NAVLAKHA PALACE

The Navlakha palace complex (17th century), is one of the oldest and most beautiful of Gondal palaces. Navlakha palace complex is situated on a river bank on a grand masonry base, rising to the monumental scale of at least 30 meter above the river bed. The palace is approached by the high gateway with the clock tower from the town side. The entrance reads to a huge open space with administrative blocks on the right and a grand staircase with balustrade on the extreme left corner leading to the intricately carved pavilions on the open terrace. The grand Darbar Hall, with a series of huge windows opening onto a long balcony supported by intricately carved brackets, overlooks the river. Darbar Hall has large chandeliers, stuffed panthers, gilt wooden furniture and antique Belgian mirrors. The private palace museum displays artifacts, gifts and messages received by Sir Bhagwatsinhji, on his 50th birthday.

Foreword

TheDistrict Census Handbook (DCHB) published by Census Organisation since 1951 census, is one of the important publications in the context of planning and development at gross-root level. The publication, which is brought out for each district, contains several demographic and socio-economic characteristics village-wise and town-wise of the district alongwith the status of availability f civic amenities, infrastructural facilities, etc.

2. The scope of the DCHB was initially confined to a few Census Tables and Primary Census Abstract (PCA) of each village and town within the district. Thereafter, at successive censuses, its scope and coverage has been enlarged. The DCHB published at the 1961 census provided a descriptive account of the district, administrative statistics, census tables and a village and town directory including PCA. The 1971 census-DCHB series was in three parts: Part-A related to village and town directory, Part-B to village and town PCA and Part-C comprised analytical report, administrative statistics, district census tables and certain analytical tables based on PCA and amenity data in respect of villages. The 1981 census DCHB was in two parts: Part-A contained village and town directory and Part-B the PCA of village and town including the SCs and STs PCA up to tahsil/ town levels. New features alongwith restructuring of the formats of village and town directory were added into it. In Village Directory, all amenities except electricity were brought together and if any amenity was not available in the referent village, the distance in broad ranges from the nearest place having such an amenity, was given. Information on new items such as adult literacy centres, primary health sub-centres and community health workers in the village were provided so as to meet the requirements of some of the Revised Minimum Needs Programme. Information on approach to the village was provided for the first time in the Village Directory so as to give the details on number of inaccessible villages in each district. In the Town Directory, a statement (IV-A) on slums was introduced to provide the details on civic and other amenities in the notified slums of Class I and Class II towns.

3. The 1991 census of DCHB, by and large, followed the pattern of presentation of 1981 census, except the format of PCA was restructured. Nine-fold industrial classification of main workers was given against the four-fold industrial classification presented in the 1981 census. In addition, sex-wise population in 0-6 age group was included in the PCA for the first time with a view to enable the data users to compile more realistic literacy rate as all children below 7 years of age had been treated as illiterate at the time of 1991 census. One of the important innovations in the 1991 census was the Community Development Block (CD block) level presentation of village directory and PCA data instead of the traditional tahsil/taluk/PS level presentation. It was expected that the presentation of village directory and PCA data at CD block level will help the planners in formulation of micro level development plans, CD block being lowest administrative unit.

4. The present series of 2001 census DCHBs have been made more informative and exhaustive in terms of coverage and content. The Village Directory has been enlarged in scope by including a number of other facilities like banking, recreational and cultural facilities, newspapers and magazines and 'most important commodity' manufactured in village. Income and expenditure of gram panchayat, wherever possible, has been provided. Apart from these, more details on distance(s) at which basic amenities are available (if not available in the village), are given. This includes educational facilities (namely primary and middle schools and college), medical facilities (viz. Allopathic Hospital, Maternity & Child Welfare Centre and Primary Health Centre), drinking water, post & telegraph (post office and phone), communication, bank, credit societies and recreational facilities. In Town Directory, the statement on Slums has been modified and its coverage enlarged by including details on all slums in instead of 'notified slums'. The information is given in case of all statutory towns irrespective

of their class, against only Class I and Class II towns in the 1981 and 1991 Censuses. The basic amenities available in the villages and towns are analysed in depth with the help of a number of cross-classified inset tables and statements. Two other significant additions in the publication are inclusion of 'motif highlighting significant characteristic of the district and analytical notes as annexures. The analytical notes on (i) fertility and mortality and (ii) various measures of fertility and mean age at marriage are prepared based on 1991 Census. Whereas, in the notes relating to (i) percentage distribution of migrants by place of birth/place of last residence, (ii) main religions, (iii) marital status of population, (iv) age, sex and education, and (v) distribution of spectrum of mother tongue, nature and extent of changes occurred in the district in its basic socio-demographic features during the decade 1991-2001 are analysed. The eight digits permanent location code (PLCN) to all the villages and towns have been assigned keeping in view the future needs.

5. The village and town level amenity data have been collected, compiled and computerised in prescribed record structure under the supervision of **Shri Jayant Parimal**, Director of Census Operations, Gujarat. Thereafter, efforts have been made to ensure comparability of the information with that of 1991 census data and the information brought out by the respective state governments in their annual reports and statistical handbooks for various years after 1991. The task of planning, designing and coordination of this publication was carried out by Shri R.G. Mitra, Deputy Registrar General (C&T) and Dr. I.C. Agrawal, Senior Research Officer of Social Studies Division. Dr. R.P. Singh, Deputy Registrar General (Map) provided the technical guidance in the preparation of maps. Whereas, Shri Anil Kumar Arora, Deputy Director of Data Processing Division who worked under the overall supervision of Shri Himakar, Addl. Director(EDP) helped in preparation of record structure for computerisation of village and town directory data and the programme for the generation of Village Directory and Town Directory statements including analytical inset tables. The draft DCHB manuscripts received from the Census Directorates have been scrutinised in the Social Studies Division under the guidance of Shri S.L. Jain, Deputy Director and Shri R.K. Mehta, Assistant Director. I am thankful to all of them and others who have contributed to make this publication possible.

D. K. Sikri,
Registrar General &
Census Commissioner, India

New Delhi
Dated : 17-10-2006.

Preface

Census is being conducted in the country every ten years as per the programme laid down by the Government of India. In this day and age of information technology, an individual has access to a variety of information covering a Kaleidoscope of interest and fields. Availability of relevant information is very vital for planners, policy makers and researchers.

The Five Year Plans have come to stay in the country and whatever development is achieved as a result of implementation of planning from the bottom level such as development of infrastructure facilities as well as basic amenities, etc. is reflected in the District Census Handbooks and they give to the readers a searching eye whether the development over the years in villages/talukas/districts is lopsided or upto the mark. This is the basic requirement of this type publications and an attempt has been made to show whether the census handbooks reasonably fulfill these aspirations/requirements.

These district Handbooks are thus useful to planners in planning from bottom as well as to administrators, researchers, educational institutions including universities and other socio-economic research centres as well as students conducting research in demography, social and economic studies as well as to the local bodies like Panchayats, Municipalities and Municipal Corporation etc.

District Census Handbook of Gujarat is a joint venture of the Government of Gujarat and the census organization of the Government of India. In the preparation of the DCHB, the role played by the census organisation is that of Census data collection, scanning of collected information, analysis of PCA. DCHB Unit of the State Government collected the basic non-census iniformation on availability of amenities relating to infrastructure in the villages of the district presented in the part A of this book. The cost of this publication is borned by the State Government. In accomplishing this task we had the ready and whole hearted co-operation of the staff at various levels of different department of the State Government. Most of the data supplied by the various departments have been cross-checked and an attempt has been made to reconcile the discrepancies as well.

I express my deep gratitude to the officers of Gujarat Government particularly Shri PK.Laheri, Chief Secretary of Gujarat State, Smt. Netraben Shenoy, Additional Chief Secretary of General Administration Department (Planning), Shri George Joseph, Principal Secretary, General Administration Department (Personnel), Shri K.R.Vasava, Deputy Secretary, Kum.P.S. Mevada, Under Secretary and Shri P.D.Kulkarni, Section Officer of General Administration Department, Planning, Shri S.D.Mehta,Deputy Secretary and Shri I.M.Sheikh, Under Secretary, Shri Bipin Patel, Section Officer and Shri P.N.Christian, Deputy Section Officer of G.A.D. (Kh-3) for their valuable help and co-operation in fulfilling all administrative requirement in time for bringing out this publication. I am also thankful to Shri P.M. Patel, Director, Economics and Statistics helped this organisation not only by placing the competent personnel on disposal of census services on deputation but also provided valuable official statistics for this publication.

The District Collector, the District Development Officer, District Statistical Officer, District Information Officer and their staff members extended their warm and whole hearted co-operation for carrying out field work of the census and collection of non-census data for this District Census Handbook.

I am deeply grateful to Shri J.K. Banthia, I.A.S., the Ex-Registrar General and Census Commissioner, India for the benefit I have derived by the way of guidance and advice. I also express my thanks to Shri R.G. Mitra, Deputy Registrar General(C&T) Shri C. Chakravorty, Joint Director, Shri I.C. Agrawal,Senior

Research Officer(SS), Shri S.L. Jain, Deputy Director(SS), Shri R.K. Mehta, Assistant Director(SS), Shri R.P. Singh, Dy. Registrar General(Map), Shri Himakar, Addl. Director (EDP) and Shri Anil Kumar Arora, Deputy Director (EDP) for providing technical guidance in finalising this publication.I am extremely thankful to Shri D. K. Sikri, IAS, Registar General & Census Commissioner, India for his valuabe guidance in finalizing of this publication.

Shri Jayant Parimal, I.A.S. who held the office of Director of Census Operations, Gujarat, had guided the operations of the 2001 Census. The data presented in this handbook were collected and compiled under the able direction and guidance of Shri Parimal.Our sincere and grateful thanks for all the projects of census to him.

In state office Smt. B.B. Chauhan, Deputy Director, District Census Handbook Unit, Kum.S.B.Dabhi, Assistant Director, Shri S.B. Dalvi, Deputy Section Officer of District Census Handbook Unit, and their team of able assistants meticulously collected and scrutinized the non-census data from various sources and prepared draft of DCHB etc. with the help of Census section. The other officials of D.C.H.B. Unit, who scrutinised, edited and supervised the work of D.C.H.B. have been mentioned in the "Acknowledgement". The maps provided in the D.C.H.B. are prepared by the Map Section of the Census Directorate under the supervison of Shri J.P. Purohit, R.O(Map). I am thankful to all of them.I am thankful to the census section of the Directorate for scrutinizing the PCA data, specially Shri J.N.Pithadia, Investigator Grade-I and Kum.N.V.Shah, Investigator Grade-III who provided assistance to me in finalizing P.C.A. data at every stage. Smt. J.R.Sanghani, Investigator Grade-III of this Directorate assisted me for final scrutiny of D.C.H.B., I am thankful to her.

Lastly, I am thankful to the Government of Gujarat for having agreed readily to bear the cost of publication of the District Census Handbook volumes and for the special efforts of Shri R.B. Raval, Director, Printing and Stationary and his colleagues to print out the publcation in a very nice fashion.

Note *These figures represent 'Geographical area' figures supplied by the Surveyor General. Figures for urban area are those supplied by the local Bodies. Area figures for rural are derived by subtracting the urban area from the total area of the District. The total of the area figures of talukas will not tally with the district figures because the former represents 'Land Use Area' and are derived from the figures supplied by the Director of Land Records.

STATEMENT - 4 (Contd.)

ANALYTICAL NOTE

ANALYTICAL NOTE

(i) History and Scope of the District Census Handbook :

Before the 1951 Census, the Census figures were published in a booklet known as 'Village Hand-book', which contained only village wise population figures. These books were prepared and published by the Directorate of Census Operations of the State.

The Directorates introduced the District Census Handbook for the first time in 1951 Census. It comprised the village wise primary census abstract figures and information on available amenities. It also contained several tables relating to the district. It varied in content and size from State to State depending upon the resources offered by the respective State Governments.

In 1961 Census, an uniform pattern of District Census Handbook was adopted throughout the country. The Directorate of Census and the State Government jointly executed the project. In addition to the English version, it was published for the first time in Gujarati language also. The District Census Handbook 1961 was published in three parts. Part I elated to Introductory Note i.e. general and economic information for the district and a brief gazetteer of place names. Part II pertained to census tables, village wise list of industrial establishments, tables on handicrafts and departmental statistics. Part III consisted of village directory covering the amenities and primary census abstract data combined in one statement. It also covered district and taluka maps.

It is worthwhile here to note that the State Government has created a separate unit for preparing and publishing the District Census Handbook since 1971 Census onwards. In the 1971 Census, the contents of District Census Handbook were modified. In the preceding censuses the data on amenities and primary census abstract were covered in one statement whereas in 1971 Census, the data on amenities and primary census abstract were separated into two different parts.Thus, the coverage of amenities data was extended and the land use data were introduced for the first time since 1971 District Census Handbook. Moreover, a separate portion known as 'Town Directory' was also incorporated for the first time in the District Census Handbook. The 1971 District Census Handbooks were published in three parts. Part A contained the village and town directory. Part B contained village and townwise primary census abstract data and Part C contained official statistics, besides full count census tables, urban census tables and analytical report on census and related statistics socio-economic and cultural tables (Rural areas) and housing tables. Part A and Part B were combined and published in one volume.

The District Census Handbook –1981 was brought out in two parts, Part-A and Part-B. Part-A contained the village and town directory whereas Part-B included the primary census abstract data for both General population and Scheduled Castes/Scheduled Tribes. Both parts were published in one volume. Part C brought out for 1971 Census was dropped in 1981 Census. However, official statistics and some portion of analytical notes of part C of 1971 Census were also included in the 1981 District Census Handbook also.For the 1991 Census, the District Census Handbooks were prepared more or less on the same lines of the preceding Census of 1981. In 2001, the scope of both Part A and Part B has been enlarged by giving several additional information due to large scale computerization.

The District Census Handbook has been prepared after scanning and processing of data collected through House list Schedule and Household Schedule. Several innovations have been introduced mostly at all the stages of the Census of India, 2001, right from the preparatory efforts of data processing to data dissemination of stage. This includes certain fundamental changes in the form and contents of the House list and Household schedules, while maintaining the continuity and comparability of the basic housing and population characteristics with the earlier census. For the Census of India 2001, a system of Permanent Location Code Number (PLCN) has been adopted by assigning a population number to each village within the State/UT a continuous series from I to N. Each village has been assigned an eight-digit code. The last two digits being '00' are kept for accommodating future changes in case of split of an existing village or creation of new villages etc. Since the permanent Location Codes have been assigned to each village, theoretically tracing the precise location of village on account of future

jurisdictional changes in the boundaries of various administrative areas within the state should not pose a problem. It is imperative that under this scheme, the PLCN assigned to villages at the Census of India, 2001 are adopted in future censuses also to ensure the comparability of the data at the village and other administrative levels over a long time series. At the 2001 census age at marriage was collected for males also, while it was collected for only ever-married females until the 1991 Census, the type of educational institution attended by a person was enlarged to include school, college, vocational institute. The scope of the definition of 'work' was expanded in the Census of India, 2001, this includes production of milk for domestic consumption. In the 1991 Census, cultivator of certain crops even for self-consumption was treated as economic activity. The scope of the term 'Cultivation' was expanded in this Census to include certain other crops such as tobacco, fruits, all types of flowers, roots and tubers, potatoes, chilies and turmeric, pepper, cardamom, all types of vegetables and fodder crops etc. This meant that activities related to production of all the above-mentioned crops for domestic consumption has been treated as work. Only five crops viz. tea, coffee, rubber, coconut and betel nuts have been classified under 'Plantation' in the Census of India 2001.

- At the 1991 Census, the question on seeking/ available for work was canvassed for only non-workers. At the Census of India 2001, this question is asked from the Marginal Workers also. A question to elicit information on secondary work canvassed at the 1991 Census was dropped.

- From among the categories of non-workers adopted at the 1991 Census, the category 'Inmates of institutions' has been dropped and 'Retired Persons and Rentiers' has been replaced by the category 'Pensioners'.

- A new response category 'Moved after birth' was included in the question on reason for migration to bring out additional migration patterns. Natural calamities or distress migration as a reason for migration for last residence migrants included in the 1991 Census is covered under category of 'Other'.

- Number of children born alive to currently married women during last one year was collected for male and female children separately.

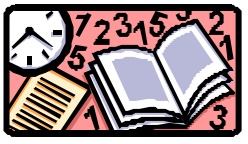

Besides the above modifications, the following new questions were canvassed at the 2001 Census.

- A question on total disability was canvassed in the 1981 Census but in 1991 Census there was no provision for question on disability. At the present Census of 2001, a question to elicit information on total or partial disability was canvassed. The five types of disabilities on which information was collected are - in seeing, in hearing, in speech, in movement and for mentally disorder ness.

- A new question on 'Travel to place of work' is canvassed mainly for workers engaged in non-agricultural activities. Information on distance from the residence to place of work and mode of travel to place of work was collected under this question.

The mode of presentation of DCHB in 2001 will by and large be same as that of 1991. The uniqueness of Census 2001 is that single record (Household Schedule) has been processed as against two records viz. Individual Slip and Household Schedule in the previous Censuses. Apart from this some deviation has been made this time by incorporating analytical notes on migration, fertility & mortality, education, marital status, age structure etc. pertaining to 1991 Census of the respective district in the DCHB in the form of Annexure II to VIII. Similarly Tables based on Houselist data pertaining to Census 2001 has also been included in DCHB.

(ii) Brief History of the District

After the death of Emperor Aurangzeb in 1707 A.D. the Mogul hold on Gujarat and Saurashtra Peninsula was slackening. The Viceroys of Gujarat were more preoccupied with the main land thanthe Peninsula. During the resultant chaos, the

Thanadars became more powerful and independent Kathis occupied Jasdan and Jetpur and the states of Gondal, Virpur, Jetpur, Rajkot, Wankaner, Morvi, Maliya and Kotda Sangani came into existence.

Before 1947 during the days of British rule, the small peninsula lying in the north-west corner of Gujarat and abutting into the Arabian Sea presented a bewildering conglomeration of large and small states and petty principalities and 'giras'. They enjoyed varying degrees of power and autonomy in respect of internal governance and in respect of status, honours and privileges conferred by the imperial masters. The bigger states had more or less unrestricted authority within the limit of their territorial jurisdiction. Thereafter, followed a descending gradation in respect both of power and of status, those standing at the bottom being no more than insignificant relics of a past that had vanished. All the states and principalities were of course under the unquestioned suzerainty of the paramount power which, if the occasion arose, could and did effectively interfere even in their internal administration.

On the eve of the establishment of the united states of Saurashtra in 1948, there were as many as 222 big and small states, principalities and estates in a total geographical 20,681 Sq.miles covered by the Saurashtra peninsula. It was a picture of political fragmentation, which can have few parallels in history. In an independent India such fragmentation evidently had no relevance. In fact, its continuance would have been extremely dangerous and suicidal to national integrity. Yet, the task of welding together, by peaceful persuasion, into one homogeneous unit a baffling multiplicity of strongly entrenched vested interests with many resources at their command and not an inconsiderable degree of parochialism was extremely formidable and forbidding. Fortunately, thanks to the farsighted statesmanship and great personal prestige of Sardar Vallabhbhai Patel and to the admirable spirit of patriotism and understanding displayed by the leading rulers, integration by merger became and accomplished fact in the short span of not more a year. It was nothing less than a great revolution silent and unobtrusive but none the less momentous on that account contributing to the shaping of free India's destiny.

With the formation of the united states of Saurashtra in 1948, various states and principalities which were integrated into the new state and redistributed into five administrative districts of which Madhya Saurashtra now Rajkiot comprised the area of the former princely states of Gondal, Jetpur, Wankaner, Rajkot, Maliya, Kotda Sangani and other continuous talukas and principalities. Atkot, Paddhari and Jamkandorna Mahals of the former Navanagar State were subsequently added to it while three enclave villages were transferred to Amreli district of the Bombay State.

A bigger bilingual Bombay State comprising all Gujarati speaking area and all Marathi speaking areas was formed in 1956 and Saurashtra became a component of that State. Four years later, in 1960 the bilingual Bombay State was bifurcated by parliamentary enactment and two separate unilingual States of Gujarat and Maharashtra came into existence. Saurashtra naturally continues to be an integral part of Gujarat State.

The city of Rajkot, which is the district head quarter has because of its central location also because of its being the center of the political power and influence, maintained its importance over the past 100 years. As the capital of Rajkot State and Seat of the Crown representative during the British regime, as the capital of the established Saurashtra State from 1948 to 1956 and as the Headquarters of the Divisional Commissioner and Divisional Superintendent (Railway) thereafter, the city has continuously maintained its importance and has considerably grown in size over these years.

(iii) Administrative Set-up :

With a view to run the administration of the State smoothly, it has been divided into Districts, which in turn have been further sub-divided into Talukas (Tahsils) in the State of Gujarat, the community development blocks are co-terminus with the Talukas. The Talukas contain large number of villages and possibly several towns. The villages have Village Panchayats to run the local administration. A Village Panchayat may constitute of one revenue village, several revenue villages or a part of a large village. Similarly, the towns have Municipality or Municipal Corporation as the seat of local self-government.

In the State of Gujarat, as on December 1999 there were 25 districts and 226* Talukas, against 19 districts and 184 Talukas in 1991 Census. There were 13 Talukas in Rajkot district in 1991 census. One taluka Tankara was formed from Morvi, Wankaner and Paddhari talukas of Rajkot district by notification no: GHM-97-111-M-PFR-1497-2584-L dated 15/10/1997.

The District Collector looks after the general administration, maintenance of collection of land revenue and settlement of law related disputes, civil supplies, district planning, mid-day meal scheme, etc at the district level. The functions of administration of law and order and control and investigation of crime are done by the Superintendent of Police of the district with the help of Police Stations working under him. For the purpose of maintaining law and order there are 38 police stations, 30 police chokies and 28 out-post as per statement below.

POLICE STATION FOR THE DISTRICT

Sl. No.	Particulars		1997	1998	1999
1	2	3	4	5	6
1	Police Station	Rural	22	22	24
		City	6	6	14
2	Police Chowky	Rural	23	24	27
		City	14	14	3
3	Out Post	Rural	25	27	22
		City	0	3	6

Source : Director General of Police, Gandhinagar, 2000

The above statement shows that there were 22 police Station in 1997 and 1998in rural areas and which was increased to 24 in 1999.As regards urban areas, there were 6 police stations in 1997 and 1998 which increased to 14 in 1999. There were 23, 24 and 27 police chowkies in rural areas in the years of 1997, 1998 and 1999 respectively. In urban areas the number of police chowky was reduced to 3 in 1999 which was 14 in 1997 and 1998. There were 25, 27 and 22 police out post in 1997, 1998 and 1999 respectively. There was no out post in 1997 in city areas which was increased to 3 in 1998 and to 6 in 1999.

The Panchayati Raj institutions are fairly strong and most of the developmental works have been transferred to the District Panchayat and its sub-ordinate bodies. The District Panchayat has an elected President and District Development Officer appointed by the Government is its Secretary, who looks after day-to-day work related to the developments. Similarly, at the Taluka level, Taluka Panchayat have been constituted which have an elected President. The Taluka Development Officer, placed by the Government is the Secretary of the Taluka Panchayat and conducts the regular administrative work. Like wise, an elected President heads the Municipality and the Chief Officer works as the Secretary of the Municipality, who looks after the day-to-day work. In case of the large cities, the State Govt. has constituted Municipal Corporations, which are headed by an elected Mayor, and the Municipal Commissioner, appointed by the Government, looks after the routine work. At the Village level, the Sarpanch is the elected Chief and the Talati (Village Accountant) works as the Secretary to the Village Panchayat and looks after the day-to-day work. In view of the expanding role of the public administration in a developed state like Gujarat, the Government has taken-up multiple activities and has set up several Departments as under:

(1) Education Department (Primary as well as Secondary)
(2) Agricultural and Research
(3) Animal Husbandry Department,
(4) Forest Department,
(5) Roads & Buildings, Bridges
(6) Co-operation Department,
(7) Industries Department,
(8) Health & Family Welfare Department,
(9) Information Department,
(10) Irrigation Department,
(11) Social Welfare Department, etc

The functions of above departments are managed by concerned department and in some cases also by District and Taluka Panchayats.

The task of primary education for rural areas has been entrusted to District Panchayat and functions related to Government primary education assigned to District Development Office are controlled by the

Note : Vagdod taluka merged in Patan taluka of the Patan district on 3rd July 2001

District Primary Education Officer. The secondary education is looked after by District Education Officer of Education Department. Primary educations as well as higher secondary education of all types of institutions are governed by District Education Officer.

The activities of the Agriculture Department have been delegated to District Panchayat to a large extent and District Agriculture Officer is in charge of routine working. Similarly Animal Husbandry is also a Panchayat activity and routine work is controlled by the Deputy Director (Animal Husbandry) who sits in District Panchayat. Besides District Agricultural Officer of Panchayat Offices such as Deputy Director, (Agriculture) and post of other officials are looking after various aspects of agriculture for developing the sector as well as to extend necessary assistance to farmer at District level.

Besides Director, Animal Husbandry Office of Panchayat sector such as Deputy Director (Animal Husbandry) Special officers at Veterinary Offices. of State Government Animal Husbandry Department are also monitoring activities of the sector at district level.

As regards health, the work relating to the rural health is assigned to the District Panchayat and Chief District Health Officer is in charge of the routine affairs. Chief District Health Officer supervises and controls administrative work at various Primary Health Centres of the district. Large referral hospitals and Civil Hospitals are opened at Taluka Headquarters and District Headquarters respectively and their routine management is looked after by Civil Surgeon-cum-Chief District Medical Officer. At district level offices of Health Department such as Director of Health and Education, Director of Family Welfare, Medical Officer, Officer of T.B. etc. are working for health and family welfare of the district.

