FOREWORD

This volume presents tables in Part III–A & B and Part IV–A of the Tabulation Plan of 1981 Census *viz.*, detailed cross tabulation on socio-economic characteristics of the population of the State of Manipur. These tables have been generated on the basis of computerised processing of hundred per cent Individual Slip records of 1981 Census in respect of the State. The publication is a culmination of the process which started with field operations of 1981 Census under the inspiring leadership of Shri P. Padmanabha of the Indian Administrative Service who was Registrar General and Census Commissioner, India, during the period from 7th October, 1977 to 6th October, 1983. The 1981 Census of India was ably conducted in the State by Shri R.K. Birendra Singh of the Indian Administrative Service.

The work of coding and editing of the Individual Slip records was completed in the Directorate of Census Operations, Manipur and the data entry by the Data Entry Centre, Delhi. The further processes of system design, programming, actual processing on the computer, scrutiny of the computerised tables, writing up of notes and seeing the printing of the volume in the press was handled by the office of the Registrar General, India.

This volume is, thus, a product of labours of a team of highly dedicated officers in this organisation. Constraints of space preclude a mention of all the officers at various levels in the various Divisions of the Office of the Registrar General, India who saw this project through its various stages but mention can be made of Wing Commander (later Group Captain) B. B. Adlakha, Director (Electronic Data Processing) in this organisation from 31st August, 1980 to 1st August, 1983, Shri S. N. Chaturvedi, Joint Director (Data Processing), Shri K. R. Unni, Joint Director (Programme) and his colleagues, Shri B. K. Maratha, Deputy Director and other officers who saw through the work of data entry and processing at various stages.

The Census Division had taken over the responsibility of overall scrutiny of the tables and preparation of notes of this publication and this work was very ably carried out under the supervision of Shri N. Rama Rao, Assistant Registrar General and Shri Madan Singh, Senior Research Officer. Detailed scrutiny of these tables was done by S/Shri Ibocha Singh, Deputy Director of Census Operations, Manipur and M.G. Kini, Research Officer of this office and this work was completed within a fortnight. The press-ready copy of the manuscript was completed in the first week of March 1985.

Since the organisation had, under the guidance of Shri V. S. Verma, the present Registrar General, India, set itself the goal of seeing all the volumes, pertaining to State of Manipur and other States and Union Territories in respect of which processing of data was on hundred per cent basis, out by May, 1985, a formidable challenge was posed to Shri Tirath Dass, Joint Director and his colleagues in the Printing Division. The arduous task of timely printing of this publication was ably supervised by Shri S. R. Luhadia, Deputy Director, Census Operations, Rajasthan, for which he deserves my sincere thanks. I am happy to record that the Printing Division of the organisation as a whole, has lived upto this challenge.

PREFACE

The processing of the data collected during the 1981 Census of India was planned to be carried out on the basis of the mix of manual tabulation and processing on computers. The manual tabulation related mainly to the abstraction of information of what is termed as Primary Census Abstract which presents data down to the village level on general population by sex, literacy, distribution by Scheduled Castes and Scheduled Tribes and by the broad working characteristics of cultivator, agricultural labourer, those engaged in household industry and other workers. In addition to the Primary Census Abstract the data on household population by religion of the head of household and household population by language mainly spoken in the household was also compiled manually. The second stage of processing consisted of taking on to tape the data relating to hundred per cent area. The tables presented in this volume incorporate data relating to basic socio-economic characteristics.

The Director of Census Operations, Shri R. K. Birendra Singh under whose guidance the entire operations were carried out deserves all credit for the success of the operations but he had to leave the organisation for taking up other important assignment before the volume in question could be made ready for the press.

I must record my deepest sense of gratitude to Shri P. Padmanabha, Ex-Registrar General and Census Commissioner, India and Shri V. S. Verma, the present Registrar General and Census Commissioner, India, for their valuable guidance and sincere help to us at every stage to bring out this publication in time. I also thank Shri Tirath Dass, Joint Director, Printing and the staff of Census and Printing Divisions associated with this task.

The processing of the huge data was undertaken by the Data Processing Division of the Registrar General's Office under the leadership of Shri V. P. Pandey, Joint Registrar General, India. S/Shri S. N. Chaturvedi, Joint Director (D. P.) and K. R. Unni, Joint Director (Programming) have also helped in the processing of data.

The arduous task of scrutiny and compilation of General Economic Tables and Social and Cultural Tables and the preparation of notes was the responsibility of the Census Division of the Registrar General's Office. This task was accomplished well by the Census Division under the overall guidance of Shri V. P. Pandey, Joint Registrar General, India ably assisted by Shri N. Rama Rao, Assistant Registrar General (Census and Tabulation) and Shri Madan Singh, Senior Research Officer. S/Shri R. P. Tomar, V. P. Rustagi, Deputy Directors, Mohd. S. H. Mazumdar, Senior Research Officer, M. G. Kini, Research Officer and Ganesh Dass, Assistant Director have also helped in finalising the tables. The printing aspects of the publication were looked after by the Printing Cell of the Directorate of Census Operations, Rajasthan, headed by Shri S. R. Luhadia, Deputy Director. I thank them all for the same.

Lastly, in my own office, I received maximum co-operation and assistance at every stage from my staff who worked diligently with devotion. The names of the officers and staff of this Directorate, Data Processing Division and Census Division of the Registrar General's Office and Printing Cell of the Directorate of Census Operations, Rajasthan, associated with this work are mentioned overleaf.

I hope the publication will be of immense use not only to the Government Departments but also to the research scholars and other data users.

GENERAL ECONOMIC TABLES

GENERAL NOTE ON ECONOMIC TABLES—'B' SERIES

Economic data are being collected right from the first regular Census which was conducted in 1872. The concepts and definitions adopted for economic classification of population, however, varied from Census to Census.

The collection of data on economic activity has, thus, been traditionally a part of the population Census of India, Census data of the economic characteristics of the population are essential to describe the economic and, in association with other characteristics, the social profile of the population. Following the pattern laid in 1971, the ecomomic data of 1981 are presented in the form of B-Series tables.

At each of the three Censuses of 1951, 1961 and 1971 the concept of work had to be changed. The main economic questions in the Censuses of 1891–1921, were related to livelihood or occupation of means of subsistence of each worker. In actual practice, however, even persons who were not working but were receiving income from land, property etc. were considered as economically active. The concept of income was specifically introduced in 1931 and continued in the year 1941 and 1951 Censuses. Thus in 1931 the population was divided into three classes *viz.*, 'Earner', 'Working Dependent' and 'Non-working Dependent'. An 'Earner' was defined as a person with regular work for which return was obtained in cash or in kind which augmented the family income. A 'Working Dependent' was a person who assisted in the work of the family and contributed to its support without actually earning wages. In 1941, the classifications were 'Wholly Dependent', 'Partly Dependent' and 'Others'. A person who drew no income in cash or in kind was treated as 'Wholly Dependent'. One who contributed in cash or kind towards the subsistence of the households without being definitely capable of supporting himself was classified as 'Partly Dependent'. In 1951, there was a further change and the classification was Self-Supporting Person, Earning Dependent and Non-Earning Dependent. A Self Supporting Person was one who was in receipt of an income and that income was sufficient atleast for his own maintenance. A person who earned income which was not sufficient for his own maintenance was classified as an 'Earning dependent'. In 1961, economic data were collected on the basis of work. The population was divided into two classes, 'Workers' and 'Non-workers'. In the case of regular employment in any trade, profession, service, business or commerce, the criterion of work was satisfied if the person had been employed during any of the 15 days preceding the day on which he was enumerated. In the case of seasonal work like cultivation, livestock, dairying and household industry, if a person had some regular work of more than one hour a day throughout the greater part of the working season, he was to be regarded as worker. Work included not only actual work but effective supervision and direction of work. Persons who were not engaged in any economic activity were treated as non-workers.

At the 1971 Census, however, the main activity of the person was first ascertained according as he spent his time basically as 'Worker' producing goods and services or as a 'Non-worker'. A 'Worker' was defined as a person whose main activity was participation in any economically productive work by his physical or mental activity. Work involved not only the actual work but effective supervision and direction of work. For regular work in industry, trade or services, the reference period was the week prior to the day of enumeration (it was a fortnight in 1961) and, in case of seasonal work such as agriculture, it was the preceding one year. The person was categorised according to his main activity. Where a person was basically a 'Non-worker' such as a student, or housewife, but did make some marginal contribution

to work, that 'Secondary work' was recorded under a separate question.

In the 1981 Census the whole population was divided into three categories *viz.* Main Workers, Marginal Workers and Non-workers. The Main Worker was defined as a person whose main activity was participation in any economically productive work by his physical or mental activities and who has worked for more than 183 days or more. Work involved not only actual work but effective supervision and direction of work. A Marginal Worker was defined as a person whose main activity was participation in any economically productive work by his physical or mental activity for less than 183 days. A Non-worker was defined as a person, who had not done any work at any time. The reference period was the one year preceding the date of enumeration. Certain types of work such as agriculture household industry, like, gur making etc., are carried on either throughout the year or only during certain seasons or part of the year, depending on the local circumstances. In such cases, the broad time span of the agricultural season preceding the date of enumeration was taken in categorising a person as a Main Worker.

The questions alongwith the relevant extracts of the instructions to enumerators on which the economic tables are based on, are given below :—

Question 3 : Male (1)/Female (2)

For male, write '1' and for female, write '2' in the box provided against this question. For eunuchs and hermaphrodities, write '1' in the box. Verify with reference to the name and relationship to head recorded under columns 2 and 3 respectively of the Population Record that you have noted the sex correctly.

Question 4 : Age

Record the age of the person in total years completed last birth-day in the rectagle provided against this question. The age should be recorded in international numerals. Very often, there is a tendency on the part of individuals to return 'years running' rather than 'years completed'. Make sure that only the actual number of years completed is recorded. In respect of infants who might not have completed one year by the day of enumeration, their age incompleted years must be shown as '0' as they have not yet completed one year of age. Make sure that infants even if one day old are invariably enumerated. You should not enter the age in months. The age of an infant who has not yet completed one year should invariably be noted as '0' only.

Question 5 : Marital Status

In answering this question use the following abbreviations :

NM : Never married;

M : Currently married

W : Widowed;

S : Separated or Divorced

The entry is to be made in the manner indicated below.

(a) For a person who has never been married at any time before write 'NM'.

(b) For a person currently married, whether for the first or another time and whose marriage is subsisting at the time of enumeration with the spouse living, write 'M'. Write 'M' also for persons who are recognised by custom or society as married and for the persons in stable *de facto* union. Even if a marriage is disputed in the locality, write 'M' if the person concerned says he or she is married or is in stable *de facto* union.

(c) For a widowed person whose husband or wife is dead, and who has not been married again, write 'W'.

(d) For a person who has been separated from wife or husband and is living apart with no apparent intention of living together again or who has been divorced either by decree

of a law court or by an accepted social or religious custom but who has not re-married, write 'S'.

(e) For an independent woman return her marital status as declared by her.

This question must be answered for all persons irrespective of age. For very young children, though we may know that they are not married, the appropriate abbreviation must be entered.

'M' is the abbreviation for 'currently married'. The word 'currently' does not mean 'recently'. It only means 'at present'. For example, a man may be 80 years old and may have been married 50 years ago, if his wife is still alive and the marriage subsists, they are 'currently married'.

The only conditions for the marital status to be reckoned as 'currently married' are that the man and woman are both alive and that their marriage subsists, *i. e.*, they are not divorced or separated. Please note that we are not concerned with the legality of a union.

The entry as above will have to be made on the line and not in the dotted box.

Question : 11 : Literate (1)/Illiterate (2)

Definition of a literate :—A person who can both read and write with understanding in any language is to be taken as literate. A person who can merely read but cannot write, is not literate. It is not necessary that a person who is literate should have received any formal education or should have passed any minimum educational standard.

