# Laxmi Vilas Palace

Laxmi Vilas Palace is one of the finest buildings of the city Vadodara. The palace was designed by Major Mant, the state architect of Maharaj Sayajirao III. The construction of this palace continued for 12 years and the cost was Rs. 600 lacs. The interior of the palace is finished in marble mosaic, fine stone, glass and wood. It has very valuable furnishing. The Maharaja's personal museum is also accommodated in this palace.

A fabulous collection of art objects, paintings, sculptures and other historical memorabilia is housed in Laxmi Vilas Palace. It is open for viewing to the general public. The museum also contains original paintings of India's celebrated artist Shri Raja Ravi Varma.

Annexure – I Number of Villages under each Gram Panchayat
Annexure – II Fertility and Mortality, 1991 Census
Annexure – III Various measures of Fertility and Mean age at Marriage, 1991 Census
Annexure – IV Percentage distribution of Migrants by Place of Birth/ Place of Last Residence,2001 Census
Annexure – V Brief account of Main Religions in the District/ Taluka as per 1991-2001 Census
Annexure - VI Marital Status of Population as per 2001 Census
Annexure - VII Age, Sex and Education in the District,2001 Census
Annexure - VIII Distribution of different Mother Tongues returned in 2001 Census

# F O R E W O R D

The District Census Handbook (DCHB) published by Census Organsation since 1951 census, is one of the important publications in the context of planning and development at gross-root level. The publication, which is brought out for each district, contains several demographic and socio-economic characteristics village-wise and town-wise of the district alongwith the status of availability f civic amenities, infrastructural facilities, etc.

2, The scope of the DCHB was initially confined to a few Census Tables and Primary Census Abstract (PCA) of each village and town within the district. Thereafter, at successive censuses, its scope and coverage has been enlarged. The DCHB published at the 1961 census provided a descriptive account of the district, administrative statistics, census tables and a village and town directory including PCA. The 1971 census-DCHB series was in three parts: Part-A related to village and town directory, Part-B to village and town PCA and Part-C comprised analytical report, administrative statistics, district census tables and certain analytical tables based on PCA and amenity data in respect of villages. The 1981 census DCHB was in two parts: Part-A contained village and town directory and Part-B the PCA of village and town including the SCs and STs PCA up to tahsil/town levels. New features alongwith restructuring of the formats of village and town directory were added into it. In Village Directory, all amenities except electricity were brought together and if any amenity was not available in the referent village, the distance in broad ranges from the nearest place having such an amenity, was given. Information on new items such as adult literacy centres, primary health sub-centres and community health workers in the village were provided so as to meet the requirements of some of the Revised Minimum Needs Programme. Information on approach to the village was provided for the first time in the Village Directory so as to give the details on number of inaccessible villages in each district. In the Town Directory, a statement (IV-A) on slums was introduced to provide the details on civic and other amenities in the notified slums of Class I and Class II towns.

3. The 1991 census of DCHB, by and large, followed the pattern of presentation of 1981 census, except the format of PCA was restructured. Nine-fold industrial classification of main workers was given against the four-fold industrial classification presented in the 1981 census. In addition, sex-wise population in 0-6 age group was included in the PCA for the first time with a view to enable the data users to compile more realistic literacy rate as all children below 7 years of age had been treated as illiterate at the time of 1991 census. One of the important innovations in the 1991 census was the Community Development Block (CD block) level presentation of village directory and PCA data instead of the traditional tahsil/taluk/PS level presentation. It was expected that the presentation of village directory and PCA data at CD block level will help the planners in formulation of micro level development plans, CD block being lowest administrative unit.

4. The present series of 2001 census DCHBs have been made more informative and exhaustive in terms of coverage and content. The Village Directory has been enlarged in scope by including a number of other facilities like banking, recreational and cultural facilities, newspapers and magazines and 'most important commodity' manufactured in village. Income and expenditure of gram panchayat, wherever possible, has been provided. Apart from these, more details on distance(s) at which basic amenities are available (if not available in the village), are given. This includes educational facilities (namely primary and middle schools and college), medical facilities (viz. Allopathic Hospital, Maternity & Child Welfare Centre and Primary Health Centre), drinking water, post & telegraph (post office and phone), communication, bank, credit societies and recreational facilities. In Town Directory, the statement on

Slums has been modified and its coverage enlarged by including details on all slums in instead of 'notified slums'. The information is given in case of all statutory towns irrespective of their class, against only Class I and Class II towns in the 1981 and 1991 Censuses. The basic amenities available in the villages and towns are analysed in depth with the help of a number of cross-classified inset tables and statements. Two other significant additions in the publication are inclusion of 'motif highlighting significant characteristic of the district and analytical notes as annexures. The analytical notes on (i) fertility and mortality and (ii) various measures of fertility and mean age at marriage are prepared based on 1991 Census. Whereas, in the notes relating to (i) percentage distribution of migrants by place of birth/place of last residence, (ii) main religions, (iii) marital status of population, (iv) age, sex and education, and (v) distribution of spectrum of mother tongue, nature and extent of changes occurred in the district in its basic socio-demographic features during the decade 1991-2001 are analysed. The eight digits permanent location code (PLCN) to all the villages and towns have been assigned keeping in view the future needs.

5. The village and town level amenity data have been collected, compiled and computerised in prescribed record structure under the supervision of Shri Jayant Parimal, Director of Census Operations, Gujarat. Thereafter, efforts have been made to ensure comparability of the information with that of 1991 census data and the information brought out by the respective state governments in their annual reports and statistical handbooks for various years after 1991. The task of planning, designing and coordination of this publication was carried out by Shri R.G. Mitra, Deputy Registrar General (C&T) and Dr. I.C. Agrawal, Senior Research Officer of Social Studies Division. Dr. R.P. Singh, Deputy Registrar General (Map) provided the technical guidance in the preparation of maps. Whereas, Shri Anil Kumar Arora, Deputy Director of Data Processing Division who worked under the overall supervision of Shri Himakar, Addl. Director(EDP) helped in preparation of record structure for computerisation of village and town directory data and the programme for the generation of Village Directory and Town Directory statements including analytical inset tables. The draft DCHB manuscripts received from the Census Directorates have been scrutinised in the Social Studies Division under the guidance of Shri S.L. Jain, Deputy Director and Shri R.K. Mehta, Assistant Director. I am thankful to all of them and others who have contributed to make this publication possible.

# Preface

Census is being conducted in the country every ten years as per the programme laid down by the Government of India. In these day and age of information technology, an individual has access to a variety of information covering a Kaleidoscope of interest and fields. Availability of relevant information is very vital for planners, policy makers and researchers.

The Five Year Plans have come to stay in the country and whatever development is achieved as a result of implementation of planning from the bottom level such as development of infrastructure facilities as well as basic amenities, etc. is reflected in the District Census Handbooks and they give to the readers a searching eye whether the development over the years in villages/talukas/districts is lopsided or upto the mark. This is the basic requirement of this type publications and an attempt has been made to show whether the census handbooks reasonably fulfill these aspirations/requirements.

These district Handbooks are thus useful to planners in planning from bottom as well as to administrators, researchers, educational institutions including universities and other socio-economic research centres as well as students conducting research in demography, social and economic studies as well as to the local bodies like Panchayats, Municipalities and Municipal Corporation etc.

District Census Handbook of Gujarat is a joint venture of the Government of Gujarat and the census organization of the Government of India. In the preparation of the DCHB, the role played by the census organisation is that of Census data collection, scanning of collected information, analysis of PCA. DCHB Unit of the State Government collected the basic non-census iniformation on availability of amenities relating to infrastructure in the villages of the district presented in the part A of this book. The cost of this publication is borned by the State Government. In accomplishing this task we had the ready and whole hearted co-operation of the staff at various levels of different department of the State Government. Most of the data supplied by the various departments have been cross-checked and an attempt has been made to reconcile the discrepancies as well.

I express my deep gratitude to the officers of Gujarat Government particularly Shri PK.Laheri, Chief Secretary of Gujarat State, Smt. Netraben Sinoy, Additional Chief Secretary of General Administration Department (Planning), Shri George Joseph, Principal Secretary, General Administration Department (Personnel), Shri K.R.Vasava, Deputy Secretary, Kum.P.S. Mevada, Under Secretary and Shri P.D.Kulkarni, Section Officer of General Administration Department, Planning, Shri S.D.Mehta,Deputy Secretary and Shri I.M.Sheikh, Under Secretary, Shri Bipin Patel, Section Officer and Shri P.N.Christian, Deputy Section Officer of G.A.D. (Kh-3) for their valuable help and co-operation in fulfilling all administrative requirement in time for bringing out this publication. I am also thankful to Shri P.M. Patel, Director, Economics and Statistics helped this organisation not only by placing the competent personnel on disposal of census services on deputation but also provided valuable official statistics for this publication.

The District Collector, the District Development Officer, District Statistical Officer, District Information Officer and their staff members extended their warm and whole hearted co-operation for carrying out field work of the census and collection of non-census data for this District Census Handbook.

I am deeply grateful to Shri J.K. Banthia, I.A.S., the Ex-Registrar General and Census Commissioner, India for the benefit I have derived by the way of guidance and advice. I also express my thanks to Shri R.G. Mitra, Deputy Registrar General(C&T) Shri C. Chakravorty, Joint Director, Shri I.C. Agrawal,Senior Research Officer(SS), Shri S.L. Jain, Deputy Director(SS), Shri R.K. Mehta, Assistant Director(SS), Shri R.P. Singh, Dy. Registrar General(Map), Shri Himakar, Addl. Director (EDP) and Shri Anil Kumar Arora, Deputy Director (EDP) for providing technical guidance in finalising this publication.I am extremely thankful to Shri D. K. Sikri, IAS, Registar General & Census Commissioner, India for his valuabe guidance in finalizing of this publication.

Shri Jayant Parimal, I.A.S. who held the office of Director of Census Operations, Gujarat, had guided the operations of the 2001 Census. The data presented in this handbook were collected and compiled under the able direction and guidance of Shri Parimal.Our sincere and grateful thanks for all the projects of census to him.

In state office Smt. B.B. Chauhan, Deputy Director, District Census Handbook Unit, Kum.S.B.Dabhi, Assistant Director, Shri S.B. Dalvi, Deputy Section Officer of District Census Handbook Unit, and their team of able assistants meticulously collected and scrutinized the non-census data from various sources and prepared draft of DCHB etc. with the help of Census section. The other officials of D.C.H.B. Unit, who scrutinised, edited and supervised the work of D.C.H.B. have been mentioned in the "Acknowledgement". The maps provided in the D.C.H.B. are prepared by the Map Section of the Census Directorate under the supervison of Shri J.P. Purohit, R.O(Map). I am thankful to all of them.I am thankful to the census section of the Directorate for scrutinizing the PCA data, specially Shri J.N.Pithadia, Investigator Grade-I and Kum.N.V.Shah, Investigator Grade-III who provided assistance to me in finalizing P.C.A. data at every stage. Smt. J.R.Sanghani, Investigator Grade-III of this Directorate assisted me for final scrutiny of D.C.H.B., I am thankful to her.

Lastly, I am thankful to the Government of Gujarat for having agreed readily to bear the cost of publication of the District Census Handbook volumes and for the special efforts of Shri R.B. Raval, Director, Printing and Stationary and his colleagues to print out the publcation in a very nice fashion.

# District Highlights – 2001 census

**Vadodara**

(1) Vadodara district is the 3rd district in terms of population in the State.

(2) Vadodara is reorganised in 1997 because whole Tilakwada taluka and some villages of Nasvadi taluka of the district has been transferred in newly created Narmada district. Kavant taluka has been newly created from Chhota Udaipur taluka of the district. Thus at present the district has 12 talukas with 1,553 villages and 16 towns.

(3) Population density per sq.km. is 482 persons.

(4) Vadodara district is the 6th dense district in the State.

(5) Vadodara district is having 21st rank in sex ratio.

(6) Village Savli (Savli Taluka) is the most populated village having 17,937 persons whereas village Bhagvanpura (Nasvadi Taluka) is the least populated village in the district with only 10 persons.

(7) The economy of the district basically depends on agriculture as 53 per cent of workers are engaged in primary sector.

(8) Basic chemicals and Chemical products(except product of petroleum), Machinery & Equipments other than transport equipments (except Scientific equipments, Photographic/ cinematographic equipments and Watches and Clocks), Rubber, Plastic, Petroleum and Coal products processing and nuclear and Metal products and parts are the most important non-agricultural economic activities of the district.

(9) Hanf village (Kavant Taluka) has the largest area of 4,044.8 hectares and Chavariya (Nasvadi Taluka) village has the lowest area of 33.4 hectares among the villages of the district.

(10) Nasvadi taluka has the maximum number of 219 villages whereas Sinor taluka has the minimum of 41 villages.

**Note:** *These figures represent 'Geographical area' figures supplied by the Surveyor General. Figures for urban area are those supplied by the local Bodies. Area figures for rural are derived by subtracting the urban area from the total area of the District. The total of the area figures of talukas will not tally with the district figures because the former represents 'Land Use Area' and are derived from the figuressupplied by the Director of Land Records.

**4**

**POPULATION AND TALUKA, 2001**

# ANALYTICAL NOTE

# A N A L Y T I C A L  N O T E

**(i) History and Scope of the District Census Handbook:**

Before the 1951 Census, the Census figures were published in a booklet known as 'Village Handbook', which contained only villagewise population figures. These books were prepared and published by the Directorate of Census Operations of the State.

The Directorate introduced the District Census Handbook for the first time in 1951 Census. It comprised the villagewise primary census abstract figures and information on available amenities. It also contained several tables relating to the district. It varied in content and size from State to State depending upon the resources offered by the respective State Governments.

In 1961 Census, a uniform pattern of District Census Handbook was adopted throughout the country. The Directorate of Census and the State Government jointly executed the project. In addition to the English version, it was published for the first time in Gujarati language also. The District Census Handbook 1961 was published in three parts. Part I related to Introductory Note i.e. general and economic information for the district and a brief gazetteer of place names. Part II pertained to census tables, villagewise list of industrial establishments, tables on handicrafts and departmental statistics. Part III consisted of village directory covering the amenities and primary census abstract data combined in one statement. It also covered district and taluka maps.

It is worthwhile here to note that the State Government created a separate unit for preparing and publishing the District Census Handbook since 1971 Census onwards. In the 1971 Census, the contents of District Census Handbook were modified. In the preceding censuses, the data on amenities and primary census abstract were covered in one statement whereas in 1971 Census, the data on amenities and primary census abstract were separated into two different parts. Thus, the coverage of amenities data was extended and the land use data were introduced for the first time from 1971 District Census Handbook. Moreover, a separate portion known as 'Town Directory' was also incorporated for the first time in the District Census Handbook. The 1971 District Census Handbook was published in three parts. Part A contained the village and town directory. Part B contained village and town wise primary census abstract data and Part C contained official statistics, besides full count census tables, urban census tables and analytical report on census and related statistics socio-economic and cultural tables (Rural areas) and housing tables. Part A and Part B were combined and published in one volume.

The District Census Handbook –1981 was brought out in two parts, Part-A and Part-B. Part-A contained the village and town directory whereas Part-B included the primary census abstract data, for both General Population and Scheduled Castes/ Scheduled Tribes. Both parts were published in one volume. Part C brought out for 1971 Census was dropped in 1981 Census. However, official statistics and some portion of analytical notes of part C of 1971 Census were included in the 1981 District Census Handbook also.

For the 1991 Census, the District Census Handbooks were prepared more or less on the same lines of the preceding 1981 Census. In 2001, the scope of both Part A & B has been enlarged by giving several additional information which got possible because of large scale computerization.

The District Census Handbook has been prepared after scanning and processing of data collected through Houselist Schedule and Household Schedule. Several innovations have beenintroduced at almost all the stages of the Census of India, 2001, right from the preparatory efforts to the data processing and dissemination stage. This includes certain fundamental changes in the form and contents of the Houselist and Household schedules, while maintaining the continuity and comparability of the basic housing and population characteristics with the earlier census. For the Census of India 2001,

a system of Permanent Location Code Number (PLCN) has been adopted by assigning to each village within the State/UT a continuous series from I to N. Each village has been assigned an eight-digit code. The last two digits being '00' are kept for accommodating future changes in case of split of an existing village or creation of new villages etc. Since the Permanent Location Codes have been assigned to each village, theoretically tracing the precise location of village on account of future jurisdictional changes in the boundaries of various administrative areas within the State should not pose a problem. It is imperative that under this scheme, the PLCN assigned to villages at the Census of India, 2001 are adopted for future censuses also to ensure the comparability of the data at the village and other administrative levels over a long time series.

At the 2001 Census age at marriage was collected for males also, while it was collected for only ever-married females until the 1991 Census.

The type of educational institution attended by a person was enlarged to include school, college and vocational institute.

The scope of the definition of 'work' was expanded in the Census of India, 2001, to includes production of milk for domestic consumption. In the 1991 Census, cultivator of certain crops even for self-consumption was treated as economic activity. The scope of the term 'Cultivation' was expanded in 2001 Census to include certain other crops such as tobacco, fruits, all types of flowers, roots and tubers, potatoes, chilies and turmeric, pepper, cardamom, all types of vegetables and fodder crops etc. This meant that activities related to production of all the above-mentioned crops for domestic consumption have been treated as work. Only five crops viz. tea, coffee, rubber, coconut and betel-nuts have been classified under 'Plantation' in the Census of India 2001.

- At the 1991 Census, the question on seeking/ available for work was canvassed for only non-workers. At the Census of India 2001, this question was asked for the Marginal Workers also. A question to elicit information on secondary work canvassed at the 1991 Census was dropped.
- From among the categories of non-workers adopted at the 1991 Census, the category 'Inmates of institutions' has been dropped and 'Retired Persons and Rentiers' has been replaced by the category 'Pensioners'.
- A new response category 'Moved after birth' was included in the question on reason for migration to bring out additional migration patterns. Natural calamities or distress migration as a reason for migration for last residence migrants included in the 1991 Census was covered under category of 'Others'.
- Number of children born alive to currently married women during last one year was collected for male and female children separately.

Besides the above modifications, the following new questions were canvassed at the 2001 Census.

- A question on total disability was canvassed in the 1981 Census. In the 1991 Census, no question on disability was included. At the Census of India, 2001, a question to elicit information on total or partial disability was canvassed. The five types of disability on which information is collected are - in seeing, in hearing, in speech, in movement and mental.
- A new question on 'Travel to place of work' was canvassed mainly for workers engaged in non-agricultural activities. Information on distance from the residence to place of work and mode of travel to place of work was collected under this question.

The mode of presentation of DCHB in 2001 will by and large be same as that of 1991. The uniqueness of Census 2001 is that single record (Household Schedule) has been processed as against two records viz. Individual Slip and Household Schedule in the previous Censuses. Apart from this some deviation has been made this time by incorporating analytical notes on migration, fertility & mortality, education, marital status, age structure etc. pertaining to 1991 Census of the respective district in the DCHB in the form of Annexure II to VIII. Similarly Tables based on Houselist data pertaining to Census 2001 have also been included in DCHB.

**(ii) Brief History of the District :**

The district derives its name from its head-quarters city Vadodara. The ancient town of Vadodara was once called 'Chandanvati' after the name of Raja Chandan of the Dor tribe of Rajputs who wrested it from the jains. The name of Chandanvati or the 'City of Sandalwood' was afterwards changed to Viravati or the 'Abode of Warriors' and then again to Vatpatra or 'Leaf of the Vad tree'. One belief is that the flourishing Ankottaka (Modern Akota) developed one of its suburbs on the left bank of the Vishvamitri where Banyan (Vad) trees were in existence. Thus, suburb was, therefore appropriately known as the suburb near the 'Banyan Tree' that is Vadapatraka. Thus, it can be said that the present name of the district, viz. Vadodara is derived from Vadapatraka of the ancient period.

The district comprises part of Baroda district of the former Baroda State and former native States of (1) Chhota Udaipur (2) Sankheda Mewas (3) Pandu Mewas (4) Bhadarva. Baroda was the capital of Baroda State and is situated at the bifurcation point of Bombay-Delhi and Bombay-Ahmedabad section of Western Railway.

The Marathas invaded Gujarat in A.D. 1705 and took the advantage of the confusion that ensued after the death of Moghul Emperor Aurangzeb in A.D. 1707. Peshwa Balaji Vishwanath advanced on the viceroy of Gujarat Khaderao Dabhade, Maratha Senapati, at the outset intended to acquire from the Moguls the right to levy the tribute and the Chauhan and Sardeshmukhi. They obtained many sanands to levy tributes from Emperor Muhammad Shah at Delhi. From this time, their right to levy tribute in Gujarat was confirmed.

Shortly after A.D. 1720, the Senapati received authority from the Raja of Satara to realize the dues established by usage from Gujarat and Belgam. One of his officers named Damaji Gaekwad, who had shown much gallantry in the battle, received from the Shahu Raja of Satara the title of Samsher Bahadur (illustrious Swordsman). On Damaji's death which occurred in A.D. 1721, his place of Lieutenant to Senapati was filled by his nephew Pilaji, the son of Jhingoji Gaekwad. Later Pilaji was given by the Peshwa the title of Senakhas Khel (Commander of the Special Band). The military power of Maratha forced Sarbulandkhan, the Mogul Viceroy at Ahmadabad to reorganize their right of Chauth and Sardeshmukhi in Gujarat. Pilaji Gaekwad then founded the House of Gaekwad at Baroda between 1721 and 1732 which existed as a separate princely State till it merged in Bombay State in 1949.

The Chhota Udaipur and Baria Chiefs belong to the Khichi Chohan clan of Rajputs, whose Chief Anal is said to have been created by Vashishtha Muni out of the Agni Kund on Mount Abu. According to the bardic accounts, a descendent of Patai Rawal alias Jaysinh the last Chohan Raja of Champaner established a small kingdom at Mohan or Alimohan on the banks of the river Narmada. In course of time during the decay of Mogul power in the early part of the 18$^{th}$ century, the capital was moved 20 miles north to Chhota Udaipur on the banks of the river. Baji Rawal is said to have founded Chhota Udaipur. It continued to remain a separate State till it was merged in Bombay province in 1949.

Sankheda Mewas estates some of the consisting of one or two villages were under eight groups, viz. the Chohan group, the Rathod group, the Chavda group, the Kori group, the Daima group, the Solanki group, the Parmar group and the Padhiar group. All these estates have been merged with the Bombay province. The Pandu Mewas estates formed five groups the chiefs of which were Rajputs, Barias of mixed Koli and Rajput decent Kolis, Patidars and Mahomedans. All these groups of estates were merged with Bombay state in 1949 and included in Baroda district.

In November 1956, the States were reorganized and the bigger bilingual State of Bombay was formed with Vidarbha, Marathawada, Saurashtra and Kachchh regions and Vadodara district became a part of the bigger bilingual State. Lastly, the bigger bilingual Bombay State was bifurcated on 1$^{st}$ May 1960 and separate States of Gujarat and Maharashtra were formed. Since the date, the Vadodara district became a part of the Gujarat State.

In October 1997, the districts of the State were reorganized and from 19 districts, by adding 6 more districts (carving from the old one only) total 25 districts are formed. At this time, talukas were also restructured and in place of 182 talukas total 226 talukas are formed. This restructuring has affected Vadodara district also. Tilakwada taluka is

transferred to the newly created district Narmda and by bifurcating the old taluka of Chhota Udaipur talukas, Kavant (new) and Chhota Udaipur are formed. Thus after these restructuring Vadodara district has 12 talukas (as earlier)

**(iii) Administrative Set-up :**

With a view to run the administration of the State smoothly, it has been divided into Districts, which in turn have been further sub-divided into Talukas (Tahsils) in the State of Gujarat, the community development blocks are co-terminus with the Talukas. The Talukas contain large number of villages and possibly several towns. The villages have Village Panchayats to run the local administration. A Village Panchayat may constitute of one revenue village, several revenue villages or a part of a large village. Similarly, the towns have Municipality or Municipal Corporation as the seat of local self-government.

In the State of Gujarat, as on December 1999 there were 25 districts and 226* Talukas, against 19 districts and 184 Talukas in 1991 Census. There were twelve talukas in Vadodara district in 1991 Census. In 1997 by several notification(s), Government of Gujarat reconstituted some districts and talukas of the State. Several changes as described below were also made in Vadodara district. In 1991 Census Tilakwada was a taluka of Vadodara district, by Notification No. GHM-97-81-M-PFR-1097-L dated 24-09-1997 Tilakwada taluka was included as a taluka in Narmada district and was omitted from Vadodara district.

By Government resolution No. PFR-2497-2586-L dated 15-10-1997 Kavant taluka was created by separating it from Chhota Udaipur taluka and Kavant taluka was included as a taluka in Vadodara district under the Government Notification No.GHM/97-113-M-PFR-2497-2586-L dated 15-10-1997.

The District Collector looks after the general administration, maintenance of collection of land revenue and settlement of law related disputes, civil supplies, district planning, mid-day meal scheme etc. at the district level. At the taluka level, Mamlatdar looks after the land development and revenue collection alongwith law and order. The functions of administration of law and order and control and investigation of crime are done by the Superintendent of Police of the district with the help of Police Stations working under him.

* Vagdod taluka merged in the Patan taluka of the Patan district on 3rd July 2001.

For the purpose of maintaining law and order, in the year 2000 there were 31 police stations, 49 police chowkies and 39 out-posts as per statement shown below.

Police Station in the District

| Sl. No. | Particulars | City/ Rural | 1997 | 1998 | 2000 |
|---|---|---|---|---|---|
| 1 | 2 | 3 | 4 | 5 | 6 |
| 1 | Police Station | City | 13 | 13 | 13 |
| | | Rural | 18 | 18 | 18 |
| 2 | Police Chowky | City | 35 | 35 | 41 |
| | | Rural | 0 | 0 | 8 |
| 3 | Out Post | City | 0 | 0 | 0 |
| | | Rural | 38 | 38 | 39 |

**Source :** Director General of Police, Gandhinagar, 2000

During the period 1997 to 2000 Fourteen police chowkies and one out-post were increased while the police station remained unchanged.

