King Vijaydevji, on his accession to kingdom in 1921, constructed a museum and dedicated it to Lady Wilson. Vijaydevji undertook extensive traveling to collect rare and genuine art objects for display in museum. He was a great patron of art and music and a well- known musician with equal command over both Indian and western classical music. He wrote a treatise on music ‘Sangeet Bhav’ in six volumes with Gujarati, Hindi, English and French notations. He was also fond of hunting and constructed a hunting lodge of Audha and residences at Wilson Hills as summer retreats. Lady Wilson Museum and Jubilee Hall are example of early 20th Century architecture. The museum has the following sections : Anthropology, tribal, toys, industrial arts and music. The music section has a fine collection of Indian, Western and tribal musical instruments and miniature paintings of Pahari style depicting various musical compositions – Indian classical ragas.

District Highlights –2001 Census

Important Statistics in the District

Ranking of Talukas in the District

Statements 1-9

Statement 1 : Name of the Headquarters of the District/Taluka, their Rural-Urban status and distance from District Headquarters, 2001

Statement 2 : Name of the Headquarters of the District/Taluka/C.D.Block, their Rural-Urban status and distance from District Headquarters, 2001

Statement 3 : Population of the District at each Census from 1901 to 2001

Statement 4 : Area, Number of Villages/Towns and Population in District and Taluka, 2001

Statement 5 : Taluka/C.D.Blockwise Number of Villages and Rural Population, 2001

Statement 6 : Population of Urban Agglomerations / Towns, 2001

Statement 7 : Villages with Population of 5,000 and above at Taluka/C.D.Block level as per 2001 Census and amenities available

Statement 8 : Statutory Towns with Population less than 5,000 as per 2001 Census and amenities available

Statement 9 : Houseless and Institutional Population of Talukas, Rural and Urban, 2001

Analytical Note

(i) History and Scope of the District Census Handbook

(ii) Brief History of the District

(iii) Administrative Set Up

(iv) Physical Features

(v) Census Concepts

(vi) Non-Census Concepts

(vii) 2001 Census Findings – Population, its distribution
Brief analysis of PCA data
Brief analysis of the Village Directory and Town Directory data
Brief analysis of the data on Houses and Household amenities, House listing Operations, Census of India 2001

(viii) Major social and cultural events, natural and administrative developments and significant activities during the decade

(ix) Brief description of places of religious, historical or archaeological importance in villages and places of tourist interest in the towns of the district

(x) Major characteristics of the district, contribution of the district in the form of any historical figure associated with the district

(xi) Scope of Village Directory and Town Directory

Pages

Part – A : VILLAGE AND TOWN DIRECTORY

Section I – Village Directory

(a) Note Explaining the Abbreviations used in Village Directory

(b) List of Villages merged in Towns and Outgrowths at 2001 Census

(c) Taluka / C.D.Blockwise presentation of Village Directory data

(1) Valsad Taluka

(i) Taluka Map

(ii) Alphabetical list of Villages alongwith Location Code 1991 and 2001

(iii) Village Directory

(d) Appendices To Village Directory

Appendix – I : Abstract of Educational ,Medical and other amenities in Villages/ Taluka/C.D.Block level

Appendix – IA : Villages by number of Primary School

Appendix – IB : Villages by Primary, Middle and Secondary Schools

Appendix – IC : Villages with different sources of drinking water facilities available

Appendix – II : Villages with 5,000 and above Population which do not have one or more amenities available

Appendix – II A : Census Towns which do not have one or more amenities available

Appendix – III : Land Utilization data in respect of Census Towns /Non- municipal Towns

Appendix – IV : Taluka/C.D.Blockwise list of Inhabited Villages where no amenity other than drinking water facility is available

Appendix – V : Summary showing number of Villages not having Scheduled Castes Population

Appendix – VI : Summary showing number of Villages not having Scheduled Tribes Population

Pages

Appendix - VII A : List of Villages according to the Proportion of the Scheduled Castes to the Total Population by ranges

Appendix - VII B : List of Villages according to the Proportion of the Scheduled Tribes to the Total Population by ranges

Appendix – VIII : Taluka/C.D. Blockwise number of Villages under each Gram Panchayat

Appendix – IX : Statement showing number of Girls schools in the villages

Section II – Town Directory

(a) Note Explaining the Abbreviations used in Town Directory

(b) Town Directory Statements (I to VII)

Statement I : Status and Growth History

Statement II : Physical aspects and Location of Towns

Statement III : Municipal Finance

Statement IV : Civic and other amenities

Statement V : Medical, Educational, Recreational and Cultural facilities

Statement VI : Trade, Commerce, Industry and Banking

Statement VII : Civic and other amenities in Slums

(c) Appendix to Town Directory : Towns showing their outgrowth with Population

Part – B : PRIMARY CENSUS ABSTRACT

(a) Brief note on Primary Census Abstract

(b) District Primary Census Abstract (General)

(c) Appendix to District Primary Census Abstract i.e. Urban Blockwise figures of Total, SC and ST Population

Primary Census Abstract for Scheduled Castes

Primary Census Abstract for Scheduled Tribes

Taluka /C.D. Blockwise Village Primary Census Abstract

(i) Valsad Taluka

(ii) Dharampur Taluka

(iii) Pardi Taluka

(iv) Kaprada Taluka

(v) Umbergaon Taluka

Urban Primary Census Abstract

Annexure - I Number of Villages under each Gram Panchayat

Annexure - II Fertility and Mortality, 1991 Census

Annexure - III Various measures of Fertility and Mean age at Marriage, 1991 Census

Annexure - IV Percentage distribution of Migrants by Place of Birth / Place of Last Residence,2001 Census

Annexure - V Brief account of Main Religions in the District/ Taluka as per 1991 -2001 Census

Annexure - VI Marital Status of Population as per 2001 Census

Annexure - VII Age, Sex and Education in the District, 2001 Census

Annexure - VIII Distribution of different Mother Tongues returned in 2001 Census

F O R E W O R D

The District Census Handbook (DCHB) published by Census Organsation since 1951 census, is one of the important publications in the context of planning and development at gross-root level. The publication, which is brought out for each district, contains several demographic and socio-economic characteristics village-wise and town-wise of the district alongwith the status of availability f civic amenities, infrastructural facilities, etc.

2, The scope of the DCHB was initially confined to a few Census Tables and Primary Census Abstract (PCA) of each village and town within the district. Thereafter, at successive censuses, its scope and coverage has been enlarged. The DCHB published at the 1961 census provided a descriptive account of the district, administrative statistics, census tables and a village and town directory including PCA. The 1971 census-DCHB series was in three parts: Part-A related to village and town directory, Part-B to village and town PCA and Part-C comprised analytical report, administrative statistics, district census tables and certain analytical tables based on PCA and amenity data in respect of villages. The 1981 census DCHB was in two parts: Part-A contained village and town directory and Part-B the PCA of village and town including the SCs and STs PCA up to tahsil/town levels. New features alongwith restructuring of the formats of village and town directory were added into it. In Village Directory, all amenities except electricity were brought together and if any amenity was not available in the referent village, the distance in broad ranges from the nearest place having such an amenity, was given. Information on new items such as adult literacy centres, primary health sub-centres and community health workers in the village were provided so as to meet the requirements of some of the Revised Minimum Needs Programme. Information on approach to the village was provided for the first time in the Village Directory so as to give the details on number of inaccessible villages in each district. In the Town Directory, a statement (IV-A) on slums was introduced to provide the details on civic and other amenities in the notified slums of Class I and Class II towns.

3. The 1991 census of DCHB, by and large, followed the pattern of presentation of 1981 census, except the format of PCA was restructured. Nine-fold industrial classification of main workers was given against the four-fold industrial classification presented in the 1981 census. In addition, sex-wise population in 0-6 age group was included in the PCA for the first time with a view to enable the data users to compile more realistic literacy rate as all children below 7 years of age had been treated as illiterate at the time of 1991 census. One of the important innovations in the 1991 census was the Community Development Block (CD block) level presentation of village directory and PCA data instead of the traditional tahsil/taluk/PS level presentation. It was expected that the presentation of village directory and PCA data at CD block level will help the planners in formulation of micro level development plans, CD block being lowest administrative unit.

4. The present series of 2001 census DCHBs have been made more informative and exhaustive in terms of coverage and content. The Village Directory has been enlarged in scope by including a number of other facilities like banking, recreational and cultural facilities, newspapers and magazines and ‘most important commodity’ manufactured in village. Income and expenditure of gram panchayat, wherever possible, has been provided. Apart from these, more details on distance(s) at which basic amenities are available (if not available in the village), are given. This includes educational facilities (namely primary and middle schools and college), medical facilities (viz. Allopathic Hospital, Maternity & Child Welfare Centre and Primary Health Centre), drinking water, post & telegraph (post office and phone), communication, bank, credit societies and recreational facilities. In Town Directory, the statement on Slums has been modified and its coverage enlarged by including details on all slums in instead of ‘notified

slums'. The information is given in case of all statutory towns irrespective of their class, against only Class I and Class II towns in the 1981 and 1991 Censuses. The basic amenities available in the villages and towns are analysed in depth with the help of a number of cross-classified inset tables and statements. Two other significant additions in the publication are inclusion of 'motif highlighting significant characteristic of the district and analytical notes as annexures. The analytical notes on (i) fertility and mortality and (ii) various measures of fertility and mean age at marriage are prepared based on 1991 Census. Whereas, in the notes relating to (i) percentage distribution of migrants by place of birth/place of last residence, (ii) main religions, (iii) marital status of population, (iv) age, sex and education, and (v) distribution of spectrum of mother tongue, nature and extent of changes occurred in the district in its basic socio-demographic features during the decade 1991-2001 are analysed. The eight digits permanent location code (PLCN) to all the villages and towns have been assigned keeping in view the future needs.

5. The village and town level amenity data have been collected, compiled and computerised in prescribed record structure under the supervision of Shri Jayant Parimal, Director of Census Operations, Gujarat. Thereafter, efforts have been made to ensure comparability of the information with that of 1991 census data and the information brought out by the respective state governments in their annual reports and statistical handbooks for various years after 1991. The task of planning, designing and coordination of this publication was carried out by Shri R.G. Mitra, Deputy Registrar General (C&T) and Dr. I.C. Agrawal, Senior Research Officer of Social Studies Division. Dr. R.P. Singh, Deputy Registrar General (Map) provided the technical guidance in the preparation of maps. Whereas, Shri Anil Kumar Arora, Deputy Director of Data Processing Division who worked under the overall supervision of Shri Himakar, Addl. Director(EDP) helped in preparation of record structure for computerisation of village and town directory data and the programme for the generation of Village Directory and Town Directory statements including analytical inset tables. The draft DCHB manuscripts received from the Census Directorates have been scrutinised in the Social Studies Division under the guidance of Shri S.L. Jain, Deputy Director and Shri R.K. Mehta, Assistant Director. I am thankful to all of them and others who have contributed to make this publication possible.

D.K. Sikri
Registrar General &
Census Commissioner, India

New Delhi
Dated : 17.10.2006

Preface

Census is being conducted in the country every ten years as per the programme laid down by the Government of India. In these day and age of information technology, an individual has access to a variety of information covering a Kalidoscope of interest and fields. Availability of relevant information is very vital for planners, policy makers and researchers.

The Five Year Plans have come to stay in the country and whatever development is achieved as a result of implementation of planning from the bottom level such as development of infrastructure facilities as well as basic amenities, etc. is reflected in the District Census Handbooks and they give to the readers a searching eye whether the development over the years in villages/talukas/districts is lopsided or upto the mark. This is the basic requirement of this type publications and an attempt has been made to show whether the census handbooks reasonably fulfill these aspirations/requirements.

These district Handbooks are thus useful to planners in planning from bottom as well as to administrators, researchers, educational institutions including universities and other socio-economic research centres as well as students conducting research in demography, social and economic studies as well as to the local bodies like Panchayats, Municipalities and Municipal Corporation etc.

District Census Handbook of Gujarat is a joint venture of the Government of Gujarat and the census organization of the Government of India. In the preparation of the DCHB, the role played by the census organisation is that of Census data collection, scanning of collected information, analysis of PCA. DCHB Unit of the State Government collected the basic non-census iniformation on availability of amenities relating to infrastructure in the villages of the district presented in the part A of this book. The cost of this publication is borned by the State Government. In accomplishing this task we had the ready and whole hearted co-operation of the staff at various levels of different department of the State Government. Most of the data supplied by the various departments have been cross-checked and an attempt has been made to reconcile the discrepancies as well.

I express my deep gratitude to the officers of Gujarat Government particularly Shri PK.Laheri, Chief Secretary of Gujarat State, Smt. Netraben Sinoy, Additional Chief Secretary of General Administration Department (Planning), Shri George Joseph, Principal Secretary, General Administration Department (Personnel), Shri K.R.Vasava, Deputy Secretary, Kum.P.S. Mevada, Under Secretary and Shri P.D.Kulkarni, Section Officer of General Administration Department, Planning, Shri S.D.Mehta,Deputy Secretary and Shri I.M.Sheikh, Under Secretary, Shri Bipin Patel, Section Officer and Shri P.N.Christian, Deputy Section Officer of G.A.D. (Kh-3) for their valuable help and co-operation in fulfilling all administrative requirement in time for bringing out this publication. I am also thankful to Shri P.M. Patel, Director, Economics and Statistics helped this organisation not only by placing the competent personnel on disposal of census services on deputation but also provided valuable official statistics for this publication.

The District Collector, the District Development Officer, District Statistical Officer, District Information Officer and their staff members extended their warm and whole hearted co-operation for carrying out field work of the census and collection of non-census data for this District Census Handbook.

I am deeply grateful to Shri J.K. Banthia, I.A.S., the Ex-Registrar General and Census Commissioner, India for the benefit I have derived by the way of guidance and advice. I also express my thanks to Shri R.G. Mitra, Deputy Registrar General(C&T) Shri C. Chakravorty, Joint Director, Shri I.C. Agrawal,Senior Research Officer(SS), Shri S.L. Jain, Deputy Director(SS), Shri R.K. Mehta, Assistant Director(SS), Shri R.P. Singh, Dy. Registrar General(Map), Shri Himakar, Addl. Director (EDP) and Shri Anil Kumar Arora, Deputy Director (EDP) for providing technical guidance in finalising this publication.I am extremely thankful to Shri D. K. Sikri, IAS, Registar General & Census Commissioner, India for his valuabe guidance in finalizing of this publication.

Shri Jayant Parimal, I.A.S. who held the office of Director of Census Operations, Gujarat, had guided the operations of the 2001 Census. The data presented in this handbook were collected and compiled under the able direction and guidance of Shri Parimal.Our sincere and grateful thanks for all the projects of census to him.

In state office Smt. B.B. Chauhan, Deputy Director, District Census Handbook Unit, Kum.S.B.Dabhi, Assistant Director, Shri S.B. Dalvi, Deputy Section Officer of District Census Handbook Unit, and their team of able assistants meticulously collected and scrutinized the non-census data from various sources and prepared draft of DCHB etc. with the help of Census section. The other officials of D.C.H.B. Unit, who scrutinised, edited and supervised the work of D.C.H.B. have been mentioned in the "Acknowledgement". The maps provided in the D.C.H.B. are prepared by the Map Section of the Census Directorate under the supervison of Shri J.P. Purohit, R.O(Map). I am thankful to all of them.I am thankful to the census section of the Directorate for scrutinizing the PCA data, specially Shri J.N.Pithadia, Investigator Grade-I and Kum.N.V.Shah, Investigator Grade-III who provided assistance to me in finalizing P.C.A. data at every stage. Smt. J.R.Sanghani, Investigator Grade-III of this Directorate assisted me for final scrutiny of D.C.H.B., I am thankful to her.

Lastly, I am thankful to the Government of Gujarat for having agreed readily to bear the cost of publication of the District Census Handbook volumes and for the special efforts of Shri R.B. Raval, Director, Printing and Stationary and his colleagues to print out the publcation in a very nice fashion.

District highlights – 2001 census

(1) Valsad district ranks 17th in terms of population among 25 districts of the state.

(2) Valsad district was reconstituted. Navsari, Chikhli, Gandevi and Bansda talukas have been separated from Valsad for constituting a new district Navsari.

(3) Out of 452 villages 450 are inhabited and 2 are uninhabited while 4 villages are OGs of the towns.

(4) The density of population is 465 persons per square kilometre.

(5) Valsad ranks 8th in density and 20th in sex ratio.

(6) Village Umarsadi with population of 15,044 persons is the most populated while village Pardi Hariya with a population of 68 persons is the least populated village.

(7) In Valsad district, out of total workers 28.5 per cent are engaged as cultivators and 23.5 per cent are Agricultural labourers. This indicates that more than 50 per cent of workers are engaged in agricultural sector.

(8) Basic chemical and chemical products (except products of petroleum and coal), Machinery and equipment other than transport equipment (Scientific equipment) photographic equipment and watches and clocks is classified in division 38) and rubber, plastic petroleum and coal products processing and nuclear fuels are the most important non agricultural economic activities of the district.

(9) Khattalwada village of Umbergaon taluka has the largest area of 3,455.2 hectares whereas Bagwada village has the lowest area of 31.2 hectares.

(10) In Valsad district, Umergaon taluka has the least number of 50 villages while Kaprada taluka has the highest number of 130 villages.

(11) Valsad has a coastal line of about 74.1 km. alongwith the Arabian Sea.

Note: *These figures represent 'Geographical area' figures supplied by the Surveyor General. Figures for urban area are those supplied by the local Bodies. Area figures for rural are derived by subtracting the urban area from the total area of the District. The total of the area figures of talukas will not tally with the district figures because the former represents 'Land Use Area' and are derived from the figures supplied by the Director of Land Records.

ANALYTICAL NOTE

A N A L Y T I C A L N O T E

(i) History and Scope of the District Census Handbook. :

Before the 1951 Census, the Census figures were published in a booklet known as 'Village Hand-book', which contained only villagewise population figures. These books were prepared and published by the Directorate of Census Operations of the state.

The Directorates introduced the District Census Handbook for the first time in 1951 Census. It comprised the villagewise primary census abstract figures and information on available amenities. It also contained several tables relating to the district. It varied in content and size from State to State depending upon the resources offered by the respective State Governments.

In 1961 Census, an uniform pattern of District Census Handbook was adopted throughout the country. The Directorate of Census and the State Government jointly executed the project. In addition to the English version, it was published for the first time in Gujarati language also. The District Census Handbook 1961 was published in three parts viz. Part I, Part II and Part III. Part I related to Introductory Note i.e. general and economic information for the district and a brief gazetteer of place names. Part II pertained to census tables, villagewise list of industrial establishments, tables on handicrafts and departmental statistics. Part III consisted of village directory covering the amenities and primary census abstract data combined in one statement. It also covered district and taluka maps.

It is worthwhile here to note that the State Government has created a separate unit for preparing and publishing The District Census Handbook from 1971 Census onwards. In the 1971 Census, the contents of District Census Handbook were modified. In the preceding censuses the data on amenities and primary census abstract were covered in one statement whereas in 1971 Census, the data on amenities and primary census abstract were separated into two different parts.Thus, the coverage of amenities data was extended and the land use data were introduced for the first time since 1971 District Census Handbook. Moreover, a separate portion known as 'Town Directory' was also incorporated for the first time in the District Census Handbook. The 1971 District Census Handbooks were published in three parts viz. Part A, Part B and Part C. Part A contained the village and town directory. Part B contained village and townwise primary census abstract data and Part C contained official statistics, besides full count census tables, urban census tables and analytical report on census and related statistics socio-economic and cultural tables (Rural areas) and housing tables. Part A and Part B were combined and published in one volume.

The District Census Handbook –1981 was brought out in two parts, Part-A and Part-B. Part-A contained the village and town directory whereas Part-B included the primary census abstract data for both General population and Scheduled Castes/ Scheduled Tribes. Both parts were published in one volume. Part C brought out for 1971 Census was dropped in 1981 Census. However, official statistics and some portion of analytical notes of part C of 1971 Census were included in the 1981 District Census Handbook also.For the 1991 Census, the District Census Handbooks were prepared more or less on the same lines of the preceding Census of 1961. In 2001, the scope of both Part A & Part B has been enlarged by giving several additional information due to possession of large scale computerization.

The District Census Handbook has been prepared after scanning and processing of data collected through Houselist Schedule and Household Schedule. Several innovations have been introduced mostly at all the stages of the Census of India, 2001, right from the preparatory efforts of data processing to data dissemination of stage. This includes certain fundamental changes in the form and contents of the Houselist and Household schedules, while maintaining the continuity and comparability of the basic housing and population characteristics with the earlier census. For the Census of India 2001, a system of Permanent Location Code Number (PLCN) has been adopted by assigning a population number to each village within the State/UT a continuous series from I to N.

Each village has been assigned an eight-digit code. The last two digits being '00' are kept for accommodating future changes in case of split of an existing village or creation of new villages etc. Since the permanent Location Codes have been assigned to each village, theoretically tracing the precise location of village on account of future jurisdictional changes in the boundaries of various administrative areas within the state should not pose a problem. It is imperative that under this scheme, the PLCN assigned to villages at the Census of India, 2001 are adopted in future censuses also to ensure the comparability of the data at the village and other administrative levels over a long time series.At the 2001 census age at marriage was collected for males also, while it was collected for only ever-married females until the 1991 Census,the type of educational institution attended by a person was enlarged to include school, college, vocational institute, other and literacy center. The scope of the definition of 'work' was expanded in the Census of India, 2001, this includes production of milk for domestic consumption. In the 1991 Census, cultivator of certain crops even for self-consumption was treated as economic activity. The scope of the term 'Cultivation' was expanded in this Census to include certain other crops such as tobacco, fruits, all types of flowers, roots and tubers, potatoes, chilies and turmeric, pepper, cardamom, all types of vegetables and fodder crops etc. This meant that activities related to production of all the above-mentioned crops for domestic consumption has been treated as work. Only five crops viz. tea, coffee, rubber, coconut and betel nuts have been classified under 'Plantation' in the Census of India 2001.

- At the 1991 Census, the question on seeking/available for work was canvassed for only non-workers. At the Census of India 2001, this question is asked from the Marginal Workers also. A question to elicit information on secondary work canvassed at the 1991 Census was dropped.

- From among the categories of non-workers adopted at the 1991 Census, the category 'Inmates of institutions' has been dropped and 'Retired Persons and Rentiers' has been replaced by the category 'Pensioners'.

- A new response category 'Moved after birth' was included in the question on reason for migration to bring out additional migration patterns. Natural calamities or distress migration as a reason for migration for last residence migrants included in the 1991 Census is covered under category of 'Other'.

- Number of children born alive to currently married women during last one year was collected for male and female children separately.

Besides the above modifications, the following new questions were canvassed at the 2001 Census:-

- A question on total disability was canvassed in the 1981 Census but in 1991 Census there was no provision for question on disability. At the present Census of 2001, a question to elicit information on total or partial disability was canvassed. The five types of disabilities on which information was collected are - in seeing, in hearing, in speech, in movement and for mentally disorderness.

- A new question on 'Travel to place of work' is canvassed mainly for workers engaged in non-agricultural activities. Information on distance from the residence to place of work and mode of travel to place of work was collected under this question.

The mode of presentation of DCHB in 2001 will by and large be same as that of 1991. The uniqueness of Census 2001 is that single record (Household Schedule) has been processed as against two records viz. Individual Slip and Household Schedule in the previous Censuses. Apart from this some deviation has been made this time by incorporating analytical notes on migration, fertility & mortality, education, marital status, age structure etc. pertaining to 1991 Census of the respective district in the DCHB in the form of Annexure II to VIII. Similarly Tables based on Houselist data pertaining to Census 2001 has also been included in DCHB.

(ii) Brief History of the District:

As regards its name Valsad Town does not find any reference before A.D. 1300.The opinion of some of the learned persons residing here is that the original name of this place was Nyagrodhpur. In Sanskrit, Nyagrodh means Vad (Fag tree). Somebody might have thought about Nyagrodhpur, keeping in mind the work Val-Vad occurring in Valsad. There might have been a cluster of fig trees here and so the name Valsad or by corrupt form Valsad may have been accepted. The name of the district has been kept as Valsad District from the name of the Valsad Town thus accepted.

The reference in the stone inscription at Junagadh of the King Mahakshatrap Rudradaman proves that this region was under the rule of Mauryas from the time of Chandragupta Maurya (about B.C. 322-298). There is no history regarding the continuation of this reign after the period of king Ashok (about B.C. 233-237). In Valsad and Surat district, the reign of Trekutakas continued till A.D. 500. Some time after that King Harishena of Vakatak brought Trekut and Lat under his power. Some years after that, the South Gujarat came under the rule of Katachuri clan, which continued upto about A.D. 620. Due to victory of Chaulukya king Pulakeshi-II, the power of Katachuris disappeared from the South Gujarat. Thereafter, the Saindrakas came into power in South Lat (Surat –Valsad districts). In about A.D. 670, the reign of Saindrakas came to an end in the South Lat.

Vikramaditya I, the son of the Chaulukya King Pulakeshi–II handed over (in A.D. 671) to his brother the regions of Nasik district, North Konken and South Lat to his brother Dharashrya Jaysingh. Thereafter, his crown prince Shrayashraya Shiladitya administered south Lat. His successor was Avani Janashraya Pulakeshi. During the time of this king, Arab army of Sindh attached Navsari after crossing the regions of Kutchh, Saurashtra, North Gujarat etc. and they intended to march towards South from there but this Chaulukya king heavily defeated them at Navsari and forced them to return. Navsari was the capital of the Chaulukyas of Lat branch within short period after the welfare reign of Avani Janashraya Pulakeshi, the Chaulukya kingdom came to an end.

Rashtrakuta king Dantidurga destroyed the power of Chalukyas in the South and victoriously marched upto Reva and Mahi rivers in Gujarat (before A.D. 750). The cousin brother of Dantidurga, Govindraj and thereafter his son Karkaraj II came to the throne around A.D. 755. Rashtrakutas are now known as Rathods in A.D. 973, Chaulukya King Tail Tailap II put an end of the reign of Rashtrakutas.After A.D. 1299, the present district of Valsad came under the administrative influence of the emperors of Delhi. During the middle age of about A.D. 1299-1757, Muslims power was in existence.

It was an important event that some Jarethostries from Iran came and settled in Sanjan due to harassment by Arab victors. They left their native land to protect their religion and came to Gujarat. After residing for 19 years in Diu, they arrived in Sanjan. They adopted Gujarati language and dress and merged with local people like sugar in milk. They were known as Parsis, as they came from Paras (Iran). Jarathostries settled in Sanjan played a very important role in developing the economic condition of this district. In this, the main industries were shipbuilding and distillery.

