| | (Urban) ... ... | 220-225 |

## PREFACE

Prior to the 1951 Census, there was no regular separate publication at the district level regarding the data collected, although the seeds of the District Census Handbooks can be traced to the 'Village Lists brought out for every district in 1901 and 'Village Statistics' of every district published in 1911 and 1941. No. definite answer is forthcoming as to why such publications, giving village-wise information of occupied houses, break-up of population into males/females and literates, were not brought out in 1921 and 1931 The reason could be transfer from 1921 of certain charges on Census previously met from the provincia. revenues to the Central revenues and the Government of India may not have considered it necessary to publish statistics up to the village level. 'Village Statistics' in 1941 were brought out by the Central Provinces & Berar Government and this practice of bringing out district-wise publications at the cost of the State Government has since been continuing.

2. The scope of the district-wise publications, now called the District Census Handbooks, has been undergoing change with each successive Census from 1951. In 1951, the District Census Handbooks only contained the Primary Census Abstract and the Census tables. In view of the usefulness of separate publication for each district, improvements were made at the time of the 1961 Census by including non-Census data like climate, agriculture, co-operation, industry, education, etc. An 'Introductory Note' was also added to highlight the more striking features. Unfortunately, the desire to make district-wise Census publications very comprehensive resulted in late availability of the books to the users. Therefore, this time the District Census Handbooks have been divided into three parts in order to release maximum data, as and when finalised, so that the publications may have a useful life of about seven to eight years of inter-Censal decennium. Part A will contain Primarily non-Census statistics, Part B the Primary Census Abstract and Part C various administrative statistics with a chapter titled "Introducing the district". It may be mentioned here that subsequently a decision has been taken to merge Parts A and B in one volume on grounds of economy.

3. Much of the delay in the publication of the District Census Handbooks after the 1961 Census was due to delay in collection of administrative statistics and the decision to write the Introductory Note in the head office. Separation of administrative statistics as Part C of the District Census Handbook and the kind Co-operation of the State Government, permitting Collectors of the 1961-71 decade to write the chapter on "Introducing the District," is likely to go a long way in early publication of all the parts of the District Census Handbooks. Another favourable factor this time is the early decision of the State Government to permit printing in private presses as and when the work-load on the State Government Presses is heavy and likely to result in delay in the bringing out of the District Census Handbook of any district. It would not be out of place to point out here that the work-load in connection with the District Census Handbooks is very much more this time, not only on account of wider coverage but largely due to the decision to bring out the District Census Handbooks in Hindi as well as English. In all, there will be 172 publications, 4 per district of which 2 will be in hindi and 2 in english. Advance action was taken this time to collect the non-Census data and it is hoped that the combined volume of Parts A and B of all the 43 districts would be out by the end of 1973 and Part C of all the districts by the middle of 1975. This would be a definite improvement on the 1961 performance when printing of the District Census Handbooks covered the period 1964 to 1967.

4. In his Preface to the 1961 District Census Handbooks, my predecessor, Shri G. Jagathpathi, had observed thus, "It was not possible at this Census to base all Census statistics on the development block as the unit mainly because in 1961 there were many areas not till then covered by blocks. The coverage had become complete by about the middle of 1963 and it is not unlikely that the 1971 Census will recognise the block as the basic field unit as much for purposes of presentation as for operational purposes.". It has not been possible to adopt the development block as the basic unit for operation and presentation in this Census for more than one reason. Firstly, the office of the Block Development Officer was abolished in December, 1965; its resurrection in the form of office of the Block Development Assistant from 2-10-69 had not taken firm roots up to the time field arrangements for the 1971 Census were finalised. Secondly, the tahsil as a unit of field arrangements has many more advantages, the most significant being the ready availability of that legendary functionary—the patwari—without whose active co-operation it would be a formidable task to determine whether a habited structure in a cultivated field is part of village X or Y. Even, otherwise, since village-wise figures are available, it should not be difficult for those in need of data for intermediate units between the village and the tahsil, like the development block or patwari halka, to compile it by adding figures of concerned villages. The tahsil has for long been a fixed unit of administration and, to my mind, should be retained in preference to the development block whose jurisdiction may undergo a change in accordance with the pace of future development.

5. In conclusion, I would like to place on record my grateful thanks to the Government of Madhya Pradesh for having so kindly agreed to undertake the publication of the Handbooks in hindi as well as english to the various government and semi-government offices for un-hesitatingly making available the non-Census statistics, and to the Controller, Government Press, and his staff for arranging early printing in the Government and private Presses.

BHOPAL :
15 *th August*, 1972.

# VILLAGE AND TOWN DIRECTORY

PART X (A)

# EXPLANATORY NOTE

**History :**

Prior to 1951 there were no separate Census publications for every district. But at the time of preparatory arrangements for the first Census of Independent India, it was felt that Census statistics should be made available for smaller territorial units basic to the needs of an administration wedded to welfare of the masses. Accordingly, the scheme of District Census Handbooks was conceived and implemented. In view of the usefulness of separate publications for each district, further improvement was made at the time of 1961 Census by including non-Census data like climate, agriculture, co-operation, industry, banking, education, health etc. An introductory note was also added to highlight the more striking features. Unfortunately the desire to make districtwise Census publication very comprehensive resulted in late availability of the books to the users. Therefore, the organisers of the 1971 Centenary Census decided in favour of splitting the District Census Handbooks into three parts and thereby release maximum data, as and when available, so that the publication may have a useful life of seven to eight years of inter-censal decennium.

