PREFACE

This volume presents the B-Series Economic Tables of Himachal Pradesh The 1971 Census concept of "Worker" takes into account the labour time disposition i e , in what activity a person spent most of the time Aparts from other differences, this by itself amounts to a sharp depature from the 1961 definition of "Worker" which was based on "gainful occupation" irrespective of the time spent in actual work The individual slip schedule, it shall be seen, contains two economic questions (questions No 16 and 17) which relate to Main Activity and Secondary Work respectively On the basis of the information gathered with the help of these questions, Tables B-I to B-IX, most of which have been divided and sub-divided into parts and sub-divisions numbering 19, in all,(excluding Appendices) have been compiled

Apart from an introductory note, I have added a fly-leaf with respect to each table/part of a table/sub-division of a part of table/appendix, encompassing salient features of the mode of presentation of statistics as well as the concepts definitions etc relevant to it

New ground has been covered in certain tables such as Table B-I Part B, which presents distribution of female workers by livelihood classes cross-classified with marital status and age-groups, Table B-V Part B showing occupational classification of workers engaged in non-household industry, trade, business, profession or service as Main Activity cross-classified with employment status, etc Besides, data on Secondary Work have been collected as well as tabulated in a more comprehensive manner as compared to 1961 Census In fact, even those persons who, on the basis of Main Activity were classified as non-workers, were also required to answer question with regard to Secondary Work in this Census

Whatever I have been able to achieve, I owe entirely to Shri A Chandra Sekhar, former R G I and Census Commissioner, India and Shri R B Chari, now R G I and Census Commissioner, India I would also like to place on record my gratitude to Shri Badri Nath, D R G and Shri K K Chakraborty, A R G , who never failed me whenever I bothered them seeking guidance and clarifications concerning matters connected with compilation of this volume

I also want to say a word of appreciation for Shri C D Bhatt and Shri S L Bahl, Assistant Directors of Census Operations, who lead a team of devoted officials, for bringing out this volume I would also like to record, my appreciation for Sarvshri S P Shabi, Investigator, S K Bhandari, Statistical Assistant and Harbans Singh Computor, who have made good contribution in accomplishing this work, as well as for Sarvshri Gian Chand, Junior Stenographer, Diwakar Dutt Sharma, Sanam Dev Negi, Kapil Kumar Sud, Jagdish Chander Gautam and Sohan Lal for correctly typing out and comparing the manuscript in record time

Introduction

Enumeration-1971 Census

Reference date for the 1971 Census was the dawn of Ist April, 1971 However, keeping in view the heavy snowfall experienced in areas of comparatively high altitude and their consequent inaccessibility at the time of Census count, enumeration in these pockets of this mountaineous State was carried out during the month of September, 1970 The area where the census count was taken earlier, on non-synchronous basis, was spread over 7 districts, two of which viz Lahul & Spiti and Kinnaur, were completely covered in this operation The other five districts which were partly covered in this operation are Chamba, Kangra, Mandi, Kulu and Mahasu

Economic Questions in the Census Schedule

The main schedule in 1971 Census was the Individual Slip, which was canvassed for each person, as was done in the previous census of 1961 However, the two schedules adopted in 1961 and 1971 differed, besides other aspects, in the number of questions and the characte ristics on which the information was gathered As against 13 main questions in the 1961 Census individual slip, its counterpart in the 1971 Census had 17 main questions

Confining this discussion to the sphere of economic questions, it is pertinent to record that against 4 economic questions in the 1961 Census individual slip, the one adopted in 1971 Census had 2 main questions-one each relating to the "Main Activity" and "Secondary Work"

It shall be seen in the individual slip adopted in 1971 Census which has been reproduced on the adjoining page, that the last two questions i e Question Nos 16 and 17 cover the economic activities of each individual Question No 16 was framed with a view to dividing the entire population according to the main activity of each person, into two broad segments of Workers and Non-workers Having achieved this objective, it was sought to collect valuable information with the help of question No 17, with respect to secondary work of all persons, irrespective of their having been classified as workers or non-workers according to main activity.

The instructions to enumerators for recording answers to questions 16 and 17 of the individual slip schedule are reproduced in appendix-I.

For making comparison of the economic questions and economic concepts adopted in each census from 1901 to 1961, the readers are advised to refer to Vol XX Himachal Pradesh Part-II B, Economic Tables of the 1961 Census, which incorporates detailed discussion on the subject Series-7 Part I-A-General Report Himachal Pradesh, 1971 Census also highlights these features, which may also be referred to for the purpose

Participation rates of Workers

It is essential to make a broad comparison between the 1971 economic concepts and economic questions and those adopted in the previous census of 1961 It shall be seen from Statement-I that the absolute number of workers as well as participation rates of workers have fallen in 1971 as compared to 1961

On the face of it, no doubt, it is an anomaly Therefore, in order to give an answer to the speculations and querries from various agencies, a sample survey was conducted, throughout the country, within a few months of the census-count To be precise, this survey, which was in fact, a resurvey on economic questions, was conducted with a view to evolving suitable criteria for comparison of the 1961 and 1971 Census work participation rates. The results of this resurvey have been published as Series-I-India Miscellaneous studies, Paper 1 of 1974, by the office of the Registrar General and Census Commissioner of India

Basically the conceptional and other differences with respect to "Worker" and "Non-Worker" between the census of 1961 and 1971 are as below

Firstly, there is the difference between the type and order of the questions, for eliciting information about the economic activity from the respondents The 1961 Census individual slip contained for pointed questions i e

(*i*) Working as Cultivator (*ii*) Working as agricultural labourer (*iii*) Working at Household Industry and (*iv*) Doing work other than these Apart from these question, there was another question which was framed specifically for non-workers The 1971 Census schedule, as noted earlier, contained two questions i e (*i*) Main Activity (*ii*) Secondary Work

Secondly, where as in 1961 Census, the basis for classification of a person as a "Worker" was gainful occupation, irrespective of the time spent in actual work, while in 1971, the concept takes into account the labour time-disposition, i e how a person spent most of his time

And lastly, there is the difference in the length of reference period, which was one week of regular work prior to the date of enumeration in 1971 Census as against a fortnight in 1961, excepting seasonal work.

Coverage :

The main tabulation plan of 1971 Census is divided into different series, each series of tables dealing with a particular aspect and symbolically represented by one of the alphabets, as was the procedure in 1961 Census All the B-Series tables i e tables B-I to B-IX i e the economic tables, form the main contents of this volume Some of these tables have been prepared only at the State level, wherass, others have been compiled down to district or lower levels The fly-leat pertaining to a particular table would give information in this behalf

Although in most other States, all the B-Series tables excepting Tables B-I Part A & B-II have been compiled on the basis of a 10% rural and 20% urban sample schedules, yet, in view of the comparatively smaller population of Himachal Pradesh, the entire tabulation based on data yielded by individual slip schedules (including the B-Series Tables) has been carried out on a full count basis in this State

APPENDIX I

Instructions to Enumerators for recording answers to Questions No 16 and 17 of the Individual slip Schedule—1971 Census

Question 16 Main Activity

Every person will be asked what his main activity is, that is how he engages himself mostly For the purpose of this question, all persons will get themselves divided into two broad streams of main activity-namely (1) as worker and (2) as non-workers according as the type of main activity that the person returns himself as engaged in mostly

'Worker' defined A 'worker' is a person whose main activity is participation in any economically productive work by his physical or mental activity Work involves not only actual work but effective supervision and direction of work

Reference periods The reference period is one week prior to the date of enumeration in the case of regular work in trade, profession, service or business If a person had participated in any such regular work on any one of the days during this reference period and this has been returned as his main activity, the person will be categorised accordingly A person who normally works but had been absent from work during the reference period on account of illness or the holiday, temporary break down, strike etc , the persons should be treated as engaged in regular work in which he would have otherwise been employed but for his temporary absence Persons under training such as apprentices with or without stipends or wages should be considered is economically active and recorded as working A person who has merely been offered work but has not actually joined it, is not to be treated as engaged in work