In the beginning of the seventeenth century, the British tried to enter on the west coast of Gujarat. In A.D. 1609, the vessel ‘Accenssion’ broke down near the coast of Atthavisi and its sailors embarked at the port of Gandevi. After the fall of Surat Fort (1759), the British had kept their eyes on Surat Atthavisi paraganas. In the intersenine struggle at Pune, Raghoba ran away and took shelter of the British at Surat. As a result, Surat Agreement was executed between Raghoba (Raghunath Rao) and the British in 1755. As per the terms of this Agreement, the company took possession of the region of Surat Atthavisi paraganas including Valsad. But thereafter they had to execute Salbai Treaty in 1782 due to political and armed pressure and the power of Peshva over Gaikwad had to be accepted and also all paraganas including Valsad district had to be returned. This district recorded minimum influence of the Freedom revolution of 1857. After running away from Satara, Tatyatope changed the name ‘Tabeldas’ and resided in a temple on a hillock near Dudhia lake of Navsari.

Like other districts of Gujarat, Valsad district has also given considerable contribution in the Freedom movement. As a part of the former Surat district, the people of this district actively participated in the movement against addition of Tax on Salt in 1844 and initiated the first ever movement against the foreign Government. Shri Arvindo Ghosh entrusted the work of spreading revolution in the South Gujarat to his brother Shri Barindra Ghosh. He, with the assistance of Shri Chhotubhai Purani initiated the young men like Shri Ambubhai Purani, Bapalal Vaidya, Chandrashankar Bhatt, Dinkar Pandya etc. to spread armed revolution. Later on they also joined non-violence movement for independence. A booklet named 'Vegetable Medicines' written by Narshibhai Patel was printed in the press of Abasaheb Ramchandra and Madhavrao of Bilimora. The Bengali revolutionaries had established their underground station in a former poultry farm near the present day Sardesai Factory in Bilimora. In short, this district was active in Freedom movement from 1905 to 1942.

After independence, as a part of Surat district this region was under Greater Bombay State and later,when the Gujarat State was formed on 1st May, 1960, the present Valsad district was a part of Surat district. The Government of Gujarat bifurcated the Surat district into two districts, namely Surat and Valsad on 01-06-1964.In newly formed Valsad district eight talukas namely, (1) Navsari (2) Chikhli (3) Bansada (4) Valsad (5) Dharampur (6) Pardi (7) Umbergaon and (8) Gandevi were included. For the purpose of revenue administration, this district was divided into two sub divisions and the above eight talukas.

Again in 1997 by several notification (s), Government of Gujarat reconstituted some districts and talukas of the State. The present Valsad district is bifurcated from old Valsad district and new Navsari district is created from it by separating four talukas vide the Government Notification No.GHM-97-83-M-PFR-1097-L dated 24th September, 1997. Thus the new Valsad district came into existence with four talukas namely Valsad, Dharampur, Pardi and Umargaon. Further Dharampur taluka was bifurcated creating Kaprada taluka vide the Government Notification No.GM/97/1239/(1)/M/PFR/2897/2597/L dated 15th October 1997.

(iii) Administrative Set-up :

With a view to run the administration of the State smoothly, it has been divided into Districts, which in turn have been further sub-divided into Talukas (Tahsils). In the State of Gujarat, the Community Development Blocks are co-terminus with the Talukas. The Talukas contain large number of villages and possibly several towns. The villages have Village Panchayats to run the local administration. A Village Panchayat may constitute of one revenue village, several revenue villages or a part of a large village. Similarly, the Towns have Municipality or Municipal Corporation as the seat of local self-government.

In the State of Gujarat, as on December 1999 there were 25 districts and 226* Talukas, against 19 districts and 184 Talukas in 1991 Census. In 1997 by several notification (s), Government of Gujarat reconstituted some districts and talukas of the State.The present Valsad district is bifurcated from old Valsad district and new Navsari district is created from it by separating four talukas vide the Government Notification No.GHM-97-83-M-PFR-1097-L dated 24th September, 1997. Thus the new Valsad district came into existance with four talukas namely Valsad, Dharampur, Pardi and Umargaon. Further Dharampur taluka was bifurcated creating Kaprada taluka vide the Government Notification No.GM/97/1239/(1)/M/PFR/2897/2597/L dated 15th October 1997.

The District Collector looks after the general administration, maintenance of collection of land revenue and settlement of law related disputes, civil supplies, district planning, mid-day meal scheme, etc at the district level.At the Taluka level, Mamlatdar looks after the land development and revenue collection and law and order.The functions of administration of law and order and control and investigation of crime are done by the Superintendent of Police of the district with the help of Police Stations working under him. For the purpose of maintaining law and order there are 5 police stations, 11 police chowkies and 9 out-posts as per statement below.

* Vagdod taluka merged in the Patan taluka of the Patan district on 3d July 2001.

Source : Director General of Police, Gandhinagar, 2000

The Panchayati Raj institutions are fairly strong and most of the development works have been transferred to the District Panchayats and its subordinate bodies. The District Panchayat has an elected President and District Development Officer appointed by the Government, works as its Secretary, who looks after day-to-day work related to the development. Similarly, at the Taluka level, Taluka Panchayats have been constituted which have an elected President. The Taluka Development Officer, placed by the Government as Secretary of the Taluka Panchayats and he conducts the regular administrative work. Like wise, an elected President heads the Municipality and the Chief Officer works as the Secretary of the Municipality, who looks after the day-to-day work. In case of the large cities, the State Government has constituted Municipal Corporation, which are headed by an elected Mayor and the Municipal Commissioner, appointed by the Government, looks after the routine work. At the Village level, the Sarpanch is the elected Chief and the Talati (Village Mantri) works as the Secretary to the Village Panchayat and looks after the day-to-day work. In view of the expanding role of the public administration in a state like Gujarat, the Government has taken-up many activities and has set up several offices. Such offices which came into the existence are as under:

(1) Education
(Primary and Higher Education)

(2) Agricultural and Research

(3) Animal Husbandry and Poultry

(4) Forest and Environment

(5) Roads and Buildings, Bridges

(6) Co-operation and Co-operative Societies

(7) Industries, Small and Large as well as Cottage

(8) Health and Medical Services, Medical Education and Research, Family Welfare and Nutrition

(9) Information Department,

(10) Irrigation Minor and Major

(11) Social Welfare and Social Defence

The functions of above offices are managed and controlled by concerned Head of Departments and in some cases also by District and Taluka Panchayats. The task of providing primary education in rural areas has been entrusted to District Panchayats.The functions related to Government of providing primary education is assigned to District Primary Education Officer of District Panchayat who works under District Development Officer.The secondary education is looked after by District Education Officer of Education Department. Primary education as well as higher secondary education of all types is governed by District Education Officer.

Agriculture activities have been delegated to District Panchayat to a large extent and District Agriculture Officer is in-charge of looking after agricultural produce including crops and vegetables. Similarly Animal Husbandry is also a Panchayat activity and routine work is controlled by the Deputy Director (Animal Husbandry) who sits in District Panchayat taking care of animals and poultry farms. Besides, district agriculture office in Panchayat Offices such as Deputy Director (Agriculture) and other officials look after various aspects of agriculture for developing the sector as well as to extend necessary assistance to farmers at district level.

Besides Director, Animal Husbandry Officer of Panchayat offices such as Deputy Director (Animal Husbandry) Special Officers at Veterinary offices etc. In state government animal husbandry department also monitor activities of the sector at district level.

Public Health in rural area is assigned to the District Panchayat under the Chief District Health Officer who looks after epidemics, malaria control, water borne diseases and district level administration of Public Health Centres. District

and Talukas Hospitals and Referral Hospitals are being looked after by the District Civil Surgeon of medical services in the State, while Medical Colleges and Research activities attached with the respective Civil Hospitals are controlled by Medical Education and Research Wing.Family welfare activities are also monitored by the District Health Officer. Chief District Health Officer is also functioning as District Registrar of Birth and Death of the district and Talati cum Mantri is also Registrar of Death and Birth for the respective villages. Anaemic mothers and children upto to the age of 14 are looked after by Nutrition Officer under the Nutrition Programme. District Ayurvedic Officer looks after the Ayurvedic dispensaries and hospitals. They also take care of the Ayurvedic plants and medicines and gardens. The District Food and Drugs Officer generally looks after the quality of the food and drugs in the district. Labourers and workers who are working in registered units are covered under the Employees State Insurance Scheme.

The rural roads have been transferred to the District Panchayats and their maintenance is done by the Executive Engineer, Roads and Buildings Department. Minor irrigation works are transferred to the District Panchayat and Executive Engineer (Panchayat) of the Panchayat's irrigation office looks after water harvesting and check dams.

The Roads and Buildings Department of State Government looks after the maintenance of roads, buildings, bridges and government multi-storey buildings etc. Besides Panchayat officials, major district roads and the state highways are looked after by the Executive Engineer (Roads & Buildings). The large multi-purpose irrigation projects are controlled by State Government directly through its Executive Engineers.

District Industries Centre is functioning to develop the small and village industries, handloom industries and the scope of industrial growth in the district. Besides, other departments are working for the rights of the industrial workers and rural labourers engaged in agriculture and others sectors.

Social welfare activities relating to the Scheduled Castes, Scheduled Tribes, Other Backward Castes and Other Backward Communities in the District are organized by the District Welfare Officer. Generally the schemes under Tribal Area Sub Plan and Special Component Plan are organized by the District Welfare Officer. In each District Panchayat, District Statistical Officer of Directorate of Economics and Statistics looks after co-ordination of different development programmes. He is also Member-Secretary of District Planning Board. Similarly in every Collector Office, District Planning Officer looks after development work of various Government (State & Centre) sponsored programmes.

Co-operative Societies i.e. Co-operative Milk Societies, Agricultural Produce Market Societies, Co-operative banking and other co-operative societies are controlled by the District Registrar Co-operative Societies.

(iv) Physical Feature :

Valsad district is situated in the South Gujarat. It lies between the parallels of latitude of 20° 7' and 20° 45' and the longitude of 72° 43' and 73° 29'. The length from north to south of this territory is about 72.4 km and from east to west about 80.3 km. It is surrounded by newly created district Navsari on its north side, on the south by Thane district of Maharashtra State, on the west by Arabian sea and on the east by the Dangs district. The area covered by the district is 3,035 Sq.km. The rank of the district is 19th by area among the districts of the State.

Physiography :

Valsad district forms a part of Gujarat Plain and is sub-divided into three sub-micro regions, namely, Valsad Coast, Middle Valsad Plain and Western Ghats on the basis of topography, climate, geology, soils and natural vegetation.

Valsad Coast

The region occupies the western part of the district and extends over Umbergaon, Pardi and Valsad talukas. It is enclosed by Arabian Sea from west, by Navsari district from north, by Middle Valsad Plain from east and by Maharashtra State from south.

As regards the relief, the elevation of the region ranges from 10 metres in western portion to 25 metres above M.S.L. in eastern part. The entire region has good effect of sea and land breeze. The geological structure of the region is mainly formed of Alluvium, blown sand etc. and Deccan Trap. There is a good agricultural activity in this region supported by good soils and moist weather conditions.

*Kosamba (06) Kosmaba, census town of 1991 census has been dedassified and dedared as o6 of Valsad. (M).

Middle Valsad Plain

The region extends over the middle of the district and covers the Umbergaon, Pardi, Valsad and Dharampur talukas. It makes its limits with Valsad Coast in the west, Navsari district in the north, Western Ghats in the east and Dadra and Nagar Haveli(U.T.) in the south.

As regards the relief, the maximum height of the region is recorded 300 metres above M.S.L. near Bansda town and the minimum elevation (10 metres) is found near Navsari town. General slope of the region is westward. It is drained by Kaveri, Auranga and Par rivers. The geology of the region is mainly composed of Deccan Trap. Small tracts of Alluvium, blown sand, etc. are also observed in the region.

Western Ghats

The region extends over the eastern part of the district and occupies Dharmpur and Kaprada talukas. It makes its boundaries with Surat district in the north, The Dangs district and Maharashtra state in the east. Dadra and Nagar Haveli (U.T.) in the south and Middle valsad plain in the west.

The terrain of the region is uneven with an attitude ranging rom 280 metres to 615 metres above M.S.L. General slop is from east to west. Geologically, the region is composes of Deccan Trap.

Hills:

The Sahyadri mountain starts at the south of river Tapti. In Valsad district the south-east corner of this mountain touches Dharampur. The noted mountain hills in the talukas of the district are Indragadh, Jogmedo and Talio in Umbergaon taluka, There is Parnera hill near Valsad.The hilly area in Dharmpur is 48 km. wide which narrow down to 24 km in the south.

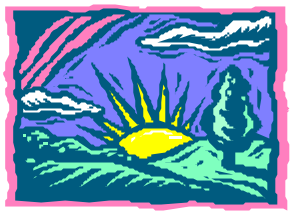

Drainage:

In Valsad district Auranga, Kharera, Ambica par, Kaveri, Purna, Kolak,

Damanganga Tan, Man, Nar, Mindhola and Karly are the main rivers. All these rivers get water during the monsoon from June to September. But by January water recede in these rivers. The flow of all these rivers is from east to west and each of them empties in the Arabian Sea.

Climate:

The climate of Valsad district is characterized by a hot summer and general dryness except during the southwest monsoon season. The year may be divided into four seasons. The cold season from December to February is followed by the hot season from March to May. The period from June to about the end of September is the southwest monsoon season. October and November constitute the post-monsoon or retreating monsoon season.

a) Temperature:

The records of the observatory of neighbouring district may be taken as representative of the meteorological conditions in this district in general. Due to ocenic breezes in coastal area and due to hills and dense forest area, moderate temperature is observed in the district. After February, temperatures begin to increase steadily. The month of May being the hottest,and January being the coldest month in the district. In 1999 the highest temperature of about 45^0 C is observed,against the lowest of about about 9^0 C. Lower temperature is observed in the plains while further lower temperature is observed in the hilly area of the district.With the advance of the monsoon from around mid-June there is appreciable drop in the day temperatures but the nights throughout the monsoon season are nearly as warm as the nights in summer.

b) Winds:

Winds are generally light with some strengthening in force during the late summer and early south-west monsoon season. Winds blow mostly from directions between south and west during May and the south west monsoon season. In October winds are variable in direction. In November and December winds are mostly from directions between north and east. In the next three months winds in the morning are from directions between north and east and in the afternoons between southwest and northwest. In April winds are variable in direction in the mornings, northerlies, north-westerlies and southerlies being more common. In the afternoons winds are from directions between south-south-west and northwest.

c) Rainfall:

The annual rainfall in the district is 2,247.8 mm in the year of 1999. It is received during the south-west monsoon season. July being the month with the highest rainfall. The rainfall generally goes on decreasing from the south-east to the north-west region. It varies largely from year to year owing to the irregular and erratic nature of the monsoon. The detail of Monthly rainfall from 1995 to 1999 of this district are given below:

Monthly Rainfall (From 1995 to 1999)

(In mm.)

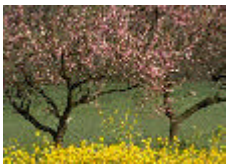

Year	May	June	July	August	September	October	November	Annual rain fall
1995	0.0	39.0	979.0	196.0	182.0	0.0	0.0	1,396.0
1996	0.0	165.9	766.9	501.0	149.2	111.8	0.0	1,694.8
1997	0.0	324.6	551.9	456.9	161.5	17.9	0.0	1,512.8
1998	0.0	275.4	751.6	579.0	832.2	221.8	25.0	2,685.0
1999	0.8	647.4	932.4	210.6	275.6	181.0	0.0	2,247.8

Source : Directorate of Agriculture, Gujarat State, 1998, 1999.

Economic Resources :

Economic resources are an important means of subsistence for the working people of the district. The details about economic resources of important sectors are given hereunder in brief.

(1) Forestry :

According to the figures available from the Forest Department for the year 1998-99 and 1999-2000, out of the total area of 3,035 sq. km. of the district, an area of about 1,187 Sq. km is covered by forest. Among them 1,161.6 sq. km. are reserved forest,18.6 are protected forest and 6.8 sq. km forest are unclassified forest. Forest worth are found only in hillock. The forest of the district is mainly of mixed deciduous type and is rich in flora and fauna. It mostly contains teak and bamboo trees. There are many other species too, viz, *Rayan, Karanj, Jambu, Amla, Behda, Sarsado, Dhawada, Semlo, Bili, Bordi* etc.

(2) Minerals and Mining :

The known mineral wealth of Valsad district is substantial though less diversified than in a few other districts of the State. Among minerals available in the district are brick clay, ordinary clay, sand, red clay etc. The details are given below:

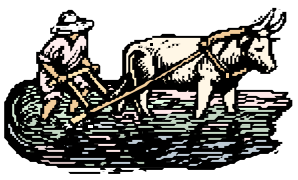

Major and Minor Mining Products & Income

Sl. No.	Products	1999-2000	
		Production (MT)	Income (RS.)
1	2	3	4
1	Major Products	-	-
2	Total Minor Products	357,295	7,621,930
	Grand Total	357,295	7,621,930

Source : Commissionerate of Geology and Mining, 2000.

(3) Soil and Cropping Pattern :

This district's land is more or less plain except some hills. The soil of Valsad district is fertile. The soil at many places is black, yellowish red and even black soft.

The cropping pattern of the district is dominated by non-food crops. Food crops and fodder crops are also grown in the district. In the agriculturally backward talukas, the area under non-food crops was less as compared to those talukas which were progressive. An analysis of the crop statistics of different crops in the district reveals that among food crops jowar, bajri and wheat are more extensively grown, while among non- food crops cotton occupy prominent place.

(4) Land and Land use Pattern :

The total land in the district was 3,035 sq.km. during 1999. The land classification according to the different uses for the rural areas of the district for the year 1999 is given below on the basis of information collected from the Village Directory.

Land Classification of Rural Areas

(in '00 hectares)

Sl. No	Classification	Area (As on 31-3-99)
1	2	3
1	Forest	876.5
2	Irrigated cultivable land	379.4
3	Unirrigated cultivable land	1,127.4
4	Cultivable waste (including Gauchar and Groves)	253.5
5	Area not available for cultivation	185.6
	Total :	**2,822.4**

Source : Village Directory, 2001.

(5) Tenancy :

There was no separate Act on tenancy in the former Bombay State before 1939. There were provisions of Section 83 of Land Revenue Code and Mamlatdar Court law only. The tenant was not secured of his tenancy rights. This tenancy lease was considered yearly and had to pay tenancy as per tradition or according to the agreement made with the land owner. In order to protect the tenants, the Bombay Tenancy Act, 1939 came into force in the erstwhile Bombay State.

After the independence of the country, it was necessary that the country is self-sufficient in agricultural production. It can be done only when the tillers of the land should have some definite rights over the land. With a view to effect control on efficient utilization of agricultural land and also to protect the tenants further and also to accept a definite policy and view for the country on agricultural land, The Bombay Tenancy and Agricultural Land Act, 1948 was enacted and it was brought into force since then.

The Act of 1948 was amended five times. An important provision of 'Farmer Day' was inserted in the Act on 1-8-1956. According to this provision, if any person legally tilled the land of other person on 01-04-1957, he was entitled to purchase the said land. Even though Gujarat State was bifurcated from Bombay State in 1960, the said act applied to it also as well.

Tenant means the person who held land on lease viz.

(1) Tenant as per Section 4;

(2) Protected tenant

(3) Permanent tenant

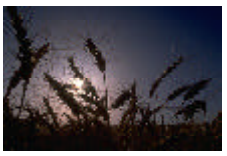

(4) The person who continued to possess the land with or without the consent of the land owner after appointed date and upto specified date or it is considered that he continued the possession of the land.

In Gujarat 1,049,056.4 hectares of land have been released and distributed to total 1,278,125 beneficiaries permanently under The Bombay Tenancy and Agricultural Land Act, 1948. Among the beneficiaries, 177,171 were from Scheduled Castes, 258,132 from Scheduled Tribes and 842,822 from others category.

In Valsad district, in all 63,652.2 hectares of land have been released and distributed to total 90,343 beneficiaries. Out of total beneficiaries, 19,226 Scheduled Castes beneficiaries were allotted 25,502.5 hectares of land, 44,331 Scheduled Tribes beneficiaries were allotted 22,863.9 hectares of land and 26,786 beneficiaries under 'others' category were allotted 15,285.8 hectares of land.

(6) Agriculture :

(a) Area under Major Crops :

The area under major crops for the years 1993-94 and 1997-98 is indicated as following statement.

Area under Major crops

(in '00 hectare)

Sl. No	Name of Crop	Area under Major crops	
		1993-94	1997-98
1	2	3	4
1	Paddy	529	570
2	Wheat	7	6
3	Jowar	5	8
4	Ragi	82	79
5	Other cereals	19	18
6	Gram	6	6
7	Other pulses	172	167
8	Sugarcane	110	130
9	Groundnut	3	4

Source : Season and Crop Report, Directorate of Agriculture, 1999.

The area under wheat, ragi, other cereals and other pulses has decreased while the area under paddy, jowar, sugarcane and groundnut has increased during the year 1997-98 as compared to the year 1993-94. It can be noticed that majority of the cropped area was under paddy, other pulses, sugarcane and groundnut.

(b) Average yield per hectare

The average yield per hectare of the principal crops in the district during the year 1993-94 and 1997-98 is shown below:-

Average Yield per Hectare

(In kgs)

Sl. No	Name of Crop	Average yield per hectare	
		1993-94	1997-98
1	2	3	4
1	Jowar (Kharif)	276	743
2	Paddy (Rabi)	3,537	1,837
3	Paddy (Summer)	2,094	3,357
4	Wheat	2,244	2,641
5	Groundnut	750	1,417
6	Sugarcane	7,900	6,835
7	Ragi	2,269	922

Source : Season and Crop Report, Directorate of Agriculture, 1999.

The average yield per hectare was higher in groundnut, paddy (summer), jowar and wheat during the year 1997-98 than that recorded during the year 1993-94 while for groundnut big jump is observed.

(7) Irrigation :

Source of Irrigation :

The area irrigated by different sources during 1993-94 and 1997-98 in the district is presented below :

Area Under Irrigation by Source

(In '00 hectares)

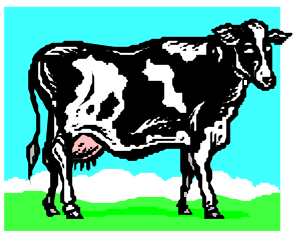

Sl. No.	Source of Irrigation	1993-94		1997-98	
		Net	Gross	Net	Gross
1	2	3	4	5	6
1	Govt. canals	29	38	42	51
2	Tanks	18	18	17	17
3	Wells	280	313	334	368
Total		**327**	**369**	**393**	**436**

Source : Season and Crop Report, Directorate of Agriculture, 1999.

The above figures indicate that wells are the main source of irrigation in the district.

(8) Animal Husbandry :

(a) Livestock :

Cattle wealth plays a pivotal role in the rural economy of the district. According to the livestock censuses of 1992 and 1997, the live stock population in the district is indicated below.

Livestock

Sl. No.	Livestock	Year	
		1992	1997
1	2	3	4
(A)	**Total Livestock**	**506,492**	**455,734**
1	Cattle (cross breed)	10,291	25,007
	(a) Male over 2.5 years	800	3,106
	(b) Female over 2.5 years	4,935	11,200
	(c) Young stock	4,556	10,701
2	Cattle (Indigenous)	272,701	207,609
	(a) Male over 3 years	114,386	82,881
	(b) Female over 3 years	77,811	67,973
	(c) Young stock	80,504	56,755
3	Buffaloes	77,534	67,941
	(a) Males over 3 years	14,415	12,672
	(b) Females over 3 years	34,270	31,682
	(c) Young stock	28,849	23,587
4	Sheep	5,150	4,991
5	Goats	137,999	129,308
6	Horses and ponies	124	67
7	Camels	1	12
8	Pigs	2,622	1,215
9	Other livestock	70	19,584
(B)	**Poultry**	**692,335**	**514,346**

Source : (1) Directorate of Economics and Statistics, Livestock Census, 1992.

(2) Directorate of Animal Husbandry, Livestock Census, 1997.

The livestock population and poultry have decreased by 50,758 and 177,989 respectively in 1997 as compared to the year 1992.

(b) Agricultural Implements :

According to the livestock census conducted in the State, the comparative data for agricultural implements in the district for the years 1992 and 1997 are shown as following statement.

Agricultural Implements

Sl. No.	Name of Agricultural Implements	Year 1992	Year 1997
1	2	3	4
1	**Plough**	**62,634**	**54,309**
	(a) Wooden	60,510	51,549
	(b) Iron	2,124	2,760
2	Cart	18,619	14,980
3	Oil engine	6,657	7,891
4	Electric Motor & Pump	5,297	5,317
5	Tractor	1,331	1,547

Source : (1) Directorate of Economics and Statistics, Livestock Census,1992
(2) Directorate of Animal Husbandry, Livestock Census,1997

The numbers of agricultural implements except ploughs and carts have shown an increasing trend during the year 1997 as compared to the year 1992.

(9) Fisheries :

Valsad district has an extensive sea coast of about 90 km. (incl.Navsari). A cool winter season and other oceanographic conditions offer good facilities for marine fisheries and their development. The Arabian Sea on the west of the district are quite favourable for fishing. Fishing is done round the year in the district. The main fish available in the district are *bumla, ghol, dara, karkaru, zinga, letva and magru.* Fisciculture activities in the district have been undertaken in the coastal as well as inland waters. The important fisheries statistics for the district are given hereunder for the years 1997-98 and 1998-99.

Fisheries Activities

Sl. No.	Item	Year 1997-98	Year 1998-99
1	2	3	4
1	Total Number of Fishing boats	3,848	3,950
2	Total Number of Fishing nets	106,147	106,147
3	Fish production (In tonnes)	81,559	88,817
4	Number of active fishermen	26,004	26,004
5	Fishermen primary Co-operative Societies Number)	28	41
6	Membership of fishermen's primary co-operative Societies	19,138	27,428
7	Paid up share capital of fishermen's Co-operative societies (In'00 Rs.)	23,724	34,661

Source: Commissionerate of Fisheries,2000

The above data indicate a rising trend in the fishing activities in the district during 1998-99 as compared to the year 1997-98.

(10) Industry :

The total number of registered factories and average number of daily workers employed by major groups of industries for the years 1998 and 1999 are shown in the following statement.

