JAFRABAD PORT

The town of Jafrabad is a flourishing sea port situated on a fine creek about a mile distant from the Arabian sea. Jafrabad is known for fishing and salt work. The main fishing industry is concentrated at the port of Jafrabad which is one of the most important fishing ports of the Gujarat State and one of the most important landing centers in India. This port, with a well-sheltered creek, capable of accommodating many large fishing boats and with potential fishing grounds nearby, attracts a large fleet of boats from the South Gujarat coast every year. In Jafrabad, there are about 17,492 active fishermen belonging to Kharva-Koli community. The revenue receipts from Jafrabad Port thus come to about Rs. 662 lakhs during year 1999-2000.

During the Third Plan the Government has established a research centre at Jafrabad which has standardised the process of lamination of Bombay Ducks. The Government has also constructed a Jetty at a cost of Rs. 4.41 lakhs to minimise the navigational hazards in the process of fish catching. Jafrabad has a one Co-operative Society run by the fishermen which advances loans to fishermen and runs a fair price shop also.

Annexure - VIII : Distribution of different Mother Tongues returned in 2001 Census 596

FOREWORD

The District Census Handbook (DCHB) published by Census Organisation since 1951 census, is one of the important publications in the context of planning and development at gross-root level. The publication, which is brought out for each district, contains several demographic and socio-economic characteristics village-wise and town-wise of the district alongwith the status of availability of civic amenities, infrastructural facilities, etc.

2. The scope of the DCHB was initially confined to a few Census Tables and Primary Census Abstract (PCA) of each village and town within the district. Thereafter, at successive censuses, its scope and coverage has been enlarged. The DCHB published at the 1961 census provided a descriptive account of the district, administrative statistics, census tables and a village and town directory including PCA. The 1971 census-DCHB series was in three parts: Part-A related to village and town directory, Part-B to village and town PCA and Part-C comprised analytical report, administrative statistics, district census tables and certain analytical tables based on PCA and amenity data in respect of villages. The 1981 census DCHB was in two parts: Part-A contained village and town directory and Part-B the PCA of village and town including the SCs and STs PCA up to tahsil/town levels. New features alongwith restructuring of the formats of village and town directory were added into it. In Village Directory, all amenities except electricity were brought together and if any amenity was not available in the referent village, the distance in broad ranges from the nearest place having such an amenity, was given. Information on new items such as adult literacy centres, primary health sub-centres and community health workers in the village were provided so as to meet the requirements of some of the Revised Minimum Needs Programme. Information on approach to the village was provided for the first time in the Village Directory so as to give the details on number of inaccessible villages in each district. In the Town Directory, a statement (IV-A) on slums was introduced to provide the details on civic and other amenities in the notified slums of Class I and Class II towns.

3. The 1991 census DCHB, by and large, followed the pattern of presentation of 1981 census, except the format of PCA was restructured. Nine-fold industrial classification of main workers was given against the four-fold industrial classification presented in the 1981 census. In addition, sex-wise population in 0-6 age group was included in the PCA for the first time with a view to enable the data users to compile more realistic literacy rate as all children below 7 years of age had been treated as illiterate at the time of 1991 census. One of the important innovations in the 1991 census was the Community Development Block (CD block) level presentation of village directory and PCA data instead of the traditional tahsil/taluk/PS level presentation. It was expected that the presentation of village directory and PCA data at CD block level will help the planners in formulation of micro level development plans, CD block being lowest administrative unit.

4. The present series of 2001 census DCHBs have been made more informative and exhaustive in terms of coverage and content. The Village Directory has been enlarged in scope by including a number of other facilities like banking, recreational and cultural facilities, newspapers and magazines and 'most important commodity' manufactured in village. Income and expenditure of gram panchayat, wherever possible, has been provided. Apart from these, more details on distance(s) at which basic amenities are available (if not available in the village), are given. This includes educational facilities (namely primary and middle schools and college), medical facilities (viz. Allopathic Hospital, Maternity & Child Welfare Centre and Primary Health Centre), drinking water, post & telegraph (post office and phone), communication, bank, credit societies and recreational facilities. In Town Directory, the statement on Slums has been modified and its coverage enlarged by including details on all slums instead of 'notified slums'. The information is given in case of all statutory towns irrespective of their class, against only Class I and Class II towns in the 1981 and 1991 censuses. The basic amenities available in the villages and towns are analysed in depth with the help of a number of cross-classified inset

tables and statements. Two other significant additions in the publication are inclusion of 'motif' highlighting significant characteristic of the district and analytical notes as annexures. The analytical notes on (i) fertility and mortality and (ii) various measures of fertility and mean age at marriage are prepared based on 1991 Census. Whereas, in the notes relating to (i) percentage distribution of migrants by place of birth/place of last residence, (ii) main religions, (iii) marital status of population, (iv) age, sex and education, and (v) distribution of spectrum of mother tongue nature and extent of changes occurred in the district in its basic socio-demographic features during the decade 1991-2001 are analysed. The eight digits permanent location code (PLCN) to all the villages and towns have been assigned keeping in view the future needs.

5. The village and town level amenity data have been collected, compiled and computerised in prescribed record structure under the supervision of Shri **JAYANT PARIMAL** Director of Census Operations **GUJARAT**. Thereafter, efforts have been made to ensure comparability of the information with that of 1991 census data and the information brought out by the respective state governments in their annual reports and statistical handbooks for various years after 1991. The task of planning, designing and coordination of this publication was carried out by Shri R.G. Mitra, Deputy Registrar General (C&T) and Dr. I. C. Agrawal, Senior Research Officer of Social Studies Division, Dr. R. P. Singh, Deputy Registrar General (Map) provided the technical guidance in the preparation of maps. Whereas, Shri Anil Kumar Arora, Deputy Director of Data Processing Division who worked under the overall supervision of Shri Himakar, Addl. Director(EDP) helped in preparation of record structure for computerisation of village and town directory data and the programme for the generation of Village Directory and Town Directory statements including analytical inset tables. The draft DCHB manuscripts received from the Census Directorates have been scrutinised in the Social Studies Division under the guidance of Shri S. L. Jain, Deputy Director and Shri R.K. Mehta, Assistant Director. I am thankful to all of them and others who have contributed to make this publication possible.

D. K. Sikri
Registrar General &
Census Commissioner, India

New Delhi
Dated : 17.10.2006.

P r e f a c e

Census is being conducted in the country every ten years as per the programme laid down by the Government of India. In these day and age of information technology, an individual has access to a variety of information covering a Kalidoscope of interest and fields. Availability of relevant information is very vital for planners, policy makers and researchers.

The Five Year Plans have come to stay in the country and whatever development is achieved as a result of implementation of planning from the bottom level such as development of infrastructure facilities as well as basic amenities, etc. is reflected in the District Census Handbooks and they give to the readers a searching eye whether the development over the years in villages/talukas/districts is lopsided or upto the mark. This is the basic requirement of this type publications and an attempt has been made to show whether the census handbooks reasonably fulfill these aspirations/requirements.

These district Handbooks are thus useful to planners in planning from bottom as well as to administrators, researchers, educational institutions including universities and other socio-economic research centres as well as students conducting research in demography, social and economic studies as well as to the local bodies like Panchayats, Municipalities and Municipal Corporation etc.

District Census Handbook of Gujarat is a joint venture of the Government of Gujarat and the census organization of the Government of India. In the preparation of the DCHB, the role played by the census organisation is that of Census data collection, scanning of collected information, analysis of PCA. DCHB Unit of the State Government collected the basic non-census inifonnation on availability of amenities relating to infrastructure in the villages of the district presented in the part A of this book. The cost of this publication is borned by the State Government. In accomplishing this task we had the ready and whole hearted co-operation of the staff at various levels of different department of the State Government. Most of the data supplied by the various departments have been cross-checked and an attempt has been made to reconcile the discrepancies as well.

I express my deep gratitude to the officers of Gujarat Government particularly Shri PK.Laheri, Chief Secretary of Gujarat State, Smt. Netraben Sinoy, Additional Chief Secretary of General Administration Department (Planning), Shri George Joseph, Principal Secretary, General Administration Department (Personnel), Shri K.R.Vasava, Deputy Secretary, Kum.P.S- Mevada, Under Secretary and Shri P.D.Kulkarni, Section Officer of General Administration Department, Planning, Shri S.D.Mehta,Deputy Secretary and Shri I.M.Sheikh, Under Secretary, Shri Bipin Patel, Section Officer and Shri P.N.Christian, Deputy Section Officer of G.A.D. (Kh-3) for their valuable help and co-operation in fulfilling all administrative requirement in time for bringing out this publication. I am also thankful to Shri P.M. Patel, Director, Economics and Statistics helped this organisation not only by placing the competent personnel on disposal of census services on deputation but also provided valuable official statistics for this publication.

The District Collector, the District Development Officer, District Statistical Officer, District Information Officer and their staff members extended their warm and whole hearted co-operation for carrying out field work of the census and collection of non-census data for this District Census Handbook.

I am deeply grateful to Shri J.K. Banthia. I.A.S., the Ex-Registrar General and Census Commissioner, India for the benefit I have derived by the way of guidance and advice. I also express my thanks to Shri G. Mitra, Deputy Registrar General(C&T) Shri C. Chakravorty, Joint Director, Shri I.C. Agrawal, Senior Research Officer(SS), Shri S.L. Jain, Deputy Director(SS), Shri R.K. Mehta, Assistant Director(SS), Shri R.P. Singh, Dy. Registrar General(Map), Shri Himakar, Addl. Director (EDP) and Shri Anil Kumar Arora, , Deputy Director (EDP) for providing technical guidance in finalising this publication. I am extremely thankful to Shri D. K. Sikri, IAS, Registar General & Census Commissioner, India for his valuabe guidance in finalizing of this publication.

Shri Jayant Parimal, I.A.S. who held the office of Director of Census Operations, Gujarat, had guided the operations of the 2001 Census. The data presented in this handbook were collected and compiled under the able direction and guidance of Shri Parimal.0ur sincere and grateful thanks for all the projects of census to him.

In state office Smt. B.B. Chauhan, Deputy Director, District Census Handbook Unit, Kum.S.B.Dabhi, Assistant Director, Shri S.B. Dalvi, Deputy Section Officer of District Census Handbook Unit, and their team of able assistants meticulously collected and scrutinized the non-census data from various sources and prepared draft of D. C. H. B. etc. with the help of Census section. The other officials of D. C. H. B. Unit, who scrutinised, edited and supervised the work of D. C. H. B. have been mentioned in the "Acknowledgement". The maps provided in the D. C. H. B. are prepared by the Map Section of the Census Directorate under the supervison of Shri J.P. Purohit, R.O(Map). I am thankful to all of them.I am thankful to the census section of the Directorate for scrutinizing the PCA data, specially Shri J.N.Pithadia, Investigator Grade-I and Kum.N.V.Shah, Investigator Grade-III who provided assistance to me in finalizing P.C.A. data at every stage. Smt. J.R.Sanghani, Investigator Grade-III of this Directorate assisted me for final scrutiny of D. C. H. B., I am thankful to her.

Lastly, 'I am thankful to the Government of Gujarat for having agreed readily to bear the cost of publication of the District Census Handbook volumes and for the special efforts of Shri R.B. Raval, Director, Printing and Stationary and his colleagues to print out the publcation in a very nice fashion.

District Highlights – 2001 Census

AMRELI

(1) Amreli district is the 18th district in terms of population in the state.

(2) Amreli is the 11th largest district in area.

(3) The density of population in the district is 188.

(4) Amreli district is the 20th dense district in the state.

(5) Amreli district ranks 1st in sex ratio among all the districts of the state.

(6) Dhari is the most populated village in the district having population of 26,984 persons while Punjapar is the least populated village having population of only 24 persons.

(7) The economy of the district is basically depending upon agriculture as 63.5 per cent workers are engaged in primary sector.

(8) There is a fractional increase in main workers in the district during the decade.

(9) Non-metallic mineral products, cotton textiles and machinery and equipment other than transport equipment, scientific equipment, photo graphic/cinematographic equipment and watches are the most important non agricultural economic activity of the district.

(10) There are 617 villages in the district, out of which 615 are inhabited villages and 2 are uninhabited villages.

(11) Sarasiya village has the largest area of 6,027.4 hectares and Shiyalbet village has the lowest area of 75.3 hectares among the villages of the district.

(12) District has a coastal area on the Arabian Sea from village Rohisa of Khambha taluka to Victor village of Rajula taluka.

(13) Pipavav is the important port in the district.

Note: *These figures represent 'Geographical area' figures supplied by the Surveyor General. Figures for urban area are those supplied by the local Bodies. Area figures for rural are derived by subtracting the urban area from the total area of the District. The total of the area figures of talukas will not tally with the district figures because the former represents 'Land Use Area' and are derived from the figures supplied by the Director of Land Records.

ANALYTICAL NOTE

ANALYTICAL NOTE

(i) History and Scope of the District Census Handbook :

Before the 1951 Census, the Census figures were published in a booklet known as 'Village Hand-book', which contained only villagewise population figures. These books were prepared and published by the Directorate of Census Operations of the State.

The Directorates introduced the District Census Handbook for the first time in 1951 Census. It comprised the villagewise primary census abstract figures and information on available amenities. It also contained several tables relating to the district. It varied in content and size from State to State depending upon the resources offered by the respective State Governments.

In 1961 Census, a uniform pattern of District Census Handbook was adopted throughout the country. The Directorate of Census and the State Government jointly executed the project. In addition to the English version, it was published for the first time in Gujarati language also. The District Census Handbook 1961 was published in three parts. Part I related to Introductory Note i.e. general and economic information for the district and a brief gazetteer of place names. Part II pertained to census tables, villagewise list of industrial establishments, tables on handicrafts and departmental statistics. Part III consisted of village directory covering the amenities and primary census abstract data combined in one statement. It also covered district and taluka maps.

It is worthwhile here to note that the State Government has created a separate unit for preparing and publishing The District Census Handbook since 1971 Census. In the 1971 Census, the contents of District Census Handbook were modified. In the preceding censuses the data on amenities and primary census abstract were covered in one statement whereas in 1971 Census, the data on amenities and primary census abstract were separated into two different parts. Thus, the coverage of amenities data was extended and the land use data were introduced for the first time since 1971 District Census Handbook. Moreover, a separate portion known as 'Town Directory' was also incorporated for the first time in the District Census Handbook. The 1971 District Census Handbooks were published in three parts. Part A contained the village and town directory. Part B contained village and townwise primary census abstract data and Part C contained official statistics, besides full count census tables, urban census tables and analytical report on census and related statistics on socio-economic and cultural tables (Rural areas) and housing tables. Part A and Part B were combined and published in one volume.

The District Census Handbook –1981 was brought out in two parts, Part-A and Part-B. Part-A contained the village and town directory whereas Part-B included the primary census abstract data for both General population and Scheduled Castes/Scheduled Tribes. Both parts were published in one volume. Part C brought out for 1971 Census was dropped in 1981 Census. However, official statistics and some portion of analytical notes of part C of 1971 Census were included in the 1981 District Census Handbook also.For the 1991 Census, the District Census Handbooks were prepared more or less on the same lines of the preceding Census of 1981. In 2001, the scope of both Part A and Part B has been enlarged by giving several additional information due to large scale computerization.

The District Census Handbook has been prepared after scanning and processing of data collected through Houselist Schedule and Household Schedule. Several innovations have been introduced mostly at all the stages of the Census of India, 2001, right from the preparatory efforts of data processing to data dissemination stage. This includes certain fundamental changes in the form and contents of the Houselist and Household schedules, maintaining the continuity and comparability of the basic housing and population characteristics with the earlier census. For the Census of India 2001, a system of Permanent Location Code Number (PLCN) has been adopted by assigning a population number to each village within the State/UT a continuous series from I to N. Each village has been

assigned an eight-digit code. The last two digits being '00' are kept for accommodating future changes in case of split of an existing village or creation of new villages etc. Since the permanent Location Codes have been assigned to each village, theoretically tracing the precise location of village on account of future jurisdictional changes in the boundaries of various administrative areas within the state should not pose a problem. It is imperative that under this scheme, the PLCN assigned to villages at the Census of India, 2001 are adopted in future censuses also to ensure the comparability of the data at the village and other administrative levels over a long time series.At the 2001 census age at marriage was collected for males also, while it was collected for only ever-married females until the 1991 Census,the type of educational institution attended by a person was enlarged to include school, college, vocational institute.The scope of the definition of 'work' was expanded in the Census of India, 2001, this includes production of milk for domestic consumption. In the 1991 Census, cultivator of certain crops even for self-consumption was treated as economic activity. The scope of the term 'Cultivation' was expanded in this Census to include certain other crops such as tobacco, fruits, all types of flowers, roots and tubers, potatoes, chilies and turmeric, pepper, cardamom, all types of vegetables and fodder crops etc. This meant that activities related to production of all the above-mentioned crops for domestic consumption has been treated as work. Only five crops viz. tea, coffee, rubber, coconut and betel nuts have been classified under 'Plantation' in the Census of India 2001.

- At the 2001 census age at marriage was collected for males also, while it was collected for only ever-married females until the 1991 Census.

- The type of educational institution attended by a person was enlarged to include school, college, and vocational institute.

- The scope of the definition of 'work' was expanded in the Census of India, 2001, to includes production of milk for domestic consumption. In the 1991 Census, cultivator of certain crops even for self-consumption was treated as economic activity. The scope of the term 'Cultivation' was expanded in 2001 Census to include certain other crops such as tobacco, fruits, all types of flowers, roots and tubers, potatoes, chilies and turmeric, pepper, cardamom, all types of vegetables and fodder crops etc. This meant that activities related to production of all the above-mentioned crops for domestic consumption have been treated as work. Only five crops viz. tea, coffee, rubber, coconut and betel - nuts have been classified under 'Plantation' in the Census of India 2001.

- At the 1991 Census, the question on seeking/ available for work was canvassed for only non-workers. At the Census of India 2001, this question is asked from the Marginal Workers also. A question to elicit information on secondary work canvassed at the 1991 Census was dropped.

- From among the categories of non-workers adopted at the 1991 Census, the category 'Inmates of institutions' has been dropped and 'Retired Persons and Rentiers' has been replaced by the category 'Pensioners'.

- A new response category 'Moved after birth' was included in the question on reason for migration to bring out additional migration patterns. Natural calamities or distress migration as a reason for migration for last residence migrants included in the 1991 Census is covered under category of 'Other'.

- Number of children born alive to currently married women during last one year was collected for male and female children separately.

Besides the above modifications, the following new questions were canvassed at the 2001 Census.

- A question on total disability was canvassed in the 1981 Census but in 1991 Census there was no provision for question on disability. At the present Census of 2001, a question to elicit information on total or partial disability was canvassed. The five types of disabilities on which information was collected are - in seeing, in hearing, in speech, in movement and for mentally disorderness.

- A new question on 'Travel to place of work' is canvassed mainly for workers engaged in non-agricultural activities. Information on distance from the residence to place of work and mode of travel to place of work was collected under this question.

The mode of presentation of DCHB in 2001 will by and large be same as that of 1991. The uniqueness of Census 2001 is that single record (Household Schedule) has been processed as against two records viz. Individual Slip and Household Schedule in the previous Censuses. Apart from this some deviation has been made this time by incorporating analytical notes on migration, fertility & mortality, education, marital status, age structure etc. pertaining to 1991 Census of the respective district in the DCHB in the form of Annexure II to VIII. Similarly Tables based on Houselist data pertaining to Census 2001 have also been included in DCHB.

(ii) Brief History of the District :

The Amreli district derives its name from the town of Amreli, which is the headquarters of the district. The ancient name of Amreli town appears from a stone inscription in the Nagnath temple to have been Amarvalli. The Amreli district originally formed part of the former Baroda State. On integration of that State with Bombay State in May,1949. the district became a part of the former Bombay State. It consisted of areas of Amreli and Okhamandal districts of the former Baroda State with the addition of Ghogho mahal from Ahmadabad district. The Ghogho mahal and Okhamandal areas were merged in the districts of Bhavnagar and Jamnagar and certain areas from the districts of Bhavnagar, Rajkot and Junagadh were transferred to the Amreli district.

The Maratha Sardar Damajirao Gaekwad established military outposts (Thanas) at Amreli and Lathi in 1742-43 A.D. Up to the year 1820, Kathiawad was controlled by Gaekwad's victory. Vitthalrao Devaji, who resided at Amreli, the capital of the possessions which had been acquired by the Gaekwad. The next acquisition in point of order was Damnagar formerly called Chabharia and six villages which were given to Damajirao Gaekwad in dowry at the time of marriage of his daughter by Lakhaji of Lathi. To this nucleus, Vithalrao Devaji added by getting some villages taken over by Kathis of Babra and others. These acquisitions made up Damnagar mahal of 26 villages. Later on this mahal was amalgamated with Lathi taluka which was trans ferred to this district under the scheme of reorganization of district. The fort of Dhari in the last century belonged to the Thebani Kathis of Sarasia, who ceded it to a noted free booter named Raning Vala. The taluka of Dhari was annexed by the Gaekwad when Raning Vala had gone out for *Baharvata* or outlawry. The precise date when the Gaekwad first placed foot in Kodinar is unknown but he had a post at Mul-Dwarka for the maintenance of which Nawab of Junagadh ceded one half of the revenue of Kodinar. The remaining share of Nawab was obtained by the Gaekwad by arrangements concluded with Bahadur Khan who was helped by the Gaekwad in establishing his claim to the throne of Junagadh after the death of Nawab Hamid Khan in 1811. Besides the former Prant of Amreli under Baroda State, the present day district includes various other areas also. Rajula area originally belonged to Babarias of Babariadhar and then to the Nawab of Junagadh from whom the Bhavnagar ruler annexed it in 1786-87. Babra and Chital were under Kathi rulers and petty chieftains. Jafrabad originally belonged to Danda Rajput State. Sidi Hilal of Janjira who became independent when the Mogul power was waning both in Gujarat and the Peninsula. He was appointed Governor of that place which became a dependency of the Janjira State.

Bhoja Bhagat who wrote satirical poems (Chabkhas) aiming at futility of wordly life and exposure of hypocrisy of religious leaders of his time belonged to village Fatehpur of Amreli taluka. The famous king poet of Gujarati literature, Thakor Saheb Sursinhji also known as 'Kalapi' was the ruler of the former Lathi State now forming part of Amreli district.

In November, 1956, that States were reorganised and the bigger bilingual State of Bombay was formed with Vidarbha, Marathawada, Saurashtra and Kachchh regions and Amreli district became a part of the bigger bilingual State. In 1959, this district was reorganised by effecting several territorial changes.

Lastly, the Bombay State was bifurcated on 1st May, 1960 and separate State of Gujarat and Maharashtra were formed. Since that date the Amreli district became a part of the Gujarat State.

(iii) Administrative Set-up :

With a view to run the administration of the State smoothly, it has been divided into Districts, which in turn have been further sub-divided into Talukas (Tahsils). In the State of Gujarat, the community development blocks are co-terminus with the Talukas. The Talukas contain large number of villages and possibly several towns. The villages have Village Panchayats to run the local administration. A Village Panchayat may constitute of one revenue village, several revenue villages or a part of a large village. Similarly, the towns have Municipality or Municipal Corporation as the seat of local self-government.

In the State of Gujarat, as on December 1999 there were 25 districts and 226* Talukas, against 19 districts and 184 Talukas in 1991 Census. In 1997 by several notification(s), Government of Gujarat reconstituted some districts and talukas in the State.There were 10 talukas in the 1991 census .Government vide Notification No.GHM-97-84-M-PFR-1097-L dated 24th September, 1997 reconstituted Amreli District excluded Kodinar taluka and transferred it to Junagadh district. Savar Kundla taluka of Bhavnagar district has

* Vagdod taluka merged in the Patan taluka of the Patan district on 3rd July 2001.

been transferred to this district. Further Kunkavav Vadia taluka was bifurcated and new Bagasara taluka has come into existence vide Government Notification No. GHM-97-M-PFR-1797-2588-L dated 15th October,1997. Now Amreli district has 11 talukas.

The District Collector looks after the general administration, maintenance of collection of land revenue and settlement of law related disputes,civil supplies, district planning, mid-day meal scheme, etc. at the district level. At the Taluka level, Mamlatdar looks after the land development and revenue collection along with law and order.

The functions of administration of law and order and control and investigation of crime are done by the Superintendent of Police of the district with the help of several Police Stations working under him. For the purpose to maintaining law and order there are 3 police stations, 21 police Chowkies and 17 out post as per the statement below:

Police Station in the District

Sl. No.	Particulars	1997	1998	1999

Source : Director General of Police, Gandhinagar,2000

The Panchayati Raj institutions are fairly strong and most of the development works have been transferred to the District Panchayats and its subordinate bodies. The District Panchayat has an elected President and District Development Officer appointed by the Government works as its Secretary who looks after day-to-day work related to the development. Similarly, at the Taluka level, Taluka Panchayats have been constituted which have an elected President. The Taluka Development Officer, placed by the Government as Secretary of the Taluka Panchayat and he conducts the regular administrative work. Likewise, an elected President heads the Municipality and the Chief Officer works as the Secretary of the Municipality, who looks after the day-to-day work. In case of the large cities, the State Government has constituted Municipal Corporations, which are headed by an elected Mayor and the Municipal Commissioner, appointed by the Government, looks after the routine work. At the Village level, the Sarpanch is the elected Chief and the Talati (Village Mantri) works as the Secretary to the Village Panchayat and looks after the day-to-day work. In view of the expanding role of the public administration in a state like Gujarat, the Government has taken-up many activities and has set up several offices. Such offices which came into the existence are as under:

(1) Education (Primary and Higher Education)
(2) Agricultural and Research
(3) Animal Husbandry and Poultry
(4) Forest and Environment
(5) Roads and Buildings, Bridges
(6) Co-operation and Co-operative Societies
(7) Industries, Small and Large as well as Cottage
(8) Health and Medical Services, Medical Education and Research, Family Welfare and Nutrition
(9) Information Department
(10) Irrigation, Minor and Major
(11) Social Welfare and Social Defence

The functions of above offices are managed and controlled by concerned Head of Departments and in some cases also by District and Taluka Panchayats. The task of providing primary education in rural areas has been entrusted to District Panchayats. The functions related to Government of providing primary education is assigned to District Primary Education Officer of District Panchayat who works under District Development Officer. The secondary education is looked after by District Education Officer of Education Department. Primary education as well as higher secondary education of all types is governed by District Education Officer.

Agriculture activities have been delegated to District Panchayat to a large extent and District Agriculture Officer is in-charge of looking after agricultural produce including crops and vegetables. Similarly Animal Husbandry is also a Panchayat activity and routine work is controlled by the Deputy Director (Animal Husbandry) who sits in District Panchayat taking care of animals and poultry farms. Besides, district agriculture office in Panchayat Offices such as Deputy Director (Agriculture) and other officials look after various aspects of agriculture for developing the sector as well as to extend necessary assistance to farmers at district level.

Besides Director, Animal Husbandry Officer of Panchayat offices such as Deputy Director (Animal Husbandry) Special Officers at Veterinary Offices etc. in state government animal husbandry department also monitor activities of the sector at district level.

Public Health in rural area is assigned to the District Panchayat under the Chief District Health Officer who looks after epidemics, malaria control, water borne diseases and district level administration of Public Health Centres. District and Talukas Hospitals and Referral Hospitals are being looked after by the District Civil Surgeon of medical services in the State, while Medical Colleges and Research activities attached with the respective Civil Hospitals are controlled by Medical Education and Research Wing.

