Motif

Si-Ome Dance

This is a poopular flok dance of the Tagins in Upper Subansiri district of Arunachal Pradesh. The dance is generally performed by the women-flol during their Si-Donyi festival. The song accompanied by the dance is a prayer to the goddess for beautiful crops as well as to preserve and enhance fertility in soil. The process of danceing is religion - magical but the people consider it as rational.

Although this dance is a part and oarcel of their life it began as a productive rite and not as an art. This dance is also a symbol of strength and courage.

(d) Appendices to Village Directory 194-209

Appendix I : Abstract of Educational, Medical and other amenities in villages-C.D. Block level 194-197

Appendix IA : Villages by number of Primary Schools 198

Appendix IB : Villages by Primary, Middle and Secondary Schools 198

Appendix IC : Villages with different sources of drinking water facilities available 198

Appendix II : Villages with 5,000 and above population which do not have one or more amenities 199

Appendix IIA : Census towns which do not have one or more amenities 199

Appendix III : Land utilisation data in respect of Census towns/Non-municipal towns 199

Appendix IV : C.D. Block-wise list of inhabited villages where no amenity other than drinking water facility is available 199-202

Appendix V : Summary showing number of villages not having Scheduled Caste population 203

Appendix VI : Summary showing number of villages not having Scheduled Tribe population 203

Appendix VIIA : List of village according to the proportion of the Scheduled Castes to the total population by ranges 203

Appendix VIIB : List of village according to the proportion of the Scheduled Tribes to the total population by ranges 204-209

Appendix VIII : Number of villages under each Gram Panchayat (C.D. Blockwise) 209

Appendix IX : Statement showing numbers of girls school in the villages 209

Section II – Town Directory **211-219**

(a) Note explaining the abbreviations used in Town Directory 212-216

Town Directory Statement (I to VII)

(b) Statement I – Status and Growth History 216

(c) Statement II – Physical aspects and location of towns 216-217

(d) Statement III – Municipal finance 217

(e) Statement IV – Civic and other amenities 217

(f) Statement V – Medical, Educational, Recreational and cultural facilities 218-219

(g) Statement VI – Trade, commerce, Industry and banking 218-219

(h) Statement VII – Civic and other amenities in slums 218

(i) Appendix to Town Directory – Towns showing their outgrowth with population 219

PART-B : PRIMARY CENSUS ABSTRACT **223-311**

(a) Brief note on Primary Census Abstract 223-225

(b) District Primary Census Abstract (General) 226-231

(c) Appendix to District Primary Census Abstract i.e., Urban block wise figures of Total, SC and ST Population 233

Primary Census Abstract for Scheduled Castes 234-239

Primary Census Abstract for Scheduled Tribes 240-245

C. D. Block wise Village Primary Census Abstract 246-305

Urban Primary Census Abstract 306-311

Annexure-I : Number of Villages under each Gram Panchayat 312

Annexure-II : Note of Fertility and Mortality 1991 Census 312-315

Annexure-III : Various measures of fertility and mean age at marriage, 1991 Census 315

Annexure-IV : Percentage distribution of Migrants by place of birth/place of last residence, 2001 Census 316

Annexure-V : Brief account of main religions in the district/tehsil as per 2001 Census 317-318

Annexure-VI : Marital status of population as per 2001 Census 318-319

Annexure-VII : Age, Sex and Education in the district, 2001 Census 319-321

Annexure-VIII : Distribution of different mother tongues returned in 2001 Census 322

Foreword

The District Census Handbook (DCHB) published by Census Organisation since 1951 census, is one of the important publications in the context of planning and development at grass-root level. The publication, which is brought out for each district, contains several demographic and socio-economic characteristics village-wise and town-wise of the district alongwith the status of availability of civic amenities, infrastructural facilities, etc..

2. The scope of the DCHB was initially confined to a few Census Tables and Primary Census Abstract (PCA) of each village and town within the district. Thereafter, at successive censuses, its scope and coverage has been enlarged. The DCHB published at the 1961 census provided, a descriptive account of the district, administrative statistics, census tables and a village and town directory including PCA. The 1971 census-DCHB series was in three parts: Part-A related to village and town directory, Part-B to village and town PCA and Part-C comprised analytical report, administrative statistics, district census tables and certain analytical tables based on PCA and amenity data in respect of villages. The 1981 census DCHB was in two parts: Part-A contained village and town directory and Part-B the PCA of village and town including the SCs and STs PCA up to tahsil/town levels. New features alongwith restructuring of the formats of village and town directory were added into it. In Village Directory, all amenities except electricity were brought together and if any amenity was not available in the referent village, the distance in broad ranges from the nearest place having such an amenity, was given. Information on new items such as adult literacy centres, primary health sub-centres and community health workers in the village were provided so as to meet the requirements of some of the Revised Minimum Needs Programme. Information on approach to the village was provided for the first time in the Village Directory so as to give the details on number of inaccessible villages in each district. In the Town Directory, a statement (IV-A) on slums was introduced to provide the details on civic and other amenities in the notified slums of Class I and Class II towns.

3. The 1991 census DCHB, by and large, followed the pattern of presentation of 1981 census, except the format of PCA was restructured. Nine-fold industrial classification of main workers was given against the four-fold industrial classification presented in the 1981 census. In addition, sex-wise population in 0-6 age group was included in the PCA for the first time with a view to enable the data users to compile more realistic literacy rate as all children below 7 years of age had been treated as illiterate at the time of 1991 census. One of the important innovations in the 1991 census was the Community Development Block (CD block) level presentation of village directory and PCA data instead of the traditional tahsil/taluk/PS level presentation. It was expected that the presentation of village directory and PCA data at CD block level will help the planners in formulation of micro level development plans, CD block being lowest administrative unit.

4. The present series of 2001 census DCHBs have been made more informative and exhaustive in terms of coverage and content. The Village Directory has been enlarged in scope by including a number of other facilities like banking, recreational and cultural facilities, newspapers and magazines and ‘most important commodity’ manufactured in village. Income and expenditure of gram panchayat, wherever possible, has been provided. Apart from these, more details on distance(s) at which basic amenities are available (if not available in the village), are given. This includes educational facilities (namely primary and middle schools and college), medical facilities (viz. Allopathic Hospital, Maternity & Child Welfare

Centre and Primary Health Centre), drinking water, post & telegraph (post office and phone), communication, bank, credit societies and recreational facilities. In Town Directory, the statement on Slums has been modified and its coverage enlarged by including details on all slums instead of 'notified slums'. The information is given in case of all statutory towns irrespective of their class, against only Class I and Class **II** towns in the 1981 and 1991 censuses. The basic amenities available in the villages and towns are analysed in depth with the help of a number of cross classified inset tables and statements. Two other significant additions in the publication are inclusion of 'motif' highlighting significant characteristic of the district and analytical notes as annexures. The analytical notes on (i) fertility and mortality and (ii) various measures of fertility and mean age at marriage are prepared based on 1991 Census. Whereas, in the notes relating to (i) percentage distribution of migrants by place of birth/place of last residence, (ii) main religions, (Hi)marital status of population, (iv) age, sex and education, and (v) distribution of spectrum of mother tongue, nature and extent of changes occurred in the district in its basic socio demographic features during the decade 1991-2001 are analysed. The eight digits permanent location code (PLCN) to all the villages and towns have been assigned keeping in view the future needs.

5. The village and town level amenity data have been collected, compiled and computerised in prescribed record structure under the supervision of Shri N. K. Laskar, Director of Census Operations. Arunachal Pradesh . Thereafter, efforts have been made to ensure comparability of the information with that of 1991 census data and the information brought out by the respective state governments in their annual reports and statistical handbooks for various years after 1991. The task of planning, designing and coordination of this publication was carried out by Shri R. G. Mitra, Deputy Registrar General (C&T) and Dr. I. C. Agrawal, Senior Research Officer of Social Studies Division. Dr. R. P. Singh, Deputy Registrar General (Map) provided the technical guidance in the preparation of maps. Whereas, Shri Anil Kumar Arora, Deputy Director of Data Processing Division who worked under the overall supervision of Shri Himakar, Addl. Director (EDP) helped in preparation of record structure for computerisation of village and town directory data and the programme for the generation of Village Directory and Town Directory statements including analytical inset tables. The draft DCHB manuscripts received from the Census Directorates have been scrutinised in the Social Studies Division under the guidance of Shri S. L. Jain, Deputy Director and Shri R. K. Mehta, Assistant Director. I am thankful to all of them and others Who have contributed to make this publication possible.

D. K. Sikri
Registrar General &
Census Commissioner, India

New Delhi,

Preface

The District Census Handbook (DCHB) contains important census and non-census statistics pertaining to a particular District. This series constitute an important set of census publications brought out by the Census Organisation on behalf of the State government. The Census Directorate prepares the manuscripts of the District Census Handbooks out of the data collected from the field during Census Operations and also incorporate in its various other data originating from different Government Departments. The District Census Handbooks are widely made use of by the State Government and its district level and other lower level officials for proper planning, development and administrative purposes as well as by a large cross-section of data users like academicians scholars, researchers and many other Non-Governmental agencies.

The District Census Handbook has two parts-part-A and Part-B. The Village and Town Directories are included in part-A, whereas part-B contains the Primary Census Abstract. The Village Directory gives for each Village, the area, population, educational, medical, civic and other amenities as also its land use pattern. Similarly in the Town Directory, information on various civic amenities, the area figures, population characteristics, physical aspects, communications, municipal finance, trade and commerce, industry and banking facilities etc. pertaining to a town are incorporated as well as the Village and Town directories and also of Scheduled Castes and Tribes presents certain other basic data like number of residential houses and households, sex-wise break-up of the total population, literates, main workers by categories, marginal workers and non-workers, sex-wise break up of Scheduled Castes and Scheduled Tribes population etc. Besides, some brief notes on the administrative development, economic resources and social aspects of the District are also incorporated in this volume. Also it contains brief analytical notes on the village and town directories and are supported by a few inset tables based on the Primary Census Abstract as well as the Village and Town directories. Above all an overall attempt has been made here to present the basic statistical data on villages and towns which it is expected, would come handy and useful to all concerned.

The data presented under Village and Town directories were furnished from the field, village and town-wise by the district administration mainly through the Circle Officers in respect of the rural villages and by the Deputy Commissioner though the District Statistical Officer in respect of urban areas respectively. The data presented under Primary Census Abstract were collected during the Census Operations by the field functionaries of the Circle Officers and the Deputy Commissioner. My thanks are due to all these dedicated band of field officials who have provided the basic data required for compilation of this volume. The notes on different State and Central Govt. Departments are furnished by the respective departments. I am grateful to all these departments for their sincere co-operation.

While the collection, compilation and tabulation of data including designing and production of the District Census Handbook Volumes were under taken by the Census Department at its own expenses, in keeping with the past practice for 2001 Census. It is my sincere hope that all the data users will find the contents of the 2001 DCHB series quite convenient and useful.

The District Census Handbook will be centrally printed as decided by the Registrar General, India. The number of copies required by the State Govt. will be supplied to them on payment basis.

The Census Organisation is also grateful to Government of Arunachal Pradesh and to the Director of Economics and Statistics, Government of Arunachal Pradesh, Itanagar and his staff for taking necessary initiative in collection of data required for the preparation of the District Census Handbook.

Last but not least I cannot but express my gratefulness to Shri J.K. Banthia, Registrar General and Census Commissioner of India for his valuable instructions and guidance in bringing out the District Census Handbooks.

Lastly I must express my appreciation to the Officers and Officials of the office of the Registrar General, India for making necessary arrangement for printing of the publication in time.

District Highlights – 2001 Census

The region is blessed with thick and dense forest consisting of Alpine moist, moist temperature and tropical pine and temperate wet evergreen forest in the whole district and rich in flora and fauna. The climatic condition of the region is very critical during winter, there is thick moist formation from early morning till 10-11 am in everyday. The natural formation cause extreme cold during the winter and remain extreme hot during summer.

At Menga about 20 kms. from Daporijo the District H.Q. there is a famous natural cave and the BRTF constructed a Siv Mandir around the cave. This has become one of the tourist place of the district. Near to the place there is a Sipi river a tributary of Subonsiri river, the Govt. started a Micro Hydel Project for generating electricity.

In Siyum about 80 kms from Daporijo towards Nacho there is a place where the local tribal people fought against the British ruler.

Daporijo, the District Hq., is famous for orange and other local fruit also.

Taksing the remotest administrative circle of the district is still remained isolated and all essential commodities are supplied through helicopter by the administration.

ANALYTICAL NOTE

Blank

Analytical Note

(i) History and Scope of District Census Handbook

The District census Handbooks is an innovation of the 1951 census. Prior to 1951 census publications and report contained data up to Tehsil, Sub-division Town and District level. Micro level data in rural areas and enumerator block/wards in urban areas were not published in any census report. With the rapid development and socio-economic changes in the society, necessity of data at micro level was felt considerably by the government, economists, schools and various data using agencies. With a view to making available these statistics at micro level, selected census data was presented in the district census handbooks of 1951 census and accordingly the Handbooks contained important census data as well as general information relating to history, physical aspects, geology, archeology, climate, rainfall administration, medical and public health, educational and literacy, agriculture and cooperatives, industries, local bodies, places of interest etc. relating to a particular district.

The District Census Handbooks of 1961 census, underwent complete transformation and attempts were made to make comprehensive and informative.

In 1971 census, efforts were made to make available both census and non-census data in an uniform manner with an enlarged perspective. The District Census Handbooks of 1971 Census had been split up into three parts namely, Part A, Part B and Part C. Part A comprised of Town and village Directory while Part B contained Urban Block/Village wise Primary Census Abstract and Part C included Administrative Statistics and Report.

District Census Handbooks of Arunachal Pradesh was brought out for the first time in the 1971 census, when the full fledged census was also taken in Arunachal Pradesh for the first time. Due to less volume of data Part A and Part B of the District Census Handbooks in 1971 census were combined in one volume for convenience.

In the 1981 and 1991 Census the District Census Handbooks were divided into two parts only as follows:

Part A : Comprising Village and Town Directory as it was in the 1971 census.

Part B : Consisting of (i) District Primary Census Abstract at circle level (ii) Circle wise Primary Census Abstract (a) Village level and (b) town level (within the town ward wise) and (c) Appendix to primary Census Abstract showing Urban Block wise total Scheduled Castes and Scheduled Tribes population and (iii) Primary Census Abstract for Scheduled Castes and Scheduled Tribes at circle level.

The District Census Handbooks are brought out on behalf of the State governments after each decennial census. The publication containing grass root level statistical data on demographic characteristics, civics and other amenities in villages and towns is an essential aid for district level planning and administration. The governments of respective states/ Union Territories have been meeting the cost of these publications. The data presented in this publication are compiled by the Census Directorates on behalf of the concerned States/Union Territory governments.

It is proposed to bring out the District Census Handbook (DCHB) of the 2001 census in two parts as follows:

Part A : Village and Town Directory.

Part B : Primary Census Abstract.

A part from the concerned State/Union Territory governments which use the data available in DCHBs for planning and administration, number of other agencies which are engaged in different welfare and other activities make use of the DCHBs for different purposes.Part A and Part B of the District Census Handbook has been combined as it was done in 1971, 1981 and 1991 censuses.

(ii) Brief History of the District

In 1914, the Western sector of the North-East Frontier Tract was constituted. it was placed under the charge of the political Officer who had his headquarters in Assam. Later on, this section was renamed as Balipara Frontier Tract. Prior to 1914 this area was a part of Lakshimpur District in Assam. 1946 is the another important year when the Balipara Frontier Tract was divided into two Administrative Jurisdictions. One was Sela Sub-agency and the other was Subansiri Division. 1954 marks the renaming of the Subansiri area as Subansiri Frontier Division. Subansiri Frontier Division was renamed as the Subansiri District in 1964. The district was further bifurcated into two districts in accordance with Gazette Notification No. Law/Legn.12/79 dated May 13, 1980. These two districts are Lower Subansiri and Upper Subansiri. Ziro, which was the District Headquarters of erstwhile Subansiri District has remained as the Headquarters of the newly constituted Lower Subansiri District. Daporijo has been declared as the District Headquarters of Upper Subansiri District with two Sub-divisions namely Nacho and Daporijo.

The year 1953 is the significant year because the two Administrative centres were established at Daporijo and Gusar for the first time to be followed by Taliha (1954) Limeking (1958) Taksing (1959) Siyum and Nacho (1963) Giba (1980) and Baririjo (1981). Baririjo circle was under Administrative Jurisdiction of Daporijo circle till the time of 1981 Census Enumeration. The year 1957 witness the upgradition of Daporijo circle into a Sub-Division with an Additional Deputy Commissioner at its helm. The year 1959 marks the emergence of Daporijo as an independent Sub-Division under the charge of an Additional Deputy Commissioner. Its area constitutes partly from the Siang district and partly from Subansiri District. To culminate it all, the year 1980 saw the fulfillment of the aspiration of the people of the area where upper subansiri district was created, the name deriving from the river Subansiri which traverses the entire length of the district.

At the time of taking 1971 Census, the area covered by this district formed a part of the North-East Frontier Agency which was a constitutional part of the State of Assam. The agency was directly administered by the President of India through the Governor of Assam as his agent. In 1972 the agency was made into a Union Territory and renamed as Arunachal Pradesh. A Chief Commissioner with his headquarters at Shillong, was made the administration of this new Union Territory. On 15th day of the August'1975 Legislative Assembly was constituted in the Union Territory of Arunachal Pradesh with the Chief Minister and Cabinet of 4 Ministers to assist the Lt. Governor appointed on the same day as the Administrator of the Union Territory. The head-quarters of the Union Territory was shifted to Capital site at Itanagar in Lower Subansiri district in the year 1974.

(iii) Administrative Setup

The lowest unit of administration is a circle which is looked after by a circle officer or an Extra Assistant Commissioner. A circle is defined as a group of villages and not as a territorial unit. However, area figure below the level of district are not available. The villages have their own customary administrative system in the form of traditional village councils.

The Assam Frontier (Administration of Justice) Regulations 1945 authorizes that the village councils to settle all Civil matters and certain criminal matters falling within their jurisdiction. However, for all matters the Deputy Commissioner and some other administration officers have jurisdiction under the supervision of the Assam High Court who hold the appellate and the revisional authority. The district administration is assisted by Civil Police in maintaining Law and Order. But since the department is very new, the number of police personnel is not sufficient to cover large area. This, however, does not adversely affect the administration of justice because of the wide power given to the Village Councils. In certain cases, however, Administrative Officers are required to be assigned with the duties of prosecution.

Daporijo is the district headquarters of the district. There are 11 circles and one sub-division with its headquarters at Nacho. This district is having 5 C.D. Block and Block-wise distribution of circles are stated below :

During 2001 Census following was the Administrative Set up of the district

Name of C.D. Block	Name of Circle
1. Taksing Limeking C.D. Block	1. Taksing
	2. Limeking
	3. Nacho
	4. Siyum
2. Taliha C.D. Block	1. Taliha
	2. Payeng
3. Daporijo C.D. Block	1. Daporijo
	2. Puchigeko
4. Giba C.D. Block	1. Giba
5. Dumporijo C.D. Block	1. Dumporijo
	2. Baririjo

During 2001 Census the boundaries of upper subansiri district remained same as existed during 1991 Census. However, certain changes in respect of its internal boundaries have come up due to formation of two new circles namely Puchigeko and Payeng circle by curving out a number of villages from Daporijo Sadar and Taliha circle respectively.

(iv) Physical features

Upper subansiri district is a mountainous track of difficult and diverse terrain. The entire area is intersected by river subansiri and its tributaries. It has an approximate area of 7,031 Kilo metres Square from the latitude 27°45" North to 28°42" North and Longitude 93°18 East to 94°36" East. It is bounded by Mac-Mohon line in the North, West Siang district in the East, West Siang and Lower Subansiri district in the South and Lower Subansiri district in the West. The height ranges from 7000 ft. to 18000 ft. above the sea level. The region is blessed with thick and dense forest consisting of Alpine moist, moist temperature tropical pine and temperate wet evergreen forests in upper, upper middle, middle and Lower region respectively and is rich in flora and fauna.

The district headquarters at Daporijo temperature rises to maximum in August and falls to a minimum in December. During 1980, there were 35.8° C in August and 10.5C in December respectively. Annual rainfall varies from 1500 mm to 2000 mm.

The climatic feature of Daporijo during winter is a thick moist formation from early morning till 10.30 A.M. every day. After the moist lits, the sun shines brightly till 3.30 P.M. and vanished gradually in the horizon. These natural formation cause extreme cold and inconveniences to the people.

There are many snow bound areas in Taksing circle which is the remotest administrative circle with a total population of 733 only. Minimum temperature during winter generally goes down to freezing point in that area.

Source : Dy. Commissioner, Upper Subansiri district, Doparijo.

Forest

In Arunachal Pradesh the life of local people is very closely linked to the forest. The people enjoy customary rights recognized under the Assam forest Regulation over collection of minor forest produce for their bonafide domestic requirements. Besides, other benefits enjoyed by the people are :-

a. Permits for trees for trade purposes are issued only to the local people in order to improve their economy and inculcate business skill.

b. 7.5% concession in the award of leases and contracts pertaining to forestry and other works.

c. Preferential treatment in the matter regarding issue of licenses for forest based industries.

d. Preference in employment in the Government. Plantation, Apna-Van plantation scheme are implemented in the district.

There are 9 (nine) reserve forest in the district which are stated below :

Name of Reserve forest		
1. Daporijo Reserve forest	-	189.0 Km.
2. Sigin Reserve forest	-	96.0 Km.
3. Dulom Reserve forest	-	15.0 Km.
4. Kamla Reserve forest	-	54.50 Km.
5. Mano Reserve forest	-	30.0 Km.
6. Bulo Reserve forest	-	29.0 Km.
7. Hote Tari Reserve forest	-	30.0 Km.
8. Ruken Jake Reserve forest	-	78.0 Km.
9. Langam Reserve forest	-	37.0 Km.

The revenue is also realized from non timber forest produce like Cane, Firewood, Bamboo, Charcoal, Boulder, Stone, Gravel, Shingle, Sand, Earth etc.

Forest provides with one of the sources for the economic and commercial development of the district. It is a good source revenue.

The forest promise for development of forest based Industries i.e. Saw and Veneer mills besides establishment of small scaled forest based Industries of Cane and Bamboo etc. (NTFP origin). The proposals are under active consideration of the Government.

Although there are 3 saw mills in this district but at present it is restricted to extract forest produce due to imposition of Supreme Court Ban with effect from December '96.

Source : Divisional Forest Officer, Upper Subansiri District, Daporijo.

Land use pattern and tenancy

In Arunachal Pradesh no written law on Land Management exists. Ownership holding and transfer of land is practised upon certain social customs and traditions and right over land is exercised, accordingly. No tenancy system exists in the state due to absence of land law legislated of its own.

The present system of land use pattern and tenancy is passed on the customary and traditional system of the state which, however, differs from tribe to tribe and area to area. But in spite of local variation, some general uniformities on certain important matters are common in all the corners of the state. The local people can exercise right over land for traditional hunting, fishing and other land related major activities.

As for transfer of land to the non Arunachalee, the Bengal Eastern Fortier Regulation of 1873 is at safeguard against alienation of tribal land to any outsider.

Land is being used by the government for implementation of various schemes on improvement of Agriculture, Horticulture, Fisheries Forest Plantation etc. by adopting scientific methods. For establishment of industries, power generation, infrastructure development etc. and for housing land is being used by the government Urban or Semi Urban land is also being allotted for commercial and residential purposes as well.

No cadastral survey in this district has so far been conducted. Patta system has also not been introduced for want of land law. However, the system of issuing land possession certificates to owners of unacquired land for the purposes of setting up of business/industries, assistance from financial institutions etc. is in practice.

Public awareness on need of introducing title deeds or patta system is less visible. Steps to be taken by the government in this direction would be possible after introduction of the states own land law.

Day to day increase in population economic activities etc. demands immediate introduction of land law purely matched with the states customary and traditional system of owning land which shall bring scopes to deal with the rising critical social problems like adultery unscrupulous transaction, exploitation and domination of poor and weaker groups over land.

