Ranganadi Hydro-electric Project

Ranganadi Hydro-electric project with an installed capacity of 405 MW was commissioned during Jan-March'02. The project drawing its source from river Ranganadi (Panyor), a tributary of the Brahmaputra has a catchment area of 1894.00 Sq. Km. and is the biggest hydropower project in the North-East Region. The Govt. has initiated steps for simultaneous development of transmission and distribution network for evacuation of power from the Ranganadi Project.

The Project has reservoir, with gross storage of 21.28 Mcum. and a dam with total height of 68.0 m and length of 221.om. Its Water Conductor System comprise of Low Pressure Tunnel of length 9207.00m and High Pressure Tunnel of length 1056 M. It has a Power House (Type=surface), francis turbin, capacity of 3 x 135 MW with an annual energy generation of 1864 MV in 90% Dependable Year.

The total project cost is Rs.1455.45 crores and cost of generation is 94.83 paisa/unit.

(d) Appendices to Village Directory **272-293**

Appendix I : Abstract of Educational, Medical and other amenities in villages-C.D. Block level 272-275

Appendix IA : Villages by number of Primary Schools 276

Appendix IB : Villages by Primary, Middle and Secondary Schools 276

Appendix IC : Villages with different sources of drinking water facilities available 277

Appendix II : Villages with 5,000 and above population which do not have one or more amenities 277

Appendix IIA : Census towns which do not have one or more amenities 277

Appendix III : Land utilisation data in respect of Census towns/Non-municipal towns 278

Appendix IV : C.D. Block-wise list of inhabited villages where no amenity other than drinking water facility is available 278-282

Appendix V : Summary showing number of villages not having Scheduled Caste population 283

Appendix VI : Summary showing number of villages not having Scheduled Tribe population 283

Appendix VIIA : List of village according to the proportion of the Scheduled Caste to the total population by ranges 283

Appendix VIIB : List of village according to the proportion of the Scheduled Tribe to the total population by ranges 285-293

Appendix VIII : Number of villages under each Gram Panchayat (C.D. Blockwise) 293

Appendix IX : Statement showing numbers of girls school in the villages 293

Section II – Town Directory **295-303**

(a) Note explaining the abbreviations used in Town Directory 295-300

Town Directory Statement (I to VII)

(b) Statement I – Status and Growth History 300

(c) Statement II – Physical aspects and location of towns 300-301

(d) Statement III – Municipal finance 301

(e) Statement IV – Civic and other amenities 301

(f) Statement V – Medical, Educational, Recreational and cultural facilities 302-303

(g) Statement VI – Trade, commerce, Industry and banking 302-303

(h) Statement VII – Civic and other amenities in slums 302

(i) Appendix to Town Directory – Towns showing their outgrowth with population 303

PART-B : PRIMARY CENSUS ABSTRACT **305-437**

(a) Brief note on Primary Census Abstract 307-309

(b) District Primary Census Abstract (General) 310-315

(c) Appendix to District Primary Census Abstract i.e., Urban block wise figures of Total, SC and ST Population 317

Primary Census Abstract for Scheduled Castes 318-323

Primary Census Abstract for Scheduled Tribes		324-329
C. D. Block wise Village Primary Census Abstract		330-431
Urban Primary Census Abstract		432-437
Annexure-I	: Number of Villages under each Gram Panchayat	438
Annexure-II	: Note of Fertility and Mortality 1991 Census	439-441
Annexure-III	: Various measures of fertility and mean age at marriage, 1991 Census	441
Annexure-IV	: Percentage distribution of Migrants by place of birth/place of last residence, 2001 Census	442
Annexure-V	: Brief account of main religions in the district/tehsil as per 2001 Census	443-445
Annexure-VI	: Marital status of population as per 2001 Census	445-446
Annexure-VII	: Age, Sex and Education in the district, 2001 Census	446-448
Annexure-VIII	: Distribution of different mother tongues returned in 2001 Census	448-449

Foreword

The District Census Handbook (DCHB) published by Census Organisation since 1951 census, is one of the important publications in the context of planning and development at grass-root level. The publication, which is brought out for each district, contains several demographic and socio-economic characteristics village-wise and town-wise of the district alongwith the status of availability of civic amenities, infrastructural facilities, etc..

2. The scope of the DCHB was initially confined to a few Census Tables and Primary Census Abstract (PCA) of each village and town within the district. Thereafter, at successive censuses, its scope and coverage has been enlarged. The DCHB published at the 1961 census provided, a descriptive account of the district, administrative statistics, census tables and a village and town directory including PCA. The 1971 census-DCHB series was in three parts: Part-A related to village and town directory, Part-B to village and town PCA and Part-C comprised analytical report, administrative statistics, district census tables and certain analytical tables based on PCA and amenity data in respect of villages. The 1981 census DCHB was in two parts: Part-A contained village and town directory and Part-B the PCA of village and town including the SCs and STs PCA up to tahsil/town levels. New features alongwith restructuring of the formats of village and town directory were added into it. In Village Directory, all amenities except electricity were brought together and if any amenity was not available in the referent village, the distance in broad ranges from the nearest place having such an amenity, was given. Information on new items such as adult literacy centres, primary health sub-centres and community health workers in the village were provided so as to meet the requirements of some of the Revised Minimum Needs Programme. Information on approach to the village was provided for the first time in the Village Directory so as to give the details on number of inaccessible villages in each district. In the Town Directory, a statement (IV-A) on slums was introduced to provide the details on civic and other amenities in the notified slums of Class I and Class II towns.

3. The 1991 census DCHB, by and large, followed the pattern of presentation of 1981 census, except the format of PCA was restructured. Nine-fold industrial classification of main workers was given against the four-fold industrial classification presented in the 1981 census. In addition, sex-wise population in 0-6 age group was included in the PCA for the first time with a view to enable the data users to compile more realistic literacy rate as all children below 7 years of age had been treated as illiterate at the time of 1991 census. One of the important innovations in the 1991 census was the Community Development Block (CD block) level presentation of village directory and PCA data instead of the traditional tahsil/taluk/PS level presentation. It was expected that the presentation of village directory and PCA data at CD block level will help the planners in formulation of micro level development plans, CD block being lowest administrative unit.

4. The present series of 2001 census DCHBs have been made more informative and exhaustive in terms of coverage and content. The Village Directory has been enlarged in scope by including a number of other facilities like banking, recreational and cultural facilities, newspapers and magazines and ‘most important commodity’ manufactured in village. Income and expenditure of gram panchayat, wherever possible, has been provided. Apart from these, more details on distance(s) at which basic amenities are available (if not available in the village), are given. This includes educational facilities (namely primary and middle schools and college), medical facilities (viz. Allopathic Hospital, Maternity & Child Welfare

Centre and Primary Health Centre), drinking water, post & telegraph (post office and phone), communication, bank, credit societies and recreational facilities. In Town Directory, the statement on Slums has been modified and its coverage enlarged by including details on all slums instead of 'notified slums'. The information is given in case of all statutory towns irrespective of their class, against only Class I and Class **II** towns in the 1981 and 1991 censuses. The basic amenities available in the villages and towns are analysed in depth with the help of a number of cross classified inset tables and statements. Two other significant additions in the publication are inclusion of 'motif' highlighting significant characteristic of the district and analytical notes as annexures. The analytical notes on (i) fertility and mortality and (ii) various measures of fertility and mean age at marriage are prepared based on 1991 Census. Whereas, in the notes relating to (i) percentage distribution of migrants by place of birth/place of last residence, (ii) main religions, (Hi)marital status of population, (iv) age, sex and education, and (v) distribution of spectrum of mother tongue, nature and extent of changes occurred in the district in its basic socio demographic features during the decade 1991-2001 are analysed. The eight digits permanent location code (PLCN) to all the villages and towns have been assigned keeping in view the future needs.

5. The village and town level amenity data have been collected, compiled and computerised in prescribed record structure under the supervision of Shri N. K. Laskar, Director of Census Operations. Arunachal Pradesh . Thereafter, efforts have been made to ensure comparability of the information with that of 1991 census data and the information brought out by the respective state governments in their annual reports and statistical handbooks for various years after 1991. The task of planning, designing and coordination of this publication was carried out by Shri R. G. Mitra, Deputy Registrar General (C&T) and Dr. I. C. Agrawal, Senior Research Officer of Social Studies Division. Dr. R. P. Singh, Deputy Registrar General (Map) provided the technical guidance in the preparation of maps. Whereas, Shri Anil Kumar Arora, Deputy Director of Data Processing Division who worked under the overall supervision of Shri Himakar, Addl. Director (EDP) helped in preparation of record structure for computerisation of village and town directory data and the programme for the generation of Village Directory and Town Directory statements including analytical inset tables. The draft DCHB manuscripts received from the Census Directorates have been scrutinised in the Social Studies Division under the guidance of Shri S. L. Jain, Deputy Director and Shri R. K. Mehta, Assistant Director. I am thankful to all of them and others Who have contributed to make this publication possible.

D. K. Sikri
Registrar General &
Census Commissioner, India

New Delhi,
17.10.2006

Preface

The District Census Handbook (DCHB) contains important census and non-census statistics pertaining to a particular District. This series constitute an important set of census publications brought out by the Census Organisation on behalf of the State government. The Census Directorate prepares the manuscripts of the District Census Handbooks out of the data collected from the field during Census Operations and also incorporate in its various other data originating from different Government Departments. The District Census Handbooks are widely made use of by the State Government and its district level and other lower level officials for proper planning, development and administrative purposes as well as by a large cross-section of data users like academicians scholars, researchers and many other Non-Governmental agencies.

The District Census Handbook has two parts-part-A and Part-B. The Village and Town Directories are included in part-A, whereas part-B contains the Primary Census Abstract. The Village Directory gives for each Village, the area, population, educational, medical, civic and other amenities as also its land use pattern. Similarly in the Town Directory, information on various civic amenities, the area figures, population characteristics, physical aspects, communications, municipal finance, trade and commerce, industry and banking facilities etc. pertaining to a town are incorporated as well as the Village and Town directories and also of Scheduled Castes and Tribes presents certain other basic data like number of residential houses and households, sex-wise break-up of the total population, literates, main workers by categories, marginal workers and non-workers, sex-wise break up of Scheduled Castes and Scheduled Tribes population etc. Besides, some brief notes on the administrative development, economic resources and social aspects of the District are also incorporated in this volume. Also it contains brief analytical notes on the village and town directories and are supported by a few inset tables based on the Primary Census Abstract as well as the Village and Town directories. Above all an overall attempt has been made here to present the basic statistical data on villages and towns which it is expected, would come handy and useful to all concerned.

The data presented under Village and Town directories were furnished from the field, village and town-wise by the district administration mainly through the Circle Officers in respect of the rural villages and by the Deputy Commissioner though the District Statistical Officer in respect of urban areas respectively. The data presented under Primary Census Abstract were collected during the Census Operations by the field functionaries of the Circle Officers and the Deputy Commissioner. My thanks are due to all these dedicated band of field officials who have provided the basic data required for compilation of this volume. The notes on different State and Central Govt. Departments are furnished by the respective departments. I am grateful to all these departments for their sincere co-operation.

While the collection, compilation and tabulation of data including designing and production of the District Census Handbook Volumes were under taken by the Census Department at its own expenses, in keeping with the past practice for 2001 Census. It is my sincere hope that all the data users will find the contents of the 2001 DCHB series quite convenient and useful.

The District Census Handbook will be centrally printed as decided by the Registrar General, India. The number of copies required by the State Govt. will be supplied to them on payment basis.

The Census Organisation is also grateful to Government of Arunachal Pradesh and to the Director of Economics and Statistics, Government of Arunachal Pradesh, Itanagar and his staff for taking necessary initiative in collection of data required for the preparation of the District Census Handbook.

Last but not least I cannot but express my gratefulness to Shri J.K. Banthia, Registrar General and Census Commissioner of India for his valuable instructions and guidance in bringing out the District Census Handbooks.

Lastly I must express my appreciation to the Officers and Officials of the office of the Registrar General, India for making necessary arrangement for printing of the publication in time.

ANALYTICAL NOTE

Blank

Analytical Note

(i) History and Scope of District Census Handbook

The District Census Handbooks is an innovation of the 1951 census. Prior to 1951 census publications and report contained data up to Tehsil, Sub-division Town and District level. Micro level data in rural areas and enumerator block/wards in urban areas were not published in any census report. With the rapid development and socio-economic changes in the society, necessity of data at micro level was felt considerably by the government, economists, schools and various data using agencies. With a view to making available these statistics at micro level, selected census data was presented in the district census handbooks of 1951 census and accordingly the Handbooks contained important census data as well as general information relating to history, physical aspects, geology, archeology, climate, rainfall administration, medical and public health, educational and literacy, agriculture and cooperatives, industries, local bodies, places of interest etc. relating to a particular district.

The District Census Handbooks of 1961 Census, underwent complete transformation and attempts were made to make comprehensive and informative.

In 1971 Census, efforts were made to make available both census and non-census data in an uniform manner with an enlarged perspective. The District Census Handbooks of 1971 Census had been split up into three parts namely, Part A, Part B and Part C. Part A comprised of Town and village Directory while Part B contained Urban Block/Village wise Primary Census Abstract and Part C included Administrative Statistics and Report.

District Census Handbooks of Arunachal Pradesh was brought out for the first time in the 1971 census, when the full fledged census was also taken in Arunachal Pradesh for the first time . Due to less volume of data Part A and Part B of the District Census Handbooks in 1971 Census were combined in one volume for convenience.

In the 1981 and 1991 Censuses the District Census Handbooks were divided into two parts only as follows:

Part A : Comprising Village and Town Directory as it was in the 1971 census.

Part B : Consisting of (i) District Primary Census Abstract at circle level (ii) Circle wise Primary Census Abstract (a) Village level and (b) town level (within the town ward wise) and (c) Appendix to primary Census Abstract showing Urban Block wise total Scheduled Castes and Scheduled Tribes population and (iii) Primary Census Abstract for Scheduled Castes and Scheduled Tribes at circle level.

The District Census Handbooks are brought out on behalf of the State governments after each decennial census. The publication containing grass root level statistical data on demographic characteristics, civics and other amenities in villages and towns is an essential aid for district level planning and administration. The governments of respective states/ Union Territories have been meeting the cost of these publications. The data presented in this publication are compiled by the Census Directorates on behalf of the concerned States/Union Territory governments.

It is proposed to bring out the District Census Handbook (DCHB) of the 2001 census in two parts as follows:

Part A : Village and Town Directory.

Part B : Primary Census Abstract.

Apart from the concerned State/Union Territory governments which use the data available in DCHBs for planning and administration, number of other agencies which are engaged in different welfare and other activities make use of the DCHBs for different purposes .Part A and Part B of the District Census Handbook has been combined as it was done in 1971, 1981 and 1991 Censuses.

(ii) Brief History of the District

The name of the District is derived from the river Subansiri, a tributary of mighty Brahmaputra which flows through the district. Till 1914, the district was a part of the Lakhimpur District of Assam. In 1914, (Govt. Notification) the area of the district become a part of the Lakhimpur Frontier Tract of the North East Frontier Tract. By an another public Notification in March, 1919 the Lakhimpur Frontier Tract alongwith western sector was renamed as the Balipara Frontier Tract. In 1946, the district area was curved out of the Balipara Frontier Tract in the name of Subansiri Area, with its Headquarters at North Lakhimpur. In 1954, Subansiri Area was renamed as the Subansiri Frontier Division and its Headquarters was temporarily established at Kimin and later on shifted to Ziro and the district was under the Ministry of External Affairs and overall in-charge was a political officer. On the 1st September, 1965, the Ministry of Home Affairs took over the Administrative charge of NEFA from Ministry of External Affairs and Subansiri Frontier Division was renamed as Subansiri district and Political Officer was redesignated as Deputy Commissioner.

On 13th May 1980, Subansiri District was bifurcated into Lower Subansiri and Upper Subansiri Districts. Upper Subansiri District was formed covering the area of the then Daporijo Sub-Division and rest of the area of earstwhile Subansiri District was placed under Lower Subansiri. Finally, on 22nd September, 1992 Lower Subansiri District was again bi-furcated and Papum Pare District was formed.

(iii) Administrative Set up

The district has been divided into two subdivisions viz. (1) Ziro and (2) Koloriang subdivision. The Ziro subdivision is directly controlled by Deputy Commissioner and Koloriang subdivision is under the charge of Subdivisional Officer. The Circle administrative unit is the lowest administrative Unit which is controlled by Circle Officer or Extra Assistant Commissioner.

There are 17(seventeen) Circles in the district Viz., Ziro(district HQ), Yachuli, Pistana, Palin, Yangte, Sangram, Nyapin, Chambang, Koloriang, Sarli, Damin, Parsi Parlo, Tali, Longding Koling, Dollungmukh, Kamporijo and Raga. Ziro subdivision consists of 11(eleven) circles viz, Ziro, Yachuli, Pistana, Palin, Yangte, Chambang, Tali, Longding Koling, Raga, Kamporijo and Dollungmukh and Koloriang Subdivision consists of 6(six) circles viz,. Koloriang, Sarli, Damin, Parsi Parlo, Nyapin and Sangram. In addition to that the district has been divided into 9(nine) blocks viz, Ziro, Yachuli, Palin, Nyapin, Chambang, Tali, Raga, Koloriang and Damin.

Deputy Commissioner is the administrative head of the district. He is to maintain law and order of the district with the help of administrative officers and Police force. In the district, villagers have their own customary administrative system in the form of traditional village council, which consist of the Village Headman (Gaon-Burahs) and members.

Ziro the district headquarters is the only Census Town in the district.

(iv) Physical Features

Lower Subansiri district is rich with its valuable forest humming with wild life. Mighty rivers of the district facilitate hydel powers. Moreover, climatic condition of the district enhance the beauty of the nature.

Location

The district is located in the western part of Arunachal Pradesh. It lies approximately between 92º40' and 94º21' East Longitudes and 26º55' and 28º21' North Latitudes. The district is bounded by China (Tibet) and part of Upper Subansiri district in the North. West Siang district and Upper Subansiri in the East. Papum Pare district and the State of Assam in the South and East Kameng district in the West respectively. The district is comprising of over an area of 10,135 Sq.Km. It occupies about 12.10 per cent (approx.) of total area of the State which ranked third in area (10,135 Sq.Km.) among all the thirteen districts of Arunachal Pradesh.

Physiography

The topography of the district is mostly mountainous terrain, where Hill ranges varies approximately from 1000 to 1600 metres above sea level. A greater part of it falls within the higher mountain zone with snow-clad peaks, tangled peaks and earthling valleys. Nature has gifted the heartland

of the district in the form of magnificent plateau at about 1564 metres above sea level where Ziro the district Headquarters, is located.

The forest of the district are rich in valuable species of trees and different varieties of shrubs, cane and bamboo grow plenty and shadowy recesses of the forest may be found the exquisite floral treasures of wild species. The forest of the district have great economic value. The district is also rich in wild fauna likeTigers, Panther, Leopard cat, Bear, Antelope and barking deer that beautify the nature's zoological garden.

Drainage

Kamala river flows towards south-east and meets the Subansiri river at Raga circle. The Subansiri river at one time was famous for its gold dust flows through the district. The famous Hydel project named as Ranga Nadi Hydel Project is constructed over the Subansiri river at Yachuli circle. The Subansiri river joins the Brahmaputra river in the plains of Assam. The other important rivers in the district are Khru-Kime, Ranga, Panior, Pangeclo which have great value in drainage system of the district.

Climate

The climatic condition of the district varies from place to place and season to season. The climate is largely influenced by the nature and terrains, depending upon its altitude and location of the place. In the foothills area of the district the climatic condition is moderate in comparison to high belt areas. During winter it is very cold and in summer the climate is very pleasant. December and January are generally the coldest months and July and August are the warmest months. The annual rainfall in the district is very high in the Southern area of the district. The average rainfall of the district headquarters i.e. in Ziro is 77.52 cms.

Generally relative humidity is always higher in summer than the winter. In winter season generally the sky is covered with fogs and in summer it keeps clouded. Strong winds down the valleys are experienced as local effect produced by the nature of terrains.

Archaeology

In Lower Subansiri District there are certain important places of archaeological importance. Though excavation has not been uniformly carried out all over the district, in 1970 D.K. Duarrah reported three neolithic cell found from Damins, (Raga) Circle of Lower Subansiri District and two of these are ground axes and one is a working part of an axe.

Forest

The total forest area of the district is 10,135 Sq.Km out of which total reserve forest covers an area, 515.878 Sq.Km. The percentage of total reserve Forest to total forest area is 5.09%.

So far as afforestation is concerned it is found that during 1991-2001 540.0 Lac. comes under Artificial Plantation, 170.0 lac are ANR, 120 Lac, are Social Forestry, 190.0 Lac are Fuel wood plantation and 1440.0 Lac comes under Apna Van Plantation. There is also proposed Reserve Forest area in the district which are 38072.0 Lac in Hapoli Proposed Reserved Forest and 7220.0 Lac under Raga proposed Reserved Forest.

At present the district has only one forest division with its headquarters at Ziro (Hapoli) and there are 6 (six) ranges namely, Hapoli, Yachuli, Raga, Talley Valley and Palin under Hapoli Forest Division including one range office of waste land development division and one Forest Beat.

There is only one wild Life Sanctuary under this Division namely Talley Valley Wild Life Sanctuary which is under the administrative control of De. C.W.L.W., Naharlagun and there is no National Park under this division.

So far as Forest product is concerned, in the district during 1998-99, 1999-2000 and 2000-2001 are as follows :

Products	Units	1998-99	1999-2000	2000-2001
1	2	3	4	5
Timber	Cum	1201.0578	415.2170	41.6659 m3
Bamboo	Nos	1350	1000	2100
Firewood	Cum	655	218.728	1124.268 m3
Charcoal	Qtls	1741.61	2090.00	3185.52
Cane	Kap	27950	6700	8650
Poles	Nos	50 RMT	-	429 RMT
Robia-cordifale	Kg.	-	-	12785 Kg.

The tribal people of Arunachal Pradesh are given special privileges for collection of forest products like fuel, wood, wood for constructing dwelling houses

and other minor forest product of royalty but not for sale or barter or trade. People are also allowed to enjoy fishing, hunting etc. but there is limitation on inposition of wild life protection Act, 1972.

Forest resources and other resources are strictly controlled from illegal exploitation by the people. At the same time removal of some products like sand shingles and boulders are allowed on payment of royalty to generate revenue.

The protection of wildlife has been taken up by the wild life division. However, hunting of wild life has been condemned all the time. The sale of meat of any wild animal in the market is seized as and when detected and necessary awareness campaigns are organised during wild life weeks.

Source : Divisional Forest Officer, Lower Subansiri District.

Education

The Government of Arunachal Pradesh has set up different educational institutions in different villages in the district through education department with a view to increase the literacy rate in the district. The local student are providing special facilities like cost free books and hostel accommodation upto Class VIII Standards.

As on 31st March, 1999 the district has five Higher Secondary Schools with 3428 students out of which 1971 are boys and 1457 are girls. There are twelve Secondary Schools with 4844 students out of which 2706 are boys and 2138 are girls. There are 33 Middle Schools with 5000 students (Boys 2931 and girls 2069), 103 Primary Schools including pre-primary School with 5078 students (Boys 3197 and girls 2511) and 24 numbers of inter-village school with 1609 students (boys 1022 and girls 587). There are 569 teaching staff working at different educational institution in the district. The number of trained and untrained teachers are 179 and 390 respectively.

In addition to above, the district has 3 (three) Private Primary Schools, 4 (four) number of private middle school and 1 (one) number of Secondary School with an enrolment of 2428 students (Boys 1361 and girls 1067). There are 108 teaching staff in the district at different private educational institutions out of which 34 are trained and 74 are untrained. However, the district has no degree and technical college.

Source : Deputy Director of School Education, Ziro

Medical

The Government has given more emphasis on health care activities in each district of Arunachal Pradesh. The first Hospital in Lower Subansiri district was established at Yachuli in 1948. Later the hospital was shifted to Ziro in 1950 and upgraded as District Hospital. A number of medical institutions has been set up like Hospital, Health Centre, Health Units, Dispensaries etc. through Medical Department for giving medical treatment to the people in the district.

The position of medical facilities in the district from 1991 to 2000 are as follows:

Year	Hospital/PHC/ UH/HSC/ Dispensary	Beds	Doctors
1	2	3	4
As on March, 1991	17	122	15
As on March, 1992	17	126	18
As on March, 1994	43	150	16
As on March, 1995	45	160	23
As on March, 1996	45	160	17
As on March, 1997	52	162	15
As on March, 1998	57	162	28
As on March, 1999	58	162	24
As on March, 2000	61	162	24

Apart from establishment of different medical institutions the different medical welfare programme has been taken up in the district i.e. the Family Welfare Programmes, National Leprosy Eradication Programme, National Malaria Eradication Programme and Expand Programme of Immunization etc. for effective implementation of family welfare programme, wide publicity is being made through cinema, pamphlet, booklets, banners, etc.