The rural roads have been transferred to the District Panchayats and their maintenance is done by the Executive Engineer of Roads and Buildings Department. The Roads and Buildings Department of State Government looks after the maintenance of roads, building, bridges and government multi-storey buildings etc. Besides Panchayat Officials major district roads and the State Highways are looked after by the Executive Engineer called Executive Engineer, Roads & Buildings (state).

The large multi-purpose irrigation projects are controlled by State Government directly through its Executive Engineer. Minor irrigation works are transferred to the District Panchayat. Executive Engineer (Panchayat) looks after daily work regarding irrigation.

Most of the activities in the Social Welfare Department have been transferred to Panchayats where routine work is looked after by Social Welfare Officer. In addition to the above District Rural Development Agencies (DRDAs) are set up in each district with Panchayat's District Development Officer as its Chairman and Director of DRDA as its Member Secretary for Rural Development Programmes and in every district there is District Registrar of Co-operation who looks after various function in Co-operative sector.

At District level officials such as Director, Backward Class Welfare Office, Social Welfare Officer etc. are working for upliftment of backward class population.

In each District Panchayat, District Statistical Officer of Directorate of Economics and Statistics looks after co-ordination of different development programmers. He is also Member Secretary of District Planning Board. Similarly in every Collector Office District Planning Officer looks after development work of various Governments (State & Centre) a sponsored programmes.

Co-operation department is headed by Registrars of Co-operative Societies (Rural/Urban). In district every Panchayat Assistant District Registrar (Co-operatives) is looking after co-operative sector for development of co-operative sector.

With a view to develop industries in district, a District Industries Centre has been set-up in all the districts and is headed by a General Manager.

During the reorganization of the districts in Gujarat State, Rajkot district has no change in its territorry. Area which formed this district in 2001 Census, Rajkot district has 14 talukas, 10 towns and 846 inhabited villages. Out of these there are 628 Grampanchyats and 28 group-grampanchyats in this district. Wankaner taluka has 11 group-grampanchayats which are the highest in the district. The talukawise break up of total towns and villages,

new added towns and declassified towns for the district is shown at following:

TALUKAWISE NUMBER OF TOWNS AND VILLAGES

Sl. No.	Name of Taluka	No. of Towns	No of Villages	
			Total	Inhabited
1	2	3	4	5
1	Maliya	-	47	47
2	Morvi	1	76	76
3	Tankara	-	47	47
4	Wankaner	1	100	100
5	Paddhari	1	57	57
6	Rajkot	1	85	84
7	Lodhika	-	38	38
8	Kotda Sangani	-	41	41
9	Jasdan	1	101	101
10	Gondal	1	81	80
11	Jamkandorna	-	47	47
12	Upleta	2	49	49
13	Dhoraji	1	30	30
14	Jetpur	1	47	47
	Total :	**10**	**846**	**844**

The civic status of the 10 towns is as under:

Gram Panchayat*	:	1
Municipal	:	8
Municipal Corporation	:	1
Total	**:**	**10**

* Although Paddhari is declared Census town the status of civic body is still of Gram Panchayat.

(iv) Physical Features:

Rajkot district is situated in the central part of the Saurashtra peninsula. It lies between the parallels of latitude $21^{0}31'$ and $23^{0}10'$ and the meridians of longitude $70^{0}1'$ and $71^{0}30'$. The length from north to south of this territory is about 182.3 km. and from east to west about 153.3 km. It is bounded on the north by the Gulf of Kachchh and the Little Rann of Kachchh, on the north-east by Surendranagar district, on the east by Bhavnagar district, on the south-east by Amreli district, on the west by Jamnagar district, on the south and south-west by Junagadh district. The area of Rajkot district is 11,203 Sq.Km. and it is 3 rd largest districts in area in the State.

Physiography :

Rajkot district is a part of Kathiawar Peninsula and is sub-divided into five sub-micro regions, namely, Maliya Coastal Plain, Rajkot Alluvial Plain, Rajkot Stony-Waste Land, Bhadar River Plain and Vinchhiya Upland on the basis of topography, climate, geology, soils and natural vegetation.

Maliya Coastal Plain :

The region forms the northern most part of the district and covers the talukas of Maliya and Morvi. It is surrounded by Gulf of Kachchh from north, by Surendranagar district from east, by Rajkot Alluvial Plain from south and Jamnagar district from west. The region has a coast line of 32 km. It is a long mud covered flat land with mangrove swamps and abounds in reefs, rocks and small islands. Also the Rann stretches about 20 km.from Vavaniya to Venasar. This Rann in rainy season becomes a shallow lake and in dray season it is bare of vegetation and is studded with salt and sand. The region is drained by Machchhu river. The geological structure of the region pertains to Alluvium, blown sand, etc.

Rajkot Alluvial Plain :

The region extends over Paddhari taluka, parts of Lodhika, Rajkot, Wankaner and major part of Morvi

taluka. It makes its limits with Maliya Coastal Plain in the north, Surendranagar district in the north-east, Rajkot Stony Waste Land in the south and east and Jamnagar district in the west. As regards the relief, the region has an average elevation of 100 metres above M.S.L. The general slope of the region is towards north. It is drained by Machchhu river and its tributaries. The geology of the region is mainly composed of Deccan Trap and Trap dykes. Some tracts of Alluvium, blown sand, etc., and Umia Series are also seen in the region.

Rajkot Stony Waste Land:

The region extends over the parts of Wankaner, Morvi, Rajkot, Kotda Sangani, Gondal and Lodhika talukas. It makes its boundaries with Rajkot Alluvial Plain in the north and north-west, Bhadar River Plain in the south and Vinchhiya Upland in the east. The region is characterized by scattered hillocks. The elevation of the region varies between 100 metres and 200 metres above M.S.L. The slope of the region is towards north. The region is drained by the tributaries of Demi, Aji and Dondi rivers. The geology of the region pertains to Deccan Trap and Trap dykes formations.

Bhadar River Plain:

The region spreads over the southern and south-western parts of the district, occupying Upleta, Dhoraji, Jamkandorna, Jetpur talukas and parts of Gondal, Lodhika, Kotada Sangani and Jasdan talukas. It is enclosed by Rajkot Stony Waste Land and Vinchhiya Upland from north, by Amreli district from east, by Junagadh district from south and by Jamnagar district from west. The Plain is formed by Bhadar river and its tributaries. The eastern part of the region is above 200 metres while the western part has an altitude of 100 metres above M.S.L. The general slope of the region is towards south-west. The geological structure of the region is composed of Deccan Trap and Trap dykes. The region is one of the most fertile in the district.

Vinchhiya Upland:

The region extends over the south-eastern part of the district, occupying parts of Wankaner, Rajkot and Jasdan talukas. It makes its limits with Rajkot Alluvial Plain in the north, Surendranagar district in the east, Bhavnagar district in the south-east, Bhadar River Plain in the south and Rajkot Stony Land in the west. The region is characterized by hills and hillocks. Prominent ranges in the region are Mandar and Thanga hills. The general slope of the region is towards north. The elevation of the region varies between 100 metres and 250 metres above M.S.L. The geology of the region consists mainly of Deccan Trap and Trap dykes formationos. Umia Series are also observed in the region. The brown and yellowish soils of the region are not suitable for cultivation.

Hills :

Rajkot district has two principal ranges of hills known as Mandar and Thanga hills. The range of Thanga hills commencing from Jasdan form the plateau of over 1,000 above sea level near the town of Anandpur and Bhadla, throwing off branches to the right and left. The right branch range called Mandar range which passes into Surendranagar district. The left range called Thanga again narrows into a succession of hills towards Kotda Sangani and Osharm near Upleta and Alech hills near Dhank in northern plains near Morvi. Another branch of range (left) towards the west gradually develops into a succession of short rocking ranges. These hills slope towards the north. They are nowhere higher than about 600 feet. They follow in detached groups and run from Sardhar to Kotharia.

The unique feature of the region is the presence of trap dykes intersecting at right angles forming low narrow ridges. This is the most curious and important landscape in the region. At Sardhar, there is a remarkable dyke. It is a long narrow ridge varying from forty to a hundred feet in height and from eight to twelve feet in breadth. This ridge is known as Sardharidhar. It is the famous watershed of the district.

Drainage :

There are three major rivers in this distrct, namely Bhadar. Machchhu and Aji. Among them Bhadar is the largest. It rises from the springs in the range of Mandar hills seven miles to the north of Jasdan. It has a course

of 128 Km., in Rajkot district. It leaves Rajkot district at Gondal and enters Junagadh district. A dam on Bhadar is constructed near Nilakha in Gondal taluka, which irrigates rich soils.

Machhu is another important river of Rajkot district which has a span of around 70 miles. It flows in almost entire district. About 6 miles away from Wankaner taluka, on this river a strong dam is constructed. Except in rainy season, this river is dry in other seasons. Machchhu meets ultimately to Gulf of Kachchh. Before flowing into Rann, the river divides into several streams. Its water becomes brackish about 10 miles from its mouth and the stream passes through salt wastes till loses itself into salt, sand and mud of Gulf of Kachchh. It is a unique landscape.

Aji river of Rajkot district is similar in character to Machhu. It rises from a hill one mile north of Sardhar in the northern series of Thanga hills. It flows past Tramba and Thorala and passing through undulating land scattered with low hills for 20 miles from its source reaches Rajkot. There is a strong dam near Thorala on the river Aji. After a course of about sixty miles it falls into the Gulf of Kachchh near Balmbha.

Rann:

In Rajkot district, Rann stretches about twelve miles from Vavania to Venasar. This Rann is a flat desert which in rainy season becomes a shallow lake and in dry season it is bare of vegetation and is studded with salt and sand. There is a road of 23 miles across this Rann from Maliya to Wanthar in Kachchh. Maliya route to Kachchh is the shortest of all the routes from Saurashtra to Kachchh. There is a broadgauge railway line and a national highway passing through this route Kachchh and Saurashtra are connected by a one mile long bridge from Maliya in Saurashtra to Surajbari in Kachchh in this shallow part of the Rann.

Climate :

The climate of this district is characterised by a hot summer and dryness in the non-rainy seasons. The year may be divided into four seasons. The cold season from December to February is followed by the hot season from March to May. The south-west monsoon season is from June to September and October and November form the post- monsoon season.

a) Temperature :

Rajkot has its own meteorological observatory in the district. The records of this observatory may be taken as representative of the meteorological conditions prevailing in the district as a whole. The period from March to May is one of continuous rise in temperature. May is being the hottest month with the mean daily maximum temperature is about of 43.6^0C. The highest temperature in May was about 44.1^0C in the year 1998. After mid-November both day and night temperature drop rapidly till January, which is the coldest month. The details of the maximum and minimum temperatures for the period ranging from 1996 to 1999 are given below.

TEMPERATURE

(In Sentigrade)

Name of Month	1996		1997		1998		1999	
	Max	Min	Max	Min	Max	Min	Max	Min
1	2	3	4	5	6	7	8	9
January	32	7.4	31.2	8.4	32	7.1	33.5	9.6
February	35.7	10.4	37.8	10.4	35	10.6	36.5	10.8
March	40.4	15.8	38.8	16.4	41.6	14.4	41.4	13.5
April	43	17.2	41	19	43.8	20.6	43.2	19
May	43.6	22.7	42.6	23	44.1	23.6	43.6	24.1
June	N.A.	24.1	40.4	20.9	44	24	39.8	24.9
July	37	23.6	36.6	24.5	36.2	25	37.4	24.4
August	33.8	22.6	36	22	37.1	23.9	35.8	23.6

December	33.4	11.3	29.1	8.8	33.3	11.2	32.8	10.6

Source: Statistical Abstract of Gujarat State-2000

(b) Winds :

Winds are generally light to moderate in summer and in the south-west monsoon season. They become stronger and westerly to south-westerly winds prevail in the south-west monsoon season. In October winds are from directions between west and north-east. In November and December winds are mainly from directions between north and east. In January and February winds are again from direction between west and north-east. In the summer season the winds are pre-dominantely from directions between south-west and north-west.

(c) Rainfall :

Records of the rainfall are available in the Rajkot Meterological Observatory Station. The annual rainfall in the district is received during the south-west monsoon season from June to September. July being the month with the highest rainfall. Details of monthly as well as annual rainfall of this district are given below:-

Monthly Rainfall (From 1995 to 1999)

(In mm)

Year	May	June	July	August	September	October	November	Total
1	2	3	4	5	6	7	8	9
1995	0.00	11.00	303.00	48.00	53.00	0.00	0.00	415.00
1996	0.00	251.77	205.46	27.46	9.69	26.85	0.00	521.23
1997	0.00	214.69	156.38	91.54	201.85	0.00	0.00	664.46
1998	0.00	142.50	92.86	128.43	100.79	118.93	10.93	594.44
1999	0.00	68.38	95.54	19.69	60.77	119.08	0.00	363.46

Source: Directorate of Agriculture, Gujarat State 1999

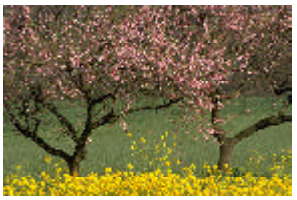

Impact of rainfall on weather conditions:

In association with cyclonic storms in the Arabian Sea in the post- monsoon months and to a lesser extent in May and June the district experiences very stong winds and widespread rain. Thunder- storms occur practically in all the months.

Economic Resources :

Economic resources are means of subsistence. The details about economic resources are given hereunder in brief.

(1) Forestry:

According to the Forest Department, there were 359.24 square kilometers forests in the district in the year 1999-2000, out of which 189.56 square km were reserved and 169.68 square km, were unclassified. The total area under forests work out to 3.21 per cent of the total geographical area in the

State. The tree growth consists mostly of bad malformed tree *clusters* and *babul*s which have escaped the wrath of man. And another type of forest is vidis. The vidis are vast open area of grass. The main products of these forests are seasum wood and fire-wood. Gum, grass, madhuka-indika, hognut, soap nut, diaspias milenoxilon etc. are the minor products.

(2) Minerals and Mining :

The known mineral wealth of Rajkot district is substantial though less diversified than in a few other mineral iron districts of the state. The pattern of mineral production is, therefore, simple. Various types of major and minor minerals are available in the district as given below:

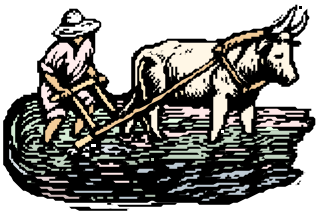

Major & Minor Mining Products and Income

Sl. No.	Products	1998-99		1999-2000		2000-01	
		Production (MT)	Income (RS.)	Production (MT)	Income (RS.)	Production (MT)	Income (RS.)
1	2	3	4	5	6	7	8
	Major Products						
1	Chalk	5,150	129,000	7,062	217,250	6,320	273,638
2	Parlite	250	25,000	312	31,200	-	-
3	Fire-Clay	17,563	300,000	15,440	357,065	13,389	456,437
4	Gypsum	7,100	154,000	-	-	-	-
5	Silica Sand	2,612	35,000	1,140	14,930	990	27,676
6	Moulding Sand	-	-	10	4,000	-	1,800
	Total :	32,675	643,000	23,964	624,445	20,699	759,551
	Total Minor Products :	858,879	17,611,000	963,573	21,741,633	615,173	11,547,244
	Grand Total :	**891,554**	**18,254,000**	**987,537**	**22,366,078**	**635,872**	**12,306,795**

Source: Commissionerate of Geology and Mining.

The minor mineral products are limestone, sand stone, black trap, ordinary sand, black clay, ordinary clay, gravel, red clay etc.

(3) Soil and Cropping Pattern:

The geographical formation of Saurashtra is of volcanic origin, hence the soils of Rajkot district with the exception of a few strips, are derived from trap rock. The soil of this district can be divided into the following three types.

(1) Medium black
(2) Alluvial (salty)
(3) Mixed red.

The medium black soil occupies a major part of the district and is sub-classed into (1) Kali or Karal dharod and (2) rechak. These soils are located in talukas of Rajkot, Upleta, Jasdan, Gondal, Wankaner, Morvi and Paddhari. Coastal alluvial soil is found in some parts of Maliya especially on the coastal side while red soil is mostly spread over Jetpur, Jasdan, Wankaner and in some parts of Paddhari and Rajkot.

In this district food and non-food crops grown can be grouped under two main heads Kharif and Rabi. The Kharif or the rain crops are sown in June-July and harvested in October-November. The Rabi or irrigated crops are sown in September-October and harvested in February-March. The main crops of this district are jowar, bajri, wheat, rice, maize, groundnut, cotton, sugarcane, chillies and fodders.

(4) Land and Land use Pattern :

The total land in the district was 11,20,300 hectares during 1998-1999.The land classification according to the different uses for the rural areas of the district for the year 1998-1999, is given below on the basis of information collected for the Village Directory.

Land Classification of Rural Areas

(In '00 Hectares)

Sl. No.	Classification	Area as on 31.3.99
1	2	3
1	Forest	218.4
2	Irrigated	2024.8
3	Unirrigated	5382.1
4	Cultivable waste (including Gauchar and Groves)	1255.2
5	Area not available for cultivation.	1636.1
	Total	**1,0516.6**

Source: Village Directory 2001

(5) Tenancy:

There was no separate Act on tenancy in the former Bombay State before 1939. There were provisions of Section 83 of Land Revenue Code and Mamlatdar Court law only. The tenant was not secured of his tenancy rights in the Act. This tenancy lease was considered yearly and had to pay tenancy as per tradition or according to the agreement made with the land owner. In order to protect the tenants, the Bombay Tenancy Act, 1939 came into force in the erstwhile Bombay State.

After the Independence of the country, it was felt necessary that the country is self-sufficient in agricultural production. It can be done only when the tillers of the land should have some definite rights over the land. With a view to effect control on efficient utilization of agricultural land and also to protect the tenants further and also to accept a definite policy and view for the country on agricultural land, The Bombay Tenancy and Agricultural Land Act, 1948 was enacted and it was brought into force since then.

The Act of 1948 has been amended five times. An important provision of 'Farmers Day' was inserted in the Act on 1-8-1956. According to this provision, if any person legally tilled the land of other person on 01-04-1957, he was entitled to purchase the said land. Even though Gujarat State was carved out from Bombay State in 1960, the said act applied to it also as well.

Tenant means the person who held land on lease viz.,

(1) Tenant as per Section 4

(2) Protected tenant

(3) Permanent tenant

(4) The person who continued to possess the land with or without the consent of the land owner after appointed date and upto specified date or it is considered that he continued the possession of the land.

In all 1,049,056.4 Hectares of land have been released and distributed to total of 1,278,125 beneficiaries under the Bomabay Tenancy and Agrilultural land Act, 1948 in entire Gujarat State.

Among the beneficiaries 177,171 were from Scheduled Castes, 258,132 from Scheduled Tribes and 842,822 were under 'others'category.

No separate data for Rajkot district is available.

(6) Agriculture:

a) Area under Major Crops:

The area under major crops for the years 1993-94 and 1997-98 is indicated as following:-

Area undr Major Crops

(In 00'Hectares)

Sl. No.	Name of Crop	Area under Major Crops	
		1993-94	1997-98
1	2	3	4
1	Wheat	157	430
2	Bajri	775	607
3	Gram	25	62
4	Other pulses	80	117
5	Sugarcane	13	8
6	Groundnut	4,753	3,943

Source: Season and Crop Report, Directorate of Agriculture 1999.

The area under wheat, gram and other pulses has increased while the area under bajri and sugarcane has decreased during 1997-98 as compared to the year 1993-94. It may be noted that a majority of the cropped area was under groundnut and bajri.

(b) Average Yield per Hectare:

The average yield per hectare of the principal crops in the district during the year 1990-91, 1993-94 and 1997-98 is shown below.

Average Yield per Hectares

(In Kg.)

Sl. No.	Name of Crop	Average Yield per Hectares	
		1993-94	1997-98
1	2	3	4
1	Bajri (Kharif)	147	1,545
2	Bajri(Summer)	1,882	2,025
3	Wheat	1,985	3,620
4	Groundnut	39	1,447
5	Cotton	276	631
6	Sugarcane	6,400	7,200

Source : Season and Crop Report, Directorate of Agriculture, 1999

The average yield per hectare was higher in all the above mentioned crops during the year 1997 -98 as compared to the year 1993 -94

(7) Irrigation :

(a) Area under Irrigation :

The area irrigated by different crops in the district for the year 1993-94 and 1997-98 is shown as following:-

Crop wise Area under Irrigation

(In 00'Hectares)

Sl. No.	Name of Crop	1993-94	1997-98
1	2	3	4
1	Wheat	157	430
2	Chillies	19	17
3	Sugarcane	13	8
4	Other food crops	180	397
5	Cotton	562	1,045
6	Grass(Fodder)	59	87
7	Other nonfood crops	153	174
	Total	**1,143**	**2,158**

Source: Season and Crop Report, Directorate of Agriculture 1999

The major food crops irrigated in the district are wheat, chillies and sugarcane whereas irrigated non-food crops are mainly cotton and grass.

b) Source of Irrigation

The area irrigated by different sources in the district during 1993-94 and 1997-98 are presented below .

Area under Irrigation by Source

(In 00'Hectares)

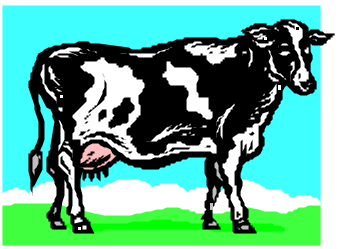

Sl. No.	Source of irrigation	1993-94		1997-98	
		Net	Gross	Net	Gross
1	2	3	4	5	6
1	Govt canals	56	56	18	18
2	Tanks	-	-	507	524
3	Wells	1,044	1,087	1,018	1,616
	Total	**1,100**	**1,143**	**1,543**	**2,158**

Source : Directorate of Agriculture 1999

The above figures indicate that wells are the main source of irrigation in the district. Next in order are tanks. It is seen that the main source of irrigation in this district are wells.

(8) Animal Husbandry :

a) Livestock Population :

Cattle wealth occupies a pivotal place in the rural economy of the district. According to the livestock censuses of 1992 and 1997, the live stock population in the district is indicated below.

Livestock

Sl. No	Livestock population	Year	
		1992	1997
1	2	3	4
(A)	**Total Livestock**	**1,164,345**	**1, 224, 894**
1	Cattle (cross breed)	5,047	9,783
(a)	Male over 2.5 years	1,249	2,377
(b)	Female over 2.5 years	2,147	4,665
(c)	Young stock	1,651	2,741
2	Cattle (Indigenoues)	437,636	407,234
(a)	Males over 3.0 years	170,359	158,979
(b)	Female over 3.0 years	150,043	153,119
(c)	Young stock	117,234	95,136
3	Buffaloes	205,867	246,344
(a)	Male over 3.0 years	1,556	3,075
(b)	Female over 3.0 years	126,546	164,673
(c)	Young stock	77,765	78,596
4	Sheep	283,271	259,354
5	Goats	224,199	213,201
6	Horses and ponics	646	585
7	Camels	187	178
8	Pigs	3,421	11,045
9	Other livestock	4,071	77,170
(B)	**Poultry**	**60,121**	**73,513**

Source: 1 Directorate of Economics and Statistics Livestock census1992
2 Directorate of Animal Husbandry Livestock census1997

The livestock population has increased by 60,549 as compared to the year 1992. Poultry birds have increased by 13,392 in 1997 as compared to the year 1992.

b) Agricultural Implements :

According to the livestock census conducted in the State, the comparative data for agricultural implements in the district for the years 1992 and 1997 are shown as following.

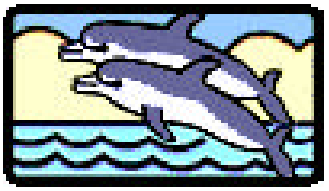

Agricultural Implements

Sl. No.	Name of Agricultural Implements	Year	
		1992	1997
1	2	3	4
1	Plough	66,809	78,147
(a)	Wooden	15,180	12,096
(b)	Iron	71,629	66,051
2	Carts	72,994	71,741
3	Oil engines	69,851	56,015
4	Electric Motors & Pumps	20,090	23,089
5	Tractors	3,685	7,040
6	Wheat Thresher	777	N.A.

Source: 1 Directorate of Economics and Statistics Livestock census1992
2 Directorate of Animal Husbandry Livestock census1997

The use of tractors, electric motors and pumps, an agriculture implements has increased where as all other implements shown as above is decreased during 1997 as compared to year 1992.

(9) Fisheries :

The fisheries in this district can be divided into two divisions, viz. fresh water and marine. The fresh water fisheries are very poorly developed. There were many important fishing centres in talukas viz. Maliya, Rajkot, Jetpur, Dhoraji and Wankaner of the district. The important fish of this district are prawn, palla, mullets, catfish, trichurus, zinga and mandeli. The important fisheries statistics for the district are given below for the years 1997-98 and 1998-99.

Fisheries Activities

Sl. No.	Item	Year	
		1997-98	1998-99
1	2	3	4
1	Total Number of Fishing boats	791	801
2	Total Number of Fishing nets	14,358	14,358
3	Fish production (In tonnes)	5,118	4,541
4	Number of active fishermen (In '00)	2,149	2,149
5	Fishermen primary Co-operative Societies (No.)	11	12
6	Membership of fishermen's primary Co-operative Societies (In '00)	7.31	8.07
7	Paid up share capital of fishermen's Co-operative societies (In'00 Rs.)	441.37	448.97

Source: Commissionerate of Fisheries, 1997- 1998,1998-1999

(10) Industry :

The total number of registered factories and average number of daily workers employed by major groups of industries for the years 1998 and 1999 are shown as following. Among above registered factories the most important establishments from the point of employment are those of Non Metallic minerals products.