For a person who is literate, *i. e.*, who can both read and write with understanding in any language write '1' in the box provided against this question. If there is any doubt about a person's ability to read or write, the test that may be applied for reading is his/her ability to read any portion of the printed matter in the Enumerator's Instruction booklet (provided the person is familiar with the language used in the booklet) and similarly, for writing, he/she should be able to write a simple letter. Ability merely to sign one's name is not adequate to qualify a person as being able to write with understanding If a person claims to be literate in some other language with which the enumerator is not acquainted, the respondent's word has to be taken as correct. Other members of the household may also be able to testify to the literacy of the persons enumerated.

For a person who is illiterate, *i. e.*, who can neither read nor write or can merely read but cannot write in any language, write '2' in the box against this question. All children of the age of 4 years or less should be treated as illiterate even if the child is going to a school and may have picked up read and writing a few odd words.

Question 12 : Educational attainment

This question will be asked of only those who are literate and for whom '1' has been recorded against Question 11. For a person who is illiterate and for whom '2' has been recorded in the answer to Question 11, there is no question of ascertaining the educational attainment even if he/she had at some stage attended school and passed a standard and had relapsed into illiteracy. In such a case, you should put a dash (—). We are insisting that a dash (—) should be put if there is no educational attainment and not a crose (×), because we want to avoid confusion with 10th standard which a cross may signify. You will have to ascertain and record the highest educational level attained by a person for literates, *i. e.* for whom '1' is recorded in answer to Question 11.

For a person who is still studying in a particular class, the highest educational level attained by him/her will be one that he/she has actually passed and not the one in which he/she is studying. For example, a person studying in 1st year B. A. should be recorded as only 'PUC' or 'Higher Secondary', as the case may be. Similarly, for a person studying say, in the 4th year of M. B. B. S., his/her educational attainment should be 3rd year of M. B. B. S., which is the highest level he/she has actually attained. You must record the actual standard passed such as, III standard. VIII standard, 1st year B. Com., etc.

However, if a person merely says that he/she has passed primary, middle, matriculation, school final, secondary or other definite levels, record him/her as such.

The highest educational level attained by the person enumerated should be recorded. When a person holds both general and technical qualifications both of which are of equivalent level or of varying levels such as B. Sc. (Zoology) and M. B. B. S. or B. A. (Maths.) and B. E. (Bachelor of Engineering), both the technical and general qualifications should be recorded against this question. In the case of pass course, indicate the degree only.

In recording the educational level of a graduate or a post-graduate, the major subject such as B. Sc. (Maths), M. A. (Economics), M. Sc. (Botany), B. Sc. (Agriculture) *etc.* should be noted. You should not use abbreviations which are not in common use. In such cases, the degree or diploma should be spelt out fully. For example, M. A. (Hindi) and Diploma in Library Science or M. A. (Soc.) and Diploma in Labour Relations. Adequate space has been provided in the slip and you are urged to record the qualification accurately and in sufficient detail. This information is vital for manpower planning and should receive your careful attention.

ECONOMIC QUESTIONS

In the 1981 Census we intend collecting information regarding the economic activity of the people in great detail so that those who use these data have the type of information they want. The economic questions consist of three parts, namely :—

I Q. 14A Worked any time at all last year ? — Yes / No(H/ST/D/R/B/I/O)

Q. 14B If yes in 14A, did you work for major part of last year ? — Yes (1)/No (2)

II Q. 15A Main activity last year ? — Yes in 14B(C/AL/HHI/OW) / No in 14B(H/ST/D/R/B/I/O)

Q. 15B — 14B Yes-Any other work any time last year? Yes-Yes (C/AL/HHI/OW)/No (C/AL/HHI/OW) / 14B No-Work done any time last year ?

III Q. 16 If No in 14A or 14B seeking/available for week ? **Yes (1)/No (2)**

These questions must be canvassed for every person, irrespective of age or sex. *Every person must be asked Question 14A, including the very young or very old and the answer to this question must be filled in.* The other questions will have to be filled in the case of those to whom they are applicable. The instructions for filling these questions follow.

These questions are meant to get details of the work done by the people with reference to last year. We may, therefore, first consider what is meant by 'work' and what the 'reference period' is.

Definition of work

Work may be defined as participation in any economically productive activity. Such participation may be physical or mental in nature. Work involves not only actual work but also effective supervision and direction of work.

Reference period

In all the questions, the reference period is the one year preceding the date of enumeration. Certain types of work such as agriculture, household industry like, *gur* making, *etc.* are carried on either throughout the year or only during certain seasons or parts of the year, depending on the local circumstances. In such cases what we are concerned with is the broad time-span of the agricultural seasons preceding the enumeration.

Explanation

There should be no confusion regarding these questions. What we are trying to find out is the number of workers and since workers can be full-time workers or seasonal workers or marginal workers, it is necessary to collect data that will give

us the correct picture. This is what Questions 14A and 14B and Questions 15A and 15B seek to do. The detailed explanation and instructions for each of these questions are given separately but it will be useful if we look at these together to understand their purpose better.

Question 14A seeks to find out if a person has done any work at all during the last year or whether he or she did not work at all and if it is the latter, how the person spent his/her time as non-worker. Then Question 14B seeks to find out who among the persons returning 'Yes' in Question 14A had worked for the major part of the year. By major part of the year, it is intended to find out how many had worked for 183 days or more or in other words, worked for 6 months or more. Those who have worked for 183 days or more, will answer 'Yes' for Question 14B. For them code '1' has to be recorded in the box. But those who have worked for less than six months or 183 days will say 'No', and for them code '2' is to be recorded in the box for this question. Question 15A seeks to elicit information on the main activity of the workers in Question 14B, *i.e.*, those for whom '1' has been recorded in the box. It will also elicit information about the main activity of the 'marginal workers' covered in Question 14B, *i.e.*, those who have returned 'No' and for whom '2' has been recorded in the box against Question 14B.

The person may have worked for six months or 183 days or more in more than one activity. For example, he/she may have worked for 3 months in cultivation, one month in *gur* making and 3 months as an agricultural labourer. In Question 15A, he/she is required to indicate which of these three activities according to him/her was his/her main activity, *i.e.*, in which capacity he/she spent more time. In the instant case since the person has spent three months each in cultivation and as agricultural labourer the choice as to which of these two would be his/her main activity should be left to him/her. Those who have returned 'No' for Question 14B, *i.e.*, those who have worked for less than six months or 183 days during the last year and for whom code '2' has been recorded in the box, will have to state whether according to them, they were engaged mainly in household duties, or as student, or dependent or as retired person, rentier, or beggar or inmates of institutions, and if not in any of these categories, the person(s) should be put under 'Others' in Question 15A.

In Question 15B, details of secondary work or marginal work are sought to be obtained. Those who have worked for the major part of the year, *i.e.*, those for whom '1' has been recorded in the box against Question 14B, may have had secondary work and this should be entered in Question 15B. Those who have not worked for the major part of the year and for whom code '2' has been recorded in the box against Question 14B, must have done some marginal work and these details will be entered in Question 15B. It is important that probing questions are asked to elicit correct information in this question.

In Question 16, it is proposed to ask all persons returning 'No' in Question 14A, *i.e.* H/ST/D/R/B/I/O in Question 14A or 'No' in Question 14B, *i.e.*, code '2' in Question 14B, whether he or she has been seeking work or is available for work.

It will thus be seen that these questions on economic aspects have been so designed as to identify all the workers, regular or seasonal, and non-workers with reference to the activities during the last one year prior to the date af enumeration. It is very important to remember that the period referred to in Questions 14A, 14B, 15A and 15B is one year preceding the enumeration. Thus, if in some areas, a person has been a cultivator or an agricultural labourer, or has worked in an industry *etc.*, only in one season, *i.e.*, less than 6 months/183 days, he/she is not to be treated as a worker for Question 14B. His/her economic activity will be reflected in Question 15B. Thus, all those returning 'Yes' in Question 14A must be netted as 'Yes' in Question 14B or in Question 15B or both.

Certain important points that need special emphasis are the following and these should be kept in mind :

(i) A person who normally works but has been absent from work during the reference period on account of illness, holiday, temporary closure, strike, *etc.*, must be treated as engaged in the work he/she would otherwise have been doing but for his/her temporay absence.

(ii) Person under training such as apprentices, with or without stipends or wages, should be treated as workers.

(iii) A person who has merely been offered work but has not actually joined yet, should not be treated as engaged in this work.

(iv) A man or woman who is engaged primarily in household duties such as cooking for own household or performing one's own household duties or a boy or a girl who is primarily a student, even if such a person helps in the family economic activity but not as a full time worker should not be treated as a worker for Question 14B, even though he or she may be recorded as 'Yes' in Question 14A. On the other hand, if a person is primarily engaged in some economic activity for major part of the year but at the same time does also attend to some household chores or attend a night school, *etc.*, he or she would be treated basically as a worker for Question 14B and categorised suitably in Question 15A.

(v) A person who merely receives an income, such as a rent receiver or a pensioner who does not have to work for receiving the income, will not be treated as economically active unless the person is also engaged for some part of the year in some economic activity. Similarly, beggars, pensioners, receivers of agricultural or non-agricultural royalty or of rents or dividends who may be earning an income but who are not participating in any productive work should not be treated as working unless they also work in cultivation, industry, trade, profession, business or commerce.

(vi) An adult woman who is engaged in household duties but doing no other productive work to augment the family's resources should not be considered as working for purpose of this question. If, however, in addition to her household work she engages herself in work, such as rice pounding for sale or wages, or in domestic services for wages for others or minding cattle for wages or selling firewood or making and selling cowdung cakes or grass, *etc* , or any other work like cultivation, *etc,*, she should be treated as working under Question 14A.

(vii) A man or a woman who is doing household duties may be producing or making something *only* for the domestic cunsumption of the household and not for sale. Such a person is not a worker, even though from his or her point of view the activity is productive.

(viii) For an undertrial prisoner enumerated in a jail, he/she should be recorded for the work he/she was doing before he/she was apprehended. Similarly, for a person temporarily in a hospital or similar institution he/she should be recorded for the kind of work he/she was doing before he/she was admitted into hospital or institution. But for a convict in a prison or for long-term inmates of penal or charitable or mental institution, the person's previous work should not be recorded, but 'I' should be recorded. A question arises as to what should be deemed to be long-term. For census purposes, inmates of penal or charitable or mental institutions if detained for 6 months or more should be recorded as 'I'.

(ix) A full-time public or social service worker who is actively engaged in public service activity or a full-time political worker who is also actively engaged in furthering the political activity of his/her party will be recorded as a worker and entered accordingly. Such persons will include members of Parliament, State Legislatures, Local authorities, *etc.*

Each of the economic qnestions can now be considered in detail.

Q. 14A : Worked any time at all last year ?

Yes
No (H/ST/D/R/B/I/O)

This question is intended to divide the population into two broad streams on the basis of work. The reference period is one year. This question is expected to net all workers irrespective of the amount of time they have spent on work. In others words, this question will find out the number of all workers which will include full-time workers, part-time workers, marginal workers and even workers whose contribution would otherwise be considered insignificant.

The reference period is one year and this includes the agricultural seasons also. A person may have worked as a cultivator or as an agricultural labourer throuhout the year or in some season such as only *kharif* or *rabi*, or only for a few days. In all these cases this person has worked at some time in the year and the answer to this question should be 'Yes'. 'Yes' should be written on the line and *not* in the dotted box. One may have been a cultivator, an agricultural labourer, or engaged in a household industry or any other work. The definitions of these terms are given later, but the important point is that we are determining the fact that one has done some work some time during the last one year.

Obviously, probing questions will have to be asked specially in the case of those who are not regular workers. ***It is particularly important to ask such probing questions regarding the work done at any time last year or any of the seasons in ihe reference period in the case of women and children in the rural areas.*** Women and children in the rural areas work in the fields in the sowing, harvesting or other seasons and this may be on their own land or as labourers on someone else's land. This is usually seasonal work only, while they run the house and do all the household work. Unless questions are asked about such work, the usual answer may be that they do only household work.

