CENSUS OF INDIA 2001

SERIES-12 **KARNATAKA**

DISTRICT CENSUS HANDBOOK

Part - A & B

BELGAUM DISTRICT

VILLAGE & TOWN DIRECTORY

VILLAGE AND TOWNWISE PRIMARY CENSUS ABSTRACT

लोकाभिमुख
PEOPLE ORIENTED

Directorate of Census Operations, Karnataka

F O R E W O R D

1. The District Census Handbook (DCHB) published by Census Organisation since 1951 census, is one of the important publications in the context of planning and development at gross-root level. The publication, which is brought out for each district, contains several demographic and socio-economic characteristics village-wise and town-wise of the district alongwith the status of availability of civic amenities, infrastructural facilities, etc.

2. The scope of the DCHB was initially confined to a few Census Tables and Primary Census Abstract (PCA) of each village and town within the district. Thereafter, at successive censuses, its scope and coverage has been enlarged. The DCHB published at the 1961 census provided a descriptive account of the district, administrative statistics, census tables and a village and town directory including PCA. The 1971 census-DCHB series was in three parts: Part-A related to village and town directory, Part-B to village and town PCA and Part-C comprised analytical report, administrative statistics, district census tables and certain analytical tables based on PCA and amenity data in respect of villages. The 1981 census DCHB was in two parts: Part-A contained village and town directory and Part-B the PCA of village and town including the SCs and STs PCA up to taluk/town levels. New features alongwith restructuring of the formats of village and town directory were added into it. In Village Directory, all amenities except electricity were brought together and if any amenity was not available in the referent village, the distance in broad ranges from the nearest place having such an amenity, was given. Information on new items such as adult literacy centres, primary health sub-centres and community health workers in the village were provided so as to meet the requirements of some of the Revised Minimum Needs Programme. Information on approach to the village was provided for the first time in the Village Directory so as to give the details on number of inaccessible villages in each district. In the Town Directory, a statement (IV-A) on slums was introduced to provide the details on civic and other amenities in the notified slums of Class I and Class II towns.

3. The 1991 census DCHB, by and large, followed the pattern of presentation of 1981 census, except the format of PCA was restructured. Nine-fold industrial classification of main workers was given against the four-fold industrial classification presented in the 1981 census. In addition, sex-wise population in 0-6 age group was included in the PCA for the first time with a view to enable the data users to compile more realistic literacy rate as all children below 7 years of age had been treated as illiterate at the time of 1991 census. One of the important innovations in the 1991 census was the Community Development Block (CD block) level presentation of village directory and PCA data instead of the traditional taluk/PS level presentation. It was expected that the presentation of village directory and PCA data at CD block level will help the planners in formulation of micro level development plans, CD block being lowest administrative unit.

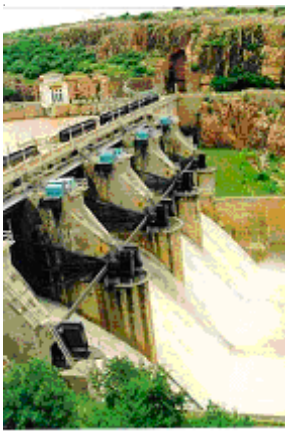

4. The present series of 2001 census DCHBs have been made more informative and exhaustive in terms of coverage and content. The Village Directory has been enlarged in scope by including a number of other facilities like banking, recreational and cultural facilities, newspapers and magazines and 'most important commodity' manufactured in village. Income and expenditure of gram panchayat, wherever possible, has been provided. Apart from these, more details on distance(s) at which basic amenities are available (if not available in the village), are given. This includes educational facilities (namely primary and middle schools and college), medical facilities (viz. Allopathic Hospital, Maternity & Child Welfare Centre and Primary Health Centre), drinking water, post & telegraph (post office and phone), communication, bank, credit societies and recreational facilities. In Town Directory, the statement on Slums has been modified and its coverage enlarged by including details on all slums instead of 'notified slums'. The information is given in case of all statutory towns irrespective

of their class, against only Class I and Class II towns in the 1981 and 1991 censuses. The basic amenities available in the villages and towns are analysed in depth with the help of a number of cross-classified inset tables and statements. Two other significant additions in the publication are inclusion of 'motif' highlighting significant characteristic of the district and analytical notes as annexures. The analytical notes on (i) fertility and mortality and (ii) various measures of fertility and mean age at marriage are prepared based on 1991 census. Whereas, in the notes relating to (i) percentage distribution of migrants by place of birth/place of last residence, (ii) main religions, (iii) marital status of population, (iv) age, sex and education, and (v) distribution of spectrum of mother tongue, nature and extent of changes occurred in the district in its basic socio-demographic features during the decade 1991-2001 are analysed. The eight digits permanent location code (PLCN) to all the villages and towns have been assigned keeping in view the future needs.

5. The village and town level amenity data have been collected, compiled and computerized in prescribed record structure under the supervision of Shri.H.Shashidhar, Director of Census Operations, Karnataka. Thereafter, efforts have been made to ensure comparability of the information with that of 1991 census data and the information brought out by the respective state governments in their annual reports and statistical handbooks for various years after 1991. The task of planning, designing and co-ordination of this publication was carried out by Shri R.G. Mitra, Deputy Registrar General (C&T) and Dr. I.C. Agrawal, Senior Research Officer of Social Studies Division, Dr. R.P. Singh, Deputy Registrar General (Map) provided the technical guidance in the preparation of maps. Whereas, Shri Anil Kumar Arora, Deputy Director of Data Processing Division who worked under the overall supervision of Shri Himakar, Addl. Director (EDP) helped in preparation of record structure for computerization of village and town directory data and the programme for the generation of Village Directory and Town Directory statements including analytical inset tables. The draft DCHB manuscripts received from the Census Directorates have been scrutinized in the Social Studies Division under the guidance of Shri S.L. Jain, Deputy Director and Shri R.K. Mehta, Assistant Director. I am thankful to all of them and other who have contributed to make this publication possible.

D.K. Sikri

Malaprabha Dam across river Malaprabha in Belgaum District

The Malaprabha dam construction of across Malaprabha River was commenced during 1960 and completed during 1974 near Navilu Theertha village (better known as Peacock gorge) of Soundatti Taluk, with a catchment area of 2564 Sq. Km yielding 42.57 TMC of water. The unique features of the Malaprabha dam is that it is the shortest dam in Karnataka and being situated in an narrow deep gorge with little scope for river diversion during construction. The gravity masonry dam has a central spillway, height of the dam is 40.23 mtrs and length is 154.53 mtrs. The gross storage capacity of the dam is 37.73 TMC and live storage is 29.32 TMC. This dam provides irrigation facility for 218,191 Hectares of agricultural lands of Belgaum, Bagalkot and Dharwad districts.

The irrigation network consists of two main canals, namely the Left Bank Canal and the Right Bank Canal. 168 Km long Left Bank Canal, which passes through tunnels at Katkol and Mudkavi and has a branch canal taking off near Manoli besides the Yeragatti Lift Irrigation Scheme, has a total command area of 53,134 hectares. The Right Bank Canal cuts through the Yellamma range of hills by means of a 5 Km long tunnel and has a total length of 138 Km. At its 10th Km reach the Nargund canal branches off and traverses a distance of 42 Km. The total irrigable area under the Right Bank Canal comes to 139,921 Hectares. The 8 Foreshore Lift Canals of this project provides irrigational facilities to 25,136 Hectares of agricultural land. In addition to this there are two lift irrigation schemes providing irrigational facilities to 1,835 Hectares.

P R E F A C E

In the foreword to the 2001 series of the District Census Handbooks, Sri. D.K. Sikri, I.A.S., the Registrar General and Census Commissioner, India, has traced the history of the District Census Handbooks. He has also succinctly explained the scope and coverage of the District Census Handbooks. These volumes contain salient data on the population for every village and town as revealed by 2001 Census. They also contain a wealth of information regarding villages and towns which, throw some light on the circumstances in which people live and is therefore relevant to the data on the population. This information is also of considerable importance in the context of planned development.

The District Census Handbook is divided into two parts: Part A contains information regarding each village and town (Village Directory and Town Directory collected from various sources) and Part B which contains the data on the population collected during 2001 Census - the Primary Census Abstract. The data published in Part B was collected during February-March 2001 in the Population Census.

The process of data collection for the Village Directory and the Town Directory (Part A) commenced in 1999. The Village Directory formats were mailed to the Deputy Commissioners of Districts for obtaining the village wise particulars through Village Accountants. Similarly the Town Directory formats were mailed to the Commissioners of Corporations, Chief Officers of Town Municipal Councils, Town Panchayats, etc. The village wise and town wise data furnished by these officers were then examined exhaustively for consistency in reporting and comparability with the information published in the 1991 District Census Handbooks. The Household Schedules, which were canvassed to collect the population data during 2001 Census, were scanned and data captured was processed electronically. The Primary Census Abstract was generated centrally on the computers by Registrar General, India.

In compilation of the District Census Handbooks, the Census Directorate had the co-operation of various departments of the State/Central Government. The Census Directorate gratefully acknowledge their assistance.

I take this opportunity to offer my grateful thanks to Sri. H. Shashidhar, Director of Census Operations and Sri. S.R. Raghavendra Rao, Deputy Director (Retd.) for their valuable guidance. I am also thankful to all the officers and officials of this Directorate who have been actively involved in the compilation of this volume.

I am highly grateful to Sri. J.K.Banthia, I.A.S., Ex. Registrar General, India for the benefit I have derived by way of guidance and advice. I express my thanks to Sri R.G. Mitra, Ex. Deputy Registrar General (C&T) and Dr. I.C. Agrawal, Assistant Registrar General and Sri S.L.Jain Deputy Director of Social Studies Division and Dr. R.P. Singh, Ex. Deputy Registrar General (Map) for their guidance.

DISTRICT HIGHLIGHTS - 2001 CENSUS

1 Belgaum has the second highest population among the districts in the State and shares 7.97 per cent of State's population.

2 The literacy rate is 64.2 per cent and ranks in 16th place in the State.

3 The population density per sq.km. in the district is 314 and stands in 7th place in the State.

4 The percentage decadal growth rate is 17.6 and ranks in 9th place among the districts in the State.

5 The district stands in 19th place in terms of its sex ratio and the ratio is favourable for men in the district.

6 Among the male and female literacy rates, the district stand in 14th and 18th place respectively.

7 The 0-6 population accounts for 14.8 per cent of the total population.

8 Belgaum has recorded the lowest sex ratio of 921 for children in the age group of 0-6 population.

9 The percentage of urban population to total population is 24.03 and the district ranks at 14th place in its share of urban population in the State.

IMPORTANT STATISTICS, 2001

Particulars	Persons Males Females	State	Percentage	District	Peercentage

Analytical Note

(i) HISTORY AND SCOPE OF THE DISTRICT CENSUS HANDBOOK

Introduction

The District Census Handbook is the most valuable district level publication brought out by the Census Organization. It contains micro-level data down to the lowest administrative units viz, revenue village in the case of rural areas and Division/Ward level in the case of urban areas. It is extremely useful to the planners, administrators, demographers, sociologists, etc., as it contains resourceful wealth of data regarding basic amenities available in each villages and towns of the district such as educational, medical, drinking water, post and telegraphs, transportation and communication, banks, societies, recreation, power supply, export/import of important commodities and land use besides, the particulars revealed during the latest census enumeration. It is for the first time that the district census hand book series was included in the census publication programme at the 1951 census, in order to satisfy the growing demand by the administrators, the planners, research scholars, demographers and the other such census data users, for micro-level data. The idea of compiling the District Census Handbooks was pioneered by Sri R.A.Gopala Swamy, I.C.S. the then Registrar General, India and Ex-officio Census Commissioner of India, with a view to preserve the Census records prepared for areas below the district level. He proposed that all the district Census tables and Census abstracts prepared during the process of sorting and compilation, should be bound together in a single manuscript volume and named as the District Census Handbook and suggested that the State Government should take up printing and publication at their own cost. Then onwards, the District Census Handbooks were published in each Census with improved pattern with an aim to give the Census and Non-census data at micro level for each village of the taluk as a whole to suit the requirements of various departments.

The data in the District Census Handbook will help not only in local area planning but also in regulating the provision of goods and services as well as to minimise the regional imbalances in the process of development. The District Census Hand Book sought to replace “Part IV - Taluk Tables and Part V - Village Tables” of the earlier censuses and to present the basic demographic and economic data in the form of “Primary Census Abstract” in respect of each and every village and town within the jurisdiction of the district. The district census handbook consists of two parts, viz, Part A and Part B. Part A comprises village and Town Directory while Part-B contains Village and Town level Primary Census Abstracts. In addition, these volumes contain a set of statistical tables based on the census data in respect of the district and its constituent taluks and towns.

District Census Handbook 1961

It was in 1961 Census that the scope of District Census Hand Book was shaped in the present form by presenting (i) an account of descriptive note on the district, (ii) a set of non-census data tables dealing with the administrative statistics of the district for a decade, (iii) taluk and town level census tables on economic and socio-cultural aspects and (iv) the village and urban Primary Census Abstracts depicting the nine fold industrial classification of workers. Information on the availability of certain basic amenities in villages and towns, such as the source of drinking water and educational institutions was also presented in the volumes. However, the district census handbooks of 3 out of then existing 19 districts viz, Bangalore, Dharwad and Mysore were confined to the publication of the village-wise and urban (census enumeration block-wise) Primary Census Abstract only.

District Census Handbook 1971

During the 1971 census, the district census handbook was further refined to present the data in a systematic way. In view of countrywide uniformity

in approach and to have a comprehensive coverage, the District Census Hand Books were presented in three parts each, for a district. Part A incorporated the Town and Village Directories. Part-B incorporated the Primary Census Abstract and included data, in the case of rural areas down to the village level and in the case of urban areas up to the block level. In addition, an introduction was given wherein the changes in jurisdiction, if any, of the district or of the taluks and the changes in the number of villages between 1961 and 1971 were explained. Part-B was essentially demographic in nature and was the end product of the tabulation of the enumeration results. Part C incorporated other census tables and administrative statistics. For convenience, Part-A and Part-B of the District Census Hand Book were presented in one volume and Part-C in a separate volume. In part-C volume, the district and taluk maps were included. These maps were prepared on the basis of maps obtained from the competent authorities concerned.

District Census Handbook 1981

The District Census Hand Book series of 1981, had some new features along with the restructuring of the formats of village and town directories, keeping in view the comparability of 1971 data. All the amenities except power supply in the village were brought together in the village directory with the instruction that in case an amenity is not available in the referent village, the distance in broad ranges from the nearest place/village where it is available were given. A few new items of information such as adult literacy centres, primary health sub-centres and community health centres/workers, data on the availability of Newspapers, Motor Vehicles, etc., in the village, were introduced in the village directory to meet the requirements of the "Revised Minimum Needs Programmes". A new column "total population and number of households" was introduced to examine the correlation of the amenities with the population and number of households they serve. The contents of Part-A were further enlarged by including two appendices, namely a list of villages not having any amenities and a distribution of villages according to the proportion of Scheduled Castes and Schedules Tribes in the total population of the village. The format of Town Directory were also modified to meet the requirements of the Minimum Needs Programme by providing information on a few new items such as class of town and its population, population of SC & ST, decadal growth rate of population, working women's hostel, adult literacy classes / centres, storage system regarding drinking water supply etc., and also the information about the nearest place and distance having educational, medical and fire-fighting facilities, in case such a facility is not available in the referent town. A new statement on civic and other amenities in slums in Class I and Class II town were included to help the planners to chalk out their programmes of slum improvements.

District Census Handbook 1991

The presentation of the District Census Hand Book for the 1991 Census was more or less similar to the manner followed in 1981. The format of Primary Census Abstract was restructured slightly. Nine-fold industrial classification of main workers was given as against four-fold classification. The sex-wise population in the age-group of 0-6 was included in the Primary Census Abstract for the first time to enable data users to compute more realistic literacy rates as all the children below 7 years of age were treated as illiterate at the 1991 census. One of the important innovations in the 1991 census was the Community Development Block-level presentation of data in the village directory and Primary Census Abstract instead of the traditional Taluk/PS level presentation. C.D.Block is the lowest administrative unit for developmental planning. The choice of the C.D. Block as the unit for data presentation was formulated to help the planners in micro-level developmental plans. Another important improvement at the 1991 Census was dissemination of data through magnetic tapes/floppies in which both the computer as well as manual codes for each revenue village were provided along with the corresponding codes of 1981 Census. In the volumes of the District Census Hand Books, the computer codes assigned to the revenue villages in the 1991 Census and the corresponding codes of 1981 Census were presented so that it may facilitate the data users to use the data either from magnetic tapes or computer floppies.

Scope of the 2001 District Census Hand Book

Like in the previous censuses, the District Census Hand Book (DCHB) for the 2001 Census is brought

out in two parts as usual viz., Part-A The Village and Town Directory, and Part-B the Village and Town Primary Census Abstract.

The District Census Hand Books for the 2001 Census is essentially presented in the similar manner in which the District Census Hand Books of 1991 Census were presented. This is because the data would be comparable with the earlier censuses and also to study the changes taken place during the decades and hence the approach in 2001 Census is similar to 1991 Census. The contents have been slightly enlarged and the formats too are restructured to suit the requirements of the data users. In the village directory for 2001 Census certain new amenities like, news papers, magazine received, Income-Expenditure of the local bodies, information on number of banks, credit societies, recreational and cultural facilities, most important commodities imported, manufactured and exported have been included whereas the information regarding the "Day or Days of market/*hat* if any" which was there in 1991 has been excluded. Apart from providing the information about the nearest place and distance in broad ranges for villages not having basic educational and medical facilities, information about the nearest place and distance in broad ranges for villages not having Middle School, College, Hospital (Allopathic), Maternity and Child Welfare Center and Primary Health Center are also provided this time. However, in the town directory there are no changes except in the statement IV-A where this statement is separately numbered as Statement VII in 2001. Except these, the scope of 2001 series of the District Census Hand Book has, by and large remained the same as in 1991. The non-census information collected at the village level and town level was scrutinized and verified. In case of glaring discrepancies the data were cross-checked with data made available by the respective parent departments for validation.

One of the significant changes made in 2001 series of District Census Hand Book is that Primary Census Abstracts are available to the jurisdiction of the Panchayats in the district. With the constitution (73rd Amendment) Act, 1992, it has become necessary for the census organisation to provide population data for the territorial area of a panchayat in order to strengthen panchayat raj system in the country. In view of this, panchayat-wise population figures for total population and for Scheduled Castes and Scheduled Tribes population has been compiled and presented in the form of Annexure-I for each district.

Further another important step taken during the 2001 Census, is assigning the Permanent Location Code Numbers (PLCN) to the villages. Location code number is a simple but unique device by which every area in an administrative unit in the State/U.T. can be identified. Thus assigning of Location Code Numbers at various administrative levels, right from State/U.T. to the lowest level namely enumeration block, in census taking is an important step. Each clearly demarcated area can be referred to by a combination of numbers. In a State or U.T. the next administrative area is District, followed by taluk or police station, circle, Development Block or Mandal, etc., in different states/U.T.s. Next below this administrative area, in urban areas are cities/towns, further divided into wards/divisions and villages in rural areas. The Location Code Numbers to various administrative areas are assigned in an orderly manner always beginning from northwest point and the numbering proceeds in a serpentine manner, keeping the geographical continuity, ultimately ending at the South-East point.

There was a great demand from different organizations to study the village level data over a time span and hence a scheme of assigning permanent location code numbers to the villages and the higher levels of administrative areas is devised to ensure data comparability over a period of time. In Indian Census, Location Code Numbers are allotted to each village based on traverse system (zigzag) in a serpentine manner at taluk/Taluk level. These numbers for villages run from '1' to 'N' in each taluk independently. This system was adopted until 1991 census. But, for the Census of India 2001, all the villages in a state/U.T. are assigned with a Location Code Number in one continuous series beginning from "1" to "N" for the entire state/U.T. and it is not confined to a taluk. The field length of the complete PLCN structure for a village has been kept up to 8 digits and therefore the location code number of village in a taluk contains 8 digits number for 2001 Census.

(ii) BRIEF HISTORY OF THE DISTRICT

Belgaum district has several places of historical importance and a few which are identified with places

mentioned in Hindu mythological accounts. Saundatti-Yellamma, for example, is identified as the place where Parashurama, the VI incarnation of Lord Vishnu, beheaded his own mother at the behest of his father, sage Jamadagni. The narrative further states that, when his immensely pleased father granted him with a boon, Parashurama asked for and got his mother restored to life at this place. Legends associate Yadur and Godchi villages with the events mentioned in the Daksha Yagya and the exploits of Veerabhadra. About the early historical period, it may be mentioned that Halashi (located in Khanapur taluk) was the capital of the early Kadambas. Saundatti was the capital of the Rattas and some historians identify Kakati near Belgaum as the original abode of the famous Kakatiyas of Warangal.