Family welfare activities are also monitored by the District Health Officer. Chief District Health Officer is also functioning as District Registrar of Birth and Death of the district and Talati cum Mantri is also Registrar of Death and Birth for the respective villages. Anaemic mothers and children upto to the age of 14 are looked after by Nutrition Officer under the Nutrition Programme.

District Ayurvedic Officer looks after the Ayurvedic dispensaries and hospitals. They also take care of the Ayurvedic plants and medicines and gardens. The District Food and Drugs Officer generally looks after the quality of the food and drugs in the district. Labourers and workers who are working in registered units are covered under the Employees State Insurance Scheme.

The rural roads have been transferred to the District Panchayats and their maintenance is done by the Executive Engineer, Roads and Buildings Department. Minor irrigation works are transferred to the District Panchayat and Executive Engineer (Panchayat) of the Panchayat's irrigation office looks after water harvesting and check dams.

The Roads and Buildings Department of State Government looks after the maintenance of roads, buildings, bridges and government multi-storey buildings etc. Besides Panchayat officials, major district roads and the state highways are looked after by the Executive Engineer (Roads & Buildings). The large multi-purpose irrigation projects are controlled by State Government directly through its Executive Engineers.

District Industry Centre is functioning to develop the small and village industries, handloom industries and the scope of industrial growth in the district. Besides, other departments are working for the rights of the industrial workers and rural labourers engaged in agriculture and other sectors.

Social welfare activities relating to the Scheduled Castes, Scheduled Tribes, Other Backward Castes and Other Backward Communities in the District are organized by the District Welfare Officer. Generally the schemes under Tribal Area Sub Plan and Special Component Plan are organized by the District Welfare Officer.

In each District Panchayat, District Statistical Officer of Directorate of Economics and Statistics looks after co-ordination of different development programmes. He is also Member-Secretary of District Planning Board. Similarly in every Collector Office, District Planning Officer looks after development work of various Governments (State & Centre) sponsored programmes.

Co-operative Societies i.e. Co-operative Milk Societies, Agricultural Produce Market Societies, Co-operative banking and other co-operative societies are controlled by the District Registrar, Co-operative Societies.

The talukawise break up of towns and villages in the district are shown in the following statement.

Talukawise Number of Towns and Villages

Sl. No.	Name of Taluka	Number of Towns	Number of Vilages	
			Total	Inhabited
1	2	3	4	5
1	Kunkavav Vadia	-	45	45
2	Babra	-	57	57
3	Lathi	2	49	49
4	Lilia	-	37	37
5	Amreli	1	70	70
6	Bagasara	1	31	31
7	Dhari	1	77	75
8	Savar Kundla	1	80	80
9	Khambha	-	57	57
10	Jafrabad	1	42	42
11	Rajula	1	72	72
	Total	**8**	**617**	**615**

The civic status of the 8 towns is as under

Census Town	:	1
Municipality	:	7
Total	**:**	**8**

Four towns are declassified into villages in 2001 Census. The talukawise list of declassified towns is shown in the following statement.

Talukawise List of Declassified Towns

Sl. No	Name of Taluka	Name of Village	LC 1991	LC 2001
1	2	3	4	5
1	Dhari	Dhari	II	00933600
2	Rajula	Dungar	V	00959900
3	Kunkavav Vadia	Vadia	VIII	00904800
4	Babra	Babra	X	00910100

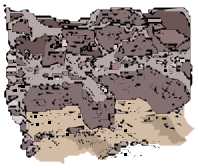

(iv) Physical Features :

Amreli district is situated in the southern part of Saurashtra peninsula. It lies between the parallels of latitudes $20^0 47'$ to $22^0 2'$ and the meridians of longitudes $70^0 46'$ to $71^0 40'$. The length from north to south of this territory is about 138.1 kms and from east to west about 96.8 kms. It is bounded in the north by the Rajkot district, in the east by the Bhavnagar district, in the west by the Junagadh district and in the south by the Arabian Sea. The area covered by the district is 7,397 Sq.km. It is 11th largest district in area in the State.

Physiography :

The district Amreli is a part of Kathiawar Peninsula and is sub-divided into 4 sub-micro regions, namely, Bhadar River Plain, Shetrunji River Plain, Gir Forest Upland and Amreli Coastal Plain on the basis of topography, climate, geology soils and natural vegetation.

Bhadar River Plain :

The region extends over north-western part of the district and occupies the major parts of Babra and Kunkavav Vadia talukas. It is enclosed by Rajkot district from west and north and by Shetrunji River Plain from east and south.

The region has maximum elevation of 216 metres above M.S.L. in the north of Babra town and the minimum height is recorded at 131 metres near Vadia town. The general slope of the region is towards north-west. The tributaries of Bhadar river are drained in the region. The geology of the region pertains to Deccan Trap and Trap dykes and it has Orthents-Ochrepts and Usterts-Ochrepts types of soils.

Shetrunji River Plain :

The region extends over north-eastern part of the district, occupying Lathi, Lilia, Amreli and parts of Babra, Kunkavav Vadia and Dhari talukas. It makes its limits with Bhadar River Plain in the north, Bhavnagar district in the east, Amreli Coastal Plain in the south and Junagadh district in the west.

The elevation of the region varies between 103 metres and 272 metres above M.S.L. and the general slope is towards east. Shetrunji and Kalubhar are the principal rivers of the region. Geologically, the region is formed of Deccan Trap and Trap dykes and soils found in this region are Orthents-Ochrepts and Usterts-Ochrepts.

Gir Forest Upland :

The region spreads over the south-western part of the district, occupying Khambha and parts of Dhari and Rajula talukas. It is surrounded by Shetrunji River Plain from north, by Bhavnagar district from east, by Amreli Coastal Plain from south and by Junagadh district from west.

The terrain of the region is predominantly rugged and undulating with an elevation ranging from 134 metres to 648 metres above M.S.L. and south-western part is covered with Gir Forests. It has northward and southward slopes being highlands in the middle of the region. The geological structure of the region is composed of Deccan Trap and Trap dykes and it contains Orthids-Aquepts and Orthents-Ochrepts soils cover.

Amreli Coastal Plain :

The region extends over the coastal parts of the district, occupying Jafrabad and part of Rajula taluka. It makes its boundaries with Gir Forest Upland in the north, Bhavnagar district in the east, Arabian Sea in the south and Junagadh district in the west.

In this region, the elevation ranges between 5 metres and 147 metres above M.S.L. and the general slope is towards south. The geology of the region consists of Alluvium, blown sand, etc., Nari and Gaj Series, Sub-Nummulitic Beds, Deccan Trap and Trap dykes. Orthids-Aquepts type of soils are found in the region.

Hills :

The hills in the district are scattered in different talukas. Though they have no high altitudes, they form one of the chief natural features of the district.

The northern taluka of Babra and adjoining areas which form the part of the central tableland of Saurashtra is formed of undulating land with ill-defined barren hill ranges. This area is the most elevated region of the Saurashtra peninsula. The highest elevation of 1,100 feet is at Salemal. The northern and eastern parts of Amreli and Lathi talukas are also covered by small hills and plateau. Apart from these hilly areas, the Gir range, which comprises five small hills viz. Sakarla, Rojmal, Chakrosar, Nandivela and Lapla, stands out as another important hilly area. The Sakarla hill is located in the extreme west and is 2,128 feet in height, while the Rajmal attains the height of 1,623 feet. The Chakrosar hill is situated between the

rivers of Bhimcha and raval and reaches a height of 1,450 feet. The Nandivela hill stands between the rivers of Bhimcha and Malan and rises to 1,741 feet. The Lapla hill lies in the north-west direction of Nandivela hill and has an altitude of 1,547 feet. In addition to these hills, a cluster of hills called 'Zar' streching over an area of 9 miles area located in Dhari taluka and a few scattered hills, which nowhere attain an altitude of 400 feet are seen in the extreme north of the Kodinar taluka of Junagadh district.

Drainage :

Three major rivers, viz. the Shetrunji, the Ghelo and the Kalubhar only flow through some parts of the district. There are also other minor rivers and rivulets called the Gagadio, the Rampur, the Thebi, the Satali, the Dhatarwadi, the Raval, the Shingavdo, the Somat, the Rangholi and the Vadi.

The Shetrunji rises in the Dhundi hills of Gir and meanders for about 100 miles. On its passage, it receives a number of small feeders among them are the vadi and the Thebi which join it near Amreli. The Shetrunji river has a water fall of about 50 feet known as – Khodiyar Mata fall near Dhari. A Dam has been constructed to harness the waters of this river for the purpose of irrigation. The river shell running a distance of 8 miles in the Amreli district. The Somat, the Shingavdo and the Sangawdi are flow into the Arabian Sea. Khodiyar Mata water fall of about 50 feet near Dhari of the Shetrnji river.

Islands :

On the coastal areas of the district are some small islands such as Chanch, Shial Bet and Savai Bet.

Chanch, which though at high tide nearby surrounded by water, it is a narrow strip four or five miles long and about half a mile board, with its surface rising gradually towards its eastern parts.

Shail Bet is a rocky island about three quarters of a mile long and half a mile broad, about 3 miles west of Chanch island and seven miles east of Jafrabad and about two miles south-east of Motapat creek. Its old name is said to have been Sinhlingpur.

At the eastern end of Shail Bet is a rocky islet called Savai Bet, detached at high tide. There is a tomb of a Pir or Muslim Saint called Savai Pir.

There are five creeks on the coast of the district, viz. (1) Chanch creek (2) Mandva creek (3) Sonar creek (4) Motapat creek and (5) Jafrabad creek.

Climate :

The climate of this district is characterised by general dryness except during the south-west monsoon season and a hot summer. The year may be divided into four seasons. The cold season from December to February is followed by the hot season lasting up to about the middle of June. The period from mid-June to about third week of September constitutes the south-west monsoon season.

a) Temperature :

The period from March to May is generally having gradual increase in temperature. Generally May is the hottest month. Nights during June are warmer than in May. From the beginning of November both day and night temperature gradually drops and January becomes the coldest month as the daily maximum and minimum temperature for January found to be lower than that of other months. The details of the maximum and minimum temperatures for the period of 1996 and 1997 years are given below.

TEMPERATURE

(in Centigrade)

Name of Month	1996		1997	
	Max	Min	Max	Min
1	2	3	4	5
January	34.6	6.5	35.8	7.3
February	35.3	9.7	34.0	10.5
March	41.9	11.8	40.1	13.0
April	41.8	16.5	41.7	18.0
May	43.7	21.3	42.9	22.3
June	43.2	22.0	43.1	21.0
July	34.1	24.6	33.5	21.8
August	29.0	20.5	30.0	22.0
September	36.2	16.4	35.7	18.3
October	35.1	15.4	34.6	24.0
November	34.3	11.2	33.9	12.0
December	32.1	10.3	32.0	9.9

Source : District Statistical Outline,1995-1996,1996-1997.

The statement above shows temperature data for two years. As mentioned earlier January is found to be the coldest month as the maximum and minimum temperatures are the lowest in January during all the years, while temperature in May is the maximum during the year 1996 and temperature in June is the maximum during 1997. From November to January minimum temperature is being seen in decreasing trend.

b) Winds :

Winds are generally moderate in strength with some increase in force during the late summer and monsoon season.Westerly to south-westerly winds blow during the south-west monsoon season. In October, winds are more commonly westerly or north-westerly.But north-easterly winds also begin to blow on some days. Winds from directions between north and east are more common in the next three months. In February and March, winds are mostly from directions between south-west and north-west.

c) Rainfall :

The annual rainfall in the district is received during the south-west monsoon season in the months of June to September. July being the month with the highest rainfall during years1995,1996 and 1998 except the years 1997 and 1999. The annual rainfall of this district is 395.7 mm in the year of 1999. The details of the rainfall for periods from the years 1995 to 1999 are given below:

Monthly Rainfall (1995 to 1999)

(in mm.)

Sl. No.	Month	1995	1996	1997	1998	1999
1	2	3	4	5	6	7
1	May	0.0	0.0	0.0	0.0	2.7
2	June	7.0	155.8	195.3	120.6	112.0
3	July	224.0	266.5	148.5	198.0	63.8
4	August	94.0	31.1	73.4	227.1	16.0

6	October	0.0	156.9	0.0	100.7	103.2
7	November	0.0	0.0	0.0	14.6	0.0
Annual Rainfall		**434.0**	**633.0**	**521.9**	**721.4**	**395.7**

Source: Directorate of Agriculture,1995,1999.

Impact of rainfall on weather conditions:

In association with cyclonic storms in the Arabian Sea in the post monsoon season and to a lesser extent in May and June, the district experiences strong winds and widespread rain. Thunderstorms occur all the year round, their frequency being more the period, May to october.Occasional fogs occur in the cold season.

Economic Resources :

Economic resources are an important means of subsistence for the working people of the district. The details about economic resources of important sectors are given here under in brief.

(1) Forestry :

As per the figures available from the Forest Department for the year 1999-2000, out of total area of 7,397 sq.km.of the district, 311.3 sq. km. is covered by forest. Of that 234.9 Sq. Km. is reserved forest and 76.5 Sq. Km. forest is unclassified forest. The forest in the district only satifies requirements of firewood and charcoal. The minor products are also found: such as honey, timru leaves, etc.

(2) Minerals and Mining:

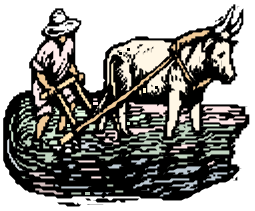

The pattern of mineral production in the district is simple.The known minerals of the district are calcite, building stone, natural clay,marl clay,lime stone are also available in the district. The details are given below.

Major and Minor Products and Income

Sl. No.	Products	1998-99		1999-2000	
		Production (MT)	Income (Rs.)	Production (MT)	Income (Rs.)
1	2	3	4	5	6
	Major Products				
1	Natural Clay	28,815	755,000	82,446	1,708,203
2	Marl Clay	1,183,338	1,181,000	2,164,278	2,423,960
3	Limestone	3,653,256	117,732,000	4,608,008	162,480,234
	Total	**4,865,409**	**119,668,000**	**6,854,732**	**166,612,397**
Total Minor Products		**1,143,731**	**8,234,000**	**981,373**	**8,497,640**
Grand Total		**6,009,140**	**127,902,000**	**7,836,105**	**175,110,037**

Source : Directorate of Geology and Mining,2000.

(3) Soil and Cropping Pattern :

The soils in Amreli district may be classified into three main categories (1) medium black (2) coastal alluvial and (3) rocky soils. A major portion of the district is covered by the medium black soil, which is considered very productive. The coastal alluvial soil is found on the coastal areas of Jafrabad and Rajula. Among the whole of the coastal areas, the land is sandy. The soil of Dhari taluka is lighter and near the Gir forest redder. The soil on the southern part of the district is light in colour with only few fertile gradients, and in many places, it is rocky and barren.

The largest area for cropping was occupied by cotton followed by bajari and jowar. The area under cotton has slowly and gradually gone down and its place has been now taken by another important cash crop, namely groundnut.

This shows that food crops are replacing non-food crops. Among food crops, the main crops are bajri, wheat and jowar. Among non-food crops, main crops are groundnut,sesame and cotton. Cultivation of crops like barely, tobacco, garlic etc. is either totally absent or negligible due to inadequacy of rains and poor soils.

(4) Land and Land use Pattern :

The total land in the district was 7,397 sq.km. during 1998-1999. The land classification according to the different uses in the rural areas of the district for the year 1998-1999 is given below on the basis of information collected from the Village Directory.

Land Classification of Rural Areas

('00 hectare)

Sl. No.	Classification	Area as on 31.3.99
1	2	3
1	Forest	304.2
2	Irrigated	847.9
3	Unirrigated	4,458.4
4	Cultivable waste (including Gauchar and Groves)	662.5
5	Area not available for cultivation	718.4
	Total	**6,991.4**

Source: Village Directory,2001

(5) Tenancy:

There was no separate Act on tenancy in the former Bombay State before 1939. There were provisions of Section 83 of Land Revenue Code and Mamlatdar Court law only. The tenant was not secured of his tenancy rights in the Act. This tenancy lease was considered yearly and had to pay tenancy as per tradition or according to the agreement made with the land owner. In order to protect the tenants, the Bombay Tenancy Act, 1939 came into force in the erstwhile Bombay State.With the independence of the country, it was necessary that the country is self-sufficient in agricultural production. It can be done only when the tillers of the land should have some definite rights over the land. With a view to effect control on efficient utilization of agricultural land and also to protect the tenants further and also to accept a definite policy and view for the country on agricultural land, The Bombay Tenancy and Agricultural Land Act, 1948 was enacted and it was brought into force since then.The Act of 1948 was amended five times. An important provision of 'Farmer Day' was inserted in the Act on 1-8-1956. According to this provision, if any person legally tilled the land of other person on 01-04-1957, he was entitled to purchase the said land. Even though Gujarat State was bifurcated from Bombay State in 1960.,the said act applied to it also as well.

Tenant means the person who held land on lease viz.,

(1) Tenant as per Section 4
(2) Protected tenant
(3) Permanent tenant
(4) The person who continued to possess the land with or without the consent of the land owner after appointed date and upto specified date or it is considered that he continued the possession of the land.

In all 1,049,456.4 hectares of land have been released and distributed to total 1,278,125 beneficiaries permanently by now under The Bombay Tenancy and Agricultural Lands, Act,1948 in entire Gujarat. Among the beneficiaries 177,171 were from Scheduled Castes, 258,132 from Scheduled Tribes and 842,822 were others. In Amreli, out of total 14,004 beneficiaries, 619 were of Scheduled Castes and 13,385 were others with allotment of 1,678.2 and 28,589.0 hectares of land respectively.

(6) Agriculture :

a) Area under Major Crops :

The area under major crops for the years 1993-94, and 1997-98 are indicated in the following statement.

Area under Major Crops

(in'00 hectares)

Sl. No	Name of Crop	Area under Major Crops 1993-94	1997-98
1	2	3	4
1	Wheat	148	221
2	Bajri	528	518
3	Jowar	328	274
4	Other cereals	N.A.	32
5	Gram	31	44
6	Other pulses	32	47
7	Sugarcane	5	3
8	Groundnut	3,141	2,875
9	Cotton	446	995

Source : Season and Crop Report, Directorate of Agriculture, 1999

The area under wheat, other cereals, gram, other pulses, and cotton crops has increased while the area under Bajri, Jowar, Sugarcane and Groundnut has decreased during the year 1997-98 as compared to the year 1993-94.

(b) Average Yield per Hectare :

The average yield per hectare of the principal crops in the district during the year 1993-94 and 1997-98 is shown below.

Average Yield Per Hectare

(In kgs.)

Sl. No.	Name of Crop	Average Yield per Hectare 1993-94	1997-98
1	2	3	4
1	Bajri (Kharif)	659	2,002
2	Bajri (Summer)	1,882	2,025
3	Jowar (Kharif)	276	376
4	Jowar (Rabi)	N.A.	875
5	Paddy	1,922	N.A.
6	Wheat	2,236	2,886
7	Groundnut	314	842
8	Cotton	327	503
9	Sugarcane	6,000	8,000

Source: Season and Crop Report Directorate of Agriculture,1999

The average yield per hectare was higher in Bajri (Kharif), Bajri (Summer), Jowar (Kharif), Jowar (Rabi), Wheat, Groundnut, Cotton, and Sugarcane during the year 1997-98.

(7) Irrigation :

Source of Irrigation :

The areas irrigated by the different sources in the district during 1993-94 and 1997-98 is present below.

Area under Irrigation by Source

(Hectares in hundred)

Sl. No.	Source of irrigation	1993-94 Net	1993-94 Gross	1997-98 Net	1997-98 Gross
1	2	3	4	5	6
1	Govt. Canals	28	28	19	19
2	Wells	633	681	894	894
	Total	**661**	**709**	**913**	**913**

Source : Season and Crop Report, Directorate of Agriculture, 1999

The above figures indicate that wells are the main source of irrigation in the district, followed by the Government canal.

(8) Animal Husbandry :

(a) Livestock

Cattle wealth plays a pivotal role in the rural economy of the district. According to the livestock censuses of 1992 and 1997, the livestock population in the district is indicated below.

Livestock

Sl.. No	Livestock	Year 1992	1997
1	2	3	4
(A)	**Total Livestock**	**742,856**	**786,841**
1	Cattle (cross breed)	1,927	1,605
	(a) Male over 2.5 year	508	172
	(b) Female over 2.5 years	796	878
	(c) Young stock	623	555
2	Cattle (Indigenoues)	277,655	266,392
	(a) Male over 3 years	122,015	120,989
	(b) Female over 3 years	86,786	88,600
	(c) Young stock	68,854	56,803
3	Buffaloes	164,446	180,985
	(a) Males over 3 years	1,103	1,647
	(b) Females over 3 years	98,360	114,454
	(c) Young stock	64,983	64,884
4	Sheep	148,174	151,565
5	Goat	142,918	140,515
6	Horses and ponies	1,056	577
7	Camels	66	8
8	Pigs	5,069	3,236
9	Other livestock	1,545	41,958
(B)	**Poultry**	**15,215**	**15,914**

Source :
(1) Directorate of Economics and Statistics, Livestock Census,1992
(2) Directorate of Animal Husbandry, Livestock Census,1997

The livestock population has increased in 1997 as compared to the year 1992. Poultry birds have also increased in 1997 as compared to the year 1992.

(b) Agricultural Implements :

According to the livestock census conducted in the State, the comparative data for agricultural implements in the district for the years 1992 and 1997 are shown in the following statement.

Agricultural Implements

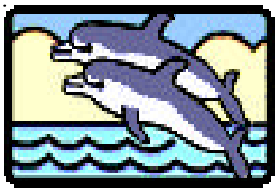

Sl. No.	Name of Agricultural Implements	Year	
		1992	1997
1	2	3	4
1	Plough	62,675	63,391
	(a) Wooden	11,527	11,129
	(b) Iron	51,148	52,262
2	Carts	52,200	55,332
3	Oil Engines	37,138	31,674
4	Electric Motors & Pumps	14,388	14,074
5	Tractors	2,637	6,112
6	Wheat Thresher	904	-

Source : (1) Directorate of Economics and Statistics, Livestock Censes 1992

(2) Directorate of Animal Husbandry, Livestock Census,1997

The number of agriculture implements except wooden plough,oil engines, electric motors and pumps have shown an increasing trend during the year 1997 as compared to the year 1992.

(9) Fisheries :

The Amreli district has a good coastline with rich fishing areas at Jafrabad, Shiyalbet, Chanch and Kotda. Among them Jafrabad is one of the most important fishing port. Important varities of fishes available in the district are bombay ducks, promfrets, hilsa, prawns, sharks, etc., The comparative data for fishing activities in the district are shown in the following statement.

Fisheries Activities

Sl. No.	Item	1997-98	1998-99
1	2	3	4
1	Total number of fishing boats	1,391	548
2	Total number of fishing nets	77,956	77,956
3	Fish production (In tonnes)	65,313	42,957
4	Number of active fishermen	17,876	17,876
5	Fishermen Primary Co-operative Societies (Number)	34	35
6	Membership of fishermen's Primary Co-operative Societies	2,271	2,394
7	Paid up share capital of fishermen's Co-operative Societies (In'00 Rs.)	110,581.5	111,092.1

(11) Trade and Commerce :

This term includes wholesale and retail trade of all kinds and other commercial activities. At present, imports in the district consist agriculture products, cement, charcoal, cloth, cotton, diesel, home appliances, medicines,utencils and spices etc. These items are imported from other parts of Gujarat and also from other parts of India. Dry fruits and fruits such as mangoes are imported from Maharashtra and from Valsad, Surat and Junagadh from Gujarat State. The major commodities manufactured in the district are Groundnut Oil, Steel, Wooden Furniture, Tiles, Edible Oil, Handloom cloth, Dyed & Printed Cloth, Food Grains, Oil Seeds, Cotton, Groundnut, Salt, Fish, Gypsum, Chillies, Electric Motors, Diesel Oil Engine, Stone Products, Iron Scales and Iron Sheets Materials. Manufacturing of jewelleries and ornaments from metalware is wellknown cottage industry in Bagasara. Savar Kundla is famous for weighing scales. All these commodities are also exported out of the district.The important commodities manufactured and exported out of district from various towns are mentioned in table-47. The commercial and co-operative banking facilities available in the rural areas of the district are shown in the following statement.

Sl. No.	Name of Taluka	Number of Villages where Banking facility is Available	Number of Banking Institutions	
			Commerical	Co-operative
1	2	3	4	5
1	Kunkavav Vadia	9	8	4
2	Babra	7	5	5

(12) Transport and Communication :

Transport and Communication facilities are considered as administrative necessity as well as a public convenience. Moreover; a well-knit transportation system is a pre-requisite for the social and economic development of any district. According to the classification of road, made by the Indian Roads Congress, road length in the district by category is given below for the years 1998-99, 1999-2000, and 2000-2001.

a) Road :

The linking of one place with other by road is very essential to provide good transport system. The information regarding roads available in Amreli district for the year 1998-99 to 2000-01 are given in the statement below.

Road Length of Different Categories

Sl. No.	Year	Type of Road (in Kms.)										Total
		Highways				District Roads				Village Roads		
		National		State		Main		Other				
		GOVT. DN.	PNCH DN,	GOVT. DN.	PNCH DN,	GOVT. DN.	PNCH DN,	GOVT. DN.	PNCH DN,	GOVT. DN.	PNCH DN,	
1	2	3	4	5	6	7	8	9	10	11	12	13
1	1998-1999	0	0	1189	0	15	780	0	437	0	762	3183
2	1999-2000	0	0	1189	0	15	780	0	437	0	762	3183
3	2000-2001	55	0	1019	0	15	879	0	444	0	781	3193

Source: Roads and Buildings Department, Gandhinagar ,2001

Note: GOVT. DN= Government Division.
PNCH. DN= Panchayat Division.

This statement includes the information of national highways, state highways, district roads and village roads. According to 1991 census 352 villages and 12 towns were connected with pucca roads and 253 villages were connected with kuchcha roads. According to 2001 census, 535 villages and all towns are connected with pucca roads and 82 villages are connected with kuchcha roads.

b) Railway :

The Amreli district is well connected with other parts by railway network though there are only 38 villages having railway facilities.

c) Ports :

The district has a good coastline about 62 kms. of Arabian Sea. There are two intermediate ports Jafrabad and Pipavav, and only one minor port Kotda. Fertiliser sulphur, iron scraps and rock. phosphate are the main items imported at these ports wheras salt, bentonite, oil cake etc. are principle items of exports through these ports.

d) Posts and Telegraph :

The following table shows the number of villages in the district possessing post, telegraph and phone facilities. As regards rural areas of the district, the facility of post, telegraph and telephone are available respectively in 380, 15 and 461 villages.

Communication Facilities

Sl.. No.	Type of communication	Number of Villages
1	2	3
1	Post offices	380
2	Telegraph offices	15
3	Telephone	461

Source : Village Directory, 2001

e) State Road Transport :

Out of 617 villages, 590 villages are having bus facility up to 1998-99.

Number of Villages Having Bus Facility

Sl.No.	Year	Number of villages
1	2	3
1	1998-99	590

Source: Village Direcory, 2001

(13) Electricity :

Electricity is the chief necessity for the economic development of the district. The main source for power supply in the district is Gujarat Electricity Board. Out of 615 inhabited villages, all are electrified in the district.

