inconsistency even n case of these nineteen districts. Revision o Table A-I on the basis of these area figures was not feasible at this late stage; the only alternative was to print these revised area figures also in this Hand-book.

4. One unfortunate fact about these Hand-books is that they became available to the users rather late in the decade. This is partly due to the considerable time required for the collection of information from various authorities and partly to difficulties in printing. Owing to the fact that State presses, with a heavy back-log of printing weighing down on them, would find it impossible to print all the District Census Hand-books themselves, arrangements have been made for printing them in private presses. If these Hand-books are to have a useful life of more than four or five years of inter-censal decennium, more expeditious methods for the collection of non-census statistics, for the preparation and checking of the manuscripts and for printing will have to be devised.

5. The Census Organisation is grateful to the Government of Madhya Pradesh for having been so kind as to undertake the publication of these Hand-books and to the Superintendent, Government Printing and his organisation—particularly the Assistant Superintendent, Printing, Government Regional Press, Indore and his staff—for the printing arrangements made. The inspiration behind this ambitious venture is that of our indefatigable Registrar General, Shri Asok Mitra, to whom we are all deeply grateful. Our thanks are also due to the various authorities who supplied us with all the necessary statistics.

G. JAGATHPATHI

PREFACE

The publication of District Census Hand-books, which was begun in the 1951 Census, represents a significant step in the process of making census statistics available for the smaller territorial units basic to executive and developmental administration. Apart from the fact that the proper implementation of policy depends on the ability of the administrative authorities concerned to quantify accurately the variables involved, it is at these levels that policies get really thoroughly tested; also, policies can fail—and probably have failed—because their statistical basis was weak. It is undoubtedly necessary that gaps in statistics at lower levels be filled as rapidly as possible. It was not possible at this Census to base all census statistics on the development block as the unit mainly because in 1961 there were many areas not till then covered by blocks. The coverage had become complete by about the middle of 1963 and it is not unlikely that the 1971 Census will recognise the block as the basic field unit as much for purposes of presentation as for operational purposes.

2. What we have tried to do in the 1961 Census Hand-books is to make them more informative by the inclusion of as many categories of non-census statistics as possible; some of these are climate, agriculture, co-operation, industry, banking, education, health etc. There is also an introductory note to each Hand-book high-lighting the more striking fea ures. It has not been possible for the Census Organisation to check the accuracy of the figures supplied by various authorities; it is to be hoped that some other organisation, better equipped for the purpose, will take up this task.

3. For the seventeen districts of Mahakoshal (Part of erstwhile Madhya Pradesh) and for Panna and Tikamgarh districts of erstwhile Vindhya Pradesh, which are part of the present State of Madhya Pradesh, the area figures for districts and tahsils furnished by the Director of Land Records and presented in Table A-I are internally inconsistent in the sense that the tahsil areas do not add up to the district area. This inconsistency arose from the fact that, in the case of these districts, the district area includes, but the tahsil areas exclude, 'forest' area for which the tahsilwise breakup was not then available. Later on, while this Hand-book was in the press, the Director of Land Records brought out revised area figures for the year 1962-63 for tahsils and districts, which among other improvements, do not suffer from the defect of internal

NOTES AND EXPLANATIONS

This note gives the meanings and explanations of terms and concepts used in this Handbook. 'This is necessary because, without a proper grasp of the meanings of such simple concepts as building, house, household, worker, etc., it is not possible to appreciate the data presented in the Handbook. Thus, one who does not know that an unpretentious hut in the thick of Bastar forests with unplastered bamboo walls and a thatch roof and with space hardly enough for two cots is not a whit less of a building than the Indian versions of the skyscrapers in one of the metropolitan cities, or that a central jail housing all manner of criminals and shady characters is as much a household as the household of the most pious and god-fearing citizen in the State, may not be able to appreciate what exactly the figures represent. Besides explaining the terms and concepts, the note also contains brief notes on the salient and peculiar features of some of the Census tables presented in this Handbook.

Census.—The Census in India is a decennial operation taking place in February-March of the first year of every decade. It ensures coverage of *all* members of the population irrespective of age. The operations constituting a *Census* involve, besides counting of heads, the counting of numerous attributes of the person counted. These are demographic, social, economic and cultural in nature. The number of these attributes regarding which information is recorded has been increasing from census to census and is limited only by considerations of cost, time and organisation.

Population.—The important thing about a population is that it is dynamic. It is a constantly changing entity. These changes take place by the natural processes of birth and death as well as by migration. A statement of population has therefore little sense unless the point of time to which it relates is also stated. A population figure is correct only for a particular point of time; and, even though in practice one may omit to indicate this point of time, one should none the less be clear about it. The population figures presented herein refer to the sunrise of 1st March, 1961, unless otherwise stated.

Rural-Urban Classification:—Data collected at a Census is usually presented separately for the rural and urban areas. A 'town' or a 'town-group' constitutes an urban area. A 'town' in the 1961 Census was either (i) a municipality, cantonment or corporation; or (ii) a habitation with a population at least of 5,000 with atleast three-fourths of the adult male population being engaged in non-agricultural pursuits. The rural-urban classification, being operationally cardinal and prior in point of time to the census count, had to be tackled earlier and a list of 219 towns in the State was therefore, prepared much earlier than the census proper. This included 28 habitations which were tentatively treated as towns, the intention being that, after the 1961 Census data became available, their cases would be re-examined. Later on, however, no modification was made in the list, even though 7 towns did not satisfy either the minimum population criterion or the one based on the ratio of non-agricultural adult males being 75% or greater. These are Gogaon in West Nimar, Datla Bandhi in Chhindwara (both under 5,000 in population); and, Icchawar, Patan, Pendra, Akaltara, Arang respectively in Sehore, Jabalpur, Bilaspur, Bilaspur, and Raipur Districts (not satisfying the economic criterion). The reason for not disturbing the original list of towns was that as many as 14 habitations which did not satisfy one or the other of the criteria laid down earlier managed to sneak into the list of towns as municipalities, and inclusion of seven more such towns was not supposed to introduce greater demographic distortion than was already present. The cases of Chachaura-Binaganj town in Guna District and Sardarpur-Rajgarh in Dhar District are peculiar in that each of these two municipal towns consists of two distinct habitations separated by 2 miles in the first and 3 miles in the second case.

All areas, which were not urban were rural. They consisted of 'villages'. A very large majority of the census villages were 'revenue villages', which had well demarcated or recognised boundaries, and which included not only the inhabited portion (or portions) but also agricultural land and uninhabited waste (or other) lands. The census village was thus not synonymous with a habitation or a dwelling; in fact, a village could contain two or more distinct habitations separated by considerable distances known variously as 'tola' or 'mazra' or 'para'. Besides, in many districts there were forest villages, situated inside Reserved forests and without clearly demarcated boundaries. The areas entered against these villages in the Village Directory are thus only approximate. It is to be noted that being, as observed by Martin [Census Superintendent (old) Madhya Pradesh, 1911 and Census Commissioner for India, 1921] arbitrary and irregular units of

area, carved out chiefly for revenue and administrative purposes, there are many revenue villages which do not have any habitation. They are not, therefore, of much demographic interest, and their inclusion in the Village Directory is only for a proper tally of area aggregates.

A—General Population Tables:

There are four main tables and three appendices in this series.

Table A-1.—This table presents the basic figures relating to area, houses and population separately for the rural and urban areas of each district, each tahsil, and for each city, towngroup or town. The area figures used in the table for the district and the tahsils are those furnished by the State Director of Land Records. In case of the district, the area figures furnished in 1962 by the Surveyor-General, India are also given. The Surveyor-General does not furnish area figures for tahsils. In case of cities and towns the area figures are furnished by the local urban authority (if any) in charge of the municipal administration, or by the local revenue authorities. Except in case of Raipur and Sagar districts, there is no agreement between the area figures for the district furnished by the Director of Land Records and the Surveyor-General, India. These differences arise principally from the differences in the methods adopted by the two agencies in measuring and computing the area.

In the case of eighteen districts (Bastar, Raipur, Durg, Raigarh, Bilaspur, Surguja, Balaghat, Seoni, Chhindwara, Mandla, Narsimhapur, Jabalpur, Sagar, Hoshangabad, Betul, East Nimar, Tikamgarh and Panna), only the district 'total' and 'rural' figures for area include the forest area; the figures for forest area were not available for individual tahsils in these districts, and hence the tahsilwise area figures for these districts do not include forest area. This fact is important particularly for appreciating the district and tahsil population density figures of these districts. The population density (*i.e.*, persons per square mile) given in column 4 of the table is calculated on the basis of the figures of area supplied by the State Directorate of Land Records.

Occupied Residential House.—This is a Census house which was actually occupied at the time of enumeration for residential purposes either partly or fully. The concept of 'Census house' together with the allied concepts of 'building' and 'household' are dealt with later in this note.

Town Group.—The introduction of the concept of "towngroup" is a new feature of the 1961 Census. One kind of 'towngroup' has its basis in what may be called demographic prognosis, this being that a particular group of towns is situated in such a way, and exhibits some interconnecting features of such a kind, that they can be considered a single demographic entity whose organic nature is likely to become more and more evident in the future. Examples are: Bhopal City with Bairagarh in the West and Heavy Electricals Township in the East; and Durg Town and Bhilai Industrial Township. The other type of towngroup is a group only in name in the sense that it represents a group of localities which geography unites but definition separates. Examples are Sagar Towngroup consisting of Sagar Municipality and Sagar Cantt., and Jabalpur Towngroup (consisting of Jabalpur Corporation, Jabalpur Cantt. and Khamaria). In both these instances, the urban complex is single and continuous, but as each corporation or cantonment is a separate town by definition, it gets split up in the Census into more than one town. In Madhya Pradesh there are six towngroups in all; three of them belong to the first type: Bhopal in Sehore District: Murwara in Jabalpur District and Durg in Durg District; the other three belong to the second type, Pachmarhi in Hoshangabad District, Sagar in Sagar District and Jabalpur in Jabalpur District.

Houseless & Institutional Population:—"Houseless population" means those who did not live and were not enumerated, in Census-houses at the last Census. Obviously these swell the ranks of the social destitutes who, to speak in every day parlance do not have even a roof over their heads, but live under the shade of trees or bridges or on pavements. "Institutional population" means the population that was enumerated in institutions at the last census *i.e.*, in hostels, jails, boarding houses, hospitals etc.

Class of Towns.—Towns are classified into six classes as below according to their population sizes:—

Class	*Population range*
I	100,000 and above
II	50,000—99,999
III	20,000—49,999
IV	10,000—19,999
V	5,000—9,999
VI	Below 5,000

Towns of Class I are also known as Cities.

"Status" of a town means the authority in charge of its local urban administration. Thus a town could have a Municipal Corporation; a Municipality, a Cantonment Board, a Gram Panchayat, a Town or Notified Area Committee, etc.

B—(*i*) *General Economic Tables.*—This series includes 22 tables containing information on certain economic aspects of the population. The concepts involved have undergone significant changes as compared with the 1951 and earlier Censuses. In the 1951 and earlier censuses or at any rate in the last few censuses income or economic independence (and dependence) were treated as the criteria for denoting the economic status of a person. Separate account used to be taken of all persons who were economically independent and of those who were economically dependent. An intermediate category of economic semi-independence was also introduced in the 1931 Census. This consisted of the 'earning dependents' of the 1951 Census and even there the element of income was present. This income-based classification seems to have not infrequently resulted in a suppression of information relating to those who worked in household economic activities but did not actually earn any income like men other than the head of the household and women of the family or children working at the family cultivation or cottage industry but not earning any incomes. The 1961 Census introduced the concept of work and totally abandoned the 'income' approach. Thus all people who worked (*i.e.*, were "economically active") including family workers who were not in receipt of any income, & working children who did not earn enough for their maintenance were treated as workers. On the other hand such persons as a receiver of rents on immovable property, or of interest on securities deposited in a bank, and doing no other work, were treated as non-workers. Persons professionally engaged in anti-social activities (*i.e.*, thieves, robbers, prostitutes, beggars, etc.) were, however, not treated as workers. The approach to the concept of "work" was pragmatic and numerous illustrations were given to clarify the concept. The basis of work was held to be satisfied in the case of seasonal work *i.e.*, work at cultivation, livestock, dairying or household industry if the person has had some regular work of more than one hour a day throughout the greater part of the working season. In the case of regular employment in any trade, profession, service, business or commerce the basis of work was satisfied if the person was employed during any of the fifteen days preceding the day on which he was visited by the Census enumerator. A person who was working but was absent from his work during those fifteen days or for a longer period owing to illness or other causes was treated as worker. Work included not only actual physical work but also effective supervision and direction of work.

The Working Categories:—The primary classification of the population is by means of a simple dichotomy into workers and non-workers. The former is further sub-divided into nine sub-classes or working categories of the Census. These are listed below; the correspondence with the Standard National Industrial Classification is also indicated.

	CENSUS WORKING CATEGORY	CORRESPONDING DIVISION OR MAJOR GROUP OR MINOR GROUP OF NIC
I	Workers in cultivation	Minor Groups 000, 001, 002, 003, 004,
II	Agricultural Labourers ...	The same as in I above
III	Workers in mining, quarrying, live-stock, forestry, fishing, hunting and plantations, orchards and allied activities	Major Groups 01, 02, 03 and 04 and Division 1; Minor Groups 005, 006, 007, 008, 009 (if not classifiable as household industry)
IV	Workers in household industry ...	Minor Groups 005 to 009, 013, 014, 015, 020 to 026, 031, 032, 040 to 048, 107, Divisions 2 & 3 (excepting Minor Groups 201, 217, 218, 232, 252, 260, 290, 324, 325, 338 and 380) if on a household scale
V	Workers in manufacturing other than household industry ...	Divisions 2 & 3
VI	Workers in construction ...	Division 4
VII	Workers in Trade and Commerce ...	Division 6
VIII	Workers in Transport Storage and Communications ...	Division 7
IX	Workers in other services ..	Divisions 5, 8 & 9

The only term requiring explanation is household industry, the others being self-explanatory. As regards household industry, a three-fold test was laid down, *viz*:—

(a) "Household Industry" should consist of manufacture, processing or servicing and may include sale but should not be confined simply to buying and selling. At least part of the goods offered for sale from the household should be manufactured or processed by members of the household.

(b) "Household Industry" should be on the household scale where the workers mainly will be the Head of the household himself and/or members of the household, the role of hired workers from outside being of secondary importance. Thus, in any Household Industry, members of the household should be in a position to lend a hand in the industry whenever they find the time in the course of their daily chores. Household Industry cannot, therefore, be on the scale of a *registered factory* but can use machinery and employ power like steam engine or oil engine or electricity to drive the machinery.

(c) Location also is important, for proximity decides participation by members of the household. In a village this participation is possible if the Household Industry is located at home or within the village because village organisation is such as makes it possible for members of the household to move about freely in the village to look after their work. In urban areas such free movement is not possible, and therefore, for household industry in urban areas we should consider only those industries which are located or at least the major part of whose work is located at home.

Class of Worker:—A worker, other than a cultivator, agricultural labourer or a worker at household industry could be: (i) an Employer, that is, who hires one or more persons in his work; (ii) an Employee, that is, who does his work under others for wages or salary in cash or kind; (iii) a Single Worker, that is, who is doing his work without employing others, except casually, and without the help of other members of the family, except casually (this includes workers working as members of a co-operative); and (iv) a Family Worker, that is, who is doing his work in his own family without wages or salary in cash or kind. A person could be an employee in a household industry also.

PRINCIPAL AND SECONDARY WORKER:

Table B-VII Part A and Part B involve the concepts of principal and secondary work. For every worker the principal work had to be indicated in the case of a person who was engaged in more than one work, and also the secondary work if he was engaged in two or more than two productive activities. The concepts of primary and secondary work had nothing to do with the income accruing to a person from his work. The principal work of a person was that activity which took up most of his time; similarly the secondary work (in case a person was engaged in two or more than two kinds of work) was that which took up less time than the principal work but greater than the other kinds of work. Unless specifically stated to the contrary in the table heading itself the tables in the Handbook are based on the principal work of a person.

Non-workers:—The non-working section of the population also was divided into eight classes according to the nature of their activities. Thus a non-worker could be (i) a full time student or child attending school, (ii) a person engaged in home duties (like a housewife or other adult female who does no other work) (iii) dependent including an infant or child not attending school, a person permanently disabled from work because of illness or old-age; (iv) a retired person who is not employed again, rentier, a person living on agricultural or non-agricultural royalty, rent or dividend, or any other person of independent means for securing which he does not have to work and who does no other work; (v) a beggar, vagrant or independent woman without indication of source of income and others of unspecified source of existence; (vi) a convict (not an undertrial who was to be recorded for the work he did before being admitted to Jail); (vii) persons who were seeking employment for the first time; and (viii) persons who previously had worked, but were out of employment, and were again seeking work.

Education Levels:—A person was treated as illiterate if he did not satisfy the test of literacy, this meaning the ability both of reading and writing. The test of reading was held to be satisfied if a person could read printed matter or easily legible manuscripts. The test of writing was the ability to write a simple letter. The minimum educational level is primary or junior basic, and this includes all persons who have passed this examination but have not passed the next higher level examination *i.e.*, matriculation or higher secondary. Persons who had formal schooling but had not passed the primary or junior basic level examination were literates without any educational levels. A person belonging to any particular educational level means a person who has passed the examination denoting that level.

INDUSTRIAL AND OCCUPATIONAL CLASSIFICATION OF WORKERS:

Workers have also been classified according to their occupation and industry. The concepts of 'industry' and 'occupation' are of fundamental importance in connection with all economic activity and it is necessary that they should not be confused with each other. By "industry" is meant the sector of economic activity in which a worker is engaged *e.g.*, the textile industry, mining industry, etc., whereas by 'occupation' is meant the exact function that a worker performs in that sector *e.g.*, fitter, carpenter, typist, etc. Occupation thus is "a trade, profession or type of work performed by an individual independent of the worker's industry, status or years of experience".

THE INDIAN STANDARD INDUSTRIAL CLASSIFICATION (I. S. I. C.):

The industrial classification used in some of the economic tables of this hand-book is the 'Standard Industrial Classification' prepared by the Ministry of Labour and Employment, Government of India. Under this scheme of classification, the whole range of economic activity is divided into nine 'divisions', and a code number is given to each. The first digit of the code number of any specific economic activity stands for the 'Division' under which that activity is classified. Each division is then divided into a number of major groups not exceeding ten. The first and second digits of the code number represent the division and the major group into which an economic activity is classified. Each major group is again sub-divided into a number of minor-groups not exceeding ten, and the first, second and third digits in the code number of any economic activity represent the division, the major group and the minor group into which it is classified. To illustrate, the industrial 'code', '261', represents an economic activity corresponding to minor group 261 in major-group 26 of Division 2. A reference to the Standard Industrial Classification will show that the minor group code stands for the economic activity 'Dying and bleaching of silk' in the major group 'Textiles Silk' of the Division: 'Manufacturing'. The 'Divisions', 'Major Groups' and 'Minor Groups' of the Standard Industrial Classification are printed immediately after this note as Appendix I.

NATIONAL CLASSIFICATION OF OCCUPATIONS (NCO):

Table B-V gives the occupational classification by sex of persons at work other than cultivation. This classification is based on the 'National Classification of Occupations' prepared by the Ministry of Labour and Employment, Government of India. Each *occupation* is represented by a code number containing a number of digits (extending in the NCO upto 5). We have used only the three digit Code number for classifying occupation. All occupations are divided into ten divisons to each of which a digit is allotted. The first digit of the code number of an occupation stands for the 'Division' into which it is classified. Each division is then sub-divided into a number of groups not exceeding ten. The first and second digits of the code number represent the 'Division' and 'Group' into which an occupation is classified. Each group again is divided into a number of families not exceeding ten and the first three digits of the code number stand for the division, group and family into which an occupation is classified. To illustrate, the code number 911 stands for the family 911 (Cooks, cook-bearers, domestic and institutional) included in the Group 91 (Housekeepers, Cooks, Maid and related workers) included in the 'Division' 9 (Service, Sport and Recreation workers). The Divisions, Groups, and Families of the National Classification of Occupations are printed after this note as Appendix II.

It may be mentioned that the three digit industrial code can easily be extended into a four-digit code on the principles illustrated earlier to secure greater precision in the classification of the economic activitity of a worker. This has in fact been done in case of workers at household industry, and these four-digit code numbers have been used in Table B XIV Part B.

B—(ii) Household Economic Tables:—Tables belonging to this series differ from others in two respects: (i) they have been prepared from information recorded on the household schedules, while the other tables are prepared from information recorded on the individual slips; (ii) whereas the other tables are based on the total population, the tables in this series are prepared from the data contained in a 20% sample of all households. The instructions for selecting the sample are reproduced below:—

"Every fifth household from the starting random household will be selected to make a 20% sample. The sample household will be marked continuously for rural areas of a tahsil/taluka and for urban areas of a district *i.e.*, households left over in a household pad should be carried over to the next household schedule pad for the selection of sample households.

"Before making the sample households the household schedule pads should be arranged in the order of location code numbers of villages in a Taluka or Tahsil in the case of a rural area and in the order of location code numbers of towns in a district for urban areas. The first sample household should be chosen randomly among the first five households in the first household schedule pad and stamped (s) as selected. This random number (random start) should be chosen separately for rural areas of each taluka/tahsil and for

the urban area of the district. From the first random household every fifth household should be continuously stamped as selected..... The sample should be continuously marked for all the pads of villages in a tahsil and urban areas in a district. If in a particular household schedule pad at the end, some households (these will be four or less) are left after marking of the sample household, the housedolds left over should be carried over to the next household schedule pad and the appropriate household in that pad should be marked as a sample household".

C.—Social and Cultural Tables:

This series contains 8 tables of which Table C-1 is prepared from data abstracted from the 20% sample of households.

Marital Status:—As regards marital status a person could be (i) never married, (ii) married, (iii) widowed and (iv) divorced or separated. The figures given do not necessarily indicate the legal position. Thus, persons who lived together as man and wife and who were regarded as such by society were treated as 'married' even though there might not be any legally valid marriage between them.

Age.—The age of a person was recorded in completed years as on the last birth day at the time of enumeration, so that a child who had not completed a year of its existence was recorded as of age '0' Inspite of the best efforts, distortion of ages is common phenomenon in Indian Census. This distortion is ascribable to the combined effect of a variety of causes like, for example, digit-preference, age-bias and estimation error and its most obvious manifestation is the heaping of the ages at digits ending in 0 or 5 and in even rather than in odd numbers.

Mother Tongue:—Mother tongue is the language spoken in childhood by a person's mother to the person, or mainly spoken in the household.

Religion:—Separate figures are given only for the six main religions: Hindu, Muslim, Jain, Sikh, Christian and Buddhist. Figures for persons professing other religions have been clubbed together under the head: Other Religions and persuasions'

Scheduled Castes and Scheduled Tribes:—In view of the constitutional safeguards guaranteed to persons belonging to scheduled castes and scheduled tribes with a view to ameliorate their social and economic condition, basic census figures are for the first time being published separately for each scheduled caste and scheduled tribe. A scheduled caste or a scheduled tribe means a caste or a tribe included in the Order issued by the President of India under Articles 341 (1) and 342 (1) of the Constitution, amended, if necessary in accordance with Articles 341 (2) and 342 (2) thereof. It should be remembered that the population of a particular scheduled caste or tribe as given in the tables does not necessarily mean the entire population of that caste or tribe in the district. This is so because scheduling of a caste or tribe under the Constitution is *territorial* so that a caste or a tribe scheduled in a district, (or a tahsil or tahsils of a district) is not necessarily a scheduled caste in other districts (or other tahsils of the same district). Thus Gond is a scheduled tribe in all tahsils of Jabalpur District except Jabalpur Tahsil so that the figures for Gond population in Jabalpur District exclude the Gonds of Jabalpur Tahsil. Secondly, some of the scheduled tribes have not been given independent status in some parts of the State by the Order but have been clubbed together with some major tribe, while, in other parts of the State, they have not been so clubbed but have been included as distinct scheduled tribes. Thus, in the districts of the Mahakoshal region of the State, the tribe Agaria has been clubbed, along with many another, with Gond as the latter's sub-tribe. In these districts, therefore, figures relating to Agaria tribe, whose ethnic identity with Gond is controversial, do not appear independently in the tables of these districts, but are included in the figures for Gond. In the Vindhya Pradesh region, however, Agaria is Scheduled tribe in its own right and in the districts belonging to that region Agaria population appears separately in the relevant tables.

Religion of Scheduled Castes and Tribes:—A scheduled caste can exist only in Hindu and Sikh religions and in no other religion. A scheduled tribe, however, may be found in any religion.

E—Housing Tables:—The Handbook includes five tables on housing. In using these tables, it should be remembered that they are prepared from the data on households abstracted from the 'Houselists'. Tables E-I and E-III are based on the full count while table E-II, E-IV and E-V are prepared from a 20% sample of households entered in the Houselists. Houselisting was non-synchronous with census proper, having taken place in the month of September-October, 1960, about five month before the reference date of the Census. Also, the population of households entered in the houselists is not necessarily identical with the population of households in respect of which household schedules were filled at the time of the Census. Thus the samples of households drawn from the household schedule, and from the house lists are different samples.

The instruction for drawing the 20% sample of households from the houselists are reproduced below:—

"Before marking the sample households the Houselists should be arranged in order of location code numbers in the case of rural areas for tahsil etc., and in the case of urban areas other than towns with population of 50,000 and over. In the case of towns with population of 50,000 and over the Houselists should be arranged in order of blocks. The first sample household should be chosen randomly among the first five households in the first Houselist. From that every fifth household from the first random household should be continuously marked..... The sample should be marked continuously for all the Houselists. If in a particular Houselist at the end two households are left after the marking of the sample households then these households should be carried over to the next Houselist and the third household in that list should be marked as sample households".

Census House and Census Households:—The concepts of "building" "house" and "household" are important and differ somewhat from their connotations in common speech. A building refers to the entire structure on the ground. A census house is a structure or part of structure inhabited or vacant or a dwelling, a shop, a shop-*cum*-dwelling or place of business, workshop, school etc., with a separate entrance. A census house was thus a building, or part of a building with a separate entrance. A census house could have a variety of uses, residential as well as non-residential; or it might be vacant (at the time of houselisting).

A household was defined as "a group of persons who commonly live together and would take their meals from a common kitchen unless the exigencies of work prevented any of them from doing so." A household necessarily lived in a census house or part of a census house. The definition of a household was broad enough to include all persons living together in a census-house and dining from the same kitchen, even if they were not related to one another. Such were the institutional households, like jails, hostels, hospitals etc. The house in which a household lived could either be owned or rented. All census-houses which were not owned by the households living in them were treated as 'rented' even though no rent was being actually paid.

"Factory" and "Workshop":—As is clear from its definition, a Census house could be a workshop. A workshop is a place where some kind of production, repair or servicing goes on, or where goods or articles are made and sold. A bigger workshop which was either registered under the Indian Factories Act or was of the scale of a registered factory was returned as a factory. For a manufacturing, repairing or servicing establishment to be registered under the Indian Factories Act, it should have ten or more workers if using power and twenty or more workers if not using power.

VILLAGE DIRECTORY AND ITS APPENDICES:

Village Directory:—The Village Directory corresponds to the Primary Census Abstract of the 1951 Census. It gives for each village of the district: (a) information relating to area, census houses, households, scheduled castes and scheduled tribes and literacy; and (b) the classification of the population into workers and non-workers, and again 'workers' into their 'Industrial Categories' separately for both the sexes. For facilitating comparison with the Census Handbook of 1951 the serial number at which the village is to be found in 1951 Handbook is also given. A new feature introduced in this Census is the presentation of additional information about each village relating to schools, hospitals, child and maternity welfare centres, medical practitioners, electricity, post and telegraph offices etc. This has been done by entering symbols against the name of each village. Another novel feature is the presentation in eleven appendices of useful information relating to villages and towns *i.e.*, industrial establishments, places situated on bus routes, or within five miles of a railway station, places having pucca wells, markets, public reading rooms, drains etc.

To enable the reader to locate the village in the Village Directory without much difficulty, an alphabetical index of village names is given. This gives for each village the 1961 location code number of the village (in the Village Directory, villages are arranged according to their Location Code Numbers); and its location code number in the 1951 Hand-book.

APPENDIX—I

STANDARD INDUSTRIAL CLASSIFICATION

This classification groups the industries into

9 Divisions

45 Major Groups

343 Minor Groups

The divisions, major groups and minor groups with their Code numbers are listed below.

