VIJAYVILAS PALACE

The center of attraction at Mandvi is the Vijay Vilas Palace, a royal abode set in the middle of well laid gardens with water channels and marble fountains. The architect and craftsmen from Jaipur designed and constructed the palace in 1920 A.D. The palace has all the elements of Rajput architecture and draws largely on the plan of palaces of Orchha and Datia. The central high dome on the pillars, the Bengal domes on sides, the windows with colored glass, carved stone Jalis, domed bastions at the corners, extended porch and other exquisitely stone carved elements, make the Palace worth visiting. This is an example of the traditional skill of craftsmen of early 20th century.

The Vijay Vilas Palace has its own private beach, maintained in an eco-friendly manner to preserve its pristine beauty. For these reasons this palace has been used as the setting in many Hindi films and has now become a popular tourist destination.

Annexure - VIII Distribution of Different Mother Tongues returned in1991 and 2001 Censuses. 731

Foreword

TheDistrict Census Handbook (DCHB) published by Census Organisation since 1951 census, is one of the important publications in the context of planning and development at gross-root level. The publication, which is brought out for each district, contains several demographic and socio-economic characteristics village-wise and town-wise of the district alongwith the status of availability f civic amenities, infrastructural facilities, etc.

2. The scope of the DCHB was initially confined to a few Census Tables and Primary Census Abstract (PCA) of each village and town within the district. Thereafter, at successive censuses, its scope and coverage has been enlarged. The DCHB published at the 1961 census provided a descriptive account of the district, administrative statistics, census tables and a village and town directory including PCA. The 1971 census-DCHB series was in three parts: Part-A related to village and town directory, Part-B to village and town PCA and Part-C comprised analytical report, administrative statistics, district census tables and certain analytical tables based on PCA and amenity data in respect of villages. The 1981 census DCHB was in two parts: Part-A contained village and town directory and Part-B the PCA of village and town including the SCs and STs PCA up to tahsil/ town levels. New features alongwith restructuring of the formats of village and town directory were added into it. In Village Directory, all amenities except electricity were brought together and if any amenity was not available in the referent village, the distance in broad ranges from the nearest place having such an amenity, was given. Information on new items such as adult literacy centres, primary health sub-centres and community health workers in the village were provided so as to meet the requirements of some of the Revised Minimum Needs Programme. Information on approach to the village was provided for the first time in the Village Directory so as to give the details on number of inaccessible villages in each district. In the Town Directory, a statement (IV-A) on slums was introduced to provide the details on civic and other amenities in the notified slums of Class I and Class II towns.

3. The 1991 census of DCHB, by and large, followed the pattern of presentation of 1981 census, except the format of PCA was restructured. Nine-fold industrial classification of main workers was given against the four-fold industrial classification presented in the 1981 census. In addition, sex-wise population in 0-6 age group was included in the PCA for the first time with a view to enable the data users to compile more realistic literacy rate as all children below 7 years of age had been treated as illiterate at the time of 1991 census. One of the important innovations in the 1991 census was the Community Development Block (CD block) level presentation of village directory and PCA data instead of the traditional tahsil/taluk/PS level presentation. It was expected that the presentation of village directory and PCA data at CD block level will help the planners in formulation of micro level development plans, CD block being lowest administrative unit.

4. The present series of 2001 census DCHBs have been made more informative and exhaustive in terms of coverage and content. The Village Directory has been enlarged in scope by including a number of other facilities like banking, recreational and cultural facilities, newspapers and magazines and 'most important commodity' manufactured in village. Income and expenditure of gram panchayat, wherever possible, has been provided. Apart from these, more details on distance(s) at which basic amenities are available (if not available in the village), are given. This includes educational facilities (namely primary and middle schools and college), medical facilities (viz. Allopathic Hospital, Maternity & Child Welfare Centre and Primary Health Centre), drinking water, post & telegraph (post office and phone), communication, bank, credit societies and recreational facilities. In Town Directory, the statement on Slums has been modified and its coverage enlarged by including details on all slums in instead of 'notified slums'. The information is given in case of all statutory towns irrespective

of their class, against only Class I and Class II towns in the 1981 and 1991 Censuses. The basic amenities available in the villages and towns are analysed in depth with the help of a number of cross-classified inset tables and statements. Two other significant additions in the publication are inclusion of 'motif highlighting significant characteristic of the district and analytical notes as annexures. The analytical notes on (i) fertility and mortality and (ii) various measures of fertility and mean age at marriage are prepared based on 1991 Census. Whereas, in the notes relating to (i) percentage distribution of migrants by place of birth/place of last residence, (ii) main religions, (iii) marital status of population, (iv) age, sex and education, and (v) distribution of spectrum of mother tongue, nature and extent of changes occurred in the district in its basic socio-demographic features during the decade 1991-2001 are analysed. The eight digits permanent location code (PLCN) to all the villages and towns have been assigned keeping in view the future needs.

5. The village and town level amenity data have been collected, compiled and computerised in prescribed record structure under the supervision of **Shri Jayant Parimal**, Director of Census Operations, Gujarat. Thereafter, efforts have been made to ensure comparability of the information with that of 1991 census data and the information brought out by the respective state governments in their annual reports and statistical handbooks for various years after 1991. The task of planning, designing and coordination of this publication was carried out by Shri R.G. Mitra, Deputy Registrar General (C&T) and Dr. I.C. Agrawal, Senior Research Officer of Social Studies Division. Dr. R.P. Singh, Deputy Registrar General (Map) provided the technical guidance in the preparation of maps. Whereas, Shri Anil Kumar Arora, Deputy Director of Data Processing Division who worked under the overall supervision of Shri Himakar, Addl. Director(EDP) helped in preparation of record structure for computerisation of village and town directory data and the programme for the generation of Village Directory and Town Directory statements including analytical inset tables. The draft DCHB manuscripts received from the Census Directorates have been scrutinised in the Social Studies Division under the guidance of Shri S.L. Jain, Deputy Director and Shri R.K. Mehta, Assistant Director. I am thankful to all of them and others who have contributed to make this publication possible.

D. K. Sikri,
Registrar General &
Census Commissioner, India

New Delhi
Dated : 17-10-2006.

Preface

Census is being conducted in the country every ten years as per the programme laid down by the Government of India. In this day and age of information technology, an individual has access to a variety of information covering a Kaleidoscope of interest and fields. Availability of relevant information is very vital for planners, policy makers and researchers.

The Five Year Plans have come to stay in the country and whatever development is achieved as a result of implementation of planning from the bottom level such as development of infrastructure facilities as well as basic amenities, etc. is reflected in the District Census Handbooks and they give to the readers a searching eye whether the development over the years in villages/talukas/districts is lopsided or upto the mark. This is the basic requirement of this type publications and an attempt has been made to show whether the census handbooks reasonably fulfill these aspirations/requirements.

These district Handbooks are thus useful to planners in planning from bottom as well as to administrators, researchers, educational institutions including universities and other socio-economic research centres as well as students conducting research in demography, social and economic studies as well as to the local bodies like Panchayats, Municipalities and Municipal Corporation etc.

District Census Handbook of Gujarat is a joint venture of the Government of Gujarat and the census organization of the Government of India. In the preparation of the DCHB, the role played by the census organisation is that of Census data collection, scanning of collected information, analysis of PCA. DCHB Unit of the State Government collected the basic non-census information on availability of amenities relating to infrastructure in the villages of the district presented in the part A of this book. The cost of this publication is borned by the State Government. In accomplishing this task we had the ready and whole hearted co-operation of the staff at various levels of different department of the State Government. Most of the data supplied by the various departments have been cross-checked and an attempt has been made to reconcile the discrepancies as well.

I express my deep gratitude to the officers of Gujarat Government particularly Shri PK.Laheri, Chief Secretary of Gujarat State, Smt. Netraben Shenoy, Additional Chief Secretary of General Administration Department (Planning), Shri George Joseph, Principal Secretary, General Administration Department (Personnel), Shri K.R.Vasava, Deputy Secretary, Kum.P.S. Mevada, Under Secretary and Shri P.D.Kulkarni, Section Officer of General Administration Department, Planning, Shri S.D.Mehta,Deputy Secretary and Shri I.M.Sheikh, Under Secretary, Shri Bipin Patel, Section Officer and Shri P.N.Christian, Deputy Section Officer of G.A.D. (Kh-3) for their valuable help and co-operation in fulfilling all administrative requirement in time for bringing out this publication. I am also thankful to Shri P.M. Patel, Director, Economics and Statistics helped this organisation not only by placing the competent personnel on disposal of census services on deputation but also provided valuable official statistics for this publication.

The District Collector, the District Development Officer, District Statistical Officer, District Information Officer and their staff members extended their warm and whole hearted co-operation for carrying out field work of the census and collection of non-census data for this District Census Handbook.

I am deeply grateful to Shri J.K. Banthia, I.A.S., the Ex-Registrar General and Census Commissioner, India for the benefit I have derived by the way of guidance and advice. I also express my thanks to Shri R.G. Mitra, Deputy Registrar General(C&T) Shri C. Chakravorty, Joint Director, Shri I.C. Agrawal,Senior

Research Officer(SS), Shri S.L. Jain, Deputy Director(SS), Shri R.K. Mehta, Assistant Director(SS), Shri R.P. Singh, Dy. Registrar General(Map), Shri Himakar, Addl. Director (EDP) and Shri Anil Kumar Arora, Deputy Director (EDP) for providing technical guidance in finalising this publication.I am extremely thankful to Shri D. K. Sikri, IAS, Registar General & Census Commissioner, India for his valuabe guidance in finalizing of this publication.

Shri Jayant Parimal, I.A.S. who held the office of Director of Census Operations, Gujarat, had guided the operations of the 2001 Census. The data presented in this handbook were collected and compiled under the able direction and guidance of Shri Parimal.Our sincere and grateful thanks for all the projects of census to him.

In state office Smt. B.B. Chauhan, Deputy Director, District Census Handbook Unit, Kum.S.B.Dabhi, Assistant Director, Shri S.B. Dalvi, Deputy Section Officer of District Census Handbook Unit, and their team of able assistants meticulously collected and scrutinized the non-census data from various sources and prepared draft of DCHB etc. with the help of Census section. The other officials of D.C.H.B. Unit, who scrutinised, edited and supervised the work of D.C.H.B. have been mentioned in the "Acknowledgement". The maps provided in the D.C.H.B. are prepared by the Map Section of the Census Directorate under the supervison of Shri J.P. Purohit, R.O(Map). I am thankful to all of them.I am thankful to the census section of the Directorate for scrutinizing the PCA data, specially Shri J.N.Pithadia, Investigator Grade-I and Kum.N.V.Shah, Investigator Grade-III who provided assistance to me in finalizing P.C.A. data at every stage. Smt. J.R.Sanghani, Investigator Grade-III of this Directorate assisted me for final scrutiny of D.C.H.B., I am thankful to her.

Lastly, I am thankful to the Government of Gujarat for having agreed readily to bear the cost of publication of the District Census Handbook volumes and for the special efforts of Shri R.B. Raval, Director, Printing and Stationary and his colleagues to print out the publication in a very nice fashion.

District Highlights - 2001 Census

Kachchh

(1) Kachchh district is the 15th district in terms of population in the state.

(2) Population density per square kilometer is 35.

(3) Kachchh district is the 25th dense district in the state.

(4) Kachchh district is having 9th rank in sex ratio.

(5) Nakhatrana village is the most populated having 12,534 persons whereas Hanumankhadi (Lakhpat) and Bharodiya (Mundra) villages are least populated in the district with 1 (one) person each.

(6) The economy of the district is basically dependent on agriculture as 42.2 per cent workers are engaged in agricultural activities and the remaining 57.8 per cent are engaged in other works.

(7) Kachchh district is having 950 villages among them 886 villages are inhabited and 64 villages are uninhabited.

(8) Palansva village in Rapar taluka has the largest area of 13,953.0 hectares Sabharainani village of Mandvi taluka has the smallest area having 48.0 hectares among the villages of the district.

(9) Basic chemical and chemical products (except products of petroleum and coal), textile products (including weaving apparels), Food products, electricity, gas and water generation, water works supply etc. and wood and wood products are most important non-agricultural economic activities of the district.

(10) Kachchh district has the longest coast line of about 406 km.

Note: 1 village. is fully covered as outgrouwth (OG) and there not included under the item Number of Village

Definition of Census Town: -

All places which satisfy or are expected to satisfy the following criteria are treated as Census Towns:-

i) A minimum population of 5,000;
ii) At least 75 per cent of the male working population engaged in non-agricultural pursuits, and
iii) A density of population of at least 400 per square kilometer (1,000 per square mile).

Note: *These figures represent 'Geographical area' figures supplied by the Surveyor General. Figures for urban area are those supplied by the local Bodies. Area figures for rural are derived by subtracting the urban area from the total area of the District. The total of the area figures of talukas will not tally with the district figures because the former represents 'Land Use Area' and are derived from the figures supplied by the Director of Land Records.

UA =Urban Agglomeration

ANALYTICAL NOTE

ANALYTICAL NOTE

(i) History and Scope of the District Census Handbook:

Before the 1951 Census, the Census figures were published in a booklet known as 'Village Handbook', which contained only village wise population figures. These books were prepared and published by the Directorate of Census Operations of the State.

The Directorates introduced the District Census Handbook for the first time in 1951 Census. It comprised the village wise primary census abstract figures and information on available amenities. It also contained several statements relating to the district. It varied in content and size from State to State depending upon the resources offered by the respective State Governments.

In 1961 Census, an uniform pattern of District Census Handbook was adopted throughout the country. The Directorate of Census and the State Government jointly executed the project. In addition to the English version, it was published for the first time in Gujarati language also. The District Census Handbook 1961 was published in three parts. Part I related to Introductory Note i.e. general and economic information for the district and a brief gazetteer of place names. Part II pertained to census statements, villagewise list of industrial establishments, statements on handicrafts and departmental statistics. Part III consisted of village directory covering the amenities and primary census abstract data combined in one statement. It also covered district and taluka maps.

It is worthwhile here to note that the State Government has created a separate unit for preparing and publishing the District Census Handbook from 1971 Census onwards. In the 1971 Census, the contents of District Census Handbook were modified. In the preceding censuses the data on amenities and primary census abstract were covered in one statement whereas in 1971 Census, the data on amenities and primary census abstract were separated into two different parts. Thus, the coverage of amenities data was extended and the land use data were introduced for the first time since 1971 District Census Handbook. Moreover, a separate portion known as 'Town Directory' was also incorporated for the first time in the District Census Handbook. The 1971 District Census Handbooks were published in three parts. Part A contained the village and town directory. Part B contained village and townwise primary census abstract data and Part C contained official statistics, besides full count census statements, urban census statements and analytical report on census and related statistics socio-economic and cultural statements (Rural areas) and housing statements. Part A and Part B were combined and published in one volume.

The District Census Handbook –1981 was brought out in two parts, Part-A and Part-B. Part-A contained the village and town directory whereas Part-B included the primary census abstract data for both General population and Scheduled Castes/Scheduled Tribes. Both parts were published in one volume. Part C brought out for 1971 Census was dropped in 1981 Census. However, official statistics and some portion of analytical notes of part C of 1971 Census were included in the 1981 District Census Handbook also. For the 1991 Census, the District Census Handbooks were prepared more or less on the same lines of the preceding Census of 1981. In 2001, the scope of both Part A and Part B has been enlarged by giving several additional information due to large scale computerization.

The District Census Handbook has been prepared after scanning and processing of data collected through Houselist Schedule and Household Schedule. Several innovations have been introduced mostly at all the stages of the Census of India, 2001, right from the preparatory efforts of data processing to data dissemination of stage. This includes certain fundamental changes in the form and contents of the Houselist and Household schedules, while maintaining the continuity and comparability of the basic housing and population characteristics with the earlier census. For the Census of India 2001, a system of Permanent Location Code Number (PLCN) has been adopted by assigning a population number to each village within the State/UT a continuous series from I to N. Each village has been assigned an eight-digit code. The last two digits being '00' are kept for accommodating

future changes in case of split of an existing village or creation of new villages etc. Since the permanent Location Codes have been assigned to each village, theoretically tracing the precise location of village on account of future jurisdictional changes in the boundaries of various administrative areas within the state should not pose a problem. It is imperative that under this scheme, the PLCN assigned to villages at the Census of India, 2001 are adopted in future censuses also to ensure the comparability of the data at the village and other administrative levels over a long time series.At the 2001 census age at marriage was collected for males also, while it was collected for only ever-married females until the 1991 Census, the type of educational institution attended by a person was enlarged to include school, college, vocational institute. The scope of the definition of 'work' was expanded in the Census of India, 2001, this includes production of milk for domestic consumption. In the 1991 Census, cultivator of certain crops even for self-consumption was treated as economic activity. The scope of the term 'Cultivation' was expanded in this Census to include certain other crops such as tobacco, fruits, all types of flowers, roots and tubers, potatoes, chilies and turmeric, pepper, cardamom, all types of vegestatements and fodder crops etc. This meant that activities related to production of all the above-mentioned crops for domestic consumption has been treated as work. Only five crops viz. tea, coffee, rubber, coconut and betel nuts have been classified under 'Plantation' in the Census of India 2001.

- At the 1991 Census, the question on seeking/ available for work was canvassed for only non-workers. At the Census of India 2001, this question is asked from the Marginal Workers also. A question to elicit information on secondary work canvassed at the 1991 Census was dropped.
- From among the categories of non-workers adopted at the 1991 Census, the category 'Inmates of institutions' has been dropped and 'Retired Persons and Rentiers' has been replaced by the category 'Pensioners'.
- A new response category 'Moved after birth' was included in the question on reason for migration to bring out additional migration patterns. Natural calamities or distress migration as a reason for migration for last residence migrants included in the 1991 Census is covered under category of 'Other'.
- Number of children born alive to currently married women during last one year was collected for male and female children separately.

Besides the above modifications, the following new questions were canvassed at the 2001 Census.

- A question on total disability was canvassed in the 1981 Census but in 1991 Census there was no provision for question on disability. At the present Census of 2001, a question to elicit information on total or partial disability was canvassed. The five types of disabilities on which information was collected are - in seeing, in hearing, in speech, in movement and for mentally disorderness.
- A new question on 'Travel to place of work' is canvassed mainly for workers engaged in non-agricultural activities. Information on distance from the residence to place of work and mode of travel to place of work was collected under this question.

The mode of presentation of DCHB in 2001 will by and large be same as that of 1991. The uniqueness of Census 2001 is that single record (Household Schedule) has been processed as against two records viz. Individual Slip and Household Schedule in the previous Censuses. Apart from this some deviation has been made this time by incorporating analytical notes on migration, fertility & mortality, education, marital status, age structure etc. pertaining to 1991 Census of the respective district in the DCHB in the form of Annexure II to VIII. Similarly Statements based on House list data pertaining to Census 2001 has also been included in DCHB.

(ii) Brief History of the District:

Kachchh is an ancient land possessed of great antiquity which takes its name from its geographical characteristics and topographical features resembling a tortoise (Kachchh), the name by which it has been referred to in the ancient literature, has been defined by Mallinath as a marshy

region or waste land in Sanjivani his commentary on Amarkosh. By this name it has been referred to in the Puranas, in the various notes on this region by foreign travellers that visited this country in olden times, as also in stone inscriptions and copper plates and in old writings and manuscripts. Prior to the dawn of Christian era, the region lying between Sindh and Saurashtra has been described as Abhir by which name it has also been referred to in the Mahabharat. A Greek traveller and Military Commander also named this region as Abiria or Abir corrupted from its original name of Abhir during the second century before the Christ. Till the 3rd and 4th Century A.D. and even thereafter, it came to be referred to by both the names Kachchh as well as Abhir. First known as Abhir from its original inhabitants, the Abirs who resided in this area, it later on came to be known as Kachchh because of its unique geographical location surrounded by water and waste land.

The administrative background of Kachchh appears to be chequered. This domain has been settled by various races and tribes that came from the north and east since ancient times. During the period of known history it has from time to time come under the sway of various dynasties that exercised its authority over Sindh and Gujarat. It once formed part of the Mauryan Empire and then came under the authority of Sakas, Kshtrapas, Guptas, Haihayas and was later ruled over by the Maitrakas, Gurjars, Chalukyas, Chavdas, Solanki, Kathis and other Gujarat kings. Kachchh has thus been closely interlinked with Gujarat, the course of whose history has greatly influenced this region.

The history of Kachchh may be roughly divided into two periods, ancient and modern; before and after the Samma of Jadeja conquest about the beginning of the 14th century. Or it was the conquest of Kachchh by the Sindh tribes of Samma Rajputs that marked the emergence of Kachchh as a separate kingdom in the 14th century. In old Hindu writings the country is under the name of Kachchh of coast land, spoken of as a desert. Early notice of Kachchh are found in the Greek literature. In 142-124 B.C. Kachchh was part of Menander's kingdom which stretched from the Jamma to Saurashtra. Soon after this (120 B.C.) the Graeco-Bactrian Empire was over-thrown and Scythians, known to the Indians as Saka established themselves in Kachchh and other parts of north Gujarat. Defeated by Vikramaditya about 56 B.C. they came back between 20 and 30 years later and under Yeukaotschin founded a dynasty which in turn was, in the first century of the Christian era, overthrown Parthians whose power stretched from Sindh to as far south as Bharuch. In the first century after Christ, Pliny's (77 A.D.) Odambaris are generally taken to have been the people of Kachchh and Ptolemy's (150 A.D.) town of Orbadari to the east of the Indus to have been their headquarters. The next mention of Kachchh is that early in the eighth Century (about 714) on the death of Pramar of Telegu, Kachchh was given to the Charans. At this time the other chief tribe of Kachchh would seen to have been the Chavdas in east. During this time the Arabs, beginning with raids on the Kathiawar and Gujarat coasts, had completed the conquest of Sindh. In the ninth century they had made settlements on the Kachchh coasts. Al-Biruni (970-1039) speaks of Kachchh by its present name and notice that one branch of the Indus flows into the Sindh Sagar on the borders of Kachchh. Early in the eleventh century (1023), Bhimdev I (1022-1072) of Anhilwada fled before Mohmud of Ghazni to Kanthkot. About the close of the century the province was, as far as Manikbai, overrun by Singhar, the fourth Sumra prince of Sindh.

The modern history of Kachchh may be said to date from its conquest by the Sindh tribes of Samma Rajputs. This took place or at least was completed during the fourteenth century. Early in the fifteenth century (1410) Muzafar Shah (1390-1411) the founder of the Ahmadabad dynasty defeated the chief of Kanthkot. In spite of this defeat, though nominally subject to Ahmadabad, Kachchh remained independent till 1472. In the beginning of the sixteenth century, the Kachchh chief would seem to have been on no friendly terms with the Arghun dynasty (1519-1543), the over throwers of the Tatta Sammas. According to the Sindh historians on the occassion, about 1530, Shah Hussain (1522-1544) entered Kachchh and inflicted on the Rao a severe defeat. At this time the representative of the three branches of the Jadeja family were Jam Dadarji, Jam Hamirji and Jam Raval. During the time of the Mogul Emperor Jahangir, Bharmal went to Ahmadabad to pay his respects and

made nazar. Jahangir was much pleased with him, gave presents in return and freed Kachchh from tribute on the condition of giving pilgrims a passage to Mecca. In 1741, Lakhaji Rao placed his father in confinement and assumed the ruler of Kachchh Rao Desalji continued to rule till 1860. For some years there was an unfortunate quarrel between Rao Desalji and his eldest son. But before the end of his life, friendly relations were established. In 1859 as he had for some time been suffering serious ilness, the Rao prayed Government to appoint a regency to relieve him from the burden of State affairs. His wish was granted, and on the 12th July, under the Political Agent as president, the Rao chose the heir apparent, the minister, and two Jadeja chiefs, as members of the Regency. On 21st June of the next year, at the Raoś urgent request, the Regency was dissolved and the management of the State handed over to heir apparent, Rao Pragmalji II who ruled from 1860 to 1875. Pragmalji was succeeded by Rao Khengar III who at the time of installation was only ten years of age and managed the State affairs, under the supervision of the Political Agent. The dynasty lasted till Independence.

The present district of Kachchh is formed of the former native State of Kachchh and 10 enclave villages of the former native State of Morvi. After 1947, it was a part 'C' State administered by the Government of India through the Chief Commissioner.

In November 1956, the States were reorganized and the bigger bilingual State of Bombay was formed with Vidarbha, Marathawada, Saurashtra and Kachchh regions and Kachchh district became a part of the bilingual State. Lastly, the Bombay State was bifurcated on 1st May 1960 and separate States of Gujarat and Maharashtra were formed since that date, the Kachchh district became a part of the newly formed Gujarat State.

The district of Kachchh attracted pointed attention after Independence on account of the border dispute between India and Pakistan regarding the Sovereignty over certain parts of the Kachchh district. India and Pakistan Governments decided to refer the boundary dispute to an Impartial Tribunal. On 30th June 1965 they also agreed that decision of the tribunal would be binding on both of them and would not be questioned on any ground whatsoever. A tribunal was constituted with headquarters at Geneva. The Tribunal heard arguments of both sides, examined the documents, maps etc. put forth by both the sides and gave an award on 19th February 1968 which is embodied in the Award of the Indo Pakistan Western Boundary Case Tribunal. Accordingly, the work of the demarcation of the boundary by erecting pillars on the ground was undertaken in 1968 and was completed in June 1969.

(iii) Administrative Set-up :

With a view to run the administration of the State smoothly, it has been divided into Districts, which in turn have been further sub-divided into Talukas (Tahsils). In the State of Gujarat, the community development blocks are co-terminus with the Talukas. The Talukas contain large number of villages and possibly several towns. The villages have Village Panchayats to run the local administration. A Village Panchayat may constitute of one revenue village, several revenue villages or a part of a large village. Similarly, the towns have Municipality or Municipal Corporation as the seat of local self-government.

In the State of Gujarat, as on December 1999 there were 25 districts and 226* Talukas, against 19 districts and 184 Talukas in 1991 Census. There were 10 talukas in Kachchh district in 1991 Census. In 1997 by several notification(s), Government of Gujarat reconstituted some districts and talukas of the State. Several changes as described were also made in Kachchh district. By Government Notification No. GHM-97-112-M-PFR-1197-2587-L dated 15-10-1997 Gandhidham taluka was created by separating it from Anjar taluka respectively.

The District Collector looks after the general administration, maintenance of collection of land revenue and settlement of law related disputes, civil supplies, district planning, mid-day meal scheme etc. at the district level. The functions of administration of law and order and control and investigation of crime are done by the Superintendent of Police of the district with the help of Police Stations working under him. At the Taluka level, Mamlatdar looks after the land development, revenue collection and law and order. For the purpose of maintaining law and order there are 6 police stations, 56 police chowkies and 53 out-post, as per statement below.

* Vagdod taluka merged in the Patan taluka of the Patan district on 3rd July 2001.

Police Station in the District

Sl. No.	Particulars	1998	2000
1	2	3	4
1	Police Station	23	6
2	Police Chowky	6	56
3	Out post	56	53

Source: Director General of Police, Gandhinagar, 2000

During the period 1998 to 2000 police chowkies were increased and out-posts and police stations were decreased.

