PREFACE

The Economic Tables of 1991 Census are mainly based on the questions on whether the respondent has worked any time at all in the previous year, if he has then whether he worked for a major part of the previous year, details of his activity and in the case of those persons who have not worked in the previous year whether they are seeking work i.e. Questions 14-16 in the individual slip. These tables generated on computer provide the distribution of population by economic activity and distribution of workers by industrial and occupational classification of their activity. Information on age, educational level and employment status of the workers are also available through these tables.

2. In the 1991 Census 35 tables have been prepared on economic activity. Of these, 14 tables are based on a 10 percent sample in states with a population of 10 million and above and on full count basis in the remaining states and union territories. The remaining 21 tables dealing with detailed classifications of main workers other than cultivators and agricultural labourers, marginal workers and non workers seeking work have been prepared on the basis of full count in all states and Union territories.

3. The economic tables based on sample have already been released on floppy disks usable on personal computers. These are now being brought out in printed form. These are being published in several volumes.

4. A general note on the economic tables of 1991 Census which gives detailed information regarding presentation of tables, concepts used and the relevant questions along with the relevant extracts from the manual of instructions to the enumerator is given in each volume for ready and comprehensive reference of the user.

5. A separate fly-leaf is also given for each table regarding the contents of the table.

6. The 1991 Census Operations were conducted under the overall guidance of my predecessor Shri A.R.Nanda. This work of coding and editing of Individual Slip records were completed in the Directorates of Census Operations and the job of data entry was done in the fifteen Direct Data Entry Centres of this organization. Thereafter editing and tabulation on computer was done in the Data Processing Division at the headquarters. The dissemination of data on computer media and preparation of camera ready copy of the publications were also done in the Data Processing Division.

7. The job of scrutiny of the computerised tables, preparation of notes of this publication and arranging the printing of this publication was ably carried out under the overall supervision and guidance of Shri S.P.Sharma, DRG (C&T). The scrutiny of the quality of tables was done by a Task Force of officers of this office specially constituted for this purpose.

8. I hope this publication will prove useful to administrators, planners, demographers, research scholars and other data users.

GENERAL NOTE ON THE ECONOMIC TABLES

Economic data are being collected right from the first regular census which was conducted in 1872. The concepts and definitions adopted for economic classification of population, however, varied from census to census.

The collection of data on economic activity has, thus, been traditionally a part of the population census of India. Census data of the economic characteristics of population are essential to describe the economic and in association with other characteristics, the social profile of the population. Economic data of 1991census are presented in the form of B-Series tables as in the past.

The main economic questions in the censuses till 1921 were related to livelihood or occupation of means of subsistence of each worker. In actual practice, however, even persons who were not working but were receiving income from land, property etc., were considered as economically active. The concept of income was specifically introduced in 1931 and continued in the 1941 and 1951 Censuses. Thus, in 1931, the population was divided into three classes, viz., 'Earner', 'working Dependent' and 'Non-working Dependent'. An 'Earner' was defined as a person with regular work for which return was obtained in cash or in kind which augmented the family income. A 'Working Dependent' was a person who assisted in the work of the family and contributed to its support without actually earning wages. In 1941 the classification was 'Wholly Dependent', 'Partly Dependent' and 'Others'. A person who drew no income in cash or in kind was treated as 'Wholly Dependent' .One who contributed in cash or kind towards the subsistence of the household without being definitely capable of supporting himself was classified as 'Partly Dependent'

In each of the four censuses of 1951, 1961, 1971 and 1981 the concept of work underwent change. In 1951 there was a further change and the classification was 'Self Supporting Person', 'Earning Dependent' and 'Non-earning Dependent'. A 'Self supporting Person' was one who was in receipt of an income and that income was sufficient at least for his own maintenance. A person who earned income which was not sufficient for his own maintenance was classified as an 'Earning Dependent'. In 1961, economic data were collected on the basis of work. The population was divided into two classes, 'Workers' and 'Non-workers'. In case of regular employment in any trade, profession, service, business or commerce, the criterion of work was satisfied if the person had been employed during any of the 15 days preceding the day on which he was enumerated. In case of seasonal work like cultivation, livestock, dairying and household industry, if a person had some regular work of more than one hour a day throughout the greater part of the working season, he was to be regarded as worker. Work included not only actual work but effective supervision and direction of work. Persons who were not engaged in any economic activity were treated as 'non-workers'.

In 1971 census, however, the main activity of the person was first ascertained according as he spent his time basically as 'Worker' producing goods and services or as a 'Non-worker'. A 'Worker' was defined as a person whose main activity was participation in any economically productive work by his physical or mental activity. Work involved not only the actual work but effective supervision and direction of work. For regular work in industry, trade or services, the reference period was the week prior to the day of enumeration (it was a fortnight in 1961) and, in the case of seasonal work such as agricultural activity, it was the preceding one year. The person was categorised according to his main activity. Where a person was basically a 'Non-worker' such as a student, or housewife but did make some marginal contribution to work, such 'Secondary work' was recorded under a separate question.

In the 1981 and 1991 censuses the whole population was divided into three categories, viz., 'Main Workers', 'Marginal Workers' and 'Non-workers'. The Main Worker was defined as a person whose main activity was participation in any economically productive work by his physical or mental activities and who had worked for 183 days or more. Work involved not only actual work but effective supervision and direction of work. A Marginal Worker was defined as a person whose main activity was participation in any economically productive work by his physical or mental activity for less than 183 days. A Non- worker was defined as a person who had not done any work at any time. The reference period was the one year preceding the date of enumeration. Certain types of work such as agricultural activity, household industry, like gur making etc., are carried on either throughout the year or only during certain seasons or part of the year, depending on local conditions. In such cases, the broad time-span of the agricultural season preceding the date of enumeration was taken in categorising a person as a Main Worker.

The definitions of Main Workers, Marginal Workers and Non-Workers are same as were adopted in 1981 Census. In the 1991 census to net the workers more effectively, particularly those working as

unpaid workers on farm or family enterprise, the words "including unpaid work on farm or in family enterprise" were added in the questionnaire itself. This was done to remind the enumerator that a large number of workers who work on farms or in family enterprises as unpaid workers tend to be omitted and that they should be netted by probing whether any such person is there in the household. In respect of Non-workers seeking for work, information whether they are seeking for work for the first time or not was also ascertained to know the number of entrants to the labour force for the first time. The reference period in all the economic questions except question 16B was the one year preceding the date of enumeration. For question 16B, the reference period was any time before the date of enumeration.

The economic tables were produced in two stages. In first Stage some of the tables were produced on the basis of a 10 percent sample in major States (with population of 10 million and above) and full count in all other States and Union Territories. In the second stage detailed tables on economic activity for main workers other than cultivators and agricultural labourers, marginal workers and non-workers seeking work were generated on the basis of full count data for all the states and UT's. To keep the table formats uniform in all states and union territories the tables for the states and union territories were also prepared in two stages, but all tables are based on full count data.. The list of tables of B -Series is given below:

This volume contains Tables prepared in Stage-II which are based on full count of main workers other than cultivators and agricultural labourers, marginal workers and non workers seeking work.

The questions on which economic tables are based on, along with the relevant extracts of the instructions to enumerators are reproduced below :–

Q. 3: Male (1)/Female (2)

For male, write `1' and for female write `2' in the box provided against this question. For eunuchs and hermaphrodites, write `1' in the box. Verify with reference to the name and relationship to head recorded under columns 2 and 3 respectively of the Household Schedule that you have noted the sex correctly.

Q. 4: Age

Record the age of the person in total years completed last birthday in the rectangle provided against this question. The age should be recorded in international numerals. Very often, there is a tendency on the part of individuals to return `years running' rather than `years completed'. Make sure that only the actual number of years completed is recorded. In respect of infants who might not have completed one year by the day of enumeration, their age in completed years must be shown as `0' as they have not yet completed one year of age. Make sure that infants even if one day old are invariably enumerated. You should not enter the age in months. The age of an infant who has not yet completed one year should invariably be noted as `0' only.

Q. 5: Marital Status

In answering this question use the following abbreviations:

For never married, write **`NM'**

For currently married, write **`M'**

For widowed, write **`W'**

For separated or divorced, write **`S'**

The entry is to be made in the manner indicated below:

(a) For a person who has never been married at any time before, write `NM'

(b) For a person currently married, whether for the first or another time and whose marriage is subsisting at the time of enumeration with the spouse living, write `M'. Write `M' also for persons who are recognised by custom or society as married and for the persons in stable de facto union. Even if a marriage is disputed in the locality, write `M' if the person concerned says he or she is married or is in stable de facto union.

(c) For a widowed person whose husband or wife is dead, and who has not been married again, write `W'.

