TRIBAL FESTIVAL

The Tribals of Sabar Kantha differ from the other tribal communities in many ways. Their origin might be either in Rajasthan or in Rajput community. They are wheatish to black in complexion, with charming faces, sharp nose and glittering eyes. Most of these tribals live in the mountains of Arvalli. The area is literacy frightening. They do not live together in large number. Most tribals erect four or five huts on top of a hill. Their hut is called "kholaku". They do not keep more household properties. They preserve the clothes in a pot, bury the money and stitch the currency notes inside a bed.

The Tribals of this area are very much fond of festivals. They organise fairs and festivals and satisfy their urge for social contacts and interaction among themselves. The tribals of this area forget everything at the time of celebrating the festivals. Flute, dance, songs and drums are their favourites. Holi, Balev, Navratri and Divaso are their main festivals. The tribals of Sabar Kantha are brave, heroic and spirited. The tribals of this area are loving, superstitious, revengeful and bold.

Annexure - VIII	: Distribution of different Mother Tongues returned in 1991 and 2001 Census	918

Foreword

The District Census Handbook (DCHB) published by Census Organisation since 1951 census, is one of the important publications in the context of planning and development at gross-root level. The publication, which is brought out for each district, contains several demographic and socio-economic characteristics village-wise and town-wise of the district along with the status of availability of civic amenities, infrastructural facilities, etc.

2, The scope of the DCHB was initially confined to a few Census Tables and Primary Census Abstract (PCA) of each village and town within the district. Thereafter, at successive censuses, its scope and coverage has been enlarged. The DCHB published at the 1961 census provided a descriptive account of the district, administrative statistics, census tables and a village and town directory including PCA. The 1971 census-DCHB series was in three parts: Part-A related to village and town directory, Part-B to village and town PCA and Part-C comprised analytical report, administrative statistics, district census tables and certain analytical tables based on PCA and amenity data in respect of villages. The 1981 census DCHB was in two parts: Part-A contained village and town directory and Part-B the PCA of village and town including the SCs and STs PCA up to tahsil/town levels. New features along with restructuring of the formats of village and town directory were added into it. In Village Directory, all amenities except electricity were brought together and if any amenity was not available in the referent village, the distance in broad ranges from the nearest place having such an amenity, was given. Information on new items such as adult literacy centres, primary health sub-centres and community health workers in the village were provided so as to meet the requirements of some of the Revised Minimum Needs Programme. Information on approach to the village was provided for the first time in the Village Directory so as to give the details on number of inaccessible villages in each district. In the Town Directory, a statement (IV-A) on slums was introduced to provide the details on civic and other amenities in the notified slums of Class I and Class II towns.

3. The 1991 census of DCHB, by and large, followed the pattern of presentation of 1981 census, except the format of PCA was restructured. Nine-fold industrial classification of main workers was given against the four-fold industrial classification presented in the 1981 census. In addition, sex-wise population in 0-6 age group was included in the PCA for the first time with a view to enable the data users to compile more realistic literacy rate as all children below 7 years of age had been treated as illiterate at the time of 1991 census. One of the important innovations in the 1991 census was the Community Development Block (C.D.Block) level presentation of village directory and PCA data instead of the traditional tahsil/taluka/PS level presentation. It was expected that the presentation of village directory and PCA data at CD block level will help the planners in formulation of micro level development plans, CD block being lowest administrative unit.

4. The present series of 2001 census DCHBs have been made more informative and exhaustive in terms of coverage and content. The Village Directory has been enlarged in scope by including a number of other facilities like banking, recreational and cultural facilities, newspapers and magazines and 'most important commodity' manufactured in village. Income and expenditure of gram panchayat, wherever possible, has been provided. Apart from these, more details on distance(s) at which basic amenities are available (if not available in the village), are given. This includes educational facilities (namely primary and middle schools and college), medical facilities (viz. Allopathic Hospital, Maternity & Child Welfare Centre and Primary Health Centre), drinking water, post & telegraph (post office and phone), communication, bank, credit societies and recreational facilities. In Town Directory, the statement on Slums has been modified and its coverage enlarged by including details on all slums in instead of 'notified slums'. The information is given in case of all statutory towns

irrespective of their class, against only Class I and Class II towns in the 1981 and 1991 Censuses. The basic amenities available in the villages and towns are analysed in depth with the help of a number of cross-classified inset tables and statements. Two other significant additions in the publication are inclusion of 'motif highlighting significant characteristic of the district and analytical notes as annexures. The analytical notes on (i) fertility and mortality and (ii) various measures of fertility and mean age at marriage are prepared based on 1991 Census. Whereas, in the notes relating to (i) percentage distribution of migrants by place of birth/ place of last residence, (ii) main religions, (iii) marital status of population, (iv) age, sex and education, and (v) distribution of spectrum of mother tongue, nature and extent of changes occurred in the district in its basic socio-demographic features during the decade 1991-2001 are analysed. The eight digits permanent location code (PLCN) to all the villages and towns have been assigned keeping in view the future needs.

5. The village and town level amenity data have been collected, compiled and computerised in prescribed record structure under the supervision of **Shri Jayant Parimal**, Director of Census Operations, Gujarat. Thereafter, efforts have been made to ensure comparability of the information with that of 1991 census data and the information brought out by the respective state governments in their annual reports and statistical handbooks for various years after 1991. The task of planning, designing and coordination of this publication was carried out by Shri R.G. Mitra, Deputy Registrar General (C&T) and Dr. I.C. Agrawal, Senior Research Officer of Social Studies Division. Dr. R.P. Singh, Deputy Registrar General (Map) provided the technical guidance in the preparation of maps. Whereas, Shri Anil Kumar Arora, Deputy Director of Data Processing Division who worked under the overall supervision of Shri Himakar, Addl. Director (EDP) helped in preparation of record structure for computerisation of village and town directory data and the programme for the generation of Village Directory and Town Directory statements including analytical inset tables. The draft DCHB manuscripts received from the Census Directorates have been scrutinised in the Social Studies Division under the guidance of Shri S.L. Jain, Deputy Director and Shri R.K. Mehta, Assistant Director. I am thankful to all of them and others who have contributed to make this publication possible.

D. K. Sikri,
Registrar General &
Census Commissioner, India.

New Delhi
17th October, 2006.

Preface

Census is being conducted in the country every ten years as per the programme laid down by the Government of India. In these day and age of information technology, an individual has access to a variety of information covering a Kaleidoscope of interest and fields. Availability of relevant information is very vital for planners, policy makers and researchers.

The Five Year Plans have come to stay in the country and whatever development is achieved as a result of implementation of planning from the bottom level such as development of infrastructure facilities as well as basic amenities, etc. is reflected in the District Census Handbooks and they give to the readers a searching eye whether the development over the years in villages/talukas/districts is lopsided or upto the mark. This is the basic requirement of this type publications and an attempt has been made to show whether the census handbooks reasonably fulfill these aspirations/requirements.

These district Handbooks are thus useful to planners in planning from bottom as well as to administrators, researchers, educational institutions including universities and other socio-economic research centres as well as students conducting research in demography, social and economic studies as well as to the local bodies like Panchayats, Municipalities and Municipal Corporation etc.

District Census Handbook of Gujarat is a joint venture of the Government of Gujarat and the census organization of the Government of India. In the preparation of the DCHB, the role played by the census organisation is that of Census data collection, scanning of collected information, analysis of PCA. DCHB Unit of the State Government collected the basic non-census iniformation on availability of amenities relating to infrastructure in the villages of the district presented in the part A of this book. The cost of this publication is borned by the State Government. In accomplishing this task we had the ready and whole hearted co-operation of the staff at various levels of different department of the State Government. Most of the data supplied by the various departments have been cross-checked and an attempt has been made to reconcile the discrepancies as well.

I express my deep gratitude to the officers of Gujarat Government particularly Shri P.K.Laheri, Chief Secretary of Gujarat State, Smt. Netraben Shenoy, Additional Chief Secretary of General Administration Department (Planning), Shri George Joseph, Principal Secretary, General Administration Department (Personnel), Shri K.R.Vasava, Deputy Secretary, Kum.P.S. Mevada, Under Secretary and Shri P.D.Kulkarni, Section Officer of General Administration Department, Planning, Shri S.D.Mehta,Deputy Secretary and Shri I.M.Sheikh, Under Secretary, Shri Bipin Patel, Section Officer and Shri P.N.Christian, Deputy Section Officer of G.A.D. (Kh-3) for their valuable help and co-operation in fulfilling all administrative requirement in time for bringing out this publication. I am also thankful to Shri P.M. Patel, Director, Economics and Statistics helped this organisation not only by placing the competent personnel on disposal of census services on deputation but also provided valuable official statistics for this publication.

The District Collector, the District Development Officer, District Statistical Officer, District Information Officer and their staff members extended their warm and whole hearted co-operation for carrying out field work of the census and collection of non-census data for this District Census Handbook.

I am deeply grateful to Shri J.K. Banthia, I.A.S., the Ex-Registrar General and Census Commissioner, India for the benefit I have derived by the way of guidance and advice. I also express my thanks to Shri R.G. Mitra, Deputy Registrar General(C&T) Shri C. Chakravorty, Joint Director, Shri I.C. Agrawal,Senior Research Officer(SS), Shri S.L. Jain, Deputy Director(SS), Shri R.K. Mehta, Assistant Director(SS), Shri R.P. Singh, Dy. Registrar General(Map), Shri Himakar, Addl. Director (EDP) and Shri Anil Kumar Arora, Deputy Director (EDP) for providing technical guidance in finalising this publication.I am extremely thankful to Shri D. K. Sikri, IAS, Registar General & Census Commissioner, India for his valuable guidance in finalizing of this publication.

Shri Jayant Parimal, I.A.S. who held the office of Director of Census Operations, Gujarat, had guided the operations of the 2001 Census. The data presented in this handbook were collected and compiled under the able direction and guidance of Shri Parimal.Our sincere and grateful thanks for all the projects of census to him.

In state office Smt. B.B. Chauhan, Deputy Director, District Census Handbook Unit, Kum.S.B.Dabhi, Assistant Director, Shri S.B. Dalvi, Deputy Section Officer of District Census Handbook Unit and their team of able assistants meticulously collected and scrutinized the non-census data from various sources and prepared draft of DCHB etc. with the help of Census section. The other officials of D.C.H.B. Unit, who scrutinised, edited and supervised the work of D.C.H.B. have been mentioned in the "Acknowledgement". The maps provided in the D.C.H.B. are prepared by the Map Section of the Census Directorate under the supervison of Shri J.P. Purohit, R.O(Map). I am thankful to all of them.I am thankful to the census section of the Directorate for scrutinizing the PCA data, specially Shri J.N.Pithadia, Investigator Grade-I and Kum.N.V.Shah, Investigator Grade-III who provided assistance to me in finalizing P.C.A. data at every stage. Smt. J.R.Sanghani, Investigator Grade-III of this Directorate assisted me for final scrutiny of D.C.H.B., I am thankful to her.

Lastly, I am thankful to the Government of Gujarat for having agreed readily to bear the cost of publication of the District Census Handbook volumes and for the special efforts of Shri R.B. Raval, Director, Printing and Stationary and his colleagues to print out the publcation in a very nice fashion.

H. S. Meena

Note : 1 village is fully covered as out growths (OGs) and therefore not included under the item, "Number of villages".

Definition of Census Town :

All places which satisfy or are expected to satisfy the following criteria are treated as Census Towns:-

i) A minimum population of 5,000;

ii) At least 75 per cent of the male working population engaged in non-agricultural pursuits, and

iii) A density of population of at least 400 per square kilometer (1,000 per square mile).

Note : *These figures represent 'Geographical area' figures supplied by the Surveyor General. Figures for urban area are those supplied by the local Bodies. Area figures for rural are derived by subtracting the urban area from the total area of the District. The total of the area figures of talukas will not tally with the district figures because the former represents 'Land Use Area' and are derived from the figures supplied by the Director of Land Records.

UA =Urban Agglomeration.

ANALYTICAL NOTE

ANALYTICAL NOTE

(i) History and Scope of the District Census Handbook:

Before the 1951 Census, the Census figures were published in a booklet known as 'Village Hand-book', which contained only village wise population figures. These books were prepared and published by the Directorate of Census Operations of the State.

The Directorates introduced the District Census Handbook for the first time in 1951 Census. It comprised the village wise primary census abstract figures and information on available amenities. It also contained several statements relating to the district. It varied in content and size from State to State depending upon the resources offered by the respective State Governments.

In 1961 Census, an uniform pattern of District Census Handbook was adopted throughout the country. The Directorate of Census and the State Government jointly executed the project. In addition to the English version, it was published for the first time in Gujarati language also. The District Census Handbook 1961 was published in three parts. Part I related to Introductory Note i.e. general and economic information for the district and a brief gazetteer of place names. Part II pertained to census statements, villagewise list of industrial establishments, statements on handicrafts and departmental statistics. Part III consisted of village directory covering the amenities and primary census abstract data combined in one statement. It also covered district and taluka maps.

It is worthwhile here to note that the State Government has created a separate unit for preparing and publishing the District Census Handbook from 1971 Census onwards. In the 1971 Census, the contents of District Census Handbook were modified. In the preceding censuses the data on amenities and primary census abstract were covered in one statement whereas in 1971 Census, the data on amenities and primary census abstract were separated into two different parts. Thus, the coverage of amenities data was extended and the land use data were introduced for the first time since 1971 District Census Handbook. Moreover, a separate portion known as 'Town Directory' was also incorporated for the first time in the District Census Handbook. The 1971 District Census Handbooks were published in three parts. Part A contained the village and town directory. Part B contained village and townwise primary census abstract data and Part C contained official statistics, besides full count census statements, urban census statements and analytical report on census and related statistics socio-economic and cultural statements (Rural areas) and housing statements. Part A and Part B were combined and published in one volume.

The District Census Handbook –1981 was brought out in two parts, Part-A and Part-B. Part-A contained the village and town directory whereas Part-B included the primary census abstract data for both General population and Scheduled Castes/Scheduled Tribes. Both parts were published in one volume. Part C brought out for 1971 Census was dropped in 1981 Census. However, official statistics and some portion of analytical notes of part C of 1971 Census were included in the 1981 District Census Handbook also. For the 1991 Census, the District Census Handbooks were prepared more or less on the same lines of the preceding Census of 1981. In 2001, the scope of both Part A and Part B has been enlarged by giving several additional information due to large scale computerization.

The District Census Handbook has been prepared after scanning and processing of data collected through Houselist Schedule and Household Schedule. Several innovations have been introduced mostly at all the stages of the Census of India, 2001, right from the preparatory efforts of data processing to data dissemination of stage. This includes certain fundamental changes in the form and contents of the Houselist and Household schedules, while maintaining the continuity and comparability of the basic housing

and population characteristics with the earlier census. For the Census of India 2001, a system of Permanent Location Code Number (PLCN) has been adopted by assigning a population number to each village within the State/UT a continuous series from I to N. Each village has been assigned an eight-digit code. The last two digits being '00' are kept for accommodating future changes in case of split of an existing village or creation of new villages etc. Since the permanent Location Codes have been assigned to each village, theoretically tracing the precise location of village on account of future jurisdictional changes in the boundaries of various administrative areas within the state should not pose a problem. It is imperative that under this scheme, the PLCN assigned to villages at the Census of India, 2001 are adopted in future censuses also to ensure the comparability of the data at the village and other administrative levels over a long time series.At the 2001 census age at marriage was collected for males also, while it was collected for only ever-married females until the 1991 Census, the type of educational institution attended by a person was enlarged to include school, college, vocational institute. The scope of the definition of 'work' was expanded in the Census of India, 2001, this includes production of milk for domestic consumption. In the 1991 Census, cultivator of certain crops even for self-consumption was treated as economic activity. The scope of the term 'Cultivation' was expanded in this Census to include certain other crops such as tobacco, fruits, all types of flowers, roots and tubers, potatoes, chilies and turmeric, pepper, cardamom, all types of vegestatements and fodder crops etc. This meant that activities related to production of all the above-mentioned crops for domestic consumption has been treated as work. Only five crops viz. tea, coffee, rubber, coconut and betel nuts have been classified under 'Plantation' in the Census of India 2001.

- At the 1991 Census, the question on seeking/ available for work was canvassed for only non-workers. At the Census of India 2001, this question is asked from the Marginal Workers also. A question to elicit information on secondary work canvassed at the 1991 Census was dropped.
- From among the categories of non-workers adopted at the 1991 Census, the category 'Inmates of institutions' has been dropped and 'Retired Persons and Rentiers' has been replaced by the category 'Pensioners'.
- A new response category 'Moved after birth' was included in the question on reason for migration to bring out additional migration patterns. Natural calamities or distress migration as a reason for migration for last residence migrants included in the 1991 Census is covered under category of 'Other'.
- Number of children born alive to currently married women during last one year was collected for male and female children separately.

Besides the above modifications, the following new questions were canvassed at the 2001 Census.

- A question on total disability was canvassed in the 1981 Census but in 1991 Census there was no provision for question on disability. At the present Census of 2001, a question to elicit information on total or partial disability was canvassed. The five types of disabilities on which information was collected are - in seeing, in hearing, in speech, in movement and for mentally disorderness.
- A new question on 'Travel to place of work' is canvassed mainly for workers engaged in non-agricultural activities. Information on distance from the residence to place of work and mode of travel to place of work was collected under this question.

The mode of presentation of DCHB in 2001 will by and large be same as that of 1991. The uniqueness of Census 2001 is that single record (Household Schedule) has been processed as against two records viz. Individual Slip and Household Schedule in the previous Censuses. Apart from this some deviation has been made this time by incorporating analytical notes on migration, fertility & mortality, education, marital status, age structure etc. pertaining to 1991 Census of the respective district in the DCHB in the form of Annexure II to VIII. Similarly Statements based on House list data pertaining to Census 2001 has also been included in DCHB.

(ii) Brief History of the District:

The particular reference for the history of Sabar Kantha district is not available up to Kshatrapa period (circa-85-400 A.D.). In about 467 A.D. Shamlaji has yielded some fine specimens of the Gupta art. The Chinese pilgrim Hu en Tsiang (640 A.D.) mentions a region named Atali, the headquarters, of which is probably represented by Vadali near Idar. Soon after the fall of Valabhi, Rashtrakutas in South Gujarat extended their sway over the district. The district had been under the power of Parmar dynasty of Malwa. After the death of King Bhoja Parmar of Malwa, the district was under the power of Chalukyas of Anhilwad Patan (1054 - 55 A.D.)

Idar is said to have been refounded by Parihar Rajputs who, subject to Chitor, ruled there for several generations. Towards the close of the twelfth century, the Idar chief took part with Prithviraj, King of Delhi, in the battle against the musalman invaders of India, and was killed in the battle of Thanesar (1193). Idar then fell into the hands of a Koli named Hathi, Sod, was succeeded by his named Sonangji, who took possession of Idar and became the founder of the dynasty of the Raos who ruled there for several generations. The town Idar is picturesquely situated at the foot of Idargadh, a rocky hill, about 500 high towering over the town. The strength of the fort on the hill is proverbial. 'To take Idargadh is to achieve the impossible'. The Vijaynagar is predominately inhabited by forest and surrounded by hills. About 8 miles away from Vijaynagar, near Abhapur are the scattered ruins of a number of old temples dedicated to Shiva, Mahavir, Sun etc. The temple of Sarneshwar Mahadev constructed in the year 1100 A.D. was devastated by Alafkhan, the brother of Allaudin Khilji at the time of his invasion on Patan. It has beautiful sculptures carved allround. The temple is conserved by the State Archaeological Department.

Himatnagar, the headquarters of the district was originally founded in 1426 A.D. by Sultan Ahmed-I to keep the Raos of Idar in check. The Sultan founded this place and named it 'Ahmednagar'. Subsequently in 1848, it was reverted to the State of Idar and took its present name 'Himatnagar' after Maharaja Himatsinhji of Idar. The district previously belonged to Mahi Kantha Agency. In 1948, it was named as Mahi Kantha district. However, as the Mahi river did not traverse the district, the name Mahi Kantha district was misnomer. The name Mahi Kantha was changed into Sabar Kantha as a result of agitation by Social Workers.

The district came into existence in August 1949 on account of the merger of 29 princely States and Estates and Prantij taluka and Modasa Mahal of the former Ahmadabad district in the then Bombay State. Ambaliara, Mohanpur, Malpur, Bayad and other States of Sadra division of the former Western India States agency were merged in this district.

In November, 1956, the States were reorganised and the bigger bilingual State of Bombay was formed with Vidarbha, Marathawada, Saurashtra and Kachchh regions and Sabar Kantha district became a part of the bigger bilingual State.

Lastly the Bombay State was bifurcated on 1st May, 1960 and separate States of Gujarat and Maharashtra were formed. Since that date, the Sabar Kantha district became a part of Gujarat State.

(iii) Administrative Set-up:

With a view to run the administration of the State smoothly, it has been divided into Districts, which in turn have been further sub-divided into Taluka (Tahsils). In the State of Gujarat, the community development blocks are co-terminus with the Talukas. The Talukas contain large number of villages and possibly several towns. The villages have Village Panchayats to run the local administration. A Village Panchayat may constitute of one revenue village, several revenue villages or a part of a large village. Similarly, the towns have Municipality or Municipal Corporation as the seat of local self-government.

In the State of Gujarat, as on December 1999 there were 25 districts and 226 *Talukas, against 19 districts and 184 Talukas in 1991 Census. There were 10 talukas in Sabar Kantha district in 1991 Census. In 1997 by several notification(s), Government of Gujarat reconstituted some districts and talukas of the State. Several changes as described were also

*Vagdod Taluka merged in the Patan taluka of the Patan District on 3rd July-2001

made in Sabar Kantha district. By Government Notification No. GHM-97-114-M-PFR-1997-2587-L dated 15-10-1997 Talod taluka was created by separating it from Prantij taluka and Bayad taluka. Dhansura and Vadali talukas were created by separating from Modasa and Idar taluka respectively.

The District Collector looks after the general administration, maintenance of collection of land revenue and settlement of law related disputes, civil supplies, district planning, mid-day meal scheme etc. at the district level. At the Taluka level, Mamlatdar looks after the land development, revenue collection, law, and order. The functions of administration of law and order and control and investigation of crime are done by the Superintendent of Police of the district with the help of Police Stations working under him. For the purpose of maintaining law and order there are 19 police stations, 2 police chowkies and 38 out-posts as per statement below.

Police Stations in the District

Sl. No.	Particulars	1998	2000
1	2	3	4
1.	Police Station	19	19
2.	Police Chowky	2	2
3.	Out post	37	38

Source: Director General of Police, Gandhinagar, 2000

During the period 1998 to 2000 police stations and police chowkies were unchanged but the out-post has been increased.

The Panchayati Raj institutions are fairly strong and most of the development works have been transferred to the District Panchayats and its subordinate bodies. The District Panchayat has an elected President and District Development Officer appointed by the Government, works as its Secretary, who looks after day-to-day work related to the development. Similarly, at the Taluka level, Taluka Panchayats have been constituted which have an elected President. The Taluka Development Officer, placed by the Government as Secretary of the Taluka Panchayats and he conducts the regular administrative work. Like-wise, an elected President heads the Municipality and the Chief Officer works as the Secretary of the Municipality, who looks after the day-to-day work. In case of the large cities, the State Government has constituted Municipal Corporations, which are headed by an elected Mayor and the Municipal Commissioner, appointed by the Government, looks after the routine work. At the Village level, the Sarpanch is the elected Chief and the Talati (Village Mantri) works as the Secretary to the Village Panchayat and looks after the day-to-day work. In view of the expanding role of the public administration in a state like Gujarat, the Government has taken-up many activities and has set up several offices. Such offices which came into the existence are as under:

(1) Education
(Primary and Higher Education)

(2) Agricultural and Research

(3) Animal Husbandry and Poultry

(4) Forest and Environment

(5) Roads and Buildings, Bridges

(6) Co-operation and Co-operative Societies

(7) Industries, Small and Large as well as Cottage

(8) Health and Medical Services, Medical Education and Research, Family Welfare and Nutrition

(9) Information Department,

(10) Irrigation, Minor and Major

(11) Social Welfare and Social Defence

The functions of above offices are managed and controlled by concerned Head of Departments and in some cases by District and Taluka Panchayats. The task of providing primary education in rural areas has been entrusted to District Panchayats.The functions related to Government of providing primary education is assigned to District Primary Education Officer of District Panchayat who works under District Development Officer.The secondary education is looked after by District Education Officer of Education Department. Primary education as well as higher secondary education of all types is governed by District Education Officer.

Agriculture activities have been delegated to District Panchayat to a large extent and District Agriculture Officer is in-charge of looking after agricultural produce including crops and vegetables. Similarly Animal Husbandry is also a Panchayat activity and routine work is controlled by the Deputy Director (Animal Husbandry) who sits in District Panchayat taking care of animals and poultry farms. Besides, district agriculture office in Panchayat Offices such as Deputy Director (Agriculture) and other officials look after various aspects of agriculture for developing the sector as well as to extend necessary assistance to farmers at district level.

Besides Director, Animal Husbandry Officer of Panchayat offices such as Deputy Director (Animal Husbandry) Special Officers at Veterinary Offices etc. in state government animal husbandry department also monitor activities of the sector at district level.

Public Health in rural area is assigned to the District Panchayat under the Chief District Health Officer who looks after epidemics, malaria control, water borne diseases and district level administration of Public Health Centres. District and Talukas Hospitals and Referral Hospitals are being looked after by the District Civil Surgeon of medical services in the State, while Medical Colleges and Research activities attached with the respective Civil Hospitals are controlled by Medical Education and Research Wing.

Family welfare activities are also monitored by the District Health Officer. Chief District Health Officer is also functioning as District Registrar of Birth and Death of the district and Talati cum Mantri is also Registrar of Birth and Death for the respective villages. Anaemic mothers and children upto to the age of 14 are looked after by Nutrition Officer under the Nutrition Programme.

District Ayurvedic Officer looks after the Ayurvedic dispensaries and hospitals. They also take care of the Ayurvedic plants and medicines and gardens. The District Food and Drugs Officer generally looks after the quality of the food and drugs in the district. Labourers and workers who are working in registered units are covered under the Employees State Insurance Scheme.

The rural roads have been transferred to the District Panchayats and their maintenance is done by the Executive Engineer, Roads and Buildings Department. Minor irrigation works are transferred to the District Panchayat and Executive Engineer (Panchayat) of the Panchayat's irrigation office looks after water harvesting and check dams.