Source : Dy. Commissioner, Upper Subansiri district, Daporijo.

Agriculture

Agriculture is the back bone of Arunachal Pradesh. Upper Subansiri district is not exception to it. The primary occupation of the people in the district is Agriculture. The area covered under wet rice cultivation is 14,05.6 hectares covering all the 5 blocks in the district. Maximum area being covered in Dumporijo blocks 609.8 hectares and the area cultivated in flat levels is limited. However, the field functionaries of Agriculture department posted in the district are constantly in touch with the farmers to motivate farmers for permanent cultivation by introduction of land development, construction of minor irrigation channels., adoption of high yielding varieties of seeds and also farm machineries.

The area cover under trace rice cultivation is 1376.6 hectares. Actually a clear demarcation cannot be drawn between WRC/TRC in the district owing to the topography and also for the reason that flat land are much less as compared to the mountainous terrains. The farmers do practice this type of cultivation by cutting the side of a hill in Terrace so that crops can be grown there.

The area cover under Jhum cultivation is 30.433 hectares. This traditional system of agriculture, is still prevalent in major parts of the district mainly in Siyum, Limeking, Nacho, Taksing and Puchigeko circle.

Moreover land development progresses such as terrace cutting and construction of irrigational

channels being a costly works for the poor farmers, the people are compelled to adopt the practice of shifting cultivation.

Veterinary

1. Scope of Development of live stock, poultry etc. alongwith their scope at upper Subansiri district, of Arunachal Pradesh.

There are many scopes for the development of live stock and poultry farming in this district.

(a) The climatic condition of this region is very suitable for Dairy, Goatery, Piggery and Poultry farming. As the climate is not too hot nor too cold. The land is plain specially Daporijo and Dumporijo. There is surplus of green grass available through out the year. The water supply is abundant. Hence, any further scheme in this direction is viable.

(b) There is no any private farm but only one Government Dairy farm run by the department of Animal Husbandry and veterinary which produces 4986.500 Litres of milk per year. Therefore, there is scarcity of milk in this district.

(c) The people of upper Subansiri district are fond of any kind of meat, it may be of beaf, mutton, pork, chicken etc. which are consumed largely. Pork is said to be the most favourites item, meat of a type of mithun (Bos Frontalis) a semi domesticated animal is prized feed for upper Subansiri district and some other parts of Arunachal Pradesh. But there is no any farm either of government nor of private agencies. The animals are imported from Assam and slaughter at Daporijo.

The Veterinary Institutions in Upper Subansiri district are stated below :

(i)	Veterinary dispensary	-	6
(ii)	Poultry farm	-	1
(iii)	Veterinary Aid Centre	-	10
(iv)	Cattle upgrading Centre	-	8
(v)	Mobile dispensary	-	1
(vi)	Milk production Goat farm	-	1
(vii)	Egg production	-	1
(viii)	Government Cattle farm	-	1

The extension network are done by the Doctors and staffs of the Veterinary and Animal Husbandry department under the guidance of District Veterinary Officers by giving treatment at dispensary and veterinary centres. Also vaccination is done to prevent the out break of bacterial as well as viral decease.

Fishery

The upper subansiri district is situated in the central part of Arunachal Pradesh. The mighty river subansiri originates here from Taksing and penetrate through the district alongwith its tributaries like Syee, Sichi, Siber, Siyum, Menrga, Seppi and Sigin etc. As such, though a hill district there is no derth of water resources and highly potential for cold and warm water fisheries. The river and tributaries are bestowed with some natural exotic trout's and indigenous mahaseer etc. the immense fishery resources of this district is extended to a length of approx. 420 Kms.

The soil in the district is generally aciodic and tincture is usually sand. There are both cold and warm water species are available. The department has taken up survey and so far found some species commercially important and these are solizotherax, mahaseer and labio groups. There is about 261 hectares estimated extent of fishery resources available in the district out of which only 83 hectares are brought under Pisciculture.

Fish is the important items in the normal diet of the cent percent population of the district. However, as there is no people as fisherman by caste, traditional fish farming is not in rogue and the protein food is directly obtained from natural resources. The people are not aware of scientific fish farming although it is an important cheap source of protein food. The farming system was adopted by the farmers by recognizing the potential of Inland fisheries, raising the income and living standard of rural farmers. The fishery development activities have been taken up in the district by implementing some developmental schemes and found to be successful.

The production of fish from people fishpond/ farms, paddy-cum fish culture and catch from natural water by hook and line came upto 1200 MT per year. Fish seed production seems to be very low i.e. 0.50

million per year. Different schemes taken up for development of fisheries are as follows :

1. **Rural Agriculture :** The main object of the programme is to produce qualitiy fish seeds through farmers. The Government is providing 25% subsidy towards cost of construction of fishpond in beneficiaries own land to create permanent assets and the balance amount of 75% of unit cost is borne by the beneficiary. About 83 hectares of water area have been brought under this programme with an estimated production is about 800 Kg. To 1000 Kg. Per hectare.

2. Paddy cum Fish culture : Integration of paddy with fish is very popular in Arunachal Pradesh. It is in practice and found to be successful in this district. It is a scheme with nominal input of common carp fingerlings where the paddy cultivation stands to gain a substantial income of Rs. 5000/- per hectare per year. About 65% hectares of paddy fields have been brought under this programme.

3. **Government farms :** There are three Government fish seed farms in the district. Fish culture has been successfully taken up at these farms producing fish and fish seeds and supply to the beneficiaries of this district.

4. **Extension and Training :** Under this programme the department of fishery is conducting fish farmers training camp every year. In this training the way of scientific fish farming techniques are imparted to the farmers at the Government fish seed farms through practical demonstration to the farmers.

5. **Integrated farming :** The people of this district is in the habit of keeping pig for consumption. Farmers are being advised to construct a pig shed around the fish ponds so that waste products may fall directly in to the ponds and act as a manure of fish which may minimize the cost of feed and fertilizers. Besides this, fish cum duck culture programme has been taken up on subsidy basis. About 40 unit of duck-cum-fish culture and 26 units of pig-cum-fish culture have been taken up so far.

Textile and handicrafts

The department of Textile and Handicrafts has been playing an important role in the rural economy which provides basic needs of people and the only life line for each sustainable growth to improve quality of life. The basic policy and objective of the department has therefore been to sustain the rich handicrafts and Textiles tradition of the district and also to promote Textile and handicrafts culture and Tradition of the district.

The department is having one craft centre at district headquarters Daporijo, five weaving centres at Mori-mugli, Giba, Taliha, Siyum and Nacho to provide practical training to the local youths and artisans. The departments is encouraging the diploma holder trainees and artisans to establish their own SSI unit for self employment. There is one sales Emporium to assist marketing facilities to the local artisans. Besides, State Governments and central Governments use to pay financial assistance, training assistance and to supply raw materials, tools and equipments etc. to the needy local entrepreneurs.

The department has taken up implementation of sericulture scheme in mulberry and Eri sector. There are 2 Sericulture Demonstration farms, one at Siyum and the other is at Daporijo, the district headquarters for motivation and demonstration purpose to the local people.

The department has initiated to impart training for production of cane and bamboo handicraft items to the local people. The local people of the district are having inborn talents in handicrafts sector and could be developed their Cane and Bamboo production programme to provide quality products.

Under the Khadi and Village Industry Sector Arunachal Pradesh governments has provided margin money to many Village Industries unit for self employment. There is a vast potentiality for development of Khadi and Village Industries in the district. The department has encouraged the local people for setting up of Village Industries like Cane & Bamboo, Blacksmith, Carpentry, Knitting, Tailoring, Silversmith, Tinsmith and Bee keeping etc.

Source : Assistance Director of Textile and Handicrafts, Upper Subansiri district, Daporijo.

Transport and Communication

Transport and Communication problem in Arunachal Pradesh is perhaps one of the gravest in the country. Geographical location and mountainous nature of whole of Arunachal Pradesh has added to the poor system of communication.

Due to loose mountain formation, most of the districts become vulnerable to landslides specially during monsoon period.

So far as transport and communication is concerned Upper Subansiri district is not so well developed. Daporijo is the headquarters of the district. During summer months communication becomes difficult due to soil erosion and land slides.

The different development programmes like construction of roads, buildings, bridges are carried out by Public Works and Rural Works Department.

A good number of old track and motorable roads has connected this district with the plains of Assam.

There are a good number of porter tracks constructed by the HED/RWD. The administration has to depend on the Agency Labour Crops (ALCs) for sending essential commodities and messages to the interior outposts as well as to the villages through these porter tracks.

Most of the vehicular traffic on the roads in the district are from the Governement side. The State Transport provides 1(One) regular passenger Bus Service between Daporijo to Itanagar via North Lakhimpur, 1(One) Bus Service from Daporijo to Silapathar, 1(One) Bus Service from Daporijo to Along, 1(One) Bus Service from Daporijo to Siyum via Taliha. Besides, Night Service Private Buses are also plying from North Lakhimpur.

Source : Circle Officer, Transport DC's Office, Daporijo.

Electricity and Power

The potentiality of Hydel Power in Upper Subansiri District of Arunachal Pradesh is assessed at 2100 MW.

At present, the Dulom Micro Hydel Scheme of 0.4MW is working and the power generated is not even sufficient for lighting purpose.

The following Schemes are under the active consideration of the Govt.

(i) The NHPC is taking up the subansiri Hydel project for a 2000 MW capacity and Sippi Micro Hydel Scheme of 4MW capacity.

(ii) Jugdin – Nallah MHS of 3MW capacity is also being taken up at Doyum under Upper Subansiri District.

(iii) Small Hydel stations of 50KW/30KW capacity are being taken up at Nacho, Taksing, Maro & Taliha.

The Electrification works are being carried out through Rural Electrification Schemes under REC and Pradhan Mantri Gramodaya Yojana for rural areas. Intensification schemes are also being taken up for the different areas under REC schemes.

At present there is power crisis in Upper Subansiri District as the power generated through Hydel (0.4MW) is not at all sufficient even for lighting purpose as the peak demand of power is about 1.5MW in Upper Subansiri District.

Source : Executive Engineer (Elect) Upper Subansiri district, Daporijo.

Rural Works

The main activities of the Rural Works Division are to maintain the rural link road, soil and water conservation, land development, staging huts, distribution of CSI sheets under Rural Housing Programme, construction of buildings from sights departments, like Education, Veterinary, Arts and culture, Fisheries etc.

To wean the villages away from traditional shifting cultivation, scheme for construction of bench terrace below 35% slope are being excavated. Torrent control scheme bank, erosion control with embankment have been taken up. Spurs are also taken up under soil conservation schemes to project the valuable cultivation fields from the vagaries of nature.

Construction of Rural Link Road (PLR)

Under this programme each village/hamlet is to be connected by motarable road. Soiling and metalling and black topping, cross drainage structures etc. are taken up. Approximately 6000 kilometers are achieved so far from 1991 to 2000.

Construction of suspension bridges

It is same to RLR head till now, this division has constructed 25 WRSB to facilitate inter villages connection.

Rural Housing

Under this programme, CGI sheets worth Rs.15,000/- are distributed to needy villagers, so far 400 hundred families have been benefited under this

division since 1991 as per the recommendation of beneficiaries made by the district authority.

Education

With the aim in providing educational facilities to the children of age group 6-14 years the department of education has set up a number of Schools in the district.

Enrolment of Students as on 31st December, 2000

Students	Year 1991 – 2000
Boys	7408 – 8550
Girls	4397 – 7150
Total	11805 – 15700

Position of Educational Institution

Categories of Educational Institution	Position 1991	Position 2000
Primary	97	103
Middle	21	27
Secondary	4	5
HR. Secondary	2	3
Community School	-	27

Private School

1.	Jawahar Navodaya Vidyolaya	-	01
2.	Vivekananda Kendriya Vidyalaya	-	01
3.	Primary	-	08
4.	ITI	-	01

To promote and provide educational facilities to poor and talented children incentive in the form of stipend has been given to Arunachal Pradesh tribal students.

No. of beneficiaries

Boys	2162
Girls	2150
Total	**4762**

Villages of the district are scattered and thinly populated. Most of the villages are covered with thick forests and link roads are inadequate. Besides, streams and rivers are also causing problems to school going children.

Adult education

Public Health Engineering Department

The main activities of Public Health Engineering Division, is to provide safe and portable water to the public. To provide water supply facilities through gravitational forces from open stream almost all the villages are covered by water supply with G.I. pipes and only in some of the villages with poly pipes because of interior area.

Briefly the following works are covered under this sector.

1. Providing water supply to all villages and urban areas.
2. Extension, modification, renovation and augmentation of existing water supply schemes as per necessity.
3. Filtration facilities in some selected villages.
4. Construction of low cost latrine.
5. Regular maintain of water supply system.

Source : Executive Engineer, PHED. Upper Subansiri, Daporijo.

Medical

The following Hospital/Health Unit/Dispensaries/ Sub-centres are functioning in the Upper Subansiri district during the year 1991 – 2000.

1.	District Hospital Daporijo		
	(a) General Bed	-	84
	(b) T.B. Bed	-	10
	(c) Isolation	-	5
2.	Taliha PHC	-	10 bed
3.	Maro PHC	-	10 bed
4.	Health Unit :		
	(a) Dumporijo	-	8 bed
	(b) Muri	-	4 bed
	(c) Settam	-	2 Emergency bed
	(d) Lingdam	-	2 bed
	(e) Nacho	-	2 bed
5.	Dispensary :		
	(a) Taksing	-	2 Emergency bed
	(b) Limeking	-	2 bed
	(c) Siyum	-	4 bed
6.	Sub – centre	-	Sippi, Nilling, Pakpumaling, Baririjo, Biyak Rijo, Chotarijo,

			Kuporijo, Bui, Mite, Jigi (Homeo), Puch-igeko (H), Gigi-Baja (Gepen),Giba, Jeram Lakbak Gongo, Kodak Tasidoni are the Health Sub - Centre functioning in the district.
7.	Ayurvedic Dispensary	-	An Ayurvedic clinic is functioning in the district hospital at Daporijo,the district headquarters of the district.

Source : District Medical Officer , Daporijo

Publicity – Tourism

The scope and function of publicity tourism in this district is of immense importance. This district can boast of scenic beauty of landscapes. There are lot of places of tourist importance yet unstrapped. The important places are menga Mondir, Achingmiri, Likosui bird sanctuary at Baririjo. Mysterious lake near Taliha, mystery of rolling stone at Don village etc.

Horticulture

Upper Subansiri District is hilly region lies between latitudes 27’ 25’ N and Longitude 93’ 13’ E 94’ 36’ E with climatic regions ranging from subtropical to temperate Zone, though shifting cultivation is in practice but due to undulating Topography features, low income per unit area, low productivity per hectare with high cost of cultivation resulting into diversion of agrarian population from cereal production to Horticulture production. Besides, suitable agro climatic condition, varied soil types, abundance rainfall the productivity of Horticulture crops per unit area is very high, realization of high income per unit area and perennial nature of Horticulture crops offers immense scope for orchard grower of this district.

Government has taken up a number of feasible and suitable programmes for improvement of Horticulture production in the district which are as below :

1. Maintenance of Horticulture nursery.
2. Control of shifting cultivation.
3. Rejuvenation of old orchard.
4. Horticulture tools & implements.
5. Farmers training programmes.
6. P.P. chemical and equipments.
7. Integrated spices development programme.
8. Technology Mission Horticulture New programme started 2001-2002.

In the recent past people participation in Horticulture has increased manifold due to regular awareness campaign, farmers training programme in transfer of technology, increase in middle men in marketing of Horticulture produce, increased transport facilities, 100% Government assistance and realization of perennial source of income from orchard made the farmers Horticulture as their mainstay.

The change in the food habits of the district population has also increased the local consumption of surplus production and increasing the commercial viability of Horticulture Development. The Government has launched a new scheme called technology Mission for Horticulture Development in the District.

Source : District Horticulture Officer, Upper Subansiri Dist. Daporijo (A.P).

Co-operative Movements

Administration : The office of the Asstt. Registrar of Co-operative Societies, Daporijo is functioning with effect from 1988-89 to look after the business activities of the managerial staff of various Co-operative Societies of the District.

Cooperative Societies : A union has been organized in the District as the District Cooperation Union for smooth functioning of Cooperative Societies such as Dapo LAMPS Ltd Daporijo, Thrift and Credit Society Daporijo, Arunachal Pradesh State Cooperative Apex Bank Daporijo, Taliha CGS Ltd, Seber CGS Ltd, Siyum, NAA CGS Ltd. Taksing and Sikapotu Piggery Coop. Society of Tabarijo.

The aim and object of the various Coop. Societies are to get profits for the share holders, to give employment to the needy people, to make commodities available to the people, to create facilities of deposit and loan to sell the commodities at reasonable price.

Development Activities/Achievement

1. Dapo Lamps Ltd. : It plays a very important role in rendering services to the District people and has wider coverage in activities. It has opened branches in Baririjo, Dumporijo, Tabarijo, Muri-Mugli at Gandhi Market, Maro, Kodak and Nacho branches and counters functioning in the District.

It runs daily business transaction by the Managing Director, who is assisted by one Assistant Deputy Manager and other sale staffs under the direction of Board of Directors headed by the Chairman.

This Society functions under the advice of a Board of Eleven Directors (members) headed by a Chairman and it is managed by the Manager assisted by two Deputy Assistant Managers twenty Sale Staff and forty other Staff. It has 139 Shareholders with the deposit of Government Share participation Rs.3,56,500/- and individual share deposit of Rs.42,030/- The Society is maintaining fifteen sale counters with seven Fair Price shops in the District. It is proposed to establish a CGS near Medical line.

2. Thrift and Credit Society : This Society functions at Daporijo only to open facilities of deposits and loans for shareholders especially among the Government servants. It is managed by a Manager assisted by Assistant and Deputy Manager under the guidance of Board of Directors headed by Chairman and Secretary.

3. Consumers General Stores : Consumer general stores have also been opened in various places such as Daporijo, Taliha, Siyum, Nacho and Taksing by autonomous consumers Cooperative Societies to make essential commodities available for sell at reasonable prices and to deal public distribution system for the poor people. Every Consumers' Cooperative Society runs independently under the Board of Directors of respective places or Society.

4. Other Societies : Besides some other Cooperative Societies are also functioning in the District namely, Handloom Cooperative Society Daporijo, Fishery Cooperative Society Dumporijo, and Sika-potu piggery Coop. Society of Tabarijo and Kujin Rijo MPCS Taliha under the supervision of managing Committees of respective places.

Source : Asstt. Registrar of Co-operative Societies, Upper Subansiri District, Daporijo.

Research

Introduction : All these four tribal groups namely Tagin, Nah,Hillmiri (Nishing) and Gallo of the district are of Mongolian origin. They have migrated from the Tibet in different times and through different routes to settle in their present places. Nahs refer LUNG (a village in Tibet) as their source of migration and the Tagins also recall that they have migrated from Penji, Tadadege etc. of Tibet. Some other groups have migrated originally from Tibet along the river subansiri.

Archaeology : A tunnel exists on the right bank of the river Subansiri at the side of the Daporijo town which reportedly a hole passes along the airfield under the ground. It is risky to explore the interior of the tunnel. The mouth of the cave is seemingly a man made structure that been made in pebbles and boulders.

Menga Cave : It is located at about 23 Kms. away from Daporijo at a hill slope near the confluence of river subansiri and Menga. The cave is metamorphic formation of granite and sand stones. Two tunnels of the cave extended depth in north-west directions. Three stones having Tibetan inscriptions have been found from the inside of the cave. Two of these have been collected by District Research Officer, Daporijo for preservation in museum. Recently, this cave is used as Shiva Temple which attracts large number of local people and tourists every day. It is an important tourist place of Upper Subansiri District which requires exploration, maintenance and beautification.

Language : The four language groups of the district are Nah which speaks Nah dialect; Hillmiri group that use it's own language; Tagin speak Tagin dialect while the Gallo group speaks Adi language. Every group uses it's traditional language in different way but classified as Tibeto-Burman language in which the basic languages are similar with certain local variations in wordings and pronounciations. In early days the members of every language group speak own dialect only and they faced problems in communication of expressions. But there is change in due course of time due to development of education, communications, mingling settlements and trades that many of them understand the languages of

neighbouring groups. Also understand and speak English, Hindi and Assamese. Hindi language is used as medium of expression among the people in all the places even in remotest villages.

Songs and Dances : The recreations which make the occasions and ceremonies fruitful and meaningful are the songs & dances. The songs are mainly the descriptions of occasions or back ground, descriptions of loves, narration of folktales and chanting of prayers. Such traditional songs have been performed in pujas, ceremonies and other occasions like people gatherings. The dances been performed with the songs except the war dances of the male. Some of the dances are KUBA, TENDONE, POJUK, NITIN and PONUNG of Hillmiris; SUN-RABE, TAKAR GENE, PONUNG and KONYI BOKAR of the Tagins; TAKAR GENE, PONUNG and POPIR dances of the Gallos.

Certain trends of change been noticed in traditional songs and dances of these groups. In songs, modern young boys and girls are not interested in singing of stories and prayers in traditional way and tunes. Their interests diverted to modern love songs and description songs in the tunes of film songs.

Dress : The dress of Tagin is partly similar to that of Gallo, Bori and Bokar group; Gallo dress also partly similar to that of Minyong group. In male dress, Hillmiri used LENGTA cloths and underwear; handloom cloths to cover main bodies by leaving opened the legs, arms, necks and above; Head gears of cane strings adorn with long brass pin, feathers, claws of prey-birds etc. carried long duos with sheats decorated in fur objects or animal skins; used bead coils and carried small kit bag made of cane strings.

The Hillmiri women wear handloom skirts, belts of string (UK), bead coils, earrings etc; Tagin women use locally made bracelets, imported cloths, bead necklaces, earrings, cloths caps etc. The Gallo women wear bracelets, earring, bead necklaces and self-made or local made cloths.

But the boys and girls of to-days discard the old traditional way of dress. Girls of school going age and women of modern families use chapels, shoes, bangles, modernized market cloths, Kaajal, Lipstick, powder, creams, hair oils, modernized necklaces and earrings. School going boys and enlightened men also use chapels, shoes, powder, cream, hair oil, under wears, half-pants, long-pants, market coats, shirts and caps. They avoided to carry long daos and other olden items in the town areas. Every one of the town is dressed with modern fashion like that of the town settlers of different communities.

Festivals : The major traditional festivals of the district are SIJU and LOSSAR of Nah group, MOPIN of Galos, SI-DONI of the Tagins and BOORI-BOOT of the Hillmiris. SIJU and LOSSAR been celebrated during November – December and February in which TAKPASIRI (spirit for good life) is prayed to mark the beginning of the new year. MOPIN is celebrated in April to pray PINKU, PINTE and DIGO ANE for good life of the people and prosperity of food grains.

The performance of festivals have developed now a days towards modernity. The festivals which were originally observed in individual houses and villages are being celebrated commonly in large scales as community festivals. Publication of booklets on festival mythologies, invitation of chief guests and other guests with presentation of gifts, arrangements of dance parties colours, arrangements of public meetings, games and sports and prizes to the winners, dinner and lunch parties, invitations of dance parties by able families etc. are the major acts and new change leading to the way of modernization.

Religion and Beliefs

In religion, Tagins are generally Buddhists though some of them are partly animists. The Galos, Hillmiris and Tagins are animists who commonly believe DONI-POLO (Sun-Moon) as their Supreme God. Also believe the existence of spirits of various natural objects and deities for different living and non-living nature.

All animists of the four tribal groups believe that the Sun-God (DONI-POLO) knows everything and all acts of the people. Thus, they call the name of DONI POLO at the time of administration of examining animal and fowl livers, eggs etc., in conduct of oaths and ordish etc. to detect the criminal acts. They examine liver and egg to foretell for future success of about incidents too.

They believe that different spirits bring different influences on the life of people. This, it is essential

to perform individual rituals to appease the good and evil spirits to get success to protect the people from evil influences. Individual families engage priest to perform prayers ritual and offerings to the related spirits when one fall, seeks to get rich harvests in agricultural products or success in hunting.

Some changes have been observed in the religious life of the people with the changing of the minds that many of the animists have diverted to Christianity or Hindu.

