PREFACE

The 1971 Census was preceded by a survey of houses towards the end of 1970. The house survey, or 'house-listing', to use the term adopted us, was designed as a part of the administrative arrangements preceding the population Census, and its primary object was to give us a fairly clear conception of the dimensions of our main task.

Taking advantage of the house-listing, however, we collected some data on houses and house-types, the results of which can be seen in the Housing Report and Tables (Part IV in the Census series). We also collected some additional information on Establishments, the nature of work done in each establishment, the number of workers, ownership, the kind of fuel used etc. The information collected has been presented in this volume in six tables.

I would particularly invite the reader's attention to Appendix I of this volume; this gives the instructions to enumerators who actually went to the field and collected the data. These instructions contain the definitions that were evolved for the various terms used, such as "establishment", "household industry" and also spells out the methodology which was adopted. If the instructions are read before looking at the tables, the exact nature of the information we have presented will become clearer.

TABLE E-I

DISTRIBUTION OF ESTABLISHMENTS BY BROAD TYPES

The table has been prepared for the State, its districts and cities. The rural and urban break-up have also been shown both for the State and the districts. No data have been given for any "Urban Agglomeration". The reader will also notice that Serampore has not been shown as a city in the table. This is because the estimated population of Serampore at the time of house-listing was below one lakh.

The table gives the distribution of all establishments by three broad types viz., Manufacturing, Processing or Servicing Establishments ; Trade or Business Establishments and Other Establishments in each sector of the economy viz., public (*i.e.* Government or Quasi-Government including these run by local authorities), Private and Co-operative enterprise. Manufacturing, Processing or Servicing Establishments have been further classified as Registered Factories, Unregistered Workshops and Household Industries. Trade or Business Establishments have been classified as Wholesale, Retail and Others. Other establishments have been grouped as (i) Educational Institutions ; (ii) Public Health Institutions and (iii) Others.

A brief description of various terms used in this table is given in Appendix I.

TABLE E-II Part-A

Distribution of Manufacturing, Processing or Servicing Establishments other than Household Industries classified by Registered Factories, Unregistered Workshops and Size of Employment

TABLE E-II PART-A

DISTRIBUTION OF MANUFACTURING, PROCESSING OR SERVICING ESTABLISHMENTS OTHER THAN HOUSEHOLD INDUSTRIES CLASSIFIED BY REGISTERED FACTORIES, UNREGISTERED WORKSHOPS AND SIZE OF EMPLOYMENT

This table shows distribution of manufacturing, processing or servicing establishments other than household industries for the State as a whole (with the rural-urban break-up), its districts and cities separately.

The factories and workshops are grouped into two categories viz., registered factories and unregistered worksops. The table gives information about the size of employment and the number of units under the two categories separately for each of Division 2 and 3/Major Group of the National Industrial Classification, 1970.

The National Industrial Classification, 1970 has been reproduced in Appendix III.

TABLE E-II Part-B

Distribution of Manufacturing, Processing or Servicing Establishments other than Household Industries classified by Industries, Fuel/Power or Manual used and Size of Employment

TABLE E-II PART-B

DISTRIBUTION OF MANUFACTURING, PROCESSING OR SERVICING ESTABLISHMENTS OTHER THAN HOUSEHOLD INDUSTRIES CLASSIFIED BY INDUSTRY, FUEL/POWER OR MANUAL USED AND SIZE OF EMPLOYMENT

The table shows distribution of number of factories or workshops (excluding household industries) classified by the kind of power used and size of employment for each of Divisions 2 and 3/Major Group of National Industrial Classification, 1970 for total, rural and urban for the State and its districts and cities. National Industrial Classification, 1970 has been reproduced in Appendix III.

The table gives information regarding the kind of power used with a break-up of the following kinds of fuel or power :

I. All Fuels/Power
   (a) Electricity
   (b) Liquid fuel
   (c) Coal, Wood and Bagasse
   (d) Other Power

II. Manual

TABLE E-II PART-C

DISTRIBUTION OF HOUSEHOLD INDUSTRY ESTABLISHMENTS CLASSIFIED BY INDUSTRY, FUEL/POWER USED AND SIZE OF EMPLOYMENT

This table shows the distribution of Household Industry Establishments classified by the kind of power used and size of employment for Divisions 2 and 3/Major Group of the National Industrial Classification, 1970. Like the preceding tables, this table also gives information for the State as a whole as well as its districts and cities separately.