The Roads and Buildings Department of State Government looks after the maintenance of roads, buildings, bridges and government multi-storey buildings etc. Besides Panchayat officials, major district roads and the state highways are looked after by the Executive Engineer (Roads & Buildings). The large multi-purpose irrigation projects are controlled by State Government directly through its Executive Engineers.

District Industry Centre is functioning to develop the small and village industries, handloom industries and the scope of industrial growth in the district. Besides, other departments are working for the rights of the industrial workers and rural labourers engaged in agriculture and others sectors.

Social welfare activities relating to the Scheduled Castes, Scheduled Tribes, Other Backward Castes and Other Backward Communities in the District are organized by the District Welfare Officer. Generally the schemes under Tribal Area Sub Plan and Special Component Plan are organized by the District Welfare Officer.

In each District Panchayat, District Statistical Officer of Directorate of Economics and Statistics looks after co-ordination of different development programmes. He is also Member-Secretary of District Planning Board. Similarly in every Collector Office, District Planning Officer looks after development work of various Government (State & Centre) sponsored programmes.

Co-operative Societies i.e. Co-operative Milk Societies, Agricultural Produce Market Societies, Co-operative banking and other co-operative societies are controlled by the District Registrar, Co-operative Societies.

As per 2001 census neither any new town was included nor was any of the existing towns declassified.

The talukawise break up of towns and villages in the district are shown as following.

Talukawise Number of Towns and Villages

Sl. No.	Name of Taluka	Number of Towns	Number of Villages	
			Total	Inhabited
1	2	3	4	5
1	Khedbrahma	1	135	133
2	Vijaynagar	-	85	85

(iv) Physical Features:

Sabar Kantha district is situated in the northern part of the Gujarat state. It lies between the parallels of latitude 23º3' and 24º29' and the meridians of longitude 72º43' and 73º39'. The length from north to south of this territory is about 160.2 km and from east to west about 93.7 km. It is bounded on the east and north-east by Rajasthan State, on the west by the Banaskantha district and Mahesana district, on the south by Gandhinagar, Kheda and Panchmahals districts. The western side of this district is bounded by the river Sabarmati, whereas the Aravalli hills form a natural boundary on the northern and eastern sides. The area covered by this district is 7,390 sq.km. and the rank of this district is 12th in comparison to other districts of the state.

Physiography:

Sabar Kantha district is a part of Gujarat Plain and is sub-divided in to 5 sub micro regions, namely Idar Upland, Sabar Kantha Aravalli, Sabarmati Plain, Vatrak Meshwa and Majham Plain and lastly Khari Plain on the basis of physiography, climate, geology, soils and natural vegetation.

Idar Upland

The region spreads over the north-western part of the district covering major part of Idar taluka and some parts of Khedbrahma and Himatnagar taluka. It is enclosed by Sabarmati Plain from three sides whereas Mahesana district bounds it from the western side. The north-eastern part of this region is relatively higher having an altitude of 200 metres above M.S.L. The elevation in remaining portion of the region is 100 metres above M.S.L. The geological structure of this region pertains to Alluvium, blown sand, etc., Erinpura Granite and Delhi System formations.

Sabar Kantha Aravalli

This region covers northern and eastern parts of the district which run along the Rajasthan border. The region occupies Vijaynagar, Bhiloda and Meghraj talukas and some parts of Khedbrahma, Idar, Himatnagar, Modasa and Malpur talukas. It makes its limits with Rajasthan state in the north, Panch Mahals district in the east, Kheda district in the south and Idar Upland and Vatrak Meshwa and Majham Plain in the west and south-west.

The topography of this region comprises of high hills and valleys. The elevation of this region varies between 200 and 500 metres above M.S.L. Vijaynagar attains the maximum height in this region. Vijaynagar and Khedbrahma have thick forest cover. The geology of this region is mainly composed of Aravalli and associated rocks and Delhi System formations.

Sabarmati Plain

This plain falls in the south-western part of the district and covers parts of Idar, Himatnagar and Prantij talukas. It is enclosed by Mahesana district from west, by Idar Upland from north, by Sabar Kantha Aravalli from east and by Khari Plain from south-east. Gandhinagar district also touches this region.

As regards the relief, the general elevation of the region is 100 metres above M.S.L. The geology pertains to Alluvium, blown sand, etc.

Vatrak Meshwa and Majham Plain

This region covers the south-central part of the district, occupying Himatnagar, Modasa and Prantij, Bhiloda, Malpur and Bayad talukas. It is surrounded by Idar Upland from north and east, by Kheda district from south and by Sabarmati Plain and Khari Plain from west.

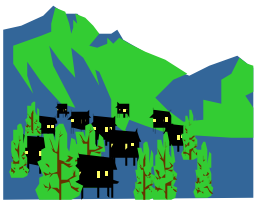

The general elevation of the region is 100 metres above M.S.L. and in the northern part of the region has some hillocks. These are covered with forests. The geological structure of the region consists mainly of Alluvium, blown sand etc., and Aravalli and associated rocks. Some tracts of Deccan Trap, Intra-Trappean Bagh and Lameta Beds, Erinpura Granite and Delhi System are also observed.

Khari Plain

This region lies in the south-western part of the district and occupies part of Prantij taluka. It makes its limits with Vatrak Meshwa and Majham Plain in the north and east, Gandhinagar district in the south and Sabarmati Plain in the west.

The general elevation of the region is 100 metres above M.S.L. Geologically, the region is composed of Alluvium, blown sand etc.

Hills:

More rugged and formidable are the highlands occupying parts of the Sabar Kantha district. The Sabar Kantha highlands are formed by the Aravalli hills and drained by the river Sabarmati and its tributaries. The ranges of Aravalli hills which take a southern turn on the border of the district form a natural boundary. The hills are mainly situated on the northern and eastern portions as stated above. The highest elevation reached is about 800 ft. The hills are a part of the chain of Aravalli hills which are found as long continuous strips of detached hills. The hills of these ranges are interlinked by either ravines or indentations or form a long continuous chain. A bird's eye-view of these hills reveals a picturesque surrounding being a rugged region broken by numerous great rounded or pointed hill masses with occasional steep falls or by smaller hillocks.

Drainage:

This district at present is traversed by seven perennial rivers, viz. the Sabarmati, the Hathmati, the Meshvo, the Mazum, the Vatrak, the Harnav and the Khari. The Sabarmati river flows from north to south along the western border of the district and other rivers flow from north-east to south-west. The river Sabarmati originates from the Aravalli hills. It originates in the Mewad hills of Rajasthan State. It has high bank particularly in its upper reaches, where they sometimes rise to a height of 60 meters. Even in the lower parts, the river has well marked bluffs rising from 10 to 15 meters above its bed. It flows in four talukas of the district viz. Khedbrahma, Idar, Himatnagar and Prantij talukas. It is the largest and most important river of the district. It receives the following tributaries during its flow in the district. The river Sai joins the river Sabarmati near village Gholwada, the river Harmad joins the river Sabarmati near village Morvada and the river Pamni joins the river Sabarmati near village Kalakhetra. The river Hathmati rises in the Mewad hills of Rajasthan. It passes south-west for about 56 km through the district, falling into the Sabarmati near the Moyad. It passes between high rough banks, first over a rocky bed and then through a sandy bed. The river passes through three talukas of the district, viz. Bhiloda, Himatnagar and Prantij. Two earthen dams have been constructed on the river Hathmati. The Meshvo river originates in the Mewad hills of Rajasthan. It runs parallel to the river Khari and after a course of about 202.77 km joins the river Vatrak near Kheda. In Sabar Kantha district it passes through three talukas viz. Bhiloda, Modasa and Prantij. One earthen dam across the river Meshvo near Shamlaji in Bhiloda taluka has been constructed. The river Mazum rises in the hills of the Dungarpur district of Rajasthan. After traversing about 25.73 km south-west through Modasa and Vadgam joins the river Vatrak near village Ambaliyara of Bayad taluka. Its bed is rocky in many places. The river passes through three talukas of the district viz. Meghraj, Modasa and Bayad. The river Vatrak originates in the hills of Dungarpur of Rajasthan and enters the district near village Moydi of Meghraj taluka and runs in the south-west direction of the

district. It is joined by the river Mazum and other streams. After a course of 243 km it falls into the Sabarmati near Dholka. In eastern part of its course it flows over a rocky bed between rough banks. Before entering the district, it covers a distance of about 29 km in Rajasthan. It covers a total length of about 84 km in the district. It passes through two talukas of the district, viz. Meghraj and Bayad talukas. The river Harnav rises in the Malwa hills of Rajasthan. It enters the district near the village Khokhra in the Vijaynagar taluka. It passes through rocky and forest areas after a course of 61 km. It meets the river Sabarmati near the village Marvada. The river passes through three talukas of the district; namely, Vijaynagar, Khedbrahma and Idar.

In addition to the perennial rivers mentioned above there are number of small other rivers in the district such as the Indrasi, the Sai, the Guhai, the Vakal, the Vekri, the Debhoi, the Bhekai, the Sakri, the Budheli, the Kosambi and the Varansi.

Climate:

The climate of this district is characterised by general dryness except in the south-west monsoon season and a hot summer. The year may be divided into four seasons. The cold season from December to February is followed by the hot season which lasts upto about the middle of June. The south-west monsoon season is from the middle of June to about the end of September. October and November constitute the post monsoon or retreating monsoon season.

a) Temperature :

The statement below gives data on monthly average maximum and minimum temperature in the district for the years 1997 to 1999. It can be seen that average maximum temperature in the district reaches its maximum during the months of April, May and June. During April and May of the year 1998 it went as high as 43.5^{0}C and 45.5^{0}C respectively. Minimum temperatures are observed during the months of December, January and February of the year. During the year 1997 to 1999 the lowest average minimum temperature was recorded at 7.7^{0}C in January 1997.

TEMPERATURE

(In centigrade)

Source: Directorate of Economics and Statistics, Statistical Abstract, 2000

b) Winds:

Winds are generally light with some strengthening in force during the later part of the summer and early monsoon season. During the period April to September winds are mainly from directions south and west. In October winds are light and variable in direction- from east and north-east directions being more common in the morning and from west and north-west direction are more common in the afternoon. In the period November to March, winds in the mornings are mostly from directions between east and north, while in the afternoon they are generally from directions between west and north.

c) Rainfall:

The statement below gives data on monthly average maximum and minimum rainfall in the district for the years 1995 to 1999. It is observed that July, August and September are the months when most of the rainfall of the season takes place in the district. However, for the year 1997, more than half, i.e. 528.1 mm of the rainfall for the district took place in June. Also during the year 1999, the district observed highest monthly rainfall of 177.2 mm. in July. Average rainfall in the district have been insignificant during months of May and October for the years 1995 to 1999 except in October 1998 when it was relatively higher.

Monthly Rainfall, (from 1995 to 1999)

(In mm.)

Economic Resources:

Economic resources are an important means of subsistence for the working people of the district. The details about economic resources are given here.

(1) Forestry:

According to the figures available from the Forest Department for the years 1998-99 and 1999-2000, out of the total area of 7,390 sq. km. of the district, an area of about 1,270 sq. km. is covered by forest. Percentage of forest area of the district to total geographical area comes to 17.2 per cent . Out of the total forest area of the district, 651 sq. km.are reserved forest and 618.8 sq.km. is unclassified forest. Forest worth is found only on hillocks. Important forest products found in this district are bamboos, *Mahuda* flowers, doli time *leajus, awal bark, rayan fruits, sitafal, Kadayau* and other gums.

(2) Minerals and Mining:

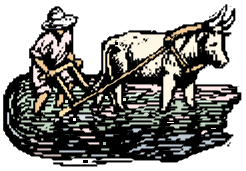

Statement below shows production of major and minor mineral products in the Sabar Kantha district and income from it for the years 1998-99 to 2000-01. It can be seen that china clay, bauxite and pipe clay have been the major mineral products of the district both in terms of production and income for the year 1998-99. The production and income from china clay rose significantly during 1999-2000 and 2000-01 as compared to 1998-99. The income from the production of bauxite also rose significantly during the period 1998-99 to 2000-01. Total mineral production in the district for the years 1998-99, 1999-2000 and 2000-01 had been 2,113,068 MT, 2,284,278 MT and 2,349,074 MT respectively. Minor products were buildings stone, sand stone, granite, quartzite, ordinary clay, gravel, limestone, brick clay, ordinary sand, Bentonite, Road metal etc. Income from the total mineral production for these three years had been Rs.265.7 lacs, Rs.348.4 lacs and Rs.352.3 lacs respectively.

Source: Commissionerate of Geology and Mining, 2001.

(3) Soil and Cropping Pattern:

Sandy, goradu and medium black are the three main types of soils found in almost all the talukas. However, the sandy soil is chiefly found in Modasa, Meghraj, Malpur, Himatnagar, Bhiloda and Idar. The goradu land is found in Modasa, Prantij, Himatnagar, Bhiloda and Malpur and the medium black soil is found in Khedbrahma, Vijaynagar, Bayad, Bhiloda and Idar.

The food and non-food crops grown in the district can be grouped under two seasonal heads, namely kharif and Rabi. The Kharif or rained crops are sown in June and July and harvested in September-October while rabi or irrigated crops are sown in October-November and harvested in February-March. The main kharif crops of the district are cotton, groundnut, bajri, maize and paddy. The main rabi crops are wheat and gram.

(4) Land and Land use Pattern:

The total land in the district was 7,390 sq.km. The land classification according to the different uses for the rural areas of the district is given below on the basis of information collected for Village Directory.

Land Classification of Rural Areas

(in '00 hectares)

Sl. No.	Classification	Area as on 31.3.99
1	2	3

(5) Tenancy:

There was no separate Act on tenancy in the former Bombay State before 1939. There were provisions of Section 83 of Land Revenue Code and Mamlatdar Court law only. The tenant was not secured of his tenancy rights in the Act. This tenancy lease was considered yearly and had to pay tenancy as per tradition or according to the agreement made with the land owner. In order to protect the tenants, the Bombay Tenancy Act, 1939 came into force in the erstwhile Bombay State. After the independence of the country, it was necessary that the country is self-sufficient in agricultural production. It can be done only when the tillers of the land should have some definite rights over the land. With a view to effect control on efficient utilization of agricultural land and also to protect the tenants further and also to accept a definite policy and view for the country on agricultural land, The Bombay Tenancy and Agricultural Land Act, 1948 was enacted and it was brought into force since then.The Act of 1948 was amended five times. An important provision of 'Farmer Day' was inserted in the Act on 1-8-1956. According to this provision, if any person legally tilled the land of other person on 01-04-1957, he was entitled to purchase the said land. Even though Gujarat State was bifurcated from Bombay State in 1960, the said act applied to it also as well.

Tenant means the person who held land on lease viz.,

(1) Tenant as per Section 4;

(2) Protected tenant

(3) Permanent tenant

(4) The person who continued to possess the land with or without the consent of the land owner after appointed date and up to specified date or it is considered that he continued the possession of the land.

In Gujarat 1,049,056.4 hectares of land have been released and distributed to total 1,278,125 beneficiaries under The Bombay Tenancy and Agricultural Land Act, 1948. Among the beneficiaries, 177,171 were from Scheduled Castes, 258,132 from Scheduled Tribes and 842,822 from others category.

In case of Sabar Kantha district, in all 13,894.1 hectares of land have been released and distributed to total 13,272 beneficiaries. Among the beneficiaries, 2,193 Scheduled Castes were allotted 2,441.1 hectares of land, 1,019 Scheduled Tribes were allotted 1,114.5 hectares of land and 10,060 beneficiaries under 'others' category were allotted 10,338.5 hectares of land.

(6) Agriculture:

a) Area under Major Crops:

The statement below gives area under major crops for the years 1993-94 and 1997-98 for Sabar Kantha district. It can be observed that Bajri,Wheat, Cotton, Groundnut and Pulses are major crops in the district in terms of area sown. Area under total foodgrains, groundnut and cotton had been 3,65,300 hectares, 24,100 hectares and 36,700 hectares respectively during 1997-98. Area under paddy, wheat, groundnut and cotton have increased during 1997-98 as compared to 1993-94.

Area under Major Crops

(in '00 hectares)

Sl. No.	Name of Crop	Area under Major Crops	
		1993-94	1997-98
1	2	3	4
1	Paddy	218	316
2	Wheat	604	815
3	Bajri	446	400
4	Jowar	201	13
5	Other cereals	1,092	1,207
6	Gram	34	28
7	Other pulses	904	874
8	Sugarcane	6	5
9	Groundnut	202	241
10	Cotton	141	367

Source: Season and Crop Report, Directorate of Agriculture,1999

b) Average Yield per Hectare:

Data for average yield per hectare for the years 1993-94 and 1997-98 with respect to different crops in Sabar Kantha district is given in the statement below which shows that among food grains, the average yield per hectare for Wheat, Bajri (summer) and Paddy for the year 1997-98 were 2,393 kg, 1,916 kg and 1,950 kg respectively and are higher as compared to 1993-94. As regards cash crops, the average yield per hectare for Cotton, Groundnut and Sugarcane for the years 1997-98 had been 418 bales, 1,041 kg. and 7,200 kg respectively.

Average Yield per Hectare

(In kg.)

Sl.No	Name of Crop	Average yield per hectare	
		1993-94	1997-98
1	2	3	4
1	Bajri (Kharif)	273	442
2	Bajri(Summer)	1,593	1,916
3	Jowar(Kharif)	276	743

(7) Irrigation:

a) Source of Irrigation:

The area irrigated by different sources in the district are presented below during 1993-94 and 1997-98 which indicate that wells are the main source of irrigation in the district. The gross area irrigated for all the sources taken together was 193,100 hectares and 224,600 hectares respectively for the years 1993-94 and 1997-98.

Area under Irrigation by Source

(In '00 hectares)

Sl. No.	Source of irrigation	1993-94		1997-98	
		Net	Gross	Net	Gross
1	2	3	4	5	6
1	Govt.Canals	347	431	245	283
2	Tanks	1	1	7	7
3	Wells	1,268	1,499	1,538	1,956
	Total	**1,616**	**1,931**	**1,790**	**2,246**

Source: Season and Crop Report, Directorate of Agriculture, 1999

The above figures indicate that wells are the main source of irrigation in the district. Next in order is the Government canals.

(8) Animal Husbandry:

a) Livestock :

Cattle wealth occupies a pivotal place in the rural economy of the district. According to the livestock censuses of 1992 and 1997, the live stock population in the district is indicated below.

Livestock

Sl. No.	Livestock	Year 1992	Year 1997
1	2	3	4
A	**Total Livestock**	**1,264,488**	**1,445,245**
(1)	Cattle (Cross breed)	22,626	42,096
	(a) Male over 2.5 years	1,230	2,644
	(b) Female over 2.5 years	12,007	23,922
	(c) Young stock	9,389	15,530
(2)	Cattle (Indigenous)	415,265	401,330
	(a) Male over 3 years	222,889	185,992
	(b) Female over 3 years	107,766	120,875
	(c) Young stock	84,610	94,463
(3)	Buffaloes	459,265	589,137
	(a) Male over 3 years	2,537	3,542
	(b) Female over 3 years	269,627	359,951
	(c) Young stock	187,101	225,644
(4)	Sheep	47,165	53,172
(5)	Goats	305,621	291,211
(6)	Horses and ponies	292	520
(7)	Camels	3,342	3,443
(8)	Pigs	2,350	4,282
(9)	Other livestock	8,562	60,054
(B)	**Poultry**	**237,719**	**216,080**

Source: (1) Directorate of Economics and Statistics, Livestock Census, 1992
(2) Directorate of Animal Husbandry, Livestock Census, 1997

The statement shows that the livestock in the district increased from 1,264,488 in 1992 to 1,445,245 in 1997. It is seen from the statement that cattle (indigenous), buffaloes and goats form the major portion of the total livestock in the Sabar Kantha district for the years 1992 and 1997. The number of cattle (indigenous) was 415,265 in 1992 and 401,330 in 1997. The number of buffaloes rose from 459,265 in 1992 to 589,137 in 1997. Though the number of goats in the district continued to be significant among total livestock, during 1997, it decreased as compared to 1992. The number of sheep increased from 47,165 in 1992 to 53,172 in 1997. Poultry birds decreased from 237,719 in 1992 to 216,080 in 1997.

b) Agricultural Implements:

Statement below gives details of agricultural implements used during the years 1992 and 1997 in the Sabar Kantha district.

Agricultural Implements

Sl. No.	Name of Agricultural Implements	Year 1992	Year 1997
1	2	3	4
1	**Plough**	**188,239**	**156,567**
	(a) Wooden	131,862	119,653
	(b) Iron	56,377	36,914
2	Carts	28,155	30,436
3	Oil engines	22,381	18,387
4	Electric Motors & Pumps	21,901	17,048
5	Tractors	7,465	9,047
6	Wheat Thresher	1,907	—

Source: (1) Directorate of Economics and Statistics, Livestock Census, 1992
(2) Directorate of Animal Husbandry, Livestock Census, 1997

It can be seen that traditional implements like wooden and iron plough have decreased from 188,239 in 1992 to 156,567 in 1997. Use of tractors have increased from 7,465 in 1992 to 9,047 in 1997. Use of electric motors & pumps and oil engines have also decreased during the year 1997 as compared to the year 1992.

(9) Fisheries:

Bordered by the famous river Sabarmati at the north-west and western side of the district and existence of small rivers like the Varasi, the Vatrak, the Mazum, the Meshvo in the district, there is potential for the development of inland fisheries. The important fishing centres of the district are Prantij and Himatnagar. The varieties of fish available in the district are *catla, Bawas, Rohu, Nagari, Bilgi, Begado, Mangaru, Katia, Buta, Kalavat and Kauichi.*

Fisheries Activities

Sl. No.	Item	Year 1997-98	Year 1998-99
1	2	5	6
1	Total Number of Fishing boats	243	477
2	Total Number of Fishing nets	13,773	13,773
3	Fish production (In tonnes)	864	2,368
4	Number of active fishermen	2,907	2,907
5	Fishermen primary co-operative Societies (Number.)	13	13
6	Membership of fishermen's primary co-operative Societies	2,479	2,479
7	Paid up share capital of fishermen's co-operative societies (In'00 Rs.)	88,943	88,943

Source: Commissionerate of Fisheries, 2000

10) Industry:

The total number of registered factories and average number of daily workers employed therein by major groups of industries for the year 1998 and 1999 for Sabar Kantha

district are shown in the following statement. Among registered factories the most important establishment from the point of employment was cotton textiles, as average number of persons employed per day in this industry group was 5,680 and 4,730 as on 31st December 1998 and 1999 respectively.

Distribution of Important, Industrial Establishments by Major Industry Group

Sl. No.	Major Group of NIC (National Industrial Classification)	Description of Manufacture	As on 31.12.98		As on 31.12.99	
			Number of Establish-ment	Average Number of persons working per day	Number of Establish-ment	Average Number of persons working per day
1	2	3	4	5	6	7
1	20-21	Food products	42	3,185	40	2,103
2	23	Cotton textiles	23	5,680	29	4,730
3	26	Textile products (incl wearing apparel)	4	124	3	130
4	27	Wood and wood products Furnitures and fixtures	3	72	4	96
5	28	Paper and paper products and printing, publishing and allied industries	11	205	11	228
6	29	Leather and products of leather ,fur and substitutes of leather	0	0	-	-
7	30	Basic chemical and chemical products processing and nuclear fuels. (except products of petroleum and coal)	11	247	15	232
8	31	Rubber, plastic petroleum and coal products	1	20	2	26
9	32	Non metallic mineral products	51	1,605	56	1,147
10	33	Basic metal and alloy industries	5	91	6	188
11	34	Metal products and parts except machinery and equipments.	15	379	16	482
12	35-36	Machinery and equipment other than transport equipment (scientific equipment, photographic/ cinematographic equipment and watches and clocks is classified in division 38)	14	398	14	300
13	37	Transport equipment and parts	1	27	1	25
14	38	Other manufacturing industries	1	35	1	58
15	39	Repairs of capital goods	0	0	-	-
16	40-43	Electricity Gas and water Generation transmission distribution water works supply etc	0	0	-	-
17		Other Industries	9	499	9	530
		Total	**191**	**12,567**	**207**	**10,275**

Source: Chief Inspector of Factories, 2000

With regards to number of registered establishments both in the year of 1998 and 1999 the most important industry groups are Non metallic mineral products and food products.

(11) Trade and Commerce:

Statement below gives data on availability of banking facilities in talukas of the district. It is observed that total 132 villages of the Sabar Kantha district have banking facilities. There are 87 commercial and 104 co-operative banking institutions in the district. Idar, Himatnagar, Bhiloda and Prantij talukas have more number of villages as compared to other talukas of the Sabar Kantha district. Important items exported from the district are wheat, maize, cotton and oilseeds. The important commodities exported out of district from various towns are mentioned in Table -47. The commercial and co-operative banking facilities available in the rural area of the district are shown in the following statement.

Villages Having Banking Facility

Sl. No.	Name of Taluka	Number of Villages where Banking facility is Available	Number of Banking Institutions

Source: Banking Statistics, Basic Statistical Returns, Volume 28, March, 1999.

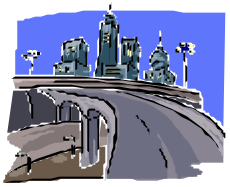

Statement above gives occupationwise classification of outstanding credit of commercial banks,as on 31st March 1999 for Sabar Kantha district and the Gujarat state. It is seen that the outstanding credit for Sabar Kantha district was Rs.2,064,561,000 with number of accounts being 64,744. It can be seen that direct finance for occupations under agriculture had maximum outstanding credit of Rs.932, 466,000 with 35,540 accounts.

(12) Transport and Communication:

Transport and Communication facilities are considered as administrative necessity as well as a public convenience. Moreover; a well-knit transportation system is a pre-requisite for the social and economic development of any district.

a) Road:

The linking of one place with other by road is very essential to provide good transport system. According to the classification of road, made by the Indian Roads Congress, road length in the district by category is given below for the years 1998-99 and 1999-2000 for Sabar Kantha district. This statement includes the information of state highways, district roads and village roads.

According to 2001 census, 1,164 villages and 8 towns are connected with pucca roads and 208 villages are connected with kuchcha roads in the Sabar Kantha district.

b) Railway:

Five towns and 34 villages of the district have railway station facilities in Sabar Kantha district.

c) Ports :

There is no sea port in this district.

d) Post and Telegraph:

The following statement shows the number of villages in the district having post, telegraph and phone facilities. As regards rural areas of the districts, the facility of post, telegraph and telephone are available respectively in 689, 27 and 981 villages of the Sabar Kantha district.