Distribution of important industrial establishments by major industry groups

Sl. No.	Major Group of National Industrial Classification	Description	As on 31.12.98		As on 31.12.99	
			Nunber of Establish-ments	Average number of persons working per day	Number of Establish-ments	Averge number of persons working per day
1	2	3	4	5	6	7
1	20-21	Food products	193	5,067	197	5,250

19		Other Industries	37	1,551	38	1,243
		Total	**1,698**	**44,856**	**1769**	**41,511**

Source : Commissionerate of Industries. year 1998-1999.

Among the registered establishments both in the year of 1998 and 1999 the first four most important establishments are relating to manufacture of (1) Non-metallic mineral products (2) Machinery and equipments other than transport equipment (scientific equipment, photographic/cinematographic equipment and watches and clocks are classified in division 38) (3) Food products and (4) Basic metal and alloy industries. The above data indicate a decrease in industrial employment in the district as on 31-12-99 as compared to the position as on 31-12-98.expect group 20-21, 22, 26, 27, 28, 30, 34, 37, 40-43.

(11) Trade and Commerce:

The District is well-known for groundnut oil, oil engine and parts, wall-clock and its parts, cotton, sarees, printed cloth, machine-tools, auto parts, pottery-wares, tiles, colours etc. Rajkot is famous for gold and silver ornament and oil engines. Morvi is famous for tiles, wall-clock and other electric items. Jetpur is famous for printed cloths; sarees etc. There were 181 banks functioning in rural area of the district in 1999-2000.The details of commercial and co-operative bank in rural areas of the district are as under.—

Villeges Having Banking Facility

(12) Transport and Communication:

Transport and communication facilities are considered an administrative necessity as well as a public convenience. Moreover; a well-knit transportation system is a pre-requisite for the social and economic development of any district.

a) Road:

The information regarding roads available in Rajkot district for the year 1998-99 to 2000-01 is given below. Road length of National highways were increased in 2000-2001. As regards village roads, road length was increased for the roads constructed by the panchayat division during 1998-2001. The following is the latest progress of roads network in the district:-

Road length of Different category

Sl. No.	Year	Type of Road (in Km.)										
		Highway				District Roads				Village Roads		Total
		National		State		Main		Other				
		GOVT. DN	PNCH DN	GOVT. DN	PNCH DN	GOVT. DN	PNCH DN	GOVT. DN	PNCH DN	GOVT. DN	PNCH DN	
1	2	3	4	5	6	7	8	9	10	11	12	13
1	1998-1999	254	0	1261	0	372	834	97	420	135	803	4,176
2	1999-2000	254	0	1261	0	372	834	97	420	135	910	4,283
3	2000-2001	264	0	1251	0	372	834	97	420	135	976	4,349

Note: GOVT. DN= Government Division.
PNCH. DN= Panchayat Division.
Source: Road and Building Department, Government of Gujarat

In Rajkot, according to 1991 Census 453 villages were connected with pucca roads and 630 villages were connected with kachcha roads while in 2001 Census 690 villages were connected with pucca roads and 483 villages were connected with kachcha roads.

b) Railway:

Rajkot district is well connected with other parts of the country by railway network. There are 44 villages having railway facilities.

c) Ports :

Navlakhi is only one intermediate port in this district. It is situated on the southern shore of the Gulf of Kachchh and safely protected by the Hansthal Creek. Navlakhi port was developed by Morvi State. Ferry service was conducted for Kandala bound passengers. The steamer anchors at about 3 km. from the coast. Fertilizers, wood etc. are the main items imported at this port whereas salt and grass etc. are exported through this port. .

d) Posts and Telegraphs :

The following is the number of villages in the district possessing post, telegraph and phone facilities**.** As regards rural areas of the district the facilities of post, telegraph and telephone is available in 537, 34 and 671 villages respectively.

Communication Facilities

Sl. No.	Type of Communication facilities	Number of Villages
1	2	3
1.	Post offices	537
2.	Telegraph	34
3.	Telephone	671

Source : Village Directory, 2001

e) State Road Transport :

Out of 856 villages, 830 villages are availing bus facility.

f) Air-services:

There is an aerodrome at Rajkot which provides air service to Bombay.

(13) Electricity :

Electricity is the chief necessity for the economic development of the district. The main source for power supply in the district is Gujarat Electricity Board. All Inhabited villages are electrified.

(14) Gram Panchayats, its composition, jurisdiction and role in the Development of Village and its Economy:

The system of Panchayati Raj was introduced in the year 1963 in Gujarat State. Under this set up, the 3 tier system was introduced namely, The District Panchayat, The Taluka Panchayat and The Gram Panchayat.

Gram Panchayat is an important institution of self-government. The Gram Panchayat is formed for a village or Group of Village. The Gram Panchayat is constituted for a local area with the population of less than 10,000. Such local area may be revenue village or a group of revenue village or hamlets forming part of a revenue village or such other administrative unit or part of thereof. The number of members of Gram Panchayat varies from 9 to 15. The tenure of Gram Panchayat is of five years. The people of village elect Sarpanch and Vice-Sarpanch (Up-Sarpanch) and other members of the Panchayat. Various Committees like Social Justice Committee and Standing Committee are formed. In the year 1993 Government of India enacted an 73rd Constitutional Amendment regarding provisions of Panchayati Raj and this Act was implemented in Gujarat Started from 15th April 1994. By this constitutional amendment, Panchayats are given constitutional status. Regular and timely election, participation of women and backward classes, formation of separate State Election Commission and rotation system in electing the heads of the various committees are other significant amendments in the Act. Decentralised planning process and active participation of people are the soul of the Panchayati Raj Act. The powers for decentralised planning, implementation and development are delegated to the Panchayats.

The primary functions of the District/Taluka Panchayats are providing facilities for primary education, health, drinking water, electricity, constructions and maintenance of roads, bridges etc., maintenance of Gauchars, organising relief work at the time of scarcity and drought situation, sanitation and social welfare. Arrangements for housing facilities for below poverty line people and rural development schemes are implemented by Panchayats. Gram Panchayats also implement important programmes like, 'food for work' and other programmes beneficial for the local people. Thus, Panchayats play an important role in the development of village and its economy. There are 13,761 Gram Panchayats in Gujarat State. Out of 846 villages in Rajkot district there are 785 Gram Panchayat and 59 group-Gram Panchayats and 2 villages are uninhabited.

(v) Census Concepts :

Building :

A 'building' is generally a single structure on the ground. Sometimes it is made up of more than one component unit which are used or likely to be used as dwellings (residences) or establishments such as shops, business houses, offices, factories, workshops, work sheds, schools, places of entertainment, places of worship, godowns, stores, etc. It is also possible that buildings which have component units may be used for a combination of purposes such as shop-cum-residence, workshop-cum-residence, office-cum-residence, etc.

Usually a structure will have four walls and a roof. But in some areas the very nature of construction of houses is such that there may not be any wall. Such is the case of conical structures where entrance is also provided but they may not have any walls. Therefore, such of the conical structures are also treated as separate building.

Permanent Houses :

Houses, the walls and roof of which are made of permanent materials. The Material of wall can be anyone from the following namely Galvanized iron sheets or other metal sheets, Asbestos sheets, burnt bricks, stones or concrete. Roof may be made of from any one of the following materials namely tiles, slate, galvanized iron sheets, metal sheets, asbestos sheets, bricks, stones or concrete.

Semi-permanent Houses:

Houses in which either wall or roof is made of permanent materials and the other is made of temporary material.

Temporary Houses:

Houses in which both walls and roof are made of materials, which have to be replaced frequently. Walls may be made from any one of the following temporary materials, namely, grass, thatch, bamboo, plastic, polythene, mud, unburnt bricks or wood. Roof may be made from any one of the following temporary materials, namely, grass, thatch, bamboo, wood, mud, plastic or polythene.

Dwelling Room :

A room is treated as a dwelling room if it has walls with a doorway and a roof should be wide and long enough for a person to sleep in, i.e., it should have a length of not less than 2 meters and a breadth of at least 1.5 meters and a height of a 2 meters. A dwelling room would include living room, bedroom, dining room drawing room study room, servant's room and other habitable rooms. Kitchen, Bathroom, latrine, Store-room, passage-way and verandah which are not normally usable for living are not considered as dwelling rooms. A room used for multipurpose such as sleeping, sitting, dining, storing, cooking, etc., is regarded as a dwelling room. In a situation where a census houses is used as a shop or office. etc., and the household also stays in it then the room is not considered as a dwelling room. But if a garage or servant quarter is used by a servant and if she/he also lives in it as a separate household then this has been considered as a dwelling room available to the servants household tent or conical shaped hut if used for living by any household is also considered as dwelling room.

A dwelling room which is shade by more than one household has not been counted for any of them. If two household have a dwelling room each but in addition also share a common dwelling room. Then the common room has not been counted for either or of the household.

Census House:

A 'Census House' is a building or part of a building used or recognized as a separate unit because of having a separate main entrance from the road or

common courtyard or, staircase, etc. It may be occupied or vacant. It may be used for a residential or non-residential purpose or both.

In certain peculiar situations, the manner in which buildings and census houses were identified for numbering in the field by the enumerators is described hereunder.

Sometimes a series of a different building are found along streets which are joined with one another by common walls on either side looking like a continuous structure. These different units are practically independent of one another and are likely to have been built at different times and owned by different persons. In such cases, though the whole structure with all the adjoining units apparently appears to be one building, each portion was treated as a separate building and its constituent units as separate census houses.

On the other hand, one may come across cases, particularly in large cities of multi-storied ownership flats. In these cases while the structure looks like one building, different persons own the flats. In case of such multi-storied structures, having a number of flats owned by different persons, the entire structure was treated as one building and each flat as a separate census house.

If within a large enclosed area, there are separate buildings owned by different persons then each such building is treated as a separate building. There can be a situation where within an enclosed compound there are separate buildings owned by an undertaking or company or even government that are actually in occupation of different persons. For example, Indian Oil Corporation colonies where the buildings are owned by the Corporation but these are in occupation of their employees. Each such building was treated as a separate building. But if in any one of these buildings there were flats in occupation of different households, each such flat was reckoned as a separate census house.

Sometimes if becomes difficult to apply the definition of census house strictly in certain cases. For example, in an urban area, if a flat has five rooms, each room having direct entrance from the common staircase or courtyard. By definition, this has to be treated as five census houses. If all these five rooms are occupied by a single household it was not realistic to treat them as five census houses. In such a case, 'singleness' of use of these rooms along with the main house should be considered and the entire flat was treated as one census house. On the other hand, if two independent households occupy these five rooms, the first household living in 3 rooms and the second household occupying 2 rooms, then considering the use, the first three rooms together were treated as one census house and the remaining rooms as another census house. But if each room was occupied by an independent household, then each such room was treated as a separate census house.

In case of hostels, hotels, etc., even if the door of each room in which an inmate lives opens to a common verandah, staircase, courtyard or a common room, as it happens almost invariably, the entire hostel/ Hotel building was treated as one census house. But if such hostels/ hotels have out-houses or other structures used for different purposes or the same purpose, then each such structure attached to the main hostel/hotel was treated as a separate census house.

In some parts of the country, in rural areas, the pattern of habitation is such that a group of huts, located in a compound, whether enclosed or unenclosed, is occupied by one household. While the main residence may be located in one hut, other huts may be used for sleeping, as a kitchen, bath room, baithak, etc. Though each of the huts was a separates structure, they form a single housing unit and therefore, have to be treated collectively as one building and one census house. If some of the huts are used by one household and the others by a second household as residence, then the two groups of huts were treated as separate census houses. However, if there were also other huts in the compound used for other purposes and not as part of the household's residence such as, cattle shed, work shed, etc., these were treated as separate census houses.

On the other hand, in urban areas, where more than one structure within an enclosed or open compound (premises) belonging to the same person, e.g., the main house, the servant's quarter, the garage, etc., only one building number was given for this group and each of the constituent a separate census house number.

Only cases where a structure with roof and pillars has come up was treated as a building.

Village :

The basic unit for rural areas is the revenue village, which has definite surveyed boundaries. The revenue village may comprise of one or more hamlets but the entire village is treated as one unit for presentation of data.

In unsurveyed areas, like villages within forest areas, each habitation area with locally recognized boundaries is treated as one village.

Town/Urban Area:

The following areas are treated as towns/urban area :

(a) All places with a municipality, municipal corporation, cantonment board or notified town area committee, etc.

(b) A place satisfying the following three criteria simultaneously

(i) A minimum population of 5,000;

(ii) At least 75 per cent of the male working population engaged in non-agricultural pursuits; and

(iii) A density of population of at least 400 per square kilometer. (1,000 per square mile).

City :

Towns with population of 1,00,000 and above are called cities.

Urban Agglomeration:

An Urban Agglomeration is a continuous urban spread constituting a town and its adjoining urban outgrowths (OGs) or two or more physically contiguous towns together and any adjoining urban outgrowths of such towns. In some cases railway colonies, university campuses, port areas, etc., may come up near a city or statutory town outside its statutory limits but within the revenue limits of a village or villages contiguous to the town or city. Each such individual area by itself may not satisfy the minimum population limit to qualify it to be treated as an independent urban unit but may deserve to be clubbed with the town as a continuous urban spread.

For the purpose of delineation of Urban Agglomerations during Census of India 2001, following criteria are taken as pre-requisites:

(a) The core town or at least one of the constituent towns of an urban agglomeration should necessarily be a statutory town; and

(b) The total population of all the constituents (i.e., towns and outgrowths) of an Urban Agglomeration should not be less than 20,000 (as per the 1991 Census).

With these two basic criteria having been met, the following are the possible different situations in which Urban Agglomerations would be constituted:

i) a city or town with one or more contiguous outgrowths;

ii) two or more adjoining towns with their outgrowths; and

iii) a city and one or more adjoining towns with their outgrowths all of which form a continuous spread.

Household:

A 'household' is usually a group of persons who normally live together and take their meals from a common kitchen unless the exigencies of work prevent any of them from doing so. Persons in a household may be related or unrelated or a mix of both. However, if a group of unrelated persons live in a census house but do not take their meals from the common kitchen, then they are not constituent of a common household. Each such person was to be treated as a separate household. The important link in finding out whether it was a household or not was a common kitchen. There may be one member households, two member households or multi-member households.

Institutional Households :

A group of unrelated persons who live in an institution and take their meals from a common kitchen is called an Institutional Household. Examples of Institutional Households are boarding houses, messes, hostels, hotels, rescue homes, jails, ashrams, orphanages, etc. To make the definition more clearly perceptible to the enumerators at the Census 2001, it was specifically mentioned that this category or households would cover only those households where a group of unrelated persons live in an institution and share a common kitchen.

Houseless Household :

Households who do not live in buildings or census houses but live in the open on roadside pavements, in hume pipes under flyovers and staircases or in the open in places of worship, mandaps, railway platforms, etc., are treated as Houseless Household.

Scheduled Castes and Scheduled Tribes :

Article 341(1) of the Constitution provides that the President may, with respect to any State or Union territory, specify the castes, races or tribes or parts of or groups within castes, races or tribes which shall for the purposes of the Constitution be deemed to be Scheduled Castes in relation to that State or Union territory. Article 342(1) similarly provides for specification of tribes or tribal communities or parts of or groups within tribes or tribal communities, which are to be deemed for the purposes of the Constitution to be Scheduled Tribes in relation to the various States and Union territories. In pursuance of these provisions, the list of Scheduled Castes and / or Scheduled Tribes are notified for each State and Union territory and are valid only within the jurisdiction of that State or Union territory and not outside.

It is important to mention here that under the Constitution (Scheduled Castes) Order, 1950, no person who professed a religion different from Hinduism was deemed to be a member of a Scheduled Caste in addition to every member of the Ramdasi, Kabirpanthi, Majhabi or Sikligar caste resident in Punjab or Patiala and East Punjab States Union were in relation to that State whether they professed the Hindu or the Sikh religion. Subsequently, in September 1956, by an amendment, the Presidential Order of 1950 and in all subsequent Presidential Orders relating to Scheduled Castes, the Hindu and the Sikh religions were placed on the same footing with regard to the specification of Scheduled Castes. Later on, as per the amendment made in the Constitution (Scheduled Castes) Order 1990, the Hindu, the Sikh and the Buddhist were placed on the same footing with regard to the recognition of the Scheduled Castes.

The lists containing the names of the Scheduled Castes and the Scheduled Tribes applicable for the Census of India 2001 in the State is given below

List of Scheduled Castes :

1. Ager
2. Bakad, Bant
3. Bawa-Dedh, Dedh Sadhu
4. Bhambi, Bhambhi, Asadaru Asodi, Chamadia, Chamar, Chambhar, Chamgar, Haralayya, Harali, Khalpa, Machigar, Mochigar, Madar, Madig, Mochi, Nalia, Telegu Mochi, Kamati Mochi, Ranigar, Rohidas, Rohit, Samgar.
5. Bhangi, Mehtar, Olgana, Rukhi, Malkana, Halalkhor, Lalbegi, Balmiki, Korar, Zadmalli.
6. Chalvadi, Channayya
7. Chenna Dasar, Holaya Desar
8. Dangashia
9. Dhor, Kakkayya, Kankayya
10. Garmatang
11. Garoda, Garo
12. Halleer
13. Halsar, Haslar, Hulasvar, Halasvar
14. Holar, Valhar
15. Holaya, Holer
16. Lingader
17. Mahar, Taral, Dhegu Megu
18. Mahyavansi, Dhed, Dhedh, Vankar, Maru Vankar Antyaj
19. Mang, Matang, Minimadig
20. Mang-Garudi
21. Meghaval, Meghwal, Menghvar
22. Mukri
23. Nadia, Hadi
24. Pasi
25. Senva, Shenva, Chenva, Sedma, Rawat
26. Shemalia
27. Thori
28. Tirgar, Tirbanda
29. Turi
30. Turi Barot, Dedh Barot

Scheduled Tribes :

1. Barda
2. Bavacha, Bamcha
3. Bharwad (In the Nesses of the forests of Alech, Barada and Gir)*
4. Bhil, Bhil Garasia, Dholi-Bhil, Dungri Bhil, Dungri Garasia, Mewasi Bhil, Rawal Bhil, Tadvi Bhil, Bhagalia, Bhilala, Pawra, Vasava, Vasave.

5. Charan (In the Nesses of the forests of Alech, Barada and Gir) *
6. Chaudhri (In Surat and Valsad districts)
7. Chodhara
8. Dhanka, Tadvi, Tetaria, Valvi
9. Dhodia
10. Dubla, Talavia, Halpati
11. Gamit, Gamta, Gavit, Mavchi, Padvi
12. Gond, Rajgond
13. Kathodi, Katkari, Dhor Kathodi, Dhor Katkari, Son Kathodi, Son Katkari
14. Kokna, Kokni, Kukna
15. Koli (In Kachchh district)
16. Koli Dhor, Tokre Koli, Kolcha, Kolgha
17. Kunbi (In The Dangs District)
18. Naikda, Nayaka, Cholivala Nayaka, Kapadia Nayaka, Mota Nayaka, Nana Nayaka
19. Padhar
20. Paradhi (In Kachchh district)
21. Pardhi, Advichincher, Phanse Pardhi (Excluding Amreli,Bhavnagar, Jamnagar, Junagadh, Kachchh, Rajkot and Surendranagar districts)
22. Patelia
23. Pomla
24. Rabari (In the Nesses of the forests of Alech, Barada and Gir)*
25. Rathawa
26. Siddi (In Amreli, Bhavnagar, Jamnagar, Junagadh, Rajkot and Surendranagar Districts)
27. Vaghri (In Kachchh district)
28. Varli.
29. Vitola, Kotwalia, Barodia

*The area comprised of Jamnagar and Junagadh districts.

Language and Mother Tongue :

As per the census concept, each language is a group of mother tongues. The census questionnaire collects information on the mother tongue of each person and mother tongue is defined as the language spoken in childhood by the person's mother to the person. If the mother died in infancy, the language mainly spoken in the person's home in childhood will be the mother tongue. In the case of infants and deaf mutes, the language usually spoken by the mother is considered as mother tongue. It is not necessary that the language spoken as mother tongue should have a script. The mother tongues returned by the respondents in census are classified and grouped under appropriate languages according to their linguistic characteristics.

Literate :

A person age 7 years and above who can both read and write with understanding in any language is taken as literate. A person who can only read but cannot write is not literate. It is not necessary that to be considered as literate, a person should have received any formal education or passed any minimum educational standard. Literacy could also have been achieved through adult literacy classes or through any non-formal educational system. People who are blind and can read in Braille are treated as literates.

Literacy Rate :

Literacy rate of the population is defined as the percentage of literates in the age group seven years and above. For different age groups the percentage of literates in that age group gives the literacy rate.

Educational Level :

The highest level of education a person has completed.

Work :

Work is defined as participation in any economically productive activity with or without compensation, wages or profit. Such participation may be physical and/or mental in nature. Work involves not only actual work but also includes effective supervision and direction of work. It even includes part time help or unpaid work on farm, family enterprise or in any other economic activity. All persons engaged in 'work' as defined above are workers. Persons who are engaged in cultivation or milk production even solely for domestic consumption are also treated as workers.

Reference period for determining a person as worker and non-worker is one year preceding the date of enumeration.

Main Worker :

A person who has worked for major part of the reference period (i.e. six months or more during the last one year preceding the date of enumeration) in

any economically productive activity is termed as "Main worker".

Marginal Worker :

A person who worked for less than six months of the reference period (i.e. in the last one year preceding the date of enumeration) in any economic activity is termed as 'Marginal- worker'

Non Worker :

A person who has not worked at all in any economically productive activity during the reference period (i.e. last one year preceding the date of enumeration) is termed as 'Non worker'.

Cultivator :

For purposes of the Census a person is classified as cultivator, if, he or she is engaged in cultivation on land owned or held from government or held from private persons or institutions for payment in money, kind or share. Cultivation includes effective supervision or direction in cultivation.

A person who has given out her/his land to another person or persons or institution(s) for cultivation for money, kind or share of crop and who does not even supervise or direct cultivation in exchange of land, is not treated as cultivator. Similarly, a person working on another person's land for wages in cash or kind or a combination of both (agricultural laborers) is not treated as cultivator.

Cultivation involves ploughing, sowing, harvesting and production of cereals and millet crops such as wheat, paddy, jowar, bajra, ragi, etc., and other crops such as sugarcane, tobacco, ground-nuts, tapioca, etc., and pulses, raw jute and kindred fiber crop, cotton, cinchona and other medicinal plants, fruit growing, vegetable growing or keeping orchards or groves, etc. Cultivation does not include the following plantation crops – tea, coffee, rubber, coconut and betel-nuts (area).

Agricultural Labourer :

A person who works on another person's land for wages in money or kind or share is regarded as an agricultural labourer. She/he has no risk in the cultivation, but merely works on another person's land for wages. An agricultural laborer has no right of lease or contract on land on which she/he works.

Household Industry Worker :

Household industry is defined as an industry conducted by the head of the household herself/ himself and or by the members of the household at home or within the village in rural areas and only within the precincts of the house where the household lives in urban areas. The larger proportion of workers in household industry should consist of members of the household including the head. The industry should not be run on the scale of a registered factory which would qualify or has to be registered under the Indian Factories Act and should be engaged in manufacturing, processing, servicing and repairs of goods.

It does not include professions such as a pleader, Doctor, Musician, Dancer, Waterman, Astrologer, Dhobi, Barber, etc. or merely trade or business, even if such professions, trade or services are run at home by members of the household.

Other Worker :

A person who has been engaged in some economic activity during the reference period but not as a cultivator or agricultural laborer or in Household Industry is termed as an 'Other-Worker (OW)'. The type of workers that come under this category of 'OW' include all government servants, municipal employees, teachers, factory workers, plantation workers, those engaged in trade, commerce, business, transport, banking, mining, construction, political or social work, priests, entertainment artists, etc. In effect, all those workers other than cultivators or agricultural laborers or household industrial workers, are 'Other Workers'.

Work Participation Rate :

Percentage of workers (main + marginal) to total population.

Population Density :

Population density is the number of persons inhabited per square kilometer of the area.

Age :

Age is measured in terms of the completed number of years.

Sex Ratio :

Numbers of females per 1,000 males in a population.

(vi) Non Census Concepts :

Improved Drinking Water :

If the household had access to drinking water supplied from a tap, hand pump, tube well or well (protected or covered) situated within or outside the premises, it is considered as having access to improved drinking water.

System of Sewerage :

Generally, a sewerage system would mean a network of mains and branches of underground conduits for the conveyance of sewerage to the point of disposal. Sewers that carry only household and industrial wastage are called separate sewers; those that carry storm water from roofs, streets and other surfaces are known as storm water drains, while those carrying both sewage and storm water are called combined sewers. However, in some towns, which are, not provided with such underground sewerage system, it is served by open surface drain, box drain, silk pattern drain, etc., in these towns.

Type of Latrine and Method of Disposal of Night Soil :

There are three prevalent systems of disposal of human wastes, viz.(i) underground sewerage, (ii) sanitary water flush latrines with individual disposal systems, like septic tank, leaching cess pool and collecting well, and (iii) dry type of latrines with manual scavenging.

The system of underground sewerage provides for the street sewerage with which are connected the sanitary latrines constructed in the houses having water closets and fitted with flushing cistern (or hand flushing). Through this sewer the faucal matter is transported without the need for scavenging. This system generally exists in cities and big towns.

Where the streets sewer does not exist these sanitary water flush latrines are connected to a local septic tank with a sub-soil dispersion system or a leaching pit. Here the liquid wastes from the water closet is disposed of locally in leaching pit, a septic tank with a soil dispersion system is constructed. This dispersion requires an optimum travel through the pores of the soil, which renders the harmful liquid bacterially innocuous by the slow process of filtration through the soil traversed.

