PALITANA SHETRUNJAY HILL

Jain temples on Shetrunjay Mountain near Palitana in Bhavnagar district are very famous through out the world. It is 60 kms. away from Bhavnagar. Palitana is one of the most important places of pilgrimage for Jains. There are 863 temples on 603 meters High Mountain. Art critic Burgese noted that such a large number of temples on such a high mountain ranges are not found any where in the world.

Shetrunjay is the seat of Rishabhdeoji, the first Tirthanker (Prophet) of Jains. The pilgrims and nature lovers from all over the world flock to this place every year. The temples are believed to have been built during 11th Century. The idols have been decorated with gold and diamond ornaments. The temples are built with marble and white stone. The architecture and sculptures of these temples are amazing. They can be seen with due permission from the administrators.

On account of its sacredness, it is also called Siddhakshetra or Siddhachal where all the Tirthankars except Neminath and numerous saints attained Siddhi or Nirvan. Because of its special sanctity Jains all over India are anxious to perform at least one pilgrimage to this holly shrine during their lifeline. It is place of pride not only for Jains but also for the cultural world of Gujarat.

FOREWORD

The District Census Handbook (DCHB) published by Census Organisation since 1951 census, is one of the important publications in the context of planning and development at gross-root level. The publication, which is brought out for each district, contains several demographic and socio-economic characteristics village-wise and town-wise of the district alongwith the status of availability of civic amenities, infrastructural facilities, etc.

2. The scope of the DCHB was initially confined to a few Census Tables and Primary Census Abstract (PCA) of each village and town within the district. Thereafter, at successive censuses, its scope and coverage has been enlarged. The DCHB published at the 1961 census provided a descriptive account of the district, administrative statistics, census tables and a village and town directory including PCA. The 1971 census-DCHB series was in three parts: Part-A related to village and town directory, Part-B to village and town PCA and Part-C comprised analytical report, administrative statistics, district census tables and certain analytical tables based on PCA and amenity data in respect of villages. The 1981 census DCHB was in two parts: Part-A contained village and town directory and Part-B the PCA of village and town including the SCs and STs PCA up to tahsil/town levels. New features alongwith restructuring of the formats of village and town directory were added into it. In Village Directory, all amenities except electricity were brought together and if any amenity was not available in the referent village, the distance in broad ranges from the nearest place having such an amenity, was given. Information on new items such as adult literacy centres, primary health sub-centres and community health workers in the village were provided so as to meet the requirements of some of the Revised Minimum Needs Programme. Information on approach to the village was provided for the first time in the Village Directory so as to give the details on number of inaccessible villages in each district. In the Town Directory, a statement (IV-A) on slums was introduced to provide the details on civic and other amenities in the notified slums of Class I and Class II towns.

3. The 1991 census DCHB, by and large, followed the pattern of presentation of 1981 census, except the format of PCA was restructured. Nine-fold industrial classification of main workers was given against the four-fold industrial classification presented in the 1981 census. In addition, sex-wise population in 0-6 age group was included in the PCA for the first time with a view to enable the data users to compile more realistic literacy rate as all children below 7 years of age had been treated as illiterate at the time of 1991 census. One of the important innovations in the 1991 census was the Community Development Block (CD block) level presentation of village directory and PCA data instead of the traditional tahsil/taluk/PS level presentation. It was expected that the presentation of village directory and PCA data at CD block level will help the planners in formulation of micro level development plans, CD block being lowest administrative unit.

4. The present series of 2001 census DCHBs have been made more informative and exhaustive in terms of coverage and content. The Village Directory has been enlarged in scope by including a number of other facilities like banking, recreational and cultural facilities, newspapers and magazines and 'most important commodity' manufactured in village. Income and expenditure of gram panchayat, wherever possible, has been provided. Apart from these, more details on distance(s) at which basic amenities are available (if not available in the village), are given. This includes educational facilities (namely primary and middle schools and college), medical facilities (viz. Allopathic Hospital, Maternity & Child Welfare Centre and Primary Health Centre), drinking water, post & telegraph (post office and phone), communication, bank, credit societies and recreational facilities. In Town Directory, the statement on Slums has been modified and its coverage enlarged by including details on all slums instead of 'notified slums'. The information is given in case of all statutory towns irrespective of their class, against only Class I and Class II towns in the 1981 and 1991 censuses. The basic amenities available in the villages and towns are analysed in depth with the help of a number of cross-classified inset tables and statements. Two other significant additions in the publication are inclusion of 'motif' highlighting

significant characteristic of the district and analytical notes as annexures. The analytical notes on (i) fertility and mortality and (ii) various measures of fertility and mean age at marriage are prepared based on 1991 Census. Whereas, in the notes relating to (i) percentage distribution of migrants by place of birth/place of last residence, (ii) main religions, (iii) marital status of population, (iv) age, sex and education, and (v) distribution of spectrum of mother tongue nature and extent of changes occurred in the district in its basic socio-demographic features during the decade 1991-2001 are analysed. The eight digits permanent location code (PLCN) to all the villages and towns have been assigned keeping in view the future needs.

5. The village and town level amenity data have been collected, compiled and computerised in prescribed record structure under the supervision of Shri **JAYANT PARIMAL** Director of Census Operations **GUJARAT**. Thereafter, efforts have been made to ensure comparability of the information with that of 1991 census data and the information brought out by the respective state governments in their annual reports and statistical handbooks for various years after 1991. The task of planning, designing and coordination of this publication was carried out by Shri R.G. Mitra, Deputy Registrar General (C&T) and Dr. I. C. Agrawal, Senior Research Officer of Social Studies Division, Dr. R. P. Singh, Deputy Registrar General (Map) provided the technical guidance in the preparation of maps. Whereas, Shri Anil Kumar Arora, Deputy Director of Data Processing Division who worked under the overall supervision of Shri Himakar, Addl. Director(EDP) helped in preparation of record structure for computerisation of village and town directory data and the programme for the generation of Village Directory and Town Directory statements including analytical inset tables. The draft DCHB manuscripts received from the Census Directorates have been scrutinised in the Social Studies Division under the guidance of Shri S. L. Jain, Deputy Director and Shri R.K. Mehta, Assistant Director. I am thankful to all of them and others who have contributed to make this publication possible.

D. K. Sikri
Registrar General &
Census Commissioner, India

New Delhi
Dated : 17.10.2006.

P r e f a c e

Census is being conducted in the country every ten years as per the programme laid down by the Government of India. In these day and age of information technology, an individual has access to a variety of information covering a Kalidoscope of interest and fields. Availability of relevant information is very vital for planners, policy makers and researchers.

The Five Year Plans have come to stay in the country and whatever development is achieved as a result of implementation of planning from the bottom level such as development of infrastructure facilities as well as basic amenities, etc. is reflected in the District Census Handbooks and they give to the readers a searching eye whether the development over the years in villages/talukas/districts is lopsided or upto the mark. This is the basic requirement of this type publications and an attempt has been made to show whether the census handbooks reasonably fulfill these aspirations/requirements.

These district Handbooks are thus useful to planners in planning from bottom as well as to administrators, researchers, educational institutions including universities and other socio-economic research centres as well as students conducting research in demography, social and economic studies as well as to the local bodies like Panchayats, Municipalities and Municipal Corporation etc.

District Census Handbook of Gujarat is a joint venture of the Government of Gujarat and the census organization of the Government of India. In the preparation of the DCHB, the role played by the census organisation is that of Census data collection, scanning of collected information, analysis of PCA. DCHB Unit of the State Government collected the basic non-census inifonnation on availability of amenities relating to infrastructure in the villages of the district presented in the part A of this book. The cost of this publication is borned by the State Government. In accomplishing this task we had the ready and whole hearted co-operation of the staff at various levels of different department of the State Government. Most of the data supplied by the various departments have been cross-checked and an attempt has been made to reconcile the discrepancies as well.

I express my deep gratitude to the officers of Gujarat Government particularly Shri PK.Laheri, Chief Secretary of Gujarat State, Smt. Netraben Sinoy, Additional Chief Secretary of General Administration Department (Planning), Shri George Joseph, Principal Secretary, General Administration Department (Personnel), Shri K.R.Vasava, Deputy Secretary, Kum.P.S- Mevada, Under Secretary and Shri P.D.Kulkarni, Section Officer of General Administration Department, Planning, Shri S.D.Mehta,Deputy Secretary and Shri I.M.Sheikh, Under Secretary, Shri Bipin Patel, Section Officer and Shri P.N.Christian, Deputy Section Officer of G.A.D. (Kh-3) for their valuable help and co-operation in fulfilling all administrative requirement in time for bringing out this publication. I am also thankful to Shri P.M. Patel, Director, Economics and Statistics helped this organisation not only by placing the competent personnel on disposal of census services on deputation but also provided valuable official statistics for this publication.

The District Collector, the District Development Officer, District Statistical Officer, District Information Officer and their staff members extended their warm and whole hearted co-operation for carrying out field work of the census and collection of non-census data for this District Census Handbook.

I am deeply grateful to Shri J.K. Banthia. I.A.S., the Ex-Registrar General and Census Commissioner, India for the benefit I have derived by the way of guidance and advice. I also express my thanks to Shri G. Mitra, Deputy Registrar General(C&T) Shri C. Chakravorty, Joint Director, Shri I.C. Agrawal, Senior Research Officer(SS), Shri S.L. Jain, Deputy Director(SS), Shri R.K. Mehta, Assistant Director(SS), Shri R.P. Singh, Dy. Registrar General(Map), Shri Himakar, Addl. Director (EDP) and Shri Anil Kumar Arora, , Deputy Director (EDP) for providing technical guidance in finalising this publication. I am extremely thankful to Shri D. K. Sikri, IAS, Registar General & Census Commissioner, India for his valuabe guidance in finalizing of this publication.

Shri Jayant Parimal, I.A.S. who held the office of Director of Census Operations, Gujarat, had guided the operations of the 2001 Census. The data presented in this handbook were collected and compiled under the able direction and guidance of Shri Parimal.0ur sincere and grateful thanks for all the projects of census to him.

In state office Smt. B.B. Chauhan, Deputy Director, District Census Handbook Unit, Kum.S.B.Dabhi,

Assistant Director, Shri S.B. Dalvi, Deputy Section Officer of District Census Handbook Unit, and their team of able assistants meticulously collected and scrutinized the non-census data from various sources and prepared draft of D. C. H. B. etc. with the help of Census section. The other officials of D. C. H. B. Unit, who scrutinised, edited and supervised the work of D. C. H. B. have been mentioned in the "Acknowledgement". The maps provided in the D. C. H. B. are prepared by the Map Section of the Census Directorate under the supervison of Shri J.P. Purohit, R.O(Map). I am thankful to all of them.I am thankful to the census section of the Directorate for scrutinizing the PCA data, specially Shri J.N.Pithadia, Investigator Grade-I and Kum.N.V.Shah, Investigator Grade-III who provided assistance to me in finalizing P.C.A. data at every stage. Smt. J.R.Sanghani, Investigator Grade-III of this Directorate assisted me for final scrutiny of D. C. H. B., I am thankful to her.

Lastly, 'I am thankful to the Government of Gujarat for having agreed readily to bear the cost of publication of the District Census Handbook volumes and for the special efforts of Shri R.B. Raval, Director, Printing and Stationary and his colleagues to print out the publcation in a very nice fashion.

Note: *These figures represent 'Geographical area' figures supplied by the Surveyor General. Figures for urban area are those supplied by the local Bodies. Area figures for rural are derived by subtracting the urban area from the total area of the District. The total of the area figures of talukas will not tally with the district figures because the former represents 'Land Use Area' and are derived from the figures supplied by the Director of Land Records.

ANALYTICAL NOTE

ANALYTICAL NOTE

(i) History and Scope of the District Census Handbook :

Before the 1951 Census, the Census figures were published in a booklet known as 'Village Hand-book', which contained only village wise population figures. These books were prepared and published by the Directorate of Census Operations of the State.

The Directorates introduced the District Census Handbook for the first time in 1951 Census. It comprised the villagewise primary census abstract figures and information on available amenities. It also contained several tables relating to the district. It varied in content and size from State to State depending upon the resources offered by the respective State Governments.

In 1961 Census, a uniform pattern of District Census Handbook was adopted throughout the country. The Directorate of Census and the State Government jointly executed the project. In addition to the English version, it was published for the first time in Gujarati language also. The District Census Handbook 1961 was published in three parts. Part I related to Introductory Note i.e. general and economic information for the district and a brief gazetteer of place names. Part II pertained to census tables, villagewise list of industrial establishments, tables on handicrafts and departmental statistics. Part III consisted of village directory covering the amenities and primary census abstract data combined in one statement. It also covered district and taluka maps.

It is worthwhile here to note that the State Government created a separate unit for preparing and publishing the District Census Handbook since 1971 Census onwards. In the 1971 Census, the contents of District Census Handbook were modified. In the preceding censuses, the data on amenities and primary census abstract were covered in one statement whereas in 1971 Census, the data on amenities and primary census abstract were separated into two different parts. Thus, the coverage of amenities data was extended and the land use data were introduced for the first time since 1971 District Census Handbook. Moreover, a separate portion known as 'Town Directory' was also incorporated for the first time in the District Census Handbook. The 1971 District Census Handbook was published in three parts. Part A contained the village and town directory. Part B contained village and town wise primary census abstract data and Part C contained official statistics, besides full count census tables, urban census tables and analytical report on census and related statistics socio-economic and cultural tables (Rural areas) and housing tables. Part A and Part B were combined and published in one volume.

The District Census Handbook –1981 was brought out in two parts, Part-A and Part-B. Part-A contained the village and town directory whereas Part-B included the primary census abstract data, for both General Population and Scheduled Castes/Scheduled Tribes. Both parts were published in one volume. Part C brought out for 1971 Census was dropped in 1981 Census. However, official statistics and some portion of analytical notes of part C of 1971 Census were included in the 1981 District Census Handbook also.

For the 1991 Census, the District Census Handbooks were prepared more or less on the same lines of the preceding 1981 Census. In 2001, the scope of both Part A & B has been enlarged by giving several additional information which got possible because of large scale computerization.

The District Census Handbook has been prepared after scanning and processing of data collected through Houselist Schedule and Household Schedule. Several innovations have been introduced at almost all the stages of the Census of India, 2001, right from the preparatory efforts to the data processing and dissemination stage. This includes certain fundamental

changes in the form and contents of the Houselist and Household schedules, while maintaining the continuity and comparability of the basic housing and population characteristics with the earlier census. For the Census of India 2001, a system of Permanent Location Code Number (PLCN) has been adopted by assigning to each village within the State/UT a continuous series from I to N. Each village has been assigned an eight-digit code. The last two digits being '00' are kept for accommodating future changes in case of split of an existing village or creation of new villages etc. Since the permanent Location Codes have been assigned to each village, theoretically tracing the precise location of village on account of future jurisdictional changes in the boundaries of various administrative areas within the state should not pose a problem. It is imperative that under this scheme, the PLCN assigned to villages at the Census of India, 2001 are adopted for future censuses also to ensure the comparability of the data at the village and other administrative levels over a long time series.

- At the 2001 Census age at marriage was collected for males also, while it was collected for only ever-married females until the 1991 Census.

- The type of educational institution attended by a person was enlarged to include school, college, vocational institute.

- The scope of the definition of 'work' was expanded in the Census of India, 2001, to includes production of milk for domestic consumption. In the 1991 Census, cultivator of certain crops even for self-consumption was treated as economic activity. The scope of the term 'Cultivation' was expanded in 2001 Census to include certain other crops such as tobacco, fruits, all types of flowers, roots and tubers, potatoes, chilies and turmeric, pepper, cardamom, all types of vegetables and fodder crops etc. This meant that activities related to production of all the above-mentioned crops for domestic consumption have been treated as work. Only five crops viz. tea, coffee, rubber, coconut and betel-nuts have been classified under 'Plantation' in the Census of India 2001.

- At the 1991 Census, the question on seeking/ available for work was canvassed for only non-workers. At the Census of India 2001, this question was asked from the Marginal Workers also. A question to elicit information on secondary work canvassed at the 1991 Census was dropped.

- From among the categories of non-workers adopted at the 1991 Census, the category 'Inmates of institutions' has been dropped and 'Retired Persons and Rentiers' has been replaced by the category 'Pensioners'.

- A new response category 'Moved after birth' was included in the question on reason for migration to bring out additional migration patterns. Natural calamities or distress migration as a reason for migration for last residence migrants included in the 1991 Census was covered under category of 'Others'.

- Number of children born alive to currently married women during last one year was collected for male and female children separately.

Besides the above modifications, the following new questions were canvassed at the 2001 Census.

- A question on total disability was canvassed in the 1981 Census. In the 1991 Census, no question on disability was included. At the Census of India, 2001, a question to elicit information on total or partial disability was canvassed. The five types of disability on which information is collected are - in seeing, in hearing, in speech, in movement and mental.

- A new question on 'Travel to place of work' was canvassed mainly for workers engaged in non-agricultural activities.Information on distance from the residence to place of work and mode of travel to place of work was collected under this question.

The mode of presentation of DCHB in 2001 will by and large be same as that of 1991. The uniqueness of Census 2001 is that single record (Household Schedule) has been processed as against two records viz. Individual Slip and Household Schedule in the previous Censuses. Apart from this some deviation has been made this time by incorporating analytical notes on migration, fertility & mortality, education, marital status, age structure etc. pertaining to 1991 Census of the respective district in the DCHB in the form of Annexure II to VIII. Similarly Tables based on Houselist data pertaining to Census 2001 have also been included in DCHB.

(ii) Brief History of the District :

The recent archaeological explorations and trail diggings have brought to light several Harappan sites in the district. Fragments of Harappan pottery have also been discovered at Vallabhipur.

No specific information is available about the early political history of the district, but it seems that the imperial sway of the Mauryan empire, the probable rule of the Indo-Greek kings like Menander and Apollodotus-II and the long reign of the western Ksatrapas extended to the whole of Saurashtra including this district.

The region represented by the modern Bhavnagar district rose to prominence when the Maitraka power was established at Valabhi (Vallabhipur) by Senapati Bhatarka, a Maitraka worshipper of Sun-God. The imperial power of the Gupta sovereign began to decline after the death of Skandagupta (467-68 A.D.). Senapati Bhatarka took advantage of the situation and established his own power in Saurashtra. But he abandoned the old capital at Girinagar (Junagadh) and made his choice for the city of Valabhi, which became the capital of the new dynasty (Circa 470 A.D.). He did not assume any royal titles formally but continued to style himself a Senapati.

In the early Christian Era, the famous Maitraka dynasty flourished from 5th to 8th century A.D. at Vallabhipur. Not only was the kingdom prosperous, but the capital was also a great seat of learning. It was an important centre of Buddhism, visited by the Chinese traveler Hiuen Tsiang. After the fall of Vallabhi in the 8th century and subsequent destructions probably owing to earthquakes, the history of the region was not eventful till the rise of Gohil Rajputs in the latter half of the thirteenth century.

Gohil expelled from Ranpur in 1309 A.D. killed Koli Umo after whom Umrala was named. Their capital remained at Umrala till they conquered Sihor, which was then inhabited by Audichya Brahmins. As a result of a dispute among them, one of the sections called Visoji Gohil of Umrala came to their assistance. He defeated the other party and established his capital at Sihor in 1547.

Another branch of the Gohil rule established at Gariadhar later shifted its headquarters to Palitana and ruled there till the integration of Palitana State in Saurashtra State in 1948.

The district of Bhavnagar takes its name from the City of Bhavnagar, the former capital of Bhavnagar State and at present headquarters of the district on the formation of Saurashtra State, it was named Gohilwad district, as the most of the areas comprised therein formed part of what was prior to the independence of the country and after the advent of the British, designated it as Gohilwad prant. This particular region derived the title of Gohilwad as it was ruled by the various branches of Gohil Rajputs who came to Saurashtra from Rajasthan in the latter half of the 13th century, under their leader Jejakji Gohil. The principal branches of the Gohils which occupied this area were (1) Bhavnagar (2) Palitana (3) Vala and (4) Lathi. All these emerged as separate States, Bhavnagar being the largest and most progressive among them. This branch first established its capital at Umrala in 1309, shifted it to Sihor in 1547 and to the present site in 1723. Bhavnagar became a progressive State and new capital, the present city of Bhavnagar standing on the village site of Vadwa grew rapidly under its benevolent rulers and sagacious Diwans.

Ghogha, once a famous port was under the rule of Rajput kings of Patan and Piram was then ruled by Baria Kolis who were conquered by Mokhadaji Gohil in 1325, but he was later on killed in a battle with Mohammed Taqhlaq, who marched from Delhi to put down his piracy at sea. Ghogha was later restored to the son of Mokhadaji but was brought under Muslim rule by 1505 A.D. and finally passed under the British in 1805. Formerly, a part of Ahmadabad district, it was included after Independence in Amreli district and finally in Bhavnagar district in 1959 after reorganization of districts.

Before 1948, the entire Saurashtra peninsula was politically fragmented into bewieldering conglomeration and administratively distributed into 222 States and Estates of various sizes and jurisdiction. The Government of Saurashtra was faced with the task of evolving a unified system of administration in place of the feudal set-up in vogue till then. The administration of the new State was organized on modern lines and the district was made the principal unit of administration. The district at that time consisted of the territories of the former princely States and Thanas of Bhavnagar, Palitana, Vala, Lathi, Raisankali, Jafrabad, Lakhapadar, Dedan and Songadh.

On the reorganization of States under the reorganization Act No. 37 of 1956, the State of Saurashtra of which the district of Gohilwad formed part, was merged into the bigger bilingual state of Bombay, which came into existence from 1st November 1956. Large-scale territorial changes took place in 1959, when Amreli district was substantially enlarged by transferring a number of villages from the neighbouring district, Bhavnagar or Gohilwad district in particular.

In November 1956, the states were organized under the reorganization of States and the bigger bilingual State of Bombay was formed with the inclusion of territories of Vidarbh, Marathawada, Saurashtra and Kachchh regions. The Bhavnagar district along with the other districts of Ahmadabad Division formed part of the biggest bilingual State.

The Bombay State was bifurcated on 1st May 1960 and separate States of Gujarat and Maharashtra were formed. Since that date the Bhavnagar district became a part of the Gujarat State.

(iii) Administrative Set-up :

With a view to run the administration of the State smoothly, it has been divided into Districts, which in turn have been further sub-divided into Talukas (Tahsils).In the State of Gujarat, the community development blocks are co-terminus with the Talukas. The Talukas contain large number of villages and possibly several towns. The villages have Village Panchayats to run the local administration. A Village Panchayat may constitute of one revenue village, several revenue villages or a part of a large village. Similarly, the Towns have Municipality or Municipal Corporation as the seat of local self-government.

In the State of Gujarat, as on December 1999 there were 25 districts and 226* Talukas, against 19 districts and 184 Talukas in 1991 Census. In 1997 by several notification(s), (Government of Gujarat reconstituted some districts and talukas of the State. Under the Government Notification No. GHM-97-82-M-PFR-1097-L dated the 24th September 1997, Bhavnagar district was reconstituted by excluding erstwhile Savarkundla taluka from it and including the same in Amreli district.)

* Vagdod taluka merged in Patan taluka on 3rd July, 2001.

The District Collector looks after the general administration, maintenance of collection of land revenue and settlement of law related disputes, civil supplies, district planning, mid-day meal scheme, etc at the district level. At the Taluka level, Mamlatdar looks after the land development and revenue collection and law and order. The functions of administration of law and order and control and investigation of crime are done by the Superintendent of Police of the district with the help of Police Stations working under him. For the purpose of maintaining law and order there are 20 police stations, 23 police Chowkies and 23 out posts as per the statement below:

Police Station in the District

Sl. No.	Particulars	1998	1999
1.	Police Station	23	20
2.	Police Chowky	26	23
3.	Out post	4	23

Source : Director General of Police, Gandhinagar, 2000.

The Panchayati Raj institutions are fairly strong and most of the development works have been transferred to the District Panchayats and its subordinate bodies. The District Panchayat has an elected President and District Development Officer appointed by the Government, works as its Secretary, who looks after day-to-day work related to the development. Similarly, at the Taluka level, Taluka Panchayats have been constituted which have an elected President. The Taluka Development Officer, placed by the Government as Secretary of the Taluka Panchayats and he conducts the regular administrative work. Like- wise, an elected President heads the Municipality and the Chief Officer works as the Secretary of the Municipality, who looks after the day-to-day work. In case of the large cities, the State Government has constituted Municipal Corporation, which are headed by an elected Mayor and the Municipal Commissioner, appointed by the Government, looks after the routine work. At the Village level, the Sarpanch is the elected Chief and the Talati (Village Mantri) works as the Secretary to the Village Panchayat and looks after the day-to-day

work. In view of the expanding role of the public administration in a state like Gujarat, the Government has taken-up many activities and has set up several offices. Such offices which came into the existence are as under:

(1) Education (Primary and Higher Education)
(2) Agricultural and Research
(3) Animal Husbandry and Poultry
(4) Forest and Environment
(5) Roads and Buildings, Bridges
(6) Co-operation and Co-operative Societies
(7) Industries, Small and Large as well as Cottage
(8) Health and Medical Services, Medical Education and Research, Family Welfare and Nutrition
(9) Information Department
(10) Irrigation Minor and Major
(11) Social Welfare and Social Defence

The functions of above offices are managed and controlled by concerned Head of Departments and in some cases also by District and Taluka Panchayats. The task of primary education in rural areas has been entrusted to District Panchayats and functions relating to Government provided primary education who assigned by District Development Office are controlled by the District Primary Education Officer. The secondary education is looked after by District Education Officer of Education Department. Primary education as well as higher secondary education of all types of institutions is governed by District Education Officer.

Agriculture activities have been delegated to District Panchayat to a large extent and District Agriculture Officer is in-charge of looking after agricultural produce including crops and vegetables. Similarly Animal Husbandry is also a Panchayat activity and routine work is controlled by the Deputy Director (Animal Husbandry) who sits in District Panchayat taking care of animals and poultry farms. Besides, district agriculture office in Panchayat offices such as Deputy Director (Agriculture) and other officials look after various aspects of agriculture for developing the sector as well as to extend necessary assistance to farmers at District level.

