CENSUS OF INDIA 2001

ANDHRA PRADESH

DISTRICT CENSUS HANDBOOK

Part - A & B

VIZIANAGARAM

VILLAGE & TOWN DIRECTORY

VILLAGE AND TOWNWISE PRIMARY CENSUS ABSTRACT

लोकाभिमुख
PEOPLE ORIENTED

Director of Census Operations, ANDHRA PRADESH

Foreword

The District Census Handbook (DCHB) published by Census Organisation since 1951 census, is one of the important publications in the context of planning and development at gross-root level. The publication, which is brought out for each district, contains several demographic and socio-economic characteristics village-wise and town-wise of the district along with the status of availability of civic amenities, infrastructural facilities, etc.

2. The scope of the DCHB was initially confined to a few Census Tables and Primary Census Abstract (PCA) of each village and town within the district. Thereafter, at successive censuses, its scope and coverage has been enlarged. The DCHB published at the 1961 census provided a descriptive account of the district, administrative statistics, census tables and a village and town directory including PCA. The 1971 census-DCHB series was in three parts: Part-A related to village and town directory, Part-B to village and town PCA and Part-C comprised analytical report, administrative statistics, district census tables and certain analytical tables based on PCA and amenity data in respect of villages. The 1981 census DCHB was in two parts: Part-A contained village and town directory and Part-B the PCA of village and town including the SCs and STs PCA up to tahsil/ town levels. New features alongwith restructuring of the formats of village and town directory were added into it In Village Directory, all amenities except electricity were brought together and if any amenity was not available in the referent village, the distance in broad ranges from the nearest place having such an amenity, was given. Information on new items such as adult literacy centres, primary health sub-centres and community health workers in the village were provided so as to meet the requirements of some of the Revised Minimum Needs Programme. Information on approach to the village was provided for the first time in the Village Directory so as to give the details on number of inaccessible villages in each district. In the Town Directory, a statement (IV-A) on slums was introduced to provide the details on civic and other amenities in the notified slums of Class I and Class II towns.

3. The 1991 census DCHB, by and large, followed the pattern of presentation of 1981 census, except the format of PCA was restructured. Nine-fold industrial classification of main workers was given against the four-fold industrial classification presented in the 1981 census. In addition, sex-wise population in 0-6 age group was included in the PCA for the first time with a view to enable the data users to compile more realistic literacy rate as all children below 7 years of age had been treated as illiterate at the time of 1991 census. One of the important innovations in the 1991 census was the Community Development Block (CD block) level presentation of village directory and PCA data instead of the traditional tahsil/taluk/PS level presentation. It was expected that the presentation of village directory and PCA data at CD block level will help the planners in formulation of micro level development plans, CD block being lowest administrative unit.

4. The present series of 2001 census DCHBs have been made more informative and exhaustive in terms of coverage and content. The Village Directory has been enlarged in scope by including a number of other facilities like banking, recreational and cultural facilities, newspapers and magazines and ‘most important commodity’ manufactured in village. Income and expenditure of gram panchayat, wherever possible, has been provided. Apart from these, more details on distance(s) at which basic amenities are available (if not available in the village), are given. This includes educational facilities (namely primary and middle schools and college), medical facilities (viz. Allopathic Hospital, Maternity & Child Welfare Centre and Primary Health Centre), drinking water, post & telegraph (post office and phone), communication, bank, credit societies and recreational

facilities. In Town Directory, the statement on Slums has been modified and its coverage enlarged by including details on all slums instead of 'notified slums'. The information is given in case of all statutory towns irrespective of their class, against only Class I and Class II towns in the 1981 and 1991 censuses. The basic amenities available in the villages and towns are analysed in depth with the help of a number of cross-classified inset tables and statements. Two other significant additions in the publication are inclusion of 'motif' highlighting significant characteristic of the district and analytical notes as annexures. The analytical notes on (i) fertility and mortality and (ii) various measures of fertility and mean age at marriage are prepared based on 1991 Census. Whereas, in the notes relating to (i) percentage distribution of migrants by place of birth/place of last residence, (ii) main religions, (iii) marital status of population, (iv) age, sex and education, and (v) distribution of spectrum of mother tongue, nature and extent of changes occurred in the district in its basic socio-demographic features during the decade 1991-2001 are analysed. The eight digits permanent location code (PLCN) to all the villages and towns have been assigned keeping in view the future needs.

5. The village and town level amenity data have been collected, compiled and computerized in prescribed record structure under the supervision of Shri. V.S. Bhaskar, IAS., Director of Census Operations, Andhra Pradesh. Thereafter, efforts have been made to ensure comparability of the information with that of 1991 census data and the information brought out by the respective state governments in their annual reports and statistical handbooks for various years after 1991. The task of planning, designing and coordination of this publication was carried out by Shri R.G. Mitra, Deputy Registrar General (C&T) and Dr. I.C. Agrawal, Senior Research Officer of Social Studies Division. Dr. R.P. Singh, Deputy Registrar General (Map) provided the technical guidance in the preparation of maps. Whereas, Shri Anil Kumar Arora, Deputy Director of Data Processing Division who worked under the overall supervision of Shri Himakar, Addl. Director (EDP) helped in preparation of record structure for computerization of village and town directory data and the programme for the generation of Village Directory and Town Directory statements including analytical inset tables. The draft DCHB manuscripts received from the Census Directorates have been scrutinized in the Social Studies Division under the guidance of Shri S.L. Jain, Deputy Director and Shri R.K. Mehta, Assistant Director. I am thankful to all of them and others who have contributed to make this publication possible.

D.K.Sikri
Registrar General &
Census Commissioner, India.

Seven prominent figures in a circular photo

Vizianagaram district is known for its growth in cultural and academic activities. The seven prominent figures depicted for the motif in a circular photograph are hereunder described in clock-wise from the top.

1. Sri Gurajada Appa Rao(1861-1915): Eminent epoch making Telugu poet and play writer of Vizianagaram who propagated social reforms through his lyrics in colloquial language. His famous play "Kanyasulkam" is even today being applauded by the people of Andhra Pradesh. He is called the Wordsworth of Telugu literature and proclaimed "Desamante matti kadoi, Desamante manushuloi" (My nation is its people and not its soil).
2. Sri Dwaram Venkataswami Naidu: A well known eminent violinist of recent years hails from Vizianagaram.
3. Veena: It is a beautiful musical instrument (the instrument adorned by Goddess Sri Saraswati) manufactured at Bobbili and famous all over the country.
4. Clock Tower: A famous monument located in the heart of Vizianagaram town and a symbolic of Vizianagaram.
5. Vizianagaram Fort: Historical monument which depicts the glory of "Gajapathulu" of erstwhile 'Kalinga Desam'.
6. Adibhatla Narayandas (1864-1945): An exquisite poet, a versatile genius conversant with English, a profound scholar in Telugu and Sanskrit, and an accomplished musician of the most enchanting type. He was responsible for the evolution and development of 'Harikatha' in Telugu in its present form and acclaimed as the 'Harikatha Pitamaha'.
7. Education allied programme: Vizianagaram is known as "Vidyala Nagaram". The photo in the centre of the circle is a symbolic of women literacy programme.

Preface

The District Census Handbook (DCHB) containing Primary Census Abstract and data on "amenities" for each village and town in the district. The intention of this publication is to place the data collected at the Census alongwith the village and town level amenities data collected from the Mandal Revenue Officers/ Municipal officials in this publication. The amenities data is validated by comparing with secondary data obtained from Heads of the Departments. For example, information on schools was compared with data available with Commissioner, School Education and information on post offices was compared with data obtained from the Chief Post Master General and so on. Validation of data in the above manner was by no means an easy exercise. Scores of officials had put in gruelling efforts for months together. The entire data and manuscripts were computerized. We are now reasonably confident of the correctness of the data but we will not make any utopian claims of cent per cent accuracy. There may be errors but we will be safe in saying that they are minimal.

The District Census Handbook is divided into the following major components.

1. Introduction.
2. Brief history of the district.
3. Census and non-Census concepts.
4. A detailed write up on the physical features, major cultural and social events, major developments during the decade, places of religious and historic importance etc.
5. Primary Census Abstract (PCA) at the district level, mandal/town level and village level.
6. Brief analysis of PCA data.
7. Village Directory and Town Directory.
8. Brief analysis on Village Directory and Town Directories.

It will not be out of place to mention here that there is perhaps no other publication from any agency that encapsulates so much data on a district. The amenities data includes information on sectors such as Education, Health, Water and Electricity supply, Communication and Transport facilities etc. The idea of presenting amenities data juxtaposed to the Census data is not only unique but also tremendously useful for the data users.

The District Census Handbook is further enriched with a district map and mandal maps depicting villages/towns with population size and also amenities such as Educational Institutions, Hospitals, Telegraph and Telephone facilities, Banks, Police Station etc.

Some improvement over earlier DCHB have been made to bring more completeness to the data presented in this volume.

1. The names of Colleges, Girls' High Schools, Hospitals run by Government and others have been given as an additional information. Similarly the names of Cinema Halls have been given.
2. Ranking of Mandals according to population is also given.

3. More Appendices and Annexures to important statements are given to make the data more comprehensive.

In the previous Censuses, the manuscripts prepared by this department were supplied to Government of Andhra Pradesh who in turn brought out the publications at their cost. However due to the procedural rigmorale some delay was unavoidable in placing the DCHBs before the data users and planners.

This time, keeping in view the above difficulties, the printing and publication of District Census Handbooks has been taken up centrally under the arrangement of the office of the Registrar General and Census Commissioner, India, New Delhi. The processing of data and preparation of Camera Ready Copies electronically including finalisation of write up was attended to in the office of the Director of Census Operations.

I am grateful to the Chief Secretaries, Principal Secretaries, Secretaries, District Collectors, Municipal Commissioners and other senior officials of the Government of Andhra Pradesh for their co-operation and assistance throughout the Census Operations and in the process of collection of the non-Censal data.

I am extremely grateful to Sri D.K.Sikri, IAS, Registrar General and Census Commissioner, India for the help, guidance and constant support in finalising this volume. My sincere thanks to Sri R.P. Singh, Deputy Registrar General (Map) and Dr.I.C. Agrawal, Assistant Registrar General (SS). Sri. S.L. Jain, Deputy Director for giving guidence, help and co-ordinating this project work and their colleagues in the office of the Registrar General, India.

I also take this opportunity to acknowledge the valuable contribution made for this publication by Sri.J.K.Banthia, Ex-Registrar General, India.

Most of the work relating to DCHB has been carried out under the able guidance and direction of Sri V.S.Bhaskar, IAS, Director of Census Operations, Andhra Pradesh, Hyderabad. I take this opportunity to acknowledge his valuable contribution made for this publication.

The credit for preparation of District Census Handbooks goes to a team of devoted officers and staff of this Directorate who have involved in this project. The names of individuals associated with this project are shown in “Acknowledgements”. I am grateful to all of them.

I hope that the data users will find this publication very useful.

District Highlights – 2001 Census

1. Vizianagaram District stands **21st** in terms of area size and ranks **23rd** in terms of population in the state.
2. Vizianagaram district stands **20th** rank in terms of urbanisation with a total Urban population **412,395**forming **18.33** percentage to the total district population.
3. The sex ratio of the district is **1009** against **1000** in 1991 Census showing upward/ trend.
4. The density of the district is **344** against **323** in 1991 Census, showing increase over the decade.
5. **Srungavarapukota** village, PLC No. **01396900** is most populated with a population of **26,378** and **Lakshmipuram** village, PLC No. **01368300** is the least populated with a population of **4** in the district.
6. Vizianagaram mandal is the most populated with a population of **242,839** and **Pachipenta** Mandal is the least populated with a population of **43,975** in the district.
7. Vizianagaram Municipality is the most populated with a population of **1,95,801** and **Bobbili** Municipality is the least populated with a population of **50,096** in the district.
8. Out of 100 workers **68.42** are engaged in Agriculture sector, **3.70** in Household industry and **27.89** in other economic activities. Thus showing the predominance **Agriculture** Sector.
9. Out of 100 Male workers in the district **58.68** are engaged in **Agriculture** sector.
10. Out of 100 Female workers in the district **81.34** are engaged in **Agriculture** sector.
11. There is increase in the proportion of main workers of the district in the decade (**45.49** percent in 1991 to **52.20** percent in 2001).
12. There is increase in the proportion of Male workers of the district in the decade (**58.35** percent in 1991 to **59.84** percent in 2001).
13. There is increase in the proportion of Female workers of the district in the decade (**32.64** percent in 1991 to **44.63** percent in 2001)
14. Vizianagaram district is famous for **Ferro Alloys Production and Sugar Production.**
15. **Vizianagaram** Mandal has the lowest number of inhabited villages (**17**) and the highest number of inhabited villages (**119**) are found in **Gummalaxmipuram** Mandal .
16. **Gantyada** mandal has largest area **7263.08** hectares under irrigation, followed by **Seethanagaram** mandal with **6728.66** hectares in the district. The mandal with lowest area **386.42** hectares under irrigation is **Gummalaxmipuram** Mandal.
17. **Taduru** village bearing PLC No.**01349300** has the largest area (**8929** hectares) and **Gunjari** village bearing PLC No.**01336600** has the smallest area (**one** hectare) among the villages of the district.
18. Female work participation rate is **44.63** and that of the Males in the district is **59.84.**

(i) About the District Census Handbook

District manuals compiled and published prior to 1905 by the erstwhile composite Madras Government contained not only particulars of items of more or less similar and permanent characteristics like history, religion and ethnography, but also a few statistical tables including those relating to population which became obsolete within a few years of publication. Later, the Madras Government replaced the District Manuals by another publication viz., the District Gazetteer consisting of two Volumes A and B. Volume-A contained descriptive and general tables which explains the text and Volume-B contained detailed statistics. It was decided that Volume B should be brought out periodically after each decennial census so that they contain the latest statistics. Volume-A was published for some districts between 1905 and 1927 in the Composite Madras State. The publication of Volume-A was discontinued in 1927. Volume-B was published for all the districts of the Composite Madras State between 1906 and 1915. The publication of Volume-B was also stopped after 1931 Census.

Similarly the Gazetteer volumes were also brought for some of the districts in the erstwhile Hyderabad State. The scheme of publication of revised District Gazetteers was restarted in the year 1958 by the State Governments. The State Editor, District Gazetteers, Government of Andhra Pradesh had published the Gazetteers of all the districts.

The idea of compiling the District Census Handbooks was initiated during the 1951 census pioneered by Sri. R.A. Gopala Swamy, I.C.S. the then Registrar General, India and Ex-officio Census Commissioner of India, with a view to preserve the census records prepared for areas below the district level. He proposed that all the District Census Tables and Census Abstracts prepared during the process of sorting and compilation, should be bound together in a single manuscript volume and named as the District Census Handbook and suggested that the State Government should take up printing and publication at their own cost. Then onwards, the District Census Handbooks were published in each census with improved pattern with an aim to give the census and non-census data at micro level for the village and district as a whole to suit the requirements of various departments, scholars, research personnel , planners, industrialists, electoral authorities, and other data users, also for efficient public administration by the state.

Pattern at 2001 Census :

The present District Census Handbook of 2001 Census, like the previous Census, is brought out for each district comprising of two Parts. Part- A Village and Town Directory with additional information on amenities viz., availability of commercial banks, recreation, credit societies etc., and land use particulars in the rural areas and Part- B Primary Census Abstract. At the out set an analytical note is given which depicts a general back ground on the district and analytical results on the statements and tables included in the volume. The volume is also provided with brief history of the district, physical aspects, census concepts, non-census concepts, major characteristics with reference to economic resources and administrative set-up during the past decade, few appendixes, etc..

Part A–Village and Town Directory :

The Section- I i.e. Village Directory gives non-census data on the amenities available in each village in respect of educational, medical, drinking water, power supply, post and telegraph, telephone, approach to village, banks, credit societies, receipt of newspapers and magazines, recreation and cultural facilities, nearest town and its distance, distribution of land use area, income and expenditure of the village and name of the most important commodities manufactured.

If an amenity is not available in the referred village, the distance in broad ranges (Kms.) from the nearest place where the amenity is available is indicated. If the nearest place is situated in another state, name of the other state is also given.

The Section-II i.e. Town Directory has been presented in seven Statements viz., Statement – I Status and Growth History, Statement-II Physical

aspects and Location of towns, Statement-III Municipal Finance(receipts and expenditure,1998-99), Statement-IV Civic and other amenities, Statement-V Medical, Educational, Recreational and Cultural facilities, Statement-VI Trade, Commerce, Industry and Banking etc., Statement-VII Civic and other amenities in Slums and an Appendix showing towns with out growths and their population. The reference period for the above statements is 1998-99 and the data is covered for all the statutorily notified towns in the district.

The non-census data at Village/Town level is collected from concerned authorities viz., Mandal Revenue Officers, Municipal Commissioners etc., and scrutinized with meticulous care and validated with the data collected from various departments to provide valid information to the data users.

Part B–Primary Census Abstract :

This data can be stated as the essence of the handbook. The latest census details such as area, total house holds, population, scheduled castes and Tribes population, literates, workers, etc. are presented in these Abstract.

(ii) History and Administrative set up of the district

Vizianagaram district in Andhra Pradesh was inaugurated on 1st July, 1979. A peep into its history promises to be both interesting and instructive. The archaeological explorations and excavations conducted at places such as Jami (Jami mandal) Andra (Mentada mandal) and Rompallivalasa (Ramabhadrapuram mandal) revealed evidence of pre-historic settlements ranging from B.C. 900 to A.D. 300, i.e. from neolithic to iron age.

The history of the district is connected with the glory past of Kalinga, one of the political divisions of ancient India, which is supposed to have come into being in the 9th Century B.C. It has to be traced to the period when the Nandas were ruling over Magadha. King Nanda conquered Kalinga and carried away the statue of the first Jina to Magadha. The fact that there was a Nanda era in Kalinga is confirmed by the Hathigumpha inscription of Kharavela of Kalinga. In view of these, the subjugation of the territories lying farther south in this district does not seem to be altogether improbable.

Chandragupta Maurya over threw the Nanda dynasty and became the ruler of the Magadha empire. Ashoka's conquest of Kalinga in or about 261 B.C., is well known to history. This kalinga campaign turned out to be an epoch-making event for, this mighty emperor, realising the horrors of war, turned to be a missionary of peace. His two rock edicts at Dhauli (near Bhuvaneswar) and Jaugada (in Ganjam district) enjoin the officers to practise the duties consonant with the Dhamma (Dharma) in the conquered territory.

The next land mark in the history of the district is the period of its glory under Kharavela of the Chedi dynasty. After the death of Kharavela, the district seems to have passed under the sway of the Satavahanas, who dominated the political scene of the Deccan from the 2nd Century B.C., to the 2nd Century A.D. The excavations at Salihundam (near Srikakulam), a Buddhist site of ancient Kalinga, brought to light a few coins attributable to the Satavahanas. All this evidence points out the satavahana supremacy over the region in the early centuries of the Christian era.

The digvijaya (glorious victory) campaign of Samudra Gupta (A.D.340-380) of the Gupta dynasty was the next event which throws some light on the history of this district. This great ruler was credited with the conquest of all the kingdoms in south India which he seems to have achieved after conquering Srikakulam, Visakhapatnam and Vizianagaram districts. The campaign of Samudra Gupta galvanised the region and a new line of kings called the Matharas and the Vasishthas ruled from Pishtapura (Pithapuram in East Godavari District), Singupura (near Srikakulam) and Devapura (Devada in Kothavalasa mandal of Vizianagaram district). Closely following the Gupta invasion, we learn from the Copper-plate records discovered in this area that a new dynasty named the Matharas, styling themselves as Kalingadhipatis, ruled from Pishtapura. By the close of the 5th century A.D. these rulers were, however, replaced.

The early Eastern Gangas (Thoorpu Gangulu or Poorva Gangulu), the later Eastern Gangas and the Gajapatis, like the four dynasties of the Vijayanagar empire, are distinguished from each other for political history. Yet, by virtue of their continuous political and historical traditions, they constitute a single unit of historical study. In so far as their administrative and social institutions are concerned, there was practically no break in the continuity of political and administrative traditions of the two dynasties during the transition from the later Eastern Gangas to the Suryavamsa Gajapatis, except for a change in the dynasty by what appears to be a bloodless coup de theatre. Though the title Gajapati (Lord of the elephant forces) was as much a title of the later Eastern Gangas as it was of their successors. The rule of the Eastern Gangas is unique in the annals of Indian history for, they were the only Hindu dynasty that ruled for a millennium, and the Swayastamsa Gajapatis, who succeeded them,

lasted for a little over a century. Together, the Eastern Gangas and the Gajapatis ruled over considerable portions of Andhra, which formed part of an extensive empire for thousand and one hundred years without any break in their historical traditions.

At the height of its power, the empire of the later Eastern Gangas extended from the Ganga in the north to the Godavari in the south, and the empire of the Gajapatis from the Ganga in the north to the Pinakini (penna) in the south with a spell over for a very short period, up to the Kaveri in the farther south. The Andhra portion of the empire, ruled by the Eastern Gangas, traditionally referred to as kalinga, extended from the Mahendragiri in the north to the river Godavari in the south, though the southern boundary fluctuated between the Godavari and Simhachalam because of the invasions of the neighbouring powers. Under the Gajapatis, the Andhra area of the empire extended from the Mahendragiri in the north to the river Pinakini (Penna in Nellore district)in the south, the Kalinga-Andhra comprised East Godavari, Visakhapatnam and Srikakulam districts of the present Andhra Pradesh and the southern half of Ganjam district in Orissa.

Along with the Kakatiyas of Warangal, the Reddis of Kondavidu and the Rayas of Vijayanagara, the later Eastern Gangas and the Gajapatis share the honour of protecting Hinduism in the Deccan and South India from the on slaughts of the Muslim rulers from the north. The later Eastern Gangas and the Gajapatis compare favourably with the Rayas of Vijayanagara in regal splendour. Military prowess and Cultural glory, in defending and preserving the Hindu faith, and in extending patronage and promoting arts and letters. The most important fact of comparison is that the Eastern Gangas and the Gajapatis, like the Rayas, served as common bonds of cultural heritage between the people of two different linguistic regions. While the Rayas were the builders of the Cultural bridge between the Kannadians and the Andhras, the Eastern Gangas and the Gajapatis were between the Oriyas and the Andhras.

The wild and mountainous nature of Kalinga afforded ample scope for the rise of many local dynasties, which wielded power and influence during this period. The extent of the territory over which each family ruled was small. The rulers were petty chieftains known as Manne chiefs. Yet they were very handy and brave.

The local chiefs in Kalinga appear to have ruled independently. They did not acknowledge their over lords in their inscriptions. Of the local dynasties in Kalinga, the ones that are mentioned below appear to have played an important role in the history of the period. The Raparti family, known from the records at Narayanapura was subordinate to the Gangas of Kalinga.

Madaparaju (A.D. 1100-1150) was the earliest known member. None of his records are available, and he is known from the inscriptions of his son. He must have lived in the first half of the 12th century A.D.

A collateral branch of the Gangas of Kalinga ruled at Narayanapura in Balijipeta mandal of Vizianagaram district for nearly one and half centuries from the beginning of the 12th century A.D. These Gangas maintained friendly relations with the Ganga emperors, besides the local dynasties including the Raparti chiefs. Many records of this line are noticed at Narayanapura.

A branch of the Gangas ruled over Jantarunadu for about two centuries from A.D. 1270 to 1461. It was one of the important dynasties in South Kalinga. The tract of Gantyada, Srungavarapukota, Vepada and Jami mandals in Vizianagaram district roughly represents the ancient jantarunadu. Their kingdom was the target of attacks by invaders like the Reddis and the Matsyas. They owed allegiance to the Imperial Gangas and contracted marriage alliances with other local dynasties like the Matsyas and the Silas. All the records of this dynasty, except the one at Boni, are at Simhachalam. The literature and inscriptions of the Reddis, the Eastern Gangas of Kalinga and the Matsyas of oddadi refer to the Gangas of Jantarunadu.

As the Imperial Gangas of Kalinga were supplanted by the Gajapatis by A.D.1434, Jantarunadu must have become a viceroyalty under the Gajapatis after Kurmaraju and Savaranatha. The Gajapatis, as a rule, put an end to the semi-independent local dynasties which were a menace to them and these Gangas were no exception to this rule.

The Silas or Silavamsis of Nandapura ruled for nearly a hundred years from the middle of the 14th century. Their Capitals were Nandapura and Bobbili. They acknowledged the Suzerainty of the Gangas of kalinga. The Reddis of Rajamahendravaram also ruled this district (A.D.1353-1424). The district, as any other district of Andhra Pradesh, passed into the hands of the Qutub Shahis and Mughals, during 1520-1740.

Several decades elapsed before the British could consolidate their hold on this district. The Zamindars who came into prominence before this district came under the English hegemony offered stiff resistance. Some of them were descendants of the ancient Hindu rulers and some were the agents of the Muslim rulers. During the troubled period, when there was continual warfare, they usurped certain powers and regarded themselves as the owners of the soil. There were many Zamindars in the district, some of whom resided in the hills while some lived in the plains. Among the Zamindars, those of Vizianagaram, Bobbili, Salur, Pachipenta, Merangi, Kurupam, Srungavarapukota and Sangamvalasa deserve mention.

The early history of the Zamindars of Vizianagaram is obscure. They were also known as Pusapatis* and they played a crucial role in the history of Vizianagaram and Visakhapatnam.

The members of this family known as the Pusapatis trace their descent from one Madhavavarama of the 6th century A.D. Pusapati Madhavavarama was the first member of the family who moved into Visakhapatnam district, then forming part of the Chicacole Circar. He rented a few Villages from the Fauzdar of Chicacole Circar, Sher Muhammed Khan his son Sitarama further added to the estate. He was followed on in succession by four zamindars, each of whom added something to the aggrandisement of the family. Viziarama Raju, the last of the four, moved from Potnuru to Vizianagaram where he built a quadrangular stone fort, there was no love lost between these Zamindars and those of Bobbili. However subsequently, a fierce battle was fought with Bobbili during the time of a later member of the family, Viziarama Raju. He was however, stabbed to death and succeeded by Ananda Raju. Ananda Raju accompanied Forde to Rajahmundry and died there. He was followed by Venkatapati Raju who was also known as Viziarama Raju. During his minority, his half-brother Sitarama Raju looked after the maintenance of the estate. The two brothers were very powerful and they engaged themselves in a series of wars with the neighbouring Zamindars and reduced their estates to a tributary status. The estates which suffered this fate in this district were Salur, Kurupam, Andra, Pachipenta, Sangamvalasa, Chemudu and others. Shortly afterwards, several Zamindars formed a confederacy to oust the Raju brothers from power. Sitarama Raju was equal to the task and at the close of the campaign led by him, all the Zamindars in the district except Andra who had kept aloof were dispossessed of their estates. The oppression of the ryots and the smaller Zamindars by Sitarama Raju brought the district into a very unsatisfactory state. A committee of circuit was sent to investigate the officers and the report submitted in A.D.1784 condemned Sitarama Raju in the strongest terms. Sitarama Raju was removed from the office of Diwan and his half-brother, Viziarama Raju, was killed in an encounter in May, 1794. After his death, the chief surviving members of Viziarama Raju's family were invited by the English for talks. Narayana Raju of this family was then proclaimed Zamindar and the Zamindari continued to be under their control for quite a long period. All the ancient Zamindaris were handed over to their owners in perpetuity on payment of fixed Peshkush. The Zamindars who thus got their estates back were those of Bobbili, Kurupam, Merangi, Sangamvalasa, Chemudu, Salur and Andra. Politically, this was a failure as it treated them as farmers and removed from them the authority over the hill men. Their estates were declared liable to attachment and sale for default in paying the Peshkush. Because of all these reasons, they were in a state of disaffection for many years after this. This led to chaotic conditions and the expeditions sent in pursuit of the malcontents further complicated the issue. In A.D.1832, George Russell was sent to investigate the causes and concert measures for their suppression. Consequently, the estate of the Zamindar of Palakonda was forfeited. This had a telling effect on the Zamindars of the plains who gave no trouble from the time of the seizure of Palakonda.

Between 1740 and 1760 the history of the district was one of the chaos and confusion. Neither the Nizam nor the French were effective. First the French and later the English tried to establish the authority.

** There is also a claim that the Pusapati family hailed from the village Pusapadu in Prakasam district near Parchoor.*

The subah of the Deccan comprised the Nawabships of Chicacole, Rajahmundry, Kurnool and Arcot. Nizam-ul-Mulk appointed one Anwar-ud-din Khan as the Fauzdar of Chicacole in A.D.1726. He ably administered the Circar for a period of fifteen years. He was assisted by Rustum Khan in restoring law and order in this region. He was succeeded by Jafar Ali Khan who was shortly afterwards supplanted by "Edabullah Khan" in 1155 F.(A.D.1745). "Edabullah Khan" was, however deposed and Jafar Ali Khan was restored to his position in 1159 F.(A.D.1749).