Major Group (Code)	Description	Minor Group (Code)
	Division O—Agriculture, Livestock, Forestry, Fishing and Hunting.	
00	Field Produce and Plantation Crops:—	
	Production of cereal crops (including Bengal gram) such as rice, wheat, jowar, bajra, maize	000
	Production of pulses such as arhar, moong, masur, urd, khesari, other gram	001
	Production of raw jute and kindred fibre crops	002
	Production of raw cotton and kindred fibre crops	003
	Production of oilseeds, sugarcane and other cash crops	004
	Production of other crops (including vegetables) not covered above	005
	Production of fruits and nuts in plantation, vines & orchards	006
	Production of wood, bamboo, cane reeds, thatching grass etc.	007
	Production of juice by tapping palms	008
	Production of other agricultural produce (including fruits and nuts not covered by code number 006 & flowers) not covered above	009
01	Plantation Crops:—	
	Production of tea in plantation	010
	Production of coffee in plantation	011
	Production of rubber in plantation	012
	Production of tobacco in plantation	013
	Production of ganja, cinchona, opium	014
	Production of other plantation crops not covered above	015
02	Forestry and Logging:—	
	Planting, replanting and conservation of forests	020
	Felling and cutting of trees and transportation of logs	021
	Preparation of timber	022
	Production of fuel including charcoal by exploitation of forest	023
	Production of fodder by exploitation of forests	024
	Production of gums, resins, lac, barks, herbs, wild fruits and leaves by the exploitation of forests	025
	Production and gathering of other forest products not covered above	026
03	Fishing:—	
	Production of fish by fishing in sea	030
	Production of fish by fishing in inland waters including the operation of fish farms and fish hatcheries	031
	Production of pearls, conch, shells, sponges by gathering or lifting from sea, river, pond	032
04	Livestock and Hunting:—	
	Production and rearing of livestock (large heads only) mainly for milk and animal power such as cow, buffalo, goat	040
	Rearing of sheep and production of wool	041
	Rearing and production of other animals (mainly for slaughter) such as pig	042
	Production of ducks, hens and other small birds, eggs by rearing and poultry farming	043
	Rearing of bees for the production of honey, wax, and collection of honey	044
	Rearing of silk worms and production of cocoons and raw silk	045
	Rearing of other small animals and insects	046
	Trapping of animals or games propagation	047

Major Group (Code)	Description	Minor Group (Code)
	Production of other animal husbandry products such as skin, bone, ivory & teeth	048
	Division 1—Mining and Quarrying:—	
10	Mining and Quarrying:—	
	Mining of coal	100
	Mining of iron ores	101
	Mining of gold and silver ores	102
	Mining of manganese	103
	Mining of mica	104
	Mining of other non-ferrous metallic ores	105
	Mining of crude petroleum and natural gas	106
	Quarrying of stone (including slate), clay, sand, gravel, limestone	107
	Mining of chemical earth such as soda ash	108
	Mining and Quarrying of non-metallic products not classified above such as precious and semi-precious stones, asbestos, gypsum, sulphur, asphalt	109
	Division 2 & 3—Manufacturing:—	
20	Foodstuffs:—	
	Production of rice, atta, flour, etc. by milling, Dehusking and processing of crops and foodgrains	200
	Production of sugar and syrup from sugarcane in mills	201
	Production of indigenous sugar, gur, from sugarcane or palm juice and production of candy	202
	Production of fruit products such as jam, jelly, sauce and canning and preservation of fruits	203
	Slaughtering, preservation of meat and fish and canning of fish	204
	Production of bread, biscuits, cake and other bakery products	205
	Production of butter, ghee, cheese and other dairy products	206
	Production of edible fats and oils (other than hydrogenated oil)	207
	Production of hydrogenated oils (Vanaspati)	208
	Production of other food products such as sweet-meat and condiments, muri, murki, chira, khoi, cocoa, chocolate, toffee, lozenge	209
21	Beverages:—	
	Production of distilled spirits, wines, liquor from alcoholic malt, fruits and malts in distillery and brewery	210
	Production of country liquor	211
	Production of indigenous liquor such as toddy, liquor from mahua, palm juice	212
	Production of other liquors not covered above	213
	Production of aerated and mineral water	214
	Production of ice	215
	Production of ice-cream	216
	Processing of tea in factories	217
	Processing of coffee in curing works	218
	Production of other beverages	219
22	Tobacco Products:—	
	Manufacture of bidi	220
	Manufacture of cigars and cheroots	221
	Manufacture of cigarette and cigarette tobacco	222
	Manufacture of hookah tobacco	223
	Manufacture of snuff	224
	Manufacture of jerda and other chewing tobacoo	225
	Manufacture of other tobacco products	226
23	Textile—Cotton:—	
	Cotton ginning, cleaning, pressing and baling	230
	Cotton spinning (other than in mills)	231
	Cotton spinning and weaving in mills	232
	Cotton dyeing, bleaching	233
	Cotton weaving in power looms	234
	Cotton weaving in handlooms	235
	Manufacturing of khadi textile in handlooms	236
	Printing of cotton textile	237
	Manufacturing of cotton nets	238
	Manufacturing of cotton, cordage, rope and twine	239

Major Group (Code)	Description	Minor Group (Code)
24	Textile—Jute:—	
	Jute pressing and baling	240
	Jute spinning and weaving	241
	Dyeing and bleaching of jute	242
	Printing of jute textile	243
	Manufacture of other products like rope, cordage from jute and similar fibre such as hemp, mesta	244
25	Textile—Wool:—	
	Wool baling and pressing	250
	Wool cleaning and processing (scouring)	251
	Wool spinning and weaving in mill	252
	Wool spinning other than in mills	253
	Wool weaving in powerloom	254
	Wool weaving in handloom	255
	Embroidery and art work in woollen textile	256
26	Textile—Silk:—	
	Spinning and weaving of silk textile in mill	260
	Dyeing and bleaching of silk	261
	Spinning of silk other than in mills	262
	Weaving of silk textile by power loom	263
	Weaving of silk textile by handloom	264
	Printing of silk textile	265
	Manufacture of silk cordage, rope and twine	266
27	Textile—Miscellaneous:—	
	Manufacture of carpet and all other similar type of textile products	270
	Manufacture of hosiery and other knitted fabrics and garments	271
	Embroidery and making of crepe lace and fringes	272
	Making of textile garments including raincoats and headgear	273
	Manufacture of made up textile goods except wearing apparel such as curtains, pillow cases, bedding materials, mattress, textile bags	274
	Manufacture of water-proof textile products such as oil cloth, tarpaulin	275
	Manufacture and recovery of all types of fibres for purposes of padding, wadding, and upholstery filling	276
	Manufacture of coir and coir products	277
	Manufacture of umbrellas	278
	Processing and manufacture of textile products not covered above	279
28	Manufacture of Wood and Wooden Products:—	
	Sawing and planing of wood	280
	Manufacture of wooden furniture & fixtures	281
	Manufacture of structural wooden goods (including treated timber) such as beams, posts, doors, windows.	282
	Manufacture of wooden industrial goods other than transport equipment such as bobbin and similar equipment and fixtures	283
	Manufacture of other wooden products such as utensils, toys, artwares	284
	Manufacture of veneer and plywood	285
	Manufacture of plywood products such as tea chest	286
	Manufacture of boxes and packing cases other than plywood	287
	Manufacture of materials from cork, bamboo, cane, leaves and other allied products	288
	Manufacture of other wood and allied products not covered above	289
29	Paper and paper Products:—	
	Manufacture of pulp from wood, rags, wastepaper and other fibres and the conversion of such pulp into any kind of paper and paper board in mill	290
	Manufacture of pulp from wood, rags, wastepaper and other fibres and the conversion of such pulp into any kind of paper and paper board handmade	291
	Manufacture of products, such as paper bags, boxes, cards, envelopes and moulded pulp goods from paper, paper board and pulp	292
30	Printing and Publishing:—	
	Printing and publishing of newspapers and periodicals	300
	Printing and publishing of books	301

Major Group (Code)	Description	Minor Group (Code)
	All other types of printing including lithography, engraving, etching, block making and other work connected with printing industry	302
	All types of binding, stiching, sizing and other allied work connected with binding industry	303
31	Leather and Leather Products:—	
	Currying, tanning and finishing of hides and skins and preparation of finished leather	310
	Manufacture of shoes and other leather footwear	311
	Manufacture of clothing and wearing apparel (except footwear) made of leather and fur	312
	Manufacture of leather products (except those covered by Code Nos. 311, 312), such as leather upholstery, suitcases, pocket books, cigarette and key cases, purses, saddlery, whip and other articles	313
	Repair of shoes and other leather foot-wear	314
	Repair of all other leather products except footwear	315
32	Rubber, Petroleum and Coal Products:—	
	Manufacture of tyres and tubes	320
	Manufacture of rubber footwear	321
	Manufacture of rubber goods used for industrial purpose	322
	Manufacture of all kinds of other rubber products from natural or synthetic rubber including rubber raincoat	323
	Production of petroleum, kerosene and other petroleum products in petroleum refineries	324
	Production of coaltar and coke in coke oven	325
	Manufacture of other coal and coaltar products not covered elsewhere	326
33	Chemicals and Chemical Products:—	
	Manufacture of basic industrial chemicals such as acids, alkalis & their salts not elsewhere specified	330
	Manufacture of dyes, paints, colours and varnishes	331
	Manufacture of fertilizers	332
	Manufacture of ammunition, explosives and fire works	333
	Manufacture of matches	334
	Manufacture of medicines, pharmaceutical preparations, perfumes, cosmetics and other toilet preparations except soap	335
	Manufacture of soap and other washing and cleaning compounds	336
	Manufacture of turpentine, synthetic, resin, and plastic products and materials (including synthetic rubber)	337
	Manufacture of common salt	338
	Manufacture of other chemicals & chemical products not covered above (including inedible oils and fats)	339
34	Non-metallic Mineral Products other than Petroleum and Coal:—	
	Manufacture of structural clay products such as bricks, tiles	340
	Manufacture of cement and cement products	341
	Manufacture of lime	342
	Manufacture of structural stone goods, stone dressing and stone crushing	343
	Manufacture of stonewares, other than images	344
	Manufacture of stone images	345
	Manufacture of plaster of paris and its products	346
	Manufacture of asbestos products	347
	Manufacture of mica products	348
35	Manufacture of earthenware and earthen pottery:—	350
	Manufacture of chinaware and crockery	351
	Manufacture of porcelain and its products	352
	Manufacture of glass bangles and beads	353
	Manufacture of glass apparatus	354
	Manufacture of earthen image, busts and statues	355
	Manufacture of earthen toys and artwares except those covered by code No. 355	356
	Manufacture of glass and glass products except optical and photographic lenses and glass products covered above	357

Major Group (Code)	Description	Minor Group (Code)
35	Manufacture of other non-metallic mineral products not elsewhere specified	359
36	Basic Metals and their products except Machinery and Transport Equipment:—	
	Manufacture of iron and steel including smelting, refining, rolling, conversion into basic forms such as billets, blooms, tubes, rods	360
	Manufacture including smelting, refining of non-ferrous metals and alloys in basic forms	361
	Manufacture of armaments	362
	Manufacture of structural steel products such as joist, rail, sheet, plate	363
	Manufacture of iron and steel furniture	364
	Manufacture of brass and bell metal products	365
	Manufacture of aluminium products	366
	Manufacture of metal products (other than of iron, brass, bell metal and aluminium) such as tin can	367
	Enamelling, galvanising, plating, (including electroplating) polishing and welding of metal products	368
	Manufacture of sundry hardwares such as G. I. pipe, wire net, bolt, screw, bucket, cutlery (This will also include the manufacture of sundry ferrous engineering products done by jobbing engineering concerns which cannot be classified in major groups 36, 37, 38, and 39).	369
37	Machinery (All kinds other than transport) and Electrical Equipment:—	
	Manufacture and assembling of machinery (other than electrical) except textile machinery	370
	Manufacture and assembling of prime mover and boilers, other than electrical equipment, such as diesel engines, road rollers, tractors	371
	Manufacture of machine tools	372
	Manufacture of textile machinery and accessories	373
	Manufacture of heavy electrical machinery and equipment such as motors, generators, transformers	374
	Manufacture of electric lamps and fans	375
	Manufacture of insulated wires and cables	376
	Manufacture of all kinds of battery	377
	Manufacture of electronic equipment such as radio, microphone	378
	Manufacture of electric machinery and apparatus, appliances not specified above	379
38	Transport Equipment:—	
	Manufacture, assembly and repairing of locomotives	380
	Manufacture of wagons, coaches, tramways and other rail road equipment other than that covered by Code No. 363	381
	Manufacture and assembling of motor vehicles of all types (excepting motor engines)	382
	Manufacture of motor vehicles engines parts and accessories	383
	Repairing and servicing of motor vehicles	384
	Manufacture of bicycles and tricycles and accessories such as saddle, seat frame, gear	385
	Building and repairing of water transport equipment such as ships, boats, and manufacture of marine engines	386
	Manufacture & repair of air transport equipment including aeroplanes, aeroengines	387
	Repairing of bicycles and tricycles	388
	Manufacture of other transport equipment not covered above such as animal drawn and hand drawn vehicles	389
39	Miscellaneous manufacturing Industries:	
	Manufacture of optical instruments and lenses, opthalmic goods and photographic equipment and supplies	390
	Manufacture of scientific, medical and surgical instruments and equipment and supplies	391
	Assembling and repairing of watches and clocks	392

Major Group (Code)	Description	Minor Group (Code)
	Manufacture of jewellery, silverware and wares using gold and other precious metals	393
	Manufacture and tuning of Musical Instruments	394
	Manufacture of stationery articles not covered elsewhere such as pencil, pen-holder, fountain pen	395
	Manufacture of sports goods	396
	Manufacture and repair work of goods not assignable to any other group	399
	Division 4—Construction	
40	Construction:—	
	Construction and maintenance of buildings including erection, flooring, decorative constructions, electrical and sanitary installations	400
	Construction and maintenance of roads, railways, bridges, tunnels	401
	Construction and maintenance of telegraph and telephone lines	402
	Construction and maintenance of water ways and water reservoirs such as bund, embankments, dam, canal, tank, tubewells, wells	403
	Division 5—Electricity, Gas, Water and Sanitary Services	
50	Electricity and Gas:—	
	Generation and transmission of electric energy	500
	Distribution of electric energy	501
	Manufacture of Gas in gas works and distribution to domestic and industrial consumers	502
51	Water Supply and Sanitary Services:—	
	Collection, purification and distribution of water to domestic and industrial consumers	510
	Garbage and sewage disposal, operation of drainage system and all other types of work connected with public health and sanitation	511
	Division 6—Trade and Commerce	
60	Wholesale Trade:—	
	Wholesale trading in cereals and Pulses	600
	Wholesale trading in vegetables, fruits, sugar, spices, oil, fish dairy products eggs, poultry and other foodstuff (not covered else where)	601
	Wholesale trading in all kinds of fabrics, and textiles products such as garments, hessian, gunny bag, silk and woollen yarn, shirtings, suitings, hosiery products	602
	Wholesale trading in beverages, such as tea (leaf), coffee (seed and powder), aerated water	603
	Wholesale trading in intoxicants such as wines, liquors	604
	Wholesale trading in other intoxicants such as opium, ganja etc.	605
	Wholesale trading in tobacco, bidi, cigarettes and other tobacco products	606
	Wholesale trading in animals	607
	Wholesale trading in straw and fodder	608
61	Wholesale trading in medicines and chemicals	610
	Wholesale trading in fuel and lighting products such as coke, coal, kerosene, candle	611
	Wholesale trading in toilets, perfumery and cosmetics	612
	Wholesale trading in metal, porcelain and glass utensils, crockery, chinaware	613
	Wholesale trading in wooden, steel and other metallic furniture and fittings	614
	Wholesale trading in footwear	615
	Wholesale trading in tyres, tubes and allied rubber products	616
	Wholesale trading in petrol, mobil oil and allied products	617
	Wholesale trading in other household equipment not covered above	618
62	Wholesale trading in bricks, tiles and other building materials	620
	Wholesale trading in wood, bamboo, cane, thatches and similar products	621
63	Wholesale trading in paper and other stationery goods	630

Major Group (Code)	Description	Minor Group (Code)
	Wholesale trading in agricultural and industrial machinery equipment and tools and appliances other than electrical	631
	Wholesale trading in electrical machinery and equipment like motor, battery, electric fan, bulb	632
	Wholesale trading in all kinds of transport and storage equipment	633
	Wholesale trading in skins, leather and fur	634
	Wholesale trading in clocks, eye glasses, frames	635
	Wholesale trading in hardware and sanitary equipment	636
	Wholesale trading in scientific, medical and surgical instruments	637
	Wholesale trading in precious metals and stones, gold and silverwares and jewellery	638
	Wholesale trading in all goods not covered above	639
64	Retail Trade:—	
	Retail trading in cereals, pulses, vegetables, fruits, sugar, spices, oil, fish, dairy products, eggs, poultry	640
	Retail trading in beverages such as tea (leaf), coffee (seed and powder), aerated water	641
	Retail trading in intoxicants such as wines, liquors	642
	Retail trading in other intoxicants such as opium, ganja, etc.	643
	Retail trading in tobacco, bidi, cigarettes and other tobacco products	644
	Retail trading in fuel such as coke, coal, firewood and kerosene	645
	Retail trading in food stuffs like sweetmeats, condiments, cakes, biscuits, etc.	646
	Retail trading in animals	647
	Retail trading in straw and fodder	648
65	Retail trading in fibres, yarns, dhoti, saree, readymade garments of cotton, wool, silk and other textiles and hosiery products; (this includes retail trading in piecegoods of cotton, wool, silk and other textiles)	650
	Retail trading in toilet goods, perfumes and cosmetics	651
	Retail trading in medicines and chemicals	652
	Retail trading in footwear, headgear such as hat, umbrellas, shoes and chappals	653
	Retail trading in tyres, tubes and allied rubber products	654
	Retail trading in petrol, mobiloil and allied products	655
66	Retail trading in wooden, steel and other metallic furniture and fittings	660
	Retail trading in stationery goods and papers	661
	Retail trading in metal, porcelain and glass utensils	662
	Retail trading in earthenware and earthen toys	663
	Retail trading in other household equipment not covered above	664
67	Retail trading in bricks, tiles and other building materials	670
	Retail trading in hardware and sanitary equipment	671
	Retail trading in wood, bamboo cane, bark and thatches	672
	Retail trading in other building materials	673
68	Retail trading in agricultural and industrial machinery equipment, tools and appliances	680
	Retail trading in transport and storage equipments	681
	Retail trading in electrical goods like electric fan, bulb, etc.	682
	Retail trading in skins, leather and furs and their products excluding footwear and headgear	683
	Retail trading in clock and watch, eye glass, frame	684
	Retail trading in scientific, medical and surgical instruments	685
	Retail trading in precious stones and jewellery	686
	Retail trading in musical instruments, gramophone record, pictures and paintings including curio dealing	687
	Book-selling	688
	Retail trading in goods unspecified	689

Major Group (Code)	Description	Minor Group (Code)
69	Trade and Commerce Miscellaneous:—	
	Importing and exporting of goods and commodities	690
	Real estate and properties	691
	Stocks, shares and futures	692
	Providents and insurances	693
	Money lending (indigenous)	694
	Banking and similar type of financial operation	695
	Auctioneering	696
	Distribution of motion pictures	697
	All other activities connected with trade and commerce not covered above including hiring out of durable goods such as electric fan, microphone, rickshaw, etc.	699
Division 7.—Transport, Storage and Communication:		
70	Transport:—	
	Transporting by railways	700
	Transporting by tramway and bus service	701
	Transporting by motor vehicles (other than omnibus)	702
	Transporting by road through other means of transport such as hackney carriage, bullock cart, ekka	703
	Animal transporting by animals such as horses, elephant, mule, camel	704
	Transporting by man such as carrying of luggage, hand cart driving, rickshaw pulling, cycle rickshaw driving	705
	Transporting by boat, steamer, ferry, etc. by river, canal	706
	Transporting by boat, steamer, ship, cargo boat by sea or ocean	707
	Transporting by air	708
	Transporting by other means not covered above	709
71	Services incidental to transport such as packing, carting travel agency	710
72	Storage and Ware Housing:—	
	Operation of storage such as warehouses	720
	Operation of storage such as cold-storage	721
	Operation of storage of other type	722
73	Communication:—	
	Postal, telegraphic, wireless and signal communications	730
	Telephone communication	731
	Information and broadcasting	732
Division 8.—Services:		
80	Public Services (This does not include Govt., Quasi-Govt. or local body activities, other than administrative, in such fields as transport, communication, information and broadcasting, education and scientific services, health, industries, production, construction, marketing & operation of financial institution each of which is classified in the appropriate industry groups):—	
	Public Services in Union and State army including territorial corps and volunteer corps	800
	Public Service in Navy	801
	Public Service in Air Force	802
	Public Service in Police	803
	Public service in administrative departments and offices of Central Government	804
	Public service in administrative departments and offices of Quasi-Government organisation, municipalities, local boards, etc.	805
	Public service in administrative departments and offices of State Governments	809
81	Educational and Scientific Services:—	
	Educational services such as those rendered by technical colleges, technical schools and similar technical and vocational institutions	810
	Educational services such as those rendered by colleges, schools and similar other institutions of non-technical type	811
	Scientific services and research institutions not capable of classification under any individual group	812
82	Medical and Health Services:—	
	Public health and medical services rendered by organisations and individuals such as by hospitals, sanatoria, nursing homes, maternity and child welfare clinic as also by hakimi, unani, ayurvedic, allopathic and homeopathic particulars	820
	Veterinary services rendered by organisations and individuals	821

Major Group (Code)	Description	Minor Group (Code)
83	Religious and Welfare Services:—	
	Religious services rendered by religious organisations and their establishments maintained for worship or promotion of religious activities, this includes missions, ashrams and other allied organisations	830
	Religious and allied services rendered by pandit, priest, preceptor, fakir, monk	831
	Welfare services rendered by organisations operating on a non-profit basis for promotion of welfare of the community such as relief societies red-cross organisation for the collection and allocation of contribution for charity	832
84	Legal Services:—	
	Legal services rendered by barrister, advocate, solicitor, mukteer, pleader, mukurie, munshi	840
	Matrimonial services rendered by organizations and individuals	841
85	Business Services:—	
	Engineering services rendered by professional organisations or individuals	850
	Business services rendered by organisations of accountants, auditors, book-keepers or like individuals	851
	Business services rendered by professional organisations or individuals such as of those of advertising and publicity agencies	852
	Business services rendered by professional organisations or individuals such as of those rendered by news agency, news paper correspondent, columnist, journalists, editors, authors	853
86	Community Services and Trade and Labour Associations:—	
	Services rendered by trade associations, chambers of commerce, trade unions and similar other organisations	860
	Services rendered by civic, social, cultural, political, and fraternal organisations such as rate payers association, club, library	861
	Community services such as those rendered by public libraries, museums, botanical and zoological gardens etc.	862
87	Recreation Services:—	
	Production of motion picture and allied services such as processing editing etc.	870
	Recreation services rendered by cinema houses by exhibition of motion pictures	871
	Recreation services rendered by organisations and individuals such as those of theatres, opera companies, ballet and dancing parties, musicians, exhibitions, circus, carnivals	872
	Recreation services rendered by indoor and outdoor sports by organisations and individuals including horse, motor etc. racing.	873
88	Personal Services:—	
	Services rendered to households such as those by domestic servants, cooks	880
	Services rendered to households such as those by governess, tutor, private secretary	881
	Services rendered by hotels, boarding houses, eating houses, cafes, restaurants and similar other organisations to provide lodging and boarding facilities	882
	Laundry services rendered by organisations and individuals, (this includes all types of cleaning, dyeing, bleaching, dry cleaning services)	883
	Hair dressing, other services rendered by organisation and individuals such as those by barber, hair-dressing saloon and beauty shops	884
	Services rendered by portrait and commericial photographic studios	885
89	Services (not elsewhere classified):—	
	Services rendered by organisations or individuals not elsewhere classified	890
	Division 9—Activities not adequately described:	
90	Activities unspecified and not adequately described including activities of such individuals who fail to provide sufficient information about their industrial affiliation to enable them to be classified	900
	Fresh entrants to the Labour Market	999

APPENDIX—II

NATIONAL CLASSIFICATION OF OCCUPATIONS

(Code Structure)

Which classifies occupations into

331 Occupational Families (three-digit code numbers)

75 Occupational Groups (two-digit code numbers)

11 Occupational Divisions (one-digit code numbers)

Note I.—The Classification does not provide separate code numbers for Apprentices, Foremen and Instructors (in-plant only). These may be classified by giving the prefixes of "A", "B", or "C" respectively before the code number of the occupation which is being learned, supervised or instructed.

Note II.—n. e. c.—not elsewhere classified.

DIVISIONS, GROUPS AND FAMILIES

0 *Professional, Technical and Related Workers:*

00 Architects, Engineers and Surveyors:—

- 000 Architects
- 001 Civil Engineers (including overseers)
- 002 Mechanical Engineers
- 003 Electrical Engineers
- 004 Chemical Engineers
- 005 Metallurgical Engineers
- 006 Mining Engineers
- 007 Surveyors
- 009 Architects, Engineers and Surveyors, n. e. c.

01 Chemists, Physicists, Geologists and other Physical Scientists:—

- 010 Chemists, except Pharmaceutical Chemists
- 011 Pharmaceutical Chemists
- 012 Physicists
- 013 Meteorologists
- 014 Geologists and Geophysicist
- 015 Mathematicians
- 019 Chemists, Physicists, Geologists and other Physical Scientists, n.e.c.

02 Biologists, Veterinarians, Agronomists & Related Scientists:—

- 020 Biologists and Animal Scientists
- 021 Veterinarians
- 022 Sliviculturists
- 023 Agronomists and Agricultural Scientists
- 029 Biologists, Veterinarians, Agronomists and Related Scientists, n.e.c.

03 Physicians, Surgeons and Dentists

- 030 Physicians and Surgeons, Allopathic
- 031 Physicians, Ayurvedic
- 032 Physicians, Homeopathic
- 033 Physicians, others
- 034 Physiologists
- 035 Dentists
- 039 Physicians, Surgeons and Dentists, n.e.c.

04 Nurses, Pharmacists and other Medical & Health Technicians:—

- 040 Nurses
- 041 Midwives and Health Visitors
- 042 Nursing Attendants and Related Workers
- 043 Pharmacists and Pharmaceutical Technicians
- 044 Vaccinators
- 045 Physiotherapists, Masseurs and Related Technicians
- 046 Sanitation Technicians
- 047 Optometrists and Opticians
- 049 Medical and Health Technicians, n.e.c. (excluding Laboratory Assistants see 091).

05 Teachers:—

- 050 Teachers, University
- 051 Teachers, Secondary Schools
- 052 Teachers, Middle and Primary Schools
- 053 Teachers, Nursery and Kindergarten Schools
- 059 Teachers, n.e.c.

06 Jurists:—

- 060 Judges and Magistrates
- 061 Legal Practitioners and Advisers
- 062 Law Assistants
- 069 Jurists, and Legal Technicians (including Petition Writers)

07 Social Scientists and Related Workers:—
- 070 Economists
- 071 Accountants and Auditors
- 072 Statisticians and Actuaries
- 073 Geographers
- 074 Psychologists
- 075 Personnel Specialists
- 076 Labour and Social Welfare Workers
- 077 Sociologists and Anthropologists
- 078 Historians, Archeologists, Political Scientists and Related Workers
- 079 Social Scientists and Related Workers, n.e.c.

08 Artists, Writers and Related Workers:—
- 080 Authors
- 081 Editors, Journalists and Related Workers
- 082 Translators, Interpreters and Language Specialists
- 083 Painters, Decorators and Commercial Artists
- 084 Sculptors and Modellers
- 085 Actors and Related Workers
- 086 Musicians and Related Workers
- 087 Dancers and Related Workers
- 089 Artists, Writers and Related Workers n.e.c.

09 Draughtsmen, and Science and Engineering Technicians, n.e.c.
- 090 Draughtsmen
- 091 Laboratory Assistants
- 099 Science and Engineering Technicians, n.e.c.

0X Other Professional, Technical and Related Workers:—
- 0X0 Ordained Religious Workers
- 0X1 Non-ordained Religious Workers
- 0X2 Astrologers, Palmists and Related Workers
- 0X3 Librarians, Archivists and Related Workers
- 0X4 Geographers
- 0X9 Other Professional, Technical and Related Workers, n.e.c.

1 *Administrative, Executive and Managerial Workers*:

10 Administrators and Executive Officials, Government:—
- 100 Administrators and Executive Officials, Central Government (All Defence Services Personnel to be included in this family)
- 101 Administrators and Executive Officials, State Government
- 102 Administrators and Executive Officials, Local Bodies.
- 103 Administrators and Executive Officials, Quasi-Government
- 104 Village Officials
- 109 Administrators and Executive Officials, Government, n.e.c.

11 Directors and Managers, Whosesale and Retail Trade:—
- 110 Directors and Managers, Wholesale Trade
- 111 Directors and Managers, Retail Trade

12 Directors, Managers and Working Proprietors, Financial Institutions:—
- 120 Directors, Managers and Working Proprietors, Banks
- 121 Directors, Managers and Working Proprietors, Insurance
- 129 Directors, Managers and Working Proprietors, Financial Institutions,

13 Directors, Managers and Working Proprietors, other:—
- 130 Directors, Managers and Working Proprietors, Mining, Quarrying and Well Drilling
- 131 Directors, Managers and Working Proprietors, Construction
- 132 Directors, Managers and Working Proprietors, Electricity, Gas, Water and Sanitary.
- 133 Directors, Managers and Working Proprietors, Manufacturing
- 134 Directors, Managers and Working Proprietors, Transport and Communication
- 135 Directors, Managers and Working Proprietors, Recreation, Entertainment and Catering Services
- 136 Directors, Managers and Working Proprietors, Other Services
- 139 Directors, Managers and Working Proprietors, n.e.c.

2 *Clerical and Related Workers*:

20 Book-keepers and Cashiers:—
- 200 Book-keepers, Book-keeping and Accounts Clerks
- 201 Cashiers
- 202 Ticket Sellers and Ticket Inspectors including ushers and Ticket Collectors (excluding those on moving transport)

21 Stenographers and Typists:—
- 210 Stenographers
- 211 Typists

22 Office Machine Operators:
- 220 Computing Clerks and Calculating Machine Operators
- 221 Punch Card Machine Operators
- 229 Office Machine Operators, n.e.c.

28 Clerical Workers, Miscellaneous:—
- 280 General and other Ministerial Assistants and Clerks
- 289 Miscellaneous Office Workers including Record keepers, Moharrers, Diaphers, Packers and Binders of office papers.

29 Unskilled Office Workers:—
- 290 Office Attendants, Ushers, Hall Porters etc. n.e.c.

3 *Sales Workers*:

30 Working Proprietors, Wholesale and Retail Trade:—
- 300 Working Proprietors, Wholesale Trade
- 301 Working Proprietors, Retail Trade

31 Insurance and real estate salemen, salesmen of securities and services, and auctioneers:—
- 310 Agents and Salesmen, Insurance
- 311 Agents, Brokers and Salesmen, Real Estate
- 312 Brokers and Agents, Securities and Shares
- 313 Auctioneers
- 314 Valuers and Appraisers
- 319 Insurance and Real Estate Salesmen, Salesmen of Securities and Services, and Auctioneers, n.e.c.