(14) Gram Panchayats, its composition, jurisdiction and role in the Development of Village and its Economy:

The system of Panchayati Raj was introduced in the year 1963 in Gujarat State. Under this set up, the 3 tier system was introduced namely, The District Panchayat, The Taluka Panchayat and The Gram Panchayat .

Gram Panchayat is an important institution of self-government. The Gram Panchayat is formed for a village or group of Villages. The Gram Panchayat is constituted for a local area with the population of less than 10,000. Such local area may be revenue village or a group of revenue villages or hamlets forming part of a revenue village or such other administrative unit or part of thereof. The number of members of Gram Panchayat varies from 9 to 15. The tenure of Gram Panchayat is of five years. The people of village elect Sarpanch and Vice-Sarpanch (Up-Sarpanch) and other members of the Panchayat. Various Committees like; Social Justice Committee and Standing Committee are formed. In the year 1993 Government of India enacted 73 rd Constitutional Amendment regarding provisions of Panchayati Raj and implementation of this Act in Gujarat started from 15 th April 1994. By this constitutional amendment, Panchayats are given constitutional status. Regular and timely election, participation of women and backward classes, formation of separate State Election Commission and rotation system in electing the heads of the various committees are other significant amendments in the act. Decentralised planning process and active participation of people is the soul of the Panchayati Raj Act. The powers for decentralised planning, implementation and development are delegated to the Panchayats.

The primary functions of the District/Taluka Panchayats are providing facilities for primary education, health, drinking water, electricity, constructions and maintenance of roads, bridges etc., maintenance of Gauchars, organising relief work at the time of scarcity and drought situation, sanitation and social welfare. Arrangements for housing facilities for below poverty line people and rural devlopment schemes are implemented by panchayats. Gram Panchayats also implement important programmes like, 'food for work' and other programmes beneficial for the local people. Thus, Panchayats play an important role in the development of village and its economy. There are 13761 Gram Panchayats in Gujarat State. Out of 617 villages in Amreli district there are 32 group Gram Panchayats and 580 independent Gram Panchayats. The Mota karanpura is having maximum 3 villages in group Gram Panchayat.

(v) Census Concepts :

Building :

A 'building' is generally a single structure on the ground. Sometimes it is made up of more than one component unit which are used or likely to be used as dwellings (residences) or establishments such as shops, business houses, offices, factories, workshops, work sheds, schools, places of entertainment, places of worship, godowns, stores, etc. It is also possible that buildings which have component units may be used for a combination of purposes such as shop-cum-residence, workshop-cum-residence office-cum-residence, etc.

Usually a structure will have four walls and a roof. But in some areas the very nature of construction of houses is such that there may not be any wall. Such is the case of conical structures where entrance is also provided but they may not have any walls. Therefore, such of the conical structures are also treated as separate building.

Permanent Houses :

Houses, the walls and roof of which are made of permanent materials. The Material of wall can be anyone from the following namely galvanized iron sheets or other metal sheets, Asbestos sheets, burnt bricks, stones or concrete. Roof may be made of from any one of the following materials namely tiles, slate,

galvanized iron sheets, metal sheets, asbestos sheets, bricks, stones or concrete.

Semi-permanent Houses :

Houses in which either wall or roof is made of permanent materials and the other is made of temporary material.

Temporary Houses :

Houses in which both walls and roof are made of materials, which have to be replaced frequently. Walls may be made from any one of the following temporary materials, namely, grass, thatch, bamboo, plastic, polythene, mud, unburnt bricks or wood. Roof may be made from any one of the following temporary materials, namely, grass, thatch, bamboo, wood, mud, plastic or polythene.

Dwelling Room :

A room is treated as a dwelling room if it has walls with a doorway and a roof should be wide and long enough for a person to sleep in, i.e., it should have a length of not less than 2 meters and a breadth of at least 1.5 meters and a height of a 2 meters. A dwelling room would include living room, bedroom, dining room drawing room study room, servant's room and other habitable rooms. Kitchen, Bathroom, latrine, Store-room, passage-way and verandah which are not normally usable for living are not considered as dwelling rooms. A room used for multipurpose such as sleeping, sitting, dining, storing, cooking, etc., is regarded as a dwelling room. In a situation where a census houses is used as a shop or office. etc., and the household also stays in it then the room is not considered as a dwelling room. But if a garage or servant quarter is used by a servant and if she/he also lives in it as a separate household then this has been considered as a dwelling room available to the servants household tent or conical shaped hut if used for living by any household is also considered as dwelling room.

A dwelling room which is shade by more than one household has not been counted for any of them. If two household have a dwelling room each but in addition also share a common dwelling room. Then the common room has not been counted for either or of the household.

Census House :

A 'Census House' is a building or part of a building used or recognized as a separate unit because of having a separate main entrance from the road or common courtyard or, staircase, etc. It may be occupied or vacant. It may be used for a residential or non-residential purpose or both.

In certain peculiar situations, the manner in which buildings and census houses were identified for numbering in the field by the enumerators is described hereunder.

Sometimes a series of a different buildings are found along a street which are joined with one another by common walls on either side looking like a continuous structure. These different units are practically independent of one another and are likely to have been built at different times and owned by different persons. In such cases, though the whole structure with all the adjoining units apparently appears to be one building, each portion was treated as a separate building and its constituent units as separate census houses.

On the other hand, one may come across cases, particularly in large cities of multi-storied ownership flats. In these cases while the structure looks like one building, different persons own the flats. In case of such multi-storied structures, having a number of flats owned by different persons, the entire structure was treated as one building and each flat as a separate census house.

If within a large enclosed area, there are separate buildings owned by different persons then each such building is treated as a separate building. There can be a situation where within an enclosed compound there are separate buildings owned by an undertaking or company or even government that are actually in occupation of different persons. For example, Indian Oil Corporation colony where the buildings are owned by the Corporation but these are in occupation of their employees. Each such building was treated as a separate building. But if in any one of these buildings there were flats in occupation of different households, each such flat was reckoned as a separate census house.

Sometimes if becomes difficult to apply the definition of census house strictly in certain cases. For example, in an urban area, if a flat has five rooms, each room having direct entrance from the common staircase or courtyard. By definition, this has to be treated as five census houses. If all these five rooms are occupied by a single household it was not realistic to treat them as five census houses. In such a case, 'singleness' of use of these rooms along with the main house should be considered and the entire flat was treated as one

census house. On the other hand, if two independent households occupy these five rooms, the first household living in 3 rooms and the second household occupying 2 rooms, then considering the use, the first three rooms together were treated as one census house and the remaining rooms as another census house. But if each room was occupied by an independent household, then each such room was treated as a separate census house.

In case of hostels, hotels, etc., even if the door of each room in which an inmate lives opens to a common verandah, staircase, courtyard or a common room, as it happens almost invariably, the entire hostel/ Hotel building was treated as one census house. but if such hostels/ hotels have out- houses or other structures used for different purposes or the same purpose, then each such structure attached to the main hostel/hotel was treated as a separate census house.

In some parts of the country, in rural areas, the pattern of habitation is such that a group of huts, located in a compound, whether enclosed or unenclosed, is occupied by one household. While the main residence may be located in one hut, other huts may be used for sleeping, as a kitchen, bath room, baithak, etc. Though each of the huts was a separates structure, they form a single housing unit and therefore, have to be treated collectively as one building and one census house. If some of the huts are used by one household and the others by a second household as residence, then the two groups of huts were treated as separate census houses. However, if there were also other huts in the compound used for other purposes and not as part of the household's residence such as, cattle shed, work shed, etc., these were treated as separate census houses.

On the other hand, in urban areas, where more than one structure within an enclosed or open compound (premises) belonging to the same person, e.g., the main house, the servant's quarter, the garage, etc., only one building number was given for this group and each of the constituent a separate census house number.

Only cases where a structure with roof and pillars has come up was treated as a building.

Village :

The basic unit for rural areas is the revenue village, which has definite surveyed boundaries. The revenue village may comprise of one or more hamlets but the entire village is treated as one unit for presentation of data.

In unsurveyed areas, like villages within forest areas, each habitation area with locally recognized boundaries is treated as one village.

Town/Urban Area :

The following areas are treated as towns/urban areas :

(a) All places with a municipality, municipal corporation, cantonment board or notified town area committee, etc.

(b) All other places which satisfy or are expected to satisfy the following criteria simultaneously

i) A minimum population of 5,000;

ii) At least 75 per cent of the male working population engaged in non-agricultural pursuits; and

iii)A density of population of at least 400 per square kilometre (1,000 per square mile).

City :

Towns with population of 1,00,000 and above are called cities.

Urban Agglomeration :

An Urban Agglomeration is a continuous urban spread constituting a town and its adjoining urban outgrowths (OGs) or two or more physically contiguous towns together and any adjoining urban outgrowths of such towns. In some cases railway colonies, university campuses, port areas, etc., may come up near a city or statutory town outside its statutory limits but within the revenue limits of a village or villages contiguous to the town or city. Each such individual area by itself may not satisfy the minimum population limit to qualify it to be treated as an independent urban unit but may deserve to be clubbed with the town as a continuous urban spread.

For the purpose of delineation of Urban Agglomerations during Census of India 2001, following criteria are taken as pre-requisites:

(a) The core town or at least one of the constituent towns of an Urban Agglomeration should necessarily be a statutory town; and

(b) The total population of all the constituents (i.e., towns and outgrowths) of an Urban Agglomeration should not be less than 20,000 (as per the 1991 Census).

With these two basic criteria having been met, the following are the possible different situations in which Urban Agglomerations would be constituted:

i) a city or town with one or more contiguous outgrowths;

ii) two or more adjoining towns with their outgrowths; and

iii) a city and one or more adjoining towns with their outgrowths all of which form a continuous spread.

Household :

A 'household' is usually a group of persons who normally live together and take their meals from a common kitchen unless the exigencies of work prevent any of them from doing so. Persons in a household may be related or unrelated or a mix of both. However, if a group of unrelated persons live in a census house but do not take their meals from the common kitchen, then they are not constituent of a common household. Each such person was to be treated as a separate household. The important link in finding out whether it was a household or not was a common kitchen. There may be one member households, two member households or multi-member households.

Institutional Households :

A group of unrelated persons who live in an institution and take their meals from a common kitchen is called an Institutional Household. Examples of Institutional Households are boarding houses, messes, hostels, hotels, rescue homes, jails, ashrams, orphanages, etc. To make the definition more clearly perceptible to the enumerators at the Census 2001, it was specifically mentioned that this category or households would cover only those households where a group of unrelated persons live in an institution and share a common kitchen.

Houseless Household :

Households who do not live in buildings or census houses but live in the open on roadside pavements, in hume pipes, under flyovers and staircases, or in the open in places of worship, mandaps, railway platforms, etc., are treated as Houseless Household.

Scheduled Caste and Scheduled Tribe :

Article 341(1) of the Constitution provides that the President may, with respect to any State or Union territory, specify the castes, races or tribes or parts of or groups within castes, races or tribes which shall for the purposes of the Constitution be deemed to be Scheduled Castes in relation to that State or Union territory. Article 342(1) similarly provides for specification of tribes or tribal communities or parts of or groups within tribes or tribal communities, which are to be deemed for the purposes of the Constitution to be Scheduled Tribes in relation to the various States and Union territories. In pursuance of these provisions, the list of Scheduled Castes and / or Scheduled Tribes are notified for each State and Union territory and are valid only within the jurisdiction of that State or Union territory and not outside.

It is important to mention here that under the Constitution (Scheduled Castes) Order, 1950, no person who professed a religion different from Hinduism was deemed to be a member of a Scheduled Caste in addition to every member of the Ramdasi, Kabirpanthi, Majhabi or Sikligar caste resident in Punjab or Patiala and East Punjab States Union were in relation to that State whether they professed the Hindu or the Sikh religion. Subsequently, in September 1956, by an amendment, the Presidential Order of 1950 and in all subsequent Presidential Orders relating to Scheduled Castes, the Hindu and the Sikh religions were placed on the same footing with regard to the specification of Scheduled Castes. Later on, as per the amendment made in the Constitution (Scheduled Castes) Order 1990, the Hindu, the Sikh and the Buddhist were placed on the same footing with regard to the recognition of the Scheduled Castes.

The lists containing the names of the Scheduled Castes and the Scheduled Tribes applicable for the Census of India 2001 in the State is given below

List of Scheduled Castes :

1. Ager
2. Bakad, Bant
3. Bawa-Dedh, Dedh Sadhu
4. Bhambi, Bhambhi, Asadaru Asodi, Chamadia, Chamar Chambhar, Chamgar, Haralayya, Harali, Khalpa, Machigar, Mochigar, Madar, Madig, Mochi, Nalia, Telegu Mochi, Kamati Mochi, Ranigar, Rohidas, Rohit, Samgar.
5. Bhangi, Mehtar, Olgana, Rukhi, Malkana, Halalkhor, Lalbegi, Balmiki, Korar, Zadmalli.
6. Chalvadi, Channayya
7. Chenna Dasar, Holaya Desar
8. Dangashia
9. Dhor, Kakkayya, Kankayya
10. Garmatang

11. Garoda, Garo
12. Halleer
13. Halsar, Haslar, Hulasvar, Halasvar
14. Holar, Valhar
15. Holaya, Holer
16. Lingader
17. Mahar, Taral, Dhegu Megu
18. Mahyavansi, Dhed, Dhedh, Vankar, Maru Vankar, Antyaj
19. Mang, Matang, Minimadig
20. Mang-Garudi
21. Meghaval, Meghwal, Menghvar
22. Mukri
23. Nadia, Hadi
24. Pasi
25. Senva, Shenva, Chenva, Sedma, Rawat
26. Shemalia
27. Thori
28. Tirgar, Tirbanda
29. Turi
30. Turi Barot, Dedh Barot

List of Scheduled Tribes :

1. Barda
2. Bavacha, Bamcha
3. Bharwad (In the Nesses of the forests of Alech, Barada and Gir)*
4. Bhil, Bhil Garasia, Dholi-Bhil, Dungri Bhil, Dungri Garasia, Mewasi Bhil, Rawal Bhil, Tadvi Bhil, Bhagalia, Bhilala, Pawra, Vasava, Vasave.
5. Charan (In the Nesses of the forests of Alech, Barada and Gir) *
6. Chaudhri (In Surat and Valsad districts)
7. Chodhara
8. Dhanka, Tadvi, Tetaria, Valvi
9. Dhodia
10. Dubla, Talavia, Halpati
11. Gamit, Gamta, Gavit, Mavchi, Padvi
12. Gond, Rajgond
13. Kathodi, Katkari, Dhor Kathodi, Dhor Katkari, Son Kathodi, Son Katkari
14. Kokna, Kokni, Kukna
15. Koli (In Kachchh district)
16. Koli Dhor, Tokre Koli, Kolcha, Kolgha
17. Kunbi (In The Dangs district)
18. Naikda, Nayaka, Cholivala Nayaka, Kapadia Nayaka, Mota Nayaka, Nana, Nayaka
19. Padhar
20. Paradhi (In Kachchh district)
21. Pardhi, Advichincher, Phanse Pardhi (Excluding Amreli,Bhavnagar, Jamnagar, Junagadh, Kachchh, Rajkot and Surendranagar districts)
22. Patelia
23. Pomla
24. Rabari (In the Nesses of the forests of Alech, Barada and Gir)*
25. Rathawa
26. Siddi (In Amreli, Bhavnagar, Jamnagar, Junagadh, Rajkot and Surendranagar districts)
27. Vaghri (in Kachchh district)
28. Varli
29. Vitola, Kotwalia, Barodia

Note : * The area comprised of Jamnagar and Junagadh districts

Language and Mother Tongue :

As per the census concept, each language is a group of mother tongues. The census questionnaire collects information on the mother tongue of each person and mother tongue is defined as the language spoken in childhood by the person's mother to the person. If the mother died in infancy, the language mainly spoken in the person's home in childhood will be the mother tongue. In the case of infants and deaf mutes, the language usually spoken by the mother is considered as mother tongue. It is not necessary that the language spoken as mother tongue should have a script. The mother tongues returned by the respondents in census are classified and grouped under appropriate languages according to their linguistic characteristics.

Literate :

A person age 7 years and above who can both read and write with understanding in any language is taken as literate. A person who can only read but cannot write is not literate. It is not necessary that to be considered as literate, a person should have received any formal education or passed any minimum educational standard. Literacy could also have been achieved through adult literacy classes or through any non-formal educational system. People who are blind and can read in Braille are treated as literates.

Literacy Rate :

Literacy rate of the population is defined as the percentage of literates in the age group seven years and above. For different age groups the percentage of literates in that age group gives the literacy rate.

Educational Level :

The highest level of education a person has completed.

Work :

Work is defined as participation in any economically productive activity with or without compensation, wages or profit. Such participation may be physical and/or mental in nature. Work involves not only actual work but also includes effective supervision and direction of work. It even includes part time help or unpaid work on farm, family enterprise or in any other economic activity. All persons engaged in 'work' as defined above are workers. Persons who are engaged in cultivation or milk production even solely for domestic consumption are also treated as workers.

Reference period for determining a person as worker and non-worker is one year preceding the date of enumeration.

Main Worker :

A person who has worked for major part of the reference period (i.e. six months or more during the last one year preceding the date of enumeration) in any economically productive activity is termed as "Main worker".

Marginal Worker :

A person who worked for less than six months of the reference period (i.e. in the last one year preceding the date of enumeration) in any economic activity is termed as 'Marginal- worker'

Non Worker :

A person who has not worked at all in any economically productive activity during the reference period (i.e. last one year preceding the date of enumeration) is termed as 'Non worker'.

Cultivator :

For purposes of the Census a person is classified as cultivator, if, he or she is engaged in cultivation on land owned or held from government or held from private persons or institutions for payment in money, kind or share. Cultivation includes effective supervision or direction in cultivation.

A person who has given out her/his land to another person or persons or institution(s) for cultivation for money, kind or share of crop and who does not even supervise or direct cultivation in exchange of land, is not treated as cultivator. Similarly, a person working on another person's land for wages in cash or kind or a combination of both (agricultural laborers) is not treated as cultivator.

Cultivation involves ploughing, sowing, harvesting and production of cereals and millet crops such as wheat, paddy, jowar, bajra, ragi, etc., and other crops such as sugarcane, tobacco, ground-nuts, tapioca, etc., and pulses, raw jute and kindred fiber crop, cotton, cinchona and other medicinal plants, fruit growing, vegetable growing or keeping orchards or groves, etc. Cultivation does not include the following plantation crops – tea, coffee, rubber, coconut and betel-nuts (area).

Agricultural Labourer :

A person who works on another person's land for wages in money or kind or share is regarded as an agricultural labourer. She/he has no risk in the cultivation, but merely works on another person's land for wages. An agricultural laborer has no right of lease or contract on land on which she/he works.

Household Industry Worker :

Household industry is defined as an industry conducted by the head of the household herself/himself and or by the members of the household at home or within the village in rural areas and only within the precincts of the house where the household lives in urban areas. The larger proportion of workers in household industry should consist of members of the household including the head. The industry should not be run on the scale of a registered factory which would qualify or has to be registered under the Indian Factories Act and should be engaged in manufacturing, processing, servicing and repairs of goods.

It does not include professions such as a pleader, Doctor, Musician, Dancer, Waterman, Astrologer, Dhobi, Barber, etc. or merely trade or business, even if such professions, trade or services are run at home by members of the household.

Other Worker :

A person who has been engaged in some economic activity during the reference period but not as a cultivator or agricultural laborer or in Household Industry is termed as an 'Other-Worker (OW)'. The type of workers that come under this category of 'OW' include all government servants, municipal employees, teachers, factory workers, plantation workers, those engaged in trade, commerce, business, transport,

banking, mining, construction, political or social work, priests, entertainment artists, etc. In effect, all those workers other than cultivators or agricultural laborers or household industrial workers, are 'Other Workers'.

Work Participation Rate :

Percentage of workers (main + marginal) to total population

Population Density :

Population density is the number of persons inhabited per square kilometer of the area.

Age :

Age is measured in terms of the completed number of years.

Sex Ratio :

Numbers of females per 1,000 males in a population.

(vi) Non Census Concepts :

Improved Drinking Water :

If the household had access to drinking water supplied from a tap, hand pump, tube well or well (protected or covered) situated within or outside the premises, it is considered as having access to improved drinking water.

System of Sewerage :

Generally, a sewerage system would mean a network of mains and branches of underground conduits for the conveyance of sewerage to the point of disposal. Sewers that carry only household and industrial wastage are called separate sewers; those that carry storm water from roofs, streets and other surfaces are known as storm water drains, while those carrying both sewage and storm water are called combined sewers. However, in some towns, which are, not provided with such underground sewerage system, it is served by open surface drain, box drain, silk pattern drain, etc., in these towns.

Type of Latrine and Method of Disposal of Night Soil :

There are three prevalent systems of disposal of human wastes, viz.(i) underground sewerage, (ii) sanitary water flush latrines with individual disposal systems, like septic tank, leaching cess pool and collecting well, and (iii) dry type of latrines with manual scavenging.

The system of underground sewerage provides for the street sewerage with which are connected the sanitary latrines constructed in the houses having water closets and fitted with flushing cistern (or hand flushing). Through this sewer the faucal matter is transported without the need for scavenging. This system generally exists in cities and big towns.

Where the streets sewer does not exist these sanitary water flush latrines are connected to a local septic tank with a sub-soil dispersion system or a leaching pit. Here the liquid wastes from the water closet is disposed of locally in leaching pit, a septic tank with a soil dispersion system is constructed. This dispersion requires an optimum travel through the pores of the soil, which renders the harmful liquid bacterially innocuous by the slow process of filtration through the soil traversed.

Where the soil is impermeable, collecting wells are constructed and the sanitary water flush latrines are connected with them. These wells are cleaned at periodic intervals by a suitable device. The dry type of latrines are of service type latrines from where human excreta is removed by scavengers from house to house, in most cases carrying it on their heads or shoulders or in baskets with handle or wheel barrows. These are then collected in bullock carts or trucks or tractors and trolleys for being carried to the dumping grounds.

Fertility :

In demography, the word fertility is used in relation to the actual production of children or occurrence of births specially lives births. Fertility is a measure of rate at which population adds to itself by births and normally assessed by relating the number of births to a full or part of the population, such as number of married women or number of women of child bearing age. The definitions of the terminology used in computing different fertility rates are mentioned below.

Crude Birth Rate (CBR) :

Ratio of the numbers of live births in a year to the mid year population. (normally expressed per 1,000 population).

$$CBR = \frac{\text{Numbers of live births during the year}}{\text{Mid –year Population}} \times 1,000$$

Crude Death Rate (CDR) :

Ratio of the numbers of deaths in a year to the mid year population, normally expressed per 1000 population.

$$CDR = \frac{\text{Numbers of deaths during the year}}{\text{Mid –year Population}} \times 1,000$$

Natural Growth Rate (NGR) :

Natural Growth rate is obtained as the difference between crude birth rate and crude death rate in the absence of migration.

$$NGR = CBR - CDR$$

Age Specific Fertility Rate (ASFR) :

Number of live births in a year to female population in any specified age group normally expressed per 1,000 women.

$$ASFR = \frac{\text{Numbers of live births in a particular age group}}{\text{Numbers female population of same specified age group}} \times 1,000$$

Age Specific Marital Fertility Rate (ASMFR):

Number of live births in a year to married female population in any specified age group normally expressed per 1,000 married women.

$$ASMFR = \frac{\text{Numbers of live births in a particular age group}}{\text{Mid-year married female population of the same age group}} \times 1,000$$

General Fertility Rate (GFR) :

Number of live births per 1,000 women in the reproductive age-group (15-49) years in a given year.

$$GFR = \frac{\text{Number of live births in a year}}{\text{Mid-year married female population age-group (15-49) years}} \times 1,000$$

General Marital Fertility Rate (GMFR) :

Number of live births per 1,000 married women in reproductive age-group (15-49) years in a given year.

$$GMFR = \frac{\text{Number of live births in a year}}{\text{Mid-year married female population in the age group (15-49) years}} \times 1,000$$

Total Fertility Rate (TFR) :

It is obtained as the total of the age specific fertility rates (number of children born per woman of the particular age) for the entire reproductive age span. It provides the average number of children that will be born to a woman under the fertility levels indicated by the age specific fertility rates assuming that there is no mortality of women till the completion of reproductive period.

$$TFR = \frac{5 \times \sum_{15-19}^{45-49} ASFR}{1,000}$$

Total Marital Fertility Rate (TMFR) :

Average number of children that would be born to a married woman if she experiences the current fertility pattern throughout her reproductive span (15-49) years assuming that there is no mortality of women till the completion of reproductive period.

$$TMFR = \frac{5 \times \sum_{15-19}^{45-49} ASMFR}{1,000}$$

Age-Specific Mortality Rate (ASMR) :

Number of deaths in a particular age and sex group per 1,000 population of the same age group.

$$ASMR = \frac{\text{Number of deaths in a particular age group}}{\text{Mid-year population of the same age group}} \times 1,000$$

q1 :

Probability of dying between birth and age 1. This can be used as approximate value of Infant Mortality Rate (IMR) which gives the ratio of number of deaths in a year of children aged less than one year to the number of births in that year.

q2 :

Probability of dying between birth and age 2.

q5 :

Probability of dying between birth and age 5. This indicator is also known as Under Five Mortality Rate (q5MR)

Infant Mortality Rate (IMR) :

Ratio of the number of infant deaths (deaths of children below one year) in a year to the number of live births in that year.

$$IMR = \frac{\text{Number of infant deaths during the year}}{\text{Number of live births during the year}} \times 1,000$$

Infant mortality rate comprises of two parts, viz., Neo-natal mortality rate and Post neo-natal mortality rate. The neo-natal mortality rate also comprises of two parts viz., early neo-natal mortality rate and late neo-natal mortality rate. These are defined as :

Neo-natal Mortality Rate (NMR) :

Number of infants dying within the first month of life (28 days or under) in a year per 1,000 live births of the same year.

$$NMR = \frac{\text{Number of infant deaths aged 28 days under during the year}}{\text{Number of live births during the year}} X\ 1{,}000$$

Early Neo-natal Mortality Rate (ENMR) :

$$ENMR = \frac{\text{Number of infant deaths of less than 7 days during the year}}{\text{Number of live births during the year}}\ X\ 1{,}000$$

Late Neo-natal Mortality Rate (LNMR) :

$$LNMR = \frac{\text{Number of infant deaths of 7 days to less than 29 days during the year}}{\text{Number of live births during the year}} X\ 1{,}000$$

Post Neo-natal Mortality Rate (PNMR) :

$$PNMR = \frac{\text{Number of deaths of 29 days to less than One year during the year}}{\text{Number of live births during the year}}\ X\ 1{,}000$$

Peri-natal Mortality Rate (PMR) :

Number of stillbirths plus deaths within 1st week of delivery per 1,000 births in a year.

$$PMR = \frac{\text{Number of still births and infant deaths of less than 7 days during the year}}{\text{Number of live births and stillbirths during the year}} X1{,}000$$

Stillbirth Rate (SBR) :

$$SBR = \frac{\text{Number of still births during the year}}{\text{Number of live births and still births during the year}} X\ 1{,}000$$

Maternal Mortality Rate (MMR) :

Number of deaths of women in the age group 15-49 while pregnant or within 42 days of termination of pregnancy from any cause related to pregnancy and childbirth per 100,000 live births in a given year.

$$MMR = \frac{\text{Number of maternal deaths to women in the age group 15-49}}{\text{Number of live birth}} X\ 100{,}000$$

Eligible Couple (Couples per 1,000 population):

Number of currently married females in the age group15-44 years per 1,000 persons of all ages.