TABLE E-IV

Distribution of Establishments (other than Manufacturing, Processing or Servicing or Business and Trade Establishments) by Size of Employment

TABLE E-IV

DISTRIBUTION OF ESTABLISHMENTS (OTHER THAN MANUFACTURING, PROCESSING OR SERVICING OR BUSINESS AND TRADE ESTABLISHMENTS) BY SIZE OF EMPLOYMENT

This table has been attempted for the first time in the 1971 Census and furnishes information on the establishments not covered by Tables E-II Parts A & B and E-III.

The table gives the distribution of establishments (other than manufacturing, processing or servicing or business and trade establishment) by size of employment for each Division/Major Group of the National Industrial Classification, 1970 for the State and its districts separately.

APPENDIX I

Instructions to Enumerators for filling up the Establishment Schedule

1. Instead of loading the main Houselist form itself with questions pertaining to Establishments, it has been decided to have a separate schedule in which particulars of each establishment are to be recorded. (See the Establishment Schedule given at the end of this Appendix).

2. An "Establishment" is a place where goods are produced or manufactured not solely for domestic consumption or where servicing and/or repairing is done such as factory, workshop or household industry or servicing and/or repair workshop or a place where retail or wholesale business is carried on or commercial services are rendered or an office, public or private or a place of entertainment or where educational, religious, social or entertainment services are rendered. It is necessary that in all these places one or more persons should be actually working. Thus an establishment will cover manufacturing, trade and other establishments where people work.

Examples :

A factory or a workshop or workshop-*cum*-residence or a trading or other establishment, *i.e.* where some kind of production, processing repair or servicing is undertaken or where goods or articles are made and sold, or some business is being carried on such as a grocery shop, a *pan* shop, restaurant, bank, hotel, or an office is functioning such as Government office, commercial office, or an institution is being run such as school, college, hospital, dispensary, etc., and where one or more persons are working.

An Establishment may occupy a census house or a group of census houses or a part of a census house.

3. *The respondents should be fully assured that the information collected in these schedules will be treated as completely confidential and is meant for statistical purposes and will not be used as evidence aganist any individual or establishment for any purpose. The respondents should be encouraged to furnish truthful replies without any reservation.*

4. At the top of the schedule provision is made for noting theL ocation Code No. and name of the areas concerned. This should be the same as those noted on the top of the Houselist which you will be canvassing simultaneously. You should fill the Location Code Nos. etc., correctly.

5. The columns of the Establishment Schedule can be classified into four broad groups :

(i) Columns 1 to 5 are of uniform applicability and entries have to be made in respect of all the establishments ;

(ii) Columns 6 to 8 pertain to manufacturing, processing, etc.—establishments ;

(iii) Columns 9 to 10 relate to trading establishments ; and

(iv) Column 11 refers to "other" Establishments which are not covered in columns, 6 to 10.

Thus, it will be seen that the columns falling within groups (ii) to (iv) are mutually exclusive, while those in group (i) are common to all.

Col. 1 : Serial. No.

6. In this column the establishments are to be entered one after another serially. Arabic numerals should be used for this purpose, *i.e.*, 1, 2, 3 etc.

Col. 2 : Census House No.

7. The Census house number to be noted is the same as that in column 3 of the Houselist and against which 'Yes' is written in column 7 of the Houselist indicating that the Census house is used as an establishment.

8. A point to be noted here is that it is likely that a single factory or workshop may be spread over more than one Census house adjoining one another. Therefore, while in Col. 2 of this schedule a number of Census houses may be noted in respect of that particular unit of production, processing or repairing, trade or business etc., the entries in Col. 3 onwards will be one only for that group of houses covered by a single unit of production or business etc. establishment. For example, if a single tea factory in Assam or business establishment in Calcutta should be spread over two or three adjacent buildings, each of the buildings should not be shown as a separate factory or establishment but the House Nos. of all these buildings shown in Col. 2 should be bracketted together and the particulars of the single tea factory or establishment entered in the subsequent columns against this group of houses. If on the other hand the activities of a large firm or an office are carried on in buildings located far away in different localities, each of the Census houses in the different localities will have to be treated as a separate establishment and the particulars of the establishment relating to that particular Census house should be listed in this schedule.