Where the soil is impermeable, collecting wells are constructed and the sanitary water flush latrines are connected with them. These wells are cleaned at periodic intervals by a suitable device. The dry type of latrines are of service type latrines from where human excreta is removed by scavengers from house to house, in most cases carrying it on their heads or shoulders or in baskets with handle or wheel barrows. These are then collected in bullock carts or trucks or tractors and trolleys for being carried to the dumping grounds.

Fertility :

In demography, the word fertility is used in relation to the actual production of children or occurrence of births specially lives births. Fertility is a measure of rate at which population adds to itself by births and normally assessed by relating the number of births to a full or part of the population, such as number of married women or number of women of child bearing age. The definitions of the terminology used in computing different fertility rates are mentioned below.

Crude Birth Rate (CBR) :

Ratio of the numbers of live births in a year to the mid year population. (normally expressed per 1,000 population).

$$CBR = \frac{\text{Numbers of live births during the year}}{\text{Mid –year Population}} \times 1{,}000$$

Crude Death Rate (CDR) :

Ratio of the numbers of deaths in a year to the mid year population, normally expressed per 1,000 population.

$$CDR = \frac{\text{Numbers of deaths during the year}}{\text{Mid –year Population}} \times 1{,}000$$

Natural Growth Rate (NGR) :

Natural Growth rate is obtained as the difference between crude birth rate and crude death rate in the absence of migration.

NGR = CBR – CDR

Age Specific Fertility Rate (ASFR) :

Number of live births in a year to female population in any specified age group normally expressed per 1,000 women.

$$ASFR = \frac{\text{Numbers of live births in a particular age group}}{\text{Numbers female population of same specified age group}} \times 1,000$$

Age Specific Marital Fertility Rate (ASMFR):

Number of live births in a year to married female population in any specified age group normally expressed per 1,000 married women.

$$ASMFR = \frac{\text{Number of live births in a particular age group}}{\text{Mid-year married female population of the same age group}} \times 1,000$$

General Fertility Rate (GFR) :

Number of live births per 1,000 women in the reproductive age-group (15-49) years in a given year.

$$GFR = \frac{\text{Number of live births in a year}}{\text{Mid-year female population in the age-group (15-49) years}} \times 1,000$$

General Marital Fertility Rate (GMFR) :

Number of live births per 1,000 married women in reproductive age-group (15-49) years in a given year.

$$GMFR = \frac{\text{Number of live births in a year}}{\text{Mid-year married female population in the age group (15-49) years}} \times 1,000$$

Total Fertility Rate (TFR) :

It is obtained as the total of the age specific fertility rates (number of children born per woman of the particular age) for the entire reproductive age span. It provides the average number of children that will be born to a woman under the fertility levels indicated by the age specific fertility rates assuming that there is no mortality of women till the completion of reproductive period.

$$TFR = \frac{5 \times \sum_{15-19}^{45-49} ASFR}{1,000}$$

Total Marital Fertility Rate (TMFR) :

Average number of children that would be born to a married woman if she experiences the current fertility pattern throughout her reproductive span (15-49) years assuming that there is no mortality of women till the completion of reproductive period.

$$TMFR = \frac{5 \times \sum_{15-19}^{45-49} ASMFR}{1,000}$$

Age-Specific Mortality Rate (ASMR) :

Number of deaths in a particular age and sex group per 1,000 population of the same age group.

$$ASMR = \frac{\text{Number of deaths in a particular age group}}{\text{Mid-year population of the same age group}} \times 1,000$$

q1 :

Probability of dying between birth and age 1. This can be used as approximate value of Infant Mortality Rate (IMR) which gives the ratio of number of deaths in a year of children aged less than one year to the number of births in that year.

q2 :

Probability of dying between birth and age 2.

q5 :

Probability of dying between birth and age 5.

This indicator is also known as Under Five Mortality Rate (q5 MR)

Infant Mortality Rate (IMR) :

Ratio of the number of infant deaths (deaths of children below one year) in a year to the number of live births in that year.

$$IMR = \frac{\text{Number of infant deaths during the year}}{\text{Number of live births during the year}} \times 1,000$$

Infant mortality rate comprises of two parts, viz., Neo-natal mortality rate and Post neo-natal mortality rate. The neo-natal mortality rate also comprises of two parts viz., early neo-natal mortality rate and late neo-natal mortality rate. These are defined as :

Neo-natal Mortality Rate (NMR) :

Number of infants dying within the first month of life (28 days or under) in a year per 1,000 live births of the same year.

$$NMR = \frac{\text{Number of infant deaths aged 28 days under during the year}}{\text{Number of live births during the year}} \times 1,000$$

Early Neo-natal Mortality Rate (ENMR) :

$$ENMR = \frac{\text{Number of infant deaths of less than 7 days during the year}}{\text{Number of live births during the year}} \times 1,000$$

Late Neo-natal Mortality Rate (LNMR) :

$$LNMR = \frac{\text{Number of infant deaths of 7 days to less than 29 days during the year}}{\text{Number of live births during the year}} \times 1,000$$

Post Neo-natal Mortality Rate (PNMR):

$$PNMR = \frac{\text{Number of deaths of 29 days to less than One year during the year}}{\text{Number of live births during the year}} \times 1,000$$

Peri-natal Mortality Rate (PMR):

Number of stillbirths plus deaths within 1st week of delivery per 1,000 births in a year.

$$PMR = \frac{\text{Number of stillbirths and infant deaths of less than 7 days during the year}}{\text{Number of live births and stillbirths during the year}} \times 1,000$$

Stillbirth Rate (SBR):

$$SBR = \frac{\text{Number of stillbirths during the year}}{\text{Number of live births and stillbirths during the year}} \times 1,000$$

Maternal Mortality Rate (MMR):

Number of deaths of women in the age group 15-49 while pregnant or within 42 days of termination of pregnancy from any cause related to pregnancy and childbirth per 1,00,000 live births in a given year.

$$MMR = \frac{\text{Number of maternal deaths to women in the age group 15-49}}{\text{Number of live birth}} \times 100,000$$

Eligible Couple (Couples per 1,000 population):

Number of currently married females in the age group15-44 years per 1,000 persons of all ages.

Child Woman Ratio (0-4):

1. Number of children in the age group 0-4 years per 1,000 women in the age group 15-49 years.

Child Woman Ratio (5-9):

2. Number of children in the age group 5-9 years per 1,000 women in the age group 15-49 years.

Migration :

Migration is the third component of population change, the other two being mortality and fertility.

A person is considered as a migrant by place of birth if the place in which he/she is enumerated during the census is other than the place of his/her birth.

Similarly a person is considered as a migrant by place of last residence if the place in which he/she is enumerated during the census is other than his/her place of immediate last residence outside the village or town and not simply in another house or locality in the same village or town.

Certain aspects concerning temporary movement/ migration of people has been explained below as these are important components concerning migration:

(i) Migration of persons in search of job is high in the country. In many cases such migrants are only seasonal in nature. People migrate to other places for work in a particular season and come back again to their usual place of residence after three or four months. All such workers are treated as migrants. Similarly, if a person moved to any other place for attending short term vocational or educational course that lasted for only few months of a year, she/he too were considered as a migrant.

(ii) Where a person had merely gone out to another place or had been shifting from one place to another purely on tour, pilgrimage, visit to hospital for treatment or for temporary business purposes, such persons are not deemed to have had another residence different from the place where she/he or her/his family normally resides. She/he is not considered as migrant.

(iii) A woman temporarily moves into a hospital or to her parents or other relative's house for delivery and if the hospital or the parents/ relatives houses is in a place different from usual place of residence, the place where the hospital or parents/relative's house is the place of last residence of the child but not of the mother.

A new response category 'Moved after birth' was added in Census of India 2001 in the question on 'reasons for migration' to bring out additional migration patterns. Natural calamities or distress migration as a reason for migration for last residence migrants included in 1991 Census, is covered under category of 'Others'. The reason for migration has been determined as applicable at the time of migration and not in reference to any point of time after that. For example, if a person had moved from the place of her/his last

Residence for the purpose of education and subsequently at some point of time got employment there only, the reason for migration would be 'education' and not 'work/employment'.

Internal and International Migration :

The migrational movements are of three types

(i) Migration within the state itself with its components
  (a) Migration within the district of enumeration (intra district migration),
  (b) Migration from one district of state to another district of state (inter district migration),

(ii) Migration from one state to another State of the country (inter-state migration),

(iii) Migration from one country to another country.

The first two streams together constitute internal migration, while the last type of movement is called international migration. The present name of the country, state or district and not the name by which they were known at the time of her/his birth or last residence were recorded.

Rural-Urban Components of Migration:

Rural or Urban status in respect of migrants had been determined as applicable at the time of migration and not with reference to any point of time after that.

The flow of migrants consists of four streams viz. rural to rural, rural to urban, urban to rural and urban to urban.

Civic Status of Urban Units:

Civic Status of a town/city is determined on the basis of Civic Administrative authority of the town e.g., Municipal Corporation/Corporation, Municipal Committee/Municipal council, Municipality etc.

Size Class of UA/Town:

Size-class of UA/Town is based on the population size of the UA/City/Town UAs/Towns with 1,00,000 and above population is classified as Class I UAs./ towns. These Class I UAs./towns are now further sub classified in to seven sub classes namely M1 to M7 depending on the population size of UA/City/Town. These are M7(5,000,000 and above); M6(2,000,000 to 4,999,999); M5(1,000,000-1,999,999) M4(500,000-999,999); M3(300,000-499,999), M2(200,000-299,999) & M1(100,000-199,999). towns with, 50,000 to 99,999 population are classified as Class II towns, 20,000 to 49,999 population are Class III towns, population with 10,000-19,999 are Class IV towns, population with 5,000 and 9,999 are Class V towns and towns with less than 5,000 population are Class VI towns.

Slum Area:

The Slum Areas (Improvement and Clearance) Act, 1956 which was enacted by the Central Govt. defined slums as a) Areas where buildings are in any respect unfit for human habitation; or b) are by reasons of dilapidation, overcrowding, faulty arrangement and design of such buildings, narrowness or faulty arrangement of streets, lack of ventilation, light or sanitation facilities, or any combination of these factors, are detrimental to safety, health or morals.

Mega City:

The concept of 'Mega city' is a recent phenomenon in the Urban Sociology and is defined in term of metropolitan city in the form of large size, problem of management of civic amenities and

capacity to absorb the relatively high growth of population. Indian Census in 1991 treated the population size of 5 million and above as the cut off point to identify a place as the mega city. Whereas, for the purpose of inclusion in Centrally Sponsored Scheme for Infrastructure Development in Mega cities the Ministry of Urban Affairs and employment, Department of Urban Development adopted the criteria of 4 million and above population as per 1991 Census for Mega Cities. In 2001 Census, cities with 10 millions and above population have been treated as Mega cities.

(vii) 2001 Census finding – Population, its distribution

(a) Distribution of population in rural-urban areas:

According to 2001 Census total population of Rajkot district is 3,169,881 comprising 1,642,018 males and 1,527,863 females. The population of Rajkot district is 6.3 per cent of the State population and it ranks 4th among 25 districts of Gujarat State. The total rural population of district is 1544,019 comprising 792848 males and 751,171 females. This rural population is distributed in 844 inhabited villages in 14 talukas. There are 846 villages in the district out of which 2 are uninhabited. The total urban population of the district is 1,625,862 which include 849,170 males and 776,692 females. This urban population is spread over 10 towns. The statement below gives the position and number of urban units by size class of town of 2001 Census.

b) Size class and status of towns Population growth, Density, Sex ratio, Work participation rate, Details of Literacy, availability of University education in the district.

Sl. No.	Name and Civic Status of Town	Size Class of Town	Population
1	2	3	4
1	Morvi (M)*	I	178,055
2	Wankaner (M)	III	40,191
3	Paddhari (CT)	V	9,234
4	Rajkot (M.Corp)*	I	1,003,015
5	Jasdan (M)	III	39,046
6	Gondal (M)*	II	97,506
7	Bhayavadar (M)	IV	18,254
8	Upleta (M)	II	55,438
9	Dhoraji (M)	II	80,811
10	Jetpur Navagadh (M)	I	104,312

Note: "*" Included outgrowth.

According to the 1991 Census, the total population of the district was 2,514,122. There has been net addition of 655,759 persons during 1991-2001. The decadal growth rate of district comes to 26.1 per cent. The decadal growth rates for the rural and urban areas of the district are 16.1 per cent and 37.3 per cent respectively. The growth rate of rural population is very slow in the district due to urbanization.

The density of population in Rajkot district is 283 against the State density of 258. There are 930 females for every 1,000 males in Rajkot district. The sex ratio of rural and urban areas is 947 and 915 respectively. Sex ratio is 854 for the age group of 0-6 years in the district.

The work participation rate is defined as percentage of total workers to total population. According to 2001 Census in Rajkot district total workers are 39.3 per cent of total population. Main workers are 34.0 per cent and marginal workers are 5.3 per cent of total population. The remaining 60.7 per cent are non-workers.

As per 2001 Census among the main workers male participation rate in the district is 53.6 per cent and corresponding proportion of female is 12.9 per cent. The proportion of male and female marginal workers in Rajkot district is 2.4 per cent and 8.5 per cent respectively. The proportion of female marginal workers is higher than males as females are attending one or more economic activities in addition to their household duties to improve the family income. It is also observed that in rural and urban areas of the district the proportion of male main workers is higher than that of females. As regards marginal workers the scene is quite reversed as female proportion is found to be higher than that of males in both rural and urban areas of the district.

A person who can read and write in any language with understanding is considered literate in Census. All children of age below 7 years are treated as illiterate. As per 2001 Census there are 2,033,946 literates in Rajkot district which is 74.2 per cent of total population. (Excluding population of 0-6 years). The male and female literacy rates are recorded at 82.6 per cent and 65.2 per cent respectively. This indicates a gap of 17.4 percentage points in male/ female literacy rate.

There are several colleges in Rajkot district. This include several Arts, Science, Commerce, Home science and Law Colleges spread in centres like Rajkot, Morvi, Jetpur, Gondal, Dhoraji, Upleta, Wankaner, Bhayavadar and Dumiuani. Besides Arts, Science, Commerce, Home science and Law Colleges, there are several other institutions for study in medical, pharmacy, engineering, journalism, performing arts etc.

Rajkot has Graduate Training College, Graduate Teacher College, College of Journalism and Performing arts, Engineering College, Government Polytechnic College of Performing Arts, Nursing Institution, Medical College, Homeopathic Medical College, Pharmacy College, Institute of Technology Science and Technical Institute. Besides Rajkot, Morvi has Engineering College.

Religion:

The following is the percentage distribution of population by major religions in the district/state of the 2001 Census:-

Percentage distribution of population by major religions in Gujarat State and Rajkot district in 2001 Census

Sl. No.	Religion	Gujarat State		Rajkot District	
		Population	Percentage	Population	Percentage
1	2	3	4	5	6
1	Hindu	45,143,074	89.1	2,841,302	89.6
2	Muslim	4,592,854	9.1	292,676	9.3
3	Christian	284,092	0.5	2,752	0.1
4	Sikh	45,587	0.1	1,029	0.0
5	Buddhist	17,829	0.0	475	0.0
6	Jain	525,305	1.0	30,629	1.0
7	Others	28,698	0.1	157	0.0
8	Religion not stated	33,578	0.1	861	0.0

Source : Census of India 2001.

It can be seen that in Gujarat State 89.1 per cent of population follow Hindu religion whereas in Rajkot district also Hindus are 89.6 per cent in total population. Muslims are 9.1 per cent at State level and in Rajkot district proportion of Muslim is 9.3 per cent. The percentage proportion of Christian and Sikh in Gujarat is 0.5 per cent and 0.1 per cent respectively while the same is 0.1 per cent and negligible respectively in Rajkot district. Jain is 1.0 per cent of total population in Gujarat and in Rajkot their proportion is also 1.0 per cent in total district population. The proportion of Buddhist, others and 'religion not stated' is not significant in Gujarat State as well as in Rajkot district.

The pattern of distribution of the population of major religious communities between rural and urban areas of Rajkot is as under according to 2001 Census.

Religion	Number of followers	Population	
		Rural	Urban
1	2	3	4
Hindu	2,841,302	1,427,108 (50.2)	1,414,194 (49.8)
Muslim	292,676	114,760 (39.2)	177,916 (60.8)
Christian	2,752	170 (6.2)	2,582 (93.8)
Sikh	1,029	71 (6.9)	958 (93.1)
Buddhist	475	337 (70.9)	138 (29.1)
Jain	30,629	1,198 (3.9)	29,431 (96.1)
Other	157	18 (11.5)	139 (88.5)
Religion not stated	861	357 (41.5)	504 (58.5)

* Recasted data

Table 1 gives talukawise detail of decadal changes in population during the last decade of 1991-2001 along with the percentage of urban population for last two Censuses. The decadal growth rate of Rajkot district is 26.1 per cent during 1991-2001. The growth rates for rural and urban areas of the district are 16.1 per cent and 37.3 per cent respectively. It can be easily observed from the data that urban growth is significantly higher than that of rural areas during 1991-2001. In 1991, 47.1 per cent of district population was living in urban areas, which was increased to 51.3 per cent in 2001.The highest decadal growth of 47.9 per cent is recorded in Rajkot Taluka and the lowest of 3.1 per cent in Upleta. Dhoraji has recorded negative growth of 0.4 per cent during the decade of 1991-2001. Rajkot Taluka has urban population of 88.1 per cent which is the highest in district while Paddhari has urban population of only 12.6 per cent which is the lowest in the district.

TABLE 2
NUMBER AND PERCENTAGE OF INHABITED VILLAGES IN SPECIFIED POPULATION SIZE RANGES WITH THE RELATED POPULATION, 2001

Sl. No.	District / Taluka/ C.D. Block	Total Number of Inhabited Villages	Total Rural Population			Number and Percentage of Villages	Population less than 200

Table 2 gives the detail of absolute number and percentage of inhabited villages in specified population size ranges with the related population and number of males and females. Out of 844 inhabited villages, 10 (1.2 per cent) villages are small size villages with population below 200 persons. There are 64 (7.6 per cent) villages in the range of 200-499 and 188 (22.3 per cent) villages are in population range of 500-999. Maximum number of villages i.e. 329 (39 per cent) are in the population range of 1,000-1,999 and 216 (25.6 per cent) villages are in the range of 2000-4999. Out of remaining villages 29 (3.4 per cent) are in the range of 5,000-9,999 and 8 (0.9 per cent) villages have population of 10,000 and more.

TABLE 3

NEW TOWNS, DENOTIFIED, DECLASSIFIED AND MERGED TOWNS IN 2001 CENSUS

Name of town

(a) New

(i) Statutory town

Bhayavadar M

(ii) Census town

Nil

(b) Denotified

(i) Statutory towns of 1991 census denotified and also did not satisfy the criteria to be treated as census towns

Nil

(ii) Statutory towns of 1991 census denotified but identified as census towns based on demographic and economic criteria

Nil

(iii) Census towns of 1991 census are notiified as statutory town in 2001 census

Nil

(c) Declassified

1 Jetalsar VP

2 Tankara VP

3 Vinchhiya VP

(d) Wholly merged with other town(s)

1 Raiya (VP) merged with Rajkot Municipal Corporation

2 Mavdi (OG) merged with Rajkot Municipal Corporation

3 Nana Mava (OG) merged with Rajkot Municipal Corporation

4 Navagadh (OG) merged with Jetpur Municipality

Declassified means the census towns of 1991 census which failed to satisfy the demographic and economic criteria.

Table 3 is self explanatory hence needs no elaboration.

TABLE 4

DISTRIBUTION OF VILLAGES BY POPULATION DENSITY 2001

Range of Population Density (per Square Kilometer)	Total Number of Villages in each Population Density Range	Percentage of Villages in each Population Density Range	Population	Percentage Distribution of Population
1	2	3	4	5
0-10	6	0.7	5,294	0.3

201-300	91	10.8	256,014	16.6
301-500	28	3.3	99,801	6.5
501 +	9	1.1	73,833	4.8
Not known	0	0.0	0	0.0
District Total:	**844**	**100.0**	**1,544,019**	**100.0**

Population Density (Rural) of the district : 147

Table 4 presents the distribution of villages by population density ranges as per 2001 Census. In this table inhabited villages of Rajkot district have been grouped under eight different ranges of density. The maximum number of villages i.e. 509 accounting for 60.3 per cent of villages fall in the density range of 101 to 200 persons having 59.2 per cent of population. 183 (21.7 per cent) villages are in the range of 51-100 with 12.2 per cent of population and 91 (10.8 per cent) villages are in the range of 201-300 with 16.6 per cent of population. There are 28 villages in the higher range of 301-500 with 6.5 per cent of district population and 9 villages are in the highest range of 501 and more with 4.8 per cent of population. There is no village in the range titled 'Not known'. The lowest range of 0-10 persons per sq.km. Covers 6 (0.7 per cent) villages with only 0.3 per cent of population. There are 3 and 15 villages in range of 11-20 and 21-50 respectively. The population coverage of these two ranges is only 0.1per cent and 0.4 per cent respectively.

TABLE 5

SEX RATIO OF STATE AND DISTRICT, 1901-2001

Sl. No.	Census Year	State			District		
		Total	Rural	Urban	Total	Rural	Urban
1	2	3	4	5	6	7	8
1	1901	954	951	965	970	958	1,001
2	1911	946	943	960	978	959	1,051
3	1921	944	947	931	984	966	1,040
4	1931	945	948	934	974	963	1,006
5	1941	941	954	898	977	973	989
6	1951	952	964	920	988	974	1,011
7	1961	940	956	896	963	965	960
8	1971	934	951	893	947	952	939
9	1981	942	959	905	947	951	942
10	1991	934	949	907	946	957	933
11	2001	920	945	880	930	947	915

Table 5 gives the detail of sex ratio of State and Rajkot district for Census years of 1901 to 2001. As per 2001 Census the district sex ratio is 930 against the state sex ratio of 920. It can be observed that during all the Census years of 1901 to 2001 the district sex ratio was higher than that of Gujarat State. In Rajkot district the highest sex ratio of 988 was recorded in Census year of 1951 while the lowest proportion of 930 females per 1,000 males was recorded in Census year of 2001. It will be interesting to note that in Rajkot district sex ratio in rural areas was lower than that of urban areas during the Census years of 1901 to 1951 while during the years of 1961 to 2001 sex ratio in rural areas was higher than that of urban areas. At State level only in Census years of 1901 and 1911 sex ratio in rural areas was lower than that of urban areas but during the years of 1921 to 2001 rural areas have reported higher sex ratio than that of urban areas.

TABLE 6

SEX RATIO BY TALUKAS, 2001

Sl. No.	Name of Taluka	Sex Ratio		
		Total	Rural	Urban
1	2	3	4	5
1	Maliya	945	945	0
2	Morvi	921	919	922
3	Tankara	965	965	0
4	Wankaner	941	942	936
5	Paddhari	976	980	951
6	Rajkot	910	932	907
7	Lodhika	958	958	0
8	Kotda Sangani	874	874	0
9	Jasdan	962	971	912
10	Gondal	939	958	908
11	Jamkandorna	986	986	0
12	Upleta	950	947	955
13	Dhoraji	961	957	964
14	Jetpur	923	939	905
	District Total :	**930**	**947**	**915**

Table 6 gives the detail of sex ratio for total, rural and urban areas at taluka level as per 2001 Census. There are 930 females per 1000 males in Rajkot district. It becomes clear from the table that sex ratio in rural area is higher than that of urban areas of Rajkot district.

Among talukas of the district Jamkandorna has recorded the highest sex ratio of 986 females per 1000 males whereas Kotdasangani has the lowest sex ratio of 874 females per 1,000 males.

TABLE 7

SEX RATIO BY TALUKAS/C.D. BLOCKS, 2001

Sl No.	Name of Taluka/ C.D.Block	Sex Ratio
1	2	3
1	Maliya	945
2	Morvi	919
3	Tankara	965
4	Wankaner	942
5	Paddhari	980
6	Rajkot	932
7	Lodhika	958

12	Upleta	947
13	Dhoraji	957
14	Jetpur	939
	District (Rural) Total :	**947**

Table 7 gives the detail of talukawise sex ratio for rural population in the district. The sex ratio in rural areas of the district is 947 females per 1,000 males. The highest sex ratio among C.D. Blocks/Talukas is found in Jamkandorna at 986 females per 1,000 males while the lowest sex ratio of 919 is found in Morvi.

TABLE 8

SEX RATIO OF RURAL POPULATION BY RANGES,2001

Range of Sex Ratio for Villages	Number of Inhabited Villages	Percentage of Villages in each Range	Population 2001	Percentage Distribution of Popultion
1	2	3	4	5
Less than 700	3	0.4	9,258	0.6
700-749	2	0.2	16,903	1.1
750-799	5	0.6	9,484	0.6
800-849	16	1.9	14,765	1.0
850-899	107	12.7	1,69,239	11.0
900-949	273	32.3	5,43,047	35.2
950-999	251	29.7	5,18,970	33.6
1000-1099	171	20.3	2,38,545	15.4
1100+	16	1.9	23,808	1.5
District Total :	**844**	**100.0**	**1,544,019**	**100.0**

Sex ratio (Rural) for District: 947

Table 8 gives the detail of the distribution of villages by 9 different sex ratio ranges based on 2001 Census. Out of 844 inhabited villages 273 villages i.e. 32.3 per cent of total villages having 35.2 per cent of total rural population are in the sex ratio range of 900-949 followed by 251 villages (29.7 per cent) with 33.6 per cent population in the range of 950-999. Thus, 62 per cent of villages with 68.8 per cent of rural population have sex ratio between 900-999. The higher range of 1,000-1,099 covers 171 villages (20.3 per cent) having 15.4 per cent population while 16 villages are in the highest range of 1,100 and more with only 1.5 per cent of population. There are 107 villages (12.7 per cent) in range of 850-899 having 11 per cent of rural population and total of 23 villages (2.7 per cent) are within the sex ratio range of 700-849 and they all together claims 2.7 per cent of population. Only 3 villages have sex ratio of less than 700 and population of these villages is only 0.6 per cent of total rural population.