There are as many as five Ramateerthas in the district, viz., (1) in the Parasgad fort (2) at Mullur in Ramdurg taluk (3) near Kanabargi in Belgaum taluk (4) at Ramateertha in Athni taluk and (5) near Halasi in Khanapur taluk, which are described as visited by Rama who installed Ramalingas at these places. Ramdurg fort is ascribed to Rama and Shabarikalla near Sureban is described as the place where Shabari had lived and met Rama. Sogal in Saundatti taluk is described as the place where one Sugalamuni performed penance and where the marriage of Shiva and Parvathi is described to have taken place. Jamboti in Khanapur taluk is associated with Jambavati, Lord Krishna's consort and Jambavanta's daughter. Samptasagar, a pre-historic site is claimed to be the place where the Saptarshis had lived and the ashmond there is ascribed to the sacrifices they had performed. The Mugutkhan Hubli, Narasimha temple is claimed to be place where Sage Chavan had performed a sacrifice.

Belgaum district is believed to have formed part of the ancient Kuntala Desha. During the early historical period, from 327 BC to 229 AD, the Satavahanas had established their supremacy over parts of the present Andhra Pradesh and Karnataka including the Kuntala Desha. Evidence discovered in the adjacent districts of Bijapur and Dharwad clearly indicate that this part of the country formed part of the early Chalukyan kingdom (550-610 AD) and then of the western Chalukyan kingdom. In 760 AD, when Rastrakutas over threw the western Chalukyas, along with the rest of the Chalukyan domains, Belgaum district, then known as Kundi-three thousand, also came under the control of the Rashtrakutas. For about four centuries from 850 AD, the Ratta Mahamandaleshwars or Ratta for short, administered large portions of Belgaum district at first as the chief feudatories of the Rashtrakutas, then as the subordinates of the Goa Kadambas and finally, from 1170 AD, as independent monarchs. Merada and his son Prathivarma, who were originally priests, founded the Ratta dynasty. Rashtrakuta king Krishna II formally invested Prathivarma with the rank and title of Mahamandaleshwara and entrusted him with the administration of a large territory. The capital of the Rattas was located at Sungandavarti which corresponds to the modern Saundatti-Yellamma town, till it was moved to Velugrama i.e. Belgaum, in about 1208 AD. An inscription found at Hannikeri near Sampgaon refers to this shifting of the capital and mentions that the Rattas acquired Velugrama Seventy from the Kadambas by conquest. The over-throw of the Rattas by the Yadavas of Devagiri is mentioned in a grant of VII Yadava King Krishna, which is dated in 1253 AD, and is found at Byahatti in Dharwad district. By 1250 AD, the Yadavas had established their sway over entire Belgaum district and their supremacy in this region lasted till they were finally over-thrown by Allauddin Khilji in 1320 AD. In 1327 AD, emperor Muhammed-bin-Tughlak subdued Karnataka and appointed two of his noblemen to administer these territories from their respective headquarters at Hukeri and Raybag. However, this position did not last long. Within a few years of its founding, the Vijayanagara empire extended its sway over Belgaum district as well. However, from this period till 1472 AD, there was constant rivalry between the Vijayanagara kings and the Bahamani sultans for possession of the territories around Belgaum. In 1357 AD, the Bahamani kingdom was organised into four divisions and that which stretched from Gulbarga to Dabhol in Ratnagiri in the west and to Raichur and Mudgal in the south was placed under Malik-Serif-Uddin Ghore. Southern parts of Belgaum including the Belgaum fort, and Goa however acknowledged the suzerainty of the Vijayanagara kings. This position changed in 1470 AD, when

Muhammad Gilani, a Governor under the Bahamani Sultan, captured Goa. On this occasion, the Bankapur chief tried to recapture Goa with the reinforcements from Vijayanagara kings whereupon the Bahamani's mounted an attack on Belgaum Fort. Karna Raja, who stoutly defended the fort, was finally vanquished and with this, the whole of Belgaum district came under Bahamani rule.

In 1478 AD, the Bahamani kingdom was reorganised into eight *tarafs*, each with a governor. The western parts, including the fort at Belgaum, came under the governorship of Fakru-ul-Mulk. About a decade later, the governor of Junnar and Bijapur provinces virtually threw off their allegiance to the Bahamani sultans. About this time, Bahadur Gilani, the governor of Konkan rebelled against his master and with his headquarters at Sankeshwar, seized Goa and Belgaum. Yusuf Adil Shah, the Bijapur governor sent an army against Gilani and re-established his supremacy. Gilani himself was killed during this campaign and his estate became a part of the possessions of the Bijapur kingdom, which soon emerged as an independent power. In 1510 AD, the Portuguese wrested Goa from the control of Bijapur. In 1511 AD, the Bijapur king, Ismail Adil Shah appointed Khursu Turk as the Governor of Belgaum, administered Belgaum for about 38 years and came to be regarded as a saint. His son Mohmed Kishwar Khan succeeded him.

The success of the confederate forces of the Bijapur, Bidar, Golkonda and Ahmednagar Sultanates against the Vijayanagara at the battle of Talikote in 1565 AD, (which took place at Rakkasa Tangadgi), was followed by a period of general disorder and disruption of authority because of the jealousies that arose amongst the conquerors in sharing the spoils. Taking advantage of the chaotic situation, Vitta Gowda seized a few strategic forts in Belgaum district and its neighbourhood, established himself at Torgal as a semi-independent ruler and refused to accept the suzerainty of Bijapur kings. In 1953 AD, Ali Adil Shah began his campaign and subdued the rulers at Dharwad and Bankapur who too had assumed independence, captured Vitta Gowda and put him to death, thereby establishing the supremacy of the Bijapur kingdom in the entire Belgaum district. From this period, till the entire Bijapur kingdom was conquered by Aurangzeb in 1686 AD, Belgaum district, by and large, remained under Bijapur rule. However, the Maratha inroads into the district began by about 1659 AD, when Shivaji followed up his success near Pratapagad by seizing the fort of Panpala and with it, the Kolhapur district including the Sankeshwar region of Belgaum district. Indu Rao Gharpade held Hukeri and Raybag from 1668 AD. Shivaji plundered Hukeri and Raybag and took large territories in Belgaum district into his possession. After the fall of Bijapur in 1686 AD, the Marathas were practically driven out of Belgaum district by the Moghuls.

The Moghul rule in this part of the country was purely of a military nature and it did not last long. The emperor appointed Abdul Rahuf Khan as Mansabdar and granted him administrative powers over 22 *mahals* including Belgaum and Torgal. Abdul Rahuf Khan, who had his headquarters first at Bankapur and then at Savanur, was content to entrust the revenue management of his territories to the hereditary officers such as the *Desais*. The death of emperor Aurangazeb in 1707 AD, led to the establishment of two Maratha principalities under two of Shivaji's grandsons, Satara under Sahu and Kolhapur under Sambhaji. In 1719 AD, Sahu received imperial grants from the emperor, which conferred on him the right to collect *chauth* or one-fourth and *Sardeshmukhi* or one-tenth of the revenues of the six Deccan provinces including Belgaum. In 1723 AD, Nizam-ul-Mulk, the viceroy of Deccan interfered to suppress the disturbances in the Bijapur province, took Athni and the fort of Belgaum and then appointed the Nawab of Savanur as the Governor of *Subedar* of this region. Though Sahu had received the imperial grant to levy one-fourth and one-tenth of the revenues of all lands formerly held by the Moghuls, the power of the local chiefs of Kolhapur and Savanur was so great that the Maratha forces scarcely ventured to cross the Krishna River. In 1726 AD, on the pretext of collecting these revenues Peshva Baji Rao marched into Karnataka and plundered places as far south as Shrirangapattana. In 1730 AD, under a treaty between the chiefs of Satara and Kolhapur the country between the Krishna and the Tungabhadra was assigned to Kolhapur. In 1746 AD, the Savanur Nawab ventured to resist the authority of the

Marathas to collect their due share of the revenue of this region. This resistance led to a Maratha invasion in 1747 AD, when the Nawab was forced to yield large tracts of lands to the Peshwa. Belgaum Fort passed to Peshva's in 1756 AD and in 1763 AD; Peshva Madhav Rao subdued the Desai of Hukeri. Later in 1790, during the reign of Tipu Sultan, the Marathas formed an offensive alliance with the British and mounted an attack under Parashuram Bhau and a detachment of the British troops under Captain Little. On this occasion, the whole of Bombay Karnataka region passed to Marathas and remained in their possession till 1818 when General Munro captured Belgaum and ushered in the British era. For a couple of decades that followed, the hereditary chiefs estate holders were allowed to administer their respective territories under the suzerainty of the British. In 1824 AD, the Desai of Kittur, who did not have a son, adopted a boy and named him as his successor. The British masters however refused to accept the right of the adopted child to the Chieftaincy and in accordance with 'doctrine of lapse' demanded the surrender of Kittur. This was resented by the widowed queen, Rani Chennamma, who raised the banner of revolt against the British Raj. She put up a valiant fight against the mighty British who finally succeeded in annexing Kittur. In 1829 AD, there was a second rebellion in Kittur under the leadership of Sangolli Rayanna. This was also put down and Rayanna was captured and put to death at Nandagad of Khanapur Taluk. In 1830, the then Governor of Bombay Province brought under the Regulations, the territories of Bombay-Karnataka region which had been acquired either by conquest from the Marathas or by treaty and agreement from other States. These territories were formed into a district (and named after Dharwad), which was divided into two collectorates in 1836. The headquarters of the northern Collectorates was actually shifted to Belgaum in 1830. In 1840, following the death of the local chief, Nipani lapsed to the British and in 1842, another estate belonging to a representative of the divided family of the Miraj Peshva's also lapsed to the British. There were unsuccessful rebellions in Kolhapur and Savantawadi in 1844 and then again in 1857. Babasaheb of Nargund who was arrested on the charge of murdering Manson, the political agent, was tried at Belgaum in 1858, sentenced to death on the Haystack Hills at the outskirts of Belgaum city. The British rule came to an end in August 1947 and with the merger of the princely states in 1948 and the consequent integration of areas, the boundaries of Belgaum district were redefined. In 1956, as a consequence of the reorganisation of States, the then Belgaum district excluding Chandgad taluk came to be included in the erstwhile Mysore State. This enlarged Mysore State has since been renamed as Karnataka and Belgaum city happens to be headquarters of Revenue Division, the jurisdiction of which extends over the districts of Belgaum, Bagalkot, Bijapur, Dharwad, Haveri, Gadag and Uttar Kannada i.e. the territories which formerly belonged to the Bombay Province.

(iii) Administrative setup and jurisidictional changes during the decade, 1991-2001

Belgaum district is located in the north-west corner of Karnataka State. Among the administrative four divisions of the Karnataka State, Belgaum is one of the divisions. Belgaum city is the divisional headquarters of Belgaum division. Its jurisdiction extends over the district of Belgaum, Bijapur, Bagalkot, Dharwad, Gadag, Haveri and Uttara Kannada. The district is divided into 10 taluks, which are grouped into three Revenue sub-divisions and the sub divisional headquarters are Belgaum, Chikodi and Bailhongal. The Belgaum sub-division has its jurisdiction over the taluks of Belgaum, Khanapur and Hukeri, the Chikodi sub-division has its jurisdiction over the taluks of Chikodi, Athni and Raybag and the Bailhongal sub-division has its jurisdiction over the taluks of Parasgad, Sampgaon, Ramdurg and Gokak.

During the decade 1991-2001, totally 116 villages have been newly constituted by altering the limits of the main village i.e. Tandas or hamlets, giving the different names-115 villages constituted vide Government of Karnataka Notification No. RD 6 BUDAPU 95 dated 19.11.96 and one village vide Notification No. RD 6 LRD 95 dated 16.12.99.

The number of newly constituted villages is shown taluk wise as under:

Sl. No.	Name of taluk	No. of new villages added
1	2	3
1	Chikodi	28
2	Athni	19
3	Raybag	4
4	Gokak	23
5	Hukeri	10
6	Belgaum	1
7	Sampgaon	6
8	Parasgad	13
9	Ramdurg	12
	Total	116

For purposes of Development Planning and implementation programmes, Zilla Parishads have been constituted in the State. Accordingly Zilla Parishad having jurisdiction over Belgaum district (excluding statutory urban areas) has been constituted for Belgaum district also. Under this Zilla Parishad there are the Taluk Panchayats (named after the headquarters of the ten taluks of the district) and the jurisdiction of each Taluk Panchayat is coterminus with the general administrative jurisdiction of the taluk of the same name but exclude the areas incorporated in the statutory towns or cities located if any within the taluk concerned. Thus, all villages as also places classified as non-municipal census towns or as outgrowths of statutory towns at the 2001 census come under the jurisdiction of the unit more popularly known as the "Community Development Block" throughout the country. In order to conform with the all India pattern in the presentation of the 2001 census data, instead of the term 'Taluk Panchayat' the term 'CD Block' has been made use of at appropriate contexts.

Total number of Towns/Villages

According to 2001 census, there are 22 towns and 1274 villages in the district. As compared to the position in 1991 census, there is no change in the total number of towns and a net increase in the total number of villages by 116. For purposes of the 2001 census, while Dhupadhal and Hidkal erstwhile towns have been declassified, two erstwhile villages viz. Kangrali (KH) and Kangral (BK) have been classified as Census Towns. In the case of villages, while six villages of Belgaum taluk are fully merged under Belgaum Municipal Corporation vide Government notification No. HUD 282 MLR 95 dated 18.10.1995 hence transferred from rural to urban category. One village i.e. Ganiyal of Parasgad (Saundatti) taluk, has been included in the list of villages as it seems to be partly submerged in Malaprabha project, 8 villages of Hukeri taluk have been deleted from the list of villages as these have lost their identity due to submersion under the backwaters of the Ghataprabha Project i.e. Hidkal Dam Project, 116 villages have been newly constituted in 9 taluks of Belgaum district except Khanapur taluk vide Government Notification No. RD 6 BUDAPU 95 dated 19.11.96 and RD 6 LRD 95 dated 16.12.99 by altering the limits of the main village i.e. Tanda or hamlet(s).

STATEMENT SHOWING THE NUMBER OF VILLAGES/TOWNS IN EACH TALUK OF THE DISTRICT, DECADAL VARIATIONS, IF ANY, AND REASONS THEREOF

Sl. No.	Taluk	Total No. of villages according to the list finalised for		Total No. of towns according to the list finalised for		Reasons for variation in the number of villages/towns in each taluk of the district, decadal variations if any and reasons thereof
		2001 Census	1991 Census	2001 Census	1991 Census	
1	2	3	4	5	6	7
1	Chikodi	131	103	3	3	The Government of Karnataka vide its Notification No. RD 6 BUDAPU 95 dated 19-11-1996 has created 28 new villages and as a

Sl. No.	Taluk	Total No. of villages according to the list finalised for		Total No. of towns according to the list finalised for		Reasons for variation in the number of villages/towns in each taluk of the district, decadal variations if any and reasons thereof
		2001 Census	1991 Census	2001 Census	1991 Census	
1	2	3	4	5	6	7
						result of this, the number of villages has risen from 103 in 1991 to 131 in 2001. The names of new villages are as follows: 1. Balewadi, 2. Gayakanawadi, 3. Amalzari, 4. Donewadi, 5.Boragaonwadi, 6.Bhinapurwadi, 7. Vadagal, 8. Nandiwadi, 9. Yadyanwadi, 10. Yadurwadi, 11. Chandur Tek, 12. Siddapurwadi, 13. Rupanal, 14. Kuppanawadi, 15. Manuchiwadi, 16. Yadyan wadi, 17. Dhulaganwadi, 18. Kenchanatti, 19. Meerapurhatti, 20. Jodatti, 21. Pogatyanatti, 22. Hanabarwadi, 23. Gajabarwadi, 24. Shiva purwadi, 25. Hosayadhur, 26. Shiragaonwadi, 27. Tapakarwadi, and 28. Handyanwadi. The civic status of Sadalga Municipality has now changed to Sadalga Town Panchayat vide Notification No. HUD 296 MLR 95 dated 20.09.95.
2	Athni	108	898	1	1	After 1991 Census, the taluk has registered an increase of 19 villages. So there are 108 villages in the taluk for the 2001 Census as against 89 in 1991. The list of new villages, are as follows: 1. Vishnuwadi 2. Jakkaratti 3. Deva-radderahatti 4. Sankonatti 5. Fadatarwadi 6. Keskarwadi 7. Adalatti 8. Desairatti 9. Khota-natti 10. Yallammawadi 11. Dhabadhabahatti 12. Burlahatti 13. Suttatti 14. Siddewadi 15. Tevaratti 16. Mayanahatti 17. Byadaratti 18. Faridakhanwadi and 19.Radderatti. For the 2001 Census, Athani UA has been formed. The developed portions of Athani village contigous to the Athani Town are treated as outgrowth and the left out portions as a village. However this has no effect on the total number of villages in the taluk.
3	Raybag	55	59	2	2	Consequent upon inclusion of four additional villages viz., Kanchanawadi, Kenpatti, Yelparatti, and Suttatti, which were newly formed by the Government of Karnataka, vide Notification No. RD 6 BUDNPU 95 dated 19-11-96 to the existing village list of 1991 Census, the total number of villages in the taluk has increased from 55 in 1991 Census to 59 in 2001 Census. The civic status of Kuduchi and Raybag were changed from Town Municipality to Town Panchayat vide Notification No. HUD 288 MLR. 95 dated 25.11.95 and No. HUD. 295 MLR 95 dated 29.11.95 respectively.

Sl. No.	Taluk	Total No. of villages according to the list finalised for		Total No. of towns according to the list finalised for		Reasons for variation in the number of villages/towns in each taluk of the district, decadal variations if any and reasons thereof
		2001 Census	1991 Census	2001 Census	1991 Census	
1	2	3	4	5	6	7
4	Gokak	107	131	5	4	23 new villages were formed by the Government of Karnataka, after 1991 Census vide Notification No.RD 6 BUDAPU 95 dated 19.11.96. They are: i) 1. Gurlapur, 2. Shivapur, 3. Melmanahatti, 4. Sanganakeri, 5. Hanamapur, 6.Maradishirapur, 7. Benachinamaradi, 8. Urabinahatti, 9. Dumvar-binahatti, 10. Iranatti, 11. Telaginahatti, 12. Ginimar Hosur, 13. Hanamapur, 14. Medakanatti, 15. Lagameshwar, 16. Kesappanatti, 17. Nabapur, 18. Devagoundanahatti, 19 Hirehatti, 20. Haleyaragudri, 21. Honakuppi, 22. Kaparatti and 23. Jokanatti were added to the 2001 list of villages. ii) Dhupadal, a non-municipal Town during 1991, was reverted to rural status for not fulfilling the demographic criteria of treating a place as an urban and added to 2001 census list of villages. As a result, there is an increase of 24 villages over the 1991 Census list of villages in the taluk. So the total number of villages has increased from 107 in 1991 to 131 in 2001 Census. Further, the civic status of Konnur Town Municipality has changed to Konnur Town Panchayat vide Notification No. HUD 292 MLR 95 dated 25.11.95 and that of Gokak Town Municipality to Gokak City Municipal Council vide Notification No. HUD 284 MLR 95 dated 25.11.95.
5	Hukeri	120	123	3	2	In this taluk also 10 new villages were constituted after 1991 Census vide Notification No. RD 6 BUDAPU 95 dt. 19-11-1996. They are: 1. Kurni-wadi, 2. Hullolihatti, 3. Hanjanatti, 4. Shindhihatti, 5. Dodabanatti, 6. Benakanaholi, 7. Bolasyanatti, 8. Chikkaladinni, 9. Gejapati and 10. Rajakath were added to the 2001 Census list of villages. Hidkal an urban unit of 1991 Census was declassified due to non-satisfaction of urban demographic criteria and included in the list of Villages. iii) The following 8 villages which were fully submerged in Hidkal Dam were shown in 1991 list of villages but now deleted : 1. Majati, 2. Majali, 3. Sidlihal, 4. Wadi Sidlihal, 5. Mallaholi, 6. Hunnur and 7. Managaon 8. Ramanakatti. These are omitted from the 2001 list of villages. With this addition and deletion, the total number of villages increased from 120 in 1991 to 123 in 2001 Census. Further the civic status of Hukkeri Town Municipality changed to Hukkeri Town Panchayat vide notification No. HUD 302 MLR 95 dated 25.11.95.

