

CENSUS OF INDIA 1971

SERIES 18

RAJASTHAN

PART III-B
ESTABLISHMENT TABLES

V. S. VERMA
OF THE INDIAN ADMINISTRATIVE SERVICE
Director of Census Operations, Rajasthan

PREFACE

A SEPARATE Establishment Schedule was canvassed alongwith the Houselist during the Houselisting Operations which preceded the Census count in 1971. Unlike 1961, where a few details of manufacturing establishments alone were collected, the 1971 Establishment Schedule collected a variety of information on manufacturing, trade as well as all other establishments in the unorganised sector run in the state.

The tabulation of this data, on full count basis, has generated a set of four tables. While the first presents the distribution of establishments by broad types, the second deals with distribution of manufacturing, processing or servicing establishments other than household industries by registered factories, unregistered work-shops and size of employment, also by industry, fuel/power or manual used and size of employment, and the distribution of household industry establishments by industry, fuel/power used and size of employment. The third table shows the distribution of trade/commercial establishments by the type of business or trade and size of employment, while the fourth presents the distribution of establishments (other than manufacturing, process ng, servicing or business and trade establishments) by size of employment. These four tables form the subject matter of this volume. A volume containing the write up based on these tables and some subsidiary tables, wherein proportions have been worked out to help better comprehension of the data, has been issued separately.

As in 1961, this time also this publication attempts to fill up to some extent gaps in the existing knowledge on our establishments. With all its limitations and drawbacks, it provides vital information on certain aspects of our establishments and furnishes material on the structure of industrial segments for further study and research.

This volume is entitled 'Establishment Tables' whereas corresponding volume for 1961 Census was called 'Housing and Establishment Tables'. A Volume called 'Housing Report and Tables' has been issued separately this time.

Shri H. K. L. Khattar, Deputy Director incharge had laboured hard in preparing the present volume, ably assisted by Tabulation officers Sarvashri N. K. Purohit, R. A. Gupta, R. L. Mittal and G. D. Agarwala. Other members of the staff who were associated with the preparation of this work at various stages have been mentioned overleaf.

APPENDIX I

Instructions to Enumerators for filling up the Establishment Schedule

1. Instead of loading the main Houselist form itself with questions pertaining to Establishments, it has been decided to have a separate schedule in which particulars of each establishment are to be recorded. (See the Establishment Schedule given at the end of this Appendix).

2. An "Establishment" is a place where goods are produced or manufactured not solely for domestic consumption or where servicing and/or repairing is done such as factory, workshop or household industry or servicing and/or repair workshop or a place where retail or wholesale business is carried on or commercial services are rendered or an office, public or private or a place of entertainment or where educational, religious, social or entertainment services are rendered. It is necessary that in all these places one or more persons should be actually working. Thus an establishment will cover manufacturing, trade and other establishments where people work.

Examples :

A factory or a workshop or workshop-*cum*-residence or a trading or other establishment, *i.e.* where some kind of production, processing, repair or servicing is undertaken or where goods or articles are made and sold, or some business is being carried on such as a grocery shop, a *pan* shop, restaurant, bank, hotel, or an office is functioning such as Government office, commercial office, or an institution is being run such as school, college, hospital, dispensary, etc., and where one or more persons are working.

An Establishment may occupy a census house or a group of census houses or a part of a census house.

3. *The respondents should be fully assured that the information collected in these schedules will be treated as completely confidential and is meant for statistical purposes and will not be used as evidence against any individual or establishment for any purpose. The respondents should be encouraged to furnish truthful replies without any reservation.*

4. At the top of the schedule provision is made for noting the Location Code No. and name of the areas concerned. This should be the same as those noted on the top of the Houselist which you will be canvassing simultaneously. You should fill the Location Code Nos. etc., correctly.

5. The columns of the Establishment Schedule can be classified into four broad groups :

(i) Columns 1 to 5 are of uniform applicability and entries have to be made in respect of all the establisnments ;

(ii) Columns 6 to 8 pertain to manufacturing, processing, etc.—establishments ;

(iii) Columns 9 to 10 relate to trading establishments ; and

(iv) Column 11 refers to "other" Establishments which are not covered in columns 6 to 10.