TABLE 9

		Urban	**202,571**	**110,775**	**91,796**	**829**

Table 10 shows the sex ratio of the population in age group of 0-6 years for total, rural and urban areas in respect of each taluka of the district.

The total population of 0-6 years children in the district is 427,184 out of which 230,402 are males and 196,782 are females. The sex ratio for 0-6 years is 854 for district. In rural and urban areas the sex ratio is 878 and 829 respectively. This indicates that the proportion of female child is higher in rural areas than that of urban areas.

Among talukas the highest and the lowest rural sex ratio of 932 and 824 are recorded in Wankaner and Gondal talukas respectively. In urban areas the highest sex ratio of 898 is recorded in Paddhari and the lowest of 776 in Gondal in 0-6 years of age group.

TABLE 11

SEX RATIO OF POPULATION IN THE AGE GROUP 0-6 FOR TALUKAS/ C.D.BLOCKS, 2001

Sl. No.	Name of Taluka/C.D. Block	Total Population in 0-6 Age Group			Sex Ratio for 0-6 Age Group

District (Rural) Total :	**844**	**100.0**	**224,613**	**100.0**

Sex ratio (Rural) for District : 878

Table12 gives the detail about the distribution of villages in nine different ranges of sex ratio in the age group of 0-6 years as well as percentage of villages total population and percentage distribution of population falling in each range of sex ratio in the district. 144 villages are in the range of 850-899 with the largest population of 21.4 per cent followed by 135 villages in range of 800-849 having 18.4 per cent of total population. 70, 53 and 89 villages are in the lower ranges of less than 700, 700-749 and 750-799 respectively the population in this range comes at 4.8 per cent, 5.3 per cent and 11.2 per cent respectively. There are 67 villages in the highest range of 1100 and more with 4.5 per cent of population. 80 and 99 villages are in the higher range of 950-999 and 1,000-1,099 respectively and population in this range is 10.6 per cent and 10 per cent respectively.

UA= Urban Agglomeration

Table13 gives the detail about sex ratio of population in the age group 0-6 years of urban agglomeration/Towns of the district as per 2001 Census. The total urban population in 0-6 age group is 202,571 comprising 110,775 males and 91,796 females. The total sex ratio in this age group is 829 females per 1,000 males in the district. The sex ratio among UA/Towns varies from the lowest of 774 in Gondal (M) to the highest of 898 in Paddhari (CT).

Table 14 shows number and percentage of Scheduled Castes and Scheduled Tribes population in Talukas as per 2001 Census. Out of total district population of 3,169,881 persons 244,364 (7.7 per cent) belong to Scheduled Castes and 13,163 (0.4 per cent) belong to Scheduled Tribes. In rural areas 9.1 per cent of populations belong to Scheduled Castes and 0.3 per cent belongs to Scheduled Tribes while in urban areas 6.4 per cent of population belongs to Scheduled Castes and 0.5 per cent belongs to Scheduled Tribes. Thus urban areas have more proportion of Scheduled Tribes population and lower proportion of Scheduled Castes population as compared to those of rural areas.

The highest percentage of Scheduled Castes population is recorded in Lodhika taluka (12.6 per cent) while in number terms Rajkot has the highest (78,722 persons) population of Scheduled Castes. The lowest percentage of Scheduled Castes population is found in Jasdan (5.4 per cent) taluka while the lowest number of Scheduled Castes population of 4,652 is recorded in Maliya taluka.

The highest and the lowest numbers of Scheduled Tribes population 8,136 persons and 126 persons are recorded in Rajkot and Maliya talukas respectively. In percentage terms the proportion of Scheduled Tribes population varies from 0.1 per cent (Jetpur and Dhoraji) to 0.7 per cent (Rajkot).

TABLE 15

NUMBER AND PERCENTAGE OF SCHEDULED CASTES AND SCHEDULED TRIBES POPULATION IN TALUKAS / C.D.BLOCKS, 2001

Table 15 gives the detail about the distribution of Scheduled Castes and Scheduled Tribes population for rural areas in each Taluka/C.D. Block of the district. Out of the rural population of the district 9.1 per cent belong to Scheduled Castes and 0.3 per cent of the population belongs to Scheduled Tribes. In percentage terms Lodhika has the highest proportion of 12.6 per cent of Scheduled Castes population and Wankaner has the lowest of 4.8 per cent of the same. In number terms Gondal has 16,546 populations of Scheduled Castes which is the highest and Maliya has Scheduled Castes population of 4,652 which is the lowest. As regards Scheduled Tribes population Rajkot has highest Scheduled Tribes population of 631 persons and the lowest Scheduled Tribes population of only 101 persons is recorded in Dhoraji. In percentage terms Upleta and Dhoraji has the lowest Scheduled Tribes population proportion of 0.1 per cent and the highest Scheduled Tribes population of 0.7 per cent is recorded in Paddhari.

TABLE 16

PROPORTION OF SCHEDULED CASTES POPULATION TO TOTAL POPULATION IN VILLAGES, 2001

Percentage range of Scheduled Castes Population to Total Population	Number of Villages	Percentage	Scheduled Castes Population	Percentage

District Total :	**844**	**100.0**	**140,500**	**100.0**

Table 16 gives the detail about the number of villages according to the proportion of Scheduled Castes population to their total population in nine different ranges of percentage at district level. Out of 844 inhabited villages of the district 124 villages (14.7 per cent) do not have any Scheduled Castes population. The proportion of Scheduled Castes population is less than 5 per cent in 182 villages constituting 21.6 per cent of total villages. In 272 villages (32.2 per cent) are in the range of 5-10 with 33.4 per cent of Scheduled Caste population and 202 villages (23.9 per cent) who have 43.7 per cent of Scheduled Caste population are in the range of 11-20. 54 villages (6.4 per cent) are in the range of 21-30 and they have Scheduled Caste population of 13.2 per cent. There are 7, 2 and1 villages in range of 31-40, 41-50 and 76 and above respectively and together they have Scheduled Castes population of only 2.8 per cent. There is no village in the range 51-75 per cent. And hence there is no Scheduled Castes population reported in this range.

TABLE 17

PROPORTION OF SCHEDULED TRIBES POPULATION TO TOTAL POPULATION IN VILLAGES, 2001

UA =Urban Agglomeration

Table 18 gives the detail about the distribution of Scheduled Castes and Scheduled Tribes population as well as their percentage to total population in UA/ Towns as per 2001 Census.

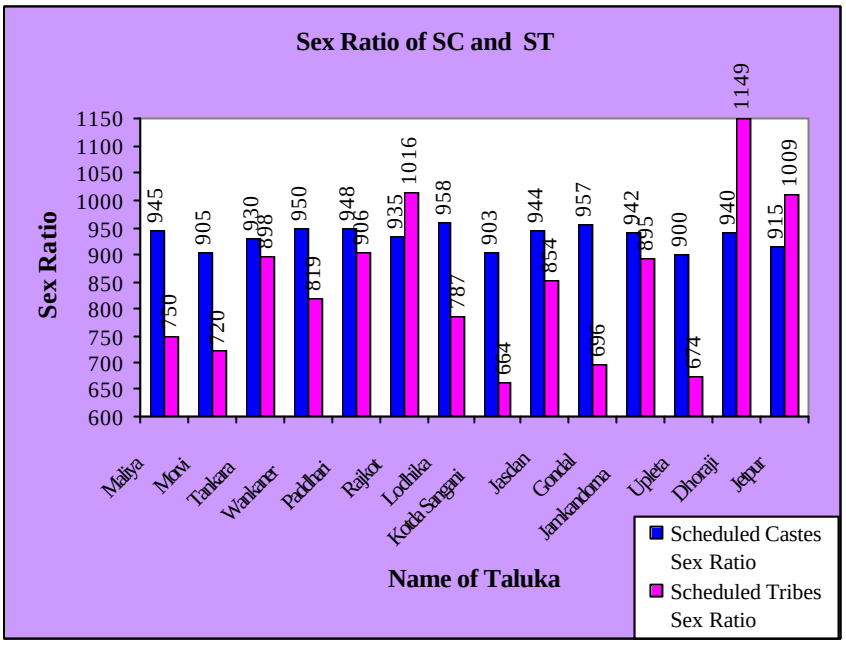

Out of district (urban) population of 1,625,862 the Scheduled Castes population is 103,864 which is 6.4 per cent of total urban population. The district (urban) Scheduled Tribes population is 8,901 which is 0.5 per cent of district (urban) population.

The highest proportion of 11.8 per cent of Scheduled Castes population is recorded in Bhayavadar (M) and the lowest of 3.2 per cent is recorded in Jasdan (M). In numbers Rajkot (UA) has the highest Scheduled Castes population of 66,198 persons and the lowest of Scheduled Castes population of 453 is recorded in Paddhari (CT).

The highest and the lowest Scheduled Tribes population of 7,505 persons and 11 persons is recorded in Rajkot (UA) and Bhayavadar (M) respectively. In percentage term the proportion varies between 0.1 per cent and 0.8 per cent.

TABLE 19

SEX RATIO AMONG SCHEDULED CASTES AND SCHEDULED TRIBES IN TALUKAS / C. D. BLOCKS, 2001

Sl. No.	Name of Taluka/ C.D. Block	Scheduled Castes Sex Ratio	Scheduled Tribes Sex Ratio

	Sex ratio (Urban) for the district :	**926**	**885**

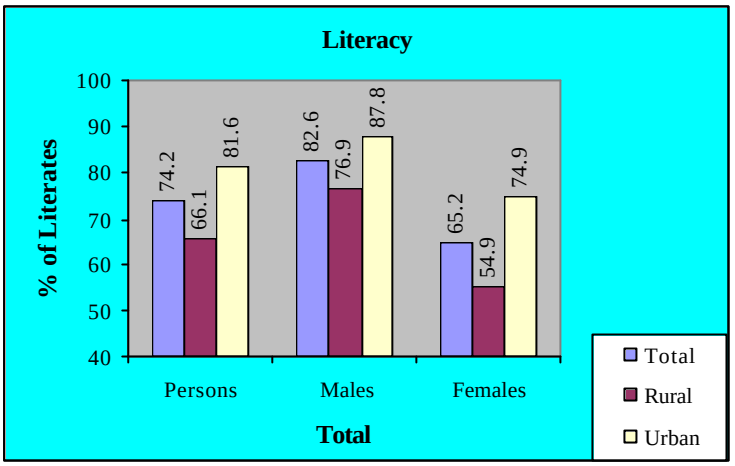

UA=Urban Agglomeration.

Table 20 indicates the sex ratio among Scheduled Castes and Scheduled Tribes in each UA/Towns of the district as per 2001 Census.

The Scheduled Castes and Scheduled Tribes sex ratio (urban) for the district are 926 and 885 respectively.

Among UA/Towns Paddhari (CT) has recorded 1,041 Scheduled Castes females per 1,000 Scheduled Castes males which is the highest in the district, whereas the lowest sex ratio of 888 is reported in Jetpur. Navagadh (M). Among Scheduled Tribe Bhayavadar (M) and Jetpur Navagadh (M) have reported the highest and the lowest Scheduled Tribes sex ratio of 1,200 and 725 respectively.

Table 21 shows talukawise literacy rate with the absolute number of literates and illiterates for total with rural and urban areas separately for the population above the age of six. As per 2001 Census the proportion of effective literates to total population is 74.2 per cent in the district. This proportion is 66.1 per cent in rural areas and 81.6 per cent in urban areas. The male literacy rate is 82.6 per cent and the female literacy rate is 65..2 percentage points. This leaves a gap of 17.4 percentage points in male-female literacy rate. Among talukas Rajkot has literacy rate of 80.6 per cent which is the highest in district while the lowest literacy rate of 58.1 per cent recorded in Maliya taluka. The gap in male-female literacy rate varies between 12.6 percentage points recorded for Rajkot to 28 percentage points recorded for Wankaner. The male-female literacy gap in urban areas is 12.8 percentage points which is lower than the gap of 22.1 percentage points recorded in rural areas. This indicates that there are more females literates in urban areas than that of rural areas.

Table 22 reveals the effective literacy rate and absolute numbers of literates and illiterates for the rural population of the district. It can be seen that 66.1 per cent of rural population, excluding the population of 0-6 year, is literate in the district. The corresponding proportion of males and females literates comes to 76.9 per cent and 54.9 per cent respectively. This leaves a gap of 22.1 percentage points in male-female literacy rate. Among Talukas/ C.D. Blocks Dhoraji has recorded the highest literacy rate of 72.4 per cent against the lowest literacy rate of 55.2 per cent found in Jasdan. The highest gap of 30.9 percentage points in male-female literacy rate is found in Wankaner while the lowest of 14 percentage points is recorded in Jamkandorana.

TABLE 23

DISTRIBUTION OF VILLAGES BY LITERACY RATE RANGE, 2001

Range of Literacy Rate for Villages	Number of Inhabited Villages	Percentage Distribution of Villages	Population	Percentage Distribution of Population
1	2	3	4	5
0	0	0.0	0	0.0
1-10	0	0.0	0	0.0

100	0	0.0	0	0.0
District Total :	**844**	**100.0**	**1,544,019**	**100.0**

Literacy rate for District: 74.2

Table 23 gives the distribution of villages in 12 different ranges of literacy rate in the district. It can be seen that there are no villages in literacy ranges of 0, 1-10, 91-99 and 100. The highest numbers of villages i.e. 318 or 37.7 per cent of inhabited villages are in the range of 61-70 and these villages have 36.8 per cent of total rural population. 251 villages with 37.9 per cent of population are in the range of 71-80 and 119 villages are in the range of 51-60 with 10.4 per cent of population. 82, 38, 8 and 1 villages are in the range of 41-50, 31-40, 21-30 and 11-20 respectively. The combined population in these villages is 12 of per cent of total population. 27 villages have the highest literacy rate of 81-90 percentages and population of these villages is 3 per cent of total population.

UA= Urban Agglomeration

Table 24 shows the absolute number and percentage of literates by sex in UA/Towns of the district. The population covered for calculating the literacy rate does not include population of age 0-6, because population of age group 0-6 years is supposed to be illiterate. It can be seen from the data that 81.6 per cent of population is literate in Rajkot. The male and female literacy rates are 87.8 per cent and 74.9 per cent. This indicates a gap of 12.8 percentage points in male/female literacy rates. Among UA/Towns the highest rate of 83.5 per cent is recorded in Rajkot (M Corp.) while the lowest of 74.3 per centin Paddhari (CT).

As regards gap in male/female literacy rate the highest gap of 18.2 percentage points is recorded in Wankaner (M) whereas the lowest gap of 11.0 percentage points is registered in Rajkot (M Corp.).

Table 25 shows number and percentage of Scheduled Castes literates and illiterates by sex in C.D. Blocks of the district. The district (rural) literacy rate for Scheduled Castes is 64.4 per cent. The male and female Scheduled Castes literacy rates are 78.5 per cent and 49.2 per cent respectively. The gap in literacy rate between two genders is recorded at 29.4 percentage points. The highest literacy rate of 67 per cent is registered in Paddhari and the lowest rate of 57.8 per cent is recorded in Jasdan. Wankaner has the highest gap of 33.6 percentage points in male-female literacy rate whereas the lowest gap of 25.4 percentage points is recorded in Jamkandorana.

Table 28 gives the detail about number and percentage of Scheduled Tribes literates and illiterates by sex in Taluka/C.D. Blocks as per 2001 Census. The district (rural) Scheduled Tribes literacy rate comes at 39.8 per cent. The Scheduled Tribes male and female literacy rate is 48.4 per cent and 29.2 per cent respectively. Among Taluka/C.D. Blocks in the district Upleta has the highest literacy rate of 66.4 per cent and the lowest of 25 per cent in Taluka/C.D. Block of Tankara and Dhoraji. As far as literacy rate of male is concerned Upleta has the highest literacy rate of 70.4 per cent and the lowest of 32.4 per cent is recorded in Dhoraji. The highest female literacy rate of 60.8 per cent is recorded in Upleta against the lowest of 13.6 per cent recorded in Tankara.

***Towns having outgrowths.

Table 30 gives the detail about number and percentage of Scheduled Tribes literates and illiterates by sex in towns as per 2001 Census. It can be seen that in Rajkot district the urban Scheduled Tribes literacy rate is recorded at 75.2 per cent. The male and female literacy rates are recorded at 81.2 per cent and 68.4 per cent respectively.Thus the male-female literacy gap for district (urban) is 12.8 per cent. Among towns Bhayavadar (M), Jasdan (M) have shown 100 per cent literacy rate followed by Paddhari (CT) where 83.8 per cent of literacy rate is recorded. The lowest Scheduled Tribes literacy rate of 42 per cent among towns is recorded in Morvi (M+OG). The highest and the lowest gap in male-female literacy rate are recorded in Gondal (M+OG) at 25.6 percentage points and in Wankaner (M) at 4.7 percentage points respectively.

Table 31 gives absolute number and percentage of main workers, marginal workers and non-workers by sex in Talukas of the district as per 2001 Census. The proportion of total workers to total population is 39.3 per cent. The corresponding proportion of main workers is 34 per cent and that of marginal workers is 5.3 per cent. The remaining 60.7 per cent are non-workers, which can be considered a big proportion. The proportion of total male workers to total male population is 55.9 per cent and that of female is 21.4 per cent. Male-female proportions of main workers are 53.6 per cent and 12.9 per cent respectively whereas among marginal workers male-female proportion is recorded at 2.4 per cent and 8.5 per cent. The proportion of male non-workers is 44.1 per cent and that of female is 78.6 per cent. Among talukas in Kotda Sangani taluka total workers are 50.3 per cent of population, which is the highest while the lowest proportion of 34.2 per cent of total workers is found in Rajkot. The highest and the lowest percentage proportion of non-workers is recorded in Rajkot at 65.8 per cent and in Kotda Sangani at 49.7 per cent. Kotda Sangani has 43.4 per cent of total population as main workers which is the highest among talukas while the lowest of 31.7 per cent is recorded in Rajkot. The highest and the lowest proportion of marginal workers are recorded in Jasdan at 10.1 per cent and Rajkot at 2.6 per cent. Thus it can be observed from the data that Rajkot has the highest percentage of non-workers and the lowest proportion of all other types of workers.

Table 32 shows number and percentage of main workers, marginal workers and non-workers by sex in Taluka/C.D.Blocks as per 2001Census.The district (rural) proportion of total workers, main workers, marginal workers and non-workers to total population are 46.7 per cent, 37.7 per cent, 9 per cent and 53.3

per cent respectively. The highest and the lowest percentages of total workers are recorded in Wankaner (51.7 per cent) and in Maliya (38.5 per cent) respectively. It can be observed from the table that proportion of male main workers (54.4 per cent) is significantly higher than that of female (20.1 per cent) but the reverse pattern is observed among marginal workers where female participation is higher (15.1 per cent) than that of the male participation (3.3 per cent). This is due to the fact that women are also pursuing more activities including daily house hold duties. As regards non workers the highest proportion of 61.5 per cent is recorded in Maliya while the lowest of 48.3 per cent is recorded in Wankaner. As in the case of female participation is higher at 64.8 per cent against that of males at 42.3 per cent.

U A Urban Agglomeration

Table 33 shows the absolute number and percentage of main workers, marginal workers and non-workers by sex in UA/Towns as per 2001 Census. As the table reveals total workers are 32.2 per cent of total (urban) population. Out of this 30.4 per cent are main workers and 1.8 per cent are marginal workers. The remaining 67.8 per cent are non-workers. The sexwise break-up shows that 54.3 per cent of male population is of total workers while proportion of females total workers is only 8 per cent. Among main workers the male female participation is 52.9 per cent and 5.9 per cent respectively and proportion of these two genders among marginal workers is 1.5 per cent and 2.1 respectively. The male non-workers are 45.7 per cent of male population and female non-workers are in huge proportion of 92 per cent of female population. Among UA/Towns of the district Bhayavadar has the highest proportion of total workers (36.2 per cent) and the lowest total workers proportion of 30.3 per cent is recorded in Gondal (UA) while Gondal (UA) has the highest (69.7 per cent) proportion of non-workers and Bhayavadar (M) has the lowest (63.8 per cent) proportion of non-workers.

Note: Percentage of Worker to total worker are given in brackets

Table 34 reveals economic activity in the district. It shows distribution of workers by sex in four categories of economic activity in talukas of the district as per 2001 Census. In the district total workers (Main + Marginal) are 39.3 per cent of total population. These workers are distributed in four economic activities viz. Cultivators, Agricultural labourers, Household Industry workers and Other workers. It can be observed that 29.6 per cent of total workers are Cultivators, 14.4 per cent are Agricultural labourers, 2 per cent are Household Industry workers and 54 per cent are Other workers. Thus more than 50 per cent are employed in 'Other Sector', and about 44 per cent are engaged in agricultural activities females are seen more employed in agricultural activities than males as almost 73 per cent of females are employed as Cultivators and agricultural labourers. Males are more employed in other work as among other workers their participation is as high as 64.8 per cent against that of females at 23.6 per cent. The proportion of female Household Industry workers is also higher (3.4 per cent) than that of male (1.5 per cent) in the district. Among talukas Rajkot has the highest (84.7 per cent) proportion of other workers and the lowest proportion (19.5 per cent) of other workers is recorded in Jamkandorna. Cultivators are 58.6 per cent of total workers in Jamkandorna which is the highest among talukas while in Rajkot cultivators are only 8.8 per cent of total workers, which is the lowest among talukas. The highest and the lowest proportion of Agricultural labourers are recorded in talukas of Upleta (32.8 per cent) and Rajkot (3.6 per cent) respectively. The proportion of Household Industry workers varies from the lowest of 1.0 per cent in Maliya taluka to the highest of 2.9 per cent in Rajkot taluka.

Note: Percentage of Worker to total worker are given in brackets

Table 35 presents about distribution of workers by sex in four categories of economic activity. As the table shows total workers (main + marginal) are 46.7 per cent of total population in the rural areas of the district. Among these workers 49.5 per cent are Cultivators, 23.2 per cent are Agricultural labourers, 1.3 per cent are Household Industry workers and 26 per cent are Other workers. It can be seen that in the rural areas of the district agriculture plays a major role in providing employment while Household Industry sector is not major employment provider. Among Cultivators male workers participation is 46 per cent which is lower than that of female participation of 55.5 per cent. Same trend is observed in case of agricultural labourers where male participation is 18 per cent and that of female is 32.1 per cent. Among Household Industry workers male-female participation is almost equal at around 1.3 per cent but among Other workers male proportion is on higher side at 34.6 per cent against the female participation of 11.1 per cent. Among Taluka/C.D. Blocks the proportion of Cultivators varies from 35.2 per cent recorded in Maliya to 58.6 per cent in Jamknadorna. The highest percentage of 41.1 per cent of Agricultural labourers is recorded in Dhoraji while the lowest of 18.1 per cent is in Wankaner.The share of Household Industry workers is comparatively very low in all Taluka/C.D. Blocks. The highest and the lowest proportion of Other workers are recorded at 41.9 per cent in Morvi and at 14.8 per cent in Upleta.

UA=Urban Agglomeration.

Table 36 details the distribution of workers by sex in four categories of Economic Activity in UA/ Towns of the urban areas of the district. Total workers (main + marginal) are 32.2 per cent of total population. Among these workers Cultivators are 2.2 per cent, Agricultural labourers are also about 2.2 per cent, Household Industry workers 2.9 per cent and Other workers 92.7 per cent. Thus it is clearly indicated that other work plays a major role in providing employment to the working force of urban population. The sexwise break-up shows that male total workers are 54.3 per cent of male population while the female total workers are 8 per cent of total female population. Among Cultivators, Agricultural labourers, Household Industry workers and Other workers male participation is 2 per cent, 1.6 per cent, 1.7 per cent and 94.7 per cent respectively, whereas the female participation for above four categories is 4.2 per cent, 6.2 per cent, 12.4 per cent and 77.2 per cent respectively. The data shows that except for Other workers the female participation in percentage term is higher than that of male for all other categories of economic activity. Among UA/ Towns Bhayavadar (M) has reported the highest percentage of 36.2 per cent of total workers while the lowest of 30.3 per cent are recorded in Gondal (UA). Bhayavadar (M) has reported the highest

percentage proportion of cultivators and Agricultural labourers at 28.2 per cent and 39.1 per cent respectively, while Rajkot (UA) has the lowest proportion of cultivators at 0.5 per cent and Wankaner (M) has reported the lowest proportion of 0.2 per cent of Agricultural labourers. Wankaner (M) has the highest proportion of 4.3 per cent of Household Industry workers and the lowest of 1.2 per cent is found in Bhayavadar (M). As regards Other workers the highest and the lowest percentage are reported in Rajkot (UA) at 95.6 per cent and in Bhayavadar (M) at 31.6 per cent respectively.

Note : Percentages are given in brackets.

* Based on the improved drinking water source, drinking water supply has been classified as 'Improved ' or otherwise. If the household has access to drinking water supplied from a tap or a hand pump / tube well situated within or outside the premises it is considered as having access to 'Improved drinking water source'. However, the concept of improved drinking water is state specific and this is to be considered accordingly.

Post office includes Post office, telegraph office and Post and telegraph office.

$ Transport communication includes bus service, rail facility and navigable waterways.

The village directory data supplied by the village officials are presented in Part-A of this handbook. It shows various type of amenities and land use data of each village of the district. These data have been tabulated for talukas of the district in form of village directory. On the basis of these data certain tables have been designed and brief analytical note on these tables is also given below.

