FOREWORD

This volume contains the data on language collected through the Household Schedule canvassed in the 1981 Census. The information pertains to language mainly spoken in the household. The presentation is based on the same principles as were adopted in the 1971 Census presentation of language/mother-tongue data. The table presented which comes in the series of household tables of 1981 Census Tabulation Plan bears the number HH-16 (A&B). Table HH-16 Part A relates to languages specified in the Schedule VIII to the Constitution of India. Table HH-16 part B relates to languages other than those specified in the Schedule VIII to the Constitution of India. Table HH-16 Part A is further sub-divided into two sub-divisions, Part A (i) and Part A (ii), part A (i) relating to state level data and part A (ii) relating to district level data. Similarly, Part-B has also got two sub-divisions, part B (i) and part B (ii) relating to state and district levels respectively.

The note and fly-leaf preceding the tables give the background and explain the features of the tables. The concepts and definitions are also discussed in the fly-leaf which the reader will find useful.

The 1981 Census of India was very ably organised and conducted by my predecessor Shri P. Padmanabha, I.A.S. The data presented in this volume were initially processed in the Regional Tabulation Offices established as parts of Census Directorates in States/Union Territories. The tables were then scrutinised in the Language and Census Divisions of the Registrar General's Office.

I am grateful to my colleagues in the Directorates and in the Registrar General's Office who took part in the huge task of 1981 Census enumeration and processing of data. I wish to acknowledge the help rendered by Shri V.P. Pandey, the former Joint Registrar General, India in bringing out this volume. Shri N. Rama Rao, Assistant Registrar General, (C&T) has given the guidance and coordinated the work relating to tabulation of these data. He was ably assisted by Shri R.P. Tomar, Deputy Director of Census Operations. Shri Mahal Singh, Investigator and his colleagues in the Census Division, whose names are given separately, ably coordinated the in-flow and out-flow of language data among the Census Directorates, Language Division at Calcutta and Registrar Generals' Office in Delhi.

Dr. B.P. Mahapatra, Deputy Registrar General (Language) took immense pains in scrutinising the language data. He has also given a useful note on the language data presented here which is published in this volume. The names of his colleagues who assisted him in this task are given separately. Shri B.P. Jain, Assistant Director (printing) ensured printing of this volume quickly. I thank all these officers.

V.S. VERMA
Registrar General, India

Printing Division

1. Shri S. L. Chaturvedi, Printing Inspector

NOTE ON THE LANGUAGE DATA

In the 1981 Census a new question on the 'Language mainly spoken in the Household' was asked in the Household Schedule along with the two usual language questions on 'mother tongue' and 'other languages known' in the Individual Slip. This information adds not only a new dimension to the language profile of the country but a useful one, for it provides a dynamic aspect of the language behaviour as against the more or less stable picture thrown up by the mother tongue data. The institutional households which are linguistically heterogenous and may not have a uniform household language are excluded from these data. Out of the total number of households of 119,772,545 the number of institutional households is only 247, 457 with 3,790,700 population i.e. only 0.57 per cent of total population.

Question 5 on 'Language mainly spoken in the household' in the Household Schedule was canvassed in all the households other than institutional households throughout the country except in Assam state, where, the census was not taken in 1981 due to disturbed conditions prevailing in that state, then. The raw returns were rather unusually large. All these returns were scrutinized following usual linguistic methods including studying 'language specimens' and undertaking field investigations.

A total list of 106 languages excluding 'Others' is presented as languages mainly spoken in the household. Each of these has more than 10,000 speakers at the all-India level except Anal, Halam, Kacha Naga, Konda, Korwa, Lahnda, Malto, Mikir, Mishmi, Naga, Parji and Tangsa which are included in the table on the basis of their group strength.

The distribution of the 1981 household population by languages, grouped into Scheduled languages and languages other than Scheduled are shown below.

Distribution of 1981 household population by languages (inclusive of variants grouped under each)

TABLE I

Table HH-16 Part-A gives the distribution of the 15 languages specified in Schedule VIII to the Constitution. Speakers covered by these languages constitute 95.58 per cent of the total household population excluding institutional household population. The remaining 4.42 per cent is accounted for by the rest of the languages.

The following table gives the Scheduled languages for India in descending order of speakers strength with percentage to total household population.

Scheduled languages in descending order of speakers strength

TABLE II

Language	Number of Speakers	Percentage to total population (excluding Institutional population)
1	2	3
1 Hindi	264,188,858	(39.94)
2 Telugu	54,226,227	(8.20)
3 Bengali	51,503,085	(7.79)
4 Marathi	49,624,847	(7.50)
5 Tamil	44,730,389	(6.76)

10 Oriya	22,881,053	(3.46)
11 Punjabi	18,588,400	(2.81)
12 Kashmiri	3,174,684	(0.48)
13 Sindhi	1,946,278	(0.29)
14 Assamese*	70,525	(0.01)
15 Sanskrit	2,946	N

* No Census was taken in Assam.