Col. 3 : Name of the Establishment or of the proprietor

9. In this column write the name of the establishment in the case of factories, large manufacturing concerns, a shop or business establishment, banks, office etc. which usually bear a distinct name. Where an establishment has no separate name as in the case of small workshops and establishments like confectionaries, small tea shops, Dhobi's establishment, household industries etc. write the name of the owner as "So and so's Halwai shop" etc. This is to help easy identification.

Col. 4 : Is the Establishment—(a) Govt./Quasi Govt. (b) Private (c) Co-operative Institution

10. Enter here whether establishment enumerated belongs to public sector *i.e.*, Govt./Quasi Govt. managed, including establishments run by local authorities, or to private sector, or a co-operative enterprise. Please do not write in the column only (a) or (b) or (c) but write

(1) "Govt.—Public Sector, or Quasi Govt.—Public Sector, or Local Authority—Public Sector

(2) Private
or
(3) Co-operative

There may be many schools or libraries etc. which are not owned by any particular individual or group of individuals. These may be owned by people in general and managed by Managing Committees. Such establishments should be treated as "private" as distinguished from Govt./Quasi Govt. or run by local authorities or co-operative enterprises.

11. An establishment will be treated as a Govt./Quasi Govt. institution if the Central or State Govt. or a Local Authority such as the Zilla Parishad, City Corporation or Municipality etc. completely owns or has a majority of shares as to control the management of the establishment.

12. Private establishments are those owned and managed by private individuals or corporate bodies not being co-operative institution or Govt. or Quasi Govt. Institutions.

13. Establishment registered under the Co-operative Societies **Registration Law** of the State, alone fall in the category of "Co-operative".

Col. 5 : Average number of persons working daily last week or in the last working season, including proprietors and/or family workers.

14. In this column, the information has to be entered relating to the total number of workers including the apprentices, paid or unpaid and also including owner(s) or proprietor(s) of the establishment and any of their family members if they also work in the establishment and also the hired workers, if any. It is not necessary that an establishment should necessarily have paid workers. A small shop run in the same house where the owner lives and the business is attended to by just one person of the household is also an establishment. The average number of persons working per day in the establishment during the week preceding the day of your visit should be recorded. For computing the average number of persons working per day, if the establishment remained closed owing to holiday etc., such day(s) should be ignored and only the 'day's on which the establishment worked should be taken into account. If during the week preceding your visit, the establishment remained closed either due to strike or lock-out, the week during which the establishment worked preceding such strike or lock-out should be taken into account for reckoning the average number of persons working. The hired workers should normally be in full time employment.

15. Some establishments such as a sugar factory, rice mill etc. may be seasonal in character and may not be actually working at the time of the present listing. You should then ascertain the particulars of such establishments with reference to the last working season.

16. In case more than one product is produced, or more than one item of business is conducted or several types of services are rendered, it is not necessary to enquire the number of persons employed in the production/business/servicing of each type of product, business or service that is covered against that serial number. For example in a large textile mill there may be the weaving section, dyeing section, laboratory, repairing section, sales section etc. It is not necessary to ascertain the employment in each section. The total employment has to be ascertained. The major activity of the establishment will be described in subsequent columns.

"Columns 6, 7 and 8 :—If any manufacturing, processing or servicing is done".

17. These columns relate only to such establishments in which goods are manufactured or some kind of processing or servicing is done and/or repairs are carried on.

Col. 6 : Is it (a) Household Industry, (b) Registered Factory (c) Unregistered workshop

18. *Household Industry : Definition*

A 'Household Industry' is defined as an industry conducted by the Head of the household himself/herself and/or mainly by the members of the household at home or within the village in rural areas, and only within the premises of the house where the household lives in urban areas. The industry should not be run on the scale of a registered factory.

19. Thus, there are four ingredients of a household industry :—

(i) nature of activity
(ii) participation
(iii) location
(iv) size

20. (i) *Nature of activity* :—A household industry should relate to production, processing, servicing, repairing, or making and selling (but not merely selling) of goods. It *does not* include professions such as a pleader or doctor or barber, musician, dancer, washerman

(Dhobi), astrologer etc. or merely trade or business even if such professions trade or services are conducted at home by members of household.