There are certain types of works which are not carried on throughout the year such as cultivation, livestock keeping, plantation work some types of household industry, etc A person's main activity should be ascertained with reference to such work in the last one year even if he was not economically active in the week prior to enumeration It is likely that even when a person is engaged in some other work during the period of one week prior to the date of enumertion, the main activity of the person may be cultivation, agricultural labour or some other work attended to normally by him in the cours of the year Care must be taken to see that the main activity is propoerly ascertained in such cases For example, a perosn's main activity may be agricultural labour and in the week prior to enumeration he may be engaged as a sugar cane factory labourer or as a road cooly He should be categorised for his main activity as agricultural labourer only as returned by him as he engages himself mostly in that work and other work should be treated as his subsidiary work

A man or woman who is engaged primarily in household duties such as cooking for own household or performing one's own household duties or a boy or a girl who is primarily a student attending institution, even if such a person helps in the family economic activity but not as a full time worker should not be treated, as a worker for the main activity On the other hand if a person is primarily engaged in some economic activity but, at the same time does also attend to some household chores or attends a night school etc , he or she should be treated basically as a worker for the main activity and categorised accordingly

A person who merely receives an income such as a rent receiver or a pensioner who does not have to work for receiving the income, will not be treated as economically active unless the person is also engaged in some economic activity and if that activity is returned as the main activity of the individual

Q 16 (*a*) Broad Category (*i*) Worker (C, AL, HHI, OW) (*ii*) Non-worker (H,ST,R,D,B,I,O)

The main activity returned by the person will entitle him to be categorised either as a worker in 16(*a*) (*i*) or as a non-worker under 16 (*a*) (*ii*) 16(*a*) (*i*) Worker (C,AL, HHI,OW)

Where the main activity of a person qualifies him to be treated as a worker he should be further categorised according to the type of work and one of the appropriate abbreviations indicated against this question should be entered in the box provided for the purpose If the person is not engaged in any economic activity an 'X' should be noted in the box The abbreviations to be used for workers are explained below

C Cultivator

For a person who returns his main activity as working as a cultivator, the abbreviation 'C' should be used

Definition of Cultivator ·

For purposes of the census a person is working as Cultivator if he or she is engaged in cultivation by oneself or by supervision or direction in one's capacity as the owner or lessee of land held from Government or as a tenant of land held from private persons or institution for payment of money, kind or share

Cultivation involves ploughing, sowing and harvesting and production of cereals and millet crops such as wheat, paddy, jowar, bajra, ragi etc and pulses, raw jute and kindred fibre crop, cotton etc , and other crops such as sugarcane groundnut tapioca, etc , and does not include fruit growing vegetable-growing or keeping orchards or groves or working of plantations like tea, coffee, rubber, cinchona and other medicinal plantations

A person who merely owns land but has given out land to another person or persons for cultivation for money, kind or share of crop and who does not even supervise or direct cultivation of land will not be treated as working as cultivator Similarly a person working in another person's land for wages in cash, kind or share (Agricultural labourer) will not be treated as cultivator in this question

AL Agricultural Labourer

A person who returns his main activity as engaged as agricultural labourer the abbreviation 'AL' should be used in the box

Definition of an Agricultural Labourer A person who work in another person's land for wages in money, kind or share should be regarded a an agricultural labourer. He has no risk in the cultivation but he merely work in another person's land for wages The labourer could have no right of lease or contract on land on which he works

HHI Household Industry

For a person who returns his main activity as engaged in some production, processing, servicing or repair of articles of goods such as, say, handloom weaving, dyeing carpentry, bidi rolling, pottery manufacturer, bicycle repairing, blacksmithing, tailoring etc , it has to be ascertained if it is a household industry, and if so, it should be indicated by the abbreviation 'HHI' in the box

Definition of Household Industry

A Household Industry is defined as an industry conducted by he Head of the household himself/herself and or mainly by the members of the household at home or within the village in rural areas and only within the premises of house where the household lives in urban areas. The industry should not be run on the scale of a registered factory.

The main criterion of a Household Industry is the participation of one or more members of a household This criterion should apply to urban areas too Even if the industry is not actually located at home in rural areas there is greater possibility of the members of the household participating even if it is located anywhere within the village limits In the urban areas where organised industry takes greater prominence, the Household Industry should be confined to the precincts of the house where the participant live

In urban areas even if the members of the household by themselves run an industry but at a place away from the precincts of their home, it will not be considered a household industry It should be located within the precincts of the house where the members live

A household industry should relate to production processing, servicing, reparing or making and selling (but not merely selling) of goods It does not include professions such as a pleader or doctor or barber, musician, dancer, waterman, dhobi astrologer, etc , or merely trade or business, even if such professions, trade or services are run at home by members of household A list of a few typical Household Industries is appended, to these instructions at Appendix III

Sometimes it is likely that the person who may not be working in his own Household Industry may be working as a petty employee in another Household Industry, you should, therefore, enquire whether the person who is not working in his own household industry is working in any other Household Industry as an employee and record as per instructions given above

OW Other Workers

If a person gives his main activity as engaged in any other work which is not cultivation, agricultural labour or household industry, this may be indicated by merely noting 'OW' in the box

The type of workers that may come under the 'Other Workers' category are factory workers, those working in trade or transport, all Government servants, municipal employees, teachers, mining workers, political or social workers, building labourers, etc , etc In effect all types of economic activity not covered by cultivation, agricultural labour or household industry will come under this residual category Workers engaged in plantation or forestry should not be treated as cultivation or agricultural labourers but as 'Other Workers'

Further details pertaining to this 'Other' category of workers, as also those engaged in household industry, will be recorded in the subsequent sub-parts (*b*) to (*f*) of question 16

16(a)(ii) Non-Workers, (H,S,T,R,D,B,I,O,)

As was stated earlier, question 16 is intended to ascertain the main activity of every individual whether

*Not attached herewith

he or she is economically active or not While 16(*a*) (i) helps to broadly categorise all those who have returned some work as their main activity, 16(*a*) will help to categorise those whose main activity is not engaged in any economically productive work, but are basically non-workers These may be categorised under seven broad heads whose abbreviations are indicated against this question The appropriate abbreviation will have to be entered in the box provided The abbreviations are explained below

H Household Duties

This covers all those persons basically engaged in unpaid home duties doing no other work, or even if such a person may also be participating in some other work, it is not the same extent as a whole-time worker and if the person has returned his or her main activity as attending to household duties The main activity of such a person should be entered as 'H' If a person whose main activity is attending to household duties, also engages oneself in ome other economic activity such as helping in family cultivation or preparing cowdong cakes at odd times for a sale etc , that economic activity will be covered as secondary work under question 17 On the other hand, a woman who works primarily as a factory worker or a plantation labourer or an agricultural labourer or in some office or shop etc , and also attends to household duties, obviously her main activity will be the economic activity in which she is mostly engaged in and should not be categorised as for her main activity in this question She should have been treated basically as a worker and her main economic activity should have been recorded against 16(*a*)(*i*)

ST Student ·

This refers to those whose main activity is returned as a student This will cover all fulltime students or children attending school Even if such persons participated in some work but not to the same extent as a fulltime worker by merely helping casually as an unpaid family worker in family cultivation, household industry, trade or business, they should be treated primarily a student, if that is their main activity 'ST' should be entered in the box The other economic activity, if any, that such persons attend to will be reflected under question 17 as secondary work

R Retired person or a rentier

A person who has retired from service and is doing no other work i e , not employed again in some full-time work or does not engage himself in some other work as cultivation, in business, trade, etc or a person who is a rentier or living on agricultural or non-agricultural royalty, rent or dividend or any other person of independent means for securing which he does not have to work, will come under this category 'R' should be noted in the box for a person coming under this category.