Food Habits

Rice is the staple food of the people which is cooked and eaten. Vegetables is also an important items which is boiled with salt and chillis. They also eat maize grains either toasted or fried without oil, tapioca, sweet potatos, fish and meats, drinks of soup of boiled meat, fishes and vegetables; drinks of rice –beer (OPO), chewing of local tobacco leaves fresh or dried; smoking of tobacco leaves in dried with smoking pipes were the main and common traditional practices of these four tribal groups which are though to be economic and harmless to the health. The basic practices continue till to-day but modernizations and change is seen in certain habits which is as follows:

At present the people of these communities have taken up modern fashion in their food habit too. They use to prepare rice in pressure cookers and eat in plates; vegetables and meats are either cooked or fried with oil and add species to make it much delicious. The people now use to drink exported liquor in their home in addition to local drinks. Now a days smoking of cigarettes and bidis are found to be widespread instead of the age old traditionally used local smoking items with the smoking pipes.

Marriage

Both monogamy, polygamy, marriage from outside the clans within the communities, force and child marriage on payment of bride prices and keeping the wives in down-trodden positions under patriarchal system were the common and age old traditional practices of these groups.

Some changes been noticed distinctly that people of these communities are conscious in modern days especially among the town settlers and educated elites. They understand the equalities of both men and women; Men realize the troubles of women; women also are aware of their equal rights and have formed women associations to protect their rights and equalities. As a result, it has reduced the number of polygamous marriage; love marriages and selections of own life partners also have been allowed, marriage with outsiders including non-tribals have been also taken into account, number of force and child – marriage reduced in some places. The able wives control their husbands in family affairs and women get right to divorce husbands on return of the bride prices paid for.

Social Life

The frequent conflicts, attacks and fighting among the villages and communities of those primitive days have come to an end. The tribal groups of the district is passing now a days a new phase of change and taken up modernization. Some people inhabiting remote villages are still looked to be primitive and they are afraid of mix up with the other people of the civilized world but majority of the people dwelling in urban and semi-urban areas like students, public leaders, Gaonburas, contractors, business persons, government servant and other modern youth have changed a lot and they mix up with the people of other villages, communities and states in free minds. Not only mingle with them but also involve in business affairs, political-interaction and other alike activities. Secondly, they are fully aware of the importance of modernization which enable them to make efforts to adopt modern ways of life and actions. Many of them have successfully achieved and attained at new ways of life. Thirdly, people maintain peace and harmony among them. No major issues of group suppressing, inter-village disputes, inter-clan disputes and inter-communal disputes have occurred during the last decade. Fourthly, they maintain equal opportunities of both men and women and their right, training and education, jobs, political life etc. has a greatest change in the social life of the people. Fifthly, many of them realize the affects of child-marriage, force-marriage, criminal acts and other evil practices of the society. Such consciousness make them to discard the evil practices and make them to help the administration in eradicating such type of unwanted practices murder cases have recently been reduced.

The traditional culture and practices of the four groups are broadly similar with little variations except

the dress and the Buddhist life of the Nahs. Similarities are noticeable in languages, aspects of education and learning, food habits, marriage, agriculture and farming, in belief and practices of animism, economic life, political life and general social life.

In language, every group speaks own language which is similar and dis-similar partly to those of other groups. Hindi is used as common language for those who unable to speak the dialects of neighbouring groups. The young learn everything from friends, elders and parents. The songs and dances are the parts of festivals which are performed recently in modern ways. Traditionally, each group has its own ways of dress. The people of other groups can be identified terms of dress. But in the case of present day people of different group cannot be identified in terms of dress as they use common dress available in the market and use common dress.

Panchayati Raj

The Panchayat Raj was introduced in the district with the North East Frontier Agency, Panchayat Raj Regulation 1967, under this regulation (1) the Gram Sabhas exist at the village level (2) the Anchal Samities cover the level of blocks (3) the Zila Parishad operates at the district level and (4) the State Council operates at the state level. The Agency council/ Pradesh council, however, had lost its existence with the formation of Legislative Assembly in the Union Territory. The Regulation provides for effective participation of the people in the administration of the Union Territory through the institutions set up under the Panchayat Raj Scheme. The Anchal Samities and the Zila Parishads function as advisory bodies only. The Gram Sobhas or the Village Councils have, however, some administrative power within certain limitations.

Source : Dy. Commissioner, Upper Subansiri District, Daporijo.

Minerals and Mining

In upper Subansiri district high grade metamorphic rocks like biotitic, garnet, sillimanite and graphite schists, magnetite and intrusions of pegmatite, tourmaline granite are seen in Lamdak and Daporijo area. The regional trend is NNE Co NE – SSW to SW section. These works are supposed to continue westwards in Kamla Valley upstream of the confluence of Pien river. These rocks appear to be folded in synform and antifoam.

Potin Khetabari formation

It comprises chlorite biolite and same times garnet ferrous schists with grey to whitish quartzites to quartz muscovite schists up in the succession as seen in Ranga valley.

The Daporijo crystal lines, potin and Khetabari formations are considered to form a thrust sheet sitting on the younger sediments. This can be broadly inferred from the relation, these metamorphic have with the Miri quartzites etc. in Kamla valley etc. and the ant formal core of dolomite etc. surrounded by these over thrust metamorphic as seen in the valley up stream of Daporijo on way to Taliha.

Miri quartzite and associated rocks

Underlying the metamorphosed are the sediments comprising pink white, brown grey quartzites, some basic volcanic rocks, dolomiles cherts and grey to ochery shales. The dolomitic and quartizitic rocks near Taliha in the upper Subansiri valley belong to this group of sediments.

Gandwana rocks

In the upper Subansiri district Gandowanas form a narrow strip. The black or dark shales are sometimes associated with rather grunish shales and rusty looking chirty and carbonate nodules. Gandawanas as a whole are very attenuated and associated with pinkish quartzites and grey sandstones with peddles of pink quartzite and are found in different parts of the district.

Siwalik belt

The Siwalik belt consists of hard, fine grained, greenish grey sandstones with intercalations of greenish to brownish days towards the exposed base. These rocks of Siwalik belt are distributed in some of the areas of the upper Subansiri.

(v) Census Concepts

Building

A “Building” is generally a single structure on the ground. Sometimes it is made up of more than one Component Units, which are used or likely to be used as dwellings (residence) or establishment such as shops, business houses, offices, factories, work-shops, worksheds, schools, places of entertainment, places of worship, godowns, stores, etc. It is also

possible that building which have Component Units may be used for contribution of purposes such as shop-cum-residence, workshop-cum-residence, office-cum-residence, etc.

Permanent houses

Houses in which both wall and roof are made of permanent materials. Materials of wall can be burnt bricks, GI/metal/Asbestos sheets, stone with lime or cement or cement concrete. Roof may be made of tiles, slate, shingle, corrugated/galvanized iron or zinc/ other metal or asbestos sheets, bricks, lime and stone, stone, RBC/RCC or concrete.

Semi-permanent houses

Houses in which either wall or roof is made of permanent materials and the other is made of temporary materials.

Temporary houses

Houses in which both wall and roof are made of materials which have to be replaced frequently. Wall may be made of grass, thatch, leaves, reeds, bamboo, mud, plastic/polythene, un-burnt bricks or wood. Roof may be made from grass, leaves, bamboo, thatch, mud, un-burnt bricks or wood.

Room

A room should have four walls with a doorway and a roof over head and should be wide and long enough for a person to sleep in, i.e., it should have a length of not less than 2 metres and breath of at least 1½ metres and 2 metres in height. An enclosure which is used in common for sleeping, sitting, dining, storing and cooking etc., should be regarded as a room. An unenclosed verandah, kitchen, store, garage, cattle-shed and latrine and rooms in which a household industry such as a handloom is located, which are not normally used for living or sleeping are excluded from the definition of a living room for the purpose of this question.

One is likely to come across conical shaped hut or tent in which human beings reside. In such improvised accommodation, there will be no four walls to a room and therefore, the above definition would not strictly apply to such types of accommodation. In such cases, the tent or conical hut etc., have been construed to be a room.

In certain parts of the country, particularly in rural areas, the pattern of housing may present some problems. For example, a household may be in occupation of several huts put to different uses such as main residence, sitting room, store and even for sleeping at night. By strict application of the definition each one will be reckoned as a census house, but this does not reflect the real situation. While huts used as sleeping rooms beyond the main residence, should be counted as rooms rather than separate census houses.

If a garage is used by a servant and he lives in it as a separate household, it should be reckoned as a room available to the servant's household. If the servant is considered as a member of the household then the garage room should be reckoned as an additional room of the household.

Census house

A Census House is a building or a part of a building used or recognised as a separate unit because of having a separate main entrance from the road or common courtyard or staircase, etc. It may be occupied or vacant. It may be used for a residential or non-residential purpose or both.

Village

The basic unit for rural area is the revenue village which has definite surveyed boundaries. The revenue village may comprise of one or more hamlets but the entire village is treated as one unit for presentation of data. In unsurveyed areas, like villages within forest areas, each habitation area with locally recognised boundaries is treated as one village.

Town/Urban areas

The following areas are treated as towns/urban area.

a) All places with a municipality, municipal corporation, cantonment board or notified town area committee, etc.

b) All other places which satisfy or are expected to satisfy the following criteria simultaneously

   i) A minimum population of 5,000 ;

   ii) At least 75 per cent of the male working population engaged in non-agricultural pursuits ; and

iii) A density of population of at least 400 per square kilometre (1,000 per square mile).

City

Towns with population of 1,00,000 and above are called cities.

Urban Agglomeration

An Urban Agglomeration is a continuous urban spread constituting a town and its adjoining urban outgrowths (OGs) or two or more physically contiguous towns together and any adjoining urban outgrowths of such towns. In some cases railway colonies, university campuses, port areas, etc., may come up near a city or statutory town outside its statutory limits but within the revenue limits of the village or villages contiguous to the town or city. Each such individual area by itself may not satisfy the minimum population limit to qualify it to be treated as an independent urban unit may deserve to be clubbed with the town as a continuous urban spread.

For the purpose of delineation of Urban Agglomerations during Census of India 201, following criteria are taken as pre-requisites :

(a) The core town or at least one of the constituents towns of an urban agglomeration should necessarily be a statutory town :

and

(b) The total population of all the constituents (i.e., towns and outgrowths) of an Urban Agglomeration should not be less than 20,000 (as per the 1991 Census).

With these two basic criteria having been met, the following are the possible different situations in which Urban Agglomerations would be constituted :

(i) a city or town with one or more contiguous outgrowths;

(ii) two or more adjoining towns with their outgrowths ; and

(iii) a city and one or more adjoining towns with their outgrowths all of which form a contiguous spread.

Household

A 'household' is usually a group of persons who normally live together and take their meals from a common kitchen unless the exigencies of work prevent any of them from doing so. A household may consist of related to each other, unrelated or both. Examples of unrelated household are boarding houses, messes, hostels, residential hotels, rescue homes, jails, ashrams, orphanages, etc. These are called 'Institutional Households'. There may be one member household, two member households or multi member households. For census purposes each one of these types is regarded as a 'Household'

If a group of persons who are unrelated to each other live in a census house but do not have their meals from the common kitchen, they would be treated as a separate household. The important link in finding out whether it is a household or not is a common kitchen. In a few situations, it may become difficult to apply the definition of household strictly. For example, a person living alone in a census house, whether cooking or not cooking meals, will have to treated as a household. Similarly, if husband and wife or a group of related persons are living together in a census house but not cooking their meals, will also constitute a normal household.

For this purpose of census there are three type of Households i.e., Normal Household, Institutional Household and the Houseless Household.

Institutional household

A group of unrelated persons who live in a institution and take their meals from a common kitchen is called an Institutional Household. Examples of Institutional Households are boarding houses, messes, hostels, hotels, rescue homes, jails, ashrams, orphanages, etc.

Houseless household

Households who do not live in buildings or census houses but live in the open on roadside, pavements, in hume pipes, under fly-overs and staircases, or in the open in places like worship, mandaps, railways platforms etc., are treated as Houseless households.

Scheduled Caste and Scheduled Tribe

Article 341 of the Constitution provides that the President may, with respect to any State or Union territory, specify the castes, races or tribes or parts of or groups within castes, races or tribes which shall for the purposes of the Constitution be deemed to be

Scheduled Castes in relation to that State or Union territory. Article 342 similarly provides for specification of tribes or tribal communities or parts of or groups within tribes or tribal communities which are to be deemed for the purposes of the Constitution to be Scheduled Tribes in relation to the various States and Union territories. In pursuance of these provisions, the list of Scheduled Castes and / or Scheduled Tribes are notified for each State and Union territory and are valid only within the jurisdiction of that State or Union territory and not outside.

It is important to mention here that under the Constitution (Scheduled Castes) Order, 1950, no person who professed a religion different from Hinduism was deemed to be a member of a Scheduled Caste in addition to every member of the Ramdasi, Kabirpanthi, Majhabi or Sikligar caste resident in Punjab or Patiala and East Punjab States Union were in relation to that State whether they professed the Hindu or the Sikh religion. Subsequently, in September 1956, by an amendment, the Presidential Order of 1950 and in all subsequent Presidential Orders relating to Scheduled Castes, the Hindu and the Sikh religions were placed on the same footing with regard to the specification of Scheduled Castes. Later on, as per the amendment made in the Constitution (Scheduled Castes) Order 1990, the Hindu, the Sikh and the Buddhist were placed on the same footing with regard to the recognition of the Scheduled Castes.

The lists containing the names of the Scheduled Castes and the Scheduled Tribes applicable for the Census of India 2001 in Arunachal Pradesh are given below :

Scheduled Castes

The castes which are scheduled in Assam under "The Scheduled Castes and Scheduled Tribes Lists (Modification) order, 1956", (part II of Scheduled I) are to be treated as Scheduled CASTES IN Arunachal Pradesh. The following are the Scheduled Castes in Assam which are also to be treated as Scheduled Castes in Arunachal Pradesh for 2001 Census.

1 Bansphor
2 Bhuinmali or Mali
3 Brittial-Bania or Bania
4 Dhupi or Dhobi
5 Dugla or Dholi
6 Hira
7 Jalkeot
8 Jhalo, Malo or Jhalo-Malo
9 Kaibartta or Jaliya
10 Lalbegi
11 Mahara
12 Mehtar or Bhangi
13 Muchi or Rishi
14 Namasudra
15 Patni
16 Sutradhar

Scheduled Tribes

In the Presidential Order of 1956, mentioned above, it is said that all the tribes of the Agency are to be treated as Scheduled Tribes. At paragraph 2 of Part II of Schedule III of the order an illustrative list of the tribes of Arunachal Pradesh is provided. It has been mentioned that the Presidential Order is illustrative and not exhaustive with respect to the tribes of Arunachal Pradesh. The names of the following tribes were returned during 1971,1981,1991 and 2001 Censuses.

1 Abor
2 Aka
3 Apatani
4 Dafla
5 Galong
6 Khampti
7 Khowa
8 Mishmi
9 Momba
10 Any Naga Tribe
11 Sherdukpen
12 Singpho

Language and Mother tongue

As per the census concept, each language is a group of mother tongues. The census questionnaire

collects information on the mother tongue is defined as the language spoken in childhood by the person's mother of the person. If the mother died in infancy, the language mainly spoken in the person's home in childhood will be the mother tongue. In case of infants and deaf mutes, the language usually spoken by the mother is considered as mother tongue. It is not necessary that the language spoken as mother tongue should have as script. The mother tongues returned by the respondents in census are classified and grouped under appropriate languages according to their linguistic characteristics.

Literate

A person age 7 years and above who can both read and write with understanding in any language is taken as literate. A person who can only read but cannot write is not a literate. It is not necessary that to be considered as literate, a person should have received any formal education or passed any minimum educational standard. Literacy could have been achieved through adult literacy classes ot through any non-formal educational system. People who are blind but can read in Braille are treated as literates.

Literacy rate

Literacy rate of the population is defined as the percentage of literates in the age group seven years and above. For different age groups the percentage of literates in that age group gives the literacy rates.

Educational level

The highest level of education a person has completed.

Work

Work is defined as participation in any economically productive activity with or without compensation, wages or profit. Such participation may be physical and or mental in nature. Work involves not only actual work but also includes effective supervision and direction of work. It even includes part time help or unpaid work on farm, family enterprise or in any other economic activity. All persons engaged in "work" as defined above are workers. Persons who are engaged in cultivation or milk production even solely for domestic consumption are also treated as workers.

Reference period for determining a person as worker and non-worker is one year preceding the date of enumeration.

Main Worker

A person who has worked for major part of the reference period (i.e., six months or more during the last one year preceding the date of enumeration) in any economically productive activity is termed as 'Main worker'.

Marginal Worker

A person who worked for less than six (6) months of the reference period (i.e., in the last one year preceding the date of enumeration) in any economic activity is termed as 'Marginal worker'.

Non worker

A person who has not worked at all in any economically productive activity during the reference period (i.e., in the last one year preceding the date of enumeration) is termed as 'Non worker'.

Cultivator

For purposes of the Census, a person is classified as Cultivator if he or she is engaged in cultivation on land owned or held from government or held from private persons or institutions for payment in money, kind or share. Cultivation includes effective supervision or direction in cultivation.

A person who has given out her/his land to another person or persons or institution(s) for cultivation for money or share of crop and who does not even supervise or direct the cultivation in exchange of land, is not treated as cultivator. Similarly, a person working on another person's land for wages in cash or kind or a combination of both (agricultural labourer) is not treated as cultivator.

Cultivation involves ploughing, sowing, harvesting and production of cereals cereal and millet crops such as wheat, paddy, jowar, bajra, ragi etc., and other crops such as sugarcane, tobacco, ground nuts, topioca etc., and pulses, raw jute and kindred fibre crop, cotton, cinchona and other medicinal plants, fruit growing, vegetable growing or keeping orchards or graves, etc.. Cultivation does not include the following plantation crops – tea, coffee, rubber, coconut and betel nuts (areca).

Agricultural Labourer

A person who works on another person's land for wages in money or kind or share is regarded as an agricultural labourer. She/he has no risk in the cultivation but merely works on another person's land for wages. An agricultural labourer has no right of lease or contract on land on which she/he works.

Household Industry worker

Household Industry is defined as an industry conducted by the head of the household herself/ himself and or by the members of the household at home or within the village in rural areas and only within the precincts of the house where the household lives in urban areas. The larger proportion of workers in household industry should consist of members of the household including the head. The industry should not be run on the scale of a registered factory which would qualify or has to be registered under the Indian Factories Act and should be engaged in manufacturing, processing, servicing and repairs of goods.

It does not include professions such as a pleader, Doctor, Musicians, Dancer, Washerman, Astrologer, Dhobi, Barber etc. or merely trade or business, even if such professions, trade or services are run at home by members of the household.

Other Worker

A person who has been engaged in some economic activity during the reference period but not as a cultivator or agricultural labourer or in household industry is termed as a 'Other Workers (OW)'. The type of workers that come under this category of 'OW' include all government servants, municipal employees, teachers, factory workers, plantation workers, those engaged in trade, commerce, business, transport, banking, mining, construction, political or social work, priests, entertainment artist, etc. In effect, all those workers other than cultivators or agricultural labourers or household industry workers, are 'Other Workers'.

Work participation rate

Percentage of workers (main + marginal) to total population.

Population Density

Population density is the number of persons inhabited per square kilometre of the area.

Age

Age is measured in terms of completed number of years.

Sex ratio

Number of females per 1000 males in a population.

(vi) Non Census Concepts

Improved drinking water

If the household had access to drinking water supplied from a tap, hand pump, tube well or well (protected or covered) situated within or outside the premises, it is considered as having access to improved drinking water.

It may be mentioned that such uniform definition may not be valid across all states.

System of sewerage

Generally, a sewerage system means a network of mains and branches of underground conduits for the conveyance of sewerage to the point of disposal. Sewers that carry only household and industrial wastage are called separate sewers; those that carry storm water from roofs, streets and other surfaces are known as storm water drains, while those carrying both sewage and storm water are called combined sewers. However, in some towns which are not provided with such underground sewerage system, it is served by open surface drain, box drain, sylk pattern drain, etc., in those towns.

Type of latrine and method of disposal of night soil

There are three prevalent systems of disposal of human wastes, viz. (i) underground sewerage, (ii) sanitary water flush latrines with individual disposal systems, like septic tank, leaching cess pool and collecting well and (iii) dry type of latrines with manual scavenging.

The system of underground sewerage provides for the street sewerage with which are connected the sanitary latrines constructed in the houses having water closets and fitted with flushing cistern (or hand flushing). Through this sewer the faecal matter is transported without the need for scavenging. This system generally exists in cities and big towns.

Where the street sewer does not exist these sanitary water flush latrines are connected to a local septic tank with a sub-soil dispersion system or a leaching pit. Here the liquid wastes from the water closet is disposed of locally in leaching pit, a septic tank with a soil dispersion system is constructed. This dispersion requires an optimum travel through the pores of the soil which renders the harmful liquid bacterially innocuous by the slow process of filtration through the soil traversed.

Where the soil is impermeable, collecting wells are constructed and the sanitary water flush latrines are connected with them. These wells are cleaned at periodic intervals by a suitable device. The dry type of latrines are of service type latrine from where human excreta is removed by scavengers from house to house, in most cases carrying it on their heads or shoulders or in baskets with handle or wheel barrows. These are then collected in bullock carts or trucks or tractors and trolleys for being carried to the dumping grounds.

Fertility

In demography, the word fertility is used in relation to the actual production of children or occurrence of births specially live births. Fertility is a measure of rate at which population adds to itself by births and normally assessed by relating the number of births to a full or part of the population, such as number of married women or number of women of child bearing age. The definitions of the terminology used in computing different fertility rates are mentioned below:

Crude birth rate (CBR)

Ratio of the number of live births in a year to the mid year population, normally expressed per 1000 population.

$$CBR = \frac{\text{Number of live births during the year}}{\text{Mid –year Population}} \text{x1000}$$

Crude death rate (CDR)

Ratio of the number of live deaths in a year to the mid year population, normally expressed per 1000 population.

$$CDR = \frac{\text{Number of deaths during the year}}{\text{Mid –year Population}} \text{ x 1000}$$

Natural growth rate

Growth rate is obtained as the different between crude birth and crude death rate in the absence of migration.

Age specific fertility rate (ASFR)

Number of live births in a year to female population in any specified age group normally expressed per 1000 women.

$$ASFR = \frac{\text{Number of live births in a particular age-group}}{\text{Mid-year female population of the same age-group}} \text{ x 1000}$$

Age specific marital fertility rate (ASMFR)

Number of live births in a year to married female population in any specified age group normally expressed per 1000 women.

$$ASMFR = \frac{\text{Number of live births in a particular age-group}}{\text{Mid-year married female population of the same age-group}} \text{ x 1000}$$

General fertility rate (GFR)

Number of live births per 1000 women in the reproductive age-group (15-49) years in a given year.

$$GFR = \frac{\text{Number of live births in a year}}{\text{Mid-year female population of the age-group (15-49) years}} \text{ x 1000}$$

General marital fertility rate (GMFR)

Number of live births per 1000 married women in reproductive age-group (15-49) years in a given year.

$$GFR = \frac{\text{Number of live births in a year}}{\text{Mid-year female population of the age-group (15-49) years}} \text{ x 1000}$$

Total Fertility rate (TFR)

It is obtained as the total of the age specific fertility rates (number of children born per woman of the particular age) for the entire reproductive age span. It provides the average number of children that will be born to a woman under the fertility levels indicated by the age specific fertility rates assuming that there is no mortality of woman till the completion of reproductive period.

$$TFR = \frac{5 \times \text{S ASFR}_{15\text{-}19}^{45\text{-}49}}{1000}$$

Total marital Fertility rate (TMFR)

Average number of children that would be born to a married woman if she experiences the current fertility pattern throughout her reproductive span (15-49) years assuming that there is no mortality of woman till the completion of reproductive period.

$$TMFR = \frac{5 \times \text{S ASMFR}_{15\text{-}19}^{45\text{-}49}}{1000}$$

Age specific mortality rate (ASMFR)

Number of deaths in a particular age and sex group per 1000 population of the same age group.

$$ASMR = \frac{\text{Number of deaths in a particular age-group}}{\text{Mid-year population of the same age-group}} \times 1000$$

q1

Probability of dying between birth and age 1. This can be used as approximate value of Infant Mortality Rate (IMR) which gives the ratio of number of deaths in a year of children aged less than one year to the number of births in that year.

q2

Probability of dying between birth and age 2.

q5

Probability of dying between birth and age 5. This indicator is also known as Under Five Mortality Rate (U5MR).