In A.D.1748, Nizam-ul-Mulk Asaf Jah-I died and the succession to the throne was disputed between his son Nasir Jung and his grandson Muzaffar Jung. In the war of succession, the French and the English took opposite sides and eventually a French protege, Salabat Jung, ascended the throne. In A.D.1753, the French General, Bussy, obtained from him the cession of Chicacole Circar, besides Mustafanagar, Ellore (Eluru) and Rajahmundry Circars for the support of his troops. The necessary patents were also sent to Moracin, the French Governor at Machilipatnam, with instructions to take immediate possession of them.

The Fauzdar of Chicacole Jafar Ali Khan, was extremely disinclined to give up his charge to the French and he persuaded Viziarama Raju, the Zamindar of Vizianagaram, to join him in opposing Moracin's entry. Moracin, however, weaned Viziarama Raju to his side by promising to leaseout Chicacole and Rajahmundry Circars at a favourable rent. Then Jafar Ali Khan sought the help of the Marathas who entrenched themselves in the north of Ganjam. The Marathas came with a huge army, plundered Chicacole and Rajahmundry Circars and quit the region. The Marathas, satisfied with the plunder they had gained, showed no further inclination to assist Jafar Ali Khan in the recovery of his Circars. Being convinced of the futility of his plans, he proceeded to Aurangabad to make submission to the Nizam. After his retirement, Viziarama Raju appears to have been appointed to the Management of Chicacole Circar. He continued in that post for one year (A.D.1753). In July, 1754, the French General Bussy went in person, settled the affairs in the Circars and appointed one Ibrahim Khan as the Fauzdar of Chicacole.

Soon afterwards, the relations between Bussy and the Nizam, Salabat Jung, became strained and an open rupture led to the dismissal of Bussy from the Nizam's court. Bussy, however, faced the situation boldly and re-established his influence at the court. Throughout this period, Chicacole Circar was administered by Ibrahim Khan. The collections from Chicacole Circar became slack and uncertain in A.D.1757 and it is presumed that the Fauzdar had disavowed his authority. Bussy, therefore, wanted to go in person and settle the country under the authority of the French. Ibrahim Khan fled in terror on his approach. Bussy was joined by Viziarama Raju of Vizianagaram and other Chiefs with a huge army. Viziarama Raju represented to Bussy that Bobbili was contumacious and must be repressed. Bussy at length agreed to allow the French-troops to assist him in attacking the fort of Bobbili, the Zamindar of Bobbili defended himself to the utmost, and when he found that further resistance was useless, he had all the women and children in the fort put to death and, with the remnant of his garrison, died fighting to the last. However, after three nights, Viziarama Raju was killed in his tent by some adherents of the Bobbili Raja (Thandra Papa Rayudu and others).

Bussy's absence was keenly felt at the court of the Nizam. He, therefore, left Ganjam in May, 1758 and arrived shortly afterwards at Aurangabad. His departure from the northern Circars was the signal for a revolt against the government of the French. Ananda Raju, who succeeded Viziarama Raju, felt very much dissatisfied at the arrangements Bussy had made at the time of his predecessor's demise. Therefore, as soon as the French had left for Aurangabad, he took Visakhapatnam and intrigued with the English in Bengal to drive the French out of their possessions in the northern Circars. He volunteered to render every assistance in his power if they invaded the northern circars. Clive entertained his proposals favourably and an expedition under Colonel Forde set out from Bengal. In the battle that ensued, the French were discomfited and many of their strongholds were taken possession of. Seeing no chance of retaking them, the Nizam, Salabat Jung, who had come to the aid of the French, concluded a treaty with the English on the 14th of May, 1759. By this treaty, the Nizam under took to expel the French from all their possessions in the Northern Circars. The whole of the Northern Circars had thus been

freed from the French dominion in a few months and had reverted to the control of the Nizam. These circars were then leased to one Hasan Ali Khan. Consequently, the weak and irresolute Nizam was left completely paralysed by the withdrawal of his French allies. In A.D.1760, Nizam Ali Khan, the brother of Salabat Jung, went to Bezwada (Vijayawada) to solicit the help of the British in the war against the Marathas in return for the territory held by Hasan Ali Khan. The British could not spare troops, but they offered to lease the five Northern Circars.

In A.D.1761, Salabat Jung was deposed by his younger and more energetic brother Nizam Ali Khan (A.D.1762-1803). After this usurpation, the Government of Madras entered into negotiation with Nizam Ali Khan, with the object of obtaining the northern circars. Hasan Ali Khan, therefore, went to Madras, vested with full powers on behalf of the Nizam and engaged himself in a tedious negotiation with the Government of Madras. At last, Hasan Ali Khan assented to the suggestion made by the British that they would pay to the Nizam half the net revenues collected by them in return for the grant of these circars and delivered to the Government of Madras sanads in the name of Nizam Ali Khan for the northern Circars. These orders were sent to Machilipatnam with instruction to occupy the area and this was done most expeditiously. When Nizam Ali Khan was informed of this, he demanded the immediate return of the sanads and restoration of the territory. The British, however, declined to do so until the expenses of occupation were paid. Nizam Ali Khan appointed "Buddea Jemah Khan" in the place of Hassan Ali Khan and took possession of the territory in March, 1763, after paying the expenses of occupation.

In the meanwhile, Lord Clive, who had returned from England, obtained in A.D.1765, a firman from the Mughal emperor, Shah Alam, granting the northern Circars to the British. The firman was kept secret for some time and proclaimed on the 3rd of March, 1766. Letters were despatched to all the Zamindars in the northern circars and General Caillaud left for Machilipatnam to undertake military operations, if warranted. All the Zamindars as far as Chicacole thus submitted to British rule. When these developments were brought to the notice of the Nizam, he made large scale preparations for war. In A.D.1766, a treaty was, however, concluded by which the English agreed to hold the Northern Circars on payment of a tribute, accepting at the same time to furnish the Nizam with some troops. Soon after the conclusion of this treaty, the Government of Madras took steps to secure the Province of Ichchapur which was in a very disturbed state. Not with standing this treaty, the Nizam in the following year allied himself with Hyder Ali of Mysore and began to make incursions on the English territory. Nizam Ali Khan was, however, defeated in the Karnatak and another expedition from the north threatening his capital forced him to make peace with the English. A treaty was accordingly concluded on the 23rd of February, 1768 ceding the Northern Circars to the English.

During the same year, the Government determined to reduce Narayana Deo, refractory Zamindar of Parlakimidi, and ordered Colonel Peach to proceed against him. Cotsford, who was appointed as Resident in Ganjam, was asked to accompany the Colonel. Cotsford arrived at Chicacole in April, 1768 and caused the Nizam's firman to be read in the open in the presence of Sitaram Raju, the Nizam's Fauzdar for the Chicacole circar. Narayana Deo was defeated in May, 1768 and forced to flee. Before the Chicacole Circar came under the control of the British, it was divided and managed in three divisions, namely Ichchapur, Chicacole and Kasimkota Visakhapatnam). As the last two places were nearer to Visakhapatnam they were placed subsequently under the control of the Chief and Council at Visakhapatnam. The Ichchapur division lay too far and, therefore, its administration was entrusted to the Resident at Ganjam. In A.D.1794, the offices of Resident and Chief at all the settlements along the coast were abolished and the office of the collector was established.

Srikakulam district figures quite prominently in the contribution it made to the liberation from British Imperialist Rule. During the 1890s, District Associations of Ganjam and Visakhapatnam were started, of which this district formed part, to devote themselves to national activity., Earlier, delegates from this district went to Bombay and attended the First Session of Indian National Congress in 1885. District Conferences were held under the auspices of the

District Associations, keeping the annual session of the National Congress as the model. Besides conferences of this sort, meetings were held from time to time, as the occasion required to pass resolution on various current questions and communicate them to authorities in India and England.

During this period, Political Consciousness was progressively on the increase. The Partition of Bengal in 1905 gave a sharp edge to this national awareness all over the Country and this was very much reflected in this district. People of this district reacted to this movement spontaneously and organised a Swadesi Campaign inside the district. Places like Srikakulam, Ponduru, Tekkali, Cheepurupalle, Salur and Bobbili were centers of such activity and several important persons went round the district organising meetings at which passionate pleas were made for the boycott of foreign goods, particularly British. The Home Rule Movement started by Mrs. Annie Besant gave rise to spate of activity in this district also. 'New India', then a widely circulated English daily, acted as a source of inspiration to the intellectuals of the district.

The Non Co-operation Movement of 1920 saw the district seedling with political turmoil. A meeting of the All India Congress Committee was held in March-April of 1921 at Vijayawada and this was attended by many All India leaders whose presence and message gave an impetus to further the political activity in the district. After the All India Congress Committee meeting was over, Gandhiji undertook a tour of the coastal districts and spread the message of Nationalism. It was during this year that several hartals were observed in almost every town in this district in connection with the visit of the Prince of Wales in the month of November. The temperance movement during this period received full support from the people. Many people are reported to have given up their lucrative practice as lawyers and joined the movement. Centres for wearing and sale of Khadi were opened in numerous places. The finer varieties produced in and around Ponduru and Srikakulam were also popularised throughout the country during this period.

The district showed again its political awareness in connection with the visit of the Simon Commission in 1928. Chicacole Municipality passed a resolution in favour of the boycott of the Commission and the closure of all municipal institutions on the day of its landing in India. Another outstanding feature of the period was the visit of Mahatma Gandhi to this district in 1929 to raise funds for the Khaddar Movement and also to prepare the country for the final struggle. When Gandhiji started his Civil Disobedience Campaign again on the 12th of March 1930, marching from the Sabarmati Ashram to Dandi to break the Salt Law, the district again responded magnificently to this movement. The volunteers accompanied by large numbers of people broke the Salt Law.

The district again responded to the call given by the National Congress for Civil Disobedience in 1932. During this period, there were widespread protests in the district against the Communal award of Macdonald. In 1933, Gandhiji visited the district as part of his tour of the whole country in the cause of harijan uplift. The district responded enthusiastically to his visit. Under the Government of India Act, 1935, the district returned all the five Congress candidates to the Provincial Legislative Assembly and thus displayed its solid patriotism. Again, the district played a notable part in the Quit India Movement launched by Gandhiji in 1942. Because of the policy of repression followed by the Government in this district also, the movement in the district took a violent turn. The students strike was only partial and their demonstrations were violent. The only serious manifestation of the campaign was interference with Railway lines and cutting of telephone and telegraph wires. The Telegraph line between Amadalavalasa and Calingapatnam was put out of order by earthing the current. Five Railway telegraph wires were cut near Sithanagaram Railway station. Fishplates and bolts were removed between Mandasa and Baruva on the Calcutta line. Consequently, the engine and two bogies of a special train derailed. Four Rail joints were removed and two telegraph wires were cut near Bobbili. Similarly, Railway telegraph wires were cut and fish plates and bolts were removed near Dusi railway station and Cheepurupalle. The Calingapatnam Post-office was looted. The district hardly returned to normalcy until the 20th of February, 1947 when the British Government declared its intention to quit India. There was widespread rejoicing in the district when power was finally transferred by the British to the Indian National Government headed by Pandit Jawaharlal Nehru on the 15th of August, 1947.

***Source**: District Census Handbook, 1981 - Vizianagaram District.*

Administrative Setup :

a) Region of the State where the district is located :

Vizianagaram district was formed on 1st June, 1979 with Headquarters at Vizianagaram by taking some areas of Srikakulam and Visakhapatnam districts which presently surrounded the district from eastern and western sides respectively. Vizianagaram district is a part of the northern Andhra Pradesh Coastal plain and lies between 17° 15' and 19°15' northern latitudes and 83° 0' and 83°45' eastern latitudes. The district is bounded on the east by Srikakulam district, on the west and south by Visakhapatnam district, on the southeast by the Bay of Bengal and northwest by Orissa state.

b) Total number of Revenue Divisions and Mandals :

In 1985, the then existing 12 Taluks were reorganised into 34 mandals. Corresponding to the revenue mandals, Mandal Parishads were also formed which are coterminous with revenue mandals in all cases except that the statutory towns are not included in the jurisdiction of the Mandal Parishads one of the mandals Bandapalle has been formed by including villages from 3 erstwhile taluks. Eight mandals have got villages from 2 erstwhile Taluks. Each of the remaining 25 mandals has formed by taking villages exclusively from each of the erstwhile 12 Taluks (i.e. without including villages from a second Taluk).

c) Total number of Towns/Villages :

When compared, the list of villages at 2001 census with that of 1991, there is a bit of change in the total number of villages. Mirthivalasa hamlet of Burli Revnue village became a revenue village after 1991 census in Balijipeta mandal. Cheepurupalli town is declassified and three villages fully included in it are shown as revenue villages. Four census towns namely Gajapathinagaram, Jarjapupeta, Kothavalasa and Chintalavalasa have been come up in 2001 census and 4 villages fully included in them are deleted from the list of villages. As per 2001 census, this district has 2 revenue divisions, 34 mandals, 4 statutory towns and 8 census towns. The revenue division-wise mandals are furnished below :-.

Revenue Division-wise mandals

Sl. No.	Name of the Revenue Division	Name of the Mandal
1	Vizianagaram	1. Vizianagaram
		2. Gantyada
		3. Bhogapuram
		4. Denkada
		5. Pusapatirega
		6. Srungavarapukota
		7. Jami
		8. Kothavalasa
		9. Vepada
		10. Lakkavarapukota
		11. Nellimarla
		12. Gurla
		13. Cheepurupalle
		14. Garividi
		15. Merakamudidam
		16. Gajapathinagaram
		17. Bondapalle
		18. Dattirajeru
		19. Mentada
2	Parvathipuram	1. Parvathipuram
		2. Komarada
		3. Garugubilli
		4. Jiyyammavalasa
		5. Kurupam
		6. Gummalakshmipuram
		7. Badangi
		8. Therlam
		9. Salur
		10. Pachipenta
		11. Makkuva
		12. Ramabhadrapuram
		13. Bobbili
		14. Seethanagaram
		15. Balijipeta

At 2001 Census, the district constituted 1,524 villages and 12 towns. 25 villages are fully included in urban areas. Further 3 villages have also been partly included in urban areas. 69 villages have become uninhabited and 1,455 villages formed part of rural areas. A comparative statement showing number of villages, towns, uninhabited, partly and fully included villages in urban areas between 1991 and 2001 censuses is as follows.

Number of villages and towns existed during 1991 & 2001

Sl.No.	Subject	Census	
		1991	2001
1	Total No. of villages	1,548	1,524
2	Total No. of inhabited villages	1,458	1,455
3	Total No. of uninhabited villages	66	69
4	Total No. of Towns	9	12
5	Total No. of villages.		
	a. Fully included in urban areas	24	25
	b. Partly included in urban areas	2	3

(iii) Physical features of the District

General :

Vizianagaram district was formed on 1st June, 1979 with district headquarters at Vizianagaram by taking of some area of Srikakulam and Visakhapatnam districts, which presently surrounded the district from Eastern and Western sides respectively. Vizianagaram district is situated within the Geographical coordinates of a part of Northern Andhra Pradesh coastal plain and lies between 17^0 50` and $19^0$ 15` of the northern latitude and 83^o 00` and $83^o$ 45` of the eastern longitude. The altitudinal variation is from 24 metres in the mean sea level to 1670 metres above the mean sea level. The district is bounded on the east by Srikakulam district on the west and south by Visakhapatnam district on the southeast by the Bay of Bengal and northeast by Orissa state. The district extends over an area of the 6,539 Sq.kms. The total population of the district is 22,49,254, of which 18,36,859 are rural and 4,12,395 are urban population. The percentage of rural population is 81.67%, while that of urban population is 18.33 percent. SC population in the district forms 10.58% of the total population while ST accounts for 9.55%. The density of population is 344 per Sq.kms. and sex ratio 1009 per 1000 males. Out of the 210 towns in state 12 towns are located in the district. Among 23 districts in the state Vizianagaram district ranks 21^{st} in terms of area and 23^{rd} in terms of population. In other words Vizianagaram is the least populated district in the state. The literacy rate relates to population aged 7 years and above in Vizianagaram 51.07 and sex wise breakup is 62.37 for males and 39.91 for females in the district

Physiography:

The area transferred from Visakhapatnam district are mostly hilly and picturesque especially in the north. The agency track mostly consists of the hilly region covered by the Eastern Ghats, which run parallel to the coast from the north-east to south-west. The average height of these hills is over 914 metres although there are several peaks of even 1,219 metres high. The highest peak is the Shankaram in Srungavarapukota with 1,615 metres. The main hill ranges are Domakonda, Anikonda, Palakonda, Kodagandi and Gomatikonda. All these individual ranges form part of the Eastern Ghats. In Parvathipuram division, the hills are lower than elsewhere one consist of steep and rugged lines, devoid of plateau, hedging in the two broad almost parallel. Valleys of Vamsadhara and Nagavalli rivers which drain them southwards down into the Bay of Bengal. A line of mountain runs north south through the middle of this track and separates these two valleys. It is called "Kailasakota hills" and highest point on it is 1187.2 metres above the sea level. The hills on the west of the coastal plain consist of three main plateaus. The highest and largest of these, which is made up of the main line of the eastern ghats and runs parallel to the shore of the Bay of Bengal is usually known as the '3000 ft (914 m) plateau'.

Drainage :

Vizianagaram district is predominantly an agricultural district as 72.6% of the workers are engaged in agriculture and about 83% of the population of the district is living in rural areas and depended on agriculture for their livelihood. The principal rivers flowing in the district are Nagavalli, Vegavathi, Gomukhi, Suvarnamukhi, Valligedda, Champavathi, Gosthani and Vengalaraya sagar. Thatipudi Reservoir, Vegavathi project, Velligedda project, Nagavalli right side and left side channels, Pedamkalam ayacut, Seethanagaram ayacut are some of the medium irrigation projects in the district. At about 39,298 hectares of land is being irrigated in the district.

The Nagavalli is the main river, which flows in about 112 kms in Vizianagaram district covering an ayacut of 2832 hectares. The river Gosthani has its origin in Ananthagiri forest area and flows through Srungavarapukota and Jami mandals. The Suvarnamukhi river takes its birth in the hills of Saluru

mandal and takes an eastern direction and finally joins with Nagavalli in Palakonda mandal of Srikakulam district and the Vegavathi originates in Pachipenta hills of Pachipenta mandal and flows almost parallel to Suvarnamukhi covering an ayacut of 2428 hectares. There are no major irrigation projects in the district. However 11 medium irrigation projects are there with an ayacut of 39,298 hectares. Besides this, there are 901 PWD minor irrigation sources with an ayacut of 65,671 hectares and 8,719 minor irrigation tanks (P.R) with an ayacut of 69,025 hectares are existing. The details of ayacuts are as follows.

Table (a)
Details of ayacuts

Sl.No.	Name of the project	Area irrigated (in Hectares)
1	2	3
I	Major irrigation	NIL
II	Medium irrigation	
	1. Denkada ayacut scheme	2,061
	2. Tadipudi Reservoir	5,612
	3. Vottigedda Reservoir	6,746
	4. Paradi ayacut	3,671
	5. Surapadu ayacut	759
	6. Vegavathi ayacut	2,428
	7. Seethanagaram ayacut	1,666
	8. Nagavalli left side channel	721
	9. Nagavalli right side channel	2,111
	10. Peda Ankalam ayacut	3,523
	11. Vengalaraya Sagar project	10,000
	Total	**39,298**

Climate and Rainfall :

High humidity through out the year oppressive summer and good seasonal rainfall characterize the climate of Vizianagaram district. The summer season is from March to May. Followed by the Southwest monsoon season, which continues up to September, October and November constitute the post monsoon or retreating monsoon season. December to February is the season of generally fine weather. The climate of the hilly parts of the district in the west and northwest is different from that of the plains in that the hilly regions receive heavier rainfall and consequently cooler than the plains. The month wise maximum and minimum temperatures recorded at Vizianagaram in the year 1999 is given below..

Table (b)
Monthwise maximum and minimum temperatures in m.m., 1999

Temperature	Jan.	Feb.	March	April	May	June	July	Aug.	Sept.	Oct.	Nov.	Dec.
Maximum	26.7	30.2	32.2	33.1	32.8	31.6	31.3	31.6	31.1	30.6	28.6	27.1
Minimum	16.1	19.3	23.1	26.6	26.5	25.6	25.7	25.6	25.6	24.1	19.4	16.8

The normal annual rainfall of the district is 1158.0 mm. The district get the benefit of summer showers during hot weather period and get maximum rainfall in southwest monsoon period (June to Sept.) i.e. 642 mm. In the year 1999-2000 about 966 mm. rainfall has been recorded for the whole year. Moderate rainfall is received during the northeast monsoon period (Oct. to Dec.) i.e. 157 mm. The district received an average rainfall of 1350.5mm. during 1998-99 as against the normal rainfall of 1158 mm. The season wise rainfall for 1999-2000 is as follows.

Table(c)
Season-wise rainfall, 1999-2000

South-west monsoon (June-Sept.)	North-east monsoon (Oct-Feb.)	Winter period (Jan-Feb)	Summer period (March-May)	Total (June - May)
642mm	157mm	42mm	125mm	966mm

The season-wise and month-wise average rainfall recorded during the period from 1989-1990 to 1997-1998 is furnished below

Table(d)

Average rainfall, season-wise and month-wise for the years 1989-1990 to 1997-1998

(in m.ms)

Sl.No	Year	South west monsoon					North east monsoon				Winter period

***Source**: 1. Handbook of Statistics, Vizianagaram, 1997-98.*
2. District Census Handbook of 1991 census.

The above table reveals that the district has received least rainfall during 1993-1994, while highest rainfall received during 1989-90. Further it is stated that above the normal rainfall has been recorded during the year 1991-1992.

Forest:

The total forest area in the district is 1,11,979 hectares, constituting 18.0% of the total Geographical area of the district. Cashew, Timber, Bamboo, Beedi leaves and fuel plantations are being raised in large extent to increase the forest wealth and to provide gainful employment to the tribals. The total area of the forest is controlled by 4 forest divisions in the district i.e. 1. Vizianagaram forest division 2. Parvathipuram forest division 3. Salur forest division and 4. Kurupam forest division. The total 'C' fees collection relating to divisional forest office during the year 1998-1999 is Rs.3,92,000.

The species-wise area planted is given in the following table.

Table(e)
Species-Wise Area Planted (In hectares)

Sl.No.	Year	Forest product	Total	Grand total
1	2	3	4	5
1	1995-1996	Bamboo	200	820
	-	Other	620	
2	1996-1997	Bamboo	175	1445
	-	Other	1,270	
3	1997-1998	Bamboo	175	1450
	-	Other	1,275

The division-wise value of major and minor forest produce during the year 1997-98 is as follows :

Table(f)
Value of major and minor forest product, 1995-98 (Rs. In Lakhs)

Sl. No	Year		Major forest product		Minor forest product		Miscellaneous	Grand total
			Timber	Fire wood	Bamboo	Other minor forest product		
1	2		3	4	5	6	7	8
1	1995-96	Logging	21.56	0.43	6.13	-	6.98	35.1
		Regular	-	-	1.41	26.9	-	28.31
2	1996-97	Logging	9.03	0.51	5.92	-	6.71	22.17
		Regular	0.81	0.06	1.05	46.97	-	48.89
3	1997-98	Logging	3.01	1.73	11.98	-	27.53	44.25
		Regular	0.69	-	0.92	34.87	-	36.48

The product wise forest revenue is given in the following table :

Table(g)
Product-wise forest revenue in the district

(in.Rs.)

Sl.No.	Name of the Revenue under item	Revenue realised
1	2	3
1	Timber	1,92,435
2	Bamboo	2,49,260
3	Beedi leaves	13,12,540
4	Cashew & M.F.P	14,95,016
5	G.C.C. rentals	37,85,988
6	Receipts from other plantations	10,500
	Total	**70,45,739**

***Source** : i) District Collector write up material*
ii)Handbook of statistics, vizianagaram, 1997-98.

Flora and Fauna:

The floristic composition of the forest of the district is of much interest. The forest types formed in the district are 1. Southern tropical moist mixed deciduous forest 2. Northern tropical dry deciduous forest 3. Southern tropical dry mixed deciduous forest 4. Dry deciduous green forest 5. Dry ever green forest. The forest plays an important role in the economy of the district.

Fauna in the district is fairly high in the interior hill region, but it is heavily threatened with extinction. The reasons for the depletion are mainly shrinkage of habit and uncontrolled poaching. The principal animals and birds from the seacoast to the high plateau are Yellow bat, Sloth, Bear, Wild buffalo, Fox, Jackal, Mongoose, Hare, Hyena, Leopard, Squirrels, Barking deer, Tigers and birds are Ashy long tail warbler, Black ibis, Blue rock pigeon, House crow, House sparrow, Common mynapitta etc., Consequent with the enactment of the wild life protection act of 1972, it is hoped that wild life would improve and retain the past glory.

Mining and Minerals :

The important minerals available in Vizianagaram district are Manganese, Quartzite, Moulding sand and Limekankar, which are extensively exploited by various entrepreneurs. Among these minerals manganese is widely distributed and the mining of manganese is started from the pre-independence period. At present 41 mining leases are in force covering a total extent of 750.00 Acres. Manganese mineral occurs in Garividi, Merakamudidam, Cheepurupalle, Dattirajeru, Ramabhadrapuram, Salur and Bobbili Mandals. The mineral limekankar mostly occurring in cultivable lands at a depth of 1 to 1.5 mts. below the ground level, it is distributed in Merakamudidam, Pusapatirega, Gurla, Cheepurupalle and Dattirajeru mandals. The mineral quartzite, which is useful in Ferro Alloys industries and it is distributed in Kothavalasa, Jami, Vepada, Parvathipuram, Dattirajeru etc., mandals. There are garnet enriched, silica enriched sands also available at some parts of the river coarse of Champavathi, Vegavathi etc., rivers in the district. Apart from these major minerals, vulnerable deposits of white granites are distributed in the mandals of Makkuva, Parvathipuram, Gajapathinagaram etc., of the district.

Manganese, Quartzites, Moulding sand is utilised in the Visakhapatnam Steel Plant and local ferro alloys factories. The limekankar is being used by M/s Ferro Alloys Corporation, Sreeramnagar and certain quantity is also being supplied to Zinc Plant, Visakhapatnam. Manganese is exported to Korea through Visakhapatnam port.

The annual production of Principal Minerals are as follows:

Table(h)
Major and minor minerals produced during 1996-97 to 1998-99

Sl.No.	Name of the mineral	Period from 1996-1999 year							
		1996-1997		1997-1998		1998-1999		Value in Rs. lakhs

***Source**: Hand Book of Statistics, Vizianagaram 1997-98.*

Soil:

The common soil is a brownish to pinkish coloured ferroginous clay and loam. There is extensive area of grey to grayish black lumic soil of good fertility. Red soils, sandy loams and sandy clay and they constitute 96% of the total area. The soils in the district are predominantly loamy with medium fertility as far as dry lands are concerned. The red loamy soils and clay loamy is noticed in the case of wet lands. The soils at places as thick as 4 metres. It is likely that the thick soil cover might represent alluvium along the valleys. Different types of rocks are in abundance in the district.

Agriculture:

Vizianagaram district is a predominantly agricultural district as 72.6% of the workers are engaged in agriculture and about 83% of the population of the district is living in the rural areas and depend on agriculture for their livelihood. Rain fed farming is the characteristic of agriculture in the district as about 80% of its area is cultivable under purely rain fed condition. Even the rest of the area is mostly depended on the rainfall received in the district. In view of the unassured irrigation conditions in the district majority of the crops grown are dry crops. Paddy crop is cultivated mainly during Kharif season with 80% of its area under tank fed conditions, which in turn depends on the local rainfall. The super crops that are grown in the district besides Paddy are Mesta, Groundnut, Ragi, Bajra, Sugarcane and pulses. Due to erratic rainfall generally received in the district. The average yields obtained in the district are low. The pattern of land utilisation in the district for the year 1999-2000 is as follows.

Table(i)
Land Utilisation for the Year 1999-2000

Sl.No.	Type of utilization	Land utilisation 1999-2000 (in hectares)
1	2	3
1	Forest	1,11,978
2	Barren and uncultivable land	77,756
3	Land put to non-agriculture use	75,356
4	Cultivable waste	4,901
5	Permanent pasture and other Grazing lands	6,930
6	Land under miscellaneous tree crops and grove not included in net area sown	7,909
7	Current fallows	15,613

Table(i) (Concld..)

8	Other fallows land	4,794
9	Net area sown	3,33,559
10	Total Geographical area	6,30,038
11	Total cropped gross area	4,57,808
12	Area sown more than once	1,28,352

As already stated that the paddy is main crop in the district followed by Maize, Jowar, Bajra among cereals. Some crops are raised in Kharif and Rabi seasons, while some are in one season according to cropping season. The following table describes about area under principal crops and out turn yield for the year 1999-2000.

Table(j)

Agricultural Machinery and Implements that are being used in Vizianagaram district for the year 1999-2000 are shown in the following table.