(d) For a person who has been separated from wife or husband and is living apart with no apparent intention of living together again or who has been divorced either by decree of a law court or by an accepted social or religious custom but who has not re-married, write `S'

(e) For an independent woman return her marital status as declared by her.

This question must be answered for all persons irrespective of age. For very young children, though we may know that they are not married, the appropriate abbreviation must be entered. `M' is the abbreviation for `currently married'. The word `currently' does not mean `recently'. It only means `at present'. For example, a man may be 80 years old and may have been married 50 years ago, if his wife is still alive and the marriage subsists, they are `currently married'.

The only conditions for the marital status to be reckoned as `currently married' are that the man and woman are both alive and that their marriage subsists i.e ., they are not divorced or separated. Please note that we are not concerned with the legality of a union.

The entry as above will have to be made on the line and not in the dotted box.

Q. 11: Literate (1)/Illiterate (2)

Definition of a literate: A person who can both read and write with understanding in any language is to be taken as literate. A person who can merely read but cannot write, is not literate. It is not necessary that a person who is literate should have received any formal education or should have passed any minimum educational standard.

For a person who is literate, i.e., who can both read and write with understanding in any language write `1' in the box provided against this question. If there is any doubt about a person's ability to read or write, the test that may be applied for reading is his/her ability to read any portion of the printed matter in the Enumerator ' s Instruction booklet (provided the person is familiar with the Language used in the booklet) and similarly, for writing, he/she should be able to write a simple letter. Ability merely to sign one's name is not adequate to qualify a person as being able to write with understanding. If a person claims to be literate in some other language with which the enumerator is not acquainted, the respondent ' s word has to be taken as correct. Other members of the household may also be able to testify to the literacy of the person enumerated.

For a person who is illiterate, i.e ., who can neither read nor write or can merely read but cannot write in any language, write `2' in the box against this question. All children of the age of 6 years or less should be treated as illiterate even if the child is going to a school and may have picked up reading and writing a few odd words.

Q. 12: Educational Attainment

This question will be asked of only those who are literate and for whom `1' has been recorded against Question 11. For a person who is illiterate and for whom `2' has been recorded in the answer to Question 11, there is no question of ascertaining the educational attainment even if he/she had at some stage attended school and passed a standard and had relapsed into illiteracy. In such a case, you should put a dash (—). We are insisting that a dash (—) should be put if there is no educational attainment and not a cross (X), because we want to avoid confusion with 10th standard which a cross may signify. You will have to ascertain and record the highest educational level attained by a person for literate, i.e., for whom `1' is recorded in answer to Question 11.

For a person who is still studying in a particular class, the highest educational level attained by him/her will be one that he/she has actually passed and not the one in which he/she is studying. For example, a person studying in Ist year B.A. should be recorded as only `PUC' or `Higher Secondary or Senior Secondary (10+2)' as the case may be. Similarly, for a person studying say, in the 4th year of M.B.B.S., his/her educational attainment should be 3rd year of M.B.B.S., which is the highest level he/she has actually attained. You must record the actual standard passed such as, III standard, VIII standard, Ist year B.Com. etc., However, if a person merely says that he/she has passed primary, middle, matriculation, school final, higher secondary or senior secondary (10+2) or other definite levels, record him/her as such.

The highest educational level attained by the person enumerated should be recorded. When a person holds both general and technical qualifications, both of which are of equivalent level or of varying levels such as B.Sc.(Zoology) and M.B.B.S.or B.A.(Maths) and B.E.(Bachelor of Engineering), both the technical and general qualifications should be recorded against this question. In the case of pass courses, indicate the degree only.

In recording the educational level of a graduate or a post-graduate, the major subject such as B. Sc. (Maths), M.A.(Economics), M.Sc.(Botany), B.Sc.(Agriculture), etc. should be noted. You should not use abbreviations which are not in common use. In such cases, the degree or diploma should be spelt out fully. For example, M.A(Hindi) and Diploma in Library Science or M.A.(Sociology) and Diploma in Labour Relations. Adequate space has been provided in the slip and you are urged to record the qualification accurately and in sufficient detail. This information is vital for manpower planning and should receive your careful attention.

The Post-graduates and also those with a technical degree or technical diploma and those with certificates from the Industrial Training Institute(ITI) were asked during the census to fill Post-graduate degree holders and technical personnel schedule and filled in schedules were collected during revisional round between March 1 to 5, 1991. This information was readily available to ascertain information regarding educational attainment against question 12 of the Individual Slip. While issuing the Post graduate degree holder and technical personnel schedule for each eligible person in the household, the location code was noted on the schedule and tick (✓) was put against question 12 of the person concerned for whom a post graduate degree holder and technical personnel schedule had been issued. A statement was prepared giving the number of blank schedules received, number of schedules issued to eligible persons, number of filled in schedules collected and number of blank schedules returned by enumerator to his/her supervisor. The persons have been identified with the help of tick (✓) against question 12 of the Individual slip of person concerned for whom a schedule had been issued. The account of schedules issued to eligible persons was maintained. During the revisional round between March 1 and 5, 1991 all the post graduate degree holder and technical personnel schedules issued to the member of the households, in the jurisdiction of enumerator were collected by him/her and handed over to the supervisor, while collecting these schedules a reverse stroke (\) was put on the tick (✓) against question 12 of the Individual concerned. The marking appeared as (X) to signify that the filled in schedule in respect of that individual had been collected. The Individual had been told that if he/she was unable to return it to the enumerator then he had to fold the form, paste and post it and no postage was required as this was paid by the addressee.

Q. 13: Attending School/College, Yes(1)/No(2)

After you have recorded the answer to Question 12, you have further to ask whether the person whom you are enumerating is attending any school or college. If the answer is `Yes ' you have to record `1' in the box provided against this question. If the answer is `No', you should record `2' in the box. Please note that illiterates (code 2 against Question 11) can be found attending school. Therefore, this question should be asked of all persons, including elderly men and women.

In recording answers to this question you are not required to ascertain whether the school/college being attended by the person enumerated is a recognised or unrecognised institution. The choice should be left to the respondent as to whether the person is attending school/college. Thus, if a person is receiving education through a correspondence course or attending some vocational course or attending the Adult Education Programme and returns himself as attending school/college, he/she will be entered as such and code `1 ' will be recorded in the box against this question.

ECONOMIC QUESTIONS

In the 1991 Census we intended collecting information regarding the economic activity of the people in great detail so that those who use these data have the type of information they want. The economic questions consist of the following :

I. **Q. 14A Did you work any time at all last year ?** **Yes**
(including unpaid work on farm or in family enterprise) **No(H/ST/D/R/B/I/O)**

Q. 14B If `Yes' in 14A, did you work for major part of last year? Yes(1)/No(2)

II. **Q. 15A Main activity last year ?** **`Yes' in 14B ( C/AL/HHI/OW )** / **`No' in 14B (H/ST/D/R/B/I/O)**

Q. 15B **`Yes' in 14B—Any other work any time last year? Yes (C/AL/HHI/OW)/No** / **`No' in 14B—Work done any time last year? (C/AL/HHI/OW)**

III **Q. 16A If `No' in 14A, seeking / available for work?** **Yes (1) / No (2)**
Q. 16B If `Yes' in 16A, have you ever worked before? **Yes(1)/ No(2)**

These questions must be canvassed for every person, irrespective of age or sex. Every person must be asked Question 14A, including the very young or very old and the answer to this question must be filled in. The other questions will have to be filled in the case of those to whom they are applicable. The instructions for filling up these questions are reproduced below :–

These questions are meant to get details of the work done by the people with reference to last year. We may, therefore, first consider what is meant by 'work' and what the 'reference period' is.

Definition of work

Work may be defined as participation in any economically productive activity. Such participation may be physical or mental in nature. Work involves not only actual work but also effective supervision and direction of work. It also includes unpaid work on farm or in family enterprise.

Reference Period

In all the questions except Question 16B, the reference period is the one year preceding the date of enumeration. Certain types of work such as agriculture, household industry like, *Gur* making, etc., are carried on either throughout the year or only during certain seasons or parts of the year, depending on the local circumstances. In such cases what we are concerned with is the broad time-span of the agricultural seasons preceding the enumeration. For Question 16B, the reference period is any time before one year preceding the date of enumeration.

Explanation

There should be no confusion regarding these questions. What we are trying to find out is the number of workers and non-workers and among the workers those who had worked for the major part of the year and those who did not worked for the major part of the year. Details of their activity are also collected. The number of non-workers seeking work and those among them who had not worked before are also collected.