Communication Facilities

Sl. No.	Type of Communication Amenities	Number of Villages having facilities
1	2	3
1	Post Office	689
2	Telegraph Office	27
3	Telephone	981

Source: Village Directory, 2001

e) State Road Transport :

Out of 1,372 villages in the Sabar Kantha, district 1,338 villages are provided road transport services by Gujarat State Road Transport Corporation where bus transport facilities are provided.

Road Lenth of Different Category

Sl. No	Year	Type of Road (in Kms.)										
		Highways				District Roads				Village Roads		Total
		National		State		Main		Other				
		GOVT DN	PNCH DN	GOVT DN	PNCH DN	GOVT. DN	PNCH DN	GOVT DN	PNCH DN	GOVT DN	PNCH DN

2	1999-2000	0	0	729	0	222	856	90	142	146	239	2,424

Note : GOVT. DN = Government Division.
PNCH. DN = Panchayat Division.

Source: Roads and Buildings Department, Gandhinagar, 2001.

(13) Electricity:

Electricity is the chief necessity for the economic development of the district. The main source for power supply in the district is Gujarat Electricity Board. All the 1,372 inhabited villages of the district are provided with power supply.

(14) Gram Panchayats, its composition, jurisdiction and role in the Development of Village and its Economy:

The system of Panchayati Raj was introduced in the year 1963 in Gujarat State. Under this set up, the three tier system was introduced namely, The District Panchayat, The Taluka Panchayat and The Gram Panchayat.

Gram Panchayat is an important institution of self-government. The Gram Panchayat is formed for a village or a group of villages. The Gram Panchayat is constituted for a local area with the population of less than 10,000. Such local area may be revenue village or a group of revenue villages or hamlets forming part of a revenue village or such other administrative unit or part of thereof. The number of members of Gram Panchayat varies from 9 to 15. The tenure of Gram Panchayat is of five years. The people of village elect Sarpanch and Vice-Sarpanch (Up-Sarpanch) and other members of the Panchayat. Various Committees like; Social Justice Committee and Standing Committee are formed. In the year 1993 Government of India enacted 73rd Constitutional Amendment regarding provisions of Panchayati Raj and implementation of this Act in Gujarat started from 15th April 1994. By this constitutional amendment, Panchayats are given constitutional status. Regular and timely election, participation of women and backward classes, formation of separate State Election Commission and rotation system in electing the heads of the various committees are other significant amendments in the act. Decentralised planning process and active participation of people is the soul of the Panchayati Raj Act. The powers for decentralised planning, implementation and development are delegated to the Panchayats.

The primary functions of the District/Taluka Panchayats are providing facilities for primary education, health, drinking water, electricity, constructions and maintenance of roads, bridges etc., maintenance of Gauchars, organising relief work at the time of scarcity and drought situation, sanitation and social welfare. Arrangements for housing facilities for below poverty line people and rural devlopment schemes are implemented by panchayats. Gram Panchayats also implement important programmes like, 'food for work' and other programmes beneficial for the local people. Thus, Panchayats play an important role in the development of village and its economy. There are 13,761 Gram Panchayats in Gujarat State. Out of 1,372 villages in Sabar Kantha district there are 624 group Gram Panchayats and 756 independent Gram Panchayats.

(v) Census Concepts :

Building :

A 'building' is generally a single structure on the ground. Sometimes it is made up of more than one component unit which are used or likely to be used as dwellings (residences) or establishments such as shops, business houses, offices, factories, workshops, work sheds, schools, places of entertainment, places of worship, godowns, stores, etc. It is also possible that buildings which have component units may be used for a combination of purposes such as shop-cum-residence, workshop-cum-residence office-cum-residence, etc.

Usually a structure will have four walls and a roof. But in some areas the very nature of construction of houses is such that there may not be any wall. Such is the case of conical structures where entrance is also provided but they may not have any walls. Therefore, such of the conical structures are also treated as separate building.

Permanent Houses :

Houses, the walls and roof of which are made of permanent materials. The Material of wall can be anyone from the following namely Galvanized iron sheets or other metal sheets, Asbestos sheets, burnt bricks, stonnes or concrete. Roof may be made of from any one of the following materials namely tiles, slate, galvanized iron sheets, metal sheets, asbestos sheets, bricks, stonnes or concrete.

Semi-permanent Houses :

Houses in which either wall or roof is made of permanent materials and the other is made of temporary material.

Temporary Houses :

Houses in which both walls and roof are made of materials, which have to be replaced frequently. Walls may be made from any one of the following temporary materials, namely, grass, thatch, bamboo, plastic, polythene, mud, unburnt bricks or wood. Roof may be made from any one of the following temporary materials, namely, grass, thatch, bamboo, wood, mud, plastic or polythene.

Dwelling Room :

A room is treated as a dwelling room if it has walls with a doorway and a roof should be wide and long enough for a person to sleep in, i.e., it should have a length of not less than 2 meters and a breadth of at least 1.5 meters and a height of a 2 meters. A dwelling room would include living room, bedroom, dining room drawing room study room, servant's room and other habistatement rooms. Kitchen, Bathroom, latrine, Store-room, passage-way and verandah which are not normally usable for living are not considered as dwelling rooms. A room used for multipurpose such as sleeping, sitting, dining, storing, cooking, etc., is regarded as a dwelling room. In a situation where a census houses is used as a shop or office. etc., and the household also stays in it then the room is not considered as a dwelling room. But if a garage or servant quarter is used by a servant and if she/he also lives in it as a separate household then this has been considered as a dwelling room available to the servants household tent or conical shaped hut if used for living by any household is also considered as dwelling room.

A dwelling room which is shade by more than one household has not been counted for any of them. If two household have a dwelling room each but in addition also share a common dwelling room. Then the common room has not been counted for either or of the household.

Census House :

A 'Census House' is a building or part of a building used or recognized as a separate unit because of having a separate main entrance from the road or common courtyard or, staircase, etc. It may be occupied or vacant. It may be used for a residential or non-residential purpose or both.

In certain peculiar situations, the manner in which buildings and census houses were identified for numbering in the field by the enumerators is described hereunder.

Sometimes a series of a different buildings are found along a street which are joined with one another by common walls on either side looking like a continuous structure. These different units are practically independent of one another and are likely to have been built at different times and owned by different persons. In such cases, though the whole structure with all the adjoining units apparently appears to be one building, each portion was treated as a separate building and its constituent units as separate census houses.

On the other hand, one may come across cases, particularly in large cities of multi-storied ownership flats. In these cases while the structure looks like one building, different persons own the flats. In case of such multi-storied structures, having a number of flats owned by different persons, the entire structure was treated as one building and each flat as a separate census house.

If within a large enclosed area, there are separate buildings owned by different persons then each such building is treated as a separate building. There can be a situation where within an enclosed compound there are separate buildings owned by an undertaking or company or even government that are actually in occupation of different persons. For example, Indian Oil Corporation colony where the buildings are owned by the Corporation but these are in occupation of their employees. Each such building was treated as a separate building. But if in any one of these buildings there were flats in occupation of different households, each such flat was reckoned as a separate census house.

Sometimes if becomes difficult to apply the definition of census house strictly in certain cases. For example, in an urban area, if a flat has five rooms, each room having direct entrance from the common staircase or courtyard. By definition, this has to be treated as five census houses. If all these five rooms are occupied by a single household it was not realistic to treat them as five census houses. In such a case, 'singleness' of use of these rooms along with the main

house should be considered and the entire flat was treated as one census house. On the other hand, if two independent households occupy these five rooms, the first household living in 3 rooms and the second household occupying 2 rooms, then considering the use, the first three rooms together were treated as one census house and the remaining rooms as another census house. But if each room was occupied by an independent household, then each such room was treated as a separate census house.

In case of hostels, hotels, etc., even if the door of each room in which an inmate lives opens to a common verandah, staircase, courtyard or a common room, as it happens almost invariably, the entire hostel/ Hotel building was treated as one census house. but if such hostels/ hotels have out- houses or other structures used for different purposes or the same purpose, then each such structure attached to the main hostel/hotel was treated as a separate census house.

In some parts of the country, in rural areas, the pattern of habitation is such that a group of huts, located in a compound, whether enclosed or unenclosed, is occupied by one household. While the main residence may be located in one hut, other huts may be used for sleeping, as a kitchen, bath room, baithak, etc. Though each of the huts was a separates structure, they form a single housing unit and therefore, have to be treated collectively as one building and one census house. If some of the huts are used by one household and the others by a second household as residence, then the two groups of huts were treated as separate census houses. However, if there were also other huts in the compound used for other purposes and not as part of the household's residence such as, cattle shed, work shed, etc., these were treated as separate census houses.

On the other hand, in urban areas, where more than one structure within an enclosed or open compound (premises) belonging to the same person, e.g., the main house, the servant's quarter, the garage, etc., only one building number was given for this group and each of the constituent a separate census house number.

Only cases where a structure with roof and pillars has come up was treated as a building.

Village :

The basic unit for rural areas is the revenue village, which has definite surveyed boundaries. The revenue village may comprise of one or more hamlets but the entire village is treated as one unit for presentation of data.

In unsurveyed areas, like villages within forest areas, each habitation area with locally recognized boundaries is treated as one village.

Town/Urban Area :

The following areas are treated as towns/urban areas :

(a) All places with a municipality, municipal corporation, cantonment board or notified town area committee, etc.

(b) All other places which satisfy or are expected to satisfy the following criteria simultaneously

i) A minimum population of 5,000;

ii) At least 75 per cent of the male working population engaged in non-agricultural pursuits; and

iii) A density of population of at least 400 per square kilometre (1,000 per square mile).

City :

Towns with population of 1,00,000 and above are called cities.

Urban Agglomeration :

An Urban Agglomeration is a continuous urban spread constituting a town and its adjoining urban outgrowths (OGs) or two or more physically contiguous towns together and any adjoining urban outgrowths of such towns. In some cases railway colonies, university campuses, port areas, etc., may come up near a city or statutory town outside its statutory limits but within the revenue limits of a village or villages contiguous to the town or city. Each such individual area by itself may not satisfy the minimum population limit to qualify it to be treated as an independent urban unit but may deserve to be clubbed with the town as a continuous urban spread.

For the purpose of delineation of Urban Agglomerations during Census of India 2001, following criteria are taken as pre-requisites:

(a) The core town or at least one of the constituent towns of an urban agglomeration should necessarily be a statutory town; and

(b) The total population of all the constituents (i.e., towns and outgrowths) of an Urban Agglomeration should not be less than 20,000 (as per the 1991 Census).

With these two basic criteria having been met, the following are the possible different situations in which Urban Agglomerations would be constituted:

i) a city or town with one or more contiguous outgrowths;

ii) two or more adjoining towns with their outgrowths; and

iii) a city and one or more adjoining towns with their outgrowths all of which form a continuous spread.

Household :

A 'household' is usually a group of persons who normally live together and take their meals from a common kitchen unless the exigencies of work prevent any of them from doing so. Persons in a household may be related or unrelated or a mix of both. However, if a group of unrelated persons live in a census house but do not take their meals from the common kitchen, then they are not constituent of a common household. Each such person was to be treated as a separate household. The important link in finding out whether it was a household or not was a common kitchen. There may be one member households, two member households or multi-member households.

Institutional Households :

A group of unrelated persons who live in an institution and take their meals from a common kitchen is called an Institutional Household. Examples of Institutional Households are boarding houses, messes, hostels, hotels, rescue homes, jails, ashrams, orphanages, etc. To make the definition more clearly perceptible to the enumerators at the Census 2001, it was specifically mentioned that this category or households would cover only those households where a group of unrelated persons live in an institution and share a common kitchen.

Houseless Household:

Households who do not live in buildings or census houses but live in the open on roadside pavements, in hume pipes, under flyovers and staircases or in the open in places of worship, mandaps, railway platforms, etc., are treated as Houseless Household.

Scheduled Castes and Scheduled Tribes:

Article 341(1) of the Constitution provides that the President may, with respect to any State or Union territory, specify the castes, races or tribes or parts of or groups within castes, races or tribes which shall for the purposes of the Constitution be deemed to be Scheduled Castes in relation to that State or Union territory. Article 342(1) similarly provides for specification of tribes or tribal communities or parts of or groups within tribes or tribal communities, which are to be deemed for the purposes of the Constitution to be Scheduled Tribes in relation to the various States and Union territories. In pursuance of these provisions, the list of Scheduled Castes and / or Scheduled Tribes are notified for each State and Union territory and are valid only within the jurisdiction of that State or Union territory and not outside.

It is important to mention here that under the Constitution (Scheduled Castes) Order, 1950, no person who professed a religion different from Hinduism was deemed to be a member of a Scheduled Caste in addition to every member of the Ramdasi, Kabirpanthi, Majhabi or Sikligar caste resident in Punjab or Patiala and East Punjab States Union were in relation to that State whether they professed the Hindu or the Sikh religion. Subsequently, in September 1956, by an amendment, the Presidential Order of 1950 and in all subsequent Presidential Orders relating to Scheduled Castes, the Hindu and the Sikh religions were placed on the same footing with regard to the specification of Scheduled Castes. Later on, as per the amendment made in the Constitution (Scheduled Castes) Order 1990, the Hindu, the Sikh and the Buddhist were placed on the same footing with regard to the recognition of the Scheduled Castes.

The lists containing the names of the Scheduled Castes and the Scheduled Tribes applicable for the Census of India 2001 in the State is given below

List of Scheduled Castes :

1. Ager
2. Bakad, Bant
3. Bawa-Dedh, Dedh Sadhu
4. Bhambi, Bhambhi, Asadaru Asodi, Chamadia, Chamar Chambhar, Chamgar, Haralayya, Harali, Khalpa, Machigar, Mochigar, Madar, Madig, Mochi, Nalia, Telegu Mochi, Kamati Mochi, Ranigar, Rohidas, Rohit, Samgar.
5. Bhangi, Mehtar, Olgana, Rukhi, Malkana, Halalkhor, Lalbegi, Balmiki, Korar, Zadmalli.
6. Chalvadi, Channayya
7. Chenna Dasar, Holaya Desar
8. Dangashia
9. Dhor, Kakkayya, Kankayya
10. Garmatang
11. Garoda, Garo
12. Halleer
13. Halsar, Haslar, Hulasvar, Halasvar
14. Holar, Valhar
15. Holaya, Holer
16. Lingader
17. Mahar, Taral, Dhegu Megu
18. Mahyavansi, Dhed, Dhedh, Vankar, Maru Vankar, Antyaj
19. Mang, Matang, Minimadig
20. Mang-Garudi
21. Meghaval, Meghwal, Menghvar
22. Mukri
23. Nadia, Hadi
24. Pasi
25. Senva, Shenva, Chenva, Sedma, Rawat
26. Shemalia
27. Thori
28. Tirgar, Tirbanda
29. Turi
30. Turi Barot, Dedh Barot

List of Scheduled Tribes :

1. Barda
2. Bavacha, Bamcha
3. Bharwad (In the Nesses of the forests of Alech, Barada and Gir)*
4. Bhil, Bhil Garasia, Dholi-Bhil, Dungri Bhil, Dungri Garasia, Mewasi Bhil, Rawal Bhil, Tadvi Bhil, Bhagalia, Bhilala, Pawra, Vasava, Vasave.
5. Charan (In the Nesses of the forests of Alech, Barada and Gir) *
6. Chaudhri (In Surat and Valsad districts)
7. Chodhara
8. Dhanka, Tadvi, Tetaria, Valvi
9. Dhodia
10. Dubla, Talavia, Halpati
11. Gamit, Gamta, Gavit, Mavchi, Padvi
12. Gond, Rajgond
13. Kathodi, Katkari, Dhor Kathodi, Dhor Katkari, Son Kathodi, Son Katkari
14. Kokna, Kokni, Kukna
15. Koli (In Kachchh district)
16. Koli Dhor, Tokre Koli, Kolcha, Kolgha
17. Kunbi (In The Dangs District)
18. Naikda, Nayaka, Cholivala Nayaka, Kapadia Nayaka, Mota Nayaka, Nana Nayaka
19. Padhar
20. Paradhi (In Kachchh district)
21. Pardhi, Advichincher, Phanse Pardhi (Excluding Amreli,Bhavnagar, Jamnagar, Junagadh, Kachchh, Rajkot and Surendranagar districts)
22. Patelia
23. Pomla
24. Rabari (In the Nesses of the forests of Alech, Barada and Gir)*
25. Rathawa
26. Siddi (In Amreli, Bhavnagar, Jamnagar, Junagadh, Rajkot and Surendranagar Districts)
27. Vaghri (in Kachchh district)
28. Varli
29. Vitola, Kotwalia, Barodia

* The area comprised of Jamnagar and Junagadh districts.

Language and Mother Tongue :

As per the census concept, each language is a group of mother tongues. The census questionnaire collects information on the mother tongue of each

person and mother tongue is defined as the language spoken in childhood by the person's mother to the person. If the mother died in infancy, the language mainly spoken in the person's home in childhood will be the mother tongue. In the case of infants and deaf mutes, the language usually spoken by the mother is considered as mother tongue. It is not necessary that the language spoken as mother tongue should have a script. The mother tongues returned by the respondents in census are classified and grouped under appropriate languages according to their linguistic characteristics.

Literate :

A person age 7 years and above who can both read and write with understanding in any language is taken as literate. A person who can only read but cannot write is not literate. It is not necessary that to be considered as literate, a person should have received any formal education or passed any minimum educational standard. Literacy could also have been achieved through adult literacy classes or through any non-formal educational system. People who are blind and can read in Braille are treated as literates.

Literacy Rate :

Literacy rate of the population is defined as the percentage of literates in the age group seven years and above. For different age groups the percentage of literates in that age group gives the literacy rate.

Educational Level :

The highest level of education a person has completed.

Work :

Work is defined as participation in any economically productive activity with or without compensation, wages or profit. Such participation may be physical and/or mental in nature. Work involves not only actual work but also includes effective supervision and direction of work. It even includes part time help or unpaid work on farm, family enterprise or in any other economic activity. All persons engaged in 'work' as defined above are workers. Persons who are engaged in cultivation or milk production even solely for domestic consumption are also treated as workers.

Reference period for determining a person as worker and non-worker is one year preceding the date of enumeration.

Main Worker :

A person who has worked for major part of the reference period (i.e. six months or more during the last one year preceding the date of enumeration) in any economically productive activity is termed as "Main worker".

Marginal Worker :

A person who worked for less than six months of the reference period (i.e. in the last one year preceding the date of enumeration) in any economic activity is termed as 'Marginal- worker'

Non Worker :

A person who has not worked at all in any economically productive activity during the reference period (i.e. last one year preceding the date of enumeration) is termed as 'Non worker'.

Cultivator :

For purposes of the Census a person is classified as cultivator, if, he or she is engaged in cultivation on land owned or held from government or held from private persons or institutions for payment in money, kind or share. Cultivation includes effective supervision or direction in cultivation.

A person who has given out her/his land to another person or persons or institution(s) for cultivation for money, kind or share of crop and who does not even supervise or direct cultivation in exchange of land, is not treated as cultivator. Similarly, a person working on another person's land for wages in cash or kind or a combination of both (agricultural laborers) is not treated as cultivator.

Cultivation involves ploughing, sowing, harvesting and production of cereals and millet crops such as wheat, paddy, jowar, bajra, ragi, etc., and other crops such as sugarcane, tobacco, ground-nuts, tapioca, etc., and pulses, raw jute and kindred fiber crop, cotton, cinchona and other medicinal plants, fruit growing, vegestatement growing or keeping orchards or groves, etc. Cultivation does not include the following plantation crops – tea, coffee, rubber, coconut and betel-nuts (area).

Agricultural Labourer :

A person who works on another person's land for wages in money or kind or share is regarded as an agricultural labourer. She/he has no risk in the cultivation, but merely works on another person's land for wages. An agricultural laborer has no right of lease or contract on land on which she/he works.

Household Industry Worker :

Household industry is defined as an industry conducted by the head of the household herself/himself and or by the members of the household at home or within the village in rural areas and only within the precincts of the house where the household lives in urban areas. The larger proportion of workers in household industry should consist of members of the household including the head. The industry should not be run on the scale of a registered factory which would qualify or has to be registered under the Indian Factories Act and should be engaged in manufacturing, processing, servicing and repairs of goods.

It does not include professions such as a pleader, Doctor, Musician, Dancer, Waterman, Astrologer, Dhobi, Barber, etc. or merely trade or business, even if such professions, trade or services are run at home by members of the household.

Other Worker :

A person who has been engaged in some economic activity during the reference period but not as a cultivator or agricultural laborer or in Household Industry is termed as an 'Other-Worker (OW)'. The type of workers that come under this category of 'OW' include all government servants, municipal employees, teachers, factory workers, plantation workers, those engaged in trade, commerce, business, transport, banking, mining, construction, political or social work, priests, entertainment artists, etc. In effect, all those workers other than cultivators or agricultural laborers or household industrial workers, are 'Other Workers'.

Work Participation Rate :

Percentage of workers (main + marginal) to total population

Population Density :

Population density is the number of persons inhabited per square kilometer of the area.

Age :

Age is measured in terms of the completed number of years.

Sex Ratio :

Numbers of females per 1,000 males in a population.

(vi) Non Census Concepts :

Improved Drinking Water :

If the household had access to drinking water supplied from a tap, hand pump, tube well or well (protected or covered) situated within or outside the premises, it is considered as having access to improved drinking water.

System of Sewerage :

Generally, a sewerage system would mean a network of mains and branches of underground conduits for the conveyance of sewerage to the point of disposal. Sewers that carry only household and industrial wastage are called separate sewers; those that carry storm water from roofs, streets and other surfaces are known as storm water drains, while those carrying both sewage and storm water are called combined sewers. However, in some towns, which are, not provided with such underground sewerage system, it is served by open surface drain, box drain, silk pattern drain, etc., in these towns.

Type of Latrine and Method of Disposal of Night Soil :

There are three prevalent systems of disposal of human wastes, viz.(i) underground sewerage, (ii) sanitary water flush latrines with individual disposal systems, like septic tank, leaching cess pool and collecting well, and (iii) dry type of latrines with manual scavenging.

The system of underground sewerage provides for the street sewerage with which are connected the sanitary latrines constructed in the houses having water closets and fitted with flushing cistern (or hand flushing). Through this sewer the faucal matter is transported without the need for scavenging. This system generally exists in cities and big towns.

Where the streets sewer does not exist these sanitary water flush latrines are connected to a local

septic tank with a sub-soil dispersion system or a leaching pit. Here the liquid wastes from the water closet is disposed of locally in leaching pit, a septic tank with a soil dispersion system is constructed. This dispersion requires an optimum travel through the pores of the soil, which renders the harmful liquid bacterially innocuous by the slow process of filtration through the soil traversed.

Where the soil is impermeable, collecting wells are constructed and the sanitary water flush latrines are connected with them. These wells are cleaned at periodic intervals by a suistatement device. The dry type of latrines are of service type latrines from where human excreta is removed by scavengers from house to house, in most cases carrying it on their heads or shoulders or in baskets with handle or wheel barrows. These are then collected in bullock carts or trucks or tractors and trolleys for being carried to the dumping grounds.

Fertility :

In demography, the word fertility is used in relation to the actual production of children or occurrence of births specially lives births. Fertility is a measure of rate at which population adds to itself by births and normally assessed by relating the number of births to a full or part of the population, such as number of married women or number of women of child bearing age. The definitions of the terminology used in computing different fertility rates are mentioned below.

Crude Birth Rate (CBR) :

Ratio of the numbers of live births in a year to the mid year population. (normally expressed per 1,000 population).

$$CBR = \frac{\text{Numbers of live births during the year}}{\text{Mid –year Population}} \times 1{,}000$$

Crude Death Rate (CDR) :

Ratio of the numbers of deaths in a year to the mid year population, normally expressed per 1,000 population.

$$CDR = \frac{\text{Numbers of deaths during the year}}{\text{Mid –year Population}} \times 1{,}000$$

Natural Growth Rate (NGR) :

Natural Growth rate is obtained as the difference between crude birth rate and crude death rate in the absence of migration.

$$NGR = CBR - CDR$$

Age - Specific Fertility Rate (ASFR) :

Number of live births in a year to female population in any specified age group normally expressed per 1,000 women.

$$ASFR = \frac{\text{Numbers of live births in a particular age group}}{\text{Numbers female population of same specified age group}} \times 1{,}000$$

Age - Specific Marital Fertility Rate (ASMFR):

Number of live births in a year to married female population in any specified age group normally expressed per 1,000 married women.

$$ASMFR = \frac{\text{Number of live births in a particular age group}}{\text{Mid-year married female population of the same age group}} \times 1{,}000$$

General Fertility Rate (GFR) :

Number of live births per 1,000 women in the reproductive age-group (15-49) years in a given year.

$$GFR = \frac{\text{Number of live births in a year}}{\text{Mid-year female population in the age-group (15-49) years}} \times 1{,}000$$

General Marital Fertility Rate (GMFR) :

Number of live births per 1,000 married women in reproductive age-group (15-49) years in a given year.

$$GMFR = \frac{\text{Number of live births in a year}}{\text{Mid-year married female population in the age group (15-49) years}} \times 1{,}000$$

Total Fertility Rate (TFR) :

It is obtained as the total of the age specific fertility rates (number of children born per woman of the particular age) for the entire reproductive age span. It provides the average number of children that

will be born to a woman under the fertility levels indicated by the age specific fertility rates assuming that there is no mortality of women till the completion of reproductive period.

$$TFR = \frac{5 \times \sum_{15-19}^{45-49} ASFR}{1{,}000}$$

Total Marital Fertility Rate (TMFR) :

Average number of children that would be born to a married woman if she experiences the current fertility pattern throughout her reproductive span (15-49) years assuming that there is no mortality of women till the completion of reproductive period.

$$TMFR = \frac{5 \times \sum_{15-19}^{45-49} ASMFR}{1{,}000}$$

Age-Specific Mortality Rate (ASMR) :

Number of deaths in a particular age and sex group per 1,000 population of the same age group.

$$ASMR = \frac{\text{Number of deaths in a particular age group}}{\text{Mid-year population of the same age group}} \times 1{,}000$$

q1 :

Probability of dying between birth and age 1. This can be used as approximate value of Infant Mortality Rate (IMR) which gives the ratio of number of deaths in a year of children aged less than one year to the number of births in that year.

q2 :

Probability of dying between birth and age 2.

q5 :

Probability of dying between birth and age 5. This indicator is also known as Under Five Mortality Rate (q5MR)

Infant Mortality Rate (IMR) :

Ratio of the number of infant deaths (deaths of children below one year) in a year to the number of live births in that year.

$$IMR = \frac{\text{Number of infant deaths during the year}}{\text{Number of live births during the year}} \times 1{,}000$$

Infant mortality rate comprises of two parts, viz., Neo-natal mortality rate and Post neo-natal mortality rate. The neo-natal mortality rate also comprises of two parts viz., early neo-natal mortality rate and late neo-natal mortality rate. These are defined as :

Neo-natal Mortality Rate (NMR) :

Number of infants dying within the first month of life (28 days or under) in a year per 1,000 live births of the same year.

$$NMR = \frac{\text{Number of infant deaths aged 28 days under during the year}}{\text{Number of live births during the year}} \times 1{,}000$$

Early Neo-natal Mortality Rate (ENMR) :

$$ENMR = \frac{\text{Number of infant deaths of less than 7 days during the year}}{\text{Number of live births during the year}} \times 1{,}000$$

Late Neo-natal Mortality Rate (LNMR) :

$$LNMR = \frac{\text{Number of infant deaths of 7 days to less than 29 days during the year}}{\text{Number of live births during the year}} \times 1{,}000$$

Post Neo-natal Mortality Rate (PNMR) :

$$PNMR = \frac{\text{Number of deaths of 29 days to less than One year during the year}}{\text{Number of live births during the year}} \times 1{,}000$$

Peri-natal Mortality Rate (PMR) :

Number of stillbirths plus deaths within 1st week of delivery per 1,000 births in a year.

$$PMR = \frac{\text{Number of stillbirths and infant deaths of less than 7 days during the year}}{\text{Number of live births and stillbirths during the year}} \times 1{,}000$$

Still Birth Rate (SBR) :

$$SBR = \frac{\text{Number of stillbirths during the year}}{\text{Number of live births and stillbirths during the year}} \times 1{,}000$$

Maternal Mortality Rate (MMR):

Number of deaths of women in the age group 15-49 while pregnant or within 42 days of termination of pregnancy from any cause related to pregnancy and childbirth per 100,000 live births in a given year.

$$MMR = \frac{\text{Number of maternal deaths to women in the age group 15-49}}{\text{Number of live birth}} \times 100{,}000$$

Eligible Couple (Couples per 1,000 population):

Number of currently married females in the age group15-44 years per 1,000 persons of all ages.