Thus, it will be seen that the columns falling within groups (ii) to (iv) are mutually exclusive, while those in group (i) are common to all.

Col. 1 : Serial No.

6. In this column the establishments are to be entered one after another serially. Arabic numerals should be used for this purpose, *i.e.*, 1, 2, 3 etc.

Col. 2 : Census House No.

7. The Census House number to be noted is the same as that in column 3 of the Houselist and against which 'Yes' is written in column 7 of the Houselist indicating that the Census house is used as an establishment.

8. A point to be noted here is that it is likely that a single factory or workshop may be spread over more than one Census house abjoining one another. Therefore, while in Col. 2 of tnis schedule a number of Census houses may be noted in respect of that particular unit of production, processing or repairing, trade or business etc., the entries in Col. 3 onwards will be one only for that group of houses covered by a single unit of production or business etc. establishment. For example, if a single tea factory in Assam or business establishment in Calcutta should be spread over two or three adjacent buildings, each of the buildings should not be shown as a separate factory or establishment but the House Nos. of all these buildings shown in Col. 2 should be bracketted together and the particulars of the single tea factory or establishment entered in the subsequent columns against this group of houses. If on the other hand tne activities of a large firm or an office are carried on in buildings located far away in

different localities, each of the Census houses in the different localities will have to be treated as a separate establishment and the particulars of the establishment relating to that particular Census house should be listed in this schedule.

Col. 3 : Name of the Establishment or of the proprietor

9. In this column write the name of the establishment in the case of factories, large manufacturing concerns, a shop or business establishment, banks, office etc. which usually bear a distinct name. Where an establishment has no separate name as in the case of small workshops and establishments like confectionaries, small tea shops, Dhobi's establishment, household industries etc., write the name of the owner as "So and so's Halwai shop" etc. This is to help easy identification.

Col. 4 : Is the Establishment—(a) Govt./Quasi Govt. (b) Private (c) Co-operative Institution

10. Enter here whether establishment enumerated belongs to public sector *i.e.* Govt./Quasi Govt. managed, including establishments run by local authorities, or to private sector, or a co-operative enterprise. Please do not write in the column only (a) or (b) or (c) but write

(1) "Govt.—Public Sector or Quasi Govt.—Public Sector or Local Authority—Public Sector

(2) Private

or

(3) Co-operative

There may be many schools or libraries etc. which are not owned by any particular individual or group of individuals. These may be owned by people in general and managed by Managing Committees. Such establishments should be treated as "private" as distinguished from Govt./Quasi Govt. or run by local authorities or co-operative enterprises.

11. An establishment will be treated as a Govt./Quasi Govt. institution if the Central or State Govt. or a Local Authority such as the Zilla Parishad, City Corporation or Municipality etc. completely owns or has a majority of shares as to control the management of the establishment.

12. Private establishments are those owned and managed by private individuals or corporate bodies not being co-operative institution or Govt. or Quasi Govt. Institutions.

13. Establishment registered under the Co-operative Societies **Registration Law** of the State, alone fall in the category of "Co-operative".

Col. 5 : Average number of persons working daily last week or in the last working season, including proprietors and/or family workers.

14. In this column, the information has to be entered relating to the total number of workers including the apprentices, paid or unpaid and also including owner(s) or proprietor(s) of the establishment and any of their family members if they also work in the establishment and also the hired workers, if any. It is not necessary that an establishment should necessarily have paid workers. A small shop run in the same house where the owner lives and the business is attended to by just one person of the household is also an establishment. The average number of persons working per day in the establisnment during the week preceding the day of your visit should be recorded. For computing the average number of persons working per day, if the establishment remained closed owing to holiday etc., such day(s) should be ignored and only the day's on which the establishment worked should be taken into account. If during the week preceding your visit, the establishment remained closed either due to strike or lockout, the week during which the establishment worked preceding such strike or lock-out should be taken into account for reckoning the average number of persons working. The hired workers should normally be in full time employment.