D · Dependent

This category will not include all dependent such as infants or children not attending school or a person permanently disabled from work because of illness or old age If a girl or an old woman attends to household duties she should be categorised under 'H' for her main activity rather than 'D'

Dependents will include all non-workers even if able-bodied who have no other activity coming under any of the categories of non-workers and who are not seeking any work either but are purely dependent

B Beggars etc ·

This will cover beggars, vagrants or such cases as independent women without indication of source of income and those of unspecified sources of subsistence and who are not engaged in any economically productive work

I Institutions

This will cover convicts in jails or inmates of a penal, mental or charitable institution, even if such persons are compelled to do some work such as carpentary, carpet weaving, vegetable growing etc , in such institutions An under-trial prisoner in a jail should not however, be brought under this category but has to be indicated according to the main activity he was engaged in before he was apprehended Inmates of such institutions will be noted as 'I'

O Other Non-workers ·

This will include all non-workers who may not come under any of the six categories above but are seeking work, they should be noted as 'O' in the box A boy or girl who has completed education or has stopped studying and is seeking work, will come under this category If a person merely spending his time at home as a dependent and is not doing any work and is not asking any work will come under 'D' rather than 'O'

A person irrespective of age and whether educated or not, if he reports that he is not engaged in any other activity but is seeking work will come under this category

If the main activity of the person who is enumerated does not qualify a person to be treated as a worker and he does not fall under any of the four broad categories of workers covered by 16(*a*)(*i*) and an 'X' has been put in the box against that question, then he must necessarily be categorised under any one of the seven broad types of non-workers and the appropriate abbreviation entered in the box opposite to question 16(a) (*ii*) Conversely if a person has already been treated as a worker and his main activity has been indicated in the box against question 16(*a*) (*i*), then question 16(*a*)(ii) will not apply to the person and an 'X' should be put in the box against question 16(*a*) (*i*) Thus 16(*a*)(*i*) and 16(*a*)(*ii*) are mutually exclusive

Q 16(b) to 16(f)

These sub-parts of question 16 will have to be filled only to described the details of the household industry or other work indicated against question 16(*a*) (*i*) If the main activity has been shown as 'C' or 'AL' against 16(*a*) (*i*), there is no need to give the details of the cultivation or agricultural labour in these sub-sections Similarly if the main activity of an individual has been returned as a non-worker against 16(*a*) (*ii*), sub-section (*b*) to (*f*) will not apply and a 'X' may be put right across all these questions

Q 16(b) Place of Work (Name of Village/Town)

Ascertain from such person who is already taken as a worker other than in cultivation or agricultural labour i e question 16(*a*) (*i*) has been answered as HHI or OW, the village or town where he or she works If the place of work is the same as the village or town of enumeration write 'PL' In all other cases you should write the name of the place fully If a person has no fixed place of work such as, say, a travelling vendor of vegetable or a pedlar or a rickshaw puller who may go from one village or town to another, note 'No fixed place of work' If he works in one particular town or village that should be noted

Q 16(c) Name of Establishment

This question and the subsequent sub-section of question 16 need not be answered for cultivators and agricultural labourers who are already noted as 'C or AL' against qustion (16) (*a*)(*i*)

Record here the exact name of the factory, firm, workshop, business, house, company, shop, office etc and in respect of public offices you should clearly indicate whether they are Central or State Government or local body offices, etc If the establishment does not have any definite name such as say, in the case of a household industry like hand pounding of rice, gur making, bee keeping, handloom weaving, potter's house, blacksmithy etc note, 'No particular name'

Q 16(d) Nature of Industry, Trade, Profession or Service

The answer to this question will have to be adquately precise to enable proper classification of the sector of economy in which the person is working The sector of economy in which a person works may relate to (*i*) Plantation, Forestry, Fishing, Livestock etc (*ii*) Mining and/or Quarrying (*iii*) Manufacturing (*iv*) Construction (*v*) Electricity, Gas or Water supply (*vi*) Transport and Communication (*vii*) Trade and Commerce (*viii*) Professions and services Full details of the type of industry, trade, profession or service in which the person is engaged will have to be recorded here To help you to appreciate the details that may have to be furnished to classify the economic activity appropriately, substantial description of various economic activities are furnished in Appendix IV, categorised under certain broad classifications The list in Appendix IV is not exhaustive You shall have to describe the nature of Industry, Profession, Trade or Service whatever it is, in as precise a detail as possible

Q 16(e) Description of Work

This question has to be filled up for all persons for whom the main activity is shown as 'HHI' or 'OW' in question 16(*a*) (*i*) and for whom you should have also to answer the other sub-section of question 16 Under this question, the description of the actual work that the person enumerated is doing to be recorded irrespective of which type of industry trade, profession or service he may be working and which shall have recorded under question 16(*d*) His actual work should also be given in sufficient detail If for example a person is merely recorded as say, clerk with no other details, it will be impossible to properly categorise him as to the type of work he does He may be a clerk attending to correspondence or book keeping or accounting Similarly if a person was merely to be recorded as a mechanic it will help to determine what type of mechanic electrical mechanic, or a motor mechanic or a locomotive mechanic etc, he is The description of the actual work done by a person should be ascertained in adequate detail and recorded against this question

To guide you in answering question 16(*e*) the types of particulars that need to be ascertained in respect of a few typical occupations are given in Appendix V

Appendix V is by no means exhaustive It just illustrates the need to ascertain the full details of the particulars of work performed by an individual for being recorded against question 16(*e*)

It has been found in the past that substantial numbers of persons are recorded merely as general labourers It is necessary to make a probe and find out in which type of work he is mostly engaged as a labourer such as, say, a road coolie, a loader or unloader at a market, a construction labourer, etc

For those in Military service it is enough if it is merely noted as 'in the service of the Central Government's Other details need not be given

General

There need be no confusion as to the scope of 16 (*d*) and 16(*e*) 16(*d*) would represent the nature of industry, trade, profession or service i e the field of economic activity in which a person is engaged in work and 16(*e*) represents the occupation of the actual work that the person does in the industry, trade, profession or service in which he is engaged Thus, for example the answer to question 16(*d*) may be say Cotton Textile manufacture and the answer to question 16(*e*) may be Chemical

*Not appended here.

engineer in that industry or a clerk or an accountant in that industry or a labourer in that industry or a truck driver or the managing director of that industry and so on

Similarly in question 16(*d*) the nature of service may be some department of the State Government Service and in question 16(*e*) the description of work may be a clerk or an accountant, a Director of the Deptt jeep driver in the Deptt etc Again say, against question 16(*d*) the answer may be private medical practice and in 16(*e*) may cover orthopaedic surgeon or nurse or a sweeper etc , working in that medical practitioner's nursing home The sample answers furnished in the specimens (Appendix VI) at the end of this book, the Industrial and Occupational lists in Appendices *IV & V and the instructions given by your superior Census Office may help you to clear any doubts you may have in your mind regarding the scope of questions relating to Nature of Industry, Trade, Profession or Service covered by question 16(d) and the description of actual work of the individual enumerated covered by question 16(*e*)

Q 16 (1) class of worker.

For a person who is .

