Hajira is situated at the eastern part of the bay of Khambhat of Surat district in South Gujarat. The most important industrial Units of private and public sectors of the country are established near Hajira port. There are many industries like Reliance Industries Ltd, Larson and Tubro, Kribhco and Essar steel are established. There are also small scale industries established. Within a short period Hajira has become one of the biggest industrial areas of the country. On this port there were 4 jetties built by Reliance and 4 jetties built by Essar and 1 jetty built by Kribhco and Larsen and Tubro Ltd. Liquid natural gas terminal will be developed by the Royal Dutch /Shell group of companies.

Annexure - II Fertility and Mortality, 1991 Census

Annexure - III Various measures of Fertility and Mean age at Marriage, 1991 Census

Annexure - IV Percentage distribution of Migrants by Place of Birth/ Place of Last Residence, 1991 and 2001 Census

Annexure - V Brief Account of Main Religions in the District/ Taluka as per 1991-2001 Census

Annexure - VI Marital Status of Population as per 1991 and 2001 Census

Annexure - VII Age, Sex and Education in the District, 1991 and 2001 Census

Annexure - VIII Distribution of different Mother Tongues returned in 1991and 2001 Census

Foreword

The District Census Handbook (DCHB) published by Census Organsation since 1951 census, is one of the important publications in the context of planning and development at gross-root level. The publication, which is brought out for each district, contains several demographic and socio-economic characteristics village-wise and town-wise of the district alongwith the status of availability of civic amenities, infrastructural facilities, etc.

2, The scope of the DCHB was initially confined to a few Census Tables and Primary Census Abstract (PCA) of each village and town within the district. Thereafter, at successive censuses, its scope and coverage has been enlarged. The DCHB published at the 1961 census provided a descriptive account of the district, administrative statistics, census tables and a village and town directory including PCA. The 1971 census-DCHB series was in three parts: Part-A related to village and town directory, Part-B to village and town PCA and Part-C comprised analytical report, administrative statistics, district census tables and certain analytical tables based on PCA and amenity data in respect of villages. The 1981 census DCHB was in two parts: Part-A contained village and town directory and Part-B the PCA of village and town including the SCs and STs PCA up to tahsil/town levels. New features alongwith restructuring of the formats of village and town directory were added into it. In Village Directory, all amenities except electricity were brought together and if any amenity was not available in the referent village, the distance in broad ranges from the nearest place having such an amenity, was given. Information on new items such as adult literacy centres, primary health sub-centres and community health workers in the village were provided so as to meet the requirements of some of the Revised Minimum Needs Programme. Information on approach to the village was provided for the first time in the Village Directory so as to give the details on number of inaccessible villages in each district. In the Town Directory, a statement (IV-A) on slums was introduced to provide the details on civic and other amenities in the notified slums of Class I and Class II towns.

3. The 1991 census of DCHB, by and large, followed the pattern of presentation of 1981 census, except the format of PCA was restructured. Nine-fold industrial classification of main workers was given against the four-fold industrial classification presented in the 1981 census. In addition, sex-wise population in 0-6 age group was included in the PCA for the first time with a view to enable the data users to compile more realistic literacy rate as all children below 7 years of age had been treated as illiterate at the time of 1991 census. One of the important innovations in the 1991 census was the Community Development Block (CD block) level presentation of village directory and PCA data instead of the traditional tahsil/taluk/PS level presentation. It was expected that the presentation of village directory and PCA data at CD block level will help the planners in formulation of micro level development plans, CD block being lowest administrative unit.

4. The present series of 2001 census DCHBs have been made more informative and exhaustive in terms of coverage and content. The Village Directory has been enlarged in scope by including a number of other facilities like banking, recreational and cultural facilities, newspapers and magazines and 'most important commodity' manufactured in village. Income and expenditure of gram panchayat, wherever possible, has been provided. Apart from these, more details on distance(s) at which basic amenities are available (if not available in the village), are given. This includes educational facilities (namely primary and middle schools and college), medical facilities (viz. Allopathic Hospital, Maternity & Child Welfare Centre and Primary Health Centre), drinking water, post & telegraph (post office and phone), communication, bank, credit societies and recreational facilities. In Town Directory, the statement on Slums has been modified and its coverage enlarged by including details on all slums in instead of 'notified slums'. The information is given in case of all statutory towns irrespective of their class, against only Class I and Class II towns in the 1981 and 1991 Censuses. The basic amenities available in the villages and towns are analysed in depth with the help of a number of cross-classified inset tables and statements. Two other significant additions in the

publication are inclusion of 'motif highlighting significant characteristic of the district and analytical notes as annexures. The analytical notes on (i) fertility and mortality and (ii) various measures of fertility and mean age at marriage are prepared based on 1991 Census. Whereas, in the notes relating to (i) percentage distribution of migrants by place of birth/place of last residence, (ii) main religions, (iii) marital status of population, (iv) age, sex and education, and (v) distribution of spectrum of mother tongue, nature and extent of changes occurred in the district in its basic socio-demographic features during the decade 1991-2001 are analysed. The eight digits permanent location code (PLCN) to all the villages and towns have been assigned keeping in view the future needs.

5. The village and town level amenity data have been collected, compiled and computerised in prescribed record structure under the supervision of Shri Jayant Parimal, Director of Census Operations, Gujarat. Thereafter, efforts have been made to ensure comparability of the information with that of 1991 census data and the information brought out by the respective state governments in their annual reports and statistical handbooks for various years after 1991. The task of planning, designing and coordination of this publication was carried out by Shri R.G. Mitra, Deputy Registrar General (C&T) and Dr. I.C. Agrawal, Senior Research Officer of Social Studies Division. Dr. R.P. Singh, Deputy Registrar General (Map) provided the technical guidance in the preparation of maps. Whereas, Shri Anil Kumar Arora, Deputy Director of Data Processing Division who worked under the overall supervision of Shri Himakar, Addl. Director(EDP) helped in preparation of record structure for computerisation of village and town directory data and the programme for the generation of Village Directory and Town Directory statements including analytical inset tables. The draft DCHB manuscripts received from the Census Directorates have been scrutinised in the Social Studies Division under the guidance of Shri S.L. Jain, Deputy Director and Shri R.K. Mehta, Assistant Director. I am thankful to all of them and others who have contributed to make this publication possible.

D.K. Sikri
Registrar General &
Census Commissioner, India

New Delhi

Preface

Census is being conducted in the country every ten years as per the programme laid down by the Government of India. In these day and age of information technology, an individual has access to a variety of information covering a Kaleidoscope of interest and fields. Availability of relevant information is very vital for planners, policy makers and researchers.

The Five Year Plans have come to stay in the country and whatever development is achieved as a result of implementation of planning from the bottom level such as development of infrastructure facilities as well as basic amenities, etc. is reflected in the District Census Handbooks and they give to the readers a searching eye whether the development over the years in villages/talukas/districts is lopsided or upto the mark. This is the basic requirement of this type publications and an attempt has been made to show whether the census handbooks reasonably fulfill these aspirations/requirements.

These district Handbooks are thus useful to planners in planning from bottom as well as to administrators, researchers, educational institutions including universities and other socio-economic research centres as well as students conducting research in demography, social and economic studies as well as to the local bodies like Panchayats, Municipalities and Municipal Corporation etc.

District Census Handbook of Gujarat is a joint venture of the Government of Gujarat and the census organization of the Government of India. In the preparation of the DCHB, the role played by the census organisation is that of Census data collection, scanning of collected information, analysis of PCA. DCHB Unit of the State Government collected the basic non-census information on availability of amenities relating to infrastructure in the villages of the district presented in the part A of this book. The cost of this publication is borned by the State Government. In accomplishing this task we had the ready and whole hearted co-operation of the staff at various levels of different department of the State Government. Most of the data supplied by the various departments have been cross-checked and an attempt has been made to reconcile the discrepancies as well.

I express my deep gratitude to the officers of Gujarat Government particularly Shri PK.Laheri, Chief Secretary of Gujarat State, Smt. Netraben Sinoy, Additional Chief Secretary of General Administration Department (Planning), Shri George Joseph, Principal Secretary, General Administration Department (Personnel), Shri K.R.Vasava, Deputy Secretary, Kum.P.S. Mevada, Under Secretary and Shri P.D.Kulkarni, Section Officer of General Administration Department, Planning, Shri S.D.Mehta,Deputy Secretary and Shri I.M.Sheikh, Under Secretary, Shri Bipin Patel, Section Officer and Shri P.N.Christian, Deputy Section Officer of G.A.D. (Kh-3) for their valuable help and co-operation in fulfilling all administrative requirement in time for bringing out this publication. I am also thankful to Shri P.M. Patel, Director, Economics and Statistics helped this organisation not only by placing the competent personnel on disposal of census services on deputation but also provided valuable official statistics for this publication.

The District Collector, the District Development Officer, District Statistical Officer, District Information Officer and their staff members extended their warm and whole hearted co-operation for carrying out field work of the census and collection of non-census data for this District Census Handbook.

I am deeply grateful to Shri J.K. Banthia, I.A.S., the Ex-Registrar General and Census Commissioner, India for the benefit I have derived by the way of guidance and advice. I also express my thanks to Shri R.G. Mitra, Deputy Registrar General(C&T) Shri C. Chakravorty, Joint Director, Shri I.C. Agrawal,Senior Research Officer(SS), Shri S.L. Jain, Deputy Director(SS), Shri R.K. Mehta, Assistant Director(SS), Shri R.P. Singh, Dy. Registrar General(Map), Shri Himakar, Addl. Director (EDP) and Shri

Anil Kumar Arora, Deputy Director (EDP) for providing technical guidance in finalising this publication. I am extremely thankful to Shri D. K. Sikri, IAS, Registar General & Census Commissioner, India for his valuable guidance in finalizing of this publication.

Shri Jayant Parimal, I.A.S. who held the office of Director of Census Operations, Gujarat, had guided the operations of the 2001 Census. The data presented in this handbook were collected and compiled under the able direction and guidance of Shri Parimal.Our sincere and grateful thanks for all the projects of census to him.

In state office Smt. B.B. Chauhan, Deputy Director, District Census Handbook Unit, Kum.S.B.Dabhi, Assistant Director, Shri S.B. Dalvi, Deputy Section Officer of District Census Handbook Unit, and their team of able assistants meticulously collected and scrutinized the non-census data from various sources and prepared draft of DCHB etc. with the help of Census section. The other officials of D.C.H.B. Unit, who scrutinised, edited and supervised the work of D.C.H.B. have been mentioned in the "Acknowledgement". The maps provided in the D.C.H.B. are prepared by the Map Section of the Census Directorate under the supervison of Shri J.P. Purohit, R.O(Map). I am thankful to all of them.I am thankful to the census section of the Directorate for scrutinizing the PCA data, specially Shri J.N.Pithadia, Investigator Grade-I and Kum.N.V.Shah, Investigator Grade-III who provided assistance to me in finalizing P.C.A. data at every stage. Smt. J.R.Sanghani, Investigator Grade-III of this Directorate assisted me for final scrutiny of D.C.H.B., I am thankful to her.

Lastly, I am thankful to the Government of Gujarat for having agreed readily to bear the cost of publication of the District Census Handbook volumes and for the special efforts of Shri R.B. Raval, Director, Printing and Stationary and his colleagues to print out the publication in a very nice fashion.

District Highlights – 2001 Census

Surat

(1) Surat district ranks 2nd district in terms of population among the districts of the state.

(2) Surat district has fifteen talukas and 1,167 inhabited and 97 uninhabited villages, whereas urban area is 4.7 per cent of the district area.

(3) Population density per sq km is 652 persons.

(4) Surat district is the 2nd most dense district in the State.

(5) Surat district is having 25th rank in sex ratio.

(6) Village Kosad is the most populated having 28,663 persons whereas Birama village of Mandvi taluka is least populated in the district with only 10 persons.

(7) The economy of the district as a whole is largely dependant upon other than agriculture as 64 per cent of the total worked are engaged in other work while only 33.7 per cent are engaged in Agriculture sector. Figures of all the Taluka others than Surat city taluka reflects major share of Agriculture sector.

(8) Diamond cutting, production of polyester cloth and art silk, production of fertilizers and production of dairy products are major industrial products of the district.

(9) Dandi Village has the largest area of 6,917.1 hectares and Haripura village has the lowest area of 10.0 hectares among the villages of the district.

(10) Among talukas, Valod taluka has the lowest 40 villages and Songadh taluka has the highest 175 villages..

(11) Important crops of the district are Paddy, Sugarcane, Banana and Mango.

(12) There is no rural constituent in the Surat city Taluka.

Note : 13 villages are fully covered as outgrowths (OGs) and therefore not include under the item "Number of Villages "

Definition of Census Town : -

All places which satisfy or are expected to satisfy the following criteria are treated as Census Towns:-

i) A minimum population of 5,000;

ii) At least 75 per cent of the male working population engaged in non-agricultural pursuits, and

iii) A density of population of at least 400 per square kilometer (1,000 per square mile).

Note: *These figures represent 'Geographical area' figures supplied by the Surveyor General. Figures for urban area are those supplied by the local Bodies. Area figures for rural are derived by subtracting the urban area from the total area of the District. The total of the area figures of talukas will not tally with the district figures because the former represents 'Land Use Area' and are derived from the figures supplied by the Director of Land Records.

U.A.=Urban Agglomeration

\# Surat UA is spread over in Surat City and Chorasi talukas.

ANALYTICAL NOTE

A N A L Y T I C A L N O T E

(i) History and Scope of the District Census Handbook :

Before the 1951 Census, the Census figures were published in a booklet known as 'Village Hand-book', which contained only village wise population figures. These books were prepared and published by the Directorate of Census Operations of the State.

The Directorates introduced the District Census Handbook for the first time in 1951 Census. It comprised the villagewise primary census abstract figures and information on available amenities. It also contained several statements relating to the district. It varied in content and size from State to State depending upon the resources offered by the respective State Governments.

In 1961 Census, an uniform pattern of District Census Handbook was adopted throughout the country. The Directorate of Census and the State Government jointly executed the project. In addition to the English version, it was published for the first time in Gujarati language also. The District Census Handbook 1961 was published in three parts. Part I related to Introductory Note i.e. general and economic information for the district and a brief gazetteer of place names. Part II pertained to census statements, villagewise list of industrial establishments, statements on handicrafts and departmental statistics. Part III consisted of village directory covering the amenities and primary census abstract data combined in one statement. It also covered district and taluka maps.

It is worthwhile here to note that the State Government has created a separate unit for preparing and publishing the District Census Handbook from 1971 Census onwards. In the 1971 Census, the contents of District Census Handbook were modified. In the preceding censuses the data on amenities and primary census abstract were covered in one statement whereas in 1971 Census, the data on amenities and primary census abstract were separated into two different parts. Thus, the coverage of amenities data was extended and the land use data were introduced for the first time since 1971 District Census Handbook. Moreover, a separate portion known as 'Town Directory' was also incorporated for the first time in the District Census Handbook. The 1971 District Census Handbooks were published in three parts. Part A contained the village and town directory. Part B contained village and townwise primary census abstract data and Part C contained official statistics, besides full count census statements, urban census statements and analytical report on census and related statistics socio-economic and cultural statements (Rural areas) and housing statements. Part A and Part B were combined and published in one volume.

The District Census Handbook –1981 was brought out in two parts, Part-A and Part-B. Part-A contained the village and town directory whereas Part-B included the primary census abstract data for both General population and Scheduled Castes/ Scheduled Tribes. Both parts were published in one volume. Part C brought out for 1971 Census was dropped in 1981 Census. However, official statistics and some portion of analytical notes of part C of 1971 Census were included in the 1981 District Census Handbook also. For the 1991 Census, the District Census Handbooks were prepared more or less on the same lines of the preceding Census of 1981. In 2001, the scope of both Part A and Part B has been enlarged by giving several additional information due to large scale computerization.

The District Census Handbook has been prepared after scanning and processing of data collected through Houselist Schedule and Household Schedule. Several innovations have been introduced mostly at all the stages of the Census of India, 2001, right from the preparatory efforts of data processing to data dissemination of stage. This includes certain fundamental changes in the form and contents of the Houselist and Household schedules, while maintaining the continuity and comparability of the basic housing and population

characteristics with the earlier census. For the Census of India 2001, a system of Permanent Location Code Number (PLCN) has been adopted by assigning a population number to each village within the State/UT a continuous series from I to N. Each village has been assigned an eight-digit code. The last two digits being '00' are kept for accommodating future changes in case of split of an existing village or creation of new villages etc. Since the permanent Location Codes have been assigned to each village, theoretically tracing the precise location of village on account of future jurisdictional changes in the boundaries of various administrative areas within the state should not pose a problem. It is imperative that under this scheme, the PLCN assigned to villages at the Census of India, 2001 are adopted in future censuses also to ensure the comparability of the data at the village and other administrative levels over a long time series.At the 2001 census age at marriage was collected for males also, while it was collected for only ever-married females until the 1991 Census, the type of educational institution attended by a person was enlarged to include school, college, vocational institute. The scope of the definition of 'work' was expanded in the Census of India, 2001, this includes production of milk for domestic consumption. In the 1991 Census, cultivator of certain crops even for self-consumption was treated as economic activity. The scope of the term 'Cultivation' was expanded in this Census to include certain other crops such as tobacco, fruits, all types of flowers, roots and tubers, potatoes, chilies and turmeric, pepper, cardamom, all types of vegitation and fodder crops etc. This meant that activities related to production of all the above-mentioned crops for domestic consumption has been treated as work. Only five crops viz. tea, coffee, rubber, coconut and betel nuts have been classified under 'Plantation' in the Census of India 2001.

- At the 1991 Census, the question on seeking/ available for work was canvassed for only non-workers. At the Census of India 2001, this question is asked from the Marginal Workers also. A question to elicit information on secondary work canvassed at the 1991 Census was dropped.
- From among the categories of non-workers adopted at the 1991 Census, the category 'Inmates of institutions' has been dropped and 'Retired Persons and Rentiers' has been replaced by the category 'Pensioners'.
- A new response category 'Moved after birth' was included in the question on reason for migration to bring out additional migration patterns. Natural calamities or distress migration as a reason for migration for last residence migrants included in the 1991 Census is covered under category of 'Other'.
- Number of children born alive to currently married women during last one year was collected for male and female children separately.

Besides the above modifications, the following new questions were canvassed at the 2001 Census.

- A question on total disability was canvassed in the 1981 Census but in 1991 Census there was no provision for question on disability. At the present Census of 2001, a question to elicit information on total or partial disability was canvassed. The five types of disabilities on which information was collected are - in seeing, in hearing, in speech, in movement and in mental disorderness.
- A new question on 'Travel to place of work' is canvassed mainly for workers engaged in non-agricultural activities. Information on distance from the residence to place of work and mode of travel to place of work was collected under this question.

The mode of presentation of DCHB in 2001 will by and large be same as that of 1991. The uniqueness of Census 2001 is that single record (Household Schedule) has been processed as against two records viz. Individual Slip and Household Schedule in the previous Censuses. Apart from this some deviation has been made this time by incorporating analytical notes on migration, fertility & mortality, education, marital status, age structure etc. pertaining to 1991 Census of the respective district in the DCHB in the form of Annexure II to VIII. Similarly Statements based on Houselist data pertaining to Census 2001 has also been included in DCHB.

(ii) Brief History of the District :

The intervening region of Gujarat, including the present Surat District must have been

under the Mauryas at the time of Ashoka (B.C. 273-236). As Ashoka is not credited with any conquests in Western India, it is likely that the whole of the Surat district, along with other parts of Gujarat might have been conquered by Chandragupta Maurya. This is corroborated by the inscription of Rudradaman at Girnar. The Mauryan power established by Chandragupta continued atleast up to the death of Ashoka. The history after Ashoka period is confused and it is difficult to find out the successors of Maurya till the Muslims finally conquered Gujarat in 1299 A.D. The settlement of Parsis at Sanjan also took place during this period. According to a poetic account known as Kissehi Sanjan, the Parsis who had left Persia came to Diu and stayed there for nineteen years. They again landed near Sanjan in the latter part of the seventeenth century. Jadirana, apparently a Yadav chief of South Gujarat, gave the permission to settle there on their agreeing to learn the language of the country, to make their women dress like Hindu women, to cease to wear arms and to hold their marriages at night. Surat, the headquarters of Surat district is believed to have been founded by Gopi, a Nagar Brahmin who rose to be the Prime Minister in the Sultanate of Gujarat under Mahmud I and Muzzffer II.

The castle of Surat was built in 1546 during the reign of Sultan Mahmud III to protect the city from the onslaught of the Portugese who had plundered it thrice before. Surat then fell into the hands of Emperor Akbar in 1573. The district and the city of Surat in particular enjoyed peace during the reign of Mogul emperors, viz. Akbar, Jahangir and Shahjahan for the next eighty five years, Surat which rose to be one of the first cities of India during the reign of Shahjahan; and though seized twice by Shivaji during the reign of Aurangzeb, the morale of its traders as well as its trade remained unaffected. Surat had its mint and coins which were current in South Gujarat till 1688. The British opened their factory at Surat in 1613 and the Dutch in 1620. After the death of Aurangzeb, it suffered from increasing disorders and the Governors of Surat were Subject to the court of Delhi in name only. The French also had established a factory at Surat in 1719 but with the ascendant of the English at Surat and their victories over the French in Southern India, deprived the factory of its importance in the history of Surat. Governor Sorabkhan ultimately styled himself as the Nawab of Surat in 1725 and became independent. Surat was then ruled by independent Governors till the English captured the city. The Governors of Surat who were then appointed by the English held to some extent a position of nominal indepedence till 1800 when the whole administration was taken over by the English.

During 1772, Surat was considered as one of the greatest emporiums of trade in India after which it had a time of decline in its fortunes as its foreign trade had practically been transferred to Bombay. After the British, the masters of the district, a Muslim named Abdul Rehman tried to break public peace in 1810 but he was successfully curbed down by the Britishers. They had to face the opposition of the people thrice, when they tried to introduce in the district the duty on salt in 1884, Bengal Standard Weights and Measures in 1848 and income tax in 1860. The people of Surat again protested when the Licence tax was introduced in 1878 and a riot had eventually broken out on the occasion. The district had formed a part of the Bombay Presidency and was administered as such till 1947. Surat had also suffered from a very severe flood in 1883 and a great fire in 1889. The Hope Bridge across the Tapi was also constructed in 1877 at a cost of Rs. 8.13 lakhs. The holdings of historic 23rd session of the Indian National Congress in Surat in 1907, the Bardoli Satyagraha of 1928, the momentous Dandi March undertaken by Mahatma Gandhi in 1930 are the landmarks in the history of the district. After the Independence, the territories of Dharampur and Bansada States and the Navsari prant of the former Baroda State were amalgamated with it to form the Surat district of the Bombay State.

In November 1956, the States were reorganized and the bigger bilingual State of Bombay was formed with Vidarbha, Marathawada, Saurashtra and Kachchh regions. The Surat district along with the other districts of Ahmadabad Division formed part of the bigger bilingual State.

Lastly, the Bombay State was bifurcated on 1st May 1960 and separate States of Gujarat and Maharashtra were formed. Since that date, the Surat district became a part of the Gujarat State.

From Surat district, Valsad district was created as separate district on 01-06-1964 by transferring eight talukas viz. Navsari, Valsad, Pardi, Umbergaon, Gandevi, Chikhli, Bansda and Dharmpur of Surat district for the purpose of administration.

(iii) Administrative Set-up :

With a view to run the administration of the State smoothly, it has been divided into Districts, which in turn have been further sub-divided into Talukas (Tahsils). In the State of Gujarat, the community development blocks are co-terminus with the Talukas. The Talukas contain large number of villages and possibly several towns. The villages have Village Panchayats to run the local administration. A Village Panchayat may constitute one revenue village, several revenue villages or a part of a large village. Similarly, the towns have Municipality or Municipal Corporation as of local self-government.

In the State of Gujarat, as on December 1999 there were 25 districts and 226* Talukas, against 19 districts and 184 Talukas in 1991 Census. In 1997 by several notification(s), Government of Gujarat reconstituted some districts and talukas of the State. Several changes as described below were also made in Surat district. Umarpada taluka was formed by the dividing earlier Mangrol taluka vide Government Notification No. GM-97-117-M-MFR-2697-2590-L dated 15th October 1997. Umarpada taluka has 63 villages. Surat City taluka was carved out from earlier Chorasi taluka. New Surat City taluka consists of complete area of Surat Municipal Corporation, 31 villages and part of the area of Magob (part) city and Dindoli (part). This change was made effective through Government Notification No. GM-97-117-M-PFR-2697-2590-L dated 15th October 1997.

The District Collector looks after the general administration, maintenance of collection of land revenue and settlement of law related disputes, civil supplies, district planning, mid-day meal scheme, etc at the district level. At the Taluka level, Mamlatdar looks after the land development, revenue collection, civil supplies and law and order. The functions of administration of law and order and control with investigation of crime are done by the Superintendent of Police of the district with the help of Police Stations working under him. For the purpose of maintence of law and order, there were 30 police stations, 81 police chowkies and 28 out-posts in the year 2000 as per statement below.