The Panchayati Raj institutions are fairly strong and most of the development works have been transferred to the District Panchayats and its subordinate bodies. The District Panchayat has an elected President and District Development Officer appointed by the Government, works as its Secretary, who looks after day-to-day work related to the development. Similarly, at the Taluka level, Taluka Panchayats have been constituted which have an elected President. The Taluka Development Officer, placed by the Government as Secretary of the Taluka Panchayats and he conducts the regular administrative work. Like-wise, an elected President heads the Municipality and the Chief Officer works as the Secretary of the Municipality, who looks after the day-to-day work. In case of the large cities, the State Government has constituted Municipal Corporations, which are headed by an elected Mayor and the Municipal Commissioner, appointed by the Government, looks after the routine work. At the Village level, the Sarpanch is the elected Chief and the Talati (Village Mantri) works as the Secretary to the Village Panchayat and looks after the day-to-day work. In view of the expanding role of the public administration in a state like Gujarat, the Government has taken-up many activities and has set up several offices. Such offices which came into the existence are as under:

(1) Education
(Primary and Higher Education)
(2) Agricultural and Research
(3) Animal Husbandry and Poultry
(4) Forest and Environment
(5) Roads and Buildings, Bridges
(6) Co-operation and Co-operative Societies
(7) Industries, Small and Large as well as Cottage
(8) Health and Medical Services, Medical Education and Research, Family Welfare and Nutrition
(9) Information Department,
(10) Irrigation, Minor and Major
(11) Social Welfare and Social Defence

The functions of above offices are managed and controlled by concerned Head of Departments and in some cases also by District and Taluka Panchayats. The task of providing primary education in rural areas has been entrusted to District Panchayats and functions relating to Government of providing primary education are assigned by District Development Office and are controlled by the District Primary Education Officer. The secondary education is looked after by District Education Officer of Education Department. Primary education as well as higher secondary education of all types of institutions is governed by District Education Officer.

Agriculture activities have been delegated to District Panchayat to a large extent and District Agriculture Officer is in-charge of looking after agricultural produce including crops and vegetables. Similarly Animal Husbandry is also a Panchayat activity and routine work is controlled by the Deputy Director (Animal Husbandry) who sits in District Panchayat taking care of animals and poultry farms. Besides, District Agriculture Office in Panchayat Offices such as Deputy Director (Agriculture) and other officials look after various aspects of agriculture for developing the sector as well as to extend necessary assistance to farmers at district level.

Besides Director, Animal Husbandry Officer of Panchayat offices such as Deputy Director (Animal Husbandry) Special Officers at Veterinary Offices etc. in state government animal husbandry department also monitor activities of the sector at district level.

Public Health in rural area is assigned to the District Panchayat under the Chief District Health Officer who looks after epidemics, malaria control, water borne diseases and district level administration of Public Health Centres. District and Talukas Hospitals and Referral Hospitals are being looked after by the District Civil Surgeon of medical services

in the State, while Medical Colleges and Research activities attached with the respective Civil Hospitals are controlled by Medical Education and Research Wing.

Family welfare activities are also monitored by the District Health Officer. Chief District Health Officer is also functioning as District Registrar of Birth and Death of the district and Talati cum Mantri is also Registrar of Death and Birth for the respective villages. Anaemic mothers and children upto to the age of 14 are looked after by Nutrition Officer under the Nutrition Programme.

District Ayurvedic Officer looks after the Ayurvedic dispensaries and hospitals. They also take care of the Ayurvedic plants and medicines and gardens. The District Food and Drugs Officer generally looks after the quality of the food and drugs in the district. Labourers and workers who are working in registered units are covered under the Employees State Insurance Scheme.

The rural roads have been transferred to the District Panchayats and their maintenance is done by the Executive Engineer, Roads and Buildings Department. Minor irrigation works are transferred to the District Panchayat and Executive Engineer (Panchayat) of the Panchayat's irrigation office looks after water harvesting and check dams.

The Roads and Buildings Department of State Government looks after the maintenance of roads, buildings, bridges and government multi-storey buildings etc. Besides Panchayat officials, major district roads and the state highways are looked after by the Executive Engineer (Roads & Buildings). The large multi-purpose irrigation projects are controlled by State Government directly through its Executive Engineers.

District Industry Centre is functioning to develop the small and village industries, handloom industries and the scope of industrial growth in the district. Besides, other departments are working for the rights of the industrial workers and rural labourers engaged in agriculture and others sectors.

Social welfare activities relating to the Scheduled Castes, Scheduled Tribes, Other Backward Castes and Other Backward Communities in the District are organized by the District Welfare Officer. Generally the schemes under Tribal Area Sub Plan and Special Component Plan are organized by the District Welfare Officer.

In each District Panchayat, District Statistical Officer of Directorate of Economics and Statistics looks after co-ordination of different development programmes. He is also Member-Secretary of District Planning Board. Similarly in every Collector Office, District Planning Officer looks after development work of various Government (State & Centre) sponsored programmes.

Co-operative Societies i.e. Co-operative Milk Societies, Agricultural Produce Market Societies, Co-operative banking and other co-operative societies are controlled by the District Registrar, Co-operative Societies.

As per 2001 census neither any new town was included nor was any of the existing towns declassified.

The talukawise break up of towns and villages in the district are shown as following.

Taluka wise Number of Towns and Villages

Sl. No.	Name of Taluka	Number of Towns	Number of Villages	
			Total	Inhabited
1	2	3	4	5
1	Lakhpat	-	100	86
2	Rapar	1	97	97
3	Bhachau	1	71	69
4	Anjar	1	67	64

(iv) Physical Features:

Kachchh district is situated on the western end of the state. It is an ancient land possessed of great antiquity, which takes its name from its geographical characteristics and topographical features resembling a tortoise. This crescent shaped region called Kachchh forms part of north-west Gujarat. It lies between the parallels of latitude $22^0.45'$ to $24^0.40'$ and the meridians of longitude $68^0.9'$ to $71^0.45'$ The length from north to south of this territory is about 220.32 km. and from east to west about 376.80 km. It is bounded on the north and north-west by Pakistan , on the north-east by Rajasthan state, on the east by the Banas Kantha and Patan districts, on the south- east by Surendranagar district, on the south by the gulf of Kachchh and Rajkot district and on the south-west by the Arabian sea.

Physiography :

The Kachchh Peninsula is divided into nine sub-micro regions, namely, Rann of Kachchh, Dungar Upland, Khadir Island, Banni Lowland, Rapar Stony Waste, Sathsaida Bet, Coastal Plain, Bhuj Upland and Creek Zone on the basis of topography, climate, geology, soils and natural vegetation.

Rann of Kachchh

The region covers the entire northern and south-eastern parts of the district, occupying Rann of Kachchh and little Rann of Kachchh. It is surrounded by Pakistan from north, by Rajasthan State from north-east and by the districts of Banas Kantha and Mahesana from east and by Surendranagar from south-east. The districts of Rajkot, Jamnagar and the Arabian Sea adjoin the region on south, south-west and west respectively. The entire region is low-lying and is covered with tidal mud flats.

Dungar Upland

The region extends over the northern part of Bhuj taluka of the district. It makes its limits with Rann of Kachchh in the east, north and west and Banni Lowland in the south.

As the name suggests, the maximum height of the region is 458 metres above M.S.L. It has the minimum elevation of 8 metres. The slope gradient of the region is towards east. Being an upland region drainage is characterised by dendritic pattern. Sandy soil is found in the region.

Khadir Island

The region spreads over the parts of Bhachau taluka. The region is an island in the Rann of Kachchh. As regards the relief, the elevation of the region varies between 13 metres and 284 metres above M.S.L. The slope gradient is towards south.

Banni Lowland

The region covers the northern and south-eastern parts of the district, occupying parts of Rapar, Bhuj, Bhachau, Nakhatrana, Anjar and Lakhpat talukas. It is bounded by Rann of Kachchh in the north, east and south-east, Coastal Plain in the south-west and Bhuj Upland in the west.

The northern part of the region is hilly and has dendritic type of drainage. The elevation of the region ranges between 16 metres and 232 metres above M.S.L. It has the geological structure of Dwarka Beds, etc., Sub-Nummulitic Beds, Umia Series, Patcham, Chari and Katrol Series.

Rapar Stony Waste

The region extends over the north-eastern part of the district, occupying parts of Rapar and Bhachau talukas. It is bounded by Banni Lowland in the north, south and east and by Coastal Plain in the west.

The region is characterised by stony and gravel waste. The general slope of the region is towards north. The elevation of the region varies between 68 metres and 203 metres above M.S.L. Dendritic pattern of drainage is seen in this region. Geologically, the region is composed of Dwarka Beds,etc, Sub-Nummulitic Beds, Umia Series, Patcham, Chari and Katrol Series.

Sathsaida Bet

The region covers the south-eastern part of the district, occupying parts of Anjar taluka and Little Rann of Kachchh. It is surrounded by the Coastal

Plain from north and west, by the Little Rann of Kachchh from east and by the districts of Rajkot, Jamnagar and Gulf of Kachchh from south.

Mangrove swamps are the main characteristic of this region. The slope gradient is in the south-west direction.

Coastal Plain

The region spreads over the middle parts of the district, occupying Bhachau, Nakhatrana, Anjar, Lakhpat, Mundra, Mandvi and Abdasa talukas. It makes its limits with Bhuj Upland in the north, Rapar Stony Waste and Banni Lowland in the east, Gulf of Kachchh in the south and Creek Zone in the west.

The maximum altitude of the region is 161 metres above M.S.L. and the minimum elevation is between 3 to 15 metres. The slope gradient is towards the south. The soils found in the region are red sandy detaic alluvium. The geology of the region is composed of the Dwarka Beds, etc., Nari and Gaj Series, Undifferentiated Eocene Beds, Sub-Nummulitic Beds, Deccan Trap, Umia Series, Patcham, Chari and Katrol Series.

Bhuj Upland

The region spreads over the middle part of the district, occupying Bhuj, Nakhatrana, Anjar, Lakhpat, Mundra, Mandvi and Abdasa talukas. It is bounded on the north by Banni Lowland, Rann of Kachchh in the east and Coastal Plain in the south and west.

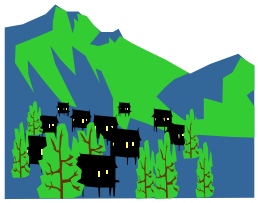

The region has the maximum elevation of 388 metres and the minimum of 30 metres above M.S.L. The entire northern upland is covered with dunes and sand hills, stony and gravel waste. The drainage pattern of the region is dendritic. Soils of the region are deep black, shallow black and alluvial. The vegetation found in this region is reserved and protected forests with dense scrubs, cactus and xerophytes. The geological structure of the region is similar to that of Coastal Plain.

Creek Zone

The region extends over the western part of the district, occupying talukas of Lakhpat and Abdasa. It is bounded on the north by Pakistan and Rann of Kachchh, Coastal Plain in the east and towards the south and west by Arabian Sea.

The region comprises of islets and islands with an elevation ranging from 5 metres to 20 metres above M.S.L. The Creeks form the dendritic pattern of drainage. The vegetation of the region is mainly Mangrove forests. Soils found in this region are deltaic alluvial. It has the geological structure of Dwarka Beds, etc., Nari and Gaj Series.

Hills :

Its hills, though of no great height, are one of the main natural features of Kachchh. The hills divided into three groups, (1)The hills of main land (2)The hills of Vagad area and (3)Rann elevation in the north. Dhinodhar is 387 metres high above the mean sea level. Dhinodhar the fabulous Kachchh volcano is one of the highest hill in the district. Varar, an isolated tabular steep sided hill, rises 273 metres. The Vagad hills have many sepeniture peaks, the main of them Adhoi with the height of 82 metres from its base of the hills that rise out of the Rann, the main is Kala Dungar, 458 metres above the Rann is the highest point in Kachchh.

Drainage:

All the rivers or streams of Kachchh start from its central portion and flow towards the sea in the south and the Great Rann in the north and the Little Rann in the south east. The Kachchh rivers are non perennial. The major rivers of Kachchh are the Kali, the Dhudud, the Malan, the Khari, Kankawati, the Kharod, the Kukmavti, the Nag mati, the Bhukhi etc.

The coastal Area

The Kachchh district has approximately a coastline of 406 km with nine ports, viz, Kandla, Tuna, Jangi, Kharirohar, Mundra, Mandvi, Jakhav, Koteshwar and Lakhpat. The coast is generally flat and broken by small and big creeks. In India there are very few natural creeks possessing water and depth. Kachchh

is fortunate to have creeks such as Kori, Baroda and Godia. The Kachchh coast can be divided into two stretches viz. One from Lakhpat to Mandvi called the Arabian sea and other from Mandvi to Shikharpur called the Gulf of Kachchh.

The Rann:-

The Rann is a salt flat. It is divided into two parts. The Great Rann to the north and the Little Rann to the east. In appearance and general character, the two parts of the Rann differ but little. Except, the four hilly elevations on the south edges of the Great Rann and plots of raised land, some of them of considerable size, the whole area is, from April to October, the season of strong south winds. And occasional rain, frequently flooded to the depth from 0.30 to 0.91 metre. The flood waters, as they dry, leave a hard flat surface covered with stone, shingle and salt. Only on some raised rocky lands where water is found and only near water there is brush wood, grass or any sign of growth.

Climate:

The climate of this district is characterised by a hot summer and dryness in the non rainy seasons. The year may be divided into four seasons. The cold season from December to February is followed by the hot season from March to May. The south-west monsoon season is from June to September and October and November form the post monsoon season.

a) Temperature :

The period from March to May is one of continuous rise in temperatures. May is the hottest month with high mean daily maximum temperature and the mean daily minimum temperature. The temperature in June is a little higher than in May. After mid-November both day and night temperature drop rapidly till January, which is the coldest month with the mean daily minimum temperature. The details of the maximum and minimum temperatures for the period ranging from 1996 to 1999 are given below.

Temperature

(in centigrade)

Name of Month	1996		1997		1998		1999	
	Max	Min	Max	Min	Max	Min	Max	Min
1	2	3	4	5	6	7	8	9
January	31.1	3.0	31.0	2.5	31.2	3.3	32.2	5.7

Source : Directorate of Economics and Statistics (Statistical Abstract),2000

b) Winds:

Winds are generally light to moderate in summer and the south-west monsoon season. They become stronger westerly to south-westerly winds prevail in the south-west monsoon season. In October winds are from directions between west and north east. In November and December winds are mainly from directions between north and east. In January and February winds are again from direction between west and north-east. In the summer season the winds are pre-dominantly from directions between south-west and north-west.

c) Rainfall:

The annual rainfall in the district is received during the south-west monsoon season from June to September, July being the month with the highest rainfall. There is large variation in the annual rainfall from year to year. Hence, scarcity conditions prevail in the district in several years. The annual rainfall of this district is 331.0 mm. in the year of 1999. Details of the monthly average rainfall of this district are given below.

Monthly Rainfall, 1995 to 1999

(In mm)

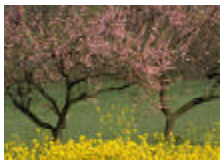

Sl. No.	Month	1995	1996	1997	1998	1999

Economic Resources:

Economic resources are an important means of subsistence for the working people of the district. The details about economic resources of important sectors are given here under in brief.

(1) Forestry:

According to the figures available from the Forest Department for the year 1999-2000, out of the total area of the district, an area of about 2,883.1 sq km is covered by forest. It accounts for 15.2 per cent of the total forest area of the state. The forest area of the district constitutes 6.3 per cent of total geographical area of the district. Among them 1,789.5 sq km are reserved forest and 1,093.6 sq km forest is unclassified forest. The chief forest products are *Gorad, Baval, Vikalo, Ingor, Saledi, Dhaveda, Sajad, Teak, Deshi babul, Arduso, Semal etc.*,

(2) Minerals and Mining:

Statement below shows production of major and minor mineral products in the Kachchh district and income from it for the years 1998-99 to 2000-01. It can be seen that lignite, china clay, bauxite and clay have been the major mineral products of the district both in terms of production and income for the year 1998-99. The production and income from china clay rose significantly during 1999-2000 and 2000-01 as compared to 1998-99. The income from the production of bauxite also rose significantly during the period 1998-99 to 2000-01. Total mineral production in the district for the years 1998-99, 1999-2000 and 2001-01 had been 6,481,043 MT, 6,775,160 MT and 6,601,728 MT respectively. Minor products were sand stone, ordinary clay, bentonite limestone, black trap, etc. Income from the total mineral production for these three years had been Rs. 531.8 lacs Rs.692.0 lacs and Rs.300.0 lacs respectively.

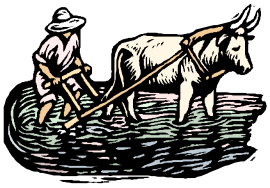

Major and Minor Mining Products & Income

Sl. No.	Products	1998-99		1999-2000		2000-01

(3) Soil and Cropping Pattern:

Soil

The soil of Kachchh can be mainly classified into (1) desert (2) alluvial sandy (3) medium black and (4) saline, alkaline. Though other types such as loamy, silty and clayey are also found at certain places. The northern part of the district is dominated by desert and sandy soils, Which are mainly Salt affected soils proceeding southwards, the interior area is composed of either sandy or medium black soils. The southern part of the district comprising the coastal area around Mandvi and Mundra has saline soils suitable for cultivation. The western part is mostly plain with some rocky patches where the soil is sandy with clay and alluvial loam in some parts. The central portion is hilly and rocky with strips of cultivable lands along the lower slopes. The soil is poor but due to better underground water current in this part the irrigation facilities are adequate. In the western part,

the soils are mostly sandy with patches of the fine sandy loams having no scope for well irrigation. The soil in Kachchh are generally poor in plant nutrients and the lime content in most of them is quite high.

Cropping Pattern:

The cropping pattern is not very satisfactory in this district. Food crops can be divided into cereals and pulses. Among cereals the main crops are jowar, bajari and wheat while among pulses moong and math are principal varieties. The food crops and non-food crops grown in the district can be grouped under two main heads Kharif and Rabi. Wheat is Rabi crop raised by irrigation. Bajari and wheat are the important crops and moong and math are important pulses in the district. The edible oil seeds grown in the district are groundnut, sesame, mustard and castor while linseed is non- edible oilseeds.

(4) Land and Land use Pattern:

The total area of the district is 45,652.0 sq km.of which 17,109.2 sq km is rural area. The classification of rural land indicates that the total irrigated area is 1,038.3 sq km and total unirrigated area is 6,257.5 sq km. The total forest area in the rural area of the district is 1,646.3 sq km. and total cultivable waste is 2,326.7 sq km. The statement below gives data regarding land and land use pattern for rural areas of Kachchh district.

Land Classification of Rural Areas

(in '00 hectares)

Sl. No.	Classification	Area as on 31.3.99
1	2	3
1	Forest	1,646.3
2	Irrigated	1,038.3
3	Unirrigated	6,257.5
4	Cultivable waste (including Gauchar and Groves)	2,326.7
5	Area not available for cultivation.	5,840.4
	Total	**17,109.2**

Source: Village Directory, 2001.

(5) Tenancy:

There was no separate Act on tenancy in the former Bombay State before 1939. There were provisions of Section 83 of Land Revenue Code and Mamlatdar Court law only. The tenant was not secured of his tenancy rights in the Act. This tenancy lease was considered yearly and had to pay tenancy as per tradition or according to the agreement made with the land owner. In order to protect the tenants, the Bombay Tenancy Act, 1939 came into force in the erstwhile Bombay State.The independence of the country, it was necessary that the country is self-sufficient in agricultural production. It can be done only when the tillers of the land should have some definite rights over the land. With a view to effect control on efficient utilization of agricultural land and also to protect the tenants further and also to accept a definite policy and view for the country on agricultural land, The Bombay Tenancy and Agricultural Land Act, 1948 was enacted and it was brought into force since then.The Act of 1948 was amended five times. An important provision of 'Farmer Day' was inserted in the Act on 1-8-1956. According to this provision, if any person legally tilled the land of other person on 01-04-1957, he was entitled to purchase the said land. Even though Gujarat State was bifurcated from Bombay State in 1960, the said act applied to it also as well.

Tenant means the person who held land on lease viz.,

(1) Tenant as per Section 4;

(2) Protected tenant

(3) Permanent tenant

(4) The person who continued to possess the land with or without the consent of the land owner after appointed date and up to specified date or it is considered that he continued the possession of the land.

As no separate data related to Tenancy for Kachchh district is available data for the state of Gujarat is discussed hereunder.

In the state of Gujarat, in all 1,049,056.4 hectares of land have been released and distributed to total 1,278,125 beneficiaries permanently by now under the The Bombay Tenancy and Agricultural Land Act, 1948. Among the beneficiaries 177,171 were Scheduled Castes, 258,132 were Scheduled Tribes and 842,822 were other type of beneficiaries. There is no beneficiaries in the district under this act.

(6) Agriculture:

a) Area under Major Crops:

The statement below gives area under major crops for the years 1993-94 and 1997-98 for Kachchh district. It can be observed that Bajri, Wheat, Cotton, Groundnut and Pulses are major crops in the district in terms of area sown. It can be observed that area under all the crops have increased during 1997-98 as compared to 1993-94.

Area under Major Crops

(in '00'hectares)

Sl. No.	Name of Crop	Area under Major Crops	
		1993-94	1997-98
1	2	3	4
1	Wheat	105	126
2	Bajri	894	1,149
3	Other cereals	0	0
5	Gram	-	1
6	Other pulses	712	1,040
7	Sugarcane	2	2
8	Groundnut	631	980
9	Cotton	298	619

Source: Season and Crop Report, Directorate of Agriculture,1999.

b) Average Yield per Hectare:

Data for average yield per hectare for the years 1993-94 and 1997-98 with respect to different crops in Kachchh district is given in the statement below which shows that, the average yield per hectare for Wheat, Bajri and Sugarcane for the year 1997-98 were higher as compared to 1993-94.

Average Yield per Hectare

(In kgs.)

Sl. No.	Name of Crop	Average yield per hectare	
		1993-94	1997-98
1	2	3	4
1	Bajri (Kharif)	267	1,174
2	Bajri(Summer)	1,882	2,025
3	Wheat	2,625	3,001
4	Groundnut	1,582	1,494
5	Cotton	270	274
6	Sugarcane	6,200	7,200

Source: Season and Crop Report, Directorate of Agriculture, 1999

(7) Irrigation:

Source of Irrigation:

The area irrigated by different sources in the district are presented below for the year 1993-94 and 1996-97 which indicate that wells are the main source of irrigation in the district. The gross area irrigated for all the sources taken together was 193,100 hectares and 224,600 hectares respectively for the years 1993-94 and 1997-98.

Area under Irrigation by Source

(In '00 hectares)

Sl. No.	Source of irrigation	1993-94		1996-97	
		Net	Gross	Net	Gross
1	2	3	4	5	6
1	Govt. Canals	67	99	13	18
2	Tanks	-	-	-	-
3	Wells	822	1,134	1,054	1,332
	Total	**889**	**1,233**	**1,067**	**1,350**

Source: Season and Crop Report, Directorate of Agriculture, 1999

The above figures indicate that wells is the main source of irrigation in the district. Next in order is the Government canals.

(8) Animal Husbandry:

a) Livestock :

Cattle wealth occupies a pivotal place in the rural economy of the district. According to the livestock censuses of 1992 and 1997, the live stock population in the district is indicated below..

Livestock

Sl. No.	Livestock	Year	
		1992	1997
1	2	3	4
A	**Total Livestock**	**1,868,954**	**1,713,558**
1	Cattle (Cross breed)	1,134	2,947
	(a) Male over 2.5 years	115	134
	(b) Female over 2.5 years	540	1,333
	(c) Young stock	479	1,480

Sl. No.	Livestock	Year 1992	Year 1997
1	2	3	4
2	Cattle (Indigenous)	343,983	371,884
	(a) Male over 3 years	64,061	51,269
	(b) Female over 3 years	153,179	190,925
	(c) Young stock	126,743	129,690
3	Buffaloes	578,352	164,928
	(a) Male over 3 years	2,292	3,688
	(b) Female over 3 years	76,140	10,1050
	(c) Young stock	499,920	60,190
4	Sheep	475,709	614,831
5	Goats	437,341	467,985
6	Horses and ponies	1,490	2,483
7	Camels	17,716	17,381
8	Pigs	5,228	4,276
9	Other livestock	52,613	66,843
B	**Poultry**	**25,787**	**14,776**

Source: (1) Directorate of Economics and Statistics, Livestock Census 1992
(2) Directorate of Animal Husbandry, Livestock Census, 1997

Statement shows that the livestock in the district have decreased from 1,868,954 in1992 to 1,713,558 in 1997. It is seen from the statement that cattle (indigenous), buffaloes and goats form the major portion of the total livestock in the Kachchh district for the years 1992 and 1997. In the year 1992 there were 343,983 cattle (indigenous), which has rose to 371,884 in the year 1997.Buffaloes were 578,352 in the year 1992 which has come down to 164,928. Sheep, Goats, Horses and Ponies and Other Livestock has increased significantly. Poultry has decreased from 25,787 in 1992 to 14,776 in 1997.

b) Agricultural Implements:

Statement below gives details of agricultural implements used during the years 1992 and 1997 in the Kachchh district.

Agricultural Implements

Sl. No.	Name of Agricultural Implements	Year 1992	Year 1997
1	2	3	4
1	Plough	43,234	43,609
	(a) Wooden	28,042	23,508
	(b) Iron	15,192	20,101
2	Carts	25,906	18,101
3	Oil engines	7,463	5,071
4	Electric Motors & Pumps	9,478	4,457
5	Tractors	2,879	3,641
6	Wheat Thresher	493	— -

Source: (1) Directorate of Economics and Statistics, Livestock Census1992
(2) Directorate of Animal Husbandry, Livestock Census, 1997

It can be seen that traditional implements like wooden plough have decreased from 28,042 in 1992 to 23,508 in 1997.Use of tractors have increased from 2,879 in 1992 to 3,641 in 1997. Use of electric motors & pumps and oil engines has decreased during the year 1997 as compared to the year 1992.

(9) Fisheries:

One of the most important gulfs of India, the Gulf of Kachchh surrounds the district providing it with some of the richest fishing ground, containing such important species as pomfrets, prawns, Bombay Ducks etc.

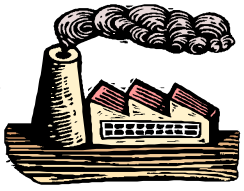

Simultaneously it presents optimum conditions for the growth and sustenance of some of the most valuable species of fish like pearl oysters, window pane oysters, chanks and other shell fish. The district has the advantage of possessing a vast sea coast extending over nearly 406 kms. having one major port, 2 intermediate ports and three minor ports. The fisheries of Kachchh can be broadly divided into three categories viz. (1) Marine (2) Inland and (3) Back water fisheries. Fish culture activities in the district have been under taken in the coastal as well as inland waters.

Fisheries Activities

Sl. No.	Item	Year 1992	Year 1997
1	2	3	4
1	Total Number of Fishing boats	1,192	1,198
2	Total Number of Fishing nets	81,843	81,843
3	Fish production (In tonnes)	73,040	70,950
4	No of active fishermen	5,973	5,973
5	Fishermen primary co-operative Societies (Number.)	17	17
6	Membership of fishermen's primary co-operative Societies	1,900	1,900
7	Paid up share capital of fishermen's co-operative societies (In'00 Rs.)	2,690.37	2,690.37

Source: Commissionerate of Fisheries, 2000

(10) Industry:

The total numbers of registered factories and average number of daily workers employed by major groups of industries for the year 1998 and 1999 are shown in the following statement.