Besides Director, animal husbandry officer of Panchayat offices such as Deputy Director (Animal Husbandry) Special Officers at Veterinary offices etc. In state government animal husbandry department also monitor activities of the sector at district level.

Public Health in rural area is assigned to the District Panchayat under the Chief District Health Officer who looks after epidemics, malaria control, water borne diseases and district level administration of Public Health Centres. District and Talukas Hospitals and Referral Hospitals are being looked after by the District Civil Surgeon of medical services in the State, while Medical Colleges and Research activities attached with the respective Civil Hospitals are controlled by Medical Education and Research Wing.

Family welfare activities are also monitored by the District Health Officer. Chief District Health Officer is also functioning as District Registrar of Birth and Death of the district and Talati cum Mantri is also Registrar of Death and Birth for the respective villages. Anaemic mothers and children upto to the age of 14 are looked after by Nutrition Officer under the Nutrition Programme.

District Ayurvedic Officer looks after the Ayurvedic dispensaries and hospitals. They also take care of the Ayurvedic plants and medicines and gardens. The District Food and Drugs Officer generally looks after the quality of the food and drugs in the district. Labourers and workers who are working in registered units are covered under the Employees State Insurance Scheme.

The rural roads have been transferred to the District Panchayats and their maintenance is done by the Executive Engineer, Roads and Buildings Department. Minor irrigation works are transferred to the District Panchayat and Executive Engineer (Panchayat) of the Panchayat's irrigation office looks after water harvesting and check dams.

The Roads and Buildings Department of State Government looks after the maintenance of roads, buildings, bridges and government multi-storey buildings etc. Besides Panchayat Officials, major district roads and the state highways are looked after by the Executive Engineer (Roads & Buildings). The large multi-purpose irrigation projects are controlled by State Government directly through its Executive Engineer.

District Industries Centre is functioning to develop the small and village industries, handloom industries and the scope of industrial growth in the district. Besides, other departments are working for the rights of the industrial workers and rural labourers engaged in agriculture and others sectors.

Social welfare activities relating to the Scheduled Castes, Scheduled Tribes, Other Backward Castes and Other Backward Communities in the District are orga-nized by the District Welfare Officer. Generally the schemes under Tribal Area Sub Plan and Special Component Plan are organized by the District Welfare Officer.

In each District Panchayat, District Statistical Officer of Directorate of Economics and Statistics looks after co-ordination of different development programmes. He is also Member-Secretary of District Planning Board. Similarly in every Collector Office, District Planning Officer looks after development work of various Government (State & Centre) sponsored programmes.

Co-operative societies i.e. Co-operative Milk Societies, Agricultural Produce Market Societies. Co-operative banking and other Co-operative societies are controlled by the District Registrar Co-operative Societies.

Out of 798 villages 8 are uninhabited and 790 villages are inhabited. Alang village of Talaja taluka has been classified as urban area and declared as Census town for the purpose of 2001 census. The talukawise break up of towns and villages for the district is shown in the following table.

Talukawise Number of Towns and Villages

Sl. No.	Name of Taluka	Number of Towns	Number of Villages	
			Total	Inhabited
1	Botad	1	52	52
2	Vallabhipur	0	58	56
3	Gadhada	1	74	74
4	Umrala	1	42	41
5	Bhavnagar	2	59	57
6	Ghogha	1	47	47
7	Sihor	1	79	78
8	Gariadhar	1	51	50
9	Palitana	1	92	92
10	Talaja	2	113	112
11	Mahuva	2	131	131
	Total	**13**	**798**	**790**

Source: Village/Town Directory,2001

The civic status of the 13 towns is as under :

Census Town	:	5
Municipality	:	8
Total	**:**	**13**

As statement given shows, in 1991 census Songadh, Umarala, Paliyad and Vallabhipur were census towns, but they are declassified and considered as village in 2001 census.

Talukawise List of Declassified Towns

Sl. No.	Name of Taluka	Name of Village	LC1991	LC2001
1	2	3	4	5
1	Botad	Paliyad	XVI	00969600
2	Vallabhipur	Vallabhipur	XVII	00977800
3	Umrala	Umrala	XII	00988000
4	Sihor	Songadh	XI	01004000

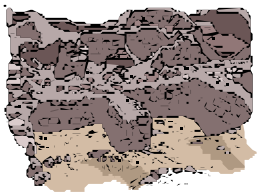

(iv) Physical Features :

Bhavnagar district is situated in the south-east corner of the peninsular region of Gujarat known as 'Kathiawar or Saurashtra'.It lies between the parallels of latitude $20^0.59'$ and $22^0.16'$ and the meridians of longitude $71^0.23'$ and $72^0.18'$. The length from north to south of this territory is about 151.7 kms. and from east to west about 108.6 kms. It is bounded in the north by Surendranagar and Ahmadabad districts and in the west by Rajkot and Amreli districts and in the south by the Arabian Sea and part of Amreli district and in the east by the Gulf of Kambhat. The area covered by the district is 9,981 Sq. kms. Areawise rank of this district is 6th among the districts of the state.

Physiography :

Bhavnagar district forms a part of Kathiawar Peninsula and is sub-divided into four sub-micro regions, namely, Bhavnagar Coastal Plain, Palitana-Savarkundla Upland, Songadh Forested Plain and Keri, Kalubhar and Ghelo Plain on the basis of topography, climate, geology, soils and natural vegetation.

Bhavnagar Coastal Plain :

The region extends over the coastal areas of the district and occupies major parts of Bhavnagar, Ghogha, Talaja and Mahuva talukas and some parts of Vallabhipur and also Rajula taluka of Amreli district. It is surrounded by Ahmadabad district from north, by Gulf of Khambhat from east, by Arabian Sea from south and by Palitana-Savarkundla Upland, Songadh Forested Plain and Keri, Kalubhar and Ghelo Plain from west.

The coast is intersected by numerous creeks and between the creeks the coast is occupied by sandy and muddy beaches and tidal flats. The plain tracts of the region are fertile. In the region, the elevation ranges between 10 metres and 88 metres above M.S.L. Geologically, the region is composed of Alluvium, blown sand, etc., Nari and Gaj Series, Sub-Nummulitic Beds, Deccan Trap and Trap dykes. Soils in the region are categorized as Orthids-Aquepts, Orthents-Ochrepts and Usterts-Ochrepts types. Soils and water table are favourable for the agricultural development of the region.

Palitana-Savarkundla Upland :

The region extends over parts of Mahuva, Talaja, Palitana and Gariadhar talukas. It makes its limits with Songadh Plain in the north, Amreli district in the west and south and Bhavnagar Coastal Plain in the east.

The topography of the region on the whole is undulating except the river basin. In the uplands, Deccan Trap ridges stand out prominently intervened by narrow ridges and these areas are covered with mixed forests. The elevation of the region varies between 60 metres and 501 metres above M.S.L. The slope of the region is towards east and it is drained by Setrunji river and its tributaries. Soils found in this region are Orthids-Aquepts and Orthents-Ochrepts. The region is not suitable for agricultural purposes.

Songadh Forested Plain :

The region spreads over the parts of Talaja, Palitana, Gariadhar, Sihor and some parts of Ghogha and Umrala talukas. It makes its boundaries with Keri, Kalubhar and Ghelo Plain in north, Bhavnagar Coastal Plain in the east, Palitana-Savarkundla Upland in the south and Amreli district in the west.

The relief feature reflects that the maximum height in the region is 154 metres above M.S.L. near Sanosara village of Songadh taluka and the minimum elevation is 89 metres in the north of Palitana town. The general slope of the region is towards east and it is drained by Kharo river. Part of Sihor taluka of the region is undulating and covered with mixed forests. The geology of the region is formed of Alluvium, blown sand etc., and Deccan Trap and Trap dykes formations and it has Orthents-Ochrepts and Usterts-Ochrepts types of soils cover.

Keri, Kalubhar and Ghelo Plain :

The region spreads over north-western portion of the district, occupying Botad and Gadhada and parts of Bhavnagar, Vallabhipur, Sihor and Umrala talukas. It is enclosed by Ahmadabad district from north, by Bhavnagar Coastal Plain from south and by Amreli and Rajkot districts from west.

The plain is formed by Keri, Kalubhar and Ghelo rivers. The elevation of the Region ranges between 16 metres and 166 metres above M.S.L. The general slope of the region is towards east. Geologically, the region is composed of Alluvium, blown sand, etc., Sub-Nummulitic Beds, Deccan Trap and Trap dykes. Orthents-Ochrepts and Usterts-Ochrepts types of soils are found in the region.

Hills :

The aspect of the district differs in the different places from the coastal Marshes and sand fringing the Gulf of Khambhat to the hilly areas of Palitana and Sihor in the south and south-east and Botad and Gadhada in the north-west. Most of Kathiawar hills belong to one of two systems which, running north-east and south-west, form irregular chains crossing the peninsula in nearly paralle lines. This district has very few of hilly ranges. The south-western system of Kathiawar hills penetrate into the district in the south making Palitana and Sihor quite hilly. Generally the height of these hills ranges from 1000 to 1500 feet, although one of its peaks, Nandivel, outside the district, reaches a height of 1737 feet lying almost parallel to the south western hills of Kathiawar dominate the central south of the district of Bhavnagar. There are two main important hills, one is Shentrunjaya and the other is Talaja hill. Both hills are rising abruptly to 2000 feet. The Shatrunjay hills also known as Palitana hills stand about thirteen miles northwest by west half west from Talaja hill and twenty miles north – west of Gopnath point.

Talaja hills, 10 miles north-west of Gopnath point and 41/2 miles north-west of Sultanpur, is a small steep conical hill rising to about 400 feet sheer of a level

plain. Between Talaja hill and Bhavnagar creek is a range of hills. On the top of Talaja hill is a Hindu temple with excellent water.

Drainage :

The district of Bhavnagar is drained from north-west to south-east except in the Mahuva taluka where it drains south. Most of the rivers of the district flow into the Gulf of Cambay (*Khambhat)*. The principal rivers, which traverse the district, are the Shetrunji, the Ghelo, the Kalubhar, the Vagad and others.

The Shetrunji river rising in the Dundhi hills of the Gir, has a south-easterly course of about 108 miles including windings, and flows to Sultanpur where it enters the Gulf of Khambhat. In this district it enters not far from about two miles west of Bhensavadi it receives the waters of the leo of shel or Gagadia. During the 58 miles of its course through the district the Shetrunji receives only one tributary of importance,the Shel. The river Shetrunji drains through Talaja, Palitana and Gariadhar Mahal.

The Ghelo river rising in the central highlands not far from Phuljar, where the waters of two streams meet. It flows in a south-easterly direction through the village of Somnath. The total length of the Ghelo is about 56 miles and its course in the district is about 45 miles. Its general flow is towards the east.

The Kalubhar river rises in the central high lands at Rajpur not far from Samadhiyala and has a length of 59 miles. It enters in this district at east of Padpan and its course of 41 miles in the district.

The Vagad river rises not far from Rajpura near Hadmatiya and flows through Limbdi where the Bhavnagar-Dhandhuka high road crosses it. Flowing eastwards through mud and swamp, it empties into the tidal creek of Bhavnagar to the north of Kalubhar. Its entire course of about 24 miles is within the district.

The Kalbi and Padala, the Keri, the Goma, the Utavali, the Dhatarvadi, Surajvadi, the Malan and the Bagad are other minor rivers of this district.

Creeks :

Bhavnagar district has three main creeks (1) The Bhavnagar Creek (2) The Sonrai Creek and (3) The Mahuva Creek.The Bhavnagar creek forms a channel between the town and the Gulf of Khambhat. It is safe but winding passage, navigable by large crafts for about five miles or within a mile of the town. At spring tides boats of 3 to 5 tones can pass up the Ghelo river as far as Ghetri, 14 miles from Bhavnagar.

The Sonrai creek is about 8 miles north of Bhavnagar. It is believed to contain a fine broad channel of various depths. This channel does not dry up like the Dholera creek and is free from mud banks and other serious impediments. The landing place is about four and a half miles from the mouth of the creek and the channel near it holds enough water to keep loaded and unloaded boats afloat at any time of the tide.

The Mahuva creek is two miles to the landing at the head of which stands Mahuva. It is a port for coastal and foreign trade. On the sea shore between Katpar and Nikol is an ancient temple of Bhavani Mata is almost covered by drifting sand.

Island :

Bhavnagar district have three main islands, Piram, Sultanpur and Jegri. Out of them Piram is famous but small narrow island about seven miles south of Ghogha, four miles of the coast opposite Hathab and is surrounded by rocky reefs which run two or three miles to the north and south east and are dry at low water. The surface which is partly the western side is into low cliffs of hardened clays and conglomerate rock. On the sandy knoll in the centre of the island is a light house or a stone tower built on the ruins of an old bastion. Good water is procurable from wells but the island is unhealthy from June to October. The part of the island which is always above water stretches half a mile to the north-west of the light house.

The Sultanpur Island is formed by the forked mouth of the Shetrunji. It is connected to Talaja on the main land. The off shoreshoal consists of several rocky islands made of rock clay and sand.

The Jegri Island is formed at the mouth of river Malan but it is connected to Mahuva on the main land by road.

Reservoirs, Lake and Tanks :

In the north east of the district the soil is charged with salt and the water obtained by digging is more or less brackish. Almost every village and town has its pond or reservoir holding water through the greater part

of the year. During April and May most of these ponds dry up and supplies are drawn from wells dug in the beds of ponds and lived with brick and masonry. Some of the ponds are large enough to deserve special mention.

There are several large tanks at the south of the Bhavnagar-Rajkot road, namely the Ramdhari tank, the Ambla tank, the Valavad tank and one to east of the Sihor hills.

The fine artificial lake about five miles in circumference near the city of Bhavnagar is formed by bunding the bed of the Gadhechi River. The Moti tank is situated at the north east of the city. The port is supplied by an artificial tank.

Climate:

The climate of this district is characterized by a hot summer and general dryness except in the coastal region. The year may be divided into four seasons. The cold season from December to February is followed by the hot season from March to May. June to September is the south-west monsoon season and two months of October and November form the post monsoon season.

a) Temperature :

Bhavnagar has its own meteorological observatory in the district. The records of this observatory may be taken as representative of the meteorological conditions prevailing in the district as a whole. The period from March to May is one of the continuous rises in maximum temperature. May is generally the hottest month in the district. After mid-November both day and night temperatures begin to decrease till January which is the coldest month. Monthwise maximum, minimum and year-wise temperature details are given below.

b) Winds:

Winds are generally light but become forceful during the latter part of the summer season and the south-west Monsoon season. Winds blow generally from directions between north-west and north-east during the period October to April and mostly from the south-west or west during the south-west Monsoon season.

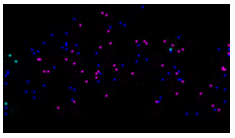

TEMPERATURE

c) Rainfall :

Records of rainfall in the district are available from the office of the directorate of agriculture. The annual rainfall for the year 1999 in the district is 389.0 mm. About 91 per cent of the annual rainfall in the district is received during the south-west monsoon months of June to September, July being the rainiest month. The details of the rainfall for the years 1995 to 1999 are given below.

Monthly Rainfall (Year 1995 to 1999) (In mm)

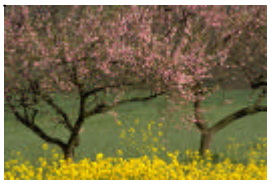

Year	May	June	July	August	September	October	November	Annual
1995	0.0	3.0	181.0	80.0	130.0	0.0	0.0	394.0
1996	0.0	0.0	164.2	64.3	28.2	113.9	0.0	370.6
1997	0.0	262.3	124.2	101.2	96.0	1.4	0.0	585.1
1998	0.0	79.6	151.2	151.1	103.4	101.7	8.2	595.2
1999	2.6	107.6	88.7	25.7	56.7	107.7	0.0	389.0

Economic Resources :

Economic resources are an important means of subsistence for the working people of the district. The details about economic resources of important sectors are given here under in brief

(1) Forestry :

The forest area in the district is very limited and not concentrated, but scattered. Forests worth the name are found only in the hilly areas near Sihor, Palitana and Bhavnagar. These areas have quite a good tree growth. Areas easily accessible have a scattered tree growth, which is generally stuned and mal formed. Flat areas with out tree growth, which have turned into vidis or grasslands. According to the figure available from the Forest Department, there were 337.6 sq.kms. of forest in the district. The total area under forest is only 3 per cent to district total area of 9,981 sq.kms. The species of trees prominently noticed in the forests of the district are gorad, baval, vikalo,ingor, saledi, dhavado, sajad etc.. Prosopis juliflora(gando baval) has been successfully introduced in these areas especially in the salty waste lands. Teak, deshi baval, arthi, arduso, semal etc. are also grown in various places. Along the coast mangrove species have been found to be thriving.

(2) Minerals and Mining :

The known mineral wealth of Bhavnagar district is substantial though less diversified than a few other Mineral districts of the state. The minerals available in the district are dolomite, moulding sand, limestone, lignite and chalk and diatomasious earth, building stone, Bentonite, ordinary clay, ordinary sand and road metal. Moulding sand is important mineral and it is very suitable for cast iron and other moulds and extensively exported to industrial areas.

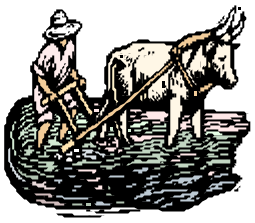

Major and Minor Mining Products and Income

Sl. No.	Products	1998-1999		1999-2000		2000-01

Source:- Commissionerate of Geology and Mining, 1999, 2000 , 2001.

(3) Soil and Cropping Pattern :

The geographical formation of Saurashtra is of volcanic origin, hence the soils of Bhavnagar district with the exception of a few strips, are derived from trap rock. The out crop of granite rocks is visible at certain places like Talaja indicating that granite was the original rock formation. However, the volcanic effusions and spread lava followed by denudation have resulted in the creation of a basaltic topography. The black cotton soils which are not very deep are susceptible to erosion in the undulating areas in the interior of the district due to rain. The soils along the coastal belt are, however, deeper and More plain but due to their lowness get innundated by the ingress of sea water.The soils of the district can be divided into the following five types:

(1) Medium black soil found in parts of Sihor, Bhavnagar,Talaja, Mahuva, Palitana, Botad, Umrala, and Gadhada talukas. This is the most predominent type of soil in the dstrict and covers a major part of its area.

(2) Coastal sandy alluvial soil in Mahuva taluka.

(3) Light murram soil in elevated areas of Sihor, Bhavnagar and Palitana talukas.

(4) Clay lime soil in Gariadhar.

(5) Clay alluvial soil of Bhal tract.

In this district, food and non-food crops grown can be grouped under two main heads Kharif and Rabi. The Kharif or the rain crops are sown in June-July and harvested in October-November. The Rabi or irrigated crops are sown in September-October and harvested in February-March. The main Kharif crops in the district are Jowar, Bajri, Rice, Groundnut and Cotton while Wheat and Gram are the important Rabi crops. Jowar is grown both as Rabi and Kharif crop.

(4) Land and Land use pattern :

The total area of the district was 9,981 Sq. kms during 1998-1999. The land classification according to the different uses for the rural areas of the district for the year 1998-1999, on the basis of information collected for the Village Directory is given below.

Land Classification of Rural Areas

(in '00 hectares)

Sl . No.	Classification of Area	Area as on 31.3.99
1	2	3
1	Forest	213.8
2	Irrigated	1,567.3
3	Unirrigated	3,868.7
4	Cultivable waste (including Gauchar and groves)	806.0
5	Area not available for cultivation.	1,281.2
	Total:	**7,737.0**

Source : Village Directory, 2001

It can be seen from the above table that forest constitutes 2,181.6 hectare while irrigated area constitutes 156,733 hectares which is 28.83 per cent of the total cultivable area.

(5) Tenancy:

There was no separate Act on tenancy in the former Bombay State before 1939. There were provisions of Section 83 of Land Revenue Code and Mamlatdar Court law only. The tenant was not secured of his tenancy rights in the Act. This tenancy lease was considered yearly and had to pay tenancy as per tradition or according to the agreement made with the land owner. In order to protect the tenants, the Bombay Tenancy Act, 1939 came into force in the erstwhile Bombay State.The independence of the country, it was necessary that the country is self-sufficient in agricultural production. It can be done only when the tillers of the land should have some definite rights over the land. With a view to effect control on efficient utilization of agricultural land and also to protect the tenants further and also to accept a definite policy and view for the country on agricultural land, The Bombay Tenancy and Agricultural Land Act, 1948 was enacted and it was brought into force since then.The Act of 1948 was amended five times. An important provision of 'Farmer Day' was inserted in the Act on 1-8-1956. According to this provision, if any person legally tilled the land of other person on 01-04-1957, he was entitled to purchase the said land. Even though Gujarat State was bifurcated from Bombay State in 1960, the said act applied to it also as well.

Tenant means the person who held land on lease viz.,

(1) Tenant as per Section 4;

(2) Protected tenant

(3) Permanent tenant

(4) The person who continued to possess the land with or without the consent of the land owner after appointed date and upto specified date or it is considered that he continued the possession of the land.

In all 1,049,056.4 hectares of land have been released and distributed to total 1,278,125.0 beneficiaries permanently by now under the The Bombay Tenancy and Agricultural Lands Act, 1948 Among the beneficiaries 177,171 were from Scheduled Castes, 258,132 from Scheduled Tribes and 842,822 from other backward classes.

Total 6,525 beneficieries of others category have been distributed 8,829.8 hectares of land in the district.

(6) Agriculture :

(a) Area under Major Crops:

Area under major crops for the years 1993-94 and 1997-98 are indicated in the following table.

Area under Major Crops

(in '00 hectares)

Sl. No.	Name of Crop	1993-94	1997-98
1	2	3	4
1	Paddy	2	3
2	Wheat	114	73
3	Bajri	1,087	914
4	Jowar	932	804
5	Other cereals	16	15
6	Gram	4	6
7	Other pulses	48	68
8	Sugarcane	7	6
9	Groundnut	1,842	1,319
10	Cotton	980	1,632

Source : Season and Crop Report, Directorate of Agriculture, 1999.

The area under wheat, Bajari, Jowar and Groundnut crops has decreased while the area under other cereals, gram, other pulses, sugarcane and cotton has increased during the year 1997-98 as compared to the year 1993-94. It is noticed that a majority of the cropped area was under cotton, groundnut, jowar and Bajari.

(b) Average Yield per Hectare :

The average yield per hectare of the principal crops in the district during the year 1993-94 and 1997-98 is shown below.

Average Yield per Hectare

(In Kg.)

Sl. No.	Name of Crop	Average yield per Hectare	
		1993-94	1997-98
1	2	3	4
1	Bajri (Kharif)	762	1,971
2	Jowar (Kharif)	19	239
3	Jowar (Rabi)	-	875
4	Paddy	1,922	1,895
5	Wheat	2,138	2,263
6	Groundnut	420	971
7	Cotton	338	510
8	Sugarcane	6,200	9,000

Source : Season and Crop Report , Directorate of Agriculture ,1999

The average yield per hectare was higher in Bajari (kharif), jowar (kharif), wheat, groundnut, cotton and sugarcane whereas the average yield per hectare was lower in paddy during the year 1997-98 than the average yield that recorded during the year 1993-94.

(7) Irrigation :

Source of Irrigation :

The area irrigated by different sources in the district are presented below during 1993-94and1997-98.

Area under Irrigation by Source

(In '00 hectares)

Sl. No.	Source of Irrigation	1993-94		1997-98	
		Net	Gross	Net	Gross
1	2	3	4	5	6
1	Govt canals	198	224	228	230
2	Tanks	-	-	-	-
3	Wells	975	1,032	1,299	1,581
	Total :	**1,173**	**1,256**	**1,527**	**1,811**

Source : Season and Crop Report, Directorate of Agriculture ,1999

The above figures indicate that wells are the main source of irrigation in the district. Next in order is the Government canal. It is seen that wells are the main source of irrigation in this district for all three years.

(8) Animal Husbandry:

a) Livestock Population :

Cattle wealth occupies a pivotal place in the rural economy of the district. According to the livestock census of 1992 and 1997, the livestock population in the district is indicated below.

Livestock

Sl. No.	Livestock population	Year 1992	Year 1997
1	2	3	4
(A)	**Total Livestock**	**1,013,616**	**1,213,013**
1	Cattle (cross breed)	4,330	3,591
(a)	Male over 2.5 years	1,373	148
(b)	Female over 2.5 years	1,531	1,811
(c)	Young stock	1,426	1,632
2	Cattle (Indigenoues)	290,162	324,169
(a)	Male over 3 years	103,911	107,408
(b)	Female over 3 years	106,784	116,666
(c)	Yong stock	79,467	100,095
3	Buffaloes	226,047	279,625
(a)	Males over 3 years	3,024	2,335
(b)	Females over 3 years	137,520	158,599
(c)	Young stock	85,503	118,691
4	Sheep	275,259	302,886
5	Goat	211,851	239,096
6	Horses and ponies	1,319	1,443
7	Camels	109	468
8	Pigs	2,348	11,523
9	Other livestock	2,191	50,212
(B)	**Poultry**	**171,971**	**359,401**

Source : (1) Directorate of Economics and Statistics, Livestock Census, 1992
(2) Directorate of Animal Husbandry, Livestock Census, 1997

The livestock population has increased to 1,213,013 in 1997 as compared to 1,013,616 in the year 1992. Poultry birds have increased to 359,401 in 1997 as compared to 171,971 in the year 1992.

b) Agricultural Implements :

According to the livestock censuses conducted in the State, the comparative data for agricultural implements in the district for the years 1992 and 1997 are shown in the following table.