Sl. No.	Taluk	Total No. of villages according to the list finalised for		Total No. of towns according to the list finalised for		Reasons for variation in the number of villages/towns in each taluk of the district, decadal variations if any and reasons thereof

6	Belgaum	120	124	5	3	There were 124 villages in 1991 Census. This has decreased to 120 in 2001 Census due to following changes: (i) The limits of Belgaum City Corporation extended vide Notification No.HUD 282 MLR 95 dated 18.10.95 by including 1. Madhavapur 2. Vadagaon 3. Anigol 4. Shahapur 5. Majagaon villages and hence excluded from the 2001 list of villages. (ii) Kangralli (KH) and Kangralli (BK), which were treated as OGs of Belgaum UA in 1991 Census, now classified as towns. However this classification will not affect the total number of villages in the taluk. (iii) Mannikeri is a newly constituted village by altering the limits of Kedanur village vide Notification No.RD 6 LRD 95 dated 16.12.99 and is included in the list of villages.
7	Khanapur	219	219	2	2	No change in total number of villages and stands at 219, both in 1991 and 2001. The civic status of Khanapur town changed, from Town Municipality to Town Panchayat vide notification No. HUD 285 MLR 95 dated 20.09.95.
8	Sampgaon (Bailhongal)	132	126	1	1	The total number of villages in the taluk has increased from 126 in 1991 to 132 in 2001 due to formation of six new villages in the taluk during 1991-2001. They are 1. Hoskoti, 2.Masta-mardi, 3. Sunakump, 4. Hanamanahatti, 5. Yettinakeri and 6.Katridaddi vide Notification No. RD.6.BUDAPR 95 dated 19.11.96.
9	Parasgad (Saundatti)	132	118	1	1	13 villages were created after the 1991 Census vide Notification No. RD 6 BUDAPU 95 dated 19.11.96 and included in the list of villages for 2001 Census. They are: 1. Shivapur, 2. Goraguddi, 3. Balakadabi, 4. Somapur, 5. Jeevapur, 6. Benakatti, 7 .Kutarnatti, 8. Mahanteshnagar, 9. Shivanagar, 10. Girinagar, 11. Venkateshnagar, 12. Renukanagar and 13. Rama-nagar. Further Ganiyal village was not included in 1991 village list as it was considered as fully submerged in Malaprabha Project. However, it was found to be partly submerged and hence included in 2001 Census list of villages. With the inclusion of these villages in the 2001 Census list of villages, the total number of villages in the taluk has increased to 132 from 118 in 1991.
10	Ramdurg	115	103	1	1	The total number of villages, which was 103 in 1991, has risen to 115 in 2001 Census. The increase is

1	2	3	4	5	6	7
						due to formation of 12 villages vide Notification No. RD 6 BUDAPU 95 dated 19.11.96. They are: 1. Somapur, 2. Sarakotedevapur, 3. Shirasapur, 4. Venkateshwaranagar, 5. Durganagar, 6. Hanamasagar, 7. Shivapeth, 8. Shivanakote, 9. Venkatapur, 10. Krishnanagar, 11.Chetananagar and 12. Gokulnagar that were, added to the 2001 Census list of villages. Ramdurga UA has been formed with two outgrowths viz., Turanur and Kilabanur. The classification of these villages as outgrowths will not affect the total number of villages in the taluk, as only the developed portions of the villages are classified as outgrowths and rest of the area remains in rural frame itself.

Urban local bodies

The statutory urban local bodies are the City Municipal Councils, Municipal Corporations, Notified Area Committee, Town Municipal Councils, Town Panchayat, and Cantonment Boards. These urban local bodies elect Councilors / Corporators from each ward and the tenure of those Councilors / Corporators would be for five years. The President or Vice President of the Municipal Council and the Mayor / Deputy Mayor of the Corporations are elected from among the elected Councilors / Corporators whose tenure will be for a period of one year. The Chairman of various committees are also elected among the elected Councilors with a term of one year.

The Chief Officer in Municipal Council and the Commissioner in a City Corporation are responsible for day-to-day administration and the executive authority is vested with them.

Zilla Panchayat and Taluk Panchayat

To promote the development of institution and secure greater measure of participation by the people in the local and governmental affairs by decentralisation of power and functions and for the purpose of development planning and implementation of various programmes thereof Zilla Panchayats have been constituted in the State. The jurisdiction of Zilla Panchayat is coterminous with that of the corresponding district and covers the entire rural and semi urban area but excludes the statutory towns. Accordingly, Zilla Panchayat has been constituted for Belgaum district and its jurisdiction extends over the Taluk Panchayats of the district. The jurisdiction of each Taluk Panchayat is coterminous with that of the taluk of the same name but excludes the area incorporated in the statutory towns or cities.

The Zilla Panchayat elects its president and vicepresident and chairman of its committees from amongst the elected members. The term of these elected representatives will for five years. An officer of the rank of IAS is deputed by the State Government as Chief Executive Officer of the Zilla Panchayat. Various departments assist Panchayat.

Grama Panchayats

The Government of Karnataka has enacted the Karnataka Panchayat Raj Act 1993 on 30.4.1993 replacing its previous enactment in this regard for the formation of Grama Panchayat.

Details regarding Panchayatwise number of villages have been furnished in Annexure I.

The Grama Panchayat is authorised to function on the items listed in Schedule I of the Act namely, preparation of annual plans for the development of panchayat area, preparation of annual budget, providing reliefs in natural calamities, removal of encroachments on public properties, organising voluntary labour and contribution for community works, maintenance of essential statistics of the village, in addition to matters relating to agriculture, Animal Husbandry, Fisheries, Social & Farm Forestry, Khadi, Village & Cottage Industries, Rural Housing, Drinking Water, Roads, etc., Rural Electrification, Non-conventional energy sources, poverty alleviation programmes, Markets & Fairs, Rural Sanitation, Public Health & Family Welfare, Women and Child Development, Social Welfare, Welfare of Weaker Sections, Public Distribution System, Maintenance of Community assets, Construction and Maintenance of Dharmashalas, Chatras, Cattle Sheds, Ponds, Cart Stands, Slaughter Houses, Public Parks, Play Grounds, etc. Regulation of manure pits in public places and establishment and control of shandies. Such other functions as may be entrusted.

The Grama Panchayat is also empowered to make provisions for carrying out within its area any other work or measure which is likely to promote the heath, safety, education, comfort, convenience, social or economic well being of the inhabitants of the panchayat area.

(iv) PHYSICAL FEATURES

(1) Location and size

Belgaum district is located in the northwest corner of Karnataka State. The district has an irregular shape and while its maximum length from north to south is 160 km., its maximum breadth from east to west is 130 km. Spanning a total geographical area of 13,415 sq.kms., this district stands 2nd in the total area among the 27 districts of the State.

Belgaum district lies between the latitudinal parallels of 15 degree 23 minutes north and 16 degree 58 minutes north and longitudinal parallels of 74 degree 05 minutes east and 75 degree 28 minutes east.

Belgaum district os bound by Goa on southwest, on the west, northwest and north by the districts of Ratnagiri, Kolhapur and Sangli of Maharashtra State, on the east by Bijapur and Bagalkot districts and on the south by the districts of Dharwad and Uttara Kannada. The jurisdiction of this district extends over 2 villages of Belgaum taluk, which are located a few km away from the district border and are surrounded by lands belonging to Kolhapur district of Maharashtra State.

(2) Physiography

The landscape of Belgaum district mainly consists of vast stretches of plains studded with solitary hills, most of which are flat-topped and are adorned with fortifications. The district may be divided into four natural divisions. (1) The western belt, which is quite narrow, is characterised by a rugged terrain. In this zone, the rainfall is moderate to heavy and the climate is damp and cool and the vegetation is abundant. (2) The northern belt consists of plateaus of poor soils and is characterised by a dry climate. Amidst the plains there are some low rolling hills, which are

generally devoid of tree-growth. The rich black cotton soil is on the banks of rivers and streams. (3) The central belt is separated by Belgaum hills on the west and by a succession of low sandstone ranges on the east. The Ghataprabha valley, which has its origin in the Western Ghats, changes here into a waving plain broken by lines of low hills. (4) The southern belt presents a mixed landscape. The lands west of Malaprabha valley are covered by rugged hills and forests, the lands in the eastern zone are more open and consist of level ground broken by gentle slopes and an occasional mass of granite. Black-cotton soil is the predominant type of soil noticeable in this belt. Towards the east, the terrain is broken by low hills on which stand the remnants of old forts. The slopes of most of these hills are covered with brushwood and prickly pear and also these slopes have been brought under cultivation as well.

Two great spurs of the district are identified as the North Ghataprabha and North Malaprabha. The North Ghataprabha spur rises near Sarantvadi in Maharashtra and runs through the district as far as Chikodi. This region have the following hills: Vallabhaghad (170 meters), Adigudd (192 meters), Julapenugudda (222 meters), Nagarahalgudd (260 meters), Jogigudda (267 meters) and the Nagarapanchamigudd (119 meters). The North Malaprabha spur starts from Jolkat pass, 35 km west of Belgaum and rises into a high ridge near Kasargudda. Besides these two principal ranges, there are three other spurs of some importance. These are Mahipalgad ridge about 16 km north-west of Belgaum, the Bailur ridge about 22 km south-west of Belgaum and the Jamboti ridge about 16 km. west of Belgaum. The Mahipalgad ridge is about 915 meters high and ascent is easy. The Bailur ridge is a table-topped mass and represents the highest point in the district (1064 meters Mean Sea Level). The Jamboti ridge has the peak of Kiruvalegudda or Gorakhanath hill (640 meters Mean Sea Level). In addition to these spurs, there are several detached hills in different parts of the district. In the northern zone around Athni are: Junapalagudda (305 meters), Bagedgudda (813 meters Mean Sea Level , Mannikeri ridge (780 meters Mean Sea Level), Katuarigudda (867 meters Mean Sea Level). In the southern zone are: Bhimgad (55 meters), Dongargevigudda, Samshergudda and Bijangigudda, besides Deshanur hills, Bailhongal hills, Saundatti hills and the Parasgad hills.

(3) Drainage

The Krishna, the Ghataprabha and the Malaprabha are the principal rivers, which flow in the northern, central and southern tracts of the district respectively. Krishna River its fountainhead in the temple of Mahadev at the foot of the steep hills that form the Mahadev range in the Western Ghats north of Mahabaleshwar. The river, which has a total length of 1400 K.m., passes through the States of Maharashtra, Karnataka and Andhra Pradesh. The river flows 70 km only within the limits of Belgaum district. On entering the district near the northeastern corner of Yadur village, the river flows southwest and then takes a 'U' turn, receives the waters of the Dudhganga from the west and flows eastwards along the southern borders of Yadur, Manjari and Ingali villages of Chikodi taluk. The river forms the natural boundary between the taluks of Athni and Raybag, cuts across Athni taluk and then again it forms the natural boundary between Athni and Jamkhandi taluk of Bagalkot district. It receives water of Halhalla in Raybag and Agrani rivulet in Athni taluks. The Krishna River finally leaves the district near Junjarwad in the southeastern corner of Athni taluk. The Ghataprabha originates in Sundargad in the Western Ghats, flows east for about 60 km through Maharashtra State. On entering the district near the southern borders of Settihalli village of Hukeri taluk, it flows towards east and forms the natural boundary between the taluks of Hukeri and Belgaum. It flows across the taluks of Hukeri and Gokak covering a total distance of about 70 km before it leaves the district near Awaradhi village of Gokak taluk. The river receives the waters of the Tamraparni, Markhandeya and Hiranyakeshi rivers. Near Gokak town, the Ghataprabha cuts through a range of sandstone hills about 53 meters high to form the famous Gokak falls. This Gokak falls comes under the limits of Gokak Falls (NAC). The waters of this river have been harnessed for purposes of irrigation by erecting a weir near Dhupadhal and a dam near Hidkal. Malaprabha rises in the Chorla Ghats near Kanakumbi village, about 16 km west of Jamboti village of Khanapur taluk. The river flows east for about 20 km, turns southeast and after covering about 13 km gradually takes an almost northeastern course and cuts across the taluks of Sampgaon, Parasgad and Ramdurg. About 6 km north of Saundatti-

Yellamma town the river passes through a gorge known as "Peacock Gorge" or "Navilu Tirtha". Near this spot, a dam has been built across the river to form a large reservoir for storage of water for purposes of irrigation. It receives the waters of Bennihalla, Tuparinala and a few other streams. In addition to these three major rivers the district has several small rivers and streams of considerable importance. Markhandeya River, which rises near Bailur in Khanapur taluk, is an important tributary of the Ghataprabha. Dudhganga, which originates in the Western Ghats is joined by Vedganga and finally flows into the Krishna near Yadur. The Sagal stream rises near Sagal in Parasgad taluk, passes through a depression in quartzite ridge and forms what is popularly known as the Sagal Falls before it joins the Malaprabha. Mahadayi is the only west-flowing river of the district. It has its origin near Degaon village of Khanapur taluk, receives the water of Bhandurnala before it enters the Goa territory, where it assumes the name Mandovi and finally flows into the Arabian Sea.

(4) Climate

The climate of Belgaum district is usually quite healthy. The eastern zone of the district has a dry climate characterised by hot summer and the western zone i.e. Khanapur-Belgaum zone has a more moist climate. The year is usually divided into four seasons. The period from March-May is the summer season and usually April happens to be the hottest month. During this month mean maximum temperature reaches 35.7 Degree Celsius and the mean minimum temperature touches 19.5 Degree Celsius. On individual days, at times the mercury touches the mark of 41 Degree Celcius. During May, the appressive heat is relieved by sharp showers. Usually the rainy season starts from June and ends during September. During May and June, the nights are warmer than in April month. During October and November climate is of heavy fogs and misty mornings. The winter starts from December and ends during February. December is the coldest month of the year and on individual days the minimum temperature would be as low as 7 Degree Celcius. This period coincides with the driest part of the year and skies are usually bright and clear.

(5) Winds

The winds are generally light with some increase in force during the late summer and monsoon seasons. The winds blow mainly from the south-west and west during the months April to September. In October, it blows between north and east directions but on some days they are from the south-west or west. During November and December, it is mostly north easterly or easterly. From January onwards the wind blows in south-westerlies and westerlies. The storms and depressions from Bay of Bengal affect the weather condition of the district by causing widespread and heavy rain and stray winds in the district. The district witnesses also thunderstorms in summer and post-monsoon seasons and fog during cold seasons.

(6) Rainfall pattern

The District falls under northern dry, northern transition and hilly agroclimatic zones of the state. The taluks of Athni, Gokak, Raybag, Ramdurg and Parasgad fall under northern dry zone. The taluks of Belgaum, Sampgaon, Chikodi and Hukeri fall under northern transition zone and Khanapur taluk falls under hilly zone.

The average Rainfall in the district ranges from 476 mm in Ramdurg taluk to 1796 mm in Khanapur taluk. The rainfall decreases from southern part of the district towards north and north-eastern part. The north-east part of Ramdurg taluk receives the lowest rainfall.

Among the taluks in the district the pre-monsoon rainfall contributes 6 to 21% of the annual rainfall, south-west monsoon contributes 53 to 85% and north-east monsoon contributes 9 to 27% of the annual rainfall.

The coefficient of variation ranges from 51 to 64% for the pre-monsoon season, the highest variability (64%) being in the taluk of Belgaum.

The coefficient of variation for south-west monsoon ranges from 27 to 53%, the highest being in Raybag taluk. The coefficient of variation for north-east monsoon ranges from 56 to 70%, the highest being for Raybag taluk.

The coefficient of variation for Annual rainfall ranges from 23 to 41%. Raybag taluk experiences high variability of rainfall.

Note : Figures in bracket indicate values as percentage of number of years for which data is available or for 20 years depending on the column in which it is given.

- The Premonsoon rainfall in the recent 20 years is more deficit compared to the long term data.
- Southwest monsoon in the recent 20 years is more deficit compared to the long term data with Chikodi and Khanapur taluks as an exception.
- The rainfall deficit during northeast monsoon is increasing during recent 20 years compared to the long term data, except Khanapur and Ramdurg taluks.
- The trend analysis of annual rainfall indicates increasing trend in the taluk of Khanapur. The taluks of Athni, Sampgaon, Belgaum, Hukeri Gokak, Ramdurg, Raybag and Parasgad indicate decreasing trend. Ramdurg taluk do not show any significant change in rainfall pattern.

Source : Drought Monitoring Cell (Society of Govt. of Karnataka)

Belgaum district receives an average annual rainfall of 785.2 mm. The amount of rainfall decreases as one moves from west to east. At Khanapur in the west the average annual rainfall is 1796 mm. On the other hand, at Raybag in the east the average annual rainfall is 476 mm. The average number of rainy days too decreases as one moves east. July happens to be the month with the heaviest downpour. In the western portion of the district the rainfall is reliable and the seasonal conditions are fairly good and are helpful to agriculturists. In the eastern sector, however, the rainfall is not only scarce, but also capricious. A redeeming feature is that these tracts are endowed with black soils, which have a high moisture-retentive capacity. Further more, in these parts under the Ghataprabha and the Malaprabha projects, large tracts of lands have, in recent years, been provided with assured canal irrigation facilities.

(7) Forestry

Because of the rugged terrain and somewhat heavy rainfall the western parts of the district are covered with natural forests. A particular mention may be made of the forest zone, which covers a broad area including Nagargali, Khanapur, Kakati, Londa, Galihalli, Kanakumbi and Nesargi. In the Western fringe there is a narrow belt of evergreens forests and to its east there is the moist deciduous belt. In the eastern and northern tracts of the district where the rainfall is below 600 mm, the forests are of a poor type, called the scrub and thorny forest.

(8) Geology

The varieties of rocks chiefly found in the district are Dharwars, gneisses, Kaladgi series and the Deccan trap. The Dharwars are mostly seen in the western parts of Khanapur and also in the taluks of Belgaum and Sampgaon (Bailhongal). These rocks represented by schists, phyllites, quartzites and banded ferruginous quartzites. The gneissic system consists of different types of granite and gneisses, which ultimately give rise to clay. Rock formation belonging to this system is found in the southern parts of the district. Sandstone, quartzite, conglomerates, hematite, dolomite and limestone represent the Kaladagi series. Sandstone and quartzite are noticeable in the taluks of Ramdurg and Parasgad (Saundatti), Gokak and Belgaum in the form of low ridges. The Deccan traps occupy major portion of the district, especially in the northern and the eastern parts. The chief varieties found here are the basalt, amygdaloidal trap, vesicular trap and the elayes trap. Beds of laterite and clay generally cap the upper layers of the trap. The economic minerals found in the district are manganese, bauxite, limestone, silica sand, dolomite, calcite, quartzite, China clay, laterite and clay besides sand and stone, which too are being commercially exploited.

(9) Flora and Fauna

The forest flora of the district includes the important species such as ghoting, apta, haldevadar, bipte, mango, eucalyptus, savar, sativa, jack-fruit, jambalana, teak, rosewood, honne, mathi, nandi and a variety of trees which mainly yield firewood besides numerous types of creepers and smaller plants which yield useful products. Belgaum district is not particularly rich in fauna. A mention however be made of the Ghataprabha Bird Sanctuary which was constituted in 1974. This is located on a small island in the heart of the Dhupadhal Lake near Ghataprabha railway station and is a favourite spot for the spoonbills, white ibis, Starks, cormorants, kingfishers, ducks, peafowis and a variety of other birds.

(10) Soils

The district is classified into three regions according to the agro-climatic conditions, namely North Dry Zone, Northern Transitional Zone and Hilly Zone. The North Dry Zone consist of five taluks viz., Athni, Raybag, Ramdurg, Gokak and Parasgad. Shallow to medium black soils and deep to very deep black soils are found in this region. The soils are normal to alkaline. Nitrogen content is medium and contains low phosphorus. The soils has high potash content. Since this region is predominantly a rabi area, major crops like jowar, bajra, wheat, cotton, sugarcane, etc., are grown in this region.

The Northern Transitional Zone consists of four taluks namely Chikodi, Hukeri and Sampgaon and Belgaum. Shallow to medium black soils, deep to very deep black soils, red sandy loams and red laterites are found in this region. The soils contain very high Nitrogen and Potash. Phosphorous content is low. Acidic soils are also noticed in some parts of Belgaum taluk. The region is mainly a kharif area and crops like paddy, jowar, groundnut, sugarcane, tobacco and chillies are grown in the region.

The Hilly Zone comprises of Khanapur taluk. The soils are acidic in nature and the total soluble salts are normal. Nitrogen content is high, phosphorous is low and potash content is moderate in this region. This region is mainly a kharif area and major crops grown are paddy and sugarcane.

Lateritic soils found in Khanapur and in some parts of Belgaum taluks are red to pale yellow in colour due to predominance of hydrated oxides of iron and alluminium. They are acidic in nature and are deficient in lime and other nutrients.

(11) Cropping Pattern

While jowar, rice, bajra and wheat are the major cereal crops of the district, groundnut, sugarcane, cotton and tobacco are the main cash crops. An idea about the cropping pattern may be had from the details furnished below:

Jowar is grown mainly as a rain fed crop in all the taluks of the district and it is the staple cereal of almost all the sections of the population. Bajra too is a rain-fed crop grown in all the taluks. In the western fringe and in the entire Khanapur taluk, where rainfall is moderate to heavy, paddy is grown as the chief crop and sugarcane is also of considerable importance. In the other taluks paddy and sugarcane are grown in areas enjoying assured irrigation facilities. Paddy grows more in Khanapur and Belgaum taluks, sugarcane grown more in Athni, Sampgaon, Chikodi, Gokak, Khanapur and Raybag taluks. Wheat and maize are also raised as irrigated

crops. Among the cash crops groundnut takes the pride of place and is found cultivated in almost all the taluks. Cultivation of tobacco is more or less confined to the western half of Chikodi taluk covering the areas in the neighbourhood of Nipani and Sadalgi. Cotton is grown in the central belt covering the taluks of Gokak, Ramdurg, Parasgad and Sampgaon. The farmers of the district are now familiar with the high yielding varieties of crops and also with the use of chemical fertilizers and pesticides. They are also adopting improved agricultural practices and tools. As a result, the agricultural economy of the district has achieved considerable stability. Another recent development is the cultivation of mulberry, as many as 500 hectares of land is under mulberry cultivation and spreads all over the district. Nearly 299 villages have been identified as 'sericulture villages' (Source: Sericulture Department. Rearing of silk worms is also gaining importance and its share in production of cocoons as well as raw silk is 0.29 per cent.