Infant mortality rate (IMR)

Ratio of the number of infant deaths (deaths of children below one year) in a year to the number of live births in that year.

$$IMR = \frac{\text{Number of infant deaths during the year}}{\text{Number of live births during the year}} \times 1000$$

Infant mortality rate comprises of two parts, viz., Neo-natal mortality rate and Post neo-natal mortality rate. The neo-natal mortality rate also comprises of two parts viz., early neo-natal mortality rate and late neo-natal mortality rate. These are defined as:

Neo-natal mortality rate (NMR)

Number of infant dying within the first month of life (28 days or under) in a tear per 1000 live births of the same year.

$$NMR = \frac{\text{Number of infant deaths aged 28 days or under during the year}}{\text{Number of live births during the year}} \times 1000$$

Early Neo-natal mortality rate

$$= \frac{\text{Number of infant deaths of less than 7 days during the year}}{\text{Number of live births during the year}} \times 1000$$

Late Neo-natal mortality rate

$$= \frac{\text{Number of infant deaths of 7 days to less than 29 days during the year}}{\text{Number of live births during the year}} \times 1000$$

Post Late Neo-natal mortality rate (PNMR)

$$PNMR = \frac{\text{Number of deaths of 29 days to less than one year during the year}}{\text{Number of live births during the year}} \times 1000$$

Pre-natal mortality rate (PMR)

Number of still births plus deaths within 1st week of delivery per 1000 births in a year.

$$PMR = \frac{\text{Number of still births and infant deaths of less than 7 days during the year}}{\text{Number of live births and still births during the year}} \times 1000$$

Still birth rate (SBR)

$$SBR = \frac{\text{Number of still birth during the year}}{\text{Number of live births and still births during the year}} \times 1000$$

Maternal mortality rate(MMR)

Number of deaths of woman in the age group 15-49 while pregnant or within 42 days of termination of pregnancy from any related to pregnancy and child births in a given year.

$$MMR = \frac{\text{Number of maternal deaths to woman in the age group 15-49}}{\text{Number of live birth}} \times 1,00,000$$

Eligible couple (Couples per 1000 population)

Number of currently married females in the age group 15-44 years per 1000 persons of all ages.

Child woman ratio (0-4)

1. Number of children in the age group 0-4 years per 1000 woman in the age group 15-49 years.

Child woman ratio (5-9)

2. Number of children in the age group 5-9 years per 1000 woman in the age group 15-49 years.

Migration

Migration is the third component of population change, the other two being mortality and fertility.

A person is considered as a migrant by place of birth if the place in which he/she is enumerated during the census is other than his/her place of his/her birth.

Similarly a person is considered as migrant by place of last residence if the place in which he/she is enumerated during the census is other than his/her place of immediate last residence outside the village or town and not simply in another house or locality in the same village or town.

Certain aspects concerning temporary movement/ migration of people has been explained below as these are important components concerning migration :

(i) Migration of persons in search of job is high in the country. In many cases such migrants are only seasonal in nature. People migrate to other places for work in a particular season and come back again to their usual place residence after three or four months. All such workers are treated as migrants. Similarly, if a person moved to any other place for attending short term vocational or educational courses that lasted for only few months of a year, she/ he too were considered as a migrant.

(ii) Where a person had merely gone out to another place or had been shifting from one to another purely on tour, pilgrimage, visit to hospital for treatment or for temporary business purposes, such persons are not deemed to have had another residence different from the place where she/he or her/his family normally resides she/he is not considered as migrant.

(iii) A woman temporarily moves into a hospital or to her parents or other relative's house for delivery and if the hospital or the parents/relative's houses is in a place where the hospital or parents/relative's house is the place of last residence of the child but not the mother.

A new response category 'Moved after birth' was added in Census of India 2001 in the question on 'reasons for migration' to bring out additional migration patterns. Natural calamities or distress migration as a reason for migration for last residence migrants included in 1991 Census, is covered under category of 'Others'. The reason for migration has been determined as applicable at the time of migration and not in reference to any point of time after that. For example, if a person had moved from the place of her/his last residence for the purpose of the education and subsequently at some point of time got employment there only, the reason for migration would be 'education' and not 'work/employment'.

Internal and International migration

The migrational movements are of three types (i) Migration within the state itself with its components (a) Migration within the district of enumeration (intra district migration) (b) Migration from one district of state to another district of state (inter district migration), (ii) Migration from one state to another state of the country (inter-state migration), (iii) Migration from one country to another country. The first two streams together constitute internal migration, while the last type of movement is called international migration. This present name of the country, state or district and not the name by which they were known at the time of her/his birth or last residence were recorded.

Rural-Urban components of migration

Rural or Urban status in respect of migrants have been determined as applicable at the time of migration and not with reference to any point of time after that.

The flow of migrants consists of four streams viz., rural to rural, rural to urban, Urban to rural and urban to urban.

Civic status of urban units

Civic status of town/city is determined on the basis of Civic Administrative authority of the town

e.g., Municipal Committee/Municipal Council, Municipality etc.

Size-class of UA/Town

Size–class of UA/Town is based on the population size of the UA/City/Town UAs/Towns with 1,00,000 and above population are classified as Class I UAs/ Towns. These Class I UAs/Towns are now further sub classified in to seven sub classes namely M1 to M7 depending on the population size of UA/City/ Town. These are M7 (5,000,000 and above); M6 (2,000,000 to 4,999,999); M5 (1,000,000 to 1,999,999); M4 (500,000 to 999,999); M3 (300,000 to 499,999); M2 (200,000 to 299,999) and M1 (100,000 to 199,999) towns with 50,000 to 99,999 population are classified as Class II towns, 20,000 to 49,000 population are Class III towns, population with 10,000 – 19,999 are Class IV towns, population with 5000 and 9999 are Class V and towns with less than 5000 population are Class VI towns.

Slum area

The Slum Areas (improvement and Clearance) Act, 1956 which was enacted by the Central Govt. defined slums as a) Areas where buildings are in any respect unfit for human habitation; or b) area by reasons of dilapidation, overcrowding, fault arrangement and design of such buildings, narrowness or family arrangement of streets, lack of ventilation, light or sanitation facilities, or any combination of these factors, are determined to safety, health or morals.

Mega city

The concept of 'Mega City' is a recent phenomenon in the Urban Sociology and is defined in term of metropolitan city in form of large size, problem of management of civic amenities and capacity to absorb the relatively high growth of population. Indian Census in 1991 treated the population size of 5 million and above as the cut off point to identify a place as the mega city. Whereas, for the purpose of inclusion in Centrally Sponsored Scheme for Infrastucture Development in Mega Cities the Ministry of Urban Affairs and Employment, Department of Urban Development adopted the criteria of 4 million and above population as per 1991 Census for Mega Cities. In 2001 Census, cities with 10 millions and above population have been treated as Mega Cities.

(vii) 2001 Census finding—
Population, its distribution

According to the 2001 Census, the total population of the district is 55346 comprising 28240 males and 27106 females and constituting 5.0 percent of the state population spread over 7032 Sq.Km. area of the district. Among the Circles of the district Daporijo circle is the most populous circle having a population of 19471 while Taksing circle is the smallest one with a population of 592 in the district. Other circles in order of their population size are (1) Dumporijo (2) Taliha (3) Giba (4) Bari-Rijo (5)Siyum (6) Nacho (7) Puchi-Geko (8) Limeking and (9) Payeng.

Out of the total population of the district 71.5 percent lives in rural areas while 28.5 percent lives in urban areas. The corresponding proportion in rural and urban areas of the state are 79.2 percent and 20.8 percent respectively. The average number of towns per hundred inhabited villages is often considered as an index of urbanization. In this district there are 0.3 percent town for every hundred villages, indicating that the district is one of the less urbanized district in the state. Only one circle of the district has urban population.

Out of total 415 villages in the district 398 are inhabitated. In terms of rural population Dumporijo circle is the most populated circle with 20.8 percent of rural population of the district, while Taksing circle with 1.5 percent of the rural population of the district stands lowest in rural population. In terms of number of villages Taliha circle leads with 74 inhabited villages, while Payeng Circle with only 12(Twelve) inhabited villages holds the last rank.

Urban population of the district is distributed among 1 (One) Urban units and no urban unit has municipal status. The average size of an urban centre in the district worksout to 15756 persons.

Daporijo is the only town in the district. The class, status, population in 2001 Census growth rate, Density, Sex Ratio, Work Participation, Literacy Rate are given below in a tabular form of the Town.

Sl. No.	Size	Name	Class	Status	Population in 2001 Census	Growth rate	Density	Sex ratio	Work participation rate			Literacy rate		
									P	M	F	P	M	F
1	2	3	4	5	6	7	8	9	10	11	12	13	14	15
1	NA	Daporijo	IV	C.T	15756	NA	NA	875	31.1	43.7	17.2	72.5	80.5	63.0

In general the Urban Population of the District are mixed with Hindu, Buddhist, Mahamadan, Sikh, Jain, Christian and Others (some local people belong to "Doney Polo" the Local Religion). For Higher Education no separate University is available in the Town as well as in the district. The nearest University is located in Papumpare District (Arunachal Pradesh).

TABLE 1 : DECADAL CHANGE IN POPULATION OF CIRCLES BY RESIDENCE, 1991-2001

Sl. No.	Circle	Population						Percentage decadal variation 1991-2001			Percentage urban population	
		1991			2001							
		Total	Rural	Urban	Total	Rural	Urban	Total	Rural	Urban	1991	2001
1	2	3	4	5	6	7	8	9	10	11	12	13
1	Taksing Circle	733	733	-	592	592	-	-19.2	-19.2	0	0	0
2	Limeking Circle	863	863	-	874	874	-	1.3	1.3	0	0	0
3	Nacho Circle	3,404	3,404	-	3,768	3,768	-	10.7	10.7	0	0	0
4	Siyum Circle	3,803	3,803	-	4,055	4,055	-	6.6	6.6	0	0	0
5	Taliha Circle	8,057	8,057	-	6,355	6,355	-	-21.1	-21.1	0	0	0
6	Payeng Circle	-	-	-	683	683	-	-	-	0	-	0
7	Giba Circle	5,052	5,052	-	4,437	4,437	-	-12.2	-12.2	0	0	0
8	Daporijo Circle	17,425	17,425	-	19,471	3,715	15,756	11.7	-78.7	0	0	80.9
9	Puchi Geko Circle	-	-	-	2,708	2,708	-	-	-	0	-	0
10	Dumporijo Circle	7,457	7,457	-	8,251	8,251	-	10.7	10.7	0	0	0
11	Baririjo Circle	3,292	3,292	-	4,152	4,152	-	26.1	26.1	0	0	0
	District Total :	**50,086**	**50,086**	**-**	**55,346**	**39,590**	**15,756**	**10.5**	**-21.0**	**-**	**-**	**28.5**

Table - 1 reveals the circlewise decadal population growth rate for the decade 1991 - 2001.

The Population of the district recorded in 2001 Census stands to 55346 against 50086 in 1991 indicating a net addition to 5260.

The Decadal Growth rate of the district works out to 10.5 percent and is much lower as compared to the State average of 27.0 percent. Among the 11 Circles of the district Baririjo Circle ranks 1st in the Growth Rate (26.1%) and last rank goes to Taliha Circle where Population Growth Rate retarded to the extend of (-21.1%) . The fact remains that due to creation of 2 new Circles and one Census Town after 1991 Census the population of Taksing, Taliha and Giba Circles have been reduced proportionately in proportion to the reduction of the size of these Circles.

TABLE 2 : NUMBER AND PERCENTAGE OF INHABITED VILLAGES IN SPECIFIED POPULATION SIZE RANGES WITH THE RELATED POPULATION, 2001

Serial number	District / C.D. block	Total number of inhabited villages	Total rural population			Number and percentage of villages	Population less than 200	
			Persons	Males	Females		Males	Females
1	2	3	4	5	6	7	8	9
1	Nacho-Siyum	112	9,289	4,524	4,765	106 (94.6)	3,169	3,356
2	Taliha	86	7,038	3,536	3,502	83 (96.5)	2,144	2,250
3	Giba	62	4,437	2,190	2,247	61 (98.4)	2,083	2,142

2	Taliha	1 (1.2)	134	72	1 (1.2)	297	292	1 (1.2)	961	888
3	Giba	1 (1.6)	107	105	0 (0.0)	0	0	0 (0.0)	0	0
4	Daporijo	7 (13.7)	1,064	1,092	1 (2.0)	284	272	0 (0.0)	0	0
5	Dumporijo	11 (12.6)	1,381	1,377	1 (1.1)	449	385	0 (0.0)	0	0
	Districts (Rural) Total :	**24 (6.0)**	**3,182**	**3,154**	**4 (1.0)**	**1,284**	**1,226**	**2 (0.5)**	**1,566**	**1,512**

Serial number	District / C.D. block	Number and percentage of villages	Population 2000-4999		Number and percentage of villages	Population 5000-9999		Number and percentage of villages	Population 10000 and above	
			Males	Females		Males	Females		Males	Females
1	2	19	20	21	22	23	24	25	26	27
1	Nacho-Siyum	0 (0.0)	0	0	0 (0.0)	0	0	0 (0.0)	0	0
2	Taliha	0 (0.0)	0	0	0 (0.0)	0	0	0 (0.0)	0	0
3	Giba	0 (0.0)	0	0	0 (0.0)	0	0	0 (0.0)	0	0
4	Daporijo	0 (0.0)	0	0	0 (0.0)	0	0	0 (0.0)	0	0
5	Dumporijo	1 (1.1)	1,537	1,337	0 (0.0)	0	0	0 (0.0)	0	0
	Districts (Rural) Total :	**1 (0.3)**	**1,537**	**1,337**	**0 (0.0)**	**0**	**0**	**0 (0.0)**	**0**	**0**

The table shows the population size ranges in the Inhabited Villages. The number and percentage of Inhabited villages in specified population size ranges have been worked out at C.D. block level of the district. It can be seen from the table that the maximum villages (92.2%) fall under lowest population size range of less than 200. It is further observed that at the district level the number and percentage of Inhabited villages have been declined considerably in the higher population size ranges and infact there is no village beyond the population size range of 2000-4999. A C.D. blockwise analysis also shows the similar trend.

TABLE 3 : NEW TOWNS, DENOTIFIED, DECLASSIFIED AND MERGED TOWNS IN 2001 CENSUS

Name of town
1
(a) New
(i) Statutory town
1
2
3
(ii) Census town
1 Daporijo
2
3
(b) Denotified
(i) Statutory towns of 1991 census denotified and also did not satisfy the criteria to be treated as census towns
1
2
3
(ii) Statutory towns of 1991 census denotified but identified as census towns based on demographic and economic criteria
1
2
3
(iii) Census towns of 1991 census are notified as statutory town in 2001 census
1
2
3
(c) Declassified
1
2
3
(d) Wholly merged with other town(s)
1
2
3

Declassified means the census towns of 1991 census which failed to satisfy the demographic and economic criteria.

The table gives an idea of new Towns added in 2001 Census and Towns denotified/declassified after 1991 Census. It can be seen from the table that one new Town has been created in 2001 Census and no Town has been declassified in the district after 1991 Census.

TABLE 4 : DISTRIBUTION OF VILLAGES BY POPULATION DENSITY, 2001

Range of population density (per square kilometer)	Total number of villages in each population density range	Percentage of villages in each population density range	Population	Percentage distribution of population
1	2	3	4	5
0-10	398	100.0	39,590	100.0
11-20	0	0.0	0	0.0
21-50	0	0.0	0	0.0
51-100	0	0.0	0	0.0
101-200	0	0.0	0	0.0
201-300	0	0.0	0	0.0
301-500	0	0.0	0	0.0
501 +	0	0.0	0	0.0
Not known	0	0.0	0	0.0
District Total :	**398**	**100.0**	**39,590**	**100.0**

Population Density (Rural) of the district: 0

The Density of population works out as population per Sq.Km. In the vast area of 83,743 Sq.Km. of Arunachal Pradesh there are altogether 1097968 people accounted for 2001 Census. So, the density of population of the state is very low in Indian perspective. The density of India comes around 324 during 2001 whereas density of Arunachal Prades is 13 only. The same is the case with Upper Subansiri District where density of population is 8 only. In the absence of cadastral survey the area figure below district level is not available and as such the village level density of population could not be worked out.

TABLE 5 : SEX RATIO OF STATE AND DISTRICT, 1901-2001

Census Year	State			District		
	Total	Rural	Urban	Total	Rural	Urban
1	2	3	4	5	6	7
1901	Data Not Available					
1911						
1921						
1931						
1941						
1951						
1961	894	894	-	928	928	-
1971	861	881	457	953	953	-
1981	862	881	629	972	972	-
1991	859	880	728	867	867	-
2001	893	914	819	960	996	875

Note : Sex ratio has been defined here as the number of females per 1000 males.

The average Sex ratio of the State has always been reported below 900 figure throughout the period from 1961 till 2001 Census. If we look into District Sex ratio it will be seen that it is better than State's average Sex ratio throughout. The Urban Sex ratio of the district is 875 which is higher than that of urban Sex ratio of the State with 813.

TABLE 6 : SEX RATIO BY CIRCLES, 2001

Sl. No.	Name of Circle	Sex ratio		
		Total	Rural	Urban
1	2	3	4	5
1	Taksing Circle	1,085	1,085	-
2	Limeking Circle	1,042	1,042	-
3	Nacho Circle	1,039	1,039	-
4	Siyum Circle	1,065	1,065	-
5	Taliha Circle	986	986	-
6	Payeng Circle	1,033	1,033	-
7	Giba Circle	1,026	1,026	-
8	Daporijo Circle	904	1,036	875
9	Puchi Geko Circle	1,018	1,018	-
10	Dumporijo Circle	935	935	-
11	Baririjo Circle	927	927	-
	District Total :	**960**	**996**	**875**

The table gives the Sex ratio by Circles. The average Sex ratio of the district is 996 and among the Circles as many as 8 Circles have registered Sex ratio 1000 +. The overall rural Sex ratio position is quite statisfactory. The Urban Sex ratio is however quite low. Daporijo is the only Town of this district where Sex ratio has been reported as 875.

TABLE 7 : SEX RATIO BY CD BLOCKS, 2001

Serial number	Name of C D block	Sex ratio
1	2	3
1	Nacho-Siyum	1,053
2	Taliha	990
3	Giba	1,026
4	Daporijo	1,028
5	Dumporijo	932
	District (Rural) Total :	**996**

The table presents data on Sex ratio by C.D. blocks. It can be seen from the table that the sex ratio is quite high in most of the C.D. blocks. The highest Sex ratio (1053) has been reported from Nacho-Siyum C.D. block. The lowest one in Dumporijo C.D. block with 932 females among 1000 males. The rural sex ratio of the district is 996.

TABLE 9 : SEX RATIO OF URBAN AGGLOMERATIONS / TOWNS, 2001

Serial number	Name of U.A. Town	Urban status of town	Sex ratio
1	2	3	4
1	Daporijo	(CT)	875
	Sex ratio (Urban) for the district:		**875**

The table deals with Sex ratio of Urban/Towns. There is only one Census Town in the district. The Sex ratio of which is 875 only whereas as Rural Sex ratio is 996

TABLE 8 : SEX RATIO OF RURAL POPULATION BY RANGES, 2001

Range of sex ratio for villages	Number of inhabited villages	Percentage of villages in each range	Population 2001	Percentage distribution of population
1	2	3	4	5
Less than 700	22	5.5	865	2.2
700-749	11	2.8	417	1.1
750-799	22	5.5	1,320	3.3
800-849	24	6.0	1,968	5.0
850-899	32	8.0	6,015	15.2
900-949	35	8.8	5,276	13.3
950-999	37	9.3	4,813	12.2
1000-1099	83	20.9	9,271	23.4
1100+	132	33.2	9,645	24.4
District Total:	**398**	**100.0**	**39,590**	**100.0**
Sex ratio (Rural) for District:		**996**		

From the table it is observed that very high range of Sex ratio with 1100+ has been reflected in 132 villages out of 398 villages of the District. As many as 83 villages come under the Sex ratio of 1000-1099. So far as percentage distribution of population is concerned it is seen that 60 percent of the district population come under very high range of Sex ratio (950 - 1100+ range).

TABLE 10 : SEX RATIO OF POPULATION IN THE AGE GROUP 0-6 FOR CIRCLES, 2001

Serial Number	Name of Circle	Total / Rural / Urban	Total population in 0-6 age group			Sex ratio for 0-6 age group
			Persons	Males	Females	
1	2	3	4	5	6	7
1	Taksing Circle	Total	108	52	56	1,077

		Urban	0	0	0	0
11	Baririjo Circle	Total	942	468	474	1,013
		Rural	942	468	474	1,013
		Urban	0	0	0	0
	District Total:	**Total**	**10,897**	**5,491**	**5,406**	**985**
		Rural	**7,795**	**3,928**	**3,867**	**984**
		Urban	**3,102**	**1,563**	**1,539**	**985**

Table 10, shows Sex Ratio of Population in the age-group 0-6. The Circle wise Sex ratio in the age-group 0-6 as recorded in the table is quite moderate and there is nothing remarkable difference with the general Sex ratio as given in the table 6.

TABLE 11 : SEX RATIO OF POPULATION IN THE AGE GROUP 0-6 FOR C.D. BLOCKS, 2001

Serial number	Name of C.D. block	Total population in 0-6 age group			Sex ratio for 0-6 age group
		Persons	Males	Females	
1	2	3	4	5	6
1	Nacho-Siyum	1,856	952	904	950
2	Taliha	1,360	664	696	1,048
3	Giba	845	405	440	1,086
4	Daporijo	1,228	617	611	990
5	Dumporijo	2,506	1,290	1,216	943
	District (Rural) Total :	**7,795**	**3,928**	**3,867**	**984**

This table provides the Sex ratio of population in the age-group 0-6 for C.D. blocks. Among the C.D. blocks of the district Giba C.D. block has dominated the Sex ratio with 1086 & Dumporijo C.D. block has recorded lowest Sex ratio with 943. Sex ratio for Rural population of the district in the age-group 0-6 is 984.

TABLE 12 : SEX RATIO OF RURAL POPULATION IN THE AGE GROUP 0-6 BY RANGES, 2001

Range of sex ratio for villages	Number of inhabited villages	Percentage distribution of villages	Population 2001	Percentage distribution of population
1	2	3	4	5
Less than 700	127	31.9	1,253	16.1
700-749	8	2.0	153	2.0
750-799	16	4.0	286	3.7
800-849	22	5.5	337	4.3
850-899	12	3.0	939	12.0
900-949	11	2.8	592	7.6
950-999	5	1.3	509	6.5
1000-1099	55	13.8	1,260	16.2
1100+	142	35.7	2,466	31.6
District (Rural) Total :	**398**	**100.0**	**7,795**	**100.0**

Sex ratio (Rural) for District : 984

The table provides the Sex Ratio of Rural Population in the age group 0-6 years by ranges. It can be seen from the table that as many as 127 Inhabited villages (31.9%) fall within the Sex Ratio below 700. Out of Total 398 villages of the district 142 villages (35.7%) which constitute 31.6 percent of rural population fall within the highest range of Sex Ratio 1100 + and within the Sex Ratio range of 1000 - 1099 there are 55 villages with the total population 1260 (16.2%)

TABLE13 : SEX RATIO OF POPULATION IN THE AGE GROUP 0-6 OF URBAN AGGLOMERATIONS /TOWNS, 2001

Serial number	Name of UA Town	Urban status of town	Total population in 0-6 age group			Sex ratio for 0-6 age group
			Persons	Males	Females	
1	2	3	4	5	6	7
1	Daporijo (CT)		3,102	1,563	1,539	985
	District (Urban) Total :		**3,102**	**1,563**	**1,539**	**985**

The table gives the Sex ratio of population in the age-group 0-6 years of Towns. in this age-group the average Urban Sex ratio works out to 985. The Sex ratio is found to be moderate one in the age-group 0-6 years.