The Panchayati Raj institutions are fairly strong and most of the development works have been transferred to the District Panchayats and its subordinate bodies. The District Panchayat has an elected President and District Development Officer appointed by the Government, works as its Secretary, who looks after day-to-day work related to the development. Similarly, at the Taluka level, Taluka Panchayats have been constituted which have an elected President. The Taluka Development Officer, placed by the Government as Secretary of the Taluka Panchayats and he conducts the regular administrative work. Like-wise, an elected President heads the Municipality and the Chief Officer works as the Secretary of the Municipality, who looks after the day-to-day work. In case of the large cities, the State Government has constituted Municipal Corporations, which are headed by an elected Mayor and the Municipal Commissioner, appointed by the Government, who looks after the routine work. At the Village level, the Sarpanch is the elected Chief and the Talati (Village Mantri) works as the Secretary to the Village Panchayat and looks after the day-to-day work. In view of the expanding role of the public administration in a State like Gujarat, the Government has taken-up many activities and has set up several offices. Such offices which came into the existence are as under:

(1) Education
(Primary and Higher Education)

(2) Agricultural and Research

(3) Animal Husbandry and Poultry

(4) Forest and Environment

(5) Roads and Buildings, Bridges

(6) Co-operation and Co-operative Societies

(7) Industries, Small and Large as well as Cottage

(8) Health and Medical Services, Medical Education and Research, Family Welfare and Nutrition

(9) Information Department,

(10) Irrigation, Minor and Major

(11) Social Welfare and Social Defence

The functions of above offices are managed and controlled by concerned Head of Departments and in some cases also by District and Taluka Panchayats. The task of primary education in rural areas has been entrusted to District Panchayats and functions relating to Government of providing primary education are assigned by District Development Office and are controlled by the District Primary Education Officer. The secondary education is looked after by District Education Officer of Education Department. Primary education as well as higher secondary education of all types of institutions is governed by District Education Officer.

Agriculture activities have been delegated to District Panchayat to a large extent and District Agriculture Officer is in-charge of looking after agricultural produce including crops and vegetables. Similarly Animal Husbandry is also a Panchayat activity and routine work is controlled by the Deputy Director (Animal Husbandry) who sits in District Panchayat taking care of animals and poultry farms. Besides, District Agriculture Office in Panchayat Offices such as Deputy Director (Agriculture) and other officials look after various aspects of agriculture for developing the sector as well as to extend necessary assistance to farmers at district level.

Besides Director, Animal Husbandry Officer of Panchayat offices such as Deputy Director (Animal Husbandry) Special Officers at Veterinary Offices etc. in State government animal husbandry department also monitor activities of the sector at district level.

Public Health in rural area is assigned to the District Panchayat under the Chief District Health Officer who looks after epidemics, malaria control, water borne diseases and district level administration of Public Health Centres. District and Talukas Hospitals and Referral Hospitals are being looked after by the District Civil Surgeon of medical services in the State, while Medical Colleges and Research activities attached with the respective Civil Hospitals are controlled by Medical Education and Research Wing.

Family welfare activities are also monitored by the District Health Officer. Chief District Health Officer is also functioning as District Registrar of Birth and Death of the district and Talati cum Mantri is also Registrar of Birth and Death for the respective villages. Anaemic mothers and children upto to the age of 14 are looked after by Nutrition Officer under the Nutrition Programme.

District Ayurvedic Officer looks after the Ayurvedic dispensaries and hospitals. They also take care of the Ayurvedic plants, medicines and gardens. The District Food and Drugs Officer generally looks after the quality of the food and drugs in the district. Labourers and workers who are working in registered units are covered under the Employees State Insurance Scheme.

The rural roads have been transferred to the District Panchayats and their maintenance is done by the Executive Engineer, Roads and Buildings Department. Minor irrigation works are transferred to the District Panchayat and Executive Engineer (Panchayat) of the Panchayat's irrigation office who looks after water harvesting and check dams.

The Roads and Buildings Department of State Government looks after the maintenance of roads, buildings, bridges and government multi-storey buildings etc. Besides Panchayat officials, major district roads and the State highways are looked after by the Executive Engineer (Roads & Buildings). The large multi-purpose irrigation projects are controlled by State Government directly through its Executive Engineers.

District Industry Centre is functioning for the development of the small village industries, handloom industries and see the scope of industrial growth in the district. Besides, other departments are working for the rights of the industrial workers and rural labourers engaged in agriculture and others sectors.

Social welfare activities relating to the Scheduled Castes, Scheduled Tribes, Other Backward Castes and Other Backward Communities in the district are organized by the District Welfare Officer. Generally the schemes under Tribal Area Sub Plan and Special Component Plan are organized by the District Welfare Officer.

In each District Panchayat, District Statistical Officer of Directorate of Economics and Statistics gives the statistical data showing the development of different development programmes. He is also Member Secretary of District Planning Board. Similarly in every Collector Office, District Planning Officer looks after the development work of various Governments (State and Centre) sponsored programmes.

Co-operative Societies i.e. Co-operative Milk Societies, Agricultural Produce Market Societies, Co-operative banking and other co-operative societies are controlled by the District Registrar, Co-operative Societies.

The talukawise break up of towns and villages for the district is shown below.

**TALUKAWISE NUMBER OF TOWNS AND VILLAGES**

| Sl. No. | Name of Taluka | Number of Towns | Number of Villages | |
|---|---|---|---|---|
| | | | Total | Inhabited |
| 1 | 2 | 3 | 4 | 5 |
| 1 | Savli | - | 137 | 137 |
| 2 | Vadodara | 10 | 91 | 91 |
| 3 | Vaghodia | 1 | 96 | 95 |
| 4 | Jetpur Pavi | - | 213 | 212 |
| 5 | Chhota Udaipur | 1 | 144 | 144 |
| 6 | Kavant | - | 133 | 133 |
| 7 | Nasvadi | - | 219 | 217 |
| 8 | Shankheda | - | 186 | 185 |
| 9 | Dabhoi | 1 | 118 | 118 |
| 10 | Padra | 1 | 82 | 82 |
| 11 | Karjan | 1 | 93 | 93 |
| 12 | Sinor | - | 41 | 41 |
| | **Total** | **16** | **1,553** | **1,548** |

The civic status of the 16 towns is as under :

| | | |
|---|---|---|
| Census Town | : | 7 |
| Municipal Corporation | : | 1 |
| Municipality | : | 4 |
| INA | : | 4 |
| **Total** | **:** | **16** |

The following towns which were considered under rural area in 1991 census are considered as urban for 2001census.

**Talukawise List of New Towns Added**

## (iv) Physical Features :

The Vadodara district is situated between the parallels of latitude 21º 49' and 22º 47' and the meridians of longitude 72º 50' and 74º 17'. The length from north to south of this territory is about 109.3 km. and from east to west about is 148.1 km. It is bounded in the North and West by Kheda and Anand districts, in east by Panchmahals and Dohad districts and in the south by Bharuch and Narmada districts. Also the boundaries of the district touch the boundaries of States Madhya Pradesh and Maharashtra. The area covered by the district is 7,550 sq.km. The rank of the district is 10th in area of the State.

### Physiography :

The district Vadodara is a part of Gujarat Plain and is sub-divided into seven sub-micro regions, namely, Khambhat Silt, Mahi Plain, Vadodara Plain, Orsang-Heran Plain, Vindhyan hills, Narmada Gorge and Lower topography, climate, geology, soils and natural vegetation.

**Khambhat Silt**

This region occupies the western part of Padra taluka and is the smallest region located in the mid western side of the district. It is enclosed by Vadodara Plain from east and by Bharuch district from west while Kheda district surrounds the region from north.

In this region, the maximum height (22 metres above M.S.L.) is recorded in the eastern part and the minimum elevation (10 metres) is observed in the western portion. The geological structure of the region pertains to Alluvium, blown sand, etc., and soils are mainly categorized as Usterts-Ochrepts type.

**Mahi Plain**

This region extends over the north-western part of the district and covers parts of Padra and Vadodara talukas and major part of Savli taluka. It makes its limits with Kheda district in the west and north, Panch Mahals district in the north-east and Vadodara Plain in the south-east. Khambhat Silt also touches this region.

As regards the relief of this plain, the north-eastern part is relatively higher where the maximum elevation of 100 metres above M.S.L. is found. The minimum height (30 meters) is observed in the western part of the region. The geology of the region consists of Alluvium, blown sand, etc., Daccan Trap and Erinpura Granite. It has Usterts-Ochrepts type of soil cover.

**Vadodara Plain**

This region occupies the central part of the district and extends over Padra, Vadodara, Savli, Vaghodia, Dabhoi, Karjan, Sinor and Sankheda talukas. It makes its boundaries with Khambhat Silt and Mahi Plain in the west, Panch Mahals district in the north, Orsang-Heran Plain in the east and Lower Narmada Valley in the south.

In this region, elevation varies between 27 metres and 88 metres above M.S.L. Geologically; the region is mainly composed of Alluvium, blown sand, etc., Deccan Trap and Gneiss formations. Soils found in the region are Usterts-Ochrepts.

**Orsang-Heran Plain**

This region occupies the mid-eastern part of the district and extends over Dabhoi, Sankheda, Chhota Udaipur, Nasvadi, Jetpur Pavi and Tilakwada talukas. Vadodara Plain bounds it in the west, Lower Narmada Valley and Bharuch district in the south, Vindhyan Hills in the east and Panch Mahals district in the north.

**Narmada Gorge**

This region lies in the south-eastern part of the district and covers some parts of Chhota Udaipur and Nasvadi talukas. It makes its limits with Madhya Pradesh State in the east, Maharashtra state in the south, Bharuch district in the west and Bindhyan Hills in the north.

The terrain of the region is undulating with an altitude ranging from 300 metres to 520 metres above M.S.L. The geological structure of the region belongs to Deccan Trap, Intra-Trappean, Bagh and Lameta Beds. Soils in this region are mainly categorized as Orthents-Ochrepts and Orthents-Rock-Outcroops types.

**Lower Narmada Valley**

This valley extends over Dabhoi, Karjan, Sinor and lies in the southern part of the district. It is enclosed by Vadodara Plain from north and west by Bharuch district from south and by Orsang-Heran Plain from east.

As regards the relief, the region is having an elevation of 45 metres above M.S.L. in the eastern part while in the western portion it is 20 metres only. The region has the geological structure of Alluvium, blown sand, etc., Deccan Trap, Intra-Trappean, Bagh and Lameta Usterts-Ochrepts types.

**Vindhyan Hills :**

This region falls in the eastern part of the district and extends over Chhota Udaipur and Nasvadi talukas. It makes its boundaries with Madhya Pradesh State in the east and north, Orsang-Heran Plain in the west and Narmada Gorge in the south.

As regards the relief, 300 meters contour passes through the northern part of the region. The geology of this region consists of Alluvium blown sand, etc., Deccan Trap, Intra-Trappean, Bagh and Lameta Beds and Gneiss. Soils are Orthents-Ochrepts type.

**Drainage :**

Vishwamitri and Mahi are principal rivers of Vadodara district. Mahi river is 115 km. Mahi originates from Vindhya hills near Gomanpur village of Madhya Pradesh.

It flows from north to south-west, passes through Savli, Vadodara and Padra talukas and makes these talukas fertile. The river flows from the district to Kheda district and meets the bay of Khambhat. Narmada river passes through the border of the district. It originates from Amarkantak of Madhya Pradesh. It flows from Karjan taluka and meets the bay of Khambhat near Hansol village of Anklesvar taluka of Bharuch district.

Apart from Vishwamitri and Mahi rivers the rivers flowing from the district and meeting the bay of Khambhat are Jambua, Suria, and Dhadhar, while the rivers Unchha, Orsang, Ujeti, Heran, Dev, Karjan, Madhumati, Karad, Mesari, Goma, Bhukhi, Men and Kaveri meets the principal rivers.

**Lakes:**

There are many lakes and tanks in Vadodara district. Important lakes are Wadhwana, Ajwa and Pratappura. Ajwa lake situated in Vaghodia taluka is a main source of water to supply water to Vadodara city.

**Climate:**

The climate of this district is characterised by a hot summer and dryness in the non rainy seasons. The year may be divided into four seasons. The cold season from December to February is followed by the hot season from March to May. The south-west monsoon season is from June to September and from the month October to November form the post monsoon season.

**a) Temperature**

Vadodara has its own meteorological observatory in the district. The records of this observatory may be taken as representative of the meteorological conditions in the district in general. The period from March to May is generally one of continuous increase in temperature. Generally May is the hottest month. Nights during June are warmer than in May. From the beginning of November both day and night temperature gradually drops and January becomes the coldest month as the daily maximum and minimum temperature for January found to be lower than that of other months. Cold waves sometimes affect the district in association with western disturbances which move across north India during the cold season. The details of temperature data from 1996 to 1999 are given below.

**TEMPERATURE** (in Celsius)

| Name of Month | 1996 | | 1997 | | 1998 | | 1999 | |
|---|---|---|---|---|---|---|---|---|
| | Max | Min | Max | Min | Max | Min | Max | Min |
| 1 | 2 | 3 | 4 | 5 | 6 | 7 | 8 | 9 |
| January | 31.7 | 10.6 | N.A. | N.A. | 32.9 | 6.0 | 33.0 | 9.1 |
| February | 36.4 | 11.4 | 37.4 | 9.4 | 35.4 | 9.6 | 36.5 | 11.9 |
| March | 41.7 | 16.0 | 40.6 | 17.2 | 40.3 | 14.4 | 42.5 | 14.4 |

| December | 33.2 | 9.4 | 31.2 | 11.2 | 33.1 | 9.8 | 33.4 | 9.3 |

**Source :** Directorate of Economics and Statistics Statistical Abstract, 2000

### b) Winds:

Winds are generally light and moderate in summer and in the south-west monsoon season. They become stronger westerly to south-westerly winds prevailed in the south-west monsoon season. In October winds are from the directions between west and north east. In November and December winds are mainly from the directions between north and east. In January and February winds are again from the direction between west and north-east. In the summer season winds are from the directions between south-west and north-west.

### c) Rainfall:

Records of rainfall in the district are available from the Directorate of Agriculture. The annual rainfall of the district is 475.2 mm. in the year 1999. About 95 per cent of the annual rainfall in the district is received during south-west monsoon season from June to September. July is the month with the highest rainfall. The rainfall in the district increases from the west towards the east. The variation in the annual rainfall from year to year is large. The details of the rainfall for periods ranging from the years 1995 to 1999 are given below:

**Monthly Rainfall, 1995 to 1999**

(In mm.)

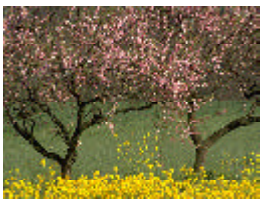

| Sl. No | Month | 1995 | 1996 | 1997 | 1998 | 1999 |
|---|---|---|---|---|---|---|
| 1 | 2 | 3 | 4 | 5 | 6 | 7 |
| 1 | May | 0.0 | 0.0 | 0.0 | 0.0 | 7.9 |
| 2 | June | 1.0 | 126.9 | 458.3 | 108.2 | 88.0 |
| 3 | July | 507.0 | 508.3 | 212.8 | 328.8 | 168.8 |
| 4 | August | 130.0 | 261.8 | 498.2 | 201.8 | 39.0 |

### Economic Resources :

Economic resources are an important means for subsistence of the working people of the district. The details about economic resources of important sectors are given below in brief .

### (1) Forestry :

According to the figures available from the Forest Department for the year 1998-99 and 1999-2000, out of the total area of 7550 Sq. km. of the district, an area of about 796.4 Sq.km. is covered by forest. Among them 705.7 Sq.km. are reserved forest, 5.5 Sq.km. are protected forest and 85.2 Sq. km. are unclassified forest. Forest worth are found only in hillock. The main products of these forests are *timber, seasum wood and fire wood,Mahudo, Amala, Aritha* etc. are the minor products.

### (2) Minerals and Mining:

The pattern of mineral production is simple in this district. Statement below shows production of major and minor mineral products in the district alongwith income from it for the years from 1998-99 to 2000-01. It can be seen that the production of Manganese Ore during the years 1999-2000 and 2000-01 had been 4,526 MT and 4,040 MT respectively. Total mineral production in the district for the years 1998-99, 1999-2000 and 2000-01 had been 5,638,255 MT, 5,300,641 MT and 5,924,037 MT respectively. Income from the mineral production for these three years had been Rs.34,704,000 Rs.45,241,646 and Rs.48,643,046 respectively. The minor products are Black trap, limestone, marble, building stone, sand, clay, brick

**Source :** Commissionerate of Geology and Mining,2001.

clay, quartzite, Sandstone, gravel, granite, colour lime and stone etc.

**(3) Soil and Cropping Pattern :**

Lands in the district are more and less plain except some hills. The soil of Vadodara district is fertile. The soil at many places is black, yellowish, red and even black soft. In this area mainly grown crops are Groundnut, Cotton, *Bajri* and Gram.

**(4) Land and Land use Pattern:**

The total land in the district was 755,000 hectares during 1998-1999. The land classification according to the different uses for the rural areas of the district is given below on the basis of information collected for the Village Directory.

**Land Classification of Rural Area**

(In 00' hectares)

| Sl. No. | Classification | Area as on 31.3.99 |
|---|---|---|
| 1 | 2 | 3 |
| 1 | Forest | 703.4 |
| 2 | Irrigated | 1,756.1 |
| 3 | Unirrigated | 3,403.2 |
| 4 | Cultivable waste (including Gauchar and Groves) | 573.5 |
| 5 | Area not available for cultivation. | 827.9 |
| | **Total** | **7,264.1** |

**Source:** Village Directory, 2001

**(5) Tenancy:**

There was no separate Act on tenancy in the former Bombay State before 1939. There were provisions of Section 83 of Land Revenue Code and Mamlatdar Court law only. The tenant was not secured of his tenancy rights in the Act. This tenancy lease was considered yearly and had to pay tenancy as per tradition or according to the agreement made with the land owner. In order to protect the tenants, the Bombay Tenancy Act, 1939 came into force in the erstwhile Bombay State. The independence of the country, it was necessary that the country should be self-sufficient in agricultural production. It can be done only when the tillers of the land should have some definite rights over the land. With a view to effect control on efficient utilization of agricultural land and also to protect the tenants further and also to accept a definite policy and view for the country on agricultural land, The Bombay Tenancy and Agricultural Land Act, 1948 was enacted and it was brought into force since then. The Act of 1948 was amended five times. An important provision of 'Farmer Day' was inserted in the Act on 1-8-1956. According to this provision, if any person legally tilled the land of other person on 01-04-1957, he was entitled to purchase the said land. Even though Gujarat State was bifurcated from Bombay State in 1960, the said act applied to it also existing.

Tenant means the person who held land on lease viz.,

(1) Tenant as per Section 4;

(2) Protected tenant

(3) Permanent tenant

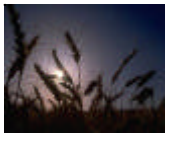

(4) The person who continued to possess the land with or without the consent of the land owner after appointed date and upto specified date or it is considered that he continued the possession of the land.

In Gujarat 1,049,056.4 hectares of land have been released and distributed to total 1,278,125 beneficiaries permanently under The Bombay Tenancy and Agricultural Land Act, 1948. Among the beneficiaries 177,171 were from Scheduled Castes 258,132 from Scheduled Tribes and 842,822 from others category.

In case of Vadodara district, in all 186,297.0 hectares of land have been released and distributed to total 173,982 beneficiaries. Among the beneficiaries, 18,709 Scheduled Castes were allotted 19,891.5 hectares of land, 19,158 Scheduled Tribes were allotted 18,267.9 hectare of land and 136,115 beneficiaries under 'others' category were allotted 148,137.6 hectares of land.

**(6) Agriculture :**

**a) Area under Major Crops**

The area under major crops for the years 1993-94 and 1997-98 are indicated in the following statement :

**Area under Major Crops**

(in '00 hectares)

| Sl. No. | Name of Crop | Area under Major Crops | |
|---|---|---|---|
| | | 1993-94 | 1997-98 |
| 1 | 2 | 3 | 4 |
| 1 | Paddy | 625 | 570 |
| 2 | Wheat | 157 | 186 |
| 3 | Bajri | 152 | 162 |
| 4 | Jowar | 128 | 370 |
| 5 | Ragi | - | - |
| 6 | Other cereals | 733 | 457 |
| 7 | Gram | 25 | 32 |
| 8 | Other pulses | 1,171 | 1,048 |
| 9 | Sugarcane | 29 | 50 |
| 10 | Groundnut | 124 | 135 |
| 11 | Cotton | 1,311 | 1,528 |

**Source:** Season and Crop Report, Directorate of Agriculture, 1999

The area under cotton, wheat, *bajri*, *jowar*, gram, and groundnut crops has increased while the area under paddy and other pulses has decreased during 1997-98 as compared to the year 1993-94. It is noticed that major portion of the cropped area was under Cotton.

## b) Average Yield per Hectare :

The average yield per hectare of the principal crops in the district during the year 1993-94 and 1997-98 is shown below.

**Average Yield per Hectare**

(In kgs.)

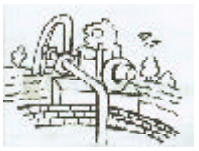

| Sl. No. | Name of Crop | Average Yield per Hectare | |
|---|---|---|---|
| | | 1993-94 | 1997-98 |
| 1 | 2 | 3 | 4 |
| 1 | Bajri (Kharif) | 1,271 | 1,377 |
| 2 | Bajri (Summer) | 1,802 | 1,966 |
| 3 | Jowar (Kharif) | 276 | 1,527 |
| 4 | Jowar (Rabi) | 996 | 955 |
| 5 | Paddy | 836 | 1,043 |
| 6 | Wheat | 2,139 | 2,021 |
| 7 | Groundnut | 952 | 1,481 |
| 8 | Cotton | 282 | 281 |
| 9 | Sugarcane | 7,500 | 7,200 |
| 10 | Ragi | - | - |

**Source :** Season and Crop Report, Directorate of Agriculture,1999

The average yield per hectare was higher in *bajri* and paddy during the year 1997-98 than that recorded during the year 1993-94, while for the yield of *jowar* (kharif) and groundnut big jumps are observed.

## (7) Irrigation :

### Source of Irrigation :

The area irrigated by different sources in the district during years 1993-94 and 1997-98 is presented below.

**Area under Irrigation by Source**

(In '00 hectares)

| Sl. No. | Source of irrigation | 1993-94 | | 1997-98 | |
|---|---|---|---|---|---|
| | | Net | Gross | Net | Gross |
| 1 | 2 | 3 | 4 | 5 | 6 |
| 1 | Govt canals | 46 | 57 | 42 | 53 |
| 2 | Tanks | 56 | 75 | 31 | 53 |
| 3 | Wells | 1,461 | 1,695 | 1,672 | 1,950 |
| | **Total** | **1,563** | **1,827** | **1,745** | **2,056** |

**Source:** Season and Crop Report, Directorate of Agriculture, 1993-94, 1997-98

The above figures indicate that well is the main source of irrigation.

## (8) Animal Husbandry:

### a) Livestock :

Cattle wealth occupies a pivotal place in the rural economy of the district. According to the livestock census of 1992 and 1997, the livestock population in the district is shown below.

**Livestock**

| Sl. No | Livestock | Year | |
|---|---|---|---|
| | | 1992 | 1997 |
| 1 | 2 | 3 | 4 |
| **A** | **Total Livestock** | **1,047,667** | **1,153,628** |
| 1 | Cattle (cross breed) | 11,229 | 9,061 |
| (a) | Male over 2.5 years | 872 | 1,625 |
| (b) | Female over 2.5 years | 6,101 | 4,401 |
| (c) | Young stock | 4,256 | 3,035 |

| | | | |
|---|---|---|---|
| 2 | Cattle (indigenous) | 418,378 | 438,018 |
| 1 | 2 | 3 | 4 |
| (a) | Male over 3 years | 226,232 | 223,852 |
| (b) | Female over 3 years | 98,207 | 121,545 |
| (c) | Young stock | 93,939 | 92,621 |
| 3 | Buffaloes | 308,531 | 337,297 |
| (a) | Males over 3 years | 1,661 | 2,012 |
| (b) | Female over 3 years | 191,111 | 216,014 |
| (c) | Young stock | 115,759 | 119,271 |
| 4 | Sheep | 7,466 | 7,427 |
| 5 | Goats | 289,212 | 287,577 |
| 6 | Horses and ponies | 489 | 756 |
| 7 | Camels | 122 | 108 |
| 8 | Pigs | 8,089 | 8,771 |
| 9 | Other Livestock | 4,151 | 64,613 |
| **(B)** | **Poultry** | **370,760** | **271,265** |

**Source :** (1) Directorate of Economics and Statistics, Livestock Census, 1992

(2) Directorate of Animal Husbandry, Livestock Census, 1997

The livestock population has increased and poultry birds have decreased in 1997 as compared to the year 1992.

## (b) Agricultural Implements :

According to the livestock census conducted in the State, the comparative data for agricultural implements in the district for the years 1992 and 1997 are shown in the following table.

**Agricultural Implements**

| Sl. No | Name of Agricultural Implements | Year 1992 | Year 1997 |
|---|---|---|---|
| 1 | 2 | 3 | 4 |
| 1 | Plough | 150,950 | 165,954 |
| (a) | Wooden | 132,258 | 132,864 |
| (b) | Iron | 18,692 | 33,090 |
| 2 | Carts | 33,873 | 28,415 |
| 3 | Oil engines | 9,564 | 11,842 |
| 4 | Electric Motors and Pumps | 3,563 | 3,459 |
| 5 | Tractors | 2,100 | 4,454 |
| 6 | Wheat Thresher | 261 | — |

**Source:** (1) Directorate of Economics and Statistics, Livestock Census, 1992

(2) Directorate of Animal Husbandry, Livestock Census, 1997

The numbers of agriculture implements except Carts and electric motors pumps have shown an increasing trend during the year 1997 as compared to the year 1992.