32 Commercial Travellers and Manufacturers' Agents:—
- 320 Commercial Travellers
- 321 Manufacturers' Agents
- 329 Commercial Travellers and Manufacturers' Agents, n.e.c.

33 Salesmen, Shop Assistants and Related Workers:—
- 330 Salesmen and Shop Assistants, Wholesale and Retail Trade
- 331 Hawkers, Pedlars and Street Vendors
- 339 Salesmen, Shop Assistants and Related Workers, n.e.c.

34 Money-Lenders and Pawn-Brokers:—
- 340 Money-Lenders (including Indigenous Bankers)
- 341 Pawn-Brokers

4 *Farmers, Fishermen, Hunters, Loggers and Related Workers*:

40 Farmers and Farm Managers:—
- 400 Cultivators (Owners)
- 401 Cultivators (Tenants)
- 402 Farm Managers, Inspectors and Overseers
- 403 Planters and Plantation Managers
- 404 Farmers and Farm Managers, Animals, Birds and Insects Rearing
- 409 Farmers and Farm Managers, n.e.c.

41 Farm Workers:—
- 410 Farm Machinery Operators
- 411 Farm Workers, Animals, Birds and Insects Rearing
- 412 Gardeners (malis)
- 413 Tappers (Palm, Rubber trees, etc.)
- 414 Agricultural Labourers
- 415 Plantation Labourers
- 419 Farm Workers, n.e.c.

42 Hunters and Related Workers:—
- 420 Hunters
- 421 Trappers
- 429 Hunters and Related Workers, n.e.c.

43 Fishermen and Related Workers:—
- 430 Fishermen, Deep Sea
- 431 Fishermen, Inland and Coastal Waters
- 432 Conch and Shell gatherers, Sponge and Pearl Divers
- 439 Fishermen and Related Workers, n.e.c.

44 Loggers and other Forestry Workers:—
- 440 Forest Rangers and Related Workers
- 441 Harvesters and Gatherers of Forest Products including lac (except logs)
- 442 Log Fellers and Wood Cutters
- 443 Charcoal Burners and Forest Product Processors
- 449 Loggers and other Forestry Workers, n.e.c.

5 *Mines, Quarrymen and Related Workers*:

50 Miners and Quarrymen:—
- 500 Miners
- 501 Quarrymen

502 Drillers, Mines and Quarries
503 Shot Firers
509 Miners and Quarrymen, n.e.c.

51 Well Drillers and Related Workers:—
510 Well Drillers, Petroleum and Gas
511 Well Drillers, other than Petroleum and Gas

52 Mineral Treaters:—
520 Mineral Treaters

59 Miners, Quarrymen and Related Workers, n.e.c.:—
590 Miners, Quarrymen and Related Workers, n.e.c.

6 *Workers in Transport and Communication Occupations*:

60 Deck Officers, Engineer Officers and Pilots, Ship:—
600 Deck Officers and Pilots, Ship
601 Ship Engineers

61 Deck and Engine-room Ratings (Ship), Barge Crews and Boatmen:—
610 Deck Ratings (Ship), Barge Crews and Boatmen
611 Engine-Room Ratings, Firemen and Oilers, Ship

62 Aircraft Pilots, Navigators and Flight Engineers:—
620 Aircraft Pilots
621 Flight Engineers
622 Flight Navigators

63 Drivers and Firemen, Railway Engine:—
630 Drivers
631 Firemen

64 Drivers, Road Transport:—
640 Tramcar Drivers
641 Motor Vehicle and Motor Cycle Drivers
642 Cycle Rickshaw Drivers and Rickshaw Pullers
643 Animal Drawn Vehicle Drivers
649 Drivers, Road Transport, n.e.c. (including Palki and Doli Bearers)

65 Conductors, Guards and Brakesmen (Railway):—
650 Conductors
651 Guards
652 Brakesmen

66 Inspectors, Supervisors, Traffic Controllers, Despatchers, Transport:—
660 Inspectors, Supervisors and Station Masters
661 Traffic Controllers
662 Signalmen and Pointsmen

67 Telephone, Telegraph and Related Telecommunication Operators:—
670 Telephone Operators
671 Telegraphists and Signallers
672 Radio Communication and Wireless Operators
673 Teleprinter Operators
679 Telephone, Telegraph and Related Tele-Communication Operators, n.e.c.

68 Postmen and Messengers:—
680 Postmen
681 Messengers (including Dak Peons)

69 Workers in Transport and Communication Occupations, n.e.c.
690 Ticket Sellers, Ticket Inspectors, including Ushers and Ticket Collectors on moving Transport
691 Conductors, Road Transport
692 Workers in Transport Occupations, n.e.c.
693 Inspectors, Traffic Controllers and Despatchers, Communications
694 Workers in Communication Occupation, n.e.c.

7-8 *Craftsmen, Production Process Workers, and Labourers not elsewhere classified*:

70 Spinners, Weavers, Knitters, Dyers and Related Workers:—
700 Fibre Preparers, Ginners, Cleaners, Scourers, etc.
701 Blow-room Workers and Carders
702 Spinners, Piecers and Winders
703 Warpers and Sizers
704 Drawers and Weavers
705 Pattern Card Preparers (excluding Printers)
706 Bleachers, Dyers and Finishers
707 Knitters and Lace Makers
708 Carpet Makers and Finishers
709 Spinners, Weavers, Knitters, Dyers and Related Workers, n.e.c.

71 Tailors, Cutters, Furriers and Related Workers:—
- 710 Tailors, Dress Makers and Garment Makers
- 711 Hat and Head-gear Makers
- 712 Furriers
- 713 Upholsterers and Related Workers
- 714 Pattern Makers, Markers and Cutters, Textile Products, Leather Garments and Gloves
- 715 Sewers, Embrioderers and Darners, Textile and Fur Products
- 719 Tailors, Cutters, Furriers and Related Workers, n.e.c.

72 Leather Cutters, Lasters and Sewers (except Gloves and Garments) and Related Workers:—
- 720 Shoe Makes and Shoes Repairers
- 721 Cutters, Lasters, Sewers, Footwear and Related Workers
- 722 Harness and Saddle Makers
- 729 Leather Cutters, Lasters and Sewers (except Gloves and Garments) and Related Workers, n.e.c.

73 Furnacemen, Rollers, Drawers, Moulders and Related Metal Making and Treating Workers:—
- 730 Furnacemen, Metal
- 731 Annealers, Temperers and Related Heat Treaters
- 732 Rolling Mill Operators, Metal
- 733 Blacksmiths, Hammersmiths and Forgemen
- 734 Moulders and Coremakers
- 735 Metal Drawers and Extruders
- 739 Furnacemen, Rollers, Drawers, Moulders and Related Metal-Making and Treating Workers n.e.c.

74 Precision Instrument Makers, Watch Makers, Jewellers and Related Workers:—
- 740 Precision Instrument Makers, Watch and Clock Makers and Repairmen
- 741 Jewellers, Goldsmiths and Silversmiths
- 742 Jewellery Engravers

75 Tool-Makers, Machinists, Plumbers, Welders, Platers and Related Workers:—
- 750 Fitter-Machinists, Tool-makers and Machine Tool Setters
- 751 Machine Tool Operators
- 752 Fitter-Assemblers and Machine Erectors (Except Electrical and Precision Instrument Fitter-Assemblers)
- 753 Mechanics-Repairmen (Except Electrical and Precision Instrument Repairmen)
- 754 Sheet Metal Workers
- 755 Plumbers and Pipe Fitters
- 756 Welders and Flame Cutters
- 757 Metal Plate and Structural Metal Workers
- 758 Electro-Platers, Dip-Platers and Related Workers
- 759 Tool-Makers, Machinists, Plumbers, Welders, Platers and Delated Workers, n.e.c. (including Metal-engravers other than printing)

76 Electricians and Related Electrical and Electronics Workers:—
- 760 Electricians, Electrical Repairmen and Related Electrical Workers
- 761 Electrical and Electronics Fitters
- 762 Mechanics-Repairmen, Radio and Television
- 763 Installers and Repairmen, Telephone and Telegraph
- 764 Linemen and Cable Jointers
- 769 Electricians and Related Electrical and Electronics Workers, n.e.c.

77 Carpenters, Joiners, Cabinet Makers, Coopers and Related Workers:—
- 770 Carpenters, Joiners, Pattern Makers (Wood)
- 771 Shipwrights and Body Builders
- 772 Sawyers and Wood Working Machinists
- 773 Coach and Body Builders
- 774 Cart Builders and Wheel Wrights
- 775 Cabinet Makers
- 779 Carpenters, Joiners, Cabinet Makers, Coopers. and Related Workers, n.e.c.

78 Painters and Paper Hangers:—
- 780 Painters and Paper Hangers

79 Bricklayers, Plasterers and Construction Workers n.e.c.:—
- 790 Stone Cutters, Stone Carvers and Stone Dressers
- 791 Bricklayers, Plasterers, Masons
- 792 Glaziers

793 Cement Finishers and Terrazzo and Mosaic Workers
794 Hut Builders and Thatchers
795 Well Diggers
799 Bricklayers, Plasterers and Construction Workers, n.e.c.

80 Compositors, Printers, Engravers, Book-Binders and Related Workers:—
800 Type-setting Machine Operators
801 Compositors
802 Proof-Readers and Copy Holders
803 Printers (Paper)
804 Printers (Textile)
805 Photo-Litho Operators, Photo-lithographers
806 Engravers, Etchers & Block Makers (Printing)
807 Stereotypers
808 Book Binders
809 Compositors, Printers, Engravers, Book-Binders and Related Workers, n.e.c.

81 Potters, Kilnmen, Glass and Clay Formers and Related Workers:—
810 Furnacemen, Kilnmen and Ovenmen
811 Potters, and Related Clay Formers
812 Blowers and Benders, Glass
813 Moulders and Pressers, Glass
814 Grinders, Cutters, Decorators and Finishers
815 Pulverisors and Mixers, Cement, Clay and other Ceramics
819 Potters, Kilnmen, Glass and Clay Formers and Related Workers, n.e.c.

82 Millers, Bakers, Brewmasters and Related Food and Beverage Workers:—
820 Millers, Pounders, Huskers and Parchers, Grains and Related Food Workers
821 Crushers and Pressers, Oil Seeds
822 Dairy Workers (Non-Farm)
823 Khandsari, Sugar and Gur Makers
824 Bakers, Confectioners, Candy and Sweetmeat Makers
825 Makers of Aerated Water and Brewers
826 Food Canners, Preservers and Related Workers
827 Butchers
828 Coffee and Tea Blenders and Related Workers
829 Millers, Bakers, Brewmasters and Related Food and Beverage Workers, n.e.c.

83 Chemical and Related Process Workers:—
830 Batch and Continuous Still Operators
831 Cookers, Roasters and other Heat Treaters, Chemical and Related Processes
832 Crushers, Millers and Calenderers, Chemical and Related Processes
833 Paper Pulp Preparers
834 Paper Makers
839 Chemical and Related Process Workers, n.e.c.

84 Tobacco Preparers and Products Makers:
840 Curers, Graders and Blenders, Tobacco
841 Cigarette Machine Operators
842 Cheroot, Cigar and Bidi Makers
843 Snuff and Zarda Makers
849 Tobacco Preparers and Product Makers, n.e.c.

85 Craftsmen and Production Process Workers n.e.c.
850 Basketry Weavers and Related Workers
851 Tyre Builders, Vulcanisers and Related Rubber Products Makers
852 Plastics Products Makers
853 Tanners, Fellmongers, Pelt Dressers and Related Workers
854 Photographic Dark Room Workers
855 Makers of Musical Instruments and Related Workers
856 Paper Products Makers
859 Craftsmen and Production Process Workers, n.e.c.

86 Testers, Packers, Sorters and Related Workers:—
860 Checkers, Testers, Sorters, Weighers and Counters
861 Packers, Labellers and Related Workers

87 Stationary Engine and Excavating and Lifting Equipment Operators and Related Workers:—
870 Operators, Stationary Engines and Related Equipment

871 Boilermen and Firemen
872 Crane and Hoist Operators
873 Riggers and Cable Splicers
874 Operators of Earth-moving and Other Construction Machinery, n.e.c.
875 Materials-handling Equipment Operators
876 Oilers and Greasers, Stationary Engines, Motor Vehicles and Related Equipment
879 Stationary Engine, and Excavating and Lifting Equipment Operators and Related Workers, n.e.c.

89 Labourers, n.e.c.:—
890 Loaders and Unloaders
899 Labourers, n.e.c.

9 *Service, Sports and Recreation Workers.*

90 Fire Fighters, Policemen, Guards and Related Workers:—
900 Fire Fighters and Related Workers
901 Police Constables, Investigators and Related Workers
902 Customs Examiners, Patrollers and Related Workers
903 Watchmen and Chowkidars
909 Fire Fighters, Policemen, Guards, and Related Workers, n.e.c.

91 House Keepers, Cooks, Maids and Related Workers:—
910 House Keepers, Matrons, Stewards (Domestic and Institutional)
911 Cooks, Cook-Bearers (Domestic and Institutional)
912 Butlers, Bearers, Waiters, Maids and other Servants (Domestic)
913 Ayas, Nurse-maids
919 House-Keepers, Cooks, Maids, and Related Workers, n.e.c.

92 Waiters, Bartenders and Related Workers
920 Waiters, Bartenders and Related Workers (Institutional)

93 Building Care-Takers, Cleaners and Related Workers:—
930 Building Care-Takers
931 Cleaners, Sweepers and Watermen

94 Barbers, Hairdressers, Beauticians and Related Workers:—
940 Barbers, Hairdressers, Beauticians and Related Workers

95 Launderers, Dry Cleaners and Pressers:—
950 Laundrymen, Washermen and Dhobies
951 Dry-cleaners and Pressers

96 Athletes Sportsmen and Related Workers:
960 Athletes, Sportsmen and Related Workers

97 Photographers and Related Camera Operators:—
970 Movie Camera Operators
979 Other Photographers

99 Service, Sports and Recreation Workers, n.e.c.:—
990 Embalmers and Undertakers
999 Service, Sport and Recreation Workers, n.e.c.

X *Workers not Classifiable by occupation*

X0 Workers without occupations:—
X00 Workers without occupations: Matriculates and above
X08 Workers without occupations: Literates
X09 Workers without occupations: Others

X8 Workers Reporting Occupation Unidentifiable or Unclassifiable:—
X80 Workers reporting occupations unidentifiable or unclassifiable

X9 Workers not Reporting Occupation:—
X90 Workers not Reporting occupation.

INTRODUCING THE DISTRICT

K. S. Bhatnagar

Superintendent of Census Operations,
Madhya Pradesh

The District

Sehore is one of the two districts of the erstwhile Bhopal State, the other being Raisen. During the days of princely State, it was known as *nizamat-mqshriq* or the western district. It lies mostly in the Malwa plateau, sloping towards the south to meet the river Narmada, which forms the boundary of the district with Hoshangabad. The topography is typical of the region; somewhat undulating rolling downs of yellow grass, interspersed with areas of rich black cotton soil. The hill system is formed by the great Vindhyan range and the spurs of the main chain. Towards the south lies the main line of the Vindhyas and a little beyond lie the plains of Narmada. The hilly region constitutes about 14% of the area in the district and another 18% lies in the plains, the bulk nearly 68% is in the Malwa plateau. The elevation in Bhopal, Berasia, Sehore, Ichhawar and Ashta forest ranges is between 1450′ to 1800′ above sea level, whereas towards the south it is between 900′ to 1000′. The highest point being 2107 feet near Amamai village. The district headquarters are at Sehore and Bhopal, the capital of the State is included in it, being a tahsil headquarters.

Boundaries

The district lies between latitudes 22° 33′ and 23° 54′ north and longitudes 76° 11′ and 78° 02′ east and is surrounded by Dewas and Shajapur districts in the west, Rajgarh district in the north-west, Vidisha district in north-east, Raisen district in the east and Hoshangabad district in the south. The district is a part of Bhopal Commissioner's division.

The River System

The district lies in the drainage basin of the Yamuna and the Narmada; the northern portion being drained by the Yamuna and the southern by the Narmada. The main rivers are Betwa, Parbati along with their tributaries in the northern system and the Narmada with its tributaries in the south.

The Betwa

The Betwa a river of antiquity, was also known as Vetravati and is mentioned in Kalidas' Meghdoot. The river rises near Bhojpur in Raisen district and flows in the north westerly direction. The rivers Kaliasot, Ajnar and Halali are the main tributaries. The river flows into Vidisha, Guna and Shivpuri districts before entering Jhansi district in Uttar Pradesh, where Mata Tila Dam has been constructed across it.

The Parbati

The river rises at Buranakheri village in Dewas district, near Ashta and flows north-east into Rajgarh and Guna districts, finally joining the Chambal. This is also called western Parbati, to distinguish it from a river of the same name in Shivpuri and Gwalior districts. Its main tributaries are the Sewan, (flowing near Sehore town) the Paru, the Ajnar and the Utaoli flowing near Shampur.

The Narmada

The Narmada is one of the most sacred and important rivers of the State. Rising in the Amarkantak hills it flows towards the southern border of the district. It usually contains a great volume of water. It is not navigable and there is no road bridge over it, although one between Bhopal and Hoshangabad is under construction. When completed it will greatly facilitate the flow of road traffic between Bhopal-Nagpur and other districts of the State. The following rivers are its main tributaries Kolar, Sip, Kakeri, Gunjari Babar and Dobi.

The Forests

The total area of the forests in the district is 601.69 sq. miles and is divided into 605 compartments. It consists of the following types.

(1) Foot hill type teak forest with or without bamboos,

(2) Dry deciduous type with or without bamboos,

(3) Mixed forest and

(4) Bamboo forest.

The forest has been exploited for the following minor produce, bamboos, *khair*, tendu leaves, grass, hides, horns, honey, wax and gum. Coupes are worked and sold annually to the forest contractors. The timber required for domestic consumption is felled departmentally and sold on forest passes.

The floristic composition is given below.

Overwood

Teak (*Tectona grandis*), dhaora (*Anogeissus-latifolia*) salai (*Boswellia serrata*), saj (*Terminalia tomentosa*), mundi (*Mitragyva Pervifolia*), bija (*Pterocarpusmarsupium*), *mahua* (*Madhuca indica*), semal (*Salmelia malabricum*), haldu (*Adina cordi folia*). Where the climate is moister, the following are also found koha (*Terminalia arjuna*), jamun (*Engenia jombolana*), gular (*ficus glomerata*).

Under wood

The following varieties are met with-tendu (*Diospyros-melanoxylon*), moyen (*Lannea grandis*), achar (*Buchanania latifolia*), kachnar (*Bauhinia variegata*), bel (*Aegele marmalos*), aonla (*Emblica officinalis*), amaltas (*cassia fistula*), khair (*Acacia catechu*), palas (*Butea frondosa*), kulu (*sterculia urens*).

Under growth

Grass is found as undergrowth and also as pure crop. Owing to heavy grazing and repeated fires the grass of good quality is comparatively rare. Bans (*Dendro calamus strictus*) occurs on the slopes. The other undergrowth is like ar (*Acacia caesia*), gurar (*Milletia aurticulata*), ber (*Zizyphus jujuba*) and karonda (*Carrisa spinarum*).

Protection of forests

The forests of this district belong to the type 'Southern Tropical dry deciduous' with minor extent of 'Dry deciduous Scrub forest' classification. The first Forest Act was brought into force in 1870 A. D. Later on all the khalsa areas under the management of the Department were declared to be reserved forest by various notifications of Bhopal Government under regulation 3, dated the 12th January 1916. The State had a Forest Act in the Bhopal Forest Act of 1916 which was more or less an Urdu version of the Indian Forest Act of 1878.

Once the forest was said to be thick and wild life more plentiful. Lately however due to deforestation and indiscriminate shooting the wild life has become scarce. Among the bigger animals tiger sher (*felis tigris*), Panthers tendua (*felis pardus*), hynae, *lakkad baggha* (*Hyena striata*) bear, bhalu (*Melursus ursinus*) are found. Sambhar (*Rusa unicolor*), cheetal (*cervusaxis*), chinkara (*Gazellc bennetti*), black buck (*Antelope cervicapra*), blue bull or neelgai (*Boselaphus tragecamelus*) and swamp deer are also seen in the jungles. Wild boars (*Sus cristalus*) jackals (*Canis aurevs*) are fairly common.

Birds of nearly all description common to the region are met with. Game birds of migratory nature are found along with ducks snipes, teals, partredges, sand grouse, green pigeon and pea fowl. In the rivers specially in the Narmada, Betwa and Parbati, many varities of fishes, and crocodiles are met with. Fishes are also found in some of the big tanks of the district. The main varieties of fishes are jhalar (*Barilius barila*), kharpate (*Puntius chrysopoma*), badus (*Tor khudree*), *Bawas* (*Catlacatla*), rohu (*Labeo fimbriatus*), lonch (*Wallagoattu*), sanwal (*Channa striatus*) and bam (*Masta cembelus armatus*). Snakes and scorpions of all descriptions are commonly met with.

Climate

The average mean daily maximum and minimum temperatures are 40.7°c in May and 10.6°c

in January. The climate on the whole is moderate and the three seasons well defined. The district receives rains from the Arabian sea monsoons which commence each year in the early June (although even in May some showers are received) and by July it reaches the zenith. Along with July, August is also a very wet month, but by September the monsoons begin to taper off. By October the rainfall is over and a noticeable change in the weather is observed. There is only one meteorological station in the district at Bairagarh; raingauges however have been fixed at eight places. During the decade the rainfall averaged 1,103.69 mms the lowest and the highest being 587.6 and 1,525.6 mms in years 1951 and 1955 respectively.

The winter begins to set in by November and December and January are the coldest months. The temperature has been known to go down upto 3.8°c in February 1957. The winter is generally very pleasant and lasts upto February. By March it begins to grow warmer and in April it becomes hot; the evenings however remaining cool. The summer commences from near about the middle of April and May is usually the hottest month. When the rains are delayed and do not break until the end of June or so, June also remains hot. The highest temperature recorded at Bairagarh observatory was 45.6° in May 1953.

Historical Background

The history of the district is a part of the history of Bhopal State. The State was founded by Dost Mohammed, an Afghan who came with a body of imperial troops to Malwa. Taking advantage of the chaotic conditions among the chieftains Dost Mohammed began acquiring smaller principalities. By treachery and deceit he destroyed the Deora Rajputs, slaughtering and flinging them into the close by stream since then known as Halali nadi or the river of slaughter. He shifted his headquarters to Islamnagar and built a fort. Dost Mohammed died in 1726 but before he died he had carved out the State and placed it on firm footing. It was Dost Mohammed who had decided to build his capital at Bhopal in 1722. His successor Yar Muhammad Khan however went back to Islamnagar. On his death his son Faiz Muhammad Khan shifted the capital to Bhopal, which has since then remained the capital city of princely State of Bhopal, later of Part C, Bhopal State and now the biggest State of the country. Thus Bhopal city is nearly two hundred and forty years old (in 1961). The dynasty continued to rule till the formation of Part C State in 1949.

Sehore, the district headquarters stands 1750′ above sea level and lies 24 miles to the south-west of Bhopal the main town in the district. During the Mughal days the town did not appear to be an important one. In the British days the township was divided into two parts *viz.* the Town and Sehore Station under the British Political Agent.

In 1818 Captain Stewart selected the site at Sehore for stationing the Contingent Force required to be kept under the treaty. The British station was under the control of the Political Agent and his assistants. In 1857 when the Resident at Indore Col. Durand vacated the Indore Residency, he came to Sehore for refuge. The Begum however felt that his presence along with other Englishmen would create more difficulties, so she advised the Englishmen to move over to Hoshangabad. In January 1858, 150 persons were executed by the British for their alleged participation in the 1857 events. Sehore station was handed over to Bhopal State in October 1929 and since then it remained with Bhopal State. As far as the other tahsils of the district are concerned, prior to 1951 there were many administrative changes.

The most important one being as per Notification No. 8 dated the 5th May 1950 reproduced below* :—

Bhopal

The name Bhopal is said to be derived from Bhojpal or Bhoja's dam referring to Raja Bhoja of Dhar, one of whose minister is said to have built the great dam. Dr. Fleet thought that the name was derived from Bhupala, the King. According to a tradition the city stands on the site of an old town founded by Raja Bhoja of Dhar. On 6 July 1722 Dost Mohammed, built Fatehargrh fort and town walls of the present city. It was however during Nawab Faiz Muhammed's reign that the capital was shifted on a permanent basis. Once the capital was shifted to Bhopal its growth was fairly rapid. In 1795, the Lower lake, Pukhtapur Talab was constructed. Between 1808-19 the city population had begun to sprawl out of the town walls and newer mohallas began to come into existence.

During the years 1819-37 the expansion continued and Gohar Mahal Palace was constructed. The magnificent mosque Jama-Masjid was constructed in 1856 and a water works was established at the cost of Rs 5 lacs in 1869. The rapid growth seems to have continued and in 1884 the Central Railway line (formerly known as Great Indian Peninsula Railway) was laid followed by Ujjain-Bhopal link on the Western Railway in 1895. With this the trade and commerce of the city began to expand. The Hamidia Hospital (then known as the Prince of Wales Hospital) was constructed in 1892. The city continued to grow and in 1910 Ahmedabad palace was constructed along with New Idgah and area on the Shamla Hill was developed. During the Second World war, Bairagarh township began to grow. It was selected for the site of a Prisoner of War Camp and when the war was over, the area came to the State. The refugees who came on the partition of the country were settled later.Some ofthese barracks and buildings were used to accommodate the officials and other employee of the Government when the capital of the new State came over to Bhopal on 1 Nov. 56. During the last decade, the growth was far too rapid mainly due to, the founding of the Capital the establishment of the Heavy Electrical Plants at Govindpura and natural increase i. e. high rate of birth and survival.

The New Capital

On 1 November 1956, it seemed that all roads led to Bhopal. From Nagpur, then Capital of old Madhya Pradesh State came the offices and men who looked after them; from Gwalior and Rewa, came a bulk of offices, officers and men; while those at Bhopal also remained in the station.

From some other towns too came some offices and everybody seemed to be converging to Bhopal. Allied to the shifting of capital were various problems like the accommodation for the Government servants. It had been decided to locate the residential areas in the Tantya Tope

---

*PART-I.ORDERS OF THE GOVERNMENT REVENUE DEPARTMENT BHOPAL STATE

Notification No. 8, dated the 5th May, 1950

Subject :—Reconstruction of Districts and Tahsils of Bhopal State.

In exercise of the powers conferred by Section 7 of the Bhopal Land Revenue Act, 1932, the Chief Commissioner, Bhopal State is pleased to reshuffle the boundaries of the existing Districts and Tahsils of the Bhopal State and to reorganise the same as per list and map appended to this Notification.

1 The Estern and Western Districts with their reorganised boundaries shall hence forth be called Raisen and Sehore Districts respectively.

2 The Tahsils of Jawar, Doraha. Mardanpur, Shahganj, Bari and sub-divisions of Sultanpur and Dewanganj are hereby abolished.

3 A new Tahsil to be known as Budni Tahsil is hereby constituted with its headquarters at Budni.

4 The Raisen District shall consist of the Tahsils of Raisen, Ghairatganj, Begumganj, Silwani, Udaipura, Bareli and Goharganj.

5 The Sehore District shall consist of the Tahsils of Sehore, Ashta, Ichhawar, Nasrullaganj, Budni, Huzur and Berasia.

6 The new boundaries of the Districts and Tahsils as per list and map hereto appended shall come into force with effect from the 1st of June, 1950.

By order, Rajendra Narain Bisarya, Revenue Secretary, Bhopal State

Nagar-south of the old city. With an immense constructional activity the landscape soon began to change and Bhopal began to acquire a 'new look'. To begin with not all offices were straight away shifted to Bhopal. The Chief Engineer P.W.D. (B. & R.) continued at Gwalior and Chief Engineer Irrigation at Raipur. The Directors of Agriculture and Industries continued to function from Rewa and Indore respectively. As when accomodation became available these offices were brought to Bhopal. The Board of Revenue, M.P., the Accountant General, M. P., the Excise and Transport Commissioners still function from Gwalior, the Registrar Co-operatives, the State Public Service Commission, the Labour Commissioner function from Indore, similarly the Chief Conservator of Forests is at Rewa and the High Court of Judicature at Jabalpur.

Initially the Secretariat was located in the Blocks near the former Assembly Hall and the new Legislative Assembly was accommodated in Minto Hall, a building constructed on the visit of the former Viceroy Lord Minto. The new Secretariat building, Vallabh Bhavan, named after the late Sardar Vallabh Bhai Patel, former Deputy Prime Minister of India, and the man who integrated the princely states stands on the top of Arera Hill (renamed as Laxminarayan Giri) was formally opened in 1965 and constructed at a cost of 0.96 crores. The new Secretariat commands an excellent view surveying the countryside from its vantage point. It has become the most prominent landmark of the surrounding area.

The Administrative set up

The Representation of the People

In the Parliament :

For the 1962 General Elections Bhopal Parliamentary constituency comprised of the following Legislative Constituencies.

S. No. and Name of Constituency	Extent in terms of Assembly Constituencies
Bhopal	215 Sanchi, 216 Bareli, 217 Budni, 218 Ashta, 219 Sehore, 220 Bhopal, 221 New Bhopal and 222 Berasia.

Consequent to the last Elections the constituencies were revised in 1964 and now Sehore Parliamentary Constituency consists of the following Assembly Constituencies —

(1) Berasia, (2) Bhopal (which includes some part of T. T. Nagar), (3) Govindpura (H. E. L. & remaining part of T. T. Nagar), (4) Bairagarh, (5) Sehore, (6) Budni, (7) Ashta and (8) Narsingarh.