TABLE 14 : NUMBER AND PERCENTAGE OF SCHEDULED CASTES AND SCHEDULED TRIBES POPULATION IN CIRCLE, 2001

Sl. No.	Name of Circle	Total/ Rural/ Urban	Total population	Total Scheduled Castes population	Total Scheduled Tribes population	Percentage of Scheduled Castes population to total population	Percentage of Scheduled Tribes population to total population

		Rural	**39,590**	**3**	**37,798**	**0**	**95.5**
		Urban	**15,756**	**96**	**11,754**	**0.6**	**74.6**

Table 14 : Census provides necessary data about the Scheduled Castes and Scheduled Tribes for evolving suitable plans for their socio economic upliftment and both the planners and the administrators heavily depends on this data.

Arunachal Pradesh is constitutionaley recognised Tribal State where Non-Tribal are not allowed to settle permanently as per existing settlement act. The population figure however, small in respect of vast areas of the State is predominantly occupied by the indigenous Tribal people of Arunachal Pradesh. As such other population are temporarly inmigrated there for the sake of job. Therefore, there numbers are insignificant and same is the case with Scheduled Castes population of Arunachal Pradesh. Since there is no indigenous Scheduled Castes population of Arunachal Pradesh their number is 99 only in this district and they are sharing 0.2% of the district population whereas Scheduled Tribes population represent about 89.5% of the district population.

It is observed from the table that almost Cent percent of the Rural population belong to indigenous Scheduled Tribe Community. So, the ranking Circles in respect of Scheduled Tribes population with difference does not carry any significance.

TABLE 15 : NUMBER AND PERCENTAGE OF SCHEDULED CASTES AND SCHEDULED TRIBES POPULATION IN C.D. BLOCKS, 2001

Serial number	Name of C.D. block	Total population	Total Scheduled Castes population	Total Scheduled Tribes population	Percentage of Scheduled Castes population to total population	Percentage of Scheduled Tribes population to total population
1	2	3	4	5	6	7
1	Nacho-Siyum	9,289	0	9,108	0	98.1
2	Taliha	7,038	0	6,822	0	96.9
3	Giba	4,437	0	4,411	0	99.4
4	Daporijo	6,423	1	5,964	0	92.9
5	Dumporijo	12,403	2	11,493	0	92.7
	District (Rural) Total :	**39,590**	**3**	**37,798**	**0**	**95.5**

The table provides number and percentage of Scheduled Castes and Scheduled Tribes population in C.D. blocks. It will be seen from the table that number and percentage of Schedules Castes population are infact very insignificant in all the C.D. blocks of the district and it is evident from the fact that altogether there are 3 Scheduled Castes population in the Rural areas of the district. On the other hand the very high percentage of Scheduled Tribes population has been reported from all the C.D. blocks of the district. The highest percentage (99.4%) Scheduled Tribes has been registered in Giba C.D. block. There is no significant difference of Scheduled Tribes population among the C.D. blocks of the district.

TABLE 16 : PROPORTION OF SCHEDULED CASTES POPULATION TO TOTAL POPULATION IN VILLAGES, 2001

Percentage range of Scheduled Castes population to total population	Number of villages	Percentage	Scheduled Castes Population	Percentage
1	2	3	4	5
Nil	395	99.2	0	0.0
Less than 5	3	0.8	3	100.0
5-10	0	0.0	0	0.0
11-20	0	0.0	0	0.0
21-30	0	0.0	0	0.0
31-40	0	0.0	0	0.0
41-50	0	0.0	0	0.0
51-75	0	0.0	0	0.0
76 and above	0	0.0	0	0.0
District Total :	**398**	**100.0**	**3**	**100.0**

Table No-16 gives proportion of Scheduled Castes population to Total Population in villages. It is seen in the table that out of 398 villages of the district Scheduled Caste population found in 3 villages and their population is 3 only in the Rural areas of the district.

TABLE 17 : PROPORTION OF SCHEDULED TRIBES POPULATION TO TOTAL POPULATION IN VILLAGES, 2001

Percentage range of Scheduled Tribes population to total population	Number of villages	Percentage	Scheduled Tribes Population	Percentage
1	2	3	4	5
Nil	1	0.3	0	0.0
Less than 5	0	0.0	0	0.0
5-10	0	0.0	0	0.0
11-20	0	0.0	0	0.0
21-30	0	0.0	0	0.0
31-40	1	0.3	7	0.0
41-50	1	0.3	42	0.1
51-75	4	1.0	691	1.8
76 and above	391	98.2	37,058	98.0
District Total :	**398**	**100.0**	**37,798**	**100.0**

Table 17 shows the proportion of Scheduled Tribes population to Total Population in villages. It will be seen from the table that barring one village Scheduled Tribes population is available in all the villages in the district and their percentage share to Total Population is quite remarkable. Out of 398 villages of the district very high percent of Scheduled Tribes population viz 76%+ Scheduled Tribes population reside in 391 villages.

TABLE 18 : NUMBER AND PERCENTAGE OF SCHEDULED CASTES AND SCHEDULED TRIBES POPULATION IN URBAN AGGLOMERATIONS / TOWNS, 2001

Serial number	Name of UA Town	Total population	Total Scheduled Castes population	Total Scheduled Tribes population	Percentage of Scheduled Castes population to total population	Percentage of Scheduled Tribes population to total population
1	2	3	4	5	6	7
1	Daporijo (CT)	15,756	96	11,754	0.6	74.6
	District (Urban) Total :	**15,756**	**96**	**11,754**	**0.6**	**74.6**

The table 18 sohws there is only one Town namely, Daporijo in the Upper Subansiri district having a population of 15,756. Arunachal Pradesh is predominantly inhabited by ST populaiton. SC populaiton is quite insignificant in it. The percentage of ST to total population of the town forms 74.6% where as the percentage of SC population is 0.6% only. The table shows clearly the position of SC and ST in the town area

TABLE 19 : SEX RATIO AMONG SCHEDULED CASTES AND SCHEDULED TRIBES IN C. D. BLOCKS, 2001

Serial number	Name of C D block	Castes sex ratio	Scheduled Tribes sex ratio
1	2	3	4
1	Nacho-Siyum	0	1,066
2	Taliha	0	1,012
3	Giba	0	1,032
4	Daporijo	0	1,067
5	Dumporijo	0	960
	District (Rural) Total :	**0**	**1,019**

TABLE 20 : SEX RATIO AMONG SCHEDULED CASTES AND SCHEDULED TRIBES IN URBAN AGGLOMERATIONS /TOWNS, 2001

Serial number	Name of U.A. Town	Scheduled Castes sex ratio	Scheduled Tribes sex ratio
1	2	3	4
1	Daporijo (CT)	500	1,017
Sex ratio (Urban) for the district:		**500**	**1,017**

Table 19 : Sex ratio among Schedules Castes and Scheduled Tribes in C.D. blocks shows that there is absolute difference between both the communities. Sex ratio among Scheduled Castes population has been reported 'O' in all the C.D. blocks whereas sex ratio among Scheduled Tribe population has crossed 1000 mark in all the C.D. blocks except Dumporijo. The average sex ratio of the district (Rural) is 1019.

Table 20 : A quick look on Sex ratio among Scheduled Castes and Scheduled Tribes in the Daporijo Town, the only Town of the district shows that Sex ratio among Scheduled Castes population is 500 whereas it is 1017 among Scheduled Tribes population.

TABLE 21 : NUMBER AND PERCENTAGE OF LITERATES AND ILLITERATES BY CIRCLES, 2001

		Rural	**13,208**	**8,040**	**5,168**	**26,382**	**11,797**	**14,585**	**41.5**	**50.5**	**32.5**	**18**
		Urban	**9,171**	**5,507**	**3,664**	**6,585**	**2,896**	**3,689**	**72.5**	**80.5**	**63**	**17.5**

The table shows number and percentage of Literate and Illiterate by Circle. The Literacy percentage of the district has been worked out as 50.4 percent with the distribution of 41.5% and 72.5% respectively in Rural and Urban areas. The Literacy share of Male population is 59.6% and in Female 40.7%. The gap in Male/Female Literacy rate is 18.9% which is quite remarkable. Among the Circles Literacy rate has been reported highest (68.9%) in Daporijo Circle and with 23.8% Literacy rate Siyum Circle registered lowest. The Literacy rate in the District Headquarters Daporijo, the only Census Town of the district has been reported quite high as 72.5%.

TABLE 22 : NUMBER AND PERCENTAGE OF LITERATES AND ILLITERATES BY SEX IN C. D. BLOCKS, 2001

Sl. No.	Name of C. D. Block	Number of literates and illiterates						Percentage of literates			Gap in male-female literacy rate
		Number of literates			Number of illiterates						
		Persons	Males	Females	Persons	Males	Females	Persons	Males	Females	
1	2	3	4	5	6	7	8	9	10	11	12
1	Nacho-Siyum	1,993	1,300	693	7,296	3,224	4,072	26.8	36.4	17.9	18.4
2	Taliha	2,362	1,482	880	4,676	2,054	2,622	41.6	51.6	31.4	20.2
3	Giba	1,507	921	586	2,930	1,269	1,661	42	51.6	32.4	19.2
4	Daporijo	2,629	1,499	1,130	3,794	1,668	2,126	50.6	58.8	42.7	16.1
5	Dumporijo	4,717	2,838	1,879	7,686	3,582	4,104	47.7	55.3	39.4	15.9
District (Rural) Total :		**13,208**	**8,040**	**5,168**	**26,382**	**11,797**	**14,585**	**41.5**	**50.5**	**32.5**	**18**

A C.D. block level analysis regarding percentage of Literates and Illiterates by Sex shows that the highest percentage of Literate (50.6%) has been registered in Daporijo C.D. block and the Nacho-Siyum C.D. block has recorded the lowest percentage of Literates (26.8 percent). It is further observed that there is a remarkable gap in Literacy rate among Males and Females. The rate of Literacy rate among Females is much lower than Males in all the C.D. blocks of the district.

TABLE 23 : DISTRIBUTION OF VILLAGES BY LITERACY RATE RANGE, 2001

Range of literacy rate for villages	Number of inhabited villages	Percentage distribution of villages	Population	Percentage distribution of population
1	2	3	4	5
0	21	5.3	562	1.4
1-10	28	7.0	1,677	4.2
11-20	57	14.3	3,709	9.4
21-30	73	18.3	5,691	14.4
31-40	76	19.1	6,613	16.7
41-50	72	18.1	7,681	19.4
51-60	43	10.8	5,803	14.7
61-70	20	5.0	6,985	17.6
71-80	7	1.8	845	2.1
81-90	0	0.0	0	0.0
91-99	0	0.0	0	0.0
100	1	0.3	24	0.1
District Total:	**398**	**100.0**	**39,590**	**100.0**
Literacy rate for District:		**50.3**		

The table - 23 presents data on distribution of villages by Literacy rate range. It is observed that as many as 21 villages come under Literacy range of 'O'. It is very disappointing to note that majority of the villages and nearly half of the district population come under Literacy range 0-40.

TABLE 24 : NUMBER AND PERCENTAGE OF LITERATES AND ILLITERATES BY SEX IN URBAN AGGLOMERATIONS/TOWNS, 2001

Sl. No.	Name and urban status of UA Town	Number of literates and illiterates						Percentage of literates			Gap in male-female literacy rate
		Number of literates			Number of illiterates						
		Persons	Males	Females	Persons	Males	Females	Persons	Males	Females	
1	2	3	4	5	6	7	8	9	10	11	12
1	Daporijo (CT)	9,171	5,507	3,664	6,585	2,896	3,689	72.5	80.5	63	17.5
District (Urban) Total		**9,171**	**5,507**	**3,664**	**6,585**	**2,896**	**3,689**	**72.5**	**80.5**	**63**	**17.5**

The gap in Male - Female Literacy rate is remarkable in Urban areas also like Rural areas. The Male Literacy rate in the Town is 80.5% whereas Female Literacy rate is 63.0 percent and the gap is as high as 17.5 percent.

TABLE 25 : NUMBER AND PERCENTAGE OF SCHEDULED CASTES LITERATES AND ILLITERATES BY SEX IN C. D. BLOCKS, 2001

Sl. No.	Name of C. D. Block	Number of literates and illiterates						Percentage of literates			Gap in male/female literacy rate
		Number of literates			Number of illiterates						
		Persons	Males	Females	Persons	Males	Females	Persons	Males	Females	
1	2	3	4	5	6	7	8	9	10	11	12
1	Daporijo	1	1	0	0	0	0	100	100	0	100
2	Dumporijo	2	2	0	0	0	0	100	100	0	100
District (Rural) Total:		**3**	**3**	**0**	**0**	**0**	**0**	**100**	**100**	**0**	**100**

Table 25 provides C.D. blockwise Literates and Illiterates by Sex among Scheduled Castes Population of the district. Interestingly all the Scheduled Castes population of the district (Rural) are Males and all are Literates.

TABLE 26 : DISTRIBUTION OF VILLAGES BY LITERACY RATE RANGE FOR SCHEDULED CASTES POPULATION, 2001

Range of literacy rate for villages	Number of inhabited villages	Percentage distribution of villages	Scheduled Castes Population	Percentage distribution of population
1	2	3	4	5
0	0	0.0	0	0.0
1-10	0	0.0	0	0.0
11-20	0	0.0	0	0.0
21-30	0	0.0	0	0.0
31-40	0	0.0	0	0.0
41-50	0	0.0	0	0.0
51-60	0	0.0	0	0.0
61-70	0	0.0	0	0.0
71-80	0	0.0	0	0.0
81-90	0	0.0	0	0.0
91-99	0	0.0	0	0.0
100	3	100.0	3	100.0
District Total:	**3**	**100.0**	**3**	**100.0**

Literacy rate for District (Rural) : 100

From the distribution of villages by Literacy rate range for Scheduled Castes population it is observed that all the Scheduled Castes population in the Rural areas of the district are found to be Literate and it is evident from the fact that all the villages having Scheduled Castes population fall under 100.0 percent Literacy rate range.

TABLE 27 : NUMBER AND PERCENTAGE OF SCHEDULED CASTES LITERATES AND ILLITERATES BY SEX IN TOWNS, 2001

Sl. No.	Name and urban status of Town	Number of literates and illiterates						Percentage of literates			Gap in male/female literacy rate
		Number of literates			Number of illiterates						
		Persons	Males	Females	Persons	Males	Females	Persons	Males	Females	
1	2	3	4	5	6	7	8	9	10	11	12
1	Daporijo (CT)	47	37	10	49	27	22	56.6	67.3	35.7	31.6
Upper Subansiri (Urban)		**47**	**37**	**10**	**49**	**27**	**22**	**56.6**	**67.3**	**35.7**	**31.6**

The table depicts number and percentage of Literates and Illiterates by Sex in Urban areas among Scheduled Castes population of the district. Daporijo is the only Town of the district where Literacy rate among Scheduled Castes population of the district has been recorded as 56.6 percent with Male Female distribution of 67.3 and 35.7 percent respectively. Gap in Male/Female Literacy rate is as high as 31.6 percent.

TABLE 28 : NUMBER AND PERCENTAGE OF SCHEDULED TRIBES LITERATES AND ILLITERATES BY SEX IN C. D. BLOCKS, 2001

Sl. No.	Name of C. D. Block	Number of literates and illiterates						Percentage of literates			Gap in male/female literacy rate

5	Dumporijo	4,256	2,538	1,718	7,237	3,325	3,912	46.5	54.3	38.3	15.9
District (Rural) Total:		**12,291**	**7,412**	**4,879**	**25,507**	**11,307**	**14,200**	**40.6**	**49.5**	**31.8**	**17.8**

A C. D. blockwise analysis of this table shows that Daporijo C. D. block has the highest (49.7 percent) percentage of Literates among Scheduled Tribes population. The highest percentage of Literates among Males and Females are also traced in this C. D. block. In the Rural areas of the district the percentage of Literates among Scheduled Tribes population is 40.6 percent only whereas in Urban areas it is 70.0 percent.

TABLE 29 : DISTRIBUTION OF VILLAGES BY LITERACY RATE RANGE FOR SCHEDULED TRIBES POPULATION, 2001

Range of literacy rate for villages	Number of inhabited villages	Percentage distribution of villages	Scheduled Tribes Population	Percentage distribution of population
1	2	3	4	5
0	21	5.3	556	1.5
1-10	30	7.6	2,011	5.3
11-20	55	13.9	3,341	8.8
21-30	72	18.1	5,584	14.8
31-40	76	19.1	6,576	17.4
41-50	70	17.6	7,194	19.0
51-60	44	11.1	4,726	12.5
61-70	22	5.5	7,150	18.9
71-80	5	1.3	586	1.6
81-90	1	0.3	50	0.1
91-99	0	0.0	0	0.0
100	1	0.3	24	0.1
District Total:	**397**	**100.0**	**37,798**	**100.0**
Literacy rate for District (Rural):		**40.6**		

From the distribution of villages by Literacy rate range for Scheduled Tribes population it is seen that out of Scheduled Tribes 397 inhabited villages of the district 21 villages fall under 'o' Literacy rate range and only 1 village falls under 100.0 percent Literacy rate range. It is further observed that the highest number of villages (76 village) fall under Literacy rate range of 31-40.

TABLE 30 : NUMBER AND PERCENTAGE OF SCHEDULED TRIBES LITERATES AND ILLITERATES BY SEX IN TOWNS, 2001

Sl. No.	Name and urban status of Town	Number of literates and illiterates						Percentage of literates			Gap in male/female literacy rate
		Number of literates			Number of illiterates						
		Persons	Males	Females	Persons	Males	Females	Persons	Males	Females	
1	2	3	4	5	6	7	8	9	10	11	12
1	Daporijo (CT)	6,435	3,613	2,822	5,319	2,215	3,104	70	79.5	60.7	18.8
	Upper Subansiri (Urban)	**6,435**	**3,613**	**2,822**	**5,319**	**2,215**	**3,104**	**70**	**79.5**	**60.7**	**18.8**

From the statement it is observed that the percentage of Literates among Scheduled Tribes in the Town is 70.0 percent with Male-Female distribution of 79.5 and 60.7 percent respectively. Gap is Male-Female Literacy rate is 18.8 percent.

This table gives C.D. block level data on Main Workers, Marginal Workers and Non-workers by Sex. Among C.D. blocks of the district Nacho-Siyum C.D. block claims highest percentage (47.1 percent) of Main Workers while it is Dumporijo C.D. block where highest (3.5 percent) has been recorded as Marginal Workers and in terms of Total Workers (Main + Marginal) it is again Nacho-Siyum C.D. block claims highest percentage (50.0 percent) of Total Workers. Ofcourse no significant difference has been noticed in between the C.D. blocks so far as work participation rate is concerned in both the sexes.

TABLE 33 : NUMBER AND PERCENTAGE OF MAIN WORKERS, MARGINAL WORKERS, AND NON-WORKERS BY SEX IN URBAN AGGLOMERATIONS/TOWNS, 2001

Sl. No.	Name and urban status of UA Town	Persons / Males / Females	Total Population	Main workers		Marginal workers		Total workers (Main and marginal workers)		Non workers	
				Number	Percentage	Number	Percentage	Number	Percentage	Number	Percentage
1	2	3	4	5	6	7	8	9	10	11	12
1	Daporijo (CT)	Persons	15,756	4,634	29	274	1.7	4,908	31.2	10,848	68.8
		Males	8,403	3,526	42	115	1.4	3,641	43.3	4,762	56.7
		Females	7,353	1,108	15	159	2.2	1,267	17.2	6,086	82.8
	District Total:	**Persons**	**15,756**	**4,634**	**29**	**274**	**1.7**	**4,908**	**31.2**	**10,848**	**68.8**
	(Urban)	**Males**	**8,403**	**3,526**	**42**	**115**	**1.4**	**3,641**	**43.3**	**4,762**	**56.7**
		Females	**7,353**	**1,108**	**15**	**159**	**2.2**	**1,267**	**17.2**	**6,086**	**82.8**

The work participation rate in the Daporijo Town appears to be very poor. Main workers of the Town is only 29.0 percent and the Marginal Workers are only 1.7 percent and the Total Workers (Main + Marginal) of the Town is 31.2 percent.

TABLE 34 : DISTRIBUTION OF WORKERS BY SEX IN FOUR CATEGORIES OF ECONOMIC ACTIVITY IN CIRCLES, 2001

				(36.3)	**(84.0)**	**(2.0)**	**(0.8)**	**(13.2)**

Note: Percent of Worker to total worker are given in brackets

The table, 34 shows distribution of Workers in four categories of economic activity in Circles. It is seen from the table that number of Females is much more than number of Males in the Cultivators Category of Workers and correspondingly in Other Workers category number and percentage of Male Workers are much more than their Female counterpart. If we look into category of Agricultural Labourers it is seen that the average district figure in percentage is 1.8 percent only. The fact remains that the Agricultural fields are generally commonly hold by the community where practise of engaging Agricultural Labourers does not prevail.

TABLE 35 : DISTRIBUTION OF WORKERS BY SEX IN FOUR CATEGORIES OF ECONOMIC ACTIVITY IN C. D. BLOCKS, 2001

Serial number	Name of C. D. block	Persons / Males / Females	Total population	Total number of workers (Main + Marginal)	Category of workers			
					Cultivators	Agricultural Labourers	Household Industry workers	Other workers
1	2	3	4	5	6	7	8	9

				(43.4)	**(92.0)**	**(1.7)**	**(0.7)**	**(5.6)**

Note: Percent of Worker to total worker are given in brackets

The distribution of Total Workers by Sex according to four fold Industrial categories in C.D. blocks is highlighted in this table. In terms of percentage Giba C.D. block with 92.8 percent of cultivators ranks first and it is closely followed by Nacho-Siyum C.D. block with 86.1 percent of Cultivators. The percentage of Agricultural Labourers and Household Industry Workers is found to be very low in all the C.D. blocks.

TABLE 36 : DISTRIBUTION OF WORKERS BY SEX IN FOUR CATEGORIES OF ECONOMIC ACTIVITY OF URBAN AGGLOMERATIONS/TOWNS, 2001

Serial number	Name and urban status of UA Town	Persons / Males / Females	Total population	Total number of workers (Main + Marginal)	Category of workers			
					Cultivators	Agricultural Labourers	Household Industry workers	Other workers
1	2	3	4	5	6	7	8	9
				Number (Percentage)				
1	Daporijo (CT)	Persons	15,756	4,908	636	116	61	4,095
				(31.2)	(13.0)	(2.4)	(1.2)	(83.4)
		Males	8,403	3,641	256	65	41	3,279
				(43.3)	(7.0)	(1.8)	(1.1)	(90.1)
		Females	7,353	1,267	380	51	20	816
				(17.2)	(30.0)	(4.0)	(1.6)	(64.4)
	District (Urban) Total:	**Persons**	**15,756**	**4,908**	**636**	**116**	**61**	**4,095**
				(31.2)	**(13.0)**	**(2.4)**	**(1.2)**	**(83.4)**
		Males	**8,403**	**3,641**	**256**	**65**	**41**	**3,279**
				(43.3)	**(7.0)**	**(1.8)**	**(1.1)**	**(90.1)**
		Females	**7,353**	**1,267**	**380**	**51**	**20**	**816**
				(17.2)	**(30.0)**	**(4.0)**	**(1.6)**	**(64.4)**

Table 36 presents data of Workers by Sex in four categories of economic activity of Towns. In Town most of the working force belong to the category of other workers. It is evident from the fact that in average 83.4 percent of workers categorised as other workers whereas it is only 1.2 percent household industry workers 2.4 percent Agricultural Labourers and 13.0 percent cultivators.

