The Galteshwar Monument

Galteshwar is known for the ancient temple. It is situated on the confluence of the rivers Mahi and Galti. Galteshwar is an ancient Shiv temple and also a place where Galav Muni had his Ashram in early times. The temple is a protected monument and belongs to the Chalukyan period. This is evident from the plan of the shrine, which consists of a garbhagraha (shrine proper) and mandapa. The outer wall of the temple depicts architectural beauty belonging to the ancient period.

The *mandapa* or portico is about 12 ms. each way, and its roof is supported by 8 pillars of the central dome and by the smaller ones standing in the screen walls that surround it. The inner eight columns are each 4.3 ms. in height, have double capitals and are square for the lower third part of their height, then through an octagonal and sixteen-sided belt are changed into cylindrical form.

There is a perennial flow of underground water round the Shiv Ling in the temple. It is believed that the water of the river Galti flows here through a perennial stream. Fairs are held here on *Janmashtmi* and *Shivratri* festival and on every Monday of the month of *shravan*.

Annexure - VII	Age, Sex and Education in the District, 2001 Census	629
Annexure - VIII	Distribution of different Mother Tongues returned in 2001 Census	631

FOREWORD

The District Census Handbook (DCHB) published by Census Organisation since 1951 census, is one of the important publications in the context of planning and development at gross-root level. The publication, which is brought out for each district, contains several demographic and socio-economic characteristics village-wise and town-wise of the district alongwith the status of availability of civic amenities, infrastructural facilities, etc.

2. The scope of the DCHB was initially confined to a few Census Tables and Primary Census Abstract (PCA) of each village and town within the district. Thereafter, at successive censuses, its scope and coverage has been enlarged. The DCHB published at the 1961 census provided a descriptive account of the district, administrative statistics, census tables and a village and town directory including PCA. The 1971 census-DCHB series was in three parts: Part-A related to village and town directory, Part-B to village and town PCA and Part-C comprised analytical report, administrative statistics, district census tables and certain analytical tables based on PCA and amenity data in respect of villages. The 1981 census DCHB was in two parts: Part-A contained village and town directory and Part-B the PCA of village and town including the SCs and STs PCA up to tahsil/town levels. New features alongwith restructuring of the formats of village and town directory were added into it. In Village Directory, all amenities except electricity were brought together and if any amenity was not available in the referent village, the distance in broad ranges from the nearest place having such an amenity, was given. Information on new items such as adult literacy centres, primary health sub-centres and community health workers in the village were provided so as to meet the requirements of some of the Revised Minimum Needs Programme. Information on approach to the village was provided for the first time in the Village Directory so as to give the details on number of inaccessible villages in each district. In the Town Directory, a statement (IV-A) on slums was introduced to provide the details on civic and other amenities in the notified slums of Class I and Class II towns.

3. The 1991 census DCHB, by and large, followed the pattern of presentation of 1981 census, except the format of PCA was restructured. Nine-fold industrial classification of main workers was given against the four-fold industrial classification presented in the 1981 census. In addition, sex-wise population in 0-6 age group was included in the PCA for the first time with a view to enable the data users to compile more realistic literacy rate as all children below 7 years of age had been treated as illiterate at the time of 1991 census. One of the important innovations in the 1991 census was the Community Development Block (CD block) level presentation of village directory and PCA data instead of the traditional tahsil/taluk/PS level presentation. It was expected that the presentation of village directory and PCA data at CD block level will help the planners in formulation of micro level development plans, CD block being lowest administrative unit.

4. The present series of 2001 census DCHBs have been made more informative and exhaustive in terms of coverage and content. The Village Directory has been enlarged in scope by including a number of other facilities like banking, recreational and cultural facilities, newspapers and magazines and 'most important commodity' manufactured in village. Income and expenditure of gram panchayat, wherever possible, has been provided. Apart from these, more details on distance(s) at which basic amenities are available (if not available in the village), are given. This includes educational facilities (namely primary and middle schools and college), medical facilities (viz. Allopathic Hospital, Maternity & Child Welfare Centre and Primary Health Centre), drinking water, post & telegraph (post office and phone), communication, bank, credit societies and recreational facilities. In Town Directory, the statement on Slums has been modified and its coverage enlarged by including details on all slums instead of 'notified slums'. The information is given in case of all statutory towns irrespective of their

class, against only Class I and Class II towns in the 1981 and 1991 censuses. The basic amenities available in the villages and towns are analysed in depth with the help of a number of cross-classified inset tables and statements. Two other significant additions in the publication are inclusion of 'motif' highlighting significant characteristic of the district and analytical notes as annexures. The analytical notes on (i) fertility and mortality and (ii) various measures of fertility and mean age at marriage are prepared based on 1991 Census. Whereas, in the notes relating to (i) percentage distribution of migrants by place of birth/place of last residence, (ii) main religions, (iii) marital status of population, (iv) age, sex and education, and (v) distribution of spectrum of mother tongue nature and extent of changes occurred in the district in its basic socio-demographic features during the decade 1991-2001 are analysed. The eight digits permanent location code (PLCN) to all the villages and towns have been assigned keeping in view the future needs.

5. The village and town level amenity data have been collected, compiled and computerised in prescribed record structure under the supervision of **Shri JAYANT PARIMAL** Director of Census Operations, **GUJARAT**. Thereafter, efforts have been made to ensure comparability of the information with that of 1991 census data and the information brought out by the respective state governments in their annual reports and statistical handbooks for various years after 1991. The task of planning, designing and coordination of this publication was carried out by Shri R.G. Mitra, Deputy Registrar General (C&T) and Dr. I. C. Agrawal, Senior Research Officer of Social Studies Division, Dr. R. P. Singh, Deputy Registrar General (Map) provided the technical guidance in the preparation of maps. Whereas, Shri Anil Kumar Arora, Deputy Director of Data Processing Division who worked under the overall supervision of Shri Himakar, Addl. Director(EDP) helped in preparation of record structure for computerisation of village and town directory data and the programme for the generation of Village Directory and Town Directory statements including analytical inset tables. The draft DCHB manuscripts received from the Census Directorates have been scrutinised in the Social Studies Division under the guidance of Shri S. L. Jain, Deputy Director and Shri R.K. Mehta, Assistant Director. I am thankful to all of them and others who have contributed to make this publication possible.

D. K. Sikri
Registrar General &
Census Commissioner, India

New Delhi
Dated : 17.10.2006.

P r e f a c e

Census is being conducted in the country every ten years as per the programme laid down by the Government of India. In these day and age of information technology, an individual has access to a variety of information covering a Kaleidoscope of interest and fields. Availability of relevant information is very vital for planners, policy makers and researchers.

The Five Year Plans have come to stay in the country and whatever development is achieved as a result of implementation of planning from the bottom level such as development of infrastructure facilities as well as basic amenities, etc. is reflected in the District Census Handbooks and they give to the readers a searching eye whether the development over the years in villages/talukas/districts is lopsided or upto the mark. This is the basic requirement of this type publications and an attempt has been made to show whether the census handbooks reasonably fulfill these aspirations/requirements.

These district Handbooks are thus useful to planners in planning from bottom as well as to administrators, researchers, educational institutions including universities and other socio-economic research centres as well as students conducting research in demography, social and economic studies as well as to the local bodies like Panchayats, Municipalities and Municipal Corporation etc.

District Census Handbook of Gujarat is a joint venture of the Government of Gujarat and the census organization of the Government of India. In the preparation of the DCHB, the role played by the census organisation is that of Census data collection, scanning of collected information, analysis of PCA. DCHB Unit of the State Government collected the basic non-census information on availability of amenities relating to infrastructure in the villages of the district presented in the part A of this book. The cost of this publication is borned by the State Government. In accomplishing this task we had the ready and whole hearted co-operation of the staff at various levels of different department of the State Government. Most of the data supplied by the various departments have been cross-checked and an attempt has been made to reconcile the discrepancies as well.

I express my deep gratitude to the officers of Gujarat Government particularly Shri P. K. Laheri, Chief Secretary of Gujarat State, Smt. Netraben Shenoy, Additional Chief Secretary of General Administration Department (Planning), Shri George Joseph, Principal Secretary, General Administration Department (Personnel), Shri K.R.Vasava, Deputy Secretary, Kum. P. S. Mevada, Under Secretary and Shri P. D. Kulkarni, Section Officer of General Administration Department, Planning, Shri S. D. Mehta, Deputy Secretary and Shri I. M. Sheikh, Under Secretary, Shri Bipin Patel, Section Officer and Shri P. N. Christian, Deputy Section Officer of G.A.D. (Kh-3) for their valuable help and co-operation in fulfilling all administrative requirement in time for bringing out this publication. I am also thankful to Shri P. M. Patel, Director, Economics and Statistics helped this organisation not only by placing the competent personnel on disposal of census services on deputation but also provided valuable official statistics for this publication.

The District Collector, the District Development Officer, District Statistical Officer, District Information Officer and their staff members extended their warm and whole hearted co-operation for carrying out field work of the census and collection of non-census data for this District Census Handbook.

I am deeply grateful to Shri J.K. Banthia. I.A.S., the Ex-Registrar General and Census Commissioner, India for the benefit I have derived by the way of guidance and advice. I also express my thanks to Shri R. G. Mitra, Deputy Registrar General(C&T) Shri C. Chakravorty, Joint Director, Shri I.C. Agrawal, Senior Research Officer(SS), Shri S.L. Jain, Deputy Director(SS), Shri R.K. Mehta, Assistant Director(SS), Shri R.P. Singh, Dy. Registrar General(Map), Shri Himakar, Addl. Director (EDP) and Shri Anil Kumar Arora, , Deputy Director (EDP) for providing technical guidance in finalising this publication. I am extremely thankful to Shri D. K. Sikri, IAS, Registar General & Census Commissioner, India for his valuable guidance in finalizing of this publication.

Shri Jayant Parimal, I.A.S. who held the office of Director of Census Operations, Gujarat, had guided the operations of the 2001 Census. The data presented in this handbook were collected and compiled under the able direction and guidance of Shri Parimal.our sincere and grateful thanks for all the projects of census to him.

In state office Smt. B.B. Chauhan, Deputy Director, District Census Handbook Unit, Kum.S.B.Dabhi, Assistant Director, Shri S.B. Dalvi, Deputy Section Officer of District Census Handbook Unit and their team of able assistants meticulously collected and scrutinized the non-census data from various sources and prepared draft of D. C. H. B. etc. with the help of Census section. The other officials of D. C. H. B. Unit, who scrutinised, edited and supervised the work of D. C. H. B. have been mentioned in the "Acknowledgement". The maps provided in the D. C. H. B. are prepared by the Map Section of the Census Directorate under the supervison of Shri J.P. Purohit, R.O(Map). I am thankful to all of them.I am thankful to the census section of the Directorate for scrutinizing the PCA data, specially Shri J.N.Pithadia, Investigator Grade-I and Kum.N.V.Shah, Investigator Grade-III who provided assistance to me in finalizing P.C.A. data at every stage. Smt. J.R.Sanghani, Investigator Grade-III of this Directorate assisted me for final scrutiny of D. C. H. B., I am thankful to her.

Lastly, I am thankful to the Government of Gujarat for having agreed readily to bear the cost of publication of the District Census Handbook volumes and for the special efforts of Shri R.B. Raval, Director, Printing and Stationary and his colleagues to print out the publication in a very nice fashion.

District Highlights - 2001 Census

Kheda

(1) Kheda district ranks 10th among all the districts of State in terms of population.

(2) The density of Population is 480 persons per sq.km. in the district.

(3) Kheda district is the 7th dense district in the State.

(4) Kheda district ranks 18 th in sex ratio in the State.

(5) Village Kathlal is the most populated village having population of 18,796 persons while Butiya village is the least populated village with population of only 9 persons.

(6) There are 615 villages in Kheda district out of which 612 villages are inhabited and 3 villages are uninhabited.

(7) The economy of the district is basically dependent on agriculture as 58.7 per cent workers are engaged in agricultural activities while remaining 41.3 per cent are engaged in other activities.

(8) Cotton, Non metallic mineral products and Electricity Generation are the most important non-agricultural economic activities of the district.

(9) Antisar village has the largest area of 3,653.5 hectares and Bavano Math village has the lowest area of 19.5 hectares among the villages of the district.

(10) In respect of villages the lowest number of 39 villages are in Kheda taluka while the highest of 100 villages are in Kapadvanj taluka.

Definition of Census Town : -

All places which satisfy or are expected to satisfy the following criteria are treated as Census Towns:-

(i) A minimum population of 5,000;
(ii) At least 75 per cent of the male working population engaged in non-agricultural pursuits, and
(iii) A density of population of at least 400 per square kilometre (1,000 per square mile).

Note: *These figures represent 'Geographical area' figures supplied by the Surveyor General. Figures for urban area are those supplied by the local Bodies. Area figures for rural are derived by subtracting the urban area from the total area of the District. The total of the area figures of talukas will not tally with the district figures because the former represents 'Land Use Area' and are derived from the figures supplied by the Director of Land Records.

UA=Urban Agglomeration

ANALYTICAL NOTE

ANALYTICAL NOTE

(1) History and Scope of the District Census / Handbook :

Before the 1951 Census, the Census figures were published in a booklet known as 'Village Hand-book', which contained only village wise population figures. These books were prepared and published by the Directorate of Census Operations of the State.

The Directorates introduced the District Census Handbook for the first time in 1951 Census. It comprised the village wise primary census abstract figures and information on available amenities. It also contains several tables relating to the district. It varied in content and size from State to State depending upon the resources offered by the respective State Governments.

In 1961 Census, an uniform pattern of District Census Handbook was adopted throughout the country. The Directorate of Census and the State Government jointly executed the project. In addition to the English version, it was published for the first time in Gujarati language also. The District Census Handbook 1961 was published in three parts. Part I related to Introductory Note i.e. general and economic information for the district and a brief gazetteer of place names. Part II pertained to census tables, village wise list of industrial establishments, tables on handicrafts and departmental statistics. Part III consisted of village directory covering the amenities and primary census abstract data combined in one statement. It also covered district and taluka maps.

It is worthwhile here to note that the State Government created a separate unit for preparing and publishing the District Census Handbook since 1971 Census. In the 1971 Census, the contents of District Census Handbook were modified. In the preceding censuses, the data on amenities and primary census abstract were covered in one statement whereas in 1971 Census, the data on amenities and primary census abstract were separated into two different parts. Thus, the coverage of amenities data was extended and the land use data were introduced for the first time since 1971 District Census Handbook. Moreover, a separate portion known as 'Town Directory' was also incorporated for the first time in the District Census Handbook. The 1971 District Census Handbook was published in three parts. Part A contained the village and town directory. Part B contained village and townwise primary census abstract data and Part C contained official statistics, besides full count census tables, urban census tables and analytical report on census and related statistics on socio-economic and cultural tables (Rural areas) and housing tables. Part A and Part B were combined and published in one volume.

The District Census Handbook 1981 was brought out in two parts, Part-A and Part-B. Part-A contained the village and town directory whereas Part-B included the primary census abstract data, for both General population and Scheduled Castes/Scheduled Tribes. Both parts were published in one volume. Part C brought out for 1971 Census was dropped in 1981 Census. However, official statistics and some portion of analytical notes of part C of 1971 Census were included in the 1981 District Census Handbook also. For the 1991 Census, the District Census Handbooks were prepared more or less on the same lines of the preceding Census of 1981. In 2001, the scope of both Part A & B has been enlarged by giving several additional information due to large-scale computerization.

The District Census Handbook has been prepared after scanning and processing of data collected through Houselist Schedule and Household Schedule. Several innovations have been introduced at almost all the stages of the Census of India, 2001, right from the preparatory efforts to the data processing and dissemination stage. This includes certain fundamental changes in the form and contents of the Houselist and Household schedules, maintaining the continuity and comparability of the basic housing and population characteristics with the earlier census. For the Census of India 2001, a system of Permanent Location Code Number (PLCN) has been adopted by assigning to

each village within the State/UT a continuous series from I to N. Each village has been assigned an eight-digit code. The last two digits being '00' are kept for accommodating future changes in case of split of an existing village or creation of new villages etc. Since the permanent Location Codes have been assigned to each village, theoretically tracing the precise location of village on account of future jurisdictional changes in the boundaries of various administrative areas within the state should not pose a problem. It is imperative that under this scheme, the PLCN assigned to villages at the Census of India, 2001 are adopted in future censuses also to ensure the comparability of the data at the village and other administrative levels over a long time series. At the 2001 census age at marriage was collected for males also, while it was collected for only ever-married females until the 1991 Census. The type of educational institution attended by a person was enlarged to include school, college, vocational institute. The scope of the definition of 'work' was expanded in the Census of India, 2001, this includes production of milk for domestic consumption. In the 1991 Census, cultivation of certain crops even for self-consumption was treated as economic activity. The scope of the term 'Cultivation' was expanded in this Census to include certain other crops such as tobacco, fruits, all types of flowers, roots and tubers, potatoes, chilies and turmeric, pepper, cardamom, all types of vegetables and fodder crops etc. This meant that activities related to production of all the above-mentioned crops for domestic consumption has been treated as work. Only five crops viz. tea, coffee, rubber, coconut and betel nuts have been classified under 'Plantation' in the Census of India 2001.

- At the 1991 Census, the question on seeking/ available for work was canvassed for only non-workers. At the Census of India 2001, this question is asked from the Marginal Workers also. A question to elicit information on secondary work canvassed at the 1991 Census was dropped.

- From among the categories of non-workers adopted at the 1991 Census, the category 'Inmates of institutions' has been dropped and 'Retired Persons and Rentiers' has been replaced by the category 'Pensioners'.
- A new response category 'Moved after birth' was included in the question on reason for migration to bring out additional migration patterns. Natural calamities or distress migration as a reason for migration for last residence migrants included in the 1991 Census is covered under category of 'Other'.

- Number of children born alive to currently married women during last one year was collected for male and female children separately. Besides the above modifications, the following new questions were canvassed at the 2001 Census.

- A question on total disability was canvassed in the 1981 Census but in the 1991 Census, there was no provision for question on disability. At the Census of India, 2001, a question to elicit information on total or partial disability was canvassed. The five types of disabilities on which information was collected are - in seeing, in hearing, in speech, in movement and for mentally disorders.

- A new question on 'Travel to place of work' was canvassed mainly for workers engaged in non-agricultural activities. Information on distance from the residence to place of work and mode of travel to place of work was collected under this question.

The mode of presentation of DCHB in 2001 will by and large be same as that of 1991. The uniqueness of Census 2001 is that single record (Household Schedule) has been processed as against two records viz. Individual Slip and Household Schedule in the previous Census. Apart from this some deviation has been made this time by incorporating analytical notes on migration, fertility & mortality, education, marital status, age structure etc. pertaining to 1991 Census of the respective district in the DCHB in the form of Annexure II to VIII. Similarly Tables based on Houselist data pertaining to Census 2001 has also been included in DCHB write up.

(ii) Brief history of the district

The district has acquired its name from the town of Kheda, the former district headquarters. It is a very ancient town. It is situated near the confluence of the rivers of Vatrak and Shedhi. In Sanskrit, Kheda was called Khetak,. Therefore it was known as Khetakpur also. Apart from this old name, since time immemorial, it is known as Charotar. It is said that the name Charotar is derived from Sanskrit Word Charu which means beautiful. The land is most fertile and has well-tilled soil.

The specific references of the Kheda district and other places therein were found in number of copper plate grants issued by Maitraka Kings of Valabhi, who ruled over a large part of mainland Gujarat for pretty long period of about three centuries (Circa 470-788 A.D.). After the fall of Valabhi in 788 A.D., the Rashtrakuta King Karka II extended his kingdom of Lata northward and shifted his capital to Khetaka. The Rashtrakuta king of Deccan had led a victorious expedition upto the Mahi river. The credit of extending Rashtrakuta power (788-950 A.D.) goes to the king Karka II. The period from 950 to 1300 A. D. is considered as Chalukya period. From 1299 A.D. the Medieval period (1299-1758 A.D.) in the district commenced and it ended with the final defeat of the Mughal Viceroy Momin Khan II by the Marathas.

In 1583 A. D., three English merchants came to India with the intention to open a trade, with the letters from Queen Elizabeth to Akbar, king of Cambay. Their efforts to trade were at first successful. But the Portuguese seized them and they were imprisoned. However, in 1613 A.D. the English got permission to start a factory and in 1616 A.D., were strong enough to have the Portuguese dismissed from the Cambay town. The real connection of the British with Kheda district commenced from 1803 A. D. Part of Kheda district came into British possession in 1803 A.D. and the rest came in 1817 A.D.

From 1817 the district remained under the control of British rule and formed part of the Bombay Province. After independence, the former Indian States of Cambay, Balasinor, Punadra, Khodal, Ghodasar, the non jurisdictional states of Zar and Nirmali, Bhadran and Petlad talukas and 38 villages of Attarsuba (Antarsuba) taluka of the former Baroda State and six villages of Ahmedabad district, were put into the district of Kheda.

(iii) Administrative Set-up:

With a view to run the administration of the State smoothly, it has been divided into Districts, which in turn have been further sub-divided into Talukas (Tahsils). In the State of Gujarat, the community development blocks are co-terminus with the Talukas. The Talukas contain large number of villages and possibly several towns. The villages have Village Panchayats to run the local administration. A Village Panchayat may constitute of one revenue village, several revenue villages or a part of a large village. Similarly, the towns have Municipality or Municipal Corporation as the seat of local self-government.

In the State of Gujarat, as on December 1999 there were 25 districts and 226* Talukas, against 19 districts and 184 Talukas in 1991 Census.

In 1997 by several notification (s), Government of Gujarat reconstituted some districts and talukas of the State. The former Kheda district is bifurcated into two districts viz. Kheda and Anand. Government of Gujarat had reconstituted Kheda district vide the Government Notification No.GHM-97-80-M-PFR-1097-L dated 24th September, 1997. In the reorganization work of districts in 1997, this district was divided in to two districts viz Kheda and Anand, with the talukas as shown below: -

Kheda District : (1) Kapadvanj (2) Balasinor (3) Mehmedabad (4) Matar (5) Nadiad and (6)Thasra.

Anand district: (1) Khambhat (2) Petlad (3) Anand and (4) Borsad.

Again, the six talukas of the Kheda district were restructured in the same year and now total 10 talukas are formed as listed below:-

(1) Kapadvanj (2) Virpur (3) Balasinor (4) Kathlal (5) Mehmedabad (6) Kheda (7) Matar (8) Nadiad (9) Mahudha and (l0) Thasra

*Vagdod taluka merged in the Patan taluka on 3rd July 2001.

The District Collector looks after the general administration, maintenance of collection of land revenue and settlement of law related disputes, civil supplies, district planning, mid-day meal scheme, etc at the district level. At the Taluka level, Mamlatdar looks after the land development and revenue collection and law and order. The functions of administration of law and order and control and investigation of crime are done by the Superintendent of Police of the district with the help of Police Stations working under him. For the purpose of maintaining law and order there were 18 police stations, 25 police chowkies and 27 out-posts in 2000 as per statement below.

Police Station in the District

Sl. No.	Particulars	1998	2000
1	2	3	4
1.	Police Station	17	18
2.	Police Chowky	14	25
3.	Out post	26	27

Source : Director General of Police, Gandhinagar,2000

One police station, one out post and 11 police chowkies were added during 1998 to 2000.

The Panchayati Raj institutions are fairly strong and most of the development works have been transferred to the District Panchayats and its subordinate bodies. The District Panchayat has an elected President and District Development Officer appointed by the Government, works as its Secretary, who looks after day-to-day work related to the development. Similarly, at the Taluka level, Taluka Panchayats have been constituted which have an elected President. The Taluka Development Officer placed by the Government as Secretary of the Taluka Panchayats and he conducts the regular administrative work. Likewise, an elected President heads the Municipality and the Chief Officer works as the Secretary of the Municipality, who looks after the day-to-day work. In case of the large cities, the State Government has constituted Municipal Corporation, which are headed by an elected Mayor and the Municipal Commissioner, appointed by the Government, looks after the routine work. At the Village level, the Sarpanch is the elected Chief and the Talati (Village Mantri) works as the Secretary to the Village Panchayat and looks after the day-to-day work. In view of the expanding role of the public administration in a state like Gujarat, the Government has taken-up many activities and has set up several offices. Such offices which came into the existence are as under:

(1) Education
(Primary and Higher Education)
(2) Agricultural and Research
(3) Animal Husbandry and Poultry
(4) Forest and Environment
(5) Roads and Buildings, Bridges
(6) Co-operation and Co-operative Societies
(7) Industries, Small and Large as well as Cottage
(8) Health and Medical Services, Medical Education and Research, Family Welfare and Nutrition
(9) Information Department,
(10) Irrigation, Minor and Major
(11) Social Welfare and Social Defence

The functions of above offices are managed and controlled by concerned Head of Departments and in some cases also by District and Taluka Panchayats. The task of providing primary education in rural areas has been entrusted to District Panchayats The functions relating to Government of providing primary education is assigned to District Education Officer who works Under District Development Officer. The secondary education is looked after by District Education Officer of Education Department. Primary education as well as higher secondary education of all types of institutions is governed by District Education Officer.

Agriculture activities have been delegated to District Panchayat to a large extent and District Agriculture Officer is in-charge of looking after agricultural produce including crops and vegetables. Similarly Animal Husbandry is also a Panchayat activity and routine work is controlled by the Deputy Director (Animal Husbandry) who sits in District Panchayat taking care of animals and poultry farms. Besides, district agriculture office in Panchayat Offices such as Deputy Director (Agriculture) and other officials look after various aspects of agriculture for developing the sector as well as to extend necessary assistance to farmers at district level.

Besides Director, Animal Husbandry Officer of Panchayat offices such as Deputy Director (Animal Husbandry), Special Officers at Veterinary offices etc in state government animal husbandry department also monitor activities of the sector at district level.

Public Health in rural area is assigned to the District Panchayat under the Chief District Health Officer who looks after epidemics, malaria control, water borne diseases and district level administration of Public Health Centres. District and Taluka Hospitals and Referral Hospitals are being looked after by the District Civil Surgeon of medical services in the State, while Medical Education and Research Wing control Medical Colleges and Research activities attached with the respective Civil Hospitals.