21. (ii) *Participation* :—The Head of the household and/or one or more members of the household must participate in such an industry. If it is run primarily by hired labourers, the 'participation' ingredient of the household members will not be satisfied and it will not be a 'Household Industry'. The industry may run with the help of hired workers but the head and/or members of the household must be mainly participating in the industry and not solely dependent on hired workers. Besides "actual work", participation also includes "supervision and direction".

22. (iii) *Location* :—The industry should be located within the premises of the house where the household lives in urban areas; if it is situated at a place other than at home, it will not be termed as household industry in urban areas. In rural areas, however, the industry may be either at home or anywhere within the village limits. In rural areas, even though, the industry is not situated at home, there is a greater possibility of the members of the household participating in it if it is located within the village limits.

23. (iv) *Size* :—The industry should not be on the scale of a registered factory. Irrespective of the location and participation by the members of the household, if the industry or workshop is registered under the Factories Act, then it will not be a household industry.

24. Thus it will be clear that any industry which can be termed as 'Household Industry' must satisfy all the four ingredients mentioned above.

25. (b) *Registered Factory* :—A factory which is registered under the Indian Factories Act should be treated as a "Registered Factory". Any other workshop merely licenced by the Municipal or any other authority or registered for any other purpose should not be treated as a registered factory unless it is registered under the Indian Factories Act.

26. (c) *Unregistered Workshop* :—Workshop is a place where some kind of 'production', processing, servicing, repairing or making of goods for sale' is going on. A workshop which is registered under the Indian Factories Act should be treated as a registered factory and others as unregistered workshops. Workshops which are run as household industry should be treated as household industry and entered as such.

27. When you come across an establishment where some kind of manufacturing, processing or servicing etc,. is done, you should ascertain whether it is a Household Industry or a registered factory or a workshop not registered under the Factories Act and write whatever it actually is in this column. Please note that workshops merely licenced or entered in the registers of a local authority are not to be considered as registered factories unless registered under the Indian Factories Act. All workshops other than household industries and not registered under the Indian Factories Act should be treated as unregistered workshops even if they are merely licenced as workshops by the local authorities. Please do not write (a) or (b) or (c) in the column but write "Household Industry" or "Registered Factory" or "Unregistered Workshop", as the case may be.

Col. 7 : Description of the products, processing or servicing done

28. The description of the actual work relating to product, processing and servicing which is done in the Household Industry, factory or workshop that is being listed is to be recorded here *e.g.*, handloom weaving, lace knitting, *oil ghani* etc., manufacturing of G. I. pipes, electroplating, motor or cycle repairing, iron foundry, paper making or book binding, printing and dyeing, shoe making,

sweetmeat making etc. If in any establishment more than one article is produced or more than one kind of processing or servicing or repairing is done, indicate only the major kind of products or processing or repairing or servicing etc.

Col. 8 : Type of fuel or power used

29. Enter here the description of the power or fuel used for the running of the factory, workshop (or household industry if it is run on power or fuel). The fuels can be kerosene, soft coke, petrol, diesel, gas, coal, wood etc., Electricity and steam etc. are some of the sources of power. Some units may be run by animal power such as *oil ghani*. Some may be run by merely human energy such as carpet-making, pottery making etc. Enter the description of fuel or power used for the production, processing, servicing etc. that is carried on in the establishment. There may be instances where more than one fuel or power is used, in such cases, only the fuel or power which is used in running the primary unit of the industry will be noted in this column.

30. *Columns* 9 *and* 10 *are to be filled in respect of trading establishments or establishments which render commercial services only.*

31. Trading or business establishments are those where some trading *i.e.*, transactions involving sale and/or purchase of goods go on.

Establishments rendering commercial services are the banks, money lending firms, Pawn shops, etc.

Col. 9 : Description of goods bought/sold

32. If it is a trading establishment, you should ascertain what are the goods bought and/or sold and write the description in this column. If there are more than one type of goods bought/sold by the establishment, you should give description of the main item of goods bought/sold by the establishment.

33. In the case of establishments rendering commercial services such as in the case of Banks etc., you should write the description of the services rendered, as in the case of a bank, you should write "banking services".

Col. 10 : Whether (a) Wholesale or (b) Retail

34. For all trading establishments, you should ascertain in respect of the goods mentioned in column 9, whether they are *sold/bought in wholesale or in retail* and write as the case may be.

35. You may come across certain establishments wherein both types of trade *i.e.*, wholesale and retail go on. In such cases, you should ascertain in which category (*i.e.*, wholesale or retail) the volume of trade is greater and record the category accordingly.