Different types of Inam tenures, which were prevalent in the district during the British period and immediately thereafter, stand abolished and now all lands are held under the Raiyatwari tenure according to which the occupant holds the land directly under the government. As a result of the implementation of various tenancy laws, measures regarding consolidation of holdings, ceiling on land holdings and such other land reforms, the agricultural land is now found distributed amongst a large number of landholders. The following statement based on the "Belgaum district at a glance 98-99" gives a distribution of the landholdings by size-group.

It is obvious that the distribution of land is quite uneven. The marginal landholders, who constitute 33.1 per cent of the total, hold just 6.1 per cent of the total land. The average size of the land holding for this group is just 0.46 hectares. Small holdings of the size 1-2 hectares are also quite numerous and these form 28.5 per cent. In this case the average size of a holding is 1.49 hectares. Belgaum district, especially its northern and eastern belts, lies in the dry farming zone where holdings of smaller size are quite uneconomical. The holdings in the size-group of 2-4 hectares account for 22.4 per cent of the holdings and 24.7 per cent of the total land held. This group also deserves to be categorised as small in view of the conditions prevailing in the district. Thus, 84.0 per cent of the holdings of the district are small holdings.

LAND USE PATTERN FOR 1998-99 IN HECTARES

Name of Taluk	Geographical Area	Forest Area	Land put to Non-agricultural use			Uncultivable Fallow Land		Cultivable Fallow Land	Area Sown			Total Net Area Irrigated

(12) Irrigation

Canals, tanks, wells are the chief sources of irrigation and according to the statistics furnished by the Bureau of Economics and Statistics (District at a glance 1998-99), the distribution of area under these sources are given below.

NET AREA IRRIGATED BY DIFFERENT SOURCES

Name of Taluk	Net area irrigated for 1998-99 (Area in hectares)						
	Canal	Tank	Wells	Bore Wells	Lift Irrigation	Other sources	Total
1	2	3	4	5	6	7	8
Chikodi	2,977	-	12,783	4,344	950	15,162	36,216
Athni	3,210	1,085	20,905	4,020	22,561	12,158	63,939

Source: Belgaum District at a Glance, 1998-99, District Statistical Office, Belgaum.

Irrigation by canal accounts for 20.9 per cent, tank, well, tube well and lift irrigation account 2.3, 28.2, 12.8 and 15.2 per cent respectively of the total irrigated area. Other sources such as rivers and streams as well as seepage water provide irrigation to the remaining 20.4 per cent. The taluks of Athni, Raybag, Chikodi and Hukeri are known for their irrigation wells. In recent years quite a large number of these wells have been energised and this feature has resulted in a more effective use of the available water. Rice, sugarcane, groundnut, maize and vegetables as well as spices and cash crops like Tobacco of Nipani are the chief crops, which are grown in the irrigated fields. Vegetable growing is of considerable importance in several villages in the neighbourhood of Belgaum city.

Belgaum district is fortunate in that it has two important irrigation projects. Rivers play a vital role in the agricultural economy of the district. The Gokak Canal Project envisaged the construction of a masonry weir across the Ghataprabha River at Dhupadhal in Gokak taluk during the year 1885 and canal system to traverse through the taluks of Mudhol, Jamkhandi and Bagalkot. The natural elevation of the canal provides a large command area. The discharge capacity at the head being 33 cm per second, water was released for irrigation from the year 1885 itself. The project could however be fully commissioned in the year 1897 only. The former Bombay Government took up the Ghataprabha project soon after independence, i.e. in the year 1949. This project envisaged the construction of a 53.44 meter high dam across the Ghataprabha at Hidkal in Hukeri taluk. The storage reservoir formed thereof has a gross capacity of 51 Thousand Million Cubic Feet (TMC) water and the utilisation of water is 78.27 TMC. The construction of this dam resulted in the inundation of about 6,377 hectares of land and the total cost of the project is at Rs.158 crores. The irrigation network consists of three canals. The first one on the left bank taking off from Dhupadhal weir which is about 16 km down stream from the dam; the second on the right bank taking off from the Hidkal dam and the third, a high-level canal, which too takes off from the dam itself. This project is providing irrigation facilities to large extents of lands belonging to the taluks of Raybag, Athni, Chikodi, Gokak and Hukeri taluks of Belgaum district and taluks of Bilgi, Jamkhandi and Mudhol of Bagalkot district.

The Malaprabha Reservoir Project is also a major project, which provides irrigation facilities to 2.14 lakh hectares of lands belonging to the taluks of Ramdurg and Parasgad of Belgaum district, Badami taluk of Bagalkot district, the taluks of Nargund, Navalgund, Hubli of Dharwad district and the taluks of Ron and Gadag of Gadag district. The construction work relating to this project was taken up during 1963 and the work was completed by 1974. The dam site is located near Navilu-tirth (better known as 'peacock gorge'), a spot of scenic beauty, near Saundatti-Yellamma town of Parasgad taluk. The gravity masonry dam with a central spillway, which has been built here, is about 45 meters high and 155 meters long. The reservoir formed thereof has a gross storage capacity of 37.7 TMC and the water utilisation capacity is 46 TMC. The irrigation network consists of two main canals namely the Left Bank canal and the Right Bank canal. The 168 km long Left Bank canal, which passes through tunnels at Katkol and Mudhavi and has a branch canal taking off near Manoli (also known as Munoli and Munavalli) besides the Yeragatti Lift Irrigation Scheme, has a total command area of 53,134 hectares. The Right Bank canal cuts through the Yellamma range of hills by means of a 5 km long tunnel and has a total length of 138 km. At its 10th km reach the Nargund canal branches off and traverses a distance of 42 km. The total irrigable area under the Right Bank Canal comes to 128,628 hectares. Lower down the dam site there is already a canal, which takes off from Kolchi weir (in Ramdurg taluk). The irrigation projects have provided the much-needed stimulus to the agricultural economy of the district, which, in turn, has enabled the growth of agro-based industries. For instance, Belgaum district enjoys the unique distinction of supporting as many as six sugar factories. In addition to the canal irrigation, the traditional modes of irrigation by utilising tank as well as well water have continued to maintain their importance. Belgaum has numerous irrigation tanks and its northeastern taluks are particularly well known for their ground water resources and a relative abundance of irrigation wells.

(14) Animal Husbandry

In Belgaum district animal husbandry is an adjunct to agriculture. Every household of a cultivator usually possesses at least a pair of working bullocks and quite a large number among them have few cows, one or two buffaloes, a few sheep and goats as well. Poultry keeping is also quite popular in the rural as well as in the urban areas. An idea regarding the livestock wealth of the district may be had from the following details (District at a glance 1998-99).

DISTRIBUTION OF LIVESTOCK POPULATION IN THE DISTRICT

Sl. No.	Name of Livestock	Total Livestock
1	2	3
1	Cattle	512,634
2	Buffaloes	651,564
3	Sheep	904,870
4	Goat	437,424
5	Pigs	30,457
6	Rabbits	409
7	Dogs	112,626
8	Other Livestock	8,135
9	**Total Livestock**	**2,658,119**
10	**Total Poultry**	**918,000**

Source : A Handbook of Karnataka – 2001, Gazetteer Department, Government of Karnataka.

Belgaum district is fairly rich in cattle wealth and has a considerable wealth of sheep and goats as well. The climate of the district is well suited for rearing livestock animals. The southwestern and the western zone adjoin the forest-clad Western Ghat region and these tracts have plenty of grazing land. Fodder is available in sufficient quantities all through the year. Those who keep large flock of sheep usually belong to the traditional shepherd community and are accustomed to a semi-nomadic life in that they take their sheep from area to area depending upon the seasonal conditions. By and large the cattle and sheep found in the district belong to the local breeds. There are, of course, a small number of cattle belonging to the Khilari breed, Amrit Mahal breed and the Krishna Valley breed. The Khilari breed is known for hardy and enduring nature and is found most useful for hard work including road transport. The Amrit Mahal breed is known for its very active nature, endurance and quick transport. The Krishna Valley breed is very powerful and the best suited for the yoke, that is for tilling the hard black soil, which is preponderant in the district. The buffaloes are also of the local breed with sprinkling of buffaloes belonging to the Pandharapuri and Surti breeds. As regards sheep rearing, the Deccani and the Marino cross are popular. As far as poultry keeping is concerned it may be mentioned that a Poultry Extension Centre was established in 1975. The Intensive Poultry Development Programme is also being implemented in the district. A Government Dairy was established at Belgaum in 1966 with a view to promote dairy-farming activity in the city and the adjacent villages. In Belgaum city and also in all the other towns there are several private dairies and the milk supply position is fairly good during the years of normal rainfall. Belgaum is known for its milk-based sweetmeats, especially the preparation called Kunda.

(14A) Veterinary Services

In so far as the veterinary services are concerned as on 31.3.1999, it may be noted that Belgaum district has 14 veterinary hospitals. Each of the taluk headquarters has veterinary hospital except Chikodi and Raybag taluks, which have two hospitals. There are dispensaries at 56 places and primary veterinary centres at 126 places. In addition, there are 10 mobile dispensaries, each taluk has a mobile dispensary and 31 artificial insemination centers.

VETERINARY INSTITUTIONS IN THE DISTRICT FOR THE YEAR 2000

Sl. No.	Veterinary Services	No. of Institutions
1	2	3
1	Hospital	14
2	Dispensaries	56
3	Primary Veterinary Centres	126
4	Mobile Dispensaries	10
5	Artificial Insemination Centres	31
	Total	**237**

(15) Fisheries

FISHING ACTIVITY IN THE DISTRICT

Fish Seed Stocked	**In lakh fingerlings**
a) Reservoirs	45.22
b) Major Tanks	7.59
c) Minor Tanks	7.70
Total	60.51
Estimated Fish Production	**In MTs**
a) Cultured	2,976.90
b) Natural	693.76
Total	3,670.66

Source: Statistical Bulletin of Fisheries 1998-99, Directorate of Fisheries, Government of Karnataka

The development of fisheries in the district is confined only to inland fishing with the available sources from the reservoirs and tanks. The district has one fish rearing farm. It has 9 Ice Palnts and 1 Cold Storage. There are no Freezing Plants and there is no facility for frozen storage in the district. The total fishermen population is 4183, out of which the active fishermen population accounts for 1581. The district has 18 Fishery Co-operative Society, out of which 15 are working and 3 Societies are not functioning. The Government has introduced various welfare schemes such as Group Accident Insurance for active fishermen, Fisher Women Co-operative Societies and Development of Model Fishermen villages.

(16) Industries

Belgaum ranks amongst the industrially backward districts of the State. Non-availability of power was one of the main restraints that deterred the industrial development till about the mid-sixties. Thereafter the situation has considerably improved and there are definite signs of industrial growth. The mineral based industries of the district consist mainly of an aluminum factory and the ceramic works. The Indian Aluminium Company Limited is running the Aluminium factory. This company was first incorporated in 1938 under the name Aluminum Production Company of India (Private) Limited with its office at Bombay. The name was changed into the Indian Aluminium Company Limited during 1944 and, in 1945, it was converted into a public limited company with a paid up share capital of Rs.29.7 crores. The Belgaum plant, with a capital investment of Rs.53.5 crores went into production in November 1969. Bauxite is the main raw material for this industry and it is available in large quantities both within Belgaum district and in the southwestern parts of the neighbouring Maharashtra state. The Bayers process produces aluminium and Aluminium Hydroxite here.

The clay available in the district is used mainly for pottery and at Khanapur, in the neighbourhood of which clay deposits of a very fine quality are found, there is an Artisan Training Centre, which provides training in ceramics and pottery. A production unit is also attached to it. In addition, at Khanapur there is the Central Village Pottery Institute, training cum research centres established in 1954 by the All India Khadi and Village Industries Commission.

Amongst the agro-based industries, cotton mills, sugar mills and oil mills are important. The Gokak Mills is the earliest industrial unit to come up in the district. It was established in 1919 with a view to convert cotton into yarn. The factory uses coarse varieties of cotton. Cotton is processed through blow room, drawing machines and combers and then spun into yarn on spinning machines. This yarn is then wound in the form of cones and is sold as such or else it is doubled or twisted, bleached, mercerised and then sold. Yarn and canvass duck are the main products turned out here, hard waste is the important by-product. The Belgaum Cooperative Spinning Mill Limited and the Gogte Textiles are the important industrial units, which use cotton as the main raw material.

Belgaum district is an important sugar zone of the State. It has six sugar factories of which five are in the cooperative fold. The Ugar Sugar works which is located at Ugar-Khurd in Athni taluk and has been producing sugar as well as industrial alcohol. The Hiranyakeshi Cooperative Sugar Factory at Sankeshwar was incorporated in 1956 and began to produce sugar from the year 1961. The Malaprabha Cooperative Sugar Factory, Mugatkhan Hubli which is located at Kavalgumpi in Sampgaon taluk was registered during 1961 and started production a couple of years later. The Raybag Cooperative Sugar Factory, the Dudhaganga Krishna Cooperative Sugar Factory of Nanadi village in Chikodi taluk started production in 1974. The Ghataprabha Cooperative Sugar Factory located near Arabhavi village of Gokak taluk was registered in 1970. Production started during 1980 only.

Among the other industrial units of the district a specific mention may be made of the following. BEMCo Jacks and Allied Products Limited, Belgaum is engaged since 1957 in the production of hydraulic presses, hydraulic car hoists and other equipment. The Mahant Oil Industries Private Limited, Belgaum was incorporated during 1975 and produces oil cake and rice bran besides solvent oil. Arun Engineering Works, which has been producing crankshafts, rotors, hydraulic jacks, hydraulic presses and hydraulic arbor, presses. Apart from these, the district has numerous industrial units of a comparatively small size.

As per the District at a glance 1998-99 as on 31.3.1999, 83 cotton mills are in the district, one chemical industry in Athni taluk, 182 Engineering factories in Belgaum taluk only and 320 other factories in the district, the total employees among the above factories are 56807.

Belgaum city is noted for its automobile industry including bus body building works. It is also known for wooden furniture manufacturing units. Gokak is famous for painted wooden toys. The region around Nipani is noted for tobacco and tobacco based industries. Belgaum district is also a known centre of handloom industry as well as the power loom industry. Thus manufacturing industry makes a significant contribution to the overall economy of the district.

Statement below is an indicator of manufacturing industry in the district, which furnishes details of Sectors, No. of units, Investments and No. of persons employed in the district.

MAJOR FACTORIES FOR THE YEAR 1998-99

(17) Trade and Commerce

The trade and commerce have an important place in the economy of the district. Belgaum city is the main center of all trading and commercial activities. Gokak, Nipani and Athni are the other important centers. As on 31.3.1999 the district has 213 commercial banks and 189 co-operative banks, of which 94 are rural and 95 other co-operative banks. The Syndicate Bank is the lead bank of the district. Most of the agricultural co-operative credit societies became Cooperative Banks. There are 3004 Cooperative Societies out of which 521 agriculture, 510 milk production and 1,782 others. Every taluk of the district has a Primary Land Development Bank, which has been set up with a view to providing loans to the needy farmers under various schemes. Urban Cooperative Banks are functioning at 46 places and are providing financial help to petty merchants and small-scale industrialists.

(18) Transport and Communication

In the matter of transport and communication facilities Belgaum district is fairly well placed amongst the 27 districts of the State. As on 31.3.1999 the district had a total road length of 9815 km. out of which the Poona-Bangalore National Highway cuts through the district covering a length of 210 km. State Highway 732 km and the district has a total rail length of 220 km by broad-gauge only. Khanapur, Raybag, Ramdurg and Hukeri are comparatively backward in the matter of road development. There are irrigation tracts in the canal irrigation zone. The district is enjoying good road transport facilities and the important towns have direct buses to Bangalore, the State capital on the one hand and to certain prominent urban centers in Maharashtra on the other. The broad-gauge railway connecting Miraj with Bangalore runs through the district from north to south and traverses a distance of 220 km. Railway facilities are available to some extent in the taluks of Athni, Raybag, Hukeri, Gokak, Belgaum and Khanapur. At Londa, located almost in the southwestern corner of Khanapur taluk, a railway line branches off westwards and proceeds to Marmagoa. There are no waterways in the district. Belgaum city is on the air map of India and is connected by flights with Bombay, Bangalore and Panjim.

(19) Electricity and Power

Karnataka has a place of pride in the history of power generation in the country. KPTCL – Karnataka Power Transmission Corporation Limited (erstwhile KEB) is mainly vested with the functions of transmission and distribution of power in the entire state. The Corporation has been attaching great importance to electrification of villages and hamlets, tribal colonies and harijan basthis and energisation of irrigation pumpsets. Besides, this with a view to benefit weakest among the section of society schemes called Bhagya Jyothi / Kutir Jyothi have been introduced.Statement given below shows talukwise number of villages electrified and talukwise energisation of IP sets as on 31.3.1999 in Belgaum district.

TALUKWISE NUMBER OF VILLAGES ELECTRIFIED AND ENERGISED IP SETS AS ON 31.3.1999

(v) CENSUS CONCEPT

Building

A 'Building' is generally a single structure on the ground. Sometimes it is made up of more than one component unit which are used or likely to be used as dwellings (residences) or establishments such as shops, business houses, offices, factories, workshops, worksheds, Schools, places of entertainment, places of worship, godowns, stores etc. It is also possible that building which have component units may be used for a combination of purposes such as shop-cum- residence, workshop-cum-residence, office-cum-residence, etc.

Usually a structure will have four walls and a roof. But in some areas the very nature of construction of houses is such that there may not be any wall. Such is the case of conical structures where entrance is also provided but they may not have any walls. Therefore, such of the conical structures are also treated as separate buildings.

Permanent houses

Houses, the walls and roof of which are made of permanent materials. The material of walls can be any one from the following, namely, galvanized iron sheets or other metal sheets, asbestos sheets, burnt bricks, stones or concrete. Roof may be made of from any one of the following materials, namely, tiles, slate, galvanized iron sheets, metal sheets, asbestos sheets, bricks, stones or concrete.

Semi-permanent houses

Houses in which either the wall or the roof is made of permanent material and the other is made of temporary material.

Temporary houses

Houses in which both walls and roof are made of materials, which have to be replaced frequently. Walls may be made from any one of the following temporary materials, namely, grass, thatch, bamboo, plastic, polythene, mud, unburnt bricks or wood. Roof may be made from any one of the following temporary materials, namely, grass, thatch, bamboo, wood, mud, plastic or polythene.

Dwelling Room

A room is treated as a dwelling room if it has walls with a doorway and a roof and should be wide and long enough for a person to sleep in, i.e. it should have a length of not less than 2 meters and a breadth of at least 1.5 meters and a height of 2 meters. A dwelling room would include living room, bedroom, dining room, drawing room, study room, servant's room and other habitable rooms. Kitchen, bathroom, latrine, store room, passage-way and verandah which are not normally usable for living are not considered as dwelling rooms. A room, used for multipurpose such as sleeping, sitting, dining, storing, cooking, etc., is regarded as a dwelling room. In a situation where a census house is used as a shop or office., etc., and the household also stays in it then the room is not considered as a dwelling room. But if a garage or servant quarter is used by a servant and if she/ he also lives in it as a separate household then this has been considered as a dwelling room available to the servant's household. Tent or conical shaped hut if used for living by any household is also considered as dwelling room.

A dwelling room, which is shared by more than one household, has not been counted for any of them. If two households have a dwelling room each but in addition also share a common dwelling room, then the common room has not been counted for either of the households.

Census House

A 'census house' is a building or part of a building used or recognised as a separate unit because of having a separate main entrance from the road or common courtyard or staircase, etc. It may be occupied or vacant. It may be used for residential or non residential purpose or both.

In certain peculiar situations, the manner in which buildings and census houses were identified for numbering in the field by the enumerators is described hereunder:

Sometimes a series of different buildings are found along a street which are joined with one another by common walls on either side looking like a continuous structure. These different units are practically independent of one another and are likely to have been built at different times and owned by different persons. In such cases, though the whole structure with all the adjoining units apparently appears to be one building, each portion was treated as a separate building and its constituent units as separate census houses.

On the other hand, one may come across cases, particularly in large cities of multistoreyed ownership flats. In these cases while the structure looks like one building, different persons own the flats. In case of such multistoreyed structures, having a number of flats owned by different persons, the entire structure was treated as one building and each flat as a separate census house.

If within a large enclosed area, there are separate buildings owned by different persons then each such building is treated as a separate building. There can be a situation where within an enclosed compound there are separate buildings owned by an undertaking or company or even government that are actually in occupation of different persons. For example, Indian Oil Corporation colony where the buildings are owned by the Corporation but these are in occupation of their employees. Each such building was treated as a separate building. But if in any one of these buildings there were flats in occupation of different households, each such flat was reckoned as a separate census house.