Distribution of Important, Industrial Establishments by Major Industrial Group

Sl. No.	Major Group of NIC (National Industrial Classification)	Description of Manufacture	As on 31.12.98		As on 31.12.99	
			Number of Establishment	Average Number of Persons per day	Number of Establishment	Average Number of Persons per day
1	2	3	4	5	6	7
1	20-21	Food products	32	2,288	39	1,574
2	22	Beverages tobacco and related products	1	200	1	162
3	23	Cotton textiles	9	422	9	285
4	24	Wool, silk and man made fibre textiles	-	-	0	0
5	25	Jute and other vegetable fibre textiles(except cotton)	-	-	0	0
6	26	Textile products (incl wearing apparel)	34	2,046	32	2,354
7	27	Wood and wood products Furnitures and fixtures	39	527	44	558
8	28	Paper and paper products and printing, publishing and allied industries	7	155	8	211
9	29	Leather and products of leather , fur and substitutes of leather	-	-	0	0
10	30	Basic chemical and chemical products (except products of petroleum and coal)	39	3,416	39	3,034
11	31	Rubber, plastic petroleum and coal products processing and nuclearfuels.	6	132	8	192
12	32	Non metallic mineral products	19	558	19	526
13	33	Basic metal and alloy industries	2	110	2	101
14	34	Metal products and parts except machinery and equipments.	12	524	11	363
15	35-36	Machinery and equipment other than transport equipment (scientific equipment, photographic/ cinematographic equipment and watches and clocks is classified in division 38)	4	261	4	223
16	37	Transport equipment and parts	-	-	0	0
17	38	Other manufacturing industries	3	85	3	103
18	39	Repairs of capital goods	-	-	0	0
19	40-43	Electricity Gas and water Generation transmission distribution water works supply etc	1	900	1	668
20		Other Industries	36	1,635	40	1,903
		Total	**244**	**13,259**	**260**	**12,257**

Source: Chief Inspector of Faetories, 2000

The data above shows that among registered establishments in the year 1999 the four most important establishments were (1) Basic chemical and chemical products (except products of petroleum and coal) (2) Textile products (including wearing apparel) (3) Wood and wood products Furnitures and fixtures.

(11) Trade and Commerce:

This category includes wholesale and retail trade of all kinds and other commercial activities like financial, insurance, real estate, business services and legal services rendered by advocate barristers, Pleaders etc. Provision of finance is an important factor in the socio-economic growth of district. The details of most important commodities manufactures and exported out of the towns of the district is given in Table 47. This table lists main items produced in each town of the district and main items exported from the town. The district is well known for cotton, Printed cloth, Groundnut oil, Bajri, Salt, Fertiliser, Stainless steel and Bricks. The main export items of the district are Batique print cloth, Handloom cloth, Cotton, Bajri, Groundnut oil, Salt, Penknives etc. The main agency to provide money for development activities in the district are the commercial bank and co-operative banks, the details banking institutions in rural area are given below.

Villages Having Banking Facility

Sl. No.	Name of Taluka	Number of Villages where Banking facility is Available	Number of Banking Institutions	
			Commercial	Co-operative
1	2	3	4	5
1	Lakhpat	4	4	1
2	Rapar	7	6	4
3	Bhachau	6	6	0
4	Anjar	8	9	0

Source: Village Directory, 2001

Banking:

Statement below gives occupationwise classification of outstanding credit of commercial banks, as on 31st March 1999 for Kachchh district and the Gujarat state. It can be seen that the outstanding credit for Kachchh district was Rs.4,729,494 with number of accounts being 54,477. It can be seen that direct finance for occupations under agriculture had outstanding credit of Rs.714, 409 in 14,176 accounts while under Industry it was Rs.2, 211,690 thousands in 6,799 accounts.

Occupation wise classification of outstanding credit of Scheduled Commercial Banks (At the end of March, 1999)

(Amount In Rs. 000)

Sl. No.	Occupation	Gujarat State		Kachchh District	
		Number of Accounts	Outstanding Credit	Number of Accounts	Outstanding Credit
1	2	3	4	5	6

Source: Banking Statistics, Basic Statistical Returns, Volume 28, March, 1999.

(12) Transport and Communication:

Transport and Communication facilities are considered as administrative necessity as well as a public convenience. Moreover; a well-knit transportation system is a prerequisite for the social and economic development of any district.

a) Road :

The linking of one place with other by road is very essential to provide good transport system. According to the classification of road, made by the Indian Roads Congress, road length in the district by category is given below for the years 1998-99, and 1999-2000 for Kachchh district. This statement includes the information of state highways, district roads and village roads.

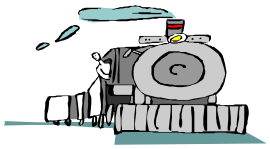

Road Length of Different Category

Sl. No	Year	Type of Road (in Kms.)										
		Highways				District Roads				Village Roads		Total
		National		State		Main		Other				
		GOVT DN	PNCH DN	GOVT DN	PNCH DN	GOVT. DN	PNCH DN	GOVT DN	PNCH DN	GOVT DN	PNCH DN	
1	2	3	4	5	6	7	8	9	10	11	12	13
1	1998-1999	165	0	1,893	5	29	808	108	578	186	1,732	5,504
2	1999-2000	263	0	1,822	5	22	802	140	578	199	1,734	5,565

Source: Roads and Buildings Department, Gandhinagar, 2001
Note: GOVT. DN = Government Division.
PNCH. DN = Panchayat Division

According to 2001 census, 688 villages and all the towns are connected with pucca roads and 336 villages are conncted with kachcha roads in the kachchh district.

b) Railway:

Five towns and 27 villages of the district have railway station facilities in Kachchh district.

c) Ports:

Ports play a very important part in the development of trade, commerce and industries and act as a catalyst for the development of coastal areas and hinder land. Ports also provide considerable employment opportunities in their immediate hinder land and help in the development of ports based industries such as oil refineries, chemical fertilizer, power plants etc. Thus, due to the location and other advantages, the ports in Kachchh constitute an important infrastructure facility for the development of maritime economy of the district, state and the country as a whole and also stimulates growth in coastal areas.

d) Posts and Telegraphs:

The following statement shows the number of villages in the district having post, telegraph and phone facilities. As regards to rural areas of the district, the facility of post, telegraph and telephone is available respectively in 487,14 and 538 villages.

Communication Facilities

Sl. No.	Type of Communication Amenities	Number of Villages having facities
1	2	3
1	Post Offices	487
2	Telegraph Offices	14
3	Telephone	538

Source: Village Directory, 2001

e) State Road Transport :

Out of 950 villages in the Kachchh district, 688 villages are covered by Gujarat State Road Transport Corporation where bus transport facility is provided.

Number of Villages having bus Facility

Sl. No.	Year	Number of villages
1	2	3
1	1998-99	688

Source: Village Directory, 2001

(13) Electricity :

Electricity is the chief necessity for the economic development of the district. The main source for power supply in the district is Gujarat Electricity Board. Out of 886 inhabited villages, 863 villages are electrified.

(14) Gram Panchayats, its composition, jurisdiction and role in the Development of Village and its Economy:

The system of Panchayati Raj was introduced in the year 1963 in Gujarat State. Under this set up, the three tier system was introduced namely, The District Panchayat, The Taluka Panchayat and The Gram Panchayat.

Gram Panchayat is an important institution of self-government. The Gram Panchayat is formed for a village or a group of villages. The Gram Panchayat is constituted for a local area with the population of less than 10,000. Such local area may be revenue village or a group of revenue villages or hamlets forming part of a revenue village or such other administrative unit or part of thereof. The number of members of Gram Panchayat varies from 9 to 15. The tenure of Gram Panchayat is of five years. The people of village elect Sarpanch and Vice-Sarpanch (Up-Sarpanch) and other members of the Panchayat. Various Committees like; Social Justice Committee and Standing Committee are formed. In the year 1993 Government of India enacted 73rd Constitutional Amendment regarding provisions of Panchayati Raj and implementation of this Act in Gujarat started from 15th April 1994. By this constitutional amendment, Panchayats are given constitutional status. Regular and timely election, participation of women and backward classes, formation of separate State Election Commission and rotation system in electing the heads of the various committees are other significant amendments in the act. Decentralised planning process and active participation of people is the soul of the Panchayati Raj Act. The powers for decentralised planning, implementation and development are delegated to the Panchayats.

The primary functions of the District/Taluka Panchayats are providing facilities for primary education, health, drinking water, electricity, constructions and maintenance of roads, bridges etc., maintenance of Gauchars, organising relief work at the time of scarcity and drought situation, sanitation and social welfare. Arrangements for housing facilities for below poverty line people and rural devlopment schemes are implemented by panchayats. Gram Panchayats also implement important programmes like, 'food for work' and other programmes beneficial for the local people. Thus, Panchayats play an important role in the development of village and its economy. There are 13,761 Gram Panchayats in Gujarat State. Out of 886 inhabited villages in Kachchh district there are197 group Gram Panchayats and 689 independent Gram Panchayats.

(v) Census Concepts :

Building :

A 'building' is generally a single structure on the ground. Sometimes it is made up of more than one component unit which are used or likely to be used as dwellings (residences) or establishments such as shops, business houses, offices, factories, workshops, work sheds, schools, places of entertainment, places of worship, godowns, stores, etc. It is also possible that buildings which have component units may be used for a combination of purposes such as shop-cum-residence, workshop-cum-residence office-cum-residence, etc.

Usually a structure will have four walls and a roof. But in some areas the very nature of construction of houses is such that there may not be any wall. Such is the case of conical structures where entrance is also provided but they may not have any walls. Therefore, such of the conical structures are also treated as separate building.

Permanent Houses :

Houses, the walls and roof of which are made of permanent materials. The Material of wall can be anyone from the following namely Galvanized iron sheets or other metal sheets, Asbestos sheets, burnt bricks, stonnes or concrete. Roof may be made of from any one of the following materials namely tiles, slate, galvanized iron sheets, metal sheets, asbestos sheets, bricks, stonnes or concrete.

Semi-permanent Houses :

Houses in which either wall or roof is made of permanent materials and the other is made of temporary material.

Temporary Houses :

Houses in which both walls and roof are made of materials, which have to be replaced frequently. Walls may be made from any one of the following temporary materials, namely, grass, thatch, bamboo, plastic, polythene, mud, unburnt bricks or wood. Roof may be made from any one of the following temporary materials, namely, grass, thatch, bamboo, wood, mud, plastic or polythene.

Dwelling Room :

A room is treated as a dwelling room if it has walls with a doorway and a roof should be wide and long enough for a person to sleep in, i.e., it should have a length of not less than 2 meters and a breadth of at least 1.5 meters and a height of a 2 meters. A dwelling room would include living room, bedroom, dining room drawing room study room, servants room and other habistatement rooms. Kitchen, Bathroom, latrine, Store-room, passage-way and verandah which are not normally usable for living are not considered as dwelling rooms. A room used for multipurpose such as sleeping, sitting, dining, storing, cooking, etc., is regarded as a dwelling room. In a situation where a census houses is used as a shop or office. etc., and the household also stays in it then the room is not considered as a dwelling room. But if a garage or servant quarter is used by a servant and if she/he also lives in it as a separate household then this has been considered as a dwelling room available to the servants household tent or conical shaped hut if used for living by any household is also considered as dwelling room.

A dwelling room which is shade by more than one household has not been counted for any of them. If two household have a dwelling room each but in addition also share a common dwelling room. Then the common room has not been counted for either or of the household.

Census House :

A 'Census House' is a building or part of a building used or recognized as a separate unit because of having a separate main entrance from the road or common courtyard or, staircase, etc. It may be occupied or vacant. It may be used for a residential or non-residential purpose or both.

In certain peculiar situations, the manner in which buildings and census houses were identified for numbering in the field by the enumerators is described hereunder.

Sometimes a series of a different buildings are found along a street which are joined with one another by common walls on either side looking like a continuous structure. These different units are practically independent of one another and are likely to have been built at different times and owned by different persons. In such cases, though the whole structure with all the adjoining units apparently appears to be one building, each portion was treated as a separate building and its constituent units as separate census houses.

On the other hand, one may come across cases, particularly in large cities of multi-storied ownership flats. In these cases while the structure looks like one building, different persons own the flats. In case of such multi-storied structures, having a number of flats owned by different persons, the entire structure was treated as one building and each flat as a separate census house.

If within a large enclosed area, there are separate buildings owned by different persons then each such building is treated as a separate building. There can be a situation where within an enclosed compound there are separate buildings owned by an undertaking or company or even government that are actually in occupation of different persons. For example, Indian Oil Corporation colony where the buildings are owned by the Corporation but these are in occupation of their employees. Each such building was treated as a separate building. But if in any one of these buildings there were flats in occupation of different households, each such flat was reckoned as a separate census house.

Sometimes if becomes difficult to apply the definition of census house strictly in certain cases. For example, in an urban area, if a flat has five rooms, each room having direct entrance from the common staircase or courtyard. By definition, this has to be

treated as five census houses. If all these five rooms are occupied by a single household it was not realistic to treat them as five census houses. In such a case, 'singleness' of use of these rooms along with the main house should be considered and the entire flat was treated as one census house. On the other hand, if two independent households occupy these five rooms, the first household living in 3 rooms and the second household occupying 2 rooms, then considering the use, the first three rooms together were treated as one census house and the remaining rooms as another census house. But if each room was occupied by an independent household, then each such room was treated as a separate census house.

In case of hostels, hotels, etc., even if the door of each room in which an inmate lives opens to a common verandah, staircase, courtyard or a common room, as it happens almost invariably, the entire hostel/ Hotel building was treated as one census house. but if such hostels/ hotels have out- houses or other structures used for different purposes or the same purpose, then each such structure attached to the main hostel/hotel was treated as a separate census house.

In some parts of the country, in rural areas, the pattern of habitation is such that a group of huts, located in a compound, whether enclosed or unenclosed, is occupied by one household. While the main residence may be located in one hut, other huts may be used for sleeping, as a kitchen, bath room, baithak, etc. Though each of the huts was a separates structure, they form a single housing unit and therefore, have to be treated collectively as one building and one census house. If some of the huts are used by one household and the others by a second household as residence, then the two groups of huts were treated as separate census houses. However, if there were also other huts in the compound used for other purposes and not as part of the household's residence such as, cattle shed, work shed, etc., these were treated as separate census houses.

On the other hand, in urban areas, where more than one structure within an enclosed or open compound (premises) belonging to the same person, e.g., the main house, the servant's quarter, the garage, etc., only one building number was given for this group and each of the constituent a separate census house number.

Only cases where a structure with roof and pillars has come up was treated as a building.

Village :

The basic unit for rural areas is the revenue village, which has definite surveyed boundaries. The revenue village may comprise of one or more hamlets but the entire village is treated as one unit for presentation of data.

In unsurveyed areas, like villages within forest areas, each habitation area with locally recognized boundaries is treated as one village.

Town/Urban Area :

The following areas are treated as towns/urban areas :

(a) All places with a municipality, municipal corporation, cantonment board or notified town area committee, etc.

(b) All other places which satisfy or are expected to satisfy the following criteria simultaneously

  (i) A minimum population of 5,000;

  (ii) At least 75 per cent of the male working population engaged in non-agricultural pursuits; and

  (iii) A density of population of at least 400 per square kilometre (1,000 per square mile).

City :

Towns with population of 1,00,000 and above are called cities.

Urban Agglomeration :

An Urban Agglomeration is a continuous urban spread constituting a town and its adjoining urban outgrowths (OGs) or two or more physically contiguous towns together and any adjoining urban outgrowths of such towns. In some cases railway colonies, university campuses, port areas, etc., may come up near a city or statutory town outside its statutory limits but within the revenue limits of a village or villages contiguous to the town or city. Each such individual area by itself may not satisfy the minimum population limit to qualify it to be treated as an independent urban unit but may deserve to be clubbed with the town as a continuous urban spread.

For the purpose of delineation of Urban Agglomerations during Census of India 2001, following criteria are taken as pre-requisites:

(a) The core town or at least one of the constituent towns of an urban agglomeration should necessarily be a statutory town; and

(b) The total population of all the constituents (i.e., towns and outgrowths) of an Urban Agglomeration should not be less than 20,000 (as per the 1991 Census).

With these two basic criteria having been met, the following are the possible different situations in which Urban Agglomerations would be constituted:

i) a city or town with one or more contiguous outgrowths;

ii) two or more adjoining towns with their outgrowths; and

iii) a city and one or more adjoining towns with their outgrowths all of which form a continuous spread.

Household :

A 'household' is usually a group of persons who normally live together and take their meals from a common kitchen unless the exigencies of work prevent any of them from doing so. Persons in a household may be related or unrelated or a mix of both. However, if a group of unrelated persons live in a census house but do not take their meals from the common kitchen, then they are not constituent of a common household. Each such person was to be treated as a separate household. The important link in finding out whether it was a household or not was a common kitchen. There may be one member households, two member households or multi-member households.

Institutional Households :

A group of unrelated persons who live in an institution and take their meals from a common kitchen is called an Institutional Household. Examples of Institutional Households are boarding houses, messes, hostels, hotels, rescue homes, jails, ashrams, orphanages, etc. To make the definition more clearly perceptible to the enumerators at the Census 2001, it was specifically mentioned that this category or households would cover only those households where a group of unrelated persons live in an institution and share a common kitchen.

Houseless Household :

Households who do not live in buildings or census houses but live in the open on roadside, pavements, in hume pipes under flyovers and staircases or in the open in places of worship, mandaps, railway platforms, etc., are treated as Houseless Household.

Scheduled Castes and Scheduled Tribes :

Article 341(1) of the Constitution provides that the President may, with respect to any State or Union territory, specify the castes, races or tribes or parts of or groups within castes, races or tribes which shall for the purposes of the Constitution be deemed to be Scheduled Castes in relation to that State or Union territory. Article 342(1) similarly provides for specification of tribes or tribal communities or parts of or groups within tribes or tribal communities, which are to be deemed for the purposes of the Constitution to be Scheduled Tribes in relation to the various States and Union territories. In pursuance of these provisions, the list of Scheduled Castes and / or Scheduled Tribes are notified for each State and Union territory and are valid only within the jurisdiction of that State or Union territory and not outside.

It is important to mention here that under the Constitution (Scheduled Castes) Order, 1950, no person who professed a religion different from Hinduism was deemed to be a member of a Scheduled Caste in addition to every member of the Ramdasi, Kabirpanthi, Majhabi or Sikligar caste resident in Punjab or Patiala and East Punjab States Union were in relation to that State whether they professed the Hindu or the Sikh religion. Subsequently, in September 1956, by an amendment, the Presidential Order of 1950 and in all subsequent Presidential Orders relating to Scheduled Castes, the Hindu and the Sikh religions were placed on the same footing with regard to the specification of Scheduled Castes. Later on, as per the amendment made in the Constitution (Scheduled Castes) Order 1990, the Hindu, the Sikh and the Buddhist were placed on the same footing with regard to the recognition of the Scheduled Castes.

The lists containing the names of the Scheduled Castes and the Scheduled Tribes applicable for the Census of India 2001 in the State is given below.

List of Scheduled Castes :

1. Ager
2. Bakad, Bant
3. Bawa-Dedh, Dedh Sadhu
4. Bhambi, Bhambhi, Asadaru Asodi, Chamadia, Chamar Chambhar, Chamgar, Haralayya, Harali, Khalpa, Machigar, Mochigar, Madar, Madig, Mochi, Nalia, Telegu Mochi, Kamati Mochi, Ranigar, Rohidas, Rohit, Samgar.
5. Bhangi, Mehtar, Olgana, Rukhi, Malkana, Halalkhor, Lalbegi, Balmiki, Korar, Zadmalli.
6. Chalvadi, Channayya
7. Chenna Dasar, Holaya Desar
8. Dangashia
9. Dhor, Kakkayya, Kankayya
10. Garmatang
11. Garoda, Garo
12. Halleer
13. Halsar, Haslar, Hulasvar, Halasvar
14. Holar, Valhar
15. Holaya, Holer
16. Lingader
17. Mahar, Taral, Dhegu Megu
18. Mahyavansi, Dhed, Dhedh, Vankar, Maru Vankar, Antyaj
19. Mang, Matang, Minimadig
20. Mang-Garudi
21. Meghaval, Meghwal, Menghvar
22. Mukri
23. Nadia, Hadi
24. Pasi
25. Senva, Shenva, Chenva, Sedma, Rawat
26. Shemalia
27. Thori
28. Tirgar, Tirbanda
29. Turi
30. Turi Barot, Dedh Barot

List of Scheduled Tribes :

1. Barda
2. Bavacha, Bamcha
3. Bharwad (In the Nesses of the forests of Alech, Barada and Gir)*
4. Bhil, Bhil Garasia, Dholi-Bhil, Dungri Bhil, Dungri Garasia, Mewasi Bhil, Rawal Bhil, Tadvi Bhil, Bhagalia, Bhilala, Pawra, Vasava, Vasave.
5. Charan (In the Nesses of the forests of Alech, Barada and Gir) *
6. Chaudhri (In Surat and Valsad districts)
7. Chodhara
8. Dhanka, Tadvi, Tetaria, Valvi
9. Dhodia
10. Dubla, Talavia, Halpati
11. Gamit, Gamta, Gavit, Mavchi, Padvi
12. Gond, Rajgond
13. Kathodi, Katkari, Dhor Kathodi, Dhor Katkari, Son Kathodi, Son Katkari
14. Kokna, Kokni, Kukna
15. Koli (In Kachchh district)
16. Koli Dhor, Tokre Koli, Kolcha, Kolgha
17. Kunbi (In The Dangs District)
18. Naikda, Nayaka, Cholivala Nayaka, Kapadia Nayaka, Mota Nayaka, Nana Nayaka
19. Padhar
20. Paradhi (In Kachchh district)
21. Pardhi, Advichincher, Phanse Pardhi (Excluding Amreli,Bhavnagar, Jamnagar, Junagadh, Kachchh, Rajkot and Surendranagar districts)
22. Patelia
23. Pomla
24. Rabari (In the Nesses of the forests of Alech, Barada and Gir)*
25. Rathawa
26. Siddi (In Amreli, Bhavnagar, Jamnagar, Junagadh, Rajkot and Surendranagar Districts)
27. Vaghri (in Kachchh district)
28. Varli
29. Vitola, Kotwalia, Barodia

* The area comprised of Jamnagar and Junagadh districts.

Language and Mother Tongue :

As per the census concept, each language is a group of mother tongues. The census questionnaire collects information on the mother tongue of each person and mother tongue is defined as the language spoken in childhood by the person's mother to the person. If the mother died in infancy, the language mainly spoken in the person's home in childhood will be the mother tongue. In the case of infants and deaf mutes, the language usually spoken by the mother is considered as mother tongue. It is not necessary that the language spoken as mother tongue should have a script. The mother tongues returned by the respondents in census are classified and grouped under appropriate languages according to their linguistic characteristics.

Literate :

A person age 7 years and above who can both read and write with understanding in any language is taken as literate. A person who can only read but cannot write is not literate. It is not necessary that to be considered as literate, a person should have received any formal education or passed any minimum educational standard. Literacy could also have been achieved through adult literacy classes or through any non-formal educational system. People who are blind and can read in Braille are treated as literates.

Literacy Rate :

Literacy rate of the population is defined as the percentage of literates in the age group seven years and above. For different age groups the percentage of literates in that age group gives the literacy rate.

Educational Level :

The highest level of education a person has completed.

Work :

Work is defined as participation in any economically productive activity with or without compensation, wages or profit. Such participation may be physical and/or mental in nature. Work involves not only actual work but also includes effective supervision and direction of work. It even includes part time help or unpaid work on farm, family enterprise or in any other economic activity. All persons engaged in 'work' as defined above are workers. Persons who are engaged in cultivation or milk production even solely for domestic consumption are also treated as workers.

Reference period for determining a person as worker and non-worker is one year preceding the date of enumeration.

Main Worker :

A person who has worked for major part of the reference period (i.e. six months or more during the last one year preceding the date of enumeration) in any economically productive activity is termed as "Main worker".

Marginal Worker :

A person who worked for less than six months of the reference period (i.e. in the last one year preceding the date of enumeration) in any economic activity is termed as 'Marginal- worker'

Non Worker :

A person who has not worked at all in any economically productive activity during the reference period (i.e. last one year preceding the date of enumeration) is termed as 'Non worker'.

Cultivator :

For purposes of the Census a person is classified as cultivator, if, he or she is engaged in cultivation on land owned or held from government or held from private persons or institutions for payment in money, kind or share. Cultivation includes effective supervision or direction in cultivation.

A person who has given out her/his land to another person or persons or institution(s) for cultivation for money, kind or share of crop and who does not even supervise or direct cultivation in exchange of land, is not treated as cultivator. Similarly, a person working on another person's land for wages in cash or kind or a combination of both (agricultural laborers) is not treated as cultivator.

Cultivation involves ploughing, sowing, harvesting and production of cereals and millet crops such as

wheat, paddy, jowar, bajra, ragi, etc., and other crops such as sugarcane, tobacco, ground-nuts, tapioca, etc., and pulses, raw jute and kindred fiber crop, cotton, cinchona and other medicinal plants, fruit growing, vegestatement growing or keeping orchards or groves, etc. Cultivation does not include the following plantation crops – tea, coffee, rubber, coconut and betel-nuts (area).

Agricultural Labourer :

A person who works on another person's land for wages in money or kind or share is regarded as an agricultural laborer. She/he has no risk in the cultivation, but merely works on another person's land for wages. An agricultural laborer has no right of lease or contract on land on which she/he works.

Household Industry Worker :

Household industry is defined as an industry conducted by the head of the household herself/himself and or by the members of the household at home or within the village in rural areas and only within the precincts of the house where the household lives in urban areas. The larger proportion of workers in household industry should consist of members of the household including the head. The industry should not be run on the scale of a registered factory which would qualify or has to be registered under the Indian Factories Act and should be engaged in manufacturing, processing, servicing and repairs of goods.

It does not include professions such as a pleader, Doctor, Musician, Dancer, Waterman, Astrologer, Dhobi, Barber, etc. or merely trade or business, even if such professions, trade or services are run at home by members of the household.

Other Worker :

A person who has been engaged in some economic activity during the reference period but not as a cultivator or agricultural laborer or in Household Industry is termed as an 'Other-Worker (OW)'. The type of workers that come under this category of 'OW' include all government servants, municipal employees, teachers, factory workers, plantation workers, those engaged in trade, commerce, business, transport, banking, mining, construction, political or social work, priests, entertainment artists, etc. In effect, all those workers other than cultivators or agricultural laborers or household industrial workers, are 'Other Workers'.

Work Participation Rate :

Percentage of workers (main + marginal) to total population

Population Density :

Population density is the number of persons inhabited per square kilometer of the area.

Age :

Age is measured in terms of the completed number of years.

Sex Ratio :

Numbers of females per 1000 males in a population.

(vi) Non Census Concepts :

Improved Drinking Water :

If the household had access to drinking water supplied from a tap, hand pump, tube well or well (protected or covered) situated within or outside the premises, it is considered as having access to improved drinking water.

