathayyapalem 7.Akkireddipalem 8.Peda Gantyada. Two villages i.e., Gudivada and Kantabamsuguda have been upgraded to the level of "Census Towns" during the decade.

As regards Social and Cultural events, the prevention of Child labour, Social Security Schemes, Janmabhoomi, Cheyutha and Spandana programmes are taken place in the District during the decade.

(iii) Physical Features

Visakhapatnam district is one of the North Eastern coastal district of Andhra Pradesh and it lies between 17° - 15' and 18° - 32' Northern latitude and 18° - 54' and 83° - 30' in Eastern longitude. It is bounded on the north partly by Orissa state partly by Vizianagaram district, on the south by East Godavari district, on the west by Orissa state and on the east by Bay of Bengal. The district has an area of 11,161 Sq.Kms. and a population of 38,32,336 as per 2001 census. The density of population is 343 per sq. km. Out of 23 districts in Andhra Pradesh State Visakhapatnam District ranks 14 and 4 in terms of area and population respectively.

Physiography:

The district physiographically has been divided into two distinct regions. The strip of the land along the coast and the interior called the plains division and hilly area of the eastern ghats flanking it on the north and west called the Agency Division. The Agency Division consists of the hilly regions covered by the eastern ghats with an altitude of about 900 meters dotted by several peaks exceeding 1200 meters. The mandals of Paderu, G.Madugula, Pedabayalu, Munchingiputtu, Hukumpeta, Dumbriguda, Arakuvalley, Ananthagiri, Chintapalle, G.K.Veedhi and Koyyuru of erstwhile Paderu, Arakuvalley and Chintapalle taluks block topping with 1615 meters by Sankaram forest. For power generation, there are Machkand and Sileru rivers through which electricity is generated. The other division is the plain division with altitude no where exceeding 75 meters watered and drained by Sarada, Varaha and Thandava rivers and rivlets Meghadrigedda and Gambheeramgedda. Since no major irrigation system exists significant subregional agronomic variations exists in this division. Along the sea shore lies a series of salts and sandy swamps. This coastal line is broken by a number of boldhead lands among them the Dolphins nose is the important one where the natural harbour established at Visakhapatnam and at Rushikonda village Polavaram rock and the big Narasimha hill at Bheemunipatnam. Visakhapatnam administratively is divided into 3 Revenue Divisions and 43 mandals.

Rivers:

There are 3 important rivers in the district are Sarada, Varaha and Thandava and there are no major irrigation tanks available in this district. But there are P.W.D and Z.P.P tanks through which water is supplied for the irrigation purpose in the district. Some of the medium and minor irrigation facilities available are as detailed below.

Medium irrigation -

a. Thandava Reservoir
b. Konam Reservoir
c. Raiwada Reservoir
d. Kalyanapulova Reservoir

Minor irrigation -

a. Ravanapalle Reservoir
b. Gambheeranigedda Reservoir

Climate:

The district has different climatic conditions in different parts of it. Near the coast the air is moist and relaxing but gets warmer, lowers the interior and cools down in the hilly areas on account of elevation and vegetation. April to June are warmest months. The temperature gets down with the onset of south west monsoon and tumbles to a mean minimum of 27.5°C by January after which there is a reversal trend till the temperature reaches mean maximum of 34° C by the end of May.

Source: *Superintending Engineer, Visakhapatnam.*

Table(a)

Maximum and Minimum Temperatures, 1999

Temp^{0}c	Jan	Feb	March	April	May	June	July	August	Sept.	Oct.	Nov.	Dec.
Maximum	27.5	29.6	31.2	31.9	33.7	33.5	32.6	31.0	32.4	31.5	29.4	27.9
Minimum	19.8	22.3	24.7	26.5	28.1	27.1	26.9	25.9	26.4	25.4	23.5	20.0

Rainfall:

The district receives annual rain fall of 1082.5 mm. Agency and Island mandals receive larger rainfall from the south west monsoon while coastal mandals get similarly larger rainfall from the north east monsoon. So this district gets the benefit of both south east and north east monsoon. The following table indicates the season wise and month-wise average rainfall in mm during decade.

Table(b)

Season wise and Month wise District Rain Fall 1998-99

Year	Southwest monsoon					North east monsoon			
	June	July	August	Sept	Total	Oct.	Nov.	Dec.	Total
1998-99	189.4	243.2	220.3	327.5	980.4	303.5	168.8	-	472.3

Year	Winter period			Hot weather period				Year
	Jan.	Feb.	Total	March	April	May	Total	Total
1998-99	-	-	-	-	7.6	93.1	100.7	1553.4

It is noticed from the table that the maximum rain fall received during South West monsoon. The North East monsoon extended upto December and received rain less than that of the South West monsoon.

Paddy is the principal food crop of the district followed by Ragi, Bajra and Jowar. The cash crops raised are Sugarcane, groundnut, sesamum, niger and chillies. Only about 30% of the cropped area is irrigated under ayacut of medium irrigation and minor irrigation tanks since there are major irrigation systems. The rest of the cultivated area is covered under dry crops depending upon the varies of the mansoons. The productivity of crops is low.

Soils:

The soil of the district is classified into three broad categories. 1. Red loamy soils 2. Sandy loamy soils and 3. Black cotton soils. Red loamy soils predominate with a coverage of 69.9% of the villages of the district. Sandy loam soils come next with 19.2% of villages coverage which largely confined to the near by coastal mandals and to certain stretches in the interior mandals of Chodavaram, Narsipatnam, K.Kotapadu and Madugula. Lastly the black cotton soil covers sizable chunks of area in K.Kotapadu, Devarapalle, Cheedikada, Paderu and Hukumpeta mandals. Of these 45% soils in the district are low inorganic content and 55% phosphorus content.

Flora:

More than one third of the district is covered by forest. The forest's area is of moist and deciduous type. The common species available in this forest are Guggilam, Tangedu, Sirimanu, Kamba, Yegisa, Nallamaddi,

Gandra and Vepa etc. Bamboo shrubs are found in plenty. But forest area in the district is gradually decreasing since 1955-56. It is due to Podu practice, indiscriminate grassing and brousing. To stem this, regenaration programmes are being carried out. The latest caper in this regeneration programme is raising of teak, silver, oak trees, coffee plantations as the agency areas are suitable agronomically for coffee growth. In chintapalle and minimuluru, coffee plantations have been raised in about 10,000 acres. By the forest department to conserve soil by the coffee board to evolve cultures suited to non-traditional areas and by the Girijan Corporation and the ITDA to wean out tribals from the pernicious practices of "Podu cultivation".

Fauna:

Fauna consists mostly the following animals i.e carnivore Tigers which are commonly found in the hills, the wild Jackal Kanis Aureus and Fox. Among herbivores, the snow bear is a common sight in Paderu and Chintapalle agency hills. Wild bear is found in the forest adjoining cultivations.

Poreutine, Sambar, Spotted deer and Deer are found in Paderu and Madugula forest ranges. Wild Buffaloes are also found in thicker forest areas of the district. Monkeys are also commonly found in groups in the forest all over the district.

Aves:

Birds that occurred commonly are Jungle fowls, pea fowl, pigeon, myna. Besides migratory birds like ducks, teals also are found in the district. Among snakes, the pythons are seen in thick forest areas in the district. Common snakes like Nagupamu, Katlapamu and Penjeri are also found.

Many kinds of fishes are also seen. The beautiful golden coloured fish is found in Nachakundam pool about 10 kms. away from Paderu which is an attraction to the visitors.

Land and Landuse Pattern:

The following tables indicate total geographical area of the district and land utilization pattern during 2000-2001.

Table(c)

Sl.No.	Particulars	Area in Hectares
1	2	3
1	Forest	478,244
2	Barren and uncultivable land	133,666
3	Land put to non-agricultural uses	99,292
4	Cultivable waste	8,319
5	Permanent pastures and other grazing land	3,049
6	Land under miscellaneous and groves not included in net area sown	32,202
7	Current fallows	28,211
8	Other fallows	7,419
9	Net area sown	342,988
10	Total geographical area	1,134,748
11	Total cropped area	440,659
12	Area sown more than once	93,216

Source: *Chief Planning Officer, Visakhapatnam*

Table(d)

Area, Production, Yield Under Major Crops For The Year 1998-1999

Sl. No.	Name of the crop	Area (in Hectares)	Production (in Tonnes)	Yield per Hectare (in Kgs.)
1	2	3	4	5
1	Rice	118	190	1,608
2	Bajra	18	20	1,108
3	Ragi	36	35	976
4	Maize	8	12	1,556
5	Jowar	2	1	430
6	Korra	-	-	956

20	Tobacco(N)	2	6	2,333

Source: *Director, Directorate of Economics and Statistics, Hyderabad*

The major crops raised in the district are Paddy

(Paddy coarse, Paddy fine), Bajra, Ragi, Horsegram, Chillies, Groundnut and Sesamum in Kharif and Rabi seasons while some others, in one season only.

Soil and Cropping Pattern:

Red loamy soils predominant with a coverage of 69.9% of villages in the district. The soils are poor textured and easily drained. Sandy loamy soils come next within 19.2% villages largely confined to the coastal areas of Nakkapalle, Payakaraopeta, S.Rayavaram, Rambilli, Atchutapuram, Paravada, Visakhapatnam, Pedagantyada, Gajuwaka and Bheemunipatnam mandals and to certain stretches in the interior mandals like Chodavaram, Narsipatnam, K.Kotapadu and Madugula. The remaining 10.9% are other soils. Black cotton soils come up next having sizable chunks of areas in K.Kotapadu, Devarapalle, Cheedikada, Paderu and Hukumpeta mandals. 45% of soils in the district are low inorganic and 55% of soils are with phosphorous content.

Cropping Pattern:

The cropping pattern of principal crops of the district are given below:

Table(e)

Sl.No.	Name of the Crop	Area (in Hectares) 1998-99
1	2	3
1	Paddy	1,18,674
2	Jowar	1,976
3	Bajra	20,587
4	Maize	6,675
5	Ragi	39,879
6	Sama	21,803
7	Redgram	5,431
8	Greengram	5,464
9	Blackgram	5,454
10	Horsegram	7,463
11	Cowgram	3,389
12	Chillies	5,554
13	Sugarcane	42,315
14	Groundnut	19,554
15	Sesamum	15,024
16	Niger	16,917
17	Tobacco	1,432
18	Cashew	27,358

Minerals and Mining:

Visakhapatnam has rich deposits of Bauxite, Apatite, Vermicelite, Calcite, Crystalline Limestone and Quarlzite. Heavy rare earth minerals like illiminite, Monazite, Zircon, Rutile, Siliminite occur in beach sands of Visakhapatnam district. Workable deposits of Laterite, White clay, Mica, Graphite are also available in the district.

The occurance of semi-precious stones has been recently identified both in agency and plains in the district. Crysoxryl Cats eye, Alexandrite, Moonstones and Silminite Cats eye are the semi precious stones available in the district. Beryl, Aquamirine, Zircon, Topaz, Tourmaine are also reported to occur associated with Crysoberyl Cats eye. Alexandrite the most prized variety of crysoberyl occurs in few areas like Chintapaka, Pedamadina villages of Butchayyapeta mandal and Karaka village of Golugonda mandal. Most of the mineral deposits are found in tribal tracts.

Bauxite deposits are found at Sapparla, Jerrela, Gudem, Galikonda, Raktakonda and Chittamgondi villages in Chintapalle, G.K.Veedhi, Ananthagiri and Araku valley mandals of Visakhapatnam district. Estimated reserves of Bauxite deposits in the district are around 600 million ton. The average percentage of Al_2O_3 in these Bauxite deposits is 47%. M/S A.P. Mineral Development Corporation Limited has applied for grant of mining leases for Bauxite in these areas.

Apatite occurs in Y.Seetharamapuram village near Kasipatnam of Ananthagiri mandal. M/S Andhraphospates Pvt. Limited a joint venture with M/S A.P.Mineral Development Corporation Ltd., is carrying on mining operations for Apatite. This is the only Apatite mine in operation in the entire south India. Rich deposits of Calcite and crystalline limestone are found in association with Mica in Borra group of villages, Nimmalapadu, Valasi villages in Ananthagiri mandal. The reserves are estimated to be around 20 million tonnes.

Good deposits of Graphite were worked out in Ananthagiri mandal, Narava village of Pendurthi mandal, Pydipala village of Makavarapalem mandal. Quartz deposits are also identified in Donkarai village of Bheemunipatnam mandal, Mukundapuram village of Anandapuram mandal and Thimmapuram village of Padmanabham mandal, Pindarangi, Gavarapalem, Dalivalasa, Santhapalem, Kinthada, Marrivalasa

villages of K.Kotapadu mandal, A.Kothapalle village of Devarapalle mandal, Cherakam village of Kasimkota mandal and Rachapalle village of Makavarapalem mandal. This is mostly useful for Ferro alloys industries and also used in Visakhapatnam steel plant.

Vermiculite occurs in Y.Seetharamapuram village of Ananthagiri mandal in the area held by M/s Andhra Phosphates Pvt. Ltd. White clay deposits are under exploitation in Malasingaram village of Araku mandal, Bennavolu village of Chodavaram mandal. This is mostly useful in Ceramic Industries.

In Araku and Ananthagiri mandals Red and Yellow Ochre deposits are identified. Limeshell is available in Vadacheepurupalle village of Paravada mandal which is useful for manufacture of chemical grade lime.

Laterite deposits are under exploitation in Haripuram and Panchadarla villages of Rambilli mandal and Rajupakalu village of Chintapalle mandal. Beach sands containing heavy minerals are identified all along the coast from Annavaram village of Bheemunipatnam mandal upto Rishikonda village which is OG to Visakhapatnam (Municipal Corporation).

Charnakites, Khondalites and Leptinite are the common rock types available in plenty all over the district and the same are useful for construction purposes and as road metal and railway ballast.

Semiprecious stones occurance are reported in Chintapaka and Pedamadina villages of Butchayyapeta mandal, Pappusettipalem, Karaka, villages of Golugonda mandal, Asakapalle village of Sabbavaram mandal M.Vallapuram and Pittigedda villages of Madugula mandal.

Animal Husbandry :

Animal husbandry is an important allied economic activity next to agriculture. In order to promote non-farm activity particularly among rural poor, the IRDP, ITDA and other financing agencies assisted them through liberal subsides and margin money through economic benefit programme.

The live stock population as per 1999 census was as follows.

Table(f)

Sl.No.	Description	1999 (No.in lakhs)
1	2	3
1	Working animals	4.42
2	Milch animals	3.67
3	Sheep	1.83
4	Goat	2.38
5	Poultry	26.93

The Visakha Livestock Development Association (VLDA) was started functioning from 1998 with an objective to strive for systematic methods of genetic improvement of cattle and buffaloes and to promote quality artificial insemination services at farmer's door steps. As a result,120 Artificial Insemination centers have been established in 1999 as against 84 in 1990 with frozen semen for providing health care to the cross breed and other livestock. 16 veterinary hospitals and 140 other veterinary institutions as against 14 and 118 respectively in 1990 are functioning in the district. For better feeding practices 89.5 acres of land was developed for raising of fodder and 2972.35 tonnes of fodder was produced during the year 1998-99.

The following institutions are functioned in the district for catering veterinary aid for the year 2000-2001.

Table(g)

Sl.No.	Name of the veterinary hospital	Total number
1	2	3
1	Veterinary poly clinic	1
2	Veterinary hospitals	16
3	Veterinary dispensaries	64
4	Rural livestock units	76
5	Others	8

Table(h)
Poultry Population and Livestock at the 16th Quinquennial Census, 1999
Visakhapatnam District

Sl.No	Particulars	Total

Dairy Development :

The district has 3.67 Lakh milch animals in 1999 as against 2.35 in 1987 out of which 2.11 lakhs in 1999 and 1.58 in 1987 are milk giving animals which constitute the main source of supply of milk in the district. In order to meet the milk needs of the people, the Vijaya Visakha Dairy was established in 1977 with an installed capacity of 2.50 lakhs liters per day. The dairy has increased 24 milk routes from 6 in 1990 and 498 milk producers Co-operative societies were formed as against 321 in 1990 with 440 milk collection centers by 1999 as against 300 in 1990 with an average monthly procurement of 39.89 lakh liters in 1999 as against 22.73 lakh liters in 1990.

The Dairy has established a milk powder plant with a cost of Rs. 8 crores and tetra pack plant with 7 crores for hygienic production of milk and other milk products under the expansion programme. The dairy had constructed 250 MPCS buildings with Rs. 2.50 crores in the district by the end of 1999 and this was a good achievement in the district.

The statement below shows the particulars of dairy development of Visakhapatnam district for the year 2000-2001.

Fisheries:

It is another important economic activity of the fishermen population living in about 59 fishery villages and hamlets on coastal line. The district has 132 kms. of marine coast and there are 7,791 inland water bodies with a water spread area of 27,205 hectares for fishery development. Marine fish landing covers 22,902 M.tons and inland fish production covered 162 M.tons during 1998-99.

Prawns, Sardines, Catfish, Mackerels and Ribbon fish constitute the main varieties in the landings. There are 96 trawlers and 480 mechanised boats, 3 fish seed farms which have produced 33.4 lakhs seed during 1999 through inland water bodies pisciculture progamme.

By 1999 the number of fishermen Co-operatives have gone up to 120 from 72 in 1991 increasing the strength of membership to 16,315 from 10,535 in 1991.

The A.P Shrimp Seed Production Supply and Research centre has established a hatchery complex at Mangamaripeta in an area of 14 acres. The objective of the project is to produce 40 million stockable tiger prawn shrimps seed of PL-20 size annually. The total outlay of the project is 2.95 crores and equipped with PCR machine which is a decease diagnostic lab.

The table given below shows different species and its production for the year 2000-2001. Prawns is the highest production of 1794 M.tons for the year 2000-2001.

Table(j)

Inland Fish Production During the Year 2000-2001

Industries:

Industrial development is conspicuous in Visakhapatnam district as several concerns have been established. There are 61 large and medium scale industries existing with an investment of Rs.10,977 crores and providing employment for 48,907 persons in the district by 1999. There are 4 sugar factories and one jute mill under large scale agrobased industries employing 7,334 persons. There are 486 rice mills and 3,537 forest and agrobased units employing 32,792 persons. There are 437 leather and foot wear units providing employment to 4,100 persons under small scale industries in the district by 1999.

There are 11 marine based industries established for processing of marine products and sea food products as there is a vast scope for large quantities of fish and prawn catch at sea coast helped in setting up of medium and small scale industries in the district.

The APIIC has established 4 industrial estates located at Visakhapatnam, Anakapalle, Araku, Paderu and industrial estate at Autonagar near BHPV, Visakhapatnam and an industrial development area with ABCD&E blocks close to the same area and another in Pedagantyada. At Parvada another IDA is under recent expansion programme. So far 184 sheds have been allotted by APIIC as against 159 sheds in 1990 in the district.

The Visakhapatnam steel plant established in 1991 is a gigantic steel plant with an installed capacity of 3 million tonnes of Pig iron, 2.8 million tonnes of Saleable steel and 8.32 lakhs tonnes of by products with an investment of 7,466 crores employing about 17,500 persons. The by-products of steel plant are Nutcoke, Coaltar, Anthracene oil, Toluene, Xylene etc. This also provides indirect employment to the public through consumer goods, industries, trade and services etc.

The Visakhapatnam Port has a natural harbour which is protected by Dolphins hill and Rose hill having inner and outer harbours and had given a fillip to industrial development. It has 11 quarry berths, 3 jethy berths and one mocring berths. It also has the deepest harbour of the country backed by the modern automatic loading system.

In the district, the A.P.Khadi and Village Industries Board have provided under tie with the financial agencies for the beneficiaries as detailed below.

2. G.M.D.I.C, Visakhapatnam

The Khadi and Village Industries Board, Visakhapatnam have financed 54.10 lakhs for 39 units, providing employment for 130 members.

There are 2,308 small scale industries in the district with a capital investment of Rs. 2,905.91 lakhs which also provided employment to 24,871 persons. The details of small scale industries are furnished below.

Table(l)

Number of Small Scale Industries in Visakhapatnam District

Sl.No.	Category	Number of units	Investment (Rs. In lakhs)	Employment (No. of Persons)
1	2	3	4	5
1	Agro & Food based	244	682.38	2,675

Source: *G.M.District Industries Center, Visakhapatnam*

In order to encourage small and tiny units to the rural poor in and around Visakhapatnam, the financial Agencies like D.R.D.A, I.T.D.A., SC, BC Corporations and Women Finance Corporations have come forward for establishment of small scale and Cottage Industries by giving margin money and subsidies to the beneficiaries.

Small Scale and Cottage Industries:

There are 12,304 small scale and tiny units with an investment of Rs. 10,287 lakhs providing employment to 1,40,574 persons in 1999 as against 3,772 units with an investment of Rs. 3,571 lakhs with an employment of 31,820 persons in 1990 in the district. These units include manufacturing of Engineering materials, electrical and electronics, plastics, rubber, paper board, printing chemical textiles etc.

The total number of Registered factories in the district in 1999 have increased to 983 with 71,365 workers as against 585 with 49,636 workers in 1990.

Future Expansion:

About 11 large and medium scale projects are awaiting for active implementation with an investment of Rs. 970.982 lakhs. These industries include power generation, sugar, low ash, metallurgical coke, petroleum products, ultra pure ferric oxide etc.

Free Trade Zone (VEPZ):

The Visakhapatnam Export Processing Zone(VEPZ) is a boon to the exporters by offering high-technic facilities is situated at Duvvada near Visakhapatnam spreading over 360 acres which came into existence in 1995 equipped with 33/11 KV sub-station for un interrupted power supply supported by 125 KWA backup power generator. The important feature of VEPZ is the possession of high speed data cum facilities through dedicated 2 MB optic fiber link between VEPZ and to the earth station of STPI Hyderabad for effective and speedy communication network for soft export ventures.

Hindustan Petroleum Corporation Ltd.:

Hindustan Petroleum Corporation Ltd. (Visakha Refinary) established in 1974 is playing a significant role in the Nation's economic development and growth. The Hindustan Petroleum Corporation Ltd., operates with a capacity of 4.5 Million Tonnes per annum and produces various types of petroleum products viz,. Liquid Petrolium gas, Petrol, Diesel, Kersone, Propylene Naptha, Aniation Turbine Fuel(ATF), Furnace oil bitumen, Low Sulpher Heavy Stock, Naptha Mineral, Turpentine oil, Jute oil, Batchingoil, Hexane, Wash oil, Tar and many other products.

The crude Thruput produced by Visakha refinery is 9.07 million tonnes and pipeline Thruput is 5.05 million tonnes in 1999.

Existing Industries :

At present in Visakhapatnam district, 68 large and medium scale industries are existing of which 7 comes under public sector undertakings, 5 under Co-operative sector units. The remaining 56 units come under Co-operative sectors.

The important 7 industries existing under large and medium scale units under public sector started with a total capital investment of Rs. 8,06,206.67 lakhs providing employment to 27,152 persons. The particulars are as detailed below.

Table(m)

Sl.No.	Name and address	Investment (Rs. in lakhs)	Employment (No. of Persons)
1	Hindustan Petroleum Corporation Ltd., Visakhapatnam	22,413.17	1146
2	Hindustan Zinc Ltd., Visakhapatnam	14,933.50	1,515
3	Hindustan Shipyard Ltd., Visakhapatnam	14,088.00	7,638
4	Visakhapatnam steel plant, Visakhapatnam	7,46,600.00	16,300
5	Bharat Heavy Plates & Vessels Ltd., Visakhapatnam	5,847.00	46
6	Marine and Communications Electronic (India) Ltd., A.P.I.E, Auto nagar, Visakhapatnam	780.00	499
7	Ferroscrap Nizam Ltd., Steel plant premises, Visakhapatnam	1,545.00	8
	Total	**8,06,206.67**	**27,152**

Transport:

The total road length in the district is 4,634 kms. in 1990 and 5915 kms. in 1999. There were 1,38,331 vehicles in 1990 on road which has increased to 2,73,544 in 1999. Of these 2,32,590 are motor cycles, scooters and mopeds which constitute 85.0% of the total. The APSRTC has increased their fleet from 636 buses in 1990 to 834 in 1998-99.

The following table indicates the particulars of both surfaced and unsurfaced roads under all management by 1999.

Table(n)

Sl.No.	Category	C.C. Road	Black top	Metal	Un-metal	Total
1	2	3	4	5	6	7
1	Roads and Buildings	6	1,477	81	5	1,569
2	Z.P.M.P.P & Village roads	48	435	1,662	2,201	4,346
	Total	**54**	**1,912**	**1,743**	**2,206**	**5,915**

Visakhapatnam port with its natural harbour protected by Dolphins hill and Ross hill open for round the clock navigation ranks first among the major ports. On the east coast has a protected basin of 200 hectares, encompassed by break waters of 412 meters on North 1,543 meters on south and 1,070 meters on East. It has 12 multipurpose berths, 1 oil mooring berth, 2 ore berths, 2 oil berths, 1 fertilizer berth. It is the deepest harbour of the country backed up by the sophisticated automatic loading system. Visakhapatnam is connected by air with Hyderabad, Mumbai, Chennai, Bhuvaneswar, Kolkata and New Delhi. The rail road link in the district covers 180 kms. The south eastern railway of Waltair division at Visakhapatnam has facilitated easy transportation for exporting iron ore to other countries through Visakhapatnam port. The Visakhapatnam port is also maintaining arterial railway line with a net work of 230 Kms. track with 19 siding points connecting marshalling yards, port area, major industries and stock yards providing a good transport facility for exports and imports.

