LAKHOTA PALACE

The Lakhota Palace in the shape of large bastion, is situated on an island, in the middle of the Lakhota Tank. An arched stone bridge with balustrade connects the Lakhota Palace with the town. It was constructed as a famine relief work in 1839-45 AD. The elaborate entrance gateway with carved jharokhas at upper level, over looking the tank, the stark blank wall at the base give it a look of invincible fortification. It has been converted into a museum in 1946. It has a fine collection of sculptures, coins, inscriptions and copper plates and the skeleton of a whale. The walls are adorned with frescos depicting scenes of battle fought by Jadeja Rajputs against various enemies.

Annexure - VIII : Distribution of different Mother Tongues returned in 1991 and 2001 Censuses. 685

Foreword

TheDistrict Census Handbook (DCHB) published by Census Organisation since 1951 census, is one of the important publications in the context of planning and development at gross-root level. The publication, which is brought out for each district, contains several demographic and socio-economic characteristics village-wise and town-wise of the district alongwith the status of availability of civic amenities, infrastructural facilities, etc.

2. The scope of the DCHB was initially confined to a few Census Tables and Primary Census Abstract (PCA) of each village and town within the district. Thereafter, at successive censuses, its scope and coverage has been enlarged. The DCHB published at the 1961 census provided a descriptive account of the district, administrative statistics, census tables and a village and town directory including PCA. The 1971 census-DCHB series was in three parts: Part-A related to village and town directory, Part-B to village and town PCA and Part-C comprised analytical report, administrative statistics, district census tables and certain analytical tables based on PCA and amenity data in respect of villages. The 1981 census DCHB was in two parts: Part-A contained village and town directory and Part-B the PCA of village and town including the SCs and STs PCA up to tahsil/ town levels. New features alongwith restructuring of the formats of village and town directory were added into it. In Village Directory, all amenities except electricity were brought together and if any amenity was not available in the referent village, the distance in broad ranges from the nearest place having such an amenity, was given. Information on new items such as adult literacy centres, primary health sub-centres and community health workers in the village were provided so as to meet the requirements of some of the Revised Minimum Needs Programme. Information on approach to the village was provided for the first time in the Village Directory so as to give the details on number of inaccessible villages in each district. In the Town Directory, a statement (IV-A) on slums was introduced to provide the details on civic and other amenities in the notified slums of Class I and Class II towns.

3. The 1991 census of DCHB, by and large, followed the pattern of presentation of 1981 census, except the format of PCA was restructured. Nine-fold industrial classification of main workers was given against the four-fold industrial classification presented in the 1981 census. In addition, sex-wise population in 0-6 age group was included in the PCA for the first time with a view to enable the data users to compile more realistic literacy rate as all children below 7 years of age had been treated as illiterate at the time of 1991 census. One of the important innovations in the 1991 census was the Community Development Block (CD block) level presentation of village directory and PCA data instead of the traditional tahsil/taluk/PS level presentation. It was expected that the presentation of village directory and PCA data at CD block level will help the planners in formulation of micro level development plans, CD block being lowest administrative unit.

4. The present series of 2001 census DCHBs have been made more informative and exhaustive in terms of coverage and content. The Village Directory has been enlarged in scope by including a number of other facilities like banking, recreational and cultural facilities, newspapers and magazines and 'most important commodity' manufactured in village. Income and expenditure of gram panchayat, wherever possible, has been provided. Apart from these, more details on distance(s) at which basic amenities are available (if not available in the village), are given. This includes educational facilities (namely primary and middle schools and college), medical facilities (viz. Allopathic Hospital, Maternity & Child Welfare Centre and Primary Health Centre), drinking water, post & telegraph (post office and phone), communication, bank, credit societies and recreational facilities. In Town Directory, the statement on Slums has been modified and its coverage enlarged by including details on all slums in instead of 'notified slums'. The information is given in case of all statutory towns irrespective

of their class, against only Class I and Class II towns in the 1981 and 1991 Censuses. The basic amenities available in the villages and towns are analysed in depth with the help of a number of cross-classified inset tables and statements. Two other significant additions in the publication are inclusion of 'motif highlighting significant characteristic of the district and analytical notes as annexures. The analytical notes on (i) fertility and mortality and (ii) various measures of fertility and mean age at marriage are prepared based on 1991 Census. Whereas, in the notes relating to (i) percentage distribution of migrants by place of birth/place of last residence, (ii) main religions, (iii) marital status of population, (iv) age, sex and education, and (v) distribution of spectrum of mother tongue, nature and extent of changes occurred in the district in its basic socio-demographic features during the decade 1991-2001 are analysed. The eight digits permanent location code (PLCN) to all the villages and towns have been assigned keeping in view the future needs.

5. The village and town level amenity data have been collected, compiled and computerised in prescribed record structure under the supervision of **Shri Jayant Parimal**, Director of Census Operations, Gujarat. Thereafter, efforts have been made to ensure comparability of the information with that of 1991 census data and the information brought out by the respective state governments in their annual reports and statistical handbooks for various years after 1991. The task of planning, designing and coordination of this publication was carried out by Shri R.G. Mitra, Deputy Registrar General (C&T) and Dr. I.C. Agrawal, Senior Research Officer of Social Studies Division. Dr. R.P. Singh, Deputy Registrar General (Map) provided the technical guidance in the preparation of maps. Whereas, Shri Anil Kumar Arora, Deputy Director of Data Processing Division who worked under the overall supervision of Shri Himakar, Addl. Director(EDP) helped in preparation of record structure for computerisation of village and town directory data and the programme for the generation of Village Directory and Town Directory statements including analytical inset tables. The draft DCHB manuscripts received from the Census Directorates have been scrutinised in the Social Studies Division under the guidance of Shri S.L. Jain, Deputy Director and Shri R.K. Mehta, Assistant Director. I am thankful to all of them and others who have contributed to make this publication possible.

D. K. Sikri,
Registrar General &
Census Commissioner, India

New Delhi
Dated : 17-10-2006.

Preface

Census is being conducted in the country every ten years as per the programme laid down by the Government of India. In this day and age of information technology, an individual has access to a variety of information covering a Kaleidoscope of interest and fields. Availability of relevant information is very vital for planners, policy makers and researchers.

The Five Year Plans have come to stay in the country and whatever development is achieved as a result of implementation of planning from the bottom level such as development of infrastructure facilities as well as basic amenities, etc. is reflected in the District Census Handbooks and they give to the readers a searching eye whether the development over the years in villages/talukas/districts is lopsided or upto the mark. This is the basic requirement of this type publications and an attempt has been made to show whether the census handbooks reasonably fulfill these aspirations/requirements.

These district Handbooks are thus useful to planners in planning from bottom as well as to administrators, researchers, educational institutions including universities and other socio-economic research centres as well as students conducting research in demography, social and economic studies as well as to the local bodies like Panchayats, Municipalities and Municipal Corporation etc.

District Census Handbook of Gujarat is a joint venture of the Government of Gujarat and the census organization of the Government of India. In the preparation of the DCHB, the role played by the census organisation is that of Census data collection, scanning of collected information, analysis of PCA. DCHB Unit of the State Government collected the basic non-census information on availability of amenities relating to infrastructure in the villages of the district presented in the part A of this book. The cost of this publication is borned by the State Government. In accomplishing this task we had the ready and whole hearted co-operation of the staff at various levels of different department of the State Government. Most of the data supplied by the various departments have been cross-checked and an attempt has been made to reconcile the discrepancies as well.

I express my deep gratitude to the officers of Gujarat Government particularly Shri PK.Laheri, Chief Secretary of Gujarat State, Smt. Netraben Shenoy, Additional Chief Secretary of General Administration Department (Planning), Shri George Joseph, Principal Secretary, General Administration Department (Personnel), Shri K.R.Vasava, Deputy Secretary, Kum.P.S. Mevada, Under Secretary and Shri P.D.Kulkarni, Section Officer of General Administration Department, Planning, Shri S.D.Mehta,Deputy Secretary and Shri I.M.Sheikh, Under Secretary, Shri Bipin Patel, Section Officer and Shri P.N.Christian, Deputy Section Officer of G.A.D. (Kh-3) for their valuable help and co-operation in fulfilling all administrative requirement in time for bringing out this publication. I am also thankful to Shri P.M. Patel, Director, Economics and Statistics helped this organisation not only by placing the competent personnel on disposal of census services on deputation but also provided valuable official statistics for this publication.

The District Collector, the District Development Officer, District Statistical Officer, District Information Officer and their staff members extended their warm and whole hearted co-operation for carrying out field work of the census and collection of non-census data for this District Census Handbook.

I am deeply grateful to Shri J.K. Banthia, I.A.S., the Ex-Registrar General and Census Commissioner, India for the benefit I have derived by the way of guidance and advice. I also express my thanks to Shri R.G. Mitra, Deputy Registrar General(C&T) Shri C. Chakravorty, Joint Director, Shri I.C. Agrawal,Senior

Research Officer(SS), Shri S.L. Jain, Deputy Director(SS), Shri R.K. Mehta, Assistant Director(SS), Shri R.P. Singh, Dy. Registrar General(Map), Shri Himakar, Addl. Director (EDP) and Shri Anil Kumar Arora, Deputy Director (EDP) for providing technical guidance in finalising this publication.I am extremely thankful to Shri D. K. Sikri, IAS, Registar General & Census Commissioner, India for his valuabe guidance in finalizing of this publication.

Shri Jayant Parimal, I.A.S. who held the office of Director of Census Operations, Gujarat, had guided the operations of the 2001 Census. The data presented in this handbook were collected and compiled under the able direction and guidance of Shri Parimal.Our sincere and grateful thanks for all the projects of census to him.

In state office Smt. B.B. Chauhan, Deputy Director, District Census Handbook Unit, Kum.S.B.Dabhi, Assistant Director, Shri S.B. Dalvi, Deputy Section Officer of District Census Handbook Unit, and their team of able assistants meticulously collected and scrutinized the non-census data from various sources and prepared draft of DCHB etc. with the help of Census section. The other officials of D.C.H.B. Unit, who scrutinised, edited and supervised the work of D.C.H.B. have been mentioned in the "Acknowledgement". The maps provided in the D.C.H.B. are prepared by the Map Section of the Census Directorate under the supervison of Shri J.P. Purohit, R.O(Map). I am thankful to all of them.I am thankful to the census section of the Directorate for scrutinizing the PCA data, specially Shri J.N.Pithadia, Investigator Grade-I and Kum.N.V.Shah, Investigator Grade-III who provided assistance to me in finalizing P.C.A. data at every stage. Smt. J.R.Sanghani, Investigator Grade-III of this Directorate assisted me for final scrutiny of D.C.H.B., I am thankful to her.

Lastly, I am thankful to the Government of Gujarat for having agreed readily to bear the cost of publication of the District Census Handbook volumes and for the special efforts of Shri R.B. Raval, Director, Printing and Stationary and his colleagues to print out the publication in a very nice fashion.

Note: Two villages are fully covered as out growths (OGs) and therefore not included under the item, "Number of villages".

Definition of Census Town : -

All places which satisfy or are expected to satisfy the following criteria are treated as Census Towns:-

i) A minimum population of 5,000;

ii) At least 75 per cent of the male working population engaged in non-agricultural pursuits, and

iii) A density of population of at least 400 per square kilometre (1,000 per square mile).

Note : *These figures represent 'Geographical area' figures supplied by the Surveyor General. Figures for urban area are those supplied by the local Bodies. Area figures for rural are derived by subtracting the urban area from the total area of the District. The total of the area figures of talukas will not tally with the district figures because the former represents 'Land Use Area' and are derived from the figures supplied by the Director of Land Records.

ANALYTICAL NOTE

ANALYTICAL NOTE

(i) History and Scope of the District Census Handbook. :

Before the 1951 Census, the Census figures were published in a booklet known as 'Village Handbook', which contained only villagewise population figures. These books were prepared and published by the Directorate of Census Operations of the State.

The Directorates introduced the District Census Handbook for the first time in 1951 Census. It comprised the villagewise primary census abstract figures and information on available amenities. It also contained several tables relating to the district. It varied in content and size from State to State depending upon the resources offered by the respective State Governments.

In 1961 Census, a uniforn pattern of District Census Handbook was adopted throughout the country. The Directorate of Census and the State Government jointly executed the project. In addition to the English version, it was published for the first time in Gujarati language also. The District Census Handbook 1961 was published in three parts. Part I related to Introductory Note i.e. general and economic information for the district and a brief gazetteer of place names. Part II pertained to census tables, villagewise list of industrial establishments, tables on handicrafts and departmental statistics. Part III consisted of village directory covering the amenities and primary census abstract data combined in one statement. It also covered district and taluka maps.

It is worthwhile here to note that the State Government created a separate unit for preparing and publishing the District Census Handbook since 1971 Census onwards. In the 1971 Census, the contents of District Census Handbook were modified. In the preceding censuses the data on amenities and primary census abstract were covered in one statement whereas in 1971 Census, the data on amenities and primary census abstract were separated into two different parts.Thus, the coverage of amenities data was extended and the land use data were introduced for the first time since 1971 District Census Handbook. Moreover, a separate portion known as 'Town Directory' was also incorporated for the first time in the District Census Handbook. The 1971 District Census Handbooks were published in three parts. Part A contained the village and town directory. Part B contained village and town wise primary census abstract data and Part C contained official statistics, besides full count census tables, urban census tables and analytical report on census and related statistics socio-economic and cultural tables (Rural areas) and housing tables. Part A and Part B were combined and published in one volume.

The District Census Handbook –1981 was brought out in two parts, Part-A and Part-B. Part-A contained the village and town directory whereas Part-B included the primary census abstract data, for both General population and Scheduled Castes/Scheduled Tribes. Both parts were published in one volume. Part C brought out for 1971 Census was dropped in 1981 Census. However, official statistics and some portion of analytical notes of part C of 1971 Census were also included in the 1981 District Census Handbook also.

For the 1991 Census, the District Census Handbooks were prepared more or less on the same lines of the preceding 1981 Census. In 2001, the scope of both Part A and Part B has been enlarged by giving several additional information which got possible because of large-scale computerization.

The District Census Handbook has been prepared after scanning and processing of data collected through Houselist Schedule and Household Schedule. Several innovations have been introduced at almost all the stages of the Census of India, 2001, right from the preparatory efforts of data processing and dissemination stage. This includes certain fundamental changes in the form and contents of the Houselist and Household schedules, while maintaining the continuity and comparability of the basic housing and population characteristics with the earlier census. For the Census of India 2001, a system of Permanent Location Code Number (PLCN) has been adopted by assigning a permanent number to each village within the State/UT a continuous series from I to N. Each village has been assigned an eight-digit code.

The last two digits being '00' are kept for accommodating future changes in case of split of an existing village or creation of new villages etc. Since the permanent Location Codes have been assigned to each village, theoretically tracing the precise location of village on account of future jurisdictional changes in the boundaries of various administrative areas within the state should not pose a problem. It is imperative that under this scheme, the PLCN assigned to villages at the Census of India, 2001 are adopted in future censuses also to ensure the comparability of the data at the village and other administrative levels over a long time series. At the 2001 census age at marriage was collected for males also, while it was collected for only ever- married females until the 1991 Census.The type of educational institution attended by a person was enlarged to include school, college, vocational institute.The scope of the definition of 'work' was expanded in the Census of India, 2001, to includes production of milk for domestic consumption. In the 1991 Census, cultivator of certain crops even for self-consumption was treated as economic activity. The scope of the term 'Cultivation' was expanded in 2001 Census to include certain other crops such as tobacco, fruits, all types of flowers, roots and tubers, potatoes, chilies and turmeric, pepper, cardamom, all types of vegetables and fodder crops etc. This meant that activities related to production of all the above-mentioned crops for domestic consumption have been treated as work. Only five crops viz. tea, coffee, rubber, coconut and betel - nuts have been classified under 'Plantation' in the Census of India 2001.

- At the 1991 Census, the question on seeking/ available for work was canvassed for only non-workers. At the Census of India 2001, this question is asked from the Marginal Workers also. A question to elicit information on secondary work canvassed at the 1991 Census was dropped.

- From among the categories of non-workers adopted at the 1991 Census, the category 'Inmates of institutions' has been dropped and 'Retired Persons and Rentiers' has been replaced by the category 'Pensioners'.

- A new response category 'Moved after birth' was included in the question on reason for migration to bring out additional migration patterns. Natural calamities or distress migration as a reason for migration for last residence migrants included in the 1991 Census was covered under category of 'Other'.

- Number of children born alive to currently married women during last one year was collected for male and female children separately.

Besides the above modifications, the following new questions were canvassed at the 2001 Census.

- A question on total disability was canvassed in the 1981 Census. In the 1991 Census, no question on disability was included. At the Census of India, 2001, a question to elicit information on total or partial disability was canvassed. The five types of disabilities on which information is collected are - in seeing, in hearing, in speech, in movement and for mental.

- A new question on 'Travel to place of work' was canvassed mainly for workers engaged in non-agricultural activities. Information on distance from the residence to place of work and mode of travel to place of work was collected under this question.

The mode of presentation of DCHB in 2001 will by and large be same as that of 1991. The uniqueness of Census 2001 is that single record (Household Schedule) has been processed as against two records viz. Individual Slip and Household Schedule in the previous Censuses. Apart from this some deviation has been made this time by incorporating analytical notes on migration, fertility & mortality, education, marital status, age structure etc. pertaining to 1991 Census of the respective district in the DCHB in the form of Annexure II to VIII. Similarly Tables based on Houselist data pertaining to Census 2001 has also been included in DCHB.

(ii) Brief History of The District :

The district now dealt with was organised for the first time in 1948. It was termed 'Halar' as it formed part of one of the four prants or sub divisions of the Kathiawar Agency into which the peninsula of Kathiawar was sub

divided by the British for political purposes. The Government of Saurashtra adopted these for naming the districts formed by it after integration. This district as originally organised included class I State of Nawanagar, class II State of Dhrol, taluka of Dhrafa and part of Jalia, Dewani Thana.

The origin of the term 'Halar' can however be traced to Jam Hala who crossed over from the north, entered Saurashtra and conquered the greater part of the territory held by the Jethwas of Ghumli. His descendant, Jam Raval consolidated his position by conquering further territories from the Jethwas and founded the kingdom of Nawanagar. Jam Raval came to be known as Halani as he was the descendant of Jam Hala who named the territories. He conquered Halavar by contraction called 'Halar'. The district was renamed Jamnagar when Okhamandal of Amreli district formerly belonging to the Gaekwad of Baroda was added to it in the year 1959. The present district takes it name from the city and capital of Jamangar so named after the rulers who styled themselves Jams.

According to the literature and recent excavation at Dwarka, it proves that the site of the present Dwarka was known by this name at least by the beginning of the Christian era. The temple of Lord Krishna known as 'Dwarkadhish Temple' is situated at Dwarka in the district. According to the Hindu mythology the earliest conqueror of Okhamandal was Shri Krishna, also called Ranchhodji who is supposed to be the eighth incarnation of Lord Vishnu. Krishna established his kingdom at Dwarka after his migration from Mathura. Krishna was succeeded by his great grandson Vajranabh, who enjoys the reputation of having build the present temple of Dwarkanath also called Trilok Sundar.

The district has a rich ancient history. At the time of Mohmud Gazni's invasion of Gujarat in 1024 A.D. the coastal belt was ruled by the Jethwas near Khambhalia and Okhamandal. In about 1480 A.D. Sultan Mahmud Begdo had conquered this region. After conquest by Humayun of Gujarat, the Jams of Nawanagar established the kingdom which came to be known as 'Halar'. The Jams claim their descendant from Yadav and belong to the Jadeja Rajput race which organized from the Sammas who ruled at Nagar-Thatha in Sind and migrated too Kachchh. The Nawanagar State was recognized as a First Class State in 1863. Jam Raval was the founder of Jamnagar and he was descendant of Jam Hala and hence the area had been called as 'Halar'. Ranjitsinhji assumed kingship in 1907. He compared the taste of State Administration with the playing of the game of cricket and all through his life carried the burden of administration with all the spirit of a sportsman. The name of Jam Ranji has been imbibed in Indian cricket followed by World famous cricketers like Prince Dulipsinhji, Vinoo Mankad and Amarsinh. Jam Shri Digvijaysinhji was the first Raj Pramukh of the former Saurashtra State formed after independence. Jam Shri Digvijaysinhji took a very active part in the integration of princely State of Saurashtra and helped Sardar Vallabhbhai Patel in his difficult task of integration of political States. The first Chief Minister of Saurashtra and once congress president Shri U.N. Dhebar also hailed from Khambhalia town of this district.

The district became a part of bigger bilingual State of Bombay on 1st November 1956 and thereafter became part of Gujarat State on 1st May 1960 on the formation of Gujarat State.

(iii) Administrative Set-up :

With a view to run the administration of the State smoothly, it has been divided into Districts, which in turn have been further sub-divided into Talukas (Tahsils). In the State of Gujarat, the community development blocks are co-terminus with the Talukas. The Talukas contain large number of villages and possibly several towns. The villages have Village Panchayats to run the local administration. A Village Panchayat may constitute of one revenue village, several revenue villages or a part of a large village. Similarly, the towns have Municipality or Municipal Corporation as the seat of local self-government.

In the State of Gujarat, as on December 1999 there were 25 districts and 226* Talukas, against 19 districts and 184 Talukas in 1991 Census.But there was no administrative, territorial or internal change in Jamnagar district.

The District Collector looks after the general administration, maintenance of collection of land revenue and settlement of law related disputes, civil

* Vagdod taluka merged in the Patan taluka of the Patan district on 3rd July 2001.

supplies, district planning, mid-day meal scheme, etc at the district level. At the taluka level, Mamlatdar looks after the land development and revenue collection alongwith law and order. The functions of administration of law and order and control and investigation of crime are done by the Superintendent of Police of the district with the help of Police Stations working under him. For the purpose of maintaining law and order there are 8 police stations, 20 police chowky and 17 out-post in the district in 1999 as per statement below.

Police Station in the District

Sl. No.	Particulars	1997	1998	1999
1	2	3	4	5
1	Police Station	16	16	8
2	Police Chowky	8	8	20
3	Out Post	21	21	17

Source : Director General of Police, Gandhinagar ,2000

During the period of 1997 to 1999 number of police chowkies increased from 8 to 20, while number of police station decreased to 8 in 1999 from 16 in 1997 and the number of out-post decreased by 4 for the year 1999.

The Panchayati Raj institutions are fairly strong and most of the development works have been transferred to the District Panchayats and its subordinate bodies. The District Panchayat has an elected President and District Development Officer appointed by the Government, works as its Secretary, who looks after day-to-day work related to the development. Similarly, at the Taluka level, Taluka Panchayats have been constituted which have an elected President. The Taluka Development Officer, placed by the Government as Secretary of the Taluka Panchayats and he conducts the regular administrative work. Like wise, an elected President heads the Municipality and the Chief Officer works as the Secretary of the Municipality, who looks after the day-to-day work. In case of the large cities, the State Government has constituted Municipal Corporation, which are headed by an elected Mayor and the Municipal Commissioner, appointed by the Government, looks after the routine work. At the Village level, the Sarpanch is the elected Chief and the Talati (Village Mantri) works as the Secretary to the Village Panchayat and looks after the day-to-day work. In view of the expanding role of the public administration in a state like Gujarat, the Government has taken-up many activities and has set up several offices. Such offices which came into the existence are as under:

(1) Education (Primary and Higher Education)

(2) Agricultural and Research

(3) Animal Husbandry and Poultry

(4) Forest and Environment

(5) Roads and Buildings, Bridges

(6) Co-operation and Co-operative Societies

(7) Industries, Small and Large as well as Cottage

(8) Health and Medical Services, Medical Education and Research, Family Welfare and Nutrition

(9) Information Department

(10) Irrigation Minor and Major

(11) Social Welfare and Social Defence

The functions of above offices are managed and controlled by concerned Head of Departments and in some cases also by District and Taluka Panchayats. The task of providing primary education in rural areas has been entrusted to District Panchayats, The functions relating to Government providing primary education is assigned to District Primary Education Officer of District Panchayat who works under District Development Officer. The secondary education is looked after by District Education Officer of Education Department. Primary education as well as higher secondary education of all types of institutions is governed by District Education Officer.

Agriculture activities have been delegated to District Panchayat to a large extent and District Agriculture Officer is in-charge of looking after agricultural produce including crops and vegetables. Similarly Animal Husbandry is also a Panchayat activity and routine work is controlled by the Deputy Director (Animal Husbandry) who sits in District Panchayat taking care of animals and poultry farms. Besides, district agriculture office in Panchayat Offices such as Deputy Director (Agriculture) and other officials look after various aspects of agriculture for developing the sector as well as to extend necessary assistance to farmers at district level.

Besides Director, Animal Husbandry Officer of Panchayat offices such as Deputy Director (Animal Husbandry) Special Officers at Veterinary offices etc. In state government animal husbandry department also monitor activities of the sector at district level.

Public Health in rural area is assigned to the District Panchayat under the Chief District Health Officer who looks after epidemics, malaria control, water borne diseases and district level administration of Public Health Centres. District and Talukas Hospitals and Referral Hospitals are being looked after by the District Civil Surgeon of medical services in the State, while Medical Colleges and Research activities attached with the respective Civil Hospitals are controlled by Medical Education and Research Wing.

Family welfare activities are also monitored by the District Health Officer. Chief District Health Officer is also functioning as District Registrar of Birth and Death of the district and Talati cum Mantri is also Registrar of Death and Birth for the respective villages. Anaemic mothers and children upto to the age of 14 are looked after by Nutrition Officer under the Nutrition Programme.

District Ayurvedic Officer looks after the Ayurvedic dispensaries and hospitals. They also take care of the Ayurvedic plants and medicines and gardens. The District Food and Drugs Officer generally looks after the quality of the food and drugs in the district. Labourers and workers who are working in registered units are covered under the Employees State Insurance Scheme.

The rural roads have been transferred to the District Panchayats and their maintenance is done by the Executive Engineer, Roads and Buildings Department. Minor irrigation works are transferred to the District Panchayat and Executive Engineer (Panchayat) of the Panchayat's irrigation office looks after water harvesting and check dams.