15. Some establishments such as sugar a factory, rice mill etc. may be seasonal in character and may not be actually working at the time of the present listing. You should then ascertain the particulars of such establishments with reference to the last working season.

16. In case more than one product is produced, or more than one item of business is conducted or several types of services are rendered, it is not necessary to enquire the number of persons employed in the production/business/servicing of each type of product, business or service that is covered against that serial number. For example in a large textile mill there may be the weaving section, dyeing section, laboratory, repairing section, sales section etc. It is not necessary to ascertain the employment in each section. The total employment has to be ascertained. The major activity of the establishment will be described in subsequent columns.

"*Columns* 6, 7 *and* 8 *:—If any manufacturing, processing or servicing is done*".

17. These columns relate only to such establishments in which goods are manufactured or some kind of processing or servicing is done and/or repairs are carried on.

Col. 6 : Is it (a) Household Industry, (b) Registered Factory (c) Unregistered workshop

18. *Household Industry : Definition*

A 'Household Industry' is defined as an industry conducted by the Head of the household himself/herself and/or mainly by the members of the household at home or within the village in rural areas, and only within the premises of the house where the household lives in urban areas. The industry should not be run on the scale of a registered factory.

19. Thus, there are four ingredients of a household industry :

(i) nature of activity

(ii) participation

(iii) location

(iv) size

20. (i) *Nature of activity*.—A household industry should relate to production, processing, servicing, repairing, or making and selling (but not merely selling) of goods. It *does not* include professions such as a pleader or doctor or barber, musician, dancer, washerman (Dhobi), astrologer etc. or merely trade or business even if such profession trade or services are conducted at home by members of household.

21. (ii) *Participation*.—The Head of the household and/or one or more members of the household must participate in such an industry. if it run primarily by hired labourers, the 'participation' ingredient of the household members will not be satisfied and it will not be a 'Household Industry'. The industry may run with the help of hired workers but the head and/or members of the household must be mainly participating in the industry and not solely dependent on hired workers. Besides "actual work", participation also includes "supervision and direction".

22. (iii) *Location*. —The industry should be located within the premises of the house where the household lives in urban areas; if it is situated at a place other than at home, it will not be termed as household industry in urban areas. In rural areas, however, the industry may be either at home or anywhere within the village limits. In rural areas, even though, the industry is not situated at home, there is a greater possibility of the members of the household participating in it if it is located within the village limits.

23. (iv) *Size*.—The industry should not be on the scale of a registered factory. Irrespective of the location and participation by the members of the household, if the industry or workshop is registered under the Factories Act, then it will not be a household industry.

24. Thus it will be clear that any industry which can be termed as 'Household Industry' must satisfy all the four ingredients mentioned above.

25. (b) *Registered Factory*:—A factory which is registered under the Indian Factories Act should be treated as a "Registered Factory". Any other workshop merely licenced by the Municipal or any other authority or registered for any other purpose should not be treated as a registered factory unless it is registered under the Indian Factories Act.

26. (c) *Unregistered Workshop*:—Workshop is a place where some kind of 'production,' processing, servicing, repairing or making of goods for sale, is going on. A workshop which is registered under the Indian Factories Act should be treated as a registered factory and others as unregistered workshops. Workshops which are run as household industry should be treated as household industry and entered as such.

27. When you come across an establishment where some kind of manufacturing, processing or servicing etc., is done, you should ascertain whether it is a Household Industry or a registered factory or a workshop not registered under the Factories Act and write whatever it actually is in this column. Please note that workshops merely licenced or entered in the registers of a local authority are not to be considered as registered factories unless registered under the Indian Factories Act. All workshops other than household industries and not registered under the Indian Factories Act should be treated as unregistered workshops even if they are merely licenced as workshops by the local authorities. Please do not write (a) or (b) or (c) in the column but write "Household Industry" or "Registered Factory" or "Unregistered Workshop", as the case may be.

Col. 7 : Description of the products, processing or servicing done.