The following statement shows the particulars of railway stations and route length of Visakhapatnam district.

Table(o)

Sl.No.	Item	Unit No.	1999-2000
1	2	3	4
1	Railway station	No	21
2	Route length		
	a.Broad gauge	Kms	179.93
	b.Meter gauge	----	----
	c.Narrow gauge		

Source:1. Divisional Railway Manager, SC Railway, Vijayawada
2. Divisional Railway Manager, SE Railway, Visakhapatnam

Electricity and Power :

The district receives electric power supply from 2 major projects viz. Machkund Hydro Electric Project with an installed capacity of 120 M.W with A.P share of 84 M.W which is a joint venture of A.P Government and Orissa state and Upper Sileru Hydro Electric Project with an installed Capacity of 240 M.W located at Upper Sileru town of G.K.Veedhi mandal, which is operated by A.P.S.E.B.

The total connected load in the district was 8,44,059 K.W of which the high tension power supply accounts for 40.41% which is consumed by main centers while the remaining 59.59% is L.T power supply. All the villages in the plains are electrified. Out of 2,365 tribal villages, 1,110 villages are electrified with conventional lines and the remaining 1,255 villages are electrified with solar photo Voltaire panels.

The increase in the lengths of the transmission lines during the decade by 1999 in the district is as follows.

Table(p)

Length of Different Transmission Lines Upto 1999

Sl.No.	Category	Length of Transmission lines (in Kms.)	
		1990	1999
1	220 KV	244.34	297.00
2	132 KV	343.09	395.52
3	33 KV	654.54	1,259.49
4	11 KV	3,332.31	4,335.46
5	LT	7,661.39	11,953.08

Category-wise power consumption for the year 1999-2000 is as follows.

Table(q)

Category-Wise Power Consumption

Sl.No.	Category	Consumption 1999-2000
1	2	3
1	Domestic	353.93
2	Non-domestic	70.78
3	Industrial	37.48
4	Cottage Industries	0.29
5	Agricultural	94.23
6	Public lighting	20.57
7	General purpose	5.53

As seen from the table given below, the highest number of services with highest connected load is under domestic category.

Table(r)

Category- Wise Number of Services and Connected Load

Sl.No.	Category	No. of services	Connected load (M.W)
1	Domestic	5,22,639	392.85
2	Non-domestic	46,654	42.27
3	Industrial	5,799	57.93
4	Cottage Industries	200	0.60
5	Agricultural	21,164	63.48
6	Public lighting	3,499	2.72
7	General purpose	3,297	2.34

Agriculture :

Agriculture is the main stray of our economy and about 70% of the people depend upon agriculture for their lively hood. Since, rice is the stapple food for most of the people and paddy is therefore the principal crop in the district followed by ragi, bajra, jowar and cash crops like sugarcane, groundnut, seasmum etc.

The following statement indicates yield per hectare in Kgs. for the following principal crops in the district.

Table(s)

Sl.No.	Name of the crop	Yield per hectare in (Kgs.)	
		1989-1990	1998-1999
1	Rice	1,840	1,334
2	Bajra	761	1,148
3	Jowar	541	319
4	Ragi	837	1,023
5	Groundnut	1,079	1,256
6	Sugarcane	52,178	43,585

The local varieties are replaced with high yielding and improving variety for improving the economy and assured agricultural production in the district. The progress achieved under high yielding varieties in 1991-2001 decennium is given below.

Table(t)

Sl No.	Crop	Normal extent	Area under HYV at the beginning of 1991 (Hect)	Area under HYV at the beginning of 2001 (Hect)
1	Paddy	1,12,201	78,507	89,575
2	Bajra	23,020	24,344	4,186
3	Groundnut	24,768	33,778	18,289
4	Ragi	38,849	30,557	33,980
5	Sugarcane	41,887	31,221	41,997
6	Maize	7,273	3,647	7,050
7	Pulses	30,215	17,540	19,466

In the above statement it is seen that the high yielding of assured production in the district at the beginning of 1991 has been totally achieved with the higher yielding in the beginning of 2001 in all crops except Bajra.

The following statement indicates the percentage of holdings by marginal and small farmers.

Table(u)

Sl.No	Holdings by marginal and small farmers	Percentage of holdings	
		1991	1996
1	Percentage of holdings of marginal farmers in the total holdings of the district	67.3	70.5
2	Percentage of holdings of small farmers in the total holdings of the district	17.4	17.0
3	Percentage of holdings of other farmers in the total holdings of the district	15.3	12.5

The percentage of average area under the value crops to total cropped area in the district during 1989-90 to 1998-99 has been increased for all the cash crops except for chillies as detailed below.

Table(v)

Sl. No.	Name of the crop	% of average area under the crop to total cropped area	
		1989-90	1998-99
1	Sugarcane	7.6	8.4
2	Chillies	1.3	1.3
3	Cashew	2.9	4.5
4	Niger	3.6	3.8

Irrigation :

Under irrigation a net area of 158,973 hectares was sown in the district in the year 2000-2001 of which the total net area irrigated is !,20,873 Hectares and 38,167 hectares of land irrigated more than once. The area irrigated by source is given below.

Table(w)
Source-Wise Area Irrigated 2000-2001

Sl.No.	Category of Source	Area (in Hectares)
1	Canals	46,508
2	Tanks	36,121
3	Wells	4,597
4	Tube wells	7,148
5	Lift irrigation	620
6	Other sources	25,879
7	Area irrigated more than once	38,167
8	Gross area irrigated	1,58,973
9	Net area irrigated	1,20,873

The major crops raised in the district mainly are Rice, Maize, Ragi, Chillies, Sugarcane, Fruitbanana, Vegetables, Groundnut etc. These are raised both in Rabi and Kharif seasons. Some of the crops were raised in one season only.

Forestry :

In Visakhapatnam district forest occupied 4.77 lakh hectares forming 42.1% of the total geographical area of the district. In order to develop forests and also to keep proper environmental balance, teak and coffee plantations are raised in the forest areas. Teak plantation was raised in 3,631 hectares. Further coffee plantation was raised by APFDC in 4043 hectares in 5 coffee divisions. (in R.V.Nagar West, R.V.Nagar East, Chintapalle North, Chintapalle South and Paderu) and by ITDA in 10 mandals of the Paderu Division except Koyyuru Coffee plantations were raised in 9,175 hectares by 2,000 as against 7,225 hectares in 1991. Pepper crop also raised in the area of 4,000 hectares with 65,000 standards of pepper vines in 1998-99 . The bamboo area occupied in 1.50 lakh hectares. The Cashew plantation also raised in 6,443 hectares as against 1,825 hectares in 1990 of forest sector. The mixed plantation also raised through V.S.S.(J.F.M) in 136,577 hectares in 1999. Inorderto uplift tribals, the G.C.C have undertaken the procurement of M.F.P such as Tamarind, Addaleaf, Shikakai, Honey, Soapnuts, Gumkaroya, Cleaning nuts etc. from commodities and other domestic requirements are supplied to the tribals especially in forest areas. Thus the receipts by way of forest revenue has increased to Rs.159.20 lakhs by 1999 as against Rs.134.14 lakhs in 1990.

The details of forest revenue for each of the production for the year 2000-2001 are as furnished below.

Table(x)
Product Wise Forest Revenue

Sl.No	Name of the product	Year 2000-2001 (Rs. In lakhs)
1	Timber	185.48
2	Firewood	0.13
3	Bamboo	116.29
4	Beedi leaves	-
5	Miscellaneous	53.25

Table(y)

(vii) Census Concepts

Population census is a great national task, which we are called upon to undertake for every ten years. In India, the 1872 marked as the beginning of modern census taking, when it was conducted at different points of time in different parts of the country. From 1881 onwards a complete and synchronous census was held. The present Census is a land mark administrative event, as this has generated a historic bench mark data to shed light on the state of nation's society and other demographic, economic and socio-cultural data which simultaneously makes transition from one century and millennium to the next. The 2001 Census was the 14th decennial Census of India and the 6th after independence.

The Census of India was conducted in two phases namely, I) House-listing Operations II) Population Enumeration. The first phase was conducted during April-June,2000 in different States/Union territories depending upon their local conditions. In Andhra Pradesh it was conducted from 11th May to 5th June 2000. The house-listing operations provide a base for the population enumeration, besides providing comprehensive database for assessing condition of human settlements, the housing deficit and future housing requirement for formulation of housing policies. This also provides a massive data on amenities available to the households which was much needed by various departments of the Central and State Governments and other Non-Governmental agencies, for planning and development in different sectors of the economy. Hence house-listing operation is a pre-requisite for population enumeration.

Unlike 1991 census, there are significant changes in house-listing schedule for 2001 census. The questions on condition of the census house, number of married couples living in the household and having independent room for sleeping, bathroom and kitchen within the house and using the means of entertainment and communication facility of radio, transistor, television, telephone and possessing of means of transport like bicycle, scooter/motor cycle, car/jeep/ van and availing of banking services by the household are added to the present house-list schedule.

The main population enumeration was conducted from 9th February to 28th February, 2001, followed by revisional round from 1st March, 2001 to 5th March, 2001, to update the data with reference to 00.00 hours of 1st March, 2001. The houseless population was enumerated at midnight of 28th February 2001.

The household schedule and individual slip of 1991 census were replaced by household schedule of A3 size containing three parts to collect the information from each household at 2001 Census. In the present Census, the house-hold schedule is designed in such a way to suit the requirement of capturing the data through scanners. At the 2001 Census, for the first time **Image-based data capturing technology through scanners and computer network has been introduced** with a view to provide error free data by avoiding keying in of data.

The house-hold schedule broadly covered the individual particulars under four major headings 1) General and Socio cultural characteristics (Q(1 to 15), 2) Characteristics of workers and non-workers 3) Migration characteristics (Q.21 to 22)and 4) Fertility particulars (Q.23). Part-I deals with location code particulars, Part-II relates to Individual particulars with 23 questions, consisting of 1 to 39 columns, Part-III covers on cultivation/plantation particulars like land possessed, type of tenancy enjoyed by the household/ household member. Some additional questions 1) on disability, 2) Particulars relating to travel to the place of work a) distance from residence to place of work, b) mode of travel to the place of work, 3) household engaged in cultivation/plantations are added in the present household schedule.

Marital status, mother tongue, religion and literacy status (for 7 and above) migration, fertility particulars

and the identification of SC/ST are repeated but the age at marriage is also ascertained for males at 2001 Census. For the people, who are attending educational institutions, a separate code has been provided to record the Vocational institute, other institute and literacy centre in addition to school/college.

Criteria for enumeration of persons in a particular household:

a) All those who normally reside and are present in that household during the entire period of enumeration from 9th February to 28th February, 2001, b) also those who are known to be normally residing and had actually stayed during a part of the enumeration period (Feb.9th to 28th Feb.2001) in the household but are not present at the time of enumerator's visit, c) also those who were known to be normally residing and are not present at the time of enumerators visit but are expected to return before 28th Feburary,2001 and d) Visitors who are present in the household censused and are away from the place of their usual residence during the entire enumeration period. For the purpose of enumeration, such visitor will be treated as normal resident of the household in which they are actually found during the enumeration period provided that they have not been enumerated elsewhere. One of the essential features of population enumeration in the second phase is each person enumerated and her/his individual particulars are collected at a well defined point of time.

Location Code Number

The procedure of assigning location code number in a zigzag manner starting from North-west corner and ending at South-east corner, is adopted for 2001 Census. The Andhra Pradesh state was assigned Location Code No.28 as against 02 in 1991 census. In a similar fashion, the location code numbers of the districts in Andhra Pradesh state have been changed and revised location code numbers were allotted in order of geographical contiguity, beginning from North-West point of the state and ending at the South East point. Thus the Adilabad district has been assigned Location Code No. as 01 and Chittoor district Location Code No. 23 at 2001 Census. Accordingly, the location code numbers of mandals in each district have been changed for 2001 census.

An important change at 2001 census is allotment of permanent location code numbers to all the villages in the state. Since the whole data ie., Village and Town Directory information is also being computerized, the allotment of permanent location code numbers would facilitate the data users for easy access and retrieval the data of a particular village at micro level by the click of a mouse. The Permanent Location Code Number (P.L.C. No.) is an eight digit number starting with 00000100 in a zig-zag fashion from North-West corner in the first Mandal of Adilabad district and run continuously for all the districts while ending South-East corner to the extent possible at last village in the last Mandal of Chittoor district. Since this State has 28,123 villages at 2001 census, last village of last mandal in Chittoor district will have PLC No.02812300. A significant provision has been made to allot PLC Nos. to newly created villages if any in future. The last two digits of PLC No's are kept as '00' only to provide for additional villages. For example a new village has been created after PLC No 001231400, it will be assigned PLC No. as 001231401. Further, it is indicated that there is a provision for a minimum of 99 villages adjoining to a particular village allotting Permanent Location Code.

For urban areas also location code structure has been changed in a minimum way. Earlier, for towns in a district location code numbers were given roman letters in alphabetical order. This time, while assigning roman numbers instead of going to alphabetic order, location code numbers were given from North-West part of the district ending at South-East of the district to the extent possible.

Therefore, the PLC numbers of the villages and location codes of urban areas have under gone change in Census of India, 2001 as compared to 1991. In case an urban area is spread over in two districts, the location code of urban areas in both the districts will be the same irrespective of zigzag manner.

Building

A building is generally a single structure on the ground. Sometimes it is made up of more than component unit which are used or likely to be used as dwellings(residences) or establishments such as shops, business houses, offices, factories, workshops, worksheds, Schools, places of

entertainment, places of worship, godowns, stores etc. It is also possible that building which have component units may be used for a combination of purposes such as shop-cum-residence, workshop-cum-resi-dence,office-cum-residence,etc.. Usually a structure will have four walls and a roof. But in some areas the very nature of construction of houses is such that there may not be any wall. Such is the case of conical structures where entrance is also provided but they may not have any walls. Therefore, such of the conical structures are also treated as separate buildings.

Permanent houses:

Houses, the walls and roof of which are made of permanent materials. The material of walls can be any one from the following, namely, galvanized iron sheets or other metal sheets, asbestos sheets, burnt bricks, stones or concrete. Roof may be made of from any one of the following materials, namely, tiles, slate, galvanized iron sheets, metal sheets, asbestos sheets, bricks, stones or concrete.

Semi-permanent houses

Houses in which either the wall or the roof is made of permanent material and the other is made of temporary material.

Temporary houses

Houses in which both walls and roof are made of materials, which have to be replaced frequently. Walls may be made from any one of the following temporary materials, namely, grass, thatch, bamboo, plastic, polythene, mud, unburnt bricks or wood. Roof may be made from any one of the following temporary materials, namely, grass, thatch, bamboo, wood, mud, plastic or polythene.

Dwelling Room

A room is treated as a dwelling room if it has walls with a doorway and a roof and should be wide and long enough for a person to sleep in, i.e. it should have a length of not less than 2 metres and a breadth of at least 1.5 metres and a height of 2 metres. A dwelling room would include living room, bedroom, dining room, drawing room, study room, servant's room and other habitable rooms. Kitchen, bathroom, latrine, store room, passageway and verandah which are not normally usable for living are not considered as dwelling rooms. A room, used for multipurpose such as sleeping, sitting, dining, storing, cooking, etc., is regarded as a dwelling room. In a situation where a census houses is used as a shop or office., etc., and the household also stays in it then the room is not considered as a dwelling room. But if a garage or servant quarter is used by a servant and if she/ he also lives in it as a separate household then this has been considered as a dwelling room available to the servant's household. Tent or conical shaped hut if used for living by any household is also considered as dwelling room. A dwelling room, which is shared by more than one household, has not been counted for any of them. If two households have a dwelling room each but in addition also share a common dwelling room, then the common room has not been counted for either of the households.

Census house

A `census house' is a building or part of a building used or recognised as a separate unit because of having a separate main entrance from the road or common courtyard or staircase, etc. It may be occupied or vacant. It may be used for residential or non- residential purpose or both.

In certain peculiar situations, the manner in which buildings and census houses were identified for numbering in the field by the enumerators is described hereunder:

Sometimes a series of different buildings are found along a street which are joined with one another by common walls on either side looking like a continuous structure.

These different units are practically independent of one another and are likely to have been built at different times and owned by different persons. In such cases, though the whole structure with all the adjoining units apparently appears to be one building, each portion was treated as a separate building and its constituent units as separate census houses.

On the other hand, one may come across cases, particularly in large cities of multi-storeyed ownership flats. In these cases while the structure looks like one building, different persons own the flats. In case of such multi-storeyed structures, having a number of flats owned by different persons, the entire structure was treated as one building and each flat as a separate census house.

If within a large enclosed area, there are separate buildings owned by different persons then each such building is treated as a separate building. There can be a situation where within an enclosed compound there are separate buildings owned by an undertaking or company or even government that are actually in occupation of different persons. For example, Indian Oil Corporation colony where the buildings are owned by the Corporation but these are in occupation of their employees. Each such building was treated as a separate building. But if in any one of these buildings there were flats in occupation of different households, each such flat was reckoned as a separate census house.

Sometimes if becomes difficult to apply the definition of census house strictly in certain cases. For example, in an urban area, if a flat has five rooms, each room having direct entrance from the common staircase or courtyard. By definition, this has to be treated as five census houses. If all these five rooms are occupied by a single household it was not realistic to treat them as five census houses. In such a case,`singleness' of use of these rooms along with the main house should be considered and the entire flat was treated as one census house. On the other hand, if two independent households occupy these five rooms, the first household living in 3 rooms and the second household occupying 2 rooms, then considering the use, the first three rooms together were treated as one census house and the remaining rooms as another census house. But if each room was occupied by an independent household, then each such room was treated as a separate census house.

In case of hostels, hotels, etc., even if the door of each room in which an inmate lives opens to a common verandah, staircase, courtyard or a common room, as it happens almost invariably, the entire hostel/ Hotel building was treated as one census house. but if such hostels/ hotels have out- houses or other structures used for different purposes or the same purpose, then each such structure attached to the main hostel / hotel was treated as a separate census house.

In some parts of the country, in rural areas, the pattern of habitation is such that a group of huts, located in a compound, whether enclosed or unenclosed, is occupied by one household. While the main residence may be located in one hut, other huts may be used for sleeping, as a kitchen, bath room, baithak, etc. Though each of the huts was a separates structure, they form a single housing unit and therefore, have to be treated collectively as one building and one census house. If some of the huts are used by one household and the others by a second household as residence, then the two groups of huts were treated as separate census houses. However, if there were also other huts in the compound used for other purposes and not as part of the household's residence such as, cattle shed, workshed, etc., these were treated as separate census houses.

On the other hand, in urban areas, where more than one structure within an enclosed or open compound (premises) belonging to the same person, e.g., the main house, the servant's quarter, the garage, etc., only one building number was given for this group and each of the constituent a separate census house number.

Only cases where a structure with roof and pillars has come up was treated as a building.

Village

The basic unit for rural areas is the revenue village which has definite surveyed boundaries. The revenue village may comprise of one or more hamlets but the entire village is treated as one unit for presentation of data. In un-surveyed areas, like villages within forest areas, each habitation area with locally recognized boundaries is treated as one village.

Rural - Urban area

The data in tables on Houses, Household Amenities and Assets are presented separately for rural and urban areas. The unit of classification in this regard is `town' for urban areas and `village' for rural areas. In the Census of India 2001, the definition of urban area adopted is as follows:

(a) All places with a municipality, corporation, cantonment board or notified town area committee, etc.

(b) A place satisfying the following three criteria simultaneously:

i) A minimum population of 5,000;

ii) At least 75 per cent of the male working population engaged in non-agricultural pursuits ; and

iii) A density of population of at least 400 per sq. km. (1,000 per square mile).

For identification of places which would qualify to be classified as 'urban' all villages, which, as per the 1991 Census had a population of 4,000 and above, a population density of 400 persons per sq. km. and having at least 75 per cent of male working population engaged in non-agricultural activity were considered. To work out the proportion of male working population referred to above against b) (ii), the data relating to main workers were taken into account.

Apart from these, the outgrowths(OGs) of cities and towns have also been treated as urban under 'Urban Agglomerations'. Examples of out-growths are railway colonies, university campuses, port areas, military camps, etc., that may have come up near a statutory town or city but within the revenue limits of a village or villages contiguous to the town or city. Each such individual area by itself may not satisfy the demographic criteria laid down at (b) above to qualify it to be treated as an independent urban unit but may deserve to be clubbed with the towns as a continuous urban spread. Thus, the town level data, wherever presented, also includes the data for outgrowths of such towns.

City

Towns with population of 1,00,000 and above are called cities.

Urban Agglomeration

An Urban Agglomeration is a continuous urban spread constituting a town and its adjoining urban outgrowths (OGs) or two or more physically contiguous towns together and any adjoining urban outgrowths of such towns. In some cases railway colonies, university campuses, port areas, etc., may come up near a city or statutory town outside its statutory limits but within the revenue limits of a village or villages contiguous to the town or city. Each such individual area by itself may not satisfy the minimum population limit to qualify it to be treated as an independent urban unit but may deserve to be clubbed with the town as a continuous urban spread.For the purpose of delineation of Urban Agglomerations during Census of India 2001, following criteria are taken as pre-requisites:

(a) The core town or at least one of the constituent towns of an urban agglomeration should necessarily be a statutory town ; and

(b) The total population of all the constituents (i.e., towns and outgrowths) of an Urban Agglomeration should not be less than 20,000 (as per the 1991 Census).

With these two basic criteria having been met, the following are the possible different situations in which Urban Agglomerations would be constituted:

i) a city or town with one or more contiguous outgrowths;

ii) two or more adjoining towns with their outgrowths; and

iii) a city and one or more adjoining towns with their outgrowths all of which form a continuous spread.

Household

A 'household' is usually a group of persons who normally live together and take their meals from a common kitchen unless the exigencies of work prevent any of them from doing so. Persons in a household may be related or unrelated or a mix of both. However, if a group of unrelated persons live in a census house but do not take their meals from the common kitchen, then they are not constituent of a common household. Each such person was to be treated as a separate household. The important link in finding out whether it was a household or not was a common kitchen. There may be one member households, two member households or multi-member households.

Institutional household

A group of unrelated persons who live in an institution and take their meals from a common kitchen is called an Institutional Household. Examples of Institutional Households are boarding houses, messes, hostels, hotels, rescue homes, jails, ashrams, orphanages, etc. To make the definition more clearly perceptible to the enumerators at the Census 2001, it was specifically mentioned that this category or households would cover only those households where a group of unrelated persons live in an institution and

share a common kitchen.

Houseless household

Households who do not live in buildings or census houses but live in the open on roadside, pavements, in hume pipes, under fly-overs and staircases, or in the open in places of worship, mandaps, railway platforms, etc., are treated as Houseless Households.

Scheduled Caste and Scheduled Tribe

Article 341 of the Constitution provides that the President may, with respect to any State or Union territory, specify the castes, races or tribes or parts of or groups within castes, races or tribes which shall for the purposes of the Constitution be deemed to be Scheduled Castes in relation to that State or Union territory. Article 342 similarly provides for specification of tribes or tribal communities or parts of or groups within tribes or tribal communities which are to be deemed for the purposes of the Constitution to be Scheduled Tribes in relation to the various States and Union territories. In pursuance of these provisions, the list of Scheduled Castes and / or Scheduled Tribes are notified for each State and Union territory and are valid only within the jurisdiction of that State or Union territory and not outside.

It is important to mention here that under the Constitution (Scheduled Castes) Order, 1950, no person who professed a religion different from Hinduism was deemed to be a member of a Scheduled Caste in addition to every member of the Ramdasi, Kabirpanthi, Majhabi or Sikligar caste resident in Punjab or Patiala and East Punjab States Union were in relation to that State whether they professed the Hindu or the Sikh religion. Subsequently, in September 1956, by an amendment, the Presidential Order of 1950 and in all subsequent Presidential Orders relating to Scheduled Castes, the Hindu and the Sikh religions were placed on the same footing with regard to the specification of Scheduled Castes. Later on, as per the amendment made in the Constitution (Scheduled Castes) Order 1990, the Hindu, the Sikh and the Buddhist were placed on the same footing with regard to the recognition of the Scheduled Castes.