Agricultural Implements

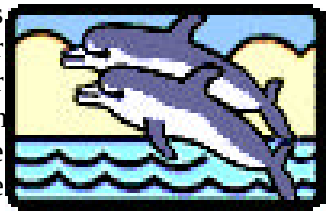

Sl. No.	Name of Agricultural Implements	Year 1992	Year 1997
1	2	3	4
1	Plough	68,385	66,387
(a)	Wooden	29,292	24,372
(b)	Iron	39,093	42,015
2	Carts	43,104	49,008
3	Oil engines	38,021	31,047
4	Electric Motors & Pumps	13,627	13,642
5	Tractors	2,462	5,992
6	Wheat Thresher	451	-

Source : (1) Directorate of Economics and Statistics, Livestock census, 1992
(2) Directorate of Animal Husbandry, Livestock Census, 1997

The number of agriculture implements except wooden plough and oil engines had shown an increasing trend during 1997 as compared to the year 1992.

(9) Fisheries :

Bhavnagar district with an extensive seacoast of about 152 kms. A sea bed with uneven contours supported by a cool winter season and other oceanographic conditions offers good facilities for marine fisheries and their development. The Arabian Sea on the south and the Gulf of Khambhat on the east of the district are quite favourable for fishing. Fishing is done round the year in the district. The main fish available in the district are *bumla, ghol, dara, karkaru, zinga, levta and magru.* Fisciculture activities in the district have been undertaken in the coastal as well as inland waters.

Fisheries Activites

Sl. No.	Item	1997-98	1998-99
1	2	3	4
1	Total number of fishing boats	121	207
2	Total number of fishing nets	15,639	15,639
3	Fish production (In tonnes)	3,487	5,233
4	Number of active fishermen	2,638	2,,638
5	Fishermen Primary Co-operative Societies (Number)	7	7
6	Membership of fishermen's Primary Co-operative Societies	667	667
7	Paid up share capital of fishermen's Co-operative Societies	127,711	127,711

Source: Commissioner of Fisheries, 2000.

(10) Industry :

The total numbers of registered factories and average number of daily workers employed by major groups of industries for the year 1998 and 1999 are shown in the following statement. Among above registered factories the most important establishment from the point of employment is Transport equipments and parts.

Distribution of Important, Industrial Establishments by Major Industrial Group

Sl. No.	Major Group of (National Industrial classification)	Description	As on 31.12.98		As on 31.12.99	
			Number of Establish-ment	Averag number of persons working per day	Number of Establish-ment	Average number of persons working per day
1	2	3	4	5	6	7
1	20-21	Food products	50	2,301	51	2,133
2	22	Beverages tobacco and related products	5	251	5	274
3	23	Cotton textiles	33	2,303	50	3,544
4	24	Wool, silk and man made fibre textiles	4	124	3	27
5	26	Textile products (incl wearing apparel)	4	242	4	118
6	27	Wood and wood products Furnitures and fixtures	13	150	13	279
7	28	Paper and paper products and printing, publishing and allied industries	14	425	11	380
8	30	Basic chemical and chemical products (except products of petroleum and coal)	109	3,836	101	3,046
9	31	Rubber,plastic petroleum and coal products processing and nuclear fuels.	18	590	17	767
10	32	Non metallic mineral products	13	272	8	641
11	33	Basic metal and alloy industries	99	4,608	98	4,188
12	34	Metal products and parts except machinery and equipments.	26	940	25	860
13	35-36	Machinery and equipment other than transport equipment (scientific equipment,photographic/ cinematographic equipment and watches and clocks is classified in division 38)	20	740	20	691
14	37	Transport equipment and parts	111	11,057	103	8,217
15	38	Other manufacturing industries	12	743	13	447
16	39	Repairs of capital goods	11	535	10	498
17	40-43	Electricity, Gas and water Generation trans-mission distribution water works supply etc..	1	15	1	07
18		Other Industries	9	458	10	264
		Total :	**552**	**29,590**	**543**	**26,381**

Source : Chief Inspector of factories, 2000.

Among the registered establishments both in the year of 1998 and 1999 the first four most important establishments are manufacture of (1) Transport equipment and parts (2) Basic Metal and alloy industries (3) Cotton textiles (4) Basic chemical and chemical products (except products of petroleum and coal).

(11) Trade and Commerce :

This category includes wholesale and retail trade of all kinds and other commercial activities like financial, insurance, real estate and business services. The district is known for cotton, Tur dal, Bananas, Sugarcane and Jowar exported to other parts of country. Table 47 gives the details of the most important commodities manufactured and exported out of towns as per 2001 Census.

Banking :

There are 151 commercial and 72 co-operative banks functioning in the district in year 1998. The commercial and co-operative banking facilities available in the rural areas are shown in the table on the right side.

Villages Having Banking Facility

Sl. No.	Name of Taluka	Number of villages where banking facility is available	Number of Banking Institutions	
			Commerical	Co-operative
1	2	3	4	5

Source : Banking Statistics, Basic Statistical Returns, Volume 28, March, 1999.

(12) Transport and Communication :

Transport and Communication facilities are considered and administrative necessity as well as a public convenience Moreover; a well-knit transportation system is a pre-requisite for the social and economic development of any district.

a) Road :

The linking of one place with other by road is very essential to provide good transport system. The information regarding roads are given includes the information of National and State highways, district roads and village roads, According to the classification of road, made by the Indian Roads Congress, road length in the district by category is given below for the years 1998-99 and 1999-2000.

b) Railway :

23 villages are linked with railway facilities in the district.

c) Ports :

Bhavnagar district has coastal area roughly running through 152 km. in length with many creeks. It has good harbours. It is one of the most important intermediate ports of Gujarat. The new port has been constructed at about 13 kms. away from Bhavnagar near Kuva. Every kind of facility has been made available here. The steamers can anchor at the port of the facility of lock gate. The other three minor ports are Talaja, Mahuva and Gogha. Famous Ship breaking industry at Alang is situated in Talaja taluka. Fertilizer, sulphur, iron, scraps and rock phosphate are the main items imported at these ports whereas salt, bentonite, onion and oil cake are principal items of exports through these ports.

Road Length of Different Categories

Sl. No	Year	Type of Road (in kms)

Note : GOVT. DN = Government Division.
PNCH. DN = Panchayat Division.

Source : Roads and Buildings Department, Gandhinagar 2001

In Bhavnagar, according to 2001 census, 690 villages and 15 towns are connected with pucca roads and 188 villages are connected with kachcha roads.

d) Posts and Telegraph :

The following table shows the number of villages in the district having the facilities of post, telegraph and phone. As regards rural areas of the district the facilities of post, telegraph and telephone are available in 504, 21 and 453 villages respectively.

Communications Facilities

Sl . No.	Type of Communication facilities	Number of Villages having facilities
1	2	3
1	Postal	504
2	Telagraph	21
3	Telephone	453

Source : Village Directory, 2001

e) State Road Transport:

Out of 798 villages, 626 villages are availing with bus facility in 1998-99.

(13) Electricity:

Electricity is the chief necessity for the economic development of the district. The main source for power supply in the district is Gujarat Electricity Board. All the villages are electrified.

(14) Gram Panchayats, its Composition, Jurisdiction and Role in the Development of Village and its Economy:

Gram Panchayat is an important institution of self-government. The Gram Panchayat is formed for a village or group of villages. The Gram Panchayat is constituted for a local area with the population of less than 10,000. Such local area may be revenue village or a group of revenue villages or hamlets forming part of a revenue village or such other administrative unit or part of thereof. The number of members of Gram Panchayat varies from 9 to 15. The tenure of Gram Panchayat is of five years. The people of village elect Sarpanch and Vice-Sarpanch (Up-Sarpanch) and other members of the Panchayat. Various Committees like, Social Justice Committee and Standing Committee are formed. In the year 1993 Government of India enacted an 73rd Constitutional Amendment regarding provisions of Panchayati Raj and in light of that Constitutional Amendment Government of Gujarat enacted amended Panchayati Raj Act from 15th April 1994. By this constitutional amendment, Panchayats are given constitutional status. Regular and timely election, participation of women and backward classes, formation of separate State Election Commission and rotation system in electing the heads of the various committees are other significant amendments in the act. Decentralised planning process and active participation of people is the soul of the Panchayati Raj Act. The powers for decentralised planning, implementation and development are delegated to the Panchayats.

The primary functions of the District/Taluka Panchayats are providing facilities for primary education, health, drinking water, electricity, constructions and maintenance of roads, bridges etc., maintenance of Gauchars, organising relief work at the time of scarcity and drought situation, sanitation and social welfare. Arrangements for housing facilities for below poverty line people and rural development schemes are implemented by Panchayats. Gram Panchayats also implement important programmes like, 'food for work' and other programmes beneficial for the local people. Thus, Panchayats play an important role in the development of village and its economy. There are 13,761 Gram Panchayats in Gujarat State. Out of 798 villages in Bhavnagar district, there are 43 Group Panchayat and 711 independent Gram Panchayats.

(v) Census Concepts :

Building :

A 'building' is generally a single structure on the ground. Sometimes it is made up of more than one component unit which are used or likely to be used as dwellings (residences) or establishments such as shops, business houses, offices, factories, workshops, work sheds, schools, places of entertainment, places of worship, godowns, stores, etc. It is also possible that buildings which have component units may be used for a combination of purposes such as shop-cum-residence, workshop-cum-residence office-cum-residence, etc.

Usually a structure will have four walls and a roof. But in some areas the very nature of construction of houses is such that there may not be any wall. Such is the case of conical structures where entrance is also provided but they may not have any walls. Therefore, such of the conical structures are also treated as separate building.

Permanent Houses :

Houses, the walls and roof of which are made of permanent materials. The Material of wall can be anyone from the following namely Galvanized iron sheets or other metal sheets, Asbestos sheets, burnt bricks, stones or concrete. Roof may be made of from any one of the following materials namely tiles, slate, galvanized iron sheets, metal sheets, asbestos sheets, bricks, stones or concrete.

Semi-permanent Houses :

Houses in which either wall or roof is made of permanent materials and the other is made of temporary material.

Temporary Houses :

Houses in which both walls and roof are made of materials, which have to be replaced frequently. Walls may be made from any one of the following temporary materials, namely, grass, thatch, bamboo, plastic, polythene, mud, unburnt bricks or wood. Roof may be made from any one of the following temporary materials, namely, grass, thatch, bamboo, wood, mud, plastic or polythene.

Dwelling Room :

A room is treated as a dwelling room if it has walls with a doorway and a roof should be wide and long enough for a person to sleep in, i.e., it should have a length of not less than 2 meters and a breadth of at least 1.5 meters and a height of a 2 meters. A dwelling room would include living room, bedroom, dining room drawing room study room, servant's room and other habitable rooms. Kitchen, Bathroom, latrine, Store-room, passage-way and verandah which are not normally usable for living are not considered as dwelling rooms. A room used for multipurpose such as sleeping, sitting, dining, storing, cooking, etc., is regarded as a dwelling room. In a situation where a census houses is used as a shop or office. etc., and the household also stays in it then the room is not considered as a dwelling room. But if a garage or servant quarter is used by a servant and if she/he also lives in it as a separate household then this has been considered as a dwelling room available to the servants household tent or conical shaped hut if used for living by any household is also considered as dwelling room.

A dwelling room which is shade by more than one household has not been counted for any of them. If two household have a dwelling room each but in addition also share a common dwelling room. Then the common room has not been counted for either or of the household.

Census House :

A 'Census House' is a building or part of a building used or recognized as a separate unit because of having a separate main entrance from the road or common courtyard or, staircase, etc. It may be occupied or vacant. It may be used for a residential or non-residential purpose or both.

In certain peculiar situations, the manner in which buildings and census houses were identified for numbering in the field by the enumerators is described hereunder.

Sometimes a series of a different buildings are found along a street which are joined with one another by common walls on either side looking like a continuous structure. These different units are practically independent of one another and are likely to have been built at different times and owned by different persons. In such cases, though the whole structure with all the adjoining units apparently appears to be one building, each portion was treated as a separate building and its constituent units as separate census houses.

On the other hand, one may come across cases, particularly in large cities of multi-storied ownership flats. In these cases while the structure looks like one building, different persons own the flats. In case of such multi-storied structures, having a number of flats owned by different persons, the entire structure was treated as one building and each flat as a separate census house.

If within a large enclosed area, there are separate buildings owned by different persons then each such building is treated as a separate building. There can be a situation where within an enclosed compound there are separate buildings owned by an undertaking or company or even government that are actually in occupation of different persons. For example, Indian Oil Corporation colony where the buildings are owned by the Corporation but these are in occupation of their employees. Each such building was treated as a separate building. But if in any one of these buildings there were flats in occupation of different households, each such flat was reckoned as a separate census house.

Sometimes if becomes difficult to apply the definition of census house strictly in certain cases. For example, in an urban area, if a flat has five rooms, each room having direct entrance from the common staircase or courtyard. By definition, this has to be treated as five census houses. If all these five rooms are occupied by a single household it was not realistic to treat them as five census houses. In such a case, 'singleness' of use of these rooms along with the main house should be considered and the entire flat was treated as one census house. On the other hand, if two independent households occupy these five rooms, the first household living in 3 rooms and the second household occupying 2 rooms, then considering the use, the first three rooms together were treated as one census house and the

remaining rooms as another census house. But if each room was occupied by an independent household, then each such room was treated as a separate census house.

In case of hostels, hotels, etc., even if the door of each room in which an inmate lives opens to a common verandah, staircase, courtyard or a common room, as it happens almost invariably, the entire hostel/ Hotel building was treated as one census house. but if such hostels/ hotels have out- houses or other structures used for different purposes or the same purpose, then each such structure attached to the main hostel/hotel was treated as a separate census house.

In some parts of the country, in rural areas, the pattern of habitation is such that a group of huts, located in a compound, whether enclosed or unenclosed, is occupied by one household. While the main residence may be located in one hut, other huts may be used for sleeping, as a kitchen, bath room, baithak, etc. Though each of the huts was a separates structure, they form a single housing unit and therefore, have to be treated collectively as one building and one census house. If some of the huts are used by one household and the others by a second household as residence, then the two groups of huts were treated as separate census houses. However, if there were also other huts in the compound used for other purposes and not as part of the household's residence such as, cattle shed, work shed, etc., these were treated as separate census houses.

On the other hand, in urban areas, where more than one structure within an enclosed or open compound (premises) belonging to the same person, e.g., the main house, the servant's quarter, the garage, etc., only one building number was given for this group and each of the constituent a separate census house number.

Only cases where a structure with roof and pillars has come up was treated as a building.

Village :

The basic unit for rural areas is the revenue village, which has definite surveyed boundaries. The revenue village may comprise of one or more hamlets but the entire village is treated as one unit for presentation of data.

In unsurveyed areas, like villages within forest areas, each habitation area with locally recognized boundaries is treated as one village.

Town/Urban Area :

The following areas are treated as towns/urban areas :

(a) All places with a municipality, municipal corporation, cantonment board or notified town area committee, etc.

(b) All other places which satisfy or are expected to satisfy the following criteria simultaneously

(i) A minimum population of 5,000;

(ii) At least 75 per cent of the male working population engaged in non-agricultural pursuits; and

(iii) A density of population of at least 400 per square kilometre (1,000 per square mile).

City :

Towns with population of 1,00,000 and above are called cities.

Urban Agglomeration :

An Urban Agglomeration is a continuous urban spread constituting a town and its adjoining urban outgrowths (OGs) or two or more physically contiguous towns together and any adjoining urban outgrowths of such towns. In some cases railway colonies, university campuses, port areas, etc., may come up near a city or statutory town outside its statutory limits but within the revenue limits of a village or villages contiguous to the town or city. Each such individual area by itself may not satisfy the minimum population limit to qualify it to be treated as an independent urban unit but may deserve to be clubbed with the town as a continuous urban spread.

For the purpose of delineation of Urban Agglomerations during Census of India 2001, following criteria are taken as pre-requisites:

(a) The core town or at least one of the constituent towns of an urban agglomeration should necessarily be a statutory town; and

(b) The total population of all the constituents (i.e., towns and outgrowths) of an Urban Agglomeration should not be less than 20,000 (as per the 1991 Census).

With these two basic criteria having been met, the following are the possible different situations in which Urban Agglomerations would be constituted:

(i) a city or town with one or more contiguous outgrowths;

(ii) two or more adjoining towns with their outgrowths; and

(iii) a city and one or more adjoining towns with their outgrowths all of which form a continuous spread.

Household :

A 'household' is usually a group of persons who normally live together and take their meals from a common kitchen unless the exigencies of work prevent any of them from doing so. Persons in a household may be related or unrelated or a mix of both. However, if a group of unrelated persons live in a census house but do not take their meals from the common kitchen, then they are not constituent of a common household. Each such person was to be treated as a separate household. The important link in finding out whether it was a household or not was a common kitchen. There may be one member households, two member households or multi-member households.

Institutional Households :

A group of unrelated persons who live in an institution and take their meals from a common kitchen is called an Institutional Household. Examples of Institutional Households are boarding houses, messes, hostels, hotels, rescue homes, jails, ashrams, orphanages, etc. To make the definition more clearly perceptible to the enumerators at the Census 2001, it was specifically mentioned that this category or households would cover only those households where a group of unrelated persons live in an institution and share a common kitchen.

Houseless Household :

Households who do not live in buildings or census houses but live in the open on roadside pavements, in hume pipes, under flyovers and staircases or in the open in places of worship, mandaps, railway platforms, etc., are treated as Houseless Household.

Scheduled Castes and Scheduled Tribes :

Article 341(1) of the Constitution provides that the President may, with respect to any State or Union territory, specify the castes, races or tribes or parts of or groups within castes, races or tribes which shall for the purposes of the Constitution be deemed to be Scheduled Castes in relation to that State or Union territory. Article 342(1) similarly provides for specification of tribes or tribal communities or parts of or groups within tribes or tribal communities, which are to be deemed for the purposes of the Constitution to be Scheduled Tribes in relation to the various States and Union territories. In pursuance of these provisions, the list of Scheduled Castes and / or Scheduled Tribes are notified for each State and Union territory and are valid only within the jurisdiction of that State or Union territory and not outside.

It is important to mention here that under the Constitution (Scheduled Castes) Order, 1950, no person who professed a religion different from Hinduism was deemed to be a member of a Scheduled Caste in addition to every member of the Ramdasi, Kabirpanthi, Majhabi or Sikligar caste resident in Punjab or Patiala and East Punjab States Union were in relation to that State whether they professed the Hindu or the Sikh religion. Subsequently, in September 1956, by an amendment, the Presidential Order of 1950 and in all subsequent Presidential Orders relating to Scheduled Castes, the Hindu and the Sikh religions were placed on the same footing with regard to the specification of Scheduled Castes. Later on, as per the amendment made in the Constitution (Scheduled Castes) Order 1990, the Hindu, the Sikh and the Buddhist were placed on the same footing with regard to the recognition of the Scheduled Castes.

The lists containing the names of the Scheduled Castes and the Scheduled Tribes applicable for the Census of India 2001 in the State is given below.

List of Scheduled Castes :

1. Ager
2. Bakad, Bant
3. Bawa-Dedh, Dedh Sadhu
4. Bhambi, Bhambhi, Asadaru Asodi, Chamadia, Chamar Chambhar, Chamgar, Haralayya, Harali, Khalpa, Machigar, Mochigar, Madar, Madig, Mochi, Nalia, Telegu Mochi, Kamati Mochi, Ranigar, Rohidas, Rohit, Samgar.
5. Bhangi, Mehtar, Olgana, Rukhi, Malkana, Halalkhor, Lalbegi, Balmiki, Korar, Zadmalli.
6. Chalvadi, Channayya
7. Chenna Dasar, Holaya Desar
8. Dangashia
9. Dhor, Kakkayya, Kankayya
10. Garmatang
11. Garoda, Garo
12. Halleer
13. Halsar, Haslar, Hulasvar, Halasvar
14. Holar, Valhar
15. Holaya, Holer
16. Lingader
17. Mahar, Taral, Dhegu Megu
18. Mahyavansi, Dhed, Dhedh, Vankar, Maru Vankar Antyaj
19. Mang, Matang, Minimadig
20. Mang-Garudi
21. Meghaval, Meghwal, Menghvar
22. Mukri
23. Nadia, Hadi
24. Pasi
25. Senva, Shenva, Chenva, Sedma, Rawat
26. Shemalia
27. Thori
28. Tirgar, Tirbanda
29. Turi
30. Turi Barot, Dedh Barot

Scheduled Tribes :

1. Barda
2. Bavacha, Bamcha
3. Bharwad (In the Nesses of the forests of Alech, Barada and Gir)*
4. Bhil, Bhil Garasia, Dholi-Bhil, Dungri Bhil, Dungri Garasia, Mewasi Bhil, Rawal Bhil, Tadvi Bhil, Bhagalia, Bhilala, Pawra, Vasava, Vasave.
5. Charan (In the Nesses of the forests of Alech, Barada and Gir) *
6. Chaudhri (In Surat and Valsad districts)
7. Chodhara
8. Dhanka, Tadvi, Tetaria, Valvi
9. Dhodia
10. Dubla, Talavia, Halpati
11. Gamit, Gamta, Gavit, Mavchi, Padvi
12. Gond, Rajgond
13. Kathodi, Katkari, Dhor Kathodi, Dhor Katkari, Son Kathodi, Son Katkari
14. Kokna, Kokni, Kukna
15. Koli (In Kachchh district)
16. Koli Dhor, Tokre Koli, Kolcha, Kolgha
17. Kunbi (In The Dangs District)
18. Naikda, Nayaka, Cholivala Nayaka, Kapadia Nayaka, Mota Nayaka, Nana, Nayaka
19. Padhar
20. Paradhi (In Kachchh district)
21. Pardhi, Advichincher, Phanse Pardhi (Excluding Amreli,Bhavnagar, Jamnagar, Junagadh, Kachchh, Rajkot and Surendranagar districts)
22. Patelia
23. Pomla

24. Rabari (In the Nesses of the forests of Alech, Barada and Gir)*
25. Rathawa
26. Siddi (In Amreli, Bhavnagar, Jamnagar, Junagadh, Rajkot and Surendranagar Districts)
27. Vaghri (in Kachchh district)
28. Varli
29. Vitola, Kotwalia, Barodia

* The area comprised of Jamnagar and Junagadh districts.

Language and Mother Tongue :

As per the census concept, each language is a group of mother tongues. The census questionnaire collects information on the mother tongue of each person and mother tongue is defined as the language spoken in childhood by the person's mother to the person. If the mother died in infancy, the language mainly spoken in the person's home in childhood will be the mother tongue. In the case of infants and deaf mutes, the language usually spoken by the mother is considered as mother tongue. It is not necessary that the language spoken as mother tongue should have a script. The mother tongues returned by the respondents in census are classified and grouped under appropriate languages according to their linguistic characteristics.

Literate :

A person age 7 years and above who can both read and write with understanding in any language is taken as literate. A person who can only read but cannot write is not literate. It is not necessary that to be considered as literate, a person should have received any formal education or passed any minimum educational standard. Literacy could also have been achieved through adult literacy classes or through any non-formal educational system. People who are blind and can read in Braille are treated as literates.

Literacy Rate :

Literacy rate of the population is defined as the percentage of literates in the age group seven years and above. For different age groups the percentage of literates in that age group gives the literacy rate.

Educational Level :

The highest level of education a person has completed.

Work :

Work is defined as participation in any economically productive activity with or without compensation, wages or profit. Such participation may be physical and/or mental in nature. Work involves not only actual work but also includes effective supervision and direction of work. It even includes part time help or unpaid work on farm, family enterprise or in any other economic activity. All persons engaged in 'work' as defined above are workers. Persons who are engaged in cultivation or milk production even solely for domestic consumption are also treated as workers.

Reference period for determining a person as worker and non-worker is one year preceding the date of enumeration.

Main Worker :

A person who has worked for major part of the reference period (i.e. six months or more during the last one year preceding the date of enumeration) in any economically productive activity is termed as "Main worker".

Marginal Worker :

A person who worked for less than six months of the reference period (i.e. in the last one year preceding the date of enumeration) in any economic activity is termed as 'Marginal- worker'

Non Worker :

A person who has not worked at all in any economically productive activity during the reference period (i.e. last one year preceding the date of enumeration) is termed as 'Non worker'.

Cultivator :

For purposes of the Census a person is classified as cultivator, if, he or she is engaged in cultivation on land owned or held from government or held from private persons or institutions for payment in money, kind or share. Cultivation includes effective supervision or direction in cultivation.

A person who has given out her/his land to another person or persons or institution(s) for cultivation for money, kind or share of crop and who does not even supervise or direct cultivation in exchange of land, is not treated as cultivator. Similarly, a person working on another person's land for wages in cash or kind or a combination of both (agricultural laborers) is not treated as cultivator.

Cultivation involves ploughing, sowing, harvesting and production of cereals and millet crops such as wheat, paddy, jowar, bajra, ragi, etc., and other crops such as sugarcane, tobacco, ground-nuts, tapioca, etc., and pulses, raw jute and kindred fiber crop, cotton, cinchona and other medicinal plants, fruit growing, vegetable growing or keeping orchards or groves, etc. Cultivation does not include the following plantation crops – tea, coffee, rubber, coconut and betel-nuts (area).

Agricultural Labourer :

A person who works on another person's land for wages in money or kind or share is regarded as an agricultural labourer. She/he has no risk in the cultivation, but merely works on another person's land for wages. An agricultural laborer has no right of lease or contract on land on which she/he works.

Household Industry Worker :

Household industry is defined as an industry conducted by the head of the household herself/himself and or by the members of the household at home or within the village in rural areas and only within the precincts of the house where the household lives in urban areas. The larger proportion of workers in household industry should consist of members of the household including the head. The industry should not be run on the scale of a registered factory which would qualify or has to be registered under the Indian Factories Act and should be engaged in manufacturing, processing, servicing and repairs of goods.

It does not include professions such as a pleader, Doctor, Musician, Dancer, Waterman, Astrologer, Dhobi, Barber, etc. or merely trade or business, even if such professions, trade or services are run at home by members of the household.