Family welfare activities are also monitored by the District Health Officer. Chief District Health Officer is also functioning as District Registrar of Births and Deaths of the district and Talati-cum- Mantri is also Registrar of Births and Death for the respective villages. Anaemic mothers and children upto the age of 14 are looked after by Nutrition Officer under the Nutrition Programme.

District Ayurvedic Officer looks after the Ayurvedic dispensaries and hospitals. They also take care of the Ayurvedic plants and medicines and gardens. The District Food and Drugs Officer generally looks after the quality of the food and drugs in the district. Labourers and workers who are working in registered units are covered under the Employees State Insurance Scheme.

The rural roads have been transferred to the District Panchayats and their maintenance is done by the Executive Engineer, Roads and Buildings Department. Minor irrigation works are transferred to the District Panchayat and Executive Engineer (Panchayat) of the Panchayat's irrigation office looks after water harvesting and check dams.

The Roads and Buildings Department of State Government looks after the maintenance of roads, buildings, bridges and government multi-storey buildings etc. Besides Panchayat officials, major district roads and the state highways are looked after by the Executive Engineer (Roads & Buildings). The large multi-purpose irrigation projects are controlled by State Government directly through its Executive Engineers.

District Industries Centre is functioning to develop the small and village industries, handloom industries and the scope of industrial growth in the district. Besides, other departments are working for the rights of the industrial workers and rural labourers engaged in agriculture and others sectors.

Social welfare activities relating to the Scheduled Castes, Scheduled Tribes, Other Backward Castes and Other Backward Communities in the District are organized by the District Welfare Officer. Generally the schemes under Tribal Area Sub Plan and Special Component Plan are organized by the District Welfare Officer.

In each District Panchayat, District Statistical Officer of Directorate of Economics and Statistics looks after co-ordination of different development programmes. He is also Member-Secretary of District Planning Board. Similarly in every Collector Office, District Planning Officer looks after development work of various Governments (State & Centre) sponsored programmes.

Co-operative Societies i.e. Co-operative Milk Societies, Agricultural Produce Marketing Societies, Co-operative banking and other co-operative societies are controlled by the District Registrar, Co-operative Societies.7

Out of 615 villages there are 47 Group Gram Panchayats in this district. Virpur taluka has the highest number i.e. 13 of Group Gram Panchayats. There are 10 talukas, 8 towns and 615 villages in the district. The talukawise break-up of towns and villages are shown in the following statement.

Taluka wise Number of Towns and Villages

(iv) Physical Features:

The latitude and longitude of the district are 22^0 30' to 23^0 17' and 72^0 30 to 73^0 34' respectively. The district is bounded on the north by Sabar kantha district, on the east by Panchmahals district, on the west by Ahmadabad district and on the south by Anand district.

Geographically, the district has a small hilly area only in northern parts of Kapadvanj and Balasinor talukas.The remaining portion of the district is plain sloping gently from the North-East towards the South-West.

Physiography :

Kheda district is a part of Gujarat plain and is sub-divided into five sub-micro regions viz. Sabaramati-Vatrak plain, Nadiad plain, Aravalli Forested Rock-outcrops and Mahi plain on the basis of topography, climate, geology, soils and natural vegetation.

Sabarmati-Vatrak Plain:

The plain covers some parts of Matar, Mehmedabad and Kapadvanj talukas occupying the western part of the district. It is surrounded by Sabarkantha district from north, by Ahmedabad district from west, by Khambhat silting plain from south and by Nadiad plain from east.

The plain is formed by Sabarmati and Vatrak rivers. Elevation of this region varies between 22 metres and 70 metres above M.S.L. Northern part of this region is relatively higher in elevation than southern portion. The geological structure of this region is formed of alluvium, blown sand etc.

Nadiad Plain:

The region extends over Nadiad. Thasra and parts of Matar and Kapadvanj talukas. It makes its limits with Sabarmati-Vatrak plains in the west, district Sabarkantha in the north, Mahi plain in the east and Khambhat silting plain in the south.

The general slope of this region is from north to south and elevation of this region ranges between 32 metres and 100 metres above M.S.L. The geological structure of this region is mainly composed of alluvium, blown sand etc. and Deccan Trap formations.

Aravalli Forested Rock-Outcrops:

The region covers part of Balasinor taluka, the extreme north eastern part of the district. It is enclosed by Sabarkantha district from west and north, by Panchmahals district from east, by Nadiad plain from south.

As regards the relief of the region, it is the highest part of the district and elevation varies between 100 metres and 212 metres above M.S.L. The geological structure of this region is mainly formed of Deccan Trap and Aravalli and associated rocks.

Mahi Plain:

The region covers the eastern parts of Balasinor and Thasra. It makes its limits with Vadodara and Panchmahals plain in the west and Khambhat silting plain in the south-west.

So far as relief of the region is concerned, it is having 60 metres height above M.S.L. in the northern portion and 35 metres in the southern part. The region has the geological structure of alluvium, blown sand, etc. The transportation and communication network in this region is fairly good. Two broad guage railway lines pass through the middle of the region.

Hills:

Except for a small hilly area in the northern part of Kapadvanj and Balasinor talukas and along the lower reaches of the Mahi river where the bank is cut by ravines, the district is an unbroken plain sloping gently from the north-east towards the south- west.

Drainage:

There are nine rivers in Kheda district, of which Mahi and Sabarmati are principal perennial rivers. The river Mahi is known as Mahisagar. Total length of Mahi river in the district is about 180 km. It originates from Mehad tank situated on Vindhyachal mountains and empties into Arabian Sea at the bay of Khambhat. The river is very useful for irrigation. Total length of Sabarmati river in the district is 88 km. It originates from Aravalli mountains and enters into the boundary of the district at Khadiyarapura village of Matar taluka and empties in to the Gulf of Khambhat. Unlike Mahi, which is most useful for irrigation the main purpose served by the river Sabarmati is that of drainage. Other rivers of the district viz. Shedhi, Vatrak, Meshwo and Khari meet Sabarmati river at its left bank. Moreover, there are Luni Varansi and Mahora rivers, which are seasonal and very shallow. Water flows in these rivers for few months in the year.

Climate:

The climate of this district is characterized by a hot summer and general dryness except in the south-west monsoon season. The year may be divided into four seasons. The cold season from December to February is followed by the hot season from March to May. The period from June to September is the south-west monsoon season. October and November constitute the post-monsoon or retreating monsoon season.

(a) Temperature:

The period from March to May is one of continuous increase in temperature. The weather is intensely hot in summer and particularly in the month of May the day temperature reaches to 43^0 C or over.The highest tempareture of 43.5^0 C was recorded in May 1998 while the lowest of 10.4^0 C was found in March 1998. With onset of monsoon by mid June there is considerable drop in day temperature but night are as warm as found during summer nights. The highest temperature during June to September was recorded at 43^0 C in June 1996 against the lowest of 19.5^0 C found in 1997. With the withdrawal of the monsoon by the end of September an increase in day temperature is found during October. However, the nights become progressively cooler. From November both day and night temperature begins to decrease rapidly. January is generally the coldest month when temperature goes down to 8^0 C to 9^0 C in nights. The highest tempareture of 37^0 C during October to February was recorded in October 1999 while the lowest of 7.5^0 C was found in January 1998.

TEMPERATURE

(in centigrade)

Source: Directorate of Economics and Statistics (Statistical Abstract), 2000

(b)Winds:

Winds are generally light with some strengthening in force during the summer and the south-west monsoon seasons. During the south-west monsoon season winds blow mostly from the west or south-west. Towards the end of the south-west monsoon season north-westerlies appear and in the next four months winds are mostly from directions between north-west and east. In February and March winds in the mornings are from directions between north-west and north-east, while in the afternoons they are from directions between south-west and north-west. In April and May winds are mainly from directions between south-west and north-west.

(c) Rainfall:

The data is presented below is for annual rainfall in the district received during the monsoon season from June to September. July mostly is the month with the highest rainfall. Details of monthly as well as annual rainfall of this district are given below: -

Monthly Rainfall (From 1995 to 1999)

(In mm.)

Year	May	June	July	August	September	October	November	Amual Rainfall
1	2	3	4	5	6	7	8	9
1995	0.0	2.0	358.0	123.0	93.0	0.0	0.0	576.0
1996	0.0	117.6	342.5	203.9	214.1	30.2	0.0	908.3
1997	0.0	493.2	147.0	467.3	90.7	0.0	0.0	1,198.2
1998	0.0	119.6	206.8	158.2	312.3	68.6	0.0	865.5
1999	15.3	188.1	265.7	43.1	23.3	59.3	0.0	594.8

Source: Directorate of Agriculture, Gujarat State, 1998-1999

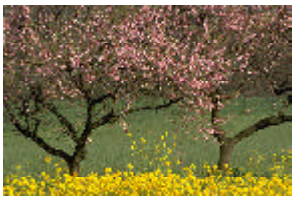

Impact of rainfall on weather condition:

In association with some of the cyclonic storms from the Arabian Sea which move towards the district or its neighbourhood during the post monsoon season and to a lesser extent in the latter part of summer, the district experiences gusty winds and widespread rain. Thunderstorms occur in the latter half of summer and in the monsoon season.

Economic Resources:

Economic resources are means of subsistence. The details about economic resources are given here under in brief:

(1) Forestry:

The district has no big forest areas except some forests in Balasinor and Kapadvanj talukas where teak, babul, neem, mahuda and mango trees are found. According to the Forest Department, there was 95.9 Sq. km. forest in the district in the year 1999-2000.Out of which 76.9 Sq. km was reserved and 19.0 Sq. km. was unclassified forest. The total area under forests works out to 2.3 per cent of the total geographical area of the district.

(2) Minerals and Mining:

The known mineral wealth of Kheda district is substantial though less diversified than in the few other districts of the State. Kheda district is deficient in major minerals such as iron, coal, gold, etc. The pattern of mineral production is, therefore, simple. The details of various types of major and minor minerals available in the district are given below.

Major and Minor Mining Products and Income

Sl. No.	Products	1998-1999		1999-2000		2000-01	
		Production (MT)	Income (RS.)	Production (MT)	Income (RS.)	Production (MT)	Income (RS.)
1	2	5	6	5	6	7	8
	Major Products						
1	Bauxite	4,236	130,000	,1366	73,680	1,179	51,704
2	China Clay	20	7,000	-	-	-	-
	Total	**4,256**	**137,000**	**1,366**	**73,680**	**1,179**	**51,704**

Source: Commissonerate of Geology and Mining, 2001

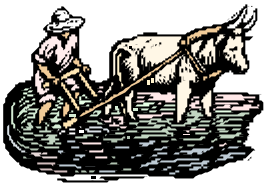

(3) Soil and Cropping Pattern:

The soils of the district can be classified into six main types: the *goradu* (gravelly), black, medium black, black, sandy and rocky type. The *goradu* type is mainly to be found in the *Charotar* tract comprising Nadiad Taluka and parts of Thasra taluka. The black type of the Bhal tract is mainly to be found in Matar taluka while the medium black type is confined to the Mehmedabad taluka. The rich black type suitable for cotton is found in parts of Kapadvanj, Balasinor and Thasra talukas. The sandy type is concentrated in the Kapadvanj and Mehmedabad taluka. Finally, the rocky type is to be found in Balasinor and parts of Kapadvanj taluka.

The crops grown in Kheda are the ordinary millets and pulses, rice, wheat, tobacco and a little indigo. *Bajri* is the principal crop and the staple grain food. It occupies very large area and is grown in all the lighter soils with a mixture of math, mug and other pulses. *Jowar* is grown to a much less extent but is important as fodder. Rice is comparatively a large crop and the best rice is raised in the Khari village of Matar where the black soil fields are embanked and mostly irrigated from the Khari Canal. In other parts rice of an inferior quality is grown in low lying lands of black or medium *besar* soil. Coarse grain, *Kodra* and *bavto* are grown by the poorer cultivators.

Tobacco is the most valuable article of produce in the district. It is grown mostly in the Charotar tract in the district. Castor seed and sesame are the only oil seeds grown in the district. The cultivation of the cotton occupies large acres of land and is one of the most valuable crops of the district. Garden cultivation is also extensive.

(4) Land and Land use Pattern:

The total land in the district was 4,219.0 Sq. km in 1998-1999.The land classification according to the different uses for the rural areas of the district for the year 1998-1999, is given below on the basis of information collected for the Village Directory.

Land Classification of Rural Areas

(in '00 hectares)

Sl . No.	Classification	Area as on 31.3.99
1	2	3
1	Forest	92.7
2	Irrigated	1,410.5
3	Unirrigated	1,561.8
4	Cultivable waste (including Gauchar and Groves)	325.2
5	Area not available for cultivation.	369.1
	Total	**3,759.3**

Source: Village Directory, 2001

It can be seen from the above statemant that as on 31-03-1999 forests constituted 2.5 per cent of the total rural area while irrigated area was 37.5 per cent of total area.

(5) Tenancy :

There was no separate Act on tenancy in the former Bombay State before 1939. There were provisions of Section 83 of Land Revenue Code and Mamlatdar Court law only. The tenant was not secured of his tenancy rights in the Act. This tenancy lease was considered yearly and had to pay tenancy as per tradition or according to the agreement made with the land owner. In order to protect the tenants, the Bombay Tenancy Act, 1939 came into force in the erstwhile Bombay State.

After The Independence of the country, it was felt necessary that the country had to be self-sufficient in agricultural production. It could be done only when the tillers of the land should have some definite rights over the land. With a view to effect control on efficient utilization of agricultural land and also to protect the tenants further and also to accept a definite policy and view for the country on agricultural land, The Bombay Tenancy and Agricultural Land Act, 1948 was enacted and it was brought into force since then.

The Act of 1948 was amended five times. An important provision of 'Farmers Day' was inserted in the Act on 1-8-1956. According to this provision, if any person legally tilled the land of other person on 01-04-1957, he was entitled to purchase the said land. Even though Gujarat State was carved out from Bombay State in 1960, the said act applied to it as well.

Tenant means the person who held land on lease viz.,

(1) Tenant as per Section 4 ;
(2) Protected tenant
(3) Permanent tenant
(4) The person who continued to possess the land with or without the consent of the land owner after appointed date and up to specified date or it is considered that he continued the possession of the land.

In all 1,049,056.4 hectares of land have been released and distributed to total of 1,278,125 beneficiaries permanently by now under the Bombay Tenancy and Agricultural Lands Act-1948 in entire Gujarat State. Among the beneficiaries 177,171 were from Scheduled Castes, 258,132 from Scheduled Tribes and 842,822 were under 'Others' Category. In Kheda district in all 76,611.8 hectares of land was distributed to total of 102,933 beneficiaries. Out of these, 19,890 beneficiaries belong to Scheduled Castes and 83,043 to other communities, who were allotted 7,974.7 hectares and 68,637.1 hectares of land respectively. There were no Scheduled Tribes beneficiaries.

(6) Agriculture:

(a) Area under Major Crops

The area under major crops for the year 1993-94 and 1997-98 is indicated as following: -

Area under Major Crops

(in '00 hectares)

Sl. No.	Name of Crop	Area under Major Crops	
		1993-94	1997-98
1	2	3	4
1	Paddy	862	980
2	Wheat	280	340
3	Bajri	761	792
4	Jowar	115	75
5	Ragi	3	4
6	Other cereals	198	201
7	Gram	19	18
8	Other pulses	228	219
9	Sugarcane	1	2
10	Groundnut	30	24
11	Cotton	125	120

Source:- Season and Crop Report, Directorate of Agriculture 1993-94,1997-98

The area under paddy, wheat, bajri, other cereals and sugarcane has increased while the area under jowar, gram, other pulses, groundnut and cotton has decreased during 1997-98 as compared to the year 1993-94.

The above table reveals that as expected, paddy had covered the maximum area for both the years under reference followed by bajri, wheat and other pulses.

(b) Average Yield per Hectare:

The average yield per hectare of the principal crops in the district during the year 1993-94 and 1997-98 is shown below.

Average Yield per Hectare

(In Kg)

Sl. No.	Name of Crop	Average yied per hectare	
		1993-94	1997-98
1	2	3	4
1	Bajri (Kharif)	996	1,217
2	Bajri(Summer)	2,266	2,191
3	Jowar(Kharif)	276	743
4	Jowar(Rabi)	-	875
5	Jowar (summer)	850	—
6	Paddy (summer)	2,530	2,812
7	Paddy	1,730	1,750
8	Wheat	1,915	1,880
9	Groundnut	1,789	1,683
10	Cotton	277	323
11	Sugarcane	7,800	7,500
12	Ragi	1,046	927

Source: - Season and Crop Report, Directorate of Agriculture 1999.

It can be seen that average yield per hectare has increased during 1997-98 for Bajri (Kharif) Jowar (Kharif), Paddy and Cotton while a decrease in yield is observed in case of Wheat, Groundnut, Sugarcane and Ragi as compared to 1993-94.

(7) Irrigation:

Source of Irrigation

The area irrigated by different sources in the district during 1993-94 and 1997-98 is presented below.

Area Under Irrigation by Source

(In '00 hectares)

Sl. No.	Source of Irrigation	1993-94		1997-98	
		Net	Gross	Net	Gross
1	2	3	4	5	6
1	Govt canals	450	548	640	833
2	Tanks	49	54	56	65
3	Wells	786	991	917	1,118
	Total	**1,285**	**1,593**	**1,613**	**2,016**

Source : Season and Crop Report, Directorate of Agriculture ,1999

The above figures indicate that wells are the main source of irrigation in the district followed by Government canals and tanks.

(8) Animal Husbandry:

(a) Livestock

Cattle wealth occupies a pivotal place in the rural economy of the district. According to the livestock census of 1992 and 1997, the livestock population in the district is indicated below:-

Livestock

Sl. No	Livestock	Year	
		1991	1997
1	2	3	4
(A)	**Total Livestock**	**677,886**	**784,379**
1	Cattle (cross breed)	27,351	14,393
(a)	Male over 2.5 years	1,707	612
(b)	Female over 2.5 years	15,706	8,545
(c)	Young stock	9,938	5,236
2	Cattle (Indigenous)	161,429	170,912
(a)	Male over 3.0 years	86,403	80,323
(b)	Female over 3.0 years	38,335	48,546
(c)	Young stock	36,691	42,043
3	Buffaloes	365,872	414,273
(a)	Male over 3.0 years	2,287	1,810
(b)	Female over 3.0 years	216,278	258,614
(c)	Young stock	147,307	153,849
4	Sheep	24,807	32,563
5	Goats	89,217	98,765
6	Horses and ponies	206	87
7	Camels	1,019	1,252
8	Pigs	3,733	7,769
9	Other livestock	4,252	44,365
(B)	**Poultry**	**187,950**	**770,695**

Source: (1) Directorate of Economics and Statistics, Livestock Census, 1992
(2) Diractorate of Animal Husbandry, Live stock Census, 1997.

The livestock as well as poultry population have increased in 1997 as compared to the year 1992.

(b) Agricultural Implements:

According to the livestock census conducted in the State, the comparative data for agricultural implements for the years 1992 and 1997 are shown in the following statement.

Agricultural Implements

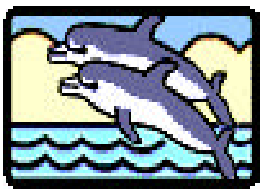

Sl. No.	Name of Agricultural Implements	Year 1992	Year 1997
1	2	3	4
1	Plough	110,197	67,061
	(a) Wooden	75,517	48,513
	(b) Iron	34,680	18,548
2	Carts	23,560	10,694
3	Oil engines	11,952	5,608
4	Electric Motors & Pumps	12,705	3,528
5	Tractors	7,461	4,924
6	Wheat Thresher	1,874	—
7	Rice Thresher	633	282

Source: (1) Directorate of Economics and Statistics, Livestock Census, 1992

(2) Directorate of Animal Husbandry, Livestock Census, 1997

It can be seen that the use of all the agricultural implements had decreased during 1997 as compared to year 1992.

(9) Fisheries:

The district mostly covers inland fisheries. Fresh water fishery resources, though they are rich, have not been developed in the district due to religious sentiments. The rivers of the district, Mahi, Vatrak, Shedhi, Meshvo and Mohar are stocked with fish. The varieties of fish available in the district are Catla, Rohu, Mrigal, Mullet, Bombay Duck and Prawn etc.

Cold water fish found in the district are as follows: (1)Fausta (2) The Zinga (3) The Zinga Chola (4) The Bamvlo (5)The Biu and (6) The Kantia. Some rainy season fish viz.The Palva , The Dodi and Magra have also been found in the district. The important fisheries statistics for the district are given below for the years 1997-98 and 1998-99.

Fisheries Activities

Sl. No.	Item	Year 1997-98	Year 1998-99
1	2	3	4
1	Total Number of Fishing boats	136	177
2	Total Number of Fishing nets	2,691	2,691
3	Fish production (In tonnes)	5,804	5,643
4	Number of active fishermen	1,328	1,328
5	Fishermen Primary Co-operative Societies (Number)	15	15
6	Membership of fishermen's Primary Co-operative Societies	866	866
7	Paid up share capital of fishermen's Co-operative Societies (In'00 Rs.)	706.99	706.99

Source: Commissionerate of Fisheries, 2000.

The above data indicates decrease in over all fishing activities in the district during1998-99 as compared to 1997-98.Although number of fishing boats have increased in 1998-99 as compared to year 1997-98, during the same period numbers of active fishermen have drastically decreased.

(10) Industry:

The total number of registered factories and average number of daily workers employed by major groups of industries as on 31-12-1998 and 31-12-1999 are shown in the following statement.

Distribution of Important, Industrial Establishments by Major Industrial Group

Sl. No.	Major Group of NIC (National Industrial Classification)	Description of Manufacture	As on 31.12.98		As on 31.12.99	
			Number of Establish-ment	Averag Number of persons working per day	Number of Establish-ment	Average Number of persons working per day
1	2	3	4	5	6	7
1	20-21	Food products	15	3,030	33	1,204
2	22	Beverages, tobacco and related products	25	634	25	569
3	23	Cotton textiles	5	4,086	5	3,664
4	24	Wool, silk and man made fibre textiles	2	255	2	257
5	25	Jute and other vegetable fibre textiles(except cotton)	-	-	0	0
6	26	Textile products (incl wearing apparel)	3	530	2	508
7	27	Wood and wood products Furniture and fixtures	89	568	90	841
8	28	Paper and paper products and printing, publishing and allied industries	10	440	13	502
9	29	Leather and products of leather, fur and substitutes of leather	4	40	4	36
10	30	Basic chemical and chemical products (except products of petroleum and coal)	29	576	57	460
11	31	Rubber, plastic petroleum and coal products processing and nuclear fuels.	5	110	5	136
12	32	Non metallic mineral products	27	807	36	2,079
13	33	Basic metal and alloy industries	5	86	3	91
14	34	Metal products and parts except machinery and equipments.	15	415	18	846
15	35-36	Machinery and equipment other than transport equipment(scientific equipment, photographic/cinematographic equipment and watches and clocks is classified in division 38)	21	2,198	14	1,951
16	37	Transport equipment and parts	3	199	3	185
17	38	Other manufacturing industries	1	21	1	12
18	39	Repairs of capital goods	-	-	0	0
19	40-43	Electricity Gas and water Generation transmission distribution water works supply etc	3	3,853	3	3,849
20		Other Industries	39	841	18	846
		Total	**301**	**18,689**	**332**	**18,036**

Source: Chief Inspector of Factories, 2000

The data above shows that among registered establishments in the year 1998 the four most important establishments were (1) Wood and wood products-furniture and fixtures (2) Basic chemical and chemical product (except products of petroleum and coal) (3) Non metallic mineral products and (4) Beverages, tobacco and related products.

In the year 1999 out of above four, food products replaced Beverages etc. while the other three retained their place, as the most important establishments. It can be observed that average number of persons employed per day has shown a declined in 1999 as compared to the year of 1998.

(11) Trade and Commerce:

Trade and Commerce includes wholesale and retail trade of all kinds and Commercial activities like financial, insurance, real estate and business services.

At present imports in the district consists fruits, dry fruits, different varieties in textiles, cotton, sarees, tea, coffee, hardware, metals, medicines, petroleum products, electronic items etc. All these items are imported from different parts of Gujarat as well as from other states of India also.

The major commodities produced in the district are lime products, stone, vegetables, tiles, bricks, plastic paper, tobacco, iron utensils, match boxes, sweets, washing soaps, furniture, agricultural implements, food grain, pulses, electric motors, cloth, electric bulbs, tubes etc.

Kheda district is famous for its tobacco production, which is used in the manufacture of bidi and snuff. A large quantity of tobacco is exported out of the district. Besides tobacco, the items produced in the district as mentioned above are also exported out of the district. The important commodities produced and exported out of district from various towns are indicated.

The commercial and co-operative banking facilities available in the rural area of the district are shown in the following statement.

Sl. No.	Name of Taluka	Number of Villages where banking facility is available	Number of banking institutions	
			Commercial	Co-operative
1	2	3	4	5
1	Kapadvanj	13	12	3
2	Virpur	3	4	2
3	Balasinor	4	4	1
4	Kathlal	4	5	3
5	Mehmedabad	9	8	3
6	Kheda	8	7	4
7	Matar	7	8	5
8	Nadiad	20	22	7
9	Mahudha	4	4	1
10	Thasra	11	12	4
	Total:	**83**	**86**	**33**

Source: Banking Statistics, Basic Statistical Returns, Volume 28 March, 1999.

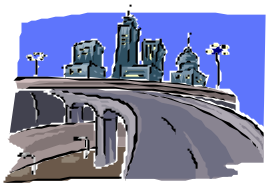

(12) Transport and Communication:

Transport and communication facilities are considered as administrative necessity as well as a public convenience. Moreoverd a well-knit transportation system is a pre-requisite for the social and economic development of any district.

According to the classification of road, made by the Indian Roads Congress, road length in the district by category is given below for the year 1998-99, 1999-2000 and 2000-2001.