System of Sewerage :

Generally, a sewerage system would mean a network of mains and branches of underground conduits for the conveyance of sewerage to the point of disposal. Sewers that carry only household and industrial wastage are called separate sewers; those that carry storm water from roofs, streets and other surfaces are known as storm water drains, while those carrying both sewage and storm water are called combined sewers. However, in some towns, which are, not provided with such underground sewerage system, it is served by open surface drain, box drain, silk pattern drain, etc., in these towns.

Type of Latrine and Method of Disposal of Night Soil :

There are three prevalent systems of disposal of human wastes, viz.(i) underground sewerage, (ii) sanitary water flush latrines with individual disposal

systems, like septic tank, leaching cess pool and collecting well, and (iii) dry type of latrines with manual scavenging.

The system of underground sewerage provides for the street sewerage with which are connected the sanitary latrines constructed in the houses having water closets and fitted with flushing cistern (or hand flushing). Through this sewer the faucal matter is transported without the need for scavenging. This system generally exists in cities and big towns.

Where the streets sewer does not exist these sanitary water flush latrines are connected to a local septic tank with a sub-soil dispersion system or a leaching pit. Here the liquid wastes from the water closet is disposed of locally in leaching pit, a septic tank with a soil dispersion system is constructed. This dispersion requires an optimum travel through the pores of the soil, which renders the harmful liquid bacterially innocuous by the slow process of filtration through the soil traversed.

Where the soil is impermeable, collecting wells are constructed and the sanitary water flush latrines are connected with them. These wells are cleaned at periodic intervals by a suistatement device. The dry type of latrines are of service type latrines from where human excreta is removed by scavengers from house to house, in most cases carrying it on their heads or shoulders or in baskets with handle or wheel barrows. These are then collected in bullock carts or trucks or tractors and trolleys for being carried to the dumping grounds.

Fertility :

In demography, the word fertility is used in relation to the actual production of children or occurrence of births specially lives births. Fertility is a measure of rate at which population adds to itself by births and normally assessed by relating the number of births to a full or part of the population, such as number of married women or number of women of child bearing age. The definitions of the terminology used in computing different fertility rates are mentioned below.

Crude Birth Rate (CBR) :

Ratio of the numbers of live births in a year to the mid year population. (normally expressed per 1,000 population).

$$CBR = \frac{\text{Number of live births During the year}}{\text{Mid-year population}} \times 1{,}000$$

Crude Death Rate (CDR) :

Ratio of the numbers of deaths in a year to the mid year population, normally expressed per 1,000 population.

$$CDR = \frac{\text{Numbers of deaths during the year}}{\text{Mid –year Population}} \times 1{,}000$$

Natural Growth Rate (NGR) :

Natural Growth rate is obtained as the difference between crude birth rate and crude death rate in the absence of migration.

$$NGR = CBR - CDR$$

Age - Specific Fertility Rate (ASFR) :

Number of live births in a year to female population in any specified age group normally expressed per 1,000 women.

$$ASFR = \frac{\text{Numbers of live births in a particular age group}}{\text{Numbers female population of same specified age group}} \times 1{,}000$$

Age - Specific Marital Fertility Rate (ASMFR) :

Number of live births in a year to married female population in any specified age group normally expressed per 1,000 married women.

$$ASMFR = \frac{\text{Number of live births in a particular age group}}{\text{Mid-year married female population of the same age group}} \times 1{,}000$$

General Fertility Rate (GFR) :

Number of live births per 1,000 women in the reproductive age-group (15-49) years in a given year.

$$GFR = \frac{\text{Number of live births in a year}}{\text{Mid-year female population in the age-group (15-49) years}} \times 1{,}000$$

General Marital Fertility Rate (GMFR) :

Number of live births per 1,000 married women in reproductive age-group (15-49) years in a given year.

$$GMFR = \frac{\text{Number of live births in a year}}{\text{Mid-year married female population in the age group (15-49) years}} \times 1{,}000$$

Total Fertility Rate (TFR) :

It is obtained as the total of the age specific fertility rates (number of children born per woman of the particular age) for the entire reproductive age span. It provides the average number of children that will be born to a woman under the fertility levels indicated by the age specific fertility rates assuming that there is no mortality of women till the completion of reproductive period.

$$TFR = \frac{5 \times \sum_{15\text{-}19}^{45\text{-}49} ASFR}{1{,}000}$$

Total Marital Fertility Rate (TMFR) :

Average number of children that would be born to a married woman if she experiences the current fertility pattern throughout her reproductive span (15-49) years assuming that there is no mortality of women till the completion of reproductive period.

$$TMFR = \frac{5 \times \sum_{15\text{-}19}^{45\text{-}49} ASMFR}{1{,}000}$$

Age-Specific Mortality Rate (ASMR) :

Number of deaths in a particular age and sex group per 1,000 population of the same age group.

$$ASMR = \frac{\text{Number of deaths in a particular age group}}{\text{Mid-year population of the same age group}} \times 1{,}000$$

q1 :

Probability of dying between birth and age 1. This can be used as approximate value of Infant Mortality Rate (IMR) which gives the ratio of number of deaths in a year of children aged less than one year to the number of births in that year.

q2 :

Probability of dying between birth and age 2.

q5 :

Probability of dying between birth and age 5. This indicator is also known as Under Five Mortality Rate (q5MR)

Infant Mortality Rate (IMR) :

Ratio of the number of infant deaths (deaths of children below one year) in a year to the number of live births in that year.

$$IMR = \frac{\text{Number of infant deaths during the year}}{\text{Number of live births during the year}} \times 1{,}000$$

Infant mortality rate comprises of two parts, viz., Neo-natal mortality rate and Post neo-natal mortality rate. The neo-natal mortality rate also comprises of two parts viz., early neo-natal mortality rate and late neo-natal mortality rate. These are defined as :

Neo-natal Mortality Rate (NMR) :

Number of infants dying within the first month of life (28 days or under) in a year per 1,000 live births of the same year.

$$NMR = \frac{\text{Number of infant deaths aged 28 days under during the year}}{\text{Number of live births during the year}} \times 1{,}000$$

Early Neo-natal Mortality Rate (ENMR) :

$$ENMR = \frac{\text{Number of infant deaths of less than 7 days during the year}}{\text{Number of live births during the year}} \times 1{,}000$$

Late Neo-natal Mortality Rate (LNMR) :

$$\text{LNMR} = \frac{\text{Number of infant deaths of 7 days to less than 29 days during the year}}{\text{Number of live births during the year}} \times 1{,}000$$

Post Neo-natal Mortality Rate (PNMR) :

$$\text{PNMR} = \frac{\text{Number of deaths of 29 days to less than One year during the year}}{\text{Number of live births during the year}} \times 1{,}000$$

Peri-natal Mortality Rate (PMR) :

Number of stillbirths plus deaths within 1st week of delivery per 1,000 births in a year.

$$\text{PMR} = \frac{\text{Number of stillbirths and infant deaths Of less than 7 days during the year}}{\text{Number of live births and stillbirths during the year}} \times 1{,}000$$

StillBirth Rate (SBR) :

$$\text{SBR} = \frac{\text{Number of stillbirths during the year}}{\text{Number of live births and still births during the year}} \times 1{,}000$$

Maternal Mortality Rate (MMR) :

Number of deaths of women in the age group 15-49 while pregnant or within 42 days of termination of pregnancy from any cause related to pregnancy and childbirth per 100,000 live births in a given year.

$$\text{MMR} = \frac{\text{Number of maternal deaths to women in the age group 15-49}}{\text{Number of live birth}} \times 1{,}000{,}000$$

Eligible Couple (Couples per 1,000 population) :

Number of currently married females in the age group 15-44 years per 1,000 persons of all ages.

Child Woman Ratio (0-4) :

1. Number of children in the age group 0-4 years per 1,000 women in the age group 15-49 years.

Child Woman Ratio (5-9) :

2. Number of children in the age group 5-9 years per 1,000 women in the age group 15-49 years.

Migration :

Migration is the third component of population change, the other two being mortality and fertility.

A person is considered as a migrant by place of birth if the place in which he/she is enumerated during the census is other than the place of his/her birth.

Similarly a person is considered as a migrant by place of last residence if the place in which he/she is enumerated during the census is other than his/her place of immediate last residence outside the village or town and not simply in another house or locality in the same village or town.

Certain aspects concerning temporary movement/ migration of people has been explained below as these are important components concerning migration :

(i) Migration of persons in search of job is high in the country. In many cases such migrants are only seasonal in nature. People migrate to other places for work in a particular season and come back again to their usual place of residence after three or four months. All such workers are treated as migrants. Similarly, if a person moved to any other place for attending short term vocational or educational course that lasted for only few months of a year, she/he too were considered as a migrant.

(ii) Where a person had merely gone out to another place or had been shifting from one place to another purely on tour, pilgrimage, visit to hospital for treatment or for temporary business purposes, such persons are not deemed to have had another residence different from the place where she/he or her/his family normally resides. She/he is not considered as migrant.

(iii) A woman temporarily moves into a hospital or to her parents or other relatives house for delivery and if the hospital or the parents/relatives houses is in a place different from usual place of residence, the place where the hospital or parents/relatives house is the place of last residence of the child but not of the mother.

A new response category 'Moved after birth' was added in Census of India 2001 in the question on 'reasons for migration' to bring out additional migration patterns. Natural calamities or distress migration as a reason for migration for last residence migrants included in 1991 Census, is covered under category of 'Others'. The reason for migration has been determined as applicable at the time of migration and not in reference to any point of time after that. For example, if a person had moved from the place of her/his last residence for the purpose of education and subsequently at some point of time got employment there only, the reason for migration would be 'education' and not 'work/employment'.

Internal and International Migration :

The migrational movements are of three types

(i) Migration within the state itself with its components

(a) Migration within the district of enumeration (intra district migration)

(b) Migration from one district of state to another district of state (inter district migration),

(ii) Migration from one state to another State of the country (inter-state migration),

(iii) Migration from one country to another country.

The first two streams together constitute internal migration, while the last type of movement is called international migration. The present name of the country, state or district and not the name by which they were known at the time of her/his birth or last residence were recorded.

Rural-Urban Components of Migration :

Rural or Urban status in respect of migrants had been determined as applicable at the time of migration and not with reference to any point of time after that.

The flow of migrants consists of four streams viz. rural to rural, rural to urban, urban to rural and urban to urban.

Civic Status of Urban Units :

Civic Status of a town/city is determined on the basis of Civic Administrative authority of the town e.g., Municipal Corporation/Corpora-tion, Municipal Committee/Municipal council, Municipality etc.

Size Class of UA/Town :

Size-class of UA/Town is based on the population size of the UA/City/Town UAs/Towns with 1,00,000 and above population is classified as Class I UAs./ towns. These Class I UAs./towns are now further sub classified in to seven sub classes namely M1 to M7 depending on the population size of UA/City/ Town. These are M7(5,000,000 and above); M6(2,000,000 to 4,999,999); M5(1,000,000-1,999,999) M4(500,000-999,999); M3(300,000-499,999), M2(200,000-299,999) & M1(100,000-199,999). towns with, 50,000 to 99,999 population are classified as Class II towns, 20,000 to 49,999 population are Class III towns, population with 10,000-19,999 are Class IV towns, population with 5,000 and 9,999 are Class V towns and towns with less than 5,000 population are Class VI towns.

Slum Area :

The Slum Areas (Improvement and Clearance) Act, 1956 which was enacted by the Central Govt. defined slums as a) Areas where buildings are in any respect unfit for human habitation; or b) are by reasons of dilapidation, overcrowding, fault arrangement and design of such buildings, narrowness or faulty arrange-ment of streets, lack of ventilation, light or sanitation facilities, or any combination of these factors, are detrimental to safety, health or morals.

Mega City :

The concept of 'Mega city' is a recent phenomenon in the Urban Sociology and is defined in term of metropolitan city in the form of large size, problem of management of civic amenities and capacity to absorb the relatively high growth of population. Indian Census in 1991 treated the population size of 5 million and above as the cut off point to identify a place as the mega city. Whereas, for the purpose of inclusion in Centrally Sponsored Scheme for Infrastructure Development in Mega cities the Ministry of Urban Affairs and employment, Department of Urban Development adopted the criteria of 4 million and above population as per 1991 Census for Mega Cities.

In 2001 Census, cities with 10 millions and above population have been treated as Mega cities.

(vii) 2001 Census Findings–Population and its Distribution

(a) Distribution of population in rural-urban areas:

According to 2001 Census, the total population of Kachchh district is 1,583,225 comprising of 815,152 males and 768,073 females. The population of the district forms 3.1 per cent of the state population and ranks 15th among the districts. There are 886 inhabited villages and 8 towns in the district. There are 10 talukas in the district. The total rural population in Kachchh district is 1,108,333 persons and it is 70.0 per cent of the total population of the district. The total urban population in the district is 474,892 persons and it constitutes 30.0 per cent of the total population of the district

(b) Size class and status of towns, Population growth, Density, Sex ratio, Work participation rate, Literacy, availability of University education in the District:

The statement below gives the town status, size class of town and town population for eight towns of Kachchh district for 2001 Census.

Sl. No.	Name and Civic status of Town	Size and class of town	Population
		3	4
1	Anjar (M)	II	68,343
2	Bhachau (M)	III	25,389
3	Bhuj* (M)	I	136,429
4	Gandhidham (M)	I	151,693
5	Kandla (M)	IV	14,695
6	Mandvi (M)	III	42,355
7	Mundra (M)	IV	12,931
8	Rapar (M)	III	23,057

Note: *Towns having outgrowth

According to the 1991 Census the total population of the district was 1,262,507. There has been a net addition of 320,718 persons during 1991-2001. The decadal growth rate of district comes 25.4 per cent. The decadal growth rates for the rural and urban areas of the district are 26.7 and 22.4 per cent respectively which indicates that in this district the growth rate of rural population is higher than that of urban population. The highest growth of rural population in terms of percentage has taken place in Gandhidham taluka where growth of 66.6 per cent of is witnessed. Madhapar and Naliya towns of 1991 Census have been declassified as rural in 2001 Census.

The density of population in Kachchh district is 35 persons per sq.km. against the State density of 258 persons. This is so because a vast area of the district is rann(desert) area. At taluka level the density of population varies from 26 persons per sq. km.in Lakhpat taluka to 1,156 persons per sq km in Gandhidham taluka.

There are 942 females for every 1,000 males in Kachchh district. The sex ratio for rural and urban areas of the district is 953 and 917 respectively. Comparatively the sex ratio in rural areas is higher as compared to that in urban areas in the district. The sex ratio is the highest at 988 in Mandvi taluka. and the lowest at 892 in Gandhidham taluka. The sex ratio for the children of 0-6 years of age is 922 for the district. In rural areas this sex ratio for the children in the age group 0 - 6 years is 927 while in urban areas this sex ratio is 906 females per 1,000 males.

The proportion of Scheduled Caste population in the district is 11.7 and that of Scheduled Tribes population is 8.2. The percentage of Scheduled Castes population is 11.9 per cent in rural areas and 11.3 per cent in urban areas of the district. The highest percentage of Scheduled Castes population to total population is recorded in Mundra and Gandhidham talukas (16.7 per cent) while the lowest percentage is recorded in Anjar taluka (8.8 per cent). The proportion of Scheduled Tribes population is 9.6 in rural areas and 5.0 per cent in urban areas of the district. The proportion of Scheduled Tribes population to total population is highest in Rapar taluka (21.2 per cent) while it is the lowest in Gandhidham taluka at 3.9 per cent. The percentage of Scheduled Tribes

population is between 5 to 6 per cent in Nakhatrana, Abdasa, Mandvi and Mundra talukas.

A person who can read and write in any language with understanding is taken as literate in census. All children of age below 7 years are treated as illiterates.

As per 2001 Census, Kachchh district reported 794,483 persons as literate constituting 59.8 per cent of the total population. The proportion of male and female literates in the district is 70.4 per cent and 48.6 per cent respectively. The literacy rate of males is higher than that of females. The difference of male and female literacy rate is 21.8 percentage points in the district.

The literacy rates of rural and urban areas are 53.5 per cent and 74.0 per cent respectively. The proportion of male and female literates in rural area is 65.2 and 41.3 per cent. In urban areas this proportion is 81.9 and 65.4 per cent. The difference between male and female literacy rates in urban areas is 16.6 percentage points against 23.9 percentage points in rural areas. . Among talukas, the total literacy rate is comparatively higher at between 69 to 70 percent in Mandvi and Gandhidham talukas and is the lowest at 39.8 per cent in Rapar taluka. The literacy rate in Scheduled Castes is 55.0 per cent and in Scheduled Triabes is 26.8 in rural areas of the district.

The work participation rate is defined as percentage of total workers to the population. Only 38.3 per cent in the total population has been reported as workers in the district. In total population, 31.5 per cent are main workers while 6.8 per cent are marginal workers. Percentage of non- workers in the population in the district is 61.7 per cent. Among the males, 53.6 per cent are workers while among females 21.9 per cent are workers. Among the males, 50.5 per cent are main workers while among females 11.3 per cent are main workers. Among males, 3.2 per cent are marginal workers, while among females, 10.6 per cent are marginal workers. The proportion of main workers in males is higher than that in females and proprtion of marginal workers in females is higher than that in males. The highest proportion of workers of 45.1 per cent to total population is observed in Abdasa taluka, while the lowest proportion of 32.0 per cent workers to total population has been reported in Gandhidham taluka. In rural areas, 40.7 per cent of the population is workers, comprising of 31.9 per cent main workers and 8.8 per cent marginal workers. In urban areas, 32.6 per cent of the population is workers, comprising of 30.4 per cent main workers and 2.2 per cent marginal workers.

Of the total workers in the district, 18.6 per cent are engaged in cultivation, 23.6 per cent are engaged in agricultural labour, 5.0 per cent are engaged in household industry and 52.9 are engaged in other work. The proportion of female cultivators in total female workers is 18.2 per cent which is nearly same as that in case of males (18.7 per cent). The proportion of female agricultural labourers in total workers is 38.3 per cent which is little more than twice than that for male i.e. 17.9 per cent in the district. The proportion of female other workers in total female workers is 30.5 per cent which is nearly half of that in male in the district.

University Education :

There are 9 Collages in Kachchh district which includes several Arts/Commerce & Science. Besides these there are two Polytecnics and one Engineering College in the district.

Religion :

Religion forms an integral part of Indian Social system. In the pre-Independence census reports, the data on religion was being presented for 9 major religion viz. Hindu, Muslim, Tribal, Christian, Sikh, Jain, Buddhist, Parsi, Jew and Others. However, since the 1951 census the data on religion has been presented for 6 major religon viz. Hindu, Muslim, Christian, Sikh, Jain and Buddhist. Besides, the minor religions have been classified under the category of 'Other'. The data on religion collected and presented by the Indian Census is the basic data of intense use for the researchers, anthropologists, sociologists, demographers, administrators, planners and even for a common man.

In 2001 the Indian Census collected the religion data in question No. 7 of the household schedule and recorded the same under the six major religions, other religions were recorded in actual as returned by the respondent and classified under the category of 'Others'. Religion not stated has been added for those persons who have not stated their religion at the time of canvassing the status of religion.

Percentage Distribution of Population by Major Religions in 2001 Census

Sl. No	Religion	Gujarat State		Kachchh District	
		Population	Percentage	Population	Percentage
1	2	3	4	5	6
1	Hindu	45,143,074	89.1	1,223,254	77.3
2	Muslim	4,592,854	9.1	329,254	20.8
3	Christian	284,092	0.5	2,834	0.2
4	Sikh	45,587	0.1	3,341	0.2
5	Buddhist	17,829	0.0	101	0.0
6	Jain	525,305	1.0	23,894	1.5
7	Other	28,698	0.1	58	0.0
8	Religion not stated	33,578	0.1	489	0.0

Source: Census of India-2001

It is observed that at State level 89.1 per cent of populations are followers of Hindu religion, whereas in Kachchh district they constitute 77.3 per cent of the population. In Gujarat State 9.1 per cent of population follows Muslim religion whereas 20.8 per cent of population follows Muslim religion in Kachchh district. The population of Jains in the State is 1.0 per cent, whereas in Kachchh district, it is 1.5 per cent. The population of Christian in the State is 0.5 per cent, whereas in Kachchh district, it is 0.2 per cent. The population of Sikh in the State is 0.1 per cent, whereas in Kachchh district, it is 0.2 per cent.

In Kachchh district, proportionately, the percentage of Muslim population in urban areas is less than that in rural areas, while that of Sikh and Jain is little more in urban areas as compared to that in rural areas.

Religion	Number of followers	Population	
		Rural	Urban
1	2	3	4
Hindu	1,223,254	853,283	369,971
		(69.8)	(30.2)

*Recasted Population.

Table 1 gives the taluka wise details pertaining to the decadal changes in the population during the last decade of 1991-2001 along with the percentage of urban population for last two censuses. The decadal growth rate of the district is 25.4 per cent during 1991-2001. The growth rates for rural and urban areas of the district are 26.7 and 22.4 per cent respectively. The growth rate of rural area in the district is higher than that of the urban area during the decade. Out of the total population of the district, 70.0 per cent lives in rural areas while 30.0 per cent lives in urban areas in the district as per 2001 census. The highest decadal growth rate is seen in Gandhidham taluka (38.5 per cent) and the lowest growth rate is seen in Nakhatrana taluka (10.5 per cent). Among the talukas having urban population as per 2001 census, Gandhidham taluka has recorded the highest urban population of 82.5 per cent, while Rapar taluka has recorded the lowest urban population of 11.6 per cent of total population.

Table 2 gives the details of absolute number and percentages of inhabited villages falling in each range of population size class of villages and number of males and females for each population range at taluka level in the district. There are 886 villages in the district. Out of 886 inhabited villages, Abdasa taluka has the highest number of villages i.e. 150, followed by Bhuj with 144 villages while Gandhidham taluka has the lowest number of 8 villages. Out of 886 inhabited villages, 137 villages (15.5 per cent) have the population below 200 persons. The size class of 200-499 persons accounts for 176 villages (19.9 per cent) of the district while the size class of 500-999 population is having 223 villages (25.2 per cent) of the district. As many as 194 villages (21.9 per cent) are in the size class of 1,000-1,999 persons and 123 villages (13.9 per cent) are in the size class of 2,000-4,999 persons while 31 villages (3.5 per cent) are falling in the size class of 5,000-9,999 persons. Only two villages of the district are having population of 10,000 and more persons.

TABLE 3

NEW TOWNS, DENOTIFIED, DECLASSIFIED AND MERGED TOWNS IN 2001 CENSUS

Name of Town
(a) New
(i) Statutory town
Nil
(ii) Census town
Nil
(b) Denotified
(i) Statutory towns of 1991 census denotified and also did not satisfy the criteria to be treated as census towns
Nil
(ii) Statutory towns of 1991 census denotified but identified as census towns based on demographic and economic criteria
Nil
(iii) Census towns of 1991 census are notified as statutory town in 2001 census
Nil
(c) Declassified

2 Naliya V.P.
(d) Wholly merged with other town(s)
Nil

Declassified means the census towns of 1991 census which failed to satisfy the demographic and economic criteria.

Table 3 is self explanatory and needs no elaboration.

TABLE 4

DISTRIBUTION OF VILLAGES BY POPULATION DENSITY, 2001

Range of Population Density (per Square Kilometer)	Total Number of Villages in each Population Density Range	Percentage of Villages in each Population Density Range	Population	Percentage Distribution of Population
1	2	3	4	5
0-10	121	13.7	38,773	3.5
11-20	88	9.9	36,903	3.3
21-50	262	29.6	230,893	20.8
51-100	204	23.0	292,758	26.4
101-200	124	14.0	271,162	24.5
201-300	35	4.0	91,240	8.2
301-500	35	4.0	76,350	6.9
501 +	17	1.9	70,254	6.3
Not known	0	0.0	0	0.0
District Total:	**886**	**100.0**	**1,108,333**	**100.0**

Population Density (Rural) of the district: 66.5

Table 4 gives the details of the distribution of villages by population density ranges. The inhabited villages of the district have been grouped under eight different ranges of population density. The maximum number of villages i.e. 262 accounting for 29.6 per cent of the total inhabited villages of the district fall in the population density range of 21-50 persons accounting for 20.8 per cent population. The population density range of 51-100 persons has 204 villages accounting for 23.0 per cent of villages and 26.4 per cent of population of the district. The lowest population density range of 0-10 persons per sq km has 121 villages (13.7 per cent) with 3.5 per cent of population. There are 88 villages (9.9 percent) with 3.3 percent of population in the population density range of 11-20 persons. There are 124 villages (14.0 per cent) with 24.5 per cent of population in the density range of 101-200. The density range of 301-500 persons accounts for 35 (4.0 per cent) of inhabited villages and 6.9 per cent of population. 17 villages (1.9 per cent) with 6.3 per cent of population have very high density of more than 501 persons per sq. km. The density of population of the rural areas of the district is 66.5 per sq.km.

SEX RATIO OF STATE AND DISTRICT, 1901-2001

Sl. No.	Census Year	Gujarat State			Kachchh District		
		Total	Rural	Urban	Total	Rural	Urban
1	2	3	4	5	6	7	8
1	1901	954	951	965	995	996	991
2	1911	946	943	960	1,034	1,025	1,083
3	1921	944	947	931	1,059	1,048	1,124
4	1931	945	948	934	1,066	1,065	1,070
5	1941	941	954	898	1,095	1,095	1,096
6	1951	952	964	920	1,079	1,089	1,037
7	1961	940	956	896	1,041	1,063	954
8	1971	934	951	893	1,012	1,038	930
9	1981	942	959	905	999	1,026	919
10	1991	934	949	907	964	987	910
11	2001	920	945	880	942	953	917

Table 5 gives the details about the sex ratio of state and district according to 1901 to 2001 Censuses. As per 2001 Census sex ratio of 942 females per 1,000 males has been recorded in the district against 920 of the state. The sex ratio of the district was higher as compared to the state figures during all Censuses. It was more than 1,000 during 1911 census to 1971 census. Sex ratio in rural areas of the district was lower than that in urban areas during 1911 to 1941 censuses, while it was higher than that in urban areas during 1951 to 2001 censuses.

TABLE 6

SEX RATIO BY TALUKAS, 2001

Sl. No.	Name of Taluka	Sex Ratio		
		Total	Rural	Urban
1	2	3	4	5
1	Lakhpat	928	928	---
2	Rapar	928	926	945
3	Bhachau	932	937	908
4	Anjar	941	946	934
5	Bhuj	947	965	920
6	Nakhatrana	968	968	---
7	Abdasa	960	960	---
8	Mandvi	988	997	959
9	Mundra	962	965	945
10	Gandhidham	892	880	894
	District Total:	**942**	**953**	**917**

Table 6 gives the details of sex ratio for total, rural and urban areas at taluka level as per 2001 Census. There are 942 females per 1,000 males in the district. The sex ratio is the highest at 988 in Mandvi taluka. And the lowest at 892 in Gandhidham taluka. In rural areas, the sex ratio is 953 females per 1,000 males in the district. In rural areas, the sex ratio is the highest at 997 in Mandvi taluka while it is the lowest at 880 in Gandhidham taluka. The sex ratio in urban areas is 917 and is less than that of rural areas.