During the year 1999-2000, 13 leprosy cases were detected as against 11 during 1998-99. Massive survey was also carried out in all the villages in the district. During the year1996-97, 4 goitre cases were detected as against 7, cases during 1993-94 and 72 cases during 1995-96. During the year 1999-2000, 28 goitre cases were detected as against 4 cases during 1998-99, 10 cases during 2000-2001 in the district.

To eradicate malaria, Government has launched National Eradication Programme in India. Government has engaged officials to spray DDT to check the malaria. The achievement of this campaign was very successful. During the year 1997-98, 8390 blood slides were collected and examined and the number of blood slides found malaria positive were 454 and cases radically treated were 450. During the year 1999-2000 the number of blood slides collected and examined were 7077 and the number of blood slides found malaria positive were 460 and cases radically treated were 463 as against 8468, 370 and 121 respectively during 1998-99.

So far as T.B. (Tuberculosis) is concerned, it is found that during 1996-97 the number of patients received treatment were 3857 as against 5773 during 1995-96. During 1999-2000, 2664 T.B. patients received treatment in the district as against 326 during the year 1998-99.

Agriculture

The importance of agriculture in the economic life of the district can hardly be exaggerated. It is the backbone of her economic system. In fact, the prosperity of the region depends largely on the prosperity of agriculture.

Agriculture is the main occupation of the people of the district. Directly or indirectly people of the district depends on agriculture. When we take into account, people who are indirectly dependent upon agriculture, the ratio rise to more than three fourth. This is, indeed a very high proportion. Instead of this high proportion, sometimes it fails to meet the requirement of the people.

Both settled and Jhum cultivation are practised by the people in the district. The Apatani tribe who live near the district headquarter prefer to do settled cultivation. But in other parts of the district, people do shifting (Jhuming) cultivations. The Nishis, Hill Miris and Solung tribes practise jhum cultivation, because nature of land permit them to do such cultivation. The main products of cultivation of the region are, paddy, maize, millet, wheat, potato, chilli, ginger, pulses, oilseed, sugarcane, fruits, crops and other vegetables etc.

To increase the production Govt. of Arunachal Pradesh has adopted many policies. The Government is providing grant of subsidy for development of lands and also providing High Yielding Variety seeds, fertilizer, tools on subsidy rates. The government is also providing free plant protection to farmers. The coverage of plant protection measure during the year 1993-94 is 200 hectors and in 1999-2000 is 190 hectors. The total area brought under HYVS in 1996-97 is 340 hectors (seeds) and 688 hectors (H.Y.V.) which increased to 770 (seeds) and 715 hectors (HYV) and during 1999-2000 it has reached to 716.30 hectors (Seeds) and 730.14 hectors (HYV).

The trend of agriculture production in the district during the 1998-99 and 1999-2000 are shown in the following tables :

	Production in MT		Yield rate (in quintal per he)	
Name of products	1998–1999	1999–2000	1998–1999	1999–2000
1	2	3	4	5
1. Cereals				
(i) Paddy	18434	4500	8.70	0.18
(ii) Maize	5240	540	1.70	1.17
(iii) Millet	899	1291	1.00	0.80
(iv) Wheat	38	78	0.59	1.50
2. Pulses	412	360	0.98	3.00
3. Oil seed	1238	1258	1.09	1.06
4. Vegetables	3066	5470	-	-
5. Sugar Cane	2557	520	27.20	5.77
6. Fruit Crops	4601.58	-	26.72	-

Source : Socio-Eco. Review – 2000, Lower Subansiri.

The production of some of the crops like paddy, Maize, Sugarcane and vegetables are in rapidly growing trends whereas crops like millet, wheat, oilseed, vegetables are increased at gradual rate.

Source : District Agriculture Officer, Ziro.

Horticulture

Horticulture sector plays an important role in Lower Subansiri District. The District Horticulture office has been established in 1980 in the district Headquarters at Ziro. The Horticulture sector occupies 10.235 Sq.Km. area in the district. Horticulture garden are scattered in 595 villages in Lower Subansiri district.

The main objectives of Horticulture department in the district are :

(1) Procurement and distribution of improved fruits.

(2) Opening new orchards/people horticulture garden

(3) Scab eradication and plant protection

(4) Cardamom cultivation and

(5) Vegetable cultivation

The soil and climate of the district is favourable for growing horticulture crops like apple, pears, plum, oranges, banana, guava etc.

There are 3(three) Govt. Horticulture nurseries in the district. In addition to that various schemes (both State and Central Govt.) have been taken up in the district.

The following statement will show the physical achievement and target of various schemes during 2000-2001 :

Sl. No.		Name of Schemes	Target	Achievement
A		State Schemes		
	1	Control of Shifting cultivations	61 hac	61 hac
	2	Matriculture tools and implements	24 Units	24 Units
	3	Rejivination of old orchards	16 Units	16 Units
	4	F.P. Chemicals	29 Units	29 Units
	5	Incentives to farmers	9 Units	9 Units

Publlicity

The publicity programme carried out in the district as per directive and guideline of the Directorate of IPR (Information and Public Relation) in close co-ordination with the various department both the State and Central Govt. Organisations located in the district.

Every VVIP, VIP visits on all national day celebrations and important developmental activities and achievements have been given press release for wide publicity. Photographic coverage and video coverage for news papers, AIR and DDK (Doordarshan Kendra) Itanagar have also been done.

In order to promote the publicity, IPR department has opened projection units in the interior SDO HQs in Koloriang circle HQs in Chambang and Tali and in district HQs at Ziro. All the projection units are well equipped with publicity machineries and man power.

Mass Media programme has also been available to the public by installation of VLTPS direct receiver, community viewing sets and Community Listening sets which are distributed to the public of interior places.

Besides Government Programmes, the private parties established cable T.V. network and video parlour running almost in all the circle HQ and also in the villages.

Modernisation of IPR (Information and Public Relation) department is felt necessary considering present trend of Information Technology.

Source : District Information and Public Relation Officer.

Rural Work Department

At present there are two Rural Works Subdivisions viz., Ziro Rural Work Subdivisions and Koloriang Rural work Subdivisions, which are functioning under Rural work division. The Rural work Department execute various works relating to construction and maintenance of – Rural Link Road, Wire rope suspension Bridge. Moreover it looks after Land Development Construction of staff quarters, office building, Godown and Rural Housing.

The total length of road maintained and constructed during 1999-2000 was 7.70 Kms under R.W.D. and two Wire Rope suspension bridges have been made during the period. Construction of two C.C. steps for staying hut at Ziro and two SPT-III quarters have been completed during 1999-2000. The total expenditure incurred on construction of road/ bridges/building etc. including maintenance during the year 1999-2000 was Rs.147.40 Lacs.

So far 451 villages and one town of the district have been provided with drinking water supply under the PHED, (Public Health Engineering Department), Ziro.

Under, IFCD (Flood Control Division) Lower Subansiri district, 335 hectares of Govt. Canals have been completed as on 31st March, 2000 and 347.50 meter of retaining wall have also been constructed during 1999-2000. So far 140 minor irrigation projects have been completed with total command area of 3643.52 hectares.

District Rural Development agency

The District Rural Development Agency (DRDA) was set up in 1983 at Ziro, (district HQ). The DRDA Ziro, is headed by a Project Director under the Chairmanship of the Dy. Commissioner, who is empowered to form a excutive committee to assist the DRDA.

DRDA is the nodal agency to receive the grant-in-aid both from Central govt. and State Govt at a certain fixed ratio to implement the centrally sponsored schemes such as SGSY/JGSY/PMGY/ PMGSY/EAS/IAY and SPBP.

In order to identify the families living below the poverty line of the district DRDA has already conducted household survey in 1997-98. As per the survey 10,910 families are still living below the poverty line out of total 14, 894 families.

The following statement shows the target and achievement of various programmes during 2001-2002.

Sl.. No	Name of Programme	Target	Achieve-ment	% Achieve-ment
1	2	3	4	5
1.	SGSY (Individual Group)	206	206 06 (Gr) (Individual)	90%
2.	JGSY	0.92 (M/D)	0.92 (M/days)	100%
3.	EAS	2.35 (M/D)	1.49 (M/Days)	63%
4.	IAY	6.59 (R/H)	.333 (R/H)	-
5.	PMGY (Gramin Awas)	.353 (R/H)	353 (R/H)	100%
6.	PMGSY DRDA level	5	5	100%
7.	I.S.R.H.H.D	50	20	40%
8.	SPBP	7	7	100%

Industry

The District Industries Centre, Ziro was established during May, 1978 keeping in view to provide necessary assistance and facilities to the prospective entrepreneurs under a single roof concept for rapid industrialization by promoting SSI units, Cottage and Village industries in the district. The present jurisdiction of the District Industries Centre, Ziro, covers all the administrative pockets of Lower Subansiri District.

The District Industries Centre has been playing a vital role for the development and upliftment of local enterpreneurs from initial stage of identification, selection and motivations of prospective enterpreneurs to selection of venture, preparations of feasibility repost/Schemes procurement of machineries, tools and equipments, training and technical know-how, raw materials assistance, credit facilities, marketing, support etc. More-over, it helps as co-ordinating agency to urban and rural employment opportunity by monitoring entire regulatory and promotion function.

There are all together 747 SSI units registered w.e.f. 1990-2001 which are as follows :

Sl. No.	Type of industry	Number of registered industry
1	Forest based Industry	
	a) Saw Mill	14
	b) Other industries	137
2	Agro based Industry	84
3	Engineering based Industry	129
4	Other allied Industries	383
	Total	747

It is seen from above Statement that during 2000-2001 the total registered SSI units in the district are 747 against 243 in 1990. So, there is significant improvement during the last decade. There is no such factory in the district which is registered under factory Act of 1948.

Source : Deputy Director of Industries, Lower Subansiri District

Textile and Handicrafts

At present there are only one Craft centre in the district which is located in the District HQS at Ziro. In 1995-96 the Deptt. of Textile and Handicrafts, had been bifurcated from Deptt. of industries. Practically separate establishment of Textile and Handicrafts Department had been made only w.e.f. 01.06.2000.

The department is playing a vital role for upliftment of rural poor artisans and prospect of entrepreneurs from grassroot level by imparting training in different trades, providing subsidy on raw materials, tools and machineries. Its function is to provide the financial help to Khadi and Village industries in different level. The department is also encouraging a lot in Sericulture Sector by providing financial and material help to seri rearers/farmers through different scheme under the provision of Central Silk Board of Govt. of India Scheme. The depatment is giving more emphasis on group activities like function of co-opertive society a self help group etc. and giving assistance to them under different provision of Govt. of India's Scheme. Under such provision, apart from individual beneficiaries, 5 co-operative societies have already been assisted in the district till date.

There are 5 (five) production-cum-training centre located at Raga, Palin, Damin, Nyapin, Koloriang and one is at Ziro.

The department of Textile and Handicraft, Lower Subansiri District, Ziro had participated in different exhibition programme held in the district and other national event like the Brahmaputra Darshan at Pasighat, the Arunachal Festival at Itanagar and the special Handloom Expo. 2002 at Dirang.

The Department of Textile and Handicraft, Ziro has been adjudged and got first prize in Exhibition Show at Dirang. During those programmes the department has earned Rs.25,000/- as sale proceeds.

The training cum craft centres as existed in different places of the district during the period from 1990-2001 are as follows :-

Sl. No.	Name of Craft Centre	Name of Craft/ Trade introduce
1.	Ziro	i) Weaving
		ii) Knitting
		iii) Carpentry
		iv) Bellmetal
		v) Blacksmithy
		vi) Carpet
		vii) Cane and Bamboos
2.	Koloriang	i) Weaving
		ii) Carpentry
		iii) Bellmetal
3.	Nyapin	i) Blacksmithy
		ii) Carpentry
4.	Damin	i) Knitting
5.	Palin	i) Weaving
6.	Raga	i) Weaving

Animal Husbandry and Veterinary

Livestock plays a vital role in the socio-economic live of the people of the district. Till last few decades, socio-economic status of the persons assessed by the number of live stock specially the Mithuns owned by an individual. The people are non-vegetarian and prefer meat as an essential item of food in their diet. In rural area almost every family keeps domesticates Mithuns, cow, sheep, goat, pig and poultry. The animal husbandary activities for the development of live stock are mainly divided into three aspects (a) Animal Health Coverage (b) Livestock development and production and also (c) Education and Training.

The objective of Veterinary Dispensary and Veterinary Aid Centre are to provide adequate appropriate veterinary aid to livestock and poultry population thoughout the district in such a way that almost all the villages are brought under Animal Husbandary network, so that minimizing loss of animal by epidemic of both infection and contagious nature. For effective health coverage 9(nine) Vety. Dispensaries are functioning in the district which are located at Siro, Ziro Town, Yachuli, Palin, Nyapin, Koloriang, Damin, Tali and Raga against 14 dispensaries in 1990 which are placed under different places of the district.

As on 31.03.2000 the district is having 12 Veterinary aid Centres against 13 Vety. Aid Centres in 1990. The reduction of Vety. Institution like Vety. Dispensary from 13 in 1990 and only 9 in 2000 was due to bifurcation of Papum Pare district from Lower Subansiri District.

Due to availability of abundant green pasture it is conducive for rearing of cattle, pig, poulty, mithun and goat in the district. One fodder farm has been functioning at Yachuli and are supplying green fodder to cattle breeding farm. Development of pasture land is also undertaken simultaneously with feed and fodder development programme.

To enhance the Animal Husbandary activities in the district, distribution of breeding bulls, exotic, Dairy cows, pigs, sheep etc. is being undertaken in every year, to progressive and deserving local farmers on subsidy basis for cross breeding and multiplication. At present cattle upgrading centre have been set-up in the district.

Besides, one Dairy farm, one Goat farm, one fodder farm and one chick rearing centre are functioning in the district.

The Dairy farm, Siro produced 17,655 ltrs. of milk during 1991-92,13,800 Ltrs. during 1993-94, 15,656 Ltrs. during 1994-95, 14070 ltrs. during 1995-96 2663.5 litres during 1996-97, 7607.5 litres in 1998-99 and 11246 litres during 1999-2000 and total revenue earned during 1999-2000 was Rs.1,79936.

Source : District Veterinary Officer, Lower Subansiri District, Ziro.

Transport and Communication

The district is still having very poor facilities of road communication due to which the development could not be accelerated in all the places of the district uniformly.

The survey report says that most of the villages even the circle headquarters are yet to be connected by road. As a result porter tract plays a vital role in the district. All the officials have to reach their respective administrative centres on foot with the help of ALCS who carry their loads.

However, at present a number of roads are being constructed by Arunachal Pradesh administration to link up Circle headquarters to district headquarters. As on 2000, the total length of road is 686.002 Kms. against 485.84 Kms. in 1990. Out of which354.00 Kms. under PWD, 226.450 Kms under BRTF, 92.792 Kms under RWD and 12.560 Kms under Forest.

At present, the developed facilities of road communication is available to a certain limited area only like Ziro to Lakhimpur, Ziro to Itanagar (Capital) Ziro to Daporijo, Ziro to Kimin and Ziro to Raga. In addition to that, some Circle headquarters are also connected recently to the district headquarters. For example, Palin, Sangram, Nyapin, Koloriang, Raga, Yachuli and Pistana are connected to Ziro the district headquarters while the other Circles like, Chambang, Sarli, Damin, Parsi-Parlo, Tali, Longding-Koling, Dollungmukh, Kamporijo do not have any road connection with the district Headquarters, Ziro.

Arunachal government has appointed Auxiliary Labour Crops(ALCS) for the purpose of utilizing them to carry loads of government officials to reach their administrative centres, where there is no transport facility.

To overcome all those shortcomings government has introduced Air service to carry out govt. loads to respective remote places. As of now some circle headquarters like Chambang, Tali, Damin, Nyapin, Sarli etc.linked to Ziro, the district headquarters by air service mainly for the purpose of carrying Government loads.

Fishery

There is wide scope of fish cultivation in Lower Subansiri District. The people of the district are coming forward to take up it as subsidiary occupation and specially the Apatani area has achieved a unique position for paddy cum fish culture. Fish is one of the items of diet of the people living in the district. Fishing is also considered as a ceremonial ritual both as a form of sports and traditional customs.

The district has potential for scientifically trapping of inland fish wealth. In the seventh plan period emphasis has been given on intensification of paddy cum fish culture, integrated fish farming, reclamation of 'beels', lake etc. and construction of fish farm and fish seed farm.

As on March, 2000 the area brought under pisci-culture was 715.60 hac. and Paddy cum fish culture was 547.00 hac. as against 83.70, and 547.00 hac. respectively as on March 1998-99. At present there are 6 Govt. fish farm, 9 peoples fish farms, 643 village fish farm and 240 other kind of fish farms.

Fish and fish seed production in Lower Subansiri district during last few years are as follows :

Items	Units	1997-1998	1998-1999	1999-2000
1	2	3	4	5
A. Fish Production				
(i) Marine	MT	-	-	-
(ii) Inland	MT	165	152	155
B. Fish Seed Production				
(i) Fry	Lakh	20	3.26	NA
(ii) Fingerlings	Lakh	NA	0.05	1.00

To cater to the demand of villagers for fish seeds specially against the paddy cum fish culture in Apatani Valley which is a unique programme in the district at high altitude fish seeds farm, covering an area of 7.4 hecs. of land was established at Tarin (near Ziro Town) under NEC in 1985-86. Total water area covered is 3.0 hecs. and total effected water area covered is 2.75 hect. Total number of ponds under farm are 74, out of which46 are nursery farm, 16 are rearing ponds and 12 are stocking ponds. Total hatching produced during 1997-98 was 61.75 lakhs and total sold out was 8.3 lakhs. Total fish production during 1997-98 was 159 Kg and number of fish seeds

produced was 61.15 lakhs. Number of fish farmers benefited from farm were 309. Total fish production during 1999-2000 was 155 MT as against 152 MT during 1998-99.

Source : District Fishery Office, Lower Subansiri District, Ziro.

Bank

The district is not rich in Banking facilities. There are altogether three types of banking facilities in the district. They are (1) State Bank of India (2) Apex Bank and Rural Bank. State Bank of India was first introduced in the district during 1971 at Ziro the district HQ. At present there are four branches of State Bank of India serving in different places of the districts viz. New Palin, Raga, Yazali and Ziro (Hapoli). Moreover, there is Arunachal State Co-operative Apex Bank Ltd. also having three branches serving at old Ziro, Hapoli and Sangram and there is one Arunachal Pradesh Rural Bank (Branch) serving at Yazali.

Source : District Statistical Officer, Lower Subansiri district, Ziro.

Panchayat Raj

Like other district in Lower Subansiri also, Panchayat Raj system has been introduced. It is three tyre system viz., Zila parishad, Anchal Samity and Gram Panchayat. Zila Parishad is at district level, Anchal Samity is at block level and Gram panchayat is at the village level.

At present the district has 203 Gram Panchayat and 894 Gram Panchayat members, 12 Anchal Samitys having 230 members and one Zila parishad with 14 members. There are 10 vice president of Anchal Samity and one vice president of Zila parishad in the district. At present most of the Panchayat Raj institutions are not in operation since 1997.

Source : Deputy Commissioner, Lower Subansiri District, Ziro.

Co-operatives

Co-operative Societies play an important role in giving financial benefit to the people in the district. It is only the way through which poor people can get benefit by controlled rate of commodities. It has great influence in socio-economic development of a particular region. Since most of the people of Lower Subansiri district are under poverty line, they are getting more benefit from co-operative societies.

As on 31.9.99, 18 co-operative societies are functioning in the district out of which 7 are multipurpose Co-operative, 1 General co-operative store and 10 are other kinds of co-operative stores.

Source : Assistant Registrar of Cooperative Societies, Ziro.

Electricity and Power

Lower Subansiri district has vast potential for electricity and power. The topographic and climatic condition create innumerable perennial rivers and streams, which are capable of releasing Hydel eletric power for economic development. However, Hydel electric potential of the district has largely remained untapped. In Lower Subansiri district the first work of electrification was started at Ziro Township in the year 1960 with installation of 100 KW.

The first ever Micro Hydel of the district was commissioned on 24.9.1977 at Mai-(Ph-I) with instaled capacity of 2000 KW. The Mai Ph-II Micro Hydel was commissioned during 1984, with installed capacity of 1000 KW. The Tago Hydel Project with installed capacity of 4510 KW was commissioned during March 1992. The work of Ranga Nadi Hydro electric project is in progress. Ranganadi project is one of the biggest project in India with an installed capacity of 405 MW. Which was commissioned during January – March, 2002.

As per record available the total electricity consumption during 1998-99 was 4.334613 million KWH of its use in different purposes. Out of which domestic consumption accounts for 1.305315 million KWH, Commercial 0.265476, Public lighting 0.008726, industry 0.0848246 Million KWH, non residential 0.744278 and in other accounts is 1.162572 million KWH respectively.

Source : Executive Engineer, Electrical Division, Ziro.

Tourism

The tourist spot in this district is yet to be identified. However the government is giving more importance to identify particular place for tourism. The district is full of potential for tourism development. Many visitors come to the district not only from various part of India but also from various part of the world to see the beautiful landscape, evergreen forest and to take part in angling sport etc.

Various efforts have been taken by the Government for Tourism Development in the district through various media in different places of tourist interest since last decade are as follows :

i) Printing of brouchars.

ii) Organisation of tourism festival in different parts of Arunachal Pradesh.

iii) Telecasts the various important Tourist places.

iv) Participation in international tourism fair.

Some of the important and attractive places of tourist interest in the district are as follows :

(a) Apatani Plateau : The most attraction of the places is the Pine grove, Orchid Farm, tarin fish farm, Paddy-cum-pesicultures, emporium with local products etc.

(b) Angling at Yazali : The importance of the place is due to Panyier river, which provides white water, rafting/picnic sport etc.

(c) Talley Valley : There is great scope for tourist who are interested to see bird, wild life, angling etc.

(d) Joyriden 10 Tamen : There is beautiful angling spot over the Kamala river at Tamen where the tourist can enjoy an adventurous ride to Tamen.

Tourism Department in Arunachal Pradesh, particularly in Lower Subansiri district are still in root level. There is poor development of tourism in the district due to lack of infrastructural facilities and lack of proper awareness of local people regarding importance of tourism.

Source : District Information and Public Relation Officer, Ziro.

Trade and Commerce

The district is developed by road communication and transport facilities. It is eminent place for trade and commerce, in comparison with other States and particularly with Assam. Varieties of commodities and articles are imported from the State of Assam. Ziro, the district headquarters is a prominent place, where various types of goods like grocery items, cloth, garments, eletrical goods are bought and sold by the people from various corners of the district. It is an important commercial place.

The essential commodities are supplied to different circles of the district through road transport, air dropping and Head Load Porters. The essential commodities are procured and distributed by the Department of Civil Supply, Supply and Transport. The civil supply usually covers the surface transport through Fair Price Shop and Supply and Transport Department covers the Airfield areas of the district through the units of Central Purchase Organisation (CPO).

During the year 2000-2001, 5 CPOs are functioning in the district. They are located at Tali, Damin, Sarli, Koloriang and Chambang. Besides, 136 Fair Price Shops out of which 7 are under Co-operative and 129 are in Private Sector.

During 2000-2001, 8160 qtls. of Atta(wheat), 12807 Qtls of Sugar, 7200 Qtls of Salt and 1001.50 Qtls of S.K. Oil were procured and distributed through the CPO and Fair Price Shops.

At present there is one cooking gas Agency located at Ziro(Hapoli), two Petroleum retail outlet one is at Hapoli and the other is at Raga in the district. Besides, there are nine S.K. Oil outlet one is at Raga and six are at Ziro and also two are at old Ziro.

Source : District Supply Officer, Lower Subansiri District, Ziro.

(v) Census Concepts

Building

A "Building" is generally a single structure on the ground. Sometimes it is made up of more than one Component Units, which are used or likely to be used as dwellings (residence) or establishment such as shops, business houses, offices, factories, work-shops, worksheds, schools, places of entertainment, places of worship, godowns, stores, etc. It is also possible that building which have Component Units may be used for contribution of purposes such as shop-cum-residence, workshop-cum-residence, office-cum-residence, etc.

Permanent houses

Houses in which both wall and roof are made of permanent materials. Materials of wall can be burnt bricks, GI/metal/Asbestos sheets, stone with lime or cement or cement concrete. Roof may be made of tiles, slate, shingle, corrugated/galvanized iron or zinc/ other metal or asbestos sheets, bricks, lime and stone, stone, RBC/RCC or concrete.

Semi-permanent houses

Houses in which either wall or roof is made of permanent materials and the other is made of temporary materials.

Temporary houses

Houses in which both wall and roof are made of materials which have to be replaced frequently. Wall may be made of grass, thatch, leaves, reeds, bamboo, mud, plastic/polythene, un-burnt bricks or wood. Roof may be made from grass, leaves, bamboo, thatch, mud, un-burnt bricks or wood.