Child Woman Ratio (0-4):

1. Number of children in the age group 0-4 years per 1,000 women in the age group 15-49 years.

Child Woman Ratio (5-9) :

2. Number of children in the age group 5-9 years per 1,000 women in the age group 15-49 years.

Migration :

Migration is the third component of population change, the other two being mortality and fertility.

A person is considered as a migrant by place of birth if the place in which he/she is enumerated during the census is other than the place of his/her birth.

Similarly a person is considered as a migrant by place of last residence if the place in which he/she is enumerated during the census is other than his/her place of immediate last residence outside the village or town and not simply in another house or locality in the same village or town.

Certain aspects concerning temporary movement/ migration of people has been explained below as these are important components concerning migration :

(i) Migration of persons in search of job is high in the country. In many cases such migrants are only seasonal in nature. People migrate to other places for work in a particular season and come back again to their usual place of residence after three or four months. All such workers are treated as migrants. Similarly, if a person moved to any other place for attending short term vocational or educational course that lasted for only few months of a year, she/he too were considered as a migrant.

(ii) Where a person had merely gone out to another place or had been shifting from one place to another purely on tour, pilgrimage, visit to hospital for treatment or for temporary business purposes, such persons are not deemed to have had another residence different from the place where she/ he or her/his family normally resides. She/he is not considered as migrant.

(iii) A woman temporarily moves into a hospital or to her parents or other relative's house for delivery and if the hospital or the parents/ relatives houses is in a place different from usual place of residence, the place where the hospital or parents/relative's house is the place of last residence of the child but not of the mother.

A new response category 'Moved after birth' was added in Census of India 2001 in the question on 'reasons for migration' to bring out additional migration patterns. Natural calamities or distress migration as a reason for migration for last residence migrants included in 1991 Census, is covered under category of 'Others'. The reason for migration has been determined as applicable at the time of migration and not in reference to any point of time after that. For example, if a person had moved from the place of her/his last residence for the purpose of education and subsequently at some point of time got employment there only, the reason for migration would be 'education' and not 'work/employment'.

Internal and International Migration :

The migrational movements are of three types

(i) Migration within the state itself with its components

  (a) Migration within the district of enumeration (intra district migration)

  (b) Migration from one district of state to another district of state (inter district migration),

(ii) Migration from one state to another State of the country (inter-state migration),

(iii) Migration from one country to another country.

The first two streams together constitute internal migration, while the last type of movement is called international migration. The present name of the country, state or district and not the name by which they were known at the time of her/his birth or last residence were recorded.

Rural-Urban Components of Migration :

Rural or Urban status in respect of migrants had been determined as applicable at the time of migration and not with reference to any point of time after that.

The flow of migrants consists of four streams viz. rural to rural, rural to urban, urban to rural and urban to urban.

Civic Status of Urban Units :

Civic Status of a town/city is determined on the basis of Civic Administrative authority of the town e.g., Municipal Corporation/Corpora-tion, Municipal Committee/Municipal council, Municipality etc.

Size Class of UA/Town :

Size-class of UA/Town is based on the population size of the UA/City/Town UAs/Towns with 1,00,000 and above population is classified as Class I UAs./ towns. These Class I UAs./towns are now further sub classified in to seven sub classes namely M1 to M7 depending on the population size of UA/City/ Town. These are M7(5,000,000 and above); M6(2,000,000 to 4,999,999); M5(1,000,000-1,999,999) M4(500,000-999,999); M3(300,000-499,999), M2(200,000-299,999) & M1(100,000-199,999). towns with, 50,000 to 99,999 population are classified as Class II towns, 20,000 to 49,999 population are Class III towns, population with 10,000-19,999 are Class IV towns, population with 5,000 and 9,999 are Class V towns and towns with less than 5,000 population are Class VI towns.

Slum Area :

The Slum Areas (Improvement and Clearance) Act, 1956 which was enacted by the Central Govt. defined slums as a) Areas where buildings are in any respect unfit for human habitation; or b) are by reasons of dilapidation, overcrowding, fault arrangement and design of such buildings, narrowness or faulty arrange-ment of streets, lack of ventilation, light or sanitation facilities, or any combination of these factors, are detrimental to safety, health or morals.

Mega City :

The concept of 'Mega city' is a recent phenomenon in the Urban Sociology and is defined in term of metropolitan city in the form of large size, problem of management of civic amenities and capacity to absorb the relatively high growth of population. Indian Census in 1991 treated the population size of 5 million and above as the cut off point to identify a place as the mega city. Whereas, for the purpose of inclusion in Centrally Sponsored Scheme for Infrastructure Development in Mega cities the Ministry of Urban Affairs and employment, Department of Urban Development adopted the criteria of 4 million and above population as per 1991 Census for Mega Cities. In 2001 Census, cities with 10 millions and above population have been treated as Mega cities.

(vii) 2001 Census Findings – Population and its Distribution

(a) Distribution of population in rural-urban areas:

According to the 2001 Census, the total population of Sabar Kantha district is 2,082,531 comprising 1,069,554 males and 1,012,977 females. This population of the district forms 4.11 percent of the State population and rank at 8th place among the 25 districts of Gujarat state. Out of the total population of the district 89.2 per cent that is 1,857,402 live in rural area while 10.8 per cent, that is 225,129, live in urban area. Rural population of the district is distributed among 13 talukas and urban population is spread over in 8 towns. The total urban population in the district is 225,129 persons comprising 117,267 males and 107,862 females. The total rural population in this district comes to 1,857,402 persons and is composed of 952,287 males and 905,115 females as per 2001 Census. This rural population is distributed in 1,372 villages of the district. As much as 17 villages are uninhabited.

(b) Size class and status of towns, Population growth, Density, Sex ratio, Work participation rate, Literacy, availability of University education in the District:

The statement below gives the town status, size class of town and town population for eight towns of Sabar Kantha district for 2001 Census.

Sl. No.	Name and Civic Status of Town	Size class of town	Population
1	2	3	4
1	Khedbrahma(M)	III	25,556
2	Idar (M)	III	32,805
3	Meghraj(CT)	V	9,902
4	Himatnagar (M)	II	56,464
5	Prantij (M)	III	22,282
6	Talod (M)	IV	17,473
7	Modasa (M)	II	54,135
8	Malpur (CT)	V	6,512

According to the 2001 Census the total population of the district was 2,082,531. There has been net addition of 321,445 persons during 1991-2001. The decadal growth rate of population for the district is 18.3 per cent. The growth rates for the rural and urban areas of the district are 17.9 and 21.6 per cent respectively. The growth rate of urban population is very high in the district. The highest growth of urban population is in Khedbrahma taluka where population has increased by 48.3 per cent during the decade.

The density of population in Sabar Kantha district is 282 persons per Sq.km. against the state average of 258 persons.

There are 947 females for every thousand males in Sabar Kantha district. The sex ratio figures for rural and urban areas of the district are 950 and 920 respectively. Among the talukas, the highest sex-ratio of 1,014 females has been recorded in Vijaynagar taluka and lowest of 910 is recorded in Prantij taluka. The urban areas of Modasa taluka have the highest sex-ratio of 945 and urban area of Khedbrahma taluka has the lowest sex-ratio of 904 females per 1,000 males.. Sex-ratio in age-group 0-6 comes 879 females per 1,000 males in the district, as a whole. In rural areas, this proportion is 884 females while in urban areas the sex-ratio of child population works out 830 females per 1,000 males.

The work participation rate is defined as percentage of total workers to total population. In the same way it is defined for main workers and marginal workers. According to 2001 Census, the total workers including main and marginal workers constitute 45.2 percent of the total population of the district. Of the total workers the share of the main workers is 31.8 per cent and the marginal workers is 13.4 per cent. The remaining population belongs to the category of non-workers.

As per 2001 Census among the main workers male participation rate in the district is 46.4 and corresponding proportion for female is 16.4 per cent. Male and female marginal workers account for 5.9 and 21.2 per cent respectively. The proportion of female marginal workers is substantially higher than males.

A person who can read and write in any language with understanding is taken as literate in census. All children of age below 7 years are treated as illiterates.

As per 2001 census Sabar Kantha district reported 1,171,555 persons as literates constituting 66.6 percent of the total population. The proportion of male and female literates in the district is 80.4 and 52.3 per cent respectively. The difference of male and female literacy rate is 28.1 per cent in the district.

The total literacy rates of rural and urban areas are 64.8 and 81.0 per cent respectively. The proportion of male and female literates in rural area is 79.3 and 49.8 per cent respectively. In urban areas this proportion is 89.1 and 72.4 per cent respectively. The difference between male and female literacy rates in urban areas is about 16.7 per cent as against 29.5 per cent in rural areas. Urban females have significantly higher literacy rate than rural females in the district.

There are 10 colleges in the district. Among them four colleges are situated in Himatnagar town, three are located in Modasa town and one each in Bhiloda, Ratanpur and Khedbrahma towns. The district has facilities for higher education in the disciplines of engineering, pharmacy, nursing, business administration and agriculture besides general disciplines. As regards libraries, there is a district library at Himatnagar and four talukas namely, Meghraj, Vijaynagar, Khedbrahma and Bhiloda have taluka libraries.

Religion:

Religion forms an integral part of Indian Social system. In the pre-Independence census reports, the data on religion was being presented for 9 major religion viz. Hindu, Muslim, Tribals, Christian, Sikh, Jain, Buddhist, Parsi, Jew and Others. However, since

the 1951 census the data on religion has been presented for 6 major religon viz. Hindu, Muslim Christian, Sikh, Jain and Buddhist. Besides, the minor religions have been classified under the category of 'Other'. The data on religion collected and presented by the Indian Census is the basic data of intense use for the researchers, anthropologists, sociologists, demographers, administrators, planners and even for a common man.

In 2001 the Indian Census collected the religion data in question No. 7 of the household schedule and recorded the same under the six major religions, other religions were recorded in actual as returned by the respondent and classified under the category of 'Others'. Religion not stated has been added for those persons who have not stated their religion at the time of canvassing the status of religion.

Percentage Distribution of Population by Major Religions in Gujarat State and Sabar Khantha District in 2001 Census

Sl. No.	Religion	Gujarat State		Sabar Kantha District	
		Population	Percentage	Population	Percentage
1	2	3	4	5	6
1	Hindu	45,143,074	89.1	1,946,780	93.5
2	Muslim	4,592,854	9.1	117,806	5.7
3	Christian	284,092	0.5	5,649	0.3
4	Sikh	45,587	0.1	514	0.0
5	Buddhist	17,829	0.0	9	0.0
6	Jain	525,305	1.0	11,198	0.5
7	Other	28,698	0.1	6	0.0
8	Religion not stated	33,578	0.1	569	0.0

Source: Census of India, 2001

The comparative data of Gujarat State and Sabar Kantha district relating to distribution of major religions is given in the statement above. It is observed that at State level 89.1 percentage of population follows Hindu religion, whereas in Sabar Kantha district, the Hindu religion followers are recorded at 93.5 per cent of population. In Gujarat State 9.1 per cent of population follows Muslim religion against the 5.7 per cent followers of Muslim religion in Sabar Kantha district. The population of other major religions is small.

The pattern of distribution of the population into the followers of major religions between rural and urban areas of Sabar Kantha is as under according to 2001 Census. It is observed that out of the persons following Christian, majority are located in rural areas, while among followers of Sikh and Jain religions, majority stay in urban areas.

Religion	Number of Followers	Population	
		Rural	Urban
1	2	3	4
Hindu	1,946,780	1,783,290 (91.6)	163,490 (8.4)
Muslim	117,806	64,589 (54.8)	53,237 (45.2)
Christian	5,649	4,957 (87.8)	692 (12.2)
Sikh	514	100 (19.5)	414 (80.5)
Buddhist	9	5 (55.6)	4 (44.4)
Jain	11,198	4,018 (35.9)	7,180 (64.1)
Others	6	6 (100.0)	0 (0.0)

* Recasted Population

The Sabar Kantha district observed decadal growth rate 18.3 per cent for 1991-2001. Rural and urban growth rates for the district during 1991-2001 were 17.9 per cent and 21.6 per cent respectively.

The urban population of the district was 10.5 per cent in the year 1991 and it increased to 10.8 per cent in 2001.

Across talukas of Sabar Kantha district, Khedbrahma taluka obseved significant rise in the total population, to the extent of 35.9 per cent during 1991-2001. The decadal variation in urban population of Khedbrahma taluka was 48.3 per cent, while the same in case of rural population was 34.4 per cent, for 1991-2001. The decadal growth rate for rural and urban Khedbrahma has been the highest among all talukas of Sabar Kantha district. Idar and Modasa talukas with 31.7 per cant and 28.8 per cent were next in the order of higher taluka growth rates of urban population during 1991-2001. Prantij taluka showed lowest decadal variation of urban population (7.5 per cent) during 1991-2001. As regards population growth rates in rural areas, during 1991-2001. Meghraj taluka obseved 24.3 per cent growth rate which was next to Khedbrama while Dhansura taluka had 11.9 per cent decadal growth rate that was lowest among all taluka of the district. Vijaynagar, Vadali, Bhiloda, Dhansura and Bayad talukas continued to be entirely rural talukas during 2001.

Table 2 gives the detail of absolute number and percentages of inhabited villages falling in each range of population size of villages and number of males and females for each population range at taluka level in the district. Out of 1,372 inhabited villages, 50 villages (3.6 per cent) have the population below 200 persons. The size class of 200-499 persons claims 239 villages having 17.4 per cent villages of the district while the size class of 500-999 population is having 419 villages with 30.5 per cent of the total villages. As many as 406 villages with 29.6 per cent of all villages are in the size class of 1,000-1,999 and 227 villages (16.5 per cent) are in size class of 2,000-4,999 while 27 villages (2.0 per cent) are falling in the range of 5,000-9,999. Only four villages in the district have population more than 10,000. Bhiloda taluka has the highest number of villages i.e. 165 while Vadali has the least number of villages i.e. 57.

21-50	15	1.1	3,511	0.2
51-100	67	4.9	28,360	1.5
101-200	319	23.3	325,329	17.5
201-300	444	32.4	607,192	32.7
301-500	380	27.7	648,448	34.9
501 +	139	10.1	244,038	13.1
Not known	0	0.0	0	0.0
District Total:	**1,372**	**100.0**	**1,857,402**	**100.0**

Population Density (Rural) of the district : 339

Table 4 gives the detail of the distribution of villages by population density ranges. The inhabited villages of the district have been grouped under eight different ranges of density. The maximum number of villages i.e. 444, accounting for 32.4 per cent of the total inhabited villages of the district fall in the density range of 201-300 persons having 32.7 per cent population. The lowest range of 0-10 persons per sq km covers 4 villages (0.3 per cent.). 139 villages (10.1 per cent) with 13.1 per cent of population have very high density of more than 501. There are 380 villages (27.7 per cent) with 34.9 per cent population in the density range of 301-500. The density ranges of 51-100 and 101-200 account for 4.9 and 23.3 per cent of inhabited villages respectively. Both these ranges together claim 19.0 per cent population. The density of population of the rural areas of the district is 339 per sq km.

TABLE 5
SEX RATIO OF STATE AND DISTRICT, 1901-2001

Sl. No.	Census Year	Gujarat State			Sabar Kantha District		
		Total	Rural	Urban	Total	Rural	Urban
1	2	3	4	5	6	7	8
1	1901	954	951	965	996	994	1,018
2	1911	946	943	960	982	979	1,045
3	1921	944	947	931	994	990	1,064
4	1931	945	948	934	964	964	963
5	1941	941	954	898	967	973	872
6	1951	952	964	920	973	977	902
7	1961	940	956	896	954	960	865
8	1971	934	951	893	965	970	900
9	1981	942	959	905	976	981	925
10	1991	934	949	907	965	969	935
11	2001	920	945	880	947	950	920

Table 5 gives the details of sex ratio of state and Sabar Kantha district for Census from 1901 to 2001. As per 2001, Census sex ratio of the district is 947 females per 1,000 males. The rural and urban areas' sex ratios stand at 950 and 920 respectively. It can be seen that sex ratio for the Census year 2001 of the state and district is the lowest compared to sex ratio of the earlier censuses. The sex ratio for the rural area of the district is higher compared to the figure of state sex ratio of all the censuses.

TABLE 6

SEX RATIO BY TALUKAS, 2001

Sl. No.	Name of Taluka	Sex Ratio		
		Total	Rural	Urban
1	2	3	4	5
1	Khedbrahma	965	973	904
2	Vijaynagar	1,014	1,014	-
3	Vadali	943	943	-
4	Idar	952	957	919
5	Bhiloda	986	986	-
6	Meghraj	964	967	925
7	Himatnagar	926	931	906
8	Prantij	910	908	918
9	Talod	933	936	911
10	Modasa	946	946	945
11	Dhansura	916	916	-
12	Malpur	930	931	918
13	Bayad	932	932	-
	District Total:	**947**	**950**	**920**

Table 6 gives the detail of sex ratio for total, rural and urban areas at taluka level as per 2001 Census. There are 947 females per 1,000 males in Sabar Kantha district. The sex ratio of Vijaynagar taluka is highest i.e. 1,014 (total as well as in rural area) while the lowest sex ratio i.e. 910 is in Prantij taluka. In rural areas of the district, the sex ratio is 950 females per 1,000 males while for urban areas the same is 920 females per 1,000 males. Only Prantij taluka has higher sex ratio for urban area as against that for rural area.

TABLE-7
SEX RATIO BY TALUKAS / C.D. BLOCKS, 2001

Sl.No.	Name of Taluka/C. D. Block	Sex Ratio
1	2	3
1	Khedbrahma	973
2	Vijaynagar	1,014
3	Vadali	943
4	Idar	957
5	Bhiloda	986
6	Meghraj	967

10	Modasa	946
11	Dhansura	916
12	Malpur	931
13	Bayad	932
	District (Rural) Total:	**950**

Table 7 gives the detail of C.D. Block/Talukawise sex ratio for rural population in the district. The sex ratio in rural areas of the district is 950 females per 1,000 males as a whole. The highest sex ratio of 1,014 females is found in Vijaynagar taluka while the lowest of 908 is recorded in Prantij. The sex ratio of Vijaynagar, Khedbrahma, Idar, Bhiloda and Meghraj talukas is also higher than district rural figure of 950.

TABLE 8

SEX RATIO OF RURAL POPULATION BY RANGES, 2001

Range of Sex Ratio for Villages	Number of Inhabited Villages	Percentage of Villages in each Range	Population 2001	Percentage Distribution of Population
1	2	3	4	5
Less than 700	6	0.4	3,295	0.2

District Total:	**1,372**	**100.0**	**1,857,402**	**100.0**

Sex ratio (Rural) for District: 950

Table 8 gives the detail of the distribution of villages by 9 different sex ratio ranges based on 2001 Census. The maximum number of villages i.e. 416 accounting for 30.3 per cent of the total villages having the highest population of 36.8 per cent fall in the sex ratio range of 900-949 followed by the sex ratio range of 950-999 which claims 382 villages (27.8 per cent) having a population of 29.9 per cent. The highest sex ratio range of 1,100 and more claims 47 villages having the shares of 2.1 per cent rural population in the district. The sex ratio range of 1,000 - 1,099 claims 276 villages (20.1 per cent) with 16.0 per cent of population.

TABLE 9

SEX RATIO OF URBAN AGGLOMERATIONS / TOWNS, 2001

Sl.No.	Name of UA / Town	Urban Status of Town	Sex Ratio
1	2	3	4

Table 10 gives the detail about population of age group 0-6 years and sex ratio for total, rural and urban areas in respect of each taluka of the district. Total population in age group 0-6 years is 324,716 persons comprising 172,786 males and 151,930 females. The total sex ratio in this age group works out 879 females per 1,000 males in the district. The sex ratio in this age group for rural areas of all talukas is higher than that of urban areas, except Idar taluka. The sex ratio in rural and urban areas comes to 884 and 830 females per 1,000 males respectively in this age group. The rural sex ratio in taluka varies between 822 and 967.

TABLE 11

Sex ratio (Rural) for District : 884

Table 12 gives the detail about the distribution of villages in 9 different ranges of sex ratio in the age group 0-6 years as well as percentage of villages and percentage of population falling in each range of sex ratio in the district. The maximum number of 199(14.5 per cent) villages falls in the range of 1,000 - 1,099. The minimum number of 93 villages fall in range of 700-749 having minimum population of 6.3 per cent of the district. The maximum population of 15.7 per cent of the district is seen in the sex ratio range of 900-949. As many as 177 villages with 8.0 per cent to the total population fall in the largest sex ratio range of 1,100 and more. The ranges of 750-799 and 950-999 comparatively show less number of villages having percentages of 10.1 and 7.9 respectively.

		Urban	**225,129**	**16,319**	**9,631**	**7.2**	**4.3**

Table 14 shows the detail about the distribution of Scheduled Castes and Scheduled Tribes with their percentage distribution to total population at taluka level with rural and urban areas of the district. It can be seen that out of total district population of 2,082,531 persons, 8.3 per cent belong to Scheduled Castes and 20.2 per cent belong to Scheduled Tribes. The percentage of Scheduled Castes population is 8.5 per cent in rural areas and 7.2 per cent in urban areas in the district. The highest percentage of Scheduled Castes population is recorded in Idar taluka (16.2 per cent) while the lowest is in Khedbrahma (3.7 per cent). The proportion of Scheduled Tribes population is 22.1 and 4.3 per cent in rural and urban areas respectively. The highest Scheduled Tribes population in this district is concentrated mainly in Vijaynagar (75.5 per cent) while the lowest population percentage of Scheduled Tribes is recorded in Prantij and Talod talukas each at 0.6 per cent.

TABLE 15

NUMBER AND PERCENTAGE OF SCHEDULED CASTES AND SCHEDULED TRIBES POPULATION IN TALUKAS / C.D. BLOCKS, 2001

Sl. No.	Name of Taluka / C.D. Block	Total Population	Total Scheduled Castes Population	Total Scheduled Tribes Population	Percentage of Scheduled Castes Population to Total Population	Percentage of Scheduled Tribes Population to Total Population

12	Malpur	79,551	4,620	2,782	5.8	3.5
13	Bayad	186,328	13,508	2,343	7.2	1.3
	District (Rural) Total:	**1,857,402**	**157,006**	**410,611**	**8.5**	**22.1**

Table 15 gives the detail about the distribution of Scheduled Castes and Scheduled Tribes population for rural areas in each taluka of the district. Out of the rural population of the district, 8.5 per cent population is recorded as Scheduled Castes and 22.1 per cent as Scheduled Tribes. The highest proportion of 17 per cent of Scheduled Castes population is recorded in Idar taluka and the lowest of 3.2 per cent in Khedbrahma taluka. At taluka level, the highest Scheduled Tribes population is recorded in Khedbrahma taluka with 76 per cent and the lowest in Prantij taluka with 0.6 per cent.

TABLE 16

PROPORTION OF SCHEDULED CASTES POPULATION TO TOTAL POPULATION IN VILLAGES, 2001

Percentage Range of Scheduled Castes Population to Total Population	Number of Villages	Percentage	Scheduled Castes Population	Percentage
1	2	3	4	5
Nil	664	48.4	0	0.0
Less than 5	185	13.5	7,144	4.6
5-10	198	14.4	34,911	22.2

Percentage Range of Scheduled Castes Population to Total Population	Number of Villages	Percentage	Scheduled Castes Population	Percentage
1	2	3	4	5
11-20	207	15.1	63,955	40.7

41-50	9	0.7	5,514	3.5
51-75	8	0.6	3,444	2.2
76 and above	1	0.1	132	0.1
District Total :	**1,372**	**100.0**	**157,006**	**100.0**

Table 16 gives details about the number of villages according to the proportion of Scheduled Castes population to their total population in nine different population percentage ranges for the district. As many as 664 villages (48.4 per cent) out of 1,372 villages in the district do not have any Scheduled Castes population. The proportion of Scheduled Castes population is less than 5 per cent in 185 villages constituting 13.5 per cent of the total villages. In 198 villages, proportion of Scheduled Castes varies between 5 to 10 per cent while the next range of 11-20 accounts for 207 villages constituting 15.1 per cent of the total villages. 5.6 per cent of the villages are in the percentage range of 21-30. The ranges of 31-40, 41-50 and 51-75 are accounted for 23,9 and 8 villages respectively. The maximum of 40.7 per cent of the Scheduled Castes population is covered by range of 11-20 per cent and minimum of 0.1 per cent (1 village) in the range of 76 and above per cent.