*Vagdod taluka merged in the Patan taluka of the Patan District on 3rd July, 2001.

Police Station in the District

Sl. No.	Particulars	Rural / City	1998	1999	2000
1	2	3	4	5	6
1	Police Station	Rural	14	3	15
		City	15	44	15
2	Police Chowky	Rural	4	28	3
		City	44	0	78
3	Out Post	Rural	24	15	28
		City	0	15	0

Source : Director General of Police, Gandhinagar ,2000

As the statement reveals that the number of police stations are decreased by 17 and number of Out Posts decreased by 2 in 2000 as compared to the year of 1999, during the same period there was an increase of 53 police chowkies in the district.

The Panchayati Raj institutions are fairly strong and most of the development works have been transferred to the District Panchayats and its subordinate bodies. The District Panchayat has an elected President while District Development Officer appointed by the Government, works as its Secretary, who looks after day-to-day work related to the development. Similarly, at the Taluka level, Taluka Panchayats have been constituted which have an elected President. The Taluka Development Officer is placed by the Government and works as Secretary of the Taluka Panchayats and he conducts the regular administrative work. Like wise, an elected President heads the Municipality and the Chief Officer works as the Secretary of the Municipality, who looks after the day-to-day work. In case of the large cities, the State Government has constituted Municipal Corporation, which are headed by an elected Mayor and the Municipal Commissioner, appointed by the Government who looks after the routine work. At the Village level, the Sarpanch is the elected Chief and the Talati (Village Mantri) works as the Secretary to the Village Panchayat and looks after the day-to-day work. In view of the expanding role of the public administration in a state like Gujarat, the Government has taken-up many activities and has set up several offices. Different sectors under which such offices came into the existence are as under :

(1) Education
(Primary and Higher Education)

(2) Agricultural and Research

(3) Animal Husbandry and Poultry

(4) Forest and Environment

(5) Roads and Buildings, Bridges.

(6) Co-operation and Co-operative Societies

(7) Industries, Small and Large as well as Cottage

(8) Health and Medical Services, Medical Education and Research, Family Welfare and Nutrition

(9) Information Department,

(10) Irrigation - Minor and Major

(11) Social Welfare and Social Defence

The functions of above offices are managed and controlled by concerned Head of Departments and in some cases also by District and Taluka Panchayats. The task of primary education in rural areas has been entrusted to District Panchayats. The functions related to Government of provided primary education is assigned to District Primary education Officer of District Panchayat who works under District Development Officer. Primary education as well as higher secondary education of all types of institutions is governed by District Education Officer.

Agriculture activities have been delegated to District Panchayat to a large extent and District Agriculture Officer is in-charge of looking after agricultural produce including crops and vegetables. Similarly Animal Husbandry is also a Panchayat activity and routine work is controlled by the Deputy Director (Animal Husbandry) who sits in District Panchayat for taking care of animals and poultry farms. Besides, district agriculture office in Panchayat, offices such as Deputy Director (Agriculture) and other officials look after various aspects of agriculture for developing the sector as well as to extend necessary assistance to farmers at district level.

Besides Deputy Director (Animal Husbandry), Special Offices of Veterinary Offices in the State Government of animal husbandry department also monitor activities of the sector at district level.

Public Health in rural area is assigned to the District Panchayat under the Chief District Health Officer who looks after epidemics, malaria control, water borne diseases and district level administration of Public Health Centres. District and Taluka Hospitals and Referral Hospitals are being looked after by the District Civil Surgeon of medical services in the State, while Medical Colleges and Research activities attached with the respective Civil Hospitals are controlled by Medical Education and Research Wing.

Family welfare activities are also monitored by the District Health Officer. Chief District Health Officer is also functioning as District Registrar of Births and Deaths of the district and Talati cum Mantri is also Registrar of Births and Deaths for the respective villages. Anemic mothers and children up to the age of 14 are looked after by Nutrition Officer under the Nutrition Programme.

District Ayurvedic Officer looks after the Ayurvedic dispensaries and hospitals. They also take care of the Ayurvedic plants and medicines and gardens. The District Food and Drugs Officer generally looks after the quality of the food and drugs in the district. Labourers and workers who are working in registered units are covered under the Employees State Insurance Scheme.

The rural roads have been transferred to the District Panchayats and their maintenance is done by the Executive Engineer, Roads and Buildings Department. Minor irrigation works are transferred to the District Panchayat and Executive Engineer (Panchayat) of the Panchayat's irrigation office looks after water harvesting and check dams.

The Roads and Buildings Department of State Government looks after the maintenance of roads, buildings, bridges and government multi-storey buildings etc. Besides Panchayat officials, major district roads and the state highways are looked after by the Executive Engineer (Roads & Buildings). The large multi-purpose irrigation projects are controlled by State Government directly through its Executive Engineers.

District Industries Centre is functioning to develop the small and village industries, handloom industries and the scope of industrial growth in the district. Besides, other departments are working for the rights of the industrial workers and rural labourers engaged in agriculture and other sectors.

Social welfare activities relating to the Scheduled Castes, Scheduled Tribes, Other Backward Castes and Other Backward Communities in the District are organized by the District Welfare Officer. Generally the schemes under Tribal Area Sub Plan and Special Component Plan are organized by the District Welfare Officer.

In each District Panchayat, District Statistical Officer of Directorate of Economics and Statistics looks after the co-ordination of different development programmes. He is also Member-Secretary of District Planning Board. Similarly in every Collector Office, District Planning Officer looks after developmental work of various Government (State & Centre) sponsored programmes.

Co-operative Societies i.e. Co-operative Milk Societies, Agricultural Produce Market Societies, Co-operative banking and other co-operative societies are controlled by the District Registrar, Co-operative Societies.

The talukawise break up of towns and villages in the district are shown as following.

Talukawise Number of Towns and Villages

Sl. No.	Name of Taluka	Number of Towns	Number of Villages

(iv) Physical Features :

Surat district is situated in the southern part of the Gujarat state. It lies between the parallels of latitude 20^0 48'and 21^0 33' and the meridians of longitude 72^0 35' and 74^0 19'. The length from north to south of this territory is about 84.9 km and from east to west is about 177.7 km. It is bounded on the west by gulf of Khambhat , on the south by Navsari and on the south east by the Dangs district, on the east and north east by Maharashtra state and in the north by Bharuch and Narmada districts. The area covered by Surat district is 7,657 sq.km having 9^{th} ranks in comparison to other districts of the state.

Physiography :

The district Surat forms a part of Gujarat Plain and is further sub-divided into seven sub-micro regions namely, Khambhat Coast, Mangrol Plain, Umarpada Forested Upland, Tapi Basin,Mindhola-Purna Plain, Kalakakra Hills and Chorasi-Palsana Coastal Plain on the basis of topography, climate, geology, soils and natural vegetation.

Khambhat Coast

The region covers the north-western part of the district and extends over Olpad and Mangrol talukas. Bharuch district bounds it in north, Mangrol Plain in the east, Tapi Basin in the south and Arabian Sea in the west.

This part of the district is coastal area with maximum elevation of 20 metres in the east to 10 metres above M.S.L. in the west. The geology of the region consists of Alluvium, blown sand, etc., and Undifferentiated Eocene Beds formations. Orthids-Aquepts soils cover are mainly found in this region. Usterts-Ochrepts soils are also seen in the eastern corner.

Mangrol Plain

The plain extends over part of Mangrol and Mandvi talukas of the district. It is enclosed by Bharuch district from north, by Khambhat Coast from west, by Tapi Basin from south and by Umarpada Forested Upland from east.

The relief reflects that the general slope of the region is from east to west. In the eastern portion, the elevation goes up to 67 metres while near Kosamba town the altitude is 27 metres above M.S.L. The region has the geological structure of Alluvium, blown sand, etc., Undifferentiated Eocene Beds, Sub-Nummulitic Beds and Deccan Trap. Soils are categorized as Usterts-Ochrepts type.

Umarpada Forested Upland

This small region falls in the northern part of the district and occupies part of Mangrol and Mandvi talukas. It makes its limits with Bharuch district in the north, Mangrol Plain in the west and Tapi Basin in the south and east.

The relief feature indicates that the general elevation of the region is 300 metres above M.S.L. The eastern part of the upland is relatively higher and it contains the height of 375 metres. The region is well forested and is composed of Deccan Trap formation. Soils are categorized as Orthents-Ochrepts and Usterts-Ochrepts types. The narrow guage railway line and state highway pass through this region.

Tapi Basin

The region extends over the central part of the district and occupies Nizar, Uchchhal, Songadh, parts of Mangrol, Chorasi, Mandvi, Kamrej, Bardoli and Vyara talukas. It makes its boundaries with Khambhat Coast, Mangrol Plain and Umarpada Forested Upland and Bharuch district in the north, Maharashtra state in the north-east and south-east, Mindhola-Purna Plain and Chorasi-Palsana Coastal Plain in the south and Arabian Sea in the west.

This basin is formed by Tapi river and it flows north-east to south-west direction. The central part of the region is covered under forests. Geologically, the western portion of the region is formed Alluvium, blown sand, etc., while the eastern part is of Deccan Trap and central portion having Undifferentiated Eocene Beds and Sub-Nummulitic Beds. The region has Orthids-Aquepts, Orthents-Ochrepts and Usterts-Ochrepts types of soils.

Mindhola-Purna Plain

The region covers the southern part of the district including parts of Palsana, Kamrej, Bardoli, Vyara, Songadh, Mahuva and Valod talukas. It is enclosed by Tapi Basin from north, by Kalakara Hills from east, by Valsad district from south and by Chorasi-Palsana Coastal plain from west.

The general slope of the region is east to west. The elevation of eastern portion rises up to 75 metres above M.S.L. near Vyara town and 35 metres near Bardoli town while the part of Palsana taluka is less than 35 metres. There are also some pockets of forests in the region. The geology of the region consists mainly of Deccan Trap and Alluvium, blown sand, etc., formations and soils are Usterts-Ochrepts.

Kalakakra Hills

This hilly region occupies the south-eastern part of the district and covers Vyara and Songadh talukas and part of The Dangs district. It makes its limits with Maharashtra state in the north and east, The Dangs district in the south and Mindhola-Purna in the west.

The terrain of the region is hilly and the elevation ranges between 300 metres and 500 metres above M.S.L. The western part of the region is comparatively low in altitude. The geology of region is formed of Deccan Trap formation and it has Orthents-Ochrepts and Usterts-Ochrepts soils cover.

Chorasi-Palsana coastal Plain

The region occupies the south-western part of the district and extends over parts of Chorasi and Palsana talukas. It is surrounded by Tapi Basin from west and north, by Mindhola-Purna Plain from east and by Valsad district from south.

As regards the relief, the region is the lowest one in the district and is having the elevation of 11 metres above M.S.L. in the eastern portion and about 67 metres in western portion. The region has the geological structure of Alluvium, blown sand, etc., and soils are Orthids-Aquepts and Usterts-Ochrepts.

Hills :

Surat district has minor hill ranges. It belongs to the western coastlands of the Deccan Peninsula. The main Sahyadrian stripe is a little outside the limits of the district. The eastern hilly tract is almost in the form of an arc broadly stretching from the Songadh to the south-western margins of the Dharmpur of Valsad district. In the north, near the village of Tadkeshwar, on the right of the Tapi river and further east in the Mandvi, a chain of flat topped hills underlain by trap, varying from 200 to 300 feet in height, stretch northwards to the main lines of the Rajpipla ranges.

Drainage :

There are four main rivers in this district, namely The Tapi, The Kim, the Purna and the Ambika. Among them the Tapi is the largest. It rises from the springs in the range of Satpuda hills of Madhya Pradesh State. Tapi enters on its last stage, the passage of fifty miles in a direct line, or including wide meanders, of nearly ninety miles across the Surat plain to the Arabian Sea. A Kakarapar and Ukai dam Project on it respectively in Kakarapar village and Ukai village. The Purna River, with a westerly course of about fifty miles across the Surat district, joins the sea ten miles south of the Mindhola. It mostly drained the lands of the Vyara and Gandevi. The Kim River, with a course of seventy miles in length, and drains the northern area of Surat district. It is raising in the Rajpipla hills and joins the Gulf of Khambhat. The Ambika River, after winding course of about forty miles towards the south-west, joins the Arabian Sea fifteen miles south of the Purna. This stream rising in the Bansda hills flow west-ward in two widely separated channels draining the lands of Chikhali and Jalapur. All the rivers of this district are running from east to west to meet the Arabian Sea.

Climate :

The climate of this district is characterized by a hot summer and general dryness except in the coastal region. The year may be divided into four seasons. The cold season December to February is followed by the hot season from March to May. June to September is the south-west monsoon season and two months October and November form the post monsoon season.

a) Temperature :

The statement below gives data on monthly average maximum and minimum temperature in the district for the years 1996 to 1999. It can be seen that the months of March to June are hot and maximum temperature reaches above 40°C. Minimum temperature in the district is experienced during the months of December to February when it goes down to 11°C. During the years 1996 to 1999, the highest maximum temperature is recorded at 43.2° C in May 1998. Lowest minimum temperature of 11.0°C is also recorded in the same year in January.

TEMPERATURE

(in Centigrade)

Month	1996		1997		1998		1999

b) Winds :

Winds are generally light and moderate in summer months of March, April and May. In the summer season the winds are pre-dominant in the directions between south-west and north-west. In the south-west monsoon season June to September they become stronger. Westerly to south westerly winds prevail during south west monsoon season. In October and during the months of January and February the wind are from directions between west and north-east direction. In between, the months of November and December, Surat district experiences winds from directions between north and east.

c) Rainfall :

The statement below gives data on monthly rainfall in the district for the years 1995and 1999. It is observed that July, August and September are the months when most of the rainfall of the season took place in the district during the year 1998. In the year 1999, the rainfall was spread over five months June to October. The total rainfall for the years 1998 and 1999 was 1,526.9 mm and 985.6 mm respectively

Economic Resources :

Economic resources are an important means for the subsistence of the working people in the district. The details about economic resources of important sectors are given in brief.

(1) Forestry :

According to the figures available from the Forest Department, for the year 1999-2000 out of total area of 7,657 Sq. Km. of the district, an area of about 1,423.6 sq. km. is covered by forest. Among them 1,163.2 sq. km. forest are reserved,1.97 sq. km forest are protected forest and 258.46 sq. km. forest are unclassified forest. Forest worth are found only in hillock. The forest of the district is mainly of mixed deciduous type and is rich in flora and fauna. It mostly contains teak and bamboo trees. There are many other species too, *viz., Rayan, Karanj, Jambu, Amla, Behda, Sarsado, Dhawada, Semlo, Bili, Bordi* etc.

(2) Minerals and Mining:

The known mineral wealth of Surat district is substantial though less diversified than in a few other mineral districts of the state. The pattern of mineral production is, therefore, simple. As can be seen from the statement that Lignite and Lime stone are important major mineral products in the Surat district during 1999-2000 and 2000-2001. In terms of both production of minerals and income from it, minor mineral products have significant share for all the three years for which the data is given in the statement.

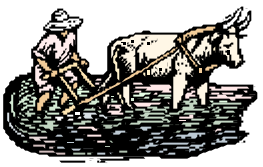

Major and Minor Mining Products and Income

Source : Commissonerate of Geology and Mining, 2001.

(3) Soil and Cropping Pattern :

Soils :

In Surat district, four types of soils are found namely Khar lands, black cotton soil, light soils and gorat soil. Khar lands followed by black cotton and light soils. The gorat soils are found on the banks of the rivers passing through the district. All the four soils of the district have been formed the alluvial deposits. Black cotton soils are known for their fertility and it is mainly found in Kamrej, Palsana, Chorasi, Mangrol, Mandvi. The light soil lies on the eastern hilly areas and along the slops of the district. It is mainly found in Songadh and Vyara talukas of this district. The gorat soils are found on the banks of both side of the four main rivers in the district running from east to west to meet the Arabian Sea. The strip of land about 1-2 miles wide on the sea coast has the Khar land soils which are though very deep almost barren due to their high salt content. These lands are mainly found in the talukas of Olpad and Chorasi lying on the Arabian Sea.

Cropping Pattern :

In the district food and non-food crops grown can be grouped under two main heads kharif and Rabi. The Kharif or the rained crops are sown in June-July and harvested in October-November. The Rabi or irrigated crops are sown in September-October and harvested in February-March. The main crops of this district are Jowar, Bajri, wheat, rice, maize, groundnut, cotton, sugarcane, chillies and fodder.

(4) Land and Land use Pattern :

The total land in the district is 7,657 sq km of which 7,090.5 sq km land is in rural areas. It can be seen from the statement given below that forest is 14.7 per cent of the total rural area of the district. Irrigated area is 30.3 per cent and unirrigated cultivable area is 26.6 per cent of total rural area of the district.The land classification according to the different uses for the rural areas of the district for the year 1999 is given below on the basis of information collected from the Village Directory.

Land Classification of Rural Areas

(in '00 hectares)

Sl. No.	Classification	Area (As on 31-3-99)
1	2	3
1	Forest	1,041.3
2	Irrigated	2,148.2
3	Unirrigated	1,887.1
4	Cultivable waste (including Gauchar and Groves)	499.6
5	Area not available for cultivation.	1,514.2
	Total	**7,090.5**

Source : Village Directory, 2001.

(5) Tenancy:

There was no separate Act on tenancy in the former Bombay State before 1939. There were provisions of Section 83 of Land Revenue Code and Mamlatdar Court law only. The tenant was

not secured of his tenancy rights in the Act. This tenancy lease was considered yearly and had to pay tenancy as per tradition or according to the agreement made with the land owner. In order to protect the tenants, The Bombay Tenancy Act, 1939 came into force in the erstwhile Bombay State After the independence of the country, it was necessary that the country is self-sufficient in agricultural production. It can be done only when the tillers of the land should have some definite rights over the land. With a view to effect control on efficient utilization of agricultural land and also to protect the tenants further and also to accept a definite policy and view for the country on agricultural land, The Bombay Tenancy and Agricultural Land Act, 1948 was enacted and it was brought into force since then.The Act of 1948 was amended five times. An important provision of 'Farmer Day' was inserted in the Act on 1-8-1956. According to this provision, if any person legally tilled the land of other person on 01-04-1957, he was entitled to purchase the said land. Even though after Gujarat State was separeted from Bombay State in 1960, the said act applied to it is as well.

Tenant means the person who held land on lease viz.,

(1) Tenant as per Section 4;

(2) Protected tenant

(3) Permanent tenant

(4) The person who continued to possess the land with or without the consent of the land owner after appointed date and up to specified date or it is considered that he continued the possession of the land

In all 1,049,056.4 hectares of land have been released and distributed to total of 1,278,125 beneficiaries under the The Bombay Tenancy and Agricultural Lands Act, 1948 in entire Gujarat State. Among the beneficiaries 177,171 were from Scheduled Castes, 258,132 from Scheduled Tribes and 842,822 were under 'Others' category. In Surat district, in all 135,769.6 hectares of land have been released and distributed to total 159,038 numbers of beneficiaries. Among these 26,157 belongs to Scheduled Castes who were alloted 17,530.2 hectares of land, 127,670 belong to Scheduled Tribes who were allotted 110,934.4 hectares of land and 5,211 beneficiaries were under 'Others' category who were alloted 7,305.0 hectares of land.

(6) Agriculture :

a) Area under Major Crops :

Area sown under major crops in the district during years 1993-94 and 1997-98 are given in the statement below. It can be seen from the statement that for the years under reference, maximum area sown was under cash crops (sugarcane) 123,700 hectares and 134,500 hectares respectively for the years 1993-94 and 1997-98. Among foodgrains, the maximum area sown was under jowar 80,200 hectares in 1993-94 and under paddy 97,700 hectares in 1997-98. The area sown under groundnut was 27,900 hectares in 1993-94 and 22,400 hectares in 1997-98.

Area under Major Crops

(in '00 hectares)

Sl. No.	Name of Crop	Area under Major Crops	
		1993-94	1997-98
1	2	3	4
1	Paddy	781	977
2	Wheat	111	60
3	Bajri	13	3
4	Jowar	802	718
5	Ragi	13	6
6	Other cereals	39	33
7	Gram	21	26
8	Other pulses	528	440
9	Sugarcane	1,237	1,345
10	Groundnut	279	224
11	Cotton	44	62

Source : Season and Crop Report, Directorate of Agriculture, 1999

b) Average Yield per Hectare :

The average yield per hectare of the principal crops in the district during the year 1993-94 and 1997-98 is shown below.

Average Yield per Hectare

(In Kgs)

Sl. No.	Name of Crop	Average Yield per Hectare	
		1993-94	1997-98
1	2	3	4
1	Bajri (Kharif)	411	1,144
2	Jowar(Kharif)	1,506	1,437
3	Jowar(Rabi)	554	914
4	Paddy (summer)	2,962	3,066
5	Paddy	1,760	1,776
6	Wheat	1,994	1,558
7	Groundnut	1,108	1,179
8	Cotton	518	526
9	Sugarcane	7,500	6,236
10	Ragi	608	651

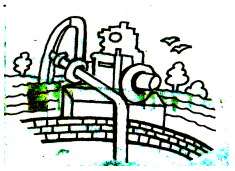

Source: Season and Crop Report Directorate of Agriculture, 1999

It can be seen from the above statement that for the crops paddy, ragi, groundnut and cotton, the average yield per hectare had remained almost at same levels for the years under reference, while for the crop bajri(kharif) the average yield increased significantly in 1997-98 as compared to the year 1993-94.

(7) Irrigation :

Source of Irrigation :

The statement below gives area under irrigation by source in the district for the years 1993-94 and 1996-97.

Area under Irrigation by Source

(In '00 hectares)

Sl. No.	Source of Irrigation	1993-94		1997-98	
		Net	Gross	Net	Gross
1	2	3	4	5	6
1	Govt canals	1,328	1,580	1,506	1,744
2	Tanks	1	2	3	4
3	Wells	477	558	584	677
	Total	**1,806**	**2,140**	**2,093**	**2,425**

Source : Season and Crop Report, Directorate of Agriculture, 1999

It is seen that the main source of irrigation in the district was government canals for the years under reference with 158,000 hectares and 174,400 hectares of gross irrigated area under canal irrigation.

(8) Animal Husbandry :

a) Livestock :

Cattle wealth occupies a pivotal place in the rural economy of the district. According to the livestock census of 1992 and 1997, the live stock population in the district is indicated below.

Livestock

Sl. No.	Livestock	Year	
		1992	1997
1	2	3	4
A	**Total Livestock**	**783,061**	**958,646**
1	Cattle (Cross breed)	22,076	39,963
	(a) Male over 2.5 years	1,716	3,987
	(b) Female over 2.5 years	11,791	20,952
	(c) Youngstock	8,569	15,024
2	Cattle (Indigenous)	341,130	322,422
	(a) Male over 3 years	150,342	122,503
	(b) Female over 3 years	99,686	109,634
	(c) Youngstock	91,102	90,285
3	Buffaloes	251,487	329,468
	(a) Male over 3 years	3,251	6,056
	(b) Female over 3 years	155,512	204,351
	(c) Youngstock	92,724	119,061
4	Sheep	3,393	3,850
5	Goats	156,755	182,679
6	Horses and ponies	284	596
7	Camels	17	80
8	Pigs	6,177	26,282
9	Other livestock	1,742	53,306
B	**Poultry**	**641,892**	**768,711**

Source : (1) Directorate of Economics and Statistics, Livestock Census, 1992

(2) Directorate of Animal Husbandry, Livestock Census, 1997

The statement indicates that there is an increase of the total livestock from 783,061 in the year 1992 to 958,646 in 1997. The rise in the total livestock is mainly contributed by the increase in cross breed cattle - from 22,076 in 1992 to 39,963 in 1997,buffaloes from 251,487 in 1992 to 329,468 in 1997. Increase in goats, pigs and other livestock can also be seen in 1997 as compared to 1992. Poultry birds also have shown significant increase during the period.

b) Agricultural Implements :

According to the livestock census conducted in the State, the comparative data for agricultural implements for the years 1992 and 1997 are shown in the following statement.

Agricultural Implements

Sl. No.	Name of Agricultural Implements	Year	
		1992	1997
1	2	3	4
1	**Plough**	**100,124**	**93,942**
	(a) Wooden	72,248	65,665
	(b) Iron	27,876	28,277
2	Carts	35,529	30,655
3	Oil engines	10,702	12,301
4	Electric Motors & Pumps	7,674	7,997
5	Tractors	4,557	7,084
6	Wheat Thresher	113	-

Source : (1) Directorate of Economics and Statistics, Livestock Census, 1992

(2) Directorate of Animal Husbandry, Livestock Census, 1997

It is seen that the use of traditional implements like ploughs decreased from 100,124 in 1992 to 93,942 in 1997, while the use of tractors increased to 7,084 in the year 1997 from 4,557 in the year 1992. There were 12,301 oil engines used for agricultural purposes during the year 1997.