Room

A room should have four walls with a doorway and a roof over head and should be wide and long enough for a person to sleep in, i.e., it should have a length of not less than 2 metres and breath of at least 1½ metres and 2 metres in height. An enclosure which is used in common for sleeping, sitting, dining, storing and cooking etc., should be regarded as a room. An unenclosed verandah, kitchen, store, garage, cattle-shed and latrine and rooms in which a household industry such as a handloom is located, which are not normally used for living or sleeping are excluded from the definition of a living room for the purpose of this question.

One is likely to come across conical shaped hut or tent in which human beings reside. In such improvised accommodation, there will be no four walls to a room and therefore, the above definition would not strictly apply to such types of accommodation. In such cases, the tent or conical hut etc., have been construed to be a room.

In certain parts of the country, particularly in rural areas, the pattern of housing may present some problems. For example, a household may be in occupation of several huts put to different uses such as main residence, sitting room, store and even for sleeping at night. By strict application of the definition each one will be reckoned as a census house, but this does not reflect the real situation. While huts used as sleeping rooms beyond the main residence, should be counted as rooms rather than separate census houses.

If a garage is used by a servant and he lives in it as a separate household, it should be reckoned as a room available to the servant's household. If the servant is considered as a member of the household then the garage room should be reckoned as an additional room of the household.

Census house

A Census House is a building or a part of a building used or recognised as a separate unit because of having a separate main entrance from the road or common courtyard or staircase, etc. It may be occupied or vacant. It may be used for a residential or non-residential purpose or both.

Village

The basic unit for rural area is the revenue village which has definite surveyed boundaries. The revenue village may comprise of one or more hamlets but the entire village is treated as one unit for presentation of data. In unsurveyed areas, like villages within forest areas, each habitation area with locally recognised boundaries is treated as one village.

Town/Urban areas

The following areas are treated as towns/urban area.

a) All places with a municipality, municipal corporation, cantonment board or notified town area committee, etc.

b) All other places which satisfy or are expected to satisfy the following criteria simultaneously

   i) A minimum population of 5,000 ;

   ii) At least 75 per cent of the male working population engaged in non-agricultural pursuits ; and

   iii) A density of population of at least 400 per square kilometre (1,000 per square mile).

City

Towns with population of 1,00,000 and above are called cities.

Urban Agglomeration

An Urban Agglomeration is a continuous urban spread constituting a town and its adjoining urban outgrowths (OGs) or two or more physically

contiguous towns together and any adjoining urban outgrowths of such towns. In some cases railway colonies, university campuses, port areas, etc., may come up near a city or statutory town outside its statutory limits but within the revenue limits of the village or villages contiguous to the town or city. Each such individual area by itself may not satisfy the minimum population limit to qualify it to be treated as an independent urban unit may deserve to be clubbed with the town as a continuous urban spread.

For the purpose of delineation of Urban Agglomerations during Census of India 201, following criteria are taken as pre-requisites :

(a) The core town or at least one of the constituents towns of an urban agglomeration should necessarily be a statutory town : and

(b) The total population of all the constituents (i.e., towns and outgrowths) of an Urban Agglomeration should not be less than 20,000 (as per the 1991 Census).

With these two basic criteria having been met, the following are the possible different situations in which Urban Agglomerations would be constituted :

(i) a city or town with one or more contiguous outgrowths;

(ii) two or more adjoining towns with their outgrowths ; and

(iii) a city and one or more adjoining towns with their outgrowths all of which form a contiguous spread.

Household

A 'household' is usually a group of persons who normally live together and take their meals from a common kitchen unless the exigencies of work prevent any of them from doing so. A household may consist of related to each other, unrelated or both. Examples of unrelated household are boarding houses, messes, hostels, residential hotels, rescue homes, jails, ashrams, orphanages, etc. These are called 'Institutional Households'. There may be one member household, two member households or multi member households. For census purposes each one of these types is regarded as a 'Household'

If a group of persons who are unrelated to each other live in a Census house but do not have their meals from the common kitchen, they would be treated as a separate household. The important link in finding out whether it is a household or not is a common kitchen. In a few situations, it may become difficult to apply the definition of household strictly. For example, a person living alone in a census house, whether cooking or not cooking meals, will have to treated as a household. Similarly, if husband and wife or a group of related persons are living together in a census house but not cooking their meals, will also constitute a normal household.

For this purpose of census there are three type of Households i.e., Normal Household, Institutional Household and the Houseless Household.

Institutional household

A group of unrelated persons who live in a institution and take their meals from a common kitchen is called an Institutional Household. Examples of Institutional Households are boarding houses, messes, hostels, hotels, rescue homes, jails, ashrams, orphanages, etc.

Houseless household

Households who do not live in buildings or census houses but live in the open on roadside, pavements, in hume pipes, under fly-overs and staircases, or in the open in places like worship, mandaps, railways platforms etc., are treated as Houseless households.

Scheduled Caste and Scheduled Tribe

Article 341 of the Constitution provides that the President may, with respect to any State or Union territory, specify the castes, races or tribes or parts of or groups within castes, races or tribes which shall for the purposes of the Constitution be deemed to be Scheduled Castes in relation to that State or Union territory. Article 342 similarly provides for specification of tribes or tribal communities or parts of or groups within tribes or tribal communities which are to be deemed for the purposes of the Constitution to be Scheduled Tribes in relation to the various States and Union territories. In pursuance of these provisions, the list of Scheduled Castes and / or Scheduled Tribes are notified for each State and Union territory and are valid only within the jurisdiction of that State or Union territory and not outside.

It is important to mention here that under the Constitution (Scheduled Castes) Order, 1950, no person who professed a religion different from Hinduism was deemed to be a member of a Scheduled Caste in addition to every member of the Ramdasi, Kabirpanthi, Majhabi or Sikligar caste resident in Punjab or Patiala and East Punjab States Union were in relation to that State whether they professed the Hindu or the Sikh religion. Subsequently, in September 1956, by an amendment, the Presidential Order of 1950 and in all subsequent Presidential Orders relating to Scheduled Castes, the Hindu and the Sikh religions were placed on the same footing with regard to the specification of Scheduled Castes. Later on, as per the amendment made in the Constitution (Scheduled Castes) Order 1990, the Hindu, the Sikh and the Buddhist were placed on the same footing with regard to the recognition of the Scheduled Castes.

The lists containing the names of the Scheduled Castes and the Scheduled Tribes applicable for the Census of India 2001 in Arunachal Pradesh are given below :

Scheduled Castes

The castes which are scheduled in Assam under "The Scheduled Castes and Scheduled Tribes Lists (Modification) order, 1956", (part II of Scheduled I) are to be treated as Scheduled CASTES IN Arunachal Pradesh. The following are the Scheduled Castes in Assam which are also to be treated as Scheduled Castes in Arunachal Pradesh for 2001 Census.

1 Bansphor
2 Bhuinmali or Mali
3 Brittial-Bania or Bania
4 Dhupi or Dhobi
5 Dugla or Dholi
6 Hira
7 Jalkeot
8 Jhalo, Malo or Jhalo-Malo
9 Kaibartta or Jaliya
10 Lalbegi
11 Mahara
12 Mehtar or Bhangi
13 Muchi or Rishi
14 Namasudra
15 Patni
16 Sutradhar

Scheduled Tribes

In the Presidential Order of 1956, mentioned above, it is said that all the tribes of the Agency are to be treated as Scheduled Tribes. At paragraph 2 of Part II of Schedule III of the order an illustrative list of the tribes of Arunachal Pradesh is provided. It has been mentioned that the Presidential Order is illustrative and not exhaustive with respect to the tribes of Arunachal Pradesh. The names of the following tribes were returned during 1971,1981,1991 and 2001 censuses.

1 Abor
2 Aka
3 Apatani
4 Dafla
5 Galong
6 Khampti
7 Khowa
8 Mishmi
9 Momba
10 Any Naga Tribe
11 Sherdukpen
12 Singpho

Language and Mother tongue

As per the census concept, each language is a group of mother tongues. The census questionnaire collects information on the mother tongue is defined as the language spoken in childhood by the person's mother of the person. If the mother died in infancy, the language mainly spoken in the person's home in childhood will be the mother tongue. In case of infants and deaf mutes, the language usually spoken by the mother is considered as mother tongue. It is not necessary that the language spoken as mother tongue should have as script. The mother tongues returned by the respondents in census are classified and

grouped under appropriate languages according to their linguistic characteristics.

Literate

A person age 7 years and above who can both read and write with understanding in any language is taken as literate. A person who can only read but cannot write is not a literate. It is not necessary that to be considered as literate, a person should have received any formal education or passed any minimum educational standard. Literacy could have been achieved through adult literacy classes ot through any non-formal educational system. People who are blind but can read in Braille are treated as literates.

Literacy rate

Literacy rate of the population is defined as the percentage of literates in the age group seven years and above. For different age groups the percentage of literates in that age group gives the literacy rates.

Educational level

The highest level of education a person has completed.

Work

Work is defined as participation in any economically productive activity with or without compensation, wages or profit. Such participation may be physical and or mental in nature. Work involves not only actual work but also includes effective supervision and direction of work. It even includes part time help or unpaid work on farm, family enterprise or in any other economic activity. All persons engaged in "work" as defined above are workers. Persons who are engaged in cultivation or milk production even solely for domestic consumption are also treated as workers.

Reference period for determining a person as worker and non-worker is one year preceding the date of enumeration.

Main Worker

A person who has worked for major part of the reference period (i.e., six months or more during the last one year preceding the date of enumeration) in any economically productive activity is termed as 'Main worker'.

Marginal Worker

A person who worked for less than six (6) months of the reference period (i.e., in the last one year preceding the date of enumeration) in any economic activity is termed as 'Marginal worker'.

Non worker

A person who has not worked at all in any economically productive activity during the reference period (i.e., in the last one year preceding the date of enumeration) is termed as 'Non worker'.

Cultivator

For purposes of the Census, a person is classified as Cultivator if he or she is engaged in cultivation on land owned or held from government or held from private persons or institutions for payment in money, kind or share. Cultivation includes effective supervision or direction in cultivation.

A person who has given out her/his land to another person or persons or institution(s) for cultivation for money or share of crop and who does not even supervise or direct the cultivation in exchange of land, is not treated as cultivator. Similarly, a person working on another person's land for wages in cash or kind or a combination of both (agricultural labourer) is not treated as cultivator.

Cultivation involves ploughing, sowing, harvesting and production of cereals cereal and millet crops such as wheat, paddy, jowar, bajra, ragi etc., and other crops such as sugarcane, tobacco, ground nuts, topioca etc., and pulses, raw jute and kindred fibre crop, cotton, cinchona and other medicinal plants, fruit growing, vegetable growing or keeping orchards or graves, etc.. Cultivation does not include the following plantation crops – tea, coffee, rubber, coconut and betel nuts (areca).

Agricultural Labourer

A person who works on another person's land for wages in money or kind or share is regarded as an agricultural labourer. She/he has no risk in the cultivation but merely works on another person's land for wages. An agricultural labourer has no right of lease or contract on land on which she/he works.

Household Industry worker

Household Industry is defined as an industry conducted by the head of the household herself/ himself and or by the members of the household at home or within the village in rural areas and only within the precincts of the house where the household lives in urban areas. The larger proportion of workers in household industry should consist of members of the household including the head. The industry should not be run on the scale of a registered factory which would qualify or has to be registered under the Indian Factories Act and should be engaged in manufacturing, processing, servicing and repairs of goods.

It does not include professions such as a pleader, Doctor, Musicians, Dancer, Washerman, Astrologer, Dhobi, Barber etc. or merely trade or business, even if such professions, trade or services are run at home by members of the household.

Other Worker

A person who has been engaged in some economic activity during the reference period but not as a cultivator or agricultural labourer or in household industry is termed as a 'Other Workers (OW)'. The type of workers that come under this category of 'OW' include all government servants, municipal employees, teachers, factory workers, plantation workers, those engaged in trade, commerce, business, transport, banking, mining, construction, political or social work, priests, entertainment artist, etc. In effect, all those workers other than cultivators or agricultural labourers or household industry workers, are 'Other Workers'.

Work participation rate

Percentage of workers (main + marginal) to total population.

Population Density

Population density is the number of persons inhabited per square kilometre of the area.

Age

Age is measured in terms of completed number of years.

Sex ratio

Number of females per 1000 males in a population.

(vi) Non Census Concepts

Improved drinking water

If the household had access to drinking water supplied from a tap, hand pump, tube well or well (protected or covered) situated within or outside the premises, it is considered as having access to improved drinking water.

It may be mentioned that such uniform definition may not be valid across all states.

System of sewerage

Generally, a sewerage system means a network of mains and branches of underground conduits for the conveyance of sewerage to the point of disposal. Sewers that carry only household and industrial wastage are called separate sewers; those that carry storm water from roofs, streets and other surfaces are known as storm water drains, while those carrying both sewage and storm water are called combined sewers. However, in some towns which are not provided with such underground sewerage system, it is served by open surface drain, box drain, sylk pattern drain, etc., in those towns.

Type of latrine and method of disposal of night soil

There are three prevalent systems of disposal of human wastes, viz. (i) underground sewerage, (ii) sanitary water flush latrines with individual disposal systems, like septic tank, leaching cess pool and collecting well and (iii) dry type of latrines with manual scavenging.

The system of underground sewerage provides for the street sewerage with which are connected the sanitary latrines constructed in the houses having water closets and fitted with flushing cistern (or hand flushing). Through this sewer the faecal matter is transported without the need for scavenging. This system generally exists in cities and big towns.

Where the street sewer does not exist these sanitary water flush latrines are connected to a local septic tank with a sub-soil dispersion system or a leaching pit. Here the liquid wastes from the water closet is disposed of locally in leaching pit, a septic tank with a soil dispersion system is constructed. This dispersion requires an optimum travel through the pores of the soil which renders the harmful liquid

bacterially innocuous by the slow process of filtration through the soil traversed.

Where the soil is impermeable, collecting wells are constructed and the sanitary water flush latrines are connected with them. These wells are cleaned at periodic intervals by a suitable device. The dry type of latrines are of service type latrine from where human excreta is removed by scavengers from house to house, in most cases carrying it on their heads or shoulders or in baskets with handle or wheel barrows. These are then collected in bullock carts or trucks or tractors and trolleys for being carried to the dumping grounds.

Fertility

In demography, the word fertility is used in relation to the actual production of children or occurrence of births specially live births. Fertility is a measure of rate at which population adds to itself by births and normally assessed by relating the number of births to a full or part of the population, such as number of married women or number of women of child bearing age. The definitions of the terminology used in computing different fertility rates are mentioned below:

Crude birth rate (CBR)

Ratio of the number of live births in a year to the mid year population, normally expressed per 1000 population.

$$CBR = \frac{\text{Number of live births during the year}}{\text{Mid –year Population}} \text{ x1000}$$

Crude death rate (CDR)

Ratio of the number of live deaths in a year to the mid year population, normally expressed per 1000 population.

$$CDR = \frac{\text{Number of deaths during the year}}{\text{Mid –year Population}} \text{ x 1000}$$

Natural growth rate

Growth rate is obtained as the different between crude birth and crude death rate in the absence of migration.

Age specific fertility rate (ASFR)

Number of live births in a year to female population in any specified age group normally expressed per 1000 women.

$$ASFR = \frac{\text{Number of live births in a particular age-group}}{\text{Mid-year female population of the same age-group}} \text{ x 1000}$$

Age specific marital fertility rate (ASMFR)

Number of live births in a year to married female population in any specified age group normally expressed per 1000 women.

$$ASMFR = \frac{\text{Number of live births in a particular age-group}}{\text{Mid-year married female population of the same age-group}} \text{ x 1000}$$

General fertility rate (GFR)

Number of live births per 1000 women in the reproductive age-group (15-49) years in a given year.

$$GFR = \frac{\text{Number of live births in a year}}{\text{Mid-year female population of the age-group (15-49) years}} \text{ x 1000}$$

General marital fertility rate (GMFR)

Number of live births per 1000 married women in reproductive age-group (15-49) years in a given year.

$$GFR = \frac{\text{Number of live births in a year}}{\text{Mid-year female population of the age-group (15-49) years}} \text{ x 1000}$$

Total Fertility rate (TFR)

It is obtained as the total of the age specific fertility rates (number of children born per woman of the particular age) for the entire reproductive age span. It provides the average number of children that will be born to a woman under the fertility levels indicated by the age specific fertility rates assuming that there is no mortality of woman till the completion of reproductive period.

$$TFR = \frac{5 \times \overset{45\text{-}49}{\underset{15\text{-}19}{S}} ASFR}{1000}$$

Total marital Fertility rate (TMFR)

Average number of children that would be born to a married woman if she experiences the current fertility pattern throughout her reproductive span (15-

49) years assuming that there is no mortality of woman till the completion of reproductive period.

$$TMFR = \frac{5 \times \sum_{15-19}^{45-49} ASMFR}{1000}$$

Age specific mortality rate (ASMFR)

Number of deaths in a particular age and sex group per 1000 population of the same age group.

$$ASMR = \frac{\text{Number of deaths in a particular age-group}}{\text{Mid-year population of the same age-group}} \times 1000$$

q1

Probability of dying between birth and age 1. This can be used as approximate value of Infant Mortality Rate (IMR) which gives the ratio of number of deaths in a year of children aged less than one year to the number of births in that year.

q2

Probability of dying between birth and age 2.

q5

Probability of dying between birth and age 5. This indicator is also known as Under Five Mortality Rate (U5MR).

Infant mortality rate (IMR)

Ratio of the number of infant deaths (deaths of children below one year) in a year to the number of live births in that year.

$$IMR = \frac{\text{Number of infant deaths during the year}}{\text{Number of live births during the year}} \times 1000$$

Infant mortality rate comprises of two parts, viz., Neo-natal mortality rate and Post neo-natal mortality rate. The neo-natal mortality rate also comprises of two parts viz., early neo-natal mortality rate and late neo-natal mortality rate. These are defined as:

Neo-natal mortality rate (NMR)

Number of infant dying within the first month of life (28 days or under) in a tear per 1000 live births of the same year.

$$NMR = \frac{\text{Number of infant deaths aged 28 days or under during the year}}{\text{Number of live births during the year}} \times 1000$$

Early Neo-natal mortality rate

$$= \frac{\text{Number of infant deaths of less than 7 days during the year}}{\text{Number of live births during the year}} \times 1000$$

Late Neo-natal mortality rate

$$= \frac{\text{Number of infant deaths of 7 days to less than 29 days during the year}}{\text{Number of live births during the year}} \times 1000$$

Post Late Neo-natal mortality rate (PNMR)

$$PNMR = \frac{\text{Number of deaths of 29 days to less than one year during the year}}{\text{Number of live births during the year}} \times 1000$$

Pre-natal mortality rate (PMR)

Number of still births plus deaths within 1st week of delivery per 1000 births in a year.

$$PMR = \frac{\text{Number of still births and infant deaths of less than 7 days during the year}}{\text{Number of live births and still births during the year}} \times 1000$$

Still birth rate (SBR)

$$SBR = \frac{\text{Number of still birth during the year}}{\text{Number of live births and still births during the year}} \times 1000$$

Maternal mortality rate(MMR)

Number of deaths of woman in the age group 15-49 while pregnant or within 42 days of termination of pregnancy from any related to pregnancy and child births in a given year.

$$MMR = \frac{\text{Number of maternal deaths to woman in the age group 15-49}}{\text{Number of live birth}} \times 1,00,000$$

Eligible couple (Couples per 1000 population)

Number of currently married females in the age group 15-44 years per 1000 persons of all ages.

Child woman ratio (0-4)

1. Number of children in the age group 0-4 years per 1000 woman in the age group 15-49 years.

Child woman ratio (5-9)

2. Number of children in the age group 5-9 years per 1000 woman in the age group 15-49 years.

Migration

Migration is the third component of population change, the other two being mortality and fertility.

A person is considered as a migrant by place of birth if the place in which he/she is enumerated during the census is other than his/her place of his/her birth.

Similarly a person is considered as migrant by place of last residence if the place in which he/she is enumerated during the census is other than his/her place of immediate last residence outside the village or town and not simply in another house or locality in the same village or town.

Certain aspects concerning temporary movement/ migration of people has been explained below as these are important components concerning migration :

(i) Migration of persons in search of job is high in the country. In many cases such migrants are only seasonal in nature. People migrate to other places for work in a particular season and come back again to their usual place residence after three or four months. All such workers are treated as migrants. Similarly, if a person moved to any other place for attending short term vocational or educational courses that lasted for only few months of a year, she/ he too were considered as a migrant.

(ii) Where a person had merely gone out to another place or had been shifting from one to another purely on tour, pilgrimage, visit to hospital for treatment or for temporary business purposes, such persons are not deemed to have had another residence different from the place where she/he or her/his family normally resides she/he is not considered as migrant.

(iii) A woman temporarily moves into a hospital or to her parents or other relative's house for delivery and if the hospital or the parents/relative's houses is in a place where the hospital or parents/relative's house is the place of last residence of the child but not the mother.

A new response category 'Moved after birth' was added in Census of India 2001 in the question on 'reasons for migration' to bring out additional migration patterns. Natural calamities or distress migration as a reason for migration for last residence migrants included in 1991 Census, is covered under category of 'Others'. The reason for migration has been determined as applicable at the time of migration and not in reference to any point of time after that. For example, if a person had moved from the place of her/his last residence for the purpose of the education and subsequently at some point of time got employment there only, the reason for migration would be 'education' and not 'work/employment'.

Internal and International migration

The migrational movements are of three types (i) Migration within the state itself with its components (a) Migration within the district of enumeration (intra district migration) (b) Migration from one district of state to another district of state (inter district migration), (ii) Migration from one state to another state of the country (inter-state migration), (iii) Migration from one country to another country. The first two streams together constitute internal migration, while the last type of movement is called international migration. This present name of the country, state or district and not the name by which they were known at the time of her/his birth or last residence were recorded.

Rural-Urban components of migration

Rural or Urban status in respect of migrants have been determined as applicable at the time of migration and not with reference to any point of time after that.

The flow of migrants consists of four streams viz., rural to rural, rural to urban, Urban to rural and urban to urban.

Civic status of urban units

Civic status of town/city is determined on the basis of Civic Administrative authority of the town e.g., Municipal Committee/Municipal Council, Municipality etc.

Size-class of UA/Town

Size–class of UA/Town is based on the population size of the UA/City/Town UAs/Towns with 1,00,000 and above population are classified as Class I UAs/ Towns. These Class I UAs/Towns are now further sub classified in to seven sub classes namely M1 to M7 depending on the population size of UA/City/ Town. These are M7 (5,000,000 and above); M6 (2,000,000 to 4,999,999); M5 (1,000,000 to 1,999,999); M4 (500,000 to 999,999); M3 (300,000 to 499,999); M2 (200,000 to 299,999) and M1 (100,000 to 199,999) towns with 50,000 to 99,999 population are classified as Class II towns, 20,000 to 49,000 population are Class III towns, population with 10,000 – 19,999 are Class IV towns, population with 5000 and 9999 are Class V and towns with less than 5000 population are Class VI towns.

Slum area

The Slum Areas (improvement and Clearance) Act, 1956 which was enacted by the Central Govt. defined slums as a) Areas where buildings are in any respect unfit for human habitation; or b) area by reasons of dilapidation, overcrowding, fault arrangement and design of such buildings, narrowness or family arrangement of streets, lack of ventilation, light or sanitation facilities, or any combination of these factors, are determined to safety, health or morals.

Mega city

The concept of 'Mega City' is a recent phenomenon in the Urban Sociology and is defined in term of metropolitan city in form of large size, problem of management of civic amenities and capacity to absorb the relatively high growth of population. Indian Census in 1991 treated the population size of 5 million and above as the cut off point to identify a place as the mega city. Whereas, for the purpose of inclusion in Centrally Sponsored Scheme for Infrastucture Development in Mega Cities the Ministry of Urban Affairs and Employment, Department of Urban Development adopted the criteria of 4 million and above population as per 1991 Census for Mega Cities. In 2001 Census, cities with 10 millions and above population have been treated as Mega Cities.

(vii) 2001 Census finding—
Population, its distribution

According to the 2001 Census, the total population of the district is 98244 comprising 49542 males and 48702 females and constituting 9.0 percent of the state population spread over 9548 Sq.Km. area of the district. Among the circles of the district Zero circle is the most populous circle having a population of 24703 while Dollong-Mukh circle is the smallest one with a population of 1080 in the district. Other circles in order of their population size are (1) Yachuli (2) Nyapin (3) Kamporijo (4) Pistana (5) Palin (6) Sangran (7) Koloriang and (8) Chambang (9) Tali (10) Raga (11) Parsi-parlo (12) Damin (13) Longding-Koling (14) Sarli and (15) Yangte.