**Scope :**

(a) Part A of the book is the Village and Town Directory. The Village Directory contains for each village particulars of amenities available in the field of education, medicine power supply, drinking water supply, Post and Telegraph facilities and communications. In addition, data relating to particulars of land use, weekly market, places of religious, historical or archaeological interest in the village has also been included. The Town Directory gives for each town in the district in the form of suitable statements the origin and status of the town administration, growth of population, functional category of the town, physical aspects and location, latest municipal financial statements, civic and other amenities, medical, educational and cultural facilities, trade, industry, commerce and banking facilities, population by religion, scheduled castes and scheduled tribes. The abbreviations used in the Directory have been explained separately.

(b) Part B contains for each village and town, the primary census data incorporating area, occupied residential houses, number of households, total population and its break-up by sex, Scheduled Caste and Scheduled Tribe population, literate population and working population by nine broad categories.

(c) Part C will mainly incorporate the administrative statistics pertaining to the district in all the fields of development. The other Census tables pertaining to the district regarding language, religion, migration etc., will also be reproduced. There will be a write-up indicating the changes in the socio-economic and demographic characteristics of the district in the last decade.

**Village Directory :**

This is in the form of one statement. Important statistics for each village have been given under the main - head—Amenities and Land Use Data. Other information regarding nearest town with distance, market, staple food and places of religious, historical or archaeological interest have also been given in separate columns. The information regarding "Amenities" cover items like educational and medical institutions, power supply, drinking water, communications and Post and Telegraph. Under "Land use" the break-up of the total area of the village has been indicated under sub-heads forest, irrigated, unirrigated, cultivable waste and area not available for cultivation.

(a) There are 1,665 villages in the 2 tahsils of the district and the number of villages, tahsilwise, in 1961 and 1971 are as under :—

| Sl. No. | Tahsil | 1961 | 1971 | Difference |
|---|---|---|---|---|
| 1 | 2 | 3 | 4 | 5 |
| 1 | Lakhnadon | 848 | 848 | ... |
| 3 | Seoni | 813 | 817 | + 4 |
| | Total | 1,661 | 1,665 | + 4 |

It may be seen that there has been an increase of 4 villages in the district. The reasons for the difference are as below :—

(1) **Lakhnadon Tahsil**:—There has been a reduction of one village and an increase of one village as under and consequently the total number of villages in the tahsil remains unchanged :— (a) Village Dungaria Chhapara L.C. No. 36/1/758 of 1961 Census

has been treated as a town in 1971 Census.

(b) Village Magardha (F. V.) with L. C. No. 36/1/848 is a new forest village.

(2) **Seoni Tahsil** :— (a) Villages Jyarat and Durgapur with L. C. Nos. 36/2/394 and 36/2/793, respectively are two new villages in 1971 Census.

(b) Sapat and Ammamai with L.C. Nos. 36/2/809 and 36/2/817, respectively are two new forest villages in 1971 Census. Thus, there has been net increase of 4 villages in the district.

The distribution of the villages with reference to their area in acres is as shown in the inset table below :—

| Area (in acres) | No. of Villages |
|---|---|
| 1 | 2 |
| 50 acres or less | ... |
| 51—100 | 7 |
| 101—200 | 39 |
| 201—500 | 247 |
| 501—1,000 | 723 |
| 1,001—2,000 | 561 |
| 2,001—5,000 | 83 |
| 5,001 acres and above | 4 |
| Area not available | 1 |
| Total | 1,665 |

Area of one village, Ammamai (L. C. No. 36/2/817) is not available and, therefore, it has not been considered in this note while discussing data regarding area.

Village Jamunpani Ryt. (L. C. No. 36/1/148) in Lakhnadon tahsil has the smallest area of 55 acres and is located at a distance of 73.6 Kms. from the nearest town, Jabalpur, while village Kopijhola (L. C. No. 36/2/314) in Seoni tahsil has the largest area of 8052 acres in the district and is located at a distance of 64 Kms. from the nearest town, Seoni.

Out of 1,664 villages for which area figures are available, 723 villages are in the range of 501-1,000 acres, while 247 and 561 villages are in the ranges 201-500 acres and 1,001-2,000 acres, respectively. Only 4 villages are in the range of 5,001 acres and above.

Maximum villages in each tahsil come within the range of 501-1,000 acres as will be seen from the following table containing tahsilwise data:—

| Area (in acres) | Lakhnadon | Seoni | Total |
|---|---|---|---|
| 1 | 2 | 3 | 4 |
| 50 acres or less | ... | ... | ... |
| 51—100 | 5 | 2 | 7 |
| 101—200 | 21 | 18 | 39 |
| 201—500 | 142 | 105 | 247 |
| 501—1,000 | 398 | 325 | 723 |
| 1,001—2,000 | 253 | 308 | 561 |
| 2,001—5,000 | 29 | 54 | 83 |
| 5,001 and above | ... | 4 | 4 |
| Area not available | ... | 1 | 1 |
| Total | 848 | 817 | 1,665 |

(*b*) *Educational Amenities* :—The total number of villages having various educational facilities, within various distance ranges from the nearest town, are as indicated in the inset table below :—

| Distance from nearest town | Total No. of villages | Number of villages having | | | | |
|---|---|---|---|---|---|---|
| | | Primary School | Middle School | High or Higher Secondary School | College | Others |
| 1 | 2 | 3 | 4 | 5 | 6 | 7 |
| 5 Kms. or less | 42 | 8 | 1 | ... | ... | ... |
| 6—10 Kms. | 89 | 21 | 2 | ... | ... | ... |
| 11—15 Kms. | 126 | 25 | 3 | ... | ... | ... |
| 16—25 Kms. | 315 | 110 | 20 | 4 | ... | ... |
| 26—50 Kms. | 855 | 259 | 38 | 14 | ... | ... |
| 51—100 Kms. | 238 | 58 | 5 | 1 | ... | ... |
| 101—200 Kms. | ... | ... | ... | ... | ... | ... |
| 201 Kms. and above | ... | ... | ... | ... | ... | ... |
| Total | 1,665 | 481 | 69 | 19 | ... | ... |