## (9) Fisheries :

**Fisheries Activities**

| Sl. No. | Item | 1994-95 | 1997-98 | 1998-99 |
|---|---|---|---|---|
| 1 | 2 | 3 | 4 | 5 |
| 1 | Total Number of Fishing boats | 692 | 694 | 745 |
| 2 | Total Number of Fishing nets | 16,168 | 19,738 | 19,738 |
| 3 | Fish production (In tonnes) | 3,708 | 3,742 | 4,138 |
| 4 | Number of active fishermen | 4,400 | 3,734 | 3,734 |
| 5 | Fishermen primary co-operative Societies (Number) | 13 | 14 | 16 |
| 6 | Membership of fisher men's primary co-operative Societies | 991 | 1,181 | 1,231 |
| 7 | Paid up share capital of fishermen's co-operative societies (In'00 Rs.) | 563.6 | 605.6 | 655.6 |

**Source:** Commissionerate of Fisheries. 1998, 1999

From the above table it is learnt that fishing activity is showing increasing trend by passing of years.

## (10) Industry :

The total numbers of registered factories and average number of daily workers employed by major groups of industries for the year 1998 and 1999 are shown in the following statement. Among the registered factories, the most important establishments from the point of employment are basic chemical and chemical products (except products of petroleum and coal), Machinery and equipment other than transport equipment and metal products and parts except machinery and equipment, rubber, plastic petroleum and coal products processing and nuclear fuels. At the district level there were 2,313 establishments with 106,237 average daily employment as on 31st December 1999 as against 2,300 establishments and 103,152 average daily employment as on 31st December 1998.

**Distribution of Important, Industrial Establishments by Major Industry Group**

| Sl. No | Major Group of N.I.C. | Description of Manufacture | As on 31.12.98 | | As on 31.12.99 | |
|---|---|---|---|---|---|---|
| | | | Number of Establi-shment | Average number of persons per day | Number of Establish-ment | Average number of persons per day |
| 1 | 2 | 3 | 4 | 5 | 6 | 7 |
| 1 | 20-21 | Food products | 78 | 4,535 | 71 | 3,689 |
| 2 | 22 | Beverages tobacco and related products | 29 | 2,038 | 29 | 1,631 |
| 3 | 23 | Cotton textiles | 40 | 5,723 | 52 | 7,754 |
| 4 | 24 | Wool, silk and man made fibre textiles | 10 | 1,297 | 11 | 1,411 |
| 5 | 25 | Jute and other vegetable fibre textiles(except cotton) | - | - | 1 | 26 |
| 6 | 26 | Textile products (including wearing apparel) | 19 | 915 | 21 | 1,082 |
| 7 | 27 | Wood and wood products furniture and fixtures | 108 | 896 | 116 | 1,297 |
| 8 | 28 | Paper and paper products and printing, publishing and allied industries | 68 | 1,859 | 80 | 1,967 |
| 9 | 29 | Leather and products of leather ,fur and substitutes of leather | 4 | 668 | 4 | 656 |
| 10 | 30 | Basic chemical and chemical products (except products of petroleum and coal) | 405 | 25,298 | 397 | 23,465 |
| 11 | 31 | Rubber, plastic petroleum and coal products processing and nuclear fuels. | 228 | 13,437 | 221 | 15,677 |
| 12 | 32 | Non metallic mineral products | 244 | 6,704 | 246 | 8,302 |
| 13 | 33 | Basic metal and alloy industries | 85 | 2,756 | 91 | 2,519 |
| 14 | 34 | Metal products and parts except machinery and equipments. | 409 | 8,569 | 413 | 9,406 |
| 15 | 35-36 | Machinery and equipment other than transport equipment (scientific equipment, photographic / cinematographic equipment and watches and clocks is classified in division 38) | 420 | 23,460 | 412 | 21,955 |
| 16 | 37 | Transport equipment and parts | 23 | 1,010 | 24 | 1,734 |
| 17 | 38 | Other manufacturing industries | 32 | 897 | 29 | 698 |
| 18 | 39 | Repairs of capital goods | 10 | 192 | 10 | 218 |
| 19 | 40-43 | Electricity Gas and water Generation transmission distribution water works supply etc | 9 | 222 | 10 | 249 |

## (11) Trade and Commerce :

This category includes wholesale and retail trade of all kinds and other commercial activities like financial, insurance, real estate and business services. The big industrial units like IPCL and GSFC are located at Vadodara, the headquarter of the district. Also the Pharmaceutical units like Alembic and Sarabhai Chemicals are the important units in the Vadodara city. Table No. 47 in the book gives the details of the most important commodities manufactured and exported out of towns as per 2001 Census. The commercial and co-operative banking facilities available in the district are shown in the following statement.

**Villages Having Banking Facility**

| Sl. No. | Name of Taluka | Number of Villages where Banking facility is available | Number of Banking Institutions | |
|---|---|---|---|---|
| | | | Comm-ercial | Co-operative |
| 1 | 2 | 3 | 4 | 5 |
| 1 | Savli | 13 | 14 | 6 |
| 2 | Vadodara | 15 | 16 | 2 |
| 3 | Vaghodia | 8 | 9 | 4 |

**Source:** Banking Statistics, Basic Statistical Returns, Volume 28 March,1999.

## (12) Transport and Communication:-

Transport and Communication facilities are considered an administrative necessity as well as a public convenience. Moreover a well-knit transportation system is a pre-requisite for the social and economic development of any district.

### a) Road :

The linking of one place with other by road is very essential to provide good transport system. The information regarding roads available in Vadodara district for the years from 1998-99 to 2000-01 are given in the statement below. This statement includes the information of National and State highways, district roads and village roads in Vadodara district.

**Road Length of Different Categories**

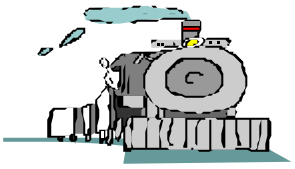

| Sl. No | Year | Type of Road (in Kms.) | | | | | | | | | | |
|---|---|---|---|---|---|---|---|---|---|---|---|---|
| | | Highway | | | | District Roads | | | | Village Roads | | Total |
| | | National | | State | | Main | | Other | | | | |
| | | GOVT. DN. | PNCH DN. | GOVT. DN. | PNCH DN. | GOVT. DN. | PNCH DN. | GOVT. DN. | PNCH DN. | GOVT DN. | PNCH DN. | |
| 1 | 2 | 3 | 4 | 5 | 6 | 7 | 8 | 9 | 10 | 11 | 12 | 13 |
| 1 | 1998-1999 | 83 | 0 | 1,133 | 34 | 50 | 963 | 114 | 612 | 381 | 724 | 4,094 |
| 2 | 1990-2000 | 83 | 0 | 1,131 | 34 | 50 | 963 | 123 | 612 | 381 | 774 | 4,151 |
| 3 | 2000-2001 | 83 | 0 | 1,131 | 34 | 50 | 963 | 123 | 612 | 381 | 803 | 4,180 |

**Note :** GOVT. DN = Government Division.
PNCH. DN = Panchayat Division.

**Source :** Roads and Buildings Department, Gandhinagar, 2001

According to 2001 census, 1,135 villages and all towns are connected with pucca roads and 413 villages are connected with kachcha roads.

### b) Railway:-

There are 65 villages and 11 towns having railway facilities in Vadodara district. All the three types of railway i.e. Broad gauge, Meter gauge and Narrow gauge are seen in the district. The Vadodara railway station is a junction. It is connected with various important stations of Saurashtra region, Delhi, Mumbai and Ahmadabad etc. in this country.

### c) Ports:-

No sea port is in this district. There is an Airport in the city of Vadodara.

### d) Posts and Telegraphs:-

The following statement shows number of villages in the district possessing post, telegraph and phone facilities. As regards rural areas of the district, the facilities of post, telegraph and telephone are available in 660, 10 and 640 villages respectively.

**Communications Facilities**

| Sl. No. | Type of Communication Amenities | Number of Villages having Facilities |
|---|---|---|
| 1 | 2 | 3 |
| 1 | Post Offices | 660 |
| 2 | Telegraph Offices | 10 |
| 3 | Telephone | 640 |

**Source :** Village Directory, 2001

### e) State Road Transport:-

Out of 1,548 villages, 1,114 villages are having bus facility upto 1998-99.

**Number of Villages Having Bus Facility**

| Sl. No | Year | Number of villages |
|---|---|---|
| 1 | 2 | 3 |
| 1 | 1998-99 | 1,114 |

**Source :** Village Directory, 2001

**(13) Electricity :**

Electricity (power supply) is one of the important necessities for the economic development of the district. The main source for power supply in the district is Gujarat Electricity Board. Out of 1,548 inhabited villages, 1,532 villages are having power supply facility in the district.

**(14) Gram Panchayats, its Composition, Jurisdiction and Role in the Development of Village and its Economy :**

The system of Panchayati Raj was introduced in the year 1963 in Gujarat State. Under this set up, the three tier system was introduced namely, The District Panchayat, The Taluka Panchayat and The Gram Panchayat.

Gram Panchayat is an important institution of self-government. The Gram Panchayat is formed for a village or a group of Villages. The Gram Panchayat is constituted for a local area with the population of less than 10,000. Such local area may be revenue village or a group of revenue villages or hamlets forming part of a revenue village or such other administrative unit or part of thereof. The number of members of Gram Panchayat varies from 9 to 15. The tenure of Gram Panchayat is of five years. The people of village elect Sarpanch and Vice-Sarpanch (Up-Sarpanch) and other members of the Panchayat. Various Committees like; Social Justice Committee and Standing Committee are formed. In the year 1993 Government of India enacted 73rd Constitutional Amendment regarding provisions of Panchayati Raj and implementation of this Act in Gujarat started from 15th April 1994. By this constitutional amendment, Panchayats are given constitutional status. Regular and timely election, participation of women and backward classes, formation of separate State Election Commission and rotation system in electing the heads of the various committees are other significant amendments in the act. Decentralised planning process and active participation of people is the soul of the Panchayati Raj Act. The powers for decentralised planning, implementation and development are delegated to the Panchayats.

The primary functions of the District/Taluka Panchayats are providing facilities for primary education, health, drinking water, electricity, constructions and maintenance of roads, bridges etc., maintenance of Gauchars, organising relief work at the time of scarcity and drought situation, sanitation and social welfare. Arrangements for housing facilities for below poverty line people and rural development schemes are implemented by Panchayats. Gram Panchayats also implement important programmes like, 'food for work' and other programmes beneficial for the local people. Thus, Panchayats play an important role in the development of village and its economy. There are 13,761 Gram Panchayats in Gujarat State. Out of 1,553 villages in Vadodara district there are 299 group Gram Panchayats and 564 independent Gram Panchayats. Kevadi village of Nasvadi taluka is having maximum 15 villages in group Gram Panchayat.

**(v) Census Concepts :**

**Building :**

A 'building' is generally a single structure on the ground. Sometimes it is made up of more than one component unit which are used or likely to be used as dwellings (residences) or establishments such as shops, business houses, offices, factories, workshops, work sheds, schools, places of entertainment, places of worship, godowns, stores, etc. It is also possible that buildings which have component units may be used for a combination of purposes such as shop-cum-residence, workshop-cum-residence office-cum-residence, etc.

Usually a structure will have four walls and a roof. But in some areas the very nature of construction of houses is such that there may not be any wall. Such is the case of conical structures where entrance is also provided but they may not have any walls. Therefore, such of the conical structures are also treated as separate building.

**Permanent Houses :**

Houses, the walls and roof of which are made of permanent materials. The Material of wall can be anyone from the following namely Galvanized iron sheets or other metal sheets, Asbestos sheets, burnt bricks, stones or concrete. Roof may be made of from any one of the following materials namely tiles, slate, galvanized iron sheets, metal sheets, asbestos sheets, bricks, stones or concrete.

**Semi-permanent Houses :**

Houses in which either wall or roof is made of permanent materials and the other is made of temporary material.

**Temporary Houses :**

Houses in which both walls and roof are made of materials, which have to be replaced frequently. Walls may be made from any one of the following temporary materials, namely, grass, thatch, bamboo, plastic, polythene, mud, unburnt bricks or wood. Roof may be made from any one of the following temporary materials, namely, grass, thatch, bamboo, wood, mud, plastic or polythene.

**Dwelling Room :**

A room is treated as a dwelling room if it has walls with a doorway and a roof should be wide and long enough for a person to sleep in, i.e., it should have a length of not less than 2 meters and a breadth of at least 1.5 meters and a height of a 2 meters. A dwelling room would include living room, bedroom, dining room drawing room study room, servant's room and other habitable rooms. Kitchen, Bathroom, latrine, Store-room, passage-way and verandah which are not normally usable for living are not considered as dwelling rooms. A room used for multipurpose such as sleeping, sitting, dining, storing, cooking, etc., is regarded as a dwelling room. In a situation where a census houses is used as a shop or office. etc., and the household also stays in it then the room is not considered as a dwelling room. But if a garage or servant quarter is used by a servant and if she/he also lives in it as a separate household then this has been considered as a dwelling room available to the servants household tent or conical shaped hut if used for living by any household is also considered as dwelling room.

A dwelling room which is shade by more than one household has not been counted for any of them. If two household have a dwelling room each but in addition also share a common dwelling room. Then the common room has not been counted for either or of the household.

**Census House :**

A 'Census House' is a building or part of a building used or recognized as a separate unit because of having a separate main entrance from the road or common courtyard or, staircase, etc. It may be occupied or vacant. It may be used for a residential or non-residential purpose or both.

In certain peculiar situations, the manner in which buildings and census houses were identified for numbering in the field by the enumerators is described hereunder.

Sometimes a series of a different buildings are found along a street which are joined with one another by common walls on either side looking like a continuous structure. These different units are practically independent of one another and are likely to have been built at different times and owned by different persons. In such cases, though the whole structure with all the adjoining units apparently appears to be one building, each portion was treated as a separate building and its constituent units as separate census houses.

On the other hand, one may come across cases, particularly in large cities of multi-storied ownership flats. In these cases while the structure looks like one building, different persons own the flats. In case of such multi-storied structures, having a number of flats owned by different persons, the entire structure was treated as one building and each flat as a separate census house.

If within a large enclosed area, there are separate buildings owned by different persons then each such building is treated as a separate building. There can be a situation where within an enclosed compound there are separate buildings owned by an undertaking or company or even government that are actually in occupation of different persons. For example, Indian Oil Corporation colony where the buildings are owned by the Corporation but these are in occupation of their employees. Each such building was treated as a separate building. But if in any one of these buildings there were flats in occupation of different households, each such flat was reckoned as a separate census house.

Sometimes if becomes difficult to apply the definition of census house strictly in certain cases. For example, in an urban area, if a flat has five rooms, each room having direct entrance from the common staircase or courtyard. By definition, this has to be treated as five census houses. If all these five rooms are occupied by a single household it was not realistic to treat them as five census houses. In such a case, 'singleness' of use of these rooms along with the main house should be considered and the entire flat was treated as one census house. On the other hand, if two independent households occupy these five rooms, the first household living in 3 rooms and

the second household occupying 2 rooms, then considering the use, the first three rooms together were treated as one census house and the remaining rooms as another census house. But if each room was occupied by an independent household, then each such room was treated as a separate census house.

In case of hostels, hotels, etc., even if the door of each room in which an inmate lives opens to a common verandah, staircase, courtyard or a common room, as it happens almost invariably, the entire hostel/ Hotel building was treated as one census house. but if such hostels/ hotels have out-houses or other structures used for different purposes or the same purpose, then each such structure attached to the main hostel/hotel was treated as a separate census house.

In some parts of the country, in rural areas, the pattern of habitation is such that a group of huts, located in a compound, whether enclosed or unenclosed, is occupied by one household. While the main residence may be located in one hut, other huts may be used for sleeping, as a kitchen, bath room, baithak, etc. Though each of the huts was a separates structure, they form a single housing unit and therefore, have to be treated collectively as one building and one census house. If some of the huts are used by one household and the others by a second household as residence, then the two groups of huts were treated as separate census houses. However, if there were also other huts in the compound used for other purposes and not as part of the household's residence such as, cattle shed, work shed, etc., these were treated as separate census houses.

On the other hand, in urban areas, where more than one structure within an enclosed or open compound (premises) belonging to the same person, e.g., the main house, the servant's quarter, the garage, etc., only one building number was given for this group and each of the constituent a separate census house number.

Only cases where a structure with roof and pillars has come up was treated as a building.

**Village :**

The basic unit for rural areas is the revenue village, which has definite surveyed boundaries. The revenue village may comprise of one or more hamlets but the entire village is treated as one unit for presentation of data.

In unsurveyed areas, like villages within forest areas, each habitation area with locally recognized boundaries is treated as one village.

**Town/Urban Area :**

The following areas are treated as towns/urban areas :

(a) All places with a municipality, municipal corporation, cantonment board or notified town area committee, etc.

(b) All other places which satisfy or are expected to satisfy the following criteria simultaneously

i) A minimum population of 5,000;

ii) At least 75 per cent of the male working population engaged in non-agricultural pursuits; and

iii) A density of population of at least 400 per square kilometre (1,000 per square mile).

**City :**

Towns with population of 1,00,000 and above are called cities.

**Urban Agglomeration :**

An Urban Agglomeration is a continuous urban spread constituting a town and its adjoining urban outgrowths (OGs) or two or more physically contiguous towns together and any adjoining urban outgrowths of such towns. In some cases railway colonies, university campuses, port areas, etc., may come up near a city or statutory town outside its statutory limits but within the revenue limits of a village or villages contiguous to the town or city. Each such individual area by itself may not satisfy the minimum population limit to qualify it to be treated as an independent urban unit but may deserve to be clubbed with the town as a continuous urban spread.

For the purpose of delineation of Urban Agglomerations during Census of India 2001, following criteria are taken as pre-requisites:

(a) The core town or at least one of the constituent towns of an urban agglomeration should necessarily be a statutory town; and

(b) The total population of all the constituents (i.e., towns and outgrowths) of an Urban Agglomeration should not be less than 20,000 (as per the 1991 Census).

With these two basic criteria having been met, the following are the possible different situations in which Urban Agglomerations would be constituted:

i) a city or town with one or more contiguous outgrowths;
ii) two or more adjoining towns with their outgrowths; and
iii) a city and one or more adjoining towns with their outgrowths all of which form a continuous spread.

**Household :**

A 'household' is usually a group of persons who normally live together and take their meals from a common kitchen unless the exigencies of work prevent any of them from doing so. Persons in a household may be related or unrelated or a mix of both. However, if a group of unrelated persons live in a census house but do not take their meals from the common kitchen, then they are not constituent of a common household. Each such person was to be treated as a separate household. The important link in finding out whether it was a household or not was a common kitchen. There may be one member households, two member households or multi-member households.

**Institutional Households :**

A group of unrelated persons who live in an institution and take their meals from a common kitchen is called an Institutional Household. Examples of Institutional Households are boarding houses, messes, hostels, hotels, rescue homes, jails, ashrams, orphanages, etc. To make the definition more clearly perceptible to the enumerators at the Census 2001, it was specifically mentioned that this category or households would cover only those households where a group of unrelated persons live in an institution and share a common kitchen.

**Houseless Household :**

Households who do not live in buildings or census houses but live in the open on roadside pavements, in hume pipes, under flyovers and staircases, or in the open in places of worship, mandaps, railway platforms, etc., are treated as Houseless Household.

**Scheduled Castes and Scheduled Tribes :**

Article 341(1) of the Constitution provides that the President may, with respect to any State or Union territory, specify the castes, races or tribes or parts of or groups within castes, races or tribes which shall for the purposes of the Constitution be deemed to be Scheduled Castes in relation to that State or Union territory. Article 342(1) similarly provides for specification of tribes or tribal communities or parts of or groups within tribes or tribal communities, which are to be deemed for the purposes of the Constitution to be Scheduled Tribes in relation to the various States and Union territories. In pursuance of these provisions, the list of Scheduled Castes and / or Scheduled Tribes are notified for each State and Union territory and are valid only within the jurisdiction of that State or Union territory and not outside.

It is important to mention here that under the Constitution (Scheduled Castes) Order, 1950, no person who professed a religion different from Hinduism was deemed to be a member of a Scheduled Caste in addition to every member of the Ramdasi, Kabirpanthi, Majhabi or Sikligar caste resident in Punjab or Patiala and East Punjab States Union were in relation to that State whether they professed the Hindu or the Sikh religion. Subsequently, in September 1956, by an amendment, the Presidential Order of 1950 and in all subsequent Presidential Orders relating to Scheduled Castes, the Hindu and the Sikh religions were placed on the same footing with regard to the specification of Scheduled Castes. Later on, as per the amendment made in the Constitution (Scheduled Castes) Order 1990, the Hindu, the Sikh and the Buddhist were placed on the same footing with regard to the recognition of the Scheduled Castes.

The lists containing the names of the Scheduled Castes and the Scheduled Tribes applicable for the Census of India 2001 in the State is given below.

**List of Scheduled Castes :**

1. Ager
2. Bakad, Bant
3. Bawa-Dedh, Dedh Sadhu
4. Bhambi, Bhambhi, Asadaru Asodi, Chamadia, Chamar Chambhar, Chamgar, Haralayya, Harali, Khalpa, Machigar, Mochigar, Madar, Madig, Mochi, Nalia, Telegu Mochi, Kamati Mochi, Ranigar, Rohidas, Rohit, Samgar.
5. Bhangi, Mehtar, Olgana, Rukhi, Malkana, Halalkhor, Lalbegi, Balmiki, Korar, Zadmalli.

6. Chalvadi, Channayya
7. Chenna Dasar, Holaya Desar
8. Dangashia
9. Dhor, Kakkayya, Kankayya
10. Garmatang
11. Garoda, Garo
12. Halleer
13. Halsar, Haslar, Hulasvar, Halasvar
14. Holar, Valhar
15. Holaya, Holer
16. Lingader
17. Mahar, Taral, Dhegu Megu
18. Mahyavansi, Dhed, Dhedh, Vankar, Maru Vankar, Antyaj
19. Mang, Matang, Minimadig
20. Mang-Garudi
21. Meghaval, Meghwal, Menghvar
22. Mukri
23. Nadia, Hadi
24. Pasi
25. Senva, Shenva, Chenva, Sedma, Rawat
26. Shemalia
27. Thori
28. Tirgar, Tirbanda
29. Turi
30. Turi Barot, Dedh Barot

**Scheduled Tribes :**

1. Barda
2. Bavacha, Bamcha
3. Bharwad (In the Nesses of the forests of Alech, Barada and Gir)*
4. Bhil, Bhil Garasia, Dholi-Bhil, Dungri Bhil, Dungri Garasia, Mewasi Bhil, Rawal Bhil, Tadvi Bhil, Bhagalia, Bhilala, Pawra, Vasava, Vasave.
5. Charan (In the Nesses of the forests of Alech, Barada and Gir) *
6. Chaudhri (In Surat and Valsad districts)
7. Chodhara
8. Dhanka, Tadvi, Tetaria, Valvi
9. Dhodia
10. Dubla, Talavia, Halpati
11. Gamit, Gamta, Gavit, Mavchi, Padvi
12. Gond, Rajgond
13. Kathodi, Katkari, Dhor Kathodi, Dhor Katkari, Son Kathodi, Son Katkari
14. Kokna, Kokni, Kukna
15. Koli (In Kachchh district)
16. Koli Dhor, Tokre Koli, Kolcha, Kolgha
17. Kunbi (In The Dangs district)
18. Naikda, Nayaka, Cholivala Nayaka, Kapadia Nayaka, Mota Nayaka, Nana, Nayaka
19. Padhar
20. Paradhi (In Kachchh district)
21. Pardhi, Advichincher, Phanse Pardhi (Excluding Amreli,Bhavnagar, Jamnagar, Junagadh, Kachchh, Rajkot and Surendranagar districts)
22. Patelia
23. Pomla
24. Rabari (In the Nesses of the forests of Alech, Barada and Gir)*
25. Rathawa
26. Siddi (In Amreli, Bhavnagar, Jamnagar, Junagadh, Rajkot and Surendranagar districts)
27. Vaghri (in Kachchh district)
28. Varli
29. Vitola, Kotwalia, Barodia

**Language and Mother Tongue :**

As per the census concept, each language is a group of mother tongues. The census questionnaire collects information on the mother tongue of each person and mother tongue is defined as the language spoken in childhood by the person's mother to the person. If the mother died in infancy, the language mainly spoken in the person's home in childhood will be the mother tongue. In the case of infants and deaf mutes, the language usually spoken by the mother is considered as mother tongue. It is not necessary that the language spoken as mother tongue should have a script. The mother tongues returned by the respondents in census are classified and grouped under appropriate languages according to their linguistic characteristics.

**Literate :**

A person age 7 years and above who can both read and write with understanding in any language is taken as literate. A person who can only read but

* The area comprised of jamnagar and Junagadh districts.

cannot write is not literate. It is not necessary that to be considered as literate, a person should have received any formal education or passed any minimum educational standard. Literacy could also have been achieved through adult literacy classes or through any non-formal educational system. People who are blind and can read in Braille are treated as literates.

**Literacy Rate :**

Literacy rate of the population is defined as the per centage of literates in the age group seven years and above. For different age groups the per centage of literates in that age group gives the literacy rate.

**Educational Level :**

The highest level of education a person has completed .

**Work :**

Work is defined as participation in any economically productive activity with or without compensation, wages or profit. Such participation may be physical and/or mental in nature. Work involves not only actual work but also includes effective supervision and direction of work. It even includes part time help or unpaid work on farm, family enterprise or in any other economic activity. All persons engaged in 'work' as defined above are workers. Persons who are engaged in cultivation or milk production even solely for domestic consumption are also treated as workers.