(9) Fisheries :

The district has a coastal-line of about 83 km. Fisheries of Surat district are divided into three broad categories viz. marine, estuarine and fresh water fisheries. Marine fisheries of the district cover the entire coastal region of the Gulf of Khambhat from the Kim in the north to Damanganga in south. The estuarine fisheries are spread over the tidal portions of the all rivers of the district. Fresh water fisheries are confined to such portion of these rivers within *the district. The main* fishes of this district are *Shark, Zinga, Magra, Vehar,* Hilsha and *Mandeli*. The important fisheries statistics for the district are given as under for the years 1997-98 and 1998-99

Fisheries Activities

Sl. No.	Item	Year	
		1997-98	1998-99
1	2	3	4
1	Total Number of Fishing boats	1,850	1,871
2	Total Number of Fishing nets	305,224	305,224
3	Fish production (In tonnes)	23,752	24,068
4	Number of active fishermen	25,685	25,685
5	Fishermen primary Co-operative Societies (Number)	37	40
6	Membership of fishermen's primary Co-operative Societies	8,527	15,390
7	Paid up share capital of fishermen's Co-operative societies (In 00 Rs.)	1,229.57	1,363.67

Source: Commissionerate of Fisheries, 2000

It can be observed that there were 1,871 fishing boats and 305,224 fishing nets in the Surat district during the year 1998-99. The fish production was at 24,068 tones and number of active fishermen were 25,685 during 1998-99.There was no significant rise in fishing activity in terms of fish production or number of active fishermen during 1998-99 as compared to the year 1997-98 but the membership in fisheries primary Co-operative societies has increased from 8,527 in 1997-98 to 15,390 in the year 1998-99.

(10) Industry :

Statement below gives major industrial group with number of establishments and average daily employment therein at the end of years 1998 and 1999 for the district.

Distribution of Important, Industrial Establishments by Major Industrial Group

Sl. No.	Major Group of NIC (National Industrial classification)	Description of Manufacture	As on 31.12.98		As on 31.12.99	
			Number of Establishment	Average Number of persons working per day	Number of Establishment	Average Number of persons working per day
1	2	3	4	5	6	7

20		Other Industries	58	2,508	51	2,195
		Total	**2,201**	**117,361**	**1,990**	**111,339**

Source : Chief Inspector of Factories,2000

The statement indicates that the industrial group of wool, silk and man-made fiber textiles has been the major industry group in the district in terms of both number of establishments and average daily employment as on 31st December 1998 and 31st December 1999. Out of 2,201 establishments in 1998 there were 1,258 establishments for wool, silk and man-made fibre textiles in 1998 while out of 1990 establishments there were 1,118 establishments in 1999. Average daily employed persons in these establishments for the respective period was 57,986 and 54,316 whereas the same for all industrial groups

taken together was 117,361 and 111,339 as at the end of the years 1998 and 1999. Food products, Basic chemical and chemical products (except products of petroleum and coal), Machinery and equipment other than transport equipment, Metal products and parts except machinery and equipments Rubber, plastic, petroleum and coal products processing and nuclear fuels are other important industrial groups in the district.

(11) Trade and Commerce :

The major commodities manufactured in Surat district are art silk cloth, polyester cloth, fertilizer, natural gas and plastic and PVC products. These are also the major items exported from the district. Finished diamonds after cutting is also a major item of export from the district. The important commodities manufactured and exported out of district from various towns are mentioned in table 47. Statement below gives data on availability of banking facilities in talukas of the district. It is observed that total 94 villages of the Surat district have banking facilities. There are 98 commercial and 41 co-operative banking institutions in the district.

Banking :

Villages Having Banking Facility

Source : Banking Statistics, Basic Statistical Returns, Volume 28, March, 1999.

Statement above gives occupation wise classification of outstanding credit of commercial banks, as on 31st March 1999 for Surat district and the Gujarat state. It is seen that the total outstanding bank credit for Surat district was Rs.188,647 lakhs with 132,798 number of accounts. It can be seen that direct finance for occupations under 'Industry' had maximum outstanding credit of Rs 124,826.4 lakhs with 14,763 accounts. Within the major group 'Industry', subgroup 'Manufacturing and Processing' had Rs.1,06,956 lakhs of outstanding credit with 14,666 accounts as on 31st March, 1999.

(12) Transport and Communication :

Transport and Communication facilities are considered as administrative necessity as well as a public convenience. Moreover; a well-knit transportation system is a pre-requisite for the social and economic development of any district.

a) Road :

The linking of one place with other by road is very essential to provide good transport system. According to the classification of road, made by the Indian Road Congress, road length in the district by category is given below for the years 1998-1999 and 1999-2000. According to 2001 census, 1,036 villages and 18 towns are connected with pucca roads and 706 villages are connected with kuchcha roads in the Surat district.

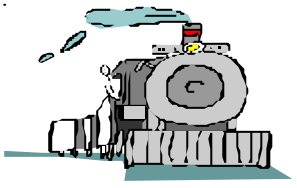

Road Length of Different Categories

Sl. No	Year	Type of Road (in Kms.)										
		Highway				District Roads				Village Roads		Total
		National		State		Main		Other				
		GOVT. DN	PNCH DN	GOVT. DN	PNCH DN	GOVT. DN	PNCH DN	GOVT. DN	PNCH DN	GOVT DN	PNCH DN	
1	2	3	4	5	6	7	8	9	10	11	12	13
1	1998-1999	149	0	1,072	0	120	876	115	455	23	1,302	4,112
2	1999-2000	149	0	1,072	0	120	876	115	455	24	1,302	4,113

Source : Roads and Buildings Department, Gandhinagar, 2001
Note : GOVT. DN = Government Division.
PNCH. DN = Panchayat Division.

b) Railway :

There are 33 villages having railway facilities in Surat district. Total length of railway line in the district is 380 kms. There are 14 stations on broad gauge line and 39 stations on meter gauge line. Bombay Delhi broad gauge line passes through the district.

c) Ports :

The district has 3 important ports. Among them Hajira and Magdalla are intermediate ports whereas Bhagwa is minor port. All the ports are operative in all seasons. Fertilizer, sulphur, iron scrapes and rock phosphet are the main items imported at these ports whereas salt, bentonite, onion and oil cake are principal items of exports through these ports.

d) Posts and Telegraphs :

The following statement shows the number of villages in the district possessing post, telegraph and phone facilities. As regards rural areas of the district, the facilities of post, telegraphand telephone are available respectively in 704, 25 and 682 villages.

Communications Facilities

Sl. No.	Type of Communication Amenities	Number of Villages having facilities
1	2	3
1	Post offices	704
2	Telegraph offices	25
3	Telephone	682

Source: Village Directory, 2001

e) State Road Transport :

Out of total 1,167 inhabited villages of the district, 1,040 villages are covered under road transport network of Gujarat State Road Transport Corporation upto 1998-99.

Number of Villages having bus facility

Sl.No.	Year	Number of villages
1	2	3
1	1998-99	1,040

Source: Village Directory, 2001

(13) Electricity :

Electricity is the chief necessity for the economic development of the district. The main source for power supply in th district is Gujarat Electricity Board. Out of 1,167 inhabited villages, 1,165 villages and all towns are electrified in the district.

(14) Gram Panchayats, its composition, jurisdiction and role in the Development of Village and itsEconomy :

The system of Panchayati Raj was introduced in the year 1963 in Gujarat State. Under this set up, the three tier system was introduced namely, The District Panchayat, The Taluka Panchayat and The Gram Panchayat.

Gram Panchayat is an important institution of self-government. The Gram Panchayat is formed for a village or a group of Villages. The Gram Panchayat is constituted for a local area with the population of less than 10,000. Such local area may be revenue village or a group of revenue villages or hamlets forming part of a revenue village or such other administrative unit or part of thereof. The number of members of Gram Panchayat varies from 9 to 15. The tenure of Gram Panchayat is of five years. The people of village elect Sarpanch and Vice-Sarpanch (Up-Sarpanch) and other members of the Panchayat. Various Committees like; Social Justice Committee and Standing Committee are formed. In the year 1993 Government of India enacted 73rd Constitutional Amendment regarding provisions of Panchayati Raj and implementation of this Act in Gujarat started from 15th April 1994. By this constitutional amendment, Panchayats are given constitutional status. Regular and timely election, participation of women and backward classes, formation of separate State Election Commission and rotation system in electing the heads of the various committees are other significant amendments in the act. Decentralised planning process and active participation of people is the soul of the Panchayati Raj Act. The powers for decentralised planning, implementation and development are delegated to the Panchayats.

The primary functions of the District/Taluka Panchayats are providing facilities for primary education, health, drinking water, electricity, constructions and maintenance of roads, bridges etc., maintenance of Gauchars, organising relief work at the time of scarcity and drought situation, sanitation and social welfare. Arrangements for housing facilities for below poverty line people and rural development schemes are implemented by Panchayats. Gram Panchayats also implement important programmes like, 'food for work' and other programmes beneficial for the local people. Thus, Panchayats play an important role in the development of village and its economy. There are 13,761 Gram Panchayats in Gujarat State. Out of 1,167 villages in Surat district there are 176 group Gram Panchayats and 709 independent Gram Panchayats. Dadhwada is having maximum of 12 villages in group Gram Panchayat.

(v) Census Concepts :

Building :

A 'building' is generally a single structure on the ground. Sometimes it is made up of more than one component unit which are used or likely to be used as dwellings (residences) or establishments such as shops, business houses, offices, factories, workshops, work sheds, schools, places of entertainment, places of worship, godowns, stores,

etc. It is also possible that buildings which have component units may be used for a combination of purposes such as shop-cum-residence, workshop-cum-residence office-cum-residence, etc.

Usually a structure will have four walls and a roof. But in some areas the very nature of construction of houses is such that there may not be any wall. Such is the case of conical structures where entrance is also provided but they may not have any walls. Therefore, such of the conical structures are also treated as separate building.

Permanent Houses :

Houses, the walls and roof of which are made of permanent materials. The Material of wall can be anyone from the following namely Galvanized iron sheets or other metal sheets, Asbestos sheets, burnt bricks, stones or concrete. Roof may be made of from any one of the following materials namely tiles, slate, galvanized iron sheets, metal sheets, asbestos sheets, bricks, stones or concrete.

Semi-permanent Houses :

Houses in which either wall or roof is made of permanent materials and the other is made of temporary material.

Temporary Houses :

Houses in which both walls and roof are made of materials, which have to be replaced frequently. Walls may be made from any one of the following temporary materials, namely, grass, thatch, bamboo, plastic, polythene, mud, unburnt bricks or wood. Roof may be made from any one of the following temporary materials, namely, grass, thatch, bamboo, wood, mud, plastic or polythene.

Dwelling Room :

A room is treated as a dwelling room if it has walls with a doorway and a roof should be wide and long enough for a person to sleep in, i.e., it should have a length of not less than 2 meters and a breadth of at least 1.5 meters and a height of a 2 meters. A dwelling room would include living room, bedroom, dining room drawing room study room, servant's room and other habitable rooms. Kitchen, Bathroom, latrine, Store-room, passage-way and verandah which are not normally usable for living are not considered as dwelling rooms. A room used for multipurpose such as sleeping, sitting, dining, storing, cooking, etc., is regarded as a dwelling room. In a situation where a census houses is used as a shop or office. etc., and the household also stays in it then the room is not considered as a dwelling room. But if a garage or servant quarter is used by a servant and if she/he also lives in it as a separate household then this has been considered as a dwelling room available to the servants household tent or conical shaped hut if used for living by any household is also considered as dwelling room.

A dwelling room which is shared by more than one household has not been counted for any of them. If two household have a dwelling room each but in addition also share a common dwelling room. Then the common room has not been counted for either or of the household.

Census House :

A 'Census House' is a building or part of a building used or recognized as a separate unit because of having a separate main entrance from the road or common courtyard or, staircase, etc. It may be occupied or vacant. It may be used for a residential or non-residential purpose or both.

In certain peculiar situations, the manner in which buildings and census houses were identified for numbering in the field by the enumerators is described hereunder.

Sometimes a series of a different buildings are found along a street which are joined with one another by common walls on either side looking like a continuous structure. These different units are practically independent of one another and are likely to have been built at different times and owned by different persons. In such cases, though the whole structure with all the adjoining units apparently appears to be one building, each portion was treated as a separate building and its constituent units as separate census houses.

On the other hand, one may come across cases, particularly in large cities of multi-storied ownership flats. In these cases while the structure looks like one building, different persons own the flats. In case of such multi-storied structures, having a number of flats owned by different persons, the entire structure was treated as one building and each flat as a separate census house.

If within a large enclosed area, there are separate buildings owned by different persons then each such building is treated as a separate building. There can be a situation where within an enclosed compound there are separate buildings owned by an undertaking or company or even government that are actually in occupation of different persons. For example, Indian Oil Corporation colony where the buildings are owned by the Corporation but these are in occupation of their employees. Each such building was treated as a separate building. But if in any one of these buildings there were flats in occupation of different households, each such flat was reckoned as a separate census house.

Sometimes if becomes difficult to apply the definition of census house strictly in certain cases. For example, in an urban area, if a flat has five rooms, each room having direct entrance from the common staircase or courtyard. By definition, this has to be treated as five census houses. If all these five rooms are occupied by a single household it was not realistic to treat them as five census houses. In such a case, 'singleness' of use of these rooms along with the main house should be considered and the entire flat was treated as one census house. On the other hand, if two independent households occupy these five rooms, the first household living in 3 rooms and the second household occupying 2 rooms, then considering the use, the first three rooms together were treated as one census house and the remaining rooms as another census house. But if each room was occupied by an independent household, then each such room was treated as a separate census house.

In case of hostels, hotels, etc., even if the door of each room in which an inmate lives opens to a common verandah, staircase, courtyard or a common room, as it happens almost invariably, the entire hostel/ Hotel building was treated as one census house. but if such hostels/ hotels have out-houses or other structures used for different purposes or the same purpose, then each such structure attached to the main hostel/hotel was treated as a separate census house.

In some parts of the country, in rural areas, the pattern of habitation is such that a group of huts, located in a compound, whether enclosed or unenclosed, is occupied by one household. While the main residence may be located in one hut, other huts may be used for sleeping, as a kitchen, bath room, *baithak*, etc. Though each of the huts was a separates structure, they form a single housing unit and therefore, have to be treated collectively as one building and one census house. If some of the huts are used by one household and the others by a second household as residence, then the two groups of huts were treated as separate census houses. However, if there were also other huts in the compound used for other purposes and not as part of the household's residence such as, cattle shed, work shed, etc., these were treated as separate census houses.

On the other hand, in urban areas, where more than one structure within an enclosed or open compound (premises) belonging to the same person, e.g., the main house, the servant's quarter, the garage, etc., only one building number was given for this group and each of the constituent a separate census house number.

Only cases where a structure with roof and pillars has come up was treated as a building.

Village :

The basic unit for rural areas is the revenue village, which has definite surveyed boundaries. The revenue village may comprise of one or more hamlets but the entire village is treated as one unit for presentation of data.

In unsurveyed areas, like villages within forest areas, each habitation area with locally recognized boundaries is treated as one village.

Town/Urban Area :

The following areas are treated as towns/urban areas :

(a) All places with a municipality, municipal corporation, cantonment board or notified town area committee, etc.

(b) All other places which satisfy or are expected to satisfy the following criteria simultaneously;

i) A minimum population of 5,000;

ii) At least 75 per cent of the male working population engaged in non-agricultural pursuits; and

iii) A density of population of at least 400 per square kilometre (1,000 per square mile).

City :

Towns with population of 1,00,000 and above are called cities.

Urban Agglomeration :

An Urban Agglomeration is a continuous urban spread constituting a town and its adjoining urban outgrowths (OGs) or two or more physically contiguous towns together and any adjoining urban outgrowths of such towns. In some cases railway colonies, university campuses, port areas, etc., may come up near a city or statutory town outside its statutory limits but within the revenue limits of a village or villages contiguous to the town or city. Each such individual area by itself may not satisfy the minimum population limit to qualify it to be treated as an independent urban unit but may deserve to be clubbed with the town as a continuous urban spread.

For the purpose of delineation of Urban Agglomerations during Census of India 2001, following criteria are taken as pre-requisites:

(a) The core town or at least one of the constituent towns of an urban agglomeration should necessarily be a statutory town; and

(b) The total population of all the constituents (i.e., towns and outgrowths) of an Urban Agglomeration should not be less than 20,000 (as per the 1991 Census).

With these two basic criteria having been met, the following are the possible different situations in which Urban Agglomerations would be constituted:

i) a city or town with one or more contiguous outgrowths;

ii) two or more adjoining towns with their outgrowths; and

iii) a city and one or more adjoining towns with their outgrowths all of which form a continuous spread.

Household :

A 'household' is usually a group of persons who normally live together and take their meals from a common kitchen unless the exigencies of work prevent any of them from doing so. Persons in a household may be related or unrelated or a mix of both. However, if a group of unrelated persons live in a census house but do not take their meals from the common kitchen, then they are not constituent of a common household. Each such person was to be treated as a separate household. The important link in finding out whether it was a household or not was a common kitchen. There may be one member households, two member households or multi-member households.

Institutional Households :

A group of unrelated persons who live in an institution and take their meals from a common kitchen is called an Institutional Household. Examples of Institutional Households are boarding houses, messes, hostels, hotels, rescue homes, jails, ashrams, orphanages, etc. To make the definition more clearly perceptible to the enumerators at the Census 2001, it was specifically mentioned that this category or households would cover only those households where a group of unrelated persons live in an institution and share a common kitchen.

Houseless Household :

Households who do not live in buildings or census houses but live in the open on roadside pavements, in hume pipes, under flyovers and staircases, or in the open in places of worship, mandaps, railway platforms, etc., are treated as Houseless Household.

Scheduled Castes and Scheduled Tribes :

Article 341(1) of the Constitution provides that the President may, with respect to any State or Union territory, specify the castes, races or tribes or parts of or groups within castes, races or tribes which shall for the purposes of the Constitution be deemed to be Scheduled Castes in relation to that State or Union territory. Article 342(1) similarly provides for specification of tribes or tribal communities or parts of or groups within tribes or tribal communities, which are to be deemed for the purposes of the Constitution to be Scheduled Tribes in relation to the various States and Union territories. In pursuance of these provisions, the list of Scheduled Castes and / or Scheduled Tribes are notified for each State and Union territory and are valid only within the jurisdiction of that State or Union territory and not outside.

It is important to mention here that under the Constitution (Scheduled Castes) Order, 1950, no

person who professed a religion different from Hinduism was deemed to be a member of a Scheduled Caste in addition to every member of the Ramdasi, Kabirpanthi, Majhabi or Sikligar caste resident in Punjab or Patiala and East Punjab States Union were in relation to that State whether they professed the Hindu or the Sikh religion. Subsequently, in September 1956, by an amendment, the Presidential Order of 1950 and in all subsequent Presidential Orders relating to Scheduled Castes, the Hindu and the Sikh religions were placed on the same footing with regard to the specification of Scheduled Castes. Later on, as per the amendment made in the Constitution (Scheduled Castes) Order 1990, the Hindu, the Sikh and the Buddhist were placed on the same footing with regard to the recognition of the Scheduled Castes.

The lists containing the names of the Scheduled Castes and the Scheduled Tribes applicable for the Census of India 2001 in the State is given below.

List of Scheduled Castes :

1. Ager
2. Bakad, Bant
3. Bawa-Dedh, Dedh Sadhu
4. Bhambi, Bhambhi, Asadaru Asodi, Chamadia, Chamar Chambhar, Chamgar, Haralayya, Harali, Khalpa, Machigar, Mochigar, Madar, Madig, Mochi, Nalia, Telegu Mochi, Kamati Mochi, Ranigar, Rohidas, Rohit, Samgar.
5. Bhangi, Mehtar, Olgana, Rukhi, Malkana, Halalkhor, Lalbegi, Balmiki, Korar, Zadmalli.
6. Chalvadi, Channayya
7. Chenna Dasar, Holaya Desar
8. Dangashia
9. Dhor, Kakkayya, Kankayya
10. Garmatang
11. Garoda, Garo
12. Halleer
13. Halsar, Haslar, Hulasvar, Halasvar
14. Holar, Valhar
15. Holaya, Holer
16. Lingader
17. Mahar, Taral, Dhegu Megu
18. Mahyavansi, Dhed, Dhedh, Vankar, Maru Vankar, Antyaj
19. Mang, Matang, Minimadig
20. Mang-Garudi
21. Meghaval, Meghwal, Menghvar
22. Mukri
23. Nadia, Hadi
24. Pasi
25. Senva, Shenva, Chenva, Sedma, Rawat
26. Shemalia
27. Thori
28. Tirgar, Tirbanda
29. Turi
30. Turi Barot, Dedh Barot

List of Scheuled Tribes :

1. Barda
2. Bavacha, Bamcha
3. Bharwad (In the Nesses of the forests of Alech, Barada and Gir)*
4. Bhil, Bhil Garasia, Dholi-Bhil, Dungri Bhil, Dungri Garasia, Mewasi Bhil, Rawal Bhil, Tadvi Bhil, Bhagalia, Bhilala, Pawra, Vasava, Vasave.
5. Charan (In the Nesses of the forests of Alech, Barada and Gir) *
6. Chaudhri (In Surat and Valsad districts)
7. Chodhara
8. Dhanka, Tadvi, Tetaria, Valvi
9. Dhodia
10. Dubla, Talavia, Halpati
11. Gamit, Gamta, Gavit, Mavchi, Padvi
12. Gond, Rajgond
13. Kathodi, Katkari, Dhor Kathodi, Dhor Katkari, Son Kathodi, Son Katkari
14. Kokna, Kokni, Kukna
15. Koli (In Kachchh district)
16. Koli Dhor, Tokre Koli, Kolcha, Kolgha
17. Kunbi (In The Dangs District)
18. Naikda, Nayaka, Cholivala Nayaka, Kapadia Nayaka, Mota Nayaka, Nana Nayaka
19. Padhar
20. Paradhi (In Kachchh district)
21. Pardhi, Advichincher, Phanse Pardhi (Excluding Amreli,Bhavnagar, Jamnagar, Junagadh, Kachchh, Rajkot and Surendranagar districts)
22. Patelia

23. Pomla
24. Rabari (In the Nesses of the forests of Alech, Barada and Gir)*
25. Rathawa
26. Siddi (In Amreli, Bhavnagar, Jamnagar, Junagadh, Rajkot and Surendranagar Districts)
27. Vaghri (in Kachchh district)
28. Varli
29. Vitola, Kotwalia, Barodia

* The area comprised of Jamnagar and Junagadh districts

Language and Mother Tongue :

As per the census concept, each language is a group of mother tongues. The census questionnaire collects information on the mother tongue of each person and mother tongue is defined as the language spoken in childhood by the person's mother to the person. If the mother died in infancy, the language mainly spoken in the person's home in childhood will be the mother tongue. In the case of infants and deaf mutes, the language usually spoken by the mother is considered as mother tongue. It is not necessary that the language spoken as mother tongue should have a script. The mother tongues returned by the respondents in census are classified and grouped under appropriate languages according to their linguistic characteristics.

Literate :

A person age 7 years and above who can both read and write with understanding in any language is taken as literate. A person who can only read but cannot write is not literate. It is not necessary that to be considered as literate, a person should have received any formal education or passed any minimum educational standard. Literacy could also have been achieved through adult literacy classes or through any non-formal educational system. People who are blind and can read in Braille are treated as literates.

Literacy Rate :

Literacy rate of the population is defined as the percentage of literates in the age group seven years and above. For different age groups the percentage of literates in that age group gives the literacy rate.

Educational Level :

The highest level of education a person has completed.

Work :

Work is defined as participation in any economically productive activity with or without compensation, wages or profit. Such participation may be physical and/or mental in nature. Work involves not only actual work but also includes effective supervision and direction of work. It even includes part time help or unpaid work on farm, family enterprise or in any other economic activity. All persons engaged in 'work' as defined above are workers. Persons who are engaged in cultivation or milk production even solely for domestic consumption are also treated as workers.

Reference period for determining a person as worker and non-worker is one year preceding the date of enumeration.

Main Worker :

A person who has worked for major part of the reference period (i.e. six months or more during the last one year preceding the date of enumeration) in any economically productive activity is termed as "Main worker".

Marginal Worker :

A person who worked for less than six months of the reference period (i.e. in the last one year preceding the date of enumeration) in any economic activity is termed as 'Marginal- worker'

Non Worker :

A person who has not worked at all in any economically productive activity during the reference period (i.e. last one year preceding the date of enumeration) is termed as 'Non worker'.

Cultivator :

For purposes of the Census a person is classified as cultivator, if, he or she is engaged in cultivation on land owned or held from government or held from private persons or institutions for payment in money, kind or share. Cultivation includes effective supervision or direction in cultivation.

A person who has given out her/his land to another person or persons or institution(s) for cultivation for money, kind or share of crop and who does not even supervise or direct cultivation in exchange of land, is not treated as cultivator.

Similarly, a person working on another person's land for wages in cash or kind or a combination of both (agricultural labourers) is not treated as cultivator.