In 1962 for the State Legislature the district returned six members from the following constituencies. (1) Budni, (2) Ashta (SC), (3) Sehore, (4) Bhopal, (5) New Bhopal and (6) Berasia (SC). Forthe next elections however the district has been split up into seven constituencies. Two constituencies Bhopal and New Bhopal have now been split up into three and have been revised as under (1) Bhopal, (2) Govindpura and (3) Bairagarh. The rest remain unaffected.

The Revenue Administration

In its present form the district came into existence on 5th May 1950*after the State became a Part C State. There have not been many changes in the constitution of the district. The history of the district, known as *nizamats* in the former Bhopal State is given below. At the beginning of the twentieth century the administration of districts is best described in the Gazetteer of the State. "The State, for administrative purpose, is divided into three districts, *viz Nizamat-i-Mashrik, Nizamat-i-Maghrib* and *Nizamat-i-Junub*. Each *Nizamat* comprises nine tahsils.

Each *Nizamat* is in charge of a *nazim* who is the Chief Revenue Officer, District Magistrate and a Civil Judge. He is assisted by tahsildars in charge of tahsils who are first or second class magistrates and munsifs. Other officers are the kanungos, patwaris and inspector of police.

Each village of any size is a community in itself having its own artisans, the carpenter, blacksmith and leather worker who are paid by a share of the village grain at each harvest. Other members are the village servants such as the *nai* or barber, a most important individual who

* Revenue Deptt., Bhopal State notification No. 8 dated the 5th May 1950.

besides his technical duties acts as go-between in arranging marriages, the dhobi or washerman and the chaukidar or village watchman. Over the whole community is the patel or headman who is responsible for the proper condition of his village and assists the mustajir in collecting the revenue.

He is assisted by the patwari or village accountant and register-keeper."*

At the time of 1911 Census the position remained the same. The Census Report says—** "The State is divided at present into 3 *Nizamats, viz. Nizamat-i-Mashriq, Nizamat-i-Junub* and *Nizamat-i-Maghrib* and 28 tahsils for administrative purposes. One *Nizamat* and 5 tahsils have been abolished since 1901. The largest Tahsil is Goharganj with an area of 701 square miles, the smallest is Ahmadpur with an area of 123 square miles."

The description in the Gazetteer and Census Report are similar. By 1921 the four nizamats of pre-1901 era were restored. The Census Report says—***

Administrative Divisions—"The State is for administrative purposes divided into four *Nizamats* these being sub-divided into 26 tahsils. The *Nizamats* are named after the four points of the compass.

The *Nizamat-i-Shimal* or Northern Division lies to the north-west, the city of Bhopal lying in its south-eastern corner, the *Nizamat-i-Junub* or southern Division comprises the south-eastern area; the *Nizamat-i-Mashriq* or eastern Division comprises the south-eastern area; the *Nizamat-i-Mashriq* or eastern-Division comprises the north-eastern section of the State, the *Nizamat-i-Maghrib* or Western Division, the South-western section."

By 1931 again the four *Nizamats* were reduced to two. Sehore the British Station had been handed over to the State. The report mentions—****

"At the time of the last Census the State was divided for administrative purposes into four *Nizamats* and 26 tahsils. Certain changes in, and amalgamation of, the administrative units have taken place since then. At present there are only two *Nizamats - Nizamat-i - Maghrib* and *Nizamat-i-Mashriq* and the number of tahsils has been reduced to 21".

The other important changes which took place between 1931 and 1951, were after the State had been merged into the Indian Union as a Part C State.

When Sehore district was reconstituted after abolition of (1) Shahganj and Mardanpur tahsils, some villages of which were transferred to Budni and Nasrullaganj tahsils (2) of Jawar tahsil villages of which were transferred to Ashta tahsil. The district has remained practically unchanged during the decade.

Offices at District Level

The office of the Collector and District Magistrate :

The Collector is the chief revenue authority in the district. He is also the District Magistrate, in which capacity he is responsible for the maintenance of law and order. He is assisted by an Additional District Magistrate who is posted at Bhopal, the District Magistrate's headquarters being Sehore. (At the time of going to the Press

***The Central India State Census Series 1921 Vol. II Bhopal State Page No. 1 Text and Tables by Lieut. Colonel C. E. Luard, C.I.E.,M.A. (Oxon) I. A., Superintendent of Census Operations, in Central India.

****Central India State Census Series 1931 Volume VII Bhopal State-Page No. 1 Part I-Report, Part II-Tables by C. S. Venkatachar I. C. S., Superintendent of Census Operations in Central India and M. Mahmood Ali Khan.

October 65, a camp office for the District Magistrate has been provided at Bhopal and at Sehore an Additional Collector has been posted). On the revenue side the Collector is responsible for the maintenance of land records, collection of Government revenues and their deposit in the treasury, hearing and disposing of revenue cases. He is assisted by an Additional Collector (from the IAS) and eight Deputy Collectors (from State Civil Service) out of which four are posted at Bhopal and the rest at Sehore. Some Deputy Collectors are also appointed Sub-Divisional Magistrate and assist the District Magistrate in maintaining law and order.

Each tahsil is placed in the charge of a tahsildar (an officer of subordinate Executive Service assisted by one or more naib tahsildars. To supervise the work of a tahsildar a Deputy Collector is placed in the charge of the sub-division (for each tahsil is a sub-division) and is called the Sub-Divisional Officer. Apart from this the Collector is also assisted by the Land Records Staff, which is spread out in the tahsils. The tahsil is further divided into Revenue Inspector's Circles and Patwari halkas; the details being.

District	No. of tahsils	No. of R. I. Circles	No. of patwari halkas	No. of police stations including outposts	Corporations and Municipalities
1	2	3	4	5	6
Sehore	7	22	284	38	2

The Revenue Settlements

Regarding earlier settlements the following extracts from the State Gazetteer is interesting.*

"In early days in Bhopal as in all other Native States the Land revenue was farmed out, whole tahsils being some times made over to one person. Sikandar Begam abolished this system, but the staff required for the direct arrangement of the revenue was found too costly and the farming system was re-introduced by her successor.

In 1839 the first settlement was made, for three years the demand being Rs. 10 lakhs. Revisions were made from time to time, in 1842 for 15 years, in 1870 for 13 years, in 1889 for 20 years, in 1902 for 10 years, but revised in 1903 for 5.

The revenue demand fixed in 1855 amounted to Rs. 20 lakhs. The last settlement fixed the demand at Rs. 20.8 lakhs which gives the moderate incidence of Rs. 1-13-4 per acre of cultivated land, 7 annas per acre on the total area of the State".

After the Settlements, in 1903 an 'Unees Sala Bandobast' settelement for nineteen years was introduced in 1908. The current settlement was effected in 1929-30 and this introduced the ryotwari pattern of tenancy. The jagirs were abolished in 1953-54.

The Soils

Soils of following description are met with. *Kali Chawras* I & II, *Salgutta*, *Dhalu Kans*, *Kali Gorwa* I & II. *Kali Chawras* I and II are the black, clayey types of soils, fertile and capable of retaining moisture. *Chawras* signifies even lying soil. The soil assessment varies from Rs. 3 to 9 an acre. *Salgutta* is usually low lying land, the soil of which is particularly good for rice cultivation, it is assessed at about Rs. 6.00 an acre. *Dhalu* and *Kans* are inferior variety of soil and assessed between Rs. 1.12 and 2.06 per acre. *Kali Gorma* I & II are black cotton soils but less fertile and do not retain moisture for long. The average assessment for the district comes to Rs. 2.88 per acre.

* The Central India State Gazetteer Series Bhopal State Gazetteer Page No. 66 Vol. III Text and Tables by Captain C. E. Luard M. A. (Oxon) I. A. Superintendent of Gazetteer in Central India. Assisted by Munshi Kudrat Ali, State Gazetteer Officer.

The Judiciary

The headquarters of Sessions Judge is at Bhopal and Sehore falls under his jurisdication. There has been a complete separation of the Judiciary from the Executive since long. The Sessions Judge is assisted by the Additional Sessions Judges and Civil Judges and Magistrates who are the members of Judicial Service and subject to the control of High Court of Judicature, Jabalpur.

The Police Department

The Superintendent Police at Sehore (an officer from the Indian Police Services) looks after the working of the Police Force in the district excluding Bhopal Town Group, for which a Senior Superintendent Police is posted at Bhopal. There are other Police officers to assist both of these. For Sehore (excluding Bhopal) the sanctioned strength is given below. The district falls under the jurisdiction of DIG Crime and Railways who also acts as a range DIG.

District Superintendent of Police	Inspectors	Sub-Inspectors	Assistant Sub-Inspectors	Head Constables	Constables
1	2	3	4	5	6
1	5	24	3	59	422

The Medical Department

A Civil Surgeon has been posted at Sehore and another at Bhopal. A part from these two Civil Surgeons, a Superintendent looks after the Hamidia Hospital at Bhopal. Besides these a Women's Hospital known as Sultania Zanana Hospital under a Superintendent has also been located at Bhopal.

The Hamidia Hospital is attached to the Gandhi Medical College, which started functioning from 1955. Besides these some of the other major constructions have been the Hospital at T. T. Nagar and another built by the Heavy Electricals Management.

The Public Works Department

The department is under an Executive Engineer whose headquarters are at Sehore. The National Highway 12—Bhopal—Jaipur passes through the district. Other important roads are Sehore—Ashta Dewas—Ujjain and Indore a State High way and 29 miles of district roads. The work pertaining to construction of buildings at Bhopal is looked after under two heads the Capital Project and the regular Circle.

The Irrigation Department

An Executive Engineer is posted at Bhopal. At present one medium scheme–*viz.* Hathai Khera Tank in Huzur tahsil, irrigates 3,175 acres as against the designed area of 7,400 acres. The table below gives the area irrigated by various sources.

Net area Irrigated by different sources

The Community Development Coverage

The entire district has been covered by the N.E.S. Blocks. The oldest are those at Sehore Phanda (Huzur tehsil) and Ichhawar all having been started from 2-10-52. The details of the Blocks are at Table 5 page 351.

Local Bodies Rural

The panchayats functioned under Bhopal Panchayat Rajya Niyam 1953; but these have now been revised and the Panchayats have been reconstituted under M. P. Panchayat Act 1962. There are at present 224 Panchayats; their break-up being*:

*Based on report from District Panchayat and Welfare office, Sehore.

Panchayats in	Sehore Block	46
	Budhni	30
	Ashta	38
	Ichhawar	22
	Nasrullaganj	28
	Phanda (Huzur)	30
	Berasia	30
		224

So far no Panchayat has been given the right to collect land revenues.

Local Bodies Urban

There are two municipalities in the district one at Bhopal and the other at Sehore.

Bhopal Municipality

It was constituted in 1903 under an Act of 1903 for the management of municipal affairs. In 1916 a new Act based on the U.P. Municipality Act was passed, thereafter Bhopal State Municipalities Act came into force in 1955; only to be replaced by the M. P. Municipalities Act 1961. The members used to be nominated upto 1917 after which 15 members were elected and 10 nominated. Seats for the Scheduled Caste were reserved for the first time in 1956 and have been continued under the present act. At present the Council consists of forty one members thirty elected and eleven nominated.
The income and expenditure statement are given on p. 350.

Sehore Municipality

The first Council was formed in 1940 with five elected and five nominated members who were Government servants. The formalities for establishing the municipality were gone through in 1939. The District Magistrate used to be the Chairman till 1947 when the practice was discontinued and an elected member was appointed the Chairman. It was however in 1949 that the power to elect chairman was given to the Conncil. By this time the body had become completely representative.

(Please see p. 349 for Income and expenditure of the Municipal Council).

Besides these Town Area Committee for Ashta, Bairagarh, Ichhawar and Berasia are also functioning.

The Educational Institutions

The first School was started in 1831 at Sehore and was known as Sehore High School. It is said to have been started by the British, when Sehore was under their occupation.

At Bhopal the first School was started in 1860 by Shah Jahan Begum. Initially it was affiliated to Calcutta University later to Allahabad University. A Girls School was started in 1890. Compulsory education was introduced in 1918. With these modest beginnings the educational facilities multiplied fast and today the district has excellent facilities for general and technical education.

General Education

During the State time there was a Degree College (Hamidia College) at Bhopal, but following its merger with the Union, the greater facilities were made available. Hamidia College was started in 1946 as an Intermediate College and has now become a leading institution offering post Graduate facilities in Arts subject. Coaching in law and commerce is also available. Prior to its bifurcation, Science subjects were also being taught. They are now being taught in the Motilal Vigyan Mahavidyalaya at Bhopal. The Maharani Laxmi Bai Degree College is for women. (Apart from this there are 16 Higher Secondary Schools in Bhopal only). A Post Graduate Basic Training College for the teachers has also been located at Bhopal. A State Institute for Education has been located at Sehore, a Regional College of Education has been started from 1964 at Bhopal.

Technical Education

During the last fifteen years more and more facilities for technical education have been made available. To begin with the Mahatma Gandhi Medical College was started in 1955. The Maulana Azad College of Tachnology (a Centrally aided institution) began functioning in July 1960. The Rafi Ahmed Kidwai Agriculture College came into existence in 1955. The S.V. Polytechnic

Institute was founded on 15th Aug. 1953 and a women's Polytechnic was established in Jan. 1964. All teaching colleges are affiliated to the Vikram University at Ujjain. The district offers excellent educational facilities.

The Agriculture Department

A District Agriculture Officer has been posted at Sehore to carry out the departmental schemes. There are 6 Demonstration farms, one Horticulture Research Station and two nurseries. A Plant Protection Unit is located at Sehore. For soil conservation work the district is divided into two sub-divisions and contour bunding operations have been undertaken. (Please also see Cultivation)

The Forest Department

A Divisional Forest Officer is posted at Sehore and another at Bhopal (also please see under Forests).

Some of the other offices at Sehore are Assis tant Fisheries Officer's, office Central and State Excise Offices, Soil-Conservation. Offices, District Statistical Office, Sugar Cane Specialist and the Commandant Home Guards. The District Education Officer and the Assistant Director of Industries cover the district from Bhopal.

The Offices at Bhopal

The State Government

The Secretariat of the State Government functions from Vallabh Bhawan on the Laxmi Narain Giri (formerly known as Arera Hill). Before it moved into the present building it was scattered over different Blocks of buildings on Bhopal-Bairagarh road. The residence of former Political Agent has been converted into Raj Bhawan. Minto Hall which was constructed in 1910, serves now as the Legislature and the offices of the Law Department. The Directorate of Agriculture and Veterinary are located in the South T. T. Nagar area. They were located in Rewa in 1956, for want of accommodation and were shifted here in July 1960. The Directorate of Public Instruction and the Board of Technical Education are also in the capital. The Government Printing Press is at Bairagarh and the old State Press in Ibrahimpura serves as the office and store. The Directorate of Industries was initially located at Indore and shifted in 1965. The offices of the Inspector General of Police and Jails has all along been in Bhopal. The P.W.D. Buildings and Roads office was located in Gwalior initially and later transferred to Bhopal in May 1960. It is now housed near Bhad Bhada in sheds. The Chief Engineer Irrigation's offices were located in Raipur and have been shifted in 1965, when more accommodation became available. The offices of the Capital Project looked after the construction work in the Capital. The Directorates of Information and Publicity, Tribal Welfare, Economics & Statistics have all along been at Bhopal with Public Health Engineering Department which looks after the water supply. Apart from the above, *i.e.* Secretariat and Heads of Department's offices, all divisional level offices are also located here.

The Central Government

The Accountant General M. P. has a branch office at Bhopal, the main office being at Gwalior. The All India Radio at Bhopal started functioning in the year 1956. The studio is located on the Shamla Hill. The Income Tax Offices have been located at Bhopal but the State at present falls under the jurisdiction of the Commissioner of Income Tax at Nagpur. Only in 1965 the Post Master General's office has been shifted to Bhopal from Nagpur. The National Archives have been founded lately. Apart from these a divisional office of the Central Water and Power Commission is also located. During the State time, the forces of the State were stationed at Sultania Lines, which has now been handed over to the Defence Ministry. The Archaeological Department has stationed a Superintendent for M. P. Circle. Recently a Temple Survey office has been added to the above. As a centre of Government administration, Bhopal continues to expand very fast. The main obstacle in this expansion is the accommodation. Towards Habibganj (south of the main township) in the open spaces, buildings are coming up to accommodate more and more offices. As these become ready offices move in to occupy them; the vacant spaces are fast filling up, a new landscape is emerging as these silhouttes appear against the skyline.

III

THE PEOPLE

The Growth of Population

During the last sixty years the population of the district has gone up by 98.85% which is only a little above the State rate of growth of 92.00%. The table below gives the details.

Table Showing Percentage variation of Population 1901—1961
(+ Increase) (—Decrease)

State Division/ District	T R U	1901— 1961	1951— 1961	1941— 1951	1931— 1941	1921— 1931	1911— 1921	1901— 1911

The Growth through the Decades : 1901 and the Famine

The decade 1901–11 shows an increase of 8.61% in the total population. The preceding decade 1891–1901 was not conductive to the growth, during which period Bhopal State lost 30% of its population as a result of the great Malwa Famine of 1899–1900 corresponding to 1956 of Vikram Samvat. The entire Malwa region remembers it as *'Chhapan-ka-sal'* for its seems to have destroyed much of the population. This is what Luard wrote* in the State Gazetteer.

"In 1899–1900, however, the great drought which attacked Malwa affected this region also, and caused a very serious diminution of the population from which the country has not yet recovered. In every village numerous houses are met with, roofless and in a state of decay, due, as the people state, to *"Chhapan-ka-sal"* or the year 56, i.e. 1956 of the Vikram Era, or 1899 A.D. In 1905 great damage was wrought to the spring crops, notably to the poppy and grain by the excessive cold. This, though producing some distress and much pecuniary loss to the State and the individual cultivator, did not cause famine, the autumn crops being excellent.

The famine of 1899-1900 caused a diminution in the population of 32 percent. Every thing possible was done for the unfortunate cultivator, seven lakks being spent on relief both charitable and through works. A great influx of Marwaris from Rajputana added to the distress."

The Yaers 1901-11

Before 1911 the district was beginning to recover its lost population and grow in the normal way. Of the growth Luard, then Superintendent of Census wrote**:—

"The increase on the present occasion is due almost entirely to the rebound after the famine of 1900 which very seriously affected the western part of the Central India Agency and especially the Hilly Tracts, causing heavy mortality among those at the two extremes of life.

* The Central India State Gazetteer, Series, Vol. III, Bhopal State, P. 59, Text and Tables by C. E. Luard and Kudrat Ali, 1908.

** The Central India State Census Series, Vol. III—Bhopal State, P. 5, Census Report for 1911, Text and Tables, by C. E. Luard.

In the last decade the country was visited by a severe epidemic of plague which affected the Plateau section of the State, for which the plague returns give a figure of 2,725 deaths, but the true figure is considerably higher. The effects of plague were mainly confined to urban area.

There have been no artificial stimulants to increase the population such as the extension of irrigation works, iudustrial developments or the like, the six factories present in the capital town employ only 542 persons."

Thus whereas the growth in the rural areas was more or less normal, the urban areas suffered and the city of Bhopal, lost to the extent of 27% of the population. The growth rate is somewhat below the rate of Bhopal division and State. In the division itself Vidisha,Betul and Rajgarh districts showed a much higher rate of growth and this is responsible for an increase of 15.38% in Bhopal division.

The Decade 1911-21

Then followed the dark-decade disaster decimating and dwindling the population. During this period, excepting the years 1915-16 and 1916-17 which were near normal, no other year went without its quota of mishaps and epidemics. This is how Luard (by now, a Lieutenant Colonel in the Indian Army) Superintendent of Census Operations in Central India Agency. described* the conditions.

"A survey of the last ten years shows the following conditions:—

1910-11—Agricultural conditions were good, though locally excessive rain did some damage. Plague appeared and continued until the end of the years and some sporadic cholera in August and September 1910.

1911-12—Rainfall was sufficient but badly distributed at first, though good late rain saved the situation and prices were normal, fodder being ample. Plague was present until the end of the year. It was very severe in the city where 4,430 deaths were recorded, over 8,000 being recorded throughout the State.

1912-13—The rainfall was timely and ample and crops were good, though some damage was done by heavy rain in September. Fodder was ample but prices somewhat high. A severe outbreak of cholera took place along the Narbada Valley in the summer and mortality was rather heavy.

1913-14—The rainfall was below the average but timely and well distributed and crops were normal. Fodder was ample and prices were steady. Some plague occured in Bhopal city and Berasia, but was not of a severe type. A little local cholera appeared in some villages.

1914-15—The rainfall was ample and well-distributed, crops being normal in character. Fodder was sufficient but prices were high. Plague occured in Bhopal city being severe from August to November when 2,500 deaths were reported. A little local cholera took place.

1915-16—Rainfall was a little below normal but sufficient and well-distributed and crops were good. Fodder was ample and prices fell a little. Health was good.

1916-17—The rainfall was excessive amounting to 66 inches and the kharif crop was damaged in consequence, but the Rabi was above the normal. Public Health was good except for an out-break of cholera in June in a few villages.

1917-18—The rainfall was above normal and the Kharif crop sufficient while the Rabi crop was poor as no winter rain fell. Plague broke out in Bhopal city in July and continued till December, over 3,000 deaths were reported.

1918-19—The rains broke in June but a long break followed causing general anxiety. Rain, however, fell in the end of July and saved the situation. The Kharif crop was fair and Rabi normal. Fodder was sufficient but prices were very high inspite of prohibited export. The influenza epidemic took its heavy toll of lives here as elsewhere in India. It appeared in October 1918 and spread like wild fire. All possible aid was rendered but it meant little in the face of such a scourge. The deaths from this cause were said to be over 50,000.

* The Central India State Census Series, 1921, Vol. II - Bhopal State, Page 4—5, Part I & II—Text and Tables by C. E. Luard.

1919-20—The rainfall was rather below normal and fodder sufficient. Prices remained high. There was an out-break of plague from January to April 1920,

1920-21—The rains were poor and badly distributed and both crops were poor, a general decrease of 10 percent in the out-turn taking place, returns being 25 percent below normal. Prices ruled high and fodder was rather scarce. Public health was good.

Summary—From the account given above it will be seen that during the ten years the crops were good except in 1916 to 1917 and 1918, when excessive rain damaged the autumn crop and in 1920-21 when the rains were poor, public health was affected by plague in 1911-12, 1913-14, 1914-15 and 1917-18. Cholera occured locally only. The severest visitation was the influenza epidemic of 1918, when 50,000 deaths were reported and this was certainly below the truth. Prices were high most of the time. Generally speaking, however, the decade has not, save from influenza, been a bad one."

Luard had been Superintendent of Census Operations on three occasions (1901, 1911 and 1921), apart from writing Gazetteers of the State of the Central India Agency he knew the Central India Agency like the back of his palm, his opinions, therefore, deserve highest respect; yet he is being only too mild when he says that "Generally speaking however, the decade has not, save from influezna, been a bad one." In this dark decade disaster, no fewer than 63,000 persons (and the registration is by no means complete) perished due to the plague and influenza only. There is no record of the deaths caused by cholera which also made its appearance not infrequently. If these are also added to the figure of 63,000 : then the resultant figure would only stagger us, at this length of time. The loss of population had been very great and the figures reflect the long tale of woe, suffering and deaths of the population. It was an ill wind and none seem to have prospered during the period.

The Decade 1921-31

During the decade there was no famine. The population was now beginning to shake off the after-effects of the dark decade and although the crop conditions were far from good, a steady rise in the population is observed. The figure is a little above (for the first time) the growth of the division. C.S. Venkatacher in his Report* gave the following causes.

"The Variation in population is due to two causes, *viz.* natural and migration. To appreciate the increase in population we have to isolate and study how far the excess of births over the deaths and how far migration have contributed to the growth of the population.

The registered vital statistics in the way they are at present collected are far from reliable to be used with confidence in correlating them with the census data. According to the figures supplied the total births were 196,099 and deaths 162,181. The computed population comes to 725,366 as against the actual population of 729,955. This would suggest the State has gained by immigration where as the figures go to show that the state loses by immigration. The number of immigrants found in the State in this Census is 63,781 as against 68,219 of the last Census. The figures for emigrants are incomplete as several provinces have not supplied them. They are, however, available for the United and Central Provinces, the Gwalior State and the States in Central India which practically cover the whole volume of emigration. The total number of emigrants enumerated in these places amounts to 70,256. Not much reliance can, therefore, be placed on the vital statistics. We are, therefore, handicapped in making an accurate estimate due to this important lacuna in our exact information But from general considerations we can safely put down that the increase due to migration is a negligible quantity and that a greater part of the increase is due to natural causes. The latter depend to a very large extent on public health and on the economic prosperity of the people. Though the public health was on the whole satisfactory, the economic and seasonal conditions in

* The Central India State Census Series, Vol. VII—Bhopal State, Part I & II—Report and Tables Volume, by C.S. Venkatchar.

the State received considerable set backs in several years and they have perhaps retarded the full growth of the population during the decade."

From now on the growth is fairly steady and constant.

The Decade 1931-41

The district returned an increase of 9·50%. The increase in the urban areas being considerably higher 36.19% than that in rural areas 2.81%. The health history of the decade was nearly normal and although the prices of commities fell; the growth rate was not affected in any measure. The rate of growth is higher than in Bhopal division, but somewhat less, than that for the State. Some of the adjoining districts show much less increase, like Raisen+4.73 and Hoshangabad + 0.16; whereas Vidisha + 10.85, Rajgarh+9.73 and Shajapur+12.56 are nearer Sehore in the matter of growth.

The 1941-51 Decade

During this decade the growth of population was. generally speaking, somewhat slow. The district, however, returned a growth of 11.29%, which is higher than that for Bhopal division, in fact highest in the division. The decade saw momentous changes and each in its turn contributed to the growth of the population in the district. The decade opened with the grim war conditions. The Nawab of Bhopal had offered to locate a prisoner of war (POW) camp at Bairagarh where the Italian POWs were interned. With the cessastion of hostilities in 1945, followed, a brief post war recor struction period and the State embarked on these.

This was followed by the partition of the country and the independence which come about, in 1947. For a while the civil conditions were much disturbed. The communal riots immediately before and after the Independence caused a lot of Muslims to flee and come over to Bhopal in the hope of better security. After the partition of the country refugees from Pakistan particularly from Sindh came and were settled in the district making good use of accommodation vacated by the Italian POWs. Bairagarh in 1941 was a village with 246 souls. This decade saw its emergence as a town on the periphery of Bhopal. From 1941 onwards, there has been a continuous growth and the district which includes the city of Bhopal, has grown by leaps and bounds. In 1949 the State was given the status of part 'C' State in the Union and the development continued.

The 1951-61 Decade

The present decade shows 44.82% rise in the population, it is the highest for any district in the State, and the reasons are not far to seek. Whereas upto Nov. 1956, the State continued to make progress aided mostly by the financial grants to a part 'C' State; the re-organisation of the States in 1956 accelerated the rate, literally spiralling the growth, On 1st November 1956 Bhopal, a town in Sehore district, found itself to be the capital of the then second biggest (now biggest) State of the country and to it flocked, government servants from Nagpur, (former capital of M. P.), Gwalior and Indore (former capitals of M. B.) and Rewa (former capital of V.P.).

The part 'C' State capital—was already functioning. As the capital settled down, came more traders and business establishments began functioning. The needs of the fast expanding capital gave ample opportunity to the labourers traders and other merchants. Thus a new chapter, the brightest in the history of Bhopal, began.

The same year it had been decided to establish a Heavy Electrical Project at Govindpura, a small village about three miles from Bhopal, for manufacturing heavy electrical goods. The project had been set up by the Government of India in the public sector in collaboration with Associated Electrical Industries of U. K. and has gone into production since 1960. With the setting up of the above plant, came its personnel from different places and this gave encouragement to other ancillary industries. The conditions thus being very congenial the rate of growth has naturally been high. The total population of the

district increased by 233,568 persons out of which Bhopal Town Group, *i.e.* Bairagarh, Bhopal including T. T. Nagar Area and H.E.L. Township at Govindpura alone shows an increase of 120,615 persons. Thus Bhopal Town alone is responsible for 51.64% of the growth of the district. In Bhopal Town Group the population has more than doubled itself, exhibiting an increase of 117.87%. This is indeed a very high rate of growth and excepting Durg Town Group which includes Bhilainagar, and shows an increase of 557.96%, is the highest for towns returning population of 1 lakh or above. In case of Durg however it should be borne in mind that out of 133,230 persons 86,116 are from Bhilainagar.

The Growth in Urban Areas

There are seven towns including Bairagarh and H. E. L. Township — Govindpura which appears for the first time. These are (1) Bhopal (M)—includes the newly established T.T. Nagar area (185,374); (2) Govindpura Industrial Township (HEL) (20,747); (3) Bairagarh (TA) (16,827); (4) Sehore (28,489); (5) Ashta (TA) (8,981); (6) Berasia (TA) (6,238) and (7) Ichhawar (5,136). From the above, numbers 1, 2 and 3 form Bhopal Town Group with a total population of 222,948 persons. The above towns have been classified as follows:—

TABLE

Showing Classification of Towns (1901–1961)

District/Town Group/Town	1961	1951	1941	1931	1921	1911	1901
1	2	3	4	5	6	7	8
Bhopal Town-group	I	I	II	II	III	II	II
(a) Bhopal Municipality	I	I	II	II	III	II	II
(b) Govindpura Industrial Township (HEL)	III	..	..	..	..	..	..
(c) Bairagarh	IV	..	..	..	..	..	..
Sehore	III	III	IV	IV	IV	IV	IV
Ashta	V	V	V	VI	VI	VI	V
Berasia	V	..	VI	VI	VI	VI	VI
Ichhawar	V	..	VI	VI	VI	VI	VI

The growth of population in towns is as below:—

Bhopal

Bhopal Town group appears in 1961 only, therefore, the growth upto 1951 covers the area which has now been designated as Bhopal Muncipality. At the opening of the twentieth century (1901) the city returned a population of 77,023 persons and it was not before the next fifty years that it crossed this mark. The first Census of the city took place in 1881 and between 1881-1891 it increased by +0.27% and this was followed by another increase of 10% in 1891-1901 decade bringing the total of population to 77,023 persons. The growth between 1881 to 1961 has been given in the table on the next page.