Reference period for determining a person as worker and non-worker is one year preceding the date of enumeration.

**Main Worker :**

A person who has worked for major part of the reference period (i.e. six months or more during the last one year preceding the date of enumeration) in any economically productive activity is termed as "Main worker".

**Marginal Worker :**

A person who worked for less than six months of the reference period (i.e. in the last one year preceding the date of enumeration) in any economic activity is termed as 'Marginal- worker'

**Non Worker :**

A person who has not worked at all in any economically productive activity during the reference period (i.e. last one year preceding the date of enumeration) is termed as 'Non worker'.

**Cultivator :**

For purposes of the Census a person is classified as cultivator, if, he or she is engaged in cultivation on land owned or held from government or held from private persons or institutions for payment in money, kind or share. Cultivation includes effective supervision or direction in cultivation.

A person who has given out her/his land to another person or persons or institution(s) for cultivation for money, kind or share of crop and who does not even supervise or direct cultivation in exchange of land, is not treated as cultivator. Similarly, a person working on another person's land for wages in cash or kind or a combination of both (agricultural laborers) is not treated as cultivator.

Cultivation involves ploughing, sowing, harvesting and production of cereals and millet crops such as wheat, paddy, jowar, bajra, ragi, etc., and other crops such as sugarcane, tobacco, ground-nuts, tapioca, etc., and pulses, raw jute and kindred fiber crop, cotton, cinchona and other medicinal plants, fruit growing, vegetable growing or keeping orchards or groves, etc. Cultivation does not include the following plantation crops – tea, coffee, rubber, coconut and betel-nuts (area).

**Agricultural Labourer :**

A person who works on another person's land for wages in money or kind or share is regarded as an agricultural labourer. She/he has no risk in the cultivation, but merely works on another person's land for wages. An agricultural laborer has no right of lease or contract on land on which she/he works.

**Household Industry Worker :**

Household industry is defined as an industry conducted by the head of the household herself/himself and or by the members of the household at home or within the village in rural areas and only within the precincts of the house where the household lives in urban areas. The larger proportion of workers in household industry should consist of members of the household including the head. The industry should not be run on the scale of a registered factory which would qualify or has to be registered under the Indian Factories Act and should be engaged in manufacturing, processing, servicing and repairs of goods.

It does not include professions such as a pleader, Doctor, Musician, Dancer, Waterman, Astrologer, Dhobi, Barber, etc. or merely trade or

business, even if such professions, trade or services are run at home by members of the household.

**Other Worker :**

A person who has been engaged in some economic activity during the reference period but not as a cultivator or agricultural laborer or in Household Industry is termed as an 'Other-Worker (OW)'. The type of workers that come under this category of 'OW' include all government servants, municipal employees, teachers, factory workers, plantation workers, those engaged in trade, commerce, business, transport, banking, mining, construction, political or social work, priests, entertainment artists, etc. In effect, all those workers other than cultivators or agricultural laborers or household industrial workers, are 'Other Workers'.

**Work Participation Rate :**

Percentage of workers (main + marginal) to total population.

**Population Density :**

Population density is the number of persons inhabited per square kilometer of the area.

**Age :**

Age is measured in terms of the completed number of years.

**Sex Ratio :**

Numbers of females per 1,000 males in a population.

**(vi) Non Census Concepts :**

**Improved Drinking Water :**

If the household had access to drinking water supplied from a tap, hand pump, tube well or well (protected or covered) situated within or outside the premises, it is considered as having access to improved drinking water.

**System of Sewerage :**

Generally, a sewerage system would mean a network of mains and branches of underground conduits for the conveyance of sewerage to the point of disposal. Sewers that carry only household and industrial wastage are called separate sewers; those that carry storm water from roofs, streets and other surfaces are known as storm water drains, while those carrying both sewage and storm water are called combined sewers. However, in some towns, which are, not provided with such underground sewerage system, it is served by open surface drain, box drain, silk pattern drain, etc., in these towns.

**Type of Latrine and Method of Disposal of Night Soil :**

There are three prevalent systems of disposal of human wastes, viz.(i) underground sewerage, (ii) sanitary water flush latrines with individual disposal systems, like septic tank, leaching cess pool and collecting well, and (iii) dry type of latrines with manual scavenging.

The system of underground sewerage provides for the street sewerage with which are connected the sanitary latrines constructed in the houses having water closets and fitted with flushing cistern (or hand flushing). Through this sewer the faucal matter is transported without the need for scavenging. This system generally exists in cities and big towns.

Where the streets sewer does not exist these sanitary water flush latrines are connected to a local septic tank with a sub-soil dispersion system or a leaching pit. Here the liquid wastes from the water closet is disposed of locally in leaching pit, a septic tank with a soil dispersion system is constructed. This dispersion requires an optimum travel through the pores of the soil, which renders the harmful liquid bacterially innocuous by the slow process of filtration through the soil traversed.

Where the soil is impermeable, collecting wells are constructed and the sanitary water flush latrines are connected with them. These wells are cleaned at periodic intervals by a suitable device. The dry type of latrines are of service type latrines from where human excreta is removed by scavengers from house to house, in most cases carrying it on their heads or shoulders or in baskets with handle or wheel barrows. These are then collected in bullock carts or trucks or tractors and trolleys for being carried to the dumping grounds.

**Fertility :**

In demography, the word fertility is used in relation to the actual production of children or occurrence of births specially lives births. Fertility is a measure of rate at which population adds to itself by births and normally assessed by relating the number of births to a full or part of the population, such as number of married women or number of women of child bearing age. The definitions of the

terminology used in computing different fertility rates are mentioned below.

**Crude Birth Rate (CBR) :**

Ratio of the numbers of live births in a year to the mid year population. (normally expressed per 1,000 population).

$$CBR = \frac{\text{Numbers of live births during the year}}{\text{Mid –year Population}} \times 1{,}000$$

**Crude Death Rate (CDR) :**

Ratio of the numbers of deaths in a year to the mid year population, normally expressed per 1,000 population.

$$CDR = \frac{\text{Numbers of deaths during the year}}{\text{Mid –year Population}} \times 1{,}000$$

**Natural Growth Rate : (NGR)**

Natural Growth rate is obtained as the difference between crude birth rate and crude death rate in the absence of migration.

$$NGR = CBR - CDR$$

**Age Specific Fertility Rate (ASFR) :**

Number of live births in a year to female population in any specified age group normally expressed per 1,000 women.

$$ASFR = \frac{\text{Numbers of live births in a particular age group}}{\text{Numbers female population of same specified age group}} \times 1{,}000$$

**Age Specific Marital Fertility Rate (ASMFR):**

Number of live births in a year to married female population in any specified age group normally expressed per 1,000 married women.

$$ASMFR = \frac{\text{Number of live births in a particular age group}}{\text{Mid-year married female population of the same age group}} \times 1{,}000$$

**General Fertility Rate (GFR) :**

Number of live births per 1,000 women in the reproductive age-group (15-49) years in a given year.

$$GFR = \frac{\text{Number of live births in a year}}{\text{Mid-year female population in the age-group (15-49) years}} \times 1{,}000$$

**General Marital Fertility Rate (GMFR) :**

Number of live births per 1,000 married women in reproductive age-group (15-49) years in a given year.

$$GMFR = \frac{\text{Number of live births in a year}}{\text{Mid-year married female population in the age group (15-49) years}} \times 1{,}000$$

**Total Fertility Rate (TFR) :**

It is obtained as the total of the age specific fertility rates (number of children born per woman of the particular age) for the entire reproductive age span. It provides the average number of children that will be born to a woman under the fertility levels indicated by the age specific fertility rates assuming that there is no mortality of women till the completion of reproductive period.

$$TFR = \frac{5 \times \sum_{15\text{-}19}^{45\text{-}49} ASFR}{1{,}000}$$

**Total Marital Fertility Rate (TMFR) :**

Average number of children that would be born to a married woman if she experiences the current fertility pattern throughout her reproductive span (15-49) years assuming that there is no mortality of women till the completion of reproductive period.

$$TMFR = \frac{5 \times \sum_{15\text{-}19}^{45\text{-}49} ASFR}{1{,}000}$$

**Age-Specific Mortality Rate (ASMR) :**

Number of deaths in a particular age and sex group per 1,000 population of the same age group.

$$ASMR = \frac{\text{Number of deaths in a particular age group}}{\text{Mid-year population of the same age group}} \times 1{,}000$$

**q1 :**

Probability of dying between birth and age 1. This can be used as approximate value of Infant Mortality Rate (IMR) which gives the ratio of number of deaths in a year of children aged less than one year to the number of births in that year.

**q2 :**

Probability of dying between birth and age 2.

**q5 :**

Probability of dying between birth and age 5. This indicator is also known as Under Five Mortality Rate (q5MR)

**Infant Mortality Rate (IMR) :**

Ratio of the number of infant deaths (deaths of children below one year) in a year to the number of live births in that year.

$$IMR = \frac{\text{Number of infant deaths during the year}}{\text{Number of live births during the year}} \times 1,000$$

Infant mortality rate comprises of two parts, viz., Neo-natal mortality rate and Post neo-natal mortality rate. The neo-natal mortality rate also comprises of two parts viz., early neo-natal mortality rate and late neo-natal mortality rate. These are defined as :

**Neo-natal Mortality Rate (NMR) :**

Number of infants dying within the first month of life (28 days or under) in a year per 1,000 live births of the same year.

$$NMR = \frac{\text{Number of infant deaths aged 28 days under during the year}}{\text{Number of live births during the year}} \times 1,000$$

**Early Neo-natal Mortality Rate (ENMR) :**

$$ENMR = \frac{\text{Number of infant deaths of less than 7 days during the year}}{\text{Number of live births during the year}} \times 1,000$$

**Late Neo-natal Mortality Rate (LNMR) :**

$$LNMR = \frac{\text{Number of infant deaths of 7 days to less than 29 days during the year}}{\text{Number of live births during the year}} \times 1,000$$

**Post Neo-natal Mortality Rate (PNMR) :**

$$PNMR = \frac{\text{Number of deaths of 29 days to less than One year during the year}}{\text{Number of live births during the year}} \times 1,000$$

**Peri-natal Mortality Rate (PMR) :**

Number of stillbirths plus deaths within 1st week of delivery per 1,000 births in a year.

$$PMR = \frac{\text{Number of stillbirths and infant deaths of less than 7 days during the year}}{\text{Number of live births and stillbirths during the year}} \times 1,000$$

**Stillbirth Rate (SBR) :**

$$SBR = \frac{\text{Number of stillbirths during the year}}{\text{Number of live births and still births during the year}} \times 1,000$$

**Maternal Mortality Rate (MMR) :**

Number of deaths of women in the age group 15-49 while pregnant or within 42 days of termination of pregnancy from any cause related to pregnancy and childbirth per 100,000 live births in a given year.

$$MMR = \frac{\text{Number of maternal deaths to women in the age group 15-49}}{\text{Number of live birth}} \times 100,000$$

**Eligible Couple (Couples per 1,000 population):**

Number of currently married females in the age group15-44 years per 1,000 persons of all ages.

**Child Woman Ratio (0-4) :**

1. Number of children in the age group 0-4 years per 1,000 women in the age group 15-49 years.

**Child Woman Ratio (5-9) :**

2. Number of children in the age group 5-9 years per 1,000 women in the age group 15-49 years.

**Migration :**

Migration is the third component of population change, the other two being mortality and fertility.

A person is considered as a migrant by place of birth if the place in which he/she is enumerated during the census is other than the place of his/her birth.

Similarly a person is considered as a migrant by place of last residence if the place in which he/she is enumerated during the census is other than his/her place of immediate last residence outside the village or town and not simply in another house or locality in the same village or town.

Certain aspects concerning temporary movement/migration of people has been explained below as these are important components concerning migration :

(i) Migration of persons in search of job is high in the country. In many cases such migrants are only seasonal in nature. People migrate to other places for work in a particular season and come back again to their usual place of residence after three or four months. All such workers are treated as migrants. Similarly, if a person moved to any other place for attending short term vocational or educational course that lasted for only few months of a year, she/he too were considered as a migrant.

(ii) Where a person had merely gone out to another place or had been shifting from one place to another purely on tour, pilgrimage, visit to hospital for treatment or for temporary business purposes, such persons are not deemed to have had another residence different from the place where she/he or her/his family normally resides. She/he is not considered as migrant.

(iii) A woman temporarily moves into a hospital or to her parents or other relative's house for delivery and if the hospital or the parents/relatives houses is in a place different from usual place of residence, the place where the hospital or parents/relative's house is the place of last residence of the child but not of the mother.

A new response category 'Moved after birth' was added in Census of India 2001 in the question on 'reasons for migration' to bring out additional migration patterns. Natural calamities or distress migration as a reason for migration for last residence migrants included in 1991 Census, is covered under category of 'Others'. The reason for migration has been determined as applicable at the time of migration and not in reference to any point of time after that. For example, if a person had moved from the place of her/his last residence for the purpose of education and subsequently at some point of time got employment there only, the reason for migration would be 'education' and not 'work/employment'.

**Internal and International Migration :**

The migrational movements are of three types

(i) Migration within the state itself with its components

  (a) Migration within the district of enumeration (intra district migration)

  (b) Migration from one district of state to another district of state (inter district migration),

(ii) Migration from one state to another State of the country (inter-state migration),

(iii) Migration from one country to another country.

The first two streams together constitute internal migration, while the last type of movement is called international migration. The present name of the country, state or district and not the name by which they were known at the time of her/his birth or last residence were recorded.

**Rural-Urban Components of Migration :**

Rural or Urban status in respect of migrants had been determined as applicable at the time of migration and not with reference to any point of time after that.

The flow of migrants consists of four streams viz. rural to rural, rural to urban, urban to rural and urban to urban.

**Civic Status of Urban Units :**

Civic Status of a town/city is determined on the basis of Civic Administrative authority of the town e.g., Municipal Corporation/Corpora-tion, Municipal Committee/Municipal council, Municipality etc.

**Size Class of UA/Town :**

Size-class of UA/Town is based on the population size of the UA/City/Town UAs/Towns with 100,000 and above population is classified as Class I UAs./ towns. These Class I UAs./towns are now further sub classified in to seven sub classes namely M1 to M7 depending on the population size of UA/City/Town. These are M7(5,000,000 and

above); M6(2,000,000 to 4,999,999); M5(1,000,000-1,999,999) M4(500,000-999,999); M3(300,000-499,999), M2(200,000-299,999) & M1(100,000-199,999). towns with, 50,000 to 99,999 population are classified as Class II towns, 20,000 to 49,999 population are Class III towns, population with 10,000-19,999 are Class IV towns, population with 5,000 and 9,999 are Class V towns and towns with less than 5,000 population are Class VI towns.

**Slum Area :**

The Slum Areas (Improvement and Clearance) Act, 1956 which was enacted by the Central Govt. defined slums as a) Areas where buildings are in any respect unfit for human habitation; or b) are by reasons of dilapidation, overcrowding, fault arrangement and design of such buildings, narrowness or faulty arrange-ment of streets, lack of ventilation, light or sanitation facilities, or any combination of these factors, are detrimental to safety, health or morals.

**Mega City :**

The concept of 'Mega city' is a recent phenomenon in the Urban Sociology and is defined in term of metropolitan city in the form of large size, problem of management of civic amenities and capacity to absorb the relatively high growth of population. Indian Census in 1991 treated the population size of 5 million and above as the cut off point to identify a place as the mega city. Whereas, for the purpose of inclusion in Centrally Sponsored Scheme for Infrastructure Development in Mega cities the Ministry of Urban Affairs and employment, Department of Urban Development adopted the criteria of 4 million and above population as per 1991 Census for Mega Cities. In 2001 Census, cities with 10 millions and above population have been treated as Mega cities.

**(vii) 2001 Census findings- Population, its distribution :**

**(a) Distribution of population in rural-urban areas:**

According to the 2001 Census, the total population of Vadodara district is 3,641,802 comprising 1,897,368 males and 1,744,434 females. This population of the district is about 7.2 per cent of the State population and rank at 3rd place among the 25 districts of the state. There are 12 talukas in the district having 1,553 villages. Out of 1,553 villages 5 villages are uninhabited. The total urban population in the district is spread over in 16 towns. Out of the total population of the district 54.8 per cent lives in rural areas, while 45.2 per cent lives in urban areas.

**(b) Size class & status of towns, Population growth, Density, Sex ratio, Work participation rate, Details of Literacy , availability of University education in the District :**

The statement shown below gives the position and number of urban units in size class for 2001 Census.

| Sl. No. | Name and Civic status of Town | Size class of town | Popula-tion |
|---|---|---|---|
| 1 | 2 | 3 | 4 |
| 1 | Bajwa (CT) | V | 9,192 |
| 2 | Bodeli (CT) | IV | 10,490 |
| 3 | Chhota Udaipur (M) | III | 23,211 |
| 4 | Dabhoi(M) | II | 54,952 |
| 5 | GSFC Complex INA (INA) | VI | 3,037 |
| 6 | Jawaharnagar (Gujarat Refinery) (CT) | VI | 4,667 |
| 7 | Karchiya (CT) | V | 7,736 |
| 8 | Karjan (M) | III | 26,358 |
| 9 | Nandesari (CT) | V | 7,270 |
| 10 | Nandesari INA (INA) | VI | 2,814 |
| 11 | Padra (M) | III | 39,205 |
| 12 | Petro Chemical Complex INA (INA) | V | 7,338 |
| 13 | Ranoli (CT) | IV | 11,057 |
| 14 | Tarsali (CT) | III | 26,706 |
| 15 | Vadodara (M.Corp.) | I | 1,411,228 |
| 16 | Vaghodia INA (INA) | VI | 961 |
| | **District Total** | - | **1,646,222** |

According to the 1991 Census the total population of the district was 3,038,127. There has been net addition of 603,675 persons during 1991-2001. The decadal growth rate of district is 19.9 per cent.

The growth rates for the rural and urban areas of the district are 16.7 and 24.0 per cent respectively. The growth rate of urban population is comparatively very high in the district. The highest growth of urban population has taken place in Vadodara taluka. Population is increased by 19.9 per cent during the decade.

The density of population in Vadodara district is 482 per sq. km. against the State average of 258 persons.

There are 919 females for every thousand males in Vadodara district. The sex ratios for rural and urban areas of the district are 929 and 907 respectively. It is also observed that the proportion of female in rural area is higher than that of urban areas. Among the talukas, the highest sex-ratio of 983 has been recorded in Chhota Udaipur taluka and the lowest of 899 is recorded in Savli and Padra taluka. In urban area also Chhota Udaipur has the highest sex ratio of 951 and the lowest of 490 in Vaghodia taluka.

Sex ratio in age-group 0-6 is 886 in the district, as a whole. In rural areas, this ratio is 920 while in urban areas it is 834.

The work participation rate is defined as percentage of total workers to total population. In the same way it is defined for main workers and marginal workers. According to 2001 Census, the total workers including main and marginal workers constitute 41.7 per cent of the total population of the district. Of the total workers the share of the main workers is 33 per cent and the marginal workers is 8.7 per cent. The remaining population belongs to the category of non-workers.

As per 2001 Census, among the main workers male participation rate in the district is 51.5 per cent and corresponding proportion of female is 12.9 per cent. Male and female marginal workers account for 4.4 and 13.4 per cent respectively. The proportion of female marginal workers is substantially higher than males, as the females are attending to one or more economic activities in addition to their household duties to enhance the family income.

A person who can read and write in any language with understanding is considered as 'literate' in census. All children of age below 7 years are treated as 'illiterates'.

As per 2001 census, in Vadodara district, 2,228,008 persons are literates, which constitute 70.8 per cent of the total population. Proportions of male and female literates in the district are 80.0 and 60.7 per cent respectively. The literacy rate of males is higher than those of females. The gap of male and female literacy rate is 19.3 percentage points in the district.

Literacy rates for rural and urban areas are 57.6 and 86.1 per cent respectively. The proportions of male and female literates in rural are 70.2 and 44.1 per cent respectively. In urban areas these proportions are 91.4 and 80.3 per cent respectively.

There are Fifteen Colleges in the district. Among them there are 13 Arts colleges, 12 Commerce colleges, two Science college and One B.Ed. college, M. S. University is situated in Vadodara City.

**Religion:**

Religion forms an integral part of Indian Social system. In the pre-Independence census reports, the data on religions was being presented for 9 major religions viz. Hindu, Muslim, Tribals, Christian, Sikh, Jain, Buddhist, Parsi, Jew and others. However, since the 1951 census, the data on religion has been presented for 6 major religions viz. Hindu, Muslim, Christian, Sikh, Jain and Buddhist. Besides, the minor religions have been classified under the category of 'other'. The data on religion collected and presented by the Indian Census is the basic data of intense use for the 'researchers', anthropologists, sociologists, demographers, administrators, planners and even for a common man.

In 2001, the Indian Census collected the religion data in question No.7 of the Household Schedule and recorded the same under the six major religions. Other religions were recorded in actual as answered by the respondent and classified under the category of 'others'. Religion not stated has been added for those persons who have not stated their religion at the time of canvassing the status of religion.

**Percentage distribution of population by major religions in**

**Gujarat State and Vadodara district, 2001.**

| Sl. No. | Religion | Gujarat | | Vadodara | |
|---|---|---|---|---|---|
| | | Population | Percentage | Population | percentage |
| 1 | 2 | 3 | 4 | 5 | 6 |
| 1 | Hindu | 45,143,074 | 89.1 | 3,258,593 | 89.5 |
| 2 | Muslim | 4,592,854 | 9.1 | 317,194 | 8.7 |
| 3 | Christian | 284,092 | 0.5 | 20,822 | 0.6 |
| 4 | Sikh | 45,587 | 0.1 | 8,964 | 0.2 |
| 5 | Buddhist | 17,829 | 0.0 | 568 | 0.0 |
| 6 | Jain | 525,305 | 1.0 | 31,566 | 0.9 |
| 7 | Other | 28,698 | 0.1 | 1,705 | 0.0 |
| 8 | Religion not stated | 33,578 | 0.1 | 2,390 | 0.1 |

**Source :** Census of India, 2001

The comparative data on religion of Gujarat State and Vadodara district is given in the above statement. It is observed that at State level 89.1 percentage of population is Hindus. In Vadodara district this percentage is slightly higher (89.5). Next to Hindu religion is Muslim which constitutes about 9.1 per cent and 8.7 both at State and district level. Percentage for Sikh is slightly higher in Vadodara as compared to state while the population of Jain is slightly lower. The percentages for other religions are negligible.

As per 2001 Census, the distribution of population of major religious communities by rural and urban areas of Vadodara district is as under.

| Religion | Number of Followers | Population | |
|---|---|---|---|
| | | Rural | Urban |
| 1 | 2 | 3 | 4 |
| Hindu | 3,258,593 | 1,864,316 (57.2) | 1,394,277 (42.8) |
| Muslim | 317,194 | 121,783 (38.4) | 195,411 (61.6) |
| Christian | 20,822 | 1,087 (5.2) | 19,735 (94.8) |
| Sikh | 8,964 | 717 (8.0) | 8,247 (92.0) |
| Buddhist | 568 | 43 (7.6) | 525 (92.4) |
| Jain | 31,566 | 5,670 (18.0) | 25,896 (82.0) |
| Others | 1,705 | 493 (28.9) | 1,212 (71.1) |
| Religion not stated | 2,390 | 1,471 (61.5) | 919 (38.5) |

**Note:** *Recasted population

Table 1 gives the talukawise decadal changes in the population during the last decade of 1991-2001 along with the percentage of urban population for last two censuses. The decadal growth rate of the district is 19.9 per cent during 1991-2001. The growth rates for rural and urban areas of the district are 16.7 and 24.0 per cent respectively. Overall growth rate of 24.0 per cent for urban area is higher than 16.7 per cent of rural area of the district during the decade. Out of the total population of the district 54.8 per cent lives in rural areas while 45.2 per cent lives in urban areas of the district. The highest decadal growth rate has been observed in Vadodara taluka having 27.2 per cent and the lowest in Sinor taluka having 5.3 per cent. Vadodara taluka has recorded the highest urban population of 87.4 per cent whereas, Vaghodia has the lowest urban population of 0.7 per cent of the total population.

Table 2 gives the information of absolute number and percentages of inhabited villages falling in each range of population size of villages and number of males and females for each population range at taluka level in the district. Out of 1,548 inhabited villages, 92 villages (5.9 per cent) have the population below 200 persons. There are 308 villages having 19.9 per cent of the rural population in the class of 200-499 while the population size class of 500-999 is having 468 (30.2 per cent) villages. Rural population of as many as 442 (28.6 per cent) villages live in the villages having population size class of 1,000-1,999 and 188 villages (12.1 per cent) are in size class of 2,000-4,999 while 45 villages (2.9 per cent) are having the population range of 5,000-9,999 and 5 villages in the district is having population in the range of 10,000 and more.

**TABLE 3**

**NEW TOWNS, DENOTIFIED, DECLASSIFIED AND MERGED TOWNS IN 2001 CENSUS**

Name of Town

**(a) New**

(i) Statutory town

1 Vaghodia INA ( INA )

(ii) Census town

1 Nandesari CT

**(b) Denotified**

(i) Statutory towns of 1991 census denotified and also did not satisfy the criteria to be treated as census towns

Nil

(ii) Statutory towns of 1991 census denotified but identified as census towns based on demographic and economic criteria

Nil

(iii) Census towns of 1991 census are notified as statutory town in 2001 census

Nil

**(c) Declassified**

1 Chhani NP

2 Vaghodia VP

3 Sankheda VP

4 Bahadarpar VP

5 Sinor VP

6 Kavant VP

7 Jetpur VP

**(d) Wholly merged with other town(s)**

Nil

Declassified means the census towns of 1991 census which failed to satisfy the demographic and economic criteria.

Table 3 is self-explanatory and needs no elaboration.