Cultivation involves ploughing, sowing, harvesting and production of cereals and millet crops such as wheat, paddy, *jowar, bajra, ragi*, etc., and other crops such as sugarcane, tobacco, groundnuts, tapioca, etc., and pulses, raw jute and kindred fiber crop, cotton, cinchona and other medicinal plants, fruit growing, vegetable growing or keeping orchards or groves, etc. Cultivation does not include the following plantation crops – tea, coffee, rubber, coconut and betel-nuts (area).

Agricultural Labourer :

A person who works on another person's land for wages in money or kind or share is regarded as an agricultural labourer. She/he has no risk in the cultivation, but merely works on another person's land for wages. An agricultural labourer has no right of lease or contract on land on which she/he works.

Household Industry Worker :

Household industry is defined as an industry conducted by the head of the household herself/ himself and or by the members of the household at home or within the village in rural areas and only within the precincts of the house where the household lives in urban areas. The larger proportion of workers in household industry should consist of members of the household including the head. The industry should not be run on the scale of a registered factory which would qualify or has to be registered under the Indian Factories Act and should be engaged in manufacturing, processing, servicing and repairs of goods.

It does not include professions such as a pleader, Doctor, Musician, Dancer, Waterman, Astrologer, Dhobi, Barber, etc. or merely trade or business, even if such professions, trade or services are run at home by members of the household.

Other Worker :

A person who has been engaged in some economic activity during the reference period but not as a cultivator or agricultural laborer or in Household Industry is termed as an 'Other-Worker (OW)'. The type of workers that come under this category of 'OW' include all government servants, municipal employees, teachers, factory workers, plantation workers, those engaged in trade, commerce, business, transport, banking, mining, construction, political or social work, priests, entertainment artists, etc. In effect, all those workers other than cultivators or agricultural laborers or household industrial workers, are 'Other Workers'.

Work Participation Rate :

Percentage of workers (main + marginal) to total population

Population Density :

Population density is the number of persons inhabited per square kilometer of the area.

Age :

Age is measured in terms of the completed number of years.

Sex Ratio :

Numbers of females per 1,000 males in a population.

(vi) Non Census Concepts :

Improved Drinking Water :

If the household had access to drinking water supplied from a tap, hand pump, tube well or well (protected or covered) situated within or outside the premises, it is considered as having access to improved drinking water.

System of Sewerage :

Generally, a sewerage system would mean a network of mains and branches of underground conduits for the conveyance of sewerage to the point of disposal. Sewers that carry only household and industrial wastage are called separate sewers; those that carry storm water from roofs, streets and other surfaces are known as storm water drains, while those carrying both sewage and storm water are called combined sewers. However, in some towns, which are, not provided with such underground sewerage system, it is served by open surface drain, box drain, silk pattern drain, etc., in these towns.

Type of Latrine and Method of Disposal of Night Soil :

There are three prevalent systems of disposal of human wastes, viz.(i) underground sewerage, (ii) sanitary water flush latrines with individual disposal systems, like septic tank, leaching cess pool and collecting well, and (iii) dry type of latrines with manual scavenging.

The system of underground sewerage provides for the street sewerage with which are connected the sanitary latrines constructed in the houses having water closets and fitted with flushing cistern (or hand flushing). Through this sewer the faucal matter is transported without the need for scavenging. This system generally exists in cities and big towns.

Where the streets sewer does not exist these sanitary water flush latrines are connected to a local septic tank with a sub-soil dispersion system or a leaching pit. Here the liquid wastes from the water closet is disposed of locally in leaching pit, a septic tank with a soil dispersion system is constructed. This dispersion requires an optimum travel through the pores of the soil, which renders the harmful liquid bacterially innocuous by the slow process of filtration through the soil traversed.

Where the soil is impermeable, collecting wells are constructed and the sanitary water flush latrines are connected with them. These wells are cleaned at periodic intervals by a suitable device. The dry type of latrines are of service type latrines from where human excreta is removed by scavengers from house to house, in most cases carrying it on their heads or shoulders or in baskets with handle or wheel barrows. These are then collected in bullock carts or trucks or tractors and trolleys for being carried to the dumping grounds.

Fertility :

In demography, the word fertility is used in relation to the actual production of children or occurrence of births specially live births. Fertility is a measure of rate at which population adds to itself by births and normally assessed by relating the number of births to a full or part of the population, such as number of married women or number of women of child bearing age. The definitions of the terminology used in computing different fertility rates are mentioned below.

Crude Birth Rate (CBR) :

Ratio of the numbers of live births in a year to the mid year population. (normally expressed per 1,000 population).

$$CBR = \frac{\text{Numbers of live births during the year}}{\text{Mid –year Population}} \times 1{,}000$$

Crude Death Rate (CDR) :

Ratio of the numbers of deaths in a year to the mid year population, normally expressed per 1,000 population.

$$CDR = \frac{\text{Numbers of deaths during the year}}{\text{Mid –year Population}} \times 1{,}000$$

Natural Growth Rate(NGR) :

Natural Growth rate is obtained as the difference between crude birth rate and crude death rate in the absence of migration.

$$NGR = CBR - CDR$$

Age - Specific Fertility Rate (ASFR) :

Number of live births in a year to female population in any specified age group normally expressed per 1,000 women.

$$ASFR = \frac{\text{Numbers of live births in a particular age group}}{\text{Numbers female population of same specified age group}} \times 1{,}000$$

Age - Specific Marital Fertility Rate (ASMFR):

Number of live births in a year to married female population in any specified age group normally expressed per 1,000 married women.

$$ASMFR = \frac{\text{Number of live births in a particular age group}}{\text{Mid-year married female population of the same age group}} \times 1{,}000$$

General Fertility Rate (GFR) :

Number of live births per 1,000 women in the reproductive age-group (15-49) years in a given year.

$$GFR = \frac{\text{Number of live births in a year}}{\text{Mid-year female population in the age-group (15-49) years}} \times 1{,}000$$

General Marital Fertility Rate (GMFR) :

Number of live births per 1,000 married women in reproductive age-group (15-49) years in a given year.

$$GMFR = \frac{\text{Number of live births in a year}}{\text{Mid-year married female population in the age group (15-49) years}} \times 1{,}000$$

Total Fertility Rate (TFR) :

It is obtained as the total of the age specific fertility rates (number of children born per woman of the particular age) for the entire reproductive age span. It provides the average number of children that will be born to a woman under the fertility levels indicated by the age specific fertility rates assuming that there is no mortality of women till the completion of reproductive period.

$$TFR = \frac{5 \times \sum_{15-19}^{45-49} ASFR}{1{,}000}$$

Total Marital Fertility Rate (TMFR) :

Average number of children that would be born to a married woman if she experiences the current fertility pattern throughout her reproductive span (15-49) years assuming that there is no mortality of women till the completion of reproductive period.

$$TMFR = \frac{5 \times \sum_{15-19}^{45-49} ASMFR}{1{,}000}$$

Age-Specific Mortality Rate (ASMR) :

Number of deaths in a particular age and sex group per 1,000 population of the same age group.

$$ASMR = \frac{\text{Number of deaths in a particular age group}}{\text{Mid-year population of the same age group}} \times 1{,}000$$

q1 :

Probability of dying between birth and age 1. This can be used as approximate value of Infant Mortality Rate (IMR) which gives the ratio of number of deaths in a year of children aged less than one year to the number of births in that year.

q2 :

Probability of dying between birth and age 2.

q5 :

Probability of dying between birth and age 5. This indicator is also known as Under Five Mortality Rate (q5MR)

Infant Mortality Rate (IMR) :

Ratio of the number of infant deaths (deaths of children below one year) in a year to the number of live births in that year.

$$IMR = \frac{\text{Number of infant deaths during the year}}{\text{Number of live births during the year}} \times 1{,}000$$

Infant mortality rate comprises of two parts, viz., Neo-natal mortality rate and Post neo-natal mortality rate. The neo-natal mortality rate also comprises of two parts viz., early neo-natal mortality rate and late neo-natal mortality rate. These are defined as :

Neo-natal Mortality Rate (NMR) :

Number of infants dying within the first month of life (28 days or under) in a year per 1,000 live births of the same year.

$$NMR = \frac{\text{Number of infant deaths aged 28 days under during the year}}{\text{Number of live births during the year}} \times 1{,}000$$

Early Neo-natal Mortality Rate (ENMR) :

$$ENMR = \frac{\text{Number of infant deaths of less than 7 days during the year}}{\text{Number of live births during the year}} \times 1{,}000$$

Late Neo-natal Mortality Rate (LNMR) :

$$LNMR = \frac{\text{Number of infant deaths of 7 days to less than 29 days during the year}}{\text{Number of live births during the year}} \times 1{,}000$$

Post Neo-natal Mortality Rate (PNMR) :

$$PNMR = \frac{\text{Number of deaths of 29 days to less than One year during the year}}{\text{Number of live births during the year}} \times 1{,}000$$

Peri-natal Mortality Rate (PMR) :

Number of stillbirths plus deaths within 1st week of delivery per 1,000 births in a year.

$$PMR = \frac{\text{Number of stillbirths and infant deaths of less than 7 days during the year}}{\text{Number of live births and stillbirths during the year}} \times 1{,}000$$

StillBirth Rate (SBR) :

$$SBR = \frac{\text{Number of stillbirths during the year}}{\text{Number of live births and still births during the year}} \times 1{,}000$$

Maternal Mortality Rate(MMR) :

Number of deaths of women in the age group 15-49 while pregnant or within 42 days of termination of pregnancy from any cause related to pregnancy and childbirth per 100,000 live births in a given year.

$$MMR = \frac{\text{Number of maternal deaths to women in the age group 15-49}}{\text{Number of live birth}} \times 100{,}000$$

Eligible Couple (Couples per 1,000 population):

Number of currently married females in the age group15-44 years per 1,000 persons of all ages.

Child Woman Ratio (0-4) :

1. Number of children in the age group 0-4 years per 1,000 women in the age group 15-49 years.

Child Woman Ratio (5-9) :

2. Number of children in the age group 5-9 years per 1,000 women in the age group 15-49 years.

Migration :

Migration is the third component of population change, the other two being mortality and fertility.

A person is considered as a migrant by place of birth if the place in which he/she is enumerated during the census is other than the place of his/her birth.

Similarly a person is considered as a migrant by place of last residence if the place in which he/she is enumerated during the census is other than his/her place of immediate last residence outside the village or town and not simply in another house or locality in the same village or town.

Certain aspects concerning temporary movement/migration of people has been explained below as these are important components concerning migration :

(i) Migration of persons in search of job is high in the country. In many cases such migrants are only seasonal in nature. People migrate to other places for work in a particular season and come back again to their usual place of residence after three or four months. All such workers are treated as migrants. Similarly, if a person moved to any other place for attending short term vocational or educational course that lasted for only few months of a year, she/he too were considered as a migrant.

(ii) Where a person had merely gone out to another place or had been shifting from one place to another purely on tour, pilgrimage, visit to hospital for treatment or for temporary business purposes, such persons are not deemed to have had another residence different from the place where she/he or her/his family normally resides. She/he is not considered as migrant.

(iii) A woman temporarily moves into a hospital or to her parents or other relative's house for delivery and if the hospital or the parents/relatives houses is in a place different from usual place of residence, the place where the hospital or parents/relative's house is the place of last residence of the child but not of the mother.

A new response category 'Moved after birth' was added in Census of India 2001 in the question on 'reasons for migration' to bring out additional migration patterns. Natural calamities or distress migration as a reason for migration for last

residence migrants included in 1991 Census, is covered under category of 'Others'. The reason for migration has been determined as applicable at the time of migration and not in reference to any point of time after that. For example, if a person had moved from the place of her/his last residence for the purpose of education and subsequently at some point of time got employment there only, the reason for migration would be 'education' and not 'work/employment'.

Internal and International Migration :

The migrational movements are of three types

(i) Migration within the state itself with its components
   (a) Migration within the district of enumeration (intra district migration)
   (b) Migration from one district of state to another district of state (inter district migration),
(ii) Migration from one state to another State of the country (inter-state migration),
(iii) Migration from one country to another country.

The first two streams together constitute internal migration, while the last type of movement is called international migration. The present name of the country, state or district and not the name by which they were known at the time of her/his birth or last residence were recorded.

Rural-Urban Components of Migration :

Rural or Urban status in respect of migrants had been determined as applicable at the time of migration and not with reference to any point of time after that.

The flow of migrants consists of four streams viz. rural to rural, rural to urban, urban to rural and urban to urban.

Civic Status of Urban Units :

Civic Status of a town/city is determined on the basis of Civic Administrative authority of the town e.g., Municipal Corporation/Corporation, Municipal Committee/Municipal council, Municipality etc.

Size Class of UA/Town :

Size-class of UA/Town is based on the population size of the UA/City/Town UAs/Towns with 1,00,000 and above population is classified as Class I UAs./ towns. These Class I UAs./towns are now further sub classified in to seven sub classes namely M1 to M7 depending on the population size of UA/City/Town. These are M7(5,000,000 and above); M6(2,000,000 to 4,999,999); M5(1,000,000-1,999,999) M4(500,000-999,999); M3(300,000-499,999), M2(200,000-299,999) & M1(100,000-199,999). towns with, 50,000 to 99,999 population are classified as Class II towns, 20,000 to 49,999 population are Class III towns, population with 10,000-19,999 are Class IV towns, population with 5,000 and 9,999 are Class V towns and towns with less than 5,000 population are Class VI towns.

Slum Area :

The Slum Areas (Improvement and Clearance) Act, 1956 which was enacted by the Central Govt. defined slums as a) Areas where buildings are in any respect unfit for human habitation; or b) are by reasons of dilapidation, overcrowding, fault arrangement and design of such buildings, narrowness or faulty arrangement of streets, lack of ventilation, light or sanitation facilities, or any combination of these factors, are detrimental to safety, health or morals.

Mega City :

The concept of 'Mega city' is a recent phenomenon in the Urban Sociology and is defined in term of metropolitan city in the form of large size, problem of management of civic amenities and capacity to absorb the relatively high growth of population. Indian Census in 1991 treated the population size of 5 million and above as the cut off point to identify a place as the mega city. Whereas, for the purpose of inclusion in Centrally Sponsored Scheme for Infrastructure Development in Mega cities the Ministry of Urban Affairs and employment, Department of Urban Development adopted the criteria of 4 million and above population as per 1991 Census for Mega Cities. In 2001 Census, cities with 10 millions and above population have been treated as Mega cities.

(vii) 2001 Census Findings – Population and its Distribution

(a) Distribution of population in rural-urban areas:

According to the 2001 Census, the total population of Surat district is 4,995,174 comprising 2,722,539 males and 2,272,635 females. The population of the district forms 9.86 per cent of the State population and rank at 2nd place among the districts of Gujarat state. Out of the total population of the district 40 per cent that is 1,999,357 live in rural area while 60 percent, that is 2,995,817 live in urban area. Rural population of the district is distributed among 15 talukas and urban population is spread over in 18 towns. The total urban population in the district is 2,995,817 comprising 1,695,955 males and 1,299,862 females. The rural population in this district is 1,999,357 comprising 1,026,584 males and 972,773 females as per 2001 Census. This rural population is distributed in 1,167 villages of the district.

(b) Size class & status of towns, Population growth, Density, Sex ratio, Work participation rate, Details of Literacy, availability of University education in the District :

The statement below gives the civic status, size class of town and population for eighteen towns of Surat district for 2001 Census.

Sl. No.	Name and Civic Status of Town	Size Class of Town	Status of Population
1	2	3	4
1	Bardoli (M)	II	51,946
2	Chalthan (CT)	IV	12,774
3	Chhapra Bhatha(CT)	III	23,415
4	Hajira INA(INA)	VI	2,137
5	Ichchhapor (CT)	V	8,292
6	Kadodara (CT)	IV	14,819
7	Kosamba (CT)	IV	13,543
8	Limla (CT)	V	6,622
9	Parvat (CT)	III	20,693
10	Sachin (CT)	IV	11,877
11	Sachin INA(INA)	VI	3,319
12	Sayan (CT)	IV	12,847
13	Songadh (M)	III	22,431
14	Surat (M.Corp.)*	I	2,702,304
15	Ukai (CT)	IV	10,858
16	Un	III	28,820
17	Utran	IV	12,894
18	Vyara (M)	III	36,226
	Total		**2,995,817**

*Towns having outgrowts.

According to the 2001 Census the total population of the district is 4,995,174. There has been net addition of 1,597,274 persons during 1991-2001. The decadal growth rate of population for the district is 47.0 per cent. The growth rates for the rural and urban areas of the district are 19.0 and 74.4 per cent respectively. The overall growth rate of urban population is very high in the district. The highest growth of urban population is in Chorasi taluka where urban population has shown a significant growth rate of 1,677.1 per cent during the decade - from 21,751 in 1991 to 386,538 in the year 2001.

The density of population in Surat district is 652 persons per sq.km. against the state average of 258 persons.

There are 835 females for every thousand males in Surat district. The sex ratio figures for rural and urban areas of the district are 948 and 766 respectively. Among the talukas, the highest sex-ratio of 1,023 females has been recorded in Nizar taluka and lowest of 723 is recorded in Chorasi taluka. The urban areas of Vyara taluka have the highest sex-ratio of 979 wheress urban area of Palsana taluka has the lowest sex-ratio of 586 females per 1,000 males. Sex-ratio in age - group 0-6 comes to 871 females per 1,000 males in the district, as a whole. In rural areas, this proportion is 938 while in urban areas the sex-ratio of child population works out to 830 females per 1,000 males.

The work participation rate is defined as percentage of total workers to total population. In the same way it is defined for main workers and marginal workers. According to 2001 Census, the total workers including main and marginal workers constitute 43.7 per cent of the total population of the district. Of the total workers the share of the main workers is 39.7 per cent and the marginal workers is 4.0 per cent. The remaining population is non-workers.

As per 2001 Census among the main workers male participation rate in the district is 58.8 and corresponding proportion for female is 16.8 per cent. Male and female marginal workers account for 1.9 and 6.5 per cent respectively.

A person who can read and write in any language with understanding is taken as literate in census. All children of age below 7 years are treated as illiterates.

As per 2001 census Surat district reported 3,206,404 persons as literates constituting 74.6 per cent of the total population. The proportions of male and female literates in the district are 81.5 and 66.4 per cent respectively. The gap between male and female literacy rates is 15.2 percentage points in the district.

The total literacy rates of rural and urban areas are 62.5 and 82.8 per cent respectively. The proportions of male and female literates in rural are as is 70.7 and 53.9 per cent respectively. In urban areas these proportions are 88.0 and 75.8 per cent respectively. The gap between male and female literacy rates in urban areas is 12.2 percentage points as against 16.9 per cent in rural areas. Females in urban areas have significantly higher literacy rate than females of rural areas in the district.

There are several arts, commerce and science colleges in Surat district. Besides these there is one ayurvedic, one medical and two engineering colleges in the district.

Religion:

Religion forms an integral part of Indian Social system. In the pre-Independence census reports, the data on religions was being presented for 9 major religions viz. Hindu, Muslim, Tribals, Christian, Sikh, Jain, Buddhist, Parsi, Jew and others. However, since the 1951 census the data on religion has been presented for 6 major religions viz. Hindu, Muslim, Christian, Sikh, Jain and Buddhist. Besides, the minor religions have been classified under the category of 'other'. The data on religion collected and presented by the Indian Census is the basic data of intense use for the 'researchers', anthropologists, sociologists, demographers, administrators, planners and even for a common man.

In 2001 the Indian Census collected the religion data in question No.7 of the Household Schedule and recorded the same under the six major religions. Other religions were recorded in actual as returned by the respondent and classified under the category of 'others'. Religion not stated has been added for those persons who have not stated their religion at the time of canvassing the status of religion.

Percentage distribution of population by major religions in Gujarat State and Surat district in 2001 Census.

Sl. No.	Religion	Gujarat State		Surat District	
		Population	Percentage	Population	Percentage
1	2	3	4	5	6
1	Hindu	45,143,074	89.1	4,350,795	87.1
2	Muslim	4,592,854	9.1	447,951	9.0

Source: Census of India,2001

The comparative data of Gujarat State and Surat district related to percentage distribution of major religions is given in the statement above. It is observed that at State level 89.1 per cent follow Hindu religion, against 87.1 per cent Hindus in Surat district. In Gujarat State 9.1 per cent of population follows Muslim religion against the 9.0 per cent Muslim in Surat district. The population of other major religions groups is negligible as compared to Hindu and Muslim.

The percentage distribution of major religious in rural and urban areas of the district is shown in the statement given below. It has been noticed that 85.4 per cent Sikhs are netted in urban areas against 14.6 per cent in rural areas. Major population of Sikhs and Buddhist are netted in urban areas while majority of Christians is registered in rural areas.

Religion	Number of followers	Population	
		Rural	Urban
1	2	3	4
Hindu	4,350,795	1,810,614	2,540,181
		(41.6)	(58.4)

*Recasted Population

The population of Surat district was 3,397,900 in 1991 and it increased to 4,995,174 in 2001 showing an absolute in crease of 1,597,274 persons and growth rate of 47 per cent during the decade 1991-2001. Rural population of the district increased from 1,679,779 in 1991 to 1,999,357 in 2001 showing growth rate of 19.0 per cent while urban population increased from 1,718,121 in 1991 to 2,995,817 in 2001 showing growth rate of 74.4 per cent. Among talukas, Surat city taluka has the highest total population as well as highest urban population of 2,433,835 persons in 2001 as this taluka is fully urban. The urban population of the district was 50.6 per cent in the year 1991 and it rose to 60.0 per cent in 2001. Highest rural population is 213,584 persons for Vyara taluka in 2001.

In 1991 census Surat city had rural population of 499 which is insignificant in terms of percentage as compared to urban population.

Table 2 gives the details of absolute number and percentages of inhabited villages falling in each range of population size of villages and number of males and females for each population range at taluka level in the district. Out of 1,167 inhabited villages, 43 villages (3.7 per cent) have the population below 200. The size class of 200-499 persons claims 155 villages having 13.3 per cent villages of the district while the size class of 500-999 population is having 283 villages accounting for 24.3 per cent of the total villages. As many as 397 villages accounting for 34.0 per cent of villages are in the size class of 1,000-1,999 and 231 villages (19.8 per cent) are in size class of 2,000-4,999 while 43 villages (3.7 per cent) are falling in the population range of 5,000-9,999. Only 15 villages in the district have population more than 10,000. Songadh taluka has the highest number of 167 villages while Uchchhal has the least number of 39 villages.

TABLE 3
NEW TOWNS, DENOTIFIED, DECLASSIFIED AND MERGED TOWNS IN 2001 CENSUS

		Name of Town		
(a)	**New**			
	(i) Statutory town			
		1 Sachin	INA	INA
		2 Hajira	INA	INA
	(ii) Census town			
		1 Chhapra Bhatha		CT
		2 Ichchhapor		CT
		3 Limla		CT
		4 Parvat		CT
		5 Un		CT
		6 Sachin		CT
		7 Kadodara		CT

	Name of Town
(b) Denotified	
(i) Statutory towns of 1991 census denotified and also did not satisfy the criteria to be treated as census towns	Nil
(ii) Statutory towns of 1991 census denotified but identified as census towns based on demographic and economic criteria	Nil
(iii) Census towns of 1991 census are notiified as statutory town in 2001 census	Nil
(c) Declassified	
1 Amroli	VP
2 Olpad	VP
3 Kathor	NP
4 Mandvi	NP
5 Kadod	NP
(d) Wholly merged with other town(s)	Nil

Declassified means the census towns of 1991 census which failed to satisfy the demographic and economic criteria. Table 3 is self-explanatory and needs no elaboration.

TABLE 4

DISTRIBUTION OF VILLAGES BY POPULATION DENSITY, 2001

Range of Population Density (per Square Kilometer)	Total Number of Villages in each Population Density Range	Percentage of Villages in each Population Density Range	Population	Percentage Distribution of Population
1	2	3	4	5
0-10	6	0.5	5,786	0.3

District Total:	**1,167**	**100.0**	**1,999,357**	**100.0**

Population Density (Rural) of the district: 306

Table 4 gives the details of the distribution of villages by population density ranges. The inhabited villages of the district have been grouped under eight different ranges of density. The maximum number of 324 villages accounting for 27.8 per cent of the total inhabited villages of the district fall in the density range of 301-500 persons per sq km having 29.6 per cent population. The lowest range of 0-10 persons per sq km covers 6 villages (0.5 per cent). 194 villages (16.6 per cent) with 35.9 per cent of population have the density of more than 501. The density of population of the rural areas of the district is 306 per sq km.

11	2001	920	945	880	835	948	766

The above table gives rural and urban sex ratio for the state and the district for census years during 1901-2001. For the census 2001, the sex ratio for the state is 920 as against 835 for the district. Sex ratio for rural areas in Surat in 2001 is 948 against the sex ratio of 945 in rural areas of the state. Sex ratio of 766 in 2001 for urban area is comparatively low as compared to state urban sex ratio of 880. It can be observed from the table that the sex ratio for the state decreased by 34 points during the period of 1901-2001. In case of Surat district sex ratio is decreased from 992 in 1901 to 835 in 2001. A sharp decline of 182 points in sex ratio for urban areas in Surat may be seen as compared to the decline of 58 points in rural areas of the district during the period of 1901 to 2001.