TABLE 37 : DISTRIBUTION OF VILLAGES ACCORDING TO AVAILABILITY OF DIFFERENT AMENITIES, 2001

Serial number	Name of C. D. block	Number of inhabited villages	Type of amenity available			
			Education	Medical	Improved drinking water	Post Office
1	2	3	4	5	6	7
1	Nacho-Siyum	112	16	6	38	4
		(100)	(14.3)	(5.4)	(33.9)	(3.6)

		(0.0)	**(14.6)**	**(0.5)**	**(0.0)**	**(13.8)**	**(19.3)**

Note : Percentages are given in brackets.

* Based on the improved drinking water source, drinking water supply has been classified as 'Improved ' or otherwise. If the household has access to drinking water supplied from a tap or a hand pump / tube well situated within or outside the premises it is considered as having access to 'Improved drinking water source'.
However, the concept of improved drinking water is state specific and this is to be considered accordingly.

\# Post office includes Post office, telegraph office and Post and telegraph office.

$ Transport communication includes bus service, rail facility and navigable waterways.

The table reveals a brief analysis of various Amenities which are available in each C.D. block of the district. It is seen from the table that only 36.4 percent of Inhabited villages have the Educational Facility and only 6.5 percent villages have Medical Facility. Improved Drinking water Facility is available to 63.1 percent villages. Telephone Facility is yet to be introduced in the district (Rural). The availability of other facilities such as Banks, Apprach by Pucca Road, Power Supply is very negligible. Upper Subansiri is one of the backward districts in these respect.

TABLE 38 : NUMBER AND PERCENT OF RURAL POPULATION SERVED BY DIFFERENT AMENITIES, 2001

Serial number	Name of C. D. block	Total population of inhabited villages	Type of amenity available			
			Education	Medical	Improved drinking water	Post Offoce

		(0.0)	**(37.9)**	**(11.9)**	**(0.0)**	**(38.9)**	**(43.7)**

Note : Percentages are given in brackets.

* Based on the improved drinking water source, drinking water supply has been classified as 'Improved ' or otherwise. If the household has access to drinking water supplied from a tap or a hand pump/tube well situated within or outside the premises it is considered as having access to 'Improved drinking water source'.
However, the concept of improved drinking water is state specific and this is to be considered accordingly.

\# Post office includes Post office, telegraph office and Post and telegraph office.

$ Transport communication includes bus service, rail facility and navigable waterways.

A C.D. blockwise distribution of Rural population served by different Amenities can be seen from the table. This table depicts that 63.2 percent of Rural population of the district is served by Educational Institutions while 80.5 percent of Rural population have improved Drinking Water Facility. Only 27.4 percent population have Medical Facility and as low as 19.4 percent have post Office Facility. The Telephone Facility is available to none. Altogether 11.9 percent population are enjoying Banking Facility. Transport and Communication, Approach to Pucca Road and Power Supply are available to little more thin 1/3 rd of the Rural population.

TABLE 39 : DISTRIBUTION OF VILLAGES NOT HAVING CERTAIN AMENITIES, ARRANGED BY DISTANCE RANGES FROM THE PLACES WHERE THESE ARE AVAILABLE, 2001

Village not having the amenity of	Distance range of place from the villages where the amenity is available			
	Less than 5 kilometres	5-10 kilometres	10+ kilometres	Total (Col. 2 - 4)
1	2	3	4	5
1. Education :				
(a) Primary School	88	120	49	257
(b) Middle School	54	113	198	365
(c) Degree College	0	1	397	398
2. Medical :				
(a) Hospital	9	16	373	398
(b) PHC	21	100	275	396
3. Post Office	26	81	282	389
4. Telephone	9	14	375	398
5. Bus Service	27	62	251	340
6. Banks				
(a) Commercial Bank	9	11	378	398
(b) Cooperative Bank	9	11	376	396
7. Agricultural Credit Societies	9	11	378	398

This table shows the distribution of villages not having certain Amenities aarranged by distance ranges from the places where these are available. The table reveals the fact that the villages where Educational Facilities are not available, but they are mostly available within less than 5 Kms. But the picture is different in case of other amenities like Medical, Post Office, Telephone, Bus Service, Banks etc. In these cases these amenities are mostly available beyond the range of 10 + Kms.

TABLE 40 : DISTRIBUTION OF VILLAGES ACCORDING TO THE DISTANCE FROM THE NEAREST STATUTORY TOWN AND AVAILABILITY OF DIFFERENT AMENITIES, 2001

Distance range from the nearest statutory town (in kilometres)	Number of inhabited villages in each range	Type of amenity available							
		Education	Medical	Post Office #	Telephone	Transport communi-cations $	Banks	Agricultural Credit Societies	Approach by pucca road
1	2	3	4	5	6	7	8	9	10
less than 5	9	8	0	0	0	2	0	0	4
	(100.0)	(88.9)	(0.0)	(0.0)	(0.0)	(22.2)	(0.0)	(0.0)	(44.4)
5 -15	22	17	4	1	0	6	1	0	7
	(100.0)	(77.3)	(18.2)	(4.5)	(0.0)	(27.3)	(4.5)	(0.0)	(31.8)
16 - 50	166	68	11	4	0	27	1	0	23
	(100.0)	(41.0)	(6.6)	(2.4)	(0.0)	(16.3)	(0.6)	(0.0)	(13.9)
51+	201	52	11	4	0	23	0	0	21
	(100.0)	(25.9)	(5.5)	(2.0)	(0.0)	(11.4)	(0.0)	(0.0)	(10.4)
Unspecified	0	0	0	0	0	0	0	0	0
	0	0	0	0	0	0	0	0	0
District total	**398**	**145**	**26**	**9**	**0**	**58**	**2**	**0**	**55**
	(100.0)	**(36.4)**	**(6.5)**	**(2.3)**	**(0.0)**	**(14.6)**	**(0.5)**	**(0.0)**	**(13.8)**

Post office includes Post office, Telegraph office and Post and telegraph office.

$ Transport communication includes bus service, rail facility and navigable waterways.

There is no statutory town in Arunachal Pradesh. All the 17 Towns of the State are in the status of Census Town. The nearest Statutory Towns are located in the neighbouring State, Assam. As such the distance range from the nearest Statutory Town is mostly beyond 51 Kms.

TABLE 41 : DISTRIBUTION OF VILLAGES ACCORDING TO POPULATION RANGE AND AMENITIES AVAILABLE, 2001

Population range	Number of inhabited villages in each range	Type of amenity available									
		Education	Medical	Improved drinking water	Post Office	Telephone	Transport communi-cations	Banks	Agricultural Credit Societies	Approach by Pucca road	Power supply
1	2	3	4	5	6	7	8	9	10	11	12
1-499	391	139	21	244	5	0	51	0	0	48	71

	0	0	0	0	0	0	0	0	0	0	0
10000 +	0	0	0	0	0	0	0	0	0	0	0
	0	0	0	0	0	0	0	0	0	0	0
District total	**398**	**145**	**26**	**251**	**9**	**0**	**58**	**2**	**0**	**55**	**77**
	(100.0)	**(36.4)**	**(6.5)**	**(63.1)**	**(2.3)**	**(0.0)**	**(14.6)**	**(0.5)**	**(0.0)**	**(13.8)**	**(19.3)**

Post office includes Post office, Telegraph office and Post and telegraph office.

$ Transport communication includes bus service, rail facility and navigable waterways.

* Based on the improved drinking water source, drinking water supply has been classified as 'Improved ' or otherwise. If the household has access to drinking water supplied from a tap or a hand pump/tube well situated within or outside the premises it is considered as having access to 'Improved drinking water source'.

However, the concept of improved drinking water is state specific and this is to be considered accordingly.

The table 41 shows the distribution of villages according to Population Range and Amenities available. The district is very thinly populated area where density of population 8 only and it is evident from the fact that out of 398 villages of the district 391 villages fall under Population Range of 1-499. The table further reveals the fact that bigger villages are having higher proportion of differenct amenities in comparison to smaller village in terms of population.

TABLE 42 : DISTRIBUTION OF VILLAGES ACCORDING TO LAND USE, 2001

Serial number	Name of C. D. block	Number of inhabited villages	Total area	Percentage of cultivable area to total area	Percentage of irrigated area to total cultivable area
1	2	3	4	5	6
1	Nacho-Siyum	112	0	0	0
2	Taliha	86	0	0	0
3	Giba	62	0	0	0
4	Daporijo	51	0	0	0
5	Dumporijo	87	0	0	0
	District Total:	**398**	**0**	**0**	**0**

Note : Cultivable area = irrigated area + unirrigated area

The area figure below district level is not available. As such, the information to be incorporated against column 4, 5 and 6 may be treated as nil.

TABLE 43 : PER CAPITA RECEIPT AND EXPENDITURE IN STATUTORY TOWNS

There is no Statutory Towns in the district. So information to be in corporated in the town may be treated as NIL.

TABLE 44 : SCHOOLS/COLLEGES PER 10,000 POPULATION IN STATUTORY TOWNS, 2001

There is no Statutory Towns in the district. So information to be in corporated in the town may be treated as NIL.

TABLE 45 : NUMBER OF BEDS IN MEDICAL INSTITUTIONS IN TOWNS, 2001

Serial Number	Name and urban status of the Town	Number of beds in medical institutions per 1,0000 population
1	2	3
1	Daporijo (C.T.)	5
	Distrct Total	**5**

The table reveals that in the Town of the district the average number of Beds in Medical Institutions per 1000 population is 5 only. Though the standard of Medical Institutions in terms of infrastructure is not up to the mark yet the availability of beds per 1000 population is not deplorable low.

TABLE 46 : PROPORTION OF SLUM POPULATION IN TOWNS, 2001

There is no Slum area in the district.

TABLE 47 : MOST IMPORTANT COMMODITY EXPORTED OUT OF AND MANUFACTURED IN TOWNS, 2001

Serial number	Name and urban status of Town	Most important commodity	
		Manufactured	Exported
1	2	3	4
1	Daporijo (C.T.)	Nil	Orange

The above Statement shows that important export item is orange. Nothing is Manufactured in the Town.

TABLE 48 : HOUSEHOLDS BY TENURE STATUS AND NUMBER OF ROOMS OCCUPIED IN THE DISTRICT, 2001

Tenure status	Number of dwelling rooms	Number of households								
		Total			Scheduled Castes			Scheduled Tribes		
		Total	Rural	Urban	Total	Rural	Urban	Total	Rural	Urban
1	2	3	4	5	6	7	8	9	10	11
Owned	No exclusive room	1,004	1,003	1	3	3	-	1,000	999	1

Living status/condition of households has been reflected in the table.

In Rural areas of Arunachal Pradesh the concept of one composite room or multipurpose one room is dominent and figure is high against, "No exclusive room". One remarkable feature of the State is that nobody reside under the tree or open space and it is difficult also in the high altitude area surrended by forest. Majority of the Households live in their owned house. Rented house in the village area is very few. The entire Scheduled Castes population of Arunachal Pradesh is inmigrants for job purpose and mostly represents workers class. They either stay in the camp or Govt. Quarter. So, their comparison with Scheduled Tribes population of Arunachal Pradesh does not carry much significance. Same is the case with other population (Non-Scheduled Tribes) who are temporary settlers usually stay in the Govt. Quarters. Therefore, for socio-economic analysis purpose it is insignificant.

TABLE 49 : NUMBER AND PERCENTAGE DISTRIBUTION OF HOUSEHOLDS LIVING IN PERMANENT, SEMI PERMANENT AND TEMPORARY HOUSES, 2001

Data source: Census of India 2001, H series: "Tables on Houses, Household amenities and Assets."

Note:

Permanent : 1 Permanent houses refers to those houses whose wall & roofs are made of pucca materials i.e., where, burnt bricks, G.I. Sheets or other metal sheets, stone cement concrete is used for wall and tiles slate, shingle, corrugated iron, zinc or other metal sheets asbestos sheets, bricks, lime and stone and RBC/RCC concreate are used for roof.

Semi permanent : 2 Semi permanent houses refer to those houses made of other types of materials.

Temporary : 3 Temporary houses refers to those houses having wall and roofs made of Kutcha materials i.e. where grass, leaves, reeds, bamboo mud, unburnt bricks are used for the construction of walls and grass, leaves reeds, bamboo hatch, mud, unburnt bricks, wood etc. are used for roofs.

The table presents data on percentage distribution of households in Permanent, Semi Permanent and Temporary Houses. If we look into district average on these aspects it will be seen that in the Rural areas 90.2% households live in the Temporary Houses whereas 6.1% live in the Semi Permanent Houses and only 3.7% percent live in the Permanent Houses. But the picture is quite different in case of Urban areas of the district where 30.6% percent households live in the Permanent Houses, 13.3% in Semi Permanent Houses and 54.8% in Temporary Houses. It is remarkable to point out that in Taksing Circle 100% households live in the Temporary Houses. The picture is little different in case of other Circles.

TABLE 50 : NUMBER AND PERCENTAGE OF HOUSEHOLDS HAVING IMPROVED DRINKING WATER SOURCE, ELECTRICITY, BATHROOM, TOILET AND DRAINAGE FACILITY, 2001

Data Source : Census of India 2001, H- series: “Tables on Houses, Household amenities and Assets.”

However, the concept of improved drinking water is state specific and this is to be considered accordingly.

* Based on the improved drinking water source, drinking water supply has been classified as `Improved ' or otherwise. If the household has access to drinking water supplied from a tap or a hand pump/tube well situated within or outside the premises it is considered as having access to `Improved drinking water source'.

Note : Percentage is to be given in brackets after the number of households.
Bathroom means bathroom within the house
Toilet means toilet within the house
Drainage means closed and open drainage

Table 50 is very encouraging to note that 84.59% households of the district are having improved Drinking water source. On the other hand it is disappointing to note that only 21.40 percent households of the district are having Bathroom. However, Toilet facility is available to 55.8% households. So far as Electricity and Drainage are concerned it is 41%+ households are having these facilities. It will be seen from the table that households of Payeng Circle do not have the facility of Electricity, Bathroom and Toilet.

Percentage in brackets

Data Source : Census of India 2001, H- series: "Tables on Houses, Household amenities and Assets."

The table 51 shows the number and percentage of households by type of fuel used for cooking. It will be seen from the table that households of Taksing, Limeking, Nacho, Payeng and Giba Circles are exclusively using fire wood for cooking. Introduction of L.P.G. (Gas) for cooking is the new phenomanon for these areas. The use of other types of fuel is not at all remarkable.

TABLE 52 : NUMBER OF HOUSEHOLDS AVAILING BANKING SERVICES AND NUMBER OF HOUSEHOLDS HAVING EACH OF THE SPECIFIED ASSET, 2001

Data Source: Census of India 2001, H- series: "Tables on Houses, Household amenities and Assets."

The table 52 presents data on number of households availing Banking Services and availability of Household Assets. The table shows that Banking Services are yet to be extended to Taksing and Payeng Circle. In the district out of total 11,161 households 4162 household having Banking Services, 4819 households having Radio, 1976 having Television, 767 having Telephone, 677 having Bicycle, 585 having Scooter/ Motor Cycle, 141 having Car, Jeep, Van and as many as 5688 i.e. more than 50% households do not have any one items of specified household assets and this speaks volume about economic disparity.

Major Social and Cultural Events of Upper Subansiri district

The beauty of Arunachal Pradesh lies in its varied and colourful tradition and culture of the tribals who are simple and straightforward. Each tribe has its own traditinal culture and beliefs. They celebrate various colourful festivals.

Three major tribes inhabit the Upper Subansiri district They are the Tagins, the Hill Miris and the Gallongs. All the three tribes live in a well knit social pattern with a close relation.

It is seen that the sun, the moon, the earth and the natural elements around them playa vital role in their day to day functions.

They have three main festivals. They are (1) Si-Doni Festival (2) The Bori Boot Festival and (3) The Mopin Festival.

(i) Si-Doni Festival : Si-Doni which means the Earth and the Sky, it is one of the most important festivals of the Tagins who inhabit the upper region of the district. The Tagin celebrates this festival on a community basis from the 5th to 7th January every year.

According to Tagin myth the universe, at the begin-ning, was a great emptiness. In course of time an earth like element appeared in this emptiness. This was known as Jimi Ane. JIMI ANE created MISE ANE (representing Earth) MIDOOR NIDOKOLO (representing the Sky) and SENGE YARIN (female) and DONGE TARIN (male).

At that stage the Earth and the Sky were together in liquid form. There was no space to live in. On this understanding the Earth and the Sky were, separated from each other. After separation SENGE remained on earth to improve its condition and TARIN went up to the Sky to make level. They decided to observe 10 days IRI RINAM. But SISIANE could not observe properly. After 5 days SISIANE breaking the IRI RINAM for which earth is suffering from land erosion.

The sky fully observed the IRI RINAM for ten days. According to practice a priest is invited who examine the cause of problem with the help of egg or liver of a chicken. In true sense it may not be called a festival. It can be said a community worship of the great deities like the earth and the sun. By pleasing the creators' people seek their protection and blessing against disease, failure of crops, physical suffering, and death and to get the prosperous life.

The celebration is always held after the harvest is over. Irrespective of age, sex and sections every one participates in the celebration. Every one contributes to the performance of the festival. Some contribute physical labour; some provide materials or money, mithun, apong (rice beer) and so on. Contributions are voluntary. The preparation takes a few months. The male folk remain busy for out door prepara-tions and woman folk for indoor preparations.

In order to make the festival colourful dancing, recita-tion of religious lores by the nibus, sacrifice of mithuns and feasting are some of the major aspects. At the time of celebration every one plays with ETTI (a mixture of apong and rice powder) as a sign of purification and festivity.

One of the important elements of the celebration is the performance of mythological dances. These dances are inseparable elements of the whole mythology.

(ii) The Bori Boot Festival : The Bori Boot Festival is exclusively performed by the Hill Miris of the district. The festival usually falls in February. Bori Boot means to get together irrespective of age, sex, caste to hail the spring and successful harvest. The festival also invokes the spirit of Bori Boot to bless them with property and free them from deases of any kind. The ritual part of the festival is to perform puja as well as to conduct sacrifices. "Etting" is

enjoyed compulsorily by one and all. The festival is of 3 days duration.

(iii) Mopin Festival : Mopin Festival is a festival of the Gallongs of this district. It is performed during the month of April. Mopin involves the God of Mopin to bless the people for their prosperity. Also prayer is offered for a good harvest and to keep them and their cattle free from any diseases. Mopin is also the festival of plenty. As in SI- DONI are BORI BOOT festivals, application of "ETTING" is universal feature. The 'popir' dance is the most popular dance. Boys and girls in colourful attire dance, eating and drinking goes on during the three days of the festival. Administrative participation: Since the festival of Arunachal Pradesh embody the social and cultural aspects of the people; Government of Arunachal Pradesh takes interest in these festivals. The Government accords financial help as the expenditure on mithuns, drinks, public feeding is beyond the limit of the people. The festivals are collective in nature involving huge amount of money. The Govt. takes part on the way to meet their expenditure. The people greatly appreciate the active response from the Government. Further the publicity department and the social and cultural wing activity sponsor, co-ordinate and participate in all the functions. Some colourful films are screened in their festival through the efforts of the Department of Information and Publicity.

Scope of Village Directory and Town Directory

The Village Directory and the Town Directory present data on amenities available to the people in each village and town. The village Directory also indicates the land use statistics in respect of each village.

The data included in the village and Town Directory are one of the most important compilation of Census, as the data presented are considered most useful by the scholars, the planners, the Administrators and other data users.

The Village Directory gives for each village particulars about Total Population and number of Households, Amenities available such as Educational and Medical Institutions, Drinking Water supply, Post, Telegraph and Telephone, Communication, Banks, Agricultural Credit Societies non Agricultural Credit Societies, Cooperative Societies, Recreational and Cultural facilities, Approach to Village, nearest Town and Distance, Power Supply, News Paper/Magazine, Income Expenditure, Important commodities, Land and Land use pattern etc. Village Directory data were collected on the basis of the position as existed to link villages with CD (Community Development) Block during 2001 Census.

The format of village Directory is basically on the pattern canvassed in 1991 Census except modification and addition of a few more columns. In column 9 the facilities on Telephone is newly added to know the present day need of such facilities in villages. Village Directory information for the Amenities on Education, Medical, Drinking Water, Post Telegraph, Telephone and Communication has been furnished in such a manner that in case an amenity is not available within the village a dash(-) is shown in the column and next to it in brackets the distance in broad ranges Viz., >5 kms, 5 – 10 kms and 10 + Km. of the nearest, place where the facility is available is given in order to gauge how far the amenity naturally serve the purpose in the village under reference.

While ascertaining a number of schools in a village under column 6 of the village Directory format the following methods have been adopted.

If there are composite schools like middle schools with primary classes or secondary schools with middle classes, these are included in the number of Primary and Middle schools respectively. For example, if in a village there are two Primary schools and one Middle school with Primary classes, the number of Primary Schools in the village is given as three and that of Middle Schools as one even though there may be only three educational institutions. So also in case of Secondary Schools. Like wise in case of Medical amenities in column 7 of Village Directory format, if in a Hospital there is Maternity Home and Child Welfare center Family Welfare center and T.B. clinic center etc. all these have been counted separately.

Town Directory Statement

The Town Directory consist of seven statements (Statement I–VII). All these are almost similar to those adopted in 1991. In the Town Directory the data on amenities and other aspects are presented in codes for want of space. The infrastructure of

amenities and facilities available in urban area is analyzed by taking the class of town into consideration. The data on municipal finance by civic status in the Statement III in respect of town in Arunachal Pradesh are not available. There is no Statutory or Non-statutory bodies managing the Civic Administration of the Town in Arunachal Pradesh. The roads, buildings and other civic amenities are maintained by the Public Works Department (State) and the Central Public Works Department. There is no Slum area in Lohit district. The column for Adult Literacy classes/ centers in Statement–V is introduced in relation to a particular level of education in view of the minimum needs Programme of the Planning Commission.

If there are more than one Medical or Educational Institutions of any type the number of such institutions have been indicated within brackets against the respective codes.

SECTION I

Village Directory

(a) Note explaining the abbreviations used in the village directory

The "Village Directory" is one of the traditional compilations of the Census. It gives the list of villages, their location numbers, their area, population, number of households, amenities such as educational, medical, drinking water, post and telegraph, commercial and co-operative banks, agricultural non-agricultural and other credit societies, recreational and cultural facilities, communication, approach to village, nearest town with a distance, power supply availability of newspaper and magazines, most important commodity manufactured and land use of each village.

Village is a statutory recognized unit having a definite boundary and separate land records. In case, a complete village is treated as an outgrowth of urban agglomeration, data on amenities for that village, have not been given in the Village Directory but shown along with the urban component. The villages which are consider as a Census Town , the amenities data are shown in the Town Directory. For those villages which have partly merged in an outgrowth of U.A., the amenities data are shown in the Village Directory for that particular village.

The 'un-inhabited' villages (villages with no population) have been indicated as such after furnishing details in columns 1 to 3 i.e., Serial number, Name of village & location code number and area of the village against column no. 4 to 18. The land use data for such villages are shown in col. 19 to 23.

The Village Directory format has 25 columns and the details given under each column are for the village are as follows :

Columns 1 & 25 : Serial Number

Self explanatory. All the villages within the CD Block are presented serially in the ascending order of their location code number.

Columns 2 & 24 : Name and Location Code Number of village.

The name and location code number of the village are shown against these columns. This also includes the forest and uninhabited villages.

Column 3 : Area of the village

The area of the villages in hectares are given. Wherever the area figures was not furnished by the concerned department the column is left blank.

Column 4 : Total population

The total population of the village as per 2001 Census is given against this column.

Column 5 : Number of households

The number of households as per 2001 Census is given in this column.

Amenities :

In column 6 to 23, availability in respect of different amenities such as education, medical, drinking water, post, telegraph, banks, credit societies, communication, power, approach road etc. in each village has been depicted with appropriate codes against the column concerned. Wherever the amenities are not available in the village, a dash (-) is shown in the column and next to it in brackets the distance in broad ranges viz.< 5 kms., 5-10 kms. and 10+ kms of the nearest place where the facility is available is given. Column wise details are given below :

Column 6 : Educational

Classes upto class V included in Primary School. This will include nursery school, kindergarten school. Pre-basic school, pre-primary school, junior basic school upto class V.

Classes from VI to VIII are included in the middle school.

Classes from IX and X included in High secondary school. Classes XI and XII are included in senior secondary school.

