ACKNOWLEDGEMENTS

At the 1971 Census it has been our endeavour to compile both Census and Non-census statistics at the village and block level in a uniform manner. To ensure that these statistics are available to the users as soon as these are sifted and compiled, the District Census Handbook has been divided into three parts. This is the first part of the series, the Village and Town Directory, which mostly comprises Non-census data.

We are deeply indebted to the State Government for their ever willing and prompt help to us at all stages The District Census Handbooks are being published by us on their behalf. I wish to express my gratitude to Sri M. Lal, Chief Secretary to U. P. Government for all the guidance and facilities afforded to us in the conduct of Census in this State. I am also grateful to Sri P. C. Pandey, Secretary, G A D. (Now Commissioner, Rohilkhand Division, Bareilly) and his successor. Sri A P. Dixit, for the facilities given by them in sorting out various administrative matters relating to the publication of these Handbooks. I am extremely thankful to the District Officers for their whole hearted co-operation in furnishing the desired information and the District Census Officers for their hard work and sustained efforts in collecting the same.

The programme for the printing of District Census Handbooks has been heavy indeed, more so as three parts are being published, one in Hindi and two in English. The arrangements made by Sri A. Dar, Superintendent, Printing and Stationery, U.P., Allahabad for the printing of these volumes, are thankfully acknowledged. Joint Superintendent, Sri J S. Gupta, In-charge New Government Press, Aishbagh, Lucknow has also been extremely helpful in bringing out the maps.

In the Census Office, everyone has done something for this stupendous task of compilation and collation of statistics, preparation of notes and reading of proofs. I am grateful to Sri K. S. Sinha, Deputy Director, Headquarters, the Tabulation Officer, and other staff of the Technical Section, who have shared the burden and helped in bringing out these Handbooks.

I must also express my gratitude to Sri A. Chandra Sekhar, Registrar General, India, Sri K. D. Ballal, and Dr. B. K. Roy Burman, Deputy Registrars General and Sri K K. Chakravorty, Central Tabulation Officer for their constant help and guidance despite their own heavy preoccupations.

D. M. SINHA
Director of Census Operations
Uttar Pradesh,

Lucknow
Dated · October 3, 1972.

INTRODUCTORY NOTE

1. History of District Census Handbook

It has been customary to bring our vital statistics at most of the Censuses. A list showing the population of villages in each district was published after the 1891 Census. Such information was however, not brought out in 1901 Village Directories were prepared for all districts in 1911, but could be published only for thirteen due to the outbreak of the First World War. At the 1921 Census, these were published for all districts in the form of District Census Statistics. In 1931 villagewise statistics were compiled but could not be published owing to financial stringency resulting in loss of valuable data At the 1941 Census, restricted tabulation was undertaken in the wake of the Second World War, but the utility of Census statistics was recognised and these were published The District Census Handbook in its present form was brought out at the 1951 Census, and was published alongwith another volume titled District Population Statistics. In 1961 Census, attempts were made to render the District Census Handbook more informative, as in addition to Census data pertaining to each village, data about its level of development and amenities were also collected. At the 1971 Census, efforts have been made to compile both Census and Non-census statistics at village/town level in a uniform manner with an enlarged scope.

As the District Census Handbook makes Census statistics available for the smaller territorial units, it is constantly referred to for several purposes of administration, demarcation of electoral constituencies, planning and development and so on To ensure that these statistics are available to the users early, the District Census Handbook has been divided for being published separately into three parts :

Part A : Town and Village Directory.

Part B : Village and Town-wise Primary Census Abstract.

Part C : Analytical Report and Administrative Statement—District Census Tables.

2. Scope of District Census Handbook

Part A of the Handbook comprises the Town and Village Directory In Village Directory, Particulars of amenities in regard to Education, Medical, Power supply, Drinking water supply, Post and Telegraph and Communications have been given. Besides it contains land-use statistics, days of weekly markets and places of religious, historical or archaeological interest in each village The Town Directory comprising seven statement throws light on the status of the town, its origin, growth of population, functional category, location and physical aspects, Municipal finances, Civic and other amenities Medical and Eductional facilities and statistics pertaining to Trade, Commerce, Industry and Banking Apart from these, it also gives the distribution of population of a town by Religion and Scheduled Castes/Scheduled Tribes.