The Roads and Buildings Department of State Government looks after the maintenance of roads, buildings, bridges and government multi-storey buildings etc. Besides Panchayat officials, major district roads and the state highways are looked after by the Executive Engineer (Roads & Buildings). The large multi-purpose irrigation projects are controlled by State Government directly through its Executive Engineers.

District Industries Centre is functioning to develop the small and village industries, handloom industries and the scope of industrial growth in the district. Besides, other departments are working for the rights of the industrial workers and rural labourers engaged in agriculture and others sectors.

Social welfare activities relating to the Scheduled Castes, Scheduled Tribes, Other Backward Castes and Other Backward Communities in the District are organized by the District Welfare Officer. Generally the schemes under Tribal Area Sub Plan and Special Component Plan are organized by the District Welfare Officer.

In each District Panchayat, District Statistical Officer of Directorate of Economics and Statistics looks after co-ordination of different development programmes. He is also Member-Secretary of District Planning Board. Similarly in every Collector Office, District Planning Officer looks after development work of various Government (State & Centre) sponsored programmes.

Co-operative Societies i.e. Co-operative Milk Societies, Agricultural Produce Market Societies, Co-operative banking and other co-operative societies are controlled by the District Registrar Co-operative Societies.

The talukawise break up of towns and villages for the district is shown in the following table

Talukawise Number of Towns and Villages

Sl. No.	Name of Taluka	Number of Towns	Number of Villages	
			Total	Inhabited
1	2	3	4	5

(iv) Physical Feature :

Jamnagar district is situated on the north-west corner of the peninsular region of Gujarat State known as Kathiawar or Saurashtra. Formerly it was called 'Halar'. It is lies between the parallels of latitude of $21^0.41'$ and $22^0.58'$ and the meridians of longitude $68^0.56'$ and $70^0.39'$. The length from north to south of this territory is about 140.6 km. and from east to west about 178.4 km. It is bounded in the north by the Gulf of Kachchh, in the east by Rajkot district and in the south by Junagadh district and in the west by the Arabian Sea. The area covered by this district is 14,125 sq.km. and the rank of this district is 2nd in area in the state.

Physiography :

Jamnagar district forms a part of Kathiawar Peninsula and is sub-divided into three sub-micro regions, namely, Jamnagar North-West Coastal Plain, Jamnagar South Plain and Barda Hills Forested Region, on the basis of topography, climate, geology, soils and natural vegetation.

Jamnagar North-West Coastal Plain :

The region extends over the coastal tract of district Jamnagar occupying Jodiya and Okhamandal and large parts of Dhrol, Jamnagar, Khambhaliya, Kalyanpur, Lalpur and Kalavad talukas. It makes its boundaries with the Gulf and Rann of Kachchh in the north, Rajkot district in the east, Jamnagar South Plain in the south and Arabian Sea in the west.

The region is generally flat but fringed with a line of wind blown sand hills. Marshes and mangroves are common features of the coastal plain. The coastal tract are covered under water during high tides because of very lowlying area. The slope of the region is towards north except in Kalyanpur taluka where the slope is south-west ward. North-eastern part of the region is undulating plain. Main rivers are Demi, Aji, Maover, Nagmati, Sasoi and Phuljar which take northerly course and merge in the Gulf of Kachchh.

The geology of this region consists mainly of Deccan Trap and Trap dykes formations. Small tracts of Alluvium, blown sand etc., Dwarka Beds, Nari and Gaj Series, Sub-Nummulitic Beds are also observed in this region.

Jamnagar South Plain :

The region spreads out some part of paddhari taluka of Rajkot district over parts of Kalyanpur, Jamjodhpur, Dhrol, Jamnagar, Khambhaliya, Bhanvad, Lalpur, Kalavad talukas. It makes its limits with Jamnagar North-West Coastal Plain in the west north, Rajkot district in the east and Barda Hills Forested Region in the south.

The relief feature reflects that the eastern part of the region is covered by hillocks, attaining the maximum altitude of 150 metres above M.S.L. The minimum height is recorded at 45 metres in the western portion. The general slope of the region is towards south-west. The Region is drained by Manvar, Nagmati, Sasoi, Vatru and Sani rivers. The geology of the region is mainly composed of Deccan Trap

and Trap dykes formations. Small tracts of Alluvium, blown sand etc., Nari and Gaj Series and Sub-Nummulitic Beds are also seen in this region.

Barda Hills Forested Region :

The region extends over the southern part of the district, occupying parts of Bhanvad and Jamjodhpur talukas. It is enclosed by Jamnagar South Plain from north, by Rajkot district from east and by Junagadh district from south and west.

The region is characterized by hillocks and covered with forests. The Barda Hills attain the maximum elevation of 627 metres above M.S.L. Dai river flows from north to south direction. Other hills are below 300 meters. The geological structure of the region pertains to Deccan Trap etc.

Hills :

The hill ranges of this district are good and it is belonging to the north-south side of this district. The principal hill ranges of this district are the Barda hills and the isolated hill of Gop, Mount Venu. Of these hill ranges, the Barda, the Alech, the Dalasa and the isolated hill of Gop and Mount Venu are famous hill of this district. The Barda hill range cover an area of 181.30 sq. kms in the northern part of this district and the highest peak of Barda hill range is 2,057 feet, and Mount Abhipura 1938 feet, while Gop attains 1,191 feet. The Dalasa and Alech ranges nowhere reach 1,000 feet. Among these ranges Barda hills form a circular cluster about 48 kms in circumference and are visible from a distance of from 40 to 48 kms. From the north they appear grouped in three distinct peaks.The district has a costal area on the Arabain Sea of about 342 kms.

Drainage :

This district is devoid of any large perennial streams. Most of the rivers are small and flow lazily through the low-lying lands, into the Marsh and sand of the seaboard. The Streams flow towards the Gulf of Kachchh in the North and North-West. None of them have any large tributaries and Most of them are dry channels till the advent of the Monsoon. The district is drained from South to North and from the South-east to the Northe-West to the Gulf of Kachchh or Arabian Sea. The Principal rivers are the Aji,Und, Venu, Vartu, Ghee, Rangmati, Nagmati, Fuljur and Sihan among them the most important rivers are as under,

The river Aji rises in the Rajkot district in the central hills near Lodhika. It enters the district of Jamnagar at Khakhadabela which is about 32 km. by river from Rajkot. The river Nirali meets Aji near the district boundary. Und is rising near the village of Bedia in Rajkot district at a height of 459 feet. Its total length is 77 km.

The river Ghee having total length of 35 km. is rising from the central highlands near Devalia. It flows through land of about 250 feet in height west of Khambhalia. After course of 11 kms west-north-west of Khambhalia, it merges with the sands of the coast of the Gulf of Kachchh.

The river Nagmati rises in the Jalia Dewani hills of a height of about 500-700 feet above sea level, near the village of Bavdidad. It is along with Rangmati empties into the Ranjit Sagar. The combined waters of the two rivers flow for about 8 kms. Before emptying into the Gulf of Kachchh 3 kms east of Rozi Mata. The total length of this river is 47 kms. The other rivers of this district are not long in the flow of water and in course of this district.

Creek :

There are several creeks on the Jamnagar coast some of which have already been mentioned. Of these creeks only Meda Bedi, Salaya, Gomati and Hansthal creeks are important.

(1) Meda creek :

On the Arabian Sea coast the most important one creek is the Meda Creek on Jamnagar-Porbandar boundary. It stretches about 3 kms to the interior with a width of about 9 kms. The Sandari river and the Vartu river flow lazily through this marshy land before emptying into the Meda Creek.

(2) Gomti creek :

This creek is important because on it stands Dwarka, one of the most sacred places of Hindu pilgrimage. It is believed to rise in the village of Bhovda, about 10 kms to the east, known also as *Mul Gomti*.

The Hansthal Creek leads to the Rann of Katchchh and to the new port of Kandla and the Salaya creek leading to Salaya. Other minor creeks of this district are Chhiga creek, Ambala Creek, Bharana creek, Masuru Creek, Bedi Creek, Mita Dora Creek and Dabar creek.

Lakes :

There are several lakes in the district. The most important one is the Kharu Khetar which is an inlet of the sea on the Arabian coast. It is situated about 26 kms south-east of Dwarka. The Dwarka-Jamnagar Railway is to the east of the lake. The Madhi Railway Station is on the south bank of the lake. The city of Jamnagar is fed by the Ranjit Sagar, built by damming the Nagmati and Rangmati rivers.

Islands and reefs :

Off the coast (Okhamandal) there are several reefs and islands with good channels between them for coasting crafts when there is a swell outside the Gulf. During heavy breezes the boats can be steered in without difficulty.

The Great Baral or Chanka reef, the north face of which is 16 kms long is a coral reef. The north end of the reef forms a full semi-circle with a radius of 2.4 kms. round Chanka Island. This vast coral reef surrounds four islands, namely Chanka, Nora, Bhaidar and Chusru. It is completely covered at high water and only the four islands are visible. Among them, Nora is a large low mangrove island on the Baral coral reefs about 4 kms west of Chanka. It extends 5 kms. from west to east. Its north face is fronted with sand. To the north of Nora the Baral reef is deeply indented and the soundings near the reef are mostly mud.

Bhaidar, the second island on the reef is a mangrove island nearly 3 kms across. Its west face is fronted with sand. The highest part of the island, which stands twenty feet above high water is the north-west, which along with the west front, is quite sandy. Bhaidar lfes 5 kms south-west of Nora and about halt way between Nora and Chusra 8 kms west of the island of Bhaidar is the Paga reef.

Chusru is a small rocky islet and stands 4 kms south-west of Bhaidar. It makes the south extreme of Baral reef as it is only three cables length within the south point of the Baral rocks. Chanka is the north-eastern most of the four islands on the reef and is also the smallest.

Climate :

The climate of Jamnagar district is generally pleasant. The summer season extends from March to June, with day time temperature reaching about to 42^0 C. The monsoons are from July to September. Winter season sets in during October and extends till February. In association with cyclonic storms or depression in the Arabian Sea in the post monsoon months and to a lesser extent in May and June, the district experiences strong winds and widespread rain. Thunderstorms occur in June and July. In the cold season fog occurs occasionaly.

a) Temperature :

There are two meteorological observatories in the district one at Jamangar and the other at Okha.The climatological data of Okha is in Western coastal strip, which has generally a more equable climate compared to other parts.The period from March to June is one of the continuous increases in Temperature.The weaher is hot during the summer and particularly in the month of May and June the day temperature reaches to about 37^0 C. The highest temparature of 36.8^0 C was recorded in June 1998 while the lowest of 15.3^0 C in December 1997. From June onwards with the on set of monsoon the highest and lowest degree of temperature shows a decrease to about 35^0 C and to about 15^0 C respectively.

The highest temperature during July to September was recorded at 34.5^0 C in July 1999 against the lowest of 22.7^0 C recorded in September 1997. By the month of November day and night temperature begins to decrease rapidly. December and January are generally the coldest months with temperature going down to 15^0 to 17^0 C. The highest temperature from November to February was recorded in November 1997 at 32.6^0 C.

The details of the daily mean maximum and minimum temperature of the months for the period of ranging from 1997 to 1999 years are given below.

Temperature

(In centigrade)

Name of Month	1997		1998		1999	
	Max	Min	Max	Min	Max	Min
1	2	3	4	5	6	7
January	26.3	15.8	26.5	16.6	28.0	16.9
February	29.9	18.4	30.7	18.0	29.4	17.5

December	27.5	15.3	29.5	16.6	29.0	17.2

Source : Directorate of Economics and Statistics, Statistical Abstract,2000.

b) Winds :

Winds are strong and blow from the south-west or west during the monsoon period. In October they are moderate and blow mainly from directions between south-west and north-east. North-easterly winds also begin to appear in this month but in the next three months easterly or north-easterly winds of moderate force prevail. In the hot season winds strengthen and blow mainly from the south-west or west.

c) Rainfall :

The annual rainfall in the district is 313.9 mm in the year of 1999. About 95 per cent of it is received during the south-west monsoon season. July is being the month with the highest rainfall for year 1998. The rainfall generally goes on decreasing from the south-east to the north-west region. It varies largely from year to year owing to the irregular and erratic nature of the monsoon. The detail of monthly rainfall from 1998 to 1999 of this district are given below:

Monthly Rainfall (From 1998 to 1999)

(In mm.)

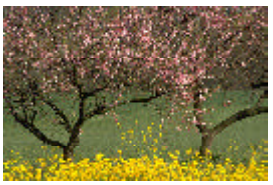

Sl. No.	Month	1998	1999
1	2	3	4
1	May	0.0	15.5
2	June	184.6	79.4
3	July	233.9	77.1

7	November	3.0	0.0
	Annual R ainfall	**778.7**	**313.9**

Source : Directorate of Agriculture,1998,1999.

Economic Resources :

Economic resources are an important means of subsistence for the working people of the district. The details about economic resources of important sectors are given here under in brief.

(1) Forestry :

The forest area in the district is scattered and very limited in extent. It is found in the Southern part of Lalpar taluka and near the seacoast in Jamnagar taluka. According to the Forest Department, there were 1,348.98 sq.km. Forest in the district in the year of 1999-2000, Out of which 301.76 sq.km.were reserved 8.13 sq.km. were protected and 1,039.09 sq.km.were unclassified forest. The forest areas are classified into threee different types. (1) Mangrove forests (2) Open Scrub forest and (3) Grassland. The main forest products are Cher wood, Karod leaves etc. whereas gum, grass, Madhuka-indica, hognut, soupnut, diaspar, milenoxilon etc. are the minor products of these forests.

(2) Minerals and Mining :

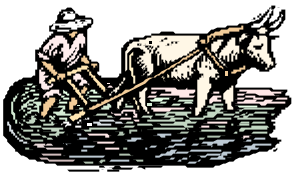

The known mineral wealth of Jamnagar district is substantial. The major minerals available in the district clay (others) calcareous sand, Bauxite, Ordinary clay, Limestone, Chalk, Moulding sand and other minor minerals etc. Bauxite deposits are located in Kalyanpur taluka. Various types of major and minor minerals are available in the district. The details about major products are given in the following statement. Minor products in the district are building stone, lime stone, brick clay, bentonite, ordinary clay, ordinarysand and road metal.

(3) Soil and Cropping Pattern :

Soil found in Jamnagar district may broadly be classified as alluvial, black, light brown and alkaline. The black or medium black soil and the light brown soil may be termed as the main soils, while the alluvial and the alkaline as subsoil.

The black or medium black soil is found in Dhrol, Kalavad, Jamjodhpur and Bhanvad talukas and eastern portion of Jamnagar taluka. Light brown soil also called dharod is found in all talukas but mainly in the western parts of the district. The alluvial soil also called ghad bhatha or Kantha is found on the riverbank near Jamnagar, Kalyanpur and Jodiya talukas. The alkaline soil locally known as Khar is found in the coastal areas.

The main crops of the district are jowar, bajri, wheat, groundnut and cotton. Groundnut and cotton are important commercial crops, whereas sugarcane cultivation, wheat, and rice are irrigated crops.

(4) Land and Land use Pattern :

The total land in the district is 14,125 sq km.The land classification according to the different uses for the rural areas of the district for the year 1999 is given below on the basis of information collected for the Village Directory.

Land Classification of Rural Areas

(In '00 hectares)

Sl. No	Classification	Area (As on 31-3-99)
1	2	3
1	Forest	264.0
2	Irrigated cultivate land	1,321.2
3	Unirrigated cultivate land	4,793.2
4	Cultivable waste (including Gauchar and Groves)	1,178.5
5	Area not available for cultivation	2,215.3
	Total:	**9,772.2**

Source:: Village Directory, 2001

(5) Tenancy :

There was no separate Act on tenancy in the former Bombay State before 1939. There were provisions of Section 83 of Land Revenue Code and Mamlatdar Court law only. The tenant was not secured of his tenancy rights in the Act. This tenancy lease was considered yearly and had to pay tenancy as per tradition or according to the agreement made with the landowner. In order to protect the tenants, the Bombay Tenancy Act, 1939 came into force in the erstwhile Bombay State.

With independence of the country, it was necessary that the country is self-sufficient in agricultural production. It can be done only when the tillers of the land should have some definite rights over the land. With a view to effect control on efficient utilization of agricultural land and also to protect the tenants further and also to accept a definite policy and view for the country on agricultural land, The Bombay Tenancy and Agricultural Land Act, 1948 was enacted and it was brought into force since then.

The Act of 1948 was amended five times. An important provision of 'Farmer Day' was inserted in the Act on 1-8-1956. According to this provision, if any

person legally tilled the land of other person on 01-04-1957, he was entitled to purchase the said land. Even though Gujarat State was bifurcated from Bombay State in 1960, the said act applied to it also as well.

Tenant means the person who held land on lease viz.,

(1) Tenant as per Section 4
(2) Protected tenant
(3) Permanent tenant
(4) The person who continued to possess the land with or without the consent of the land owner after appointed date and upto specified date or it is considered that he continued the possession of the land.

In all 1,049,056.4 hectares of land have been released and distributed to total of 1,278,125 beneficiaries under the The Bombay Tenancy and Agricultural Lands Act, 1948 in entire Gujarat State. Among the beneficiaries 177,171 were from Scheduled Castes, 258,132 from Scheduled Tribes and 842,822 were under 'Others' category. In Jamnagar district, in all 3,437.0 hectares of land have been released and distributed to total 893 beneficiaries. Among these 15 belongs to Scheduled Castes who were alloted 48.6 hectares of land and 878 beneficiaries who were under 'Others' category were alloted 3,288.4 hectares of land. There are no Scheduled Tribes beneficiaries in the district.

(6) Agriculture :

Area under Major Crops :

The area under major crops for the years 1993-94 and 1997-98 are indicated in the following statement.

Area under Major Crops

(in '00 Hectares)

Sl. No.	Name of crop	Area under Major Crops	
		1993-94	1997-98
1	2	3	4
1	Wheat	43	250
2	Bajri	717	517
3	Other cereals	1	0
4	Gram	29	137
5	Other pulses	80	186
6	Sugarcane	7	5
7	Groundnut	3,916	3,643
8	Cotton	239	421

Source : Season and Crop Report, Directorate of Agriculture,1999

The area under Bajri, Groundnut, other cereals and Sugarcane has decreased while the area under wheat, gram, other pulses and cotton has increased in the year of 1997-98 as compared to 1993-94. It is also noticed that a majority of the cropped area was under Groundnut, Bajri and cotton.

(7) Irrigation :

Source of Irrigation :

The area irrigated by different sources in the district is presented below for the year of 1993-94 and 1997-98.

Area under Irrigation by Source

(In 00'Hectares)

Sl. No.	Source of irrigation	1993-94		1997-98	
		Net	Gross	Net	Gross
1	2	3	4	5	6
1	Govt canals	198	224	228	230
2	Tanks	-	-	-	-
3	Wells	975	1,032	1,299	1,581
	Total	**1,173**	**1,256**	**1,527**	**1,811**

Source : Season and Crop Report, Directorate of Agriculture,1999

The above figures indicate that wells are the main source of irrigation in the district followed by the Government canals. It is seen that the main source of irrigation in this district for all the years was wells.

(8) Animal Husbandry :

a) Livestock :

Cattle wealth occupies a pivotal place in the rural economy of the district. Currently available data of livestock censuses of 1992 and 1997 shows the livestock population in the district as under.

Livestock

Sl. No.	Livestock	Year	
		1992	1997
1	2	3	4
(A)	**Total Livestock**	**851,856**	**941,626**
1	Cattle (cross breed)	248	797
(a)	Male over 2.5 years	4	7
(b)	Female over 2.5 years	153	590
(c)	Young stock	91	198
2	Cattle (Indigenoues)	329,719	318,297
(a)	Males over 3 years	135,410	135,234
(b)	Female over3 years	99,704	112,325
(c)	Young stock	94,605	70,738
3	Buffaloes	139,217	173,503
(a)	Male over 3 years	1,294	1,627
(b)	Female over 3 years	87,540	119,080
(c)	Young stock	50,383	52,796

Sl. No	Livestock	Year 1992	1997
1	2	3	4
4	Sheep	223,522	238,363
5	Goats	148,289	155,516
6	Horses and ponies	686	593
7	Camels	2,401	2,207
8	Pigs	3,040	9,676
9	Other livestock	4,734	42,674
(B)	**Poultry**	**43,095**	**33,494**

Source : (1) Directorate of Economics and Statistics, Livestock Census, 1992
(2) Directorate of Animal Husbandry, Livestock Census,1997

The livestock population, which was 851,856 in the year of 1992, had increased to 941,626 in 1997. But Poultry birds population which was 43,095 in 1992 had decreased to 33,494 in 1997.

b) Agricultural Implements :

According to the livestock censuses conducted in the State, the comparative data for agricultural implements in the district for the years 1992 and 1997 are shown in the following statement.

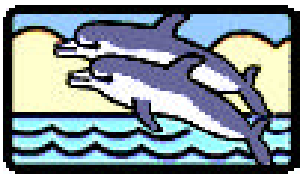

Agricultural Implements

Sl.No	Name of Agricultural Implements	Year 1992	1997
1	2	3	4
1	**Plough**	**67,474**	**72,715**
(a)	Wooden	18,588	14,874
(b)	Iron	48,886	57,841
2	Carts	55,878	59,390
3	Oil engines	44,951	39,602
4	Electric Motors & Pumps	14,296	18,865
5	Tractors	1,452	4,197
6	Wheat Thresher	295	-

Source : (1) Directorate of Economics and Statistics, Livestock Census 1992
(2) Directorate of Animal Husbandry, Livestock Census, 1997

The number of agriculture implements except wooden plough and oil engines has shown an increasing trend during 1997 as compared to the year 1992.

(9) Fisheries :

Jamnagar district has a long coast line so it is the main source of fisheries in Jamnagar. The important fishing centres are Jodiya, Sachana, Bedi, Sikka, Bharana, Salaya and Okha. Almost all the varieties of fish of Saurashtra waters are found here at different seasons of the year. The important fish of this district are Prawn, Ghol-dana, Mullet, Shark shell Pearl, Chank and window pane. The important fisheries statistics for the district are given below for the years 1997-98 and 1998-99.

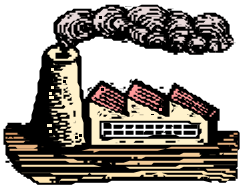

Fisheries Activities

Sl. No.	Item	year 1997-98	1998-99
1	2	3	4
1	Total Number of Fishing boats	1,275	1,344
2	Total Number of Fishing nets	270,402	270,402
3	Fish production (In tonnes)	57,122	29,874
4	Number of active fishermen	5,574	5,574
5	Fishermen primary Co-operative Societies (Number)	13	15
6	Membership of fishermen's primary Co-operative Societies	17.78	20.01
7	Paid up share capital of fishermen's Co-operative societies (In'00 Rs.)	1,192.95	1,348.95

Source: Commissioner of Fisheries, 1998,1999

The above data indicate an increase in the fishing activities in the district during 1998-99 as compared to the year 1997-98.

(10) Industry :

The total number of registered factories and average number of daily workers employed by major groups of industries for the year 1998 and 1999 are shown in the following statement. Among above registered factories the most important establishment from the point of employment is rubber, plastic, petroleum and cool products processing and under nuclear fueds.

Distribution of important industrial Establishments by major industry group

Sl. No.	Major Group of NIC (National Industrial Classification)	Description of Manufacture	As on 31.12.98		As on 31.12.99	
			Number of Establish-ments	Average Number of persons per day	Number of Establish-ments	Averge Number of persons per day
1	2	3	4	5	6	7
1	20-21	Food products	113	3,677	104	3,454
2	22	Beverages tobacco and related products	2	57	2	29
3	23	Cotton textiles	3	535	4	511
4	24	Wool, silk and man made fibre textiles	1	1,390	1	1,214
5	27	Wood and wood products Furnitures and fixtures	7	84	5	29
6	28	Paper and paper products and printing, publishing and allied industries	4	52	3	42
7	30	Basic chemical and chemical products (except products of petroleum and coal)	28	1,189	23	877
8	31	Rubber,plastic, petroleum and coal products processing and nuclear fuels.	16	3,099	17	6,154
9	32	Non metalic mineral products	28	1,995	22	1,581
10	33	Basic metal and alloy industries	62	1,210	54	961
11	34	Metal products and parts except machinery and equipments.	107	1,991	96	1,334
12	35-36	Machinery and equipment other than transport equipment (sceintific equipment, photographic/cinematographic equipment and watches and clocks is classified in division 38)	27	559	26	413
13	37	Transport equipment and parts	15	686	17	773
14	38	Other manufacturing industries	7	127	6	72
15	39	Repairs of capital goods	1	55	1	60
16	40-43	Electricity Gas and water Generation transmission distribution water works supply etc	3	703	3	583
17		Other Industries	19	730	20	786
		Total :	**433**	**18,139**	**404**	**18,873**

Source : Chief Inspector of Factories, 2000

Among the registered establishments in the year 1999, the first four most important establishments are manufacture of (1) Rubber, plastic, petroleum and coal products processing and nuclear fuels (2) Food product (3) Non metalic mineral products and (4) Metal products and parts except machinery and equipments. The above data indicates a decrease in the industrial activities as on 31-12-99 as compared to the industrial activities shown as on in 31-12-98. except major group of NIC 31,37,39.

(11) Trade and Commerce :

The District is wellknown for groundnut oil, oil engine and parts, dimonds, lime and soda ash. As per 2001census, the most important manufactured and exported commodities in town are shown in the inset table No.47. There are about 154 commerical banking institutions functioning in the district. The detail of Commercial and Co-operative banking institution in rural area are given in the following statement as per village directory.

Villages Having Banking Facility

Sl. No.	Name of Taluka	Number of villages where banking facility is available	Number of banking institutions	
			Commerical	Co-operative
1	2	3	4	5
1	Okhamandal	2	2	0

Source: Banking Statistics, Basic Statistical Returns, Volume 28, March, 1999

(12) Transport and Communication :

Transport and Communication facilities are considered as an administrative necessity as well as a public convenience Moreover; a well-knit transportation system is a pre-requisite for the social and economic development of any district.

a) Road :

The linking of one place with the other by road is very essential to provide good transport system. According to the classification of road made by the Indian Roads Congress, road length in the district by category is given below for the years 1999-2000, and 2000-2001.