Distribution of Important Industrial Establishments by Major Industrial Group

Sl. No	Major Group of N.I.C. (National Industrial Classification)	Description of Manufacture	As on 31.12.98 Number of Establish-ment	As on 31.12.98 Average Number of persons working per day	As on 31.12.99 Number of Establish-ment	As on 31.12.99 Average Number of persons working per day
1	2	3	4	5	6	7
1	20-21	Food products	35	2,276	40	2,128
2	22	Beverages, tobacco and related products	7	127	7	147
3	23	Cotton textiles	33	4,543	37	3,561
4	24	Wool, silk and man made fibre textiles	164	4,255	155	5,098
5	25	Jute and other vegetable fibre textiles(except cotton)	6	228	6	296
6	26	Textile products (incl wearing apparel)	67	4,830	67	4,834
7	27	Wood and wood products Furniture and fixtures	63	1,059	66	985

Sl. No	Major Group of N.I.C. (National Industrial Classification)	Description of Manufacture	As on 31.12.98		As on 31.12.99	
			Number of Establish-ment	Average Number of persons working per day	Number of Establish-ment	Average Number of persons working per day
1	2	3	4	5	6	7
8	28	Paper and paper products and printing, publishing and allied industries	146	6,759	150	6,865
9	29	Leather and products of leather, fur and substitutes of leather	3	55	5	75
10	30	Basic chemical and chemical products (except products of petroleum and coal)	480	20,073	489	19,720
11	31	Rubber, plastic petroleum and coal products processing and nuclearfuels.	226	5,302	211	4,926
12	32	Non metallic mineral products	40	1,403	47	1,675
13	33	Basic metal and alloy industries	124	3,134	124	3,532
14	34	Metal products and parts except machinery and equipments.	126	2,628	121	3,161
15	35-36	Machinery and equipment other than transport equipment (scientific equipment, photographic/cinematographic equipment and watches and clocks is classified in division 38)	230	6,862	231	6,949
16	37	Transport equipment and parts	30	880	28	858
17	38	Other manufacturing industries	81	2,478	84	2,931
18	39	Repairs of capital goods	7	151	7	175
19	40-43	Electricity gas and water, Generation, transmission, distribution, water-works, supply etc	2	80	2	61
20		Other Industries	20	888	16	487
		Total :	**1,890**	**68,011**	**1,893**	**68,464**

Source: Chief Inspector of factories, 2000

The above data show that among registered establishments in the year 1999, the four most important groups were (1) Basic chemical and chemical products (except products of petroleum and coal) (2) Machinery and equipment other than transport equipment (3) Paper and paper products and printing, publishing and allied industries and (4) Wool, silk and man made fiber textiles. It can be observed that numbers of establishment as well as average number of persons employed per day have shown marginal increase in 1999 as compared to the year of 1998.

(11) Trade and Commerce :

Trade and Commerce includes wholesale and retail trade of all kinds and other commercial activities like financial, insurance, real estate and business services. Chemicals, plastic, agro and food processing, paper and sugar industries have developed well in the district. Chemical units at Vapi, Sarigam and chemical complex at Atul. The Chikoo and mango are two important fruits of the district being exported. The important commodities exported out of district from various towns are mentioned in table-47. There are 76 banks in urban areas.

Villages Having Banking Facility

Sl. No.	Name of Taluka	Number of Villages where Banking facility is available	Number of Banking Institutions	
			Commercial	Coperative
1	2	3	4	5

(12) Transport and Communication :

Transport and Communication facilities are considered as administrative necessity as well as a public convenience Moreover; a well-knit transportation system is a pre-requisite for the social and economic development of any district.

a) Road :

The linking of one place with other by road is very essential to provide good transport system. The information regarding roads available in Valsad district for the year 1998-99 to 1999-2000 is given in the statement below.

Road Length of Different Categories

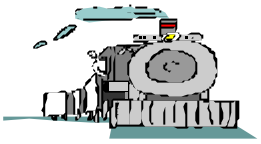

Sl. No	Year	Type of Road (in Kms.)										
		Highway				District Roads				Village Roads		Total
		National		State		Main		Other				
		GOVT. DN	PNCH DN	GOVT. DN	PNCH. DN	GOVT. DN	PNCH. DN	GOVT. DN	PNCH. DN	GOVT. DN	PNCH. DN	
1	2	3	4	5	6	7	8	9	10	11	12	13
1	1998-1999	63	0	363	0	116	574	44	306	40	510	2,016
2	1999-2000	63	0	372	0	116	574	44	306	37	517	2,029

Note : GOVT. DN = Government Division.
PNCH. DN = Panchayat Division.

Source : Roads and Buildings Department, Gandhinagar, 2001

According to 2001 census 347 villages and all Towns are connected with pucca roads and 267 villages are connected with kachcha roads.

b) Railway:

There are 9 villages having railway facilities in the Valsad district.

c) Port:

Kolak,Umarsadi,Umbergaon,Vansi-Borsi, Bilimora and Valsad are important ports for fisheries in the district. Valsad is very close to the coast-line. It is on the banks of river Ambica. The vessels of about 50 tonnes could enter here also during the tide. There is a ship building complex at Valsad which constructs boats for fishermen. A concrete jetty has also been built here.

d) Posts and Telegraph:

The following statement shows the number of villages in the district possessing post, telegraph and phone facilities. As regards rural areas of the district the facility of post, telegraph and telephone are available in 262,1 and 225 villages respectively.

Communications Facilities

Sl. No.	Type of Communication Amenities	Number of Villages having facility
1	2	3
1	Post Offices	262
2	Telegraph Offices	1
3	Telephone	225

Source : Village Directory, 2001

e) State Road Transport:-

Out of total 450 inhabited villages, 383 villages are connected by bus facilities upto 1998-99.

(13) Electricity :

Electricity is the chief necessity for the economic development of the district. The main source for power supply in the district is Gujarat Electricity Board. Out of 450 inhabited villages 425 villages are electrified in the district.

(14) Gram Panchayats, its composition, jurisdiction and role in the development of Village and its Economy :

The system of Panchayati Raj was introduced in the year 1963 in Gujarat State. Under this set up, the three tier system was introduced namely, The District Panchayat, The Taluka Panchayat and The Gram Panchayat.

Gram Panchayat is an important institution of self-government. The Gram Panchayat is formed for a village or a group of Villages. The Gram Panchayat is constituted for a local area with the population of less than 10,000. Such local area may be revenue village or a group of revenue villages or hamlets forming part of a revenue village or such other administrative unit or part of thereof. The number of members of Gram Panchayat varies from 9 to 15. The tenure of Gram Panchayat is of five years. The people of village elect Sarpanch and Vice-Sarpanch (Up-Sarpanch) and other members of the Panchayat. Various Committees

like; Social Justice Committee and Standing Committee are formed. In the year 1993 Government of India enacted 73rd Constitutional Amendment regarding provisions of Panchayati Raj and implementation of this Act in Gujarat started from 15th April 1994. By this constitutional amendment, Panchayats are given constitutional status. Regular and timely election, participation of women and backward classes, formation of separate State Election Commission and rotation system in electing the heads of the various committees are other significant amendments in the act. Decentralised planning process and active participation of people is the soul of the Panchayati Raj Act. The powers for decentralised planning, implementation and development are delegated to the Panchayats.The primary functions of the District/Taluka Panchayats are providing facilities for primary education, health, drinking water, electricity, constructions and maintenance of roads, bridges etc., maintenance of Gauchars, organising relief work at the time of scarcity and drought situation, sanitation and social welfare. Arrangements for housing facilities for below poverty line people and rural devlopment schemes are implemented by panchayats. Gram Panchayats also implement important programmes like, 'food for work' and other programmes beneficial for the local people. Thus, Panchayats play an important role in the development of village and its economy. There are 13,761 Gram Panchayats in Gujarat State. Out of 450 villages in Valsad district there are 47 group Gram Panchayats comprising 170 villages and 280 independent Gram Panchayats.

(v) Census Concepts :

Building :

A 'building' is generally a single structure on the ground. Sometimes it is made up of more than one component unit which are used or likely to be used as dwellings (residences) or establishments such as shops, business houses, offices, factories, workshops, work sheds, schools, places of entertainment, places of worship, godowns, stores, etc. It is also possible that buildings which have component units may be used for a combination of purposes such as shop-cum-residence, workshop-cum-residence office-cum-residence, etc.

Usually a structure will have four walls and a roof. But in some areas the very nature of construction of houses is such that there may not be any wall. Such is the case of conical structures where entrance is also provided but they may not have any walls. Therefore, such of the conical structures are also treated as separate building.

Permanent Houses :

Houses, the walls and roof of which are made of permanent materials. The Material of wall can be anyone from the following namely Galvanized iron sheets or other metal sheets, Asbestos sheets, burnt bricks, stones or concrete. Roof may be made of from any one of the following materials namely tiles, slate, galvanized iron sheets, metal sheets, asbestos sheets, bricks, stones or concrete.

Semi-permanent Houses :

Houses in which either wall or roof is made of permanent materials and the other is made of temporary material.

Temporary Houses :

Houses in which both walls and roof are made of materials, which have to be replaced frequently. Walls may be made from any one of the following temporary materials, namely, grass, thatch, bamboo, plastic, polythene, mud, unburnt bricks or wood. Roof may be made from any one of the following temporary materials, namely, grass, thatch, bamboo, wood, mud, plastic or polythene.

Dwelling Room :

A room is treated as a dwelling room if it has walls with a doorway and a roof should be wide and long enough for a person to sleep in, i.e., it should have a length of not less than 2 meters and a breadth of at least 1.5 meters and a height of a 2 meters. A dwelling room would include living room, bedroom, dining room drawing room study room, servant's room and other habitable rooms. Kitchen, Bathroom, latrine, Store-room, passage-way and verandah which are not normally usable for living are not considered as dwelling rooms. A room used for multipurpose such as sleeping, sitting, dining, storing, cooking, etc., is regarded as a dwelling room. In a situation where a census houses is used as a shop or office. etc., and the household also stays in it then the room is not considered as a dwelling room. But if a garage or servant quarter is used by a servant and if she/he

also lives in it as a separate household then this has been considered as a dwelling room available to the servants household tent or conical shaped hut if used for living by any household is also considered as dwelling room.

A dwelling room which is shade by more than one household has not been counted for any of them. If two household have a dwelling room each but in addition also share a common dwelling room. Then the common room has not been counted for either or of the household.

Census House :

A 'Census House' is a building or part of a building used or recognized as a separate unit because of having a separate main entrance from the road or common courtyard or, staircase, etc. It may be occupied or vacant. It may be used for a residential or non-residential purpose or both.

In certain peculiar situations, the manner in which buildings and census houses were identified for numbering in the field by the enumerators is described hereunder.

Sometimes a series of a different buildings are found along a street which are joined with one another by common walls on either side looking like a continuous structure. These different units are practically independent of one another and are likely to have been built at different times and owned by different persons. In such cases, though the whole structure with all the adjoining units apparently appears to be one building, each portion was treated as a separate building and its constituent units as separate census houses.

On the other hand, one may come across cases, particularly in large cities of multi-storied ownership flats. In these cases while the structure looks like one building, different persons own the flats. In case of such multi-storied structures, having a number of flats owned by different persons, the entire structure was treated as one building and each flat as a separate census house.

If within a large enclosed area, there are separate buildings owned by different persons then each such building is treated as a separate building. There can be a situation where within an enclosed compound there are separate buildings owned by an undertaking or company or even government that are actually in occupation of different persons. For example, Indian Oil Corporation colony where the buildings are owned by the Corporation but these are in occupation of their employees. Each such building was treated as a separate building. But if in any one of these buildings there were flats in occupation of different households, each such flat was reckoned as a separate census house.

Sometimes if becomes difficult to apply the definition of census house strictly in certain cases. For example, in an urban area, if a flat has five rooms, each room having direct entrance from the common staircase or courtyard. By definition, this has to be treated as five census houses. If all these five rooms are occupied by a single household. it was not realistic to treat them as five census houses. In such a case, 'singleness' of use of these rooms along with the main house should be considered and the entire flat was treated as one census house. On the other hand, if two independent households occupy these five rooms, the first household living in 3 rooms and the second household occupying 2 rooms, then considering the use, the first three rooms together were treated as one census house and the remaining rooms as another census house. But if each room was occupied by an independent household, then each such room was treated as a separate census house.

In case of hostels, hotels, etc., even if the door of each room in which an inmate lives opens to a common verandah, staircase, courtyard or a common room, as it happens almost invariably, the entire hostel/ Hotel building was treated as one census house. but if such hostels/ hotels have out-houses or other structures used for different purposes or the same purpose, then each such structure attached to the main hostel/hotel was treated as a separate census house.

In some parts of the country, in rural areas, the pattern of habitation is such that a group of huts, located in a compound, whether enclosed or unenclosed, is occupied by one household. While the main residence may be located in one hut, other huts may be used for sleeping, as a kitchen, bath room, baithak, etc. Though each of the huts was a separates structure, they form a single housing unit and therefore, have to be treated collectively as one building and one census house. If some of the huts are used by one household and the others

by a second household as residence, then the two groups of huts were treated as separate census houses. However, if there were also other huts in the compound used for other purposes and not as part of the household's residence such as, cattle shed, work shed, etc., these were treated as separate census houses.

On the other hand, in urban areas, where more than one structure within an enclosed or open compound (premises) belonging to the same person, e.g., the main house, the servant's quarter, the garage, etc., only one building number was given for this group and each of the constituent a separate census house number.

Only cases where a structure with roof and pillars has come up was treated as a building.

Village :

The basic unit for rural areas is the revenue village, which has definite surveyed boundaries. The revenue village may comprise of one or more hamlets but the entire village is treated as one unit for presentation of data.

In unsurveyed areas, like villages within forest areas, each habitation area with locally recognized boundaries is treated as one village.

Town-Urban Area :

The following areas are treated as towns/ urban areas :

(a) All places with a municipality, municipal corporation, cantonment board or notified town area committee, etc.

(b) All other places which satisfy or are expected to satisfy the following criteria simultaneously

i) A minimum population of 5,000;

ii) At least 75 per cent of the male working population engaged in non-agricultural pursuits; and

iii) A density of population of at least 400 per square kilometre (1,000 per square mile).

City :

Towns with population of 1,00,000 and above are called cities.

Urban Agglomeration :

An Urban Agglomeration is a continuous urban spread constituting a town and its adjoining urban outgrowths (OGs) or two or more physically contiguous towns together and any adjoining urban outgrowths of such towns. In some cases railway colonies, university campuses, port areas, etc., may come up near a city or statutory town outside its statutory limits but within the revenue limits of a village or villages contiguous to the town or city. Each such individual area by itself may not satisfy the minimum population limit to qualify it to be treated as an independent urban unit but may deserve to be clubbed with the town as a continuous urban spread.

For the purpose of delineation of Urban Agglomerations during Census of India 2001, following criteria are taken as pre-requisites:

(a) The core town or at least one of the constituent towns of an urban agglomeration should necessarily be a statutory town; and

(b) The total population of all the constituents (i.e., towns and outgrowths) of an Urban Agglomeration should not be less than 20,000 (as per the 1991 Census).

With these two basic criteria having been met, the following are the possible different situations in which Urban Agglomerations would be constituted:

i) a city or town with one or more contiguous outgrowths;

ii) two or more adjoining towns with their outgrowths; and

iii) a city and one or more adjoining towns with their outgrowths all of which form a continuous spread.

Household :

A 'household' is usually a group of persons who normally live together and take their meals from a common kitchen unless the exigencies of work prevent any of them from doing so. Persons in a household may be related or unrelated or a mix of both. However, if a group of unrelated persons live in a census house but do not take their meals from the common kitchen, then they are not constituent of a common household. Each such

person was to be treated as a separate household. The important link in finding out whether it was a household or not was a common kitchen. There may be one member households, two member households or multi-member households.

Institutional Households :

A group of unrelated persons who live in an institution and take their meals from a common kitchen is called an Institutional Household. Examples of Institutional Households are boarding houses, messes, hostels, hotels, rescue homes, jails, ashrams, orphanages, etc. To make the definition more clearly perceptible to the enumerators at the Census 2001, it was specifically mentioned that this category or households would cover only those households where a group of unrelated persons live in an institution and share a common kitchen.

Houseless Household :

Households who do not live in buildings or census houses but live in the open on roadside, pavements, in hume pipes, under flyovers and staircases, or in the open in places of worship, mandaps, railway platforms, etc., are treated as Houseless Household.

Scheduled Castes and Scheduled Tribes :

Article 341(1) of the Constitution provides that the President may, with respect to any State or Union territory, specify the castes, races or tribes or parts of or groups within castes, races or tribes which shall for the purposes of the Constitution be deemed to be Scheduled Castes in relation to that State or Union territory. Article 342(1) similarly provides for specification of tribes or tribal communities or parts of or groups within tribes or tribal communities, which are to be deemed for the purposes of the Constitution to be Scheduled Tribes in relation to the various States and Union territories. In pursuance of these provisions, the list of Scheduled Castes and / or Scheduled Tribes are notified for each State and Union territory and are valid only within the jurisdiction of that State or Union territory and not outside.

It is important to mention here that under the Constitution (Scheduled Castes) Order, 1950, no person who professed a religion different from Hinduism was deemed to be a member of a Scheduled Caste in addition to every member of the Ramdasi, Kabirpanthi, Majhabi or Sikligar caste resident in Punjab or Patiala and East Punjab States Union were in relation to that State whether they professed the Hindu or the Sikh religion. Subsequently, in September 1956, by an amendment, the Presidential Order of 1950 and in all subsequent Presidential Orders relating to Scheduled Castes, the Hindu and the Sikh religions were placed on the same footing with regard to the specification of Scheduled Castes. Later on, as per the amendment made in the Constitution (Scheduled Castes) Order 1990, the Hindu, the Sikh and the Buddhist were placed on the same footing with regard to the recognition of the Scheduled Castes.

The lists containing the names of the Scheduled Castes and the Scheduled Tribes applicable for the Census of India 2001 in the State is given below

List of Scheduled Castes :

1. Ager
2. Bakad, Bant
3. Bawa-Dedh, Dedh Sadhu
4. Bhambi, Bhambhi, Asadaru Asodi, Chamadia, Chamar Chambhar, Chamgar, Haralayya, Harali, Khalpa, Machigar, Mochigar, Madar, Madig, Mochi, Nalia, Telegu Mochi, Kamati Mochi, Ranigar, Rohidas, Rohit, Samgar.
5. Bhangi, Mehtar, Olgana, Rukhi, Malkana, Halalkhor, Lalbegi, Balmiki, Korar, Zadmalli.
6. Chalvadi, Channayya
7. Chenna Dasar, Holaya Desar
8. Dangashia
9. Dhor, Kakkayya, Kankayya
10. Garmatang
11. Garoda, Garo
12. Halleer
13. Halsar, Haslar, Hulasvar, Halasvar
14. Holar, Valhar
15. Holaya, Holer
16. Lingader
17. Mahar, Taral, Dhegu Megu
18. Mahyavansi, Dhed, Dhedh, Vankar, Maru Vankar, Antyaj

19. Mang, Matang, Minimadig
20. Mang-Garudi
21. Meghaval, Meghwal, Menghvar
22. Mukri
23. Nadia, Hadi
24. Pasi
25. Senva, Shenva, Chenva, Sedma, Rawat
26. Shemalia
27. Thori
28. Tirgar, Tirbanda
29. Turi
30. Turi Barot, Dedh Barot

List of Scheduled Tribes :

1. Barda
2. Bavacha, Bamcha
3. Bharwad (In the Nesses of the forests of Alech, Barada and Gir)*
4. Bhil, Bhil Garasia, Dholi-Bhil, Dungri Bhil, Dungri Garasia, Mewasi Bhil, Rawal Bhil, Tadvi Bhil, Bhagalia, Bhilala, Pawra, Vasava, Vasave.
5. Charan (In the Nesses of the forests of Alech, Barada and Gir) *
6. Chaudhri (In Surat and Valsad districts)
7. Chodhara
8. Dhanka, Tadvi, Tetaria, Valvi
9. Dhodia
10. Dubla, Talavia, Halpati
11. Gamit, Gamta, Gavit, Mavchi, Padvi
12. Gond, Rajgond
13. Kathodi, Katkari, Dhor Kathodi, Dhor Katkari, Son Kathodi, Son Katkari
14. Kokna, Kokni, Kukna
15. Koli (In Kachchh district)
16. Koli Dhor, Tokre Koli, Kolcha, Kolgha
17. Kunbi (In The Dangs District)
18. Naikda, Nayaka, Cholivala Nayaka, Kapadia Nayaka, Mota Nayaka, Nana, Nayaka
19. Padhar
20. Paradhi (In Kachchh district)
21. Pardhi, Advichincher, Phanse Pardhi (Excluding Amreli,Bhavnagar, Jamnagar, Junagadh, Kachchh, Rajkot and Surendranagar districts)
22. Patelia
23. Pomla
24. Rabari (In the Nesses of the forests of Alech, Barada and Gir)*
25. Rathawa
26. Siddi (In Amreli, Bhavnagar, Jamnagar, Junagadh, Rajkot and Surendranagar Districts)
27. Vaghri (in Kachchh district)
28. Varli
29. Vitola, Kotwalia, Barodia

* The area comprised of Jamnagar and Junagadh districts.

Language and Mother Tongue :

As per the census concept, each language is a group of mother tongues. The census questionnaire collects information on the mother tongue of each person and mother tongue is defined as the language spoken in childhood by the person's mother to the person. If the mother died in infancy, the language mainly spoken in the person's home in childhood will be the mother tongue. In the case of infants and deaf mutes, the language usually spoken by the mother is considered as mother tongue. It is not necessary that the language spoken as mother tongue should have a script. The mother tongues returned by the respondents in census are classified and grouped under appropriate languages according to their linguistic characteristics.

Literate :

A person age 7 years and above who can both read and write with understanding in any language is taken as literate. A person who can only read but cannot write is not literate. It is not necessary that to be considered as literate, a person should have received any formal education or passed any minimum educational standard. Literacy could also have been achieved through adult

literacy classes or through any non-formal educational system. People who are blind and can read in Braille are treated as literates.

Literacy Rate :

Literacy rate of the population is defined as the percentage of literates in the age group seven years and above. For different age groups the percentage of literates in that age group gives the literacy rate.

Educational Level :

The highest level of education a person has completed.

Work :

Work is defined as participation in any economically productive activity with or without compensation, wages or profit. Such participation may be physical and/or mental in nature. Work involves not only actual work but also includes effective supervision and direction of work. It even includes part time help or unpaid work on farm, family enterprise or in any other economic activity. All persons engaged in 'work' as defined above are workers. Persons who are engaged in cultivation or milk production even solely for domestic consumption are also treated as workers.

Reference period for determining a person as worker and non-worker is one year preceding the date of enumeration.

Main Worker :

A person who has worked for major part of the reference period (i.e. six months or more during the last one year preceding the date of enumeration) in any economically productive activity is termed as "Main worker".

Marginal Worker :

A person who worked for less than six months of the reference period (i.e. in the last one year preceding the date of enumeration) in any economic activity is termed as 'Marginal- worker'

Non Worker :

A person who has not worked at all in any economically productive activity during the reference period (i.e. last one year preceding the date of enumeration) is termed as 'Non worker'.

Cultivator :

For purposes of the Census a person is classified as cultivator, if, he or she is engaged in cultivation on land owned or held from government or held from private persons or institutions for payment in money, kind or share. Cultivation includes effective supervision or direction in cultivation.

A person who has given out her/his land to another person or persons or institution(s) for cultivation for money, kind or share of crop and who does not even supervise or direct cultivation in exchange of land, is not treated as cultivator. Similarly, a person working on another person's land for wages in cash or kind or a combination of both (agricultural laborers) is not treated as cultivator.

Cultivation involves ploughing, sowing, harvesting and production of cereals and millet crops such as wheat, paddy, jowar, bajra, ragi, etc., and other crops such as sugarcane, tobacco, ground-nuts, tapioca, etc., and pulses, raw jute and kindred fiber crop, cotton, cinchona and other medicinal plants, fruit growing, vegetable growing or keeping orchards or groves, etc. Cultivation does not include the following plantation crops – tea, coffee, rubber, coconut and betel-nuts (area).

Agricultural Labourer :

A person who works on another person's land for wages in money or kind or share is regarded as an agricultural labourer. She/he has no risk in the cultivation, but merely works on another person's land for wages. An agricultural laborer has no right of lease or contract on land on which she/he works.

Household Industry Worker :

Household industry is defined as an industry conducted by the head of the household herself/ himself and or by the members of the household at home or within the village in rural areas and only within the precincts of the house where the household lives in urban areas. The larger proportion of workers in household industry should

consist of members of the household including the head. The industry should not be run on the scale of a registered factory which would qualify or has to be registered under the Indian Factories Act and should be engaged in manufacturing, processing, servicing and repairs of goods.

It does not include professions such as a pleader, Doctor, Musician, Dancer, Waterman, Astrologer, Dhobi, Barber, etc. or merely trade or business, even if such professions, trade or services are run at home by members of the household.

Other Worker :

A person who has been engaged in some economic activity during the reference period but not as a cultivator or agricultural laborer or in Household Industry is termed as an 'Other-Worker (OW)'. The type of workers that come under this category of 'OW' include all government servants, municipal employees, teachers, factory workers, plantation workers, those engaged in trade, commerce, business, transport, banking, mining, construction, political or social work, priests, entertainment artists, etc. In effect, all those workers other than cultivators or agricultural laborers or household industrial workers, are 'Other Workers'.

Work Participation Rate :

Percentage of workers (main + marginal) to total population.

Population Density :

Population density is the number of persons inhabited per square kilometer of the area.

Age :

Age is measured in terms of the completed number of years.

Sex Ratio :

Numbers of females per 1,000 males in a population.

(vi) Non Census Concepts :

Improved Drinking Water :

If the household had access to drinking water supplied from a tap, hand pump, tube well or well (protected or covered) situated within or outside the premises, it is considered as having access to improved drinking water.

System of Sewerage :

Generally, a sewerage system would mean a network of mains and branches of underground conduits for the conveyance of sewerage to the point of disposal. Sewers that carry only household and industrial wastage are called separate sewers; those that carry storm water from roofs, streets and other surfaces are known as storm water drains, while those carrying both sewage and storm water are called combined sewers. However, in some towns, which are, not provided with such underground sewerage system, it is served by open surface drain, box drain, silk pattern drain, etc., in these towns.

Type of Latrine and Method of Disposal of Night Soil :

There are three prevalent systems of disposal of human wastes, viz.(i) underground sewerage, (ii) sanitary water flush latrines with individual disposal systems, like septic tank, leaching cess pool and collecting well, and (iii) dry type of latrines with manual scavenging.

The system of underground sewerage provides for the street sewerage with which are connected the sanitary latrines constructed in the houses having water closets and fitted with flushing cistern (or hand flushing). Through this sewer the faucal matter is transported without the need for scavenging. This system generally exists in cities and big towns.

Where the streets sewer does not exist these sanitary water flush latrines are connected to a local septic tank with a sub-soil dispersion system or a leaching pit. Here the liquid wastes from the water closet is disposed of locally in leaching pit, a septic tank with a soil dispersion system is constructed. This dispersion requires an optimum travel through the pores of the soil, which renders the harmful liquid bacterially innocuous by the slow process of filtration through the soil traversed.

Where the soil is impermeable, collecting wells are constructed and the sanitary water flush latrines are connected with them. These wells are cleaned at periodic intervals by a suitable device. The dry type of latrines are of service type latrines from where human excreta is removed by scavengers from house to house, in most cases carrying it on their heads or shoulders or in baskets with handle or wheel barrows. These are then collected in bullock carts or trucks or tractors and trolleys for being carried to the dumping grounds.