Table 37 shows the distribution of villages according to availability of different amenities. Out of 844 inhabited villages in the district 842 (99.8 per cent) have Education facilities, 542 (64.2 per cent) have Medical facilities, 833 (98.7 per cent) have Improved drinking water facilities, 530 (62.8 per cent) have Post Office, 661 (78.3 per cent) have Telephone, 830 (98.3 per cent) have Transport Communication, 115 (13.6 per cent) have Banks, 395 (46.8 per cent) have Agricultural Credit Societies, 690 (81.8 per cent) have Approach by pucca road and all the villages i.e cent percent have Power supply. It can be seen that Banking facility is not adequately available in the rural areas of the district while Education and Power supply facilities are available to almost every village. Medical, Telephone and Agricultural Credit Society facility are also not available to a significant number of villages. The same trend is also visible among Taluka/C.D. Blocks of the district.

Note: Percentages are given in brackets.

* Based on the improved drinking water source, drinking water supply has been classified as 'Improved ' or otherwise. If the household has access to drinking water supplied from a tap or a hand pump / tube well situated within or outside the premises it is considered as having access to 'Improved drinking water source'.
However, the concept of improved drinking water is stated specific and this is to be considered accordingly.

\# Post office includes Post office, telegraph office and Post and telegraph office.

$ Transport communication includes bus service, rail facility and navigable waterways.

Table 38 details about the number and per cent of rural population served by different amenities as per 2001 Census. Out of total rural population of 1,544,019 persons 99.9 per cent population i.e. 1,543,587 persons have Educational facility of one or other type. As for other facilities 79.1 per cent of population have Medical, 98.7 per cent have Improved drinking water, 80.4 per cent have Post Office, 88.2 per cent have Telephone, 99.4 per cent have Transport Communication, 32.4 per cent have Banks, 65.8 per cent have Agricultural Credit Societies, 90 per cent have Approach by pucca road and cent percent population has Power Supply facility. It can be observed that Banking facilities are not available to almost 68 per cent of population.

TABLE 39

DISTRIBUTION OF VILLAGES NOT HAVING CERTAIN AMENITIES, ARRANGED BY DISTANCE RANGES FROM THE PLACES WHERE THESE ARE AVAILABLE, 2001

Village Not Having the Amenity of	Distance Range of Place from the Villages where the Amenity is Available			
	Less than 5 Kilometers	5-10 Kilometers	10+ Kilometers	Total (Col. 2 - 4)
1	2	3	4	5
1. Education :-

Note : # Post office includes Post office, Telegraph office and Post and telegraph office.
$ Transport communication includes bus service, rail facility and navigable waterways.

Table 40 detail above villages are distributed in four ranges according to the distance from the nearest statutory town and availability of different amenities. Out of 844 inhabited villages of the district 22 villages have nearest statutory town within a distance of 5 kms. All these 22 villages have Education facility while 21 villages have Transport and Communication facilities, 20 villages have Approach by pucca road, 17 have Telephone, 14 have Post Office, 10 have Agricultural Credit Society, 8 have Medical facility and only 2 villages in this range have Banking facility.297 villages are situated at a distance of 5 to 15 kms. from the nearest statutory town. Out of these 297 villages, 296 villages have facility of Education, 294 have Transport Communication facility, 265 have facility of Approach by pucca road, 200 villages have Post Office facility, 196 villages have Medical facility, 144 villages have facility of Agricultural Credit Society and only 49 villages in this range have Banking facility. Out of total of 844 villages, majority of villages, i.e. 523 villages are located at a distance of 16 kms. but less than 51 kms. from the nearest town. Out of these, 522 villages have Educational facility, 513 have Transport Communication facility, 404 have Approach by pucca road and 391 have Telephone facility, 338 have Medical facility, 315 have Post Office, 241 have Agricultural Credit Society and 64 villages have Banks. Only two villages are in the range of 51 kms. or more from the nearest statutory town. All these two villages have facility of Education, Telephone and Transport Communication. One village has facility of Post Office and Approach by pucca road. Other facilities such as Medical, Banking and Agricultural Credit Society are not available to any of the villages in this range. There is no village in the range 'unspecified'.

Note : Percentages are given in brackets.

* Based on the improved drinking water source, drinking water supply has been classified as 'Improved ' or otherwise. If the household has access to drinking water supplied from a tap or a hand pump / tube well situated within or outside the premises it is considered as having access to 'Improved drinking water source'.

However, the concept of improved drinking water is state specific and this is to be considered accordingly.

\# Post office includes Post office, telegraph office and Post and telegraph office.

$ Transport communication includes bus service, rail facility and navigable waterways.

Table 41 shows distribution of villages according to population range and amenities available as per 2001 Census. For this purpose villages are distributed in six different ranges of population. There are 8 villages in the highest population range of 10,000 or more and all these 8 villages are fully enjoying all the facilities. There are 29 villages in the next higher population range of 5000-9999. All these 29 villages have facilities of Education, Medical, Post Office, Telephone, Transport Communication, Approach by pucca road and Power supply. 28 villages in this range have Improved drinking water facility, 27 have Agricultural Credit Society and 23 have Banks.216 villages are in the range of 2000-4999 and all these villages have Education, Transport Communication and Power supply facilities. The availability of other facilities varies from 69 villages who have Banking facility to 214 villages that have improved drinking water facility. It can be observed that Education and Power supply facilitities are almost available to cent percent villages while other facilities are available within the proportion of 13.6 per cent for Banks to 98.7 per cent for Improved drinking water. It can also be observed that villages with low population do not have adequate amenities as compared to villages with higher population.

TABLE 42

DISTRIBUTION OF VILLAGES ACCORDING TO LAND USE, 2001

Sl. No.	Name of Taluka/ C. D. Block	Number of Inhabited Villages	Total Area	Percentage of Cultivable Area to Total Area	Percentage of Irrigated Area to Total Cultivable Area
1	2	3	4	5	6
1	Maliya	47	76,998.1	67.5	1.2
2	Morvi	76	102,165.7	76.9	15.2
3	Tankara	47	66,770.6	71.1	25.8
4	Wankaner	100	110,154.3	52.7	31.3
5	Paddhari	57	58,322.1	72.9	34.2
6	Rajkot	84	90,313.1	64.8	28.7
7	Lodhika	38	37,323.2	65.8	14.5
8	Kotda Sangani	41	44,702.5	71.3	39.4
9	Jasdan	101	128,214.4	68	24.3
10	Gondal	80	111,622.7	79.5	27.8
11	Jamkandorna	47	56,029.2	72.9	29.8
12	Upleta	49	64,839.3	73.8	43.9
13	Dhoraji	30	41,506.1	81.5	54.9
14	Jetpur	47	61,722.4	78.7	29.6
	District Total :	**844**	**1,050,693.7**	**70.5**	**27.3**

Note : Cultivable area = irrigated area + unirrigated area

Table 42 presents distribution of villages according to land use. The total area of 844 inhabited villages of the district is reported to be 1,050,693.7 hectares.70.5 per cent of total area is cultivable area and 27.3 per cent of cultivable area is reported as Irrigated area.

Among Taluka/C.D.Blocks Jasdan has the highest total area of 128,214.4 hectares in101villages. In percentage terms the highest cultivable area to total area of 81.5 per cent is reported in Dhoraji, while the lowest of 52.7 per cent is recorded in Wankaner Taluka/C.D. Block. Maliya has only 1.2 per cent cultivable area as irrigated area which is the lowest and the highest proportion. No irrigated area to cultivable area of 54.9 per cent is recorded in Dhoraji.

TABLE 43

9	Wankaner (M)	2.5	0	1.2	0.5	0.2
	District Total :	**3.3**	**0**	**1.9**	**0.7**	**0.2**

* Towns having outgrowths.

Note : In Gujarat State, the Levels of Education are classified as under.

(i) Primary School (From Std. I to VII Passed)

(ii) Secondary / Matriculetion (Std. 8 VII to X Passed)

(iii) Higher Secondary (From Std. XI to XII Passed) Hence the Middle school is '0'.

* Town Having outgrowths.

Table 44 shows schools/colleges per 10,000 population in statutory towns of Rajkot district. There are 3.3 primary schools, 1.9 secondary schools, 0.7 senior secondary and 0.2 colleges per 10,000 population in towns of the district. Jetpur (M) has 4.5 primary schools per 10,000 population which is the highest among towns while Morvi (M) has 2.4 schools which is the lowest among towns. Rajkot (M Corp) has 2.4 secondary and Morvi (M) has 0.6 secondary schools per 10,000 populations which are the highest and the lowest among towns respectivly. As regards senior secondary Bhayavadar (M) has the highest number or senior secondary (1.6) and Morvi (M) has the lowest (0.2) number of senior secondary school per 10,000 of population. Bhayavadar (M) and Upleta (M) both each have 0.5 colleges per 10,000 of population which is the highest among towns and Jetpur (M) has 0.1 colleges per 10,000 populations which is the lowest.

TABLE 45

NUMBER OF BEDS IN MEDICAL INSTITUTIONS IN TOWNS, 2001

Sl. No.	Name and Urban Status of the Town	Number of Beds in Medical Institutions per 10,000 Population

8	Rajkot(M.Corp)*	15
9	Upleta(M)	27
10	Wankaner(M)	61
	District Total :	**18**

* Towns having outgrowths

Table 45 gives the detail about the number of beds in Medical Institutions per 10,000 population in urban areas of the district. At district level there are 18 beds in medical institution in towns of the district per 10,000 populations. Among the towns Wankaner (M) has 61 beds which are the highest and 8 the lowest of beds per 10,000 populations are reported in medical institution of Jasdan (M).

TABLE 46

PROPORTION OF SLUM POPULATION IN TOWNS, 2001

Sl. No.	Name of the Town	Total Population	Slum Population	Percentage of Slum Population to Total Population
1	2	3	4	5
1	Bhayavadar	18,254	7,695	42.2
2	Dhoraji	80,811	16,345	20.2
3	Gondal	97,506	9,600	9.8
4	Jasdan	39,046	9,702	24.8
5	Jetpur	104,312	39,922	38.3
6	Morvi	178,055	13,000	7.3
7	Rajkot	1,003,015	88,818	8.9
8	Upleta	55,438	16,000	28.9
9	Wankaner	40,191	18,738	46.6
	District Total :	**1,616,628**	**219,820**	**13.6**

Table 46 shows proportion of slum population in towns of the district. It can be seen that slum population of 219,820 is reported in 9 towns of the district. The total population of these 9 towns is 1,616,628 and slum population in these towns is 13.6 per cent of their total population.

Among these 9 towns Rajkot has the highest slum population of 88,818 while the lowest slum population of 7,695 is in Bhayavadar. In percentage terms Wankaner has 46.6 per cent of total population reported as slum population, which is the highest, and the lowest proportion of 7.3 per cent of slum population to total population is reported in Morvi.

TABLE 47

MOST IMPORTANT COMMODITY EXPORTED OUT OF AND MANUFACTURED IN TOWNS, 2001

Sl. No.	Name and Urban Status of Town	Most Important Commodity

Source: Census of India 2001, H- series: "Tables on Houses, Household amenities and Assets."

Table 48 shows the number of Households by tenure status and number of rooms occupied in the district. The total numbers of households in the district are 584,677 having 273,941 households in rural areas and 310,736 households in urban areas. Out of total households 55,192 belong to Scheduled Castes and 13,492 households belong to Scheduled Tribes. Out of total households of the district 488,566 (83.6 per cent) households are living in their owned house, 75,155 (12.9 per cent) are living in rented house and the remaining 20,956 (3.6 per cent) households are living in others type of households. Out of total households in the district the largest number of households, i.e. 242,402 have only one room accommodation, 215,690 households have two room accommodation, 70,718 households have three rooms and 51,942 have more than three room accommodation. 3,925 households do not have any exclusive room. It is also observed that 89.2 per cent of rural households are owned and 78.6 per cent of households in urban areas are owned households. The median number of room is 2 for rural areas as well as urban areas.

Note : Permanent: Permanent houses refers to those houses whose wall & roofs are made of pucca materials i.e., where, burnt bricks, G.I. Sheets or other metal sheets, stone cement concrete is used for wall and tiles slate, shingle, corrugated iron, zinc or other metal sheets asbestos sheets, bricks, lime and stone and RBC/RCC concreate are used for roof.

Semi permanent:-2 Semi-permanent houses refer to those houses made of other types of materials

Temporary:-3 Temporary houses refers to those houses having wall and roofs made of Kutcha materials i.e. where grass, leaves, reeds, amboo mud, unburnt bricks are used for the construction of walls and grass, leaves reeds, bamboo hatch, mud, unburnt bricks, wood etc. are used for roofs.

Table 49 gives the detail about percentage distribution of households living in permanent, semi permanent and temporary houses in the district.

It can be seen that 85.6 per cent of Household in the district have permanent houses i.e. Houses made of pucca material. 13.1 per cent of Households have semi permanent houses, i.e. houses made of other type of materials and only 1.3 per cent of Households have temporary houses i.e houses made of Kachcha materials.In rural areas78.5 per cent Households have permanent houses,19.8 per cent have semi permanent and only 1.7 per cent of Households have temporary houses. In urban areas 91.8 per cent of Households have permanent houses, 7.1 per cent have semi permanent and only 1.1 per cent Households have temporary houses. Comparatively urban areas have more permanent houses than rural areas. Among talukas Dhoraji has the highest proportion of 93.2 per cent of permanent houses. Jasdan 32.7 per cent of Households are semi permanent which is the highest among all talukas and Maliya has the highest proportion of 6 per cent of temporary house.

Source: Census of India 2001, H- series: "Tables on Houses, Household amenities and Assets."

Note: Percentage is to be given in brackets after the number of households .
@ Bathroom means bathroom within the house
$ Toilet means toilet within the house
# Drainage means closed and open drainage

* Based on the improved drinking water source, drinking water supply has been classified as 'Improved ' or otherwise. If the household has access to drinking water supplied from a tap or a hand pump / tube well situated within or outside the premises it is considered as having access to 'Improved drinking water source'. However, the concept of improved drinking water is state specific and this is to be considered accordingly.

Table 50 shows percentage of Households having Improved drinking water source, electricity, bathroom, toilet and drainage facility. The data from the table reveals that 83.4 per cent of total households have improved drinking water facility and 93.1 per cent have electricity facilities, 61.1 per cent of Households have bathroom, 53.4 per cent have toilet facilities within the house. As regards the drainage facility 56.8 per cent of Households have closed and open drainage. In rural areas 76.2 per cent Households have improved drinking water facility, 90.6 per cent have electricity, 40.2 per cent have bathroom, 23 per cent have toilet and 29.2 per cent have drainage facility. In the district urban areas have higher proportion of these facilities as compared to rural areas. In urban areas 89. 8 per cent Households have improved drinking water facility, 95.3 per cent have electricity, 79. 5 per cent have bathroom, 80.2 per cent have toilet and 81.1 per cent have drainage facility.

Source: Census of India 2001, H- series: "Tables on Houses, Household amenities and Assets."

Note: Percentage in brackets

Table 51 gives the detail about the percentage distribution of households by type of fuel used for cooking purpose. There are nine types of fuel used for which data is presented in this table. LPG is the widely used fuel as 35.1 per cent of households use it in the district. 7.5 per cent of rural households and 59.3 per cent of urban households use LPG as cooking fuel. LPG is used by 55.9 per cent of households of Rajkot taluka, which is the highest among talukas while only 2.3 per cent households in Maliya use LPG, which is the lowest. Use of firewood is next to LPG as it is used by 19.8 per cent of district households. 32.3 per cent of rural households and 8.7 per cent of urban households use firewood as fuel for cooking in the district. Kerosene, cow dung cake and crop residue are used by 16.8 per cent, 14.2 per cent and 11.8 per cent of households respectively. In rural area 25.4 per cent of household use cow dung cake, 22.5 per cent use crop residue and 9.3 per cent use kerosene as cooking fuel while in urban areas 4.2 per cent households use cow dung cake 2.4 per cent use crop residue and 23.4 per cent use kerosene as cooking fuel. Thus in urban areas LPG and kerosene are used by more households proportionately as compared to rural areas while uses of cow dung cake and crop residue is more prevalent in rural areas in comparison to urban areas. The usage of other fuels such as electricity, coal lignite, bio-gas and other is not significant in the district. 0.4 per cent of total households have reported no cooking.

Source: Census of India 2001, H- series: "Tables on Houses, Household amenities and Assets."

Table No 52 shows number of households availing Banking services and number of households having each of the specified assets. There are 584,677 households in the district. Out of these 266,270 (45.5 per cent) households are availing Banking services. As regards specified assets out of total households 43.6 per cent have Radio/Transistor, 56.3 per cent have Television, 16.8 per cent have Telephones, 56.0 per cent having Bicycle, 35.9 per cent have scooter/ motor cycle/Moped, only 4. 5 per cent have Car Jeep/ Van and 17.0 per cent of total households in the district do not have any of the specified assets. In rural areas 25.7 per cent of households do not possess any of the specified assets while in urban areas only 9. 3 per cent do not have any such assets. As regards specified assets in rural areas 36.2 per cent households have radio/transistor, 38.3 per cent have T.V., 8.5 per cent have Telephones, 46.2 per cent have bicycle,25 per cent have scooter/Motor cycle/Moped and 2.7 per cent household have Car/Jeep/Van. In urban areas 50.2 percent have Radio/Transistor, 72.2 per cent have TV, 24.2 have Telephones, 64.7 per cent have bicycle, 45.5 per cent have Scooter/Motor cycle/Moped and 6.1 per cent households have Car/Jeep/Van. Thus the table indicates that urban households possess more specified assets (in percentage terms) as compared to rural households. Among taluka 37.0 per cent of households in Maliya do not have any of the specified assets where as in Rajkot only 8.3 per cent households do not possess any of the assets. As far as banking facilities are concerned in Tankara 61.8 per cent of households are availing banking facility which is the highest while in Jasdan 34.7 per cent of households are availing banking facilities which is the lowest among talukas.

viii) Major social and cultural events, natural & administrative developments and significant activities during decade.

During the decade, the State Government reconstituted Rajkot district by bifurcating some of the talukas and created new talukas without any change in administrative border of the district. No other significant development worth mention took place during the decade.

ix) Brief description of places of religious, historical or archaeological importance in villages and places of tourist interest in the towns of the district:

Name of Taluka : Morvi
Name of Town : Morvi
Location Code : 40901000

(Mani Mandir)

Morvi, pronounced as Morbi, is a small but beautiful town. There is a suspension bridge on the river Machchhu. Mani Mandir is a superb piece of architecture. The gates of Morvi, the tower, the market in the green chowk and some other such places have still preserved the kingly looks. Clock and pottery are the two main industries of this beautiful town. Another important industry is the industry of glazed tiles. A devastation by floods put Morvi on the world map. By the flood Morvi was almost dead. It has once again come back to life.

Name of Taluka : Wankaner
Name of Town : Wankaner
Location Code : 40902000

(Ranjit Vilas Palace)

The town is famous for *Ranjit Vilas Palace* and the pottery industries. The palace is on the bank of the river. There are swimming pool and museum in the palace. The beautiful wood carving on the wooden furniture in the palace makes an excellent piece of art and decoration. The museum consists of stone armory and silver chariot. Some models of vintage cars have also been preserved in the Kings' memory.

Name of Taluka : Gondal
Name of Town : Gondal
Location Code : 40906000

(Jagat Mandir)

Gondal is situated on the western bank of the Gondli river, a tributary of the Bhadar river. It is very famous for a centre of Swaminarayan Sect and chillies. A very big Swaminarayan Temple is located at Gondal. Bhuvaneshwari Shaktipith, a library and Ayurvedic Pharmacy College have added to the prestige of Gondal. The town has earned more fame for its simple, learned and dedicated ruler Darbar Bhagwatsinhji. He was instrumental in the publication of a huge Gujarati Dictionary *'Bhagwadgomandal'*.

Name of Taluka : Rajkot
Name of Town : Rajkot
Location Code : 40904000

(Nehru gate)

Rajkot city is the focal point of Saurashtra. It is a centrally located busy and bustling city. There is Kaba Gandhi's Dahela, the house of Gandhiji's father. It has now turned into a permanent museum. The school in which Gandhiji obtained his primary

education is also preserved. It is known as Rashtriya Shala. Ramkrishna Mission Temple is a feather in Rajkot's cap in recent time. Famous Aji dam is very near Rajkot. Radio Station and Doordarshan (TV) Relay centre have also established at Rajkot. Many industries including oil mills have come up in and around Rajkot. This industrially fast developing city of Saurashtra is already famous for gold and silver ornaments.

Name of Taluka : Jetpur
Name of Town : Jetpur
Location Code : 40910000

(Art of fabrics printing)

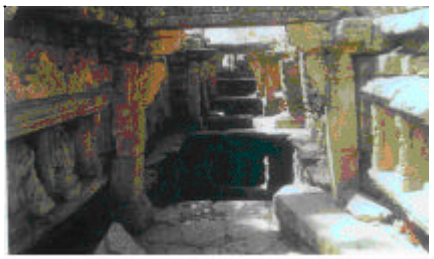

The intricate art of printing fabrics using wooden blocks thrives in the riverside town of Jetpur and earns valuable foreign exchange along with the more modern screen printing workshops. Wood is cut and flattened into blocks ranging from around 1 inch to 3 inch thickness, pin pricked with the outline of the design to be transferred to the fabric and finally minutely carved by chisel. Next, the colours are separated to fill the niches, and the chhipa or khatri expertly runs the block along the length and breadth of the fabric. The dyed fabric is then fixed in river Gondali and kept to dry.

Name of Taluka : Tankara
Name of Village : Tankara
Location Code : 00633800

Tankara is situated on the western bank of the Demani river. The village is better known as the birth place of Shri Swami Dayanand Saraswati, founder of Arya Samaj. An institution called Mahalaya has been established in the name of Maharshi Dayanand Sarswati. There is an old temple of Vishnu who is worshipped under the name of Laxmi Narayan.

Name of Taluka : Rajkot
Name of Village : Virpur
Location Code : 00670800

(Minal stepwell)

Virpur situated 38 km south of Rajkot is famous for the seat of saint Jalaram. Thousands of people regularly visit this place and pay their respects at the Jalaram temple. Pilgrims are provided free food without any discrimation of religion, caste or creed. Many tales of Jalaram's miracles are in circulation.

Minal stepwell is located at one end of the town. Being Nanda type Shavign straight corridor, it dates back to late 12th century or early 13th century A.D. It has three Kutas or Pavilion towers. On either side of the first pavilion are niches which hold sculptures of Bhairava with damru and Sesasayin Vishnu (Vishnu reclining under the Shesnag). The pediments of niches have jali decoration. There is honey-suckle motif on the lintels of the mandapa.

Name of Taluka : Gondal
Name of Village : Khambhalida
Location Code : 00686100

(The buddhist cave)

Located near the village of Khambhalida in the Gondal taluka of Rajkot district, the buddhist caves

are cut into the ledge of a slope that drops from a nearby hillock. Of the three main caves, the middle one has a stupa like rock-cut structure, and the back is apsidal in plan. The entrance to this chaitya caves is squarish with the wall on either side bearing the sculptures of Bodhisattvas, Padmapani and Vajrapani. The left side figure shows an Ashoka tree and Yaksha holding a basket on his head. The right side figure also stands under a tree with attendants. The carvings of chandresala and minor shrines on the upper portion are beautifully executed. The cave dates back to 4^{h} century A.D.

X) Major characteristics of the district, contribution of the district in the form of any historical figure associated with the district

Rajkot district is enveloped with economic resources viz. agricultural land and product of groundnut, the main cash crop of Rajkot district. Cotton is an important cash crop in the district. The important non-food crops are groundnut, cotton and fodder and other crops like wheat, jowar, bajri are also produced in this district. This district has only a small area under forest. Most of the population of the district is vegetarian. The food taken by most of the people is very simple consisting of two or three meals. It is mostly confined to loaf of jowar or bajri and butter milk which is mostly popular and common item of meals.

As for the attire of the people of the district, made of the fine cotton cloth with a fringe of brocade at each end, the *paghadi* varied in its length from twenty to fifty yards. The *Jamo*, a long coat, which in the past formed a part of the dress of men in respective position, is worn by the males. The women folk generally put on *Sari* along with blouse and petticoat.

Tippani dance of this region has become very popular and famous in our country. This fatigue removing dance belongs to *Koli* women. Music and dance having capacity to relax mind and body, is at the heart of this art and artistic sense of folk women of this region has given to Tippani dance. Tippani is an equipment having square wood or iron piece 'Gadbo' (block) at one end of a long stick which was used for beating and pressing 'Chuno'(lime) into the foundation or floor of a house under construction in old times and this very Tippani was used by women, for this dance. Each of the women would have a Tippani and would dance in two rows opposite to each other and would sing supported by musical instruments such as Zanz, Manjira, Dhol and Sharni. This dance has rhythm varying from five to six upto fifteen to twenty. The special characteristic of the dance could be viewed by observing each dancer's vigorous swiftness and rhythmic foot steps and Tippani stepping and also movements of limbs- neck, hands, legs and fingers. Bhil women of Rajkot also have mastery over this folk-dance.

Gaurishankar Joshi *(Dhumketu)* (1892-1965)

The short stories in Gujarati literature were being written even before the advent of the present century. But the first collection of short stories by 'Dhumketu' published in 1925 created quite a stir. The book named '*Tankha*' earns him the place as one of the best story writers. Gaurishanker Joshi was born in Virpur near Gondal. He had gone through various books on poetry, philosophy, history and foreign literature before he became a graduate. While creating his short stories he lifted the characters from the very common lot of people and composed heart touching down to earth effective stories. He knitted the episodes with artistic ability. He has also written historical novels like 'Chaula Devi', 'Rajsanyasi', 'Karnavati' 'Avantinath' 'Amrapali' etc. He also gave constructive literatures in the form of 'Jibranni Vani' and 'Jivan Raag'. 'Paan Goshthi' is a collection of light essays by him. Large number of books is to his credit. But he will be remembered for ever for his creation of excellent short stories.