Road Length of Different Category

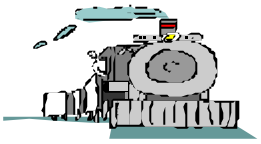

Sl. No	Year	Type of Road (in Kms.)										
		Highways				District Roads				Village Roads		Total
		National		State		Main		Other				
		GOVT. DN	PNCH. DN	GOVT. DN	PNCH. DN	GOVT. DN	PNCH. DN	GOVT. DN	PNCH. DN	GOVT. DN	PNCH. DN	
1	2	3	4	5	6	7	8	9	10	11	12	13
1	1999-2000	0	0	1146	0	5	847	8	608	0	895	3,509
2	2000-2001	0	0	1146	0	5	842	8	611	0	918	3,530

Source: Roads and Bulding Department, Gandhinagar.

Note: GOVT. DN= Government Division.
PNCH. DN= Panchayat Division.

In Jamnagar, according to 1991 census 245 villages and 18 towns were connected with pucca roads and 449 villages were connected with kuchcha roads. But in 2001 Census, 452 villages and 16 towns are connected with pucca roads and 424 villages are connected with kuchcha roads.

b) Railway :

There are 32 villages having railway facilities in the Jamnagar district.

c) Port :

This district has 8 ports, viz. Bedi, Sikka, Okha, Jodiya, Pindhara, Salaya, Beyt (Dwarka) and Rupen. Of these, Okha, Bedi and Sikka are intermediate ports whereas the remaining are minor ports. Okha, Bedi, Sikka and Salaya ports are operative in all seasons. Fertilizer, sulphur, iron scrapes and rock phosphet are the main items imported at these ports whereas salt, bentonite, onion and oil cake are principal items of exports through these ports.

Air services :

There is an airport at Jamnagar. Jamnagar is linked by air services with Bombay and Bhuj.

d) Posts and Telegraph :

The following table shows the number of villages in the district possessing post, telegraph and phone facilities. The facilities of post, telegraph and telephone available in villages are as under.

Communication Facilities

Sl No.	Type of Communication Amenities	No.of Villages having facilities
1	2	3
1	Post Offices	418
2	Telegraph Offices	11
3	Telephone	436

Source : Village Directory, 2001

(13) Electricity :

Electricity is the chief necessity for the economic development of the district. The main source for power supply in the district is Gujarat Electricity Board. Out of 698 inhabited villages, 666 villages are electrified in the district.

(14) Gram Panchayats, its composition, jurisdiction and role in the Development of Village and its Economy :

The system of Panchayati Raj was introduced in the year 1963 in Gujarat State. Under this set up, the three tier system was introduced namely, The District Panchayat, The Taluka Panchayat and The Gram Panchayat.

Gram Panchayat is an important institution of self-government. The Gram Panchayat is formed for a village or a group of Villages. The Gram Panchayat is constituted for a local area with the population of less than 10,000. Such local area may be revenue village or a group of revenue villages or hamlets forming part of a revenue village or such other administrative unit or part of thereof. The number of members of Gram Panchayat varies from 9 to 15. The tenure of Gram Panchayat is of five years. The people of village elect Sarpanch and Vice-Sarpanch (Up-Sarpanch) and other members of the Panchayat. Various Committees like; Social Justice Committee and Standing Committee are formed. In the year 1993 Government of India enacted 73rd Constitutional Amendment regarding provisions of Panchayati Raj and implementation of this Act in Gujarat started from 15th April 1994. By this constitutional amendment, Panchayats are given constitutional status. Regular and timely election, participation of women and backward classes, formation of separate State Election Commission and rotation system in electing the heads of the various committees are other significant amendments in the act. Decentralised planning process and active participation of people is the soul of the Panchayati Raj Act. The powers for decentralised planning, implementation and development are delegated to the Panchayats.

The primary functions of the District/Taluka Panchayats are to provide facilities for primary education, health, drinking water, electricity, constructions and maintenance of roads, bridges etc., maintenance of Gauchars, organising relief work at the time of scarcity and drought situation, sanitation and social welfare. Arrangements for housing facilities for the people below poverty line and rural devlopment schemes are implemented by panchayats. Gram Panchayats also implement important programmes like, 'food for work' and other programmes beneficial for the local people. Thus, Panchayats play an important role in the development of village and its economy. There are 13,761 Gram Panchayats in Gujarat State. Out of 698 vllages in Jamnagar district there are 21 group Gram Panchayats and 676 independent Gram Panchayats.

(v) Census Concepts :

Building :

A 'building' is generally a single structure on the ground. Sometimes it is made up of more than one component unit which are used or likely to be used as dwellings (residences) or establishments such as shops, business houses, offices, factories, workshops, work sheds, schools, places of entertainment, places of worship, godowns, stores, etc. It is also possible that buildings which have component units may be used for a combination of purposes such as shop-cum-residence, workshop-cum-residence office-cum-residence, etc.

Usually a structure will have four walls and a roof. But in some areas the very nature of construction of houses is such that there may not be any wall. Such is the case of conical structures where entrance is also provided but they may not have any walls. Therefore, such of the conical structures are also treated as separate building.

Permanent Houses :

Houses, the walls and roof of which are made of permanent materials. The Material of wall can be anyone from the following namely Galvanized iron sheets or other metal sheets, Asbestos sheets, burnt bricks, stones or concrete. Roof may be made of from any one of the following materials namely tiles, slate, galvanized iron sheets, metal sheets, asbestos sheets, bricks, stones or concrete.

Semi-permanent Houses :

Houses in which either wall or roof is made of permanent materials and the other is made of temporary material.

Temporary Houses :

Houses in which both walls and roof are made of materials, which have to be replaced frequently. Walls may be made from any one of the following temporary materials, namely, grass, thatch, bamboo, plastic, polythene, mud, unburnt bricks or wood. Roof may be made from any one of the following temporary materials, namely, grass, thatch, bamboo, wood, mud, plastic or polythene.

Dwelling Room :

A room is treated as a dwelling room if it has walls with a doorway and a roof should be wide and long enough for a person to sleep in, i.e., it should have a length of not less than 2 meters and a breadth of at least 1.5 meters and a height of a 2 meters. A dwelling room would include living room, bedroom, dining room drawing room study room, servant's room and other habitable rooms. Kitchen, Bathroom, latrine, Store-room, passage-way and verandah which are not normally usable for living are not considered as dwelling rooms. A room used for multipurpose such as sleeping, sitting, dining, storing, cooking, etc., is regarded as a dwelling room. In a situation where a census houses is used as a shop or office. etc., and the household also stays in it then the room is not considered as a dwelling room. But if a garage or servant quarter is used by a servant and if she/he also lives in it as a separate household then this has been considered as a dwelling room available to the servants household tent or conical shaped hut if used for living by any household is also considered as dwelling room.

A dwelling room which is shade by more than one household has not been counted for any of them. If two household have a dwelling room each but in addition also share a common dwelling room. Then the common room has not been counted for either or of the household.

Census House :

A 'Census House' is a building or part of a building used or recognized as a separate unit because of having a separate main entrance from the road or common courtyard or, staircase, etc. It may be occupied or vacant. It may be used for a residential or non-residential purpose or both.

In certain peculiar situations, the manner in which buildings and census houses were identified for numbering in the field by the enumerators is described hereunder.

Sometimes a series of a different buildings are found along a street which are joined with one another by common walls on either side looking like a continuous structure. These different units are practically independent of one another and are likely to have been built at different times and owned by different persons. In such cases, though the whole structure with all the adjoining units apparently appears to be one building, each portion was treated as a separate building and its constituent units as separate census houses.

On the other hand, one may come across cases, particularly in large cities of multi-storied ownership flats. In these cases while the structure looks like one building, different persons own the flats. In case of such multi-storied structures, having a number of flats owned by different persons, the entire structure was treated as one building and each flat as a separate census house.

If within a large enclosed area, there are separate buildings owned by different persons then each such building is treated as a separate building. There can be a situation where within an enclosed compound there are separate buildings owned by an undertaking or company or even government that are actually in occupation of different persons. For example, Indian Oil Corporation colony where the buildings are owned by the Corporation but these are in occupation of their employees. Each such building was treated as a separate building. But if in any one of these buildings there were flats in occupation of different households, each such flat was reckoned as a separate census house.

Sometimes if becomes difficult to apply the definition of census house strictly in certain cases. For example, in an urban area, if a flat has five rooms, each room having direct entrance from the common staircase or courtyard. By definition, this has to be

treated as five census houses. If all these five rooms are occupied by a single household it was not realistic to treat them as five census houses. In such a case, 'singleness' of use of these rooms along with the main house should be considered and the entire flat was treated as one census house. On the other hand, if two independent households occupy these five rooms, the first household living in 3 rooms and the second household occupying 2 rooms, then considering the use, the first three rooms together were treated as one census house and the remaining rooms as another census house. But if each room was occupied by an independent household, then each such room was treated as a separate census house.

In case of hostels, hotels, etc., even if the door of each room in which an inmate lives opens to a common verandah, staircase, courtyard or a common room, as it happens almost invariably, the entire hostel/ Hotel building was treated as one census house. but if such hostels/ hotels have out- houses or other structures used for different purposes or the same purpose, then each such structure attached to the main hostel/hotel was treated as a separate census house.

In some parts of the country, in rural areas, the pattern of habitation is such that a group of huts, located in a compound, whether enclosed or unenclosed, is occupied by one household. While the main residence may be located in one hut, other huts may be used for sleeping, as a kitchen, bath room, baithak, etc. Though each of the huts was a separates structure, they form a single housing unit and therefore, have to be treated collectively as one building and one census house. If some of the huts are used by one household and the others by a second household as residence, then the two groups of huts were treated as separate census houses. However, if there were also other huts in the compound used for other purposes and not as part of the household's residence such as, cattle shed, work shed, etc., these were treated as separate census houses.

On the other hand, in urban areas, where more than one structure within an enclosed or open compound (premises) belonging to the same person, e.g., the main house, the servant's quarter, the garage, etc., only one building number was given for this group and each of the constituent a separate census house number.

Only cases where a structure with roof and pillars has come up was treated as a building.

Village :

The basic unit for rural areas is the revenue village, which has definite surveyed boundaries. The revenue village may comprise of one or more hamlets but the entire village is treated as one unit for presentation of data.

In unsurveyed areas, like villages within forest areas, each habitation area with locally recognized boundaries is treated as one village.

Town-Urban Area :

The following areas are treated as towns/urban areas :

(a) All places with a municipality, municipal corporation, cantonment board or notified town area committee, etc.

(b) All other places which satisfy or are expected to satisfy the following criteria simultaneously

i) A minimum population of 5,000,

ii) At least 75 per cent of the male working population engaged in non-agricultural pursuits; and

iii) A density of population of at least 400 per square kilometre (1,000 per square mile).

City :

Towns with population of 1,00,000 and above are called cities.

Urban Agglomeration :

An Urban Agglomeration is a continuous urban spread constituting a town and its adjoining urban outgrowths (OGs) or two or more physically contiguous towns together and any adjoining urban outgrowths of such towns. In some cases railway colonies, university campuses, port areas, etc., may come up near a city or statutory town outside its statutory limits but within the revenue limits of a village or villages contiguous to the town or city. Each such individual area by itself may not satisfy the minimum population limit to qualify it to be treated as an independent urban unit but may deserve to be clubbed with the town as a continuous urban spread.

For the purpose of delineation of Urban Agglomerations during Census of India 2001, following criteria are taken as pre-requisites:

(a) The core town or at least one of the constituent towns of an urban agglomeration should necessarily be a statutory town; and

(b) The total population of all the constituents (i.e., towns and outgrowths) of an Urban Agglomeration should not be less than 20,000 (as per the 1991 Census).

With these two basic criteria having been met, the following are the possible different situations in which Urban Agglomerations would be constituted:

i) a city or town with one or more contiguous outgrowths;

ii) two or more adjoining towns with their outgrowths; and

iii) a city and one or more adjoining towns with their outgrowths all of which form a continuous spread.

Household :

A 'household' is usually a group of persons who normally live together and take their meals from a common kitchen unless the exigencies of work prevent any of them from doing so. Persons in a household may be related or unrelated or a mix of both. However, if a group of unrelated persons live in a census house but do not take their meals from the common kitchen, then they are not constituent of a common household. Each such person was to be treated as a separate household. The important link in finding out whether it was a household or not was a common kitchen. There may be one member households, two member households or multi-member households.

Institutional Households :

A group of unrelated persons who live in an institution and take their meals from a common kitchen is called an Institutional Household. Examples of Institutional Households are boarding houses, messes, hostels, hotels, rescue homes, jails, ashrams, orphanages, etc. To make the definition more clearly perceptible to the enumerators at the Census 2001, it was specifically mentioned that this category or households would cover only those households where a group of unrelated persons live in an institution and share a common kitchen.

Houseless Household :

Households who do not live in buildings or census houses but live in the open on roadside pavements, in hume pipes, under flyovers and staircases, or in the open in places of worship, mandaps, railway platforms, etc., are treated as Houseless Household.

Scheduled Castes and Scheduled Tribes :

Article 341(1) of the Constitution provides that the President may, with respect to any State or Union territory, specify the castes, races or tribes or parts of or groups within castes, races or tribes which shall for the purposes of the Constitution be deemed to be Scheduled Castes in relation to that State or Union territory. Article 342(1) similarly provides for specification of tribes or tribal communities or parts of or groups within tribes or tribal communities, which are to be deemed for the purposes of the Constitution to be Scheduled Tribes in relation to the various States and Union territories. In pursuance of these provisions, the list of Scheduled Castes and / or Scheduled Tribes are notified for each State and Union territory and are valid only within the jurisdiction of that State or Union territory and not outside.

It is important to mention here that under the Constitution (Scheduled Castes) Order, 1950, no person who professed a religion different from Hinduism was deemed to be a member of a Scheduled Caste in addition to every member of the Ramdasi, Kabirpanthi, Majhabi or Sikligar caste resident in Punjab or Patiala and East Punjab States Union were in relation to that State whether they professed the Hindu or the Sikh religion. Subsequently, in September 1956, by an amendment, the Presidential Order of 1950 and in all subsequent Presidential Orders relating to Scheduled Castes, the Hindu and the Sikh religions were placed on the same footing with regard to the specification of Scheduled Castes. Later on, as per the amendment made in the Constitution (Scheduled Castes) Order 1990, the Hindu, the Sikh and the Buddhist were placed on the same footing with regard to the recognition of the Scheduled Castes.

The lists containing the names of the Scheduled Castes and the Scheduled Tribes applicable for the Census of India 2001 in the State is given below

List of Scheduled Castes :

1. Ager
2. Bakad, Bant
3. Bawa-Dedh, Dedh Sadhu
4. Bhambi, Bhambhi, Asadaru Asodi, Chamadia, Chamar Chambhar, Chamgar, Haralayya, Harali, Khalpa, Machigar, Mochigar, Madar, Madig, Mochi, Nalia, Telegu Mochi, Kamati Mochi, Ranigar, Rohidas, Rohit, Samgar.
5. Bhangi, Mehtar, Olgana, Rukhi, Malkana, Halalkhor, Lalbegi, Balmiki, Korar, Zadmalli.
6. Chalvadi, Channayya
7. Chenna Dasar, Holaya Desar
8. Dangashia
9. Dhor, Kakkayya, Kankayya
10. Garmatang
11. Garoda, Garo
12. Halleer
13. Halsar, Haslar, Hulasvar, Halasvar
14. Holar, Valhar
15. Holaya, Holer
16. Lingader
17. Mahar, Taral, Dhegu Megu
18. Mahyavansi, Dhed, Dhedh, Vankar, Maru Vankar, Antyaj
19. Mang, Matang, Minimadig
20. Mang-Garudi
21. Meghaval, Meghwal, Menghvar
22. Mukri
23. Nadia, Hadi
24. Pasi
25. Senva, Shenva, Chenva, Sedma, Rawat
26. Shemalia
27. Thori
28. Tirgar, Tirbanda
29. Turi
30. Turi Barot, Dedh Barot

List of Scheduled Tribes :

1. Barda
2. Bavacha, Bamcha
3. Bharwad (In the Nesses of the forests of Alech, Barada and Gir)*
4. Bhil, Bhil Garasia, Dholi-Bhil, Dungri Bhil, Dungri Garasia, Mewasi Bhil, Rawal Bhil, Tadvi Bhil, Bhagalia, Bhilala, Pawra, Vasava, Vasave.
5. Charan (In the Nesses of the forests of Alech, Barada and Gir) *
6. Chaudhri (In Surat and Valsad districts)
7. Chodhara
8. Dhanka, Tadvi, Tetaria, Valvi
9. Dhodia
10. Dubla, Talavia, Halpati
11. Gamit, Gamta, Gavit, Mavchi, Padvi
12. Gond, Rajgond
13. Kathodi, Katkari, Dhor Kathodi, Dhor Katkari, Son Kathodi, Son Katkari
14. Kokna, Kokni, Kukna
15. Koli (In Kachchh district)
16. Koli Dhor, Tokre Koli, Kolcha, Kolgha
17. Kunbi (In The Dangs District)
18. Naikda, Nayaka, Cholivala Nayaka, Kapadia Nayaka, Mota Nayaka, Nana, Nayaka
19. Padhar
20. Paradhi (In Kachchh district)
21. Pardhi, Advichincher, Phanse Pardhi (Excluding Amreli, Bhavnagar, Jamnagar, Junagadh, Kachchh, Rajkot and Surendranagar districts)
22. Patelia
23. Pomla
24. Rabari (In the Nesses of the forests of Alech, Barada and Gir)*
25. Rathawa
26. Siddi (In Amreli, Bhavnagar, Jamnagar, Junagadh, Rajkot and Surendranagar Districts)
27. Vaghri (in Kachchh district)
28. Varli
29. Vitola, Kotwalia, Barodia

***** The area comprised of Jamnagar and Junagadh districts.

Language and Mother Tongue :

As per the census concept, each language is a group of mother tongues. The census questionnaire collects information on the mother tongue of each person and mother tongue is defined as the language spoken in childhood by the person's mother to the person. If the mother died in infancy, the language mainly spoken in the person's home in childhood will be the mother tongue. In the case of infants and deaf mutes, the language usually spoken by the mother is considered as mother tongue. It is not necessary that the language spoken as mother tongue should have a script. The mother tongues returned by the respondents in census are classified and grouped under appropriate languages according to their linguistic characteristics.

Literate :

A person age 7 years and above who can both read and write with understanding in any language is taken as literate. A person who can only read but cannot write is not literate. It is not necessary that to be considered as literate, a person should have received any formal education or passed any minimum educational standard. Literacy could also have been achieved through adult literacy classes or through any non-formal educational system. People who are blind and can read in Braille are treated as literates.

Literacy Rate :

Literacy rate of the population is defined as the percentage of literates in the age group seven years and above. For different age groups the percentage of literates in that age group gives the literacy rate.

Educational Level :

The highest level of education a person has completed.

Work :

Work is defined as participation in any economically productive activity with or without compensation, wages or profit. Such participation may be physical and/or mental in nature. Work involves not only actual work but also includes effective supervision and direction of work. It even includes part time help or unpaid work on farm, family enterprise or in any other economic activity. All persons engaged in 'work' as defined above are workers. Persons who are engaged in cultivation or milk production even solely for domestic consumption are also treated as workers.

Reference period for determining a person as worker and non-worker is one year preceding the date of enumeration.

Main Worker :

A person who has worked for major part of the reference period (i.e. six months or more during the last one year preceding the date of enumeration) in any economically productive activity is termed as "Main worker".

Marginal Worker :

A person who worked for less than six months of the reference period (i.e. in the last one year preceding the date of enumeration) in any economic activity is termed as 'Marginal- worker'

Non Worker :

A person who has not worked at all in any economically productive activity during the reference period (i.e. last one year preceding the date of enumeration) is termed as 'Non worker'.

Cultivator :

For purposes of the Census a person is classified as cultivator, if, he or she is engaged in cultivation on land owned or held from government or held from private persons or institutions for payment in money, kind or share. Cultivation includes effective supervision or direction in cultivation.

A person who has given out her/his land to another person or persons or institution(s) for cultivation for money, kind or share of crop and who does not even supervise or direct cultivation in exchange of land, is not treated as cultivator. Similarly, a person working on another person's land for wages in cash or kind or a combination of both (agricultural laborers) is not treated as cultivator.

Cultivation involves ploughing, sowing, harvesting and production of cereals and millet crops such as wheat, paddy, jowar, bajra, ragi, etc., and other crops such as sugarcane, tobacco, ground-nuts, tapioca, etc., and pulses, raw jute and kindred fiber crop, cotton, cinchona and other medicinal plants, fruit growing,

vegetable growing or keeping orchards or groves, etc. Cultivation does not include the following plantation crops – tea, coffee, rubber, coconut and betel-nuts (area).

Agricultural Labourer :

A person who works on another person's land for wages in money or kind or share is regarded as an agricultural labourer. She/he has no risk in the cultivation, but merely works on another person's land for wages. An agricultural laborer has no right of lease or contract on land on which she/he works.

Household Industry Worker :

Household industry is defined as an industry conducted by the head of the household herself/ himself and or by the members of the household at home or within the village in rural areas and only within the precincts of the house where the household lives in urban areas. The larger proportion of workers in household industry should consist of members of the household including the head. The industry should not be run on the scale of a registered factory which would qualify or has to be registered under the Indian Factories Act and should be engaged in manufacturing, processing, servicing and repairs of goods.

It does not include professions such as a pleader, Doctor, Musician, Dancer, Waterman, Astrologer, Dhobi, Barber, etc. or merely trade or business, even if such professions, trade or services are run at home by members of the household.

Other Worker :

A person who has been engaged in some economic activity during the reference period but not as a cultivator or agricultural laborer or in Household Industry is termed as an 'Other-Worker (OW)'. The type of workers that come under this category of 'OW' include all government servants, municipal employees, teachers, factory workers, plantation workers, those engaged in trade, commerce, business, transport, banking, mining, construction, political or social work, priests, entertainment artists, etc. In effect, all those workers other than cultivators or agricultural laborers or household industrial workers, are 'Other Workers'.

Work Participation Rate :

Percentage of workers (main + marginal) to total population

Population Density :

Population density is the number of persons inhabited per square kilometer of the area.

Age :

Age is measured in terms of the completed number of years.

Sex Ratio :

Numbers of females per 1,000 males in a population.

(vi) Non Census Concepts :

Improved Drinking Water :

If the household had access to drinking water supplied from a tap, hand pump, tube well or well (protected or covered) situated within or outside the premises, it is considered as having access to improved drinking water.

System of Sewerage :

Generally, a sewerage system would mean a network of mains and branches of underground conduits for the conveyance of sewerage to the point of disposal. Sewers that carry only household and industrial wastage are called separate sewers; those that carry storm water from roofs, streets and other surfaces are known as storm water drains, while those carrying both sewage and storm water are called combined sewers. However, in some towns, which are, not provided with such underground sewerage system, it is served by open surface drain, box drain, silk pattern drain, etc., in these towns.

Type of Latrine and Method of Disposal of Night Soil :

There are three prevalent systems of disposal of human wastes, viz.(i) underground sewerage, (ii) sanitary water flush latrines with individual disposal systems, like septic tank, leaching cess pool and collecting well, and (iii) dry type of latrines with manual scavenging.

The system of underground sewerage provides for the street sewerage with which are connected

the sanitary latrines constructed in the houses having water closets and fitted with flushing cistern (or hand flushing). Through this sewer the faucal matter is transported without the need for scavenging. This system generally exists in cities and big towns.

Where the streets sewer does not exist these sanitary water flush latrines are connected to a local septic tank with a sub-soil dispersion system or a leaching pit. Here the liquid wastes from the water closet is disposed of locally in leaching pit, a septic tank with a soil dispersion system is constructed. This dispersion requires an optimum travel through the pores of the soil, which renders the harmful liquid bacterially innocuous by the slow process of filtration through the soil traversed.

Where the soil is impermeable, collecting wells are constructed and the sanitary water flush latrines are connected with them. These wells are cleaned at periodic intervals by a suitable device. The dry type of latrines are of service type latrines from where human excreta is removed by scavengers from house to house, in most cases carrying it on their heads or shoulders or in baskets with handle or wheel barrows. These are then collected in bullock carts or trucks or tractors and trolleys for being carried to the dumping grounds.