Part B represents data down to village level for rural area and block level for towns. It contains the Primary Census Abstract which incorporates figures, of area, number of occupied residential houses and households, total population and its break-up by sex, scheduled caste and scheduled tribe, literate population, working population by nine broad industrial categories of cultivators, agricultural labourers, workers engaged in forestry and livestock etc , in mining and quarlying, in manufacture or repair, in construction, in trade and commerce, in transport and communications and in other services as well as the non-working population

Part C deals with the administrative statistics pertaining to the district in all field of development. The Census tables pertaining to language, religion, migration and economic activities are being reproduced in this part A write up indicating changes in socio-economic and demographic characteristics of the district during the last decade is also being included in it.

3. Town Directory—given in Part A presents data for all the Census towns to the district. There is no uniformly accepted definition of a town. The historical, political cultural and administrative considerations are generally taken as criteria for rural-urban classification. An urban area, in contradistinction to the rural, comprises a large majority of inhabitants who are engaged in industrial and non-agricultural activities In addition to its size, population and occupational characteristics, an urban area provides such facilities as transportation, banking, commercial and technical services, community facilities and other civic services. According to the State Government, all Municipal Corporations, Municipal Boards, Cantonment Boards, Notified Areas and Town Areas are considered as towns, and according to their average annual income from their own resources, these have been classified into different classes of local bodies. The criteria adopted under the Census Operations is slightly different from the State Government. In 1971 Census all places satisfying the following conditions have been treated as Towns :—

1. All Municipal Corporations, Municipal Boards, Cantonments & Notified Areas
2. All localities though not in themselves local bodies but forming part of a city or town agglomeration.
3. Other places satisfying all the three undermentioned conditions :
   (i) Population exceeds 5,000
   (ii) At least 75 % of the male working population engage in non-agricultural pursuits, and
   (iii) The density of population exceeds 1,000 persons per sq. mile (386 persons per sq. km.)

The information given in the Town Directory relates to the year 1969. The data has been persented in the following seven statements :

(**a**) **Statement** I—This statement presents the population of the towns at the end of each decade from 1901 to 1971, the Civic status of the towns and their functional categories at 1961 and 1971 Censuses. The functional categories given in columns 14 and 15 have been determined on the basis of the predominant functional character of the town, to derive which the working population under the broad industrial categories has been regrouped into five broad functional classifications .

(i) Primary Activities-Categories I, II, III & IV
(ii) Industry-Categories V (a), V (b) and VI
(iii) Trade and Commerce-Category VII
(iv) Transport-Category VIII and
(v) Services-Category IX

For each town the percentage of workers under each of the aforesaid classes to total workers is worked out and where the workers under one of the classes comprise 40 % or more of the total workers, the town is taken as mono-functional In other cases, the next predominant occupation is taken into account and if the total of the two comes to 60 % or

above, the town is designated as bi-functional If the total does not yield 60% the third predominant occupation is also taken and such a town is treated as multi-functional.

The notations used in column 5 of the statement are :

C—Municipal Corporation

M—Municipal Board

NAC—Notified Area Committee

TC—Town Area Committee

CB—Cantonment Board

(b) Statement II—This statement gives the physical aspects and location of towns The annual rainfall, maximum and minimum temperature, nearest city with its distance, name of district and tahsil headquarters, railway stations and bus routes etc. have been indicated. The Geographical Co-ordinates of towns given in col. 3 have been supplied by the Director of Regional Meteorological Centre, New Delhi.

(c) Statement III—*It reveals the municipal finances for the year 1968-69.* The receipts through taxes and other sources alongwith the expenditure on general administration, public works and conveniences have been given therein.