It must be remembered that a man or a woman who is doing only household duties or making something only for domestic consumption (and *not* for sale) is not doing any work in census terminology. It is true that a housewife may be working harder than the others in the home because she has to cook, look after the children, run the house, *etc.*, but for the purposes of census, she is not a worker.

In this question every worker (even marginal workers) will be identified and in their cases the answer will be 'Yes'. You must enquire regarding each person that you enumerate, whether he or she has worked any time at all during the last year. Even if the person has worked only for a few days, you have to record him/her as 'Yes', against this question.

If the individual has not worked at all during the last year, the answer will be 'No'. Then ascertain how he or she spent his or her time and record 'H' or 'ST' or 'D' or 'R' or 'B' or 'I' or 'O', as the case may be, below the line against this question.

In Question 14A, we are trying to find out whether a person has worked any time or has been a non-worker throughout. If he or she is a non-worker throughout, the category has also to be ascertained which is as follows :

(i) Household duties	—	H
(ii) Students	—	ST
(iii) Dependents	—	D
(iv) Retired persons or rentiers	—	R
(v) Beggars, *etc.*	—	B
(vi) Inmates of institutions	—	I
(vii) Other non-workers	—	O

The symbols which should be used to indicate these categories are also shown above against each category.

The definitions of the seven categories of non-workers are given in the following paragraphs.

Household duties—H

This covers all persons who are engaged in unpaid home duties and who do no other work or have not done any work at all during the last one year. Such persons should be entered as 'H'.

If a person who normally attends to household duties is also engaged in some economic activity, then he or she is a worker for the purposes of Question 14A and not a non-worker. For example, a housewife may help in family cultivation or agricultural or make and sell cowdung cakes at odd times, or prepare *papad, achar, etc.* and sell them. She is a worker and should be recorded as 'Yes' in Question 14A though she is mainly a housewife. On the other hand, a woman may be working in a factory or office or as a labourer or cultivator and may also be attending to household duties. Such a person is of course a worker and will be categorised appropriately in Question 15A later, and she will be recorded as 'Yes' in Question 14A.

It will be necessary for you to ask probing questions, particularly in the case of women, to find out if they have any economic activity, even if it is marginal, apart from household duties. If they have, they would be workers for the purposes of Question 14A, but the fact that they are mainly engaged in household duties will be reflected in Questions 14B and 15A as we will see later.

Students—ST

This will cover all full-time students and children attending school. For student, write 'ST'

If a student participates in some economically productive work, say by helping sometimes as an unpaid family worker in family cultivation, or in household industry, trade or business, such student should be treated as a worker for the purposes of Question 14A *and not as a student.* In such cases, even though such a person is no doubt mainly a student, he or she is a worker for the purposes of Question 14A. The fact that such a person is mainly a student, will be reflected in Questions 14B and 15A, as we shall see later.

Please not that a person has to be full-time student for being classified as 'ST' in Question 14A. For example, a person who is mainly attending to household duties but taking a correspondence course or attending part-time classes will not be classified as 'ST' but would be 'H' in Question 14A.

Please do not presume that a person does not do any work because he is a student. It is very important to ask probing questions from students so as to net marginal workers.

Please note that in most houses, the daughters help in the household work though they are studying full-time. In such cases, we are more interested in finding out if they are students and for this purpose you must ask if such girls are students or not. If they are, they should be recorded as 'ST' and *not* as 'H'.

Dependents—D

This category includes all dependents such as infants or children *not* attending school or a person permanently disabled from work because of illness or old age.

Dependents will include even able-bodied persons who cannot be categorised in any other category of non-worker but are dependent on others. However, if such a person who is dependent on others for subsistence is seeking work, he or she should be categorised as 'O'.

If a girl or an old woman attends to household duties she should be categorised as 'H' rather than 'D'. As you are aware, many persons may be dependents in the general sense of the word but are also doing household work, studying or looking for work. In such cases, they should be entered as 'H', 'ST' or 'O' as the case may be, and *not* as 'D'. It is, therefore, necessary for you to ask whether a person who is said to be a dependent is studying or looking for work, *etc.*, and if so, categorise him or her accordingly rather than as 'D'. Such persons would particularly include unemployed daughters, sisters, brothers, *etc.*

Retired persons or Rentiers—R

A person who has retired from service and is doing no other work, *i. e*, not employed again in some full-time work or not engaged in some other work such as cultivation, business, trade, *etc.* or a person who is a rentier or living on agricultural or non-agricultural royalty, rent or dividend, or any other person ofindependent means for securing which he/she does not have to work, will come under this category. 'R' should be noted for a person coming under this category in the space provided.

However, in such cases also a careful probe is necessary. A retired person may be drawing pension and be doing some work, as for example, a retired engineer may be working as a contractor. In such cases, he/she is a worker and should be entered as such.

Beggars, etc.—B

This will cover beggars, vagrants or cases such as persons without indication of source of income and those with unspecified sources of subsistence who are not engaged in any economically productive work.

For such persons, 'B' should be written in the space provided.

Inmates of institution—I

This will cover convicts in jails or inmates of a penal, mental or charitable institution, even if such persons are compelled to do some work such as carpentry, carpet weaving, vegetable growing, *etc.*, in such institutions. But an undertrial prisoner enumerated in a jail should be recorded for the work he/she was doing before he/she was apprehended. Similarly, a person temporarily in a hospital or similar institution should be recorded for the kind of work he/she was doing before he/ she was admitted into the hospital or institution. But for a long-term inmates undertrial prisoner or convict in a prison or for long-term inmates of penal or charitable or mental institutions, the person's previous work should *not* be recorded, but 'I' should be recorded. A person will be considered as "long-term" if he or she is in such an institution for 6 months or more.

Other non-workers—O

This will include all non-workers who may not come under any of the above *six categories* but who are looking for work. They should be noted as 'O' in the space provided. A boy or girl who has completed education or has stopped studying and is looking for work will come under this category. A person who is merely spending his/her time at home as a dependent and is not doing any work and is not seeking any work will come under 'D' rather than 'O'. A person irrespective of age and whether educated or not, if he or she reports that he or she is not engaged in any other activity *but is seeking work* will come under this category.

It must be noted that this category includes only those who do not fall into any of the other categories of non-workers discussed earlier. There may be cases of students who may be seeking work and quite prepared to give up studies if they got a job. Such persons are students (ST) for Question 14A. The fact that they are seeking jobs will be reflected in Question 16. Thus, category 'O' need not necessarily represent all those who are seeking work.

Q. 14B : If yes in 14A, did you work for major part of last year ? Yes (I)/No (2)

As mentioned earlier, through Question 14A you have classified all people into two broad streams of workers and non-workers. In doing so, workers would include all those who have worked irrespective of the quantum of their contribution to the economy. Even marginal workers are categorised as workers in Question 14A.

Having found out that the person had worked any time at all during the last year (Yes in 14A), you have now to ascertain whether the person worked for the major part of last year. By major part of last year, is meant that the person had worked for 183 days or more, or in other words worked for six months or more. If the answer to this question is

in the affirmative you should record '1' in the box against Question 14B. If the person has worked for less than six months or 183 days during the last year, you should record '2' for that person in this question.

A person may have worked in different capacities during last year. For example, he/she may have worked as a daily wage labourer for 4 months, as an agricultural labourer for 1 month and as a cultivator for 2 months. There could even be breaks in between the different types of work performed by him/her. In computing whether the person worked for major part of the year, you should reckon all the three spells of economic activity and if it satisfies the concept of work for major part of the year, treat him/her as 'Yes' for Question 14B and record '1' in the box. Similarly if the total period of work falls short of six months or 183 days, treat him/her as 'No' and record '2' in the box for that person.

Q. 15A : Main activity last year ?

Yes in 14B (C/AL/HHI/OW)
No in 14B (H/ST/D/R/B/I/O)

In Question 14B you would have ascertained whether a person had worked for major part of the year or not. Now in Question 15A, you will be required to ascertain his or her main activity during last year. That is to say how he or she engaged himself or herself mostly. Main activity of a person who was engaged in more than one activity will be reckoned in terms of time disposition. For example, if a person has worked as a daily wage labourer for 4 months, as an agricultural labourer for 1 month and as cultivator for 2 months and for him/her, you have recorded '1' in the box against Question 14B, then that person will be reckoned as daily wage labourer for Question 15A and you will record 'OW' on the line (and *not* in the box), since he/she spent more time in this activity than as a cultivator or agricultural labourer. Similarly, for a person for whom you have recorded '2' in the box in Question 14B, you should ascertain how he or she spent his/her time mostly as a non-worker and record the appropriate symbol below the line in the space provided and *not* in the box.

The main activity of workers is classified into four categories, *viz.*, cultivator, agricultural labourer, household industry, and other work. These terms are explained below.

Cultivator

For purposes of the census a person is working as Cultivator if he or she is engaged either as employer, single worker or family worker in cultivation of land owned or held from Government or held from private persons or institutions for payment in money, kind or share. Cultivation includes supervision or direction of cultivation.

A person who has given out his/her land to another person or persons for cultivation for money, kind or share of crop and who does not even supervise or direct cultivation of land, will not be treated as cultivator. Similarly, a person working in another person's land for wages in cash or kind or a combination of both (agricultural labourer) will not be treated as cultivator in this question.

Cultivation involves ploughing, sowing and harvesting and production of cereals and millet crops such as wheat, paddy, jowar, bajra, ragi, *etc.*, and other crops such as sugarcane, ground-nuts, tapioca, *etc.*, and pulses, raw jute and kindred fibre crop, cotton, *etc.*, and *does not* include fruit growing, vegetable growing or keeping orchards or groves or working of plantations like tea, coffee, rubber, cinchona and other medicinal plantations. For a person who is a cultivator, write 'C' in the space provided.

Agricultural labourer

A person who works in another person's land for wages in money, kind or share should be regarded as an agricultural labourer. He or she has no risk in the cultivation but he/she merely works in another person's land for wages. An agricultural labourer has no right of lease or contract on land on which he/she works.

For a person who returns his/her economic activity as agricultural labourer, write 'AL' in the space provided.

Important

For certain reasons, the growing of certain crops is not considered as agriculture. If a person is engaged in the growing of such crops he or she will *not* be considered as a cultivator or agricultural labourer.

You must remember that a person can be classified as a cultivator or as an agricultural labourer *only on the basis of the crops grown.* The growing of the following crops is considered as cultivation. Therefore, a person who grows these crops or who works on land on which these crops are grown can be classified either as a cultivator or an agricultural labourer as the case may be :

(i) **Cereal and millet crops** : Paddy, wheat, jowar, bajra, maize, ragi, barley, gram *etc.*

(ii) **Pulses** : Arhar, moong, masur, urd, khesari *etc.*

(iii) **Fibre crops** : Raw cotton, jute, mesta, sunhemp and kindred fibre crops.

(iv) **Oil seeds** : Sesamum, ground-nut, rape, mustard, linseed, castor *etc.*

(v) **Cash crops** : Sugarcane.

The growing of the following crops *will not be considered as cultivation* :

(i) **Plantation crops** : Tea, coffee, rubber, tobacco, pepper, cardamom, *etc.*

(ii) **Edible nuts (other than ground-nut)** : Walnut, almond, cashewnut, *etc.*

(iii) **Fruits** : Bananas, apples, grapes, mangoes, oranges, *etc.*

(iv) Coconut.

(v) Ganja, cinchona, opium and medicinal plants.

(vi) Betal-nuts (areca).

(vii) Flowers.

(viii) Roots and tubers, chillies and spices (other than pepper and cardamom).

(ix) Vegetables.

(x) Other crops not specifically included under cultivation.

Please remember that you must use the abbreviations given in the instructions, namely, 'C' or 'AL'. It will be evident that you will have to ask a specific question regarding the crops grown in all cases where one merely says he/she is a cultivator or an agricultural labourer.