Child Woman Ratio (0-4) :

1. Number of children in the age group 0-4 years per 1,000 women in the age group 15-49 years.

Child Woman Ratio (5-9) :

2. Number of children in the age group 5-9 years per 1,000 women in the age group 15-49 years.

Migration :

Migration is the third component of population change, the other two being mortality and fertility.

A person is considered as a migrant by place of birth if the place in which he/she is enumerated during the census is other than the place of his/her birth.

Similarly a person is considered as a migrant by place of last residence if the place in which he/she is enumerated during the census is other than his/her place of immediate last residence outside the village or town and not simply in another house or locality in the same village or town.

Certain aspects concerning temporary movement/ migration of people has been explained below as these are important components concerning migration :

(i) Migration of persons in search of job is high in the country. In many cases such migrants are only seasonal in nature. People migrate to other places for work in a particular season and come back again to their usual place of residence after three or four months. All such workers are treated as migrants. Similarly, if a person moved to any other place for attending short term vocational or educational course that lasted for only few months of a year, she/he too were considered as a migrant.

(ii) Where a person had merely gone out to another place or had been shifting from one place to another purely on tour, pilgrimage, visit to hospital for treatment or for temporary business purposes, such persons are not deemed to have had another residence different from the place where she/he or her/his family normally resides. She/he is not considered as migrant.

(iii) A woman temporarily moves into a hospital or to her parents or other relative's house for delivery and if the hospital or the parents/relatives houses is in a place different from usual place of residence, the place where the hospital or parents/relative's house is the place of last residence of the child but not of the mother.

A new response category 'Moved after birth' was added in Census of India 2001 in the question on 'reasons for migration' to bring out additional migration patterns. Natural calamities or distress migration as a reason for migration for last residence migrants included in 1991 Census, is covered under category of 'Others'.

The reason for migration has been determined as applicable at the time of migration and not in reference to any point of time after that. For example, if a person had moved from the place of her/his last residence for the purpose of education and subsequently at some point of time got employment there only, the reason for migration would be 'education' and not 'work/ employment'.

Internal and International Migration :

The migrational movements are of three types

(i) Migration within the state itself with its components
  (a) Migration within the district of enumeration (intra district migration)
  (b) Migration from one district of state to another district of state (inter district migration),
(ii) Migration from one state to another State of the country (inter-state migration),
(iii) Migration from one country to another country.

The first two streams together constitute internal migration, while the last type of movement is called international migration. The present name of the country, state or district and not the name by which they were known at the time of her/his birth or last residence were recorded.

Rural-Urban Components of Migration :

Rural or Urban status in respect of migrants had been determined as applicable at the time of migration and not with reference to any point of time after that.

The flow of migrants consists of four streams viz. rural to rural, rural to urban, urban to rural and urban to urban.

Civic Status of Urban Units :

Civic Status of a town/city is determined on the basis of Civic Administrative authority of the town e.g., Municipal Corporation/Corpora-tion, Municipal Committee/Municipal council, Municipality etc.

Size Class of UA/Town :

Size-class of UA/Town is based on the population size of the UA/City/Town UAs/Towns with 1,00,000 and above population is classified as Class I UAs./ towns. These Class I UAs./towns are now further sub classified in to seven sub classes namely M1 to M7 depending on the population size of UA/City/Town. These are M7(5,000,000 and above); M6(2,000,000 to 4,999,999); M5(1,000,000-1,999,999) M4(500,000-999,999); M3(300,000-499,999), M2(200,000-299,999) & M1(100,000-199,999). towns with, 50,000 to 99,999 population are classified as Class II towns, 20,000 to 49,999 population are Class III towns, population with 10,000-19,999 are Class IV towns, population with 5,000 and 9,999 are Class V towns and towns with less than 5,000 population are Class VI towns.

Slum Area :

The Slum Areas (Improvement and Clearance) Act, 1956 which was enacted by the Central Govt. defined slums as a) Areas where buildings are in any respect of unfit for human habitation; or b) are by reasons of dilapidation, overcrowding, fault arrangement and design of such buildings, narrowness or faulty arrange-ment of streets, lack of ventilation, light or sanitation facilities, or any combination of these factors, are detrimental to safety, health or morals.

Mega City :

The concept of 'Mega city' is a recent phenomenon in the Urban Sociology and is defined in term of metropolitan city in the form of large size, problem of management of civic amenities and capacity to absorb the relatively high growth of population. Indian Census in 1991 treated the population size of 5 million and above as the cut off point to identify a place as the mega city. Whereas, for the purpose of inclusion in Centrally Sponsored Scheme for Infrastructure Development in Mega cities the Ministry of Urban Affairs and employment, Department of Urban Development adopted the criteria of 4 million and above population as per 1991 Census for Mega Cities. In 2001 Census, cities with 10 millions and above population have been treated as Mega cities.

(vii) 2001 Census finding – Population and its distribution

(a) Distribution of population in rural-urban areas:

According to 2001 Census, the total population of Amreli district is 1,393,918 comprising 701,593 males and 692,325 females. This population of the district is 2.8 per cent of total State population and the district ranks 18th among 25 districts of Gujarat State. Out of total population of Amreli district, 77.5 per cent of population lives in rural areas while 22.5 per cent lives in urban areas. The rural population of the district is distributed in 615 inhabited villages of 11 talukas while the urban population is spread over in 8 towns. The total rural population of the district is 1,080,960 comprising 540,316 males and 540,644 females. The

total urban population of the district is 312,958 comprising 161,277 males and 151,681 females.

(b) Size class and status of towns, Population growth, Density, Sex ratio, Work participation rate, Details of population, Literacy , availability of University education in the District

The statement given below shows the position and number of urban units in size class for 2001 Census.

Sl. No.	Name and Civic status of town	Size class of town	Status of population
1	2	3	4
1	Amreli (M) *	II	95,307
2	Bagasara (M)	III	31,796
3	Chalala (M)	IV	16,915
4	Damnagar (CT)	IV	16,719
5	Jafrrabad (M)	III	25,086
6	Lathi (M)	III	20,966
7	Rajula (M)	III	32,395
8	Savar Kundla (M)	II	73,774

Note : * Town having Outgrowths

As per 2001 Census the total population of Amreli district is 1,393,918 which were 1,308,867 in 1991 Census. Thus, there is a net addition of 85,051 persons during the decade of 1901-2001. This results a decadal growth of 6.5 per cent. The decadal growth rate of rural areas is 8.1 per cent while the same for urban areas is only 1.3 per cent. This shows that during the decade of 1991-2001 urban growth was very low in Amreli district.

The density of population in Amreli district is 188 persons per sq.km., while the density of population in Gujarat State is 258. The district ranks 20th in population density among 25 districts of the State.

As per 2001 Census there are 987 females for every 1,000 males in Amreli district. The sex ratio for rural and urban areas of Amreli district is 1,001 and 940 respectively. This indicates that as compared to urban areas rural area has recorded significantly a very high sex ratio. Among the talukas Kunkavav Vadia has recorded sex ratio of 1,028 and Khambha has recorded sex ratio of 1023 which are the highest figures among 11 talukas of the district. The lowest sex ratio of 966 is recorded in Amreli taluka.

In rural areas Bagasara (1,047), Kunkavav Vadia (1,028), Khambha (1,023) and Savar Kundla (1,022) have recorded higher sex ratio than the rural sex ratio of 1,001. The lowest rural sex ratio of 968 females per 1,000 males is registered in Jafrabad. In urban areas the highest sex ratio of 971 is recorded in Jafrabad while the lowest sex ratio of 921 is found in Lathi. The sex ratio of 0-6 age group is 892 for district while the same for rural and urban areas are 898 and 869 respectively.

The work participation rate is defined as percentage of total workers to total population. In the same way it is defined for main workers and marginal workers. According to 2001 Census total workers are 43.1 per cent or total district population. This 43.1 per cent of total workers is further categorized in main and marginal workers. Main workers are 33.7 per cent and marginal workers are 9.4 per cent of total population making a total of 43.1 per cent which is the proportion of total workers. The remaining 56.9 per cent belongs to category of non-workers.

Among main workers male participation rate found to be 52.2 per cent while the same for female is 15 per cent. Male and female marginal workers account for 2.9 per cent and 16 per cent respectively. The proportion of female marginal workers is higher than males as females are attending one or more economic activities in addition to their usual household duties to improve their family income.

It is observed that in rural as well as in urban area of the district the proportion of male main workers is higher than that of female main workers whereas the proportion of female marginal workers is higher than that of males in rural and urban areas of the district. A person who can read and write in any language with understanding is considered literate in census. All children below the age of 7 years are treated as illiterate.

As per 2001 Census there are 789,978 literates in the district which is 66.1 per cent of total population. In rural areas total literacy rate is 62.8 per cent and the same in urban area is 77.2 per cent. In the district, the male literacy rate is recorded at 76.4 per cent against the female literacy rate of 55.8 per cent. This indicates a gap of 20.6 percentage points in male-female literacy rate. This gap is found to be 21.7 percentage points in rural areas and 16.4 percentage points in urban areas. In rural areas 73.8 per cent of males and 52.1 per cent of females are found to be literate. In urban areas male and female literacy rates are recorded at 85.2 per cent and 68.8 per cent respectively. Thus, it is clear that proportionately more females are educated in urban areas than the female of rural areas.

Religion:

Religion forms an integral part of Indian Social system. In the pre-Independence census reports, the data on religions was being presented for 9 major religion viz. Hindu, Muslim, Tribals, Christian, Sikh, Jain, Buddhist, Parsi, Jewish and others.Since 1951 census the data on religion has been presented only for 6 major religions viz. Hindu, Muslim Christian, Sikh, Jain and Buddhist. Besides, the minor religions have been classified under the category of 'other'. The data on religion collected by the Indian Census is the basic data of intense use for the researchers, anthropologists, sociologists, demographers, administrators, planners and even for a common man.

In 2001 the Indian Census collected the religions data in question No. 7 of the household schedule and recorded the same under the six major religions. Other religions were recorded in actual as stated by the respondent and classified under the category of 'others'. Religions not stated has been added for those person who have not stated their religion at the time of canvassing the status of religion.

Percentage Distribution of Population by Major Religions in Gujarat State and Amreli district in 2001 Census

Sl. No.	Religion	Gujarat State		Amreli District	
		Population	Percentage	Population	Percentage
1	2	3	4	5	6
1	Hindu	45,143,074	89.1	1,307,460	93.8
2	Muslim	4,592,854	9.1	83,077	6.0
3	Christian	284,092	0.5	188	0.0
4	Sikh	45,587	0.1	168	0.0
5	Buddhist	17,829	0.0	131	0.0
6	Jain	525,305	1.0	2,309	0.2
7	Other	28,698	0.1	14	0.0
8	Religion not stated	33,578	0.1	571	0.0

Source : Census of India,2001

University Education :

There are 12 colleges in Amreli district providing degree level education in the district.

The comparative data of the State and Amreli district is presented in the above Statement. It reveals that in 2001 Census in Gujarat State Hindu population is 89.1 per cent of total population while in Amreli district Hindu population is 93.8 per cent. Muslim are 9.1 per cent in Gujarat State against 6.0 per cent Muslim population recorded in Amreli. Jains are 1.0 per cent in Gujarat State while in Amreli district Jain population is 0.2 per cent of total population. The population proportion of other major religious communities is very insignificant in Amreli district as compared to figure of Gujarat State.

Religion	Number of followers	Population	
		Rural	Urban
1	2	3	4
Hindu	1,307,460	1,043,985	263,475
		(79.8)	(20.2)
Muslim	83,077	35,594	47,483
		(42.8)	(57.2)
Christian	188	89	99
		(47.3)	(52.7)
Sikh	168	42	126
		(25.0)	(75.0)
Buddhist	131	112	19
		(85.5)	(14.5)
Jain	2,309	673	1,636
		(29.1)	(70.9)
Other	14	13	1
		(92.9)	(7.1)
Religion not stated	571	452	119
		(79.2)	(20.8)

Note : *Recasted Population

Table 1 shows decadal changes in population of talukas by residence during 1991-2001. The decadal growth of Amreli district is 6.5 per cent. The rural growth rate is 8.1 per cent and the urban growth rate is recorded at 1.3 per cent. In 1991 the urban population of district was 23.6 per cent of total district population while in 2001 the same is recorded at 22.5 per cent. Among talukas the highest decadal growth of 23.2 per cent is found in Jafrabad taluka and the lowest growth rate of 0.4 per cent is registered in Dhari taluka. The talukas of Kunkavav Vadia and Lilia each have reported negative growth of 3.1 per cent. Among rural areas Babra has reported the highest decadal growth of 31.9 per cent while the lowest rate of 2.4 per cent is registered in Khambha. The rural areas of Lilia, Amreli, Bagasara and Savar Kundla have shown negative growth during 1991-2001. Among urban areas of district Jafrabad has recorded the highest growth of 42.9 per cent while the lowest growth of 12 per cent is recorded in Bagasara taluka. The urban areas of Kunkavav Vadia, Babra, Dhari and Rajula have reported negative growth during the decade of 1991-2001.

TABLE 2
NUMBER AND PERCENTAGE OF INHABITED VILLAGES IN SPECIFIED POPULATION SIZE RANGES WITH THE RELATED POPULATION, 2001

Sl. No.	District / Taluka / C.D. Block	Total Number of Inhabited Village	Total Rural Population			Number and Percentage of Villages	Population less than 200

Table 2 shows the details of absolute number and percentage of inhabited villages falling in each range of population size of villages and number of males and females in each population range at taluka level in the district. Out of 615 inhabited villages 13 (2.1 per cent) villages are small size villages with population less than 200 persons. In the size of 200-499 persons, there are 56 (9.1 per cent) villages and 127 (20.7 per cent) villages are in the population range of 500-999. The maximum number of villages i.e. 246 (40 per cent) are in the population range of 1,000-1,999 and 152 (24.7 per cent) villages are in the range of 2,000-4,999. There are 16 (2.6 per cent) villages in the range of 5,000-9,999 and only 5 (0.8 per cent) villages are in the population range of 10,000 and above.

TABLE 3

NEW TOWNS, DENOTIFIED, DECLASSIFIED AND MERGED TOWNS IN 2001 CENSUS

Name of Town
(a) New
(i) Statutory town Nil
(ii) Census town Nil
(b) Denotified
(i) Statutory towns of 1991 Census denotified and also did not satisfy the criteria to be treated as census towns
(ii) Statutory towns of 1991 Census denotified but identified as census towns based on demographic and economic criteria
(iii) Census towns of 1991 Census are notified as statutory town in 2001 census
(c) Declassified
(1) Dhari VP
(2) Dungar VP
(3) Vadia VP
(4) Babra VP
(d) Wholly merged with other town(s) Nil

Note : Declassified means the census towns of 1991 Census which failed to satisfy the demographic and economic criteria.

Table 3 is self-explanatory and needs no elaboration.

TABLE 4

DISTRIBUTION OF VILLAGES BY POPULATION DENSITY, 2001

Range of Population Density (per Square Kilometer)	Total Number of Villages in each Density Range	Percentage of Villages in each Population Density Range	Population Population	Percentage Distribution of Population
1	2	3	4	5
0-10	4	0.7	961	0.1
11-20	2	0.3	460	0.0
21-50	16	2.6	6,145	0.6
51-100	101	16.4	89,636	8.3
101-200	392	63.7	673,066	62.3
201-300	71	11.5	161,700	15.0
301-500	22	3.6	95,501	8.8
501 +	7	1.1	53,491	4.9
Not known	0	0.0	0	0.0
District Total:	**615**	**100.0**	**1,080,960**	**100.0**

Population Density (Rural) of the District : 155

Table 4 details the distribution of villages by population density ranges. The inhabited villages of the district have been grouped under eight different ranges of density. The maximum number of villages i.e. 392 (63.7 per cent) having the highest proportion of population i.e. 62.3 per cent are in the range of 101-200 persons per sq.km. As many as 101 (16.4 per cent) villages accounting for 8.3 per cent of population are in the range of 51-100 followed by 71 (11.5 per cent) villages with 15 per cent of total population are in the range of 201-300. 16 (2.6 per cent) villages accounting for 0.6 per cent of total population have density of 21-50 persons per sq.km. while 4 (0.7 per cent) and 2 (0.3 per cent) villages are recorded in population density range of 0-10 and 11-20 respectively. The population covered by these six villages is only 0.1 per cent of total population.As many as 22 (3.6 per cent) and 7 (1.1 per cent) villages are in range of 301-500 and 501 and more respectively. The populations of these 22 and 7 villages are 8.8 per cent and 4.9 per cent of total population respectively. The population density in rural areas of the district is 155.

TABLE 5

SEX RATIO OF STATE AND DISTRICT, 1901-2001

Census Year	Gujarat State			Amreli District		
	Total	Rural	Urban	Total	Rural	Urban
1	2	3	4	5	6	7
1901	954	951	965	952	949	965
1911	946	943	960	952	946	982
1921	944	947	931	950	941	1,001
1931	945	948	934	956	946	1,010
1941	941	954	898	955	946	1,002
1951	952	964	920	974	968	1,002
1961	940	956	896	959	962	944
1971	934	951	893	957	962	934
1981	942	959	905	980	987	949
1991	934	949	907	985	993	952
2001	920	945	880	987	1,001	940

Table No. 5 shows sex ratio of State and Amreli district for the census years from 1901 to 2001. As per 2001 Census the district sex ratio is 987 females per 1,000 males while the same for state is 920. The district rural and urban sex ratios are recorded at 1,001 and 940 respectively which are higher than those of state recorded at 945 and 880 respectively. In the census year referred above the highest sex ratio of 987 is recorded in 2001 and the lowest of 950 is recorded in 1921.

TABLE 6

SEX RATIO BY TALUKAS, 2001

Sl. No.	Name of Taluka	Sex ratio		
		Total	Rural	Urban
1	2	3	4	5
1	Kunkavav Vadia	1,028	1,028	-
2	Babra	974	974	-
3	Lathi	972	994	921
4	Lilia	996	996	-
5	Amreli	966	995	931
6	Bagasara	999	1,047	933
7	Dhari	977	981	954
8	Savar Kundla	996	1,022	942
9	Khambha	1,023	1,023	-
10	Jafrabad	969	968	971
11	Rajula	990	997	965
	District Total:	**987**	**1,001**	**940**

Table 6 gives the details of sex ratio for total, rural and urban areas at taluka level as per 2001 Census. There are 987 females per 1,000 males in Amreli district. It can be seen that sex ratio in rural area is 1,001 which is higher than urban sex ratio of 940. Among talukas of the district Kunkavav Vadia has recorded the highest sex ratio of 1,028 females per 1,000 males while the lowest of 966 is recorded in Amreli.

TABLE 7

SEX RATIO BY TALUKAS/C.D.BLOCKS, 2001

Sl. No.	Name of Taluka/ C. D. Block	Sex Ratio
1	2	3
1	Kunkavav Vadia	1,028

9	Khambha	1,023
10	Jafrabad	968
11	Rajula	997
	District (Rural) Total :	**1,001**

Table 7 shows sex ratio in rural areas of the district. The district (rural) sex ratio is 1,001. Among C.D. Blocks the highest ratio of 1,047 is registered in Bagasara and the lowest of 968 in Jafrabad.

TABLE 8

SEX RATIO OF RURAL POPULATION BY RANGES, 2001

Range of Sex Ratio for Villages	Number of Inhabited Villages	Percentage of Villages in each Range	Population 2001	Percentage distribution of population
1	2	3	4	5
Less than 700	2	0.3	4,703	0.4
700-749	1	0.2	68	0.0
750-799	2	0.3	2,289	0.2
800-849	8	1.3	3,121	0.3
850-899	16	2.6	13,195	1.2
900-949	89	14.5	144,582	13.4
950-999	153	24.9	356,563	33.0
1,000-1,099	284	46.2	483,588	44.7
1100+	60	9.8	72,851	6.7
District Total :	**615**	**100.0**	**1,080,960**	**100.0**

Sex ratio (Rural) for District : 1,001

Table 8 details sex ratio of rural population in 9 different ranges of sex ratio as per 2001 Census. The maximum number of villages i.e. 284 (46.2 per cent) with maximum proportion of population, i.e. 44.7 per cent is having sex ratio range of 1,000-1,099. It is followed by 153 (24.9 per cent) villages having 33 per cent of population with sex ratio ranging between 950 and 999. There are 89 (14.5 per cent) villages having 13.4 per cent of population in the range of 900-949 and 60 (9.8 per cent) villages with 6.7 per cent of population are in the range of 1,100 and more. 16 (2.6 per cent) villages are having the sex ratio range of 850-899. It can be seen that 2, 1, 2 and 8 villages accounting together for 2.1 per cent of total villages and 0.9 per cent of total population are having sex ratio of less than 850.

TABLE 9

SEX RATIO OF URBAN AGGLOMERATIONS / TOWNS, 2001

Sl. No.	Name of UA / Town	Urban Status of Town	Sex Ratio
1	2	3	4
1	Amreli	M	(See Amreli Urban Agglomeration)

		Urban	**41,662**	**22,294**	**19,368**	**869**

Table 10 shows the sex ratio of the population in the age group 0-6 years in talukas of the district. It can be seen that total population of children of 0 to 6 years in the district is 198,657 comprising 104,997 male children and 93,660 female children. The sex ratio in age group 0-6 years is 892. The sex ratio for rural and urban area is reported to be 898 and 869 respectively. The proportion of female children is more in rural areas than urban area. The highest and the lowest sex ratio of 960 and 833 are recorded in the Rajula and Amreli talukas respectively. In rural areas the highest sex ratio of 974 is recorded in Rajula and the lowest of 843 in Kunkavav Vadia. In urban areas the highest and the lowest sex ratio of 955 and 816 are recorded in Jafrabad and Amreli talukas respectively.

TABLE 11

SEX RATIO OF POPULATION IN THE AGE GROUP 0-6 FOR TALUKAS / C. D. BLOCKS 2001

Sl. No.	Name of Taluka / C.D. Block	Total Population in 0-6 Age Group			Sex Ratio for 0-6 Age Group
		Persons	Males	Females	
1	2	3	4	5	6
1	Kunkavav Vadia	11,420	6,196	5,224	843
2	Babra	18,970	10,075	8,895	883
3	Lathi	13,978	7,337	6,641	905
4	Lilia	7,977	4,236	3,741	883
5	Amreli	15,139	8,201	6,938	846
6	Bagasara	5,356	2,880	2,476	860
7	Dhari	15,729	8,225	7,504	912
8	Savar Kundla	22,682	12,054	10,628	882
9	Khambha	13,137	6,890	6,247	907
10	Jafrabad	12,664	6,504	6,160	947
11	Rajula	19,943	10,105	9,838	974
	District (Rural) Total :	**156,995**	**82,703**	**74,292**	**898**

Table 11 gives the details about sex ratio of population in the age group of 0-6 years in rural areas of the district. The rural sex ratio of the district is 898 females per 1,000 males. Among C.D. Blocks the ratio varies from 843 in Kunkavav Vadia to 974 in Rajula.

TABLE 12

SEX RATIO OF RURAL POPULATION IN THE AGE GROUP 0-6 BY RANGES, 2001

Range of Sex Ratio for Villages	Number of Inhabited Villages	Percentage Distribution of Villages	Population 2001	Percentage Distribution of Population
1	2	3	4	5
Less than 700	40	6.5	4,785	3.0
700-749	30	4.9	5,273	3.4
750-799	56	9.1	13,271	8.5
800-849	98	15.9	26,786	17.1
850-899	96	15.6	32,638	20.8
900-949	89	14.5	24,513	15.6
950-999	69	11.2	20,826	13.3
1000-1099	82	13.3	20,111	12.8
1100+	55	8.9	8,792	5.6
District Total :	**615**	**100.0**	**156,995**	**100.0**

Sex ratio (Rural) for District is : 898

Table 12 shows sex ratio of rural population in the age group 0-6 years in different ranges. It also shows percentage distribution of villages and population in each range of sex ratio. The maximum numbers of villages i.e. 98 fall in the sex ratio range of 800-849. These 98 villages are accounting for 17.1 per cent of total population. There are 96 villages in the range of 850-899 with the highest population of 20.8 per cent. There are 40, 30 and 56 villages in sex ratio range of less than 700, 700-749 and 750-799 respectively. As many as126 villages in these three ranges of sex ratio are accounting for 14.9 per cent of total rural population. 89, 69, 82 and 55 villages are having sex ratio ranges of 900-949, 950-999, 1000-1099 and 1100 and more respectively accounting for 15.6 per cent, 13.3 per cent, 12.8 per cent and 5.6 per cent of population.

TABLE 13

SEX RATIO OF POPULATION IN THE AGE GROUP OF 0-6 OF URBAN AGGLOMERATIONS / TOWNS, 2001

		Urban	**312,958**	**19,626**	**1,630**	**6.3**	**0.5**

Table 14 shows number and percentage of Scheduled Castes and Scheduled Tribes population in talukas of the district. Out of total population of 1,393,918 persons of the district 115,490 or 8.3 per cent belong to Scheduled Castes and 3,256 or 0.2 per cent belong to Scheduled Tribes. The proportion of Scheduled Castes population is 8.9 per cent in rural areas and 6.3 per cent in urban areas. In rural areas Scheduled Tribes population is 0.2 per cent of total rural population and in urban areas it is 0.5 per cent of total urban population. The highest percentage of Scheduled Castes population is recorded at 12.3 per cent in Kunkavav Vadia taluka and the lowest of 6 per cent in Jafrabad. The highest Scheduled Tribes population of 838 (0.4 per cent) is recorded in Amreli and the lowest of 30 in Lilia.

TABLE 15

NUMBER AND PERCENTAGE OF SCHEDULED CASTES AND SCHEDULED TRIBES POPULATION IN TALUKAS/C.D.BLOCKS, 2001

Sl. No.	Name of Taluka/ C. D. Block	Total Population	Total Scheduled Castes Population	Total Scheduled Tribes Population	Percentage of Scheduled Castes population to Total Population	Percentage of Scheduled Tribes Population to Total Population

	District Total :	**1,080,960**	**95,864**	**1,626**	**8.9**	**0.2**

Table 15 shows number and percentage of Scheduled Castes and Scheduled Tribes population in rural areas of the district. Out of total rural population of 1,080,960 persons 95,864 (8.9 per cent) belong to Scheduled Castes and 1,626 (0.2 per cent) belong to Scheduled Tribes. Among C.D. Blocks the highest Scheduled Castes population of 12.7 per cent recorded in Bagasara and the lowest of 7 per cent in Babra. In absolute numbers the highest Scheduled Castes population of 14,055 (11.5 per cent) is recorded in Amreli while the lowest Scheduled Castes population of 4,948 persons is found in Jafrabad.In number terms, the highest and lowest Scheduled Tribes population of 335 and 30 is found in Dhari and Lilia respectively.In Percentage terms the propotion of Scheduled Tribes population to Total Population varies from 0.1 per cent to 0.3 per cent among the talukas/C.D.Blocks in the district.