(d) Statement IV—In this statement, the Civic and other amenities available in the town have been shown such as the system of sewerage, drainage, the number of latrines and method of disposal of night soil, the source and capacity of protected water supply, fire fighting service and electrification. The notations used in the statement are as below :

Col. 3	PR	.....	For	Pucca Road
	KR	.....	,,	Kachcha Road

	HL	.....	,,	Head Load
	MT	.....	,,	Mechanical Transport
Col. 9	TW	.....	,,	Tube Well
	OHT	.....	,,	Overhead Tank

(e) Statement V—The medical, educational, recreational and cultural facilities available in the towns have been shown in this statement with the help of the following notations :

Col. 3	H	.....	For	Hospital
	D	.....	,,	Dispensary
	HC	.....	,,	Health Centre
	FC	.....	,,	Family Planning Centre
	TBC	.....	,,	T.B. Clinic
	MCW	.....	,,	Maternity and Child welfare Centre
Col. 5	AS	.....	,,	Arts and Science College
Col. 17	PL	.....	,,	Public Library
	RR	.....	,,	Reading Room

(f) Statement VI—This statement contains information relating to trade, commerce, industry and banking facilities in the towns. The names of important commodities maunfactured, imported and exported, the number of banks and agricultural as well as non-agricultural credit societies are given in the statement. The commodities mentioned

therein are those having the highest value in currency, In a few cases if the town is famous for manufacturing or exporting some particular item, even though the money value is not high, such items have been included.

(g) **Statement VII**—The Census table C-VII giving distribution of population by religion and scheduled castes/scheduled tribes has been reproduced in this statement. Where sex-wise following of the more common religions viz. Hinduism, Islam, Buddhism, Jainism, Sikhism and Christianity has been given separately, the persons belonging to other religions and pursuations have been shown in columns 15 and 16 under the heading of 'others.'

Village Directory—reveals the general living conditions of peasantry and the overall development that has taken place in the country side. The amenities available within each village in the field of education, medical and health, power-supply drinking water, communications, post and telegraph have been given in columns 4 to 9 of this Directory. Besides, the information relating to staple food, distance from nearest town,days of market/ *hat* and places of religious, historical or archaeological interest is also given in the statement. If the village is uninhabited or power is being used for agricultural purpose only, these characteristics have been indicated in the remarks column.

The land use statistics are constantly in demand for agricultural production programme. These statistics have been given in columns 11 to 15 under the headings (i) Forest, (ii) Irrigated, (iii) Unirrigated, (iv) Cultivable waste and (v) Area not available for cultivation. In column 12, the irrigated area under different sources of irrigation has been separately given

The villages have been arranged according to the code numbers allotted to them at 1971 Census. The information has been presented with the help of the following abbreviations :

Column 4

An appendix has been included summing up the amenities at district level with tahsil wise break up.

THE DISTRICT

A—Town Directory

(a) **Statement I**—Deoria has four towns namely Deoria, Gaura Barhaj, Padrauna and Siwarhi. In 1961 there where three towns in the district and Siwarhi has now been added to the list. The functional distribution of the towns is as below .

Table 1

Functional Category	Name of Towns
Services-cum-Commercial-cum-Industry.	Deoria
Primary Activities-cum-Industry-cum-Commercial	Gaura Barhaj
Industry-cum-Commercial-cum-Primary Activities.	Padrauna
Commercial-cum-Industry.	Siwarhi

It would be seen from the above table that three towns out of four are multi-functional towns. Service class predominates with 35·56% of the working population. followed by Commercial group comprising 24·18% of working population in Deoriay The Industrial group predominates in Padrauna with 31.07% workers followed by 24.06% Commercial workers. 29.91% of the working population is engaged in primars activities followed by 24.90% workers in Industrial groups in Gaura Barhaj. Siwarhi i the only bi-functional town with 36.35% workers belonging to Commercial group followed by 26.60% Industrial workers.

(b) **Statement II**—The physical and locational aspects have been covered in this statement. The figures of annual rainfall and maximum and minimum temperature were not available for each town with the Director of meteorological Centre, Delhi, so the information given in Col. 4–6″ relates to the nearest observatory in Gorakhpur.

