1951 DISTRICT CENSUS HANDBOOK

DISTRICT MEHSANA

Mehsana district consisted, at the time of the 1951 Census, of the area of the former Mehsana district of the former Baroda State (except for Dehgam and Atharsumba talukas), with the addition of the former Indian States of Radhanpur, Mansa, Santalpur, Varahi and the old thanas of Santalpur, Varahi and Gadhawad (75 villages). Exchange of villages took place between this district and Banaskantha and Sabarkantha districts. The district had a 1951 population of 1,471,662 and an area of 4,312·4 square miles, according to the area figure furnished by the Surveyor General of India.

This Handbook contains tables for Mehsana district, compiled after the 1951 Census of India. The main results of the 1951 Census are embodied in the State Tables published for the States of Bombay, Saurashtra and Kutch. In this Handbook, the data are exhibited in greater detail. The numbers given to tables in this publication correspond to those given in the State Census Report. The following tables for the district have, however, not been included in this Handbook:—

A-II Variation in population during fifty years.

A-IV Towns classified by population with variations since 1901.

D-IV Migrants.

In the E-Summary table in this Handbook, some columns have been omitted. In the case of the C-series of tables, except C-I, the data were extracted on the basis of a sample count of approximately 10 per cent. of the census slips, instead of a full count of all the slips. The C-I table was prepared from a four per cent. sample of the households recorded in the National Register of Citizens relating to each town or village.

In 1941, the population figures were exhibited according to communities in the "Village Handbooks" published by the Government of Bombay. In 1951, the basis of classification at the census was changed from a social to an economic one, and the figures for villages given in the Primary Census Abstracts and in tables A-V, B-I, B-II, C-II and E, are according to the following eight Livelihood Classes:—

Agricultural Classes

I Cultivators of land, wholly or mainly owned; and their dependants.

II Cultivators of land, wholly or mainly unowned; and their dependants.

III Cultivating labourers; and their dependants.

IV Non-cultivating owners of land; agricultural rent receivers, and their dependants.

Non-Agricultural Classes

Persons (including dependants) who derive their principal means of livelihood from:—

V Production other than cultivation.

VI Commerce.

VII Transport.

VIII Other services and miscellaneous sources.

Dependants, whether earning or non-earning, were classified at the census according to the principal means of livelihood of the persons on whom they were dependent.

The Primary Census Abstracts, which contain basic information in respect of every village and town, have been arranged according to talukas and petas, units into which every district is divided for administrative purposes. The taluka was, however, too small a unit to adopt for preparing the main census tables. Therefore, in the B, C and D-series of tables figures have been given for tracts and not for talukas and petas. Before sorting the census slips and tabulating the results, tracts were formed by combining the rural and urban areas of two or more talukas or petas. The tracts into which Mehsana district was divided for this purpose are shown below :—

Rural Tracts

(1) Rural area of Mehsana taluka.
(2) Rural areas of Santalpur and Radhanpur talukas and Harij and Sami petas.
(3) Rural areas of Kalol and Kadi talukas.
(4) Rural areas of Visnagar and Vijapur talukas.
(5) Rural areas of Patan and Chanasma talukas.
(6) Rural areas of Kheralu and Sidhpur talukas.

Urban Tracts

(1) Urban areas of Mehsana and Radhanpur talukas and Harij peta.
(2) Urban areas of Vijapur, Visnagar, Kalol and Kadi talukas.
(3) Urban areas of Sidhpur, Chanasma, Kheralu and Patan talukas.

Urban areas comprise the towns shown in table A-V.

Shortly before the 1951 population census, a census of Small Industries was taken, and the results of this census are given in the table called "Small Scale Industries Census-Employment in Establishments", included in this Handbook.

The intention was to find out something about Cottage and Home Industries and small workshops. The larger establishments, that is, power-using establishments with 10 or more workers and non-power using establishments with 20 or more workers, were excluded from the scope of the enquiry as they now submit returns under the Factory Act.

The enquiry did not concern itself also with workers functioning on their own and not employing other people, except when looms were used. If even one loom was used a return was required. Otherwise the concept was of an enquiry which embraced all forms of associate activity where articles were produced, repaired or otherwise treated for sale, use or disposal.

13 Visnagar ...	175·1	54	2	20,458	14,303	6,155

Note:—1. The area figure of the district of Mehsana supplied by the Surveyor General of India is 4,312·4 square miles. The area figures shown in column 2 were obtained from the District Inspector of Land Records or from local records. The area figures for Kheralu and Santalpur talukas were supplied by the Collector from the annual land revenue return District Form No. I.

2. The number of villages shown in column 3 is the number of revenue villages, excluding uninhabited villages and villages which form part of municipal areas.

3. The number of towns given in column 4 is the number of towns shown in table A–V. In general, a town means a municipal area, cantonment area or a place which has a population of 5,000 or more inhabitants and exhibits urban characteristics.