28. The description of the actual work relating to product, processing and servicing which is done in the Household Industry, factory or workshop that is being listed is to be recorded here *e.g.*, handloom weaving, lace knitting, *oil ghani* etc., manufacturing of G. I. pipes, electroplating, motor or cycle repairing, iron foundry, paper making or book binding, printing and dyeing. shoe making, sweetmeat making etc. If in any establishment more than one article is produced or more than one kind of processing or servicing or repairing is done, indicate only the major kind of products or processing or repairing or servicing etc.

Col. 8 : Type of fuel or power used

29. Enter here the description of the power or fuel used for the running of the factory, workshop (or household industry if it is run on power or fuel). The fuels can be kerosene, soft coke, petrol, diesel, gas, coal, wood etc. Electricity and steam etc. are some of the sources of power. Some units may be run by animal power such as *oil ghani*. Some may be run by merely human energy such as carpet making, pottery making etc. Enter the description of fuel or power used for the production, processing, servicing etc. that is carried on in the establishment. There may be instances where more than one fuel or power is used, in such cases, only the fuel or power which is used in running the primary unit of the industry will be noted in this column.

30. *Columns 9 and 10 are to be filled in respect of trading establishments or establishments which render commercial services only.*

31. Trading or business establishments are those where some trading *i.e.*, transactions involving sale and/or purchase of goods go on.

Establishments rendering commercial services are the banks, money lending firms, Pawn shops, etc.

Col. 9 : Discription of goods bought/sold

32. If it is a trading establishment, you should ascertain what are the goods bought and/or sold and write the description in this column. If there are more than one type of goods bought/sold by the establishment, you should give description of the main item of goods bought/sold by the establishment.

33. In the case of establishments rendering commercial services such as in the case of Banks etc., you should write the description of the services rendered as in the case of a bank, you should write "banking services".

Col. 10 : Whether (a) Wholesale or (b) Retail

34. For all trading establishments, you should ascertain in respect of the goods mentioned in column 9, whether they are sold/brought in wholesale or in retail and write as the case may be.

35. You may come across certain establishments wherein both types of trade *i. e.* wholesale and retail go on. In such cases, you should ascertain in which category (*i. e.*, wholesale or retail) the volume of trade is greater and record the category accordingly.

36. In the case of establishments rendering commercial services, *e. g.*, bank etc. please do not write any of the two categories *i. e.*, 'wholesale' or 'retail' but put an 'X' in this column.

Col. 11 : If used as any other establishment, describe, *e.g.*, Govt. Office, School, Hospital, Railway Station, Barber's Saloon, Cinema, Theatre, Hotel, Teashop etc.

37. Two specific types of establishments have been covered in columns 6 to 10. Column 11 relates to the remaining types of establishments not covered by columns 6 to 10. You have to describe such establishments in this column, *e.g.*, Government Office, School, Hospital, Railway Station, Orphanage, Rescue Home, Barber's saloon, Cinema, Theatre, Hotel, Tea shop, Lawyer's Office Doctor's Clinic, Laundry, etc.

General :

38. It is possible that in a particular establishment, more than one activity is being undertaken within the same premises. For example, say in a betel shop, *bidi* rolling is also being undertaken or in a grocery shop, a flour mill is also located, or in the doctor's clinic medicines are sold. In such cases, the establishment should be identified having regard to the major activity and recorded as such in the relevant columns pertaining to the major activity.

39. But if different activities are undertaken in different census houses quite cut off from one another though under the same title or ownership, each such census house should be treated as a separate establishment and recorded as such against that census house in this schedule. It may, however, be noted that where processing for the production of an article is carried on, in separate adjoining census houses, all the census houses should be treated as a single establishment and recorded as such. If on the other hand the activities of a large firm or an office are carried on in buildings located far away in different localities, each of the census houses in the different localities will have to be treated as a separate establishment and the particulars of the establishment relating to that particular census house should be listed in this schedule.

40. After you have completed filling up of the Establishment Schedule for your block, you will prepare a duplicate copy of the Establishment Schedule for which you would be given adequate number of blank forms