Out of the total population of the district 87.4 percent lives in rural areas while 12.6 percent lives in urban areas. The corresponding proportion in rural and urban areas of the state are 79.2 percent and 20.8 percent respectively. The average number of towns per hundred inhabited villages is often considered as an index of urbanization. In this district there are 0.2 percent town for every hundred villages, indicating that the district is one of the less urbanized district in the state. Only one circle of the district has urban population.

Out of total 704 villages in the district 652 are inhabitated. In terms of rural population Yachuli circle is the most populated circle with 16.4 percent of rural population of the district, while Dollong-Mukh circle with 1.3 percent of the rural population of the district stands lowest in rural population. In terms of number of villages Yachuli circle leads with 69 inhabited villages, while Dollong-mukh Circle with only 9(Nine) inhabited villages holds the last rank.

Urban population of the district is distributed among 1(One) Urban unit and no urban unit has municipal status. The average size of an urban centre in the district worksout to 12384 persons.

Zero is the only town in the district . The class, status, population in 2001 census growth rate, density, sex ratio, work participation, literacy rate are given below in a tabular form of the town.

Sl. No.	Size	Name	Class	Status	Population in 2001 Census	Growth rate	Density	Sex ratio	Work participation rate			Literacy rate		
									P	M	F	P	M	F
1	2	3	4	5	6	7	8	9	10	11	12	13	14	15
1	2.5	Zero	IV	C.T	12384	39.7	4954	911	33.6	45.3	20.8	63.8	69.5	57.6

In general the urban population of the district are mixed with Hindu, Buddhist, Mahamadan, Sikh, Jain, Christian and others (some local people belong to "Doney Polo" the local religion). For higher education no separate University is available in the towns as well as in the district. The nearest University is located in Doimukh, (Arunachal Pradesh).

TABLE 1 : DECADAL CHANGE IN POPULATION OF CIRCLES BY RESIDENCE, 1991-2001

Sl. No.	Circle	Population						Percentage decadal variation 1991-2001			Percentage urban population	
		1991			2001							
		Total	Rural	Urban	Total	Rural	Urban	Total	Rural	Urban	1991	2001
1	2	3	4	5	6	7	8	9	10	11	12	13
1	Ziro Circle	34,661	25,799	8,862	24,703	12,319	12,384	-28.7	-52.3	39.7	25.6	50.1
2	Yachuli Circle	-	-	-	14,116	14,116	0	-	-	-	-	0
3	Pistana Circle	-	-	-	6,009	6,009	0	-	-	-	-	0
4	Palin Circle	6,285	6,285	0	5,816	5,816	0	-7.5	-7.5	-	0	0

11	Parsi-Parlo Circle	-	-	-	2,891	2,891	0	-	-	-	-	0
12	Damin Circle	4,902	4,902	0	2,785	2,785	0	-43.2	-43.2	-	0	0
13	Longding Koling Circle	-	-	-	2,206	2,206	0	-	-	-	-	0
14	Tali Circle	6,450	6,450	0	3,591	3,591	0	-44.3	-44.3	-	0	0
15	Kamporijo Circle	-	-	-	6,264	6,264	0	-	-	-	-	0
16	Dollungmukh Circle	-	-	-	1,080	1,080	0	-	-	-	-	0
17	Raga Circle	8,487	8,487	0	3,554	3,554	0	-58.1	58.1	-	0	0
	District Total:	**83,167**	**74,305**	**8,862**	**98,244**	**85,860**	**12384**	**18.1**	**15.6**	**39.7**	**10.7**	**12.6**

Table - 1 The table deals with decadal change in population of circles by residence for the decade 1991-2001.

The decadal growth rate of the district works to 18.1 percent and is much lower as compared to state average 27.0 percent. Among the 13 districts of the state Lower Subansiri District ranks 7.

This table indicates circlewise decadal variation both in case of rural and urban constituents. So far as total population of the district is concerned it is evident from the table that an overall growth of population 18.1 percent has been recorded in the district as compared to the state growth rate of 27.0 percent. The growth of population in the rural areas of the district during the decade works out to 15.6 percent while in urban areas it comes 39.7 percent.

Among the circles Chambang has registered the highest growth 27.8 percent to total population. The lowest percentage of decadal growth is observed in Raga Circle where negative growth rate to the extend

of (-) 58.1 percent has been registered. As many as 6 new circles have been created after 1991 census which resulted to distribution of population among newly created circles and hence, the population growth rate of the original circles retarded.

TABLE 2 : NUMBER AND PERCENTAGE OF INHABITED VILLAGES IN SPECIFIED POPULATION SIZE RANGES WITH THE RELATED POPULATION, 2001

Serial number	District / C.D. block	Total number of inhabited villages	Total rural population			Number and percentage of villages	Population less than 200	
			Persons	Males	Females		Males	Females
1	2	3	4	5	6	7	8	9
1	Ziro	51	12,319	5,998	6,321	31 (60.8)	998	906

1	2	19	20	21	22	23	24	25	26	27
1	Ziro	0 (0.0)	0	0	0 (0.0)	0	0	0 (0.0)	0	0
2	Yachuli	1 (0.9)	1,293	1,027	0 (0.0)	0	0	0 (0.0)	0	0
3	Palin	1 (1.6)	1,104	902	0 (0.0)	0	0	0 (0.0)	0	0
4	Nyapin	1 (1.2)	1,153	1,153	0 (0.0)	0	0	0 (0.0)	0	0
5	Koloriang	0 (0.0)	0	0	0 (0.0)	0	0	0 (0.0)	0	0
6	Chambang	0 (0.0)	0	0	0 (0.0)	0	0	0 (0.0)	0	0
7	Damin	0 (0.0)	0	0	0 (0.0)	0	0	0 (0.0)	0	0
8	Tali	0 (0.0)	0	0	0 (0.0)	0	0	0 (0.0)	0	0
9	Raga	0 (0.0)	0	0	0 (0.0)	0	0	0 (0.0)	0	0
	Districts (Rural) Total:	**3 (0.5)**	**3,550**	**3,082**	**0 (0.0)**	**0**	**0**	**0 (0.0)**	**0**	**0**

This table shows the population size ranges in the inhabited villages. The number and percentage of inhabited villages in specified population size ranges have been worked out at C.D. block level of the district. It can be seen from the table that majority of the villages (87.7 percent) come under lowest population size range of less than 200. It is further observed that at the district level the number and percentage of inhabited villages have been declined considerably in the higher population size ranges and infact there is no village beyond the population size ranges of 2000-4999. A C.D. block level analysis also shows the similar trend.

TABLE 3 : NEW TOWNS, DENOTIFIED, DECLASSIFIED AND MERGED TOWNS IN 2001 CENSUS

Name of town
1
(a) New
(i) Statutory town
1
2 NA
3
(ii) Census town
1
2 NA
3
(b) Denotified
(i) Statutory towns of 1991 census denotified and also did not satisfy the criteria to be treated as census towns
1
2 NA
3
(ii) Statutory towns of 1991 census denotified but identified as census towns based on demographic and economic criteria
1
2 NA
3
(iii) Census towns of 1991 census are notified as statutory town in 2001 census
1
2 NA
3
(c) Declassified
1
2 NA
3
(d) Wholly merged with other town(s)
1
2 NA
3

Declassified means the census towns of 1991 census which failed to satisfy the demographic and economic criteria.

The table gives an idea of new towns added in 2001 Census and denotified/declassifed after 1991 Census. It can be seen from the table that no new towns have been added in 2001 Census and no town has been declassified in the district after 1991 Census.

TABLE 4 : DISTRIBUTION OF VILLAGES BY POPULATION DENSITY, 2001

Range of population density (per square kilometer)	Total number of villages in each population density range	Percentage of villages in each population density range	Population	Percentage distribution of population
1	2	3	4	5
0-10	652	100.0	85,860	100.0
11-20	0	0.0	0	0.0
21-50	0	0.0	0	0.0
51-100	0	0.0	0	0.0
101-200	0	0.0	0	0.0
201-300	0	0.0	0	0.0
301-500	0	0.0	0	0.0
501 +	0	0.0	0	0.0
Not known	0	0.0	0	0.0
District Total :	**652**	**100.0**	**85,860**	**100.0**

Population Density (Rural) of the district: 0

In census the Density of population works out as population per Sq. Km. In the vast area of 83743 Sq. Km. of Arunachal Pradesh there are altogether 1097968 people accounted for in 2001 Census. So, the density of population of the state is very low in Indian perspective. The density of India comes around 324 during 2001 whereas density of Arunachal Pradesh is 13 only. The same is the case with Lower Subansiri district where density of population is 10. In the absence of cadastral survey the area figure below the district level is not available and as such village level density of population could not be worked out.

TABLE 5 : SEX RATIO OF STATE AND DISTRICT, 1901-2001

Census Year	State			District		
	Total	Rural	Urban	Total	Rural	Urban
1	2	3	4	5	6	7
1901	Data Not Available					
1911						
1921						
1931						
1941						
1951						
1961	894	894	-	905	905	-
1971	861	881	457	940	940	-
1981	862	881	629	885	931	616
1991	859	880	728	896	932	798
2001	893	914	819	983	994	911

Note : Sex ratio has been defined here as the number of females per 1000 males.

The table shows the sex ratio of state and district, 1901-2001. In Arunachal Pradesh census started its operation since 1961. The average sex ratio of the state has always been reported below 900 mark. If we look into state urban sex ratio it is seen that it is absolutely much below the moderate sex ratio but one positive point is noticed that the urban sex ratio has always been maintained upward trend, starting from 457 it has reached to 819 in 2001. There is

TABLE 6 : SEX RATIO BY CIRCLES, 2001

Sl. No.	Name of Circle	Sex ratio		
		Total	Rural	Urban
1	2	3	4	5
1	Ziro Circle	980	1,054	911
2	Yachuli Circle	910	910	-
3	Pistana Circle	1,022	1,022	-
4	Palin Circle	984	984	-
5	Yangte Circle	1,097	1,097	-
6	Sangram Circle	1,081	1,081	-
7	Nyapin Circle	1,040	1,040	-
8	Koloriang Circle	995	995	-
9	Chambang Circle	1,016	1,016	-
10	Sarli Circle	958	958	-
11	Parsi-Parlo Circle	1,022	1,022	-
12	Damin Circle	949	949	-
13	Longding Koling Circle	1,004	1,004	-
14	Tali Circle	975	975	-
15	Kamporijo Circle	971	971	-
16	Dollungmukh Circle	918	918	-
17	Raga Circle	928	928	-
	District Total :	**983**	**994**	**911**

Table 6 shows Sex ratio in Indian Censuses is defined as Females per 1000 Males in the population. The Sex composition of population has some demographic and Socio-economic implication. The

a little different picture in case of sex ratio of Lower Subansiri district where sex ratio in both rural and urban found to be much higher than state average in all the years from 1961 till 2001.

TABLE 7 : SEX RATIO BY CD BLOCKS, 2001

Serial number	Name of C D block	Sex ratio
1	2	3
1	Ziro	1,054
2	Yachuli	942
3	Palin	1,009
4	Nyapin	1,059
5	Koloriang	984
6	Chambang	1,016
7	Damin	985
8	Tali	986
9	Raga	952
	District (Rural) Total:	**994**

Table 7 A C.D. Blockwise analysis of sex ratio shows that Nyapin C.D. Block tops the list with 1059 sex ratio among all the C.D. Blocks of the district while Yachuli C.D. Block is in the bottom with the moderate sex ratio of 942. The average rural sex ratio of the district is 994.

demographic implications results from the relationship between the Sex composition and the fertility potential of the population. The Socio-economic implications results from the fact that the two sexes differ considerably with respect to their participation in gainful work.

Among the 17 Circles of the District Yangte Circle has recorded highest Sex ratio as 1097 followed by Sangram Circle with 1081 and Nyapin Circle with 1040. Sex ratio of Pistana , Chambang, Longding Koling and Parsi-Parlo are also 1000+. The moderate Sex ratio has been reported from the other Circles also.

The average Sex ratio of the district is 983 Females per 1000 Males. This is significantly higher than State level Sex ratio of 893. In 1991 the Sex ratio was 896 in the district which is considerably lower than 2001 Census Sex ratio.

TABLE 8 : SEX RATIO OF RURAL POPULATION BY RANGES, 2001

Range of sex ratio for villages	Number of inhabited villages	Percentage of villages in each range	Population 2001	Percentage distribution of population
1	2	3	4	5
Less than 700	46	7.1	2,844	3.3
700-749	19	2.9	1,347	1.6
750-799	41	6.3	5,062	5.9
800-849	37	5.7	5,460	6.4
850-899	34	5.2	6,038	7.0
900-949	51	7.8	8,812	10.3
950-999	51	7.8	12,717	14.8
1000-1099	143	21.9	21,319	24.8
1100+	230	35.3	22,261	25.9
District Total:	**652**	**100.0**	**85,860**	**100.0**
Sex ratio (Rural) for District:			**994**	

This table has given data on sex ratio of rural population by ranges. The observation of the table is given below :

Table 8 there are altogether 652 Inhabited Villages in the district. So far as Sex Ratio range of village is concerned 35.3% of villages are within 1100+ range of Sex Ratio, and 25.9% of population are distributed in the same ranges and which is followed by 21.9% of villages falls under 1000-1099 ranges of Sex Ratio with 24.8% population in the same range.

TABLE 9 : SEX RATIO OF URBAN AGGLOMERATIONS/TOWNS, 2001

Serial number	Name of U.A. Town	Urban status of town	Sex ratio
1	2	3	4
1	Ziro	CT	911
Sex ratio (Urban) for the district:			**911**

The table 9 deals with Sex Ratio of urban. There is only one town in the district. The Sex Ratio of which is 911, much higher than the State Sex Ratio of 819 (Urban). But in comparison to Sex Ratio of rural areas of the district - it is seen that the Urban Sex (911) Ratio is lower than the Rural Sex Ratio (994).

TABLE 10 : SEX RATIO OF POPULATION IN THE AGE GROUP 0-6 FOR CIRCLES, 2001

Serial Number	Name of Circle	Total / Rural / Urban	Total population in 0-6 age group			Sex ratio for 0-6 age group
			Persons	Males	Females

		Rural	**15,882**	**7,890**	**7,992**	**1,013**
		Urban	**2,130**	**1,095**	**1,035**	**945**

A circlewise sex ratio of population in the age group 0-6, both for the rural and urban area of the district is presented in this table. Among the total sex ratio in the age-group 0-6 highest is in Koloriang circle, 1137. It is followed by Nyapin circle (1112), Parsi-Pario circle (1093), Damin circle (1073), Palin circle (1049) and Ziro circle (1006). The district total sex ratio in the age group 0-6 is 1005. The rural sex ratio is high when compared to the urban sex ratio for the district and also in the circle.

TABLE 11 : SEX RATIO OF POPULATION IN THE AGE GROUP 0-6 FOR C.D. BLOCKS, 2001

Serial number	Name of C.D. block	Total population in 0-6 age group			Sex ratio for 0-6 age group
		Persons	Males	Females	
1	2	3	4	5	6
1	Ziro	2,125	1,026	1,099	1,071
2	Yachuli	3,813	1,936	1,877	970
3	Palin	1,488	731	757	1,036
4	Nyapin	2,447	1,162	1,285	1,106
5	Koloriang	1,275	599	676	1,129
6	Chambang	873	458	415	906
7	Damin	793	381	412	1,081
8	Tali	819	422	397	941
9	Raga	2,249	1,175	1,074	914
	District (Rural) Total:	**15,882**	**7,890**	**7,992**	**1,013**

This table shows the sex ratio of population in the age-group 0-6 for C.D. Blocks. Among the C.D. Blocks of the district Damin C.D. block has dominated the sex ratio with 1081 and Chambang C.D. block has recorded lowest sex ratio with 906. However, in the age-group 0-6 years there is no significant difference in sex ratios among the majority of the C.D. blocks of the district.

TABLE 12 : SEX RATIO OF RURAL POPULATION IN THE AGE GROUP 0-6 BY RANGES, 2001

Range of sex ratio for villages	Number of inhabited villages	Percentage distribution of villages	Population 2001	Percentage distribution of population
1	2	3	4	5
Less than 700	240	36.8	2,052	12.9
700-749	13	2.0	403	2.5
750-799	17	2.6	343	2.2
800-849	26	4.0	562	3.5
850-899	24	3.7	1,648	10.4
900-949	21	3.2	1,508	9.5
950-999	7	1.1	1,586	10.0
1000-1099	79	12.1	2,218	14.0
1100+	225	34.5	5,562	35.0
District (Rural) Total	**652**	**100.0**	**15,882**	**100.0**
Sex ratio (Rural) for District :		**1,013**		

This table provides the sex ratio of rural population in the age-group 0-6 by ranges. It can be seen from the table that as many as 240 villages (36.8 percent) with the total population 2052 (12.9 percent) fall within the range of sex ratio below 700. The highest range of sex ratio 1100 + is found in as many as 225 (34.5 percent) villages where total population is 5562 (35.0 percent)

TABLE13 : SEX RATIO OF POPULATION IN THE AGE GROUP 0-6 OF URBAN AGGLOMERATIONS /TOWNS, 2001

Serial number	Name of UA Town	Urban status of town	Total population in 0-6 age group			Sex ratio for 0-6 age group
			Persons	Males	Females	
1	2	3	4	5	6	7
1	Ziro (CT)		2,130	1,095	1,035	945
	District (Urban) Total		**2,130**	**1,095**	**1,035**	**945**

There is only one Town in the district. The Sex Ratio (0-6 yrs) of the Town is 945 which is considerably higher than the general Sex Ratio of Urban with 911. On the other hand Sex Ratio (0-6) of the district is 1005 which is significantly higher than Urban Sex Ratio (0-6) of 945.

TABLE 14 : NUMBER AND PERCENTAGE OF SCHEDULED CASTES AND SCHEDULED TRIBES POPULATION IN CIRCLE, 2001

		Rural	1,080	0	957	0	88.6
		Urban	0	0	0	0	0
17	Raga Circle	Total	3,554	0	3,262	0	91.8
		Rural	3,554	0	3,262	0	91.8
		Urban	0	0	0	0	0
	District Total :	**Total**	**98,244**	**197**	**88,512**	**0.2**	**90.1**
		Rural	**85,860**	**96**	**80,083**	**0.1**	**93.3**
		Urban	**12,384**	**101**	**8,429**	**0.8**	**68.1**

The above table reveals the percentage of Scheduled Castes and Scheduled Tribes population. It is seen from the Table that there are very negligible percentage of Scheduled Caste population in the district. Out of 17 Circles, only five Circles are having Scheduled Castes population and remaining Circle do not have any Scheduled Castes population. In the district, as a whole only 0.2% population registered as Scheduled Castes in 2001 Census, which is considerably lower than 1991 Census of 0.4%. Table 14 shows that Ziro, Yachuli and Sangram Circle have registered highest percentage of Scheduled Castes population, with 0.4% each, which followed by Pistana and Tali Circle with 0.1 and 0.1 respectively.

The Scheduled Tribe population in Lower Subansiri district is 88512. They constitute 90.1% of district population in 2001 Census as against 70.91% in 1991 Census. Which significantly higher than 1991 Census.

It is observed from the table that all the Circles of the district are having Scheduled Tribe population. Among them Parsi-parlo Circle has registered highest (100%) of Scheduled Tribes followed by Yangte Circle 99.7%. The table reveals that almost all the Circles are having the same percentage of Scheduled Tribes population in between 90 to 100% except Ziro and Yachuli Circles.

TABLE 15 : NUMBER AND PERCENTAGE OF SCHEDULED CASTES AND SCHEDULED TRIBES POPULATION IN C.D. BLOCKS, 2001

Serial number	Name of C.D. block	Total population	Total Scheduled Castes population	Total Scheduled Tribes population	Percentage of Scheduled Castes population to total population	Percentage of Scheduled Tribes population to total population
1	2	3	4	5	6	7
1	Ziro	12,319	3	11,438	0	92.8
2	Yachuli	20,125	65	16,696	0.3	83
3	Palin	7,548	1	7,260	0	96.2
4	Nyapin	12,230	25	12,061	0.2	98.6
5	Koloriang	6,770	0	6,481	0	95.7
6	Chambang	4,497	0	4,485	0	99.7
7	Damin	5,676	0	5,604	0	98.7
8	Tali	5,797	2	5,728	0	98.8
9	Raga	10,898	0	10,330	0	94.8
	District (Rural) Total :	**85,860**	**96**	**80,083**	**0.1**	**93.3**

This table provides number and percentage of Scheduled Castes and Scheduled Tribes population in C.D. blocks. It will be seen from the table that number and percentage of Scheduled Caste population are infact very insignificant in all the C.D. blocks of the district. The number of Scheduled Tribes population is, however very significant. The percentage of Scheduled Tribes population in the rural areas of the district is 93.3 percent. In all the C.D. blocks the percentage of Scheduled Tribes population is above 900 mark except Yachuli C.D. block where it is reported 83.0 percent.

TABLE 16 : PROPORTION OF SCHEDULED CASTES POPULATION TO TOTAL POPULATION IN VILLAGES, 2001

Percentage range of Scheduled Castes population to total population	Number of villages	Percentage	Scheduled Castes Population	Percentage
1	2	3	4	5
Nil	642	98.5	0	0.0
Less than 5	10	1.5	96	100.0
5-10	0	0.0	0	0.0
11-20	0	0.0	0	0.0
21-30	0	0.0	0	0.0
31-40	0	0.0	0	0.0
41-50	0	0.0	0	0.0
51-75	0	0.0	0	0.0
76 and above	0	0.0	0	0.0
District Total :	**652**	**100.0**	**96**	**100.0**

The table deals with proportion of Scheduled Castes population to total population in villages. It is seen from the table that out of 652 villages of the district 642 villages do not have any Scheduled Castes population. Only 10 villages have the Scheduled Castes population in the percentage range of less than 5. This indicates the insignificant number of SC population in the villages.

TABLE 17 : PROPORTION OF SCHEDULED TRIBES POPULATION TO TOTAL POPULATION IN VILLAGES, 2001

Percentage range of Scheduled Tribes population to total population	Number of villages	Percentage	Scheduled Tribes Population	Percentage
1	2	3	4	5
Nil	5	0.8	0	0.0
Less than 5	0	0.0	0	0.0
5-10	0	0.0	0	0.0
11-20	1	0.2	4	0.0
21-30	2	0.3	656	0.8
31-40	0	0.0	0	0.0
41-50	3	0.5	179	0.2
51-75	13	2.0	3,439	4.3
76 and above	628	96.3	75,805	94.7
District Total :	**652**	**100.0**	**80,083**	**100.0**

It is observed from above table that out of 652 villages, only five villages do not have any scheduled tribe population. The table reveals that 628 number of villages are having scheduled tribe population above the range of 76. In other percentage ranges the number of villages is found quite small.

TABLE 18 : NUMBER AND PERCENTAGE OF SCHEDULED CASTES AND SCHEDULED TRIBES POPULATION IN URBAN AGGLOMERATIONS / TOWNS, 2001

Serial number	Name of UA Town	Total population	Total Scheduled Castes population	Total Scheduled Tribes population	Percentage of Scheduled Castes population to total population	Percentage of Scheduled Tribes population to total population
1	2	3	4	5	6	7
1	Ziro (CT)	12,384	101	8,429	0.8	68.1
	District (Urban) Total :	**12,384**	**101**	**8,429**	**0.8**	**68.1**

Table 18 shows number and percentage of Scheduled Caste and Scheduled Tribe population in the Urban area. Out of 12384 person only 101 persons are Scheduled Castes and 8429 are Scheduled Tribes, which constitutes only 0.8% (SC) and 68.1% (ST).

It is important to note that there is significant increases of Scheduled Tribe population in Urban (68.1%) in 2001 Census against 53.8% in 1991 Census.

TABLE 19 : SEX RATIO AMONG SCHEDULED CASTES AND SCHEDULED TRIBES IN C. D. BLOCKS, 2001

Serial number	Name of C D block	Castes sex ratio	Scheduled Tribes sex ratio
1	2	3	4
1	Ziro	2,000	1,097
2	Yachuli	625	1,023
3	Palin	0	1,034
4	Nyapin	786	1,069
5	Koloriang	0	1,030
6	Chambang	0	1,021
7	Damin	0	1,009
8	Tali	0	995
9	Raga	0	977
	District (Rural) Total : 655		**1,032**

TABLE 20 : SEX RATIO AMONG SCHEDULED CASTES AND SCHEDULED TRIBES IN URBAN AGGLOMERATIONS /TOWNS, 2001

Serial number	Name of U.A. Town	Scheduled Castes sex ratio	Scheduled Tribes sex ratio
1	2	3	4
1	Ziro (CT)	485	1,062
Sex ratio (Urban) for the district:		**485**	**1,062**

Table 19 : C.D. Block level Sex Ratio among Scheduled Castes and Scheduled Tribes have been depicted in this table. From the table it can be seen that Sex Ratio among Scheduled Tribes is much higher than among Scheduled Castes population. In the Rural areas of the district, Sex Ratio among Scheduled Castes population works out to 655, whereas Sex Ratio among Scheduled Tribes works out to 1032.