Fertility :

In demography, the word fertility is used in relation to the actual production of children or occurrence of births specially lives births. Fertility is a measure of rate at which population adds to itself by births and normally assessed by relating the number of births to a full or part of the population, such as number of married women or number of women of child bearing age. The definitions of the terminology used in computing different fertility rates are mentioned below.

Crude Birth Rate (CBR) :

Ratio of the numbers of live births in a year to the mid year population, (normally expressed per 1,000 population.)

$$CBR = \frac{\text{Numbers of live birth during the year}}{\text{Mid –year Population}} \times 1{,}000$$

Crude Death Rate (CDR) :

Ratio of the numbers of deaths in a year to the mid year population, (normally expressed per 1,000 population.

$$CDR = \frac{\text{Numbers of deaths during the year}}{\text{Mid –year Population}} \times 1{,}000$$

Natural Growth Rate : (NGR)

Natural Growth rate is obtained as the difference between crude birth rate and crude death rate in the absence of migration.

$$NGR = CBR - CDR$$

Age Specific Fertility Rate (ASFR) :

Number of live births in a year to female population in any specified age group normally expressed per 1,000 women.

$$ASFR = \frac{\text{Numbers of live births in a particular age group}}{\text{Numbers female population of same specified age group}} \times 1{,}000$$

Age Specific Marital Fertility Rate (ASMFR):

Number of live births in a year to married female population in any specified age group normally expressed per 1,000 married women.

$$ASMFR = \frac{\text{Number of live births in a particular age group}}{\text{Mid-year married female population of the same age group}} \times 1{,}000$$

General Fertility Rate (GFR) :

Number of live births per 1,000 women in the reproductive age-group (15-49) years in a given year.

$$GFR = \frac{\text{Number of live births in a year}}{\text{Mid-year female population in the age-group (15-49) years}} \times 1{,}000$$

General Marital Fertility Rate (GMFR) :

Number of live births per 1,000 married women in reproductive age-group (15-49) years in a given year.

$$GMFR = \frac{\text{Number of live births in a year}}{\text{Mid-year married female population in the age group (15-49) years}} \times 1{,}000$$

Total Fertility Rate (TFR) :

It is obtained as the total of the age specific fertility rates (number of children born per woman of the particular age) for the entire reproductive age span. It provides the average number of children that will be born to a woman under the fertility levels indicated by the age specific fertility rates assuming that there is no mortality of women till the completion of reproductive period.

$$TFR = \frac{5 \times \sum_{15-19}^{45-49} ASFR}{1{,}000}$$

Total Marital Fertility Rate (TMFR) :

Average number of children that would be born to a mirried woman if she experiences the current fertility pattern throughout her reproductive span (15-49) years assuming that there is no mortality of women till the completion of reproductive period.

$$TMFR = \frac{5 \times \sum_{15-19}^{45-49} ASMFR}{1{,}000}$$

Age-Specific Mortality Rate (ASMR) :

Number of deaths in a particular age and sex group per 1,000 population of the same age group.

$$ASMR = \frac{\text{Number of deaths in a particular age group}}{\text{Mid-year population of the same age group}} \times 1,000$$

q1 :

Probability of dying between birth and age 1. This can be used as approximate value of Infant Mortality Rate (IMR) which gives the ratio of number of deaths in a year of children aged less than one year to the number of births in that year.

q2 :

Probability of dying between birth and age 2.

q5 :

Probability of dying between birth and age 5. This indicator is also known as Under Five Mortality Rate (q5MR)

Infant Mortality Rate (IMR) :

Ratio of the number of infant deaths (deaths of children below one year) in a year to the number of live births in that year.

$$IMR = \frac{\text{Number of infant deaths during the year}}{\text{Number of live births during the year}} \times 1,000$$

Infant mortality rate comprises of two parts, viz., Neo-natal mortality rate and Post neo-natal mortality rate. The neo-natal mortality rate also comprises of two parts viz., early neo-natal mortality rate and late neo-natal mortality rate. These are defined as :

Neo-natal Mortality Rate (NMR) :

Number of infants dying within the first month of life (28 days or under) in a year per 1,000 live births of the same year.

$$KNMR = \frac{\text{Number of infant deaths aged 28 days under during the year}}{\text{Number of live births during the year}} \times 1,000$$

Early Neo-natal Mortality Rate : (ENMR)

$$KENMR = \frac{\text{Number of infant deaths of less than 7 days during the year}}{\text{Number of live births during the year}} \times 1,000$$

Late Neo-natal Mortality Rate : (LNMR)

$$LNMR = \frac{\text{Number of infant deaths of 7 days to less than 29 days during the year}}{\text{Number of live births during the year}} \times 1,000$$

Post Neo-natal Mortality Rate (PNMR) :

$$PNMR = \frac{\text{Number of deaths of 29 days to less than One year during the year}}{\text{Number of live births during the year}} \times 1,000$$

Peri-natal Mortality Rate (PMR) :

Number of stillbirths plus deaths within 1st week of delivery per 1,000 births in a year.

$$PMR = \frac{\text{Number of stillbirths and infant deaths of less than 7 days during the year}}{\text{Number of live births and stillbirths during the year}} \times 1,000$$

Stillbirth Rate (SBR) :

$$SBR = \frac{\text{Number of stillbirths during the year}}{\text{Number of live births and still births during the year}} \times 1,000$$

Maternal Mortality Rate (MMR) :

Number of deaths of women in the age group 15-49 while pregnant or within 42 days of termination of pregnancy from any cause related to pregnancy and childbirth per 100,000 live births in a given year.

$$MMR = \frac{\text{Number of maternal deaths to women in the age group 15-49}}{\text{Number of live birth}} \times 100,000$$

Eligible Couple (Couples per 1,000 population):

Number of currently married females in the age group15-44 years per 1,000 persons of all ages.

Child Woman Ratio (0-4) :

1. Number of children in the age group 0-4 years per 1,000 women in the age group 15-49 years.

Child Woman Ratio (5-9) :

2. Number of children in the age group 5-9 years per 1,000 women in the age group 15-49 years.

Migration :

Migration is the third component of population change, the other two being mortality and fertility.

A person is considered as a migrant by place of birth if the place in which he/she is enumerated during the census is other than the place of his/her birth.

Similarly a person is considered as a migrant by place of last residence if the place in which he/she is enumerated during the census is other than his/her place of immediate last residence outside the village or town and not simply in another house or locality in the same village or town.

Certain aspects concerning temporary movement/migration of people has been explained below as these are important components concerning migration :

(i) Migration of persons in search of job is high in the country. In many cases such migrants are only seasonal in nature. People migrate to other places for work in a particular season and come back again to their usual place of residence after three or four months. All such workers are treated as migrants. Similarly, if a person moved to any other place for attending short term vocational or educational course that lasted for only few months of a year, she/he too were considered as a migrant.

(ii) Where a person had merely gone out to another place or had been shifting from one place to another purely on tour, pilgrimage, visit to hospital for treatment or for temporary business purposes, such persons are not deemed to have had another residence different from the place where she/he or her/his family normally resides. She/he is not considered as migrant.

(iii) A woman temporarily moves into a hospital or to her parents or other relative's house for delivery and if the hospital or the parents/relatives houses is in a place different from usual place of residence, the place where the hospital or parents/relative's house is the place of last residence of the child but not of the mother.

A new response category 'Moved after birth' was added in Census of India 2001 in the question on 'reasons for migration' to bring out additional migration patterns. Natural calamities or distress migration as a reason for migration for last residence migrants included in 1991 Census, is covered under category of 'Others'. The reason for migration has been determined as applicable at the time of migration and not in reference to any point of time after that. For example, if a person had moved from the place of her/his last residence for the purpose of education and subsequently at some point of time got employment there only, the reason for migration would be 'education' and not 'work/employment'.

Internal and International Migration :

The migrational movements are of three types

(i) Migration within the state itself with its components

(a) Migration within the district of enumeration (intra district migration)

(b) Migration from one district of state to another district of state (inter district migration),

(ii) Migration from one state to another State of the country (inter-state migration),

(iii) Migration from one country to another country.

The first two streams together constitute internal migration, while the last type of movement is called international migration. The present name of the country, state or district and not the name

by which they were known at the time of her/his birth or last residence were recorded.

Rural-Urban Components of Migration :

Rural or Urban status in respect of migrants had been determined as applicable at the time of migration and not with reference to any point of time after that.

The flow of migrants consists of four streams viz. rural to rural, rural to urban, urban to rural and urban to urban.

Civic Status of Urban Units :

Civic Status of a town/city is determined on the basis of Civic Administrative authority of the town e.g., Municipal Corporation/Corpora-tion, Municipal Committee/Municipal council, Municipality etc.

Size Class of UA/Town :

Size-class of UA/Town is based on the population size of the UA/City/Town UAs/Towns with 100,000 and above population is classified as Class I UAs./ towns. These Class I UAs./towns are now further sub classified in to seven sub classes namely M1 to M7 depending on the population size of UA/City/Town. These are M7(5,000,000 and above); M6(2,000,000 to 4,999,999); M5(1,000,000-1,999,999) M4(500,000-999,999); M3(300,000-499,999), M2(200,000-299,999) & M1(100,000-199,999). towns with, 50,000 to 99,999 population are classified as Class II towns, 20,000 to 49,999 population are Class III towns, population with 10,000-19,999 are Class IV towns, population with 5,000 and 9,999 are Class V towns and towns with less than 5,000 population are Class VI towns.

Slum Area :

The Slum Areas (Improvement and Clearance) Act, 1956 which was enacted by the Central Govt. defined slums as a) Areas where buildings are in any respect unfit for human habitation; or b) are by reasons of dilapidation, overcrowding, fault arrangement and design of such buildings, narrowness or faulty arrange-ment of streets, lack of ventilation, light or sanitation facilities, or any combination of these factors, are detrimental to safety, health or morals.

Mega City :

The concept of 'Mega city' is a recent phenomenon in the Urban Sociology and is defined in term of metropolitan city in the form of large size, problem of management of civic amenities and capacity to absorb the relatively high growth of population. Indian Census in 1991 treated the population size of 5 million and above as the cut off point to identify a place as the mega city. Whereas, for the purpose of inclusion in Centrally Sponsored Scheme for Infrastructure Development in Mega cities the Ministry of Urban Affairs and employment, Department of Urban Development adopted the criteria of 4 million and above population as per 1991 Census for Mega Cities. In 2001 Census, cities with 10 millions and above population have been treated as Mega cities.

(vii) 2001 Census finding- Population, its distrubution

(a) Distribution of population in rural-urban areas:

According to 2001 Census, the total population of Valsad district is 1,410,553 comprising 734,799 males and 675,754 females. This population of the district is 2.78 per cent of total population of Gujarat State and the district ranks 17th among 25 districts of the state. Out of the total population of the district 73 per cent lives in rural areas while 27 per cent lives in urban areas. The rural population of the district is distributed in 450 inhabited villages among 5 talukas and the urban population is spread over in 17 towns. The total urban population of the district is 381,161 persons comprising 208,376 males and 172,785 females. There are total of 456 villages in the district, out of which 452 villages are inhabited and 2 villages are uninhabited while 4 villages are OGs of the towns.

(b) Size, class & status of towns, Population growth, Density, Sex ratio, Work participation rate, Literacy, availability of University education in the District.

The following statement gives the civic status and number of urban units by size class for 2001 Census.

Sl. No.	Name and Civic Status of Town	Size class of town	Status of Population
1	2	3	4
1	Valsad (M)*	II	98,758
2	Valsad INA (INA)	VI	890
3	Mogarwadi (CT)	IV	17,525
4	Nanakwada (CT)	V	8,342
5	Abrama (CT)	III	20,967
6	Parnera (CT)	IV	10,714
7	Atul (CT)	V	5,352
8	Dharampur (M)	IV	19,930
9	Pardi (M)	III	25,275
10	Chala (CT)	IV	16,247
11	Vapi (M)	II	71,406
12	Vapi INA (INA)	III	23,844
13	Chanod (CT)	IV	11,962
14	Dungra (CT)	III	24,524
15	Sarigam INA (INA)	VI	472
16	Umbergaon (M)	III	21,684
17	Umbergaon INA (INA)	VI	3,269

*Towns having outgrowth

According to 1991 Census the total population of the district was 1,087,980 which increase to 1,410,553 in 2001 Census. There has been net addition of 322,573 persons in population during 1991-2001. The decadal growth rate of district comes to 29.6 per cent. The decadal growth rates for the rural and urban areas of the district are 19.3 per cent and 69.4 per cent respectively.The urban population was 20.7 per cent of total population in 1991 Census and in 2001 Census the same is recorded at 27 per cent. The density of population in Valsad district is 465 persons per sq.km while the density of Gujarat State is 258. It is observed that in the district there are 920 females for every 1,000 males which equals the state sex ratio of 920. The sex ratio for rural and urban areas of the district is 955 and 829 respectively showing the higher sex ratio in rural areas. Among the talukas, the highest sex ratio of 989 females is recorded in Kaprada taluka and the lowest of 826 in Pardi taluka. The sex ratio for children of 0-6 years of age is 948 in rural areas and 888 in urban areas.

The work participation rate is defined as percentage of total workers to the population. In the same way it is defined for main workers and marginal workers. As per 2001 Census the total workers (main + marginal) are 46.1 per cent of total district population. In this proportion main workers are 35.7 per cent and marginal workers are 10.4 per cent. As much as 53.9 per cent of population belongs to the category of non workers.

As per 2001 Census among the main workers, male participation rate in the district is 51.8 per cent and corresponding proportion of females is 18.2 per cent. Male and female marginal workers account for 5.6 per cent and 15.6 per cent respectively. The proportion of female marginal workers is higher than that of males as the females are attending one or more economic activities in addition to their household duties to improve the family income. It is observed that in rural as well as in urban areas of the district the proportion of male main workers is higher than the female main workers.

A person who can read and write in any language with understanding is considered literate in the Census. All the children below 7 years of age are treated as illiterates. As per 2001 Census there are 69.2 per cent literates in Valsad district. The proportion of male and female literates in the district is 77.9 per cent and 59.6 per cent respectively. The literacy rate of males is higher than that of females. The gap in male and female literacy rate is 18.3 percentage points in the district. The literacy rates of rural and urban areas are 62.6 per cent and 86.4 per cent respectively. The proportion of male and female literates in rural areas is 72.2 per cent and 52.5 per cent respectively. In urban areas male literacy rate is recorded at 91.8 per cent and that of female at 79.9 per cent. The gap in male-female literacy rate is 19.7 percentage points in rural areas and 11.9 percentage points in urban areas. It is thus clear that female literacy rate is higher in urban areas.

There are 11 colleges in Valsad district, comprising several Arts, Science and Commerce Colleges. The notable educational institutions in the district are Pharmacy College in Vapi and Government Polytechnic in Valsad.

Religion:

Religion forms an integral part of Indian social system. In the pre-Independence census reports, the data on religion was being presented for 9 major

religions viz. Hindu, Muslim, Christian, Sikh, Jain, Buddhist, Parsi, Jews and Others. However, since the 1951 census the data on religion has been presented for 6 major religons viz. Hindu, Muslim, Christian, Sikh, Jain and Buddhist. Besides, the minor religions have been classified under the category of 'Other'. The data on religion collected and presented by the Indian Census is the basic data of intense use for the researchers, anthropologists, sociologists, demographers, administrators, planners and even for a common man.

In 2001 the Indian Census collected the religion data in question No. 7 of the Household Schedule and recorded the same under the six major religions, other religions were recorded in actual as returned by the respondent and classified under the category of 'Others'. Religion not stated has been added for those persons who have not stated their religion at the time of canvasing the status of religion.The share of major religions in the population of the state and district is as follows:

Percentage Distribution of Population by Major Religions in 2001 Census

Sl. No.	Religion	Gujarat State		Valsad District	
		Popula-tion	Percen-tage	Popula-tion	percen-tage
1	2	3	4	5	6
1	Hindu	45,143,074	89.1	1,300,005	92.2
2	Muslim	4,592,854	9.1	66,440	4.7
3	Christian	284,092	0.5	15,399	1.0
4	Sikh	45,587	0.1	955	0.1
5	Buddhist	17,829	0.0	373	0.1
6	Jain	525,305	1.0	11,624	0.8
7	Others	28,698	0.1	10,355	0.7
8	Religion not stated	33,578	0.1	5,402	0.4

Source : Census of India, 2001.

It is observed that at state level population of Hindus is 89.1 per cent of total population while in Valsad district population of Hindu is 92.2 per cent. In Gujarat State 9.1 per cent of population follows Muslim religion against 4.7 per cent Muslims found in Valsad. It will be interesting to note that proportion of Christians is 0.5 per cent in Gujarat State whereas in Valsad the proportion of Christians is 1.0 per cent of total district population. The proportion of Jains, others and 'Religion not stated' is 1 per cent, 0.1 per cent and 0.1 per cent respectively in Gujarat State against 0.8 per cent of Jains, 0.7 per cent of others and 0.4 per cent in the category of Religion not stated as recorded in Valsad.

The distribution of population for major religious communities between rural and urban areas of Valsad is as under according to 2001 Census.

Religion	Number of Followers	Population	
		Rural	Urban
1	2	3	4
Hindu	1,300,005	978,792 (75.3)	321,213 (24.7)
Muslim	66,440	21,638 (32.6)	44,802 (67.4)
Christian	15,399	11,227 (72.9)	4,172 (27.1)
Sikh	955	188 (19.7)	767 (80.3)
Buddhist	373	75 (20.1)	298 (79.9)
Jain	11,624	2,821 (24.3)	8,803 (75.7)
Others	10,355	9,406 (90.8)	949 (9.2)
Religion not stated	5,402	5,245 (97.1)	157 (2.9)

4	Kaprada	157,521	157,521	0	202,862	202,862	0	28.8	28.8	0.0	0.0	0.0
5	Umbergaon	181,622	166,141	15,481	236,247	210,822	25,425	30.1	26.9	64.2	8.5	10.8
District Total:		**1,087,980**	**862,971**	**225,009**	**1,410,553**	**1,029,392**	**381,161**	**29.6**	**19.3**	**69.4**	**20.7**	**27.0**

* Recasted population

Table 1 shows decadal (1991-2001) change in population of talukas along with the percentage of urban population. The decadal growth rate of the district has been seen at 29.6 per cent during 1991-2001. The growth rates for rural and urban areas of the district are recorded at 19.3 per cent and 69.4 per cent respectively. Overall growth rate of urban area is significantly higher than rural area during 1991-2001. It can be seen that in 1991 urban population was 20.7 per cent of total population while as per 2001 Census urban population has increased to 27 per cent of total district population. Among talukas the highest decadal growth of 49.1 per cent is recorded in Pardi while the lowest growth of 16.7 per cent is recorded in Valsad taluka. Valsad and Pardi talukas have recorded higher proportions of urban population of 42.2 per cent and 42.7 per cent respectively. The lowest urban population percentage of 10.8 per cent in 2001 is recorded in Umbergaon taluka.

Districts (Rural) Total :		**450**	**155 (34.4)**	**232,646**	**223,275**	**31 (6.9)**	**107,547**	**101,604**	**7 (1.6)**	**48,877**	**42,991**

Table 2 gives detail about number and percentage of inhabited villages in specified population size ranges with the related population. It also shows sex wise break up of population. It can be seen from the table that out of total 450 inhabited villages only 4 villages (0.9 per cent) are in the population range of less than 200 persons. 45 villages (10.0 per cent) have population range of 200-499 persons and 69 villages (15.3 per cent) are in population range of 500-999. 139 villages (30.9 per cent) are in the range of 1,000-1,999 and 155 villages (34.4 per cent) are in the range of 2,000-4,999. There are 31 villages (6.9 per cent) in the range of 5,000-9,999 and only 7 villages (1.6 per cent) are in the highest population range of 10,000 and more.

TABLE 4

DISTRIBUTION OF VILLAGES BY POPULATION DENSITY, 2001

Range of Population Density (per Square Kilometer)	Total Number of Villages in each Population Density Range	Percentage of Villages in each Population Density Range	Population	Percentage Distribution of Population
1	2	3	4	5
0-10	1	0.2	7,884	0.8
11-20	0	0.0	0	0.0
21-50	0	0.0	0	0.0
51-100	20	4.4	11,414	1.1
101-200	113	25.1	144,371	14.0
201-300	68	15.1	99,812	9.7
301-500	135	30.0	338,556	32.9
501 +	113	25.1	427,355	41.5
Not known	0	0.0	0	0.0
District Total:	**450**	**100.0**	**1,029,392**	**100.0**

Population Density (Rural) of the district: 365

Table 4 shows distribution of villages by population density ranges. 450 inhabited villages of the district are grouped under eight ranges of population density. Out of these 450 villages, 135 villages (30.0 per cent) are in the range of 301-500. There are 113 villages (25.1 per cent) in each range of 501 and more and 101-200. There is no village in the ranges of 11-20, 21-50 and in the range described as 'not known'. As many as 68 (15.1 per cent) villages are in the range of 201-300. There are 20 villages (4.4 per cent) in the range of 51-100 and there is only 1 village in the range of 0-10. As regards population of district the highest percentage of 41.5 per cent of population is recorded in the density range of population of 501 and more closely followed by population proportion of 32.9 per cent in the density range of 301-500. 14.0 per cent of population is in the density range of 101-200 persons and 9.7 per cent of population is in the range of 201-300 persons. Only 0.8 per cent population is found in density range of 0-10. In other ranges the proportion of population is not so significant.

TABLE 5

SEX RATIO OF STATE AND DISTRICT, 1901-2001

.Sl.	Census	Gujarat State			Valsad District		
No.	Year	Total	Rural	Urban	Total	Rural	Urban
1	2	3	4	5	6	7	
1	1901	954	951	965	992	992	993
2	1911	946	943	960	990	996	929
3	1921	944	947	931	988	1,001	891
4	1931	945	948	934	982	987	943
5	1941	941	954	898	977	981	946
6	1951	952	964	920	1,001	1,004	959
7	1961	940	956	896	1,005	1,014	960
8	1971	934	951	893	992	1,008	915
9	1981	942	959	905	989	1,009	910
10	1991	934	949	907	957	968	913
11	2001	920	945	880	920	955	829

Table 5 gives the details of sex ratio of state and Valsad district for census years of 1901 to 2001. As per 2001 census sex ratio of the district is 920 females per 1,000 males. The same for rural and urban areas of the district stands at 955 and 829 respectively. It can be observed that sex ratio of the state is lower than that of district for the census years of 1901 to 1991 while it is same at 920 in 2001. In Valsad district the lowest sex ratio of 920 is recorded in 2001 while the highest of 1,005 was recorded in 1961. In Valsad district except for the census year of 1901, in all other years sex ratio in urban areas was lower than that of rural areas. In Gujarat, except for the census years of 1901 and 1911, in all other years sex ratio in urban areas was lower than that of rural areas.

TABLE 6

SEX RATIO BY TALUKAS, 2001

Sl.	Name of Taluka	Sex Ratio		
No.		Total	Rural	Urban
1	2	3	4	5
1	Valsad	945	958	928
2	Dharampur	985	991	932
3	Pardi	826	898	739
4	Kaprada	989	989	-
5	Umbergaon	942	960	804
	District Total:	**920**	**955**	**829**

Table 6 reveals sex ratio by talukas. The district sex ratio is 920 females for every 1,000 males. The sex ratio of rural and urban areas are 955 and 829 respectively. The highest sex ratio of 989 is recorded in Kaprada taluka and the lowest of 826 is recorded in Pardi taluka. In the urban areas of Dharampur the highest sex ratio of 932 is recorded against the lowest of 739 recorded in urban areas of Pardi. As regards rural areas the highest sex ratio of 991 females per 1,000 males is recorded in Dharampur taluka. The lowest rural sex ratio is recorded in Pardi taluka at 898.

TABLE 7

SEX RATIO BY TALUKAS /C.D. BLOCKS, 2001

Sl. No.	Name of Taluka/ C.D. Block	Sex Ratio
1	2	3

950-999	156	34.7	383,361	37.2
1,000-1,099	149	33.1	277,236	26.9
1,100+	16	3.6	35,975	3.5
District Total:	**450**	**100.0**	**1,029,392**	**100.0**

Sex ratio (Rural) for District: 955

Table 8 gives the detail of sex ratio of rural population by ranges. This table shows distribution of villages by 9 different ranges of sex ratio. Out of 450 inhabited villages, 156 (34.7 per cent) villages with 37.2 per cent of population are in the range of 950-999. There are only 16 (3.6 per cent) villages in the highest range of 1,100 and more having only 3.5 per cent of total population. As regards other ranges 27 (6 per cent) villages are in the range of 850-899 and 81 (18 per cent) villages are in the range of 900-949. As many as 8 (1.8 per cent) villages are in the range of

800-849, 4 (0.9 per cent) villages are in the range of 750-799, 2 (0.4 per cent) villages are in the range of 700-749 and 7 (1.6 per cent) villages are in the range of less than 700. The population covered by these 21 villages are 8.9 per cent of total population.

		Urban	**48,170**	**25,510**	**22,660**	**888**

Table 10 shows sex ratio of population in the age group of 0-6 years for talukas. The district sex ratio for 0-6 years population stands at 933 females per 1,000 males. In rural areas this sex ratio is 948 and in urban areas the same is recorded at 888. Among talukas, Kaprada has the highest sex ratio of 985 females for every 1,000 males in the age group of 0-6 years. The lowest sex ratio in 0-6 years population is found in Pardi taluka at 893 females per 1,000 males. It is important to note that in rural areas Kaprada has sex ratio of 985 females per 1,000 males in the age group of 0-6 years.

TABLE 11

SEX RATIO OF POPULATION IN THE AGE GROUP 0-6 FOR TALUKAS / C.D. BLOCKS, 2001

District (Rural) Total :	**450**	**100.0**	**157,426**	**100.0**

Sex ratio (Rural) for District: 948

Table 12 shows classification of rural population in the age group of 0-6 years by 9 different sex ratio ranges. It also shows number of villages, percentage distribution of villages, population and percentage distribution of population among these ranges. Out of 450 inhabited villages, 75 (16.7 per cent) villages fall in the sex ratio range of 1,000-1,099, 74 (16.4 per cent) villages fall in the range of 900-949 while 72 (16.0 per cent) villages fall in the highest range of 1,100 and more and 71 (15.8 pe cent) villages are in the range of 850-899. There are 15 (3.3 per cent) villages in the range of less than 700 and a total of 84 (18.7 per cent) villages have sex ratio ranging from 700 to 849. As for percentage distribution of population, the highest population of 30,822 (19.6 per cent) is in the range of 850-899, closely followed by population of 30,106 (19.1 per cent) in the range of 900-949 and 18.9 per cent population in range of 1,000-1,999. In the ranges of 1,100 and more and 950-999 the population covered is 18,142 (11.5 per cent) and 23,424 (14.9 per cent) respectively. The percentage proportion of population is 9.2 in the range of 800-849. The total population covered in remaining range of less than 700, 700 - 749, 750-799 are 1.40 per cent, 1.2 per cent and 4.0 per cent respectively.