Question 14A seeks to find out if a person has done any work at all (including unpaid work on farm or in family enterprise) during the last year or whether he or she did not work at all and if it is the latter, how the person spend his/her time as a non-worker. Then Question 14B seeks to find out who among the persons returning 'Yes' in Question 14A had worked for the major part of the year. By major part of the year is meant 6 months(183 days) or more. Those who had worked for the major part of the year are termed as 'Main workers'. Those who had not worked for the major part of the year i.e., those who had worked for less than six months (183 days) in the year are termed as 'Marginal workers'. Those who had worked for 6 months or more, will answer 'Yes' for Question 14B. For them code '1' has to be recorded in the box. But those who have worked for less than six months or 183 days will say 'No', and for them code '2' is to be recorded in the box for this question. Question 15A seeks to elicit information on the activity of the main workers in Question 14B i.e., those for whom code '1' has been recorded in the box. It will also elicit information about the main activity of the 'marginal workers' covered in Question 14B, i.e., those who have returned 'No' and for whom code '2' has been recorded in the box against Question 14B.

A person may have worked for six months or 183 days or more in one or more than one activity. If he/she has worked for 3 months in cultivation, one month in *Gur* making and 3 months as an agricultural labourer in Question 15A, he/she is required to indicate which of these three activities according to him/her was his/her main activity, i.e. in which capacity he/she spent more time. In the instant case since the person has spent three months each in cultivation and as agricultural labourer the choice as to which of these two would be his/her activity should be left to him/her. The other work or the secondary work he/she was engaged which has not been entered in Question 15A would be entered in Question 15B. Those who have returned 'No' for Question 14B, i.e. those who have worked for less than six months or 183 days during the last year and for whom code '2' has been recorded in the box, will have to state whether according to them, they were engaged mainly in household duties, or a student, or dependent or as retired person, rentier, or beggar or inmates of institutions, and if not in any of these categories, the person(s) should be put under 'Others' in Question 15A.

In Question 15B, details of secondary work or marginal work are sought to be obtained. Those who have worked for the major part of the year i.e., those for whom code '1' has been recorded in the box

against Question 14B, may have had secondary work and this should be entered in Question 15B. The secondary work will be cultivation if agricultural labour has been returned as main activity in Question 15A and vice-versa. Those who have not worked for the major part of the year and for whom code '2' has been recorded in the box against Question 14B, must have done some marginal work and these details will be entered in Question 15B. It is important that probing questions are asked to elicit correct information.

In Question 16A, it is proposed to ask all persons returning 'No' in question 14A, i.e., H/ST/D/R/B/I/O in question 14A, whether he or she has been seeking work or is available for work. Question 16B seeks to find out who among the Non-workers returning 'Yes' in question 16A had ever worked or not before. Those who had worked any time before will answer 'Yes' for question 16B and for them code '1' has to be recorded in the box. But those who had not worked any time before will say 'No' and for them code '2' is to be recorded. The main purpose of this question is to elicit information regarding the fresh entrants in the labour market. Those returning code '2' for this question will be the fresh entrants in the labour market.

It will thus be seen that these questions on economic aspects have been so designed as to identify all the workers, main or marginal and non-workers with reference to the activities during the last one year prior to the date of enumeration. It is very important to remember that the period referred to in Question 14A, 14B, 15A and 15B is one year preceding the enumeration. Thus, if in some areas, a person has been a cultivator or an agricultural labourer, or has worked in an industry, etc., only in one season, i.e., less than 6 months/183 days, he/she is not to be treated as a worker for Question 14B. His/her economic activity will be reflected in Question 15B. Thus, all those returning 'Yes' in Question 14A must be netted as 'Yes' in Question 14B or in Question 15B or both.

Certain important points that need special emphasis are the following and these should be kept in mind :

i) A person who normally works but has been absent from work during the reference period on account of illness, holiday, temporary closure, strike, etc., must be treated as engaged in the work he/she would otherwise have been doing but for his/her temporary absence.

ii) Persons under training such as apprentices, with or without stipends or wages, should be treated as workers.

iii) A person who has merely been offered work but has not actually joined yet, should not be treated as engaged in this work.

iv) If a person is engaged in some economic activity but at the same time does also attend to some household chores or attends a school, etc., he or she would be treated basically as a worker.

v) A person, who merely receives an income, such as a rent receiver or a pensioner who does not have to work for receiving the income, will not be treated as economically active unless the person is also engaged for some part of the year in some economic activity. Similarly, beggars, pensioners, receivers of agricultural or non-agricultural royalty or of rents or dividends who may be earning an income but who are not participating in any productive work should not be treated as working unless they also work in cultivation, industry, trade, profession, business or commerce.

vi) A person who engages himself/ herself in work such as rice pounding for sale or wages, or in domestic services for wages for others or minding cattle for wages or selling firewood or making and selling cowdung cakes or selling grass, etc., or any other work like cultivation, etc., he/she should be treated as working under Question 14A. However, any person who is engaged only in household duties but doing no other productive work to augments the family's resources should not be considered as working for the purpose of this question.

Important

Women are often classified as Non-workers because of non-reporting of their work. It also happens that women who work for the major part of the year are reported as working for less than six months. Special efforts were made for capturing women's work by asking probing Questions.

(vii) A man or a woman may be producing or making something only for the domestic consumption of the household and not for sale. Such a person is not a worker, even though from his or her point of view the activity is productive.

(viii) For an undertrial prisoner enumerated in a jail, he/she should be recorded for the work he/she was doing before he/she was apprehended. Similarly, for a person temporarily in a hospital or similar institution he/she should be recorded for the kind of work he/she was doing before he/she was admitted into hospital or institution. But for convicts in a prison or for long-term inmates of penal or charitable or mental institutions, the persons' previous work should not be recorded, but 'I' should be recorded. For census purposes, inmates of penal or charitable or mental institutions if detained for 6 months or more should be treated as long term and 'I' should be recorded for them.

(ix) A public or social service worker who is engaged in public service activity or a political worker who is also engaged in furthering the political activity of his/her party will be recorded as a worker and entered accordingly. Such persons will include members of Parliament, State Legislatures, Local authorities, etc.

Each of the economic questions can now be considered in detail

Q. 14A Did you work any time at all last year ? (including unpaid work on farm or in family enterprise)

Yes _____

No(H/ST/D/R/B/I/O)

This question is intended to divide the population into two broad streams on the basis of a liberal definition of work The reference period is one year. This question is expected to net all workers irrespective of the amount of time they have spent on work. In other words, this question will find out the number of all workers which will include both main and marginal workers. Please note that unpaid workers in farms or in family enterprises and even workers whose contribution would otherwise be considered insignificant should also be covered. But the workers in this question will not include those who produce goods for the self consumption of the members of the household like persons collecting wood, preparing cowdung cakes, etc., for the domestic consumption. Thus the term 'unpaid worker' may not be confused with those who produce or make goods for domestic consumption. The latter category is to be taken as non-workers.

NOTE: Please note that persons who cultivate land to produce for domestic consumption only will be treated as workers.

The reference period is one year and this includes the agricultural seasons also. A person may have worked as a cultivator or as an agricultural labourer throughout the year or in some season such as only Kharif or Rabi or only for a few days. In all these cases this person has worked at some time in the year and the answer to this question should be 'Yes'. 'Yes' should be written on the line and not in the dotted boxes. One may have been a cultivator, an agricultural labourer, or engaged in a household industry or any other work. The definitions of these terms are given later, but the important point is that we are determining the fact that one has done some work some time during the last one year

Obviously, probing questions will have to be asked specially in the case of those who are not regular workers. It is particularly important to ask such probing questions regarding the work done at any time last year or any of the seasons in the reference period in the case of women and children in the rural areas. Women and children in the rural areas work in the fields in the sowing, harvesting or other seasons and this may be on their own land or as labourers on someone else's land. Unless questions are asked about such work, the usual answer may be that they do not work.

It must be remembered that a man or a woman who is doing only household duties or making something only for domestic consumption (and not for sale) is not doing any work in census terminology. It is true that housewife may be working harder than the others in the home because she has to cook, look after the children, run the house, etc., but for the purposes of census, she is not a worker.

In this question every worker (even marginal workers) will be identified and in their cases the answer will be 'Yes'. You must enquire regarding each person whom you enumerate, whether he or she has worked any time at all during the last year. Even if the person has worked only for a few days, you have to record him/her as 'Yes', against this question.

Important

Before making any entry, make sure whether he or she is engaged even if only for a few days in a year in the following activities.