Table(k)
List of Agricultural Machinery & Implements

Sl.No.	Name of the Machinery/ implements	Number of Machineries
1	2	3
1	Ploughs	1,14,781
2	Diesel Engines	2,105
3	Electric pumps	6,691
4	Tractors	264
5	Sugarcane Crushers	349

Irrigation :

There are no major irrigation projects in the district. There are 11 medium irrigation projects with an ayacut of 39,298 hectares. Besides this there are 901 P.W.D minor irrigation sources with an ayacut of 65,671 hectares and 8,719 minor irrigation tanks (P.R) with an ayacut of 69,025 hectares. The net area irrigated by canals is 33,641 hectares, whereas through tanks it is 89,277 hectares, by wells 12,072 hectares, by lift 987 hectares and by other sources 1,711 hectares. Out of the Gross area of 1,61,308 hectares shown in the district, 1,37,678 hectares were irrigated and 23,630 hectares were irrigated more than once. The area irrigated by source are given below.

Table(l)
Area irrigated by different sources

Sl.No.	Source of Irrigation	Area in Hectares
1	2	3
1	Canals	33,641
2	Tanks	89,277
3	Tube Wells + Filter Pins + Other Wells	12,072
4	Lift Irrigation	987
5	Other sources	1,711
6	Net area Irrigated	1,37,678
7	Gross area Irrigated	1,61,308
8	Area Irrigated more than once	23,630

Animal Husbandry :

Vizianagaram district plays a vital role and position having good number of Cross breed animals, poultry farms, pig breeding station and also supplying milk through Sri Vijaya Visakha Co-operative Dairy, Visakhapatnam. In addition to the livestock improvements, there are two fodder development farms maintained to supply fodder one at Kottakki in Ramabhadrapuram mandal and the other at Garividi. There are 142 Veterinary institutions present in the district for control of epidemics, treatment of sick animals and supply of livestock fodder etc. as on 31.3.1998.

As per 1998 Live Stock Census, the particulars of livestock are given below.

Table (m)
Live stock and poultry population - 1998

Sl.No.	Name of the livestock	Population
1	2	3
1	Cattle white	4,51,342
2	Buffalos black cattle	2,74,499
3	Sheep	4,23,000
4	Goats	1,98,771
5	Cross breed	57,925
6	Pigs	4,026
7	Horse ponies	42
8	Donkeys	104
9	Dogs	46,874
10	Ducks	1,627
11	Poultry	18,89,648
12	Others	7,093

The following veterinary institutions are functioning in the district.

Table (n)
Number of Veterinary institutions

Sl.No.	Name of the Division	Veterinary poly clinics	Veterinary Hospitals	Veterinary Dispensaries	Rural live stock units	Total
1	2	3	4	5	6	7
1	Vizianagaram	1	11	45	85	142

The milk productions achieved during the year 1997-98 is given in the following statement.

Table(o)
Dairy Development 1997-98

Sl.No.	Particulars	Unit	Year 1997-98
1	2	3	4
1	Milk chilling centres	No.	3
2	Milk collection centres		
	a .Co-operative units/ societies	No.	162
	b.Pickup centres(private)	No.	258
3	Average monthly procurement	('000 ltrs)	16,14,700
4	Average monthly sales	-do-	1,51,860
5	Average procurement price	(price-per litre in Rs.)	8.50
6	Average sale price	-do-	11.50

Number of technical persons who are involved to undertake development services are furnished here under.

Table(p)
List of technical staff

Sl.No.	Type	Number of posts

Fisheries :

There is a coastline of 28 kms. in the district with an area of in-shore and offshore belt. There are 29 marine fishing villages and 18 hamlets situated in Pusapatirega and Bhogapuram mandals with a population of 55,085 persons consisting 2.61% of the total population of the district. The Tirumala Fusitech Aqua farm in private sector at Chintapalle is a production cum rearing farm for prawn culture. The number of active fishermen is 3,650. Indigenous crafts i.e. Catamaran's and stitched boats are in existence. The annual landing of marine fishery is of the order of 10,012 M.Tonnes. Besides sea fishing there are a good number of inland water sources i.e. 199 major irrigation tanks under the control of Fisheries Department and 5 Reservoirs also under the control of Fisheries Department and area for stocking and development of fresh water fishery. In the district there are 14 reservoirs and 7,500 tanks out of which 1,450 tanks are perennial, 840 tanks are long seasonal, and 5,210 are short seasonal. The cultivable water spread area is 13,675 hectares for which a quantity of 170.25 lakhs major carps seed is required for staking. The approximate inland fishery production from the cellivable above water is estimated as 30,649 metric tonnes.

Table(q)
Inland Fish Production during 1995 - 98 (in M.Tonnes)

Sl.No.	Name of the species	Production		
		1995-96	1996-97	1997-98
1	2	3	4	5
1	Barbus	100.00	120.00	130.00
2	Carps	15.00	17.00	18.00
3	Catfishes	51.00	53.00	55.00
4	Murrels	200.00	210.00	220.00
5	Mullets	150.00	200.00	210.00
6	Prawns	14.00	15.00	16.00
7	Miscellaneous	27,000.00	28,000.00	30,000.00
	Total	**27,530.00**	**28,615.00**	**30,649.00**

Fish Seed Production :

There are three Fish Seed Production Centres in Vizianagaram district, two at Vizianagaram and the other one at Dummangi. Every year quick growing carp seed is being imported, produced and reared in these farms and supplied to the Fishermen Co-operative Societies, grampanchayat and private fish culturists through Development Blocks.

Table(r)
Marine Fish Production during 1995 - 98 (in M.Tonnes)

Sl.No.	Name of the Species	1995-96	1996-97	1997-98

Industries :

The economy of Vizianagaram district is predominantly an agricultural one. Industrial development in the district has been generally agro based viz., the establishment of Jute Mills at Nellimarla, Vantitadi Agraharam and Salur, Sugar industries at Bobbili and Seethanagaram. Besides the above major agro- based industries, there is an Ferro Alloys Limited at Sreeramnagar of Garividi mandal. There are also resources based industries such as bricks and tiles making around Kothavalasa, blue metal quarry work in Vizianagaram and Nellimarla mandals. Industrial establishments such as general engineering motor workshops, Groundnut oil mills, Rolling mills, R.C.C spun Pipes, Sawmills, Alluminium utensils, Steel manufacturing, Trunk box making and Body building of Cycle rickshaw etc.

Sagar cement factory is situated in Karasavalasa village in Salur mandal, besides this Goldstar steel and alloy limited is situated in Srirampuram village of Lakkavarapu Kota mandal.

There are 17 large and medium scale industries established in Vizianagaram district with an investment of Rs. 435.65 crores and providing employment to 12,134 persons. These industries are engaged in the manufacturing of Jute twine, Ferro Alloys, Leather, Sugar, Pharmaceuticals, Chemicals, Oils, etc.

There are about 3,206 industrial units (Small Scale Industries, Tiny and S.S.S.B.E) registered permanently with District Industries Centre, Vizianagaram with an investment of Rs. 63.01 crores and providing employment to 25,725 persons. The Andhra Pradesh Industrial Infrastructure Corpn, has established industrial estate at Vizianagaram, Industrial Development Area at Nellimarla and Growth Centre at Bobbili.

Public Sector :

Nizam Sugar Factory, a Government of Andhra Pradesh undertaking is established with a capital investment of about Rs. 39 crores, employing about 700 persons. It is located at Latchayyapeta village in Seethanagaram mandal and engaged in the manufacturing of sugar. The particulars of large and small scale units, products manufactured, employment and installed capacity are furnished below.

Table(t)
Large Scale Industries

Sl.No.	Name of the Industry	Installed capacity in tonnes	No. of Units	Employ-ment
1	2	3	4	5
1	Sugar industry	9,165.50	-	1,289
2	Jute industry	9,226.96	-	7,002
3	Cotton spinning	3,309.50	-	452
4	Ferro Alloys	22,248.45	-	2,842
5	R.T.C Work shop	967.45	-	621
6	Leather Tanners	825.00	-	-
7	Steel Alloys	7,000.00	-	-
8	Tyre M.F.G	2,056.00	-	-
9	Pharmaceutical	2,500.00	-	280
10	Trading Rice mill	115.82	107	-
11	Non-trading Rice Mill	1,186.00	631	-

Table(u)
Small Scale Industries

Sl. No.	Name of the Industry	Investment (in Lakhs)	No. of Units	Employ-ment
1	2	3	4	5
1	Food products	1,403.794	851	8,543
2	Beverage, Tobacco and Tobacco products	15.760	18	110
3	Cotton textile	304.108	8	385

Trade and Commerce :

There are 22 regulated markets including others to which the agricultural commodities grown are brought for sale through Agriculture Market Committees. These 22 regulated market committees are functioning in the district. The information relating to trade and commerce for the year 1998-1999 is as follows.

1. Revenue realised during the year 1998-1999 — Rs. 2,356.89 lakhs
2. Revenue realised during the previous year 1997-1998 — Rs. 2,276.15 lakhs
3. Raise — (+) 77.76
4. % of Growth — (+) 3.41%

Further the commodity-wise revenue realised for the year 1998-1999 on important commodities is given in the following table.

Table(w)
Commodity-wise revenue realisation, 1998-99.

(Rupees in Lakhs)

Sl.No.	Name of the commodity	No. of dealers	G.T.O 98-99	E.T.O 98-99	N.T.O 98-99	Tax 98-99

Transport :

Vizianagaram, the headquarters of the District and Revenue Division and also Mandal of the same name is an important Railway station on South-eastern railway and connects the Raipur- Vizianagaram line with the Howrah - Chennai line. The railway line linking Chennai and Kolkata broad guage traverses 24 railway stations covering with 223.13 Kms. through 19 mandals i.e. Kothavalasa, Lakkavarapukota, Srungavarapukota, Jami, Vizianagaram, Denkada, Nellimarla, Gurla, Garividi, Cheepurupalle, Bondapalle, Gajapathinagaram, Dattirajeru, Salur, Badangi, Bobbili, Seethanagaram, Parvathipuram and Komarada mandals and several passenger trains and number of fast moving prestigious trains pass through this line from Hyderabad to Kolkata and Chennai to Kolkata. Number of goods trains from Jabalpur and Balharsha and Hyderabad to Bilaspur also pass through this important railway line.

As regards the transport and communications as on 31 March 1998, the total road length in the district is 3,763.976 kilometres maintained by National Highway, R&B and Zilla Praja Parishad together. The district has 28 kms. long coast line. National highway No. 5 and 43 pass through the district. Apart from these, there are State Highways linking Vizianagaram with Rayagada (in Orissa State). Out of this, 12.704 kms. is cement concrete, 110.902 kms. is Black topped, 1348.861 kms. is Metalled and 1,291.509 kms. is un-metalled. The Andhra Pradesh Road Transport Corporation, Vizianagaram presently have 3 Bus Depots with 390 buses plying. The headquarters of 3 depots are 1. Vizianagaram 2. Salur and 3. Parvathipuram. The number of various motor vehicles that are plying in the district as on 1999 are presented here-under.

Table(x)

List of showing different types of motor Vehicles plying on roll and on road, 1999

Sl.No.	Name of the vehicle	On Roll	On Road
1	2	3	4
1	State Carriages		
	a. A.P.S.R.T.C	390	390

18	Others	15	5

The bus routes in the district are mostly nationalised and the A.P.S.R.T.C is running its buses with the following vehicular strength.

1.Date of Nationalisation : 12.11.1987

2.No. of schemes proposed at the time of nationalisation : 148

3.No. of permits held by A.P.S.R.T.C.: 320

The A.P.S.R.T.C is paying taxes @ 15% on their gross earnings.

In addition to this the department has collected following amounts towards the taxes, fees and compounding fees etc., during the year 1998-99 and 1999-2000.

Table(y)
Revenue collected towards the taxes, fees and compounding fees in crores of rupees

Year	Target fixed	Target achieved	Percentage	Remarks

(iv) Major social and cultural events, natural and administrative developments and significant activities during the decade

No significant social and cultural events have occurred in the district during the decade 1991-2001. Even in respect of natural and administrative developments, no changes have taken place during the past ten years. The Revenue Divisions, mandals, number of villages and the number of towns remained unchanged.

In respect of significant activities, the prevention of Child Labour, Social Security Schemes, Janmabhoomi, Cheyutha and Spandana programmes are worth mentionable in the district during the decade.

A society called 'Bala Karmika Vikasa Samithi' was constituted in the year 1996 under the chairmanship of the District Collector. The main aims and objectives of the Samithi are conducting surveys on vulnerable child labourers in hazardous occupations, creating awareness among the public about the steps taken by the Government to eliminate child labour, implementing programmes like creating public awareness, running special schools, imparting non-formal education and generating income and employment opportunities, etc.

The Social Security Schemes such as payment of pensions to the aged, widows, landless agricultural workers and physically handicapped persons are implemented in the district. During the period from 1990-91 to 1995-96, the total number of old age pension beneficiaries were 31,416 persons. Under the widow pension scheme 3,000 persons were benefitted each year from 1994-95 to 1997-98. In respect of the scheme of pension to landless agricultural worker of 60 years and above age, during the period from 1991 to 1996 a total number of 1,56,746 persons were benefitted.

A novel scheme called "Janmabhoomi" has been launched on the new years day 1997 by the Government of Andhra Pradesh. This adds a new dimension particularly in rural development in the sense that people are involved in decision making and development process. The main activities taken up under this programme are aimed at achieving the basic needs of the people belonging to both rural and urban through 'Sramadhanam' with the people's participation. Under this scheme from the date of its starting upto 1997-98 the following works were taken up.

Number of works sanctioned (including Prajala Vaddaku Paalana and Sramadhanam)	=	5,650
Estimated value	= Rs.	58.09 Crores
Government share	= Rs.	42.41 Crores
Works completed	=	5,049

With the inspiration of Janmabhoomi programme, 'Spandana' another novel scheme totally envisaged by the district administration for the overall development of villages has been taken up. In the district under this scheme, the following programmes are under implementation.

1. Education for all
2. 100% sterilisation of one of the partners of the eligible couple.
3. Ensuring usage of bio-gas plants/smokeless Chullas by all families
4. Implementation of clean villages concept

Yet another novel programme totally envisaged by the district administration for benefitting the physically handicapped in the district is 'Cheyutha'. All the Government officials connected with the physically handicapped will sit under one roof and do the needful then and there. The benefits such as issue of physically handicapped certificate by the Medical Board, RTC passes, Railway passes, Registration in Employment Exchange, etc., were extended besides giving aids and appliances to the identified handicapped persons.

(v) Brief description of places of religious, historical or archaeological importance in villages and places of tourist interest in the towns of the district

Place of religious institutions (temples), charitable institutions, Mutts and historical or archaeological importance in the district are presented in the following statements.

(a) Place of Religious, Historical or Archaeological Importance:

Sl.No.	Name of the Mandal	Name of the Village/ Town	Name of the monuments/temples/Mutts
1	2	3	4
1	Garugubilli	Thota palli	* Sri Venkateswara and Kodandaramaswamy Temples
2	Vizianagaram	1 Vizianagaram	**1.SriKanyakaparameswari Devasthanam
			**2.Sri Pydithalli Ammavari Temple
			3.Maharaja Alakanarayana Society of Arts & Science trust
			4.Sri Bavaji Mutt
		2 Hukumpeta	Sri Niranjana Beekandas Mutt
3	Bobbili	Bobbili	War Memorial Pillar

* *This institution is having an income of rupees one lakh and above per annum.*

** *The institutions are having an income of rupees twenty thousand and above but less than rupees one lakh per annum*

(b) Places of Tourist interest in the district

1. Ramathirtham, Nellimarla Mandal: Sri Ramaswamy vari temple: This village is also popularly known as Ramathirthalu situated at a distance of about 13 kilometres north-east of Vizianagaram Town. The history of the place denotes back to "Dwaparayugam" and the history of the temple denotes back to about 500 years ago when Sri Sitharamachandra Raju was ruling the Vizianagaram kingdom from kumili a nearby village of Ramathirtham. The idols of Sri Seetharama and Lakshmana at Ramathirtham and worshipped till the

end of exile of 12 years and handedover these idols to Vaikhanna pandit for worship. In this village, there is a hill called 'Bodikonda' on which ruined brick shrines in which three images of Jain Tirthankaras are found, neatly carvedout of the local rock. In addition to this there are a number of sculptures on this and the other hill nearby. An inscription of the Eastern chalukyas is also noticed. Sri Kodandaramaswamy temple was constructed by local devotes on the hill. There are Gundams (springs) near the temple. The depth of big gundam is said to be unmentionable. The climate of excessive heat in the village is said to be due to the presence of more Sulphur deposits in the bottom layers of the hill. It is still in existing picnic portion from Vizianagaram. Piligrims and devotees visit the temple during Karteekamasam and Mahasivaratri festival to fulfil their vows.

2. Punyagiri Village, S.Kota Mandal: Sri Daragangamma and Sivalayam Temple: This ancient temple is situated on the hill known as Punyagiri in the valley of Eastern ghats at a height of 1000 feet above sea level. Srungavarapukota the mandal head quarters is at a distance of about 3 kms. from Punyagiri hill. The place is known for its waterfalls and valleys with beautiful surroundings of nature. The idol of Siva is ancient. The water emanate from the idol develops as natural spring (Puttudara) anise divine Ganga is one of the consortia of Lord Siva and the Goddess of water. This holy place is also associated with the miracles of Lord Siva and called as "Dharagangamma and Sivalayam".

On the way to Sivalayam on the hill, there is a ghat known as "Kotilingalu". The religious minded persons believe that the immersion of the past remains (bones) of the departed kith and kin in the waters of ghat will result in salvation to the departed souls. On the right side of the way to hill, there is another waterfall known as "Chinna Puttudara". Large number of devotees and pilgrims congregate for 3 days on the occasion of Mahasivaratri festival for worship and fulfillment of vows. Punyagiri is not only a place of pilgrim centre but also a place of Tourist importance.

3. Dharmavaram Village, S.Kota Mandal: Sri Sanyaseswara Swamy Temple: Lord Eswara appeared on the spot in disguise as an aesthetic (Sanyasi) attacked the evil spirit with his weapon "Trisulam" killed here and burried her in the ground. Lord Eswara is a Swayambava on the spot known as Sri Sanyaseswara swamy. Lord Sanyaseswara swamy is famous in these parts of the area as a boon-given of childbirth. The barren couples visit the temple and they name their progeny after Sanyasi when the vow is fulfilled. The devotees offer their Talaneelalu (human hair) to the lord in fulfilment of other vows. The idol of Eswara is usually in the shape of Lingam but here, the Lingam is in the shape of Eswara(bust of Eswara).

The temple is situated amidst the fields of the village. The villagers of the area got the deity anointed (Abhisekham) with milk supplied by them on every Monday. Mahasivaratri festival is celebrated on grand scale for 5 days and large number of devotees visit the temple during the period of this festival. Sri Rajah Saheb of Vizianagaram is the Hereditary Trustee of the temple.

4. Govindapuram Village, Poosapatirega Mandal:(Muktidam): Sri Santhoshimatha and Ananthalingeswara Swamy etc. temples: There is a temple complex situated 2 kms. from the nearest village Govindapuram in Poosapatirega mandal. It consists of main temple for "Ananthalingeswara swamy" and other subsidiary temples. It is situated 36 kms, away from the Vizianagaram railway station in a remote poverty stricken area.

The temple has been built in 1986 by Smt.P.Kanakamma garu who is a mystic and has a band of devotees with her own resources on her own land. She performed the pratista. There is no particular sampradaya. It runs under the private management. There is a Geethamandiram which attracts the Tourists. Large number of devotees visit the temple in Karteekamasam. Govindapuram is not only a place of pilgrim centre but also a place of Tourist importance.

5. Tatipudi Village, S.Kota mandal : There is a big reservoir in this village which has been developed as a picnic spot. It attracts a large number of tourists.

6. Vizianagaram town and Mandal : Sri Pydithalli Ammavari Temple: Rajah Saheb of

Vizianagaram is the hereditary trustee (now founder trustee) of the temple. The temple is situated in the heart of the town by the side of the road leading from the centre of three lanterns to the railway station. The famous fort of Vizianagaram rulers is situated behind the temple. Sri Pydimamba is the presiding deity of Vizianagaram and the protector of the fort. Sri Pydithalli Ammavaru is a household name in Vizianagaram town and in the surrounding villages.

Sirimanu festival is celebrated annually for one day on grand scale to propitiate goddess "PYDIMAMBA". Devotees visit the temple in large number on the occasion. The festival had been celebrated by Zamindar 300 years ago. Sirimanu is a tree trunk with 60 feet long and 2 feet girth at the bottom.

7. Bobbili town and Mandal : Sri Venugopala swamy temple: Rajah of Bobbili is the hereditary trustee of the temple. The temple is situated in the heart of the town. This is an ancient temple and Lord Sri Venugopalaswamy varu is the presiding deity. Large number of devotees visit the temple in Bheeshma Ekadasi festival and other auspicious days.

8. Thotapalli Village, Garugubilli mandal : Sri Venkateswara and Kodandaramaswamy temple: The temple was constructed on the bund of the river Nagavali below Thotapalli Regulator. Facilities like choultries and mandapams are provided to the pilgrims by the temple management.. The annual Kalyanam festival of the deity takes place in the month of Maghamasam according to Telugu month. Large number of devotees visit the temple in Karteekamasam and auspicious days. It is also a picnic spot.

(vi) Major characteristics of the district, contribution of the district in the form of any historical figure associated with the district

The district Vizianagaram has derived its name from its headquarters town Vizianagaram. At the time of inception of the Vizianagaram fortress, there were five 'Vijayas' or signs of victory present. It was named as 'Vijayanagaram' (place of Victory) after its founder Vijayarama Raju, and the foundation was laid on Tuesday (also known as jayavaaram), on the tenth day of Dasara festival (Vijaya Dasami) and in the fear of 'Vijaya' of the Hindu calendar, A.D 1713.

For administrative convenience, the district Vizianagaram was carved out from Visakhapatnam and Srikakulam districts on the 1st of June, 1979.

Vizianagaram district is traditionally a rich educational and cultural centre having much historical background in these fields. The district occupies a unique place in the entire state as a centre of music and fine arts.

In the galaxy of men of letters in Andhra Pradesh the Rajas of Vizianagaram occupy an honoured place as patrons of literature, arts and culture. It is on record that Pusapati Tammi Raju, the first Raja, had several great poets in his court, the chief of whom was Neeladri Kavi. Vijayarama Gajapathi I extended patronage to several poets. Similarly Maharajah Ananda Gajapathi Raju of Vizianagaram, patronized eminent poets and scholars and had the distinction of having been called 'Abhinava Andhra Bhoja',as the 'Harikatha A very good number of reputed writers of modern period belongs to Vizianagaram district. A brief sketch of some of them are narrated as under.

Gurajada Appa Rao (1861-1915)

An epoch making poet, playwright and social reformer belongs to this district. He was a teacher of literature, history and philosophy and a great research scholar.

Adibhatla Narayanadas (1864-1945)

Sri Narayanadas was an exquisite poet, a versatile genius conversant with English, a profound scholar in Telugu and Sanskrit and an accomplished musician of the most enchanting type. He evolved and developed 'Harikatha' in Telugu and acclaimed Pitamaha'.

Dr. Pusapati Vijayarama Gajapathi Raju (P.V.G.Raju) (1924-1995)

Dr. P.V.G.Raju was a founder of many educational institutions in Vizianagaram, is well known for the public as Rajah Saheb. He endowed properties worth about fifty crores of rupees including the ancient fort with palatial buildings called 'Round Mahal and Motimahal' in Vizianagaram. As a parliamentarian, as a minister in Government of Andhra Pradesh and as a philanthropist, he excelled all his contemporaries.

Thus the district enjoys an enviable position in regard to promoting the cultural and literary activities.

(vii) Census Concepts

Population census is a great national task, which we are called upon to undertake for every ten years. In India, the 1872 marked as the beginning of modern census taking, when it was conducted at different points of time in different parts of the country. From 1881 onwards a complete and synchronous census was held. The present Census is a land mark administrative event, as this has generated a historic bench mark data to shed light on the state of nation's society and other demographic, economic and socio-cultural data which simultaneously makes transition from one century and millennium to the next. The 2001 Census was the 14th decennial Census of India and the 6th after independence.

The Census of India was conducted in two phases namely, I) House-listing Operations II) Population Enumeration. The first phase was conducted during April-June,2000 in different States/Union territories depending upon their local conditions. In Andhra Pradesh it was conducted from 11th May to 5th June 2000. The house-listing operations provide a base for the population enumeration, besides providing comprehensive database for assessing condition of human settlements, the housing deficit and future housing requirement for formulation of housing policies. This also provides a massive data on amenities available to the households which was much needed by various departments of the Central and State Governments and other Non-Governmental agencies, for planning and development in different sectors of the economy. Hence house-listing operation is a pre-requisite for population enumeration.

Unlike 1991 census, there are significant changes in house-listing schedule for 2001 census. The questions on condition of the census house, number of married couples living in the household and having independent room for sleeping, bathroom and kitchen within the house and using the means of entertainment and communication facility of radio, transistor, television, telephone and possessing of means of transport like bicycle, scooter/motor cycle, car/jeep/ van and availing of banking services by the household are added to the present house-list schedule.

The main population enumeration was conducted from 9th February to 28th February, 2001, followed by revisional round from 1st March, 2001 to 5th March, 2001, to update the data with reference to 00.00 hours of 1st March, 2001. The houseless population was enumerated at midnight of 28th February 2001.

The household schedule and individual slip of 1991 census were replaced by household schedule of A3 size containing three parts to collect the information from each household at 2001 Census. In the present Census, the house-hold schedule is designed in such a way to suit the requirement of capturing the data through scanners. At the 2001 Census, for the first time **Image-based data capturing technology through scanners and computer network has been introduced** with a view to provide error free data by avoiding keying in of data.

The house-hold schedule broadly covered the individual particulars under four major headings 1) General and Socio cultural characteristics (Q(1 to 15), 2) Characteristics of workers and non-workers 3) Migration characteristics (Q.21 to 22)and 4) Fertility particulars (Q.23). Part-I deals with location code particulars, Part-II relates to Individual particulars with 23 questions, consisting of 1 to 39 columns, Part-III covers on cultivation/plantation particulars like land possessed, type of tenancy enjoyed by the household/ household member. Some additional questions 1) on disability, 2) Particulars relating to travel to the place of work a) distance from residence to place of work, b) mode of travel to the place of work, 3) household engaged in cultivation/plantations are added in the present household schedule.

Marital status, mother tongue, religion and literacy status (for 7 and above) migration, fertility particulars and the identification of SC/ST are repeated but the age at marriage is also ascertained for males at 2001 Census. For the people, who are attending educational institutions, a separate code has been provided to

record the Vocational institute, other institute and literacy centre in addition to school/college.

Criteria for enumeration of persons in a particular household :

a) All those who normally reside and are present in that household during the entire period of enumeration from 9th February to 28th February, 2001, b) also those who are known to be normally residing and had actually stayed during a part of the enumeration period (Feb.9th to 28th Feb.2001) in the household but are not present at the time of enumerator's visit, c) also those who were known to be normally residing and are not present at the time of enumerators visit but are expected to return before 28th Feburary,2001 and d) Visitors who are present in the household censused and are away from the place of their usual residence during the entire enumeration period. For the purpose of enumeration, such visitor will be treated as normal resident of the household in which they are actually found during the enumeration period provided that they have not been enumerated elsewhere. One of the essential features of population enumeration in the second phase is each person enumerated and her/his individual particulars are collected at a well defined point of time.

Location Code Number :

The procedure of assigning location code number in a zigzag manner starting from North-west corner and ending at South-east corner, is adopted for 2001 Census. The Andhra Pradesh state was assigned Location Code No.28 as against 02 in 1991 census. In a similar fashion, the location code numbers of the districts in Andhra Pradesh state have been changed and revised location code numbers were allotted in order of geographical contiguity, beginning from North-West point of the state and ending at the South East point. Thus the Adilabad district has been assigned Location Code No. as 01 and Chittoor district Location Code No. 23 at 2001 Census. Accordingly, the location code numbers of mandals in each district have been changed for 2001 census.

An important change at 2001 census is allotment of permanent location code numbers to all the villages in the state. Since the whole data ie., Village and Town Directory information is also being computerized, the allotment of permanent location code numbers would facilitate the data users for easy access and retrieval the data of a particular village at micro level by the click of a mouse. The Permanent Location Code Number (P.L.C. No.) is an eight digit number starting with 00000100 in a zig-zag fashion from North-West corner in the first Mandal of Adilabad district and run continuously for all the districts while ending South-East corner to the extent possible at last village in the last Mandal of Chittoor district. Since this State has 28,123 villages at 2001 census, last village of last mandal in Chittoor district will have PLC No.02812300. A significant provision has been made to allot PLC Nos. to newly created villages if any in future. The last two digits of PLC No's are kept as '00' only to provide for additional villages. For example a new village has been created after PLC.No.01231400 it will be assigned PLC No. as 01231401. Further, it is indicated that there is a provision for a minimum of 99 villages adjoining to a particular village allotting Permanent Location Code.