Household Industry

For a person who returns his/her main activity as engaged in some production, processing, servicing or repair of articles or goods such as handloom weaving, dyeing, carpentry, *bidi* rolling, pottery manufacture, bicycle repairing, blacksmithy, tailoring, *etc.*, it has to be ascertained if it is a household industry, and if so, it should be indicated by the abbreviation 'HHI' in the space provided.

Household Industry is defined as an industry conducted by the head of the household himself/herself and or by the members of the household at home or within the village in rural areas and only within the precincts of the house where the household lives in urban areas. The larger proportion of workers in a household industry should consist of members of the household including the head. The industry should not be run on the scale of a registered factory which would qualify or has to be registered under the Indian Factories Act.

There may be an industry which is being run by a large joint family of more than 10 persons and where power is used or more than 20 persons where power is not used. In such cases, though only family members are involved, this will not be treated as 'HHI'. Thus, the meaning of the term 'run on the scale of a registered factory' refers to such cases even if these are not registered as such.

The main criterion of a Household Industry is the participation of one or more members of a household. This criterion will apply in urban areas too. Even if the industry is not actually located at home

in rural areas there is greater possibility of the members of the household participating even if it is located anywhere within the village limits. In the urban areas where organised industry takes greater prominence, the Household Industry should be confined to the precincts of the house where the participants live. In urban areas even if the members of the household by themselves run an industry but at a place away from the precincts of their home, it will not be considered a Household Industry. It should be located within the precincts of the house where the members live in the case of urban areas.

A Household Industry should relate to production, processing, servicing, repairing or making and selling (but not merely selling) of goods. It does not include professions such as a Pleader or Doctor or Barber, Musician, Dancer, Waterman, *Dhobi*, Astrologer, *etc.*, or merely trade or business, even if such professions, trade or services are run at home by members of the household.

Sometimes it is likely that the person who may not be working in his/her own Household Industry may be working in another Household Industry. You should, therefore, enquire whether the person who is not working in his/her own Household Industry is working in any other Household Industry and record as per instructions given above.

As mentioned earlier, a Household Industry should relate to production, processing, servicing, repairing, or making and selling of goods. However, a household can be engaged in certain other activities collectively but these may not qualify for being considered as Household Industries.

Certain activities even though conducted by members of the same household will not constitute a Household Industry. These are indicated below and therefore the members of the family working in such industries will be classified as 'OW' and *not* 'HHI'.

(i) Plantation work.

(ii) Livestock maintenance and production such as cattle, goats, sheep breeding, poultry farms, bee-keeping, rearing of silk worm and production of cocoons and *raw silk*, production of milk, eggs, honey, wax, bones, *etc.*

(iii) Hunting, trapping and selling of the catch.

(iv) Forestry and logging : log, fuel, charcoal production, gathering and selling of fodder and other forest produce, *etc.*

(v) Fishing including rearing of fish, collection of pearls, shells, sea products, *etc.*

(vi) Mining and quarrying.

In our country Household Industry is a very important part of our economy. We must get accurate data regarding those engaged in 'HHI'. You must carefully read these instructions and understand them. The main points are again indicated below.

'HHI' stands for worker in Household Industry. The main characteristics of the Household Industry are the following :

(a) One or more members of the household must participate. Participation by hired labour must be minimum.

(b) The activity should relate to some production, processing, servicing, repairing or making and selling of goods.

(c) The goods produced should not be for consumption by the household itself but should be wholly or partly for sale.

(d) In an urban area the industry must be carried on *in the precincts of the house in which the household lives.* In the rural areas, the industry may be anywhere within the limits of the village.

(e) The activity should not be on the scale of a Registered Factory.

(f) Professions such as those practised by Pleader, Doctor, Barber, Musician, Dancer, *Dhobi*, Astrologer, *etc.*, will not be 'HHI'.

Other workers

All workers, *i.e.*, those who have been engaged in some economic activity during the last one year, who are not cultivators or agricultural labourers or in Household Industry, are 'Other Workers'—'OW'. The type of workers that come under this category of 'OW' include factory workers, plantation workers, those in trade, commerce, business, transport, mining, construction, political or social work, all government servants, municipal employees, teachers, priests, entertainment artists, *etc.* In effect, all those who work in any field of economic activity other than cultivator, agricultural labourer or household industry, are 'Other Workers'. They will be entered as 'OW'.

You will recall that it was mentioned that the growing of certain crops is not agriculture. Those engaged in this activity would have to be classified as 'OW'.

Q. 15A—Further explanation

In Question 15A we are trying to find out what a person's main activity is. You will see that if a person is recorded as a worker in Question 14A but has not worked for the major part of the year, the answer in Question 14B would be 'No', *i.e.*, for him/her you would have recorded '2' in the box against Question 14B. In such a case, you must find out what such a person has been doing mostly. He or she may have mainly been doing household duties, or studying, or being a dependent or rentier or beggar or lodged in an institution or may fall under the category 'O' described earlier. In any case, even for these persons, we are interested in finding out their work details, though this may not be what they were mostly doing. The work details will be obtained through Question 15B, as we will see later where the marginal or secondary work of a person is netted.

Question 15A gives information about all workers on the basis of what they have been doing mostly.

If in reply to Question 14A a person has said that he/she has worked any time at all in the last one year (or season) you would have entered him or her as 'Yes' against Question 14A. What you have now to do is to find out if this is what this person did or does mostly, *i.e.*, whether it is his or her main work, on which the greater part of his/her time is spent. You do this in Question 14B, where you ascertain whether the person has worked for major part of the year, *i.e.*, for six months or 183 days or more or less than six months or 183 days. In the latter case you have recorded code '2' in the box against Question 14B. At this stage you may recall the instructions given under Question 15A where it has been stated that the person may have been engaged in more than one activity and for the purposes of Question 15A, his/her main activity has been identified. In such a case his/her secondary work will be reflected in Question 15B, as we will see later. Similarly, such persons who are identified as non-workers for their main activity in Question 15A as H/ST/D/R/B/I/O will give details of their marginal work (on the basis of which they were recorded as 'Yes' in Question 14A) will be reflected in Question 15B.

What is meant by main activity or the work that a person has been doing mostly can be easily understood from the following examples :

(a) A person is a cultivator (C) but during the non-agricultural season works as a construction worker or as a *hamali* (OW). He/she is a cultivator mainly and next 'other worker'. He/she should be recorded as 'C' in Question 15A and 'OW' in Question 15B.

(b) A housewife (H), is generally engaged in running her household but works on the family land during the sowing or harvesting season (C). She is mainly engaged in household duties and should be recorded as 'H' for Question 15A and as 'C' for Question 15B. In this example, if she works as an agricultural labourer or in a Household Industry, she would be 'AL' or 'HHI', as the case may be, for Question 15B.

(c) A person may be mainly an agricultural labourer (AL) but may have worked in a Khandsari sugar factory during the lean season (OW). He would be 'AL' for Question 15A and 'OW' for Question 15B.

(d) A student (ST) may be working for a few hours in a shop to earn some money for fees, *etc.* (OW). He/She is mainly 'ST' for Question 15A and 'OW' for Question 15B.

(e) A person who is mainly a cultivator (C) also keeps cows and sells the milk. He/she would be entered as 'C' in Question 15A and 'OW' in Question 15B.

These examples will help you to understand the concepts better.

In the case of those who are mainly engaged in Household Industry (HHI) or as other workers (OW), certain details should be collected regarding name of establishment, description of work, nature of industry, trade, profession or service, and class of worker. These details will have to be filled in Question 15A (i) to 15A (iv).

As you will see from the question itself, these parts are applicable to persons for whom you have recorded 'HHI' or 'OW' against Question 15A. If the economic activity has been shown as 'C' or 'AL' against Question 15A, there is no need to fill in the sub-sections (i) to (iv) of this question. Similarly, if an individual has been recorded as 'No' against Question 14B, *i.e.*, code '2' has been recorded in the box against Question 14B and H/ST/D/R/B/I/O, as the case may be, has been recorded in Question 15A, sub-sections (i) to (iv) will not apply. In such cases a cross (×) may be put on each of the lines against these sub-sections.

Q. 15A (i) : Name of establishment

Record here the name of the factory, firm, workshop, business house, company, shop, office, *etc.* In respect of public offices you should clearly indicate whether they are Central or State Government or local body offices, *etc.* If the establishment does not have any definite name such as, in the case of a household industry, like hand pounding of rice, *gur* making, handloom weaving, potter's house, blacksmithy *etc.*, enter the proprietor's name and the type of shop so that if necessary a link can be established between the various sub-sections of this question. For example, instead of 'No particular name' the entry could read as 'Babulal's Paint shop', *etc.* For defence and other similar personnel as may be indicated to you, put a cross (×) on the line.

Q. 15A (ii) : Description of work

Under this question, the description of the actual work, *i.e.*, the occupation that the person enumerated is doing is to be recorded irrespective of the type of industry, trade, profession or service that he/she may be working in and which is to be recorded under sub-section (iii) of Question 15A.

His/her actual work or occupation should always be given in sufficient detail. If, for example, a person is merely recorded as 'clerk' with no other details, it will be impossible to properly categorise him/her by the type of work he/she does. He/she may be a clerk attending to correspondence or book-keeping or accounting. Similarly, if a person were merely to be recorded as a technician, it will not help to determine what type of technician/mechanic he/she is, whether computer-technician or a meter-mechanic or a locomotive-mechanic, *etc.* The description of the actual work done by a person should be ascertained in adequate detail and recorded against this question. Similarly, in a trading establishment there could be a proprietor, cashier, book-keeper, salesman, *etc.*

It is necessary to describe the actul occupation adequately. It is not enough to say that one is a Government official. Whether one is a Bill-clerk or Section Officer, Tehsildar, Police Chowkidar or Research Officer, *etc.*, has to be spelt out. There may be Assistant Directors, Deputy Directors, *etc.*, doing different functions. It is necessary to describe the occupation adequately in their case for proper

classification, *e.g.*, Assistant Director (Agriculture), Assistant Director (Soil Conservation), Senior Research Officer (Vital Statistics), Deputy Director (Health), Sub-Inspector (Excise), Treasury Officer, Village Officer (Revenue), Panchayat Secretay, Malaria Control Officer, Traffic Inspector (Transport Department), *etc.*

It has been found in the past that a very large number of persons are recorded merely as 'general labourers'. It is necessary to make a probe and find out in which type of work the person is mostly engaged as a labourer, such as a road mazdoor, a loader or an unloader in a market, a construction labourer, *etc.*

For those in defence and similar service, it is enough if it is merely noted as 'Service'. Other details need not be given. For other Government servants full details must be given and the description of the work should be as detailed as possible.

Q. 15A (iii) : Nature of industry, trade or service

The answer to this question will have to be given in detail to enable proper classification of the sector of economy in which the person is working. The sector of economy in which a person works may relate to (i) Plantation, Forestry, Fishing, Livestock, *etc.*, (ii) Mining and/or Quarrying, (iii) Manufacturing, Processing, Servicing and Repairing (iv) Construction, (v) Electricity, Gas or Water Supply, (vi) Transport and Communications, (vii) Trade and Commerce, (viii) Professions and Services. In order to enable us to classify a person properly, full details of the nature of the industry, trade, profession or service should be given. Please avoid vague answers. Full details of the type of industry, trade, profession or service in which the person is engaged will have to be recorded here. It is not enough to say 'plantation' or 'livestock'. You should say whether it is tea plantation or banana plantation or sheep rearing or cattle breeding. Similarly, it is not enough to say 'manufacturing'. You should say whether it is manufacturing of cotton textile in handloom or manufacturing *khadi* textile or manufacturing silk textile. Likewise mere 'trade' is not enough. It should be recorded as wholesale trading in food grains or pulses or retail trading in spices or grocery and so on. For defence and similar personnel, write 'Service'.