TABLE 16

PROPORTION OF SCHEDULED CASTES POPULATION TO TOTAL POPULATION IN VILLAGES, 2001

Percentage range of Scheduled Castes Population to Total Population	Number of Villages	Percentage	Scheduled Castes Population	Percentage
1	2	3	4	5
Nil	69	11.2	0	0.0
Less than 5	151	24.6	7,494	7.8
5-10	199	32.4	36,520	38.1
11-20	153	24.9	39,000	40.7
21-30	31	5.0	8,968	9.4
31-40	10	1.6	3,661	3.8
41-50	0	0.0	0	0.0
51-75	1	0.2	197	0.2
76 and above	1	0.2	24	0.0
District Total :	**615**	**100.0**	**95,864**	**100.0**

Table 16 gives proportion of Scheduled Castes population to total population in villages in different percentage ranges. Out of 615 villages 199 (32.4 per cent) villages accounting for 38.1 per cent of Scheduled Castes population are in the percentage range of 5-10 followed by 153 (24.9 per cent) villages with the highest proportion of Scheduled Castes population of 40.7 per cent are in the range of 11-20. As many as 151 (24.6 per cent) villages with 7.8 per cent population are in the range of less than 5 per

cent, 69 (11.2 per cent) villages do not have any Scheduled Castes population. 31 (5 per cent) villages accounting for 9.4 per cent of total Scheduled Castes population are in the percentage range of 21-30 and 10 (1.6 per cent) villages with 3.8 per cent of Scheduled Castes population are in the range of 31-40. There is no village in the percentage range of 41-50. There is one village in each percentage range of 51-75 and 76 and above. The Scheduled Castes population in these two villages is 197 (0.2 per cent) and 24 (0.0 per cent) respectively.

TABLE 17

PROPORTION OF SCHEDULED TRIBES POPULATION TO TOTAL POPULATION IN VILLAGES, 2001

Percentage Range of Scheduled Tribes Population to Total Population	Number of Villages	Percentage	Scheduled Tribes Population	Percentage
1	2	3	4	5
Nil	509	82.8	0	0.0
Less than 5	104	16.9	1,511	92.9
5-10	2	0.3	115	7.1
11-20	0	0.0	0	0.0
21-30	0	0.0	0	0.0
31-40	0	0.0	0	0.0
41-50	0	0.0	0	0.0
51-75	0	0.0	0	0.0
76 and above	0	0.0	0	0.0
District Total :	**615**	**100.0**	**1,626**	**100.0**

Table 17 gives the details about the number of villages according to proportion of Scheduled Tribes population to total population in 9 different percentage ranges at district level. Out of 615 villages 509 (82.8 per cent) do not have any Scheduled Tribes population. As many as 104 (16.9 per cent) villages accounting for 92.9 per cent of Scheduled Tribes population are in the range of less than 5 per cent. The remaining 2 (0.3 per cent) villages accounting for 7.1 per cent population are in the percentage range of 5-10. It can be seen that there is no village in remaining six percentage ranges.

TABLE 18

NUMBER AND PERCENTAGE OF SCHEDULED CASTES AND SCHEDULED TRIBES POPULATION IN URBAN AGGLOMERATIONS / TOWNS, 2001

	District (Urban) Total :	**312,958**	**19,626**	**1,630**	**6.3**	**0.5**

Note : UA = Urban Agglomeration.

Table 18 shows number and percentage of Scheduled Castes and Scheduled Tribes population in UA/Towns of the district as per 2001 Census. Out of total population of 312,958 of UA/Towns of the district 19,626 (6.3 per cent) belong to Scheduled Castes and 1,630 (0.5 per cent) belong to Scheduled Tribes. Among UA/Towns Chalala (M) has Scheduled Castes population of 11.1 per cent of its total population which is the highest. The lowest proportion of 1.9 per cent of Scheduled Castes population is recorded in Jafrabad (M). In numbers Savarkundla (M) has recorded the highest Scheduled Castes population of 5,320 people. The highest Scheduled Tribes population of 734 (0.8 per cent) is recorded in Amreli (UA) and the lowest of 40 (0.2 per cent) in Chalala (M).

TABLE 19

SEX RATIO AMONG SCHEDULED CASTES AND SCHEDULED TRIBES IN TALUKAS /C.D.BLOCKS, 2001

Sl.No.	Name of Taluka/ C.D.Block	Scheduled Castes Sex Ratio	Scheduled Tribes Sex Ratio
1	2	3	4
1	Kunkavav Vadia	958	784

9	Khambha	979	914
10	Jafrabad	987	1,325
11	Rajula	967	844
	District (Rural) Total :	**958**	**924**

Table 19 reveals sex ratio among Scheduled Castes and Scheduled Tribes in rural areas of the district. It can be seen that rural Scheduled Castes and Scheduled Tribes sex ratio are recorded at 958 and 924 respectively. The highest sex ratio of 987 in Scheduled Castes is recorded in Jafrabad and the lowest of 934 in Savar Kundla. The highest and the lowest sex ratio of 1,600 and 784 in Scheduled Tribes are recorded in Bagasara and Kunkavav Vadia respectively.

TABLE 20

SEX RATIO AMONG SCHEDULED CASTES AND SCHEDULED TRIBES IN URBAN AGGLOMERATIONS / TOWNS, 2001

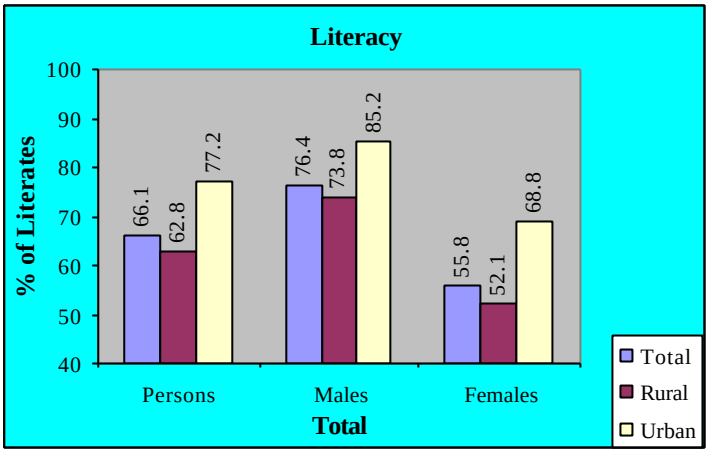

Sl. No.	Name of UA/Town	Scheduled Castes Sex Ratio	Scheduled Tribes Sex Ratio

Table 21 gives talukawise literacy rate with absolute number of literates and illiterates as well as percentage of literates for the population above six years of age. As per 2001 Census the proportion of literates to total population is 66.1 per cent in the district. This proportion is 62.8 per cent in rural areas and 77.2 per cent in urban areas. In the district the male literacy rate of 76.4 per cent is significantly higher than that of female at 55.8 per cent. This leaves a gap of 20.6 percentage points in male/female literacy rate. This gap in male-female literacy rate is 21.7 percentage points in rural areas which is higher than gap of 16.4 percentage points in urban areas. Among the talukas the highest and the lowest literacy rates of 77.5 per cent and 46 per cent are recorded in talukas of Amreli and Jafrabad respectively. The highest gap of 29.6 percentage points in male-female literacy rate is recorded in Jafrabad and the lowest gap of 15.1 percentage is found in Bagasara.

TABLE 22

	District(Rural): Total :	**580,552**	**337,650**	**242,902**	**500,408**	**202,666**	**297,742**	**62.8**	**73.8**	**52.1**	**21.7**

Table 22 reveals the literacy rate and number of literates and illiterates by sex in rural areas of the district. It can be seen that 62.8 per cent of rural population excluding population of age group 0-6 years is literate in the district. The male literacy rate is 73.8 per cent which is higher than that of female literacy rate of 52.1 per cent. The gap in male-female literacy rate is rural areas is 21.7 percentage points. Among talukas the highest literacy rate of 69.8 per cent is recorded in rural areas of Dhari taluka, while the lowest of 41 per cent of the same is found in Jafrabad. The highest and the lowest gap in male-female literacy rate are recorded at 30.4 percentage points in Rajula and at 15.3 percentage points in Bagasara talukas respectively.

TABLE 23

DISTRIBUTION OF VILLAGES BY LITERACY RATE RANGE, 2001

Range of Literacy Rate for Villages	Number of Inhabited Villages	Percentage Distribution of Villages	Population	Percentage Distribution of Population
1	2	3	4	5
0	0	0.0	0	0.0
1-10	0	0.0	0	0.0

71-80	116	18.9	262,854	24.3
81-90	10	1.6	13,400	1.2
91-99	0	0.0	0	0.0
100	0	0.0	0	0.0
District Total :	**615**	**100.0**	**1,080,960**	**100.0**

Literacy rate for District : 66.1

Table 23 shows distribution of villages in different ranges of literacy rate in the district. There is no village in the lowest ranges of 0 and 1-10 per cent and also in the highest literacy rate ranges of 91-99 and 100 per cent. The maximum number of villages i.e. 242 accounting for 39.3 per cent of villages and 42 per cent of district population are in the range of 61-70 per cent. As many as 131 (21.3 per cent) villages having 17.4 per cent of population and 116 (18.9 per cent) villages having 24.3 per cent of population are in the range of 51-60 and 71-80 respectively There are 68 (11.1 per cent) villages in range of 41-50 and they have 8.2 per cent of total population. As different as 1, 12 and 35 villages accounting together for 7.9 per cent of villages and 6.9 per cent of population are in the range of 11-20, 21-30 and 31-40 respectively. As many as 10 (1.6 per cent) villages with 1.2 per cent of population have the highest literacy rate ranging between 81 and 90 per cent.

Note : UA = Urban Agglomeration.

Table 24 gives number and percentage of literates and illiterates by sex in UA/Towns of the district as per 2001 Census.The district urban literacy rate is 77.2 per cent. The urban male and female literacy rates are 85.2 per cent and 68.8 per cent respectively showing a male-female literacy rate gap of 16.4 percentage points. Among UA/Towns the highest literacy rate of 85.6 per cent is found in Amreli (M) while the lowest literacy rate of 58.9 per cent is observed in Jafrabad (M). The gap in male-female literacy rate is the highest in Jafrabad (M) at 29.1 percentage points against the lowest gap of 11.8 percentage points recorded in Amreli (M) which is a part of Amreli (UA).

Table 25 shows number and percentage of Scheduled Castes literates and illiterates by sex in rural areas of the district. The Scheduled Castes literacy rate in the rural areas of the district is 59 per cent. The male literacy rate is 74 per cent and the female literacy rate is 43.4 per cent which shows a gap of 30.6 percentage points in male-female literacy rate. Among talukas Amreli has recorded the highest literacy rate of 65.3 per cent against the lowest of 44.9 per cent recorded in Jafrabad taluka. As regards gap in male-female literacy rate the highest gap of 33.4 percentage points is recorded in Lilia taluka and the lowest of 27.6 percentage points in Babra.

TABLE 26

District Total :	**546**	**100.0**	**95,864**	**100.0**

Literacy rate for District (Rural) : 59

Table 26 reveals the distribution of villages in 12 different ranges of literacy rate for Scheduled Castes population in rural areas of the district. No literate is reported in 10 (1.8 per cent) villages in which Scheduled Castes population is 47. There is no village in range of 1-10 per cent and 9 (1.6 per cent) villages with 0.4 per cent of Scheduled Castes population are in the range of 11-20 per cent. As many as11 (2 per cent) and 40 (7.3 per cent) villages are in the range of 21-30 and 31-40 respectively and together these 51 villages are accounting for 6.7 per cent of Scheduled Castes population. As many as 78 (14.3 per cent) villages having 10.6 per cent of Scheduled Castes population are in the range of 41-50 per cent. The highest number of villages i.e. 177 (32.4 per cent) with the highest proportion of Scheduled Castes population i.e. 36.3 per cent are in the range of 51-60 followed by 150 (27.5 per cent) villages with 33.7 per cent of Scheduled Castes population are in the range of 61-70. There are 53 (9.7 per cent) villages having 10.6 per cent of Scheduled Castes population in the range of 71-80 and 11 (2 per cent) villages with 1.6 per cent Scheduled Castes population are in the range of 81-90. Only 1 village with Scheduled Castes population of 100 is in the range of 91-99. It can be seen that cent per cent literacy is recorded in 6 (1.1 per cent) villages where Scheduled Castes population is only 15.

Note: * Town having outgrowths.

Table 27 gives number and percentage of Scheduled Castes literates and illiterates (except population of 0-6 years) by sex in urban areas of the district as per 2001 Census. The urban literacy rate of Scheduled Castes in the district is 74.8 per cent. The male literacy rate is recorded at 87.3 per cent and that of female at 61.3 per cent. This leaves a gap of 26 percentage points in male-female literacy rate. The highest Scheduled Castes literacy rate of 78.8 per cent is found in Amreli (M) followed closely by 78.6 per cent in Bagasara (M) with the lowest Scheduled Castes literacy rate of 69.6 per cent is recorded in Rajula (M). The gap in male-female literacy rate is the highest at 28.9 percentage points in Rajula (M) and it is the lowest at 23.6 percentage points in Damnagar (CT).

	District (Rural) Total :	**665**	**414**	**251**	**961**	**431**	**530**	**50.8**	**59.9**	**40.6**	**19.3**

Table 28 shows number and percentage of Scheduled Tribes literates and illiterates by sex in rural areas of the district. As many as 50.8 per cent of Scheduled Tribes population (excluding the population of age group 0-6 years) is literates in the rural areas of the district. The corresponding proportion of male and female literates is 59.9 per cent and 40.6 per cent respectively, which shows gap of 19.3 percentage points in male-female literacy rate. Among talukas Khambha has shown the highest Scheduled Tribes literacy rate of 86.0 per cent while the lowest rate of 24.9 per cent is seen in Lathi. As regard the highest and the lowest gap in literacy rate of two genders, it is observed in Jafrabad at 29.2 percentage points and at 3 percentage points in Kunkavav Vadia respectively. The highest male literacy rate of 94.4 is found in Rajula and the lowest of 37.7 per cent in Lathi. The female literacy rate is the highest in Kunkavav Vadia at 78.8 per cent and the lowest female literacy rate of 9.9 per cent is recorded in Lathi.

TABLE 29

DISTRIBUTION OF VILLAGES BY LITERACY RATE RANGE FOR SCHEDULED TRIBES POPULATION, 2001

Range of Literacy Rate for Villages	Number of Inhabited Villages	Percentage Distribution of Villages	Scheduled Tribes Population	Percentage Distribution of Population
1	2	3	4	5
0	11	10.4	230	14.1
1-10	4	3.8	105	6.5

District Total :	**106**	**100.0**	**1,626**	**100.0**

Literacy rate for District (Rural) : 50.8

Table 29 details distribution of villages in 12 different ranges of literacy rates for Scheduled Tribes population in the district. There is no literate in 11 (10.4 per cent) village which are accounting for 14.1 per cent of total Scheduled Tribes population and 38 (35.8 per cent) villages having 8.6 per cent of Scheduled Tribes population have 100 per cent literacy. As many as 12 (11.3 per cent) villages with Scheduled Tribes population of 13.5 per cent are in the range of 61-70 and 11 (10.4 per cent) villages having 8.9 per cent Scheduled Tribes population are in the range of 71-80 per cent. There are 6 (5.7 per cent) villages accounting for 13.5 per cent Scheduled Tribes population in the range of 81-90 and 2 (1.9 per cent) villages having Scheduled Tribes population of 2.2 per cent are in the range of 91-99 per cent.As various as 4, 3 and 3 villages accounting together for 9.4 per cent of villages and 15.5 per cent of Scheduled Tribes population are in the range of 1-10, 11-20 and 21-30 respectively. There are 6 villages in each range of 31-40 and 41-50 per cent together these 12 (11.4 per cent) villages are accounting for 16 per cent of Scheduled Tribes population. As many as 4 (3.8 per cent) villages having 7.7 per cent of Scheduled Tribes population are in the range of 51-60 per cent of literacy rate.

Note: * Town having outgrowths.

Table 30 gives the detail about number and percentage of Scheduled Tribes literates and illiterates by sex in urban areas of the district. It can be seen that the urban Scheduled Tribes literacy rate is recorded at 75.3 per cent. The corresponding rate for male and female is 85.4 per cent and 62.6 per cent respectively showing a gap of 22.9 percentage points in male-female literacy rate. Among towns the highest literacy rate of 89.7 per cent is recorded in Chalala (M) against the lowest of 20.9 per cent in Bagasara (M). The highest gap in male-female literacy rate is registered in Amreli (M) with 25.8 percentage points and the lowest gap of 9.1 percentage points is recorded in Chalala (M).

Table 31 gives absolute number and percentage of main workers, marginal workers and non-workers by sex at taluka level in the district as per 2001 Census. It can be seen that total workers in the district are 43.1 per cent of total population, which is made by 33.7 per cent of main workers and 9.4 per cent of marginal workers. The remaining 56.9 per cent are non-workers. The sexwise break up shows that male total workers are 55 per cent in male population and female total workers are 31 per cent in total female population. Among main workers male main workers are 52.2 per cent and female main workers are 15 per cent of their respective total population. As women are wholly engaged in domestic work their proportion as marginal workers is naturally high at 16 per cent compared to the male marginal workers proportion of only 2.9 per cent.

Table 32 shows absolute number and percentage of workers by sex for rural areas of the district. The proportion of total workers to total population is 46.2 per cent. The male and female total workers are 55.9 per cent and 36.5 per cent respectively of their total population. As many as 53.8 per cent of total population is non-workers. Total workers comprise main and marginal workers. The proportion of main workers is 34.8 per cent and that of marginal workers is 11.4 per cent. Male main workers are 52.6 per cent of total male population while female main workers are 17 per cent. Among marginal workers it is found that female proportion of 19.5 per cent is higher than 3.2 per cent of male marginal workers. The proportion of female marginal workers is higher than that of males in all the talukas whereas the proportion as male main workers and total workers is higher in all the talukas than the proportion of female main workers and total workers. Among talukas the highest proportion of 52.4 per cent of total workers is found in Lathi and the lowest of 39.5 per cent in Jafrabad.

Note : UA = Urban Agglomeration.

Table 33 gives absolute number of different types of workers (total, main and marginal) as well as non workers by sex for urban areas of the district. The urban total workers are 32.5 per cent of total urban population which is made by 29.9 per cent of main workers and 2.6 per cent of marginal workers. A very high percentage of 67.5 per cent of the population is found to be non workers. The sex wise break up shows that male total workers are 52.2 per cent and female total workers are 11.5 per cent. Among main workers male and female main workers are 50.6 per cent and 7.9 per cent respectively. As women are assuming more than one activity including their usual domestic duties their proportion as marginal workers of 3.6 per cent is higher than male marginal workers proportion of 1.6 per cent.

Note: Percentages of Workers to total workers are given in brackets

Table 34 shows distribution of workers by sex in four categories of economic activity in talukas of the district. As the data shows total workers (main + marginal) are 43.1 per cent of total population. As high as 38.5 per cent of total workers are cultivators, 25 per cent are agricultural labourers, 1.8 per cent is Household Industry workers and 34.7 per cent of total workers are engaged as other workers. This shows that together 63.5 per cent of total workers are engaged in cultivation. Among talukas the highest percentage of 54 per cent of cultivators is found in Kunkavav Vadia and the lowest of 26.3 per cent in Jafrabad. The proportion of Agricultural labourers varies between 17.4 per cent in Bagasara and 34.4 per cent in Khambha.

Note: Percenteges of Workers to total workers are given in brackets.

Table 35 shows talukawise distribution of workers by sex in four categories of economic activity in rural areas of the district. It can be seen that proportion of total workers to total population is 46.2 per cent in the rural areas. As many as 44.9 per cent of total workers are cultivators, 29 per cent are Agricultural labourers, 1.5 per cent are Household Industry workers and 24.6 per cent are other workers. This indicates that 73.9 per cent of total workers are engaged in agriculture related occupations in this district. Thus agriculture sector plays a major role in providing employment in rural areas of the district. The sex wise break up shows that male cultivators are 41.8 per cent of male workers and female cultivators are 49.7 per cent of female total workers. The proportion of male and female agriculture labourers is 22.7 per cent and 38.6 per cent respectively whereas among Household Industry workers the male workers proportion is 1.4 per cent and that of female is 1.6 per cent. Among other workers male proportion of 34.1 per cent is significantly higher than female proportion of 10.1 per cent.

At taluka level the proportion of cultivators varies from 34.9 per cent in Jafrabad to 57.9 per cent in Bagasara. The highest percentage of 41.2 per cent agriculture labourers is found in Jafrabad while the lowest of 22 per cent is recorded in Bagasara. The share of Household Industry is comparatively very low in all the talukas. The proportion of other workers varies from 17.7 per cent in Khambha to 30.9 per cent in Lathi.

Note : Percentage are given in brackets.
UA = Urban Agglomeration.

Table 36 details the distribution of workers by sex in four categories of economic activity in UA/ Towns of the district. It can be seen that in urban areas of the district total workers are 32.5 per cent of total urban population. Among these workers cultivators are 7.1 per cent, agricultural labourers are 5.6 per cent, Household Industry workers are 3.3 per cent and a very large proportion of 84 per cent are other workers. Thus this data indicates that in urban areas other sector provides more employment in comparision to agriculture sector which play bigger role in providing employment in rural areas. Among UA/Towns the proportion of other workers varies from 65.4 per cent in Chalala (M) to 97 per cent in Jafrabad (M). The highest proportion of 14.2 per cent of cultivators is found in Damnagar (CT) and the highest percentages of 17 per cent of agricultural labourers are recorded in Chalala (M).

Note : Percentages are given in brackets.

* Based on the improved drinking water source, drinking water supply has been classified as 'Improved ' or otherwise. If the household has access to drinking water supplied from a tap or a hand pump / tube well situated within or outside the premises it is considered as having access to 'Improved drinking water source' However, the concept of improved drinking water is state specific and this is to be considered accordingly.

Post office includes Post office, telegraph office and Post and telegraph office.

$ Transport communication includes bus service, rail facility and navigable waterways.

Table 37 shows the talukawise distribution of villages according to availability of different amenities. Out of total of 615 inhabited villages in the district, 614 (99.8 per cent) villages have at least one primary school. Medical facility of one or another kind is available in 383 (62.3 per cent) villages. As many as 599 (97.4 per cent) villages have Improved drinking water facility either of a tap, well, and tube-well. Out of 615 villages 380 (61.8 per cent) villages have Post Office, 461 (75 per cent) have Telephone, 591 (96.1 per cent) have Transport /communication facility. Only 75 (12.2 per cent) villages have banking facilities. As many as 385 (62.6 per cent) villages have Agricultural Credit Societies and 535 (87 per cent) villages have Approach by pucca road and all the villages have Power Supply.

In the field of education all villages have been covered except 1 village in the district. In Kunkavav Vadia, Babra, Lathi, Bagasara and Khambha talukas cent percent villages have improved drinking water facility while only 37 (88.1 per cent) villages in Jafrabad taluka has Improved drinking water facility which is the lowest proportion in district. Post Office facility is higher in Kunkavav Vadia and Savar Kundla talukas (80 per cent) and lower (38.1 per cent) in Jafrabad taluka. Telephone facility is the highest in Lathi taluka (91.8 per cent) and the lowest (54.8 per cent) in Jafrabad taluka. Transport and communications are well developed in the district. Kunkavav Vadia, Babra, Lilia and Amreli talukas enjoy this facility cent per cent and in Lathi taluka 87.8 per cent of villages have this facility which is the lowest in district.

* Based on the improved drinking water source, drinking water supply has been classified as 'Improved ' or otherwise. If the household has access to drinking water supplied from a tap or a hand pump / tube well situated within or outside the premises it is considered as having access to 'Improved drinking water source'.
However, the concept of improved drinking water is state specific and this is to be considered accordingly.

Post office includes Post office, telegraph office and Post and telegraph office.

$ Transport communication includes bus service, rail facility and navigable waterways.

Table 38 gives the details about the number and percentage of rural population served by different types of amenities. The total rural population is 1,080,960. Of which population of 1,080,936, i.e. nearly cent per cent population avails one or another type of educational facilities while 76.3 per cent of population has Medical facilities of one or another type. 95.8 per cent of population has improved drinking water facilities and 79.9 per cent have facilities of Post Office. Out of total rural population 905,748 (83.8 per cent) have Telephone facility and 1,062,432 (98.3 per cent) have Transport communication facility. As regards banks only 29.3 per cent of population has banking facilities and 76.1 per cent of population has facility of Agricultural Credit societies. Facilities of approach by pucca road are available to 93.7 per cent of population whereas entire rural population of 1,080,960 (100 per cent) is enjoying Power Supply facilities.

(b) Co-operative Bank	132	204	246	582
7. Agricultural Credit Societies	96	56	78	230

Note : * In Gujarat State the levels of education are classified as under
(i) Primary School(From Std. I to VII passed)
(ii) Secondary/Matriculation(From Std. VIII to X passed)
(iii) Higher Secondary (From Std. XI to XII passed). Hence details under 1(b) are not shown.

Table 39 shows distribution of villages not having certain amenities arranged by distance ranges from the places where these amenities are available.

It can be seen that 1 village has primary school and 31 villages have degree colleges within 5 kms. while 59 and 522 villages have Degree College at distance of 5-10 kms. and 10 and more kilomtres respectively. 37 villages have hospital and 147 villages have Primary Health Centre at a distance of less than 5 km. 74 villages have Hospital and 210 villages have PHC within 5-10 kms. while 491 villages have hospitals and 219 villages have PHC at a distance of 10 or more kms. Post Office facilities are available to 178 villages within 5 kms, 42 villages have Post Office within a 5-10 kms. and 15 villages have Post Office at a distance of 10 and more kilometers. As regards Telephone facility it can be seen that 65 villages have telephone facility at distance of less than 5 kms. and 41 villages have telephone facility at a distance of 5-10 kms. and 48 villages have Telephone facility at a distance of 10 or more kilometres. Bus services are available to 22 villages at a distance of less than 5 kms and 1 village at a distance of 5-10 kms., while 2 villages have bus services available at a distance of 10 and more kms. As many as 193 villages have Commercial Banks and 132 have Co-operative Bank at a distance of less than 5 kms.,209 villages have commercial banks and 204 villages have Co-operative bank within 5-10 kms. As many as 149 villages have commercial bank and 246 villages Co-operative bank at a distance of 10 or more kms. Agricultural Credit Societies are available at a distance of less than 5 kms for 96 villages. 56 villages have Agriculture Credit Society within 5-10 kms. while 78 villages have such facilities at a distance of 10 or more kilometres.

Note : Percentages are given in brackets.
Post office includes Post office, telegraph office and Post and telegraph office.
$ Transport communication includes bus service, rail facility and navigable waterway

Table 40 details the distribution of villages according to the distance from the nearest statutory town and availability of different amenities. Out of 615 inhabited villages 26 villages are at a distance of less than 5 kms. from the nearest statutory town. All these 26 villages have educational facilities. As regards other amenities, out of these villages 23 villages have Approach by pucca roads, 21 have Telephones, 20 have Transport Communications, 14 have Agricultural credit societies, 13 have Medical facility and 10 villages have Post Office. No village in this range has banking facility. 227 villages have nearest town at a distance of 5 to 15 kms. The availability of different amenities in this range varies from 23 (10.1 per cent) villages, who have banking facilities to 226 (99.6 per cent) villages who having Educational facilities. In this range 216 villages have Transport Communications facility, 200 have Approach by pucca roads facility, 180 have Telephone facility, 147 villages have Agricultural credit societies, 145 villages have Medical facility and 143 villages have Post Offices. As many as 349 villages are located at a distance of 16 to 50 kms. from the nearest statutory town. All of these villages have Educational facilities. As regards other facilities out of 349 villages 342 villages have Transport Communication facility, 299 villages have Approach by pucca roads, 251 villages have Telephone facility, 219 villages have Post office, 217 villages have Agricultural Credit societies, 214 villages have Medical facility and only 50 villages have banking facilities. Only 13 villages are situated in the range of 51 kms. or more from the nearest statutory town. All these villages have the facilities of Educational, Transport Communication and Approach by pucca roads. As many as 11 villages in this range have Medical facilities, 9 villages have Telephone facilities, 8 villages have Post Office, 7 villages have Agricultural Credit Societies and only two villages in this range have banking facilities. There is no village in the range titled ‘Unspecified’.