During the 1901-11 decade the population fell owing to a severe plague epidemic, the effects of which were mostly confined to the urban area. Plague took a very heavy toll in 1903. The deaths were particularly high because some sections were averse to innoculation. Plague again appeared in 1911-12 and the city recorded 4,430 deaths. The epidemic continued upto 1915. Then came the dreadful influenza of 1918-19 which was a country wide epidemic. As a result

TABLE

Showing Towns and Town-group classified by the population and variation since 1901

Name of the Town	Area and Status	Year	Persons	Decade Variation	Percentage dacade variation
1	2	3	4	5	6
Bhopal (M)		1901	77,023	..	..
		1911	56,204	— 20,819	— 27.03
		1921	45,094	— 11,110	— 19.77
		1931	61,037	+ 15,943	+ 35.26
		1941	75,228	+ 14,191	+ 23.25
		1951	102,333	+ 27,105	+ 36.03
	27.49 sq. miles	1961	185,374	+ 83,041	+ 81.15
	71.20 sq. kms				
Govindpura Industrial	7 .07 sq. miles	1961	20,747	..	..
Township (H.E.L.)	18.31 sq. kms				
Bairagarh	2 .01 sq. miles	1961	16,827	..	..
	5.21 sq. kms Town Area				

of these the populaiion suffered. Further during this period no industries or trading establishments were founded. In his report for India the Census Commissioner J. T. Marten observed* "Bhopal which has neither trade nor industry of importance has declined."

By 1931 the worst was over for Bhopal and the population increased by 15,943 persons or 35.36% in the decade registering an increase of 1,594 persons or nearly 3% per year. This growth has been kept upto 1941. In 1931-41 decade too the rate of growth was 1,419 persons annually or about 2%. In these two decades the growth appears steady. The main reasons for the continued growth being absence of epidemic and helpful conditions.

The 1941-51 decade is an important one, for it sets the pace of growth of the population. The decade registered an increase of 36.03% or 27.105 persons; or 3.6% or 2,710 persons annually. The years 1946 and 1947 marked disturbed communal situation in the country. As the talks for Independence went on, the communal harmony was disturbed everywhere. Bhopal was the second biggest Muslim State, after Hyderabad. Muslims, in the hope of better protection came to Bhopal; many did not return but settled down. Following the partition of the country many refugees also came and settled at Bhopal. The decade also saw the sun-set of the British administration of the princely States and its resultant political changes. Bhopal State became a part 'C' State by 1949 but continued to thrive.

The Flying Fifties and the Galloping Population 1951-61

The population increased by 117.87% or 120,615 persons, or nearly 12% or 12,061 persons annually. This is indeed very high and the reasons, not for to seek. The city is now the capital of the largest State of the country and a major industry *viz.* the Heavy Electricals which has been established here. The lesser causes being a comparatively free decade, from epidemics scarcities coupled with stable conditions.

* Census of India, 1921, Vol. I—Report, Part I, by J.T. Marten, pp. 69.

Bhopal Town Group is a new entity introduced in the 1961 Census. It constitutes Bairagarh, Govindpura (Heavy Electricals Ltd.,) along with the municipal area of Bhopal. These towns exhibit such a continuity and cohesion in so many features, that they have been considered a single unit. The growth in Bhopal municipal area is also of high order being 81.15%. This however includes the growth due to the influx of the government servants and persons connected with the affairs of the State to the city.

Sehore

In the case of Sehore too, the loss of population during 1901-11 decade, could not be made up till 1941. Even in 1941 the population 16,831 was still short by 33 of 1901 figure whereas the loss was heavy in 1911, the 1911-21 decade did not reveal any conspicuous loss. On the contrary it showed a gain of+12.25%. Thereafter the rise has been steady being 36.45% during this decade.

The table below gives the variation of population since 1891.

Year	Persons	Males	Females	Decade Variation	Percentage + Increase —Decrease
1	2	3	4	5	6
1891	16,232	8,647	7,585	..	..
1901	16,864	8,880	7,984	+ 632	+ 3.89
1911	12,105	6,381	5,724	— 4,759	— 28.22
1921	13,588	7,861	5,727	+ 1,483	+ 12.25
1931	13,860	7,367	6,493	+ 272	+ 2.00
1941	16,831	9,108	7,723	+ 2,971	+ 21.44
1951	20,879	11,199	9,680	+ 4,048	+ 24.05
1961	28,489	15,461	13,028	+ 7,610	+ 36.45

Ashta

Ashta had been a town since 1901. It also reveals the same pattern of growth as Sehore. The population of 1901, went down; and that figure was only exceeded by 106 in 1941. During the 1951-61 decade however it shows an increase of 44.06% or 4.4% annually.

The pattern of growth for Ashta has been as follows:—

Year	Persons	Males	Females	Decade Variation	Percentage +Increase —Decrease
1	2	3	4	5	6
1901	5,534	2,785	2,749	..	..
1911	4,855	2,451	2,404	— 679	— 12.27
1921	2,463	1,252	1,211	— 2,392	— 49.27
1931	4,952	2,553	2,399	+ 2,489	+ 101.06
1941	5,640	2,932	2,708	+ 688	+ 13.89
1951	6,234	3,261	2,973	+ 594	+ 10.53
1961	8,981	4,670	4,311	+ 2,747	+ 44.06

Berasia and Ichhawar

The percentage increase in these two towns is indicated below :—

Town	Year	Persons	Males	Females	Decade Variation	Percentage +Increase —Decrease
1	2	3	4	5	6	7
Berasia	1901	4,276	2,205	2,071	..	..
Ichhawar	1901	4,352	2,152	2,200	..	..
Berasia	1911	2,624	1,337	1,287	— 1,652	— 38.63
Ichhawar	1911	3,914	2,059	1,855	— 438	— 10.06
Berasia	1921	2,195	1,127	1,068	— 429	— 16.35
Ichhawar	1921	3,284	1,770	1,514	— 630	— 16.10
Berasia	1931	2,219	1,125	1,094	+ 24	+ 1.09
Ichhawar	1931	3,662	1,904	1,758	+ 378	+ 11.51
Berasia	1941	4,152	2,192	1,960	+ 1,933	+ 87.11
Ichhawar	1941	3,997	2,031	1,966	+ 335	+ 9.15
Berasia	1951	Declassified				
Ichhawar	1951	Declassified				
Berasia	1961	6,238	3,389	2,849	..	..
Ichhawar	196	5,136	2,698	2,438	..	..

The growth pattern is the same for both towns as in the case of Sehore and Ashta. After 1901, there was a continuous loss of population and the same was not made up till 1941, when both the towns were declassified. By 1921, Berasia was reduced to nearly half its 1901 population. In 1931-41 decade Berasia showed considerable growth returning an increase of 87.11%. In the case of Ichhawar however the loss was not so great even in 1911 or the dark decade. All towns in the district started to lose in population after 1901. In the two decades that followed, epidemics like plague and influenza played havoc and the loss of lives was very substantial. By 1921 the population in practically all the towns had sunk to their lowest. It is only thereafter that some growth becomes noticeable. During 1921-31, the conditions were better, so there has been no loss, but the increase is almost marginal. However after 1931 the conditions improved and a steady growth is noticed.

The Growth in Rural Areas

The growth in the rural areas has been to the tune of 77.87% against the divisional and State growth of 64.14% and 80.13% respectively. The pattern conforms to the divisional and State pattern.

The Tahsils, Towns, Villages and Houses

There are seven tahsils in the district *viz.* (1) Sehore, (2) Ashta, (3) Huzur (which includes the city of Bhopal), (4) Berasia, (5) Ichhawar, (6) Budni and (7) Nasrullaganj.

Sehore

The tahsil has a total area of 612 sq. miles and lies towards West of Bhopal. The district headquarters town is Sehore.

The following details regarding the tahsils are of some interest.

Name of District/ Tahsil	Area* in sq. miles	Population	Density per sq. mile	Total villages	Towns	Location of Headquarters
1	2	3	4	5	6	7
Sehore District	3,613	754,684	209	1,706	7	Sehore
Sehore Tahsil	612	124,148	203	302	1	Sehore
Ashta Tahsil	562	108,245	193	308	1	Ashta
Huzur Tahsil	517	291,028	563	303	3	Bhopal
Berasia Tahsil	554	80,687	146	308	1	Berasia
Ichhawar Tahsil	429	46,049	107	159	1	Ichhawar
Budni Tahsil	416	50,828	122	157	..	Budni
Nasrullaganj Tahsil	523	53,699	103	169	..	Nasrullaganj

In area Sehore is the biggest tahsil and Budni the smallest. In population Huzur tahsil is the biggest and also most densely populated (563 per sq. mile). This however should not suggest heavy concentration of population in rural areas, because, the figure of 563 per sq. mile is mostly due to the urban areas in Bhopal Town Group. The rural areas however return only 142 persons per sq. mile. The details are:—

Huzur (Urban)—6,096 per sq. mile

Huzur (Rural)—142 per sq. mile.

Thus if we leave Huzur tahsil for its figures include Bhopal Town Group, and hence does not convey an accurate idea of density of population, then Sehore followed by Ashta appear more densely populated. Ashta & Berasia tahsils have the highest number of villages (308) while Budni the least. Also two tahsils *viz.* Budni and Nasrullaganj have no towns in them. They are therefore entirely rural areas.

* Area figures given above are those supplied by the Director of Land Records—1962-63 and differ only slightly from those published in Census of India 1961, Vol. VIII Madhya Pradesh, Part II-A General Population Tables.

The Size of Villages

The inset table indicates the size of the village in sq. miles and acres.

Table—showing area per village—1961 (area based on revised area figures furnished by Director of Land Records).

Division/ District/ Tahsil	Area of a Village in sq. miles	Acres	Population per inhabited village
1	2	3	4
Bhopal Division	2.08	1,331	393
Sehore District	2.12	1,357	485
Berasia Tahsil	1.80	1,152	287
Sehore Tahsil	2.03	1,299	431
Huzur Tahsil	1.71	1,094	1,111
Ashta Tahsil	1.82	1,165	392
Ichhawar Tahsil	2.70	1,728	334
Nasrullaganj Tahsil	3.09	1,978	327
Budni Tahsil	2.65	1,696	343

The table reveals that in area a village in Nasrullaganj is the biggest and in Huzur tahsil it is the smallest. The area of a village of the district is more or less the same as that for one in the division. A village in the district however sustains greater population than that in the division or the State. Although on an average the population is less than 500 persons per village yet when compared to the division or the State this is higher. In Huzur tahsil the population per village is the highest being 1,111 persons.

The Population in Villages 1951-61

The table below gives the percentage of villages and population during the decade.

Table showing percentage of Villages and Population by class of villages 1951-61

		Less than 500		500-999		1,000-1,999	
District	Year	Percentage of No. of villages in this class to total No. of villages	Percentage of population in this class to total population.	Percentage of No. of villages in this class to total No. of villages	Percentage of Population in this class to total population	Percentage of No. of villages in this class to tolal No. of villages	Percentage of population in this class to total population
1	2	3	4	5	6	7	8
Sehore	1961	83.62	54.38	12.78	27.53	2.96	12.59
	1951	89.09	59.91	8.48	21.69	1.91	10.26

2,000-4,999		5,000-5,999		10,000 and above	
Percentage of No. of villages in this class to total No. of villages	Percentage of population in this class to total population	Percentage of No. of villages in this class to total No. of villages	Percentage of population in this class to total population	Percentage of No. of villages in this class to total No. of villages	Percentage of population in this class to total population
9	10	11	12	13	14
0.64	5.50	..	..	..	..
0.46	4.61	..	..	0.06	3.53

From the above it follows that the percentage of villages with less than 500 persons has gone down, since these went into a higher category 500–999 which shows an increase of 4·30%. It is in the above category that the change has been most marked; also the villages in this category 12.78% contribute 27.53% of the population. A natural result of the growth of the population is that the villages have become more populous. In 1951, Bairagarh with a population of

over 10,000 (pop. 13,816) was treated as a village and hence the return under columns 13 and 14.

The Houses :

"The huts of agriculture classes are small mud dwellings with bamboo doors, the roofs being tiled, thatched with grass or covered with mud. The house is usually formed with a court-yard for the cattle," wrote C. E. Luard in the State Gazetteer, 1907. Although the pattern of houses remains unchanged, their designs are now different. The houses are still made of mud, mud and stones with wooden doors, mostly of mango, babul or sometimes sheesham wood. In a great many houses local tiles would be seen; but in few of them Mangalore tiles may also be seen. Villages nearer road side show more houses of bricks and mortar with roofs of local or Mangalore tiles or of galvanised iron sheets, sometimes covered with tiles. Pacca houses are few and mainly confined to urban areas or bigger towns. A roof of grass or covered with chhola (*Butea frondosa*) leaves may still be seen among the poorer types. Houses of pacca bricks with cement are found mainly in the urban areas. In Bhopal city, where stone is easily available, houses are made of stones. In the Government residential colony of T. T. Nagar, the houses are mainly of stones.

The Occupied Houses 1951–61

The table below gives the decade variation of the occupied houses.

District/Tahsil	Occupied Houses 1951	Occupied Houses 1961	Decade Variation +Increase	Percentage Variation +Increase
1	2	3	4	5
Sehore District	105,920	146,299	+40,379	+38.12
Berasia Tahsil	13,596	16,284	+ 2,688	+19.77
Sehore Tahsil	20,126	23,199	+ 3,073	+15.27
Huzur Tahsil	31,722	55,623	+23,901	+75.35
Ashta Tahsil	17,608	21,240	+ 3,632	+20.63
Ichhawar Tahsil	7,292	8,219	+ 927	+12.71
Nasrullaganj Tahsil	7,348	11,409	+ 4,061	+55.27
Budni Tahsil	8,228	10,325	+ 2,097	+25.49

Whereas the population increased by 44.82% the increase in the number of occupied houses is 38.12% which is fairly good. It also emphasises that during the decade pressure per occupied house has increased. Huzur tahsil shows the highest rate of increase in the number of occupied houses. This is followed by Nasrullaganj tahsil. Among the tahsils Ichhawar has returned the least variation. The tremendous increase in Bhopal city is accounted for thus :

Unit	Occupied Houses 1951	Occupied Houses 1961	Decade Variation +Increase	Percentage Variation +Increase	Population Variation +Increase
1	2	3	4	5	6
1 Bhopal Town Group	20,875	42,289	+21,414	+ 102.58	+117.87
Bhopal City	20,366	33,117	+12,751	+ 62.61	+ 81.15
2 Bairagarh Headquarters, Gandhinagar, Bairagarh Kalan	107	3,305	+ 3,198	+2,988.79	
3 Govindpura HEL Township which includes	242	5,867	+ 5,625	+2,324.38	
1 Piplani Chamaran	66				
2 Siddiqpura	4				
3 Gadia	35				
4 Govindpura	1				
5 Kalwa Kalan	26				
6 Barkhera Pathari	110				

From the above it is obvious that congestion in the town group has increased. In Bhopal city where the population increased by 81.15% the increase in the number of the houses is to the tune of 62.61%. The table below gives the comparative position tahsil wise of persons per occupied house in 1951 and 1961.

District/Tahsil	Persons per occupied house 1951	Persons per occupied house 1961	Variation
1	2	3	4
Sehore District	4.92	5.16	+0.24
Berasia Tahsil	4.83	4.95	+0.12
Sehore Tahsil	4.84	5.35	+0.51
Huzur Tahsil	5.36	5.23	—0.13
Ashta Tahsil	4.72	5.10	+0.38
Ichhawar Tahsil	4.78	5.60	+0.82
Nasrullaganj Tahsil	4.46	4.71	+0.25
Budni Tahsil	4.54	4.92	+0.38

Whereas in all tahsils the congestion in each house has increased, the returns from Huzur indicate a relief in congestion. This however appears only illusory. In 1951 the number of houses for Bairagarh has been shown at 107 only as against a population of 13,816 persons. Apparently this is inaccurate. At this length of time it is not possible to establish the number of houses that might have existed. If however we make a projection as per 1951 returns (5.36 persons per occupied house, the number of houses should have been 2,577). On this projected figure the present density would be 5.36 per house. This indicates no change in the 1951 position.

Bhopal Town Group

In Bhopal Town Group there are 5.27 persons per house and that during the decade the congestion has increased by 0.37% persons per house. As compared to some other cities the position is :—

Name of the City	Persons per occupied house
1	2
1 Indore	9.20
2 Jabalpur	5.01
3 Gwalior	8.09
4 Bhopal	5.27
5 Ujjain	7.86

The congetion per house in Bhopal Town Group is therefore not as great as that in Indore, Gwalior and Ujjain although it is slightly more than that in Jabalpur.

Households per Sq. Mile

The district returns a total of 44 households per sq. mile; the break-up for rural and urban areas being 28 and 1,545 respectively. In terms of the State, division and other city districts the comparable position is indicated below :—

State/Division District	Density of Household per Sq. Mile		
	Total	Rural	Urban
1	2	3	4
Madhya Pradesh	39	33	1,372
Bhopal Division	36	30	1,154
Sehore District	44	28	1,545
Indore District	107	41	3,464
Jabalpur District	72	47	1,141
Gwalior District	62	30	2,401
Ujjain District	57	38	3,947

Thus the district has fewer households per sq. mile when compared to other city districts of its category.

The Density in Rural and Urban Areas

The table indicates the number of persons per sq. mile in the rural and urban areas of each tahsil.

District/Tahsil	Persons per sq. mile			Urban area in sq. mile
	Total	Rural	Urban	
1	2	3	4	5
Sehore District	209	135	7,115	38.2
Berasia Tahsil	147	135	27,122	0.2
Sehore Tahsil	203	157	27,132	1.1
Huzur Tahsil	563	142	6,096	36.6
Bhopal (M)	6,743	..	6,743	27.49
Govindpura (HEL) Town-ship	2,935	..	2,935	7.07
Bairagarh (TA)	8,372	..	8,372	2,01
Ashta Tahsil	193	177	40,823	0.22
Ichhawar Tahsil	107	95	42,800	0.12
Nasrullaganj Tahsil	103	103	..	..
Budni Tahsil	122	122	..	..

The Rural Areas

Among the tahsils Ashta with 177 persons to a sq. mile represents the highest concentration of population and Ichhawar the least. For rural areas the highest and lowest figures in the State are Sakti tahsil (Bilaspur district) 524 and Bharatpur tahsil (Sarguja district) 33 persons.

The Urban Areas

The above statistics reveal that Ichhawar is most densely populated urban area followed by Ashta, Sehore and Berasia and Bhopal Town Group. This is not the true position because the area figures are not accurate. In some cases the municipalities return only such area as is on their books, as municipal area and in others their figures are not up-to-date. In Bhopal city specially in old township the congestion is considerable.

When compared to other important cities the congestion in Bhopal is as follows :

Name of City	Persons per sq. mile
1	2
Indore	18,318
Jabalpur (Town Group)	5,487
Gwalior	12,467
Bhopal (Town Group)	6,096
Ujjain	21,357

Thus among cities of its class, Ujjain is most congested and is followed by Indore, Gwalior, Bhopal and Jabalpur in that order.

The Proportion of Sexes

The general tendency in the State in the last sixty years, reveals, that the proportion of females is declining in every decade.

The district generally follows the same pattern. The changes in the proportion of sexes has been as follows :

District	Total Rural Urban	Females per thousand males						
		1961	1951	1941	1931	1921	1911	1901
1	2	3	4	5	6	7	8	9
Sehore	Total	864	910	904	917	919	952	N.A.
	Rural	911	917	914	927	935	957	N.A.
	Urban	787	890	872	877	848	931	957

Bhopal division also returns less females than males. Eversince 1911 the number of females has steadily been going down. This is a general characteristic of the region. In this part of the State as one goes north the proportion of females becomes less, sinking to 839 females per one thousand males in Morena district. The decline in the proportion of the females has been the highest (46) during the last decade, in which the decline in the urban areas was 103. This is mainly due to the coming up of the HEL at Govindpura and the shifting of the capital at Bhopal. In the Industrial areas the number of females are generally less. The same observation also holds good for urban areas, also, though in some what limited way. In the present case the two factors combine and the number of females falls low. The proportion of females for Bhopal and other cities is given below :

Name of the City	Proportion of females per one thousand males
1	2
Indore	851
Jabalpur Town Group	809
Gwalior	853
Bhopal Town Group	771
Ujjain	872

As compared to other cities Bhopal has returned a very low proportion of females. If we take the cities where major industries have been established recently, (for in such places the proportion of females is very low) then the position is :—

	Unit	Females per 1,000 males
	1	2
Jabalpur	Cantonment	578
	Khamaria Ordinance Factory	814
	Municipal Corporation	846
Bhopal		
	Municipality	807
	Bairagarh	897
	HEL Govindpura	439
Durg	Town Group	594
	Bhilai Nagar Industrial Township	486
	Durg Municipality	839

The pattern is obvious. In the Industrial areas the females are very few and Govindpura with 439 represents the lowest sex ratio.

Marital Status

All persons in the 0–9 age-group have been tabulated as never married. Whereas in the case of males this appears sufficiently accurate, as is revealed by only 7.76% married males in the 10–14 age-group, but in the case of females with 35.35% married in the 10–14 age-group, the possibility of marriage in later part of the

0–9 age-group cannot be entirely ruled out. The table below gives the details of marital status :—

Table—showing Marital Status

Age Group	Total Population		Never Married		Married		Widowed		Divorced or separated		Unspecified	
	M	F	M	F	M	F	M	F	M	F	M	F
1	2	3	4	5	6	7	8	9	10	11	12	13
All Ages	100	100	49.58	39.77	46.14	49.61	3.98	10.36	0.30	0.25	Neg.	0.01
0–9	100	100	100	100	..	..	..	..	..	..	..	..
10–14	100	100	92.13	64.47	7.76	35.35	0.04	0.13	0.07	0.05	..	..
15–19	100	100	68.14	15.66	31.49	83.64	0.27	0.46	0.10	0.24	..	..
20–24	100	100	36.04	3.13	62.79	95.46	0.89	1.07	0.28	0.34	..	..
25–29	100	100	14.93	0.99	82.41	96.32	1.97	2.32	0.69	0.37	..	..
30–34	100	100	6.46	0.39	89.59	92.98	3.28	6.07	0.67	0.56	..	..
35–39	100	100	4.20	0.26	90.59	88.49	4.52	10.78	0.69	0.47	..	..
40–44	100	100	3.33	0.24	88.64	76.48	7.40	22.56	0.63	0.72	..	..
45–49	100	100	2.56	0.20	86.75	65.89	10.08	33.44	0.61	0.47	..	..
50–54	100	100	2.28	0.17	82.21	48.83	15.00	50.55	0.51	0.45	..	..
55–59	100	100	1.94	0.17	79.47	44.37	18.15	55.01	0.44	0.45	..	..
60–64	100	100	1.70	0.14	74.13	23.26	23.81	76.10	0.36	0.50	..	..
65–69	100	100	1.69	0.11	69.90	20.69	28.17	78.99	0.24	0.21	..	..
70+	100	100	1.77	0.20	56.97	10.71	40.97	88.89	0.29	0.20	..	..
A.N.S.	100	100	79.44	67.66	17.74	10.21	1.61	1.70	0.40	...	0.81	20.43

Some of the salient features of the table are. In 15–19 age-group 83.64% females are married and only 15.66% never married. This appears to be the age-group for marriage for females for among the males less than one third 31.49% only are married. It is however in the 20–24, 25–29 and 30–34 age-groups where over 90% females are married and even among the males the percentage is sufficiently high being 62.79%, 82-41% and 90.59% respectively. In these age-groups there are few widows or widowers except in the age-group 30–34 where 3.28% males and 6.07% females belong to that category. From the 35 and above ages the percentage of widowers and widows begin to rise with 4.52% and 10.78% respectively.

In the 35–39 age-group the percentage of married males is 90.59% the highest for any age-group and remains over 80% upto 50–54 but in the case of females it falls from 88.49% for 35–39 to 76.48% for 40–44 and goes down further to 65.89% for 45–49 and 48.83% for 50–54 ages; also in the last age-group the percentage of widows shoots upto 50.55% and widowers to 15.00%. The same pattern is noticeable for 55–59, 60–64 and 65–69 age-groups; the percentage of married males and females declining. Along with this is a corresponding increase in the percentage of widows 78.99% and widowers 28.17% in the 65–69 age-group. Only 0.30% males and 0.25% females live as divorced or separated and in no age-group is their percentage more than one. Whereas one male out of every twenty five males is a widower, the number of widows is larger, for one out of every ten women is a widow and five are married.

The Age Tables

The age structure of the population in the district and comparable data for the State is presented in the table given below :

Age Group	Percentage of population in the age-group						Sex Ratio	
	Sehore District			State				
	P	M	F	P	M	F	Sehore District	State
1	2	3	4	5	6	7	8	9
All Ages	100.0	53.6	46.4	100.0	51.2	48.8	864	953
0–4	16.4	8.3	8.1	16.4	8.2	8.2	977	996
5–9	13.9	7.2	6.7	14.3	7.3	7.0	937	966
10–14	9.6	5.2	4.4	10.1	5.4	4.7	823	847
0–14	39.9	20.7	19.2	40.8	20.9	19.9	924	947
15–19	7.9	4.2	3.7	7.9	4.1	3.8	875	929
20–24	10.2	5 4	4.8	8.6	4.2	4.4	877	1,069
25–29	9.2	5.0	4.2	8.8	4.5	4.3	850	939
30–34	7.6	4.2	3.4	7.4	3.9	3.5	802	897
15–34	34.9	18.8	16.1	32.7	16.7	16.0	853	959
35–39	5.9	3.4	2.5	5.8	3.1	2.7	749	878
40–44	5.3	3.0	2.3	5.2	2.7	2.5	800	950
45–49	3.7	2.1	1.6	4.2	2.2	2.0	710	886
50–54	3.7	2.0	1.7	4.0	2.1	1.9	802	908
55–59	1.7	1.0	0.7	2.1	1.1	1.0	790	903
35–59	20.3	11.5	8.8	21.3	11.2	10.1	768	905
60–64	2.3	1.3	1.0	2.4	1 2	1.2	843	1,080
65–69	0.8	0 4	0.4	0.9	0.4	0.5	838	1,157
70+	1.7	0 8	0.9	1.8	0.7	1.1	1,025	1,373
60+	4.8	2.5	2.3	5.1	2.3	2.8	902	1,190
Age not stated	0.1	0.1	Neg.	0.1	0.1	Neg.	948	898

The data is based on ungraduated ages. (The ages have not been smoothed). The quin-quennial age-grouping adopted, reduces the distorting effects on the age-heapings at multiples of 5, hence it would be safer to consider the discussion to broader age-groups of 0–14, 15–34, 35–59 and 60+, which correspond to the childhood, youth, middle age and old age.

The table reveals a similar pattern for the district and State with nearly 2 out of every 5 persons 39.9% in the district being less than 15 years of age and similarly one out of 3 persons being in the 15–34 age-group. It is however the children 0–14 years that constitutes the bulk of population.

One out of every five persons is in the age group 35–59. The population is generally youthful as is obvious from the fact 74.8% or nearly three-fourths of it is under 34 years of age.

Changes in Age Distribution—1951–61

These changes indicate the trend of growth-whereas 1951 figures are based on a 10% random sample the 1961 figures are on the total count. In making this comparison we are assuming that 10% sample represents the whole, with this limitation the comparison is offered.

Table—showing percentage distribution of 100 persons in 1951–1961 into broad age-groups

Age group	1951			1961		
	P	M	F	P	M	F
1	2	3	4	5	6	7
0–14	37.7	19.4	18.3	39.9	20.7	19.2
15–34	34.6	17.8	16.8	34.9	18.8	16.1
35–64	25.0	13.8	11.2	22.6	12.8	9.8
65+	2.6	1.3	1.3	2.5	1.2	1.3
A.N.S.	0.1	Neg.	0.1	0.1	0.1	Neg.

The table reveals that the proportion of children 0–14 age-group has increased by 2.2% and that of young persons 15–34 by 0.3%. As against this the proportion of middle aged persons has decreased by 2.4%. In the other ages the composition has remained practically unchanged. The increase in 0–14 age-group suggests more births—and survival after births and migration. Both factors appear to hold good in the case of Bhopal. The increase in 15–34 age-group is accounted for by a favourable balance of migration consequent to the industrialisation and raised political set up of Bhopal.

Migration

The table below, for the district reveals that 59.26% of the population was born and enumerated in the place of enumeration. This emphasises the immobility of a great portion of the population. Another 17.14% of the population, is that of very limited mobility; that is they have been born and also enumerated within the district itself. Thus we have over three-fourths of the population 76 40% who have moved within the district only. The details are :—

Table—showing the places of birth of the district population

Birth Place	Population	Percentage
1	2	3
Sehore district Total Population	754,684	100.00
Born in place of enumeration	447,211	59.26
Born elsewhere in the district of enumeration	129,342	17.14
Born in other districts of the State	96,485	12.78
Born in contiguous districts	48,524	6.43
1 Hoshangabad	14,070	1.86
2 Dewas	7,554	1.00
3 Raisen	7,214	0.96
4 Shajapur	6,835	0.91
5 Vidisha	5,992	0.79
6 Rajgarh	4,983	0.66

China	759	0.10
Nepal		
Singapore–Malaya	8	
Elsewhere	8	
Africa	9	
America	3	
Australia	1	
Europe	51	
Unclassifiable	41	

As many as 48,524 persons or 6.43% are born in the seven contiguous districts of Sehore. Out of these 14,070 persons are from Hoshangabad and this is followed by those born in Dewas (7,554) and Raisen (7,214). Almost an equal number 47,961 are born in other districts of the State. These figures are further analysed under Bhopal city. As many as 62,705 or 8.31% of the population came from other States in the country. As far as those born outside India are concerned, 18,900 persons or 2.51% of the population has been returned under this category. Out of these 17,946 or 2.38% of the total population, were born in Pakistan. For some other countries the figures are : Nepal 759, Burma 54, Afganistan 47, United Kingdom 44 and Ceylon 11.