You must describe the nature of industry, profession, trade or service or whatever it is, in as detailed a manner as possible. In the case of Industries, the articles which are produced or serviced or processed should be given. In the case of service, please describe fully the nature of the service to which the person belongs, except in the case of defence or similar other personnel.

Important

There need be no confusion as to the scope of Questions 15A (ii) and 15A (iii). Question 15A (iii) would represent the nature of industry, trade, profession or service, *i. e.* the sector of economy in which a person is engaged in work and Question 15A (ii) represents the occupation or the actual work the person performs in the industry, trade, profession or service in which he/she is engaged. Thus, for example, if the answer to Question 15A (iii) is 'cotton textile manufacture in mill, the answer to Question 15A (ii) could be 'chemical engineer' or 'bill clerk' or 'accountant' or 'labourer' or 'truck driver' or the 'managing director' of that industry and so on. Similarly, in Question 15A (iii) the nature of service may be some department of State Government Service and in Question 15A (ii) the description of work may be 'bill clerk' or 'accountant', 'director of the department' 'jeep driver' in the department, *etc.* Again, against Question 15A (iii) the answer may be 'private medical practice' and in Question 15A (ii) 'orthopaedic surgeon', or 'nurse' or a 'sweeper', *etc.*, working in that private medical practitioner's nursing home.

Q. 15A (iv) : Class of worker

For a person who is :

(i) an Employer, that is, who hires one or more persons in his work described in Question 15A (ii), write..... ..... ER

(ii) an Employee, that is, who does his work described in Question 15A (ii) under 'Others' for wages or salary in cash or kind, write.....EE

(iii) a Single Worker, that is, who is doing his work described in Question 15A (ii) without employing others except casually, and without the help of other members of the family except casually and a participant in work as member of cooperative, write.....SW

(iv) a Family Worker, that is, who is doing his work described in Question 15A (ii) in a family enterprise along with other members of the family without wages or salary in cash or kind, write.....FW.

Explanation

An Employer is a person who has to employ other persons in order to get the work mentioned in his/her case in Question 15A (ii) performed. That is to say, such a person is not only responsible for his/her own personal work but also for giving work to others for carrying out the activity mentioned in Question 15A (iii). Please note that a person who employs domestic servants for household duties is not an employer. So also, a person who has subordinates under him/her in an office where he/she himself/herself is employed by others, in not an employer, even if he/she has the power to appoint another person in his/her office on behalf of his/her own employer. A head of department or a local manager of a company may have the power to appoint people, but they are themselves employees of someone else, in this case, government or the main office of the company, and cannot, therefore, be an employer. A government servant irrespective of the post he/she holds is an 'employee'.

An Employee is a person who usually works under some other person for salary or wages in cash or kind. There may be persons who are employed as managers, superintendents, agents, *etc.*, and in that capacity employ or control other workers on behalf of their own employers. Such persons are only employees, as explained above, and should not be regarded as employers. Please note that a cook or domestic servant engaged by someone is an employee. The fact that his master may himself/herself be an employee is irrelevant.

A Single Worker is a person who works by himself/herself. He/She is not employed by any one else and in his/her turn does not employ anybody else. This definition of a Single Worker will include a person who works in joint partnership with one or several persons hiring no employees, and also a member of a producer's cooperative. Each one of the partners or members of such producers' cooperatives should be recorded as 'Single Worker'. Political workers and social workers are to be treated as 'SW'.

A Family Worker is a member who works without receiving wages in cash or kind, in an industry, business, trade or service. For example, the working members in a family of *dhobies* where they all participate and each does not receive wages separately, will be family workers. There may be family workers in industry, trade or professios as well. Family workers must be related by ties of blood or marriage but such workers can belong to different households. Thus, what is important is that such workers must necessarily be related even though they may be living in different households. The family workers may or may not be entitled to a share of the profits in the work or the business carried on either by the person or head of the household or other relative.

Please note the following important cases :

(a) In the case of persons engaged in Household Industry, *i.e.*, in the case of persons for whom the answer to Question 15A is 'HHI', there will be three classes of workers generally, *viz.*, Family Worker, Single Worker and Employee. There may not be a formal 'Employer'. Household Industry by its very definition is conducted by the head of the household himself/herself and/or other members of the

household, the role of hired workers being secondary. If the head along with the members of the household is working in a Household Industry employing hired workers, the head and other members who are working should be treated as 'Family Workers'. If the head alone is working with the occasional assistance of hired worker(s), whose role should be secondary as indicated above, he/she should be treated as a 'Single Worker', although one might argue that in effect he/she becomes an employer. The hired workers are of course employees.

(b) Members of the household who help solely in household duties, *i.e.*, economically non-productive work, should not be treated as Family Workers. In fact, they are not workers.

(c) Members of a producer's cooperative society who have no other occupation or work except this, should be categorised as Single Worker—SW.

(d) In the case of partnership in which all the partners are related, treat them as Family Workers–FW. The partnership firm may or may not employ others, but this will not change the category of the partners. They would be 'FW'.

(e) In the case of a partnership firm in which some of the partners are not related, treat all the partners, including those that may be related, as Single Worker—SW. The firm may or may not employ others, but this will not change the category of the partners. They will all be 'SW'.

(f) Full-time political workers and social workers should be treated as 'SW'.

(g) Doctors and lawyers who do not employ any person should be treated as 'SW'. One may come across doctors and lawyers employing certain persons on a regular basis in the doctor's dispensary or clinic or in the lawyer's office or chamber. In this case the doctor or lawyer would become an 'Employer' and so 'ER' should be recorded. However, sometimes lawyers have been found to take the help of clerks who remain attached to them on a regular basis but without being formally employed on wages. The clerk usually earns his remuneration independently from the lawyer's clients. In such a case, both the lawyer and the clerk should be treated as Single Workers—SW.

Q. 15B **14B Yes–Any other work any time last year ?**
14B No–Work done any time last year ?
Yes/(C/AL/HHI/OW)/No
(C/AL/HHI/OW)

You will recall that in Question 14A you have identified all those who have done any work at all in the last one year. In Question 14B, you must have categorised them either 'Yes', *i.e.*, code '1' or 'No', *i.e.*, code '2'. In Question 15A you have divided these persons on the basis of what they have been mostly doing. It is quite possible that those who have been categorised as 'C' or 'AL' or 'HHI' or 'OW' in Question 15A, based on the type of work they have been doing mostly, may have done some other work in addition to what they have been doing mostly. Similarly, a person who is mostly doing household duties, or is mainly a student, or mainly a dependent or a rentier or a beggar or belongs to the categories of 'I' and 'O' must have done some work at some time during the last one year. This is the information we are trying to get in Question 15B.

Please note the way in which Question 15B has been worded. This question deals with two separate situations. The first relates to those persons who have worked for the major part of last year and may or may not have some other secondary work. The second part relates to persons who have worked at any time in the last year but not for the major part

of the year. In the case of those who have worked in the major part of last year, you would have entered code '1' in Question 14B and you would have categorised them as 'C' or 'AL' or 'HHI' or 'OW' in Question 15A. Such persons may or may not have had secondary work in addition to their main work. If, on inquiry, you find that such a person has had any other work any time last year, you would have to enter on the line, 'C' or 'AL' or 'HHI' or 'OW', depending upon the type of work and score out the answer 'No' printed on the line.

If a person who has worked any time last year, but has not worked for the major part of the last year, you would have recorded code '2' in Question 14B and in Question 15A you would have categorised such a person as 'H' or 'ST' or 'D' or 'R' or ,B' or 'I' or 'O'. Such a person must have done some work any time last year and this is the work which we are trying to catch in Question 15B so far as such a person is concerned. For such a person after inquiry, you will have to enter the appropriate category, *viz*, 'C' or 'AL' or 'HHI' or 'OW' below the line in Question 15B.

This question is meant to elicit information on the secondary or marginal work which a person might have done any time at all during the last one year, apart from the main work or other activity which will have come out in Question 15A. It is obvious that, irrespective of whether the answer is 'Yes' or 'No', *i.e.*, code 'I' or '2' in Question 14B, there could be an answer in Question 15B because a full-time worker may have done some other work or a person who is essentially a non-worker, though he/she has not done any work over the major part of the last year, might also have done some work occasionally. This, therefore, should give us details of secondary and marginal work in respect of both workers and those who are mainly non-workers.

This question should be asked of every person who has returned 'Yes' against Question 14A. *It is re-emphasised that all those who have answered 'Yes' against Question 14A and for whom you have recorded 'Yes' or 'No', i.e., code 'I' or '2' in Question 14B, this Question 15B should be asked without fail.* In answer to this question if the individual says 'Yes' then you should find out the type of work and categorise him or her as 'C' or 'AL' or 'HHI' or 'OW' as the case may be. These abbreviations refer to Cultivators, Agricultural Labourers, Household Industry, and Other Workers and have been fully explained earlier in the instructions under Question 15A. You may refer to these again before recording the appropriate category on the line. It is sufficient if you write the category on the line. If the respondent gives reply in the negative it should be indicated by the word 'No' on the line. Please do not make any entry in the dotted box.

Ask of each person if, besides what he/she had already returned as his/her main activity against Question 15A, he/she participated in any other work or did any work any time last year. A number of unpaid family workers participating in household enterprises who might have returned themselves mainly as 'H' or 'ST' or 'R' under Question 15A will be netted here for their involvement in such economic activity. Mere rendering of service for one's own home or production of goods for purely domestic consumption are not to be treated as economic activity. For example, a servant who works as a cook in his or her employer's home for wages will be considered economically active but, a housewife even if she may work much more than a paid servant in having to cook for the family or looking after the household will not be treated as economically active for the purposes of this classification. Similarly, women who may produce cloth on a loom at home for domestic consumption will not be treated as economically active unless at least a part of the product is sold. A boy who is categoriesd as a student under Question 15A, can have a marginal work, say, cultivation if he helped the head of the household in the family cultivation during some parts of the season. But if a girl student, who is shown as 'ST' under Question 15A also helped in weaving cloth purely for domestic consumption on a loom at home, or helped in attending to household chores, she will not be treated as having any marginal work.

Any other work or secondary work will be reckoned only if the person is engaged in some economically productive work, even if marginal, in addition to whatever is his/her activity under Question 15A. If a person whose economic activity is shown, as a clerk in a government office or a teacher, also attends to some cultivation even by way of direction or supervision or undertakes some tuition, this will be shown as 'any other work any time last year' under Question 15B. A person's main activity may be cultivation and his secondary work may be money lending. Again, main activity may be agricultural labourer and secondary work could be sugar factory labourer or *vice versa*.

After it is established that the person is doing some work and he or she has been recorded accordingly in Question 15B in any of the categories of C, AL, HHI, OW you have to proceed further and fill up the details of sub-sections of Question 15B (i) to (iv) in respect of entries 'HHI' or 'OW' only. The instructions for filling up the details in these sub-sections will be the same as given under Question 15A. For those who are recorded as 'C' or 'AL' or for whom you have entered 'No' in Question 15B, you have to put a '×' against these sub-sections on the line.

Important

It must particularly be noted that if there is an entry 'No', *i.e.*, code '2' in Question 14B and H/ST/D//R/B/I/O, as the case may be, in Question 15A, there must be an entry in Question 15B and this *cannot be blank or cross* (×). This is because a person who has worked any time at all last year, and has been entered as 'Yes' in Question 14A, must be reflected somewhere. Since the person has not worked in major part of the year as reflected by code '2' in Question 14B and also H/ST/D/R/B/I/O, as the case may be, in Question 15A, the work done by him/her and netted in Question 14A, must, therefore, be reflected in Question 15B. Again, a person who has worked in major part of the year and for whom code '1' has been recorded in Question 14B, you may have recorded as 'C', or 'AL' or 'HHI' or 'OW' for his main activity in Question 15A. It is quite possible that he/she may have done some other work,, though not on the scale of main activity. This secondary work should also be reflected in Question 15B. You will thus appreciate that probing questions are essential and you must ask questions again and again to find out if a person has had some secondary work and marginal work in the case of those for whom code '2' has been recorded in the box against Question 14B and record the same in Queston 15B.