TABLE 7

SEX RATIO BY TALUKAS /C.D.BLOCKS, 2001

Sl. No.	Name of Taluka/ C. D. Block	Sex Ratio
1	2	3
1	Lakhpat	928
2	Rapar	926
3	Bhachau	937
4	Anjar	946
5	Bhuj	965
6	Nakhatrana	968
7	Abdasa	960
8	Mandvi	997
9	Mundra	965
10	Gandhidham	880
	District (Rural) Total:	**953**

Table 7 gives the details of C.D. Block/Taluka wise sex ratio for rural population in the district. The sex ratio in rural areas of the district is 953 females per 1,000 males. The highest sex ratio of 997 females per 1,000 males is found in Mandvi taluka while the lowest sex ratio of 880 is recorded in Gandhidham taluka.

TABLE 8

SEX RATIO OF RURAL POPULATION BY RANGES, 2001

Range of Sex Ratio for Villages	Number of Inhabited Villages	Percentage of Villages in each Range	Population 2001	Percentage Distribution of Population
1	2	3	4	5
Less than 700	11	1.2	9,575	0.9
700-749	12	1.4	15,500	1.4
750-799	18	2.0	5,805	0.5
800-849	49	5.5	29,671	2.7
850-899	105	11.9	135,289	12.2
900-949	212	23.9	299,969	27.1
950-999	214	24.2	350,233	31.6
1000-1099	200	22.6	233,013	21.0
1100+	65	7.3	29,278	2.6
District Total:	**886**	**100.0**	**1,108,333**	**100.0**

Sex ratio (Rural) for District: 953

Table 8 gives the details of the distribution of villages by 9 different sex ratio ranges based on 2001 Census. The maximum number of villages i.e. 214 accounting for 24.2 per cent of the total villages, having 31.6 per cent population of the district, fall in the sex ratio range of 950-999, followed by 212 villages(23.9 per cent) having population of 27.1 per cent in the sex ratio range of 900-949. The highest sex ratio range of 1,100 and more claims 65 villages having the share of 2.6 per cent of rural population in the district. The sex ratio range of 1,000-1,099 claims 200 villages (22.6 per cent) with 21.0 per cent of population.

		Urban	**65,094**	**34,147**	**30,947**	**906**

Table 10 gives the details about population of age group 0-6 years and sex ratio in this age-group for total, rural and urban areas for each taluka of the district. Total population in age group 0-6 years is 254,448 persons comprising of 132,411 males and 122,037 females. The sex ratio in this age group works out 922 females per 1,000 males in the district. The sex ratio in this age group in rural and urban areas comes to 927 and 906 females per 1,000 males respectively. The sex ratio at taluka level varies between 949 (Lakhpat taluka) and 905 in Anjar taluka..

TABLE 11

SEX RATIO OF POPULATION IN THE AGE GROUP 0-6 FOR TALUKAS/C.D. BLOCKS, 2001

District (Rural) Total :	**886**	**100.0**	**189,354**	**100.0**

Sex ratio (Rural) for District: 927

Table 12 gives the details about the distribution of villages in 9 different ranges of sex ratio in the age group 0-6 years as well as percentage of villages and percentage of population falling in each range of sex ratio in the district. The maximum number of 156 villages each have sex ratios in the ranges of 1,000-1,099 and 1,100 and more, followed by 106 villages having sex ratio in the range of 900-949 and 103 villages having sex ratio between 850-899. The range of 700-749 has minimum number of villages (33) accounting for 2.6 per cent population of the district. The maximum population of 19.1 per cent in the district is seen in the sex ratio range of 900-949, followed by 18.0 per cent in the sex ratio range of 850-899.

Table 14 shows the details about the distribution of Scheduled Castes and Scheduled Tribes population with their percentages to total population at taluka level for rural and urban areas of the district. It can be seen that out of total district population of 1,583,225, only 11.7 per cent belongs to Scheduled Castes and as many as 8.2 per cent belongs to Scheduled Tribes. The percentage of Scheduled Castes population to total population constitutes 11.9 per cent in rural areas and 11.3 per cent in urban areas of the district. The highest percentage of Scheduled Castes population to total population is recorded in Mundra and Gandhidham talukas (16.7 per cent each) while the lowest percentage is recorded in Anjar taluka (8.8 per cent). It is between 10 to 11 per cent each in Lakhpat, Rapar, Bhachau and Abdasa talukas., The proportion of Scheduled Tribes population is 9.6 in rural areas and 5.0 per cent in urban areas of the district. The proportion of Scheduled Tribes population to total population is highest in Rapar taluka (21.2 per cent) while it is the lowest in Gandhidham taluka at 3.9 per cent. It is between 5 and 6 per cent in Nakhatrana, Abdasa, Mandvi and Mundra talukas.

TABLE 15

NUMBER AND PERCENTAGE OF SCHEDULED CASTES AND SCHEDULED TRIBES POPULATION IN TALUKAS/C.D.BLOCKS, 2001

Sl. No.	Name of Taluka/ C.D. Block	Total Population	Total Scheduled Castes Population	Total Scheduled Tribes Population	Percentage of Scheduled Castes population to Total Population	Percentage of Scheduled Tribes Population to Total Population
1	2	3	4	5	6	7
1	Lakhpat	50,120	5,273	2,162	10.5	4.3

	District (Rural) Total:	**1,108,333**	**132,435**	**106,284**	**11.9**	**9.6**

Table 15 gives the details about the distribution of Scheduled Castes and Scheduled Tribes population for rural areas in each taluka of the district. Out of the rural population of the district, 11.9 per cent population is recorded as Scheduled Castes population and 9.6 per cent is recorded as Scheduled Tribes population. The proportion of Scheduled Castes population to total population is recorded highest at 17.9 per cent in Mundra taluka and the lowest at 10.0 per cent each in Rapar and Bhachau talukas. The proportion of Scheduled Tribes population to total population is recorded above 20 per cent in Rapar taluka (22.4 per cent) and Bhachau taluka (20.3 per cent) and the lowest at 4.3 per cent in Lakhpat taluka. It is between 5 and 6 per cent each in Anjar, Nakhatrana, Abdasa and Mundra talukas.

TABLE 16

PROPORTION OF SCHEDULED CASTES POPULATION TO TOTAL POPULATION IN VILLAGES, 2001

Percentage range of Scheduled Castes Population to Total Population	Number of Villages	Percentage	Scheduled Castes Population	Percentage

District Total :	**886**	**100.0**	**132,435**	**100.0**

Table 16 gives details about the number of villages of the district according to the proportion of Scheduled Castes population to their total population in 9 different percentage ranges at district level. As many as 259 villages (29.2 per cent) in the district do not have any Scheduled Castes population. The proportion of Scheduled Castes population is less than 5 per cent in 121 villages constituting 13.7 per cent of total villages. The percentage of Scheduled Castes population varies between 5 to 10 per cent in 168 villages, while it varies between 11 to 20 per cent in 216 villages. 13 villages of the district have more than 50 per cent of population of Scheduled Castes.

TABLE 17

PROPORTION OF SCHEDULED TRIBES POPULATION TO TOTAL POPULATION IN VILLAGES, 2001

Percentage Range of Scheduled Tribes Population to Total Population	Number of Villages	Percentage	Scheduled Tribes Population	Percentage
1	2	3	4	5

District Total :	**886**	**100.0**	**106,284**	**100.0**

Table 17 gives the details about the number of villages of the district according to the proportion of Scheduled Tribes population to their total population in 9 different percentage ranges at district level. It is significant that 359 villages constituting 40.5 per cent of total villages in the district have no Scheduled Tribes population, 158 villages (17.8 per cent) have less than 5 per cent of Scheduled Tribes population and 163 villages have between 5 to 10 per cent of Scheduled Tribes population. As many as 7 villages (0.8 per cent) have between 51 to 75 per cent of their population as that of Scheduled Tribes. Scheduled Tribes population is more than 75 per cent in 26 villages (2.9 per cent).

TABLE 18

NUMBER AND PERCENTAGE OF SCHEDULED CASTES AND SCHEDULED TRIBES POPULATION IN URBAN AGGLOMERATIONS / TOWNS, 2001

UA = Urban Agglomeration

Table 18 gives the details about the distribution of Scheduled Castes and Scheduled Tribes population as well as their percentage to total population at UA /towns as per 2001 Census. Of 474,892 total population of UA /Towns of the district, 11.3 per cent population belongs to Scheduled Castes and 5.0 per cent population belongs to Scheduled Tribes. The highest proportion of Scheduled Castes population to total population is recorded at 19.4 per cent in Gandhidham (M) and is lowest at 3.4 per cent Kandla (CT). The proportion of Scheduled Tribes population to total population is highest at 11.5 per cent in Rapar (M) and is the lowest at 2.9 per cent in Gandhidham (M).

TABLE 19

SEX RATIO AMONG SCHEDULED CASTES AND SCHEDULED TRIBES IN TALUKAS/C.D.BLOCKS, 2001

Sl. No.	Name of Taluka/ C.D. Block	Scheduled Castes Sex Ratio	Scheduled Trib Sex Ratio
1	2	3	4
1	Lakhpat	922	942

8	Mandvi	974	933
9	Mundra	931	972
10	Gandhidham	937	877
	District (Rural) Total :	**946**	**922**

Table 19 shows the sex ratio among Scheduled Castes and Scheduled Tribes for rural areas in each taluka in the district. The sex ratio in Scheduled Castes is 946 for the district. Among the talukas, the highest sex ratio of 974 among Scheduled Castes is found in Mandvi and the lowest sex ratio of 922 is found in Lakhpat taluka. Sex ratio in Scheduled Tribes population is 922 for the district. The highest sex ratio of 972 among Scheduled Tribes is recorded in Mundra taluka and the lowest of 877 is recorded in Gandhidham taluka.

TABLE 20

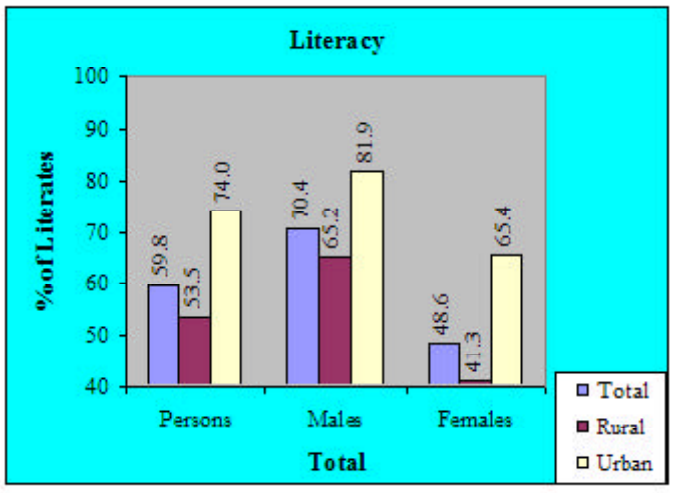

SEX RATIO AMONG SCHEDULED CASTES AND SCHEDULED TRIBES IN URBAN AGGLOMERATIONS / TOWNS, 2001

Sl. No.	Name of UA / Town	Scheduled Castes Sex Ratio	Scheduled Tribes Sex Ratio

Table 21 shows taluka wise rural, urban and total literacy rates with the absolute number of literates and illiterates. As per 2001 Census, the proportion of effective literates to total population is 59.8 per cent in the district, while this proportion in rural areas is 53.5 per cent and 74.0 per cent in urban areas. In the district as a whole, the literacy rate of males is 70.4 per cent which is higher than that of females at 48.6 per cent. Among the talukas, the total literacy rate is comparatively higher at between 69 to 70 per cent in Mandvi and Gandhidham talukas and is the lowest at 39.8 per cent in Rapar taluka. The gap between male and female literacy rate at district level is high at 21.8 percentage points. At taluka level, the highest literacy gap between males and females is observed to be 27.8 percentage points in Rapar taluka, while the lowest literacy gap between males and females is seen at 18.4 percentage points for Gandhidham taluka. The gap between male and female literacy is 23.9 percentage points in rural areas and is 16.6 percentage points in urban areas of the district.

TABLE 22

NUMBER AND PERCENTAGE OF LITERATES AND ILLITERATES BY SEX IN TALUKAS/ C.D.BLOCKS, 2001

District (Rural) Total :		**491,347**	**305,670**	**185,677**	**616,986**	**261,800**	**355,186**	**53.5**	**65.1**	**41.3**	**23.9**

Table 22 reveals the effective literacy rates along with absolute number of literates and illiterates for the rural population at taluka level in the district. It is seen that 53.5 per cent of the total rural population in the district is literate. A gap of 23.9 percentage points in literacy rates between males and females has been registered. Mandvi has returned the highest literacy rate of 67.9 per cent while Rapar taluka has shown the lowest literacy rate of 37 per cent among the talukas of the district. In regard to literacy rates for males, the maximum literacy rate of 78 per cent is reported in Mandvi taluka and the lowest literacy rate of 50.7 per cent has been reported in Rapar taluka. Similarly, the highest female literacy rate of 57.9 per cent is recorded in Mandvi taluka, while the lowest female literacy rate of 22.1 per cent is recorded in Rapar taluka. A significant gap in male and female literacy of 28.6 percentage points is observed in Rapar taluka while comparatively a low gap in male and female literacy of around 20 percentage points is observed in Mandvi and Nakhatrana talukas.

TABLE 23

DISTRIBUTION OF VILLAGES BY LITERACY RATE RANGE, 2001

Range of Literacy Rate for Villages	Number of Inhabited Villages	Percentage Distribution of Villages	Population	Percentage Distribution of Population

UA = Urban Agglomeration.

Table 24 shows the absolute number of literates and illiterate along with literacy rates in urban areas at UA/ Town level in the district. As much as 74.0 per cent of the urban population, excluding the population of age group of 0-6 years is literate in urban areas of the district. As much as 81.9 per cent of the urban male population is literate while corresponding figure for females is 65.3. Bhuj UA have the highest literacy rate of 78.5 per cent while Kandla (CT) has the lowest literacy rate of 50.9 per cent in urban areas of the district.

Table 25 gives the details about number and percentage of literates and illiterates for Scheduled Castes by sex in rural areas at taluka level in the district. As much as 55 per cent of the total Scheduled Castes population excluding the population of age group of 0-6 years is literate in the district. As much as 71.2 per cent of male Scheduled Castes is literate while the corresponding figure for female population is only 37.9 per cent. There is a wide gap of 33.3 percentage points between the literacy rates of males and females. Mandvi taluka has the highest literacy rate of 63.8 per cent while the lowest literacy rate of 37.3 per cent is recorded in Rapar taluka. Wide differences of about 35.7 percentage points in literacy rates between males and females is seen in Bhuj taluka of the district, while this difference is the lowest at 30.9 percentage points in Nakhatrana taluka.

TABLE 26

DISTRIBUTION OF VILLAGES BY LITERACY RATE RANGE FOR SCHEDULED CASTES POPULATION, 2001

Range of Literacy Rate for Villages	Number of Inhabited Villages	Percentage Distribution of Villages	Scheduled Castes Population	Percentage Distribution of Population
1	2	3	4	5

Literacy rate for District (Rural): 55

Table 26 reveals the distribution of villages in 12 different ranges of literacy rates for the population of Scheduled Castes in rural areas of the district. No Scheduled Castes literate is reported in 9 villages of the district. As many as 165 villages accounting for 26.3 per cent of the total villages show the literacy rates ranging from 51-60 per cent and 162 villages (25.8 percent) show the literacy rates ranging from 61-70 per cent. As many as 239 villages (37.9 per cent) having 33.0 per cent of the total population of Scheduled Castes registered the literacy rate of up to 50 per cent. It may be noted that the Scheduled Castes population in 11 villages has been reported as totally literate in the district.

* Towns having outgrowths

Table 27 gives the details about absolute number and percentages of literates and illiterates for Scheduled Castes in urban areas of the district. As high as 62.9 per cent of the total urban Scheduled Castes population excluding the population of age group of 0-6 years is literate in the district. The corresponding proportion of male and female literates comes to 76.8 per cent and 47.8 per cent respectively. The gap of 29.1 percentage points in male-female literacy rate is seen in the urban Scheduled Castes population. Mundra (CT) has the highest urban literacy rate of 69.1 per cent and Rapar (M) has the lowest literacy rate of 50.6 per cent. The highest difference between literacy rates for male and female is seen to be 34.3 percentage points in Mundra (CT) and the lowest difference between literacy rates for male and female is seen to be 25.7 percentage points in Bhuj (M).

Literacy rate for District (Rural): 26.8

Table 29 gives the details about the distribution of villages by 12 different literacy rate ranges for Scheduled Tribes population in the district. As many as 14 villages in the district have all the Scheduled Tribes population as literate. The literacy rate up to 30 per cent is observed in 318 villages (60.3 per cent) of the district. The Scheduled Tribes literacy rate between 31 to 40 percent is observed in 95 villages (18.0 percent) and that of 41 to 50 per cent is observed in 67 villages (12.7 per cent) of the district. No village of the district has reported Scheduled Tribes litracy rate between 81 to 99 per cent.

Table 31 shows absolute number and percentage of main workers, marginal workers and non workers by sex at taluka level in the district as per 2001 Census. Only 38.3 per cent in the total population has been reported as workers in the district. In total population, 31.5 per cent are main workers while 6.8 per cent are marginal workers. Percentage of non- workers in the population in the district is 61.7 per cent. Among the males, 53.6 percent are workers while among the females, 21.9 per cent are workers. As far as marginal workers are concerned, among males, 3.2 percent are marginal workers, while among females, 10.6 percent are marginal workers. The highest proportion of workers to total population is observed in Abdasa taluka, (45.1 per cent) while the lowest proportion of workers to total population has been reported in Gandhidham taluka (32.0 per cent).

Table 32 gives the details about taluka wise absolute number and percentage of main workers, marginal workers and non workers for rural population of the district. As much as 31.9 per cent of the rural population has been categorized as main workers whereas the marginal workers constitute 8.8 per cent of the total population. As high as 59.3 per cent of population is non-worker. Main worker among males and females are 49.8 and 13.2 per cent respectively. The proportion of marginal worker for male and female is 3.8 and 13.9 per cent respectively. The percentage of marginal workers to total population in females is higher than that in males. Similar trend is seen at taluka level also. At the taluka level, Abdasa taluka has the highest proportion of total workers forming 45.1 per cent of the total population whereas the lowest percentage of total workers to total population is reported at 32.9 per cent in Gandhidham taluka.

UA = Urban Agglomeration

Table 33 shows the absolute number with percentage of main workers, marginal workers and non-workers for urban population at UA/Town level in the district. Of the 474,892 total urban population of the district, 30.4 per cent has been categorized as main workers whereas only 2.2 percent has been categorized as marginal workers. A high percentage i.e. 67.4 per cent of the population is reported to be non-workers. Sex-wise break up at the district level shows that 52.1 per cent among males and 6.7 per cent among females are in the category of main workers. Marginal workers among males are 1.7 per cent and among females are 2.8 per cent. The highest proportion of total workers forming 39.0 per cent of the total population is seen in Kandla (CT) and the lowest proportion of about 31 per cent is seen in Mandvi (M) and Gandhidham (M).

Note : Percentage of Worker to total worker are given in brackets

Table 34 reveals economic activity in the district. From the table it is evident that total workers including main and marginal workers are 38.3 per cent of the total population. As many as 18.6 per cent of total workers are engaged in cultivation, 23.6 per cent in agricultural labour, 5.0 per cent in household industry and 52.9 in other work. The proportion of cultivators varies between 32.7 per cent in Rapar taluka to only 1.0 per cent in Gandhidham taluka. The proportion of agricultural labourers varies between 38.3 per cent in Nakhatrana taluka to 1.1 per cent in Gandhidham taluka. The proportion of other workers varies between 29.8 per cent in Rapar taluka to as high as 96.4 per cent in Gandhidham taluka. The proportion of female cultivators in total female workers is 18.2 per cent which is nearly of the same order as that in male i.e. 18.7 per cent in the district. The proportion of female agricultural labourers is 38.3 per cent which is little more than twice that for male i.e. 17.9 per cent in the district. The proportion of female other workers in total female workers is 30.5 per cent which is nearly half of that in male in the district.

Note: Percentage of Worker to total worker are given in brackets

Table 35 gives the details of talukawise distribution of workers by sex in four categories of economic activity in rural areas of the district. It can be seen that total workers are 40.7 per cent of total population. Among workers, cultivators account for 24.3 per cent, agricultural labourers for 30.7 per cent, household industry workers for 5.6 per cent and other workers for 39.4 per cent in the rural areas of the district. Agricultural sector plays a major role in providing employment to the working force for the rural population. The percentage of workers in household industries is remarkably low at 5.6 per cent of the total workers in rural areas. The percentage of workers in cultivation are more in male workers than in female workers, but the percentage of female workers in agricultural labourers is more than that of males The cultivators constitute 35.1 per cent of workers in Rapar taluka, while they constitute only 5.1 per cent of workers in Gandhidham taluka. Agricultural labourers constitute 38.3 percent of workers in Nakhatrana taluka, while they constitute only 4.9 per cent in Gandhidham taluka. Persons engaged as other workers have the highest percentage of 88.9 percent in Gandhidham taluka and the lowest percentage of 25.2 per cent in Rapar taluka.

UA = Urban Agglomeration

Table 36 details the distribution of workers by sex in four categories of economic activities in urban areas of the district. In the urban areas of the district, total workers (Main + Marginal) constitute 32.6 per cent of total population. Among these workers, cultivators constitute 1.9 per cent, agricultural labourers 2.7 per cent, household industry workers 3.2 per cent and other workers 92.1 per cent. Proportion of females in cultivators, agricultural labourers and household industry workers to total female workers is comparatively higher than that in case of males and that of males in other workers is comparatively higher than that of females in urban areas of the district.

Note: Percentages are given in brackets.

* Based on the improved drinking water source, drinking water supply has been classified as `Improved ' or Otherwise. If the household has access to drinking water supplied from a tap or a hand pump / tube well Situated within or outside the premises it is considered as having ac cess to `Improved drinking water source'. However, the concept of improved drinking water is state specific and this is to be considered accordingly.

Post office includes Post office, telegraph office and Post and telegraph office.

$ Transport communication includes bus service, rail facility and navigable waterways.

Table 37 given above shows the taluka wise distribution of villages according to the availability of different amenities such as education, medical, improved drinking water, post office, telephone, transport communication, banks, agricultural credit societies, approach to village by pucca road and power supply. Out of 886 inhabited villages in the district, 835 villages have at least some educational facility. There is no educational facility in 51 villages. Medical facilities of one kind or other are available in 672 villages of the total inhabited villages. The remaining 214 villages are devoid of any medical facility within the village. In all, 794 inhabited villages of the district have drinking water facility like tap, well, a hand pump, a tube well, etc. 92 villages have no drinking water facility. As many as 487 villages are equipped with one or more facilities of post and telegraph. Telephone facility has reached to 60.7 per cent of villages i.e. 538 villages in district. As many as 841 villages of the district are connected with the transport facility. Agricultural Credit Societies are available in 243 villages. Only 90 villages have banking facility. As many as 688 villages are linked by pucca approach roads. As far as power supply is concerned, all villages but 23 of the district have power supply .

Note : Percentages are given in brackets.

* Based on the improved drinking water source, drinking water supply has been classified as `Improved ' or otherwise. If the household has access to drinking water supplied from a tap or a hand pump / tube well situated within or outside the premises it is considered as having access to `Improved drinking water source'. However, the concept of improved drinking water is state specific and this is to be considered accordingly.

Post office includes Post office, telegraph office and Post and telegraph office.

$ Transport communication includes bus service, rail facility and navigable waterways.

Table 38 gives the details about the number and percentage of rural population served by different amenities. Out of total population of 1,108,333 persons in the district, 99.4 per cent have educational facility of one or other type. Similarly 88.1 per cent population has medical facilities of one type or the other and 94.4 per cent have the facilities of improved drinking water. Post office facilities are available to 83.9 per cent population. Telephone facility is available to 83.3 per cent population. Transport communication facility is available to 98.9 per cent of the population. Banking facilities are available to 31.0 per cent of population in the district. As much as 51.0 per cent of the population has the facility of agricultural credit societies. As much as 92.6 per cent have been provided with the facility of approach by pucca roads. Power supply is available to 99.5 per cent of rural population in the district. All 100 percent rural population of Mundra and Ganhidham talukas have educational facility, of Gandhidham taluka medical facility, of Bhuj and Gandhidham talukas have improved drinking water facility, of Bhachau and Anjar talukas have transport facility and all villages of Anjar, Bhuj, Abdasa, Mandvi, Mundra and Gandhidham talukas have power supply.

TABLE 39

DISTRIBUTION OF VILLAGES NOT HAVING CERTAIN AMENITIES, ARRANGED BY DISTANCE RANGES FROM THE PLACES WHERE THESE ARE AVAILABLE, 2001

7. Agricultural Credit Societies	168	165	310	643

Note : * In Gujarat State the levels of education are classified as under :
(i) Primary School (From Std. I to VII passed)
(ii) Secondary/Matriculation (From Std. VIII to X passed)
(iii) Higher Secondary (From Std. XI to XII passed). Hence details under 1(b) are not shown.

Table 39 shows that out of 51 villages not having primary education facility, 31 villages of the district are having the facilities of primary education within a radius of 5 km while 11 villages have it at a distance of more than 10 kms. Out of 886 villages not having college facility within the village, 825 villages have degree college at a distance of more than 10 kms. Out of 849 villages not having a hospital within the village, 78 villages have hospital facility available within a distance of 5 km. Out of 841 villages not having a primary health centre within the village, 106 villages have primary health centre facility available within a distance of 5 km. Out of 348 villages not having a telephone facility, telephone facility is available to 122 villages within a radius of 5 km whereas 87 villages have this facility at a distance between 5 km to 10 km. Out of 45 villages not having bus services within the village, 32 villages have bus facility available within the distance of 5 kms.

$ Transport communication includes bus service, rail facility and navigable waterways
Percentages are given in brackets.

Table 40 shows the distribution of villages according to four ranges of the distance from the nearest statutory town along with number of villages and availability of different amenities. Out of 886 inhabited villages, 10 villages that are at a distance of 5 km. from the nearest town, 9 villages have some educational facility. Further, out of these 10 villages, all villages are having medical facility, 8 villages have post office, 7 villages have telephone, all villages have transport communications and 9 villages have approach by pucca road facilities. In this range Banking facilities are not available to 8 villages situated at a distance of less than 5 km. from statutory town. Out of total of 886 villages, 144 villages are situated at the distance of 5 km. to 15 km. from the statutory towns. Of these 144 villages, 142 villages are having educational facilities, 118 villages are having medical facility, 90 villages are having post office, 113 villages are having telephone, 139 villages have transport and communication, 20 villages have bank, 43 villages have agricultural credit society and 125 villages have approach by pucca road. Out of total village, 369 village are located at a distance of 16-50 Kms from the statutory town. Of these 369 village, 355 village have education, 290 village have Medical, 225 village have post office, 251 village have Telephone,354 have Transport Communications. Only 47 village in this range have Bank, 134 have Agricultural Credit Societies and 312 village Approach by Pucca roads. As many as 363 villages are located at a distance of more than 50 km from the nearest town. Out of these 363 villages, 329 villages are having educational facilities, 254 villages are having medical facility, 164 villages are having post office, 167 villages are having telephone, 338 villages have transport and communication, 21 villages have bank, 65 villages have agricultural credit society and 242 villages have approach by pucca road.