15	Mahuva	963	963	-
	District Total:	**835**	**948**	**766**

Table 6 gives the details of sex ratio at taluka level as per 2001 Census. There are 835 females per 1,000 males in Surat district. The sex ratio of Nizar taluka is the highest i.e. 1,023 while the lowest sex ratio of 723 is observed in Chorasi taluka. In rural areas of the district, the sex ratio is 948 females per 1,000 males while for urban areas the same is 766 females per 1,000 males. Urban sex ratio for Palsana and Chorasi taluka are found to be significantly low at 586 and 683 respectively.

TABLE 7

SEX RATIO BY TALUKAS/C.D.BLOCKS, 2001

Sl. No.	Name of Taluka/ C. D. Block	Sex Ratio

District Total :	**1,167**	**100.0**	**1,999,357**	**100.0**

Sex ratio (Rural) for District : 948

Table 8 gives the details of the distribution of villages by 9 different range of sex ratio based on 2001 Census. The maximum number of villages i.e. 368 and 367 accounting for 31.5 and 31.4 per cent respectively of the total 1,167 villages having the population of 24.6 and 35.5 per cent , fall in the sex ratio range 950-999 and 1,000-1,099 respectively. Sex ratio range of 900-949 had 234 villages (20.1 per cent) and covers population of 20.8 per cent. The highest sex ratio range of 1,100 and more is observed in 61 villages having 2.1 per cent rural population.

		Rural	**1,999,357**	**64,082**	**1,265,512**	**3.2**	**63.3**
		Urban	**2,995,817**	**105,242**	**142,758**	**3.5**	**4.8**

Table 14 shows the distribution of Scheduled Castes and Scheduled Tribes with their percentage distribution to total population at taluka level for rural and urban areas of the Surat district. It can be seen that out of total district population of 4,995,174 3.4 per cent belongs to Scheduled Castes and 28.2 per cent belongs to Scheduled Tribes. The percentage of Scheduled Castes population is 3.2 per cent in rural areas and 3.5 per cent in urban areas in the district. The highest percentage of Scheduled Castes population is 7.6 per cent recorded in Kamrej taluka. The proportion of Scheduled Tribes population is 63.3 and 4.8 per cent in rural and urban areas respectively. The highest Scheduled Tribes population in the district is observed in Uchchhal taluka for 97.3 per cent followed by Umarpada taluka for 96.5 per cent. More than 90 per cent Scheduled Tribes population is recorded in rural areas of Songadh, Vyara, Uchachhal and Umarpada taluka and more then 70 per cent Scheduled Tribes population has been registered in Nizar, Mandvi, Valod and Mahuva talukas.

TABLE 15

NUMBER AND PERCENTAGE OF SCHEDULED CASTES AND SCHEDULED TRIBES POPULATION IN TALUKAS/C.D.BLOCKS, 2001

Sl. No.	Name of Taluka / C.D. Block	Total Population	Total Scheduled Castes Population	Total Scheduled Tribes Population	Percentage of Scheduled Castes Population to Total Population	Percentage of Scheduled Tribes Population to Total Population

Table 15 gives the details of the number and percentage of Scheduled Castes and Scheduled Tribes population in taluka/C.D.Blocks as per 2001 Census. 3.2 per cent population is recorded as Scheduled Castes and 63.3 per cent as Scheduled Tribes in the district. The highest proportion of 7.6 per cent of Scheduled Castes population is recorded in Kamrej taluka and the lowest of 0.3 per cent in Umarpada and Uchchhal talukas. At taluka level, the highest of 97.3 per cent Scheduled Tribes population is recorded in Uchchhal taluka and the lowest of 17.2 per cent in Chorasi taluka.

TABLE 16

PROPORTION OF SCHEDULED CASTES POPULATION TO TOTAL POPULATION IN VILLAGES, 2001

Percentage Range of Scheduled Castes Population to Total Population	Number of Villages	Percentage	Scheduled Castes Population	Percentage
1	2	3	4	5

41-50	0	0.0	0	0.0
51-75	2	0.2	353	0.6
76 and above	0	0.0	0	0.0
District Total :	**1,167**	**100.0**	**64,082**	**100.0**

Table 16 gives the details of the number of villages according to the proportion of Scheduled Castes population to their total population in nine different percentage ranges of population for the district. Out of 1,167 villages in the district 533 (45.7 per cent) villages do not have any Scheduled Castes population. The proportion of Scheduled Castes population is less than 5 per cent in 430 villages constituting 36.8 per cent of the total villages. In 134 villages having 40.3 per cent Scheduled Castes population, percentage range of Scheduled Castes population varies from 5 to 10 per cent. No village having more than 76 per cent Scheduled Castes population to total population is recorded in the district.

TABLE 17

PROPORTION OF SCHEDULED TRIBES POPULATION TO TOTAL POPULATION IN VILLAGES, 2001

Percentage Range of Scheduled Tribes Population to Total Population	Number of Villages	Percentage	Scheduled Tribes Population	Percentage
1	2	3	4	5

	Sex ratio (Urban) for the district:	**926**	**922**

Table 20 indicates sex ratio among Scheduled Castes and Scheduled Tribes in each Urban Agglomerations/Towns of the district. In urban areas sex ratio of Scheduled Castes is 926 and sex ratio of Scheduled Tribes is 922 in the district. Table shows the highest sex ratio of 1,121 in Scheduled Castes is recorded in Vyara (M) and the lowest of 695 in Kadodara(CT). Hajira INA (INA) and Sachin INA (INA) have no female population in Scheduled Castes. The highest sex ratio of 1,600 in Scheduled Tribes population is recorded in Hajira INA (INA) and the lowest of 141 is observed in Sachin INA (INA).

Table 21 shows taluka-wise literacy rates with the absolute number of literates and illiterates for rural and urban areas separately. As per 2001 Census, the proportion of effective literates to total population is 74.6 per cent in the district, while this proportion in rural area is 62.5 per cent against 82.8 per cent in urban areas. In the district the literacy rates of males is 81.5 per cent which is higher than that of females having 66.4 per cent literacy. Among the talukas Chorasi taluka tops with 82.8 per cent literates. Surat City taluka having only urban population has 83 per cent literates. Uchchhal taluka shows the lowest literacy rate of 44.2 per cent in the district. The gap between male and female literacy is 15.2 percentage points in the district. Gap in male-female literacy rates for urban area is 12.2 percentage points whereas the gap between male and female literacy is 16.9 percentage points in rural areas.

Table 22 reveals the effective literacy rates along with absolute number of literates and illiterates for the rural population at taluka level in the district. As much as 62.5 per cent of the total population in the rural areas of the district is literate. A gap of 16.9 percentage points in literacy rates between males and females has been registered. Among the talukas of the district, Chorasi taluka shows the maximum literacy rate of 78.9 per cent while Uchchhal taluka shows the lowest literacy rate of 44.2 per cent. Chorasi taluka also has the maximum literacy rate among male population i.e. 85.0 per cent in the district. The highest female literacy rate of 71.2 per cent is also recorded in Chorasi taluka. Umarpada taluka has the highest gap in male female literacy rates of 25.8 percentage points.

UA = Urban Agglomeration

Table 24 shows the absolute number of literates and illiterates along with literacy rates in urban areas at UA /Town level in the district. As much as 82.7 per cent of the urban population excluding the population of age group of 0-6 years is literate in the district. As high as 88.0 per cent of the male population is literate while corresponding figure for females is 75.8. Ichchhapor (CT) has the highest literacy rate of 89.6 per cent while Songadh (M) has the lowest literacy rate of 74.6 per cent in the district. Sachin INA (INA) has the lowest female literacy rate of 54.1 per cent among all urban areas of Surat district. Gap in male female literacy rate is the highest of 32.0 percentage points in Sachin INA (INA).

Table 30 gives the details of number and percentage of Scheduled Tribes literates and illiterates by sex in the towns of the district. As much as 60.0 per cent of the total Scheduled Tribes population excluding the age group of 0-6 years is literate. The proportions of male and female literates comes to 67.2 and 52.2 per cent respectively which shows a gap of 15.0 percentage points in male and female literacy rates of urban Scheduled Tribes of the district. Among the towns of the district, Sachin INA (INA) has the highest literacy rate of 83.1 per cent and the lowest of 43.5 per cent is recorded in Kadodara (CT). Maximum gap of 47.0 percentage point in male-female literacy rates among Scheduled Tribes is found in Hajira INA (INA).

Table 31 shows absolute number and percentage of main workers, marginal workers and non-workers by sex at taluka level in the district as per 2001 Census. Only 43.7 per cent in the total population have been registered as workers in the district. Of which 39.7 per cent are main workers and 4.0 are marginal workers. Percentage of non- workers in the district is 56.3 per cent of total population. Among the main workers, male participation rate in the district is 58.8 per cent while corresponding rate for females is 16.8 per cent. As far as marginal workers are concerned the female participation rate of 6.5 percent is higher than male participation rate of 1.9 per cent. Among talukas of the Surat district, the highest proportion of total workers is found in Uchchhal taluka with 61.3 per cent while the lowest proportion is observed in Surat City taluka with 38.2 per cent.

Table 32 details the number and percentage of main workers, marginal workers and non workers by sex in rural areas of the district. It can be seen that in the rural areas of the district 42.9 per cent of the population has been categorized as main workers whereas the marginal workers are 8.6 per cent and remaining 48.5 per cent of population is non-worker. Sex-wise break up shows that participation in main work for male and female is 55.7 and 29.3 per cent respectively. Male and female marginal workers are respectively 3.9 and 13.6 per cent. The percentage of female marginal workers is higher than male marginal workers. Similar trend is also observed at taluka level. At the taluka level Uchchhal taluka has the highest of 61.3 per cent workers whereas the lowest of 40.8 per cent workers has been observed in Chorasi taluka.

UA =Urban Agglomeration.

Table 33 shows the absolute number and percentage of main workers, marginal workers and non-workers by sex in UA/Town in the district. Of the 2,995,817 urban populations in the district, 37.5 per cent is main workers and 1.0 per cent is marginal workers. Remaining 61.5 per cent is non-wokers. Sex-wise break up of the workers in the urban areas of the district shows that 60.6 per cent males and 7.4 per cent females are main workers. Male and female marginal workers are 0.7 per cent and 1.2 per cent respectively. The highest of 79.9 per cent workers of the total population is registered in Sachin INA (INA) and the lowest of 32.3 per cent workers is in Kosamba (CT).

Note: Percentage of worker to total worker are given in brackets

Table 34 reveals the distribution of workers by sex in four categories of economic activity in the district. From the table it is evident that total workers, including main and marginal workers are 43.7 per cent of the total population. Cultivators are 12.0 per cent while agricultural labourers are 21.7 per cent. Only 2.2 per cent workers are engaged in household industry while 64 per cent are engaged in other works. Surat City taluka has maximum of 929,275 workers, highest in the district. Of these 896,093 were engaged in other works. Vyara has the maximum proportion of 42.8 per cent cultivators among talukas in the district. Nizar taluka of the district has maximum proportion of 61.4 per cent agriculture labourers. Uchchhal taluka has highest of 60.4 per cent female workers.

Note: Percentage of workers to total workers are given in brackets.

Table 35 gives talukawise distribution of workers by sex in four categories of economic activity for rural areas of the district. It can be seen that total workers in the rural areas of Surat district are 51.5 per cent of rural population. Among workers, cultivators are 25.1 per cent while agricultural labourers are 44.5 per cent. Persons engaged in other works are 28.8 per cent for rural Surat. 59.6 per cent of male population in the district (Rural) is workers, out of which maximum of 35.9 per cent male is engaged in other work and the minimum of 1.5 per cent male is engaged in Household Industry Work. In case of female workers maximum of 58.2 per cent is engaged in agricultural labour. Among talukas, the highest 46.9 per cent cultivators is recorded in Vyara taluka and highest of 62.5 per cent of agricultural labourers is recorded in Bardoli taluka.

UA = Urban Agglomeration

Table 36 details the distribution of workers by sex in four categories of economic activities in urban areas of the district. In the urban areas of the district total workers (Main + Marginal) are 38.5 per cent. Among these workers, cultivators constitute 0.4 per cent, agricultural labourers 1.3 per cent, household industry workers 2.8 per cent and other workers 95.5 per cent. Of the total male working population, 97.1 per cent are engaged in other work. In case of female is 80.7 per cent females is engaged in other work. 99.9 per cent workers are engaged in other work in Limla(CT). It is interesting that Cent per cent male workers of Limla (CT) are found to be engaged in other work.

Note : Percentage are given in brackets.

* Based on the improved drinking water source, drinking water supply has been classified as 'Improved ' or otherwise. If the household has access to drinking water supplied from a tap or a hand pump / tube well situated within or outside the premises it is considered as having access to 'Improved drinking water source' However, the concept of improved drinking water is state specific and this is to be considered accordingly.

Post office includes Post office, telegraph office and Post and telegraph office.

$ Transport communication includes bus service, rail facility and navigable waterways.

Table 37 shows the talukawise distribution according to the availability of different amenities such as education, medical, improved drinking water, post office, telephone, transport communication, banks, agricultural credit societies, approach to village by pucca road and power supply. Out of 1,167 inhabited villages in the district, 1,134 villages have at least some educational facility. There is no educational facility in 33 villages. Medical facilities of one kind or other are available in 1,040 villages. The remaining 137 villages are devoid of any medical facility within the village. In all 1,157 inhabited villages of the district avail the drinking water facilities like tap, well, a hand pump, a tube well, etc.. 10 villages have no facility of drinking water. As many as 709 villages are equipped with one or more facilities of post and telegraph. Telephone facility is available to 682 villages accounting for 58.4 per cent in district. 1,041 villages are well connected with the transport communications. Agricultural Credit Societies are available in 792 villages. Only 94 (8.1 per cent) villages have banking facility. As much as 1,036 villages are linked by approach pucca roads. As far as power supply is concerned 1,165 villages have power supply.

Note : Percentages are given in brackets.

* Based on the improved drinking water source, drinking water supply has been classified as 'Improved ' or otherwise. If the household has access to drinking water supplied from a tap or a and pump / tube well situated within or outside the premises it is considered as having access to 'Improved drinking water source'. However, the concept of improved drinking water is state specific and this is to be considered accordingly.

Post office includes Post office, telegraph office and Post and telegraph office.

$ Transport/communication includes bus service, rail facility and navigable waterways

Table 38 details the number and percentage of rural population served by different amenities. Out of total population of 1,999,357 distributed among 1,167 villages of Surat district 99.6 per cent have educational facility of one or other type, 94.3 per cent population has medical facilities while 99.0 per cent have the facilities of improved drinking water. Facilities of post office are available to 81.5 per cent population. Telephone facility is available to 76.4 per cent population. Transport communication facility is available to 95.9 per cent population while banking facility is available to 24.1 per cent of population in the district. 73.2 per cent have been provided with the facility of agricultural credit societies. 95.5 per cent of the population of villages is provided with the facility of approach by pucca roads. Only 228 persons in 2 villages are deprived of the facility of power supply.

TABLE 39

DISTRIBUTION OF VILLAGES NOT HAVING CERTAIN AMENITIES, ARRANGED BY DISTANCE RANGES FROM THE PLACES WHERE THESE ARE AVAILABLE, 2001

Village not having the Amenity of	Distance Range of Place from the Villages where the Amenity is available			
	Less than 5 Kilometres	5-10 Kilometres	10+ Kilometres	Total (Col. 2 - 4)
1	2	3	4	5
1. Education :-				
(a) Primary School	30	3	0	33
(b) Middle School*	0	0	0	0
(c) Degree College	122	174	862	1,158
2. Medical:-

3. Post Office	415	32	16	463
4. Telephone	260	91	134	485
5. Bus Service	117	9	1	127
6. Banks				
(a) Commercial Bank	506	255	316	1,077
(b) Co-operative Bank	323	274	542	1,139
7. Agricultural Credit Societies	216	81	78	375

Note : * In Gujarat State, the levels of education are classified as under
(i) Primary School (From Std. I to VII passed)
(ii) Secondary/Matriculation (From Std. VIII to X passed)
(iii) Higher Secondary (From Std. XI to XII passed). Hence, the middle school is 0.

Table 39 shows that out of 33 villages which do not have education facilities within the village, 30 villages have it within 5 km distance and 3 villages have it within the distance range of 5-10 kms. Out of 1096 villages that do not have primary health centre facilities, 506 villages have it within 5 km of distance, 332 villages have this facility available within the distance range of 5-10 kms while inhabitants of 258 villages have to move more than 10 kms to avail primary health centre facilities. Telephone facility is available for 260 villages within a radius of 5 km whereas 91 villages have this facility at the distance of more than 5 km but less than 10 km and 134 villages have this facility at a distance of more than 10 kms. Out of 127 villages having no bus facilities, as many as 117 villages have such facilities within 5 km of distance. No banking facility of either commercial bank or co-operative bank is available for the population within the village for 1,139 villages. Inhabitants of 829 villages have to move less than 5 km to avail banking facilities of either commercial or co-operative. Amenities of agricultural credit society are available to 216 villages within the distance of 5 km while these facilities are available to 81 villages within a distance of 5 to 10 km.

TABLE 40

DISTRIBUTION OF VILLAGES ACCORDING TO THE DISTANCE FROM THE NEAREST STATUTORY TOWN AND AVAILABILITY OF DIFFERENT AMENITIES, 2001

Note : Percentages are given in brackets.

Post office includes Post office, Telegraph office and Post and telegraph office.

$ Transport communication includes bus service, rail facility and navigable waterways.

Table 40 shows the distribution of villages in four ranges of the distance from the nearest statutory town along with number of villages and availability of different amenities. Out of 1,167 inhabited villages, 62 villages are situated at a distance of 5 km from the nearest statutory town. Of these 61 villages have educational facility, 58 villages are having Medical facilities, 32 are having Post Office, 42 villages are equipped with telephone facilities, 54 villages are having transport and communications facility, 33 villages have Agricultural Credit Societies and 60 villages are having approach by pucca road. Only 7 villages are having facilities of banking facilities. 113 villages are situated at the distance of more than 51 km from the nearest statutory town. Of these villages, maximum villages are enjoying the facilities like education, medical, transport communication agricultural credit societies and approach by pucca road while banking facilities are available to only 7 villages.

Maximum number of 992 villages of the district are situated at a distance of 5 to 50 km from the statutory town. Out of these villages more than 80 per cent villages avail the amenities like education, medical, transport communication and approach by pucca road while banking facilities are available to less than 10 per cent of the villages.

TABLE 41

Note : Percentages are given in brackets.

* Based on the improved drinking water source, drinking water supply has been classified as 'Improved ' or otherwise. If the household has access to drinking water supplied from a tap or a hand pump / tube well situated within or outside the premises it is considered as having access to 'Improved drinking water source'. However, the concept of improved drinking water is state specific and this is to be considered accordingly.

Percentages are given in brackets

Post office includes Post office, Telegraph office and Post and telegraph office.

$ Transport communication includes bus service, rail facility and navigable waterways.

Table 41 reveals the distribution of villages according to different population ranges and amenities available. 15 villages having population of 10,000 and more have all the facilities except that facilities of banks and agricultural credit societies which are available in 12 villages and 11 villages respectively. The lowest population range of 1-499 have 198 villages and all have the supply of improved drinking water. No banking facility is available to these 198 villages though other amenities shown in the table is availed by maximum number of villages except Post Office and Telephone. Maximum of 911 villages are having the population of 500 to 4,999 and most of the amenities except banking are availed by the maximum number of these villages. There are 43 villages having the population range 5,000-9,999. Except the facilities of banking, more than 70 per cent villages are enjoying the amenities like education, medical etc. as in the table.

TABLE 42

DISTRIBUTION OF VILLAGES ACCORDING TO LAND USE, 2001

Sl. No.	Name of Taluka/ C. D. Block	Number of Inhabited Villages	Total Area (in Hectares)	Percentage of Cultivable Area to Total Area	Percentage of Irrigated Area to Total Cultivable Area
1	2	3	4	5	6
1	Olpad	104	67,642.7	63.6	83.3
2	Mangrol	91	56,768.1	76.2	39.7
3	Umarpada	63	26,071.0	52.1	5.0

5	Uchchhal	39	45,717.1	21.0	10.2
6	Songadh	167	103,065.9	40.1	16.8
7	Mandvi	134	67,574.0	61.1	46.5
8	Kamrej	70	37,837.1	85.0	86.4
9	Chorasi	62	33,625.3	56.0	52.5
10	Palsana	47	19,086.1	81.0	89.2
11	Bardoli	82	36,691.7	84.1	92.0
12	Vyara	148	80,023.5	59.7	32.3
13	Valod	40	20,226.1	87.6	68.2
14	Mahuva	69	35,401.0	78.3	60.3
	District Total:	**1,167**	**653,239**	**61.2**	**53.1**

Note : Cultivable area = irrigated area + unirrigated area

Table 42 gives the talukawise distribution of villages according to land use. It also gives the total area and cultivable area available to the inhabited villages in the district. Cultivated area includes irrigated as well as unirrigated. There are 1,167 inhabited villages in the district having a total area of 653,239.1 hectares. Of these 61.2 per cent is cultivable area and 53.1 per cent of total cultivable area is irrigated. At taluka level, Valod taluka has maximum percentage of cultivable area that is 87.6 per cent among all talukas of the district. Uchchhal taluka has the least percentage of 21.0 per cent cultivable area to total area of the taluka. Bardoli taluka has the highest percentage of irrigated area of 92.0 per cent to the total cultivable area.

TABLE 43

PER CAPITA RECEIPT AND EXPENDITURE IN STATUTORY TOWNS

(in Rs.)

Sl. No.	Class, Name & Urban Status of the Town		Per Capita Receipt			Per Capita Expenditure					
			Total	Through Taxes	From all Other Sources	Total	General Administration	Public Health and Conveniences	Public Works	Public Institutions	Other(s)

Source: Census of India 2001, H - series : "Tables on Houses, Household Amenities and Assets."

Note: Permanent : Permanent houses refers to those houses whose wall & roofs are made of pucca materials i.e., where burnt bricks, G.I. Sheets or other metal sheets, stone, cement concrete is used for wall and tiles, slate, shingle, corrugated iron, zinc or other metal sheets asbestos sheets, bricks, lime and stone and RBC/RCC concrete are used for roof

Semi permanent: Semi-permanent houses refer to those houses made of other types of materials.

Temporary: Temporary houses refers to those houses having wall and roofs made of Kacha materials i.e. where grass, leaves, mud,
unburnt bricks, wood etc. are used for roofs. reeds, bamboo mud, unburnt bricks are used for the construction of walls
and grass, leaves reeds, bamboo hatch.mud, unburnt bricks, wood etc. are used for roofs.

Table 49 gives the details of the percentage distribution of households living in permanent, semi-permanent and temporary houses in the Surat district. 66.4 per cent of households of the district are living in permanent houses. 30.8 per cent of households live in semi permanent houses while only 2.8 per cent of households live in temporary houses in the district. In rural areas 39.6 per cent households are living in permanent houses followed by 55.0 per cent households living in semi-permanent houses and only 5.4 per cent households are living in temporary houses. As far as urban areas of the district are concerned, 83.8 per cent of households are living in permanent houses, 15.1 per cent of households are living in semi-permanent houses and 1.1 per cent households are living in temporary houses.

Households living in permanent houses proportionately of rural areas of Umarpada, Nizar and Uchchhal taluka is low as compared to the households living in permanent houses of rural areas of talukas namely Mandvi, Kamrej, Valod and Mahuva. As far as urban area of the taluka is concerned, Mangrol, Songadh and Vyara talukas are having low proportion of households living in permanent houses as compared to urban areas of other talukas in the district.

Source : Census of India 2001, H- series: "Tables on Houses, Household Amenities and Assets."

Note : * Based on the improved drinking water source, drinking water supply has been classified as 'Improved ' or otherwise. If thehousehold has access to drinking water supplied from a tap or a hand pump / tube well situated within or outside the premises it is considered as having access to 'Improved drinking water source'. However, the concept of improved drinking water is state specific and this is to be considered accordingly.

@ Bathroom means bathroom within the house

$ Toilet means toilet within the house

Drainage means closed and open

Percentages are given in brackets

Table 50 indicates that 90.3 per cent households in the district have been provided with drinking water and 84.8 per cent households have the provision of electricity in their houses. Facilities like bathroom, toilet and drainage are available to 62.6 per cent, 60.7 per cent and 61.2 per cent of household respectively in the district. Such facilities are significantly low in rural areas as compared to urban areas of the district. Rural areas of Umarpada, Nizar, Uchchhal and Songadh talukas are having very low proportion of households enjoying the facilities of bathroom, toilet and drainage as compared to rural areas of other talukas of the district.