Note : Percentages are given in brackets.
Post office includes Post office, telegraph office and Post and telegraph office.
$ Transport communication includes bus service, rail facility and navigable waterways
* Based on the improved drinking water source, drinking water supply has been classified as 'Improved ' or otherwise. If the household has access to drinking water supplied from a tap or a hand pump / tube well situated within or outside the premises it is considered as having access to 'Improved drinking water source' However, the concept of improved drinking water is state specific and this is to be considered accordingly.

Table 41 shows distribution of villages according to 6 different types of population ranges and amenities available. There are 5 villages in the population range of 10,000 and more persons. Improved drinking water facility is available to 4 villages in this range. All other facilities are available to all these 5 villages. There are 16 villages in the population range of 5,000 to 9,999. Out of these villages 3 villages do not have facility of banking and Agricultural Credit societies. All other facilities are available to all the 16 villages in this range. There are 152 villages in the range of 2,000-4,999. All these villages have facilities of Education and Power Supply. The availability of other facilities varies from 41 villages (banks) to 150 villages (Transport communication) in this range. There are 246 villages in the range of 1,000-1,999. In this range Education and Power Supply facilities are available to all the villages while 244 villages have facilities of Improved drinking water and Transport communication. Other facilities are available to between 13 (banks) villages to 224 (Approach by pucca road) villages in this range. There are 127 villages in the population range of 500-999. Education and Power Supply facilities are available to all these 127 villages. The availability of other facilities in this range varies from 2 villages to 120 villages which are having banks and Improved drinking water and Transport communication facilities. There are 69 villages in the population range of 1-499 persons having the facility of Power Supply. Other facilities are available between 1 village to 68 villages. It can be observed from the data that villages in lower population range do not have adequate facilities as compared to the villages with higher population range. Thus it can be said that with the increase of population availability of other such facilities are also increasing.

TABLE 42
DISTRIBUTION OF VILLAGES ACCORDING TO LAND USE, 2001

Sl. No.	Name of Taluka/ C.D.Block	Number of Inhabited Villages	Total area (In Hectares)	Percentage of Cultivable area to Total area	Percentage of Irrigated area to Total Cultivable area
1	2	3	4	5	6
1	Kunkavav Vadia	45	54,582.0	86.9	3.4
2	Babra	57	79,316.6	74.9	22.4
3	Lathi	49	57,474.6	84.1	17.6
4	Lilia	37	39,499.5	80.5	5.1
5	Amreli	70	76,728.2	85.8	23.8
6	Bagasara	31	29,995.4	81.0	16.0
7	Dhari	75	94,677.1	68.1	22.5
8	Savar Kundla	80	110,050.7	73.6	12.0
9	Khambha	57	59,529.5	65.4	13.6
10	Jafrabad	42	32,692.9	77.4	13.3
11	Rajula	72	63,321.5	68.8	16.3
	District Total :	**615**	**697,868.0**	**76.0**	**16.0**

Note: - Cultivable area = irrigated area + unirrigated area

Table 42 gives the details of distribution of villages according to land use. As the data shows total area of 615 inhabited villages of the district is 697,868.0 hectares. The cultivable area of the district is 76 per cent of total area and irrigated area is 16 per cent of cultivable area. Among talukas Savar Kundla has the highest area of 110,050.7 hectares spread in 80 villages. The lowest area of 29,995.4 hectares is recorded in Bagasara. In percentage terms Kunkavav Vadia has 86.9 per cent of total are reported as cultivable area which is the highest in district while the lowest cultivable area of 65.4 per cent is in Khambha. The highest irrigated area of 23.8 per cent is registered in Amreli and the lowest of only 3.4 per cent in Kunkavav Vadia.

TABLE 43
PER CAPITA RECEIPT AND EXPENDITURE IN STATUTORY TOWNS (In Rs.)

Sl. No.	Class, Name & Urban Status of the Town	Per Capita Receipt			Per Capita Expenditure					
		Total	Through Taxes	From All Other Sources	Total	General Administration	Public Health and Conveniences	Public Works	Public Institutions	Other(S)

5	Lathi (M)	4.8	0	1.4	1	0
6	Rajula (M)	3.1	0	0.6	0.6	0
7	Savar Kundla (M)	2.3	0	0.8	0.4	0.1
	District Total :	**3.3**	**0**	**1**	**0.5**	**0.2**

Note : @ Town having outgrowths.
* In Gujarat State, the levels of education are classified as under
(i) Primary School (From Std. I to VII passed)
(ii) Secondary/ Matriculation(From Std. VIII to X passed)
(iii) Higher Secondary (From Std. XI to XII passed). Hence, details under Col.4.are not shown

Table 44 shows the availability of schools/ colleges per 10,000 populations in statutory towns of Amreli district. As the data reflects there are 3.3 primary schools, 1 Secondary school, 0.5 senior secondary schools and 0.2 colleges per 10,000 of population in the district.

Lathi (M) has reported 4.8 primary schools which is the highest among all the towns while the lowest numbers of 2.3 primary schools are reported in Savar Kundla (M). Jafrabad (M) has 1.6 Secondary schools per 10,000 populations which is the highest. The lowest number of 0.6 secondary schools is registered in Rajula (M). As regards senior secondary schools Chalala (M) has the highest number of Senior Secondary school which is 1.2 and Bagasara (M) has reported only 0.3 senior secondary schools per 10,000 populations which is the lowest among talukas. As the data shows only three towns has College. Amreli (M) has 0.5, Bagasara (M) has 0.3 and Savar Kundla (M) has 0.1 colleges per 10,000 populations.

TABLE 45

NUMBER OF BEDS IN MEDICAL INSTITUTIONS IN TOWNS, 2001

Sl. No.	Name And Urban Status of the Town	Number of Beds in Medical Institutions Per 10,000 Population
1	2	3
1	Amreli(M) *	42
2	Bagasara(M)	24
3	Chalala(M)	9
4	Damnagar(CT)	22
5	Jafrabad(M)	6
6	Lathi(M)	26
7	Rajula(M)	93
8	Savar Kundla(M)	23
	District Total :	**34**

Note : *Town having outgrowths.

Table 45 gives the details of number of beds per 10,000 populations in medical institutions in towns of the district. In Amreli district 34 beds are reported for every 10,000 persons in medical institutions of towns. Among towns the highest numbers of 93 beds are reported in Rajula (M) against the lowest of 6 bed reported in Jafrabad (M).

TABLE 46

PROPORTION OF SLUM POPULATION IN TOWNS, 2001

Sl. No.	Name of The Town	Total Population	Slum Population	Percentage of Slum Total Population to Population
1	2	3	4	5
1	Amreli	95,307	10,418	10.9
2	Chalala	16,915	4,500	26.6
3	Rajula	32,395	5,200	16.1
	District Total :	**144,617**	**20,118**	**13.9**

Table 46 gives proportion of slum population in towns of the district. The total population of three towns shown in the table is 144,617 and slum population of these towns is 20,118 which is 13.9 per cent of the total population of these towns. Among towns Amreli has the highest slum population in number terms which is 10,418 while in percentage terms Chalala has reported the highest slum population of 26.6 per cent.

TABLE 47

MOST IMPORTANT COMMODITY EXPORTED OUT OF AND MANUFACTURED IN TOWNS, 2001

Sl. No.	Name And Urban Status of Town	Most Important Commodity	
		Manufactured	Exported
1	2	3	4
1	Amreli (M) *	Groundnut Oil	Groundnut Oil
		Steel, Wooden Furniture	Groundnut
		Tiles	Tiles
2	Bagasara (M)	Edible Oil	Handloom Cloth
		Handloom Cloth	Embroideried Garments
		Dyed & Printed Cloth	Edible Oil
3	Chalala (M)	Food Grains	Food Grains
		Oil Seeds	Oil Seeds
		Cotton	Khadi Cloth
4	Damnagar (CT)	Groundnut	Edible Oil
		Cotton	Cotton
		Food Grains	Food Grains
5	Jafrabad (M)	Salt	Salt
		Fish	Fish
		Gypsum	Gypsum
6	Lathi (M)	Groundnut Oil	Chillies
		Cotton	Groundnut Oil
		Chillies	Cotton
7	Rajula (M)	Electric Motors	Stone Products
		Diesel Oil Engine	Cotton
		Stone Products	Food Grains
8	Savar Kundla (M)	Iron Scales	Iron Scales
		Iron Sheets' Materials	Iron Sheets' Materials

Note : *Town having outgrowths.

Table 47 indicates the most important commodities manufactured and exported out of each town of the district. As the data reveals Groundnut oil, Groundnut, Cotton, Food grain, Edible oils, Oilseeds, Salt, Steel, Wooden furniture, Tiles, Handloom cloth, Dye and Printed cloth, Fish, Gypsum, Chillies. Electric motors, Diesel oil engines, stone products, Iron scales, Iron sheet's mate are main commodities manufactured in the towns of the district. Most of commodities manufactured are also exported out of these towns.

Source: Census of India 2001, H- series: "Tables on Houses, Household amenities and Assets."

Table 48 details the number of Households by tenure status and number of rooms occupied in the district. The total numbers of Households in the district are 253,725 having 197,503 households in rural areas and 56,222 households in urban areas. Out of total households 23,767 belong to Scheduled Castes and 1,825 belong to Scheduled Tribes. Out of total of 253,725 households in the district 231,377 (91.2 per cent) households are living in their owned house 17,255 (6.8 per cent) households are living in rented house and remaining 5,093 (2 per cent) are living in other house. In rural areas it can be seen that out of total households in the district majority of households i.e. 111,315 have only one room accommodation followed by 91,702 households who have two room accommodations. Three room accommodations is occupied by 26,892 households and 21,714 households have accommodations of more than three rooms. There are 2,102 households in the district who do not have any exclusive room. The data also shows that in Amreli district in number terms as well as in percentage terms more households are living in their own houses in rural areas as compared to households of urban areas where proportionately or more households are living in rented house. 92.2 per cent of Scheduled Castes households and 66.2 per cent of Scheduled Tribes households are living in their own houses in Amreli district. It can be seen that median number of rooms is 2 for district as well as for rural and urban areas.

Source : Census of India 2001, H - series : "Tables on Houses, Household amenities and Assets."

Note : Permanent : Permanent houses refers to those houses whose wall & roofs are made of pucca materials i.e., where, burnt bricks, G.I. Sheets or other metal sheets, stone cement concrete is used for wall and tiles slate, shingle, corrugated iron, zinc or other metal sheets asbestos sheets, bricks, lime and stone and RBC/RCC concreate are used for roof.

Semi permanent : Semi-permanent houses refer to those houses made of other types of material

Temporary : Temporary houses refers to those houses having wall and roofs made of Kutcha materials i.e. where grass, leaves, mud, unburnt bricks, wood etc. are used for roofs. reeds, bamboo mud, unburnt bricks are used for the construction of walls and grass, leaves reeds, bamboo hatch.

Table 49 details about percentage distribution of households living in permanent, semi permanent and temporary houses in the district. Out of total 253,725 households 164,537 (64.9 per cent) have permanent houses, 81,705 (32.2 per cent) have semi permanent and the remaining 7,446 (2.9 per cent) households have temporary houses. In rural areas 59.8 per cent households are living in permanent houses. As many as 37.0 per cent are living in semi permanent houses and the remaining 3.2 per cent are living temporary houses. In urban areas 82.7 per cent households are living in permanent houses, 15.5 per cent are living in semi permanent and 1.9 per cent are living temporary houses. It can be seen that in comparison to rural areas having of permanent nature in urban areas are found to be more. Among talukas Bagasara taluka tops the list with 77.9 per cent of permanent houses while Khambha taluka has the highest percentage of 49.2 per cent of semi permanent houses. 4.7 per cent households of Babra have temporary house which is the highest among all the talukas.

Source: Census of India 2001, H- series: "Tables on Houses, Household amenities and Assets."

Note : * Based on the improved drinking water source, drinking water supply has been classified as 'Improved ' or otherwise. If the household has access to drinking water supplied from a tap or hand pump/tube well situated within or outside the premises it is considered as having access to `Improved drinking water source'. However, the concept of improved drinking water is state specific and this is to be considered accordingly.

@ Bathroom means bathroom available within the house

$ Toilet means toilet available within the house

Drainage means closed and open drainage

Percentage are given in brackets.

Table 50 shows percentage of households having Improved drinking water source, Electricity, Bathroom, Toilet and Drainage facility. The data indicates that 80.6 per cent of total households have Improved drinking water source, 89.6 per cent have electricity, 50.9 per cent have bathroom facility within the house, 38.7 per cent have toilet facility within the house and 30.1 per cent of households have closed and open drainage. In rural areas 77.7 per cent and in urban areas 90.7 per cent have Improved drinking water source. 88.2 per cent households in rural areas and 94.8 per cent households in urban areas have electricity. As regards bathroom facility 44.7 per cent of rural households and 72.6 per cent of urban households have bathroom facility within the house. Toilet facility within the house is available to 30.4 per cent of rural households and 67.7 per cent of urban households. In rural areas 21.3 per cent households have closed and open drainage while corresponding figure for urban households stands at 60.8 per cent. Thus, it can be seen that households in urban areas are better equipped with all the facilities as compared to rural areas.

The availability of facility of improved drinking water in district varies from 57.1 per cent in Jafrabad to 92.7 per cent in Bagasara. As regards electricity 96.4 per cent of households in Amreli and 77.2 per cent households in Jafrabad and Rajula have electricity which are the highest and the lowest percentage in the district. The highest and the lowest proportion of households having bathroom are 67.1 per cent in Amreli and 40.0 per cent in Babra. The highest and the lowest proportion of households having toilets are recorded to be 56.1 per cent in Amreli and 17.7 per cent in Jafrabad respectively. 42.1 per cent of households in Amreli have drainage facility which is the highest among talukas while the lowest of 18.2 per cent of drainage facilities is in Jafrabad.

Source: Census of India 2001, H- series: "Tables on Houses, Household amenities and Assets."

Note : Percentage are given in brackets.

Table 51 gives the details about the percentage distribution of households by type of fuel used for cooking purpose. There are nine types of fuel used for which data is presented in this table. Firewood is widely used as fuel. 42.4 per cent of district households use firewood as fuel. Crop residue is at second place as 18.5 per cent households used it as fuel for cooking. LPG is used by 15.5 per cent households and cowdung cake is used by 11.5 per cent of households. Kerosene is used by 9.4 per cent households and 2.1 per cent households use biogas. The usage of other fuel such as electricity, coal and others is negligible. No cooking is reported in 0.3 per cent of households. In rural areas firewood is used by 48.4 per cent households while 21.3 per cent urban households use firewood for cooking. 22.6 per cent of rural households and 4.4 per cent of urban households use crop residue while 13.6 per cent households in rural areas and 3.8 per cent households in urban areas use cowdung cake. LPG is widely used in urban areas. 48.2 per cent households in urban areas are using LPG for cooking while in rural areas only 6.2 per cent households use LPG. Kerosene is also used more in urban areas as compared to rural areas. 6.3 per cent rural households and 20.3 per cent urban households use kerosene as cooking fuel. The usage of other fuels in rural and urban areas is not so significant. Among the talukas the usage of firewood varies between 22 per cent in Kunkavav Vadia taluka to 66.8 per cent in Lilia taluka. The usage of LPG. varies from 4.4 per cent in Khambha taluka to 37 per cent in Amreli. As many as 19.6 per cent households in Jafrabad are using kerosene as cooking fuel, which is the highest among all the talukas, while only 4.3 per cent households in Lilia are using kerosene as a fuel.

Source: Census of India 2001, H- series: "Tables on Houses, Household amenities and Assets."

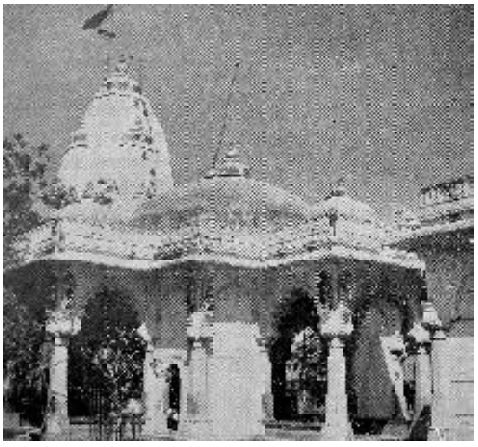

Table 52 gives number of households availing banking services and number of households having each of the specified assets. There are 253,725 households in the district. Out of these 94,245 or 37.1 per cent households are availing banking services. As regards specific assets it can be seen that 31.3 per cent households have Radio transistor, 10.2 per cent have Telephone, 37.2 per cent have Bicycle, 19.5 per cent have Scooter/Motorcycle/Moped, 2.3 per cent have Car/Jeep/Van and 37.1 per cent households do not have any of the specified assets. 35.3 per cent households in rural areas and 43.6 per cent households in urban areas are availing banking services. In rural areas 29.6 per cent households have Radio Transistor, 23.1 per cent have TV, 7.6 per cent have Telephone, 32.8 per cent have Bicycle, 17.1 per cent have Scooter/Moped/Motor Cycle, and 2.0 per cent has Car, Jeep, and Van. 42.0 per cent households in rural areas and 20.1 per cent households in urban areas do not have any of the specified assets. In urban areas 37.3 per cent households have Radio Transistor, 60.2 per cent have TV, 19.4 per cent have Telephone, 52.7 per cent have Bicycle, 28.0 per cent have scooter/ motor cycle/moped, 3.4 per cent have car, jeep, van. At talukas level in Jafrabad 57.6 per cent households do not have any other specified assets which suggest that 42.4 per cent of households in Jafrabad have one or more specified assets. In Amreli 18.7 per cent of households do not have any of specified assets, which indicate that 81.3 per cent households have at least one of specified assets.

(viii) Major social & cultural events, natural and administrative developments and significant activities during decade

Amreli district is in the east of Junagadh. It is the smallest district in Saurashtra. Yet it has prospered with industries to a large extent. There is a cement factory in Jafrabad. Rajula, Savar Kundla, Jafrabad and Amreli are important centres for cottage industry and trade. The fair which deserve specific mention are the *Janmashtami* Fair at Dhareshvar, *the Hanuman Jayanti* fair, *Bhadarvi Amas* fair at Pipavav and the *Brahma Kund* fair at Babra. Embroidery is a pastoral art in its inception. Various factors however, have contributed to the development of this art in district. Important among these is the patronage extended by rural folk particularly *Kathis, Valas in* Bagasara, Charodia, Ingorala, Chakla, and Babra etc. as they love to wear garments which are exquisitely embroidered. Every item produced, be it a cap, *ghaghra*, blouse or sarees though endowed with finest workmanship is essentially meant for actual use affording continuous pleasure and pride to the owner and user.

(ix) Brief description of places of religious, historical or archaeological importance in villages and places of tourist interest in the town of the district :

Name of Taluka : Amreli
Name of Town : Amreli
Location Code : 41303000

(Nagnath Temple)

Amreli, the district headquarter is situated on a small river called the Thebi. It was fortified by a wall, which is in ruins at present. It was called Amarvalli in the ancient time. This is evidenced from the stone inscription found in the Nagnath temple at Amreli. The temple was built in Vikram Samvat 1873 (1817 A.D.). In the west and south of the modern Amreli, there exist the remnants of the old town in the foundation in the fort of the Thebi and the Vadi rivers and the two old temples '*The Kamnath* and the *Trimbaknath* on the west and the east of the river. In the 18th Century, only the west and the south of the modern Amreli were inhabited. In the old fort, the *Juno Kot*, there were piles of round shots and some old field and siege guns of the English and Indian make, with carriages mostly ruined. Now they are exhibited in the museum at Amreli. The important industries of the town are oil mills and spinning and weaving mills. There is one well-equipped museum which provides recreation for children. It is named as Nehru Bal Bhawan.

Name of Taluka : Amreli
Name of Village : Fattepur
Location Code : 00925400

(Birth place of Bhoja Bhagat)

Fattepur is situated about 3 km from the Amreli railway station, and is linked with Amreli and Khambha by bus service. Fattepur is famous as it is the birth-place of Bhoja Bhagat, who was a Savalia Kanbi. Though illiterate, with the blessings of his guru, in Girnar, he wrote inspiring bhajans' and devo-tional songs. His Chabkha or scourges are famous through out Gujarat. In order to test Bhagat's spiritual powers, the Khathiawar Diwan, Vithalrao Devaji imprisoned him in the building at Amreli, where he composed 150 Chabkha preaching renunciation, social reforms and exposing hypocrisy of religious leaders. As present, there is a shrine of the Bhagat with his relics at the village.

Name of Taluka : Dhari
Name of Village : Dhari
Location Code : 00933600

(Birth place of Shri Yogi Maharaj)

Dhari, the headquarters of the taluka of Dhari, is a railway station on the Khijadia-Veraval Railway Section. Dhari is 47 km away from Amreli. Dhari is connected by bus service with Amreli, Rajkot, Kodinar, Savar-Kundla, Khambha and Bagasara. Dhari is the birth place of the *Swaminarayan* saint, *Shri Yogi Maharaj*. There is a Kund-a spring of water below the old fort and an old masjid between the Natadia and Shetrunji rivers. At a picturesque spot about 3 km in the lower reaches of the Shetrunji River there is a shrine of Khodiar Mata.

Name of Taluka : Rajula
Name of Village : Chanch
Location Code : 00963100

(Chanch Palace)

Chanch is not far from the mouth of the Motapat Creek, on a rock on the shore of the Arabian Sea. Victor is the nearest railway station and bus stop. Pipavav Port is 6 km from the Victor village and Chanch village is ata distance of 3 km from Pipavav Port.The village is called Chanch presumably because of its historical piratical past and a beak-like physical shape. It had a gigantic Rukhada tree which collapsed about many years ago. At present, the followers of the Swaminarayan sect have built one small Shiva temple on the spot which is called the Rukhadiya Mahadev. As Shree Swaminarayan had visited this place, it has become a place of pilgrimage for the followers of that sect. The village has become famous because of the construction of huge steamer like palace called the Vijay-Mahal by the Maharaja of Bhavnagar. It is built with the Rajula stone and the Makarana marble at an estimated cost of Rs. 20 lakhs on the beak-like point on the sea coast. The construction, which was started in 1945, took ten years to complete. It has 88 rooms and provides all modern amenities needed by the Maharaja and his entourage. It is private property of the Maharaja.

Name of Taluka : Rajula
Name of Village : Dhareshvar
Location Code : 00958200

(Temple of the Dhareshvar Mahadev)

Dhareshvar is 8 km from Rajula, the headquarters of the taluka. The nearest railway station is the Rajula Junction, 3 km from the Dhreshvar village. Dhareshvar is also connected with Rajula by bus services. Close to the Dhareshvar, there is a confluence of two rivers, viz. Dhatarwadi and Surajwadi. The village is called Dhreshvar because of the temple of the Dhareshvar Mahadev in the village. The Mahadev is so called because the temple is located on the bank of (*Dhar)* the Dhatarwadi River. The temple is over hundred years old and was built during the Bhavnagar regime. The temple is managed by the Doshi Kapol Samaj Trust which provides free accommodation to the pilgrims in the Dharamshala attached to it. Because of its location on the high bank of the river Dhatarwadi, the temple provides a picnic spot to the people of Rajula and the neighboring villages. The Dhatarwadi weir was constructed across the Dhatarwadi River. It provides irrigation to some villages.

Name of Taluka : Rajula

Name of Village : Pipavav
Location Code : 00962500

(Temple Ranchhodji)

Pipavav is a village situated on the east bank of the Jholapuri river. The nearest Railway Station is Victor on Dungar Victor Section, less than one kilometer from the village. In fair season, the village is linked with Rajula by bus service. There is an old Pipavav port on Devra-Puri Creek. The village is said to have been founded by Pipa Bhagat and therefore, it is named after him. There is the Ranchhodji temple said to have been established by Pipa Bhagat, who was a staunch devotee of God Ranchhodji of Dwarka. Subsequently, the idols of Rama, Laxman and Sita were installed. The idol temple was renovated and enlarged in *Samvat 1976(1920 A.D.)*. It is maintained by extensive Devasthan lands. The surrounding cultivable area admeasuring 900 *Vighas* belongs to the temple. It is a place of pilgrimage for the Hindus. Fairs are held here on the *Chaitri Punam* and *Bhadrapad Amavasya.*

Name of Taluka : Jafrabad
Name of Village : Varahsvarup
Location Code : 00956600

(Temple of Varah Swarup)

Varahsvarup is on the shore of Arabian Sea, about 13 km east of Jafrabad. There is a temple of *Varah-Swarup*. It relates to *Vishnu* in his third incarnation when in the form of a boar he supported the world on his tusk from *Daitya Hiranyaksha*, who was endeavoring to prove him to combat. Vishnu was trying to save the world after the deluge beneath the ocean and was pursued by Hiranyaksha who insulted him and tried to provoke him to fight. Until he had firmly established the world, Vishnu ignored all insults from Yaksha and then fought with Hiranyakasha and slew him. A small village has sprung up round the temple. The old temple of Varahsvarup has been renovated and an idol has been installed therein. The Jalaram temple authorities have also built their temple here on the sea shore. It is a place of pilgrimage for the Hindus. Here a fair is held on *Bhadrapad Amas*.

Name of Taluka : Lathi
Name of Town : Lathi
Location Code : 41301000

Lathi is the headquarters of the taluka. It is 20 km north-east of Amreli. Lathi is a Railway station on the Dhola-Porbandar Section. It is connected by bus service with Amreli, Rajkot, Bhavnagar, Junagadh, Damnagar, Botad and Ahmedabad. Apart from this historical importance, Lathi shines in the literary firmament of Gujarat, as the birth place of the poet Kalapi, Thakore Saheb Sursinhji (1874-1900). He drank deep the fountain of the ancient and modern literature in Gujarati and also the works of eminent English poet and philosophers. Most of his works were posthumously published in 13 books, among which the 'Kalapi-no-Kekarav' is considered to be a master piece of literary poems. The poem 'Hradaya Triputi' is the longest poem depicting the triangle of love comprising Kalapi, wife Rama and ladylove Shobhana. His poems and letters reveal intense passion, and sensuous love of nature. His premature death at the age of 26 years was an irreparable loss to the Gujarati literature.

Name of Taluka : Jafrabad
Name of Village : Nageshri
Location Code : 00954800

Nageshri is about 16 km west of Bherai, a minor port near Jafrabad. Nageshri is connected by bus service with Una, Rajula, Jafrabad, Amreli and Savar Kundla. Nageshri was called Nagpur Patan and occupied a site now called Juna Padar situated on the south-west of the present Nageshri village. On the opposite bank of the Raydi River, there are several ruined step-wells nearby. One step-well called the Nalieri Vav is still there in a ruined condition. The village has one unique Madhav Upnishad Temple which enshrines all Hindu Gods and Goddesses. It is a place of pilgrimage where people come from far and wide.