(*i*) an employer, that is, who hires one or more persons in his work described in question 16 (e), write ER

(*ii*) an Employee, that is who does his work described in question 16(*e*) under others for wages or salary in cash or kind, write EE

(*iii*) a Single Worker, that is, who is doing his work described in question 16(*e*) without employing others except casually, and without the help of other members of the family except casually and a participant in work as members of cooperatives, write SW

(*iv*) a Family Worker, that is, who is doing his work described in question 16(*e*) in a family enterprise alongwith other members of the family without wages or salary in cash or kind write FW For a person for whom an 'X' is put in question 16(*d*) and 16(*e*) put an 'X' in this question also

Explanation

An employer is a person who has to employ persons in order to perform the work entered in question 16(*e*) That is to say, such a person is not only responsible for his own personal work but also for giving work to others in business mentioned in question 16(*e*) But a person who employes domestic servants for household duties or has subordinates under him in an office he is employed by others, is not an employer, even if he has the power to employ another person in his office on behalf of his own employer or employers

An Employee is a person who usually works under some other person for salary or wages in cash or kind There may be persons who are employed as managers, superintendents, agents, etc and in that capacity employ or control other workers on behalf of their own employers Such persons are only employees, as explained above, and should not be regarded as employers

A single worker for the purpose of question 16(f) is a person who works by himself He is not employed by any one else and his turn does not employ any body else, not even members of his household except casually This definition of a single worker will include a person who works in joint partnership with one or several persons hiring no employee, and also a member of a producer's co operative Each one of the partners of members of such producers co-operatives should be recorded as 'Single Worker'

A family worker is a member who works without receiving wages in cash or kind, in an industry, business, trade or service For example, the working members in a family of Dhobies where they all participate and each does not receive wages separately will be family workers There may be family workers in industry, trade or professions as well For the purpose of this definition members of family may be drawn from beyond the limits of the household by ties of blood or marriage The family worker may not be entitled to a share of the profits in the work of the business carried on either by the person or Head of household or other relative

Members of the household who help solely in household duties should not be treated as family workers

In the case of persons engaged in household industry i e , in the case of persons for whom the answer to question 16(a) (1) is 'HHI', there will be three classes of workers viz Family Workers, Single Worker and an Employee There will be no employer Household industry by its very definition is conducted by the head of the household himself or/any other members of the household the role of hired workers being secondary If the head alongwith the members of the household industry employing hired workers, the head and other members who are working should be treated as 'Family workers' If the head alone is working with the assistance of hired worker(s) whose role would be secondary as indicated above, he would be treated as a 'single worker'

Some illustrations for filling the questions 16 or 17 are given in Appendix VI

*Not appended here

Q 17 Secondary work

This question should be asked of every person whether he has returned some work as his main activity against 16(a)(i) or had returned himself under any of the basically non-working categories against question 16(a)(ii) As was noted earlier, 16(a)(ii) will cover cases like persons performing household duties or students who may not be engaged in any other economically productive work at all, as also those, who, though basically are performing household duties or students etc , for the purpose of their main activity, still participated in some other economic activit such as helping the household in several items of work, as in cultivation or in household industry or in looking after the cattle, in attending to family business etc but not to the extent as a full-time worker Such participation will be considered as secondary work of these persons.

Ask of each person if, besides what he had already returned as his/her main activity against questions 16(*a*)(*i*) or 16(*a*)(*ii*), he/she participated in any secondary work A number of unpaid family workers participating in the household enterprises, who might have returned themselves mainly as 'H' or 'ST' or 'R' under question 16(*a*)(*ii*) for their main activity will be netted here for their economic activity which is subsidiary Mere rendering of service for ones own home or production of goods for purely domestic consupmption are not to be treated as economic activity For example, a servant who works as a cook in his or her employer's home for wages will be considered economically active but, a housewife, even if she may work much more than a paid servant, in having to cook for the family or looking after the household will not be treated as economically active for the purpose of this classification Similarly, women who may produce cloth on a loin loom at home for domestic consumption will not be treated as economically active unless the products are sold and the household derives an income Participation in work that goes to augment the income of the household will only be treated as economic activity A boy whose main activity is shown as a student under 16(*a*)(*ii*), can have the secondary work of say, cultivation if he helped the head of the household in the family cultivation during some parts of the season.

But if a girl student, whose main activity is shown as 'ST' under 16(*a*)(*ii*), also helped in weaving cloth purely for domestic consumption on a loin loom at home, or helped in attending to household chores, she will not be trated as having any secondary work Secondary work will be reckoned only if the person is engaged in some economic activity even if marginal in addition to whatever is the main activity under question 16 A person whose main activity is shown as, say, a clerk in a Government office or a teacher under question 16, also attends to some cultivation by his direct supervision or undertake some tuition, this will be shown as secondary work under question 17 A person's main activity may be cultivation in question 16 and his subsidiary activity money lending in question 17 Again main activity may be agricultural labourer and subsidiary work factory labourer and so on and so forth

The instruction for the usage of abbreviation in categorising workers under 16(*a*)(*i*) and filling in the details under 16 (*b*) to (*f*) will apply mutatis mutandis question 17(*a*) (*f*), except that while question 16 (*a*) (*i*) will cover the main work, Q 17 (*a*) is intended to cover secodary work which may be possibly part-time It may also be noted that the non-working categories of activity will not be reported as secondary work under question 17.

TABLE B-I PART A

WORKERS AND NON-WORKERS ACCORDING TO MAIN ACTIVITY CLASSIFIED BY SEX AND AGE-GROUPS.

Fly-leaf

This table presents the sex-wise distribution of population by age-groups cross-classified with livelihood classes of workers, and non-workers, according to main activity. The table furnishes data in respect of the State as well as for each district, separately for total, rural and urban areas

The 1971 Census concept of "Worker" and the livelihood classes i e the industrial categories of workers and non-workers may be described here

Worker In 1971-Census, a person whose main activity is participation in any economically productive work by the physical or mental activity is treated as a worker Main activity is the one in which one engages oneself mostly Work involves not only manual work but also effective supervision and direction of work The reference period is one week prior to the date of enumeration in the case of regular work in trade, profession, service or business If a person has participated in any such regular work on any one of the days during this reference period and that work is returned as his main activity, the person is categorised accordingly Further, the main activity in case of seasonal work such as Cultivation, Livestock keeping etc., is ascertained with reference to such work in the preceding one year Total population having been divided into the two groups of "Workers" and "Non-Workers," the workers have further been classified by 9 broad categories according to their main activities The 10 categories are briefly described hereunder .

I Cultivator For the purposes of the Census, a person is considered as a cultivator if he or she is engaged in cultivation by his or herself or by supervision or direction in his or her capacity as the owner or lessee or land held from Government or as a tenant of land held from private persons or institutions for payment or money, kind or share Cultivation involves ploughing, sowing and harvesting and prodution of cereals and millet crops such as Wheat, Paddy, Jowar, Bajra, Ragi etc , and Pulses, Raw Jute and Kindred fibre Crop, Cotton etc and does not inlude Fruit growing Vegetable Growing or keeping Orchards of Groves or working of plantation like Tea, Coffee, Rubber, Cinchona and other medicinal plants

II Agricultural Labourer A person who works in another person's land for wages in money, kind or share is regarded as an Agricultural Labourer. Such a person has no risk in the cultivation but he merely works in another persons land for wages The labourer can have no right of lease or contract on land on which he works

III Livestock, Forestry, Fishing, Hunting, and Plantation, Orchards and Allied Activities Those engaged in Livestock production Agricultural services, Hunting, Trapping and game propagation, Forestry and Logging, Fishing, Plantations, Orchards etc , are included in this category This category obviously excludes cultivators and agricultural labourers as defined above

IV Mining and Quarrying This category includes all those who are working in only Mining or Quarrying activities which include coal mining, crude petroleum and natural gas, metal ore mining, Stone Quarrying, Salt mining etc

V Manufacturing, Processing, Servicing and Repairs

This category has two sub-categories as below :