Note : * Based on the improved drinking water source, drinking water supply has been classified as 'Improved ' or otherwise. If the household has access to drinking water supplied from a tap or a hand pump / tube well situated within or outside the premises it is considered as having access to 'Improved drinking water source' However, the concept of improved drinking water is state specific and this is to be considered accordingly.

Post office includes Post office, telegraph office and Post and telegraph office.

$ Transport communication includes bus service, rail facility and navigable waterways

Table 41 gives the distribution of villages according to different population ranges and amenities available. Out of 2 villages having population of 10,000 and more, all villages have each of the above facilities. There are 31 villages in the population range of 5,000 to 9,999, all of which have all of the above facilities, except that one village does not have amenities of drinking water supply, telephone and approach by pucca road and 10 villages do not have facilities of Bank and Agricultural Credit Societies.A

good number of villages in the population range of 1-499 persons do not have medical facility, post office, telephone, bank, agricultural credit society and approach by pucca road. Only 2 out of the 313 villages having population below 500 have a bank.

TABLE 42

DISTRIBUTION OF VILLAGES ACCORDING TO LAND USE, 2001

Sl. No.	Name of Taluka/ C.D. Block	Number of Inhabited Villages	Total area (In Hectares)	Percentage of Cultivable area to Total Area	Percentage of Irrigated area to Total Cultivable Area (In Hectares)
1	2	3	4	5	6
1	Lakhpat	86	181,585.8	20.9	3.6
2	Rapar	97	297,184.0	46.1	10.7
3	Bhachau	69	188,692.2	53.1	8.1
4	Anjar	64	109,477.4	56.8	11.1
5	Bhuj	144	231,304.7	42.0	19.6
6	Nakhatrana	119	183,839.2	33.6	24.8
7	Abdasa	150	237,060.6	38.6	7.9
8	Mandvi	90	137,977.1	55.4	27.5
9	Mundra	59	85,920.2	60.8	16.2
10	Gandhidham	8	14,185.4	38.6	7.0
	District Total :	**886**	**1,667,226.5**	**43.3**	**14.2**

Note: - Cultivable area = irrigated area + unirrigated area

Table 42 gives the details about taluka wise distribution of villages according to it also gives details of total area cultivable area available from the total area and area irrigated from the cultivable area available in the inhabited villages in the district. Cultivated area includes irrigated as well as unirrigated area. There are 886 inhabited villages in the district having a total area of 1,667,226.5 hectares. Of this, 43.3 per cent area is cultivable and 14.2 per cent of total cultivable area has irrigation facilities. Among the talukas, it is seen that Bhachau, Anjar and Mandvi talukas have nearly 55 per cent of their area as cultivable. Lakhpat has only 20.9 per cent of its area as cultivable. Nakhatrana and Mandvi talukas have irrigation facilities in nearly one fourth of their cultivable area while Lakhpat, Bhachau, Abdasa and Gandhidham talukas have irrigation facilities in less than 10 per cent of their cultivable area.

TABLE 43

PER CAPITA RECEIPT AND EXPENDITURE IN STATUTORY TOWNS

(in Rs.)

Sl. No.	Class, Name and Urban Status of the Town	Per Capita Receipt			Per Capita Expenditure					
		Total	Through Taxes	From All Other Sources	Total	General Administration	Public Health and Conveniences	Public Works	Public Institutions	Other(s)
1	2	3	4	5	6	7	8	9	10	11
1	II Anjar (M)	818.2	226.3	591.9	412.2	83.2	247.9	64.1	0.0	16.9
2	III Bhachau (M)	367.5	173.3	194.2	351.3	72.7	72.5	138.7	0.0	67.4
3	I Bhuj (M)*	807.1	369.9	437.2	617.4	61.2	294.6	0.0	0.0	261.6
4	I Gandhidham (M)	601.3	261.8	339.5	405.1	330.3	0.0	74.2	0.0	0.7
5	III Mandvi (M)	772.7	234.0	538.7	633.8	89.8	175.5	310.2	6.0	52.3
6	III Rapar (M)	393.7	134.3	259.4	385.8	76.9	0.0	98.6	1.1	209.2
	District Total :	**689.5**	**275.1**	**414.3**	**488.6**	**160.0**	**148.5**	**77.3**	**0.6**	**102.2**

* Town having outgrowths.

Table 43 shows details of per capita receipt and expenditure in statutory towns of the district. The per capita receipt in statutory towns of the district is Rs. 689.5. which is made up of contribution of Rs.275.1 through taxes and Rs. 414.3 from all other sources. The per capita expenditure in statutory towns of the district is Rs. 488.6. This expenditure is made up of Rs. 160.0 on General Administration, Rs. 148.5 on Public Health and Conveniences, Rs. 77.3 on Public Works ,0.6 on public institutions and Rs.102.2 on other items.

Among towns, Anjar (M) has reported highest per capita receipt of Rs. 818.2, followed by Bhuj (M) with per capita receipt of Rs.807.1. The lowest per capita receipt of Rs. 367.5 is reported by Bhachau (M). The highest per capita expenditure of Rs. 633.8 is reported by Mandvi (M), followed by Rs. 617.4 by Bhuj (M), while lowest per capita expenditure of Rs. 351.3 is reported by Bhachau (M).

TABLE 44

SCHOOLS / COLLEGES PER 10,000 POPULATIONS IN STATUTORY TOWNS, 2001

Sl. No.	Name and Urban Status of Town	Type of Educational Institution				
		Primary	Junior / Secondary / Middle@	Secondary / Matriculation	Senior Secondary	College
1	2	3	4	5	6	7
1	Anjar (M)	2.8	0	0.4	0.4	0.0
2	Bhachau (M)	7.1	0	1.6	0.4	0.0
3	Bhuj (M)*	2.9	0	0.6	0.6	0.4
4	Gandhidham (M)	2.0	0	0.9	0.5	0.2
5	Mandvi (M)	6.6	0	1.9	1.7	0.2
6	Rapar (M)	3.9	0	0.9	0.9	0.0
	District Total :	**3.2**	**0**	**0.9**	**0.6**	**0.2**

Note : * Town having outgrowths.

@ In Gujarat State, the levels of education are classified as under

(i) Primary School (From Std. I to VII passed)

(ii) Secondary/ Matriculation(From Std. VIII to X passed)

(iii) Higher Secondary (From Std. XI to XII passed). Hence, details under Col.4.are not shown

Table 44 shows the availability of schools/college per 10,000 populations in statutory towns. The data reveals that in urban areas of the district, the average number of primary schools per 10,000 population is 3.2, that of secondary/matriculation schools is 0.9, that of senior secondary schools is 0.6 and that of colleges is 0.2.

TABLE 45

NUMBER OF BEDS IN MEDICAL INSTITUTIONS IN TOWNS, 2001

Sl. No.	Name and Urban Status of the Town	Number of Beds in Medical Institutions Per 10,000 Population
1	2	3
1	Anjar (M)	66
2	Bhachau (M)	76
3	Bhuj (M)*	21
4	Gandhidham (M)	33
5	Kandla (CT)	31
6	Mandvi (M)	72
7	Mundra (CT)	32
8	Rapar (M)	36
	District Total :	**40**

*****Town having outgrowths.

Table 45 gives the details about the number of beds in medical institutions per 10,000 population in each town of the district. On an average there are 40 beds per 10,000 population in urban areas of the district. The highest number of beds i.e.76 is in Bhachau (M), followed by Mandvi (M) with 72 and Anjar (M) with 66 beds per 10,000 population.

TABLE 46

PROPORTION OF SLUM POPULATION IN TOWNS, 2001

Sl. No.	Name of The Town	Total Population	Slum Population	Percentage of Slum Population to Total Population
1	2	3	4	5
1	Anjar	68,343	7,450	10.9
2	Bhachau	25,389	6,500	25.6
3	Bhuj	136,429	15,825	11.6
4	Gandhidham	151,693	53,550	35.3
5	Kandla	14,695	5,850	39.8
6	Mandvi	42,355	7,150	16.9
7	Mundra	12,931	300	2.3
8	Rapar	23,057	585	2.5
	District Total	**474,892**	**97,210**	**20.5**

Table 46 gives the details about the proportion of slum population in towns. It reveals that largest proportion of slum population to total population of nearly 40 per cent is in Kandla, followed by nearly 35 per cent in Gandhidham and nearly 26 per cent in Bhachau. Mundra and Rapar have less than 3 per cent of their population as slum population. The proportion of slum population to total population in urban areas of the district works out to 20.5 per cent.

TABLE 47

MOST IMPORTANT COMMODITY EXPORTED OUT OF AND MANUFACTURED IN TOWNS, 2001

Sl. No.	Name and Urban Status of Town	Most Important Commodity	
		Manufactured	Exported

Source: Census of India 2001, H- series: "Tables on Houses, Household Amenities and Assets."

Table 48 gives the details about the number of households by tenure status and number of rooms occupied in the district. The total number of households in the district is 310,006 of which 208,865 households are in rural areas and 101,141 are in urban areas. Out of total households, 37,053 households belong to Scheduled Castes and 26,512 households belong to Scheduled Tribes. Out of these total households of the district, 78.9 per cent households are living in their own houses, 16.7 per cent households are living in rented house and 4.4 per cent households are living in other houses. Of these total households, the largest number of households i.e.142,615 (46.0 percent) have single room accommodation, followed by 107,302 (34.6 percent) households having two room accommodation. Three room accommodations are occupied by 36,159 (11.7 percent) households. More than 3 room accommodations are occupied by 23,922 (7.7 percent) households while 8 households are living without any exclusive room in the district. Median number of rooms is found to be 1 in the rural and 2 in the urban areas of the district. The proportion of households having 1 room accommodation is 50.8 in rural areas and is 36.3 per cent in urban areas. Conversely, the proportion of households having 3 room accommodation is 9.6 in rural areas and is 16.0 per cent in urban areas. The proportion of households having more than room 3 accommodation is 5.4 per cent in rural areas and 12.4 per cent in urban areas. The proportion of households having 1 room accommodation in Scheduled Castes is 53.4 percent and is 81.4 per cent in Scheduled Tribes. The proportion of households having 2 room accommodations is 35.7 for Scheduled castes and is 14.9 for Scheduled Tribes. The proportion of households having 3 room accommodations in Scheduled Castes is 7.6 percent and is 2.5 per cent in Scheduled Tribes.

Source : Census of India 2001, H - series : "Tables on Houses, Household Amenities and Assets."

Note: Permanent : Permanent houses refers to those houses whose wall & roofs are made of pucca materials i.e., where burnt bricks, G.I. Sheets or other metal sheets, stone, cement concrete is used for wall and tiles, slate, shingle, corrugated iron, zinc or other metal sheets asbestos sheets, bricks, lime and stone and RBC/RCC concrete are used for roof.

Semi permanent : Semi-permanent houses refer to those houses made of other types of materials.

Temporary : Temporary houses refers to those houses having wall and roofs made of Kutcha materials i.e. where grass, leaves, mud, unburnt bricks, wood etc. are used for roofs. reeds, bamboo mud, unburnt bricks are used for the construction of walls and grass, leaves reeds, bamboo hatch.

Table 49 gives the details about the percentage distribution of households living in permanent, semi-permanent and temporary houses in the district. As many as 83.5 per cent of households of the district are living in houses made of pucca materials, 9.0 per cent households are living in houses of semi-permanent nature and houses of 7.5 per cent households are made of temporary materials. In rural areas 80.1 per cent households are living in permanent houses, 11.0 per cent households are living in semi-permanent houses and 8.9 per cent households are living in temporary houses. As far as urban areas of the district are concerned, 90.4 per cent of households are living in permanent houses, 5.0 per cent of households are living in semi-permanent houses and 4.6 per cent households are living in temporary houses. Comparatively percentage of houses of permanent nature are found to be more in urban areas as compared to that in rural areas. Among talukas households of Mandvi taluka have recorded the highest proportion of permanent houses (87.1 per cent) while those of Bhachau taluka have recorded the lowest proportion of permanent houses (77.9 per cent). The highest proportion of semi permanent houses of households (13.8 percent) is recorded in Mundra taluka, while the lowest proportion (6.0 per cent) is recorded in Lakhpat taluka. The highest proportion of temporary houses (15.0 per cent) is recorded in Lakhpt taluka.

Source : Census of India 2001, H- series: "Tables on Houses, Household Amenities and Assets."

Note : * Based on the improved drinking water source, drinking water supply has been classified as 'Improved ' or otherwise. If the household has access to drinking water supplied from a tap or a hand pump / tube well situated within or outside the premises it is considered as having access to 'Improved drinking water source'. However, the concept of improved drinking water is state specific and this is to be considered accordingly.

@ Bathroom means bathroom within the house.

$ Toilet means toilet within the house.

Drainage means closed and open drainage.

Percentages are given in brackets.

Table 50 indicates that 82.5 per cent households in the district have been provided with drinking water supplied either from a tap or a hand pump/tube-well, 80.4 per cent households have the provision of electricity in their houses. The bathroom facility is available to only 57.4 per cent households within their premises. Only 45.5 per cent households are having bathroom facility in rural areas whereas in urban areas bathroom facility is available to 82.1 per cent of the households. Toilet and drainage facilities in the district are available to 44.0 and 32.4 per cent of households respectively. Bathroom, Drainage and Toilet facilities are available to more households in urban areas as compared to rural areas.

Among talukas, 94.8 percent of households of Anjar taluka have facility of Improved drinking water while only 52.3 per cent of households in Lakhpat taluka have this facility. As many as 90.1 per cent of households in Anjar taluka have electricity while only 58.3 per cent households in Rapar taluka have electricity. As regards bathroom facility 73.6 per cent households in Gandhidham taluka and 26.8 per cent households in Rapar have such facility within the premises. As many as 67.5 per cent households in Gandhidham taluka and only 17.0. per cent households in Rapar taluka have toilet facilities within their premises. Drainage facility is available to 65.9 per cent of households in Gandhidham taluka while only 3.0 per cent households in Rapar taluka have such facility.

Source: Census of India 2001, H- series: "Tables on Houses, Household Amenities and Assets."

Table 51 gives the details about the percentage distribution of households by type of fuel used for cooking purposes. There are nine type of fuel used for which data is presented in the table. It is observed that fire wood is the dominant fuel used for cooking and it is used by 56.3 per cent of households. Percentage of households using fire wood for cooking varies between 27.9 per cent in Gandhidham taluka to about 83.5 per cent in Rapar taluka Fire wood for cooking is used by 72.4 percent households in rural areas and by 23.2 per cent households in urban areas. Use of Cooking Gas (LPG) for cooking is next to fire wood as it is used by 19.9 per cent of the households in the district. Cooking Gas (LPG) is used by 48.7 per cent of the urban households while in rural areas only 6.0 per cent of the households use LPG for cooking. Thus the use of LPG in urban areas is comparatively more prevalent. As much as 18.2 per cent of households are using kerosene as fuel in the district. Kerosene as a fuel is used by 23.2 per cent households in urban areas while in rural areas this fuel is used by only 15.8 per cent of households. As many as 2.5 per cent of households in the district use crop residue as fuel.

Source: Census of India 2001, H- series: "Tables on Houses, Household Amenities and Assets."

Table 52 gives the details about number of households availing banking services and number of households having possession of assets such as radio/ transistor, telephone, bicycle, scooter and car etc. There are 310,006 households in the district. Out of these households, 36.0 per cent households are availing banking services. 45.7 per cent have radio/ transistor. Television is possessed by 39.2 per cent households. Telephone is available in 13.2 per cent households. Bicycle is available with 27.1 per cent households. Scooter/motorcycle/moped and car/jeep/ van are used by 20.1 and 4.1 per cent of households respectively. Among the talukas in the district, banking services enjoyed by households varies between 48.0 percent households in Gandhidham taluka to 13.5 per cent households in Rapar taluka.

(viii) Major social & cultural events, natural & administrative developments and significant activities during decade.

In year 1997 new Ghandhidham taluka was created by seperating villages from Anjar taluka vide Government Notification No. GHM-97-112-M-PER-1197-2587-L, dated 15-10-1997. No other significant event worth mantioning occured during the decade.

(ix) Brief description of places of religious, historical or archaeological importance in villages and places of tourist interest in the towns of the district:

Name of Taluka: Bhachau
Name of Village: Dholavira
Location Code: 00019800

(The Indus valley)

A huge mound called Dholavira is spread over an area of 5 acres and has a height of 1530 cms. Which is 480 cms. higher than the Mohan-jo-Daro. Known for its large Indus settlement, Dholavira (discovered in 1967) lies in the northwest corner of Khadir, a large island surrounded by the Rann of Kachchh. The first settlers arrived here from the Indus valley more than 5000 years ago. There are several bare Harappan houses and silent cenotaphs, which remain mute spectators to a once glorious past. The most interesting discovery of Dholavira is the large inscription, comprising of ten letters in the Indus script, each letter engraved on slices of crystalline material.

A number of relics already have been found amidst ruins. One is an Indus seal with Indus script and mythical one horned unicorn. Broken pieces of jars, perforated pottery pots, bangles of counch shells, bones, etc. lie strewn around the mound. The distribution of the Dholavira mound in a raised plateau and the lower portion suggests division of the society for the first time in the Indus valley civilization. One finds relics of fortifications, which suggest that within the fortifications lived Sardars, rich merchants and better off citizens. Kachchh has many other Indus sites including Kotda Chandrani, Kotda Bharti, Khirasara, Savli and Deshalpur.

Name of Taluka: Lakhpat
Name of Village: Koteshvar
Location Code :00003800

(Koteshvar Mahadev)

At a short distance from Narayan Sarovar, the village derives its name from a Shiva temple Kotlingeshwar, housing a self-born ling. It stands as a sentinel on the seashore, rising boldly from the sea that washes its western parts. The temples are enclosed by a fortified wall and the Nandi (bull of Shiva) is a fine specimen of Kachchhi art.

Name of Taluka: Lakhpat
Name of Village: Narayan Sarovar
Location Code :00003900

(Narayan Sarovar Sanctuary)

Narayan Sarovar in Kachchh district is a famous place of pilgrimage. Some 160 kms.from Bhuj is the holy Narayan Sarovar, a lake which finds mention in the ancient Hindu scriptures. A tributary of the Indus river once flowed nearby. Alexander, the great, visited the place in 325 B.C.

Narayan Sarovar Sanctuary is a unique area in the country because the uncommon ecosystem in the arid zone supports 15 threatened species of wildlife belonging to Schedule-I of the Wildlife (Protection) Act, 1972. Scrub and desert thorn forest interspersed with numerous seasonal water-bodies and grassy patches provide an ideal habitat for chinkara, caracal, ratel, wolf, desert cat, desert fox, great Indian bustard, lesser florican and a variety of waterfowl.

Name of Taluka: Lakhpat
Name of Village: Matana Madh
Location Code: 00007000

(Matano Madh temple)

Further west of Purneshwar and Kakkadbhit is Matano Madh, a temple dedicated to the deity of Jadejas, the erstwhile rulers of Kachchh. The original temple which was demolished in the earthquake of 1819 was believed to be 1200 years old. A new temple was built in its place by Sunderji Saudagar. The main structure rises to the height of 52 feet. Navratri is celebrated here. The celebrated monastic order of Kapdis is based at this shrine.

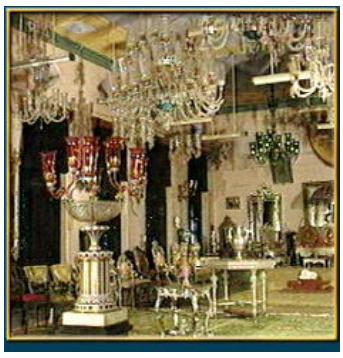

Name of Taluka: Anjar
Name of Town: Anjar
Location Code: 40103000

(Tomb of Jesal Toral)

Anjar is mainly known for the *samadhi* (tomb) of Jesal Toral, and the bungalow of James Mcmurdo, which is a veritable museum of Kutchi Art. Places worth visiting are the Ajaypal Temple, the Holy Shrine of Pinjora Pir. Anjar is also famous for its block printing work, nutcrackers, scissors and penknives. Popularly known for the shrine of Jesal and Toral, the folk-lore due wherein the tough outlaw Jesal was chastised by Toral, a Kachchhi woman. It is also centre for many fairs. At a short distance from here is Bhadreshwar, an ancient Shiva temple, with some beautiful sculptures chiseled on the outer walls. The town is also known for the Dargah of Pinjara Pir. The wellknown Kachchhi souvenirs could be bought from Anjar which is famous for block printing works, nut crackers, scissors and pen-knives.

Name of Taluka: Bhuj
Name of Town: Bhuj
Location Code: 40104000

(Aina Mahal)

Bhuj, which was a headquarters of the former princely state, has a romantic past. The old walled city is worth a visit. Silver wares mix inlay work have become famous not only over the country, but also abroad. A museum provides a glimpse of Kachchh's rich past. Step into the past in the walled town of Bhuj, with its walls within walls, old houses well, mansions, Havelis, and the impressive Bhujia fort, which worked as an outwork defence for the town, rising from a hill on its outskirts.

The two most interesting palaces at Bhuj, Aina Mahal and Prag Mahal are both located in the same campus. Aina Mahal was constructed by Rao Lakhpatji (1707-61 A.D.) in 1750 A.D., who was a great patron of art, architecture, music and

literature. Aina Mahal is a unique example of an Indian palace built in the mid-eighteenth century with European influence. Its design and decorations were the outcome of the royal dream translated into reality by a master craftsman, Ramsinh Malam. Ramsinh stayed in Holland for 17 years and was trained in the crafts of clock making, canon fabrication, enameling, tile making and architecture. On his return to Kachchh, Rao Lakhpatji recognised his genius and appointed him to undertake the mirror work, tile work and fountains at Aina Mahal. Aina Mahal is a part of a large palace complex. Now It reminds its glorious past after earthquake.

Name of Taluka: Nakhatrana
Name of Village: Manjal
Location Code: 00060600

(Puanrogadh monuments)

Situated near the village of Manjal in Kachchh district, Puanrogadh was, according to tradition, a town that belonged to Puanra, the nephew of legendary Lakha Fulani who once ruled over Kachchh. Of the two protected Monuments, the temple of Puanreshwar is a 10th century A.D. pre-Solanki architectue, less ornate but distinctive due to its elaborate mandapa and circumambulatory path. The mandapa which now exists only in part was supported by heavy pillars capped by Kichakas. It rests on a high plinth and bears sculptures of gods and goddesses. Nearby is Vadi Medi or a palace. It is a three storeyed structure which rests on a high plinth with mounding vearing Kritrimukhas. Only the stone framework of beams now stands.

Name of Taluka: Mandvi
Name of Town: Mandvi
Location Code: 40105000

(Rukmavati bridge)

One of Gujarat's prettiest beaches is Mandvi on the northern coast of the Gulf of Kachchh. Mandvi, founded in 1581 A.D. is an ancient seaport. It is well known for its production of handicraft items particularly its relief, filigree and enamel work and its virtually unspoilt sea beaches. The Rukmavati Bridge is the longest stone bridge, built in 1883 A.D. and the Vijay Vilas palaces are the major tourist spots in this destination. Situated near Mandvi town, which has many buildings of the Jadeja Rajput rulers of Kachchh district, the beaches of Mandvi have pretty sands and good views. Other beaches are Pingleshwar and Ashamata.

Kachchh Desert Sanctuary

The desert sanctuary is situated at about 115 km from Bhuj city. Two decades ago, flamingoes used to come every year in such large numbers that there used to be a Flamingo City with thousands of mud nest far away from human population and near the border area. Now a days , flamingos are found scattered throughout Kachchh area near water spots and small lakes. Apart from flamingos, a variety of desert birds and chinkaras are seen. Another of Gujarat's many endemic species is the Asiatic wild ass of the Little Runn of Kachchh sanctuary, its only

other habitat in India being the cold desert of Ladakh. The 4850 sq. km sanctuary, one of the largest in India has a sizable population of the Chinkara gazelle, Nilgai, antelope, the endangered Indian wolf, jackal, desert gerbil and pale and long eared hedgehog and other mammalian inhabitants of the Little Rann of Kachchh.

The Banni area of Kachchh

(Banni huts)

Touring the Banni area of Kachchh, and the countryside south and east of Bhuj, offers a glimpse of colourful people. Rakishly turbaned herdsmen leading camel, cattle, sheep, goat and other livestock to pasture, women hard at work and on embroidery and other handicrafts for a second income. The highlight of a trip to Gujarat for many travellers is the variety of handicrafts produced by the villages of Kachchh district, set between the desert plains of the Rann and the coastlands of the Gulf of Kachchh. The crafts of Kachchh district are well known for their delightful array of colours and motifs. Master weavers in Kachchh, some of them national award winners, work on traditional pit-looms and produce intricately woven fabrics for floor, table and bed coverings, cloth bags, shawls, quilts, and dress materials. The woven fabric is printed using carved wooden blocks, filled with herbal, mineral and other natura l dyes.

(X) Major characteristics of the district, contribution of the district in the form of any historical figure associated with the district

Kachchh district is endowed with economic resources such as agriculture land. This district is famous for its wheat and cotton cash crops. Along with these cash crops such as Bajri, Jowar, paddy, sugarcane are also grown in this district. Various types of minerals are available in the district. Among them Red Octine, white clay, Iron Clay, Bauxite, Fire clay, Lignite, Lime stone, Silica Sand, are very important Many industries have been established by Government and Private Sector. These industries are important from the point of view of their employment in this district. Minor portion of this district is covered with forest. More than 6.32% total geographical area of this district/state is under forest. The chief forest products are Gorad, Baval, Vikalo, Ingor, Saledi, Dhaveda, Sajad, Teak, Desh babul, Arduso and Semal.

In this district, generally the main community is Charan. The Charan community is engaged in cattle rearing in jungles or in agricultural profession and is viewed as a backward community. The Charans who have influenced the land of Kachchh with their songs and verses (duhas) of bravery. The Charan community has by now adopted the life style and customs of Brahmin or Kshatriya community with the change of time.

Kachchh seems to have alienated from all other districts of Gujarat. It is the biggest district of Gujarat. The population is comparatively very thin. Major part of Kachchh is of course covered by the deserts. It has its own personality and character. It is said, "The winter is better at Sorath area and summer is better at Gujarat, monsoon at Wagad and Kachchh is better for all seasons".Kachchh is situated on the western end of the state. The importance of Kachchh is mainly because of its borders with Pakistan. Hence, diplomatically and militarily it has assumed more important place in Gujarat.

If any one deserves the credit of adding a touch of exotic colour to the monochromatic desert scopes of the Rann of Kachchh and the arid, semi desert scrubby grasslands of Banni, it is the embroiders. Techniques rage with the community and region look for the simple needle work but exquisite effects of Bavalia embroidery to the fabulous bright yellow and red Banni embroidery, both from the grass lands of Banni. Kachchh also specializes in block printing and vegetable dyes. Paraffin wax resists, patricate printing material and bright Ajrakh prints are still used, though now synthetic dyes and modern techniques have been introduced as time saving measures.

Kachchh has gifted a number of great personalities to Gujarat. The modern history can never forget patriots like Shyamji Krishna Varma, archaeologist like Bhagwanlal Indraji and botanist like Jaikrishna Indraji. The folk tale teller Dulerai Karani, researcher Ramsinhji Rathod and short story writer Jayant Khatri are few others to be named.