Maximum number of villages (855) lie within the distance range 26-50 Kms. and maximum number of villages having primary, middle and high or higher secondary school also lie in this range. The number of educational institutions in the villages of different tahsils is given below :—

| Sl. No. | Tahsil | Number of Educational Institutions | | | | |
|---|---|---|---|---|---|---|
| | | High/Higher Secondary School | Middle School | Primary School | College | Others |
| 1 | 2 | 3 | 4 | 5 | 6 | 7 |
| 1 | Lakhnadon | 7 | 29 | 175 | ... | ... |
| 2 | Seoni | 12 | 45 | 314 | ... | ... |
| | Total | 19 | 74 | 489 | ... | ... |

Six villages have two primary schools each, while one village has 3 primary schools. Three villages have two middle schools each, while one village has three middle schools. The area of these villages with distance from the nearest town are indicated below :—

| Si. No. | Name of village | Tahsil | L. C. No. | Area of the village in acres | Distance from the nearest town in Kms. with name | Educational institutions and number (if more than one) | | |
|---|---|---|---|---|---|---|---|---|
| | | | | | | Primary | Middle | High/ Higher Secondary |
| 1 | 2 | 3 | 4 | 5 | 6 | 7 | 8 | 9 |
| 1 | Dhankakdi | Lakhnadon | 36/1/35 | 935.00 | Dungaria Chhapara 44.8 | 2 | ... | ... |
| 2 | Dhuma Mal. | Lakhnadon | 36/1/95 | 703.00 | Dungaria Chhapara 48.0 | 2 | 2 | ... |
| 3 | Barela | Lakhnadon | 36/1/187 | 2,085.00 | Nainpur 48.0 | 2 | ... | .. |
| 4 | Adegaon Ryt | Lakhnadon | 36/1/370 | 2,277.00 | Dungaria Chhapara 43.2 | 2 | 2 | ... |
| 5 | Lakhnadon | Lakhnadon | 36/1/400 | 2,251.00 | Dungaria Chhapara 28.8 | 3 | 3 | ... |
| 6 | Khamariya | Lakhnadon | 36/1/568 | 1,926.00 | Dungaria Chhapara 43.2 | 2 | ... | ... |
| 7 | Ghansaur | Lakhnadon | 36/1/799 | 1,270.00 | Nainpur 35.2 | 2 | 2 | ... |
| | | | | | Total | 15 | 9 | ... |

(c) *Medical facilities* :— The availability of medical facilities, per 100 sq.Kms. and tahsilwise, is as given in the following inset table :—

| Sl. No. | Tahsil | Total area (in sq. Kms.) | No. of medical institutions of any kind per 100 sq. Kms. |
|---|---|---|---|
| 1 | 2 | 3 | 4 |
| 1 | Lakhnadon | 3,096.97 | 0.7 |
| 2 | Seoni | 3,554.80 | 1.6 |

The above table would show that the villages of Seoni tahsil have, comparatively, greater medical facilities per 100 sq. Kms. The number of medical institutions, tahsilwise, is as indicated below:—

| Sl. No. | Tahsil | Number of medical institutions |
|---|---|---|
| 1 | | 2 |
| 1 | Lakhnadon | 23 |
| 2 | Seoni | 53 |
| | Total | 76 |

About 70 per cent of the medical institutions in the rural areas of the district are in the villages of Seoni tahsil.

(d) *Power Supply* :—The number of villages having electric power supply within various distance ranges from the nearest town are as indicated in the inset table below :—

| Distance from the nearest town | Total No. of villages | No. of villages with electric power supply |
|---|---|---|
| 1 | 2 | 3 |
| 5 Kms. or less | 42 | 17 |
| 6-10 Kms. | 89 | 10 |
| 11-15 Kms. | 126 | 14 |
| 16-25 Kms. | 315 | 35 |
| 26-50 Kms. | 855 | 67 |
| 51-100 Kms. | 238 | 20 |
| 101-200 Kms. | ... | ... |
| 201 Kms. and above | ... | ... |
| Total | 1,665 | 163 |

It would be seen that about 10 per cent of the total number of the villages have electricity and about 88 per cent of these villages are in the distance range upto 50 Kms. The number of villages having electric power supply, tahsilwise, is as below :—

| Sl. No. | Name of tahsil | Total No. of villages | Villages having electric power supply | Percentage of villages covered by electricity |
|---|---|---|---|---|
| 1 | 2 | 3 | 4 | 5 |
| 1 | Lakhnadon | 848 | 54 | 6.37 |
| 2 | Seoni | 817 | 109 | 12.12 |
| | Total | 1,665 | 163 | 9.78 |

The percentage of villages (about 10) having electric power supply in the district is higher than the State average (about 7). Within the district, villages of Seoni tahsil have comparatively more of this facility.