**TABLE 4**

**DISTRIBUTION OF VILLAGES BY POPULATION DENSITY, 2001**

| Range of Population Density (per Square Kilometer) | Total Number of Villages in each Population Density Range | Percentage of Villages in each Population Density Range | Population | Percentage Distribution of Population |
|---|---|---|---|---|
| 1 | 2 | 3 | 4 | 5 |
| 0-10 | 4 | 0.3 | 133 | 0.0 |
| 11-20 | 5 | 0.3 | 199 | 0.0 |
| 21-50 | 27 | 1.7 | 3,938 | 0.2 |
| 51-100 | 66 | 4.3 | 25,804 | 1.3 |
| 101-200 | 440 | 28.4 | 372,671 | 18.7 |
| 201-300 | 472 | 30.5 | 537,718 | 26.9 |
| 301-500 | 394 | 25.5 | 617,864 | 31.0 |
| 501 + | 140 | 9.0 | 437,253 | 21.9 |
| Not known | 0 | 0.0 | 0 | 0.0 |
| **District Total:** | **1,548** | **100.0** | **1,995,580** | **100.0** |

**Population Density (Rural) of the district : 275**

Table 4 gives the distribution of villages by population density ranges. The inhabited villages of the district have been grouped under eight different ranges of density. The maximum number of 472 villages accounting for 30.5 per cent of the total inhabited villages of the district falls in the density range of 201-300 persons having 26.9 per cent population. In the lowest density range of 0-10 persons per square kilometer there are only 4 villages (0.3 per cent) with negligible population. It is interesting that as much as 9.0 per cent of the villages have population density 501 or more. Also it is worth noting that the maximum population of 31.0 per cent of the rural population of the district lives in the villages whose density is in the range of 301-500. The density of population in the rural areas of the district is 275 per square kilometer.

**TABLE 5**

**SEX RATIO OF STATE AND DISTRICT, 1901-2001**

| Census Year | Gujarat State | | | Vadodara District | | |
|---|---|---|---|---|---|---|
| | Total | Rural | Urban | Total | Rural | Urban |
| 1 | 2 | 3 | 4 | 5 | 6 | 7 |
| 1901 | 954 | 951 | 965 | 914 | 926 | 872 |
| 1911 | 946 | 943 | 960 | 905 | 915 | 863 |
| 1921 | 944 | 947 | 931 | 904 | 918 | 839 |
| 1931 | 945 | 948 | 934 | 902 | 922 | 814 |
| 1941 | 941 | 954 | 898 | 899 | 919 | 823 |
| 1951 | 952 | 964 | 920 | 914 | 927 | 871 |
| 1961 | 940 | 956 | 896 | 906 | 921 | 863 |
| 1971 | 934 | 951 | 893 | 900 | 918 | 860 |
| 1981 | 942 | 959 | 905 | 915 | 929 | 892 |
| 1991 | 934 | 949 | 907 | 913 | 922 | 901 |
| 2001 | 920 | 945 | 880 | 919 | 929 | 907 |

Table 5 gives the details about the sex ratio of state and district according to 1901 to 2001 Censuses. As per 2001 Census sex ratio of 919 females per 1,000 males has been recorded in the district against 920 of the state. The sex ratio of the district Vadodara was significantly low as compared to the state figures for 1901 to 2001 Censuses. The highest sex ratio of 919 females was recorded in the district during 2001 census while the lowest sex ratio of 899 females was recorded during 1941.

**TABLE 6**

**SEX RATIO BY TALUKAS, 2001**

| Sl. No. | Name of Taluka | Sex Ratio | | |
|---|---|---|---|---|
| | | Total | Rural | Urban |
| 1 | 2 | 3 | 4 | 5 |
| 1 | Savli | 899 | 899 | 0 |
| 2 | Vadodara | 907 | 910 | 906 |
| 3 | Vaghodia | 928 | 932 | 490 |
| 4 | Jetpur Pavi | 945 | 945 | 0 |
| 5 | Chhota Udaipur | 983 | 987 | 951 |
| 6 | Kavant | 975 | 975 | 0 |
| 7 | Nasvadi | 957 | 957 | 0 |
| 8 | Sankheda | 922 | 922 | 934 |
| 9 | Dabhoi | 918 | 916 | 923 |
| 10 | Padra | 899 | 896 | 915 |
| 11 | Karjan | 911 | 910 | 915 |
| 12 | Sinor | 917 | 917 | 0 |
| | **District Total:** | **919** | **929** | **907** |

Table 6 gives talukawise sex ratio and also for total, rural and urban areas as per 2001 Census. There are 919 females per 1,000 males in the district. Considering talukawise sex ratio it is seen that the highest sex ratio of 983 is for Chhota Udaipur taluka and the lowest is 899 for Savli and Padra talukas. The talukas of Savli, Vadodara, Dabhoi, Padra, Karjan and Sinor have recorded sex ratio less than the district sex ratio. The sex ratio in the rural areas of the district is 929 which is higher than the district sex ratio while the urban area of the district has recorded lower sex ratio of 907 as compared to district sex ratio of 919.

**TABLE 7**

**SEX RATIO BY TALUKAS /C.D. BLOCKS, 2001**

| Sl. No. | Name of Taluka/ C.D. Block | Sex Ratio |
|---|---|---|
| 1 | 2 | 3 |
| 1 | Savli | 899 |
| 2 | Vadodara | 910 |

| 6 | Kavant | 975 |
| 7 | Nasvadi | 957 |
| 8 | Sankheda | 922 |
| 9 | Dabhoi | 916 |
| 10 | Padra | 896 |
| 11 | Karjan | 910 |
| 12 | Sinor | 917 |
| | **District (Rural) Total:** | **929** |

Table 7 gives C.D. Block/Talukawise sex ratio for rural population in the district. The sex ratio in rural areas of the district as a whole is 929 females per 1,000 males. The highest sex ratio of 987 females is found in Chhota Udaipur taluka while the lowest of 896 is recorded in Padra taluka. The sex ratio of Vaghodia, Jetpur Pavi, Chhota Udaipur, Kavant and Nasvadi talukas are higher than the district rural sex ratio of 929.

**TABLE 8**

**SEX RATIO OF RURAL POPULATION BY RANGES, 2001**

| Range of Sex Ratio for Villages | Number of Inhabited Villages | Percentage of Villages in each Range | Population 2001 | Percentage Distribution of Population |
|---|---|---|---|---|
| 1 | 2 | 3 | 4 | 5 |
| Less than 700 | 5 | 0.3 | 3,175 | 0.2 |
| 700-749 | 8 | 0.5 | 3,838 | 0.2 |
| 750-799 | 31 | 2.0 | 22,372 | 1.1 |
| 800-849 | 78 | 5.0 | 74,207 | 3.7 |
| 850-899 | 291 | 18.8 | 452,412 | 22.7 |
| 900-949 | 481 | 31.1 | 798,252 | 40.0 |
| 950-999 | 360 | 23.3 | 413,581 | 20.7 |
| 1000-1099 | 250 | 16.1 | 208,267 | 10.4 |
| 1100+ | 44 | 2.8 | 19,476 | 1.0 |
| **District Total:** | **1,548** | **100.0** | **1,995,580** | **100.0** |

Table 8 gives distribution of villages by 9 different ranges of sex ratio based on 2001 Census. The maximum number of 481 villages accounting for 31.1 per cent of the total villages having 40.0 per cent rural population of the district, fall in the sex ratio range of 900-949, followed by the sex ratio range of 950-999 in which there are 360 villages (23.3 per cent) having population of 20.7 per cent. The highest sex ratio range of 1,100 and more have 44 villages having only one per cent rural population of the district. The sex ratio range of 1,000-1,099 have 250 villages (16.1 per cent) with 10.4 per cent of population.

Table 10 gives the details about population of age group 0-6 years and sex ratio for total, rural and urban areas in respect of each taluka of the district. Total population in age group 0-6 years is 493,196 comprising 261,562 males and 231,634 females. The total sex ratio in this age group works out to 886 in the district. The proportion of females in rural areas is higher than that of urban areas and the district sex ratio as a whole for the age group 0-6.

**TABLE 11**

**Sex ratio (Rural) for District : 920**

Table 12 shows the distribution of villages in 9 different ranges of sex ratio in the age group 0-6 years as well as percentage of villages and percentage of child population falling in each range of sex ratio in the district. The maximum numbers of 285 villages fall in the sex ratio range of 1,100 and more but the proportion of child population in this range is comparatively less. The minimum number of 80 villages fall in the sex ratio range of 700-749 having child population of 4.1 per cent in the district. The maximum child population of 17.8 per cent in the district is registered in the sex ratio range of 850-899 accounting for 11.9 per cent of villages.

UA = Urban Agglomeration

Table 13 gives information regarding population in age group 0-6 years as well as sex ratio in the urban areas of the district. Total urban child population of the district is 192,411 persons comprising 104,914 males and 87,497 females. Sex ratio in the district for urban areas as a whole is 834. Among UA/Towns the highest sex ratio of 1,128 is in Vaghodia INA and the lowest of 726 is in Petro Chemical Complex INA.

| | | **Urban** | **1,646,222** | **109,989** | **79,108** | **6.7** | **4.8** |

Table 14 shows the distribution of Scheduled Castes and Scheduled Tribes with their percentage distribution to total population at taluka level with rural and urban areas of the district. It can be seen that out of total district population of 3,641,802 as many as 5.6 per cent belongs to Scheduled Castes and 26.6 per cent belongs to Scheduled Tribes. The percentage of Scheduled Castes population constitutes 4.7 per cent in rural areas and 6.7 per cent in urban areas in the district. The highest percentage of Scheduled Castes population is recorded in Sinor taluka (7.5 per cent) while the lowest is in Nasvadi (1.3 per cent). The proportions of Scheduled Tribes population are 44.5 and 4.8 per cent in rural and urban areas respectively. The highest Scheduled Tribes population in the district is mainly concentrated in Kavant (92.5 per cent) while the lowest of 3.3 per cent Scheduled Tribes is recorded in Padra taluka.

**TABLE 15**

**NUMBER AND PERCENTAGE OF SCHEDULED CASTES AND SCHEDULED TRIBES POPULATION IN TALUKAS/C.D.BLOCKS, 2001**

| Sl. No. | Name of Taluka / C.D. Block | Total Population | Total Scheduled Castes Population | Total Scheduled Tribes Population | Percentage of Scheduled Castes Population to Total Population | Percentage of Scheduled Tribes Population to Total Population |
|---|---|---|---|---|---|---|
| 1 | 2 | 3 | 4 | 5 | 6 | 7 |

| 12 | Sinor | 69,094 | 5,185 | 25,020 | 7.5 | 36.2 |
| | **District (Rural) Total:** | **1,995,580** | **94,296** | **888,285** | **4.7** | **44.5** |

Table 15 gives the detail about the talukawise distribution of Scheduled Castes and Scheduled Tribes population for rural areas of the district. Out of the rural population of the district, 4.7 per cent population is recorded as Scheduled Castes and 44.5 per cent as Scheduled Tribes. The highest Proportion of 7.5 per cent of Scheduled Castes population is recorded in Sinor taluka and the lowest of 1.3 per cent in Nasvadi taluka. In case of Scheduled Tribes population, the highest Scheduled Tribes population is recorded in Chhota Udaipur taluka with 94.6 per cent and the lowest of 3.5 per cent in Padra taluka.

**TABLE 16**

**PROPORTION OF SCHEDULED CASTES POPULATION TO TOTAL POPULATION IN VILLAGES, 2001**

| Percentage Range of Scheduled Castes Population to Total Population | Number of Villages | Percentage | Scheduled Castes Population | Percentage |
|---|---|---|---|---|
| 1 | 2 | 3 | 4 | 5 |
| Nil | 610 | 39.4 | 0 | 0.0 |
| Less than 5 | 507 | 32.8 | 19,313 | 20.5 |
| 5-10 | 293 | 18.9 | 45,758 | 48.5 |
| 11-20 | 124 | 8.0 | 25,305 | 26.8 |
| 21-30 | 11 | 0.7 | 2,725 | 2.9 |
| 31-40 | 0 | 0.0 | 0 | 0.0 |
| 41-50 | 3 | 0.2 | 1,195 | 1.3 |
| 51-75 | 0 | 0.0 | 0 | 0.0 |
| 76 and above | 0 | 0.0 | 0 | 0.0 |
| **District Total** | **1,548** | **100.0** | **94,296** | **100.0** |

Table 16 gives the details about the number of villages according to the proportion of Scheduled Castes population to their total population in 9 different ranges of percentage at district level. As many as 610 villages accounted for 39.4 per cent of total villages in the district do not have any Scheduled Castes population. The proportion of Scheduled Castes population is less than 5 per cent in 507 villages (32.8 per cent). For 293 villages percentage range of Scheduled Castes is 5 to 10 while the next range of 11-20 per cent have 124 villages (8.0 per cent), 0.7 per cent of the villages are having the population of Scheduled Castes in percentage range of 21-30, while in each of the percentage range of 31-40, 51-75 and 76 and above no village is there. There are only 3 villages having Scheduled Castes population in their percentage range of 41-50, which covers the minimum of 1.3 per cent of the Scheduled Castes population.

**TABLE 17**

**PROPORTION OF SCHEDULED TRIBES POPULATION TO TOTAL POPULATION IN VILLAGES, 2001**

| Percentage Range of Scheduled Tribes Population to Total Population | Number of Villages | Percentage | Scheduled Tribes Population | Percentage |
|---|---|---|---|---|
| 1 | 2 | 3 | 4 | 5 |
| Nil | 82 | 5.3 | 0 | 0.0 |
| Less than 5 | 92 | 5.9 | 4,361 | 0.5 |
| 5-10 | 69 | 4.5 | 11,542 | 1.3 |
| 11-20 | 117 | 7.6 | 28,903 | 3.3 |
| 21-30 | 145 | 9.4 | 48,770 | 5.5 |
| 31-40 | 107 | 6.9 | 61,004 | 6.9 |
| 41-50 | 118 | 7.6 | 59,316 | 6.7 |
| 51-75 | 149 | 9.6 | 95,720 | 10.8 |
| 76 and above | 669 | 43.2 | 578,669 | 65.1 |
| **District Total** | **1,548** | **100.0** | **888,285** | **100.0** |

Table 17 gives the detail about the number of villages according to the proportion of Scheduled Tribes population to their total population in 9 different percentage ranges at district level. It is significant that 82 villages constituting 5.3 per cent of total villages in the district do not have any population of Scheduled Tribes. As many as 92 villages accounted for 5.9 per cent of the villages are having Scheduled Tribes population of less than 5 per cent while 69 villages (4.5 per cent) have Scheduled Tribes population in the percentage range of 5-10 per cent. Percentage ranges of 11-20, 21-30, 31-40 and 41-50 for Scheduled Tribes population to total population have 117,145,107 and 118 villages respectively. Significantly it is seen that maximum of 669 villages (43.2 per cent) are having 76 per cent or more Scheduled Tribes population and it covers the maximum population of 65.1 per cent.

UA = Urban Agglomeration

Table 18 gives the distribution of Scheduled Castes and Scheduled Tribes population as well as their percentage to total population at UA / towns as per 2001 Census. Of 1,646,222 populations of UA/Towns of the district, 6.7 per cent population belongs to the Scheduled Castes and 4.8 per cent to Scheduled Tribes. The highest proportion of 19.6 per cent of Scheduled Castes population is recorded in Bajwa (CT) and the lowest of 0.8 per cent in Nandesari INA (INA). At UA/towns level, the highest Scheduled Tribes population of 24.4 per cent is recorded in Chhota Udaipur (M) and the lowest of 0.4 per cent is recorded in Nandesari (CT).

**TABLE 19**

**SEX RATIO AMONG SCHEDULED CASTES AND SCHEDULED TRIBES IN TALUKAS / C. D. BLOCKS, 2001**

| Sl. No. | Name of Taluka / C. D. Block | Scheduled Castes Sex Ratio | Scheduled Tribes Sex Ratio |
|---|---|---|---|

| 11 | Karjan | 929 | 919 |
| 12 | Sinor | 925 | 912 |
| | **District (Rural) Total** | **921** | **956** |

Table 19 shows talukawise sex ratio among Scheduled Castes and Scheduled Tribes for rural areas in the district. The sex ratio for Scheduled Castes is 921 in the district. Among talukas, the highest sex ratio for Scheduled Castes 974 is found in Vaghodia taluka and the lowest of 890 is found in two talukas viz. Savli and Kavant. So far as Scheduled Tribes population is concerned for the district as a whole it is 956. The highest sex ratio of 992 for Scheduled Tribes is recorded in Chhota Udaipur taluka and the lowest sex ratio of 889 is recorded in Padra taluka.

UA = Urban Agglomeration

Table.20 shows sex ratio among Scheduled Castes and Scheduled Tribes in Urban Agglomerations/Towns of the district. In urban area, sex ratio of Scheduled Castes is 916 for the district. Table shows that the highest sex ratio of 1,055 for Scheduled Castes is recorded in GSFC Complex INA (INA) and the lowest of 878 is in Bajwa (CT). The same for Scheduled Tribes for the district is 889. The highest sex ratio of 1,067 for Scheduled Tribes population is recorded in Nandesari INA (INA) and the lowest of 809 in GSFC Complex INA (INA).

Table 21 shows talukawise literacy rates with the absolute number of literates and illiterates for the district in rural and urban areas separately. As per 2001 Census, the proportion of effective literates to total population is 70.8 per cent in the district, while this proportion in rural area is 57.6 per cent against 86.1 per cent in urban areas. In the district the literacy rates of males is 80 per cent which is higher than that of females of 60.7 per cent. Among the talukas Vadodara tops with 85.1 per cent literates (also higher than the district literacy rate) followed by Padra with 72.7 per cent. Chhota Udaipur taluka shows the lowest literacy rate of 30.6 per cent in the district. The gap between male and female literacy is 19.3 percentage points in the district as a whole. The same at taluka level is the highest for Jetpur Pavi with 31.3 percentage points. Such gap in urban literacy is significantly low of 11.1 percentage points as compared to rural areas having a gap of 26.2 percentage points between literacy rates of males and females.

UA = Urban Agglomeration

Table 24 shows the absolute number of literates and illiterates along with literacy rates in urban areas of UA/Town level in the district. As much as 86.1 per cent of the urban population in the district is literate. 91.4 per cent of male population is literate while corresponding figure for females is 80.3 per cent. Vadodara UA shows the highest literacy rate of 86.8 per cent. A gap of 11.1 percentage points between literacy rate of males and females in the urban areas of the district has been observed in 2001 Census. The lowest rate of 74.9 per cent is seen in Vaghodia INA.

*Towns having outgrowths.

Table 30 gives the details about number and percentage of Scheduled Tribes literate, illiterates and the literacy rates by sex of towns in the district. 59.4 per cent of the total urban population excluding the age group of 0-6 years is literate in the district. The corresponding proportion of male and female literates comes to 69.5 and 48 per cent respectively which shows a wide gap of 21.6 percentage points in male and female literacy. One of the biggest towns Vadodara (M.Corp.) has the literacy rate of 60.7 per cent. Though the towns of Nandesri (CT), Petro Chemical complex INA, Jawaharnagar (Gujarat Refinery-CT) have the literacy rate more than 80 percent for Scheduled Tribes. These towns are having population less than 10,000. The lowest literacy rate of 42.6 per cent is recorded in Ranoli (CT).

Table 32 gives talukawise absolute number and percentage of main workers, marginal workers and non workers by sex for rural population of the district. As much as 35 per cent of the population are main workers whereas the marginal workers constitute only 14.5 per cent. The percentage of non worker population is 50.5 per cent. Sex-wise break up shows that participation rate of male and female main workers are 52.1 and 16.6 per cent respectively. Marginal workers participation rates for male and female are 6.6 and 23.1 per cent respectively. The percentage of marginal workers for females is higher than that of males. Similar trend may also be seen at taluka level. The percentage of total rural workers of the district comes to 49.5 per cent. At the taluka level Kavant has the highest proportion of total workers of 57.1 per cent of the total population whereas the lowest percentage of 40.3 per cent is recorded in Vadodara taluka.

UA = Urban Agglomeration

Table 33 shows the absolute number with percentage of main workers, marginal workers and non-workers by sex for urban population at UA/ Town level in the district. Of the total 1,646,222 urban population of the district, 30.6 per cent has been categorized as main workers whereas the marginal workers are only accounted for 1.6 per cent. Remaining 67.8 per cent of the population is reported as non-workers. Sex-wise break up at the district shows that 50.8 per cent males and 8.4 per cent females are main workers. Male and female Marginal workers are accounted for 1.6 per cent and 1.5 per cent respectively.

**TABLE 34**

**Note :** Percentage of Worker to total worker are given in brackets

Table 34 reveals economic activity in the district. From the table it is seen that total workers including main and marginal workers are 41.7 per cent of the total population. As much as 22 per cent of the total workers are engaged in cultivation, 31 per cent in agricultural labourers, 1.5 per cent in household industry and 45.5 in other work. The proportion of cultivators within talukas varies between 2.8 per cent (Vadodara) to 56.7 per cent in (Kavant). The female cultivators are 20.5 per cent which is lower than the female agriculture labourers of 52 per cent. The percentage of household industry workers is comparatively very low in the district. In household industry proportion of female workers is more than male workers. As far as other work is concerned maximum workers of 45.5 per cent are engaged in other work in comparison to other economic activities. It may also be seen that maximum of male workers (54.1 per cent) and female workers (25.5 per cent) are engaged in other work in comparison to other economic activities.

**Note :** Percentage of Worker to total workers are given in brackets.

Table 35 gives talukawise distribution of workers by sex in four categories of economic activity in rural areas of the district. The table reveals that total workers are 49.5 per cent of total population. Among workers, share of cultivators is 33.4 per cent. Agricultural labourers contribute 46.6 per cent. The household industry workers' contribution is 1.4 per cent while contribution of other workers' is 18.6 per cent in the rural areas of the district. Agricultural sector plays a major role in providing employment to the working force for the rural population. The percentage of workers in household industries is remarkably low in rural areas as reflected from the data. Thus, working force has to depend on agriculture sector in rural areas. Percentage of male workers in cultivation is higher than that of female, which is reverse in case of Agriculture labourers. A considerable difference between the percentage of cultivators and other workers throughout all the talukas in the district may be seen from the table.

UA = Urban Agglomeration

Table 36 gives the distribution of workers by sex in four categories of economic activity in urban areas of the district. In the urban areas of the district total workers (total of Main and Marginal workers) constitute 32.2 per cent of the total population. Of these workers, cultivators constitute 0.8 per cent, agricultural labourers 2.1 per cent, household industry workers 1.6 per cent and the rest 95.5 per cent is other workers. The other works being commercially viable play a major role in providing employment to the working force in urban areas population. Female Participation in cultivation is 0.6 per cent while the same for agicultural labourers is 5.6 per cent. In household industry the participation rate of male is lower than female participants, however it is reverse in case of other workers.

**Note :** Percentage are given in brackets.

* Based on the improved drinking water source, drinking water supply has been classified as 'Improved ' or otherwise. If the household has access to drinking water supplied from a tap or a hand pump / tube well situated within or outside the premises it is considered as having access to 'Improved drinking water source' However, the concept of improved drinking water is state specific and this is to be considered accordingly.

# Post office includes Post office, telegraph office and Post and telegraph office.

$ Transport communication includes bus service, rail facility and navigable waterways.

Table 37 given above shows talukawise distribution of villages according to the availability of different amenities such as education, medical, improved drinking water, post office, telephone, transport communication, banks, agricultural credit societies, approach to village by pucca roads and power supply. Out of 1,548 inhabited villages in the district, 1,490 (96.3 per cent) villages are having at least some educational facility in the village. Medical facilities of one kind or other are available in 1,254 (81.0 per cent) villages of the total inhabited villages. Out of 1,548 villages only 39 inhabited villages do not avail the drinking water facility. As many as 660 villages are equipped with the facilities of post and telegraph. Telephone facility has reached to about 640 (41.3 per cent) villages in the district. Out of 1,548 villages, 72.4 per cent of villages (1120) are well connected with one or more types of transport facility. Agricultural Credit Societies are available in 760 villages. Only 97 villages have banking facility. As much as 1,134 villages are linked by pucca roads. So far as power supply is concerned only 16 villages out of 1,548 villages do not have facility of power supply.

Considering talukawise availability of these amenities, it is interesting to observe that in Chhota Udaipur taluka out of 144 villages only one village has no educational facility. In Vaghodia and Padra talukas of the district only one village in each taluka has no medical facility. In Padra and Sinor talukas, all the villages avail the transport facility. So far as power supply is concerned except Nasvadi taluka all the talukas are 100 per cent electrified.

**Note :** Percentage are given in brackets.

* Based on the improved drinking water source, drinking water supply has been classified as 'Improved ' or otherwise. If the household has access to drinking water supplied from a tap or a hand pump / tube well situated within or outside the premises it is considered as having access to 'Improved drinking water source'. However, the concept of improved drinking water is state specific and this is to be considered accordingly.

# Post office includes Post office, telegraph office and Post and telegraph office.

$ Transport communication includes bus service, rail facility and navigable waterways.

Table 38 gives the information regarding number and percentage of rural population served by different amenities. Out of total population of 1,995,580 persons in the district 99.5 per cent rural population have educational facility of one or other type. Similarly 1,773,706 (88.9 per cent) persons have medical facilities while 98.8 per cent have the facility of improved drinking water. Post office facility is available to 1,371,525 (68.7 per cent) persons. Telephone facility is available to 62.7 per cent population. Transport communication facility is available to 87.3 per cent population Banking facility is available to only 21.8 per cent population. As much as 66.2 per cent of population avail the facility of Agricultural credit societies. So far as Pucca road is concerned, 87.6 per cent population enjoys this facility. Power supply is available to 1,991,087 persons which accounts for 99.8 per cent of the population.