Name of Taluka : Jafrabad
Name of Village : Shiyalbet
Location Code : 00952800

Shiyalbet, an island village is situated three kilometres north east of Dhatarwadi river and is about 5 km south-east of the Motapat Creek. The nearest railway station is Victor. The portion of island known as Savai Bet is isolated at high water tides. The island is full of broken images and remnants of old Hindu temples. Although it is surrounded by sea, it has number of wells (about 400) containing sweet water. The island is also a venue of the story of Sagalsha and Chandravati Rani who pounded the head of her son Chelaiya by pestle to satisfy God. Visitors are shown the stone and the pestle by which this was done. Just adjacent to the island but beyond the creek, there is the Savaibet on which there is a tomb of Savai Pir. It is a place of pilgrimage for all Kharvas and sea faring communities. Tourism Corporation of the State has considered this place for eligible growth centre for tourist.

Name of Taluka : Lilia
Name of Village : Krankach
Location Code : 00920700

Krankach is connected by bus services with Lilia, Savar Kundla etc. The Shetrunji River flows about 2 km to the south of Krankach. About 2 km from Krankach, the Gagadio, very brackish stream joins the river Shetrunji, which has sweet water upto the point of confluence with Gagadio but becomes brackish thereafter. The village originally belonged to the erstwhile Bhavnagar State.The village has an old Vav or step-well in which there are two small temples, the one dedicated to Lord Shiva and the other to the sacred bull, Nandi.

(x) Major characteristics of the district, contribution of the district in the form of any historical figure associated with the district:

Amreli district has a good coastline with rich fishing areas at Jafrabad, Kotda, Shiyal bet, Victor, Bherai and Chanch. In these villages communities like Kolis, Kharvas and Machhiaras carry on their traditional occupation of fishing. The coast line of Jafrabad is popularly known as 'Dry Fish Zone' and is one of the most important fishing port in Gujarat State. The fisheries yield of the district comprise varieties such as Pomfrets, Hilsa, Prawns, Bombay ducks, Sharks, Coilia, Golden Anchovy, Ribbon Fish and Mullet etc. The fisheries reserves are so rich that even fishermen from Valsad district are also attracted during the fishery camp between October and January.

Amreli district is endowed with economic resource viz. agriculture and oil seeds. The important crops of the district are groundnut, *bajri*, wheat and cotton. The important oil seeds grown in the district are groundnut and sesame among edibles and castor among non-edibles. Cotton is the second most important cash crop of the district.

Amreli district is well endowed with various kinds of rocks suitable for construction of buildings. A greater part of this district is covered by Deccan lava flows. These rocks are dense, hard and durable and are locally quarried near Amreli and Rajula for building purposes. The trap rocks are also used as road metal, railway ballast and concrete aggregates.

The chief domestic animals noticed in the district are horses, oxen, cows, buffaloes, sheep, goats and asses. The horses are owned by well-to-do farmers and those who plough tongas. The horses of well-known Kathiawad breed are few and are still to be found with some of the farmers residing in Amreli, Dhari, Khambha and Babra taluka. However, of late, breeders have not carried on their business with the same zeal as they used to do in the past. The South

African Horse Sickness disease has reduced the population of horses considerably. Of oxen, there are two varieties, viz. the Gir and Kankrej breeds. The well-to-do cultivators usually keep oxen of Kankrej breed. The cows are found of the Gir Breed and non descript breed. The Gir cows have long been famous. The buffaloes found in the district are of famous Jafrabad breed. Among the wild animals the most famous is the lion found mainly in the Gir forests but some times, they straw into adjoining parts of Dhari taluka.

The common articals prepared are *chaklas* (square coverlet), *torans*(leafy boughs), *pachhitpatis* and *suraj sthaphans*. Another imposing piece is *bhitiya* (wall hanging) which combines a *pachhitpati* with three or five embroidered *chaklas*. Among the Hindus, *Brahmins, Banias, Bhatias, Lohanas, Kanabis, Kathis, Ahirs,Rajputs, Kolis, Kumbhars, Vagharies* are the chief castes. The Kharvas are a cast by themselves. Among the cultivating castes may be counted Kanbis, Kathis, Kolis, Rajputs and Ahirs. Among Muslims, *Memons, Khojas and Vohras* are the main divisions.

Amreli has given many great personalities to Gujarat. The first Chief Minsiter of Gujarat Dr. Jivraj Mehta, Social worker Ratubhai Adani, Industrialist Ramjibhai Kamani, Educationalist Prataprai G. Mehta and the young poet Ramesh Parekh are a few to be named.

KALAPI (1874-1900)

Like a peg of sweet juice, Kalapi's life of merely 26 years would seem a fairy tale. Such a king, poet and an affectionate friend would hardly be found even in a long life. Kalapi has an eternal place in the hearts of the people as an affectionate king, dedicated lover and artist full of awareness. His real name was Sursinhji Takhtsinhji Gohil. He married Rama, Princess of Kutch at the age of 16 only. He was infatuated by the 8-year-old servant Monghi and called her Shobhana. By the time Kalapi had developed a soft corner for Shobhana. The social and moral obligations denied him Shobhana, whereas the life without Shobhana was not acceptable to him. His mind became a battlefield between love and duty. All these reflected in his poetry. His letters to Manilal Nabhubhai, his friend Guru also consist of his psychological conflict. The letters and poetry have become invaluable contributions to the Gujarati literature. His works include 'Kalapino Kekarav' 'Kashmirno Pravas', 'Kalapi Patradhara' and a novel named 'Maya Ane Mudrika'. Lathi is a small town. There are no industries, big trades, places of pilgrimage, ruins or remains of art and cultural heritage, nor any historic monuments. But still, Gujarat has always looked to Lathi with an affectionate eye. The reason lies in Kalapi. The ruler who loved his people, a poet par excellence and a genius in his own right who lived a very short life of merely 26 years. The poetry of Kalapi was vehicle of both sentiments and philosophy. His impressive personality, passionate feelings, affectiionate approach, warmth in his nature and poetic excellence brought him a unique place in the Gujarati literature. His prestige eventually became the prestige of Lathi. The people of Lathi still remember their history with high regards and feel lucky to have had rulers like Kalapi.

DR. JIVRAJ MEHTA (1887-1976)

Dr. Jivraj Mehta (1887-1976) born in Amreli had obtained number of higher degrees in Medical Science from Indian and Foreign Universities. He founded London-Indian Association while he was in London. He was active in number of public and private institutions during 1912 to 1930. He was the member of high power underground committee of Bombay City Sangram Samiti at the time of the freedom movement under the leadership of Gandhiji in 1930. He also served Gandhiji as his personal medical consultant. He was imprisoned during the 'Quit India Movement' of 1942. Maharaja Sayajirao of Vadodara had high regards for Dr. Mehta's superior intellect. He became a minister in the cabinet of Bombay State during 1949 to 1951. He was the finance minister from 1952 to 1960. Dr. Mehta had the honour to become the first Chief Minister of Gujarat State immediately after the bifurcation of the bilingual state on 1st May 1960. After he resigned as the Chief Minister of Gujarat, he was appointed India's High Commissioner in Britain. He was elected to the Parliament in 1977. He was a symbol of sincerity and service.

(xi) Scope of Village Directory and Town Directory :

As mentioned earlier, the District Cen-sus Handbook is brought out in two parts-Part A and Part B. Part A covers the non-census data of village direc-tory and town directory whereas part B covers the primary census abstract data of 2001 Census. The scope of village directory and town directory is discu-ssed below.

Scope of Village Directory

For the census work, the villages in the district have been arranged taluka wise and within the taluka they are shown location code wise. Each village is assigned a location code number for the purpose of identification. In 2001 Census, all the villages have been given unique 8-digit code number, which will remain constant across the census, and shall make it easy to do comparative study. Eight digit code's last two digits are especially provided to take into account exigencies arising due to jurisdictional changes of villages by partition, amalgamation etc. This time it has been kept '00'. Prior to the village directory information, a map and alphabetical list of villages for each taluka is given in Part A. Village directory contains the non-census data of each village. It gives the village wise basic information relating to infrastructure and amenities available in the sphere of education, medical, drinking water, power supply, post and telegraph, communications, approach road to village and distribution of land use area. In addition, it contains information about total area of each village, total population and number of households and the nearest town and its distance from the village. The information on number of households and total population has been included with a view to examine the co-relation of amenities with the number of households and population they serve. If an amenity is not in existence in the referent village, the distance in broad ranges from the nearest place along with name, where the amenity is available is given. The broad range are (-5 kms), (5-10 kms.) and (10+ kms.). Some additional information has been added viz.(1) Number of Banks, (2) Credit Societies, (3) recreational and cultural facilities, (4) Receipt of Newspaper / Magazine, (5) Income & Expen-diture of the village and (6) Name of the three most important commodities imported, manufactured/ produced & exported. One information has been deleted this time, i.e., Market & Hat facility.

The village directory also carries the following appendices.

Appendix-I	It gives the taluka wise abstract of educational, medical and other amenities available in the villages of the district.
Appendix-I-A	Indicates number of villages Taluka wise having one or more primary schools.
Appendix-I-B	Indicates number of villages Taluka wise having primary, middle and secondary schools.
Appendix-I-C	Shows number of villages Taluka wise with different sources of drinking water facilities.
Appendix-II	Indicates the list of villages with 5,000 and above population which do not have one or more important amenities.
Appendix-II-A	Indicates list of Census Towns which do not have one or more amenities.
Appendix-III	It gives the land utilization data in respect of Census Towns/non-municipal Towns.
Appendix-IV	Taluka wise list of inhabited villages where no amenity other than drinking water facility is available.
Appendix-V	Summary showing number of villages not having Scheduled Castes population.
Appendix-VI	Summary showing number of villages not having Scheduled Tribes population.
Appendix-VII-A VII-B	The appendix shows the list of villages according to proportion of the Scheduled castes and Scheduled Tribes to the total population by ranges.
Appendix-VIII	Indicates Taluka wise number of villages under each Gram Panchayat.
Appendix-IX	Shows number of different types of girls school in a village.

Scope of Town Directory

Town Directory covers the non-census data for each town. It presents important and useful information like civic and other amenities available in all the towns of the district. The information in town directory is covered in following seven statements, viz. statements I to VII.

Statement-I Town wise class, name, civic administrative status of the town, its area, growth rates, density and sex ratio.

Statement-II Physical aspects of each town.

Statement-III Income and expenditure of each town.

Statement-IV Civic and other amenities in respect of each town.

Statement-V Availability of medical, educational, recreational and cultural facilities in each town.

Statement-VI Trade, commerce, industry and banking activities in each town.

Statement-VII Civic and other amenities in slum areas of each town.

In all the Statement except VII the towns are arranged in the alphabetical order within the district. The details of these statements are given in the analytical portion of the town directory. In addition to the above statements, an appendix showing the towns with their outgrowths with population is also given after the town directory statements.

———

PART – A
VILLAGE AND TOWN DIRECTORY

SECTION – I VILLAGE DIRECTORY

Section-I Village Directory

(a) NOTE EXPLAINING THE ABBREVIATIONS USED IN THE VILLAGE DIRECTORY

The "Village Directory" is one of the traditional compilations of the Census. It gives the list of villages, their location numbers, their area, population, number of households, amenities such as educational, medical, drinking water, post and telegraph, commercial and co-operative banks, agricultural non-agricultural and other credit societies, recreational and cultural facilities, communication, approach to village, nearest town with a distance, power supply availability of newspaper and magazines, most important commodity manufactured and land use of each village.

Village is a statutory recognized unit having a definite boundary and separate land records. In case, a complete village is treated as an outgrowth of urban agglomeration, data on amenities for that village, have not been given in the Village Directory but shown along with the urban component. The villages which are consider as a Census Town , the amenities data are shown in the Town Directory. For those villages which have partly merged in an outgrowth of U.A., the amenities data are shown in the Village Directory for that particular village.

The 'un-inhabited' villages (villages with no population) have been indicated as such after furnishing details in columns 1 to 3 i.e., Serial number, Name of village & location code number and area of the village against column no. 4 to 18. The land use data for such villages are shown in col. 19 to 23

The Village Directory format has 23 columns and the details given under each column are for the village are as follows:-

Column 1 : Serial Number

Self explanatory. All the villages within the Taluka/CD Block are presented serially in the ascending order of their location code number.

Column 2 : Name and Location Code Number of village.

The name and location code number of the village are shown against these columns. This also includes the forest and uninhabited villages.

Column 3 : Area of the village

The area of the villages in hectares are given. Wherever the area figures was not furnished by the concerned department the column is left blank.

Column 4 : Total Population

The total population of the village as per 2001 Census is given against this column.

Column 5 : Number of Households

The number of households as per 2001 Census is given in this column.

Amenities :

In column 6 to 23, availability in respect of different amenities such as education, medical, drinking water, post, telegraph, banks, credit societies, communication, power, approach road etc. in each village has been depicted with appropriate codes against the column concerned. Wherever the amenities are not available in the village, a dash (-) is shown in the column and next to it in brackets the distance in broad ranges viz.< 5 kms., 5-10 kms. and 10+ kms of the nearest place where the facility is available is given.Column wise details are given below :

Column 6 : Educational

Classes upto class VII included in Primary School. This will include nursery school, kindergarten school. Pre-basic school, pre-primary school, junior basic school upto class VII.

Classes from VIII to X included in Higher secondary school. Classes XI and XII are included in senior secondary school.

Accordingly any of the following types of institutions if exists within the village is shown as per codes given below :

(i)	Primary School	P
(ii)	Middle School	M*
(iii)	Secondary School	S

Note : * - There is no Middle school in the Gujarat State.

(iv)	Senior Secondary School	PUC
(v)	College	C
(vi)	Industrial School	I
(vii)	Training School	Tr
(viii)	Adult literacy class/centre	AC
(ix)	Others (specify) e.g. SanskritPathshala, Senior basic school, Navodaya Vidyalaya, Makhtab,etc.	O

More than one institution of a type in the village is indicated by the number within brackets against the abbreviation, e.g. P(3), M(4), etc.

Column 7 : Medical

Availability of medical facility within the village is indicated by following codes :

(i)	Allopathic Hospital	H
	Ayurvedic Hospital	HA
	Unani Hospital	HU
	Homeopathic Hospital	H Hom
(ii)	Allopathic Dispensary	D
	Ayurvedic Dispensary	DA
	Unani Dispensary	DU
	Homeopathic Dispensary	D Hom
(iii)	Maternity & Child Welfare	MCW
(iv)	Maternity Home	MH
(v)	Child Welfare Centre	CWC
(vi)	Health Centre	HC
(vii)	Primary Health Centre	PHC
(viii)	Primary Health Sub-Centre	PHS
(ix)	Family Welfare Centre	FWC
(x)	T.B. Clinic	TB
(xi)	Nursing Home	NH
(xii)	Registered Private Medical Practitioner	RMP
(xiii)	Subsidised Medical Practitioner	SMP
(xiv)	Community Health Worker	CHW
(xv)	Others	O

More than one institution of a type in the village is indicated by the number within brackets against the abbreviations, e.g. H(3), D(4), etc.

Column 8 : Drinking Water

The type of the drinking water supply sources available within the village are indicated by codes as follows :

(i)	Tap Water	T
(ii)	Well Water	W
(iii)	Tank Water	TK
(iv)	Tubewell Water	TW
(v)	Handpump	HP
(vi)	River Water	R
(vii)	Canal	C
(viii)	Lake	L
(ix)	Spring	S
(x)	Others	O

Column 9 : Post, Telegraph and Telephone

It is indicated by codes as shown below whether within the village exists the following amenities:

(i)	Post Office	PO
(ii)	Telegraph Office	TO
(iii)	Post & Telegraph Office	PTO
(iv)	Telephone Connection	PH

Column 10 : Commercial and Co-operative Banks

If the village is served by any banking service, commercial bank, co-operative bank etc. the same is indicated in codes mentioned below along with the number of banks in brackets. If not available the distance of nearest place where the facility exist is given:

(i)	Commercial Bank	CM
(ii)	Co-operative Bank	CP

Column 11 : Credit Societies

If the village enjoys the services of Credit Societies i.e. Agricultural Credit Societies, Non Agricultural Credit Society or Other Credit Societies, the same is indicated in codes mentioned below along with the number of such societies in brackets. In case the facility is not available within the village the distance of the nearest place where such facility exist is given :

(i)	Agricultural Credit Society	ACS
(ii)	Non- Agricultural Credit Society	NCS
(iii)	Other Credit Society	OCS

Column 12 : Recreational and Cultural facilities

If facilities such as Cinema/Video hall, Sports Club, Stadium/Auditorium is available in the village, the same is recorded in these columns. If not available the particulars of the nearest place with the facility is recorded. The information is indicated in codes mentioned below along with the number of such facilities in brackets:

(i)	Cinema/Video Hall	CV
(ii)	Sports Club	SP
(iii)	Stadium/Auditorium	ST

Column 13 : Communications

If the village is served by any mode of public/ private transport like Bus, Railway station or Navigable water ways they are to be mentioned as follows:

(i)	Bus	BS
(ii)	Railway Station	RS
(iii)	Navigable Waterway	NW

Column 14 : Approach to Village

Approach to village refers to the state of road leading to village. The approach to the village is indicated in following codes :

(i)	Paved Road	PR
(ii)	Mud road	MR
(iii)	Foot path	FP
(iv)	Navigable River	NR

Column 15 : Nearest Town and Distance

The distance is given in kilometers in brackets against the name of the town nearest to the village.

Column 16 : Power Supply

Availability of Power Supply in the village, whatever may be the form of its use is given by using following codes :

(i)	Electricity for domestic use	ED
(ii)	Electricity for agricultural use	EAG
(iii)	Electricity for other purposes	EO
(iv)	Electricity for all purposes	EA

Column 17 : News Paper/Magazine

If village receives any News Paper/Magazines the same is noted in this column using following codes:

(i)	News Paper	N
(ii)	Magazine	M

Column 18 : Most important commodities manufactured

The name of three most important commodities manufactured in the village is recorded against this column.

Column 19 to 23 : Land use i.e. area under different types of land use

Land use data maintained by the State/UT Govts. are furnished against these columns. The data area under Forest, Irrigated land (by source), Un-irrigated land, Cultivable waste and Area not available for cultivation in the village are shown against these columns. The area figures are given in hectare(s) up to one decimal. Desh '-' is recorded wherever the information is not made available by the concerned department. The codes used for different types of irrigation facilities available in the village are indicated below:

(i)	Government Canal	GC
(ii)	Private Canal	PC
(iii)	Well (without electricity)	W
(iv)	Well (with electricity)	WE
(v)	Tubewell(without electricity)	TW
(vi)	Tubewell(with electricity)	TWE
(vii)	Tank	TK
(viii)	River	R
(ix)	Lake	L
(x)	Waterfall	WF
(xi)	Others	O
(xii)	Total	T

The village directory also carries the following appendices.

Appendix-I	It gives the abstract of educational, medical and other amenities available in villages Taluka/ C D Block wise of the district.
Appendix-I-A	Indicates number of villages Taluka/ CD Block wise having one or more primaryschools.
Appendix-I-B	Indicates number of villages Taluka/ C D Block wise having primary, middle and secondary schools.
Appendix-I-C	Shows number of villages Taluka/ C D Block wise with different sources of drinking water facilities.
Appendix-II	Indicates the list of villages with 5,000 and above population which do not have one or more important amenities available.
Appendix-II-A	Indicates list of Census Towns which do not have one or more amenities.
Appendix-III	It gives the land utilization data in respect of Census Towns / non-municipal Towns.
Appendix-IV	Taluka/ C D Block wise list of inhabited villages where no amenity other than drinking water facility is available.
Appendix-V	Summary showing number of villages not having Scheduled Castes population.
Appendix-VI	Summary showing number of villages not having Scheduled Tribes population.
Appendix-VII-A VII-B	The appendix shows the list of villages according to proportion of the Scheduled Castes and Scheduled Tribes to the total population by ranges.
Appendix-VIII	Indicates Taluka / C D Block wise number of villages under each Gram Panchayat.
Appendix-IX	Shows number of different types of girls school in the village.

(b) LIST OF VILLAGES MERGED IN TOWNS AND OUTGROWTHS AT 2001 CENSUS :

Sl. No.	Name of Taluka	Village		Merged in which Town or name of UA
		Name	L.C. No.	
(1)	(2)	(3)	(4)	(5)

Note : * In Gujarat State the levels of education are classified as under

(i) Primary School (From Std. I to VII passed)

(ii) Secondary/Matriculation (From Std. VIII to X passed)

(iii) Higher Secondary (From Std. XI to XII passed). Hence details under column 7, 8 are not shown.

SECTION - II TOWN DIRECTORY

Town Directory

(a) Note Explaining The Abbreviations Used In The Town Directory

Town Directory statements (I to VII)

Statement I : Status and Growth History

Column (2) : Class, name and civic administration status of town :

Class has been introduced to facilitate analysis of town directory data at the state and all India levels. It is presented according to 2001 Census Population of the town as follows :

Population	Class
100,000 and above	I
50,000 -99,999	II
20,000 - 49,999	III
10,000 - 19,999	IV
5,000 - 9,999	V
Below 5,000	VI

Town with a population of one hundred thousand (1,00,000) and above is treated as a city.

The civic administration status of the towns is indicated within bracket against the name of the town. The following abbreviations are used to denote civic status of town.

(I)	Municipal Corporation	M. Corp.
(II)	Municipal Committee	MC
(III)	Municipal Council	M Cl
(IV)	City Municipal Council	CMC
(V)	Town Municipal Council	TMC
(VI)	Municipal Board	MB
(VII)	Municipality	M
(VIII)	Cantonment Board/Cantonment	CB
(IX)	Notified Area	NA
(X)	Notified Town	NT
(XI)	Notified Area Committee/ Notified Area Council	NAC
(XII)	Notified Town Area	NTA
(XIII)	Industrial Notified Area	INA
(XIV)	Industrial Township	ITS
(XV)	Township	TS
(XVI)	Town Panchayat	TP
(XVII)	Nagar Panchayat	NP
(XVIII)	Town Committee/ Town Area Committee	TC
(XIX)	Small Town Committee	ST
(XX)	Estate office	EO
(XXI)	Gram Panchayat	GP
(XXII)	Census Town	CT

Others columns need no comments.

Statement II - Physical Aspects and Location of towns, 1999.

Column 3 to 5 : Physical Aspects

In this columns the Rainfall and Maximum & Minimum Temperature of the town is recorded.

Column 6, 7 and 8 :

Name of the State headquarters, District headquarters and Sub-Divisional headquarters with distance from the referent town in kilometers, is to be recorded respectively. If the names mentioned in these columns are the same as the referent town itself, the distance is recorded as (0) zero.

Column 9 and 10 :

Name of the nearest city with one lakh and more and five lakhs and more population are recorded.

Column 11, 12 and 13 :

If referent town enjoys the facility of railway station, bus route facility or navigable river/canal. Its name is to be mentioned. If not available, then the name of nearest place with distance, where such facility exists is to be mentioned.

Statement III : Municipal Finance 1998 – 1999

Item-wise amount of receipt and expenditure in thousand rupees, relating to municipal finance of the town for the year 1998-99 is to be recorded.

Statement IV : Civic and Other amenities, 1999

Column (1 to 5) : Self explanatory.

Column (6) : Road length (in kms.)

Information about kutcha / pucca road is to be recorded separately for the roads within the limits of the referent town.

(i)	Pucca Road	PR
(ii)	Kutcha Road	KR

Column (7) : System of Sewerage

Generally, by sewerage system is implied the network of mains and branches of underground conduits for the conveyance of sewerage to the point of disposal. Sewers that carry only household and industrial wastes are called separate sewers, those that carry storm water from roofs, streets and other surface are known as storm water drains, while those carrying both sewage and storm water are called combined sewers.

The codes used for different types of drainage system are as follows :

(i)	Sewer	S
(ii)	Open Surface Drains	OSD
(iii)	Box Surface Drains	BSD
(iv)	Sylk Drains	SD
(v)	Cesspool method	CP
(vi)	Pit System	Pt
(vii)	Others	O

Column 8 to 11 : Number of latrines

Number of various types of latrines both Public and Private are given in these columns.

Column 12 : Method of disposal of night soil

The various prevalent method of disposal of night soil are given below with codes :

Head Loads	HL
Basket	B
Wheel Barrows	WB
Septic Tank	ST
Pit System	Pt
Sewerage	S
Others	O

Column 13 and 14 : Water supply

Source and capacity of storage system. The following codes are used in these columns:

Column 13:

(i)	Tap water	T
(ii)	Tube-well water	TW
(iii)	Tank Water	TK
(iv)	Well water	W

Column 14:

(v)	Over Head Tank	OHT
(vi)	Service Reservoir	SR
(vii)	River Infiltration Gallery	RIG
(viii)	Bore Well Pumping System	BWP
(ix)	Pressure Tank	PT

The information on major source of water supply are given in column 13 and the storage capacity against each in kilo-litres (in bracket) are presented in column 14.

Column 15 : Fire Fighting Service

In case the fire fighting service is available in the referent town 'yes' is recorded. If the facility is not available within the town. The name of the nearest place having this facility with its distance from the referent town has been recorded.

Column 16 to 20 : Electrification (Number of connections)

Different types of electric connections have been shown in these columns, i.e. Domestic, Industrial, Commercial, Road lighting (points) & others.

Statement V : Medical, Educational, Recreational and Cultural Facilities, 1999

Column 1 to 3 : Self explanatory.

Column 4 & 5 :

The data covers all such medical institutions run by or aided by Government/Semi Government/Local bodies and Charitable institutions or Social agencies like the Missionaries. Where the family planning centres are attached to hospitals or maternity and child

welfare centres or Primary Health Centres, may be treated as independent units and counted separately using following codes :

(i)	Hospital	H
(ii)	Dispensary	D
(iii)	Health Centre	HC
(iv)	Family Welfare Centre	FWC
(v)	T.B. Clinic	TB
(vi)	Nursing Home	NH
(vii)	Others	O

In case of more than one institutions of any type, it is indicated within brackets the number of such institution (s) e.g. D(3), NH(8), etc. The institutions have further been distinguished by providing additional codes within the bracket as given below :

Ayurvedic	A
Unani	U
Homoeopathic	Hom

Column 6 to 9 :

The codes used for these columns are as follows :

(i)	Arts only	A
(ii)	Science only	S
(iii)	Commerce only	C
(iv)	Arts & Science only	AS
(v)	Arts & Commerce only	AC
(vi)	Combined for all categories-Arts, Science and Commerce	ASC
(vii)	Law	L
(viii)	University	U
(ix)	Others	O

Column 10 : Recognized shorthand, typewriting and vocational training institutes

"Recognised" should mean recognised by some statutory authority, like education department, commerce department, labour department etc. of the government or semi government or autonomous bodies, public sector undertakings etc.

The following codes are used :

(i)	Vocational Training Institute	VT
(ii)	Shorthand	SH
(iii)	Typewriting	Type
(iv)	Shorthand & Typewriting	SH Type
(v)	Others	O

The vocational institutions like - Applied Art/ Painting college, Pharmacy college, B. Ed. College, Teacher's Training Institute, Music / Dance School, Nursing School etc. are covered under 'Others'.

Column 11 to 14 :

Classes upto class VII included in Primary School. This will include nursery school, kindergarten school. Pre-basic school, pre-primary school, junior basic school upto class VII.

Classes from VIII to X included in Higher secondary school. Classes XI and XII are included in senior secondary school.