The lists containing the names of the Scheduled Castes and the Scheduled Tribes applicable for the Census of India 2001 in the State/ Union territory are given below:

List of Scheduled castes in Andhra pradesh

1. Adi Andhra
2. Adi Dravida
3. Anamuk
4. Aray Mala
5. Arundhatiya
6. Arwa Mala
7. Bariki
8. Bavuri
9. Beda Jangam, Budga Jangam
10. Bindla
11. Byagara
12. Chachati
13. Chalavadi
14. Chamar, Mochi, Muchi
15. Chambhar
16. Chandala
17. Dakkal, Dokkalwar
18. Dandasi
19. Dhori
20. Dom, Dombara, Paidi, Pano
21. Ellamalawar, Yellammalawandlu
22. Ghasi, Haddi, Relli, Chachandi
23. Godagali
24. Godari
25. Gosangi
26. Holeya
27. Holeya Dasari
28. Jaggali
29. Jambuvulu
30. Kolupul Vandlu
31. Madasi Kuruva,Madari Kuruva
32. Madiga
33. Madiga Dasu, Mashteen

34. Mahar
35. Mala
36. Mala Dasari
37. Mala Dasu
38. Mala Hannai
39. Malajangam
40. Mala Masti
41. Mala Sale, Netkani
42. Mala Sanyasi
43. Mang
44. Mang Garodi
45. Manne
46. Masht
47. Matangi
48. Mehtar
49. Mitha Ayyalvar
50. Mundala
51. Paky, Moti, Thoti
52. Pambada, Pambanda
53. Pamidi
54. Panchama, Pariah
55. Relli
56. Samagara
57. Samban
58. Sapru
59. Sindhollu, Chindollu

List of Scheduled Tribes in Andhra pradesh

1. Andh
2. Bagata
3. Bhil
4. Chenchu, Chenchwar
5. Gadabas
6. Gond, Naikpod, Rajgond
7. Goudu(in the Agency tracts)*
8. Hill Reddis
9. Jatapus
10. Kammara
11. Kattunayakan
12. Kolam, Mannervarlu
13. Konda Dhoras
14. Konda Kapus
15. Kondareddis
16. Kondhs, Kodi, Kodhu, Desaya Kondhs, Dongria Kondhs, Kuttiya Kondhs, Tikiria Kondhs, Yenity Kondhs.
17. Kotia, Bentho Oriya, Bartika, Dhulia, Dulia, Holva, Paiko, Putiya, Sanrona, Sidhopaiko
18. Koya,Goud,Rajah,Rasha Koya, Lingadhari Koya(ordinary), Kottu Koya, Bhine Koya, Rajkoya
19. Kulia
20. Malis(excluding Adilabad, Hyderabad,Karimnagar,Khammam, Mahbubnagar,Medak,Nalgonda, Nizamabad and Warangal districts)
21. Manna Dhora
22. Mukha Dhora, Nooka Dhora
23. Nayaks(in theAgency tracts)*
24. Pardhan
25. Porja, Parangiperja
26. Reddi Dhoras
27. Rona, Rena
28. Savaras, Kapu Savaras, Maliya Savaras, Khutto Savaras
29. Sugalis, Lambadis
30. Thoti (In Adilabad, Hyderabad, Karimnagar, Khammam, Mahbubnagar, Medak, Nalgonda, Nizamabad and Warangal Districts)
31. Valmiki (in the Agency tracts)*
32. Yenadis
33. Yerukulas

***** *The agency tracts is comprised of Srikakulam, Vizianagaram, Visakhapatnam, East-Godavari, West-Godavari and Khammam districts.*

Language and Mother tongue

As per the census concept, each language is a group of mother tongues. The census questionnaire collects information on the mother tongue of each person and mother tongue is defined as the language spoken in childhood by the person's mother to the person. If the mother died in infancy, the language mainly spoken in the person's home in childhood will be the mother tongue. In the case of infants and deaf mutes, the language usually spoken by the mother is considered as mother tongue. It is not necessary that the language spoken as mother tongue should have a script. The mother tongues returned by the respondents in census are classified and grouped under appropriate languages according to their linguistic characteristics.

Literate

A person aged 7 years and above who can both read and write with understanding in any language is taken as literate. A person who can only read but cannot write is not literate. It is not necessary that to be considered as literate, a person should have received any formal education or passed any minimum educational standard. Literacy could also have been achieved through adult literacy classes or through any non-formal educational system. People who are blind and can read in Braille are treated as literates.

Literacy rate

Literacy rate of the population is defined as the percentage of literates in the age group seven years and above. For different age groups the percentage of literates in that age group gives the literacy rate.

Educational level

The highest level of education a person has completed

Work

Work is defined as participation in any economically productive activity with or without compensation, wages or profit. Such participation may be physical and/or mental in nature. Work involves not only actual work but also includes effective supervision and direction of work. It even includes part time help or unpaid work on farm, family enterprise or in any other economic activity. All persons engaged in 'work' as defined above are workers. Persons who are engaged in cultivation or milk production even solely for domestic consumption are also treated as workers.

Reference period for determining a person as worker and non-worker is one year preceding the date of enumeration.

Main worker

A person who has worked for major part of the reference period (i.e. six months or more during the last one year preceding the date of enumeration) in any economically productive activity is termed as `Main worker'.

Marginal worker

A person who worked for less than six months of the reference period (i.e. in the last one year preceding the date of enumeration) in any economic activity is termed as `Marginal worker' .

Non worker

A person who has not worked at all in any economically productive activity during the reference period (i.e. last one year preceding the date of enumeration) is termed as `Non worker'.

Cultivator

For purposes of the Census a person is classified as cultivator if he or she is engaged in cultivation on land owned or held from government or held from private persons or institutions for payment in money, kind or share. Cultivation includes effective supervision or direction in cultivation.

A person who has given out her/his land to another person or persons or institution(s) for cultivation for money, kind or share of crop and who does not even supervise or direct cultivation in exchange of land, is not treated as cultivator. Similarly, a person working on another person's land for wages in cash or kind or a combination of both (agricultural labourer) is not treated as cultivator. Cultivation involves ploughing, sowing, harvesting and production of cereals and millet crops such as wheat, paddy, jowar, bajra, ragi,

etc., and other crops such as sugarcane, tobacco, ground-nuts, tapioca, etc., and pulses, raw jute and kindred fibre crop, cotton, cinchona and other medicinal plants, fruit growing, vegetable growing or keeping orchards or groves, etc. Cultivation does not include the following plantation crops - tea, coffee, rubber, coconut and betel-nuts (areca).

Agricultural labourer

A person who works on another person's land for wages in money or kind or share is regarded as an agricultural labourer. She/he has no risk in the cultivation, but merely works on another person's land for wages. An agricultural labourer has no right of lease or contract on land on which she/he works.

Household industry worker

Household industry is defined as an industry conducted by the head of the household herself/himself and or by the members of the household at home or within the village in rural areas and only within the precincts of the house where the household lives in urban areas. The larger proportion of workers in household industry should consist of members of the household including the head. The industry should not be run on the scale of a registered factory which would qualify or has to be registered under the Indian Factories Act and should be engaged in manufacturing, processing, servicing and repairs of goods.

It does not include professions such as a Pleader, Doctor, Musician, Dancer, Waterman, Astrologer, Dhobi, Barber, etc. or merely trade or business, even if such professions, trade or services are run at home by members of the household.

Other worker

A person who has been engaged in some economic activity during the reference period but not as a cultivator or agricultural labourer or in Household Industry is termed as a 'Other Worker (OW)'. The type of workers that come under this category of 'OW' include all government servants, municipal employees, teachers, factory workers, plantation workers, those engaged in trade, commerce, business, transport, banking, mining, construction, political or social work, priests, entertainment artists, etc. In effect, all those workers other than cultivators or agricultural labourers or household industry workers, are 'Other Workers'.

Work participation rate

Percentage of workers (main + marginal) to total population

Population density

Population density is the number of persons inhabited per square kilometre of the area.

Age

Age is measured in terms of the completed number of years

Sex -ratio

Number of females per 1000 males in a population.

(viii) Non Census Concepts

Improved drinking water :

If the household had access to drinking water supplied from a tap, hand pump, tube well or well (protected or covered) situated within or outside the premises, it is considered as having access to improved drinking water. It may be mentioned that such uniform definition may not be valid across all states.

System of sewerage :

Generally, a sewerage system would mean a network of mains and branches of underground conduits for the conveyance of sewerage to the point of disposal. Sewers that carry only household and industrial wastage are called separate sewers; those that carry storm water from roofs, streets and other surfaces are known as storm water drains, while those carrying both sewage and storm water are called combined sewers. However, in some towns which are not provided with such underground sewerage system, it is served by open surface drain, box drain, sylk pattern drain, etc., in these towns.

Type of latrine and Method of disposal of night soil :

There are three prevalent systems of disposal of human wastes, viz.(i) underground sewerage, (ii) sanitary water flush latrines with individual disposal systems, like septic tank, leaching cess pool and collecting well, and (iii) dry type of latrines with manual scavenging. The system of underground sewerage provides for the street sewerage with which are connected the sanitary latrines constructed in the houses having water closets and fitted with flushing cistern (or hand flushing). Through this sewer the faecal matter is transported without the need for scavenging. This system generally exists in cities and big towns. Where the streets sewer does not exist these sanitary water flush latrines are connected to a local septic tank with a sub-soil dispersion system or a leaching pit. Here the liquid wastes from the water closet is disposed of locally in leaching pit, a septic tank with a soil dispersion system is constructed. This dispersion requires an optimum travel through the pores of the soil which renders the harmful liquid bacterially innocuous by the slow process of filtration through the soil traversed. Where the soil is impermeable, collecting wells are constructed and the sanitary water flush latrines are connected with them. These wells are cleaned at periodic intervals by a suitable device. The dry type of latrines are of service type latrines from where human excreta is removed by scavengers from house to house, in most cases carrying it on their heads or shoulders or in baskets with handle or wheel barrows. These are then collected in bullock carts or trucks or tractors and trolleys for being carried to the dumping grounds.

Fertility :

In demography, the word fertility is used in relation to the actual production of children or occurrence of births specially live births. Fertility is a measure of rate at which population adds to itself by births and normally assessed by relating the number of births to a full or part of the population, such as number of married women or number of women of child bearing age. The definitions of the terminology used in computing different fertility rates are mentioned below:

Crude birth rate(CBR) :

Ratio of the number of live births in a year to the mid year population, normally expressed per 1000 population.

$$CBR = \frac{\text{Number of live births during the year}}{\text{Mid –year Population}} \times 1000$$

Crude death rate(CDR)

Ratio of the number of deaths in a year to the mid year population, normally expressed per 1000 population.

$$CDR = \frac{\text{Number of deaths during the year}}{\text{Mid- year Population}} \times 1000$$

Natural growth rate

Growth rate is obtained as the difference between crude birth rate and crude death rate in the absence of migration.

Age specific fertility rate (ASFR)

Number of live births in a year to female population in any specified age group normally expressed per 1000 women.

$$ASFR = \frac{\text{Number of live births in a particular age-group}}{\text{Mid-year female population of the same age-group}} \times 1000$$

Age specific marital fertility rate (ASMFR)

Number of live births in a year to married female population in any specified age group normally expressed per 1000 married women .

$$ASMFR = \frac{\text{Number of live births in a particular age-group}}{\text{Mid-year married female population of the same age-group}} \times 1000$$

General fertility rate (GFR)

Number of live births per 1000 women in the reproductive age-group (15-49) years in a given year.

$$GFR = \frac{\text{Number of live births in a year}}{\text{Mid-year female population in the age-group (15-49) years}} \times 1000$$

General marital fertility rate (GMFR)

Number of live births per 1000 married women in reproductive age-group (15-49) years in a given year.

$$GMFR = \frac{\text{Number of live births in a year}}{\text{Mid-year married female population in the age-group (15-49) years.}} \times 1000$$

Total fertility rate (TFR)

It is obtained as the total of the age specific fertility rates (number of children born per woman of the particular age) for the entire reproductive age span. It provides the average number of children that will be born to a woman under the fertility levels indicated by the age specific fertility rates assuming that there is no mortality of women till the completion of reproductive period.

$$TFR = \frac{5 \times \sum_{15\text{-}19}^{45\text{-}49} ASFR}{1000}$$

Total marital fertility rate (TMFR)

Average number of children that would be born to a married woman if she experiences the current fertility pattern throughout her reproductive span (15-49) years assuming that there is no mortality of women till the completion of reproductive period.

$$TMFR = \frac{5 \times \sum_{15\text{-}19}^{45\text{-}49} ASMFR}{1000}$$

Age-specific mortality rate (ASMR)

Number of deaths in a particular age and sex group per 1000 population of the same age group.

$$ASMR = \frac{\text{Number of deaths in a particular age-group}}{\text{Mid-year population of the same age-group}} \times 1000$$

q1

Probability of dying between birth and age 1. This can be used as approximate value of Infant Mortality Rate (IMR) which gives the ratio of number of deaths in a year of children aged less than one year to the number of births in that year.

q2

Probability of dying between birth and age 2.

q5

Probability of dying between birth and age 5. This indicator is also known as Under Five Mortality Rate (U5MR)

Infant mortality rate (IMR)

Ratio of the number of infant deaths (deaths of children below one year) in a year to the number of live births in that year.

$$IMR = \frac{\text{Number of infant deaths during the year}}{\text{Number of live births during the year}} \times 1000$$

Infant mortality rate comprises of two parts, viz., Neo-natal mortality rate and Post neo-natal mortality rate. The neo-natal mortality rate also comprises of two parts viz., Early neo-natal mortality rate and late neo-natal mortality rate. These are defined as:

Neo-natal mortality rate (NMR)

Number of infants dying within the first month of life (28 days or under) in a year per 1000 live births of the same year.

$$NMR = \frac{\text{Number of infant deaths aged 28 days or under during the year}}{\text{Number of live births during the year}} \times 1000$$

Early neo- natal mortality rate

$$ENMR = \frac{\text{Number of infant deaths of less than 7 days During the year}}{\text{Number of live births during the year}} \times 1000$$

Late neo-natal mortality rate

$$LNMR = \frac{\text{Number of infant deaths of 7 days to less than 29 days during the year}}{\text{Number of live births during the year}} \times 1000$$

Post neo-natal mortality rate (PNMR)

$$PNMR = \frac{\text{Number of deaths of 29 days to less than one year during the year}}{\text{Number of live births during the year}} \times 1000$$

Peri-natal mortality rate (PMR)

Number of still births plus deaths within 1st week of delivery per 1000 births in a year.

$$PMR = \frac{\text{Number of still births and infant deaths of less than 7 days during the year}}{\text{Number of live births and still births during the year}} \times 1000$$

Still birth rate(SBR)

$$SBR = \frac{\text{Number of still births during the year}}{\text{Number of live births and still births during the year}} \times 1000$$

Maternal mortality rate(MMR)

Number of deaths of women in the age group 15-49 while pregnant or within 42 days of termination of pregnancy from any cause related to pregnancy and child birth per 1,00,000 live births in a given year.

$$MMR = \frac{\text{Number of maternal deaths to women in the age group 15-49}}{\text{Number of live birth}} \times 1,00,000$$

Eligible couple (Couples per 1000 population)

Number of currently married females in the age group15-44 years per 1000 persons of all ages.

Child woman ratio (0-4)

1. Number of children in the age group 0-4 years per 1000 women in the age group 15-49 years.

Child woman ratio (5-9)

2. Number of children in the age group 5-9 years per 1000 women in the age group 15-49 years.

Migration

Migration is the third component of population change, the other two being mortality and fertility. A person is considered as a migrant by place of birth if the place in which he/she is enumerated during the census is other than the place of his/her birth. Similarly a person is considered as a migrant by place of last residence if the place in which he/she is enumerated during the census is other than his/her place of immediate last residence outside the village or town and not simply in another house or locality in the same village or town. Certain aspects concerning temporary movement/migration of people has been explained below as these are important components concerning migration :-(i) Migration of persons in search of job is high in the country. In many cases such migrants are only seasonal in nature. People migrate to other places for work in a particular season and come back again to their usual place of residence after three or four months. All such workers are treated as migrants. Similarly, if a person moved to any other place for attending short term vocational or educational course that lasted for only few months of a year, she/he too were considered as a migrant. (ii) Where a person had merely gone out to another place or had been shifting from one place to another purely on tour, pilgrimage, visit to hospital for treatment or for temporary business purposes, such persons are

not deemed to have had another residence different from the place where she/he or her/his family normally resides. She/he is not considered as migrant.

(iii) A woman temporarily moves into a hospital or to her parents or other relative's house for delivery and if the hospital or the parents/relatives houses is in a place different from usual place of residence, the place where the hospital or parents/relative's house is the place of last residence of the child but not of the mother. A new response category 'Moved after birth' was added in Census of India 2001 in the question on 'reasons for migration' to bring out additional migration patterns. Natural calamities or distress migration as a reason for migration for last residence migrants included in 1991 Census, is covered under category of 'Others'. The reason for migration has been determined as applicable at the time of migration and not in reference to any point of time after that. For example, if a person had moved from the place of her/his last residence for the purpose of education and subsequently at some point of time got employment there only, the reason for migration would be 'education' and not 'work/employment'.

Internal and International migration :

The migrational movements are of three types

(i) Migration within the state itself with its components (a) Migration within the district of enumeration (intra district migration) (b) Migration from one district of state to another district of state (inter district migration)

(ii) Migration from one state to another State of the country (inter-state migration)

(iii) Migration from one country to another country. The first two streams together constitute internal migration, while the last type of movement is called international migration. The present name of the country, state or district and not the name by which they were known at the time of her/his birth or last residence were recorded.

Rural - Urban components of migration:

Rural or Urban status in respect of migrants have been determined as applicable at the time of migration and not with reference to any point of time after that. The flow of migrants consists of four streams viz. rural to rural, rural to urban, urban to rural and urban to urban.

Civic status of urban units

Civic Status of a town/city is determined on the basis of Civic Administrative authority of the town e.g., Municipal Corporation / Corporation, Municipal Committee/ Municipal council, Municipality etc.

Size class of UA / town :

Size-class of UA/Town is based on the population size of the UA/City/Town UAs./Towns with 1,00,000 and above population are classified as Class I UAs. / towns. These Class I UAs. / towns are now further sub classified in to seven sub classes namely M1 to M7 depending on the population size of UA/City/ Town. These are M7(5,000,000 and above); M6(2,000,000 to 4,999,999); M5 (1,000,000-1,999,999) M4 (500,000-999,999); M3(300,000-499,999), M2 (200,000-299,999) & M1 (100,000-199,999). towns with, 50,000 to 99,999 population are classified as Class II towns, 20,000 to 49,999 population are Class III towns, population with 10,000 to 19,999 are Class IV towns, population with 5000 to 9999 are Class V towns and towns with less than 5000 population are Class VI towns.

Slum area :

The Slum Areas (Improvement and Clearance) Act, 1956 which was enacted by the Central Govt. defined slums as a) Areas where buildings are in any respect unfit for human habitation; or b) are by reasons of dilapidation, overcrowding, fault arrangement and design of such buildings, narrowness or faulty arrangement of streets, lack of ventilation, light or sanitation facilities, or any combination of these factors, are detrimental to safety, health or morals.

Mega city :

The concept of 'Mega city' is a recent phenomenon in the Urban Sociology and is defined in term of metropolitan city in the form of large size, problem of management of civic amenities and capacity to absorb the relatively high growth of population. Indian Census in 1991 treated the population size of 5 million and above as the cut off point to identify a place as the mega city. Whereas, for the purpose of inclusion in Centrally Sponsored Scheme for Infrastructure Development in Mega cities the Ministry of Urban Affairs and employment, Department of Urban Development adopted the criteria of 4 million and above population as per 1991 Census for Mega Cities. In 2001 Census, cities with 10 millions and above population have been treated as Mega cities.

Analytical Note
(ix) 2001 Census findings- Polpulation, its distribution.

(a) Distribution of Population in rural-urban areas :

According to 2001 Census the total population of Visakhapatnam district stands at 3,832,336 comprising of 1,930,197 males and 1,902,139 females. The district stands at 4th rank as far as population is concerned in the state. Out of the total population of the district 2,301,437 persons constituting 60.1% are residing in rural areas and the remaining 1,530,899 persons 39.9% are residing in urban areas. The proportion of urban to total population regarding urbanization is 39.9% for Visakhapatnam district, corresponding to State figure of 27.3%. The average number of towns for 100 inhabited villages in the district is less than 1%(0.45%).

Visakhapatnam district has 3,294 villages in 43 mandals of which 3,108 are inhabited villages. The average number of inhabited villages per mandal is 72. Visakhapatnam mandal is the largest mandal in terms of population accounting 25.6% of the district population. In term of number of villages, Munchingiputtu mandal leads with 325 villages, wherein 21 are un-inhabited villages. Large number i.e. 304 inhabited villages are found in this mandal itself. Peda Gantyada and Gajuwaka Mandals have least i.e, 3 and one inhabited villages respectively. As regard population, Peda Gantyada mandal reported least population i.e, 12,741 in the district.

The Urban population is distributed among 9 urban units of which 4 are statutory towns. The average size of an urban center in the district works out to 1,70,100 persons. Visakhapatnam Municipal Corporation has largest population (9,82,904) whereas Upper Sileru Project Site Camp is the smallest town with a population of (4,746).

(b) Size class and status of towns, Population Growth, Density, Sex Ratio, Work participation rate and Literacy rate in the district.

Size class and status of the town:

During every Census the number of Census towns and statutory towns changes due to addition of new Census towns, declassification of old Census towns, notifying of new Census towns, de-notifying of old statutory towns etc. For the purpose of Analysis of varied demographic characteristics, urban areas have been divided into six classes by size of population of the 5 towns in the district. Visakhapatnam and Gajuwaka are categorised as class-I towns, while there is one class II, 3 class III and 2 in class V and one town is categorised as class VI.

Population Growth:

The population of the district was 3,285,092 as per 1991 census and has gone upto 3,832,336 persons in 2001 adding 547,244 persons during the decade 1991-2001. The growth rate revealed by the district (16.7%) is more than the state growth of 14.6% during the decade. Visakhapatnam district ranks 4th in growth rate among 23 districts in the state.

Rural Urban growth rates evently distributed. The rural growth rate is recorded as 16.4 while urban growth rate is 17.0. As regard growth rate in rural population the district occupies 9th position, when we speak about urban growth rate it occupies 7th place in the state.

Density:

The overall density of population in the district is 343 persons per sq.km and is above the state average

of 277. Among urban areas of the district, Gudivada Census Town has recorded highest 7,102 persons per sq.km followed by 5,705 persons in Visakhapatnam (M.Corp.). Least density i.e, 1,249 persons per sq.km. has been reported in Upper Sileru Project Site Camp.

Sex Ratio:

Visakhapatnam district has possessed 985 females per 1000 males while it was 975 in 1991 Census. It is lower than state average sex ratio of 978. The district occupied 8th rank in respect of sex ratio among 23 districts. Ravikamatam mandal has the highest sex ratio of 1,058. While Peda Gantyada mandal has least sex ratio of 929. Among urban units Narsipatnam(CT) has reported highest sex ratio of 1,041 and Kantabamsuguda Census Town reported lowest sex ratio of 788.

Work Participation Rate:

The work participation rate for total workers is defined as percentage of total workers to total population. The total workers participation rate in Visakhapatnam district is 41.8%. The percentage of main workers stands at 34.1%. The total workers participation rate separately for males and females in the rural areas are 58.6% and 40.2% respectively. Against corresponding figures for urban areas are 50.7% and 9.4% respectively. Among the main workers the percentage of workers of 2001 over 1991 decreased. The female workers participation has marginally decreased from 29.6% in 1991 Census to 28.0 at 2001 Census.

Literacy rate:

While calculating effective literacy rate, children in 0-6 age group have been excluded. The district returned 2,002,316 literates forming 60.0% of the population of the district, excluding 0-6 age group. Separating for urban and rural areas the literacy rate worked out to 78.2% and 47.6% respectivly. Within the urban areas male and female literacy rates separately worked out to 85.5% and 70.6%. For the rural population the male and female literacy rates worked out to 58.7% and 36.5%.

(c) Scheduled Castes and Scheduled Tribes :

To uplift social and economical status of Scheduled Castes and Scheduled Tribes, one of the basic requirement of these population is the availability of data on age, sex, marital status, economy, education, fertility etc. In this regard these particulars are being collected in each census from 1951 onwards and provided to planners and administrators to take-up necessary steps to evolve suitable plans for the development of Scheduled Castes and Scheduled Tribes.

The President of India has notified some castes, races or tribes or parts of groups within castes, races or tribes as Scheduled Castes under Article 341 of the Constitution of India. Similarly, under Article 342 of the Indian Constitution, President of India has declared all such tribes or tribal communities or parts of groups within the tribes or tribal communities as Scheduled Tribes. The list of Scheduled Castes and Scheduled Tribes are notified for each State or Union Territory and are valid only within the jurisdiction of that State and Union Territory. The list of Scheduled Castes and Scheduled Tribes is provided in this volume under the chapter on 'Census concepts'.

Scheduled Castes population in the district as per 1991 Census:

As per 1991 census, there were 2,56,936 Scheduled Castes population comprising 1,31,081 males and 1,25,855 females. This works out to 7.82% to the total population of the district. Of the total population of Scheduled Castes, 54.06% were living in rural areas of the district.

The following statement(iii) reveals that Scheduled Castes population has recorded 26.98% growth rate during the decade 1981-91. It was 11.04% in rural areas which is not equal to the growth rate of total district. Growth rate in Urban areas was 52.80% which is nearly 26% more than the district and also 41% more than rural areas.

The sex ratio of Scheduled Castes population (960) was lower in comparison to that of the general population in the district(975). The sex ratio in rural areas as well as in urban areas of the district was lower than total district sex ratio among Scheduled Castes population. In urban areas it was 972. Literacy rate among Scheduled Castes 44.73% which was

0.78% less than district (45.51%). In urban areas their literacy rate was 62.89%.

Proportion of main workers among Scheduled Castes was 38.25 percent and the Marginal workers was 2.44 percent. In rural areas main workers population was 47.26 percent and in urban areas their percentage was 27.64 percent.