		Urban	**381,161**	**12,255**	**69,910**	**3.2**	**18.3**

Table 14 gives number and percentage of Scheduled Castes and Scheduled Tribes population in talukas. The total population of district is 1,410,553 and only 2.6 per cent of this belongs to

Scheduled Castes and a huge 54.8 per cent of total population belongs to Scheduled Tribes. Thus, this district can be described as a tribal district. In rural areas the percentage of Scheduled Castes and Scheduled Tribes population are 2.4 per cent and 68.2 per cent respectively, while in urban areas the same is found at 3.2 and 18.3 per cent respectively. This indicates that rural areas have more tribal population than urban areas and urban areas have more Scheduled Castes population than that of rural areas. Among talukas, Kaprada has the maximum population of Scheduled Tribes which is 93.6 per cent of total taluka population. The lowest Scheduled Tribes population is found in the taluka of Valsad which is 37 per cent of total population. The Scheduled Castes population is 4.8 per cent in Umbergaon taluka which is the highest while the lowest Scheduled Castes population of 0.5 per cent is recorded in the talukas of Dharampur and Kaprada.

	District (Rural) Total :	**1,029,392**	**25,049**	**702,495**	**2.4**	**68.2**

Table 15 details the distribution of Scheduled Castes and Scheduled Tribes population in each Taluka / C.D. Block of the district. Only 2.4 per cent of rural population belongs to Scheduled Castes and 68.2 per cent to Scheduled Tribes. Among Taluka / C.D. Blocks Umbergaon has the highest percentage proportion of Scheduled Castes population which is 4.8 per cent of its population and the lowest percentage of Scheduled Castes population of 0.3 per cent is recorded in Dharampur. Dharampur has the highest proportion of 97.3 per cent of Scheduled Tribes population. The lowest Scheduled Tribes population of 47.6 per cent is found in Valsad.

TABLE 16

PROPORTION OF SCHEDULED CASTES POPULATION TO TOTAL POPULATION IN VILLAGES, 2001

Percentage Range of Scheduled Castes Population to Total Population	Number of Villages	Percentage	Scheduled Castes Population	Percentage
1	2	3	4	5
Nil	246	54.7	0	0.0

District Total :	**450**	**100.0**	**25,049**	**100.0**

Table 16 shows the number of villages according to the proportion of Scheduled Castes population to the total population in different percentage ranges at district level. Out of 450 inhabited villages of the district 246 villages (54.7 per cent) do not have any Scheduled Castes population. As many as 158 villages (35.1 per cent) with 44.6 per cent of Scheduled Castes population are in the range of less than 5 per cent and 36 villages (8.0 per cent) with 37.2 per cent of Scheduled Castes population are in the range of 5-10. There is no village in the range of 31-40, 41-50, 51-75 and 76 and above. There are 9 and 1 villages in the ranges of 11-20 and 21-30 respectively and population covered in these ranges is 11.3 per cent and 7 per cent respectively.

TABLE 17

PROPORTION OF SCHEDULED TRIBES POPULATION TO TOTAL POPULATION IN VILLAGES, 2001

Percentage Range of Scheduled Tribes Population to Total Population	Number of Villages	Percentage	Scheduled Tribes Population	Percentage

76 and above	300	66.7	501,783	71.4
District Total :	**450**	**100.0**	**702,495**	**100.0**

Table 17 gives detail about number of villages according to the proportion of Scheduled Tribes population to their total population in different percentage ranges of Scheduled Tribes population to total population. As many as 300 villages (66.7 per cent) are in the highest percentage range of 76 and above. These 300 villages have 71.4 per cent of Scheduled Tribes population. There are only 8 villages (1.8 per cent) in the range of less than 5 per cent with Scheduled Tribes population of 362 (0.1 per cent) persons. 74 villages (16.4 per cent) are in the range of 51-75 per cent with 16.2 per cent of Scheduled Tribes population. As many as 5, 9 and 11 villages with Scheduled Tribes population of 0.3 per cent, 0.8 per cent and 2.0 per cent respectively are in the range of 5-10, 11-20 and 21-30 per cent respectively. As regards, 22 and 21 villages with 4.7 per cent and 4.5 per cent of Scheduled Tribes population are in the ranges of 31-40 and 41-50 respectively.

UA =Urban Agglomeration

Table 18 gives the detail about the distribution of Scheduled Castes and Scheduled Tribes population as well as their percentage to total population in UA/Towns as per 2001 Census. Out of the total district population of 381,161 the total population of Scheduled Castes is 12,255 (3.2 per cent) while the total Scheduled Tribes population is 69,910 (18.3 per cent). Among UA/Towns the proportion of Scheduled Castes population varies from 0.8 per cent in Dungra (CT) to 6.3 per cent found in Abrama (CT). The highest and lowest percentage of Scheduled Tribes population is recorded in Dharampur (M) at 47.8 per cent and in Umbergaon (INA) at 1.2 per cent respectively. In numbers the highest Scheduled Tribes population of 32,289 is recorded in Valsad (UA) and the lowest of 40 in Umbergaon (INA). The highest Scheduled Castes population of 6,116 is recorded in Valsad (UA) and the lowest Scheduled Castes population of 14 is recorded in Valsad (INA).

TABLE 19

SEX RATIO AMONG SCHEDULED CASTES AND SCHEDULED TRIBES IN TALUKAS / C. D. BLOCKS, 2001

Sl. No.	Name of Taluka / C. D. Block	Scheduled Castes Sex Ratio	Scheduled Tribes Sex Ratio

3	Pardi	948	991
4	Kaprada	973	993
5	Umbergaon	1,016	1,054
	District (Rural) Total :	**982**	**1,000**

Table 19 shows sex ratio among Scheduled Castes and Scheduled Tribes in talukas / C.D. Blocks. The Scheduled Castes rural sex ratio is 982 females for every 1,000 males and the Scheduled Tribes rural sex ratio is 1,000. Among the talukas /C.D. Blocks Umbergaon has the highest Scheduled Castes sex ratio of 1,016 and the lowest Scheduled Castes sex ratio of 948 is recorded in Pardi. The highest Scheduled Tribes sex ratio of 1,054 is recorded in Umbergaon against the lowest of 980 females per 1,000 males recorded in Valsad.

TABLE 20

	Sex ratio (Urban) for the district:	**949**	**985**

UA =Urban Agglomeration

Table 20 indicates the sex ratio among Scheduled Castes and Scheduled Tribes in UA/ Towns of the district. In urban areas the Scheduled Castes sex ratio is 949 females per 1,000 males and the same for Scheduled Tribes is recorded at 985. Among UA/Towns the highest and lowest Scheduled Castes sex ratio of 1,020 and 692 are recorded in Valsad (M+OG) and Sarigam (INA) respectively. As regards Scheduled Tribes sex ratio the highest of 1,222 is recorded in Umaergaon (INA) and the lowest of 765 is recorded in Valsad INA.

Table 21 gives number and percentage of literates and illiterates by talukas. The literacy rate is worked out by excluding population of age of 0-6 years. It can be seen that the district literacy rate is 69.2 per cent. In rural areas this rate is 62.6 per cent and in urban it is 86.4 per cent. This indicates that rural population is more illiterate than urban population. Among males and females, male literacy rate is recorded at 77.9 per cent against the female literacy rate of 59.6 per cent having a gap of 18.3 per cent in literacy between two genders. Among talukas the highest literacy rate of 83.2 per cent is recorded in Valsad against the lowest of 34 per cent found in Kaprada taluka. The highest gap in male/female literacy rate is found in Umbergaon at 23.2 per cent whereas the lowest gap of 13.7 per cent is recorded in Valsad.

TABLE 22

NUMBER AND PERCENTAGE OF LITERATES AND ILLITERATES BY SEX IN TALUKA/ C. D. BLOCKS, 2001

Sl. No.	Name of Taluka / C.D. Block	Number of Literates and Illiterates						Percentage of Literates			Gap in Male-Female Literacy Rate
		Number of Literates			Number of Illiterates						
		Persons	Males	Females	Persons	Males	Females	Persons	Males	Females

District Total: (Rural)		**545,559**	**321,780**	**223,779**	**483,833**	**204,643**	**279,190**	**62.6**	**72.2**	**52.5**	**19.7**

Table 22 shows number and percentage of literates and illiterates by sex in Talukas / C.D. Blocks. The district (rural) literacy rate is 62.6 per cent. In rural areas the male literacy rate is 72.2 per cent and the female literacy rate is 52.5 per cent. This leaves a gap of 19.7 per cent in male/ female literacy. Among Talukas / C.D. Blocks Valsad has the highest literacy rate of 79.4 per cent and Kaprada has the lowest of 34 per cent. Umbergaon has shown the highest gap of 23.8 per cent in male-female literacy rate and the lowest gap of 16.1 per cent is found in Valsad.

TABLE 23

DISTRIBUTION OF VILLAGES BY LITERACY RATE RANGE, 2001

Range of Literacy Rate for Villages	Number of Inhabited Villages	Percentage Distribution of Villages	Population	Percentage Distribution of Population
1	2	3	4	5
0	0	0.0	0	0.0

100	0	0.0	0	0.0
District Total:	**450**	**100.0**	**1,029,392**	**100.0**

Literacy Rate for District: 69.2

Table 23 shows distribution of villages in 12 different literacy rate ranges. There is no village in the range of 0 and 100 per cent. Out of 450 inhabited villages the highest 117 (26.0 per cent) villages with the highest population of 34.1 per cent are in the range of 71-80. There are 52 (11.6 per cent) villages in the range of 61-70 having only 17.2 per cent of population. As much as 43 (9.6 per cent) villages with 9.7 per cent of population are in the range of 51-60 and in the range of 21-30, there are 44 (9.8 per cent) villages with 6.0 per cent population. The other literacy ranges of 1-10,11-20,31-40 and 41-50 comprises 26 (5.8 per cent), 70 (15.6 per cent), 34 (7.6 per cent) and 14 (3.1 per cent) villages respectively.In the higher literacy ranges of 81-90 and 91-99 there are 46 (10.2 per cent) and 4 (0.9 per cent) villages comprising 14.9 per cent and 0.6 per cent population respectively.

Table 24 shows the absolute number of literates, illiterates and literacy rates in urban areas at UA/Town level in the district. The population covered for calculating the literacy rate does not include population of age 0-6 years. In Valsad district 86.4 per cent of population is literate. The male and female literacy rates are 91.8 per cent and 79.9 per cent respectively. The gap in male-female literacy rate is 11.9 percentage points. At UA/Town level the highest literacy rate of 93.2 per cent is recorded in Umbergaon (INA) against the lowest of 73.1 per cent found in Sarigam (INA). It can also be observed that male literacy rate is higher than female literacy rate in all the towns. The gap in male-female literacy rate varies from 1.3 percentage points found in Valsad (INA) to 30.0 percentage points found in Sarigam (INA).

Table 25 gives the detail about number and percentage of literate and illiterate for Scheduled Castes at taluka level in the district. As many as 85.4 per cent of the total Scheduled Castes population excluding the population of age group of 0-6 years is literates in the district. 92.5 per cent of male Scheduled Castes is literate while corresponding figure for female is only 78.3 per cent. There is a gap of 14.2 percentage points between the literacy rate of males and females. Umbergaon taluka has the highest literacy rate of 88.4 per cent while the lowest literacy rate of 59 per cent is recorded in Kaprada. Wide variations in literacy rates between males and females may be seen in all talukas of the district. The maximum difference of 22.2 percentage points is seen in Dharampur taluka in the district.

District Total:	**450**	**100.0**	**702,495**	**100.0**

Literacy rate for District (Rural): 52.1

Table 29 details distribution of villages in 12 different literacy rate ranges for Scheduled Tribes population in the district. It can be seen that there is only 1(0.2 per cent) village whose entire Scheduled Tribes population of 4 people (which is the lowest in all range) is literate. There is also 1 (0.2 per cent) village in the literacy range of 91-99 per cent with Scheduled Tribes population proportion of 0.2 per cent. The lower literacy rate of 1 to 50 per cent is observed in total of 208 (46.3 per cent) villages having Scheduled Tribes population of 40 per cent. There are 64 (14.2 per cent vllages with Scheduled Tribes population of 14.5 per cent) and 79 (17.6 per cent) villages with maximum Scheduled Tribes population of 22.3 per cent in the literacy rate range of 51-60 and 61-70 per cent respectively. The highest number of villages i.e. 86 (19.1 per cent) are in the range of 71-80 per cent with Scheduled Tribes population of 21.8 per cent. There are 11 (2.4 per cent) villages having Scheduled Tribes population of 1.1 per cent in the range of 81-90 per cent.

Table 31 shows absolute number and percentage of main workers, marginal workers and non workers by sex at taluka level in the district as per 2001 Census. It can be seen that 46.1 per cent of total population is of total workers (main + marginal) which comprises 35.7 per cent of main workers and 10.4 per cent of marginal workers. The remaining 53.9 per cent of population belongs to the category of non workers. Among the main workers male participation rate in the district is 51.8 per cent while corresponding rate for female is 18.2 per cent. As far as the marginal workers are concerned the participation rate of 15.6 per cent for female is higher as compared to males marginal workers participation rate of only 5.6 per cent. Among talukas the highest proportion of 53.7 per cent of total workers is found in Dharampur while the lowest of 41.1 per cent of the same is found in Valsad and Umbergaon Talukas. As regards main workers the highest and the lowest percentage of 39.2 per cent and 30.2 per cent are found in Pardi and Umbergaon talukas respectively. As far as marginal workers are concerned the highest percentage of 17.4 per cent is found in Dharmpur and the lowest of 7.4 per cent is recorded in Pardi taluka.

Table 32 gives absolute number and percentage of main workers, marginal workers and non workers by sex in C.D. Blocks in the rural areas of the district. Total workers account for 49.3 per cent of total population which is made by 35.9 per cent of main workers and 13.4 per cent of marginal workers. The remaining 50.7 per cent of population is in the category of non workers. The sexwise break up shows that among main workers male main workers account for 50.1 per cent of male population while female main workers account for 21 per cent of total female population. Among marginal workers male proportion of 7.1 per cent of total male population is far less than that of females recorded at 20.1 per cent. In all Talukas/ C.D.Blocks this trend can be observed. Among total workers male total workers proportion is 57.2 per cent of total male population while the same for female total worker stands at 41.1 per cent. Among Talukas/C.D. Blocks the highest percentage of 55.7 per cent of total workers is recorded in Dharampur while the lowest of the same is noticed at 41.5 per cent in Umbergaon. As regards main workers the highest and the lowest percentage of 39.1 per cent and 29.4 per cent are recorded in C.D. Blocks of Pardi and Umbergaon respectively. The highest percentage of marginal workers is recorded in Dharampur at 18.6 per cent against the lowest of 11.5 per cent recorded in Pardi.

UA =Urban Agglomeration

Table 33 shows the absolute number with percentage of main workers, marginal workers, total workers and non-workers as per 2001 Census for UA/Towns in the district. 35.2 per cent of total urban population of 381,161 are main workers, 2.2 per cent are marginal workers. Thus, total workers in the district are 37.4 per cent of total urban population. The remaining 62.6 per cent are non workers. At district level the sex wise break up shows that the proportion of male main workers which is 56.0 per cent is significantly higher than the proportion of female main workers of 10.1 per cent. But among marginal workers the proportion of female marginal workers of 2.6 per cent is higher than that of males recorded at 1.9 per cent. Among non workers the proportion of males and females is 42.1 per cent and 87.3 per cent respectively. Among talukas the highest and lowest proportion of main workers are recorded in Sarigam (INA) at 44.7 per cent and in Parnera (CT) at 28.3 per cent respectively. The highest proportion of 7.6 per cent of marginal workers is recorded in Dharampur (M) while the lowest of 0.1 per cent is recorded in Umbergaon (INA). Valsad (INA) and Sarigam (INA) have not reported any marginal workers. The highest and lowest proportion of total workers is recorded at 45.7 per cent in Dungra (CT) and at 32.4 per cent in Parnera (CT) respectively and hence it is obvious that the highest proportion of non workers i.e. 67.6 per cent is recorded in Parnera (CT) while the lowest of 54.3 per cent is recorded in Dungra (CT).

				(33.8)	**(36.2)**	**(37.7)**	**(2.0)**	**(24.0)**

Note: Percentage of worker to total worker are given in brackets

Table 34 reveals distribution of workers by sex in four categories of economic activity in talukas. It can be seen that in this district total workers are 46.1 per cent of total population. Out of total workers 28.5 per cent are cultivators, 23.5 per cent are agricultural labourers, 1.6 per cent are household industry workers and the remaining 46.4 per cent are other workers. At district level the proportion of female cultivators, agricultural labourers and household industry workers is recorded at 36.2 per cent, 37.7 per cent and 2 per cent respectively. All of these three are higher than those of males recorded at 24.3 per cent, 15.9 per cent and 1.3 per cent respectively. As regards agricultural corresponding figures of labourers the proportion in talukas varies from 16.7 per cent recorded in Pardi to 31.4 per cent recorded in Dharampur and Kaprada talukas. The proportion of household industry workers is between 1.2 per cent and 2.2 per cent in the talukas of the district. In Pardi other workers are 65.3 per cent of total workers, which is the highest among talukas, while in Kaprada it is only 8.6 per cent, which is the lowest.

Note: Percentage of worker to total worker are given in brackets

Table 35 shows distribution of workers by sex in four categories of economic activity in Talukas/ C.D. Blocks. In rural areas of the district total workers are found to be 49.3 per cent of total population. Among these workers, cultivators are 36.2 per cent, agricultural labourers are 29.4 per cent, household industry workers are 1.6 per cent and other workers are 32.8 per cent.In rural areas of the district the proportion of male cultivators, agricultural labourers and household industry workers is recorded at 33.7 per cent, 21.4 per cent and 1.5 per cent respectively. These three are lower than those of female workers recorded at 39.8 per cent, 40.9 per cent and 1.8 per cent respectively. The proportion of cultivators varies among Talukas/C.D. Blocks from 17.6 per cent in Umbergaon to 58.9 per cent in Kaprada. As regards agricultural labourers the proportion varies from 23.9 per cent in Umbergaon to 33.4 per cent found in Valsad. The proportion of household industry workers is between 1.2 per cent and 2.2 per cent in the Talukas/C.D. Blocks of the district. The proportion of other workers is 8.6 per cent in Kaprada, which is the lowest among Talukas/C.D. Blocks, while the highest of 56.3 per cent is recorded in Umbergaon.

UA =Urban Agglomeration

Table 36 details the distribution of workers by sex in four categories of economic activity in UA/Towns of the district. As the data shows in urban areas (main + marginal) are 37.4 per cent of total urban population. Among those workers cultivators are 1.2 per cent, agricultural labourers are 2.8 per cent household industry workers are 1.4 per cent and other workers are 94.6 per cent. Thus, it can be observed that 'other worker' plays a major role in providing employment to the working force of urban population. Among UA/Towns of the district, Atul (CT) has the highest percentage of other workers i.e. 99.7 per cent while the lowest of 69.8 per cent is recorded in Dharampur (M). The numbers of cultivators varies from the highest of 631 persons recorded in Dharampur (M) to the lowest of only 1 recorded in Atul (CT) and Valsad (INA).

The highest and lowest percentages of agricultural labourers are recorded at 19.1 per cent in Dharampur (M) and at 0.2 per cent (only 3 persons) in Atul (CT). No agricultural labourer is reported in Valsad (INA). As regards household industry workers it can be observed that the highest proportion of 5.3 per cent is recorded in Pardi (M) against the lowest of 0.1 per cent (2 persons) recorded in Atul (CT).

Note : Percentage are given in brackets.

* Based on the improved drinking water source, drinking water supply has been classified as 'Improved ' or otherwise. If the household has access to drinking water supplied from a tap or a hand pump / tube well situated within or outside the premises it is considered as having access to 'Improved drinking water source' However, the concept of improved drinking water is state specific and this is to be considered accordingly.

\# Post office includes Post office, telegraph office and Post and telegraph office.

$ Transport communication includes bus service, rail facility and navigable waterways.

Table 37 gives distribution of villages according to availability of different amenities in the villages of the district. Out of total of 450 inhabited villages 449 (99.8 per cent) villages have atleast one primary school. Thus only one village does not have any educational facility at all. Medical facility of one or another kind is available in 303 (67.3 per cent) villages and 446 (99.1 per cent) villages have improved drinking water facility either of a tap, well, tank, tubewell, river or canal etc. Out of 450 villages 262 (58.2 per cent) have Post Office, 225 (50 per cent) have Telephone, 389 (86.4 per cent) have Transport Communication, 133 (29.6 per cent) have Agricultural Credit societies and 347 (77.1 per cent) have Approach by pucca road. Only 41 (9.1 per cent) villages in the district have Banking facilities. As far as Power supply is concerned out of 450 villages 425 (94.4 per cent) villages have Power supply facility thus 25 villages in the district do not have facility of Power supply.Among Talukas/C.D. Blocks education facility is available to all the villages of all the Talukas / C.D. blocks except Valsad where only 1 village does not have any type of education facility. As regards Improved drinking water facility and Approach by pucca road it is observed that except Talukas/C.D. Blocks of Dharampur and Kaprada all the villages of the remaining Talukas/C.D. Blocks have these facilities. Out of 5 Talukas/C.D. Blocks Power supply facility is available to all the villages of 3 Talukas/C.D. Blocks namely Valsad, Pardi and Umbergaon.

Note : Percentages are given in brackets.

* Based on the improved drinking water source, drinking water supply has been classified as 'Improved ' or otherwise. If the household has access to drinking water supplied from a tap or a and pump / tube well situated within or outside the premises it is considered as having access to 'Improved drinking water source'. However, the concept of improved drinking water is state specific and this is to be considered accordingly.

\# Post office includes Post office, telegraph office and Post and telegraph office.

$ Transport/communication includes bus service, rail facility and navigable waterways.

Table 38 shows number and percentage of rural population served by different amenities. Out of total rural population of 1,029,392 persons, 1,026,893 (99.8 per cent) persons have education facility of one or other type. As for other facilities 894,623 (86.9 per cent) have medical facility and 1,026,770 (99.7 per cent) have Improved drinking water facility. Post office facility is available to 841,019 (81.7 per cent) persons while 732,211 (71.1 per cent) persons have telephone facility. Transport Communication facility is available to 978,453 (95.1 per cent) persons and facility of Approach by pucca road is available to 928,442 (90.2 per cent) persons. Banking facility is available to only 216,779 (21.1 per cent) persons and facility of Agricultural Credit societies is available to 474,828 (46.1 per cent) persons in the district. Power supply facility is available to 1,013,494 (98.5 per cent) persons. Among C.D.Blocks out of 5 Talukas/C.D. Blocks except Valsad cent percent population of the remaining 4 Talukas/C.D. Blocks have education facility, while except Dharampur and Kaprada 100 per cent population of remaining 3 Talukas/CD Blocks have facilities of Improved drinking water, Power supply and Approach by pucca road.

TABLE 39

DISTRIBUTION OF VILLAGES NOT HAVING CERTAIN AMENITIES, ARRANGED BY DISTANCE RANGES FROM THE PLACES WHERE THESE ARE AVAILABLE, 2001

Village not having the Amenity of	Distance Range of Place from the Villages where the Amenity is Available			
	Less than 5 Kilometres	5-10 Kilometres	10+ Kilometres	Total (Col. 2 - 4)
1	2	3	4	5
1. Education :-				
(a) Primary School	1	0	0	1

(b) Co-operative Bank	98	83	261	442
7. Agricultural Credit Societies	125	86	106	317

Note : * In Gujarat State, the levels of education are classified as under

(i) Primary School (From Std. I to VII passed)

(ii) Secondary/Matriculation (From Std. VIII to X passed)

(iii) Higher Secondary (From Std. XI to XII passed). Hence,the details under 1(b) are not shown.

Table 39 reveals distribution of villages not having certain amenities by distance range from the places where these are available. It can be seen that 1 village of the district avails primary school aminity at a distance of less than 5 km and 44 villages have degree college within range of 5 kms while 81 and 324 villages have degree college at a distance of 5-10 kms and at a distance of more than 10 kms respectively. As many as 84 villages have hospital and 132 have PHC within 5 kms while 93 villages have hospital and 127 have PHC within 5-10 kms of distance. 265 villages have hospital and 160 villages have PHC at a distance of 10+ kms. Post office is available to 116 villages within 5 kms and to 41 villages. The same is at a distance of 5-10 kms. 31 villages have post office at a distance of more than 10 kms. Telephone facilities is available to 24 villages within 5 kms while to 18 and 183 villages have telephone facilities at a distance of 5-10 kms and at a distance of 10 or more kilometres respectively.

Bus service is available to 23 villages at a distance of less than 5 kms. 24 and 20 villages have bus facility available at a distance of 5-10 kms and at distance of 10+ kms respectively. As regards banking facilities 135 villages have commercial bank and 98 villages have Co-operative bank at a distance of less than 5 kms. 194 villages have Commercial bank and 261 have Co-Operative bank at a distance of 10 or more than 10 kms. 125 villages have Agricultural credit societies at a distance of less than 5 kms and 106 villages have Agricultural Credit Societies at a distance of more than 10 kms.

\# Post office includes Post office, Telegraph office and Post and telegraph office.

$ Transport communication includes bus service, rail facility and navigable waterways.

Percentages are given in brackets

Table 40 shows distribution of villages according to the distance from the nearest statutory town and availability of different amenities. Out of 450 inhabited villages, 50 villages are at a distance of less than 5 kms from the nearest town. Out of these 50 villages 49 (98 per cent) have facilities of Education and Approach by pucca road, 48 have Transport Communication facility, 47 villages have facilities of Medical and Telephone, 41 have Post Office, 19 have Agricultural Credit Societies and only 2 (4 per cent) villages have Banking facilities. Out of total of 450 villages 157 villages are situated at a distance of 5 to 15 kms from the nearest statutory town and all these 157 villages have education facilities. Out of 157 villages in these ranges 151 villages have facilities of transport communication and approach by pucca road, 129 have medical facility, 124 have telephone and 121 have post office facilities. 73 villages have agricultural credit societies and only 21 villages have banking facilities. As many as 229 villages are located at a distance of 16 to 50 kms from the nearest town and all 229 villages have education facility. As regards other amenities 181 villages have facility of Transport Communication, 139 villages have Approach by Pucca road, 121 villages have Medical facility, 97 villages have Post Office and 54 have Telephone facility, 39 villages have Agriculture Credit Societies and only 17 villages have banking facilities. 14 villages are at a distance of 51 or more kms from the nearest statutory town and all these 14 villages have education facility. As regards availability of other facilities to the villages in this range it can be seen that 8 villages have approach by pucca road facility, 6 villages have medical facility, 9 villages have facility of transport communication, 3 have post office, 2 have agricultural credit societies and only one village has banking facilities. No village in these ranges has telephone facilities.

Note : Percentages are given in brackets

* Based on the improved drinking water source, drinking water supply has been classified as 'Improved ' or otherwise. If the household has access to drinking water supplied from a tap or a hand pump / tube well situated within or outside the premises it is considered as having access to 'Improved drinking water source'. However, the concept of improved drinking water is state specific and this is to be considered accordingly.