It would follow that if the answer to Question 14A is 'No', *i.e.* you have recorded H/ST/D/R/B/I/O, as the case may be, there will be a cross (×) on the lines against each of the Questions 14B, 15A including subsections and 15B including sub-sections.

The industrial categories adopted in the 1981 consus are as follows :—

(i) Cultivators

(ii) Agricultural Labourers

(iii) Livestock, Forestry, Fishing, Hunting and plantations, orchards and allied activities

(iv) Mining and Quarrying

(v) Manufacturing, Processing, Servicing and Repairs (a) Household Industry (b) Other than Household Industry

(vi) Constructions

(vii) Trade and Commerce

(viii) Transport, Storage and Communications

(ix) Other Services.

Each table presented in this volume is preceded by a note which explains in brief the broad features of the table and the mode of presentation of data in the table. Tables presented in this volume are based on full count of the Universal Individual Slips. Tables B-9 and B-10 are not being published in this volume.

The processing of the 1981 Census data consisted of two stages-first, hundred percent manual

tabulation for the Primary Census Abstract and later, on the computer. The present tables processed on the computer were adjusted so as to conform to the earlier P.C.A. figures by applying suitable correction factors. The marginal totals may, therefore, not tally in all the cases due to rounding off.

A perusal of the tables will indicate some apparent inconsistencies at some of the places. These may relate to the existence of figures under a particular occupation in specific industries which should not be there. Or these relate to existence of family workers and single workers in Industrial Groups where these should not be found or existence of employers in very young ages, etc. etc. These are minor inconsistencies, which cannot be totally avoided in a mass operation like population Census.

TABLE B-1 : MAIN WORKERS, MARGINAL WORKERS AND NON-WORKERS CLASSIFIED BY AGE & SEX

NOTE

This is the basic economic table indicating the economic activity of the population. A new category called 'marginal workers' has been introduced this time. Another important feature is that the age group 30-39 years has been bifurcated into two age-groups so that the utility of the data is considerably enhanced. The table gives the distribution of the entire population into main workers, marginal workers and non-workers. Data are presented separately for total, rural and urban areas by sex and broad age-groups for the State and district. The following age-groups have been adopted :-

0-14, 15-19, 20-24, 25-29, 30-34, 35-39, 40-49, 50-59 and 60+.

The age not stated figures may be derived by deducting the figures of all groups from total.

The table has one part *viz.* B-1 Part A. While Table B-1 presents figures for rural and urban areas separately, Table B-1 Part A gives the same information for urban areas separately for cities including Urban Agglomerations and for non-city urban areas of districts.

The economic questions asked by the enumerator which formed the basis of this table have been reproduced in the general note. Data presented in this table are based on full count.

TABLE B-3 : MAIN WORKERS CLASSIFIED BY INDUSTRIAL CATEGORY, AGE AND SEX

NOTE

This is one of the basic economic table and is similar to Table B-1 Part A of the 1971 census with a difference that a new broad age-group has been introduced this time. The table gives the distribution of 'Main Workers' into nine broad industrial categories. Data are presented separately for total, rural and urban areas by sex and broad age-groups for State and each District. The age-groups are similar to that of Table B-1 presented in this volume. This table is based on full count.

The economic questions asked by the enumerator and instructions to enumerators for filling the same are given in the general note.

TABLE B–4 : MAIN WORKERS CLASSIFIED BY INDUSTRIAL CATEGORY, EDUCATIONAL LEVEL AND SEX

NOTE

This table is divided into two parts *viz.* Part-A and Part-B. These two parts give the distribution of population cross-classified by each category of main workers by literacy and educational levels in both urban and rural areas for the State and each District. Data presented in these two parts are based on full count. These two parts are the same as Table B-III Parts A & B of 1971 census except some differences in educational levels. In the 1971 census the 'matriculation or higher secondary' had been combined in one, whereas in the 1981 census this educational level has been bifurcated into 'matriculation/secondary' and 'higher secondary/ intermediate/pre-university. Similarly in 1981, in urban areas veterinary has been taken out of 'agriculture, veterinary and dairying' of 1971 census. It may also be noted that Post-graduate degree and technical degree have been merged in rural areas and shown as 'graduate and above'.

This table is based on the tabulated answers to questions 3, 11, 12 and 15A of the Individual Slip (Universal). These questions alongwith the instructions have been given in the general note.

TABLE B–5 : MAIN WORKERS BY AGE, SEX AND EDUCATIONAL LEVEL

NOTE

This is a new table and is divided into two parts *viz.* Part A and B. These two parts give the distribution of main workers cross-classified by sex, age and educational level both for rural and urban areas for State and each District. Data presented in these two parts are based on full count. The educational levels are the same as that of the 1971 census with some minor differences. In the 1971 census the matriculation or higher secondary had been combined in one whereas in the 1981 census, this educational level has been divided into 'matriculation/secondary' and 'higher secondary/intermediate/pre-university'. Similarly, in urban areas in 1981 veterinary has been taken out of 'agriculture, veterinary and dairying' of 1971 census. It may also be noted that post-graduate degree and technical degree have been merged in rural areas and shown as 'graduate and above'.

This table is based on the tabulated answers to questions 3, 4, 11, 12 and 15A of the Individual Slip (Universal). These questions alongwith the instructions are given in the general note.

TABLE B-6 : OTHER WORK OF MAIN WORKERS AND WORK OF MARGINAL WORKERS BY BROAD CATEGORY CROSS-CLASSIFIED BY MAIN ACTIVITY

NOTE

This table presents, separately for rural and urban areas, the break-up of main workers engaged in other work cross-classified by broad industrial categories of other work and also marginal workers by broad industrial categories of marginal work. The break-up of main workers is given for cultivators, agricultural labourers, household industry, non-household industry, trade, business or services and by divisions of National Industrial Classification, 1970 as adopted by the Registrar General, India. The break-up by industrial category of marginal work is given separately for housewives, students, 'others' and for all the remaining marginal workers together. This table indicates the industrial composition of marginal workers, the main activity and industrial composition of other work of main workers engaged in secondary activity. This table corresponds to Table B. VII and its appendix combined of 1971 census with the exception that data were presented at two digit level in appendix for division 2 & 3 in 1971 whereas the data are being presented at one digit level for all NIC codes in 1981 census. The NIC codes 1970 are reproduced in the appendix-I which have been used in this table.

Data have been presented for State and each District and are based on full count through the tabulated answers to questions 3, 14 & 15 of the Individual Slips (Universal). These questions alongwith the instructions are given in the general note.

TABLE B-7 : MARGINAL WORKERS BY INDUSTRIAL CATEGORY, AGE AND SEX

NOTE

This table gives the distribution of marginal workers into nine broad industrial categories. Data are presented for total, rural and urban areas by sex and broad age-groups for State and each District The age-groups are similar to that of Table B-1 presented in this volume. This table is based on full count. It gives the same information for marginal workers as Table B-3 presents for main workers.

This table is based on the tabulated answers to questions 3, 4, 14 and 15B of Individual Slip (Universal). These questions alongwith the instructions are given in the general note.

TABLE B-8 : MARGINAL WORKERS BY INDUSTRIAL CATEGORY AND NON-WORKERS BY EDUCATIONAL LEVEL AND SEX

NOTE

This table is divided into two parts *viz.*, Part A and Part B. These parts gives the distribution of marginal workers into nine broad industrial categories cross-classified by literacy and educational levels in both urban and rural areas for State. Part A gives the information for urban areas whereas Part B gives the information for rural areas. Data presented in these parts are based on full count. There are some minor differences in educational levels of 1971 and 1981 censuses. In the 1971 census, the matriculation or higher secondary had been combined in one whereas in the 1981 census, this educational level has been bifurcated into 'matriculation/secondary' and 'higher secondary/intermediate/pre-university'. Similarly in 1981, in urban areas, veterinary has been taken out of 'agriculture, veterinary and dairying' of the 1971 census. It may also be noted that post-graduate degree and technical degree have been merged in rural areas and shown as 'graduate and above'. It gives the same information for marginal workers as Table B-4 for main workers.

This table is based on the tabulated answers to questions 3, 11, 12, 14 and 15 B of the Individual Slip (Universal). These questions alongwith the instructions are given in the general note.

TABLE B-11 : FEMALE MAIN WORKERS CLASSIFIED BY INDUSTRIAL CATEGORY AGE AND MARITAL STATUS

NOTE

This table gives the distribution of female main workers in nine broad industrial categories by age and marital status. It shows the differential participation of women of different marital status in economic activity grouped under the broad industrial categories.

Marital status has been divided into four parts (1) Never married, (2) Married, (3) Widowed, (4) Divorced or separated. The figures for unspecified marital status have not been shown separately. However, these figures are included in 'All marital status'. All the children in age-group 0-9 have been shown as 'never married' in the age group 0-14. This table corresponds to Table B-I Part B of 1971 census. Data presented in this table are at State level and based on full count.

This table is based on the tabulated answers to questions 3, 4, 5, 14 and 15 A of the Individual Slip (Universal). These questions alongwith the instructions are given in the general note.

TABLE B-12 : INDUSTRIAL CLASSIFICATION OF MAIN WORKERS OTHER THAN CULTIVATORS AND AGRICULTURAL LABOURERS BY SEX AND BY DIVISIONS, MAJOR GROUPS AND MINOR GROUPS

NOTE

This is one of the basic economic tables of 1981 Census showing the industrial classification of main workers. This table corresponds to Table B. IV Part A of 1971 census. The connotation of the term 'industry' as distinguished from 'occupation' has been explained in the general note. Suffice it here to say that 'industry' denotes the sector of economic activity in which the worker is engaged.

The National Industrial Classification (NIC 1970) which has been adopted with suitable modifications for classification of industries in the 1981 census, is reproduced as an appendix I. National Industrial Classification (NIC 1970), minor groups with less than 100 total main workers are not shown separately.

This table presents the distribution of main workers at work other than cultivators by division, major groups and minor groups of the NIC 1970. For the porpose of this table, minor groups 000-006 have been wholly excluded and the other two minor groups relate to workers in cultivation which are covered in industrial categories I and II (cultivators and agricultural labourers) and do not figure in this table. Minor groups X00, X10 do not figure in this table as these have been merged with minor group 990.

The data presented in this table are for 'all areas' and 'urban' at State and district level. These are based on full count. The data for rural areas may be obtained by subtracting data of urban areas from the data of total areas.

This table is based on the tabulated answers to questions 3, 14 and 15 of the Individual Slip (Universal). These questions alongwith the instructions are given in the general note.

TABLE B–13 : MAIN WORKERS IN MANUFACTURING, PROCESSING, SERVICING AND REPAIRS BY HOUSEHOLD INDUSTRY AND NON-HOUSEHOLD INDUSTRY

NOTE

This table gives the same information as appendix to Table B. IV Part A of 1971 census in so far it relates to main workers engaged in manufacturing, processing, servicing and repairs. Statistics are presented in this table for main workers in household and non-household industries. In the 1981 census, only divisions 2 & 3 have been treated as related with household and non-household industry. This is the same as in 1971 census. The table gives the distribution of main workers by NIC division, major group and minor group for total and urban. The data for rural area may be obtained by subtracting data of urban area from the data of total areas. Data presented in this table are based on full count. As this table gives very detailed information, it is presented only at State level.

This table is based on the tabulated answer to questions 3, 14 and 15 of the Individual Slip (Universal.) These questions alongwith the instructions are given in the general note.

TABLE B–14 : INDUSTRIAL CLASSIFICATION OF MAIN WORKERS IN MANUFACTURING, PROCESSING, SERVICING AND REPAIRS ON HOUSEHOLD INDUSTRY BASIS BY SEX AND CLASS OF WORKER

NOTE

The tables relates to household industry only and gives the distribution of main workers by class and sex for total, rural and urban in NIC division and major group. This table broadly corresponds to Table B-IV Part B of 1971 census. The difference between the two is that in the 1971 census the workers were classified into 'employees' and 'single worker' whereas in the 1981 census the main workers are divided into 'employee', 'single worker' and 'family worker'.