TABLE 17

PROPORTION OF SCHEDULED TRIBES POPULATION TO TOTAL POPULATION IN VILLAGES, 2001

Percentage Range of Scheduled Tribes Population to Total Population	Number of Villages	Percentage	Scheduled Tribes Population	Percentage
1	2	3	4	5
Nil	620	45.2	0	0.0
Less than 5	293	21.4	8,007	2.0
5-10	54	3.9	6,539	1.6
11-20	29	2.1	5,407	1.3
21-30	21	1.5	13,146	3.2
31-40	24	1.7	10,938	2.7
41-50	13	0.9	5,927	1.4
51-75	53	3.9	46,720	11.4
76 and above	265	19.3	313,927	76.5
District Total :	**1,372**	**100.0**	**410,611**	**100.0**

Table 17 gives the detail about the number of villages according to the proportion of Scheduled Tribes population to their total population in 9 different percentage ranges at district level. It is significant that 620 villages constituting 45.2 per cent of total villages in the district do not have any population of Scheduled Tribes. As many as 293 villages accounting for 21.4 per cent of the villages are having Scheduled Tribes population of less than 5 per cent while percentage range of 5 to 10 is seen for 54 villages only, which constitute 3.9 per cent of the total villages in the district. Percentages ranges of 11-20, 31-40, 41-50 and 51-75 account for 29, 24, 13 and 53 villages respectively. Significantly, it is seen that 265 villages out of 1,372 are having percentage range of Scheduled Tribes population of 76 and more constituting 19.3 per cent of the total villages. Only 21(1.5 per cent) villages are covered under the percentage range of 21-30.

TABLE 18

NUMBER AND PERCENTAGE OF SCHEDULED CASTES AND SCHEDULED TRIBES POPULATION IN URBAN AGGLOMERATIONS / TOWNS, 2001

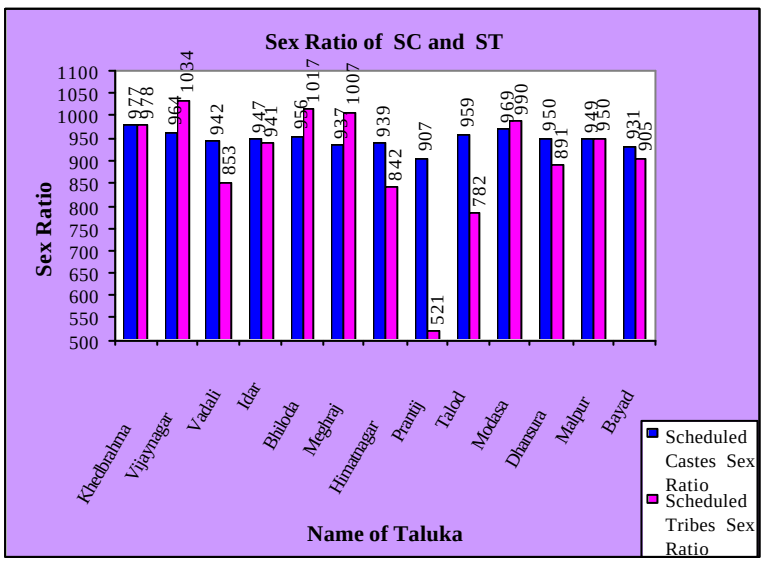

Sl. No.	Name of UA / Town	Total Population	Total Scheduled Castes Population	Total Scheduled Tribes Population	Percentage of Scheduled Castes Population to Total Population	Percentage of Scheduled Tribes Population to Total Population

	District(Urban) Total :	**225,129**	**16,319**	**9,631**	**7.2**	**4.3**

Note : UA = Urban Agglomeration

Table 18 gives the details about the distribution of Scheduled Castes and Scheduled Tribes population as well as their percentage to total population at UA/ Towns as per 2001 Census. Of the total population of 225,119 in UA /Towns of the district, 7.2 per cent population belongs to the Scheduled Castes and 4.3 per cent to Scheduled Tribes. The highest proportion of 13.7 per cent of Scheduled Castes population is recorded in Malpur (CT) and the lowest of 4.2 per cent in Prantij (M). At UA /Towns level, the highest Scheduled Tribes population of 13.1 per cent is recorded in Khedbrahma (M) and the lowest of 0.3 is recorded in Talod (M).

TABLE 19

SEX RATIO AMONG SCHEDULED CASTES AND SCHEDULED TRIBES IN TALUKAS/C. D. BLOCKS, 2001

Sl. No.	Name of Taluka/ C.D.Block	Scheduled Castes Sex Ratio	Scheduled Tribes Sex Ratio
1	2	3	4
1	Khedbrahma	977	978
2	Vijaynagar	964	1,034
3	Vadali	942	853

12	Malpur	949	950
13	Bayad	931	905
	District (Rural) Total :	**946**	**996**

Table 19 shows the sex ratio among Scheduled Castes and Scheduled Tribes for rural areas in each taluka in the district. The Scheduled Castes sex ratio is 946 for the district. Among the talukas, the highest sex ratio of 977 is found in Khedbrahma and the lowest of 907 in Prantij taluka among Scheduled Castes. Sex ratio of Scheduled Tribes population is 996 for the district. The highest Scheduled Tribes sex ratio of 1,034 is recorded in Vijaynagar taluka and the lowest of 521 in Prantij.

TABLE 20

SEX RATIO AMONG SCHEDULED CASTES AND SCHEDULED TRIBES IN URBAN AGGLOMERATIONS / TOWNS, 2001

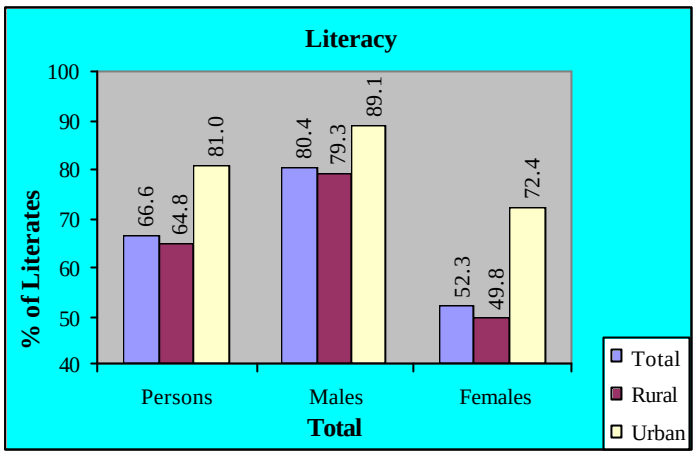

Sl.No.	Name of UA / Town	Scheduled Castes Sex Ratio	Scheduled Tribes Sex Ratio

The Table 21 shows talukawise literacy rates with the absolute number of literates and illiterates for the district and for rural and urban areas separately. As per 2001 Census, the proportion of effective literates to total population is 66.6 per cent in the district, while this proportion in rural area is 64.8 per cent against 81.0 per cent in urban areas. In the district the literacy rates of males is 80.4 per cent which is higher than that of females at 52.3 per cent. Among the talukas Himatnagar tops with 76.4 per cent literates followed by Prantij with 72.8 per cent. Khedbrahma taluka shows the lowest literacy rate of 42.3 per cent in the district. The gap between male and female literacy is high which comes to 28.1 percentage point in the district as a whole. However, such gap in urban literacy is significantly low at 16.7 percentage points whereas the gap between male and female literacy is 29.5 percentage points in rural areas.

	District (Rural) Total :	**1,012,810**	**630,929**	**381,881**	**844,592**	**321,358**	**523,234**	**64.8**	**79.3**	**49.8**	**29.5**

Table 22 reveals the effective literacy rates along with absolute number of literates and illiterates for the rural population at taluka level in the district. As much as 64.8 per cent for the total population in the district is literate. Significantly a wide gap of 29.5 percentage points in literacy rates between males and females has been registered. Among thirteen talukas of the district Himatnagar taluka shows the maximum literacy rate of 74.0 per cent while Khedbrahma has shown the lowest literacy rate of 37.8 per cent. Prantij has the maximum literacy rate among male population i.e. 87.3 per cent in the district. The highest female literacy rate of 60.0 per cent is recorded in Himatnagar. A significant gap in male and female literacy can easily be seen in each taluka of the district.

TABLE 23

DISTRIBUTION OF VILLAGES BY LITERACY RATE RANGE, 2001

Range of Literacy Rate for Villages	Number of Inhabited Villages	Percentage Distribution of Villages	Population	Percentage Distribution of Population
1	2	3	4	5
0	2	0.1	16	0.0
1-10	3	0.2	3,022	0.2
11-20	28	2.0	47,754	2.6
21-30	34	2.5	53,229	2.9
31-40	54	3.9	54,545	2.9
41-50	94	6.9	106,024	5.7
51-60	248	18.1	243,636	13.1
61-70	450	32.8	586,989	31.6
71-80	376	27.4	644,829	34.7
81-90	73	5.3	114,234	6.2
91-99	10	0.7	3,124	0.2
100	0	0.0	0	0.0
District Total:	**1,372**	**100.0**	**1,857,402**	**100.0**

Literacy Rate for District: 66.6

Table 23 gives the distribution of villages in different ranges of literacy rate in the district. No literates are found in 2 villages constituting 0.1 per cent of total villages, having the total population of 16. As many as 376 villages accounting for 27.4 per cent of the total villages show literacy rate ranging from 71 to 80 per cent, while maximum number of 450 villages constituting 32.8 per cent of total villages has been registered in the literacy rate range of 61 to 70 per cent. It can easily be seen that the maximum number of villages (1,074 villages) has registered the literacy rates ranging between 51 to 80 per cent. Only 10 villages having 0.2 per cent of total population shows the highest range (91-99) of literacy rate. No village in the district has 100 per cent literacy.

Table 25 gives the detail about number and percentage of literate and illiterate for Scheduled Castes at taluka level in the district. As high as 70.9 per cent of the total Scheduled Castes population excluding the population of age group of 0-6 years is literates in the district. As much as 85.3 per cent of male Scheduled Castes is literate while corresponding figure for female is only 56.0 per cent. There is a wide gap of 29.4 percentage points between the literacy rate of males and females. Prantij taluka has the highest literacy rate of 76.5 per cent while the lowest literacy rate of 57.9 per cent is recorded in Meghraj. Wide variations in literacy rates between males and females may be seen in all talukas of the district. The maximum difference of 32.1 percentage points is seen in Malpur taluka of the district.

TABLE 26

DISTRIBUTION OF VILLAGES BY LITERACY RATE RANGE FOR SCHEDULED CASTES POPULATION, 2001

Range of Literacy Rate for Villages	Number of Inhabited Villages	Percentage Distribution of Villages	Scheduled Castes Population	Percentage Distribution of Population

District Total:	**708**	**100.0**	**157,006**	**100.0**

Literacy rate for District (Rural): 70.9

Table 26 reveals the distribution of villages in 12 different ranges of literacy rates for the population of Scheduled Castes in rural areas of the district. No literate is reported in 7 villages comprising 1.0 per cent of the total villages in the district and having population of only 28 persons of their community. As many as 236 villages accounting for 33.3 per cent of the total villages show the literacy rates ranging from 61-70 per cent. As much as 54 villages having 7.6 per cent of the total population of Scheduled Castes registered the literacy rate below 50 per cent. The higher literacy rates ranging from 71 to 100 per cent cover 351 villages (49.5 per cent). The range between 71 to 80 per cent has the maximum number of villages i.e. 272 forming 38.4 per cent of the total villages with the largest population percentage of Scheduled Castes i.e. 48.4 per cent in the district. It is to be noted that the Scheduled Castes in 22 villages have been reported as totally literate in the district.

Table 27 gives the details about absolute number and percentages of literates and illiterates for Scheduled Castes in urban areas for the district Sabar Kantha. As high as 80.0 per cent of the total Scheduled Castes population excluding the population of age group of 0-6 years is literates in the district. The corresponding proportion of male and female literates comes to 91.5 and 68 per cent respectively which show the gap of 23.5 percentage points in male-female literacy rate. Prantij (M) has the highest urban literacy rate of 88.7 per cent and Malpur (CT) has the lowest literacy rate of 72.9 per cent. The maximum difference between literacy rates for male and female with 26.5 percentage points is recorded in Malpur (CT).

* Town having outgrowths.

Table 30 gives the detail about number and percentage of Scheduled Tribes literate, illiterates and the literacy rates in towns of the district. As much as 62.4 per cent of the total urban population excluding the age group of 0-6 years is literate in the district. The corresponding proportion of male and female literates comes to 71.8 and 51.2 per cent respectively which shows wide gap of 20.6 per cent in male and female literacy. Among the 5 towns of the district, Meghraj (CT) has the highest urban literacy rate of 89.1 per cent and the lowest of 42.4 per cent is in Idar (M). There are wide variations in male and female literacy in almost all the towns of the district. The maximum difference of 31.9 per cent is found in Prantij (M) and minimum of 3.4 per cent in Meghraj (CT).

Table 31 shows absolute number and percentage of main workers, marginal workers and non workers by sex at taluka level in the district as per 2001 Census. Only 45.2 per cent in the total population have been registered as workers in the district. In total population 31.8 per cent is main workers while 13.4 per cent is marginal workers. Percentage of non-workers in the district is accounted for 54.8 per cent of total population. Among the main workers male participation rate in the district is 46.4 per cent while corresponding rate for females is 16.4 per cent. As far as marginal workers are concerned, the participation rate i.e. 21.2 per cent for female is higher as compared to male's participation rate of only 5.9 per cent.

Table 32 gives the detail about talukawise absolute number and percentage of main workers, marginal workers and non workers by sex for rural population of the district. As much as 32.2 per cent of the population has been categorized as main workers whereas the marginal workers constitute only 14.6 per cent. As high as 53.2 per cent of population is non-worker. Sex-wise break up shows that participation in main work for male and female is 46.3 and 17.4 per cent respectively. Marginal worker for male and female is accounted for 6.3 and 23.3 per cent respectively. The percentage of marginal workers in females is higher than that in males. Similar trend may also be seen at taluka level also. The percentage of total rural workers of the district comes to 46.8 per cent. At the taluka level Malpur has the highest proportion of total workers forming 51.3 per cent of the total population whereas the lowest percentage of 41.0 per cent is recorded in Vijaynagar taluka.

Note : UA = Urban Agglomeration.

Table 33 shows the absolute number with percentage of main workers, marginal workers and non-workers for urban population at U.A/Town level in the district. Of the 225,129 total urban population of the district, 28.2 per cent has been categorized as main workers whereas the category of marginal workers stands only for 3.2 per cent. A high percentage i.e. 68.6 per cent of the population is reported to be non-workers. Sex-wise break up at the district shows that 46.8 per cent males and 8.1 per cent females are in the category of main workers. Marginal work for males and females is accounted for 2.8 per cent and 3.6 per cent respectively. The percentage of female marginal workers is higher than male marginal workers. The highest proportion of total workers forming 36.1 per cent of the total population is shown in Prantij (M) and the lowest in Modasa (M) i.e. 28.5 per cent.

TABLE 34

DISTRIBUTION OF WORKERS BY SEX IN FOUR CATEGORIES OF ECONOMIC ACTIVITY IN TALUKAS, 2001

Note: Percentage of Worker to total worker are given in brackets

Table 34 reveals economic activity in the district. From the table it is evident that total workers including main and marginal workers are 45.2 per cent of the total population. As much as 36 per cent of total workers are engaged in cultivation, followed by 26.8 per cent in agricultural labour, 1.6 per cent in household industry and 35.6 in other work. The proportion of cultivators varies between 57.7 per cent in Meghraj to 22.9 per cent in Himatnagar taluka. The proportion of female cultivators is 19.3 per cent which is lower as compared to that of male i.e, 47.3 per cent in the district. The percentages of agricultural labourers and household industry workers are comparatively low in the district. The highest proportion of 52.7 per cent of other workers is recorded in Himatnagar taluka whereas the lowest proportion of 17.6 per cent is in Meghraj taluka.

Note: Percentage of Worker to total worker are given in brackets

Table 35 gives the details of talukawise distribution of worker by sex in four categories of economic activity in rural areas of the district. It can be seen that total workers are 46.8 per cent of total population. Among workers cultivators have the share for 38.7 per cent followed by Agricultural labourers 28.7 per cent household industry workers for 1.5 per cent and other workers for 31.2 per cent, in the rural areas of the district. Agricultural sector plays a major role in providing employment to the working force for the rural population. The percentage of workers in household industries is remarkably low at 1.5 per cent of the total workers in rural areas as reflected from the data. Thus, working force has to depend on agriculture sector in rural areas. Percentage of male workers in cultivation is higher than that of female. The maximum variation of 32.9 percentage points of cultivators is seen between the talukas of Himmatnagar and Meghraj. It is clearly seen that persons engaged as other workers have the highest percentage of 47.4 per cent in Talod and the lowest percentage of 14.2 per cent in Meghraj. The percentage of agricultural labourers is the highest in Khedbrahma with 37.6 per cent and the lowest in Talod with 19.8 per cent.

UA = Urban Agglomeration

Table 36 details the distribution of workers by sex in four categories of economic activities in urban areas of the district. In the urban areas of the district total workers (Main + Marginal) constitute 31.4 per cent of total population. Among these workers, cultivators constitute 2.2 per cent, agricultural labourers 4.5 per cent, household industry workers 2.6 per cent and other workers 90.7 per cent. Participation of females in agricultural laboure, i.e. 9.2 per cent is higher than males in urban areas of the district.

Note : Percentages are given in brackets.

* Based on the improved drinking water source, drinking water supply has been classified as 'Improved ' or otherwise. If the household has access to drinking water supplied from a tap or a hand pump / tube well situated within or outside the premises it is considered as having access to 'Improved drinking water source'. However, the concept of improved drinking water is state specific and this is to be considered accordingly.

\# Post office includes Post office, telegraph office and Post and telegraph office.

$ Transport communication includes bus service, rail facility and navigable waterways.

Table 37 given above shows the talukawise distribution according to the availability of different amenities such as education, medical, improved drinking water, post office, telephone, transport communication, banks, agricultural credit societies, approach to village by pucca road and power supply. Out of 1,372 inhabited villages in the district, 1,363 villages have at least some educational facility. There is no educational facility in 9 villages. Medical facilities of one kind or other are available in 780 villages of the total inhabited villages. The remaining 592 villages are devoid of any medical facility within the village. In all 1,353 inhabited villages of the district avail the drinking water facility like tap, well, a hand pump, a tube well, etc. Though the main source of drinking water is well in the most of the villages 19 villages have no drinking water facility. As many as 692 villages are equipped with one or more facilities of post and telegraph. Telephone facility has reached about 71.5 per cent of villages in district. Out of 1,372 villages, 1,338 villages are well connected with the transport facility. Agricultural Credit Societies are available in 704 villages. Only 132 villages have banking facility. As much as 1,164 villages are linked by approach pucca roads. As far as power supply is concerned all villages have power supply.

Note : Percentages are given in brackets.

* Based on the improved drinking water source, drinking water supply has been classified as 'Improved ' or otherwise. If the household has access to drinking water supplied from a tap or a hand pump / tube well situated within or outside the premises it is considered as having access to 'Improved drinking water source'. However, the concept of improved drinking water is state specific and this is to be considered accordingly.

Post office includes Post office, telegraph office and Post and telegraph office.

$ Transport communication includes bus service, rail facility and navigable waterways.

Table 38 gives the detail about the number and percentage of rural population served by different amenities. Out of total population of 1,857,402 persons in the district almost all persons have educational facility of one or other type. Similarly 1,330,769 or 71.6 per cent population has medical facilities while 1,844,413 or 99.3 per cent have the facilities of improved drinking water. Post office facilities are available to 1,336,961 or 72 per cent population. Telephone facility is available to 1,493,887 or 80.4 per cent population. Transport communication facility is available to 1,841,815 or 99.2 per cent. Banking facilities are available to the least of the population which is 442,994 or 23.9 per cent of population in the district. As much as 1,208,243 or 65.1 per cent have been provided with the facility of agricultural credit societies. As much as 1,698,996 or 91.5 per cent have been provided with the facility of approach by pucca roads. Power supply is available to entire rural population in the district. Out of thirteen talukas in the district eleven talukas enjoy 100 per cent educational facilities.

TABLE 39
DISTRIBUTION OF VILLAGES NOT HAVING CERTAIN AMENITIES, ARRANGED BY DISTANCE RANGES FROM THE PLACES WHERE THESE ARE AVAILABLE, 2001

Note :* In Gujarat State the levels of education are classified as under
(i) Primary School(From Std. I to VII passed)
(ii) Secondary/Matriculation(From Std. VIII to X passed)
(iii) Higher Secondary (From Std. XI to XII passed). Hence details under 1(b) are not shown.

Table 39 shows that only 4 villages of the district are having the facilities of basic primary education within a radius of 5 km, 168 villages has college facility available at a distance of less than 5 km. Telephone facility is available for 207 villages within a radius of 5 km whereas 75 villages have this facility at the distance of more than 5 km but less than 10 km. Further 34 villages do not have bus services within their respective jurisdiction.

Note: # Post office includes Post office, Telegraph office and Post and telegraph office.
$ Transport communication includes bus service, rail facility and navigable waterways.
Percentages are given in brackets.

In the Table 40 the villages are distributed according to four ranges of the distance from the nearest statutory town along with number of villages and availability of different amenities. Out of 1372 inhabited villages, 63 villages that are at a distance of 5 km. from the nearest town every village have some educational facilities. Out of these 63 villages 35 villages are having Medical, 32 are having Post Office, 49 Telephone, 61 Transport communications, 36 Agricultural Credit Societies and 56 are having Approach by pucca road. Only 3 villages are having facilities of Banking. Out of total of 1372 villages, 459 villages are situated at the distance of 5 km. to 15 km. from the statutory towns. Of these 459 villages 457 villages are having Educational facilities followed by 450 villages having Transport communication, 402 villages having Approach by pucca road, 270 villages having Medical facility, 282 villages having Agricultural credit societies, 356 villages having Telephone, 252 villages having Post office while only 50 villages having banking facilities. As many as 762 villages are located at distance of 16 km. and above but less than 51 km. from the nearest town. Out of these 762 villages 755 villages are having the Educational facilities followed by 740 villages having Transport-communication, 521 villages having Telephone facilities, 424 are having Medical facilities and 629 villages are having Approach by pucca road. Out of these villages only 70 villages are having Banking facilities. 88 villages are at a distance of more than 51 kms from the nearest town and all of them have educational facilities. Out of these 88 villages, 51 have medical facilities, 44 have Post Office, 55 have Telephone, 87 have Transport Communication, 9 have Banking facilities, 25 have Agricultural Credit Societies and 77 villages have Approach by pucca road.

Note: * Based on the improved drinking water source, drinking water supply has been classified as 'Improved ' or otherwise. If the household has access to drinking water supplied from a tap or a hand pump / tube well situated within or outside the premises it is considered as having access to 'Improved drinking water source' However, the concept of improved drinking water is state specific and this is to be considered accordingly.

\# Post office includes Post office, telegraph office and Post and telegraph office.

$ Transport communication includes bus service, rail facility and navigable waterways

Table 41 reveals the distribution of villages according to different population ranges and amenities available. Villages having population above and equal to 10,000 have all the facilities. Population range between 5,000 and 9,999 covers only 27 villages, which have maximum facilities. Education and power supply facilities are available in all villages of various ranges except that in the population range 1-499 educational facilities are 96.9 per cent. Transport-communication facilities are available in all villages in the ranges having a population greater than 1999.

TABLE 42

DISTRIBUTION OF VILLAGES ACCORDING TO LAND USE, 2001

Sl. No.	Name of Taluka/ C. D. Block	Number of Inhabited Villages	Total Area (in Hectares)	Percentage of Cultivable Area to Total Area	Percentage of Irrigated Area to Total Cultivable Area
1	2	3	4	5	6
1	Khedbrahma	133	80,463.1	41.8	38.9
2	Vijaynagar	85	45,605.1	25.6	49.6
3	Vadali	57	33,887.9	74.1	56.0
4	Idar	139	76,277.3	74.0	65.3
5	Bhiloda	165	71,210.6	50.1	58.9
6	Meghraj	127	53,859.3	63.2	52.8
7	Himatnagar	132	75,659.6	68.2	71.3
8	Prantij	64	38,121.7	79.3	55.2
9	Talod	73	40,650.9	78.5	38.9
10	Modasa	104	59,091.7	66.5	45.8
11	Dhansura	72	39,105.5	81.1	32.8
12	Malpur	98	35,531.8	61.6	35.3
13	Bayad	123	59,111.4	82.8	39.5
	District Total :	**1,372**	**708,575.8**	**63.8**	**50.9**

Note : Cultivable area = irrigated area + unirrigated area

Table 42 gives the detail about talukawise distribution of villages according to land use. It also gives detail of total area and cultivable area available to the inhabited villages in the district. Cultivated area includes irrigated as well as unirrigated area. There are 1,372 inhabited villages in the district having a total area of 708,575.8 hectares. Of this 63.8 per cent is cultivable and 50.9 per cent of total cultivable area has got the irrigation facilities. Looking at the land use pattern at taluka level shows that Bhiloda taluka with maximum 165 villages have a total area of 71,210.6 hectares. In Bhiloda out of total area 50.1 per cent is cultivable having 58.9 per cent irrigated area. 133 villages of Khedbrahma taluka cover maximum area of 80,463.1 hectares. Out of this 41.8 per cent of land is cultivable having 38.9 per cent irrigated area. In Vadali all 57 villages have a total area of 33,887.9 hectares. Of this 74.1 per cent is cultivable having 56.0 per cent irrigated area. From the above table it is clear that Himmatnagar has the highest percentage of irrigated area i.e. 71.3 while only 32.8 per cent of the cultivable area in Dhansura is irrigated.

TABLE 43

PER CAPITA RECEIPT AND EXPENDITURE IN STATUTORY TOWNS

(in Rs.)