Fertility :

In demography, the word fertility is used in relation to the actual production of children or occurrence of births specially lives births. Fertility is a measure of rate at which population adds to itself by births and normally assessed by relating the number of births to a full or part of the population, such as number of married women or number of women of child bearing age. The definitions of the terminology used in computing different fertility rates are mentioned below

Crude Birth Rate (CBR) :

Ratio of the numbers of live births in a year to the mid year population. (normally expressed per 1,000 population).

$$CBR = \frac{\text{Numbers of live births during the year}}{\text{Mid –year Population}} \times 1{,}000$$

Crude Death Rate (CDR) :

Ratio of the numbers of deaths in a year to the mid year population, normally expressed per 1,000 population.

$$CDR = \frac{\text{Numbers of deaths during the year}}{\text{Mid –year Population}} \times 1{,}000$$

Natural Growth Rate (NGR) :

Natural Growth rate is obtained as the difference between crude birth rate and crude death rate in the absence of migration.

$$NGR = CBR - CDR$$

Age Specific Fertility Rate (ASFR) :

Number of live births in a year to female population in any specified age group normally expressed per 1,000 women.

$$ASFR = \frac{\text{Numbers of live births in a particular age group}}{\text{Numbers female population of same specified age group}} \times 1{,}000$$

Age Specific Marital Fertility Rate (ASMFR):

Number of live births in a year to married female population in any specified age group normally expressed per 1,000 married women.

$$ASMFR = \frac{\text{Number of live births in a particular age group}}{\text{Mid-year married female population of the same age group}} \times 1{,}000$$

General Fertility Rate (GFR) :

Number of live births per 1,000 women in the reproductive age-group (15-49) years in a given year.

$$GFR = \frac{\text{Number of live births in a year}}{\text{Mid-year female population in the age-group (15-49) years}} \times 1{,}000$$

General Marital Fertility Rate (GMFR) :

Number of live births per 1,000 married women in reproductive age-group (15-49) years in a given year.

$$GMFR = \frac{\text{Number of live births in a year}}{\text{Mid-year married female population in the age group (15-49) years}} \times 1{,}000$$

Total Fertility Rate (TFR) :

It is obtained as the total of the age specific fertility rates (number of children born per woman of the particular age) for the entire reproductive age span. It provides the average number of children that will be born to a woman under the fertility levels indicated by the age specific fertility rates assuming that there is no mortality of women till the completion of reproductive period.

$$TFR = \frac{5 \times \sum_{15\text{-}19}^{45\text{-}49} ASFR}{1{,}000}$$

Total Marital Fertility Rate (TMFR) :

Average number of children that would be born to a married woman if she experiences the current fertility pattern throughout her reproductive span (15-49) years assuming that there is no mortality of women till the completion of reproductive period.

$$TMFR = \frac{5 \times \sum_{15\text{-}19}^{45\text{-}49} ASMFR}{1{,}000}$$

Age-Specific Mortality Rate (ASMR) :

Number of deaths in a particular age and sex group per 1,000 population of the same age group.

$$ASMR = \frac{\text{Number of deaths in a particular age group}}{\text{Mid-year population of the same age group}} \times 1{,}000$$

q1 :

Probability of dying between birth and age 1. This can be used as approximate value of Infant Mortality Rate (IMR) which gives the ratio of number of deaths in a year of children aged less than one year to the number of births in that year.

q2 :

Probability of dying between birth and age 2.

q5 :

Probability of dying between birth and age 5. This indicator is also known as Under Five Mortality Rate (q5MR)

Infant Mortality Rate (IMR) :

Ratio of the number of infant deaths (deaths of children below one year) in a year to the number of live births in that year.

$$IMR = \frac{\text{Number of infant deaths during the year}}{\text{Number of live births during the year}} \times 1{,}000$$

Infant mortality rate comprises of two parts, viz., Neo-natal mortality rate and Post neo-natal mortality rate. The neo-natal mortality rate also comprises of two parts viz., early neo-natal mortality rate and late neo-natal mortality rate. These are defined as :

Neo-natal Mortality Rate (NMR) :

Number of infants dying within the first month of life (28 days or under) in a year per 1,000 live births of the same year.

$$NMR = \frac{\text{Number of infant deaths aged 28 days under during the year}}{\text{Number of live births during the year}} \times 1{,}000$$

Early Neo-natal Mortality Rate (ENMR) :

$$ENMR = \frac{\text{Number of infant deaths of less than 7 days during the year}}{\text{Number of live births during the year}} \times 1{,}000$$

Late Neo-natal Mortality Rate(LNMR) :

$$LNMR = \frac{\text{Number of infant deaths of 7 days to less than 29 days during the year}}{\text{Number of live births during the year}} \times 1{,}000$$

Post Neo-natal Mortality Rate (PNMR) :

$$PNMR = \frac{\text{Number of deaths of 29 days to less than One year during the year}}{\text{Number of live births during the year}} \times 1{,}000$$

Peri-natal Mortality Rate (PMR) :

Number of stillbirths plus deaths within 1st week of delivery per 1,000 births in a year.

$$PMR = \frac{\text{Number of stillbirths and infant deaths of less than 7 days during the year}}{\text{Number of live births and stillbirths during the year}} \times 1,000$$

Still Birth Rate (SBR) :

$$SBR = \frac{\text{Number of stillbirths during the year}}{\text{Number of live births and still births during the year}} \times 1,000$$

Maternal Mortality Rate (MMR) :

Number of deaths of women in the age group 15-49 while pregnant or within 42 days of termination of pregnancy from any cause related to pregnancy and childbirth per 100,000 live births in a given year.

$$MMR = \frac{\text{Number of maternal deaths to women in the age group 15-49}}{\text{Number of live birth}} \times 100,000$$

Eligible Couple (Couples per 1,000 population) :

Number of currently married females in the age group15-44 years per 1,000 persons of all ages.

Child Woman Ratio (0-4) :

1. Number of children in the age group 0-4 years per 1,000 women in the age group 15-49 years.

Child Woman Ratio (5-9) :

2. Number of children in the age group 5-9 years per 1,000 women in the age group 15-49 years.

Migration :

Migration is the third component of population change, the other two being mortality and fertility.

A person is considered as a migrant by place of birth if the place in which he/she is enumerated during the census is other than the place of his/her birth.

Similarly a person is considered as a migrant by place of last residence if the place in which he/she is enumerated during the census is other than his/her place of immediate last residence outside the village or town and not simply in another house or locality in the same village or town.

Certain aspects concerning temporary movement/ migration of people has been explained below as these are important components concerning migration :

(i) Migration of persons in search of job is high in the country. In many cases such migrants are only seasonal in nature. People migrate to other places for work in a particular season and come back again to their usual place of residence after three or four months. All such workers are treated as migrants. Similarly, if a person moved to any other place for attending short term vocational or educational course that lasted for only few months of a year, she/he too were considered as a migrant.

(ii) Where a person had merely gone out to another place or had been shifting from one place to another purely on tour, pilgrimage, visit to hospital for treatment or for temporary business purposes, such persons are not deemed to have had another residence different from the place where she/he or her/his family normally resides. She/he is not considered as migrant.

(iii) A woman temporarily moves into a hospital or to her parents or other relative's house for delivery and if the hospital or the parents/relatives houses is in a place different from usual place of residence, the place where the hospital or parents/relative's house is the place of last residence of the child but not of the mother.

A new response category 'Moved after birth' was added in Census of India 2001 in the question on 'reasons for migration' to bring out additional migration patterns. Natural calamities or distress migration as a reason for migration for last residence migrants included in 1991 Census, is covered under category of 'Others'. The reason for migration has been determined as applicable at the time of migration and not in reference to any point of time after that. For example, if a person had moved from the place of her/his last residence for the purpose of education and subsequently at some point of time got employment there only, the reason for migration would be 'education' and not 'work/employment'.

Internal and International Migration :

The migrational movements are of three types

(i) Migration within the state itself with its components

(a) Migration within the district of enumeration (intra district migration)

(b) Migration from one district of state to another district of state (inter district migration),

(ii) Migration from one state to another State of the country (inter state migration),

(iii) Migration from one country to another country.

The first two streams together constitute internal migration, while the last type of movement is called international migration. The present name of the country, state or district and not the name by which they were known at the time of her/his birth or last residence were recorded.

Rural-Urban Components of Migration :

Rural or Urban status in respect of migrants had been determined as applicable at the time of migration and not with reference to any point of time after that.

The flow of migrants consists of four streams viz. rural to rural, rural to urban, urban to rural and urban to urban.

Civic Status of Urban Units :

Civic Status of a town/city is determined on the basis of Civic Administrative authority of the town e.g., Municipal Corporation/Corporation, Municipal Committee/Municipal council, Municipality etc.

Size Class of UA/Town :

Size-class of UA/Town is based on the population size of the UA/City/Town UAs/Towns with 1,00,000 and above population is classified as Class I UAs./ towns. These Class I UAs./towns are now further sub classified in to seven sub classes namely M1 to M7 depending on the population size of UA/City/Town. These are M7(5,000,000 and above); M6(2,000,000 to 4,999,999); M5(1,000,000-1,999,999) M4(500,000-999,999); M3(300,000-499,999), M2(200,000-299,999) & M1(100,000-199,999). towns with, 50,000 to 99,999 population are classified as Class II towns, 20,000 to 49,999 population are Class III towns, population with 10,000-19,999 are Class IV towns, population with 5,000 and 9,999 are Class V towns and towns with less than 5,000 population are Class VI towns.

Slum Area :

The Slum Areas (Improvement and Clearance) Act, 1956 which was enacted by the Central Govt. defined slums as a) Areas where buildings are in any respect unfit for human habitation; or b) are by reasons of dilapidation, overcrowding, fault arrangement and design of such buildings, narrowness or faulty arrangement of streets, lack of ventilation, light or sanitation facilities, or any combination of these factors, are detrimental to safety, health or morals.

Mega City :

The concept of 'Mega city' is a recent phenomenon in the Urban Sociology and is defined in term of metropolitan city in the form of large size, problem of management of civic amenities and capacity to absorb the relatively high growth of population. Indian Census in 1991 treated the population size of 5 million and above as the cut off point to identify a place as the mega city. Whereas, for the purpose of inclusion in Centrally Sponsored Scheme for Infrastructure Development in Mega cities the Ministry of Urban Affairs and employment, Department of Urban Development adopted the criteria of 4 million and above population as per 1991 Census for Mega Cities. In 2001 Census, cities with 10 millions and above population have been treated as Mega cities.

(Vii) 2001 Census finding- Population, its distribution :

(a) Distribution of population in rural-urban areas:

According to 2001 Census the total population of Jamnagar district is 1,904,278 having 981,320 males and 922,958 females. The district population is 3.8 per cent of total population of Gujarat State and the district ranks 11th in population among 25 district of the State.

The total rural population of the district is 1,068,022 comprising 545,345 males and 522,677 females. Rural population is distributed among inhabited villages in 10 talukas. The total numbers of villages in Jamnagar district are 756. Out of them 698 are inhabited and 58 are uninhabited. The total urban population of the district is 836,256 having 435,975 males and 400,281 females. Urban population is spread over 16 towns.

(b) Size class and status of towns, Population growth, Density, Sex ratio, Work participation rate, Literacy, availability of University education in the district. :

The statement below gives the position and number of urban units in size class for 2001 Census.

Sl. No.	Name and Civic Status of Town	Size Class of Town	Status of Population
1	2	3	4
1	Jamnagar (M.Corp)*	I	498,344
2	Arambhada (CT)	IV	15,011
3	Bedi (CT)	IV	19,112
4	Navagam Ghed (M)	III	39,500
5	Bhanvad (M)	IV	19,718
6	Dhrol (M)	III	23,628
7	Digvijay gram (CT)	V	9,530
8	Dwarka (M)	III	33,626
9	Jamjodhpur (M)	III	22,661
10	Kalavad (M)	III	24,858
11	Khambhalia (M)	III	36,479
12	Mithapur (CT)	IV	13,559
13	Okha port (CT)	IV	18,855
14	Salaya (M)	III	26,875
15	Sikka (CT)	IV	17,704
16	Suraj karadi (CT)	IV	16,796

* Towns having outgrowth

The density of population per sq. km. in Jamnagar district is 135 against the State density of 258.

There are 941 females for every 1,000 males in Jamnagar district The sex ratio of rural and urban areas for the district is 958 and 918 respectively. Sex ratio is 898 for the age group of 0-6 years in the district.

The work participation rate is defined as a percentage of total workers to total population. According to 2001 Census there are 38.6 per cent workers of total population with 32.8 per cent main workers and 5.8 per cent marginal workers, 61.4 per cent population are non-workers.

Among the main workers male participation rate in the district is 52.1 per cent and that of female worker participation rate is 12.2 per cent. Male and female marginal workers account for 2.6 per cent and 9.2 per cent respectively. The proportion of female marginal workers is substantially higher than that of males as the females are attending one or more economic activities in addition to their usual household duties to improve their living standard.

It has been observed that the proportion of males in main work is higher as compared to the proportin of female main workers in both rural and urban areas.

A person who can read and write in any language with understanding is considered literate in census.

All children of age below 7 years are considered illiterates. As per 2001 Census there are 1,083,696 literates in Jamnagar district constituting 66.5 per cent of total population. The male literacy rate is 76.2 per cent and female literacy rate is 56.2 per cent showing a gap of 20.1 percentage points.

There is one medical and dental college in Jamnagar including other colleges like Home Science, Ayurvedic, Arts, Science and Commerce education. There is one Government Polytechnic in Jamnagar. Kalavad and Dhrol have one and Jamjodhpur has two Arts and Commerce Colleges. Aliabada has one Shikshan Mahavidyalaya.

Religion :

Religion forms an integral part of Indian Social system. In the pre-Independence census reports, the data on religion was being presented for 9 major religion viz. Hindu, Muslim, Tribals, Christian, Sikh, Jain, Buddhist, Parsi, Jewish and others. However, since the 1951 census the data on religion has been presented for 6 major religion viz. Hindu, Muslim, Christian, Sikh, Jain and Buddhist. Besides, the minor religions have been classified under the category of 'other'. The data on religion collected and presented

by the Indian Census is the basic data of intense use for the researchers, anthropologists, sociologists, demographers, administrators, and planners and even for common man.

In 2001 the Indian Census collected the religion data in question 7 of the household schedule and recorded the same under the six major religions. Other religions were recorded in actual as returned by the respondent and classified under the category of 'others'. Religion not stated has been added for those persons who have not stated their religion at the time of canvassing the status of religion

Percentage Distribution of Population by Major Religions in Gujarat State and Jamnagar District, in 2001 Census.

Sl. No.	Religion	Gujarat State		Jamnagar District	
		Population	Percentage	Population	percentage
1	2	3	4	5	6
1	Hindu	45,143,074	89.1	1,605,941	84.3

8	Religion not stated	33,578	0.1	648	0.0

Source : Census of India, 2001

Percentage distribution of population by major religions in Gujarat State and Jamnagar district is given in above statement. It is observed that 84.3 per cent population is Hindu in the district against 89.1 per cent Hindu in the state. 14.2 per cent of Muslim are recorded in the district against 9.1 per cent in the state. As far as religions like Christian, Sikh, Buddhist and Jain are concerned, their percentage in the district are very insignificant.

Religion	Number of Followers	Population	
		Rural	Urban
1	2	3	4
Hindu	1,605,941	976,907 (60.8)	629,034 (39.2)
Muslim	270,223	86,621 (32)	183,602 (68)
Christian	2,550	266 (10.4)	2,284 (89.6)
Sikh	1,653	234 (14.2)	1,419 (85.8)
Buddhist	1,213	235 (19.4)	978 (80.6)
Jain	21,907	3,527 (16.1)	18,380 (83.9)

* Recasted Population.

Table 1 shows decadal changes in population of talukas by residence during the decade of 1991-2001. It can be seen that during the decade of 1991-2001, 21.8 per cent variation in population is reported for Jamangar district. The change in rural and urban population during the decade is 14.5 per cent and 32.6 per cent respectively. The highest decadal change is seen in Jamangar taluka at 37.7 per cent while the lowest of 0.7 per cent is recorded in Kalavad taluka. The highest decadal change of 44.8 per cent in urban population is recorded in Jamangar taluka. Jodiya and Lalpur town have been declassified in 2001 Census. That's why there is no decadal growth shown for these talukas. As regards rural areas the highest decadal growth of 32.2 per cent is recorded in Jodiya taluka. Minus growth of 2.5 per cent in Kalavad rural area has been noticed in 2001 Census. In 1991 40.3 per cent of population was urban population while in 2001 the urban population is reported as 43.9 per cent of total population.

Table 2 gives the detail of absolute number and percentage of inhabited villages falling in each range of population size of villages and number of males and females in each population range at taluka level in the district. Out of 698 inhabited villages, 45 villages (6.4 per cent) are small size villages with population below 200 persons. 87 villages (12.5 per cent) have population size of 200-499 and 168 villages (24.1 per cent) are registered in the population range of 500-999. The highest numbers of 247 (35.4 per cent) villages are in the population range of 1000-1999. There are 124 (17.8 per cent) villages in the population range of 2,000-4,999 and only 22 (3.2 per cent) villages have population between 5,000-9,999. Only 5 villages (0.7 per cent) are in the highest population range of 10,000 and above.

District Total:	**698**	**100.0**	**1,068,022**	**100.0**

Population Density (Rural) of the district: 109

Table 4 gives the detail about the distribution of villages by population density ranges. All inhabited villages of the district are grouped under eight different ranges of density. The maximum number of villages i.e. 284 accounting for 40.7 per cent of villages fall in the density range of 51-100 having 30.1 per cent of population while maximum population of 479,708 persons (44.9 per cent of population) spread in 256 villages having the density range of 101-200. The lowest range of 0-10 persons per sq.km. covers 28 (4 per cent) villages with population of 1,958 (0.2 per cent) persons. 5 villages are registered in density range of 11-20 and 63 villages are in range of 21-50 persons. There are 36 and 19 villages with density range of 201-300 and 301-500 respectively while only 7 villages with 3.4 per cent of population have very high density of 501 and more persons per sq.km. The population density of rural area of the district is 109.

TABLE 5

SEX RATIO OF STATE AND DISTRICT, 1901-2001

11	2001	920	945	880	941	958	918

Table 5 shows sex ratio of State and Jamnagar district for the Census years from 1901 to 2001.

As per 2001 Census district sex ratio is recorded at 941 females per 1,000 males against State average of 920. The highest sex ratio of 991 is recorded in 1931 in Jamnagar district while the lowest sex ratio of 941 was recorded in Census of 2001. Rural sex ratio of 958 is higher against the urban sex ratio of 918 in the district. Urban sex ratio in the district is gradually showing a decreasing trend up to 1961.

TABLE 6

SEX RATIO BY TALUKAS, 2001

	District Total :	**941**	**958**	**918**

Table 6 gives the detail of sex ratio for total, rural and urban areas at taluka level as per 2001 Census. There are 941 females for every 1,000 males in Jamnagar district. Among talukas of the district Kalavad has reported the highest sex ratio of 1,013 whereas the lowest sex ratio of 912 is recorded in Okhamandal. In rural areas Kalavad has the highest ratio of 1,019 females per 1,000 males whereas the lowest sex ratio of 941 is recorded in each of the talukas Jamnagar and Jodiya. In urban areas Dhrol has recorded the highest sex ratio of 1,065 against the lowest sex ratio of 896 in Okhamandal.

TABLE 7

SEX RATIO BY TALUKAS / C.D. BLOCKS, 2001

Sl. No.	Name of Taluka / C. D. Block	Sex Ratio

District Total :	**698**	**100.0**	**1,068,022**	**100.0**

Sex ratio (Rural) for District: 958

Table 8 gives the detail of the distribution of villages by 9 different ranges of sex ratio. The maximum number of villages i.e. 208 accounting for 29.8 per cent of the total villages having 35.9 per cent population of the district fall in the sex ratio range of 900-949. It is followed by the sex ratio range of 950-999 which claims 179 villages (25.6 per cent) with 33.2 per cent of population. 171 villages are in range of 1000-1099 and they have 19.3 per cent of population while 35 villages (5 per cent) with only 2.2 per cent of population are in the highest sex ratio range of 1100 and more. 67 villages are in range of 850-899 and 20 villages are in range of 800-849. Comparatively a few numbers of village i.e. 5,4 and 9 are recorded in the sex ratio ranges of 750-799, 700-749 and less than 700 respectively. The percentage proportion of population in these ranges is also comparatively very low.

TABLE 9

		Urban	**110,615**	**58,776**	**51,839**	**882**

Table 10 shows the sex ratio of the population in age group of 0-6 years for total, rural and urban areas in respect of each taluka of the district. The total population in age group of 0-6 years is 274,268 persons comprising 144,494 males and 129,774 females. The sex ratio of this age group is 898 females per 1,000 males in the district. In this age group rural sex ratio is found to be higher than the urban sex ratio at district level. In rural areas the sex ratio is 909 females per 1,000 males whereas in urban areas the same is 882. Out of 10 talukas Jodiya, Lalpar and Kalyanpur talukas do not have any urban areas. Out of remaining 7 talukas Khambhalia and Dhrol talukas have reported higher sex ratio in urban areas as compared to their rural sex ratio. Higher sex ratio is reported in all rural areas other than rural areas of Khambhalia and Dhrol.

TABLE 11

SEX RATIO OF POPULATION IN THE AGE GROUP 0-6 FOR TALUKAS/C.D. BLOCKS, 2001

Sl. No.	Name of Taluka/ C.D. Block	Total Population in 0-6 Age Group			Sex Ratio for 0-6 Age Group

	District (Rural) Total :	**163,653**	**85,718**	**77,935**	**909**

Table 11 gives the detail about sex ratio of population in the age group 0-6 years for rural areas of the district. The rural sex ratio for 0-6 age group is 909 females per 1000 males. The sex ratio among C.D. blocks/talukas of the district varies from the highest sex ratio of 959 recorded in Okhamandal to the lowest sex ratio of 883 recorded in Kalavad.

TABLE 12

SEX RATIO OF RURAL POPULATION IN THE AGE GROUP 0-6 BY RANGES, 2001

Range of Sex Ratio for Villages	Number of Inhabited Villages	Percentage Distribution of Villages	Population 2001	Percentage Distribution of Population
1	2	3	4	5
Less than 700	74	10.6	5,542	3.4
700-749	35	5.0	5,609	3.4
750-799	47	6.7	8,898	5.4
800-849	77	11.0	22,671	13.9

900-949	109	15.6	37,217	22.7
950-999	70	10.0	19,873	12.1
1000-1099	108	15.5	24,704	15.1
1100+	87	12.5	10,615	6.5
District (Rural) Total :	**698**	**100.0**	**163,653**	**100.0**
Sex ratio (Rural) for District : 909				

Table 12 gives the detail about the distribution of villages in nine different ranges of sex ratio in the age group of 0-6 years as well as percentage of villages, total population and percentage distribution of population falling in each range of sex ratio in the district. The maximum number of villages i.e. 109 falls in the sex ratio range of 900-949 with the largest population proportion of 22.7 per cent followed closely by 108 villages in the range of 1,000-1,099. There are 91 villages in the range of 850-899, 77 in range of 800-849, 47 in range of 750-799, 35 in range of 700-749 and 74 in the lowest range of less than 700. As regards higher ranges of sex ratio, 70 villages with 12.1 per cent of population are in the sex ratio range of 950-999 and 87 villages with 6.5 per cent of population are in the highest sex ratio range of 1,100 and more.

UA = Urban Agglomeration.

Table 13 gives the detail about the population and sex ratio of population in the age group 0-6 years for the urban areas of the district. The total urban population in the age group of 0-6 years is 110,615 persons comprising 58,776 males and 51,839 females. The district (urban) sex ratio for 0-6 years age group is 882 females per 1000 males. Among UA/Towns the highest sex ratio of 1,003 is recorded in Salaya (M) while the lowest of 816 is recorded in Okha Port (CT).

		Urban	**836,256**	**68,359**	**4,264**	**8.2**	**0.5**

Table 14 gives the detail about the distribution of Scheduled Castes and Scheduled Tribes with their percentage distribution to total population at taluka level in rural and urban areas of the district. Out of 1,904,278 populations in the district 8.1 per cent belongs to Scheduled Castes and only 0.5 per cent belongs to Scheduled Tribes. The proportion of Scheduled Castes population is 8.1 per cent in rural areas and 8.2 per cent in urban areas. The highest percentage of Scheduled Castes population i.e. 11.2 per cent is recorded in Kalavad taluka while the lowest of 5 per cent is in Kalyanpur taluka. The proportion of Scheduled Tribes population is 0.6 per cent and 0.5 per cent in rural and urban areas respectively. The highest of 2.5 per cent Scheduled Tribes population in the district is recorded in Bhanvad taluka while the lowest of 0.2 per cent population of Scheduled Tribes is recorded in Khambhalia, Jodiya, Kalavad and Kalyanpur talukas.

TABLE 15

NUMBER AND PERCENTAGE OF SCHEDULED CASTES AND SCHEDULED TRIBES POPULATION IN TALUKAS/C.D. BLOCKS, 2001

Sl. No.	Name of Taluka/ C.D. Block	Total Population	Total Scheduled Castes Population	Total Scheduled Tribes Population	Percentage of Scheduled Castes Population to Total Population	Percentage of Scheduled Tribes Population to Total Population

	District (Rural) Total :	**1,068,022**	**86,460**	**6,195**	**8.1**	**0.6**

Table 15 gives the details about the distribution of Scheduled Castes and Scheduled Tribes population for rural areas in each Taluka/ C.D.Block of the district. The proportion of Scheduled Castes and Scheduled Tribes population in rural areas is 8.1 per cent and 0.6 per cent respectively. The highest proportion of 12.3 per cent of Scheduled Castes population is recorded in Jamjodhpur taluka and the lowest of 4.9 is recorded in Khambhalia taluka. At taluka level the highest Scheduled Tribes population of 1.1 per cent is recorded in Jamjodhpur and the lowest of 0.2 per cent in Khambhalia, Jodiya, Kalavad and Kalyanpur talukas.

TABLE 16

PROPORTION OF SCHEDULED CASTES POPULATION TO TOTAL POPULATION IN VILLAGES, 2001

District Total :	**698**	**100.0**	**6,195**	**100.0**

Table 17 gives the detail about the number of villages according to the proportion of Scheduled Tribes population to their total population in 9 different percentage ranges at district level. It is important to note that out of 698 inhabited villages 534 villages accounting for 76.5 per cent of villages do not have any Scheduled Tribes population. 119 villages (17 per cent) having Scheduled Tribes population of 37 per cent are in the population percentage range of less than 5 per cent. There is only one village in each range of 21-30, 31-40 and 51-75 of Scheduled Tribes population. There is no village having the scheduled Tribes population in percentage range of 41-50. There are 28 villages having the highest percentage range of 76 and above in Scheduled Tribes population with 34.2 per cent of Scheduled Tribes population.

	District (Urban) Total :	**836,256**	**68,359**	**4,264**	**8.2**	**0.5**

Table 18 gives the detail about the distribution of Scheduled Castes and Scheduled Tribes population as well as their percentage to total population in UA/ Towns as per 2001 Census. Out of 836,256 persons in UA/Towns, 68,359 (8.2 per cent) persons belong to Scheduled Castes and 4,264 (0.5 per cent) persons belong to Scheduled Tribes. The highest of 29.9 per cent Scheduled Castes population is recorded in Digvijaygram (CT) and lowest of 1.8 per cent in Salaya (M). The highest Scheduled Tribes population of 1.6 per cent is recorded in Jamjodhpur (M). There is no Scheduled Tribes population in Salaya (M) and the lowest 0.1 per cent is recorded in Aramhbada (CT), Navagam Ghed (M) and Surajkaradi (CT).