(a) *Household Industry* A Household Industr is defined as an industry conducted by the Head of the Household himself/herself and/or mainly by the members of the household at home or within the village in rural areas and only within the premises of the house where the household lives in urban areas The industry should not be run on the scale of a registered factory Further, according to the census concept a Household Industry relates to production, processing, servicing, repairing or making and selling of goods

(b) *Other than Household Industry* This subcategory includes Manufacturing, Processing, Servicing and Repairs other than Household Industry such as manufacture of food products, beverages tobacco and tobacco products, manufacture of cotton, wool, silk, synthetic fibre textiles and textile products, manufacture of wood and wood products, paper and paper products and printing, publishing and allied industries, manufacture of Leather and leather and fur products, manufacture of

of rubber, Plastic, Petroleum and Coal products, manufacture of Chemicals and Chemical products, manufacture of non-metallic mineral products, Basic Metal and alloys industries, manufacture of machinery, Machine tools, parts, electrical machinery, appliances and parts, transport equipment and parts etc and all kinds of repairing industries

VI Construction Those engaged in any type of construction and allied activities are included in this category Construction and maintenance activities relating to buildings, roads, railways, bridges, tunnels, pipelines, parts, runways, telegraph and telephone lines, water ways, water reservoirs, dams, canals, tanks, wells, hydroelectric projects and construction of industrial plants, thermal plants etc , are all covered here Activities allied to construction such as plumbing, heating and air conditioning, electrical installation and fixing of doors, windows etc , are also included in this category

VII Trade and Commerce This category includes all those persons who are engaged in wholesale or retail trade in any goods Those working in Restaurants and Hotels, Banking, Financing, Insurance, Real Estate and Business services are also classified under this category

VIII Transport, Storage and Communications This category includes Land, Water and Air Transport All activities connected with storage, warehousing and communications like Postal, Telegraphy and Telephone etc , are also included in this category

IX Other Services Those engaged in Community, Social and Personal Services, including Public Administration, Medical and Health Services, Recreational and Cultural Services, Community Services are included in this category. Persons who happen not to adequately describe their activities or those whose services are not classified elsewhere are also a part of this category of workers.

X Non-Workers This group consists of those persons whose main activity is returned as one of the following

(*i*) Household duties
(*ii*) Students
(*iii*) Retired persons or rentiers
(*iv*) Dependents
(*v*) Beggers etc
(*vi*) Institutions-inmates of
(*vii*) Other Non-workers (Those seeking work)

For the identification of industrial affiliation of workers, the National Industrial Classification (N I C), 1970 has been utilised For a detailed study of this classification, fly-leaf concerning table B-IV Part A may be referred to In the present context it is pertinent to note that this N I C consists of 10 Divisions (0,1,2,3 4 to 9 and X) at the first digit level, which are further classified into Major groups (at two digit level) and Minor groups (at three digit level) However, Division X is outside the scope of Census economic tables.

On the basis of Division-level classification of N I C , the working force, part from cultivators and agricultural labourers, is categorised in the present census as indicated below

Industrial Category of Workers	N.I C 1970 Division(s) included in a particular Industrial Category
III	0
IV	1
V(*a*) & (*b*)	2&3
VI .. .	5
VII . .	6, 8
VIII	7
IX	.. 4, 9

Broadly speaking, this table follows the pattern of Table B-I of 1961 Census However, there are some important differences in the two tables so for as age-groups and industrial classification of workers, are concerned.

As against four broad age-groups (apart from the age-group "Age not stated)" adopted in 1961 Census, 8 age-groups (excluding "age not stated") have been adopted in the present census. The age-groups adopted for the purposes of table B-I in the 1961 Census and for this table viz B-I Part A in 1971 Census are as in Statement-I below :

STATEMENT-I

Age-groups in 1961 and 1971 Census Tables B-I and B-I Part A respectively

As regards industrial classification of workers, it is to be noted that although the number of categories into which the total workers are distributed is 9 in both the censuses, yet two important modifications have been affected in 1971 Census in the categorization of workers These are explained briefly as under

(i) Persons engaged in Mining and Quarrying have been grouped under an independent category in 1971 (Industrial Category IV) whereas in 1961 such persons were clubbed with those engaged in economic activities connected with Livestock, Forestry, Fishing, Hunting and Plantations, Orchards and Allied activities

Thus it shall be seen that industrial category, "III-In Mining, Quarrying, Livestock, Forestry Fishing, Hunting and Plantations, Orchards and Allied Activities" of 1961 Census has been divided into two separate categories in 1971, viz "III-Livestock, Forestry, Fishing, Hunting & Plantations, Orchards and Allied activities" and "IV-Mining and Quarrying"

(ii) Household Industry "which was considered as an independent category of workers in 1961 census, has been accorded the status of a sub-category of the industrial category, V-Manufacturing, Processing, Servicing and Repairs" Further, the very concept of Household Industry has also been modified in the present census Production of certain types of field produce and all types of plantation and orchard crops together with activities connected with Fishing, Livestock and Hunting and Mining and Quarrying, in certain circumstances were considered as Household Industries 1961 But the 1971 concept of Household Industry altogether excludes all such economic activities from the perview of Household Industry In the present census the concept of Household Industry is restricted to the field of Manufacturing, Processing, Servicing and Repairs A comparative study of the industrial categories of workers and non-workers at 1961 and 1971 Census is made in the following statement-II

STATEMENT-II

Livelihood Classes of 1961 and 1971

Apart from this, a comparison of the two relevant table B-I of 1961 and B-I Part A of 1971 would reveal that the industrial category IV-at Household Industry of 1961 Census has been considered as a Sub-category of industrial category, V—Manufacturing, Processing, Servicing and Repairs, in 1971 In other words, in 1961, category V of workers referred to Manufacturing other than household industry only, but in the present census, all types of Manufacturing, Processing and Repairing Industries have been grouped under category V, and breakup by (a) Household Industry and (b) Other than Household Industry, has been given invariably

The concepts of Household Industry followed in the censuses of 1961 and 1971 are reproduced here under as Statement-III

STATEMENT-III

TABLE B-I PART B

Female Workers and Non-workers according to Main Activity classified by Marital Status and Age-Groups

Fly leaf

This table is an innovation of 1971 Census and is broadly designed on the lines of Table B-I Part A The uniqueness of this table lies in the fact that it deals exclusively with the female population

Apart from the distribution of female population into ten broad categories of workers and non workers cross-classified with age-groups on the lines of table B-I Part A, the marital status is another variable introduced in this table The female population is classified according to marital status as Never Married, Married, Widowed, Divorced or Separated and those who did not report their marital status at the time of census count The data are displayed for total and for the age-groups in case of each marital status as well as for the entire population The age-groups are 0—14 15—19, 20—24 25—29, 30—39, 40—49 50—59, 60 and A N S

This is a State level table and figures by districts have not been given However break up by rural and urban has been shown The Census concept of "Worker" and the Livelihood Classes have been described at length in fly-leaf concerning table B I Part A

TABLE B-II

Workers and Non-Workers in Cities and Non-City Urban Areas according to Main Activity classified by Sex and Age-Groups

Fly-leaf

The layout of this table is on the lines of Table B-II of 1961 Census. This table deals with only the urban segment of the population of Himachal Pradesh Like Table B-I Part A, this table also deals with two important variables i e industrial affiliation of workers according to nine broad categories and non-workers and age Here also, the data are shown sexwise The census concepts of "Worker" and "Non-Worker" and the Livelihood Classes are described in the fly-leaf concerning table B-I Part A

The figures are displayed for the State, districts and non-city urban areas An important point worth noting is that there is no city with a population of above one lakh in Himachal Pradesh The age-groups in o which the population is divided are the same as in the case of all other B-Series tables showing age-groups The age group adopted in 1971 and 196 census are as below

Age-groups in 1961 and 1971

Urban Areas .