Sl. No.	Class, Name & Urban Status of the Town	Per Capita Receipt			Per Capita Expenditure					
		Total	Through Taxes	From all Other Sources	Total	General Admini-stration	Public Health and Conveniences	Public Works	Public Institutions	Other(s)
1	2	3	4	5	6	7	8	9	10	11
1	II Himatnagar (M)	78.3	50.8	27.5	70.8	24.2	2.5	15.3	1	27.8
2	III Idar (M)*	300.4	211.8	88.6	449.5	61.2	59.8	125.7	3	199.7
3	III Khedbrahma (M)	240.2	17.6	222.5	343	69.5	43.5	111.2	0.6	118.4
4	II Modasa (M)	531.5	303.5	228	509.8	89	185.8	105.6	0	129.3
5	III Prantij (M)	688.6	273.2	415.4	691	139.5	142	287.2	2.3	119.9
6	IV Talod (M)	989.9	348.5	641.4	668.8	334.5	173.9	124.4	0	36.1
	District Total :	**392**	**186.2**	**205.8**	**393.8**	**90.7**	**93.3**	**106**	**1.1**	**102.8**

* Town having outgrowths.

Table 43 shows detail of per capita receipt and expenditure in statutory towns of the district. The per capita receipt in district is Rs. 392 which is made by contribution of Rs. 186.2 through taxes and Rs. 205.8 from all other sources. The per capita expenditure in district is Rs. 393.8. This expenditure is made by spending Rs. 90.7 on General Administration, Rs. 93.3 on Public Health and conveniences, Rs. 106 on Public Works, Rs. 1.1 on Public Institution and Rs. 102.8 are spent on other items. Among towns, Talod has reported highest per capita receipt of Rs. 989.9. Prantij (M) has highest per capita expenditure of Rs. 691. These are followed by Prantij (M) with per capita receipt of Rs. 688.6 and Talod (M) having per capita expenditure of Rs. 668.8. The lowest per capita receipt of Rs. 78.3 and per capita expenditure of Rs. 70.8 are reported in Himatnagar (M).

TABLE 44

SCHOOLS / COLLEGES PER 10,000 POPULATION IN STATUTORY TOWNS, 2001

Sl. No.	Name and Urban Status of Town	Type of Educational Institution				
		Primary	Junior Secondary/ Middle #	Secondary/ Matriculation	Senior Secondary	College
1	2	3	4	5	6	7
1	Himatnagar (M)	4.6	0	1.9	1.9	0.9
2	Idar (M)*	4.0	0	1.8	1.2	0.6
3	Khedbrahma (M)	6.7	0	2.0	0.8	0.4
4	Modasa (M)	3.3	0	1.3	1.1	1.3
5	Prantij (M)	5.4	0	2.7	3.1	0.4
6	Talod (M)	6.9	0	4	1.7	1.1
	District Total	**4.7**	**0**	**2.0**	**1.6**	**0.7**

Note : * Town having outgrowths.

\# In Gujarat State, the levels of education are classified as under

(i) Primary School (From Std. I to VII passed)

(ii) Secondary/Matriculation (From Std. VIII to X passed)

(iii) Higher Secondary (From Std. XI to XII passed). Hence, details under Col.4 are not shown.

Table 44 shows the availability of schools/college per 10,000 populations in statutory towns. The data reveals that in urban areas of Sabar Kantha district the average number of primary schools per 10,000 populations is 4.7, followed by secondary/ matriculation schools at 2.0, senior secondary schools at 1.6 and the ratio of colleges is only 0.7 colleges per 10,000 populations. Among the towns, the ratio of primary and secondary/matriculation is highest in Talod (M) and the lowest in Modasa (M). Maximum Senior Secondary institutions are in Prantij (M) and least in Khedbrahma (M). As regards college Modasa has 1.3 colleges per 10,000 populations, which are the highest while the lowest number of colleges per 10,000 populations, i.e. 0.4 is found in Khedbrahma (M) and Prantij (M) both.

TABLE 45

NUMBER OF BEDS IN MEDICAL INSTITUTIONS IN TOWNS, 2001

Sl. No.	Name and Urban Status of the Town	Number of Beds in Medical Institutions per 10,000 Population
1	2	3
1	Himatnagar(M)	62
2	Idar(M)*	36
3	Khedbrahma(M)	98
4	Malpur(CT)	84
5	Meghraj(CT)	101
6	Modasa(M)	37
7	Prantij(M)	53
8	Talod(M)	47
	District Total :	**57**

Note : * Town having outgrowth.

Table 45 gives the detail about the number of beds in medical institutions per 10,000 populations in each town of Sabar Kantha district. On an average, there are 57 beds per 10,000 populations in urban areas of the district. The highest numbers of beds per 10,000 population i.e. 101 are in Meghraj (CT) followed by 98 beds in Khedbrahma(M) and the lowest numbers of 37 beds per 10,000 population is in Modasa (M) followed by 36 beds in Idar(M),

TABLE 46
PROPORTION OF SLUM POPULATION IN TOWNS, 2001

Sl. No.	Name of the Town	Total Population	Slum Population	Percentage of Slum Population to Total Population
1	2	3	4	5
1	Himatnagar	56,464	8,428	14.9
2	Idar	32,805	11,509	35.1
3	Khedbrahma	25,556	10,410	40.7
4	Modasa	54,135	4,963	9.2
5	Khedbrahma	22,282	4,200	18.8
6	Talod	17,473	6,700	38.3
	District Total :	**208,715**	**46,210**	**22.1**

Table 46 gives the detail about the proportion of slum population in towns. Khedbrahma town has about 40.7 per cent slum population in total population, which is the highest in this district, while the lowest is 9.2 per cent in Modasa.

TABLE 47
MOST IMPORTANT COMMODITY EXPORTED OUT OF AND MANUFACTURED IN TOWNS, 2001

Sl. No.	Name and Urban Status of Town	Most Important Commodity	
		Manufactured	Exported
1	2	3	4
1	Himatnagar (M)	Ceramic Crockery Cotton Seed Oil Spade,Hoe,Axe Etc.	Cement Pipe Cotton Seed Oil Iron Products
2	Idar (M)*	Granite Toys Medicines	Toys Hybrid Seeds Leather
3	Khedbrahma (M)	Cement Pipes Agriculture Implements Biscuit Confectionery	Wheat Maize Castor Seeds
4	Malpur (CT)	Wheat Maize Adad	Wheat Maize Adad
5	Meghraj (CT)	Maize Wheat Pulses (Adad)	Pulses (Adad) Maize Wheat
6	Modasa (M)	Groundnut Oil Soap Ice-Cream Packaging Materials	Food Grains Cotton Oil Seeds
7	Prantij (M)	Vegetables, Melon Paddy, Wheat Bidis	Fish Leather Bidis
8	Talod (M)	Aluminum Utensils Cumin Seeds, Fennel Seeds Oil Seed	Cumin Seeds,Fennel Seeds Aluminium Utensils Oil Seeds

Note: * Town having outgrowth.

Table 47 indicates the most important commodities manufactured and exported out of the each town in the district. The district is well known for oil seeds, cotton seeds, wheat and maize. The chief export items of the district are wheat, maize, oil seeds and leather. Maize, wheat and agricultural implements are the main items which are manufactured in Sabar Kantha and these are mainly exported to other places.

Source : Census of India 2001, H- series: "Tables on Houses, Household Amenities and Assets."

Table 48 detail the number of households by tenure status and number of rooms occupied in the district. The total number of households in the district is 400,636 having 356,023 households in rural areas and 44,613 in urban areas. Out of total households 39,561 households belong to Scheduled Castes and 73,405 belong to Scheduled Tribes. Out of these total households of the district 374,590 (93.5 per cent) households are living in their own houses. 21,493 (5.36 per cent) households are living in rented house and 4,553 (1.14 per cent) households are living in other houses. Of these households, the largest number of households i.e.176,944 have occupied single room accommodation and are followed by 172,167 households having two room accommodations. Three room accommodations are occupied by 31,740 households. More than 3 room accommodations are occupied by 14,061 households while 5,724 households are living without any exclusive room in the district. Median number of rooms is found to be same i.e. 2 in urban areas as well as in rural areas of the district.

TABLE 49

PERCENTAGE DISTRIBUTION OF HOUSEHOLDS LIVING IN PERMANENT, SEMI PERMANENT AND TEMPORARY HOUSES, 2001

Sl. No.	Name of Taluka	Total			Rural			Urban		
		Permanent	Semi permanent	Temp-orary	Permanent	Semi permanent	Temp-orary	Permanent	Semi permanent	Temp-orary

Source: Census of India 2001, H - series : "Tables on Houses, Household Amenities and Assets."

Note: Permanent : Permanent houses refers to those houses whose wall & roofs are made of pucca materials i.e., where burnt bricks, G.I. Sheets or other metal sheets, stone, cement concrete is used for wall and tiles, slate, shingle, corrugated iron, zinc or other metal sheets asbestos sheets, bricks, lime and stone and RBC/RCC concrete are used for roof.

Semi permanent: Semi-permanent houses refer to those houses made of other types of materials.

Temporary : Temporary houses refers to those houses having wall and roofs made of Kutcha materials i.e. where grass, leaves, mud, unburnt bricks, wood etc.are used for roofs. reeds, bamboo mud, unburnt bricks are used for the construction of walls and grass, leaves reeds, bamboo hatch.

Table 49 gives the detail about the percentage distribution of households living in permanent, semi-permanent and temporary houses in the district. 44.3 per cent of households of the district are living in houses made of pucca materials, residences of 44.6 per cent houses are of semi-permanent nature and houses of only 11.1 per cent households are made of temporary materials. In rural areas 39.4 per cent households are living in permanent houses followed by 48.4 per cent households living in semi-permanent houses and only 12.2 per cent households are living in temporary houses. As far as urban areas of the district are concerned, 83.3 per cent of households are living in permanent houses and 14.4 per cent of households are living in semi-permanent houses. Comparatively in urban areas houses of permanent nature are found to be more. Only 2.3 per cent of households of urban areas are living in the houses of temporary nature. Among talukas Himatnagar has recorded the highest proportion of permanent houses (61.5 per cent) while in Meghraj the highest of 72.8 per cent of semi permanent houses is recorded. As regards houses of temporary nature Khedbrahma has recorded the highest proportion at 43.4 per cent.

Source : Census of India 2001, H- series: "Tables on Houses, Household amenities and Assets."

Note : * Based on the improved drinking water source, drinking water supply has been classified as 'Improved ' or otherwise. If the household has access to drinking water supplied from a tap or a hand pump / tube well situated within or outside the premises it is considered as having access to 'Improved drinking water source'. However, the concept of improved drinking water is state specific and this is to be considered accordingly.

@ Bathroom means bathroom within the house.

$ Toilet means toilet within the house.

Drainage means closed and open drainage.

Percentages are given in brackets.

Table 50 indicates that 83.2 per cent households in the district have been provided with drinking water supplied either from a tap or a hand pump/tube-well, 75.2 per cent households have the provision of electricity in their houses. The bathroom facility is available to only 33.7 per cent households within their premises. As much as 28.9 per cent households are having bathroom facility in rural areas whereas in urban areas bathroom facility is available to 72.3 per cent of the household. As high as 73.0 per cent of rural households and 92.9 per cent of urban households have facility of electricity. Toilet and drainage facilities in the district are available to 27.8 and 18.2 per cent of households respectively. Drainage and Toilet facilities are available to more households in urban areas as compared to rural areas.

Among talukas 96.2 per cent households of Prantij taluka have facility of Improved drinking water while 63.3 per cent of households in Vijaynagar have this facility. 87.3 per cent of households in Idar and 47.7 per cent households in Khedbrahma have electricity. As regards bathroom facility 49.7 per cent households in Himatnagar and 17.6 per cent in Meghraj has such facility within the premises while 44.7 per cent households in Himatnagar and 11.3 per cent households in Meghraj have toilet facilities within their premises. Drainage facility is available to 27.9 per cent of households in Himatnagar while only 5.5 per cent households in Vijaynagar have such facility.

Note : Census of India 2001, H- series: "Tables on Houses, Household Amenities and Assets."

The Table 51gives the detail about the percentage distribution of households by type of fuel used for cooking purposes. There are nine type of fuel used for which data is presented in the table. It is observed that fire wood is the dominant fuel used for cooking and it is used by 57.9 per cent of households. Percentage variation of households using fire wood for cooking is in between 36.9 per cent in Himatnagar to 87.6 per cent in Vijaynagar. Use of fire wood for cooking is more prevalent in rural areas in comparison to urban areas. Use of Crop residue is next to fire wood as it is used by 18.2 per cent of the households in the district. Cooking Gas (LPG) is used by 47.8 per cent of the urban households while in rural areas only 5.6 per cent of the households use LPG for cooking. Thus the use of LPG in urban areas is comparatively more prevalent. As much as 10.1 per cent of households are using kerosene as a fuel in the district. Kerosene as a fuel is used by 26.9 per cent households in the urban areas while in rural areas this fuel is used by only 8.0 per cent of households.

Source: Census of India 2001, H- series: "Tables on Houses, Household Amenities and Assets."

Table 52 gives the detail about number of households availing banking services and number of households having possession of assets such as radio/ transistor, telephone, bicycle, scooter and car etc. There are 400,636 households in the district. Out of these households, 36.5 per cent households are availing banking services while 18.6 per cent have radio/transistor. Television is possessed by 24.5 per cent households. Telephone is available in 9.3 per cent households. Bicycle is available to 24.6 per cent households. Scooter/motorcycle/moped and Car/jeep/ van are used by 14.7 and 2.6 per cent of households respectively. Considering the talukas in the district, banking services and possession of assets are enjoyed by the highest households in Himatnagar and the lowest in Khedbrahma.

(viii) Major social and cultural events, natural and administrative developments and significant activities during the decade

The major administrative development in the district during the decade is the reorganisation of the district. In 1997 by several notification(s), Government of Gujarat reconstituted some districts and talukas of the State. By Government Notification No. GHM-97-114-M-PFR-1997-2587-L dated 15-10-1997. New Talod taluka was created by separating village from Prantij and Bayad talukas while new Dhansura and Vadali talukas were created by separating villages from Modasa and Idar taluka respectively.

(ix) Brief description of places of religious, historical or archaeological importance in villages and places of tourist interest in the towns of the district.

Name of Taluka:Bhiloda
Name of Village: Shamlaji
Location Code: 00385500

(Temple of Shamlaji)

Shamlaji is a famous Hindu pilgrim centre on the bank of the river Meshwo about 20 km from Bhiloda, the taluka headquarters. It is situated amidst picturesque natural surroundings on the eastern border of Gujarat in a beautiful valley shut in by well wooded hills through which place is connected by the State Transport bus routes from Ahmadabad to Udaipur. The nearest railway station is Shamlaji Road at a distance of 10 km on the Himatnagar Udaipur line of the Western Railway constructed recently. Shamlaji is chiefly a Vaishnavite place and is known in the Puranas as Gadadhar Kshetra. From the large number of fallen shrines dedicated to Lord Shiva, it is evident that at sometime Shiva worship must have been predominant. The chief temple which goes by the name of Shamalaji is dedicated to Krishna and is a beautiful piece of Hindu architecture. Shamlaji in the Bhiloda taluka is a known pilgrim centre where the ancient temple of Shamlaji, i.e. Lord Krishna is said to have been built in the 10th or 11th century and repaired over 400 years ago. It is built of white sand stone and bricks and enclosed by a wall and imposing gateway with gigantic elephants in cement adorning either side of the entrance. The temple is a good specimen of sculpture current in those days. Two large fairs are held every year on (i) *Kartik Sud 15* (November) and (ii) *Shravan Sud 8* (August). The place is visited by all communities including Muslims and Christians. Among many temples and shrines round the main building, three deserve notice. Of these one is called 'Old Shamlaji' though it does not seem as old as the ancient part of the present temple.

Name of Taluka: Khedbrahma
Name of Town: Khedbrahma
Location Code:40501000

(The idol of Brahmaji)

Khedbrahma is one of the important places of pilgrimage both for people of the district and the State. It derives sanctity from the shrine of Brahma temple of Amba Mataji. There is also the shrine of Bhrigu Rishi in Bhrigu Ashram at a little distance. Fairs are held every year in the month of *Kartik, Chaitra* and *Bhadravad* (November, April and September). Khedbrahma is the taluka headquarters situated on the right bank of the Harnav river about 25 km north of Idar. It is the terminus station on the metre gauge railway line running between Ahmadabad and Khedbrahma. It is 55 km away from Himatnagar on the State Highway to Mata Ambaji. The place is called Khedbrahma or Brahmani Khed, as Brahma is said to have first ploughed some land here. The shrine of Brahma, one of the very few that exists in India and indeed the only one in Gujarat is situated here. It is

a place of pilgrimage for the Hindus on the confluence of three rivers, viz. the Harnav, the Kosambi and the Bhimakshi near the temples of Koteshwar Pankheshwar or Pakshendranath Mahadev.

Name of Taluka: Bhiloda
Name of Village: Bhiloda
Location Code: 00377800

(The Kirti Stambh)

Bhiloda is the taluka headquarters situated on the river Hathmati about 29 km from Idar. It is connected by the State Transport bus service with Himatnagar, Idar and other important centres of the district. it has derived its name from the Bhil, a backward tribe inihabiting the areas. About 24 km on the south-east, there is an ancient temple of Shri Chandraprabhuji, 70 feet long, 45 feet broad and 30 feet high. The *Kirti Stambh* (Tower of Victory) though smaller in size and built a little later is similar in structure to the famous Kirtii Stambh of Maha Rana Kumbh at Chitor. The carving on the outside contains the images of Hindu Gods, the Digpals (Lord of Quarters) etc., and a number of incidents from the daily life of the people. In the centre of the village there is an ancient temple of Laxminarayan.

Name of Taluka: Idar
Name of Town: Idar
Location Code: 40502000

(The fort of Idar)

Idar is the taluka headquarters situated 24 km north of Himatnagar, the district headquarters, on the Ahmadabad Khedbrahma line of the Western Railway. It is on the State Highway joining Himatnagar to Mata Ambaji in the Banas Kantha district. The State Transport buses connect Idar with Ahmadabad, Mahesana, Himatnagar and other important centres. The town is picturesquely situated on the foot of Idar-gadh, a rocky hill about 800 feet high. It is a spur of the Aravali Hills. There is a fine Swaminarayan temple built by Maharaja Jawansinhji. At the foot of the Fort is a rock cave temple of Khokhanath Mahadev, thirty feet long by twenty feet broad, believed to be nearly 500 years old. Among the places of interest in Idar, an important one is the Rajchandra Vihar built a few years ago on a hill, at a distance of about 3 km from the town. Shrimad Rajchandra (Raichandbhai), whom Mahatma Gandhiji had accepted as his Guru, had performed penance (tap) here in the Samvat year 1955 (1899 A.D.). The Vihar having a portrait of Shrimad Rajchandra is open to all devotees without any distinction of caste or creed. The beautiful temple of Swaminarayan in the town is a centre of attraction for visitors and devotees. The Rani Talav outside the town and on the way to Vadali is also worth seeing.

Name of Taluka : Vijaynagar
Name of Village : Abhapur
Location Code : 00348700

(Temple of Sarneshwar Mahadev)

Abhapur is a small village situated among picturesque hilly surroundings on the river Harnav about 13 km away from Vijaynagar, the taluka headquarters. The temple of Sarneshwar Mahadev constructed in the year 1100 A.D. is situated on the outskirts of the village. It was devastated in the year 1240 A.D. by Alafkhan, the brother of Allaudin Khilji at the time of his invasion of Patan. Near this temple, a large dharmashala has been built in 1969-70 by the

district Panchayat. The stone wall which formerly enclosed the temple is now completely dilapidated. The outer court of the temple or the sabhamandap is also totally destroyed. Except the plinth and some pillars nothing remains of the outer court. A Sun temple said to have been constructed in the 15th century is also situated nearby. Close to this temple there is another one dedicated to Lord Shiv. Both the temples are protected monuments looked after by the Archaeological Department.

Name of Taluka : Bhiloda
Name of Village : Devni Mori
Location Code : 00388500

(Image of Buddha from the Stupa)

Devni Mori was a village at a distance of less than 2 km, from Shamalaji and 20 km, from Bhiloda, the taluka headquarters. The valley had a number of mounds having archaeological remains on the left bank of the river Meshwo. Of these a mound known as ' *Bhoj-Rajano Tekro*' was the most prominent. The excavations carried out here during this period lend further evidence of the past glory of this ancient place. The remains of a Stupa and a Vihara have been unearthed. The Stupa is 85 feet both in height and in circumference. The most significant feature of the Stupa is the excellent carving in terracotta and the high degree of technological skill evinced in the manufacture of large-sized idols in meditative postures. The sculpture on these idols reflect the influence of the Gandhar art of which the Kshatrapa kings were votaries. Found in the inscribed caskets were small bottles, some ancient silver coins, gold leaves, materials of worship (like barely, etc.), and some bodily remnants of Lord Buddha.

(x) Major characteristics of the district, contribution of the district in the form of any historical figure associated with the district.

The district is famous for its groundnut and cotton cash crops. Crops such as bajri, maize, paddy and wheat are also grown in this district. Various types of minerals are available in the district. Among them bauxite, china clay silica, sand, soap stone are very important minerals. Important industries in the district are cotton textiles, food products and non metallic mineral products which are important from the viewpoint of their employment potential. More than 17.2 per cent of total geographical area of the district is under forest. The chief forest products are *bamboos, mahuda* flowers, *doli, timru leaves, wood bark, rayan fruits, sitafal, kadaya* and other *gums.*

The tribes of Sabar Kantha differ from the other tribal communities of the state in many ways. Most of these tribes live in the mountains of Aravalli. The tribes in the district are very much fond of different colours in their dresses. Previously, they used to wear very few clothes. Now the males wear shirts, a dhoti and a turban like cloth on the head which is normally of red colour. A belt, sword, a knife and a bow-arrow are their weapons. The women put on petticoat, a blouse and a short saree called the "odhanu". The largeness of petticoat is the symbol of prosperity. They love all sorts of ornaments.The tribes of this area are very much fond of festivals. They organize fairs and festivals and satisfy their urge for social contacts and interaction among themselves.

The *Kartik Purnima* fair at Shamlaji lasts for about three weeks. It commences on *Devuthi Agiarash-Kartika Sud 11.* It was previously one of the biggest fair of Gujarat. The enthusiastic visitors come from all over Sabar Kantha and other areas of the state. Devotees of Shamlaji from other states also visit the fair. Besides Hindus, Adivasis attend this fair in large numbers. They are mostly Bhils who have deep faith in Shamlaji and who call him 'Kalio Bavji' (Dark Divinity). Shamlaji is the most important deity for Bhils of this region. Muslims and Christians also attend the fair for the purpose of trade or for purchases. The 'Purnima' is the most important day of the fair. The congregation is highest on '*Sud 14, Purnima* and *Vad 1,* specially important on the occasion is a bath in the river Meshvo, especially in the pool Nagdharo near 'Vighram Ghat' and the Darshan of Shamlaji the presiding deity of the place.The fair lasts for three weeks. So, the visitors attend it according to their convenience. Some come on foot, some on camels. Adivasis generally come in groups from their villages.

Pannalal Patel (1912-89)

Educated only up to 8th standard, Pannalal Patel had to struggle in mills and factories for his survival in absence of a virtual guardian. He worked in

agricultural field and then started selling cloth and bangles. He had to work as a household servant too. None could have imagined that such a boy would some day turn out to be a great literary figure of Gujarat. Pannalal was fortunate enough to meet Umashanker Joshi; his childhood accomplice. He started writing on the encouragement from Umashanker and Sundram. The creative genius in Pannalal come out with a bang. He gave some of the best novels like *'Malela Jiv' 'Manvini Bhavai' 'Valamala'* and *'Na Chhutake'*. He also wrote one act plays and number of short stories. He turned to mythological novels during later years of his life. He was awarded Ranjitram Gold Medal in 1950 and was honored by Bharatiya Gyan Pith Award in 1986.

He lost his hearing ability in an illness during 1947. He had deep faith in Shri Aurobindo and Mataji. His creative works have been published by his own publishing house Sadhna Prakashan. Pannalal will always be remembered for his novels depicting struggle, conflict and woes of human life.

Umashanker Joshi (1911)

Umashanker Joshi has undoubtedly represented Gujarat on the national and international scene. The pioneering poet of Gandhian era, Umashanker was born in Lusadia near Shamalaji. He had an opportunity to come across the atmosphere of Gujarat Vidyapith and came in contact with Kaka Saheb Kalelkar during his studies. *'Nakhi Sarovar Par Sharad Purnima'* was his first poem and 'Viswashanti' was his first collection of poems. His creative activity was largely under the influence of national and international events. His vision has never neglected the present and the future.

Almost all his poems have been included in a collection named 'Samagra Kavita'. He has also given plays like *'Saapno Bharo'*, short story collections like *'Shravni Melo'* and *'Visamo'*, essays like, *'Ughadi Bari'*, research works like *'Akho, Ek Adhyayan* and *'Parka Janya'* novel. He has also translated *'Shakuntal'* and *'Uttar Ramcharit'*.

He edited widely regarded magazine 'Sanskriti' for 37 long years. He was also the vice-chancellor of Gujarat University, a nominated member of Rajya Sabha,President of National Sahitya Academy and Vice Chancellor of Shanti Niketan University. He was honored by Bharatiya Gyanpith Award in 1968.

(xi) Scope of Village Directory and Town Directory :

As mentioned earlier, the District Census Handbook is brought out in two parts-Part A and Part B.Part A covers the non-census data of village directory and town directory whereas part B covers the primary census abstract data of 2001 Census. The scope of village directory and town directory is discussed below.

Scope of Village Directory

For the census work, the villages in the district have been arranged taluka wise and within the taluka they are shown location code wise. Each village is assigned a location code number for the purpose of identification. In 2001 Census, all the villages have been given unique 8-digit code number, which will remain constant across the census, and shall make it easy to do comparative study. Eight digit code's last two digits are especially provided to take into account exigencies arising due to jurisdictional changes of villages by partition, amalgamation etc. This time it has been kept '00'. Prior to the village directory information, a map and alphabetical list of villages for each taluka is given in Part A. Village directory contains the non-census data of each village. It gives the village wise basic information relating to infrastructure and amenities available in the sphere of education, medical, drinking water, power supply, post and telegraph, communications, approach road to village and distribution of land use area. In addition, it contains information about total area of each village, total population and number of households and the nearest town and its distance from the village. The information on number of households and total population has been included with a view to examine the co-relation of amenities with the number of households and population they serve. If an amenity is not in existence in the referent village, the distance in broad ranges from the nearest place along with name, where the amenity is available is given. The broad range are (-5 km), (5-10 km.) and (10+ km.). Some additional information has been added viz.(1) Number of Banks, (2) Credit Societies, (3) recreational and cultural facilities, (4) Receipt of Newspaper / Magazine, (5) Income & Expenditure of the village and (6) Name of the three most important commodities imported, manufactured/

produced & exported. This time information regarding Market & Hat facility has been deleted.