For urban areas also location code structure has been changed in a minimum way. Earlier, for towns in a district location code numbers were given roman letters in alphabetical order. This time, while assigning roman numbers instead of going to alphabetic order, location code numbers were given from North-West part of the district ending at South-East of the district to the extent possible.

Therefore, the PLC numbers of the villages and location codes of urban areas have under gone change in Census of India, 2001 as compared to 1991. In case an urban area is spread over in two districts, the location code of urban areas in both the districts will be the same irrespective of zigzag manner.

Building :

A `Building' is generally a single structure on the ground. Sometimes it is made up of more than component unit which are used or likely to be used as dwellings(residences) or establishments such as shops, business houses, offices, factories, workshops, worksheds, Schools, places of entertainment, places of worship, godowns, stores etc. It is also possible that building which have component units may be used for a combination of purposes such as shop-cum-residence,workshop-cum-residence, office-cum-residence, etc..

Usually a structure will have four walls and a roof. But in some areas the very nature of construction of houses is such that there may not be any wall. Such is the case of conical structures where

entrance is also provided but they may not have any walls. Therefore, such of the conical structures are also treated as separate buildings.

Permanent houses :

Houses, the walls and roof of which are made of permanent materials. The material of walls can be any one from the following, namely, galvanized iron sheets or other metal sheets, asbestos sheets, burnt bricks, stones or concrete. Roof may be made of from any one of the following materials, namely, tiles, slate, galvanized iron sheets, metal sheets, asbestos sheets, bricks, stones or concrete.

Semi-permanent houses :

Houses in which either the wall or the roof is made of permanent material and the other is made of temporary material.

Temporary houses :

Houses in which both walls and roof are made of materials, which have to be replaced frequently. Walls may be made from any one of the following temporary materials, namely, grass, thatch, bamboo, plastic, polythene, mud, unburnt bricks or wood. Roof may be made from any one of the following temporary materials, namely, grass, thatch, bamboo, wood, mud, plastic or polythene.

Dwelling Room :

A room is treated as a dwelling room if it has walls with a doorway and a roof and should be wide and long enough for a person to sleep in, i.e. it should have a length of not less than 2 meters and a breadth of at least 1.5 meters and a height of 2 meters. A dwelling room would include living room, bedroom, dining room, drawing room, study room, servant's room and other habitable rooms. Kitchen, bathroom, latrine, store room, passageway and verandah which are not normally usable for living are not considered as dwelling rooms. A room, used for multipurpose such as sleeping, sitting, dining, storing, cooking, etc., is regarded as a dwelling room. In a situation where a census houses is used as a shop or office., etc., and the household also stays in it then the room is not considered as a dwelling room. But if a garage or servant quarter is used by a servant and if she/ he also lives in it as a separate household then this has been considered as a dwelling room available to the servant's household. Tent or conical shaped hut if used for living by any household is also considered as dwelling room.

A dwelling room, which is shared by more than one household, has not been counted for any of them. If two households have a dwelling room each but in addition also share a common dwelling room, then the common room has not been counted for either of the households.

Census house :

A `census house' is a building or part of a building used or recognised as a separate unit because of having a separate main entrance from the road or common courtyard or staircase, etc. It may be occupied or vacant. It may be used for residential or non- residential purpose or both.

In certain peculiar situations, the manner in which buildings and census houses were identified for numbering in the field by the enumerators is described hereunder **:**

Sometimes a series of different buildings are found along a street which are joined with one another by common walls on either side looking like a continuous structure.

These different units are practically independent of one another and are likely to have been built at different times and owned by different persons. In such cases, though the whole structure with all the adjoining units apparently appears to be one building, each portion was treated as a separate building and its constituent units as separate census houses.

On the other hand, one may come across cases, particularly in large cities of multi-storeyed ownership flats. In these cases while the structure looks like one building, different persons own the flats. In case of such multi-storeyed structures, having a number of flats owned by different persons, the entire structure was treated as one building and each flat as a separate census house.

If within a large enclosed area, there are separate buildings owned by different persons then each such building is treated as a separate building. There can be a situation where within an enclosed compound there are separate buildings owned by an undertaking or company or even government that are actually in occupation of different persons. For example, Indian Oil Corporation colony where the buildings are owned by the Corporation but these are in occupation of their employees. Each such building was treated as a separate building. But if in any one of these buildings there were flats in occupation of different households, each such flat was reckoned as a separate census house.

Sometimes it becomes difficult to apply the definition of census house strictly in certain cases. For example, in an urban area, if a flat has five rooms, each room having direct entrance from the common staircase or courtyard. By definition, this has to be treated as five census houses. If all these five rooms are occupied by a single household it was not realistic to treat them as five census houses. In such a case,`singleness' of use of these rooms along with the main house should be considered and the entire flat was treated as one census house. On the other hand, if two independent households occupy these five rooms, the first household living in 3 rooms and the second household occupying 2 rooms, then considering the use, the first three rooms together were treated as one census house and the remaining rooms as another census house. But if each room was occupied by an independent household, then each such room was treated as a separate census house.

In case of hostels, hotels, etc., even if the door of each room in which an inmate lives opens to a common verandah, staircase, courtyard or a common room, as it happens almost invariably, the entire hostel/ Hotel building was treated as one census house. but if such hostels/ hotels have out- houses or other structures used for different purposes or the same purpose, then each such structure attached to the main hostel/hotel was treated as a separate census house.

In some parts of the country, in rural areas, the pattern of habitation is such that a group of huts, located in a compound, whether enclosed or unenclosed, is occupied by one household. While the main residence may be located in one hut, other huts may be used for sleeping, as a kitchen, bath room, baithak, etc. Though each of the huts was a separate structure, they form a single housing unit and therefore, have to be treated collectively as one building and one census house. If some of the huts are used by one household and the others by a second household as residence, then the two groups of huts were treated as separate census houses. However, if there were also other huts in the compound used for other purposes and not as part of the household's residence such as, cattle shed, workshed, etc., these were treated as separate census houses.

On the other hand, in urban areas, where more than one structure within an enclosed or open compound (premises) belonging to the same person, e.g., the main house, the servant's quarter, the garage, etc., only one building number was given for this group and each of the constituent a separate census house number.

Only cases where a structure with roof and pillars has come up was treated as a building.

Village :

The basic unit for rural areas is the revenue village which has definite surveyed boundaries. The revenue village may comprise of one or more hamlets but the entire village is treated as one unit for presentation of data. In un-surveyed areas, like villages within forest areas, each habitation area with locally recognized boundaries is treated as one village.

Rural - Urban area :

The data in tables on Houses, Household Amenities and Assets are presented separately for rural and urban areas. The unit of classification in this regard is `town' for urban areas and `village' for rural areas. In the Census of India 2001, the definition of urban area adopted is as follows:

(a) All places with a municipality, corporation, cantonment board or notified town area committee, etc.

(b) A place satisfying the following three criteria simultaneously:

i) A minimum population of 5,000;

ii) At least 75 per cent of the male working population engaged in non agricultural pursuits ; and

iii) A density of population of at least 400 per sq. km. (1,000 per square mile).

For identification of places which would qualify to be classified as 'urban' all villages, which, as per the 1991 Census had a population of 4,000 and above, a population density of 400 persons per sq. km. and having at least 75 per cent of male working population engaged in non-agricultural activity were considered. To work out the proportion of male working population referred to above against b) (ii), the data relating to main workers were taken into account.

Apart from these, the outgrowths(OGs) of cities and towns have also been treated as urban under

'Urban Agglomerations'. Examples of out-growths are railway colonies, university campuses, port areas, military camps, etc., that may have come up near a statutory town or city but within the revenue limits of a village or villages contiguous to the town or city. Each such individual area by itself may not satisfy the demographic criteria laid down at (b) above to qualify it to be treated as an independent urban unit but may deserve to be clubbed with the towns as a continuous urban spread. Thus, the town level data, wherever presented, also includes the data for outgrowths of such towns.

City :

Towns with population of 1,00,000 and above are called cities.

Urban Agglomeration :

An Urban Agglomeration is a continuous urban spread constituting a town and its adjoining urban outgrowths (OGs) or two or more physically contiguous towns together and any adjoining urban outgrowths of such towns. In some cases railway colonies, university campuses, port areas, etc., may come up near a city or statutory town outside its statutory limits but within the revenue limits of a village or villages contiguous to the town or city. Each such individual area by itself may not satisfy the minimum population limit to qualify it to be treated as an independent urban unit but may deserve to be clubbed with the town as a continuous urban spread.For the purpose of delineation of Urban Agglomerations during Census of India 2001, following criteria are taken as pre-requisites:

(a) The core town or at least one of the constituent towns of an urban agglomeration should necessarily be a statutory town ; and

(b) The total population of all the constituents (i.e., towns and outgrowths) of an Urban Agglomeration should not be less than 20,000 (as per the 1991 Census).

With these two basic criteria having been met, the following are the possible different situations in which Urban Agglomerations would be constituted:

i) a city or town with one or more contiguous outgrowths;

ii) two or more adjoining towns with their outgrowths; and

iii) a city and one or more adjoining towns with their outgrowths all of which form a continuous spread.

Household :

A 'household' is usually a group of persons who normally live together and take their meals from a common kitchen unless the exigencies of work prevent any of them from doing so. Persons in a household may be related or unrelated or a mix of both. However, if a group of unrelated persons live in a census house but do not take their meals from the common kitchen, then they are not constituent of a common household. Each such person was to be treated as a separate household. The important link in finding out whether it was a household or not was a common kitchen. There may be one member households, two member households or multi-member households.

Institutional household :

A group of unrelated persons who live in an institution and take their meals from a common kitchen is called an Institutional Household. Examples of Institutional Households are boarding houses, messes, hostels, hotels, rescue homes, jails, ashrams, orphanages, etc. To make the definition more clearly perceptible to the enumerators at the Census 2001, it was specifically mentioned that this category or households would cover only those households where a group of unrelated persons live in an institution and share a common kitchen.

Houseless household :

Households who do not live in buildings or census houses but live in the open on roadside, pavements, in hume pipes, under fly-overs and staircases, or in the open in places of worship, mandaps, railway platforms, etc., are treated as Houseless Households.

Scheduled Caste and Scheduled Tribe :

Article 341 of the Constitution provides that the President may, with respect to any State or Union territory, specify the castes, races or tribes or parts of or groups within castes, races or tribes which shall for the purposes of the Constitution be deemed to be Scheduled Castes in relation to that State or Union territory. Article 342 similarly provides for specification

of tribes or tribal communities or parts of or groups within tribes or tribal communities which are to be deemed for the purposes of the Constitution to be Scheduled Tribes in relation to the various States and Union territories. In pursuance of these provisions, the list of Scheduled Castes and / or Scheduled Tribes are notified for each State and Union territory and are valid only within the jurisdiction of that State or Union territory and not outside.

It is important to mention here that under the Constitution (Scheduled Castes) Order, 1950, no person who professed a religion different from Hinduism was deemed to be a member of a Scheduled Caste in addition to every member of the Ramdasi, Kabirpanthi, Majhabi or Sikligar caste resident in Punjab or Patiala and East Punjab States Union were in relation to that State whether they professed the Hindu or the Sikh religion. Subsequently, in September 1956, by an amendment, the Presidential Order of 1950 and in all subsequent Presidential Orders relating to Scheduled Castes, the Hindu and the Sikh religions were placed on the same footing with regard to the specification of Scheduled Castes. Later on, as per the amendment made in the Constitution (Scheduled Castes) Order 1990, the Hindu, the Sikh and the Buddhist were placed on the same footing with regard to the recognition of the Scheduled Castes.

The lists containing the names of the Scheduled Castes and the Scheduled Tribes applicable for the Census of India 2001 in the State/Union territory are given below:

List Of Scheduled Castes In Andhra Pradesh :

1. Adi Andhra
2. Adi Dravida
3. Anamuk
4. Aray Mala
5. Arundhatiya
6. Arwa Mala
7. Bariki
8. Bavuri
9. Beda Jangam, Budga Jangam
10. Bindla
11. Byagara
12. Chachati
13. Chalavadi
14. Chamar, Mochi, Muchi
15. Chambhar
16. Chandala
17. Dakkal, Dokkalwar
18. Dandasi
19. Dhor
20. Dom, Dombara, Paidi, Pano
21. Ellamalawar, Yellammalawandlu
22. Ghasi, Haddi, Relli, Chachandi
23. Godagali
24. Godari
25. Gosangi
26. Holeya
27. Holeya Dasari
28. Jaggali
29. Jambuvulu
30. Kolupul Vandlu
31. Madasi Kuruva, Madari Kuruva
32. Madiga
33. Madiga Dasu, Mashteen
34. Mahar
35. Mala
36. Mala Dasari
37. Mala Dasu
38. Mala Hannai
39. Malajangam
40. Mala Masti
41. Mala Sale, Netkani
42. Mala Sanyasi
43. Mang
44. Mang Garodi
45. Manne
46. Mashti
47. Matangi
48. Mehtar
49. Mitha Ayyalvar
50. Mundala
51. Paky, Moti, Thoti
52. Pambada, Pambanda
53. Pamidi
54. Panchama, Pariah
55. Relli
56. Samagara
57. Samban
58. Sapru
59. Sindhollu,Chindollu.

List Of Scheduled Tribes In Andhra Pradesh :

1. Andh

2. Bagata
3. Bhil
4. Chenchu, Chenchwar
5. Gadabas
6. Gond, Naikpod, Rajgond
7. Goudu(in the Agency tracts)*
8. Hill Reddis
9. Jatapus
10. Kammara
11. Kattunayakan
12. Kolam, Mannervarlu
13. Konda Dhoras
14. Konda Kapus
15. Kondareddis
16. Kondhs, Kodi, Kodhu, Desaya Kondhs, Dongria Kondhs, Kuttiya Kondhs, Tikiria Kondhs, Yenity Kondhs.
17. Kotia, Bentho Oriya, Bartika, Dhulia, Dulia, Holva, Paiko,Putiya, Sanrona, Sidhopaiko
18. Koya,Goud,Rajah,Rasha Koya,Lingadhari, Koya (ordinary), Kottu Koya, Bhine Koya, Rajkoya
19. Kulia
20. Malis (excluding Adilabad, Hyderabad, Karimnagar,Khammam, Mahbubnagar,Medak,Nalgonda, Nizamabad and Warangal districts)
21. Manna Dhora
22. Mukha Dhora, Nooka Dhora
23. Nayaks(in theAgency tracts)*
24. Pardhan
25. Porja, Parangiperja
26. Reddi Dhoras
27. Rona, Rena
28. Savaras, Kapu Savaras, Maliya Savaras, Khutto Savaras
29. Sugalis, Lambadis
30. Thoti (InAdilabad, Hyderabad, Karimnagar, Khammam, Mahbubnagar, Medak, Nalgonda, Nizamabad and Warangal Districts)
31. Valmiki(in the Agency tracts)*
32. Yenadis
33. Yerukulas

Language and Mother tongue :

As per the census concept, each language is a group of mother tongues. The census questionnaire collects information on the mother tongue of each person and mother tongue is defined as the language spoken in childhood by the person's mother to the person. If the mother died in infancy, the language mainly spoken in the person's home in childhood will be the mother tongue. In the case of infants and deaf mutes, the language usually spoken by the mother is considered as mother tongue. It is not necessary that the language spoken as mother tongue should have a script. The mother tongues returned by the respondents in census are classified and grouped under appropriate languages according to their linguistic characteristics.

Literate :

A person aged 7 years and above who can both read and write with understanding in any language is taken as literate. A person who can only read but cannot write is not literate. It is not necessary that to be considered as literate, a person should have received any formal education or passed any minimum educational standard. Literacy could also have been achieved through adult literacy classes or through any non-formal educational system. People who are blind and can read in Braille are treated as literates.

Literacy rate :

Literacy rate of the population is defined as the percentage of literates in the age group seven years and above. For different age groups the percentage of literates in that age group gives the literacy rate.

Educational level :

The highest level of education a person has completed.

Work :

Work is defined as participation in any economically productive activity with or without compensation, wages or profit. Such participation may be physical and/or mental in nature. Work involves not only actual work but also includes effective

** The agency tracts is comprised of Srikakulam, Vizianagaram, Visakhapatnam, East-Godavari, WestGodavari and Khammam districts.*

supervision and direction of work. It even includes part time help or unpaid work on farm, family enterprise or in any other economic activity. All persons engaged in 'work' as defined above are workers. Persons who are engaged in cultivation or milk production even solely for domestic consumption are also treated as workers.

Reference period for determining a person as worker and non-worker is one year preceding the date of enumeration.

Main worker :

A person who has worked for major part of the reference period (i.e. six months or more during the last one year preceding the date of enumeration) in any economically productive activity is termed as `Main worker'.

Marginal worker :

A person who worked for less than six months of the reference period (i.e. in the last one year preceding the date of enumeration) in any economic activity is termed as `Marginal worker' .

Non worker :

A person who has not worked at all in any economically productive activity during the reference period (i.e. last one year preceding the date of enumeration) is termed as `Non worker'.

Cultivator :

For purposes of the Census a person is classified as cultivator if he or she is engaged in cultivation on land owned or held from government or held from private persons or institutions for payment in money, kind or share. Cultivation includes effective supervision or direction in cultivation.

A person who has given out her/his land to another person or persons or institution(s) for cultivation for money, kind or share of crop and who does not even supervise or direct cultivation in exchange of land, is not treated as cultivator. Similarly, a person working on another person's land for wages in cash or kind or a combination of both (agricultural labourer) is not treated as cultivator.

Cultivation involves ploughing, sowing, harvesting and production of cereals and millet crops such as wheat, paddy, jowar, bajra, ragi, etc., and other crops such as sugarcane, tobacco, ground-nuts, tapioca, etc., and pulses, raw jute and kindred fibre crop, cotton, cinchona and other medicinal plants, fruit growing, vegetable growing or keeping orchards or groves, etc. Cultivation does not include the following plantation crops - tea, coffee, rubber, coconut and betel-nuts (areca).

Agricultural labourer :

A person who works on another person's land for wages in money or kind or share is regarded as an agricultural labourer. She/he has no risk in the cultivation, but merely works on another person's land for wages. An agricultural labourer has no right of lease or contract on land on which she/he works.

Household industry worker :

Household industry is defined as an industry conducted by the head of the household herself/himself and or by the members of the household at home or within the village in rural areas and only within the precincts of the house where the household lives in urban areas. The larger proportion of workers in household industry should consist of members of the household including the head. The industry should not be run on the scale of a registered factory which would qualify or has to be registered under the Indian Factories Act and should be engaged in manufacturing, processing, servicing and repairs of goods.

It does not include professions such as a pleader, Doctor, Musician, Dancer, Waterman, Astrologer, Dhobi, Barber, etc. or merely trade or business, even if such professions, trade or services are run at home by members of the household.

Other worker :

A person who has been engaged in some economic activity during the reference period but not as a cultivator or agricultural labourer or in Household Industry is termed as a 'Other Worker (OW)'. The type of workers that come under this category of 'OW' include all government servants, municipal employees, teachers, factory workers, plantation workers, those engaged in trade, commerce, business, transport, banking, mining, construction, political or social work,

priests, entertainment artists, etc. In effect, all those workers other than cultivators or agricultural labourers or household industry workers, are 'Other Workers'.

Work participation rate :

Percentage of workers (main + marginal) to total population.

Population density :

Population density is the number of persons inhabited per square kilometre of the area.

Age :

Age is measured in terms of the completed number of years.

Sex -ratio :

Number of females per 1000 males in a population.

(viii) Non Census Concepts

Improved drinking water :

If the household had access to drinking water supplied from a tap, hand pump, tube well or well (protected or covered) situated within or outside the premises, it is considered as having access to improved drinking water. It may be mentioned that such uniform definition may not be valid across all states.

System of sewerage :

Generally, a sewerage system would mean a network of mains and branches of underground conduits for the conveyance of sewerage to the point of disposal. Sewers that carry only household and industrial wastage are called separate sewers; those that carry storm water from roofs, streets and other surfaces are known as storm water drains, while those carrying both sewage and storm water are called combined sewers. However, in some towns which are not provided with such underground sewerage system, it is served by open surface drain, box drain, sylk pattern drain, etc., in these towns.

Type of latrine and Method of disposal of night soil :

There are three prevalent systems of disposal of human wastes, viz.(i) underground sewerage, (ii) sanitary water flush latrines with individual disposal systems, like septic tank, leaching cess pool and collecting well, and (iii) dry type of latrines with manual scavenging. The system of underground sewerage provides for the street sewerage with which are connected the sanitary latrines constructed in the houses having water closets and fitted with flushing cistern (or hand flushing). Through this sewer the faecal matter is transported without the need for scavenging. This system generally exists in cities and big towns. Where the streets sewer does not exist these sanitary water flush latrines are connected to a local septic tank with a sub-soil dispersion system or a leaching pit. Here the liquid wastes from the water closet is disposed of locally in leaching pit, a septic tank with a soil dispersion system is constructed. This dispersion requires an optimum travel through the pores of the soil which renders the harmful liquid bacterially innocuous by the slow process of filtration through the soil traversed. Where the soil is impermeable, collecting wells are constructed and the sanitary water flush latrines are connected with them. These wells are cleaned at periodic intervals by a suitable device. The dry type of latrines are of service type latrines from where human excreta is removed by scavengers from house to house, in most cases carrying it on their heads or shoulders or in baskets with handle or wheel barrows. These are then collected in bullock carts or trucks or tractors and trolleys for being carried to the dumping grounds.

Fertility :

In demography, the word fertility is used in relation to the actual production of children or occurrence of births specially live births. Fertility is a measure of rate at which population adds to itself by births and normally assessed by relating the number of births to a full or part of the population, such as number of married women or number of women of child bearing age. The definitions of the terminology used in computing different fertility rates are mentioned below:

Crude birth rate(CBR) :

Ratio of the number of live births in a year to the mid year population, normally expressed per 1000 population.

$$CBR = \frac{\text{Number of live births during the year}}{\text{Mid –year Population}} \times 1000$$

Crude death rate(CDR)

Ratio of the number of deaths in a year to the mid year population, normally expressed per 1000 population.

$$CDR = \frac{\text{Number of deaths during the year}}{\text{Mid- year Population}} \times 1000$$

Natural growth rate :

Growth rate is obtained as the difference between crude birth rate and crude death rate in the absence of migration.

Age specific fertility rate (ASFR) :

Number of live births in a year to female population in any specified age group normally expressed per 1000 women.

$$ASFR = \frac{\text{Number of live births in a particular age-group}}{\text{Mid-year female population of the same age-group}} \times 1000$$

Age specific marital fertility rate (ASMFR) :

Number of live births in a year to married female population in any specified age group normally expressed per 1000 married women .

$$ASMFR = \frac{\text{Number of live births in a particular age-group}}{\text{Mid-year married female population of the same age-group}} \times 1000$$

General fertility rate (GFR) :

Number of live births per 1000 women in the reproductive age-group (15-49) years in a given year.

$$GFR = \frac{\text{Number of live births in a year}}{\text{Mid-year female population in the age-group (15-49) years}} \times 1000$$

General marital fertility rate (GMFR) :

Number of live births per 1000 married women in reproductive age-group (15-49) years in a given year.

$$GMFR = \frac{\text{Number of live births in a year}}{\text{Mid-year married female population in the age-group (15-49) years.}} \times 1000$$

Total fertility rate (TFR) :

It is obtained as the total of the age specific fertility rates (number of children born per woman of the particular age) for the entire reproductive age span. It provides the average number of children that will be born to a woman under the fertility levels indicated by the age specific fertility rates assuming that there is no mortality of women till the completion of reproductive period.

$$TFR = \frac{5 \times \sum_{15-19}^{45-49} ASFR}{1000}$$

Total marital fertility rate (TMFR) :

Average number of children that would be born to a married woman if she experiences the current fertility pattern throughout her reproductive span (15-49) years assuming that there is no mortality of women till the completion of reproductive period.

$$TMFR = \frac{5 \times \sum_{15-19}^{45-49} ASMFR}{1000}$$

Age-specific mortality rate (ASMR) :

Number of deaths in a particular age and sex group per 1000 population of the same age group.

$$ASMR = \frac{\text{Number of deaths in a particular age-group}}{\text{Mid-year population of the same age-group}} \times 1000$$

q1

Probability of dying between birth and age 1. This can be used as approximate value of Infant Mortality Rate (IMR) which gives the ratio of number of deaths in a year of children aged less than one year to the number of births in that year.

q2

Probability of dying between birth and age 2.

q5

Probability of dying between birth and age 5. This indicator is also known as Under Five Mortality Rate (U5MR) .

Infant mortality rate (IMR) :

Ratio of the number of infant deaths (deaths of children below one year) in a year to the number of live births in that year.

$$IMR = \frac{\text{Number of infant deaths during the year}}{\text{Number of live births during the year}} \times 1000$$

Infant mortality rate comprises of two parts, viz., Neo-natal mortality rate and Post neo-natal mortality rate. The neo-natal mortality rate also comprises of two parts viz., Early neo-natal mortality rate and late neo-natal mortality rate. These are defined as:

Neo-natal mortality rate (NMR) :

Number of infants dying within the first month of life (28 days or under) in a year per 1000 live births of the same year.

$$NMR = \frac{\text{Number of infant deaths aged 28 days or under during the year}}{\text{Number of live births during the year}} \times 1000$$

Early neo- natal mortality rate :

$$ENMR = \frac{\text{Number of infant deaths of less than 7 days During the year}}{\text{Number of live births during the year}} \times 1000$$

Late neo-natal mortality rate :

$$LNMR = \frac{\text{Number of infant deaths of 7 days to less than 29 days during the year}}{\text{Number of live births during the year}} \times 1000$$

Post neo-natal mortality rate (PNMR) :

$$PNMR = \frac{\text{Number of deaths of 29 days to less than one year during the year}}{\text{Number of live births during the year}} \times 1000$$

Peri-natal mortality rate (PMR) :

Number of still births plus deaths within 1st week of delivery per 1000 births in a year.

$$PMR = \frac{\text{Number of still births and infant deaths of less than 7 days during the year}}{\text{Number of live births and still births during the year}} \times 1000$$

Still birth rate(SBR) :

$$SBR = \frac{\text{Number of still births during the year}}{\text{Number of live births and still births during the year}} \times 1000$$

Maternal mortality rate(MMR) :

Number of deaths of women in the age group 15-49 while pregnant or within 42 days of termination of pregnancy from any cause related to pregnancy and child birth per 1,00,000 live births in a given year.

$$MMR = \frac{\text{Number of maternal deaths to women in the age group 15-49}}{\text{Number of live birth}} \times 1{,}00{,}000$$

Eligible couple (Couples per 1000 population):

Number of currently married females in the age group15-44 years per 1000 persons of all ages.

Child woman ratio (0-4) :

1. Number of children in the age group 0-4 years per 1000 women in the age group 15-49 years.

Child woman ratio (5-9) :

2. Number of children in the age group 5-9 years per 1000 women in the age group 15-49 years.

Migration :

Migration is the third component of population change, the other two being mortality and fertility. A person is considered as a migrant by place of birth if the place in which he/she is enumerated during the census is other than the place of his/her birth. Similarly a person is considered as a migrant by place of last residence if the place in which he/she is enumerated during the census is other than his/her place of immediate last residence outside the village or town and not simply in another house or locality in the same village or town. Certain aspects concerning temporary movement/migration of people has been

explained below as these are important components concerning migration :-

(i) Migration of persons in search of job is high in the country. In many cases such migrants are only seasonal in nature. People migrate to other places for work in a particular season and come back again to their usual place of residence after three or four months. All such workers are treated as migrants. Similarly, if a person moved to any other place for attending short term vocational or educational course that lasted for only few months of a year, she/he too were considered as a migrant.

(ii) Where a person had merely gone out to another place or had been shifting from one place to another purely on tour, pilgrimage, visit to hospital for treatment or for temporary business purposes, such persons are not deemed to have had another residence different from the place where she/he or her/his family normally resides. She/he is not considered as migrant.

(iii) A woman temporarily moves into a hospital or to her parents or other relative's house for delivery and if the hospital or the parents/relatives houses is in a place different from usual place of residence, the place where the hospital or parents/relative's house is the place of last residence of the child but not of the mother. A new response category 'Moved after birth' was added in Census of India 2001 in the question on 'reasons for migration' to bring out additional migration patterns. Natural calamities or distress migration as a reason for migration for last residence migrants included in 1991 Census, is covered under category of 'Others'. The reason for migration has been determined as applicable at the time of migration and not in reference to any point of time after that. For example, if a person had moved from the place of her/his last residence for the purpose of education and subsequently at some point of time got employment there only, the reason for migration would be 'education' and not 'work/employment'.

Internal and International migration :

The migrational movements are of three types

(i) Migration within the state itself with its components.

(a) Migration within the district of enumeration (intra district migration).