TABLE 19

SEX RATIO AMONG SCHEDULED CASTES AND SCHEDULED TRIBES IN C.D.BLOCKS, 2001

Sl. No.	Name of C. D. Block	Scheduled Castes Sex Ratio	Scheduled Tribes Sex Ratio

9	Bhanvad	912	900
10	Jamjodhpur	926	935
District (Rural) Total :		**943**	**909**

Table 19 gives the detail about the sex ratio among Scheduled Castes and Scheduled Tribes for rural areas in each C.D. Block in the district. The sex ratio for Scheduled Castes is 943 for district. Among talukas the highest sex ratio of 973 for Scheduled Castes is recorded in Kalavad and the lowest of 912 in Bhanvad. The sex ratio of Scheduled Tribes population is 909 for rural areas in the district. The highest sex ratio of 1233 for Scheduled Tribes is recorded in Okhamandal taluka while the lowest of 806 is recorded in Jamnagar taluka.

	Sex ratio (Urban) for the district :	**933**	**873**

Table 20 indicates the sex ratio among Scheduled Castes and Scheduled Tribes in each UA/Towns of the district. In urban area sex ratio of Scheduled Castes is 933 for the district. Among the talukas the highest and lowest sex ratio of 1,065 and 895 are recorded in Salaya (M) and Bedi (CT) respectively. The highest sex ratio of 1,382 for Scheduled Tribes population is recorded in Dhrol (M) and the lowest of 220 in Dwarka (M).

Table 21 shows talukawise literacy rate with absolute number of literates and illiterates for total with rural and urban areas separately for the population above the age of six. As per 2001 Census the proportion of effective literates to total population is 66.5 per cent in the district. This proportion in rural areas is 60.4 per cent and in urban areas it is 74.1 per cent. The male literacy rate is 76.2 per cent in the district which is higher than the female literacy rate of 56.2 per cent. This leaves a gap of 20.0 percentage points in male- female literacy rate. Among talukas Jamnagar tops with 73 per cent literates followed by Dhrol with 68.9 per cent. The lowest of 55.1 per cent literates are observed in Kalyanpur.The gap in male-female literacy rate in rural area is 22.8 percentage points while in urban areas this gap is recorded to be 16.4 percentage points.

TABLE 22

NUMBER AND PERCENTAGE OF LITERATES AND ILLITERATES BY SEX IN TALUKAS/ C. D. BLOCKS, 2001

10	Jamjodhpur	51,400	30,063	21,337	43,419	18,363	25,056	63.3	72.8	53.4	19.4
	District (Rural) Total:	**545,873**	**328,854**	**217,019**	**522,149**	**216,491**	**305,658**	**60.4**	**71.6**	**48.8**	**22.8**

Table 22 reveals the number and percentage of literates and illiterates by sex for rural population at taluka level in the district as per 2001 Census. It can be seen that 60.4 per cent population excluding the age group of 0-6 years is literate in the district. The proportion of male and female literates is 71.6 per cent and 48.8 per cent respectively, which indicates a gap of 22.8 percentage points in male-female literacy rate. At taluka level Jodiya has recorded the highest literacy rate of 66.4 per cent with male literacy rate of 77.8 per cent and female literacy rate of 54.4 per cent. The lowest literacy rate of 39 per cent is recorded in Okhamandal.

TABLE 23

DISTRIBUTION OF VILLAGES BY LITERACY RATE RANGE, 2001

Range of Literacy Rate for Villages	Number of Inhabited Villages	Percentage Distribution of Villages	Population	Percentage Distribution of Population
1	2	3	4	5
0	12	1.7	539	0.1

81-90	3	0.4	8,176	0.8
91-99	1	0.1	321	0.0
100	1	0.1	1	0.0
District Total:	**698**	**100.0**	**1,068,022**	**100.0**

Literacy Rate for District: 66.5

Table 23 gives the distribution of villages in twelve different ranges of literacy rate in the district. There is only 1 village in literacy rate range of 91-99. There is one village having one person with 100 per cent literacy rate. The highest numbers of 273 villages accounting for 39.1 per cent of total villages are in literacy rate range of 61-70 with highest of 41.6 per cent population followed by 197 villages i.e. 28.2 per cent of total villages with 28.6 per cent population. 14.5 per cent population of 76 village (10.9 per cent) have their literacy range of 71–80 per cent. The literacy rate of 50 per cent and below is observed in total of 147 villages accounting for 21.1 per cent of total villages having 14.5 per cent of total population.

Table 24 shows the absolute number of literates, illiterates and literacy rates in urban areas at UA/Town level in the district. The population covered for calculating literacy rate does not include population of age 0-6 years as population of 0-6 years is considered as illiterate. In Jamnagar 74.1 per cent of district (urban) population is literate. The literacy rate of male is 82 per cent and that of female is 65.6 per cent leaving a gap of 16.4 percentage points in male and female literacy rate. At UA/Town level Mithapur (CT) has recorded the highest literacy rate of 86.1 per cent while the lowest rate of 32.3 per cent is noticed in Salaya (M).

TABLE 25

Table 25 gives data of literacy rates for Scheduled Castes population. The literacy rate for Scheduled Castes is recorded at 57.3 per cent for district (rural). The male and female Scheduled Castes literacy rates are 71.4 per cent and 42.3 per cent respectively. The gap in male-female literacy rate is 29 percentage points. The highest literacy rate of 66 per cent in Scheduled Castes is recorded in Dhrol taluka and the lowest of 35.7 per cent in Okhamandal taluka. As far as literacy rates for male in Scheduled Castes is concerned Dhrol taluka / C.D. Block shows the highest rate of 82.3 per cent whereas the lowest of 47.3 per cent literacy rate is recorded in Okhamandal. The highest literacy rate of 49.5 per cent is recorded in Kalavad for female population whereas the lowest of 23.1 per cent literacy in females is noticed in Okhamandal.

Table 32 gives the detail about taluka/ C.D.Blockwise absolute number and percentage of main workers, marginal workers and non workers. The percentage of total workers (main + marginal) to total persons is 44.5 per cent. Sex-wise break up shows that male main workers are 52.9 per cent of male populations against 17.4 per cent of female main workers. The female proportion for marginal workers is 14.9 per cent which is higher than male marginal workers percentage of 3.4 per cent. There are total of 55.5 per cent non-workers. The male and female percentage for non workers is found at 43.7 per cent and 67.8 per cent respectively. The percentage proportion of female marginal workers is higher than that of male marginal workers for all the talukas of the district.

At taluka level Kalavad has the highest proportion of total workers i.e. 50.5 and the lowest of 36.8 per cent is observed in Okhamandal taluka. Similarly the highest and lowest proportion of main workers are also recorded in Kalavad and Okhamandal taluka at 41.2 per cent and 29.3 per cent respectively.

Table 33 shows the absolute number and percentage of main workers, marginal workers, non-workers and total workers by sex in UA/Towns in Jamnagar district as 2001 Census. In the district total workers (main +marginal) are 30.9 per cent of total population. Out of which 29.3 per cent are main workers and 1.7 per cent are marginal workers. A high proportion of about 69.1 per cent of population is reported to be non-workers.At district level the sexwise break-up shows that male main workers are 51 per cent of total male population and female main workers are only 5.6 per cent of female population. As regards marginal workers the male and female proportion is almost same at 1.6 per cent and 1.7 per cent respectively, while 92.7 per cent female population and 47.4 per cent of male population is non-workers. Among UA/Towns the highest percentage of total workers are recorded in Bhanvad (M) at 34.4 per cent followed closely by Okhaport (CT) at 34.1 per cent while the lowest of 25.4 per cent is recorded in Salaya (M). The highest proportion of main workers is found in Okhaport (CT) at 33 per cent while the lowest proportion of main workers of 23 per cent is found in Salaya (M). The highest proportion of non-workers at 75 per cent is found in Salaya (M) whereas the lowest about 66 per cent is recorded in Bhanvad (M), Dhrol (M) and Okhaport (CT).

Note: Percentage of Worker to total worker are given in brackets

Table 34 reveals economic activities in the district. It is evident from the table that out of total population, total workers (Main + Marginal) are 38.6 per cent. Out of total workers 36 per cent are cultivators, 14.4 per cent are Agricultural labourers, 1.7 per cent are Household Industry workers and remaining 47.9 per cent are other workers. Cultivation and other works are two main activities pursued by almost 83.9 per cent of working force. The proportion of cultivators varies from 12.3 per cent in Jamnagar to 60.5 per cent in Kalyanpur. The highest proportion of other workers is recorded at 79.6 per cent in Jamnagar and the lowest proportion of 17.8 per cent in Kalyanpur taluka. The proportion of Household Industry workers is significantly very low in all the talukas. As regards male and female work participation, it is observed that the male work participation in cultivation is 30.6 per cent whereas female work participation rate in cultivation is 50.9 per cent. Except other workers female work participation rate is higher than the male work participation. But in case of other work, male work participation rate is significantly higher at 57.6 per cent compared to female work participation rate of 21.6 per cent in other work.

Note: Percentage of Worker to total worker are given in brackets

Table 35 gives the detail about talukawise/ C.D.Blokwise distribution of workers by sex in four categories of economic activity in the rural areas of the district. As the table shows total workers, including main and marginal are 44.5 per cent of total population. Among these workers 54.5 per cent are cultivators, 21.1 per cent are Agricultural labourers, 1.4 per cent are Household Industry workers and 23 per cent are other workers. It can be observed from the table that agriculture plays a major role in providing employment in the rural areas of the district as together 75.6 per cent of workers are found to be engaged in cultivation and Agricultural labour while Household Industry sector employs only 1.4 per cent of workers. Among cultivators participation of male workers is 52.1 per cent which is lower than the female work participation of 59 per cent in cultivation. Same trend is visible among Agricultural labourers where 17.1 per cent of male workers is lower than 28.2 per cent females engaged in Agricultural labour. As regards Household Industry workers proportion of both the genders engaged in Household Industry work is equal at only 1.4 per cent. In case of other workers the scene is quite reverse where the male work participation rate of 29.4 per cent in other work is higher than the female work participation rate of 11.4 per cent. At taluka level the proportion of cultivators varies from 38.5 per cent recorded in Okhamandal taluka to 66.5 per cent in Kalavad. The highest of 29.5 per cent and the lowest of 15.9 per cent of Agricultural labourers are recorded in talukas of Jamjodhpur and Khambhalia. The share of Household Industry workers is comparatively very low in all the talukas. As regards other workers the proportion variation is observed at the lowest of 13.5 per cent in Kalavad to the highest of 44.2 per cent in Okhamandal taluka.

UA = Urban Agglomeration

Table 36 shows the detail of distribution of workers by sex in four categories of Economic activity of UA/Towns in the district. In the urban areas total workers including main and marginal workers are 30.9 per cent of total population. Among these workers, cultivators are 2 per cent, Agricultural labourers are 2.1 per cent, Household Industry workers are 2.3 per cent and other workers are 93.6 per cent. The above figure indicates that other work plays a major role in providing employment to the vast working force of urban population. Among towns of the district, Mithapur (CT) has the highest per cent of other workers i.e. 99.6 per cent and the lowest of 63.5 per cent other workers is registered in Jamjodhpur (M).

Note : Percentages are given in brackets.

* Based on the improved drinking water source, drinking water supply has been classified as 'Improved ' or otherwise. If the household has access to drinking water supplied from a tap or a hand pump / tube well situated within or outside the premises it is considered as having access to 'Improved drinking water source' However, the concept of improved drinking water is state specific and this is to be considered accordingly.

Post office includes Post office, telegraph office and Post and telegraph office.

$ Transport communication includes bus service, rail facility and navigable waterways

The village directory data supplied by the village officials are presented in Part-A of this handbook. It shows various type of amenities and land use data of each village of the district. These data have been tabulated for talukas of the district in form of village directory. On the basis of these data certain tables have been designed and brief analytical note on these tables is also given below.

Table 37 shows the distribution of villages according to availability of different amenities. Out of 698 inhabited villages of the district 666 (95.4 per cent) villages have at least one primary school and all these villages have power supply. Medical facility of one or another kind is available in 286 (41 per cent) villages and 644 (92.3 per cent) villages have improved drinking water facilities of either tap, well, tank, tube well, river or canal etc. Out of 698 villages 419 (60 per cent) have Post Offices, 436 (62.5 per cent) have the facilities of Telephone and 630 (90.3 per cent) have the facilities of Transport Communication. Only 76 (10.9 per cent) villages have Banking facilities which may be considered to be inadequate. 343 (49.1 per cent) villages have Agricultural Credit Societies.64.8 per cent of total villages (452) have their links by Pucca roads.

Note : - Percentages are given in brackets.

* Based on the improved drinking water source, drinking water supply has been classified as `Improved ' or otherwise. If the household has access to drinking water supplied from a tap or a hand pump / tube well situated within or outside the premises it is considered as having access to `Improved drinking water source'. However, the concept of improved drinking water is state specific and this is to be considered accordingly.

Post office includes Post office, telegraph office and Post and telegraph office.

$ Transport communication includes bus service, rail facility and navigable waterways.

Table 38 gives number and per cent of rural population served by different amenities as per cent 2001 Census. Out of total rural population of 1,068,022 persons 99.6 per cent have educational facility of one or other type. As far as other facilities are concerned 62.4 per cent of population have Medical facilities, 96.7 per cent have Improved Drinking Water facilities, 78.6 per cent have Post Offices, 77.1 per cent have Telephone facilities, 94.4 per cent have Transport Communications, 28.8 per cent have Banking facilities, 65.9 per cent have Agricultural Credit Societies, 77.9 per cent have Approached by Pucca Roads and 99.3 per cent have Power Supply facilities. Among talukas/ C.D.Blocks Okhamandal does not have any Agricultural Credit Society. It can be seen that Banking facilities are not adequately available to majority of population while availability of edcuational facilities, Improved Drinking Water, Transport and Communicatioin and Power Supply is available to nearly 100 per cent in many C.D. Blocks.

TABLE 39

DISTRIBUTION OF VILLAGES NOT HAVING CERTAIN AMENITIES,ARRANGED BY DISTANCE RANGES FROM THE PLACES WHERE THESE ARE AVAILABLE, 2001

Village Not Having the Amenity of	Distance Range of Place from the Villages where the Amenity is available			
	Less than 5 Kilometres	5-10 Kilometres	10+ Kilometres	Total (Col. 2 - 4)
1	2	3	4	5

5. Bus Service	41	18	13	72
6. Banks				
(a) Commercial Bank	148	161	322	631
(b) Co-operative Bank	107	145	416	668
7. Agricultural Credit Societies	165	89	101	355

Note : * In Gujarat State, the levels of education are classified as under
(i) Primary (from Std. I to VII passed)
(ii) Secondary/Matriculation(From Std. VIII to X passed)
(iii) Higher Secondary (From Std. XI to XII passed). Hence, details under 1 (b) are not shown.

Table 39 shows distribution of villages not having certain amenities arranged by distance range from the place where these are available. It can be seen that 19 villages have Primary school and 28 villages have Degree College within the distance of less than 5 km. while two villages have primary school and 602 villages have Degree College at a distance of 10 km or more. As far as Medical facilities are concerned 34 villages have Hospital, 127 have PHC within the distance of 5 km, and 609 villages have Hospital, and 373 villages have PHC at a distance of 10 km or more. Facilities of Post Offices is available to 180 villages within 5 km. 51 villages from 5-10 km. and 49 villages at a distance of 10 km. or more. 123 villages have Telephone facilities and 13 villages have bus services at a distance of 10 km. or more. As regards banking facilities 322 villages have Commercial Banks and 416 villages have Co-operative Banks at a distance of 10 km. or more. 101 villages have Agricultural Credit Societies at a distance of 10 km. or more.

Post office includes Post office, Telegraph office and Post and telegraph office.
$ Transport communication includes bus service, rail facility and navigable waterways.

Table 40 details distribution of villages according to four ranges of the distances from the nearest statutory town and availability of different amenities. Out of 698 inhiabited villages 15 villages are at a distance of less than 5 kms. from the nearest town and all these villages have educational facilities. As regards other facilities out of these 15 villages 3 have medical facilities, 9 have the facilities of Post Office and Approach by pucca roads, 13 have the facilities of Telephone and Transport Communications, 8 have Agricultural Credit Societies and only one village in this range has Banking facility. There are 226 villages who have nearest statutory town in the distance range of 5-15 kms. Out of these 226 villages 214 villages have Educational facilities, 83 villages have medical, 134 villages have Post Office, 141 villages have Telephone, 198 villages have Transport Communication, 24 villages have Banks, 97 villages have Agricultural Credit Societies and 155 have Approach by pucca road. 440 villages are located at a distance of 16 km. but less than 51 km. from the nearest statutory town. Out of these 440 villages 420 villages have Education facility, 193 villages have Medical, 262 have Post Office, 272 have Telephone, 404 have Transport Communication, 48 have Banks, 229 have Agricultural Credit Societies and 278 have Approach by pucca road. Only 17 villages are in the range of 51 km. or more from the nearest town. All these villages have Educational facility, 7 have Medical, 14 have Post Office, 10 have Telephone, 15 have Transport Communication, 3 have Banks, 9 have Agricultural Credit Societies and 10 villages have Approach by pucca road.There is no village in the range titled 'Unspecified'.

Note : Percentages are given in brackets

* Based on the improved drinking water source, drinking water supply has been classified as 'Improved ' or otherwise. If the household has access to drinking water supplied from a tap or a hand pump / tube well situated within or outside the premises it is considered as having access to 'Improved drinking water source'. However, the concept of improved drinking water is state specific and this is to be considered accordingly.

Post office includes Post office, Telegraph office and Post and telegraph office.

$ Transport communication includes bus service, rail facility and navigable waterways.

Table 41 shows the distribution of villages according to 6 different types of population ranges and amenities available. There are 5 villages in the population range of 10,000 or more having all the facilities except the facilities of Post Office and Banks. Post Office and Banking facilities are available to 4 villages in this population range. There are 22 villages in the population range of 5,000-9,999 and all these villages have facilities of Education, Improved drinking water and Power Supply. Medical facilities in the villages having the population ranges of 1 – 499, 500–999, 1,000 – 1,999 is comparatively poor. Villages with higher population ranges of 2,000 – 4,999, 5,000 – 9,999 and 10,000 and more are enjoying with amenities like education, medical, improved drinking water etc.

8	Kalyanpur	65	141,222.1	63	21.3
9	Bhanvad	80	69,478.5	60.1	48.1
10	Jamjodhpur	69	102,183.7	53.8	15.7
	District Total :	**698**	**973,754.1**	**62.8**	**21.6**

Note : - Cultivable area = irrigated area + unirrigated area

Table 42 gives the detail about talukawise/ C.D.Blokwise distribution of villages according to land use. It also gives the detail of total areas and cultivable areas available in the inhabited village of the district. Cultivated area includes irrigated as well as unirrigated area. It can be seen from the table that total area of 698 inhabited villages is 973,754.1 hectares having 62.8 per cent cultivable land. 21.6 per cent of total cultivable land is irrigated.Kalyanpur has the highest area of 141,222.1 hectares, whereas Dhrol has the least area of 53086.9 hectares, among all Talukas/C. D. Blocks. Dhrol has the highest of 73.5 per cent cultivable land and Jamjodhpur has the lowest of 53.8 per cent cultivable land in the district. In case of irrigated land, 48.1 per cent land is reported to be irrigated in Bhanvad while in Okhamandal a least of 5.1 per cent land is irrigated

	District Total :	**2.5**	**0**	**0.6**	**0.6**	**0.1**

Note : * In Gujarat State, the levels of education are classified as under

(i) Primary (from Std. I to VII passed)
(ii) Secondary/Matriculation(From Std. VIII to X passed)
(iii) Higher Secondary (From Std. XI to XII passed). Hence, details of Col. 4 is not shown.

Table 44 shows the availability of schools/colleges per 10,000 population in statutory towns of the district as per 2001 Census. There are 2.5 Primary School, 0.6 Secondary School, 0.6 Senior Secondary and 0.1 College in the district. Among towns Dhrol (M) has the highest of 5.5 primary schools per 10,000 population while Navagam Ghed (M) has the lowest of 0.8 primary school. Dwarka (M) has 2.4 secondary and 0.6 colleges per 10,000 population which is the highest and Jamnagar (M Corp) has the lowest of 0.3 secondary and 0.2 college. As regards senior secondary Dhrol (M) has the highest number i.e. 1.3 of Senior Secondary School and the lowest number of 0.6 is recorded in Jamnagar (M Corp.)

TABLE 45

NUMBER OF BEDS IN MEDICAL INSTITUTIONS IN TOWNS, 2001

Sl. No.	Name and Urban Status of the Town	Number of Beds in Medical Institutions per 10,000 Population

13	Okha Port(CT)	2
14	Salaya(M)	6
15	Sikka(M)	20
16	Surajkaradi(CT)	0
	District Total :	**38**

Table 45 gives the number of beds in Medical Institution per 10,000 population in urban areas. At district level there are 38 beds per 10,000 population in the towns. Mithapur (CT) has the highest number of 74 beds per 10,000 population among towns of the district followed by Khambhalia (M) with 64 beds and Jamnagar (M Corp) with 52 beds. The lowest number of one bed per 10,000 population is recorded in Navagam Ghed (M) followed by 2 and 3 beds recorded per 10,000 of population in the towns of Okha Port (CT) and Arambhada (CT) respectively.

TABLE 46

PROPORTION OF SLUM POPULATION IN TOWNS, 2001

Sl. No.	Name of the Town	Total Population	Slum Population	Percentage of Slu Population to To Population
	2	3	4	5
1	Jamjodhpur	22,661	896	4
2	Jamnagar	498,344	110,590	22.2
3	Khambhalia	36,479	900	2.5
	District Total :	**557,484**	**112,386**	**24.7**

Table 46 gives proportion of Slum population in towns as per 2001 Census. It can be seen that only 3 towns viz. Jamjodhpur, Jamnagar and Khambhalia have slum population. The highest slum population of 110,590 is recorded in Jamnagar which is 22.2 per cent of total population of Jamnagar town. The other two towns have comparatively very low slum population. At district level the proportion of slum population to total population is 24.7 per cent.

TABLE 47

MOST IMPORTANT COMMODITY EXPORTED OUT OF AND MANUFACTURED IN TOWNS, 2001

Sl. No.	Name and Urban Status of Town	Most Important Commodity	
		Manufactured	Exported

Source: Census of India 2001, H- series: "Tables on Houses, Household amenities and Assets."

Table 48 details the number of households by tenure status and number of rooms occupied in the district. The total numbers of households in the district are 339,442 having 190,715 households in rural areas and 148,727 households in urban areas. Out of total households 31,431 belong to Scheduled Castes and 4,077 households belong to Scheduled Tribes. Out of total of 339,442 households in the district 283,224 (83.4 per cent) households are living in their owned house, 45,736 (13.5 per cent) living in rented houses and the rest of 10,482 (3.1 per cent) households are living in other households in the district. The largest number of households i.e.146,040 have only one room house followed by 127,032 households who have two rooms accommodation. 40,430 households have three room house and 25,909 households have 3 and more room house. Only 31 households do not have any exclusive room. In rural areas of the district 90.1 per cent of households are owned whereas in urban areas 74.9 per cent of households are owned households. The median numbers of rooms is found to be greater i.e. two in urban area in comparison to rural areas for the district.

Source : Census of India 2001, H - series : "Tables on Houses, Household amenities and Assets."

Note:

Permanent : Permanent houses refers to those houses whose wall & roofs are made of pucca materials i.e., where, burnt bricks, G.I. Sheets or other metal sheets, stone cement concrete is used for wall and tiles slate, shingle, corrugated iron, zinc or other metal sheets asbestos sheets, bricks, lime and stone and RBC/RCC concreate are used for roof.

Semi permanent: Semi-permanent houses refer to those houses made of other types of materials

Temporary : Temporary houses refers to those houses having wall and roofs made of Kutcha materials i.e. where grass, leaves, reeds, bamboo mud, unburnt bricks are used for the construction of walls and grass, leaves reeds, bamboo hatch, mud, unburnt bricks, wood etc. are used for roofs.

Table 49 gives the detail about percentage distribution of households living in permanent, semi-permanent and temporary houses in the district. It can be seen that majority of households i.e. 87.6 per cent are living in permanent house i.e. houses made by pucca materials. 10.6 per cent of households are living in semi permanent houses i.e. houses made of other types of materials and remaining 1.8 per cent households are living in temporary houses i.e. houses made of Kachcha materials. In rural areas 84.8 per cent households are living in permanent houses, 13.2 per cent in semi permanent houses and only 2.0 per cent households are living in temporary houses. In urban areas 91.2 per cent of households have permanent house, 7.3 per cent have semi permanent houses and only 1.5 per cent households in urban areas are living in the temporary houses. Comparatively in percentage terms urban areas have more percentage of permanent houses.Among talukas Kalyanpur tops the list with highest of 91.3 per cent permanent house while Bhanvad has the highest of 16.0 per cent of semi permanent houses. As regards temporary houses Okhamandal with 4.7 per cent houses has the highest proportion of temporary houses.

Source : Census of India 2001, H- series: "Tables on Houses, Household amenities and Assets."

Note : Percentages are given in brackets.

* Based on the improved drinking water source, drinking water supply has been classified as 'Improved ' or otherwise. If the household has access to drinking water supplied from a tap or a hand pump / tube well situated within or outside the premises it is considered as having access to 'Improved drinking water source'. However, the concept of improved drinking water is state specific and this is to be considered accordingly.

@ Bathroom means bathroom within the house

$ Toilet means toilet within the house

\# Drainage means closed and open drainage

Table 50 shows percentage of households having improved drinking water source, electricity, bathroom, toilet and drainage facility as per 2001 Census.It can be observed that 76.8 per cent of total households have improved drinking water facility, 87.2 per cent have electricity 53.7 per cent have bathroom facility within the house, 42.3 per cent of households have toilet facility within the house and 37.8 per cent have closed and open drainage facility. In rural areas 69.9 per cent households have improved drinking water facility, 82.8 per cent have electricity, 38.2 per cent have bathroom, 19.0per cent have toilet and 12.8 per cent households have drainage facility. In urban areas 85.7 per cent have improved drinking water facility, 92.8 per cent have electricity, 73.5 per cent have bathroom, 72.1 per cent have toilet and 69.8 per cent have drainage facility. It can be observed from the data that urban households are better equipped with all the facilities as compared to the household in rural areas.

