1951 DISTRICT CENSUS HANDBOOK

SABARKANTHA DISTRICT

Sabarkantha is a new district, which was formed out of the former Indian States of Vijayn Idar, Ambliara and other States of the Sadra Division of the former Western India States Ag and Gadhwada Thana.

Modasa Peta and Prantij Taluka of Ahmedabad district and some villages from Kaira, P Mahals and Mehsana districts were added to it. Most of the villages of the former Gadhwada and five villages of the former Indian State of Idar were subsequently transferred from Sabar to Mehsana district before the 1951 Census took place.

The population of the district according to the 1951 Census was 684,017 and its area acc to the area figure furnished by the Surveyor General, India, was 2,845.5 square miles.

This Handbook contains tables for Sabarkantha district, compiled after the 1951 Census India. The main results of the 1951 Census are embodied in the State Tables published for States of Bombay, Saurashtra and Kutch. In this Handbook, the data are exhibited in great detail. The numbers given to tables in this publication correspond to those given in the Sta Census Report. The following tables for the district have, however, not been included in Handbook :—

A-II.—Variation in population during fifty years.

A-IV.—Towns classified by population with variations since 1901.

D-IV.—Migrants.

In the E—Summary table, in this Handbook, some columns have been omitted. In the ca of the C—Series of tables, except C-I, the data were extracted on the basis of a sample count approximately 10 per cent. of the census slips instead of a full count of all the slips. The C table was prepared from a 4 per cent. sample of the households recorded in the National Regis of Citizens relating to each town or village.

In 1941, the population figures were exhibited according to communities in the 'Vill Handbooks' published by the Government of Bombay. In 1951, the basis of classification at census was changed from a social to an economic one, and the figures for villages given in Primary Census Abstracts and in tables A-V, B-I, B-II, C-II and E, are according to the follow eight Livelihood Classes :—

Agricultural Classes

I.—Cultivators of land, wholly or mainly owned ; and their dependants.

II.—Cultivators of land, wholly or mainly unowned ; and their dependants.

III.—Cultivating labourers; and their dependants.

IV.—Non-cultivating owners of land ; agricultural rent receivers; and their dependant

Non-Agricultural Classes.

Persons (including dependants) who derive their principal means of livelihood from—

V.—Production other than cultivation.

VI.—Commerce.

VII.—Transport.

VIII.—Other services and miscellaneous sources.

ependants whether earning or non-earning, were classified at the census according to the cipal means of livelihood of the persons on whom they were dependent.

The Primary Census Abstracts which contain basic information in respect of every village and n have been arranged according to talukas and petas, units into which every district is divided administrative purposes. The taluka was, however, too small a unit to adopt for preparing main census tables. Therefore in the B, C and D series of tables figures have been given for cts and not for talukas and petas. Before sorting the census slips and tabulating the results, ts were formed by combining the rural and urban areas of two or more talukas or petas. The into which Sabarkantha district was divided for this purpose are shown below :—

Tracts :

(1) Rural areas of Himatnagar and Bhiloda Talukas and Vijaynagar Peta.

(2) Rural areas of Khedbrahma and Idar Talukas.

(3) Rural areas of Modasa and Meghraj Talukas and Malpur Peta.

(4) Rural areas of Bayad and Prantij Talukas.

rban Tracts :

(1) Urban areas of Idar and Himatnagar Talukas.

(2) Urban areas of Modasa and Prantij Talukas.

Urban areas comprise the towns shown in Table A-V.

Shortly before the 1951 population census, a census of Small Scale Industries was taken and e results of this census are given in the table called ' Small Scale Industries Census—Employment Establishments ' included in this Handbook.

The intention was to find out something about Cottage and Home Industries, and small work-ops. The larger establishments, that is, power-using establishments with 10 or more workers, nd non-power using establishments with twenty or more workers, were excluded from the scope the enquiry as they now submit returns under the Factory Act.

The enquiry did not concern itself also with workers functioning on their own and not employ-ng other people, except when looms were used. If even one loom was used a return was required. Otherwise the concept was of an enquiry which embraced all forms of associate activity where rticles were produced, repaired or otherwise treated for sale, use or disposal.

112,345	97,650	14,695	57,198	49,514	7,684	55,147	48,136	7,011
21,376	21,376	..	10,490	10,490	..	10,886	10,886	..