Accordingly any of the following types of institutions if exists within the village is shown as per codes given below :

(i)	Primary School	P
(ii)	Middle School	M*
(iii)	Secondary School	S
(iv)	Senior Secondary School	PUC
(v)	College	C
(vi)	Industrial School	I
(vii)	Training School	Tr
(viii)	Adult literacy class/centre	AC
(ix)	Others (specify) e.g. Sanskrit Pathshala, Senior basic school, Navodaya Vidyalaya, Makhtab,etc.	O

More than one institution of a type in the village is indicated by the number within brackets against the abbreviation, e.g. P(3), M(4), etc.

Note : * - There is no Middle school in the Gujarat State.

Column 15 : Adult literacy class/centres

This column has been introduced keeping in view the Minimum Needs Programme of the Planning Commission. There are number of Adult Education Centres which are included in these columns.

If an educational facility is not available in the town, the name of the nearest place and its distance in kilometres from the town where the facility is available is mentioned.

Column 16 : Working Women's hostels with number of seats

The number of working women's hostel if available in the referent town is mentioned with number of seats. If the facility is not available in the town the name of nearest place with distance where the facility is available is recorded.

Column 17 to 19 : Recreational and Cultural Facilities

Stadium, Cinema, Auditorium/Drama/ Community Hall are covered under recreational & cultural facilities. The particulars of permanent recreational facilities are considered for these columns.

Column 20 : Public Libraries, Reading Rooms

Number of public libraries and reading rooms available in the referent town are recorded in codes as follows :

(i)	Public Library	PL
(ii)	Reading room	RR

Statement VI : Trade, Commerce, Industry and Banking, 1999

Column 3 to 8 : Name of three most important commodities exported and names of three most important commodities manufactured in the town are recorded.

Column 9 : Number of Banks

Number of Banks available in the referent town both Commercial and Co-operative banks are recorded against this column.

Column 10 and 11 : **Number of Agricultural Credit Societies and Non Agricultural Credit Societies**

The total number of Agricultural Credit Societies and Non Agricultural Credit Societies in the referent town are recorded against these columns.

Statement VII : Civic and other Amenities in Slums, 1999

This is the statement on civic and other amenities in all slums whether notified or not and for all towns having statutory bodies, like municipality, Municipal Corporation, Town area committee etc.

PRIMARY CENSUS ABSTRACT

BLANK

Primary Census Abstract

Brief note on Primary Census Abstract :

The first census of the third millennium and twenty first century the Census of India, 2001 was the 14th continuous and uninterrupted Indian census since 1872. Thus, 2001 Census will provide data on population and its characteristics marking transition from one century and millennium to another.

The gigantic operation of Population Enumeration (considered by many to be the single largest and complex peace time administrative exercise in the world) was made possible due to the door to door universal canvassing of the Household Schedule by about 2 million enumerators and supervisors covering 593 districts, 5,463 sub-district, 5,161 towns and 638,588 villages. The comprehensive Household Schedule which replaced the individual slip had three parts and two sides A and B. Part I contained the Location Particulars; Part II related to the Individual Particulars and Part III contained questions for Household engaged in cultivation/Plantation. The part II of the Household Schedule had 39 columns and 23 questions all of which were universally canvassed and no sampling was resorted to during enumeration.

Data Processing

A quantum leap was made in the technology front while processing the Census 2001 data both for Houselisting and Population Enumeration. The Census schedules for both the phases were scanned through high speed scanners in fifteen data centers across the country and hand-written data from the schedules were converted into digitized form through Intelligent Character Reading (ICR) software for creation of ASCII records for further processing. The designing and formatting of the Household Schedule had to be done very carefully using specialized software so as to ensure uniformity, which was an essential pre-requisite for scanning. The selection of appropriate state-of-art technology in data processing has made it possible to produce all the Houselisting as well as Population Enumeration tables on full count basis for the first time in the history of Census. For Census 2001, about 202 million schedules consisting of about 1,028 million records were scanned and processed within a span of only 10 months starting October, 2002.

Task Force on Quality Assurance

After the data is processed, it is expedient on the part of the data producing agency to satisfy itself about its quality before putting the same in public domain. This has to be done mainly through the process of internal consistency, comparison with similar data in the past and also through validation with likewise data if available, from external sources. Quite often the local knowledge and perception has to be brought into play to understand both the existing and the new emerging trends of population distribution and characteristics. The other very important aspect of the data quality is to ensure complete coverage of all geographical areas especially for the population enumeration phase where the data is disseminated right up to the village level in the rural areas and the ward level in the urban areas. Thus ensuring the complete coverage and correct geographical linkage of each enumeration block was one of the major planks of the quality control, specially for small area population statistics.

A very comprehensive check and edit mechanism was put in place to objectively examine the preliminary Census 2001 Population Enumeration results and finally clear them for use. The responsibility of the final clearance of data was with the Task Force on Quality Assurance (TFQA), headed by the Registrar General and Census Commissioner, India. The other members of the TFQA were the Heads and senior officers of the Census Division, Data

Processing Division, Map Division, Demography Division and Social Studies Division. The Directors of Census Operations were co-opted as members whenever the TFQA discussed the data for their States/ Union territories. The Directors and their senior officers were required to make detailed presentations of data for their own state both in respect to the quality and the coverage and only after the full possible cleared.

There has been a major departure in Census 2001 from the past in respect of the procedure followed for finalization of the Scheduled Castes and the Scheduled Tribes population. In the earlier censuses, the total, Scheduled Castes and Scheduled Tribes Population were finalized at the time of menual compilation of the Primary Census Abstracts (PCA) at the Regional

Tabulation Offices which were specially set up for this purpose. The individual Scheduled Castes and the Scheduled Tribes population for each state was finalized much later based on manual coding done by the coders. In 2001 Census, each individual Scheduled Caste and the Scheduled Tribe have been coded directly on the computers by the Data Entry Operators through a process known as Computer Assisted Coding (CAC) and taken up along with the processing of PCA data. The CAC process involves pulling down, from the relevant dictionary of the Scheduled Castes and the Scheduled Tribes, on the computer screen and coding from the dictionary by referring to the image of the specific individual entry in the Household Schedule appearing on the screen. The CAC of the response on Religion wherever required, was also undertaken along with the processing of PCA. This is because the Scheduled Castes status had to be determined in relation to the religion of the individual. Two Special Task Forces, one on Religion and the other on Scheduled Castes/Scheduled Tribes were constituted for scrutiny and appropriate classification of these responses.

The main task of the Special Task Force on Religion was to appropriately merge or group the new responses encountered and code it into the appropriate religious community based on available literature and local knowledge. The Special Task Force on Scheduled Castes and Scheduled Tribes examined the different Scheduled Castes and Scheduled Tribes entries encoun-tered and classified these into appropriate category of the Scheduled Castes or the Scheduled Tribes principally based on the Presidential Notification and the available literature. Thus a very systematic and scientific mechanism was operationalised to firm up the individual religion and the individual Scheduled Castes/Tribes returns. The Scheduled Castes and the Scheduled Tribes population in 2001 Census, is thus being finalized by aggregating the population data for individual Scheduled Castes and the Scheduled Tribes at appropriate geographical levels.

The entire work relating to the data validation and scrutiny was completed by all the States/Union Territories under the overall supervision and monitoring of the Census Division of the Office of the Registrar General, India with active cooperation and support of the Social Studies Division, Data Processing Division, Data Dissemination Division and Map Division.

Primary Census Abstract

The Primary Census Abstract which is yet another important publication of 2001 Census gives basic information on Area, Total Household, Total population, Scheduled Castes, Scheduled Tribes population, Population in the age group 0-6, Literates, Main workers and Marginal workers classified by the four broad industrial categories, namely (i) Cultivators, (ii) Agricultural labourers (iii) Household Industry Workers and (iv) Other workers and also Non-workers. The characteristics of the Total population includes Scheduled Castes, Scheduled Tribes, Institutional and Houseless population and are presented by sex and rural-urban residence. This data is presented at different levels, namely India, State/Union Territories, Districts and Cities, Urban Agglomerations (Population 1,00,000 and above) in three different tables. In addition, the Appendix of said publication provides Houseless and Institutional Households and their population by residence and sex for 2001 for India, State and Union territory.

Apart from the India and State/Union Territory volumes for Primary Census Abstract, the District Census Handbook contains District Primary Census Abstract, Appendix to District Primary Census Abstract, Primary Census Abstract for Scheduled Castes, Primary Census Abstract for Scheduled Tribes, Village Primary Census Abstract and Urban Primary Census Abstract of the concerned district in the state.

It was for the first time at the 1981 Census that the Primary Census Abstract (PCA) was brought out for the Scheduled Castes and the Scheduled Tribes separately on the pattern of General Primary Census Abstract. This practice was continued in 1991 also. In the 1961 and 1971 Censuses, such data were made available in Table C-VIII-Social and Cultural table and to some extent in the series 'Special Tables for Scheduled Castes/Scheduled Tribes'.

The format of Primary Census Abstract has been restructured slightly in the 2001 Census as compared to that of 1991 Census. The nine-fold industrial classification of main workers given in the Primary Census Abstract of 1991 Census has been discontinued and its place, four-fold industrial classification of both 'main workers' and 'marginal workers' are included. In 1981 census only main workers were presented in to four categories. One of the novel features of the primary census abstract of 1991 census was the presentation of data of the population of age group 0-6 is continued in 2001 Census also. This will help the data users in better analysis and understanding of this literacy data.

Level of presentation in District Census Handbooks:

The Primary Census Abstract data in different PCAs are presented at different levels. The level of presentation of Primary Census Abstracts are as under:

The PCA Data for villages was presented CD Block wise for the first time in 1991 Census. This practice is continued in 2001 Census also. The data for each CD Block is presented both for rural and urban areas separately. All the villages within the CD Block constitute the rural portion and the Census Towns and Outgrowths are shown under the urban portion of the CD Block. In case a CD Block is spread over two or more districts, than portion which falls within the district is presented, the data pertaining to remaining portion of the CD Block is presented in the concerned District Census Handbook. The data in the Urban Primary Census Abstract for each town as well as for town with outgrowths in the district are presented. The data for all the wards and the outgrowths of the town(s) are also presented separately below the concerned town(s).

The District Primary Census Abstract is presented in 59 columns. The Primary Census Abstract for Scheduled Castes and Primary Census Abstract for Scheduled Tribes are presented in 52 columns. The Village Primary Census Abstract and Urban Primary Census Abstract are presented in 58 columns.

The concepts and definitions used in the column heading are explained under the sub heading 'Census Concepts' in the Analytical Note. The term 'Total Population' includes the Scheduled Castes, the Scheduled Tribes, the Institutional and the Houseless populations. The explanation regarding area figures presented at various level in the Primary Census Abstracts are as follows:

Area Figures

The area figures supplied by local revenue authorities of the district in respect of tahesils, Police Stations and by the local bodies in respect of towns are given in square kilometers. The area figures of the villages supplied by the tahesildars in acres have been converted and shown in hectares. The area figures of the CD Block is the total of the village areas coming under each CD Block. The area figures for the district are the same as adopted by the Surveyor General of India to maintain uniformity at the national level. The total area figures of all the tahsils/CD Blocks within the district may not tally with area figures of the district because former represents land use area only. Similarly, the total of all the villages may not tally with the entire rural of Police Station/Tahsil. The difference may be due to the fact that while the area covered by hills, forests and rivers etc, have been accounted in the Tahsils and P.S. level the same may not be covered under the area of the villages. Apart from this it may also differ due to varying methods of computation adopted at different levels.

An appendix to District Primary Census Abstract has also been furnished showing urban enumeration block-wise particulars on Total Population, the Scheduled Castes Population and the Scheduled Tribes Population for each town.

Tribes Population for each town.

The following Abbreviations have been used in the Primary Census Abstract for facility of presentations:

1	Municipal Corporation/ Corporation	M.Corp.
2	Municipality	M
3	Municipal Council	MCI
4	Cantonment Board/Cantonment	CB
5	Notified Area/Notified Area Committee/Notified Committee	NAC
6	Industrial Notified Area	INA
7	Gram Panchayat/ Village Panchayat	GP
8	Nagar Panchayat/ Town Panchayat	NP
9	Census Town	CT
10	Total	T
11	Rural	R
12	Urban	U

The following conversion factor has been used for converting areas into hectares and hectares into km^2

Acres x 0.40467 = hectares
100 Hectares = 1 Km^2

***** These figures represent 'Geographical area' figures supplied by the Surveyor General. Figures for urban area are those supplied by the local Bodies. Area figures for rural are derived by subtracting the urban area from the total area of the District. The total of the area figures of talukas will not tally with the district figures becuase the former represent ' Land Use Area' and are derived from the figures supplyed by the Director of Land Records.

Note : { Represents Group Gram Panchayat.

Note: The data of 1991 Census have been discussed in Annexure II and III. The details of 2001 Census data have been discussed in Annexure IV, VI, VII and VIII, while Annexure V provides the recast data of 1991 Census and separate data of 2001 Census.

ANNEXURE – II

FERTILITY AND MORTALITY-1991 CENSUS

Fertility Level:

Population is a dynamic variable and keeps on changing. Increase due to birth and decrease due to death affect the population size of an area. Thus the birth and death are the two most important vital events. Natural increase is the excess of population by births over decrease of population by deaths at a given point of time. The births have direct correlation with the fertility.

The data on fertility levels and trends as revealed by the fertility indices of the 1991 Census like Crude Birth Rate (CBR), Age Specific Fertility Rate (ASFR) and Total Fertility Rate (TFR) are presented and analyzed below. The Definitions and concepts of fertility indices frequently used have already been explained in Analytical Note.

Death Rate:

Death process in demographical terminology is called as mortality. The rate at which death events occur reveal about the standard of living and state of health. Statistical data on causes of death help us in controlling the spread of diseases and suggests new curative methods to medical authorities.

Child Mortality:

Information about questions on children ever born and children surviving canvassed for all ever married women was tabulated by age of the mother. From this, estimate of child mortality have been worked out by using Brass technique.

ESTIMATES OF CHILD MORTALITY INDICATORS BY SEX AT DISTRICT LEVEL, 1991 CENSUS

Source: Occasional Paper No 1 of 1997.

The Annexure III shows various fertility indicators of all the districts and the State as per 1991 Census. It can be seen that Amreli district has Crude Birth Rate (CBR) of 33.0, which is lower than the State CBR of 33.6 while the Total Marital Fertility Rate (TMFR), General Fertility Rate (GFR) and General Marital Fertility Rate (GMFR) of Amreli district are 5.6, 137 and 183 respectively, which are higher than the State TMFR of 5.4, GFR of 136 and GMFR of 175.

Mean age at marriage means age (in completed years) at which the woman was married. In case a woman was married more than once, the age at which she was married first, was recorded. The rate of mean age at marriage in Amreli district in 1991 Census was 19.1 and the same for Gujarat State was 19.0. Thus the mean age at marriage in Amreli district was fractionally higher than that of State.

It can be seen the child woman ratio (0-4) and (5-9) for Amreli district is 476 and 650 respectively which are higher than the Gujarat State.

NUMBER OF CHILDREN EVER BORN AND SURVIVING PER EVER MARRIED WOMAN IN AGE GROUP 45-49, 1991 CENSUS

	STATE	**4.2**	**4.4**	**3.8**	**3.8**	**4.0**	**3.6**

Source: Gujarat State District Profile 1991.

There were 5.0 children ever born per ever married woman in the age group of 45-49 with 4.5 surviving children per woman in Amreli district. Both of these indicators were higher than those of the State.

ANNEXURE – IV

PERCENTAGE DISTRIBUTION OF MIGRANTS BY PLACE OF BIRTH/ PLACE OF LAST RESIDENCE, 2001 CENSUS

Migration

Migration is a factor in changing the size and structure of the population. The migration process affects the areas to which migrants have moved and areas which they have left. Migration is a form of geographical mobility between one geographical unit to another, involving a change of residence from the place of origin/birth to the place of destination or place of new settlement from the last residence. A person is considered as a migrant by place of birth if the place in which he is enumerated during the Census is other than the place of birth. Similarly a person is considered as a migrant by place of last residence if the place in which he is enumerated during the Census is other than his place of immediate last residence.

Internal and International Migration

The migration movements are of four types –

1. Migration within the district of enumeration (intra-district migration)

2. Migration from one district to another but within the State
3. Migration from one State to another State of the country (inter-state migration) and
4. Migration from one country to another country.

The first three together constitute internal migration while the last type of movement is called international migration.

Migration by place of birth:

The absolute number and percentage distribution of migrants by place of birth in total population of Amreli district and the State at 2001 Census are as following.

PERCENTAGE DISTRIBUTION OF MIGRANTS BY PLACE OF BIRTH-2001 CENSUS

Migration By Place of Birth	Gujarat			Amreli		
	Persons	Males	Females	Persons	Males	Females
1	2	3	4	5	6	7

Source: Gujarat State-D-Series Tables-2001

As per 2001 Census there were 18,810,592 migrants in Gujarat whose place of birth was different than the place of enumeration. Out of such migrants in 2001 census, 56.9 per cent were born elsewhere in the district of enumeration, 29.2 per cent were born in other districts of the State, 13.4 per cent were born in other States of India and 0.4 per cent was born in other countries.

It can be seen that as per 2001 Census in Amreli district there were 498,256 migrants whose place of birth was different than the place of enumeration. Out of such migrants in 2001 Census, in Amreli district, 70.4 per cent were born elsewhere in the district of enumeration, 27.9 per cent were born in other districts of the State, 1.6 per cent were born in other States of India and 0.1 per cent were born in other countries.

No migrant was reported under category titled "Unclassified" in 2001 Census in the state as well as in the district.

INTER STATE IN-MIGRANTS TO GUJARAT STATE AS PER 2001 CENSUS BY PLACE OF BIRTH

Place of Birth	Gujarat		Amreli	
	Migrants	Percentage To Total Migrants	Migrants	Percentage to Total Migrants
1	2	3	4	5
Total Migrants	**2,520,676**	**100.0**	**8,161**	**100.0**
Madhya Pradesh	159,055	6.3	1,480	18.1
Maharashtra	734,945	29.2	2,498	30.6
Rajasthan	471,109	18.7	1,014	12.4
Uttar Pradesh	520,094	20.6	789	9.7
Other States	635,473	25.2	2,380	29.2

Source: Gujarat State-D-Series Tables-2001

The above statement shows migration in Gujarat and in Amreli district from other States as per 2001 Census. It can be seen that as per 2001 Census, there were 2,520,676 persons in the State who were born in other States of India.. In 2001 out of such persons 29.2 per cent were born in Maharashtra. In 2001, the proportion of inter State migrants born in Rajasthan and Uttar Pradesh was 18.7 and 20.6 per cent respectively. As per 2001 Census, in Gujarat, out of total interstate migrants 6.3 per cent were born in Madhya Pradesh, while the remaining 25.2 per cent were born in other States of India.

It can be seen that in 2001, in Amreli district, there were 8,161 migrants who were born in other States of India. The state-wise distribution reveals as per 2001 Census 30.6 per cent of migrants were born in Maharashtra. In 2001 the proportion of migrants born in the States of Rajasthan, Uttar Pradesh and Madhya Pradesh was 12.4 per cent, 9.7 per cent and 18.1 per cent respectively. The proportion of migrants born in other states was 29.2 per cent in 2001 Census.

Migration by place of last residence:

Distribution of migrants by place of last residence in Gujarat and Amreli as per 2001 Census and percentage distribution of in-migrants from other States to Gujarat by place of last residence are presented below.

DISTRIBUTION OF MIGRANTS BY PLACE OF LAST RESIDENCE IN GUJARAT - 2001 CENSUS

Place of Last residence	Gujarat			Amreli		
	Persons	Males	Females	Persons	Males	Females
1	2	3	4	5	6	7
Total Migrants	**19,221,602 (100.0)**	**6,694,122 (100.0)**	**12,527,480 (100.0)**	**512,291 (100.0)**	**129,822 (100.0)**	**382,469 (100.0)**
Last residence elsewhere in the district of enumeration	12,248,452 (63.7)	3,506,051 (52.4)	8,742,401 (69.8)	382,933 (74.7)	94,131 (72.5)	288,802 (75.5)
Last residence in other districts of the State	4,731,665 (24.6)	1,892,862 (28.3)	2,838,803 (22.7)	122,119 (23.8)	31,958 (24.6)	90,161 (23.6)
Last residence in other States of India	2,182,741 (11.4)	1,262,884 (18.9)	919,857 (7.3)	7,073 (1.4)	3,642 (2.8)	3,431 (0.9)
Last residence in other countries	58,744 (0.3)	32,325 (0.5)	26,419 (0.2)	166 (0.0)	91 (0.1)	75 (0.0)
Unclassified	0 (0.0)	0 (0.0)	0 (0.0)	0 (0.0)	0 (0.0)	0 (0.0)

Source: Gujarat State-D-Series Tables-2001

There were 19,221,602 migrants by place of last residence in Gujarat as per 2001 Census. The proportion of male and female migrants whose place of last residence was elsewhere within the district of enumeration was 52.4 per cent and 69.8 per cent in Gujarat State. The reason for higher proportion of female migration is marriage. In Gujarat as per 2001 Census, 63.7 per cent migrants were residing elsewhere in the district of enumeration, 24.6 per cent were such whose last residence was in other districts of the State while last residence of 11.4 per cent migrants was in other states of India and only 0.3 per cent were such whose last residence was in other countries. There were no migrants in the category titled “Unclassified”.

As per 2001 Census, there were 512,291 migrants by last residence in Amreli district. Out of total migrants, 74.7 per cent of migrants were residing elsewhere in the district of enumeration, 23.8 per cent were such whose last residence was in other districts of the State while last residence of 1.4 per cent migrants was in other States of India and last residence of only 166 migrants was in other countries. There were no migrants in the category titled “Unclassified”.

Migration by reason:

The following statement gives distribution of migrants by reasons of migration from other States of India.

MIGRATION FROM OTHER STATES OF INDIA BY PLACE OF LAST RESIDENCE IN GUJARAT 2001

States	Total Migrants	Reasons						
		Work/ Employment	Business	Education	Marriage	Moved after birth	Moved with household	Others
1	2	3	4	5	6	7	8	9
Total	**2,182,741**	**660,767**	**204,905**	**12,624**	**370,546**	**134,751**	**577,599**	**221,549**
		(30.3)	**(9.4)**	**(0.6)**	**(17.0)**	**(6.2)**	**(26.5)**	**(10.2)**
Madhya Pradesh	131,745	29,363 (22.3)	11,867 (9.0)	794 (0.6)	27,722 (21.0)	7,221 (5.5)	40,843 (31.0)	13,935 (10.6)
Maharashtra	655,080	139,701 (21.3)	42,719 (6.5)	2,932 (0.4)	142,939 (21.8)	62,145 (9.5)	191,630 (29.3)	73,014 (11.1)
Rajasthan	391,649	80,234 (20.5)	59,938 (15.3)	1,555 (0.4)	82,251 (21.0)	23,145 (5.9)	103,923 (26.5)	40,603 (10.4)
Uttar Pradesh	447,325	179,313 (40.1)	47,179 (10.5)	1,712 (0.4)	53,419 (11.9)	17,296 (3.9)	106,884 (23.9)	41,522 (9.3)
Other States of India	556,942	232,156 (41.7)	43,202 (7.8)	5,631 (1.0)	64,215 (11.5)	24,944 (4.5)	134,319 (24.1)	52,475 (9.4)

Source: Gujarat State-D-Series Tables-2001

It can be seen from the data given above that the main reason for the migration was "Work/ employment". As much as 30.3 per cent of migrants moved due to work or employment as per 2001 Census, this was followed by 26.5 per cent of migration which was due to the reason of "Moved with household". In 2001, the proportion of migration due to marriage was 17.0 per cent. The reason for 9.4 per cent of migration was Business, and 6.2 per cent of migration was due to the reason titled "Moved after birth" and only 0.6 per cent of migration was for Education. The remaining 10.2 per cent of migration was due to other reasons.

ANNEXURE – V

BRIEF ACCOUNT OF MAIN RELIGIONS IN THE DISTRICT AS PER 1991 AND 2001 CENSUSES

Religion is the basic cultural characteristics of the population. In secular country like India several religions have thrived and every decennial Census provides an interesting picture of the religious persuasions of the people. The data on religion yielded by the Census are of immense use for the Anthropologists, Sociologists, Demographers, Administrators, and Planners and also for laymen.

The six main religions i) Hindu, ii) Muslim, iii) Christian, iv) Sikh, v) Buddhist, and vi) Jain were recorded. In respect of 'Others', the actual religion returned was recorded. If a person said that he has no religion, it was recorded accordingly and if any person refused to state his religion it was recorded as 'religion not stated'.

Source: Gujarat State-C-Series Tables-2001

The statement above gives the details of distribution of population for Gujarat State and Amreli district by six major religions as per 2001 Census. The 2001 Census data reveals that the proportion of Hindus was 89.1 per cent in the State of Gujarat against 93.8 per cent recorded in Amreli. In comparison, in 1991 the proportion of Hindus at State level was 89.5 per cent while in the district the proportion of Hindus was 94.1 per cent.

The proportion of Muslims was 5.3 per cent in the district in 1991 which rose to 6.0 per cent in 2001. At State level the proportion of Muslims was 8.7 per cent in 1991 and 9.1 per cent in 2001 Census. The proportion of Christian Jain, Sikh, Buddhists, people following other religions and of people who did not state any religion was negligible in Amreli in 1991 as well as in 2001 Census. It may be noted that in number terms population of Christian, Sikh, people following other religions and of people who did not state any religion had increased in 2001 as compared to 1991 while population of Jain and Buddhist had shown a decrease in 2001 as compared to 1991.In the district, no population was reported in 1991 under the category of "Other religions".

ANNEXURE-VI

MARITAL STATUS OF POPULATION AS PER 2001 CENSUS

Source: Gujarat State -C- Series Tables-2001

In 2001 in rural areas the proportion of never married persons was 47.7 per cent in Gujarat and 49.2 per cent in Amreli while in urban areas the proportion of never married persons was 47.5 per cent in Gujarat and 50.7 per cent in Amreli. As per 2001 Census the proportion of married persons, in rural areas, was 47.4 per cent in Gujarat and 46.3 per cent in Amreli. The proportion of married persons in urban areas of the State was 48.4 per cent and the same was 45.1 per cent in Amreli. The proportion of widowed in rural areas, was 4.4 per cent in the State and 4.3 per cent in the district. The same for urban areas was 3.7 per cent in the State and 3.9 per cent in the district. The proportion of divorced/separated was 0.4 per cent in the state and 0.2 per cent in the district. There was no population reported under the category titled "Unclassified".

ANNEXURE – VII

AGE, SEX AND EDUCATION IN THE DISTRICT AT THE 2001 CENSUS

Literacy has occupied an important position in Indian Census in one form or the other from the very beginning. The definition of literates as adopted is "A person who can both read and write with understanding in any language is to be taken as literate". A person who can merely read but can not write was not treated as literate. It is not necessary that a person who was literate should have received any formal education or should have passed any minimum educational standard. All children below the age 7 are treated as illiterate. While processing the literacy data population of age group 0-6 is excluded.

The following statement gives the distribution of literates and illiterates by broad age groups and sex in the district as well as the State at the time of 2001 Census:-

LITERACY BY AGE -GROUP AND BY SEX -2001

Age Group	Particular	Gujarat			Amreli		
		Persons	Males	Females	Persons	Males	Females
1	2	3	4	5	6	7	8
7-14	Population	9,091,764	4,814,440	4,277,324	270,961	140,911	130,050