Shamaldas Gandhi:

Some of the Gujarati journalists played a very important part together with the freedom fighters of the country and contributed their might in a big way. Shamaldas Gandhi was one such formidable journalist of those days. He was born in Rajkot. Writing was his childhood hobby. He had to struggle his way to success. He went to Bombay and became a journalist with 'Mumbai Samachar' published from there. Eventually, he became the editor of Mumbai Samachar weekly and later became the editor of '*Janmabhoomi*' daily newspaper '*Vande Mataram*' in 1941. His pen was acidic and his speeches were fiery. He was able

to disturb the minds of the then British rulers by both his written and spoken words. The Nawab of Junagadh declared his intention of merging Junagadh with Pakistan. Shamaldas Gandhi came forward and formed a civic party named '*Arzi Hakoomat'*. Nawab had to amalgamate Junagadh with the Union of India. The incident became a memorable turn of the history throughout the country. The echoes of Junagadh helped solving many problems of other princely states of the country. Shamaldas Gandhi earned his name both as a Journalist and a freedom fighter.

(xi) Scope of Village Directory and Town Directory:

As mentioned earlier, the District Cen-sus Handbook is brought out in two parts-Part A and Part B. Part A covers the non-census data of village direc-tory and town directory whereas part B covers the primary census abstract data of 2001 Census. The scope of village directory and town directory is discu-ssed below.

Scope of Village Directory

For the census work, the villages in the district have been arranged taluka wise and within the taluka they are shown location code wise. Each village is assigned a location code number for the purpose of identification. In 2001 Census, all the villages have been given unique 8-digit code number, which will remain constant across the census, and shall make it easy to do comparative study. Eight digit code's last two digits are especially provided to take into account exigencies arising due to ju-risdictional changes of villages by partition, amalgamation etc. This time it has been kept '00'. Prior to the village directory information, a map and alphabetical list of villages for each taluka is given in Part A. Village directory contains the non-census data of each village. It gives the village wise basic information relating to infrastructure and amenities available in the sphere of education, medical, drinking water, power supply, post and telegraph, communications, approach road to village and distribution of land use area. In addition, it contains information about total area of each village, total population and number of households and the nearest town and its distance from the village. The information on number of households and total population has been included with a view to examine the co-relation of amenities with the number of households and population they serve. If an amenity is not in existence in the referent village, the distance in broad ranges from the nearest place along with name, where the amenity is available is given. The broad range are (-5 km), (5-10 km) and (10+ km). Some additional information has been added viz.(1) Number of Banks, (2) Credit Societies, (3) recreational and cultural facilities, (4) Receipt of Newspaper / Magazine, (5) Income & Expenditures of the village and (6) Name of the three most important commodities imported, manufactured/ produced & exported. One information has been deleted this time, i.e., Market & Hat facility.

The village directory also carries the following appendices.

Appendix-I	It gives the taluka wise abstract of educational, medical and other amenities available in the villages of the district.
Appendix-I-A	Indicates number of villages Taluka wise having one or more primary schools.
Appendix-I-B	Indicates number of villages Taluka wise having primary, middle and secondary schools.
Appendix-I-C	Shows number of villages Taluka wise with different sources of drinking water facilities.
Appendix-II	Indicates the list of villages with 5,000 and above population which do not have one or more important amenities.
Appendix-II-A	Indicates list of Census Towns which do not have one or more amenities.
Appendix-III	It gives the land utilization data in respect of Census Towns/non-municipal Towns.
Appendix-IV	Taluka wise list of inhabited villages where no amenity other than drinking water facility is available.
Appendix-V	Summary showing number of villages not having Scheduled Castes population.

Appendix-VI Summary showing number of villages not having Scheduled Tribes population.

Appendix-VII The appendix shows the list of villages according to proportion of the Scheduled A, VII B castes and Scheduled Tribes to the total population by ranges.

Appendix-VIII Indicates Taluka wise number of villages under each Gram Panchayat.

Appendix-IX Shows number of different types of girls school in a village.

Scope of Town Directory

Town Directory covers the non-census data for each town. It presents important and useful information like civic and other amenities available in all the towns of the district. The information in town directory is covered in following seven statements, viz. statements I to VII.

Statement-I Town wise class, name, civic administrative status of the town, its area, growth rates, density and sex ratio.

Statement-II Physical aspects of each town.

Statement-III Income and expenditure of each town.

Statement-IV Civic and other amenities in respect of each town.

Statement-V Availability of medical, educational, recreational and cultural facilities in each town.

Statement-V Trade, commerce, industry and banking activities in each town.

Statement-VII Civic and other amenities in slum areas of each town.

In all the Statement except VII the towns are arranged in the alphabetical order within the district. The details of these statements are given in the analytical portion of the town directory. In addition to the above statements, an appendix showing the towns with their outgrowths with population is also given after the town directory statements.

PART – A
VILLAGE AND TOWN DIRECTORY

SECTION – I VILLAGE DIRECTORY

Village Directory

(a) NOTE EXPLAINING THE ABBREVIATIONS USED IN THE VILLAGE DIRECTORY

The "Village Directory" is one of the traditional compilations of the Census. It gives the list of villages, their location numbers, their area, population, number of households, amenities such as educational, medical, drinking water, post and telegraph, commercial and co-operative banks, agricultural non-agricultural and other credit societies, recreational and cultural facilities, communication, approach to village, nearest town with a distance, power supply availability of newspaper and magazines, most important commodity manufactured and land use of each village.

Village is a statutory recognized unit having a definite boundary and separate land records. In case, a complete village is treated as an outgrowth of urban agglomeration, data on amenities for that village, have not been given in the Village Directory but shown along with the urban component. The villages which are consider as a Census Town , the amenities data are shown in the Town Directory. For those villages which have partly merged in an outgrowth of U.A., the amenities data are shown in the Village Directory for that particular village.

The 'un-inhabited' villages (villages with no population) have been indicated as such after furnishing details in columns 1 to 3 i.e., Serial number, Name of village & location code number and area of the village against column no. 4 to 18. The land use data for such villages are shown in col. 19 to 23.

The Village Directory format has 23 columns and the details given under each column are for the village are as follows:-

Columns 1 : Serial Number

Self explanatory. All the villages within the CD Block are presented serially in the ascending order of their location code number.

Columns 2 : Name and Location Code Number of Village.

The name and location code number of the village are shown against these columns. This also includes the forest and uninhabited villages.

Column 3 : Area of the Village

The area of the villages in hectares are given. Wherever the area figures was not furnished by the concerned department the column is left blank.

Column 4 : Total Population

The total population of the village as per 2001 Census is given against this column.

Column 5 : Number of households

The number of households as per 2001 Census is given in this column.

Amenities :

In column 6 to 23, availability in respect of different amenities such as education, medical, drinking water, post, telegraph, banks, credit societies, communication, power, approach road etc. in each village has been depicted with appropriate codes against the column concerned. Wherever the amenities are not available in the village, a dash (-) is shown in the column and next to it in brackets the distance in broad ranges viz.< 5 kms., 5-10 kms. and 10+ kms of the nearest place where the facility is available is given. Column wise details are given below :

Column 6 : Educational

Classes upto class VII included in Primary School. This will include nursery school, kindergarten school. Pre-basic school, pre-primary school, junior basic school upto class VII.

Classes from VIII to X included in Higher secondary school. Classes XI and XII are included in senior secondary school.

Accordingly any of the following types of institutions if exists within the village is shown as per codes given below :

(i)	Primary School	P
(ii)	Middle School	M*
(iii)	Higher Secondary School	S
(iv)	Senior Secondary School	PUC
(v)	College	C
(vi)	Industrial School	I
(vii)	Training School	Tr
(viii)	Adult literacy class/centre	AC
(ix)	Others (specify) e.g. Sanskrit Pathshala, Senior basic school, Navodaya Vidyalaya, Makhtab, etc.	O

More than one institution of a type in the village is indicated by the number within brackets against the abbreviation, e.g. P(3), M(4), etc.

Note : * - There is no Middle school in the Gujarat State.

Column 7 : Medical

Availability of medical facility within the village is indicated by following codes :

(i)	Allopathic Hospital	H
	Ayurvedic Hospital	HA
	Unani Hospital	HU
	Homeopathic Hospital	H Hom
(ii)	Allopathic Dispensary	D
	Ayurvedic Dispensary	DA
	Unani Dispensary	DU
	Homeopathic Dispensary	D Hom
(iii)	Maternity & Child Welfare	MCW
(iv)	Maternity Home	MH
(v)	Child Welfare Centre	CWC
(vi)	Health Centre	HC
(vii)	Primary Health Centre	PHC
(viii)	Primary Health Sub-Centre	PHS
(ix)	Family Welfare Centre	FWC
(x)	T.B. Clinic	TB
(xi)	Nursing Home	NH
(xii)	Registered Private Medical Practitioner	RMP
(xiii)	Subsidised Medical Practitioner	SMP
(xiv)	Community Health Worker	CHW
(xv)	Others	O

More than one institution of a type in the village is indicated by the number within brackets against the abbreviations, e.g. H(3), D(4), etc.

Column 8 : Drinking Water

The type of the drinking water supply sources available within the village are indicated by codes as follows :

(i)	Tap Water	T
(ii)	Well Water	W
(iii)	Tank Water	TK
(iv)	Tubewell Water	TW
(v)	Handpump	HP
(vi)	River Water	R
(vii)	Canal	C
(viii)	Lake	L
(ix)	Spring	S
(x)	Others	O

Column 9 : Post, Telegraph and Telephone

It is indicated by codes as shown below whether within the village exists the following amenities:

(i)	Post Office	PO
(ii)	Telegraph Office	TO
(iii)	Post & Telegraph Office	PTO
(iv)	Telephone Connection	PH

Column 10: Commercial and Co-operative Banks

If the village is served by any banking service, commercial bank, co-operative bank etc.

the same is indicated in codes mentioned below along with the number of banks in brackets. If not available the distance of nearest place where the facility exist is given:

(i)	Commercial Bank	CM
(ii)	Co-operative Bank	CP

Column 11: Credit Societies

If the village enjoys the services of Credit Societies i.e. Agricultural Credit Societies, Non Agricultural Credit Society or Other Credit Societies, the same is indicated in codes mentioned below along with the number of such societies in brackets. In case the facility is not available within the village the distance of the nearest place where such facility exist is given :

(i)	Agricultural Credit Society	ACS
(ii)	Non- Agricultural Credit Society	NCS
(iii)	Other Credit Society	OCS

Column 12 : Recreational and cultural facilities

If facilities such as Cinema/Video hall, Sports Club, Stadium/Auditorium is available in the village, the same is recorded in these columns. If not available the particulars of the nearest place with the facility is recorded. The information is indicated in codes mentioned below along with the number of such facilities in brackets:

(i)	Cinema / Video Hall	CV
(ii)	Sports Club	SP
(iii)	Stadium / Auditorium	ST

Column 13 : Communications

If the village is served by any mode of public / private transport like Bus, Railway station or Navigable water ways they are to be mentioned as follows:

(i)	Bus	BS
(ii)	Railway Station	RS
(iii)	Navigable Waterway	NW

Column 14 : Approach to Village

Approach to village refers to the state of road leading to village. The approach to the village is indicated in following codes :

(i)	Paved Road	PR
(ii)	Mud road	MR
(iii)	Foot path	FP
(iv)	Navigable River	NR

Column 15 : Nearest Town and distance

The distance is given in kilometers in brackets against the name of the town nearest to the village.

Column 16 : Power supply

Availability of Power Supply in the village, whatever may be the form of its use is given by using following codes :

(i)	Electricity for domestic use	ED
(ii)	Electricity for agricultural use	EAG
(iii)	Electricity for other purposes	EO
(iv)	Electricity for all purposes	EA

Column 17 : News Paper / Magazine

If village receives any News Paper/Magazines the same is noted in this column using following codes :

(i)	News Paper	N
(ii)	Magazine	M

Column 18 : Most important commodities manufactured

The name of three most important commodities manufactured in the village is recorded against this column.

Column 19 to 23 : Land use i.e. area under different types of land use

Land use data maintained by the State/ UT Govts. are furnished against these columns. The data concerning area under Forest, Irrigated land (by source), Un-irrigated land, Cultivable waste and Area not available for cultivation in the village are shown against these columns. The area figures are given in hectare(s) up to one decimal. Dash '-' is recorded wherever the information is not made available by the concerned department. The codes used for different types of irrigation facilities available in the village are indicated below:

(i)	Government Canal	GC
(ii)	Private Canal	PC
(iii)	Well (without electricity)	W
(iv)	Well (with electricity)	WE
(v)	Tubewell(without electricity)	TW
(vi)	Tubewell(with electricity)	TWE
(vii)	Tank	TK
(viii)	River	R
(ix)	Lake	L
(x)	Waterfall	WF
(xi)	Others	O
(xii)	Total	T

The village directory also carries the following appendices.

Appendix-I It gives the abstract of educational, medical and other amenities available in villages Taluka/ C D Block wise of the district.

Appendix-I-A Indicates number of villages Taluka/ C D Block wise having one or more primary schools.

Appendix-I-B Indicates number of villages Taluka/ C D Block wise having primary, middle and secondary schools.

Appendix-I-C Shows number of villages Taluka/ C D Block wise with different sources of drinking water facilities.

Appendix-III Indicates the list of villages with 5,000 and above population which do not have one or more important amenities available.

Appendix-II-A Indicates list of Census Towns which do not have one or more amenities.

Appendix-III It gives the land utilization data in respect of Census Towns / non-municipal Towns.

Appendix-IV Taluka/ C.D. Block wise list of inhabited villages where no amenity other than drinking water facility is available.

Appendix-V Summary showing number of villages not having Scheduled Castes population.

Appendix-VI Summary showing number of villages not having Scheduled Tribes population.

Appendix-VII A, The appendix shows the list of villages according to proportion of the

VII B Scheduled castes and Scheduled Tribes to the total population by ranges.

Appendix-VIII Indicates Taluka/ C D Block wise number of villages under each Gram Panchayat.

Appendix-IX Shows number of different types of girls school in the village.

(b) List of Villages merged in Towns and Outgrowths at 2001 Census :

DISTRICT RAJKOT

2 0 2 4 6 Kilometers

TOTAL AREA	1077.70 Km^2
TOTAL POPULATION	326 995
TOTAL NUMBER OF VILLAGES	76
TOTAL NUMBER OF TOWN	1
DISTANCE FROM DISTRICT HEADQUARTERS TO TALUKA	62 Kms

C.D. BLOCK BOUNDARY OF MORVI IS CO-TERMINUS WITH TALUKA BOUNDARY EXCLUDING STATUTORY TOWN.

RF WHICH COMES UNDER THE VILLAGE. THAT VILLAGE NAME ITSELF IS A RESERVED FOREST NAME.

TRAJPAR AND RAVAPARA ARE TREATED AS URBAN AREA i.e. OUTGROWTH OF MORVI URBAN AREA.

BOUNDARY,DISTRICT..	
" TALUKA	
" VILLAGE WITH PERMANENT LOCATION CODE NUMBER... ...	00624800
" FOREST-RESERVED WITH NAME...	PANELI RF
HEADQUARTERS : TALUKA	◎
POPULATION SIZE CLASS OF VILLAGES : 200-499, 500-999, 1000-4999, 5000 AND ABOVE...	• • • •
URBAN AREA WITH LOCATION CODE NAME...	MORVI
NATIONAL HIGHWAY...	NH 8A
STATE HIGHWAY	SH 24
IMPORTANT METALLED ROADS	
RAILWAY LINE WITH STATION, BROAD GAUGE	RS
RAILWAY LINE WITH STATION , NARROW GAUGE...	RS
RIVER AND STREAM...	
WATER FEATURES : BIG TANK (NATURAL)..	
POST OFFICE / TELEGRAPH OFFICE	PO / TO
HIGH SCHOOL/SENIOR SECONDARY SCHOOL..	S
PRIMARY HEALTH CENTRE	
BANK...	B

TALUKA / C.D.BLOCK

JASDAN

GUJARAT
TALUKA JASDAN
DISTRICT RAJKOT

2 0 2 4 6 Kilometers

C.D. BLOCK BOUNDARY OF JASDAN IS CO-TERMINUS WITH TALUKA BOUNDARY EXCLUDING STATUTORY TOWN.

RF WHICH COMES UNDER THE VILLAGE, THAT VILLAGE NAME ITSELF IS A RESERVED FOREST NAME.

TOTAL AREA	1326.42 Km^2
TOTAL POPULATION	262 955
TOTAL NUMBER OF VILLAGES	101
TOTAL NUMBER OF TOWN	1
DISTANCE FROM DISTRICT HEADQUARTERS TO TALUKA	60 Kms

BOUNDARY, DISTRICT..	
" TALUKA	
" VILLAGE WITH PERMANENT LOCATION CODE NUMBER... ...	00669200
" FOREST-RESERVED WITH NAME...	UMATVAD RF
HEADQUARTERS : TALUKA	
POPULATION SIZE CLASS OF VILLAGES : 200-499, 500-999, 1000-4999, 5000 AND ABOVE...	
URBAN AREA WITH LOCATION CODE NAME...	JASDAN
STATE HIGHWAY	SH 1
IMPORTANT METALLED ROADS	
RAILWAY LINE WITH STATION, METRE GAUGE	RS
RIVER AND STREAM...	
POST OFFICE	PO
HIGH SCHOOL/SENIOR SECONDARY SCHOOL..	S
POLICE STATION EXCLUDING RLY. POLICE STATION	PS
PRIMARY HEALTH CENTRE	
BANK...	B

Note : *In Gujarat State, the Level of Education are Classified as under.
(i) Primary (From Standard I to VII Passed.
(ii) Secondary/Matriculation (From Standard VIII to X Passed)
(iii) Higher Secondary (From XI to XII Passed) Hence the details under Col.. 6 is not shown. So, Middle School is 0.

SECTION – II – TOWN DIRECTORY

TOWN DIRECTORY

NOTE EXPLAINING THE ABBREVIATIONS USED IN THE TOWN DIRECTORY

Town Directory statements (I to VII)

Statement I : Status and Growth History

Column (2) : Class, name and civic administration status of town :

Class has been introduced to facilitate analysis of town directory data at the state and all India levels. It is presented according to 2001 Census Population of the town as follows :

Population	Class
100,000 and above	I
50,000 - 99,999	II
20,000 - 49,999	III
10,000 - 19,999	IV
5,000 - 9,999	V
Below 5,000	VI

Town with a population of one hundred thousand (1,00,000)and above is treated as a city.

The civic administration status of the towns is indicated within bracket against the name of the town. The following abbreviations are used to denote civic status of town.

(I)	Municipal Corporation	M. Corp.
(II)	Municipal Committee	MC
(III)	Municipal Council	M Cl
(IV)	City Municipal Council	CMC
(V)	Town Municipal Council	TMC
(VI)	Municipal Board	MB
(VII)	Municipality	M
(VIII)	Cantonment Board/Cantonment	CB
(IX)	Notified Area	NA
(X)	Notified Town	NT
(XI)	Notified Area Committee/Notified Area Council	NAC
(XII)	Notified Town Area	NTA
(XIII)	Industrial Notified Area	INA
(XIV)	Industrial Township	ITS
(XV)	Township	TS
(XVI)	Town Panchayat	TP
(XVII)	Nagar Panchayat	NP
(XVIII)	Town Committee/Town Area Committee	TC
(XIX)	Small Town Committee	ST
(XX)	Estate office	EO
(XXI)	Gram Panchayat	GP
(XXII)	Census Town	CT

Others columns need no comments.

Statement II - Physical Aspects and Location of towns, 1999.

Column 3 to 5 : Physical Aspects

In this columns the Rainfall and Maximum & Minimum Temperature of the town is recorded.

Column 6, 7 and 8 :

Name of the State headquarters, District headquarters and Sub-Divisional headquarters with distance from the referent town in kilometers, is to be recorded respectively. If the names mentioned in these columns are the same as the referent town itself, the distance is recorded as (0) zero.

Column 9& 10 :

Name of the nearest city with one lakh and more and five lakhs and more population are recorded.

Column 11, 12 and 13 :

If referent town enjoys the facility of railway station, bus route facility or navigable river/canal. Its name is to be mentioned. If not available, then the name of nearest place with distance, where such facility exists is to be mentioned.

Statement III : Municipal Finance 1998 – 1999

Item-wise amount of receipt and expenditure in thousand rupees, relating to municipal finance of the town for the year 1998-99 is to be recorded.

Statement IV : Civic and Other amenities, 1999

Column (1 to 5) : Self explanatory.

Column (6) : Road length (in kms.)

Information about kutcha / pucca road is to be recorded separately for the roads within the limits of the referent town.

(i)	Pucca Road	PR
(ii)	Kutcha Road	KR

Column (7) : System of Sewerage

Generally, by sewerage system is implied the network of mains and branches of underground conduits for the conveyance of sewerage to the point of disposal.Sewers that carry only household and industrial wastes are called separate sewers, those that carry storm water from roofs, streets and other surface are known as storm water drains, while those carrying both sewage and storm water are called combined sewers.

The codes used for different types of drainage system are as follows :

(i)	Sewer	S
(ii)	Open Surface Drains	OSD
(iii)	Box Surface Drains	BSD
(iv)	Sylk Drains	SD
(v)	Cesspool method	CP
(vi)	Pit System	Pt
(vii)	Others	O

Column 8 to 11 : Number of latrines

Number of various types of latrines both Public and Private are given in these columns.

Column 12 : Method of disposal of night soil

The various prevalent method of disposal of night soil are given below with codes :

Head Loads	HL
Basket	B
Wheel Barrows	WB
Septic Tank	ST
Pit System	Pt
Sewerage	S
Others	O

Column 13 and 14 : Water supply

Source and capacity of storage system. The following codes are used in these columns:

Column 13:

(i)Tap water	T
(ii)Tube-well water	TW
(iii)Tank Water	TK

Column 14:

(v)	Over Head Tank	OHT
(vi)	Service Reservoir	SR
(vii)	River Infiltration Gallery	RIG
(viii)	Bore Well Pumping System	BWP
(ix)	Pressure Tank	PT

The information on major source of water supply are given in column 13 and the storage capacity against each in kilo-litres (in bracket) are presented in column 14.

Column 15 : Fire Fighting Service

In case the fire fighting service is available in the referent town 'yes' is recorded. If the facility is not available within the town. The name of the nearest place having this facility with its distance from the referent town has been recorded.

Column 16 to 20 : Electrification (Number of connections)

Different types of electric connections have been shown in these columns, i.e. Domestic, Industrial, Commercial, Road lighting (points) & others.

Statement V : Medical, Educational, Recreational and Cultural Facilities, 1999

Column 1 to 3 : Self explanatory.

Column 4 & 5 :

The data covers all such medical institutions run by or aided by Government/Semi Government/Local bodies and Charitable institutions or Social agencies like the Missionaries. Where the family planning centres are attached to hospitals or maternity and child welfare centres or Primary Health Centres, may be treated as independent units and counted separately using following codes :

(i)	Hospital	H
(ii)	Dispensary	D
(iii)	Health Centre	HC
(iv)	Family Welfare Centre	FWC
(v)	T.B. Clinic	TB
(vi)	Nursing Home	NH
(vii)	Others	O

In case of more than one institutions of any type, it is indicated within brackets the number of such

institution (s) e.g. D(3), NH(8), etc. The institutions have further been distinguished by providing additional codes within the bracket as given below :

Ayurvedic	A
Unani	U
Homoeopathic	Hom

.**Column 6 to 9 :**

The codes used for these columns are as follows :

(i)	Arts only	A
(ii)	Science only	S
(iii)	Commerce only	C
(iv)	Arts & Science only	AS
(v)	Arts & Commerce only	AC
(vi)	Combined for all categories-Arts, Science and Commerce	ASC
(vii)	Law	L
(viii)	University	U
(ix)	Others	O

Column 10 : Recognized shorthand, typewriting and vocational training institutes

"Recognised" should mean recognised by some statutory authority, like education department, commerce department, labour department etc. of the government or semi government or autonomous bodies, public sector undertakings etc.

The following codes are used :

(i)	Vocational Training Institute	VT
(ii)	Shorthand	SH
(iii)	Typewriting	Type
(iv)	Shorthand & Typewriting	SH Type
(v)	Others	O

The vocational institutions like - Applied Art/ Painting college, Pharmacy college, B. Ed. College, Teacher's Training Institute, Music / Dance School, Nursing School etc. are covered under 'Others'.

Column 11 to 14 :

Classes upto class VII included in Primary School. This will include nursery school, kindergarten school. Pre-basic school, pre-primary school, junior basic school upto class VII.

Classes from VIII and X included in Higher secondary school. Classes XI and XII are included in senior secondary school.

Accordingly any of the following types of institutions if exists within the village is shown as per codes given below :

(I)	Primary School	P
(ii)	Middle School	M*
(iii)	Secondary School	S
(iv)	Senior Secondary School	PUC
(v)	College	C
(vi)	Industrial School	I
(vii)	Training School	Tr
(viii)	Adult literacy class/centre	AC
(ix)	Others (specify) e.g. SanskritPathshala, Senior basic school, Navodaya Vidyalaya, Makhtab,etc.	O

More than one institution of a type in the village is indicated by the number within brackets against the abbreviation, e.g. P(3), M(4), etc.

Note : *- There is no Middle school in the Gujarat State.