Statement (iii)

Particulars of decadal variation, sex ratio, literacy and workers participation of Scheduled Castes population-1991

Sl.No.	Particulars	Total	Rural	Urban
1	Percentage decadal Variation:			
	1981	2,02,343	1,25,090	77,253
	1991	2,56,936	1,38,895	1,18,041
		(26.98)	(11.04)	(52.80)
2	Sex ratio	960	950	972

	iii.Non-workers	59.31	48.78	71.69

Source: *District Census Handbooks of 1981-91*

It is seen from the table furnished below that Scheduled Castes population in the district has registered 19.95% growth rate during the decade 1961-1971. But for the decade 1971-1981 the growth rate has been decreased -8.84% and further the growth rate for the decade 1981-1991 was registered as 26.98%. The growth rate during 1971-1981 was declined. But the growth rate has been increased from -8.84% during 1971-81 to +26.98% during 1981-91.

Statement (IV)

Statement showing the decadal variation in Scheduled Castes population in Visakhapatnam district in comparison to Andhra Pradesh State between 1961-1991 Censuses

Sl. No.	Census Year	Scheduled Castes Population in district (percent variation shown in bracket)	Scheduled Castes Population in State (percent variation shown in bracket)

Source*: District Census Handbook of Visakhapatnam, 1991.*

The Scheduled Tribes population in the district as per 1991 Census :

As per 1991 Census, there were 468,886 Scheduled Tribes population comprising 235,925 males and 232,961 females. This works out 14.27% to the total population of the district. Of the total population of the Scheduled Tribes 98.29% were living in rural areas of the district.

The following statement reveals that Scheduled Tribes population in the district has registered 32.41% growth rate during the decade 1981-91. It was 31.7% in the rural areas of the district. Growth rate in urban areas was 90.9%. The sex ratio in the district was 987, while in rural areas it was 991 and in urban areas 779. As regards the Literacy rate among the tribes, it was 16.59% , while in rural areas it was 15.84%. However in urban areas it was higher (58.02%) than the rural areas as well as the district total.

The population of main workers and marginal workers among tribes in the district was 51.30% and 6.30% respectively where as in rural areas of the district it was 51.66% and 6.39% respectively. But in urban areas they were reported 30.43% and 1.42% respectively.

Statement (iii)

Particulars of decadal variation, sex ratio, literacy and workers participation of Scheduled Tribes population-1991

Sl.No.	Particulars	Total	Rural	Urban
1	Percentage decadal Variation:			
	1981 (Population)	354,127	349,935	4,192
	1991 (Population)	468,886	460,882	8,004
		32.4	31.7	90.9
2	Sex ratio	987	991	779
3	Percentage of Literacy	16.59	15.84	58.02
4	Percentage of			
	i. Main Workers	51.30	51.66	30.43
	ii. Marginal Workers	6.30	6.39	1.42
	iii. Non-workers	42.40	41.95	68.15

It is seen from the below furnished table that Scheduled Tribes population growth rate in the district during the decade 1961-71 was 40.29%, but during decade 1971-81 the decadal growth rate is decreased to 18.04% only. During the decade 1981-91 it has recorded increase in growth rate of 32.41%.

Statement (iv)

Statement showing the decadal variation in Scheduled Tribes population in Visakhapatnam district in comparison to Andhra Pradesh State between 1961-1991 Censuses

Sl. No.	Census Year	Scheduled Tribes Population in district (percent variation shown in bracket)	Scheduled Tribes Population in State (percent variation shown in bracket)
1	1961	2,13,820	13,24,368
		(--)	(--)

		(+40.29)	(+25.17)
3	1981	3,54,127	31,76,001
		(+18.04)	(+91.60)
4	1991	4,68,886	41,99,481
		(+32.41)	(+32.23)

Source: *Part II-A, 1991 Census.*

The following statement shows the proportion of Scheduled Tribes population to total population in the villages. Out of 2,579 villages, where Scheduled Tribes were recorded, 177 villages forming 6.86% were having less than 6% Scheduled Tribes population. The proportion of Scheduled Tribes was between 26 to 50 percent in 37 villages(1.44%) and they were more than 51 percent in 2,313 villages (89.68%).

Statement (v)

Proportion of Scheduled Tribes Population to Total Population in the villages

Percentage range of Scheduled Tribes population to Total population	Number of villages in each range	Percentage of villages in each range
1	2	3
5 and below	177	6.86
6-15	32	1.24
16-25	20	7.78
26-35	12	0.47
36-50	25	0.97
51 and above	2,313	89.68
Total	**2,579**	**100.00**

Source : *District Census Handbook of Visakhapatnam, 1991*

While going through the following table it is observed that Scheduled Tribes population constituted 0.61% to total urban population in the district. The proportion of Scheduled Tribes population was above the district average in Upper Sileru Project Site Camp 23.79% followed by Madugula with 5.36%. While it was below in Anakapalle(M) 0.14%. However proportion of Scheduled Tribe population in urban areas ranges between 0.80% in Payakaraopet(P) to 23.79% in Upper Sileru Project Site Camp.

Statement (vi)

Percentage of Scheduled Tribes Population in Towns

Class & Name of Town	Total Population	Total scheduled Tribes Population	Percentage of Scheduled Tribes Population to Total Population

	District (Rural) Total:	**47 (1.5)**	**159,445**	**155,033**	**12 (0.4)**	**100,758**	**100,487**

The above table indicates number and percentage of inhabited villages in specified population size ranges in the district. This district has 3,108 inhabited villages. Out of 39 mandal Parishads, the highest number of 304 villages are in Munchingi Puttu Mandal Parishad followed by 294 villages in G..Madugula Mandal Parishad, 274 villages in Ananthagiri Mandal Parishad. The least number i.e, 12 villages in Narsipatnam and 14 villages in Yelamanchili Mandal Parishads are existing. Of the total inhabited villages, 1,557 (50.1%) villages are having less than 200 population. 630(20.3%) villages are having between 200-499 persons. The highest number of villages 1,557 (50.1%) are in the population range of less than 200. 47 villages (1.5%) are having 5000-9999 population. 12 villages have more than 10,000 population forming 0.4% in the District.

Of 39 Mandal Parishads 11 Mandal Parishads do not have the villages having less than 200 population. More than 70% inhabited villages in Munchingi Puttu, Peda Bayalu, Ananthagiri, G.Madugula Mandal Parishads have less than 200 population. 35.7% of inhabited villages in Hukumpeta Mandal Parishad are having the population between 200-499 persons. Like wise 34.4% inhabited villages of Anandapuram Mandal Parishad fall in population size range of 500-999 persons. Nathavaram, Golugonda, Sabbavaram, Pendurthi and Katauratla Mandal Parishads are having 2 villages in each with 5000 above and below 10,000 persons. 12 villages where the population has more than 10,000 reported one each in 7 Mandal Parishads, 3 in Narsipatnam, 2 in Pendurthi Mandal Parishads.

TABLE - 3

NEW TOWNS, DENOTIFIED, DECLASSIFIED AND MERGED TOWNS IN 2001 CENSUS

	Name of Town
	1
(a) New	
(i) Statutory Town	-Nil-
(ii) Census Town	2
(b) Denotified	
(i) Statutory towns of 1991 census denotified and also did not satisfy the criteria to be treated as census towns	-Nil -
(ii) Statutory towns of 1991 census denotified but identified as census towns based on demographic and economic criteria.	-Nil-
(iii) Census towns of 1991 census are notified as statutory town in 2001 census	1
(c) Declassified	1. Payakaraopeta 2. Chodavaram 3. Madugula 4. Pendurthi 5. Yelamanchili
(d) Wholly merged with other town(s)	1.Venkatapuram 2.Aganampudi 3.Akkireddipalem 4.Chinagadila 5.Chinagantyada 6.Gopalapatnam(Partly) 7.Mindi 8.Nathayyapalem 9.Pedagantyada 10.Ukkunagaram (Steel plant area) 11.Vadlapudi

Note: Declassified means the census towns of 1991 census which failed to satisfy the demographic and economic criteria.

The above table shows new towns, denotified, declassified and merged towns at 2001 census in the district. Of 23 urban areas in 1991 Census, as many as 5 Census Towns were declassified viz.,1.Payakaraopeta 2.Chodavaram 3. Madugula 4. Pendurthi 5. Yelamanchili and the remaining 18 towns, three towns 1. Venkatapuram 2. China Gadila and 3. Gopalapatnam(partly) were merged in Visakhapatnam (M.Corp). Eight towns were merged in Gajuwaka (M). They are 1.Aganampudi 2.Ukkunagaram 3.China Gantyada 4.Vadlapudi 5.Mindi 6.Nathayyapalem 7.Akkireddipalem 8.Peda Gantyada. Only seven towns of 1991 Census continues to enjoy urban status, of them four are statutory and the remaining three are of Census Towns, besides two Census Towns are newly sprung up during 2001 census, they are 1.Kantabamsuguda 2. Gudivada.

TABLE - 4
DISTRIBUTION OF VILLAGES BY POPULATION DENSITY, 2001

Range of population density (per square kilometer)	Total number of villages in each population density range	Percentage of villages in each population density range	Population	Percentage distribution of population
1	2	3	4	5
0-10	272	8.8	31,509	1.4
11-20	23	0.7	4,754	0.2
21-50	140	4.5	19,487	0.8
51-100	308	9.9	78,334	3.4
101-200	743	23.9	253,215	11.0
201-300	551	17.7	325,775	14.2
301-500	534	17.2	596,727	25.9
501 +	537	17.3	991,636	43.1
Not known	-	-	-	-
District Total:	**3,108**	**100.0**	**2,301,437**	**100.0**

Population Density (Rural) of the district: 213

This table depicts distribution of villages by population density. There are 272 villages with 31,509 population where density of population recorded below 11 persons per square kilometre. The highest number of villages i.e, 743 forming 23.9% with 253,215 population in 101-200 range of population density. There are 537 villages forming 17.3% with 991,636 population in the range of more than 501 persons per square kilometre.

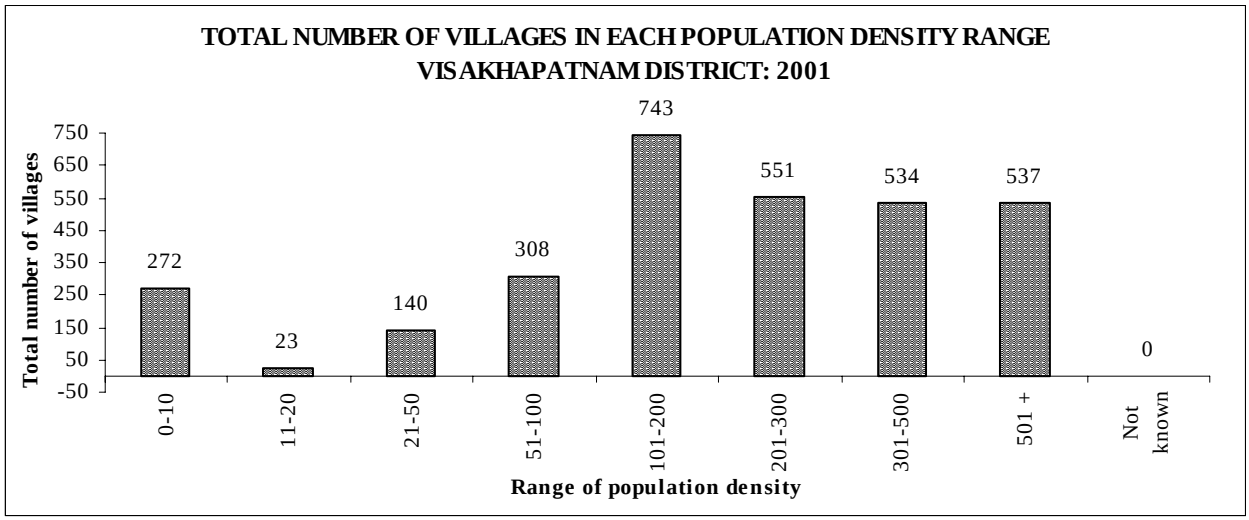

TABLE - 5
SEX RATIO OF STATE AND DISTRICT, 1901-2001

Census Year	State			District		
	Total	Rural	Urban	Total	Rural	Urban
1	2	3	4	5	6	7
1901	985	983	999	1,045	1,044	1,057
1911	992	991	1,000	1,064	1,065	1,054
1921	993	994	986	1,079	1,081	1,057
1931	987	989	966	1,057	1,063	1,006

TABLE - 5(Concld..)

SEX RATIO OF STATE AND DISTRICT, 1901-2001

Census Year	State			District		
	Total	Rural	Urban	Total	Rural	Urban
1	2	3	4	5	6	7
1941	980	981	975	1037	1041	1000
1951	986	985	987	1023	1024	1018
1961	981	988	951	1000	1012	951
1971	977	983	949	992	1006	952
1981	975	984	948	981	996	949
1991	972	977	959	975	993	949
2001	978	983	965	985	1001	962

This table shows sex ratio of the district by residence with comparison of state figures. This district shows higher sex ratio than the State Sex Ratio in all Census years. It can be seen from the above table that the District rural sex ratio is higher than district urban sex ratio from 1911 to 2001. The district rural sex ratio is also higher than the State rural sex ratio in all Census years.

	District (Rural) Sex Ratio:	**1,001**

** Excludes Statutory Towns, Census Towns & OGs*

The above table is indicating Sex Ratio by mandal parishad wise at 2001 census. The sex ratio in rural areas is 1001, which is higher than the district sex ratio. In 20 mandal parishads, females are more than males. The highest sex ratio is in Ravikamatham Mandal Parishad with 1,058 and least sex ratio is recorded in Sabbavaram Mandal Parishad with 963.

TABLE - 8
SEX RATIO OF RURAL POPULATION BY RANGES, 2001

Range of sex ratio for villages	Number of inhabited villages	Percentage of villages in each range	Population 2001	Percentage distribution of population
1	2	3	4	5
Less than 700	96	3.1	41,088	1.8
700-749	31	1.0	8,529	0.4
750-799	49	1.5	23,765	1.0
800-849	86	2.8	30,881	1.3
850-899	152	4.9	63,858	2.8
900-949	255	8.2	223,334	9.7
950-999	444	14.3	597,815	26.0
1000-1099	1,069	34.4	1,090,450	47.4
1100+	926	29.8	221,717	9.6
District Total:	**3,108**	**100.0**	**2,301,437**	**100.0**
Sex ratio (Rural) for District:			**1,001**	

This table represents Sex Ratio of rural population by ranges at 2001 census. Less than 700 females per 1000 males are recorded in 96 villages. There are 444 (14.3%) villages where the sex ratio range is 950-999. 1,069 villages (34.4%) where range of sex ratio is 1000-1099.

TABLE - 9
SEX RATIO OF URBAN AGGLOMERATIONS / TOWNS, 2001

Sl.No.	Name of U.A. / Town	Urban status	Sex ratio
1	2	3	4
1	Anakapalle	M	1,013
2	Bheemunipatnam	UA	1,030
3	Bheemunipatnam	M(M+OG)	1,030

This table shows the number and percentage of Scheduled Castes and Scheduled Tribes population in the mandals recorded during 2001 Census. Out of the district total population of 3,832,336, the Scheduled Castes and Scheduled Tribes constituted 7.6% and 14.5% respectively. In rural areas of the district Scheduled Castes counted 7.1%, whereas in urban areas it is 8.3%. In respect of Scheduled Tribes they accounted 23.4% in rural and 1.2% in urban areas of the total population. Their percentage is more in rural areas than in urban. In Payakaraopeta mandal, the highest number of Scheduled Castes has recorded with 20.1% followed by Nathavaram mandal with 17.3% and Golugonda mandal with 14.1% which are totally rural areas. The lowest percentage of Scheduled Castes recorded in the mandals of G.Madugula, Hukumpeta and Pedabayalu with 0.2%, 0.1% and 0.1% respectively.

In Hukumpeta mandal, the highest number of Scheduled Tribes recorded with 95.3%, followed by Munchingi Puttu mandal with 94.8% and G.Madugula mandal with 94.0% of the total population entirely under the rural areas. The lowest percentage of Scheduled Tribes are recorded in the mandals of Makavarapalem, Achutapuram, S.Rayavaram with 0.1% each, and Sabbavaram, Bheemunipatnam, Parvada, Munagapaka, Payakaraopeta and Rambilli with 0.2% each.

	District (Rural) Total:	**2,301,437**	**164,406**	**538,608**	**7.1**	**23.4**

**Excludes Statutory Towns, Census Towns & O.Gs*

Note: The villages of Visakhapatnam(Rural), Pedagantyada and Gajuwaka Mandals are not included in any Mandal Parishads.

This table reveals the percentage distribution of Scheduled Castes and Scheduled Tribes population among the Mandal Parishads. The highest percentage of Scheduled Caste population has been noticed in Payakaraopeta mandal parishad with 20.1% followed by Nathavaram with 17.3% which is higher than the district average Scheduled Castes population. Likewise, highest Scheduled Tribes population has been noticed in Hukumpeta Mandal Parishad with 95.3% followed by Munchingi Puttu Mandal Parishad with 94.8% which is higher than district average Scheduled Tribes population. The lowest Scheduled Castes population has been recorded in Peda Bayalu and Hukumpeta Mandal Parishads with 0.1% each while the lowest Scheduled Tribes population in Makavarapalem, Atchutapuram and S.Rayavaram Mandal Parishads with 0.1% each. Scheduled Tribes population is available in a negligible percentage in Bheemunipatnam Mandal Parishad.

TABLE - 16
PROPORTION OF SCHEDULED CASTES POPULATION TO TOTAL POPULATION IN VILLAGES, 2001

Percentage range of Scheduled Castes Population to total population	Number of villages	Percentage	Scheduled Castes Population	Percentage
1	2	3	4	5
Nil	2,216	71.3	-	-
Less than 5	385	12.4	17,296	10.5
5-10	284	9.1	58,488	35.6
11-20	156	5.0	48,866	29.7
21-30	42	1.4	30,178	18.4
31-40	11	0.4	7,158	4.3
41-50	3	0.1	810	0.5
51-75	4	0.1	442	0.3
76 and above	7	0.2	1,168	0.7
District Total :	**3,108**	**100.0**	**164,406**	**100.0**

This table shows the proportion of Scheduled Caste population to total population in villages recorded during 2001 Census. As per this table, 385 villages are under less than 5% range of Scheduled Castes population to total population accounting 12.4% of total villages in the district. In this range, the Scheduled Castes population is 17,296 persons with 10.5%. Lowest is noticed in the range of 41-50 in 3 villages.

TABLE - 17
PROPORTION OF SCHEDULED TRIBES POPULATION TO TOTAL POPULATION IN VILLAGES, 2001

Percentage range of Scheduled Tribes Population to total population	Number of villages	Percentage	Scheduled Tribes Population	Percentage
1	2	3	4	5
Nil	467	15.0	-	-
Less than 5	229	7.4	7,058	1.3

District and mandal-wise literacy rates besides the number of literates and illiterates for total, rural and urban areas with sex break up are given in the above table. The literacy rate is worked out by excluding population in the age group 0-6. As per 2001 Census, the proportion of literates to total population excluding the age group 0-6 comes to 60.0% in the district. This proportion in rural area is 47.6% against 78.2% in urban areas. In the district the literacy rates of males (69.7%) is higher than females (50.1%). Among the mandals Visakhapatnam (U) tops with 79.3% literates followed by Gajuwaka mandal with 77.6% and least in G.Madugula with 29.3% literates stands at the lowest in the district. The gap between male and female literacy is very high which comes to 19.6% in the district.

**Excludes Statutory Towns, Census Towns & OGs*

Note: The villages of Visakhapatnam(Rural), Pedagantyada and Gajuwaka Mandals are not included in any Mandal Parishads.

This table reveals number of literates, illiterates and the literacy rates in rural areas at Mandal Parishad level in the district. 47.5% of the total rural literates in the district, excluding the age group of 0-6 population. The corresponding proportion of male and female literates comes to 58.7% and 36.5% respectively which shows very wide gap of 22.2% in male and female literacy. At mandal parishad level, Pendurthi Mandal Parishad has the highest rural literacy rate of 69.0% while 79.6% males and 58.2% females are literates in this mandal parishad. The lowest literacy rate in rural areas is noted in Gudem Kotha Veedhi mandal parishad with 28.7% with a break up of 38.3% males and 19.6 females.

TABLE - 23
DISTRIBUTION OF VILLAGES BY LITERACY RATE RANGE, 2001

Range of literacy rate for villages	Number of inhabited villages	Percentage distribution of villages	Population	Percentage distribution of population
1	2	3	4	5
0	208	6.7	11,165	0.5
1-10	434	14.0	59,108	2.6
11-20	504	16.2	91,084	4.0

The above table gives the number and percentage of main workers, marginal workers and non- workers by sex at mandal level for district as per 2001 census. The proportion of total workers works out to 41.8% of the total population in the district. The total workers are comprised of 34.1% of main workers and 7.8% of marginal workers and the remaining 58.2% are non-workers.

Among the main workers, male participation rate in the district is 48.3% whereas in females it is 19.7%. Male and Female marginal workers account for 7.1% and 8.4% respectively. The percentage of female marginal workers is higher than male marginal workers.

** Excludes Census Towns & OGs*

Note: Areas of Visakhapatnam(Rural), Pedagantyada and Gajuwaka Mandals are not included in any Mandal Parishads.

The above table shows Mandal Parishad-wise number and percentage of main workers, marginal workers and non-workers by sex for rural population of the district as per 2001 Census. Of the 2,301,437 total rural population of the district, 39.1% has been categorized as main workers and marginal workers constitutes 10.3% and the remaining 50.6% fall in the category of non-workers. The sex wise breakup at the district level shows that 50.6% males and 27.7% females are in the category of main workers. Male and female marginal workers account for 8.0% and 12.5% respectively. The percentage of female marginal workers is higher than male marginal workers.

The percentage of total rural workers of the district comes to 49.4%. At Mandal Parishad level, Devarapalle has highest proportion of workers forming 61.4% of the total population. The lowest percentage of 35.6% is recorded in Pendurthi Mandal Parishad.

^ *Name of constituent units of U.A. are given separately.*

\+ *Towns arranged in alphabetical order.*

* *In case of Town having O.G. an Asterisk mark should be placed against the name to indicate that they have O.G. which are not separate Towns.*

This table gives number and percentage of main workers, marginal workers and non-workers by sex in Urban Agglomerations/Towns recorded in the district of Visakhapatnam during 2001 Census. Of the 1,530,899 total urban population of the district, 26.5% has been categorized as main workers and 4.0% as marginal workers. The remaining 69.6% fall in the category of non-workers. The sex wise breakup at the district level shows that 44.9% males and 7.4% females are in the category of main workers. Male and female marginal workers account for 5.8% and 2% respectively.

The percentage of total urban workers of the district comes to 30.4%. Narsipatnam (CT) recorded highest proportion of total workers forming 32.9% of the total population. It is closely followed by Gudivada (CT) with 32.2%. The lowest percentage of total workers 24.1% is recorded in Kantabamsuguda (CT).

Note: Percentage of Workers to total workers are given in brackets
****Excludes Statutory towns, Census Towns & OGs.***

The above table presents Mandal Parishad-wise distribution of workers by sex in four categories of economic activity as per 2001 Census. In the rural areas of the district total workers constitute (main+marginal) 49.4% of the total population. Among these workers, cultivators constitute 37.8%, agricultural labourers 36.4%, Household industry workers 3.5% and other workers 22.4%.

The agricultural sector plays a major role in providing employment to the working force of rural population despite the fact that it is not commercially viable. Household industries employs only 3.5% workers of the total working force. Therefore surplus working force has to depend on primary activities. Among cultivators, the percentage of females (37.3%) is lesser than the males (38.1%) in the rural areas of the district.

**Includes OGs.*

The above table shows the distribution of workers by sex in four categories of economic activity of urban agglomerations/towns. In the urban areas of the district total workers form (Main+Marginal) 30.4%, of the total population. Among these workers, cultivators constitutes 1.0%, 1.8% agricultural labourers, 3.7% household industry workers and 93.6% other workers in the district. The other workers play a major role in providing employment to the working force of urban population. Household industries also could not make much progress in urban areas as reflected in the data and these household industries employ only 3.7% workers of the total working force. Therefore surplus working force has to depend on other working activities. Among cultivators, the percentage of females (2.6%) is higher than males (0.7%) in the urban areas of the district.

*** Excludes statutory towns C.Ts and OGs*

Note : - Percentages are given in brackets.

** Based on the improved drinking water source, drinking water supply has been classified as `Improved ' or otherwise.*

If the household has access to drinking water supplied from a tap or a hand pump / tube well situated within or outside the premises it is considered as having access to `Improved drinking water source'.

However, the concept of improved drinking water is state specific and this is to be considered accordingly.

 # Post office includes Post office, telegraph office and Post and telegraph office.

$ Transport communication includes bus service, rail facility and navigable waterways.