(e) *Communications* :—The total number of villages connected by different types of communications, falling in different distance ranges from the nearest town are indicated in the inset table below :—

| Distance from the nearest town | Total No. of villages | Number of villages connected by | | | | |
|---|---|---|---|---|---|---|
| | | Pucca road | Kutcha road | Pucca road and rail | Kutcha road and rail | Others (Rail) |
| 1 | 2 | 3 | 4 | 5 | 6 | 7 |
| 5 Kms. or less | 42 | 25 | 7 | ... | ... | ... |
| 6-10 Kms. | 89 | 26 | 6 | ... | ... | ... |
| 11-15 Kms. | 126 | 23 | 4 | 1 | ... | ... |
| 16-25 Kms. | 315 | 52 | 22 | 8 | ... | ... |
| 26-50 Kms. | 855 | 146 | 136 | 7 | 2 | 8 |
| 51-100 Kms. | 238 | 42 | 37 | ... | 2 | 3 |
| 101-200 Kms. | ... | ... | ... | ... | ... | ... |
| 201 Kms. and above | ... | ... | ... | ... | ... | ... |
| Total | 1,665 | 314 | 212 | 16 | 4 | 11 |

About 20 per cent of the villages are served by "Pucca" road. Out of 1,665 villages in the district, 546 villages are served by either 'pucca' or 'kutcha' roads.

The number of villages served by 'pucca' roads, tahsilwise, and the total number of villages with percentages covered are as below :—

| Sl. No. | Tahsil | Total No. of villages | No. of villages having "Pucca" road | Percentage |
|---|---|---|---|---|
| 1 | 2 | 3 | 4 | 5 |
| 1 | Lakhnadon | 848 | 150 | 17.69 |
| 2 | Seoni | 817 | 180 | 22.03 |
| Total | | 1,665 | 330 | 19.82 |

Comparatively, Seoni tahsil has better communication facility.

(*f*) *Post and telegraphs*:—The total number of villages in the tahsils of the district having post offices and telegraph offices are given below:—

| Sl. No. | Name of tahsil | Total No. of villages | No. of villages having post offices | No. of villages having telegraph offices | No. of villages having telephone |
|---|---|---|---|---|---|
| 1 | 2 | | 4 | 5 | 6 |
| 1 | Lakhnadon | 848 | 32 | 1 | 1 |
| 2 | Seoni | 817 | 58 | 4 | 1 |
| | Total | 1,665 | 90 | 5 | 2 |

The number of post offices per 100 sq. Km. area in each tahsil is as indicated in the following inset table :—

| Sl. No. | Name of tahsil | Total area in sq. Km. | No. of post offices per 100 sq. Km. |
|---|---|---|---|
| 1 | 2 | 3 | 4 |
| 1 | Lakhnadon | 3,096.97 | 1.03 |
| 2 | Seoni | 3,554.80 | 1.63 |

Comparatively, Seoni tahsil has better postal facility. Only 5 villages have telegraph offices and two villages have telephone facility. The names and particulars of these villages are as under :—

| Sl. No. | Name of tahsil | Name of village having telegraph office | | Name of village having telephone | |
|---|---|---|---|---|---|
| | | Name | L. C. No. | Name | L. C. No. |
| 1 | 2 | 3 | 4 | 5 | 6 |
| 1 | Lakhnadon | Lakhnadon (Tahsil headquarter) | 36/1/400 | Lakhnadon (Tahsil headquarter) | 36/1/400 |
| 2 | Seoni | Kewalari | 36/2/166 | | |
| | | Kanhiwada | 36/2/340 | Barghat | 36/2/562 |
| | | Barghat | 36/2/562 | | |
| | | Pindkapar | 36/2/742 | | |

(*g*) *Staple Food* :—Wheat and Rice constitute staple food in the bulk of the villages of the district, Kodo also constitutes the additional staple food in quite a few villages in the district.

(*h*) *Land use pattern* :—(i) According to the village papers about 18 per cent of the area of the district is under forest. The percentage of the forest area, tahsilwise, is as indicated below :—

| Sl. No. | Tahsil | Percentage |
|---|---|---|
| 1 | 2 | 3 |
| 1 | Lakhnadon | 16.18 |
| 2 | Seoni | 19.33 |
| | Total | 17.86 |

It may be noticed that comparatively, more forest area lies in Seoni tahsil.

(ii) The net cropped area in 1969 increased by 28.75 percent as compared to the area in 1960-61. The percentage of area under irrigation to area under crops during the years 1960-61 and 1968-69 comes to 6.76 and 6.07 respectively. The area under irrigation during this period increased by 15.52 per cent.

(iii) The following inset table shows the average cultivable waste per village in different distance ranges from the nearest town:—

| Distance | Number of villages | Total cultivated land | Average cultivated land per village | Total cultivable waste | Average cultivable waste per village | Percentage of average cultivable waste per village to average cultivated land per village |
|---|---|---|---|---|---|---|
| 1 | 2 | 3 | 4 | 5 | 6 | 7 |
| 5 Kms. or less | 42 | 27,381.00 | 651.93 | 4,074.00 | 97.00 | 14.88 |
| 6-10 Kms. | 89 | 51,220.00 | 575.51 | 10,609.00 | 119.20 | 20.71 |
| 11-15 Kms. | 126 | 83,967.00 | 666.40 | 16,058.00 | 127.44 | 19.12 |
| 16-25 Kms. | 314 | 223,593.00 | 712.08 | 38,716.00 | 123.30 | 17.32 |
| 26-50 Kms. | 855 | 537,757.00 | 628.96 | 91,155.00 | 106.61 | 16.95 |
| 51-100 Kms. | 238 | 116,401.00 | 489.08 | 21,426.00 | 90.03 | 18.41 |
| 101-200 Kms. | ... | ... | ... | ... | ... | ... |
| 201- Kms. and above | ... | ... | ... | — | ... | ... |
| Area figures not available | 1 | ... | ... | ... | ... | ... |
| Total | 1,665 | 1,040,319.00 | ... | 182,038.00 | ... | ... |

Ordinarily, the nearer a village to an urban area, the lesser is the proportion of cultivable waste but the above inset table will show that there is no consistent trend in this regard.