36. In the case of establishments rendering commercial services, *e.g.*, bank etc. please do not write any of the two categories *i.e.*, 'wholesale' or 'retail' but put an 'X' in this column.

Col. 11 : If used as any other establishment, describe, *e.g.*, Govt. Office, School, Hospital, Railway Station, Barber's Saloon, Cinema, Theatre, Hotel, Teashop etc.

37. Two specific types of establishments have been covered in columns 6 to 10. Column 11 relates to the remaining types of establishments not covered by columns 6 to 10. You have to describe such establishments in this column, *e.g.*, Government Office, School, Hospital, Railway Station, Orphanage, Rescue Home, Braber's saloon, Cinema, Theatre, Hotel, Tea shop, Lawyer's Office, Doctor's Clinic, Laundry, etc.

General :

38. It is possible that in a particular establishment, more than one activity is being undertaken within the same premises. For

example, say in a betel shop, *bidi* rolling is also being undertaken or in a grocery shop, a flour mill is also located, or in the doctor's clinic medicines are sold. In such cases, the establishment should be identified having regard to the major activity and recorded as such in the relevant columns pertaining to the major activity.

39. But if different activities are undertaken in different census houses quite cut off from one another though under the same title or ownership, each such census house should be treated as a separate establishment and recorded as such against that census house in this schedule. It may, however, be noted that where processing for the production of an article is carried on, in separate adjoining census houses, all the census houses should be treated as a single establishment and recorded as such. If on the other hand the activities of a large firm or an office are carried on in buildings located far away in different localities, each of the census houses in the different localities will have to be treated as a separate establishment and the particulars of the establishment relating to that particular census house should be listed in this schedule.

40. After you have completed filling up of the Establishment Schedule for your block, you will prepare a duplicate copy of the Establishment Schedule for which you would be given adequate number of blank forms.

APPENDIX II

Edit Instructions for Establishment Schedule

4.1. *Location Code :* Invariably, the enumerator should have written the elements of the location at the top of the Houselist. See that all elements are correctly filled in. In the case of a rural Block, the location code will contain number of District/Taluk/Tahsil/ Anchal/Police Station and Enumerator's Block. In an urban block the location code elements are numbers of representing District, Town, Ward/Mohalla and Enumerator's Block. If entries are found to be missing, supply them from the charge register. The name of the enumerator will be found at the bottom of the Houselist ; the Block should be located in the charge register with reference to the name of the enumerator.

4.2. *Column 1 :* Refer to column 7 of the Houselist and make sure that for all 'Yes', there is a corresponding entry in this schedule and the serial number tallies.

4.3. *Column 2 :* Check with reference to column 3 of the Houselist. These should tally.

4.4 *Column 4 :* In case of blank, look up the entry in column 3, this may help in making a suitable imputation ; otherwise enter 'private'.

4.5 *Column 5 :* If there is an omission to make an entry, write 'unspecified'.

4.6 *Column 6, 7 and 8 :* The colums will be filled in if only columns 9-10 have 'X'. If in any establishment besides manufacturing/ processing sales also take place, and by mistake the enumerator has entered details in columns 6 to 8 and also in columns 9 and 10, score entries in columns 9 and 10. Manufacturing will get precedence over 'selling' which is a secondary function.

If the entry in column 6 is registered factory and in column 8 type of power is other than 'Electricity' and if the number is less than '20' in column 5, then change the entry 'Registered Factory' in column 6 to 'Unregistered workshop'.

4.7 *Column 7 :* If an entry is omitted by the enumerator, make an entry from information in column 3, if it affords any clue.

4.8 *Column 8 :* If an entry is omitted by the enumerator, enter 'manual' having regard to entries in columns 3 and 7.

4.9 *Columns 9 and 10 :* There should be entries in these columns when columns 6, 7, 8 and 11 have 'X'. If entry is not made by the enumerator in column 9, impute it with reference to entry in column 3. If column 10 is blank and column 9 is filled in, write 'retail' except in the case of commercial services like Bank, Insurance, Pawn shop, etc.

4.10 *Column 11 :* There will be an entry in this column only when there is 'X' in columns 6 to 10. If the enumerator has failed to make an entry although the establishment should have been entered in this column, try to impute with the help of entry in column 3.