Table 20 : Ziro is the only town of the district where Sex Ratio among Scheduled Castes works out to 485 while Sex Ratio among Scheduled Tribes is 1062. The gap is quite remarkable.

TABLE 21 : NUMBER AND PERCENTAGE OF LITERATES AND ILLITERATES BY CIRCLES, 2001

So far as Literacy is concerned, in Lower Subansiri district Literacy rate is 44.8%. Among them 53.4% are Males and 36% are Females. The above table shows that Literacy rates in 2001 is moderately higher (44.8%) than 1991 (41.57%). It is also observed that Urban Literacy rate is much more higher (77.1%) than Rural Literacy rate (40.1%).

Circlewise breakup shows that Ziro Circle has registered highest Literacy rate (67.3%) which is followed by Yachuli (64.6%), Raga Circle (56.3%) and Dollungmukh Circle (48.8%) and remaining 13 Circles fall below district level rates. The lowest Literacy rates in the district are in Longding Koling Circle with 12.5%.

Total Rural Literacy rate of the district is 40.1%. Among them 48.7% are Males and 31.3% are Females. Yachuli Circle has highest Rural Literacy rate with 64.6% and among them 73.7% are Males and 54.4% are Females.

TABLE 22 : NUMBER AND PERCENTAGE OF LITERATES AND ILLITERATES BY SEX IN C. D. BLOCKS, 2001

Sl. No.	Name of C. D. Block	Number of literates and illiterates						Percentage of literates			Gap in male-female literacy rate
		Number of literates			Number of illiterates

District (Rural) Total :		**28,030**	**17,143**	**10,887**	**57,830**	**25,919**	**31,911**	**40.1**	**48.7**	**31.3**	**17.5**

C.D. Block level Literacy rate by Sex has been worked out in this table. Among the Males the highest (67.6 percent) Literacy rate has been registered against Yachuli C.D. Block and among Females Ziro C.D. block claims highest (50.4 percent) Female Literacy rate. The highest gap (22.5 percent) among Male-Female Literacy rate is found in Chambang C.D. Block.

TABLE 23 : DISTRIBUTION OF VILLAGES BY LITERACY RATE RANGE, 2001

Range of literacy rate for villages	Number of inhabited villages	Percentage distribution of villages	Population	Percentage distribution of population
1	2	3	4	5
0	65	10.0	1,758	2.0
1-10	120	18.4	7,865	9.2
11-20	113	17.3	10,646	12.4
21-30	113	17.3	11,061	12.9
31-40	74	11.3	10,358	12.1
41-50	73	11.2	13,849	16.1
51-60	41	6.3	12,842	15.0
61-70	27	4.1	5,171	6.0
71-80	19	2.9	9,596	11.2
81-90	3	0.5	2,565	3.0
91-99	3	0.5	63	0.1
100	1	0.2	86	0.1
District Total :	**652**	**100.0**	**85,860**	**100.0**
Literacy rate for District :		**44.8**		

From the distribution of villages by Literacy rate range it is seen that as many as 65 inhabited villages (10.0 percent) which constitute 2.0 percent of the Total Rural population of the district come under '0' Literacy rate. The table indicates very poor Literacy rate in the Rural areas of the district and it is evident from the fact that as many as 411 villages out of total 652 villages of the district fall under Literacy rate in between 0-30 range. It is further observed that only 1 village which represents 0.1percent of the Total Population come under 100% Literacy rate.

TABLE 24 : NUMBER AND PERCENTAGE OF LITERATES AND ILLITERATES BY SEX IN URBAN AGGLOMERATIONS/TOWNS, 2001

Sl. No.	Name and urban status of UA Town	Number of literates and illiterates						Percentage of literates			Gap in male-female literacy rate
		Number of literates			Number of illiterates						
		Persons	Males	Females	Persons	Males	Females	Persons	Males	Females	
1	2	3	4	5	6	7	8	9	10	11	12

21-30	0	0.0	0	0.0
31-40	2	20.0	14	14.6
41-50	1	10.0	21	21.9
51-60	0	0.0	0	0.0
61-70	0	0.0	0	0.0
71-80	0	0.0	0	0.0
81-90	2	20.0	45	46.9
91-99	0	0.0	0	0.0
100	4	40.0	12	12.5
District Total :	**10**	**100.0**	**96**	**100.0**
Literacy rate for District (Rural) :		**65.4**		

Table 26 Shows the distribution of villages by Literacy rate range for Scheduled Caste population it is seen that out of 10 villages where Scheduled Castes population are available in the district 4 villages have centpercent Literacy rate and only 1 village falls under '0' Literacy rate range.

TABLE 27 : NUMBER AND PERCENTAGE OF SCHEDULED CASTES LITERATES AND ILLITERATES BY SEX IN TOWNS, 2001

Sl. No.	Name and urban status of Town	Number of literates and illiterates						Percentage of literates			Gap in male/female literacy rate
		Number of literates			Number of illiterates						
		Persons	Males	Females	Persons	Males	Females	Persons	Males	Females	
1	2	3	4	5	6	7	8	9	10	11	12
1	Ziro (CT)	71	51	20	30	17	13	78	85	64.5	20.5
Lower Subansiri (Urban)		**71**	**51**	**20**	**30**	**17**	**13**	**78**	**85**	**64.5**	**20.5**

From the table it is observed that the percentage of Literates among Scheduled Castes population in the urban area is 78 percent with Male-Female distribution of 85.0 and 64.5 percent respectively.

TABLE 28 : NUMBER AND PERCENTAGE OF SCHEDULED TRIBES LITERATES AND ILLITERATES BY SEX IN C. D. BLOCKS, 2001

Sl. No.	Name of C. D. Block	Number of literates and illiterates						Percentage of literates			Gap in male/female literacy rate
		Number of literates			Number of illiterates						
		Persons	Males	Females	Persons	Males	Females	Persons	Males	Females	
1	2	3	4	5	6	7	8	9	10	11	12
1	Ziro	5,439	2,939	2,500	5,999	2,515	3,484	57.3	64.9	50.4	14.5
2	Yachuli	7,088	4,126	2,962	9,608	4,129	5,479	53	62.9	43.5	19.4
3	Palin	1,968	1,241	727	5,292	2,328	2,964	33.9	43.4	24.6	18.8
4	Nyapin	2,514	1,616	898	9,547	4,212	5,335	26.1	34.6	18.1	16.4
5	Koloriang	1,253	759	494	5,228	2,433	2,795	23.9	29.2	18.8	10.4
6	Chambang	911	644	267	3,574	1,575	1,999	25.2	36.6	14.4	22.1
7	Damin	1,116	753	363	4,488	2,037	2,451	23.2	31.2	15.1	16.1
8	Tali	653	437	216	5,075	2,434	2,641	13.3	17.8	8.8	9.1
9	Raga	3,452	2,096	1,356	6,878	3,129	3,749	42.3	51.1	33.3	17.8
District (Rural) Total :		**24,394**	**14,611**	**9,783**	**55,689**	**24,792**	**30,897**	**37.5**	**45.7**	**29.5**	**16.2**

The table shows Number and Percentage of Literates and Illiterates by Sex in C.D. blocks among Scheduled Tribes population of the district. A.C.D. block wise analysis of this table shows that Zero C.D. block has the highest (57.3 percent) percentage of Literates among Scheduled Tribes population. The highest percentage of Literates among Males and Females are also found in this C.D. block. In the Rural areas of the district percentage of Literate among Scheduled Tribes population is 37.5 percent with Male-Female distribution of 45.7 and 29.5 percent respectively and gap in Male/Female Literacy rate is 16.2 percent.

TABLE 29 : DISTRIBUTION OF VILLAGES BY LITERACY RATE RANGE FOR SCHEDULED TRIBES POPULATION, 2001

Range of literacy rate for villages	Number of inhabited villages	Percentage distribution of villages	Scheduled Tribes Population	Percentage distribution of population
1	2	3	4	5
0	64	9.9	1,697	2.1
1-10	118	18.2	7,728	9.6
11-20	113	17.5	10,477	13.1
21-30	112	17.3	11,216	14.0
31-40	74	11.4	9,841	12.3
41-50	75	11.6	15,549	19.4
51-60	41	6.3	10,547	13.2
61-70	24	3.7	4,057	5.1
71-80	20	3.1	8,607	10.7
81-90	2	0.3	243	0.3
91-99	1	0.2	22	0.0
100	3	0.5	99	0.1
District Total :	**647**	**100.0**	**80,083**	**100.0**
Literacy rate for District (Rural) :		**37.5**		

From the distribution of villages by the Literacy rate range it is observed that among 647 inhabited villages where Scheduled Tribes population reside only 3 villages have 100.0 percent Literacy and as many as 64 villages have reported '0' Literacy rate. The highest number of villages (118 villages) fall under Literacy rate range of 1-10. This indicates that in the Rural areas of the district Literacy rate among Scheduled Tribes population is poor.

TABLE 30 : NUMBER AND PERCENTAGE OF SCHEDULED TRIBES LITERATES AND ILLITERATES BY SEX IN TOWNS, 2001

Sl. No.	Name and urban status of Town	Number of literates and illiterates									Gap in male/female literacy rate
		Number of literates			Number of illiterates			Percentage of literates			
		Persons	Males	Females	Persons	Males	Females	Persons	Males	Females	
1	2	3	4	5	6	7	8	9	10	11	12
1	Ziro (CT)	5,239	2,783	2,456	3,190	1,305	1,885	76.2	84.2	68.9	15.3
Lower Subansiri (Urban)		**5,239**	**2,783**	**2,456**	**3,190**	**1,305**	**1,885**	**76.2**	**84.2**	**68.9**	**15.3**

From the table it is observed that the Percentage of Literates among Scheduled Tribes population in the Urban area of the district is 76.2 percent with Male/Female distribution of 84.2 and 68.9 percent respectively. The gap in Male/Female Literacy rate is 15.3 percent.

TABLE 31: NUMBER AND PERCENTAGE OF MAIN WORKERS, MARGINAL WORKERS, AND NON-WORKERS BY SEX IN CIRCLES, 2001

Table No. 31 shows the composition of Worker groups i.e. Main, Marginal and Total Workers. The Total Worker in the district constitute 46.2% to Total Population which is considerably lower than 1991 Census of 48.4%. On the other hand Main Workers in the district are 38.1% and Marginal Workers are 8.1%.

It is seen from the table that there is small variation between Males and Female worker with 41.6% and 34.7% in respect of Main Workers. Similarly, where as in Marginal Workers there are 6.3% Males and 9.9% Females. Out of 17 Circles, Sarli Circle has registered highest number of Main Workers of 55.3% which followed Parsi-parlo and Tali Circle with 53.6% and 53.6% respectively. In respect Marginal Workers highest number of Margianal Workers registered in Sangram and Damin Circle with 18.0% and 17.5% respectively.

So far as Non-workers are concerned 53.8% of population registered as Non-workers in the district. Among them 52.1% are Males workers and 55.5% are Females non-workers.

TABLE 32 : NUMBER AND PERCENTAGE OF MAIN WORKERS, MARGINAL WORKERS, AND NON-WORKERS BY SEX IN C. D. BLOCKS, 2001

Sl. No.	Name of C.D. block	Persons/ Males/ Females	Total Population	Main workers		Marginal workers		Total workers (Main and marginal workers)		Non workers

This table gives C.D. block level-data on Main Workers, Marginal Workers and Non-workers by Sex. Among C.D. blocks of the district Tali C.D.block claims highest work participation rate (52.8 percent) as Main Workers where Male and Female work participation rates are 50.6 & 55.1 percent respectively. Raga C.D. block with 29.4 percent of Main Workers appears last in rank among the C.D. blocks. It is observed that there is only Marginal difference in between Male and Female works participation rate of the total 48.0 percent Workers of the district the Male Workers are 48.3 percent and Female Workers are 47.8 percent.

TABLE 33 : NUMBER AND PERCENTAGE OF MAIN WORKERS, MARGINAL WORKERS, AND NON-WORKERS BY SEX IN URBAN AGGLOMERATIONS/TOWNS, 2001

Sl. No.	Name and urban status of UA Town	Persons / Males / Females	Total Population	Main workers		Marginal workers		Total workers (Main and marginal workers)		Non workers	
				Number	Percentage	Number	Percentage	Number	Percentage	Number	Percentage

(Urban)		**Males**	**6,480**	**2,858**	**44.1**	**77**	**1.2**	**2,935**	**45.3**	**3545**	**54.7**
		Females	**5,904**	**1,136**	**19.2**	**94**	**1.6**	**1,230**	**20.8**	**4674**	**79.2**

The table 33 reveals the composition of Worker in Urban area. The Table shows 32.3% are Main Worker which is below the district average level with 39.0%. The table indicates that Females Main Worker (19.2%) in Urban is below the Male Main Worker (44.1%). On the other hand Marginal Worker in Urban area constitute a very little rate i.e. Total Marginal Worker is 1.4%, of which 1.2% are Males and 1.6% are Females.

TABLE 34 : DISTRIBUTION OF WORKERS BY SEX IN FOUR CATEGORIES OF ECONOMIC ACTIVITY IN CIRCLES, 2001

Serial number	Name of Circle	Persons / Males / Females	Total Population	Total number of workers (Main + Marginal)	Category of workers			
					Cultivators	Agricultural Labourers	Household Industry workers	Other workers

Note: Percent of Worker to total worker are given in brackets

Table 34 concerned with distribution of Workers in four categories (Rural) viz. Cultivators, Agricultural Labourers, Household Industries and Others Workers. It is seen from the table that out of total Main Workers, 70.8% are Cultivators, 3.3% are Agricultural Labourers, 1.8% are Household Industries and 24.1% are Other Workers. The table clearly reveals that the inhabitant of the district completely depends upon cultivation. Moreover, Household Industry Workers in the district are very negligible only 1.8%.

The proportion of Cultivators, Agricultural Labourers, Household Industries and Other Workers differ from Circle to Circle. It is seen from the table that Yangte Circle registered highest percentage of Cultivators with 98.3% which followed by Parsi-parlo (96.9%), Longding Koling (94.9%). It is important to note that except Ziro Circle (39.0%), the percentage of Cultivators in all the Circles are above 60% which varies between 60% to 99%. The Agricultural Labour and Household Industry Workers are very negligible in all the Circles.

So far Other Worker is concerned, it is seen that Ziro Circle reported highest number of other workers with 53.1% which followed by Yachuli with 39.9% and lowest percentage of Other Workers had been reported from Longding Koling Circle with 1.0%.

				(47.8)	**(86.8)**	**(4.1)**	**(1.8)**	**(7.4)**

Note : Percent of Worker to total worker are given in brackets

The distribution of Total Workers by Sex according to four fold industrial categories in C.D. blocks is highlighted in this table. In terms of percentage Damin C.D. block claims highest percentage of Cultivators (93.5 percent) followed by Chambang C.D. block (88.6 percent), Tali (88.3 percent), Palin (83.1 percent), Koloriang (80.9 percent) and Nyapin C.D. Blocks (79.6 percent). The percentage of Agricultural Labourers and Household Industry Workers is found to be very insignificant in all the C.D. blocks of the district. Other Workers also appear to be poor. It is only 17.9 percent in the Rural areas of the district.

TABLE 36 : DISTRIBUTION OF WORKERS BY SEX IN FOUR CATEGORIES OF ECONOMIC ACTIVITY OF URBAN AGGLOMERATIONS/TOWNS, 2001

Serial number	Name and urban status of UA Town	Persons / Males / Females	Total population	Total number of workers (Main + Marginal)	Category of workers			
					Cultivators	Agricultural Labourers	Household Industry workers	Other workers
1	2	3	4	5	6	7	8	9
				Number (Percentage)				
1	Ziro (CT)	Persons	12,384	4,165	482	68	71	3,544
				(33.6)	(11.6)	(1.6)	(1.7)	(85.1)
		Males	6,480	2,935	148	41	42	2,704
				(45.3)	(5.0)	(1.4)	(1.4)	(92.1)

		Females	**5,904**	**1,230**	**334**	**27**	**29**	**840**
				(20.8)	**(27.2)**	**(2.2)**	**(2.4)**	**(68.3)**

This table presents data of Workers by Sex in four categories of economic activity of Towns. In the Town most of the working force belong to the category of Other Workers. It is evident from the fact that 85.1 percent of Workers categorised as Other Workers whereas 2.2 percent Household Industry Workers, 1.6 percent Agricultural Labourers and 11.6 percent are Cultivators.

Note : Percentages are given in brackets.

* Based on the improved drinking water source, drinking water supply has been classified as 'Improved ' or otherwise. If the household has access to drinking water supplied from a tap or a hand pump / tube well situated within or outside the premises it is considered as having access to 'Improved drinking water source'.
However, the concept of improved drinking water is state specific and this is to be considered accordingly.

\# Post office includes Post office, telegraph office and Post and telegraph office.

$ Transport communication includes bus service, rail facility and navigable waterways.

The table reveals a brief analysis of various amenities which are available in each C.D. block of the district. It is seen from the table that 24.1 percent of Inhabited villages have Educational facility, 11.3 percent villages have Medical facility and 54.9 percent villages have improved Drinking Water facility. Out of total 652 villages 15 villages have Post Office facility, only 1 village has Telephone facility, 3 villages have Bank facility and there is none in case of Agricultural Credit Societies. The possition of approach by Pucca Road (22.4 percent) and Power Supply (26.8 percent) appears to be little better.

A C.D. blockwise analysis of this table shows that the Educational facility is highest in Ziro C.D. block where it is available to 45.1 percent villages. The possition of Medical facility, Post Office facility, Telephone facility, Banks facility etc. are in general low in all the C.D. blocks of the district. The services of improved Drinking Water facility is best in Nyapin C.D. block where it is available to 95.1 percent villages. In general the position of this district is in the bottom line so far as availability of amenities are concerned.

TABLE 38 : NUMBER AND PERCENT OF RURAL POPULATION SERVED BY DIFFERENT AMENITIES, 2001

* Based on the improved drinking water source, drinking water supply has been classified as 'Improved ' or otherwise. If the household has access to drinking water supplied from a tap or a hand pump/tube well situated within or outside the premises it is considered as having access to 'Improved drinking water source'.
However, the concept of improved drinking water is state specific and this is to be considered accordingly.

\# Post office includes Post office, telegraph office and Post and telegraph office.

$ Transport communication includes bus service, rail facility and navigable waterways.

A C.D. blockwise distribution of Rural population served by different Amenities can be seen from the table. The table depicts that 51.7 percent of Rural population is served by Educational Institutions while 77.0 percent of Rural population have Drinking Water facility. Only 32.1 percent population have Medical facility. Post Office facility is available to 20.9 percent people and Telephone facility is available to only 1.8 percent people. The position of Power Supply and Approach Road is fairly good.

TABLE 39 : DISTRIBUTION OF VILLAGES NOT HAVING CERTAIN AMENITIES, ARRANGED BY DISTANCE RANGES FROM THE PLACES WHERE THESE ARE AVAILABLE, 2001

Village not having the amenity of	Distance range of place from the villages where the amenity is available			
	Less than 5 kilometres	5-10 kilometres	10+ kilometres	Total (Col. 2 - 4)
1	2	3	4	5
1. Education :				
(a) Primary School	187	120	206	513
(b) Middle School	84	148	345	577
(c) Degree College	0	0	652	652
2. Medical :				
(a) Hospital	48	38	564	650
(b) PHC	52	50	534	636
3. Post Office	71	72	494	637
4. Telephone	37	46	568	651
5. Bus Service	73	85	437	595
6. Banks				
(a) Commercial Bank	40	28	581	649
(b) Cooperative Bank	45	41	565	651
7. Agricultural Credit Societies	12	37	603	652

The table shows the distribution of villages not having certain amenities, arranged by distance ranges from the places where these are available. The table reveals the fact that the villages where Education facilities are not available, but they are mostly available within less than 5 Kilometres. But the picutre is different in case of other amenities like Medical, Post Office, Telephone, Bus Service, Banks, Agricultural Credit Societies etc. In these case these amenities are mostly available beyond the range of 10 + Kms.

TABLE 40 : DISTRIBUTION OF VILLAGES ACCORDING TO THE DISTANCE FROM THE NEAREST STATUTORY TOWN AND AVAILABILITY OF DIFFERENT AMENITIES, 2001

Distance range from the nearest statutory town (in kilometres)	Number of inhabited villages in each range	Type of amenity available							
		Education	Medical	Post Office	Telephone	Transport communi-cations	Banks	Agricultural Credit Societies	Approach by pucca road

	0	0	0	0	0	0	0	0	0
District Total :	**652**	**157**	**74**	**15**	**1**	**57**	**3**	**0**	**146**
	(100.0)	**(24.1)**	**(11.3)**	**(2.3)**	**(0.2)**	**(8.7)**	**(0.5)**	**(0.0)**	**(22.4)**

Post office includes Post office, Telegraph office and Post and telegraph office.

$ Transport communication includes bus service, rail facility and navigable waterways.

There is no Statutory Town in Arunachal Pradesh. All the 17 Towns of the State are in the status of Census Town. The nearest Statutory Towns are located in the neighbouring State Assam. As such, the distance range from the nearest Statutory Town is mostly 51 + Kms. from the Inhabited villages where different amenities are available.

TABLE 41 : DISTRIBUTION OF VILLAGES ACCORDING TO POPULATION RANGE AND AMENITIES AVAILABLE, 2001

Population range	Number of inhabited villages in each range	Type of amenity available

Post office includes Post office, Telegraph office and Post and telegraph office.

$ Transport communication includes bus service, rail facility and navigable waterways.

* Based on the improved drinking water source, drinking water supply has been classified as 'Improved ' or otherwise. If the household has access to drinking water supplied from a tap or a hand pump/tube well situated within or outside the premises it is considered as having access to 'Improved drinking water source'.

However, the concept of improved drinking water is state specific and this is to be considered accordingly.

The table shows the distribution of villages according to population range and amenities available. This district is thinly populated areas where density of population is 10 and it is evident from the fact that out of 652 villages of the district 628 villages fall under population rnage of 1 - 499. The table further reveals the fact that bigger villages are having higher proportion of different amenities in comparison to smaller villages in terms of population.

TABLE 42 : DISTRIBUTION OF VILLAGES ACCORDING TO LAND USE, 2001

Serial number	Name of C. D. block	Number of inhabited villages	Total area	Percentage of cultivable area to total area	Percentage of irrigated area to total cultivable area
1	2	3	4	5	6
1	Ziro	51	0	0	0
2	Yachuli	107	0	0	0
3	Palin	62	0	0	0
4	Nyapin	81	0	0	0
5	Koloriang	89	0	0	0
6	Chambang	63	0	0	0
7	Damin	66	0	0	0
8	Tali	65	0	0	0
9	Raga	68	0	0	0
	District Total :	**652**	**0**	**0**	**0**

Note : Cultivable area = irrigated area + unirrigated area

The area figure below district level is not available. As such, information to be incorporated against column 4, 5 and 6 may be treated as NA.

TABLE 43 : PER CAPITA RECEIPT AND EXPENDITURE IN STATUTORY TOWNS

There is no Statutory Towns in the district. So information to be in corporated in the town may be treated as NIL.

TABLE 44 : SCHOOLS/COLLEGES PER 10,000 POPULATION IN STATUTORY TOWNS, 2001

There is no Statutory Towns in the district. So information to be in corporated in the town may be treated as NIL.

TABLE 45 : NUMBER OF BEDS IN MEDICAL INSTITUTIONS IN TOWNS, 2001

Serial Number	Name and urban status of the Town	Number of beds in medical institutions per 1,0000 population
1	2	3
1	Ziro (CT)	7
	Distrct Total	**7**

Table 45 gives the number of beds per 1000 Population in the Town. On an average there are 7 beds per one thousand population in the town of the district. There is only one Civil hospital in the district, which is located in Ziro Town.

TABLE 46 : PROPORTION OF SLUM POPULATION IN TOWNS, 2001

There is no Slum area in the district.

TABLE 47 : MOST IMPORTANT COMMODITY EXPORTED OUT OF AND MANUFACTURED IN TOWNS, 2001

Serial number	Name and urban status of Town	Most important commodity	
		Manufactured	Exported
1	2	3	4
1	Ziro (CT)	Furniture Silver Plate Handloom Goods	Nil

The important commodities manufactured in the Town are Furniture, Silver Plate and Handloom goods etc, which are used in the household.

TABLE 48 : HOUSEHOLDS BY TENURE STATUS AND NUMBER OF ROOMS OCCUPIED IN THE DISTRICT, 2001

	Median number of rooms	2	2	2	2	2	2	2	2	2
District Total of Lower Subansiri :		**20,707**	**17,902**	**2,805**	**330**	**324**	**6**	**17,706**	**16,030**	**1,676**

Living status/condition of households has been reflected in the table.