(3) The number of towns given in column 4 is the number of towns shown in Table A-V. In general, a town means a municipal area, cantonment area or place which has a population of 5,000 or more persons and exhibits urban characteristics.

(4) The number of occupied houses given in columns 5, 6 and 7 is the number of census houses that were occupied at the time of the census.

A house for census purposes meant " a dwelling with a separate main entrance ". Thus more than one household might be found in the same census house.

District :

Note :—Where a person was in receipt of an income and that income was sufficient at least for his own maintenance then he, (or she, as the case might be) was to be regarded as a self-supporting person for purposes of the census enquiry. Any one who was not a self-suporting person in this sense was a dependant. A dependant might be either an earning dependant or a non-earning

B—III—EMPLOYERS, EMPLOYEES AND INDEPENDENT WORKERS

District :

Notes :— (1) In this table, the self-supporting persons in the non-agricultural classes have been classified according to the productive industries and services in which they were engaged. In addition to the 44,983 self-supporting persons shown in the table, there were 1,640 self-supporting persons who derived their livelihood from unproductive activities as shown below :—

Non-productive means of livelihood :	Persons	Males	Females
(1) Persons living principally on income from non-agricultural property ..	264	80	184
(2) Persons living principally on pensions, remittances, scholarships and funds ..	103	66	37
(3) Inmates of jails, almhouses and recipients of doles ..	6	1	5
(4) Beggars and vagrants ..	1,229	954	275
(5) All other persons living principally on income from nonproductive activities ..	38	34	4

2.—The census definitions of the terms employer, employee and independent worker were as follows :—

Employer : A person who had necessarily to employ other persons in order to carry on the business from which he secured his livelihood. (Thus, if a person employed a cook or other person for domestic service, he was not to be recorded as an employer merely for that reason.)

Employee : A person who ordinarily worked under some other person for a salary or a wage in cash or in kind, as a means of earning a livelihood.

Independent worker : A person who was not employed by anyone else and who did not also employ anyone else in order to earn his livelihood.

District : **SABARKANTHA.**

This index shows the number of self-supporting persons, males and females, having as their principal means of livelihood, the productive occupations shown in the index.

The index should be read with Economic table B-III. There were 1,640 self-supporting persons who derived their principal means of livelihood from unproductive activities as mentioned in the note to that table.

The group code numbers shown in column ' 2 ' of the index are the numbers given to the various occupations under the Indian Census Economic Classification Scheme.

Occupation	Group Code No.	POPULATION		
		Persons	Males	Females
1	2	3	4	5

PRIMARY CENSUS ABSTRACTS.

These abstracts show figures of population according to eight livelihood classes for every town and village. In the case of most municipal areas, figures have been given for wards as well. These abstracts are in essence a village directory, with the data exhibited according to livelihood classes, instead of communities as in 1941.

The area figures given in column 3 have been obtained from the District Inspector of Land Records of Sabarkantha or from local records. The total area of Sabarkantha district as calculated by the Surveyor General, India is 2845.5 square miles.

The figures given in columns 4 and 5 and 9 to 12 have been extracted from the National Registers, prepared by enumerators after the census. These Registers consisted of a transcription of the replies to the more important census questions in respect of every person enumerated. Figures of literates according to tracts, derived from the census slips, shown in table D-VII, are more reliable than the village figures derived from the National Registers. The Census slip on which the replies to the census questions were recorded was the main document. The National Register was merely a copy. In addition mistakes seem to have occurred while extracting literacy figures for villages in the Tabulation Office. The percentage of literacy in the district was 14.38 per cent. according to table D. VII. It was 14.41 per cent. according to the 10 per cent. sample table C. IV, but only 13.32 per cent. according to the figures given in the Primary Census Abstracts.

Information contained in columns 29 to 33 has been extracted from the data collected for each village by the Bombay District Gazetteers (Revision) Editorial Board.

The following abbreviations have been used in the abstract :—

M.	for Municipality.
P. S.	for Primary School.
V. P.	for Village Panchayat.
C. C. S.	for a Co-operative Credit Society.
C. S.	for a Co-operative Society of any other kind.
Sun.	for Sunday.
Mon.	for Monday.
Tues.	for Tuesday.
Wed.	for Wednesday.
Thurs.	for Thursday.
Fri.	for Friday.
Sat.	for Saturday.