Shymaji Krishna Varma (1858-1930)

The learned intellectual, a scholar of Sanskrit and perhaps the first Gujarati militant freedom fighter, Shyamji was born in a poor family of Kuchchh-Mandvi. He went to Bombay at the age of 18 and obtained commendable command over Sanskrit and English literature. He came in contact with Swami Dayanand Saraswati and could not avert the influence of Arya Samaj and patriotism. He went to England in 1879 and graduated from Oxford University in 1883. He became a member of the Royal Asiatic Society there. He read his paper at the eastern conference at Berlin as a representative from India. He had already earned a name as an outstanding scholar of Sanskrit when he was only 26 years old. Shyamji came back to India in 1885 and served as 'Deewan' with the states of Ratlam, Udaipur and Junagadh. He felt sick with the scheming politics of the states and the shrewd tactics of the British. He ultimately decided to settle abroad and open a fresh front there against the atrocious rulers. He founded Indian Home Rule Society and India House in England. He also started publishing 'India Sociologist' to express his views. He created such an impact that a demand was raised in the parliament to exterminate him from England. He left for Paris and continued with his crusade. He died in Geneva.

(xi) Scope of Village Directory and Town Directory :

As mentioned earlier, the District Census Handbook is brought out in two parts-Part A and Part B. Part A covers the non-census data of village direc-tory and town directory whereas part B covers the primary census abstract data of 2001 Census. The scope of village directory and town directory is discussed below.

Scope of Village Directory

For the census work, the villages in the district have been arranged taluka wise and within the taluka they are shown location code wise. Each village is assigned a location code number for the purpose of identification. In 2001 Census, all the villages have been given unique 8-digit code number, which will remain constant across the census, and shall make it easy to do comparative study. Eight digit code's last two digits are especially provided to take into account exigencies arising due to jurisdictional changes of villages by partition, amalgamation etc. This time it has been kept 00'. Prior to the village directory information, a map and alphabetical list of villages for each taluka is given in Part A. Village directory contains the non-census data of each village. It gives the village wise basic information relating to infrastructure and amenities available in the sphere of education, medical, drinking water, power supply, post and telegraph, communications, approach road to village and distribution of land use area. In addition, it contains information about total area of each village, total population and number of households and the nearest town and its distance from the village. The information on number of households and total population has been included with a view to examine the co-relation of amenities with the number of households and population they serve. If an amenity is not in existence in the referent village, the distance in broad ranges from the nearest place along with name, where the amenity is available is given. The broad range are (-5 kms), (5-10 kms.) and (10+ kms.). Some additional information has been added viz.(1) Number of Banks, (2) Credit Societies, (3) recreational and cultural facilities, (4) Receipt of Newspaper / Magazine, (5) Income & Expenditure of the village and (6) Name of the three most important commodities imported, manufactured/ produced & exported. One information has been deleted this time, i.e., Market & Hat facility.

The village directory also carries the following appendices.

Appendix-I	It gives the taluka wise abstract of educational, medical and other amenities available in the villages of the district.
Appendix-I-A	Indicates number of villages Taluka wise having one or more primary schools.
Appendix-I-B	Indicates number of villages Taluka wise having primary, middle and secondary schools.

Appendix-I-C	Shows number of villages Taluka wise with different sources of drinking water facilities.
Appendix-II	Indicates the list of villages with 5,000 and above population which do not have one or more important amenities.
Appendix-II-A	Indicates list of Census Towns which do not have one or more amenities.
Appendix-III	It gives the land utilization data in respect of Census Towns/non-municipal Towns.
Appendix-IV	Taluka wise list of inhabited villages where no amenity other than drinking water facility is available.
Appendix-V	Summary showing number of villages not having Scheduled Castes population.
Appendix-VI	Summary showing number of villages not having Scheduled Tribes population.
Appendix-VII A, VII B	The appendix shows the list of villages according to proportion of the Scheduled castes and Scheduled Tribes to the total population by ranges.
Appendix-VIII	Indicates Taluka wise number of villages under each Gram Panchayat.
Appendix-IX	Shows number of different types of girls school in a village.

Scope of Town Directory

Town Directory covers the non-census data for each town. It presents important and useful information like civic and other amenities available in all the towns of the district. The information in town directory is covered in following seven statements, viz. statements I to VII.

Statement-I	Town wise class, name, civic administrative status of the town, its area, growth rates, density and sex ratio.
Statement-II	Physical aspects of each town.
Statement-III	Income and expenditure of each town.
Statement-IV	Civic and other amenities in respect of each town.
Statement-V	Availability of medical, educational, recreational and cultural facilities in each town.
Statement-VI	Trade, commerce, industry and banking activities in each town.
Statement-VII	Civic and other amenities in slum areas of each town.

In all the Statement except VII the towns are arranged in the alphabetical order within the district. The details of these statements are given in the analytical portion of the town directory. In addition to the above statements, an appendix showing the towns with their outgrowths with population , is also given after the town directory statements.

PART – A
VILLAGE AND TOWN DIRECTORY

SECTION – I VILLAGE DIRECTORY

Section – I Village Directory

(a) NOTE EXPLAINING THE ABBREVIATIONS USED IN THE VILLAGE DIRECTORY

The "Village Directory" is one of the traditional compilations of the Census. It gives the list of villages, their location numbers, their area, population, number of households, amenities such as educational, medical, drinking water, post and telegraph, commercial and co-operative banks, agricultural non-agricultural and other credit societies, recreational and cultural facilities, communication, approach to village, nearest town with a distance, power supply availability of newspaper and magazines, most important commodity manufactured and land use of each village.

Village is a statutory recognized unit having a definite boundary and separate land records. In case, a complete village is treated as an outgrowth of urban agglomeration, data on amenities for that village have not been given in the Village Directory but shown along with the urban component. The villages which are consider as a Census Town, the amenities data are shown in the Town Directory. For those villages which have partly merged in an outgrowth of U.A., the amenities data are shown in the Village Directory for that particular village.

The 'un-inhabited' villages (villages with no population) have been indicated as such after furnishing details in columns 1 to 3 i.e., Serial number, Name of village & location code number and area of the village against column no. 4 to 18. The land use data for such villages are shown in col. 19 to 23

The Village Directory format has 23 columns and the details given under each column are for the village are as follows:-

Column 1 : Serial Number

Self explanatory. All the villages within the Taluka/ CD Block are presented serially in the ascending order of their location code number.

Column 2 : Name and Location Code Number of village.

The name and location code number of the village are shown against these columns. This also includes the forest and uninhabited villages.

Column 3 : Area of the village

The area of the villages in hectares are given. Wherever the area figures was not furnished by the concerned department the column is left blank.

Column 4 : Total population

The total population of the village as per 2001 Census is given against this column.

Column 5 : Number of households

The number of households as per 2001 Census is given in this column.

Amenities :

In column 6 to 23, availability in respect of different amenities such as education, medical, drinking water, post, telegraph, banks, credit societies, communication, power, approach road etc. in each village has been depicted with appropriate codes against the column concerned. Wherever the amenities are not available in the village, a dash (-) is shown in the column and next to it in brackets the distance in broad ranges viz.< 5 kms., 5-10 kms. and 10+ kms of the nearest place where the facility is available is given. Column wise details are given below :

Column 6 : Educational

Classes upto class VII included in Primary School. This will include nursery school, kindergarten school. Pre-basic school, pre-primary school, junior basic school upto class VII.

Classes from VIII to X included in higher secondary school. Classes XI and XII are included in senior secondary school.

Accordingly any of the following types of institutions if exists within the village is shown as per codes given below :

(i)	Primary School	P
(ii)	Middle School	M*
(iii)	Higher Secondary School	S
(iv)	Senior Secondary School	PUC
(v)	College	C
(vi)	Industrial School	I
(vii)	Training School	Tr
(viii)	Adult literacy class/centre	AC
(ix)	Others (specify) e.g. Sanskrit Pathshala, Senior basic school, Navodaya Vidyalaya, Makhtab, etc.	O

More than one institution of a type in the village is indicated by the number within brackets against the abbreviation, e.g. P(3), M(4), etc.

Note :*- There is no Middle school in the Gujarat State.

Column 7 : Medical

Availability of medical facility within the village is indicated by following codes :

(i)	Allopathic Hospital	H
	AyurvedicHospital	HA
	Unani Hospital	HU
	HomeopathicHospital	H Hom
(ii)	Allopathic Dispensary	D
	Ayurvedic Dispensary	DA
	Unani Dispensary	DU
	Homeopathic Dispensary	D Hom
(iii)	Maternity & Child Welfare	MCW
(iv)	Maternity Home	MH
(v)	Child Welfare Centre	CWC
(vi)	Health Centre	HC
(vii)	Primary Health Centre	PHC
(viii)	Primary Health Sub-Centre	PHS
(ix)	Family Welfare Centre	FWC
(x)	T.B. Clinic	TB
(xi)	Nursing Home	NH
(xii)	Registered Private Medical Practitioner	RMP
(xiii)	Subsidised Medical Practitioner	SMP
(xiv)	Community Health Worker	CHW
(xv)	Others	O

More than one institution of a type in the village is indicated by the number within brackets against the abbreviations, e.g. H(3), D(4), etc.

Column 8 : Drinking Water

The type of the drinking water supply sources available within the village are indicated by codes as follows :

(i)	Tap Water	T
(ii)	Well Water	W
(iii)	Tank Water	TK
(iv)	Tubewell Water	TW
(v)	Handpump	HP
(vi)	River Water	R
(vii)	Canal	C
(viii)	Lake	L
(ix)	Spring	S
(x)	Others	O

Column 9 : Post, Telegraph and Telephone

It is indicated by codes as shown below whether within the village exists the following amenities

(i)	Post Office	PO
(ii)	Telegraph Office	TO
(iii)	Post & Telegraph Office	PTO
(iv)	Telephone Connection	PH

Column 10: Commercial and Co-operative Banks

If the village is served by any banking service, commercial bank, Co-operative bank etc.

the same is indicated in codes mentioned below along with the number of banks in brackets. If not available the distance of nearest place where the facility exist is given:

(i)	Commercial Bank	CM
(ii)	Co-operative Bank	CP

Column 11: Credit Societies

If the village enjoys the services of Credit Societies i.e. Agricultural Credit Societies, Non Agricultural Credit Society or Other Credit Societies, the same is indicated in codes mentioned below along with the number of such societies in brackets. In case the facility is not available within the village the

distance of the nearest place where such facility exist is given :

(i)	Agricultural Credit Society	ACS
(ii)	Non- Agricultural Credit Society	NCS
(iii)	Other Credit Society	OCS

Column 12 : Recreational and cultural facilities

If facilities such as Cinema/Video hall, Sports Club, Stadium/Auditorium is available in the village. The same is recorded in these columns. If not available the particulars of the nearest place with the facility is recorded. The information is indicated in codes mentioned below along with the number of such facilities in brackets:

(i)	Cinema / Video Hall	CV
(ii)	Sports Club	SP
(iii)	Stadium / Auditorium	ST

Column 13 : Communications

If the village is served by any mode of public / private transport like Bus, Railway station or Navigable water ways they are to be mentioned as follows:

(i)	Bus	BS
(ii)	Railway Station	RS
(iii)	Navigable Waterway	NW

Column 14 : Approach to village

Approach to village refers to the state of road leading to village. The approach to the village is indicated in following codes :

(i)	Paved Road	PR
(ii)	Mud Road	MR
(iii)	Foot Path	FP
(iv)	Navigable River	NR
(v)	Navigable Canal	NC
(vi)	Navigable Waterways other than River, Canal	NW

Column 15 : Nearest Town and distance

The distance is given in kilometers in brackets against the name of the town nearest to the village.

Column 16 : Power supply

Availability of Power Supply in the village, whatever may be the form of its use is given by using following codes :

(i)	Electricity for domestic use	ED
(ii)	Electricity for agricultural use	EAG
(iii)	Electricity for other purposes	EO
(iv)	Electricity for all purposes	EA

Column 17 : News Paper / Magazine

If village receives any News Paper/Magazines the same is noted in this column using following codes :

(i)	News Paper	N
(ii)	Magazine	M

Column 18 : Most important commodities manufactured

The name of three most important commodities manufactured in the village is recorded against this column.

Column 19 to 23 : Land use i.e. area under different types of land use

Land use data maintained by the State/ UT Govts. are furnished against these columns. The data concerning area under Forest, Irrigated land (by source), Un-irrigated land, Cultivable waste and Area not available for cultivation in the village are shown against these columns. The area figures are given in hectare(s) up to one decimal. Desh '-' is recorded wherever the information is not made available by the concerned department. The codes used for different types of irrigation facilities available in the village are indicated below:

(i)	Government Canal	GC
(ii)	Private Canal	PC
(iii)	Well (without electricity)	W
(iv)	Well (with electricity)	WE
(v)	Tubewell (without electricity)	TW
(vi)	Tubewell (with electricity)	TWE
(vii)	Tank	TK
(viii)	River	R
(ix)	Lake	L
(x)	Waterfall	WF
(xi)	Others	O
(xii)	Total	T

The village directory also carries the following appendices.

Appendix-I	It gives the abstract of educational, medical and other amenities available in villages Taluka/ C.D. Block wise of the district.
Appendix-I-A	Indicates number of villages Taluka/ C.D. Block wise having one or more primary schools.
Appendix-I-B	Indicates number of villages Taluka/ C.D. Block wise having primary, middle and secondary schools.
Appendix-I-C	Shows number of villages Taluka/ C.D. Block wise with different sources of drinking water facilities.
Appendix-II	Indicates the list of villages with 5,000 and above population which do not have one or more important amenities available.
Appendix-II-A	Indicates list of Census Towns which do not have one or more amenities.
Appendix-III	It gives the land utilization data in respect of Census Towns / non-municipal Towns.
Appendix-IV	Taluka/C.D. Block wise list of inhabited villages where no amenity other than drinking water facility is available.
Appendix-V	Summary showing number of villages not having Scheduled Castes population.
Appendix-VI	Summary showing number of villages not having Scheduled Tribes population.
Appendix-VII-A VII-B	The appendix shows the list of villages according to proportion of the Scheduled Castes and Scheduled Tribes to the total population by ranges.
Appendix-VIII	Indicates Taluka/C.D. Block wise number of villages under each Gram Panchayat.
Appendix-IX	Shows number of different types of girls school in the village.

District (Rural) Total :				**62**	-	-	-

Note : *In Gujarat State the levels of education are classified as under

(i) Primary School (From Std. I to VII passed)

(ii) Secondary/Matriculation (From Std. VIII to X passed)

(iii) Higher Secondary (From Std. XI to XII passed). Hence details under column 6 are not shown.

SECTION – II – TOWN DIRECTORY

TOWN DIRECTORY

(a) NOTE EXPLAINING THE ABBREVIATIONS USED IN THE TOWN DIRECTORY

Town Directory statements (I to VII)

Statement I : Status and Growth History

Column (2) : Class, name and civic administration status of town :

Class has been introduced to facilitate analysis of town directory data at the state and all India levels. It is presented according to 2001 Census Population of the town as follows :

Population	Class
100,000 and above	I
50,000 - 99,999	II
20,000 - 49,999	III
10,000 - 19,999	IV
5,000 - 9,999	V
Below 5,000	VI

Town with a population of one lakh (1,00,000)and above is treated as a city.

The civic administration status of the towns is indicated within bracket against the name of the town. The following abbreviations are used to denote civic status of town.

(I)	Municipal Corporation	M. Corp.
(II)	Municipal Committee	MC
(III)	Municipal Council	M Cl
(IV)	City Municipal Council	CMC
(V)	Town Municipal Council	TMC
(VI)	Municipal Board	MB
(VII)	Municipality	M
(VIII)	Cantonment Board/Cantonment	CB
(IX)	Notified Area	NA
(X)	Notified Town	NT
(XI)	Notified Area Committee/Notified Area Council	NAC
(XII)	Notified Town Area	NTA
(XIII)	Industrial Notified Area	INA
(XIV)	Industrial Township	ITS
(XV)	Township	TS
(XVI)	Town Panchayat	TP
(XVII)	Nagar Panchayat	NP
(XVIII)	Town Committee/Town Area Committee	TC
(XIX)	Small Town Committee	ST
(XX)	Estate office	EO
(XXI)	Gram Panchayat	GP
(XXII)	Census Town	CT

Others columns need no comments.

Statement II - Physical Aspects and Location of towns, 1999.

Column 3 to 5 : Physical Aspects

In this columns the Rainfall and Maximum & Minimum Temperature of the town is recorded.

Column 6, 7 and 8 :

Name of the State headquarters, District headquarters and Sub-Divisional headquarters with distance from the referent town in kilometers, is to be recorded respectively. If the names mentioned in these columns are the same as the referent town itself, the distance is recorded as (0) zero.

Column 9 & 10 :

Name of the nearest city with one lakh and more and five lakhs and more population are recorded.

Column 11, 12 and 13 :

If referent town enjoys the facility of railway station, bus route facility or navigable river/canal. Its name is to be mentioned. If not available, then the name of nearest place with distance, where such facility exists is to be mentioned.

Statement III : Municipal Finance 1998 – 1999

Item-wise amount of receipt and expenditure in thousand rupees, relating to municipal finance of the town for the year 1998-99 is to be recorded.

Statement IV : Civic and Other amenities, 1999

Column (1 to 5) : Self explanatory.

Column (6) : Road length (in kms.)

Information about kutcha / pucca road is to be recorded separately for the roads within the limits of the referent town.

(i)	Pucca Road	PR
(ii)	Kutcha Road	KR

Column (7) : System of Sewerage

Generally, by sewerage system is implied the network of mains and branches of underground conduits for the conveyance of sewerage to the point of disposal. Sewers that carry only household and industrial wastes are called separate sewers, those that carry storm water from roofs, streets and other surface are known as storm water drains, while those carrying both sewage and storm water are called combined sewers.

The codes used for different types of drainage system are as follows :

(i)	Sewer	S
(ii)	Open Surface Drains	OSD
(iii)	Box Surface Drains	BSD
(iv)	Sylk Drains	SD
(v)	Cesspool method	CP
(vi)	Pit System	Pt
(vii)	Others	O

Column 8 to 11 : Number of latrines

Number of various types of latrines both Public and Private are given in these columns.

Column 12 : Method of disposal of night soil

The various prevalent method of disposal of night soil are given below with codes :

Head Loads	HL
Basket	B
Wheel Barrows	WB
Septic Tank	ST
Pit System	Pt
Sewerage	S
Others	O

Column 13 and 14 : Water supply

Source and capacity of storage system. The following codes are used in these columns:

Column 13 :

(i)	Tap water	T
(ii)	Tube-well water	TW
(iii)	Tank Water	TK
(iv)	Well Water	W

Column 14:

(v)	Over Head Tank	OHT
(vi)	Service Reservoir	SR
(vii)	River Infiltration Gallery	RIG
(viii)	Bore Well Pumping System	BWP
(ix)	Pressure Tank	PT

The information on major source of water supply are given in column 13 and the storage capacity against each in kilolitres (in bracket) are presented in column 14.

Column 15 : Fire Fighting Service

In case the fire fighting service is available in the referent town 'yes' is recorded. If the facility is not available within the town. The name of the nearest place having this facility with its distance from the referent town has been recorded.

Column 16 to 20 : Electrification (Number of connections)

Different types of electric connections have been shown in these columns, i.e. Domestic, Industrial, Commercial, Road lighting (points) & others.

Statement V : Medical, Educational, Recreational and Cultural Facilities, 1999

Column 1 to 3 : Self explanatory.

Column 4 & 5 :

The data covers all such medical institutions run by or aided by Government/Semi Government/Local bodies and Charitable institutions or Social agencies like the Missionaries. Where the family planning centres are attached to hospitals or maternity and child welfare centres or Primary Health Centres, may be treated as independent units and counted separately using following codes :

(i)	Hospital	H
(ii)	Dispensary	D
(iii)	Health Centre	HC
(iv)	Family Welfare Centre	FWC
(v)	T.B. Clinic	TB
(vi)	Nursing Home	NH
(vii)	Others	O

In case of more than one institutions of any type, it is indicated within brackets the number of such

institution (s) e.g. D(3), NH(8), etc. The institutions have further been distinguished by providing additional codes within the bracket as given below :

Ayurvedic	A
Unani	U
Homoeopathic	Hom

.Column 6 to 9 :

The codes used for these columns are as follows :

(i)	Arts only	A
(ii)	Science only	S
(iii)	Commerce only	C
(iv)	Arts & Science only	AS
(v)	Arts & Commerce only	AC
(vi)	Combined for all categories-Arts, Science and Commerce	ASC
(vii)	Law	L
(viii)	University	U
(ix)	Others	O

Column 10 : Recognized shorthand, typewriting and vocational training institutes

"Recognised" should mean recognised by some statutory authority, like education department, commerce department, labour department etc. of the government or semi government or autonomous bodies, public sector undertakings etc.

The following codes are used :

(i)	Vocational Training Institute	VT
(ii)	Shorthand	SH
(iii)	Typewriting	Type
(iv)	Shorthand & Typewriting	SH Type
(v)	Others	O

The vocational institutions like - Applied Art/ Painting college, Pharmacy college, B. Ed. College, Teacher's Training Institute, Music / Dance School, Nursing School etc. are covered under 'Others'.

Column 11 to 14 :

Classes upto class VII included in Primary School. This will include nursery school, kindergarten school. Pre-basic school, pre-primary school, junior basic school upto class VII.

Classes from VIII and X included in Higher secondary school. Classes XI and XII are included in senior secondary school.

Accordingly any of the following types of institutions if exists within the village is shown as per codes given below :

(I)	Primary School	P
(ii)	Middle School	M*
(iii)	Secondary School	S
(iv)	Senior Secondary School	PUC
(v)	College	C
(vi)	Industrial School	I
(vii)	Training School	Tr
(viii)	Adult literacy class/centre	AC
(ix)	Others (specify) e.g. SanskritPathshala, Senior basic school, Navodaya Vidyalaya, Makhtab,etc.	O

More than one institution of a type in the village is indicated by the number within brackets against the abbreviation, e.g. P(3), M(4), etc.

Note : *- There is no Middle school in the Gujarat State.

Column 15 : Adult literacy class/centres

This column has been introduced keeping in view the Minimum Needs Programme of the Planning Commission. There are number of Adult Education Centres which are included in these columns.

If an educational facility is not available in the town, the name of the nearest place and its distance in kilometres from the town where the facility is available is mentioned.

Column 16 : Working Women's hostels with number of seats

The number of working women's hostel if available in the referent town is mentioned with number of seats. If the facility is not available in the town the name of nearest place with distance where the facility is available is recorded.

Column 17 to 19 : Recreational and Cultural Facilities

Stadium, Cinema, Auditorium/Drama/Community Hall are covered under recreational & cultural facilities. The particulars of permanent recreational facilities are considered for these columns.

Column 20 : Public Libraries, Reading Rooms

Number of public libraries and reading rooms available in the referent town are recorded in codes as follows :

(i)	Public Library	PL
(ii)	Reading room	RR

Statement VI : Trade, Commerce, Industry and Banking, 1999

Column 3 to 8

Name of three most important commodities exported and names of three most important commodities manufactured in the town are recorded.

Column 9 : Number of Banks

Number of Banks available in the referent town both Commercial and Co-operative banks are recorded against this column.

Column 10 & 11 : Number of Agricultural Credit Societies and Non Agricultural Credit Societies

The total number of Agricultural Credit Societies and Non Agricultural Credit Societies in the referent town are recorded against these columns.

Statement VII : Civic and other Amenities in Slums, 1999

This is the statement on civic and other amenities in all slums whether notified or not and for all towns having statutory bodies, like Municipality, Municipal Corporation, Town area committee etc.

PART – B
PRIMARY CENSUS ABSTRACT

Primary Census Abstract

Brief note on Primary Census Abstract :

The first census of the third millennium and twenty first century the Census of India, 2001 was the 14th continuous and uninterrupted Indian census since 1872. Thus, 2001 Census will provide data on population and its characteristics marking transition from one century and millennium to another.

The gigantic operation of Population Enumeration (considered by many to be the single largest and complex peace time administrative exercise in the world) was made possible due to the door to door universal canvassing of the Household Schedule by about 2 million enumerators and supervisors covering 593 districts, 5,463 sub-district, 5,161 towns and 638,588 villages. The comprehensive Household Schedule which replaced the individual slip had three parts and two sides A and B. Part I contained the Location Particulars; Part II related to the Individual Particulars and Part III contained questions for Household engaged in cultivation/Plantation. The part II of the Household Schedule had 39 columns and 23 questions all of which were universally canvassed and no sampling was resorted to during enumeration.

Data Processing

A quantum leap was made in the technology front while processing the Census 2001 data both for Houselisting and Population Enumeration. The Census schedules for both the phases were scanned through high speed scanners in fifteen data centers across the country and hand-written data from the schedules were converted into digitized form through Intelligent Character Reading (ICR) software for creation of ASCII records for further processing. The designing and formatting of the Household Schedule had to be done very carefully using specialized software so as to ensure uniformity, which was an essential pre-requisite for scanning. The selection of appropriate state-of-art technology in data processing has made it possible to produce all the Houselisting as well as Population Enumeration tables on full count basis for the first time in the history of Census. For Census 2001, about 202 million schedules consisting of about 1,028 million records were scanned and processed within a span of only 10 months starting October, 2002.

Task Force on Quality Assurance

After the data is processed, it is expedient on the part of the data producing agency to satisfy itself about its quality before putting the same in public domain. This has to be done mainly through the process of internal consistency, comparison with similar data in the past and also through validation with likewise data if available, from external sources. Quite often the local knowledge and perception has to be brought into play to understand both the existing and the new emerging trends of population distribution and characteristics. The other very important aspect of the data quality is to ensure complete coverage of all geographical areas especially for the population enumeration phase where the data is disseminated right up to the village level in the rural areas and the ward level in the urban areas. Thus ensuring the complete coverage and correct geographical linkage of each enumeration block was one of the major planks of the quality control, specially for small area population statistics.

A very comprehensive check and edit mechanism was put in place to objectively examine the preliminary Census 2001 Population Enumeration results and finally clear them for use. The responsibility of the final clearance of data was with the Task Force on Quality Assurance (TFQA), headed by the Registrar General and Census Commissioner, India. The other members of the TFQA were the Heads and senior officers of the Census Division, Data Processing Division, Map Division, Demography Division and Social Studies Division. The Directors of Census Operations were co-opted as members whenever the TFQA discussed the data for their States/Union territories. The Directors and their senior officers were required to make detailed presentations of data for their own state both in respect to the quality and the coverage and only after the full possible cleared.

There has been a major departure in Census 2001 from the past in respect of the procedure followed for finalization of the Scheduled Castes and the Scheduled Tribes population. In the earlier censuses, the total Scheduled Castes and Scheduled Tribes populations were finalized at the time of the manual compilation of

the Primary Census Abstracts (PCA) at the Regional Tabulation Offices which were specially set up for this purpose. The individual Scheduled Castes and the Scheduled Tribes population for each state was finalized much later based on manual coding done by the coders. In 2001 Census, each individual Scheduled Caste and the Scheduled Tribe have been coded directly on the computers by the Data Entry Operators through a process known as Computer Assisted Coding (CAC) and taken up along with the processing of PCA data. The CAC process involves pulling down, from the relevant dictionary of the Scheduled Castes and the Scheduled Tribes, on the computer screen and coding from the dictionary by referring to the image of the specific individual entry in the Household Schedule appearing on the screen. The CAC of the response on Religion wherever required, was also undertaken along with the processing of PCA. This is because the Scheduled Castes status had to be determined in relation to the religion of the individual. Two Special Task Forces, one on Religion and the other on Scheduled Castes/Scheduled Tribes were constituted for scrutiny and appropriate classification of these responses.