(b) Migration from one district of state to another district of state (inter district migration),

(ii) Migration from one state to another State of the country (inter-state migration),

(iii) Migration from one country to another country. The first two streams together constitute internal migration, while the last type of movement is called international migration. The present name of the country, state or district and not the name by which they were known at the time of her/his birth or last residence were recorded.

Rural - Urban components of migration:

Rural or Urban status in respect of migrants have been determined as applicable at the time of migration and not with reference to any point of time after that. The flow of migrants consists of four streams viz. rural to rural, rural to urban, urban to rural and urban to urban.

Civic status of urban units

Civic Status of a town/city is determined on the basis of Civic Administrative authority of the town e.g., Municipal Corporation / Corporation, Municipal Committee/ Municipal council, Municipality etc.

Size class of UA / town

Size-class of UA/Town is based on the population size of the UA/City/Town UAs./Towns with 1,00,000 and above population are classified as Class I UAs./ towns. These Class I UAs. / towns are now further sub classified in to seven sub classes namely M1 to M7 depending on the population size of UA/City/ Town. These are M7(5,000,000 and above); M6(2,000,000 to 4,999,999); M5 (1,000,000-1,999,999) M4 (500,000-999,999); M3(300,000-499,999), M2 (200,000-299,999) & M1 (100,000-199,999). towns with, 50,000 to 99,999 population are classified as Class II towns, 20,000 to 49,999 population are Class III towns, population with 10,000-19,999 are Class IV towns, population with 5000 and 9999 are Class V towns and towns with less than 5000 population are Class VI towns.

Slum area

The Slum Areas (Improvement and Clearance) Act, 1956 which was enacted by the Central Govt. defined slums as a) Areas where buildings are in any respect unfit for human habitation; or b) are by reasons of dilapidation, overcrowding, fault arrangement and design of such buildings, narrowness or faulty arrangement of streets, lack of ventilation, light or sanitation facilities, or any combination of these factors, are detrimental to safety, health or morals.

Mega city

The concept of 'Mega city' is a recent phenomenon in the Urban Sociology and is defined in term of metropolitan city in the form of large size, problem of management of civic amenities and capacity to absorb the relatively high growth of population. Indian Census in 1991 treated the population size of 5 million and above as the cut off point to identify a place as the mega city. Whereas, for the purpose of inclusion in Centrally Sponsored Scheme for Infrastructure Development in Mega cities the Ministry of Urban Affairs and employment, Department of Urban Development adopted the criteria of 4 million and above population as per 1991 Census for Mega Cities. In 2001 Census, cities with 10 millions and above population have been treated as Mega cities.

Analytical Note
(ix) 2001 Census Findings – Population and its Distribution

(a) Distribution of Population in Rural - Urban areas:

According to 2001 Census the total population of Vizianagaram district stands at 2249254 with 1119541 males and 1129713 females. The district stands at 23rd rank in the state as far as population is concerned. Out of the total population of the district 1836859 persons constituting 81.67% are residing in rural areas and the remaining 412395 persons(18.33%) are residing in urban areas. The proportion of urban to total population regarded as an index of urbanization is 18.33% for Vizianagaram district. Corresponding to state figure of 27.30%. Average number of towns for 100 inhabited villages in the district is 0.82%.

In Vizianagaram district there are 34 mandals with 1524 villages. Among these, 1455 are inhabited villages and the remaining 69 villages are uninhabited. The average number of inhabited villages per mandal is 43. In terms of population Vizianagaram mandal occupies 1st place with 10.80% of district population while Pachipenta mandal reported least population accounting 1.96% of district population. Gummalakshmipuram mandal is having more villages (124) including 5 uninhabited villages. Next comes Komarada mandal with 99 villages including 8 uninhabited villages. Vizianagaram mandal is the smallest mandal with 17 villages and all of them are inhabited villages.

The urban population is distributed among 12 urban units of which 4 are statutory towns. The average size of an urban centre in the district works out to 34,366 persons. Vizianagaram Municipality has largest population (195,801) whereas Gajapathinagaram(CT) is the smallest town with a population of (5,282). There is no town in the district which has less than 5000 population.

(b) Size class and status of towns, population Growth, density, sex ratio, work participation rate and Literacy rate :

Size class and status of towns:

During every Census the number of Census towns and statutory towns changes due to addition of new Census towns declassification of old Census towns, notifying of new Census towns, de-notifying of old statutory towns etc., for the purpose of analysis of varied demographic characteristics urban areas have been divided into six classes by size of population of the 12 towns in the district. Vizianagaram is categorized as class I town while there is one in class II, 2 in class III, 4 in class IV and 4 in class V. Not a single town is categorized as class VI.

Population Growth:

The population of district was 21,10,943 as per 1991 Census and has gone upto 22,49,254 persons in 2001 Census adding 1,38,311 persons during the decade 1991-2001. The growth rate revealed by the district (6.55%) is less than the state growth of 14.59% during the decade. Vizianagaram district ranks 23rd in growth rate among 23 districts in the state.

Rural-Urban growth rates show a little variation. The rural growth rate is recorded as 5.12% while urban growth rate is 13.45%. As regards growth rate in rural population the district occupies 22nd position, when we speak about urban growth rate it occupies 11th place in the state.

Density:

The overall density of population in the district is 344 persons per sq.km and is above the state average of 277. Among urban areas Vizianagaram town recorded highest 10,129 persons per sq.km followed by Parvathipuram Town with 4,423 persons . Least density i.e. 1,247 persons per sq.km. has been reported in Nellimarla town.

Sex Ratio:

During 2001 census Vizianagaram district has recorded 1,009 females per 1,000 males while it was 1,000 in 1991 Census. It is higher than the state sex ratio of 978. The district occupied 3rd rank in respect of sex ratio among 23 districts. Komarada mandal has the highest sex ratio of 1,082. While Gummalakshmipuram mandal has largest sex ratio of 1,055 and 1,090. Among urban units Nellimarla Census town has reported highest sex ratio of 1,078 and Chintalavalasa Census Town reported lowest sex ratio of 931.

Work Participation rate:

The work participation rate for total workers is defined as percentage of total workers to total population. The total workers participation rate in Vizianagaram district is 52.20%. Whereas the percentage of main workers stood at 40.56%. The total workers participation rate separately for males and females in the rural areas are 59.80% and 44.60% respectively and their corresponding figures for urban areas are 53.40% and 16.50% respectively. The female workers participation has gone up from 32.64% in 1991 Census to 44.60% at 2001 Census.

Literacy Rate:

While calculating the effective literacy rate, children in 0-6 age group have been excluded. The district returned 997482 literates forming 51.10% of the population of the district. Separating for urban and rural areas the literacy rate worksout to 72.70% and 46.10% respectively. Again within the urban areas male and female literacy rates separating workout to 81.80% and 63.90%. For the rural population the male and female literacy rates workout to 57.90% and 34.40%.

c) Scheduled Castes and Scheduled Tribes of earlier Censuses :

To uplift social and economical status of Scheduled Castes and Scheduled Tribes, one of the basic requirement of these population is the availability of data on age, sex, marital status, economy, education, fertility etc. In this regard these particulars are being collected in each census from 1951 onwards and provided to planners and administrators to take-up necessary steps to evolve suitable plans for the development of Scheduled Castes and Scheduled Tribes.

The President of India has notified some castes, races or tribes or parts of groups within castes, races or tribes as Scheduled Castes under Article 341 of the Constitution of India. Similarly, under Article 342 of the Indian Constitution, President of India has declared all such tribes or tribal communities or parts of groups within the tribes or tribal communities as Scheduled Tribes. The list of Scheduled Castes and Scheduled Tribes are notified for each State or Union Territory and are valid only within the jurisdiction of that State and Union Territory. The list of Scheduled Castes and Scheduled Tribes is provided in this volume under the chapter on 'Census concepts'.

Scheduled Castes population in the district as per 1991 Census:

As per 1991 census, there were 2,20,352 Scheduled Castes population comprising 1,11,499 males and 1,08,853 females. This works out to 10.44% to the total population of the district. Of the total population of Scheduled Castes, 81.54% were living in rural areas of the district.

The following statement reveals that Scheduled Castes population has recorded 19.24% growth rate during the decade 1981-91. It was 16.48% in rural areas which is lower to the growth rate of total district. Growth rate in Urban areas was 33.18% which is above 16% more than the district and rural areas.

The sex ratio of Scheduled Castes population (976) was lower in comparison to that of the general population in the district(1,000). The sex ratio in rural area of the district was little lower than total district sex ratio among Scheduled Castes population. In urban areas it was 1022. Literacy rate among Scheduled Castes 28.54% which was lower than the district (34.19%). In urban areas their literacy rate was 46.65%.

Proportion of main workers among Scheduled Castes was 46.40 percent and the Marginal workers was 4.89 percent. In rural areas main workers population was 49.56 percent and in urban areas their percentage was 32.47.

The Scheduled Tribes population in the district as per 1991 Census :

As per 1991 Census, there were 1,90,185 Scheduled Tribes population comprising 94,993 males and 95,192 females. This works out 9% to the total population of the district. Of the total population of the Scheduled Tribes 10.63% were living in rural areas of the district.

The following statement reveals that Scheduled Tribes population in the district has registered 24.02% growth rate during the decade 1981-91. Almost same growth rate 23.64% has been recorded in the rural areas of the district. In urban areas it was 42.36%. The sex ratio in the district was 1,002, while in rural areas it was 1,003 and in urban areas 939. As regards the Literacy rate among the tribes, it was 15.68% , while in rural areas it was 14.80%. However in urban areas it was higher (51.14%) than rural areas as well as the district total.

The population of main workers and marginal workers among tribals in the district was 52.90% and 5.52% respectively where as in rural areas of the district it was 53.42% and 5.63% respectively. But in urban areas they were reported 31.27% and 1.02% respectively.

This table gives the details of decadal growth rates in the mandals of the district. The district has registered 6.5% growth during the decade. Which is less than the state average growth rate of 14.5%. The rural and urban growth rate are recorded as 5.1% and 13.4% respectively . The district percentage of urban population works out to 18.3.

Out of 34 mandals 9 mandals have urban units among the 9 mandals, Nellimarla reported 38% urban population followed by Bobbili 16% and the lowest growth rate 1% is recorded in Garividi mandal.

Except two mandals Gajapathinagaram and Denkada, the remaining 7 mandals have recorded more percentage of urban population than the district average percentage of urban population.

This district has 1455 inhabited villages. Out of 34 mandals the higher number of inhabited villages are in Gummalakshmipuram mandal, followed by Komarada and Kurapam mandal with 91 villages and Salur with 81 inhabited villages etc. The least number 17 villages in Vizianagaram and 19 villages in Bhogapuram are existing.

Of the total inhabited villages, 200(13.7%) villages are having less than 200 population, 299(20.5%) villages are having population between 200-499 persons. The highest numbers 376(25.8%) villages are in the population range of 1000-1999.32(2.2%) villages are having population between 5000-9999. In the district 4(0.3%) villages have recorded more than 10,000 population which are mandal headquarters.

Out of 34 mandals, 10 mandals do not have the villages with less than 200 population . More than 25% inhabited villages in Komarada, Gummalakshmipuram, Kurupam and Salur have less than 200 population. 40% of inhabited villages in Gummalakshmipuram and Pachipenta are having the population between 200-499. 43.6% inhabited villages in Merakamudidam mandal fall in population size range 500-999 persons. In Kurupam, Garugubilli, Parvathipuram and Makkuva mandals are having one village each with 5000 and below 10000 persons. As already stated, 4 villages where the population has more than 10000 reported one each in 4 mandals.

TABLE - 3
NEW TOWNS, DENOTIFIED, DECLASSIFIED AND MERGED TOWNS IN 2001 CENSUS

	Name of Town
	1
(a) New	
(i) Statutory Town	- Nil-
(ii) Census Town	1. Gajapathinagaram 2. Jarjapupeta 3. Kothavalasa 4. Chintalavalasa
(b) Denotified	
(i) Statutory towns of 1991 Census denotified and also did not satisfy the criteria to be treated as Census towns	-Nil-
(ii) Statutory towns of 1991 Census denotified but identified as Census towns based on demographic and economic criteria	-Nil-
(iii) Census towns of 1991 Census are notified as statutory town in 2001 Census	-Nil-
(c) Declassified	1. Cheepurupalle
(d) Wholly merged with other town(s)	-Nil-

Declassified means the census towns of 1991 census which failed to satisfy the demographic and economic criteria

Out of 9 urban areas in 1991 Census, Cheepurupalle Panchayat town attained rural status as it failed to satisfy the demographic and economic criteria in 2001 Census.

Besides the above change, 4 new Census towns have been declared in 2001 Census. They are Gajapathinagaram,Jarjapupeta,Kothavalasa and Chintalavalasa.

TABLE-4
DISTRIBUTION OF VILLAGES BY POPULATION DENSITY, 2001

Range of population density (per square kilometre)	Total number of villages in each population density range	Percentage of villages in each population density range	Population	Percentage distribution of population
1	2	3	4	5
0-10	10	0.7	1,546	0.1
11-20	6	0.4	239	0.0

201-300	231	15.9	213,399	11.6
301-500	456	31.3	753,432	41.0
501 +	452	31.0	719,763	39.2
Not known	-	-	-	-
District Total:	**1,455**	**100.0**	**1,836,859**	**100.0**

Population Density (Rural) of the district: **347.9**

There are 10 villages with 1546 population where density of population is recorded below 11 persons per square kilometre. The average population size of these villages works out around 104 persons per village. The highest number of villages is 456 forming 31.3% with 753432 persons are in 301-500 range of population density.

The total district rural population, 39.2% are living in 452 villages where density of population is more than 500 persons per sq.km.

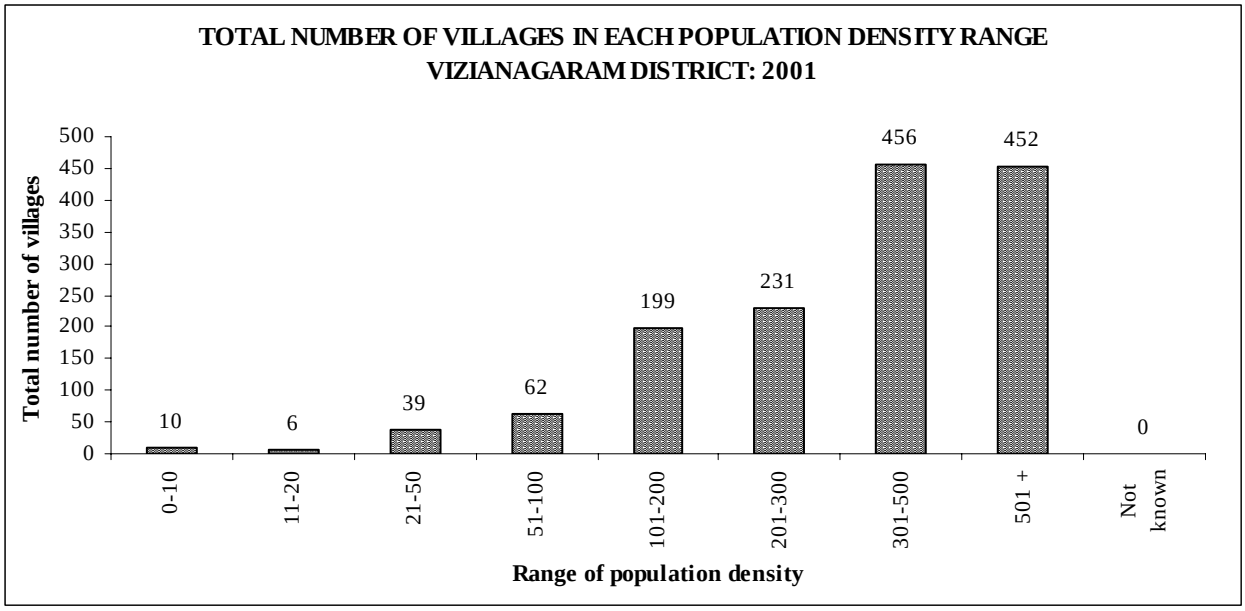

TABLE - 5
SEX RATIO OF STATE AND DISTRICT, 1901 - 2001

Census Year	State			District		
	Total	Rural	Urban	Total	Rural	Urban
1	2	3	4	5	6	7
1901	985	983	999	1,061	1,059	1,082
1911	992	991	1,000	1,082	1,081	1,089
1921	993	994	936	1,086	1,089	1,059
1931	987	989	966	1,068	1,071	1,042
1941	980	981	975	1,048	1,050	1,031
1951	986	985	987	1,032	1,031	1,039
1961	981	988	951	1,017	1,019	1,000
1971	977	983	949	1,009	1,012	997
1981	975	984	948	1,006	1,009	990
1991	972	977	959	1,000	999	1,007
2001	978	983	965	1,009	1,008	1,015

Note : Sex ratio has been defined here as the number of females per 1000 males

In the census count during 1901 to 2001 the district sex ratio was more than state average sex ratio mostly sex ratio in rural areas was higher than urban areas except in 1901,1911,1951,1991 and 2001. In 1981 the sex ratio of urban is less than rural while in 1991 urban sex ratio more than rural areas.

District (Rural) Sex Ratio:		**1,008**

The sex ratio in rural areas is 1008 which is less than the district sex ratio. In 9 mandals where urban areas are existing, the sex ratio in rural areas is higher than the total average sex ratio in Parvathipuram, Bobbili, Garividi and Denkada mandals. But urban sex ratio is higher than rural as well as total in Salur, Gajapathinagaram, Kothavalasa, Vizianagaram and Nellimarla mandals.

TABLE: 8
SEX RATIO OF RURAL POPULATION BY RANGES, 2001

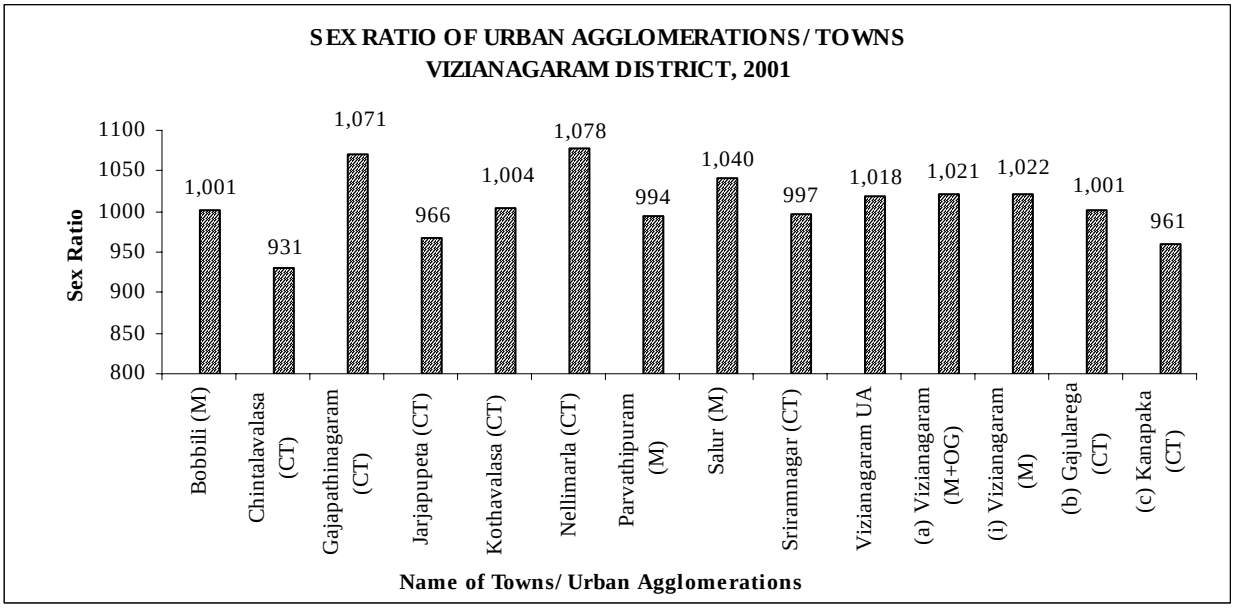

Range of sex ratio for villages	Number of inhabited villages	Percentage of villages in each range	Population (2001)	Percentage distribution of population
1	2	3	4	5
Less than 700	18	1.2	11,896	0.6
700-749	8	0.5	7,053	0.4
750-799	7	0.5	6,532	0.4
800-849	19	1.3	12,835	0.7
850-899	49	3.4	28,248	1.5
900-949	118	8.1	139,236	7.6
950-999	334	23.0	582,081	31.7
1000-1099	667	45.8	943,105	51.3
1100+	235	16.2	105,873	5.8
District Total:	**1,455**	**100.0**	**1,836,859**	**100.0**
Sex ratio (Rural) for District:			**1,008**	

Large variation is below 700 females per 1000 males are recorded in 18 villages. There are 667 (45.8%) villages where range of sex ratio is 1000-1099 in which sex ratio of total and rural areas of the district has fallen. It is evident from the above table that 45.8% of inhabited villages are having more number of females than males covering almost 50% of the rural population.

TABLE 9
SEX RATIO OF URBAN AGGLOMERATIONS / TOWNS, 2001

Sl.No.	Name of U.A. / Town+	Urban status	Sex ratio
1	2	3	4
1	Bobbili	(M)	1,001
2	Chintalavalasa	(CT)	931
3	Gajapathinagaram	(CT)	1,071
4	Jarjapupeta	(CT)	966
5	Kothavalasa	(CT)	1,004

This table shows the number and percentage of scheduled castes and scheduled tribes population in the mandals recorded during 2001 Census. Out of district total population of 22,49,254 the SCs and STs constitute 10.6% and 9.6% respectively. In rural areas of the district the SCs accounted 10.3% where as in urban areas 11.9%. In respect of STs they accounted 11.4% in rural areas and 1.5% in urban areas of the total population. Their percentage is more in rural areas than urban.

In Therlam mandal the highest number of SCs recorded with 13.6% totally under rural areas followed by Balijipeta mandal with 13.5% and Komarada and Seethanagaram mandals with 13.4% both are totally in rural areas. The lowest percentage of SCs recorded in the mandals Gummalakshmipuram, Kurupam and Bhogapuram with 6.1%,6.2% and 7.4% respectively.

In Gummalakshmipuram mandal the highest number of STs recorded with 85.2% of the total population entirely under rural areas followed by Kurupam mandal with 71.7% and Pachipenta mandal with 44.2%. The lowest percentage of STs recorded in the mandals of Bhogapuram, Pusapatirega and Jami with 0.1, 0.5 and 0.7 respectively.

32	Pusapatirega	813	884
33	Denkada	1,012	1,000
34	Bhogapuram	977	1,484
	District (Rural) Sex Ratio:	**991**	**1,026**

The sex ratio among the SCs and STs is given in this table at mandal parishad level. The sex ratio of SC and ST in rural areas of Vizianagaram is 991 and 1026 respectively, while it is 1009 in respect of total population. The lowest sex ratio among SCs has recorded in Pusapatirega mandal parishad with 813 and among STs in Lakkavarapukota mandal parishad has recorded 604. The highest sex ratio has been recorded as 1,206 among SCs in Cheepurupalle mandal parishad and 1,484 among STs in Bhogapuram mandal parishad. Among SCs females are more in 16 Mandal parishads. As regards ST population is concerned the females are more in 14 mandal parishads and in 2 mandal parishads they are equal in number with males. In 16 mandal parishads sex-ratio of SCs is lower than district average sex-ratio(SC) and like-wise in 24 mandal parishads sex ratio of STs is below the district average sex-ratio of STs.

TABLE 20
SEX RATIO AMONG SCHEDULED CASTES AND SCHEDULED TRIBES IN URBAN AGGLOMERATIONS / TOWNS, 2001

This table gives district and mandal-wise literacy rate besides the number of literates and illiterates for total, rural and urban areas with sex break-up are given the literacy rates are worked out by excluding population in the age group 0-6. As per 2001 Census, the proportion of literates to total population excluding the age groug0-6 comes to 51.1% in the district the proportion in rural area is 46.1% against 72.7% in urban areas. In the district the literacy rates of males (62.4%) is much higher than that of females (39.9%).

Among the mandals, Vizianagaram tops with 70.2% literates followed by Parvathipuram mandal (60.8%), Pachipenta mandal with 35.7% literates stands at the lowest in the district. The gap between male and female literacy rate is very high which comes to 22.5% in the district as a whole. The situation at mandal level is not much different.

	District (Rural) Total:	**59,738**	**37,466**	**22,272**	**148,895**	**65,496**	**83,399**	**34.3**	**43.6**	**25.2**	**18.4**

This table explains the number and percentage of scheduled tribes literates and illiterates by sex in mandal parishads recorded in 2001 Census. There are 59,738 (34.3%) literates and among them males 37,466 (43.6%) and females 22,272 (25.2%) in the mandal parishads of the district among scheduled tribes. The gap in male-female literacy rate is 18.4 in the rural areas of the district. This shows the female literacy rate is far lagging behind the male literacy rate. Pusapatirega mandal parishad occupied top place with 53.7% literacy rate and Bondapalle mandal parishad at bottom with 27% literacy rate among scheduled tribes.

The gap between male-female literacy rate is highest in Denkada mandal parishad with 32.9. Similarly, Bhogapuram and Bondapalle mandal parishads reflects at bottom with 11.1 each male-female literacy gap among scheduled tribes.

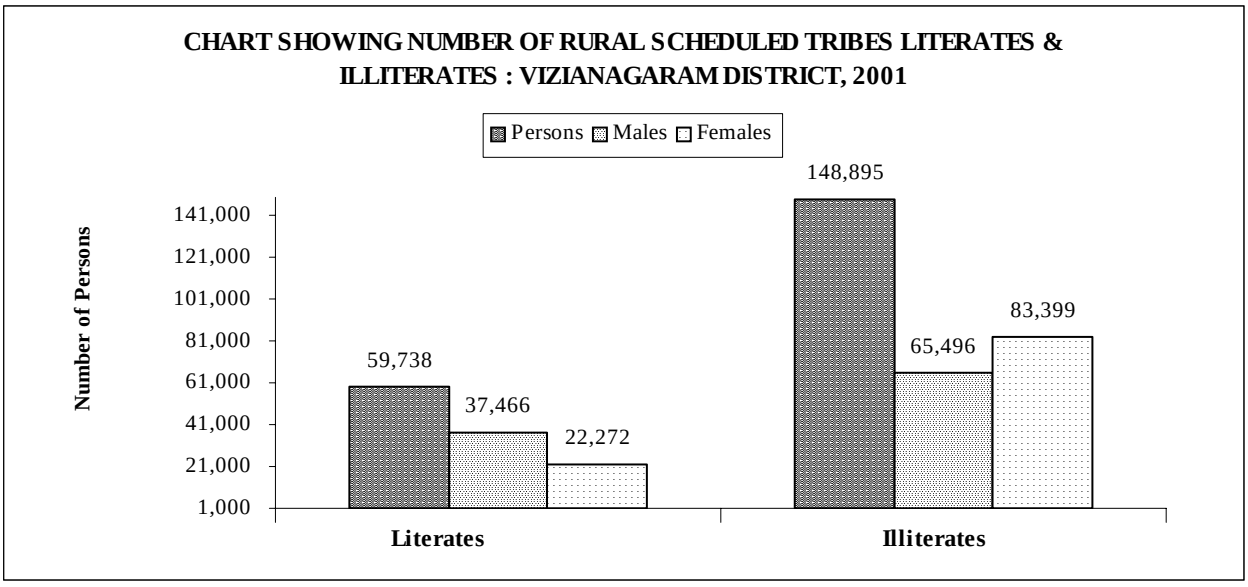

TABLE 29
DISTRIBUTION OF VILLAGES BY LITERACY RATE RANGE FOR SCHEDULED TRIBES POPULATION, 2001

Range of literacy rate for villages	Number of inhabited villages	Percentage distribution of villages	Scheduled Tribes Population	Percentage distribution of population
1	2	3	4	5
0	53	5.1	1,583	0.8
1-10	76	7.3	17,365	8.3
11-20	140	13.5	31,352	15.0
21-30	170	16.4	37,580	18.0
31-40	249	24.0	54,646	26.2
41-50	177	17.0	34,074	16.3
51-60	75	7.2	17,430	8.4
61-70	43	4.1	8,754	4.2
71-80	23	2.2	2,709	1.3
81-90	5	0.5	2,953	1.4
91-99	2	0.2	65	-
100	26	2.5	122	0.1
District Total:	**1039**	**100.0**	**208,633**	**100.0**
Literacy rate for District (Rural):		**34.3**		

This table shows distribution of villages by range of literacy rate for scheduled tribes population returned during 2001 Census. The inhabited villages numbering 1039 with 208633 scheduled tribes population were divided into 12 ranges of literacy ratio is 0, 1-10,11-20 . . . like wise up to 91-99 and 100. The highest number of villages is 249 with scheduled tribes with percentage distribution of population of 26.2 has fallen in the literacy range of 31-40 followed by 177 villages with 34,074 scheduled tribes with a percentage distribution of population of 16.3 fallen in the range of literacy rate 41-50. 53 inhabited villages with 1,583 scheduled tribes fallen in zero range of literacy rate and 26 villages with 122 schedule tribes attained full literacy rate with the range of 100, only two villages with 65 scheduled tribes has fallen in the literacy rate range 91-99. It is noticed that the district literacy rate for rural areas has recorded 34.3.