*Percentage in brackets

Source: Census of India 2001, H- series: "Tables on Houses, Household amenities and Assets."

Table 51 detail about the percentage distribution of households by type of fuel used for cooking purpose. There are nine types of fuel used for cooking for which data is presented in this table.Firewood is widely used as fuel as 26.0 per cent of households use it in the district. 41.6 per cent of rural households and 11.9 per cent of urban households use firewood.In talukas of the district percentage variation of households using firewood for cooking is in between 16.6 per cent in Jamnagar and 67.0 per cent in Jodiya. Use of firewood is more prevalent in rural areas in comparision to urban areas. Use of LPG is next to firewood as it is used by 26.0 per cent of households in the district. 6.3 per cent of rural households and 51.2 per cent of urban households use LPG as fuel for cooking. This clearly indicates that urban households are using LPG more as cooking fuel as compared to rural households. Cow dung cake and kerosene are used by 18.9 per cent and 15.3 per cent of households respectively. The use of Cow dung cake as a fuel is more in rural areas whereas the use of kerosene is more in urban areas. Crop residue is used by 8.0 per cent of households in the district. It is also more in rural areas in comparision to urban areas. The usage of other fuel such as electricity, coal, biogas and other items is comparatively insignificant. Only 0.6 per cent of households have no cooking fuel.

Source: Census of India 2001, H- series: "Tables on Houses, Household amenities and Assets."

Table 52 shows number of Households availing Banking services and number of Households having each of specified assets. There are 339,442 households in the district. Out of them 175,261 (51.6 per cent) households are availing banking services. As regards availability of households assets 44.3 per cent households have Radio/Transistors, 45.7 per cent have TVs, 11.6 per cent have Telephone, 47.8 per cent have Bicycle, 26.5 per cent have scooter/moped, motor cycle and 3.6 per cent have car, jeep, van. There are 76,808 (22.6 per cent) households who do not have any of the specified assets. 28.8 per cent households in rural and 14.8 per cent households in urban areas do not have any of the specified assets.

It is interesting that in rural areas 54.7 per cent households avail banking services as compared to 47.8 per cent of households availing banking services in urban areas. In rural areas, 43.7 per cent households have radio/transistor, 29.9 per cent have TVs. 6.6 per cent have telephone, 41.4 per cent have bicycle, 20.9 per cent have scooter and 3.1 per cent have car, jeep and van. In urban areas 45.1 per cent have radio/ transistor, 65.9 per cent have TVs, 18.0 per cent have telephones, 55.9 per cent have bicycles, 33.6 per cent have scooters/motorcycles, moped and 4.1 per cent have car, jeep and van. Thus it can be seen from the data that comparatively urban households have more specified assets than the households of rural areas.

(viii) Major social & cultural events natural & administrative developments and significant activities during decade.

During the decade, the State Government reconstituted some of districts and created new district as well as reconstituted some talukas, but Jamnagar district remain unaffected, without any change. No significant development worth mention took place during the decade.

(ix) Brief description of places of religious, historical or archaeological importance in villages and places of tourist interest in the towns of the district.

Name of Taluka : Jamnagar

Name of villages : Jamnagar

Location Code : 41012000

(Crematorium)

District headquarter is situated on the confluence of two rivers Nagmati and Rangmati. There are many places of interest like Lakhota palaces, solarium, museums, libraries, cremation ground or *Smashan* Jain temples, parks and gardens etc.

The crematorium, popularly known as *'Adarsh Smashan'* was built in the year 1982. Situated on the bank of river Nagmati on the outskirts of the city it has become a well-known place of interest due to its ideal lay out and serene appearance. It is situated within a garden with about 100 Statues of Indian saints, Gods and Goddesses a spacious waiting hall and a library.

Solarium:

The solarium is also equipped with a meteorological observatory to record atmospheric conditions. All types of radiations, X-ray, radium, sun rays and light are utilised at the solarium for the treatment of various diseases like tuberculosis, skin diseases, rheumatics, rickets and certain types of cancer. The treatment given at the solarium has been proved satisfactory especially in cases of glandular tuberculosis, skin diseases, metabolic disorders, paralysis etc.

Name of Taluka :Okhamandal

Name of villages : Dwarka

Location Code : 41005000

(Jagat Mandir)

Dwarka is famous for the shrine of *Lord Krishna* called *Jagadish Mandir* or the universed shrine built 1400 years ago. In the prencints of the shrine there is a seat of Shankaracharya called *"Sharda Pith"* which is running an Arts College and Sanskrit Academy carrying research in Sanskrit and its idology.

Beyt is the short name of Shankhoddhar Beyt because its shape resembles *'Shankh'*, the conch-shell. It is a narrow crooked strip of sand and rock situated in the Gulf of Kutch about 5 km. To the north of the mainland of Okhamandal and to the east of Okha port and Okha is 30 km. from Dwarka. It is said to be the place where Lord Krishna lived with his family when he ruled at Dwarka. It is also the place where *Vishnu* slew the demon *Shankhasura*. Visitors make it a point to visit the *Krishna* temple at this side which holds most of interest to be seen and experienced.

Name of Taluka :Jamnagar

Name of villages : Pirotan

Location Code :00731200

(Marine National Park)

Gujarat has the distinction of creating the country's first Marine National Park spread over an area of nearly 458 sq.kms. in the Gulf of Kutch, 30 km. from Jamnagar. Here corals create fantasies in stone and are the master builders of the Park. Their limestone fortresses – those found near the Pirotan Islands and the rich moist deciduous forests like those found in the dense forests of the Danes. One of the most threatened birds, the great Indian bustard finds a refuge in certain pockets of protected areas. The world's only four-horned antelope, the chowsingha is found here in healthy numbers. One of the largest herds of blackjacks grace the grasslands of Velavadar and till recently Gujarat was the place where flamingos nested in huge numbers. Dugong, a marine mammal which resembles a seal, along with the rare Borolo species have found home in the protected areas of the Marine National Park.

Name of Taluka : Jodiya

Name of villages : Jodiya

Location Code :00734700

(Bhujio Kotho)

Jodiya, the taluka head quarters is a minor port about 39 km. north east of Jamnagar. It is the terminus of the Hadmatiya – Jodiya meter guage section, a branch line from the Viramgam – Okha section of the western railway. The town is surrounded by a wall with towers and there is small interior fortlet. It was developed into a port by Meraman Khavas. The town has a powerhouse constructed in 1954. There is also a handicraft training institution for women. A bastion (Kotho) constructed in the 19th century is a protected monument. About 2000 Muslims attend the *Gulabsha Pir Urs*, held here in the month of Maharram, every year.

Name of Taluka : Kalyanpur

Name of villages : Gandhvi

Location Code :00764400

(Harsiddha Mata Temple)

Gandhvi is situated about 23 km. from Kalyanpur on the north bank of river Vartu, near its confluence with the sea opposite to Miyani. The original temple of *Harsiddha Mata* crowns the hill overlooking the creek; but as this temple is old and deserted, the original idol of *Mata* is installed in the temple at the foot of the hill. Jagdu Shah, a merchant of Mandvi (Kachchh) built famous temple of *Harsiddha Mata*.

Name of Taluka : Jamjodhpur

Name of villages : Gop

Location Code :00773500

(Gop Temple)

Near are two villages – Mota Gop and Nana Gop close to a hill known as Gop hill, situated on the bank of river Vartu. The village is associated with the legend of Lord Krishna, it is said that when Krishna returned from Pragjyotishpur in Assam after Liquidating the Asura kings named Naraka and Mura he had to detained at this place on account of the river Vartu being in floods. The people taking advantage of the enforced leisure of Lord Krishna held a reception in this honour and anointed him with the choicest waters of holy rivers. Since then the place has been called 'Jala-Zilani' Gop and an annual fair is still held to commemorate this event.

Name of Taluka : Jamnagar

Name of villages : Ghumli

Location Code : 00769100

(Navlakha Temple)

The temple is located near the village Ghumli near Bhanwad in the Jamnagar district. It stands on a high plinth (jagati). There was an elaborate colonnaded and storeyed mandapa with now exists only partially.The temple is dated back to 12th centrury A.D. Near Navlakha, a temple of earlier date (10th A.D.) called the Ganesha Mandir stands. Only its garbhagriha and sikkara now survive. The Shikhara is elaborately carved with Jhalak design. Of the four gates, only one called the Madapole gate partially survives.

(X) Major characteristics of the district, contribution of the district in the form of any historical figure associated with the district:

The district has two countrywide famous religious places viz Dwarka and Beyt. After Lord of God Shri Krishna gave up Mathura, he came to Dwarka and hence it is considered as the adopted home of Shri Krishna . It is considered to be one of the four principal holy places. This place is being invariably visited by those people, who visit Dwarka . It is the district, where the first solarium was established at Jamanagar by Jamsaheb. It was the only institute of Poly Radio Therapy in the State at that time. This district has a Sainik school at Balachadi, which gives training to children below the age of 12 to 13 years. This type of the school is the only school in the State. Air Force and Naval base have been established at Bedi.

Jamnagar has an unique crematorium. The Ayurvedic university is the only one which imparts teaching in the ancient Indian Medical Science of providing treatment to the ailing with the help of the herbs.

The cement factories at Sikka and Tata Chemicals are two of the biggest industries in this district. Tata Chemicals Factory and Salt factory are at Mithapur, in between Jamnagar and Dwarka. Tata Chemicals manufactures Soda Ash. Now the production of Fertilizers has also commenced. Recently Reliance Industry and Essar have established their Pertolium refinery and allied establishment in the district. Jamnagar is also known for its traditional traders of gold and silver carvings, silverware, embroidery, *bandhani*, kumkum, scent and bettle-nut cutter. Some of these things articles are exported too.

The fairs, which deserve specific mention are Janmashthami fair at Jamanagar and Dwarka, Beyt and the Ramdevpir fair in Jamanagar. Lord Krishna occupies a very coveted place in Hindu religion. His birthday Gokulashatami or Janmashtrami is a special and very joyous occasion. All the major temples, including famous temple of Dwarka dedicated to Lord Krishna, are colourfully decorated on this day. The fairs are held on this auspicious day in many parts of the district as well as state. *On Shravan vad 8* (i.e. Janmastami) special fairs are held in Jamnagar and Dwarka (the adopted home of Lord Krishna). Another fair is held here for three days from *Bhadrapad Sud 9 to 11* in commemoration of the Saint *Ramdev Pir.*

The district has given world famous cricketers like Dulipsinhji, and Ranjitsinhji. In their memory Ranji Trophy and Dulip trophy are established in the field of cricket. In the world of Crafts, Bandhani (tie – and – dye), perfumeries and pen-knives of the district are famous.

JAM RANJI (1872-1933)

'Ranji' tournament a famous Indian cricketing tournament is named after Maharaja Ranjitsinhji of Jamnagar, who himself was a very famous cricketer of his time. He was popularly known as Jam Ranji. He was the first to score 3000 runs twice in a single season (June to October 1899) which was an unusual feat. He scored five double centuries in 1900, missed the sixth one by only 8 runs as the innings was declared. He is the only one who scored centuries in both the innings played during the day. He represented English team against Australia in 1896 and scored 154 runs in his very first test match. He also scored 175 runs in his first test match on Australian soil in 1897. In first class cricket he scored 24,696 runs in 500 innings with an average of 56.37 runs.He remained not out in 62 innings. He scored 72 first class centuries and 14 double centuries. An English poet lamented the end of a glorious era when Jam Ranji declared his retirement from the game of cricket.

(xi) Scope of Village Directory & Town Directory

As mentioned earlier, the District Census Handbook is brought out in two parts. Part A and Part B. Part A covers the non-census data of village directory and town directory whereas part B covers

the primary census abstract data of 2001 Census. The scope of village directory and town directory is discussed below.

Scope of Village Directory

For the census work, the villages in the district have been arranged taluka wise and within the taluka they are shown location code wise. Each village is assigned a location code number for the purpose of identification. In 2001 Census, all the villages have been given unique 8-digit code number, which will remain constant across the census, and shall make it easy to do comparative study. Eight digit code's last two digits are especially provided to take into account exigencies arising due to ju-risdictional changes of villages by partition, amalgamation etc. This time it has been kept '00'. Prior to the village directory information, a map and alphabetical list of villages for each taluka is given in Part A. Village directory contains the non-census data of each village. It gives the village wise basic information relating to infrastructure and amenities available in the sphere of education, medical, drinking water, power supply, post and telegraph, communications, approach road to village and distribution of land use area. In addition, it contains information about total area of each village, total population and number of households and the nearest town and its distance from the village. The information on number of households and total population has been included with a view to examine the co-relation of amenities with the number of households and population they serve. If an amenity is not in existence in the referent village, the distance in broad ranges from the nearest place along with name, where the amenity is available is given. The broad range are (-5 kms), (5-10 kms.) and (10+ kms.). Some additional information has been added viz. (1) Number of Banks, (2) Credit Societies, (3) recreational and cultural facilities,(4) Receipt of Newspaper / Magazine, (5) Income & Expen-diture of the village and (6) Name of the three most important commodities imported, manufactured/ produced & exported. One information has been deleted this time, i.e., Market & Hat facility.

Appendix-I	gives talukawise information regarding the facilities like educational, medical, drinking water, post and telegraph, communications, banking facilities and power supply available in the villages. In addition, information about the number of institutions is given talukawise so far as educational and medical institutions are concerned facilities available.
Appendix-II	Taukawise list of villages where six amenities (viz.educational, medical, post and telegraph, banking facility communication and power supply) are not available.
Appendix-III	Land utilization data in respect of non-municipal towns i.e. places considered as towns for census purposes.
Appendix-IV	Talukawise list of inhabited villages where no amenity other than drinking water facility is available.
Appendix-V	Talukawise number of villages not having Scheduled Castes population.
Appendix-VI	Talukawise number of villages not having Scheduled Tribes population.
Appendix-VII-A VII-B	Talukawise list of villages according to the proportion of Scheduled Castes and Scheduled Tribes to the total population by various ranges.
Appendix-VIII	Talukawise villages under each Gram Panchayat.
Appendix-IX	Village wise number of girl's schools.

Scope of Town Directory

Town Directory covers the non-census data for each town. It presents important and useful information like civic and other amenities available in all the towns of the district. The information in town directory is covered in following seven statements, viz. statements I to VII

Statement-I	Town wise class, name, civic administrative status of the town, its area, growth rates, density and sex ratio.
Statement-II	Physical aspects of each town.
Statement-III	Income and expenditure of each town.
Statement-IV	Civic and other amenities in respect of each town.

Statement-V	Availability of medical, educational, recreational and cultural facilities in each town.
Statement-VI	Trade, commerce, industry and banking activities in each town.
Statement-VII	Civic and other amenities in slum areas of each town.

In all the Statement except VII the towns are arranged in the alphabetical order within the district. The details of these statements are given in the analytical portion of the town directory. In addition to the above statements, an appendix showing the towns with their outgrowths with population is also given after the town directory statements.

PART – A
VILLAGE AND TOWN DIRECTORY

SECTION – I VILLAGE DIRECTORY

Village Directory

(a) NOTE EXPLAINING THE ABBREVIATIONS USED IN THE VILLAGE DIRECTORY

The "Village Directory" is one of the traditional compilations of the Census. It gives the list of villages, their location numbers, their area, population, number of households, amenities such as educational, medical, drinking water, post and telegraph, commercial and co-operative banks, agricultural non-agricultural and other credit societies, recreational and cultural facilities, communication, approach to village, nearest town with a distance, power supply, availability of newspaper and magazines, most important commodity manufactured and land use of each village.

Village is a statutory recognized unit having a definite boundary and separate land records. In case, a complete village is treated as an outgrowth of urban agglomeration, data on amenities for that village, have not been given in the Village Directory but shown along with the urban component. The villages which are consider as a Census Town , the amenities data are shown in the Town Directory. For those villages which have partly merged in an outgrowth of U.A., the amenities data are shown in the Village Directory for that particular village.

The 'un-inhabited' villages (villages with no population) have been indicated as such after furnishing details in columns 1 to 3 i.e., Serial number, Name of village & location code number and area of the village against column no. 4 to 18. The land use data for such villages are shown in col. 19 to 23

The Village Directory format has 23 columns and the details given under each column are for the village are as follows:-

Column 1 : Serial Number

Self explanatory. All the villages within the CD Block are presented serially in the ascending order of their location code number.

Column 2 : Name and Location Code Number of village.

The name and location code number of the village are shown against these columns. This also includes the forest and uninhabited villages.

Column 3 : Area of the village

The area of the villages in hectares are given. Wherever the area figures was not furnished by the concerned department the column is left blank.

Column 4 : Total population

The total population of the village as per 2001 Census is given against this column.

Column 5 : Number of households

The number of households as per 2001 Census is given in this column.

Amenities :

In column 6 to 23, availability in respect of different amenities such as education, medical, drinking water, post, telegraph, banks, credit societies, communication, power, approach road etc. in each village has been depicted with appropriate codes against the column concerned. Wherever the amenities are not available in the village, a dash (-) is shown in the column and next to it in brackets the distance in broad ranges viz.< 5 kms., 5-10 kms. and 10+ kms of the nearest place where the facility is available is given. Column wise details are given below :

Column 6 : Educational

Classes upto class VII included in Primary School. This will include nursery school, kindergarten school. Pre-basic school, pre-primary school, junior basic school upto class VII.

Classes from VIII to X included in Higher secondary school. Classes XI and XII are included in senior secondary school.

Accordingly any of the following types of institutions if exists within the village is shown as per codes given below :

(i)	Primary School	P
(ii)	Middle School	M*
(iii)	Secondary School	S
(iv)	Senior Secondary School	PUC
(v)	College	C
(vi)	Industrial School	I
(vii)	Training School	Tr
(viii)	Adult literacy class/centre	AC
(ix)	Others (specify) e.g. Sanskrit Pathshala, Senior basic school, Navodaya Vidyalaya, Makhtab, etc.	O

More than one institution of a type in the village is indicated by the number within brackets against the abbreviation, e.g. P(3), M(4), etc.

Note : *- There is no Middle school in the Gujarat State.

Column 7 : Medical

Availability of medical facility within the village is indicated by following codes :

(i)	Allopathic Hospital	H
	Ayurvedic Hospital	HA
	Unani Hospital	HU
	Homeopathic Hospital	H Hom
(ii)	Allopathic Dispensary	D
	Ayurvedic Dispensary	DA
	Unani Dispensary	DU
	Homeopathic Dispensary	D Hom
(iii)	Maternity & Child Welfare	MCW
(iv)	Maternity Home	MH
(v)	Child Welfare Centre	CWC
(vi)	Health Centre	HC
(vii)	Primary Health Centre	PHC
(viii)	Primary Health Sub-Centre	PHS
(ix)	Family Welfare Centre	FWC
(x)	T.B. Clinic	TB
(xi)	Nursing Home	NH
(xii)	Registered Private Medical Practitioner	RMP
(xiii)	Subsidised Medical Practitioner	SMP
(xiv)	Community Health Worker	CHW
(xv)	Others	O

More than one institution of a type in the village is indicated by the number within brackets against the abbreviations, e.g. H(3), D(4), etc.

Column 8 : Drinking Water

The type of the drinking water supply sources available within the village are indicated by codes as follows :

(i)	Tap Water	T
(ii)	Well Water	W
(iii)	Tank Water	TK
(iv)	Tubewell Water	TW
(v)	Handpump	HP
(vi)	River Water	R
(vii)	Canal	C
(viii)	Lake	L
(ix)	Spring	S
(x)	Others	O

Column 9 : Post, Telegraph and Telephone

It is indicated by codes as shown below whether within the village exists the following amenities:

(i)	Primary School	P
(i)	Post Office	PO
(ii)	Telegraph Office	TO
(iii)	Post & Telegraph Office	PTO
(iv)	Telephone Connection	PH

Column 10: Commercial and Co-operative Banks

If the village is served by any banking service, commercial bank, co-operative bank etc. the same is indicated in codes mentioned below along with the number of banks in brackets. If not available the distance of nearest place where the facility exist is given :

(i)	Commercial Bank	CM
(ii)	Co-operative Bank	CP

Column 11: Credit Societies

If the village enjoys the services of Credit Societies i.e. Agricultural Credit Societies, Non Agricultural Credit Society or Other Credit Societies, the same is indicated in codes mentioned below along with the number of such societies in brackets. In case the facility is not available within the village the distance of the nearest place where such facility exist is given :

(i)	Agricultural Credit Society	ACS
(ii)	Non- Agricultural Credit Society	NCS
(iii)	Other Credit Society	OCS

Column 12 : Recreational and Cultural facilities

If facilities such as Cinema/Video hall, Sports Club, Stadium/Auditorium is available in the village, the same is recorded in these columns. If not available the particulars of the nearest place with the facility is recorded. The information is indicated in codes mentioned below along with the number of such facilities in brackets:

(i)	Cinema / Video Hall	CV
(ii)	Sports Club	SP
(iii)	Stadium / Auditorium	ST

Column 13 : Communications

If the village is served by any mode of public / private transport like Bus, Railway station or Navigable water ways they are to be mentioned as follows:

(i)	Bus	BS
(ii)	Railway Station	RS
(iii)	Navigable Waterway	NW

Column 14 : Approach to village

Approach to village refers to the state of road leading to village. The approach to the village is indicated in following codes :

(i)	Paved Road	PR
(ii)	Mud road	MR
(iii)	Foot path	FP
(iv)	Navigable River	NR
(v)	Navigable Canal	NC
(vi)	Navigable waterways other than River, Canal	NW

Column 15 : Nearest Town and distance

The distance is given in kilometers in brackets against the name of the town nearest to the village.

Column 16 : Power Supply

Availability of Power Supply in the village, whatever may be the form of its use is given by using following codes :

(i)	Electricity for domestic use	ED
(ii)	Electricity for agricultural use	EAG
(iii)	Electricity for other purposes	EO
(iv)	Electricity for all purposes	EA

Column 17 : News Paper / Magazine

If village receives any News Paper/Magazines the same is noted in this column using following codes :

(i)	News Paper	N
(ii)	Magazine	M

Column 18 : Most important commodities manufactured

The name of three most important commodities manufactured in the village is recorded against this column.

Column 19 to 23 : Land use i.e. area under different types of land use

Land use data maintained by the State/ UT Govts. are furnished against these columns. The data concerning area under Forest, Irrigated land (by source), Un-irrigated land, Culturable waste and Area not available for cultivation in the village are shown against these columns. The area figures are given in hectare(s) up to one decimal. Desh '-' is recorded wherever the information is not made available by the concerned department. The codes used for different types of irrigation facilities available in the village are indicated below:

(i)	Government Canal	GC
(ii)	Private Canal	PC
(iii)	Well (without electricity)	W
(iv)	Well (with electricity)	WE
(v)	Tubewell(without electricity)	TW
(vi)	Tubewell(with electricity)	TWE
(vii)	Tank	TK
(viii)	River	R
(ix)	Lake	L
(x)	Waterfall	WF
(xi)	Others	O
(xii)	Total	T

The village directory also carries the following appendices.

Appendix-I	It gives the abstract of educational, medical and other amenities available in villages Taluka/C.D. Block wise of the district.
Appendix-I	It gives the abstract of educational, medical and other amenities available in villages C D Block wise of the district.
Appendix-I-A	Indicates number of villages C D Block wise having one or more primary schools.
Appendix-I-B	Indicates number of villages C D Block wise having primary, middle and secondary schools.
Appendix-I-C	Shows number of villages C D Block wise with different sources of drinking water facilities.
Appendix-II	Indicates the list of villages with 5,000 and above population which do not have one or more important amenities.
Appendix-II-A	Indicates list of Census Towns which do not have one or more amenities.
Appendix-III	It gives the land utilization data in respect of Census Towns / non-municipal Towns.
Appendix-IV	C D Block wise list of inhabited villages where no amenity other than drinking water facility is available.
Appendix-V	Summary showing number of villages not having Scheduled Castes population.
Appendix-VI	Summary showing number of villages not having Scheduled Tribes population.
Appendix-VII-A	The appendix shows the list of villages according to proportion of the
VII-B	Scheduled castes and Scheduled Tribes to the total population by ranges.
Appendix-VIII	Indicates C D Block wise number of villages under each Gram Panchayat.
Appendix-IX	Shows number of different types of girls school in a village.

TALUKA / C.D.BLOCK

KHAMBHALIA

GUJARAT

TALUKA KHAMBHALIA

DISTRICT JAMNAGAR

2 0 2 4 6 8 Kilometers

C.D. BLOCK BOUNDARY OF KHAMBHALIA IS CO-TERMINUS WITH TALUKA BOUNDARY EXCLUDING ALL STATUTORY TOWNS.

R.F. WHICH COMES UNDER THE VILLAGE, THAT VILLAGE NAME ITSELF IS A RESERVED FOREST NAME.

PLCN 00720500 TO 00720800 ARE PART OF TALUKA KHAMBHALIA.

TOTAL AREA	1214.25 Km^2
TOTAL POPULATION	208 739
TOTAL NUMBER OF VILLAGES	85
TOTAL NUMBER OF TOWNS	2
DISTANCE FROM DISTRICT HEADQUARTERS TO TALUKA	56 Kms

BOUNDARY, TALUKA	
" VILLAGE WITH PERMANENT LOCATION CODE NUMBER... ...	00712400
" FOREST-RESERVED WITH NAME...	BAJANA RF
HEADQUARTERS : TALUKA	
POPULATION SIZE CLASS OF VILLAGES : BELOW 200, 200-499, 500-999, 1000-4999, 5000 AND ABOVE...	
UNINHABITED VILLAGES WITH PERMANENT LOCATION CODE NUMBER ...	00720800 X
URBAN AREA WITH LOCATION CODE NAME...	VII KHAMBHALIA
STATE HIGHWAY	SH 28
IMPORTANT METALLED ROADS	
RAILWAY LINE WITH STATION, BROAD GAUGE	RS
RIVER AND STREAM...	
WATER FEATURES : BIG TANK (NATURAL)	
POST OFFICE / TELEGRAPH OFFICE	PO / TO
HIGH SCHOOL/SENIOR SECONDARY SCHOOL..	S
PRIMARY HEALTH CENTRE	
BANK...	B

Based upon Survey of India map with the permission of the Surveyor General of India.
The territorial waters of India extend into the sea to a distance of twelve nautical miles measured from the appropriate base line.