Other Worker :

A person who has been engaged in some economic activity during the reference period but not as a cultivator or agricultural laborer or in Household Industry is termed as an 'Other-Worker (OW)'. The type of workers that come under this category of 'OW' include all government servants, municipal employees, teachers, factory workers, plantation workers, those engaged in trade, commerce, business, transport, banking, mining, construction, political or social work, priests, entertainment artists, etc. In effect, all those workers other than cultivators or agricultural laborers or household industrial workers, are 'Other Workers'.

Work Participation Rate :

Percentage of workers (main + marginal) to total population

Population Density :

Population density is the number of persons inhabited per square kilometer of the area.

Age :

Age is measured in terms of the completed number of years.

Sex Ratio :

Numbers of females per 1,000 males in a population.

(vi) Non Census Concepts :

Improved Drinking Water :

If the household had access to drinking water supplied from a tap, hand pump, tube well or well (protected or covered) situated within or outside the premises, it is considered as having access to improved drinking water.

System of Sewerage :

Generally, a sewerage system would mean a network of mains and branches of underground conduits for the conveyance of sewerage to the point of disposal. Sewers that carry only household and industrial wastage are called separate sewers; those that carry storm water from roofs, streets and other surfaces are known as storm water drains, while those carrying both sewage and storm water are called combined sewers. However, in some towns, which are, not provided with such underground sewerage system, it is served by open surface drain, box drain, silk pattern drain, etc., in these towns.

Type of Latrine and Method of Disposal of Night Soil :

There are three prevalent systems of disposal of human wastes, viz.(i) underground sewerage, (ii) sanitary water flush latrines with individual disposal systems, like septic tank, leaching cess pool and collecting well, and (iii) dry type of latrines with manual scavenging.

The system of underground sewerage provides for the street sewerage with which are connected the sanitary latrines constructed in the houses having water closets and fitted with flushing cistern (or hand flushing).

Through this sewer the faucal matter is transported without the need for scavenging. This system generally exists in cities and big towns.

Where the streets sewer does not exist these sanitary water flush latrines are connected to a local septic tank with a sub-soil dispersion system or a leaching pit. Here the liquid wastes from the water closet is disposed of locally in leaching pit, a septic tank with a soil dispersion system is constructed. This dispersion requires an optimum travel through the pores of the soil, which renders the harmful liquid bacterially innocuous by the slow process of filtration through the soil traversed.

Where the soil is impermeable, collecting wells are constructed and the sanitary water flush latrines are connected with them. These wells are cleaned at periodic intervals by a suitable device. The dry type of latrines are of service type latrines from where human excreta is removed by scavengers from house to house, in most cases carrying it on their heads or shoulders or in baskets with handle or wheel barrows. These are then collected in bullock carts or trucks or tractors and trolleys for being carried to the dumping grounds.

Fertility :

In demography, the word fertility is used in relation to the actual production of children or occurrence of births specially lives births. Fertility is a measure of rate at which population adds to itself by births and normally assessed by relating the number of births to a full or part of the population, such as number of married women or number of women of child bearing age. The definitions of the terminology used in computing different fertility rates are mentioned below.

Crude Birth Rate (CBR) :

Ratio of the numbers of live births in a year to the mid year population. (normally expressed per 1,000 population).

$$CBR = \frac{\text{Numbers of live births during the year}}{\text{Mid –year Population}} \text{ X } 1{,}000$$

Crude Death Rate (CDR) :

Ratio of the numbers of deaths in a year to the mid year population, normally expressed per 1,000 populati

$$CBR = \frac{\text{Numbers of live deaths during the year}}{\text{Mid –year Population}} \text{ X } 1{,}000$$

Natural Growth Rate (NGR) :

Natural Growth rate is obtained as the difference between crude birth rate and crude death rate in the absence of migration.

$$NGR = CBR – CDR$$

Age Specific Fertility Rate (ASFR) :

Number of live births in a year to female population in any specified age group normally expressed per 1,000 women.

$$ASFR = \frac{\text{Numbers of live births in a particular age group}}{\text{Numbers female population of same specified age group}} \text{ X } 1{,}000$$

Age Specific Marital Fertility Rate (ASMFR):

Number of live births in a year to married female population in any specified age group normally expressed per 1,000 married women.

$$ASMFR = \frac{\text{Number of live births in a particular age group}}{\text{Mid-year married female population of the same age group}} \text{ X } 1{,}000$$

General Fertility Rate (GFR) :

Number of live births per 1,000 women in the reproductive age-group (15-49) years in a given year.

$$GFR = \frac{\text{Number of live births in a year}}{\text{Mid-year female population in the age-group (15-49) years}} \text{ X } 1{,}000$$

General Marital Fertility Rate (GMFR) :

Number of live births per 1,000 married women in reproductive age-group (15-49) years in a given year.

$$GMFR = \frac{\text{Number of live births in a year}}{\text{Mid-year married female population in the age group (15-49) years}} \text{ X } 1{,}000$$

Total Fertility Rate (TFR) :

It is obtained as the total of the age specific fertility rates (number of children born per woman of the particular age) for the entire reproductive age span. It

provides the average number of children that will be born to a woman under the fertility levels indicated by the age specific fertility rates assuming that there is no mortality of women till the completion of reproductive period.

$$TFR = \frac{5 \times \sum_{15\text{-}19}^{45\text{-}49} ASFR}{1{,}000}$$

Total Marital Fertility Rate (TMFR) :

Average number of children that would be born to a married woman if she experiences the current fertility pattern throughout her reproductive span (15-49) years assuming that there is no mortality of women till the completion of reproductive period.

$$TMFR = \frac{5 \times \sum_{15\text{-}19}^{45\text{-}49} ASMFR}{1{,}000}$$

Age-Specific Mortality Rate (ASMR) :

Number of deaths in a particular age and sex group per 1000 population of the same age group.

$$ASMR = \frac{\text{Number of deaths in a particular age group}}{\text{Mid-year population of the same age group}} \times 1{,}000$$

q1 :

Probability of dying between birth and age 1. This can be used as approximate value of Infant Mortality Rate (IMR) which gives the ratio of number of deaths in a year of children aged less than one year to the number of births in that year.

q2 :

Probability of dying between birth and age 2.

q5 :

Probability of dying between birth and age 5. This indicator is also known as Under Five Mortality Rate (q5MR)

Infant Mortality Rate (IMR) :

Ratio of the number of infant deaths (deaths of children below one year) in a year to the number of live births in that year.

$$IMR = \frac{\text{Number of infant deaths during the year}}{\text{Number of live births during the year}} \times 1{,}000$$

Infant mortality rate comprises of two parts, viz., Neo-natal mortality rate and Post neo-natal mortality rate. The neo-natal mortality rate also comprises of two parts viz., early neo-natal mortality rate and late neo-natal mortality rate. These are defined as :

Neo-natal Mortality Rate (NMR) :

Number of infants dying within the first month of life (28 days or under) in a year per 1,000 live births of the same year.

$$NMR = \frac{\text{Number of infant deaths aged 28 days under during the year}}{\text{Number of live births during the year}} \times 1{,}000$$

Early Neo-natal Mortality Rate : (ENMR)

$$ENMR = \frac{\text{Number of infant deaths of less than 7 days during the year}}{\text{Number of live births during the year}} \times 1{,}000$$

Late Neo-natal Mortality Rate : (LNMR)

$$ENMR = \frac{\text{Number of infant deaths of 7 days to less than 29 days during the year}}{\text{Number of live births during the year}} \times 1{,}000$$

Post check per Post Neo-natal Mortality Rate (PNMR) :

$$PNMR = \frac{\text{Number of deaths of 29 days to less than One year during the year}}{\text{Number of live births during the year}} \times 1000$$

Peri-natal Mortality Rate (PMR) :

Number of stillbirths plus deaths within 1st week of delivery per 1,000 births in a year.

$$PMR = \frac{\text{Number of stillbirths and infant deaths of less than 7 days during the year}}{\text{Number of live births and stillbirths during the year}} \times 1{,}000$$

Stillbirth Rate (SBR) :

$$SBR = \frac{\text{Number of stillbirths during the year}}{\text{Number of live births and still births during the year}} \times 1{,}000$$

Maternal Mortality Rate (MMR) :

Number of deaths of women in the age group 15-49 while pregnant or within 42 days of termination of pregnancy from any cause related to pregnancy and childbirth per 100,000 live births in a given year.

$$MMR = \frac{\text{Number of maternal deaths to women in the age group 15-49}}{\text{Number of live birth}} \times 100{,}000$$

Eligible Couple (Couples per 1000 population):

Number of currently married females in the age group15-44 years per 1,000 persons of all ages.

Child Woman Ratio (0-4) :

1. Number of children in the age group 0-4 years per 1,000 women in the age group 15-49 years.

Child Woman Ratio (5-9) :

2. Number of children in the age group 5-9 years per 1,000 women in the age group 15-49 years.

Migration :

Migration is the third component of population change, the other two being mortality and fertility.

A person is considered as a migrant by place of birth if the place in which he/she is enumerated during the census is other than the place of his/her birth.

Similarly a person is considered as a migrant by place of last residence if the place in which he/she is enumerated during the census is other than his/her place of immediate last residence outside the village or town and not simply in another house or locality in the same village or town.

Certain aspects concerning temporary movement/ migration of people has been explained below as these are important components concerning migration :

(i) Migration of persons in search of job is high in the country. In many cases such migrants are only seasonal in nature. People migrate to other places for work in a particular season and come back again to their usual place of residence after three or four months. All such workers are treated as migrants. Similarly, if a person moved to any other place for attending short term vocational or educational course that lasted for only few months of a year, she/he too were considered as a migrant.

(ii) Where a person had merely gone out to another place or had been shifting from one place to another purely on tour, pilgrimage, visit to hospital for treatment or for temporary business purposes, such persons are not deemed to have had another residence different from the place where she/he or her/his family normally resides. She/he is not considered as migrant.

(iii) A woman temporarily moves into a hospital or to her parents or other relative's house for delivery and if the hospital or the parents/relatives houses is in a place different from usual place of residence, the place where the hospital or parents/relative's house is the place of last residence of the child but not of the mother.

A new response category 'Moved after birth' was added in Census of India 2001 in the question on 'reasons for migration' to bring out additional migration patterns. Natural calamities or distress migration as a reason for migration for last residence migrants included in 1991 Census, is covered under category of 'Others'. The reason for migration has been determined as applicable at the time of migration and not in reference to any point of time after that. For example, if a person had moved from the place of her/his last residence for the purpose of education and subsequently at some point of time got employment there only, the reason for migration would be 'education' and not 'work/employment'.

Internal and International Migration :

The migrational movements are of three types

(i) Migration within the state itself with its components

(a) Migration within the district of enumeration (intra district migration)

(b) Migration from one district of state to another district of state (inter district migration),

(ii) Migration from one state to another State of the country (inter-state migration),

(iii) Migration from one country to another country.

The first two streams together constitute internal migration, while the last type of movement is called international migration. The present name of the country, state or district and not the name by which they were known at the time of her/his birth or last residence were recorded.

Rural-Urban Components of Migration :

Rural or Urban status in respect of migrants had been determined as applicable at the time of migration and not with reference to any point of time after that. The flow of migrants consists of four streams viz. rural to rural, rural to urban, urban to rural and urban to urban.

Civic Status of Urban Units :

Civic Status of a town/city is determined on the basis of Civic Administrative authority of the town e.g., Municipal Corporation/Corpora-tion, Municipal Committee/Municipal council, Municipality etc.

Size Class of UA/Town :

Size-class of UA/Town is based on the population size of the UA/City/Town UAs/Towns with 1,00,000 and above population is classified as Class I UAs./ towns. These Class I UAs./towns are now further sub classified in to seven sub classes namely M1 to M7 depending on the population size of UA/City/Town. These are M7(5,000,000 and above); M6(2,000,000 to 4,999,999); M5(1,000,000-1,999,999) M4(500,000-999,999); M3(300,000-499,999), M2(200,000-299,999) & M1(100,000-199,999). towns with, 50,000 to 99,999 population are classified as Class II towns, 20,000 to 49,999 population are Class III towns, population with 10,000-19,999 are Class IV towns, population with 5,000 and 9,999 are Class V towns and towns with less than 5,000 population are Class VI towns.

Slum Area :

The Slum Areas (Improvement and Clearance) Act, 1956 which was enacted by the Central Govt. defined slums as a) Areas where buildings are in any respect unfit for human habitation; or b) are by reasons of dilapidation, overcrowding, fault arrangement and design of such buildings, narrowness or faulty arrange-ment of streets, lack of ventilation, light or sanitation facilities, or any combination of these factors, are detrimental to safety, health or morals.

Mega City :

The concept of 'Mega city' is a recent phenomenon in the Urban Sociology and is defined in term of metropolitan city in the form of large size, problem of management of civic amenities and capacity to absorb the relatively high growth of population. Indian Census in 1991 treated the population size of 5 million and above as the cut off point to identify a place as the mega city.

Whereas, for the purpose of inclusion in Centrally Sponsored Scheme for Infrastructure Development in Mega cities the Ministry of Urban Affairs and employment, Department of Urban Development adopted the criteria of 4 million and above population as per 1991 Census for Mega Cities. In 2001 Census, cities with 10 millions and above population have been treated as Mega cities.

(vii) 2001 Census findings - Population, its distribution :

(a) Distribution of population in rural-urban areas:

According to the 2001 Census, the total population of Bhavnagar district is 2,469,630 comprising 1,274,920 males and 1,194,710 females. This population of the district forms 4.87 per cent of the State Population and ranks 6th among 25 districts of Gujarat State. Out of the total population of the district 62.1 per cent lives in rural areas while 37.9 per cent lives in urban areas. Rural population of the district is distributed among 11 talukas and urban population is spread over in 13 towns.

The total urban population of the district is 935,038 persons comprising 492,693 males 442,345 females. The total rural population of this district is 1,534,592 persons having 782,227 males and 752,365 females. The rural population is distributed in 790 inhabited villages. There are 8 uninhabited villages in the district.

(b) Size class & status of towns, Population growth, Density, Sex ratio, Work participation rate, Details of Literacy , availability of University education in the District :

The statement below gives the position and number of urban units in size class for 2001 Census.

Sl. No.	Class name and Civic status of Town	Size and class of town	Population
1	2	3	4
1	Alang (CT)	IV	18,475
2	Bhavnagar (MCorp)*	I	517,708
3	Botad (M)	I	100,194
4	Dhola (CT)	V	8,050
5	Gadhada (M)	III	26,754
6	Gariadhar (M)	III	30,526
7	Ghogha (CT)	IV	10,848
8	Katpar (CT)	V	7,044
9	Mahuva (M)*	II	80,726
10	Palitana (M)	II	51,944
11	Sihor (M)	III	46,960
12	Talaja (M)	III	26,104
13	Vartej (CT)	V	9,705

* Town having out growths

According to 1991 Census the total population of the district was 2,069,953. There has been net addition of 399,677 persons during 1991-2001. The decadal growth rate of the district comes to 19.3 per cent. The growth rates for the rural and urban areas are 15.3 per cent and 26.5 per cent respectively. The growth rate of urban population is high in the district. The highest percentage of urban population to total population has been noticed in Bhavnagar taluka where population is increased to 79.6 per cent during the decade.

The population density in Bhavnagar district is 247 persons per sq.km.against the State average of 258 persons.

There are 937 females for every thousand males in Bhavnagar district. The sex ratio figures for rural and urban areas of the district are 962 and 898 respectively. It is also observed that the proportion of females in rural area is higher than that of urban areas. Among the talukas the highest sex ratio of 974 is recorded in Gariadhar taluka and the lowest of 896 is in Talaja taluka. Sex ratio in age group of 0-6 years is 881 females per 1,000 males in the district. In rural areas this ratio is 898 while in urban areas the sex ratio of 0-6 years is 847 females per 1,000 males.

The work participation rate is defined as percentage of total workers to total population. In the same way it is defined for main workers and marginal workers. According to 2001 Census in Bhavnagar district total workers including main and marginal workers are 38.2 per cent of total populations. Out of total workers main workers are 31.6 per cent of the district population and marginal workers are 6.6 per cent. The remaining 61.8 per cent are non-workers. Among main workers male main workers are 50.8 per cent and female main workers are 11.2 per cent. The male and female proportions for marginal workers are 2.6 per cent and 10.9 per cent respectively. The proportion of female marginal workers is higher than male marginal workers and the fact that females are attending one or more economic activities in addition to their household duties to increase their family income.

A person who can read and write in any language with understanding is literate as per 2001 Census. All children of age below 7 years are treated as illiterate. As per 2001 Census 1,368,920 persons are literate constituting 66.2 per cent of population. The proportion of male and female literates in the district is 78.0 per cent and 53.7 per cent respectively which indicates that the literacy rate among males is significantly higher than the female literacy rates. The gap between the literacy rate among males and females is 24.3 percentage points.

There are 18 colleges in Bhavnagar district comprising several arts, commerce and science colleges. These also include one medical college, one engineering college, one pharmacy college, one homeopathy, one pharmacy and two ayurved colleges. Besides above, well known institute of Lokbharti is in Sanosara which is famous for providing education with Gandhian philosophy.

Religion:

Religion forms an integral part of Indian Social system. In the pre-Independence census reports, the data on religions was being presented for 9 major religions viz. Hindu, Muslim, Tribals, Christian, Sikh, Jain, Buddhist, Parsi, Jew and others. However, since the 1951 census the data on religion has been presented for 6 major religions viz. Hindu, Muslim, Christian, Sikh, Jain and Buddhist. Besides, the minor religions have been classified under the category of 'other'. The data on religion collected and presented by the Indian Census is the basic data of intense use for the 'researchers', anthropologists, sociologists, demographers, administrators, planners and even for a common man.

In 2001 the Indian Census collected the religion data in question No.7 of the Household Schedule and recorded the same under the six major religions. Other religions were recorded in actual as returned by the respondent and classified under the category of 'others'. Religion not stated has been added for those persons who have not stated their religion at the time of canvassing the status of religion.

Religionwise comparative data of Gujarat State and Bhavnagar district is presented below.

Percentage distribution of population by major religions in Gujarat State and Bhavnagar District in 2001 Census

Sl. No.	Religion	Gujarat		Bhavnagar	
		Population	Percentage	Population	Percentage
1	2	3	4	5	6
1	Hindu	45,143,074	89.1	2,264,062	91.7
2	Muslim	4,592,854	9.0	172,740	7.0
3	Christian	284,092	0.6	1,796	0.1
4	Sikh	45,587	0.1	891	0.0
5	Buddhist	17,829	0.0	59	0.0
6	Jain	525,305	1.0	28,921	1.2
7	Other	28,698	0.1	126	0.0
8	Religion not stated	33,578	0.1	1,035	0.0

Source : Census of India, 2001.

As many as 91.7 per cent of Hindus has been returned in the district followed by Muslims (7.0 per cent), Jains (1.2 percent) and Christians (0.1 per cent).The percentage shares of Sikhs, Buddists, other religions and religions not stated are negligible.

The pattern of distribution of the population of major religious community between rural and urban areas of Bhavnagar district is as under according to 2001 Census.

Religion	Number of Followers	Population	
		Rural	Urban
1	2	3	4
Hindu	2,264,062	1,490,754 (65.8)	773,308 (34.2)
Muslim	172,740	39,938 (23.1)	132,802 (76.9)
Christian	1,796	496 (27.6)	1,300 (72.4)
Sikh	891	54 (6.1)	837 (93.9)
Buddhist	59	5 (8.5)	54 (91.5)
Jain	28,921	2,851 (9.6)	26,070 (90.4)
Other	126	0 (0.0)	126 (100.0)
Religion not stated	1,035	494 (47.7)	541 (52.3)

Source : Census of India, 2001.
Note : Percantages are in brackets

The religion data of 1991 census was based on the religion of the head of household; whereas the said data of 2001 Census is based on the individual information.

TABLE 1

* Recasted Population

Table 1 details the decadal change in population of taluka by residence during the decade of 1991-2001 along with percentage of urban population of last two censuses. During the decade 1991-2001 Bhavnagar district has recorded population growth of 19.3 per cent. Among talukas Botad has recorded the highest decadal growth of 33.5 per cent and Vallabhipur taluka has recorded the lowest decadal growth of only 0.1 per cent. In rural areas Botad has recorded highest growth rate of 30.6 per cent while Gariadhar taluka has recorded negative growth of (-4.4) percent and Gadhada has recorded 11.9 per cent of growth during 1991-2001, which is the lowest. In urban areas the highest decadal growth of 148.1 per cent is recorded in Talaja taluka while the lowest decadal growth of 15.2 per cent is recorded in Ghogha taluka. Besides, in urban areas Vallabhipur and Umrala talukas have recorded negative growth of -100 percent and -51.5 percent respectively. The proportion of urban population was 35.7 per cent in 1991 Census, which has increased to 37.9 per cent in 2001 Census.

TABLE 2
NUMBER AND PERCENTAGE OF INHABITED VILLAGES IN SPECIFIED POPULATION SIZE RANGES WITH THE RELATED POPULATION, 2001

Table 2 details the number and percentage of inhabited villages in specified population size ranges with related population. It can be seen from the table that out of 790 villages 19 villages (2.4 per cent) have population of less than 200, 58 villages (7.3 per cent) have population of 200 to 499 and 169 villages (21.4 per cent) are in the population range of 500 to 999. There are 295 villages (37.3 per cent) having the population range of 1000 to 1999 and 204 villages (25.8 per cent) with population range of 2,000 to 4,999. 40 (5.1 per cent) and 5 (0.6 per cent) villages are having the population ranges of 5,000 to 9,999 and population of 10,000 and above respectively.

Population Density (Rural) of the district : 199

Table 4 shows distribution of inhabited villages by population density as per 2001 Census. The inhabited villages of the district are grouped under eight ranges of population density. Out of 790 villages 295 villages (37.3 per cent) are having the density range of 101-200 with 29.8 per cent of population. There are 195 villages (24.7 per cent) in range of 201-300 and 133 villages (16.8 per cent) in the range of 301-500 with 27.7 per cent and 26.2 per cent of population respectively. There are only 38 villages in the density range of 501 and more with 10.3 per cent of population. There are 43 villages in ranges of 0-50 with 1.3 per cent of population. Density range of 51-100 has been recorded in 86 villages with 4.6 per cent population

TABLE 5
SEX RATIO OF STATE AND DISTRICT, 1901-2001

Census	Gujarat State			Bhavnagar District		
Year	Total	Rural	Urban	Total	Rural	Urban

1991	934	949	907	944	949	935
2001	920	945	880	937	962	898

Table 5 shows sex ratio of State and Bhavnagar district during the Census years of 1901 to 2001. The district sex ratio is 937 females per 1000 males against state sex ratio of 920 as per 2001 Census.In Bhavnagar district during 1901 to 2001 the highest sex ratio of 955 was recorded in the year of 1951 while the lowest sex ratio of 936 was recorded in 1961. As regards urban and rural sex ratio of the district the respective figures are 962 females and 898 females per 1000 males for 2001 Census.

TABLE 6
SEX RATIO BY TALUKAS, 2001

Sl.	Name of Taluka	Sex ratio		
No.		Total	Rural	Urban
1	2	3	4	5
1	Botad 931	956	899	
2	Vallabhipur	947	947	-
3	Gadhada955	961	926	
4	Umrala 937	939	918	
5	Bhavnagar	918	928	916
6	Ghogha947	937	1,013

9	Palitana960	967	939	
10	Talaja 896	977	570	
11	Mahuva976	985	945	
	District Total:	**937**	**962**	**898**

Table 6 shows sex ratio by taluka. The highest sex ratio of 976 females per 1000 males is recorded in Mahuva taluka, closely followed by Gariadhar taluka with sex ratio of 974 females per 1000 males. The lowest sex ratio of 896 is recorded in Talaja taluka. In rural areas the highest sex ratio of 993 females per 1000 males is recorded in Gariadhar taluka and the lowest sex ratio of 928 females per 1000 males has been noticed in Bhavnagar taluka. In urban areas the highest sex ratio of 1,013 is seen in Ghogha taluka and the lowest sex ratio of 570 is noticed in Talaja taluka. It is interesting to note that except urban area of Ghogha all other urban areas have reported lower sex ratio as compared to rural areas of respective talukas.

TABLE 7
SEX RATIO BY TALUKAS / C.D. BLOCKS, 2001

Sl. No.	Name of Taluka / C.D.Block	Sex Ratio
1	2	3
1	Botad	956

District Total :	**790**	**100.0**	**1,534,592**	**100.0**
Sex ratio (Rural) for District:		**962**		

Table 8 details the sex ratio of rural population by ranges. Out of 790 inhabited villages 269 (34.1 per cent) villages with 40.5 per cent of population are in the sex ratio range of 950-999 followed by 215 (27.2 per cent) villages with 30.1 per cent of population having the range of 900-949. There are 190 (24.1 per cent) villages in the range of 1000-1099 having 20 per cent of population and 21 (2.7 per cent) villages with 1.1 per cent of total population have the highest population range of 1100 and more. As many as 69 (8.7 per cent) villages with 5.4 per cent of population are having the population range of 850-899. As far as other ranges are concerned, 17 villages (2.2 per cent) with 2.1 per cent population, 3 villages (0.4 per cent) with 0.5 per cent population are having the sex ratio ranges of 800-849 and 750-799 respectively. There are only 6 (0.8 per cent) villages with 0.2 per cent population in the sex ratio range of less than 700.

Sex ratio (Urban) for the district : 898

UA = Urban Agglomeration

Table 9 details the sex ratio of urban agglomerations/towns. The district (urban) sex ratio is 898 females per 1,000 males. Among UA/towns of the district Ghogha (CT) has the highest sex ratio of 1,013 and Alang (CT) has the lowest sex ratio of 226 females per 1,000 males. Sex ratio varies between 882 and 960 among the remaining UA/Towns.