\# Post office includes Post office, Telegraph office and Post and telegraph office.

$ Transport communication includes bus service, rail facility and navigable waterways.

Table 41 shows distribution of villages according to population range and amenities available. In this table inhabited villages of the district are distributed in 6 population ranges. Out of 450 inhabited villages 7 villages are in the population range of 10,000 or more and those 7 villages have all the amenities available except amenities of banks and agricultural credit societies, which are available to 5 villages.There are 49 villages in the range of 1-499 persons and only education facility is available to all villages. The availability of other facilities varies from 1 village, which has agricultural credit societies to 49 villages have education facility. No village in this range has Banking facilities. There are 69 villages in the range of 500-999 and facility of education is available to all those villages. As regards availability of other facilities in this range it is observed that the availability varies between 3 villages which have banks and 68 villages which are enjoying the facility of Improved drinking water.There are 139 villages in the range of 1,000-1,999. In this range 139 villages have education facilities, 138 have Improved drinking water, 136 have power supply and 130 have transport communication facilities. The availability of other facilities varies from 4 villages (banks) to 110 villages (Approach by pucca road). As many as 155 villages are in the range of 2,000-4,999. In this range 155 villages have facilities of Power supply and Improved drinking water while 154 have education facility. 149 villages have Transport Communication facility, 148 have medical and 145 have Approach by pucca road, 141 have Post Office, 109 have Telephone, 71 have agricultural credit socieites and only 18 villages have banking facilities.There are 31 villages in the population range of 5,000-9,999, and except the facilities of Telephone (30 villages), agricultural credit societies (20 villages) and Banks (11 villages), all other amenities are available to all the 31 villages.

TABLE 42

DISTRIBUTION OF VILLAGES ACCORDING TO LAND USE, 2001

Sl. No.	Name of Taluka/ C. D. Block	Number of Inhabited Villages	Total Area (in Hectares)	Percentage of Cultivable Area to Total Area	Percentage of Irrigated Area to Total Cultivable Area
1	2	3	4	5	6
1	Valsad	89	46,711.8	75.9	48.8
2	Dharampur	107	69,769.5	39.5	11
3	Pardi	76	37,786.4	87.3	35
4	Kaprada	128	93,133.3	35.2	9.8
5	Umbergaon	50	34,307.2	63.9	12.9
	District Total:	**450**	**281,708.1**	**53.5**	**25.2**

Note : Cultivable area = irrigated area + unirrigated area

Table 42 gives the details about distribution of rural area according to land use. It also gives details of total area and cultivable area available in the inhabited villages in the district. Cultivable area comprises the irrigated and unirrigated areas. There are 450 inhabited villages in the district having total area of 281,708.1 hectares. 53.5 per cent of total area is cultivable in the district while 25.2 per cent of total cultivable area of the district is irrigated. Among Talukas/C.D. Blocks, Kaprada has recorded total area of 93,133.3 hectares in 128 villages which is the highest while the lowest total area of 34,307.2 hectares is recorded in Umbergaon. In percentage terms, the highest and lowest percentage proportions of cultivable area to total area are recorded at 87.3 per cent and 35.2 per cent in Pardi and Kaprada respectively. The highest and the lowest percentage of 48.8 per cent and 9.8 per cent of irrigated area to total cultivable area recorded in Valsad and Kaprada talukas respectively.

TABLE 43

PER CAPITA RECEIPT AND EXPENDITURE IN STATUTORY TOWNS

(in Rs.)

Sl. No.	Class, Name & Urban Status of the Town	Per Capita Receipt			Per Capita Expenditure					
		Total	Through Taxes	From all Other Sources	Total	General Administration	Public Health and Conveniences	Public Works	Public Institutions	Other(s)

8	II Vapi (M)	284.4	246.5	37.9	256.6	20.3	20.1	0.1	0	216
9	III Vapi INA (INA)	1,006.5	1,006.5	0	100.6	14	0.3	53.7	0	32.7
	District Total :	**580.4**	**391.5**	**188.9**	**474.8**	**85.9**	**137.6**	**68.6**	**7.8**	**174.8**

* Town having outgrowths.

Table 43 reveals per capita receipt and expenditure in statutory town of the district. The per capita receipt of the district is Rs. 580.4 which is made by contribution of Rs. 391.5 through taxes and Rs. 188.9 from all other sources. The per capita expenditure of the district is Rs. 474.8. Out of these expenditure Rs. 85.9 are spent on General Administration, Rs. 137.6 on Public Health and Conveniences, Rs. 68.6 on Public Works, Rs. 7.8 on Public Institution and Rs. 174.8 are spent on Other(s) items. Among towns, the highest per capita receipt of Rs. 6,355.9 is recorded in Sarigam INA (INA) while the lowest of Rs. 95.7 is recorded in Umbergaon (M). As regards per capita expenditure it can be seen that the highest per capita expenditure of Rs. 6,355.9 is recorded in Sarigam INA (INA) and the lowest of Rs. 100.6 is recorded in Vapi (INA).

TABLE 44

SCHOOLS/COLLEGES PER 10,000 POPULATION IN STATUTORY TOWNS, 2001

Sl. No.	Name and Urban Status of Town	Type of Educational Institution

	District Total :	**2.3**	**0**	**0.6**	**0.6**	**0.3**

* Town having outgrowths

Note : @ In Gujarat State, the levels of education are classified as under

(i) Primary School (From Std. I to VII passed)

(ii) Secondary/Matriculation (From Std. VIII to X passed)

(iii) Higher Secondary (From Std. XI to XII passed). Hence,the middle school is 0.

Table 44 shows number of schools/colleges per 10,000 populations in statutory town of the district. There are 2.3 primary schools, 0.6 secondary school, 0.6 senior secondary school and 0.3 colleges per 10,000 of population in the urban areas of the district. Among towns the highest number of 127.1 primary schools per 10,000 populations is reported in Sarigam (INA) against the lowest of NIL reported in Valsad (INA) followed by 1.3 schools in Vapi (M). There are no secondary schools and senior secondary schools in Umbergaon INA, Valsad (INA) and Vapi (INA). The highest numbers of secondary schools and senior secondary school are reported i.e. 21.2 in Sarigam (INA) while the highest number of college i.e. 0.5 is reported in Dharampur (M). Sarigam INA (INA), Umargaon (CT), Umargaon INA (INA), Valsad INA (INA) & Vapi INA do not have college facility.

TABLE 45

NUMBER OF BEDS IN MEDICAL INSTITUTIONS IN TOWNS, 2001

Sl. No.	Name and Urban Status of the Town	Number of Beds in Medical Institutions per 10,000 Population

	District Total :	**46**

*****Town having outgrowths.

Table 45 gives number of beds in medical institutions in towns of the district. It can be seen that there are 46 beds per 10,000 populations in urban areas of the district. The highest numbers of beds i.e. 187 are in Nanakwada (CT). There are no beds reported in towns of Atul (CT), Chala (CT), Chanod (CT), Dungra (CT), Mogarwadi (CT), Sarigam INA (INA) and Valsad INA (INA).

TABLE 46

PROPORTION OF SLUM POPULATION IN TOWNS, 2001

Sl. No.	Name of the Town	Total Population	Slum Population	Percentage of Slum Population to Total Population
1	2	3	4	5
1	Valsad (M)	98,758	12,745	12.9
2	Vapi (M)	71,406	13,500	18.9
	District Total :	**170,164**	**26,245**	**15.4**

Table 46 shows proportion of slum population in towns. In this district, slum population is reported in only two towns i.e. Valsad and Vapi. It can be seen from the data that in Vapi out of total population of 71,406 persons, slum population is 13,500 (18.9 per cent) which is higher in number terms as well as in percentage terms in the district.

TABLE 47

MOST IMPORTANT COMMODITY EXPORTED OUT OF AND MANUFACTURED IN TOWNS, 2001

Sl. No.	Name and Urban Status of Town	Most Important Commodity	
		Manufactured	Exported
1	2	3	4

		Chikoo, Mango	Chikoo, Mango
17	Vapi INA (INA)	Cloths	Cloths
		Medicines	Chemicals
		Paper, Chemicals	Medicines

* Town having outgrowths

Table 47 indicates the most important commodities manufactured and exported out of each town of the district. The most important commodities manufactured in the towns are paddy, sugarcane, rice, spices, fruits, vegetables, cloths, chemicals, paper, aluminum products, roofing tiles, bricks, suiting-shirting, textile machinery, textile materials, cast iron machinery, bobbin, engineering products, plastic products, utensils, plastic toys, ball pen and colour. All these items are also exported out of the towns of the district. Besides above commodities of plastic, groundnut oil and wood are also exported out from the towns of the district.

District Total :		**281,643**	**199,652**	**81,991**	**10,901**	**7,318**	**3,583**	**150,858**	**134,981**	**15,877**

Table 48 details the number of households by tenure status and number of rooms occupied in the district. The total numbers of households in the district are 281,643 having 199,652 households in rural areas and 81,991 households in urban areas out of total households 10,901 (3.9 per cent) belong to Scheduled Castes and 150,858 (53.6 per cent) households belong to Scheduled Tribes. Out of total of 281,643 households in the district 237,582 (84.3 per cent) households are living in their owned house, 39,076 (13.9 per cent) are living in rented house and the remaining 4,985 (1.8 per cent) households are living in other households.Out of total households 155,054 (55 per cent) households have only one room accommodation, 79,099 (28.1 per cent) have two rooms house, 27,276 (9.7 per cent) have three rooms house and 11,718 (4.2 per cent) households have accommodation of three or more

than three rooms. The remaining 8,496 (3 per cent) households have accommodation without any exclusive room. It can also be observed that 58.9 per cent of rural households and 45.8 per cent of urban households have only one room accommodation while two room accommodations is occupied by 27.3 per cent households in rural areas and 3.1 per cent households in urban areas. In the district 7.3 per cent households in rural areas and 15.5 per cent households in urban areas have accommodation of three rooms while accommodation of more than three rooms is occupied by 3.1 per cent of rural households and 6.9 per cent of urban households. Out of total of 199,652 rural households 3.5 per cent have dwelling unit without any exclusive room, in urban areas; out of total of 81,991 households 1.8 per cent households do not have any exclusive room. The median number of rooms is greater i.e. 2 in urban areas as compared to that of rural areas which is one.

TABLE 49

PERCENTAGE DISTRIBUTION OF HOUSEHOLDS LIVING IN PERMANENT, SEMI PERMANENT AND TEMPORARY HOUSES, 2001

Sl. No.	Name of Taluka	Total			Rural			Urban		
		Permanent	Semi permanent	Temp-orary	Permanent	Semi permanent	Temp-orary	Permanent	Semi permanent	Temp-orary
1	2	3	4	5	6	7	8	9	10	11

2	Dharampur	6,105 (18.5)	25,644 (77.5)	1,335 (4.0)	3,960 (13.5)	24,123 (82.1)	1,297 (4.4)	2,145 (57.9)	1,521 (41.1)	38 (1.0)
3	Pardi	60,472 (68.8)	25,709 (29.2)	1,732 (2.0)	25,023 (52.3)	21,553 (45.0)	1,274 (2.7)	35,449 (88.5)	4,156 (10.4)	458 (1.1)
4	Kaprada	3,157 (9.0)	30,707 (87.1)	1,384 (3.9)	3,157 (9.0)	30,707 (87.1)	1,384 (3.9)	0 (0.0)	0 (0.0)	0 (0.0)
5	Umbergaon	27,711 (59.4)	16,694 (35.8)	2,235 (4.8)	22,829 (55.8)	15,965 (39.0)	2,155 (5.3)	4,882 (85.8)	729 (12.8)	80 (1.4)
	District Total :	**149,474 (53.1)**	**124,674 (44.3)**	**7,458 (2.7)**	**79,954 (40.1)**	**112,974 (56.6)**	**6,700 (3.4)**	**69,520 (84.8)**	**11,700 (14.3)**	**758 (0.9)**

Source : Census of India 2001, H - series : "Tables on Houses, Household amenities and Assets."

Permanent : Permanent houses refers to those houses whose wall & roofs are made of pucca materials i.e., where, burnt bricks, G.I. Sheets or other metal sheets, stone cement concrete is used for wall and tiles slate, shingle, corrugated iron, zinc or other metal sheets asbestos sheets, bricks, lime and stone and RBC/RCC concreate are used for roof. are used for roof.

Semi permanent : Semi-permanent houses refer to those houses made of other types of materials

Temporary : Temporary houses refers to those houses having wall and roofs made of Kutcha materials i.e. where grass, leaves, reeds, bamboo mud, unburnt bricks are used for the construction of walls and grass, leaves reeds, bamboo hatch mud, unburnt bricks, wood etc. are used for roofs.

Table 49 gives the detail about the percentage distribution of households living in permanent, semi permanent and temporary house in the district. It can be seen that only 2.7 per cent households have temporary houses i.e. houses made of kachcha materials while majority of households i.e. 53.1 per cent have permanent houses i.e. houses made of pucca material. The remaining 44.3 per cent households have semi permanent houses, i.e. houses made of other type of materials. In rural areas 56.6 per cent households are living in semi permanent houses followed by 40.1 per cent in permanent and 3.4 per cent in temporary houses. In urban areas of the district, 84.8 per cent households are living in permanent houses, 14.3 per cent in semi permanent and only 0.9 per cent households are living in temporary houses. At taluka level, Pardi tops the list with 68.8 per cent of permanent houses, while Kaprada has the highest percentage of 87.1 per cent of semi permanent houses and Umbergaon has 4.8 per cent of household are living in the temporary house, which is the highest percentage proportion among all the talukas.

Source : Census of India 2001, H- series: "Tables on Houses, Household amenities and Assets."

Note : Percentages are given in brackets.

* Based on the improved drinking water source, drinking water supply has been classified as 'Improved ' or otherwise. If the household has access to drinking water supplied from a tap or hand pump/tube well situated within or outside the premises it is considered as having access to `Improved drinking water source'. However, the concept of improved drinking water is state specific and this is to be considered accordingly.

@ Bathroom means bathroom within the house

$ Toilet means toilet within the house

Drainage means closed and open drainage

Table 50 shows percentage of households having Improved drinking water sources, electricity, bathroom, toilet and drainage facility. It can be seen that 75.9 per cent of total households have Improved drinking water facility and 83.2 per cent have facility of electricity. Out of total households 36.6 per cent have bathroom facility within the house and 32.0 per cent of households have toilet facility within the house. Only 23.5 per cent of households in the district have closed and open drainage. In rural areas 68.2 per cent households have Improved drinking water facility, 77.9 per cent have electricity facility, 20.3 per cent have bathroom, 16.3 per cent have toilet and only 8.6 per cent households have drainage facility. In urban areas 94.9 per cent households have drinking water facility, 96.1 per cent have electricity, 76.3 per cent have bathroom, 70.5 per cent have toilet and 59.7 per cent households have drainage facility. Among talukas, 85.7 per cent households in Pardi have improved drinking water facility which is the highest in the district, while the lowest percentage of 52.1 per cent of same facility is found in Kaprada. 92.8 per cent households in Valsad have electricity while in Kaprada only 50.5 per cent households have electricity. The highest and lowest percentage proportion of households having bathroom facility is found in Pardi (48.5 per cent) and in Kaprada (4.0 per cent) respectively. 44.8 per cent households in Valsad have facility of toilet, which is the highest proportion of households among talukas, while the lowest proportion of 5.2 per cent is recorded in Kaprada. It can be seen that 33.8 per cent households in Pardi have drainage facility wherein only 1.4 per cent households in Kaprada have such facility.

Source : Census of India 2001, H- series: "Tables on Houses, Household amenities and Assets."
Percentage are given in brackets

Table 51 gives number and per cent of households of fuel used for cooking. There are nine types of fuel used for which data is presented in this table. Firewood is widely used as fuel as 58.0 per cent of households use it in the district. It can be observed that 75.7 per cent rural households and 14.7 per cent of urban households use firewood as cooking fuel. In the talukas of the district the usage of firewood varies from 38.4 per cent in Pardi to 95.4 per cent in Kaprada. Use of firewood is more prevalent in rural areas in comparison to urban area. Use of LPG is next to firewood as it is used by 27.2 per cent households in the district. 15.1 per cent households in rural areas and 56.7 per cent households in urban areas use LPG for cooking. Among talukas the usage of LPG varies between 1.7 per cent in Kaprada and 41.0 per cent in Valsad taluka. Kerosene is next to LPG as 11.7 per cent households in the district use kerosene for cooking. Among taluka the use of kerosene varies from 0.5 per cent households in Kaprada to 23.7 per cent in Pardi. As regards other fuels 1.7 per cent households in the district use crop residue and 0.8 per cent use biogas. The usage of other fuels such as cow dung cake, electricity, coal and other items is not so significant. In the district 977 (0.4 per cent) households have reported 'No cooking'.

Source: Census of India 2001, H- series: "Tables on Houses, Household amenities and Assets."

Table 52 shows number of households availing Banking services and number of households having each of the specified assets. Out of total of 281,643 households 104,031 (36.9 per cent) are availing banking services. In rural areas 30.0 per cent of rural households and in urban areas 53.8 per cent of urban households are availing banking services. As regards specified assets at district level 31.3 per cent of total district households have Radio/ Transistors, 33.1 per cent have TV,10.8 per cent have Telephone, 38.8 per cent have Bicycles, 21.3 per cent have Scooter/Motorcycle/Moped and 3.2 per cent households have Car/Jeep/Van. In the 105,578 households while 37.5 per cent of total households do not have any of the specified assets.In rural areas 44.3 per cent households do not possess any of the specified assets, while 27.6 per cent of rural households have Radio/ Transistors, 22.2 per cent have TV, 5.5 per cent have Telephone, 37.7 per cent have Bicycles, 15.9 per cent have Scooter/ Motorcycle/Moped and 1.8 per cent households have Car/Jeep/Van. In urban areas 21.0 per cent households do not have any of the specified assets. As regards other assets it can be seen that 40.1 per cent households have Radio/ Transistors, 59.8 per cent have TV, 23.6 per cent have Telephone, 41.7 per cent have Bicycles, 34.5 per cent have Scooter/ Motorcycle/Moped and 6.7 per cent households have Car/Jeep/Van.At taluka level 52.1 per cent households in Valsad are availing banking services while 12.6 per cent in Kaprada are availing banking services. As regards the highest and lowest percentage proportion of households not having any of the specified assets are recorded at 72.5 per cent in Kaprada taluka and at 22.3 per cent in Valsad taluka respectively. The data suggest that in Kaprada 27.5 per cent of households possess one or more specified assets while in Valsad 77.7 per cent of household have one or more specified assets.

(viii) Major social and cultural events, natural and administrative developments and significant activities during the decade:-

The present Valsad district is bifurcated from undivided Valsad district and alongwith it Navsari district is created from it by separating four talukas vide the Government Notification No.GHM-97-83-M-PFR-1097-L dated 24th September, 1997. Thus the present Valsad district came into existence with four talukas namely Valsad, Dharampur, Pardi and Umargaon. Further Dharampur taluka was bifurcated creating Kaprada taluka vide the Government Notification No. GM/97/1239(1)/M/PFR/2897/2597/L dated 15th October 1997.

(ix) Brief description of places of religions, historical or archaeological importance in villages and places of tourist interest in the towns of the district :

Name of Taluka : Dharampur
Name of Town : Dharampur
Location Code : 42508000

(*Laxmi Narayan Temple*)

Dharampur is situated on the banks of the Swargavahini river and is surrounded by the Sahyadri mountain range on east, west and south sides. Due to its location the town enjoys a very pleasant climate throughout the year. Dharampur, situated in south Gujarat, was a capital of the former princely State of Dharampur. Originally, it was known as Ramnagar. The present day Dharampur dates back to 1764 A.D. and was founded by King Dharamdevji. The town has very beautiful places like, *Laxmi Narayan Temple. Rajyarohan* gate, *Gandhi bag, Radha-Krishna temple. Lady Wilson Museum* etc.

Name of Taluka : Valsad
Name of Village : Pardi Parnera
Location Code : 01814400

(*Temple of goddess Chandika*)

The height of Parnera hill is about 500 feet above the plain. Originally the top of the hill was fortified by the Hindus and the fort remained under the Raja of Dharampur till Muhmud Begda. King of Gujarat captured at the end of the 15th century. After remaining for some time under the Muslim rulers, it fell into hands of a chief of bandits. The Portugese took it in 1558 and again in 1568 when the fortification were destroyed. After remaining in ruins for more than a hundred years the fort was taken and rebuilt by Moro Pant, one of the generals of Shivaji in April, 1676. Parnera remained under the Marathas for about a century and was taken by the British in 1780. The fort was at first occupied by a military party as a protection against the raids of Pindharis. But early in the 19th century the garrison was removed and the fort was dismantled during the mutiny of 1857. Ruins of the fort are still found at the summit of the hills. There is a temple of the Chandika Mata at the top of the Parnera hill where a fair with a congregation of about 4,000 people is held during *Ashwin* month.

Name of Taluka : Pardi
Name of Village : Udwada
Location Code : 0183000

(*Fire temple*)

The village is the holy place of pilgrimage of Parsis. The sacred fire from the Navsari. Atash Behram (Holy Fire) was secretly carried to Udwada by some Parsi priests owing to some dispute among them. During the Pateti holiday and other auspicious days this place is visited by Parsis.

Name of Taluka : Valsad
Name of Town : Atul
Location Code : 42507000

(*Colour Chemicals Complex)*

There is the giant complex of colour, chemicals and pharmaceuticals named 'Atul' near Valsad. The complex belongs to the Kasturbhai Lalbhai group of industries. B.K. Mzumdar was one of the prime sources of inspiration in the development of Atul Complex. Atul is actually situated at the foot of Parnera hill. This small hill is better known for Bhavani Temple.

Name of Taluka : Umbergaon
Name of Village : Sanjan
Location Code : 01853100

(*Holy fire of Behram*)

For the sake of their religion, Parsis left Persia and came to Sanjan. The Yadav chief of south Gujarat Jadi Rana permitted them to choose a place and settle on their agreeing to certain conditions. A temple of the Holy fire of Behram was begun to be constructed and completed by the help of the Yadav Chief in 790 A.D. The Parsi settlement at Sanjan soon prospered and most of the Parsis remained at Sanjan for about 300 years though a few dispersed in various places. In another 200 years, a large number of Parsis with their Dasturs (priests) also left Sanjan. Parsis under the leadership of Ardeshir fought their Raja (Hindu Chief) but in the end Ardeshir was killed. Sanjan fell into the hands of Mohammedans and most of the surviving Parsis fled with their sacred fire to the adjoining hill of the Bahru where they lived for twelve years. The sacred fire was then taken to Bansda in 1502, from Bansda to Navsari in 1566, from Navsari to Bulsar in 1741 and finally in 1742 from Bulsar to Udwada where it is still burning. Sanjan is thus a holy place for Parsis.

Source : (1) District Gazetteer, Valsad
(2) Tourism Corporation of Gujarat Limited

(x) Major characteristics of the district, contribution of the district in the form of any historical figure associated with the district. :

Valsad district is endowed with economic resources viz. agricultural land, and industries. This district is famous for rice, barley, cotton and sugarcane cash crops. Along with these cash crops, such as jowar, wheat, rice, and cereals are also

grown in this district. This district has a sea coast line and considerable fishing activities of fresh and dry fishes. Important varieties of fish in the district are Bombay Duck, Colia, prawns and millet. The sugar and jaggery industries have developed here due to the sizable sugarcane crop, port, fishery and salt industries have developed on the coastal area. Some people grow grapes besides fruits, vegetables and flowers. In this district many industries have been established by government and private sector. These industries are important from the point of view of their employment of this district. Major portion of this district is covered with forests. More than 39.1% of the total geographical area of the district is under forest. The chief forest products are *Valsadi Sag, bamboo, Gorad, Barol, sajad, Teak, arthi, arduso and semal.*

The area between the western coast and the fertile eastern river bed is full of greenery and hilly forest. The agriculture has also flourished. Mango, banana, chikoo, papaya, jackfruit, coconut are few of the fruits that grow in abundance. The Alphanso mango of Valsad is famous throughout and is exported too. Number of other species of mango has developed in this area.

Parsis entered through the gates of Sanjan in South Gujarat (Valsad) and placed the 'Holy Fire' in Udwada. Eventually Udwada became Parsis biggest religious place. They then established and settled in Valsad, Navsari and Surat. The Parsis have played a definite role in the history of this region with their loving nature, hard work, compromising attitude and generosity. Parsis have spread in every nook and corner of this country. But their headquarter remain in Gujarat, especially in south Gujarat.

Umargaon is now days better known for its film studio. The Vrindavan Film Studio at Umargaon is always busting with shooting activities. The outdoor locations are also attractive. The industrialization in and around Vapi has transformed Vapi as place full of buildings and factories.

MORARJI RANCHHODJI DESAI (1896-1995) -Bharat-Ratna

Morarji Desai established his leadership in Gujarat in the footsteps of Mahatma Gandhiji and Sardar Patel. He was born in Bhadeli village of Valsad district. He obtained his secondary education in Valsad and higher education in Bombay. He was under the influence of Gandhiji at the very first instance when he heard Gandhiji during the convention of national assembly in Bombay in 1915. He started his career as a collector. He then left the job and plunged into public service. He was imprisoned for the first time in 1930. He contested the election to the Legislative Assembly of Bombay State in 1936 and became a minister. He was elected Chief Minister of Bombay State in 1946. He established the Home Guard which was developed in the later years and proved its utility. He became Vice Chancellor of Gujarat Vidyapith in 1950 and served as a Chancellor since 1963. Once again he became the Chief Minister of Bombay State (1952-1956). He was moved to central cabinet and became deputy Prime Minister in Indira Gandhi's Government. He rose to the Prime Ministership of India in 1977. (He was Prime Minister from March 1977 to July 1979). His staunch allegiance to Gandhian values and his self righteous nature are too well known.

BHULABHAI DESAI (1877-1946)

Bhulabhai Desai, an eminent lawyer, was one of the leading architects of Indian independence. Bhulabhai was born in a farmer family of Bhadeli village near Valsad. He started his career as a teacher, but very soon he left the profession and became an Advocate. He started his legal practice in Bombay High Court. Sardar Vallabhbhai invited him to represent the case of farmers at the time of Bardoli Satyagrah. Bhulabhai joined the Congress and attracted the attention of the high command with his sharp intelligence. He became one of the advisors and was subsequently nominated to the Congress Working Committee. His popularity saw no bounds when he stood as a defence counsel for the three officers of the Indian National Army of Netaji Subhaschandra Bose who

were charged with treason and the trial was undertaken at Red Fort of Delhi. Bhulabhai was not keeping well at that time. He defended the right of the slave people to revolt and freed the three officers from the charge. Bhulabhai served Sahitya Parishad as its president and was also a member of the committee which drafted the Constitution of India. He is mainly remembered as an Indian national leader who defended Bardoli peasants before Broomfield committee. He also founded Swadeshi Sabha to boycott foreign goods.