The standards laid down for considering a place as an urban area are broadly the same as in 1961 census However, criteria adopted for determining the urban areas in the 1971 Census were maintained on the following pattern

> "To qualify for recognition as an urban area, a place should first be either a Municipal Corporation Area or a Municipal Area or under a Town Committee or Notified Area Committee or a Cantonment Board If it did not have any of these urban Local Bodies to administer the affairs, then the following empirical tests should be applied
>
> (*a*) A minimum population of 5,000 (estimated for 1971).
>
> (*b*) A density of not less than 400 per sq km (1 000 pe q m le)
>
> (*c*) 3/4th of the occupations of the male working population should be outside agriculture
>
> (*d*) The place should have, according to the Director of Census Operations of the State, a few pronounced urban characteristics and amenit , "

The following abbreviations have been utilised in showing the civic status of the towns –

M Corp	Municipal Corporation
M C	Municipal Committee
N A C	Notified Area Committee
C B	Cantonment Board

Urban Agglomeration

In the 1961 Census, the term of 'Town roup" was innovated with a view to bringing out such Towns as were so close to one another that in practice they behaved as one unit, though they were served by separate local administrations Thus, if two or more adjacent towns formed a compact unit, the entire area was considered and labelled as one town-group.

But in the 1971 Census, the concept of Town-group as adopted in 1961 Census was given up This was done primarily on account of the lack of uniformity in defining the town-group in different States A new concept of Urban Agglomeration has been adopted in the present census

An Urban Agglomeration may be made up of more than one statutory town adjoining one another such as a Municipality and the adjoining Cantonment and other adjoining urban outgrowths also Thus an Urban Agglomeration forms a continuous spread comprising of a town and its adjoining urban outgrowths or two or more contiguous towns, having common boundary, together with contiguons urban outgrowths if any, of such towns In contrast the concept of town group of the 1961 Census it was not always the contiguous urban units that formed such a group

However, the area constituting an Urban Agglomeration may keep on changing from Census to Census depending upon the changing statutory jurisdiction of the main urban unit as well as of other urban outgrowths There is only one urban agglomeration in Himachal Pradesh viz Dalhousie Urban Agglomeration, which comprises of Dalhousie Municipal Committee and Dalhousie Cantonment It does not include any rural area

It would be noted that while the total agglomeration is treated as one continuous urban spread for the purpose of overall size classification and analysis of the urban data, the break up for each component unit is also shown in this table

Classification of Workers and Non-Workers According to Main Activity by Educational Levels in Urban areas only

Fly-leaf

This table relates to the urban areas only and is designed on the lines of Table B-III Part A of 1961 Census. It shows sexwise distribution of the population into ten broad categories of workers and non-workers cross classified with literacy and educational levels

Census definitions of "Worker" and "Non-workers" and description of Livelihood classes have been given in the fly-leaf concerning table B-I Part A The concept of literacy followed in the 1971 Census is reproduced hereunder

> "A person who can both read and write with understanding in any language is to be taken as literate A person who can merely read but cannot write is not a literate It is not necessary that person who is literate should have received any formal education or should have passed any minimum educational standaid "

The following statement shows comparative picture of the educational levels adopted in the censuses of 1961 and 1971

TABLE B-III PART B

Classification of Workers and Non-workers according to Main Activity by Educational Levels in Rural Areas only

Fly-leaf

Distribution of rural population into ten broad Industrial Categories of Workers and Non-workers cross classified with various levels of literacy is shown in this table This table corresponds to table B-III Part B of 1961 Census However, it differs from that table in one important aspect The difference relates to levels of education for which the data are furnished in 1971 Census as compared to 1961 Census Whereas all those who had attained educational level of Matriculation and above were clubbed together in 1961 Census, in the present Census they have been further classified into four broad groups The following statement shows comparison of the educational levels adopted in this table and Table B-III Part B of 1961 Census

STATEMENT

Educational levels adopted in 1961 and 1971 Censuses

Table B-III Part B, 1971	Table B-III Part B, 1961
1 Illiterate	1 Illiterate
2 Literate (without educational level)	2 Literate (without educational level)
3 Primary	3 Primary or Junior Basic
4 Middle	4 Matriculation and above
5 Matriculation or Higher Secondary	
6 Non-technical diploma or certificate not equal to degree	
7 Technical diploma or certificate not equal to degree	
8 Graduate and above	

It shall be seen that literacy data for rural areas can be studied more deeply with the help of the present table as compared to the 1961 Census corresponding table

The census concept of "Worker" and "Non-worker" and description of Livelihood Classes have been incorporated in the fly-leaf pertaining to Table B-I Part-A.

Figures are separately displayed for the State as well as for each district

TABLE B-IV PART A

Industrial Classification of Persons at work other than at cultivation as main activity by Sex and Divisions, Major Groups and Minor Groups

Fly-leaf

This table deals with that segment of the economically active population which, according to main activity, is engaged in sectors other than agriculture The 1961 Census Table B-IV was compiled in three parts Part-A, showing industrial classification by sex and class of workers of those at work at Household Industry, Part B, showing industrial classification by sex and class of workers of those at work in non-household industry, trade, business, profession or service, and Part C showing industrial classification by sex and Divisions, Major Groups and Minor Groups of persons at work other than cultivation Further, whereas Parts A & B were restricted to the level of industrial Major Groups (two digit level) of the Standard Industrial Classification in vogue at the time of 1961 Census, the three digit classification *i e* upto the level of Minor Groups was ensured in Part C only This scheme of tabulation has been substantially modified, keeping in view the factors such as changing requirements of the data users, and it would be observed that the present table B-IV has been compiled in four parts Apart from these, an appendix to table B IV Part A has also been compiled and incorporated in this volume This scheme is, thus, more comprehensive than the one which was adopted in 1961 Census Census definition of "Worker" and description of Livelihood Classes may be seen in the fly-leaf relating to table B-I Part A

Table B-IV Part A, shows sexwise distribution of non-cultivating population by Divisions, Major Groups and Minor Groups of the National Industrial Classification 1970, and the data are displayed for total and urban areas The table furnishes statistics for the State as well as for each district separately The National Industrial Classification, 1970, consists of 10 divisions (0 to 9 and X, notwithstanding that Division X is outside the scope of Census Economic Tables at the first digit level), 66 major groups (at second digit level) and 385 minor groups (at the third digit level) This classification is reproduced hereunder in its entirely irrespective of whether a particular industry claimed any workers in Himachal Pradesh or not

TABLE B-IV PART B—INDUSTRIAL CLASSIFICATION OF WORKERS IN MANUFACTURING, PROCESSING SERVICING AND REPAIRS ON HOUSEHOLD INDUSTRY BASIS AS MAIN ACTIVITY BY SEX AND CLASS OF WORKERS

Fly-leaf

Classification of working force employed only in household industry by Divisions and Major Groups of the National Industrial Classification, crossclassified with their employment status and sex is shown in this Table

The workers engaged in the household industry are categorised into two classes of "Employees" and "Single Workers" according to employment status. It shall be noticed that figures for "Family Workers" are not shown separately These can easily be derived by subtracting figures of "Employees" and "Single Workers" from those of total workers For definitions of "Worker" and "Household Industry", and for a comparative picture of the tabulation scheme with respect to industrial classification of workers, fly-leaf concerning Table B-I Part A may be consulted The National Industrial Classification has been incorporated in the fly-leaf in respect of Table B-IV Part A

This is a State level table and figures for total, rural and urban are shown separately

TABLE B-IV PART C—CLASSIFICATION OF WORKERS IN NON-HOUSEHOLD INDUSTRY, TRADE, BUSINESS, PROFESSION OR SERVICE AS MAIN ACTIVITY BY CLASS OF WORKERS, AGE AND SEX

Fly-Leaf

This table, as also the next one, in a general way, correspond to table B-IV Part B of 1961 Census However-whereas 1961 table B-IV Part B displays sexwise statistics in respect of workers, by branch of industry cross-classsfied with employment status, this table deals with age-groups on the one hand and the sex and employment status of workers engaged in activities other than Household Industry and Cultivation, according to main activity, on the other hand. As in case of 1961 Census, the Workers are classified by employment status into four classes, viz. "Employers", "Employees", "Single Workers" and "Family Workers."