Bhopal Town Group

The migration statistics of Bhopal Town Group give an interesting indication regarding the movement of the population to this city.

Birth Place—Bhopal Town Group

Birth Place 1	Population 2	Percentage 3
Total Population	222,948	100.0
Born in India	205,912	92.36
Within Madhya Pradesh	154,315	69.22
Born in place of enumeration	105,386	47.27
Born elsewhere in the district of enumeration	8,244	3.70
Born in other districts of the State	40,685	18.25
Born in Contiguous districts	14,829	6.65
Indore	3,120	1.40

Australia	1	..
Unclassifiable	36	0 02

The table reveals, the only 47.27% have been born and enumerated in the city as compared to 59.26% in the district and only 50.97% were born in the district of enumeration as compared to 76.40% for the district. This therefore suggests that the city has received 49.03% of the population from places outside the district and 18.25% of it consists of persons born within the State. The highest number of persons to the city came from Hoshangabad 4,086, followed by Indore 3,120. Persons born in other districts (non-adjoining ones) come of the State constituting 11.60% of the city's population. Nearly one-fourth of the population 23.14% is born in other States. The highest number 18,023 or 8.08% hails from Uttar Pradesh followed by Maharashtra 15,673 or 7.03% Rajasthan 3,943 or 1.77% Punjab 3,213 or 1.44% and Madras 2,677 or 1.20%. Figures for other States are well below 1%.

Comparable figures for 1951 are given in the inset table below. The high rate of migrants who have come to the city would be obvious from the following table, which is for the district.

Table-showing the population variation and percentage variation of the persons born in contiguous States in 1951 and 1961 and enumerated in Sehore District of Madhya Pradesh

S. N.	Name of the State	Population 1951	Population 1961	Variation	Percentage Variation
1	2	3	4	5	6
1	Andhra Pradesh	51	1,467	+ 1,416	+ 2,776.5
2	Maharashtra	1,046	17,028	+ 15,982	+ 1,527.9
3	Uttar Pradesh	4,204	22,902	+ 18,698	+ 444.8
4	Rajasthan	2,831	7,223	+ 4,392	+ 155.1
5	Kerala	..	1,775	+ 1,775	+ 100.0
6	Madras	116	2,824	+ 2,708	+ 2,334.5
7	Punjab	601	3,866	+ 3,265	+ 543.3
8	Born out side India Pakistan	14,875	17,946	+ 3,071	+ 20.6

The main reasons appear to be the establishment of Heavy Electricals Ltd. at Govindpura, which attracted a lot of technicians and engineers, more particularly from the Punjab and southern states, the shifting of the capital from Nagpur on 1-11-56, which accounts for the high number of persons born in Maharashtra ; eight districts of which were formerly in old Madhya Pradesh and the growth of subsidiary industries coupled with the expansion of trade as it grew to feed the growing capital. The increase is highest in the case of persons born in Andhra Pradesh 2,776.5% and Madras 2,334.5%. The inset table presents the duration of migrants :—

Total Migrants			Duration of Residence in the Town: Less than one year		1-5 years		6-10 years		11-15 years		16 years and over		Period not Stated	
P	M	F	M	F	M	F	M	F	M	F	M	F	M	F
1	2	3	4	5	6	7	8	9	10	11	12	13	14	15
117,562	68,872	48,690	16,409	8,352	31,882	20,794	6,577	6,173	7,995	7,156	4,106	4,387	1,903	1,828
			24,761		52,676		12,750		15,151		8,493		3,731	

From the above it follows that over 21 06% have come to Bhopal, only within the last year. Another striking feature is the sexual imbalance-for in this group there are only 509 females per 1,000 males. This category of immigrants therefore, consists of those who came in search of employment or business and came alone, leaving their familes behind. As many as 44.81% came to Bhopal within 1 to 5 years and these are mostly the government servants, who also have not yet been able to settle down, as appears obvious from the sexual imbalance. This further reveals that those who migrate take quite some time to settle down and even five years are not enough. It is only among those migrants, who have been here for six years or more that there is some semblance of sexual parity.

Similar data of migrants from Pakistan is presented in the following table: Migrants born in Pakistan.

Total			Duration of Residence in Bhopal: Lass than one year		1-5 years		6-10 years		11-15 years		16 years and over		Period not stated	
P	M	F	M	F	M	F	M	F	M	F	M	F	M	F
1	2	3	4	5	6	7	8	9	10	11	12	13	14	15
16,108	8,940	7,168	632	403	2,106	1,416	1,931	1,588	4,117	3,589	72	56	82	116
			1,035		3,522		3,519		7,706		128		198	

A great number of migrants came during the period, immediately before or after the partition of the country. The town has continued to receive migrants from Pakistan much after partition, for as many as 47.84%, came within the last ten years *i.e.* (1950–59). There were very few migrants prior to 16 years before March 61.

Regarding the persons born in other countries Bhopal returns very few only 724 from Nepal, 50 from Burma and 44 from United Kingdom. The U.K. Nationals are mostly in the HEL as advisers.

Religion

Hindus form the bulk of the population of the district, constituting 615,510 persons or 81.56%. This is followed by the Muslims with 126,364 persons or 16.74%. Thus the two communities, together constitute 98.30% of the population in the district. The religionwise population in the district for the two decades is given in the inset table below :

Table—showing religionwise population (1951—1961)—Sehore District

Religion	1951		1961		Decade Variation + Increase — Decrease	
	Population	Percentage	Population	Percentage	Population	Percentage
1	2	3	4	5	6	7
All Religions	521,116	100.00	754,684	100.00	+ 233,568	+ 44.82
Hindus	414,887	79.62	615,510	81.56	+ 200,623	+ 48.36
Muslims	101,633	19.50	126,364	16.74	+ 24,731	+ 24.33
Sikhs	318	0.06	2,850	0.38	+ 2,532	+ 796.23
Jains	3,543	0.68	5,997	0.79	+ 2,454	+ 69.26
Christians	672	0.13	2,466	0.33	+ 1,794	+ 266.96
Buddhists	3	Neg.	1,437	0.19	+ 1,434	+ 47,800.00
Others	60	0.01	60	0.01		

The religious composition of the district has changed slightly in as much Hindus show an increase of 1.94% over the 1951 proportion and the Muslims who in 1951 formed nearly one-fifth 19.50% of the population are now about one-sixth 16.74%. There has been some increase in all religions notable ones being Sikhs +796.23%, Christians 266.96%and Buddhists +47,800.00%. Their total, however, is not great.

Religion Returns:Rural/Urban Areas

The following table presents the rural/urban break-up of the population :—

Table—showing religions returns—rural & urban areas-Sehore District

Year	TRU	Total Population	Hindus	Muslims	Jains	Sikhs	Christians	Buddhists	Others
1		3	4	5	6	7	8	9	10
1961	T	100.00	81.56	16.74	0.79	0.38	0.33	0.19	0 01
	R	100.00	92.58	7.11	0.27	0.02	0.02	Neg.	Neg.
	U	100.00	61.98	33.86	1.73	1.01	0.88	0.52	0.02
1951	T	100.00	79.62	19.50	0.68	0.06	0.13	Neg.	0.01
	R	100.00	92.01	7.65	0.31	0.01	0.02	..	..
	U	100.00	42.13	55.35	1.79	0.21	0.47	Neg.	0.05

Table—showing distribution of 100 persons professing different religions

Year	TRU	Hindus	Muslims	Jains	Sikhs	Christians	Buddhists	Others
1	2	3	4	5	6	7	8	9
1951	T	100.00	100.00	100.00	100.00	100.00	100.00	100.00
	R	86.86	29.50	34.52	15.09	9.52	..	..
	U	13.14	70.50	65.48	84.91	90.48	100.00	100.00
1961	T	100.00	100.00	100.00	100 00	100.00	100.00	100.00
	R	72.63	27.17	21.64	4.07	3.16	0.70	3.33
	U	27.37	72.83	78.36	95.93	96.84	99.30	96,67

Table—showing Religionwise Variation between the decade

Religion	1951—1961 Rural	1951—1961 Urban
1	2	3
Hindus	+ 24.06	+ 190.59
Muslims	+ 14.54	+ 28.43
Sikhs	+ 141.67	+ 912.59
Jains	+ 6.13	+ 102.54
Christians	+ 21.88	+ 292.76
Buddhists	+ 100.00	+ 50,800.00

Where as the Hindus do not show any change for the rural areas, in the urban areas they show proportionate increase of 19.85%. With the Muslims it is the other way round : their proportion has been reduced to 33.86% in 1961 as compared to 55.35% in 1951.

Literacy

The district has returned 21.48% as literates. This is higher than the figure for the division of 16.60% or 17.13% for the State ; yet this is lower than the India figure of 24%. The figure for Bhopal Town Group is 43.59% details being :

Unit	Percentage
Bhopal Town Group	43.59
Bhopal City (M)	43.16
HEL Govindpura	43.12
Bairagarh	48.96

The comparable figures for other cities are :

Indore	50.68
Jabalpur	50.52
Gwalior	42.43
Ujjain	46.94

There has been substantial progress in literacy during the last decade as is noticed from the table presented below:

Table—showing progress of literacy—Sehore District

District/ Tahsil	Total Population 1951 P	1951 M	1951 F	1961 P	1961 M	1961 F	Percentage Increase
1	2	3	4	5	6	7	8
Sehore District	8.78	13.17	3.95	21.48	30.27	11.30	254.23
Berasia Tahsil	3.31	5 69	0.64	10.86	17.98	2.83	303.45
Sehore Tahsil	6.62	10.87	1.89	14.81	22.81	5.77	185.08
Huzur Tahsil	16.18	22.08	9.59	35.78	45.06	24.14	285.19
Ashta Tahsil	4.02	5.19	0.63	10.55	18.13	2.54	241.60
Ichhawar Tahsil	4.84	8.28	1.01	10.36	17.12	2.96	183.03
Nasrullaganj Tahsil	5.90	10.55	0.93	11.80	19.71	3.20	227.78
Budni Tahsil	7.16	12.44	1.42	16.27	26.85	4.65	209.70
Bhopal Town Group	21.85	29.19	13.62	43.59	52.98	31.43	277.69

The increase has been nearly two and half times for the district in general. In Berasia tahsil the literacy figure has gone up by more than three times. Whereas 3 out of 10 males are literates in the district ; among the females only 11 out of 100 are literates. When one considers the high percentage of literacy in Huzur tahsil (which again is mainly due to Bhopal Town group) the low percentage of literates in other tahsils, specially among the females stands out, in marked contrast. The female figures of 2.83% literates in Berasia tahsil, 2.54% in Ashta, 2.96% in Ichhawar are indeed very low. Although there has been substantial progress in the literacy yet much still remains to be done.

Out of a 100 literate persons the spread out among tahsils is presented below :

Table—showing 100 literates

District/Tahsil	Persons	
	1951	1961
1	2	3
Sehore district	100.00	100.00
Berasia Tahsil	4.74	5.41
Sehore Tahsil	14.10	11.34
Huzur Tahsil	60.11	64.25
Ashta Tahsil	7.31	7.05
Ichhawar Tahsil	3.68	2.94
Nasrullaganj Tahsil	4.22	3.91
Budni Tahsil	5.84	5.10
Bhopal Town Group	56.24	59.97

From the table it is obvious that but for high percentage of literates in Bhopal town group, the literacy figures for the district would be much less.

Mother Tongue

The district has returned as many as 73 languages. Of these there are 12 languages with speakers of over 1,000 persons. In 1951 thirty eight languages including dialects of Hindi and Rajasthani were returned. The progress in the number of speakers of languages returning more than 1,000 speakers is indicated below :

Table—showing Mother Tongues—Sehore District (1951—1961)

Mother Tongue Languages		Total Speakers		Decade Variation	+ Increase — Decrease
		1951	1961		
1		2	3	4	5
Total Speakers		521,116	754,684	+ 233,568	+ 44.82
1	Hindi	379,743	574,290	+ 194,547	+ 51.23
2	Urdu	111,905	107,592	— 4,313	— 3.85
3	Gujarati	337	3,353	+ 3,016	+ 894.96
4	Gondi	3,878	3,799	— 79	— 2.04
5	Bengali	430	1,852	+ 1,422	+ 330.70
6	Malayalam	29	1,765	+ 1,736	+ 5,986.21
7	Marathi	754	15,765	+ 15,011	+ 1,990.85
8	Punjabi	1,561	7,082	+ 5,521	+ 353.68
9	Tamil	55	2,898	+ 2,843	+ 5,169.09
10	Telugu	5	1,710	+ 1,705	+ 34,100.00
11	Sindhi	13,367	23,870	+ 10,503	+ 78.57
12	Marwari	1,353	2,551	+ 1,198	+ 88.54

The returns reveal that Hindi is the mother tongue of a little over three-fourths of the population and that during the decade the number of Hindi speakers has gone up by 51.23% which also suggests that a great proportion of the population that came to Bhopal was Hindi speaking. Urdu has shown a decline of 3.85%. The speakers of Gujarati, Bengali and Punjabi have increased nine, three and three times respectively. Among languages showing phenomenal rise in speakers are : Malayalam + 5,986.21% rocketting from 29 speakers to 1,765, Marathi +1,990.85% soaring from 754 speakers to 15,765, Tamil + 5,169.09% shooting from 55 speakers to 2,898 and Telugu + 34.100.00% again spiralling from 5 speakers in 1951 to 1,710 in 1961. A study of the returns of these languages for Bhopal Town Group reveals an interesting pattern. The table below presents the language returns for the Bhopal Town Group *vis-a-vis* the district.

Table—showing Languages returned as Mother Tongue in the District and Bhopal Town Group

Languages		Total speakers in District Persons	Total Speakers in Bhopal Town Group			Percentage to total persons (col. 2)
			Persons	Males	Females	
1		2	3	4	5	6
1	Bengali	1,852	1,800	1,393	407	97.19
2	Gujarati	3,353	2,921	2,427	494	87.12
3	Hindi	574,290	88,030	48,333	39,697	15.33
4	Malayalam	1,765	1,700	1,288	412	96.32
5	Marathi	15,765	14,679	7,780	6,899	93.11
6	Marwari	2,551	1,014	786	228	39.75
7	Punjabi	7,082	6,600	4,923	1,677	93.19
8	Sindhi	23,870	22,377	12,184	10,193	93.75
9	Tamil	2,898	2,825	1,890	935	97.48
10	Telugu	1,710	1,664	1,077	587	97.31
11	Urdu	107,592	73,051	38,351	34,700	67.90

Out of the twelve languages of 1,000 speakers and above speakers of ten (Hindi and Gondi excepted) are mostly confined to the Town Group. These returns emphasise yet another feature : the disparity between sexes : again the males outnumber the females specially the speakers of Bengali, Gujarati, Malayalam, Marwari, Punjabi, Tamil and Telugu. Where people do not settle down and only live for service or occupation or business, they do so without their families. The disproportion of females in the HEL finds its reflection in these returns as well. Speakers of Urdu and Sindhi are more or less permanently settled hence the proportion of sexes is normal. This is so also in the case of Marathi speakers who are mostly government servants having come mainly from Nagpur, Indore, and Gwalior after the establishment of the capital here. The decade thus saw the Capital town grow with speakers of many languages. The speakers of foreign languages are however very few.

Further, of these languages in the case of as many as seven out of eleven, over 90% of the speakers are from the town itself. These are : Bengali 97.19%, Malayalam 96.32%, Marathi 93.11%, Punjabi 93.19%, Sindhi 93.75%, Tamil 97.48% and Telugu 97.31%. Excepting Sindhis, many of whom are settled in Bairagarh the speakers of other languages are in HEL and the city.

As regards Gujarati and Marwari the position, with 87.12% and 39.75% speakers in the town, is similar to others. Even a great majority of Urdu speakers 67.90% are confined to the

Town Group. The comparative low percentage of Hindi speakers in the town, essentially emphasises its multilingual character. Hindi however is spread over the entire district and is not confined to any particular locality. In the town however 39.48% of the total population speaks Hindi.

The Scheduled Castes & Tribes

The Scheduled Castes and Tribes are enumerated in accordance with the "The Scheduled Castes and Scheduled Tribes Lists (Modification) Order, 1956. The district has returned a total of 117,917 persons 61,481 males and 56,436 females as Scheduled Castes and 30,348 persons 15,111 males and 15,237 females as Scheduled Tribes. They live mostly in the rural areas. Since in 1951 the tabulation was not caste-wise and also because the list has undergone revision, it is not possible to compare the figures of the two decades.

The Scheduled Castes

Among the Scheduled Castes the main ones are : Chamars 53,903, Balahis 36,234, Mehtar 5,154, Dhobi 4,730, Bansphor 3,842, Silawat 3,164, Mehar 2,577 and Koli or Katia 4,293 persons. (Only castes returning a population of 1,000 or above, are described.

Chamars

The word is derived from Sanskrit 'charm' meaning skin and 'kar' a worker—meaning a worker in leather. The chamars thus represent the traditional workers in leather and hides. In the last few years they have been giving up this occupation, because it was regarded as unclean and they were branded as untouchable. As a result of social reform untouchability has been abolished. The chamars have returned 53,903 persons 28,028 males and 25,875 females and constitute 45.71% of the Scheduled Caste population. They are the largest single caste. They live mostly in rural areas (48,809 persons or 90.55%) and are mainly engaged in cultivation, as agricultural labourers and household industry in which they make and mend leather ware articles. The inset table gives the details of their categories of work.

Total workers	Categories of work								
	I	II	III	IV	V	VI	VII	VIII	IX
1	2	3	4	5	6	7	8	9	10
100.00	31.92	43.44	2.00	9.35	3.00	2.08	0.24	0.31	7.66

As many as 376 persons 275 males and 101 females are still engaged in tanning and currying of hides, the main branch of their work, for what they were regarded as unclean. Out of these 131 persons 75 males and 56 females are in urban areas.

Balahis

Next to the Chamars in number are the Balahis.

The Balahis are a functional caste of village servants. Russel and Hiralal think that Balahi is derived from the Hindi word 'Bulahi' meaning to call. The Balahis number 36,234 persons 18,610 males and 17,624 females and constitute 30.73% of the Scheduled Caste population. They live almost entirely in rural areas. As many as 35,100 persons or 96.87% are in rural areas. Their main occupations are indicated below :

Total workers	Categories of work								
	I	II	III	IV	V	VI	VII	VIII	IX
1	2	3	4	5	6	7	8	9	10
100.00	51.46	39.21	1.37	0.30	0.20	0 64	0.14	0.21	6 47

Mehtar or Bhangi

The Mehtar or Bhangis number 5,154 persons 2,690 males and 2,464 females and constitute 4.37% of these castes. Unlike other castes they live in urban and rural areas–in fact more in urban areas (53.24%). They are the traditio nal scavengers and are mostly employed in the municipalities for cleaning of the towns as is indicated in the inset table. They were regarded as untouchables. Nearly over two-thirds of the workers among them are engaged in 'Other services' and as many as 1,261 persons 770 males and 491 females are engaged in scavenging. The break-up for this special occupation is :

Table—showing persons engaged in Scavenging

Total Rural Urban	Persons	Males	Females
1	2	3	4
Total	1,261	770	491
Rural	245	177	68
Urban	1,016	593	423

The inset table below gives the categories of work in which they are engaged :

Total workers	Categories of work								
	I	II	III	IV	V	VI	VII	VIII	IX
1	2	3	4	5	6	7	8	9	10
100.00	4.10	18.13	1.84	0.21	2.18	0.26	0.26	4.79	68.23

The main category of work for the caste is in 'Other services'–which includes scavenging and working as agricultural labourers.

Dhobis

The Dhobi is a functional caste of washermen. He is scheduled only for Sehore and Raisen districts in the State. They have returned 4,730 persons 2,527 males and 2,203 females and constitute 4.01% of the total Scheduled Caste population. They live mostly in rural areas (3,602 persons or 76.15%) and are engaged mostly in cultivation and 'other services' including laundering and washing of clothes and workers as agricultural labourers.

The table gives their details of the nature of work.

Total workers	Categories of work								
	I	II	III	IV	V	VI	VII	VIII	IX
1	2	3	4	5	6	7	8	9	10
100.00	32.21	27.77	3.04	0.41	2.55	0.82	0.29	1.03	31.88

Basor or Bansphor

The term Bansphor is derived from the Hindi 'Bans' meaning bamboos and 'Phor' meaning breaking–thus it signifies a bamboo breaker–a worker in bamboos and has become a generic term for workers in the wooden goods. The Bansphor 3,842 persons 2,030 males and 1,812 females constitute 3.26% of the Scheduled Caste population, and live mainly in the rural areas (2,630 persons or 68.45%). The inset table gives the details of their work :

Total workers	Categories of work								
	I	II	III	IV	V	VI	VII	VIII	IX
1	2	3	4	5	6	7	8	9	10
100.00	6 16	22.44	0.97	43.40	2.25	1.33	0.23	0.64	22.58

Their main occupation still appears to making of wooden products and working in it at home as a household industry–category IV. Besides these as many as 94 persons 76 males and 18 females, all in urban areas, are engaged in scavenging.

Silawat

The Silawats were the workers in stones. They have returned 3,164 persons 1,736 males and 1,428 females and constitute 2.68% of the Scheduled Caste population. They live mostly in the rural areas (2,246 persons or 70.99%). The table below gives their main categories of work :

Total workers	Categories of work								
	I	II	III	IV	V	VI	VII	VIII	IX
1	2	3	4	5	6	7	8	9	10
100.00	37.41	19.98	1.45	2.64	3.74	16.24	0.68	1.28	16.58

Mehar

The Mehars are perhaps the same as Mahars found in the Mahakoshal districts. They have returned 2,577 persons 1,417 males and 1,160 females and constitute 2.19% of the Scheduled Caste population. Their main occupations are cultivation, working as agricultural labourers and in 'Other services. They live almost entirely in rural areas (2,395 persons or 92.94%). The table below gives their main categories of work :

Total workers	Categories of work								
	I	II	III	IV	V	VI	VII	VIII	IX
1	2	3	4	5	6	7	8	9	10
100.00	37.83	49.33	2.19	0.85	0.85	0.99	0.35	0.70	6.91

Koli or Katia

The Kolis or Katias are the occupational caste of weavers and village watchmen. They number 4,293 persons 2,240 males and 2,053 females constituting 3.64% of the Scheduled Caste population. They live mostly in the rural areas (2,292 persons or 53.38%) and are mainly engaged as agricultural labourers, cultivators, in the weaving and in 'Other Services'. The inset table gives the details of their occupation :

Total workers	Categories of work								
	I	II	III	IV	V	VI	VII	VIII	IX
1	2	3	4	5	6	7	8	9	10
100 00	16.04	31.71	1.42	13.38	10.92	5.41	2.56	4 56	14.00

The Scheduled Castes (Generally)

In the district the Scheduled Castes are spread out in all tahsils but Ashta, Huzur, and Sehore tahsils alone return nearly two-third 65.69% of their population. They are found in least concentration in Budni tahsil (5.7%), even in urban Bhopal Town group they constitute 9.67%. The inset table gives the distribution.

Table—showing distribution of Scheduled Castes by Tahsils

	Tahsil	Percentage of population
	1	2
	Total population	100.00
1	Berasia Tahsil	15.28
2	Ashta Tahsil	23.94
3	Huzur Tahsil	21.69
4	Sehore Tahsil	19.05
5	Ichhawar Tahsil	7.21
6	Nasrullaganj Tahsil	7.08
7	Budni Tahsil	5.75
	Bhopal Town Group	9.67

The Scheduled Tribes

There are 30,348 persons 15,111 males and 15,237 females who have been returned as Scheduled Tribes and they constitute 4.02% of the district's population. As many as 9 Scheduled Tribes have been returned in the district. The main ones are : Gond 12,755, Korku 5,293, Bhilala 4,978, Keer 2,757, Saharia 1,703 and Bhil 1,527 (only such as have returned a population of 1,000 or above have been considered).

Gonds

The Gonds are found in 39 districts out of 43 in Madhya Pradesh : not found at all in Datia and Dhar and not scheduled in Sagar and Damoh. Thus their spread out covers the entire State. There are conflicting views about the origin of the word Gond. The Gonds had established a kingdom in the fourteenth century and later they took to the jungle. They number 12,755 persons 6,257 males and 6,498 females and con stitute the 42.03% of the total Scheduled Tribes population of the district. They live almost entirely in the rural areas. (12,271 persons or 96.21%). Their main occupation is cultivation and working as agricultural labourers. The inset table gives details :

Total workers	Categories of work								
	I	II	III	IV	V	VI	VII	VIII	IX
1	2	3	4	5	6	7	8	9	10
100,00	43.24	45.44	2.88	1.22	0.36	1.10	0.11	0 63	5.02

Karku

The Karku (which seems to be misspelt) appears to be the same tribe as Korku. The Karkus have returned 5,293 persons 2,600 males and 2,693 females and constitute 17.44%of the Scheduled Tribes population. They too live almost entirely (with the exception of 7 persons) in the rural areas. Their main occupation is cultivation, working as agricultural labourers and in 'Other Services'. Their categories of work are :

Total workers	Categories of work								
	I	II	III	IV	V	VI	VII	VIII	IX
1	2	3	4	5	6	7	8	9	10
100.00	50.34	38.08	4.24	1.05	..	0.06	0.03	0.25	5.95

Bhilala

The district has returned 4,978 persons 2,629 males and 2,349 females or constituting 16.40%of the Scheduled Tribes population. Almost all (with the exception of 2) live in rural areas. C.S. Venkatachar is of the view that the Bhilalas are of a mixed origina result of Rajput marrying Bhil women. The Bhilalas however, are known to deny the same. They are mostly working as cultivators or as agricultural labourers. Their categories of work are :

Total workers	Categories of work								
	I	II	III	IV	V	VI	VII	VIII	IX
1	2	3	4	5	6	7	8	9	10
100.00	80.43	16.25	2.07	0.03	..	..	..	0.07	1.15

Keer

The District has returned 2,757 persons 1,342 males and 1,415 females as Keers and they constitute 9.08% of the Scheduled Tribes population. The tribe is essentially a cultivating (and they make good cultivators) type and is said to have migrated from the Rajasthan side. They live entirely in the rural areas and 9 out of 10 are cultivators. Their categories of work are :

Total Workers	Categories of work								
	I	II	III	IV	V	VI	VII	VIII	IX
1	2	3	4	5	6	7	8	9	10
100.00	59.39	31.65	4.98	0.21	..	..	0.07	0.14	3.56

Saharia

The district has returned 1,703 persons 841 males and 862 females or constituting 5.61% of Scheduled Tribes population of the district. The Sahariya is essentially a forest dwelling tribe and are found in north-western districts of the State. Their main occupation is working in the forests, cutting and selling its produce. In the district they have been returned mainly as agricultural labourers. Whereas they generally work in the forests but are equally agreeable for working as agricultural labourers and the enumeration period also coincided with the season for increased labour in fields. They live in rural areas (1,674 persons or 98.30%). Their pattern of work is:—

Total Workers	Categories of work								
	I	II	III	IV	V	VI	VII	VIII	IX
1	2	3	4	5	6	7	8	9	10
100.00	12.45	76.13	1.23	0.21	..	2.67	..	..	7.31

Bhils

The tribe is distributed in as many as 25 districts of the State. Sehore district returns 1,527 persons 787 males and 740 females or 5.03% of the total Scheduled Tribes population. According to Sir John Malcolm the Bhils migrated into Central India from Rajasthan side—Jodhpur and Udaipur. They mostly work as cultivators, agricultural labourers, workers in construction and in 'Other services'. Nearly one-fifth (19.91%) of them live in urban areas where they work as labourers. The categories of work are:—

Total Workers	Categories of work								
	I	II	III	IV	V	VI	VII	VIII	IX
1	2	3	4	5	6	7	8	9	10
100.00	24.84	38.91	3 41	0.64	2.02	13.65	..	1.07	15.46

The Scheduled Tribes Generally

Whereas the concentration of Scheduled Castes was least in Budni and Nasrullaganj tahsils, it is the highest in respect of Scheduled Tribes being 20.25% and 38.27% of the total Scheduled Tribes population in the district. This is followed by Ichhawar 16.61%. Thus these three southern tahsils account for more than three-fourths 75.13% of the district's Scheduled Tribes population. The spread out of the Scheduled Tribes for the other tahsils is—

Table—showing Scheduled Tribes distribution by Tahsils

District/Tahsil	Percentage
1	2
Sehore District	100.00
1 Berasia Tahsil	4.86
2 Sehore Tahsil	6.84
3 Huzur Tahsil	7.58
4 Ashta Tahsil	5.59
5 Ichhawar Tahsil	16.61
6 Nasrullaganj Tahsil	38.27
7 Budni Tahsil	20.25
Bhopal Town Group	3.08

In Bhopal Town Group 3.08% of the Scheduled Tribes are found. These are mostly Bhils and some Gonds who work as general labourers.

The Rural/Urban Composition

There has been a considerable change in the rural and urban composition during the decade. Out of 1,000 persons, there were 752 in rural areas and 248 in urban ones in 1951. The decade saw a movement from rural areas to the urban ones. Added to this is the movement from other urban areas in and outside the State, to the newly established capital at Bhopal. The result was that in 1961,there were 360 persons in the urban areas and 640 still in the rural ones. When compared to the other districts the position is:—

Table—showing rural/urban break-up (Total population 1,000 persons)

	City	Rural	Urban	Total population of the district
	1	2	3	4
1	Indore	400	600	753,594
2	Jabalpur	629	371	1,273,825
3	Gwalior	507	493	657,876
4	Sehore	640	360	754,684
5	Ujjain	676	324	661,720
6	Durg	875	125	1,885,236
	Madhya Pradesh	857	143	32,372,408

Indore district leads in the State with highest urban concentration; followed by Gwalior Jabalpur and Sehore in that order. The population of Sehore and Indore districts is nearly equal. Indore district is mostly an urban district in the sense that along with the premier city of the State, there is Mhow Cantonment and two more towns Depalpur and Sawer both having a population of over 10,000 persons and because of these towns, the concentration of population shows a high urban percentage. Jabalpur and Durg districts, both exceed a population of a million. In area and number of villages both are much bigger than Sehore and so proportionately the urban population falls. As far as Gwalior is concerned, like Indore it is also an urban district.