TALUKA / C.D.BLOCK

JAMNAGAR

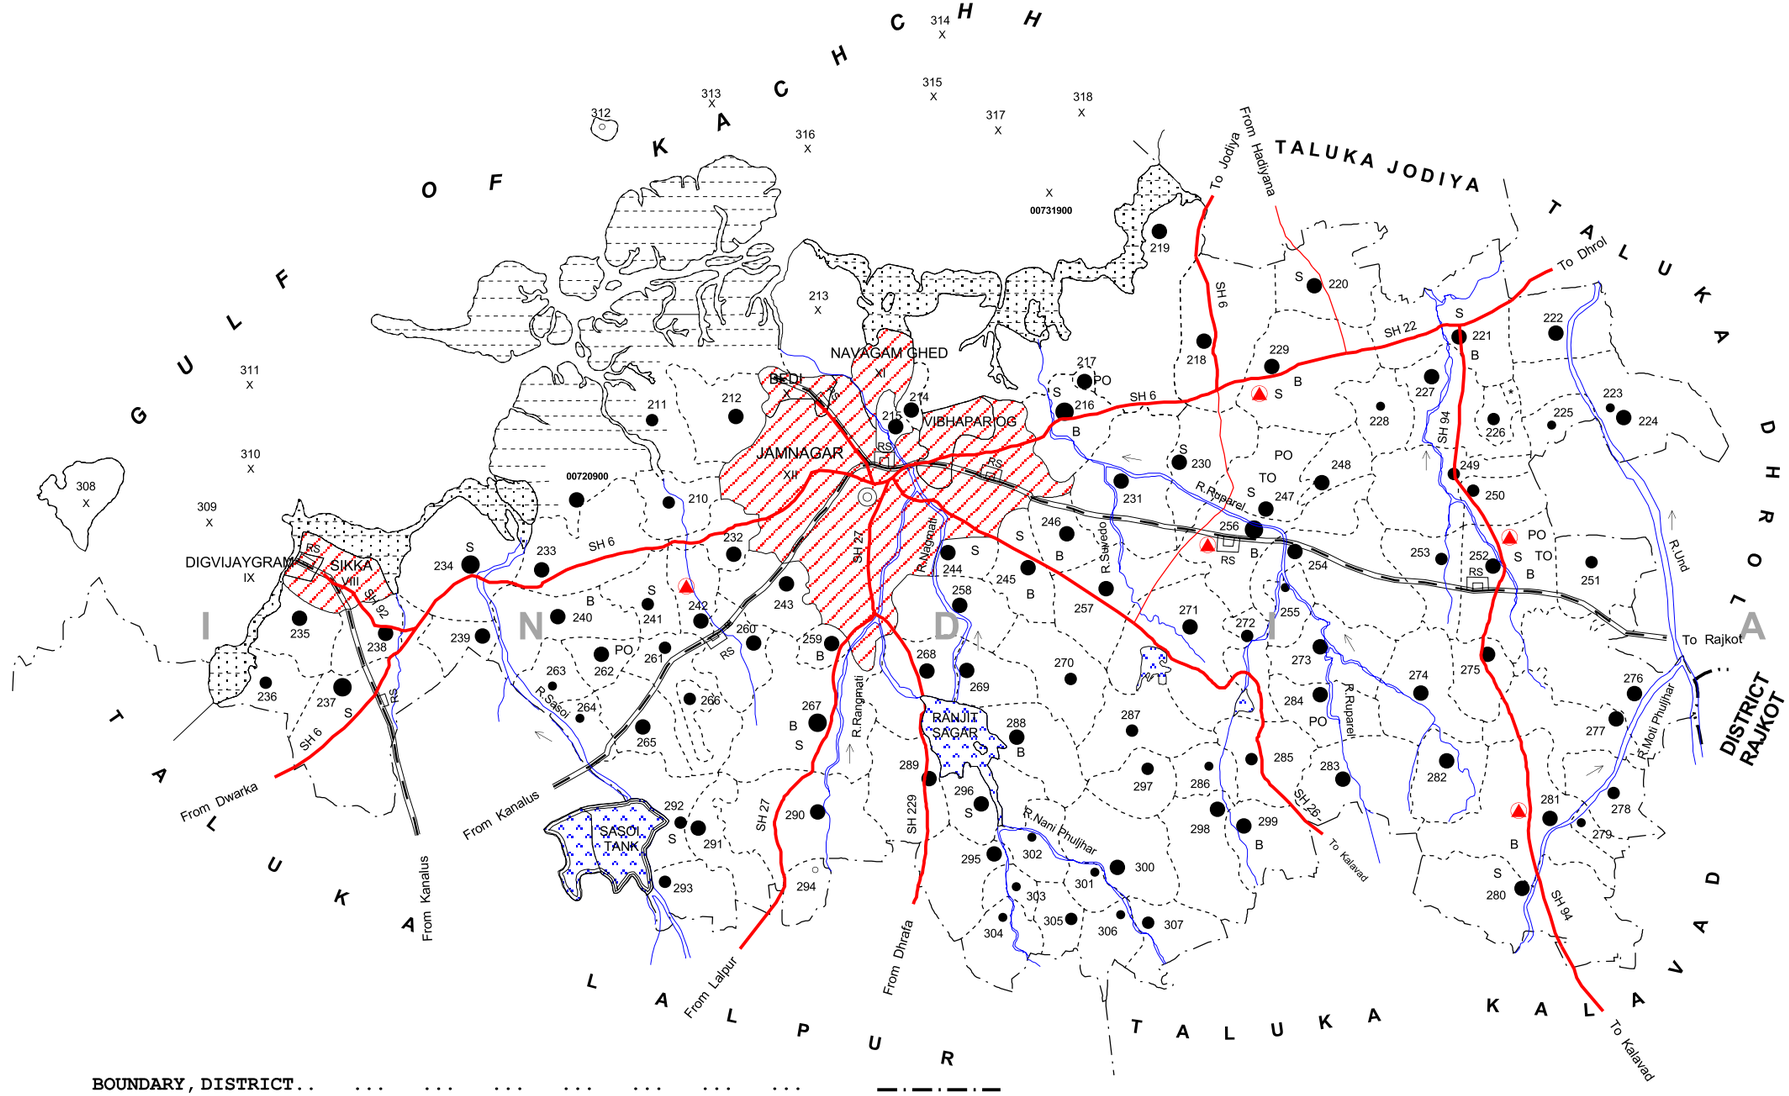

GUJARAT

TALUKA JAMNAGAR

DISTRICT JAMNAGAR

2 0 2 4 6 8 Kilometers

TOTAL AREA	1173.91 Km^2
TOTAL POPULATION	761 375
TOTAL NUMBER OF VILLAGES	111
TOTAL NUMBER OF TOWNS	5
DISTANCE FROM DISTRICT HEADQUARTERS TO TALUKA	0 Kms

C.D. BLOCK BOUNDARY OF JAMNAGAR IS CO-TERMINUS WITH TALUKA BOUNDARY EXCLUDING ALL STATUTORY TOWNS.

VIBHAPAR IS TREATED AS URBAN AREA i.e. OUTGROWTH OF JAMNAGAR URBAN AREA.

PLCN 00730800 TO 00731100 AND 00731300 TO 00731900 ARE PART OF TALUKA JAMNAGAR.

* PART OF PLCN 00722200

LALPUR

GUJARAT

TALUKA LALPUR

DISTRICT JAMNAGAR

2 0 2 4 6 Kilometers

C.D. BLOCK BOUNDARY OF LALPUR IS CO-TERMINUS WITH TALUKA BOUNDARY .

R.F. WHICH COMES UNDER THE VILLAGE, THAT VILLAGE NAME ITSELF IS A RESERVED FOREST NAME.

TOTAL AREA	1078.29 Km^2
TOTAL POPULATION	101 637
TOTAL NUMBER OF VILLAGES	73
DISTANCE FROM DISTRICT HEADQUARTERS TO TALUKA	36 Kms

BOUNDARY, TALUKA	
" VILLAGE WITH PERMANENT LOCATION CODE NUMBER... ...	00751100
" FOREST-RESERVED WITH NAME...	CHORBEDI RF
HEADQUARTERS : TALUKA	
POPULATION SIZE CLASS OF VILLAGES : 200-499, 500-999, 1000-4999, 5000 AND ABOVE...	
UNINHABITED VILLAGES WITH PERMANENT LOCATION CODE NUMBER ...	00758300 X
STATE HIGHWAY	SH 27
IMPORTANT METALLED ROADS	RS
RAILWAY LINE WITH STATION, BROAD GAUGE	
RIVER AND STREAM...	
WATER FEATURES : BIG TANK (ARTIFICIAL).	
POST OFFICE / TELEGRAPH OFFICE	PO / TO
HIGH SCHOOL/SENIOR SECONDARY SCHOOL..	S
POLICE STATION EXCLUDING RLY. POLICE STATION	PS
PRIMARY HEALTH CENTRE	
BANK...	B

Based upon Survey of India map with the permission of the Surveyor General of India.
The territorial waters of India extend into the sea to a distance of twelve nautical miles measured from the appropriate base line.

BHANVAD

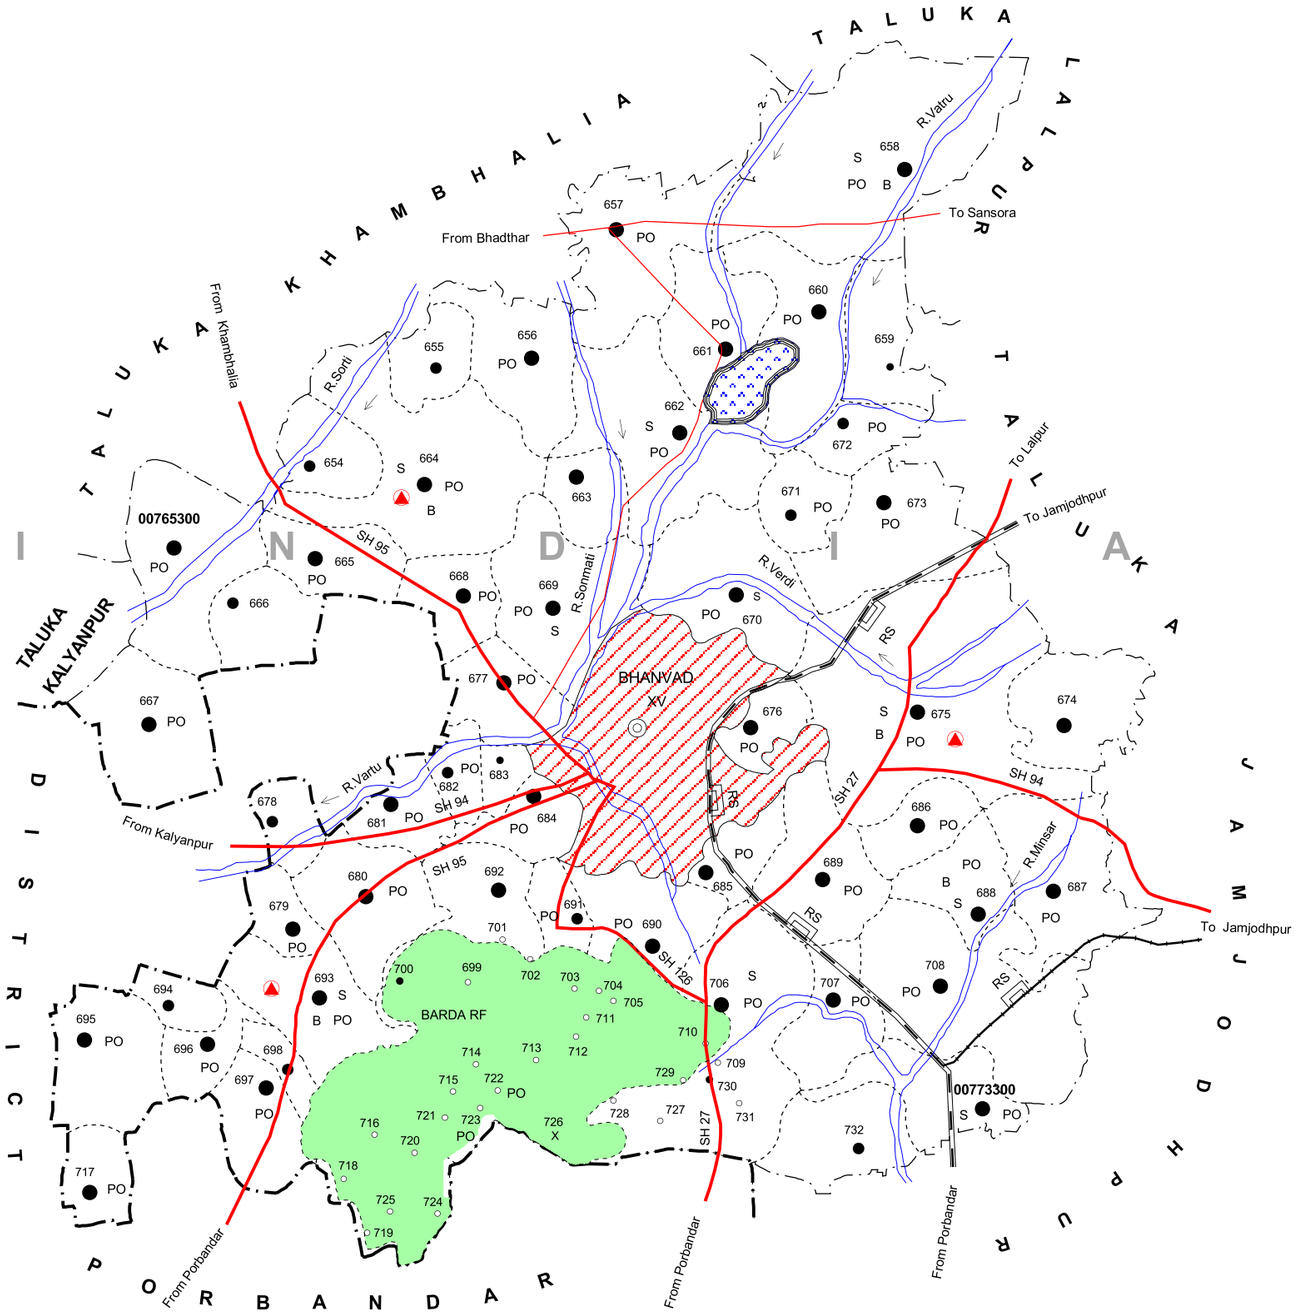

GUJARAT

TALUKA BHANVAD

DISTRICT JAMNAGAR

2 0 2 4 6 Kilometers

TOTAL AREA	731.95 Km^2
TOTAL POPULATION	109 545
TOTAL NUMBER OF VILLAGES	81
TOTAL NUMBER OF TOWN	1
DISTANCE FROM DISTRICT HEADQUARTERS TO TALUKA	80 Kms

C.D. BLOCK BOUNDARY OF BHANVAD IS CO-TERMINUS WITH TALUKA BOUNDARY EXCLUDING STATUTORY TOWN.

R.F. WHICH COMES UNDER THE VILLAGE, THAT VILLAGE NAME ITSELF IS A RESERVED FOREST NAME.

BOUNDARY, DISTRICT..	
" TALUKA	
" VILLAGE WITH PERMANENT LOCATION CODE NUMBER... ...	00765300
" FOREST-RESERVED WITH NAME...	BARDA RF
HEADQUARTERS : TALUKA	
POPULATION SIZE CLASS OF VILLAGES : BELOW 200, 200-499, 500-999, 1000-4999	
UNINHABITED VILLAGES WITH PERMANENT LOCATION CODE NUMBER ...	00772600 X
URBAN AREA WITH LOCATION CODE NAME...	XV BHANVAD
STATE HIGHWAY	SH 27
IMPORTANT METALLED ROADS	
RAILWAY LINE WITH STATION, BROAD GAUGE	RS
RAILWAY LINE WITH STATION, METRE GAUGE	RS
RIVER AND STREAM...	
WATER FEATURES : BIG TANK (ARTIFICIAL)	
POST OFFICE..	PO
HIGH SCHOOL/SENIOR SECONDARY SCHOOL..	S
PRIMARY HEALTH CENTRE	
BANK...	B

Note : * In Gujarat State the levels of education are classified as under

(i) Primary School (From Std. I to VII passed)

(ii) Secondary/Matriculation (From Std. VIII to X passed)

(iii) Higher Secondary (From Std. XI to XII passed). Hence details under column 6 are not shown.

SECTION – II – TOWN DIRECTORY

TOWN DIRECTORY

(A) NOTE EXPLAINING THE ABBREVIATIONS USED IN THE TOWN DIRECTORY

Town Directory statements (I to VII)

Statement I : Status and Growth History

Column 2 : Class, name and civic administration status of town :

Class has been introduced to facilitate analysis of town directory data at the state and all India levels. It is presented according to 2001 Census Population of the town as follows :

Population	Class
100,000 and above	I
50,000 - 99,999	II
20,000 - 49,999	III
10,000 - 19,999	IV
5,000 - 9,999	V
Below 5,000	VI

Town with a population of one lakh thousand (1,00,000) and above is treated as a city.

The civic administration status of the towns is indicated within bracket against the name of the town. The following abbreviations are used to denote civic status of town.

(I)	Municipal Corporation	M. Corp.
(II)	Municipal Committee	MC
(III)	Municipal Council	M Cl
(IV)	City Municipal Council	CMC
(V)	Town Municipal Council	TMC
(VI)	Municipal Board	MB
(VII)	Municipality	M
(VIII)	Cantonment Board/Cantonment	CB
(IX)	Notified Area	NA
(X)	Notified Town	NT
(XI)	Notified Area Committee/ Notified Area Council	NAC
(XII)	Notified Town Area	NTA
(XIII)	Industrial Notified Area	INA
(XIV)	Industrial Township	ITS
(XV)	Township	TS
(XVI)	Town Panchayat	TP
(XVII)	Nagar Panchayat	NP
(XVIII)	Town Committee/ Town Area Committee	TC
(XIX)	Small Town Committee	ST
(XX)	Estate office	EO
(XXI)	Gram Panchayat	GP
(XXII)	Census Town	CT

Others columns need no comments.

Statement II - Physical Aspects and Location of towns, 1999.

Column 3 to 5 : Physical Aspects

In this columns the Rainfall and Maximum & Minimum Temperature of the town is recorded.

Column 6, 7 and 8 :

Name of the State headquarters, District headquarters and Sub-Divisional headquarters with distance from the referent town in kilometers, is to be recorded respectively. If the names mentioned in these columns are the same as the referent town itself, the distance is recorded as (0) zero.

Column 9 & 10 :

Name of the nearest city with one lakh and more and five lakhs and more population are recorded.

Column 11, 12 and 13 :

If referent town enjoys the facility of railway station, bus route facility or navigable river/canal. Its name is to be mentioned. If not available, then the name of nearest place with distance, where such facility exists is to be mentioned.

Statement III : Municipal Finance 1998 – 1999

Item-wise amount of receipt and expenditure in thousand rupees, relating to municipal finance of the town for the year 1998-99 is to be recorded.

Statement IV : Civic and Other amenities, 1999

Column 1 to 5 : Self explanatory.

Column 6 : Road length (in kms.)

Information about kutcha / pucca road is to be recorded separately for the roads within the limits of the referent town.

(i)	Pucca Road	PR
(ii)	Kutcha Road	KR

Column 7 : System of Sewerage

Generally, by sewerage system is implied the network of mains and branches of underground conduits for the conveyance of sewerage to the point of disposal. Sewers that carry only household and industrial wastes are called separate sewers, those that carry storm water from roofs, streets and other surface are known as storm water drains, while those carrying both sewage and storm water are called combined sewers.

The codes used for different types of drainage system are as follows :

(i)	Sewer	S
(ii)	Open Surface Drains	OSD
(iii)	Box Surface Drains	BSD
(iv)	Sylk Drains	SD
(v)	Cesspool method	CP
(vi)	Pit System	Pt
(vii)	Others	O

Column 8 to 11 : Number of latrines

Number of various types of latrines both Public and Private are given in these columns.

Column 12 : Method of disposal of night soil

The various prevalent method of disposal of night soil are given below with codes :

Head Loads	HL
Basket	B
Wheel Barrows	WB
Septic Tank	ST
Pit System	Pt
Sewerage	S
Others	O

Column 13 and 14 : Water supply

Source and capacity of storage system. The following codes are used in these columns:

Column 13:

(i)	Tap water	T
(ii)	Tube-well water	TW
(iii)	Tank Water	TK
(iv)	Well water	W

Column 14:

(v)	Over Head Tank	OHT
(vi)	Service Reservoir	SR
(vii)	River Infiltration Gallery	RIG
(viii)	Bore Well Pumping System	BWP
(ix)	Pressure Tank	PT

The information on major source of water supply are given in column 14 and the storage capacity against each in kilo litres (in bracket) are presented in column 15.

Column 15 : Fire Fighting Service

In case the fire fighting service is available in the referent town 'yes' is recorded. If the facility is not available within the town. The name of the nearest place having this facility with its distance from the referent town has been recorded.

Column 16 to 20 : Electrification (Number of connections)

Different types of electric connections have been shown in these columns, i.e. Domestic, Industrial, Commercial, Road lighting (points) & others.

Statement V : Medical, Educational, Recreational and Cultural Facilities, 1999

Column 1 to 3 : Self explanatory.

Column 4 & 5 :

The data covers all such medical institutions run by or aided by Government/Semi Government/Local bodies and Charitable institutions or Social agencies like the Missionaries. Where the family planning centres are attached to hospitals or maternity and child welfare centres or Primary Health Centres, may be treated as independent units and counted separately using following codes :

(i)	Hospital	H
(ii)	Dispensary	D
(iii)	Health Centre	HC
(iv)	Family Welfare Centre	FWC
(v)	T.B. Clinic	TB
(vi)	Nursing Home	NH
(vii)	Others	O

In case of more than one institutions of any type, it is indicated within brackets the number of such institution (s) e.g. D(3), NH(8), etc. The institutions have further been distinguished by providing additional codes within the bracket as given below :

	Ayurvedic	A
	Unani	U
	Homoeopathic	Hom

Column 6 to 9 :

The codes used for these columns are as follows :

(i)	Arts only	A
(ii)	Science only	S
(iii)	Commerce only	C
(iv)	Arts & Science only	AS
(v)	Arts & Commerce only	AC
(vi)	Combined for all categories-Arts, Science and Commerce	ASC
(vii)	Law	L
(viii)	University	U
(ix)	Others	O

Column 10 : Recognized shorthand, typewriting and vocational training institutes

"Recognised" should mean recognised by some statutory authority, like education department, commerce department, labour department etc. of the government or semi government or autonomous bodies, public sector undertakings etc.

The following codes are used :

(i)	Vocational Training Institute	VT
(ii)	Shorthand	SH
(iii)	Typewriting	Type
(iv)	Shorthand & Typewriting	SH Type
(v)	Others	O

The vocational institutions like - Applied Art/ Painting college, Pharmacy college, B. Ed. College, Teacher's Training Institute, Music / Dance School, Nursing School etc. are covered under 'Others'.

Column 11 to 14 :

Classes upto class VII included in Primary School. This will include nursery school, kindergarten school. Pre-basic school, pre-primary school, junior basic school upto class VII.

Classes from VIII to X included in Higher secondary school. Classes XI and XII are included in senior secondary school.

Accordingly any of the following types of institutions if exists within the village is shown as per codes given below :

(i)	Primary School	P
(ii)	Middle School	M*
(iii)	Higher Secondary School	S
(iv)	Senior Secondary School	PUC
(v)	College	C
(vi)	Industrial School	I
(vii)	Training School	Tr
(viii)	Adult literacy class/centre	AC
(ix)	Others (specify) e.g. Sanskrit Pathshala, Senior basic school, Navodaya Vidyalaya, Makhtab,etc.	O

More than one institution of a type in the village is indicated by the number within brackets against the abbreviation, e.g. P(3), M(4) etc.

Note : * - There is no Middle school in the Gujarat State.

Column 15 : Adult literacy class/centres

This column has been introduced keeping in view the Minimum Needs Programme of the Planning Commission. There are number of Adult Education Centres which are included in these columns.

If an educational facility is not available in the town, the name of the nearest place and its distance in kilometres from the town where the facility is available is mentioned.

Column 16 : Working Women's hostels with number of seats

The number of working women's hostel if available in the referent town is mentioned with number of seats. If the facility is not available in the town the name of nearest place with distance where the facility is available is recorded.

Column 17 to 19 : Recreational and Cultural Facilities

Stadium, Cinema, Auditorium/Drama/Community Hall are covered under recreational & cultural facilities. The particulars of permanent recreational facilities are considered for these columns.

Column 20 : Public Libraries, Reading Rooms

Number of public libraries and reading rooms available in the referent town are recorded in codes as follows :

(i) Public Library PL

(ii) Reading room RR

Statement VI : Trade, Commerce, Industry and Banking, 1999

Column 3 to 8 :

Name of three most important commodities exported and names of three most important commodities manufactured in the town are recorded.

Column 9 : Number of Banks

Number of Banks available in the referent town both Commercial and Co-operative banks are recorded against this column.

Column 10 & 11 : Number of Agricultural Credit Societies and Non Agricultural Credit Societies

The total number of Agricultural Credit Societies and Non Agricultural Credit Societies in the referent town are recorded against these columns.

Statement VII : Civic and other Amenities in Slums, 1999

This is the statement on civic and other amenities in all slums whether notified or not and for all towns having statutory bodies, like municipality, Municipal Corporation, Town area committee etc.

PRIMARY CENSUS ABSTRACT

Primary Census Abstract

Brief note on Primary Census Abstract :

The first census of the third millennium and twenty first century the Census of India, 2001 was the 14th continuous and uninterrupted Indian census since 1872. Thus, 2001 Census will provide data on population and its characteristics marking transition from one century and millennium to another.