Table 14 gives number and percentage of Scheduled Castes and Scheduled Tribes population in talukas as per 2001 Census. The total population of district is 2,469,630, out of that 142,128 (5.8 per cent) persons belong to Scheduled Castes and 7,298 (0.3 per cent) persons belong to Scheduled Tribes. In rural areas the percentage of Scheduled Castes and Scheduled Tribes population is 5.7 per cent and 0.2 per cent respectively whereas in urban areas the proportion for the same is 5.9 and 0.5 per cent respectively. It can be seen that urban areas have more population of Scheduled Castes and Scheduled Tribes both in absolute terms and in their proportion. Among talukas Gariadhar has the highest of 9 per cent Scheduled Castes population and the lowest of 2.7 per cent Scheduled Castes population is recorded in Ghogha taluka. As regards Scheduled Tribes population Bhavnagar Taluka has the highest Scheduled Tribes population having 4,028 persons (0.6 per cent) while the lowest of 39 Scheduled Tribes population (0.1 per cent) have been noticed in Vallabhipur taluka. The population of Scheduled Tribes is significantely low in all the talukas of the district as compared to the population of Scheduled Castes.

	District (Rural) Total:	**1,534,592**	**87,207**	**2,377**	**5.7**	**0.2**

Table 15 gives the detail of number and percentage of Scheduled Castes and Scheduled Tribes population in C.D. Blocks as per 2001 Census. The total rural population of district is 1,534,592 out of which the Scheduled Castes population is 87,207 and Scheduled Tribes population is 2,377. In percentage terms 5.7 per cent of population belongs to Scheduled Castes and only 0.2 per cent population belongs to Scheduled Tribes. Sihor taluka has Scheduled Castes population of 11,962 persons, which is the highest and the lowest Scheduled Castes population of 2,072 persons are recorded in Ghogha. The highest and lowest populations of Scheduled Tribes are recorded in Bhavnagar taluka for 704 persons and Vallabhipur taluka for 39 persons respectively. Only 0.2 per cent of Scheduled Tribes population has been netted against the 5.7 per cent Scheduled Castes population in the rural areas of the district.

TABLE 16

PROPORTION OF SCHEDULED CASTES POPULATION TO TOTAL POPULATION IN VILLAGES, 2001

Percentage range of Scheduled Castes Population to Total Population	Number of Villages	Percentage	Scheduled Castes Population	Percentage

District Total:	**790**	**100.0**	**87,207**	**100.0**

Table 16 shows number of villages according to the proportion of Scheduled Castes population to total population in different ranges of percentage. Out of 790 villages 133 villages (16.8 per cent) do not have any Scheduled Castes population. 310 villages (39.3 per cent of total villages) with Scheduled Castes population of 20.9 per cent are having the percentage range of Scheduled Castes population of less than 5

and 228 villages (28.9 per cent) with 44.5 per cent of Scheduled Castes population are having the percentage range of 5-10 per cent. There are 97 villages (12.3 per cent) with 27.1 per cent Scheduled Castes population in percentage range of 11-20. 19 villages (2.4 per cent) with 5.8 per cent of Scheduled Castes population are in the percentage range of 21-30. There is no village in the percentage range of 31-40 and there is only 1 village having less than one per cent Scheduled Castes population in each percentage range of 41-50, 51-75 and 76 and above of Scheduled Castes population to total population.

TABLE 17

PROPORTION OF SCHEDULED TRIBES POPULATION TO TOTAL POPULATION IN VILLAGES, 2001

Percentage Range of Scheduled Tribes Population to Total Population	Number of Villages	Percentage	Scheduled Tribes Population	Percentage
1	2	3	4	5
Nil	654	82.8	0	0.0

District Total:	**790**	**100.0**	**2,377**	**100.0**

Table 17 gives the detail about the number of villages according to the proportion of Scheduled Tribes population to total population in 9 different percentage ranges of Scheduled Tribes population to total population.

Populations of 2,377 in Scheduled Tribes have been netted in the district. Out of 790 villages 654 villages (82.8 per cent) do not have any Scheduled Tribes population.131 villages (16.6 per cent) with 68.6 per cent of Scheduled Tribes population are in the percentage range of less than 5. There are 4 villages (0.5 per cent) with 16.3 per cent of Scheduled Tribes population in the percentage range of 5-10 and one village (0.1 per cent) with 15.1 per cent population is in the percentage range of 11-20. There is no village having Scheduled Tribes population in the remaining 5 percentage ranges of Scheduled Tribes population to total population.

UA = Urban Agglomeration

Table 18 gives number and percentage of Scheduled Castes and Scheduled Tribes population in UA/Towns. Scheduled Castes and Scheduled Tribes populations are 54,921 and 4,921 respectively in the urban areas of the district. 5.9 per cent Scheduled Castes population and 0.5 per cent Scheduled Tribes population to total population have been noticed in urban population.

Bhavnagar UA has the highest Scheduled Castes population of 29,462 (5.7 per cent) persons and the highest Scheduled Tribes population of 3,307 (0.6 per cent) persons. The lowest of 11 persons (0.2 per cent) in Scheduled Castes population is registered in Katpar (CT) while the lowest of 17 persons (0.2 per cent) in Scheduled Tribes population in Vartej (CT).

TABLE 19

SEX RATIO AMONG SCHEDULED CASTES AND SCHEDULED TRIBES IN TALUKAS / C.D. BLOCKS 2001

Sl. No.	Name of Taluka / C. D. Block	Scheduled Castes Sex Ratio	Scheduled Tribes Sex Ratio

Table 21 gives number and percentage of literates and illiterates by talukas. The literacy rate is worked out by excluding the population of age group 0-6 year. It can be seen that the district literacy rate is 66.2 per cent. In rural areas this rate is 58.7 per cent and in urban areas the same is 78 per cent. As regards male and female literacy 78 per cent of males and 53.7 per cent of females are literates. This indicates a gap of 24.3 percentage points in male-female literacy rate. Among talukas Bhavnagar taluka has the highest literacy rate of 77.1 per cent while the lowest literacy rate of 57.2 per cent is recorded in each talukas Talaja and Mahuva.The highest gap of 30.1 percentage points literacy rate between male and female has been registered in Mahuva taluka while the lowest of 18.2 percentage points has been seen in Bhavnagar taluka.

TABLE 22

Table 22 gives number and percentage of literates and illiterates by sex in C.D. Blocks. The district (rural) literacy rate is 58.7 per cent. In rural area the male literacy rate is 72.9 per cent and female literacy rates is 44.2 per cent leaving a gap of 28.7 percentage points between two genders. Among C.D. Blocks Umrala has the highest rural literacy rate of 66 per cent and Mahuva has the lowest of 52.1 per cent.

TABLE 23

DISTRIBUTION OF VILLAGES BY LITERACY RATE RANGE, 2001

Range of Literacy Rate for Villages	Number of Inhabited Villages	Percentage Distribution of Villages	Population	Percentage Distribution of Population
1	2	3	4	5
0	1	0.1	5	0.0
1-10	0	0.0	0	0.0
11-20	3	0.4	1,122	0.1
21-30	11	1.4	10,466	0.7
31-40	44	5.6	74,222	4.8
41-50	127	16.1	218,226	14.2
51-60	270	34.2	526,624	34.3
61-70	262	33.2	550,953	35.9
71-80	68	8.6	150,882	9.8
81-90	3	0.4	2,083	0.1
91-99	0	0.0	0	0.0
100	1	0.1	9	0.0
District Total:	**790**	**100.0**	**1,534,592**	**100.0**

Table 23 gives the distribution of villages by 12 literacy rate ranges. Out of 790 villages 270 villages having 34.3 per cent of population are in the literacy rate range of 51-60, closely followed by 262 villages with 35.9 per cent of population in the literacy range of 61-70. There are 127 villages in the literacy range of 41-50 with 14.2 per cent of population and 68 villages with 9.8 per cent of population are in the literacy range of 71-80. As many as 44 villages with 4.8 per cent of population are in the range of 31-40 and 11 villages that have 0.7 per cent of populations are in the literacy range of 21-30. There is no village in the literacy range of 1-10 and 91-99. There is one village having literacy range of 0. There is one village with 100 per cent literacy range. There are 3 villages in each literacy range of 11-20 and 81-90 each having only 0.1 per cent of population.

81-90	14	2.1	1,346	1.5
91-99	2	0.3	98	0.1
100	4	0.6	14	0.0
District Total:	**657**	**100.0**	**87,207**	**100.0**

Table 26 shows distribution of villages in 12 different ranges of literacy rates for Scheduled Castes population. It can be seen that there is no literate Scheduled Castes in 8 villages having only 43 Scheduled Castes population. Out of 657 inhabited villages with Scheduled Castes population, 210 villages (32 per cent of villages) having 37.3 per cent of population have literacy rate range of 61-70 followed by 170 villages (25.9 per cent) in literacy range of 51-60 having 30.4 per cent population. The higher literacy rate ranging from 71 to 100 have total of 102 villages (15.5 per cent) with 15.9 per cent population. As many as 94 villages are in the literacy rate range of 41-50 and 73 villages are in the literacy range of 1 to 40 per cent. It can be observed that 4 villages with Scheduled Castes population of 14 persons have 100 per cent literacy.

Table 28 gives detail about number and percentage of Scheduled Tribes literates and illiterate in C.D. Blocks. As many as 51.8 per cent of total Scheduled Tribes rural population is literate in Bhavnagar district. As many as 63 per cent of Scheduled Tribes males and 38.4 per cent of Scheduled Tribes females are literates showing literacy rate gap of 24.6 percentage points. Vallabhipur C.D.Block has the highest literacy rate of 93.1 per cent in Scheduled Tribes population while Ghogha taluka C.D.Block has registered the lowest literacy rate of 29.5 per cent among Scheduled Tribes population. Very low population of Scheduled Tribes has been observed in the district as compared to Scheduled Castes population with wide gapage in literacy rates among males and females.

TABLE 29

DISTRIBUTION OF VILLAGES BY LITERACY RATE RANGE FOR SCHEDULED TRIBES POPULATION, 2001

Range of Literacy Rate for Villages	Number of Inhabited Villages	Percentage Distribution of Villages	Scheduled Tribes Population	Percentage Distribution of Population

Literacy rate for District (Rural):		**51.8**		

Table 29 gives the detail about the distribution of villages by 12 literacy rate ranges for Scheduled Tribes population. Out of 136 villages 8 villages with Scheduled Tribes population of 50 persons do not have any literate indicating 0 per cent literacy. The lower literacy rate of 1 to 50 per cent is observed in total of 32 villages having Scheduled Tribes population of 55.9 per cent. There are 5 villages in each of the literacy rate ranges of 51-60 and 61-70 having total of 10.2 per cent of Scheduled Tribes population. The higher literacy rate range of 71-99 is observed in total of 25 villages with 18.9 per cent Scheduled Tribes population in the district. As many as 61 villages with 13 per cent of Scheduled Tribes population have cent percent literacy among Scheduled Tribes.

Table 30 gives the detail about number and percentage of Scheduled Tribes literates and illiterates in urban areas of the district. Scheduled Tribes literacy rate in urban areas of the district is 67.8 per cent. Among males and females 78.9 per cent of Scheduled Tribes males and 55.2 per cent of Scheduled Tribes females are literate showing a literacy rate gapage of 23.8 percentage points. Gadhada (M) has shown the highest literacy rate of 94.3 per cent in Scheduled Tribes literacy rate, while the lowest of 53.3 per cent literacy rate among Scheduled Tribes is recorded in Mahuva (M+OG). The gap between male and female literacy rate shows wide variation ranging from 4.2 percentage points to 49.0 percentage points in the district.

Table 31 shows absolute number and percentage of main workers marginal workers, non-workers and total workers by sex at taluka level in the district as per 2001 Census. It can be observed that total workers are 38.2 per cent of total population. Among them main workers are 31.6 per cent and marginal workers are 6.6 per cent. The remaining 61.8 per cent of population are non-workers. Among main workers 50.8 per cent are males and 11.2 per cent are females. The proportion of male marginal workers to male workers is 2.6 per cent and female marginal workers is 10.9 per cent. As females are engaged in more than one activities besides their usual household duties, so their proportion in marginal work is higher than the male marginal workers. Talaja has the highest proportion of total workers with 45.2 per cent while the lowest of 32.8 per cent workers have been registered in Bhavnagar Taluka.

Table 32 gives the detail about talukawise absolute number and percentage of main workers, marginal workers and total workers for rural population of the district. As much as 42.1 per cent of rural population is worker and out of total workers 32.7 per cent are main workers, and 9.4 per cent are marginal workers. The remaining 57.9 per cent are non-workers. Sex wise break up shows that 50.2 per cent of males and 14.4 per cent of females are main workers, while 3.3 per cent of males and 15.8 per cent of females are marginal workers showing the higher participation rate of female in marginal work. Similar trend has also been observed at taluka level also. Botad has the highest of 44.9 per cent workers and Palitana has the lowest of 38.6 per cent workers.

UA = Urban Agglomeration

Table 33 shows the absolute number with percentage of main workers, marginal workers, non-workers and total workers for urban population by sex at UA/Towns level in Bhavnagar district. As much as 31.9 per cent of urban population is workers to total population. The proportion of male and female workers to total population are 53.3 per cent and 8.1 per cent respectively and the proportions of main and marginal workers are 29.9 per cent and 2 per cent respectively. Main workers are 51.7 per cent in males whereas female main workers are 5.7 per cent. As regards marginal workers the corresponding proportions of males and females are 1.6 per cent and 2.4 per cent only. Alang (CT) has the highest proportion of 74.9 per cent workers while the lowest of 29.5 per cent workers is recorded in Mahuva (M+OG).

Note: Percentage of Workers to total workers are given in brackets

Table 34 reveals distribution of workers by sex in four categories of Economic activity in talukas as per 2001 Census. As table shows total workers including (main and marginal workers) are 38.2 per cent of total population. 22.5 per cent of total workers are cultivators, 22.3 per cent are Agricultural labourers, 4.5 per cent are Household Industry workers and 50.7 per cent are other workers. The proportion of cultivators varies between the highest of 33.5 per cent recorded Talaja taluka and the lowest of 6.0 recorded in Bhavnagar taluka. The proportion of Agricultural labourer varies between 35.8 per cent recorded in Mahuva taluka and 6.1 per cent in Bhavnagar taluka. The proportion of Household industry workers is comparatively very low in the district. Other workers are 50.7 per cent of total workers, indicating that enough employment is not generated in other activities except other work. The highest proportion of 85.9 per cent of other workers is recorded in Bhavnagar taluka and the lowest of 30.8 per cent in Talaja taluka. Female work participation in cultivators and Agricultural labour is more as compared to male work participation in the district.

Note: Percentage of Workers to total workers are given in brackets

Table 35 gives the detail about talukawise distribution of workers by sex in four categories of Economic activity in rural areas. As the table shows total workers including main + marginal are 42.1 per cent of rural population in the district. Among these workers 32.2 per cent are cultivators, 31.6 per cent are agricultural labourers, 4.7 per cent are household industry workers and 31.5 per cent are other workers. Females' participation in cultivators and agricultural labour is higher than that of males. In cultivators male participation is 31.8 per cent whereas female participation is 33 per cent. In agricultural labour against 21.2 per cent of male participation, female participation is as high as 50.8 per cent.

In household industries work and other work male participation is higher than that of female participation. At taluka level proportion of cultivators varies from 20.9 per cent in Vallabhipur to 40.1 per cent in Talaja. The highest of 42.4 per cent of agricultural labourers is recorded in Mahuva while the lowest of 22.3 per cent is in Umrala taluka.

UA = Urban Agglomeration

Table 36 details the distribution of workers by sex in four categories of Economic activities in UA/Towns of the district. In the urban areas total workers are 31.9 per cent in total population. Among these workers cultivators constitute 1.5 per cent, Agricultural labourers 2.1 per cent, Household industry workers 4.0 per cent and other workers 92.4 per cent. Thus, it indicates that other work which is commercially viable and plays a major role in providing employment to the working force of urban population. Bhavnagar (UA) has the highest percentage of other worker i.e. 97.6 per cent and the lowest of 53 per cent is recorded in Gariadhar (M).

Note: - Percentages are given in brackets.

* Based on the improved drinking water source, drinking water supply has been classified as 'Improved ' or otherwise. If the household has access to drinking water supplied from a tap or a hand pump / tube well situated within or outside the premises it is considered as having access to 'Improved drinking water source'.
However, the concept of improved drinking water is state specific and this is to be considered accordingly.

\# Post office includes Post office, telegraph office and Post and telegraph office.

$ Transport communication includes bus service, rail facility and navigable waterways.

The village directory data supplied by the village officials are presented in Part-A of this handbook. It shows various types of amenities and land use data in each village of the district. These data have been tabulated for taluka of the district in the form of village directory. On the basis of these data certain tables have been designed and brief analytical note thereon is given below.

Table 37 shows the talukawise distribution of villages according to availability of different amenities. Out of 790 inhabited villages in the district 786 (99.5 per cent) villages have at least one primary school. Only 4 villages do not have any type of educational facility. Medical facility of one or another kind is available in 526 (66.6 per cent) villages. 772 (97.7 per cent) villages have improved drinking water facility either of a tap, well, tank, tube-well, river or canal etc. Out of 790 villages 504 (63.8 per cent) villages have Post Office, 453 (57.3 per cent) have Telephone, 759 (96.1 per cent) have Transport Communication. Only 78 (9.9 per cent) villages have Banks. 564 (71.4 per cent) villages have Agricultural Credit Society and 690 (87.3 per cent) villages have approached by Pucca Road. As far as Power Supply is concerned 789 (99.9 per cent) villages have such facility and only 1 village does not have such facility of Power supply.

Note : - Percentages are given in brackets.

* Based on the improved drinking water source, drinking water supply has been classified as 'Improved ' or otherwise. If the household has access to drinking water supplied from a tap or a hand pump / tube well situated within or outside the premises it is considered as having access to 'Improved drinking water source'.

However, the concept of improved drinking water is state specific and this is to be considered accordingly.

Post office includes Post office, telegraph office and Post and telegraph office.

$ Transport communication includes bus service, rail facility and navigable waterways.

Table 38 gives the detail about the number and percentage of rural population served by different amenities. Out of total rural population of 1,534,592 persons 1,534,547 i.e. 99.99 per cent persons have educational facilities of one or other type. As far as other facilities are concerned 1,261,059 persons or 82.2 per cent have medical facilities. 1,497,924 persons i.e. 97.6 per cent of the total population have the facilities of improved drinking water. Facilities of Post office are available to 1,237,664 (80.7 per cent) persons while 1,094,192 (71.3 per cent) persons have Telephone facilities. Transport Communication facilities are available to 1,501,598 (97.8 per cent) persons and 395,578 (25.8 per cent) persons have banking facilities. Facilities of Agricultural Credit Societies are available to the population of 1,296,507 (84.5 per cent) and 1,428908 persons or 93.1 per cent of total population are provided with the facilities of approach by Pucca Roads. Out of total population of 1,534,592 persons 1534,569 (i.e. almost 100 per cent) persons have facilities of Power Supply.

Except population of 23 persons in Talaja taluka all the people have Power Supply facilities. It can be observed that education facility is not available to 22 persons in Vallabhipur, 5 persons in Bhavnagar and 18 persons in Mahuva taluka. Remaining 99.99 per cent population have education facilities.

TABLE 39

DISTRIBUTION OF VILLAGES NOT HAVING CERTAIN AMENITIES, ARRANGED BY DISTANCE RANGES FROM THE PLACES WHERE THESE ARE AVAILABLE, 2001

Sl. No.	Village Not Having the Amenity of	Distance Range of Place from the Villages where the Amenity is Available			
		Less than 5 Kilometres	5-10 Kilometres	10+ Kilometres	Total (Col. 2-4)
1	2	3	4	5	6
1	Education :-				
	(a) Primary School	3	1	0	4
	(b) Middle School*	0	0	0	0
	(c) Degree College	31	84	673	788
2	Medical:-

	(b) Co-operative Bank	180	270	296	746
7	Agricultural Credit Societies	135	53	38	226

Note : *In Gujarat state, the levels of education are classified as under
(i) Primary school (from std. I to VIII passed)
(ii) Secondary / Matriculation (from std. VIII to X passed)
(iii) Higher Secondary (from std. X to XII passed) Hence, the details under 1 (b) are not shown.

Table 39 shows distribution of villages not having certain amenities arranged by distance range from the places where these are available.It can be seen that 3 villages have Primary Schools and 31 villages have Degree College within area of 5 km. while 1 village has Primary School and 84 villages have College at a distance of 5-10 km. 673 villages have College at a distance of 10+ km. As far as medical facility is concerned 70 villages have Hospital and 189 villages have Primary Health Centre within 5 km.162 villages have Hospital and 267 villages have Primary Health Centre at a distance between 5-10 km. while 545 villages have Hospital and 288 villages have Primary Health Centre at a distance of 10+ km. 201 villages have Post Office, 113 have Telephone and 24 villages have Bus service at a distance of less than 5 km. As regards banking facility 212 villages have Commercial Banks and 180 have Co-operative Banks within 5 km. 135 villages have Agricultural Credit Society at a distance of less than 5 km. Commercial banks for 252 villages, Co-operative Bank for 296 villages and Agricultural Credit Society for 38 villages are available at a distance of 10+ km.

TABLE 40

DISTRIBUTION OF VILLAGES ACCORDING TO THE DISTANCE FROM THE NEAREST STATUTORY TOWN AND AVAILABILITY OF DIFFERENT AMENITIES, 2001

Distance Range from the Nearest Statutory Town (in Kilometres)	Number of Inhabited Villages in each Range	Type of Amenity Available

Post office includes Post office, Telegraph office and Post and telegraph office.
$ Transport communication includes bus service, rail facility and navigable waterways.

Table 40 villages are distributed according to four ranges of the distance from the nearest town along with number of villages and availability of different amenities. Out of 790 inhabited villages 29 villages are at a distance of less than 5 km. All these villages have education facilities and only one village does not have approach by Pucca road. Out of these 29 villages 19 have medical amenities, 17 village have Post Offices, 21 have the amenities of Telephones, 24 have Transport Communication and 21 have Agricultural Credit Societies. No village in this range has banking facilities. Out of 790 villages, 390 villages are situated at a distance of 5 to 15 km. from the nearest statutory town. Out of these 390 villages 389 villages have facilities of education, 247 villages have facilities of Medical, 253 villages have Post Offices, 231 villages have Telephones, 376 villages have a transport and communications,44 villages have banking facilities, 275 villages have Agricultural Credit Societies and 348 villages have Approach by Pucca Roads. As many as 369 villages are located at a distance of 16 km. but less than 51 km. from the nearest statutory town. Out of these 369 villages 366 villages have Educational facilities, 258 have Medical facilities, 233 have Post Offices, 200 have Telephones, 357 have Transport Communication facilities, 34 have banks, 267 have Agricultural Credit Societies and 312 villages have Approach by Pucca roads. Only 2 villages are in the range of 51 or more kilometres from the nearest statutory town. No village in this range has banking facilities and 1 village has facility of Post Office, Telephone and Agricultural Credit Society. All these 2 villages have cent percent facilities of Education, Medical, Transport Communication and Approach by Pucca roads.

TABLE 41

DISTRIBUTION OF VILLAGES ACCORDING TO POPULATION RANGE AND AMENITIES AVAILABLE, 2001

\# Post office includes Post office, Telegraph office and Post and telegraph office.

$ Transport communication includes bus service, rail facility and navigable waterways.

* Based on the improved drinking water source, drinking water supply has been classified as 'Improved ' or otherwise. If the household has access to drinking water supplied from a tap or a hand pump / tube well situated within or outside the premises it is considered as having access to 'Improved drinking water source'. However, the concept of improved drinking water is state specific and this is to be considered accordingly.

Table 41 shows distribution of villages according to 6 different types of population ranges and amenities available. There are 5 villages in the population range of 10,000 and more. These 5 villages have all the amenities available except one village, which does not have banking facilities. There are 40 villages in range of 5,000-9,999 and all these 40 villages have facilities of Educational, Medical, Transport Communication, Approach by Pucaa Road and Power Supply.

It can be observed that all the villages in population ranges of 2,000-4,999, 1,000-1,999 and 500-999 have education and power supply facilities. It is also observed that villages in the lower population range do not enjoy these amenities in comparison to villages in higher ranges.

TABLE 42

DISTRIBUTION OF VILLAGES ACCORDING TO LAND USE, 2001

Sl. No.	Name of Taluka / C. D. Block	Number of Inhabited Villages	Total Area in Hectares	Percentage of Cultivable Area to Total Area	Percentage of Irrigated Area to Total Cultivable Area
1	2	3	4	5	6
1	Botad	52	68,227.8	77.5	24.8
2	Vallabhipur	56	58,855.3	78.4	9
3	Gadhada	74	83,338.6	74.4	27.9
4	Umrala	41	39,368.6	81.2	24.1
5	Bhavnagar	57	89,101.5	41.6	18.5
6	Ghogha	47	42,591.0	72.0	40.5
7	Sihor	78	68,629.5	63.9	32.5
8	Gariadhar	50	45,140.4	82.9	16.3
9	Palitana	92	69,034.9	63.6	28.6
10	Talaja	112	83,568.7	75.4	59.1
11	Mahuva	131	121,468.7	76.6	26.8
	District Total :	**790**	**769,324.8**	**70.4**	**28.9**

Note : - Cultivable area = irrigated area + unirrigated area

Table 42 gives the detail about taluka wise distribution of villages according to land use. It also gives detail of total area in hectares with the percentage of cultivable areas available in the inhabited villages in the district. Cultivable area includes irrigated as well as unirrigated area. There are 790 inhabited villages in the district having total area of 769324.82 hectares. Of these 70.4 per cent is cultivable and 28.9 per cent of total cultivable area has irrigation facilities. A close look at the land use pattern at taluka level shows that Gariadhar with 50 villages has 82.9 per cent total cultivable areas, which is the highest. Talaja with 112 village has 59.1 per cent of total cultivable areas as irrigated which is the highest. Bhavnagar taluka has 41.6 per cent of cultivable areas of total area which is the lowest in the district. Vallabhipur has 9 per cent of irrigated area to total cultivable areas which is the lowest in the district.