	District (Urban) Total:	**3,586**	**2,026**	**1,560**	**2,620**	**1,091**	**1,529**	**68.3**	**77.4**	**59.2**	**18.3**

+ Towns arranged in alphabetical order.

This table explains the number and percentage of scheduled tribes literate and illiterates by sex in towns as per 2001 Census. There are 3586 (68.3) literates and among them males 2026(77.4) and females 1560(59.2) in the towns of the district among scheduled tribes. The gap in male female literacy rate is 18.3 in the urban areas of the district. Chintalavalasa(CT) occupied top place with 93.8% literacy rate and Kanapaka(CT) at bottom with 30.2% literacy rate among scheduled tribes. The gap between male-female literacy rate is highest in Kothavalasa(CT) with 37.8% and lowest in Kanapaka(CT) with 1.7 male-female literacy gap among scheduled tribes. This shows a healthy trend among male and female literates in Kanapaka (CT) with 31.1 and 29.4 literacy rate.

This table gives the number and percentage of main workers, marginal workers and non workers by sex at mandal level in the district as per 2001 Census. The proportion of the total workers works out 52.2% of the total population in the district. The total workers are comprised of 40.6% main workers and 11.6% marginal workers and the remaining 47.8% are non-workers.

Among the main working male participation rate in the district is 52.3% whereas in females it is 28.9%. The male and female marginal workers account for 7.5% and 15.7% respectively. The percentage of female marginal workers is higher than the male marginal workers.

The above table shows mandal parishad wise number and percentage of main workers, marginal workers and non-workers by sex for rural population of the district as per 2001 Census. Out of the 1,836,859 total rural population of the district 42.9% has been categorised as main workers and the marginal workers constitute 13.2% and the remaining 43.9% fall in the category of non-workers. The sex wise break up at the district level shows that 53% males and 32.8% females are in the category of main workers. Male and female marginal workers account for 8.3% and 18.1% respectively. The percentage of female marginal workers is higher than male marginal workers. Similar trend is visible at mandal parishad level. The percentage of total rural workers of the district comes to 56.1.

At the mandal level, Gantyada has highest proportion of total workers forming 62.8% of the total population it is closely followed by Garividi with 62.4%, Denkada (60.8%), Lakkavarapukota(60.3%), Mentada (59.5%) and Salur (59.2%). The lowest percentage of 48.1% is recorded in Cheepurupalle mandal parishad.

Note: Percentage of Workers to total workers are given in brackets

The above table gives the details of distribution of workers by sex in four categories of economic activities in mandals of the district as recorded in 2001 Census. It can be seen that the economy of the district is primarily dependent on Agriculture due to the fact that Cultivators constitute 28.3% of the total workers (main + marginal) and remaining 40.1% of the total workers are engaged as Agricultural labourers, Household industry workers 3.7% and other workers 27.9% in the district.

The distribution of workers by four categories of economic activity at mandal level shows very high dependence of population on Agriculture sector absorbing large number of workers. The percentage of female Cultivators is 27.2 which is lower as compared to 29.1% of male Cultivators in the district.

Note: Percentage of Workers to total worker are given in brackets

This table presents mandal parishad- wise distribution of workers by sex in four categories of economic activity as per 2001 Census. In the rural areas of the district total workers constitute (main+marginal) 56.1% of total population. Among that workers, Cultivators constitute 31.8%, 44.4% Agricultural labourers, 3.5% household industry workers and 20.3% other workers.

The agriculture sector plays a major role in providing employment to the working force of rural population despite the fact that it is not commercially viable household industries also could not make much progress in rural areas as reflected in the data and there household industries employ only 3.5% workers of the total working force. Therefore surplus working force has to depend on primary activity.

Among Cultivators, the percentage of female(28.9%) is lesser than male, (34.2%) in the rural areas of the district.

+ Towns arranged in alphabetical order.

This table shows the distribution of workers by sex in four categories of economic activity of urban agglomerations/ towns. In the urban areas of the district, total workers form(main + marginal)34.8% of total population. Among these workers, Cultivators constitute 2.9%, 9.8% Agricultural labourers, 4.9% household industry and 82.4% other workers in the district. The other workers play a major role in providing employment to the working force of urban population. Household industries also could not make much progress in urban areas as reflected in the data and these household industries employ only 4.9% workers of the total working force. Therefore surplus working force has to depend on other working activities.

Among Cultivators, the percentage of females(4.1%) is higher than males (2.5%) in the urban areas of the district.

Note : - Percentages are given in brackets.

* *Based on the improved drinking water source, drinking water supply has been classified as `Improved ' or otherwise. If the household has access to drinking water supplied from a tap or a hand pump / tube well situated within or outside the premises it is considered as having access to `Improved drinking water source'. However, the concept of improved drinking water is state specific and this is to be considered accordingly.*

\# *Post office includes Post office, telegraph office and Post and telegraph office.*

$ *Transport communication includes bus service, rail facility and navigable waterways.*

The above table deals with the mandal parishad wise distribution of villages according to the availability of different amenities like education, medical improved drinking water, post offices, telephone, transport, communications, agricultural credit societies, approach by pucca road and power supply within the villages. Out of 1,455 inhabited villages in the district 1,376 villages or 94.6% have been provided with the education facilities of one type or the other.

Similarly, 642 villages in the district constituting 44.1% have medical facilities of one type or the other. Improved drinking water facility is available in 1266 or 87.0% villages. As regards post offices which include facilities like telegraph offices and post &telegraph 644 villages constituting 44.3% have been provided with post office facility within the villages 686 or 47.1% villages have been provided with telephone facility 737 or 50.7% with transport facility 109 or 7.5% villages with bank facilities and 169 or 11.6% have with agricultural credit societies.

Similarly, there are 821 or 56.4% villages which have been linked with the pucca road. Total 1,455 or 100% villages have been provided with the electricity supply. Almost similar pattern of distribution of villages by availability of amenities in the villages at mandal parishad is noticed.

Note : - Percentages are given in brackets.

** Based on the improved drinking water source, drinking water supply has been classified as 'Improved ' or otherwise. If the household has access to drinking water supplied from a tap or a hand pump / tube well situated within or outside the premises it is considered as having access to 'Improved drinking water source'. However, the concept of improved drinking water is state specific and this is to be considered accordingly.*

 # Post office includes Post office, telegraph office and Post and telegraph office.

$ Transport communication includes bus service, rail facility and navigable waterways.

4. Telephone	138	104	527	769
5. Bus Service	443	162	124	729
6. Banks				
(a) Commercial Bank	432	487	437	1,356
(b) Cooperative Bank	147	344	945	1,436
7. Agricultural Credit Societies	482	333	470	1,285

The above table presents distribution of villages not having certain amenities within the village at district level. They have to go out of their village to avail these facilities. Such villages have been presented in this table according to various distance ranges 83 villages do not have primary school in their villages and out of these villages children of 54 villages have to travel less than 5 kms for schooling, out of 1,455 inhabited villages as many as 1,103 are deprived of middle school and 1,443 of degree college facilities of these 635 avail the facility of middle school at a distance of less than 5 kms, 296 at a distance of 5-10 kms and the remaining 172 at a distance of 10 + kms. In respect of degree college 94 avail this facility at a distance of less than 5 kms, 318 between 5-10 kms and the rest 1,031 villages at a distance of 10 + kms similarly there are 1,438 villages in the district which have been deprived of hospital facility and 1,399 villages which are deprived of PHC facility. Of these 94 villages have the facility of hospital available within 5 kms while in respect of 287 villages the inhabitants have to come a distance of 5-10 kms in order to avail this facility. Similarly 1,057 villages have this facility at a distance of 10 + kms.

As regards PHC 303 avail this facility at a distance of less than 5 kms, 444 at a distance of 5-10 kms and the remaining 652 have to travel at a distance of more than 10 kms to avail this facility.

Regarding post office 811 villages do not have this facility in the village itself. Of these majority of 537 villages have this facility at a distance of less than 5 kms. another 180 villages avail it at a distance of 5-10 kms. Habitants of the remaining 94 villages have to travel 10+ kms. for this facility.

As regards telephone, there are 769 villages which are not having the telephone facility. Of these 138 villages avail this facility at a distance of less than 5 kms, 104 at a distance of 5-10 kms and remaining 527 have to travel at a distance of 10 + kms.

In respect of bus service, it is noticed that 729 villages do not have facility. Among these villages, 443 villages avail this facility at a distance of less

than 5 kms, 162 at a distance between 5-10 kms and 124 at a distance of 10 +kms.

In the entire district, 1,356 villages are deprived of commercial bank facilities and 1,436 of co-operative bank, of these 1,356 villages which are deprived of commercial bank, 432 villages avail this facility at a distance of less than 5 kms, 487 between 5-10, and the remaining 437 at a distance of 10 + kms. Regarding co-operative banks, out of 1,436 villages, 147 villages avail this facility at a distance of less than 5 kms, 344 at a distance of 5-10 kms and remaining 945 at a distance of 10+ kms 1,285 villages do not have agricultural credit societies. This facility is available to 482 villages at a distance of less than 5 kms, 333 at a distance of 5-10 kms and the remaining 470 at a distance of 10+ kms.

TABLE 40
DISTRIBUTION OF VILLAGES ACCORDING TO THE DISTANCE FROM THE NEAREST STATUTORY TOWN AND AVAILABILITY OF DIFFERENT AMENITIES, 2001

***** *Based on the improved drinking water source, drinking water supply has been classified as "improved" or otherwise. If the household has access to drinking water supplied from a tap or a handpump/tubewell situated within or outside the premises, it is considered as having access to "improved drinking water source". However, the concept of the improved drinking water is state specific and this is to be considered accordingly.*

 # Post office includes Post office, Telegraph office and Post and telegraph office.

$ Transport communication includes bus service, rail facility and navigable waterways.

This table deals with the distribution of villages by population range and amenities therein as recorded in 2001 census.

In Vizianagaram district, out of 1455 inhabited villages, 1376 villages (94.6%) have education facility, 642 (44.1%) have medical facility, 1266 (87.0) have improved drinking water facility. 644 (44.3%) have post office facility and 686 (47.1%) have telephone facility. 737 villages (50.7%) have been linked by bus service and 109 ((7.5%) have bank facility. 169 (11.6%) have been served with the agricultural credit societies, 821 (56.4%) villages have pucca approachable road and all villages possess electricity for all purposes.

As many as 499 villages have below 500 population 314 villages have fallen in the population range 500- 999 and 376 villages in the range of 1000-1999.

In the population range of 2000-4999 the number of villages fallen are 230.

Source : Census of India, 2001, H-Series; "Tables on Houses, Household amenities and Assets".

This table indicates that 52.0% households in the district have been provided with improved drinking water supplied from a tap or a hand-pump/ tube well. 48.1% households have provision of electricity to their houses. The bathroom facility is available to only 18.6% households within their premises. As regards rural areas, 11.1% households are having bathroom facility, whereas their proportion in urban areas comes to 54.4%, 41.5% rural households have facility of electricity against 79.5% in urban areas. Toilet and drainage facility in the district are available to 16.5% and 57.7% households respectively. Their percentage is higher in urban areas as compared to rural areas. The trend of these amenities available to the households at mandal level is almost confirm to the district pattern analysed.

Percentages are in brackets.

Source : Census of India, 2001, "H-Series : Tables on Houses, Household Amenities and Assets".

The above table gives number and percentage of households by type of fuel used for cooking. There are nine types of fuels used for which data have been presented in this table. It is observed that wood is the most predominant fuel used for cooking by 77.4% households in the district .In rural areas, use of wood for cooking is high while in urban areas it is less due to availability of L.P.G. The next cooking fuel is gas which is used by 12.5% households in the district. This proportion in urban and rural areas is 37.2% and 7.3% respectively. In rural areas use of gas for cooking is very low as compared to urban areas at mandal level. There are 3.6% households using kerosene in the district use of kerosene for cooking by urban households comes to 15.5% while in rural areas its proportion is only 1.1% as a whole.

The percentage of households using other types of fuel such as crop residue, cowdung cakes,electricity,coal,biogas etc, is insignificant. In rural areas wood is main fuel and in urban areas cooking gas is used as predominant fuel.

Source : Census of India 2001, "H-Series: Tables on Houses, Household Amenities and Assets".

This table presents data for total, rural and urban areas at district / mandal level about households availing banking services and in possession of assets such as Radio / Transistor, Television, Telephone, Bicycle, Scooter, Car etc. There are 5,17,181 households in the district and among them 1,45,486 households have been availing banking services 86,654 households have Radio/ Transistor. Television is possessed by 94,535 households. Telephone is availabe in 20,189 households, Bicycle is used as a major means of transportation and is available in 1,15,295 households. Scooter, Motor Cycle and Moped are used by 22,627 households where as 2,369 households are in possession of car, Jeep and Van. The picture is usage of banking services and possession of assets by households at mandal level is almost similar as analysed above for the district as a whole.

(xiii) Scope of Village Directory and Town Directory - Column heading-wise explanation and coverage of data

The village directory and the town directory presented in the District Census Handbooks are proved more useful. The formats of village directory and of seven statements on town directory are on the same pattern canvassed in 1991 census except for a few additional columns. These additional columns are introduced to throw more insight into the infrastructure of the villages and towns. All the amenities except recreational and cultural facilities, power supply and news papers/magazines are brought under one bracket, with corollary that in case any amenity is not available in the village, the distance of the nearest place where the facility is available is presented. Similar method is followed in respect of towns where educational and medical facilities are not available. The non-census data presented in the village and town directories relate to the year 1999. However, wherever the field agencies have indicated the later position, the information has been updated. Almost all the details in the statement have been indicated by codes. In respect of total population and total number of households, the figures as returned during the recent census i.e. 2001 census have been presented. The scope of village directory and town directory statements with column heading-wise explanation and coverage of data are hereunder presented.

Scope of Village Directory :

In the similar manner as was done in the past, the village directory has been prepared for all the villages in the state and these are presented mandal-wise in the District Census Handbook. This statement contains village-wise area, population, amenities such as educational, medical, communications, drinking water facilities, etc., and also the land use pattern details. The villages are shown in order of their permanent location code numbers. An alphabetical list of villages with their permanent location code numbers and a mandal map has been presented in the beginning of Village Directory of each mandal. This facilitates the reader in locating the mandal in which a particular village lies. The village directory now contains 23 columns as against 18 columns in the 1991 handbook. To give more information under amenities column, banking facilities such as commercial and co-operative banks, agricultural, non-agricultural and other credit societies have been included in the present statement. Similarly, a new column 'number of recreational and cultural facilities' showing cinema/video halls, sports club and stadium/ auditorium has been added. In addition to the above a column showing newspapers/magazines received and name of the most important commodity manufactured in the village have been incorporated. Besides the above, the Village Directory is having 12 appendices viz.

Appendix I :	Abstract of Educational, Medical and other amenities in the village/ Mandal parishad level.
Appendix 1A:	Villages by number of primary schools
Appendix 1B:	Villages by primary, middle and secondary schools
Appendix 1C:	Villages with different sources of drinking water facilities available
Appendix II:	Villages with 5,000 and above population which do not have one or more amenities available.
Appendix IIA:	Census Towns which do not have one or more amenities.

Appendix III:	Land utilization data in respect of census towns / non-municipal towns.
Appendix IV:	Mandal parishad wise list of inhabited villages where no amenity other than drinking water facility is available.
Appendix V:	Summary showing number of villages not having Scheduled castes population.
Appendix VI:	Summary showing number of villages not having Scheduled tribes population
Appendix VIIA:	List of villages according to the proportion of the Scheduled Castes to the total population by ranges.
Appendix VIIB:	List of villages according to the proportion of the Scheduled Tribes to the total population by ranges.
Appendix VIII:	Statement showing number of Girls Schools in the villages.
Appendix IX:	List of Degree Colleges by Village / Town in the District.
Appendix X:	List of Hospitals by Village / Town in the District.
Appendix XI:	List of Banks by Village / Town in the District.
Appendix XII:	List of Cinema Halls by Village / Town in the District.

It may be noted that the Appendix 1A, 1B, 1C, II, II-A, VIII, IX, X, XI and XII have been included afresh in comparison to the District Census Handbooks of 1991 Census.

Columns 1 to 3 relate to the serial number, name of village and location code number and total area of the village. The area given under column 3 is as per the data collected from the state survey department during 1991 census and presented even for 2001 census as the department clarified that there are no changes in the area figures. Column numbers 4 and 5 provide the total population and the total number of households in the village as per 2001 census. Columns 6 to 13 list out the basic amenities available in the village such as educational; medical; drinking water; post, telegraph and telephone; commercial and co-operative banks; agricultural, non-agricultural and other credit societies; recreation and cultural facilities and communications.

The columns 14 to 18 give the details of approach to the village, nearest town & distance, power supply, news paper/magazine circulation and most important commodity manufactured in the village.

The remaining columns 19 to 23 pertain to the land use pattern in the village. The extent of forest area has been given in column 19 while in columns 20 and 23 the extent of irrigated area together with different irrigational sources, the extent of culturable waste including gaucher and groves and the area not available for cultivation such as buildings, roads and railways or under water(rivers and canals), etc., have been given. Here it is worth mentionable that the total area figures of Col. 19 to 23 may not tally with the total area of the village as shown in Col. 3 due to various reasons such as water ways, etc., which are not generally included in the land use statistics.

The land use pattern in the Village Directory conforms to the pattern of classification of land use as recommended by the Ministry of Agriculture, Government of India. The Ministry of Agriculture has recommended the maintenance of records of land use pattern under five categories viz. forests, not available for cultivation, other uncultivated lands excluding fallow lands, fallow lands and net area sown.

The concepts of various types of land use given under each of the columns 20 to 24 as given in the Village Directory schedule are reproduced below:

1. Forests (Col.19) :

These include all actually forested areas and the lands classified or administered as forests under any

legal enactment dealing with forests whether State owned or private. If any portion of such land is not actually wooded but put to some agricultural use, that portion is included under the appropriate heading of cultivated or uncultivated land.

2. Cultivated area with break-up irrigated and un-irrigated (Col. 20 & 21):

This includes the land under the following three categories.

I) Net area sown :

The net area sown represents the area sown to crops counting areas sown more than once in the same year, only once.

II) Other fallow lands :

This includes all lands which were taken up for cultivation but are temporarily out of cultivation for a period of not less than one year and not more than five years. The reasons for keeping such lands fallow may be either due to poverty of the cultivators or inadequate supply of water or malarial climate or silting of canals or rivers or un-remunerative nature of farming, etc.

III) Current fallows :

This class comprises cropped areas which are kept fallow during the current year. If any seedling area is not cropped again in the same year, it is also treated as current fallows.

3. Culturable Waste (Col. 22):

This item includes the land under the following three categories.

i) Permanent pastures and other grazing lands:

These cover all grazing lands whether they are permanent pastures and meadows or not. Village common and grazing lands within forest areas are included under this head.

ii) Lands under miscellaneous tree crops and groves not included in the area sown:

Under this class is included all cultivable land which is not included under net area sown but is put to some agricultural use. Lands under casurina trees, thatching grass, bamboo bushes and other groves for fuel, etc., which are not included under 'Orchards' are classed under this category.

iii) Culturable waste:

This includes lands available for cultivation but not taken up for cultivation or abandoned after a few years for one reason or other. Such lands may be either fallow or covered with shrubs and jungles, which are not put to any use. They may be assessed or not assessed and may lie in isolated blocks or within cultivated holdings. Land once cultivated but not cultivated for five years in succession is also included in this category.

4. Area not available for cultivation (Col.23) :

This includes the land under the following two categories.

i) Land put to non-agricultural uses :

All lands occupied by buildings, roads and railways or under waters such as rivers and canals and other lands put to uses other than agricultural.

ii) Barren and uncultivable land :

This covers all barren and uncultivable land like mountains, etc., i.e. which cannot be brought under cultivation unless at a high cost. Whether such land is in isolated blocks or within cultivated holdings.

All the above particulars are based on the data received from the concerned departments like education, medical, postal electricity, etc., and also mainly from the Mandal Revenue Officers concerned.

Item on communications has been shown separately to spell in terms of availability of the public transport system. This is meant to see whether the village is served by any mode of transport such as bus or rail or waterway. It is against this back-ground that the item on approach to village has been given separately. This refers to road, etc., leading to the village and is to indicate whether the village is approachable both in fair and foul weather and whether it is inaccessible for all time or only some time in the year. Adult literacy class/centre under item on 'Education' and Primary health centre and Community health worker under item 'Medical' of Village Directory are included to indicate statistics on the Minimum Needs Programme of the Planning Commission.

Scope of Town Directory :

There are seven statements in the Town Directory, which include several particulars relating to the towns

arranged as per the alphabetical order of their names. These statements are almost similar to those adopted in 1991 census except for a few changes. During the 1991 there were six Town Directory statements besides providing a separate statement IV-A bringing out civic conditions of the notified slums in class I and II towns. In the present volume the statement IV-A of the 1991 handbook has been termed as statement-VII and the data is presented in respect of all towns having statutory bodies including un-notified slums. The column 4 of statement IV-A of the 1991 book i.e. area of the slum has been deleted in the present book duly substituting the same by giving the information – whether the slum is notified or not with a view that the local authorities are not in a position to provide exact area figures for each slum area. Further in the present statement-VII another item i.e. approximate number of households living in the slum is incorporated. The captions of the statements are as follows:

Statement I	:	Status and growth history
Statement II	:	Physical Aspects and location of town, 1999
Statement III	:	Municipal Finance, 1998-99
Statement IV	:	Civic and other Amenities, 1999
Statement V	:	Medical, Educational, Recreational and Cultural Facilities, 1999
Statement VI	:	Trade, Commerce, Industry and Banking, 1999
Statement VII	:	Civic and other Amenities in slums, 1999

In addition to the above seven statements one appendix for the towns showing their outgrowth with population has also been presented.

The formats of Town Directory have been devised to suit the Minimum Needs Programme of the Planning Commission. To reflect this programme, the columns scheduled castes and scheduled tribes population in statement IV and Adult Literacy classes/ Centres in statement V are identical.

In case such of the amenity as Fire Fighting Service in statement IV, the Educational or Medical facility in statement V is not available in the town, the name of the nearest place and its distance from the referent town has been given. This feature is followed since 1981 census as it is necessary to identify the areas that have no specific facility in the district.

Statement I : Status and Growth History :

This statement provides basic information on civic status, population with decadal growth rate from 1901 to 2001, density for 2001 census and sex ratio from 1981 to 2001 censuses of each town besides presenting class of town, location code, name of the mandal, area in sq.kms. and number of households including houseless households returned in 2001 census.

The columns 1 and 2 relate to serial number and class, name and civic status of the town. The class of town has been determined basing on the size of population as given below.

Population	Class
1,00,000 and above	I
50,000 – 99,999	II
20,000 – 49,999	III
10,000 – 19,999	IV
5,000 – 9,999	V
Below 5,000	VI

The civic status of the town is indicated in brackets by abbreviated letters like 'M.Corp.' for Municipal Corporation and 'NP' for Nagar Panchayat. The location code number under column 3 for the town has been framed in the order of geographical contiguity, beginning from North West point of the district and ending at South East point. After location code the Col. 4-7 indicate name of mandal, name of mandal parishad, area of the town in sq. kms. and number of households including houseless households recorded in 2001 census. The population of the town with decadal growth rate from 1901 census to 2001 census is given in Col. 8-18. The column 19 shows the density of population and column 20 to 22 give the sex ratio recorded during 1981 to 2001 censuses. The sex ratio defined here is number of females per 1,000 males.

The following twelve places are treated as urban areas in Vizianagaram district at 2001 census.

1.Bobbili 2.Chintalavalasa 3.Gajapathinagaram 4.Gajularega 5.Jarjapupeta 6.Kanapaka 7.Kothavalasa 8.Nellimarla 9.Parvathipuram 10.Salur 11.Sriramnagar 12.Vizianagaram

Statement II: Physical aspects and location of town, 1999

This statement contains 13 columns and depicts physical aspects and location of town in the district. Column numbers 1 and 2 relate to serial number and class, name and civic status of the town. The physical aspects such as rainfall in millimetres maximum and minimum temperature in centigrade have been shown in columns 3 to 5 by taking average for the last ten years i.e. from 1990 to 1999. Parvathipuram has recorded highest rainfall of 1435.7 mm followed by Bobbili with 1343.4 mm and Kothavalasa with 1202.9 mm. The remaining towns in the district have recorded rainfall in the range 1024.0 mm – 1202.9 mm. In respect of maximum and minimum average temperature, the town Parvathipuram and Salur have recorded highest with a maximum temperature of 47.8° C and minimum temperature 32.2° C followed by Sriramnagar with 42.0° C maximum and 23.0° C minimum and the towns Kothavalasa, Gajularega, Kanapaka and Nellimarla recorded 41.0° C maximum and 13.0° C minimum temperature. The town Gajapathinagaram recorded lowest temperature i.e 12.5°C maximum and 12.13°C minimum temperatures. In respect of remaining towns viz. Vizianagaram, Bobbili, Jarjapupeta and Chintalavalasa recorded maximum and minimum temperatures ranging between 33.5°C – 36.0°C maximum and 27.2°C – 15.0°C minimum temperature have been recorded. The columns 6 to 12 give the details of name and road distance in Kms. from the referrent town to state, district and mandal headquarters, nearest city with population of one lakh and more, the nearest city with five lakhs and more, Railway station and bus route. The district headquarters Vizianagaram is 739 Kms. away from state headquarters Hyderabad. The town Parvathipuram is far away from the state and district headquarters at the distance of 890 Kms. and 95 Kms respectively. In respect of other towns they are at a distance ranging from 1 Km. To 65 Kms. from the district headquarters. For all the towns except Kothavalasa the nearest city with a population of one lakh and more is Vizianagaram and the nearest city with a population of five lakhs and more is Visakhapatnam. Kothavalasa town is at a distance of 34 Kms. from the district headquarters Vizianagaram and 27 Kms. away from Visakhapatnam. Vizianagaram is 46 Kms. away from Visakhapatnam. All the towns are well connected by both bus and rail transport.

Statement III: Municipal Finance, 1998-99.

The details for inclusion in this statement were obtained from the respective statutory bodies. In the statement there are 16 columns. Column 1 to 2 relate to serial number, name, class and civic status of town. Columns 3 to 9 show the receipts of the local body under various sub-heads and columns 10 to 16 give the details of expenditure incurred on general administration, public safety, public health and convenience, public works and institutions, etc.

Among the four municipalities in the district Vizianagaram is the biggest municipality with an income of Rs. 9.04 crores during the year 1998-1999, while the expenditure during the same period is Rs. 9.34 crores which shows a deficit of Rs. 30 lakhs. The major income of the municipality of Rs. 3.39 crores is derived from the municipal properties. The next major source of income of the municipality is from Government grants, taxes and other sources with Rs. 2.94 crores, Rs. 1.48 crores and Rs. 1.23 crores respectively. In respect of expenditure the general administration takes a lion's share of Rs. 4.81 crores and followed by others and public safety with an amount of Rs. 2.61 crores and Rs 1.02 crores respectively. The next bigger municipality in the district is Salur with a receipt of Rs. 2.84 crores and expenditure 2.09 crores during 1998-99. The other two municipalities i.e Parvathipuram and Bobbili had a receipt of Rs. 2.17 crores and 0.96 crores respectively and expenditure of Rs. 2.20 crores and 0.95 crores respectively. The rest of the eight census towns are very small having income between Rs. 0.21 crore and Rs. 0.01 crore and their expenditure is on the same lines.

Statement IV : Civic and other Amenities, 1999

The title itself reveals that, this statement deals with the facilities provided to the people in the urban areas of the district.

This statement contains 20 columns. Column 1 and 2 relate to serial number, class, name and civic status of the town respectively. Column 3 gives population of the town whereas the column number 4 and 5 gives population of SC and ST as per 2001 census. The lengths of pucca and kutcha roads are recorded separately for each town in column 6. The column 7 shows the details of sewerage systems prevailing in the referent town. The number of latrines with different types is shown in columns 8 to 11. Column 12 is provided separately to show method of disposal of night soil. The source of protected water supply and the system of storage with capacity are recorded under column 13 and 14. Column 15 shows the availability of fire fighting services. In case if this service is not available in the town, the name of the nearest town along with distance where available is mentioned under this column. The columns 16 to 20 relate to different types of electrical connection in number.