(c) **Statement III**—The per capita receipt and Expenditure by the local bodies in the four towns is as below :

Table 2

		PER CAPITA						
		Receipt (Rs.)			Expenditure (Rs.)			
Class of Towns	No. of Towns	Total Receipt	Receipt through Taxes etc.	Receipt from all other sources	Total expen-diture	Expenditure on public health and convenience	Expenditure on public institu-tions	Expendi-ture on all other aspects
1	2	3	4	5	6	7	8	9
Class III 20,000 to 49,999 Deoria	1	37.34	22.84	14.50	36.81	7.90	9.77	21.14
Class IV 10,000 to 19,999 Gaura Barhaj & Padrauna	2	24.24	10.74	13.50	19.29	9.14	1.13	9.02
Class V 5,000 to 9,999 Siwarhi	1	3.31	0.53	2.78	2.25	0.13	...	2.12

The per capita receipt of Class III, IV & V towns is Rs. 37.34, 24.24 and 3.31 respectively. Against this the per Capita expenditure is Rs. 36.81, 19 29 and 2.25 respectively.

(d) **Statement IV**—All the towns have protected water supply and road lighting arrangement but fire fighting service is not available in any of the towns. There is no arrangement of mechanical transport for removing night soil but baskets are used for the purpose in Gaura Barhaj and Siwarhi. Hand carts are used in Deoria and Padrauna for the purpose.

(e) **Statement V**—All the towns of the district have medical institutions. One T.B. clinic is established in each of the towns at Deoria and Padrauna. The total number of beds in the medical institution in all the towns of the district numbers 277. The highest number of beds (220) exist in Deoria and minimum number of beds (8) in Gaura Barhaj. The number of beds per 1,000 population has been shown in the following table.

Table 3

Total No. of beds in Medical Institutions	No of beds per 1,000 population
277	3 (3.33)

One Degree College with Arts, Science and Commerce faculties is located in each of the towns Deoria and Padrauna. One Degree College with Arts faculty also is located in Deoria. There is no medical college, engineering college or polytechnic in any of the towns. The number of Higher Secondary, middle and Primary schools (1969) per 1,000 population are given in the following table :

Table 4

Name of Town	No. per 1,000 population			
	Higher Secondary Schools	Middle Schools	Primary Schools	Others
Deoria	0.23	0.18	0.68	
Gaura Barhaj	0.17	0.22	0.67	
Padrauna	0.15	0.36	0.62	
Siwarhi	0.13	...	0.40	
Average	0.19	0.22	0.64	

(f) **Statement VI**—Sugar is the main commodity manufactured and exported from Deoria, Padrauna and Siwarhi, Painting brushes are manufactured and pulses are exported from Gaura Barhaj. Grain is the main article imported in Deoria, Gaura Barhaj while Sugar Cane is imported in Padrauna.

(g) **Statement VII**—The population of all the towns is largely shared by Hindus (34.73) and Muslims (14.79) The percentage growth of Hindu Population of these towns during the last decade is 46.91% whereas the growth rate of Muslim population is 32.77%.

The percentage of scheduled Caste persons is higher (8.58) in comparision to scheduled tribe (0.10%).

B—Village Directory

(a) According to their area in acres the villages have been stratified in the following table.

Table 5

Area (in acres)	No. of Villages	Percentage
50 acres or less	185	4.86
51–100	456	11.98
101–200	967	25.40
201–500	1443	37 90
501–1000	579	15.21
1001–2000	154	4.05
2001–5000	21	0,55
5001 acres and above	2	0.05
Total	3807	100.00

It is evident from the above table that the number of villages having an area of more than 200 acres but not more than 1,000 acres are highest claiming the percentage of 63.30. Thereafter, the number of villages goes on decreasing as the size of villages increase. There are only 2 villages having an area exceeding 5,000 acres. As regards smaller villages, there are only 185 having an area of less than 50 acres.

(b) The distribution of villages having educational institutions is given in the following table.