The languages appearing in the Table III fall into four languages families or their branches, except two which are of foreign origin i.e. Arabic/Arbi and English. The four language families are : Indo-Aryan, Dravidian, Tibeto-Burmese and Austro-Asiatic. The table gives combined figures for these languages, grouped family-wise; the number of languages belonging to each family shown within brackets and percentage of speakers to total household population (foreign languages figures are excluded).

Family-wise Grouping of Languages

TABLE III

Language families	Number of languages with speaker totals	Percentage to total household population (excluding institutional population)
Indo-Aryan	491,086,116 (20)	(74.24)
Dravidian	157,836,723 (17)	(23.86)
Austro-Asiatic	7,705,011 (14)	(1.16)
Tibeto-Burmese	4,071,701 (53)	(0.62)

HH-16 LANGUAGE MAINLY SPOKEN IN THE HOUSEHOLD

Part A : Households and Household population by language mainly spoken in the Household (inclusive of variants grouped under each) specified in Schedule VIII to the Constitution of India.

Part B : Households and Household population by language mainly spoken in the Household (inclusive of variants where grouped) other than those specified in Schedule VIII to the Constitution of India.

FLY-LEAF

These tables present the languages mainly spoken in the household, on the basis of Household Schedule of the Census of India, 1981 except the population of Assam where census was not taken in 1981. All tables include houseless households but exclude Institutional households.

The question on household language at the 1981 census and instructions to enumerators were as follows :—

Question 5 : Language mainly spoken in the household.

Definition :— A household is a group of persons who commonly live together and would take their meals from a common kitchen unless the exigencies of work prevented any of them from doing so. There may be a household of persons related by blood or a household of unrelated persons or having a mix of both. Examples of unrelated households are boarding houses, messes, hostels, residential hotels, rescue homes, jails, ashrams etc. These are called 'Institutional Households'. There may be one-member households, two member households or multi-member households. For census purposes, each one of these types is regarded as a 'Household'.

Instructions to enumerators :— "You have to ascertain from the head of the household about the language which is mainly spoken in the household. You have to record the answer faithfully as returned. There may be cases where one or two persons of the household may be speaking other languages also, but the language to be recorded here is the one which is spoken mostly by the members of the household among themselves. The language spoken in the household should not be confused with the mother tongue of each individual member of the household. For institutional households put 'X' on the line. Do not enter anything in the dotted boxes against this question".

Table HH—16 Part A (i) has been presented showing the distribution of the languages mainly spoken in the household (inclusive of variants grouped under each) specified in Schedule VIII to the Constitution of India for the country as a whole and states/union territories. Figures have been presented for number of households, persons, males and females, cross-clasified by total, rural and urban areas. Table HH-16 Part A (ii) presents these data upto district level.

Table HH—16 Part B (i) presents the languages mainly spoken in the household (inclusive of variants where grouped) other than those specified in Schedule VIII to the Constitution of India, for the country as a whole, states/union territories. The data are given for number of households, persons, males and females cross-classified by total, rural and urban areas. Table HH-16 Part B (ii) presents these data upto district level.

In both parts A and B, variants have been grouped in some cases under the relevant languages. This has been done on the basis of linguistic information readily available or in the light of studies already made. Those identifiable variants which returned 10,000 or more speakers each at all-India level and have been grouped under parts A and B languages are shown below.

PART-A

BENGALI	Chakma; Haijong//Hajong; Rajbangsi
GUJARATI	Gujarao/Gujarau, Saurashtra
HINDI	Awadhi; Bagheli/Baghelkhandi; Bagri-Rajasthani; Banjari; Bhadrawahi; Bharmauri/Gaddi; Bhojpuri; Braj Bhasha; Bundeli/Bundelkhandi; Chambeali; Chhattisgarhi; Churahi; Dhundhari; Garhwali; Gojri; Harauti; Haryanvi; Jaunsari; Kangri; Khariboli; Khortha/Khotta; Kulvi; Kumauni; Kurmali Thar; Labani; Lamani/Lambadi; Laria; Lodhi; Magadhi/Magahi; Maithili; Malvi; Mandeali; Marwari; Mewari; Mewati; Nagpuria; Nimadi; Padari; Pahari; Panchpargania; Pangwali; Pawari/Powari; Rajasthani; Sadan/Sadri; Sondwari; Sugali; Surgujia; Surjapuri

Note (i) This table includes houseless households but excludes institutional households.

(ii) This table excludes Assam State as no census was taken there due to disturbed conditions prevailing at the time of census.

(iii) This table excludes population of areas of Jammu & Kashmir, under unlawful occupation of Pakistan and China, where census could not be taken.

Note (i) This table includes houseless households but excludes institutional households.

(ii) This table excludes Assam State as no census was taken there due to disturbed conditions prevailing at the time of census.

(iii) This table excludes population of areas of Jammu & Kashmir, under unlawful occupation of Pakistan and China, where census could not be taken.

(iv) Pending a decision on nomenclature, figures in regard to those who returned Bishnupuriya/Bishnupriya-Manipuri as their language have not been included.