**TABLE 39**

**DISTRIBUTION OF VILLAGES NOT HAVING CERTAIN AMENITIES, ARRANGED BY DISTANCE RANGES FROM THE PLACES WHERE THESE ARE AVAILABLE, 2001**

| Village not having the Amenity of | Distance Range of Place from the Villages where the Amenity is available | | | |
|---|---|---|---|---|
| | Less than 5 Kilometres | 5-10 Kilometres | 10+ Kilometres | Total (Col. 2 - 4) |

| (b) Co-operative Bank | 425 | 363 | 733 | 1,521 |
| 7. Agricultural Credit Societies | 505 | 110 | 173 | 788 |

**Note** : * In Gujarat State the levels of education are classified as under
(i) Primary School (From Std. I to VII passed)
(ii) Secondary/Matriculation (From Std. VIII to X passed)
(iii) Higher Secondary (From Std. XI to XII passed). Hence details under 1(b) are not shown

Table 39 shows that only 54 villages of the district are having the facilities of basic primary education within a radius of 5 km. and 177 villages have college facility available within a distance of less than 5 km. The persons of 1,095 villages have to travel 10 km. or more for availing the hospital facility. Facilities of PHC is available to 407 villages at the distance of 10 km. or more. 266 villages avail the telephone facilities at a distance of 10 km. or more. 41 villages are having the facility of bus service within the distance of 5 to 10 km.

Percentages are given in brackets.

The Table 40 shows number of villages distributed according to four ranges of the distance from the nearest statutory town along with number of villages and availability of different amenities. Out of 1,548 inhabited villages, 59 villages are situated in the distance range of 5 km or less from the nearest statutory town. Out of these 59 villages, 57 villages are having educational facility, 53 villages having medical, 45 villages having telephone facility, 52 villages having transport communication, 41 villages having agricultural credit societies, 53 villages having pucca roads and only 8 villages are having banking facility. The highest number of villages 1,042 are having their nearest statutory towns within the distance of 16 to 50 km. From these 1,042 villages 997 villages (95.7 per cent) have education facility, 843 villages are enjoying medical facility, 732 villages avail the facility of transport communication and 718 villages are having facility of pucca road. Except the banking facility the remaining facilities are enjoyed by more than 60 per cent of the 410 villages which are situated from the statutory towns in the distance range of 5-15 km. 37 villages have statutory towns at a distance of 51 km. or more and one of these 37 villages only education facility is available in 31 villages while the other facilities are available in less than 50 per cent of the villages.

**TABLE 41**

**DISTRIBUTION OF VILLAGES ACCORDING TO POPULATION RANGE AND AMENITIES AVAILABLE, 2001**

| Population Range | Number of Inhabited Villages in each Range | Type of Amenities available | | | | | | | | | |
|---|---|---|---|---|---|---|---|---|---|---|---|

**Note :** # Post office includes Post office, telegraph office and Post and telegraph office.
$ Transport communication includes bus service, rail facility and navigable waterways
* Based on the improved drinking water source, drinking water supply has been classified as 'Improved ' or otherwise. If the household has access to drinking water supplied from a tap or a hand pump / tube well situated within or outside the premises it is considered as having access to 'Improved drinking water source' However, the concept of improved drinking water is state specific and this is to be considered accordingly.
Percentages are given in brackets.

Table 41 reveals the distribution of villages according to different population ranges and amenities available. Villages having population either 10,000 or more enjoy all the facilities. Out of 45 villages having the population range of 5,000 - 9,999 all the facilities shown in the table are available in each village except facilities of the Post Office, Telephone, Banks and Agricultural Credit Societies. 188 villages are having the population range of 2,000-4,999. Out of these villages only 23.4 per cent villages are enjoying the banking facility though cent per cent villages are having educational facility and power supply. There are only 5 villages having the population of 10,000 and more. Except the facility of agricultural society, all villages are enjoying the facility of education, medical, improved drinking water, post office, telephone, transport communication, banks, approach by pucca road and power supply.

**TABLE 42**

**DISTRIBUTION OF VILLAGES ACCORDING TO LAND USE, 2001**

| Sl. No. | Name of Taluka/ C. D. Block | Number of Inhabited Villages | Total Area (in Hectares) | Percentage of Cultivable Area to Total Area | Percentage of Irrigated Area to Total Cultivable Area |
|---|---|---|---|---|---|
| 1 | 2 | 3 | 4 | 5 | 6 |
| 1 | Savli | 137 | 79,199.7 | 77.3 | 27.8 |
| 2 | Vadodara | 91 | 47,955.1 | 82.4 | 46.1 |
| 3 | Vaghodia | 95 | 55,838.3 | 74 | 12.7 |
| 4 | Jetpur Pavi | 212 | 80,265.9 | 65 | 34.2 |
| 5 | Chhota Udaipur | 144 | 76,144.6 | 47.5 | 17.3 |
| 6 | Kavant | 133 | 60,776.2 | 55.9 | 14.8 |
| 7 | Nasvadi | 217 | 53,333.5 | 57.7 | 16.1 |
| 8 | Sankheda | 185 | 71,113.9 | 76.7 | 28.3 |
| 9 | Dabhoi | 118 | 60,837.0 | 83.9 | 36.7 |
| 10 | Padra | 82 | 52,189.6 | 77.4 | 53.3 |
| 11 | Karjan | 93 | 58,616.3 | 86.1 | 51.4 |
| 12 | Sinor | 41 | 29,251.5 | 82.1 | 80.2 |
| | **District Total:** | **1,548** | **725,521.6** | **71.1** | **34** |

**Note :** Cultivable area = irrigated area + unirrigated area

Table 42 gives talukawise information of total area, area cultivable and irrigated area in the district. Cultivated area includes irrigated as well as unirrigated area. There are 1,548 inhabited villages in the district having a total area of 725,521.6 hectares. Of this, 71.1 per cent is cultivable and 34 per cent of this total cultivable area is irrigated. Looking to the land use pattern at taluka level, it shows that in the total area of Karjan taluka 86.1 per cent area is cultivable being the highest percentage among the cultivable land. Next to it is Dabhoi taluka where cultivable area is 83.9 per cent followed by Vadodara taluka (82.4 per cent). Chhota Udaipur has the lowest cultivable area having only 47.5 per cent. Considering the irrigated area from the cultivable land, it is observed that Sinor taluka has the maximum area of 80.2 per cent whereas Kavant taluka has the minimum of 14.8 per cent irrigated land.

* Towns having outgrowths

Table 43 shows per capita receipt and expenditure in statutory towns of the district. The per capita receipt in district is Rs. 1,293.4 received from Taxes and from other sources. The per capita expenditure in the district is Rs. 1,329.9. This expenditure is incurred on general administration, public health, public works, public institutions and other items. It can be seen that the highest per capita expenditure is on general administration, followed by public works. Out of total expenditure, a receipt of 7.9 per cent expenditure has been incurred on public institution.

* Towns having outgrowths

**Note :** In Gujarat State, the levels of education are classified as under
(i) Primary School (From Std. I to VII passed)
(ii) Secondary/Matriculation (From Std. VIII to X passed)
(iii) Higher Secondary (From Std. XI to XII passed). Hence, details under Col.4.are not shown

Table 44 shows the availability of schools/ colleges per 10,000 population in statutory towns. The data reveals that in urban areas of the district, number of primary schools per 10,000 populations is 2. In case of secondary/matriculation, number of available institutes are 2.5 (more than primary). Number of Senior Secondary is only 1.1 and number of college is only 0.1 per 10,000 population. Townwise comparison shows that number of institutes per 10,000 population from primary to senior secondary educations are maximum in GSFC Complex INA (INA).

*Towns having outgrowths.

Table 45 gives number of beds in medical institutions per 10,000 populations in each town of the district. There are 38 beds per 10,000 populations in urban areas of the district. The highest of 171 beds per 10,000 population is available in GSFC Complex INA (INA) followed by 122 in Bodeli (CT). Vadodara (M. Corp.) has only 39 beds in medical institutions per 10,000 population.

**TABLE 46**

**PROPORTION OF SLUM POPULATION IN TOWNS, 2001**

| Sl. No. | Name of the Town | Total Population | Slum Population | Percentage of Slum Population to Total Population |
|---|---|---|---|---|
| 1 | 2 | 3 | 4 | 5 |
| 1 | Chhota Udaipur | 23,211 | 9,150 | 39.4 |
| 2 | Dabhoi | 54,952 | 1,800 | 3.3 |
| 3 | Karjan | 26,358 | 11,930 | 45.3 |
| 4 | Padra | 39,205 | 6,155 | 15.7 |
| 5 | Vadodara | 1,411,228 | 265,422 | 18.8 |
| | **District Total** | **1,554,954** | **294,457** | **18.9** |

Table 46 gives the information regarding the proportion of slum population in towns of the district. It reveals that only 5 towns in the district have slum population. The maximum slum population of 45.3 per cent of the total population is reported in Karjan followed by 39.4 per cent in Chhota Udaipur. The minimum of 3.3 per cent slum population is reported in Dabhoi town. 18.9 per cent slum population is registered in the district as a whole.

*Towns having outgrowths.

Table 47 shows the most important commodities manufactured and exported out of the each town in the district. In the district two important industries viz. GSFC and IPCL are registered near Vadodara town. So fertilizers and petroleum products are two main items produced and exported. Golden and silver ornaments are manufactured in Vadodara. Nandesari is an industrial notified area (INA) where chemical, plastic product, engineering goods for chemical production are manufactured and these are also exported out. Main productions of the district are plastic chemical, electrics motor, medicine, glass ware and ceramic, corrugated boxes etc. and these products are also exported out of from the district.

**Source:** Census of India 2001, H- series: "Tables on Houses, Household Amenities and Assets."

Table 48 gives information regarding number of households by tenure status and number of rooms occupied in the district. The total number of households in the district is 733,109. Out of these, 388,736 households are living in rural areas and 344,373 households in urban areas. Out of total households, numbers of households belonging to Scheduled Castes and Scheduled Tribes are 54,700 and 190,898 respectively.

Considering tenureship of the dwellings which they occupy, it is observed that out of the total households of the district 86.5 per cent households are living in their own houses, 10.3 per cent living in rented houses and rest 3.2 per cent households are living in other houses. Of these households, households living in one room are about 48 per cent. Households having two rooms accommodation are 30 per cent. Three room accommodations are occupied by 13 per cent. More than 3 room accommodations are enjoyed by 8 per cent of the households.

In case of Scheduled Castes and Scheduled Tribes households living in own house are 85.2 and 92.6 per cent of total households of Scheduled Castes and Scheduled Tribes respectively.

**Source** : Census of India 2001, H - series : "Tables on Houses, Household amenities and Assets."

**Note :** Permanent : Permanent houses refers to those houses whose wall & roofs are made of pucca materials i.e., where, burnt bricks, G.I. Sheets or other metal sheets, stone cement concrete is used for wall and tiles slate, shingle, corrugated iron, zinc or other metal sheets asbestos sheets, bricks, lime and stone and RBC/RCC concrete are used for roof.

Semi permanent : Semi-permanent houses refer to those houses made of other types of materials

Temporary : Temporary houses refers to those houses having wall and roofs made of Kachcha materials i.e. where grass, leaves, mud, unburnt bricks, wood etc. are used for reeds, bamboo mud, unburnt bricks are used for the construction of walls and grass, leaves reeds, bamboo hatch.

Table 49 gives percentage distribution of households living in permanent, semi-permanent and temporary houses in the district. As high as 64.1 per cent of households of the district are living in houses made of pucca materials. 28.9 per cent of households are living in semi-permanent nature whereas houses of 6.9 per cent households are made of temporary materials. Percentages of households of rural and urban area, living in the houses of permanent nature are 43.2 and 87.7 respectively. It is obvious that percentage of households living in temporary houses in rural areas is more as compared to the temporary dwelling in urban areas.

**Source :** Census of India 2001, H- series: "Tables on Houses, Household amenities and Assets."

* Based on the improved drinking water source, drinking water supply has been classified as 'Improved ' or otherwise. If the household has access to drinking water supplied from a tap or hand pump/tube well situated within or outside the premises it is considered as having access to `Improved drinking water source'. However, the concept of improved drinking water is state specific and this is to be considered accordingly.

**Note :** @ Bathroom means bathroom within the house
$ Toilet means toilet within the house
# Drainage means closed and open drainage
Percentages are given in brackets.

Table 50 shows number and percentage of households having facilities of Improved Drinking Water, Electricity, Bathroom, Toilet and Drainage in the district. The table reveals that 92.6 per cent households in the district have been provided with drinking water supplied either from a tap or a hand pump/tube-well. 78.1 per cent households have the provision of electricity in their houses. The bath-room facility is available to only 56.5 per cent house-holds within their premises. The toilet and drainage facilities are available to 53.1 and 44.1 per cent households respectively. Considering these availabili-ties in rural and urban area, the availabilities of bath-room, toilet and drainage in the premises in rural area is remarkably lower than the urban area. In urban area more than 80 per cent households have these facilities. It is remarkable that in rural areas of the district about 87.4 per cent households have access of improved drinking water. Among talukas, in Chhota Udaipur taluka 77.2 percent households have improved drinking water facility, which is the lowest one. As high as 98.1 per cent households of Sinor taluka have this facility being highest at the taluka level in the district. The highest percentage of households having electricity in the premises is 91.8 in Vadodara taluka. In case of facilities like bathroom, toilet and drainage Vadodara taluka tops among the all the talukas of the district.

**Source :** Census of India 2001, H- series: "Tables on Houses, Household Amenities and Assets."

Table 51 gives the percentage distribution of households by type of fuel used for cooking purposes. There are nine types of fuel used for which data is presented in this table. It is observed that fire wood is the dominant fuel used for cooking and it is used by 37.9 per cent households. 37.2 per cent households use cooking gas while kerosene is used by 11.5 per cent and crop residue by 10.9 per cent. The remaining fuels as shown in the table are used only by about 3 per cent. In rural areas of the district, fire wood and crop residues are the two main fuels used and these percentages are 64.0 and 19.5 respectively. Kerosene is used by 4.7 per cent only. In urban area cooking gas is the prime fuel as 68.8 per cent households use cooking gas. Next to gas is kerosene (19.3 per cent) and then comes fire wood (8.4 per cent). At taluka level also more or less the same pattern is observed.

**Source :** Census of India 2001, H- series: "Tables on Houses, Household Amenities and Assets."

Table 52 gives number of households availing banking services and number of households having possession of assets such as radio/transistor, telephone, bicycle, scooter and car etc. There are 733,109 households in the district. 45.1 per cent households are availing banking services while 32.3 per cent have radio/transistor. Television is possessed by 42.9 per cent households. Telephone is available in only 16 per cent households. Bicycle is available to 46.9 per cent households. Two wheeler i.e. either Scooter or motorcycle or moped is possessed by 27.6 per cent and car/ jeep/van is used by 4.8 per cent of households. In rural areas about 50 per cent of households do not have any of the specified assets as shown in the table while urban areas of the district 11.5 per cent households do not have any of the such specified assets.

**(viii) Major social and cultural events natural and administrative developments and significant activities during decade.**

Festivals like Navratri, Vadodara is the most sought after destination as the cultural extravaganza is at its peak. In fact, the city's cosmopolitan nature has made Navratri more enjoyable and colourful. Many sites in Vadodara with *Ras-Garba* are organized and have become famous.The Government of Gujarat had reconstituted Vadodara District. In 1991 Census. Tilawada was a taluka of Vadodara distirct by notification No. GHM-97-81-M-PFR-1097-15 dated 24-10-1997. Tilakwada taluka was included as a taluka in Narmada district and was omitted from Vadodara district.

By Government resolution No. PFR-2497-2586-1 dated 15-10-1997 Kavant taluka was created by separating it from Chhota Udaipur taluka and Kavant taluka was included as a taluka in Vadodara district under the Goverment Notification No. GHM-97-113-M-PFR-2497-2586-1 dated 15-10-1997.

**(ix) Brief description of places of religious, historical or archaeological importance invillages and places of tourist interest in the town of the district :**

**Name of Taluka : Savli**

**Name of Place : Savli**

**Location Code : 01338800**

Savli is the birth place of Shri Mota Maharaj, the well known saint, spiritualist and reformer of Gujarat. There is a beautiful temple of Bhimnath Mahadev with an impressive entrance. It is an ideal specimen of modern architecture.

**Name of Taluka : Vadodara**

**Name of Place :Vadodara**

**Location Code : 41909000**

(Oil Refinery, Koyali)

(Petro Chemical Complex)

Vadodara was called 'vatpatra'. It was the capital of the princely Gaekwads. It is considered one of the most beautiful picturesque and prominent town of Gujarat. Beautiful palaces, gardens, temples, medieval forts, gracious buildings and museums are in the town. Sakkar khan masjid, a small gate in Motibaug and Bhao Jambekar's bungalow are the protected monuments at Vadodara. Laxmi vilas palace, Navlakhi step well, Bhadra Zarukha are the examples of excellent artchitecture.

**Name of Taluka : Vaghodia**

**Name of Place : Ajava**

There is a big and beautiful lake known as 'Ajava Sarovar'. It supplies the water to Vadodara city. It is also a picnic place and Vadodara Municipal Corporation has developed it as a picnic spot. Lighting decoration made in the garden is worth seeing for the visitors.

**Name of Taluka : Chhota Udaipur**

**Name of Place : Rangpur**

**Location Code : 01394200**

It is well known because of the Anand Niketan Ashram, a voluntary organization working for Adivasi people of the surrounding area.

**Name of Taluka : Kavant**

**Name of Place : Kavant**

**Location Code : 01407000**

The fluorspar project of the Gujarat Mineral Development Corporation is situated here. The pottery work of the village is famous.

**Name of Taluka : Sankheda**

**Name of Place : Sankheda**

**Location Code : 01442300**

(Lacquer work on wooden)

The village is situated on the confluence of two rivers. Perhaps the name Sankheda may be derived due to this reason. It is famous for its age old handicraft of lacquer work on wooden articles and furniture. The colour and polish of the furniture are fast and fascinating and last long without fading. This craft has achieved an international reputation. The existence of five temples dedicated to the five pandvas indicates that the pandavas perhaps visited this place. There are two stone inscriptions indicating its historical importance.

**Name of Taluka : Sankheda**

**Name of Place : Chhuchhapura**

**Location Code : 01440500**

Attractive marble known as Motipura marble of green colour is found here. On the death anniversary of Khvaja Jald Navaz (Utavalipir), a muslim saint an urs is held here.

**Name of Taluka : Dabhoi**

**Name of Place :Dabhoi**

**Location Code : 41914000**

(Hira Bhagol)

An ancient town originally was known as Darbhavati. It is believed that this town have been established in sixth century A.D. During the reign of king Siddhraj of Patan the town flourished. The foundation of the fort of Dabhoi is ascribed to him. (A.D. 1093-1142).

**Name of Taluka : Dabhoi**

**Name of Place : Kayavarohan**

**Location Code : 01462700**

This is a holy place of very ancient origin. It has an ancient temple of Ranchhodji with a stone inscription dated samvat 1358. The idol of Shiva (Raj Rajeshwar) is unusual. It is in human shape along with a ling and is made of black touch stone. It is called *'Mukhling'*.

**Name of Taluka : Dabhoi**

**Name of Place : Chandod**

**Location Code : 01464400**

(Malhar Rao Ghat, Chandod)

A place of great sanctity due to the confluence of Narmada, Orsang and Saraswati. People come here to perform *Pitru Shradhha*. There is a number of temples and a *Vaishnav bethak*. Kapileshwar Mahadev temple is believed to be of great antiquity and has interesting wall paintings. A fair is held on *Chaitra Sud 15*.

**Name of Taluka : Karjan**
**Name of Place : Lilod (Nareshwar)**
**Location Code : 01481500**

(Ashram of Saint Rang Avadhoot)

Nareshwar is known for the Ashram of the famous saint Rang Avadhoot, who had come here in 1925 and established an Ashram. Besides, there are *Avdhoot Gufa, Rang Mandir, Datta Padukas, Anushthan Mandir* etc. There is a holy tree of neem, having sweet leaves. It is said that Rang Avdhoot has performed *Tapa* here.

**Name of Taluka : Sinor**
**Name of Place : Sinor**
**Location Code : 01485900**

It is situated on the bank of river Narmada. It is a beauty spot. It is known for good mango trees.

**Name of Taluka : Sinor**
**Name of Place : Barkal**
**Location Code : 01486300**

It is believed that Bhim one of the five pandav brothers, killed the demon Barkasur. Hence, the name of this place is Barkal. The island in the Narmada is known as Vyas Bet, on which sage Vyas, author of Shrimad Bhagvat carried out his penance in the vicinity. There is a temple dedicated to Vyas Muni.

## (X) Major characteristics of the district, contribution of the district in the form of any historical figure associated with the district

Vadodara district is endowed with economic resources, viz. agricultural land and industries. The district has no sea coast line and has not considerable activities of fresh and dry fishes. In the district many industries have been established either by Government or by Private Sector. Among them the most important industries are Indian Petro Chemicals Limited (IPCL), Gujarat State Fertilizers Company (G.S.F.C.), Gujarat Refinery, Sarabhai Chemicals, Alembic Chemicals and glass factory and Heavy Water Project of the Atomic Energy Commission. These industries are important from the point of employment in the district. The forest area of Vadodara is found only in hillock. The main products of these forests are *timber, seasum wood and fire wood, mahudo, amala, aritha etc.*

The ancient town of Vadodara was called 'Vatpatra'. It was the capital of the princely Gaekwads. It is considered as one of the most beautiful picturesque and prominent town of Gujarat.

**Shri Mota (1898-1976)**

Shri Mota was never a traditional saint clad in reddish gray dress. He neither left his family nor remained silent after reaching a stage of spiritual achievement. He plunged into manifold welfare activities helping the human brethren.

He was born at Savli in Vadodara district to mother Surajba and father Asharam Bhavsar. His father was in the profession of dyeing and was a known devotee. Shri Mota, Chunilal was brought up in poor condition.

Those were the days of Indian Freedom Movement. He heard the call given by Gandhiji to all countrymen and he joined the mission of serving the Harijans.

Gradually he came in contact with some saints and great personalities. He turned towards spiritualism and attained many heights in that field. He established his Ashrams and silent temples (Maun Mandir) at Kumbhkonam on the bank of river Cauveri, on the bank of Tapti at Surat and on the bank of Shedhi at Nadiad.

Shri Mota donated lakhs of rupees to encourage the youth in sports, in organizing events like cycling and mountaineering, in conducting adventurous programmes, in allotting prize to scientists, in constructing rooms for schools and in publishing 'Gnan Gangotri' series.

**Shri (late) Ramanlal Vasantlal Desai (1892-1954)**

Eminent writer and a major literary figure, Late shri Ramanlal Vasantlal Desai was born in Pachmahal district, but grown up and educated in Vadodara. He served the erstwhile Baroda state till his retirement. His first work was a play. Though play writing remained a passion throughout his life, his popularity as a writer rests more on his novels. He can be bracketed with late shri K.M. Munshi, though in style, theme and approach there was not so common between them. It was he, who as a novelist introduced several contemporary problems of life in his novels. 'Bharelo Agni', 'kokila', 'Hridaynath', 'Divyachakshu' are some of his famous novels. He wrote two elaborate treatises like 'Apsara' and 'Pralay'. He also wrote poetry, drama, novel, short stories, biography and criticism. He left the world in 1954.

**(xi) Scope of Village Directory and Town Directory :**

As mentioned earlier, the District Census Handbook is brought out in two parts-Part A and Part B. Part A covers the non-census data of village directory and town directory whereas part B covers the primary census abstract data of 2001 Census. The scope of village directory and town directory is discussed below.

**Scope of Village Directory :**

For the census work, the villages in the district have been arranged taluka wise and within the taluka they are shown location code wise. Each village is assigned a location code number for the purpose of identification. In 2001 Census, all the villages have been given unique 8-digit code number, which will remain constant across the census, and shall make it easy to do comparative study. Eight digit code's last two digits are especially provided to take into account exigencies arising due to jurisdictional changes of villages by partition, amalgamation etc. This time it has been kept '00'. Prior to the village directory information, a map and alphabetical list of villages for each taluka is given in Part A. Village directory contains the non-census data of each village. It gives the village wise basic information relating to infrastructure and amenities available in the sphere of education, medical, drinking water, power supply, post and telegraph, communications, approach road to village and distribution of land use area. In addition, it contains information about total area of each village, total population and number of households and the nearest town and its distance from the village. The information on number of households and total population has been included with a view to examine the co-relation of amenities with the number of households and population they serve. If an amenity is not in existence in the referent village, the distance in broad ranges from the nearest place along with name, where the amenity is available is given. The broad range are (-5 kms), (5-10 kms.) and (10+ kms.). Some additional information has been added viz.(1) Number of Banks, (2) Credit Societies, (3) recreational and cultural facilities, (4) Receipt of Newspaper / Magazine, (5) Income and Expenditures of the village and (6) Name of the three most important commodities imported, manufactured/ produced & exported. One information has been deleted this time, i.e., Market and Hat facility.

Appendix-I gives talukawise information regarding the facilities like educational, medical, drinking water, post and telegraph, communications, banking facilities and power supply available in the villages. In addition, information about the number of institutions is given talukawise so far as educational and medical institutions are concerned facilities available.

Appendix-I-A Indicates number of villages Taluka wise having one or more primary schools.

Appendix-I-B Indicates number of villages Taluka wise having primary, middle and secondary schools.