(a) Road :

The linking of one place with other by road is very essential to provide good transport system.The information regarding roads available in Kheda district for the year 1998-99 to 2000-01 is given in the statement below.This statement gives information of National highways, State highways,District roads and Village roads.In Kheda district as per 2001 Census, 548 villages were connected with pucca roads and 370 villages were connected with kachcha roads.

Road Length of Different Categories

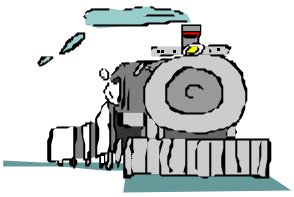

Sl. No	Year	Type of Road (in kms.										Total
		Highways				District Roads				Village Roads		
		National		State		Main		Other				
		GOVT. DN	PNCH. DN	GOVT. DN	PNCH. DN	GOVT. DN	PNCH. DN	GOVT. DN	PNCH. DN	GOVT. DN	PNCH. DN	
1	2	3	4	5	6	7	8	9	10	11	12	13
1	1998-1999	122	0	524	0	182	784	47	158	82	580	2,479
2	1999-2000	122	0	524	0	183	784	47	159	82	582	2,483
3	2000-2001	131	0	524	0	187	782	47	159	82	585	2,497

Note: GOVT. DN = Government Division.
PNCH. DN = Panchayat Division.

Source: Roads and Buildings Department, Gandhinagar, 2001

Out of 615 villages, 559 villages are availing Bus facility and all these villages are connected with road up to 1998-99.

(b) Railway:

Kheda district is well connected with other parts of the country by railway network. There are 27 villages having railway facilities

(c) Ports:

There is no port in Kheda district.

(d) Posts and Telegraph:

The following table gives the number of villages in the district possessing post, telegraph and phone facilities**.** As regards rural areas of the district the facilities of post, telegraph and telephone is available in 354 26 and 460 villages respectively.

Communications Facilities

Sl . No.	Type of Communication Amenities	Number of Villages having facilities
1	2	3
1	Post office	354
2	Telagraph office	26
3	Telephone	460

Source : Village Directory, 2001

(13) Electricity:

Electricity is the chief necessity for Economic development of the district. The main source for power supply in the district is Gujarat Electricity Board. All the villages are electrified.

(14) Gram Panchayats, its Composition, Jurisdiction and Role in the Development of Village and its Economy:

The system of Panchayati Raj was introduced in the year 1963 in Gujarat State. Under this set up, the three tier system was introduced namely, The District Panchayat, The Taluka Panchayat and The Gram Panchayat.

Gram Panchayat is an important institution of self-government. The Gram Panchayat is formed for a village or a group of Villages. The Gram Panchayat is constituted for a local area with the population of less than 10,000. Such local area may be revenue village or a group of revenue villages or hamlets forming part of a revenue village or such other administrative unit or part of thereof. The number of members of Gram Panchayat varies from 9 to 15. The tenure of Gram Panchayat is of five years. The people of village elect Sarpanch and Vice-Sarpanch (Up-Sarpanch) and other members of the Panchayat. Various Committees like; Social Justice Committee and Standing Committee are formed. In the year 1993 Government of India enacted 73rd Constitutional Amendment regarding provisions of Panchayati Raj and implementation of this Act in Gujarat started from 15th April 1994. By this constitutional amendment, Panchayats are given constitutional status. Regular and timely election, participation of women and backward classes, formation of separate State Election Commission and rotation system in electing the heads of the various committees are other significant amendments in the act. Decentralised planning process and active participation of people is the soul of the Panchayati Raj Act. The powers for decentralised planning, implementation and development are delegated to the Panchayats.

The primary functions of the District/Taluka Panchayats are to provide facilities for primary education, health, drinking water, electricity, constructions and maintenance of roads, bridges etc., maintenance of Gauchars, organising relief work at the time of scarcity and drought situation, sanitation and social welfare. Arrangements for housing facilities for the people below poverty line and rural devlopment schemes are implemented by panchayats. Gram Panchayats also implement important programmes like, 'food for work' and other programmes beneficial for the local people. Thus, Panchayats play an important role in the development of village and its economy. There are 13,761 Gram Panchayats in Gujarat State. Out of 615 villages in Kheda district there are 47 group Gram Panchayats and 568 independent Gram Panchayats.

(v) Census Concepts :

Building :

A 'building' is generally a single structure on the ground. Sometimes it is made up of more than one component unit which are used or likely to be used as dwellings (residences) or establishments such as shops, business houses, offices, factories, workshops, work sheds, schools, places of entertainment, places of worship, godowns, stores, etc. It is also possible that buildings which have component units may be used for a combination of purposes such as shop-cum-residence, workshop-cum-residence office-cum-residence, etc.

Usually a structure will have four walls and a roof. But in some areas the very nature of construction of houses is such that there may not be any wall. Such is the case of conical structures where entrance is also provided but they may not have any walls. Therefore, such of the conical structures are also treated as separate building.

Permanent Houses :

Houses, the walls and roof of which are made of permanent materials. The Material of wall can be anyone from the following namely Galvanized iron sheets or other metal sheets, Asbestos sheets, burnt bricks, stones or concrete. Roof may be made of from any one of the following materials namely tiles, slate, galvanized iron sheets, metal sheets, asbestos sheets, bricks, stones or concrete.

Semi-permanent Houses :

Houses in which either wall or roof is made of permanent materials and the other is made of temporary material.

Temporary Houses :

Houses in which both walls and roof are made of materials, which have to be replaced frequently. Walls may be made from any one of the following temporary materials, namely, grass, thatch, bamboo, plastic, polythene, mud, unburnt bricks or wood. Roof may be made from any one of the following temporary materials, namely, grass, thatch, bamboo, wood, mud, plastic or polythene.

Dwelling Room :

A room is treated as a dwelling room if it has walls with a doorway and a roof should be wide and long enough for a person to sleep in, i.e., it should have a length of not less than 2 meters and a breadth of at least 1.5 meters and a height of a 2 meters. A dwelling room would include living room, bedroom, dining room drawing room study room, servant's room and other habitable rooms. Kitchen, Bathroom, latrine, Store-room, passage-way and verandah which are not normally usable for living are not considered as dwelling rooms. A room used for multipurpose such as sleeping, sitting, dining, storing, cooking, etc., is regarded as a dwelling room. In a situation where a census houses is used as a shop or office. etc., and the household also stays in it then the room is not considered as a dwelling room. But if a garage or servant quarter is used by a servant and if she/he also lives in it as a separate household then this has been considered as a dwelling room available to the servants household tent or conical shaped hut if used for living by any household is also considered as dwelling room.

A dwelling room which is shade by more than one household has not been counted for any of them. If two household have a dwelling room each but in addition also share a common dwelling room. Then the common room has not been counted for either or of the household.

Census House :

A 'Census House' is a building or part of a building used or recognized as a separate unit because of having a separate main entrance from the road or common courtyard or, staircase, etc. It may be occupied or vacant. It may be used for a residential or non-residential purpose or both.

In certain peculiar situations, the manner in which buildings and census houses were identified for numbering in the field by the enumerators is described hereunder.

Sometimes a series of a different buildings are found along a street which are joined with one another by common walls on either side looking like a continuous structure. These different units are practically independent of one another and are likely

to have been built at different times and owned by different persons. In such cases, though the whole structure with all the adjoining units apparently appears to be one building, each portion was treated as a separate building and its constituent units as separate census houses.

On the other hand, one may come across cases, particularly in large cities of multi-storied ownership flats. In these cases while the structure looks like one building, different persons own the flats. In case of such multi-storied structures, having a number of flats owned by different persons, the entire structure was treated as one building and each flat as a separate census house.

If within a large enclosed area, there are separate buildings owned by different persons then each such building is treated as a separate building. There can be a situation where within an enclosed compound there are separate buildings owned by an undertaking or company or even government that are actually in occupation of different persons. For example, Indian Oil Corporation colony where the buildings are owned by the Corporation but these are in occupation of their employees. Each such building was treated as a separate building. But if in any one of these buildings there were flats in occupation of different households, each such flat was reckoned as a separate census house.

Sometimes if becomes difficult to apply the definition of census house strictly in certain cases. For example, in an urban area, if a flat has five rooms, each room having direct entrance from the common staircase or courtyard. By definition, this has to be treated as five census houses. If all these five rooms are occupied by a single household it was not realistic to treat them as five census houses. In such a case, 'singleness' of use of these rooms along with the main house should be considered and the entire flat was treated as one census house. On the other hand, if two independent households occupy these five rooms, the first household living in 3 rooms and the second household occupying 2 rooms, then considering the use, the first three rooms together were treated as one census house and the remaining rooms as another census house. But if each room was occupied by an independent household, then each such room was treated as a separate census house.

In case of hostels, hotels, etc., even if the door of each room in which an inmate lives opens to a common verandah, staircase, courtyard or a common room, as it happens almost invariably, the entire hostel/ Hotel building was treated as one census house. but if such hostels/ hotels have out- houses or other structures used for different purposes or the same purpose, then each such structure attached to the main hostel/hotel was treated as a separate census house.

In some parts of the country, in rural areas, the pattern of habitation is such that a group of huts, located in a compound, whether enclosed or unenclosed, is occupied by one household. While the main residence may be located in one hut, other huts may be used for sleeping, as a kitchen, bath room, baithak, etc. Though each of the huts was a separates structure, they form a single housing unit and therefore, have to be treated collectively as one building and one census house. If some of the huts are used by one household and the others by a second household as residence, then the two groups of huts were treated as separate census houses. However, if there were also other huts in the compound used for other purposes and not as part of the household's residence such as, cattle shed, work shed, etc., these were treated as separate census houses.

On the other hand, in urban areas, where more than one structure within an enclosed or open compound (premises) belonging to the same person, e.g., the main house, the servant's quarter, the garage, etc., only one building number was given for this group and each of the constituent a separate census house number.

Only cases where a structure with roof and pillars has come up was treated as a building.

Village :

The basic unit for rural areas is the revenue village, which has definite surveyed boundaries. The revenue village may comprise of one or more hamlets but the entire village is treated as one unit for presentation of data.

In unsurveyed areas, like villages within forest areas, each habitation area with locally recognized boundaries is treated as one village.

Town/Urban Area :

The following areas are treated as towns/urban areas :

(a) All places with a municipality, municipal corporation, cantonment board or notified town area committee, etc.

(b) All other places which satisfy or are expected to satisfy the following criteria simultaneously

(i) A minimum population of 5,000;

(ii) At least 75 per cent of the male working population engaged in non-agricultural pursuits; and

(iii) A density of population of at least 400 per square kilometre (1,000 per square mile).

City :

Towns with population of 1,00,000 and above are called cities.

Urban Agglomeration :

An Urban Agglomeration is a continuous urban spread constituting a town and its adjoining urban outgrowths (OGs) or two or more physically contiguous towns together and any adjoining urban outgrowths of such towns. In some cases railway colonies, university campuses, port areas, etc., may come up near a city or statutory town outside its statutory limits but within the revenue limits of a village or villages contiguous to the town or city. Each such individual area by itself may not satisfy the minimum population limit to qualify it to be treated as an independent urban unit but may deserve to be clubbed with the town as a continuous urban spread.

For the purpose of delineation of Urban Agglomerations during Census of India 2001, following criteria are taken as pre-requisites:

(a) The core town or at least one of the constituent towns of an urban agglomeration should necessarily be a statutory town; and

(b) The total population of all the constituents (i.e., towns and outgrowths) of an Urban Agglomeration should not be less than 20,000 (as per the 1991 Census).

With these two basic criteria having been met, the following are the possible different situations in which Urban Agglomerations would be constituted:

(i) a city or town with one or more contiguous outgrowths;

(ii) two or more adjoining towns with their outgrowths; and

(iii) a city and one or more adjoining towns with their outgrowths all of which form a continuous spread.

Household :

A 'household' is usually a group of persons who normally live together and take their meals from a common kitchen unless the exigencies of work prevent any of them from doing so. Persons in a household may be related or unrelated or a mix of both. However, if a group of unrelated persons live in a census house but do not take their meals from the common kitchen, then they are not constituent of a common household. Each such person was to be treated as a separate household. The important link in finding out whether it was a household or not was a common kitchen. There may be one member households, two member households or multi-member households.

Institutional Households :

A group of unrelated persons who live in an institution and take their meals from a common kitchen is called an Institutional Household. Examples of Institutional Households are boarding houses, messes, hostels, hotels, rescue homes, jails, ashrams, orphanages, etc. To make the definition more clearly perceptible to the enumerators at the Census 2001, it was specifically mentioned that this category or households would cover only those households where a group of unrelated persons live in an institution and share a common kitchen.

Houseless Household :

Households who do not live in buildings or census houses but live in the open on roadside pavements, in hume pipes, under flyovers and staircases or in the open in places of worship, mandaps, railway platforms, etc., are treated as Houseless Household.

Scheduled Castes and Scheduled Tribes :

Article 341(1) of the Constitution provides that the President may, with respect to any State or Union territory, specify the castes, races or tribes or parts of or groups within castes, races or tribes which shall for the purposes of the Constitution be deemed to be Scheduled Castes in relation to that State or Union territory. Article 342(1) similarly provides for specification of tribes or tribal communities or parts of or groups within tribes or tribal communities, which are to be deemed for the purposes of the Constitution to be Scheduled Tribes in relation to the various States and Union territories. In pursuance of these provisions, the list of Scheduled Castes and / or Scheduled Tribes are notified for each State and Union territory and are valid only within the jurisdiction of that State or Union territory and not outside.

It is important to mention here that under the Constitution (Scheduled Castes) Order, 1950, no person who professed a religion different from Hinduism was deemed to be a member of a Scheduled Caste in addition to every member of the Ramdasi, Kabirpanthi, Majhabi or Sikligar caste resident in Punjab or Patiala and East Punjab States Union were in relation to that State whether they professed the Hindu or the Sikh religion. Subsequently, in September 1956, by an amendment, the Presidential Order of 1950 and in all subsequent Presidential Orders relating to Scheduled Castes, the Hindu and the Sikh religions were placed on the same footing with regard to the specification of Scheduled Castes. Later on, as per the amendment made in the Constitution (Scheduled Castes) Order 1990, the Hindu, the Sikh and the Buddhist were placed on the same footing with regard to the recognition of the Scheduled Castes.

The lists containing the names of the Scheduled Castes and the Scheduled Tribes applicable for the Census of India 2001 in the State is given below.

List of Scheduled Castes :

1. Ager
2. Bakad, Bant
3. Bawa-Dedh, Dedh Sadhu
4. Bhambi, Bhambhi, Asadaru Asodi, Chamadia, Chamar Chambhar, Chamgar, Haralayya, Harali, Khalpa, Machigar, Mochigar, Madar, Madig, Mochi, Nalia, Telegu Mochi, Kamati Mochi, Ranigar, Rohidas, Rohit, Samgar.
5. Bhangi, Mehtar, Olgana, Rukhi, Malkana, Halalkhor, Lalbegi, Balmiki, Korar, Zadmalli.
6. Chalvadi, Channayya
7. Chenna Dasar, Holaya Desar
8. Dangashia
9. Dhor, Kakkayya, Kankayya
10. Garmatang
11. Garoda, Garo
12. Halleer
13. Halsar, Haslar, Hulasvar, Halasvar
14. Holar, Valhar
15. Holaya, Holer
16. Lingader
17. Mahar, Taral, Dhegu Megu
18. Mahyavansi, Dhed, Dhedh, Vankar, Maru Vankar, Antyaj
19. Mang, Matang, Minimadig
20. Mang-Garudi
21. Meghaval, Meghwal, Menghvar
22. Mukri
23. Nadia, Hadi
24. Pasi
25. Senva, Shenva, Chenva, Sedma, Rawat
26. Shemalia
27. Thori
28. Tirgar, Tirbanda
29. Turi
30. Turi Barot, Dedh Barot

List of Scheduled Tribes :

1. Barda
2. Bavacha, Bamcha
3. Bharwad (In the Nesses of the forests of Alech, Barada and Gir)*
4. Bhil, Bhil Garasia, Dholi-Bhil, Dungri Bhil, Dungri Garasia, Mewasi Bhil, Rawal Bhil, Tadvi Bhil, Bhagalia, Bhilala, Pawra, Vasava, Vasave.
5. Charan (In the Nesses of the forests of Alech, Barada and Gir) *
6. Chaudhri (In Surat and Valsad districts)
7. Chodhara
8. Dhanka, Tadvi, Tetaria, Valvi
9. Dhodia
10. Dubla, Talavia, Halpati

11. Gamit, Gamta, Gavit, Mavchi, Padvi
12. Gond, Rajgond
13. Kathodi, Katkari, Dhor Kathodi, Dhor Katkari, Son Kathodi, Son Katkari
14. Kokna, Kokni, Kukna
15. Koli (In Kachchh district)
16. Koli Dhor, Tokre Koli, Kolcha, Kolgha
17. Kunbi (In The Dangs District)
18. Naikda, Nayaka, Cholivala Nayaka, Kapadia Nayaka, Mota Nayaka, Nana, Nayaka
19. Padhar
20. Paradhi (In Kachchh district)
21. Pardhi, Advichincher, Phanse Pardhi (Excluding Amreli, Bhavnagar, Jamnagar, Junagadh, Kachchh, Rajkot and Surendranagar districts)
22. Patelia
23. Pomla
24. Rabari (In the Nesses of the forests of Alech, Barada and Gir)*
25. Rathawa
26. Siddi (In Amreli, Bhavnagar, Jamnagar, Junagadh, Rajkot and Surendranagar Districts)
27. Vaghri (in Kachchh district)
28. Varli
29. Vitola, Kotwalia, Barodia

* The area comprised of Jamnagar and Junagadh districts.

Language and Mother Tongue :

As per the census concept, each language is a group of mother tongues. The census questionnaire collects information on the mother tongue of each person and mother tongue is defined as the language spoken in childhood by the person's mother to the person. If the mother died in infancy, the language mainly spoken in the person's home in childhood will be the mother tongue. In the case of infants and deaf mutes, the language usually spoken by the mother is considered as mother tongue. It is not necessary that the language spoken as mother tongue should have a script. The mother tongues returned by the respondents in census are classified and grouped under appropriate languages according to their linguistic characteristics.

Literate :

A person age 7 years and above who can both read and write with understanding in any language is taken as literate. A person who can only read but cannot write is not literate. It is not necessary that to be considered as literate, a person should have received any formal education or passed any minimum educational standard. Literacy could also have been achieved through adult literacy classes or through any non-formal educational system. People who are blind and can read in Braille are treated as literates.

Literacy Rate :

Literacy rate of the population is defined as the percentage of literates in the age group seven years and above. For different age groups the percentage of literates in that age group gives the literacy rate.

Educational Level :

The highest level of education a person has completed.

Work :

Work is defined as participation in any economically productive activity with or without compensation, wages or profit. Such participation may be physical and/or mental in nature. Work involves not only actual work but also includes effective supervision and direction of work. It even includes part time help or unpaid work on farm, family enterprise or in any other economic activity. All persons engaged in 'work' as defined above are workers. Persons who are engaged in cultivation or milk production even solely for domestic consumption are also treated as workers.

Reference period for determining a person as worker and non-worker is one year preceding the date of enumeration.

Main Worker :

A person who has worked for major part of the reference period (i.e. six months or more during the last one year preceding the date of enumeration) in any economically productive activity is termed as "Main worker".

Marginal Worker :

A person who worked for less than six months of the reference period (i.e. in the last one year preceding the date of enumeration) in any economic activity is termed as 'Marginal- worker'

Non Worker :

A person who has not worked at all in any economically productive activity during the reference period (i.e. last one year preceding the date of enumeration) is termed as 'Non worker'.

Cultivator :

For purposes of the Census a person is classified as cultivator, if, he or she is engaged in cultivation on land owned or held from government or held from private persons or institutions for payment in money, kind or share. Cultivation includes effective supervision or direction in cultivation.

A person who has given out her/his land to another person or persons or institution(s) for cultivation for money, kind or share of crop and who does not even supervise or direct cultivation in exchange of land, is not treated as cultivator. Similarly, a person working on another person's land for wages in cash or kind or a combination of both (agricultural laborers) is not treated as cultivator.

Cultivation involves ploughing, sowing, harvesting and production of cereals and millet crops such as wheat, paddy, jowar, bajra, ragi, etc., and other crops such as sugarcane, tobacco, ground-nuts, tapioca, etc., and pulses, raw jute and kindred fiber crop, cotton, cinchona and other medicinal plants, fruit growing, vegetable growing or keeping orchards or groves, etc. Cultivation does not include the following plantation crops–tea, coffee, rubber, coconut and betel-nuts (area).

Agricultural Labourer :

A person who works on another person's land for wages in money or kind or share is regarded as an agricultural labourer. She/he has no risk in the cultivation, but merely works on another person's land for wages. An agricultural laborer has no right of lease or contract on land on which she/he works.

Household Industry Worker :

Household industry is defined as an industry conducted by the head of the household herself/himself and or by the members of the household at home or within the village in rural areas and only within the precincts of the house where the household lives in urban areas. The larger proportion of workers in household industry should consist of members of the household including the head. The industry should not be run on the scale of a registered factory which would qualify or has to be registered under the Indian Factories Act and should be engaged in manufacturing, processing, servicing and repairs of goods.

It does not include professions such as a pleader, Doctor, Musician, Dancer, Waterman, Astrologer, Dhobi, Barber, etc. or merely trade or business, even if such professions, trade or services are run at home by members of the household.

Other Worker :

A person who has been engaged in some economic activity during the reference period but not as a cultivator or agricultural laborer or in Household Industry is termed as an 'Other-Worker (OW)'. The type of workers that come under this category of 'OW' include all government servants, municipal employees, teachers, factory workers, plantation workers, those engaged in trade, commerce, business, transport, banking, mining, construction, political or social work, priests, entertainment artists, etc. In effect, all those workers other than cultivators or agricultural laborers or household industrial workers, are 'Other Workers'.

Work Participation Rate :

Percentage of workers (main + marginal) to total population

Population Density :

Population density is the number of persons inhabited per square kilometer of the area.

Age :

Age is measured in terms of the completed number of years.

Sex Ratio :

Numbers of females per 1,000 males in a population.

(vi) Non Census Concepts :

Improved Drinking Water :

If the household had access to drinking water supplied from a tap, hand pump, tube well or well (protected or covered) situated within or outside the premises, it is considered as having access to improved drinking water.

System of Sewerage :

Generally, a sewerage system would mean a network of mains and branches of underground conduits for the conveyance of sewerage to the point of disposal. Sewers that carry only household and industrial wastage are called separate sewers; those that carry storm water from roofs, streets and other surfaces are known as storm water drains, while those carrying both sewage and storm water are called combined sewers. However, in some towns, which are, not provided with such underground sewerage system, it is served by open surface drain, box drain, silk pattern drain, etc., in these towns.

Type of Latrine and Method of Disposal of Night Soil :

There are three prevalent systems of disposal of human wastes, viz.(i) underground sewerage, (ii) sanitary water flush latrines with individual disposal systems, like septic tank, leaching cess pool and collecting well, and (iii) dry type of latrines with manual scavenging.

The system of underground sewerage provides for the street sewerage with which are connected the sanitary latrines constructed in the houses having water closets and fitted with flushing cistern (or hand flushing). Through this sewer the faucal matter is transported without the need for scavenging. This system generally exists in cities and big towns.

Where the streets sewer does not exist these sanitary water flush latrines are connected to a local septic tank with a sub-soil dispersion system or a leaching pit. Here the liquid wastes from the water closet is disposed of locally in leaching pit, a septic tank with a soil dispersion system is constructed. This dispersion requires an optimum travel through the pores of the soil, which renders the harmful liquid bacterially innocuous by the slow process of filtration through the soil traversed.

Where the soil is impermeable, collecting wells are constructed and the sanitary water flush latrines are connected with them. These wells are cleaned at periodic intervals by a suitable device. The dry type of latrines are of service type latrines from where human excreta is removed by scavengers from house to house, in most cases carrying it on their heads or shoulders or in baskets with handle or wheel barrows. These are then collected in bullock carts or trucks or tractors and trolleys for being carried to the dumping grounds.

Fertility :

In demography, the word fertility is used in relation to the actual production of children or occurrence of births specially lives births. Fertility is a measure of rate at which population adds to itself by births and normally assessed by relating the number of births to a full or part of the population, such as number of married women or number of women of child bearing age. The definitions of the terminology used in computing different fertility rates are mentioned below.