The village directory also carries the following appendices.

Appendix-I	It gives the taluka wise abstract of educational, medical and other amenities available in the villages of the district.
Appendix-I-A	Indicates number of villages Taluka wise having one or more primary schools.
Appendix-I-B	Indicates number of villages Taluka wise having primary, middle and secondary schools.
Appendix-I-C	Shows number of villages Taluka wise with different sources of drinking water facilities.
Appendix-II	Indicates the list of villages with 5,000 and above population which do not have one or more important amenities.
Appendix-II-A	Indicates list of Census Towns which do not have one or more amenities.
Appendix-III	It gives the land utilization data in respect of Census Towns/non-municipal Towns.
Appendix-IV	Taluka wise list of inhabited villages where no amenity other than drinking water facility is available.
Appendix-V	Summary showing number of villages not having Scheduled Castes population.
Appendix-VI	Summary showing number of villages not having Scheduled Tribes population.
Appendix-VII A, VII B	The appendix shows the list of villages according to proportion of the Scheduled castes and Scheduled Tribes to the total population by ranges.
Appendix-VIII	Indicates Taluka wise number of villages under each Gram Panchayat.
Appendix-IX	Shows number of different types of girls school in a village.

Scope of Town Directory

Town Directory covers the non-census data for each town. It presents important and useful information like civic and other amenities available in all the towns of the district. The information in town directory is covered in following seven statements, viz. statements I to VII.

Statement-I	Town wise class, name, civic administrative status of the town, its area, growth rates, density and sex ratio.
Statement-II	Physical aspects of each town.
Statement-III	Income and expenditure of each town.
Statement-IV	Civic and other amenities in respect of each town.
Statement-V	Availability of medical, educational, recreational and cultural facilities in each town.
Statement-VI	Trade, commerce, industry and banking activities in each town.
Statement-VII	Civic and other amenities in slum areas of each town.

In all the Statement except VII the towns are arranged in the alphabetical order within the district. The details of these statements are given in the analytical portion of the town directory. In addition to the above statements, an appendix showing the towns with their outgrowths with population, is also given after the town directory statements.

PART – A

VILLAGE AND TOWN DIRECTORY

SECTION - I VILLAGE DIRECTORY

Village Directory

(a) NOTE EXPLAINING THE ABBREVIATIONS USED IN THE VILLAGE DIRECTORY

The "Village Directory" is one of the traditional compilations of the Census. It gives the list of villages, their location numbers, their area, population, number of households, amenities such as educational, medical, drinking water, post and telegraph, commercial and co-operative banks, agricultural non-agricultural and other credit societies, recreational and cultural facilities, communication, approach to village, nearest town with a distance, power supply availability of newspaper and magazines, most important commodity manufactured and land use of each village.

Village is a statutory recognized unit having a definite boundary and separate land records. In case, a complete village is treated as an outgrowth of urban agglomeration, data on amenities for that village have not been given in the Village Directory but shown along with the urban component. The villages, which are, consider as a Census Town, the amenities data are shown in the Town Directory. For those villages, which have partly merged in an outgrowth of U.A., the amenities data are shown in the Village Directory for that particular village.

The 'uninhabited' villages (villages with no population) have been indicated as such after furnishing details in columns 1 to 3 i.e., Serial number, Name of village & location code number and area of the village against column no. 4 to 18. The land use data for such villages are shown in col. 19 to 23

The Village Directory format has 23 columns and the details given under each column are for the villages are as follows:-

Column 1: Serial Number

Self-explanatory. All the villages within the Taluka/CD Block are presented serially in the ascending order of their location code number.

Column 2 : Name and Location Code Number of village.

The name and location code number of the village are shown against these columns. This also includes the forest and uninhabited villages.

Column 3 : Area of the village

The area of the villages in hectares are given. Wherever the area figures was not furnished by the concerned department the column is left blank.

Column 4 : Total population

The total population of the village as per 2001 Census is given against this column.

Column 5: Number of households

The number of households as per 2001 Census is given in this column.

Amenities:

In column 6 to 23, availability in respect of different amenities such as education, medical, drinking water, post, telegraph, banks, credit societies, communication, power, approach road etc. in each village has been depicted with appropriate codes against the column concerned. Wherever the amenities are not available in the village, a dash (-) is shown in the column and next to it in brackets the distance in broad ranges viz.< 5 kms., 5-10 kms. and 10+ kms of the nearest place where the facility is available is given. Column wise details are given below :

Column 6: Educational

Classes upto class VII included in Primary School. This will include nursery school, kindergarten school. Pre-basic school, pre-primary school, junior basic school upto class VII.

Classes from VIII to X included in higher secondary school. Classes XI and XII are included in senior secondary school.

Accordingly any of the following types of institutions if exists within the village is shown as per codes given below:

(i)	Primary School	P
(ii)	Middle School	M*
(iii)	Higher Secondary School	S
(iv)	Senior Secondary School	PUC
(v)	College	C

(vi)	Industrial School	I
(vii)	Training School	Tr
(viii)	Adult literacy class/centre	AC
(ix)	Others (specify) e.g. Sanskrit Pathshala, Senior basic school, Navodaya Vidyalaya, Makhtab, etc.	O

More than one institution of a type in the village is indicated by the number within brackets against the abbreviation, e.g. P(3), M(4), etc.

Note :*-There is no Middle school in the Gujarat State.

Column 7 : Medical

Availability of medical facility within the village is indicated by following codes :

(i)	Allopathi Hospital	H
	Ayurvedic Hospital	HA
	Unani Hospital	HU
	Homeopathic Hospital	H Hom
(ii)	Allopathic Dispensary	D
	Ayurvedic Dispensary	DA
	Unani Dispensary	DU
	Homeopathic Dispensary	D Hom
(iii)	Maternity & Child Welfare	MCW
(iv)	Maternity Home	MH
(v)	Child Welfare Centre	CWC
(vi)	Health Centre	HC
(vii)	Primary Health Centre	PHC
(viii)	Primary Health Sub-Centre	PHS
(ix)	Family Welfare Centre	FWC
(x)	T.B. Clinic	TB
(xi)	Nursing Home	NH
(xii)	Registered Private Medical Practitioner	RMP
(xiii)	Subsidised Medical Practitioner	SMP
(xiv)	Community Health Worker	CHW
(xv)	Others	O

More than one institution of a type in the village is indicated by the number within brackets against the abbreviations, e.g. H(3), D(4), etc.

Column 8 : Drinking Water

The type of the drinking water supply sources available within the village are indicated by codes as follows :

(i)	Tap Water	T
(ii)	Well Water	W
(iii)	Tank Water	TK
(iv)	Tubewell Water	TW
(v)	Handpump	HP
(vi)	River Water	R
(vii)	Canal	C
(viii)	Lake	L
(ix)	Spring	S
(x)	Others	O

Column 9 : Post, Telegraph and Telephone

It is indicated by codes as shown below whether within the village exists the following amenities:

(i)	Post Office	PO
(ii)	Telegraph Office	TO
(iii)	Post & Telegraph Office	PTO
(iv)	Telephone Connection	PH

Column 10: Commercial and Co-operative Banks

If the village is served by any banking service, commercial bank, o-operative bank etc. the same is indicated in codes mentioned below along with the number of banks in brackets. If not available the distance of nearest place where the facility exist is given:

(i)	Commercial Bank	CM
(ii)	Co-operative Bank	CP

Column 11: Credit Societies

If the village enjoys the services of Credit Societies i.e. Agricultural Credit Societies, Non Agricultural Credit Society or Other Credit Societies, the same is indicated in codes mentioned below along with the number of such societies in brackets. In case the facility is not available within the village the distance of the nearest place where such facility exist is given :

(i)	Agricultural Credit Society	ACS
(ii)	Non- Agricultural Credit Society	NCS
(iii)	Other Credit Society	OCS

Column 12 : Recreational and cultural facilities

If facilities such as Cinema/Video hall, Sports Club, Stadium/Auditorium is available in the village. The same is recorded in these columns. If not available the particulars of the nearest place with the facility is recorded. The information is indicated in codes mentioned below along with the number of such facilities in brackets:

(i)	Cinema / Video Hall	CV
(ii)	Sports Club	SP
(iii)	Stadium / Auditorium	ST

Column 13 : Communications

If the village is served by any mode of public / private transport like Bus, Railway station or Navigable water ways they are to be mentioned as follows:

(i)	Bus	BS
(ii)	Railway Station	RS
(iii)	Navigable Waterway	NW

Column 14 : Approach to village

Approach to village refers to the state of road leading to village. The approach to the village is indicated in following codes :

(i)	Paved Road	PR
(ii)	Mud Road	MR
(iii)	Foot Path	FP
(iv)	Navigable River	NR
(v)	Navigable Canal	NC
(vi)	Navigable Waterways other than River, Canal	NW

Column 15 : Nearest Town and distance

The distance is given in kilometers in brackets against the name of the town nearest to the village.

Column 16 : Power supply

Availability of Power Supply in the village, whatever may be the form of its use is given by using following codes :

(i)	Electricity for domestic use	ED
(ii)	Electricity for agricultural use	EAG
(iii)	Electricity for other purposes	EO
(iv)	Electricity for all purposes	EA

Column 17 : News Paper / Magazine

If village receives any News Paper/Magazines the same is noted in this column using following codes:

(i)	News Paper	N
(ii)	Magazine	M

Column 18 : Most important commodities manufactured

The name of three most important commodities manufactured in the village is recorded against this column.

Column 19 to 23 : Land use i.e. area under different types of land use

Land use data maintained by the State/ UT Govts. are furnished against these columns. The data concerning area under Forest, Irrigated land (by source), Un-irrigated land, Cultivable waste and Area not available for cultivation in the village are shown against these columns. The area figures are given in hectare(s) up to one decimal. Desh '-' is recorded wherever the information is not made available by the concerned department. The codes used for different types of irrigation facilities available in the village are indicated below:

(i)	Government Canal	GC
(ii)	Private Canal	PC
(iii)	Well (without electricity)	W
(iv)	Well (with electricity)	WE
(v)	Tubewell(without electricity)	TW
(vi)	Tubewell(with electricity)	TWE
(vii)	Tank	TK
(viii)	River	R
(ix)	Lake	L
(x)	Waterfall	WF
(xi)	Others	O
(xii)	Total	T

The village directory also carries the following appendices.

Appendix-I It gives the abstract of educational, medical and other amenities available in villages Taluka/C.D. Block wise of the district.

Appendix-I-A Indicates number of villages Taluka/ C.D. Block wise having one or more primary schools.

Appendix-I-B Indicates number of villages Taluka/ C.D. Block wise having primary, middle and secondary schools.

Appendix-I-C Shows number of villages Taluka/ C.D. Block wise with different sources of drinking water facilities.

Appendix-II Indicates the list of villages with 5,000 and above population which do not have one or more important amenities available

Appendix-II-A Indicates list of Census Towns which do not have one or more amenities.

Appendix-III It gives the land utilization data in respect of Census Towns / non-municipal Towns.

Appendix-IV Taluka/C.D. Block wise list of inhabited villages where no amenity other than drinking water facility is available.

Appendix-V Summary showing number of villages not having Scheduled Castes population.

Appendix-VI Summary showing number of villages not having Scheduled Tribes population.

Appendix-VII-A, VII-B The appendix shows the list of villages according to proportion of the Scheduled castes and Scheduled Tribes to the total population by ranges.

Appendix-VIII Indicates Taluka/C.D. Block wise number of villages under each Gram Panchayat.

Appendix-IX Shows number of different types of girls school in a village.

(b) List of Villages Merged in Towns and Outgrowths at 2001 Census :

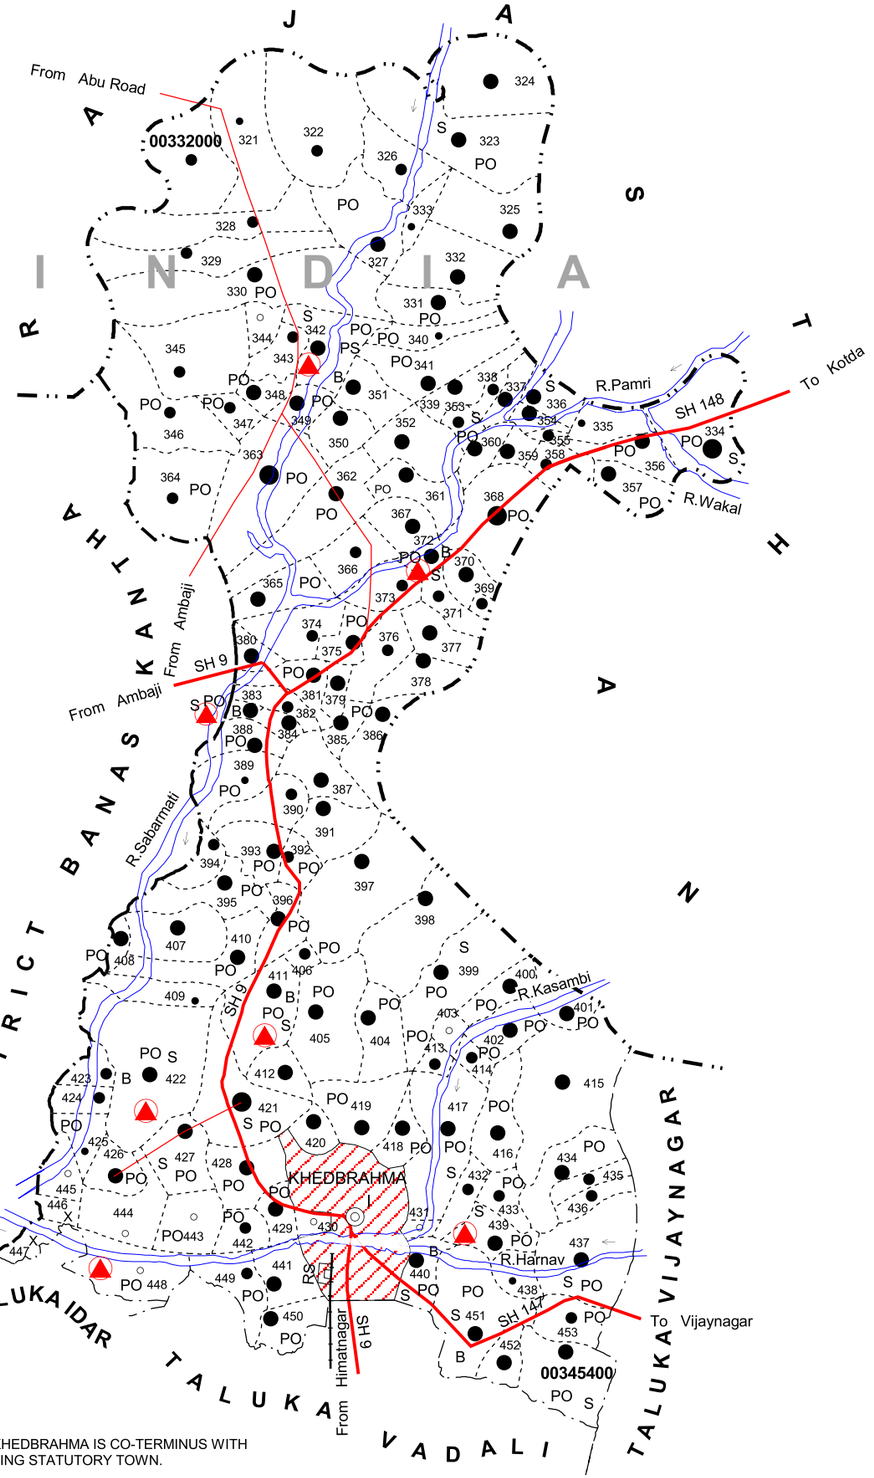

Sl. No.	Name of Taluka	Name of Village	Location Code Number	Merged in which Town or UA
1	2	3	4	5
1	Idar	Javanpura	50100102	Idar UA

Note : * In Gujarat State, the levels of education are classified as under
(i) Primary School (from Std. I to VII passed)
(ii) Secondary/Matriculation (From Std. VIII to X passed)
(iii) Higher Secondary (From Std. XI to XII passed). Hence details under column 6 is not shown.

SECTION – II – TOWN DIRECTORY

Town Directory

(a) NOTE EXPLAINING THE ABBREVIATIONS USED IN THE TOWN DIRECTORY

Town Directory statements (I to VII)

Statement I : Status and Growth History

Column 2 : Class, name and civic administration status of town :

Class has been introduced to facilitate analysis of town directory data at the state and all India levels. It is presented according to 2001 Census Population of the town as follows :

Population	Class
100,000 and above	I
50,000 - 99,999	II
20,000 - 49,999	III
10,000 - 19,999	IV
5,000 - 9,999	V
Below 5,000	VI

Town with a population of one lakh (1,00,000) and above is treated as a city.

The civic administration status of the towns is indicated within bracket against the name of the town. The following abbreviations are used to denote civic status of town.

(I)	Municipal Corporation	M. Corp.
(II)	Municipal Committee	MC
(III)	Municipal Council	M Cl
(IV)	City Municipal Council	CMC
(V)	Town Municipal Council	TMC
(VI)	Municipal Board	MB
(VII)	Municipality	M
(VIII)	Cantonment Board/Cantonment	CB
(IX)	Notified Area	NA
(X)	Notified Town	NT
(XI)	Notified Area Committee/ Notified Area Council	NAC
(XII)	Notified Town Area	NTA
(XIII)	Industrial Notified Area	INA
(XIV)	Industrial Township	ITS
(XV)	Township	TS
(XVI)	Town Panchayat	TP
(XVII)	Nagar Panchayat	NP
(XVIII)	Town Committee/Town Area Committee	TC
(XIX)	Small Town Committee	ST
(XX)	Estate office	EO
(XXI)	Gram Panchayat	GP
(XXII)	Census Town	CT

Others columns need no comments.

Statement II - Physical Aspects and Location of towns, 1999.

Column 3 to 5 : Physical Aspects

In this columns the Rainfall and Maximum & Minimum Temperature of the town is recorded.

Column 6, 7 and 8:

Name of the State headquarters, District headquarters and Sub-Divisional headquarters with distance from the referent town in kilometers, is to be recorded respectively. If the names mentioned in these columns are the same as the referent town itself, the distance is recorded as (0) zero.

Column 9 and 10 :

Name of the nearest city with one lakh and more and five lakhs and more population are recorded.

Column 11, 12 and 13 :

If referent town enjoys the facility of railway station, bus route facility or navigable river/canal. Its name is to be mentioned. If not available, then the name of nearest place with distance, where such facility exists is to be mentioned.

Statement III : Municipal Finance 1998 – 1999

Item-wise amount of receipt and expenditure in thousand rupees, relating to municipal finance of the town for the year 1998-99 is to be recorded.

Statement IV : Civic and Other amenities, 1999

Column 1 to 5 : Self explanatory.

Column 6 : Road length (in kms.)

Information about kutcha / pucca road is to be recorded separately for the roads within the limits of the referent town.

(i)	Pucca Road	PR
(ii)	Kutcha Road	KR

Column 7 : System of Sewerage

Generally, by sewerage system is implied the network of mains and branches of underground conduits for the conveyance of sewerage to the point of disposal. Sewers that carry only household and industrial wastes are called separate sewers, those that carry storm water from roofs, streets and other surface are known as storm water drains, while those carrying both sewage and storm water are called combined sewers.

The codes used for different types of drainage system are as follows :

(i)	Sewer	S
(ii)	Open Surface Drains	OSD
(iii)	Box Surface Drains	BSD
(iv)	Sylk Drains	SD
(v)	Cesspool method	CP
(vi)	Pit System	Pt
(vii)	Others	O

Column 8 to 11 : Number of latrines

Number of various types of latrines both Public and Private are given in these columns.

Column 12 : Method of disposal of night soil

The various prevalent method of disposal of night soil are given below with codes :

Head Loads	HL
Basket	B
Wheel Barrows	WB
Septic Tank	ST
Pit System	Pt
Sewerage	S
Others	O

Column 13 and 14 : Water supply

Source and capacity of storage system. The following codes are used in these columns:

Column 13:

(i)	Tap water	T
(ii)	Tube-well water	TW
(iii)	Tank Water	TK
(iv)	Well water	W

Column 14:

(v)	Over Head Tank	OHT
(vi)	Service Reservoir	SR
(vii)	River Infiltration Gallery	RIG
(viii)	Bore Well Pumping System	BWP
(ix)	Pressure Tank	PT

The information on major source of water supply are given in column 13 and the storage capacity against each in kilo-litres (in bracket) are presented in column 14.

Column 15 : Fire Fighting Service

In case the fire fighting service is available in the referent town 'yes' is recorded. If the facility is not available within the town. The name of the nearest place having this facility with its distance from the referent town has been recorded.

Column 16 to 20 : Electrification (Number of connections)

Different types of electric connections have been shown in these columns, i.e. Domestic, Industrial, Commercial, Road lighting (points) & others.

Statement V : Medical, Educational, Recreational and Cultural Facilities, 1999

Column 1 to 3 : Self explanatory.

Column 4 and 5 :

The data covers all such medical institutions run by or aided by Government/Semi Government/Local bodies and Charitable institutions or Social agencies

like the Missionaries. Where the family planning centres are attached to hospitals or maternity and child welfare centres or Primary Health Centres, may be treated as independent units and counted separately using following codes :

(i)	Hospital	H
(ii)	Dispensary	D
(iii)	Health Centre	HC
(iv)	Family Welfare Centre	FWC
(v)	T.B. Clinic	TB
(vi)	Nursing Home	NH
(vii)	Others	O

In case of more than one institutions of any type, it is indicated within brackets the number of such institution (s) e.g. D(3), NH(8), etc. The institutions have further been distinguished by providing additional codes within the bracket as given below :

Ayurvedic	A
Unani	U
Homoeopathic	Hom

Column 6 to 9 :

The codes used for these columns are as follows :

(i)	Arts only	A
(ii)	Science only	S
(iii)	Commerce only	C
(iv)	Arts & Science only	AS
(v)	Arts & Commerce only	AC
(vi)	Combined for all categories-Arts, Science and Commerce	ASC
(vii)	Law	L
(viii)	University	U
(ix)	Others	O

Column 10 : Recognized shorthand, typewriting and vocational training institutes

"Recognised" should mean recognised by some statutory authority, like education department, commerce department, labour department etc. of the government or semi government or autonomous bodies, public sector undertakings etc.

The following codes are used :

(i)	Vocational Training Institute	VT
(ii)	Shorthand	SH
(iii)	Typewriting	Type
(iv)	Shorthand & Typewriting	SH Type
(v)	Others	O

The vocational institutions like - Applied Art/ Painting college, Pharmacy college, B. Ed. College, Teacher's Training Institute, Music / Dance School, Nursing School etc. are covered under 'Others'.

Column 11 to 14 :

Classes upto class VII included in Primary School. This will include nursery school, kindergarten school. Pre-basic school, pre-primary school, junior basic school upto class VII.

Classes from VIII to X included in Higher secondary school. Classes XI and XII are included in senior secondary school.

Accordingly any of the following types of institutions if exists within the village is shown as per codes given below :

(i)	Primary School	P
(ii)	Middle School	M*
(iii)	Higher Secondary School	S
(iv)	Senior Secondary School	PUC
(v)	College	C
(vi)	Industrial School	I
(vii)	Training School	Tr
(viii)	Adult literacy class/centre	AC
(ix)	Others (specify)e.g. Sanskrit Pathshala,Senior basic school,Navodaya Vidyalaya, Makhtab,etc.	O

More than one institution of a type in the village is indicated by the number within brackets against the abbreviation, e.g. P(3), M(4), etc.

Note: *There is no Middle school in the Gujarat State.

Column 15 : Adult literacy class/centres

This column has been introduced keeping in view the Minimum Needs Programme of the Planning Commission. There are number of Adult Education Centres which are included in these columns.

If an educational facility is not available in the town, the name of the nearest place and its distance in kilometres from the town where the facility is available is mentioned.

Column 16 : Working Women's hostels with number of seats

The number of working women's hostel if available in the referent town is mentioned with number of seats. If the facility is not available in the town the name of nearest place with distance where the facility is available is recorded.

Column 17 to 19 : Recreational and Cultural Facilities

Stadium, Cinema, Auditorium/Drama/ Community Hall are covered under recreational & cultural facilities. The particulars of permanent recreational facilities are considered for these columns.

Column 20 : Public Libraries, Reading Rooms

Number of public libraries and reading rooms available in the referent town are recorded in codes as follows :

(i) Public Library	PL
(ii) Reading room	RR

Statement VI : Trade, Commerce, Industry and Banking, 1999

Column 3 to 8 : Name of three most important commodities exported and names of three most important commodities manufactured in the town are recorded.

Column 9 : Number of Banks

Number of Banks available in the referent town both Commercial and Co-operative banks are recorded against this column.

Column 10 and 11 : **Number of Agricultural Credit Societies and Non Agricultural Credit Societies**

The total number of Agricultural Credit Societies and Non Agricultural Credit Societies in the referent town are recorded against these columns.

Statement VII : Civic and other Amenities in Slums, 1999

This is the statement on civic and other amenities in all slums whether notified or not and for all towns having statutory bodies, like municipality, Municipal Corporation, Town area committee etc.

PART-B

PRIMARY CENSUS ABSTRACT

Primary Census Abstract

Brief note on Primary Census Abstract :

The first census of the third millennium and twenty first century the Census of India, 2001 was the 14th continuous and uninterrupted Indian census since 1872. Thus, 2001 Census will provide data on population and its characteristics marking transition from one century and millennium to another.

The gigantic operation of Population Enumeration (considered by many to be the single largest and complex peace time administrative exercise in the world) was made possible due to the door to door universal canvassing of the Household Schedule by about 2 million enumerators and supervisors covering 593 districts, 5,463 sub-district, 5,161 towns and 638,588 villages. The comprehensive Household Schedule which replaced the individual slip had three parts and two sides A and B. Part I contained the Location Particulars; Part II related to the Individual Particulars and Part III contained questions for Household engaged in cultivation/Plantation. The part II of the Household Schedule had 39 columns and 23 questions all of which were universally canvassed and no sampling was resorted to during enumeration.