This table deals with the distribution of villages, according to the availability of different amenities like education, medical, improved drinking water, post-office, telephone, transport, communications,banks, agricultural credit societies, approach by pucca roads and power supply within the village. Out of 3,108 inhabited villages in the district, 2,341 villages or 75.3% have been provided with the educational facilities of one type or other. Similarly, 1,645 villages in the district constituting 52.9% have medical facilities of one type or the other. Improved drinking water facility is available in 1,294 or 41.6% villages. As regards, post office facility which includes facilities like telegraph office and post and telegraph, 606 villages constituting 19.5% have been provided within the village. 384 or 12.4% villages have been provided with telephone facility, 861 or 27.7% with transport facility, 115 or 3.7% villages with bank facility and 103 or 3.3% with agricultural credit societies. Similarly, there are 1,129 or 36.3% villages which have been linked with the pucca roads. Total 3,098 or 99.7% of villages have been provided with the electricity supply. Almost similar pattern of distribution of villages by availability of amenities in the villages exists at mandal parishads.

Note *: - Percentages are given in brackets.*

* *Based on the improved drinking water source, drinking water supply has been classified as 'Improved ' or otherwise. If the household has access to drinking water supplied from a tap or a hand pump / tube well situated within or outside the premises it is considered as having access to 'Improved drinking water source'. However, the concept of improved drinking water is state specific and this is to be considered accordingly.*

\# *Post office includes Post office, telegraph office and Post and telegraph office.*

$ *Transport communication includes bus service, rail facility and navigable waterways.*

** *Excludes statutory towns, CTs and OGs*

This table depicts the number and percent of rural population served by different kinds of amenities. Out of total rural population of 2,301,437 persons in the district, 2,231,582 or 97.0 percent have educational facility of one type or the other. Similarly, 1,694,596 or 73.6 percent population has medical facilities while 1,973,166 or 85.7 percent have got improved drinking water facility. Post office facility is available to 1,493,080 or 64.9 percent population. Telephone facility is available to 1,085,885 or 47.2 percent. Transport communications facility is available to 1,666,847 or 72.4 percent. Bank facility is available to 562,474 or 24.4 percent. 401,216 or 17.4 percent have been provided with the facility of agricultural credit societies. 1,749,354 or 76.0 percent have been provided with the facility of approach by pucca road. Power supply is available to 2,300,677 or 100.0 percent rural population in the district. Similar pattern of availability of facilities is visible to the rural population at Mandal Parishad level.

TABLE - 39
DISTRIBUTION OF VILLAGES NOT HAVING CERTAIN AMENITIES ARRANGED BY DISTANCE RANGES FROM THE PLACES WHERE THESE ARE AVAILABLE, 2001

Village not having the amenity of	Distance range of place from the villages where the amenity is available

7. Agricultural Credit Societies	334	403	2,259	2,996

The above table presents distribution of villages not having certain amenities within the village at district level. They have to go out of their village to avail these facilities. Such villages have been presented in this table according to various distance ranges. 807 villages do not have primary school in their villages and out of these villages, children of 519 villages have to travel less than 5 kms. for schooling. Out of 3,108 inhabited villages, 2,676 are deprived of middle school and 3,085 of Degree College facilities. Of these, 801 avail the facility of middle school at a distance of less than 5 kms., 671 at a distance of 5-10 kms. and the remaining 1,204 at a distance of 10+ kms. In respect of degree college 116 avail this facility at a distance of less than 5 kms., 271 between 5 to 10 kms. and rest of 2,698 villages at a distance of 10+ kms.

Similarly, there are 3,077 villages in the district which have been deprived of Hospital facility and 2,613 villages which are deprived of PHC facilities. Of these, 135 villages have the facility of Hospital available within 5 kms. while in respect of 249 villages, the inhabitants have to cover a distance of 5-10 kms in order to avail this facility. Similarly 2,693 villages, people have to travel to a distance of 10+ kms. in order to avail this facility. As regards PHC 306 avail this facility at a distance of less than 5 kms., 459 at a distance of 5-10 kms. and the remaining 1,848 have to travel a distance of more than 10 kms. to avail this facility.

Regarding Post Office, 2,493 villages do not have this facility in the village itself. Of these, majority i.e. 1,304 have this facility at a distance of less than

5 kms., another 592 villages avail it at a distance of 5-10 kms. In the remaining 597 villages, habitants have to travel a distance of 10+ kms.

As regards Telephone, there are 2,715 villages in the district which are not having the telephone facility. Of these, 276 villages avail this facility at a distance of less than 5 kms., another 287 villages avail it at a distance of 5-10 kms. Remaining 2,152 villages, habitants have to travel a distance of 10+ kms.

In respect of Bus services, it is noticed that 2,239 villages do not have facility. Among these villages, 785 villages avail this facility at a distance of less than 5 kms., 477 at a distance between 5-10 kms. and 977 at a distance of 10+ kms.

In the entire district, 3,003 villages are deprived of Commercial Bank facilities and 3,059 of Co-operative Bank. Of these, 3,003 villages which are deprived of Commercial Banks, 439 villages avail this facility at a distance of less than 5 kms., 621 between 5-10 kms. and the remaining 1943 at a distance of 10+ kms. Regarding Co-operative Banks out of 3,059 villages 186 villages avail this facility at a distance of less than 5 kms., 329 at a distance of 5-10 kms. and remaining 2,544 at a distance of 10+ kms. 2,996 villages do not have agricultural credit societies. This facility to 334 villages is available at a distance of less than 5 kms., 403 at a distance of 5-10 kms. and the remaining 2,259 at a distance of 10+ kms.

TABLE - 40
DISTRIBUTION OF VILLAGES ACCORDING TO THE DISTANCE FROM THE NEAREST STATUTORY TOWN AND AVAILABILITY OF DIFFERENT AMENITIES, 2001

 # Post office includes Post office, Telegraph office and Post and telegraph office.
$ Transport communication includes bus service, rail facility and navigable waterways.

The above table deals with the distribution of villages according to distance from the nearest statutory town and availability of different amenities within the village. Out of total 3,108 inhabited villages in the district, there are 13 villages which have nearest towns upto a distance of 5 kms. Of these, 12 villages forming 92.3% are having the educational facility of one type or the other and 8 villages constituting 61.5 percent, have the medical facilities within the village, 7 villages forming 53.8 percent have the facility of post office within the village and 8 villages or 61.5 percent have the facility of telephone. 11 villages constituting 84.6 percent have been linked by transport service. 3 villages comprising 23.1% have been provided with bank facility, while 3 villages constituting 23.1% have been provided by the facility of agricultural credit societies. 13 villages comprising 100.0 percent have been provided with pucca road.

Similarly, 162 inhabited villages are at a distance range of 5-15 kms. from the nearest statutory town having the educational facility in 98.1% villages,

medical facility in 57.4% villages, Post-office facility in 55.6%, telephone in 45.7%, transport and communication in 77.8%, banks in 9.3%, agricultural credit societies in 8.0% and pucca road facility for 85.8% villages.

Maximum number of villages i.e., 2,513 villages fall in the distance range of 51+ kms from the statutory town. Out of these villages, 71.7% possess educational facilities, 51.5% medical, 13.4% post-office, 5.0% Telephone, 19.3% transport and communication, 2.4% banking, 1.8% agricultural credit societies, 28.1% villages have pucca roads.

409 villages are at a distance of 16-50 kms. from the statutory town. Out of these villages, 89.7% have educational facilities, 61.4% have medical, 42.3% post office, 43.0% telephone, 58.7% transport and communications, 8.8% Banking, 10.3% Agricultural Credit Societies and 65.5% have pucca approachable roads. 11 villages lie at unspecified distance to the statutory town having only pucca road facility.

Of the 3,108 villages, 2,341 villages forming 75.3% of these total villages are having educational facility of one or the other and 1,645 villages constituting 52.9% have the medical facilities within the village, 606 villages forming 19.5% have the post-office facility within the village and 384 or 12.4% have the facility of telephone. 861 villages comprising 27.7% have been linked by transport service. 115 villages comprising 3.7% have been provided with bank facilities while 103 villages constituting only 3.3% have been provided with agricultural credit societies and 1,129 villages comprising 36.3% have been provided with pucca roads.

TABLE-41

 # Post office includes Post office, Telegraph office and Post and telegraph office.

$ Transport communication includes bus service, rail facility and navigable waterways.

** Based on the improved drinking water source, drinking water supply has been classified as `Improved ' or otherwise.*

Ifthe household has access to drinking water supplied from a tap or a hand pump / tube well situatedwithin or outside the premises it is considered as having access to `Improved drinking water source'. However, the concept of improved drinking water is state specific and this is to be considered accordingly.

This table deals with the distribution of villages by population ranges and amenities available therein as recorded in 2001 Census. In Visakhapatnam district out of total 3,108 inhabited villages, 2,341 villages (75.3%) have educational facility, 1,645 (52.9%) have medical facility, 1,294 (41.6%) have improved drinking water facility. 606 villages (19.5%) have post office facility and 384 (12.4%) have telephone facility. 861 (27.7%) have been linked by bus service and 115 (3.7%) with Bank facility. 103 villages (3.3%) have been served with the agricultural credit societies, 1,129 villages (36.3%) have pucca approachable road and almost all villages possess electricity for all purposes.

2,187 villages have below 500 population. 305 villages have fallen in the population range of 500-999 and 299 villages in the range of 1000-1999. In the population range of 2000-4999, the number of villages fallen are 258. It is observed that the villages which have less population are deprived of many amenities.

TABLE - 42
DISTRIBUTION OF VILLAGES ACCORDING TO LAND USE, 2001

Sl. No.	Name of Mandal Parishad*	Number of inhabited villages	Total area (Hectares)	Percentage of cultivable area to total area	Percentage of irrigated area to total cultivable area

TABLE - 42 (Concld..)
DISTRIBUTION OF VILLAGES ACCORDING TO LAND USE, 2001

Sl. No.	Name of Mandal Parishad*	Number of inhabited villages	Total area (Hectares)	Percentage of cultivable area to total area	Percentage of irrigated area to total cultivable area
1	2	3	4	5	6
37	Atchutapuram	33	14,419	70.3	22.2
38	Yelamanchili	14	10,226	64.3	63.8
39	Nakkapalle	31	19,697	64.9	30.5
40	Payakaraopeta	19	11,073	74.0	60.3
41	S.Rayavaram	22	15,051	61.8	62.4
42	Rambilli	30	13,672	68.2	51.0
	District Total:	**3,108**	**766,062**	**56.3**	**26.3**

Note : - Cultivable area = irrigated area + unirrigated area
** Excludes Statutory Towns, Census Towns & OGs.*

The above table presents Mandal Parishad-wise distribution of villages according to land use as per 2001 census. It also gives details of total area and cultivable area in the inhabited villages of the district. Cultivated area includes irrigated as well as un-irrigated area. It further elaborates that what is the extent of cultivable area under irrigation. There are 3,108 inhabited villages in the district covering a total area of 766,062 hectares. Of this, 56.3 percent is cultivable and 26.3 percent of total cultivable area has got the irrigation facility. The area figures for the villages have been collected from the revenue records maintained by the State Government. It is observed that out of 42 mandals, 33 mandals have irrigated area of below 50% to cultivable area.

TABLE - 43
PER CAPITA RECEIPT AND EXPENDITURE IN STATUTORY TOWNS

Sl. No.	Class, name & urban status of Town +	Per capita receipt			Per capita expenditure					
		Total	Through taxes	From all other sources	Total	General Administration	Public health and conveniences	Public works	Public institutions	Other(s)
1	2	3	4	5	6	7	8	9	10	11
1	II Anakapalle (M)	5,454	1,379	4,075	4,641	3,743	104	425	-	369
2	III Bheemunipatnam (M)	3,907	596	3,311	3,068	1,756	-	333	247	732
3	I Gajuwaka (M)	2,505	766	1,739	2,018	317	104	1,085	-	512
4	I Visakhapatnam (M.Corp.)	1,272	769	503	687	455	48	143	4	37
	District Total	**1,841**	**798**	**1,043**	**1,252**	**666**	**61**	**160**	**11**	**354**

+ Towns arranged in alphabetical order.

The above table gives the per capita receipt and expenditure (in rupees) for each statutory town in the district. The average per capita receipts for all statutory towns of the district works out to Rs.1,841 of which Rs.798 are derived through local taxes and the remaining Rs.1,043 received from all other sources. The average of total expenditure incurred per head is Rs.1,252. Out of this Rs.666 are spent on General administration, Rs.61 on public health and conveniences, Rs.160 on public works and Rs.11 on public institutions and Rs.354 is spent on other items. Among all the 4 statutory towns, the per capita receipt of Rs.5,454 is highest in Anakapalle (M) and also the highest expenditure of Rs.4,641 per head is also recorded in Anakapalle (M).

TABLE - 44

SCHOOLS / COLLEGES PER 10,000 POPULATION IN STATUTORY TOWNS, 2001

Sl. No.	Name and urban status of Town +	Type of educational institution				
		Primary	Junior Secondary/ Middle	Secondary/ Matriculation	Senior Secondary	College
1	2	3	4	5	6	7
1	Anakapalle (M)	1.8	0.2	0.7	0.2	0.6

** Household data pertaining to urban portion of Visakhapatnam rural mandal has been clubbed with Visakhapatnam urban mandal*

The data presented in the above table reveals percentage distribution of households living in permanent, semi-permanent, temporary and unclassified houses in the district, that 59.0 percent of households are living in permanent houses, made of pucca materials, residences of 11.0 percent households are of semi-permanent nature and only 30.0% households are living in the houses made of temporary materials.

In the rural areas, however, the percentage of households living in permanent houses is 45.0 percent, 14.0 percent in semi-permanent and only 40.0 percent in temporary houses.

The district-wise percentage in urban areas indicates that majority of households i.e. 81.0 percent are living in permanent houses constructed with pucca materials, Whereas 6.0 percent are living in semi-permanent structures and the percentage of households living in temporary houses is 13.0% constructed with kutcha materials.

*Note: * Household data pertaining to urban portion of Visakhapatnam rural mandal has been clubbed with Visakhapatnam urban mandal*

The above table indicates percentage of households having improved drinking water source, electricity,bathroom,toilet and drainage facilities as per 2001 census in the district. 58.2 percent households in the district have been provided with improved drinking water. 62.0% households have provision of electricity to their houses. The bathroom facility is available to only 35.9 percent households within their premises. As regards rural areas, 13.1 percent households are having bathroom facility, whereas this proportion in urban areas comes to 73.0 percent. 44.9 percent rural households have facility of electricity against 89.9 percent in urban areas. Toilet and drainage facilities in the district are available to 35.3 percent and 51.9 percent households respectively. Their percentage is higher in urban areas as compared to rural areas.

** Household data pertaining to urban portion of Visakhapatnam rural mandal has been clubbed with Visakhapatnam urban mandal*

The table deals number and percentage of households by type of fuel used for cooking purposes. There are nine types of fuel used for cooking which data has been presented in this table. It is observed that fire wood is the most predominant fuel used for cooking by 59.8 percent households in the district. In rural areas, use of fire wood for cooking is higher while in urban areas it is less due to availability of LPG. The next cooking fuel is cooking (LPG) gas which is used by 26.5 percent households in the district. This proportion in rural and urban areas is 8.0% and 56.7 percent respectively. In rural areas use of gas for cooking is very low as compared to urban areas at mandal level. There are 8.6% households using Kerosene in the district. This proportion in urban and rural areas is 20.0% and 1.6% respectively. The percentage of households using other types of fuel such as crop residue, cow dung cakes, electricity, coal, biogas etc. is insignificant. In rural areas fire wood is main fuel and in urban areas cooking gas (LPG) is used as predominant fuel.

Note: Household data pertaining to urban portion of Visakhapatnam rural mandal has been clubbed with Visakhapatnam urban mandal

This table presents data for total, rural and urban areas at district/mandal level about households availing banking services and in possession of assets such as radio/transistor, television, telephone, bicycle, scooter, car, etc. There are 862,531 households in the district and among them, 278,911 households have been availing banking services. 211,179 households have Radio/Transistor. Television is possessed by 288,186 households. Telephone is available in 77,732 households. Bicycle is used as a major means of transportation and is available in 231,721 households. Scooter, Motor cycle and Moped are used by 117,676 households. Whereas 16,424 households are in possession of Car, Jeep and Van. The picture in usage of banking services and possession of assets by households at mandal level is almost similar as analyzed above for the district as a whole.

(v) Brief description of places of religious, historical or archaeological importance in villages and places of tourist interest in the towns of the district.

Visakhapatnam district in Andhra Pradesh has rich political, historical as well as religious background and developed on proper lines. The district became a great tourist attraction. Its political background as a part of the famous Kalingadesa can be traced to the 16th century B.C.

The district consists of two natural divisions a narrow strip of land which runs along with the beach and other a hilly track on the west known as the agency area rich with fauna and flora and inhabited by hill tribes like Bagata, Khonda, Konda doras etc. The hill called Golugonda hills are also source from which the four rivers of the district, the Varaha, the Sarada, the Gosthani and the Champavathi flows. The river Machkund rises in the Madugala hills and flows towards Orissa. There is a water fall in Duduma which is a source of power generation.

Visakhapatnam City:

Visakhapatnam, the district head quarters of the district, the revenue division and the mandal headquarters of the same name is situated on the Chennai - Howrah broadguage line. The name Visakhapatnam is named after 'VAISAKHA' or 'KARTIKEYA' the lord of valour. The city is built along the seashore of the bay of Bengal and it is bounded and broken by the bold head land called the 'Dolphins Nose'. This place is also known as black mores hill. It is bustling industrial and commercial center surrounded by hills, beautiful beaches and lush green nature. The undulating terrain within the city is emphasized by three hills. The Rose hill housing a Roman Catholic Church, the path way leading to which is strewn with Catholic icons. The second hillock Dragakonda has a mosque and a tomb of muslim saint who was revered for his prophecies and the third hill is called Sri Venkateswara Konda with a temple built by captain Blackmoor in 1886. It has its own importance, educationally, because it is the seat of Andhra University. The place of interest in the city include the Dolphins nose, Light house with 7 million candle power coming 64 kilometers range harbour, BHPV, Hindustan Shipyard, H.P.C.L Coramandal fertilizers factory, KGH, Circuit house on the hill a beautiful beach near Ramakrishna mission and an airport etc.

1.Kailasagiri Park:

Kailasagiri hill organized by Visakhapatnam Urban Development Authority is picturesque over looking the sea and is a natural gift with 100 acres available on the hill top, 50 acres on the sea side has been developed into a beautiful park, can be reached through foot steps and also by bus. This lush green park has a panoramic sea view with a screne atmosphere with water sprinklers, micro wave repeator station, beautiful garden locations and recent flower clok titanic view making it an outstanding tourist spot. On the top of the hill a giant statue of Sivaparvathulu which is recently illuminated and Shanku Chakra and Namalu of lord Venkateswara are established. Roadway was constructed on the hill from Simhachalam which gives much attraction to the piligrims.

2. Vuda Park:

It is established in vast area and has beautiful greenery and panoramic sea view with dancing musical with fountain sprinkling with colourful up and downs dancing along beat of the music, boating facility and skating rink. It also has facilities like pleasure rides on horses and camels which are very fond for children and well equipped gymnasium.

3. Ramakrishna Mission Beach:

The Ramakrishna Mission beach is a beautiful spot for relaxation and pleasure with a natural beautic

scene. There is an imposing Kali temple near this beach. The aquarium here is an added attraction. The roaring sounds of sea gives enormous pleasure.

4. Dolphins Nose:

A conspicuous land mark in Visakhapatnam is the Dolphin's nose with a huge rocky head land 174 meters high and 358 meters above sea level jutting out into the sea resembling the shape of Dolphin. The powerful beacon of the light house set on rock at sea directs ships 65 kms. away.

5. Mudasarlova:

It is situated at a distance of 10 kms. away from Visakhapatnam. Mudasarlova, the name itself depicts that it is a valley formed by the natural hill. A lake is situated at this valley which supplies drinking water to the city. The municipal corporation, has developed this into a beautiful park with different types of green plants and orchads and is a beautiful picnic spot attracting good number of tourists and public.

6. Rushikonda Beach:

Rushikonda is 8 kms. away from Visakhapatnam with clean golden beaches, is an ideal place for swimming and wind surfing in picturesque settings. A.P tourism has 12 elegant cottages overlooking the beach for comfortable accommodation for tourists. Proposed to construct a swimming pool and also to introduce water sports are on the anvil.

7. Thotlakonda:

The name thotlakonda has been derived from the presence of rock cut throughs hewn is the bed rock of various shapes, sizes with 4 to 8 steps in the hillock by which water has been drawn for drinking purposes. Thotlakonda lies about 15 Kms, from Visakhapatnam in beach road and is located 128 meters high above sea level. The archaeological excavations reveal antiquities like maha stupa vihars, Votive stupas, Chaitya Gruhas, Pillared hall, Congregation hails, tiles, finials, Buddapadas, Eppatra pieces, engraved with Brahmelipi recovered from the site of Mangamaripeta hill and reflects the Kalinga and Andhaka schools of Buddism.

8. Bavi Konda:

Bavikonda is a hill on the north west of Timmapuram situated in between Visakhapatnam and Bheemunipatnam beach road and located at 2 Kms. interior from the beach road point. On the hill noticed a buddist site in the middle of the plain with antiquities like religious structures, stupas, chaitya gruhas, Congregation hall, Platforms, Vihars, Stucofigures and coins are found here. The entire complex compries 26 structures belongs to 3 phases. The artifacts recovered here include Roman coins and Satavahana coins apart from pottery dating back to 3rd centuary B.C and 2nd century A.D. The discovery of relic caskets in the maha chaitya is significant.

Pilgrim Centres :

1. Simhachalam :(Visakhapatnam Mandal)

Simhachalam is a place of pilgrim centre in Visakhapatnam mandal. It is situated on the Simhachalam range of hills about 16kms., from Visakhapatnam connected by both rail and road. The Simhachalam temple, the man lion incarnation of Vishnu is the most famous, the richest and the best sculptured shrine. The word Simhachalam etymologically means the hill of lion.

The temple of Varaha Lakshmi Narasimha is situated on the hill which is 244 meters above the sea level. The way up to the temple runs through the glen covers with pinapple fields besides mango, jack and other fruit trees. Architecturally, this ancient temple deserves high praise. It contains a square shrine surrounded by a high tower, a portico and an enclosed varandah, all made of dark granite. All these are richly and delicately carved with conventional and floral ornaments and scenes from the Vaishnavite puranas. One of the pillars locally known as the Kappa stambam is believed that it has great curative powers. There is a stone car with stone wheels and prancing stone horses.

The image of the diety is small and always kept covered with sandal paste. Every year in the month of May the sandal paste is removed ceremonially at the festival called Chandana Yatra which is attracted by thousands of people all over the country especially from surrounding areas of Orissa state. On the north side of the temple, there is an excellent Natya Mandapam where Kalyanotsavam is performed. This mandapam is supported by 96 pillars of black stone, exquisitely carved and arranged in sixteen rows of six each. The exact age of the temple is not known, but it contains an inscription dated as far back as

A.D 1098-99 of the Chola king Kulottunga-I who conqured the Kalinga territories. Another inscription shows that a queen of the Velanadu chief Gonka III (AD 1137-56) covered the image with gold. A third says that the Eastern Ganga King Narasimha-I built the central shrine, the Mukhamandapam the Natya mandapam and the enclosing Varandah in black stone and the other grants inscribed on its walls make it a place of historical importance. The most important festivals celebrated here are 1. The Kalyanam of Varaha Lakshmi Narasimha (March-April) 2. Chandana Yatra (May) and 3. Vysakha poornima (May) on these occasions large number of devotees congregate here, Apart from the religious importance attached to this place, Simhachalam is a place of enchanting scenic beauty.

9. Sankaram(Bojjannakonda) (Anakapalle Mandal):

Sankaram is a small village which is over six Kilometers from Anakapalle. There are two low contiguous rock hills running east and west which are locally known as Bojjannakonda. They contain some notable Buddist remains. Three huge stupas at three different places were cut with great difficulty from the rocks in these hills. The biggest of these is about nine meters in diameter.On the eastern side of the hills is a rock cut temple with numerous Buddist Sculptures and also a life size statue of Budda. Sankaram is a place of archaeological importance.

10. Anakapalle (Anakapalle Mandal) :

Anakapalle, the headquarter of the mandal of the same name is situated at a distance of 34 kms. west of Visakhapatnam. This town is important for wholesale marketing for Jaggery which is exported to various places in the country. It is also famous for sugarcane and guava fruits. The town is also known for manufacture of brass, and household utensils. The shrine of Kanyaka Parameswari and Nookalamma temples are famous and attracting a large number of devotees.

11. Kondakarlaava (Atchutapuram Mandal):

Kondakarla Ava is situated in Kondakarla of Atchutapuram mandal. It is famous for its natural lake where some of the birds immigrate from distant places especially during summer period and attracts the viewers to enjoy.

12. Panchadarla (Rambilli Mandal) :

This village is situated at a distance of about 10 kms. North East of Yelamanchili and 24 kms. from Anakapalle, it derived its name from the five jets of water coming out of five fountains which receive their supplies from a natural perennial spring. Near by there is a lingam on which are carved other lingams in 12 rows of 85 each and which is consequently known as the Kotilingam or Crore of lingams. There are several inscriptions on the pillars of the Mandapam in the temple and two of them dated in AD 1407 and 1428 contain a genelogy of chiefs who claimed Eastern Chalukya ancestry and bore the Eastern Chalukya titles of Sarvalokasraya and Vishnu Vardhana.