4. The number of occupied houses given in columns 5, 6 and 7 is the number of census houses that were occupied at the time of the census.

5. A house for census purposes meant "a dwelling with a separate main entrance". Thus more than one household might be found in the same census house.

NOTE:—Where a person was in receipt of an income and that income was sufficient at least for his own maintenance then he, (or she, as the case might be) was to be regarded as a self-supporting person for purposes of the census enquiry. Any one who was not a self-supporting person in this sense was a dependant. A dependant might be either

...SANA

an earning dependant or a non-earning dependant. The test was whether he secured a regular income even though it might be small. Where the income which he secured was not sufficient to support him that person was an earning dependant. A person who did not earn any income either in cash or in kind was a non-earning dependant.

ECONOMIC

EMPLOYERS, EMPLOYEES AND INDEPENDENT WORKERS IN

DISTRICT

NOTES : 1. In this table, the self-supporting persons in the non-agricultural classes have been classified according to the productive industries and services in which they were engaged. In addition to the 143,821 self-supporting persons shown in the table, there were 6,737 self-supporting persons who derived their livelihood from unproductive activities as shown below :—

	Non-productive means of livelihood	Persons	Males	Females
(1)	Persons living principally on income from non-agricultural property.	1,553	530	1,023
(2)	Persons living principally on pensions, remittances, scholarships and funds.	649	604	45
(3)	Inmates of jails, almhouses and recipients of doles.	24	19	5
(4)	Beggars and vagrants.	3,475	2,901	574
(5)	All other persons living principally on income from non-productive activities.	1,036	326	710

TABLE-B-III

INDUSTRIES AND SERVICES BY DIVISIONS AND SUB-DIVISIONS

MEHSANA

2. The census definitions of the terms employer, employee and independent worker were as follows :—

Employer : A person who had necessarily to employ other persons in order to carry on the business from which he secured his livelihood. (Thus, if a person employed a cook or other person for domestic service, he was not to be recorded as an employer merely for that reason).

Employee : A person who ordinarily worked under some other person for a salary or a wage in cash or in kind, as a means of earning a livelihood.

Independent worker: A person who was not employed by any one else and who did not also employ anyone else in order to earn his livelihood.

DISTRICT INDEX OF NON-AGRICULTURAL OCCUPATIONS

DISTRICT MEHSANA

This index shows the number of self-supporting persons, males and females, having as their principal means of livelihood, the productive occupations shown in the index.

The index should be read with Economic table B-III. There were 6,737 self-supporting persons who derived their principal means of livelihood from unproductive activities as mentioned in the note to that table.

The group code numbers shown in column '2' of the index are the numbers given to the various occupations under the Indian Census Economic Classification Scheme.

Occupation	Group Code No.	POPULATION		
		Persons	Males	Females

Primary Census Abstracts

These abstracts show figures of population according to eight livelihood classes for every town and village. In the case of most municipal areas, figures have been given for wards as well. These abstracts are in essence a village directory, with the data exhibited according to livelihood classes, instead of communities as in 1941.

The area figures given in column 3 have been obtained from the District Inspector of Land Records of Mehsana or from local records. In some cases, figures were not available. The total area of Mehsana District as calculated by the Surveyor General of India is 4,312·4 square miles.

The figures given in columns 4 and 5 and 9 to 12 have been extracted from the National Registers, prepared by enumerators after the census. These Registers consisted of a transcription of the replies to the more important census questions in respect of every person enumerated. Figures of literates according to tracts, derived from the census slips, shown in table D–VII, are more reliable than the village figures derived from the National Registers. The census slip on which the replies to the census questions were recorded was the main document. The National Register was merely a copy. In addition, mistakes seem to have occurred while extracting literacy figures for villages in the Tabulation Office. The percentage of literacy in the District was 25·04 percent according to table D-VII. It was 24·63 percent according to the 10 percent sample table C-IV and 23·94 percent according to the figures given in the Primary Census Abstracts.

Information contained in columns 29 to 33 has been extracted from the data collected for each village by the Bombay District Gazetteers (Revision) Editorial Board.

The following abbreviations have been used in this abstract :—

M.	for	Municipality.
P. S.	for	Primary School.
V. P.	for	Village Panchayat.
C. C. S.	for a	Co-operative Credit Society.
C. S.	for a	Co-operative Society of any other kind.
Sun.	for	Sunday.
Mon.	for	Monday.
Tues.	for	Tuesday.
Wed.	for	Wednesday.
Thurs.	for	Thursday.
Fri.	for	Friday.
Sat.	for	Saturday.

Notes.—(1) The Census of Small Scale Industries was done by revenue officers in addition to their normal work. It was not done simultaneously in all talukas and districts, nor was it possible to give any special training to the staff engaged on this census. In the result, the accuracy of the data furnished by this census cannot be guaranteed. The figures may, however, be regarded as illustrative of the nature of the small scale industries carried on in the District.

(2) Males under 15 were classified as boys and females under 15 as girls.