In Rural areas of Arunachal Pradesh the concept of one composite room or multipurpose one room is dominent and figure is high against, "No exclusive room". One remarkable feature of the State is that nobody reside under the tree or open space and it is difficult also in the high altitude area sourrended by forest. Majority of the Households live in their owned house. Rented house in the village area is very few. The entire Scheduled Castes Population of Arunachal Pradesh are inmigrants for job purpose and mostly represents employees class. They either stay in the camp or Government quarter. So, their comparison with Scheduled Tribes Population of Arunachal Pradesh does not carry much significance. Same is the case of other population (Non Scheduled Tribes) who are temporary settlers usually stay in the Government quarters. Therefore, for socio-economic analysis purpose it is insignificant.

TABLE 49 : NUMBER AND PERCENTAGE DISTRIBUTION OF HOUSEHOLDS LIVING IN PERMANENT, SEMI PERMANENT AND TEMPORARY HOUSES, 2001

Data source: Census of India 2001, H series: "Tables on Houses, Household amenities and Assets."

Note:

Permanent : 1 Permanent houses refers to those houses whose wall & roofs are made of pucca materials i.e., where, burnt bricks, G.I. Sheets or other metal sheets, stone cement concrete is used for wall and tiles slate, shingle, corrugated iron, zinc or other metal sheets asbestos sheets, bricks, lime and stone and RBC/RCC concreate are used for roof.

Semi permanent : 2 Semi permanent houses refer to those houses made of other types of materials.

Temporary : 3 Temporary houses refers to those houses having wall and roofs made of Kutcha materials i.e. where grass, leaves, reeds, bamboo mud, unburnt bricks are used for the construction of walls and grass, leaves reeds, bamboo hatch, mud, unburnt bricks, wood etc. are used for roofs.

The table presents data on percentage distribution of households living in Permanent, Semi permanent and Temporary houses. If we look into district average on these aspects it will be seen that in the rural areas 72.6 percent households live in the temporary houses whereas 17.0 percent live in semi permanent houses and only 10.3 percent live in the permanent houses. But the picture is quite different in case of urban areas of the district where 49.1 percent households live in the permanent houses and 47.2 percent live in semi permanent and 3.6 percent in temporary houses. It is remarkable to note that in Longding Koling circle 100% live in the temporary houses. The picture is little different in case of other circles.

Data Source : Census of India 2001, H- series: "Tables on Houses, Household amenities and Assets."

However, the concept of improved drinking water is state specific and this is to be considered accordingly.

* Based on the improved drinking water source, drinking water supply has been classified as `Improved ' or otherwise. If the household has access to drinking water supplied from a tap or a hand pump/tube well situated within or outside the premises it is considered as having access to `Improved drinking water source'.

Note : Percentage is to be given in brackets after the number of households.
Bathroom means bathroom within the house
Toilet means toilet within the house
Drainage means closed and open drainage

The table presents data on improved Drinking Water source, Electricity, Bathroom, Toilet and Drainage. Broadly speaking Arunachal Pradesh at large is the late starter in the matter of providing all these facilities to households. Significant development has been noticed in this district in the areas of improved Drinking Water, Electricity and Toilet. Bathroom and Drainage facility is not at all sufficient to cater the need of households.

Percentage in brackets

Data Source: Census of India 2001, H- series: "Tables on Houses, Household amenities and Assets."

Fire wood is mostly used by the households for cooking. The use of other specified items for cooking is not at all significant to be mentioned. The use of L.P.G. (Gas) is the history of recent past.

The table reveals the fact that the availability of Banking Services and availability of Television and Telephones in some of the remote areas of the district is the remarkable achievement of the last decade although some of the far off areas are yet to have these facilities.

Major Social and Cultural Events of Lower Subansiri district

People

The district is the homeland of several tribes predominantly inhabiting by indigenous local people of Arunachal Pradesh. The major social and cultural events of the Scheduled Tribes are very much associated with their day to day life and these are described in the following paragraphs alongwith the socio-religious beliefs and practices taking into consideration the values and implications in the real social life of the people.

On the basis of the economic social and political patterns, these tribal groups can conveniently be divided into two categories. In the first category fall the Nyishis (who are numerically the largest tribe of the district), Hill Miris and the Sulungs. The Nyishis are also known by different names as the Nyishangs or Nyishis in certain areas. In the second category fall the Apatanis who are the settled agricultural people occupying a very compact area of flat land whose socio-economic condition is highly integrated with their community life.

The social and religious norms are supported with the belief of the Sun, the Moon, the Earth and natural elements around them which play a vital role in their day to day life. With these belief they perform different festivals associated with the life of the people of the district which are as follows :

The major festivals of the Nishis are the Nyokum Yulo and Lungte Yulo whereas the Apatanis celebrate the Dree, Myokoh and Murungs as their major festivals

Myokum

Myokum is an annual festival connected with prosperity and good harvest of the villagers. The elder people accordingly talk to the Nyibu(priest) who after observing omens the date of the celebration is decided.

" On the first day before an altar with images and symbols of the gods and goddess, the priest start the puja by chanting prayers. The girls also dance and sing to propitiate the unseen (Uyus) deities for producing abundant crops and to ensure good will, health and unity among all the people and to maintain joy and mutual co-operation, peace and social harmony of the community".

" On the second and concluding day the villagers of the neighbouring villages perform puja in their village and come in long procession and sacrificial animals like dogs, pigs and chicken are carried by the people to the place of worship. All these animals are sacrificed to the Uyus and after invocation of the blessings the puja comes to a conclusion".

Yulo

Yulo is one of the important religious ceremonies of the Nyishi people which is performed for the welfare of the Society. The ceremony is marked by a sacrifice of 'Mithuns' in which the priest collects the blood of the animals in a bamboo tube and hangs it in front of house as a mark of distinction.

Dree

It is one of the important festivals of the Apatanis which is linked with the cultivation of rice the main stay of their economy. It is celebrated every year, during the month of July for the bumper production of the seasonal crops like paddy, millet etc.

The head priest (nyibu) of every village who takes leading part select the place for the performance of this worship near a rice field with due consultation with the village elders. On the morning of the appointed day of worship the priest chants hymns, then with his party visits all the villages and on returning to the Dree festival site he sacrifices a large fowl for the 'Uyu' (deities) and prays for bumper crops and immunity from diseases. The priest sacrifices more fowls in the name of all the villages of the Apatani valley. At the conclusion of the rites the people eat, drink and make merry.

Now-a-days this festival is celebrated in a larger scale with participation of both Administration (including festival grants and aids) and Local Tribal Community with the innovation of modern sports.

Myokoh

It is purely a religious ceremony highly solemnised as a community festival of the Apatani Society. For celebration of this rites the Apatani villages have been divided into three major groups (1) Hong (2) Hari, Reru, Tajang, Kalung, (3) Hija, Mudang Tage, Dutta, Michi Bamin for all socio religious purposes. One of these three groups celebrates the Myokoh (Mloko) in a particular year and the other two groups extend full

participation of the festivity of the host groups, the following year the second group celebrates the Myokoh and after that the third group. In a sense the three major groups of the villages conduct the ceremony in the alternative year.

This socio-religious festival is observed to welcome the spring and to worshipYullo, (God and goddess) the creation of men and animals. All Uyu(Deities) of the tribes are propitiated and worshipped. The festival continues for a month in which every Apatanis participate with great enthusiasm, devotion and respect. The administration participation is almost nil due to imposition of certain religious taboos.

Murung :

This festival is celebrated in the month of January every year for the wellbeing of each individual family members of Apatanis platue. Although this is an, individual family festival , the entire Apatani as well as the others are also openly invited to take part with a liberty to eat and drink and enjoy freely.

Boori Boot :

Hill Miris celebrate many religious occasions and Boori Boot is one of the most important of them. This is now-a-days celebrated as an annual communal rite. As the Hill Miris are pre-dominantly agriculturists, their celebrations are normally connected with securing of better crops. All the important Uyus (deities) are worshipped on this occasion and they are propitiated with sacrifice of animals, such as mithun, pigs, fowls, etc. The chief priest plays a vital role who conducts the religious part of this celebration with the help of the assistant priest. The Priest stays in the Bori Boot Nam for three nights and three days to conduct the celebration and during this time he continuously chants hymns.

In the past, people celebrated it village-wise at regular intervals but now a days with the introduction of new ideas by Government which aimed at reviving the indigenous religion the Miris decided to celebrate Boori Boot as an annual festival of the community every year during the month of February.

The participants and guests are entertained with 'Apong' (rice beer), meat etc. A community feast is also arranged at the end of the festival. The men and women go to their own house after celebration is over and the evening is spent in eating drinking and merry making in the houses.

Wainyee :

The Sulung tribe of Arunachal Pradesh, living in the high hills and dense forest of Koloriang, Sarli, Huri, Nyapin, Tali areas perform this festival as an important occasion in which the Sulung pray to their deities for the blessings for the welfare and prosperity of the people.

The month and date is fixed by the Priest/Paha by examining omens in an egg and the liver of a fowl. People generally prefer to perform Wainyee in the winter season. The priest comes in the evening on the scheduled date and starts chanting hymns related to the various stages of celebrations. The entire village remain busy in making Dapoo (Bamboo shavings) to decorate in altars and collecting bamboo, Apong, rice and tachi (a kind of food grain) for the celebrations. After chanting is concluded the animals are sacrificed. The villagers and guests then enjoy feast with apong (rice beer) and meat.

Administration participation :

Although in the past the performance of religious rites to propitiate gods and evil spirit was a domestic or household affairs but now a days it has become a practice to celebrate it community-wise with active financial participation of the administration. Hence these ritual celebrations are observed in a very big scale where many prized offerings such as mithuns, pigs etc. are sacrificed ceremonially and its meat is served to the huge gathering of people alongwith Apong(rice beer). Lots of merry making are done during these celebrations which lasts for a couple of days. Their traditional dances in lines with beating of drums also form a part of these performance.

The publicity department plays a vital role to make the community festival a success by providing public address equipments and organising cultural programmes alongwith traditional songs and dances of the tribes.

Scope of Village Directory and Town Directory

The Village Directory and the Town Directory present data on amenities available to the people in each village and town. The village Directory also

indicates the land use statistics in respect of each village.

The data included in the village and Town Directory are one of the most important compilation of Census, as the data presented are considered most useful by the scholars, the planners, the Administrators and other data users.

The Village Directory gives for each village particulars about Total Population and number of Households, Amenities available such as Educational and Medical Institutions, Drinking Water supply, Post, Telegraph and Telephone, Communication, Banks, Agricultural Credit Societies non Agricultural Credit Societies, Cooperative Societies, Recreational and Cultural facilities, Approach to Village, nearest Town and Distance, Power Supply, News Paper/Magazine, Income Expenditure, Important commodities, Land and Land use pattern etc. Village Directory data were collected on the basis of the position as existed to link villages with CD (Community Development) Block during 2001 Census.

The format of village Directory is basically on the pattern canvassed in 1991 Census except modification and addition of a few more columns. In column 9 the facilities on Telephone is newly added to know the present day need of such facilities in villages. Village Directory information for the Amenities on Education, Medical, Drinking Water, Post Telegraph, Telephone and Communication has been furnished in such a manner that in case an amenity is not available within the village a dash(-) is shown in the column and next to it in brackets the distance in broad ranges Viz., >5 kms, 5 – 10 kms and 10 + Km. of the nearest, place where the facility is available is given in order to gauge how far the amenity naturally serve the purpose in the village under reference.

While ascertaining a number of schools in a village under column 6 of the village Directory format the following methods have been adopted.

If there are composite schools like middle schools with primary classes or secondary schools with middle classes, these are included in the number of Primary and Middle schools respectively. For example, if in a village there are two Primary schools and one Middle school with Primary classes, the number of Primary Schools in the village is given as three and that of Middle Schools as one even though there may be only three educational institutions. So also in case of Secondary Schools. Like wise in case of Medical amenities in column 7 of Village Directory format, if in a Hospital there is Maternity Home and Child Welfare center Family Welfare center and T.B. clinic center etc. all these have been counted separately.

Town Directory Statement

The Town Directory consist of seven statements (Statement I – VII). All these are almost similar to those adopted in 1991. In the Town Directory the data on amenities and other aspects are presented in codes for want of space. The infrastructure of amenities and facilities available in urban area is analyzed by taking the class of town into consideration. The data on municipal finance by civic status in the Statement III in respect of town in Arunachal Pradesh are not available. There is no statutory or non statutory bodies managing the civic administration of the town in Arunachal Pradesh. The roads, buildings and other civic amenities are maintained by the Public Works Department (State) and the Central Public Works Department. There is no slum area in Lower Subansiri district. The column for Adult literacy classes/centers in statement –V is introduced in relation to a particular level of education in view of the minimum needs Programme of the Planning Commission.

If there are more than one Medical or Educational institutions of any type the number of such institutions have been indicated within brackets against the respective codes.

PART A
VILLAGE AND TOWN DIRECTORY

Blank

SECTION I

Village Directory

(a) Note explaining the abbreviations used in the village directory

The "Village Directory" is one of the traditional compilations of the Census. It gives the list of villages, their location numbers, their area, population, number of households, amenities such as educational, medical, drinking water, post and telegraph, commercial and co-operative banks, agricultural non-agricultural and other credit societies, recreational and cultural facilities, communication, approach to village, nearest town with a distance, power supply availability of newspaper and magazines, most important commodity manufactured and land use of each village.

Village is a statutory recognized unit having a definite boundary and separate land records. In case, a complete village is treated as an outgrowth of urban agglomeration, data on amenities for that village, have not been given in the Village Directory but shown along with the urban component. The villages which are considered as a Census Town , the amenities data are shown in the Town Directory. For those villages which have partly merged in an outgrowth of U.A., the amenities data are shown in the Village Directory for that particular village.

The 'un-inhabited' villages (villages with no population) have been indicated as such after furnishing details in columns 1 to 3 i.e., Serial number, Name of village & location code number and area of the village against column no. 4 to 18. The land use data for such villages are shown in col. 19 to 23.

The Village Directory format has 25 columns and the details given under each column are for the village are as follows :

Columns 1 & 25 : Serial Number

Self explanatory. All the villages within the CD Block are presented serially in the ascending order of their location code number.

Columns 2 & 24 : Name and Location Code Number of village.

The name and location code number of the village are shown against these columns. This also includes the forest and uninhabited villages.

Column 3 : Area of the village

The area of the villages in hectares are given. Wherever the area figures was not furnished by the concerned department the column is left blank.

Column 4 : Total population

The total population of the village as per 2001 Census is given against this column.

Column 5 : Number of households

The number of households as per 2001 Census is given in this column.

Amenities :

In column 6 to 23, availability in respect of different amenities such as education, medical, drinking water, post, telegraph, banks, credit societies, communication, power, approach road etc. in each village has been depicted with appropriate codes against the column concerned. Wherever the amenities are not available in the village, a dash (-) is shown in the column and next to it in brackets the distance in broad ranges viz.< 5 kms., 5-10 kms. and 10+ kms of the nearest place where the facility is available is given. Column wise details are given below :

Column 6 : Educational

Classes upto class V included in Primary School. This will include nursery school, kindergarten school. Pre-basic school, pre-primary school, junior basic school upto class V.

Classes from VI to VIII are included in the middle school.

Classes from IX and X included in High secondary school. Classes XI and XII are included in senior secondary school.

In case of composite schools like middle school with primary school or secondary school with middle school, these are also included in the number of primary and middle schools, respectively.

Accordingly any of the following types of institutions if exists within the village is shown as per codes given below :

(i)	Primary School	P
(ii)	Middle School	M
(iii)	Secondary School	S
(iv)	Senior Secondary School	PUC
(v)	College	C
(vi)	Industrial School	I
(vii)	Training School	Tr
(viii)	Adult literacy class/centre	AC
(ix)	Others (specify) e.g. Sanskrit Pathshala, Senior basic school, Navodaya Vidyalaya, Makhtab, etc.	O

More than one institution of a type in the village is indicated by the number within brackets against the abbreviation, e.g. P(3), M(4), etc.

Column 7 : Medical

Availability of medical facility within the village is indicated by following codes :

(i)	AllopathicHospital	H
	Ayurvedic Hospital	HA
	Unani Hospital	HU
	Homeopathic Hospital	H Hom
(ii)	Allopathic Dispensary	D
	Ayurvedic Dispensary	DA
	Unani Dispensary	DU
	Homeopathic Dispensary	D Hom
(iii)	Maternity & Child Welfare	MCW
(iv)	Maternity Home	MH
(v)	Child Welfare Centre	CWC
(vi)	Health Centre	HC
(vii)	Primary Health Centre	PHC
(viii)	Primary Health Sub-Centre	PHS
(ix)	Family Welfare Centre	FWC
(x)	T.B. Clinic	TB
(xi)	Nursing Home	NH
(xii)	Registered Private Medical Practitioner	RMP
(xiii)	Subsidised Medical Practitioner	SMP
(xiv)	Community Health Worker	CHW
(xv)	Others	O

More than one institution of a type in the village is indicated by the number within brackets against the abbreviations, e.g. H(3), D(4), etc.

Column 8 : Drinking Water

The type of the drinking water supply sources available within the village are indicated by codes as follows :

(i)	Tap Water	T
(ii)	Well Water	W
(iii)	Tank Water	TK
(iv)	Tubewell Water	TW
(v)	Handpump	HP
(vi)	River Water	R
(vii)	Canal	C
(viii)	Lake	L
(ix)	Spring	S
(x)	Others	O
(xi)	Summer Sorce	SS-

Column 9 : Post, Telegraph and Telephone

It is indicated by codes as shown below whether within the village exists the following amenities :

(i)	Post Office	PO
(ii)	Telegraph Office	TO
(iii)	Post & Telegraph Office	PTO
(iv)	Telephone Connection	PH

Column 10 : Commercial and Co-operative Banks

If the village is served by any banking service, commercial bank, co-operative bank etc. the same is indicated in codes mentioned below along with the number of banks in brackets. If not available the distance of nearest place where the facility exist is given:

(i)	Commercial Bank	CM
(ii)	Co-operative Bank	CP

Column 11 : Credit Societies

If the village enjoys the services of Credit Societies i.e. Agricultural Credit Societies, Non Agricultural Credit Society or Other Credit Societies, the same is indicated in codes mentioned below along with the number of such societies in brackets. In case the facility is not available within the village the distance of the nearest place where such facility exist is given :

(i)	Agricultural Credit Society	ACS
(ii)	Non-Agricultural Credit Society	NCS
(iii)	Other Credit Society	OCS

Column 12 : Recreational and cultural facilities

If facilities such as Cinema/Video hall, Sports Club, Stadium/Auditorium is available in the village; the same is recorded in these columns. If not available the particulars of the nearest place with the facility is recorded. The information is indicated in codes mentioned below along with the number of such facilities in brackets:

(i)	Cinema / Video Hall	CV
(ii)	Sports Club	SP
(iii)	Stadium / Auditorium	ST

Column 13 : Communications

If the village is served by any mode of public/ private transport like Bus, Railway station or Navigable water ways they are to be mentioned as follows:

(i)	Bus	BS
(ii)	Railway Station	RS
(iii)	Navigable Waterway	NW

Column 14 : Approach to village

Approach to village refers to the state of road leading to village. The approach to the village is indicated in following codes :

(i)	Paved Road	PR
(ii)	Mud road	MR
(iii)	Foot path	FP
(iv)	Navigable River	NR
(v)	Navigable Canal	NC
(vi)	Navigable waterways other than River, Canal	NW

Column 15 : Nearest Town and distance

The distance is given in kilometers in brackets against the name of the town nearest to the village.

Column 16 : Power supply

Availability of Power Supply in the village, whatever may be the form of its use is given by using following codes :

(i)	Electricity for domestic use	ED
(ii)	Electricity for agricultural use	EAG
(iii)	Electricity for other purposes	EO
(iv)	Electricity for all purposes	EA

Column 17 : News Paper / Magazine

If the village receives any News Paper/ Magazines the same is noted in this column using following codes:

(i)	News Paper	N
(ii)	Magazine	M

Column 18 : Most important commodities manufactured

The name of three most important commodities manufactured in the village is recorded against this column.

Column 19 to 23 : Land use i.e. area under different types of land use

Land use data maintained by the State/UT Govts. are furnished against these columns. The data concerning area under Forest, Irrigated land (by

source), Un-irrigated land, Culturable waste and Area not available for cultivation in the village are shown against these columns. The area figures are given in hectare(s) up to one decimal. Desh '-' is recorded wherever the information is not made available by the concerned department. The codes used for different types of irrigation facilities available in the village are indicated below :

(i)	Government Canal	GC
(ii)	Private Canal	PC
(iii)	Well (without electricity)	W
(iv)	Well (with electricity)	WE
(v)	Tubewell (without electricity)	TW
(vi)	Tubewell (with electricity)	TWE
(vii)	Tank	TK
(viii)	River	R
(ix)	Lake	L
(x)	Waterfall	WF
(xi)	Others	O

The village directory also carries the following appendices.

Appendix-I It gives the abstract of educational, medical and other amenities available in villages C D Block wise of the district.

Appendix-I-A Indicates number of villages C D Block wise having one or more primary schools.

Appendix-I-B Indicates number of villages C D Block wise having primary, middle and secondary schools.

Appendix-I-C Shows number of villages C D Block wise with different sources of drinking water facilities.

Appendix-II Indicates the list of villages with 5,000 and above population which do not have one or more important amenities.

Appendix-II-A Indicates list of Census Towns which do not have one or more amenities.

Appendix-III It gives the land utilization data in respect of Census Towns/non-municipal Towns.

Appendix-IV C D Block wise list of inhabited villages where no amenity other than drinking water facility is available.

Appendix-V Summary showing number of villages having or not having Scheduled Castes population.

Appendix-VI Summary showing number of villages having or not having Scheduled Tribes population.

Appendix-VII A, VII B The appendix shows the list of villages according to proportion of the Scheduled Castes and Scheduled Tribes to the total population by ranges.

Appendix-VIII Indicates C D Block wise number of villages under each Gram Panchayat.