13. Balighattam (Narsipatnam Mandal) :

About 3 kms. South West of Narsipatnam there lies on the bank of Varaha river a place known as Balighattam. This place owes its importance to the Brahma Lingeswara Temple at the foot of a small hill on the western bank of the river. Here, the shrine like the one at Banaras faces to the West. It is interesting to note that this temple is supposed to have been built by Brahma and that the river is declared to have been made by Vishnu during his incarnation as a boar(Varaha). Therefore, the river is known as Varahanadi. The deposits of white clay on the river bank are supposed to be the ashes of a sacrifice performed hereby Bali, the demon king from whom the village takes its name as Balighattam. The river at this place flows from North to South for a short distance. On account of these peculiarities, the place is considered to be very sacred. The Sivaratri festival celebrated here every year attracts a large number of devotees.

14. Gopalapatnam (Payakaraopeta Mandal) :

Gopalapatnam is situated on the left bank of river Thandava in Payakaraopeta Mandal of Visakhapatnam district. It lies about 10 kms. South of Tuni railway station. In course of exploration in and around the village, stone veneered stupas, Brick built stupas, viharas, title and early historic pottery

were noticed in side the village, as also on the hill ranges, locally known as 'Budhikonda', 'Seethammakonda', 'Burolametta' and 'Veerulametta'. The entire village appears to have been built on ancient habitation.

15. Upmaka (Nakkapalle Mandal) :

The village is located at a distance of one km. from Nakkapalle. On the hill near Upmaka there is a well known shrine of Lord Venkateswara and is one of the important worship places for the devotees.

16. Etikoppaka(Yelamanchili Mandal) :

This village lies on the left bank of the river varaha and is situated at a distance of about 20 kms. to the South of Yelamanchili and about five kms. North west of Narsipatnam road railway station. This place is famous for the manufacture of toys specially prepared with the Ankudu wood.

17. Padmanabham (Padmanabham Mandal) :

Padmanabham lies 16 kms. North West of Bheemunipatnam on the left bank of the Gosthani. Padmanabham is known in the local history as the place where the Raja of Vizianagaram was slain in AD 1794 in the fight with the East India Company's troops and the spot is marked by a small memory erection. The Padmanabheswara Swamy temple of this place is one of the most important temples of the region. The presiding deity Padmanabha swamy is said to be the lord who readily responds to the desires of his devotees. On the top of the hill which overlooks the place, is the shrine of Padmanabha and the Kalyanotsavam of the diety celebrated annually during March-April draws a congregation of large number of devotees.

18. Rajendrapalem (Koyyuru Mandal) :

This village lies about 48 kms. from Chintapalle. This is the place where Alluri Seetharamaraju organized his famous Pituri against the British administration. A tomb was erected here in his honour.

19. Lothugedda (Chintapalle Mandal) :

Lothugedda is situated at about 42 kms. from Narsipatnam of Chintapalle mandal. The village contains the ruins of 3 or 4 granite temples of Siva the largest of which has elaborate sculptural depictions. The villagers believe that the men of the builders of the temple and that the barbers were probably rared on the hills in those days.

20. Appikonda (Pedagantyada Mandal) :

This is a small village situated on the coast of the Bay of Bengal at a distance of 18 kms. from Visakhapatnam. Kapilamahamuni is said to have installed the image of Somalingeswara swamy in this village. So it was called Kapilakonda. Formerly, fisher men used to live in those places and they called it as Apilakonda which gradually became Appikonda. It assumed religious importance owing to the existence of a Siva temple containing a life size bull carved out of black stone. There are also other small temples around the Siva temple but they are covered with sand dunes and their gopurams along are visible. The Siva temple contains inscriptions of the 12th century AD. These inscriptions mention that this village was granted by a Commander in chief of the Cholas for the maintenance of worship in the temple. The Sivaratri festival celebrated here is attended by a large number of devotees.

(xiii) Scope of Village Directory and Town Directory - Column heading wise explanation and coverage of data

The village directory and the town directory presented in the District Census Handbooks are proved more useful. The formats of village directory and of seven statements on town directory are on the same pattern canvassed in 1991 census except for a few additional columns. These additional columns are introduced to throw more insight into the infrastructure of the villages and towns. All the amenities except recreational and cultural facilities, power supply and news papers/magazines are brought under one bracket, with corollary that in case any amenity is not available in the village, the distance of the nearest place where the facility is available is presented. Similar method is followed in respect of towns where educational and medical facilities are not available. The non-census data presented in the village and town directories relate to the year 1999. However, wherever the field agencies have indicated the later position, the information has been updated. Almost all the details in the statement have been indicated by codes. In respect of total population and total number of households, the figures as returned during the recent census i.e. 2001 census have been presented. The scope of village directory and town directory statements with column heading-wise explanation and coverage of data are hereunder presented.

Scope of Village Directory :

In the similar manner as was done in the past, the village directory has been prepared for all the villages in the state and these are presented mandal-wise in the District Census Handbook. This statement contains village-wise area, population, amenities such as educational, medical, communications, drinking water facilities, etc., and also the land use pattern details. The villages are shown in order of their permanent location code numbers. An alphabetical list of villages with their permanent location code numbers and a mandal map has been presented in the beginning of Village Directory of each mandal. This facilitates the reader in locating the mandal in which a particular village lies. The village directory now contains 23 columns as against 18 columns in 1991 handbook. To give more information under amenities column, banking facilities such as commercial and co-operative banks, agricultural, non-agricultural and other credit societies have been included in the present statement. Similarly, a new column 'number of recreational and cultural facilities' showing cinema/video halls, sports club and stadium/ auditorium has been added. In addition to the above a column showing newspapers/magazines received and name of the most important commodity manufactured in the village have been incorporated. Besides the above, the Village Directory is having 12 appendices viz.

Appendix I	:	Abstract of Educational, Medical and other amenities in the villages – Mandal Parishad level.
Appendix 1A	:	Villages by number of primary schools
Appendix 1B	:	Villages by primary, middle and secondary schools
Appendix 1C	:	Villages with different sources of drinking water facilities available

Appendix II	:	Villages with 5,000 and above population which do not have one or more amenities available
Appendix IIA	:	Census Towns which do not have one or more amenities
Appendix III	:	Land utilization data in respect of census towns / non-municipal towns
Appendix IV	:	Mandal Parishad-wise list of inhabited villages where no amenity other than drinking water facility is available
Appendix V	:	Summary showing number of villages not having Scheduled Castes population
Appendix VI	:	Summary showing number of villages not having Scheduled Tribes population
Appendix VII A	:	List of villages according to the proportion of the Scheduled Castes to the total population by ranges.
Appendix VII B	:	List of villages according to the proportion of the Scheduled Tribes to the total population by ranges.
Appendix VIII	:	Statement showing number of Girls schools in the Villages/Towns
Appendix IX	:	List of Degree Colleges by Village/Town in the district
Appendix X	:	List of Hospitals by Village/Town in the district
Appendix XI	:	List of Banks by Village/Town in the district
Appendix XII	:	List of Cinema Halls by Village/Town in the district

It may be noted that the Appendix 1A, 1B, 1C, II, II-A, VIII, IX, X, XI and XII have been included afresh in comparison to the District Census Hand book of 1991 Census.

Columns 1 to 3 of Village Directory relate to the serial number, location code number, name and total area of the village. The area given under column 3 is as per the data collected from the state survey department during 1991 census and presented even for 2001 census as the department clarified that there are no changes in the area figures. Column numbers 4 and 5 provide the total population and the total number of households in the village as per 2001 census. Columns 6 to 13 list out the basic amenities available in the village such as educational, medical, drinking water, post, telegraph and telephone, commercial and co-operative banks, agricultural, non-agricultural and other credit societies, recreational and cultural facilities and communications.

The columns 14 to 18 give the details of approach to the village, nearest town & distance, power supply, news paper/magazine circulation and most important commodity manufactured in the village.

The remaining columns 19 to 23 pertain to the land use pattern in the village. The extent of forest area has been given in column 19 while in columns 20 to 23 the extent of irrigated area together with different irrigational sources, the extent of culturable waste including gaucher and groves and the area not available for cultivation such as buildings, roads and railways or under water(rivers and canals), etc., have been given. Here it is worth mentionable that the total area figures of Col. 19 to 23 may not tally with the total area of the village as shown in Col. 3 due to various reasons such as water ways, etc., which are not generally included in the land use statistics.

The land use pattern in the Village Directory conforms to the pattern of classification of land use as recommended by the Ministry of Agriculture, Government of India. The Ministry of Agriculture has recommended the maintenance of records of land use pattern under five categories viz. forests, not available for cultivation, other uncultivated lands excluding fallow lands, fallow lands and net area sown.

The concepts of various types of land use given under each of the columns 19 to 23 as given in the Village Directory schedule are reproduced below:

1. Forests (Col.19) :

These include all actually forested areas and the lands classified or administered as forests under any legal enactment dealing with forests whether State owned or private. If any portion of such land is not actually wooded but put to some agricultural use, that portion is included under the appropriate heading of cultivated or uncultivated land.

2. Cultivated area with break-up irrigated and un-irrigated (Col. 20 & 21):

This includes the land under the following three categories.

I) Net area sown :

The net area sown represents the area sown to crops counting areas sown more than once in the same year, only once.

II) Other fallow lands :

This includes all lands which were taken up for cultivation but are temporarily out of cultivation for a period of not less than one year and not more than five years. The reasons for keeping such lands fallow may be either due to poverty of the cultivators or inadequate supply of water or malarial climate or silting of canals or rivers or un-remunerative nature of farming, etc.

III) Current fallows :

This class comprises cropped areas which are kept fallow during the current year. If any seedling area is not cropped again in the same year, it is also treated as current fallows.

3. Culturable Waste (Col. 22):

This item includes the land under the following three categories.

i) Permanent pastures and other grazing lands:

These cover all grazing lands whether they are permanent pastures and meadows or not. Village common and grazing lands within forest areas are included under this head.

ii) Lands under miscellaneous tree crops and groves not included in the area sown:

Under this class is included all cultivable land which is not included under net area sown but is put to some agricultural use. Lands under casurina trees, thatching grass, bamboo bushes and other groves for fuel, etc., which are not included under 'Orchards' are classed under this category.

iii) Culturable waste:

This includes lands available for cultivation but not taken up for cultivation or abandoned after a few years for one reason or other. Such lands may be either fallow or covered with shrubs and jungles, which are not put to any use. They may be assessed or not assessed and may lie in isolated blocks or within cultivated holdings. Land once cultivated but not cultivated for five years in succession is also included in this category.

4. Area not available for cultivation (Col.23) :

This includes the land under the following two categories.

i) Land put to non-agricultural uses :

All lands occupied by buildings, roads and railways or under waters such as rivers and canals and other lands put to uses other than agricultural.

ii) Barren and uncultivable land :

This covers all barren and uncultivable land like mountains, etc., i.e. which cannot be brought under cultivation unless at a high cost. Whether such land is in isolated blocks or within cultivated holdings.

All the above particulars are based on the data received from the concerned departments like education, medical, postal, electricity, etc., and also mainly from the Mandal Revenue Officers concerned.

Item on communications has been shown separately to spell in terms of availability of the public transport system. This is meant to see whether the village is served by any mode of transport such as bus or rail or waterway. It is against this back-ground that the item on approach to village has been given separately. This refers to road, etc., leading to the village and is to indicate whether the village is approachable both in fair and foul weather and whether it is inaccessible for all time or only some time in the year. Adult literacy class/centre under item on 'Education' and Primary health centre and

Community health worker under item 'Medical' of Village Directory are included to indicate statistics on the Minimum Needs Programme of the Planning Commission.

Scope of Town Directory :

There are seven statements in the Town Directory, which include several particulars relating to the towns arranged as per the alphabetical order of their names. These statements are almost similar to those adopted in 1991 census except for a few changes. During 1991 there were six Town Directory statements besides providing a separate statement IV-A bringing out civic conditions of the notified slums in class I and II towns. In the present volume, statement IV-A of the 1991 handbook has been termed as statement-VII and the data is presented in respect of all towns having statutory bodies including un-notified slums. Column 4 of statement IV-A of the 1991 handbook i.e. area of the slum has been deleted in the present handbook duly substituting the same by giving the information – whether the slum is notified or not with a view that the local authorities are not in a position to provide exact area figures for each slum area. Further in the present statement-VII another item i.e. approximate number of households living in the slum is incorporated. The captions of the statements are as follows:

Statement I	: Status and growth history
Statement II	: Physical Aspects and location of town, 1999
Statement III	: Municipal Finance, 1998-99
Statement IV	: Civic and other Amenities, 1999
Statement V	: Medical, Educational, Recreational and Cultural Facilities, 1999
Statement VI	: Trade, Commerce, Industry and Banking, 1999
Statement VII	: Civic and other Amenities in slums, 1999

The formats of Town Directory have been devised to suit the Minimum Needs Programme of the Planning Commission. To reflect this programme, the columns scheduled castes and scheduled tribes population in statement IV and Adult Literacy classes/ Centres in statement V are identical.

In case such of the amenity as Fire Fighting Service in statement IV, the Educational or Medical facility in statement V is not available in the town, the name of the nearest place and its distance from the referent town has been given. This feature is followed since 1981 census as it is necessary to identify the areas that have no specific facility in the district.

Statement I : Status and Growth History :

This statement provides basic information on civic status, population with decadal growth rate from 1901 to 2001, density for 2001 census and sex ratio from 1981 to 2001 censuses of each town besides presenting class of town, location code, name of the mandal, area in sq.kms. and number of households including houseless households returned in 2001 census.

The columns 1 and 2 relate to serial number and class, name and civic status of the town. The class of town has been determined basing on the size of population as given below.

Population	Class
1,00,000 and above	I
50,000 – 99,999	II
20,000 – 49,999	III
10,000 – 19,999	IV
5,000 – 9,999	V
Below 5,000	VI

The civic status of the town is indicated in brackets by abbreviated letters like 'M.Corp.' for Municipal Corporation and 'NP' for Nagar Panchayat. The location code number under column 3 for the town has been framed in the order of geographical contiguity, beginning from North West point of the district and ending at South East point. After location code the Col. 4-7 indicate name of mandal, name of mandal parishad, area of the town in sq. kms. and number of households including houseless households recorded in 2001 census. The population of the town with decadal growth rate from 1901 census to 2001 census is given in Col. 8-18. The column 19 shows the density of population and column 20 to 22 give

the sex ratio recorded during 1981 to 2001 censuses. The sex ratio defined here is number of females per 1,000 males.

The following nine places are treated as urban areas in Visakhapatnam district at the 2001 census.

1. Visakhapatnam
2. Bheemunipatnam
3. Anakapalle
4. Gajuwaka
5. Gudivada
6. Kantabamsuguda
7. Narsipatnam
8. Upper Sileru Project
9. Vepagunta

Visakhapatnam, Bheemunipatnam and Anakapalle Municipalities are continuing as urban areas since 1901 and Narsipatnam(CT) is also an urban area since 1901. The places Madugula (P), Payakaraopeta, Chodavaram(P), Yelamanchili (P), Pendurthi (P) have been declassified and attained their original status in 2001 census due to strict application of criteria for treating a place as town.

Regarding Gudivada and Kantamsuguda CTs, are newly created towns in 2001 Census.

The town Gajuwaka which was a Census town in 1991 has formed as Municpality now, Upper Siler Project site camp is a town since 1971 whereas Vepagunta Census town is continuing since 1991.

Visakhapatnam Municipal Corporation and Gajuwaka are class I towns with 1 lakh population and Anakapalle is class II and Bheemunipatnam, Narsipatnam, Vepagunta are class III towns whose population falls in the range of 50,000-99,999 and 20,000-49,999 respectively. Both Gajuwaka and Vepagunta have registered highest growth rate with 504.0% and 114.6% in 2001 respectively over population of 1991 census.

Statement II: Physical aspects and location of town, 1999.

This statement contains 13 columns and depicts physical aspects and location of town in the district. Column numbers 1 and 2 relate to serial number and class, name and civic status of the town. The physical aspects such as rainfall in millimetres maximum and minimum temperature in centigrade have been shown in columns 3 to 5 by taking average for the last ten years i.e. from 1990 to 1999.

The total rainfall in the district was 904.4 mm which is below the normal rainfall of 1082.5 mm during the year 1999-2000. During the south-west monsoon the district received 853 mm rainfall while the north-east rain fall was very weak.

The columns 6 to 12 give the details of name and road distance in kms. from referent town to state, district and mandal Head quarters, nearest city with population of one lakh and more five lakh and more, railway station and bus routes. Visakhapatnam city is 711 kms away from State Headquarters while Anakapalle and Bheemunipatnam are 640 kms and 755 kms respectively. Anakapalle and Bheemunipatnam are 35 kms each from district Head quarters of Visakhapatnam. The last column ie column number 13 is meant for showing name of the navigable river/canal within the distance of 10 kms. from the referent town. There is no navigable river/ canal in the district for providing cheap navigational facilities.

Statement III: Municipal Finance, 1998-99.

The details for inclusion in this statement were obtained from the respective statutory bodies. In the statement there are 16 columns. Column 1 and 2 relate to serial number, name and class of town with civic status. Columns 3 to 9 show the receipts of the local body under various sub-heads and columns. 10 to 16 give the details of expenditure incurred on general administration, public safety, public health and convenience, public works and institutions, etc. During the year 1998-1999 the total income of Visakhapatnam(M.Corp.), Anakapalle(M) and Bheemunipatnam(M) was 132.59, 46.63 and 19.02 lakhs respectively and total expenditure was 71.59, 39.67 and 14.93 lakhs respectively. The income derived through taxes was 80.2% in respect of Visakhapatnam town, 11.8% in Anakapalle town and 2.9% in Bheemunipatnam towns. In respect of Govt. grants, Visakhapatnam(M.Corp.) has received 28.5 lakhs, Anakapalle(M) 26.5 lakhs and Bheemunipatnam (M) has received 9.4 lakhs.

The total expenditure incurred in respect of general administration by Visakhapatnam (M.Corp.) is 47.4 lakhs, Anakapalle(M) is 31.9 lakhs and Bheemunipatnam(M) is 8.5 lakhs. In respect of public health and convenience, Visakhapatnam and Anakapalle (M) has incurred 5.1 & .09 lakhs respectively.

Statement IV : Civic and other Amenities, 1999.

The title itself reveals that, this statement deals with the facilities provided to the people in the urban areas of the district.

This statement contains 20 columns. Column 1 & 2 relate to serial number, class and name of town and civic status of the town respectively. Column 3 gives population of the town whereas the column number 4 and 5 gives population of SC and ST as per 2001 census. The lengths of pucca and kutcha roads are recorded separately for each town in column 6. Column 7 shows the details of sewerage systems prevailing in the referent town. The number of latrines with different types is shown in columns 8 to 11. Column 12 is provided separately to show method of disposal of night soil. The source of protected water supply and the system of storage with capacity are recorded under column 13 and 14. Column 15 shows the availability of fire fighting services. In case if this service is not available in the town, the name of the nearest town along with distance where the facility available is mentioned under this column. The columns 16 to 20 relate to different types of electrical connection in number.

Visakhapatnam town is having 1,011 kms pucca road and 50 kms kucha road, open surface drainage system and 55,165 total number of latrines. Night soil is disposed off by the method of sewerage lines and septic tank systems. Tap is the source of supply of protected water by storing the water in service reservoir having capacity 104,693,000 kiloliters. Visakhapatnam municipal corporation is having electrical connections of 178,840 domestic, 963 industrial, 23,148 commercial and 450 road lighting points.

Anakapalle(M) is having 60 kms. pucca road, 3 kms. kucha road, open surface drainage system, 7,513 water born latrines. Night soil is disposed by Septic Tank method. Tap is the source of supply of protected water by storing the water on overhead tanks having capacity 2,115,000 kilolitres. Anakapalle(M) is having electrical connections of 14,705 domestic, 195 industrial, 2,873 commercial, 1,184 road lighting points and 2,948 other connections.

Bheemunipatnam town is having 54 kms. pucca road and 12 kms kucha road, open surface drainage system and 6,905 water born latrines. Night soil is disposed by wheel barrows system. Tap is the source of protected water by storing from river in filtration gallery having capacity 1,963,810 kilolitres. Bheemunipatnam(M) is having electrical connections of 7,692 domestic, 14 industrial, 272 commercial and 1,164 road lighting points.

Statement V : Medical, Educational, Recreational and Cultural facilities, 1999

In this statement the availability of medical, educational, recreational and cultural facilities are presented with reference to the population of 2001 Census. The important towns in the district Visakhapatnam(M.Corp.), Anakapalle(M) and Bheemunipatnam(M) are having all the facilities. This statement is containing 20 columns. Column 1, 2 and 3 relate to serial number, class, name and civic status of the town and the population recorded during 2001 census respectively. The columns 4 and 5 show about the availability of different hospitals, dispensaries, T.B. clinics, etc., together with beds strength. Columns 6 to 15 relate to educational facilities such as various schools/colleges at all levels including Medical, Engineering, Polytechnic, Technical Institutions and Adult literacy classes/centres. The column 16 is meant for working women's hostels with number of seats. The number of recreational and cultural facilities such as Stadia, Cinema, Auditorium/Drama/Community halls, Public Libraries including reading rooms available in the towns is recorded in columns 17 to 20.

In Visakhapatnam(M.Corp.), there are 5 hospitals apart from other medical institutions. The total bed

strength of all the above institutions is 2,665. There are 29 degree colleges and 3 polytechnic institutions in Visakhapatnam town. Further the town is having 20 typewriting and 27 shorthand institutions to meet the need of the students. 55 Junior colleges, 82 secondary, 82 upper primary and 70 primary schools are existing in the town. Further 32 Adult literacy centres are also existing. Two Working Women hostels are also available to accommodate working women. For recreational and cultural purposes the town is having 31 cinema halls, 4 stadia and 21 auditoria/drama/community halls, 11 public libraries and 3 reading rooms.

In Anakapalle town there is 1 Government Hospital and other medical institutions with a provision of 120 bed strength. There are 5 degree colleges in Anakapalle town. Further the town is having 13 type writing and 2 short hand institutions to meet the needs of the students. 6 secondary schools, 2 upper primary and 15 primary schools are existing in the town. No women hostel facility is available to accommodate working women. For recreational and cultural purposes the town is having 9 cinema halls, 10 auditoria/drama/community halls, 1 stadium, 2 public libraries and 4 reading rooms.

In Bheemunipatnam town there are 2 Government Hospitals and different types of medical institutions with a bed strength of 90. There are 2 degree colleges and 1 polytechnic institution and no medical or engineering college is available in this town. There are no vocational centres or type-short hand institutions in this town to meet the needs of the students. In Bheemunipatnam town there are 2 junior colleges, 5 upper primary, 19 primary schools and one Adult literacy center. There is no working women hostel facility to accommodate working women in the town. For recreational and cultural purposes the town is having 1 stadium, 5 cinema halls, 2 auditorium/ drama/community halls and 2 public libraries. There are no reading rooms available in this town.

Statement VI : Trade, Commerce, Industry and Banking, 1999

This statement deals with economic activities in the urban areas with 11 columns. Column 1 and 2 are serial number, and class, name and civic status of the town. The columns 3 to 5 give the details of three most important commodities exported and the columns 6 to 8 show the three most important commodities manufactured. The commercial banks, number of agricultural credit societies and the number of non-agricultural credit societies are furnished in the columns 9 to 11.

The urban population of the district exports Jaggery, fish, tamarind and iron ore. The most important commodities which are mainly manufactured in Visakhapatnam(M.Corp.) are steel, ships and petroleum products. In Anakapalle(M) manufacturing most important commodities are Jaggery and fireworks and in Bheemunipatnam(M) jute products and polythene bags. The urban population in the district is served by a network of 178 banks, 9 agricultural credit societies and two non-agricultural credit societies.

Statement VII : Civic and other amenities in Slums,1999

The statement on slums contains 17 columns. The columns 1 to 4 show the serial number, class and name of town, name of the slum and whether the slum is notified or not respectively. Columns 5 and 6 give the details of approximate number of households and population of the slum during 1999. The length of the paved road in the slum as been shown in Kms. under column 7. The columns 8 to 13 present system of sewerage, number of latrines both private and community and method of disposal of night soil. The column 14 is meant for showing number of tap points/ public hydrants. The last 3 columns i.e columns 15 to 17 relate to number of electric connections under domestic, road lighting points and others.

In Visakhapatnam town slum with approximately 51,855 households and 237,437 population. Population of the slum having open surface drains system only. Night soil is disposed by septic tank systems. These slums are provided with 867 tap points/public hydrants for supply of protected water supply besides having electricity for 32,810 domestic connections and 2,810 road lighting points.

In Anakapalle town slum pockets are having approximately 4,300 households and 17,751 population. They are provided with 60 kms length of paved roads. These slums are having open surface drain sewerage system. 2,000 water born latrines available, there are 32 service latrines. Night soil is disposed of by baskets. These slums are provided with 305 tap points/ public hydrants for supply of protected water besides having electricity for 1,495 domestic connections, 11 road lighting points.

In Bheemunipatnam town there are 39 slum pockets with approximately 4,970 households and comprising 25,209 population. All these slums are having open surface drain system only. There are 800 water born latrines are available. These slums are provided with 10 tap points/public hydrants for supply of protected water besides having electricity for 1,500 domestic connections and 200 road lighting points.