Sometimes it becomes difficult to apply the definition of census house strictly in certain cases. For example, in an urban area, if a flat has five rooms, each room having direct entrance from the common staircase or courtyard, by definition, this has to be treated as five census houses. If all these five rooms are occupied by a single household it was not realistic to treat them as five census houses. In such a case,'singleness' of use of these rooms along with the main house should be considered and the entire flat was treated as one census house. On the other hand, if two independent households occupy these five rooms, the first household living in 3 rooms and the second household occupying 2 rooms, then considering the use, the first three rooms together were treated as one census house and the remaining rooms as another census house. But if each room was occupied by an independent household, then each such room was treated as a separate census house.

In case of hostels, hotels, etc., even if the door of each room in which an inmate lives opens to a common verandah, staircase, courtyard or a common room, as it happens almost invariably, the entire hostel/ Hotel building was treated as one census house. But if such hostels/ hotels have out houses or other structures used for different purposes or the same purpose, then each such structure attached to the main hostel / hotel was treated as a separate census house.

In some parts of the country, in rural areas, the pattern of habitation is such that a group of huts, located in a compound, whether enclosed or unenclosed, is occupied by one household. While the main residence may be located in one hut, other huts may be used for sleeping, as a kitchen, bath room, baithak, etc. Though each of the huts was a separate structure, they form a single housing unit and therefore, have to be treated collectively as one building and one census house. If some of the huts are used by one household and the others by a second household as residence, then the two groups of huts were treated as separate census houses. However, if there were also other huts in the compound used for other purposes and not as part of the household's residence such as, cattle shed, workshed, etc., these were treated as separate census houses.

On the other hand, in urban areas, where more than one structure within an enclosed or open compound (premises) belonging to the same person, e.g., the main house, the servant's quarter, the garage, etc., only one building number was given for this group and each of the constituent a separate census house number.

Only cases where a structure with roof and pillars has come up was treated as a building.

Village

The basic unit for rural areas is the revenue village which has definite surveyed boundaries. The revenue village may comprise of one or more hamlets but the entire village is treated as one unit for presentation of data. In unsurveyed areas, like villages within forest areas, each habitation area with locally recognized boundaries is treated as one village.

Rural-Urban area

The data in tables on Houses, Household Amenities and Assets are presented separately for rural and urban areas. The unit of classification in this regard is 'town' for urban areas and 'village' for rural areas. In the Census of India 2001, the definition of urban area adopted is as follows:

a) All places with a municipality, corporation, cantonment board or notified town area committee, etc.

b) A place satisfying the following three criteria simultaneously:

i) A minimum population of 5,000;

ii) at least 75 per cent of male working population engaged in non-agricultural pursuits; and

iii) a density of population of at least 400 per sq. km.(1,000 per sq.mile)

For identification of places which would qualify to be classified as 'urban' all villages, which, as per the 1991 Census had a population of 4,000 and above, a population density of 400 persons per sq. km. and having at least 75 per cent of male working population engaged in nonagricultural activity were considered. To work out the proportion of male working population referred to above against b) (ii), the data relating to main workers were taken into account.

Apart from these, the outgrowths (OGs) of cities and towns have also been treated as urban under 'Urban Agglomerations'. Examples of outgrowths are railway colonies, university campuses, port areas, military camps, etc., that may have come up near a statutory town or city but within the revenue limits of a village or villages contiguous to the town or city. Each such individual area by itself may not satisfy the demographic criteria laid down at (b) above to qualify it to be treated as an independent urban unit but may deserve to be clubbed with the towns as a continuous urban spread. Thus, the town level data, wherever presented, also includes the data for outgrowths of such towns.

City

Towns with population of 100,000 and above are called cities.

Urban Agglomeration

An Urban Agglomeration is a continuous urban spread constituting a town and its adjoining urban outgrowths (OGs) or two or more physically contiguous towns together and any adjoining urban outgrowths of such towns. In some cases railway colonies, university campuses, port areas, etc., may come up near a city or statutory town outside its statutory limits but within the revenue limits of a village or villages contiguous to the town or city. Each such individual area by itself may not satisfy the minimum population limit to qualify it to be treated as an independent urban unit but may deserve to be clubbed with the town as a continuous urban spread.

For the purpose of delineation of Urban Agglomerations during Census of India 2001, following criteria are taken as pre-requisites:

(a) The core town or at least one of the constituent towns of an urban agglomeration should necessarily be a statutory town; and

(b) The total population of all the constituents (i.e., towns and outgrowths) of an Urban Agglomeration should not be less than 20,000 (as per the 1991 Census).

With these two basic criteria having been met, the following are the possible different situations in which Urban Agglomerations would be constituted:

i) a city or town with one or more contiguous outgrowths;

ii) two or more adjoining towns with their outgrowths; and

iii) a city and one or more adjoining towns with their outgrowths all of which form a continuous spread.

Household

A 'household' is usually a group of persons who normally live together and take their meals from a common kitchen unless the exigencies of work prevent any of them from doing so. Persons in a household may be related or unrelated or a mix of both. However, if a group of unrelated persons live in a census house but do not take their meals from the common kitchen, then they are not constituent of a common household. Each such person was to be treated as a separate household. The important link in finding out whether it was a household or not was a common kitchen. There may be one member households, two member households or multimember households.

Institutional Household

A group of unrelated persons who live in an institution and take their meals from a common kitchen is called an Institutional Household. Examples of Institutional Households are boarding houses, messes, hostels, hotels, rescue homes, jails, ashrams, orphanages, etc. To make the definition more clearly perceptible to the enumerators at the Census 2001,

it was specifically mentioned that this category of households would cover only those households where a group of unrelated persons live in an institution and share a common kitchen.

Houseless Household

Households who do not live in buildings or census houses but live in the open on roadside, pavements, in hume pipes, under flyovers and staircases, or in the open in places of worship, mantaps, railway platforms, etc., are treated as Houseless Households.

Scheduled Castes and Scheduled Tribes

Article 341 of the Constitution provides that the President may, with respect to any State or Union territory, specify the castes, races or tribes or parts of or groups within castes, races or tribes which shall for the purposes of the Constitution be deemed to be Scheduled Castes in relation to that State or Union territory. Article 342 similarly provides for specification of tribes or tribal communities or parts of or groups within tribes or tribal communities which are to be deemed for the purposes of the Constitution to be Scheduled Tribes in relation to the various States and Union territories. In pursuance of these provisions, the list of Scheduled Castes and / or Scheduled Tribes are notified for each State and Union territory and are valid only within the jurisdiction of that State or Union territory and not outside.

It is important to mention here that under the Constitution (Scheduled Castes) Order, 1950, no person who professed a religion different from Hinduism was deemed to be a member of a Scheduled Castes in addition to every member of the Ramdasi, Kabirpanthi, Majhabi or Sikligar caste resident in Punjab or Patiala and East Punjab States Union were in relation to that State whether they professed the Hindu or the Sikh religion. Subsequently, in September 1956, by an amendment, the Presidential Order of 1950 and in all subsequent Presidential Orders relating to Scheduled Castes, the Hindu and the Sikh religions were placed on the same footing with regard to the specification of Scheduled Castes. Later on, as per the amendment made in the Constitution (Scheduled Castes) Order 1990, the Hindu, the Sikh and the Buddhist were placed on the same footing with regard to the recognition of the Scheduled Castes.

The list of Scheduled Castes and Scheduled Tribes are notified for each State and Union Territory and are valid only within the jurisdiction of that State or Union Territory and not outside. In respect of Karnataka State the Scheduled Castes and Scheduled Tribes as contained in the Scheduled Castes & Scheduled Tribes Orders (Amendment) Act, 1976 are valid for the purpose of Census of India, 2001. With the promulgation of Act 39 of 1991 however, the sub entries Naik, Nayak, Beda, Bedar and Valmiki were added under the main entry at S.No. 38 (Naikda, Nayaka, …..) of the Scheduled Tribes list of the State. There are in all 101 Scheduled Castes and 49 Scheduled Tribes in the State which are listed below:

List of Scheduled Castes

1 Adi Andhra
2 Adi Dravida
3 Adi Karnataka
4 Adiya (in Coorg district)
5 Ager
6 Ajila
7 Anamuk
8 Aray Mala
9 Arunthathiyar
10 Arwa Mala
11 Baira
12 Bakad
13 Bant (in Belgaum, Bijapur, Dharwar and North Kanara districts)
14 Bakuda
15 Balagai
16 Bandi
17 Banjara, Lambani
18 Bathada
19 Beda Jangam, Budga Jangam
20 Bellara
21 Bhangi, Mehtar, Olgana,Rukhi, Malkana, Halalkhor, Lalbegi,Balmiki, Korar, Zadmalli
22 Bhambi. Bhambi, Asadaru, Asodi, Chamadia, Chamar, Chambhar, Chamgar, Haralayya, Harali, Khalpa, Machigar, Mochigar, Madar, Madig, Mochi, Muchi, Telegu Mochi, Kamati Mochi, Ranigar, Rohidas, Rohit, Samgar
23 Bhovi
24 Bindla
25 Byagara
26 Chakkiliyan
27 Chalavadi, Chalvadi, Channayya
28 Chandala
29 Chenna Dasar, Holaya Dasar
30 Dakkal, Dokkalwar
31 Dakkaliga

32 Dhor, Kakkayya, Kankayya
33 Dom, Dombara, Paidi, Pano
34 Ellamalwar, Yellammalawandlu
35 Ganti Chores
36 Garoda, Garo
37 Godda
38 Gosangi
39 Halleer
40 Halsar, Haslar, Hulasvar,Halasvar
41 Handi Jogis
42 Hasla
43 Holar, Valhar
44 Holaya, Holer, Holeya
45 Holeya Dasari
46 Jaggali
47 Jambuvulu
48 Kadaiyan
49 Kalladi
50 Kepmaris
51 Kolupulvandlu
52 Koosa
53 Koracha
54 Korama
55 Kotegar, Metri
56 Kudumban
57 Kuravan
58 Lingader
59 Machala
60 Madari
61 Madiga
62 Mahar, Taral, Dhegu Megu
63 Mahyavanshi, Dhed, Vankar, Maru Vankar
64 Maila
65 Mala
66 Mala Dasari
67 Mala Hannai
68 Mala Jangam
69 Mala Masti
70 Mala Sale, Netkani
71 Mala Sanyasi
72 Mang, Matang, Minimadig
73 Mang Garudi, Mang Garodi
74 Manne
75 Masthi
76 Mavilan
77 Meghval, Menghvar
78 Moger
79 Mukri
80 Mundala
81 Nadia, Hadi
82 Nalkadaya
83 Nalakeyava
84 Nayadi
85 Pale
86 Pallan
87 Pambada
88 Panchama
89 Panniandi
90 Paraiyan, Paraya
91 Paravan
92 Raneyar
93 Samagara
94 Samban
95 Sapari
96 Sillekyathas
97 Sindhollu, Chindollu
98 Sudugadu Siddha
99 Thoti
100 Tigar, Tirbanda
101 Valluvan

List of Scheduled Tribes

1 Adiyan
2 Barda
3 Bavacha, Bamcha
4 Bhil, Bhil Garasia, Dholi Bhil, Dungri Bhil, Dungri Garasia, Mewasi Bhil, Rawal Bhil, Tadvi Bhil, Bhagalia, Bhilala, Pawra, Vasava, Vasave
5 Chenchu, Chenchwar
6 Chodhara
7 Dubla, Talavia, Halpati
8 Gamit, Gamta, Gavit, Mavchi, Padvi, Valvi
9 Gond, Naikpod, Rajgond
10 Gowdalu
11 Hakkipikki
12 Hasalaru
13 Irular
14 Iruliga
15 Jenu Kuruba
16 Kadukuruba
17 Kammara (in South Kanara district and Kollegal taluk of Mysore district)
18 Kaniyan, Kanyan (in Kollegal taluk of Mysore district)
19 Kathodi, Katkari, Dhor Kathodi, Dhor Katkari, Son Kathodi, Son Katkari
20 Kattunayakan
21 Kokna, Kokni, Kukna
22 Koli Dhor, Tokre Koli, Kolcha, Kolgha
23 Konda Kapus
24 Koraga
25 Kota
26 Koya, Bhine Koya, Rajkoya

27 Kudiya, Melakudi
28 Kuruba (in Coorg district)
29 Kurumans
30 Maha Malasar
31 Malaikudi
32 Malasar
33 Malayekandi
34 Maleru
35 Maratha (in Coorg district)
36 Marati (in South Kanara district)
37 Meda
38 Naikda, Nayaka, Cholivala Nayaka, Kapadia Nayaka, Mota Nayaka, Nana Nayaka, Naik, Nayak, Beda, Bedar and Valmiki
39 Palliyan
40 Paniyan
41 Pardhi, Advichincher, Phanse Pardhi
42 Patelia
43 Rathawa
44 Sholaga
45 Soligaru
46 Toda
47 Varli
48 Vitolia, Kotwalia, Barodia
49 Yerava

Language and Mother tongue

As per the Census concept, each language is a group of mother tongues. The census questionnaire collects information on the mother tongue of each person and mother tongue is defined as the language spoken in childhood by the person's mother to the person. If the mother died in infancy, the language mainly spoken in the person's home in childhood will be the mother tongue. In the case of infants and deaf mutes, the language usually spoken by the mother is considered as mother tongue. It is not necessary that the language spoken as mother tongue should have a script. The mother tongues returned by the respondents in census are classified and grouped under appropriate languages according to their linguistic characteristics.

Literate

A person aged 7 years and above who can both read and write with understanding in any language is taken as literate. A person who can only read but cannot write is not literate. It is not necessary that to be considered as literate, a person should have received any formal education or passed any minimum educational standard. Literacy could also have been achieved through adult literacy classes or through any non-formal educational system. People who are blind and can read in Braille are treated as literates.

Literacy rate

Literacy rate of the population is defined as the percentage of literates in the age group seven years and above. For different age groups the percentage of literates in that age group gives the literacy rate.

Educational level

The highest level of education a person has completed.

Work

Work is defined as participation in any economically productive activity with or without compensation, wages or profit. Such participation may be physical and/or mental in nature. Work involves not only actual work but also includes effective supervision and direction of work. It even includes part time help or unpaid work on farm, family enterprise or in any other economic activity. All persons engaged in 'work' as defined above are workers. Persons who are engaged in cultivation or milk production even solely for domestic consumption are also treated as workers.

Reference period for determining a person as worker and non-worker is one year preceding the date of enumeration.

Main worker

A person who has worked for major part of the reference period (i.e. six months or more during the last one year preceding the date of enumeration) in any economically productive activity is termed as 'Main worker' .

Marginal worker

A person who worked for less than six months of the reference period (i.e. in the last one year preceding the date of enumeration) in any economic activity is termed as 'Marginal worker' .

Non-worker

A person who has not worked at all in any economically productive activity during the reference period (i.e. last one year preceding the date of enumeration) is termed as 'Non worker'.

Cultivator

For purposes of the Census a person is classified as cultivator if she or he is engaged in cultivation on land owned or held from government or held from private persons or institutions for payment in money, kind or share. Cultivation includes effective supervision or direction in cultivation.

A person who has given out her/his land to another person or persons or institution(s) for cultivation for money, kind or share of crop and who does not even supervise or direct cultivation in exchange of land, is not treated as cultivator. Similarly, a person working on another person's land for wages in cash or kind or a combination of both (agricultural labourer) is not treated as cultivator.

Cultivation involves ploughing, sowing, harvesting and production of cereals and millet crops such as wheat, paddy, jowar, bajra, ragi, etc., and other crops such as sugarcane, tobacco, groundnuts, tapioca, etc., and pulses, raw jute and kindred fiber crop, cotton, cinchona and other medicinal plants, fruit growing, vegetable growing or keeping orchards or groves, etc. Cultivation does not include the following plantation crops – tea, coffee, rubber, coconut and betelnuts (areca).

Agricultural labourer

A person who works on another person's land for wages in cash or kind or share is regarded as an agricultural labourer. She/he has no risk in the cultivation, but merely works on another person's land for wages. An agricultural labourer has no right of lease or contract on land on which she/he works.

Household industry worker

Household industry is defined as an industry conducted by the head of the household herself/himself and or by the members of the household at home or within the village in rural areas and only within the precincts of the house where the household lives in urban areas. The larger proportion of workers in household industry should consist of members of the household including the head. The industry should not be run on the scale of a registered factory which would qualify or has to be registered under the Indian Factories Act and should be engaged in manufacturing, processing, servicing and repairs of goods. A person who has been engaged in the economic activity like above is termed as Household Industry Worker.

It does not include professions such as a pleader, Doctor, Musician, Dancer, Waterman, Astrologer, Dhobi, Barber, etc. or merely trade or business, even if such professions, trade or services are run at home by members of the household.

Other worker

A person who has been engaged in some economic activity during the reference period but not as a cultivator or agricultural labourer or in Household Industry is termed as an 'Other Worker (OW)'. The type of workers that come under this category of 'OW' include all government servants, municipal employees, teachers, factory workers, plantation workers, those engaged in trade, commerce, business, transport, banking, mining, construction, political or social work, priests, entertainment artists, etc. In effect, all those workers other than cultivators or agricultural labourers or household industry workers, are 'Other Workers'.

Work participation rate

Percentage of workers (main + marginal) to total population.

Population density

Population density is the number of persons inhabited per square kilometer of the area.

Age

Age is measured in terms of the completed number of years.

Sex ratio

Number of females per 1,000 males in a population.

(vi) NON-CENSUS CONCEPTS

Improved drinking water

If the household had access to drinking water supplied from a tap, hand pump, tube well or well (protected or covered) situated within or outside the premises, it is considered as having access to improved drinking water.

It may be mentioned that such uniform definition may not be valid across all states.

System of sewerage

Generally, a sewerage system would mean a network of mains and branches of underground

conduits for the conveyance of sewerage to the point of disposal. Sewers that carry only household and industrial wastage are called separate sewers; those that carry storm water from roofs, streets and other surfaces are known as storm water drains, while those carrying both sewage and storm water are called combined sewers. However, in some towns which are not provided with such underground sewerage system, it is served by open surface drain, box drain, sylk pattern drain, etc., in these towns.

Type of latrine and Method of disposal of night soil

There are three prevalent systems of disposal of human wastes, viz.(i) underground sewerage, (ii) sanitary water flush latrines with individual disposal systems, like septic tank, leaching cess pool and collecting well, and (iii) dry type of latrines with manual scavenging.

The system of underground sewerage provides for the street sewerage with which are connected the sanitary latrines constructed in the houses having water closets and fitted with flushing cistern (or hand flushing). Through this sewer the faucal matter is transported without the need for scavenging. This system generally exists in cities and big towns.

Where the streets sewer does not exist these sanitary water flush latrines are connected to a local septic tank with a subsoil dispersion system or a leaching pit. Here the liquid wastes from the water closet is disposed of locally in leaching pit, a septic tank with a soil dispersion system is constructed. This dispersion requires an optimum travel through the pores of the soil which renders the harmful liquid bacterially innocuous by the slow process of filtration through the soil traversed.

Where the soil is impermeable, collecting wells are constructed and the sanitary water flush latrines are connected with them. These wells are cleaned at periodic intervals by a suitable device. The dry type of latrines are of service type latrines from where human excreta is removed by scavengers from house to house, in most cases carrying it on their heads or shoulders or in baskets with handle or wheel barrows. These are then collected in bullock carts or trucks or tractors and trolleys for being carried to the dumping grounds.

Fertility

In demography, the word fertility is used in relation to the actual production of children or occurrence of births specially live births. Fertility is a measure of rate at which population adds to itself by births and normally assessed by relating the number of births to a full or part of the population, such as number of married women or number of women of childbearing age. The definitions of the terminology used in computing different fertility rates are mentioned below:

Crude birth rate (CBR)

Ratio of the number of live births in a year to the mid year population, normally expressed per 1,000 population.

$$CBR = \frac{\text{Number of live births during the year}}{\text{Mid –year Population}} \times 1{,}000$$

Crude death rate (CDR)

Ratio of the number of deaths in a year to the mid year population, normally expressed per 1,000 population.

$$CDR = \frac{\text{Number of deaths during the year}}{\text{Mid year Population}} \times 1{,}000$$

Natural growth rate

Growth rate is obtained as the difference between crude birth rate and crude death rate in the absence of migration.