Work on the family farm; sale of home-made dairy products; rearing of poultry and sale of the products; sale of fruits, vegetables, etc., sale of fish, making of cowdung cakes or collecting wood for fuel, fodder, grass and other forest produce and selling some of it; engaged in household industry such as weaving, spinning, bee-keeping, sericulture, tanning and making of leather products, pottery, leaf plate making, block printing, making cane-bamboo products, rope making, etc., providing services on payment for others such as laundry, domestic work, hair cutting, tailoring etc., or working on piece rate for making agarbatties, match boxes, bidi rolling, assembly of various parts, making and selling of garments, pickles, papad, masala, jam, snacks and other food products. Take care to net informal activities in urban and rural areas, e.g., rag-picking, making of stationery items, sari-fall and beading, sale of foods or snacks for festivals, running beauty parlour or giving secretarial assistance in family enterprise, giving tuitions, running music, dance, cookery, arts, crafts, etc.; classes at home.

If the individual has not worked at all during the last year, the answer will be `No'. Then ascertain how he or she spent his or her time and record `H' or `ST' or `D' or `R' or `B' or `I' or `O' as the case may be, below the line against this question.

In Question 14A, we are trying to find out whether a person has worked any time or has been a non-worker throughout. If he or she is a non-worker throughout, the category has also to be ascertained which is as follows:

(i)	Household duties	**H**
(ii)	Students	**ST**
(iii)	Dependents	**D**
(iv)	Retired persons or rentiers	**R**
(v)	Beggars, etc.	**B**
(vi)	Inmates of institutions	**I**
(vii)	Other non-workers	**O**

The symbols which should be used to indicate these categories are also shown above against each category.

The definitions of the seven categories of non-workers are given in the following paragraphs.

Household Duties — H

This category covers all persons who are engaged in unpaid household duties and who do no other work or have not done any work at all during the last one year. Such persons should be entered as `H'.

If a person who normally attends to household duties is also engaged in some economic activity, then he or she is a worker for the purposes of Question 14A and not a non-worker. For example, a housewife may help in family cultivation or agriculture or make and sell cowdung cakes at odd times, or prepare papad, achar, etc.; and sell them. She is a worker and should be recorded as `Yes' in Question 14A though she is mainly a housewife. On the other hand, a woman may be working in a factory or office or as a labourer or cultivator and may also be attending to household duties. Such a woman is, of course, a worker and will be categorised appropriately in Question 15A later, and she will be recorded as `Yes' in Question 14A.

It will be necessary for you to ask probing questions, particularly in the case of women, to find out if they have any economic activity, apart from household duties.

Students — ST

This category will cover all full-time students including children attending school. For such persons, write 'ST'.

If a student participates in some economically productive work, say, by helping sometimes as an unpaid family worker in family cultivation or in household industry, trade or business, such a person should be treated as worker for the purpose of Question 14A and not as a student. Even though such a person was attending school/college, he or she is a worker for the purpose of Question 14A.

Please note that a person has to be a full-time student for being classified as 'ST' in Question 14A. For example, a person who is mainly attending to household duties but taking a correspondence course or attending part-time classes will not be classified as 'ST' but as 'H' in Question 14A.

Please do not presume that a person does not do any work because he is a student. It is very important to ask probing questions about students so as to net workers among them.

Please note that in most houses, the daughters help in the household work though they are studying full-time. In such cases, we are more interested in finding out if they are students and for this purpose you must ask if such girls are students or not. If they are, they should be recorded as 'ST' and not as 'H' against Question 14A.

Dependents — D

This category includes all dependents such as infants or children not attending school or a person permanently disabled from work because of illness or old age.

Dependents will include even able-bodied persons who cannot be categorised in any other category of non-workers but are dependent on others. However, if such a person who is dependent on others for subsistence is seeking work, he or she should be categorised as 'O'.

If a girl or an old woman attends to household duties she should be categorised as 'H' rather than 'D'. As you are aware, many persons may be dependents in the general sense of the word but may also be doing household work, studying or looking for work. In such cases, they should be entered as 'H', 'ST' or 'O' as the case may be, and not as 'D'. It is, therefore, necessary for you to ask whether a person who is said to be a dependent is studying or looking for work, etc., and if so, categorise him or her accordingly rather than as 'D'. Such persons would particularly include unemployed daughters, sisters, brothers, etc.

Retired Persons or Rentiers — R

A person who has retired from service and is doing no other work, i.e., not employed again in some work or not engaged in some other work such as cultivation, business, trade, etc., or a person who is a rentier or living on agricultural or non-agricultural royalty, rent or dividend, or any other person of independent means for securing which he/she does not have to work, will come under this category. 'R' should be noted for a person coming under this category in the space provided.

However, in such cases also a careful probe is necessary. A retired person may be drawing pension and be doing some work, as for example, a retired engineer may be working as a contractor In such cases, he/she is a worker and should be entered as such.

Beggars, etc. — B

This category will cover beggars, vagrants or cases such as persons without indication of source of income and those with unspecified sources of subsistence who are not engaged in any economically productive work.

For such persons, 'B' should be written in the space provided.

Inmates of Institutions — I

This category will cover convicts in jails or inmates of a penal, mental or charitable institutions, even if such persons are compelled to do some work such as carpentry, carpet weaving, vegetable growing etc., in such institutions. But an undertrial prisoner enumerated in a jail should be recorded for the work he/she was doing before he/she was apprehended. Similarly, a person temporarily in a hospital or similar institution should be recorded for the kind of work he/she was doing before he/she was admitted into the hospital or institution. But for a long-term undertrial prisoner or convict in a prison or for long-term inmates of penal or charitable or mental institutions, the person's previous work should not be recorded, but 'I' should be recorded. A person will be considered as a 'long-term' inmate if he or she is residing in such an institution for 6 months or more.

Other Non-workers — O

This category will include all non-workers who may not come under any of the above six categories but who are looking for work. They should be noted as 'O' in the space provided. A boy or girl who has completed education or has stopped studying and is looking for work will come under this category. A person who is merely spending his/her time at home as a dependent and is not doing any work and is not seeking any work will come under 'D' rather than 'O'. A person irrespective of age and whether educated or not, if he or she reports that he or she is not engaged in any other activity but is seeking work will come under this category.

It must be noted that this category includes only those who do not fall into any of the other categories of non-workers discussed earlier. There may be cases of students who may be seeking work and quite prepared to give up studies if they got a job. Such persons are students (ST) for Question 14A. The fact that they are seeking jobs will be reflected in Question 16. Thus, category 'O' need not necessarily represent all those who are seeking work.

Q. 14B: If 'Yes' in 14A, did you work for major part of last year? Yes (1)/No(2)

As mentioned earlier, through Question 14A you have classified all people into two broad streams of workers and non-workers. Workers would include all those who have worked irrespective of the quantum of their contribution to the economy.

Having found out that the person had worked any time at all during the last year (Yes in 14A), you have now to ascertain whether the person worked for the major part of last year. By major part of last year is meant that the person had worked for 6 months or more, or in other words worked for 183 days or more. If the answer to this question is in the affirmative you should record '1' in the box against Question 14B. If the person has worked for less than six months or 183 days during the last year, you should record '2' for that person in the box against Question 14B. Cross (X) may be put in the box for those persons for whom 'No' has been recorded against Question 14A.

Important

Generally women and children who have actually worked for major part of the last year are recorded or reported as having worked for less than six months or 183 days. You should, therefore, ask probing questions in this regard to elicit the correct information.

A person may have worked in different capacities during last year For example, he/she may have worked as a daily wage labourer for 4 months, as an agricultural labourer for 1 month and as a cultivator for 2 months. There could even be breaks in between the different types of work performed by him/her. In computing whether the person worked for major part of the year, you should reckon all the three spells of economic activity and if it satisfies the concept of work for major part of the year, treat him/her as 'Yes' for Question 14B and record '1' in the box. Similarly if the total period of work falls short of six months or 183 days, treat him/her as 'No' and record '2' in the box for that person

Q. 15A Main activity last year? $\frac{\text{'Yes' in 14B (C/AL/HH/OW)}}{\text{'No' in 14B (H/ST/D/R/B/I/O)}}$

In Question 14B you would have ascertained whether a person had worked for major part of the year or not. Now in Question 15A, you will be required to ascertain his or her main activity during last year. That is to say how he or she engaged himself or herself mostly. Main activity of a person who was engaged in more than one activity will be reckoned in terms of time disposition. For example, if a person has worked as a daily wage labourer for 4 months, as an agricultural labourer for 1 month and as cultivator for 2 months and for him/her, you have recorded '1' in the box against Question 14B then that person will be reckoned as daily wage labourer for Question 15A and you will record 'OW' on the line (and not in the boxes), since he/she spent more time in this activity than as a cultivator or as an agricultural labourer. Similarly, for a person for whom you have recorded '2' in the box in Question 14B, you should ascertain how he or she spent his/her time mostly as a non-worker for the major part of the year and record the appropriate symbol below the line in the space provided and not in the boxes.