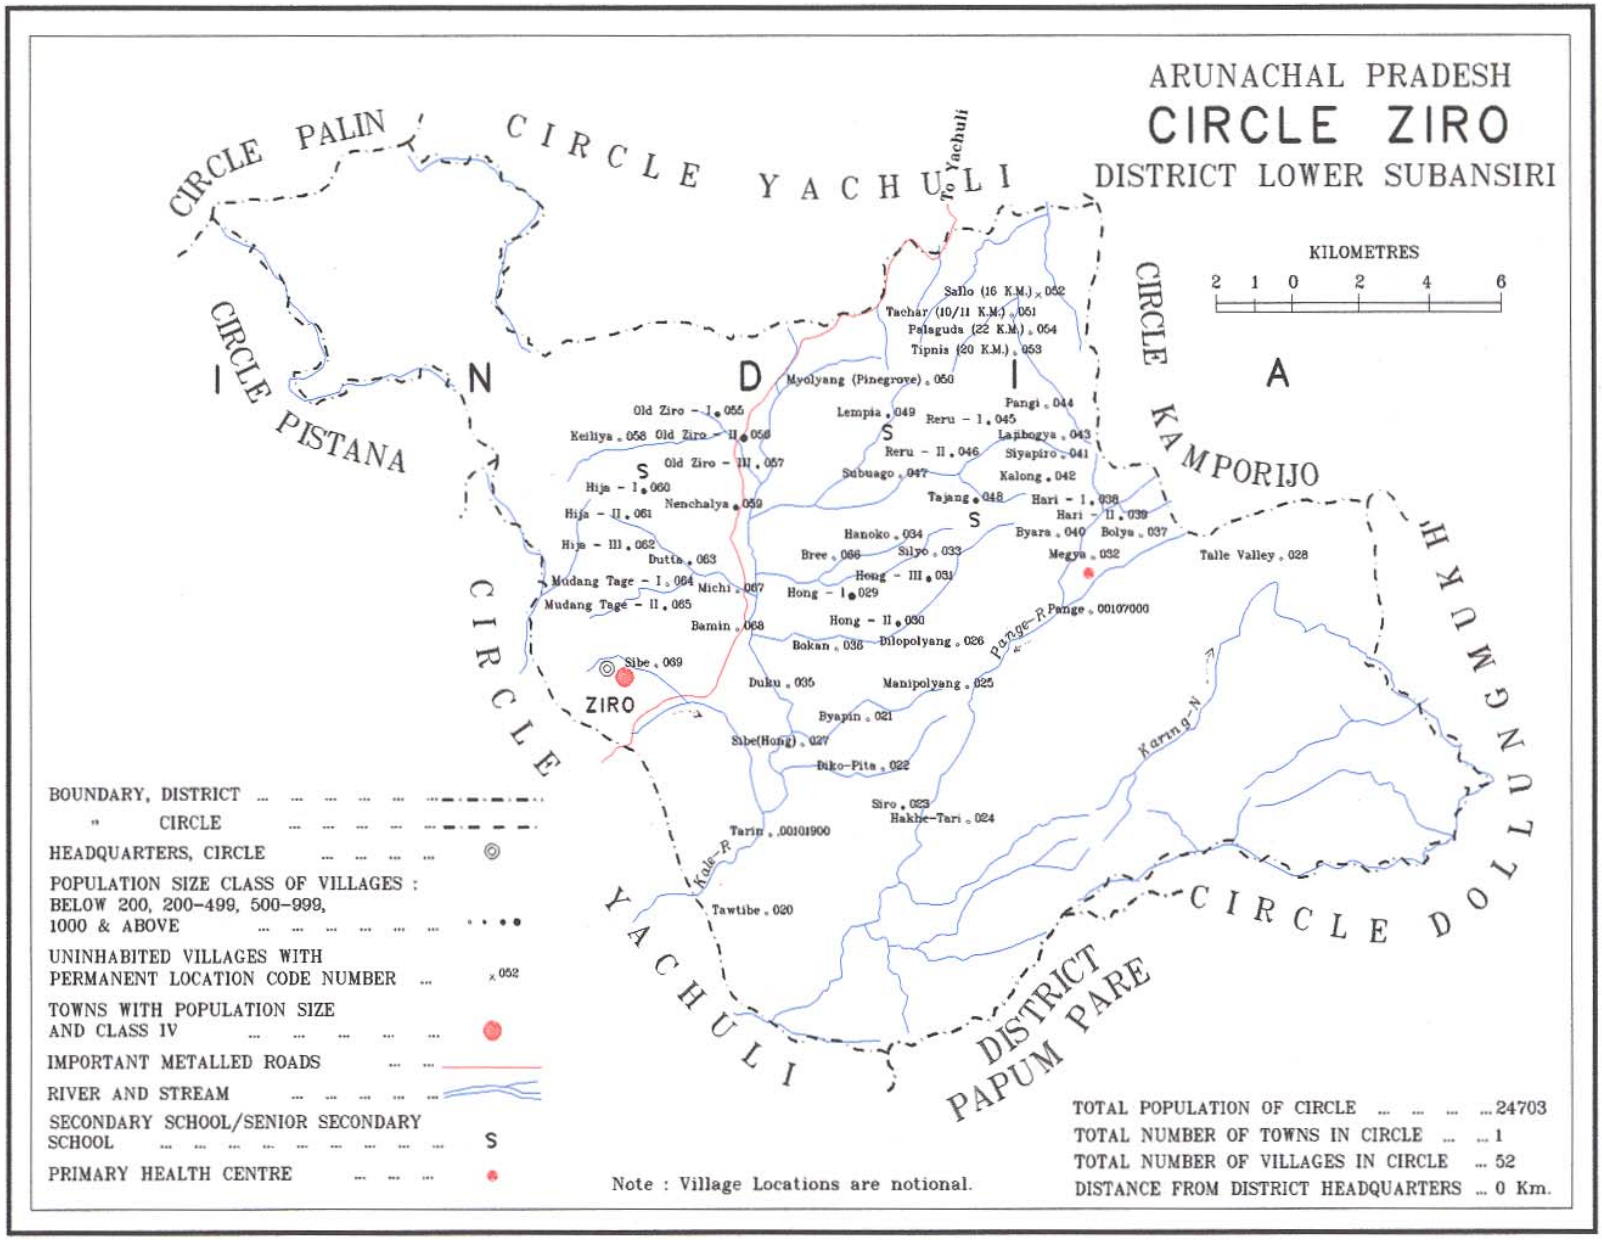

Appendix-IX Shows number of different types of girls school in a village.

(b) List of villages merged in towns and outgrowths at 2001 Census

Not a single village has been merged in towns and outgrowth at 2001 Census in the district.

APPENDIX VIII - VILLAGE DIRECTORY
NUMBER OF VILLAGES UNDER EACH GRAM PANCHAYAT (C. D. BLOCK WISE)

There is no Gram Panchayat in the district.

APPENDIX IX - VILLAGE DIRECTORY
STATEMENT SHOWING NUMBER OF GIRLS SCHOOLS IN THE VILLAGES

There is no separate girls school in the district.

The table is optional subject to availability of information

Blank

SECTION II

Town Directory

The town directory is presented for each town covering different aspects of urban life. As like 1991 census seven statements have been included for presentation of this data. The data contained in these statements are the area, population in 2001 and past censuses, growth rates, density, sex ratio, physical aspects of towns, communications, municipal finances, civic, medical, educational and other amenities and trade, commerce, industry and banking facilities. It covers all the towns in the district statutorily notified as well as non-municipal towns. All the towns in the district are arranged in alphabetical order.

As in the case of Village Directory, the Town Directory is also a compiled presentation of various amenities and other basic information in respect of the urban areas (Towns) as per various formats adopted for this purpose. The Town Directory includes the following statements.

Statement I	Status and Growth History.
Statement II	Physical Aspects and Location of Towns.
Statement III	Municipal Finance.
Statement IV	Civic and Other Amenities.
Statement V	Medical, Educational,
Statement VI	Trade, Commerce, Industry and banking.
Statement VII	Civic and other amenities in Slums.

Appendix to Town Directory – Towns showing their outgrowth with population could not be compiled as there is no Slum areas/population available anywhere in Arunachal Pradesh and there is no outgrowth areas of any town in the State.

The criteria for any area considered as urban in 2001 Census was initially formulated in 1991 Census which continued to be the same in the Census of 1981, 1991 and 2001 as briefly indicated below :

a) All areas within Municipality Municipal Corporation, Cantonment Board or Notified Town Area/Urban Local Body.

b) Any other place which satisfied all of the following criteria :

   i) A minimum population of 5000.

   ii) At least 75% of the male working population should be engaged in non-agricultural pursuits and

   iii) A minimum density of population of 400 persons per square kilometer or 1000 per square kilometer.

In Arunachal during Census of India 2001, 17 Towns were existing and all 17 of them were Notified Towns. In the year 1991 the total number of Notified Towns were 10 as notified by the State Government from time to time.

As in the case of Urban Areas/Units (Towns/ Cities), the concept of Urban Agglomeration (UA) remained unchanged from 1971 Census. In Census an Urban Agglomeration (UA) denotes a continuous urban spread and normally consists of a town and its adjoining urban outgrowths or two or more physically contiguous towns together with contiguous well recongnised outgrowths if any, of such towns. No Urban Agglomeration watch detected in the district during 2001 Census and hence corresponding information in this regard be taken as nil. A brief note on various abbreviation used in the Town Directory is also given.

A gist of data contain in the Statement I to VI as mentioned below may be of benefit of data users:

Statement-I

It contains details of Class, Name and Civic Status of Town (col. 2), Location Code Number (col. 3), Name of the Police Station (col. 4), Name of the

C.D. Block (col. 5), Area in sq. km. of each Town (col. 6), Number of Households in 2001 Census (col. 7), Population and Growth Rate (in brackets) of the Town at the Census of 1901, 1911, 1921, 1931, 1941, 1951, 1961, 1971, 1981, 1991 and 2001 (col. 8 to col. 22).

Statement-II

This statement gives Physical Aspects and Location of Towns and contains information on Class and Name of Town (col. 2), Rainfall in mm. (col. 3), Temperature in o Celsius (col. 4 and col. 5), Road distance in kilometer from State Hqtrs. (col. 6) and District Hqtrs. (col. 7), Distance between the Town and nearest city with 1 Lakh or more Population (col. 9), 5 Lakh or more Population (col. 10), Railway Station (col. 11) and Bus Facility (col. 12), Column 13 has been left blank as no data is available since no such system is in existence.

Statement-III

It is proposed to contain data in respect of Municipal Finance. As not a single municipality or similar body has been functioning in Arunachal Nil report has been shown in this Statement (col. 4-17).

Statement-IV

This statement incorporated information in respect of Class and Name of the Town, Civic Administration Status (col. 2), 2001 Census Population (col. 3), Scheduled Caste (col. 4), Scheduled Tribe (col. 5), Road Length (col. 6), System of Sewerage (col. 7), Number of Latrines (col. 8-11), Method of Disposal of Night Soil (col. 12), Source of Water Supply (col. 13), System of Storage with Capacity (col. 14) Fire Fighting Service (col. 15), Electrification (col. 16-20).

Statement-V

It contains details of Class and name of the Town (col. 2), Population in 2001 Census (col. 3), Medical Facilities (col. 4 and col. 5), Educational Facilities (col. 6-15), Number of Recreational and Cultural Facilities (col. 16-20).

Statement-VI

In this statement information on Trade Commerce, Industry and Banking have been incorporated. Thus information on Class and Name of the Towns (col. 2), Names of the most important commodities manufactured (col. 6, 7, 8), Number of Banks (col. 9), Number of Credit and other Societies (col. 10 and col. 11) are given.

Statement-VII

It has been provided for incorporation of data on Civic and other amenities in Slums in respect of Class and Name of the Town where the Slum exists (col. 2), Name of Slum (col. 3), whether Notified (col. 4), Number of Households (col. 5), Population (col. 6), Paved Roads (col. 7), System of Sewerage (col. 8), Number of Latrines (col. 9, 10, 11), Community (col. 12), Method of Disposal of Night Soil (col. 13), Drinking Water Supply (col. 14) and Supply of Electricity (col. 15, 16, 17).

(b) Note explaining the abbreviations used in the Town directory

Town Directory statements (I to VII)

Statement I : Status and Growth History

Column (2) : Class, name and civic administration status of town :

Class has been introduced to facilitate analysis of town directory data at the state and all India levels. It is presented according to 2001 Census Population of the town as follows :

Population	Class
100,000 and above	I
50,000 - 99,999	II
20,000 - 49,999	III
10,000 - 19,999	IV
5,000 - 9,999	V
Below 5,000	VI

Town with a population of one hundred thousand (1,00,000)and above is treated as a city.

The civic administration status of the towns is indicated within bracket against the name of the town. The following abbreviations are used to denote civic status of town.

(I)	Municipal Corporation	Corp.
(II)	Municipal Committee	MC
(III)	Municipal Council	M Cl

(IV)	City Municipal Council	CMC
(V)	Town Municipal Council	TMC
(VI)	Municipal Board	MB
(VII)	Municipality	M
(VIII)	Cantonment Board/Cantonment	CB
(IX)	Notified Area	NA
(X)	Notified Town	NT
(XI)	Notified Area Committee/ Notified Area Council	NAC
(XII)	Notified Town Area	NTA
(XIII)	Industrial Notified Area	INA
(XIV)	Industrial Township	ITS
(XV)	Township	TS
(XVI)	Town Panchayat	TP
(XVII)	Nagar Panchayat	NP
(XVIII)	Town Committee/ Town Area Committee	TC
(XIX)	Small Town Committee	ST
(XX)	Estate office	EO
(XXI)	Gram Panchayat	GP
(XXII)	Census Town	CT

Others columns need no comments.

Statement II - Physical Aspects and Location of towns, 1999.

Column 3 to 5 : Physical Aspects

In this columns the Rainfall and Maximum & Minimum Temperature of the town is recorded.

Column 6, 7 and 8 :

Name of the State headquarters, District headquarters and Sub-Divisional headquarters with distance from the referent town in kilometers, is to be recorded respectively. If the names mentioned in these columns are the same as the referent town itself, the distance is recorded as (0) zero.

Column 9 & 10 :

Name of the nearest city with one lakh and more and five lakh and more population are recorded.

Column 11, 12 and 13 :

If referent town enjoys the facility of railway station, bus route facility or navigable river/canal. Its name is to be mentioned. If not available, then the name of nearest place with distance, where such facility exists is to be mentioned.

Statement III : Municipal Finance 1998 – 1999

Item-wise amount of receipt and expenditure in thousand rupees, relating to municipal finance of the town for the year 1998-99 is to be recorded.

Statement IV : Civic and Other amenities, 1999

Column (1 to 5) : Self explanatory.

Column (6) : Road length (in kms.)

Information about kutcha/ pucca road is to be recorded separately for the roads within the limits of the referent town.

(i)	Pucca Road	PR
(ii)	Kutcha Road	KR

Column (7) : System of Sewerage

Generally, by sewerage system is implied the network of mains and branches of underground conduits for the conveyance of sewerage to the point of disposal. Sewers that carry only household and industrial wastes are called separate sewers, those that carry storm water from roofs, streets and other surface are known as storm water drains, while those carrying both sewage and storm water are called combined sewers.

The codes used for different types of drainage system are as follows :

(i)	Sewer	S
(ii)	Open Surface Drains	OSD
(iii)	Box Surface Drains	BSD
(iv)	Sylk Drains	SD
(v)	Cesspool method	CP
(vi)	Pit System	Pt
(vii)	Others	O

Column 8 to 11 : Number of latrines

Number of various types of latrines both Public and Private are given in these columns.

Column 12 : Method of disposal of night soil

The various prevalent method of disposal of night soil are given below with codes :

Head Loads	HL
Basket	B
Wheel Barrows	WB
Septic Tank	ST
Pit System	Pt
Sewerage	S
Others	O

Column 13 and 14 : Water supply

Source and capacity of storage system. The following codes are used in these columns:

Column 13 :

(i)	Tap water	T
(ii)	Tube-well water	TW
(iii)	Tank Water	TK
(iv)	Well water	W

Column 14:

(v)	Over Head Tank	OHT
(vi)	Service Reservoir	SR
(vii)	River Infiltration Gallery	RIG
(viii)	Bore Well Pumping System	BWP
(ix)	Pressure Tank	PT

The information on major source of water supply are given in column 14 and the storage capacity against each in kilo-litres (in bracket) are presented in column 15.

Column 15 : Fire Fighting Service

In case the fire fighting service is available in the referent town 'yes' is recorded. If the facility is not available within the town. The name of the nearest place having this facility with its distance from the referent town has been recorded.

Column 16 to 20 : Electrification (Number of connections)

Different types of electric connections have been shown in these columns, i.e. Domestic, Industrial, Commercial, Road lighting (points) & others.

Statement V : Medical, Educational, Recreational and Cultural Facilities, 1999

Column 1 to 3 : Self explanatory.

Column 4 & 5 :

The data covers all such medical institutions run by or aided by Government/Semi Government/Local bodies and Charitable institutions or Social agencies like the Missionaries. Where the family planning centres are attached to hospitals or maternity and child welfare centres or Primary Health Centres, may be treated as independent units and counted separately using following codes :

(i)	Hospital	H
(ii)	Dispensary	D
(iii)	Health Centre	HC
(iv)	Family Welfare Centre	FWC
(v)	T.B. Clinic	TB
(vi)	Nursing Home	NH
(vii)	Others	O

In case of more than one institutions of any type, it is indicated within brackets the number of such institution (s) e.g. D(3), NH(8), etc. The institutions have further been distinguished by providing additional codes within the bracket as given below :

Ayurvedic	A
Unani	U
Homoeopathic	Hom.

Column 6 to 9 :

The codes used for these columns are as follows:

(i)	Arts only	A
(ii)	Science only	S
(iii)	Commerce only	C
(iv)	Arts & Science only	AS

(v)	Arts & Commerce only	AC
(vi)	Combined for all categories-Arts, Science and Commerce	ASC
(vii)	Law	L
(viii)	University	U
(ix)	Others	O

Column 10 : Recognized shorthand, typewriting and vocational training institutes

"Recognised" should mean recognised by some statutory authority, like education department, commerce department, labour department etc. of the government or semi government or autonomous bodies, public sector undertakings etc.

The following codes are used :

(i)	Vocational Training Institute	VT
(ii)	Shorthand	SH
(iii)	Typewriting	Type
(iv)	Shorthand & Typewriting	SHType
(v)	Others	O

The vocational institutions like-Applied Art/ Painting college, Pharmacy college, B. Ed. College, Teacher's Training Institute, Music/Dance School, Nursing School etc. are covered under 'Others'.

Column 11 to 14 :

Higher Secondary/Intermediate/Senior Secondary/PUC/Junior College level, Secondary/ Matriculation, Middle Schools/ Junior Secondary and Primary Schools.

School up to class V are treated as Primary or elementary schools. These include Nursery schools, Kindergarten schools, Pre-Primary schools, Junior Basic schools upto class V and Primary schools upto class IV.

Schools upto VIII are considered as Middle school or Junior Secondary.

Schools upto class X are considered as Matriculation or Secondary schools.

Schools upto XI or XII classes are considered as Higher Secondary/Intermediate/Pre University/Junior College etc. This would cover 10+2 classes whether held in schools or college.

If there are composite schools like middle schools with primary classes or Secondary schools with Middle classes, these are also included in the number of Primary and Middle schools, respectively. For example, if in a town, there are two Primary Schools and one Middle school with Primary classes, the number of Primary schools in the town is given as three and that of Middle schools as one though there are only three educational institutions.

If there are more institutions of a type in the town, the number is indicated within bracket along with the abbreviation, e.g. P(4), M(3).

Column 15 : Adult literacy class/centres

This column has been introduced keeping in view the Minimum Needs Programme of the Planning Commission. There are number of Adult Education Centres which are included in these columns.

If an educational facility is not available in the town, the name of the nearest place and its distance in kilometres from the town where the facility is available is mentioned.

Column 16 : Working Women's hostels with number of seats

The number of working women's hostel if available in the referent town is mentioned with number of seats. If the facility is not available in the town the name of nearest place with distance where the facility is available is recorded.

Column 17 to 19 : Recreational and Cultural Facilities

Stadium, Cinema, Auditorium/Drama/Community Hall are covered under recreational & cultural facilities. The particulars of permanent recreational facilities are considered for these columns.

Column 20 : Public Libraries, Reading Rooms

Number of public libraries and reading rooms available in the referent town are recorded in codes as follows :

(i)	Public Library	PL
(ii)	Reading room	RR

Statement VI : Trade, Commerce, Industry and Banking, 1999

Column 3 to 8 :

Name of three most important commodities exported and names of three most important commodities manufactured in the town are recorded.

Column 9 : Number of Banks

Number of Banks available in the referent town both Commercial and Co-operative banks are recorded against this column.

Column 10 & 11 : Number of Agricultural Credit Societies and Non Agricultural Credit Societies

The total number of Agricultural Credit Societies and Non Agricultural Credit Societies in the referent town are recorded against these columns.

Statement VII : Civic and other Amenities in Slums, 1999

This is the statement on civic and other amenities in all slums whether notified or not and for all towns having statutory bodies, like municipality, Municipal Corporation, Town area committee etc.

STATEMENT - I
STATUS AND GROWTH HISTORY

Slr. No.	Class, name and civic status of town	Location code number	Name of Taluk/ Tahsil/ Police Station/Island etc.	Name of C.D. block	Area (in sq. km.) PART B
PRIMARY CENSUS ABSTRACT

Blank

Brief note on Primary Census Abstract

The first census of the third millennium and twenty first century the Census of India, 2001 was the 14th continuous and uninterrupted Indian census since 1872. Thus, 2001 Census will provide data on population and its characteristics marking transition from one century and millennium to another.

The gigantic operation of Population Enumeration (considered by many to be the single largest and complex peace time administrative exercise in the world) was made possible due to the door to door universal canvassing of the Household Schedule by about 2 million enumerators and supervisors covering 593 districts, 5,463 sub-districts, 5,161 towns and 638,588 villages. The comprehensive Household Schedule which replaced the individual slip had three parts and two sides A and B. Part I contained the Location Particulars; Part II related to the Individual Particulars and Part III contained questions for Household engaged in Cultivation/Plantation. The part II of the Household Schedule had 39 columns and 23 questions all of which were universally canvassed and no sampling was resorted to during enumeration.

Data Processing

A quantum leap was made in the technology front while processing the Census 2001 data both for Houselisting and Population Enumeration. The Census schedules for both the phases were scanned through high speed scanners in fifteen data centers across the country and hand-written data from the schedules were converted into digitized form through Intelligent Character Reading (ICR) software for creation of ASCII records for further processing. The designing and formatting of the Household Schedule had to be done very carefully using specialized software so as to ensure uniformity, which was an essential pre-requisite for scanning. The selection of appropriate state-of-art technology in data processing has made it possible to produce all the Houselisting as well as Population Enumeration tables on full count basis for the first time in the history of Census. For Census 2001, about 202 million schedules consisting of about 1,028 million records were scanned and processed within a span of only 10 months starting October, 2002.

Task Force on Quality Assurance

After the data is processed, it is expedient on the part of the data producing agency to satisfy itself about its quality before putting the same in public domain. This has to be done mainly through the process of internal consistency, comparison with similar data in the past and also through validation with likewise data if available, from external sources. Quite often the local knowledge and perception has to be brought into play to understand both the existing and the new emerging trends of population distribution and characteristics. The other very important aspect of the data quality is to ensure complete coverage of all geographical areas especially for the population enumeration phase where the data is disseminated right up to the village level in the rural areas and the ward level in the urban areas. Thus ensuring the complete coverage and correct geographical linkage of each enumeration block was one of the major planks of the quality control, specially for small area population statistics.

A very comprehensive check and edit mechanism was put in place to objectively examine the preliminary Census 2001 Population Enumeration results and finally clear them for use. The responsibility of the final clearance of data was with the Task Force on Quality Assurance (TFQA), headed by the Registrar General and Census Commissioner, India. The other members of the TFQA were the Heads and senior officers of the Census Division, Data Processing Division, Map Division, Demography Division and Social Studies Division. The Directors of Census Operations were co-opted as members whenever the TFQA discussed the data for their States/Union territories. The Directors and their senior officers were required to make detailed presentations of data for their own state both in respect to the quality

and the coverage and only after the full possible cleared.

There has been a major departure in Census 2001 from the past in respect of the procedure followed for finalization of the Scheduled Castes and the Scheduled Tribes population. In the earlier censuses, the total Scheduled Castes and Scheduled Tribes populations were finalized at the time of the manual compilation of the Primary Census Abstracts (PCA) at the Regional Tabulation Offices which were specially set up for this purpose. The individual Scheduled Castes and the Scheduled Tribes population for each state was finalized much later based on manual coding done by the coders. In 2001 Census, each individual Scheduled Caste and the Scheduled Tribe have been coded directly on the computers by the Data Entry Operators through a process known as Computer Assisted Coding (CAC) and taken up along with the processing of PCA data. The CAC process involves pulling down, from the relevant dictionary of the Scheduled Castes and the Scheduled Tribes, on the computer screen and coding from the dictionary by referring to the image of the specific individual entry in the Household Schedule appearing on the screen. The CAC of the response on Religion wherever required, was also undertaken along with the processing of PCA. This is because the Scheduled Castes status had to be determined in relation to the religion of the individual. Two Special Task Forces, one on Religion and the other on Scheduled Castes/ Scheduled Tribes were constituted for scrutiny and appropriate classification of these responses.

The main task of the Special Task Force on Religion was to appropriately merge or group the new responses encountered and code it into the appropriate religious community based on available literature and local knowledge. The Special Task Force on Scheduled Castes and Scheduled Tribes examined the different Scheduled Castes and Scheduled Tribes entries encountered and classified these into appropriate category of the Scheduled Castes or the Scheduled Tribes principally based on the Presidential Notification and the available literature. Thus a very systematic and scientific mechanism was operationalised to firm up the individual religion and the individual Scheduled Castes/Tribes returns. The Scheduled Castes and the Scheduled Tribes population in 2001 Census, is thus being finalized by aggregating the population data for individual Scheduled Castes and the Scheduled Tribes at appropriate geographical levels.

The entire work relating to the data validation and scrutiny was completed by all the States/Union Territories under the overall supervision and monitoring of the Census Division of the Office of the Registrar General, India with active cooperation and support of the Social Studies Division, Data Processing Division, Data Dissemination Division and Map Division.

Primary Census Abstract

The Primary Census Abstract which is yet another important publication of 2001 Census gives basic information on Area, Total Households, Total population, Scheduled Castes, Scheduled Tribes population, Population in the age group 0-6, Literates, Main workers and Marginal workers classified by the four broad industrial categories, namely, (i) Cultivators, (ii) Agricultural laborers, (iii) Household Industry Workers, and (iv) Other workers and also Non-workers. The characteristics of the Total population includes Scheduled Castes, Scheduled Tribes, Institutional and Houseless population and are presented by sex and rural-urban residence. This data is presented at different levels, namely, India, States/Union territories, Districts and Cities, Urban Agglomerations (Population 1,00,000 and above) in three different tables. In addition, the Appendix of said publication provides Houseless and Institutional Households and their population by residence and sex for 2001 for India, State and Union territory.

Apart from the India and State/Union Territory volumes for Primary Census Abstract, the District Census Handbook contains District Primary Census Abstract, Appendix to District Primary Census Abstract, Primary Census Abstract for Scheduled Castes, Primary Census Abstract for Scheduled Tribes, Village Primary Census Abstract and Urban Primary Census Abstract of the concerned district in the state.