Section I - Village Directory

(a) Note explaining the abbreviations used in Village Directory :

The "Village Directory" is one of the traditional compilations of the Census. It gives the list of villages, their location numbers, their area, population, number of households, amenities such as educational, medical, drinking water, post and telegraph, commercial and co-operative banks, agricultural non-agricultural and other credit societies, recreational and cultural facilities, communication, approach to village, nearest town with a distance, power supply availability of newspaper and magazines, most important commodity manufactured and land use of each village.

Village is a statutory recognized unit having a definite boundary and separate land records. In case, a complete village is treated as an outgrowth of urban agglomeration, data on amenities for that village, have not been given in the Village Directory but shown along with the urban component. The villages which are consider as a Census Town , the amenities data are shown in the Town Directory. For those villages which have partly merged in an outgrowth of U.A., the amenities data are shown in the Village Directory for that particular village.

The 'un-inhabited' villages (villages with no population) have been indicated as such after furnishing details in columns 1 to 3 i.e., Serial number, Name of village & location code number and area of the village against column no. 4 to 18. The land use data for such villages are shown in col. 19 to 23.

The Village Directory format has 23 columns and the details given under each column are for the village are as follows:-

Columns 1 : Serial Number

Self explanatory. All the villages within the Mandal Parishad are presented serially in the ascending order of their location code number.

Columns 2 : Name and Location Code Number of village

The name and location code number of the village are shown against these columns. This also includes the forest and uninhabited villages.

Column 3 : Area of the village

The area of the villages in hectares are given. Wherever the area figures was not furnished by the concerned department the column is left blank.

Column 4 : Total population

The total population of the village as per 2001 Census is given against this column.

Column 5 : Number of households

The number of households as per 2001 Census is given in this column.

Amenities :

In column 6 to 23, availability in respect of different amenities such as education, medical, drinking water, post, telegraph, banks, credit societies, communication, power, approach road etc. in each village has been depicted with appropriate codes against the column concerned. Wherever the amenities are not available in the village, a dash (-) is shown in the column and next to it in brackets the distance in broad ranges viz.< 5 kms., 5-10 kms. and 10+ kms of the nearest place where the facility is available is given. Column wise details are given below

Column 6 : Educational

Classes upto class V included in Primary School. This will include nursery school, kindergarten school. Pre-basic school, pre-primary school, junior basic school upto class V.

Classes from VI to VII are included in the middle school.

Classes from VIII to X included in Higher secondary school. Classes XI and XII are included in senior secondary school.

In case of composite schools like middle school with primary school or secondary school with middle school, these are also included in the number of primary and middle schools, respectively.

Accordingly any of the following types of institutions if exists within the village is shown as per codes given below :

(i)	Primary School	P
(ii)	Middle School	M
(iii)	Secondary School	S
(iv)	Senior Secondary School	PUC/JC
(v)	College	C
(vi)	Industrial School	I
(vii)	Training School	Tr
(viii)	Adult literacy class/centre	AC
(ix)	Others (specify) e.g. Sanskrit Pathshala, Senior basic school, Navodaya Vidyalaya, Makhtab, etc.	O

More than one institution of a type in the village is indicated by the number within brackets against the abbreviation, e.g. P(3), M(4), etc.

Column 7 : Medical

Availability of medical facility within the village is indicated by following codes :

(i)	Allopathic Hospital	H
	Ayurvedic Hospital	HA
	Unani Hospital	HU
	Homeopathic Hospital	H Hom
(ii)	Allopathic Dispensary	D
	Ayurvedic Dispensary	DA
	Unani Dispensary	DU
	Homeopathic Dispensary	D Hom
(iii)	Maternity & Child Welfare	MCW
(iv)	Maternity Home	MH
(v)	Child Welfare Centre	CWC
(vi)	Health Centre	HC
(vii)	Primary Health Centre	PHC
(viii)	Primary Health Sub-Centre	PHS
(ix)	Family Welfare Centre	FWC
(x)	T.B. Clinic	TB
(xi)	Nursing Home	NH
(xii)	Registered Private Medical Practitioner	RMP
(xiii)	Subsidised Medical Practitioner	SMP
(xiv)	Community Health Worker	CHW
(xv)	Others	O

More than one institution of a type in the village is indicated by the number within brackets against the abbreviations, e.g. H(3), D(4), etc.

Column 8 : Drinking Water

The type of the drinking water supply sources available within the village are indicated by codes as follows :

(i)	Tap Water	T
(ii)	Well Water	W
(iii)	Tank Water	TK
(iv)	Tubewell Water	TW
(v)	Handpump	HP
(vi)	River Water	R
(vii)	Canal	C
(viii)	Lake	L
(ix)	Spring	S
(x)	Others	O
(xi)	Summer Source	SS-

Column 9 : Post, Telegraph and Telephone

It is indicated by codes as shown below whether within the village exists the following amenities:

(i)	Post Office	PO
(ii)	Telegraph Office	TO
(iii)	Post & Telegraph Office	PTO
(iv)	Telephone Connection	PH

Column 10: Commercial and Co-operative Banks

If the village is served by any banking service, commercial bank, co-operative bank etc. the same is indicated in codes mentioned below along with the number of banks in brackets. If not available the distance of nearest place where the facility exist is given:

(i)	Commercial Bank	CM
(ii)	Co-operative Bank	CP

Column 11: Credit Societies

If the village enjoys the services of Credit Societies i.e. Agricultural Credit Societies, Non Agricultural Credit Society or Other Credit Societies, the same is indicated in codes mentioned below along with the number of such societies in brackets. In case the facility is not available within the village the distance of the nearest place where such facility exist is given:

(i)	Agricultural Credit Society	ACS
(ii)	Non- Agricultural Credit Society	NCS
(iii)	Other Credit Society	OCS

Column 12 : Recreational and cultural facilities

If facilities such as Cinema/Video hall, Sports Club, Stadium/Auditorium is available in the village. The same is recorded in these columns. If not available the particulars of the nearest place with the facility is recorded. The information is indicated in codes mentioned below along with the number of such facilities in brackets:

(i)	Cinema / Video Hall	CV
(ii)	Sports Club	SP
(iii)	Stadium / Auditorium	ST

Column 13 : Communications

If the village is served by any mode of public / private transport like Bus, Railway station or Navigable water ways they are to be mentioned as follows:

(i)	Bus Service	BS
(ii)	Railway Station	RS
(iii)	Navigable Waterway	NW

Column 14 : Approach to village

Approach to village refers to the state of road leading to village. The approach to the village is indicated in following codes :

(i)	Paved Road	PR
(ii)	Mud road	MR
(iii)	Foot path	FP
(iv)	Navigable River	NR
(v)	Navigable Canal	NC
(vi)	Navigable waterways other than River, Canal	NW

Column 15 : Nearest Town and distance

The distance is given in kilometres in brackets against the name of the town nearest to the village.

Column 16 : Power supply

Availability of Power Supply in the village, whatever may be the form of its use is given by using following codes :

(i)	Electricity for domestic use	ED
(ii)	Electricity for agricultural use	EAG
(iii)	Electricity for other purposes	EO
(iv)	Electricity for all purposes	EA

Column 17 : News Paper / Magazine

If village receives any News Paper/Magazines the same is noted in this column using following codes

(i)	News Paper	N
(ii)	Magazine	M

Column 18 : Most important commodities manufactured

The name of three most important commodities manufactured in the village is recorded against this column.

Column 19 to 23 : Land use i.e. area under different types of land use

Land use data maintained by the State/ UT Govts. are furnished against these columns. The data concerning area under Forest, Irrigated land (by source), Un-irrigated land, Culturable waste and Area not available for cultivation in the village are shown against these columns. The area figures are given in hectare(s) up to one decimal. Dash '-' is recorded wherever the information is not made available by the concerned department. The codes used for different types of irrigation facilities available in the village are indicated below:

(i)	Government Canal	GC
(ii)	Private Canal	PC
(iii)	Well (without electricity)	W
(iv)	Well (with electricity)	WE
(v)	Tubewell(without electricity)	TW
(vi)	Tubewell(with electricity)	TWE
(vii)	Tank	TK
(viii)	River	R
(ix)	Lake	L
(x)	Waterfall	WF
(xi)	Others	O
(xii)	Total	T

(b) List of Villages merged in Towns and Out Growths at 2001 Census

Section II - Town Directory

(a) Note explaining the abbreviations used in the town directory

Town Directory statements (I to VII)

Statement I : Status and Growth History

Column (2) : Class, name and civic status of town :

Class has been introduced to facilitate analysis of town directory data at the state and all India levels. It is presented according to 2001 Census Population of the town as follows :

Population	Class
100,000 and above	I
50,000 - 99,999	II
20,000 - 49,999	III
10,000 - 19,999	IV
5,000 - 9,999	V
Below 5,000	VI

Town with a population of one hundred thousand (1,00,000)and above is treated as a city.

The civic status of the towns is indicated within bracket against the name of the town. The following abbreviations are used to denote civic status of town.

(I)	Municipal Corporation	M. Corp.
(II)	Municipal Committee	MC
(III)	Municipal Council	M Cl
(IV)	City Municipal Council	CMC
(V)	Town Municipal Council	TMC
(VI)	Municipal Board	MB
(VII)	Municipality	M
(VIII)	Cantonment Board/Cantonment	CB
(IX)	Notified Area	NA
(X)	Notified Town	NT
(XI)	Notified Area Committee/ Notified Area Council	NAC
(XII)	Notified Town Area	NTA
(XIII)	Industrial Notified Area	INA
(XIV)	Industrial Township	ITS
(XV)	Township	TS
(XVI)	Town Panchayat	TP
(XVII)	Nagar Panchayat	NP
(XVIII)	Town Committee/ Town Area Committee	TC
(XIX)	Small Town Committee	ST
(XX)	Estate Office	EO
(XXI)	Gram Panchayat	GP
(XXII)	Census Town	CT

Others columns need no comments.

Statement II - Physical Aspects and Location of towns, 1999

Column 3 to 5 : Physical Aspects

In these columns the Rainfall and Maximum & Minimum Temperature of the town is recorded.

Column 6, 7 and 8 :

Name of the State headquarters, District headquarters and Sub-Divisional headquarters with distance from the referent town in kilometres, is to be recorded respectively. If the names mentioned in these columns are the same as the referent town itself, the distance is recorded as (0) zero.

Column 9& 10 :

Name of the nearest city with one lakh and more and five lakhs and more population are recorded.

Column 11, 12 and 13 :

If referent town enjoys the facility of railway station, bus route facility or navigable river/canal. Its name is to be mentioned. If not available, then the name of nearest place with distance, where such

facility exists is to be mentioned.

Statement III : Municipal Finance, 1998 - 99

Item-wise amount of receipt and expenditure in thousand rupees, relating to municipal finance of the town for the year 1998-99 is to be recorded.

Statement IV : Civic and Other amenities, 1999

Column (1 to 5) : Self explanatory.

Column (6) : Road length (in kms.)

Information about kutcha / pucca road is to be recorded separately for the roads within the limits of the referent town.

(i)	Pucca Road	PR
(ii)	Kutcha Road	KR

Column (7) : System of Sewerage

Generally, by sewerage system is implied the network of mains and branches of underground conduits for the conveyance of sewerage to the point of disposal. Sewers that carry only household and industrial wastes are called separate sewers, those that carry storm water from roofs, streets and other surface are known as storm water drains, while those carrying both sewage and storm water are called combined sewers.

The codes used for different types of drainage system are as follows :

(i)	Sewer	S
(ii)	Open Surface Drains	OSD
(iii)	Box Surface Drains	BSD
(iv)	Sylk Drains	SD
(v)	Cesspool method	CP
(vi)	Pit System	Pt
(vii)	Others	O

Column 8 to 11 : Number of latrines

Number of various types of latrines both Public and Private are given in these columns.

Column 12 : Method of disposal of night soil

The various prevalent method of disposal of night soil are given below with codes :

Head Loads	HL
Basket	B
Wheel Barrows	WB
Septic Tank	ST
Pit System	Pt
Sewerage	S
Others	O

Column 13 and 14 : Water supply

Source and capacity of storage system. The following codes are used in these columns:

Column 13:

(i)	Tap water	T
(ii)	Tube-well water	TW
(iii)	Tank Water	TK
(iv)	Well water	W

Column 14:

(v)	Over Head Tank	OHT
(vi)	Service Reservoir	SR
(vii)	River Infiltration Gallery	RIG
(viii)	Bore Well Pumping System	BWP
(ix)	Pressure Tank	PT

The information on major source of water supply are given in column 13 and the storage capacity against each in kilo-litres (in bracket) are presented in column 14.

Column 15 : Fire Fighting Service

In case the fire fighting service is available in the referent town 'yes' is recorded. If the facility is not available within the town. The name of the nearest place having this facility with its distance from the referent town has been recorded.

Column 16 to 20 : Electrification (Number of connections)

Different types of electric connections have been shown in these columns, i.e. Domestic, Industrial, Commercial, Road lighting (points) & others.

Statement V : Medical, Educational, Recreational and Cultural Facilities, 1999

Column 1 to 3 : Self explanatory.

Column 4 & 5 :

The data covers all such medical institutions

run by or aided by Government/Semi Government/ Local bodies and Charitable institutions or Social agencies like the Missionaries. Where the family planning centres are attached to hospitals or maternity and child welfare centres or Primary Health Centres, they may be treated as independent units and counted separately using following codes :

(i)	Hospital	H
(ii)	Dispensary	D
(iii)	Health Centre	HC
(iv)	Family Welfare Centre	FWC
(v)	T.B. Clinic	TB
(vi)	Nursing Home	NH
(vii)	Others	O

In case of more than one institutions of any type, it is indicated within brackets the number of such institution (s) e.g. D(3), NH(8), etc. The institutions have further been distinguished by providing additional codes within the bracket as given below :

Ayurvedic	A
Unani	U
Homoeopathic	Hom

Column 6 to 9 :

The codes used for these columns are as follows:

(i)	Arts only	A
(ii)	Science only	S
(iii)	Commerce only	C
(iv)	Arts & Science only	AS
(v)	Arts & Commerce only	AC
(vi)	Combined for all categories-Arts, Science and Commerce	ASC
(vii)	Law	L
(viii)	University	U
(ix)	Others	O

Column 10 : Recognized shorthand, typewriting and vocational training institutes

"Recognised" should mean recognised by some statutory authority, like education department, commerce department, labour department etc. of the Government or semi Government or autonomous bodies, public sector undertakings etc.

The following codes are used :

(i)	Vocational Training Institute	VT
(ii)	Shorthand	SH
(iii)	Typewriting	Type
(iv)	Shorthand & Typewriting	SH Type
(v)	Others	O

The vocational institutions like - Applied Art/Painting College, Pharmacy College, B. Ed. College, Teacher's Training Institute, Music / Dance School, Nursing School etc. are covered under 'Others'.

Column 11 to 14:

Higher Secondary/Intermediate/Senior Secondary/ PUC/Junior College level, Secondary/Matriculation, Middle Schools/ Junior Secondary and Primary Schools.

School up to class V are treated as Primary or elementary schools. These include Nursery schools, Kindergarten schools, Pre-Primary schools, Junior Basic schools upto class V and Primary schools upto class IV.

Schools upto VII are considered as Middle school or Junior Secondary.

Schools upto class X are considered as Matriculation or Secondary schools.

Schools upto XI or XII classes are considered as Higher Secondary / Intermediate / Pre University / Junior College etc. This would cover 10+2 classes whether held in schools or college.

If there are composite schools like middle schools with primary classes or Secondary schools with Middle classes, these are also included in the number of Primary and Middle schools, respectively. For example, if in a town, there are two Primary Schools and one Middle school with Primary classes, the number of Primary schools in the town is given as three and that of Middle schools as one though there are only three educational institutions.

If there are more institutions of a type in the town, the number is indicated within bracket along with the abbreviation, e.g. P(4), M(3).

Column 15 : Adult literacy classes/centres

This column has been introduced keeping in view the Minimum Needs Programme of the Planning Commission. There are number of Adult Education Centres which are included in these columns.

If an educational facility is not available in the town, the name of the nearest place and its distance in kilometres from the town where the facility is available is mentioned.

Column 16 : Working Women's hostels with number of seats

The number of working women's hostel if available in the referent town is mentioned with number of seats. If the facility is not available in the town the name of nearest place with distance where the facility is available is recorded.

Column 17 to 19 : Recreational and Cultural Facilities

Stadium, Cinema, Auditorium/Drama/Community Hall are covered under recreational & cultural facilities. The particulars of permanent recreational facilities are considered for these columns.

Column 20 : Public Libraries, Reading Rooms

Number of public libraries and reading rooms available in the referent town are recorded in codes as follows :

(i) Public Library	PL
(ii) Reading Room	RR

Statement VI : Trade, Commerce, Industry and Banking, 1999

Column 3 to 8 :

Name of three most important commodities exported and names of three most important commodities manufactured in the town are recorded.

Column 9 : Number of Banks

Number of Banks available in the referent town both Commercial and Co-operative banks are recorded against this column.

Column 10 & 11 :

Number of Agricultural Credit Societies and Non Agricultural Credit Societies

The total number of Agricultural Credit Societies and Non Agricultural Credit Societies in the referent town are recorded against these columns.

Statement VII : Civic and other Amenities in Slums, 1999

This is the statement on civic and other amenities in all slums whether notified or not and for all towns having statutory bodies, like municipality, Municipal Corporation, Town area committee etc.

STATE

STATUS AND

Serial Number	Class, name and civic status of town	Location code number	Name of Mandal	Name of Mandal Parishad	Area (in sq. km.)	Number of households incl. houseless households (in the 2001 Census)	Population and growth rate (in brackets)of the town at the Censuses of

Brief note on Primary Census Abstract

The first census of the third millennium and twenty first century the Census of India, 2001 was the 14th continuous and uninterrupted Indian census since 1872. Thus, 2001 Census will provide data on population and its characteristics marking transition from one century and millennium to another.

The gigantic operation of Population Enumeration (considered by many to be the single largest and complex peace time administrative exercise in the world) was made possible due to the door to door universal canvassing of the Household Schedule by about 2 million enumerators and supervisors covering 593 districts, 5,463 sub-districts, 5,161 towns and 638,588 villages. The comprehensive Household Schedule which replaced the individual slip had three parts and two sides A and B. Part I contained the Location Particulars; Part II related to the Individual Particulars and Part III contained questions for Household engaged in Cultivation/Plantation. The part II of the Household Schedule had 39 columns and 23 questions all of which were universally canvassed and no sampling was resorted to during enumeration.

Data Processing

A quantum leap was made in the technology front while processing the Census 2001 data both for Houselisting and Population Enumeration. The Census schedules for both the phases were scanned through high speed scanners in fifteen data centers across the country and hand-written data from the schedules were converted into digitized form through Intelligent Character Reading (ICR) software for creation of ASCII records for further processing. The designing and formatting of the Household Schedule had to be done very carefully using specialized software so as to ensure uniformity, which was an essential pre-requisite for scanning. The selection of appropriate state-of-art technology in data processing has made it possible to produce all the Houselisting as well as Population Enumeration tables on full count basis for the first time in the history of Census. For Census 2001, about 202 million schedules consisting of about 1,028 million records were scanned and processed within a span of only 10 months starting October, 2002.

Task Force on Quality Assurance

After the data is processed, it is expedient on the part of the data producing agency to satisfy itself about its quality before putting the same in public domain. This has to be done mainly through the process of internal consistency, comparison with similar data in the past and also through validation with likewise data if available, from external sources. Quite often the local knowledge and perception has to be brought into play to understand both the existing and the new emerging trends of population distribution and characteristics. The other very important aspect of the data quality is to ensure complete coverage of all geographical areas especially for the population enumeration phase where the data is disseminated right up to the village level in the rural areas and the ward level in the urban areas. Thus ensuring the complete coverage and correct geographical linkage of each enumeration block was one of the major planks of the quality control, specially for small area population statistics.

A very comprehensive check and edit mechanism was put in place to objectively examine the preliminary Census 2001 Population Enumeration results and finally clear them for use. The responsibility of the final clearance of data was with the Task Force on Quality Assurance (TFQA), headed by the Registrar General and Census Commissioner, India. The other members of the TFQA were the Heads and senior officers of the Census Division, Data Processing Division, Map Division, Demography Division and Social Studies Division. The Directors of Census Operations were co-opted as members whenever the TFQA discussed the data for their States/Union territories. The Directors and their senior officers were required to make detailed presentations of data for their own state both in respect to the quality and the coverage and only after the full possible cleared.

There has been a major departure in Census 2001 from the past in respect of the procedure followed for finalization of the Scheduled Castes and the Scheduled Tribes population. In the earlier censuses, the total Scheduled Castes and Scheduled Tribes populations were finalized at the time of the manual compilation of the Primary Census Abstracts (PCA) at the Regional Tabulation Offices which were specially set up for this purpose. The individual Scheduled Castes and the Scheduled Tribes population for each state was finalized much later based on manual coding done by the coders. In 2001 Census, each individual Scheduled Caste and the Scheduled Tribe have been coded directly on the computers by the Data Entry Operators through a process known as Computer Assisted Coding (CAC) and taken up along with the processing of PCA data. The CAC process involves pulling down, from the relevant dictionary of the Scheduled Castes and the Scheduled Tribes, on the computer screen and coding from the dictionary by referring to the image of the specific individual entry in the Household Schedule appearing on the screen. The CAC of the response on Religion wherever required, was also undertaken along with the processing of PCA. This is because the Scheduled Castes status had to be determined in relation to the religion of the individual. Two Special Task Forces, one on Religion and the other on Scheduled Castes/ Scheduled Tribes were constituted for scrutiny and appropriate classification of these responses.

The main task of the Special Task Force on Religion was to appropriately merge or group the new responses encountered and code it into the appropriate religious community based on available literature and local knowledge. The Special Task Force on Scheduled Castes and Scheduled Tribes examined the different Scheduled Castes and Scheduled Tribes entries encoun-tered and classified these into appropriate category of the Scheduled Castes or the Scheduled Tribes principally based on the Presidential Notification and the available literature. Thus a very systematic and scientific mechanism was operationalised to firm up the individual religion and the individual Scheduled Castes/Tribes returns. The Scheduled Castes and the Scheduled Tribes population in 2001 Census, is thus being finalized by aggregating the population data for individual Scheduled Castes and the Scheduled Tribes at appropriate geographical levels.

The entire work relating to the data validation and scrutiny was completed by all the States/Union Territories under the overall supervision and monitoring of the Census Division of the Office of the Registrar General, India with active cooperation and support of the Social Studies Division, Data Processing Division, Data Dissemination Division and Map Division.

Primary Census Abstract

The Primary Census Abstract which is yet another important publication of 2001 census gives basic information on Area, Total Households, Total population, Scheduled Castes, Scheduled Tribes population, Population in the age group 0-6, Literates, Main workers and Marginal workers classified by the four broad industrial categories, namely, (i) Cultivators, (ii) Agricultural labourers, (iii) Household Industry Workers, and (iv) Other workers and also Non-workers. The characteristics of the Total Population includes Scheduled Castes, Scheduled Tribes, Institutional and Houseless population and are presented by sex and rural-urban residence. This data is presented at different levels, namely, India, States/Union territories, Districts and Cities, Urban Agglomerations (Population 1,00,000 and above) in three different tables. In addition, the Appendix of said publication provides Houseless and Institutional Households and their population by residence and sex for 2001 for India, State and Union territory.

Apart from the India and State/Union Territory volumes for Primary Census Abstract, the District Census Handbook contains District Primary Census Abstract, Appendix to District Primary Census Abstract, Primary Census Abstract for Scheduled Castes, Primary Census Abstract for Scheduled Tribes, Village Primary Census Abstract and Urban Primary Census Abstract of the concerned district in the state.

It was for the first time at the 1981 Census that the Primary Census Abstract (PCA) was brought out for the Scheduled Castes and the Scheduled Tribes separately on the pattern of General Primary Census Abstract. This practice was continued in 1991 also. In the 1961 and 1971 Censuses, such data were made available in Table C-VIII-Social and Cultural table and to some extent in the series 'Special Tables for Scheduled Castes/Scheduled Tribes'.

The format of Primary Census Abstract has been restructured slightly in the 2001 Census as compared to that of 1991 Census. The nine-fold industrial classification of main workers given in the Primary Census Abstract of 1991 Census has been discontinued and its place, four-fold industrial classification of both 'main workers' and 'marginal workers' are included. In 1981 census only main workers were presented into four categories. One of the novel features of the primary census abstract of 1991 census was the presentation of data of the population of age group 0-6 is continued in 2001 Census also. This will help the data users in better analysis and understanding of this literacy data.

Level of presentation in District Census Handbooks:

The Primary Census Abstract data in different PCAs are presented at different levels. The level of presentation of Primary Census Abstracts are as under:

Name of the Primary Census Abstract	Level of presentation
1.Disstrict Primary Census Abstract	District/Mandal Parishad/UA/City/Town
2.Primary Census Abstract for Scheduled Castes	District/Mandal Parishad/Town
3.Primary Census Abstract for Scheduled Tribes	District/Mandal Parishad/Town
4.Village Primary Census Abstract	Mandal Parishad/Village wise
5.Urban Primary Census Abstract	Town/Ward level

The PCA Data for villages was presented Mandal Parishad wise for the first time in 1991 Census. This practice is continued in 2001 Census also. The data for each Mandal Parishad is presented both for rural and urban areas separately. All the villages within the Mandal Parishad constitute the rural portion and the Census Towns and Outgrowths are shown under the urban portion of the Mandal Parishad. In case a Mandal Parishad is spread over two or more districts, than portion which falls within the district is presented, the data pertaining to remaining portion of the Mandal Parishad is presented in the concerned District Census Handbook. The data in the Urban Primary Census Abstract for each town as well as for town with outgrowths in the district are presented. The data for all the wards and the outgrowths of the town(s) are also presented separately below the concerned town(s).