The workers are classified into four categories, viz., cultivators, agricultural labourers, those engaged in household industry and other workers. The symbols which should be used to indicate these categories are given below:

(i)	Cultivators	C
(ii)	Agricultural Labourers	AL
(iii)	Workers in Household Industry	HHI
(iv)	Others Workers	OW

The definitions of the four categories of workers are given in the following paragraphs.

Cultivator — C

For purposes of the census a person is working as Cultivator if he or she is engaged either as employer, single worker or family worker in cultivation of land owned or held from Government or held from private persons or institutions for payment in money, kind or share. Cultivation includes supervision or direction of cultivation.

A person who has given out his/her land to another person or persons for cultivation for money, kind or share of crop and who does not even supervise or direct cultivation of land, will not be treated as cultivator. Similarly, a person working in another person's land for wages in cash or kind or a combination of both (agricultural labourer) will not be treated as cultivator in this question.

Cultivation involves ploughing, sowing and harvesting and production of cereals and millet crops such as wheat, paddy, jowar, bajra, ragi etc., and other crops such as sugarcane, ground-nuts, tapioca, etc., and pulses, raw jute and kindred fiber crops, cotton, etc., and does not include fruit growing, vegetable growing or keeping orchards or groves or working on plantations like tea, coffee, rubber, cinchona and other medicinal plantations. For a person who is a cultivator, write 'C' above the line and not in the dotted boxes.

Agricultural Labourer — AL

A person who works in another person's land for wages in money, kind or share should be regarded as an agricultural labourer. He or she has no risk in the cultivation but he/she merely works on another person's land for wages. An agricultural labourer has no right of lease or contract on land on which he/she works.

For a person who returns his/her economic activity as agricultural labourer, write 'AL' above the line and not in the dotted boxes.

Important

For certain reasons, the growing of certain crops is not considered as agriculture. If a person is engaged in the growing of such crops he or she will not be considered as a cultivator or agricultural labourer

You must remember that a person can be classified as a cultivator or as an agricultural labourer only on the basis of the crops grown. The growing of the following crops is considered as cultivation. Therefore, a person who grows these crops or who works on land on which these crops are grown can be classified either as a cultivator or an agricultural labourer as the case may be.

(i) **Cereal and millet crops:** Paddy, wheat, jowar, bajra, maize, ragi, barley, etc.

(ii) **Pulses:** Arhar, gram, khesari, moong, masur, urad, etc.

(iii) **Fibre crops:** Raw cotton, jute, mesta, sunhemp and kindred fibre crops.

(iv) **Oil seeds:** Sesamum, ground-nut, rapeseed, mustard, linseed, castor, etc.

(v) **Cash crops:** Sugarcane.

The growing of the following crops will not be considered as cultivation:

(i) **Plantation crops:** Tea, coffee, rubber, tobacco, pepper, cardamom etc.

(ii) **Edible nuts (other than ground-nut):** Walnut, almond, cashewnut, etc.

(iii) **Fruits:** Bananas, apples, grapes, mangoes, oranges, etc.

(iv) Coconut.

(v) Ganja, cinchona, opium and medicinal plants.

(vi) Betel-nuts (areca).

(vii) Flowers.

(viii) Roots and tubers, chillies and spices.

(ix) Vegetables.

(x) Other crops not included under cultivation.

Please remember that you must use the abbreviations given in the instructions, namely, 'C' or 'AL'. It will be evident that you will have to ask a specific question regarding the crops grown in all cases where one merely says he/she is a cultivator or an agricultural labourer.

Workers in Household Industry — HHI

For a person who returns his/her main activity as engaged in some production, processing, servicing or repair articles or goods such as handloom weaving, dyeing, carpentry, bidi rolling, pottery manufacture, bicycle repairing, blacksmithy, tailoring, etc., it has to be ascertained if it is a household industry, and if so, it should be indicated by the abbreviation 'HHI' above the line and not in the dotted boxes.

Household Industry is defined as an industry conducted by the head of the household himself/herself and or by the members of the household at home or within the village in rural areas and only within the precincts of the house where the household lives in urban areas. The larger proportion of workers in a household industry should consist of members of the household including the head. The

industry should not be run on the scale of a registered factory which would qualify or has to be registered under the Indian Factories Act.

There may be an industry which is being run by a large joint family of more than 10 persons and where power is used or more than 20 persons where power is not used. In such cases, though only family members are involved, this will not be treated as `HHI' Thus, the meaning of the term `run on the scale of a registered factory' refers to such cases even if these are not registered as such.

The main criterion of a Household Industry is the participation of one or more members of a household. This criterion will apply in urban areas too. Even if the industry is not actually located at home in rural areas there is greater possibility of the members of the household participating even if it is located anywhere within the village limits. In the urban areas where organised industry takes greater prominence, the Household Industry should be confined to the precincts of the house where the participants live. In urban areas even if the members of the household by themselves run an industry but at a place away from the precincts of their home, it will not be considered as a Household Industry. It should be located within the precincts of the house where the members live in the case of urban areas.

Household Industry should relate to production, processing, servicing, preparing or making and selling (but not merely selling) of goods. It does not include professions such as a Pleader, Doctor, Barber, Musician, Dancer, Waterman, Dhobi, Astrologer etc., or merely trade or business, even if such professions, trade or services are run at home by members of the household. A list of a few typical Household Industries is appended to these instructions as Appendix IV.

Sometimes it is likely that the person who may not be working in his/her own Household Industry may be working in another Household Industry. You should, therefore, enquire whether the person who is not working in his/her own Household Industry is working in any other Household Industry and record as per instructions given above.

As mentioned earlier, Household Industry should relate to production, processing, servicing, repairing or making and selling of goods. However, a household can be engaged in certain other activities collectively but these may not qualify for being considered as Household Industries.

Certain activities even though conducted by members of the same household will not constitute a Household Industry. These are indicated below and therefore the members of the family working in such industries will be classified as `OW' and not `HHI'.

(i) Plantation work.

(ii) Livestock maintenance and production such as cattle, goats, sheep breeding, poultry farms, bee-keeping, rearing of silk worm and production of cocoons and raw silk, production of milk, eggs, honey, wax, bones, etc.

(iii) Hunting, trapping and selling of the catch.

(iv) Forestry and logging: log, fuel, charcoal production, gathering and selling of fodder and other forest produce, etc.

(v) Fishing including rearing of fish, collection of pearls, shells, sea products, etc.

(vi) Mining and quarrying.

In our country Household Industry is a very important part of our economy. We must get accurate data regarding those engaged in `HHI' You must carefully read these instructions and understand them. The main points are again indicated below.

`HHI' stands for worker in Household Industry. The main characteristics of the Household Industry are the following:

(a) One or more members of the household must participate. Participation by hired labour must be minimum.

(b) The activity should relate to some production, processing, servicing, repairing or making and selling of goods.

(c) The goods produced should not be for consumption by the household itself but should be wholly or partly for sale.

(d) In an urban area the industry must be carried on in the precincts of the house in which the household lives. In the rural areas, the industry may be carried on anywhere within the limits of the village.

(e) The activity should not be on the scale of a Registered Factory.

(f) Professions such as those practiced by Pleader, Doctor, Barber, Musician, Dancer, Dhobi, Astrologer, etc., will not be `HHI'.

Other Workers — OW

All workers, i.e., those who have been engaged in some economic activity during the last one year, who are not cultivators or agricultural labourers or in Household Industry, are `Other Workers'- `OW'. The type of workers that come under this category of `OW' include factory workers, plantation workers, those in trade, commerce, business, transport, mining, construction, political or social work, all government servants, municipal employees, teachers, priests, entertainment artists, etc. In effect, all those who work in any field of economic activity other than cultivator, agricultural labourer or household industry, are `Other Workers'. They will be entered as `OW'.

You will recall that it was mentioned that the growing of certain crops is not agriculture. Those engaged in this activity would have to be classified as `OW'.

Q. 15A Further Explanation

In Question 15A we are trying to find out what a person's main activity is. You will see that if a person is treated as a worker in Question 14A but he/she has not worked for the major part of the year, the answer in Question 14B would be `No', i.e., for him/her you would have recorded `2' in the box against Question 14B. In such a case, you must find out what such a person has been doing mostly. He or she may have mainly been doing household duties, or studying, or a dependent or rentier or beggar or lodged in an institution or may fall under the category `O' described earlier. In any case, even for these persons, we are interested in finding out their work details, though this may not be what they were mostly doing. The work details will be obtained through Question 15B, as we will see later.