It was for the first time at the 1981 Census that the Primary Census Abstract (PCA) was brought out for the Scheduled Castes and the Scheduled Tribes separately on the pattern of General Primary Census Abstract. This practice was continued in 1991 also. In the 1961 and 1971 Censuses, such data were made available in Table C-VIII-Social and Cultural table and to some extent in the series 'Special Tables for Scheduled Castes/Scheduled Tribes'.

The format of Primary Census Abstract has been restructured slightly in the 2001 Census as compared to that of 1991 Census. The nine-fold industrial classification of main workers given in the Primary Census Abstract of 1991 Census has been discontinued and its place, four-fold industrial classification of both 'main workers' and 'marginal workers' are included. In 1981 census only main workers were presented in to four categories. One of the novel features of the primary census abstract of 1991 census was the presentation of data of the population of age group 0-6 is continued in 2001 Census also. This will help the data users in better analysis and understanding of this literacy data.

Level of presentation in District Census Handbooks:

The Primary Census Abstract data in different PCAs are presented at different levels. The level of presentation of Primary Census Abstracts are as under:

	Name of the Primary Census Abstract	Level of presentation
1.	District Primary Census Abstract	District/CD Block/UA/City/Town
2.	Primary Census Abstract for Scheduled Castes	District/CD Block/Town
3.	Primary Census Abstract for Scheduled Tribes	District/CD Block/Town
4.	Village Primary Census Abstract	CD Block/Village wise
5.	Urban Primary Census Abstract	Town/Ward level

The PCA Data for villages was presented CD Block wise for the first time in 1991 Census. This practice is continued in 2001 Census also. The data for each CD Block is presented both for rural and urban areas separately. All the villages within the CD Block constitute the rural portion and the Census Towns and Outgrowths are shown under the urban portion of the CD Block. In case a CD Block is spread over two or more districts, than portion which falls within the district is presented, the data pertaining to remaining portion of the CD Block is presented in the concerned District Census Handbook. The data in the Urban Primary Census Abstract for each town as well as for town with outgrowths in the district are presented. The data for all the wards and the outgrowths of the town(s) are also presented separately below the concerned town(s).

The District Primary Census Abstract is presented in 59 columns. The Primary Census Abstract for Scheduled Castes and Primary Census Abstract for Scheduled Tribes are presented in 52 columns. The Village Primary Census Abstract and Urban Primary Census Abstract are presented in 58 columns.

The concepts and definitions used in the column heading are explained under the sub heading 'Census Concepts' in the Analytical Note. The term 'Total Population' includes the Scheduled Castes, the Scheduled Tribes, the Institutional and the Houseless populations. The explanation regarding area figures presented at various level in the Primary Census Abstracts are as follows:

Area Figures

The area figures supplied by local revenue authorities of the district in respect of tehsils, Police Stations and by the local bodies in respect of towns are given in square kilometers. The area figures of the villages supplied by the Tahsildars in acres have been converted and shown in hectares. The area figures of the CD Block is the total of the village areas coming under each CD Block. The area figures for the district are the same as adopted by the Surveyor General of India to maintain uniformity at the national level. The total area figures of all the tahsils/CD Blocks within the district may not tally with area figures of the district because former represents land use area only. Similarly, the total of all the villages may not tally with the entire rural of Police Station/ Tahsil. The difference may be due to the fact that while the area covered by hills, forests and rivers etc, have been accounted in the Tahsils and P.S. level the same may not be covered under the area of the villages. Apart from this it may also differ due to varying methods of computation adopted at different levels.

An appendix to District Primary Census Abstract has also been furnished showing urban enumeration block-wise particulars on Total Population, the Scheduled Castes Population and the Scheduled Tribes Population for each town.

DISTRICT PRIMARY

Location code number	District/ CD Block/ U.A./ City/ Town	Total/ Rural/ Urban	Area of Town/ Ward in square kilometre	Number of households	Total population (including institutional and houseless population)			Population in the age-group 0-6

At present Gram Panchayat is not functioning in the District due to unavoidable circumstances. Therefore, number of villages has been given under each C.D. Block, in place of each Gram Panchayat (in Annexure – I). There are 9 (nine) C.D. Block in Lower Subnasiri District. These are (1) Ziro C.D. Block consist of 51 villages, (2) Yachuli C.D. Block consist of 107 villages, (3) Palin C.D. Block consist of 62 villages, (4) Nyapin C.D. Block consist of 81 villages, (5) Koloriang C.D. Block consist of 89 villages, (6) Chambang C.D. Block consist of 63 villages, (7) Damin C. D. Block consist of 66 villages, (8) Tali C.D. Block consist of 65 villages and (9) Raga C.D. Block consist of 68 villages. There are all together 652 villages in Lower Subansiri District.

ANNEXURE – II

NOTE ON FERTILITY, MORTALITY AND MIGRATION, 1991 & 2001 CENSUSES

Fertility :

Fertility is very important question ? The question is generally related to ever married women only. In 1981 Census there were various question has set regarding Fertility. viz. age at marriage, number of surviving children, number of children ever born alive and children born alive during the last year. The first three question were asked to all ever married women and last question related to currently married women. The measure of Fertility can be worked out by different ways, which are as follows :

Age specific Fertility Rate (ASFR) : The average number of children born alive during the last year per women of a particular age group.

Age Specific Maritial Fertility Rate (ASMFR) : Average children born alive during year per married women of particular age group.

General Fertility Rate (GFR) : The number of children born alive during the last year per 1,000 women in the age group of 15 – 49.

$$GFR = \frac{\text{Number of live births in a year}}{\text{Mid –year Population in the age group (15 - 49) Yrs.}} \text{ x1000}$$

General Maritial Fertility Rate (GMFR) : The number of children born alive during last year per 1,000 married women in the age group 15 – 49 Yrs.

$$GMFR = \frac{\text{Number of live births in a year}}{\text{Mid –year married women in age group (15 - 49) Yrs.}} \text{ x1000}$$

Total Fertility Rate (TFR) : Total number of children that would have born alive per woman had the current schedule of age specific fertility rate been applicable for the entire productive period.

$$TFR = \frac{5 \times E \begin{matrix}45\text{-}49 \\ (\text{Sum total}) \\ 15\text{-}19\end{matrix} ASFR}{1000}$$

Total Maritial Fertility Rate (TMFR) : Total number of children that would have born alive per married woman, had the current schedule of specific marital fertility rate been applicable for the entire reproductive period.

Child Women Ratio (CWR) : Number of children in age group 0 – 4 per 100 women in the age group 15 – 49.

Mortality : The mortality rate can be measured with the following ways.

(1) Age Specific Mortality Rate (ASMR) :

$$ASMR = \frac{\text{Number of death in a particular age group}}{\text{Mid –year population of the same age group}} \text{ x1000}$$

(2) Infant Mortality Rate (IMR) : Ratio of the number of infant deaths (deaths of children below one year) in a year to the number of live births in that year.

$$IMR = \frac{\text{Number of deaths during the year}}{\text{Number of live births during the year}} \text{ x1000}$$

Infant mortality comprises of two parts viz. Neo – natal mortality rate and post Neo – natal mortality. The Neo – natal mortality again divided into two parts viz. Early neo-natal mortality and late neo-natal mortality rate. These can be measure as follows :

Neo – natal Mortality Rate (NMR) :

$$= \frac{\text{Number of infant death aged 28 days or under during the year}}{\text{Number of live births during the year}} \text{ x1000}$$

Early neo – natal Mortality :

$$= \frac{\text{Number of infant death aged 7 days during the year}}{\text{Number of live births during the year}} \text{ x1000}$$

Late neo – natal Mortality :

$$= \frac{\text{Number of infant death of 7 days to less than 29 days during the year}}{\text{Number of live births during the year}} \text{ x1000}$$

Post neo – natal Mortality :

$$= \frac{\text{Number of births of 29 days to less than 1 year during the year}}{\text{Live births during the year}} \text{ x1000}$$

Pre – natal Mortality Rate :

$$= \frac{\text{Number of still births and infant death of less than 7 days during the year}}{\text{Number of live births during the year}} \text{ x1000}$$

Still Births Rate :

$$= \frac{\text{Number of still births during the year}}{\text{Number of still births and live births during the year}} \text{ x1000}$$

Maternal Mortality Rate (MMR) : Number of deaths of women in the age group 15 – 49 while pregnant or within 42 days of termination of pregnancy from any cause related to pregnancy and child births per 1,000 live births in a given year.

$$\text{MMR} = \frac{\text{Number of maternal deaths to woman in the age group 15-49}}{\text{Number of live birth}} \text{ x 1000}$$

CHILD MORTALITY, 1991 AND 1981

		Arunachal Pradesh				Lower Subansiri District			
		q(1)	q(2)	q(3)	q(5)	q(1)	q(2)	q(3)	q(5)
	1	2	3	4	5	6	7	8	9
1991	Person	91	101	112	139	121	108	117	155
	Male	111	105	114	140	124	117	117	158
	Female	103	96	111	137	117	98	117	152
1981	Person	126	152	181	220	137	186	213	254
	Male	141	160	192	227	135	196	223	256
	Female	111	139	169	218	138	175	202	252

The number of death by age 1,2,3,4 and 5 given above as $q^{(1)}$, $q^{(2)}$, $q^{(3)}$, $q^{(5)}$ etc.

The table reveals that the child mortality in the district is higher, than the state in respect of both male and female during 1991. If we compare between 1991 and 1981, it is seen from the table that there is significant decrease of mortality rate both in the district and state. It is important to note that the female mortality rate is lower than male both in State and District in both the year i.e. 1991 and 1981.

Migration : Migration is natural feature of population. People move from one place to another. It may be seasonal or vocational. People migrate to other place for work in a particular season and come back again to their usual place of residence after three or four months. All such workers are treated as migrants.

Where a person had merely gone out to another place or had been shifting from one place to another purely on tour, pilgrimage, visit to hospital for treatment or for temporary business purposes, such persons are not deemed to have had another residence different from the place where she/he or her/his family normally resides she/he is not considered as a migrant.

Now migration may by place by birth and by last residence. A person is considered as a migrant by place of birth if he/she is enumerated during the Census other than the place of his/her birth. Similarly a person is considered a migrant by place of last residence, if the place in which she/he is enumerated during the Census is other than her/his place of immediate last residence out side the village or town and not simply in another house or locality in the same village or town.

Internal and International Migration : There are three types of migration movement viz. (1) Migration within the state with its two elements (a) migration within the district of enumeration (intra migration) (b) Migration from one district of state to another district of state (inter district migration) (iii) Migration from one State to another State of a country (inter state migration) (iii) Migration from one country

to another country. The first two stream together constitute internal migration while the last type of movement is called international migration.

Rural and Urban component of Migration : The flow of migrant, consist of four streams viz. rural to rural, rural to urban, urban to urban and urban to rural.

PERCENTAGE DISTRIBUTION OF MIGRANTS BY PLACE OF BIRTH, 2001

Place of birth	Arunachal Pradesh			Lower Subansiri District		
	Persons	Males	Females	Persons	Males	Females
1	2	3	4	5	6	7
(A) Migrants born within the State of enumeration	209,454 (51.6)	95,109 (44.8)	114,345 (59.2)	16,767 (71.5)	7,166 (62.9)	9,601 (79.5)

ANNEXURE – III

Data Not Available

ANNEXURE – IV

PERCENTAGE DISTRIBUTION OF MIGRANTS BY PLACE OF BIRTH, 2001

Place of birth	Arunachal Pradesh			Lower Subansiri District		
	Persons	Males	Females	Persons	Males	Females
1	2	3	4	5	6	7
Total Migrants :	**405,548 (100.00)**	**212,236 (100.00)**	**193,312 (100.00)**	**23,461 (100.00)**	**11,391 (100.00)**	**12,070 (100.00)**
Born elsewhere in the district of enumeration	157,043 (38.7)	68,112 (32.1)	88,931 (46.0)	15,548 (66.3)	6,540 (57.4)	9,008 (74.6)
Born in other districts of the State	52,411 (12.9)	26,997 (12.7)	25,414 (13.2)	1,219 (5.2)	626 (5.5)	593 (4.9)
Born in the State	209,454 (51.6)	95,109 (44.8)	114,345 (59.2)	16,767 (71.5)	7,166 (62.9)	9,601 (79.5)
Born in other States	170,626 (42.1)	102,161 (48.1)	68,465 (35.4)	6,260 (26.7)	3,944 (34.6)	2,316 (19.2)
Born in other Countries	25,468 (6.3)	14,966 (7.1)	10,502 (5.4)	434 (1.8)	281 (2.5)	153 (1.3)

It is seen form the above Annexure that 71.5 percent of Population of Lower Subansiri District were born within the state as against 51.6 percent for the State as a whole. 5.2 percent of the district population were born in other districts of the State as against 12.9 percent of the population at state level, and this may prove that inter district migration in this district is in the lower side. In Inter state migration also Lower Subansiri district shows a lower percentage of 26.7 as against 42.1 percent of the state. So far as International Migration is concerned the district shows very less percentage 1.8 as against the State percentage 6.3, which seems to be quite low.

COMPARISON OF PERCENTAGE DISTRIBUTION OF MIGRANTS BY PLACE OF BIRTH FOR 1991 AND 2001

Birth Place Total Migrants	Lower Subansiri District	
	1991 (100%)	2001 (100%)
1	2	3
Born in the District of Enumeratoion	45.8	66.3
Born in Other Districts of the State	8.6	5.2
Born in the State	54.4	71.5
Born in Other States	42.8	26.7
Born in Other Countries	2.8	1.8

While compare the particular distribution of migrants by place of birth between 1991 and 2001 Censuses in respect of Lower Subansiri district, it is seen that the migrants born in the State is 71.5% in 2001 as against 54.4% in 1991 of which 66.3% and 45.8% respectively in 2001 and 1991 recorded against migrants born in the district of enumeration and 5.2% and 8.6% in 2001 ans 1991 respectively against migrants born on other districts of the State. As regards migrants born in other States are 26.7% and 42.8% in 2001 and 1991 respectively, whereas it is 1.8% & 2.8% inrespect of migrants born in other Countries.

ANNEXURE - V

BRIEF ACCOUNT OF MAIN RELIGIONS IN LOWER SUBANSIRI DISTRICT/CIRCLE AS PER 2001 CENSUS

District/ Circle	Persons/ Males/ Females	Total population	Hindu	Buddhist	Christian	Muslims	Sikhs	Jains	Other religions & persuasions	Religion not stated
1	2	3	4	5	6	7	8	9	10	11
Damin	Persons	2,785	102	1	172	6	1	0	2,502	1
	Males	1,429	88	1	92	4	1	0	1,242	1
	Females	1,356	14	0	80	2	0	0	1,260	0
Longding Koling	Persons	2,206	24	0	30	0	0	0	2,152	0
	Males	1,101	13	0	17	0	0	0	1,071	0
	Females	1,105	11	0	13	0	0	0	1,081	0
Tali	Persons	3,591	49	0	289	1	0	0	3,249	3
	Males	1,818	33	0	139	1	0	0	1,645	0
	Females	1,773	16	0	150	0	0	0	1,604	3
Kamporijo	Persons	6,264	422	3	1,635	5	1	0	4,198	0
	Males	3,178	231	3	788	3	1	0	2,152	0
	Females	3,086	191	0	847	2	0	0	2,046	0
Dollungmukh	Persons	1,080	120	7	42	3	0	0	908	0
	Males	563	72	2	19	1	0	0	469	0
	Females	517	48	5	23	2	0	0	439	0
Raga	Persons	3,554	323	8	143	19	1	0	3,055	5
	Males	1,843	219	7	71	12	1	0	1,531	2
	Females	1,711	104	1	72	7	0	0	1,524	3

It may be seen from the Annexure V that Other Religions and Persuasion constitute 63.6 percent (62,481 persons) of the Total Population of the district, followed by Christian 24.5 percent (24,078 persons), Hindu 10.7 percent (10,493 persons), Muslim 0.8 percent (830 persons), Buddhist 0.3 percent (284 persons), Sikh 0.1 percent . Out of 17 (seventeen) Circles in the district, Ziro Circle is the biggest circle with a poopulaiton of 24,703 persons (25.1 percent) and the smallest being Dollungmukh Circle with 1080 persons (1.1 percent). From the above Annexure it will also be seen that the followers of Other Religion and Persuation is found to be majority in 14 Circles and the followers of Christian religion is found to be majority in 3 (three) Circles i.e. Yachuli, Pistana and Yangte Circles in the district.

COMPARISON OF MAIN RELIGIONS BETWEEN 1991 AND 2001

1991			2001		
Other Religion and Persuasions	–	67.7	Other Religion and Persuasion	–	63.6
Christian	–	17.5	Christian	–	24.5
Hindu	–	11.7	Hindu	–	10.7
Religion not Stated	–	2.0	Muslims	–	0.8
Muslims	–	0.8	Buddhist	–	0.3
Buddhist	–	0.2	Sikhs	–	0.1
Sikhs	–	0.1	Religion not Stated	–	0.0
Jains	–	0.0	Jains	–	0.0

While drawing a comparison of main religions of Lower Subansiri district between 1991 and 2001, it is seen that other religions and persuasions and Christian religion constitute majority of population and placed number one and two in 1991, followed by Hindu, religion not stated, Muslims, Buddhist and Sikhs respectively. But in 2001 also other religions and persuasions and Christians placed number one and two, followed by Hindu, Muslims, Buddhists, Sikhs, religion not stated and jains respectively.

It is also seen that other religion and presuasions is a major religion in nine circle viz. Ziro, Palin, Raga, Tali, Chambang, Koloriang, Nyapin, Daminand Sarli Circles, where as Christian seems to be majority in Sangram Circle only in 1991. On the other hand during 2001 also other religions and persuasions seems to be majority in thirteen circles and Christian in 4 circles in the district.

ANNEXURE - VI
MARITAL STATUS OF POPULATION AS PER 2001 CENSUS

Marital Status	Total Population			Percentage		
	Persons	Males	Females	Persons	Males	Females
1	2	3	4	5	6	7
All Marital Status	98,244	49,542	48,702	100.00	100.00	100.00
(i) Never Married	54,887	29,493	25,394	55.9	59.5	52.2
(ii) Married	39,402	19,326	20,076	40.1	39.0	41.2
(iii) Widowed	3,568	590	2,978	3.6	1.2	6.1
(iv) Divorced or Separated	387	133	254	0.4	0.3	0.5
(v) Unspecified Status	0	0	0	0.0	0.0	0.0

From the above Annexure VI it has been found that out of 98,244 Population, 54,887 or 55.9 percent are reported to be Never Married as against 56.4 percent at State level. 39,402 or 40.1 percent are Married, 3,568 or 3.6 percent are Widowed, 387 or 0.4 percent Divorced or Separated.

COMPARISON OF MARITAL STATUS BETWEEN 1991 AND 2001

			1991	2001
	All Marital Status	–	100%	100%
1	Never Married	–	53.9	55.9
2	Married	–	43.7	40.1
3	Widow	–	2.3	3.6
4	Divorced or Separated	–	0.1	0.4
5	Unspecified	–	0.0	0.0

It is seen from the Annexure that the percentage of Marital Status of Population inrespect of Lower Subansiri district stands a (i) Never Married 53.9%, Married 43.7%, Widowed 2.3%, Divorced or Separated 0.1% and Unspecified Status 0.0% in 1991. On the other hand during 2001 this serial stands good. But with a little insignificant variation which is (i) Never Married 55.9%, Married 40.1%, Widowed 3.6%, Divorced or Separated 0.4%, Unspecified status is NIL during 2001.

From the Annexure VII above, the percentage of literates excluding 0-6 years poopulation works to be 44.8 percent as against 53.4 percent males and 36.0 percent females. The percentage for the State as a whole stands at 41.6 percent. According to level of Education the percentage of Literates out of Total Population (excluding 0-6 population) have been works out as follows literate without educational level is 1.6 percent, below Primary is 12.7 percent, Primary 11.6 percent, Middle 8.0 percent, Matric/Secondary is 6.0 percent, Pre-university/Senior Secondary 2.6 percent, Non-technical diploma or certificate not equal to Degree 0.0 percent, Technical diploma or certificate not equal to Degree 0.3 percent, Grudate and above is 2.0 percent and Unclassified is 0.0 percent.

COMPARISON OF LITERATES BETWEEN 1991 AND 2001

Literates	1991	2001
Total Literates	41.6	44.8
Males	51.1	53.4
Females	30.7	36.0

While drawing a comparison from the Annexure VII, it is seen that the percentage of literates excluding (0-6) years population accounts for 41.6%, for Males 51.1% and for Females 30.7% in 1991, where as it is 44.8% as against 53.4% for Males and 36.0% for Females during 2001 in Lower Subansiri district for the State as a whole the percentage of literates is 41.6% in 1991 and 54.3% in 2001.

COMPARISON OF EDUCATION LEVEL BETWEEN 1991 AND 2001

Level of Education	1991	2001
Below Primary	10.3	12.7
Primary	9.6	11.6
Middle	9.1	8.0
Matric/Secondary	5.6	6.0
Higher Secondary/Intermediate/Pre-University/Sr. Secondary	2.6	2.6
Non-Technical Diploma or Certificate not equal to Degree	0.0	0.0
Technical Diploma or Certificate not equal to Degree	0.5	0.3
Graduate and Above	3.4	2.0
Unclassified	0.0	0.0

According to level of Education for the district for 1991 and 2001 the percentage of Literates below Primary are 10.3% and 12.7% respectively, for Primary 9.6% and 11.6%, Middle 9.1% and 8.0%, Matric/Secondary 5.6% and 6.0%, Sr. Secondary/ Higher Secondary/Intermediate/Pre-University 2.6% and 2.6%, Non-Technical Diploma or Certificate not equal to Degree 0.0% and 0.0%, Technical Diploma or Certificate not equal to Degree 0.5% and 0.3%, Graduate and above 3.4% and 2.0% and Unclassified 0.0% and 0.0% respectively. It has been seen from the above that the percentage of level of Education has decreased during the decade due to bifurcation of the district.

ANNEXURE - VIII
DISTRIBUTION OF DIFFERENT MOTHER TONGUES OF ARUNACHAL PRADESH COMPARED WITH LOWER SUBANSIRI DISTRICT RETURNS, 2001

Sl. No.	Name of Languages	Number of persons who returned the language in	
		Arunachal Pradesh	Lower Subansiri
1	2	3	4
1	Nissi	1,17,124	46,595
2	Apatani	27,792	17,957
3	Miri/Mishmi	33,343	15,317
4	Assamese	51,422	2,433
5	Nepali	94,895	2,143

ANNEXURE - VIII
DISTRIBUTION OF DIFFERENT MOTHER TONGUES OF ARUNACHAL PRADESH COMPARED WITH LOWER SUBANSIRI DISTRICT RETURNS, 2001

Sl. No.	Name of Languages	Number of persons who returned the language in Arunachal Pradesh	Lower Subansiri
1	2	3	4
6	Hindi	53,663	1,912
7	Bengali	54,521	1,693
8	Bangni	17,748	450
9	Bhojpuri	19,526	423
10	Adi	93,517	279
11	Tagin	38,158	180
12	Oriya	7,770	172
13	Bodo/Boro	4,000	167
14	Adi Gallong	61,764	113
15	Punjabi	2,424	112
16	Maithili	2,836	104
17	Others	4,17,465	8,194

It has been seen from Annexure VIII that Lower Subansiri District has return Nissi (46595) as the major language speaker in the district, followed by Apatani (17957), Miri/Mishing (15317), Assamese (2433), Nepali (2143), Hindi (1912) and Bengali (1693) as compared to Nissi (117124) the highest, followed by Nepali (94895), Adi (93517), Adi Gallong (61674), Bengali (54521), Hindi (53663) and Assamese (51422) at state level. This prove that every district has language of its own. Unlike other States there is no predominant language in Arunachal Pradesh.

COMPARISON OF MOTHER TONGUE BETWEEN 2001 AND 1991

Sl. No.	Name of Mother Tongues	2001	1991
1	Nissi	46,595	98,923
2	Apatani	17,957	-
3	Miri/Mishmi	15,317	411
4	Assamese	2,433	-
5	Nepali	2,143	-
6	Hindi	1,912	-
7	Bengali	1,693	-
8	Bangni	450	-
9	Bhojpuri	423	-
10	Adi	279	3,237
11	Tagin	180	-
12	Oriya	172	-
13	Bodo/Boro	167	927
14	Adi Gallong	113	-
15	Punjabi	112	-
16	Maithili	104	-

While drawing a comparison between 2001 and 1991 inrespect of Mother Tongues for Lower Subansiri district, it is seen that Nissi is the major Mother Tongue with the highest number in both 2001– 46,595 (47.4%) and in 1991– 98,823 (63.4%). This variation is very much significant. This happen due to bifurcation of the district. Regarding other Mother Tongues the comparison cannot be drawn due to floating nature of population.