The District Primary Census Abstract is presented in 59 columns. The Primary Census Abstract for Scheduled Castes and Primary Census Abstract for Scheduled Tribes are presented in 52 columns. The Village Primary Census Abstract and Urban Primary Census Abstract are presented in 58 columns.

The concepts and definitions used in the column heading are explained under the sub heading 'Census Concepts' in the Analytical Note. The term 'Total Population' includes the Scheduled Castes, the Scheduled Tribes, the Institutional and the Houseless populations. The explanation regarding area figures presented at various level in the Primary Census Abstracts are as follows:

Area Figures

The area figures supplied by local revenue authorities of the district in respect of mandals, Police Stations and by the local bodies in respect of towns are given in square kilometres. The area figures of the villages supplied in acres have been converted and shown in hectares. The area figures of the Mandal Parishad is the total of the village areas coming under each Mandal Parishad. The area figures for the district are the same as adopted by the Surveyor General of India to maintain uniformity at the national level. The total area figures of all the Mandals/Mandal Parishad within the district may not tally with area figures of the district because former represents land use area only. Similarly, the total of all the villages area may not tally with the entire rural of Mandal. The difference may be due to the fact that while the area covered by hills, forests and rivers etc, have been accounted in the level the same may not be covered under the area of the villages. Apart from this it may also differ due to varying methods of computation adopted at different levels.

An appendix to District Primary Census Abstract has also been furnished showing urban enumeration block-wise particulars on Total Population, the Scheduled Castes Population and the Scheduled Tribes Population for each town.

Annexure - I
Fertility and Mortality, 1991 Census

Fertility Levels :

It is a major component regarding the growth of population. To know the fertility levels during 1991 census certain information was collected pertaining to Age, Age at marriage, Number of children surviving at present, number of children alive for currently married women, if any child born at preceding one year to the last census. Fertility measures were worked out based on 'F' series tables of 1991 census of Andhra Pradesh state and the definition of fertility measures are given below.

Age Specific Fertility Rate :

It is seen from the A.S.F.R table that the fertility level in the district figures are lower when compared with the State figures both in rural and urban areas in all the age groups. Rural fertility rates are higher when compared to Urban rates in the district as well as the State.

Annexure - I (a)
Age Specific Fertility Rates / Levels, 1991 Census

Age Group	Visakhapatnam District			Andhra Pradesh State		
	Total	Rural	Urban	Total	Rural	Urban
1	2	3	4	5	6	7
15-19	0.042	0.049	0.033	0.085	0.092	0.066
20-24	0.111	0.130	0.088	0.179	0.185	0.162
25-29	0.086	0.098	0.071	0.150	0.155	0.137
30-34	0.053	0.059	0.043	0.103	0.108	0.087
35-39	0.034	0.040	0.026	0.068	0.071	0.055
40-44	0.023	0.027	0.016	0.037	0.039	0.029
45-49	0.017	0.019	0.013	0.020	0.021	0.017

Age Specific Marital Fertility Rate :

Similarly, the Age Specific Martial Fertility rates are also higher in rural areas of the state than in urban areas in all the age groups except in the age group of 15-19. But these rates in rural and urban areas of Visakhapatnam district are lower than that of the state figures.

Annexure –I (b)
Age Specific Marital Fertility Rates/Levels, 1991

Age Group	Visakhapatnam District			Andhra Pradesh State		
	Total	Rural	Urban	Total	Rural	Urban
1	2	3	4	5	6	7
15-19	0.104	0.105	0.104	0.150	0.149	0.158
20-24	0.132	0.146	0.112	0.198	0.199	0.196
25-29	0.092	0.104	0.076	0.158	0.162	0.147
30-34	0.057	0.062	0.047	0.111	0.116	0.093
35-39	0.038	0.044	0.028	0.074	0.078	0.060
40-44	0.028	0.032	0.018	0.044	0.046	0.035
45-49	0.022	0.024	0.017	0.026	0.026	0.023

Child Mortality :

From the below table, the estimates of child mortality i.e. number of deaths by ages 1, 2, 3 and 5 are indicated above as Q1, Q2, Q3 and Q5. It is seen that the level of child mortality in the district is higher when compared to the state, both for males as well as females.

Fertility Measures:

The above annexure shows the various measures of fertility and mean age at marriage recorded during 1991 Census. The district has recorded 29.0 CBR, 3.4 TFR, 4.5 TMFR, 110 GFR, 138 GMFR, 3.5 children per ever married women in the age group (45-49 years), 389 CWR(0-4) and 17.3 is mean age at marriage of currently married women.

Annexure III
Percentage distribution of Migrants by place of Birth/place of last residence, 1991 Census and 2001 Census

Migration :

Migration is an important aspect in the field of population study. A country can gain the population either by births or by immigration and it can lose the population either by deaths among its residents or by out migration. In other words migration is a major factor for the changes in size and structure of the population.

Definition of Migration:

Migration is a process in which a person is considered as migrant by place of birth or as migrant by place of last residence.

Accordingly the migration has been devided into 4 types. They are as follows.

1. Migration within the state
2. Migration within one district to another district
3. Migration from one state to another state
4. Migration from one country to another country.

Among the four types of migrations, the first three migrations constitute internal migration i.e within the country while the last type of migration is called as the international migration i.e moment of the people from one country to another country.

Causes of Migration:

The causes for migration has been elicited for the first time in 1981 census and the reasons for migration have been categorized as 1. Employment 2. Education 3. Business 4. Marriage 5. Family shifting 6. Natural calamities like drought, floods etc and 7. Others. Reasons or causes for migration have been elicited with reference to moment from place of last residence.

Purpose of Migration or Growth of population:

The impact on migration of population of particular place depends upon the biological variation, such as fertility, mortality and migration. This helps to prepare the future planning of that particular place.

Source: *Part –VA and VB – D Series, 1991 (Vol-I)*

On the basis of migration by place of birth, there were 194.64 lakhs migrants in Andhra Pradesh which constitute 62.53 lakhs male migrants and 132.12 lakhs female migrants. These migrants constitute 29.27 percent of total population and male migrant constitute 18.54 percent and female migrants constitute 40.31 percent. But in the district concerned, there were 11.30 lakhs comprising of 4.59 lakhs male and 6.70 lakhs female migrants which constitute 34.4 percent to total district population and 27.64 percent male and 41.33 percent female migrants.

As per the statement it is found that females are predominant in only inter-district migration with 68.8% and males are predominant in all the other migrations.

Source: *Migration Tables (D Series) - 2001*

The migrants by place of birth were returned 194.6 and 228.3 lakhs in Andhra Pradesh State as per the 1991 and 2001 Censuses respectively. It shows a growth rate of 17.3% total migrants over 1991 Census with a breakup of 21.8% males and 15.2% females. In Visakhapatnam district the migrants are 1,130,049 persons as per 1991 Census whereas 1,249,272 persons are in 2001 Census with a growth rate of 10.6% over 1991 census. In both the Censuses the female migrants are more than male migrants due to the reason of marriages.

In respect of inter district migrants, male migrants are forming less percentage than female migrants whereas in intra district, male percentage is more than females. In the case of intra-state migrants the males are more than females in both the Censuses. Similar is in case of International Migrants.

Source: Migration tables (vol.I) Part VA and VB-D series 1991 Census.

It is seen from the table that there are four types of migrations occurred, i.e. rural to rural, rural to urban, urban to urban and urban to rural. From the above table it reveals that migration is mainly comprises by place of births. Here the data presented mainly has been discussed on the basis of internal migrants only.

Out of 184.06 lakhs of total internal migrants within the state 63.92 percent have moved from rural to rural, 20.95 percent moved from rural to urban. Where as 5.72 persons have moved from urban to rural and 9.34 percent moved from urban to urban.

In case of Visakhapatnam district of the total 10.36 lakhs inter state migrants 49.86 percent have moved from rural to rural and 29.32 percent moved from rural to urban. But 4.04 percent moved from urban to rural and 16.74 percent moved from urban to urban.

The migration from other States of India in Andhra Pradesh, out of 10.26 lakhs, 33.94 percent are from rural to rural, 33.39 percent are from urban to urban, 21.77 percent from rural to urban and 10.73 percent from urban to rural.

In case of Visakhapatnam district, out of 85.14 thousands of migrants, 20.41 percent and 48.52 percent have moved from rural to rural and urban to urban respectively. The percentage of migrants from rural to urban is 26.25 and it is 4.57 percent in case of migrants from urban to rural.

This annexure shows percentage distribution of migrants by place of birth as recorded in 1991 census. For all districts of Andhra pradesh, the persons born elsewhere in the district of enumeration works out to 71.0 percent whereas in respect of persons born in other districts of Andhra Pradesh, born in other states and other countries works out to 23.6%, 5.3% and 0.2% respectively.

In respect of Visakhapatnam district, the persons born elsewhere in the district of the enumeration recorded 61.6% and the persons born in other districts of the state returned as 30.1%. Among the migrants of the district, the persons born in other states and other countries works out to 7.5% and 0.8% respectively. Out of 1.95 crores of migrants of the state, 1,130,049 migrants belong to Visakhapatnam district. It is interesting to note that the female migrants are more in number than males in all the districts of the state except in Hyderabad district where male migrants are recorded a little more than females.

Source: *Migration Tables (D Series) - 2001*

The above annexures show the percentage distribution of migrants by place of birth as recorded in both the Censuses of 1991 and 2001 in Andhra Pradesh state. It is observed that 3.0% increase in the migration who were born elsewhere in the district of enumeration with a sex breakup of 3.0% each, whereas in respect of the migrants who were born in other districts of the state, in other states of the country and in other countries are recorded with a negative trend of 2.2%, 0.8% and 0.1% respectively when compared with 1991 census.

In respect of Visakhapatnam district the difference between the two Censuses can be observed with 3.2% in the persons born elsewhere in the district of the enumeration, with the sex-wise break up of 4.5% males and 2.8% females. Regarding the migrants from other states in India only a minor variation is recorded with (-)1.2%.

Among the migrants that are born in Abroad, a negative trend of 0.5% is noticed when compared with 1991 census.

Annexure IV
Brief account of Main religions in the district/ mandal as per 1991 Census and 2001 Census

Religion :

The data on religion has been collected and presented for 6 major religions viz. Hindus, Muslims, Christians, Sikhs, Jains and Buddhists. In respect of minor religions, they have been classified and shown under the category of "Others".

During 1991 Census, the religion data was collected through question No.8 of the individual slips and recorded the religion as stated by the individual under six major religions. The minor religions other than these six religions, as reported by the respondent were recorded and classified under the category of "Others".

In 1991 Census, all the six major religions were returned in Visakhapatnam district. Out of the total population of 3,285,092 persons in the district, Hindus constituted 3,185,351 persons, Muslims 58,166 persons, Christians 38,181 persons, Jains 628 perons, Buddhists 222 persons and 1,669 persons belong to Sikh religion. In terms of percentage to total population, Hindus have returned with 97.0% followed by Muslims with 1.8% and 1.2% Christians. There are only 125 persons returned in the district as religion not stated.

In almost all the mandals, Hindus, Muslims and Christians have been returned in both rural and urban areas of the district in 1991 Census. Among these three religions, Hindu religion has dominated in all the mandals.

As regard to Muslim religion, it occupies 2nd place in the district with 58,166 persons. Visakhapatnam M.C has recorded highest Muslim population in the district with 29,144 persons. The least number of Muslim population was returned in Pedabayalu mandal with 31 persons and Dumbriguda mandal with 37 persons.

Though the christian religion was identified in almost all the mandals, their number is very less when compared to Hindus and Muslims. Visakhapatnam M.C has recorded highest population of Christians in the district with 23,112 persons. In Gajuwaka rural the least number i.e 8 persons were recorded.

Jains have been recorded as highest number i.e. 447 persons in Visakhapatnam M.C and the least number of 3 persons were recorded in Pedagantyada mandal.

Among 222 persons of Buddhists, 137 persons are found in Visakhapatnam M.C as highest number and only 2 persons in Golugonda mandal.

This district has 1,669 persons in Sikh religion. The highest number was recorded in Visakhapatnam M.C with 1,373 persons and least number of Sikhs were found in S.Rayavaram mandal with only one person. Readers have to follow the religion table for other details like rural-urban breakup and male-female breakup with mandal-wise in the district.

Source: Religion Data, Andhra Pradesh - 2001

The above table gives the details of Main Religions in the district for 2001 census whereas the previous Annexure shows the details of main religions in 1991 census. During 2001 census the religion data was collected through question number 7 of household schedule. Out of the total population of the district Hindus have returned 96.2% during 2001 census as against 97.0% in 1991 census. In respect of Muslims they have returned 1.9% in 2001 whereas their percentage during 1991 was 1.8. The next main religion in the district is Christians who returned 1.6% during 2001 census as against 1.2% in 1991 census. In respect of remaining main religions viz. Sikhs, Buddhists, Jains and others their strength in the district is negligible.

Annexure - IV(b)
Percentage distribution of population by major religions in India, Andhra Pradesh and Visakhapatnam and its growth rate during 1981-1991

Sl. No.	Name of Religion	India		Andhra Pradesh		Visakhapatnam District	
		Percentage of Population in 1991	Percentage growth rate 1981-91	Percentage of Population in 1991	Percentage growth rate 1981-91	Percentage of Population in 1991	Percentage growth rate 1981-91
1	2	3	4	5	6	7	8
1	Hindus	82.4	22.3	89.14	24.74	96.96	27.26
2	Muslims	11.7	32.8	8.91	30.66	1.77	33.36

Source: Religion Data, Andhra Pradesh - 2001

This table gives the comparative data on religions among India, Andhra Pradesh and Visakhapatnam district between 1991 and 2001 census, whereas the previous Annexure furnish the comparative data on religion during 1981 and 1991. At India level among the total population returned in the 2001 census, Hindus constituted 80.5% as against 82.4% in 1991. The percentage growth rate of Hindus during the decade 1991-2001 has recorded 20.3 whereas the corresponding growth rate during 1981 and 1991 was 22.3%. It clearly shows that growth rate in Hindu population is diminishing which can be attributed that the people of this religion is more conscious about family planning methods. In Andhra Pradesh the percentage of Hindus has recorded 89.0 whereas the corresponding figure during 1991 was 89.1%. However the percentage growth rate of Hindus has fallen to 14.4 from the percentage growth rate of 24.7 as recorded during the decade 1981-1991. In Visakhapatnam district the percentage of population of Hindus recorded 96.2 as against 97.0 in 1991. Their growth rate in 1991-2001 has fallen to 15.8% as against the growth rate of 27.3 % in 1981-1991.

In respect of Muslims, their percentage to total population has recorded 13.4 at India level as against

11.7% in 1991. In Andhra Pradesh their percentage has gone up to 9.2% from 8.9% in 1991. In respect of Visakhapatnam district, Muslims constituted 1.9% of total population during 2001, whereas the corresponding figure recorded in 1991 was 1.8. However in this district the growth rate in the decade 1991-2001 has declined to 23.2% as against the growth rate of 33.4% recorded in 1981-1991.

The other main religion going by numerical strength is Christians. They constituted 2.3% of total population at India level during 2001census. Their growth rate during the decade 1991-2001 is 22.6% at India level as against the growth rate of 16.9% recorded in 1981-91. In Andhra Pradesh the percentage growth rate continues to show the negative trend. The percentage growth rate of this community recorded during 1991-2001 is (-) 2.8 as against (-) 15.1 recorded during decade 1981-1991. In Visakhapatnam district during 2001 Christians constituted 1.6 % to total population as against 1.2 % in 1991. The percentage growth rate of this community during 1991-2001 has recorded 63.0% as against 37.7% in 1981-1991. In respect of other main communities their growth rate is negligible.

Annexure IV(c)
Distribution between Rural and Urban area of Major religions in Andhra Pradesh and Visakhapatnam district - 1991

Sl. No.	Name of Religion	Andhra Pradesh(in %)		Viskhapatnam District(in %)	
		Rural	Urban	Rural	Urban
1	Hindus	76.55	23.45	61.35	38.65
2	Muslims	41.83	58.17	25.90	74.10
3	Christians	60.48	39.52	18.83	81.17
4	Jains	4.11	95.89	1.27	98.73
5	Buddhists	80.41	19.59	12.16	87.84
6	Sikhs	10.85	89.15	2.40	97.60

Source: Part-iv-B(ii) of Andhra Pradesh, 1991 Census

Rural - Urban differentials :

In Andhra Pradesh and Visakhapatnam district, it is seen that Hindus form considerably higher in rural areas i.e., 76.55% and 61.35% respectively. Similarly Christians form higher percentage in urban areas than in rural areas in the district, while it is vice-versa in case of the state. But Muslims form higher percentage in urban areas of the state as well as in the district. The Jains and Sikhs are more in urban areas than rural areas both in the state and district.

Inset table to Annexure IV (c)
Distribution between Rural and Urban area of Major religions in Andhra Pradesh and Visakhapatnam district 2001 Census

Sl. No.	Name of Religion	Andhra Pradesh (in %)		Visakhapatnam District (in %)	
		Rural	Urban	Rural	Urban
1	Hindus	76.3	23.7	61.4	38.6
2	Muslims	41.9	58.1	25.1	74.9
3	Christians	55.0	45.0	27.0	73.0
4	Jains	5.0	95.0	3.0	97.0
5	Buddhists	66.0	34.0	55.0	45.0
6	Sikhs	17.0	83.0	21.0	79.0

Source: Religion Data, Andhra Pradesh - 2001

The above table indicates the distribution of major religions between rural and urban areas in Andhra Pradesh and Visakhapatnam district during 2001 census where as the previous Annexure has given details recorded in 1991 census. The above Annexure and inset table to Annexure show the distribution of religions between rural and urban at state level as well as at district level. In 2001 census 55.0% Christains lived in rural areas as against 60.5% in 1991 at state level. The concentration of Jains and Sikhs is more in urban areas than rural areas both at state level and district during 1991 and 2001. It is interesting to note that Hindus and Buddhists lived more in rural areas than in urban areas both at state and district level during 2001 census.

The district population consists of 32,85,092 persons as per 1991 census out of which 15,38,630 were never married persons constituting a percentage of 46.84% and widowed persons were 1,83,613 with a percentage of 5.58. Under divorced or separated category only 0.47 percent persons were found.

Under sexwise breakup it shows that 52.06 percent males and 41.48 percent of females were never married persons. Similarly 45.97 percent of males and 48.24 percent of females were found under married category. Under widowed category of persons 1.68 and 9.60 percent were males and females respectively. About 2.23 percent of persons are widowed in the age group of 15-44. It shows that in the female category the widowed percentage is more than that of male category of persons.

In case of divorced or separated a percentage of 0.28 and 0.67 is found in both the males and females respectively, in the total population of the district.

Source: Socio-cultural Tables (C-Series) - 2001

The above inset table gives the details by age, sex and marital status composition of the population separately for total, rural and urban areas of the district during 2001 census, whereas the previous Annexure shows the above details for 1991 census. In 1991 while furnishing age group-wise marital status data, a separate age group 15-44 where the marital status was high has been shown. In 2001 census keeping in view of persons aged less than 18 years and persons aged less than 21 years, being high concentration of marital status, has been furnished. In the district population of 3,832,336 persons, 967,620 (25.2%) males and 755,493 (19.7%) females were recorded as never married. In the total district population, 929,323 (24.2%) males and 959,349 (25.0%) females were found married during 2001 census. It is pity to note that as against 174,197 widows 29,182 widowers were found in the district during 2001 census. The reason for high percentage of widows can be attributed to aged males marrying younger females. As against total population of 1,390,723 persons in the age group less than 18 years, 51.2% males and 47.3% females were found never married in 2001 census. In respect of married persons under the age group less than 18 years, only 0.2% males and 1.3% females were recorded in 2001 census which means public are more conscious about Marriage Act and also ill-fate of early marriages. Similar trend is noticed both at rural and urban areas even for age group less than 21 years. There is no much variation in the figures of marital status of the district between 1991 and 2001 censuses.

Annexure VI
Age , sex and Education in the district as per 1991 Census and 2001 Census

The education table was worked-out on the basis of literates in the district.

Definition of literate :

A person who can both read and write with understanding in any language is to be considered as literate. If a person who can merely read but cannot write is not a literate. It is not necessary that a person who is literate should have received any formal education or should have passed any minimum educational standard. All the children in the age of 6 years or less have been treated as illiterate even if the child is going to school and may have picked up reading and writing.

The following table gives age, sex and education in the district at 1991 Census:

Annexure VI

As seen from the table given above, the literacy rate in the district at 1991 Census was arrived at 45.51%. It was 56.13% among males and 34.60% among females. (These rates were arrived at excluding children in the age-group 0-6). Further, it was found that the rate of literacy among males was higher than that of females in all the age groups. Highest literacy rate was found in 0-14 age group in both sexes. A decrease in literacy rate among males and females may be seen in most of the age groups of 14 years above.

Inset table to Annexure VI

Source: Socio-cultural Tables (C-Series) - 2001

The Annexure presented in the pre-page gives the details of Age, Sex and Education in the district for 1991 census whereas the above inset table reveals the data for 2001 Census. As was done in the previous Census, the children in the Age group 0-6 have been treated as illiterates even in 2001 census. It is seen from the above table that the district has recorded 60.0% literates in 2001 as against 45.5% literates in 1991. In the district the literacy rate for males has recorded 69.7% as against 50.1% in females during 2001 Census. From the above inset table it is noticed that in the school going age groups i.e 7 to 14 years, their literacy rate recorded between 73.5% and 84.3%. In all the age groups male literates are dominating females. The highest educated are found in the age group 11 years with 91.1% and their sex-wise breakup recorded 93.9% in males and 88.0% in females. It is a good trend that the essentiality of the education is felt much by the general public.

Annexure VII
Distribution of different mother tongues returned in 1991 Census at District/ Mandal level and the data at District level for 2001 Census

Mother Tongue :

Mother tongue is the language spoken in the childhood by a person's mother to the person. If the mother died in infancy, the language mainly spoken in the person's home in childhood will be the mother tongue. In the case of infants and deaf-mutes the language usually spoken by the mother will be the mother tongue. As per the following data on mother tongue compiled for the district at 1991 Census revealed that Telugu was the largest spoken language in the district with 94.26% followed by Oriya with 2.40% and Urdu 1.36%. Telugu was the mother tongue of main in the district. In all the 43 mandals of the district, Telugu, Oriya and Urdu occupied 1st, 2nd and 3rd places respectively.

A very large number of mother tongues have been returned during 1991 Census. It lead to thorough scrutiny and rationalisation, which resulted in 1,576 rationalised mother tongues and 1,796 names were treated as unclassified or "others". The 1,576 rationalised mother tongues were further classified following the usual linguistic methods for rational grouping based on available linguistic information. Thus a total inventory of classified mother tongues returned by 10,000 or more speakers at the all India level were grouped under appropriate languages, where possible, was prepared for final presentation of the 1991 Census data. The total number of languages so arrived at is 114. Of which 18 languages are included in Eighth Schedule of the constitution of India(Scheduled languages).

The above inset table gives the details of the languages returned in the district as per 2001 census whereas the previous Annexure-VII(a) shows the details of languages recorded in 1991 at district/ mandal level. In 1991 the data was presented in alphabetical order whereas in 2001 the languages data has been presented basing on their numerical strength in descending order. In 2001 as many as 72 languages are recorded in the district besides showing the total of other mother tongues at Sl.No. 6 in the above table.

Annexure-VII(b)

Abstract of Languages as Mother tongues and their strength in Visakhapatnam district-1991

It is seen from the statement below shown that as many as 34 languages have been returned in Visakhapatnam district. Out of which 18 are Scheduled languages and 16 are non-scheduled languages. Though there are 18 languages spoken in the district, Telugu speaking people were in majority with 92.69% to total population in 1991 Census, followed by Oriya speaking people with 23.68%. Since Orissa state is neighbouring state to the district, Oriya speaking people were placed in the second position. The third place was occupied by the people, whose mother tongue was Tamil(2.86%), Malayalam and Urdu speaking people were reported as 4th and 5th places with 2.77% and 1.4% respectively. Except Kodu(2.79%) language, all other languages formed below one percent in non-specified languages.

The above inset table gives the abstract of the languages as mother tongues and their strength in the district recorded in 2001 Census whereas the previous annexure shows the details for 1991 census. In 1991 the data was presented in alphabetical order whereas in 2001 the mother tongue data has been presented basing on their numerical strength in descending order. The mother tongues having minor returns have been clubbed together and added in the category of 'Others'.Telugu being the region's

language has recorded 92.2% to total population in the district with a slight decline in the percentage recorded in 1991(92.7). The next highest language being spoken is Oriya with 2.7% to total population of the district whereas in 1991 the percentage of Oriya speaking people recorded(2.4). In respect of other scheduled languages it is noticed that their strength is negligible both in 1991 and 2001. In the district all the scheduled languages returned.