Table 6

Distance from the nearest town (in kms)	Total no. of villages	No. of villages having				
		Primary Schools	Middle Schools	Higher Secondary Schools	Colleges	Others
0-5	227	67	7	2	2	1
6-10	463	153	23	7	...	2
11-15	661	213	25	8	...	....
16-25	1,003	304	58	18	2	....
26-50	1,158	398	56	18	5	1
51-100	295	101	12	7	1	1
101-200	...	...	...	..	...	....
201 and above	...	...	...	...	...	....
Total	3807	1236	181	60	10	5

The above table shows that the largest number of institutions (41.33%) including Higher Secondary Schools exist in the villages situate between 51 to 100 kilometers from the nearest town. The villages which lie within a radius of 5 kms. have the least no. of institutions (34.80%).

(c) 22 villages in district Deoria have hospitals. If all kinds of medical institutions including dispensaries, health centre etc. are taken into account, 58 villages out of 3,807 have medical institutions.

The following table presents the number of medical institution per 100 Sq. Kms.

Table 7

Name of Tahsil	Total area (in sq. Kilometers)	No. of medical institution of any kind per 100 sq. Kilometers
Hata	1419.93	1
Padrauna	1444.48	1
Deoria	1251.55	1
Salempur	1278.89	1

It transpires that all the tahsils in the district have one medical institution each per 100 Sq. Kms.

(d) 730 villages are electrified in the district out of 3,807 villages, Their percentage comes to 20.49

The largest number of electrified villages (1230) lie in Tahsil Salempur anp minimum in Tahsil Hata (720), The power supply in villages with reference to their distance from the nearest town is given in the following table :

Table 8

Distance from the nearest town (In Kms.)	Total No. of villages	Number of villages with Electric Power supply	
		Total	Percentage of total electrified villages to total villages
0-5	227	75	33.04
6-10	463	92	19 87
11-15	661	130	19.67
16-25	1,003	220	21.93
26-50	1,158	251	21.67
51-100	295	12	4.07
101-200	..	..	..
201 and above	..	..	..
Total	3,807	780	20.49

The percentage of electrified villages to the total villages is highest (33.04) for those, situate within a radius of 5 sq. kilometers and the minimum percentage of 4.07 is for *those situate at a distance 51 to 100 kms. from the nearest town. It is evident from* the above table that the percentage of electrified villages to total villages generally decreases with the increase of distance from the nearest town.

As many as 93.09% of the villages of the district have means of communications 67.74% villages are connected by Kachcha roads & 21.51% of villages by Pucca road whereas only 1.23% of villages are connected by rail. The nature of communications have

been shown in the following table, where the villages have been classified according to their distance from the nearest town.

Table 9

Distance from the nearest town (in Kms.)	Total No. of villages	No. of villages connected by							
		Pucca Road	Kachcha Road	Pucca & Kachcha Road	Pucca Road& River	Kachcha Road& River	Pucca Road& Rail	Kachcha Road & Rail	Others
0-5	227	68	132	5	....	....	1	1	5

(f) There are in all 240 post offices in the rural areas of the district. On an average, 1 post office caters to the need of about 16 villages. The number of Post Offices per 100 Sq. kms. in the various tahsils have been shown in the following table :—

Table 10

Name of Tahsil	Total area (in sq. kilometers)	No. of Post Office per 100 sq. kilometers
Hata	1419.93	4
Padrauna	1444.48	3
Deoria	1251.55	4
Salempur	1278.89	6

Tahsil Padrauna has the lowest number (3) of post offices per 100 Sq. Kms. and highest number of post offices (6) per 100 Sq. Kms. are functioning in Salempur. Hata and Deoria have 4 post offices each per 100 Sq. Kms.

(g) Wheat and Rice are the staple food in the district.

(h) The cultivated area is 84.49 percent of the total rural area of the district, of which 47.71 percent is irrigated area.

The following table shows the average cultivated land, average cultivable waste and its percentage to average cultivated area per village. The villages in this table have again been classified according to their distance from the nearest town.

Table 11

Distance from the nearest town (in kms.)	Number of villages	Total cultivated land (in acres)	Average cultivated land per village (in acres)	Total cultivable waste (in acres)	Average cultivable waste per village (in acres)	Percentage of average cultivated waste per village to average cultivated land per village
0-5	227	60643	267	5228	23	8.61
6-10	463	156824	339	15732	34	10.03