The Census concept of " Worker" alongwith description of the various Livelihood Classes has been dealt with in fly-leaf relating to Table B-1 Part A. The age-groups for which data have been compiled are the same as in all other relevant B-Series tables and these are as below :

0-11, 15-19, 20-24, 25-29, 30-39, 40-49, 50-59, 60+, ANS

This is a State level table and figures for total and urban areas are furnished seprately

TABLE B-IV PART D—INDUSTRIAL CLASSIFICATION BY SEX AND CLASS OF WORKERS OF PERSONS AT WORK IN NON-HOUSEHOLD INDUSTRY, TRADE, BUSINESS, PROFESSION OR SERVICE AS MAIN ACTIVITY

Fly-leaf

This table may be considered as complimentary to Table B-IV Part C in-as- much as it also relates to employment status of Workers engaged in activities other than Cultivation and Household Industry However, the other variable in this case is the Division and Major Group of the National Industrial Classification, instead of age-group in the previous table Besides, scope of this table is upto the district level

The figures, are again displayed for total and urban areas in this case Needless to mention that the sexwise break up of workers employed in these particular fields is shown by "Employers", "Employee" "Single Workers" and "family Workers" in this table too

The Census concept of Worker and the Livelihood Classes have been described in details, in the fly-leaf retlating to table B-I Part A The National Industrial Classification has been reproduced in the fly-leaf concerning Table B-IV Part A.

TABLE B-V PART A—OCCUPATIONAL CLASSIFICATION BY SEX OF PERSONS AT WORK ACCORDING TO MAIN ACTIVITY OTHER THAN CULTIVATION

Fly-leaf

This table shows sexwise distribution of Workers, other than those engaged in Cultivation, according to Main Activity by the various occupations The National Classification of Occupation (N C O) of 1968 has been adopted for compiling this table This classification consists of 8 occupational Divisions (one digit code No) 95 occupational Groups (second digit Code No) and 462 occupational Families (third digit Code No) This table has been prepared on the lines of Table B-V of 1961 Census, the column headings being identical in both The odly variation is that whereas in the 1961 Census Table B-V, National Classification of Occupations, Families having less than 1 per cent workers in case of Divisions other than Divisions 7-8 and less than 0 5 percent in case of Division 7-8, were excluded from the table and shown in an appendix, in this table no such procedure is being followed

This is a State level table and figures for total and urban areas are shown separately The data are displayed for each Division, Group nd Family of N C O alongwith break-up of each of these figures by the Industrial Categories of workers, and non-workers (Categories III to IX), in each case Divisions, Groups and Families of N C O and the Industrial Categories against which there is no figure to be shown have been omitted The Census concept of "Worker" and the Livelihood Classes have been dealt with at length in the fly-leaf pertaining to table B-I Part A The National Classification of Occupation, 1968 is reproduced as Annexure-I, in its entirety, irrespective of the fact that whether any figures occur against a particular Group or Family, in case of Himachal Prdesh

In table B-V of 1961 Census, National Classification of Occupations, 1958 was utilised A conversion table of the code structures of N C O 1958 to N C O 1968 is given as Annexure-II This, it is hoped would facilitate comparative study of occupational structure of the non-cultivating working force for the two Censuses.

TABLE B-V—PART B—OCCUPATIONAL CLASSIFICATION BY SEX AND CLASS OF WORKERS IN NON-HOUSEHOLD INDUSTRY, TRADE, BUSINESS, PROFESSION OR SERVICE AS MAIN ACTIVITY

Fly-leaf

This table shows sexwise distribution of workers engaged in occupations other than cultivation and Household Industry, according to Main Activity, by Divisions and Groups of National Classification of Occupations, cross-classified with employment status This table has been introduced for the first time in 1971 Census The Census concept of "Worker" has been dealt with in the fly-leaf concerning table B-I Part A, whereas National Classification of Occupations has been reproduced as Annexure-I to fly-leaf in respect of Table B-V Part A

The workers have been divided into four classes according to employment status on the lines of Table B-IV Parts C and D, viz., "Employers" "Employees", "Single Workers" and "Family Workers"

This is a State level table and hence districtwise break-up is not given

TABLE B-VI PART A (I) OCCUPATIONAL CLASSIFICATION OF PERSONS AT WORK ACCORDING TO MAIN ACTIVITY OTHER THAN CULTIVATION CLASSIFIED BY SEX AND AGE-GROUPS IN URBAN AREAS ONLY

Fly-leaf

Table B-VI has neen compiled in four parts Parts A(i) and A(ii) which relate to urban areas only and Parts B(i) and B(ii) which deal with the rural data The 1961 Census Table B-VI is purely an urban table and it shows sexwise distribution of workers other than those engaged in cultivation by Occupational Divisions of N C O. and three age-groups of 15—34, 35—59 and 60+, apart from age-group "Age not Stated" within each Division, cross-classified with educational levels As against this, in the present Table B-VI, apart from the rural/urban dichotomy of the population for which separate tabulation has been done, the two variables of Age and Education have been dealt with, independently in separate parts

This table i e B-VI Part A(i) furnishes sexwise distribution of workers classified according to occupational Divisions and Groups of the N C O, cross-classified with age-groups. The age-groups, it shall be seen, are the same which have been uniformly adopted in all the B-Series tables dealing with age data These are as below :

0+14
15+19
20+24
25+29
30+39
40+49
50+59
60+
A N S.

Apart from giving figures for each Occupational Division and Group separately, break-up of these figures by 9 age-groups (including the age-group "Age not Stated") is also shown. Discussion relating to concept of "Workers" and National Classification of Occupations may be seen in fly-leaves in respect of the Tables B-I Part-A and B-V Part-A, respectively

The table has been prepared for the State as well as for each district.

TABLE B-VI PART A (II) OCCUPATIONAL CLASSIFICATION OF PERSONS AT WORK ACCORDING TO MAIN ACTIVITY OTHER THAN CULTIVATION CLASSIFIED BY SEX AND *EDUCATIONAL LEVELS IN URBAN AREAS ONLY*

Fly-Leaf

Data relating to sexwise distribution of workers other than those whose main activity is cultivation by occupational Divisions and Groups of National Classification of Occupations together with break-up of each of these figures by educational levels, is shown in this table The Census concept of "Worker" has been discussed in the fly-leaf relating to table B-I Part A Similarly, the Census concept of "Literacy" has been dealt with in the Fly-leaf in respect of Table B-III Part A

A keen observer of the B-Series of the census statistics would observe that in 1961 Census, Table B-VI, N C O Division as well as age-groups are cross-classified with educational levels However, the present table deals with literacy on the one hand and occupational structure of the non-agricultural population on the other hand The Age-group wise classification may be studied with the help of table B-VI Part A(i) Apart from these differences, it would be noted that the classification by educational levels is more detailed in this table as compared to table B-VI of 1961 Census Further, figures in respect of persons whose educational levels could not be classified due to reasons such as vague entries in the schedules etc , have been clubbed with the level "Literate without edutational levels". Another noteworthy feature of this table is that whereas in 1961 table, B-VI occupational classification was restricted only to Divisions, the present table classifies non-cultivating workers up to the level of Groups, which is a two digit classification

The table has been compiled for the State as well as for each district

TABLE C-VI PART-B(I)—OCCUPATIONAL CLASSIFICATION OF PERSONS AT WORK ACCORDING TO MAIN ACTIVITY OTHER THAN CULTIVATION BY SEX AND AGE-GROUPS IN RURAL AREAS ONLY

Fly-leaf

This table shows classification of non-cultivating workers according to main activity classified by Divisions and Groups of National Classification of Occupations. Within each Division and Group of the National Classification of Occupations, break-up of figures by age-groups is also furnished. The age-groups are the same as in all other B-Series tables, displaying data by age-groups. These are —

0-14, 15—19, 20—24, 25—29, 30—39, 40—49, 50—59, 60+ and Age Not Stated

The layout of this table is completely on the lines of table B-VI Part A(*i*).