In case of composite schools like middle school with primary school or secondary school with middle school, these are also included in the number of primary and middle schools, respectively.

Accordingly any of the following types of institutions if exists within the village is shown as per codes given below :

(i)	Primary School	P
(ii)	Middle School	M
(iii)	Secondary School	S
(iv)	Senior Secondary School	PUC
(v)	College	C
(vi)	Industrial School	I
(vii)	Training School	Tr
(viii)	Adult literacy class/centre	AC
(ix)	Others (specify) e.g. Sanskrit Pathshala, Senior basic school, Navodaya Vidyalaya, Makhtab, etc.	O

More than one institution of a type in the village is indicated by the number within brackets against the abbreviation, e.g. P(3), M(4), etc.

Column 7 : Medical

Availability of medical facility within the village is indicated by following codes :

(i)	AllopathicHospital	H
	Ayurvedic Hospital	HA
	Unani Hospital	HU
	Homeopathic Hospital	H Hom
(ii)	Allopathic Dispensary	D
	Ayurvedic Dispensary	DA
	Unani Dispensary	DU
	Homeopathic Dispensary	D Hom
(iii)	Maternity & Child Welfare	MCW
(iv)	Maternity Home	MH
(v)	Child Welfare Centre	CWC
(vi)	Health Centre	HC
(vii)	Primary Health Centre	PHC
(viii)	Primary Health Sub-Centre	PHS
(ix)	Family Welfare Centre	FWC
(x)	T.B. Clinic	TB
(xi)	Nursing Home	NH
(xii)	Registered Private Medical Practitioner	RMP
(xiii)	Subsidised Medical Practitioner	SMP
(xiv)	Community Health Worker	CHW
(xv)	Others	O

More than one institution of a type in the village is indicated by the number within brackets against the abbreviations, e.g. H(3), D(4), etc.

Column 8 : Drinking Water

The type of the drinking water supply sources available within the village are indicated by codes as follows :

(i)	Tap Water	T
(ii)	Well Water	W
(iii)	Tank Water	TK
(iv)	Tubewell Water	TW
(v)	Handpump	HP
(vi)	River Water	R
(vii)	Canal	C
(viii)	Lake	L
(ix)	Spring	S
(x)	Others	O
(xi)	Summer Sorce	SS-

Column 9 : Post, Telegraph and Telephone

It is indicated by codes as shown below whether within the village exists the following amenities :

(i)	Post Office	PO
(ii)	Telegraph Office	TO
(iii)	Post & Telegraph Office	PTO
(iv)	Telephone Connection	PH

Column 10 : Commercial and Co-operative Banks

If the village is served by any banking service, commercial bank, co-operative bank etc. the same is indicated in codes mentioned below along with the number of banks in brackets. If not available the distance of nearest place where the facility exist is given:

(i)	Commercial Bank	CM
(ii)	Co-operative Bank	CP

Column 11 : Credit Societies

If the village enjoys the services of Credit Societies i.e. Agricultural Credit Societies, Non Agricultural Credit Society or Other Credit Societies, the same is indicated in codes mentioned below along with the number of such societies in brackets. In case the facility is not available within the village the distance of the nearest place where such facility exist is given :

(i)	Agricultural Credit Society	ACS
(ii)	Non-Agricultural Credit Society	NCS
(iii)	Other Credit Society	OCS

Column 12 : Recreational and cultural facilities

If facilities such as Cinema/Video hall, Sports Club, Stadium/Auditorium is available in the village. The same is recorded in these columns. If not available the particulars of the nearest place with the facility is recorded. The information is indicated in codes mentioned below along with the number of such facilities in brackets:

(i)	Cinema / Video Hall	CV
(ii)	Sports Club	SP
(iii)	Stadium / Auditorium	ST

Column 13 : Communications

If the village is served by any mode of public/ private transport like Bus, Railway station or Navigable water ways they are to be mentioned as follows:

(i)	Bus	BS
(ii)	Railway Station	RS
(iii)	Navigable Waterway	NW

Column 14 : Approach to village

Approach to village refers to the state of road leading to village. The approach to the village is indicated in following codes :

(i)	Paved Road	PR
(ii)	Mud road	MR
(iii)	Foot path	FP
(iv)	Navigable River	NR
(v)	Navigable Canal	NC
(vi)	Navigable waterways other than River, Canal	NW

Column 15 : Nearest Town and distance

The distance is given in kilometers in brackets against the name of the town nearest to the village.

Column 16 : Power supply

Availability of Power Supply in the village, whatever may be the form of its use is given by using following codes :

(i)	Electricity for domestic use	ED
(ii)	Electricity for agricultural use	EAG
(iii)	Electricity for other purposes	EO
(iv)	Electricity for all purposes	EA

Column 17 : News Paper / Magazine

If village receives any News Paper/Magazines the same is noted in this column using following codes:

(i)	News Paper	N
(ii)	Magazine	M

Column 18 : Most important commodities manufactured

The name of three most important commodities manufactured in the village is recorded against this column.

Column 19 to 23 : Land use i.e. area under different types of land use

Land use data maintained by the State/UT Govts. are furnished against these columns. The data concerning area under Forest, Irrigated land (by source), Un-irrigated land, Culturable waste and Area not available for cultivation in the village are shown against these columns. The area figures are given in

hectare(s) up to one decimal. Desh '-' is recorded wherever the information is not made available by the concerned department. The codes used for different types of irrigation facilities available in the village are indicated below :

(i)	Government Canal	GC
(ii)	Private Canal	PC
(iii)	Well (without electricity)	W
(iv)	Well (with electricity)	WE
(v)	Tubewell (without electricity)	TW
(vi)	Tubewell (with electricity)	TWE
(vii)	Tank	TK
(viii)	River	R
(ix)	Lake	L
(x)	Waterfall	WF
(xi)	Others	O
(xii)	Total	T

The village directory also carries the following appendices.

Appendix-I It gives the abstract of educational, medical and other amenities available in villages C D Block wise of the district.

Appendix-I-A Indicates number of villages C D Block wise having one or more primary schools.

Appendix-I-B Indicates number of villages C D Block wise having primary, middle and secondary schools.

Appendix-I-C Shows number of villages C D Block wise with different sources of drinking water facilities.

Appendix-II Indicates the list of villages with 5,000 and above population which do not have one or more important amenities.

Appendix-II-A Indicates list of Census Towns which do not have one or more amenities.

Appendix-III It gives the land utilization data in respect of Census Towns/non-municipal Towns.

Appendix-IV C D Block wise list of inhabited villages where no amenity other than drinking water facility is available.

Appendix-V Summary showing number of villages not having Scheduled Castes population.

Appendix-VI Summary showing number of villages not having Scheduled Tribes population.

Appendix-VII A, VII B The appendix shows the list of villages according to proportion of the Scheduled Castes and Scheduled Tribes to the total population by ranges.

Appendix-VIII Indicates C D Block wise number of villages under each Gram Panchayat.

Appendix-IX Shows number of different types of girls school in a village.

(b) List of villages merged in towns and outgrowths at 2001 Census

Not a single village has been merged in towns and outgrowth at 2001 Census in the district.

Note:- Villages having NIL Scheduled Tribes Population have been excluded

APPENDIX VIII - VILLAGE DIRECTORY
NUMBER OF VILLAGES UNDER EACH GRAM PANCHAYAT (C. D. BLOCK WISE)

There is no Gram Panchayat in the district.

APPENDIX IX - VILLAGE DIRECTORY
STATEMENT SHOWING NUMBER OF GIRLS SCHOOLS IN THE VILLAGES

There is no separate girls school in the district.

The table is optional subject to availability of information

Blank

SECTION II

Town Directory

The town directory is presented for each town covering different aspects of urban life. As like 1991 census seven statements have been included for presentation of this data. The data contained in these statements are the area, population in 2001 and past censuses, growth rates, density, sex ratio, physical aspects of towns, communications, municipal finances, civic, medical, educational and other amenities and trade, commerce, industry and banking facilities. It covers all the towns in the district statutorily notified as well as non-municipal towns. All the towns in the district are arranged in alphabetical order.

As in the case of Village Directory, the Town Directory is also a compiled presentation of various amenities and other basic information in respect of the urban areas (Towns) as per various formats adopted for this purpose. The Town Directory includes the following statements.

Statement I	Status and Growth History.
Statement II	Physical Aspects and Location of Towns.
Statement III	Municipal Finance.
Statement IV	Civic and Other Amenities.
Statement V	Medical, Educational,
Statement VI	Trade, Commerce, Industry and banking.
Statement VII	Civic and other amenities in Slums.

Appendix to Town Directory – Towns showing their outgrowth with population could not be compiled as there is no Slum areas/population available anywhere in Arunachal Pradesh and there is no outgrowth areas of any town in the State.

The criteria for any area considered as urban in 2001 Census was initially formulated in 1991 Census which continued to be the same in the Census of 1981, 1991 and 2001 as briefly indicated below :

a) All areas within Municipality Municipal Corporation, Cantonment Board or Notified Town Area/Urban Local Body.

b) Any other place which satisfied all of the following criteria :

   i) A minimum population of 5000.

   ii) At least 75% of the male working population should be engaged in non-agricultural pursuits and

   iii) A minimum density of population of 400 persons per square kilometer or 1000 per square kilometer.

In Arunachal during Census of India 2001, 17 Towns were existing and all 17 of them were Notified Towns. In the year 1991 the total number of Notified Towns were 10 as notified by the State Government from time to time.

As in the case of Urban Areas/Units (Towns/ Cities), the concept of Urban Agglomeration (UA) remained unchanged from 1971 Census. In Census an Urban Agglomeration (UA) denotes a continuous urban spread and normally consists of a town and its adjoining urban outgrowths or two or more physically contiguous towns together with contiguous well recongnised outgrowths if any, of such towns. No Urban Agglomeration watch detected in the district during 2001 Census and hence corresponding information in this regard be taken as nil. A brief note on various abbreviation used in the Town Directory is also given.

A gist of data contain in the Statement I to VI as mentioned below may be of benefit of data users:

Statement-I

It contains details of Class, Name and Civic Status of Town (col. 2), Location Code Number (col. 3), Name of the Police Station (col. 4), Name of the

R.D. Block (col. 5), Area in sq. km. of each Town (col. 6), Number of Households in 2001 Census (col. 7), Population and Growth Rate (in brackets) of the Town at the Census of 1901, 1911, 1921, 1931, 1941, 1951, 1961, 1971, 1981, 1991 and 2001 (col. 8 to col. 22).

Statement-II

This statement gives Physical Aspects and Location of Towns and contains information on Class and Name of Town (col. 2), Rainfall in mm. (col. 3), Temperature in o Celsius (col. 4 and col. 5), Road distance in kilometer from State Hqtrs. (col. 6) and District Hqtrs. (col. 7), Distance between the Town and nearest city with 1 Lakh or more Population (col. 9), 5 Lakh or more Population (col. 10), Railway Station (col. 11) and Bus Facility (col. 12), Column 13 has been left blank as no data is available since no such system is in existence.

Statement-III

It is proposed to contain data in respect of Municipal Finance. As not a single municipality or similar body has been functioning in Arunachal Nil report has been shown in this Statement (col. 4-17).

Statement-IV

This statement incorporated information in respect of Class and Name of the Town, Civic Administration Status (col. 2), 2001 Census Population (col. 3), Scheduled Caste (col. 4), Scheduled Tribe (col. 5), Road Length (col. 6), System of Sewerage (col. 7), Number of Latrines (col. 8-11), Method of Disposal of Night Soil (col. 12), Source of Water Supply (col. 13), System of Storage with Capacity (col. 14) Fire Fighting Service (col. 15), Electrification (col. 16-20).

Statement-V

It contains details of Class and name of the Town (col. 2), Population in 2001 Census (col. 3), Medical Facilities (col. 4 and col. 5), Educational Facilities (col. 6-15), Number of Recreational and Cultural Facilities (col. 16-20).

Statement-VI

In this statement information on Trade Commerce, Industry and Banking have been incorporated. Thus information on Class and Name of the Towns (col. 2), Names of the most important commodities manufactured (col. 6, 7, 8), Number of Banks (col. 9), Number of Credit and other Societies (col. 10 and col. 11) are given.

Statement-VII

It has been provided for incorporation of data on Civic and other amenities in Slums in respect of Class and Name of the Town where the Slum exists (col. 2), Name of Slum (col. 3), whether Notified (col. 4), Number of Households (col. 5), Population (col. 6), Paved Roads (col. 7), System of Sewerage (col. 8), Number of Latrines (col. 9, 10, 11), Community (col. 12), Method of Disposal of Night Soil (col. 13), Drinking Water Supply (col. 14) and Supply of Electricity (col. 15, 16, 17).

(b) Note explaining the abbreviations used in the Town directory

Town Directory statements (I to VII)

Statement I : Status and Growth History

Column (2) : Class, name and civic administration status of town :

Class has been introduced to facilitate analysis of town directory data at the state and all India levels. It is presented according to 2001 Census Population of the town as follows :

Population	Class
100,000 and above	I
50,000 - 99,999	II
20,000 - 49,999	III
10,000 - 19,999	IV
5,000 - 9,999	V
Below 5,000	VI

Town with a population of one hundred thousand (1,00,000)and above is treated as a city.

The civic administration status of the towns is indicated within bracket against the name of the town. The following abbreviations are used to denote civic status of town.

(I)	Municipal Corporation Corp.	Corp.
(II)	Municipal Committee	MC
(III)	Municipal Council	M Cl

(IV)	City Municipal Council	CMC
(V)	Town Municipal Council	TMC
(VI)	Municipal Board	MB
(VII)	Municipality	M
(VIII)	Cantonment Board/Cantonment	CB
(IX)	Notified Area	NA
(X)	Notified Town	NT
(XI)	Notified Area Committee/ Notified Area Council	NAC
(XII)	Notified Town Area	NTA
(XIII)	Industrial Notified Area	INA
(XIV)	Industrial Township	ITS
(XV)	Township	TS
(XVI)	Town Panchayat	TP
(XVII)	Nagar Panchayat	NP
(XVIII)	Town Committee/ Town Area Committee	TC
(XIX)	Small Town Committee	ST
(XX)	Estate office	EO
(XXI)	Gram Panchayat	GP
(XXII)	Census Town	CT

Others columns need no comments.

Statement II - Physical Aspects and Location of towns, 1999.

Column 3 to 5 : Physical Aspects

In this columns the Rainfall and Maximum & Minimum Temperature of the town is recorded.

Column 6, 7 and 8 :

Name of the State headquarters, District headquarters and Sub-Divisional headquarters with distance from the referent town in kilometers, is to be recorded respectively. If the names mentioned in these columns are the same as the referent town itself, the distance is recorded as (0) zero.

Column 9 & 10 :

Name of the nearest city with one lakh and more and five lakh and more population are recorded.

Column 11, 12 and 13 :

If referent town enjoys the facility of railway station, bus route facility or navigable river/canal. Its name is to be mentioned. If not available, then the name of nearest place with distance, where such facility exists is to be mentioned.

Statement III : Municipal Finance 1998 – 1999

Item-wise amount of receipt and expenditure in thousand rupees, relating to municipal finance of the town for the year 1998-99 is to be recorded.

Statement IV : Civic and Other amenities, 1999

Column (1 to 5) : Self explanatory.

Column (6) : Road length (in kms.)

Information about kutcha/ pucca road is to be recorded separately for the roads within the limits of the referent town.

(i)	Pucca Road	PR
(ii)	Kutcha Road	KR

Column (7) : System of Sewerage

Generally, by sewerage system is implied the network of mains and branches of underground conduits for the conveyance of sewerage to the point of disposal. Sewers that carry only household and industrial wastes are called separate sewers, those that carry storm water from roofs, streets and other surface are known as storm water drains, while those carrying both sewage and storm water are called combined sewers.

The codes used for different types of drainage system are as follows :

(i)	Sewer	S
(ii)	Open Surface Drains	OSD
(iii)	Box Surface Drains	BSD
(iv)	Sylk Drains	SD
(v)	Cesspool method	CP
(vi)	Pit System	Pt
(vii)	Others	O

Column 8 to 11 : Number of latrines

Number of various types of latrines both Public and Private are given in these columns.

Column 12 : Method of disposal of night soil

The various prevalent method of disposal of night soil are given below with codes :

Head Loads	HL
Basket	B
Wheel Barrows	WB
Septic Tank	ST
Pit System	Pt
Sewerage	S
Others	O

Column 13 and 14 : Water supply

Source and capacity of storage system. The following codes are used in these columns:

Column 13 :

(i)	Tap water	T
(ii)	Tube-well water	TW
(iii)	Tank Water	TK
(iv)	Well water	W

Column 14:

(v)	Over Head Tank	OHT
(vi)	Service Reservoir	SR
(vii)	River Infiltration Gallery	RIG
(viii)	Bore Well Pumping System	BWP
(ix)	Pressure Tank	PT

The information on major source of water supply are given in column 14 and the storage capacity against each in kilo-litres (in bracket) are presented in column 15.

Column 15 : Fire Fighting Service

In case the fire fighting service is available in the referent town 'yes' is recorded. If the facility is not available within the town. The name of the nearest place having this facility with its distance from the referent town has been recorded.

Column 16 to 20 : Electrification (Number of connections)

Different types of electric connections have been shown in these columns, i.e. Domestic, Industrial, Commercial, Road lighting (points) & others.

Statement V : Medical, Educational, Recreational and Cultural Facilities, 1999

Column 1 to 3 : Self explanatory.

Column 4 & 5 :

The data covers all such medical institutions run by or aided by Government/Semi Government/Local bodies and Charitable institutions or Social agencies like the Missionaries. Where the family planning centres are attached to hospitals or maternity and child welfare centres or Primary Health Centres, may be treated as independent units and counted separately using following codes :

(i)	Hospital	H
(ii)	Dispensary	D
(iii)	Health Centre	HC
(iv)	Family Welfare Centre	FWC
(v)	T.B. Clinic	TB
(vi)	Nursing Home	NH
(vii)	Others	O

In case of more than one institutions of any type, it is indicated within brackets the number of such institution (s) e.g. D(3), NH(8), etc. The institutions have further been distinguished by providing additional codes within the bracket as given below :

Ayurvedic	A
Unani	U
Homoeopathic	Hom.

Column 6 to 9 :

The codes used for these columns are as follows:

(i)	Arts only	A
(ii)	Science only	S
(iii)	Commerce only	C
(iv)	Arts & Science only	AS

(v)	Arts & Commerce only	AC
(vi)	Combined for all categories-Arts, Science and Commerce	ASC
(vii)	Law	L
(viii)	University	U
(ix)	Others	O

Column 10 : Recognized shorthand, typewriting and vocational training institutes

"Recognised" should mean recognised by some statutory authority, like education department, commerce department, labour department etc. of the government or semi government or autonomous bodies, public sector undertakings etc.

The following codes are used :

(i)	Vocational Training Institute	VT
(ii)	Shorthand	SH
(iii)	Typewriting	Type
(iv)	Shorthand & Typewriting	SHType
(v)	Others	O

The vocational institutions like-Applied Art/ Painting college, Pharmacy college, B. Ed. College, Teacher's Training Institute, Music/Dance School, Nursing School etc. are covered under 'Others'.

Column 11 to 14 :

Higher Secondary/Intermediate/Senior Secondary/PUC/Junior College level, Secondary/ Matriculation, Middle Schools/ Junior Secondary and Primary Schools.

School up to class V are treated as Primary or elementary schools. These include Nursery schools, Kindergarten schools, Pre-Primary schools, Junior Basic schools upto class V and Primary schools upto class IV.

Schools upto VIII are considered as Middle school or Junior Secondary.

Schools upto class X are considered as Matriculation or Secondary schools.

Schools upto XI or XII classes are considered as Higher Secondary/Intermediate/Pre University/Junior College etc. This would cover 10+2 classes whether held in schools or college.

If there are composite schools like middle schools with primary classes or Secondary schools with Middle classes, these are also included in the number of Primary and Middle schools, respectively. For example, if in a town, there are two Primary Schools and one Middle school with Primary classes, the number of Primary schools in the town is given as three and that of Middle schools as one though there are only three educational institutions.

If there are more institutions of a type in the town, the number is indicated within bracket along with the abbreviation, e.g. P(4), M(3).

Column 15 : Adult literacy class/centres

This column has been introduced keeping in view the Minimum Needs Programme of the Planning Commission. There are number of Adult Education Centres which are included in these columns.

If an educational facility is not available in the town, the name of the nearest place and its distance in kilometres from the town where the facility is available is mentioned.

Column 16 : Working Women's hostels with number of seats

The number of working women's hostel if available in the referent town is mentioned with number of seats. If the facility is not available in the town the name of nearest place with distance where the facility is available is recorded.

Column 17 to 19 : Recreational and Cultural Facilities

Stadium, Cinema, Auditorium/Drama/Community Hall are covered under recreational & cultural facilities. The particulars of permanent recreational facilities are considered for these columns.

Column 20 : Public Libraries, Reading Rooms

Number of public libraries and reading rooms available in the referent town are recorded in codes as follows :

(i)	Public Library	PL
(ii)	Reading room	RR

Statement VI : Trade, Commerce, Industry and Banking, 1999

Column 3 to 8 :

Name of three most important commodities exported and names of three most important commodities manufactured in the town are recorded.

Column 9 : Number of Banks

Number of Banks available in the referent town both Commercial and Co-operative banks are recorded against this column.

Column 10 & 11 : Number of Agricultural Credit Societies and Non Agricultural Credit Societies

The total number of Agricultural Credit Societies and Non Agricultural Credit Societies in the referent town are recorded against these columns.

Statement VII : Civic and other Amenities in Slums, 1999

This is the statement on civic and other amenities in all slums whether notified or not and for all towns having statutory bodies, like municipality, Municipal Corporation, Town area committee etc.

STATEMENT - I

APPENDIX TO TOWN DIRECTORY
TOWN SHOWING THEIR OUTGROWTH WITH OPULATION.

There is no outgrowth in the towns.

Blank

PART B
PRIMARY CENSUS ABSTRACT

Blank

Brief note on Primary Census Abstract

The first census of the third millennium and twenty first century the Census of India, 2001 was the 14th continuous and uninterrupted Indian census since 1872. Thus, 2001 Census will provide data on population and its characteristics marking transition from one century and millennium to another.

The gigantic operation of Population Enumeration (considered by many to be the single largest and complex peace time administrative exercise in the world) was made possible due to the door to door universal canvassing of the Household Schedule by about 2 million enumerators and supervisors covering 593 districts, 5,463 sub-districts, 5,161 towns and 638,588 villages. The comprehensive Household Schedule which replaced the individual slip had three parts and two sides A and B. Part I contained the Location Particulars; Part II related to the Individual Particulars and Part III contained questions for Household engaged in Cultivation/Plantation. The part II of the Household Schedule had 39 columns and 23 questions all of which were universally canvassed and no sampling was resorted to during enumeration.

Data Processing

A quantum leap was made in the technology front while processing the Census 2001 data both for Houselisting and Population Enumeration. The Census schedules for both the phases were scanned through high speed scanners in fifteen data centers across the country and hand-written data from the schedules were converted into digitized form through Intelligent Character Reading (ICR) software for creation of ASCII records for further processing. The designing and formatting of the Household Schedule had to be done very carefully using specialized software so as to ensure uniformity, which was an essential pre-requisite for scanning. The selection of appropriate state-of-art technology in data processing has made it possible to produce all the Houselisting as well as Population Enumeration tables on full count basis for the first time in the history of Census. For Census 2001, about 202 million schedules consisting of about 1,028 million records were scanned and processed within a span of only 10 months starting October, 2002.

Task Force on Quality Assurance

After the data is processed, it is expedient on the part of the data producing agency to satisfy itself about its quality before putting the same in public domain. This has to be done mainly through the process of internal consistency, comparison with similar data in the past and also through validation with likewise data if available, from external sources. Quite often the local knowledge and perception has to be brought into play to understand both the existing and the new emerging trends of population distribution and characteristics. The other very important aspect of the data quality is to ensure complete coverage of all geographical areas especially for the population enumeration phase where the data is disseminated right up to the village level in the rural areas and the ward level in the urban areas. Thus ensuring the complete coverage and correct geographical linkage of each enumeration block was one of the major planks of the quality control, specially for small area population statistics.