In urban areas of the talukas, where urban areas exist, more than 50 per cent households are enjoying the facilities of bathroom, toilet and drainage.

Note : Percentage in brackets

Data source: Census of India 2001, H- series: "Tables on Houses, Household amenities and Assets."

Table 51 details the number and percentage distribution of households by type of fuel used for cooking purposes. There are nine types of fuels used for which data is presented in the table. It is observed that at the district level, cooking gas (LPG) is being used by majority of the households (42.0 per cent) followed by Firewood with 27.1 per cent households. Cooking gas (LPG) followed by Kerosene is major source of fuel used by urban households while Firewood is major fuel used for cooking by rural households. Umarpada, Uchchhal, Mandvi and Vyara talukas have the highest proportion of rural households using firewood as main source of fuel used for cooking while urban households of Bardoli and Vyara taluka have the highest usage of cooking gas (LPG).

Source: Census of India 2001, H- series: "Tables on Houses, Household Amenities and Assets."

Table 52 details the number of households availing banking services and number of households having possession of assets such as radio/ transistor, telephone, bicycle, scooter and car etc. There are 1,002,078 households in the district of which, 32.9 per cent households are availing banking services. These proportions for rural and urban area were 28.2 per cent and 35.9 per cent respectively. Among talukas Olpad taluka has maximum proportion of households of 40.8 per cent availing banking services. Regarding the availability of different assets to the households in the Surat district maximum of 41.2 per cent household are having television followed by 36.5 per cent households with bicycles. In rural areas of the district the maximum proportion of 45.0 per cent household are having none of the specified assets while in urban areas maximum of 54.2 per cent households are having television.

(viii) Major social and cultural events, natural and administrative developments and significant activities during the decade

Several changes as described below were also made in Surat district. Umarpada taluka was formed by the dividing earlier Mangrol taluka through Government Notification No. GM-97-117-M-MFR-2697-2590-L dated 15th October 1997. Umarpada taluka has 63 villages. Surat City taluka was carved out from earlier Chorasi taluka. New Surat City taluka consists of complete area of Surat Municipal Corporation,30 villages and part of the area of Navagam (Part) city, Magob (Part) city and Dindoli (Part). This change was made effective vide Government Notification No. GM-97-117-M-PFR-2697-2590-L dated 15th October 1997.

(ix) Brief description of places of religious, historical or archaeological importance in villages and places of tourist interest in the towns of the district.

Name of Taluka:Surat
Name of Town : Surat
Location Code: 42205000

(Natural view of Surat)

Surat is, popularly, believed to have been founded by Gopi, a Nagar Brahmin who rose to be the Prime Minister in the Sultanate of Gujarat under Mohmud I and Muzaffar II. In 1546, Khwaja Safar Salmani who rose to eminence in the court at Gujarat, built at the instance of Sultan Mohmud III of Gujarat, the castle at Surat to protect the city from the onslaught of the Portuguese who had plundered it thrice before, Emperor Akbar took possession of Surat in 1573. Surat had its own mint and the coins (Mahmudis) struck there were current in South Gujarat till 1688. The British opened their factory at Surat in 1613 and the Dutch in 1620. In the reign of Shahjehan, Surat had very prosperous trade. During the regime of Aurangzeb, Shivaji Seizged Surat twice but the trade and the morale of the traders were not affected. The later raids of Marathas too could not slacken the trade. Since the time of Akbar, the Governor of the city and the District as also the Commander of the castle and the army were appointed by the Mogul Emperors. However when Aurangzeb died in 1707, the hold of Delhi weakened and in 1725 Sorabkhan, the then Governor, styled himself the Nawab of Surat and his successors also did the same. The English became the masters of the castle in 1759 and finally took over full control of the city and the district in 1800. Surat has suffered heavy losses in property and in life during heavy floods in the Tapi particularly in 1822, 1837, 1883, 1944 and 1959. Three centuries ago Surat was one of the biggest cities of Gujarat and the chief port of the Mogul Empire. It was the emporium of trade inland and seaborne. With the development of Bombay as the chief port of the Western coast of India, the trade, wealth and importance of Surat declined a great deal. After, about two centuries, however, Surat has improved its trade. Textiles,

wood lacquer and ivory handicrafts, embroidery, jewellery and fine silver are important industries of the city. Today, this city is more known for diamond cutting and polishing industry besides the jari and artsilk produced there.

Muglisarai

(Muglisarai)

This ancient Port City was where Sir Thomas Roe landed when he came to India as King James, Ambassador to the Court of Emperor Jehangir. During the Mughal Regime, Surat was the main port of departure for pilgrims to Mecca. The Mugal Sarai was the huge travellers inn where Haj Pilgrims used to stay. Today, this building is used as the Surat Muncipal Corporation Building.

The Dutch Cemetry

(The Dutch Cemetry)

Located near Kataragam Gate, this impressive mausoleum is that of Baron Adrian Van Reede who passed away in 1691. A massive Dome, beautiful pillars and the huge gallery make it a very outstanding monument. Dutch Graveyard is located at Katargam. Armenium Graveyard is situated near by. Various graves of different sizes and styles represented notable architectural art. Among the leading graves, the graves of the director of Dutch East India Company Baron Henry Adriam Varn Reade are important one. It is marked by beautiful columns, balconies, carved ceiling & carved wooden windows.

Historical Fort of Surat

(Fort of Surat)

The fort of Surat was built in year 1540-41 by Khudawand Khan primary with a view to protect the city from the foreign aggression. It is an ancient monument constructed during 16th century. The fort was built in with solid bricks, stones and lime. The width of the wall was 4.06 meters. It is constructed at the bank of river Tapi. It is adjacent to Hope Bridge. At present many government offices are functioning in the premises.

Chintamani Jain Temple

The Jain temple was constructed during the regime of Mugal Emperor Aurangzeb. Many controversies exist as regard to its establishment. As per one school's opinion, it was established in the year 1645 while as per the other it was established in the year 1699. It is located at Muglisara near Mausoleleum of Mirjan Shami. It has not only religious importance but also established one of the best example of craftsmanship & drawing of Gujarat. Though the temple is marked by its outward simplicity, the inner parts of temple is a treasury of art.

Name of Taluka : Chorasi
Name of Village : Dumas
Location Code: 01697600

Dumas is a well developed and excellent resort, which overlooks the Arabian sea. There are a number of cottages available to the visitors for

stay and relaxation. These sunny beaches & seaside resorts are a few kilometers out of Surat and must be included in the itinerary by all visitors looking forward to some relaxation.

Name of Taluka: Bardoli
Name of Town : Bardoli
Location Code: 42217000

(Sardar Vallabhbhai Patel)

In February 1928 the rates of land revenue were enhanced as a result of defective inquiry by a settlement officer. The peasants protested against this enhancement and started Satyagrah under the leadership of Sardar Vallabhbhai Patel, who along with other leader and Mahatma Gandhi, went to Bardoli to guide the people. The movement was pursued with unfailing zeal in spite of great hardships to which they were subjected by revenue authorities of district and sale of their property with the result that Government had to retract and cancel the undue enhancement in land revenue. It was a result of great tact and power of organization which led to the success of this movement. Sardar Vallabhbhai Patel came to be known as Sardar in later years. Tourism Corporation of the State has considered this place for eligible growth centre for tourists.

Name of Taluka: Olpad
Name of Village : Olpad
Location Code: 01619200

The district headquarters Surat is at a distance of 20 km. from Olpad. Olpad is a taluka headquarter. It is famous for a well known Banganga as it had occurred due to piercing of the earth by Shri Ram's arrow. According to the great epic, Shri Ram had halted here on his way back from Lanka, after defeating Ravana. At the instance of Rishi Gokarna at whose Ashram he had halted a yagna was performed and the Brahmins needed Ganga water to perform the religious rites. The requirement which was fulfilled by Shri Ram, who shot an arrow into the earth which gave rise to a foundation of holy water. About four miles from Olpad, there is the temple of Sidhnath Mahadev, in which the Shivling is 18 inches high and 20 inches in circumference and contains many pares.

(x) Major characteristics of the district, contribution of the district in the form of any historical figure associated with the district. :

Surat district is endowed with economic resources viz. agricultural land and industries. This district is famous for its cotton and paddy crops. Along with these crops such as sugarcane, jowar, groundnut, wheat, bajari are also in this district.. In this district government and private sector have established many industries. These industries are important from the point of view of their employment in the district. Minor portion of this district is covered with forest.

Bardoli, residence of Sardar has been preserved as memorial even today. The Sardar Swaraj Ashram at Bardoli consists of an exhibition of many memorable and historic photographs. Valod is known for the activities of Sardar Co-Operative Society. The well-known co-operative sugar factory has also been established here.

Surat has been a city of dreamers and tourists, reformists and cultural torch bearers. Narmad, a great son of Gujarat, played the drums for the new age even hundred years before the Dandi March that passed through Surat. Surat has even today preserved the fond memories of Narmad with equal respect through his residence, statue and profound activities of Narmad Sahitya Sabha.

Surat has always nourished its institutions. Surat has turned into the headquarter of South Gujarat University. There is a museum in chowk bazaar area. It was initially known as Vinchester Museum. 'Sardar Sangrahalaya' is its new name.

Surat Textile Market on Ring Road is one of the most attractive places of the present time. It is well known throughout Asia. The visitors can never forget the Nehru Garden at Athva Lines area. The other tourist's attraction is the 'Ponk Bazar'. 'Ponk' is green grain which is baked in the fire place straight from the farm itself. Surat is also known for its crematorium named 'Ashwinikumar' situated on banks of river Tapi.

The development and expansion of Surat city is due to its industry and trade. The giant Hajira Fertilizer complex and the development of Magadalla Port add to the prosperity of Surat.

The people of Surat are equally happy and joyous. People of Gujarat call Suratis 'joyous people'. The Suratis are fond of dresses, good dishes and colored life style. They celebrate their festivals and programs with all pomp pleasure. Their love for sweet and sour food is alike. 'Surati Dish' or dinner of Surat has always been a matter of pride for them. The river-bed is fertile enough to give them sweet fruits and tasty vegetables. Some of the vegetables are even exported to far-reaching areas. Uttarayan(14th January every year) is a favourite festival of Suratis. A person of any age can be seen flying a kite, leaving his own self behind.

The history of the Zari(gold embroidery) industry of Surat dates back to the Mughal period. Even today Surat remains one of the biggest and most significant Zari manufacturing centres of India. The principal types of products are Zari threads in gold and silver, embroidery for decorative borders, shoe uppers, evening bags and accessories. Gold and silver threads are commonly used for wearing the Kinkhabs. Another speciality from Surat is tanchhoi or silk brocade, which is like woven silk tapestry.

Art-silk, power looms and mill industry has a greater contribution besides diamonds, pearls and jewelry. Textile, rayon fertilizers, cement and chemical industries are being concentrated in Surat, Varachha, Udhna and Magadalla. The traditional craft of sandalwood and wood carving as well as precious embroidery has not halted.

Surat has produced many literary giants. The first ever novelist of Gujarat Nandshanker Mehta, pioneer in Gujarati literary criticism. Navalram, the frontline educationist, reformist and laureate, Mahipatram and Ramanbhai Nilkanth, the visionary Ranjitram Vavabhai, the humourist Jyotindra Dave and Dhansukhlal Mehta, the ace dramatist and theatrical legend C.C. Mehta and a number of contemporary figures are among them. The history of service to literature and culture by Surat is equally prosperous and bright.

KAVI NARMAD

The life of Narmad was a combination of turmoil and struggle. Narmad born in Vadnagar in Vadnagara Nagar caste in Surat believed in the principles of love and bravery. He founded Budhi Vardhak Sabha at an age of 18 only and became its first President. He wrote his first essay there, printed it and published the same. This was perhaps the first noteworthy publication of Gujarati. Thus Narmad was regarded as the father of Gujarati prose. Narmad also composed poetry. His poetry had peculiar spirit besides rhythm, delicacy and decency. He is more regarded for his poetic genius than his actual poetry. He established number of milestones in the field of literature and social reforms during his life of 53 years. His self confidence, firm determination and hard work had hardly any parallel.'Alankar Praveshika', 'Ras Praveshika', 'Pingal Praveshika', 'Narmakosh' and 'Narmad Sarvasangrah' have an eternal place in Gujarati literature.He left his job at an early age and submitted to literature. He worked very hard for the all-round development of Gujarati language. He manifested his firm will and bravely went at every stage of his life.

PREMCHAND RAICHAND (1835-1900)

Premchand was born in Jain community of Surat. His grand father Deepchand and his father Raichand inherited both wealth and the brisk business. He not only developed it, he used money for various public purpose. He donated lacs of rupees and brought glory to his predecessors. Premchand Raichand organized his business in

Bombay. He was a master in the stock market. He could single handedly impress upon the shares of several companies. Premchand Raichand earned a name as a generous donor. He donated Rs. 2 lacs each to the universities of Bombay and Calcutta for a year. He constructed Rajabhai Tower near Flora Fountain in Bombay in memory of his mother. It was he who undertook the Church Gate reparation projects. He also established Raichand Deepchand Girls School and Raichand Deepchand Dharmashala(Inn) in Surat. He established Girls School and a library in Bharuch and Premchand Raichand training college in Ahmedabad.

JYOTINDRA DAVE (1901-1980)

One could hardly imagine that the sober looking weak in structure, Jyotindra Dave was a treasure of humour. Born in a colorful city like Surat and Nagar by caste, Jyotindra Dave was another milestone in the world of humour- literature of Gujarat. In any public meeting people would greet him with laughter even before he started his speech. So was his influence and popularity. He regularly wrote 'Guptani Nodh Pothi' in the monthly magazine 'Gujarat' edited by Kanayalal Munshi. He also contributed articles in 'Akhand Anand' which became very popular in Gujarat. 'Rang Tarang' in 5 parts was his memorable collection. He acted in a drama named 'Pidagrasta Professor'. His short story 'Khoti Be Aani' is very famous. He selected his elements from the day to day life, human weakness, hypocrisy, pride and emptiness of personality. He had written classic humour on crude subjects like umbrella and chair. He was another milestone in the field of humour in Gujarati literature, after Ramanbhai Nilkanth.

(xi) Scope of Village Directory & Town Directory

As mentioned earlier, the District Census Handbook is brought out in two parts-Part A and Part B. Part A covers the non-census data of village directory and town directory whereas part B covers the primary census abstract data of 2001 Census. The scope of village directory and town directory is discussed below.

Scope of Village Directory

For the census work, the villages in the district have been arranged taluka wise and within the taluka they are shown location code wise. Each village is assigned a location code number for the purpose of identification. In 2001 Census, all the villages have been given unique 8-digit code number, which will remain constant across the census, and shall make it easy to do comparative study. Eight digit code's last two digits are especially provided to take into account exigencies arising due to jurisdictional changes of villages by partition, amalgamation etc. This time it has been kept '00'. Prior to the village directory information, a map and alphabetical list of villages for each taluka is given in Part A. Village directory contains the non-census data of each village. It gives the village wise basic information relating to infrastructure and amenities available in the sphere of education, medical, drinking water, power supply, post and telegraph, communications, approach road to village and distribution of land use area. In addition, it contains information about total area of each village, total population and number of households and the nearest town and its distance from the village. The information on number of households and total population has been included with a view to examine the co-relation of amenities with the number of households and population they serve. If an amenity is not in existence in the referent village, the distance in broad ranges from the nearest place along with name, where the amenity is available is given. The broad range are (-5 kms), (5-10 kms.) and (10+ kms.). Some additional information has been added viz.(1) Number of Banks, (2) Credit Societies, (3) recreational and cultural facilities, (4) Receipt of Newspaper / Magazine, (5) Income & Expenditure of the village and (6) Name of the three most important commodities imported, manufactured/ produced & exported. One information has been deleted this time, i.e., Market & Hat facility.

The village directory also carries the following appendices.

Appendix-I	It gives the taluka wise abstract of educational, medical and other amenities available in the villages of the district.
Appendix-I-A	Indicates number of villages Taluka wise having one or more primary schools.
Appendix-I-B	Indicates number of villages Taluka wise having primary, middle and secondary schools.
Appendix-I-C	Shows number of villages Taluka wise with different sources of drinking water facilities. population which do not have one or more important amenities.
Appendix-II-A	Indicates list of Census Towns which do not have one or more amenities.
Appendix-III	It gives the land utilization data in respect of Census Towns/non-municipal Towns.
Appendix-IV	Taluka wise list of inhabited villages where no amenity other than drinking water facility is available.
Appendix-V	Summary showing number of villages not having Scheduled Castes population.
Appendix-VI	Summary showing number of villages not having Scheduled Tribes population.
Appendix-VII A, VII B	The appendix shows the list of villages according to proportion of the Scheduled castes and Scheduled Tribes to the total population by ranges.
Appendix-VIII	Indicates Taluka wise number of villages under each Gram Panchayat.
Appendix-IX	Shows number of different types of girls school in a village.

Scope of Town Directory

Town Directory covers the non-census data for each town. It presents important and useful information like civic and other amenities available in all the towns of the district. The information in town directory is covered in following seven statements, viz. statements I to VII.

Statement-I	Town wise class, name, civic administrative status of the town, its area, growth rates, density and sex ratio.
Statement-II	Physical aspects of each town.
Statement-III	Income and expenditure of each town.
Statement-IV	Civic and other amenities in respect of each town.
Statement-V	Availability of medical, educational, recreational and cultural facilities in each town.
Statement-VI	Trade, commerce, industry and banking activities in each town.
Statement-VII	Civic and other amenities in slum areas of each town.

In all the Statement except VII the towns are arranged in the alphabetical order within the district. The details of these statements are given in the analytical portion of the town directory. In addition to the above statements, an appendix showing the towns with their outgrowths with population, is also given after the town directory statements.

PART – A

VILLAGE AND TOWN DIRECTORY

SECTION – I VILLAGE DIRECTORY

Village Directory

(a) Note Expalining the abbreviation used in the village directory

The "Village Directory" is one of the traditional compilations of the Census. It gives the list of villages, their location numbers, their area, population, number of households, amenities such as educational, medical, drinking water, post and telegraph, commercial and co-operative banks, agricultural non-agricultural and other credit societies, recreational and cultural facilities, communication, approach to village, nearest town with a distance, power supply availability of newspaper and magazines, most important commodity manufactured and land use of each village.

Village is a statutory recognized unit having a definite boundary and separate land records. In case, a complete village is treated as an outgrowth of urban agglomeration, data on amenities for that village, have not been given in the Village Directory but shown along with the urban component. The villages which are consider as a Census Town , the amenities data are shown in the Town Directory. For those villages which have partly merged in an outgrowth of U.A., the amenities data are shown in the Village Directory for that particular village.

The 'uninhabited' villages (villages with no population) have been indicated as such after furnishing details in columns 1 to 3 i.e., Serial number, Name of village & location code number and area of the village against column no. 4 to 18. The land use data for such villages are shown in col. 19 to 23

The Village Directory format has 23 columns and the details given under each column are for the village are as follows:-

Column 1 : Serial Number

Self-explanatory. All the villages within the Taluka / CD Block are presented serially in the ascending order of their location code number.

Column 2 : Name and Location Code Number of village.

The name and location code number of the village are shown against these columns. This also includes the forest and uninhabited villages.

Column 3 : Area of the village

The area of the villages in hectares are given. Wherever the area figures was not furnished by the concerned department the column is left blank.

Column 4 : Total population

The total population of the village as per 2001 Census is given against this column.

Column 5 : Number of households

The number of households as per 2001 Census is given in this column.

Amenities :

In column 6 to 23, availability in respect of different amenities such as education, medical, drinking water, post, telegraph, banks, credit societies, communication, power, approach road etc. in each village has been depicted with appropriate codes against the column concerned. Wherever the amenities are not available in the village, a dash (-) is shown in the column and next to it in brackets the distance in broad ranges viz.< 5 kms., 5-10 kms. and 10+ kms of the nearest place where the facility is available is given. Column wise details are given below :

Column 6 : Educational

Classes upto class VII included in Primary School. This will include nursery school, kindergarten school., pre-basic school, pre-primary school, junior basic school upto class VII. Classes from VIII to X included in Higher secondary school. Classes XI and XII are included in senior secondary school. Accordingly any of the following types of institutions if exists within the village is shown as per codes given below :

(i)	Primary School	P
(ii)	Middle School	M*
(iii)	Secondary School	S
(iv)	Senior Secondary School	PUC
(v)	College	C
(vi)	Industrial School	I
(vii)	Training School	Tr
(viii)	Adult literacy class/center	AC
(ix)	Others (specify) e.g. Sanskrit Pathshala, Senior basic school, Navodaya Vidyalaya, Makhtab, etc.	O

More than one institution of a type in the village is indicated by the number within brackets against the abbreviation, e.g. P(3), M(4), etc.

Note : *-There is no Middle school in the Gujarat State.

Column 7 : Medical

Availability of medical facility within the village is indicated by following codes :

(i)	Allopathic Hospital	H
	Ayurvedic Hospital	HA
	Unani Hospital	HU
	Homeopathic Hospital	Hom
(ii)	Allopathic Dispensary	D
	Ayurvedic Dispensary	DA
	Unani Dispensary	DU
	Homeopathic Dispensary	DHom
(iii)	Maternity & Child Welfare	MCW
(iv)	Maternity Home	MH
(v)	Child Welfare Centre	CWC
(vi)	Health Centre	HC
(vii)	Primary Health Centre	PHC
(viii)	Primary Health Sub-Centre	PHS
(ix)	Family Welfare Centre	FWC
(x)	T.B. Clinic	TB
(xi)	Nursing Home	NH
(xii)	Registered Private Medical Practitioner	RMP
(xiii)	Subsidised Medical Practitioner	SMP
(xiv)	Community Health Worker	CHW
(xv)	Others	O

More than one institution of a type in the village is indicated by the number within brackets against the abbreviations, e.g. H(3), D(4), etc.

Column 8 : Drinking Water

The type of the drinking water supply sources available within the village are indicated by codes as follows :

(i)	Tap Water	T
(ii)	Well Water	W
(iii)	Tank Water	TK
(iv)	Tubewell Water	TW
(v)	Handpump	HP
(vi)	River Water	R
(vii)	Canal	C
(viii)	Lake	L
(ix)	Spring	S
(x)	Others	O

Column 9 : Post, Telegraph and Telephone

It is indicated by codes as shown below whether within the village exists the following amenities:

(i)	Post Office	PO
(ii)	Telegraph Office	TO
(iii)	Post & Telegraph Office	PTO
(iv)	Telephone Connection	PH

Column 10 : Commercial and Co-operative Banks

If the village is served by any banking service, commercial bank, co-operative bank etc. the same is indicated in codes mentioned below along with the number of banks in brackets. If not available the distance of nearest place where the facility exist is given:

(i)	Commercial Bank	CM
(ii)	Co-operative Bank	CP

Column 11: Credit Societies

If the village enjoys the services of Credit Societies i.e. Agricultural Credit Societies, Non Agricultural Credit Society or Other Credit Societies, the same is indicated in codes mentioned below along with the number of such societies in brackets. In case the facility is not available within the village the distance of the nearest place where such facility exist is given :

(i)	Agricultural Credit Society	ACS
(ii)	Non- Agricultural Credit Society	NCS
(iii)	Other Credit Society	OCS

Column 12 : Recreational and cultural facilities

If facilities such as Cinema/Video hall, Sports Club, Stadium/Auditorium is available in the village, the same is recorded in these columns. If not available the particulars of the nearest place with the facility is recorded. The information is indicated in codes mentioned below along with the number of such facilities in brackets:

(i)	Cinema / Video Hall	CV
(ii)	Sports Club	SP
(iii)	Stadium / Auditorium	ST

Column 13 : Communications

If the village is served by any mode of public/ private transport like Bus, Railway station or Navigable water ways they are to be mentioned as follows:

(i)	Bus	BS
(ii)	Railway Station	RS
(iii)	Navigable Waterway	NW

Column 14 : Approach to village

Approach to village refers to the state of road leading to village. The approach to the village is indicated in following codes :

(i)	Paved Road	PR
(ii)	Mud road	MR
(iii)	Foot path	FP
(iv)	Navigable River	NR
(v)	Navigable Canal	NC
(vi)	Navigable waterways other than River, Canal	NW

Column 15 : Nearest Town and distance

The distance is given in kilometers in brackets against the name of the town nearest to the village.

Column 16 : Power supply

Availability of Power Supply in the village, whatever may be the form of its use is given by using following codes :

(i)	Electricity for domestic use	ED
(ii)	Electricity for agricultural use	EAG
(iii)	Electricity for other purposes	EO
(iv)	Electricity for all purposes	EA

Column 17 : News Paper / Magazine

If village receives any News Paper/Magazines the same is noted in this column using following codes :

(i)	News Paper	N
(ii)	Magazine	M

Column 18 : Most important commodities manufactured

The name of three most important commodities manufactured in the village is recorded against this column.