As this table relates only to workers in the household industry, the industries that are classified in this table are restricted to NIC division 2 & 3 with its major groups from 20 to 39. As an additional aid to the correct classification of household industry, a list of few typical industries that could be conducted on a household basis was provided in the 'Instructions to the enumerators' (see annexure) of general note. The data presented in this table are based on full count at State and District level.

Table B-14 is based on the tabulated answers to questions 3, 14 and 15 of the Individual Slip (Universal). These questions alongwith the instructions are given in the general note.

TABLE B–15 : CLASSIFICATION OF MAIN WORKERS IN NON-HOUSEHOLD INDUSTRY, TRADE, BUSINESS, PROFESSION OR SERVICE BY CLASS OF WORKER, AGE AND SEX

NOTE

This table has been prepared for 'total' and 'urban' population and data for rural population can be derived from the figures for 'total' and 'urban'. The table gives the age composition of each class of workers engaged in activities in non-household industries, trade, business, profession or services. Thus this table relates to main workers other than those engaged in cultivation (categories I & II) and main workers in the household sector (category V(a), Data have been presented in broad age groups and these age-groups are the same as that of Table B-1 of 1981 census. The table is presented for all areas and urban areas and corresponds to Table B–IV Part C of 1971 census.

The main workers have been classified into four classes, namely :

(a) an employer, that is one who hires one or more persons in his work,

(b) an employee, that is one who does his work under others for wages or salary in cash or kind,

(c) a single worker, that is one who is doing work without employing others except casually and without the help of other members of his family except casually or a participant in work as a member of a co-operative,

(d) a family worker, that is one who is doing his work in a family enterprise alongwith other members of the family without wages or salary in cash or kind.

Data presented are on full count at state and district level.

Table B-15 is based on the tabulated answer to questions 3, 4 and 15A (IV) of the Individual Slip (Universal). These questions alongwith the instructions are given in the general note.

TABLE B-17 : INDUSTRIAL CLASSIFICATION OF MARGINAL WORKERS ENGAGED IN WORK OTHER THAN CULTIVATION AND AGRICULTURAL LABOURERS BY SEX

NOTE

This table presents the distribution of marginal workers other than cultivators and agricultural labourers by divisions and major groups of the N.I.C. 1970. For the purpose of this table minor groups 000-006 have been wholly excluded and the other two minor groups (007-008) have been partly excluded from major group 00. These minor groups relate to workers in cultivation which are covered in industrial categories I and II-Cultivators and agricultural laborurers and do not figure in this table. Major groups X0 and X1 also do not figure in this table as these have been merged with major group 99. The data presented in this table are for total, rural and urban at State and District level. Data presented in this table are based on full count.

It may be noted here that the total of main workers and marginal workers would roughly correspond to the workers of 1961 census. This table, therefore, provides the supplementary information on industrial classification of workers to that given in Table B-12 for comparison with 1961 census.

This table is based on the tabulated answers to questions 3, 14A and 15B of the Individual Slip (Universal). These questions alongwith the instructions are given in the general note.

TABLE B-18 : OCCUPATIONAL CLASSIFICATION OF MAIN WORKERS OTHER THAN CULTIVATORS AND AGRICULTURAL LABOURERS BY SEX

NOTE

This table gives the occupational classification cross-classified by industrial categories of main workers engaged in the non-agricultural sector by sex. As in the 1971 census, this census has also collected and tabulated data on economic status of population separately for industry and occupation other than those engaged in cultivation. The term 'industry' denotes the sector of economic activity in which the worker is engaged. While "occupation" connotes the exact function or work that an individual performs in that industry. For example, all clerical workers have been classified in one occupational division (clerical and related workers) regardless of whether they are engaged in a factory or mine or government office or even a shop.

Occupational statistics are given in the table for "total" (urban and rural areas combined) and urban separately. Figures for rural areas could be had by subtracting the figures of urban areas from the total figures.

Occupational classification has been based on the National Classification of Occupation (NCO), 1968 under 'division', 'group' and 'family'. The description of each division, group and family is reproduced in appendix-II for ready reference.

Data presented in this table are based on full count at State level and the occupational families with less than 100 total main workers are not shown separately. This table corresponds to Table B. V Part-A of 1971 census.

The table is based on the tabulated answers to questions 14A and 15A of the Individual Slip (Universal). These questions alongwith the instructions are given in the general note.

TABLE B–19 : OCCUPATIONAL CLASSIFICATION OF MAIN WORKERS IN NON-HOUSEHOLD INDUSTRY TRADE, BUSINESS, PROFESSION OR SERVICE BY CLASS OF WORKERS AND SEX

NOTE

This table gives the distribution of workers in non-household industry, trade, business, profession or service by divisions and groups (2 digit level) of National classification of occupation, 1968, cross-classified into different classes of workers i. e. employers, employees, single workers and family workers. These classes of workers have already been explained in Table B-15. Workers in categories I, II and V (a) which relate to cultivators, agricultural labourers and household industry, are excluded from this table.

This table has been prepared for total and urban main workers at State level only.

Data presented in this table are based on full count. This table corresponds to Table B-V Part B of 1971 census.

The table is based on the tabulated answers to questions 3, 14B and 15A of the Individual Slip (Universal). These questions alongwith the instructions are given in the general note.

TABLE B-20 : OCCUPATIONAL CLASSIFICATION OF MAIN WORKERS OTHER THAN CULTIVATORS AND AGRICULTURAL LABOURERS BY SEX AND AGE

NOTE

This table like Table B-18 is based on occupational classification and presents data by sex of persons at work other than cultivators and agricultural labourers. The presentation is, however, confined to the two digit code i.e. group level only. It is divided into two parts *viz.* part A and part B. Part A has been prepared for urban areas and upto division and group levels of the National Classification of Occupations (NCO) 1968. The main workers under each division and group of NCO have been classified by broad age-groups. These age-groups have already been mentioned in the note to Table B-1. Part B relates to rural areas and the presentation of data follows the pattern adopted for part A. This table corresponds to Table B-VI parts A (i) and B (i) respectively of 1971 census.

The data presented in the table are based on full count and the presentation is for State and each District.

The table is based on the tabulated answers to questions 3, 4 and 15A of the Individual Slip (Universal). These questions alongwith the instructions are given in the general note.

The groups for which there were no main workers have not been presented in this table.

TABLE B-21 : OCCUPATIONAL CLASSIFICATION OF MAIN WORKERS OTHER THAN CULTIVATORS AND AGRICULTURAL LABOURERS BY SEX AND EDUCATIONAL LEVEL

NOTE

This table like Table B-20 is based on occupational classification and presents data by sex of persons at work other than cultivators and agricultural labourers. This also gives the educational level of main workers. The presentation is however, confined to the two digit code *i.e.* group level only. It is divided into two parts *viz.,* part A & B. Part A has been prepared for urban areas and upto division and group level of the National Classification of Occupation (NCO 1968). Part B relates to rural areas and the presentation of data follows the pattern adopted for part-A. The main workers under each division and group of NCO have been classified by educational levels. These educational levels have already been described in para 1 of the Note to Table B-4 of the 1981 census. This table broadly corresponds to Table B-VI parts A (ii) and B (ii) respectively of 1971 census. Data presented in this table are on full count. The presentation is at State and District level.

The data presented in these two parts relate to questions 3, 11, 12, 14B and 15A of the Individual Slip (Universal). These questions alongwith instructions have been given in the general note.

NOTE

This table gives the distribution of the marginal workers and non-workers according to seven types of activities classified into nine age groups *viz.*, 0-14, 15-19, 20-24, 25-29, 30-34, 35-39, 40-49, 50-59 and 60+. The figures for 'age not stated' may be derived by deducting the figures of all age-groups from total. The figures in this table are for total, rural and urban areas.

The seven types of activities recorded at the time of census in the case of marginal workers and non-workers are :—

1. Full time students
2. Household duties
3. Dependents and infants
4. Retired, rentier and persons of independent means
5. Beggars, vegrants *etc.*
6. Inmates of penal, mental and charitable institutions
7. Others.

Data presented in this table are for State only and based on full count. This table broadly corresponds to Table B-VIII of the 1971 Census.

The source of this table is the tabulated answers to questions 3, 4, 14 and 15 of the Individual Slip (Universal). These question alongwith the instructions to the enumerator are given in the general note.

PART IV-A

SOCIAL AND CULTURAL TABLES

GENERAL NOTES
ON
SOCIAL AND CULTURAL TABLES—'C' SERIES

Traditionally, the Indian Census has been collecting data on the social and cultural characteristics of the Indian Population. The tables on social and cultural characteristics are based on the data collected through Individual Slip canvassed for each individual in 1981 Census.

The following social and cultural tables are presented in this volume.

C—1 : Age, Sex and Marital Status.

C—2 : Age, Sex and Level of Education.

C—2 Part A : Age, Sex and Level of Education —URBAN.

C—3 Part A : Attending School/College by completed Level of Education, Age and Sex—URBAN.

C—3 Part B : Attending school/College by completed level of Educational, Age and Sex—RURAL.

C—4 : Children (Ages 5-14) by Single year of Age, School Attendence and Economic Activity.

C—5 : Single Year Age Returns.

C—6 : Populatian by Five Year Age Groups and Sex.

In 1981 census, these data are processed on full count basis in respect of all Union Territories and smaller States like Himachal Pradesh, Jammu & Kashmir, Meghalaya, Sikkim, Nagaland, Manipur and Tripura. For the rest of the States, the data were processed on 20% area sample.

The processing of the 1981 Census data consisted of two stages—first hundred percent manual tabulation for the P.C.A. and later, on the Computer. The present table processed on the Computer were adjusted so as to conform to the earlier P.C.A. figures by applying a suitable correction factor. The marginal totals may, therefore, not tally in all the cases due to rounding off.

The specimen of Individual Slip (Universal) and Individual Slip (Sample) are reproduced in annexure-I.

In order to facilitate the understanding of the concepts and the questions used in collecting the data for preparation of tables in this volume, the instructions to enumerators for recording the answers to the concerned questions of the Individual Slips are reproduced in Annexure-II.

ANNEXURE–II

INSTRUCTIONS TO ENUMERATORS FOR RECORDING THE ANSWERS TO THE CONCERNED QUESTIONS RELATING TO SOCIAL AND CULTURAL TABLES

Question 3 : Male (1) / Female (2)

For male, write '1' and for female, write '2' in the box provided against this question. For eunuchs and hermaphrodities, write '1' in the box. Verify with reference to the name and relationship to head recorded under columns 2 and 3 respectively of the Population Record that you have noted the sex correctly.

Question 4 : Age

Record the age of the person in total years completed last birth-day in the rectangle provided against this question. The age should be recorded in international numerals. Very often, there is a tendency on the part of individuals to return 'years running' rather than 'years completed'. Make sure that only the actual number of years completed is recorded. In respect of infants who might not have completed one year by the day of enumeration, their age in completed years must be shown as '0' as they have not yet completed one year of age. Make sure that infants even if one day old are invariably enumerated. You should not enter the age in months. The age of an infant who has not yet completed one year should invariably be noted as '0' only.

Question 5 : Marital status

In answering this question use the following abbreviations :

NM : Never married;
M : Currently married;
W : Widowed;
S : Separated or Divorced

The entry is to be made in the manner indicated below :

(a) For a person who has never been married at any time before write 'NM'.

(b) For a person currently married, whether for the first or another time and whose marriage is subsisting at the time of enumeration with the spouse living, write 'M'. Write 'M' also for persons who are recognised by custom or society as married and for the persons in stable de facto union. Even if a marriage is disputed in the locality, write 'M' if the person concerned says he or she is married or is in stable de facto union.