A very comprehensive check and edit mechanism was put in place to objectively examine the preliminary Census 2001 Population Enumeration results and finally clear them for use. The responsibility of the final clearance of data was with the Task Force on Quality Assurance (TFQA), headed by the Registrar General and Census Commissioner, India. The other members of the TFQA were the Heads and senior officers of the Census Division, Data Processing Division, Map Division, Demography Division and Social Studies Division. The Directors of Census Operations were co-opted as members whenever the TFQA discussed the data for their States/Union territories. The Directors and their senior officers were required to make detailed presentations of data for their own state both in respect to the quality

and the coverage and only after the full possible cleared.

There has been a major departure in Census 2001 from the past in respect of the procedure followed for finalization of the Scheduled Castes and the Scheduled Tribes population. In the earlier censuses, the total Scheduled Castes and Scheduled Tribes populations were finalized at the time of the manual compilation of the Primary Census Abstracts (PCA) at the Regional Tabulation Offices which were specially set up for this purpose. The individual Scheduled Castes and the Scheduled Tribes population for each state was finalized much later based on manual coding done by the coders. In 2001 Census, each individual Scheduled Caste and the Scheduled Tribe have been coded directly on the computers by the Data Entry Operators through a process known as Computer Assisted Coding (CAC) and taken up along with the processing of PCA data. The CAC process involves pulling down, from the relevant dictionary of the Scheduled Castes and the Scheduled Tribes, on the computer screen and coding from the dictionary by referring to the image of the specific individual entry in the Household Schedule appearing on the screen. The CAC of the response on Religion wherever required, was also undertaken along with the processing of PCA. This is because the Scheduled Castes status had to be determined in relation to the religion of the individual. Two Special Task Forces, one on Religion and the other on Scheduled Castes/ Scheduled Tribes were constituted for scrutiny and appropriate classification of these responses.

The main task of the Special Task Force on Religion was to appropriately merge or group the new responses encountered and code it into the appropriate religious community based on available literature and local knowledge. The Special Task Force on Scheduled Castes and Scheduled Tribes examined the different Scheduled Castes and Scheduled Tribes entries encountered and classified these into appropriate category of the Scheduled Castes or the Scheduled Tribes principally based on the Presidential Notification and the available literature. Thus a very systematic and scientific mechanism was operationalised to firm up the individual religion and the individual Scheduled Castes/Tribes returns. The Scheduled Castes and the Scheduled Tribes population in 2001 Census, is thus being finalized by aggregating the population data for individual Scheduled Castes and the Scheduled Tribes at appropriate geographical levels.

The entire work relating to the data validation and scrutiny was completed by all the States/Union Territories under the overall supervision and monitoring of the Census Division of the Office of the Registrar General, India with active cooperation and support of the Social Studies Division, Data Processing Division, Data Dissemination Division and Map Division.

Primary Census Abstract

The Primary Census Abstract which is yet another important publication of 2001 Census gives basic information on Area, Total Households, Total population, Scheduled Castes, Scheduled Tribes population, Population in the age group 0-6, Literates, Main workers and Marginal workers classified by the four broad industrial categories, namely, (i) Cultivators, (ii) Agricultural laborers, (iii) Household Industry Workers, and (iv) Other workers and also Non-workers. The characteristics of the Total population includes Scheduled Castes, Scheduled Tribes, Institutional and Houseless population and are presented by sex and rural-urban residence. This data is presented at different levels, namely, India, States/Union territories, Districts and Cities, Urban Agglomerations (Population 1,00,000 and above) in three different tables. In addition, the Appendix of said publication provides Houseless and Institutional Households and their population by residence and sex for 2001 for India, State and Union territory.

Apart from the India and State/Union Territory volumes for Primary Census Abstract, the District Census Handbook contains District Primary Census Abstract, Appendix to District Primary Census Abstract, Primary Census Abstract for Scheduled Castes, Primary Census Abstract for Scheduled Tribes, Village Primary Census Abstract and Urban Primary Census Abstract of the concerned district in the state.

It was for the first time at the 1981 Census that the Primary Census Abstract (PCA) was brought out for the Scheduled Castes and the Scheduled Tribes separately on the pattern of General Primary Census Abstract. This practice was continued in 1991 also. In the 1961 and 1971 Censuses, such data were made available in Table C-VIII-Social and Cultural table and to some extent in the series 'Special Tables for Scheduled Castes/Scheduled Tribes'.

The format of Primary Census Abstract has been restructured slightly in the 2001 Census as compared to that of 1991 Census. The nine-fold industrial classification of main workers given in the Primary Census Abstract of 1991 Census has been discontinued and its place, four-fold industrial classification of both 'main workers' and 'marginal workers' are included. In 1981 census only main workers were presented in to four categories. One of the novel features of the primary census abstract of 1991 census was the presentation of data of the population of age group 0-6 is continued in 2001 Census also. This will help the data users in better analysis and understanding of this literacy data.

Level of presentation in District Census Handbooks:

The Primary Census Abstract data in different PCAs are presented at different levels. The level of presentation of Primary Census Abstracts are as under:

	Name of the Primary Census Abstract	Level of presentation
1.	District Primary Census Abstract	District/CD Block/UA/City/Town
2.	Primary Census Abstract for Scheduled Castes	District/CD Block/Town
3.	Primary Census Abstract for Scheduled Tribes	District/CD Block/Town
4.	Village Primary Census Abstract	CD Block/Village wise
5.	Urban Primary Census Abstract	Town/Ward level

The PCA Data for villages was presented CD Block wise for the first time in 1991 Census. This practice is continued in 2001 Census also. The data for each CD Block is presented both for rural and urban areas separately. All the villages within the CD Block constitute the rural portion and the Census Towns and Outgrowths are shown under the urban portion of the CD Block. In case a CD Block is spread over two or more districts, than portion which falls within the district is presented, the data pertaining to remaining portion of the CD Block is presented in the concerned District Census Handbook. The data in the Urban Primary Census Abstract for each town as well as for town with outgrowths in the district are presented. The data for all the wards and the outgrowths of the town(s) are also presented separately below the concerned town(s).

The District Primary Census Abstract is presented in 59 columns. The Primary Census Abstract for Scheduled Castes and Primary Census Abstract for Scheduled Tribes are presented in 52 columns. The Village Primary Census Abstract and Urban Primary Census Abstract are presented in 58 columns.

The concepts and definitions used in the column heading are explained under the sub heading 'Census Concepts' in the Analytical Note. The term 'Total Population' includes the Scheduled Castes, the Scheduled Tribes, the Institutional and the Houseless populations. The explanation regarding area figures presented at various level in the Primary Census Abstracts are as follows:

Area Figures

The area figures supplied by local revenue authorities of the district in respect of tehsils, Police Stations and by the local bodies in respect of towns are given in square kilometers. The area figures of the villages supplied by the Tahsildars in acres have been converted and shown in hectares. The area figures of the CD Block is the total of the village areas coming under each CD Block. The area figures for the district are the same as adopted by the Surveyor General of India to maintain uniformity at the national level. The total area figures of all the tahsils/CD Blocks within the district may not tally with area figures of the district because former represents land use area only. Similarly, the total of all the villages may not tally with the entire rural of Police Station/ Tahsil. The difference may be due to the fact that while the area covered by hills, forests and rivers etc, have been accounted in the Tahsils and P.S. level the same may not be covered under the area of the villages. Apart from this it may also differ due to varying methods of computation adopted at different levels.

An appendix to District Primary Census Abstract has also been furnished showing urban enumeration block-wise particulars on Total Population, the Scheduled Castes Population and the Scheduled Tribes Population for each town.

ANNEXURE - I
C. D. BLOCK/CIRCLE WISE VILLAGE

Sl. No.	Name of C.D. Block	Name of Circle	Number of villages
1	2	3	4
1	Nacho-Siyum C.D. Block	(1) Taksing Circle	14
		(2) Limeking Circle	20
		(3) Nacho Circle	43
		(4) Siyum Circle	48
		Total :	**125**
2	Taliha C.D. Block	(1) Taliha Circle	74
		(2) Payeng Circle	12
		Total :	**86**
3	Giba C.D. Block	(1) Giba Circle	65
		Total :	**65**
4	Daporijo C.D. Block	(1) Daporijo Circle	27
		(2) Puchi Geko Circle	25
		Total :	**52**
5	Dumporijo C.D. Block	(1) Dumporijo Circle	58
		(2) Baririjo Circle	29
		Total :	**87**
		Grand Total :	**415**

As per the instruction of SS Division in Annexure–I number of gram panchayats available in the district is to be given. In view of nonfunctioning of Panchayati Raj system in the State the same could not be furnished and in place the number of C.D.Blocks, Circles and Villages have been shown in the Annexure.

There were 4 C.D.Blocks functioning in the district as per 1991 Census. They were (1) Nacho-Siyum (2) Taliha (3) Daporijo (4) Dumparijo C.D. Blocks. Giba a new C.D. Block have formed and the number increased to 5 (Five). Subsequently the number of villages has also increase from 405 to 415 in the 2001 Census. The total number of Circles in the district in 1991 Census was 10. The Payeng Circle has been newly created from the Taliha Circles in Taliha C.D. Block in 2001 Census which has increase the number to 11 Circles.

ANNEXURE – II

NOTE ON FERTILITY, MORTALITY AND MIGRATION, 1991 & 2001 CENSUSES

Fertility level

Fertility is the most important aspect in the field of population studies. In 1991 Census, two main questions were asked, one to all the ever married women and second to all currently married women only. Questions on Fertility Related to age at Marriage, number of surviving children, number of children ever born alive and children born alive during the last year werre also asked. The first three questions were asked to all ever married women and the last question related to currently married women. The measure of fertility worked out are based in the F. Series tables of 1991 Census of Arunachal Pradesh. The following definitions are used in this series.

Age Specific Fertility Rate (ASFR) : The average number of children born alive during the last year per woman of a particular age group.

Age Specifies Marital Fertility Rate (ASMFR) : The average number of children born alive during the last year per married woman of a particular age group.

General Fertility Rate (GFR) : The number of children born alive during the last year per 1,000 women in the age group 15-49.

General Marital Fertility Rate (GMFR) : The number of children born alive during the last year per 1,000 married women in the age group 15-49.

Total Fertility Rate (TFR) : Total number of children that would have been born alive per woman, had the current schedule of age specific fertifity rates been applicable for the entire reproductive period.

Child Women Ratio : Number of children in age group 0-4 per 100 women in the age group 15-49.

	Female	111	139	169	218	93	225	290	341

Movement of People

Migration : Migration is the third component of population change, the other two are mortality and fertility. A person is considered as a migrant by place of birth if the place in which he is enumerated during the census is other then the place of his birth, similarly, a person is considered as a migrant by place of last residence if the place in which he is enumerated during the census is other the his place of immediate last residence.

Internal and International migration : The emigrational movements are of three types.

(i) Migration within the state itself with its components.

(a) Migration within the district of enumeration (inter district migration)

(b) Migration from the district of the state to another district of the state (Inter district migration)

(ii) Migration from one state to another state of the country (Inter-state migration) and

(iii) Migration from one country to another country.

The first two types of migration are internal migration while is last one is called international migration.

Why the people migrate : The reason for migration were categorized as (1) Employment (2) Business (3)Education (4) Family moved (5) Marriage (6) Natural calamities like draught, floods etc. (7) Others. The reason of migration have been eliated only with reference to movement from place of last residence.

Impact of migration : The growth of population of a particular place depends upon the Apeo- logical factor such as fertility, mortality and migration. The knowledge of trend in migration helps in future planning of a particular place.

PERCENTAGE DISTRIBUTION OF MIGRANTS BY PLACE OF BIRTH, 2001

Place of birth	Arunachal Pradesh			Upper Subansiri District		
	Persons	Males	Females	Persons	Males	Females
1	2	3	4	5	6	7

ANNEXURE – III

Data Not Available

ANNEXURE – IV

PERCENTAGE DISTRIBUTION OF MIGRANTS BY PLACE OF BIRTH, 2001

Place of birth	Arunachal Pradesh			Upper Subansiri District		
	Persons	Males	Females	Persons	Males	Females
1	2	3	4	5	6	7
Total Migrants :	**405,548 (100.00)**	**212,236 (100.00)**	**193,312 (100.00)**	**22,724 (100.00)**	**9,260 (100.00)**	**13,464 (100.00)**
Born elsewhere in the district of enumeration	157,043 (38.7)	68,112 (32.1)	88,931 (46.0)	16,201 (71.3)	5,317 (57.4)	10,884 (80.8)
Born in other districts of the State	52,411 (12.9)	26,997 (12.7)	25,414 (13.2)	2,244 (9.9)	1,060 (11.5)	1,184 (8.8)
Born in the State	209,454 (51.6)	95,109 (44.8)	114,345 (59.2)	18,445 (81.2)	6,377 (68.9)	12,068 (89.6)
Born in other States	170,626 (42.1)	102,161 (48.1)	68,465 (35.4)	4,095 (18.0)	2,752 (29.7)	1,343 (10.0)
Born in other Countries	25,468 (6.3)	14,966 (7.1)	10,502 (5.4)	184 (0.8)	131 (1.4)	53 (0.4)

It is seen form the above Annexure that 81.2 percent of population of the district were born within the State as against 51.6 percent for the State as a whole. 9.9 percent of the district poopulation were born in other districts of the State as against 12.9 percent of the population at State level, and this may prove that inter district migration in this district is on lower side. Inter State Migration also in Upper Subansiri district shows a lower percentage of 18.0 as against 42.1 percent of the State. So far international migration is concerned this district shows a very low percentage of 0.8 as against 6.3 percent of the State.

COMPARISON OF PERCENTAGE DISTRIBUTION OF MIGRANTS BY PLACE OF BIRTH FOR 1991 AND 2001

Birth Place	Upper Subansiri District	
Total Migrants	1991 (100%)	2001 (100%)
1	2	3
Born in the District of Enumeratoion	68.7	71.3
Born in Other Districts of the State	9.3	9.9
Born in the State	78.0	81.2
Born in Other States	20.4	18.0
Born in Other Countries	1.6	0.8

While compare the particular distribution of migrants by place of birth between 1991 and 2001 Censuses in respect of Upper Subansiri district, it is seen that the migrants born in the State is 81.2% in 2001 as against 78.0% in 1991 of which 71.3% and 68.7% respectively in 2001 & 1991 recorded against migrants born in the district of enumeration and 9.9% and 9.3% in 2001 and 1991 respectively against migrants born on other districts of the State. As regards migrants born in other States are 18.0% and 20.4% in 2001 and 1991 respectively, whereas it is 0.8% and 1.6% inrespect of migrants born in other Countries.

ANNEXURE - V

BRIEF ACCOUNT OF MAIN RELIGIONS IN UPPER SUBANSIRI DISTRICT/CIRCLE AS PER 2001 CENSUS

	Females	9,243	1,524	46	633	77	7	0	6,956	0
Puchi Geko	Persons	2708	186	0	98	29	0	1	2,394	0
	Males	1,342	118	0	52	18	0	0	1,154	0
	Females	1,366	68	0	46	11	0	1	1,240	0
Dumporijo	Persons	8,251	698	9	696	64	0	0	6,784	0
	Males	4,265	418	5	358	41	0	0	3,443	0
	Females	3,986	280	4	338	23	0	0	3,341	0
Baririjo	Persons	4,152	195	0	545	27	0	0	3,385	0
	Males	2,155	122	0	299	17	0	0	1,717	0
	Females	1,997	73	0	246	10	0	0	1,668	0

It may be seen from the Annexure V that the Other Religions and Persuations constitute 81.9 percent (45,318 persons) of the Total Population of the district, followed by Hindu 10.1 percent (5,572 persons), Christian 5.8 percent (3240 persons), Buddhist 1.2 percent (666 persons), Muslim 0.9 percent (506 persons), Sikh 0.1 percent (29 persons), Jain 0.0 percent (2 persons) and Religion not Stated

0.0 percent (13 persons). Out of 11 (eleven) Circles in the district, Daporijo Circle is the biggest circle with a populaiton of 19471 persons (35.2 percent) and the smallest being Taksing Circle with 592 persons (1.1 percent). From the above Annexure it will also be seen that the followers of other religions and persuations is found to be majority in all the circles of the district

COMPARISON OF MAIN RELIGIONS BETWEEN 1991 AND 2001

1991			2001		
Other Religion and Persuasions	–	80.8	Other Religion and Persuasion	–	81.9
Hindu	–	14.5	Hindu	–	10.1
Christian	–	11.7	Christian	–	5.8
Buddhist	–	2.0	Buddhist	–	1.2
Muslims	–	1.9	Muslims	–	0.9
Religion not Stated	–	(N)	Sikhs	–	0.1
Sikhs	–	0.1	Religion not Stated	–	(N)
Jains	–	(N)	Jains	–	(N)

While drawing a comparison of the main religions of Upper Subansiri district between 1991 and 2001, it is seen that Other Religions and Persuasions and Hindu religion constitute majority of population and placed number one and two in 1991 and 2001, followed by Christian, Buddhist, Muslim, Religion not Stated, Sikhs and Jains respectively.

Other Religion and Persuasions is also a major religion in Limeking, Nacho, Syium, Taliha, Giba, Daporijo. Dumporijo and Baririjo Circles where as Buddhist religion seems to be majority in Taksing Circle only in 1991. On the other hand Other Religions and Persuasions are found to be majority of populaiton and placed number one followed by Hindu, Christian, Buddhist, Muslims, Sikhs, Religion not Stated and Jains respectively in 2001 in the disrtict.

ANNEXURE - VI
MARITAL STATUS OF POPULATION AS PER 2001 CENSUS

Marital status	Total population			Percentage		
	Persons	Males	Females	Persons	Males	Females
1	2	3	4	5	6	7
All marital status	55,346	28,240	27,106	100.00	100.00	100.00
(i) Never Married	31,310	16,843	14,467	56.6	59.7	53.4
(ii) Married	21,551	10,965	10,586	38.9	38.8	39.0
(iii) Widowed	2,233	341	1,892	4.0	1.2	7.0
(iv) Divorsed or Separated	252	91	161	0.5	0.3	0.6
(v) Unspecified Status	0	0	0	0.0	0.0	0.0

From the Annexure VI it has been found that out of 55,346 Population 31310 or 56.6 percent are reported to be Never Married as against the 56.4 percent at State level. 21,551 persons or 38.9 percent are Married 2,233 or 4.0 percent are Widowed 252 or 0.5 percent Divorced or Separated.

COMPARISON OF MARITAL STATUS BETWEEN 1991 AND 2001

			1991	2001
	All Marital Status	–	100%	100%
1	Never Married	–	53.3	56.6
2	Married	–	43.8	38.9
3	Widow	–	2.7	4.0
4	Divorced or Separated	–	0.2	0.5
5	Unspecified	–	(N)	0.0

It is seen from the Annexure that the percentage of Marital Status of Population inrespect of Upper Subansiri district stands as (i) Never Married 53.3%, (ii) Married 43.8%, (iii) Widowed 2.7%, (iv) Divorced or Separated 0.2% and (v) Unspecified Status (N) only in 1991. On the other hand during 2001 this serial stands good. But with a little insignificant variation which is (i) Never Married 56.6%, (ii) Married 38.9%, (iii) Widowed 4.0% and (iv) Divorced or Separated 0.5% and (v) Unspecified status is NIL during 2001.

Form the Annexure VII above, the percentage of literates out of Total Population (excluding 0-6 years population) works out to be 50.3 percent as against 59.5 percent males and 40.7 percent females as against the percentage for the State as a whole stands it 54.3 percent. According to level of education the percentage of literates out of Total Population (excluding 0-6 years population) have been worksout as follows. Literate without educational level is 0.5 percent, below Primary 17.9 percent, Primary 13.6 percent, Middle 7.9 percent, Matriculation/Secondary 5.3 percent, Senior Secondary/Pre-university 2.9 percent, Non-Technical Diploma or Certificate not equal to Degree 0.0 percent, Technical Diploma or Certificate not equal to Degree 0.2 percent Graduate and above 2.0 percent and Unclassified is not available in the district.

COMPARISON OF LITERATES BY SEX BETWEEN 1991 AND 2001

Literates	1991	2001
Total Literatrtes	38.3	50.3
Males	47.6	59.5
Females	27.2	40.7

While drawing a comparison from the Annexure VII, it is seen that the percentage of literates excluding (0-6) years population accounts for 38.3%, for Males 47.6% and for Females 27.2% in 1991, where as it is 50.3% as against 59.5% for Males and 40.7% for Females during 2001 in Upper Subansiri district, for the State as a whole the percentage of literates is 41.6% in 1991 and 54.3% in 2001.

COMPARISON OF EDUCATION LEVEL BETWEEN 1991 AND 2001

Level of Education	1991	2001
Below Primary	13.1	17.9
Primary	10.1	13.6
Middle	7.7	7.9
Matric/Secondary	3.4	5.3
Higher Secondary/Intermediate/Pre-University/Sr. Secondary	1.8	2.9
Non-Technical Diploma or Certificate not equal to Degree	0.0	0.0
Technical Diploma or Certificate not equal to Degree	0.2	0.2
Graduate and Above	1.6	2.0

According to level of Education for the district for 1991 and 2001 the percentage of Literates below Primary are 13.1% and 17.9% respectively, for Primary 10.1% and 13.6%, Middle 7.7% and 7.9%, Matric/Secondary 3.4% and 5.3%, Sr. Secondary/ Higher Secondary/Intermediate/Pre-University 1.8% and 2.9%, Non-Technical Diploma or Certificate not equal to Degree 0.0% and 0.0%, Technical Diploma or Certificate not equal to Degree 0.2% and 0.2%, Graduate and above 1.6% and 2.0% respectively. It has been seen from the above that the percentage of level of Education has been increased during the decade.

ANNEXURE - VIII
DISTRIBUTION OF DIFFERENT MOTHER TONGUES OF ARUNACHAL PRADESH COMPARED WITH UPPER SUBANSIRI DISTRICT RETURNS, 2001

Sl. No.	Name of Languages	Number of persons who returned the language in	
		Arunachal Pradesh	Upper Subansiri
1	2	3	4
1	Tagin	38,158	35,244
2	Adigallong	61,674	6,990
3	Nissi	117,124	4,269
4	Nepali	94,895	1,223
5	Bengali	54,521	1,159
6	Assamese	51,422	997
7	Hindi	53,663	978
8	Adi	93,517	757
9	Bhojpuri	19,526	683
10	Oriya	7,770	441
11	Apatani	27,792	369
12	Malayalam	5,537	235
13	Miri/Mishing	33,343	224
14	Others	299,698	11,72

It hsa been seen from Annexure VIII that Upper Subansiri District has return Tagin (35,244) as the major language speakers followed by Adi Gallong (6,990) Nissi (4,269), Nepali (1,223), Bengali (1,159), Assamese (997) and Hindi (978) as compared to Nissi (117,124) the highest, followed by Nepali (94,895), Adi (93,517), Adi Gallong (61,674) Bengali (54,521), Hindi (53,663) and Assamese (51,422) at State level. This prove that every district has language of its own. Unlike other States there is no pre-dominant language in Arunachal Pradesh.

COMPARISON OF MOTHER TONGUE BETWEEN 2001 AND 1991

Sl. No.	Name of Mother Tongues	2001	1991
1	Tagin	35,244	-
2	Adigallong	6,990	-
3	Nissi	4,269	15,845
4	Nepali	1,223	-
5	Bengali	1,159	-
6	Assamese	997-	-
7	Hindi	978	-
8	Adi	757	3,491
9	Bhojpuri	683	-
10	Oriya	441	-
11	Apatani	369	-
12	Malayalam	235	-
13	Miri/Mishing	224	-

While drawing a comparison between 2001 and 1991 inrespect of Mother Tongues for Upper Subansiri district, it is seen that Tagin is the major Mother Tongue with higher number in 2001– 35,244 (63.7%) and in 1991– Nissi is the major tongue with highest number 15,845 (31.7%). This variation is very much significant. Regarding other Mother Tongue the comparison cannot be drawn due to floating nature of population.