Question 15A gives information about all workers on the basis of what they have been doing mostly.

If in reply to Question 14A, a person has said that he/she has worked any time at all in the last one year(or seasons), you would have entered for him or her `Yes' against Question 14A. In Question 14B you have ascertained whether the person had worked for major part of the year, i.e., for six months or 183 days or more or had not worked for the major part of the year i.e., less than six months or 183 days. In the former case you have recorded code `1' in the box against Question 14B. In the latter case you would have recorded code `2' in the box against Question 14B. At this stage you may recall the instructions given under Question 15A where it has been stated that the person may have been engaged in more than one activity and for the purpose of Question 15A, his/her main activity has been identified. If the person is a main worker, i.e., code `1' has been recorded in the box against Question 14B, his/her secondary work will be reflected in Question 15B as you will see later For persons, who are identified as marginal workers, i.e., for whom code `2' has been recorded in the box against Question 14B, their main activity would have been recorded as H/ST/D/R/B/I/O against Question 15A. The details of the work done by such marginal workers will be reflected in Question 15B.

What is meant by main activity or the activity that a person has been doing mostly can be easily understood from the following examples.

(a) A person is a cultivator but during the non-agricultural season works as a construction worker or as a hamali. He/she is a cultivator mainly and next 'other worker'. He/she should be recorded as 'C' in Question 15A and 'OW' in Question 15B.

(b) A person may have worked for less than six months as a cultivator. For the major part of the year, this person may have been doing household work. For this person record 'H' in Question 15A and 'C' in Question 15B.

(c) A person may be mainly an agricultural labourer but may have worked in a Khandsari/ sugar factory during the lean season. he/she would be 'AL' for Question 15A and 'OW' for Question 15B.

(d) A person may have worked for less than six months in a shop. For the major part of the year, this person might have been a student. For this person record 'ST' in Question 15A and 'OW' in Question 15B.

(e) A person who is mainly a cultivator also keeps cows and sells the milk. He/she would be entered as 'C' in Question 15A and 'OW' in Question 15B.

These examples will help you to understand the concepts better.

In the case of those who are mainly engaged in Household Industry (HHI) or as Other Workers (OW), certain details should be collected regarding name of establishment, nature of industry, trade, profession or service, description of work and class of worker. These details will have to be filled in Question 15A (i) to 15A (iv).

As you will see from the question itself, these parts are applicable to persons for whom you have recorded 'HHI' or 'OW' against Question 15A. If the economic activity has been shown as 'C' or 'AL' against Question 15A, there is no need to fill in the sub-sections (i) to (iv) of this question. Similarly, if an individual has replied 'No' against Question 14B, i.e., code '2' has been recorded in the box against Question 14B and H/ST/D/R/B/I/O, as the case may be, has been recorded in Question 15A, sub-sections (i) to (iv) will not apply. In such cases a cross (X) may be put on each of the lines against these sub-sections.

Q. 15A: (i) Name of Establishment

Record here the name of the factory, firm, workshop, business house, company, shop, office, etc. In respect of public offices you should clearly indicate whether they are Central or State Government or local body offices, etc. If the establishment does not have any definite name such as, in the case of household industry, like hand pounding of rice, gur making, handloom weaving, potter's house, blacksmithy, etc. enter the proprietor's name and the type of shop so that if necessary a link can be established between the various sub-sections of this question. For example, instead of 'No particular name' the entry could read as 'Babulal's Paint Shop', etc. For defence and other similar personnel as may be indicated to you, put a cross (X) on the line.

Q. 15A: (ii)Nature of Industry, Trade or Service

The answer to this question will have to be given in detail to enable proper classification of the sector of economy in which the person is working. The sector of economy in which a person works may relate to (i) Plantation, Forestry, Fishing, Livestock, etc.,(ii) Mining and Quarrying, (iii) Manufacturing, Processing, Servicing and Repairing, (iv) Construction, (v) Electricity, Gas or Water Supply, (vi) Transport and Communications, (vii) Trade and Commerce, (viii) Professions and Services. In order to enable us to classify a person properly, full details of the nature of the industry, trade, profession or service should be given. Please avoid vague answers. Full details of the type of industry, trade, profession or service in which the person is engaged will have to be recorded here. It is not enough to say 'plantation' or 'livestock'. You should say whether it is tea plantation or banana plantation or sheep rearing or cattle breeding. Similarly, it is not enough to say 'manufacturing' or 'textile manufacturing' You should say

whether it is manufacturing of cotton textile in handloom or manufacturing khadi textile or manufacturing silk textile. Likewise mere 'trade' is not enough. It should be recorded as wholesale trading in food grains or pulses or retail trading in spices or grocery and so on. For defence and similar personnel, write 'Service'.

You must describe the nature of industry, profession, trade or service or whatever it is, in as detailed a manner as possible. In the case of industries, the articles which are produced or serviced or processed should be given. In the case of service, please describe fully the nature of the service to which the person belongs, except in the case of defence or similar other personnel.

Q. 15A: (iii) Description of Work

Under this question, the description of the actual work, i.e., the occupation that the person enumerated is doing is to be recorded irrespective of the type of industry, trade, profession or service that he/she may be working in and which is to be recorded under sub-section (ii) of Question 15A.

His/her actual work or occupation should always be given in sufficient detail. If, for example, a person is merely recorded as 'clerk' with no other details, it will be impossible to properly categorise him/her by the type of work he/she does. He/she may be a clerk attending to correspondence or book-keeping or accounting. Similarly, if a person were merely to be recorded as a technician, it will not help to determine what type of technician/mechanic he/she is, whether computer-technician or a motor-mechanic or a locomotive mechanic, etc. If a person is recorded as doing leather work, it will not be sufficient. It should be clearly stated whether he is a tanner, pelt dresser, fellmonger, etc. Similarly, if a person says he/she is a sweeper, you should find out whether he/she is a sweeper–dry; or a sweeper–wet; or a sweeper–sewer. The description of the actual work done by a person should be ascertained in adequate detail and recorded against this question. Similarly, in a trading establishment there could be a proprietor, cashier, bookkeeper, salesman, etc.

It is necessary to describe the actual occupation adequately. It is not enough to say that one is a Government official. Whether one is a Bill-clerk or Section Officer, Tehsildar, Police, Chowkidar or Research Officer, etc., has to be spelt out. There may be Assistant Directors, Deputy Directors, etc., doing different functions. It is necessary to describe the occupation adequately in their case for proper classification e.g., Assistant Director (Agriculture),Assistant Director (Soil Conservation),Senior Research officer (Vital Statistics), Deputy Director (Health), Sub-Inspector (Excise), Treasury Officer, Village Officer (Revenue), Panchayat Secretary, Malaria Control Officer, Traffic Inspector (Transport Department), etc.

It has been found in the past that a very large number of persons are recorded merely as 'general labourers'. It is necessary to make a probe and find out in which type of work the person is mostly engaged as a labourer, such as a road mazdoor, a loader or an unloader in a market, a construction labourer, etc.

For those in defence and similar service, it is enough if it is merely noted as 'Service'. Other details need not be given. For other Government servants full details must be given and the description of the work should be as detailed as possible.

Important

There need be no confusion as to the scope of Questions 15A (ii) and 15A (iii). Question 15A (ii) would represent the nature of industry, trade, profession or service, i.e., the sector of economy in which a person is engaged in work and Question 15A (iii) represents the occupation or the actual work the person performs in the industry, trade, profession or service in which he/she is engaged.,Thus, for example, if the answer to Question 15A (ii) is 'cotton textile manufacture in mill', the answer to Question 15A (iii) could be 'chemical engineer' or 'bill clerk' or 'accountant' or 'labourer' or 'truck driver' or the 'managing director' of that industry and so on. Similarly, in Question 15A (ii) the nature of service may be some department of State Government Service and in Question 15A (iii) the description of work may be 'bill clerk' or 'accountant', 'director of the department', 'jeep driver' in the department, etc. Again, against Question '15A (ii) the answer may be 'private medical practice' and in Question 15A (iii) 'orthopedic surgeon', or 'nurse', or a 'sweeper', etc., working in that private medical practitioner's nursing home.

Q. 15A: (iv) Class of Worker

For a person who is

(i) an Employer, that is, who hires one or more persons in his/her work described in Question 15A (iii), write ... ER

(ii) an Employee, that is, who does his/her work described in Question 15A (iii) under `Others 'for wages or salary in cash or kind, write...EE

(iii) a Single Worker, that is, who is doing his/her work described in Question 15A (iii) without employing others except casually, and without the help of other members of the family except casually and a participant in work as member of co-operative, write...SW

(iv) a Family Worker, that is, who is doing his/her work described in question 15A (iii) in a family enterprise along with other members of the family without wages or salary in cash or kind write...FW.