Crude Birth Rate (CBR) :

Ratio of the numbers of live births in a year to the mid year population. (normally expressed per 1,000 population).

$$CBR = \frac{\text{Numbers of live births during the year}}{\text{Mid –year Population}} \times 1{,}000$$

Crude Death Rate (CDR) :

Ratio of the numbers of deaths in a year to the mid year population, normally expressed per 1,000 population.

$$CDR = \frac{\text{Numbers of deaths during the year}}{\text{Mid –year Population}} \times 1{,}000$$

Natural Growth Rate (NGR) :

Natural Growth rate is obtained as the difference between crude birth rate and crude death rate in the absence of migration.

$$NGR = CBR - CDR$$

Age Specific Fertility Rate (ASFR) :

Number of live births in a year to female population in any specified age group normally expressed per 1,000 women.

$$ASFR = \frac{\text{Numbers of live births in a particular age group}}{\text{Numbers female population of same specified age group}} \times 1{,}000$$

Age Specific Marital Fertility Rate (ASMFR):

Number of live births in a year to married female population in any specified age group normally expressed per 1,000 married women.

$$ASMFR = \frac{\text{Number of live births in a particular age group}}{\text{Mid-year married female population of the same age group}} \times 1{,}000$$

General Fertility Rate (GFR) :

Number of live births per 1,000 women in the reproductive age-group (15-49) years in a given year.

$$GFR = \frac{\text{Number of live births in a year}}{\text{Mid-year female population in the age-group (15-49) years}} \times 1{,}000$$

General Marital Fertility Rate (GMFR) :

Number of live births per 1,000 married women in reproductive age-group (15-49) years in a given year.

$$GMFR = \frac{\text{Number of live births in a year}}{\text{Mid-year married female population in the age group (15-49) years}} \times 1{,}000$$

Total Fertility Rate (TFR) :

It is obtained as the total of the age specific fertility rates (number of children born per woman of the particular age) for the entire reproductive age span. It provides the average number of children that will be born to a woman under the fertility levels indicated by the age specific fertility rates assuming that there is no mortality of women till the completion of reproductive period.

$$TFR = \frac{5 \times \sum_{15\text{-}19}^{45\text{-}49} ASFR}{1{,}000}$$

Total Marital Fertility Rate (TMFR) :

Average number of children that would be born to a married woman if she experiences the current fertility pattern throughout her reproductive span (15-49) years assuming that there is no mortality of women till the completion of reproductive period

$$TMFR = \frac{5 \times \sum_{15\text{-}19}^{45\text{-}49} ASMFR}{1{,}000}$$

Age-Specific Mortality Rate (ASMR) :

Number of deaths in a particular age and sex group per 1,000 population of the same age group.

$$ASMR = \frac{\text{Number of deaths in a particular age group}}{\text{Mid-year population of the same age group}} \times 1{,}000$$

q1 :

Probability of dying between birth and age 1. This can be used as approximate value of Infant Mortality Rate (IMR) which gives the ratio of number of deaths in a year of children aged less than one year to the number of births in that year.

q2 :

Probability of dying between birth and age 2.

q5 :

Probability of dying between birth and age 5. This indicator is also known as Under Five Mortality Rate (q5MR)

Infant Mortality Rate (IMR) :

Ratio of the number of infant deaths (deaths of children below one year) in a year to the number of live births in that year.

$$IMR = \frac{\text{Number of infant deaths during the year}}{\text{Number of live births during the year}} \times 1{,}000$$

Infant mortality rate comprises of two parts, viz., Neo-natal mortality rate and Post neo-natal mortality rate. The neo-natal mortality rate also comprises of two parts viz., early neo-natal mortality rate and late neo-natal mortality rate. These are defined as :

Neo-natal Mortality Rate (NMR) :

Number of infants dying within the first month of life (28 days or under) in a year per 1,000 live births of the same year.

$$NMR = \frac{\text{Number of infant deaths aged 28 days under during the year}}{\text{Number of live births during the year}} \times 1{,}000$$

Early Neo-natal Mortality Rate (ENMR) :

$$ENMR = \frac{\text{Number of infant deaths of less than 7 days during the year}}{\text{Number of live births during the year}} \times 1{,}000$$

Late Neo-natal Mortality Rate (LNMR) :

$$LNMR = \frac{\text{Number of infant deaths of 7 days to less than 29 days during the year}}{\text{Number of live births during the year}} \times 1{,}000$$

Post Neo-natal Mortality Rate (PNMR) :

$$PNMR = \frac{\text{Number of deaths of 29 days to less than One year during the year}}{\text{Number of live births during the year}} \times 1{,}000$$

Peri-natal Mortality Rate (PMR) :

Number of stillbirths plus deaths within 1st week of delivery per 1,000 births in a year.

$$PMR = \frac{\text{Number of stillbirths and infant deaths of less than 7 days during the year}}{\text{Number of live births and stillbirths during the year}} \times 1,000$$

Stillbirth Rate (SBR) :

$$SBR = \frac{\text{Number of stillbirths during the year}}{\text{Number of live births and still births during the year}} \times 1,000$$

Maternal Mortality Rate (MMR) :

Number of deaths of women in the age group 15-49 while pregnant or within 42 days of termination of pregnancy from any cause related to pregnancy and childbirth per 100,000 live births in a given year.

$$MMR = \frac{\text{Number of maternal deaths to women in the age group 15-49}}{\text{Number of live birth}} \times 100,000$$

Eligible Couple (Couples per 1,000 population):

Number of currently married females in the age group15-44 years per 1,000 persons of all ages.

Child Woman Ratio (0-4) :

1. Number of children in the age group 0-4 years per 1,000 women in the age group 15-49 years.

Child Woman Ratio (5-9) :

2. Number of children in the age group 5-9 years per 1,000 women in the age group 15-49 years.

Migration :

Migration is the third component of population change, the other two being mortality and fertility.

A person is considered as a migrant by place of birth if the place in which he/she is enumerated during the census is other than the place of his/her birth.

Similarly a person is considered as a migrant by place of last residence if the place in which he/she is enumerated during the census is other than his/her place of immediate last residence outside the village or town and not simply in another house or locality in the same village or town.

Certain aspects concerning temporary movement/ migration of people has been explained below as these are important components concerning migration :

(i) Migration of persons in search of job is high in the country. In many cases such migrants are only seasonal in nature. People migrate to other places for work in a particular season and come back again to their usual place of residence after three or four months. All such workers are treated as migrants. Similarly, if a person moved to any other place for attending short term vocational or educational course that lasted for only few months of a year, she/he too were considered as a migrant.

(ii) Where a person had merely gone out to another place or had been shifting from one place to another purely on tour, pilgrimage, visit to hospital for treatment or for temporary business purposes, such persons are not deemed to have had another residence different from the place where she/he or her/his family normally resides. She/he is not considered as migrant.

(iii) A woman temporarily moves into a hospital or to her parents or other relative's house for delivery and if the hospital or the parents/ relatives houses is in a place different from usual place of residence, the place where the hospital or parents/relative's house is the place of last residence of the child but not of the mother.

A new response category 'Moved after birth' was added in Census of India 2001 in the question on 'reasons for migration' to bring out additional migration patterns. Natural calamities or distress migration as a reason for migration for last residence migrants included in 1991 Census, is covered under category of 'Others'. The reason for migration has been determined as applicable at the time of migration and not in reference to any point of time after that. For example, if a person had moved from the place of her/his last residence for the purpose of education and subsequently at some point of time got employment there only, the reason for migration would be 'education' and not 'work/employment'.

Internal and International Migration :

The migrational movements are of three types

(i) Migration within the state itself with its components

(a) Migration within the district of enumeration (intra district migration)

(b) Migration from one district of state to another district of state (inter district migration),

(ii) Migration from one state to another State of the country (inter-state migration),

(iii) Migration from one country to another country.

The first two streams together constitute internal migration, while the last type of movement is called international migration. The present name of the country, state or district and not the name by which they were known at the time of her/his birth or last residence were recorded.

Rural-Urban Components of Migration :

Rural or Urban status in respect of migrants had been determined as applicable at the time of migration and not with reference to any point of time after that.

The flow of migrants consists of four streams viz. rural to rural, rural to urban, urban to rural and urban to urban.

Civic Status of Urban Units :

Civic Status of a town/city is determined on the basis of Civic Administrative authority of the town e.g., Municipal Corporation/Corpora-tion, Municipal Committee / Municipal council, Municipality etc.

Size Class of UA/Town :

Size-class of UA/Town is based on the population size of the UA/City/Town UAs/Towns with 1,00,000 and above population is classified as Class I UAs./ towns. These Class I UAs./towns are now further sub classified in to seven sub classes namely M1 to M7 depending on the population size of UA/City/Town. These are M7(5,000,000 and above); M6(2,000,000 to 4,999,999); M5(1,000,000-1,999,999) M4(500,000-999,999); M3(300,000-499,999), M2(200,000-299,999) & M1(100,000-199,999). towns with, 50,000 to 99,999 population are classified as Class II towns, 20,000 to 49,999 population are Class III towns, population with 10,000-19,999 are Class IV towns, population with 5,000 and 9,999 are Class V towns and towns with less than 5,000 population are Class VI towns.

Slum Area :

The Slum Areas (Improvement and Clearance) Act, 1956 which was enacted by the Central Govt. defined slums as a) Areas where buildings are in any respect unfit for human habitation; or b) are by reasons of dilapidation, overcrowding, fault arrangement and design of such buildings, narrowness or faulty arrangement of streets, lack of ventilation, light or sanitation facilities, or any combination of these factors, are detrimental to safety, health or morals.

Mega City :

The concept of 'Mega city' is a recent phenomenon in the Urban Sociology and is defined in term of metropolitan city in the form of large size, problem of management of civic amenities and capacity to absorb the relatively high growth of population. Indian Census in 1991 treated the population size of 5 million and above as the cut off point to identify a place as the mega city. Whereas, for the purpose of inclusion in Centrally Sponsored Scheme for Infrastructure Development in Mega cities the Ministry of Urban Affairs and employment, Department of Urban Development adopted the criteria of 4 million and above population as per 1991 Census for Mega Cities. In 2001 Census, cities with 10 millions and above population have been treated as Mega cities.

(vii) 2001 Census findings- Population, its distribution :

(a) Distribution of population in rural-urban areas:

According to 2001 Census, the total population of Kheda district is 2,024,216 comprising 1,052,823 males and 971,393 females. This population of the district is 3.99 per cent of total population of Gujarat State and the district ranks 10th among 25 districts of the state. Out of the total population of the district 79.9 per cent lives in rural areas while 20.1 per cent lives in urban areas. The rural population of the district is distributed in 612 inhabited villages among 10 talukas and the urban population is spread over in 8 towns. The total urban population of the district is 406,450 comprising 211,327 males and 195,123 females. The total rural population of the district is 1,617,766 comprising 841,496 males and 776,270 females. There are of 615 villages in the district, out of which 612 are inhabited and 3 villages are uninhabited.

(b) Size class & status of towns, Population growth, Density, Sex ratio, Work participation rate, Literacy, availability of University education in the District :

The statement given below shows the position and number of urban units by size class for 2001 Census.

Sl. No.	Name and Civic Status of Town	Size Class of town	Status of Population
1	2	3	4
1	Balasinor (M)	III	33,705
2	Chaklasi (M)	III	36,101
3	Dakor(M)*	III	25,205
4	Kapadvanj (M)	III	43,950
5	Kheda (M)	III	24,136
6	Mahudha (M)	IV	15,792
7	Mehmedabad (M)	III	30,768
8	Nadiad (M)*	I	196,793

Note:* Towns included outgrowths.

According to 1991 Census the total population of the district was 1,786,794, which increased to 2,024,216 in 2001 Census. There has been net addition of 237,422 persons in population during 1991-2001. The decadal growth rate of district comes to 13.3 per cent. The decadal growth rates for the rural and urban areas of the district are 9.5 per cent and 31.5 per cent respectively.

As some towns of 1991 Census were declassified in 2001 Census, the urban growth rate is lower than that of rural areas. The highest urban growth of 27.7 per cent is found in Nadiad taluka and the lowest of 48.9 per cent in Thasra taluka. Virpur and Kathlal talukas have shown -100 percent growth rate during 1991 to 2001 Census. The urban population was 20.8 per cent of total population in 1991 Census and in 2001 Census the same is recorded at 20.1 per cent. The density of population in Kheda district is 480 persons per sq.km while the density of Gujarat State is 258 persons. As regards sex ratio it is observed that there are 923 females for every 1,000 males in the district against the state sex ratio of 920 females.

The sex ratio for rural and urban areas of the district is 922 and 923 respectively, Among the talukas the highest sex ratio of 937 females is recorded in Kathlal taluka and the lowest of 912 in Thasra taluka.The sex ratio for children of 0-6 years of age is 882 in rural areas and 844 in urban areas.

The work participation rate is defined as percentage of total workers to the population. As per 2001 Census the total workers (main + marginal) are 44.9 per cent of total district population. In this proportion of main workers is 34.3 per cent and that of marginal workers is 10.6 per cent As high as 55.1 per cent of population belongs to the category of non workers.

As per 2001 Census among the main workers, male participation rate in the district is 49.8 per cent and corresponding proportion for females is 17.5 per cent. Male and female marginal workers account for 5.3 per cent and 16.3 per cent respectively. The proportion of female marginal workers is higher than that of males as the females are attending to one or more economic activities in addition to their household duties to improve the family income. It is observed that in rural as well as in urban areas of the district the proportion of male main workers is higher than the female main workers.

A person who can read and write in any language with understanding is considered literate in the Census. All the children below 7 years of age are treated as illiterates.

As per 2001 Census literacy rate is 72 per cent in Kheda district. The proportion of male and female literates in the district is 86 per cent and 56.9 per cent respectively. The literacy rate of males is higher than that of females. The gap in male and female literacy rate is 29.1 percentage points in the district.

The literacy rates of rural and urban areas are 69.2 per cent and 82.6 per cent respectively. The proportion of male and female literates in rural areas is 85 per cent and 52.2 per cent respectively. In urban areas male literacy rate is recorded at 90 per cent and that of female at 74.2 per cent. The gap in male-female literacy rate is 32.7 percentage points in rural areas and 15.2 percentage points in urban areas. It is thus clear that female literacy rate is higher in urban areas.

There are 24 colleges in Kheda district, which comprising several Arts, Science and Commerce Colleges. The notable education institutions in the district are D.D.I.T., Nadiad and Medical College of Karamsad. Besides these institutes there is a Nursing College and Ayurvedic Mahavidhyalaya in Nadiad, Institute of Technology each in Karamsad and Changa.

Religion :

Religion forms an integral part of Indian Social system. In the Pre-Independence census reports, the data on religion was being presented for 9 major religion viz. Hindu, Muslim, Tribal, Christian, Sikhs, Jain, Buddhist, Parsi, Jew and others. However, since the 1951 census the data on religion has been presented for 6 major religion viz. Hindus, Muslims Christians, Sikhs, Jain and Buddhists. Besides, the minor religions have been classified under the category of 'other'. The data on religion collected and presented by the Indian Census is the basic data of intense use for the researchers, anthropologists, Sociologists, demographers, administrators, planners and even for a common man.

In 2001 the Indian Census collected the religion data in question No. 7 of the Households schedule and recorded the same under the six major religions, other religions were recorded in actual as returned by the respondent and classified under the category of 'others'. The 'Religion not stated' has been recorded for those persons who have not stated their religion.

Percentage distribution of population by major religions in Gujarat State and Kheda district in 2001 Census.

Sl. No.	Religion	Gujarat State		Kheda District	
		Population	Percentage	Population	Percentage
1	2	3	4	5	6
1	Hindu	45,143,074	89.1	1,775,214	87.7
2	Muslim	4,592,854	9.1	218,660	10.8
3	Christian	284,092	0.5	23,178	1.1
4	Sikh	45,587	0.1	1,018	0.0
5	Buddhist	17,829	0.0	75	0.0
6	Jain	525,305	1.0	3,563	0.2
7	Others	28,698	0.1	437	0.0
8	Religion not stated	33,578	0.1	2,071	0.1

The comparative data of Gujarat State and Kheda district is given in above statement. It is observed that at State level population of Hindu is 89.1 per cent of total population while in Kheda district population of Hindus is 87.7 per cent of total district population. In Gujarat state 9.1 per cent of population follows Muslim religion against 10.8 per cent Muslim found in Kheda. It will be interesting to note that proportion of Christian is 0.5 per cent in Gujarat state whereas in Kheda the proportion of Christian is 1.1 per cent of total district population. The population of other major religious communities is low in Kheda district as compared to respective figure of Gujarat State.

The distribution of population by major religious communities between rural and urban areas of Kheda district is as under according to 2001 census:-

Religion	Number of followers	Population	
		Rural	Urban
1	2	3	4
Hindu	1,775,214	1,467,889 (82.7)	307,325 (17.3)
Muslim	218,660	134,086 (61.3)	84,574 (38.7)
Christian	23,178	13,652 (58.9)	9,526 (41.1)
Sikh	1,018	227 (22.3)	791 (77.7)
Buddhist	75	40 (53.3)	35 (46.7)
Jain	3,563	1,096 (30.8)	2,467 (69.2)
Other	437	4 (0.9)	433 (99.1)
Religion not stated	2,071	772 (37.3)	1,299 (62.7)

*Reacasted Population

Table 1 shows talukawise details of decadal changes in population during the last decade of 1991-2001 along with the percentage of urban population for last two Censuses. The decadal growth rate of Kheda district is 13.3 per cent during 1991-2001. The growth rate for rural and urban areas of the district is 14.3 per cent and 9.5 per cent respectively. It can be observed from the data that rural growth is higher than that of urban areas during 1991-2001. As per 2001 Census Urban population was 20.1 percent of total district population while in 1991 urban population was 20.8 per cent of district population. The highest decadal growth of 17.6 per cent is recorded in Kathlal taluka and the lowest of 10.8 per cent in Mahudha. Among talukas, Nadiad has urban population of 47.7 per cent which is the highest in district while the lowest of 8.2 per cent is found in Thasra. Virpur, Kathlal and Thasra talukas have shown negative growth for urban areas in 2001 Census. As per 2001 Census, Virpur, Kathlal and Matar talukas do not have any urban areas.

	District (Rural) Total :	**205 (33.5)**	**330,317**	**304,555**	**71 (11.6)**	**241,832**	**222,668**	**13 (2.1)**	**89,744**	**82,802**

Table 2 gives the details of absolute number and percentage of inhabited villages in specified population size ranges with the related population and number of males and females. Out of 612 inhabited villages 12 (2.0 per cent) villages are small size villages with population below 200 persons. There are 38 (6.2 per cent) villages in the population range 200-499 and 100 (16.3 per cent) villages are in the population range of 500-999. There are 173 (28.3 per cent) villages in the population range of 1,000-1,099. The highest number of villages i.e. 205 accounting for 33.5 per cent villages are in the range of 2,000-4,999 persons. As many as 71 (11.6 per cent) villages are in the range of 5,000-9,999 and only 13 (2.1 per cent) villages are in the range of 10,000 and above. Thus, it can be observed that out of total of 612 villages 478 (78.1 per cent) villages have population ranging from 500 to 4,999.

TABLE 3

NEW TOWNS, DENOTIFIED, DECLASSIFIED AND MERGED TOWNS IN 2001 CENSUS

Name of Town

(a) New

(i) Statutory town

1 Chaklasi M

2 Mahudha M

(ii) Census town

Nil

(b) Denotified

(i) Statutory towns of 1991 census denotified and also did not satisfy the criteria to be treated as census towns

Nil

(ii) Statutory towns of 1991 census denotified but identified as census towns based on demographic and economic criteria

Nil

(iii) Census towns of 1991 census are notiified as statutory town in 2001 census

Nil

(c) Declassified

1 Vaso NP

2 Kathlal VP

3 Virpur VP

4 Thasra NP

5 Pali NP

(d) Wholly merged with other town(s)

Nil

Declassifierd means the census towns of 1991 census which failed to satisfy the demographic and economic criteria

TABLE 4

DISTRIBUTION OF VILLAGES BY POPULATION DENSITY, 2001

Range of Population Density (per Square Kilometer)	Total Number of Villages in each Population Density Range	Percentage of Villages in each Population Density Range	Population	Percentage Distribution of Population
1	2	3	4	5
0-10	1	0.2	1,491	0.1
11-20	2	0.3	42	0.0
21-50	3	0.5	418	0.0
51-100	9	1.5	3,973	0.2
101-200	46	7.5	55,617	3.4
201-300	129	21.1	254,910	15.8
301-500	211	34.5	499,164	30.9
501 +	211	34.5	802,151	49.6
Not known	0	0.0	0	0.0
District Total:	**612**	**100.0**	**1,617,766**	**100.0**

Population Density (Rural) of the district : 431

Table 4 presents the distribution of village by population density ranges as per 2001 Census. In this table 612 inhabited villages of Kheda district have been grouped under eight different ranges of density. The maximum number of villages i.e. 211 accounting for 34.5 per cent of villages fall in the each density range of 301-500 and 501 and above persons with population proportion of 30.9 per cent and 49.6 per cent respectively. As many as 129 (21.1 per cent) villages are in the range of 201-300 persons with 15.8 per cent of population and 46 (7.5 per cent) villages are in range of 101-200 having only 3.4 per cent of population. The lowest range of 0-10 persons per square kilometer covers 1 (0.2 per cent) village with only 0.1 per cent of population. There are 2 and 3 villages in the ranges of 11-20 and 21-50 respectively. The population coverage of these two ranges is of 42 and 418 persons respectively. As many as 9 (1.5 per cent) villages are in the range of 51-100 with population coverage of only 0.2 per cent.

TABLE 5

SEX RATIO OF STATE AND DISTRICT, 1901-2001

Sl.	Census	Gujarat State			Kheda District		
No.	Year	Total	Rural	Urban	Total	Rural	Urban
1	2	3	4	5	6	7	8
1	1901	954	951	965	897	883	970
2	1911	946	943	960	865	852	955
3	1921	944	947	931	872	865	913
4	1931	945	948	934	875	869	907
5	1941	941	954	898	896	893	912
6	1951	952	964	920	918	921	904
7	1961	940	956	896	913	917	897
8	1971	934	951	893	907	909	899
9	1981	942	959	905	924	924	925
10	1991	934	949	907	924	922	934
11	2001	920	945	880	923	922	923

Table 5 gives the details of sex ratio of state and Kheda district for census from 1901 to 2001. As per 2001 census sex ratio of the district is 923 females per 1,000 males. The same for rural and urban area stands at 922 and 923 respectively. It can be observed that sex ratio of the state is higher for all the census years except for 2001 census as compared to sex ratio of the district during the same period. In Kheda district the lowest sex ratio of 865 is recorded in 1911 while the highest of 924 was recorded in 1981 and 1991. In Kheda district except for the census years of 1951 to 1971 in all other years sex ratio in rural area was lower than that of urban areas. In Gujarat except for the census years of 1901 and 1911 in all other years sex

	District Total:	**923**	**922**	**923**

Table 6 shows the details of sex ratio for the total, rural and urban areas at taluka level as per 2001 Census. There are 923 females per 1,000 males in Kheda district. In Kheda district Kathlal Taluka has recorded the highest sex ratio of 937 females per 1,000 males whereas Thasra has the lowest sex ratio of 912 females per 1,000 males. In rural areas the highest sex ratio of 937 is recorded in Kathlal while the lowest of 911 is in Nadiad. In urban areas the highest and the lowest sex ratio of 940 and 905 are recorded in Balasinor and Thasra respectively.

TABLE 7

SEX RATIO BY TALUKAS / C.D. BLOCKS, 2001

Sl. No.	Name of Taluka / C.D.Block	Sex Ratio
1	2	3
1	Kapadvanj	925
2	Virpur	930
3	Balasinor	935
4	Kathlal	937
5	Mehmedabad	936

7	Matar	914
8	Nadiad	911
9	Mahudha	923
10	Thasra	913
	District (Rural) Total :	**922**

Table 7 gives the details of Taluka/C.D.Block wise sex ratio for rural population in the district. The sex ratio in rural area of the district is 922 females per 1,000 males. The highest sex ratio of 937 among Taluka / C.D.Block is found in Kathlal while the lowest sex ratio of 911 is found in Nadiad.

TABLE 8

SEX RATIO OF RURAL POPULATION BY RANGES, 2001

Range of Sex Ratio for Villages	Number of Inhabited Villages	Percentage of Villages in each Range	Population 2001	Percentage Distribution of Population
1	2	3	4	5
Less than 700	3	0.5	1,326	0.1
700-749	0	0.0	0	0.0
750-799	5	0.8	1,273	0.1
800-849	29	4.7	38,740	2.4
850-899	137	22.4	361,364	22.3
900-949	273	44.6	872,860	54.0
950-999	131	21.4	278,441	17.2
1000-1099	29	4.7	61,872	3.8
1100+	5	0.8	1,890	0.1
District Total :	**612**	**100.0**	**1,617,766**	**100.0**

Sex ratio (Rural) for District: 922

Table 8 reveals the details of the distribution of villages by 9 different sex ratio ranges based on 2001 Census. Out of 612 inhabited villages, as high as 273 villages i.e. 44.6 per cent of total villages having 54.0 per cent of total rural population are in the sex ratio range of 900-949 followed by 137 (22.4 per cent) villages with 22.3 per cent population in the range of 850-899 and 131 (21.4 per cent) villages having 17.2 per cent of population are in the range of 950-999. Thus, 88.4 per cent of villages with 93.5 per cent of rural population have sex ratio between 850 and 999. The higher sex ratio range of 1,000-1,099 covers 29 villages (4.7 per cent) having 3.8 per cent population while 5 villages are in the highest ranges of 1,100 and more with only 0.1 per cent of population. There are 29 (4.7 per cent) villages in the range of 800-849 having 2.4 per cent of rural population. As low as 5 (0.8 per cent) villages with only 0.1 per cent of population are in the sex ratio range of 750-799. The lowest numbers of 3 (0.5 per cent) villages have sex ratio of less than 700 and population of these villages are accounted for only 0.1 per cent of total rural population.

TABLE 9

		Urban	**48,164**	**26,118**	**22,046**	**844**

Table 10 shows the sex ratio of the population in the age group of 0-6 years for total, rural and urban area in respect of each talukas of the district. The total population of 0-6 years is 296,430 in the district comprising 158,032 males and 138,398 females. The sex ratio for 0-6 years is 876 for district. In rural and urban areas the sex ratio is 882 and 844 respectively. This indicates that the proportion of female child is higher in rural areas than the urban areas. Among talukas the highest and the lowest sex ratio of 916 and 831 are recorded in Balasinor and Nadiad talukas respectively.

TABLE 11

SEX RATIO OF POPULATION IN THE AGE GROUP 0-6 FOR TALUKAS / C.D. BLOCKS, 2001

Sex ratio (Rural) for District: 882

Table 12 gives the details about the distribution of villages in 9 different ranges of sex ratio in the age group of 0-6 years as well as percentage of villages, total population and percentage distribution of population falling in each range of sex ratio in the district. As high as 124 (20.3 per cent) villages are in the range of 850-899 with the largest population proportion of 26.8 per cent followed by 103 (16.8 per cent) villages in range of 900-949 having 22.6 per cent of population. As many as 50, 24 and 62 villages are in the lower ranges of less than 700, 700-749 and 750-799 respectively. The population covered by these villages is 2.5 per cent 3.4 per cent and 9.6 per cent respectively. There are 50 villages in the highest range of 1,100 and more with 3.0 per cent of population. As many as 54 (8.8 per cent) and 56 (9.2 per cent) villages are in the higher range of 950-999 and 1,000-1,099 respectively and population of these villages is 8.8 per cent and 6.7 per cent of total population respectively. As many as 89 (14.5 per cent) villages with 16.6 per cent of population are in the range of 800-849.