TABLE 43

PER CAPITA RECEIPT AND EXPENDITURE IN STATUTORY TOWNS

(In Rs.)

Sl. No.	Class, Name & Urban Status of the Town	Per capita Receipt			Per capita Expenditure					
		Total	Through Taxes	From All Other Sources	Total	General Adminis-tration	Public Health and Conveniences	Public Works	Public Institut-ions	Other(S)
1	2	3	4	5	6	7	8	9	10	11
1	I Bhavnagar (M.Corp)	798.3	566.4	231.9	831.0	38.0	383.5	103.1	173.3	133.2
2	I Botad (M)	401.5	209.9	191.6	331.2	48.5	56.0	26.7	0.0	200.0
3	III Gadhada (M)	589.5	178.0	411.4	460.4	39.0	85.2	174.1	0.2	161.9
4	III Gariadhar (M)	767.4	298.9	468.5	364.9	39.3	177.3	36.0	12.8	99.5
5	II Mahuva (M)	1,134.3	310.7	823.6	1,107.8	79.8	349.0	87.5	0.1	591.5
6	II Palitana (M)	845.9	344.2	501.7	823.9	242.2	108.7	71.2	0.6	401.2
7	III Sihor (M)	300.4	15.0	285.4	292.1	34.4	73.5	38.3	2.3	143.6
8	III Talaja (M)	794.4	359.5	434.9	490.2	8.0	103.1	118.2	53.1	207.8
District Total :		**752.7**	**432.7**	**320.0**	**732.9**	**54.0**	**285.9**	**87.9**	**104.1**	**201.1**

Table 43 shows the detail of Per Capita Receipt and Expenditure in statutory towns in the district. The per capita receipt of the district is Rs. 752.7. This per capita receipt is made by contributions of Rs. 432.7 through taxes and Rs. 320 from all other sources. The per capita expenditure of the district is Rs. 732.9. Out of these Rs. 54 are incurred on General Administration, Rs. 285.9 on Public Health and Conveniences, Rs. 87.9 on Public Works, Rs. 104.1 on Public Institutions and remaining Rs. 201.1 are spent on other(s) items.

Mahuva (M) has the highest per capita receipt of Rs. 1134.3 and Sihor (M) has reported the lowest per capita receipt of Rs. 300.4. As regards per capita expenditure Mahuva (M) has reported the highest per capita expenditure of Rs. 1107.8 against lowest per capita expenditure of Rs. 292.1 in Sihor (M).

TABLE 44

SCHOOLS / COLLEGES PER 10,000 POPULATION IN STATUTORY TOWNS, 2001

Sl. No.	Name and Urban Status of Town	Type of Educational Institution				
		Primary	Junior Secondary / Middle	Secondary / Matriculation	Senior Secondary	College
1	2	3	4	5	6	7
1	Bhavnagar (M.Corp)*	4.1	0	0.7	0.4	0.2
2	Botad (M)	2.9	0	0.9	0.4	0.2
3	Gadhada (M)	4.1	0	1.1	0.7	0
4	Gariadhar (M)	1.6	0	1	1	0.7
5	Mahuva (M)*	3.1	0	1.1	0.9	0.1
6	Palitana (M)	3.9	0	1.7	1.2	0.4
7	Sihor (M)	5.1	0	0.4	0.6	0.2
8	Talaja (M)	3.8	0	0.8	0.8	0
	District Total :	**3.8**	**0**	**0.8**	**0.5**	**0.2**

* Includes outgrowths.

Note :- In Gujarat state, the levels of education are classified as under:
(i) Primary school (from std. I to VIII passed)
(ii) Secondary / Matriculation (from std. VIII to X passed)
(iii) Higher Secondary (from std. X to XII passed)
Hence, the details under col. 4 are not shown.

Table 44 shows the availability of Schools/ Colleges per 10,000 populations in statutory towns. There are 3.8 primary schools, 0.8 Secondary schools, 0.5 Senior Secondary schools and 0.2 Colleges per 10,000 of population in the district. Among towns, Sihor (M) has 5.1 Primary Schools per 10,000 Population, which is the highest, while Gariadhar has the lowest of 1.6 primary schools per 10,000 population.

Palitana (M) has 1.7 Secondary schools and 1.2 Senior Secondary schools which are the highest among towns. Sihor (M) has the lowest of 0.4 Secondary schools and Bhavnagar and Botad has the lowest of 0.4 Senior Secondary schools per 10,000 population.

Gariadhar has 0.7 Colleges per 10000 Population and Mahuva (M) has only 0.1 College which are the highest and lowest figures respectively. Gadhada (M) and Talaja (M) do not have any college per 10,000 of population.

TABLE 45

NUMBER OF BEDS IN MEDICAL INSTITUTIONS IN TOWNS, 2001

Sl. No.	Name and Urban Status of the Town	Number of Beds in Medical Institutions per 10,000 Population
1	2	3
1	Alang(CT)	0
2	Bhavnagar(M.Corp)	24
3	Botad(M)	17
4	Dhola(CT)	6
5	Gadhada(M)	39
6	Gariadhar(M)	15
7	Ghogha(CT)	0
8	Katpar(CT)	0
9	Mahuva(M)	44
10	Palitana(M)	62
11	Sihor(M)	20
12	Talaja(M)	42
13	Vartej(CT)	36
	District Total :	**27**

Table 45 gives the detail about the number of beds in Medical Institutions per 10,000 populations in each town of Bhavnagar district. It can be seen that there are 27 beds in medical institutions per 10000 populations in the district. Among towns Palitana (M) has the highest i.e. 62 beds in medical institution and Dhola (CT) has only 6 beds in medical institution per 10,000 Population which is the lowest. No bed is available in towns such as Alang (CT), Ghogha (CT) and Katpar (CT).

TABLE 46

PROPORTION OF SLUM POPULATION IN TOWNS, 2001

Sl. No.	Name of the Town	Total Population	Slum Population	Percentage of Slum Population to Total Population
1	2	3	4	5
1	Bhavnagar (M.Corp)	517,708	53,955	10.4
2	Botad (M)	100,194	6,277	6.3
3	Mahuva (M)	80,726	22,300	27.6
4	Talaja (M)	26,104	2,100	8
	District Total:	**724,732**	**84,632**	**11.7**

Table 46 gives the detail of the proportion of slum population in towns of Bhavnagar district. As the table reveals only 4 towns have slum areas. The total slum population is 84,632 which is 11.7 per cent of total population. Mahuva has the highest proportion of slum population i.e. 27.6 per cent of total population while the lowest proportion of 6.3 per cent is recorded in Botad.

TABLE 47

MOST IMPORTANT COMMODITY EXPORTED OUT OF AND MANUFACTURED IN TOWNS, 2001

Sl. No.	Name and Urban Status of Town	Most Important Commodity	
		Manufactured	Exported

Source: Census of India 2001, H- series: Tables on Houses, Household amenities and Assets.

Table 48 details the number of Household by tenure status and number of rooms occupied in the district. The total numbers of Household in the district are 431,566, out of which 256,827 Households are in rural areas and 174,739 Households are in urban areas. Out of total households 32,760 households belong to Scheduled Castes and 6,839 Households belong to Scheduled Tribes.

Out of 431,566 Households in the district 369288 Households (85.57 per cent) are living in their owned houses, 52,354 (12.13 per cent) are living in rented houses and the remaining 9,924 (2.3 per cent) Households have tenures status of 'Others'. The same trend is also observed in rural and urban areas where majority of Households have their own accommodations and very few number of Household are living in rented and other type of accommodations.

Of the total Household in the district the largest number of Household i.e. 212,986 have occupied single room accommodation and is followed by 146,732 Household having two room accommodations. Three room accommodations are occupied by 38,184 Households. In the district 3 and more room accommodation is occupied by 28,482 Households while 5,182 Households are living without any exclusive room.

It can be observed that in rural areas 54.14 per cent of rural household have only one room accommodation, 33.90 per cent have two rooms, 5.55 per cent have three rooms and 5.15 per cent have 3 or more rooms. 1.26 per cent of Households do not have any exclusive room.

In urban areas 42.32 per cent of urban Household has only one room accommodation, 34.15 per cent have two rooms, 13.70 per cent have three rooms and 8.73 per cent have three or more rooms. 1.10 per cent of urban households do not have any exclusive room. Median number of rooms is found to be greater i.e. two in urban areas in comparision to rural areas of the district.

Source : Census of India 2001, H - series : "Tables on Houses, Household amenities and Assets."

Note:

Permanent : Permanent houses refers to those houses whose wall & roofs are made of pucca materials i.e., where, burnt bricks, G.I. Sheets or other metal sheets, stone cement concrete is used for wall and tiles slate, shingle, corrugated iron, zinc or other metal sheets asbestos sheets, bricks, lime and stone and RBC/RCC concreate bricks, G.I. Sheets or other metal sheets, stone cement concrete is used for wall and tiles slate, shingle, corrugated are used for roof.

Semi permanent:- Semi-permanent houses refer to those houses made of other types of materials

Temporary:- Temporary houses refers to those houses having wall and roofs made of Kutcha materials i.e. where grass, leaves, reeds, bamboo mud, unburnt bricks are used for the construction of walls and grass, leaves reeds, bamboo hatch, mud, unburnt bricks, wood etc. are used for roofs.

Table 49 gives the detail about percentage distribution of Households living in permanent, semi-permanent and temporary houses in the district. It can be seen that 67.2 per cent of Households have permanent houses i.e. Houses made of pucca material. 27.8 per cent of Households have semi permanent houses i.e. Houses made of kachcha materials and only 5.1 per cent of Households have temporary houses.

In rural areas 55.8 per cent of Households are living in permanent houses, 37.6 per cent are living in semi permanent houses and 6.6 per cent are living in temporary houses.As far as urban areas are concerned 83.9 per cent of urban Households are living in permanent houses, 13.3 per cent are living in semi permanent houses and only 2.8 per cent are living in temporary houses.Comparatively in percentage terms, in urban areas, houses of permanent nature are found to be more.

Source: Census of India 2001, H- series:Tables on Houses, Household amenities and Assets.

* Based on the improved drinking water source, drinking water supply has been classified as 'Improved ' or otherwise. If the household has access to drinking water supplied from a tap or a hand pump / tube well situated within or outside the premises it is considered as having access to 'Improved drinking water source'. However, the concept of improved drinking water is state specific and this is to be considered accordingly.

Note: Percentage is to be given in brackets after the number of households .

@ Bathroom means bathroom within the house

$ Toilet means toilet within the house

Drainage means closed and open drainage

Table 50 indicates that 73.4 per cent of total Households have Improved Drinking water sources and 91.0 per cent have Electricity facilities. The bathroom and toilet facilities are available to 51.9 per cent households and 39.6 percent Households respectively. As regards drainage 36.9 per cent Households have close and open drainage. In rural areas 62.9 per cent Households have the facilities of Improved Drinking Water, 88.3 per cent have facilities of electricity, 34.5 per cent have bathrooms, 16.9 per cent have toilets and 14.6 per cent households have the facilities of drainage.In urban areas 88.9 per cent of Households have Improved Drinking Water, 95.0 per cent have electricity, 77.6 per cent have bathroom, 73.0 per cent have toilet and 69.6 per cent Households have the facilities of drainage.Thus it can be seen that Households in urban areas are better equipped with all the facilities as compared to the Households in rural areas.

Source: Census of India 2001, H- series: "Tables on Houses, Household amenities and Assets."
Percentages are in brackets

Table 51 gives the detail about the percentage distribution of Households by type of fuel used for cooking purpose. There are nine types of fuel used for which data is presented in this table. Firewood is widely used as fuel as 42.7 per cent of Households use it in the district. 61.3 per cent Households in rural areas and 15.3 per cent Households in urban areas use firewood. In the talukas of the district percentage variation of households in using firewood for cooking is between 20.9 per cent in Bhavnagar to 68.7 per cent in Talaja. Use of firewood is prevalent in rural areas in comparision to urban areas. Use of LPG is next to firewood as it is used by 26.4 per cent of Household in the district. 55.2 per cent of urban Households and only 6.8 per cent of rural Households use LPG. It is evident that use of LPG as a fuel is much in urban areas in comparison to rural areas. In rural areas use of crop residue as a fuel is next to firewood as 21.1 per cent of Households use it while in urban areas only 2.6 per cent Households use crop residue as a fuel. In district as a whole 13.6 per cent Households use crop residue as cooking fuel. Kerosene is another widely used fuel as 12.2 per cent Households in district use it. In rural areas only 4.9 per cent households use kerosene against the use of Kerosene by 23.0 per cent households in urban areas. Kerosene is used by more households in urban areas as compared to rural areas. Cow dung cake is used by 3.9 per cent Household in the district. 4.9 per cent Households in rural and 2.5 per cent households in urban areas use cow dung cake as cooking fuel.As regards usage of other type of fuels such as electricity, coal, biogas and other fuels the proportion of households is comparatively insignificant.

Source: Census of India 2001, H- series: "Tables on Houses, Household amenities and Assets."
Percentage are in breckets.

Table 52 shows number of households availing Banking Services and number of households having each of specified assets. There are 431,566 households in the district. Out of them 132,236 (30.6 per cent) are availing Banking Services. 20.3 per cent households in rural areas and 45.9 per cent households in urban areas avail banking services. As regards households assets in the district 34.4 per cent households have radio, 36.8 per cent have TV, 10.3 per cent have telephones, 49.2 per cent have bicycles, 24.2 per cent have scooters/motors cycles/mopeds, 2.5 per cent have car, jeep, van. In the district 124,143 i.e. 28.8 per cent households do not have any of the specified assets which suggest that 71.2 per cent of households do have one or more type of such assets.In rural areas 30.0 per cent households have Radio, 19.4 per cent have TV, 3.4 per cent have Telephone, 41 per cent have Bicycle, 15.5 per cent have scooter/ motor cycle/moped, 1.5 per cent have car, jeep, van and 38.0 per cent of households do not have any of the specified assets.In urban areas 40.8 per cent households have Radio, 62.3 per cent have TV, 20.4 per cent have Telephone, 61.3 per cent have Bicycle, 36.9 per cent have scooter/motor cycle/moped, 3.9 per cent have car, jeep, van and 15.3 per cent of households do not have any of the specified assets.The data reveals that telephone is not owned by almost 90 per cent of households. Bicycle is used by about 49 per cent households urban households possess all the specified assets more as compared to rural households. In Bhavnagar taluka 13.2 per cent households do not have any of specified asset in the district indicating that 86.8 per cent households do have one or more such assets. In Gariadhar taluka the highest 40.8 per cent households do not have any asset.

(viii) Major social & cultural events, natural and administrative developments and significant activities during decade.

Government of Gujarat reconstituted some districts and talukas of the State. Under the Government Notification No. GHM-97-82-M-PFR-1097-L dated the 24th September 1997, Bhavnagar district was recostituted by excluding erstwhile Savarkundla taluka from it and including the same in Amreli district.

No others major social and cultural events worth mentioned occused during the decode.

(ix) Brief description of places of religious, historical or archaeological importance in villages and places of tourist interest in the towns of the district.

Name of Taluka : Bhavnagar
Name of Town: Bhavnagar
Location Code : 41404000

(Gandhi Smriti)

Bhavnagar is situated at the head of bay of Khambhat. It was the capital of the former Bhavnagar State and is now the headquarters of the district of that name. It is all weather, well-developed intermediate port in the state and carried on a profitable inland and foreign trade. It has a natural harbour on the western sea boarder of the Country.

Important places of interest in the city of Bhavnagar

(1) Gandhi Smriti

Sardar Vallabhbhai Patel laid the foundation stone of Gandhi Smriti on January 15, 1948 at Bhavnagar. The aim of Smriti is to keep Gandhian thought alive in all respects. It is a living monument to Gandhiji, whose associations with Bhavnagar were old and varied. The Gandhi Smriti which was declared open on 1st November 1955 by the Prime Minister Pandit Jawaharlal Nehru is managed by a Trust created in 1950 by the Government of Saurashtra.

The institution runs a library, which has about 4000 books on Gandhian thought and social sciences, a Gandhi Picture Gallery and museum and a Khadi Gramodyoga Bhandar. The library attaché to the Gandhi Smriti aims at collecting and preserving documents of historical importance from all over Saurashtra. The Smriti organizes study circles, grants special scholarships for research in Gandhian thought and arranges dramatic and literary competitions.

(2)Barton Library and Museum:

It is situated in the heart of the city. It is perhaps one of the oldest leading libraries in Saurashtra. During the period of 80 years of its existence, it has developed into an excellent cultural centre of city. The library is housed in a very spacious building having ten big apartments with a total area of 5320 sq.ft. It possesses a large collection of books in different languages and on different subjects like history, literatures, philosophy, religion, science, biography etc. There is a good number of Sanskrit works both printed and many scripts.

(3)The Central Salt Research Institute:

The Central Salt Research Institute functions under the control of the Council of Scientific and Industrial Research Government of India. Situated near the College Campus the building is a large and imposing two storyed structure with a garden in front rooms on each floor. A small building behind the main façade is used as a workshop while the experimental form of about 125 acres of land situated nearby is working under the technical guidance of the institute. The main function of the institute is to work out methods for improving the quality of salt and to increase salt production for domestic as well as industrial uses. The institute devises methods for determining the quality of salt and salt products and conducts research on the economy of the bye products.

(4)Nilambag Palace:

(Nilambag Palace)

Built in 1859 A.D. as the bungalow of the Crown Prince, the palace with its acres of lawns and garden, Romanesque swimming pool, teak wood carving, carved Burma teak furniture, czech and Venetian chandeliers, Belgian mirrors, marble staircases and well stocked library. It is now a heritage hotel.

Acres of scrub forest that once provided the royal family with game, the Victoria Park now serves a dramatically different function of being a nature park where children are oriented to wildlife and environment conservation by nature clubs. The park is a paradise for birdwatchers and inhabited by blue bull antelope, striped hyaena, jackal, jungle cat, monitor lizard and other wildlife. It is a good place for a stroll or a trek.

(5) Takhteshwar Temple:

(Takhteshwar Temple)

Made of pure marble and constructed in the late ninteenth century, the temple is situated on a hillock near the Takhteshwar railway station on the railway line between Bhavnagar and Mahuva. The highlight of the temple is the fabulous view it offers of the cityscape towards the Gulf of Khambhat. On holidays residents of Bhavnagar converge at this temple.

(6) Gaurishankar Lake :

Gaurishankar Lake is also called Talao. The lake has a pretty location far removed from the bustle of the city with a rich array of bird life especially in winter, islands where birds nest and embankment that are good for picnics.

(7) Khodiyar Mata :

Khodiyar Mata is a well-known shrine and the family goddess of the ruling house of the former Bhavnagar state. It is situated on the Khodiyari river in the midst of natural surroundings of great beauty. This place is situated at a distance of only 2 kms. from Khodiyar Road Railway station, 4 kms. from Sihor and 15 kms. from Bhavanagar. There is a temple of goddess Khodiyar Mata, which has 36 pillars and a vast Mandap and is administered by a trust. Besides being a good picnic spot it is much venerated in the area and is visited in large numbers especially on Sunday and Tuesday, as these days are considered auspicious for the worship of this deity.

Name of Taluka : Bhavnagar
Name of villages : Velavadar
Location Code : 00990800

(Velavadar Black Buck National Park)

The best national park for black buck viewing in India is the Velavadar National Park. It is located seventy two kilometer away from Bhavnagar. It is spread over an area of 3408 hectares. Velavadar National Park was primarily a *Vidi* (grassland) of the Maharaja of Bhavnagar. On the southern border of the park is the high tidal zone of the Gulf of Khambhat whereas wastelands and agriculture fields surround the other sides. The area was a private vidi (grassland) of the ex-princely state of Bhavnagar, which was subsequently declared as reserve forest and notified as National Park. About 1788.88 hectares of area was declared as National Park in July 1976 and an area of 1622.23 hectares was further added by notification in the year 1980.

The park has one of the largest reservoirs of black buck, antelope cervicapra rajputana. Wolf is top carnivore in the area. The Black Buck is a Brown black beauty with screw like horns and white spot around the eyes. Population of black buck fluctuates between 12000 and 16000 within the park boundary. Within a short range from Velavadar Black Buck National Park, Lesser, Floricans (Khadmor) migrate here and make nests for a limited period during monsoon. This national park has a healthy population of Black buck, blue bull, wolf, jackal, hyena, jungle cat, fox, houbara bustard, lesser florican, white stork, harriers and saras are important wild life species occurring in the park.

Name of Taluka : Talaja
Name of village : Gadhula
Location Code : 01033500

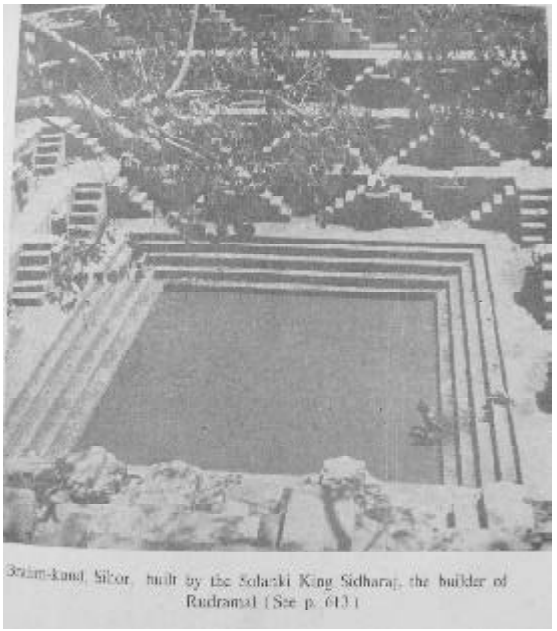

(Temple of Lord Shiva)

Gopnath is located near to Talaja one the sea-shore. It is only 10 kms. distance from Talaja and 76 kms. from Bhavnagar. It is connected by bus and railway facilities. There is a famous temple of Gopnath Mahadev. It is said to have been built by Gopisinhji, a ruler of Rajpipla. Now there is a renovated temple. It looks very beautiful. The spiritual rejuvenation of Narsinh Mehta took place at Gopnath. The legend says that Narsinh left the house on hearing offending taunts from his brother's wife and sought shelter at the Gopnath temple. He passed the whole night near the *Shivling*. Lord Shiva was pleased and gave '*darshan'* to him. Lord Shiva took Narsinh on a *'Raas-darshan'* to fulfill his will.

It is a unique experience to be at Gopnath particularly on a full moon night and especially on a *Sharad Purnima* night. The place assumes quiet and tranquil colours in any amount of moon light. The sand at sea-shore glitters like silver and the passionate waves run to embrace the rocks. There are adequate facilities for tourists at Gopnath.

Name of Taluka : Sihor
Name of Town: Sihor
Location Code : 4140700

(Brahm - kund)

Sihor is a taluka headquarters and a railway junction, station on the Surendranagar-Bhavnagar meter guage section of Western Railway. Rajkot-Bhavnagar State Highway passes through Sihor.

Known as Singhpur or Sinhpur in earlier times, this town lies in a picturesque place on the bank of the river Gautami. A still more ancient name of the place was Sarasvatpur. The old site of the city, now it ruins, is at about 1 km. distance to the south. Now Sihor is surrounded by hills clothed with trees and though the jungle is fairly dense, it is more scrub rather than forest. Wild animals are now not found in it. Near the southern wall of the city is situated a reservoir called *Brahmkund* of the *Skand Puran* fame,

known for its excellent quality of water. It is said that Brahmins bathing in it will become eloquent and learned, provided they worship *Nilkantheshwar Mahadev* with due devotion and those always bathing in it are promised a seat in Shiva's heaven *(Shivlok).* Further up the river Gautami immediately beyond the dipadiodhar or panther ridge, lies the Gautam Kund so called trans after the name of sage Gautam Rishi, who dwelt here in a cave and performed religious austerities. Also named after him is the temple of Gautameshwar Mahadev.

Name of Taluka : Talaja
Name of Town : Talaja
Location Code : 41411000

(Idol of Lord Buddh)

Talaja is situated on the slope of hill crowned with Jain temple nearby and at the confluence of Talaja and Shetrunji rivers. It is about 54 kms. south of Bhavnagar. It is a railway station on the Bhavnagar-Talaja-Mahuva railway line and is connected by bus with Bhavnagar-Mahuva and other places.

Talaja is famous for two things, as a birth place of the renowned Gujarati saint-poet Narsinh Mehta and for its Buddhist caves. Narsinh Mehta, a *Nagar Brahmin* was a staunch follower of Lord Vishnu. He was the first in his caste to worship Vishnu for which he was tortured as Nagars are all worshippers of Lord Shiva.

Talaja hill abounds in Buddhist caves. These caves are cut into isolated conical rocks. There are nearly 30 such caves with 15 to 20 tanks for storing water. They are simple and are wanting in ornamental carving. The only cave possessing some ornamentation is known by the name of Ebhal Mandap. There are no cells within the hall. On the façade of the cave, there are chaitya windows with a broad band of Vedika below them. One of the caves in the Talaja hill is called Narsinh Mehta's school. Talaja is a place of pilgrimage of the Jains on account of the Jain temple on the hill. Good building stones are also found from these hills.

Name of Taluka : Palitana
Name of Town : Palitana
Locationee Code : 41409000

(Shatrunjaya hill)

Palitana, the principal town of the taluka and once the capital of Palitana State is situated on the southern bank of Khari stream, a tributory of the Shetrunji river. It is about 23 kms. south of Songadh. It is connected by railway and bus service by the various places of the districts. The famous Shatrunjaya hills called Shetrunjo are only 2 kms. away from the town. It is the most important centre of Jain pilgrimage in Gujarat. It is associated with Rishabhdev, the first *Jain Tirthankar*, called Adinath or Adishwar, who is the principal deity of worship there. The hill lies about a mile south of Palitana town and 603 metres above the sea level. The summit is divided into two peaks, but the valley between has been partly built with masonry by a wealthy Jain Merchant named Motishah. The entire summit is covered with temples among which the most famous are those of Adinath, Kumar Pal, Vimal Shah, Samprati Raja and the Chomukh, which is the highest and can be clearly distinguished from a distance. On account of its sacredness, it is also called Siddhakshetru or Siddhachal, where all the Tirthankars, except Neminath, Numerous saints,

attained Siddhi or *Nirvan*. Because of its special sanctity Jains from all over India are anxious to perform at least one pilgrimage to this holy shrine during their lifetime. There is also a Muhammadan shrine called Augur Pir on the summit of the hill but is without a wall. Palitana is also one of the important centres of trade in the district.