Explanation

An Employer is a person who has to employ other person in order to get the work mentioned in his/her case in Question 15A (iii) performed. That is to say, such a person is not only responsible for his/her own personal work but also for giving work to others for carrying out the activity mentioned in Question 15A (ii).

Please note that a person who employs domestic servants for household duties is not an employer. So also, a person who has subordinates under him/her in an office where he/she himself/herself is employed by others, is not an employer, even if he/she has the power to appoint another person in his/her office on behalf of his/her own employer. A head of department or a local manager of a company may have the power to appoint people, but they are themselves employees of someone else, in this case, government or the main office of the company, and cannot, therefore, be an employer. A government servant irrespective of the post he/she holds is an `employee'.

An Employee is a person who usually works under some other person for salary or wages in cash or kind. There may be persons who are employed as managers, superintendents, agents, etc., and in that capacity employ or control other workers on behalf of their own employers. Such persons are only employees, as explained above, and should not be regarded as employers. Please note that a cook or domestic servant engaged by someone is an employee. The fact that his master may himself/herself be an employee is irrelevant.

A Single Worker is a person who works by himself/herself. He/She is not employed by any one else and in his/her turn does not employ anybody else. This definition of a Single Worker will include a person who works in joint partnership with one or several persons hiring no employees, and also a member of a producer's cooperative. Each one of the partners or members of such producers' cooperatives should be recorded as `Single Worker'. Political workers and social workers are to be treated as `SW'.

A Family Worker is a member who works without receiving wages in cash or kind, in an industry, business, trade or service. For example, the working members in a family of dhobies where they all participate and each does not receive wages separately, will be family workers. There may be family workers in industry, trade or professions as well. Family workers must be related by ties of blood or marriage but such workers can belong to different households.

Thus, what is important is that such workers must necessarily be related even though they may be living in different households. The family workers may or may not be entitled to a share of the profits in the work or the business carried on either by the person or head of the household or other relative.

Please note the following important cases:

(a) In the case of persons **engaged** in Household Industry, i.e., in the case of persons for whom the answer to Question 15A is `HHI', there will be three classes of workers generally, viz., Family Worker, Single Worker and Employee. There may not be a formal `Employer'. Household Industry by its very definition is conducted by the head of the household himself/herself and/or other members of the household, the role of hired workers being secondary.

If the head along with the members of the household is working in a Household Industry employing hired workers, the head and other members who are working should be treated as `Family Workers'. If the head alone is working with the occasional assistance of hired worker(s), whose role should be secondary as indicated above, he/she should be treated as a `Single Worker' although one might argue that in effect he/she becomes an employer. The hired workers are of course employees.

(b) Members of the household who help solely in household duties, i.e., economically non-productive work, should not be treated as Family Workers. In fact, they are not workers.

(c) Members of a producer's cooperative society who have no other occupation or work except this, should be categorised as Single Worker-SW.

(d) In the case of partnership in which all the partners are related, treat them as Family Workers — FW. The partnership firm may or may not employ others, but this will not change the category of the partners. They would be `FW'.

(e) In the case of a partnership firm in which some of the partners are not related, treat all the partners, including those that may be related, as Single Worker-SW. The firm may or may not employ others, but this will not change the category of the partners. They will all be `SW'.

(f) Full-time political workers and social workers should be treated as `SW'.

(g) Doctors and lawyers who do not employ any person should be treated as `SW'. One may come across doctors and lawyers employing certain persons on a regular basis in the doctor's dispensary or clinic or in the lawyer's office or chamber. In this case the doctor or lawyer would become an `Employer' and so `ER' should be recorded. However, sometimes lawyers have been found to take the help of clerks who remain attached to them on a regular basis but without being formally employed on wages. The clerk usually earns his remuneration independently from the lawyer's clients. In such a case, both the lawyer and the clerk should be treated as Single Workers-SW.

Q. 15B

'Yes' in 14B-Any other work any time last year? Yes(C/AL/HHI/OW)/No

'No' in 14B-Work done any time last year?(C/AL/HHI/OW)

You will recall that in Question 14A you have identified all those who have done any work at all in the last one year. In Question 14B, you must have categorised them either `Yes' i.e., code `1' or `No', i.e., code `2'. In Question 15A you have divided these persons on the basis of what they have been mostly doing. It is quite possible that those who have been categorised as `C' or `AL' or `HHI' or `OW' in Question 15A, based on the type of work they have been doing mostly, may have done some other work in addition to what they have been doing mostly. Similarly, a person who is mostly doing household duties, or is mainly a student, or mainly a dependent or a rentier or a beggar or belongs to the categories of `I' and `O' must have done some work at sometime during the last one year. This is the information we are trying to get in Question 15B.

Please note the way in which Question 15B has been worded. This question deals with two separate situations. The first relates to those persons who have worked for the major part of last year and may or may not have some other secondary work. The second part relates to persons who have worked at any time in the last year but not for the major part of the year. In the case of those who have worked in the major part last year, you would have entered code `1' in Question 14B and you would have categorised them as `C' or `AL' or `HHI' or `OW' in Question 15A. Such persons may or may not have had

secondary work in addition to their main work. If, on inquiry, you find that such a person has had any other work any time last year, you would have to enter on the line, `C' or `AL' or `HHI' or `OW', depending upon the type of work and score out the answer `No' printed on the line.

This question should be asked of every person who has returned `yes' against Question 14A. It is re-emphasised that all those who have answered `Yes' against Question 14A and for whom `Yes' or `No', code `1' or `2' has been recorded in Question 14B, Question 15B should be asked without fail. If a person who has worked any time last year, but has not worked for the major part of the last year, you would have recorded code `2' in Question 14B and in Question 15A you would have categorised such a person as `H' or `ST' or `D' or `R' or `B' or `I' or `O'. Such a person must have done some work any time last year and this is the work which we are trying to catch in Question 15B so far as such a person is concerned. For such a person after inquiry, you will have to enter the appropriate category, viz. `C' or `AL' or `HHI' or `OW' below the line in Question 15B.

This question is meant to elicit information on the secondary or marginal work which a person might have done any time at all during the last year, apart from the main work or other activity which will have come out in Question 15A. It is obvious that irrespective of whether the answer is `Yes' or `No', i.e., code `1' or `2' in Question 14B, there could be an answer in Question 15B because a full-time worker may have done some other work or a person who is essentially a non-worker, though he/she has not done any work over the major part of the last year, might also have done some work occasionally. This, therefore, should give us details of secondary and marginal work in respect of both workers and those who are mainly non-workers.

This question should be asked of every person who has returned `Yes' against Question 14A. It is re-emphasised that all those who have answered `Yes' against Question 14A and for whom you have recorded `Yes' or `No', i.e., code `1' or `2' in question 14B, this Question 15B should be asked without fail. In answer to this question if the individual says `Yes' then you should find out the type of work and categorised him or her as `C' or `AL' or `HHI' or `OW' as the case may be. These abbreviations refer to Cultivators, Agricultural Labourers, Household Industry, and Other Workers and have been fully explained earlier in the instructions under Question 15A. You may refer to these again before recording the appropriate category on the line. It is sufficient if you write the category on the line. If the respondent gives reply in the negative it should be indicated by the word `No' on the line. Please do not make any entry in the dotted box.

Ask each person if, besides what he/she already returned as his/her main activity against Question 15A, he/she participated in any other work or did any work any time last year. A number of unpaid family workers participating in household enterprises who might have returned themselves mainly as `H' or `ST' or `R' under Question 15A will be netted here for their involvement in such economic activity. Except in cultivation mere rendering of service for one's own home or production of goods for purely domestic consumption are not to be treated as economic activity. For example, a servant who works as a cook in his or her employer's home for wages will be considered economically active but a housewife even if she may work much more than a paid servant in having to cook for the family or looking after the household will not be treated as economically active for the purpose of this classification. Similarly, women who may produce cloth on a loom at home for domestic consumption will not be treated as economically active unless at least a part of the product is sold. A boy or a girl who is categorised as a student under Question 15A, can have a marginal work, say, cultivation if he helped the head of the household in the family cultivation during some part of the season. But if a girl student, who is shown as `ST' under Question 15A also helped in weaving cloth purely for domestic consumption on a loom at home, or helped in attending to household chores, she will not be treated as having any marginal work.

Any other work or secondary work will be reckoned only if the person is engaged in some economically productive work, even if marginal, in addition to whatever is his/her activity under Question 15A. If a person whose economic activity is shown, as a clerk in a government office or a teacher, also attends to some cultivation even by way of direction or supervision or undertakes some tuition, this will be shown as `any other work any time last year' under Question 15B. A person's main activity may be cultivation and his secondary work may be money lending. Again, main activity may be 'agricultural labourer and secondary work could be sugar factory labourer or vice versa.