UA= Urban Agglomeration

Table 13 gives the details of sex ratio of population in the age group of 0-6 years of UA/Towns in the district. The data reveals that the total population in 0-6 age group is 48,164 comprising 26,118 male children and 22,046 female children. The sex ratio of this age group at district level is 844 females for every 1,000 males. Among UA/Towns the highest sex ratio of 926 is recorded in Balasinor (M) against the lowest of 815 registered in Nadiad.

		Urban	**406,450**	**21,378**	**7,563**	**5.3**	**1.9**

Table 14 gives number and percentage of Scheduled Castes and Scheduled Tribes population in talukas as per 2001 Census. Out of total district population of 2,024,216 persons 106,111 (5.2 per cent) belong to Scheduled Castes and 32,394 (1.6 per cent) belongs to Scheduled Tribes. In rural areas 5.2 per cent of population belongs to Scheduled Castes and 1.5 per cent belongs to Scheduled Tribes while in urban area 5.3 per cent of population belongs to Scheduled Castes and 1.9 per cent belongs to Scheduled Tribes. Thus, urban areas have little more proportion of Scheduled Castes and Scheduled Tribes population as compared to rural areas. The highest percentage of Scheduled Castes population is recorded in Kheda taluka at 10.4 per cent while in number terms Nadiad has the highest Scheduled Castes population of 20,382. The lowest percentage of Scheduled Castes population is registered in Kathlal at 2.7 per cent while the lowest

number of Scheduled Castes population of 3,686 is recorded in Mahudha taluka. The highest and the lowest number of 7,998 (2.6 per cent) persons and 605 (0.7 per cent) of Scheduled Tribes population are recorded in Thasra and Virpur talukas respectively. In percentage terms the proportion of Scheduled Tribes population varies from 0.5 per cent recorded in Kathlal to 5.4 per cent found in Kheda.

TABLE 15

NUMBER AND PERCENTAGE OF SCHEDULED CASTES AND SCHEDULED TRIBES POPULATION IN TALUKAS/C.D. BLOCKS, 2001

Sl. No.	Name of Taluka/ C.D. Block	Total Population	Total Scheduled Castes Population	Total Scheduled Tribes Population	Percentage of Scheduled Castes Population to Total Population	Percentage of Scheduled Tribes Population to Total Population
1	2	3	4	5	6	7

2	Virpur	87,091	5,508	605	6.3	0.7
3	Balasinor	96,491	7,385	2,294	7.7	2.4
4	Kathlal	181,511	4,927	852	2.7	0.5
5	Mehmedabad	189,114	6,835	1,589	3.6	0.8
6	Kheda	94,284	9,854	5,708	10.5	6.1
7	Matar	147,201	8,179	1,657	5.6	1.1
8	Nadiad	255,734	10,455	2,756	4.1	1.1
9	Mahudha	98,924	3,487	838	3.5	0.8
10	Thasra	281,685	16,656	6,362	5.9	2.3
	District (Rural) Total :	**1,617,766**	**84,733**	**24,831**	**5.2**	**1.5**

Table 15 gives the details of the distribution of Scheduled Castes and Scheduled Tribes population for rural areas in each taluka/C.D. Block of the district. It can be seen that 5.2 per cent of rural population belongs to Scheduled Castes and 1.5 per cent of the population belongs to Scheduled Tribes. In percentage terms Kheda taluka has the highest proportion of 10.5 per cent of Scheduled Castes population and Kathlal has the lowest of 2.7 per cent of the same. In number terms Thasra has population of 16,656 persons of Scheduled Castes population which is the highest and Mahudha has Scheduled Castes population of 3,487which is the lowest. As regards Scheduled Tribes population, Thasra has the highest Scheduled Tribes population of 6,362 (2.3 per cent) persons. The lowest Scheduled Tribes population of only 605 (0.7 per cent) persons is recorded in Virpur. In percentage terms Kathlal has the lowest proportion of Scheduled Tribes population of 0.5 per cent and the highest of 6.1 per cent of Scheduled Tribes population is recorded in Kheda.

TABLE 16

PROPORTION OF SCHEDULED CASTES POPULATION TO TOTAL POPULATION IN VILLAGES, 2001

Percentage range of Scheduled Castes Population to Total Population	Number of Villages	Percentage	Scheduled Castes Population	Percentage
1	2	3	4	5
Nil	111	18.1	0	0.0
Less than 5	256	41.8	21,544	25.4

21-30	12	2.0	3,763	4.4
31-40	3	0.5	361	0.4
41-50	1	0.2	255	0.3
51-75	0	0.0	0	0.0
76 and above	0	0.0	0	0.0
District Total:	**612**	**100.0**	**84,733**	**100.0**

Table 16 shows proportion of Scheduled Castes population to total population in villages in 9 different percentage ranges. Out of 612 inhabited villages 111 (18.1 per cent) villages do not have any Scheduled Castes population.The proportion of Scheduled Castes population to total population is less than 5 per cent in 256 (41.8 per cent) villages accounting for 25.4 per cent of total Scheduled Castes population. In 158 (25.8 per cent) villages the percentage range of Scheduled Castes population to total population varies between 5 to 10 per cent. These 158 villages have the maximum proportion of 44.5 per cent of Scheduled Castes population. As many as 71 (11.6 per cent) villages having 24.9 per cent of Scheduled Castes population are in the range of 11-20 and 12 (2 per cent) villages with 4.4 per cent of Scheduled Castes population are in the range of 21-30 per cent. As low as 3 (0.5 per cent) and 1 (0.2 per cent) village having only 0.4 per cent and 0.3 per cent of Scheduled Castes population respectively are in the range of 31-40 and 41-50 respectively. There is no village in the percentage range of 51-75 and 76 and above.

TABLE 17

PROPORTION OF SCHEDULED TRIBES POPULATION TO TOTAL POPULATION

IN VILLAGES, 2001

Percentage Range of Scheduled Tribes Population to Total Population	Number of Villages	Percentage	Scheduled Tribes Population	Percentage
1	2	3	4	5
Nil	333	54.4	0	0.0
Less than 5	220	35.9	11,672	47.0

31-40	3	0.5	1,324	5.3
41-50	0	0.0	0	0.0
51-75	0	0.0	0	0.0
76 and above	0	0.0	0	0.
District Total:	**612**	**100.0**	**24,831**	**100.0**

Table 17 gives proportion of Scheduled Tribes population to total population in villages in 9 different percentage ranges at district level. It can be seen that there is no villages in the range of 41-50, 51-75 and 76 and above. The lowest numbers of 2 (0.3 per cent) villages having the Scheduled Tribes population of 3.4 per cent are in the range of 21-30 per cent while 3 (0.5 per cent) villages having Scheduled Tribes population of 5.3 per cent are in the range of 31-40 per cent. The highest numbers of 333 (54.4 per cent) villages are having no Scheduled Tribes population. As many as 220 (35.9 per cent) villages having the highest proportion of 47 per cent of Scheduled Tribes population are in the range of less than 5 per cent. 41 (6.7 per cent) villages with Scheduled Tribes population of 29.6 per cent are in the range of 5-10 and 13 (2.1 per cent) villages having 14.6 per cent of Scheduled Tribes populations are in the range of 11-20 per cent.

	District(Urban) Total :	**406,450**	**21,378**	**7,563**	**5.3**	**1.9**

UA =Urban Agglomeration

Table 18 gives number and percentage of Scheduled Castes and Scheduled Tribes population in UA/Towns of the district. It can be seen that Scheduled Castes population of UA/Towns is 21,378 which is 5.3 per cent of total urban population of 406,450. The Scheduled Tribes population of UA/Towns is 7,563 which is 1.9 per cent of total district population. Among UA/Towns, in number terms Nadiad UA has reported the highest Scheduled Castes and Scheduled Tribes population of 9,187 persons and 2,761 persons respectively. The lowest Scheduled Castes population of 199 persons and the lowest Scheduled Tribes population of 54 persons is recorded in Mahudha (M). In percentage terms, the highest Scheduled Castes population of 10.4 per cent and the lowest of 1.3 per cent is recorded in Kheda (M) and Mahudha (M) respectively. Dakor UA has reported the highest Scheduled Tribes population of 6.5 per cent among all UA/Towns while the lowest proportion of 0.2 per cent Scheduled Tribes population is registered in Chaklasi (M).

TABLE 19

SEX RATIO AMONG SCHEDULED CASTES AND SCHEDULED TRIBES IN TALUKAS / C.D. BLOCKS, 2001

Sl. No.	Name of Taluka / C. D. Block	Scheduled Castes Sex Ratio	Scheduled Tribes Sex Ratio
1	2	3	4
1	Kapadvanj	948	991
2	Virpur	973	897
3	Balasinor	922	926
4	Kathlal	937	919
5	Mehmedabad	890	905
6	Kheda	869	867

9	Mahudha	949	931
10	Thasra	921	924
	District (Rural) Total :	**917**	**911**

Table 19 shows sex ratio among Scheduled Castes and Scheduled Tribes for rural areas in each C.D. Block of the district. Sex ratio for Scheduled Castes is 917 and the same for Scheduled Tribes is 911 females for every 1,000 males. Among C.D. Block the highest sex ratio of 973 for Scheduled Castes is recorded in Virpur and the lowest of 869 is in Kheda. The highest sex ratio of 991 for Scheduled Tribes is recorded in Kapadvanj while the lowest sex ratio of 867 is recorded in Kheda.

Table 21 shows number and percentage of literates and illiterates by talukas. As per 2001 Census the proportion of effective literates to total population is 72 per cent in the district. This proportion is 69.2 per cent in rural areas against 82.6 per cent registered in urban areas. In the district the male literacy rate is 86 per cent and the female literacy rate is 56.9 per cent leaving a gap of 29.1 percentage points in male-female literacy rate. The gap of 32.7 percentage points in rural areas and 15.2 percentage points in urban areas are recorded. Among talukas the highest literacy rate of 78.5 per cent is recorded in Nadiad while the lowest of 68.6 per cent is in Mehmedabad. The highest gap of 34.8 percentage points in male-female literacy rate is found in Kathlal while the lowest of 21.5 percentage points is in Nadiad.

TABLE 22

NUMBER AND PERCENTAGE OF LITERATES AND ILLITERATES BY SEX IN TALUKAS / C.D. BLOCKS, 2001

Sl. No.	Name of Taluka / C.D.Block	Number of Literates and Illiterates						Percentage of Literates			Gap in Male-Female Literacy Rate

Table 22 details the number and percentage of literates and illiterates by sex for rural areas of the district. It can be seen that 69.2 per cent population, excluding the population of age group of 0-6 years is literate in the district. The corresponding proportion of male and female literates is 85 per cent and 52.2 per cent respectively, indicating a wide gap of 32.7 percentage points in male-female literacy rate. At Taluka/C.D. Block level Nadiad has the highest literacy rate of 73.4 per cent while the lowest literacy rate of 65.1 per cent is in Virpur. The highest gap of 38.7 percentage points in male-female literacy rate is recorded in Balasinor and the lowest gap of 29 percentage points is registered in Nadiad.

TABLE 23

DISTRIBUTION OF VILLAGES BY LITERACY RATE RANGE, 2001

Range of Literacy Rate for Villages	Number of Inhabited Villages	Percentage Distribution of Villages	Population	Percentage Distribution of Population
1	2	3	4	5

100	0	0.0	0	0.0
District Total :	**612**	**100.0**	**1,617,766**	**100.0**

Literacy rate for District: 72

Table 23 shows distribution of villages in 12 different literacy rate ranges. There is no village in the range of 0, 1-10 and 100 per cent. There is only 1 (0.2 per cent) village in each literacy rate range of 11-20, 21-30 and 31-40. The combined population of these three villages is 1038 which is less than 0.1 per cent of total population. Out of 612 inhabited villages the highest number of villages i.e. 313 accounting for 51.1 per cent of villages and also having the highest population proportion of 53.1 per cent are in the literacy range of 61-70 per cent. There are 11 (1.8 per cent) villages in the range of 41-50 having only 0.5 per cent of population. As many as 81 (13.2 per cent) villages with 7.6 per cent of population are in the range of 51-60 per cent and 167 (27.3 per cent) villages having 32.1 per cent of population are in the range of 71-80 per cent. As low as 35 (5.7 per cent) villages with 6.6 per cent of population and 2 (0.3 per cent) villages having population of 395 people are in the range of 81-90 and 91-99 per cent respectively.

UA= Urban Agglomeration

Table. 24 shows absolute number and percentage of literates and illiterates by sex in UA/Towns of the district. The population covered for calculating literacy rate does not include population of age 0-6 years because population of age group of 0 to 6 years is supposed to be illiterate. In Kheda district 82.6 per cent of urban population is literate. Among males the rate is 90 per cent whereas for female the rate is 74.7 per cent. The gap in male-female literacy rate is 15.2 percentage points. At UA/Towns level the highest and the lowest literacy rate of 85.6 per cent and 74.8 per cent are recorded in Nadiad (UA) and Chaklasi (M) respectively. The highest gap of 29.4 percentage points and lowest of 10.9 percentage points in male-female literacy rate are recorded in Chaklasi (M) and Nadiad (UA) respectively.

Table. 25 details number and percentage of Scheduled Castes literates by sex in rural areas of the district. The district rural literacy rate is 75 per cent. The same for males is 87.9 per cent and for females it is 61.1 per cent. The gap in male-female literacy rate is thus comes at 26.7 percentage points. Among C.D. Blocks the highest literacy rate of 81.8 per cent is recorded in Nadiad while the lowest of 67 per cent is in Virpur. The highest gap of 31.5 percentage points in male-female literacy rate is recorded in Virpur and Balasinor while the lowest gap of 22.7 percentage points is recorded in Nadiad.

TABLE 26

DISTRIBUTION OF VILLAGES BY LITERACY RATE RANGE FOR SCHEDULED CASTES POPULATION, 2001

Range of Literacy Rate for Villages	Number of Inhabited Villages	Percentage Distribution of Villages	Scheduled Castes Population	Percentage Distribution of Population

District Total :	**501**	**100.0**	**84,733**	**100.0**

Literacy rate for District (Rural): 75

Table. 26 shows distribution of villages in 12 literacy rate ranges for Scheduled Castes population in rural areas of the district.

There are 4 (0.8 per cent) villages with Scheduled Castes population of 6 people having no literacy. There is no village in the literacy range of 1-10 per cent. The highest numbers of villages, i.e. 204 (40.7 per cent), accounting for the highest Scheduled Castes population proportions of 48 per cent, are in the literacy rate range of 71-80 per cent.. There is 1 (0.2 per cent) village with Scheduled Castes population of 6 persons in the literacy range of 11-20 per cent and 2 (0.4 per cent) villages with Scheduled Castes population of 48 (0.1 per cent) are in the range of 21-30 per cent. As low as 4 (0.8 per cent) villages with Scheduled Castes population of 229 (0.3 per cent) are in the range of 31-40 and 13 (2.5 per cent) villages with Scheduled Castes population of 388 (0.5 per cent) are in the range of 41-50 per cent. 36 (7.2 per cent) villages with Scheduled Castes population of 3.6 per cent are in the range of 51-60 and 122 (24.4 per cent) villages having 20.1 per cent Scheduled Castes population are in the range of 61-70 per cent. There are 103 (20.6 per cent) villages with 26.5 per cent of Scheduled Castes population in the range of 81-90 per cent. There are 6 (1.2 per cent) villages in each range of 91-99 and 100 per cent with Scheduled Castes population of 0.8 per cent and 0.1 per cent respectively.

*Town having outgrowths.

Table. 27 gives the number and percentage of Scheduled Castes literates and illiterates by sex in towns of the district. The literacy rate of Scheduled Castes stands at 84.8 per cent. The male literacy rate is 93.1 per cent whereas the same for female is 75.9 per cent. This leaves a gap of 17.2 percentage points in male-female literacy rate. Among towns the highest literacy rate of 87.9 per cent is recorded in Kapadvanj (M) while the lowest literacy rate of 63.7 per cent is registered in Chaklasi (M). The highest gap of 30.9 percentage points in male-female literacy rate is recorded in Chaklasi (M) against the lowest of 13.8 percentage points recorded in Nadiad (M + OG).

District Total:	**279**	**100.0**	**24,831**	**100.0**
Literacy rate for District (Rural):	**43.5**			

Table 29 details the distribution of villages in 12 different literacy rate ranges along with Scheduled Tribes population. There is no literate in 20 (7.2 per cent) villages in which proportion of Scheduled Tribes population is 0.8 per cent. As many as 17 (6.1 per cent) villages with 7.9 per cent population are in the literacy rate range of 1-10 per cent and 15 (5.4 per cent) villages with 5.1 per cent Scheduled Tribes population are in the literacy rate range of 11-20 per cent. 35 (12.5 per cent) villages with 14.2 per cent population and 39 (14 per cent) villages with 12.1 per cent population are in the literacy rate range of 21-30 and 31-40 per cent respectively. The highest numbers of villages i.e. 48 (17.2 per cent) having 23.3 per cent of population are in the literacy rate range of 41-50 per cent followed by 46 (16.4 per cent) villages with the highest population proportion of 25.6 per cent are in the literacy rate range of 51-60 per cent. There are 13, 9, 8 and 5 villages in the range of 61-70, 71-80, 81-90 and 91-99 per cent respectively. These 35 (12.6 per cent) villages are accounting for 10.6 per cent of total Scheduled Tribes population in rural areas.

*Town having outgrowths.

Table 30 shows number and percentage of Scheduled Tribes literates and illiterates by sex in towns of the district. It can be seen that 47.6 per cent of urban population (excluding population of 0-6 years) is literate. The male and female literacy rate is recorded at 59.0 per cent and 35.0 per cent respectively showing a gap of 24.0 percentage points. The highest and lowest gap in male-female literacy rate is found in Chaklasi (M) (42.6 percentage points) and in Balasinor (M) (18.1 percentage points) respectively. Among towns the highest literacy rate of 63.2 per cent is recorded in Mehmedabad (M) and the lowest literacy rate of 31.1 per cent is recorded in Kapadvanj (M).

Table 31 gives absolute number and percentage of main workers, marginal workers and non-workers by sex at taluka level in the district as per 2001 Census. It can be seen from the data that total workers are 44.9 per cent of total population of the district. Out of total workers main workers are 34.3 per cent and marginal workers are 10.6 per cent. The proportion of non-workers to total population is 55.1 per cent. Among total workers proportion of male workers is 55.1 per cent and that of female is 33.8 per cent. Among main workers 49.8 per cent are males and 17.5 per cent are females. As for marginal workers, male workers account for 5.3 per cent while female workers account for 16.3 per cent. As women are usually also engaged in domestic work, their proportion as marginal workers is naturally higher than that of male marginal workers. Among talukas the highest and the lowest percentage of total workers are recorded in Virpur (50.2 per cent) and Nadiad (38.5 per cent) respectively.

Table 32 shows number and percentage of main workers, marginal workers and non workers by sex in rural areas of the district. In rural areas total workers (main and marginal workers) are 48.1 per cent of total population, comprising 35.8 per cent main workers and 12.3 per cent marginal workers. The remaining 51.9 per cent of population are non-workers. Sex wise break up shows that male main workers are 50.3 per cent of total male population and female main workers are 20.1 per cent of female population. Such proportion of male marginal workers is 5.9 per cent and that of female is 19.3 per cent. As women are attending more than one duty including their usual household duties their proportion as marginal workers is significantly higher than that of male marginal workers. In all talukas this trend is visible. Among talukas the proportion of total workers varies from 44.3 per cent in Matar to 51.3 per cent in Thasra. The highest proportion of 43.4 per cent of main workers is found in Mehmedabad and the lowest of 32.7 per cent is in Matar. The highest and the lowest proportion of marginal workers is recorded in Thasra (17.5 per cent) and in Mehmedabad (5.2 per cent).

UA = Urban Agglomeration

Table 33 shows absolute number with percentage of main workers, marginal workers for UA/Towns of the district. Out of total urban population of 406,450 of the district 115,145 or 28.3 per cent are main workers and 14,239 or 3.5 per cent are marginal workers. Thus, total workers are 31.8 per cent of total urban population. The remaining 68.2 per cent of population is of non workers. The sex wise break up shows that male main workers are 47.8 per cent of total male population which is significantly higher than the corresponding proportion of only 7.3 per cent of female main workers. The same trend is visible at UA/Towns level also. As regards marginal workers the proportion of 2.6 per cent of male marginal worker is lower than the female marginal workers of 4.4 per cent. Thus, it can be seen that among total workers proportion of male total workers, which is 50.4 per cent of male population is higher than the female total workers of 11.7 per cent. In all UA/Towns same pattern of higher population of male workers and lower proportion of female workers can be observed.

Note: Percentage of Worker to total worker are given in brackets.

Table 34 reveals economic activity in the district. It can be seen that total workers are 44.9 per cent of total population. As many as 27.4 per cent of the total workers are cultivators and 31.3 per cent of the total workers are agricultural labourers. Thus, it can be said that 58.7 per cent of workers are engaged in agriculture sector. Only 1.4 per cent of total workers are Household Industry workers and the remaining 39.8 per cent of total workers are other type of workers. The sex wise break up indicates that proportion of male workers is more in cultivation, whereas in all the remaining categories of workers proportion of female workers is more than that of males. Among talukas the percentage proportion of cultivators varies from 16.5 per cent in Nadiad to 37.7 per cent in Balasinor. The highest and the lowest percentage of agricultural labourers are recorded in Matar (43.3 per cent) and Virpur (21 per cent) respectively. The proportion of Household Industry workers varies from 1 per cent in Kapadvanj and Mehmedabad to 2.4 per cent in Kheda. The highest proportion of 49.8 per cent of other workers is recorded in Nadiad while the lowest of 28 per cent is found in Thasra.

TABLE 35

DISTRIBUTION OF WORKERS BY SEX IN FOUR CATEGORIES OF ECONOMIC ACTIVITY IN TALUKAS / C.D. BLOCKS, 2001

Sl. No.	Name of Taluka / C. D. Block	Persons / Males / Females	Total Population	Total Number of Workers (Main + Marginal)	Category of Workers

Note: Percentage of Worker to total worker are given in brackets

Table 35 gives the details about talukawise distribution of workers by sex in four categories of economic activity. As the data reveals total workers are 48.1 per cent of the total populations of the district. Among these workers 31.1 per cent are cultivators, 34.6 per cent are agricultural labourers, 1.2 per cent is Household Industry workers and 33.1 per cent are other workers. It can be seen that in this district agriculture plays a major role in providing employment while Household Industry sector does not provide any major employment. Among cultivators participation of male workers is 43.3 per cent which is significantly higher than the female participation of 12.1 per cent. In case of Agricultural labourers quite reverse scene is observed as participation of males as Agricultural labourers is lower at 31.4 per cent against the female participation of 39.6 per cent. At taluka level the proportion of cultivators varies from 21.2 per cent in Kheda taluka to 44.3 per cent in Balasinor. The highest percentage of 44.4 per cent of Agricultural labourers is recorded in Nadiad taluka while lowest of 21 per cent is in Virpur taluka. The share of Household Industry workers is comparatively very low in all talukas. The highest and the lowest proportion of other workers are recorded in Mehmedabad at 44.2 per cent and in Thasra at 25.2 per cent respectively.

UA =Urban Agglomeration.

Table 36 details the distribution of workers by sex in four categories of economic activity of UA/Towns of the district. In the urban areas of the district total workers (main + marginal) are 31.8 per cent of total population. Among these workers, cultivators are 5.4 per cent of total workers, Agricultural labourers are 11.6 per cent, Household Industry workers are 2.5 per cent and remaining 80.5 per cent of total workers are other workers. Thus, it can be easily observed that other sector or other work plays a major role in providing employment to a very large part of urban population while agriculture sector naturally does not provide much employment in urban areas. Among UA/Towns of the district Kapadvanj (M) and Nadiad (M) have the highest proportion of other workers i.e. 95.9 per cent while the lowest of 22.7 per cent is recorded in Chaklasi (M). Among UA/Towns the proportion of Cultivators varies from 0.5 per cent recorded in Nadiad (UA) and Nadiad (M) to 23.5 per cent registered in Chaklasi (M). The highest and lowest proportion of 53 per cent and 0.7 per cent of Agricultural labourers are recorded in Chaklasi (M) and Kapadvanj (M) respectively. As regards Household Industry workers it is observed that the highest and lowest proportion of 5.5 per cent and 0.8 per cent are recorded in Mahudha (M) and Chaklasi (M) respectively.

Note : Percentages are given in brackets.

* Based on the improved drinking water source, drinking water supply has been classified as 'Improved ' or otherwise. If the household has access to drinking water supplied from a tap or a hand pump / tube well situated within or outside the premises it is considered as having access to 'Improved drinking water source'. However, the concept of improved drinking water is state specific and this is to be considered accordingly.

Post office includes Post office, telegraph office and Post and telegraph office.

$ Transport communication includes bus service, rail facility and navigable waterways.

Table 37 shows the distribution of villages according to availability of different amenities. It can be seen that in this district, all the inhabited villages i.e. 612 have education and Power Supply facilities. As regards other amenities out of 612 villages, 432 (70.6 per cent) have Medical facility, 604 (98.7 per cent) villages have Improved drinking water facility, 354 (57.8 per cent) villages have Post Office facility, 460 (75.2 per cent) villages have Telephone facility, 559 (91.3 per cent) villages have Transport Communication facility, 83 (43.6 per cent) villages have Banks, 202 (33 per cent) villages have Agricultural Credit Societies and 548 (89.5 per cent) villages have Approach by pucca road. Among talukas all the inhabited villages of Balasinor, Kathlal, Mehmedabad, Kheda and Matar have got Improved Drinking Water, education and Power Supply facilities. All the villages of Kheda and Matar talukas have Approach by pucca road and all the villages of Balasinor have medical facility.

* Based on the improved drinking water source, drinking water supply has been classified as 'Improved ' or otherwise. If the household has access to drinking water supplied from a tap or a hand pump / tube well situated within or outside the premises it is considered as having access to 'Improved drinking water source'. However, the concept of improved drinking water is state specific and this is to be considered accordingly.

Post office includes Post office, telegraph office and Post and telegraph office.