In Sehore itself the urban concentration has improved—has gone up by 112, which represents a considerable change. In the district referred to earlier, the changes in proportion is not so considerable. The 1951 composition is indicated below:—

District	Total persons	Rural	Urban
1	2	3	4
Indore district	1,000	400	600
Jabalpur district	1,000	714	286
Gwalior district	1,000	532	468
Sehore district	1,000	752	248
Ujjain district	1,000	676	324
Durg district	1,000	947	53

In none of the above districts has the progress towards urbanisation so great. Most of this is due to growth of the Bhopal Town Group, following the establishment of capital and starting of Heavy Electricals.

In Huzur tahsil in which Bhopal town is situatad the composition is urban 766 and rural 234. Other districts (15 in number excluding those in M.P.) in the country which have returned a higher urban population (higher than 360 urban) are:—

S. No.	District	State	Percentage of urban population
1	2	3	4
1	Bombay	Maharashtra	1,000
2	Calcutta	West Bengal	1,000
3	Hyderabad	Andhra Pradesh	622
4	Ahmedabad	Gujarat	608
5	Bangalore	Mysore	542
6	Nagpur	Maharashtra	521
7	Lucknow	Uttar Pradesh	495
8	Simla	Punjab	481
9	Dehra Dun	Uttar Pradesh	461
10	Srinagar	Jammu & Kashmir	461
11	Bikaner	Rajasthan	423
12	Kanpur	Uttar Pradesh	410
13	Rajkot	Gujarat	387
14	Poona	Maharashtra	381
15	Ajmer	Rajasthan	374

When compared to the above the all India ranking of the districts of the State would be Indore 5th, Gwalior 9th, Jabalpur 16th and Sehore 17th.

Within the district itself the progress in urbanisation is as follows:—

Table—showing proportion of Rural/Urban population–1951-1961

District/ Tahsil	1951		1961	
	Rural	Urban	Rural	Urban
1	2	3	4	5
Sehore District	752	248	640	360
1 Berasia Tahsil	1,000	..	923	77
2 Sehore Tahsil	786	214	771	229
3 Huzur Tahsil	398	602	234	766
4 Ashta Tahsil	925	75	917	83
5 Ichhawar Tahsil	1,000	..	888	112
6 Nasrullaganj Tahsil	1,000	..	1,000	..
7 Budni Tahsil	1,000	..	1,000	..

There has been no change with respect to Nasrullaganj and Budni. The change in Berasia and Ichhawar tahsils is due to Berasia and Ichhawar being treated as towns in 1961. In Sehore, the change only reflects the normal increase of the town and cannot be regarded as high, for during the decade the increase is limited to 15. The same remarks also hold good for Ashta. In Huzur tahsil the urban increase has been of a very high order from 602 to 766 or 164 persons. This is due to (i) addition of Bairagarh (16,827) to the town group (ii) the founding of Heavy Electricals Township at Govindpura (20,747) and (iii) the establishment of capital at Bhopal. As more buildings become ready, departmental offices previously located in divisional towns come over.

The Central Government offices also are gradually being shifted as and when accommodation becomes available. Thus a steady growth for Bhopal as an important administrative centre appears assured.

THE WORKING FORCE

The Worker/Non-worker Ratio

The District & neighbouring districts

The district has returned 463 persons as workers and 537 as non-workers. This is generally speaking well below the figure for Bhopal division and Madhya Pradesh with 504 and 523 workers respectively. Comparable statistics for near by districts are given below:–

Unit	TRU	Workers per 1,000 persons Males and Females		
		Persons	Males	Females
1	2	3	4	5
Madhya Pradesh	T	523	602	440
	R	552	616	486
	U	349	524	145
Bhopal Division	T	504	603	396
	R	534	617	445
	U	349	535	129
Sehore District	T	463	593	313
	R	517	609	416
	U	367	566	114
Rajgarh District	T	549	625	467
	R	572	638	500
	U	333	499	149
Vidisha District	T	473	620	307
	R	492	632	334
	U	348	538	127
Raisen District	T	478	603	341
	R	484	607	348
	U	383	529	212
Hoshangabad District	T	463	575	342
	R	498	595	395
	U	316	495	111

From the above it appears that from the above group of districts Sehore along with Hoshangabad has returned the least number of workers. A high rate of participation does not necessarily indicate economic advancement, but the contrary in many cases. It has also been observed that where the main prop of the economy of a district is either cultivation or work as agricultural labourers, the rate of participation is high. In Sehore a number of other occupations cause the participation rate to decline.

Working Force : within the district

The proportion of workers to non-workers is indicated below:–

District/Tahsil	Percentage of Workers	Non-workers
1	2	3
Sehore District	46.3	53.7
Berasia Tahsil	46.5	53.5
Sehore Tahsil	50.8	49.2
Huzur Tahsil	40.0	60.0
Ashta Tahsil	52.6	47.4
Ichhawar Tahsil	54.2	45.8
Nasrullaganj Tahsil	48.6	51.4
Budni Tahsil	47.6	52.4

Among the tahsils Ichhawar has returned the highest number of workers and Huzur the lowest. Fewer workers in Huzur are due to Bhopal Town Group, an urban centre; for in urban areas invariably fewer workers have been returned. The rate of participation in other tahsils is more or less similar.

Workers/Non-workers in Bhopal Town Group

The proportion of workers in the town group falls to 369 per 1,000 persons, the lowest in the district for any unit. In cities very few women are returned as workers and even among the males the number is somewhat less.

A comparison of the participation rate, among the towns reveals the following pattern.

Unit	Workers per 1,000 persons Males and Females: Persons	Males	Females
1	2	3	4
Indore	287	476	66
Jabalpur Town Group	337	525	105
Gwalior	288	485	56
Bhopal Town Group	369	575	102
Ujjain	304	499	81
Durg	508	717	156

Indore has returned the least number of persons and males at work and Gwalior returned the least number of females workers in the State. Jabalpur and Bhopal town group in this respect are nearer each other. The fewer female workers in Gwalior should not cause any surprise because in northern districts – Bhind, Morena and Gwalior few females have been returned; despite the fact that in two of these districts *viz.* Bhind and Morena there are hardly any big towns yet the number of female workers is only 72 and 102 respectively. Further in all these towns a fairly large number of full time students are returned as non-workers. These factors tend to keep down the number of workers.

The Pattern of work

The table below gives the categories of work in which the workers are engaged.

Unit	Total Workers	Categories of work: I	II	III	IV	V	VI	VII	VIII	IX
1	2	3	4	5	6	7	8	9	10	11
Bhopal Town Group	100.00	1.03	0.36	2.39	3.66	23.56	16.76	13.31	7.71	31.22
Ranking		8	9	7	6	2	3	4	5	1

As may be expected cultivation engages only 1.03% of the total workers; this is just the opposite of the general pattern of the district where as many as 42.50% of workers are engaged in cultivation. The highest number of workers 31.22% are engaged in 'Other Services' and this agrees with the general consensus which seems to regard Bhopal as chiefly a Servicemen's city. This is followed by workers engaged in manufacturing processes. Out of 23.56% of workers 19,392 persons engaged in manufacturing other than Household Industry 6,717 or 8.16% are from Govindpura Industrial Township (HEL). The extent of construction can be guaged by the fact that 16.76% of the workers or 13,793 persons are engaged in constructional activities and out of these 5,137 persons or 6.24% are in HEL alone. The fourth category of work is trade and commerce which takes in 13.31% of the workers. These four categories account for 84.85% of the workers.

The Occupational Pattern compared with other cities.

The inset table following presents the distribution of 100 workers among industrial categories.

Table—showing 100.00 worker's distribution among Industrial Categories

City	Total Workers	Categories of workers I	II	III	IV	V	VI	VII	VIII	IX
1	2	3	4	5	6	7	8	9	10	11
Indore City	100.00	0.74	0.22	1.30	4.04	35.37	3.89	19.80	5.72	28.92
Gwalior City	100.00	2.88	1.03	2.24	3.93	30.45	6.12	16.37	6.54	30.44
Ujjain City	100.00	2.53	0.87	1.09	4.68	32.27	4.14	17.75	7.91	28.76
Durg City	100.00	3.10	1.01	2.52	2.71	43.49	13.77	9.48	6.30	17.62
Jabalpur Town Group	100.00	3.14	1.02	1.77	10.07	22.68	5.02	12.14	11.55	32.61
Bhopal Town Group	100.00	1.03	0 36	2.39	3.66	23.56	16.76	13.31	7.71	31.22

In all these cities/town groups more than one fifth of the population is engaged in manufacturing other than Household Industry. These are mostly mills, factories and in cases of Bhopal Town Group and Durg heavy industries. Durg returns the highest percentage of workers in the above category followed by Indore 35.37% and Ujjain 32.27%. Bhopal Town Group is fifth in this category. Jabalpur leads in cultivation with 3.14% of the workers engaged in it and Indore is at the bottom with 0.74% in cultivation. The percentage of workers as agricultural labourers is still less, the highest being 1.03% in Gwalior and lowest 0.22% in Indore. The percentage of workers in the household Industry is also low varying from 10.07% in Jabalpur to 2.71% in Durg. In Mining, Qarrying, Hunting and Fishing, the percentage of workers is again low varying from 2.52% in Durg to 1.09 in Ujjain.

In construction the highest percentage of workers in Bhopal 16.76% followed by Durg 13.77% both of which are yet sprawling administrative and industrial cities.

As may be expected Indore again leads in the proportion of workers engaged in Trade and Commerce with 19.80% of its total workers in this category. Durg comes at the bottom with 9.48%. In transport storage and communications Jabalpur with 11.55% of its workers leads and in this category. Indore comes out last. In 'Other Services' Jabalpur, Bhopal and Gwalior return at least 3 persons out of 10 workers their figure being 32.61%, 31.22% and 30.44% and are very closely followed by Indore 28.92% and Ujjain 28.76%, Durg in this respect returns only 17.62%. Durg is thus mainly a manufacturing town. Bhopal has the highest percentage in construction. Indore leads in Trade and Commerce and is completely non-cultivating type and Jabalpur has the highest among three cities of these workers engaged in transport, storage and communications and in other services.

The Non-workers

The non-workers were classified into eight categories the details are presented in the table below—

Table—showing distribution of 100 persons of Non-working population among their activities by sex Sehore district—1961.

District	Category	TRU	Males	Females
1	2	3	4	5
Sehore	Total Non-working Population	T	100 00	100.00
		R	100.00	100.00
		U	100.00	100.00
	Full Time Students	T	36.04	6.22
		R	29.09	1.39
		U	46.44	12.34
	Household Duties	T	0.89	39.23
		R	1.33	32.81
		U	0.24	47.35
	Dependents, Infants and Disabled	T	59.70	53.99
		R	67.91	65.30
		U	47.41	39.66
	Retired, Rentier or Independent means	T	1.19	0.19
		R	0.27	0.16
		U	2.56	0.23
	Beggars, vagrants etc.	T	1.03	0.26
		R	1.20	0.31
		U	0.77	0.20
	Inmates of Institutions	T	0.22	0.07
		R	0.02	..
		U	0.53	0 17
	Persons seeking employment for the first time	T	0.51	0.02
		R	0.07	0.01
		U	1.16	0.03
	Unemployed but seeking work	T	0.42	0.02
		R	0.11	0.02
		U	0.89	0.02

A category-wise analysis of these is presented below:—

Full Time Students

Among the males 36.04% are full time students and the number goes to 46.44% in the urban areas. With the females, however, the percentage is much less being only 6.22% in the district but 12.34% in urban areas.

Household Duties

In this mainly the females are engaged. The percentage as may be expected goes up for urban areas.

Dependents, Infants and Disabled

Over 50%of the non-workers both among the males and females are from this category. Between the age 0-9, the number of workers is very few. Another noticeable feature in this category is vast difference in the rural and urban percentages. The dependents are much less in urban areas.

Retired, Rentier or persons of Independent Means

In this category, there are proportionately more persons in urban areas than the rural ones mainly because in the rural areas, people generally work even in later age-groups and secondly in towns, persons in the old age-groups prefer to settle down.

THE PATTERN OF WORK

Workers and their classification in the various Categories of work

The workers in the district are mainly dependent on cultivation, followed by workers as agricultural labourers and in 'Other Services'. The pattern of these occupations for each tahsil is indicated in the table below:—

Table–showing workers classified according to category of work—Sehore District–1961

District/ Tahsil/ City	Total Workers	Categories of work								
		I	II	III	IV	V	VI	VII	VIII	IX
1	2	3	4	5	6	7	8	9	10	11
Sehore District	100.00	42.50	19.05	2.53	4.60	6.48	4·49	4.76	2.21	13.38
1 Berasia Tahsil	100.00	54.28	27.73	2.85	4.66	0.21	0.39	2.00	0.24	7.64
2 Sehore Tahsil	100.00	51.28	22.61	2.59	5.62	2.73	0.79	3.18	0.76	10.44
3 Huzur Tahsil	100.00	15.45	8.50	2.68	3.69	17.48	12.23	9.84	5.82	24.31
4 Ashta Tahsil	100.00	64.44	20.60	1.63	4.91	0.45	0.25	2.08	0.15	5.49
5 Ichhawar Tahsil	100.00	67.35	15.87	2.59	5.23	0.45	0.40	1.35	0.14	6.62
6 Nasrullaganj Tahsil	100.00	49.00	37.71	1.81	4.08	0.27	0.30	1.31	0.15	5.37
7 Budni Tahsil	100.00	47.36	26.55	4.01	5.38	0.14	1.92	2.21	0.97	11.46
Bhopal Town Group	100.00	1.03	0.36	2.39	3.66	23.56	16.76	13.31	7.71	31.32

The salient features of the table above reveal, that dependence on cultivation is highest in Ichhawar tahsil but least in Huzur where,the highest proportion of workers is in 'Other Services'. In Nasrullaganj the proportion of agricultural labourers is the highest. In Huzur tahsil the proportion of workers in Manufacturing other than Household Industry and in Trade and Commerce and Transport Storage and communications is highest in the district. Also very few workers are found in Budni, Nasrullaganj and Berasia in the category of Manufacturing.

If agricultural labourers are also added to these under cultivation we have 61.55% of the workers in these two categories or 6 out of 10 workers are in these categories.

The number of workers per category is indicated below—

Sehore District

Category	Brief Description	Total Workers			Percentage	Ranking
		Persons	Males	Females		
1	2	3	4	5	6	7
I	In Cultivation	148,469	91,255	57,214	42.50	1
II	As Agricultural Labourer	66,546	35,132	31,414	19.05	2
III	In Mining, Quarrying, Livestock, Forestry, Fishing, Hunting and Plantations Orchards and allied activities	8,846	7,858	988	2.53	8
IV	At Household Industry	16,062	11,586	4,476	4.60	6
V	In Manufacturing other than Household Industry	22,647	20,956	1,691	6.48	4
VI	In Construction	15,685	12,330	3,355	4.49	7
VII	In Trade & Commerce	16,620	15,752	868	4.76	5
VIII	In Transport, Storage and Communications	7,745	7,639	106	2.21	9
IX	In Other Services	46,739	37,386	9,353	13.38	3

CULTIVATION

The highest number of workers engaged in any given category are those in cultivation, where 425 persons out of every 1,000 workers are employed. Among the tahsils, Huzur which includes Bhopal Town Group, is the least dependent on cultivation: there being 15.45% working population in this category.

The Land utilisation

The table below gives the pattern of land utilisation.

Total area according to Village papers	Forest	Area under land put to non-agricultural uses	Area under barren and unculturable land	Area under permanent pastures and other grazing lands	Net area sown	Area under Cultivable waste	Area under fallow lands
1	2	3	4	5	6	7	8
2,308,593	581,802	108,855	8,096	650,207	891,489	42,506	25,638
100.00	25.20	4.72	0.35	28.16	38.62	1.84	1.11

The area sown at the beginning of the twentieth century was 26% or nearly one-fourth of the total area of the State. Although a comparison would not be strictly speaking very accurate, however the present statistics point to a considerable increase since then.

When compared to 1951-52 the area under cultivation has steadily been going down. This is partly due to the fact that near Bhopal agricultural land has been taken for the site of Industrial Projects *viz.* the H.E.L. The variation has been as follows:—

Year	Net Area sown (in acres)	Decade Variation — Decrease + Increase	Percentage Variation
1	2	3	4
1951–52	922,950	..	..
1960–61	891,489	— 31,461	— 3.41

The cultivation is mostly of the dry type–and only 29,711 acres are irrigated. The cultivators depend entirely on rainfall, for the means of irrigation are meagre. Privately owned wells are the main source of irrigation followed by canals. Lately some improved methods have become popular; these are mostly the use of green manures, fertilisers, improved seeds, summer ploughing and soil conservation. Sugar cane is a popular crop in Sehore and Ashta tahsils and some cultivators have won the highest productivity prizes in the Country.

The Cropping Pattern

The table below gives the cropping pattern for 1960-61. The district grows more of Rabi crops than Kharif ones.

Among the crops wheat is sown in greater area, in fact the acreage under wheat is the highest for any crop. In acreage wheat is followed by Juar which occupies nearly one-fifth of the area sown. The area sown more than once is only 2.93% and among tahsils it is highest in Ichhawar, being 7.90%. Even at the beginning of the twentieth century the proportion of wheat to jowar was practically the same; the acreage figures of earlier times refer to the entire State and so render comparison somewhat difficult; but the proportion gives a fair indication of the changes, if any. One important change is, that the cultivation of poppy has been given up.

Table—showing area sown under major crops in 1960-61 in each tahsil

District/Tahsil	Net Area sown	AREA SOWN UNDER								
		Rice	Jowar	Maize	Wheat	Total Cereals & Millets	Gram	Tur	Other pulses	Total Pulses
1	2	3	4	5	6	7	8	9	10	11
Sehore District	100	2.15	18.18	1.66	52.58	74.74	8.68	2.83	5.41	16.92
1 Berasia Tahsil	100	0.86	28.22	4.14	49.11	82.37	9.56	3.26	2.93	15.75
2 Sehore Tahsil	100	2.06	27.79	1.57	49.27	80.73	8.82	3.34	3.40	15.56
3 Huzur Tahsil	100	1.87	9.64	1.32	64.48	77.35	9.47	1.16	8.67	19.30
4 Ashta Tahsil	100	3.49	22.93	1.22	49.41	77.10	5.51	4.05	4.51	14.07
5 Ichhawar Tahsil	100	7.09	16.82	2.28	54.92	81.39	10.93	2.37	4.44	17.74
6 Nasrullaganj Tahsil	100	0.68	5.93	0.63	55.79	63.24	4.24	3.19	4.33	11.76
7 Budni Tahsil	100	0.87	4.95	0.31	47.26	54.28	15.86	1.21	11.99	29.06

Table—showing area sown under major crops in 1960-61 in each tahsil

AREA SOWN UNDER										
Total food grains	Total food crops	Sesamum (til)	Lin-seed	Total oil seeds	Cotton	Total non-food crops	Total area sown Net area sown=100 double cropped Area	Total cropped Area	Net area sown	Area sown more than once

THE MAJOR CROPS

Food Crops

Wheat

Wheat is a major rabi crop of the district. Rabi crops are sown near winter and cut before the summer. The acreage under wheat has shown a steady increase. It was 247,148 acres in 1951-52 and during the decade it varied between 226,267 in 1952-53 and 513,590 acres in 1959-60. It is mostly an unirrigated crop and only 12,776 acres are irrigated. About half of the cultivated area in each tahsil of the district is under wheat. The variation is as follows—

Year	Net area sown under wheat (in acres)	Variation	Percentage variation
1	2	3	4
1951–52	247,148	..	..
1960–61	468,703	+ 221,555	+ 89.64

Jowar

Next to wheat, is jowar which is sown in nearly one-fifth of the net area sown. It is a kharif crop and is sown in rains and cut in winter. Among the tahsils Nasrullaganj, Budni and Huzur have returned less than 10% area under jowar. There has been an increase in the area under jowar during the decade. Generally speaking a little over one lac acres are sown with jowar. It went down to 76,175 acres in 1956-57 from 206,499 acres in 1952-53. It is entirely an unirrigated crop and sown in nearly one-tenth area in Berasia, Sehore and Ashta tahsils. The variation has been as follows—

Year	Net area sown under jowar (in acres)	Decade variation	Percentage variation
1	2	3	4
1951—52	133,315		
1960—61	162,103	+ 28,788	+ 21.59

Rice

The district grows very little of rice and the total acreage under it has been about 15,000 acres only. The rice that is grown is mostly of a coarse quality and among the tahsils rice is grown in a bigger area in Ichhawar, Ashta and Sehore. The area of 20,858 acres in 1951-52 is the highest for the decade; The variation has been as follows:—

Year	Net area sown under rice (in acres)	Decade variation	Percentage variation
1	2	3	4
1951—52	20,858		
1960—61	19,178	— 1,680	— 8.05

There are no rice mills in the district.

Maize

Like rice maize is grown in less than 20,000 acres. The acreage variation has been from 13,659 in 1951-52 to 19,015 in 1952-53. Tahsils where acreage under jowar is high also return higher acreage under maize, thus Ichhawar, Berasia and Sehore have returned somewhat higher acreage. It is entirely an unirrigated crop and the decade variation shows an increase of 8·19%, details being:—

Year	Net area sown under maize (in acres)	Decade variation	Percentage variation
1	2	3	4
1951—52	13,659		
1960—61	14,777	+ 1,118	+ 8.19

PULSES

Gram

Gram is sown as a rabi crop in nearly one-twelfth of the net sown area. In Budni tahsil the proportion of the area under gram is high being 15.86%. In 1951-52, 111,828 acres the highest for the decade were sown with gram. Thereafter it has shown a steady decline and went down to 69,804 acres in 1958-59. It is mostly an unirrigated crop. The decade variation has been as follows:—

Year	Net area sown under gram (in acres)	Decade variation	Percentage variation
1	2	3	4
1951—52	111,828		
1960—61	77,417	— 34,411	— 30.77

Tur

Tur is the other main pulse grown in the district. It covers only 2.83% of the area net sown and grown in all tahsils. The acreage under tur has varied from 15,923 acres in 1956-57 to 37,748 acres in 1952-53. The variation in acreage is given in the inset table.

Year	Net area sown under (Tur in acres)	Variation	Percentage variation
1	2	3	4
1951—52	26,546		
1960—61	25,211	— 1,335	— 5.03

Sugar Cane

The area under sugar cane has been between 8,000 to 9,000 acres after 1955-56, prior to which is was much less. In 1952-53 it fell to 2,514 acres the lowest in the last decade. In 1960-61 the cane was sown in 9,661 acres and the production was 6,400 tons, the production of sugar cane shot up thereafter. Some cultivators of the district have won prizes in the All India competition for sugar cane production. In the year 1964-65, a farmer in Hasanpura village produced 2,170 maunds of sugar cane per acre to claim the first prize in India. The sugar cane grown in the district is used by the Bhopal Sugar Mills at Sehore and in some cases the cultivators also make jaggery out of it. There are some very good sugar cane farms in the district specially in Sehore and Ashta tahsils. The decade variation is :

Year	Net area sown under sugar cane (in acres)	Variation	Percentage variation
1	2	3	4
1951—52	7,765		
1960—61	9,661	+ 1,896	+ 24.42

Condiments and spices:

The area under condiments and spices in 1951-52 is very little being 3,680 acres only, It has shown an upward trend in the last few years the variation being:—

Year	Net area sown under condiments & spices (in acres)	Variation	Percentage variation
1	2	3	4
1951—52	3,680		
1960—61	4,993	+ 1,313	+ 35.68

The main condiments are onions, garlic, ginger, coriander and chillies. It is mostly irrigated.

NON FOOD CROPS

Oil seeds

Sesamum (til) and linseed are the two main oil seeds grown.

Sesamum

The acreage under sesamum has varied from 7,329 acres in 1955-56 to 39,793 in 1951-52 the highest ever during the decade. Among the tahsils the area sown with til is proportionately higher in Nasrullaganj and Budni, almost insignificant in Ashta. The variation has been :

Year	Net area sown under sesamum (in acres)	Variation	Percentage variation
1	2	3	4
1951–52	39,793		
1960–61	25,168	— 14,625	— 36.75

Linseed

The rea under linseed has been around 20,000-22,000 acres and like sesamum it is proportionately higher in Budni and Nasrullaganj tahsils. The decade variation has been :

Year	Net area sown under Linseed (in acres)	Decade Variation	Percentage variation
1	2	3	4
1951–52	25,094		
1960–61	25,327	+ 233	+ 0.93

All Fruits & Vegetables

The area under fruits and vegetables has been steadily going up. It was 4,700 acres in 1951-52 and touched 6,124 acres in 1959-60. Since these are irrigated crops, the growth is gradual. Among the fruits, oranges, lemon, papayyas and guavas are very popular. Local vegetables are grown for consumption in Bhopal.

Irrigation

At the beginning of the twentieth century poppy, sugar cane and garden produce alone were irrigated. The facilities for irrigation are still very meagre and only 3.3% of the area net sown was irrigated. The different sources of irrigation are wells, tanks, canals and other sources; their break-up being:

	Area Irrigated (1960-61)			
All sources	Tanks	Wells	Canals	All other sources
1	2	3	4	5
29,711	2,739	18,136	3,321	5,515
percentage 100.00	9.22	61. 04	11. 18	18. 56

During the decade the progress under irrigation has been as follows :—

Source	Area Irrigated	
	1951-52	1960-61
1	2	3
Canals	783	3,321
Wells	7,652	18,136
Tanks	793	2,739
All other sources ..	2,007	5,515

Thus there has been an increase under all heads.

Cultivation Generally

A little over nine-tenth of the net sown area in the district is under the food crops; only 2.93% of the area is sown more than once. Irrigation facilities are still very meagre but the technique of sugar cane production in some area is of a very high order.

Workers as Agricultural Labourers

There are 66,546 persons 35,132 males and 31,414 females who have been returned as agricultural labourers. They constitute 19.05% of the total working force of the district and vary from 37.71% in Nasrullaganj to 8.50% of the total workers in Huzur tahsil. The main reasons for this variation appears to be that in bigger villages or urban centres, agricultural labourers are found in much lesser numbers. Thus Budni and Berasia tahsils with few urban centres and big villages, return a comparatively higher percentage. Local enquiries reveal that even for bigger villages agricultural labourers have to be imported from nearby villages. During the decade the wages went upto Rs. 1.50 for male labourers in the farms. The artisans were paid as much as Rs. 4.50. The wages seem to be spiralling and each year they shoot up. Lately in the bigger villages a shortage of labourers has been noticed when the wheat crop is cut, labourers from nearby areas are known to come for about a month or so.

Workers in Mining, Quarrying, Livestock, Forestry, Fishing, Hunting and Plantations Orchards and allied activities.

There are 8,846 persons 7,858 males and 988 females constituting 2.53% of the workers in this category and are mostly spread out in the rural areas. The main categories of the work are:

S. No.	Code No.	Brief Description of the category	Total workers			Percentage to the total no. of workers in this category	Rank
			P	M	F		
1	2	3	4	5	6	7	8
1	009	Production of other agricultural produce (including fruits and nuts not covered by code number 006 and flowers)	758	685	73	8.57	2
2	040	Production and rearing of livestock (large heads only) mainly for milk and animal power such as cow, buffalo, goat	5,041	4,607	434	56.99	1
3	020	Planting, replanting and conservation of forests	437	437	—	4.94	4
4	005	Production of other crops (including vegetabl) not covered above	577	442	135	6.52	3

Such categories as have returned 400 persons and above alone have been considered. From the above it follows that in code 040 which in many cases is allied to cultivation, the number of workers is high. Other categories have however returned fewer workers.

Workers in Household Industry

The district has returned 16,062 persons 11,586 males 4,476 females or 4.60% of the total workers in this category: the details of which are given below :—

S. No.	Code No.	Brief Description of the Category	Total Workers			Percentage to the total no. of workers in this category	Rank
			P	M	F		
1	2	3	4	5	6	7	8
1	040	Production and rearing of livestock (large heads only) mainly for milk and animal power such as cow, buffalo, goat	366	322	44	2.28	14
2	048	Production of other animal husbandry products such as skin, bone, ivory and teeth	455	306	149	2.83	12
3	206	Production of butter, ghee, cheese and other dairy products	327	159	168	2.03	15
4	207	Production of edible fats and oils (other than hydrogenated oil)	496	315	181	3.09	10
5	220	Manufacture of bidi	1,180	559	621	7.35	6
6	235	Cotton weaving in handlooms	562	277	285	3.50	9
7	273	Making of textile garments including raincoats and headgear	2,175	1,848	327	13.54	1
8	282	Manufacture of structural wooden goods (including treated timber) such as beams, posts, doors, windows	1,790	1,771	19	11.14	2
9	288	Manufacture of materials from cork, bamboo, cane, leaves and other allied products	1,628	816	812	10.13	3
10	311	Manufacture of shoes and other leather footwear	1,621	1,176	445	10.10	4

S. No.	Code No.	Brief Description of the Category	Total Workers P	M	F	Percentage to the total no. of workers in this category	Rank
1	2	3	4	5	6	7	8
11	314	Repair of shoes and other leather footwear	420	300	120	2.61	13
12	333	Manufacture of ammunition, explosives and fire works	210	110	100	1.31	16
13	340	Manufacture of structural clay products such as bricks, tiles	807	503	304	5.02	7
14	350	Manufacture of earthenware and earthen pottery	1,037	665	372	8.14	5
15	364	Manufacture of iron and steel furniture	762	692	70	4.74	8
16	393	Manufacture of jewellery, silverware and wares using gold and other precious metals	491	458	33	3.06	11

The main household industries are (1) code no. 273 making of textile garmets including raincoats and headgear (2) code no. 282 manufacture of structural wooden goods (including treated timber) such as beams, posts, doors, windows (3) code no. 288 manufacture of materials from cork, bamboo, cane, leaves and other allied products (4) code no. 311 manufacture of shoes and other leather footwear (5) code no. 350 manufacture of earthenware and earthen pottery and (6) code no. 220 manufacture of bidi. These are mostly the conventional household industries with a predominant rural characteristic. The tahsil wise details of the Household Industries in the rural areas are:

Tahsil	Workers in Household Industry					
	Rural			Urban		
	Persons	Males	Females	Persons	Males	Females
1	2	3	4	5	6	7
Berasia Tahsil ..	1,368	1,103	265	380	297	83
Sehore Tahsil ..	2,099	1,594	505	1,447	895	552
Huzur Tahsil ..	1,281	953	328	3,016	1,889	1,127
Ashta Tahsil ..	2,419	1,776	643	378	237	141
Ichhawar Tahsil ..	1,065	806	259	240	149	91
Nasrullaganj Tahsil ..	1,065	934	131	..	..	..
Budni Tahsil ..	1,304	953	351	..	..	..