(xi) Scope of Village Directory & Town Directory

As mentioned earlier, the District Census Handbook is brought out in two parts-Part A and Part B. Part A covers the non-census data of village directory and town directory whereas part B covers the primary census abstract data of 2001 Census. The scope of village directory and town directory is discussed below.

Scope of Village Directory

For the census work, the villages in the district have been arranged taluka wise and within the taluka they are shown location code wise. Each village is assigned a location code number for the purpose of identification. In 2001 Census, all the villages have been given unique 8-digit code number, which will remain constant across the census, and shall make it easy to do comparative study. Eight digit code's last two digits are especially provided to take into account exigencies arising due to jurisdictional changes of villages by partition, amalgamation etc. This time it has been kept '00'. Prior to the village directory information, a map and alphabetical list of villages for each taluka is given in Part A. Village directory contains the non-census data of each village. It gives the village wise basic information relating to infrastructure and amenities available in the sphere of education, medical, drinking water, power supply, post and telegraph, communications, approach road to village and distribution of land use area. In addition, it contains information about total area of each village, total population and number of households and the nearest town and its distance from the village. The information on number of households and total population has been included with a view to examine the co-relation of amenities with the number of households and population they serve. If an amenity is not in existence in the referent village, the distance in broad ranges from the nearest place along with name, where the amenity is available is given. The broad range are (-5 kms), (5-10 kms.) and (10+ kms.). Some additional information has been added viz.(1) Number of Banks, (2) Credit Societies, (3) recreational and cultural facilities, (4) Receipt of Newspaper / Magazine, (5) Income & Expenditure of the village and (6) Name of the three most important commodities imported, manufactured/ produced & exported. One information has been deleted this time, i.e., Market & Hat facility.

The village directory also carries the following appendices.

Appendix-I	It gives the taluka wise abstract of educational, medical and other amenities available in the villages of the district.
Appendix-I-A	Indicates number of villages Taluka wise having one or more primary schools.
Appendix-I-B	Indicates number of villages Taluka wise having primary, middle and secondary schools.
Appendix-I-C	Shows number of villages Taluka wise with different sources of drinking water facilities.
Appendix-II	Indicates the list of villages with 5,000 and above population which do not have one or more important amenities.
Appendix-II-A	Indicates list of Census Towns which do not have one or more amenities.
Appendix-III	It gives the land utilization data in respect of Census Towns/non-municipal Towns.

Appendix-IV	Taluka wise list of inhabited villages where no amenity other than drinking water facility is available.
Appendix-V	Summary showing number of villages not having Scheduled Castes population.
Appendix-VI	Summary showing number of villages not having Scheduled Tribes population.
Appendix-VII A, VII B	The appendix shows the list of villages according to proportion of the Scheduled castes and scheduled Tribes to the total population by ranges.
Appendix-VIII	Indicates Taluka wise number of villages under each Gram Panchayat.
Appendix-IX	Shows number of different types of girls school in a village.

Scope of Town Directory

Town Directory covers the non-census data for each town. It presents important and useful information like civic and other amenities available in all the towns of the district. The information in town directory is covered in following seven statements, viz. statements I to VII.

Statement-I	Town wise class, name, civic administrative status of the town, its area, growth rates, density and sex ratio.
Statement-II	Physical aspects of each town.
Statement-III	Income and expenditure of each town.
Statement-IV	Civic and other amenities in respect of each town.
Statement-V	Availability of medical, educational, recreational and cultural facilities in each town.
Statement-VI	Trade, commerce, industry and banking activities in each town.
Statement-VII	Civic and other amenities in slum areas of each town.

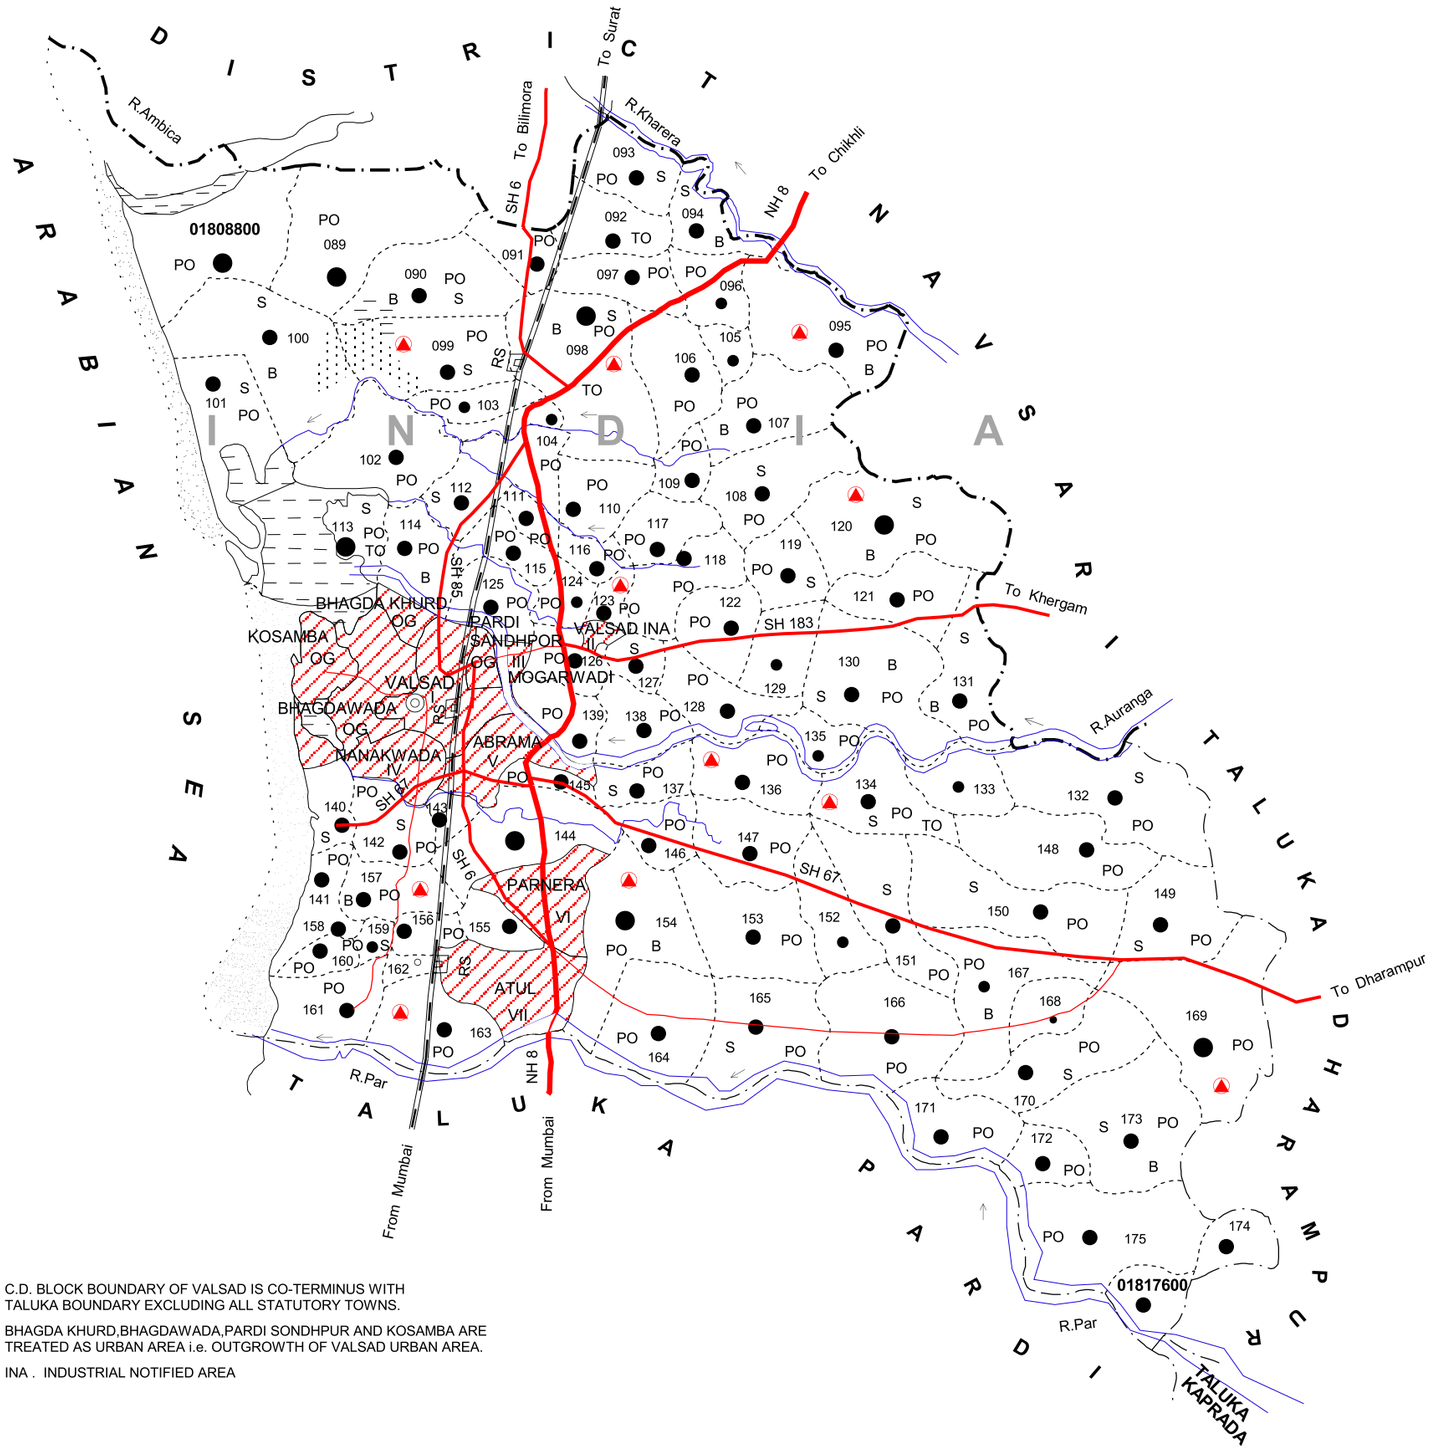

In all the Statement except VII the towns are arranged in the alphabetical order within the district. The details of these statements are given in the analytical portion of the town directory. In addition to the above statements, an appendix showing the towns with their outgrowths with population, is also given after the town directory statements.

SECTION – I Village Directory

(a) NOTE EXPLAINING THE ABBREVIATIONS USED IN THE VILLAGE DIRECTORY

The "Village Directory" is one of the traditional compilations of the Census. It gives the list of villages, their location numbers, their area, population, number of households, amenities such as educational, medical, drinking water, post and telegraph, commercial and co-operative banks, agricultural non-agricultural and other credit societies, recreational and cultural facilities, communication, approach to village, nearest town with a distance, power supply availability of newspaper and magazines, most important commodity manufactured and land use of each village.

Village is a statutory recognized unit having a definite boundary and separate land records. In case, a complete village is treated as an outgrowth of urban agglomeration, data on amenities for that village, have not been given in the Village Directory but shown along with the urban component. The villages which are consider as a Census Town , the amenities data are shown in the Town Directory. For those villages which have partly merged in an outgrowth of U.A., the amenities data are shown in the Village Directory for that particular village.

The 'uninhabited' villages (villages with no population) have been indicated as such after furnishing details in columns 1 to 3 i.e., Serial number, Name of village & location code number and area of the village against column no. 4 to 18. The land use data for such villages are shown in col. 19 to 23.

The Village Directory format has 23 columns and the details given under each column are for the village are as follows:-

Column 1 : Serial Number

Self explanatory. All the villages within the CD Block are presented serially in the ascending order of their location code number.

Column 2 : Name and Location Code Number of village.

The name and location code number of the village are shown against these columns. This also includes the forest and uninhabited villages.

Column 3 : Area of the village

The area of the villages in hectares are given. Wherever the area figures was not furnished by the concerned department the column is left blank.

Column 4 : Total population

The total population of the village as per 2001 Census is given against this column.

Column 5 : Number of households

The number of households as per 2001 Census is given in this column.

Amenities :

In column 6 to 23, availability in respect of different amenities such as education, medical, drinking water, post, telegraph, banks, credit societies, communication, power, approach road etc. in each village has been depicted with appropriate codes against the column concerned. Wherever the amenities are not available in the village, a dash (-) is shown in the column and next to it in brackets the distance in broad ranges viz.< 5 kms., 5-10 kms. and 10+ kms of the nearest place where the facility is available is given. Column wise details are given below :

Column 6 : Educational

Classes upto class VII included in Primary School. This will include nursery school, kindergarten school. Pre-basic school, pre-primary school, junior basic school upto class VII.

Classes from VIII to X included in Higher secondary school. Classes XI and XII are included in senior secondary school.

Accordingly any of the following types of institutions if exists within the village is shown as per codes given below :

(i)	Primary School	P
(ii)	Middle School	M*
(iii)	Secondary School	S
(iv)	Senior Secondary School	PUC
(v)	College	C

(vi)	Industrial School	I
(vii)	Training School	Tr
(viii)	Adult literacy class/centre	AC
(ix)	Others (specify) e.g. Sanskrit Pathshala, Senior basic school, Navodaya Vidyalaya, Makhtab, etc.	O

More than one institution of a type in the village is indicated by the number within brackets against the abbreviation, e.g. P(3), M(4), etc.

Note : *-There is no Middle school in the Gujarat State.

Column 7 : Medical

Availability of medical facility within the village is indicated by following codes :

(i)	Allopathic Hospital	H
	Ayurvedic Hospital	HA
	Unani Hospital	HU
	Homeopathic Hospital	H Hom
(ii)	Allopathic Dispensary	D
	Ayurvedic Dispensary	DA
	Unani Dispensary	DU
	Homeopathic Dispensary	D Hom
(iii)	Maternity & Child Welfare	MCW
(iv)	Maternity Home	MH
(v)	Child Welfare Centre	CWC
(vi)	Health Centre	HC
(vii)	Primary Health Centre	PHC
(viii)	Primary Health Sub-Centre	PHS
(ix)	Family Welfare Centre	FWC
(x)	T.B. Clinic	TB
(xi)	Nursing Home	NH
(xii)	Registered Private Medical Practitioner	RMP
(xiii)	Subsidised Medical Practitioner	SMP
(xiv)	Community Health Worker	CHW
(xv)	Others	O

More than one institution of a type in the village is indicated by the number within brackets against the abbreviations, e.g. H(3), D(4), etc.

Column 8 : Drinking Water

The type of the drinking water supply sources available within the village are indicated by codes as follows :

(i)	Tap Water	T
(ii)	Well Water	W
(iii)	Tank Water	TK
(iv)	Tubewell Water	TW
(v)	Handpump	HP
(vi)	River Water	R
(vii)	Canal	C
(viii)	Lake	L
(ix)	Spring	S
(x)	Others	O

Column 9 : Post, Telegraph and Telephone

It is indicated by codes as shown below whether within the village exists the following amenities:

(i)	Post Office	PO
(ii)	Telegraph Office	TO
(iii)	Post & Telegraph Office	PTO
(iv)	Telephone Connection	PH

Column 10: Commercial and Co-operative Banks

If the village is served by any banking service, commercial bank, co-operative bank etc. the same is indicated in codes mentioned below along with the number of banks in brackets. If not available the distance of nearest place where the facility exist is given:

(i)	Commercial Bank	CM
(ii)	Co-operative Bank	CP

Column 11: Credit Societies

If the village enjoys the services of Credit Societies i.e. Agricultural Credit Societies, Non Agricultural Credit Society or Other Credit Societies, the same is indicated in codes mentioned below along with the number of such societies in brackets. In case the facility is not available within the village the distance of the nearest place where such facility exist is given :

(i)	Agricultural Credit Society	ACS
(ii)	Non- Agricultural Credit Society	NCS
(iii)	Other Cridit Society	OCS

Column 12 : Recreational and cultural facilities

If facilities such as Cinema/Video hall, Sports Club, Stadium/Auditorium is available in the village, the same is recorded in these columns. If not available the particulars of the nearest place with the facility is recorded. The information is indicated in codes mentioned below along with the number of such facilities in brackets:

(i)	Cinema / Video Hall	CV
(ii)	Sports Club	SP
(iii)	Stadium / Auditorium	ST

Column 13 : Communications

If the village is served by any mode of public/ private transport like Bus, Railway station or Navigable water ways they are to be mentioned as follows:

(i)	Bus	BS
(ii)	Railway Station	RS
(iii)	Navigable Waterway	NW

Column 14 : Approach to village

Approach to village refers to the state of road leading to village. The approach to the village is indicated in following codes :

(i)	Paved Road	PR
(ii)	Mud road	MR
(iii)	Foot path	FP
(iv)	Navigable River	NR
(v)	Navigable Canal	NC
(vi)	Navigable waterways other than River, Canal	NW

Column 15 : Nearest Town and distance

The distance is given in kilometers in brackets against the name of the town nearest to the village.

Column 16 : Power supply

Availability of Power Supply in the village, whatever may be the form of its use is given by using following codes :

(i)	Electricity for domestic use	ED
(ii)	Electricity for agricultural use	EAG
(iii)	Electricity for other purposes	EO
(iv)	Electricity for all purposes	EA

Column 17 : News Paper / Magazine

If village receives any News Paper/Magazines the same is noted in this column using following codes :

(i)	News Paper	N
(ii)	Magazine	M

.Column 18 : Most important commodities manufactured

The name of three most important commodities manufactured in the village is recorded against this column.

Column 19 to 23 : Land use i.e. area under different types of land use

Land use data maintained by the State/ UT Govts. are furnished against these columns. The data concerning area under Forest, Irrigated land (by source), Un-irrigated land, Culturable waste and Area not available for cultivation in the village are shown against these columns. The area figures are given in hectare(s) up to one decimal. Desh '-' is recorded wherever the information is not made available by the concerned department. The codes used for different types of irrigation facilities available in the village are indicated below:

(i)	Government Canal	GC
(ii)	Private Canal	PC
(iii)	Well (without electricity)	W
(iv)	Well (with electricity)	WE
(v)	Tubewell(without electricity)	TW
(vi)	Tubewell(with electricity)	TWE
(vii)	Tank	TK
(viii)	River	R
(ix)	Lake	L
(x)	Waterfall	WF
(xi)	Others	O
(xii)	Total	T

(b) List of Villages merged in Towns and Outgrowths at 2001 Census :

Sl. No.	Name of Taluka	Village		Merged in which Town or name of UA
		Name	L.C. No.	
(1)	(2)	(3)	(4)	(5)

APPENDIX - I A - VILLAGE DIRECTORY

VILLAGES BY NUMBER OF PRIMARY SCHOOLS

Sl. No.	Name of Taluka/ C.D.Block	Total Number of Inhabited Villages	Number of Primary Schools				
			None	One	Two	Three	Four +
1	2	3	4	5	6	7	8
1	Valsad	89	1	46	26	5	11
2	Dharampur	107	0	70	21	11	5
3	Pardi	76	0	39	19	8	10
4	Kaprada	128	0	90	24	5	9
5	Umbergaon	50	0	14	12	14	10
	District Total:	**450**	**1**	**259**	**102**	**43**	**45**

APPENDIX I B - VILLAGE DIRECTORY

VILLAGES BY PRIMARY, MIDDLE AND SECONDARY SCHOOLS

Sl. No.	Name of Taluka/ C.D.Block	Total Number of Inhabited Villages	Type of educational institutions available			
			No School	At least one Primary School and No Middle School	At least one Primary School and one Middle School*	At least one Middle School and one Secondary School*
1	2	3	4	5	6	7
1	Valsad	89	1	88	0	0
2	Dharampur	107	0	107	0	0
3	Pardi	76	0	76	0	0
4	Kaprada	128	0	128	0	0
5	Umbergaon	50	0	50	0	0
	District Total :	**450**	**1**	**449**	**0**	**0**

Note : * In Gujarat State the levels of education are classified as under

(i) Primary School (From Std. I to VII passed)

(ii) Secondary/Matriculation (From Std. VIII to X passed)

(iii) Higher Secondary (From Std. XI to XII passed). Hence details under column 6, 7 are not shown.

APPENDIX I C-VILLAGE DIECOTRY

VILLAGES WITH DIFFERENT SOURCES OF DRINKING WATER FACILITIES AVAILABLE

Sl. No.	Name of Taluka / C.D. Block	Number of Villages with Different Sources of Drinking Water Available				
		Only Tap	Only Well	Only Tube Well	Only Hand-pump	More than one Source only from Tap, Well, Tube Well, Handpump
1	2	3	4	5	6	7
1	Valsad	0	0	0	0	89
2	Dharampur	0	0	0	0	106
3	Pardi	0	0	0	0	75
4	Kaprada	0	0	0	0	125
5	Umbergaon	0	0	0	0	50
	District Total:	**0**	**0**	**0**	**0**	**445**

APPENDIX II - VILLAGE DIRECTORY

VILLAGES WITH 5,000 AND ABOVE POPULATION WHICH DO NOT HAVE ONE OR MORE AMENITIES AVAILABLE

Sl. No.	Name of Village	Location Code Number	Name of Taluka/ C.D.Block	Population	Amenities not available (indicate N. A. where amenity not available)		
					Senior Secondary School	College	Primary Health Sub Centre
1	2	3	4	5	6	7	8

1	Vlasad	01816600	Untdi	1	-	-	-
		Total		**1**	-	-	-
2	Pardi	01830000	Udwada			1	
		Total				**1**	
	District Total :			**1**	**-**	**1**	-

Note :* In Gujarat State the levels of education are classified as under

(i) Primary (from Std. I to VII passed)

(ii) Secondary/Matriculation (From Std. VII to passed)

(iii) Higher Secondary (From Std. XI to XII passed Hence details under column 6 is not shown.

SECTION – II – TOWN DIRECTORY

Town Directory

(a) NOTE EXPLAINING THE ABBREVIATIONS USED IN THE TOWN DIRECTORY

Town Directory statements (I to VII)

Statement I : Status and Growth History

Column 2 : Class, name and civic administration status of town :

Class has been introduced to facilitate analysis of town directory data at the state and all India levels. It is presented according to 2001 Census Population of the town as follows :

Population	Class
100,000 and above	I
50,000 - 99,999	II
20,000 - 49,999	III
10,000 - 19,999	IV
5,000 - 9,999	V
Below 5,000	VI

Town with a population of one lakh (1,00,000) and above is treated as a city.

The civic administration status of the towns is indicated within bracket against the name of the town. The following abbreviations are used to denote civic status of town.

(I)	Municipal Corporation	M. Corp.
(II)	Municipal Committee	MC
(III)	Municipal Council	M Cl
(IV)	City Municipal Council	CMC
(V)	Town Municipal Council	TMC
(VI)	Municipal Board	MB
(VII)	Municipality	M
(VIII)	Cantonment Board/Cantonment	CB
(IX)	Notified Area	NA
(X)	Notified Town	NT
(XI)	Notified Area Committee/ Notified Area Council	NAC
(XII)	Notified Town Area	NTA
(XIII)	Industrial Notified Area	INA
(XIV)	Industrial Township	ITS
(XV)	Township	TS
(XVI)	Town Panchayat	TP
(XVII)	Nagar Panchayat	NP
(XVIII)	Town Committee/ Town Area Committee	TC
(XIX)	Small Town Committee	ST
(XX)	Estate office	EO
(XXI)	Gram Panchayat	GP
(XXII)	Census Town	CT

Others columns need no comments.

Statement II - Physical Aspects and Location of towns, 1999.

Column 3 to 5 : Physical Aspects

In this columns the Rainfall and Maximum & Minimum Temperature of the town is recorded.

Column 6, 7 and 8:

Name of the State headquarters, District headquarters and Sub-Divisional headquarters with distance from the referent town in kilometers, is to be recorded respectively. If the names mentioned in these columns are the same as the referent town itself, the distance is recorded as (0) zero.

Column 9& 10 :

Name of the nearest city with one lakh and more and five lakhs and more population are recorded.

Column 11, 12 and 13 :

If referent town enjoys the facility of railway station, bus route facility or navigable river/canal. Its name is to be mentioned. If not available, then the name of nearest place with distance, where such facility exists is to be mentioned.

Statement III : Municipal Finance 1998 – 1999

Item-wise amount of receipt and expenditure in thousand rupees, relating to municipal finance of the town for the year 1998-99 is to be recorded.

Statement IV : Civic and Other amenities, 1999

Column 1 to 5 : Self explanatory.

Column 6 : Road length (in kms.)

Information about kutcha / pucca road is to be recorded separately for the roads within the limits of the referent town.

(i)	Pucca Road	PR
(ii)	Kutcha Road	KR

Column 7 : System of Sewerage

Generally, by sewerage system is implied the network of mains and branches of underground conduits for the conveyance of sewerage to the point of disposal. Sewers that carry only household and industrial wastes are called separate sewers, those that carry storm water from roofs, streets and other surface are known as storm water drains, while those carrying both sewage and storm water are called combined sewers.

The codes used for different types of drainage system are as follows :

(i)	Sewer	S
(ii)	Open Surface Drains	OSD
(iii)	Box Surface Drains	BSD
(iv)	Sylk Drains	SD
(v)	Cesspool method	CP
(vi)	Pit System	Pt
(vii)	Others	O

Column 8 to 11 : Number of latrines

Number of various types of latrines both Public and Private are given in these columns.

Column 12 : Method of disposal of night soil

The various prevalent method of disposal of night soil are given below with codes :

Head Loads	HL
Basket	B
Wheel Barrows	WB
Septic Tank	ST
Pit System	Pt
Sewerage	S
Others	O

Column 13 and 14 : Water supply

Source and capacity of storage system. The following codes are used in these columns:

Column 13:

(i)	Tap water	T
(ii)	Tube-well water	TW
(iii)	Tank Water	TK
(iv)	Well water	W

Column 14 :

(v)	Over Head Tank	OHT
(vi)	Service Reservoir	SR
(vii)	River Infiltration Gallery	RIG
(viii)	Bore Well Pumping System	BWP
(ix)	Pressure Tank	PT

The information on major source of water supply are given in column 13 and the storage capacity against each in kilo-litres (in bracket) are presented in column 14.

Column 15 : Fire Fighting Service

In case the fire fighting service is available in the referent town 'yes' is recorded. If the facility is not available within the town. The name of the nearest place having this facility with its distance from the referent town has been recorded.

Column 16 to 20 : Electrification (Number of connections)

Different types of electric connections have been shown in these columns, i.e. Domestic, Industrial, Commercial, Road lighting (points) & others.

Statement V : Medical, Educational, Recreational and Cultural Facilities, 1999.

Column 1 to 3 : Self explanatory.