$ Transport communication includes bus service, rail facility and navigable waterways

Table 38 gives number and percentage of rural population served by different amenities. It can be seen that the entire rural population of 1,617,766 persons has education and Power Supply facilities. As regards other amenities the data reveals that population of 1,415,524 (87.5 per cent) persons have medical facility, 1,607,259 (99.4 per cent) have Improved drinking water facility, 1,315,854 (81.3 per cent) have Post Office facility while Telephone facility is available to 1,414,050 (87.4 per cent) persons. Transport communication facility is available to 1,557,641 (96.3 per cent) persons and only 510,890 (31.6 per cent) persons have banking facility. As many as 817,992 (50.6 per cent) persons have facility of Agricultural Credit societies and 1,551,121 or 95.9 per cent of population is served by facility of Approach by pucca road. Among talukas besides, Education and Power Supply facilities Medical facility is available to 100 per cent population of Balasinor. Improved drinking water facility is available to entire population of talukas of Balasinor, Kathlal, Kheda, Mehmedabad and Matar. Transport communication facility is also available to cent per cent population of Balasinor and Kheda. It can also be seen that 100 per cent population of Kheda and Matar have been provided with the facility of Approach by pucca road.

TABLE 39

DISTRIBUTION OF VILLAGES NOT HAVING CERTAIN AMENITIES, ARRANGED BY DISTANCE RANGES FROM THE PLACES WHERE THESE ARE AVAILABLE, 2001

Village Not Having the Amenity of	Distance Range of Place from the Villages where the Amenity is Available			
	Less than 5 Kilometres	5-10 Kilometres	10 + Kilometres	Total (Col. 2-4)
1	2	3	4	5
1. Education :-				
(a) Primary School	0	0	0	0
(b) Middle School*	0	0	0	0
(c) Degree College	102	163	345	610

5. Bus Service	38	8	7	53
6. Banks				
(a) Commercial Bank	268	163	102	533
(b) Co-operative Bank	202	200	184	586
7. Agricultural Credit Societies	188	116	106	410

Note : * In Gujarat State, the levels of education are classified as under

(i) Primary (from Std. I to VII passed)

(ii) Secondary/Matriculation (From Std. VIII to X passed)

(iii) Higher Secondary (From Std. XI to XII passed). Hence, details Middle School under 1(b) are not shown.

Table 39 shows the distribution of villages not having certain amenities arranged by distance ranges from the places where these are available. It can be seen that 102 villages have Degree College within 5 km. while 163 and 345 villages have Degree College at a distance of 5-10 km and at a distance of more than 10 km. respectively. As many as 131 villages have hospital and 267 villages have Primary Health Centre within the distance of 5 km. while 156 villages have hospital and 188 villages have Primary Health Centre at a distance between 5 to 10 km. As many as 301 villages have Hospital and 100 villages have Primary Health Centre at a distance of more than 10 km. Post Office is available to 220 villages within the areas of 5 km. As low as 28 and 13 villages have Post Office at a distance of 5-10 km and at a distance of more than 10 km., respectively. As regard Telephone facility 94 villages have Telephone facility within 5 km., 25 villages have within 5 to 10 km and 33 villages have Telephone facility at a distance of more than 10 km., 38 villages have Bus service, 268 villages have Commercial banks, 202 villages have Co-operative banks and 188 villages have Agricultural Credit societies within 5 km. As many as 163 villages have commercial banks, 200 have Co-operative banks and 116 villages have Agricultural Credit societies at a distance between 5 to 10 km. Bus service to 7 villages, Commercial banks to 102 villages, Co-operative banks to 184 villages and Agricultural Credit societies to 106 villages are available at a distance of more than 10 km.

TABLE 40

Note : # Post office includes Post office, Telegraph office and Post and telegraph office.
$ Transport communication includes bus service, rail facility and navigable waterways.

Table 40 details the distribution of villages according to the distance from the nearest statutory town and availability of different amenities. In this table villages are distributed in four ranges of the distance from the nearest statutory town. Out of 612 inhabited villages of the district 39 villages are at a distance of less than 5 km. from the nearest town and all these villages have education facility. As regards availability of other facilities in this range it can be seen that 29 villages have Medical facility, 23 villages have Post Office facility, 34 villages have Telephone facility, 36 villages have Transport communication facility, only 1 village has Banking facility, 10 villages have facility of Agricultural Credit societies and 35 villages have facility of Approach by pucca road. Out of total of 612 villages 350 villages having cent per cent educational facility are situated at a distance of 5 to 15 km from the nearest statutory town. Within the distance of 5-15 km from nearest statutory town, 243 villages have Medical facility, 212 villages have Post Office facility, 263 villages have facility of Telephone, 324 villages have Transport communication facility, only 57 villages have banking facility, 122 villages have Agricultural Credit societies facility, 320 villages have Approach by pucca road facility. As many as 223 villages are at a distance of 16 to 50 km from nearest statutory town and all these villages have Education facility. As regards availability of other facilities in this range it is observed that 160 villages have Medical facility, 119 villages have Post Office facility, 163 villages have Telephone facility, 199 villages have facility of Transport communication, only 25 villages in this range have banking facility, 70 villages have Agricultural Credit Societies and 193 villages have Approach by pucca road. There is no village in the range of 51 and more kilometres from nearest statutory town. No village is shown in unspecified range of distance.

Note : Percentages are given in brackets.

* Based on the improved drinking water source, drinking water supply has been classified as 'Improved ' or otherwise. If the household has access to drinking water supplied from a tap or a hand pump / tube well situated within or outside the premises it is considered as having access to 'Improved drinking water source'. However, the concept of improved drinking water is state specific and this is to be considered accordingly.

Post office includes Post office, telegraph office and Post and telegraph office.

$ Transport communication includes bus service, rail facility and navigable waterways.

Table 41 shows the distribution of villages according to different types of population ranges and amenities available. As low as 13 villages in the population range of 10,000 and more are having all other amenities except amenities of Telephone, Bank and Agricultural Credit societies. There are 71 villages in the population range of 5,000-9,999. In this range except amenities of Telephone (68 villages), Banks (34 villages) and Agricultural credit societies (43 villages), all other amenities are available to all these 71 villages. 205 villages are accounted for in the population range of 2,000-4,999 and are having the facility of Education and Power Supply. There are 173 villages in the population range of 1,000-1,999. In this range the availability of different amenities varies from 173 villages which have Education and Power Supply facilities to 7 villages which have Banking facility. 100 villages are in the population range of 500-999 and all these villages have education and Power supply facilities. No village in this range has banking facility. There are 50 villages in the population range of 1-499. Among these villages, Telephone facility is available to only 15 villages and the facilities of education. and power supply are available to these 50 villages. The facilities of Banks and Agricultural Credit societies are not available to any of these 50 villages while amenities of post office is available to 49 villages.

TABLE 42

DISTRIBUTION OF VILLAGES ACCORDING TO LAND USE, 2001

Sl. No.	Name of Taluka/ C. D. Block	Number of Inhabited Villages	Total Area (In Hectare)	Percentage of Cultivable Area to Total Area	Percentage of Irrigated Area to Total Cultivable Area
1	2	3	4	5	6
1	Kapadvanj	100	60,410.0	80.9	24.3
2	Virpur	53	25,048.8	59.2	29
3	Balasinor	46	27,918.7	70.8	31.6
4	Kathlal	59	34,542.12	81	19.1
5	Mehmedabad	65	37,932.67	82.6	49.9
6	Kheda	39	27,931.8	76.5	79.2
7	Matar	55	38,600.8	82.6	83.7
8	Nadiad	59	35,299.6	87.3	79.8
9	Mahudha	41	23,417.2	85.8	46.3
10	Thasra	95	64,593.9	77.7	40.1
	District Total :	**612**	**375,695.7**	**79.1**	**47.5**

Note : Cultivable area = irrigated area + unirrigated area

Table 42 details the talukawise distribution of villages according to land use. It also details the total area and cultivable area available to the inhabited villages in the district. There are 612 inhabited villages in the district having total area of 375,695.6 hectares. As many as 79.1 per cent of total area is cultivable area out of which 47.5 per cent of cultivable area is irrigated area. It can be seen from the data that among talukas Thasra taluka has the highest total area of 64,593.9 hectares in 95 villages. Nadiad taluka has 87.3 per cent of total area reported as cultivable area which is the highest while Virpur taluka has 59.2 per cent of total area reported as cultivable area which is the lowest among all the talukas. As high as 83.7 per cent of cultivable area in Matar Taluka is irrigated while the lowest proportion of 19.1 per cent of irrigated area to total area is in Kathlal taluka.

*Town having outgrowths

Table 43 gives the details of per capita receipt and per capita expenditure in statutory towns of the district. The per capita receipt of district is Rs. 542.8 which includes Rs. 257.4 received through taxes and Rs. 285.4 received from all other sources. The per capita expenditure of the district is Rs. 543.7. Out of these Rs. 108.6/- are spent for General Administration, Rs. 118.3 for Public Health and Conveniences, Rs. 146.9 for Public Works. Rs. 1.7 for Public Institutions and rest of Rs. 168.3 are spent for other(s) item(s). Among towns the highest per capita receipt of Rs. 909.9 and highest per capita expenditure of Rs. 932.1 are reported in Kapadvanj (M) and the lowest per capita receipt of Rs. 25.3 and the lowest per capita expenditure of Rs. 22.5 are recorded in Chaklasi (M).

TABLE 44

SCHOOLS / COLLEGES PER 10,000 POPULATION IN STATUTORY TOWNS, 2001

	District Total :	**3.1**	**0**	**0.9**	**1.2**	**0.3**

* Town having outgrowths.

Note : @ In Gujarat State, the levels of education are classified as under

(i) Primary (from Std. I to VII passed)

(ii) Secondary/Matriculation (From Std. VIII to X passed)

(iii) Higher Secondary (From Std. XI to XII passed). Hence, details Middle School under 1(b) are not shown.

Table 44 shows number of schools/colleges per 10,000 of population in statutory towns of the district. At district level there are 3.1 primary schools, 0.9 secondary schools, 1.2 senior secondary schools and 0.3 colleges per 10,000 populations. Among towns Chaklasi (M) has the highest number of primary schools i.e. 7.2 per 10,000 populations and the lowest number of 2.1 primary schools is in Kheda (M). Balasinor (M) has 2.4 secondary schools and Nadiad (M) has 0.4 secondary schools per 10,000 persons which are the highest and the lowest figure in district. As regards senior secondary Balasinor has reported 2.4 senior secondary schools per 10,000 populations, which is the highest while the lowest number of senior secondary schools, i.e. 0.6 is reported in towns of Chaklasi (M) and Mahudha (M). Kheda (M) has 0.8 College which is the highest among towns while Balasinor and Mehmedabad (M) both have 0.3 college per 10,000 populations which is the lowest figure among all the towns.

TABLE 45

NUMBER OF BEDS IN MEDICAL INSTITUTIONS IN TOWNS, 2001

Sl. No.	Name and Urban Status of the Town	Number of Beds in Medical Institutions per 10,000 Population
1	2	3
1	Balasinor(M)	54
2	Chaklasi(M)	10
3	Dakor*(M)	63
4	Kapadvanj(M)	30
5	Kheda(M)	108

7	Mehmedabad(M)	29
8	Nadiad*(M)	36
	District Total :	**39**

* Town having outgrowths

Table 45 gives number of beds in medical institutions in towns of the district per 10,000 populations. There are 39 beds in medical institutions of district per 10,000 populations. Among towns the highest numbers of 108 beds are recorded in Kheda (M) and the lowest of 10 beds is recorded in Chaklasi (M).

TABLE 46

PROPORTION OF SLUM POPULATION IN TOWNS, 2001

SI. No.	Name of the Town	Total Population	Slum Population	Percentage of Slum Population to Total Population
1	2	3	4	5
1	Balasinor	33,705	5,200	15.4
2	Kapadvanj	43,950	11,404	25.9
3	Nadiad	196,793	32,875	16.7
	District Total :	**274,448**	**49,479**	**18.0**

Table 46 shows proportion of slum population in towns of the district. It can be seen that the slum population of the district is 49,479 which is 18 per cent of total population of 274,448 of three towns where slum population is reported. Among these three towns the highest slum populations of 32,875 persons is reported in Nadiad while in percentage terms Kapadvanj has the highest proportion of 25.9 per cent slum population to total population.

TABLE 47

MOST IMPORTANT COMMODITY EXPORTED OUT OF AND MANUFACTURED IN TOWNS, 2001

Source: Census of India 2001, H- series: "Tables on Houses, Household amenities and Assets."

Table 48 shows household by tenure status and number of rooms occupied in the district. As the data shows there are 395,062 households in the district. Out of them 7,563 (1.9 per cent) households do not have any exclusive room, 196,748 (49.8 per cent) households have only one room accommodation, 128,594 (32.6 per cent) have two room accommodation, 39,538 (10 per cent) households have three room accommodation and 22,619 (5.7 per cent) households have accommodation of more than 3 rooms. Thus, majority of households have got only one room accommodation in the district. The median number of rooms is one for rural areas while the same is found to be two in urban areas. Out of total of 395,062 household in the district 318,304 (80.6 per cent) households are in rural areas and 76,758 (19.4 per cent) households are in urban areas. As low as 26,810 (6.8 per cent) households in the district belong to Scheduled Castes and 9,491 (2.4 per cent) households belong to Scheduled Tribes. As regards tenure status it can be seen that majority of households i.e. 364,183 (92.2 per cent) are living in their owned house. As low as 22,945 (5.8 per cent) households are living in rented houses and the remaining 7,934 (2 per cent) are living in 'Others' type of households. Thus, it can be seen that in the district majority, i.e. about 92 per cent, of households have their owned house. In rural areas 94.6 per cent and in urban areas 82.2 per cent households are living in their own house. 90.3 per cent of Scheduled Castes households and 78.4 per cent households of Scheduled Tribes are living in their owned houses.

Source : Census of India 2001, H - series : " Tables on Houses, Household amenities and Assets."

Note : Permanent: Permanent houses refers to those houses whose wall & roofs are made of pucca materials i.e., where, burnt bricks, G.I. Sheets or other metal sheets, stone cement concrete is used for wall and tiles slate, shingle, corrugated iron, zinc or other metal sheets asbestos sheets, bricks, lime and stone and RBC/RCC concrete are used for roof.
Semi-permanent : Semi-permanent houses refer to those houses made of other types of materials
Temporary : Temporary houses refers to those houses having wall and roofs made of Kutcha materials i.e. where grass, leaves reeds, amboo mud, unburnt bricks are used for the construction of walls and grass, leaves reeds, bamboo hatch, mud, unburnt bricks, wood etc. are used for roofs.

Table 49 gives the details about percentage distribution of households living in permanent, semi-permanent and temporary houses in the district. It can be seen that 44.3 per cent of households have permanent houses i.e. houses made of pucca materials. The majority of households i.e. 50.2 per cent have semi-permanent houses i.e. houses made of other type of materials and the remaining 5.5 per cent households have temporary houses i.e. houses made of Kachcha materials. In rural areas 36.9 per cent of households are living in permanent houses, 57.1 per cent are living in semi-permanent houses and only 6.1 per cent of households are living in temporary houses. In urban areas 75.2 per cent households are living in permanent houses, 21.9 per cent of households are living in semi-permanent houses and only 2.9 per cent of households are living in temporary houses. It can be observed that in urban areas percentage proportion of houses of permanent nature is significantly higher as compared to rural areas.At taluka level Nadiad taluka has reported the highest number of permanent houses i.e. 56,436 which is also higher in percentage terms, i.e. 58.6 per cent while the lowest number of permanent houses i.e. 4,848 which is also the lowest in percentage terms i.e. 29.6 per cent, is found in Virpur. Kathlal has the highest proportion i.e. 62.6 per cent of semi-permanent house while Virpur has reported the highest of 14.8 per cent temporary houses.

Source: Census of India 2001, H- series: "Tables on Houses, Household amenities and Assets."

Note: Percentage are given in bracket.

* Based on the improved drinking water source, drinking water supply has been classified as 'Improved ' or otherwise. If the household has access to drinking water supplied from a tap or a hand pump / tube well situated within or outside the premises it is considered as having access to 'Improved drinking water source'. However, the concept of improved drinking water is state specific and this is to be considered accordingly.

@ Bathroom means bathroom within the house

$ Toilet means toilet within the house

Drainage means closed and open drainage

Table 50 shows percentage of households having Improved drinking water source, electricity, bathroom, toilet and drainage facility. The table reveals that 83.8 per cent of total households have Improved drinking water facility and 65.7 per cent have electricity facility. As much as 33.2 per cent of households have bathroom and 30.3 per cent households have toilet facility within the house and only 19.3 per cent of total households have closed and open drainage. In rural areas 81.4 per cent households have Improved drinking water facility, 60.6 per cent have electricity, 23.6 per cent have bathroom, 19.9 per cent have toilet and only 9.0 per cent have drainage facility. In urban areas 93.9 per cent households have Improved drinking water facility, 86.7 per cent have electricity, 73.3 per cent have bathroom, 73.1 per cent have toilet and 62.2 per cent have drainage facility. Thus, it can be seen that urban households are better equipped with all the facilities as compared to rural households. The same trend is also visible at taluka level also. Among talukas the highest and lowest proportion of households having Improved Drinking Water facility are recorded in Kathlal (94.7 per cent) and in Matar (76.1 per cent) respectively. It can be seen that 75.3 per cent households in Nadiad and 50.1 per cent households in Mehmedabad have Electricity facility. Bathroom facility is available to 53.3 per cent households in Nadiad taluka and 14.2 per cent households in Kathlal which are the highest and the lowest proportion respectively, among all the talukas in the district. Toilet facility is available to 13.3 per cent households in Kathlal taluka and 50.8 per cent households in Nadiad taluka while Drainage facility is available to only 4.4 per cent households in Virpur taluka and to 40.0 per cent households in Nadiad.

Source : Census of India 2001, H- series: "Tables on Houses, Household amenities and Assets."
Note : Percentages are in brackets

Table 51 gives number and per cent of households by type of fuel used for cooking. There are nine types of fuel used for which data is presented in this table. At district level firewood is used by 66.3 per cent of households indicating widespread use of firewood as cooking fuel. In rural areas 74.7 per cent of households and in urban areas 31.6 per cent of households use firewood as cooking fuel. In the talukas of the district usage of firewood varies from 50.5 per cent in Nadiad to 78.7 per cent in Matar. Use of firewood is more prevalent in rural areas in comparison to urban areas. At district level use of LPG is next to firewood, as it is used by 17.3 per cent of households in the district. Among talukas 38.1 per cent household in Nadiad and 3.4 per cent household in Virpur use LPG as cooking fuel. In rural areas 8.4 per cent and in urban areas 54.2 per cent of households use LPG as cooking fuel. Crop residue is used by 9.1 per cent of households in

the district, 10.7 per cent of rural households and only 2.6 per cent of urban households use crop residue. Among talukas only 4 per cent household in Nadiad use Crop residue while 26.6 per cent household in Kapadvanj use Crop residue as cooking fuel. Kerosene is used by 5.2 per cent households in district. In rural areas 4.2 per cent and in urban areas 9.5 per cent households use kerosene as cooking fuel. At taluka level only 2.9 per cent household in Balasinor use Kerosene while 9.3 per cent household in Kheda use Kerosene as cooking fuel. The usage of other fuel such as cowdung cake, electricity, coal, bio-gas and others is less than 1 per cent in district. 0.3 per cent of district households have reported 'No cooking', 0.3 per cent of rural households and 0.5 per cent of urban households have reported 'No cooking'.

Source: Census of India 2001, H- series: "Tables on Houses, Household amenities and Assets."

Table 52 shows number of households availing banking services and number of households having each of the specified assets. There are 395,062 households in the district. Out of them 31.2 per cent households are availing banking services, 19.9 per cent have Radio etc., 26 per cent have TV, 7.0 per cent have Telephone, 26.9 per cent have Bicycle, 10.3 per cent have Scooter/Moped/Motorcycles, 1.6 per cent have Car, Jeep, Van while 53.9 per cent households in the district do not have any of the specified assets. 59.9 per cent of rural households and 28.5 per cent of urban households do not possess any of the specified assets. In rural areas 25.6 per cent households are availing banking services whereas 54.4 per cent of urban households are availing banking services. As regards other assets in rural areas 16.9 per cent households have Radio, 18.5 per cent have Television, 3.9 per cent have Telephone, 23.2 per cent have bicycle, 6.8 per cent have scooter etc., and 1.1 per cent have car etc. In urban areas 32.4 per cent households have Radio, 56.9 per cent have TV, 19.9 per cent have Telephone, 42.2 per cent have bicycle, 24.6 per cent have scooter etc. and 3.8 per cent have car etc. At taluka level the highest percentage of 68.6 per cent of households in Kathlal do not have any of the specified assets while in Nadiad only 37.4 per cent of households do not have any of such assets which is the lowest proportion among talukas. As far as banking services are concerned only 21.3 per cent of households in Mahudha taluka are availing banking services which is the lowest proportion in district. In Nadiad 45.6 per cent households are availing banking services which is the highest percentage among all the talukas.

(viii) Major social & cultural events, natural and administrative developments and significant activities during decade.

During the decade of 1991-2001 no major social-cultural event worth mentioned took place.The former Kheda district was bifurcated and new Anand district was formed separating Anand, Petlad, Khambhat and Borsad talukas.Further some talukas of new Kheda district were reconstituted and new talukas namely Khathlal, Mahudha,Virpur and Kheda were created.

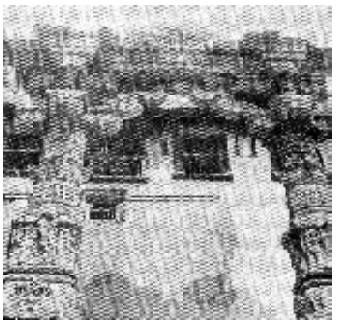

(ix) Brief description of places of religious, historical or archaeological importance in villages and places of tourist interest in the town of the district :

Name of Taluka : Kheda
Name of Town : Kheda
Location Code : 41604000

Kheda stands on a rising ground near the confluence of Vatrak and Shedhi rivers, 12 km. from Mehmedabad, the nearest railway station and about 20 km. from Nadiad, situated on the Bombay-Ahmadabad National Highway 8.

Kheda is an ancient town said to be in existence at the time of Mahabharat when it was known as Chakravati Nagari. Its other names are Rastrakuta Nagar and Khetakpur from which its present name is derived. Brahmins from different parts of India had come and settled here making it a place of great educational and religious importance. Kheda was the gateway of Kathiawar by land routs. There is a Jain temple which once had very beautiful dark wood carving now replaced by marbles. The Khedia Hanuman temple is the oldest, said to have been in existence since Samvat 713 (A.D. 657). A Church built about 1825 A.D. at a cost of about Rs. 80,000/- is one of the places among the oldest religious places. The other places of religious importance are the Jumma Masjid, the Somnath Mahadev temple, and the Swaminarayan temple, all of them believed to be more than a hundred years old. There is one Christian mission and one Ashramshala. A well-known fair is held on *Ashwin Vad 14 and Bhaibij* at Khedia Hanuman temple. A well-known fair on the Vatrak river bank on the Sharad Purnima attracts about one lakh visitors from nearby places including Ahmadabad.

Name of Taluka : Kapadvanj
Name of Town : Kapadvanj
Location Code : 41601000

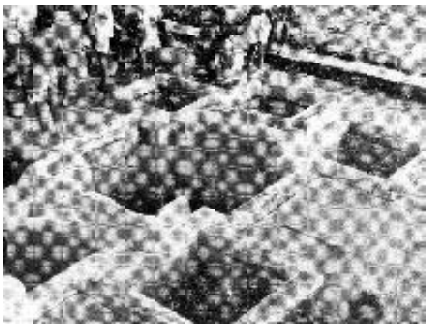

(Toran)

Kapadvanj is situated on the river Mahor, it is the headquarters of taluka and the terminus of the Nadiad-Kapadvanj broad guage railway line about 40 kms. from Nadiad. According to local history, its original name was Kapatpura.

Three historical battles were fought at Kapadvanj. In 1054, Kutb-Ud-Din, the king of Gujarat, defeated king Mahmud Khilji of Malva after a hard battle. In 1725 the Marathas under Kantaji and Pilaji Gaekwad were defeated by the Mughal Commander Khanahzad Khan. In 1736, the Marathas and the Kolis recovered the town in a joint attack.

Kapadvanj had actively participated in the national struggle for freedom. The town is surrounded by a fort wall with gateways on four sides which are gradually disappearing. A *toran* or victory arch in Chalukaya style, a *kund* and the Balris Kotha Vav, a step-well with 32 apartments, built by Siddharaj Jaysinh are fine specimens of architecture. The *toran* and the *kund* are protected monuments. There are temples of Mahalaxmi, Nilkanth Mahadev and Jain temple. There are beautiful mosques in the *Vohra* locality. Fair is held at Moti Ratnakar Mataji on *Bhadrapad Sud* 12-15.

Name of Taluka : Kapadvanj
Name of Village : Lasundra
Location Code : 01102900

(Hot-spring)

Lasundra is situated on the river Luni, about 17 km. south-east of Kapadvanj. It is known for its hot and cold springs said to have medicinal properties curing skin diseases. A legend attributes their origin to Shri Rama, the place being called *Ram kshetra*.

There is an old step-well and a *Swaminarayan* temple. The *Mahashivaratri* fair is held in February at the Somnath Mahadev temple near the spring is attended by many.

Name of Taluka : Kapadvanj

Name of Village : Fagvel

Location Code : 01102600

(Temple of Bhathiji)

Fagvel situated on the bank of the river *Shaidak* is 15 km. from Thasra railway station and 45 km. from Kapadvanj. It has the shrine of *Bhathiji*. The fair is held in his honour on *Kartik Sud 1-2*.

Name of Taluka : Nadiad
Name of Town : Nadiad
Location Code : 41605000

(Santaram temple)

Nadiad is the largest town in Kheda district, and taluka and district headquarters. It is junction station on the Bombay-Ahmadabad broad guage line of the Western Railway from where narrow guage railway lines run to Bhadran. Nadiad is well-known for many things. The seat of Santaram Maharaj and the Santaram Temple earned fame not only for its religious importance, but for the public service activities also. The author of the epic like Gujarati novel 'Saraswatichandra' Goverdhanram Tripathi, Manilal Nanubhai, Balashankar, the poet painter Phoolchand Master and Rasakavi Raghunath Brahmbhatt were a few of the many literary personalities.