Appendix-I-C Shows number of villages Taluka wise with different sources of drinking water facilities.

| | |
|---|---|
| Appendix-II | Taukawise list of villages where six amenities (viz. educational, medical, post and telegraph, banking facility communication and power supply) are not available. |
| Appendix-IIA | Census Towns which do not have one or more amenities. |
| Appendix-III | Land utilization data in respect of non-municipal towns i.e. places considered as towns for census purposes. |
| Appendix-IV | Talukawise list of inhabited villages where no amenity other than drinking water facility is available. |
| Appendix-V | Talukawise number of villages not having Scheduled Castes population. |
| Appendix-VI | Talukawise number of villages not having Scheduled Tribes population. |
| Appendix-VII A, VII-B | Talukawise list of villages according to the proportion of Scheduled Castes and Scheduled Tribes to the total population by various ranges. |
| Appendix-VIII | Talukawise villages under each Gram Panchayat. |
| Appendix-IX | Village wise number of girls schools. |

**Scope of Town Directory**

Town Directory covers the non-census data for each town. It presents important and useful information like civic and other amenities available in all the towns of the district. The information in town directory is covered in following seven statements, viz. statements I to VII.

| | |
|---|---|
| Statement-I | Town wise class, name, civic administrative status of the town, its area, growth rates, density and sex ratio. |
| Statement-II | Physical aspects of each town. |
| Statement-III | Income and expenditure of each town. |
| Statement-IV | Civic and other amenities in respect of each town. |
| Statement-V | Availability of medical, educational, recreational and cultural facilities in each town. |
| Statement-VI | Trade, commerce, industry and banking activities in each town. |
| Statement-VII | Civic and other amenities in slum areas of each town. |

In all the Statements except VII, the towns are arranged in the alphabetical order within the district. The details of these statements are given in the analytical portion of the town directory. In addition to the above statements, an appendix showing the towns with their outgrowths with population, is also given after the town directory statements.

# PART – A

# VILLAGE AND TOWN DIRECTORY

## SECTION - I VILLAGE DIRECTORY

## Section – I Village Directory

### (a) NOTE EXPLAINING THE ABBREVIATIONS USED IN THE VILLAGE DIRECTORY

The "Village Directory" is one of the traditional compilations of the Census. It gives the list of villages, their location numbers, their area, population, number of households, amenities such as educational, medical, drinking water, post and telegraph, commercial and co-operative banks, agricultural non-agricultural and other credit societies, recreational and cultural facilities, communication, approach to village, nearest town with a distance, power supply availability of newspaper and magazines, most important commodity manufactured and land use of each village.

Village is a statutory recognized unit having a definite boundary and separate land records. In case, a complete village is treated as an outgrowth of urban agglomeration, data on amenities for that village have not been given in the Village Directory but shown along with the urban component. The villages which are consider as a Census Town, the amenities data are shown in the Town Directory. For those villages which have partly merged in an outgrowth of U.A., the amenities data are shown in the Village Directory for that particular village.

The 'un-inhabited' villages ( villages with no population) have been indicated as such after furnishing details in columns 1 to 3 i.e., Serial number, Name of village & location code number and area of the village against column no. 4 to 18. The land use data for such villages are shown in col. 19 to 23

.

The Village Directory format has 23 columns and the details given under each column are for the village are as follows:-

**Column 1 : Serial Number**

Self explanatory. All the villages within the Taluka/CD Block are presented serially in the ascending order of their location code number.

**Column 2 : Name and Location Code Number of village.**

The name and location code number of the village are shown against these columns. This also includes the forest and uninhabited villages.

**Column 3 : Area of the village**

The area of the villages in hectares are given. Wherever the area figures was not furnished by the concerned department the column is left blank.

**Column 4 : Total population**

The total population of the village as per 2001 Census is given against this column.

**Column 5 : Number of households**

The number of households as per 2001 Census is given in this column.

**Amenities :**

In column 6 to 23, availability in respect of different amenities such as education, medical, drinking water, post, telegraph, banks, credit societies, communication, power, approach road etc. in each village has been depicted with appropriate codes against the column concerned. Wherever the amenities are not available in the village, a dash (-) is shown in the column and next to it in brackets the distance in broad ranges viz.< 5 kms., 5-10 kms. and 10+ kms of the nearest place where the facility is available is given. Column wise details are given below :

**Column 6 : Educational**

Classes upto class VII included in Primary School. This will include nursery school, kindergarten school. Pre-basic school, pre-primary school, junior basic school upto class VII.

Classes from VIII to X included in Higher secondary school. Classes XI and XII are included in senior secondary school.

Accordingly any of the following types of institutions if exists within the village is shown as per codes given below :

| | | |
|---|---|---|
| (i) | Primary School | P |
| (ii) | Middle School | M* |
| (iii) | Higher Secondary School | S |
| (iv) | Senior Secondary School | PUC |
| (v) | College | C |

| | | |
|---|---|---|
| (vi) | Industrial School | I |
| (vii) | Training School | Tr |
| (viii) | Adult literacy class/centre | AC |
| (ix) | Others (specify) e.g. Sanskrit Pathshala, Senior basic school, Navodaya Vidyalaya, Makhtab, etc. | O |

More than one institution of a type in the village is indicated by the number within brackets against the abbreviation, e.g. P(3), M(4), etc.

Note : * - There is no Middle school in the Gujarat State.

**Column 7 : Medical**

Availability of medical facility within the village is indicated by following codes :

| | | |
|---|---|---|
| (i) | Allopathic Hospital | H |
| | Ayurvedic Hospital | HA |
| | Unani Hospital | HU |
| | Homeopathic Hospital | H Hom |
| (ii) | Allopathic Dispensary | D |
| | Ayurvedic Dispensary | DA |
| | Unani Dispensary | DU |
| | Homeopathic Dispensary | D Hom |
| (iii) | Maternity & Child Welfare | MCW |
| (iv) | Maternity Home | MH |
| (v) | Child Welfare Centre | CWC |
| (vi) | Health Centre | HC |
| (vii) | Primary Health Centre | PHC |
| (viii) | Primary Health Sub-Centre | PHS |
| (ix) | Family Welfare Centre | FWC |
| (x) | T.B. Clinic | TB |
| (xi) | Nursing Home | NH |
| (xii) | Registered Private Medical Practitioner | RMP |
| (xiii) | Subsidised Medical Practitioner | SMP |
| (xiv) | Community Health Worker | CHW |
| (xv) | Others | O |

More than one institution of a type in the village is indicated by the number within brackets against the abbreviations, e.g. H(3), D(4), etc.

**Column 8 : Drinking Water**

The type of the drinking water supply sources available within the village are indicated by codes as follows :

| | | |
|---|---|---|
| (i) | Tap Water | T |
| (ii) | Well Water | W |
| (iii) | Tank Water | TK |
| (iv) | Tubewell Water | TW |
| (v) | Handpump | HP |
| (vi) | River Water | R |
| (vii) | Canal | C |
| (viii) | Lake | L |
| (ix) | Spring | S |
| (x) | Others | O |

**Column 9 : Post, Telegraph and Telephone**

It is indicated by codes as shown below whether within the village exists the following amenities:

| | | |
|---|---|---|
| (i) | Post Office | PO |
| (ii) | Telegraph Office | TO |
| (iii) | Post & Telegraph Office | PTO |
| (iv) | Telephone Connection | PH |

**Column 10 : Commercial and Co-operative Banks**

If the village is served by any banking service, commercial bank, co-operative bank etc.
the same is indicated in codes mentioned below along with the number of banks in brackets. If not available the distance of nearest place where the facility exist is given:

| | | |
|---|---|---|
| (i) | Commercial Bank | CM |
| (ii) | Co-operative Bank | CP |

**Column 11 : Credit Societies**

If the village enjoys the services of Credit Societies i.e. Agricultural Credit Societies, Non Agricultural Credit Society or Other Credit Societies, the same is indicated in codes mentioned below along with the number of such societies in brackets. In case the facility is not available within the village the distance of the nearest place where such facility exist is given :

| | | |
|---|---|---|
| (i) | Agricultural Credit Society | ACS |
| (ii) | Non- Agricultural Credit Society | NCS |
| (iii) | Other Credit Society | OCS |

**Column 12 : Recreational and cultural facilities**

If facilities such as Cinema/Video hall, Sports Club, Stadium/Auditorium is available in the village, the same is recorded in these columns. If not available the particulars of the nearest place with the facility is recorded. The information is indicated in codes mentioned below along with the number of such facilities in brackets:

| | | |
|---|---|---|
| (i) | Cinema / Video Hall | CV |
| (ii) | Sports Club | SP |
| (iii) | Stadium / Auditorium | ST |

**Column 13 : Communications**

If the village is served by any mode of public/ private transport like Bus, Railway station or Navigable water ways they are to be mentioned as follows:

| | | |
|---|---|---|
| (i) | Bus | BS |
| (ii) | Railway Station | RS |
| (iii) | Navigable Waterway | NW |

**Column 14 : Approach to village**

Approach to village refers to the state of road leading to village. The approach to the village is indicated in following codes :

| | | |
|---|---|---|
| (i) | Paved Road | PR |
| (ii) | Mud road | MR |
| (iii) | Foot path | FP |
| (iv) | Navigable River | NR |
| (v) | Navigable Canal | NC |
| (vi) | Navigable waterways other than River, Canal | NW |

**Column 15 : Nearest Town and distance**

The distance is given in kilometers in brackets against the name of the town nearest to the village.

**Column 16 : Power supply**

Availability of Power Supply in the village, whatever may be the form of its use is given by using following codes :

| | | |
|---|---|---|
| (i) | Electricity for domestic use | ED |
| (ii) | Electricity for agricultural use | EAG |
| (iii) | Electricity for other purposes | EO |
| (iv) | Electricity for all purposes | EA |

**Column 17 : News Paper / Magazine**

If village receives any News Paper/Magazines the same is noted in this column using following codes :

| | | |
|---|---|---|
| (i) | News Paper | N |
| (ii) | Magazine | M |

**Column 18 : Most important commodities manufactured**

The name of three most important commodities manufactured in the village is recorded against this column.

**Column 19 to 23 : Land use i.e. area under different types of land use**

Land use data maintained by the State/ UT Govts. are furnished against these columns. The data concerning area under Forest, Irrigated land (by source), Un-irrigated land, Cultivable waste and Area not available for cultivation in the village are shown against these columns. The area figures are given in hectare(s) up to one decimal. Desh '-' is recorded wherever the information is not made available by the concerned department. The codes used for different types of irrigation facilities available in the village are indicated below:

| | | |
|---|---|---|
| (i) | Government Canal | GC |
| (ii) | Private Canal | PC |
| (iii) | Well (without electricity) | W |
| (iv) | Well (with electricity) | WE |
| (v) | Tubewell(without electricity) | TW |
| (vi) | Tubewell(with electricity) | TWE |
| (vii) | Tank | TK |
| (viii) | River | R |
| (ix) | Lake | L |
| (x) | Waterfall | WF |
| (xi) | Others | O |
| (xii) | Total | T |

The village directory also carries the following appendices.

| | |
|---|---|
| Appendix-I | It gives the abstract of educational, medical and other amenities available in villages Taluka/C.D. Block wise of the district. |
| Appendix-I-A | Indicates number of villages Taluka/ C.D. Block wise having one or more primary schools. |

| | |
|---|---|
| Appendix-I-B | Indicates number of villages Taluka/ C.D. Block wise having primary, middle and secondary schools. |
| Appendix-I-C | Shows number of villages Taluka/ C.D. Block wise with different sources of drinking water facilities. |
| Appendix-II | Indicates the list of villages with 5,000 and above population which do not have one or more important amenities. |
| Appendix-II-A | Indicates list of Census Towns which do not have one or more amenities. |
| Appendix-III | It gives the land utilization data in respect of Census Towns / non-municipal Towns. |
| Appendix-IV | Taluka/C.D. Block wise list of inhabited villages where no amenity other than drinking water facility is available. |
| Appendix-V | Summary showing number of villages not having Scheduled Castes population. |
| Appendix-VI | Summary showing number of villages not having Scheduled Tribes population. |
| Appendix-VII-A, VII-B | The appendix shows the list of villages according to proportion of the Scheduled castes and Scheduled Tribes to the total population by ranges. |
| Appendix-VIII | Indicates Taluka/C.D. Block wise number of villages under each Gram Panchayat. |
| Appendix-IX | Shows number of different types of girls school in a village. |

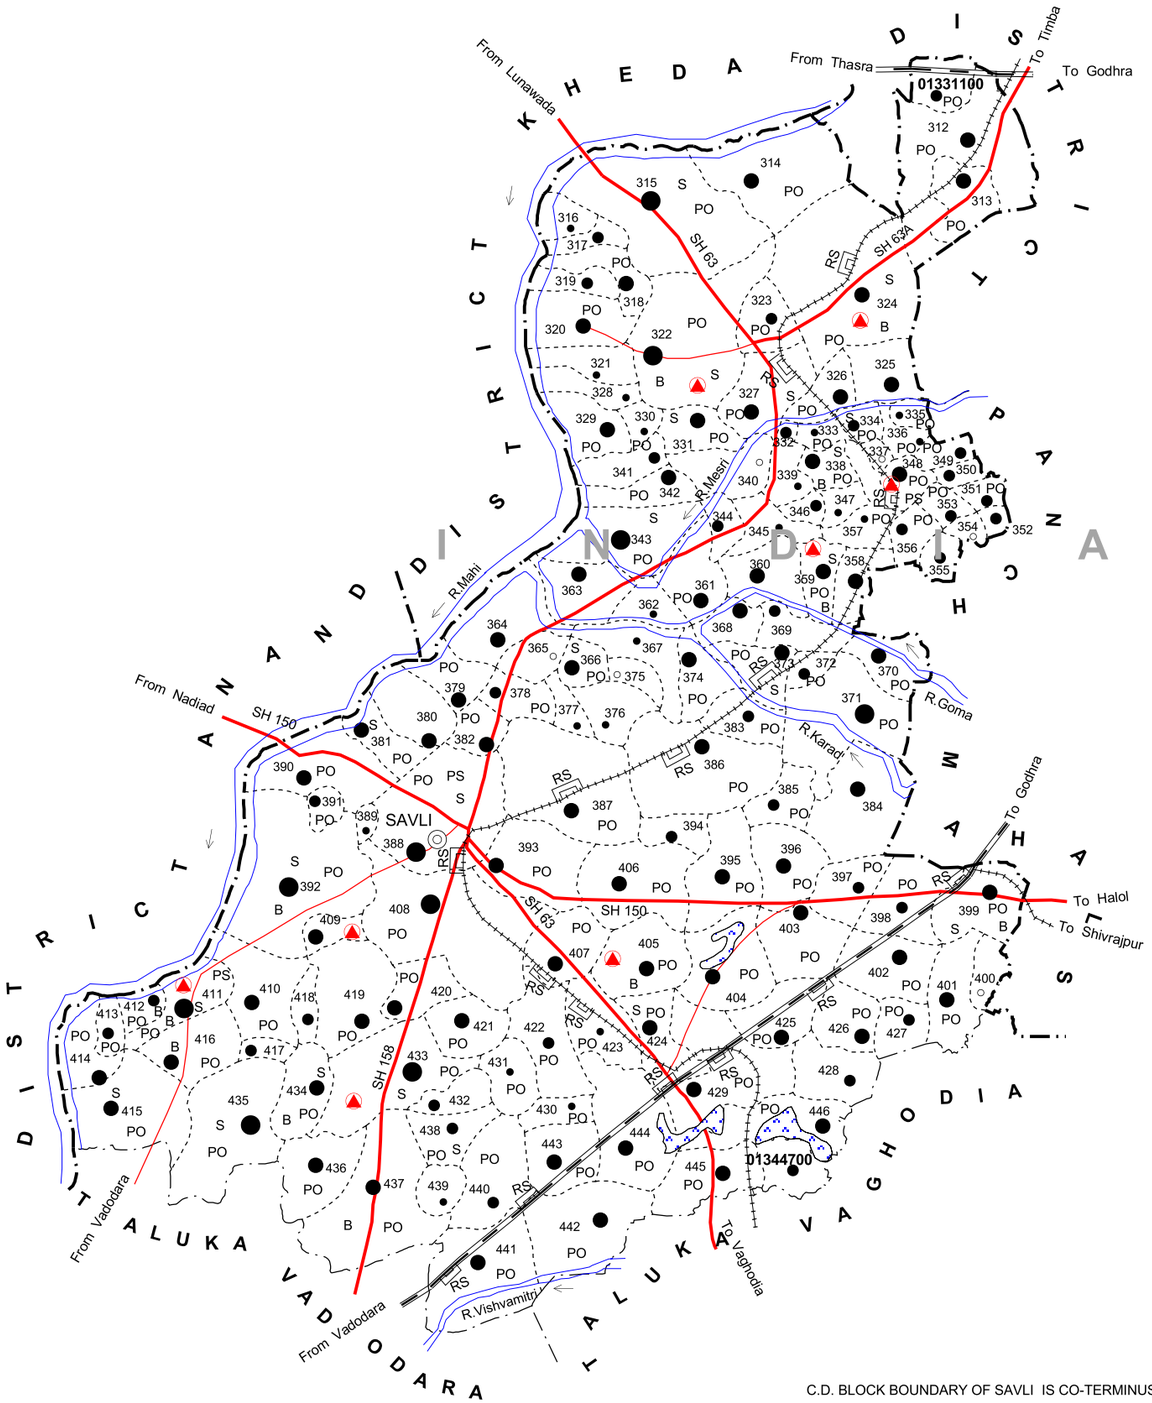

## (b) List of Villages Merged in Towns and Outgrowths at 2001 Census :

| Sl. No | Name of Taluka | Name of Village | Location Code Number | Merged in which Town or UA |
|---|---|---|---|---|
| 1 | 2 | 3 | 4 | 5 |
| 1 | Vadodara | Bapod | 50340107 | Vadodara U.A. |
| | | Chhani | 50340110 | Vadodara U.A. |
| | | Harni | 50340104 | Vadodara U.A. |
| | | Kalali | 50340109 | Vadodara U.A. |
| | | Kapurai | 50340108 | Vadodara U.A. |
| | | Karodiya | 50340103 | Vadodara U.A. |
| | | Sama | 50340105 | Vadodara U.A. |
| | | Sayajipura | 50340106 | Vadodara U.A. |
| | | Undera | 50340102 | Vadodara U.A. |

U A : Urban Agglomeration.

**Note:** * In Gujarat State the levels of education are classified as under

(i) Primary School (From Std. I to VII passed)

(ii) Secondary/Matriculation (From Std. VIII to X passed)

(iii) Higher Secondary (From Std. XI to XII passed). Hence details under column 6 is not shown

# SECTION – II – TOWN DIRECTORY

# Town Directory

NOTE EXPLAINING THE ABBREVIATIONS USED IN THE TOWN DIRECTORY

**Town Directory statements (I to VII)**

**Statement I : Status and Growth History**

**Column (2) : Class, name and civic administration status of town :**

Class has been introduced to facilitate analysis of town directory data at the state and all India levels. It is presented according to 2001 Census Population of the town as follows :

| Population | Class |
|---|---|
| 100,000 and above | I |
| 50,000 - 99,999 | II |
| 20,000 - 49,999 | III |
| 10,000 - 19,999 | IV |
| 5,000 - 9,999 | V |
| Below 5,000 | VI |

Town with a population of one lakh (1,00,000) and above is treated as a city.

The civic administration status of the towns is indicated within bracket against the name of the town. The following abbreviations are used to denote civic status of town.

| | | |
|---|---|---|
| (I) | Municipal Corporation | M. Corp. |
| (II) | Municipal Committee | MC |
| (III) | Municipal Council | M Cl |
| (IV) | City Municipal Council | CMC |
| (V) | Town Municipal Council | TMC |
| (VI) | Municipal Board | MB |
| (VII) | Municipality | M |
| (VIII) | Cantonment Board/Cantonment | CB |
| (IX) | Notified Area | NA |
| (X) | Notified Town | NT |
| (XI) | Notified Area Committee/ Notified Area Council | NAC |
| (XII) | Notified Town Area | NTA |
| (XIII) | Industrial Notified Area | INA |
| (XIV) | Industrial Township | ITS |
| (XV) | Township | TS |
| (XVI) | Town Panchayat | TP |
| (XVII) | Nagar Panchayat | NP |
| (XVIII) | Town Committee/ Town Area Committee | TC |
| (XIX) | Small Town Committee | ST |
| (XX) | Estate office | EO |
| (XXI) | Gram Panchayat | GP |
| (XXII) | Census Town | CT |

Others columns need no comments.

**Statement II - Physical Aspects and Location of towns, 1999.**

**Column 3 to 5 : Physical Aspects**

In this columns the Rainfall and Maximum & Minimum Temperature of the town is recorded.

**Column 6, 7 and 8:**

Name of the State headquarters, District headquarters and Sub-Divisional headquarters with distance from the referent town in kilometers, is to be recorded respectively. If the names mentioned in these columns are the same as the referent town itself, the distance is recorded as (0) zero.

**Column 9& 10 :**

Name of the nearest city with one lakh and more and five lakhs and more population are recorded.

**Column 11, 12 and 13 :**

If referent town enjoys the facility of railway station, bus route facility or navigable river/canal. Its name is to be mentioned. If not available, then the name of nearest place with distance, where such facility exists is to be mentioned.

**Statement III : Municipal Finance 1998 – 1999**

Item-wise amount of receipt and expenditure in thousand rupees, relating to municipal finance of the town for the year 1998-99 is to be recorded.

**Statement IV : Civic and Other amenities, 1999**

**Column (1 to 5) : Self explanatory.**

**Column (6) : Road length (in kms.)**

Information about kutcha / pucca road is to be recorded separately for the roads within the limits of the referent town.

| | | |
|---|---|---|
| (i) | Pucca Road | PR |
| (ii) | Kutcha Road | KR |

**Column (7) : System of Sewerage**

Generally, by sewerage system is implied the network of mains and branches of underground conduits for the conveyance of sewerage to the point of disposal. Sewers that carry only household and industrial wastes are called separate sewers, those that carry storm water from roofs, streets and other surface are known as storm water drains, while those carrying both sewage and storm water are called combined sewers.

The codes used for different types of drainage system are as follows :

| | | |
|---|---|---|
| (i) | Sewer | S |
| (ii) | Open Surface Drains | OSD |
| (iii) | Box Surface Drains | BSD |
| (iv) | Sylk Drains | SD |
| (v) | Cesspool method | CP |
| (vi) | Pit System | Pt |
| (vii) | Others | O |

**Column 8 to 11 : Number of latrines**

Number of various types of latrines both Public and Private are given in these columns.

**Column 12 : Method of disposal of night soil**

The various prevalent method of disposal of night soil are given below with codes :

| | |
|---|---|
| Head Loads | HL |
| Basket | B |
| Wheel Barrows | WB |
| Septic Tank | ST |
| Pit System | Pt |
| Sewerage | S |
| Others | O |

**Column 13 and 14 : Water supply**

Source and capacity of storage system. The following codes are used in these columns:

**Column 13:**

| | | |
|---|---|---|
| (i) | Tap water | T |
| (ii) | Tube-well water | TW |
| (iii) | Tank Water | TK |
| (iv) | Well water | W |

**Column 14 :**

| | | |
|---|---|---|
| (v) | Over Head Tank | OHT |
| (vi) | Service Reservoir | SR |
| (vii) | River Infiltration Gallery | RIG |
| (viii) | Bore Well Pumping System | BWP |
| (ix) | Pressure Tank | PT |

The information on major source of water supply are given in column 13 and the storage capacity against each in kilo-litres (in bracket) are presented in column 14.

**Column 15 : Fire Fighting Service**

In case the fire fighting service is available in the referent town 'yes' is recorded. If the facility is not available within the town. The name of the nearest place having this facility with its distance from the referent town has been recorded.

**Column 16 to 20 : Electrification (Number of connections)**

Different types of electric connections have been shown in these columns, i.e. Domestic, Industrial, Commercial, Road lighting (points) & others.

**Statement V : Medical, Educational, Recreational and Cultural Facility**

**Column 1 to 3 : Self explanatory.**

**Column 4 & 5 :**

The data covers all such medical institutions run by or aided by Government/Semi Government/Local bodies and Charitable institutions or Social agencies like the Missionaries. Where the family planning centres are attached to hospitals or maternity and child welfare centres or Primary Health Centres, may be treated as independent units and counted separately using following codes :

| | | |
|---|---|---|
| (i) | Hospital | H |
| (ii) | Dispensary | D |
| (iii) | Health Centre | HC |
| (iv) | Family Welfare Centre | FWC |
| (v) | T.B. Clinic | TB |
| (vi) | Nursing Home | NH |
| (vii) | Others | O |

In case of more than one institutions of any type, it is indicated within brackets the number of such

institution (s) e.g. D(3), NH(8), etc. The institutions have further been distinguished by providing additional codes within the bracket as given below :

| | |
|---|---|
| Ayurvedic | A |
| Unani | U |
| Homoeopathic | Hom |

**Column 6 to 9 :**

The codes used for these columns are as follows :

| | | |
|---|---|---|
| (i) | Arts only | A |
| (ii) | Science only | S |
| (iii) | Commerce only | C |
| (iv) | Arts & Science only | AS |
| (v) | Arts & Commerce only | AC |
| (vi) | Combined for all categories-Arts, Science and Commerce | ASC |
| (vii) | Law | L |
| (viii) | University | U |
| (ix) | Others | O |

**Column 10 : Recognized shorthand, typewriting and vocational training institutes**

"Recognised" should mean recognised by some statutory authority, like education department, commerce department, labour department etc. of the government or semi government or autonomous bodies, public sector undertakings etc.

The following codes are used :

| | | |
|---|---|---|
| (i) | Vocational Training Institute | VT |
| (ii) | Shorthand | SH |
| (iii) | Typewriting | Type |
| (iv) | Shorthand & Typewriting | SH Type |
| (v) | Others | O |

The vocational institutions like - Applied Art/ Painting college, Pharmacy college, B. Ed. College, Teacher's Training Institute, Music / Dance School, Nursing School etc. are covered under 'Others'.

**Column 11 to 14 :**

Classes upto class VII included in Primary School. This will include nursery school, kindergarten school. Pre-basic school, pre-primary school, junior basic school upto class VII.

Classes from VIII to X included in Higher secondary school. Classes XI and XII are included in senior secondary school.