Column 15 : Adult literacy class/centres

This column has been introduced keeping in view the Minimum Needs Programme of the Planning Commission. There are number of Adult Education Centres which are included in these columns.

If an educational facility is not available in the town, the name of the nearest place and its distance in kilometres from the town where the facility is available is mentioned.

Column 16 : Working Women's hostels with number of seats

The number of working women's hostel if available in the referent town is mentioned with number of seats. If the facility is not available in the town the name of nearest place with distance where the facility is available is recorded.

Column 17 to 19 : Recreational and Cultural Facilities

Stadium, Cinema, Auditorium/Drama/Community Hall are covered under recreational & cultural facilities. The particulars of permanent recreational facilities are considered for these columns.

Column 20 : Public Libraries, Reading Rooms

Number of public libraries and reading rooms available in the referent town are recorded in codes as follows :

(i)	Public Library	PL
(ii)	Reading room	RR

Statement VI : Trade, Commerce, Industry and Banking, 1999

Column 3 to 8

Name of three most important commodities exported and names of three most important commodities manufactured in the town are recorded.

Column 9 : Number of Banks

Number of Banks available in the referent town both Commercial and Co-operative banks are recorded against this column.

Column 10 & 11 : Number of Agricultural Credit Societies and Non Agricultural Credit Societies

The total number of Agricultural Credit Societies and Non Agricultural Credit Societies in the referent town are recorded against these columns.

Statement VII : Civic and other Amenities in Slums, 1999

This is the statement on civic and other amenities in all slums whether notified or not and for all towns having statutory bodies, like municipality, Municipal Corporation, Town area committee etc.

Part – B
PRIMARY CENSUS ABSTRACT

Primary Census Abstract

Brief note on Primary Census Abstract :

The first census of the third millennium and twenty first century the Census of India, 2001 was the 14th continuous and uninterrupted Indian census since 1872. Thus, 2001 Census will provide data on population and its characteristics marking transition from one century and millennium to another.

The gigantic operation of Population Enumeration (considered by many to be the single largest and complex peace time administrative exercise in the world) was made possible due to the door to door universal canvassing of the Household Schedule by about 2 million enumerators and supervisors covering 593 districts, 5,463 sub-district, 5,161 towns and 638,588 villages. The comprehensive Household Schedule which replaced the individual slip had three parts and two sides A and B. Part I contained the Location Particulars; Part II related to the Individual Particulars and Part III contained questions for Household engaged in cultivation/Plantation. The part II of the Household Schedule had 39 columns and 23 questions all of which were universally canvassed and no sampling was resorted to during enumeration.

Data Processing

A quantum leap was made in the technology front while processing the Census 2001 data both for Houselisting and Population Enumeration. The Census schedules for both the phases were scanned through high speed scanners in fifteen data centers across the country and hand-written data from the schedules were converted into digitized form through Intelligent Character Reading (ICR) software for creation of ASCII records for further processing. The designing and formatting of the Household Schedule had to be done very carefully using specialized software so as to ensure uniformity, which was an essential pre-requisite for scanning. The selection of appropriate state-of-art technology in data processing has made it possible to produce all the Houselisting as well as Population Enumeration tables on full count basis for the first time in the history of Census. For Census 2001, about 202 million schedules consisting of about 1,028 million records were scanned and processed within a span of only 10 months starting October, 2002.

Task Force on Quality Assurance

After the data is processed, it is expedient on the part of the data producing agency to satisfy itself about its quality before putting the same in public domain. This has to be done mainly through the process of internal consistency, comparison with similar data in the past and also through validation with likewise data if available, from external sources. Quite often the local knowledge and perception has to be brought into play to understand both the existing and the new emerging trends of population distribution and characteristics. The other very important aspect of the data quality is to ensure complete coverage of all geographical areas especially for the population enumeration phase where the data is disseminated right up to the village level in the rural areas and the ward level in the urban areas. Thus ensuring the complete coverage and correct geographical linkage of each enumeration block was one of the major planks of the quality control, specially for small area population statistics.

A very comprehensive check and edit mechanism was put in place to objectively examine the preliminary Census 2001 Population Enumeration results and finally clear them for use. The responsibility of the final clearance of data was with the Task Force on Quality Assurance (TFQA), headed by the Registrar General and Census Commissioner, India. The other members of the TFQA were the Heads and senior officers of the Census Division, Data Processing Division, Map Division, Demography Division and Social Studies Division. The Directors of Census Operations were co-opted as members whenever the TFQA discussed the data for their States/Union territories. The Directors and their senior officers were required to make detailed presentations of data for their own state both in respect to the quality and the coverage and only after the full possible cleared.

There has been a major departure in Census 2001 from the past in respect of the procedure followed for finalization of the Scheduled Castes and the Scheduled Tribes population. In the earlier censuses, the total Scheduled Castes and Scheduled Tribes populations were finalized at the time of the manual compilation of the Primary Census Abstracts (PCA) at the Regional

Tabulation Offices which were specially set up for this purpose. The individual Scheduled Castes and the Scheduled Tribes population for each state was finalized much later based on manual coding done by the coders. In 2001 Census, each individual Scheduled Caste and the Scheduled Tribe have been coded directly on the computers by the Data Entry Operators through a process known as Computer Assisted Coding (CAC) and taken up along with the processing of PCA data. The CAC process involves pulling down, from the relevant dictionary of the Scheduled Castes and the Scheduled Tribes, on the computer screen and coding from the dictionary by referring to the image of the specific individual entry in the Household Schedule appearing on the screen. The CAC of the response on Religion wherever required, was also undertaken along with the processing of PCA. This is because the Scheduled Castes status had to be determined in relation to the religion of the individual. Two Special Task Forces, one on Religion and the other on Scheduled Castes/Scheduled Tribes were constituted for scrutiny and appropriate classification of these responses.

The main task of the Special Task Force on Religion was to appropriately merge or group the new responses encountered and code it into the appropriate religious community based on available literature and local knowledge. The Special Task Force on Scheduled Castes and Scheduled Tribes examined the different Scheduled Castes and Scheduled Tribes entries encountered and classified these into appropriate category of the Scheduled Castes or the Scheduled Tribes principally based on the Presidential Notification and the available literature. Thus a very systematic and scientific mechanism was operationalised to firm up the individual religion and the individual Scheduled Castes/Tribes returns. The Scheduled Castes and the Scheduled Tribes population in 2001 Census, is thus being finalized by aggregating the population data for individual Scheduled Castes and the Scheduled Tribes at appropriate geographical levels.

The entire work relating to the data validation and scrutiny was completed by all the States/Union Territories under the overall supervision and monitoring of the Census Division of the Office of the Registrar General, India with active cooperation and support of the Social Studies Division, Data Processing Division, Data Dissemination Division and Map Division.

Primary Census Abstract

The Primary Census Abstract which is yet another important publication of 2001 Census gives basic information on Area, Total Household, Total population, Scheduled Castes, Scheduled Tribes population, Population in the age group 0-6, Literates, Main workers and Marginal workers classified by the four broad industrial categories, namely (i) Cultivators, (ii) Agricultural labourers (iii) Household Industry Workers and (iv) Other workers and also Non-workers. The characteristics of the Total population includes Scheduled Castes, Scheduled Tribes, Institutional and Houseless population and are presented by sex and rural-urban residence. This data is presented at different levels, namely India, State/Union Territories, Districts and Cities, Urban Agglomerations (Population 1,00,000 and above) in three different tables. In addition, the Appendix of said publication provides Houseless and Institutional Households and their population by residence and sex for 2001 for India, State and Union territory.

Apart from the India and State/Union Territory volumes for Primary Census Abstract, the District Census Handbook contains District Primary Census Abstract, Appendix to District Primary Census Abstract, Primary Census Abstract for Scheduled Castes, Primary Census Abstract for Scheduled Tribes, Village Primary Census Abstract and Urban Primary Census Abstract of the concerned district in the state.

It was for the first time at the 1981 Census that the Primary Census Abstract (PCA) was brought out for the Scheduled Castes and the Scheduled Tribes separately on the pattern of General Primary Census Abstract. This practice was continued in 1991 also. In the 1961 and 1971 Censuses, such data were made available in Table C-VIII-Social and Cultural table and to some extent in the series 'Special Tables for Scheduled Castes/Scheduled Tribes'.

The format of Primary Census Abstract has been restructured slightly in the 2001 Census as compared to that of 1991 Census. The nine-fold industrial classification of main workers given in the Primary Census Abstract of 1991 Census has been discontinued and its place, four-fold industrial classification of both 'main workers' and 'marginal workers' are included. In 1981 census only main workers were presented in to four categories. One of the novel features of the primary census abstract of 1991 census was the presentation of data of the population of age group 0-6 is continued in

2001 Census also. This will help the data users in better analysis and understanding of this literacy data.

Level of presentation in District Census Handbooks:

The Primary Census Abstract data in different PCAs are presented at different levels. The level of presentation of Primary Census Abstracts are as under:

The PCA Data for villages was presented CD Block wise for the first time in 1991 Census. This practice is continued in 2001 Census also. The data for each CD Block is presented both for rural and urban areas separately. All the villages within the CD Block constitute the rural portion and the Census Towns and Outgrowths are shown under the urban portion of the CD Block. In case a CD Block is spread over two or more districts, than portion which falls within the district is presented, the data pertaining to remaining portion of the CD Block is presented in the concerned District Census Handbook. The data in the Urban Primary Census Abstract for each town as well as for town with outgrowths in the district are presented. The data for all the wards and the outgrowths of the town(s) are also presented separately below the concerned town(s).

The District Primary Census Abstract is presented in 59 columns. The Primary Census Abstract for Scheduled Castes and Primary Census Abstract for Scheduled Tribes are presented in 52 columns. The Village Primary Census Abstract and Urban Primary Census Abstract are presented in 58 columns.

The concepts and definitions used in the column heading are explained under the sub heading 'Census Concepts' in the Analytical Note. The term 'Total Population' includes the Scheduled Castes, the Scheduled Tribes, the Institutional and the Houseless populations. The explanation regarding area figures presented at various level in the Primary Census Abstracts are as follows:

Area Figures

The area figures supplied by local revenue authorities of the district in respect of tehsils, Police Stations and by the local bodies in respect of towns are given in square kilometers. The area figures of the villages supplied by the Tahsildars in acres have been converted and shown in hectares. The area figures of the CD Block is the total of the village areas coming under each CD Block. The area figures for the district are the same as adopted by the Surveyor General of India to maintain uniformity at the national level. The total area figures of all the tahsils/CD Blocks within the district may not tally with area figures of the district because former represents land use area only. Similarly, the total of all the villages may not tally with the entire rural of Police Station/Tahsil. The difference may be due to the fact that while the area covered by hills, forests and rivers etc, have been accounted in the Tahsils and P.S. level the same may not be covered under the area of the villages. Apart from this it may also differ due to varying methods of computation adopted at different levels.

An appendix to District Primary Census Abstract has also been furnished showing urban enumeration blockwise particulars on Total Population, the Scheduled Castes Population and the Scheduled Tribes Population for each town. Tribes Population for each town.

The following Abbreviations have been used in the Primary Census Abstract for facility of presentations:

1	Municipal Corporation/ Corporation	M.Corp.
2	Municipality	M
3	Municipal Council	MCI
4	Cantonment Board/Cantonment	CB
5	Notified Area/Notified Area Committee/Notified Committee	NAC
6	Industrial Notified Area	INA
7	Gram Panchayat/ Village Panchayat	GP
8	Nagar Panchayat/ Town Panchayat	NP
9	Census Town	CT
10	Total	T
11	Rural	R
12	Urban	U

The following conversion factor has been used for converting areas into hectares and hectares into km^2

Acres x 0.40467 = hectares

100 Hectares = 1 Km^2

*These figures represent 'Geographical area' figures supplied by the Surveyor General. Figures for urban area are those supplied by the local Bodies. Area figures for rural are derived by subtracting the urban area from the total area of the District. The total of the area figures of talukas will not tally with the district figures because the former represents 'Land Use Area' and are derived from the figures supplied by the Director of

Note: { Represents Group Gram Panchayat.

Note : As the data of 2001 census is not available, data of 1991 census have been discussed in Annexure II and III. The details of 2001 census data have been discussed in Annexure IV, VI, VII and VIII, while Annexure V provides the recast data of 1991 census and separate data of 2001 census.

ANNEXURE – II

FERTILITY AND MORTALITY-1991 CENSUS

Fertility Level:

Population is a dynamic variable and keeps on changing. Increase due to birth and decrease due to death affect the population size of an area. Thus the birth and death are the two most important vital events. Natural increase is the excess of population by births over decrease of population by deaths at a given point of time. The births have direct correlation with the fertility.

The data on fertility levels and trends as revealed by the fertility indices of the 1991 Census like Crude Birth Rate (CBR), Age Specific Fertility Rate (ASFR) and Total Fertility Rate (TFR) are presented and analyzed below. The Definitions and concepts of fertility indices frequently used have already been explained in Analytical Note.

Death Rate:

Death process in demographical terminology is called as mortality. The rate at which death events occur reveal about the standard of living and state of health. Statistical data on causes of death help us in controlling the spread of diseases and suggests new curative methods to medical authorities.

Child Mortality:

Information about questions on children ever born and children surviving canvassed for all ever married women was tabulated by age of the mother. From this, estimate of child mortality have been worked out by using Brass technique.

Source: Occasional Paper No 1 of 1997.

The above statement shows that according to 1991 Census 54 deaths of children aged less than one year of were recorded in Rajkot district, whereas 78 deaths were recorded in Gujarat State for every 1,000 children. As regards children of less than two years of age 58 deaths were recorded in Rajkot district against 80 deaths recorded in Gujarat State for every 1,000 children. Similarly 66 deaths were recorded in Rajkot district for every 1,000 children of less than five years of age against 101 deaths recorded in Gujarat State for same category of children. Thus, Rajkot district has lower child mortality rate as of compared to Gujarat State.

Source: Occasional Paper No 1 of 1997.

The above Statement shows various fertility indicators of all the districts and the State as per 1991 Census. It can be observed that Rajkot district has crude Birth Rate(CBR) of 32.2 and Total Fertility Rate (TFR) of 4.0 both the rates are lower than the State CBR of 33.6 and TFR of 4.2. Total Marital Fertility Rate (TMFR) and Genaral Fertility Rate (GFR) of Rajkot district are 6.0, 179 respectively which are higher than the State TMFR of 5.4, and GMFR of 175 respectively. The General Fertility rate (GFR) of Rajkot is 129 which is lower than the State GFR of 136.

In Rajkot district Child Woman Ratio in the age groups of 0-4 and 5-9 was 432 and 587 respectively, while in Gujarat State it was 467 and 571 respectively.

Mean age at marriage means age at which the woman was married. In case a woman was married more than once, the age at which she was married first, was recorded. The rate of mean age at marriage in Rajkot district as per 1991 census was 19.6 and the of mean age at marriage in Gujarat State as per 1991 census was 19.0. Thus the mean age at marriage in Rajkot district was higher than the State.

Source: Gujarat State District Profile 1991.

It can be seen from the Statement that in Gujarat State as per 1991 Census there were 4.2 per cent children ever born per women in the age group of 45-49, which was lower than the Rajkot district figure of the surviving of 4.4 children. As regards surviving children in Gujarat State 3.8 per cent children survived out of 4.2 per cent ever born against the district figure of 4.1 per cent of surviving children out of 4.4 per cent children born.

ANNEXURE – IV

PERCENTAGE DISTRIBUTION OF MIGRANTS BY PLACE OF BIRTH/ PLACE OF LAST RESIDENCE, 1991 AND 2001 CENSUSES

Migration

Migration is a factor in changing the size and structure of the population. The migration process affects the areas to which migrants have moved and areas which they have left. Migration is a form of geographical mobility between one geographical unit to another, involving a change of residence from the place of origin/birth to the place of destination or place of new settlement from the last residence. A person is considered as a migrant by place of birth if the place in which he is enumerated during the Census is other than the place of birth. Similarly a person is considered as a migrant by place of last residence if the place in which he is enumerated during the Census is other than his place of immediate last residence.

Internal and International Migration

The migration movements are of four types –

1. Migration within the district of enumeration (intra-district migration)
2. Migration from one district to another but within the State
3. Migration from one state to another state of the country (inter-state migration) and
4. Migration from one country to another country.

The first three together constitute internal migration while the last type of movement is called international migration.

Migration by place of birth:

The absolute number and percentage distribution of Migrants by place of birth to total population in Rajkot district and in the State at 1991 and 2001 Censuses are as following.

PERCENTAGE DISTRIBUTION OF MIGRANTS BY PLACE OF BIRTH-1991 CENSUS

Source: Gujarat State-D-Series Tables-2001

The above statements show migration in Gujarat and in Rajkot district from other states as per 1991 and 2001 censuses. It can be seen that as per 1991 census there were 1,520,421 persons in the state who were born in other states of India, this figure rose to 2,520,676 in 2001 census. In 1991 out of such persons 34.4 per cent were born in Maharashtra while in 2001 only 29.2 per cent were born in Maharashtra. In 1991, as much as 22.2 per cent of inter state migrants were born in Rajasthan and 16.6 per cent in Uttar Pradesh whereas in 2001 the proportion of inter state migrants born in Rajasthan and Uttar Pradesh was 18.7 and 20.6 per cent respectively. As per 1991 census, in Gujarat, out of total inter state migrants 6.1 per cent were born in Madhya Pradesh, the proportion of the same, in 2001 census, was almost equal at 6.3 per cent. The remaining 20.7 per cent were born in other states of India in 1991 census while in 2001 census 25.2 per cent were born in other states of India.

It can be seen that in 1991, in Rajkot district, there were 31,830 migrants who were born in other states of India. In 2001, in Rajkot district, the number of such migrants was recorded at 52,249.The state-wise distribution reveals that as per 1991 census 32.5 per cent of migrants and as per 2001 census 24.6 per cent of migrants were born in Maharashtra. In 1991 the proportion of migrants born in the states of Rajasthan, Uttar Pradesh and Madhya Pradesh was 13.5 percent, 13.9 per cent and 6.8 per cent respectively while the same for 2001 census was 10.0 per cent, 18.8 per cent and 10.3 per cent respectively. The proportion of migrants born in other states was 33.4 per cent in 1991 and 36.3 per cent in 2001 census.

Migration by place of last residence:

Distribution of migrants by place of last residence in Gujarat and Rajkot as per 1991 and 2001 Censuses and percentage distribution of in-migrants from other States to Gujarat by place of last residence are presented below.

DISTRIBUTION OF MIGRANTS BY PLACE OF LAST RESIDENCE IN GUJARAT - 1991 CENSUS

Source: Gujarat State-D-Series Tables-2001

There were 13,664,201 migrants by place of last residence in Gujarat according to 1991 census and as per 2001 census there were 19,221,602 migrants in the state in this category. The proportion of male and female migrants whose place of last residence was elsewhere within the district of enumeration was 45.4 per cent and 65.1 per cent respectively in 1991 and the respective proportion was 52.4 per cent and 69.8 per cent in 2001 census in the case of Gujarat state. The reason for higher proportion of female migration is marriage. As per 1991 census, out of total migrants, 59.1 per cent of migrants were residing elsewhere in the district of enumeration, 29.6 per cent were those whose last residence was in other districts of the state while last residence of 10.7 per cent migrants was in other states of India and only 0.6 per cent were such whose last residence was in other countries. There were 3,810 migrants in the category titled Unclassified. In Gujarat as per 2001 census, 63.7 per cent migrants were residing elsewhere in the district of enumeration,

24.6 per cent were such whose last residence was in other districts of the state while last residence of 11.4 per cent migrants was in other states of India and only 0.3 per cent were such whose last residence was in other countries. There were no migrants in the category titled "Unclassified".

There were a total of 873,373 migrants by place of last residence in Rajkot district as per 1991 census. Out of total migrants, 59.9 per cent of migrants were such whose last residence was in the district of enumeration, 35.6 per cent were such whose last residence was in other districts of the state while last residence of 3.5 per cent migrants was in other states of India and 1.0 per cent were such whose last residence was in other countries. There were 150 migrants in the category titled "Unclassified" In the district, as per 2001 census, there were 1,244,361 migrants by last residence. Out of total migrants, 67.0 per cent of migrants were residing elsewhere in the district of enumeration, 29.0 per cent were such whose last residence was in other districts of the state while last residence of 3.5 per cent migrants was in other states of India and only 0.4 per cent migrants' last residence was in other countries. There were no migrants in the category titled "Unclassified".

Migration by reason:

The following statement gives distribution of migrants by reasons of migration from other States of India.

MIGRATION FROM OTHER STATES OF INDIA BY PLACE OF LAST RESIDENCE IN GUJARAT 1991

Source: Gujarat State-D-Series Tables-2001

It can be seen form the data given above that the main reason for the migration was "Work/ employment". As much as 30.3 per cent of migrants moved due to work or employment as per 2001 census. As per 1991 census also, the highest proportion of 25.8 per cent of migration took place due to the same reason. In 2001, this was followed by 26.5 per cent of migration which was due to the reason of "Moved with household" and also in 1991 it was followed by 24.0 per cent of migration due to the same reason which was then titled as "Family Moved". In 2001, the proportion of migration due to marriage was 17 per cent while the same was comparatively higher at 22.5 per cent in 1991 census.

ANNEXURE – V

BRIEF ACCOUNT OF MAIN RELIGIONS IN THE DISTRICT AS PER 1991 AND 2001 CENSUSES

Religion is the basic cultural characteristics of the population. In secular country like India several religions have thrived and every decennial Census provides an interesting picture of the religious persuasions of the people. The data on religion yielded by the Census are of immense use for the Anthropologists, Sociologists, Demographers, Administrators, and Planners and also for laymen.

The six main religions are i) Hindu, ii) Muslim, iii) Christian, iv) Sikh, v) Buddhist, and vi) Jain were recorded. In respect of 'Others', the actual religion returned was recorded. If a person said that he has no religion, it was recorded accordingly and if any person refused to state his religion it was recorded as 'religion not stated'.

Source: Gujarat State-C-Series Tables-2001

The statement above gives the details of distribution of population for Gujarat state and Rajkot district by six major religions as per 2001 census. The 2001 census data reveals that the proportion of Hindus was 89.1 per cent in the state of Gujarat against 89.6 per cent recorded in Rajkot. In comparison, in 1991 the proportion of Hindus was 89.5 per cent in state as well as in the district.

The proportion of Muslims was 9.2 per cent in the district in 1991 which remained same in 2001. At state level the proportion of Muslims was 8.7 per cent in 1991 and 9.1 per cent in 2001 census. The proportion of Christian Jain, Sikh, Buddhists, and people following other religions and of people who did not state any religion was not so significant in Rajkot in 1991 as well as in 2001 census. It may be noted that in number terms population of Christian, Jain, Sikh and people following other religions had increased in 2001 as compared to 1991 while population of people who did not state any religion had decreased in 2001 as compared to 1991.

ANNEXURE-VI

MARITAL STATUS OF POPULATION AS PER 1991 AND 2001 CENSUSES

Sex-wise Marital Status:

The details of sex-wise marital status for Gujarat State and Rajkot District as per 1991 and 2001 Censuses are given below:-

MARITAL STATUS BY SEX-1991 CENSUS

Source: Gujarat State -C- Series Tables -2001

In 1991 in rural areas the proportion of never married persons was 49.2 per cent in Gujarat and 52.4 per cent in Rajkot, while in 2001 the same was 47.7 per cent in Gujarat and 49.4 per cent in Rajkot. In 1991 in urban areas the proportion of never married persons was 50.6 per cent in Gujarat and 51.3 per cent in Rajkot, while in 2001 the same was 47.5 per cent in Gujarat and 47.9 per cent in Rajkot. As per 1991 census the proportion of married persons, in rural areas, was 46.4 per cent in Gujarat and 43.7 per cent in Rajkot, while as per 2001 census, in the rural areas of Gujarat, this proportion was at 47.4 per cent and 46.4 per cent in Rajkot. The proportion of married persons in urban areas of the state was 46.0 per cent in 1991 and 48.4 per cent in 2001.In Rajkot , in 1991, the proportion of married persons in urban areas was 44.4 per cent and the same was 48.1 per cent in 2001.The proportion of widowed, divorced/separated and persons under category titled 'Unclassified' had not shown any significant changes.

ANNEXURE – VII

AGE, SEX AND EDUCATION IN THE DISTRICT AT THE 1991AND 2001 CENSUSES

Literacy has occupied an important position in Indian Census in one form or the other from the very beginning. The definition of literates as adopted in 1991 Census was 'A person who can both read and write with understanding in any language is to be taken as literates'. A person who can merely read but can not write was not treated as literate. It is not necessary that a person who was literate should have received any formal education or should have passed any minimum educational standard. In 1991 Census all children below the age 7 were treated as illiterate. While processing the literacy data population of age group 0-6 was excluded.

The following statement gives the distribution of literates and illiterates by broad age groups and sex in the district as well as in the State at the time of 1991 and 2001 Censuses.

LITERACY BY AGE -GROUP AND BY SEX-1991

Source: Census of India -C- Series Tables-2001

It can be seen from the statement that in 2001 the highest proportion of 83.6 per cent literacy rate in Gujarat state is registered in age group of 7-14 years followed by 77.6 per cent in 15-29 years age group. The same trend can be observed in Rajkot district where the highest proportion of 88.3 per cent is registered in the age group of 7-14 years followed by 84.2 per cent in the age group of 15-29 years. The lowest proportion of 39.5 per cent in state and 39.9 per cent in Rajkot district is found in the age group of 60 + years. As per 2001 census the female literacy rate was lower than that of males in each and every age group in the state as well as in Rajkot District. A comparison with the 1991 data shows that, in 2001, literacy rate has increased for each and every age group in the state and also in the district except for the category titled 'Age not stated'.