Bhopal Town Group and Sehore are the only two places where workers in household industry are in some number in the urban areas. There are hardly any industries in H. E. L. and Bairagarh so it is only in Bhopal city that they are confined.

Some other Important Household Industries :

Batwa Making and Zari Embroidery

This industry is mostly confined to Bhopal city and workers under this have been classified

both under the household industries and manufacturing other than household industry. The industry is now nearly a hundred years old having been patronised by Nawab Shah Jehan Begum. Initially the craftsmen came from Kanpur, Lucknow and Delhi. In 1955 two schemes, one for training in Zari embroidery and another for Zari designing cum-demonstration were started. The excellent quality of the products, have made Bhopal famous all over the country and lately, these 'batwas' have become an excellent foreign exchange earner. In the city the emporiums display an excellent range of batwas and zari-embroidery.

Bidi Making

This industry was started round about 1936-37 in Sehore for the first time. The labour was plentiful and hence cheap. The raw material *tendu Diospyros-melanoxylon*, leaves were in the vicinity and hence it is a popular household industry. The tobacco however is imported from outside.

Manufacturing other than Household Industry

The district has returned 22,647 persons 20,956 males and 1,691 females or 6.48% of the workers in this category. In urban areas alone there are 21,372 persons 19,972 males and 1,400 females or 94.37% of the above category.

The break-up for the urban areas is:—

Towns	Total workers (Towns returning less than 200 workers not considered)			Percentage to total persons of the category
	Persons	Males	Females	
1	2	3	4	5
Sehore	1,652	1,516	136	7.73
Bhopal Town group ..	19,392	18,174	1,218	90.74
(M) ..	12,019	11,379	640	56.24
Bairagarh	656	578	78	3.07
H. E. L.	6,717	6,217	500	31.43
Ashta	211	167	44	0.99

Thus in this category, are included mostly workers from Bhopal city (M) and Govindpura-HEL Township. As many as 87.67% are from these two towns. The details about the Manufacturing categories are :—

S. No.	Code No.	Brief Description of the category	Total workers			Percentage to total workers of the category	Rank
			P	M	F		
1	2	3	4	5	6	7	8
1	005	Production of other crops (including vegetables) not covered above in 000 to 004–for details please see P (iii)	577	442	135	2.70	12
2	009	Production of other agricultural produce (including fruits and nuts not covered by code number 006 and flowers)	758	685	73	3.55	9
3	040	Production and rearing of livestock (large heads only) mainly for milk and animal power such as cow, buffalo, goat	5,041	4,607	434	23.40	2
4	201	Production of sugar and syrup from sugarcane in mills	764	752	12	3.57	8

S. No.	Code No.	Brief Description of the Category	Total Workers			Percentage to the total no. of workers in this category	Rank
			P	M	F		
1	2	3	4	5	6	7	8
5	220	Manufacture of bidi	752	613	139	3.52	10
6	231	Cotton spinning (other than in mills) ..	500	488	12	2 34	15
7	232	Cotton spinning and weaving in mills ..	2,181	2,148	33	10.20	3
8	273	Making of textile garments including raincoats and headgear	1,076	1,004	72	5.03	5
9	282	Manufacture of structural wooden goods including treated timber) such as beams, posts, doors, windows	878	874	4	4.11	7
10	290	Manufacture of pulp from wood, rags, wastepaper and other fibres and the conversion of such pulp into any kind of paper and paper board in mill	528	524	4	2.47	13
11	302	All other types of printing including lithography, engraving, etching block making and other work connected with printing industry	520	519	1	2.43	14
12	340	Manufacture of structural clay products such as bricks, tiles	1,130	655	475	5 29	4
13	350	Manufacture of earthenware and earthen pottery	702	489	213	3.28	11
14	369	Manufacture of sundry hardwares such as G. I. pipe, wire net, bolt, screw, bucket, cutlery (This will also include the manufacture of sundry ferrous engineering products done by jobbing engineering concerns which cannot be classified in major groups 36, 37, 38 and 39)	1,031	1,029	2	4.82	6
15	374	Manufacture of heavy electrical machinery and equipment such as motors, generators, transformers	6,130	5,801	329	28.68	1

Thus the Heavy Electricals Limited forms the main industry. It is still in a stage of expansion and as yet has not reached its optimum production level. Apart from those engaged in category 040, which is very general and does not need any detailed analysis, the other category is of those engaged in cotton spinning code no. 232.

Workers in Construction

There are 15,685 persons 12,330 males 3,355 females constituting 4.49% of the workers in this category. Out of these 13,793 persons or 87.94% are working in Bhopal Town Group. The construction activity has been of a very high order since the re-organisation of the State. An entire

township - the H. E. L. at Govindpura along with residential locality of Tatya Tope Nagar and the various offices, came up during this period. The details regarding the workers are :—

Code No.	Brief description of the category	Total workers			Percentage to total workers of the category	Rank
		P	M	F		
1	2	3	4	5	6	7
400	Construction and maintenance of buildings including erection, flooring, decorative constructions, electrical & sanitary installations	10,735	8,432	2,303	68.44	1
401	Constructions and maintenance of roads, railways bridges, tunnels	4,468	3,495	973	28.49	2
402	Constructions and maintenance of telegraph and telephone lines	150	150	..	0.96	4
403	Constructions and maintenance of water ways and water reserviors such as bund, embankments, dam, canal, tank tubewells, wells	332	253	79	2.12	3

The figures under Code 400 emphasise the potential expansion of the district with special reference to the Bhopal Town Group.

The table below gives the break-up of these categories for Bhopal Town Group. In the category construction code no. 400 the concentration in Bhopal Town Group is indeed of a very high order; as many as 95.17% of the workers of the district are from the town group. In other codes 401, 402 and 403 however, Bhopal Town Group does not constitute such a high percentage of workers although in 401 there are 76.99%, of the total workers in the district.

Table:– showing workers in construction (Bhopal Town Group)

Code No.	Brief description of the category	Number of workers			Percentage to the same code No. of the district	Percentage to the total workers of the category
		P	M	F		
1	2	3	4	5	6	7
400	Construction and maintenance of buildings including erection, flooring, decorative constructions, electrical & sanitary installations	10,217	8,054	2,163	95.17	65.14
401	Constructions and maintenance of roads, railways bridges, tunnels	3,440	2,606	834	76.99	21.93
402	Constructions and maintenance of telegraph and telephone lines	5	5	..	3.33	0.03
403	Constructions and maintenance of water ways and water reserviors such as bund, embankments dam, canal, tank tubewells wells	131	121	10	39.46	0.84

Trade and Commerce

This category of work accounts for 16,620 persons 15,752 males and 868 females. Out of these 13,717 persons are in the urban areas - Bhopal Town Group alone constituting 10,955 persons, or 65.91% of the category. The details of the category are :—

Code No.	Brief description of the category	Total workers			Percentage to Total workers in the category	Rank
		P	M	F		
1	2	3	4	5	6	7
600	Wholesale trading in cereals and pulses ..	1,014	960	54	6.10	5
640	Retail trading in cereals, pulses, vegetables, fruits, sugar, spices, oil, fish, diary products, eggs, poultry	6,451	5,918	533	38.81	1
644	Retail trading in tobacco, bidi, cigarettes and other tobacco products	935	889	46	5.63	6
646	Retail trading in food stuffs like sweetmeat condiments, cakes, biscuits, etc.	1,627	1,590	37	9.79	2
650	Retail trading in fibres, yarns, dhoti, saree, readymade garments of cotton, wool, silk and other textiles and hosiery products; (this includes retail trading in piece-goods of cotton, wool, silk and other textiles)	1,405	1,397	8	8.45	3
689	Retail trading in goods unspecified ..	1,332	1,263	69	8.01	4

The above reveals the usual pattern of trade being mostly of the retail type.

Workers in Transport Storage and Communications

There are 7,745 persons 7,639 males and 106 females constituting 2.21% of the total workers in this male dominated category of work. A great number of them *viz.* 6,899 persons or 89.1% of the workers of the category are from the urban areas. Bhopal Town Group alone constitutes 6,344 persons or 91.96% of the workers in the urban areas. The break-up of the category is :—

Code No.	Brief description of the category	Total workers			Percentage to Total workers in the category	Rank
		P	M	F		
1	2	3	4	5	6	7
700	Transporting by railways	2,737	2,696	41	35.34	1
701	Transporting by tramway and bus service ..	939	936	3	12.12	3
702	Transporting by motor vehicles (other than omnibus)	1,367	1,365	2	17.65	2
703	Transporting by road through other means of transport such as hackney carriage, bullock cart, ekka	926	910	16	11.96	4
705	Transporting by man such as carrying of luggage, hand cart driving, rickshaw pulling, cycle rickshaw driving	461	450	11	5.95	6
730	Postal telegraphic, wireless and signal communications	561	559	2	7.24	5

Two railway lines cross the district. The Central Railway main line running from Bombay to Delhi, Delhi to Madras passes through Bhopal and from Bhopal also branches off the Western Railway broadguage–Bhopal–Ujjain–Nagda and Bhopal-Indore branch line. Thus a sizeable proportion 35.34% of the workers are engaged in this category. This is followed by those engaged in transport by motor vehicles other than omnibus. Many from the above are engaged with Government departments or its undertaking. There are no tramways in the district, the workers under code 701 are therefore those engaged in the transport by bus services, the number of which after the formation of the new State has gone up considerably.

Workers in Other Services

The category includes public services educational and scientific services medical and health services, religious, welfare, legal, business, community, recreation personal and services not elsewhere classified or not adequately described. There are 46,739 persons 37,386 males 9,353 females, constituting 13.38% of the total workers in this category.

The category ranks third. Consequent to the location of the capital, the setting of the Government offices, the number of Government servants spiralled during the decade. As many as 31,426 persons, 26,489 males 4,937 females, or 67 24 % are in the urban areas and Bhopal Town Group contributes 25,690 or 54 96 % out of them. The table below gives the details:—

S. No.	Code No.	Brief description of the category	Total workers			Percentage to total workers of the Category	Rank
			P	M	F		
1	2	3	4	5	6	7	8
1	803	Public service in Police	3,381	3,353	28	7.23	4
2	805	Public service in administrative departments and offices of quasi-government organisation, municipalities, local boards, etc.	1,166	1,137	29	2.48	9
3	809	Public services in administrative departments and offices of State Government.	5,901	5,840	61	12.62	2
4	811	Educational services such as those rendered by colleges, schools and similar other institutions of non-technical type.	4,926	3,806	1,120	10.54	3
5	820	Public health and medical services renderd by organisations and individuals such as by hospitals, sanatoria, nursing homes, maternity and child welfare clinics as also by hakimi, unani, ayurvedic, allopathic and homeopathic practitioners	2,227	1,537	690	4.76	6
6	872	Recreation services rendered by organisations and individuals such as those of theatres, opera companies, ballet and dancing parties, musicians exhibitions, circus, carnivals	1,034	954	80	2.21	10
7	880	Services rendered to households such as those by domestic servants, cooks	2,465	1,855	610	5.27	5
8	883	Laundry services rendered by organisations and individuals, this includes all types of cleaning, dyeing, bleaching, dry cleaning, services	1,948	1,501	447	4.17	7
9	884	Hair dressing, other services rendered by organisation and individuals such as those by barber, hairdressing saloon and beauty shops	1,849	1,824	25	3.96	8
10	900	Activities unspecified and not adequately described including activities of such individuals who fail to provide sufficient information about their industrial affiliation to enable them to be classified.	13,453	8,185	5,268	28.78	1

Leaving aside code 900 which does not carry us far, public service in State Government accounts for 5,901 persons. In 1951 there were 2,956 employees with the State Government. The expansion in educational services is underlined by the fact that there are 4,926 workers in the district as against 922 in 1951. The number of female workers in 1961 stands at 1,120 as against 138 in 1951. The increase in those in the Police Department has been of a high order. There are 3,381 persons as against 1,854 in 1951.

The Central Government offices started shifting to Bhopal, on the formation of the new State. There were 452 persons in the employment of the Central Government as against 124 in 1951. By 1961 the following offices had been located in Bhopal; The All India Radio, The Superintendent, Archaeological Department, sub-office of the Accountant General, M. P., Central Excise, C. P. W. D. the National Archives, Central Water Power Commission and the Tourist office. The expansion of the offices also contributed to the increase of workers in the category.

Those rendering services to the households such as services rendered by domestic servants and cooks number 2,465 as against 2,845 in 1951 showing a decrease. Here is one category of work, which despite the population increase, shows a clear decrease. With the increase in the employment potential in the town, it is likely that many of them took to new trades or calling; the work as a domestic servant being arduous and not particularly attractive. Also due to increased wages, it is likely that many persons who could just afford to keep an underpaid domestic servant, had to do without them. The returns unmistakably reveal that fewer domestic servants than ever before are now engaged in this category. In the Medical and Health service the number of workers has gone upto 2,227 as against 600 in 1951. The Gandhi Medical College started in 1955, gave a great opportunity for expansion of the calling. Added to this was the all round increase in the medical facilities made available to the public. As against 188 female workers in 1951 there were 690 in 1961. There has again been a considerable increase in the workers engaged in laundries and laundry services, their number having gone up from 830 in 1951 to 1948 in 1961. Barbers also show an increase from 1400 in 1951 to 1849 in 1961. In the local boards and municipalities also the increase in the number has been of a high order. The workers rise from 598 in 1951 to 1,166 in 1961.

The table below gives the comparable figures of the decade for a few important categories of work.

Category of work	Workers in		Increase + Decrease —	Percentage variation
	1961	1951		
1	2	3	4	5
Public Service in Police	3,381	1,854	+ 1,527	+ 82.362
Public Service in Central Government	452	124	+ 328	+ 264.516
Public Service in administrative departments and offices of quasi-government organisation, municipalities, local boards, etc.	1,166	598	+ 568	+ 94.983
Public services in administrative departments and offices of State Governments	5,901	2,955	+ 2,946	+ 99.695
Educational services code Nos. 810, 811 & 812	5,821	922	+ 4,899	+ 531.344
Medical & Health Services Code Nos. 820, 821	2,390	600	+ 1,790	+ 298.333
Service rendered as domestic servants, cooks etc.	2,465	2,845	— 380	— 13.356
Laundry services	1,948	830	+ 1,118	+ 134.698

Communications

The district is fortunately well connected by a net work of railways and roads. The main broad guage line of Central Railway-Delhi-Bombay-Madras, passes through the district and Bhopal is a junction from where trains go directly to Ujjain, Indore, Ratlam and Ahmedabad in the west, Delhi and Northern India in the north, Bombay in south-west, Nagpur, Madras in the south and Bilaspur in south-east. The western railway broad guage-branch line touches Sehore and provide an effective link with the rest of the country. The doubling of rail track between Bhopal-Bina and Itarsi now under construction will go a long way in ensuring faster flow of traffic. There are nine railway stations on the Central Railway and four on the Western Railway, in the district. Bhopal is a stop for all trains and a bogey is attached to Punjab Mail to Bombay, G. T. Express to Delhi and Bilaspur Express to Jabalpur. This ensures better accommodation to those who leave or come to Bhopal.

Roads

The only important road passing through Sehore is Dewas-Bhopal State Highway-18. The more important roads however pass through Bhopal; The Bhopal–Jaipur National Highway passes through Bhopal and when an all weather bridge over Narmada is constructed near Hoshangabad, would provide an effective link with the south. This also connects the northern parts of the State. Also through Bhopal passes the Jabalpur-Bhopal Dewas road which connects the eastern part of the State to the western district. Apart from these main roads the district roads practically cover the entire district. The district is also now on the air map and IAC flight touches Bhopal on its way from Delhi to Nagpur. Besides these telegraph facilities are available at all tahsil headquarters, Bairagarh, Govindpura. Facilities for phones are available at Sehore, Bhopal, Bairagarh and Budni.

Some Industries in the district

Except for the Bhopal Sugar Mills at Sehore most of the large scale industries are located in Bhopal. Some of the main ones are described below:—

(1) The (New) Bhopal Textile Mill

The Mill started in 1938 as a registered joint stock company and is equipped with about 15,000 spindles and 400 looms. It mostly produces coarse cloth and obtains the raw material from the adjoining districts, Saurashtra and Berar,

(2) The Bhopal Straw Products

The Bhopal Straw Products were started in 1938. It produces plain straw, boards and corrugated straw board rolls engaging 300 labourers. It is the biggest in Central India.

(3) The Central India Floor Mill

The Floor Mills are managed by M./S. Wallace Floor Company of Bombay and produces, atta sooji, and rawa, its production touches 100 tons a day.

(4) Bhopal Sugar Industries

The Bhopal Sugar Mill was started in1938-39 It has a capacity of 1.000 to 1,200 tons per day and works for 3 to 4 months in year. It obtains its requirements mostly from neighbouring districts. During the time of Bhopal, the late ruler Nawab Hamiddulla Khan encouraged the growth of industries by offering several inducements to the enterpreneurs. These were mostly in the nature of grant of liberal concessions like exemption from octroi duty, cheap power, grant of cheap and free site of land. As a result of this policy industries grew fast between 1936-1947. Thereafter followed an era of uncertainty when the fate of the State hung in balance. As a result of this some concerns like Vegetable Ghee Factory and East India Company crumpled. Some of the other industries are the Narmada Valley Refrigerated Products (2) Bhopal Glass and Chemicals Ltd. and Bhopal Bone Mills.

HEAVY INDUSTRY

The Heavy Electricals (India) Ltd.

The Project has been set up by the Government of India in collaboration with Associated Electrical Industries of the U. K. in 1956. It went into production in July 1960, producing switch gears, power transformers, instrument transformers, traction motors The principal consumers are the State Electricity Board, Hydro-Electric Projects and the Indian Railways. When fully in production it will employ 20,000 persons. An ancillary Industrial Estate has also come up in the private sector.

SMALL SCALE INDUSTRIES

The Batwa Making and Zari Embroidery *

The Batwa (Purse) and the Zari embroidery work of Bhopal is famous all over the country. The industry was founded during the reign of Nawab Shah Jehan Begum (1844-1901) who patronised art and craft. She encouraged craftsmen to come to Bhopal and the workers in Zari are said to have come from Kanpur, Lucknow and Delhi and the craft is confined mostly to Muslims. In 1958 a co-operative society of women workers was formed. The products are mostly batwa purses.

CONCLUSION

The Lay Out

Situated mostly in the Malwa Plateau the district enjoys a mild climate and if not exactly in the centre of the State, is sufficiently in the middle part of it. The forest area in the district has steadily been decreasing and the vegetation becoming less dense. On the other hand there has been industrial growth coupled with the emergence of Bhopal as an administrative Centre. The expansion and growth continue and the district would soon outstrip others both in expansion and growth.

The District and Statistics

The District occupies 2.12 % of the space of the State and contributes 2.33 % of the population, therefore the density of the population in the district is slightly more than that for the State being 209 as compared to 190 for the State. As compared to Bastar district the biggest in area (15,124 sq. miles), Sehore is a little less than one-fourth; its area being (3,613 sq. miles) or 23.89 % of Bastar; yet it is more than four and half times bigger than Datia the smallest district of the State. Some comparable districts in area are Hoshangabad 3,856.3, West Nimar 3,751.4, Mandsaur 3,654.3 and Balaghat 3,514.2 sq. miles, as per Director of Land Records figures. In area the district ranks twenty first. In terms of population it returns a little more than one-third of the most populous district *viz.* Bilaspur and returns more than three and half times the population of Datia, the smallest in population. In population the following districts are within the same range of population as Sehore; Morena (783,348), Rewa (772, 602), Indore (753, 594) and Mandsaur (752, 085). In population the district ranks fifteenth and represents 'nearly average district in the State'. In the matter of growth over the last 60 years the district ranks 19th having shown an increase of 98.85 %. During the last decade however it tops in percentage growth which is 44.82.

The district returns one person out of every five or 21.48% as a literate. This is well below the India figure of 24.00% but a little above the State figure 17.13%. Even in the urban areas the figure of literacy 41.70% is much below the India figures of 46.91%. As compared to some of the city-districts this figure is somewhat low for, Indore (50.64), Gwalior (41.81), Ujjain (44.14), Jabalpur (48.35) have all returned higher literacy figures. The district has further returned fewer females per thousand persons 864, mainly because in the urban area of Bhopal the sex-ratio is much less being 771: but this is more or less in conformity with other districts with important cities; Indore 882, Ujjain 921, Gwalior 859

* For greater details of Zari Embroidery and Batwa making of Bhopal, the reader is referred to the monograph, "Zari Embroidery and Batwa making of Bhopal" M. P. by P. K. Dixit, a Census Publications.

and Jabalpur 924 represent more or less the same characteristics. In the case of Jabalpur and Ujjain the sex-ratio in the two cities is 809 and 872.

The Economy

The occupational returns reveal that two persons out of every five are engaged in cultivation and one out of five as agricultural labourer. Thus three persons out of five are engaged in occupations allied to cultivation. The technique of cultivation of sugar cane has been improved considerably in some areas. At the same time one out of every ten persons is engaged in either manufacturing goods as a household industry or otherwise. This underlines the industrial potential of the city. Never before were so many persons engaged in such occupation. Along with this the number of persons engaged in 'Other Services' is going up. The district is thus growing up fast and seems to be the thresh-hold of good economic growth along with considerable expansion.

IMPORTANT PLACES IN THE DISTRICT

Ashta (Pop. 8,981)

Ashta is the tahsil headquarters town lying 28 miles west of Sehore on Sehore-Dewas road. It was once the headquarters of nizamat magrib and is situated on the eastern bank of Parwati. it was once known for *al* dyeing. The industry still exists; the weavers are mostly Muslims and lately looms are being operated by electricity also. Apart from the tahsil the Block headquarters are also located along with the dispensaries both Civil and Veterinary and Police station.

Bhopal (Pop. 185,374)

The capital town of the State is situated on a sandstone ridge 1652 feet above sea level and is located between the edges of two great lakes. Legend has it that the city stands on the old site founded by Raja Bhoja of Dhar 1010-55. It has however had continuous existence since 6 July 1722, when Dost Mohammed the founder of Bhopal dynasty built the Fategarh Fort. It was however during the reign of Nawab Faiz Mohammed Khan, that Bhopal permanently became the capital of the State.

The old city is entirely towards the north of Roshanpura naka. The road coming down from Shamla hill to Minto Hall (Vidhan Sabha Bhavan) was the boundary for the old Bhopal. The new township-T. T. Nagar area was constructed mostly from 1956 onwards after the decision to locate the capital was taken. The Heavy Electricals Plant has been located about 3-4 miles east of the town.

Some of the important old buildings are the Taj Mahal, Jama Masjid, Moti Masjid. The present rulers live in the area known as Ahmadabad which is situated about two miles to the west of the town. The Raj Bhawan, Minto Hall are some of the old buildings. Among the newer buildings the following deserve some mention: The Vallabh Bhavan (1965), the Laxmi Narain Temple, the Tagore Bhavan. The Secretariat (Vallabh Bhavan) is 1840 feet above sea level. The All India Radio Station is located on the Shamla Hill. The area around Habibganj is growing fast as the offices and private housing colonies come up.

Berasia (Pop. 6,238)

Berasia town is about 24 miles north-west of Bhopal and was an old village in the Raisen Sarkar of Subah Malwa. The tahsil headquarters are located here along with a police station and Block.

Bairagarh (Pop. 16,827)

A small town ship about 5 miles west of Bhopal. It grew up chiefly as a Prisoner of War Camp during the Second World War and refugee camp thereafter. The Government Printing Press, and the airport are located here.

Budni (Pop. 2,103)

Budni village is a railway station on Itarsi-Bhopal section of the Central Railway. It is a tahsil and Block headquarters and a police station and dispensary is located here.

Ichhawar (Pop. 5,136)

The town is the headquarters of the tahsil of the same name. It lies about 12 miles south of Sehore. The area was once the jagir of Bour boun, a French noble family which migrated to India. Salvador Bournboun became a general in State Army. A Block and Police Station are located here.

Islamnagar (Pop. 853)

The village is about 6 miles to the north-west of Bhopal and played an important part in the history of the State. There are some old tombs and a primary school is located. It was here that Dost Mohammed assembled Rajput rulers for talks and then treacherously murdered them. The bodies were thrown into Tahal river subsequently known as Halali Nadi.

Jawar (Pop. 2,669)

A village in Ashta tahsil, once a tahsil headquarters. A dispensary and a police station are located here.

Sehore (Pop. 28,489)

Sehore town is 1,750 feet above the sea level at the confluence of two local streams Sewan and Lotia which have been dammed to give an adequate water supply. The British founded the Civil Station in 1818 and the State also located the tahsil. The British stationed their Political Agent and in 1929 handed the station back to the State. The town is reached by railway train and road from Bhopal being about 24 miles to the west. The disrict named after Sehore town includes the capital.

Note:—Under columns 3(a) and 3(b), (a) represents the area figures furnished by the Surveyor General of India, (b) represents the area figures furnished by the State Survey Department. The area figures of tahsils, total and rural are based on the figures of the State Survey Department.

2 The Urban area figures are collected by the Census Organisation.

3 Population per square mile has been calculated on area figures furnished by the State Survey Office.

4 Towns treated as such for the first time in 1961 are printed in italics

5. M. stands for Municipality and T. A. for Town Area.

APPENDIX—I

Statement showing 1951 Territorial Units Constituting the present set up (Only those names/areas which have undergone changes since 1951 have been shown below)

Name of District/Tahsil	1951 Territorial Units	Details of gain in territories			Details of loss in territories			Net Area Gain(+) Loss(-)	
		Brief Description	Area Sq. Miles	Area Sq. Km.	Brief Description	Area Sq. Miles	Area Sq. Km.	Sq. Miles	Sq. Km.
1	2	3	4	5	6	7	8	9	10

SEHORE DISTRICT

Note:—No territorial changes occured in the district during the decade

APPENDIX II

Number of villages with a population of 5,000 and over and towns with a population under 5,000

Note:—There is no such village or town in the district.

APPENDIX III

APPENDICES TO TOWN & VILLAGE DIRECTORY

CONTENTS

Sl. No.			*Pages*
Appendix	I—Industrial Establishments	...	297-310
Appendix	II—Towns and Villages served by metalled roads (All villages having roads in the village itself or within one mile of the village are included in the Appendix)	...	311-312
Appendix	III—Towns and Villages having railway stations within five miles	...	313
Appendix	IV—Towns and Villages having bus-stops	...	314
Appendix	V—Towns and Villages having public libraries	...	315
Appendix	VI—Towns and Villages having public reading rooms	...	316
Appendix	VII—Towns and Villages having pucca wells for the supply of drinking water together with their number	...	317-321
Appendix	VIII—Towns and Villages having public latrines	...	322
Appendix	IX—Towns and Villages having drains	...	323
Appendix	X—Towns and Villages in which weekly or fortnightly markets are held together with the days on which held	...	324
Appendix	XI—Towns and Villages having co-operative societies together with the description of the society	...	325-327

APPENDIX I

INDUSTRIAL ESTABLISHMENTS

Note—This appendix has been prepared from information abstracted from the houselists. It is arranged first districtwise; that is, under the name of the district have been arranged the industries in ascending order of minor groups, showing the total number of establishments within brackets next to each minor group. The information has been shown by total, rural and urban separately. The figures for the tahsil follow the figures for the district as a whole. The total, rural and urban figures for each tahsil for each minor group of industry showing the number of establishments in each in brackets have been presented first. Then follows the list of the villages in the order of their location code numbers with the location code number appearing first, followed by the name of the village. Against each village is shown the minor group or minor groups of industry found in the village with the number of establishments in that minor group shown within brackets against each minor group. For towns, figures have been presented separately for each ward, the number of ward being given first, followed by the industrial code numbers etc. as in the case of villages.

The following examples will make the above note clear .—

Sehore District total 200(305) signifies that there are 305 establishments in Sehore District pertaining to Minor Group 200, which stands for "Production of rice, atta, flour etc. by milling, dehusking and processing of crops and foodgrains". Berasia Tahsil total 207(33) signifies that there are 33 establishments in Berasia Tahsil pertaining to Minor Group 207, which stands for "Production of edible fats and oils" (other than hydrogeneted oil".) Village 1 Surajpura 369(1) signifies that in village Surajpura, which has 1 as its location code number there is one establishment pertaining to Minor Group 369, which stands for "Manufacture of sundry hardwares such as G. I. pipe, wire net, bolt, screw, bucket, cutlery" Berasia Town, Ward No. 2, 282(1) that there is one establishment located in Ward No. 2 of Berasia Town pertaining to Minor Group 282, which stands for "Manufacture of structural wooden goods (including treated timber) such as beams, parts, doors windous."