Age specific fertility rate (ASFR)

Number of live births in a year to female population in any specified age group normally expressed per 1,000 women.

$$ASFR = \frac{\text{Number of live births in a particular age group}}{\text{Midyear female population of the same age group}} \times 1{,}000$$

Age specific marital fertility rate (ASMFR)

Number of live births in a year to married female population in any specified age group normally expressed per 1,000 married women.

$$ASMFR = \frac{\text{Number of live births in a particular age group}}{\text{Midyear married female population of the same age group}} \times 1{,}000$$

General fertility rate (GFR)

Number of live births per 1,000 women in the reproductive age-group (15-49) years in a given year.

$$GFR = \frac{\text{Number of live births in a year}}{\text{Midyear female population in the age-group (15-49) years}} \times 1{,}000$$

General marital fertility rate (GMFR)

Number of live births per 1,000 married women in reproductive age-group (15-49) years in a given year.

$$GMFR = \frac{\text{Number of live births in a year}}{\text{Midyear married female population in the age-group (15-49) years.}} \times 1{,}000$$

Total fertility rate (TFR)

It is obtained as the total of the age specific fertility rates (number of children born per woman of the particular age) for the entire reproductive age span. It provides the average number of children that will be born to a woman under the fertility levels indicated by the age specific fertility rates assuming that there is no mortality of women till the completion of reproductive period.

$$TFR = \frac{5 \times \sum_{15-19}^{45-49} ASFR}{1{,}000}$$

Total marital fertility rate (TMFR)

Average number of children that would be born to a married woman if she experiences the current fertility pattern throughout her reproductive span (15-49) years assuming that there is no mortality of women till the completion of reproductive period.

$$TMFR = \frac{5 \times \sum_{15-19}^{45-49} ASMFR}{1{,}000}$$

Age specific mortality rate (ASMR)

Number of deaths in a particular age and sex group per 1,000 population of the same age group.

$$ASMR = \frac{\text{Number of deaths in a particular age group}}{\text{Midyear population of the same age group}} \times 1{,}000$$

q_1

Probability of dying between birth and age 1. This can be used as approximate value of Infant Mortality Rate (IMR) which gives the ratio of number of deaths in a year of children aged less than one year to the number of births in that year.

q_2

Probability of dying between birth and age 2.

q_5

Probability of dying between birth and age 5. This indicator is also known as Under Five Mortality Rate (U_5MR)

Infant mortality rate (IMR)

Ratio of the number of infant deaths (deaths of children below one year) in a year to the number of live births in that year.

$$IMR = \frac{\text{Number of infant deaths during the year}}{\text{Number of live births during The year}} \times 1{,}000$$

Infant mortality rate comprises of two parts, viz., Neonatal mortality rate and Post neonatal mortality rate. The neonatal mortality rate also comprises of two parts viz., early neonatal mortality rate and late neonatal mortality rate. These are defined as:

Neo-natal mortality rate (NMR)

Number of infants dying within the first month of life (28 days or under) in a year per 1,000 live births of the same year.

$$NMR = \frac{\text{Number of infant deaths aged 28 days or under during the year}}{\text{Number of live births during the year}} \times 1{,}000$$

Early neo-natal mortality rate

$$= \frac{\text{Number of infant deaths of less than 7 days during the year}}{\text{Number of live births during the year}} \times 1{,}000$$

Late neo-natal mortality rate

$$= \frac{\text{Number of infant deaths of 7 days to less than 29 days during the year}}{\text{Number of live births during the year}} \times 1{,}000$$

Post neo-natal mortality rate (PNMR)

$$= \frac{\text{Number of deaths of 29 days to less than one year during the year}}{\text{Number of live births during the year}} \times 1{,}000$$

Perinatal mortality rate (PMR)

Number of stillbirths plus deaths within 1st week of delivery per 1,000 births in a year.

$$PMR = \frac{\text{Number of stillbirths and infant deaths of less than 7 days during the year}}{\text{Number of live births and stillbirths during the year}} \times 1{,}000$$

Still birth rate (SBR)

$$= \frac{\text{Number of stillbirths during the year}}{\text{Number of live births and stillbirths during the year}} \times 1{,}000$$

Maternal mortality rate (MMR)

Number of deaths of women in the age group 15-49 while pregnant or within 42 days of termination of pregnancy from any cause related to pregnancy and child birth per 100,000 live births in a given year.

$$MMR = \frac{\text{Number of maternal deaths to women in the age group 15-49}}{\text{Number of live birth}} \times 100{,}000$$

Eligible couple (Couples per 1,000 population)

Number of currently married females in the age group 15-44 years per 1,000 persons of all ages.

Child woman ratio (0-4)

1. Number of children in the age group 0-4 years per 1,000 women in the age group 15-49 years.

Child woman ratio (5-9)

2. Number of children in the age group 5-9 years per 1,000 women in the age group 15-49 years.

Migration

Migration is the third component of population change, the other two being mortality and fertility.

A person is considered as a migrant by place of birth if the place in which he/she is enumerated during the census is other than the place of his/her birth.

Similarly a person is considered as a migrant by place of last residence if the place in which he/she is enumerated during the census is other than his/her place of immediate last residence outside the village or town and not simply in another house or locality in the same village or town.

Certain aspects concerning temporary movement/ migration of people has been explained below as these are important components concerning migration :

i) Migration of persons in search of job is high in the country. In many cases such migrants are only seasonal in nature. People migrate to other places for work in a particular season and come back again to their usual place of residence after three or four months. All such workers are treated as migrants. Similarly, if a person moved to any other place for attending short term vocational or educational course that lasted for only few months of a year, she/he too were considered as a migrant.

ii) Where a person had merely gone out to another place or had been shifting from one place to another purely on tour, pilgrimage, visit to hospital for treatment or for temporary business purposes, such persons are not deemed to have had another residence different from the place where she/he or her/his family normally resides. She/he is not considered as migrant

iii) A woman temporarily moves into a hospital or to her parents or other relative's house for delivery and if the hospital or the parents/relatives houses is in a place different from usual place of residence, the place where the hospital or parents/relative's house is the place of last residence of the child but not of the mother.

A new response category 'Moved after birth' was added in Census of India 2001 in the question on 'reasons for migration' to bring out additional migration patterns. Natural calamities or distress migration as a reason for migration for last residence migrants included in 1991 Census, is covered under

category of 'Others'. The reason for migration has been determined as applicable at the time of migration and not in reference to any point of time after that. For example, if a person had moved from the place of her/his last residence for the purpose of education and subsequently at some point of time got employment there only, the reason for migration would be 'education' and not 'work/employment'.

Internal and International migration

The migrational movements are of three types (i) Migration within the state itself with its components (a) Migration within the district of enumeration (intra district migration) (b) Migration from one district of state to another district of state (inter district migration), (ii) Migration from one state to another State of the country (interstate migration), (iii) Migration from one country to another country. The first two streams together constitute internal migration, while the last type of movement is called international migration. The present name of the country, state or district and not the name by which they were known at the time of her/his birth or last residence were recorded.

Rural-Urban components of migration

Rural or Urban status in respect of migrants have been determined as applicable at the time of migration and not with reference to any point of time after that.

The flow of migrants consists of four streams viz. rural to rural, rural to urban, urban to rural and urban to urban.

Civic status of urban units

Civic Status of a town/city is determined on the basis of Civic Administrative authority of the town e.g., Municipal Corporation/ Corporation, Municipal Committee/Municipal council, Municipality etc.

Size class of UA / town

Size class of UA/Town is based on the population size of the UA/City/Town. UAs./Towns with 100,000 and above population are classified as Class I UAs. / towns. These Class I UAs. / towns are now further sub classified in to seven sub classes namely M1 to M7 depending on the population size of UA/City/ Town. These are M7 (5,000,000 and above); M6 (2,000,000- 4,999,999); M5 (1,000,000-1,999,999); M4 (500,000-999,999); M3(300,000-499,999); M2 (200,000-299,999) & M1 (100,000-199,999). Towns with, 50,000 to 99,999 population are classified as Class II towns, 20,000 to 49,999 population are Class III towns, population with 10,000-19,999 are Class IV towns, population with 5,000 and 9,999 are Class V towns and towns with less than 5,000 population are Class VI towns.

Slum area

The Slum Areas (Improvement and Clearance) Act, 1956 which was enacted by the Central Govt. defined slums as a) Areas where buildings are in any respect unfit for human habitation; or b) are by reasons of dilapidation, overcrowding, fault arrangement and design of such buildings, narrowness or faulty arrangement of streets, lack of ventilation, light or sanitation facilities, or any combination of these factors, are detrimental to safety, health or morals.

Mega city

The concept of 'Mega city' is a recent phenomenon in the Urban Sociology and is defined in term of metropolitan city in the form of large size, problem of management of civic amenities and capacity to absorb the relatively high growth of population. Indian Census in 1991 treated the population size of 5 million and above as the cut off point to identify a place as the mega city. Whereas, for the purpose of inclusion in Centrally Sponsored Scheme for Infrastructure Development in Mega cities the Ministry of Urban Affairs and employment, Department of Urban Development adopted the criteria of 4 million and above population as per 1991 Census for Mega Cities. In 2001 Census, cities with 10 millions and above population have been treated as Mega cities.

(vii) 2001 Census Findings – Population, its Distribution:

(a) Distribution of population in Rural-Urban areas:

According to the 2001 Census, the total population of Belgaum district is 4,214,505 comprising 2,150,090

males and 2,064,415 females. The population of the district forms 8.0 per cent of the state population and ranks at 2nd place among the districts. Out of the total population of the district, about 76.0 per cent lives in rural areas while 24.0 per cent lives in urban areas. Rural population of the district is distributed among 10 taluks and urban population spread over in 22 towns. The total urban population in the district is 1,012,691 persons comprising 519,334 males and 493,357 females. The total rural population in the district comes to 3,201,814 persons and is composed of 1,630,756 males and 1,571,058 females as per 2001 Census. The rural population is distributed in 1,255 inhabited villages and there are 15 un-inhabited villages in the district.

(b) Size-class and Civic Status of towns:

The Statement below gives the position and number of urban units according to size-class of population as per 2001 Census:

SIZE-CLASS AND CIVIC STATUS OF TOWNS

Serial number	Size-Class of town	Name and civic status of town		Urban Population		
				Persons	Males	Females
1	2	3		4	5	6
1	II	Nipani	CMC	58,081	29,191	28,890

Population Growth, Density and Sex-ratio:

Population Growth:

Belguam district witnessed a positive growth rate in each decade with 0.5, 13.6, 14.0, 16.7, 20.5, 22.2, 22.9, 20.3 and 17.6 per cent during the period 1901 to 2001 (except 4.2 per cent negative growth during decade 1911). According to the 1991 Census the total population of the district was 3,583,606. There has been net addition of 630,899 persons during 1991-2001. The decadal growth rate of the district comes to 17.6 per cent. The growth rate for the rural and urban areas of the district is 16.8 and 20.3 per cent respectively.

Density:

The population density of Belgaum district is 314 persons per Sq. Km. against the state average of 276 persons. At taluk level, the density varies between 140 persons in Khanapur taluk and 787 persons in Belgaum taluk. In rural areas it comes to 245 persons

per Sq. Km., while in urban areas it comes to 2,752 persons. In urban areas the density of population varies between 1,653 persons in Sadalgi town and 9,986 persons in Ramdurg town.

Sex Ratio:

There are 960 females for every one thousand males in Belgaum district. The sex-ratio figures for rural areas and urban areas of the district are 963 and 950 respectively. It is also observed that, the proportion of females in rural areas is higher than that of urban areas. Sex-ratio in the age-group 0-6 comes to 921 girls per 1,000 boys in the district as a whole. In rural areas, this proportion is 923, while in urban areas the sex-ratio of Child population works out to 915 girls per 1,000 boys.

Work Participation Rate:

The work participation rate is defined as percentage of total workers to total population. According to 2001 Census, the total workers including main and marginal workers constitute 44.6 per cent of total population of the district. Of the total workers, the share of main workers is 81.9 per cent and marginal workers is 18.1 per cent. The remaining 55.4 per cent of population belongs to the category of non-workers.

As per 2001 Census among the main workers male participation rate in the district is 92.9 per cent and corresponding proportion of females is 62.2 per cent. The proportion of female marginal workers is higher than male marginal workers, as the females are attending to one or more economic activities in addition to their household duties to improve the family income. Majority of the workers are engaged in other activities. Of the total 1,877,774 workers in the district, 37.6 per cent of these total workers are categorized as cultivators, 31.3 per cent agricultural labourers, 3.5 per cent in household industries and 27.6 per cent in other services.

Literacy:

A person who can read and write in any language is considered as literate in Census. All children of age below 7 years are treated as illiterate.

As per 2001 Census, Belgaum district has reported 2,305,279 persons as literates constituting 64.2 per cent of the total population excluding the population of 0-6 years. The proportion of male and female literacy rates in the district are 75.7 and 52.3 per cent respectively. The literacy rate of males is higher than that of females. The gap in the male-female literacy rate is 23.4 per cent in the district.

The total literacy rates of rural and urban area are 58.9 and 80.7 per cent respectively. The rate of male and female literacy in rural areas is 71.5 and 45.8 per cent respectively. In urban areas this rate are 88.4 and 72.5 per cent respectively. The gap in male-female literacy rates in urban areas is 15.9 as against 25.7 in rural areas. It is thus clear that females are better educated in urban areas than their counterparts in rural areas.

(c) Scheduled Castes and Scheduled Tribes Population 2001:

Of the 4,214,505 total population of the district 11.0 per cent of the total population belong to Scheduled Castes and 5.8 per cent to Scheduled Tribes. The percentage of Scheduled Castes constitute 77.3 per cent in rural areas and 22.7 per cent in urban areas. The proportion of Scheduled Tribes is 87.7 and 12.3 in rural and urban areas respectively.

(viii) Brief analysis of PCA data based on inset tables 1 to 36

Following tables, which presents the data on population and amenities available within the district, with a brief notes will provide an overview of the district.

TABLE 1:DECADAL CHANGE IN POPULATION OF TALUKS BY RESIDENCE, 1991-2001

Taluk	Population						Percentage decadal variation 1991-2001			Percentage Urban Population	
	1991			2001							
	Total	Rural	Urban	Total	Rural	Urban	Total	Rural	Urban	1991	2001

Data given in Table-1 reveals the talukwise decadal variation of population in the district. During the decade 1991-2001 it has grown by 17.6 per cent. Talukwise decadal change indicates in Raybag, the observed decadal change is 22.8 per cent which is highest in the district and 11.9 per cent decadal change is noticed in Ramdurg taluk. The percentage of urban population to total population in the district has grown marginally.

TABLE 2 : NUMBER AND PERCENTAGE OF INHABITED VILLAGES IN SPECIFIED POPULATION SIZE RANGES WITH THE RELATED POPULATION, 2001

Sl. No.	District / C.D. block	Total number of inhabited villages	Total rural population			Number and percentage of villages	Population less than 200

There are 38 villages in the district having population less than 200 and majority of them are in Khanapur C.D. Block and in the same block, villages with population range 200-499 is high which numbers to 91. It can be seen from the table that population in most of the villages in the district ranges between 1,000-1,999 and 2,000-4,999.

TABLE 3 : NEW TOWNS, DENOTIFIED, DECLASSIFIED AND MERGED TOWNS

		Name of Town
(a)	New	
(i)	Statutory Town	**NIL**
(ii)	Census Town	**1. Kangrali (KH) CT** **2. Kangrali (BK) CT**
(b)	Denotified	
(i)	Statutory towns of 1991 Census denotified and also did not satisfy the criteria to be treated as Census towns.	**NIL**
(ii).	Statutory towns of 1991 Census denotified but identified as Census towns based on demographic and economic criteria	**NIL**
(iii)	Census towns of 1991 Census are notified as Statutory towns in 2001 Census	**NIL**
(c)	Declassified	**1. Dhupadal (NMCT)** **2. Hidkal (NMCT)**
(d)	wholly merged with other towns	**NIL**

Declassified means the census towns of 1991 Census, which fail to satisfy the demographic and economic criteria.

TABLE 4 : DISTRIBUTION OF VILLAGES BY POPULATION DENSITY, 2001

Range of population density (per square kilometer)	Total number of villages in each population density range	Percentage of villages in each population density range	Population	Percentage distribution of population
1	2	3	4	5
0-10	11	0.9	1,105	0.0
11-20	12	1.0	3,295	0.1
21-50	45	3.6	18,034	0.6
51-100	117	9.3	118,198	3.7
101-200	302	24.1	569,118	17.8
201-300	303	24.1	752,640	23.5
301-500	301	24.0	964,071	30.1
501 +	164	13.1	775,353	24.2
Not known	-	0.0	-	0.0
District Total:	**1,255**	**100.0**	**3,201,814**	**100.0**
Population Density (Rural) of the district:		**247**		

Distribution of villages by population density ranges is presented in the above table. Data reveals that there are good number of villages with a density of 101-200, 201-300 and 301-500 numbers to 302, 303 and 301 respectively. The population density for the rural area is 247 persons per sq. km.

TABLE 5 : SEX RATIO OF STATE AND DISTRICT 1901-2001

State				District			
Census Years	Total	Rural	Urban	Census Years	Total	Rural	Urban
1	2	3	4	5	6	7	8
1901	983	984	976	1901	980	982	961
1911	981	984	960	1911	967	972	920
1921	969	975	936	1921	957	961	928
1931	965	972	927	1931	952	962	887
1941	960	965	935	1941	947	952	912
1951	966	974	941	1951	956	960	943
1961	959	973	913	1961	952	958	924
1971	957	971	913	1971	947	955	915
1981	963	978	926	1981	957	965	928
1991	960	973	930	1991	954	958	940
2001	965	977	942	2001	960	964	950

The above table gives the sex-ratio for the rural and urban population of the state as well as that of the district from 1901 to 2001 census. It is observed that the state has recorded a decrease in the sex-ratio since 1901 census (983). However in 2001 census, the state has registered a better sex-ratio of 965 little higher than the ratio of 1991 Census (960). For the district, the sex-ratio in 1901 Census was 980, which with some fluctuations, gradually decreased over the decades. However, in 2001 Census, the district has recorded a sex-ratio of 960 better than that of 1991 Census 954. It is also observed that the sex-ratio in 2001 Census for the district (960), is slightly less than that for the state (965). Again, the ratio for the rural women in 2001 Census is comparatively better than, that for the urban women in the state as well as in the district.

TABLE 6 : SEX RATIO BY TALUKS, 2001

Sl. No.	Name of Taluk	Sex ratio		
		Total	Rural	Urban
1	2	3	4	5
1	Chikodi	951	946	972
2	Athni	950	948	967
3	Raybag	944	946	923
4	Gokak	973	975	966
5	Hukeri	967	970	951
6	Belgaum	948	969	936
7	Khanapur	992	995	959
8	Sampgaon	971	970	977
9	Parasgad	967	967	968
10	Ramdurg	973	971	981
	District Total:	**960**	**963**	**950**

There are 960 females per 1,000 males in the district. The sex ratio for rural area is 963 and for urban it is 950. The ratio is favourable for men in both rural and urban areas. Talukwise comparison also reveals that the males out number females in all the ten taluks of the district.

TABLE 7: SEX RATIO BY CD BLOCKS, 2001

Sl. No.	Name of C. D. block	Sex ratio
1	2	3
1	Chikodi	946
2	Athni	948
3	Raybag	946
4	Gokak	975
5	Hukeri	970
6	Belgaum	969
7	Khanapur	995
8	Sampgaon	970
9	Parasgad	967
10	Ramdurg	971
	District (Rural) Total:	**963**

This table highlights the data on sex ratio by C.D.Blocks, which includes all the villages in the district. The sex ratio is favourable for men in all the C.D.Blocks in the district. The lowest of 946 reported from Chikodi and Raybag and the highest of 995 is reported from Khanapur.

TABLE 8: SEX RATIO OF RURAL POPULATION BY RANGES, 2001

Range of sex ratio for villages	Number of inhabited villages	Percentage of villages in each range	Population 2001	Percentage distribution of population
1	2	3	4	5
Less than 700	1	0.1	1,565	0.0
700-749	3	0.2	11,979	0.4
750-799	2	0.2	3,417	0.1
800-849	14	1.1	19,021	0.6
850-899	64	5.1	109,084	3.4
900-949	351	28.0	1,007,957	31.5
950-999	478	38.1	1,541,069	48.1
1,000-1,099	284	22.6	467,615	14.6
1,100+	58	4.6	40,107	1.3
District Total:	**1,255**	**100.0**	**3,201,814**	**100.0**
Sex ratio (Rural) for District:		**963**		

The sex ratio of rural population by ranges are given with corresponding number of villages. Though the average sex ratio of rural population as given above is 963, the ratio for villages by ranges reveals that there are 342 villages which have the sex ratio above 1,000 favouring women in the rural areas.

TABLE 9 : SEX RATIO OF URBAN AGGLOMERATIONS / TOWNS, 2001

Sl. No.	Name of U.A. / Town	Urban status of town	Sex ratio
1	2	3	4
1	Athni	UA	967
2	Athni	TMC+OG	967

		Urban	**131,465**	**68,657**	**62,808**	**915**

Variations in child sex ratio has been a long observed phenomenon and have undergone considerable debate among the researchers and policy makers from time to time. Although the observed variations in the ratio favouring males is a biological fact, continued decline over the periods causes great concern among the policy makers. The talukwise sex ratio for 0-6 population is given in table-10 which reveals that there are 921 girls per 1,000 boys. The urban area in Raybag taluk has recorded the lowest ratio of 855 in the district.

TABLE 11 : SEX RATIO OF POPULATION IN THE AGE GROUP 0-6 FOR C.D. BLOCKS, 2001

Sl. No.	Name of C.D. block	Total population in 0-6 age group			Sex ratio for 0-6 age group
		Persons	Males	Females	
1	2	3	4	5	6

	District (Rural) Total:	**492,566**	**256,159**	**236,407**	**923**

Table-11 highlights the data on the sex ratio of population in the age group 0-6 by C.D.Blocks which includes only the rural portions of the district. The sex ratio favourable for boys in all the C.D.Blocks. Chikodi block has registered a lowest ratio of 877 in the district.