The towns Parvathipuram, Bobbili, Salur, Jarjapupeta, Kothavalasa, Gajularega and Vizianagaram are having the fire fighting service. The towns Gajapathinagaram, Kanapaka, Nellimarla and Chintalavalasa are dependent on near by town Vizianagaram. The town Sriramnagar have to requisition the fire fighting service from the village Cheepurupalle which is at a distance of 5 Kms. All most all the towns in the district are having open surface drainage system. The method of disposal of night soil in the towns of Parvathipuram, Sriramnagar, Jarjapupeta, Gajularega, Kanapaka, Vizianagaram and Nellimarla is septic tank method. In Parvathipuram town wheel barrow method of disposal of night soil is prevailing in certain parts. In respect of Bobbili town the night soil is disposed of by basket method. The remaining towns other methods are followed in disposing of night soil. All the towns in the district are having protected water supply methods are followed in disposing of night soil. All the towns in the district are having protected water supply methods like Tap, Tubewell, Tank etc. A good number of domestic, industrial, commercial, road lighting and other electrical connections is existing in all the towns of the district.

Statement V : Medical, Educational, Recreational and Cultural facilities, 1999

In this statement the availability of medical, educational, recreational and cultural facilities are presented with reference to the population of 2001 Census. This statement is containing 20 columns. Column 1, 2 and 3 relate to serial number, class, name and civic status of the town and the population recorded during 2001 census respectively. The columns 4 and 5 show about the availability of different hospitals, dispensaries, T.B. clinics, etc., together with beds strength. Columns 6 to 15 relate to educational facilities such as various schools/ colleges at all levels including Medical, Engineering, Polytechnic, Technical Institutions and adult literacy centres. The column 16 is meant for working women's hostels with number of seats. The number of recreational and cultural facilities such as Stadia, Cinema, Auditorium, Community halls, Public Libraries including reading rooms available in the towns is recorded in columns 17 to 20.

The four municipalities in the district namely Parvathipuram, Bobbili, Salur and Vizianagaram are having number of nursing homes with a good strength of beds to cater the needs of medical facilities. The other census towns though they possess primary health centres, they go to nearby city of Vizianagaram and Visakhapatnam. Almost all the towns in the district are having good educational facilities upto secondary level. All the municipalities possess degree colleges. For professional courses like medical, Engineering, Polytechnic the students of the district go to nearby city Visakhapatnam. The district headquarters Vizianagaram is having nine Degree colleges, one Engineering college and two Polytechnic colleges besides number of Primary schools, Secondary schools and Short hand and Type writing Institutions. All the towns are having adult literacy centres to achieve higher literacy rate. The towns Salur, Gajapathinagaram, Kondapalem @ Sriramnagar, Kothavalasa and Vizianagaram are having working women's hostels. The district is well known for its recreational and cultural activities. Almost all towns except Gajapathinagaram, Kanapaka and Chintalavalasa are having Cinema halls to cater to the people. All the towns except Kanapaka and Chintalavalasa are having Public Libraries. There are no reading rooms in the district.

Statement VI : Trade, Commerce, Industry and Banking, 1999

This statement deals with economic activities in the urban areas with 11 columns. Column 1 and 2 are serial number and class, name and civic status of

the town. The columns 3 to 5 give the details of three most important commodities exported and the columns 6 to 8 show the three most important commodities manufactured. The commercial banks, number of agricultural credit societies and the number of non-agricultural credit societies are furnished in columns 9 to 11.

The urban population of the district except the census towns Gajapathinagaram, Jarjapupeta export items like jute, tamarind, sugar, tiles, groundnut oil, gunny bags, paddy, ferrochrome, oils etc. do exportation. It is noticed towns Gajapathinagaram, Jarjapupeta, export no commodity. Similarly all the towns except Gajapathinagaram and Jarjapupeta manufacture items like groundnut oil, sugar, tamarind, tiles, ferrochrome etc. In respect of Gajapathinagaram and Jarjapupeta no commodity manufactured there. As regards economic activity, almost all towns except Jarjapupeta having commercial banks and agricultural and non-agricultural credit societies. The people of Jarjapupeta town have to go to nearby town for availing banking facilities. In Vizianagaram there are 21 Commercial banks, one Agricultural credit society and 73 Non-agricultural credit societies. In Parvathipuram there are eight Commercial banks and one Agriculture credit society and nine Non-agricultural credit societies are functioning. There are six Commercial banks, one Agricultural credit society and 13 Non-agricultural societies in Bobbili municipality and in Salur municipality there are six Commercial banks, one Agricultural credit society and 20 Non-agricultural Credit Societies are available.

Statement VII : Civic and other amenities in Slums, 1999

This statement gives details of civic and other amenities provided in all slums whether notified or not keeping in view of slums problem in urban areas, during 1981 census this statement was first introduced limiting the details to class I and class II towns. The same pattern was adopted during 1991 census also.

Though the magnitude of slum problem is greater in class I and class II towns, it is accepted that they are associated with smaller towns also. Hence the information on slums has been presented in this statement in respect of all towns having statutory bodies.

The statement on slums contain 17 columns. The columns 1 to 4 show the serial number, class and name of town, name of the slum and whether the slum is notified or not respectively. Column 5 and 6 gives the details of approximate number of households and population of the slum during 1999. The length of the paved road in the slum have been shown in Kms. under column 7. The columns 8 to 13 present system of sewerage, number of latrines both private and community and method of disposal of night sol. The column 14 is meant for showing number of tap points/public hydrants. The last 3 columns i.e columns 15 to 17 relate to number of electric connections under domestic, road lighting points and others.

In Vizianagaram district there are 4 towns having slum areas. They are Vizianagaram, Bobbili, Parvathipuram and Salur.

In the slum area of Vizianagaram there were 14,648 households with an estimated population of 78,014 during 1999. In this notified slum the prevailing system of sewerage is open surface drainage and there are 3,300 water borne private latrines. The method of disposal of night soil in slum is septic tanks. There are 1,446 tap points installed for supply of improved drinking water. The slum is electrified and having 7,556 domestic connections and 1,243 road lighting points.

In Bobbili municipality there are 43 notified slums with an estimated 8,077 households having approximate population of 33,602 persons as on 1999. The total length of paved roads in the slums works out to 21 Kms. The prevailing sewerage system in the slums is the open surface drainage. There are 4,755 private and 9 community latrines. The disposal of night soil is basket method. There are 126 tap points for supply of improved drinking water. The slum areas of Bobbili are provided with 1,399 electrical connections for domestic, 35 road lighting points.

There are 25 notified slums in Parvathipuram municipality with an estimated 5,665 households having approximate population of 25,435 persons during 1999. The sewerage system prevalent is open surface drainage. There are 1,755 latrines which comes under 'Others' category. The method of disposal of night soil in the slums of the town is Wheel Barrows and others. There are 47 tap points in the slums for supply of improved drinking water. As

regards electricity supply, there are 1,817 domestic connections and 213 road lighting points in the slum.

In Salur municipality there are 40 notified slums with an estimated 6,270 households having approximate population of 28,865 persons as on 1999. 24 kms. paved roads is existing in the slums. The prevailing sewerage system in the slums is the open surface drainage. There are 1,206 other type of latrines existing. The details of the method of disposal of night soil is not available. 52 tap points are there to supply improved drinking water to the slum population. In respect of electricity supply, there are 2,691 domestic and 219 road lighting points in the slum areas.

Section I - Village Directory

(a) Note explaining the abbreviations used in Village Directory :

The "Village Directory" is one of the traditional compilations of the Census. It gives the list of villages, their location numbers, their area, population, number of households, amenities such as educational, medical, drinking water, post and telegraph, commercial and co-operative banks, agricultural non-agricultural and other credit societies, recreational and cultural facilities, communication, approach to village, nearest town with a distance, power supply availability of newspaper and magazines, most important commodity manufactured and land use of each village.

Village is a statutory recognized unit having a definite boundary and separate land records. In case, a complete village is treated as an outgrowth of urban agglomeration, data on amenities for that village, have not been given in the Village Directory but shown along with the urban component. The villages which are consider as a Census Town , the amenities data are shown in the Town Directory. For those villages which have partly merged in an outgrowth of U.A., the amenities data are shown in the Village Directory for that particular village.

The 'un-inhabited' villages (villages with no population) have been indicated as such after furnishing details in columns 1 to 3 i.e., Serial number, Name of village & location code number and area of the village against column no. 4 to 18. The land use data for such villages are shown in col. 19 to 23.

The Village Directory format has 23 columns and the details given under each column are for the village are as follows:-

Columns 1 : Serial Number

Self explanatory. All the villages within the Mandal Parishad are presented serially in the ascending order of their location code number.

Columns 2 : Name and Location Code Number of village

The name and location code number of the village are shown against these columns. This also includes the forest and uninhabited villages.

Column 3 : Area of the village

The area of the villages in hectares are given. Wherever the area figures was not furnished by the concerned department the column is left blank.

Column 4 : Total population

The total population of the village as per 2001 Census is given against this column.

Column 5 : Number of households

The number of households as per 2001 Census is given in this column.

Amenities :

In column 6 to 23, availability in respect of different amenities such as education, medical, drinking water, post, telegraph, banks, credit societies, communication, power, approach road etc. in each village has been depicted with appropriate codes against the column concerned. Wherever the amenities are not available in the village, a dash (-) is shown in the column and next to it in brackets the distance in broad ranges viz.< 5 kms., 5-10 kms. and 10+ kms of the nearest place where the facility is available is given. Column wise details are given below

Column 6 : Educational

Classes upto class V included in Primary School. This will include nursery school, kindergarten school. Pre-basic school, pre-primary school, junior basic school upto class V.

Classes from VI to VII are included in the middle school.

Classes from VIII and X included in High secondary school. Classes XI and XII are included in senior secondary school.

In case of composite schools like middle school with primary school or secondary school with middle school, these are also included in the number of primary and middle schools, respectively.

Accordingly any of the following types of institutions if exists within the village is shown as per codes given below :

(i)	Primary School	P
(ii)	Middle School	M
(iii)	Secondary School	S
(iv)	Senior Secondary School	PUC/JC
(v)	College	C
(vi)	Industrial School	I
(vii)	Training School	Tr
(viii)	Adult literacy class/centre	AC
(ix)	Others (specify) e.g. Sanskrit Pathshala, Senior basic school, Navodaya Vidyalaya, Makhtab, etc.	O

More than one institution of a type in the village is indicated by the number within brackets against the abbreviation, e.g. P(3), M(4), etc.

Column 7 : Medical

Availability of medical facility within the village is indicated by following codes :

(i)	Allopathic Hospital	H
	Ayurvedic Hospital	HA
	Unani Hospital	HU
	Homeopathic Hospital	H Hom
(ii)	Allopathic Dispensary	D
	Ayurvedic Dispensary	DA
	Unani Dispensary	DU
	Homeopathic Dispensary	D Hom
(iii)	Maternity & Child Welfare	MCW
(iv)	Maternity Home	MH
(v)	Child Welfare Centre	CWC
(vi)	Health Centre	HC
(vii)	Primary Health Centre	PHC
(viii)	Primary Health Sub-Centre	PHS
(ix)	Family Welfare Centre	FWC
(x)	T.B. Clinic	TB
(xi)	Nursing Home	NH
(xii)	Registered Private Medical Practitioner	RMP
(xiii)	Subsidised Medical Practitioner	SMP
(xiv)	Community Health Worker	CHW
(xv)	Others	O

More than one institution of a type in the village is indicated by the number within brackets against the abbreviations, e.g. H(3), D(4), etc.

Column 8 : Drinking Water

The type of the drinking water supply sources available within the village are indicated by codes as follows :

(i)	Tap Water	T
(ii)	Well Water	W
(iii)	Tank Water	TK
(iv)	Tubewell Water	TW
(v)	Handpump	HP
(vi)	River Water	R
(vii)	Canal	C
(viii)	Lake	L
(ix)	Spring	S
(x)	Others	O
(xi)	Summer Source	SS-

Column 9 : Post, Telegraph and Telephone

It is indicated by codes as shown below whether within the village exists the following amenities:

(i)	Post Office	PO
(ii)	Telegraph Office	TO
(iii)	Post & Telegraph Office	PTO
(iv)	Telephone Connection	PH

Column 10: Commercial and Co-operative Banks

If the village is served by any banking service, commercial bank, co-operative bank etc. the same is indicated in codes mentioned below along with the number of banks in brackets. If not available the distance of nearest place where the facility exist is given:

(i)	Commercial Bank	CM
(ii)	Co-operative Bank	CP

Column 11: Credit Societies

If the village enjoys the services of Credit Societies i.e. Agricultural Credit Societies, Non Agricultural Credit Society or Other Credit Societies, the same is indicated in codes mentioned below along with the number of such societies in brackets. In case the facility is not available within the village the distance of the nearest place where such facility exist is given:

(i)	Agricultural Credit Society	ACS
(ii)	Non- Agricultural Credit Society	NCS
(iii)	Other Credit Society	OCS

Column 12 : Recreational and cultural facilities

If facilities such as Cinema/Video hall, Sports Club, Stadium/Auditorium is available in the village. The same is recorded in these columns. If not available the particulars of the nearest place with the facility is recorded. The information is indicated in codes mentioned below along with the number of such facilities in brackets:

(i)	Cinema / Video Hall	CV
(ii)	Sports Club	SP
(iii)	Stadium / Auditorium	ST

Column 13 : Communications

If the village is served by any mode of public / private transport like Bus, Railway station or Navigable water ways they are to be mentioned as follows:

(i)	Bus Service	BS
(ii)	Railway Station	RS
(iii)	Navigable Waterway	NW

Column 14 : Approach to village

Approach to village refers to the state of road leading to village. The approach to the village is indicated in following codes :

(i)	Paved Road	PR
(ii)	Mud road	MR
(iii)	Foot path	FP
(iv)	Navigable River	NR
(v)	Navigable Canal	NC
(vi)	Navigable waterways other than River, Canal	NW

Column 15 : Nearest Town and distance

The distance is given in kilometres in brackets against the name of the town nearest to the village.

Column 16 : Power supply

Availability of Power Supply in the village, whatever may be the form of its use is given by using following codes :

(i)	Electricity for domestic use	ED
(ii)	Electricity for agricultural use	EAG
(iii)	Electricity for other purposes	EO
(iv)	Electricity for all purposes	EA

Column 17 : News Paper / Magazine

If village receives any News Paper/Magazines the same is noted in this column using following codes

(i)	News Paper	N
(ii)	Magazine	M

Column 18 : Most important commodities manufactured

The name of three most important commodities manufactured in the village is recorded against this column.

Column 19 to 23 : Land use i.e. area under different types of land use

Land use data maintained by the State/ UT Govts. are furnished against these columns. The data concerning area under Forest, Irrigated land (by source), Un-irrigated land, Culturable waste and Area not available for cultivation in the village are shown against these columns. The area figures are given in hectare(s) up to one decimal. Dash '-' is recorded wherever the information is not made available by the concerned department. The codes used for different types of irrigation facilities available in the village are indicated below:

(i)	Government Canal	GC
(ii)	Private Canal	PC
(iii)	Well (without electricity)	W
(iv)	Well (with electricity)	WE
(v)	Tubewell(without electricity)	TW
(vi)	Tubewell(with electricity)	TWE
(vii)	Tank	TK
(viii)	River	R
(ix)	Lake	L
(x)	Waterfall	WF
(xi)	Others	O
(xii)	Total	T

(b) List of Villages merged in Towns and Outgrowths at 2001 Census

(i) List of Revenue Villages that have been fully merged in Towns and Outgrowths at 2001 Census

Serial number	Name of mandal	Name of village	Name of the Municipality/ Nagar Panchayat/ Census Town in which the village is merged
1	2	3	4
1	Parvathipuram	1. Jagannadhapuram	Parvathpuram (M)

1	2	3	4	5

Data Not Available

Section II - Town Directory

Note explaining the abbreviations used in the town directory

Town Directory statements (I to VII)

Statement I : Status and Growth History

Column (2) : Class, name and civic status of town :

Class has been introduced to facilitate analysis of town directory data at the state and all India levels. It is presented according to 2001 Census Population of the town as follows :

Population	Class
100,000 and above	I
50,000 - 99,999	II
20,000 - 49,999	III
10,000 - 19,999	IV
5,000 - 9,999	V
Below 5,000	VI

Town with a population of one hundred thousand (1,00,000)and above is treated as a city.

The civic status of the towns is indicated within bracket against the name of the town. The following abbreviations are used to denote civic status of town.

(I)	Municipal Corporation	M. Corp.
(II)	Municipal Committee	MC
(III)	Municipal Council	M Cl
(IV)	City Municipal Council	CMC
(V)	Town Municipal Council	TMC
(VI)	Municipal Board	MB
(VII)	Municipality	M
(VIII)	Cantonment Board/Cantonment	CB
(IX)	Notified Area	NA
(X)	Notified Town	NT
(XI)	Notified Area Committee/ Notified Area Council	NAC
(XII)	Notified Town Area	NTA
(XIII)	Industrial Notified Area	INA
(XIV)	Industrial Township	ITS
(XV)	Township	TS
(XVI)	Town Panchayat	TP
(XVII)	Nagar Panchayat	NP
(XVIII)	Town Committee/ Town Area Committee	TC
(XIX)	Small Town Committee	ST
(XX)	Estate Office	EO
(XXI)	Gram Panchayat	GP
(XXII)	Census Town	CT

Others columns need no comments.

Statement II - Physical Aspects and Location of towns, 1999

Column 3 to 5 : Physical Aspects

In these columns the Rainfall and Maximum & Minimum Temperature of the town is recorded.

Column 6, 7 and 8 :

Name of the State headquarters, District headquarters and Sub-Divisional headquarters with distance from the referent town in kilometres, is to be recorded respectively. If the names mentioned in these columns are the same as the referent town itself, the distance is recorded as (0) zero.

Column 9& 10 :

Name of the nearest city with one lakh and more and five lakhs and more population are recorded.

Column 11, 12 and 13 :

If referent town enjoys the facility of railway station, bus route facility or navigable river/canal. Its name is to be mentioned. If not available, then the name of nearest place with distance, where such

facility exists is to be mentioned.

Statement III : Municipal Finance 1998 - 1999

Item-wise amount of receipt and expenditure in thousand rupees, relating to municipal finance of the town for the year 1998-99 is to be recorded.

Statement IV : Civic and Other amenities, 1999

Column (1 to 5) : Self explanatory.

Column (6) : Road length (in kms.)

Information about kutcha / pucca road is to be recorded separately for the roads within the limits of the referent town.

(i)	Pucca Road	PR
(ii)	Kutcha Road	KR

Column (7) : System of Sewerage

Generally, by sewerage system is implied the network of mains and branches of underground conduits for the conveyance of sewerage to the point of disposal. Sewers that carry only household and industrial wastes are called separate sewers, those that carry storm water from roofs, streets and other surface are known as storm water drains, while those carrying both sewage and storm water are called combined sewers.

The codes used for different types of drainage system are as follows :

(i)	Sewer	S
(ii)	Open Surface Drains	OSD
(iii)	Box Surface Drains	BSD
(iv)	Sylk Drains	SD
(v)	Cesspool method	CP
(vi)	Pit System	Pt
(vii)	Others	O

Column 8 to 11 : Number of latrines

Number of various types of latrines both Public and Private are given in these columns.

Column 12 : Method of disposal of night soil

The various prevalent method of disposal of night soil are given below with codes :

Head Loads	HL
Basket	B
Wheel Barrows	WB
Septic Tank	ST
Pit System	Pt
Sewerage	S
Others	O

Column 13 and 14 : Water supply

Source and capacity of storage system. The following codes are used in these columns:

Column 13:

(i)	Tap water	T
(ii)	Tube-well water	TW
(iii)	Tank Water	TK
(iv)	Well water	W

Column 14:

(v)	Over Head Tank	OHT
(vi)	Service Reservoir	SR
(vii)	River Infiltration Gallery	RIG
(viii)	Bore Well Pumping System	BWP
(ix)	Pressure Tank	PT

The information on major source of water supply are given in column 13 and the storage capacity against each in kilo-litres (in bracket) are presented in column 14.

Column 15 : Fire Fighting Service

In case the fire fighting service is available in the referent town 'yes' is recorded. If the facility is not available within the town. The name of the nearest place having this facility with its distance from the referent town has been recorded.

Column 16 to 20 : Electrification (Number of connections)

Different types of electric connections have been shown in these columns, i.e. Domestic, Industrial, Commercial, Road lighting (points) & others.

Statement V : Medical, Educational, Recreational and Cultural Facilities, 1999

Column 1 to 3 : Self explanatory.

Column 4 & 5 :

The data covers all such medical institutions

run by or aided by Government/Semi Government/ Local bodies and Charitable institutions or Social agencies like the Missionaries. Where the family planning centres are attached to hospitals or maternity and child welfare centres or Primary Health Centres, may be treated as independent units and counted separately using following codes :

(i)	Hospital	H
(ii)	Dispensary	D
(iii)	Health Centre	HC
(iv)	Family Welfare Centre	FWC
(v)	T.B. Clinic	TB
(vi)	Nursing Home	NH
(vii)	Others	O

In case of more than one institutions of any type, it is indicated within brackets the number of such institution (s) e.g. D(3), NH(8), etc. The institutions have further been distinguished by providing additional codes within the bracket as given below :

Ayurvedic	A
Unani	U
Homoeopathic	Hom

Column 6 to 9 :

The codes used for these columns are as follows:

(i)	Arts only	A
(ii)	Science only	S
(iii)	Commerce only	C
(iv)	Arts & Science only	AS
(v)	Arts & Commerce only	AC
(vi)	Combined for all categories-Arts, Science and Commerce	ASC
(vii)	Law	L
(viii)	University	U
(ix)	Others	O

Column 10 : Recognized shorthand, typewriting and vocational training institutes

"Recognised" should mean recognised by some statutory authority, like education department, commerce department, labour department etc. of the government or semi government or autonomous bodies, public sector undertakings etc.

The following codes are used :

(i)	Vocational Training Institute	VT
(ii)	Shorthand	SH
(iii)	Typewriting	Type
(iv)	Shorthand & Typewriting	SH Type
(v)	Others	O

The vocational institutions like - Applied Art/Painting College, Pharmacy College, B. Ed. College, Teacher's Training Institute, Music / Dance School, Nursing School etc. are covered under 'Others'.

Column 11 to 14:

Higher Secondary/Intermediate/Senior Secondary/ PUC/Junior College level, Secondary/Matriculation, Middle Schools/ Junior Secondary and Primary Schools.

School up to class V are treated as Primary or elementary schools. These include Nursery schools, Kindergarten schools, Pre-Primary schools, Junior Basic schools upto class V and Primary schools upto class IV.

Schools upto VII are considered as Middle school or Junior Secondary.

Schools upto class X are considered as Matriculation or Secondary schools.

Schools upto XI or XII classes are considered as Higher Secondary / Intermediate / Pre University / Junior College etc. This would cover 10+2 classes whether held in schools or college.

If there are composite schools like middle schools with primary classes or Secondary schools with Middle classes, these are also included in the number of Primary and Middle schools, respectively. For example, if in a town, there are two Primary Schools and one Middle school with Primary classes, the number of Primary schools in the town is given as three and that of Middle schools as one though there are only three educational institutions.

If there are more institutions of a type in the town, the number is indicated within bracket along with the abbreviation, e.g. P(4), M(3).

Column 15 : Adult literacy classes/centres

This column has been introduced keeping in view the Minimum Needs Programme of the Planning Commission. There are number of Adult Education Centres which are included in these columns.

If an educational facility is not available in the town, the name of the nearest place and its distance in kilometres from the town where the facility is available is mentioned.

Column 16 : Working Women's hostels with number of seats

The number of working women's hostel if available in the referent town is mentioned with number of seats. If the facility is not available in the town the name of nearest place with distance where the facility is available is recorded.

Column 17 to 19 : Recreational and Cultural Facilities

Stadium, Cinema, Auditorium/Drama/Community Hall are covered under recreational & cultural facilities. The particulars of permanent recreational facilities are considered for these columns.

Column 20 : Public Libraries, Reading Rooms

Number of public libraries and reading rooms available in the referent town are recorded in codes as follows :

(i) Public Library	PL
(ii) Reading Room	RR

Statement VI : Trade, Commerce, Industry and Banking, 1999

Column 3 to 8 :

Name of three most important commodities exported and names of three most important commodities manufactured in the town are recorded.

Column 9 : Number of Banks

Number of Banks available in the referent town both Commercial and Co-operative banks are recorded against this column.

Column 10 & 11 :

Number of Agricultural Credit Societies and Non Agricultural Credit Societies

The total number of Agricultural Credit Societies and Non Agricultural Credit Societies in the referent town are recorded against these columns.

Statement VII : Civic and other Amenities in Slums, 1999

This is the statement on civic and other amenities in all slums whether notified or not and for all towns having statutory bodies, like municipality, Municipal Corporation, Town area committee etc.

Brief note on Primary Census Abstract

The first census of the third millennium and twenty first century the Census of India, 2001 was the 14th continuous and uninterrupted Indian census since 1872. Thus, 2001 Census will provide data on population and its characteristics marking transition from one century and millennium to another.

The gigantic operation of Population Enumeration (considered by many to be the single largest and complex peace time administrative exercise in the world) was made possible due to the door to door universal canvassing of the Household Schedule by about 2 million enumerators and supervisors covering 593 districts, 5,463 sub-districts, 5,161 towns and 638,588 villages. The comprehensive Household Schedule which replaced the individual slip had three parts and two sides A and B. Part I contained the Location Particulars; Part II related to the Individual Particulars and Part III contained questions for Household engaged in Cultivation/Plantation. The part II of the Household Schedule had 39 columns and 23 questions all of which were universally canvassed and no sampling was resorted to during enumeration.

Data Processing

A quantum leap was made in the technology front while processing the Census 2001 data both for Houselisting and Population Enumeration. The Census schedules for both the phases were scanned through high speed scanners in fifteen data centers across the country and hand-written data from the schedules were converted into digitized form through Intelligent Character Reading (ICR) software for creation of ASCII records for further processing. The designing and formatting of the Household Schedule had to be done very carefully using specialized software so as to ensure uniformity, which was an essential pre-requisite for scanning. The selection of appropriate state-of-art technology in data processing has made it possible to produce all the Houselisting as well as Population Enumeration tables on full count basis for the first time in the history of Census. For Census 2001, about 202 million schedules consisting of about 1,028 million records were scanned and processed within a span of only 10 months starting October, 2002.

Task Force on Quality Assurance

After the data is processed, it is expedient on the part of the data producing agency to satisfy itself about its quality before putting the same in public domain. This has to be done mainly through the process of internal consistency, comparison with similar data in the past and also through validation with likewise data if available, from external sources. Quite often the local knowledge and perception has to be brought into play to understand both the existing and the new emerging trends of population distribution and characteristics. The other very important aspect of the data quality is to ensure complete coverage of all geographical areas especially for the population enumeration phase where the data is disseminated right up to the village level in the rural areas and the ward level in the urban areas. Thus ensuring the complete coverage and correct geographical linkage of each enumeration block was one of the major planks of the quality control, specially for small area population statistics.

A very comprehensive check and edit mechanism was put in place to objectively examine the preliminary Census 2001 Population Enumeration results and finally clear them for use. The responsibility of the final clearance of data was with the Task Force on Quality Assurance (TFQA), headed by the Registrar General and Census Commissioner, India. The other members of the TFQA were the Heads and senior officers of the Census Division, Data Processing Division, Map Division, Demography Division and Social Studies Division. The Directors of Census Operations were co-opted as members whenever the TFQA discussed the data for their States/Union territories. The Directors and their senior officers were required to make detailed presentations of data for their own state both in respect to the quality and the coverage and only after the full possible cleared.

There has been a major departure in Census 2001 from the past in respect of the procedure followed for finalization of the Scheduled Castes and the Scheduled Tribes population. In the earlier censuses, the total Scheduled Castes and Scheduled Tribes populations were finalized at the time of the manual compilation of the Primary Census Abstracts (PCA) at the Regional Tabulation Offices which were specially set up for this purpose. The individual Scheduled Castes and the Scheduled Tribes population for each state was finalized much later based on manual coding done by the coders. In 2001 Census, each individual Scheduled Caste and the Scheduled Tribe have been coded directly on the computers by the Data Entry Operators through a process known as Computer Assisted Coding (CAC) and taken up along with the processing of PCA data. The CAC process involves pulling down, from the relevant dictionary of the Scheduled Castes and the Scheduled Tribes, on the computer screen and coding from the dictionary by referring to the image of the specific individual entry in the Household Schedule appearing on the screen. The CAC of the response on Religion wherever required, was also undertaken along with the processing of PCA. This is because the Scheduled Castes status had to be determined in relation to the religion of the individual. Two Special Task Forces, one on Religion and the other on Scheduled Castes/ Scheduled Tribes were constituted for scrutiny and appropriate classification of these responses.

The main task of the Special Task Force on Religion was to appropriately merge or group the new responses encountered and code it into the appropriate religious community based on available literature and local knowledge. The Special Task Force on Scheduled Castes and Scheduled Tribes examined the different Scheduled Castes and Scheduled Tribes entries encoun-tered and classified these into appropriate category of the Scheduled Castes or the Scheduled Tribes principally based on the Presidential Notification and the available literature. Thus a very systematic and scientific mechanism was operationalised to firm up the individual religion and the individual Scheduled Castes/Tribes returns. The Scheduled Castes and the Scheduled Tribes population in 2001 Census, is thus being finalized by aggregating the population data for individual Scheduled Castes and the Scheduled Tribes at appropriate geographical levels.