Accordingly any of the following types of institutions if exists within the village is shown as per codes given below :

| | | |
|---|---|---|
| (i) | Primary School | P |
| (ii) | Middle School | M* |
| (iii) | Higher Secondary School | S |
| (iv) | Senior Secondary School | PUC |
| (v) | College | C |
| (vi) | Industrial School | I |
| (vii) | Training School | Tr |
| (viii) | Adult literacy class/centre | AC |
| (ix) | Others (specify) e.g. Sanskrit Pathshala, Senior basic school, Navodaya Vidyalaya, Makhtab,etc. | O |

More than one institution of a type in the village is indicated by the number within brackets against the abbreviation, e.g. P(3), M(4), etc.

Note : * - There is no Middle school in the Gujarat State.

**Column 15 : Adult literacy class/centres**

This column has been introduced keeping in view the Minimum Needs Programme of the Planning Commission. There are number of Adult Education Centres which are included in these columns.

If an educational facility is not available in the town, the name of the nearest place and its distance in kilometres from the town where the facility is available is mentioned.

**Column 16 : Working Women's hostels with number of seats**

The number of working women's hostel if available in the referent town is mentioned with number of seats. If the facility is not available in the town the name of nearest place with distance where the facility is available is recorded.

**Column 17 to 19 : Recreational and Cultural Facilities**

Stadium, Cinema, Auditorium / Drama / Community Hall are covered under recreational & cultural facilities. The particulars of permanent recreational facilities are considered for these columns.

**Column 20 : Public Libraries, Reading Rooms**

Number of public libraries and reading rooms available in the referent town are recorded in codes as follows :

| | | |
|---|---|---|
| (i) | Public Library | PL |
| (ii) | Reading room | RR |

**Statement VI : Trade, Commerce, Industry and Banking, 1999**

**Column 3 to 8** : Name of three most important commodities exported and names of three most important commodities manufactured in the town are recorded.

**Column 9 : Number of Banks**

Number of Banks available in the referent town both Commercial and Co-operative banks are recorded against this column.

**Column 10 & 11** : **Number of Agricultural Credit Societies and Non Agricultural Credit Societies**

The total number of Agricultural Credit Societies and Non Agricultural Credit Societies in the referent town are recorded against these columns.

**Statement VII : Civic and other Amenities in Slums, 1999**

This is the statement on civic and other amenities in all slums whether notified or not and for all towns having statutory bodies, like municipality, Municipal Corporation, Town area committee etc.

.

# Part – B

# PRIMARY CENSUS ABSTRACT

# Primary Census Abstract

## Brief note on Primary Census Abstract :

The first census of the third millennium and twenty first century the Census of India, 2001 was the 14th continuous and uninterrupted Indian census since 1872. Thus, 2001 Census will provide data on population and its characteristics marking transition from one century and millennium to another.

The gigantic operation of Population Enumeration (considered by many to be the single largest and complex peace time administrative exercise in the world) was made possible due to the door to door universal canvassing of the Household Schedule by about 2 million enumerators and supervisors covering 593 districts, 5,463 sub-district, 5,161 towns and 638,588 villages. The comprehensive Household Schedule which replaced the individual slip had three parts and two sides A and B. Part I contained the Location Particulars; Part II related to the Individual Particulars and Part III contained questions for Household engaged in cultivation/Plantation. The part II of the Household Schedule had 39 columns and 23 questions all of which were universally canvassed and no sampling was resorted to during enumeration.

### Data Processing

A quantum leap was made in the technology front while processing the Census 2001 data both for Houselisting and Population Enumeration. The Census schedules for both the phases were scanned through high speed scanners in fifteen data centers across the country and hand-written data from the schedules were converted into digitized form through Intelligent Character Reading (ICR) software for creation of ASCII records for further processing. The designing and formatting of the Household Schedule had to be done very carefully using specialized software so as to ensure uniformity, which was an essential pre-requisite for scanning. The selection of appropriate state-of-art technology in data processing has made it possible to produce all the Houselisting as well as Population Enumeration tables on full count basis for the first time in the history of Census. For Census 2001, about 202 million schedules consisting of about 1,028 million records were scanned and processed within a span of only 10 months starting October, 2002.

### Task Force on Quality Assurance

After the data is processed, it is expedient on the part of the data producing agency to satisfy itself about its quality before putting the same in public domain. This has to be done mainly through the process of internal consistency, comparison with similar data in the past and also through validation with likewise data if available, from external sources. Quite often the local knowledge and perception has to be brought into play to understand both the existing and the new emerging trends of population distribution and characteristics. The other very important aspect of the data quality is to ensure complete coverage of all geographical areas especially for the population enumeration phase where the data is disseminated right up to the village level in the rural areas and the ward level in the urban areas. Thus ensuring the complete coverage and correct geographical linkage of each enumeration block was one of the major planks of the quality control, specially for small area population statistics.

A very comprehensive check and edit mechanism was put in place to objectively examine the preliminary Census 2001 Population Enumeration results and finally clear them for use. The responsibility of the final clearance of data was with the Task Force on Quality Assurance (TFQA), headed by the Registrar General and Census Commissioner, India. The other members of the TFQA were the Heads and senior officers of the Census Division, Data Processing Division, Map Division, Demography Division and Social Studies Division. The Directors of Census Operations were co-opted as members whenever the TFQA discussed the data for their States/Union territories. The Directors and their senior officers were required to make detailed presentations of data for their own state both in respect to the quality and the coverage and only after the full possible cleared.

There has been a major departure in Census 2001 from the past in respect of the procedure followed for finalization of the Scheduled Castes and the Scheduled Tribes population. In the earlier censuses, the total Scheduled Castes and Scheduled

Tribes populations were finalized at the time of the manual compilation of the Primary Census Abstracts (PCA) at the Regional Tabulation Offices which were specially set up for this purpose. The individual Scheduled Castes and the Scheduled Tribes population for each state was finalized much later based on manual coding done by the coders. In 2001 Census, each individual Scheduled Caste and the Scheduled Tribe have been coded directly on the computers by the Data Entry Operators through a process known as Computer Assisted Coding (CAC) and taken up along with the processing of PCA data. The CAC process involves pulling down, from the relevant dictionary of the Scheduled Castes and the Scheduled Tribes, on the computer screen and coding from the dictionary by referring to the image of the specific individual entry in the Household Schedule appearing on the screen. The CAC of the response on Religion wherever required, was also undertaken along with the processing of PCA. This is because the Scheduled Castes status had to be determined in relation to the religion of the individual. Two Special Task Forces, one on Religion and the other on Scheduled Castes/Scheduled Tribes were constituted for scrutiny and appropriate classification of these responses.

The main task of the Special Task Force on Religion was to appropriately merge or group the new responses encountered and code it into the appropriate religious community based on available literature and local knowledge. The Special Task Force on Scheduled Castes and Scheduled Tribes examined the different Scheduled Castes and Scheduled Tribes entries encountered and classified these into appropriate category of the Scheduled Castes or the Scheduled Tribes principally based on the Presidential Notification and the available literature. Thus a very systematic and scientific mechanism was operationalised to firm up the individual religion and the individual Scheduled Castes/Tribes returns. The Scheduled Castes and the Scheduled Tribes population in 2001 Census, is thus being finalized by aggregating the population data for individual Scheduled Castes and the Scheduled Tribes at appropriate geographical levels.

The entire work relating to the data validation and scrutiny was completed by all the States/Union Territories under the overall supervision and monitoring of the Census Division of the Office of the Registrar General, India with active cooperation and support of the Social Studies Division, Data Processing Division, Data Dissemination Division and Map Division.

**Primary Census Abstract**

The Primary Census Abstract which is yet another important publication of 2001 Census gives basic information on Area, Total Household, Total population, Scheduled Castes, Scheduled Tribes population, Population in the age group 0-6, Literates, Main workers and Marginal workers classified by the four broad industrial categories, namely (i) Cultivators, (ii) Agricultural labourers (iii) Household Industry Workers and (iv) Other workers and also Non-workers. The characteristics of the Total population includes Scheduled Castes, Scheduled Tribes, Institutional and Houseless population and are presented by sex and rural-urban residence. This data is presented at different levels, namely India, State/Union Territories, Districts and Cities, Urban Agglomerations (Population 100,000 and above) in three different tables. In addition, the Appendix of said publication provides Houseless and Institutional Households and their population by residence and sex for 2001 for India, State and Union territory.

Apart from the India and State/Union Territory volumes for Primary Census Abstract, the District Census Handbook contains District Primary Census Abstract, Appendix to District Primary Census Abstract, Primary Census Abstract for Scheduled Castes, Primary Census Abstract for Scheduled Tribes, Village Primary Census Abstract and Urban Primary Census Abstract of the concerned district in the state.

It was for the first time at the 1981 Census that the Primary Census Abstract (PCA) was brought out for the Scheduled Castes and the Scheduled Tribes separately on the pattern of General Primary Census Abstract. This practice was continued in 1991 also. In the 1961 and 1971 Censuses, such data were made available in Table C-VIII-Social and Cultural table and to some extent in the series 'Special Tables for Scheduled Castes/ Scheduled Tribes'.

The format of Primary Census Abstract has been restructured slightly in the 2001 Census as compared to that of 1991 Census. The nine-fold industrial classification of main workers given in the Primary Census Abstract of 1991 Census has been discontinued and its place, four-fold industrial classification of both 'main workers' and 'marginal workers' are included. In 1981 census only main workers were presented in to four categories. One

of the novel features of the primary census abstract of 1991 census was the presentation of data of the population of age group 0-6 is continued in 2001 Census also. This will help the data users in better analysis and understanding of this literacy data.

**Level of presentation in District Census Handbooks:**

The Primary Census Abstract data in different PCAs are presented at different levels. The level of presentation of Primary Census Abstracts are as under:

The PCA Data for villages was presented CD Block wise for the first time in 1991 Census. This practice is continued in 2001 Census also. The data for each CD Block is presented both for rural and urban areas separately. All the villages within the CD Block constitute the rural portion and the Census Towns and Outgrowths are shown under the urban portion of the CD Block. In case a CD Block is spread over two or more districts, than portion which falls within the district is presented, the data pertaining to remaining portion of the CD Block is presented in the concerned District Census Handbook. The data in the Urban Primary Census Abstract for each town as well as for town with outgrowths in the district are presented. The data for all the wards and the outgrowths of the town(s) are also presented separately below the concerned town(s).

The District Primary Census Abstract is presented in 59 columns. The Primary Census Abstract for Scheduled Castes and Primary Census Abstract for Scheduled Tribes are presented in 52 columns. The Village Primary Census Abstract and Urban Primary Census Abstract are presented in 58 columns.

The concepts and definitions used in the column heading are explained under the sub heading 'Census Concepts' in the Analytical Note. The term 'Total Population' includes the Scheduled Castes, the Scheduled Tribes, the Institutional and the Houseless populations. The explanation regarding area figures presented at various level in the Primary Census Abstracts are as follows:

**Area Figures**

The area figures supplied by local revenue authorities of the district in respect of tehsils, Police Stations and by the local bodies in respect of towns are given in square kilometers. The area figures of the villages supplied by the Tahsildars in acres have been converted and shown in hectares. The area figures of the CD Block is the total of the village areas coming under each CD Block. The area figures for the district are the same as adopted by the Surveyor General of India to maintain uniformity at the national level. The total area figures of all the tahsils/CD Blocks within the district may not tally with area figures of the district because former represents land use area only. Similarly, the total of all the villages may not tally with the entire rural of Police Station/Tahsil. The difference may be due to the fact that while the area covered by hills, forests and rivers etc, have been accounted in the Tahsils and P.S. level the same may not be covered under the area of the villages. Apart from this it may also differ due to varying methods of computation adopted at different levels.

An appendix to District Primary Census Abstract has also been furnished showing urban enumeration block-wise particulars on Total Population, the Scheduled Castes Population and the Scheduled Tribes Population for each town

The following Abbreviations have been used in the Primary Census Abstract for facility of presentations:

| | | |
|---|---|---|
| 1 | Municipal Corporation/ Corporation | M. Corp. |
| 2 | Municipality | M |
| 3 | Municipal Council | MCI |
| 4 | Cantonment Board/Cantonment | CB |
| 5 | Notified Area/Notified Area Committee/Notified Committee | NAC |
| 6 | Industrial Notified Area | INA |
| 7 | Gram Panchayat/ Village Panchayat | VP |
| 8 | Nagar Panchayat/ Town Panchayat | NP |
| 9 | Census Town | CT |
| 10 | Total | T |
| 11 | Rural | R |
| 12 | Urban | U |

The following conversion factor has been used for converting areas into hectares and hectares into $km^2$

Acres x 0.40467 = hectares

100 Hectares = 1 $Km^2$

* These figures represent 'Geographical area' figures supplied by the Surveyor General. Figures for urban area are those supplied by the local Bodies. Area figures for rural are derived by subtracting the urban area from the total area of the District. The total of the area figures of talukas will not tally with the district figures because the former represents 'Land Use Area' and are derived from the figures supplied by the Director of Land Records.

**Note:** { Represents Group Gram Panchayat.

**Note :** The present Vadodara district has been bifurcated in 1997 and Tilakwada taluka of this district transffered to newly created Narmada district.The data for undivided Vadodara district have been discussed assuming that the data of annexure II to VIII (except Annexure-V) are the same for divided district.

# ANNEXURE – II

## FERTILITY AND MORTALITY-1991 CENSUS

### Fertility Level:

Population is a dynamic variable and keeps on changing. Increase due to birth and decrease due to death affect the population size of an area. Thus the birth and death are the two most important vital events. Natural increase is the excess of population by births over decrease of population by deaths at a given point of time. The births have direct correlation with the fertility.

The data on fertility levels and trends as revealed by the fertility indices of the 1991 Census like Crude Birth Rate (CBR), Age Specific Fertility Rate (ASFR) and Total Fertility Rate (TFR) are presented and analyzed below. The Definitions and concepts of fertility indices frequently used have already been explained in Analytical Note.

### Death Rate:

Death process in demographical terminology is called as mortality. The rate at which death events occur reveal about the standard of living and state of health. Statistical data on causes of death help us in controlling the spread of diseases and suggests new curative methods to medical authorities.

### Child Mortality:

Information about questions on children ever born and children surviving canvassed for all ever married women was tabulated by age of the mother. From this estimate of child mortality have been worked out by using Brass technique.

As per above statement there were 3.6 children born per ever married woman in the age group of 45-49 with 3.3 surviving children per woman in Vadodara district.

**ANNEXURE – IV**

**PERCENTAGE DISTRIBUTION OF MIGRANTS BY PLACE OF BIRTH/ PLACE OF LAST RESIDENCE, 2001 CENSUS**

## Migration

Migration is a factor in changing the size and structure of the population. The migration process affects the areas to which migrants have moved and areas which they have left. Migration is a form of geographical mobility between one geographical unit to another, involving a change of residence from the place of origin/birth to the place of destination or place of new settlement from the last residence. A person is considered as a migrant by place of birth if the place in which he is enumerated during the Census is other than the place of birth. Similarly a person is considered as a migrant by place of last residence if the place in which he is enumerated during the Census is other than his place of immediate last residence.

### Internal and International Migration

The migration movements are of four types –

1. Migration within the district of enumeration (intra-district migration)
2. Migration from one district to another but within the State
3. Migration from one state to another state of the country (inter-state migration) and
4. Migration from one country to another country.

The first three together constitute internal migration while the last type of movement is called international migration.

### Migration by place of birth:

The absolute number and percentage distribution of Migrants by place of birth to total population in Vadodara district and the State at 2001 Census were as following.

**PERCENTAGE DISTRIBUTION OF MIGRANTS BY PLACE OF BIRTH-2001 CENSUS**

| Migration By Place of Birth | Gujarat | | | Vadodara | | |
|---|---|---|---|---|---|---|
| | Persons | Males | Females | Persons | Males | Females |
| 1 | 2 | 3 | 4 | 5 | 6 | 7 |
| **Total Migrants** | **18,810,592** | **6,472,393** | **12,338,199** | **1,524,049** | **567,701** | **956,348** |
| (A) Migrants born in Gujarat | 16,207,961 | 4,984,992 | 11,222,969 | 1,287,554 | 445,821 | 841,733 |
| (I) Migrants born elsewhere in district of enumeration | 10,706,177 (56.9) | 2,867,391 (44.3) | 7,838,786 (63.5) | 811,598 ( 53.3) | 249,724 ( 44.0) | 561,874 ( 58.8) |
| (II) Migrants born in other district of the State | 5,501,784 (29.2) | 2,117,601 (32.7) | 3,384,183 (27.4) | 475,956 ( 31.2) | 196,097 ( 34.5) | 279,859 ( 29.3) |
| (B) Migrants born in other States of India | 2,520,676 (13.4) | 1,443,465 (22.3) | 1,077,211 (8.7) | 227,703 ( 14.9) | 117,366 ( 20.7) | 110,337 ( 11.5) |
| (C) Migrants born in other countries | 81,955 (0.4) | 43,936 (0.7) | 38,019 (0.3) | 8,792 ( 0.6) | 4,514 ( 0.8) | 4,278 ( 0.4) |
| (D) Unclassified | 0 (0.0) | 0 (0.0) | 0 (0.0) | 0 (0.0) | 0 (0.0) | 0 (0.0) |

**Source:** Gujarat State-D-Series Tables-2001

As per 2001 census there were 18,810,592 migrants in Gujarat whose place of birth was different than the place of enumeration. Out of such migrants in 2001 census, 56.9 per cent were born elsewhere in the district of enumeration, 29.2 per cent were born in other districts of the state, 13.4 per cent were born in other states of India and 0.4 per cent were born in other countries. No migrant was reported under the category titled "Unclassified".

It can be seen that as per 2001 census in Vadodara district there were 1,524,049 migrants whose place of birth was different than the place of enumeration. Out of such migrants in 2001 census, 53.3 per cent were born elsewhere in the district of enumeration, 31.2 per cent were born in other districts of the state, 14.9 per cent were born in other states of India and only 0.6 per cent migrants were born in other countries. There were no migrants, in 2001, in the category titled "Unclassified" in the district.

**INTER STATE IN-MIGRANTS TO GUJARAT STATE AS PER 2001 CENSUS BY PLACE OF BIRTH**

| Place of Birth | Gujarat | | Vadodara | |
|---|---|---|---|---|
| | Migrants | Percentage to Total Migrants | Migrants | Percentage to Total Migrants |
| 1 | 2 | 3 | 4 | 5 |
| **Total Migrants** | **2,520,676** | **100.0** | **227,703** | **100.0** |
| Madhya Pradesh | 159,055 | 6.3 | 30,658 | 13.5 |
| Maharashtra | 734,945 | 29.2 | 65,781 | 28.9 |
| Rajasthan | 471,109 | 18.7 | 30,039 | 13.2 |
| Uttar Pradesh | 520,094 | 20.6 | 42,628 | 18.7 |
| Other States | 635,473 | 25.2 | 58,597 | 25.7 |

**Source:** Gujarat State-D-Series Tables-2001

The above statements show migration in Gujarat and in Vadodara district from other states as per 2001 census. It can be seen that as per 2001 census there were 2,520,676 persons in the state who were born in other states of India.. In 2001 out of such persons 29.2 per cent were born in Maharashtra while the proportion of inter state migrants born in Rajasthan and Uttar Pradesh was 18.7 and 20.6 per cent respectively. As per 2001 census, in Gujarat, out of total inter state migrants 6.3 per cent were born in Madhya Pradesh and the remaining 25.2 per cent were born in other states of India.

In Vadodara district the number of migrants who were born in other states of India was recorded at 227,403, as per 2001 census. The state-wise distribution reveals that out of these 28.9 per cent of migrants were born in Maharashtra. In 2001 the proportion of migrants born in the states of Rajasthan, Uttar Pradesh and Madhya Pradesh was 13.2 per cent, 18.7 per cent and 13.5 per cent respectively while the proportion of migrants born in other states was 25.7 per cent in 2001census.

**Migration by place of last residence:**

Distribution of migrants by place of last residence in Gujarat and Vadodara as per 2001 Census and percentage distribution of in-migrants from other States to Gujarat by place of last residence are presented below.

**Source:** Gujarat State-D-Series Tables-2001

As per 2001 census there were 19,221,602 migrants by place of last residence in Gujarat. The proportion of male and female migrants, whose place of last residence was elsewhere within the district of enumeration, was 52.4 per cent and 69.8 per cent respectively. The reason for higher proportion of female migration is marriage. In Gujarat as per 2001 census, 63.7 per cent migrants were residing elsewhere in the district of enumeration, 24.6 per cent were such whose last residence was in other districts of the state while last residence of 11.4 per cent migrants was in other states of India and only 0.3 per cent were such whose last residence was in other countries.

As per 2001 census, there were 1,550,001 migrants by place last residence. Out of total migrants, 59.9 per cent of migrants were residing elsewhere in the district of enumeration, 26.8 per cent were such whose last residence was in other districts of the state while last residence of 12.8 per cent migrants was in other states of India and only 0.4 per cent migrants' last residence was in other countries.

There were no migrants in the state as well as in the district in the category titled "Unclassified".

**Migration by reason:**

The following statement gives distribution of migrants by reasons of migration from other States of India.

**MIGRATION FROM OTHER STATES OF INDIA BY PLACE OF LAST RESIDENCE IN GUJARAT 2001**

| States | Total Migrants | Reasons | | | | | | |
|---|---|---|---|---|---|---|---|---|
| | | Employment | Business | Education | Family moved | Marriage | Natural Calamities | Other reasons |

**Source:** Gujarat State-D-Series Tables-2001

It can be seen form the data given above that the main reason for the migration was "Work/ employment". As much as 30.3 per cent of migrants moved due to work or employment as per 2001 census, this was followed by 26.5 per cent of migration which was due to the reason of "Moved with household". In 2001, the proportion of migration due to marriage was 17.0 per cent. The reason for 9.4 per cent of migration was Business, and 6.2 per cent of migration was due to the reason titled "Moved after birth" and only 0.6 per cent of migration was for Education. The remaining 10.2 per cent of migration was due to other reasons.

**BRIEF ACCOUNT OF MAIN RELIGIONS IN THE DISTRICT AS PER 1991 AND 2001 CENSUSES**

Religion is the basic cultural characteristics of the population. In secular country like India several religions have thrived and every decennial Census provides an interesting picture of the religious persuasions of the people. The data on religion yielded by the Census are of immense use for the Anthropologists, Sociologists, Demographers, Administrators, and Planners and also for laymen.

The six main religions are i) Hindu, ii) Muslim, iii) Christian, iv) Sikh, v) Buddhist, and vi) Jain were recorded. In respect of 'Others', the actual religion returned was recorded. If a person said that he has no religion, it was recorded accordingly and if any person refused to state his religion it was recorded as 'religion not stated'.

**Source:** Gujarat State-C-Series Tables-2001

The statement above gives the details of distribution of population for Gujarat state and Vadodara district by six major religions as per 2001 census. The 2001 census data reveals that the proportion of Hindus was 89.1 per cent in the state of Gujarat against 89.5 per cent recorded in Vadodara. In comparison, in 1991 the proportion of Hindus at state level was 89.5 per cent while in the district the proportion of Hindus was 90.3 per cent. The proportion of Muslims was 8.3 per cent in the district in 1991 which stood at 8.7 per cent in 2001. At state level the proportion of Muslims was 8.7 per cent in 1991 and 9.1 per cent in 2001 census. The population proportion of Christian, Jain, Sikh, Buddhists, and people following other religions and of people who did not state any religion had not shown any significant changes in 2001 as compared to 1991 in the state.In district also, the proportion of Christian, Jain, Sikh, Buddhists and people following other religions had not shown any significant changes in 2001 census as compared to 1991 census. However the number of people who did not state any religion had increased to 2,390 in 2001 census against only 102 persons reported in this category in 1991 census.

## ANNEXURE-VI

## MARITAL STATUS OF POPULATION AS PER 2001 CENSUS

The details of sex-wise marital status for Gujarat State and Vadodara District as per 2001 Census is given below:-

**MARITAL STATUS BY SEX-2001 CENSUS**

| Sl. No. | Marital Status | Gujarat | | | Vadodara | | |

| | **Total** | **50,671,017** | **31,740,767** | **18,930,250** | **3,641,802** | **1,995,580** | **1,646,222** |
| | | **(100.0)** | **(100.0)** | **(100.0)** | **(100.0)** | **(100.0)** | **(100.0)** |

**Source:** Gujarat State -C- Series Tables-2001

It can be seen that proportion of never married persons was higher at 47.6 per cent in the state as compared to 44.7 per cent recorded in the district as per 2001 census. In rural areas the proportion of never married persons was 47.7 per cent in state and 44.5 per cent in the district. In urban areas the proportion of never married persons was at 47.5 per cent in state and 44.9 per cent in the district. As per 2001 census the proportion of married persons, in rural areas, was 47.4 per cent in Gujarat and 49.7 per cent in Vadodara. In 2001 census, in urban areas the proportion of married persons was 48.4 per cent in Gujarat and 50.7 per cent in Vadodara. The proportion of widowed was 4.4 per cent in rural areas of the state and 5.2 per cent in the district. The same for urban areas was 3.7 per cent in the state and 4.0 per cent in the district. The proportion of divorced/separated was insignificant in the state as well as in the district. There was no population reported under the category titled “Unclassified “in the state as well as in the district.

## ANNEXURE – VII

## AGE, SEX AND EDUCATION IN THE DISTRICT AT THE 2001 CENSUS

Literacy has occupied an important position in Indian Census in one form or the other from the very beginning. The definition of literates as adopted is "A person who can both read and write with understanding in any language is to be taken as literate". A person who can merely read but can not write was not treated as literate. It is not necessary that a person who was literate should have received any formal education or should have passed any minimum educational standard. All children below the age 7 are treated as illiterate. While processing the literacy data population of age group 0-6 is excluded.

The following statement gives the distribution of literates and illiterates by broad age groups and sex in the district as well as the State at the time of 2001 Census:-

**LITERACY BY AGE- GROUP AND BY SEX-2001**

| Age Group | Particular | Gujarat | | | Vadodara | | |