TABLE 12 : SEX RATIO OF RURAL POPULATION IN THE AGE GROUP 0-6 BY RANGES, 2001

Range of sex ratio for villages	Number of inhabited villages	Percentage distribution of villages	Population 2001	Percentage distribution of population
1	2	3	4	5
Less than 700	50	4.0	4,191	0.9
700-749	50	4.0	10,069	2.0
750-799	73	5.8	18,638	3.8
800-849	139	11.1	53,278	10.8
850-899	213	17.0	110,547	22.4
900-949	213	17.0	127,043	25.8
950-999	169	13.5	75,935	15.4
1,000-1,099	208	16.6	68,712	13.9
1,100+	140	11.2	24,153	4.9
District (Rural) Total	**1,255**	**100.0**	**492,566**	**100.0**
Sex ratio (Rural) for District :		**923**		

The sex ratio of rural population in the age group of 0-6 is presented by ranges in the above table. Though the overall sex ratio for the rural district is 923 girls for 1,000 boys, it is worth noting that 466 inhabited villages have the sex ratio favourable for girls. Similarly in 173 villages, the data shows a grim picture of the girl child where the sex ratio ranges between less than 700 and 750-799.

	District (Rural) Total:	**3,201,814**	**368,289**	**212,670**	**11.5**	**6.6**

Similar analysis is presented by C.D.Blockwise in table-15 which includes only rural areas in the district. The Scheduled Castes and Scheduled Tribes constitute 11.5 per cent and 6.6 per cent of the total population. Highest per cent of Scheduled Castes population 18.0 per cent is reported from Raybag block and the Scheduled Tribes population 12.5 per cent is reported from Hukeri Block.

TABLE 16 : PROPORTION OF SCHEDULED CASTES POPULATION TO TOTAL POPULATION IN VILLAGES, 2001

Percentage range of Scheduled Castes population to total population	Number of villages	Percentage	Scheduled Castes Population	Percentage
1	2	3	4	5
Nil	128	10.2	-	0.0
Less than 5	297	23.7	18,218	4.9
5-10	388	30.9	77,893	21.1
11-20	324	25.8	182,146	49.5
21-30	77	6.1	61,853	16.8
31-40	13	1.0	10,845	2.9
41-50	2	0.2	1,045	0.3
51-75	7	0.6	3,340	0.9
76 and above	19	1.5	12,949	3.5
District Total	**1,255**	**100.0**	**368,289**	**100.0**

The proportion of Scheduled Castes population in the villages are given by ranges in table-16. There are 128 villages in the district which does not have Scheduled Castes population. Majority of the villages have 'less than 5' , '5-10' and '11-20' per cent of Scheduled Castes in each villages.

TABLE 17 : PROPORTION OF SCHEDULED TRIBES POPULATION TO TOTAL POPULATION IN VILLAGES, 2001

Percentage range of Scheduled Tribes population to total population	Number of villages	Percentage	Scheduled Tribes Population	Percentage
1	2	3	4	5
Nil	435	34.7	0	0.0
Less than 5	418	33.3	20,180	9.5
5-10	133	10.6	26,401	12.4
11-20	96	7.6	38,853	18.3
21-30	61	4.9	30,039	14.1
31-40	32	2.5	17,979	8.5
41-50	23	1.8	19,797	9.3
51-75	30	2.4	28,384	13.3
76 and above	27	2.2	31,037	14.6
District Total	**1,255**	**100.0**	**212,670**	**100.0**

This table indicates the proportion of Scheduled Tribes population by ranges in the villages. Data reveals that 435 villages do not have Scheduled Tribes population. Majority of the villages have 'less than 5', '5-10' and '11-20' per cent of Scheduled Tribes in each village.

Table-18 indicates the urban population and percentage with regard to Scheduled Castes and Scheduled Tribes in the district. It can be seen from the table that the Scheduled Castes constitute 9.3 per cent of the total population whereas Scheduled Tribes constitute 3.0 per cent. Highest per cent of Scheduled Castes are found in Raybag (TP) 20.1 and highest per cent of Scheduled Tribes are reported from Gokak Falls (NAC) which is 33.1 per cent.

	District (Rural) Total	**976**	**980**

The table-19 present the data on sex ratio among Scheduled Castes and Scheduled Tribes in C.D.Blocks. The rural sex ratio among the Scheduled Castes and Scheduled Tribes favours men in the district. The ratio is favourable for Scheduled Castes women in Khanapur block and favourable for Scheduled Tribes women in Belgaum block. Except these two blocks, the reported sex ratio is favourable for men both among the Scheduled Castes and Scheduled Tribes.

	Sex ratio (Urban) for the district:	**993**	**975**

Table-20 reveals the average urban sex ratio of the Scheduled Castes and Scheduled Tribes in the towns of Belgaum district is 993 and 975 respectively. The ratio is favourble for men both among the Scheduled Castes and Scheduled Tribes. In 8 out of 22 towns, the ratio is above 1,000 indicating favourable ratio for women among the Scheduled Castes. Similarly, 7 out of 22 towns, the ratio is favourable for Scheduled Tribes women.

As per 2001 Census, Belgaum ranks sixteenth among the districts in literacy rates. The literates are more in urban than in rural areas. Male literates outnumber female literates in the district. Among the taluk, the highest (78.0 per cent) literates are reported from Belgaum. The literacy rate for both males and females are high in the same taluk. The gap in male/female literacy rate is reported to be high in Ramdurg taluk.

TABLE 22 : NUMBER AND PERCENTAGE OF LITERATES AND ILLITERATES BY SEX IN C. D. BLOCKS, 2001

	District (Rural) Total:	**1,594,472**	**983,207**	**611,265**	**1,607,342**	**647,549**	**959,793**	**58.9**	**71.5**	**45.8**	**25.7**

The percentage of literates by C.D.Blocks in the district accounts for 58.9 per cent, where male and female literacy rate accounts for 71.5 and 45.8 per cent respectively. Among the C.D.blocks the highest (65.6 per cent) is reported from Chikodi. Genderwise distribution also indicates the highest percentage of literates being reported in Chikodi taluk. The highest of 30.4 per cent gap in male/female literacy rate in Ramdurg and the lowest of 23.1 per cent in Raybag blocks are being observed in table-22.

TABLE 23 : DISTRIBUTION OF VILLAGES BY LITERACY RATE RANGE, 2001

Range of literacy rate for villages	Number of inhabited villages	Percentage distribution of villages	Population	Percentage distribution of population
1	2	3	4	5
0	1	0.1	2	0.0
1-10	-	0.0	-	0.0
11-20	3	0.2	1,760	0.1
21-30	24	1.9	31,841	1.0
31-40	89	7.1	151,539	4.7
41-50	203	16.2	436,250	13.6
51-60	422	33.6	1,107,524	34.6
61-70	383	30.5	1,072,213	33.5
71-80	119	9.5	379,785	11.9
81-90	11	0.9	20,900	0.7
91-99	-	0.0	-	0.0
100	-	0.0	-	0.0
District Total:	**1,255**	**100.0**	**3,201,814**	**100.0**
Literacy rate for District:		**64.2**		

In table 23 data revels that the average literacy rate for the district is 64.2 per cent. The rangewise rural literacy rate for the district indicates that the literacy rate for the majority of the villages ranges between 51-60 and 61-70. The number of villages reported under these ranges are 422 and 383 covering the population of 1,107,524 and 1,072,213 persons respectively. Besides these, 203 villages have the rate ranging between 41-50 and in 119 villages it is between 71-80.

Urban literacy rate by sex is presented in table-24. Data reveals that the urban literacy rate for the district is 80.7 per cent. The male literacy rate in urban area is 88.4 per cent and of the female is 72.5 per cent. The highest literacy rate is reported from Hindalgi (CT) and in the same town, the reported female literates are high. Highest number of male literates are in Belgaum (MC). The gap in male/female literacy rate is 15.9 per cent in urban areas and this gap is more in Konnur (TP) and Sadalgi (TP).

The sexwise distribution of number of Scheduled Castes literates and illiterates and their percentages are presented by C.D.Blocks in the table-25. The percentage of Scheduled Castes literates in the rural area constitute 51.6 per cent. Male and female form 65.9 and 37.1 per cent respectively. Among the C.D.Blocks, Belgaum and Chikodi has recorded highest percentage of literates. The male and female literates are also high in the same C.D.Blocks. The gap in male/female literacy rate is 31.9 per cent is noticed in Ramdurg C.D.Block.

TABLE 26 : DISTRIBUTION OF VILLAGES BY LITERACY RATE RANGE FOR SCHEDULED CASTES POPULATION, 2001

Range of literacy rate for villages	Number of inhabited villages	Percentage distribution of villages	Scheduled Castes Population	Percentage distribution of population
1	2	3	4	5
0	9	0.8	30	0.0
1-10	3	0.3	407	0.1
11-20	10	0.9	1,007	0.3
21-30	61	5.4	10,331	2.8
31-40	164	14.6	41,912	11.4
41-50	296	26.3	114,596	31.1

61-70	171	15.2	63,064	17.1
71-80	44	3.9	8,304	2.3
81-90	12	1.1	943	0.3
91-99	1	0.1	11	0.0
100	11	1.0	36	0.0
District Total:	**1,127**	**100.0**	**368,289**	**100.0**
Literacy rate for District (Rural):		**51.6**		

The average literacy rate of the Scheduled Castes in the rural district is 51.6 per cent. The rangewise rural literacy rate indicates that the literacy rate for the majority of the villages ranges between 41-50 and 51-60. The number of villages reported under these ranges are 296 and 345 covering the population of 114,596 and 127,648 persons respectively. Besides these, for 164 villages, the rate ranges between 31-40 and for another 171 villages the rate is between 61-70.

The table-31 provides sex-wise distribution of main workers, marginal workers and non-workers of the district for each taluk as per 2001 Census. Percentage of total workers in the district accounts for 44.6 per cent. Among the taluks workers percentage is high in Athni (51.4 per cent). In the same taluk, both male and female workers are reported to be high. The percentage of non-workers in the district is 55.4 per cent and this percentage is more in Belgaum taluk.

Data presented in table-32 is for C.D.blocks which includes only the rural population of the district. Data reveals that total workers including main and marginal workers constitute 48.1 per cent and non-workers constitute 51.9 per cent. Comparing with C.D.blocks in the district, percentage of total workers are more in Athni and non-workers are more in Raybag C.D.Block.

This table provides sex-wise distribution of workers by category for the urban areas of the district. The percentage of total workers in urban areas is 33.5 per cent. Male workers constitute 52.6 per cent and female constitute 13.4 per cent. The same trend is observed in all the towns of the district. The gap between male and female workers is larger in the district. Non-workers constitute 66.5 per cent. Female non-workers are more compared to males in all the towns.

TABLE 34 : DISTRIBUTION OF WORKERS BY SEX IN FOUR CATEGORIES OF ECONOMIC ACTIVITY IN TALUKS, 2001

Sl. No	Name of Taluk	Persons / Males / Females	Total Population	Total number of workers (Main + Marginal)	Category of workers

Note: Percent of Worker to total worker are given in brackets

The distribution of total workers by sex according to four fold industrial categories is highlighted in this table. As seen from the table, agricultural labourer and cultivators constitute 68.9 per cent of the total workers in the district. Majority of the workers in Belgaum district are involved in agricultural activity. The 'Other Workers' constitute 27.6 per cent and those who are involved in household industry is 3.5 per cent. At taluk level the percentage of cultivators and agricultural labourers are more in Raybag and Athni taluks whereas the other workers are found more in Belgaum taluk.

Note: Percent of Worker to total worker are given in brackets

The distribution of workers by economic activity is presented for the C.D.blocks of the district which includes only the rural portion. The same trend as seen in taluk-wise distribution is observed in this table also. If only rural areas are taken into consideration, the percentage of cultivators and agricultural labourers are little higher than as reflected in taluk wise distribution. The change noticed is the Other Workers category where the percentage is 16.5 per cent which is less in rural areas than if taluk-wise distribution is considered.

The sex-wise distribution of workers by economic activity is presented for the urban agglomeration/ towns in the district. Total number of workers including main and marginal constitute 33.5 per cent of the total urban population. The cultivators and agricultural labourers in the urban area constitute 16.0 per cent, household industry workers accounts for 6.0 per cent and other workers are 78.0 per cent. Among the towns, the percentage of total workers are more in Sadalgi (TP) where 55.8 per cent of the town population are workers. Of the total workers reported in this TP, 80.4 per cent are engaged in agricultural activity.

(ix) Brief analysis of the Village Directory and Town Directory data based on inset tables 37 to 47.

Note : - Percentages are given in brackets.

***** Based on the improved drinking water source, drinking water supply has been classified as 'Improved ' or otherwise. If the household has access to drinking water supplied from a tap or a hand pump / tube well situated within or outside the premises it is considered as having access to 'Improved drinking water source'. However, the concept of improved drinking water is state specific and this is to be considered accordingly.

Post office includes Post office, telegraph office and Post and telegraph office.

$ Transport communication includes bus service, rail facility and navigable waterways.

The above table highlights the number of village having different types of amenities. None of the villages in the district have all the amenities listed above. Education, improved drinking water and power supply are available to most of the villages. Next is the transport and communication and pucca road facility which is available to more than 1000 villages. Educational facility is available to all the villages in Athni, Raybag, Gokak and Belgaum C.D.blocks. As far as medical facility is concerned, only 59.0 per cent of the villages have access the health care services. At the C.D.block level, only 38.2 per cent fo villages in Gokak and 28.0 per cent of the villages in Khanapur are previlaged to have medical facility. Though all the villages in the district have one or the other source of drinking water, the improved drinking water sources can be taken into account only if the water is supplied through tap or a hand pump/tube well. Accordingly, 1239 villages in the district have improved drinking water facility. The transport and communication such as bus services, rail facility and navigable waterways are not available for 90.5 per cent of the villages and 89.7 per cent of the villages can be approached by pucca roads. Telephones and post office facility is available to 79.4 and 51.5 per cent of the villages respectively. The fact that only 14.9 per cent and 36.3 per cent of the villages have banks and agricultural credit societies, indicate that financial institution play a less significant role in the rural economy. Among the C.D.blocks, the villages in Raybag are best provided with more amenities.

TABLE 38 : NUMBER AND PERCENT OF RURAL POPULATION SERVED BY DIFFERENT AMENITIES, 2001

Note : - Percentages are given in brackets.

* Based on the improved drinking water source, drinking water supply has been classified as 'Improved ' or otherwise. If the household has access to drinking water supplied from a tap or a hand pump / tube well situated within or outside the premises it is considered as having access to 'Improved drinking water source'. However, the concept of improved drinking water is state specific and this is to be consideredaccordingly.

Post office includes Post office, telegraph office and Post and telegraph office.

$ Transport communication includes bus service, rail facility and navigable waterways.

Rural population that are served by different amenities in the villages have been presented in table-38. More than 90.0 per cent of rural population have education, improved drinking water, transport communication, power supply and pucca road facilities. Post office and telephone serve 77.8 per cent and 90.0 per cent respectively. Only 80.5 per cent have access to health care services. Banks serve 37.2 per cent of the population and agricultural credit societies cater to the needs of 61.0 per cent of the population. Among the C.D.blocks, the rural population in Raybag is better served than the people in other C.D.blocks.

TABLE 39 : DISTRIBUTION OF VILLAGES NOT HAVING CERTAIN AMENITIES, ARRANGED BY DISTANCE RANGES FROM THE PLACES WHERE THESE ARE AVAILABLE, 2001

Certain amenities are not available within the village. In such cases data on distrance ranges are given in table-39. Fifteen villages do not have a primary school facility. For 13 villages, this facility is available at a distance of less than 5 kms and for another two villages it is available at a distance of 5-10 kms and more than 10 kms each. There are 276 villages which does not have middle schools, but for the majority of the villages, the facility is available at a distance of less than 5 kms. For the remaining villages, middle schools are located at a distance of 5-10 kms and more than 10 kms. The student population from 63.3 per cent of the villages have to travel for more than 10 kms to pursue their degrees. For the remaining 455 villages, degree colleges are situated within the distance of less than 5 kms and 5-10 kms. As far as medical facility is concerned, maximum number of villages have been reflected in the table under three different ranges. Only one village in the district have hospital within the boundary and 121 villages have PHCs within its limits. For the rest of the villages the facility is scattered at a distance of less than 5 kms, 5-10 kms and more than 10 kms. Post office is less than 5 kms away for 455 villages. For 131 and 23 villages, the distance recorded is 5-10 kms and more than 10 kms respectively. With regard to facilities like telephone and bus service, less number of villages have been reported in the table which only implies that most of the villages have access to these facilities within their jurisdiction. It is a different scenario with banks and agricultural credit socieities exhibiting more number of villages not having the facility within the village. However, this facility is available at a distance of less than 5 kms, 5-10 kms and more than 10 kms.

TABLE 40 : DISTRIBUTION OF VILLAGES ACCORDING TO THE DISTANCE FROM THE NEAREST STATUTORY TOWN AND AVAILABILITY OF DIFFERENT AMENITIES, 2001

Distance range from the nearest statutory town (in kilometres)	Number of inhabited villages in each range	Type of amenity available

Post office includes Post office, Telegraph office and Post and telegraph office.

$ Transport communication includes bus service, rail facility and navigable waterways.

The villages have been arranged according to the distance in ranges from the nearest statutory town. It is observed in table-40 that except for 6 villages, the distance from the statutory town to the village does not exceed more than 50 kms. Two villages have been classified as 'Unspecified' as far as the distance is concerned. The distance from the nearest statutory town to the village has been correlated with the type of amenities available as per 2001 Census. Irrespective of the distance, villages do not have certain amenities.

TABLE 41: DISTRIBUTION OF VILLAGES ACCORDING TO POPULATION RANGE AND AMENITIES AVAILABLE, 2001

Post office includes Post office, Telegraph office and Post and telegraph office.

$ Transport communication includes bus service, rail facility and navigable waterways.

* Based on the improved drinking water source, drinking water supply has been classified as 'Improved' or otherwise. If the household has access to drinking water supplied from a tap or a hand pump / tube well situated within or outside the premises it is considered as having access to 'Improved drinking water source'. However, the concept of improved drinking water is state specific and this is to be considered accordingly.

The rural population has been arranged with reference to ranges and the different amenities available under each range is given in table-41. The population of the villages ranges between less than 500 and above 10,000. Villages having population 10,000 and above are provided with most of the amenities listed above. In this population range the percentage of villages having these facilities ranges between 84.4 per cen to 100 per cent. As far as Belgaum is concerned, as the population of the village increases, chances of having more amenities in the village also increases.

TABLE 42 : DISTRIBUTION OF VILLAGES ACCORDING TO LAND USE, 2001

Sl. No.	Name of C. D. block	Number of inhabited villages	Total area	Percentage of cultivable area to total area	Percentage of irrigated area to total cultivable area
1	2	3	4	5	6
1	Chikodi	131	122,184	83.9	35.5
2	Athni	108	198,747	91.8	37.4
3	Raybag	59	94,685	88.1	74.6
4	Gokak	131	147,336	78.2	40.9
5	Hukeri	123	94,284	69.3	24.9

TABLE 42 : DISTRIBUTION OF VILLAGES ACCORDING TO LAND USE, 2001

Sl. No.	Name of C. D. block	Number of inhabited villages	Total area	Percentage of cultivable area to total area	Percentage of irrigated area to total cultivable area
1	2	3	4	5	6
6	Belgaum	119	86,584	65.9	13.9
7	Khanapur	218	172,124	31.7	25.9
8	Sampgaon	131	110,031	76.9	18.0
9	Parasgad	121	149,669	79.7	30.0
10	Ramdurg	114	120,760	78.6	25.4
	District Total:	**1,255**	**1,296,404**	**74.0**	**34.1**

Note : - *Cultivable area = irrigated area + unirrigated area*

The land use data as per 2001 Census presented in table-42 takes into consideration only the cultivable area of the rural district. The cultivable area given in the table includes both irrigated and unirrigated areas. As such the total cultivable area of the rural portion comprises of 74.0 per cent of the total area. Among the C.D.blocks, the highest of 91.8 per cent of the area in Athni is put under cultivation. If the percentage of irrigated area to total cultivable area is considered, Raybag C.D.block reports a highest percentage of 74.6 per cent.

22	Saundatti-Yellamma (TMC)	16
	Distrct Total	**18**

The number of beds in medical institutions in towns is surmised as 18 per 10,000 population. This ratio is as low as 2 beds in Kudchi (TP) and Mudalgi (TMC), 3 beds in Konnur (TP) and Sadalgi (TP) respectively. Highest of 59 and 50 beds are reported from Belgaum Cantonment Board (CB) and Gokak Falls (NAC) respectively.

Different types of commodities are manufactured as well as exported from the district. Commodities like leather chappals & shoes, timber, iron-castings, machine parts and automobiles spare parts, steel furnitures, granites, etc., are some of the important goods. Agricultural products like sugarcane, paddy, potatoes, cotton, groundnut and other edible oil products are also produced and exported from the district. It seems that district is famous for its textile industry where some of the taluks have reported to be engaged in this activity. A details picture by talukwise can be seen from the above table.