Column 19 to 23 : Land use i.e. area under different types of land use

Land use data maintained by the State/ UT Govts. are furnished against these columns. The data concerning area under Forest, Irrigated land (by source), Un-irrigated land, Culturable waste and Area not available for cultivation in the village are shown against these columns. The area figures are given in hectare(s) up to one decimal. Desh '-' is recorded wherever the information is not made available by the concerned department. The codes used for different types of irrigation facilities available in the village are indicated below:

(i)	Government Canal	GC
(ii)	Private Canal	PC
(iii)	Well (without electricity)	W
(iv)	Well (with electricity)	WE

(v)	Tubewell(without electricity)	TW
(vi)	Tubewell(with electricity)	TWE
(vii)	Tank	TK
(viii)	River	R
(ix)	Lake	L
(x)	Waterfall	WF
(xi)	Others	O
(xii)	Total	T

The village directory also carries the following appendices.

Appendix-I It gives the abstract of educational, medical and other amenities available in villages Taluka / C D Block wise of the district.

Appendix-I-A Indicates number of villages Taluka / C D Block wise having one or more primary schools.

Appendix-I-B Indicates number of villages Taluka / C D Block wise having primary, middle and secondary schools.

Appendix-I-C Shows number of villages Taluka / C D Block wise with different sources of drinking water facilities.

Appendix-II Indicates the list of villages with 5,000 and above population which do not have one or more important amenities.

Appendix-II-A Indicates list of Census Towns which do not have one or more amenities.

Appendix-III It gives the land utilization data in respect of Census Towns / non-municipal Towns.

Appendix-IV Taluka / C D Block wise list of inhabited villages where no amenity other than drinking water facility is available.

Appendix-V Summary showing number of villages not having Scheduled Castes population.

Appendix-VI Summary showing number of villages not having Scheduled Tribes population.

Appendix-VII A, VII B The appendix shows the list of villages according to proportion of the Scheduled castes and Scheduled Tribes to the total population by ranges.

Appendix-VIII Indicates Taluka /C D Block wise number of villages under each Gram Panchayat.

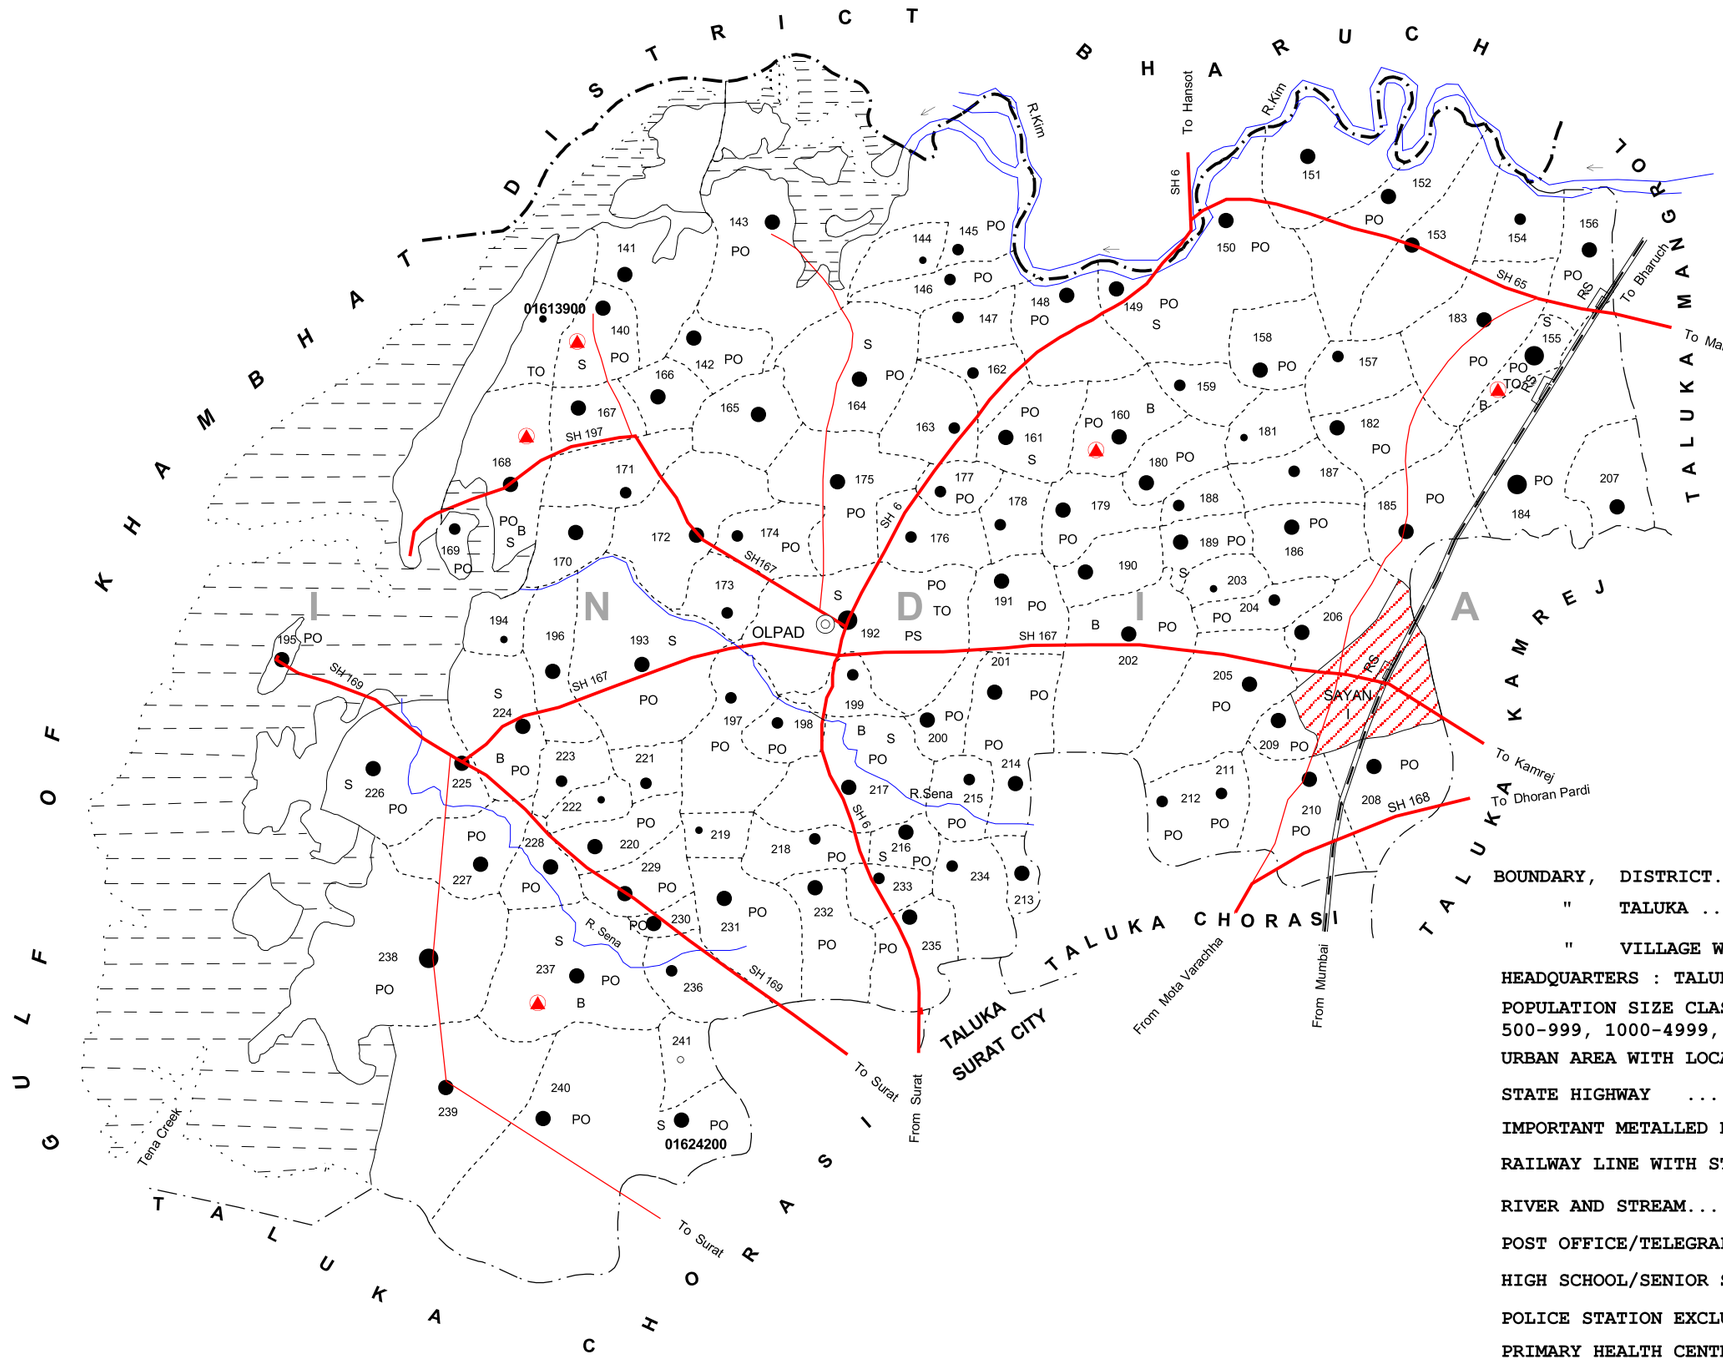

Appendix-IX Shows number of different types of girls school in a village.

VILLAGES BY NUMBER OF PRIMARY SCHOOLS

Sl. No.	Name of Taluka/ C.D.Block	Total Number of Inhabited Villages	Number of Primary Schools				
			None	One	Two	Three	Four +
1	2	3	4	5	6	7	8
1	Olpad	104	2	86	13	1	2
2	Mangrol	91	2	65	16	5	3
3	Umarpada	63	0	44	13	2	4
4	Nizar	51	1	31	5	5	9
5	Uchchhal	39	1	17	10	3	8
6	Songadh	167	9	103	38	11	6
7	Mandvi	134	1	54	38	26	15
8	Kamrej	70	4	54	7	3	2
9	Chorasi	62	3	45	10	2	2
10	Palsana	47	1	36	8	1	1
11	Bardoli	82	4	57	12	7	2
12	Vyara	148	4	82	38	11	13
13	Valod	40	1	13	13	8	5
14	Mahuva	69	0	32	16	9	12
	District Total :	**1,167**	**33**	**719**	**237**	**94**	**1,167**

APPENDIX 1B - VILLAGE DIRECTORY

VILLAGES BY PRIMARY, MIDDLE AND SECONDARY SCHOOLS

Sl. No.	Name of Taluka/ C.D.Block	Total Number of Inhabited Villages	Type of educational institutions available			
			No School	At least one Primary School and No Middle School	At least one Primary School and one Middle School*	At least one Middle School and one Secondary School*
1	2	3	4	5	6	7
1	Olpad	104	2	102	0	0
2	Mangrol	91	2	89	0	0
3	Umarpada	63	0	63	0	0
4	Nizar	51	1	50	0	0
5	Uchchhal	39	1	38	0	0
6	Songadh	167	9	158	0	0
7	Mandvi	134	1	133	0	0
8	Kamrej	70	4	66	0	0
9	Chorasi	62	3	59	0	0
10	Palsana	47	1	46	0	0
11	Bardoli	82	4	78	0	0
12	Vyara	148	4	144	0	0
13	Valod	40	1	39	0	0
14	Mahuva	69	0	69	0	0
	District Total :	**1,167**	**33**	**1,134**	**0**	**0**

Note : * In Gujarat State the levels of education are classified as under

(i) Primary School (From Std. I to VII passed)

(ii) Secondary/Matriculation (From Std. VIII to X passed)

(iii) Higher Secondary (From Std. XI to XII passed). Hence details under column 6, 7 are not shown.

APPENDIX 1C - VILLAGE DIRECTORY

VILLAGES WITH DIFFERENT SOURCES OF DRINKING WATER FACILITIES AVAILABLE

Sl. No.	Name of Taluka/ C.D.Block	Number of villages with different sources of drinking water available				
		Only tap	Only well	Only tube well	Only handpump	More than one source only from tap, well, tube well, handpump

APPENDIX VII B - VILLAGE DIRECTORY

LIST OF VILLAGES ACCORDING TO THE PROPORTION OF THE SCHEDULED TRIBES TO THE TOTAL POPULATION BY RANGES

B-Scheduled Tribes

Range of Scheduled Tribes Population (percentages)	Location Code Number	Name of Village
1	2	3
Name of Taluka\CD Block: Olpad		
Less than 5		
	01617000	Delasa
	01623600	Kunkni
	01622500	Admor
	01623900	Tena
	01619600	Kuvad
	01623800	Pinjrat
	01616700	Jinod
	01616800	Mor
	01622700	Bhandut
	01619900	Asnabad
5-10		
	01616900	Bhagwa
	01622600	Lavachha
	01619400	Kapasi
	01622800	Selut
	01621600	Talad
	01620000	Isanpor
	01624200	Segwachhama
	01617200	Sondlakhara
11-20		
	01619700	Orma
	01621300	Sherdi
	01617100	Mirjapor
	01622100	Kasla Bujrang
	01615500	Kim
	01615600	Kathodra
	01619100	Atodra
	01619200	Olpad
	01617300	Hathisa
	01614500	Koba
	01623500	Saroli
	01618400	Kudsad
	01616600	Mindhi
	01623100	Ambheta
21-30		
	01615100	Umrachhi
	01616200	Sarsana
	01620600	Siwan
	01614300	Mandroi
	01616500	Naghoi
	01617400	Kumbhari
	01624000	Barbodhan
	01623700	Dihen
	01622300	Kachhol
	01614800	Kadrama
	01620700	Kanyasi
	01622400	Kundiyana
	01621700	Masma
	01619300	Saras
	01614200	Kamroli
31-40		
	01618300	Mulad
	01615300	Bolav
	01622900	Narthan
	01621800	Balkas
	01614900	Bhadol

* In Gujarat State the levels of education are calssified as under:

(i) Primary School (From Std. I to VII Passed)

(ii) Secondary/Matriculation (From Std. VIII to X Passed)

(iii) Higher Secondary (From XI to XII Passed)

Hence details under Column-6 are not shown.

SECTION – II – TOWN DIRECTORY

Town Directory

(a) NOTE EXPLAINING THE ABBREVIATIONS USED IN THE TOWN DIRECTORY

Town Directory Statements (I to VII)

Statement I : Status and Growth History

Column 2 : Class, name and civic administration status of town :

Class has been introduced to facilitate analysis of town directory data at the state and all India levels. It is presented according to 2001 Census Population of the town as follows :

Population	Class
100,000 and above	I
50,000 - 99,999	II
20,000 - 49,999	III
10,000 - 19,999	IV
5,000 - 9,999	V
Below 5,000	VI

Town with a population of one lakh (1,00,000)and above is treated as a city.

The civic administration status of the towns is indicated within bracket against the name of the town. The following abbreviations are used to denote civic status of town.

(I)	Municipal Corporation	M. Corp.
(II)	Municipal Committee	MC
(III)	Municipal Council	M Cl
(IV)	City Municipal Council	CMC
(V)	Town Municipal Council	TMC
(VI)	Municipal Board	MB
(VII)	Municipality	M

Statement II - Physical Aspects and Location of towns, 1999.

Column 3 to 5 : Physical Aspects

In this columns the Rainfall and Maximum & Minimum Temperature of the town is recorded.

Column 6, 7 and 8:

Name of the State headquarters, District headquarters and Sub-Divisional headquarters with distance from the referent town in kilometers, is to be recorded respectively. If the names mentioned in these columns are the same as the referent town itself, the distance is recorded as (0) zero.

Column 9 & 10 :

Name of the nearest city with one lakh and more and five lakhs and more population are recorded.

Column 11, 12 and 13 :

If referent town enjoys the facility of railway station, bus route facility or navigable river/canal. Its name is to be mentioned. If not available, then the name of nearest place with distance, where such facility exists is to be mentioned.

Statement III : Municipal Finance 1998 – 1999

Item-wise amount of receipt and expenditure in thousand rupees, relating to municipal finance of the town for the year 1998-99 is to be recorded.

Statement IV : Civic and Other amenities, 1999

Column 1 to 5 : Self explanatory.

Column 6 : Road length (in kms.)

Information about kutcha / pucca road is to be recorded separately for the roads within the limits of the referent town.

(i)	Pucca Road	PR
(ii)	Kutcha Road	KR

Column 7 : System of Sewerage

Generally, by sewerage system is implied the network of mains and branches of underground conduits for the conveyance of sewerage to the point of disposal. Sewers that carry only household and industrial wastes are called separate sewers, those that carry storm water from roofs, streets and other surface are known as storm water drains, while those carrying both sewage and storm water are called combined sewers.

The codes used for different types of drainage system are as follows :

(i)	Sewer	S
(ii)	Open Surface Drains	OSD
(iii)	Box Surface Drains	BSD
(iv)	Sylk Drains	SD
(v)	Cesspool method	CP
(vi)	Pit System	Pt
(vii)	Others	O

Column 8 to 11 : Number of latrines

Number of various types of latrines both Public and Private are given in these columns.

Column 12 : Method of disposal of night soil

The various prevalent method of disposal of night soil are given below with codes :

Head Loads	HL
Basket	B
Wheel Barrows	WB
Septic Tank	ST
Pit System	Pt
Sewerage	S
Others	O

Column 13 and 14 : Water supply

Source and capacity of storage system. The following codes are used in these columns:

Column 13:

(i)	Tap water	T
(ii)	Tube-well water	TW
(iii)	Tank Water	TK
(iv)	Well water	W

Column 14:

(v)	Over Head Tank	OHT
(vi)	Service Reservoir	SR
(vii)	River Infiltration Gallery	RIG
(viii)	Bore Well Pumping System	BWP
(ix)	Pressure Tank	PT

The information on major source of water supply are given in column 13 and the storage capacity against each in kilolitres (in bracket) are presented in column 14.

Column 15 : Fire Fighting Service

In case the fire fighting service is available in the referent town 'yes' is recorded. If the facility is not available within the town. The name of the nearest place having this facility with its distance from the referent town has been recorded.

Column 16 to 20 : Electrification (Number of connections)

Different types of electric connections have been shown in these columns, i.e. Domestic, Industrial, Commercial, Road lighting (points) & others.

Statement V : Medical, Educational, Recreational and Cultural Facilities, 1999

Column 1 to 3 : Self explanatory.

Column 4 & 5 :

The data covers all such medical institutions run by or aided by Government/Semi Government/ Local bodies and Charitable institutions or Social agencies like the Missionaries. Where the family planning centres are attached to hospitals or maternity and child welfare centres or Primary Health Centres, may be treated as independent units and counted separately using following codes :

(i)	Hospital	H
(ii)	Dispensary	D
(iii)	Health Centre	HC
(iv)	Family Welfare Centre	FWC
(v)	T.B. Clinic	TB
(vi)	Nursing Home	NH
(vii)	Others	O

In case of more than one institutions of any type, it is indicated within brackets the number of such institution (s) e.g. D(3), NH(8), etc. The institutions have further been distinguished by providing additional codes within the bracket as given below :

Ayurvedic	A
Unani	U
Homoeopathic	Hom

Column 6 to 9 :

The codes used for these columns are as follows :

(i)	Arts only	A
(ii)	Science only	S
(iii)	Commerce only	C
(iv)	Arts & Science only	AS
(v)	Arts & Commerce only	AC
(vi)	Combined for all categories-Arts, Science and Commerce	ASC
(vii)	Law	L
(viii)	University	U
(ix)	Others	O

Column 10 : Recognized shorthand, typewriting and vocational training institutes

"Recognised" should mean recognised by some statutory authority, like education department, commerce department, labour department etc. of the government or semi government or autonomous bodies, public sector undertakings etc.

The following codes are used :

(i)	Vocational Training Institute	VT
(ii)	Shorthand	SH
(iii)	Typewriting	Type
(iv)	Shorthand & Typewriting	SH Type
(v)	Others	O

The vocational institutions like - Applied Art/ Painting college, Pharmacy college, B. Ed. College, Teacher's Training Institute, Music / Dance School, Nursing School etc. are covered under 'Others'.

Column 11 to 14 :

Classes upto class VII included in Primary School. This will include nursery school, kindergarten school. Pre-basic school, pre-primary school, junior basic school upto class VII.

Classes from VIII to X included in Higher secondary school. Classes XI and XII are included in senior secondary school.

Accordingly any of the following types of institutions if exists within the village is shown as per codes given below :

(i)	Primary School	P
(ii)	Middle School	M*
(iii)	Higher Secondary School	S
(iv)	Senior Secondary School	PUC
(v)	College	C
(vi)	Industrial School	I
(vii)	Training School	Tr
(viii)	Adult literacy class/centre	AC
(ix)	Others (specify) e.g. SanskritPathshala, Senior basic school, Navodaya Vidyalaya, Makhtab,etc.	O

More than one institution of a type in the village is indicated by the number within brackets against the abbreviation, e.g. P(3), M(4), etc.

Note : * - There is no Middle school in the Gujarat State.

Column 15 : Adult literacy class/centres

This column has been introduced keeping in view the Minimum Needs Programme of the Planning Commission. There are number of Adult Education Centres which are included in these columns.

If an educational facility is not available in the town, the name of the nearest place and its distance in kilometres from the town where the facility is available is mentioned.

Column 16 : Working Women's hostels with number of seats

The number of working women's hostel if available in the referent town is mentioned with number of seats. If the facility is not available in the town the name of nearest place with distance where the facility is available is recorded.

Column 17 to 19 : Recreational and Cultural Facilities

Stadium, Cinema, Auditorium/Drama/ Community Hall are covered under recreational & cultural facilities. The particulars of permanent recreational facilities are considered for these columns.

Column 20 : Public Libraries, Reading Rooms

Number of public libraries and reading rooms available in the referent town are recorded in codes as follows :

(i)	Public Library	PL
(ii)	Reading room	RR

Statement VI : Trade, Commerce, Industry and Banking, 1999

Column 3 to 8 : Name of three most important commodities exported and names of three most important commodities manufactured in the town are recorded.

Column 9 : Number of Banks

Number of Banks available in the referent town both Commercial and Co-operative banks are recorded against this column.

Column 10 & 11 : Number of Agricultural Credit Societies and Non Agricultural Credit Societies

The total number of Agricultural Credit Societies and Non Agricultural Credit Societies in the referent town are recorded against these columns.

Statement VII : Civic and other Amenities in Slums, 1999

This is the statement on civic and other amenities in all slums whether notified or not and for all towns having statutory bodies, like municipality, Municipal Corporation, Town area committee etc.

Part – B

PRIMARY CENSUS ABSTRACT

Primary Census Abstract

Brief note on Primary Census Abstract :

The first census of the third millennium and twenty first century the Census of India, 2001 was the 14th continuous and uninterrupted Indian census since 1872. Thus, 2001 Census will provide data on population and its characteristics marking transition from one century and millennium to another.

The gigantic operation of Population Enumeration (considered by many to be the single largest and complex peace time administrative exercise in the world) was made possible due to the door to door universal canvassing of the Household Schedule by about 2 million enumerators and supervisors covering 593 districts, 5,463 sub-district, 5,161 towns and 638,588 villages. The comprehensive Household Schedule which replaced the individual slip had three parts and two sides A and B. Part I contained the Location Particulars; Part II related to the Individual Particulars and Part III contained questions for Household engaged in cultivation/Plantation. The part II of the Household Schedule had 39 columns and 23 questions all of which were universally canvassed and no sampling was resorted to during enumeration.

Data Processing

A quantum leap was made in the technology front while processing the Census 2001 data both for Houselisting and Population Enumeration. The Census schedules for both the phases were scanned through high speed scanners in fifteen data centers across the country and hand-written data from the schedules were converted into digitized form through Intelligent Character Reading (ICR) software for creation of ASCII records for further processing. The designing and formatting of the Household Schedule had to be done very carefully using specialized software so as to ensure uniformity, which was an essential pre-requisite for scanning. The selection of appropriate state-of-art technology in data processing has made it possible to produce all the Houselisting as well as Population Enumeration tables on full count basis for the first time in the history of Census. For Census 2001, about 202 million schedules consisting of about 1,028 million records were scanned and processed within a span of only 10 months starting October, 2002.

Task Force on Quality Assurance

After the data is processed, it is expedient on the part of the data producing agency to satisfy itself about its quality before putting the same in public domain. This has to be done mainly through the process of internal consistency, comparison with similar data in the past and also through validation with likewise data if available, from external sources. Quite often the local knowledge and perception has to be brought into play to understand both the existing and the new emerging trends of population distribution and characteristics. The other very important aspect of the data quality is to ensure complete coverage of all geographical areas especially for the population enumeration phase where the data is disseminated right up to the village level in the rural areas and the ward level in the urban areas. Thus ensuring the complete coverage and correct geographical linkage of each enumeration block was one of the major planks of the quality control, specially for small area population statistics.