Nadiad has developed into a trade centre. There are many hospitals and educational institutions. The Kidney Hospital, Dharmasingh Desai Institute of Technology and the Ayurvedic College are well-known throughout.

Name of Taluka : Thasra
Name of Town : Dakor
Location Code : 41608000

(Ranchhodraiji's temple)

Dakor, one of the holiest places in India, is situated on the river Shedhi, 18 km from Nadiad and 30 km from Anand. It is a station on the Anand-Godhra broad guage railway line and linked with Nadiad and Godhra

with a cement concrete road. It is the most frequented place of pilgrimage in Gujarat. The town is famous for the temple of Ranchhodraiji and is visited every year by lakhs of devotees from all over Gujarat.

(x) Major characteristics of the district, contribution of the district in the form of any historical figure associated with the district:

Kheda district is progressive in agriculture. Its area under tobacco, one of the most important cash crops, is the highest in Gujarat. Bajri is the principal crop and the staple grain food. Jowar is grown to a much extent but is important as fodder. Rice is comparatively much grown crop. Kheda district has large number of small and medium tanks connected with the Mahi Canal system, which offer a good scope to develop fresh water fisheries. Kheda district is famous for its tobacco production which is used in the district in the manufacture of *bidi* and snuff, but a large quantity is exported outside the district.

The food taken by the people in the rural areas is very simple consisting of two or three items per meal. It is mostly confined to *rotla* or loaf of Bajri with milk or curd or *Chhas*. Onion and chillies are popular and common supporting items of food. Kheda is an ancient town and was known as Khetakpur in the past. Charotar area of the Kheda district is rich with agriculture, industry and education. The main crop of Charotar is tobacco. The people of Charotar are mainly Patidars. They are a hard working and prosperous class. Patidars who are Patels have spread to many African countries and European States. Nadiad is the main town of Charotar.

Pujya Mota dedicated himself to the service of the nation and to activities for the upliftment of Harijans. He established *'Maun Mandir'* at Kumbhkonam on the bank of Kaveri, at Surat on the banks of Tapi and at Nadiad on the banks of river Shedhi. Spiritual devotees can take advantage of these temples for performing 'Sadhna'. Mota was a great saint and a social worker in the true sense of the word.

Another great name associated with the district is that of Ravishankar Vyas, better known as Ravishankar Maharaj. Kheda Satyagrah is one of the many important episodes of the Indian Freedom Movement. The same episode brought Ravishankar Maharaj in close contact with Gandhiji. Ravishankar Maharaj was nicknamed as silent public worker of Gujarat.

Oil mills, cotton ginning factories and the trade have made Kapadvanj one of the prosperous towns in Kheda district. The College complex greets the visitors. The complex includes colleges, museums, botanical garden, playgrounds, hostels, open air theatres etc. It has developed into a very big centre of education due to generous donors and the then far sighted principal, Dr. Dhirubhai Thaker.

GOVARDHANRAM TRIPATHI (1855-1907) :

It is an unusual fact that a youth of only 21 years thought about his whole life, planned it and followed it sincerely. Govardhanram had planned to obtain the degree of LL.B. and practice in Bombay High Court, retire at the age of 40 and then serve the literature. He started his legal practice after obtaining LL.B. against many odds. His friends and family members persuaded him not to leave the paying profession at the age of 40. But Govardhanram acted according to the map of his life.

Govardhanram was born in religious Nagar family of Nadiad. His 'Saraswatichandra' Part-I and 'Snehmudra' the volume of poetry had already been published even before he retired from the legal practice. Then he completed the other three parts of 'Saraswatichandra' besides 'Life of Navalram', Classical poets of Gujarat. 'Lilavati Jeevankala' 'Dayaramno Akshar Deh' and many other independent articles. 'Saraswatichandra' was among his best. Almost all the critics have studied 'Saraswatichandra' in depth and have accepted Govardhanram's genius as a novelist.

(xi) Scope of Village Directory and Town Directory :

As mentioned earlier, the District Census Handbook is brought out in two parts-Part A and Part B. Part A covers the non-census data of village directory and town directory whereas part B covers the primary census abstract data of 2001 Census. The scope of village directory and town directory is discussed below.

Scope of Village Directory

For the census work, the villages in the district have been arranged taluka wise and within the taluka they are shown location code wise. Each village is assigned a location code number for the purpose of identification. In 2001 Census, all the villages have been given unique 8-digit code number, which will remain constant across the census, and shall make it easy to do comparative study. Eight digit code's last two digits are especially provided to take into account exigencies arising due to jurisdictional changes of villages by partition, amalgamation etc. This time it has been kept '00'. Prior to the village directory information, a map and alphabetical list of villages for each taluka is given in Part A. Village directory contains the non-census data of each village. It gives the village wise basic information relating to infrastructure and amenities available in the sphere of education, medical, drinking water, power supply, post and telegraph, communications, approach road to village and distribution of land use area. In addition, it contains information about total area of each village, total population and number of households and the nearest town and its distance from the village. The information on number of households and total population has been included with a view to examine the co-relation of amenities with the number of households and population they serve. If an amenity is not in existence in the referent village, the distance in broad ranges from the nearest place along with name, where the amenity is available is given. The broad range are (-5 kms), (5-10 kms.) and (10+ kms.). Some additional information has been added viz.(1) Number of Banks, (2) Credit Societies, (3) recreational and cultural facilities, (4) Receipt of Newspaper / Magazine, (5) Income & Expen-diture of the village and (6) Name of the three most important commodities imported, manufactured/ produced & exported. One information has been deleted this time, i.e., Market & Hat facility.

The village directory also carries the following appendices.

Appendix-I	It gives the taluka wise abstract of educational, medical and other amenities available in the villages of the district.
Appendix-I-A	Indicates number of villages Taluka wise having one or more primary schools.
Appendix-I-B	Indicates number of villages Taluka wise having primary, middle and secondary schools.
Appendix-I-C	Shows number of villages Taluka wise with different sources of drinking water facilities.
Appendix-II	Indicates the list of villages with 5,000 and above population which do not have one or more important amenities.
Appendix-II-A	Indicates list of Census Towns which do not have one or more amenities.
Appendix-III	It gives the land utilization data in respect of Census Towns/non-municipal Towns.
Appendix-IV	Taluka wise list of inhabited villages where no amenity other than drinking water facility is available.
Appendix-V	Summary showing number of villages not having Scheduled Castes population.
Appendix-VI	Summary showing number of villages not having Scheduled Tribes population.
Appendix-VII A, VII B	The appendix shows the list of villages according to proportion of the Scheduled castes and Scheduled Tribes to the total population by ranges.
Appendix-VIII	Indicates Taluka wise number of villages under each Gram Panchayat.
Appendix-IX	Shows number of different types of girls school in a village.

Scope of Town Directory

Town Directory covers the non-census data for each town. It presents important and useful information like civic and other amenities available in all the towns of the district. The information in town directory is covered in following seven statements, viz. statements I to VII.

Statement-I	Town wise class, name, civic administrative status of the town, its area, growth rates, density and sex ratio.
Statement-II	Physical aspects of each town.
Statement-III	Income and expenditure of each town.
Statement-IV	Civic and other amenities in respect of each town.
Statement-V	Availability of medical, educational, recreational and cultural facilities in each town.
Statement-VI	Trade, commerce, industry and banking activities in each town.
Statement-VII	Civic and other amenities in slum areas of each town.

In all the Statement except VII the towns are arranged in the alphabetical order within the district. The details of these statements are given in the analytical portion of the town directory. In addition to the above statements, an appendix showing the towns with their outgrowths with population is also given after the town directory statements.

PART – A
VILLAGE AND TOWN DIRECTORY

SECTION – I VILLAGE DIRECTORY

Section-I Village Directory

(a) NOTE EXPLAINING THE ABBREVIATIONS USED IN THE VILLAGE DIRECTORY

The "Village Directory" is one of the traditional compilations of the Census. It gives the list of villages, their location numbers, their area, population, number of households, amenities such as educational, medical, drinking water, post and telegraph, commercial and co-operative banks, agricultural non-agricultural and other credit societies, recreational and cultural facilities, communication, approach to village, nearest town with a distance, power supply availability of newspaper and magazines, most important commodity manufactured and land use of each village.

Village is a statutory recognized unit having a definite boundary and separate land records. In case, a complete village is treated as an outgrowth of urban agglomeration, data on amenities for that village, have not been given in the Village Directory but shown along with the urban component. The villages which are consider as a Census Town , the amenities data are shown in the Town Directory. For those villages which have partly merged in an outgrowth of U.A., the amenities data are shown in the Village Directory for that particular village.

The 'uninhabited' villages (villages with no population) have been indicated as such after furnishing details in columns 1 to 3 i.e., Serial number, Name of village & location code number and area of the village against column no. 4 to 18. The land use data for such villages are shown in col. 19 to 23

The Village Directory format has 23 columns and the details given under each column are for the village are as follows:-

Column 1 : Serial Number

Self explanatory. All the villages within the CD Block are presented serially in the ascending order of their location code number.

Column 2 : Name and Location Code Number of village.

The name and location code number of the village are shown against these columns. This also includes the forest and uninhabited villages.

Column 3 : Area of the village

The area of the villages in hectares are given. Wherever the area figures was not furnished by the concerned department the column is left blank.

Column 4 : Total Population

The total population of the village as per 2001 Census is given against this column.

Column 5 : Number of Households

The number of households as per 2001 Census is given in this column.

Amenities :

In column 6 to 23, availability in respect of different amenities such as education, medical, drinking water, post, telegraph, banks, credit societies, communication, power, approach road etc. in each village has been depicted with appropriate codes against the column concerned. Wherever the amenities are not available in the village, a dash (-) is shown in the column and next to it in brackets the distance in broad ranges viz.< 5 kms., 5-10 kms. and 10+ kms of the nearest place where the facility is available is given.Column wise details are given below :

Column 6 : Educational

Classes upto class VII included in Primary School. This will include nursery school, kindergarten school. Pre-basic school, pre-primary school, junior basic school upto class VII.

Classes from VIII to X included in Higher secondary school. Classes XI and XII are included in senior secondary school.

Accordingly any of the following types of institutions if exists within the village is shown as per codes given below :

(i)	Primary School	P
(ii)	Middle School	M*
(iii)	Secondary School	S

Note : * - There is no Middle school in the Gujarat State.

(iv)	Senior Secondary School	PUC
(v)	College	C
(vi)	Industrial School	I
(vii)	Training School	Tr
(viii)	Adult literacy class/centre	AC
(ix)	Others (specify) e.g. SanskritPathshala, Senior basic school, Navodaya Vidyalaya, Makhtab,etc.	O

More than one institution of a type in the village is indicated by the number within brackets against the abbreviation, e.g. P(3), M(4), etc.

Column 7 : Medical

Availability of medical facility within the village is indicated by following codes :

(i)	Allopathic Hospital	H
	Ayurvedic Hospital	HA
	Unani Hospital	HU
	Homeopathic Hospital	H Hom
(ii)	Allopathic Dispensary	D
	Ayurvedic Dispensary	DA
	Unani Dispensary	DU
	Homeopathic Dispensary	D Hom
(iii)	Maternity & Child Welfare	MCW
(iv)	Maternity Home	MH
(v)	Child Welfare Centre	CWC
(vi)	Health Centre	HC
(vii)	Primary Health Centre	PHC
(viii)	Primary Health Sub-Centre	PHS
(ix)	Family Welfare Centre	FWC
(x)	T.B. Clinic	TB
(xi)	Nursing Home	NH
(xii)	Registered Private Medical Practitioner	RMP
(xiii)	Subsidised Medical Practitioner	SMP
(xiv)	Community Health Worker	CHW
(xv)	Others	O

More than one institution of a type in the village is indicated by the number within brackets against the abbreviations, e.g. H(3), D(4), etc.

Column 8 : Drinking Water

The type of the drinking water supply sources available within the village are indicated by codes as follows :

(i)	Tap Water	T
(ii)	Well Water	W
(iii)	Tank Water	TK
(iv)	Tubewell Water	TW
(v)	Handpump	HP
(vi)	River Water	R
(vii)	Canal	C
(viii)	Lake	L
(ix)	Spring	S
(x)	Others	O

Column 9 : Post, Telegraph and Telephone

It is indicated by codes as shown below whether within the village exists the following amenities:

(i)	Post Office	PO
(ii)	Telegraph Office	TO
(iii)	Post & Telegraph Office	PTO
(iv)	Telephone Connection	PH

Column 10 : Commercial and Co-operative Banks

If the village is served by any banking service, commercial bank, co-operative bank etc. the same is indicated in codes mentioned below along with the number of banks in brackets. If not available the distance of nearest place where the facility exist is given:

(i)	Commercial Bank	CM
(ii)	Co-operative Bank	CP

Column 11 : Credit Societies

If the village enjoys the services of Credit Societies i.e. Agricultural Credit Societies, Non Agricultural Credit Society or Other Credit Societies, the same is indicated in codes mentioned below along with the number of such societies in brackets. In case the facility is not available within the village the distance of the nearest place where such facility exist is given :

(i)	Agricultural Credit Society	ACS
(ii)	Non- Agricultural Credit Society	NCS
(iii)	Other Credit Society	OCS

Column 12 : Recreational and Cultural facilities

If facilities such as Cinema/Video hall, Sports Club, Stadium/Auditorium is available in the village, the same is recorded in these columns. If not available the particulars of the nearest place with the facility is recorded. The information is indicated in codes mentioned below along with the number of such facilities in brackets:

(i)	Cinema/Video Hall	CV
(ii)	Sports Club	SP
(iii)	Stadium/Auditorium	ST

Column 13 : Communications

If the village is served by any mode of public/ private transport like Bus, Railway station or Navigable water ways they are to be mentioned as follows:

(i)	Bus	BS
(ii)	Railway Station	RS
(iii)	Navigable Waterway	NW

Column 14 : Approach to Village

Approach to village refers to the state of road leading to village. The approach to the village is indicated in following codes :

(i)	Paved Road	PR
(ii)	Mud road	MR
(iii)	Foot path	FP
(iv)	Navigable River	NR

Column 15 : Nearest Town and Distance

The distance is given in kilometers in brackets against the name of the town nearest to the village.

Column 16 : Power Supply

Availability of Power Supply in the village, whatever may be the form of its use is given by using following codes :

(i)	Electricity for domestic use	ED
(ii)	Electricity for agricultural use	EAG
(iii)	Electricity for other purposes	EO
(iv)	Electricity for all purposes	EA

Column 17 : News Paper/Magazine

If village receives any News Paper/Magazines the same is noted in this column using following codes:

(i)	News Paper	N
(ii)	Magazine	M

Column 18 : Most important commodities manufactured

The name of three most important commodities manufactured in the village is recorded against this column.

Column 19 to 23 : Land use i.e. area under different types of land use

Land use data maintained by the State/UT Govts. are furnished against these columns. The data area under Forest, Irrigated land (by source), Unirrigated land, Cultivable waste and Area not available for cultivation in the village are shown against these columns. The area figures are given in hectare(s) up to one decimal. Desh '-' is recorded wherever the information is not made available by the concerned department. The codes used for different types of irrigation facilities available in the village are indicated below:

(i)	Government Canal	GC
(ii)	Private Canal	PC
(iii)	Well (without electricity)	W
(iv)	Well (with electricity)	WE
(v)	Tubewell(without electricity)	TW
(vi)	Tubewell(with electricity)	TWE
(vii)	Tank	TK
(viii)	River	R
(ix)	Lake	L
(x)	Waterfall	WF
(xi)	Others	O
(xii)	Total	T

The village directory also carries the following appendices.

Appendix-I	It gives the abstract of educational, medical and other amenities available in villages Taluka/ C.D. Block wise of the district.
Appendix-I-A	Indicates number of villages Taluka/ C.D. Block wise having one or more primary schools.
Appendix-I-B	Indicates number of villages Taluka/ C.D. Block wise having primary, middle and secondary schools.
Appendix-I-C	Shows number of villages Taluka/ C.D. Block wise with different sources of drinking water facilities.
Appendix-II	Indicates the list of villages with 5,000 and above population which do not

	have one or more important amenities available.
Appendix-II-A	Indicates list of Census Towns which do not have one or more amenities.
Appendix-III	It gives the land utilization data in respect of Census Towns / non-municipal Towns.
Appendix-IV	Taluka/ C D Block wise list of inhabited villages where no amenity other than drinking water facility is available.
Appendix-V	Summary showing number of villages not having Scheduled Castes population.
Appendix-VI	Summary showing number of villages not having Scheduled Tribes population.
Appendix-VII-A VII-B	Theappendix shows the list of villages according to proportion of the Scheduled Castes and Scheduled Tribes to the total population by ranges.
Appendix-VI	Indicates Taluka/ C D Block wise number of villages under each Gram Panchayat.
Appendix-IX	Shows number of different types of girls school in the village.

(b) LIST OF VILLAGES MERGED IN TOWNS AND OUTGROWTHS AT 2001 CENSUS :

Sl. No.	Name of Taluka	Village		Merged in which Town or name of UA
		Name	L.C. No.

Note : * In Gujarat State the levels of education are classified as under :
(i) Primary (from Std. I to VII passed)
(ii) Secondary/Matriculation (From Std. VIII to X passed)
(iii) Higher Secondary (From Std. XI to XII passed). Hence details of Col. 6 are not shown.

SECTION - II TOWN DIRECTORY

Town Directory

(a) Note Explaining The Abbreviations Used In The Town Directory

Town Directory statements (I to VII)

Statement I : Status and Growth History

Column (2) : Class, name and civic administration status of town :

Class has been introduced to facilitate analysis of town directory data at the state and all India levels. It is presented according to 2001 Census Population of the town as follows :

Population	Class
100,000 and above	I
50,000 - 99,999	II
20,000 - 49,999	III
10,000 - 19,999	IV
5,000 - 9,999	V
Below 5,000	VI

Town with a population of one lakh (1,00,000) and above is treated as a city.

The civic administration status of the towns is indicated within bracket against the name of the town. The following abbreviations are used to denote civic status of town.

(I)	Municipal Corporation	M. Corp.
(II)	Municipal Committee	MC
(III)	Municipal Council	M Cl
(IV)	City Municipal Council	CMC
(V)	Town Municipal Council	TMC
(VI)	Municipal Board	MB
(VII)	Municipality	M
(VIII)	Cantonment Board/Cantonment	CB
(IX)	Notified Area	NA
(X)	Notified Town	NT
(XI)	Notified Area Committee/ Notified Area Council	NAC
(XII)	Notified Town Area	NTA
(XIII)	Industrial Notified Area	INA
(XIV)	Industrial Township	ITS
(XV)	Township	TS
(XVI)	Town Panchayat	TP
(XVII)	Nagar Panchayat	NP
(XVIII)	Town Committee/ Town Area Committee	TC
(XIX)	Small Town Committee	ST
(XX)	Estate office	EO
(XXI)	Gram Panchayat	GP
(XXII)	Census Town	CT

Others columns need no comments.

Statement II - Physical Aspects and Location of towns, 1999.

Column 3 to 5 : Physical Aspects

In this columns the Rainfall and Maximum & Minimum Temperature of the town is recorded.

Column 6, 7 and 8 :

Name of the State headquarters, District headquarters and Sub-Divisional headquarters with distance from the referent town in kilometers, is to be recorded respectively. If the names mentioned in these columns are the same as the referent town itself, the distance is recorded as (0) zero.

Column 9 and 10 :

Name of the nearest city with one lakh and more and five lakhs and more population are recorded.

Column 11, 12 and 13 :

If referent town enjoys the facility of railway station, bus route facility or navigable river/canal. Its name is to be mentioned. If not available, then the name of nearest place with distance, where such facility exists is to be mentioned.

Statement III : Municipal Finance 1998 – 1999

Item-wise amount of receipt and expenditure in thousand rupees, relating to municipal finance of the town for the year 1998-99 is to be recorded.

Statement IV : Civic and Other amenities, 1999

Column 1 to 5 : Self explanatory.

Column 6 : Road length (in kms.)

Information about kutcha / pucca road is to be recorded separately for the roads within the limits of the referent town.

(i)	Pucca Road	PR
(ii)	Kutcha Road	KR

Column 7 : System of Sewerage

Generally, by sewerage system is implied the network of mains and branches of underground conduits for the conveyance of sewerage to the point of disposal. Sewers that carry only household and industrial wastes are called separate sewers, those that carry storm water from roofs, streets and other surface are known as storm water drains, while those carrying both sewage and storm water are called combined sewers.

The codes used for different types of drainage system are as follows :

(i)	Sewer	S
(ii)	Open Surface Drains	OSD
(iii)	Box Surface Drains	BSD
(iv)	Sylk Drains	SD
(v)	Cesspool method	CP
(vi)	Pit System	Pt
(vii)	Others	O

Column 8 to 11 : Number of latrines

Number of various types of latrines both Public and Private are given in these columns.

Column 12 : Method of disposal of night soil

The various prevalent method of disposal of night soil are given below with codes :

Head Loads	HL
Basket	B
Wheel Barrows	WB
Septic Tank	ST
Pit System	Pt
Sewerage	S
Others	O

Column 13 and 14 : Water supply

Source and capacity of storage system. The following codes are used in these columns:

Column 13:

(i)	Tap water	T
(ii)	Tube-well water	TW
(iii)	Tank Water	TK
(iv)	Well water	W

Column 14:

(v)	Over Head Tank	OHT
(vi)	Service Reservoir	SR
(vii)	River Infiltration Gallery	RIG
(viii)	Bore Well Pumping System	BWP
(ix)	Pressure Tank	PT

The information on major source of water supply are given in column 13 and the storage capacity against each in kilo-litres (in bracket) are presented in column 14.

Column 15 : Fire Fighting Service

In case the fire fighting service is available in the referent town 'yes' is recorded. If the facility is not available within the town. The name of the nearest place having this facility with its distance from the referent town has been recorded.

Column 16 to 20 : Electrification (Number of connections)

Different types of electric connections have been shown in these columns, i.e. Domestic, Industrial, Commercial, Road lighting (points) & others.

Statement V : Medical, Educational, Recreational and Cultural Facilities, 1999

Column 1 to 3 : Self explanatory.

Column 4 & 5 :

The data covers all such medical institutions run by or aided by Government/Semi Government/Local bodies and Charitable institutions or Social agencies like the Missionaries. Where the family planning centres are attached to hospitals or maternity and child

welfare centres or Primary Health Centres, may be treated as independent units and counted separately using following codes :

(i)	Hospital	H
(ii)	Dispensary	D
(iii)	Health Centre	HC
(iv)	Family Welfare Centre	FWC
(v)	T.B. Clinic	TB
(vi)	Nursing Home	NH
(vii)	Others	O

In case of more than one institutions of any type, it is indicated within brackets the number of such institution (s) e.g. D(3), NH(8), etc. The institutions have further been distinguished by providing additional codes within the bracket as given below :

Ayurvedic	A
Unani	U
Homoeopathic	Hom

.**Column 6 to 9 :**

The codes used for these columns are as follows :

(i)	Arts only	A
(ii)	Science only	S
(iii)	Commerce only	C
(iv)	Arts & Science only	AS
(v)	Arts & Commerce only	AC
(vi)	Combined for all categories-Arts, Science and Commerce	ASC
(vii)	Law	L
(viii)	University	U
(ix)	Others	O

Column 10 : Recognized shorthand, typewriting and vocational training institutes

"Recognised" should mean recognised by some statutory authority, like education department, commerce department, labour department etc. of the government or semi government or autonomous bodies, public sector undertakings etc.

The following codes are used :

(i)	Vocational Training Institute	VT
(ii)	Shorthand	SH
(iii)	Typewriting	Type
(iv)	Shorthand & Typewriting	SH Type
(v)	Others	O

The vocational institutions like - Applied Art/ Painting college, Pharmacy college, B. Ed. College, Teacher's Training Institute, Music / Dance School, Nursing School etc. are covered under 'Others'.

Column 11 to 14 :

Classes upto class VII included in Primary School. This will include nursery school, kindergarten school. Pre-basic school, pre-primary school, junior basic school upto class VII.

Classes from VIII to X included in Higher secondary school. Classes XI and XII are included in senior secondary school.

Accordingly any of the following types of institutions if exists within the village is shown as per codes given below :

(i)	Primary School	P
(ii)	Middle School	M*
(iii)	Secondary School	S
(iv)	Senior Secondary School	PUC
(v)	College	C
(vi)	Industrial School	I
(vii)	Training School	Tr
(viii)	Adult literacy class/centre	AC
(ix)	Others (specify) e.g. Sanskrit Pathshala, Senior basic school, Navodaya Vidyalaya, Makhtab,etc.	O

More than one institution of a type in the village is indicated by the number within brackets against the abbreviation, e.g. P(3), M(4), etc.

Note : * - There is no Middle school in the Gujarat State.

Column 15 : Adult literacy class/centres

This column has been introduced keeping in view the Minimum Needs Programme of the Planning Commission. There are number of Adult Education Centres which are included in these columns.

If an educational facility is not available in the town, the name of the nearest place and its distance in kilometres from the town where the facility is available is mentioned.

Column 16 : Working Women's hostels with number of seats

The number of working women's hostel if available in the referent town is mentioned with number of seats. If the facility is not available in the town the name of nearest place with distance where the facility is available is recorded.

Column 17 to 19 : Recreational and Cultural Facilities

Stadium, Cinema, Auditorium/Drama/ Community Hall are covered under recreational & cultural facilities. The particulars of permanent recreational facilities are considered for these columns.

Column 20 : Public Libraries, Reading Rooms

Number of public libraries and reading rooms available in the referent town are recorded in codes as follows :

(i)	Public Library	PL
(ii)	Reading room	RR

Statement VI : Trade, Commerce, Industry and Banking, 1999

Column 3 to 8 : Name of three most important commodities exported and names of three most important commodities manufactured in the town are recorded.

Column 9 : Number of Banks

Number of Banks available in the referent town both Commercial and Co-operative banks are recorded against this column.