Sources : (1) District Gazetteer. (Bhavnagar District)

(2) Forest Department.

(x) Major characteristics of the district, contribution of the district in the form of any historical figure associated with the district.

Bhavnagar district is endowed with three economic resources, viz. agricultural land, fisheries and product of minerals. This district is famous for its groundnut and cotton cash crops. Along with these crops such as *Bajari, Jowar, wheat, rice, other cereals, gram*. and other pulses are also in this district. This district has a 120 kms. long coast line and has a considerable fishing activities of fresh and dry fishes. Important varieties of fish in the district are Bombay Duck, Colia, Prawns and Mullet. Various type of minerals are available in the district. Among them, limestone, moulding sand and Bentonite are very important. In this district government and private sector have established many industries. Among them the most important industries are the Salt Research Institute, which is established by the Government. The other is Alang Ship Breaking Yard, which is famous all over the world and the main industries are basic metals and alloys industries, rubber, plastic, petroleum and coal products, and manufacture of cotton textile. These industries are important from the point of view of their employment of this district. Minor portion of this district is covered with forests. More than 2.82% of the total geographical area of the district/state is under forest. The chief forest products are *Gorad, Baval, Vikalo, Ingor, Saledi, Dhavado, Sajad, Teak, Deshi babul,* arthi, arduso and semal.In this district, the main community is the *Kathi.*

The Kathi is a brave community, known for rearing horses. They would ride the horse for miles together, loot the people and villages and never turned a face even if the death confronted them.

A robust built kathi riding on a horse with a long pierce or a sword in his hand remind us of our brave ancestors. His attire is similar to that of Rajput. A tight shirt, Bhet in the waist, a loose turban on the head, breeches and long shoes would draw a picture of a warrior. Women usually dress-up in a big petticoat, blouse and a thin cloth on the head. They are beautiful and charming. The ornaments have princely designed. Strong but symetrical body, pointed nose and impressive style differentiate the kathi women from others.

Generally, the people of the district are mostly vegetarian. Various castes of this district usually have *dal* and rice in addition to loaf of *Jowar* or *Bajari* with butter milk taken by others in the morning. Hotch-potch is a popular item of food generally taken with loaf in the evening both in rural and urban areas by all classes of people. The use of *dal* and rice (cooked) is generally dispensed with in morning meals, though a few. The use of tea has been universal among all classes of people. It is generally taken twice a day in the morning and in the afternoon. Coffee is also popular with some.

The people of the district are very enthusiastic and emotional. They like fairs. The *Dandia-ras* and *Garba* are always associated with the celebration of festivals. Gujarati and Kathiyawadi are the local language of the district.

A fair is an important organ of the social life. It is a remarkable folk activity which brings festivity, merriment and enjoyment.

The famous fair of *Bhadarvi Amas* organized at Koliyak in Bhavnagar taluka. It is situated about 14 miles to the south of Bhavnagar city is held on *Bhadarvi Vad Amavasya*, the day of the installation of Nishkalank Mahadev in the sea near the village. There is no temple but the *Shivlinga* is installed on a four feet high platform on the rock. It can be reached only when there is an ebb in the sea. One can go there on *Sud or Vad 1* when the spot is accessible from morning till noon but should return to the shore by 1.00 PM before the place is submerged by tidal waters. Other fairs are dedicated to a local saint,

Hanumanji and Mataji or Mother Goddess. The Jal-Jhilani fair of Gadhada of Swaminarayan Sect is also very famous. Three fairs are held on the sea-shore, one on the river bank and one each in honour of *Shitala Mata* and Serpent God.

Nanabhai bhatt (1882-1961) :

Nrusinhprasad Kalidas Bhatt, better known as Nanubhai Bhatt was among the leading educationist of the country. He believed that the primary education is the basic education and he vigourously worked for it. He was born in a poor family of Prashnora Nagar community in Bhavnagar. Though not very bright at his studies, Nanubhai had a strong will which got him his metriculation in 1899. He joined the college with scholarship obtained the degrees of B.A., S.T.C. and M.A.

'Gram Dakshinamurthy' has been the monumental achievement of his life. Dakshinamurthy has a formidable contribution to the public life of Gujarat for at least a decade. Nanubhai had many reservations about the traditional system of education. He wanted to carry out some basic, experiments, which he could at Dakshinamurthy.

Gijubhai Badheka (1885-1939) :

Gijubhai born in village near Dhola junction in Bhavnagar district, was like a giant University of child-education and was nicknamed 'mother with moustaches'.

He could not complete his higher education due to economic hardships. He had been to Africa to earn his fortunes. He completed his legal education after returning from Africa and started his practice at Vadhvan Camp in 1911. He was invited to inaugurate the Kinder Garten School at Vaso by Darbar Gopaldas. He was so much attracted by the cause of child education that he dedicated his life to the very cause. He received a meaningful direction after he went through the writings of Madam Montessary. He met Nanabhai Bhatt and left his legal profession and joined Dakshinamurthi, where he worked He worked for nearly two decades. He had a soft corner for young children. He dedicated himself to child education and child literature since then.

Taraben and Jugatram Dave proved a good company for Gijubhai in his activities of child education and literature. Gujarat Sahitya Sabha honoured his services with 'Ranjitram Gold Medal'.

(xi) Scope of Village Directory and Town Directory :

As mentioned earlier, the District Census Handbook is brought out in two parts-Part A and Part B. Part A covers the non-census data of village directory and town directory whereas part B covers the primary census abstract data of 2001 Census. The scope of village directory and town directory is discussed below.

Scope of Village Directory

For the census work, the villages in the district have been arranged taluka wise and within the taluka they are shown location code wise. Each village is assigned a location code number for the purpose of identification. In 2001 Census, all the villages have been given unique 8-digit code number, which will remain constant across the census, and shall make it easy to do comparative study. Eight digit code's last two digits are especially provided to take into account exigencies arising due to jurisdictional changes of villages by partition, amalgamation etc. This time it has been kept '00'. Prior to the village directory information, a map and alphabetical list of villages for each taluka is given in Part A. Village directory contains the non-census data of each village. It gives the village wise basic information relating to infrastructure and amenities available in the sphere of education, medical, drinking water, power supply, post and telegraph, communications, approach road to village and distribution of land use area. In addition, it contains information about total area of each village, total population and number of households and the nearest town and its distance from the village. The information on number of households and total population has been included with a view to examine the co-relation of amenities with the number of households and population they serve. If an amenity

is not in existence in the referent village, the distance in broad ranges from the nearest place, where the amenity is available is given. The broad range are (-5 kms), (5-10 kms.) and (10+ kms.). Some additional information has been added viz.(1) Number of Banks, (2) Credit Societies, (3) Recreational and cultural facilities, (4) Receipt of Newspaper / Magazine, (5) Income & Expenditure of the village and (6) Name of the three most important commodities imported, manufactured/ produced & exported. One information has been deleted this time, i.e., Market & Hat facility.

The village directory also carries the following appendices.

Appendix-I — It gives the abstract of educational, medical and other amenities available in the villages Taluka/ C. D. Block wise of the district.

Appendix-I-A — Indicates number of villages Taluka/ C. D. Block wise having one or more primary schools.

Appendix-I-B — Indicates number of villages Taluka/ C. D. Block wise having primary, middle and secondary schools.

Appendix-I-C — Shows number of villages Taluka / C. D. Block wise with different sources of drinking water facilities.

Appendix-II — Indicates the list of villages with 5,000 and above population which do not have one or more important amenities.

Appendix-II-A — Indicates list of Census Towns which do not have one or more amenities.

Appendix-III — It gives the land utilization data in respect of Census Towns/non-municipal Towns.

Appendix-IV — Taluka / C. D. Block wise list of inhabited villages where no amenity other than drinking water facility is available.

Appendix-V — Summary showing number of villages not having Scheduled Castes population.

Appendix-VI — Summary showing number of villages not having Scheduled Tribes population.

Appendix-VII A VII B — The appendix shows the list of villages according to proportion of the Scheduled castes and Scheduled Tribes to the total population by ranges.

Appendix-VIII — Indicates Taluka / C. D. Block wise number of villages under each Gram Panchayat.

Appendix-IX — Shows number of different types of girls school in a village.

Scope of Town Directory

Town Directory covers the non-census data for each town. It presents important and useful information like civic and other amenities available in all the towns of the district. The information in town directory is covered in following seven statements, viz. statements I to VII.

Statement-I — Town wise class, name, civic administrative status of the town, its area, growth rates, density and sex ratio.

Statement-II — Physical aspects of each town.

Statement-III — Income and expenditure of each town.

Statement-IV — Civic and other amenities in respect of each town.

Statement-V — Availability of medical, educational, recreational and cultural facilities in each town.

Statement-V — Trade, commerce, industry and banking activities in each town.

Statement-VII — Civic and other amenities in slum areas of each town.

In all the Statement except VII the towns are arranged in the alphabetical order within the district. The details of these statements are given in the analytical portion of the town directory. In addition to the above statements, an appendix showing the towns with their outgrowths with population , is also given after the town directory statements.

PART – A
VILLAGE AND TOWN DIRECTORY

SECTION – I VILLAGE DIRECTORY

Village Directory

(a) Note explaining the abbreviations used in the village directory

The "Village Directory" is one of the traditional compilations of the Census. It gives the list of villages, their location numbers, their area, population, number of households, amenities such as educational, medical, drinking water, post and telegraph, commercial and co-operative banks, agricultural non-agricultural and other credit societies, recreational and cultural facilities, communication, approach to village, nearest town with a distance, power supply availability of newspaper and magazines, most important commodity manufactured and land use of each village.

Village is a statutory recognized unit having a definite boundary and separate land records. In case, a complete village is treated as an outgrowth of urban agglomeration, data on amenities for that village, have not been given in the Village Directory but shown along with the urban component. The villages which are consider as a Census Town , the amenities data are shown in the Town Directory. For those villages which have partly merged in an outgrowth of U.A., the amenities data are shown in the Village Directory for that particular village.

The 'un-inhabited' villages (villages with no population) have been indicated as such after furnishing details in columns 1 to 3 i.e., Serial number, Name of village & location code number and area of the village against column no. 4 to 18. The land use data for such villages are shown in col. 19 to 23

The Village Directory format has 23 columns and the details given under each column are for the village are as follows:-

Columns 1 : Serial Number

Self explanatory. All the villages within the CD Block are presented serially in the ascending order of their location code number.

Columns 2 : Name and Location Code Number of village.

The name and location code number of the village are shown against these columns. This also includes the forest and uninhabited villages.

Column 3 : Area of the village

The area of the villages in hectares are given. Wherever the area figures was not furnished by the concerned department the column is left blank.

Column 4 : Total Population

The total population of the village as per 2001 Census is given against this column.

Column 5 : Number of Households

The number of households as per 2001 Census is given in this column.

Amenities :

In column 6 to 23, availability in respect of different amenities such as education, medical, drinking water, post, telegraph, banks, credit societies, communication, power, approach road etc. in each village has been depicted with appropriate codes against the column concerned. Wherever the amenities are not available in the village, a dash (-) is shown in the column and next to it in brackets the distance in broad ranges viz.< 5 kms., 5-10 kms. and 10+ kms of the nearest place where the facility is available is given.Column wise details are given below:

Column 6 : Educational

Classes upto class VII included in Primary School. This will include nursery school, kindergarten school. Pre-basic school, pre-primary school, junior basic school upto class VII.

Classes from VIII to X included in Higher secondary school. Classes XI and XII are included in senior secondary school.

Accordingly any of the following types of institutions if exists within the village is shown as per codes given below :

(i)	Primary School	P
(ii)	Middle School	M*
(iii)	Secondary School	S

Note : * - There is no Middle school in the Gujarat State.

(iv)	Senior Secondary School	PUC
(v)	College	C
(vi)	Industrial School	I
(vii)	Training School	Tr
(viii)	Adult literacy class/centre	AC
(ix)	Others (specify) e.g. SanskritPathshala, Senior basic school, Navodaya Vidyalaya, Makhtab,etc.	O

More than one institution of a type in the village is indicated by the number within brackets against the abbreviation, e.g. P(3), M(4), etc.

Column 7 : Medical

Availability of medical facility within the village is indicated by following codes :

(i)	Allopathic Hospital	H
	Ayurvedic Hospital	HA
	Unani Hospital	HU
	Homeopathic Hospital	H Hom
(ii)	Allopathic Dispensary	D
	Ayurvedic Dispensary	DA
	Unani Dispensary	DU
	Homeopathic Dispensary	D Hom
(iii)	Maternity & Child Welfare	MCW
(iv)	Maternity Home	MH
(v)	Child Welfare Centre	CWC
(vi)	Health Centre	HC
(vii)	Primary Health Centre	PHC
(viii)	Primary Health Sub-Centre	PHS
(ix)	Family Welfare Centre	FWC
(x)	T.B. Clinic	TB
(xi)	Nursing Home	NH
(xii)	Registered Private Medical Practitioner	RMP
(xiii)	Subsidised Medical Practitioner	SMP
(xiv)	Community Health Worker	CHW
(xv)	Others	O

More than one institution of a type in the village is indicated by the number within brackets against the abbreviations, e.g. H(3), D(4), etc.

Column 8 : Drinking Water

The type of the drinking water supply sources available within the village are indicated by codes as follows :

(i)	Tap Water	T
(ii)	Well Water	W
(iii)	Tank Water	TK
(iv)	Tubewell Water	TW
(v)	Handpump	HP
(vi)	River Water	R
(vii)	Canal	C
(viii)	Lake	L
(ix)	Spring	S
(x)	Others	O

Column 9 : Post, Telegraph and Telephone

It is indicated by codes as shown below whether within the village exists the following amenities:

(i)	Post Office	PO
(ii)	Telegraph Office	TO
(iii)	Post & Telegraph Office	PTO
(iv)	Telephone Connection	PH

Column 10 : Commercial and Co-operative Banks

If the village is served by any banking service, commercial bank, co-operative bank etc. the same is indicated in codes mentioned below along with the number of banks in brackets. If not available the distance of nearest place where the facility exist is given:

(i)	Commercial Bank	CM
(ii)	Co-operative Bank	CP

Column 11 : Credit Societies

If the village enjoys the services of Credit Societies i.e. Agricultural Credit Societies, Non Agricultural Credit Society or Other Credit Societies, the same is indicated in codes mentioned below along with the number of such societies in brackets. In case the facility is not available within the village the distance of the nearest place where such facility exist is given :

(i)	Agricultural Credit Society	ACS
(ii)	Non- Agricultural Credit Society	NCS
(iii)	Other Credit Society	OCS

Column 12 : Recreational and Cultural facilities

If facilities such as Cinema/Video hall, Sports Club, Stadium/Auditorium is available in the village, the same is recorded in these columns. If not available the particulars of the nearest place with the facility is recorded. The information is indicated in codes mentioned below along with the number of such facilities in brackets:

(i)	Cinema/Video Hall	CV
(ii)	Sports Club	SP
(iii)	Stadium/Auditorium	ST

Column 13 : Communications

If the village is served by any mode of public/ private transport like Bus, Railway station or Navigable water ways they are to be mentioned as follows:

(i)	Bus	BS
(ii)	Railway Station	RS
(iii)	Navigable Waterway	NW

Column 14 : Approach to Village

Approach to village refers to the state of road leading to village. The approach to the village is indicated in following codes :

(i)	Paved Road	PR
(ii)	Mud road	MR
(iii)	Foot path	FP
(iv)	Navigable River	NR

Column 15 : Nearest Town and Distance

The distance is given in kilometers in brackets against the name of the town nearest to the village.

Column 16 : Power Supply

Availability of Power Supply in the village, whatever may be the form of its use is given by using following codes :

(i)	Electricity for domestic use	ED
(ii)	Electricity for agricultural use	EAG
(iii)	Electricity for other purposes	EO
(iv)	Electricity for all purposes	EA

Column 17 : News Paper/Magazine

If village receives any News Paper/Magazines the same is noted in this column using following codes:

(i)	News Paper	N
(ii)	Magazine	M

Column 18 : Most important commodities manufactured

The name of three most important commodities manufactured in the village is recorded against this column.

Column 19 to 23 : Land use i.e. area under different types of land use

Land use data maintained by the State/UT Govts. are furnished against these columns. The data area under Forest, Irrigated land (by source), Unirrigated land, Cultivable waste and Area not available for cultivation in the village are shown against these columns. The area figures are given in hectare(s) up to one decimal. Desh '-' is recorded wherever the information is not made available by the concerned department. The codes used for different types of irrigation facilities available in the village are indicated below:

(i)	Government Canal	GC
(ii)	Private Canal	PC
(iii)	Well (without electricity)	W
(iv)	Well (with electricity)	WE
(v)	Tubewell(without electricity)	TW
(vi)	Tubewell(with electricity)	TWE
(vii)	Tank	TK
(viii)	River	R
(ix)	Lake	L
(x)	Waterfall	WF
(xi)	Others	O
(xii)	Total	T

The village directory also carries the following appendices.

Appendix-I It gives the abstract of educational, medical and other amenities available in villages Taluka/ C.D. Block wise of the district.

Appendix-I-A Indicates number of villages Taluka/ C.D. Block wise having one or more primary schools.

Appendix-I-B Indicates number of villages Taluka/ C.D. Block wise having primary, middle and secondary schools.

Appendix-I-C Shows number of villages Taluka/ C.D. Block wise with different sources of drinking water facilities.

Appendix-II Indicates the list of villages with 5,000 and above population which do not have one or more important amenities available.

Appendix-II-A Indicates list of Census Towns which do not have one or more amenities.

(b) List of villages merged in Towns and Outgrowths at 2001 census :

Appendix-III It gives the land utilization data in respect of Census Towns / non-municipal Towns.

Appendix-IV Taluka/ C.D. Block wise list of inhabited villages where no amenity other than drinking water facility is available.

Appendix-V Summary showing number of villages not having Scheduled Castes population.

Appendix-VI Summary showing number of villages not having Scheduled Tribes population.

Appendix-VII-A VII-B The appendix shows the list of villages according to proportion of the ScheduledCastes and Scheduled Tribes to the total population by ranges.

Appendix-VI Indicates Taluka/ C.D. Block wise number of villages under each Gram Panchayat.

Appendix-IX Shows number of different types of girls school in the village.

Note : * In Gujarat State the levels of education are classified as under :
(i) Primary (from Std. I to VII passed)
(ii) Secondary/Matriculation (From Std. VIII to X passed)
(iii) Higher Secondary (From Std. XI to XII passed). Hence details of Col. 6 is not shown.

SECTION - II TOWN DIRECTORY

Town Directory

(a) Note Explaining The Abbreviations Used In The Town Directory

Town Directory statements (I to VII)

Statement I : Status and Growth History

Column (2) : Class, name and civic administration status of town :

Class has been introduced to facilitate analysis of town directory data at the state and all India levels. It is presented according to 2001 Census Population of the town as follows :

Population	Class
100,000 and above	I
50,000 - 99,999	II
20,000 - 49,999	III
10,000 - 19,999	IV
5,000 - 9,999	V
Below 5,000	VI

Town with a population of one hundred thousand (1,00,000)and above is treated as a city.

The civic administration status of the towns is indicated within bracket against the name of the town. The following abbreviations are used to denote civic status of town.

(I)	Municipal Corporation	M. Corp.
(II)	Municipal Committee	MC
(III)	Municipal Council	M Cl
(IV)	City Municipal Council	CMC
(V)	Town Municipal Council	TMC
(VI)	Municipal Board	MB
(VII)	Municipality	M
(VIII)	Cantonment Board/Cantonment	CB
(IX)	Notified Area	NA
(X)	Notified Town	NT
(XI)	Notified Area Committee/ Notified Area Council	NAC
(XII)	Notified Town Area	NTA
(XIII)	Industrial Notified Area	INA
(XIV)	Industrial Township	ITS
(XV)	Township	TS
(XVI)	Town Panchayat	TP
(XVII)	Nagar Panchayat	NP
(XVIII)	Town Committee/ Town Area Committee	TC
(XIX)	Small Town Committee	ST
(XX)	Estate office	EO
(XXI)	Gram Panchayat	GP
(XXII)	Census Town	CT

Others columns need no comments.

Statement II - Physical Aspects and Location of towns, 1999.

Column 3 to 5 : Physical Aspects

In this columns the Rainfall and Maximum & Minimum Temperature of the town is recorded.

Column 6, 7 and 8 :

Name of the State headquarters, District headquarters and Sub-Divisional headquarters with distance from the referent town in kilometers, is to be recorded respectively. If the names mentioned in these columns are the same as the referent town itself, the distance is recorded as (0) zero.

Column 9 and 10 :

Name of the nearest city with one lakh and more and five lakhs and more population are recorded.

Column 11, 12 and 13 :

If referent town enjoys the facility of railway station, bus route facility or navigable river/canal. Its name is to be mentioned. If not available, then the name of nearest place with distance, where such facility exists is to be mentioned.

Statement III : Municipal Finance 1998 – 1999

Item-wise amount of receipt and expenditure in thousand rupees, relating to municipal finance of the town for the year 1998-99 is to be recorded.

Statement IV : Civic and Other amenities, 1999

Column (1 to 5) : Self explanatory.

Column (6) : Road length (in kms.)

Information about kutcha / pucca road is to be recorded separately for the roads within the limits of the referent town.

(i)	Pucca Road	PR
(ii)	Kutcha Road	KR

Column (7) : System of Sewerage

Generally, by sewerage system is implied the network of mains and branches of underground conduits for the conveyance of sewerage to the point of disposal. Sewers that carry only household and industrial wastes are called separate sewers, those that carry storm water from roofs, streets and other surface are known as storm water drains, while those carrying both sewage and storm water are called combined sewers.

The codes used for different types of drainage system are as follows :

(i)	Sewer	S
(ii)	Open Surface Drains	OSD
(iii)	Box Surface Drains	BSD
(iv)	Sylk Drains	SD
(v)	Cesspool method	CP
(vi)	Pit System	Pt
(vii)	Others	O

Column 8 to 11 : Number of latrines

Number of various types of latrines both Public and Private are given in these columns.

Column 12 : Method of disposal of night soil

The various prevalent method of disposal of night soil are given below with codes :

Head Loads	HL
Basket	B
Wheel Barrows	WB
Septic Tank	ST
Pit System	Pt
Sewerage	S
Others	O

Column 13 and 14 : Water supply

Source and capacity of storage system. The following codes are used in these columns:

Column 13:

(i)	Tap water	T
(ii)	Tube-well water	TW
(iii)	Tank Water	TK
(iv)	Well water	W

Column 14:

(v)	Over Head Tank	OHT
(vi)	Service Reservoir	SR
(vii)	River Infiltration Gallery	RIG
(viii)	Bore Well Pumping System	BWP
(ix)	Pressure Tank	PT

The information on major source of water supply are given in column 13 and the storage capacity against each in kilo-litres (in bracket) are presented in column 14.

Column 15 : Fire Fighting Service

In case the fire fighting service is available in the referent town 'yes' is recorded. If the facility is not available within the town. The name of the nearest place having this facility with its distance from the referent town has been recorded.

Column 16 to 20 : Electrification (Number of connections)

Different types of electric connections have been shown in these columns, i.e. Domestic, Industrial, Commercial, Road lighting (points) & others.

Statement V : Medical, Educational, Recreational and Cultural Facilities, 1999

Column 1 to 3 : Self explanatory.

Column 4 & 5 :

The data covers all such medical institutions run by or aided by Government/Semi Government/Local bodies and Charitable institutions or Social agencies like the Missionaries. Where the family planning centres are attached to hospitals or maternity and child

welfare centres or Primary Health Centres, may be treated as independent units and counted separately using following codes :

(i)	Hospital	H
(ii)	Dispensary	D
(iii)	Health Centre	HC
(iv)	Family Welfare Centre	FWC
(v)	T.B. Clinic	TB
(vi)	Nursing Home	NH
(vii)	Others	O

In case of more than one institutions of any type, it is indicated within brackets the number of such institution (s) e.g. D(3), NH(8), etc. The institutions have further been distinguished by providing additional codes within the bracket as given below :

Ayurvedic	A
Unani	U
Homoeopathic	Hom

.Column 6 to 9 :

The codes used for these columns are as follows :

(i)	Arts only	A
(ii)	Science only	S
(iii)	Commerce only	C
(iv)	Arts & Science only	AS
(v)	Arts & Commerce only	AC
(vi)	Combined for all categories-Arts, Science and Commerce	ASC
(vii)	Law	L
(viii)	University	U
(ix)	Others	O

Column 10 : Recognized shorthand, typewriting and vocational training institutes

"Recognised" should mean recognised by some statutory authority, like education department, commerce department, labour department etc. of the government or semi government or autonomous bodies, public sector undertakings etc.

The following codes are used :

(i)	Vocational Training Institute	VT
(ii)	Shorthand	SH
(iii)	Typewriting	Type
(iv)	Shorthand & Typewriting	SH Type
(v)	Others	O

The vocational institutions like - Applied Art/ Painting college, Pharmacy college, B. Ed. College, Teacher's Training Institute, Music / Dance School, Nursing School etc. are covered under 'Others'.

Column 11 to 14 :

Classes upto class VII included in Primary School. This will include nursery school, kindergarten school. Pre-basic school, pre-primary school, junior basic school upto class VII.

Classes from VIII to X included in Higher secondary school. Classes XI and XII are included in senior secondary school.