The gigantic operation of Population Enumeration (considered by many to be the single largest and complex peace time administrative exercise in the world) was made possible due to the door to door universal canvassing of the Household Schedule by about 2 million enumerators and supervisors covering 593 districts, 5,463 sub-district, 5,161 towns and 638,588 villages. The comprehensive Household Schedule which replaced the individual slip had three parts and two sides A and B. Part I contained the Location Particulars; Part II related to the Individual Particulars and Part III contained questions for Household engaged in cultivation/Plantation. The part II of the Household Schedule had 39 columns and 23 questions all of which were universally canvassed and no sampling was resorted to during enumeration.

Data Processing

A quantum leap was made in the technology front while processing the Census 2001 data both for Houselisting and Population Enumeration. The Census schedules for both the phases were scanned through high speed scanners in fifteen data centers across the country and hand-written data from the schedules were converted into digitized form through Intelligent Character Reading (ICR) software for creation of ASCII records for further processing. The designing and formatting of the Household Schedule had to be done very carefully using specialized software so as to ensure uniformity, which was an essential pre-requisite for scanning. The selection of appropriate state-of-art technology in data processing has made it possible to produce all the Houselisting as well as Population Enumeration tables on full count basis for the first time in the history of Census. For Census 2001, about 202 million schedules consisting of about 1,028 million records were scanned and processed within a span of only 10 months starting October, 2002.

Task Force on Quality Assurance

After the data is processed, it is expedient on the part of the data producing agency to satisfy itself about its quality before putting the same in public domain. This has to be done mainly through the process of internal consistency, comparison with similar data in the past and also through validation with likewise data if available, from external sources. Quite often the local knowledge and perception has to be brought into play to understand both the existing and the new emerging trends of population distribution and characteristics. The other very important aspect of the data quality is to ensure complete coverage of all geographical areas especially for the population enumeration phase where the data is disseminated right up to the village level in the rural areas and the ward level in the urban areas. Thus ensuring the complete coverage and correct geographical linkage of each enumeration block was one of the major planks of the quality control, specially for small area population statistics.

A very comprehensive check and edit mechanism was put in place to objectively examine the preli-minary Census 2001 Population Enumeration results and finally clear them for use. The responsibility of the final clearance of data was with the Task Force on Quality Assurance (TFQA), headed by the Registrar General and Census Commissioner, India. The other members of the TFQA were the Heads and senior officers of the Census Division, Data Processing Division, Map Division, Demography ivision and Social Studies Division. The Directors of Census Operations were co-opted as members whenever the TFQA discussed the data for their States/Union territories. The Directors and their senior officers were required to make detailed presentations of data for their own state both in respect to the quality and the coverage and only after the full possible cleared.

There has been a major departure in Census 2001 from the past in respect of the procedure followed for finalization of the Scheduled Castes and the Scheduled Tribes population. In the earlier censuses, the total Scheduled Castes and Scheduled Tribes populations were finalized at the time of the manual compilation of the Primary Census Abstracts (PCA) at the Regional Tabulation Offices which were specially set up for this purpose. The individual Scheduled Castes and the Scheduled Tribes population for each state was finalized much later based on manual coding done by the coders. In 2001 Census, each individual Scheduled Caste and the Scheduled Tribe have been coded directly on the computers by the Data Entry Operators through a process known as Computer Assisted Coding (CAC) and taken up along with the processing of PCA data.

The CAC process involves pulling down, from the relevant dictionary of the Scheduled Castes and the Scheduled Tribes, on the computer screen and coding from the dictionary by referring to the image of the specific individual entry in the Household Schedule appearing on the screen. The CAC of the response on Religion wherever required, was also undertaken along with the processing of PCA. This is because the Scheduled Castes status had to be determined in relation to the religion of the individual. Two Special Task Forces, one on Religion and the other on Scheduled Castes/Scheduled Tribes were constituted for scrutiny and appropriate classification of these responses.

The main task of the Special Task Force on Religion was to appropriately merge or group the new responses encountered and code it into the appropriate religious community based on available literature and local knowledge. The Special Task Force on Scheduled Castes and Scheduled Tribes examined the different Scheduled Castes and Scheduled Tribes entries encoun-tered and classified these into appropriate category of the Scheduled Castes or the Scheduled Tribes principally based on the Presidential Notification and the available literature. Thus a very systematic and scientific mechanism was operationalised to firm up the individual religion and the individual Scheduled Castes/Tribes returns. The Scheduled Castes and the Scheduled Tribes population in 2001 Census, is thus being finalized by aggregating the population data for individual Scheduled Castes and the Scheduled Tribes at appropriate geographical levels.

The entire work relating to the data validation and scrutiny was completed by all the States/Union Territories under the overall supervision and monitoring of the Census Division of the Office of the Registrar General, India with active cooperation and support of the Social Studies Division, Data Processing Division, Data Dissemination Division and Map Division.

Primary Census Abstract

The Primary Census Abstract which is yet another important publication of 2001 Census gives basic information on Area, Total Household, Total population, Scheduled Castes, Scheduled Tribes population, Population in the age group 0-6, Literates, Main workers and Marginal workers classified by the four broad industrial categories, namely (i) Cultivators, (ii) Agricultural labourers (iii) Household Industry Workers and (iv) Other workers and also Non-workers. The characteristics of the Total population includes Scheduled Castes, Scheduled Tribes, Institutional and Houseless population and are presented by sex and rural-urban residence. This data is presented at different levels, namely India, State/Union Territories, Districts and Cities, Urban Agglomerations (Population 1,00,000 and above) in three different tables. In addition, the Appendix of said publication provides Houseless and Institutional Households and their population by residence and sex for 2001 for India, State and Union territory.

Apart from the India and State/Union Territory volumes for Primary Census Abstract, the District Census Handbook contains District Primary Census Abstract, Appendix to District Primary Census Abstract, Primary Census Abstract for Scheduled Castes, Primary Census Abstract for Scheduled Tribes, Village Primary Census Abstract and Urban Primary Census Abstract of the concerned district in the state.

It was for the first time at the 1981 Census that the Primary Census Abstract (PCA) was brought out for the Scheduled Castes and the Scheduled Tribes separately on the pattern of General Primary Census Abstract. This practice was continued in 1991 also. In the 1961 and 1971 Censuses, such data were made available in Table C-VIII-Social and Cultural table and to some extent in the series 'Special Tables for Scheduled Castes/Scheduled Tribes'.

The format of Primary Census Abstract has been restructured slightly in the 2001 Census as compared to that of 1991 Census. The nine-fold industrial classification of main workers given in the Primary Census Abstract of 1991 Census has been discontinued and its place, four-fold industrial classification of both 'main workers' and 'marginal workers' are included. In 1981 census only main workers were presented in to four categories. One of the novel features of the primary census abstract of 1991 census was the presentation of data of the population of age group 0-6 is continued in 2001 Census also. This will help the data users in better analysis and understanding of this literacy data.

Level of presentation in District Census Handbooks:

The Primary Census Abstract data in different PCAs are presented at different levels. The level of presentation of Primary Census Abstracts are as under:

The PCA Data for villages was presented CD Block wise for the first time in 1991 Census. This practice is continued in 2001 Census also. The data

for each CD Block is presented both for rural and urban areas separately. All the villages within the CD Block constitute the rural portion and the Census Towns and Outgrowths are shown under the urban portion of the CD Block. In case a CD Block is spread over two or more districts, than portion which falls within the district is presented, the data pertaining to remaining portion of the CD Block is presented in the concerned District Census Handbook. The data in the Urban Primary Census Abstract for each town as well as for town with outgrowths in the district are presented. The data for all the wards and the outgrowths of the town(s) are also presented separately below the concerned town(s).

The District Primary Census Abstract is presented in 59 columns. The Primary Census Abstract for Scheduled Castes and Primary Census Abstract for Scheduled Tribes are presented in 52 columns. The Village Primary Census Abstract and Urban Primary Census Abstract are presented in 58 columns.

The concepts and definitions used in the column heading are explained under the sub heading 'Census Concepts' in the Analytical Note. The term 'Total Population' includes the Scheduled Castes, the Scheduled Tribes, the Institutional and the Houseless populations. The explanation regarding area figures presented at various level in the Primary Census Abstracts are as follows:

Area Figures

The area figures supplied by local revenue authorities of the district in respect of tehsils, Police Stations and by the local bodies in respect of towns are given in square kilometers. The area figures of the villages supplied by the Tahsildars in acres have been converted and shown in hectares. The area figures of the CD Block is the total of the village areas coming under each CD Block. The area figures for the district are the same as adopted by the Surveyor General of India to maintain uniformity at the national level. The total area figures of all the tahsils/CD Blocks within the district may not tally with area figures of the district because former represents land use area only. Similarly, the total of all the villages may not tally with the entire rural of Police Station/Tahsil. The difference may be due to the fact that while the area covered by hills, forests and rivers etc, have been accounted in the Tahsils and P.S. level the same may not be covered under the area of the villages. Apart from this it may also differ due to varying methods of computation adopted at different levels.

An appendix to District Primary Census Abstract has also been furnished showing urban enumeration block-wise particulars on Total Population, the Scheduled Castes Population and the Scheduled Tribes Population for each town.

The following Abbreviations have been used in the Primary Census Abstract for facility of presentations:

1	Municipal Corporation/ Corporation	M. Corp.
2	Municipality	M
3	Municipal Council	MCI
4	Cantonment Board/Cantonment	CB
5	Notified Area/Notified Area Committee/Notified Committee	NAC
6	Industrial Notified Area	INA
7	Gram Panchayat/ Village Panchayat	GP
8	Nagar Panchayat/ Town Panchayat	NP
9	Census Town	CT
10	Total	T
11	Rural	R
12	Urban	U

The following conversion factor has been used for converting areas into hectares and hectares into km2

Acres x 0.40467 = hectares

100 Hectares = 1 Km^2

(1): *These figures represent 'Geographical area' figures supplied by the Surveyor General. Figures for urban area are those supplied by the local Bodies. Area figures for rural are derived by subtracting the urban area from the total area of the District. The total of the area figures of talukas will not tally with the district figures because the former represents 'Land Use Area' and are derived from the figures supplied by the Director of Land Records.

Source: Village Directory 2001 (As on 31st March, 1999)

Note: { Represents Group Gram Panchayat.

Note : As the data of 2001 Census is not available, data of 1991 Census have been discussed in Annexure II and III. The details of 2001 Census data have been discussed in Annexure IV, VII and VIII, while Annexure V provides the recast data of 1991 Census and separate data of 2001 Census.

ANNEXURE – II

FERTILITY AND MORTALITY-1991 CENSUS

Fertility Level:

Population is a dynamic variable and keeps on changing. Increase due to birth and decrease due to death affect the population size of an area. Thus the birth and death are the two most important vital events. Natural increase is the excess of population by births over decrease of population by deaths at a given point of time. The births have direct correlation with the fertility.

The data on fertility levels and trends as revealed by the fertility indices of the 1991 Census like Crude Birth Rate (CBR), Age Specific Fertility Rate (ASFR) and Total Fertility Rate (TFR) are presented and analyzed below. The Definitions and concepts of fertility indices frequently used have already been explained in Analytical Note.

Death Rate:

Death process in demographical terminology is called as mortality. The rate at which death events occur reveals about the standard of living and State of health. Statistical data on causes of death help us in controlling the spread of diseases and suggests new curative methods to medical authorities.

Child Mortality:

Information about questions on children ever born and children surviving canvassed for all ever married women was tabulated by age of the mother. From this, estimate of child mortality have been worked out by using Brass technique.

Source: Occasional Paper No 1 of 1997.

The Annexure III shows various fertility indicators of all the district and of Gujarat State as per 1991 Census. It can be observed that Jamnagar district has crude Birth Rate (CBR) of 31.4 and Total Fertility Rate (TFR) of 4.0. Both the rates are lower than the State (CBR) of 33.6 and TFR of 4.2. Total Marital Fertility Rate (TMFR), General Fertility Rate (GFR) and General Marital Fertility Rate (GMFR) of Jamnagar district was 5.6, 129 and 181 respectively whereas TMFR, GFR and GMFR of Gujarat State were 5.4, 136 and 175 respectively.

It can be seen that CWR (0-4) of Jamnagar district was 445 which was lower than the State CWR of 467 whereas CWR (5-9) of the district was 619 which was higher than the State CWR of 571.

Mean age at marriage means age at which woman was married. In case of woman was married more than once the age at which she was first married was recorded. The mean age at marriage in Jamnagar district as per 1991 Census was 19.5. Thus the mean age at marriage which was fractionally higher than that of State mean age at marriage recorded at 19.0.

NUMBER OF CHILDREN EVER BORN AND SURVIVING PER EVER MARRIED WOMAN IN AGE GROUP 45-49, 1991 CENSUS

Source: Gujarat State District Profile 1991.

The above Statement shows that as per 1991 Census, there were 4.7 children ever born per ever-married woman in the age group of 45-49 with 4.2 surviving children per woman in Jamnagar district as against the same of 4.2 and 3.8 recorded respectively for the State.

ANNEXURE – IV

PERCENTAGE DISTRIBUTION OF MIGRANTS BY PLACE OF BIRTH/ PLACE OF LAST RESIDENCE, 1991 AND 2001 CENSUSES

Migration

Migration is a factor in changing the size and structure of the population. The migration process affects the areas to which migrants have moved and areas which they have left. Migration is a form of geographical mobility between one geographical unit to another, involving a change of residence from the place of origin/birth to the place of destination or place of new settlement from the last residence. A person is considered as a migrant by place of birth if the place in which he is enumerated during the Census is other than the place of birth. Similarly a person is considered as a migrant by place of last residence if the place in which he is enumerated during the Census is other than his place of immediate last residence.

Internal and International Migration

The migration movements are of four types –

1. Migration within the district of enumeration (intra-district migration)
2. Migration from one district to another but within the State
3. Migration from one State to another State of the country (inter-State migration) and
4. Migration from one country to another country.

The first three together constitute internal migration while the last type of movement is called international migration.

Migration by place of birth:

The absolute number and percentage distribution of Migrants by place of birth to total population in Jamnagar district and in the State at 1991 and 2001 Censuses are as following.

Source: Gujarat State-D-Series Tables-2001

As per 1991 Census there were 13,572,140 migrants in Gujarat whose place of birth was different than the place of enumeration, this number increased to 18,810,592 in 2001 Census. Out of such migrants in 1991 Census, 58.0 per cent were born elsewhere in the district of enumeration, 30.1 per cent were born in other districts of the State, 11.2 per cent were born in other States of India and 0.7 per cent were born in other countries. There were 4,170 migrants in 1991 who were classified as "Unclassified" while no migrant was reported under this category in 2001. As per 2001 Census 56.9 per cent were born elsewhere in the district of enumeration, 29.2 per cent were born in other districts of the State, 13.4 per cent were born in other States of India and 0.4 per cent were born in other countries.

It can be seen that as per 1991 Census in Jamnagar district there were 431,405 migrants whose place of birth was different than the place of enumeration, this number increased to 622,235 in 2001 Census. Out of such migrants in 1991 Census, 65.1 per cent were born elsewhere in the district of enumeration, 28.7 per cent were born in other districts of the State, 5.3 per cent were born in other States of India and 0.9 per cent were born in other countries. There were only 50 migrants in 1991 who were classified as "Unclassified" while no migrant was reported under this category in 2001. As per 2001 Census in Jamnagar district, 69.0 per cent were

born elsewhere in the district of enumeration, 24.1 per cent were born in other districts of the State, 6.2 per cent were born in other States of India and only 0.7 per cent were born in other countries.

INTER STATE IN-MIGRANTS TO GUJARAT STATE AS PER 1991 CENSUS BY PLACE OF BIRTH

Place of Birth	Gujarat		Jamnagar

Source: Gujarat State-D-Series Tables -2001

The above Statements show migration in Gujarat and in Jamnagar district from other States as per 1991 and 2001 Censuses. It can be seen that as per 1991 Census there were 1,520,421 persons in the State who were born in other States of India, this figure rose to 2,520,676 in 2001Census. In 1991 out of such persons 34.4 per cent were born in Maharashtra while in 2001 only 29.2 per cent were born in Maharashtra. In 1991, as much as 22.2 per cent of inter State migrants were born in Rajasthan and 16.6 per cent in Uttar Pradesh whereas in 2001 the proportion born in Rajasthan and Uttar Pradesh was 18.7 and 20.6 per cent respectively. As per 1991 Census out of total inter State migrants 6.1 per cent were born in Madhya Pradesh, in 2001 Census this proportion was almost equal at 6.3 per cent. The remaining 20.7 per cent were born in other States of India in 1991 Census while in 2001 Census 25.2 per cent were born in other States of India.As regards Jamnagar district it can be seen that there were 22,762 migrants in this category in 1991 which increased to 38,717 in 2001.The State-wise distribution reveals that as per 1991Census 21.7 per cent of migrants and as per 2001 Census 20.6 per cent of migrants were born in Maharashtra. In 1991 the proportion of migrants born in the States of Uttar Pradesh, Rajasthan and Madhya Pradesh was 16.7 per cent 14.2 per cent and 4.1 per cent respectively while the same for 2001 Census stood at 15.7 percent, 12.9 per cent and 6.9 per cent respectively. The proportion of migrants born in other States was 43.3 per cent in 1991 which marginally increased to 43.9 per cent in 2001 Census.

Migration by place of last residence:

Distribution of migrants by place of last residence in Gujarat and Jamnagar as per 1991 and 2001 Censuses and percentage distribution of in-migrants from other States to Gujarat by place of last residence are presented below.

DISTRIBUTION OF MIGRANTS BY PLACE OF LAST RESIDENCE IN GUJARAT - 1991 CENSUS

Place of last residence	Gujarat			Jamnagar		
	Persons	Males	Females	Persons	Males	Females

Source: Gujarat State-D-Series Tables-2001

There were 13,664,201 migrants by place of last residence in Gujarat according to 1991 Census and as per 2001 Census there were 19,221,602 migrants in the State in this category. The proportion of male and female migrants whose place of last residence was elsewhere within the district of enumeration was 45.4 per cent and 65.1 per cent respectively in 1991 and the respective proportion was 52.4 per cent and 69.8 per cent in 2001 Census in the case of Gujarat State. The reason for higher proportion of female migration is marriage. As per 1991 Census, out of total migrants, 59.1 per cent of migrants were residing elsewhere in the district of enumeration, 29.6 per cent were those whose last residence was in other districts of the State while last residence of 10.7 per cent migrants was in other States of India and only 0.6 per cent were such whose last residence was in other countries. There were 3,810 migrants in the category titled "Unclassified"

In Gujarat as per 2001 Census, 63.7 per cent migrants were residing elsewhere in the district of enumeration, 24.6 per cent were such whose last residence was in other districts of the State while last residence of 11.4 per cent migrants was in other States of India and only 0.3 per cent were such whose last residence was in other countries. There were no migrants in the category titled "Unclassified".

There were a total of 435,875 migrants by place of last residence in Jamnagar district as per 1991 Census. Out of total migrants, 66.2 per cent of migrants were such whose last residence was in the district of enumeration, 27.9 per cent were such whose last residence was in other districts of the State while last residence of 5.0 per cent migrants was in other States of India and only 0.9 per cent were such whose last residence was in other countries. There were 50 migrants in the category titled "Unclassified"

In the district, as per 2001 Census, there were 639,191 migrants by last residence. Out of total migrants, 74.9 per cent of migrants were such whose place of last residence was elsewhere in the district of enumeration, 19.5 per cent were such whose last residence was in other districts of the State while last residence of 5.0 per cent migrants was in other States of India and only 0.5 per cent were such whose last residence was in other countries. There were no migrants in the category titled "Unclassified".

Source: Gujarat State-D-Series Tables-2001

It can be seen form the data given above that the main reason for the migration was "Work/ employment". As much as 30.3 per cent of migrants moved due to work or employment as per 2001 Census.As per 1991 Census also, the highest proportion of 25.8 per cent of migration took place due to the same reason. In 2001, this was followed by 26.5 per cent of migration which was due to the reason of " Moved with household" and also in 1991 it was followed by 24.0 per cent of migration due to the same reason which was then titled as "Family Moved".In 2001, the proportion of migration due to marriage was 17.0 per cent while the same was comparatively higher at 22.5 per cent in 1991 Census.

ANNEXURE – V

BRIEF ACCOUNT OF MAIN RELIGIONS IN THE DISTRICT AS PER 1991 AND 2001 CENSUSES

Religion is the basic cultural characteristics of the population. In secular country like India several religions have thrived and every decennial Census provides an interesting picture of the religious persuasions of the people. The data on religion yielded by the Census are of immense use for the Anthropologists, Sociologists, Demographers, Administrators, Planners and also for laymen.

The six main religions are i) Hindu, ii) Muslim, iii) Christian, iv) Sikh, v) Buddhist, and vi) Jain were recorded. In respect of 'Others', the actual religion returned was recorded. If a person said that he has no religion, it was recorded accordingly and if any person refused to State his religion it was recorded as 'religion not Stated'.

Source: Gujarat State-C-Series Tables-2001

The Statement above gives the details of distribution of population for Gujarat State and Jamanagar district by six major religions as per 2001 Census. The 2001 Census data reveals that the proportion of Hindus was 89.1 per cent in the State of Gujarat against 84.3 per cent recorded in Jamanagar. In comparison, in 1991 the proportion of Hindus at State level was 89.5 per cent while in the district the proportion of Hindus was 85.2 per cent. The proportion of Muslims was 13.0per cent in the district in 1991 which increased to 14.2 per cent in 2001. At State level the proportion of Muslims was 8.7 per cent in 1991 and 9.1 per cent in 2001 Census.In the district the population proportion of Jain was 1.5 per cent in 1991 which decreased to 1.2 per cent in 2001 Census.In State also the proportion of Jain which was 1.2 per cent of total State population in 1991 has come down to 1.0 per cent in 2001 Census. The percentages of Christians had increased by 0.2 per cent to 0.6 per cent in 2001as compared to 1991 data while in the district the population proportion of Christians had almost remained same at 0.1 per cent in 2001.

The population proportion of Sikh, Buddhists, and people following other religions had not shown any significant changes in 2001 as compared to 1991. However the population of Buddhists had increased to 17,829 in 2001 from 11,615 recorded in 1991 in the State while in the district the population of Buddhists had increased to 1,213 in 2001 from 461 recorded in 1991.As per 1991 Census there were 6,478 persons in the State in the category of "Religion not Stated" and in 2001 there were 33,578 persons in this category. In the district only 4 persons were reported in the category of "Religion not Stated" in 1991 while 648 persons were reported under this category in 2001. In 2001 Census the population of people following other religions had more than doubled to 28,698 in State.

Source: Gujarat State -C- Series Tables-2001

In 1991 in rural areas the proportion of never married persons was 49.2 per cent in Gujarat and 53.6 per cent in Jamnagar, while in 2001 the same was 47.7 per cent in Gujarat and 50.1 per cent in Jamnagar. In 1991 in urban areas the proportion of never married persons was 50.6 per cent in Gujarat and 52.9 per cent in Jamnagar, while in 2001 the same was 47.5 per cent in Gujarat and 49.8 per cent in Jamnagar. As per 1991 Census the proportion of married persons, in rural areas, was 46.4 per cent in Gujarat and 42.8 per cent in Jamnagar, while as per 2001 Census, in the rural areas of Gujarat, this proportion was at 47.4 per cent and it was 45.7 per cent in the rural areas of Jamnagar. The proportion of married persons in urban areas of the State was 46.0 per cent in 1991 and 48.4 per cent in 2001.In Jamnagar, in 1991, the proportion of married persons in urban areas was 43.5 per cent and the same was 46.0 per cent in 2001.The proportion of widowed, divorced/separated and persons under category titled "Unclassified" has not shown any significant changes.

ANNEXURE – VII

AGE, SEX AND EDUCATION IN THE DISTRICT AT THE 1991 AND 2001 CENSUSES

Literacy has occupied an important position in Indian Census in one form or the other from the very beginning. The definition of literates as adopted is "A person who can both read and write with understanding in any language is to be taken as literate". A person who can merely read but can not write was not treated as literate. It is not necessary that a person who was literate should have received any formal education or should have passed any minimum educational standard. All children below the age 7 are treated as illiterate. While processing the literacy data population of age group 0-6 is excluded.The following Statement gives the distribution of literates and illiterates by broad age groups and sex in the district as well as the State at the time of 1991 and 2001 Censuses:-

Source: Census of India -C- Series Tables-2001

It can be seen from the Statement that, as per 2001 Census, the highest proportion of 83.6 per cent literacy rate in Gujarat State is registered in age group of 7-14 years followed by 77.6 per cent in 15-29 years age group. The same trend can be observed in Jamnagar district where the highest proportion of 83.4 per cent is registered in the age group of 7-14 years followed by 76.4 per cent in the age group of 15-29 years. The lowest proportion of 39.5 per cent in State and 31.4 per cent in Jamnagar district is found in the age group of 60 + years. As per 2001 Census the female literacy rate was lower than that of males in each and every age group in the State as well as in Jamnagar District.

A comparison with the 1991 data shows that literacy rate has increased for each and every age group in the State and also in the district except for the category titled “Age not Stated”.

Source: (1) Gujarat State District Profile 1991 and 2001
(2) Census of India C- 16 Population by Mother Tongue, 2001.

As per 2001 Census, in the district, the main language returned as mother tongue by majority of the population i.e.91.3 per cent, is Gujarati. Next to this is Kachchhi, which is returned by 4.5 per cent of the population. As per 1991 Census Gujarati was returned by 95.0 per cent and Kachchhi was returned by 2.1 per cent of the population in the district. Hindi is other main language of the district which is returned by 1.7 per cent and 1.1 per cent of population in 2001 and 1991 Census respectively. The proportion of other languages as mother tongue is not so significant in the district in both the Censuses.

As per 2001 Census in Gujarat State 84.4 per cent persons have returned Gujarati as their mother tongue. At the second place, only 4.1 per cent persons have returned Hindi as their mother tongue. In comparison the proportion of Gujarati speaking population was 91.5 per cent and that of Hindi was 2.5 per cent in the State as per 1991 Census. The other main languages returned in 2001 are Marathi, Kachchhi and Urdu which are returned by 1.5 per cent, 1.3 per cent and 1.1 per cent of the population respectively.In Gujarat in 1991 Marathi, Kachchhi and Urdu were returned by 1.4 per cent, 1.1 per cent and 1.3 per cent of the population respectively.