A very comprehensive check and edit mechanism was put in place to objectively examine the preli-minary Census 2001 Population Enumeration results and finally clear them for use. The responsibility of the final clearance of data was with the Task Force on Quality Assurance (TFQA), headed by the Registrar General and Census Commissioner, India. The other members of the TFQA were the Heads and senior officers of the Census Division, Data

Processing Division, Map Division, Demography Division and Social Studies Division. The Directors of Census Operations were co-opted as members whenever the TFQA discussed the

data for their States/Union territories. The Directors and their senior officers were required to make detailed presentations of data for their own state both in respect to the quality and the coverage and only after the full possible cleared.

There has been a major departure in Census 2001 from the past in respect of the procedure followed for finalization of the Scheduled Castes and the Scheduled Tribes population. In the earlier censuses, the total Scheduled Castes and Scheduled Tribes populations were finalized at the time of the manual compilation of the Primary Census Abstracts (PCA) at the Regional Tabulation Offices which were specially set up for this purpose. The individual Scheduled Castes and the Scheduled Tribes population for each state was finalized much later based on manual coding done by the coders. In 2001 Census, each individual Scheduled Caste and the Scheduled Tribe have been coded directly on the computers by the Data Entry Operators through a process known as Computer Assisted Coding (CAC) and taken up along with the processing of PCA data. The CAC process involves pulling down, from the relevant dictionary of the Scheduled Castes and the Scheduled Tribes, on the computer screen and coding from the dictionary by referring to the image of the specific individual entry in the Household Schedule appearing on the screen. The CAC of the response on Religion wherever required, was also undertaken along with the processing of PCA. This is because the Scheduled Castes status had to be determined in relation to the religion of the individual. Two Special Task Forces, one on Religion and the other on Scheduled Castes/Scheduled Tribes were constituted for scrutiny and appropriate classification of these responses.

The main task of the Special Task Force on Religion was to appropriately merge or group the new responses encountered and code it into the appropriate religious community based on available literature and local knowledge. The Special Task Force on Scheduled Castes and Scheduled Tribes examined the different Scheduled Castes and Scheduled Tribes entries encoun-tered and classified these into appropriate category of the Scheduled Castes or the Scheduled Tribes principally based on the Presidential Notification and the available literature. Thus a very systematic and scientific mechanism was operationalised to firm up the individual religion and the individual Scheduled Castes/Tribes returns. The Scheduled Castes and the Scheduled Tribes population in 2001 Census, is thus being finalized by aggregating the population data for individual Scheduled Castes and the Scheduled Tribes at appropriate geographical levels.

The entire work relating to the data validation and scrutiny was completed by all the States/Union Territories under the overall supervision and monitoring of the Census Division of the Office of the Registrar General, India with active cooperation and support of the Social Studies Division, Data Processing Division, Data Dissemination Division and Map Division.

Primary Census Abstract

The Primary Census Abstract which is yet another important publication of 2001 Census gives basic information on Area, Total Household, Total population, Scheduled Castes, Scheduled Tribes population, Population in the age group 0-6, Literates, Main workers and Marginal workers classified by the four broad industrial categories, namely (i) Cultivators, (ii) Agricultural labourers (iii) Household Industry Workers and (iv) Other workers and also Non-workers. The characteristics of the Total population includes Scheduled Castes, Scheduled Tribes, Institutional and Houseless population and are presented by sex and rural-urban residence. This data is presented at different levels, namely India, State/Union Territories, Districts and Cities, Urban Agglomerations (Population 100,000 and above) in three different tables. In addition, the Appendix of said publication provides Houseless and Institutional Households and their population by residence and sex for 2001 for India, State and Union territory.

Apart from the India and State/Union Territory volumes for Primary Census Abstract, the District Census Handbook contains District Primary Census Abstract, Appendix to District Primary Census Abstract, Primary Census Abstract for Scheduled

Castes, Primary Census Abstract for Scheduled Tribes, Village Primary Census Abstract and Urban Primary Census Abstract of the concerned district in the state.

It was for the first time at the 1981 Census that the Primary Census Abstract (PCA) was brought out for the Scheduled Castes and the Scheduled Tribes separately on the pattern of General Primary Census Abstract. This practice was continued in 1991 also. In the 1961 and 1971 Censuses, such data were made available in Table C-VIII-Social and Cultural table and to some extent in the series 'Special Tables for Scheduled Castes/ Scheduled Tribes'.

The format of Primary Census Abstract has been restructured slightly in the 2001 Census as compared to that of 1991 Census. The nine-fold industrial classification of main workers given in the Primary Census Abstract of 1991 Census has been discontinued and its place, four-fold industrial classification of both 'main workers' and 'marginal workers' are included. In 1981 census only main workers were presented in to four categories. One of the novel features of the primary census abstract of 1991 census was the presentation of data of the population of age group 0-6 is continued in 2001 Census also. This will help the data users in better analysis and understanding of this literacy data.

Level of presentation in District Census Handbooks:

The Primary Census Abstract data in different PCAs are presented at different levels. The level of presentation of Primary Census Abstracts are as under:

The PCA Data for villages was presented CD Block wise for the first time in 1991 Census. This practice is continued in 2001 Census also. The data for each CD Block is presented both for rural and urban areas separately. All the villages within the CD Block constitute the rural portion and the Census Towns and Outgrowths are shown under the urban portion of the CD Block. In case a CD Block is spread over two or more districts, than portion which falls within the district is presented, the data pertaining to remaining portion of the CD Block is presented in the concerned District Census Handbook. The data in the Urban Primary Census Abstract for each town as well as for town with outgrowths in the district are presented. The data for all the wards and the outgrowths of the town(s) are also presented separately below the concerned town(s).

The District Primary Census Abstract is presented in 59 columns. The Primary Census Abstract for Scheduled Castes and Primary Census Abstract for Scheduled Tribes are presented in 52 columns. The Village Primary Census Abstract and Urban Primary Census Abstract are presented in 58 columns.

The concepts and definitions used in the column heading are explained under the sub heading 'Census Concepts' in the Analytical Note. The term 'Total Population' includes the Scheduled Castes, the Scheduled Tribes, the Institutional and the Houseless populations. The explanation regarding area figures presented at various level in the Primary Census Abstracts are as follows:

Area Figures

The area figures supplied by local revenue authorities of the district in respect of tehsils, Police Stations and by the local bodies in respect of towns are given in square kilometers. The area figures of the villages supplied by the Tahsildars in acres have been converted and shown in hectares. The area figures of the CD Block is the total of the village areas coming under each CD Block. The area figures for the district are the same as adopted by the Surveyor General of India to maintain uniformity at the national level. The total area figures of all the tahsils/CD Blocks within the district may not tally with area figures of the district because former represents land use area only. Similarly, the total of all the villages may not tally with the entire rural of Police Station/Tahsil. The difference may be due to the fact that while the area covered by hills, forests and rivers etc, have been accounted in the Tahsils and P.S. level the same may not be covered under the area of the villages. Apart from this it may also differ due to varying methods of computation adopted at different levels.

An appendix to District Primary Census Abstract has also been furnished showing urban enumeration block-wise particulars on Total Population, the Scheduled Castes Population and the Scheduled Tribes Population for each town.

Tribes Population for each town.

The following Abbreviations have been used in the Primary Census Abstract for facility of presentations:

1	Municipal Corporation/ Corporation	M. Corp.
2	Municipality	M
3	Municipal Council	MCI
4	Cantonment Board/ Cantonment	CB
5	Notified Area/Notified Area Committee/Notified Committee	NAC

11	Rural	R
12	Urban	U

The following conversion factor has been used for converting areas into hectares and hectares into km^2

Acres x 0.40467 = hectares

100 Hectares = 1 Km^2

DISTRICT

Note: *These figures represent 'Geographical area' figures supplied by the Surveyor General. Figures for urban area are those supplied by the local Bodies. Area figures for rural are derived by subtracting the urban area from the total area of the District. The total of the area figures of talukas will not tally with the district figures because the former represents 'Land Use Area' and are derived from the figures supplied by the Director of Land Records.

Note: *These figures represent 'Geographical area' figures supplied by the Surveyor General. Figures for urban area are those supplied by the local Bodies. Area figures for rural are derived by subtracting the urban area from the total area of the District. The total of the area figures of talukas will not tally with the district figures because the former represents 'Land Use Area' and are derived from the figures supplied by the Director of Land Records.

Source: Village Directory 2001(As on 31st March ,1999)

Note: { Represents Group Gram Panchayat.

Note: The data of 1991 Census of Surat district have been discussed in Annexure II and III, while in Annexure IV, VI, VII and VIII comparative data of 1991 - 2001 Census are presented. Annexure V provides the recast data of 1991 Census and separate data of 2001 Census of Surat district.

ANNEXURE – II

FERTILITY AND MORTALITY-1991 CENSUS

Fertility Level:

Population is a dynamic variable and keeps on changing. Increase due to birth and decrease due to death affect the population size of an area. Thus the birth and death are the two most important vital events. Natural increase is the excess of population by births over decrease of population by deaths at a given point of time. The births have direct correlation with the fertility.

The data on fertility levels and trends as revealed by the fertility indices of the 1991 Census like Crude Birth Rate (CBR), Age Specific Fertility Rate (ASFR) and Total Fertility Rate (TFR) are presented and analyzed below. The Definitions and concepts of fertility indices frequently used have already been explained in Analytical Note.

Death Rate:

Death process in demographical terminology is called as mortality. The rate at which death events occur reveals about the standard of living and State of health. Statistical data on causes of death help us in controlling the spread of diseases and suggests new curative methods to medical authorities.

Child Mortality:

Information about questions on children ever born and children surviving canvassed for all ever married women was tabulated by age of the mother. From this estimate of child mortality have been worked out by using Brass technique.

Source: Occasional Paper No 1 of 1997.

The Annexure III shows various fertility indicators of State with the district as per 1991 Census. It can be observed that Surat district has Crude Birth Rate (CBR) of 30.6 and Total Fertility Rate (TFR) of 3.5, both are lower than the State CBR and TFR of 33.6 and 4.2 respectively. Total Marital Fertility Rate (TMFR), General Fertility Rate (GFR) and General Marital Fertility Rate (GMFR) of Surat district are 5.0, 121 and 155 respectively. For the State, TMFR is 5.4, GFR is 136 and GMFR is 175.

Mean age at marriage means age (in completed years) at which the woman was married. In case a woman was married more than once, the age at which she was married first, was recorded. The mean age at marriage in Surat district as per 1991 Census was 19.4 against 19.0 for the Gujarat State.

Source: Gujarat State District Profile 1991.

Above Statement shows that as per 1991 Census there were 3.5 children ever born per ever married woman in age group of 45-49 with 3.3 surviving children per woman in Surat district against 4.2 and 3.8 respectively in the State. It is clear from the Statement that lower number of children ever born was reported in rural areas of the district against the rural areas of the State as a whole while in case of urban areas of the district Surat the number of children ever born was more or less equal to the ever born children in the whole urban areas of the State. It can also be observed from the Statement that number of children surviving per ever married woman was lower for both rural and urban areas of Surat district as compared to rural and urban areas of the Gujarat State as a whole.

ANNEXURE – IV

PERCENTAGE DISTRIBUTION OF MIGRANTS BY PLACE OF BIRTH/ PLACE OF LAST RESIDENCE, 1991 AND 2001 CENSUSES

Migration

Migration is a factor in changing the size and structure of the population. The migration process affects the areas to which migrants have moved and areas which they have left. Migration is a form of geographical mobility between one geographical unit to another, involving a change of residence from the place of origin/birth to the place of destination or place of new settlement from the last residence. A person is considered as a migrant by place of birth if the place in which he is enumerated during the Census is other than the place of birth. Similarly a person is considered as a migrant by place of last residence if the place in which he is enumerated during the Census is other than his place of immediate last residence.

Internal and International Migration

The migration movements are of four types –

1. Migration within the district of enumeration (intra-district migration)
2. Migration from one district to another but within the State
3. Migration from one State to another State of the country (inter-State migration) and
4. Migration from one country to another country.

The first three together constitute internal migration while the last type of movement is called international migration.

Migration by place of birth:

The absolute number and percentage distribution of Migrants by place of birth to total population in Surat district and in the State at 1991 and 2001 Censuses are as following.

PERCENTAGE DISTRIBUTION OF MIGRANTS BY PLACE OF BIRTH-1991 CENSUS

Source: Gujarat State-D-Series Tables-2001

As per 1991 Census there were 13,572,140 migrants in Gujarat whose place of birth was different than the place of enumeration, this number increased to 18,810,592 in 2001 Census. Out of such migrants in 1991 Census, 58 per cent were born elsewhere in the district of enumeration, 30.1 per cent were born in other districts of the State, 11.2 per cent were born in other States of India and 0.7 per cent were born in other countries. There were 4,170 migrants in 1991 who were classified as "Unclassified" while no migrant was reported under this category in 2001. As per 2001 Census 56.9 per cent were born elsewhere in the district of enumeration, 29.2 per cent were born in other districts of the State, 13.4 per cent were born in other States of India and 0.4 per cent were born in other countries.

It can be seen that as per 1991 Census in Surat district there were 1,343,837 migrants whose place of birth was different than the place of enumeration, this number increased to 2,523,947 in 2001 Census. Out of such migrants in 1991 Census, 29.6 per cent were born elsewhere in the district of enumeration, 36.8 per cent were born in other districts of the State, 33.1 per cent were born in other States of India and 6,080 that is 0.5 per cent migrants were born in other countries. There were only 520 migrants in 1991, who were classified as "Unclassified", while no migrant was reported under this category in 2001. As per 2001 Census in Surat district, 23.5 per cent were born elsewhere in the district of enumeration, 37.3 per cent were born in other districts of the State, 38.9 per cent were born in other States of India and 7,692 were born in other countries.

INTER STATE IN-MIGRANTS TO GUJARAT STATE AS PER 1991 CENSUS BY PLACE OF BIRTH

Other States	635,473	25.2	258,381	26.3

Source: Gujarat State-D-Series Tables-2001

The above Statements show migration in Gujarat and in Surat district from other States as per 1991 and 2001 Censuses. It can be seen that as per 1991 Census there were 1,520,421 persons in the State who were born in other States of India, this figure rose to 2,520,676 in 2001 Census. In 1991 out of such persons 34.4 percent were born in Maharashtra while in 2001 only 29.2 percent were born in Maharashtra. In 1991 out of such persons 34.4 percent were born in Maharashtra while in 2001 only 29.2 percent were born in Maharashtra. In 1991, as much as 22.2 percent of inter State migrants were born in Rajasthan and 16.6 percent in Uttar Pradesh whereas in 2001 the proportion born in Rajasthan and Uttar Pradesh was 18.7 and 20.6 percent respectively. As per 1991 Census out of total inter State migrants 6.1 percent were born in Madhya Pradesh, the proportion of the same, in 2001 Census, was almost equal at 6.3 percent. The remaining 20.7 percent were born in other States of India in 1991 Census while in 2001 Census 25.2 percent were born in other States of India.

As regards Surat district it can be seen that were 444,412 migrants in this category in 1991 which increased to 981,347 in 2001. The State-wise distribution reveals that as per 1991 Census 53.9 percent of migrants and as per 2001 Census 38.5 percent of migrants were born in Maharashtra. In 1991 the proportion of migrants born in the States of Rajasthan and Uttar Pradesh was 9.1 percent and 14.6 percent respectively while the same for 2001 Census stood at 10.9 percent and 20.6 percent respectively. The proportion of migrants born in other States was 19.1 percent in 1991 which increased to 26.3 percent in 2001 Census.

Migration by place of last residence :

Distribution of migrants by place of last residence in Gujarat and Surat as per 1991 and 2001 Censuses and percentage distribution of in-migrants from other States to Gujarat by place of last residence are presented below.

DISTRIBUTION OF MIGRANTS BY PLACE OF LAST RESIDENCE IN GUJARAT - 1991 CENSUS

Source: Gujarat State-D-Series Tables-2001

There were 13,664,201 migrants by place of last residence in Gujarat according to 1991 Census and as per 2001 Census there were 19,221,602 migrants in the State in this category. The proportion of male and female migrants whose place of last residence was elsewhere within the district of enumeration was 45.4 per cent and 65.1 per cent respectively in 1991 and the respective proportion was 52.4 per cent and 69.8 per cent in 2001 Census in the case of Gujarat State. The reason for higher proportion of female migration is marriage. As per 1991 Census, out of total migrants, 59.1 per cent of migrants were residing elsewhere in the district of enumeration, 29.6 per cent were those whose last residence was in other districts of the State while last residence of 10.7 per cent migrants was in other States of India and only 0.6 per cent were such whose last residence was in other countries. There were 3,810 migrants in the category titled "Unclassified". In Gujarat as per 2001 Census, 63.7 per cent migrants were residing elsewhere in the district of enumeration, 24.6 per cent were such whose last residence was in other districts of the State while last residence of 11.4 per cent migrants was in other States of India and only 0.3 per cent were such whose last residence was in other countries. There were no migrants in the category titled "Unclassified".

There were a total of 1,348,047 migrants by place of last residence in Surat district as per 1991 Census. Out of total migrants, 30.9 per cent of migrants were such whose last residence was in the district of enumeration, 36.5 per cent were such whose last residence was in other districts of the State while last residence of 32.2 per cent migrants was in other States of India and only 0.4 per cent were such whose last residence was in other countries. There were only 490 migrants in the category titled "Unclassified" In the district, as per 1991 Census, there were 2,550,415 migrants by last residence. Out of total migrants, 30.0 per cent of migrants were residing such whose last residence was in the district of enumeration, 34.5 per cent were such whose last residence was in other districts of the State while last residence of 35.3 per cent migrants was in other States of India and only 6,070 migrants' last residence was in other countries. There were no migrants in the category titled "Unclassified".

Source: Gujarat State-D-Series Tables-2001

It can be seen form the data given above that the main reason for the migration was "Work/ Employment". As much as 30.3 per cent of migrants moved due to work or employment as per 2001 Census.As per 1991 Census also,the highest proportion of 25.8 per cent of migration took place due to the same reason. In 2001, this was followed by 26.5 per cent of migration which was due to the reason of " Moved with household" and also in 1991 it was followed by 24.0 per cent of migration due to the same reason which was then titled as"Family Moved".In 2001, the proportion of migration due to marriage was 17 per cent while the same was comparatively higher at 22.5 per cent in 1991 Census.

ANNEXURE – V

BRIEF ACCOUNT OF MAIN RELIGIONS IN THE DISTRICT AS PER 1991 AND 2001 CENSUSES

Religion is the basic cultural characteristics of the population. In secular country like India several religions have thrived and every decennial Census provides an interesting picture of the religious persuasions of the people. The data on religion yielded by the Census are of immense use for the Anthropologists, Sociologists, Demographers, Administrators, Planners and also for laymen.

The six main religions are i) Hindu, ii) Muslim, iii) Christian, iv) Sikh, v) Buddhist, and vi) Jain were recorded. In respect of 'Others', the actual religion returned was recorded. If a person said that he has no religion, it was recorded accordingly and if any person refused to State his religion it was recorded as 'religion not Stated'.

Source: Gujarat State-C- Series Tables-2001

Both, rural and urban areas of Gujarat State as well as Surat district have shown decline in proportion of 'Never married' persons over decade 1991-2001. However the decline was high at 4.1 per cent in case rural areas of Surat district. For 'Married' catagory persons, the increase in their proportion from 1991 to 2001 was significantly higher in rural and urban areas of Surat district.Under this category, both urban and rural areas of Surat district registered rise of 19.1 per cent. over 1991-2001 poeriod.In case of category 'widowed', rural and urban areas of State did not show significant change in their proportions over 1991-2001 period. However, both rural and urban areas of Surat district showed decline of 11.9 per cent and 12.1 per cent respectively over the same period.

ANNEXURE – VII

AGE, SEX AND EDUCATION IN THE DISTRICT AT THE 1991 AND 2001 CENSUSES

Literacy has occupied an important position in Indian Census in one form or the other from the very beginning. The definition of literates as adopted is "A person who can both read and write with understanding in any language is to be taken as literate". A person who can merely read but can not write was not treated as literate. It is not necessary that a person who was literate should have received any formal education or should have passed any minimum educational standard. All children below the age 7 are treated as illiterate. While processing the literacy data population of age group 0-6 is excluded.

The following Statement gives the distribution of literates and illiterates by broad age groups and sex in the district as well as the State at the time of 1991 and 2001 Censuses:-

LITERACY BY AGE-GROUP AND BY SEX -1991

Source: Census of India -C- Series Tables-2001

It can be seen from the Statement that for 2001 Census, the highest proportion of 83.6 per cent literacy rate in Gujarat State is registered in age group of 7-14 years followed by 77.6 per cent in 15-29 years age group. The same trend can be observed in Surat district where the highest proportion of 86.5 per cent is registered in the age group of 7-14 years followed by 81.8 per cent in the age group of 15-29 years. The lowest proportion of 39.5 per cent in State and 48.1 per cent in Surat district is found in the age group of 60 + years. As per 2001 Census the female literacy rate was lower than that of males in each age group in the State as well as in Surat District.except for the category 'Age not specified'.A comparison with the 1991 data shows that literacy rate has increased for each and every age group in the State and also in the district.

Source: Census of India -C- Series Tables-2001

The above Statement shows number and percentage of literates in nine different education levels. In the State, as per 2001 Census, there were 286,886(1 per cent) literates who have no formal education. This proportion was only 0.2 per cent in 1991.As per 2001 Census in Surat district, 21,145 (0.7 per cent) literates have no formal education while in 1991 only 2,860 (0.2 per cent) literates were in this category. As per 2001 Census, 27.1 per cent literates have below primary level of education in the State, the same proportion was also recorded for primary level of education, while as per 1991 Census 41.2 per cent literates had attained primary level of education. In Surat district as per 2001 Census 23.4 per cent have below primary level of education and 28.0 per cent have primary level of education, whereas in 1991 Census these proportions stood at 26.0 per cent and 34.6 per cent respectively. In 1991 Census higher secondary level of education was attained by 4.3 per cent of literates in the State as well as Surat district. while as per 2001 Census, 8.1 per cent literates in the State and 9.6 per cent literates in Surat have attained higher secondary level of education. The proportion of literates having graduate and above level of education was 4.8 per cent and 4.7 per cent in 1991 Census for the State and Surat district respectively. The proportion of literates in this category increased to 6.3 per cent in the State and 5.9 per cent in Surat district.in 2001.The proportion of literates having technical diploma or certificate not equal to degree has also increased in the State as well as in the district in 2001 as compared to 1991. The numbers and proportions of literates having non- technical diploma has decreased in 2001 as compared to 1991 in State as well as in Surat district.

Source: Census of India -C-16 Population by Mother Tonge, 2001

The main language reported as mother tongue in the district is Gujarati as 80.1 per cent of population had returned it as their mother tongue in 1991 whereas in 2001 the same is returned by 56.8 per cent of population showing a very large decline of 23.3 percentage points.In sharp contrast, the proportion of Hindi speaking population has increased to 11.6 per cent in 2001 Census from 6.1 per cent reported in 1991 Census.The proportion of population reporting Marathi as Mother Tongue has almost remained same in both the Censuses in the district. In 2001 Marathi is returned by 7.7 per cent of populatuion while in 1991 it was returned by 7.6 per cent of the district population.

In 2001, in the district,Gamit/Gavit, Chodhari, Vasava,Urdu,Oriya and Bhili /Bhilodi are reported as mother tongue by 5.4 per cent, 4.0 per cent, 3.1 per cent, 2.1 per cent, 2.0 per cent and 1.1 per cent of population respectively. In 1991, Chodhari and Vasava languages were not reported as mother tongues while Gamit/Gavit, Urdu, Oriya and Bhili / Bhilodi were reported as mother tongue by 0.1 per cent, 2.6 per cent, 1.0 per cent and 0.1 per cent of population respectively. The proportion of other languages as mother tongue is not as much significant in the district in both the Censuses.

The above data reveals that as per 1991 Census, in Gujarat State 91.5 per cent persons have returned Gujarati as their mother tongue. At the second place, only 2.5 per cent persons have returned Hindi as their mother tongue. In Gujarat State 1.4 per cent had returned Marathi, 1.3 per cent had returned Urdu and 1.1 per cent had returned Kachchhi as their mother tongue as per 1991 Census.

As per 2001 Census in Gujarat State 84.4 per cent persons have returned Gujarati as their mother tongue. At the second place, only 4.1 per cent persons have returned Hindi as their mother tongue. In Gujarat State Marathi as well as Bhili/Bhilodi each is returned by 1.5 per cent population, 1.1 per cent have returned Urdu and 1.3 per cent have returned Kachchhi as their mother tongue.

In Gujarat, in 1991 Census, Chodhari and Vasava languages were not reported as mother tongues while Gamit/Gavit, Urdu, Oriya and Bhili /Bhilodi were reported by a very small portion of the population.

In 2001, Gamit/Gavit, Chodhari, Vasava and Oriya are reported as mother tongue by 0.6 per cent, 0.4 per cent, 0.8 per cent and 0.2 per cent of population respectively.

In the State, the proportion of other languages as mother tongue is not so significant in both the Censuses.