After it is established that the person is doing some work and he or she has been recorded accordingly in Question 15B in any of the categories of C, AL, HHI, OW, you have to proceed further and fill up the details of sub-sections of Question 15B(i) to (iv) in respect of entries `HHI' or `OW' only. The

instructions for filling up the details in these sub-sections will be the same as given under Question 15A. For those who are recorded as `C' or `AL' or for whom you have entered `NO' in Question 15B, you have to put a `X' against these sub-sections on the line.

Important

It must particularly be noted that if there is an entry `No', i.e., code `2' in Question 14B and H/ST/D/R/B/I/O, as the case may be, in Question 15A, there must be an entry in Question 15B and this cannot be blank or cross(X). This is because a person who has worked any time at all last year, and has been entered as `Yes' in Question 14A, must be reflected somewhere. Since the person has not worked in major part of the year as reflected by code `2' in Question 14B and also H/ST/D/R/B/I/O, as the case may be, in Question 15A, the work done by him/her and netted in Question 14A, must therefore, be reflected in Question 15B. Again, a person who has worked in major part of the year and for whom code `1' has been recorded in Question 14B, you may have recorded as `C' or `AL' or `HHI' or `OW' for his main activity in Question 15A. It is quite possible that he/she may have done some other work though not on the scale of main activity. This secondary work should also be reflected in Question 15B. You will thus appreciate that probing questions are essential and you must ask Questions again and again to find out if a person has had some secondary work and marginal work in the case of those for whom code `2' has been recorded in the box against Question 14B and record the same in Question 15B.

It would follow that if the answer to Question 14A is `No', i.e., you have recorded H/ST/D/R/B/I/O, as the case may be, there will be a cross (X) in the box for Question 14B and on the lines against each of the Question 15A including sub-sections and 15B including sub-sections.

Q 16A: If `No' in 14A, Seeking work? Yes(1)/No.(2).

This question is intended to elicit some information on the number of unemployed. If an individual has replied that he/she has not worked at all last year under question 14A and you have recorded `No' against this question you have to ask from him or her whether he or she is seeking work or available for work. This question should be asked of all persons for whom you have recorded H/ST/D/R/B/I/O in question 14A. Seeking work means a person may have got himself/herself registered in the employment exchange or applying for jobs or made other efforts for a job, such as looking into the news paper advertisements for applying for a job.

If he or she is seeking or available for work, you have to record `1' in the box provided. In case his/her reply is `No' you have to record `2' in the box. Cross (X) may be put in the box in case the question is not applicable.

Q. 16B: If `Yes' in 16A, have you ever worked before? Yes (1)/No(2)

This question will be asked of those persons who have replied Yes in Question 16A. If he/she had worked any time before, you have to record `1' in the box provided. In case he/she had never worked any time before, then you have to record `2' in the box. Cross(X) may be put in the box in case the question is not applicable.

Each table presented in this volume is preceded by fly leaf which explains in brief the broad features of the table and the mode of presentation of data in the table.

TABLE B-6 : MARGINAL WORKERS CLASSIFIED BY INDUSTRIAL CATEGORY OF WORK AND MAIN ACTIVITY

FLY-LEAF

This table gives the break-up of marginal workers by nine broad industrial categories separately for all areas, rural areas and urban areas at State and District level.. The marginal workers in each category have been further classified by their main activity; household duties, students, dependents, retired persons or rentiers, beggars, vagrants etc., inmates of Institutions and others. This table indicates the industrial composition of marginal workers by their activity.

This table has been compiled on the basis of information collected through question numbers 3, 14A, 14B, 15A, and 15B of the Individual Slip. These questions along with the instructions are reproduced in the general note.

This table partly corresponds to B-6 of the 1981 Census.

TABLE B-7 : MAIN WORKERS (EXCLUDING CULTIVATORS AND AGRICULTURAL LABOURERS) WITH OTHER WORK CLASSIFIED BY INDUSTRIAL CATEGORY OF OTHER WORK AND MAIN ACTIVITY

FLY-LEAF

This table gives the break up of main workers other than cultivators and agricultural labourers in household industries and non-household industries, trade, business or service by nine broad industrial categories of secondary work. The main workers have been further classified by section of National Industrial Classification, 1987. This table indicates the industrial composition of secondary work of main workers engaged in household industries and non-household industries, trade, business, or service. This table is presented for all areas, rural areas and urban areas at State and District level. The National Industrial Classification (N.I.C.1987) is reproduced as Appendix - II to general note.

This table has been compiled on the basis of information collected through question numbers 3, 14A, 14B and 15A of the Individual Slip. These questions alongwith the instructions are reproduced in the general note.

The table partly corresponds to table B-6 of the 1981 Census.

TABLE B-19 (F) : OCCUPATIONAL CLASSIFICATION OF MAIN WORKERS OTHER THAN CULTIVATORS AND AGRICULTURAL LABOURERS BY INDUSTRIAL CATEGORY AND SEX.

FLY- LEAF

This table gives the distribution of main workers other than cultivators and agricultural labourers by occupation (as per National Classification of Occupation, 1968) and broad industrial category. The occupational classification is presented at family (three digit) level. This is the basic table showing the distribution of main workers by occupation. The data are presented for all areas and urban areas at state level.

The National Classification of Occupation, 1968 has been adopted in this volume with some modifications in order to accomodate certain occupations pursued by Scheduled Castes and Scheduled Tribes. The National Classification of Occupation (NCO, 1968) is reproduced in the general note.

This table has been compiled on the basis of information collected through question numbers 3,14A, 14B and 15A of the Individual Slip. These questions along with the instructions are reproduced in the general note.

This table corresponds to table B-18 of 1981 Census.

TABLE B-21(F) : PARTS A & B OCCUPATIONAL CLASSIFICATION OF MAIN WORKERS AND MARGINAL WORKERS OTHER THAN CULTIVATORS AND AGRICULTURAL LABOURERS BY SEX AND AGE

FLY- LEAF

This table gives the cross-classification of main and marginal workers other than cultivators and agricultural labourers by occupation (NCO, 1968) age and sex. The occupational details are given upto group (two digit) level of the National Classification of Occupation, 1968. This table shows the age and sex composition of main and marginal workers other than cultivators and agricultural labourers engaged in various occupations.

The National Classification of Occupation, 1968 has been adopted in this volume with some modification in order to accomodate certain occupations pursued by Scheduled Castes and Scheduled Tribes. The National Classification of Occupation (NCO, 1968) is reproduced in the general note as Appendix -III The age group adopted in this table are 5-14, 15-19, 20-24, 25-29, 30-34, 35-39, 40-49, 50-59, 60-69, 70-79, 80+ and age not stated, sub-totals for age groups 15-59 and 60+ are also given. The table has been presented for urban areas and rural areas separately at State and District level. Part-A relates to Urban areas and Part-B relates to Rural areas.

This table has been compiled on the basis of information collected through question numbers 3,4,14A, 14B, 15A and 15B of the Individual Slip. These questions along with the instructions are reproduced in the general note.

The table partly corresponds to table B-20 of 1981 Census.

TABLE B-21(F) : PARTS A & B OCCUPATIONAL CLASSIFICATION OF MAIN WORKERS AND MARGINAL WORKERS OTHER THAN CULTIVATORS AND AGRICULTURAL LABOURERS BY SEX AND AGE

FLY- LEAF

This table gives the cross-classification of main and marginal workers other than cultivators and agricultural labourers by occupation (NCO, 1968) age and sex. The occupational details are given upto group (two digit) level of the National Classification of Occupation, 1968. This table shows the age and sex composition of main and marginal workers other than cultivators and agricultural labourers engaged in various occupations.

The National Classification of Occupation, 1968 has been adopted in this volume with some modification in order to accomodate certain occupations pursued by Scheduled Castes and Scheduled Tribes. The National Classification of Occupation (NCO, 1968) is reproduced in the general note as Appendix -III The age group adopted in this table are 5-14, 15-19, 20-24, 25-29, 30-34, 35-39, 40-49, 50-59, 60-69, 70-79, 80+ and age not stated, sub-totals for age groups 15-59 and 60+ are also given. The table has been presented for urban areas and rural areas separately at State and District level. Part-A relates to Urban areas and Part-B relates to Rural areas.

This table has been compiled on the basis of information collected through question numbers 3,4,14A, 14B, 15A and 15B of the Individual Slip. These questions along with the instructions are reproduced in the general note.

The table partly corresponds to table B-20 of 1981 Census.