Fly-leaf in respect of table B-I Part A would give census definition of "Worker" as well as description of Industrial Classification of workers and Non-workers. The National Classification of Occupations has been dealt with in the fly-leaf relating of table B-V Part A.

This table has been prepared for the State and down to the district level.

Table B-VII—SECONDARY WORK *i e* PERSONS HAVING MAIN ACTIVITY (*i*) CULTIVATORS (*ii*) AGRICULTURAL LABOURERS (*iii*) HOUSEHOLD INDUSTRY (*iv*) NON-HOUSEHOLD INDUSTRY TRADE, BUSINESS OR SERVICE AND (*v*) NON-WORKERS CLASSIFIED BY SEX AND BY SECONDARY WORK (*i*) CULTIVATORS (*ii*) AGRICULTURAL LABOURERS (*iii*) HOUSEHOLD INDUSTRY (*iv*) NON-HOUSEHOLD INDUSTRY, TRADE, BUSINESS OR SERVICE.

Fly-leaf

It has already been mentioned in the introductory note that in the present census, the entire population has first been divided according to main activity into two segments of workers and non-workers Having done this, an effort has been made to collect data on secondary work in respect of each person The secondary work is, of course, the one which a person undertakes in spare time The secondary worker may be a worker as well as a non-worker according to Main activity Thus, the purpose of this table is to get-in those persons who carry on certain economically productive activities in their spare time The population engaged in secondary work, has been classified into the following categories on the basis of Main Activity

(1) Cultivator

(2) Agricultural Labourers

(3) Household Industry

(4) Non-household, Industry, Trade, Business, Service and

(5) Non-Workers

Against each main activity figures for total, rural and urban areas are shown separately and the secondary work has been classified into four broad categories which are as below —

(1) Cultivator

(2) Agricultural Labourer

(3) Household Industry

(4) Non-Household Industry Trade, Bnsiness or Service

It is obious that a person could not belong to the same category on the basis of Main activity as well as secondary work

This table has been prepared for the State and for each district

In 1961 Census also, table B-VII (Parts A & B) give account of secondary work Part A of that table gives distribution by sex of persons working principally as Cultivators, Agricultural Labourers, or at Household Industry separately, by secondary work (*i*) at Household Industry (*ii*) As Cultivator or (*iii*) As Agricultural Labourer Part B of that table shows industrial classification by sex, of persons working principally in Non-household Industry, Trade, Business, Profession or Service, who are also engaged in Household Industry as a secondary work In both cases *i e* principal work as well as secondary work, I S I C up to two digit level is shown

It shall be noticed that the 1961 and 1971tables B-VII differ in two important aspects, apart from others, *i e.* (*i*) Non-workers, even if engaged in secondary work, are excluded at the enumeration stage from the purview of table B–VIII (Parts A & B) in 1961 Census and (ii) the tabulation for Secondary Work, in respect of persons whose principal work was reported as Non-Household Industry, Trade Business, Profession or service, was restricted to the field of Household Industry only But in 1971 Census table B-VII, all persons engaged in secondary work are covered irrespective of the nature of their Main Activity as well as Secondary work The present table is, therefore, more comprehensive as compared to the 1961 Census table.

TABLE B-VIII PERSONS CLASSIFIED AS NON-WORKERS ACCORDING TO MAIN ACTIVITY CROSS-CLASSIFIED BY SEX, AGE-GROUPS AND TYPE OF ACTIVITY

Fly-leaf

The importance of this table lies in its shedding light on the activities of non-working population It shows sexwise distribution of non-workers by seven categories and by age-groups The seven categories of non-workers are as below —

(1) Students

(2) Household duties

(3) Dependents and infants

(4) Retired, rentiers and persons of independent means

(5) Beggars, Vagrants etc

(6) Inmates of penal, mental and charitable institutions

(7) Others

Table B-IX of 1961 Census, which is based on statistics relating to non-working population corresponds to this table In 1961 Census Table B-IX, the non-workers are classified by sex, broad age-groups and type of activity

The major difference worth noticing in these two tables so far as classification of non-workers into various categories is concerned, is that in Table B IX of 1961 Census, persons seeking work (the unemployed population) are divided into two groups of (*i*) persons seeking employment for the first time and (*ii*) those who were employed before but were then out of employment and were seeking work But in the present table all the unemployed persons are clubbed in the last category of 'Others' Further, as against five age-groups adopted in 1961 Census the present table gives information by nine age-groups (including the age-group 'Age not stated'),

The table has been prepared for the State and for each district showing figures for total, rural and urban areas, separately

TABLE B-IX PART A, NON-WORKERS CATEGORISED AS OTHERS AGED 15 AND ABOVE CLASSIFIED BY SEX, AGE-GROUPS AND EDUCATIONAL LEVELS IN URBAN AREAS ONLY

Fly- leaf

This table deals exclusively with the unemployed population of urban areas only It shows distribution of Non-workers classified as "Others", by sex and age-groups cross- classified with educational levels

The non-workers according to main activity, who have been classified as Others', are those who are seeking work This particular table is based on data relating to those non-workers who are seeking work, and have attained the age of at least 15 years The educational levels adopted in this table are the same as in case of other urban tables on literacy such as table B—III Part A Break-up of the unemployed persons against each level of education is given by four broad are—groups which are 15-19, 20-24, 25-29 and 30+.

This table corresponds to table B-VIII Part A of 1961 Census and apart from some differences in the educational levels shown in the two tables, there are variations between the two formats also These are (*i*) In table B-VIII Part A of 1961 Census, the entire unemployed population was divided in to two groups of (*a*) Seeking employment for the first time and (*b*) Persons employed before but now (then) out of employment and seeking work but in this table no such categorization is done , and (*ii*) Different age-groups as indicated below, have been adopted in the two tables

TABLE B-IX PART B—NON-WORKERS CATEGORISED AS OTHERS AGED 15 AND ABOVE CLASSIFIED BY SEX, AGE-GROUPS AND EDUCATIONAL LEVELS IN RURAL AREAS ONLY

Fly-leaf

As has already been recorded in the fly-leaf concerning, table B-IX Part A, this table relates to rural areas only It shows sex-wise distribution of non-workers categorised as "Others" (the unemployed persons) aged 15 years and above, by age-groups and educational levels. It corresponds to table B-VIII Part B of 1961 Census from which it differs in two important aspects apart from others i e , the 1961 Census table does not show age-groupwise figures of the unemployed persons Further in that table, the classification of educational levels is restricted upto Matriculation only But in this table age-groupwise figures in respect of different levels are shown up to the Graduate level of education It is to be noted that figures in respect of age-group 'Age not stated' are included in total non-workers (Others)

Broadly speaking, this table follows the pattern of Table B-IX Part A However, whereas in case of urban areas, the literate and educated workers are classified into nine educational levels alongwith five sub-levels in respect of those who had attained the Post-Graduate degrees or equivalent qualifications, in this table all persons who are graduates and above have been clubbed to form a single group Here, again the educational level "Literate (without educational level)' includes educational levels which could not be properly classified on account of insufficient information having been recorded in the Census schedules

This is a State level table and hence districtwise figures are not shown