(c) For a widowed person whose husband or wife is dead, and who has not been married again, write 'W'.

(d) For a person who has been separated from wife or husband and is living apart with no apparent intention of living together again or who has been divorced either by decree of a law court or by an accepted social or religious custom but who has not re-married, write 'S'.

(e) For an independent woman return her marital status as declared by her.

This question must be answered for all persons irrespective of age. For very young children, though we may know that they are not married, the appropriate abbreviation must be entered.

'M' is the abbreviation for 'currently married'. The word 'currently' does not mean 'recently'. It only means 'at present'. For example, a man may be 80 years old and may have been married 50 years ago, if his wife is still alive and the marriage subsists, they are 'currently married.'

The only conditions for the marital status to be reckoned as 'currently married' are that the man and woman are both alive and that their marriage subsists, *i.e.*, they are not divorced or separated. Please note that we are not concerned with the legality of a union.

Question 11 : Literate (1) / Illiterate (2)

Definition of a literate : A person who can both read and write with understanding in any language is to be taken as literate. A person who can marely read but cannot write, is not literate. It is not necessary that a person who is literate should have

received any formal education or should have passed any minimum educational standard.

For a person who is literate, *i.e.* who can both read and write with understanding in any language write '1' in the box provided against this question. If there is any doubt about a persons ability to read or write, the test that may be applied for reading is his/her ability to read any portion of the printed matter in the Enumerator's Instruction booklet (provided the person is familiar with the language used in the booklet) and similarly, for writing, he/she should be able to write a simple letter. Ability merely to sign one's name is not adequate to qualify a person as being able to write with understanding. If a person claims to be literate in some other language with which the enumerator is not acquainted, the respondent's word has to be taken as correct. Other members of the household may also be able to testify to the literacy of the persons enumerated.

For a person who is illiterate, *i.e.*, who can neither read nor write or can merely read but cannot write in any language, write '2' in the box against this question. All children of the age of 4 years or less should be treated as illiterate even if the child is going to a school and may have picked up reading and writing a few odd words.

Question 12 : Educational attainment

This question will be asked of only those who are literate and for whom '1' has been recorded against Question 11. For a person who is illiterate and for whom '2' has been recorded in the answer to question 11, there is no question of ascertaining the educational attainment even if he/she had at some stage attended school and passed a standard and had relapsed into illiteracy. In such a case, you should put a dash (—). We are insisting that a dash (—) should be put if there is no educational attainment and not a cross (X), because we want to avoid confusion with 10th standard which a cross may signify. You will have to ascertain and record the highest educational level attained by a person for literate, *i.e.* for whom '1' is recorded in answer to Question 11.

For a person who is still studying in a particular class, the highest educational level attained by him/her will be one that he/she has actually passed and not the one in which he/she is studying. For example, a person studying in Ist year B.A. should be recorded as only 'PUC' or 'Higher Secondary', as the case may be. Similarly, for a person studying say, in the 4th year of M.B.B.S., his/her educational attainment should be 3rd year of M.B.B.S., which is the highest level he/she has actually attained. You must record the actual standard passed such as, III standard. VIII standard, Ist year B.Com., *etc.*, However, if a person merely says that he/she has passed primary, middle, matriculation school final, secondary or other definite levels, record him/her as such.

The highest educational level attained by the person enumerated should be recorded. When a person holds both general and technical qualifications both of which are of equivalent level or of varying levels such as B.Sc., (Zoology) and M.B.B.S. or B.A. (Maths.) and B.E. (Bachelor of Engineering), both the technical and general qualifications should be recorded against this question. In the case of pass course, indicate the degree only.

In recording the educational level of a graduate or a post-graduate, the major subject such as B.Sc. (Maths), M.A. (Economics), M Sc. (Botany), B.Sc. (Agriculture) *etc.*, should be noted. You should not use abbreviations which are not in common use. In such cases, the degree or diploma should be spelt out fully. For example, M.A. (Hindi) and Diploma in Library Science or M.A. (Soc.) and Diploma in Labour Relations. Adequate space has been provided in the slip and you are urged to record the qualification accurately and in sufficient detail. This information is vital for manpower planning and should receive your careful attention.

Question 13 : Attending School/College, Yes (1)/No (2)

After you have recorded the answer to Question 12, you have further to ask whether the person whom you are enumerating is attending any school or college. If the answer is 'Yes', you have to record '1' in the box provided against this question. If the answer is 'No', you should record '2' in the box. Please note that illiterates (code 2 against Question 11) can be found attending school. Therefore, this question should be asked of all persons, including elderly men and women.

In recording answers to this questions you are not required to ascertain whether the school/college being attended by the person enumerated is a recognised or unrecognised institution. The choice should be left to the respondent as to whether the person is attending school/college. Thus, if a person is receiving

education through a correspondence course or attending some vocational course or attending the Adult Education Programme and returns himself as attending school/college, he/she will be entered as such and code '1' will be recorded in the box against this question.

ECONOMIC QUESTIONS

In the 1981 Census we intend collecting information regarding the economic activity of the people in great detail so that those who use these data have the type of information they want. The economic questions consist of the following :

I Q. 14A Worked any time at all last year ? Yes / No (H/ST/D/R/B/I/O)

Q. 14B If yes in 14A, did you work for major part of last year ? Yes (1)/No (2)

II Q. 15A Main activity last year ? Yes in 14B (C/AL/HHI/OW) / No in 14B (H/ST/D/R/B/I/O)

Q. 15B 14B Yes-Any other work any time last year? Yes (C/AL/HHI/OW) / No

14B No-Work done any time last year ? (C/AL/HHI/OW)

These questions must be canvassed for every person, irrespective of age or sex. Every person must be asked Question 14A, including the very young or very old and the answer to this question must be filled in. The other questions will have to be filled in the case of those to whom they are applicable. The instructions for filling these questions follow.

These questions are meant to get details of the work done by the people with reference to last year. We may, therefore, first consider what is meant by 'work' and what the 'reference period' is.

Definition of work :

Work may be defined as participation in any economically productive activity. Such participation may be physical or mental in nature. Work involves not only actual work but also effective supervision and direction of work.

Reference period :

In all the questions, the reference period is the one year preceding the date of enumeration. Certain types of work such as agriculture, household industy like, gur making, *etc.*, are carried on either throughout the year or only during certain seasons or parts of the year, depending on the local circumstances. In such cases what we are concerned with is the broad time-span of the agricultural seasons preceding the enumeration.

Explanation :

There should be no confusion regarding these questions. What we are trying to find out is the number of workers and since workers can be full-time workers or seasonal workers or marginal workers, it is necessary to collect data that will give us the correct picture. This is what Questions 14A and 14B and Questions 15A and 15B seek to do. The detailed explanation and instructions for each of these questions are given separately but it will be useful if we look at these together to understand their purpose better.

Question 14A seeks to find out if a person has done any work at all during the last year or whether he or she did not work at all and if it is the latter, how the person spent his/her time as a non-worker. Then Question 14B seeks to find out who among the persons returning 'Yes' in Question 14A had worked for the major part of the year. By major part of the year, it is intended to find out how many had worked for 183 days or more or in other words, worked for 6 months or more. Those who have worked for 183 days or more, will answer 'Yes' for Question 14B. For them code '1' has to be recorded in the box. But those who have worked for less than six months or 183 days will say 'No' and for them code '2' is to be recorded in the box for this question. Question 15A seeks to elicit information on the main activity of the workers in Question 14B, *i.e.*, those for whom '1' has been recorded in the box. It will also elicit information about the main activity of the 'marginal workers' covered in Question 14B *i.e.*, those who have returned 'No' and for whom '2' has been recorded in the box against Question 14B.

The person may have worked for six months or 183 days or more in more than one activity. For example, he/she may have worked for 3 months in cultivation, one month in gur making and 3 months as an agricultural labourer. In Question 15A, he/she is required to indicate which of these three activities according to him/her was his/her main activity *i.e.*,

in which capacity he/she spent more time. In the instant case since the person has spent three months each in cultivation and as agricultural labourer the choice as to which of these two would be his/her main activity should be left to him/her. Those who have returned 'No' for Question 14B, *i.e.*, those who have worked for less than six months or 183 days during the last year and for whom code '2' has been recorded in the box, will have to state whether according to them, they were engaged mainly in household duties, or as student, or dependent or as retired person, rentier, or beggar or inmates of institutions, and if not in any of these categories, the person(s) should be put under 'Others' in Question 15A.

In question 15B details of secondary work or marginal work are sought to be obtained. Those who have worked for the major part of the year, *i.e.*, those for whom '1' has been recorded in the box against question 14B, may have had secondary work and this should be entered in Question 15B. Those who have not worked for the major part of the year and for whom code '2' has been recorded in the box against Question 14B, must have done some marginal work and these details will be entered in Question 15B. It is important that probing questions are asked to elicit correct information in this question.

TABLE C-1 : AGE, SEX AND MARITAL STATUS

NOTE

This is an important table which provides data on population classified by sex, marital status and age groups. This table corresponds to Table C–II-Age and Marital Status of 1971 Census. It is presented separately for total, rural and urban areas of the State and Districts. The age groups adopted are 0-9, 10-14, 15-19, 20-24, 25-29, 30-34, 35-39, 40-44, 45-49, 50-54, 55-59, 60-64, 65-69, 70+ years. The different marital status adopted in the table are 'never married', 'married', 'widowed' and 'divorced or separated'. The figures for 'all ages' include age not 'stated'. Similarly, the figures for total males and females in column 3 and 4 include persons with unspecified marital status.

This table is based on information collected through question Nos. 3, 4 and 5 of the Individual Slip (Universal).

TABLE C-2 : AGE, SEX AND LEVEL OF EDUCATION

NOTE

This table presents educational level of the population by age and sex. Data are presented for the single year ages 5, 6, 7, 8 and 9 and the age groups 0-4, 5-9, 10-14, 15-19, 20-24, 25-29, 30-34, 35-59 and 60+. Figures for 'all ages' including those of 'age not stated' also. The figures for 'age not stated' can be derived by subtracting the sum of various age-groups from the total of 'all ages'. The data for all areas are presented in Table C-2 and for urban areas in Table C-2 Part A. The data for rural areas for educational levels mentioned in Table C-2 could be obtained by subtracting the urban figures from all areas. The tables are presented for the State and District separately. This table corresponds to Table C-III of 1971 census.

The educational levels for Table C-2-All Areas are :

(i) Illiterate
(ii) Literate (without educational level, including educational level not classifiable) further divided into formal and non-formal
(iii) Primary
(iv) Middle
(v) Matriculation or secondary
(vi) Higher Secondary/Intermediate/Pre-University
(vii) Non-technical diploma or certificate not equal to degree
(viii) Technical diploma or certificate not equal to degree
(ix) Graduate and above.

Table C-2 Part A-Urban areas

TABLE C-4 : CHILDREN (AGES 5-14) BY SINGLE YEAR OF AGE, SCHOOL ATTENDANCE AND ECONOMIC ACTIVITY

NOTE

This is a new table and classifies children at each of the ages 5–14 years with those attending school and those not attending school. The children attending school are further classified as main workers, marginal workers and non-workers. This table gives an idea of the prevalence of child labour in relation to school attendance. The table presents the data for total, rural and urban areas for the State and District.

The table has been compiled on the basis of information collected through question numbers 3, 4, 13, 14 and 15 of the Individual Slip (Universal).

TABLE C–5 : SINGLE YEAR AGE RETURNS

NOTE

This table presents the single year age distribution of the population by sex and presents the data separately for rural and urban areas for the State as a whole. It corresponds to Table C–IV Single year age returns of 1971 census.

This is an important demographic table which would help the demographers, statisticians and planners in many ways *viz.*, for computing mortality rates from age data of the earlier censuses, for preparing life tables and for studying digital preference in age returns at the census etc.

This table has been compiled, based on information collected through question numbers
Individual Slip (Universal).