Column 10 and 11 : **Number of Agricultural Credit Societies and Non Agricultural Credit Societies**

The total number of Agricultural Credit Societies and Non Agricultural Credit Societies in the referent town are recorded against these columns.

Statement VII : Civic and other Amenities in Slums, 1999

This is the statement on civic and other amenities in all slums whether notified or not and for all towns having statutory bodies, like municipality, Municipal Corporation, Town area committee etc.

.

Part – B

PRIMARY CENSUS ABSTRACT

Primary Census Abstract

Brief note on Primary Census Abstract :

The first census of the third millennium and twenty first century the Census of India, 2001 was the 14th continuous and uninterrupted Indian census since 1872. Thus, 2001 Census will provide data on population and its characteristics marking transition from one century and millennium to another.

The gigantic operation of Population Enumeration (considered by many to be the single largest and complex peace time administrative exercise in the world) was made possible due to the door to door universal canvassing of the Household Schedule by about 2 million enumerators and supervisors covering 593 districts, 5,463 sub-district, 5,161 towns and 638,588 villages. The comprehensive Household Schedule which replaced the individual slip had three parts and two sides A and B. Part I contained the Location Particulars; Part II related to the Individual Particulars and Part III contained questions for Household engaged in cultivation/Plantation. The part II of the Household Schedule had 39 columns and 23 questions all of which were universally canvassed and no sampling was resorted to during enumeration.

Data Processing

A quantum leap was made in the technology front while processing the Census 2001 data both for Houselisting and Population Enumeration. The Census schedules for both the phases were scanned through high speed scanners in fifteen data centers across the country and hand-written data from the schedules were converted into digitized form through Intelligent Character Reading (ICR) software for creation of ASCII records for further processing. The designing and formatting of the Household Schedule had to be done very carefully using specialized software so as to ensure uniformity, which was an essential pre-requisite for scanning. The selection of appropriate state-of-art technology in data processing has made it possible to produce all the Houselisting as well as Population Enumeration tables on full count basis for the first time in the history of Census. For Census 2001, about 202 million schedules consisting of about 1,028 million records were scanned and processed within a span of only 10 months starting October, 2002.

Task Force on Quality Assurance

After the data is processed, it is expedient on the part of the data producing agency to satisfy itself about its quality before putting the same in public domain. This has to be done mainly through the process of internal consistency, comparison with similar data in the past and also through validation with likewise data if available, from external sources. Quite often the local knowledge and perception has to be brought into play to understand both the existing and the new emerging trends of population distribution and characteristics. The other very important aspect of the data quality is to ensure complete coverage of all geographical areas especially for the population enumeration phase where the data is disseminated right up to the village level in the rural areas and the ward level in the urban areas. Thus ensuring the complete coverage and correct geographical linkage of each enumeration block was one of the major planks of the quality control, specially for small area population statistics.

A very comprehensive check and edit mechanism was put in place to objectively examine the preli-minary Census 2001 Population Enumeration results and finally clear them for use. The responsibility of the final clearance of data was with the Task Force on Quality Assurance (TFQA), headed by the Registrar General and Census Commissioner, India. The other members of the TFQA were the Heads and senior officers of the Census Division, Data

Processing Division, Map Division, Demography Division and Social Studies Division. The Directors of Census Operations were co-opted as members whenever the TFQA discussed the data for their States/ Union territories. The Directors and their senior officers were required to make detailed presentations of data for their own state both in respect to the quality and the coverage and only after the full possible cleared.

There has been a major departure in Census 2001 from the past in respect of the procedure followed for finalization of the Scheduled Castes and the Scheduled Tribes population. In the earlier censuses, the total, Scheduled Castes and Scheduled Tribes Population were finalized at the time of menual compilation of the Primary Census Abstracts (PCA) at the Regional

Tabulation Offices which were specially set up for this purpose. The individual Scheduled Castes and the Scheduled Tribes population for each state was finalized much later based on manual coding done by the coders. In 2001 Census, each individual Scheduled Caste and the Scheduled Tribe have been coded directly on the computers by the Data Entry Operators through a process known as Computer Assisted Coding (CAC) and taken up along with the processing of PCA data. The CAC process involves pulling down, from the relevant dictionary of the Scheduled Castes and the Scheduled Tribes, on the computer screen and coding from the dictionary by referring to the image of the specific individual entry in the Household Schedule appearing on the screen. The CAC of the response on Religion wherever required, was also undertaken along with the processing of PCA. This is because the Scheduled Castes status had to be determined in relation to the religion of the individual. Two Special Task Forces, one on Religion and the other on Scheduled Castes/Scheduled Tribes were constituted for scrutiny and appropriate classification of these responses.

The main task of the Special Task Force on Religion was to appropriately merge or group the new responses encountered and code it into the appropriate religious community based on available literature and local knowledge. The Special Task Force on Scheduled Castes and Scheduled Tribes examined the different Scheduled Castes and Scheduled Tribes entries encoun-tered and classified these into appropriate category of the Scheduled Castes or the Scheduled Tribes principally based on the Presidential Notification and the available literature. Thus a very systematic and scientific mechanism was operationalised to firm up the individual religion and the individual Scheduled Castes/Tribes returns. The Scheduled Castes and the Scheduled Tribes population in 2001 Census, is thus being finalized by aggregating the population data for individual Scheduled Castes and the Scheduled Tribes at appropriate geographical levels.

The entire work relating to the data validation and scrutiny was completed by all the States/Union Territories under the overall supervision and monitoring of the Census Division of the Office of the Registrar General, India with active cooperation and support of the Social Studies Division, Data Processing Division, Data Dissemination Division and Map Division.

Primary Census Abstract

The Primary Census Abstract which is yet another important publication of 2001 Census gives basic information on Area, Total Household, Total population, Scheduled Castes, Scheduled Tribes population, Population in the age group 0-6, Literates, Main workers and Marginal workers classified by the four broad industrial categories, namely (i) Cultivators, (ii) Agricultural labourers (iii) Household Industry Workers and (iv) Other workers and also Non-workers. The characteristics of the Total population includes Scheduled Castes, Scheduled Tribes, Institutional and Houseless population and are presented by sex and rural-urban residence. This data is presented at different levels, namely India, State/Union Territories, Districts and Cities, Urban Agglomerations (Population 1,00,000 and above) in three different tables. In addition, the Appendix of said publication provides Houseless and Institutional Households and their population by residence and sex for 2001 for India, State and Union territory.

Apart from the India and State/Union Territory volumes for Primary Census Abstract, the District Census Handbook contains District Primary Census Abstract, Appendix to District Primary Census Abstract, Primary Census Abstract for Scheduled Castes, Primary Census Abstract for Scheduled Tribes, Village Primary Census Abstract and Urban Primary Census Abstract of the concerned district in the state.

It was for the first time at the 1981 Census that the Primary Census Abstract (PCA) was brought out for the Scheduled Castes and the Scheduled Tribes separately on the pattern of General Primary Census Abstract. This practice was continued in 1991 also. In the 1961 and 1971 Censuses, such data were made available in Table C-VIII-Social and Cultural table and to some extent in the series 'Special Tables for Scheduled Castes/Scheduled Tribes'.

The format of Primary Census Abstract has been restructured slightly in the 2001 Census as compared to that of 1991 Census. The nine-fold industrial classification of main workers given in the Primary Census Abstract of 1991 Census has been discontinued and its place, four-fold industrial classification of both 'main workers' and 'marginal workers' are included. In 1981 census only main workers were presented in to four categories. One of the novel features of the primary census abstract of 1991 census was the presentation of data of the population of age group 0-6 is continued in 2001 Census also. This will help the data users in better analysis and understanding of this literacy data.

Level of presentation in District Census Handbooks:

The Primary Census Abstract data in different PCAs are presented at different levels. The level of presentation of Primary Census Abstracts are as under:

The PCA Data for villages was presented CD Block wise for the first time in 1991 Census. This practice is continued in 2001 Census also. The data for each CD Block is presented both for rural and urban areas separately. All the villages within the CD Block constitute the rural portion and the Census Towns and Outgrowths are shown under the urban portion of the CD Block. In case a CD Block is spread over two or more districts, than portion which falls within the district is presented, the data pertaining to remaining portion of the CD Block is presented in the concerned District Census Handbook. The data in the Urban Primary Census Abstract for each town as well as for town with outgrowths in the district are presented. The data for all the wards and the outgrowths of the town(s) are also presented separately below the concerned town(s).

The District Primary Census Abstract is presented in 59 columns. The Primary Census Abstract for Scheduled Castes and Primary Census Abstract for Scheduled Tribes are presented in 52 columns. The Village Primary Census Abstract and Urban Primary Census Abstract are presented in 58 columns.

The concepts and definitions used in the column heading are explained under the sub heading 'Census Concepts' in the Analytical Note. The term 'Total Population' includes the Scheduled Castes, the Scheduled Tribes, the Institutional and the Houseless populations. The explanation regarding area figures presented at various level in the Primary Census Abstracts are as follows:

Area Figures

The area figures supplied by local revenue authorities of the district in respect of tahisils, Police Stations and by the local bodies in respect of towns are given in square kilometers. The area figures of the villages supplied by the Tahsildars in acres have been converted and shown in hectares. The area figures of the CD Block is the total of the village areas coming under each CD Block. The area figures for the district are the same as adopted by the Surveyor General of India to maintain uniformity at the national level. The total area figures of all the tahsils/CD Blocks within the district may not tally with area figures of the district because former represents land use area only. Similarly, the total of all the villages may not tally with the entire rural of Police Station/Tahsil. The difference may be due to the fact that while the area covered by hills, forests and rivers etc, have been accounted in the Tahsils and P.S. level the same may not be covered under the area of the villages. Apart from this it may also differ due to varying methods of computation adopted at different levels.

An appendix to District Primary Census Abstract has also been furnished showing urban enumeration block-wise particulars on Total Population, the Scheduled Castes Population and the Scheduled Tribes Population for each town. Tribes Population for each town.

The following Abbreviations have been used in the Primary Census Abstract for facility of presentations:

1	Municipal Corporation/ Corporation	M. Corp.
2	Municipality	M
3	Municipal Council	MCI
4	Cantonment Board/Cantonment	CB
5	Notified Area/Notified Area Committee/Notified Committee	NAC
6	Industrial Notified Area	INA
7	Gram Panchayat/ Village Panchayat	GP
8	Nagar Panchayat/ Town Panchayat	NP
9	Census Town	CT
10	Total	T
11	Rural	R
12	Urban	U

The following conversion factor has been used for converting areas into hectares and hectares into km^2

Acres x 0.40467 = hectares

100 Hectares = 1 Km^2

***** These figures represent 'Geographical area' figures supplied by the Surveyor General. Figures for urban area are those supplied by the local Bodies. Area figures for rural are derived by subtracting the urban area from the total area of the District. The total of the area figures of talukas will not tally with the district figures because the former represents 'Land Use Area' and are derived from the figures supplied by the Director of Land Records.

The Government of Gujarat reconstituted former Kheda district by bifurcating it and created new Anand District with effect form 2nd October1997 vide Notification No.GHM/97/80/L dated. 24th September, 1997 by separating Khambhat, Petlad, Borsad and Anand talukas. The (1) Kapadvanj, (2) Balasinor, (3) Mehmedabad, (4) Matar, (5) Nadiad and (6)Thasra talukas formed new Kheda district. Again, the six talukas of the Kheda district were restructured in the same year and now total 10 talukas are formed as listed below:-

(1) Kapadvanj, (2) Virpur, (3) Balasinor, (4) Kathlal, (5) Mehmedabad, (6) Kheda, (7) Matar, (8) Nadiad, (9) Mahudha and (l0) Thasra.

The details of undivided Kheda have been discussed in Annexure II and III. The details of 2001 Census data of Kheda district have been discussed in Annexure IV, VI, VII and VIII, while Annexure V provides the recast data of 1991 Census and separate data of 2001 Census.

ANNEXURE – II

FERTILITY AND MORTALITY-1991 CENSUS

Fertility Level:

Population is a dynamic variable and keeps on changing. Increase due to birth and decrease due to death affect the population size of an area. Thus the birth and death are the two most important vital events. Natural increase is the excess of population by births over decrease of population by deaths at a given point of time. The births have direct correlation with the fertility.

The data on fertility levels and trends as revealed by the fertility indices of the 1991 Census like Crude Birth Rate (CBR), Age Specific Fertility Rate (ASFR) and Total Fertility Rate (TFR) are presented and analyzed below. The Definitions and concepts of fertility indices frequently used have already been explained in Analytical Note.

Death Rate:

Death process in demographical terminology is called as mortality. The rate at which death events occur reveals about the standard of living and state of health. Statistical data on causes of death help us in controlling the spread of diseases and suggests new curative methods to medical authorities.

Child Mortality:

Information about questions on children ever born and children surviving canvassed for all ever married women was tabulated by age of the mother. From this estimate of child mortality have been worked out by using Brass technique.

Source: Occasional Paper No 1 of 1997.

The Annexure III shows various fertility indicators of all the districts and the state as per 1991 Census. It can be seen that Kheda district had Crude Birth Rate (CBR) of 33.7 which was only slightly higher than the state CBR at 33.6 Total Fertility Rate (TFR), Total Marital Fertility Rate (TMFR), General Fertility Rate (GFR) and General Marital Fertility Rate (GMFR) of Kheda district were 4.1, 5.1, 132 and 162 respectively which were all lower than the state level Total Fertility Rate (TFR) of 4.2, TMFR of 5.4, GFR of 136 and GMFR of 175.

The annexure also shows child mortality ratio in age group 0-4 and 5-9. The ratio in age group 0-4 and 5-9 in the district was 432 and 528 respectively, while for the state these figures stood at 467 and 571 respectively. Mean age at marriage means the completed age at which the woman was married. In case a woman was married more than once the age at which she married first was recorded. The mean age at marriage in Kheda district as per Census 1991 was 18.5 while the same for Gujarat state was slightly higher at 19 years.

NUMBER OF CHILDREN EVER BORN AND SURVIVING PER EVER MARRIED WOMAN IN AGE GROUP 45-49, 1991 CENSUS

	STATE	**4.2**	**4.4**	**3.8**	**3.8**	**4.0**	**3.6**

Source: Gujarat State District Profile 1991.

As per above figures there were 3.9 children born per ever married woman in the age group of 45-49 with 3.5 surviving children per woman in Kheda district. Both the figures were slightly lower than the State figures of 4.2 ever born children and 3.8 surviving children.

ANNEXURE – IV

PERCENTAGE DISTRIBUTION OF MIGRANTS BY PLACE OF BIRTH/ PLACE OF LAST RESIDENCE, 2001 CENSUS

Migration

Migration is a factor in changing the size and structure of the population. The migration process affects the areas to which migrants have moved and areas which they have left. Migration is a form of geographical mobility between one geographical unit to another, involving a change of residence from the place of origin/birth to the place of destination or place of new settlement from the last residence. A person is considered as a migrant by place of birth if the place in which he is enumerated during the Census is other than the place of birth. Similarly a person is considered as a migrant by place of last residence if the place in which he is enumerated during the Census is other than his place of immediate last residence.

Internal and International Migration

The migration movements are of four types –

1. Migration within the district of enumeration (intra-district migration)
2. Migration from one district to another but within the State
3. Migration from one State to another State of the country (inter-State migration) and
4. Migration from one country to another country.

The first three together constitute internal migration while the last type of movement is called international migration.

ANNEXURE

Migration by place of birth:

The absolute number and percentage distribution of Migrants by place of birth to total population in Kheda district and in the State at 2001 Census are as following.

PERCENTAGE DISTRIBUTION OF MIGRANTS BY PLACE OF BIRTH-2001 CENSUS

Migration By Place of Birth	Gujarat			Kheda

Source: Gujarat State-D-Series Tables-2001

As per 2001 Census, there were 18,810,592 migrants in Gujarat whose place of birth was different than the place of enumeration. Out of such migrants in 2001 census, 56.9 per cent were born elsewhere in the district of enumeration, 29.2 per cent were born in other districts of the State, 13.4 per cent were born in other States of India and 0.4 per cent were born in other countries. There was no migrant in 2001 who were classified as "Unclassified", in State as well as in the district.

As per 2001 Census in Kheda district, 66.6 per cent were born elsewhere in the district of enumeration, 30.3 per cent were born in other districts of the State, 2.9.per cent were born in other States of India and 0.1 per cnt were born in other countries.

INTER STATE IN-MIGRANTS TO GUJARAT STATE AS PER 2001 CENSUS BY PLACE OF BIRTH

Place of Birth	Gujarat		Kheda	
	Migrants	Percentage to Total Migrants	Migrants	Percentage to Total Migrants
1	2	3	4	5
Total Migrants	**2,520,676**	**100.0**	**21,158**	**100.0**
Madhya Pradesh	159,055	6,3	3,805	18,0
Maharashtra	734,945	29,2	3,911	18,5
Rajasthan	471,109	18,7	6,467	30,6
Uttar Pradesh	520,094	20,6	2,784	13,2
Other States	635,473	25,2	4,191	19,8

Source: Gujarat State-D-Series Tables-2001

The above statement shows, migration in Gujarat and in Kheda district from other States as per 2001 Census. It can be seen that as per 2001 Census there were 2,520,676 persons in the state who were born in other States of India.Out of these 29.2 per cent were born in Maharashtra while the proportion of migrants born in Rajasthan and Uttar Pradesh was 18.7 and 20.6 per cent respectively. As per 2001 Census out of total inter State migrants 6.3 per cent were born in Madhya Pradesh and the remaining 25.2 per cent were born in other States of India.

As regards Kheda district it can be seen that there were 21,158 migrants in this category in 2001.The State-wise distribution reveals that as per as per 2001 census, 18.5 per cent of migrants were born in Maharashtra and 18.0 per cent were born in Madhya Pradesh.In 2001 the proportion of migrants born in the states of Rajasthan and Uttar Pradesh was 30.6 percent and 13.2 per cent respectively. The proportion of migrants born in other states was 19.8 per cent in 2001 Census.

Migration by place of last residence:

Distribution of migrants by place of last residence in Gujarat and Kheda as per 2001 Census and percentage distribution of in-migrants from other States to Gujarat by place of last residence are presented below.

DISTRIBUTION OF MIGRANTS BY PLACE OF LAST RESIDENCE IN GUJARAT - 2001 CENSUS

Place of Last Residence	Gujarat			Kheda		
	Persons	Males	Females	Persons	Males	Females
1	2	3	4	5	6	7
Total Migrants	**19,221,602 (100.0)**	**6,694,122 (100.0)**	**12,527,480 (100.0)**	**750,549 (100.0)**	**188,901 (100.0)**	**561,648 (100.0)**
Last residence elsewhere in the district of enumeration	12,248,452 (63.7)	3,506,051 (52.4)	8,742,401 (69.8)	563,814 (75.1)	140,005 (74.1)	423,809 (75.5)
Last residence in other districts of the State	4,731,665 (24.6)	1,892,862 (28.3)	2,838,803 (22.7)	170,448 (22.7)	40,851 (21.6)	129,597 (23.1)
Last residence in other States of India	2,182,741 (11.4)	1,262,884 (18.9)	919,857 (7.3)	15,595 (2.1)	7,683 (4.1)	7,912 (1.4)
Last residence in other countries	58,744 (0.3)	32,325 (0.5)	26,419 (0.2)	692 (0.1)	362 (0.2)	330 (0.1)
Unclassified	0 (0.0)	0 (0.0)	0 (0.0)	0 (0.0)	0 (0.0)	0 (0.0)

Source : Gujarat State-D-Series Tables-2001

There were 19,221,602 migrants by place of last residence in Gujarat according to 2001 Census. The proportion of male and female migrants whose place of last residence elsewhere within the district of enumeration was 52.4 per cent and 69.8 per cent respectively in the case of Gujarat State. The reason for higher proportion of female migration is marriage. In Gujarat as per 2001 Census, 63.7 per cent migrants were residing elsewhere in the district of enumeration, 24.6 per cent were such whose place of last residence was in other districts of the state while last residence of 11.4 per cent migrants was in other States of India and only 0.3 per cent were such whose place of last residence was in other countries. There were no migrants in the category titled “Unclassified”.

In the district, as per 2001 Census, there were 750,549 migrants by last residence. Out of total migrants, 75.1 per cent of migrants were such whose place or of last residence was elsewhere in the district of enumeration, 22.7 per cent were such whose last residence was in other districts of the State while last residence of 2.1 per cent migrants was in other States of India and 0.1 per cent migrants last residence was in other countries. There were no migrants in the category titled “Unclassified”.

Migration by reason:

The following statement gives distribution of migrants by reasons of migration from other States of India.

MIGRATION FROM OTHER STATES OF INDIA BY PLACE OF LAST RESIDENCE IN GUJARAT 2001

States	Total Migrants	Reasons						
		Work / Employment	Business	Education	Marriage	Moved after birth	Moved with household	Others
1	2	3	4	5	6	7	8	9
Total	**2,182,741**	**660,767**	**204,905**	**12,624**	**370,546**	**134,751**	**577,599**	**221,549**
		(30.3)	**(9.4)**	**(0.6)**	**(17.0)**	**(6.2)**	**(26.5)**	**(10.2)**
Madhya Pradesh	131,745	29,363 (22.3)	11,867 (9.0)	794 (0.6)	27,722 (21.0)	7,221 (5.5)	40,843 (31.0)	13,935 (10.6)
Maharashtra	655,080	139,701 (21.3)	42,719 (6.5)	2,932 (0.4)	142,939 (21.8)	62,145 (9.5)	191,630 (29.3)	73,014 (11.1)
Rajasthan	391,649	80,234 (20.5)	59,938 (15.3)	1,555 (0.4)	82,251 (21.0)	23,145 (5.9)	103,923 (26.5)	40,603 (10.4)
Uttar Pradesh	447,325	179,313 (40.1)	47,179 (10.5)	1,712 (0.4)	53,419 (11.9)	17,296 (3.9)	106,884 (23.9)	41,522 (9.3)
Other States of India	556,942	232,156 (41.7)	43,202 (7.8)	5,631 (1.0)	64,215 (11.5)	24,944 (4.5)	134,319 (24.1)	52,475 (9.4)

Source: Gujarat State-D-Series Tables-2001

It can be seen from the data given above that the main reason for the migration was 'Work/ employment'. As much as 30.3 per cent of migrants moved due to work or employment as per 2001 Census, this was followed by 26.5 per cent of migration which was due to the reason of 'Moved with household'. In 2001, the proportion of migration due to marriage was 17.0 per cent. The reason for 9.4 per cent of migration was Business, and 6.2 per cent of migration was due to the reason titled 'Moved after birth' and only 0.6 per cent of migration was for Education. The remaining 10.2 per cent of migration was due to other reasons.

ANNEXURE – V

BRIEF ACCOUNT OF MAIN RELIGIONS IN THE DISTRICT AS PER 1991 AND 2001 CENSUSES

Religion is the basic cultural characteristics of the population. In secular country like India several religions have thrived and every decennial Census provides an interesting picture of the religious persuasions of the people. The data on religion yielded by the Census are of immense use for the Anthropologists, Sociologists, Demographers, Administrators, Planners and also for laymen.

The six main religions are i) Hindu, ii) Muslim, iii) Christian, iv) Sikh, v) Buddhist, and vi) Jain were recorded. In respect of 'Others', the actual religion returned was recorded. If a person said that he has no religion, it was recorded accordingly and if any person refused to state his religion it was recorded as 'religion not stated'.

Source: Gujarat State-C-Series Tables-2001

The statement above gives the details of distribution of population for Gujarat State and Kheda district by six major religions as per 2001 Census. The 2001 Census data reveals that the proportion of Hindus was 89.1 per cent in the State of Gujarat against 87.7 per cent recorded in Kheda. In comparison to 1991 data a decline of 0.4 per cent is registered in proportion of Hindus at State level and the same has declined by 0.2 per cent in Kheda district.

The proportion of Muslims was 8.7 per cent at State level and 10.4 per cent at district level in 1991 Census whereas in 2001 Census at State level, this proportion was 9.1 per cent and in district it was 10.8 per cent.

The proportion of Jain, Sikh, Buddhists, and people following other religions and of people who did not state any religion was negligible in Kheda in 1991 as well as in 2001 Census.

ANNEXURE-VI

MARITAL STATUS OF POPULATION AS PER 1991 CENSUS

		(100.0)	**(100.0)**	**(100.0)**	**(100.0)**	**(100.0)**	**(100.0)**

Source: Gujarat State -C- Series Tables-2001

It can be seen that proportion of never married persons was lower at 43.6 per cent in the district as compared to 47.6 per cent recorded in Gujarat State as per 2001 Census. In rural areas the proportion of never married persons was 47.7 per cent in State and 42.9 per cent in the district. In urban areas the proportion of never married persons was at 47.5 per cent in State and 46.2 per cent in the district. As per 2001 Census the proportion of married persons, in rural areas, was 47.4 per cent in Gujarat and 51.2 per cent in Kheda. In 2001 Census, in urban areas, the proportion of married persons was 48.4 per cent in Gujarat as well as in the district. The proportion of widowed in rural areas was 4.4 per cent in the state and 5.3 per cent in the district, while the same for urban areas was 3.7 per cent in the State and 4.9 per cent in the district. The proportion of divorced/separated was 0.4 per cent in the State and 0.6 per cent in the district.There was no population reported under the category titled "Unclassified".

ANNEXURE – VII

AGE, SEX AND EDUCATION IN THE DISTRICT AT THE 2001 CENSUS

Literacy has occupied an important position in Indian Census in one form or the other from the very beginning. The definition of literates as adopted is "A person who can both read and write with understanding in any language is to be taken as literate". A person who can merely read but can not write was not treated as literate. It is not necessary that a person who was literate should have received any formal education or should have passed any minimum educational standard. All children below the age 7 are treated as illiterate. While processing the literacy data population of age group 0-6 is excluded.

The following statement gives the distribution of literates and illiterates by broad age groups and sex in the district as well as the State at the time of 2001 Census:-

LITERACY BY AGE -GROUP AND BY SEX -2001

Age Group	Particular	Gujarat			Kheda		
		Persons	Males	Females	Persons	Males	Females
1	2	3	4	5	6	7	8