The entire work relating to the data validation and scrutiny was completed by all the States/Union Territories under the overall supervision and monitoring of the Census Division of the Office of the Registrar General, India with active cooperation and support of the Social Studies Division, Data Processing Division, Data Dissemination Division and Map Division.

Primary Census Abstract

The Primary Census Abstract which is yet another important publication of 2001 census gives basic information on Area, Total Households, Total population, Scheduled Castes, Scheduled Tribes population, Population in the age group 0-6, Literates, Main workers and Marginal workers classified by the four broad industrial categories, namely, (i) Cultivators, (ii) Agricultural labourers, (iii) Household Industry Workers, and (iv) Other workers and also Non-workers. The characteristics of the Total Population includes Scheduled Castes, Scheduled Tribes, Institutional and Houseless population and are presented by sex and rural-urban residence. This data is presented at different levels, namely, India, States/Union territories, Districts and Cities, Urban Agglomerations (Population 1,00,000 and above) in three different tables. In addition, the Appendix of said publication provides Houseless and Institutional Households and their population by residence and sex for 2001 for India, State and Union territory.

Apart from the India and State/Union Territory volumes for Primary Census Abstract, the District Census Handbook contains District Primary Census Abstract, Appendix to District Primary Census Abstract, Primary Census Abstract for Scheduled Castes, Primary Census Abstract for Scheduled Tribes, Village Primary Census Abstract and Urban Primary Census Abstract of the concerned district in the state.

It was for the first time at the 1981 Census that the Primary Census Abstract (PCA) was brought out for the Scheduled Castes and the Scheduled Tribes separately on the pattern of General Primary Census Abstract. This practice was continued in 1991 also. In the 1961 and 1971 Censuses, such data were made available in Table C-VIII-Social and Cultural table and to some extent in the series 'Special Tables for Scheduled Castes/Scheduled Tribes'.

The format of Primary Census Abstract has been restructured slightly in the 2001 Census as compared to that of 1991 Census. The nine-fold industrial classification of main workers given in the Primary Census Abstract of 1991 Census has been discontinued and its place, four-fold industrial classification of both 'main workers' and 'marginal workers' are included. In 1981 census only main workers were presented into four categories. One of the novel features of the primary census abstract of 1991 census was the presentation of data of the population of age group 0-6 is continued in 2001 Census also. This will help the data users in better analysis and understanding of this literacy data.

Level of presentation in District Census Handbooks:

The Primary Census Abstract data in different PCAs are presented at different levels. The level of presentation of Primary Census Abstracts are as under:

	Name of the Primary Census Abstract	Level of presentation
1.	District Primary Census Abstract	District/Mandal Parishad/UA/City/Town
2.	Primary Census Abstract for Scheduled Castes	District/Mandal Parishad/Town
3.	Primary Census Abstract for Scheduled Tribes	District/Mandal Parishad/Town
4.	Village Primary Census Abstract	Mandal Parishad/Village wise
5.	Urban Primary Census Abstract	Town/Ward level

The PCA Data for villages was presented Mandal Parishad wise for the first time in 1991 Census. This practice is continued in 2001 Census also. The data for each Mandal Parishad is presented both for rural and urban areas separately. All the villages within the Mandal Parishad constitute the rural portion and the Census Towns and Outgrowths are shown under the urban portion of the Mandal Parishad. In case a Mandal Parishad is spread over two or more districts, than portion which falls within the district is presented, the data pertaining to remaining portion of the Mandal Parishad is presented in the concerned District Census Handbook. The data in the Urban Primary Census Abstract for each town as well as for town with outgrowths in the district are presented. The data for all the wards and the outgrowths of the town(s) are also presented separately below the concerned town(s).

The District Primary Census Abstract is presented in 59 columns. The Primary Census Abstract for Scheduled Castes and Primary Census Abstract for Scheduled Tribes are presented in 52 columns. The Village Primary Census Abstract and Urban Primary Census Abstract are presented in 58 columns.

The concepts and definitions used in the column heading are explained under the sub heading 'Census Concepts' in the Analytical Note. The term 'Total Population' includes the Scheduled Castes, the Scheduled Tribes, the Institutional and the Houseless populations. The explanation regarding area figures presented at various level in the Primary Census Abstracts are as follows:

Area Figures

The area figures supplied by local revenue authorities of the district in respect of mandals, Police Stations and by the local bodies in respect of towns are given in square kilometres. The area figures of the villages supplied in acres have been converted and shown in hectares. The area figures of the Mandal Parishad is the total of the village areas coming under each Mandal Parishad. The area figures for the district are the same as adopted by the Surveyor General of India to maintain uniformity at the national level. The total area figures of all the Mandals/Mandal Parishad within the district may not tally with area figures of the district because former represents land use area only. Similarly, the total of all the villages area may not tally with the entire rural of Mandal. The difference may be due to the fact that while the area covered by hills, forests and rivers etc, have been accounted in the level the same may not be covered under the area of the villages. Apart from this it may also differ due to varying methods of computation adopted at different levels.

An appendix to District Primary Census Abstract has also been furnished showing urban enumeration block-wise particulars on Total Population, the Scheduled Castes Population and the Scheduled Tribes Population for each town.

Annexure - I
Fertility and Mortality, 1991 Census

Crude birth rate is the most commonly used measures of fertility. To know the fertility rate certain information was collected from all ever married women during 1991 Census such as (i) Age at marriage (ii) number of children ever born alive. For currently married women, in addition to above data, if any child born at preceding one year to the census has also been collected. Definition of fertility measures is given in the chapter on Census Concepts.

Fertility Levels:

Fertility is a natural growth of population to know the fertility rate. During 1991 census, certain information was collected from all ever married women such as age, age at marriage, number of children surviving at present, number of children ever born alive and for currently married women, if any child born at preceding one year to the census. Fertility measures were worked out on F-Series Tables of 1991 Census of Andhra Pradesh.

Annexure –I (a)
Age Specific Fertility Rates/Levels, 1991

Age Group	Vizianagaram District			Andhra Pradesh State		
	Total	Rural	Urban	Total	Rural	Urban
1	2	3	4	5	6	7
15-19	0.062	0.062	0.063	0.085	0.092	0.066
20-24	0.162	0.161	0.167	0.179	0.185	0.162
25-29	0.145	0.149	0.128	0.150	0.155	0.137

45-49	0.017	0.019	0.010	0.020	0.021	0.017

Age Specific Fertility rate:

The Age Specific Fertility rate is higher in the age group 20–24 in Vizianagaram district as well as at state level. This rate at district level is some what lesser than the state figure in all age groups except in the age group 30 - 34 where the district figures are a little more and in respect of age group 35 - 39 it is equal with that of state figures.

Annexure –I (b)
Age Specific Marital Fertility Rates/Levels, 1991

Age Group	Vizianagaram District			Andhra Pradesh State		
	Total	Rural	Urban	Total	Rural	Urban
1	2	3	4	5	6	7
15-19	0.138	0.133	0.159	0.150	0.149	0.158

45-49	0.023	0.025	0.015	0.026	0.026	0.023

Source: 1. F-Series Tables of 1991 Census
2. Andhra Pradesh District Profile 1991 and RG's occasional paper number of 1997
3. Part IV - A - C series tables

Age Specific Marital Fertility rate:

It is seen from the above table that the Age Specific Marital Fertility rate is higher at some instances in the district than that of state figures, while it is below at some instances. These rates are higher in the age group of 20-24 than that of other age groups both in the state and district.

Annexure - I (c)

Estimates of Child Mortality, 1991 Census

Age Group	Vizianagaram District			Andhra Pradesh State		
	Persons	Males	Females	Persons	Males	Females
1	2	3	4	5	6	7
Q1	99	109	86	55	67	51
Q2	104	103	92	56	59	50
Q3	110	115	105	59	61	56
Q5	120	124	118	67	68	66

Child Mortality :

The estimates of Child Mortality (number of Deaths by ages 1,2,3 and 5 given above Annexure as q1,q2,q3 and q5) shows that the level of Child Mortality in the district is higher than state figures both in males and females. The Female Child Mortality is lower than that of Male Child Mortality in the district as well as in the state.

Source: *1. F-Series tables of 1991 Census*
2. Andhra Pradesh district profile,1991 Census
3. R.G's occasional paper of 1997

The above table shows the various measures of fertility and mean age at marriage recorded during 1991 Census. Vizianagaram district has recorded 27.5 CBR, 3.4 TFR, 4.5 TMFR, 106 GFR, 131 GMFR, 3.6 children per ever married women (45-49 years), 402 CWR and 17.9 is mean age at marriage of currently married women.

Annexure III
Percentage distribution of Migrants by place of birth/place of last residence, 1991 Census and 2001 Census

Migration :

During 1991 census, the migrants by place of birth were broadly classified as (a) Migrants born within the State of Enumeration (b) Migrants born in other states of India and (c) Migrants born in other countries. The Migrants born within the state have divided again as (i) Migrants born within the district of enumeration and (ii) Migrants born in other districts of the state.

Annexure – III(a)
Distribution of Migrants by Place of Birth and Percentage, 1991 Census

Place of Birth	Vizianagaram District			Andhra Pradesh State

Source: *Part –VA and VB – D Series, 1991.*

As per the 1991 Census Migration by place of Birth, the migrants in Andhra Pradesh State were 194.6 lakhs comprising of 62.5 lakhs Males and 132.1 lakhs Females. These migrants constitute 29.3% of the Total Population. Males constitute 18.5% of the Males population and Females constitute 40.3% of the Female population. In Vizianagaram district 563,848 persons constituting 26.7% are migrants. Male migrants constitute 16.0% and female migrants constitute 37.3% to the respective sex. Males are forming more percentage in inter district migrants to total more migrants than that of female inter district migrants percentage to total female migrants. Similar in case of international migrants male migrants are more among inter state migrants than female.

In Vizianagaram District females are more migrants in number than that of males except those who born in other countries. Males are forming more

percentage in inter district migrants to total male migrants than that of Female inter district migrants percentage to total Female migrants. Similar in case of inter state migrants also.

Inset table to Annexure III(a)

Source: *Migration Tables (D Series) - 2001*

The migrants by place of birth were returned 194.6 and 228.3 lakhs in Andhra Pradesh State as per the 1991 and 2001 Censuses respectively. It shows a growth rate of 17.3% total migrants over 1991 Census with a breakup of 21.8% males and 15.2% females. In Vizianagaram district the migrants are 563,848 persons as per 1991 Census whereas 619,567 persons are in 2001 Census with a growth rate of 9.9% over 1991 census. In both the Censuses the female migrants are more than male migrants due to marriages.

In respect of inter district migrants, male migrants are forming less percentage than female migrants. In the case of inter-state migrants the males are more than females in both the Censuses as well as in case of intra state also. Similar is in case of International Migrants.

Rural and Urban components of migration :

The rural and Urban composition of internal migrants by place of birth of 1991 census in Andhra Pradesh and Vizianagaram district are shown in the above Annexure.

The flow of migrants by place of births have classified into four streams such as (i) Rural to rural (ii) Urban to urban (iii) Urban to rural (iv) Urban to urban. The data on the basis of these four streams in case of migrants is classified by place of births. It presents data only in relation to internal migration. The above statement gives the information on movement of migration in Andhra Pradesh and Vizianagaram district through the four streams within the state and other states of India. Of the total 184 lakhs of intra state migrants in Andhra Pradesh have been moved from rural to rural with 63.9% followed by rural to urban with 21%, urban to urban with 9.3 and urban to rural 5.7. In case of migrants the place of births from other states of Andhra Pradesh they have been accounted for 10.27 lakhs. The distribution of 10.27 lakhs of migrants where from rural to rural 33.9% rural to urban 21.8%, urban to rural with 10.7% and urban to urban by 33.4%. The higher migration the place of births has found in rural to rural in the state.

Of the total population 4.91 lakhs in Vizianagaram District Inter State Migrants is 70.1% have moved from Rural to Rural and 6.0% have moved from Urban to Urban, 16.2% have moved from Rural to Urban and 6.0% from Urban to Rural.

In Vizianagaram district out of 19,912 Migrants

from other states 36.3% who born in rural areas have settled in rural areas of the district and 15.6% of people from rural areas of other states settled in urban areas. Similarly 16.0% of people who born in urban areas of other states have settled in urban areas and 48.1% have settled in rural areas.

This annexure shows percentage distribution of migrants by place of birth as recorded in 1991 census. For all districts of Andhra pradesh the persons born elsewhere in the district of enumeration works out to 71.0 percent whereas in respect of persons born in other districts of Andhra Pradesh, born in other states and other countries works out to 23.6%, 5.3% and 0.2% respectively. In respect of Vizianagaram district the persons born elsewhere in the district of the enumeration recorded 76.7% and the persons born in other districts of the state returned 19.6%. Among the migrants of the district, the persons born in other states and other countries works out to 3.6% and 0.1% respectively. Out of 1.95 crores of migrants of the state, 563,848 migrants belong to Vizianagaram district. It is interesting to note that the female migrants are more in number than males in all the districts of the state except in Hyderabad district where male migrants are recorded a litter more than females.

Source: *Migration Tables (D Series) - 2001*

The above annexures show the percentage distribution of migrants by place of birth as recorded in both the Censuses of 1991 and 2001 in Andhra Pradesh state. It is observed that 3.0% increase in the migration who were born elsewhere in the district of enumeration with a sex breakup of 3.0% each, whereas in respect of the migrants who were born in other districts of the state, in other states of the country and in other countries are recorded with a difference of -2.2%, -0.8% and -0.1% respectively between two censuses of 1991 and 2001.

In respect of Vizianagaram district the difference between the two Censuses can be observed with the minor variation i.e., 0.8% in the persons born elsewhere in the district of the enumeration, with the sex-wise break up of (-) 0.4% males and 1.2% females. Regarding the migrants from other states in India only a minor variation is recorded with -0.4%.

Among the migrants that are born in Abroad no change is noticed in the percentage variation between 1991 and 2001 censuses.

Annexure IV
Brief account of main religions in the district/ mandal as per 1991 Census and 2001 Census

Religion :

The data on religion has been collected and presented for six major religions viz. Hindus, Muslims, Christians, Sikhs, Jains and Buddhists. In respect of minor religions, they have been classified and shown under the category "Others".

During 1991 Census the religion data was collected through question No.8 of the individual slips and recorded the religion as stated by the individual. A brief account of main religions in Vizianagaram district as per 1991 census is furnished in the following Annexure.

In 1991 census all the six major religions were returned in Vizianagaram district. The total population of the district comprises of 21,10,943 persons. Out of which 2,085,226 persons were Hindus, 13,575 persons were Muslims, 11,278 persons were Christians, 721 persons were Jains, 85 persons belong to Sikhs and 11 persons belong to Buddhist religion. The percentage to total population of Hindus has returned with 98.78% followed by Muslims with 0.64% and 0.53% of Christians. There are 42 persons returned as no religion in the district.

In all 34 mandals Hindu, Muslim and Christian religions have been returned in both rural and urban areas of the district in 1991 census. Among these three religions Hindu religion has dominated in almost all mandals.

Muslim religion occupies 2nd place in the district with 13,575 persons. Vizianagaram mandal has recorded as highest Muslim population in the district with 6,192 persons forming 2.84 percent to total population of the mandal followed by Srungavarapukota mandal with 621 persons and Bobbili mandal with 620 persons. The least number of Muslim persons were returned in Kurupam mandal with 13 persons only.

Though the Christian religion was identified in all 34 mandals, the number of Christians are very less when compared with Hindus and Muslims. Vizianagaram mandal has recorded highest Christians in the district with 1,852 persons followed by Kurupam mandal with 1,463 persons and Salur mandal with 1,401 persons. Only 13 persons have recorded as Christians in Dattirajeru mandal.

The Jain religion has been recorded with 721 persons in the district. They were returned in the urban areas of Vizianagaram and Kondapalem.

Among Buddhists, 11 persons are found in the urban area of Vizianagaram Mandal.

This district has 85 persons in Sikh religion and spread over 3 mandals. The highest number was recorded in Vizianagaram mandal with 43 persons followed by Garividi mandal with 25 persons, Bhogapuram mandal have 6 persons and Komarada only 5 persons.

Source: Religion Data, Andhra Pradesh - 2001

The above table gives the details of Main Religions in the district for 2001 census whereas the previous Annexure shows the details of main religion in 1991 census. During 2001 census the religion data was collected through question number 7 of household schedule. Out of the total population of the district Hindus have returned 98.5% during 2001 census as against 98.8% in 1991 census. In respect of Muslims they have returned 0.7% in 2001 whereas their percentage during 1991 was 0.6%. The next main religion in the district is Christians who returned 0.7% during 2001 census as against 0.5% in 1991 census. In respect of remaining main religions viz. Sikhs, Buddhists, Jains and others their strength in the district is negligible.

Annexure-IV(b)

Percentage distribution of population by major religions in India, Andhra Pradesh and Vizianagaram district and its growth rate during 1981-1991

India-State-District differentials :

The comparative data on religion among India, Andhra Pradesh and Vizianagaram district reveals that concentration of Hindus was higher followed by Muslims and Christians as per 1991 Census findings. Hindus were returned on the higher side in the State with nearly eleven percent more than the national average, while in Vizianagaram district they were more over one percent than national and nearly two percent less than the State. They constituted 82.4%, 89.14% and 98.78% in India, Andhra Pradesh and Vizianagaram district respectively. Muslims recorded as 11.7% in India, 8.91% in Andhra Pradesh and 0.64% in the district. It shows their percentage in the district is less than the percentage of India and the State. The percentage of Muslims in the State is less than the Country, while the percentage of Christians in the country is more than the State i.e.,2.3% in India 1.83% in the State and 0.53% in the district. The strength of Buddhists and Sikhs in the state as well as in the district is negligible. Jains records less than 1% both in the country and state too. Religion-wise growth in the State during the decade 1981-1991 shows that Hindus recorded higher growth rate than India as a whole i.e. 24.74% as against 22.3% in India. The growth rate of Hindus in the district is less than State and Country i.e. 16.82%. The growth rate among the Muslims is also less than that of State and Country i.e. 11.77%. In the state during the decade 1981-91, the Christian population showed negative growth rate of -15.14 where as in the district the percentage of growth rate in the period was 83.4%.

Inset Table to Annexure IV (b)

Source: Religion Data, Andhra Pradesh - 2001

This table gives the comparative data on religions among India, Andhra Pradesh and Vizianagaram district between 1991 and 2001 census, whereas the previous Annexure furnish the comparative data on religion during 1981 and 1991. At India level among the total population returned in the 2001 census Hindus constituted 80.5% as against 82.4% in 1991. The percentage growth rate of Hindus during the decade 1991-2001 has recorded 20.3 whereas the corresponding growth rate during 1981 and 1991 it was 22.3%. It clearly shows that growth rate in Hindu population is diminishing which can be attributed that the people of this religion is more conscious about family planning methods. In Andhra Pradesh the percentage of Hindus has recorded 89.0 whereas the corresponding figure during 1991 was 89.1%. However the percentage growth rate of Hindus has fallen to 14.4 from the percentage growth rate of 24.7 as recorded during the decade 1981-1991. In Vizianagaram district though the percentage of population of Hindus recorded 98.5 as against 98.8 in 1991 their growth rate in 1991-2001 has fallen to 6.2% as against the growth rate of 16.8 % in 1981-1991.

In respect of Muslims, their percentage to total population has recorded 13.4 at India level as against 11.7% in 1991. In Andhra Pradesh their percentage has gone up to 9.2% from 8.9% in 1991. In respect of Vizianagaram district, Muslims constituted 0.7% of total population during 2001, whereas the corresponding figure recorded in 1991 was 0.6. However in this district the growth rate in the decade 1991-2001 has declined to 14% as against the growth rate of 11.8% recorded in 1981-1991.

The other main religion going by numerical strength is Christians. They constituted 2.3% of total population at India level during 2001census. Their growth rate during the decade 1991-2001 is 22.6% at India level as against the growth rate of 16.9% recorded in 1981-91. In Andhra Pradesh their percentage growth rate continues to show the negative trend. The percentage growth rate of this community recorded during 1991-2001 is (-) 2.8 as against (-) 15.1 recorded during decade 1981-1991. In Vizianagaram district during 2001 Christians constituted 0.7 % to total population as against 0.5 % in 1991. The percentage growth rate of this community during 1991-2001 has recorded 37.4% as against 83.4% in 1981-1991. In respect of other main communities their growth rate is negligible.

Annexure-IV(c)

Distribution between Rural and Urban area of Major religions in Andhra Pradesh and Vizianagaram district 1991

Sl. No.	Name of Religion	Andhra Pradesh(in %)		Vizianagaram District(in %)	
		Rural	Urban	Rural	Urban
1	Hindus	76.55	23.45	83.17	16.83
2	Muslims	41.83	58.17	37.39	62.61
3	Christians	60.48	39.52	70.46	29.54
4	Jains	4.11	95.89	0.1	99.99
5	Buddhists	80.41	19.59	-	100.00
6	Sikhs	10.85	89.15	20.00	80.00

3	Christians	55.0	45.0	70.0	30.0
4	Jains	5.0	95.0	3.0	97.0
5	Buddhists	66.0	34.0	27.0	73.0
6	Sikhs	17.0	83.0	32.0	68.0

Source: Religion Data, Andhra Pradesh - 2001

The above table indicates the distribution of major religions between rural and urban in Andhra Pradesh and Vizianagaram district during 2001 census whereas the previous Annexure has given details recorded in 1991 census. In 2001 Census Hindus, and Christians are more in rural areas than in urban areas whereas Muslims are found more in urban areas than the rural areas at the district. At state level Hindus, Christians and Buddhists are more in rural than urban.

Annexure V
Marital status of population as per 1991 Census and 2001 Census

Marital status has been classified as (i) Never Married, (ii) Married, (iii) Widowed and (iv) Divorced or Separated. To ascertain the marital status of a person, it has been made in the following manner.

(i) A person who has never married at any time before, treated him/her as never married

(ii) A person who has been married, whether for the First or another or at any time and whose marriage is subsisting at the time of Enumeration with the spouse living treated such a person as married

(iii) A person whose husband/wife is dead and who has not been married again, treated her/him as widowed

(iv) A person who has been separated from wife or husband and is living apart with no apparent intention of living together again or who has been divorced either by decree of a law of court or by an accepted social or religious custom but who has not re-married, treated such a person as Divorced/Separated.

The following statement shows the Age, Sex and Marital Status composition of the population separately for Total, Rural and Urban in Vizianagaram district.

Marital status:

Among 21,10,943 persons of district population 45.34% were never married, 47.98% are currently married and 6.08% are Widowed, 0.60% are Divorced or separated persons were found in all the age groups i.e. even after age of 44 years. It is evident from the Annexure-V that childhood marriages are still prevalent in the district. As per the statement, 1,391 males and 3,100 females were currently married in the age group of 10-14 years. It is pitiable to note that about 400 persons were found widowed in the age group of 10-19 years. Perhaps childhood marriages contribute major role in going for divorce or separation. About 650 persons got separated in the age group of 10-19 years. Among the divorced and separated persons highest percentage i.e. 1.27% was found in the district in the age group of 30-34 years.

Source: Socio-cultural Tables (C-Series) - 2001

The above inset table gives the details by age, sex and marital status composition of the population separately for total, rural and urban areas of the district during 2001 census, whereas the previous Annexure shows the above details for 1991 census. In 1991 while furnishing age group-wise marital status data, a separate age group 15-44 where the marital status was high has been shown. In 2001 census keeping in view of persons aged less than 18 years and persons aged less than 21 years, being high concentration of marital status, has been furnished. In the district population of 2,249,254 persons, 549,929 (24.4%) males and 438,186 (19.5%) females were recorded as never married. In the total district population, 544,598 (24.2%) males and 563,126 (25.0%) females were found married during 2001 census. It is pity to note that as against 118,207 widows 22,246 widowers were found in the district during 2001 census. The reason for high percentage of widows can be attributed to aged males marrying younger females. As against total population of 820,476 persons in the age group less than 18 years, 51.2% males and 47.7% females were found never married in 2001 census. In respect of married persons under the age group less than 18 years, only 0.1% males and 0.9% females were recorded in 2001 census which means public are more conscious about Marriage Act and also ill-fate of early marriages. Similar trend is noticed both at rural and urban areas even for age group less than 21 years. There is no much variation in the figures of marital status of the district between 1991 and 2001 censuses.

Annexure VI
Age , sex and Education in the district as per 1991 Census and 2001 Census

The education table was worked-out on the basis of literates in the district.

Definition of literate :

A person who can both read and write with understanding in any language is to be considered as literate. If a person who can merely read but cannot write is not a literate. It is not necessary that a person who is literate should have received any formal education or should have passed any minimum educational standard. All the children in the age of 6 years or less have been treated as illiterate even if the child is going to school and may have picked up reading and writing.

The following table gives age, sex and education in the district at 1991 Census:

Annexure VI

Source: Part IV A-C Series, Census of India, 1991 Andhra Pradesh

It is seen from the above statement that among school going age group between 49.51% and 69.25% are literates, while total literates in the district has been worked out to 34.19%. Females are accounted only 22.47% literates as against 45.93% among males. In all the age groups male literacy is considerably dominating over females. Highest educated are found in the persons aged 11 years in both the sexes.

Source: Socio-cultural Tables (C-Series) - 2001

The Annexure presented in the pre-page gives the details of Age, Sex and Education in the district for 1991 census whereas the above inset table reveals the data for 2001 Census. As was done in the previous Census, the children in the Age group 0-6 have been treated as illiterates even in 2001 census. It is seen from the above table that the district has recorded 51.1% literates in 2001 as against 34.2% literates in 1991. In the district the literacy rate for males has recorded 62.4% as against 39.9% in females during 2001 Census. From the above inset table it is noticed that in the school going age groups i.e 7 to 14 years, their literacy rate recorded between 71.9% and 78.0%. In all the age groups male literates are dominating females. The highest educated are found in the age group 9 years with 89.2% and their sex-wise breakup recorded 91.8% in males and 86.6% in females. It is a good trend that the essentiality of the education is felt much by the general public.

Annexure VII
Distribution of different mother tongues returned in 1991 Census at District/ Mandal level and the data at District level for 2001 Census

Mother Tongue :

Mother tongue is the language spoken in the childhood by a person mother to the person. If mother dies in infancy, the language mainly spoken in the person's home in childhood will be treated as mother tongue. In the case of infants and deaf-mutes the language usually spoken by the mother will be the mother tongue. A very large number of mother tongues have been returned during 1991 Census. It lead to thorough scrutiny and rationalisation, which resulted in 1,576 rationalised mother tongues and 1,796 names were treated as unclassified or "others". The 1,576 rationalised mother tongues were further classified following the usual linguistic methods for rational grouping based on available linguistic information. Thus a total inventory of classified mother tongues returned by 10,000 or more speakers at the all India level were grouped under appropriate languages, where possible, was prepared for final presentation of the 1991 Census data. The total number of languages so arrived at is 114. Of which 18 languages are included in Eighth Schedule to the constitution of India(Scheduled languages).

The State language "Telugu" is mainly spoken in Vizianagaram district. During 1991 Census this language has returned 20,35,336 persons comprising 98.64% followed by Oriya with 0.50% and Urdu with 0.44%. Besides many other languages were returned in the district, but their percentage is negligible. Telugu language has occupied 1st rank in the district being the regional language in the state.

Telugu has also dominated in all 34 mandals in the district. Oriya, Urdu and Hindi were also returned in the district. Oriya has identified 2nd place in Vizianagaram, Bobbili, and Salur mandals. Urdu has 3rd place in Kurupam and Parvathipuram mandals and Hindi has occupied 4th place in Vizianagaram mandal. 20 languages are found in Vizianagaram mandal followed by Parvathipuram 14 languages, Bobbili and Salur mandals each 11 languages.

The details of languages returned in the district are given in the following Annexure with rural urban break up by sex in the mandals.

	Grand Total	**2,249,254**	-

N= Negligible

The above inset table gives the abstract of the languages as mother tongues and their strength in the district recorded in 2001 Census whereas the previous annexure shows the details for 1991 census. In 1991 the data was presented in alphabetical order whereas in 2001 the mother tongue data has been presented basing on their numerical strength in descending order. The mother tongues having minor returns have been clubbed together and added in the category of 'Others'. Telugu being the region's language has recorded 94.8% to total population in the district with a slight decline in the percentage recorded in 1991. The next important languages being spoken in the district are Oriya with 13,941 persons and Urdu with 9,994 persons whereas their strength recorded in 1991 Census were10,215 and 9,144 respectively. The important languages classified under 'Others' category in the district are Jatapu with 39,080 persons and Savara with 26,052 persons. In respect of other scheduled languages it is noticed that their strength is negligible both in 1991 and 2001. In the district almost all the scheduled languages (except Kashmiri) returned.