In the whole district 182,038 acres (in round figures) of land has been classified as cultivable waste which constitutes about 11 per cent of the total area of the villages in the district. The percentage of cultivable waste in each tahsil is as indicated below:—

| S. No. | Tahsil | Percentage of cultivable waste |
|---|---|---|
| 1. | Lakhnadon | 11.33 |
| 2. | Seon | 10.85 |

It would be seen that comparatively the percentage of cultivable waste is less in Seoni tahsil.

**Town Directory:**

This is in the form of Seven Statements. But before discussing the information collected in the Seven Statements, it would be better to first understand certain concepts which determines urban areas.

(i) *Definition of Town*:— A 'town' in the 1961 Census was either (i) a Municipality, Cantonment or Corporation; or (ii) a habitation with a population of at least 5,000 with at least three-fourths of the adult male population engaged in non-agricultural pursuits.

Accordingly there were 219 towns in the State. However, seven towns did not satisfy either the minimum population criterion or the one relating to ratio of non-agricultural adult males being 75% or more. But the list already finalised was not changed subsequently; the reason for not disturbing the original list of towns was that as many as 14 habitations which did not satisfy one or the other of the criteria laid down earlier managed to get included in the list of towns as Municipalities and inclusion of seven more such towns was not supposed to introduce greater demographic distortion than what was already present. In the 1971 Census there was no material change in the concept of town and a list of 247 towns was prepared originally. Three more towns were added in the list due to the fact that two places were declared as municipal and the third fulfilled the necessary criterion to qualify a place as urban and ultimately 250 towns were recognised in the State. All areas which are not towns have been included in the list of villages.

(ii) *Urban Agglomeration* :— The concept of Urban Agglomeration has been adopted for the 1971 Census with the intention to present the population data in the District Census Handbook in respect of urban areas in such a manner that "*de-facto* urban agglomeration" is a recognisable entity, data pertaining to which will be the sum of the data of not only the *de-jure* (within Municipal/other statutory limits) urban area but also of its outgrowths in different directions which are obviously urban in character and form a continuous urban spread. This has been considered necessary so that future comparisons or studies of the particular urban agglomeration is factual and not vitiated by the time differential which exists between the delineation of municipal boundaries and the actual growth of the urban area.

(iii) *Standard Urban Area* :— This new concept has been developed for the 1971 Census and the essentials of a Standard Urban Area are :

(1) It should have a core town of a minimum population size of 50,000.

(2) The contiguous areas made up of other Urban as well as rural administrative units should have close socio-economic links with the core town, and

(3) The probabilities are that this entire area will get fully urbanised in a period of two to three decades. This concept has been developed to provide comparable data for a definite area of urbanisation continuously for three decades which would give a meaningful picture.

(b) **Seven Statements:** Very useful data regarding the towns have been given in the statements and they have been collected and compiled from various agencies and official publications. The source and

period of the information has been indicated below each Statement. It would not be out of place to mention here that analysis of data collected from diverse sources has its own limitations, mostly due to sketchy and incomplete information. All the same, the data compiled and presented throws sufficient light on the present stage of progress in each town.

(i) *Statement No. I* :—This statement presents the basic data relating to population of the towns for each decennium from 1901 to 1971 and the civic administration status in 1970. The civic administration status of the town indicates the authority incharge of its administration. Thus a town could have a Municipal Corporation, a Municipality, a Cantonment Board, a Gram Panchayat, a Notified Area Committee, etc.

(ii) *Statement No. II* :—This statement contains information regarding location (longitude & latitude), annual rainfall, temperature, distance from the nearest city with population of 1 lakh or more and State, District and Tahsil headquarters. Distances from Railway Station and Bus route have also been indicated.

(iii) *Statement No. III*:—The statement contains information regarding receipt and expenditure of local bodies under different main heads indicating the indebtedness and general financial position and expenditure of public utility works. The information has been furnished for the years 1968-69, 1969-70 and 1970-71 in order to have an idea whether the concerned urban bodies improving financially or not.

(iv) *Statement No. IV* :-This statement contains information regarding amenities, *e. g.*, road length, sewerage system, types of latrines, water supply, fire-fighting service etc. in the different towns.

(v) *Statement No. V* :—This statement contains information regarding various important facilities available in the town *viz.*, medical, educational, recreational and cultural.

(vi) *Statement No. VI* :—This statement throws light on the business and credit facilities commanded by the towns and contains information regarding trade, commerce, industry and banking.

(vii) *Statement No. VII*:—This statement contains data regarding population by religion and Scheduled Castes/Scheduled Tribes with male/female break-up for the year 1971. This is the only statement based on 1971 Census figures.

**Towns:** There are two tahsils and two towns in the district as indicated below :—

| S.No. | Tahsil | Town | L.C. No. | Class |
|---|---|---|---|---|
| 1 | 2 | 3 | 4 | 5 |
| 1. | Lakhnadon | Dungaria-Chhapara | 36/I | V |
| 2. | Seoni | Seoni | 36/II | III |

Only one tahsil headquarter is town. Seoni is also the headquarter of the district and continues to be recognised as town since 1901. Dungaria Chhapara has been recognised as town in 1971 Census.

There is no urban outgrowth in any of the towns in the district.

There is no Standard Urban Area in the district because there is no town having a population of more than 50,000.