Data Processing

A quantum leap was made in the technology front while processing the Census 2001 data both for Houselisting and Population Enumeration. The Census schedules for both the phases were scanned through high speed scanners in fifteen data centers across the country and hand-written data from the schedules were converted into digitized form through Intelligent Character Reading (ICR) software for creation of ASCII records for further processing. The designing and formatting of the Household Schedule had to be done very carefully using specialized software so as to ensure uniformity, which was an essential pre-requisite for scanning. The selection of appropriate state-of-art technology in data processing has made it possible to produce all the Houselisting as well as Population Enumeration tables on full count basis for the first time in the history of Census. For Census 2001, about 202 million schedules consisting of about 1,028 million records were scanned and processed within a span of only 10 months starting October, 2002.

Task Force on Quality Assurance

After the data is processed, it is expedient on the part of the data producing agency to satisfy itself about its quality before putting the same in public domain. This has to be done mainly through the process of internal consistency, comparison with similar data in the past and also through validation with likewise data if available, from external sources. Quite often the local knowledge and perception has to be brought into play to understand both the existing and the new emerging trends of population distribution and characteristics. The other very important aspect of the data quality is to ensure complete coverage of all geographical areas especially for the population enumeration phase where the data is disseminated right up to the village level in the rural areas and the ward level in the urban areas. Thus ensuring the complete coverage and correct geographical linkage of each enumeration block was one of the major planks of the quality control, specially for small area population statistics.

A very comprehensive check and edit mechanism was put in place to objectively examine the preliminary Census 2001 Population Enumeration results and finally clear them for use. The responsibility of the final clearance of data was with the Task Force on Quality Assurance (TFQA), headed by the Registrar General and Census Commissioner, India. The other members of the TFQA were the Heads and senior officers of the Census Division, Data Processing Division, Map Division, Demography Division and Social Studies Division. The Directors of Census Operations were co-opted as members whenever the TFQA discussed the data for their States/Union territories. The Directors and their senior officers were required to make detailed presentations of data for their own state both in respect to the quality and the coverage and only after the full possible cleared.

There has been a major departure in Census 2001 from the past in respect of the procedure followed for finalization of the Scheduled Castes and the

Scheduled Tribes population. In the earlier censuses, the total Scheduled Castes and Scheduled Tribes populations were finalized at the time of the manual compilation of the Primary Census Abstracts (PCA) at the Regional Tabulation Offices which were specially set up for this purpose. The individual Scheduled Castes and the Scheduled Tribes population for each state was finalized much later based on manual coding done by the coders. In 2001 Census, each individual Scheduled Caste and the Scheduled Tribe have been coded directly on the computers by the Data Entry Operators through a process known as Computer Assisted Coding (CAC) and taken up along with the processing of PCA data. The CAC process involves pulling down, from the relevant dictionary of the Scheduled Castes and the Scheduled Tribes, on the computer screen and coding from the dictionary by referring to the image of the specific individual entry in the Household Schedule appearing on the screen. The CAC of the response on Religion wherever required, was also undertaken along with the processing of PCA. This is because the Scheduled Castes status had to be determined in relation to the religion of the individual. Two Special Task Forces, one on Religion and the other on Scheduled Castes/Scheduled Tribes were constituted for scrutiny and appropriate classification of these responses.

The main task of the Special Task Force on Religion was to appropriately merge or group the new responses encountered and code it into the appropriate religious community based on available literature and local knowledge. The Special Task Force on Scheduled Castes and Scheduled Tribes examined the different Scheduled Castes and Scheduled Tribes entries encoun-tered and classified these into appropriate category of the Scheduled Castes or the Scheduled Tribes principally based on the Presidential Notification and the available literature. Thus a very systematic and scientific mechanism was operationalised to firm up the individual religion and the individual Scheduled Castes/Tribes returns. The Scheduled Castes and the Scheduled Tribes population in 2001 Census, is thus being finalized by aggregating the population data for individual Scheduled Castes and the Scheduled Tribes at appropriate geographical levels.

The entire work relating to the data validation and scrutiny was completed by all the States/Union Territories under the overall supervision and monitoring of the Census Division of the Office of the Registrar General, India with active cooperation and support of the Social Studies Division, Data Processing Division, Data Dissemination Division and Map Division.

Primary Census Abstract

The Primary Census Abstract which is yet another important publication of 2001 Census gives basic information on Area, Total Household, Total population, Scheduled Castes, Scheduled Tribes population, Population in the age group 0-6, Literates, Main workers and Marginal workers classified by the four broad industrial categories, namely (i) Cultivators, (ii) Agricultural labourers (iii) Household Industry Workers and (iv) Other workers and also Non-workers. The characteristics of the Total population includes Scheduled Castes, Scheduled Tribes, Institutional and Houseless population and are presented by sex and rural-urban residence. This data is presented at different levels, namely India, State/ Union Territories, Districts and Cities, Urban Agglomerations (Population 100,000 and above) in three different tables. In addition, the Appendix of said publication provides Houseless and Institutional Households and their population by residence and sex for 2001 for India, State and Union territory.

Apart from the India and State/Union Territory volumes for Primary Census Abstract, the District Census Handbook contains District Primary Census Abstract, Appendix to District Primary Census Abstract, Primary Census Abstract for Scheduled Castes, Primary Census Abstract for Scheduled Tribes, Village Primary Census Abstract and Urban Primary Census Abstract of the concerned district in the state.

It was for the first time at the 1981 Census that the Primary Census Abstract (PCA) was brought out for the Scheduled Castes and the Scheduled Tribes separately on the pattern of General Primary Census Abstract. This practice was continued in 1991 also. In the 1961 and 1971 Censuses, such data were made available in Table C-VIII-Social and Cultural table

and to some extent in the series 'Special Tables for Scheduled Castes/Scheduled Tribes'.

The format of Primary Census Abstract has been restructured slightly in the 2001 Census as compared to that of 1991 Census. The nine-fold industrial classification of main workers given in the Primary Census Abstract of 1991 Census has been discontinued and its place, four-fold industrial classification of both 'main workers' and 'marginal workers' are included. In 1981 census only main workers were presented in to four categories. One of the novel features of the primary census abstract of 1991 census was the presentation of data of the population of age group 0-6 is continued in 2001 Census also. This will help the data users in better analysis and understanding of this literacy data.

Level of presentation in District Census Handbooks:

The Primary Census Abstract data in different PCAs are presented at different levels. The level of presentation of Primary Census Abstracts are as under:

The PCA Data for villages was presented CD Block wise for the first time in 1991 Census. This practice is continued in 2001 Census also. The data for each CD Block is presented both for rural and urban areas separately. All the villages within the CD Block constitute the rural portion and the Census Towns and Outgrowths are shown under the urban portion of the CD Block. In case a CD Block is spread over two or more districts, than portion which falls within the district is presented, the data pertaining to remaining portion of the CD Block is presented in the concerned District Census Handbook. The data in the Urban Primary Census Abstract for each town as well as for town with outgrowths in the district are presented. The data for all the wards and the outgrowths of the town(s) are also presented separately below the concerned town(s).

The District Primary Census Abstract is presented in 59 columns. The Primary Census Abstract for Scheduled Castes and Primary Census Abstract for Scheduled Tribes are presented in 52 columns. The Village Primary Census Abstract and Urban Primary Census Abstract are presented in 58 columns.

The concepts and definitions used in the column heading are explained under the sub heading 'Census Concepts' in the Analytical Note. The term 'Total Population' includes the Scheduled Castes, the Scheduled Tribes, the Institutional and the Houseless populations. The explanation regarding area figures presented at various level in the Primary Census Abstracts are as follows:

Area Figures

The area figures supplied by local revenue authorities of the district in respect of tehsils, Police Stations and by the local bodies in respect of towns are given in square kilometers. The area figures of the villages supplied by the Tahsildars in acres have been converted and shown in hectares. The area figures of the CD Block is the total of the village areas coming under each CD Block. The area figures for the district are the same as adopted by the Surveyor General of India to maintain uniformity at the national level. The total area figures of all the tahsils/CD Blocks within the district may not tally with area figures of the district because former represents land use area only. Similarly, the total of all the villages may not tally with the entire rural of Police Station/Tahsil. The difference may be due to the fact that while the area covered by hills, forests and rivers etc, have been accounted in the Tahsils and P.S. level the same may not be covered under the area of the villages. Apart from this it may also differ due to varying methods of computation adopted at different levels.

An appendix to District Primary Census Abstract has also been furnished showing urban enumeration block-wise particulars on Total Population, the Scheduled Castes Population and the Scheduled Tribes Population for each town.

The following Abbreviations have been used in the Primary Census Abstract for facility of presentations:

1	Municipal Corporation/ Corporation	M. Corp.
2	Municipality	M
3	Municipal Council	MCI
4	Cantonment Board/ Cantonment	CB
5	Notified Area/Notified Area Committee/Notified Committee	NAC
6	Industrial Notified Area	INA
7	Gram Panchayat/ Village Panchayat	VP
8	Nagar Panchayat/ Town Panchayat	NP
9	Census Town	CT
10	Total	T
11	Rural	R
12	Urban	U

The following conversion factor has been used for converting areas into hectares and hectares into km2

Acres x 0.40467 = hectares

100 Hectares = 1 Km2

Note: *These figures represent 'Geographical area' figures supplied by the Surveyor General. Figures for urban area are those supplied by the local Bodies. Area figures for rural are derived by subtracting the urban area from the total area of the District. The total of the area figures of talukas will not tally with the district figures because the former represents 'Land Use Area' and are derived from the figures supplied by the Director of Land Records.

Note: As the data of 2001 census is not available, data of 1991 census of have been discussed in Annexure II and III. The details of 2001 census data have been discussed in Annexure IV, VI, VII and VIII, while Annexure V provides the recast data of 1991 census and separate data of 2001 census of Sabar Kantha district.

ANNEXURE – II

FERTILITY AND MORTALITY-1991 CENSUS

Fertility Level:

Population is a dynamic variable and keeps on changing. Increase due to birth and decrease due to death affect the population size of an area. Thus the birth and death are the two most important vital events. Natural increase is the excess of population by births over decrease of population by deaths at a given point of time. The births have direct correlation with the fertility.

The data on fertility levels and trends as revealed by the fertility indices of the 1991 Census like Crude Birth Rate (CBR), Age Specific Fertility Rate (ASFR) and Total Fertility Rate (TFR) are presented and analyzed below. The Definitions and concepts of fertility indices frequently used have already been explained in Analytical Note.

Death Rate:

Death process in demographical terminology is called as mortality. The rate at which death events occur reveal about the standard of living and state of health. Statistical data on causes of death help us in controlling the spread of diseases and suggests new curative methods to medical authorities.

Child Mortality:

Information about questions on children ever born and children surviving canvassed for all ever married women was tabulated by age of the mother. From this, estimate of child mortality have been worked out by using Brass technique.

Source: Occasional Paper No 1 of 1997.

The Annexure III shows various fertility indicators of all the districts and State as per 1991 Census. It can be observed that Sabar Kantha district had Crude Birth Rate (CBR) of 34.7 and Total Fertility Rate (TFR) of 4.3, both are higher than the State CBR and TFR of 33.6 and 4.2 respectively. Total Marital Fertility Rate (TMFR) General Fertility Rate (GFR) and General Marital Fertility Rate (GMFR) of Sabar Kantha district are 5.2, 139 and 176 respectively. For the state, TMFR is 5.4, GFR is 136 and GMFR is 175. The child woman ratio, in the district, was 466 for the age group of 0-4 and 546 for the age group of 5-9 while the same for Gujarat state were 467 and 571 respectively.

Mean age at marriage means age (in completed years) at which the woman was married. In case a woman was married more than once, the age at which she was married first, was recorded. The mean age at marriage i~ Sabar Kantha district as per 1991 Census was 19.0, which is same as for Gujarat State.

Source: Gujarat State District Profile 1991.

The above statement shows that as per 1991 census there were 4.4 children ever born per ever-married woman in the age group of 45-49 with 4.0 surviving children per woman in Sabar Kantha district as against 4.2 and 3.8 respectively for the state. The rural Sabar Kantha had 4.4 children ever born to the women in the age group 45-49, same as rural Gujarat. Urban Sabar Kantha had 4.2 children ever born to women in the age group 45-49 as against 3.8 for urban Gujarat. It can also be observed from the statement that number of children surviving per ever-married woman was higher for urban Sabar Kantha as against urban Gujarat.

ANNEXURE – IV

PERCENTAGE DISTRIBUTION OF MIGRANTS BY PLACE OF BIRTH/ PLACE OF LAST RESIDENCE, 1991 AND 2001 CENSUSES

Migration

Migration is a factor in changing the size and structure of the population. The migration process affects the areas to which migrants have moved and areas which they have left. Migration is a form of geographical mobility between one geographical unit to another, involving a change of residence from the place of origin/birth to the place of destination or place of new settlement from the last residence. A person is considered as a migrant by place of birth if the place in which he is enumerated during the Census is other than the place of birth. Similarly a person is considered as a migrant by place of last residence if the place in which he is enumerated during the Census is other than his place of immediate last residence.

Internal and International Migration

The migration movements are of four types –

1. Migration within the district of enumeration (intra-district migration)
2. Migration from one district to another but within the State
3. Migration from one state to another state of the country (inter-state migration) and
4. Migration from one country to another country.

The first three together constitute internal migration while the last type of movement is called international migration.

Migration by place of birth:

The absolute number and percentage distribution of Migrants by place of birth to total population in Sabar Kantha district and in the State at 1991 and 2001 Censuses are as following.

PERCENTAGE DISTRIBUTION OF MIGRANTS BY PLACE OF BIRTH-1991 CENSUS

(D) Unclassified	0 (0.0)	0 (0.0)	0 (0.0)	0 (0.0)	0 (0.0)	0 (0.0)

Source: Gujarat State-D-Series Tables-2001

As per 1991 census there were 13,572,140 migrants in Gujarat whose place of birth was different than the place of enumeration, this number increased to 18,810,592 in 2001 census. Out of such migrants in 1991 census, 58.0 per cent were born elsewhere in the district of enumeration, 30.1 per cent were born in other districts of the state, 11.2 per cent were born in other states of India and 0.7 per cent were born in other countries. There were 4,170 migrants in 1991 who were classified as "Unclassified" while no migrant was reported under this category in 2001. As per 2001 census 56.9 per cent were born elsewhere in the district of enumeration, 29.2 per cent were born in other districts of the state, 13.4 per cent were born in other states of India and 0.4 per cent were born in other countries.

It can be seen that as per 1991 census in Sabar Kantha district there were 522,820 migrants whose

place of birth was different than the place of enumeration, this number increased to 601,488 in 2001 census. Out of such migrants in 1991 census, 72.2 per cent were born elsewhere in the district of enumeration, 20.5 per cent were born in other districts of the state, 7.0 per cent were born in other states of India and 0.2 migrants were born in other countries. There were only 340 migrants in 1991 who were classified as "Unclassified" while no migrant was reported under this category in 2001. As per 2001 census in Sabar Kantha district, 80.7 per cent were born elsewhere in the district of enumeration, 13.8 per cent were born in other districts of the state, 5.5.per cent were born in other states of India and 462 were born in other countries

INTER STATE IN-MIGRANTS TO GUJARAT STATE AS PER 1991 CENSUS BY PLACE OF BIRTH

Source: Gujarat State-D-Series Tables-2001

The above statements show migration in Gujarat and in Sabar Kantha district from other states as per 1991 and 2001 censuses. It can be seen that as per 1991 census there were 1,520,421 persons in the state who were born in other states of India, this figure rose to 2,520,676 in 2001census. In 1991 out of such persons 34.4 per cent were born in Maharashtra while in 2001 only 29.2 per cent were born in Maharashtra. In 1991, as much as 22.2 per cent of inter state migrants were born in Rajasthan and 16.6 per cent in Uttar Pradesh whereas in 2001 the proportion born in Rajasthan and Uttar Pradesh was 18.7 and 20.6 per cent respectively. As per 1991 census out of total inter state migrants 6.1 per cent were born in Madhya Pradesh, the proportion of the same, in 2001 census, was almost equal at 6.3 per cent. The remaining 20.7 per cent were born in other states of India in 1991 census while in 2001 census 25.2 per cent were born in other states of India.

As regards Sabar Kantha district it can be seen that there were 36,709 migrants in this category in 1991 which decreased to 32,831 in 2001.The state-wise distribution reveals that as per 1991 census 7.8 per cent of migrants and as per 2001 census 5.9 per

cent of migrants were born in Maharashtra. In 1991 the proportion of migrants born in the states of Rajasthan and Uttar Pradesh was 81.5 per cent and 2.7 per cent respectively while the same for 2001 census stood at 78.6 percent and 4.1 per cent respectively. The proportion of migrants born in Madhya Pradesh was 1.8 per cent in 1991 which increased to 2.7 per cent in 2001 census. The proportion of migrants born in other states was 6.2 per cent in 1991 which increased to 8.7 per cent in 2001 census.

Migration by reason:

Distribution of migrants by place of last residence in Gujarat and Sabar Kantha as per 1991 and 2001 Censuses and percentage distribution of in-migrants from other States to Gujarat by place of last residence are presented below.

DISTRIBUTION OF MIGRANTS BY PLACE OF LAST RESIDENCE IN GUJARAT - 1991 CENSUS

Place of	Gujarat			Sabar Kantha

Source: Gujarat State-D-Series Tables-2001

There were 13,664,201 migrants by place of last residence in Gujarat according to 1991 census and as per 2001 census there were 19,221,602 migrants in the state in this category. The proportion of male and

female migrants whose place of last residence was elsewhere within the district of enumeration was 45.4 per cent and 65.1 per cent respectively in 1991 and the respective proportion was 52.4 per cent and 69.8 per cent in 2001 census in the case of Gujarat state. The reason for higher proportion of female migration is marriage. As per 1991 census, out of total migrants, 59.1 per cent of migrants were residing elsewhere in the district of enumeration, 29.6 per cent were those whose last residence was in other districts of the state while last residence of 10.7 per cent migrants was in other states of India and only 0.6 per cent were such whose last residence was in other countries. There were 3,810 migrants in the category titled "Unclassified ". In Gujarat as per 2001 census, 63.7 per cent migrants were residing elsewhere in the district of enumeration, 24.6 per cent were such whose last residence was in other districts of the state while last residence of 11.4 per cent migrants was in other states of India and only 0.3 per cent were such whose last residence was in other countries. There were no migrants in the category titled "Unclassified".

There were a total of 526,380 migrants by place of last residence in Sabar Kantha district as per 1991 census. Out of total migrants, 73.1 per cent of migrants were such whose last residence was in the district of enumeration, 20.1 per cent were such whose last residence was in other districts of the state while last residence of 6.6 per cent migrants was in other states of India and 0.1 per cent were such whose last residence was in other countries. There were 330 migrants in the category titled "Unclassified " In the district, as per 2001 census, there were 625,116 migrants by last residence. Out of total migrants, 86.5 per cent of migrants were such whose last residence was elsewhere in the district of enumeration, 9.8 per cent were such whose last residence was in other districts of the state while last residence of 3.6 per cent migrants was in other states of India. In the district only 220 migrants were such whose last residence was in other countries.There were no migrants in the categor titled "Unclassified".

Migration by reason:

The following statement gives distribution of migrants by reasons of migration from other States of India.

MIGRATION FROM OTHER STATES OF INDIA BY PLACE OF LAST RESIDENCE IN GUJARAT 1991

Source: Gujarat State-D-Series Tables-2001

It can be seen form the data given above that the main reason for the migration was "Work/ employment". As much as 30.3 per cent of migrants moved due to work or employment as per 2001 census.As per 1991 census also, the highest proportion of 25.8 per cent of migration took place due to the same reason. In 2001, this was followed by 26.5 per cent of migration which was due to the reason of "Moved with household" and also in 1991 it was followed by 24.0 per cent of migration due to the same reason which was then titled as "Family Moved". In 2001, the proportion of migration due to marriage was 17 per cent while the same was comparatively higher at 22.5 per cent in 1991 census.

ANNEXURE – V

BRIEF ACCOUNT OF MAIN RELIGIONS IN THE DISTRICT AS PER 1991 AND 2001 CENSUSES

Religion is the basic cultural characteristics of the population. In secular country like India several religions have thrived and every decennial Census provides an interesting picture of the religious persuasions of the people. The data on religion yielded by the Census are of immense use for the Anthropologists, Sociologists, Demographers, Administrators, Planners and also for laymen.

The six main religions are i) Hindu, ii) Muslim, iii) Christian, iv) Sikh, v) Buddhist, and vi) Jain were recorded. In respect of 'Others', the actual religion returned was recorded. If a person said that he has no religion, it was recorded accordingly and if any person refused to state his religion it was recorded as 'religion not stated'.

Source: Gujarat State-C-Series Tables-2001

The statement above gives the details of distribution of population for Gujarat state and Sabar Kantha district by six major religions as per 2001 census. The 2001 census data reveals that the proportion of Hindus was 89.1 per cent in the state of Gujarat against 93.5 per cent recorded in Sabar Kantha. In comparison to 1991 data a decline of 0.4 per cent is registered in proportion of Hindus at state level while for Sabar Kantha district an increase of 0.2 per cent is registered.

The proportion of Muslims was 8.7 per cent at state level and 5.5 per cent at district level in 1991 census whereas in 2001 census at state level this proportion was 9.1 per cent and in district it was 5.7 per cent.

The proportion of Jains was 1.2 per cent in the state and 1.0 per cent in the district for 1991 census. This proportion declined to 1.0 per cent and 0.5 per cent respectively for the state and the district in 2001. The proportion of Sikhs, Christians, Buddhists, 'other religions' and 'Religion not stated' were negligible in 1991 as well as 2001 in the Sabar Kantha district.

ANNEXURE-VI

MARITAL STATUS OF POPULATION AS PER 1991 AND 2001CENSUSES

Sex-wise Marital Status:

The details of sex-wise marital status for Gujarat State and Sabar Kantha District as per 1991 and 2001Census are given below:-

Source: Gujarat State -C- Series Tables-2001

The above statements show marital status by sex in the state as well as in the Sabar Kantha district. As per 2001 census the number of married persons was 24,222,087 (47.8 per cent) in Gujarat and 1,004,826 (48.3 per cent) in Sabar Kantha district. A comparison of the same with 1991 data shows that in Gujarat the proportion of married persons was 46.2 per cent while in Sabar Kantha district the same was 46.8 per cent.

As per 1991 census the proportion of never married persons was 49.7 per cent in Gujarat State and 48.9 per cent in Sabar Kantha district. As per 2001 census the same has come down to 47.6 per cent in Gujarat and 47.0 per cent in Sabar Kantha district.. In comparison to 1991, the proportion of married females in 2001 has shown an increase of 1.6 per cent in the district while the same for males has increased by 1.2 per cent.The proportion of widowed was 4.0 per cent in 1991 and was 4.4 per cent in the 2001 in the district. There were only 20 persons under marital status category 'Unclassified' in 1991 while none were under this category in 2001 in the district.

DISTRIBUTION OF RURAL URBAN POPULATION BY MARITAL STATUS-1991

Source: Gujarat State -C- Series Tables-2001

Both, rural and urban areas of Gujarat state as well as Sabar Kantha district have shown decline in proportion of "Never married' persons over decade 1991-2001. However the decline was high at 3.3 per cent in urban areas as compared to 1.7 per cent in rural areas for Sabar Kantha district. For 'Married' catagory persons, the increase in their proportion from 1991 to 2001 was 2.6 per cent in urban areas while it was 1.3 per cent over same period for rural areas of Sabar Kantha district. In case of category 'widowed', rural and urban areas of state and the district did not show significant change in their proportions over 1991-2001 period.

ANNEXURE – VII

AGE, SEX AND EDUCATION IN THE DISTRICT AT THE 1991AND 2001 CENSUSES

Literacy has occupied an important position in Indian Census in one form or the other from the very beginning. The definition of literates as adopted is "A person who can both read and write with understanding in any language is to be taken as literate". A person who can merely read but can not write was not treated as literate. It is not necessary that a person who was literate should have received any formal education or should have passed any minimum educational standard. All children below the age 7 are treated as illiterate. While processing the literacy data population of age group 0-6 is excluded.

The following statement gives the distribution of literates and illiterates by broad age groups and sex in the district as well as the State at the time of 1991 and 2001 Censuses:-

LITERACY BY AGE -GROUP AND BY SEX -1991

Source: Census of India -C- Series Tables-2001

It can be seen from the statement that for 2001 census, the highest proportion of 83.6 per cent literacy rate in Gujarat state is registered in age group of 7-14 years followed by 77.6 per cent in 15-29 years age group. The same trend can be observed in Sabar Kantha district where the highest proportion of 85.4 per cent is registered in the age group of 7-14 years followed by 77.7 per cent in the age group of 15-29 years. The lowest proportion of 39.5 per cent in state and 29.3 per cent in the district is found in the age group of 60 + years in 2001 census. As per 2001 census the female literacy rate was lower than that of males in each age group in the state as well as in Sabar Kantha district. A comparison with the 1991 data shows that literacy rate has increased for each and every age group in the state while in case of Sabar Kantha district the literacy rate has decreased in the category 'Age not stated' from 83.0 per cent in 1991 to 35.6 per cent in 2001.

Source: Census of India -C- Series Tables-2001

The above statement shows number and percentage of literates in nine different education levels. In the state, as per 2001 census, there were 286,886(1.0 per cent) literates who have no formal education. This proportion was only 0.2 per cent in 1991. In Sabar Kantha district, 13,244(1.1 per cent) literates have no formal education in 2001 while in 1991 only 1330 (0.2 per cent) literates were in this category. As per 2001 census, 27.1 per cent literates have below primary level of education in the state, while proportion of 25.5 was recorded for category 'below primary level of education' for Sabar Kantha district. As per 1991 census 41.2 per cent literates had attained primary level of education in the state and 41.4 per cent in Sabar Kantha distict. In 2001 census the proportions under this category for the state and the Sabar Kantha district were 27.1 per cent and 25.3 per cent respectively. In 1991 census higher secondary level of education was attained by 4.3 per cent of literates in the state and 5.0 per cent in Sabar Kantha district. While as per 2001 census, these proportions were 8.1 per cent literates in the state and 9.9 per cent literates in Sabar Kantha district. The proportion of literates having graduate and above level of education was 4.8 per cent and 3.2 per cent in 1991 census for the state and Sabar Kantha district respectively. The proportion of literates in this category increased to 6.3 per cent in the state and 4.6 per cent in Sabar Kantha district in 2001.The proportion of literates having technical diploma or certificate not equal to degree has also increased in the state as well as in the district in 2001 as compared to 1991. The numbers and proportions of literates having non- technical diploma has decreased in 2001 as compared to 1991 in state as well as in Sabar Kantha district.