Accordingly any of the following types of institutions if exists within the village is shown as per codes given below :

(i)	Primary School	P
(ii)	Middle School	M*
(iii)	Secondary School	S
(iv)	Senior Secondary School	PUC
(v)	College	C
(vi)	Industrial School	I
(vii)	Training School	Tr
(viii)	Adult literacy class/centre	AC
(ix)	Others (specify) e.g. Sanskrit Pathshala, Senior basic school, Navodaya Vidyalaya, Makhtab,etc.	O

More than one institution of a type in the village is indicated by the number within brackets against the abbreviation, e.g. P(3), M(4), etc.

Note : * - There is no Middle school in the Gujarat State.

Column 15 : Adult literacy class/centres

This column has been introduced keeping in view the Minimum Needs Programme of the Planning Commission. There are number of Adult Education Centres which are included in these columns.

If an educational facility is not available in the town, the name of the nearest place and its distance in kilometres from the town where the facility is available is mentioned.

Column 16 : Working Women's hostels with number of seats

The number of working women's hostel if available in the referent town is mentioned with number of seats. If the facility is not available in the town the name of nearest place with distance where the facility is available is recorded.

Column 17 to 19 : Recreational and Cultural Facilities

Stadium, Cinema, Auditorium/Drama/ Community Hall are covered under recreational & cultural facilities. The particulars of permanent recreational facilities are considered for these columns.

Column 20 : Public Libraries, Reading Rooms

Number of public libraries and reading rooms available in the referent town are recorded in codes as follows :

(i)	Public Library	PL
(ii)	Reading room	RR

Statement VI : Trade, Commerce, Industry and Banking, 1999

Column 3 to 8 : Name of three most important commodities exported and names of three most important commodities manufactured in the town are recorded.

Column 9 : Number of Banks

Number of Banks available in the referent town both Commercial and Co-operative banks are recorded against this column.

Column 10 and 11 : **Number of Agricultural Credit Societies and Non Agricultural Credit Societies**

The total number of Agricultural Credit Societies and Non Agricultural Credit Societies in the referent town are recorded against these columns.

Statement VII : Civic and other Amenities in Slums, 1999

This is the statement on civic and other amenities in all slums whether notified or not and for all towns having statutory bodies, like municipality, Municipal Corporation, Town area committee etc.

STATEMENT - I

PRIMARY CENSUS ABSTRACT

Primary Census Abstract

Brief note on Primary Census Abstract :

The first census of the third millennium and twenty first century the Census of India, 2001 was the 14th continuous and uninterrupted Indian census since 1872. Thus, 2001 Census will provide data on population and its characteristics marking transition from one century and millennium to another.

The gigantic operation of Population Enumeration (considered by many to be the single largest and complex peace time administrative exercise in the world) was made possible due to the door to door universal canvassing of the Household Schedule by about 2 million enumerators and supervisors covering 593 districts, 5,463 sub-district, 5,161 towns and 638,588 villages. The comprehensive Household Schedule which replaced the individual slip had three parts and two sides A and B. Part I contained the Location Particulars; Part II related to the Individual Particulars and Part III contained questions for Household engaged in cultivation/Plantation. The part II of the Household Schedule had 39 columns and 23 questions all of which were universally canvassed and no sampling was resorted to during enumeration.

Data Processing

A quantum leap was made in the technology front while processing the Census 2001 data both for Houselisting and Population Enumeration. The Census schedules for both the phases were scanned through high speed scanners in fifteen data centers across the country and hand-written data from the schedules were converted into digitized form through Intelligent Character Reading (ICR) software for creation of ASCII records for further processing. The designing and formatting of the Household Schedule had to be done very carefully using specialized software so as to ensure uniformity, which was an essential pre-requisite for scanning. The selection of appropriate state-of-art technology in data processing has made it possible to produce all the Houselisting as well as Population Enumeration tables on full count basis for the first time in the history of Census. For Census 2001, about 202 million schedules consisting of about 1,028 million records were scanned and processed within a span of only 10 months starting October, 2002.

Task Force on Quality Assurance

After the data is processed, it is expedient on the part of the data producing agency to satisfy itself about its quality before putting the same in public domain. This has to be done mainly through the process of internal consistency, comparison with similar data in the past and also through validation with likewise data if available, from external sources. Quite often the local knowledge and perception has to be brought into play to understand both the existing and the new emerging trends of population distribution and characteristics. The other very important aspect of the data quality is to ensure complete coverage of all geographical areas especially for the population enumeration phase where the data is disseminated right up to the village level in the rural areas and the ward level in the urban areas. Thus ensuring the complete coverage and correct geographical linkage of each enumeration block was one of the major planks of the quality control, specially for small area population statistics.

A very comprehensive check and edit mechanism was put in place to objectively examine the preliminary Census 2001 Population Enumeration results and finally clear them for use. The responsibility of the final clearance of data was with the Task Force on Quality Assurance (TFQA), headed by the Registrar General and Census Commissioner, India. The other members of the TFQA were the Heads and senior officers of the Census Division, Data

Processing Division, Map Division, Demography Division and Social Studies Division. The Directors of Census Operations were co-opted as members whenever the TFQA discussed the data for their States/Union territories. The Directors and their senior officers were required to make detailed presentations of data for their own state both in respect to the quality and the coverage and only after the full possible cleared.

There has been a major departure in Census 2001 from the past in respect of the procedure followed for finalization of the Scheduled Castes and the Scheduled Tribes population. In the earlier censuses, the total The PCA Data for villages was presented CD Block wise were finalized at the time of the manual compilation of the Primary Census Abstracts (PCA) at the Regional

Tabulation Offices which were specially set up for this purpose. The individual Scheduled Castes and the Scheduled Tribes population for each state was finalized much later based on manual coding done by the coders. In 2001 Census, each individual Scheduled Caste and the Scheduled Tribe have been coded directly on the computers by the Data Entry Operators through a process known as Computer Assisted Coding (CAC) and taken up along with the processing of PCA data. The CAC process involves pulling down, from the relevant dictionary of the Scheduled Castes and the Scheduled Tribes, on the computer screen and coding from the dictionary by referring to the image of the specific individual entry in the Household Schedule appearing on the screen. The CAC of the response on Religion wherever required, was also undertaken along with the processing of PCA. This is because the Scheduled Castes status had to be determined in relation to the religion of the individual. Two Special Task Forces, one on Religion and the other on Scheduled Castes/Scheduled Tribes were constituted for scrutiny and appropriate classification of these responses.

The main task of the Special Task Force on Religion was to appropriately merge or group the new responses encountered and code it into the appropriate religious community based on available literature and local knowledge. The Special Task Force on Scheduled Castes and Scheduled Tribes examined the different Scheduled Castes and Scheduled Tribes entries encoun-tered and classified these into appropriate category of the Scheduled Castes or the Scheduled Tribes principally based on the Presidential Notification and the available literature. Thus a very systematic and scientific mechanism was operationalised to firm up the individual religion and the individual Scheduled Castes/Tribes returns. The Scheduled Castes and the Scheduled Tribes population in 2001 Census, is thus being finalized by aggregating the population data for individual Scheduled Castes and the Scheduled Tribes at appropriate geographical levels.

The entire work relating to the data validation and scrutiny was completed by all the States/Union Territories under the overall supervision and monitoring of the Census Division of the Office of the Registrar General, India with active cooperation and support of the Social Studies Division, Data Processing Division, Data Dissemination Division and Map Division.

Primary Census Abstract

The Primary Census Abstract which is yet another important publication of 2001 Census gives basic information on Area, Total Household, Total population, Scheduled Castes, Scheduled Tribes population, Population in the age group 0-6, Literates, Main workers and Marginal workers classified by the four broad industrial categories, namely (i) Cultivators, (ii) Agricultural labourers (iii) Household Industry Workers and (iv) Other workers and also Non-workers. The characteristics of the Total population includes Scheduled Castes, Scheduled Tribes, Institutional and Houseless population and are presented by sex and rural-urban residence. This data is presented at different levels, namely India, State/Union Territories, Districts and Cities, Urban Agglomerations (Population 1,00,000 and above) in three different tables. In addition, the Appendix of said publication provides Houseless and Institutional Households and their population by residence and sex for 2001 for India, State and Union territory.

Apart from the India and State/Union Territory volumes for Primary Census Abstract, the District Census Handbook contains District Primary Census Abstract, Appendix to District Primary Census Abstract, Primary Census Abstract for Scheduled Castes, Primary Census Abstract for Scheduled Tribes, Village Primary Census Abstract and Urban Primary Census Abstract of the concerned district in the state.

It was for the first time at the 1981 Census that the Primary Census Abstract (PCA) was brought out for the Scheduled Castes and the Scheduled Tribes separately on the pattern of General Primary Census Abstract. This practice was continued in 1991 also. In the 1961 and 1971 Censuses, such data were made available in Table C-VIII-Social and Cultural table and to some extent in the series 'Special Tables for Scheduled Castes/Scheduled Tribes'.

The format of Primary Census Abstract has been restructured slightly in the 2001 Census as compared to that of 1991 Census. The nine-fold industrial classification of main workers given in the Primary Census Abstract of 1991 Census has been discontinued and its place, four-fold industrial classification of both 'main workers' and 'marginal workers' are included. In 1981 census only main workers were presented in to four categories. One of the novel features of the primary census abstract of 1991 census was the presentation of data of the population of age group 0-6 is continued in 2001 Census also. This will help the data users in better analysis and understanding of this literacy data.

Level of presentation in District Census Handbooks:

The Primary Census Abstract data in different PCAs are presented at different levels. The level of presentation of Primary Census Abstracts are as under:

The PCA Data for villages was presented CD Block wise for the first time in 1991 Census. This practice is continued in 2001 Census also. The data for each CD Block is presented both for rural and urban areas separately. All the villages within the CD Block constitute the rural portion and the Census Towns and Outgrowths are shown under the urban portion of the CD Block. In case a CD Block is spread over two or more districts, than portion which falls within the district is presented, the data pertaining to remaining portion of the CD Block is presented in the concerned District Census Handbook. The data in the Urban Primary Census Abstract for each town as well as for town with outgrowths in the district are presented. The data for all the wards and the outgrowths of the town(s) are also presented separately below the concerned town(s).

The District Primary Census Abstract is presented in 59 columns. The Primary Census Abstract for Scheduled Castes and Primary Census Abstract for Scheduled Tribes are presented in 52 columns. The Village Primary Census Abstract and Urban Primary Census Abstract are presented in 58 columns.

The concepts and definitions used in the column heading are explained under the sub heading 'Census Concepts' in the Analytical Note. The term 'Total Population' includes the Scheduled Castes, the Scheduled Tribes, the Institutional and the Houseless populations. The explanation regarding area figures presented at various level in the Primary Census Abstracts are as follows:

Area Figures

The area figures supplied by local revenue authorities of the district in respect of tehsils, Police Stations and by the local bodies in respect of towns are given in square kilometers. The area figures of the villages supplied by the Tahsildars in acres have been converted and shown in hectares. The area figures of the CD Block is the total of the village areas coming under each CD Block. The area figures for the district are the same as adopted by the Surveyor General of India to maintain uniformity at the national level. The total area figures of all the tahsils/CD Blocks within the district may not tally with area figures of the district because former represents land use area only. Similarly, the total of all the villages may not tally with the entire rural of Police Station/Tahsil. The difference may be due to the fact that while the area covered by hills, forests and rivers etc, have been accounted in the Tahsils and P.S. level the same may not be covered under the area of the villages. Apart from this it may also differ due to varying methods of computation adopted at different levels.

An appendix to District Primary Census Abstract has also been furnished showing urban enumeration block-wise particulars on Total Population, the Scheduled Castes Population and the Scheduled Tribes Population for each town.

Tribes Population for each town.

The following Abbreviations have been used in the Primary Census Abstract for facility of presentations:

1	Municipal Corporation/ Corporation	M.Corp.
2	Municipality	M
3	Municipal Council	MCI
4	Cantonment Board/Cantonment	CB
5	Notified Area/Notified Area Committee/Notified Committee	NAC
6	Industrial Notified Area	INA
7	Gram Panchayat/ Village Panchayat	GP
8	Nagar Panchayat/ Town Panchayat	NP
9	Census Town	CT
10	Total	T
11	Rural	R
12	Urban	U

The following conversion factor has been used for converting areas into hectares and hectares into km^2

Acres x 0.40467 = hectares

100 Hectares = 1 Km^2

Note: { Represents Group Gram Panchayat.

Note: As the data of 2001 Census is not available, data of 1991 Census have been discussed in Annexure II and III. The data of 2001 Census have been discussed in Annexure IV, VI, VII and VIII, while Annexure V provides the recast data of 1991 Census and separate data of 2001 Census.

ANNEXURE – II

FERTILITY AND MORTALITY-1991 CENSUS

Fertility Level:

Population is a dynamic variable and keeps on changing. Increase due to birth and decrease due to death affect the population size of an area. Thus the birth and death are the two most important vital events. Natural increase is the excess of population by births over decrease of population by deaths at a given point of time. The births have direct correlation with the fertility.

The data on fertility levels and trends as revealed by the fertility indices of the 1991 Census like Crude Birth Rate (CBR), Age Specific Fertility Rate (ASFR) and Total Fertility Rate (TFR) are presented and analyzed below. The Definitions and concepts of fertility indices frequently used have already been explained in Analytical Note.

Death Rate:

Death process in demographical terminology is called as mortality. The rate at which death events occur reveal about the standard of living and state of health. Statistical data on causes of death help us in controlling the spread of diseases and suggests new curative methods to medical authorities.

Child Mortality:

Information about questions on children ever born and children surviving canvassed for all ever married women was tabulated by age of the mother. From this, estimate of child mortality have been worked out by using Brass technique.

Source: Occasional Paper No 1 of 1997.

The Annexure III shows various fertility indicators of all the districts and the state as per 1991 Census. It can be observed that Bhavnagar district has Crude Birth Rate (CBR) of 35.0 with Total Fertility Rate (TFR) of 4.6. Both the rates are higher than the State (CBR) of 33.6 and TFR of 4.2. Total Marital Fertility Rate (TMFR), General Fertility Rate (GFR) and General Marital Fertility Rate (GMFR)of Bhavnagar district are 5.9, 151 and 195 respectively which are higher than the State TMFR of 5.4, GFR of 136 and GMFR of 175.

The child woman ratio, in the district, was 549 for the age group of (0-4) which was higher than the State CWR of 467 whereas CWR (5-9) of the district was 674 which was also higher than the state CWR of 571.

Mean age at marriage means age at which woman was married. In case a woman was married more than once the age at which she was first married was recorded. The mean age at marriage in Bhavnagar district as per 1991 Census was 19.1 and the same for Gujarat State was 19. Thus the mean age at marriage in Bhavnagar district was fractionally higher than that of State.

NUMBER OF CHILDREN EVER BORN AND SURVIVING PER EVER MARRIED WOMAN IN AGE GROUP 45-49, 1991 CENSUS

Source: Gujarat State District Profile 1991.

There were 4.7 children born per ever married woman in the age group of 45-49 with 4.3 surviving children per woman in Bhavnagar district. Both of these indicators were higher than those of the State.

ANNEXURE – IV

PERCENTAGE DISTRIBUTION OF MIGRANTS BY PLACE OF BIRTH/ PLACE OF LAST RESIDENCE, 2001 CENSUS

Migration

Migration is a factor in changing the size and structure of the population. The migration process affects the areas to which migrants have moved and areas which they have left. Migration is a form of geographical mobility between one geographical unit to another, involving a change of residence from the place of origin/birth to the place of destination or place of new settlement from the last residence. A person is considered as a migrant by place of birth if the place in which he is enumerated during the Census is other than the place of birth. Similarly a person is considered as a migrant by place of last residence if the place in which he is enumerated during the Census is other than his place of immediate last residence.

Internal and International Migration

The migration movements are of four types –

1. Migration within the district of enumeration (intra-district migration)
2. Migration from one district to another but within the State
3. Migration from one state to another state of the country (inter-state migration) and
4. Migration from one country to another country.

The first three together constitute internal migration while the last type of movement is called international migration.

Migration by place of birth :

The absolute number and percentage distribution of Migrants by place of birth in total population of Bhavnagar district and the State at 2001 Census are as following.

PERCENTAGE DISTRIBUTION OF MIGRANTS BY PLACE OF BIRTH-2001 CENSUS

Migration By Place of Birth	Gujarat			Bhavnagar		
	Persons	Males	Females	Persons	Males	Females

	(0.0)	(0.0)	(0.0)	(0.0)	(0.0)	(0.0)

Source: Gujarat State-D-Series Tables-2001

As per 2001 Census there were 18,810,592 migrants in Gujarat whose place of birth was different than the place of enumeration. Out of such migrants, as per 2001 Census 56.9 per cent were born elsewhere in the district of enumeration, 29.2 per cent were born in other districts of the State, 13.4 per cent were born in other States of India and 0.4 per cent were born in other countries.

It can be seen that as per 2001 Census in Bhavnagar district there were 765,860 migrants whose place of birth was different than the place of enumeration. In Bhavnagar district, out of these migrants, 70.9 per cent were born elsewhere in the district of enumeration, 24.4 per cent were born in other districts of the State, 4.4 per cent were born in other States of India and 0.3 per cent were born in other countries.

INTER STATE IN-MIGRANTS TO GUJARAT STATE AS PER 2001 CENSUS BY PLACE OF BIRTH

Place of Birth	Gujarat		Bhavnagar	
	Migrants	Percentage to Total Migrants	Migrants	Percentage to Total Migrants
1	2	3	4	5
Total Migrants	**2,520,676**	**100.0**	**33,582**	**100.0**
Madhya Pradesh	159,055	6.3	1,648	4.9
Maharashtra	734,945	29.2	6,031	18.0
Rajasthan	471,109	18.7	3,025	9.0
Uttar Pradesh	520,094	20.6	11,131	33.1
Other States	635,473	25.2	11,747	35.0

Source: Gujarat State-D-Series Tables-2001

The above statements show migration in Gujarat and in Bhavnagar district from other states as per 2001 Census. It can be seen that as per 2001 Census there were 2,520,676 persons in the State who were born in other States of India. Out of these 29.2 per cent were born in Maharashtra while the proportion of migrants born in Rajasthan and Uttar Pradesh was 18.7 and 20.6 per cent respectively. As per 2001 Census out of total inter State migrants 6.3 per cent were born in Madhya Pradesh and the remaining 25.2 per cent were born in other States of India.

In 2001, in Bhavnagar district, the number of such migrants were recorded at 33,582.The State-wise distribution reveals that as per as per 2001 Census 33.1 per cent of migrants were born in Uttar Pradesh.and 18.0 per cent were born in Maharashtra. In 2001 the proportion of migrants born in the States of Rajasthan, and Madhya Pradesh was 9.0 percent, 4.9 per cent respectively while the proportion of migrants born in other States was 35.0 per cent.

Migration by place of last residence:

Distribution of migrants by place of last residence in Gujarat and Bhavnagar as per 2001 Census and percentage distribution of in-migrants from other States to Gujarat by place of last residence are presented below.

DISTRIBUTION OF MIGRANTS BY PLACE OF LAST RESIDENCE IN GUJARAT - 2001 CENSUS

Place of last residence	Gujarat			Bhavnagar

Source: Gujarat State-D-Series Tables-2001

There were 19,221,602 migrants by place of last residence in Gujarat according to 2001 Census. The proportion of male and female migrants whose place of last residence was elsewhere within the district of enumeration was 52.4 per cent and 69.8 per cent respectively in 2001 Census in the case of Gujarat State. The reason for higher proportion of female migration is marriage. In Gujarat as per 2001 census, 63.7 per cent migrants were residing elsewhere in the district of enumeration, 24.6 per cent were such whose last residence was in other districts of the State while last residence of 11.4 per cent migrants was in other States of India and only 0.3 per cent were such whose last residence was in other countries. There were no migrants in the category titled "Unclassified".

There were total of 784,754 migrants by place of last residence in Bhavnagar district as per 2001 Census. Out of total migrants, 75.5 per cent migrants were such whose last residence was in the district of enumeration, 20.5 per cent were such whose last residence was in other districts of the State while last residence of 3.8 per cent migrants was in other States of India and only 0.3 per cent were such whose last residence was in other countries. There were no migrants in the category titled "Unclassified".

Migration by reason:

The following statement gives distribution of migrants by reasons of migration from other States of India.

MIGRATION FROM OTHER STATES OF INDIA BY PLACE OF LAST RESIDENCE IN GUJARAT 2001

States	Total Migrants	Reason

Source: Gujarat State-D-Series Tables-2001

It can be seen from the data given above that the main reason for the migration was "Work/ employment". As much as 30.3 per cent of migrants moved due to work or employment as per 2001 Census, this was followed by 26.5 per cent of migration which was due to the reason of "Moved with household". In 2001, the proportion of migration due to marriage was 17.0 per cent. The reason for 9.4 per cent of migration was Business, and 6.2 per cent of migration was due to the reason titled "Moved after birth" and only 0.6 per cent of migration was for Education. The remaining 10.2 per cent of migration was due to other reasons.

ANNEXURE – V

BRIEF ACCOUNT OF MAIN RELIGIONS IN THE DISTRICT AS PER 1991 AND 2001 CENSUSES

Religion is the basic cultural characteristics of the population. In secular country like India several religions have thrived and every decennial Census provides an interesting picture of the religious persuasions of the people. The data on religion yielded by the Census are of immense use for the Anthropologists, Sociologists, Demographers, Administrators, and Planners and also for laymen.

The six main religions i) Hindu, ii) Muslim, iii) Christian, iv) Sikh, v) Buddhist, and vi) Jain were recorded. In respect of 'Others', the actual religion returned was recorded. If a person said that he has no religion, it was recorded accordingly and if any person refused to state his religion it was recorded as 'religion not stated'.

Source: Gujarat State-C-Series Tables-2001

The statement above gives the details of distribution of population for Gujarat State and Bhavnagar district by six major religions as per 2001 Census. The 2001 Census data reveals that the proportion of Hindus was 89.1 per cent in the State of Gujarat against 91.7 per cent recorded in Bhavnagar. In comparison, in 1991 the proportion of Hindus at State level was 89.5 per cent while in the district the proportion of Hindus was 91.4 per cent.

The proportion of Muslims was 6.6 per cent in the district in 1991 which stood at 7.0 per cent in 2001. At State level the proportion of Muslims was 8.7 per cent in 1991 and 9.1 per cent in 2001 Census. The proportion of Christian, Jain, Sikh, Buddhists, people following other religions and of people who did not state any religion was negligible in Bhavnagar in 1991 as well as in 2001 Census. It may be noted that in number terms population of Christian, Sikh, Buddhist, people following other religions and of people who did not State any religion had increased in 2001 as compared to 1991 while population of Jain had shown a decrease in 2001 as compared to 1991.

ANNEXURE-VI

MARITAL STATUS OF POPULATION AS PER 2001 CENSUS

The details of sex-wise marital status for Gujarat State and Bhavnagar District as per 2001 Census are given below:-

MARITAL STATUS BY SEX-2001 CENSUS

Source: Gujarat State -C - Series Tables-2001

In 2001 in rural areas the proportion of never married persons was 47.7 per cent in Gujarat and 51.7 per cent in Bhavnagar. In 2001 in urban areas the proportion of never married persons was 47.5 per cent in Gujarat and 49.2 per cent in Bhavnagar. As per 2001 Census the proportion of married persons, in rural areas, was 47.4 per cent in Gujarat and 44.4 per cent in Bhavnagar. The proportion of married persons in urban areas of the State was 48.4 per cent while the same was 46.7 per cent in Bhavnagar. The proportion of widowed in rural areas, was 4.4 per cent in the state and 3.7 per cent in the district. The same for urban areas was 3.7 per cent in the State and 3.8 per cent in the district. The proportion of Divorced/ Separated was 0.4 per cent in the State and 0.2 per cent in the district. There was no population reported under the category titled “Unclassified”.

ANNEXURE – VII

AGE, SEX AND EDUCATION IN THE DISTRICT AT THE 2001 CENSUS

Literacy has occupied an important position in Indian Census in one form or the other from the very beginning. The definition of literates as adopted is "A person who can both read and write with understanding in any language is to be taken as literate". A person who can merely read but can not write was not treated as literate. It is not necessary that a person who was literate should have received any formal education or should have passed any minimum educational standard. All children below the age 7 are treated as illiterate. While processing the literacy data population of age group 0-6 is excluded.

The following statement gives the distribution of literates and illiterates by broad age groups and sex in the district as well as the State at the time of 2001 Census :-

LITERACY BY AGE -GROUP AND BY SEX-2001

Age Group	Particular	Gujarat			Bhavnagar		
		Persons	Males	Females	Persons	Males	Females
1	2	3	4	5	6	7	8
7-14	Population	9,091,764	4,814,440	4,277,324	492,143	258,284	233,859
	Literates	7,599,713	4,206,428	3,393,285	412,040	228,469	183,571
	Literacy rate	(83.6)	(87.4)	(79.3)	(83.7)	(88.5)	(78.5)
15-29	Population	14,247,890	7,477,081	6,770,809	671,841	346,177	325,664
	Literates	11,060,357	6,435,890	4,624,467	499,066	292,089	206,977
	Literacy rate	(77.6)	(86.1)	(68.3)	(74.3)	(84.4)	(63.6)

Source: Census of India, C- Series Tables-2001

It can be seen from the statement that in 2001 the highest proportion of 83.6 per cent literacy rate in Gujarat State is registered in age group of 7-14 years followed by 77.6 per cent in 15-29 years age group. The same trend can be observed in Bhavnagar district where the highest proportion of 83.7 per cent is registered in the age group of 7-14 years followed by 74.3 per cent in the age group of 15-29 years. The lowest proportion of 39.5 per cent in State and 32.5 per cent in Bhavnagar district is found in the age group of 60 + years. As per 2001 Census the female literacy rate was lower than that of males in each and every age group in the State as well as in Bhavnagar District.

LITERACY BY EDUCATION LEVEL-2001 CENSUS