Column 4 & 5 :

The data covers all such medical institutions run by or aided by Government/Semi Government/ Local bodies and Charitable institutions or Social agencies like the Missionaries. Where the family planning centres are attached to hospitals or

maternity and child welfare centres or Primary Health Centres, may be treated as independent units and counted separately using following codes :

(i)	Hospital	H
(ii)	Dispensary	D
(iii)	Health Centre	HC
(iv)	Family Welfare Centre	FWC
(v)	T.B. Clinic	TB
(vi)	Nursing Home	NH
(vii)	Others	O

In case of more than one institutions of any type, it is indicated within brackets the number of such institution (s) e.g. D(3), NH(8), etc. The institutions have further been distinguished by providing additional codes within the bracket as given below :

Ayurvedic	A
Unani	U
Homoeopathic	Hom

Column 6 to 9 :

The codes used for these columns are as follows :

(i)	Arts only	A
(ii)	Science only	S
(iii)	Commerce only	C
(iv)	Arts & Science only	AS
(v)	Arts & Commerce only	AC
(vi)	Combined for all categories-Arts, Science and Commerce	ASC
(vii)	Law	L
(viii)	University	U
(ix)	Others	O

Column 10 : Recognized shorthand, typewriting and vocational training institutes

"Recognised" should mean recognised by some statutory authority, like education department, commerce department, labour department etc. of the government or semi government or autonomous bodies, public sector undertakings etc.

The following codes are used :

(i)	Vocational Training Institute	VT
(ii)	Shorthand	SH
(iii)	Typewriting	Type
(iv)	Shorthand & Typewriting	SH Type
(v)	Others	O

The vocational institutions like - Applied Art/ Painting college, Pharmacy college, B. Ed. College, Teacher's Training Institute, Music / Dance School, Nursing School etc. are covered under 'Others'.

Column 11 to 14 :

Classes upto class VII included in Primary School. This will include nursery school, kindergarten school. Pre-basic school, pre-primary school, junior basic school upto class VII.

Classes from VIII to X included in Higher secondary school. Classes XI and XII are included in senior secondary school.

Accordingly any of the following types of institutions if exists within the village is shown as per codes given below :

(i)	Primary School	P
(ii)	Middle School	M*
(iii)	Higher Secondary School	S
(iv)	Senior Secondary School	PUC
(v)	College	C
(vi)	Industrial School	I
(vii)	Training School	Tr
(viii)	Adult literacy class/centre	AC
(ix)	Others (specify) e.g. Sanskrit Pathshala, Senior basic school, Navodaya Vidyalaya, Makhtab,etc.	O

More than one institution of a type in the village is indicated by the number within brackets against the abbreviation, e.g. P(3), M(4), etc.

Note : * - There is no Middle school in the Gujarat State.

Column 15 : Adult literacy class/centres

This column has been introduced keeping in view the Minimum Needs Programme of the Planning Commission. There are number of Adult Education Centres which are included in these columns.

If an educational facility is not available in the town, the name of the nearest place and its distance in kilometres from the town where the facility is available is mentioned.

Column 16 : Working Women's hostels with number of seats

The number of working women's hostel if available in the referent town is mentioned with number of seats. If the facility is not available in the town the name of nearest place with distance where the facility is available is recorded.

Column 17 to 19 : Recreational and Cultural Facilities

Stadium, Cinema, Auditorium / Drama / Community Hall are covered under recreational & cultural facilities. The particulars of permanent recreational facilities are considered for these columns.

Column 20 : Public Libraries, Reading Rooms

Number of public libraries and reading rooms available in the referent town are recorded in codes as follows :

(i)	Public Library	PL
(ii)	Reading room	RR

Statement VI : Trade, Commerce, Industry and Banking, 1999

Column 3 to 8 : Name of three most important commodities exported and names of three most important commodities manufactured in the town are recorded.

Column 9 : Number of Banks

Number of Banks available in the referent town both Commercial and Co-operative banks are recorded against this column.

Column 10 & 11 : **Number of Agricultural Credit Societies and Non Agricultural Credit Societies**

The total number of Agricultural Credit Societies and Non Agricultural Credit Societies in the referent town are recorded against these columns.

Statement VII : Civic and other Amenities in Slums, 1999

This is the statement on civic and other amenities in all slums whether notified or not and for all towns having statutory bodies, like municipality, Municipal Corporation, Town area committee etc.

PART-B

PRIMARY CENSUS ABSTRACT

Primary Census Abstract

Brief note on Primary Census Abstract :

The first census of the third millennium and twenty first century the Census of India, 2001 was the 14th continuous and uninterrupted Indian census since 1872. Thus, 2001 Census will provide data on population and its characteristics marking transition from one century and millennium to another.

The gigantic operation of Population Enumeration (considered by many to be the single largest and complex peace time administrative exercise in the world) was made possible due to the door to door universal canvassing of the Household Schedule by about 2 million enumerators and supervisors covering 593 districts, 5,463 sub-district, 5,161 towns and 638,588 villages. The comprehensive Household Schedule which replaced the individual slip had three parts and two sides A and B. Part I contained the Location Particulars; Part II related to the Individual Particulars and Part III contained questions for Household engaged in cultivation/Plantation. The part II of the Household Schedule had 39 columns and 23 questions all of which were universally canvassed and no sampling was resorted to during enumeration.

Data Processing

A quantum leap was made in the technology front while processing the Census 2001 data both for Houselisting and Population Enumeration. The Census schedules for both the phases were scanned through high speed scanners in fifteen data centers across the country and hand-written data from the schedules were converted into digitized form through Intelligent Character Reading (ICR) software for creation of ASCII records for further processing. The designing and formatting of the Household Schedule had to be done very carefully using specialized software so as to ensure uniformity, which was an essential pre-requisite for scanning. The selection of appropriate state-of-art technology in data processing has made it possible to produce all the Houselisting as well as Population Enumeration tables on full count basis for the first time in the history of Census. For Census 2001, about 202 million schedules consisting of about 1,028 million records were scanned and processed within a span of only 10 months starting October, 2002.

Task Force on Quality Assurance

After the data is processed, it is expedient on the part of the data producing agency to satisfy itself about its quality before putting the same in public domain. This has to be done mainly through the process of internal consistency, comparison with similar data in the past and also through validation with likewise data if available, from external sources. Quite often the local knowledge and perception has to be brought into play to understand both the existing and the new emerging trends of population distribution and characteristics. The other very important aspect of the data quality is to ensure complete coverage of all geographical areas especially for the population enumeration phase where the data is disseminated right up to the village level in the rural areas and the ward level in the urban areas. Thus ensuring the complete coverage and correct geographical linkage of each enumeration block was one of the major planks of the quality control, specially for small area population statistics.

A very comprehensive check and edit mechanism was put in place to objectively examine the preli-minary Census 2001 Population Enumeration results and finally clear them for use. The responsibility of the final clearance of data was with the Task Force on Quality Assurance (TFQA), headed by the Registrar General and Census Commissioner, India. The other members of the TFQA were the Heads and senior officers of the Census Division, Data Processing Division, Map Division, Demography Division and Social Studies Division. The Directors of Census Operations were co-opted as members whenever the TFQA discussed the data for their States/Union territories. The Directors and their senior officers were required to make detailed presentations of data for their own state both in respect to the quality and the coverage and only after the full possible cleared.

There has been a major departure in Census 2001 from the past in respect of the procedure followed for finalization of the Scheduled Castes and the Scheduled Tribes population. In the earlier censuses, the total Scheduled Castes and Scheduled Tribes populations were finalized at the time of the manual compilation of the Primary Census Abstracts (PCA) at the Regional Tabulation Offices which were specially set up for this purpose. The individual Scheduled Castes and the Scheduled Tribes population for each state was finalized much later based on manual coding done by the coders. In 2001 Census, each individual Scheduled Caste and the Scheduled Tribe have been coded directly on the computers by the Data Entry Operators through a process known as Computer Assisted Coding (CAC) and taken up along with the processing of PCA data. The CAC process involves pulling down, from the relevant dictionary of the Scheduled Castes and the Scheduled Tribes, on the computer screen and coding from the dictionary by referring to the image of the specific individual entry in the Household Schedule appearing on the screen. The CAC of the response on Religion wherever required, was also undertaken along with the processing of PCA. This is because the Scheduled Castes status had to be determined in relation to the religion of the individual. Two Special Task Forces, one on Religion and the other on Scheduled Castes/Scheduled Tribes were constituted for scrutiny and appropriate classification of these responses.

The main task of the Special Task Force on Religion was to appropriately merge or group the new responses encountered and code it into the appropriate religious community based on available literature and local knowledge. The Special Task Force on Scheduled Castes and Scheduled Tribes examined the different Scheduled Castes and Scheduled Tribes entries encoun-tered and classified these into appropriate category of the Scheduled Castes or the Scheduled Tribes principally based on the Presidential Notification and the available literature. Thus a very systematic and scientific mechanism was operationalised to firm up the individual religion and the individual Scheduled Castes/Tribes returns. The Scheduled Castes and the Scheduled Tribes population in 2001 Census, is thus being finalized by aggregating the population data for individual Scheduled Castes and the Scheduled Tribes at appropriate geographical levels.

The entire work relating to the data validation and scrutiny was completed by all the States/Union Territories under the overall supervision and monitoring of the Census Division of the Office of the Registrar General, India with active cooperation and support of the Social Studies Division, Data Processing Division, Data Dissemination Division and Map Division.

Primary Census Abstract

The Primary Census Abstract which is yet another important publication of 2001 Census gives basic information on Area, Total Household, Total population, Scheduled Castes, Scheduled Tribes population, Population in the age group 0-6, Literates, Main workers and Marginal workers classified by the four broad industrial categories, namely (i) Cultivators, (ii) Agricultural labourers (iii) Household Industry Workers and (iv) Other workers and also Non-workers. The characteristics of the Total population includes Scheduled Castes, Scheduled Tribes, Institutional and Houseless population and are presented by sex and rural-urban residence. This data is presented at different levels, namely India, State/Union Territories, Districts and Cities, Urban Agglomerations (Population 100,000 and above) in three different tables. In addition, the Appendix of said publication provides Houseless and Institutional Households and their population by residence and sex for 2001 for India, State and Union territory.

Apart from the India and State/Union Territory volumes for Primary Census Abstract, the District Census Handbook contains District Primary Census Abstract, Appendix to District Primary Census Abstract, Primary Census Abstract for Scheduled Castes, Primary Census Abstract for Scheduled Tribes, Village Primary Census Abstract and Urban Primary Census Abstract of the concerned district in the state.

It was for the first time at the 1981 Census that the Primary Census Abstract (PCA) was brought out for the Scheduled Castes and the Scheduled Tribes separately on the pattern of General Primary Census Abstract. This practice was continued in 1991 also. In the 1961 and 1971 Censuses, such data were made available in Table C-VIII-Social and Cultural table and to some extent in the series 'Special Tables for Scheduled Castes/ Scheduled Tribes'.

The format of Primary Census Abstract has been restructured slightly in the 2001 Census as compared to that of 1991 Census. The nine-fold industrial classification of main workers given in the Primary Census Abstract of 1991 Census has been discontinued and its place, four-fold industrial classification of both 'main workers' and 'marginal workers' are included. In 1981 census only main workers were presented in to four categories. One of the novel features of the primary census abstract of 1991 census was the presentation of data of the population of age group 0-6 is continued in 2001 Census also. This will help the data users in better analysis and understanding of this literacy data.

Level of presentation in District Census Handbooks:

The Primary Census Abstract data in different PCAs are presented at different levels. The level of presentation of Primary Census Abstracts are as under:

The PCA Data for villages was presented CD Block wise for the first time in 1991 Census. This practice is continued in 2001 Census also. The data for each CD Block is presented both for rural and urban areas separately. All the villages within the CD Block constitute the rural portion and the Census Towns and Outgrowths are shown under the urban portion of the CD Block. In case a CD Block is spread over two or more districts, than portion which falls within the district is presented, the data pertaining to remaining portion of the CD Block is presented in the concerned District Census Handbook. The data in the Urban Primary Census Abstract for each town as well as for town with outgrowths in the district are presented. The data for all the wards and the outgrowths of the town(s) are also presented separately below the concerned town(s).

The District Primary Census Abstract is presented in 59 columns. The Primary Census Abstract for Scheduled Castes and Primary Census Abstract for Scheduled Tribes are presented in 52 columns. The Village Primary Census Abstract and Urban Primary Census Abstract are presented in 58 columns.

The concepts and definitions used in the column heading are explained under the sub heading 'Census Concepts' in the Analytical Note. The term 'Total Population' includes the Scheduled Castes, the Scheduled Tribes, the Institutional and the Houseless populations. The explanation regarding area figures presented at various level in the Primary Census Abstracts are as follows:

Area Figures

The area figures supplied by local revenue authorities of the district in respect of tehsils, Police Stations and by the local bodies in respect of towns are given in square kilometers. The area figures of the villages supplied by the Tahsildars in acres have been converted and shown in hectares. The area figures of the CD Block is the total of the village areas coming under each CD Block. The area figures for the district are the same as adopted by the Surveyor General of India to maintain uniformity at the national level. The total area figures of all the tahsils/CD Blocks within the district may not tally with area figures of the district because former represents land use area only. Similarly, the total of all the villages may not tally with the entire rural of Police Station/Tahsil. The difference may be due to the fact that while the area covered by hills, forests and rivers etc, have been accounted in the Tahsils and P.S. level the same may not be covered under the area of the villages. Apart from this it may also differ due to varying methods of computation adopted at different levels.

An appendix to District Primary Census Abstract has also been furnished showing urban enumeration block-wise particulars on Total Population, the Scheduled Castes Population and the Scheduled Tribes Population for each town.

The following Abbreviations have been used in the Primary Census Abstract for facility of presentations:

1	Municipal Corporation/ Corporation	M.Corp.
2	Municipality	M
3	Municipal Council	MCI
4	Cantonment Board/Cantonment	CB
5	Notified Area/Notified Area Committee/Notified Committee	NAC
6	Industrial Notified Area	INA
7	Gram Panchayat/Village Panchayat	GP
8	Nagar Panchayat/Town Panchayat	NP
9	Census Town	CT
10	Total	T
11	Rural	R
12	Urban	U

The following conversion factor has been used for converting areas into hectares and hectares into km^2

Acres x 0.40467 = hectares

100 Hectares = 1 Km^2

Note: *These figures represent 'Geographical area' figures supplied by the Surveyor General. Figures for urban area are those supplied by the local Bodies. Area figures for rural are derived by subtracting the urban area from the total area of the District. The total of the area figures of talukas will not tally with the district figures because the former represents 'Land Use Area' and are derived from the figures supplied by the Director of Land Records.

Source: Village Directory 2001 (As on 31st March, 1999).
Note: {Represents Group Gram Panchayat.

Note: *The present Valsad district is bifurcated and a new Navsari district is created from it by separating four talukas vide the Government Notification No.GHM-97-83-M-PFR-1097-L dated 24th September, 1997. Further Dharampur taluka was bifurcated creating Kaprada taluka vide the Government Notification No.GM/97/1239/(1)/M/PFR/2897/2597/L dated 15th October 1997. Thus the present Valsad District has five talukas namely Valsad, Dharampur, Pardi Umargaon and Kaprda. The data of 1991 Census of undivided Valsad has been discussed in Annexure II and III. The details of 2001 Census data of Valsad district has been discussed in Annexure IV, VI, VII and VIII, while Annexure V provides the recast data of 1991 Census and separate data of 2001 Census.

ANNEXURE – II

FERTILITY AND MORTALITY-1991 CENSUS

Fertility Level:

Population is a dynamic variable and keeps on changing. Increase due to birth and decrease due to death affect the population size of an area. Thus the birth and death are the two most important vital events. Natural increase is the excess of population by births over decrease of population by deaths at a given point of time. The births have direct correlation with the fertility.

The data on fertility levels and trends as revealed by the fertility indices of the 1991 Census like Crude Birth Rate (CBR), Age Specific Fertility Rate (ASFR) and Total Fertility Rate (TFR) are presented and analyzed below. The Definitions and concepts of fertility indices frequently used have already been explained in Analytical Note.

Death Rate:

Death process in demographical terminology is called as mortality. The rate at which death events occur reveal about the standard of living and State of health. Statistical data on causes of death help us in controlling the spread of diseases and suggests new curative methods to medical authorities.

Child Mortality:

Information about questions on children ever born and children surviving canvassed for all ever married women was tabulated by age of the mother. From this estimate of child mortality have been worked out by using Brass technique.

Source: Occasional Paper No 1 of 1997.

The Annexure III shows various fertility indicators of all the districts and State as per 1991 Census. It can be observed that Valsad district had Crude Birth Rate (CBR) of 29.0 and Total Fertility Rate (TFR) of 3.4, both of these rates were lower than the State CBR and TFR of 33.6 and 4.2 respectively. Total Marital Fertility Rate (TMFR), General Fertility Rate (GFR) and General Marital Fertility Rate (GMFR) of Valsad district were 5.2, 111 and 150 respectively, which were lower than the respective TMFR, GFR and GMFR of 5.4, 136 and 175 of Gujarat State.

Child woman ratio in the age group of 0-4 and 5-9 was 421 and 473 respectively against 467 and 571 recorded for respective age groups of 0-4 and 5-9 in Gujarat State. Mean age at marriage means age in completed years at which a woman was married. In case, woman was married more than once the age at which she was married first was recorded. The mean age at marriage in Valsad district was 19.4 as per 1991 Census which was higher than the 19 years recorded for Gujarat State.

NUMBER OF CHILDREN EVER BORN AND SURVIVING PER EVER MARRIED WOMAN IN AGE GROUP 45-49, 1991 CENSUS

Source: Gujarat State District Profile, 1991.

As per above Statement there were 3.5 children ever born per ever married woman in the age group of 45-49 which was lower than the State figure of 4.2.As regards surviving children there were 3.3 surviving children per ever married woman in Valsad district against 3.8 surviving children per ever married woman recorded at State level.

ANNEXURE – IV

PERCENTAGE DISTRIBUTION OF MIGRANTS BY PLACE OF BIRTH/ PLACE OF LAST RESIDENCE, 2001 CENSUS

Migration

Migration is a factor in changing the size and structure of the population. The migration process affects the areas to which migrants have moved and areas which they have left. Migration is a form of geographical mobility between one geographical unit to another, involving a change of residence from the place of origin/birth to the place of destination or place of new settlement from the last residence. A person is considered as a migrant by place of birth if the place in which he is enumerated during the Census is other than the place of birth. Similarly a person is considered as a migrant by place of last residence if the place in which he is enumerated during the Census is other than his place of immediate last residence.

Internal and International Migration

The migration movements are of four types –

1. Migration within the district of enumeration (intra-district migration)
2. Migration from one district to another but within the State
3. Migration from one State to another State of the country (inter-State migration) and
4. Migration from one country to another country.

The first three together constitute internal migration while the last type of movement is called international migration.

Migration by place of birth:

The absolute number and percentage distribution of Migrants by place of birth to total population in Valsad district and in the State at 199 Census were as following.

PERCENTAGE DISTRIBUTION OF MIGRANTS BY PLACE OF BIRTH- 2001 CENSUS

Migration By Place of Birth	Gujarat			Valsad		
	Persons	Males	Females	Persons	Males	Females

Source: Gujarat State-D-Series Tables-2001

As per 2001 Census there were 18,810,592 migrants in Gujarat whose place of birth was different than the place of enumeration. Out of such migrants in 2001 Census, 56.9 per cent were born elsewhere in the district of enumeration, 29.2 per cent were born in other districts of the State, 13.4 per cent were born in other States of India and 0.4 per cent were born in other countries. There was no migrants under the category of "Unclassified". In Valsad District, as per 2001 Census, from 595,934 migrated persons, 59.7 per cent are born elsewhere in the district, 12.2 per cent are born in other districts of the State, 27.7 per cent are born in other State of India and only 0.4 per cent are born in other countries. Under the category of 'Unclassified ' not a single person in reported.

INTER STATE IN-MIGRANTS TO GUJARAT STATE AS PER 2001 CENSUS BY PLACE OF BIRTH

Place of Birth	Gujarat		Valsad	
	Migrants	Percentage to Total Migrants	Migrants	Percentage to Total Migrants
1	2	3	4	5
Total Migrants	**2,520,676**	**100.0**	**165,106**	**100.0**
Madhya Pradesh	159,055	6.3	4,144	2.5
Maharashtra	734,945	29.2	51,894	31.4
Rajasthan	471,109	18.7	12,243	7.4
Uttar Pradesh	520,094	20.6	47,179	28.6
Other States	635,473	25.2	49,646	30.1

Source: Gujarat State-D-Series Tables-2001

The above Statements show migration in Gujarat and in Valsad district from other States as per 2001 Censuses. It can be seen that as per 2001 Census there were 2,520,676 persons in the State who were born in other States of India. Out of such persons 29.2 per cent were born in Maharashtra, whereas the proportion of inter State migrants born in Uttar Pradesh, Rajasthan and Madhya Pradesh was 20.6, 18.7 and 6.3 per cent respectively. The remaining 25.2 per cent were born in other States of India.

The above Statements reveal that as per 2001 Census, there are 165,106 migrants in the district of Valsad from other State of India. Considering State wise distribution of these migrants, as per 2001 Census,31.4 per cent are from Maharashtra,. 28.6 per cent are from Uttar Pradesh, 7.4 per cent from Rajasthan and 2.5 per cent from Madhya Pradesh. Remaining 30.1 per cent migrants are from other State of India.

Migration by place of last residence:

Distribution of migrants by place of last residence in Gujarat and Valsad as per 2001 Census and percentage distribution of in-migrants from other States to Gujarat by place of last residence are presented below.

DISTRIBUTION OF MIGRANTS BY PLACE OF LAST RESIDENCE IN GUJARAT - 2001 CENSUS

Place of Last Residence	Gujarat			Valsad		
	Persons	Males	Females	Persons	Males	Females
1	2	3	4	5	6	7
Total Migrants	**19,221,602 (100.0)**	**6,694,122 (100.0)**	**12,527,480 (100.0)**	**614,543 (100.0)**	**245,218 (100.0)**	**369,325 (100.0)**
Last residence elsewhere in the district of enumeration	12,248,452 (63.7)	3,506,051 (52.4)	8,742,401 (69.8)	420,042 (68.4)	134,701 (54.9)	285,341 (77.3)
Last residence in other districts of the State	4,731,665 (24.6)	1,892,862 (28.3)	2,838,803 (22.7)	56,475 (9.2)	26,179 (10.7)	30,296 (8.2)
Last residence in other States of India	2,182,741 (11.4)	1,262,884 (18.9)	919,857 (7.3)	136,300 (22.2)	83,165 (33.9)	53,135 (14.4)
Last residence in other countries	58,744 (0.3)	32,325 (0.5)	26,419 (0.2)	1,726 (0.3)	1,173 (0.5)	553 (0.1)
Unclassified	0 (0.0)	0 (0.0)	0 (0.0)	0 (0.0)	0 (0.0)	0 (0.0)

Source: Gujarat State-D-Series Tables-2001

There were 19,221,602 migrants by place of last residence in Gujarat according to 2001 Census. The proportion of male and female migrants whose place of last residence was elsewhere within the district of enumeration was 52.4 per cent and 69.8 per cent respectively in 2001.The reason for higher proportion of female migration is marriage. In Gujarat as per 2001 Census, out of total migrants, 63.7 per cent of migrants were residing elsewhere in the district of enumeration, 24.6 per cent were those whose last residence was in other districts of the State while last residence of 11.4 per cent migrants was in other States of India and only 0.3 per cent were such whose last residence was in other countries. There were no migrants in the category titled “Unclassified “.

In Valsad District, there are 614,543 migrants, whose place of last residence was other then the place of enumeration as per 2001 Census. From the total migrants registered in 2001 Census, 68.4 per cent migrants are from places else where in the district, 9.2 per cent are from other districts of the State, 22.2 per cent migrants have migrated to the district from other State of India and remaining 0.3 per cent from other countries.

Migration by reason:

The following Statement gives distribution of migrants by reasons of migration from other States of India.

MIGRATION FROM OTHER STATES OF INDIA BY PLACE OF LAST RESIDENCE IN GUJARAT 2001

State	Total Migrants	Reasons						
		Employment	Business	Education	Family moved	Marriage	Natural Calamities	Other reasons
1	2	3	4	5	6	7	8	9

		(41.7)	(7.8)	(1.0)	(11.5)	(4.5)	(24.1)	(9.4)

Source: Gujarat State-D-Series Tables-2001

It can be seen form the data given above that the main reason for the migration was "Work/ employment". As much as 30.3 per cent of migrants moved due to work or employment as per 2001 Census, this was followed by 26.5 per cent of migration which was due to the reason of "Moved with household". In 2001, the proportion of migration due to marriage was 17.0 per cent. The reason for 9.4 per cent of migration was Business, and 6.2 per cent of migration was due to the reason titled "Moved after birth" and only 0.6 per cent of migration was for Education. The remaining 10.2 per cent of migration was due to other reasons.

ANNEXURE – V

BRIEF ACCOUNT OF MAIN RELIGIONS IN THE DISTRICT / TALUKA AS PER 2001 CENSUS

Religion is the basic cultural characteristics of the population. In secular country like India several religions have thrived and every decennial Census provides an interesting picture of the religious persuasions of the people. The data on religion yielded by the Census are of immense use for the Anthropologists, Sociologists, Demographers, Administrators, and Planners and also for laymen. The six main religions are i) Hindu, ii) Muslim, iii) Christian, iv) Sikh, v) Buddhist, and vi) Jain were recorded. In respect of 'Others', the actual religion returned was recorded. If a person said that he has no religion, it was recorded accordingly and if any person refused to State his religion it was recorded as 'religion not Stated'.

Source: Gujarat State-C- Series Tables-2001

In 2001 in rural areas the proportion of never married persons was 47.7 per cent in Gujarat and 46.5 per cent in Valsad, while in 2001 Census in the urban areas the proportion of never married persons was 47.5 per cent in Gujarat and 46.1 per cent in Valsad. As per 2001 Census, in the rural areas of Gujarat, the proportion of married persons was at 47.4 per cent and 48.8 per cent in Valsad. The proportion of married persons in urban areas of the State was 48.4 per cent in the State and 49.5 in Valsad. The proportion of widowed and divorced/ separated, in the State, was 4.2 per cent and 0.4 per cent respectively, while the same was 4.1 per cent and 0.5 per cent respectively in the district.

ANNEXURE – VII

AGE, SEX AND EDUCATION IN THE DISTRICT AT THE 2001 CENSUS

Literacy has occupied an important position in Indian Census in one form or the other from the very beginning. The definition of literates as adopted is “A person who can both read and write with understanding in any language is to be taken as literate”. A person who can merely read but can not write was not treated as literate. It is not necessary that a person who was literate should have received any formal education or should have passed any minimum educational standard. All children below the age 7 are treated as illiterate. While processing the literacy data population of age group 0-6 is excluded.

The following Statement gives the distribution of literates and illiterates by broad age groups and sex in the district as well as the State at the time of 2001 Census:-

LITERACY BY AGE-GROUP AND BY SEX -2001

Age Group	Particular	Gujarat			Vadodara		
		Persons	Males	Females	Persons	Males	Females
1	2	3	4	5	6	7	8