The main task of the Special Task Force on Religion was to appropriately merge or group the new responses encountered and code it into the appropriate religious community based on available literature and local knowledge. The Special Task Force on Scheduled Castes and Scheduled Tribes examined the different Scheduled Castes and Scheduled Tribes entries encountered and classified these into appropriate category of the Scheduled Castes or the Scheduled Tribes principally based on the Presidential Notification and the available literature. Thus a very systematic and scientific mechanism was operationalised to firm up the individual religion and the individual Scheduled Castes/Tribes returns. The Scheduled Castes and the Scheduled Tribes population in 2001 Census, is thus being finalized by aggregating the population data for individual Scheduled Castes and the Scheduled Tribes at appropriate geographical levels.

The entire work relating to the data validation and scrutiny was completed by all the States/Union Territories under the overall supervision and monitoring of the Census Division of the Office of the Registrar General, India with active cooperation and support of the Social Studies Division, Data Processing Division, Data Dissemination Division and Map Division.

Primary Census Abstract

The Primary Census Abstract which is yet another important publication of 2001 Census gives basic information on Area, Total Household, Total population, Scheduled Castes, Scheduled Tribes population, Population in the age group 0-6, Literates, Main workers and Marginal workers classified by the four broad industrial categories, namely (i) Cultivators, (ii) Agricultural labourers (iii) Household Industry Workers and (iv) Other workers and also Non-workers. The characteristics of the Total population includes Scheduled Castes, Scheduled Tribes, Institutional and Houseless population and are presented by sex and rural-urban residence. This data is presented at different levels, namely India, State/Union Territories, Districts and Cities, Urban Agglomerations (Population 1,00,000 and above) in three different tables. In addition, the Appendix of said publication provides Houseless and Institutional Households and their population by residence and sex for 2001 for India, State and Union territory.

Apart from the India and State/Union Territory volumes for Primary Census Abstract, the District Census Handbook contains District Primary Census Abstract, Appendix to District Primary Census Abstract, Primary Census Abstract for Scheduled Castes, Primary Census Abstract for Scheduled Tribes, Village Primary Census Abstract and Urban Primary Census Abstract of the concerned district in the state.

It was for the first time at the 1981 Census that the Primary Census Abstract (PCA) was brought out for the Scheduled Castes and the Scheduled Tribes separately on the pattern of General Primary Census Abstract. This practice was continued in 1991 also. In the 1961 and 1971 Censuses, such data were made available in Table C-VIII-Social and Cultural table and to some extent in the series Special Tables for Scheduled Castes/Scheduled Tribes'.

The format of Primary Census Abstract has been restructured slightly in the 2001 Census as compared to that of 1991 Census. The nine-fold industrial classification of main workers given in the Primary Census Abstract of 1991 Census has been discontinued and its place, four-fold industrial classification of both 'main workers'and 'marginal workers'are included. In 1981 census only main workers were presented in to four categories. One of the novel features of the primary census abstract of 1991 census was the presentation of

data of the population of age group 0-6 is continued in 2001 Census also. This will help the data users in better analysis and understanding of this literacy data.

Level of presentation in District Census Handbooks:

The Primary Census Abstract data in different PCAs are presented at different levels. The level of presentation of Primary Census Abstracts are as under:

The PCA Data for villages was presented CD Block wise for the first time in 1991 Census. This practice is continued in 2001 Census also. The data for each CD Block is presented both for rural and urban areas separately. All the villages within the CD Block constitute the rural portion and the Census Towns and Outgrowths are shown under the urban portion of the CD Block. In case a CD Block is spread over two or more districts, than portion which falls within the district is presented, the data pertaining to remaining portion of the CD Block is presented in the concerned District Census Handbook. The data in the Urban Primary Census Abstract for each town as well as for town with outgrowths in the district are presented. The data for all the wards and the outgrowths of the town(s) are also presented separately below the concerned town(s).

The District Primary Census Abstract is presented in 59 columns. The Primary Census Abstract for Scheduled Castes and Primary Census Abstract for Scheduled Tribes are presented in 52 columns. The Village Primary Census Abstract and Urban Primary Census Abstract are presented in 58 columns.

The concepts and definitions used in the column heading are explained under the sub heading 'Census Concepts' in the Analytical Note. The term 'Total Population' includes the Scheduled Castes, the Scheduled Tribes, the Institutional and the Houseless populations. The explanation regarding area figures presented at various level in the Primary Census Abstracts are as follows:

Area Figures

The area figures supplied by local revenue authorities of the district in respect of tahsils, Police Stations and by the local bodies in respect of towns are given in square kilometers. The area figures of the villages supplied by the Tahsildars in acres have been converted and shown in hectares. The area figures of the CD Block is the total of the village areas coming under each CD Block. The area figures for the district are the same as adopted by the Surveyor General of India to maintain uniformity at the national level. The total area figures of all the tahsils/CD Blocks within the district may not tally with area figures of the district because former represents land use area only. Similarly, the total of all the villages may not tally with the entire rural of Police Station/Tahsil. The difference may be due to the fact that while the area covered by hills, forests and rivers etc, have been accounted in the Tahsils and P.S. level the same may not be covered under the area of the villages. Apart from this it may also differ due to varying methods of computation adopted at different levels.

An appendix to District Primary Census Abstract has also been furnished showing urban enumeration blockwise particulars on Total Population, the Scheduled Castes Population and the Scheduled Tribes Population for each town. Tribes Population for each town.

The following Abbreviations have been used in the Primary Census Abstract for facility of presentations:

1	Municipal Corporation/ Corporation	M.Corp.
2	Municipality	M
3	Municipal Council	MCI
4	Cantonment Board/Cantonment	CB
5	Notified Area/Notified Area Committee/Notified Committee	NAC
6	Industrial Notified Area	INA
7	Gram Panchayat/ Village Panchayat	VP
8	Nagar Panchayat/ Town Panchayat	NP
9	Census Town	CT
10	Total	T
11	Rural	R
12	Urban	U

The following conversion factor has been used for converting areas into hectares and hectares into km^2

Acres x 0.40467 = hectares

100 Hectares = 1 Km^2

***** These figures represent 'Geographical area' figures supplied by the Surveyor General. Figures for urban area are those supplied by the local Bodies. Area figures for rural are derived by subtracting the urban area from the total area of the District. The total of the area figures of talukas will not tally with the district figures because the former represents 'Land Use Area' and are derived from the figures supplied by the Director of Land Records.

Note: As the data of 2001 Census is not available, data of 1991 Census have been discussed in Annexure II and III. The data of 1991 and 2001 Censuses have been discussed in Annexure IV, VI, VII and VIII, while Annexure V provides the recast data of 1991 Census and separate data of 2001 Census.

ANNEXURE – II

FERTILITY AND MORTALITY-1991 CENSUS

Fertility Level:

Population is a dynamic variable and keeps on changing. Increase due to birth and decrease due to death affect the population size of an area. Thus the birth and death are the two most important vital events. Natural increase is the excess of population by births over decrease of population by deaths at a given point of time. The births have direct correlation with the fertility.

The data on fertility levels and trends as revealed by the fertility indices of the 1991 Census like Crude Birth Rate (CBR), Age Specific Fertility Rate (ASFR) and Total Fertility Rate (TFR) are presented and analyzed below. The Definitions and concepts of fertility indices frequently used have already been explained in Analytical Note.

Death Rate:

Death process in demographical terminology is called as mortality. The rate at which death events occur reveal about the standard of living and State of health. Statistical data on causes of death help us in controlling the spread of diseases and suggests new curative methods to medical authorities.

Child Mortality:

Information about questions on children ever born and children surviving canvassed for all ever married women was tabulated by age of the mother. From this estimate of child mortality have been worked out by using Brass technique.

Source: Occasional Paper No 1 of 1997.

The Annexure III shows various fertility indicators of all the districts and State as per 1991 Census. It can be observed that Kachchh district has Crude Birth Rate (CBR) of 34.4 and Total Fertility Rate (TFR) of 4.4, both these rates are higher than the State CBR and TFR of 33.6 and 4.2 respectively. Total Marital Fertility Rate (TMFR), General Fertility Rate (GFR) and General Marital Fertility Rate (GMFR) of Kachchh district were 5.9, 144 and 190 respectively, while TMFR, GFR and GMFR of Gujarat State were 5.4, 136 and 175 respectively.

Ratio of the number of births of children in the age group 0-4 and 5-9 years per 1,000 women are given above. It is seen that CWR (0-4) of Kachchh district was 513, which was higher than the State CWR of 467 and CWR (5-9) of the district was 650 was higher than the State CWR (5-9) of 571.

Mean age at marriage means age (in completed years) at which the woman was married. In case a woman was married more than once, the age at which she was married first, was recorded. The mean age at marriage in the district in 1991 Census was 19.0 and the same for Gujarat State was 19.0. The mean age at marriage of Kachchh district was same as of the State, in 1991 Census.

Source: Gujarat State District Profile 1991.

As per above Statement there were 4.7 children born per ever married woman in the age group of 45-49 with 4.2 surviving children per woman in Kachchh district which were higher than corresponding figures for the State.

ANNEXURE – IV

PERCENTAGE DISTRIBUTION OF MIGRANTS BY PLACE OF BIRTH/ PLACE OF LAST RESIDENCE, 1991 AND 2001 CENSUSES

Migration

Migration is a factor in changing the size and structure of the population. The migration process affects the areas to which migrants have moved and areas which they have left. Migration is a form of geographical mobility between one geographical unit to another, involving a change of residence from the place of origin/birth to the place of destination or place of new settlement from the last residence. A person is considered as a migrant by place of birth if the place in which he is enumerated during the Census is other than the place of birth. Similarly a person is considered as a migrant by place of last residence if the place in which he is enumerated during the Census is other than his place of immediate last residence.

Internal and International Migration

The migration movements are of four types –

1. Migration within the district of enumeration (intra-district migr ation)
2. Migration from one district to another but within the State
3. Migration from one State to another State of the country (inter-State migration) and
4. Migration from one country to another country.

The first three together constitute internal migration while the last type of movement is called international migration.

Migration by place of birth:

The absolute number and percentage distribution of migrants by place of birth in total population of Kachchh district and the State at 1991 and 2001 Censuses are as following.

PERCENTAGE DISTRIBUTION OF MIGRANTS BY PLACE OF BIRTH-1991 CENSUS

Source: Gujarat State-D-Series Tables-2001

As per 1991 Census there were 13,572,140 migrants in Gujarat whose place of birth was different than the place of enumeration, this number increased to 18,810,592 in 2001 Census. Out of such migrants in 1991 Census, 58.0 per cent were born elsewhere in the district of enumeration, 30.1 per cent were born in other districts of the State, 11.2 per cent were born in other States of India and 0.7 per cent were born in other countries. There were 4,170 migrants in 1991 who were "Unclassified" while no migrant was reported under this category in 2001. As per 2001 Census 56.9 per cent were born elsewhere in the district of enumeration, 29.2 per cent were born in other districts of the State, 13.4 per cent were born in other States of India and 0.4 per cent were born in other countries.

In Kachchh district there are 520,190 migrants as per 2001 Census whose place of birth is other then the place of enumeration, such migrants as per 1991 Census were 405,185. From the total 520,190 migrants in 2001 Census,73.5 per cent migrants have their place of birth elsewhere in the district,other than the place of enumeration, this proportion was 70.5

per cent in 1991 Census. The percentage of migrants, whose place of birth was in other districts of the State as per 2001 Census and 1991 Census are 14.3 and 14.8 respectively. Migrants born in other States of India, as per 2001 and 1991 Censuses are 10.3 per cent and 11.3 per cent. Percentage of migrants born in other counties, as per 1991 Census was 3.4 which decrease to 1.8 per cent in 2001 Census.

INTER STATE IN-MIGRANTS TO GUJARAT STATE AS PER 1991 CENSUS BY PLACE OF BIRTH

INTER STATE IN-MIGRANTS TO GUJARAT STATE AS PER 2001 CENSUS BY PLACE OF BIRTH

Place of Birth	Gujarat		Kachchh	
	Migrants	Percentage to Total Migrants	Migrants	Percentage to Total Migrants
1	2	3	4	5
Total Migrants	**2,520,676**	**100.0**	**53,740**	**100.0**
Madhya Pradesh	159,055	6.3	3,109	5.8
Maharashtra	734,945	29.2	7,832	14.6
Rajasthan	471,109	18.7	13,563	25.2
Uttar Pradesh	520,094	20.6	6,540	12.2
Other States	635,473	25.2	22,696	42.2

Source: Gujarat State-D-Series Tables-2001

The above Statements show migration in Gujarat and in Kachchh district from other States as per 1991 and 2001 Censuses. It can be seen that as per 1991 Census there were 1,520,421 persons in the State who were born in other States of India, this figure rose to 2,520,676 in 2001 Census. In 1991 out of such persons 34.4 per cent were born in Maharashtra while in 2001 only 29.2 per cent were born in Maharashtra. In 1991, as much as 22.2 per cent of inter State migrants were born in Rajasthan and 16.6 per cent in Uttar Pradesh whereas in 2001 the proportion born in Rajasthan and Uttar Pradesh was 18.7 and 20.6 per cent respectively. As per 1991 Census out of total inter State migrants 6.1 per cent were born in Madhya Pradesh, the proportion of the same, in 2001 Census, was almost equal at 6.3 per cent. The remaining 20.7 per cent were born in other States of India in 1991 Census while in 2001 Census 25.2 per cent were born in other States of India.

In Kachchh districts 53,740 migrants have their place of birth in other State of India as per 2001 Census. In 1991 Census such migrants were 45,682. From 53,740 migrants maximum 25.2 per cent migrants are from in Rajasthan, 14.6 per cent migrants are from Maharashtra, 12.2 per cent from Uttar Pradesh and 5.8 per cent are from Madhya Pradesh. Remaining 42.2 per cent are from other States of India. The State wise distribution of migrants, whose place of birth was other State in India, as per 1991 Census also shows the same pattern of coming to Kachchh.

Migration by place of last residence :

Distribution of migrants by place of last residence in Gujarat and Kachchh as per 1991 and 2001 Censuses and percentage distribution of in-migrants from other States to Gujarat by place of last residence are presented below.

DISTRICT CENSUS HANDBOOK : KACHCHH

DISTRIBUTION OF MIGRANTS BY PLACE OF LAST RESIDENCE IN GUJARAT - 1991 CENSUS

Place of Last Residence	Gujarat			Kachchh		
	Persons	Males	Females	Persons	Males	Females
1	2	3	4	5	6	7
Total Migrants	**13,664,201 (100.0)**	**4,189,602 (100.0)**	**9,474,599 (100.0)**	**412,402 (100.0)**	**138,547 (100.0)**	**273,855 (100.0)**
Last residence elsewhere in the district of enumeration	8,068,873 (59.1)	1,903,131 (45.4)	6,165,742 (65.1)	300,369 (72.8)	87,298 (63.0)	213,071 (77.8)
Last residence in other districts of the State	4,039,073 (29.6)	1,481,438 (35.4)	2,557635 (27.0)	58,409 (14.2)	23,689 (17.1)	34,720 (12.7)

Source: Gujarat State-D-Series Tables-2001

There were 13,664,201 migrants by place of last residence in Gujarat according to 1991 Census and as per 2001 Census there were 19,221,602 migrants in the State in this category. The proportion of male and female migrants whose place of last residence was elsewhere within the district of enumeration was 45.4 per cent and 65.1 per cent respectively in 1991 and the respective proportion was 52.4 per cent and 69.8 per cent in 2001 Census in the case of Gujarat State. The reason for higher proportion of female migration is marriage. As per 1991 Census, out of total migrants, 59.1 per cent of migrants were residing elsewhere in the district of enumeration, 29.6 per cent were those whose last residence was in other districts of the State while last residence of 10.7 per cent migrants was in other States of India and only 0.6 per cent were such whose last residence was in other countries. There were 3,810 migrants in the category titled " Unclassified ". In Gujarat as per 2001 Census, 63.7 per cent migrants were residing elsewhere in the district of enumeration, 24.6 per cent were such whose last residence was in other districts of the State while last residence of 11.4 per cent migrants was in other States of India and only 0.3 per cent were such whose last residence was in other countries. There were no migrants in the category titled "Unclassified"

As per 2001 Census in Kachchh district, there are 534,735 migrants whose place of last residence was other than the place of enumeration in 1991 Census, such migrants were 412,402. From total 534,735 migrants registered in 2001 Census, 78.6 per cent are from elsewhere in the district, 12.0 per cent are from other district of the State and 8.4 per cent are from other State of India. Only 1.0 per cent are from other countries. From 412,402 migrants of 1991 Census, 72.8 per cent were from elsewhere in the district. Percentage of migrants from other districts of the State were 14.2 per cent. 11.1 per cent were from other States of India and 1.9 per cent were from other countries.

Migration by reason:

The following Statement gives distribution of migrants by reasons of migration from other States of India.

MIGRATION FROM OTHER STATES OF INDIA BY PLACE OF LAST RESIDENCE IN GUJARAT 1991

Source: Gujarat State-D-Series Tables-2001

It can be seen form the data given above that the main reason for the migration was "Work/ employment". As much as 30.3 per cent of migrants moved due to work or employment as per 2001 Census.As per 1991 Census also, the highest proportion of 25.8 per cent of migration took place due to the same reason. In 2001, this was followed by 26.5 per cent of migration which was due to the reason of " Moved with household" and also in 1991 it was followed by 24.0 per cent of migration due to the same reason which was then titled as "Family Moved".In 2001, the proportion of migration due to marriage was 17 per cent while the same was comparatively higher at 22.5 per cent in 1991 Census.

ANNEXURE – V

BRIEF ACCOUNT OF MAIN RELIGIONS IN THE DISTRICT AS PER 1991 AND 2001 CENSUSES

Religion is the basic cultural characteristics of the population. In secular country like India several religions have thrived and every decennial Census provides an interesting picture of the religious persuasions of the people. The data on religion yielded by the Census are of immense use for the Anthropologists, Sociologists, Demographers, Administrators, Planners and also for laymen.

The six main religions are i) Hindu, ii) Muslim, iii) Christian, iv) Sikh, v) Buddhist, and vi) Jain were recorded. In respect of 'Others', the actual religion returned was recorded. If a person said that he has no religion, it was recorded accordingly and if any person refused to State his religion it was recorded as 'religion not Stated'.

Source: Gujarat State-C-Series Tables-2001

The Statement above gives the details of distribution of population for Gujarat State and Kachchh district by six major religions as per 2001 Census. The 2001 Census data reveals that the proportion of Hindus was 89.1 per cent in the State of Gujarat against 77.3 per cent recorded in Kachchh. In comparison to 1991 data a decline of 0.4 per cent is registered in proportion of Hindus at State level while in the district the proportion of Hindus has decreased by 1.0 per cent.

In Kachchh district percentages of population for Hindu religion are 77.3 and 75.4 as per 2001 and 1991 Censuses respectively. Muslim religion is reported by 20.8 per cent population, as per 2001 Census, while the same for 1991 Census was 19.6. Jain religion is

reported by 1.5 per cent, which is significantly less than that of 4.6 per cent of 1991 Census. Christian and Sikh religion are reported by 0.2 per cent population each. The percentages of Christians, Sikhs, Buddhists, Other religions and religion not Stated are negligible for both the Censuses of 2001 and 1991.

ANNEXURE-VI

MARITAL STATUS OF POPULATION AS PER 1991 AND 2001 CENSUSES

The details of sex-wise marital status for Gujarat State and Kachchh District as per 1991 and 2001 Censuses are given below:-

Source: Gujarat State -C- Series Tables-2001

The above Statements show marital status by sex in the State as well as in the district. As per 2001 Census the number of married persons was 24,222,087(47.8 per cent) in Gujarat and 699,835 (44.2 per cent) in Kachchh. A comparison of the same with 1991 data shows that in Gujarat the proportion of married persons was 46.2 per cent while in Kachchh the same was 43.0 per cent. As per 1991 Census the proportion of never married persons was 49.7 per cent in Gujarat State and 52.2 per cent in Kachchh district. As per 2001 Census the same has come down to 47.6 per cent in Gujarat and 51.1 per cent in Kachchh.

In comparison to 1991 in 2001 the proportion of married females has increased by 1.0 per cent in the district while the same for males has increased by 1.4 per cent. The proportion of widows, divorced/ separated has not shown any significant changes in 2001 as compared to 1991 Census for the State.

The percentage of widowed population in both the Censuses is more or less equal. In case of divorced/ separated persons also for both the Census percentages are more or less same. Sex wise study shows that in 2001 Census in terms of percentage never married males are more than never married females, while in case of married persons and widowed persons females are more than male. For 1991 Census also the same trend is observed.

Source: Gujarat State -C- Series Tables-2001

As the Statement shows there is no urban areas in Kachchh. It can be seen that proportion of never married persons was higher at 51.1 per cent in the district as compared to 47.6 per cent recorded in Gujarat State as per 2001 Census. In 1991 in rural areas the proportion of never married persons was 49.2 per cent in Gujarat and 56.7 per cent in Kachchh. As per 2001 Census the proportion of married persons was 47.4 per cent in rural Gujarat and 43.2 per cent in Kachchh, while as per1991 Census, in the rural areas of Gujarat, this proportion was at 46.4 per cent and 41.5 per cent in Kachchh.

District level study shows that the percentages of never married population in rural and urban areas are 52.0 and 49.1 respectively, as per 2001 Census, which were respectively 56.7 and 47.6 as per 1991 Census. 43.2 per cent married persons are in rural area and 46.6 per cent in urban area, in 2001 Census. For 1991 Census these percentages were 41.5 and 44.6 respectively. In case of widowed persons for both the Censuses, no significant differences are observed. Some is the case for divorced/separated.

ANNEXURE – VII

AGE, SEX AND EDUCATION IN THE DISTRICT AT THE 1991 AND 2001 CENSUSES

Literacy has occupied an important position in Indian Census in one form or the other from the very beginning. The definition of literates as adopted is "A person who can both read and write with understanding in any language is to be taken as literate". A person who can merely read but can not write was not treated as literate. It is not necessary that a person who was literate should have received any formal education or should have passed any minimum educational standard. All children below the age 7 are treated as illiterate. While processing the literacy data population of age group 0-6 is excluded.

The following Statement gives the distribution of literates and illiterates by broad age groups and sex in the district as well as the State at the time of 1991 and 2001 Censuses:-

Source : Census of India C-Series Tables-2001.

It can be seen from the Statement that the highest proportion of 83.6 per cent literacy rate in Gujarat State is registered in age group of 7-14 years followed by 77.6 per cent in 15-29 years age group. The same trend can be observed in Kachchh district where the highest proportion of 75.5 per cent is registered in the age group of 7-14 years followed by 67.6 per cent in the age group of 15-29 years. The lowest proportion of 39.5 per cent in State and 29.2 per cent in Kachchh district is found in the age group of 60 + years. As per 2001 Census the female literacy rate was lower than that of males in each and every age group in the State as well as in Kachchh District. A comparison with the 1991 data shows that literacy rate has increased for each and every age group in the State and also in the district except for the category titled "Age not Stated".

The above trend was observed at district level also 75.5 per cent literates are in the age group of 7-14 as per 2001 Census. In 1991 Census there were 71.2 per cent literates in this age group. In the age group of 15-29 years 67.6 per cent literates are found in 2001 Census. while in 1991 Census in this age group 57.5 per cent literates were there as per 2001 Census in the age groups of 30-44, 45-59, and 60+ literacy rates are 52.9 per cent, 43.8 per cent and 29.2 per cent respectively comparison with 1991 Census data shows that the percentages of literacy were lower than that of 2001 Census in each and every age group.

Source : Census of India C-Series Tables-2001.

The above Statement shows number and percentage of literates in nine different education levels.

In the State, as per 2001 Census, there were 286,886(1 per cent) literates who have no formal education. This proportion was only 0.2 per cent in 1991. In Kachchh 12,438 (1.6 per cent) literates have no formal education while in 1991 only 757 (0.1 per cent) literates were in this category. As per 2001 Census, 27.1 per cent literates have below primary level of education in the State, the same proportion was also recorded for primary level of education, while as per 1991 Census 41.2 per cent literates had attained primary level of education. In Kachchh as per 2001 Census, 31.9 per cent have below primary level of education and 31.5 per cent have primary level of education, whereas in 1991 Census these proportions stood at 42.3 per cent and 29.0 per cent respectively.

In 1991 Census higher secondary level of education was attained by 4.3 per cent of literates in the State and by 2.7 per cent of literates in Kachchh district, while as per 2001 Census, 8.1 per cent literates in the State and 6.5 per cent literates in Kachchh have attained higher secondary level of education. The proportion of literates having graduate and above level of education was 4.8 per cent and 3.5 per cent in 1991 Census for the State and Kachchh respectively. The proportion of literates in this category increased to 6.3 per cent in the State and 4.1 per cent in Kachchh district in 2001.The proportion of literates having technical diploma or certificate not equal to degree has also increased in the State as well as in the district in 2001 as compared to 1991. The numbers and proportions of literates having non-technical diploma has decreased in 2001 as compared to 1991 in State as well as in Kachchh district.

In the district literates without any formal education are increased to 1.6 per cent in 2001 Census from 0.1 per cent in 1991 Census. Except the levels of Below Primary, Matric/Secondary and Non-Technical Diploma, literates are increased in the remaining categories in 2001 Census as compared to 1991 Census.

Source: (i) Gujarat State District Profile, 1991

(ii) Census of India C-16 Population by Mother Tongue, 2001.

As per 2001 Census the main mother tongue of the district is Gujarati which is returned by 58.9 per cent of population followed by Kachchhi which is returned by 34.7 per cent of population. In the district Hindi and Sindhi are other languages which are returned by 2.3 per cent and 1.5 per cent of the population respectively. In comparison as per 1991 Census, 63.0 per cent and 30.7 per cent of population returned Gujarati and Kachchhi respectively while 2.2 per cent and 1.7 per cent of the population returned Hindi and Sindhi respectively.

At State level as per 2001 Census Gujarati is returned by 84.4 per cent of population and Kachchhi is returned by 1.3 per cent of population. In the State Hindi and Sindhi are returned by 4.1 per cent and 0.6 per cent of the population respectively. In comparison as per 1991 Census, 91.5 per cent and 1.1 per cent of population returned Gujarati and Kachchhi respectively while 2.6 per cent and 0.7 per cent of the population returned Hindi and Sindhi respectively.

In Gujarat as per 2001 Census, Marathi and Bhili/ Bhilodi are other two languages, each of which is reported by 1.5 per cent of population while Urdu is other main language reported by 1.1 per cent of population. In 1991, Marathi and Urdu were reported by 1.4 per cent and 1.3 per cent of population and Bhili/Bhilodi was returned by 2,103 persons as mother tongue.

The propotion of other languages as mother tongues is not so significant in the district as well as in the State in both the Censuses.