**Statement I :** (i) The category of town administration in 1970 has been indicated in column 5 of the statement. Seoni has municipality, while Dungaria Chhapara has gram panchayat. The population of Seoni town has, by and large, shown constant increase in every decade since its continued recognition as town except during the decade indicated below:—

| S.No. | Name of town | Decade | | Reduction in population |
|---|---|---|---|---|
| | | Year | Population | |
| 1 | 2 | 3 | 4 | 5 |
| 1. | Seoni | 1911 | 13,839 | |
| | | 1921 | 12,772 | 1,067 |

The fall in population of Seoni town during the decade 1911-21 is mainly due to fatal influenza epidemic in 1918*

* Census of India 1961, District Census Handbook, Seoni, Page-xli

(ii) Column 14 of the statement shows the functional classification of Seoni town in 1961 as indicated below :—

| Functional category | Total No. of towns |
|---|---|
| 1 | 2 |
| Services-*cum*-Industry | 1 |
| Total | 1 |

The above table is in respect of only one town as Dungaria Chhapara has been recognised as town in 1971 Census. The method adopted for the functional classification is elucidated below :—

(b) The nine industrial categories were grouped into the following five functional characteristics :—

(i) Primary Activities (Comprising Category I, Cultivation, II-Agricultural Labourer and III-Mining and Quarrying, Fishing, Live-Stock, Hunting, etc.).

(ii) Industrial (Comprising Category IV-Household Industry, V-Manufacturing other than Household Industry and VI-Construction).

(iii) Commercial (Comprising Category VII-Trade and Commerce).

(iv) Transport, (Comprising Category VIII,-Transport Storage and Communications).

(v) Services (Comprising Category IX-Other Services).

The percentage of total workers under the above five functional characteristics were calculated for each town and the predominant function(s) of each town was/were determined. If one functional characteristic of a town absorbed more than 40 percent of the total workers the town was designated by that function. In case no single characteristic claimed 40 percent of the workers, two predominant characteristics together claiming a percentage of 60 or above were taken to represent the town. If these two failed to account for 60 percent of the total workers, the first three characteristics were taken to represent the town.

**Statement II** :—The physical and locational aspects as in 1969 have been covered. The district was abolished as a separate charge in December 1931, and merged with the neighbouring district of Chhindwara to be reconstituted with its old boundaries on 1-11-1956*

Physiographically, the district is situated on a narrow, north-south section of the Satpura plateau. In shape, it is like an irregular oblong, broader at the northern extremity and tapering down towards the South**. The climate of the district is salubrious, generally free from extreme variations of heat and cold. The district receives rainfall from the precipitation of the Arabian sea mansoon.

Rainfall and temperature data of Seoni town has been indicated for Dungaria Chhapara because separate data for Dungaria Chhapara is not availble and the temperature is more or less similar to Seoni town. The town gets annual rainfall of about 1496 m. m. The range of maximum and minimum temperature of the town is from 30.8°C to 18.5°C which is based on the daily average temperature.

Both the towns are on bus route. Seoni is the nearest railway station for Dungaria Chhapara. Jabalpur is the nearest city by road from Dungaria-Chhapara, while Nagpur, in Maharashtra, is the nearest city from Seoni town. The district head quarter town, Seoni, is at a distance of 530 Kms. by road from the State headquarters, Bhopal.

**Statement III** :—On the basis of population of 1971 Census, the towns have been categorised as below :—

| S. No. | Name of town | Population in 1971 | Class |
|---|---|---|---|
| 1 | 2 | 3 | 4 |
| 1 | Dungaria Chhapara | 5,180 | V |
| 2 | Seoni | 38,396 | III |

* Census of India 1961, District Census Handbook, Seoni Distt. P–xli

** Census of India 1961, District Census Hand Book, Seoni Distt. Page xxxvii

The statement would show that the total expenditure is within the total receipts of the local bodies except in the following cases :—

| S. No. | Local body in the town of | Year of excess expenditure | Total receipt | Total expenditure | Amount by which expenditure is more than total receipt | Percentage of excess expenditure to total receipt |
|---|---|---|---|---|---|---|
| 1 | 2 | 3 | 4 | 5 | 6 | 7 |
| I | Seoni | 1968–69 | 1,241,000 | 1,312,100 | 71,100 | 5.73 |
| | | 1969–70 | 843,400 | 903,100 | 59,700 | 7-08 |

Column 7 of the above table would show that the percentage of excess expenditure to total receipt of the local body of Seoni town for the years 1968-69 and 1969-70 is quite high. This is mainly due to substantial expenditure under general administration and those connected with public utility works.

Receipt through taxes etc. have also shown, by and large, an upward trend during these years except in the following cases :—

| S.No. | Name of town | Year | Extent of short-fall in receipt through taxes etc. |
|---|---|---|---|
| 1 | 2 | 3 | 4 |
| 1. | Dungaria-Chhapara | 1969-70 | 300 |
| | | 1970-71 | 1,200 |
| 2. | Seoni | 1969-70 | 16,100 |

The total receipt of the local bodies have shown an upward trend except during the year mentioned below :—

| S.No. | Local body in the town of | Year |
|---|---|---|
| 1. | Dungaria Chhapara | 1970-71 |
| 2. | Seoni | 1969-70 |

Government grants have substantially supplemented the receipts of the local bodies. Substantial loans have been obtained by the local body of Seoni town. The per capita receipt and expenditure under broad heads is as indicated in the inset table below:-

| Class of town | No. of towns | Year | Per capita (Rupees) | | | | | | |
|---|---|---|---|---|---|---|---|---|---|
| | | | Receipt | | | Expenditure | | | |
| | | | Total receipt | Receipt through taxes etc. | Receipt from all other sources | Total Expenditure | Expenditure on Public Health Conveniences | Expenditure on Public Institutions | Expenditure on all other aspects |
| 1 | 2 | 3 | 4 | 5 | 6 | 7 | 8 | 9 | 10 |
| Class I (100,000 & over) | ... | ... | ... | ... | ... | ... | ... | ... | ... |
| Class II (50,000—99,999) | ... | ... | ... | ... | ... | ... | ... | ... | ... |
| | | 1968-69 | 32.32 | 12.47 | 19.85 | 34.17 | 26.40 | 0.10 | 7.67 |
| Class III | 1 | 1969-70 | 21.97 | 12.05 | 9.92 | 23.52 | 15.81 | 0.08 | 7.63 |
| (20,000—49,999) | | 1970-71 | 34.43 | 16.51 | 17.92 | 31.17 | 20.83 | 1.00 | 9.34 |
| Class IV (10,000—19,999) | — | ... | ... | ... | ... | ... | ... | ... | ... |
| | | 1968-69 | 2.66 | 2.20 | 0.46 | 2.45 | 1.78 | 0.02 | 0.65 |
| Class V | 1 | 1969-70 | 3.57 | 2.14 | 1.43 | 3.30 | 0.48 | 0.04 | 2.78 |
| (5,000—9,999) | | 1970-71 | 3.49 | 1.91 | 1.58 | 3.34 | 0.56 | 0.04 | 2.7 |
| Class VI (Below 5,000) | ... | ... | ... | ... | ... | ... | ... | ... | ... |

The above table would show that the total per capita receipt matches fairly well with the total per capita expenditure and in some cases the total per capita expenditure is higher than the total per capita receipt.

The per capita expenditure on Public Health and conveniences as against per capita receipt through taxes etc., by and large, is encouraging. In quite a number of cases, the expenditure of the local bodies shown in col. 15 of the statement no. III under head "Others" constitutes quite a high percentage of the total expenditure.

Statement IV :—Both the towns have electricity. Electric connections have also been given for industrial and commercial purposes. Street lights have also been provided in both the towns. There is no water tap facility in any of the towns. Fire brigade is not available in any of the towns.

Statement V :—(i) *Medical facilities* :—Hospital facility is available only in Seoni town. Seoni also have a Family Planning Clinic, while Dungaria Chhapara has a Primary Health Centre. The number of beds per thousand population is as indicated below:—

| Total No. of beds in Medical Institutions | No. of beds per 1,000 Population |
|---|---|
| 1 | 2 |
| 74 | 1.7 |

(ii) *Educational facilities* :—There is one combined college in Seoni town. College facility is not available in Dungaria Chhapara town. There is a Polytechnic at Seoni. Higher Secondary / high schools facility is available in all the towns. The number of higher secondary/High schools, middle schools and primary schools per thousand population is as shown in the following inset table. For a more realistic appreciation, the population in the age-group 0-14 has been considered for primary and middle schools, while population in the age-groups 15-19 has been considered for higher secondary/high schools.

| Name of the town | Number per 1,000 population | | |
|---|---|---|---|
| | Higher secondary or secondary | Middle | Junior secondary/ primary |
| 1 | 2 | 3 | 4 |
| Dungaria Chhapara | 1.8 | 0.9 | 2.2 |
| Seoni | 0.8 | 0.1 | 0.8 |

*(iii) Recreational and Cultural facilities*:— Only Seoni town has cinema houses. Public Library including reading room facility is available in both the towns.

Statement VI :—Both the towns have bank facility. Agricultural Credit societies are located in both the towns, while Seoni has five Non-Agricultural Credit Societies also. Cloth, grocery, medicines and Kerosene are the main items of import in the towns. The major items of export are grains, mahuwa, oilseeds, timber and wheat. Handloom sarees, earthenwares, groundnut oil and country liquor are the main items of local manufacture.

Statement VII :—About 84 percent of the urban population is in Seoni town. Majority of the urban population follow hindu religion; next come followers of islam religion. Townwise percentage of the population following hindu and islam religion is as ndicated below :—

| S. No. | Town | Percentage in round figures | |
|---|---|---|---|
| | | Hindu | Islam |
| 1 | 2 | 3 | 4 |
| 1. | Dungaria Chhapara | 76 | 15 |
| 2. | Seoni | 76 | 20 |

Townwise percentage of the population following different religions and percentage of Scheduled Castes and Scheduled Tribes is as indicated below:—

| S. No. | Name of town | Budhist | Christian | Hindu | Jain | Islam | Sikh | Others | Religion not stated | Percentage of Scheduled Castes | Percentage of Scheduled Tribes |
|---|---|---|---|---|---|---|---|---|---|---|---|
| 1 | 2 | 3 | 4 | 5 | 6 | 7 | 8 | 9 | 10 | 11 | 12 |
| 1. | Dungaria Chhapara | ... | 1.02 | 75.82 | 7.68 | 15.31 | 0.17 | ... | ... | 5.97 | 6.51 |
| 2. | Seoni | 0.04 | 1.06 | 75.87 | 3.01 | 19.74 | 0.19 | 0.03 | 0.01 | 3.47 | 2.76 |

There is no population following 'boudh' religion in Dungaria Chhapara town. The percentage of Scheduled Caste population in Dungaria Chhapara is comparatively higher (about 6) than Seoni where it is about 3 per cent. The percentage of Scheduled Tribe in Dungaria Chhapara is about 7, while it is about 3 in Seoni.

# PRIMARY CENSUS ABSTRACT

**PART X (B)**

# EXPLANATORY NOTE

## I. General :

In Part A, the picture of the district as revealed by non-Census data has been discussed. In this note, the progress made by the district in the 1961-71 decade has been dealt with on the basis of information collected in the individual slip that was canvassed in the 1971 Census. Broadly speaking, the changes that have come about in the matter of total population, its growth-rate and density, sex-ratio, literacy, Scheduled Castes and Scheduled Tribes, working population, occupied residential houses and number of households have been discussed.

## II. Population :

The population of Seoni district is 668,352 while the population of Madhya Pradesh is 41,654,119. The population of Seoni district, thus comes to 1.60 percent of the State population. The rural population is about 93 percent of the district population whereas the urban population is 6.52 percent as against the State percentage of 16.29. In other words, the district is highly rural in character. Highest percentage of the district population is found in Seoni tahsil (about 62 percent) and one of the reasons for this is that the population of the district headquarter town, Seoni, is included in this tahsil. Seoni district ranks 32nd among the 43 districts of the State in population. During the decade 1961-71, the district population growth-rate has been 27.61 against the State growth-rate of 28.67. The area of the district is 8,752 sq. km. In other words, it has 1.98 percent of the State area and ranks 23rd in area among the districts of the State. The density of population per sq. km. of the district is 76 against the State density of 94 and the district ranks 33rd in density in the State. The sex-ratio, number of females per 1,000 males, of the district and the State is 986 and 941, respectively. Tahsil Seoni has got sex-ratio higher, while Lakhnadon tahsil has sex-ratio lower than the district sex-ratio.

## III. Literacy :

1. The percentage of literacy in the district comes to about 21 as against the State literacy percentage of about 22. In 1961 also, the literacy percentage of the district (17.05) was less than the State percentage of 17.13. The district has made some progress to increase the rate of literacy during the decade 1961-71.

2. The literacy percentage among males in the district (31.61) is lower than the State percentage of about 33. Among females also, the literacy percentage in the district ( 10.86 ) is lower than the State percentage of about 10.92.

3. Among the tahsils, Seoni tahsil has the greater literacy percentage of about 25, while Lakhnadon tahsil has lower percentage of about 16.

4. The same pattern is seen in male and female literacy in the tahsils. Among males, Seoni tahsil is higher (about 36 percent), while Lakhnadon tahsil with about 24 percent is lower. Among females also, Seoni tahsil leads in literacy (about 13 percent), while Lakhnadon tahsil has 7 percent.

## IV. Workers :

In the district, about 41 percent of the population comes under the category of workers (main activity) against the State percentage of about 37. The percentage of female workers to total female population (about 27) is higher than the State percentage (about 19). Within the district, comparatively greater percentage of workers (males and females) have been returned from Seoni tahsil. Lakhnadon tahsil has returned lower percentage of workers (40.85) than Seoni with about 42. Among female workers, Seoni tahsil with 27.12 percent leads Lakhnadon tahsil (27.06). Among the workers in the district, about 57 and 32 percent are cultivators and agricultural labourers, respectively as against the State percentage of about 53 and 27. Under the category "Other workers", the district percentage ( about 12 ) is lower than the State percentage of 20.58. Among females, the district percentage of agricultural labourers (about 48.40), and other workers (about 4) is lower than the State percentage of 48.70 and about 10 respectively, while for cultivators the district percentage (about 47) is higher than the State percentage (about 41). Comparatively, highest percentage of cultivators (about 59) and agricultural labourers (about 34) have been returned from Lakhnadon tahsil. Lower percentage of culti-

vators (about 55) and agricultural labourers (about 31) have been returned from Seoni tahsil.

**V. Scheduled Caste and Scheduled Tribe :**

The percentage of Scheduled Castes to total population of the district (about 7) is lower than the State percentage (about 13). The percentage of Scheduled Tribes to total population of the district (about 37) is higher than the State percentage (about 20). Within the district, comparatively higher percentage of Scheduled Castes (7.41) and Scheduled Tribes (51.74) is found in Lakhnadon tahsil.

**VI. Occupied Residential Census Houses :**

The district has 106,759 occupied residential Census houses against the State figure of 6,822,767 which comes to 1.57 percent. During 1961, there were 103,817 occupied residential Census houses in the district against the State figure of 6,230,854 which came to 1.67 percent. There has been very slight change in the percentage during the decade. The number of households and persons per occupied residential Census house in 1961 and 1971 are indicated below :

| State/ District | Year | No. of Residential Census Houses | No. of Households | No. of households per occupied residential Census House | No. of persons per residential Census House |
|---|---|---|---|---|---|
| 1 | 2 | 3 | 4 | 5 | 6 |
| State | 1961 | 6,230,854 | 6,615,580 | 1.06 | 5.2 |
| District | 1961 | 103,817 | 109,118 | 1.05 | 5.0 (5.04) |
| State | 1971 | 6,822,767 | 7,740,289 | 1.13 | 6.1 |
| District | 1971 | 106,795 | 123,612 | 1.16 | 6.3 |

It would thus be seen that the pressure on occupied residential Census houses has increased during the decade in the district as well as in the State. Comparatively, Seoni tahsil ( with about 62 percent ) has the higher percentage of occupied residential Census houses in the district.

**VII. Villages and Towns :**

There are 1,665 villages in Seoni district which comes to 2.16 percent of total villages in the State. The percentage of inhabited villages to total villages in the district is 95.80 against the State percentage of about 92. There are 250 towns in the State out of which the district claims two—Dungaria Chhapara and Seoni.

*NOTE*: (1) NM :—Non-Municipal.
M :—Municipality.

(2) Town treated as such for the first time in 1971 Census is printed in italics.

(3) The total area figure given for the district is provisional 'Geographical Area' as supplied by the Surveyor General of India.

(4) The urban area figures are those supplied by the local bodies.

(5) The rural area of the district has been derived by subtracting the urban area figures supplied by local bodies from the total area figure of the district.

(6) Total area figures of tahsils are according to village papers as supplied by the Director of Land Records, Madhya Pradesh

(7) Tahsilwise area figures exclude 2,100.8 $Km^2$ of forest area in the district since tahsilwise break-up is not available.