Source: Census of India, 2001, H-Series: "Tables on Houses, Households amenities and Assets."

The distribution of households by tenure status and the number of dwelling rooms occupied by them is given above. The data presented above is for the Total, Scheduled Castes and Scheduled Tribes population of Belgaum district. It can be seen from the table that dwelling status of the population in the district is quite impressive to the extent that 96.5 per cent of the total households have one or more rooms for dwelling. Also those who own houses are considerably larger than other tenure status. Further, the median number of rooms of the households both in rural as well as urban areas is 2.

TABLE 49 : PERCENTAGE DISTRIBUTION OF HOUSEHOLDS LIVING IN PERMANENT, SEMI PERMANENT AND TEMPORARY HOUSES, 2001

The table gives the distribution of households by the type of Census houses occupied by them with reference to Belgaum district. The structure of Census houses occupied by the households for fully and partly residential purposes have been classified into permanent, semi-permanent and temporary. Households living in permanent structures in the district accounts for 53.6 per cent. In rural areas this percentage works out to 38.2 which is higher than the State figure. Urban households dwelling in permanent structures is 15.5 per cent. Among the taluks, majority of the rural households in Hukeri taluk dwells in permanent structures whereas this percentage is high in case of urban households in Belgaum taluk.

In table-50 the Percentage of households having improved drinking water source, electricity, bathroom, toilet and proper drainage facility will throw light on the living conditions of the people. Percentage of households having improved drinking water and electricity constitute 75.0 per cent and 77.6 per cent respectively. The other facilities are available to less than 50 per cent of the households. The rural-urban composition reveals that urban households have more accessibility to these facilities than rural households. The talukwise details can be seen in this table.

TABLE 50 : NUMBER AND PERCENTAGE OF HOUSEHOLDS HAVING IMPROVED DRINKING WATER SOURCE, ELECTRICITY, BATHROOM, TOILET AND DRAINAGE FACILITY, 2001

This table provides data on type of fuel used for cooking by the households. If the different types of fuel listed above, three types are put to use by the majority of the households. Firewood, LPG and crop residue are widely used by 62.4, 18.6 and 10.4 per cent of households respectively. As firewood become predominant type in rural areas, LPG is the foremost type in urban areas used by as high as 53.8 per cent of households. Next to LPG and firewood, 10.6 per cent of the urban households use kerosene for cooking purposes. Talukwise details can be seen from the table.

The data on banking services availed by the households and certain specified assets owned by them are given above. Little more than 50.0 per cent of the households avail banking services and the difference between rural and urban households availing these services are not large. Further with regard to assets, the percentage of households having bicycle is more in the district followed by households possessing radio/transistor. More or less equal percentage of rural and urban households possess both these assets. About 61.0 per cent of urban families have television at home, while it is 21.9 per cent in rural areas. The percentage of households owning other assets is negligible and the data reported are higher in case of urban households.

(xi) Archaeology

Endowed with rich historical and religious heritage, Belgaum district offers to the visitors fascinating river valleys, enchanting hill-ranges and deep rugged rocky valleys and some parts covered by evergreen forests. There are several ancient places in the district like Saundatti, Godchi, Sogal, Konnur, Raybag, Yadur, Shabarikolla etc. which have been referred to in several religious and traditional works. Some of the places are noted for their archeological remains like forts, wadas, temples, maths, bastis, mosques, churches and monuments of antiquity. Some other places are of sentimental value as they are associated with historical figures like kings, heroes, poets, saints or other noble personalities. No district in Karnataka may boast of so many forts as that of Belgaum, some of them picturesque surroundings. Effort has been made to cover places of importance from different viewpoints in this chapter.

(xii) Brief description on places of religious, historical or archaeological and tourist importance in villages and places of tourist interst in the towns of the district

Belgaum (Belgaum Taluk) : The Divisional as well as the district Headquarters and Velugrama of inscriptions is one of the oldest towns in the State, lying at a distance of 502 Km from Bangalore. The place is on NH4 and directly approachable from Bangalore by rail. It is an important railway station between Bangalore and Miraj. There is an airport at Sambra about 12 Kms. east of Belgaum. The earlier inscriptions and other sources mention it as Velugrama or Ikshugrama, the earliest mention of the latter being in the Nesargi Plates of 805 AD. It was called by name Azam Nagar and also Mustafabad during Muslim period. According to a local legend in about 225 BC one Jakkadeva who built a mud fort ruled it and it is even identified as the one, the remains of which are seen in the Vadgaon-Madhavpur area. The Satavahanas and Chalukyas administered the territory. The present name is derived from Venugrama or Velugrama (village of bamboos), which was later termed as Belgugrama, Belugrama, Beluguv and ultimately Belgavi or Belgaum.

The place has many interesting monuments of which those inside the Fort, originally Pre-Muslim, opposite the Circuit House are of importance. At the entrance there are two Shrines, one of Ganapati and another of Durga, and a Mahishamardini and four Matruka statues are also seen. There are two bastis in Later Chalukyan style, one of them Kamala Basti, built in 1204 A.D. by one Bichana or Bichiraja, a minister of Karnataka Virya IV of the Ratta dynasty. On the opposite side, to the right of Kamala basti is another ruined Jaina temple without garbhagriha and ardhamantapa. Besides these, there are several bastis in the town viz. Chikkabasti of Parshwanatha in Matha galli, Doddabasti of Neminatha in Basavana Galli, Chandraprabha Basti (Kore Galli, Shahapur, etc. In the present Parade Ground (Fort) a little away from the Safa Masjid is a temple (mostly Shaiv i.e. Ishwaradeva of inscription) now with only a navaranga. The town proper has temple like Kapileshwara, Ananthshayan, Maruti (Maruti Galli), Shiva, Vithoba, Dyammava, Military Mahadev etc. The city has more than 25 to 30 mosques, of them a mention may be made of Safa Masjid and Jami Masjid (both in the fort), Jumma Masjid (Adilshahi times) in Darbargalli. Belgaum has impressive churches built during the British rule or in the earlier period. St. Mary's Church in the camp area was built in 1869. Other important churches are, St. Mary's of Mount Carmel near camp (1823 A.D.), St. Anthony's in the Sadar Bazar and the Methodist (Protestant) Church, opposite District Court compound. Other churches of the town are Anglican Church of North India (Camp), Seventh Day Adventist Church and churches in the Azam Nagar and Vadgaon area.

Kakati (Belgaum Taluk) : 10 Km from Belgaum situated on the Poona-Bangalore Highway is the birthplace of Rani Chennamma of Kittur. The place is mentioned as 'Kakatiyabada' in the record (1250 AD) from Mamadapur (Gokak taluk) of Yadava Kanharadeva. There is a view that Warangal Kakatiyas hailed from this place. The place has an old Wada, Chennamma's parental residence of the Kakati Desais. The place has temples dedicated to Sidheshwara, Kalmeshwara, Lakshmi and Maruti. Off the highway there is a hill fort with a watchtower at an elevated place.

Panth Balekundri (Belgaum Taluk) : 17 Kms from Belgaum. It is a celebrated pilgrim centre in the district. The place has a Dattatreya temple built in 1905 A.D. of the Avadhootas Sampradaya. The Panth Maharaj has installed Dattapadukas. Behind this is a stone platform and it is described that the Panth Maharaj (born at Daddi, Hukeri taluk in 1855 A.D.) was cremated here. Now it is centred by an Audumbara tree. Panth Maharaj was a disciple of a Veerashaiva Saint Chennabasavappa whose gadduge is also there behind the temple. Rameshwar temple is in the premises of the Matha. The place has a mosque (recent).

Rakaskop (Belgaum Taluk) : 16 Kms from Belgaum): Literally means a hamlet of rakkasa (giant), who is stated to have lived on a hillock near the village and a cavern in laterite on the hillock resembling a huge seated human figure is shown by the people to remind his past existence. Here is a dam, across the Markhandeya, supplying drinking water to Belgaum. The reservoir is visible from this hillock mentioned above, which can be reached by climbing steps after crossing a park behind the reservoir. There is a rest house near the steps. The hillock has flat maidan top and a recently built Shiva shrine. From this hillock a panoramic view of the reservoir and view of the surrounding villages can be had.

Hirebagewadi (Belgaum Taluk) : 19 Kms from Belgaum has temples dedicated to Prabhudevaru, Veerabhadra (old), Belli-Basavanna and Gramadevate. The Prabhudevaragudi is described as built in memory of Allama Prabhu's visit to the place. The place has two mosques and a dargah ascribed to Sharif Sayyed Mohammed Gouse Khadri (hailed from Arkad); and the urus is held after fifteen days of jatra of Belli-Basavanna (during Yugadi). The peer is described as disciple of Hazarath Shah Khadri. The followers of the peer are drawn from different parts of the country from places like Konkan, Maharashtra etc.

Asoga (Khanapur Taluk) : 5 Kms from Khanapur located in the left bank of the Malaprabha river is a fine picnic spot with picturesque surroundings. The place name is mentioned as 'Asoke' in an inscription on a hero stone, which is in 12th century characters found near the Ramalinga at the same place. The Asoge plates of Kadamba Jayakeshi 1113 AD record a grant by the king of the village Kupattoggarika (modern Kuppatageri) to one Shivasakti, for the worship of God Galageshwara and other charities. Asoga has a Ramalinga temple. Beside the temple was another Shiva shrine, now in ruins. There are many hero stone and Mahasati stones of which a few have inscriptions on them. Remains of the earlier structure are strewn all over the place. The place is noted for floriculture.

Bhimgad (Khanapur Taluk) : A hill fort at a distance of about 24 Km. from Khanapur is on the Hemmadage-Telwade road and 10 Km from Talawade. It is built on a detached spur of the Sahyadri and has steep sides and a flat top, which is reached by rock-cut steps. Ascribed to Shivaji, the fort is about 1390 ft. from north to south and 825 ft. broad from east to west. The fort has one gateway and the walls are in bad shape. The water supply is from a spring.

Bidi (Khanapur Taluk) : 19 Km from Khanapur a Hobli centre now, was earlier a taluk headquarters till 1868-69, when it was shifted to Khanapur. It is a place of considerable antiquity and it was a part of the site of an ancient capital Krusanpagadi (Golihalli) in inscriptions under the Gove Kadambas, Bidi with Sampgaon was held by the Desai of Kittur. In 1829, Sangolli Rayanna revolting against the British, burnt the Mamlatdar's office at Bidi. The place has temples dedicated to Veerabhadra, Bharmadeva, Bhavakeshwari, Kotilingeshwara, Maruti, Vithoba, Lakshmi etc. The place has also a Jamia Mosque built in 1938 and a dargah ascribed to Peer Loatenshah Baba.

Halashi (Khanapur Taluk) : 14 Km. Southwest of Khanapur called Palasika, Palashi and Halasinge in inscriptions, is a place with rich antiquity. The name appears to have been derived from PALASHA in Sanskrit (Butea frondosa, Koen, Muttuga in Kannada). It was the secondary capital of the early Kadambas and a minor capital under the Goa Kadambas who ruled between 980-1250 AD. It is one of the oldest towns in the district with many monuments. It was the headquarters of a very big province called in inscriptions as Halasige-1200, constituting parts of present Dharwad and Belgaum districts. The place has temples dedicated to Bhuvaraha Narasimha, Kapileshwara, Suvarneshwara, Kalmeshwara, Hatakeshwara (Gramadevata), Gokarneshwara and a Jaina basti. The Bhuvaraha Narasimha temple is a huge complex built in the later Chalukyan style, with two garbhagriha facing each other. Most of the temples are built in the later Chalukyan style. Besides this, there is Ramateertha (four Km from Halashi) located atop a small hillock is a picnic place.

Handibadagnatha (Khanapur Taluk) : 24 Km from Khanapur, a celebrated Nathapanthi centre is situated atop a huge hill which is more than about 650 meters high. The Matha, founded by the Nathapanthi about 900 years ago at this place is called Handibadaganatha Matha. There is a wooden structure with a profusely carved doorway said to have been renovated by Rani Chennamma of Kittur. The garbhagriha has the statue of Handibadaganatha, seated on a horse, resembling Revantha. It is stated that Parashurama installed the statue. There is an earthen pot with a lid, placed over a heap of clay and the belief is that water in this pot never dries up and is said it has been there from 600 years ago. Sangolli Rayanna, while on revolt had taken shelter at this secluded place in hilly forests. The Matha houses one or two Nathapanthi swamis from Uttar Pradesh. Viewing from the top of this hillock one can witness the enchanting evergreen hill ranges and the natural landscape.

Jamboti (Khanapur Taluk) : 17 Kms from Khanapur is a fine picnic spot situated atop an, evergreen hilly forest surroundings. The traditional belief is that it was the birthplace of Jambavati the daughter of Jambuvanta. Bears were once abundant in the forests surrounding the place. The place has a forest IB in enchanting surroundings, the new peth and the old village where the Desai's wada is seen. The place has a Rama Mandira. The place also has a Roman Catholic Church and mosque (both recent). Jamboti is a midway to reach Kankumbi, Chorla and the Vajrapoha Falls.

Nandagad (Khanapur Taluk) : 10 Km from Khanapur on the Khanapur Haliyal road is a place created by Kittur Mallasaraj and was initially called Pratapgad and later Anandgad. It grew to be commercial centre under him. It has temples dedicated to Narayana, Durga, Maruti, Vithala and Dyamavva and also one Virkta Matha, Sangolli Rayanna's memorial and one Jaina basti. Not far from the town is a ruined fort called Pratapgad which was built by Kittur Mallasarja in 1809 A.D. to commemorate the grant received by him of the title of Prataprao by the Peshwa. Inside the fort is a Durgadevi temple. In 1830 A.D. Sangolli Rayanna was condemned to be hanged at Nandgad. As he passed along the road to the gallows he pointed out a spot for his burial, stating that a great tree would spring from his mortal remains. He was buried in that same spot and a huge banyan tree very close to the road is shown as the one which grew from Rayanna's grave. Under the shade of this tree is a small temple of Radha-Krishna. The place has a Catholic church and a mosque.

Galihalli (Khanapur Taluk) : Near the Kalmeshwar temple of this village there is an inscription stone which records a grant made by a Kadamba who was an under lord of the Western Chalukya King Someshvara III (1128-1139 AD). There is another inscription stone in front of the small temple of Basava. This inscription is dated in the 14th, 17th and 26th years of the region of Permadi, a chief belonging to the Goa branch of the Kadambas, who is described as governing the Konkana, Halasi and Belgaum regions. The emblem engraved on this stone slab depicts the following objects; in the centre there is a shrine with linga in its case and a worshipper; to the left there is the figure of basava with the sun above it and, to the right there are the figures of a cow and a calf underneath those of a crooked knife and a moon. The village is noted for its Ramalinga temple also.

Kakkeri (Khanapur Taluk) : The linga enshrined in the local Kakkayya temple is believed to be the one that was installed by the great reformer Basaveshwar. Kakkayya, a man of very humble origins, became an ardent follower of Basaveshwara and has came to be regarded as Sharan, i.e. saint.

Hukeri (Hukeri Taluk) : 48 Kms from Belgaum is a place of considerable antiquity. Archaeological studies indicate that the place name Hukeri is supposed to have been derived from 'Huvinakeri' (street of flowers). During Adilshahi times good quality roses grown here were taken to Bijapur. The recorded history begins from the 14th century, but in and around Hukeri there are evidences to prove the existence of the place even earlier and influence of Jainism and Shaivism. Yusuf Adil Shah who administered it through one Ain-ul-mulk Gilani (1502 A.D.). During his rule (lasted for 40 years) he built the Hukeri Fort and the largest of the Hukeri tombs. He was succeeded by his brother Fateh-Mulk (1547-1568 A.D.) in whose time a third tomb to the east was built. The historical monuments of Hukeri are interesting to note. The place has Mathas like Shivamoggi Math, Kundargi Math, Gadduge Math, Niluvagi Math etc. There are old temples which are of later Chalukyan style.

Nidasoshi (Hukeri Taluk) : 10 Kms from Hukeri has a Veerashaiva Matha called Shri Sidda Samsthana Math. This matha is connected with the Arabhavi Matha. The premises of the Matha has an Ishwara temple which is a huge building renovated in the 18th century. Many Chalukyan pillars are used in the main structure. The Matha has the gadduge ascribed to Chinmayaroopi Durundeshwara. The ornamental gold crown in the matha has well engraved floral designs. The matha has a beautiful silver palanquin, with profuse artistic designs, formerly owned by the Chief of the Jamkhandi state.

Pachapur (Hukeri Taluk) : 29 Km. from Hukeri it has a railway station and the tall watch tower on its hills-fort of the Adilshahi time and which is visible from quite a long distance. A Bijapur officer called

Pacha built it. The place has a Mallikarjuna temple in later Chalukyan style, fully renovated. The Parshwanatha basti of the place has its deity installed in 1678 AD as per an inscription on its pedestal. The place had been the taluk headquarters under the British prior to its shifting to Belgaum, and was an active centre of freedom movement right from 1905 A.D. and Annu Guruji belongs to this place. The Hidkal Dam (Hukeri taluk) across the Ghataprabha built at Hunnur-Hidkal village close to this place is 53.44 metres tall with 51 Thousand Million Cubic Feet capacity.

Sankeshwar town (Hukeri Taluk) : 12 Kms from Hukeri situated on the bank of the Hiranyakeshi on the Bangalore-Pune Highway is a commercial centre known for its trade in chillies and place of considerable antiquity. There are two Ratta inscriptions at the place 1199 A.D. and 1202 A.D. of Kartaveerya IV and Mallikarjuna. The place has temples dedicated to Shankaralinga, Narayana, Lakshmi, Maruti, Vithoba, Banashankari, Beerappa, Basavanna and Dattatraya. The Shankaralinga temple on the bank of the Hiranyakesh is a complex structure with garbhagriha (star shaped), an aradhanamantapa, a navaranga and mukhamantapa. It is an ancient structure famous in the locality. The Shankara Matha here was founded by the Vidyashankara Bharati Swamy (Devagosavi) in 1578 A.D. The place has the Parshwanath basti, Jummai Mosque (old) and a dargah ascribed to Mahboob Subhani (Chilla). There is also a recently built Protestant church. There is a nearby village called Hargapur which is 3 km away. Away from this place, located beneath a huge flat hillock is recently built temples of Siddheshwara, Hanumanta and Murugamma. Atop the hillock is a flat land area well fortified by a laterite fort also called Vallabhagad, ascribed to Shivaji. Within the premises of the fort there are dwelling houses. A huge and very deep well atop is provided by underground steps to reach water. Inside the fort are tiled shrines of Mallaiah and Maruti. To the south-west of this hill is another flat topped laterite hill with no greenery.

Hidkal (Hukeri Taluk) : The dam being constructed across the Ghataprabha river, called the Hidkal Dam is located near this village.

Hunnur (Hukeri Taluk) : On a nearby hill there is an old isolated fort, which it is believed, was built in about 1550 AD by the Raja of Kolhapur. The sides of this fort consist partly of rocks and are partly built with stones and mud. This was one of the ten forts of Belgaum district held by Shivaji at the time of his death in 1680 A.D.

Haragapur (Hukeri Taluk) : The village has the ruins of a fort called Vallabhgarh, which is circular in shape and stands on a hill about 90 metres high. This fort formed part of the possessions of Shivaji. In 1786 A.D., the Chief of Nesargi rebelled against his overlord the King of Kolhapur and seized Vallabhgarh. He was however subdued by the king in 1787 A.D..

Kothali (Chikodi Taluk) : 10 Kms from Chikodi has a recently established Jaina centre atop a small hillock locally called Shantigiri. The hillock is approachable through a deviation from the main road (two km). The entrance of this huge open air complex has a beautiful gateway. There are the three standing statues of Chandraprabha (5 metres tall), Shantinatha (seven metres) and Mahavira (six metres) all in white marble installed on an elevated platform at the centre, surrounded by a flower garden. Around this are open sheds (also called Kamalamandira) built in U shape which house the seated marble images of all the 24 Thirthankaras. The Ashrama was founded by Acharayaratha 108 Shri Deshbhushana Muni Maharaj in 1967 and it is named after him. The Shantigiri Ashrama also runs a residential high school on the traditional gurukula in the village below, managed by a separate trust.

Nipani town (Chikodi Taluk) : 24 kms from Chikodi, located on the Pune-Bangalore Highway is a town of recent growth, very near to the Maharashtra border. The place has temples dedicated to Mahadeva, Venkatesha (about 175 years old), Rama Mandir, Vithoba, Maruti, Datta (at Sakharwadi) Akkamahadevi and Ambabai. There are Jain bastis dedicated to Adinatha (new), Rishabhadeva (Swetambara) and Chandraprabha (Swetambara). The place has six mosques viz. Dargah Masjid (oldest), Jumma Masjid (largest) in the Bazar area, Bhagwan Masjid, Mecca Masjid (Mahant galli) Madeena mosque (Shuivaji nagar) and Shah-e-Diwan mosque in Diwan galli. The place also has big darga (chilla) ascribed to Mehboob Subhani Baghadadi (Dastagir). The place also has a Protestant Church and a roman

Catholic Church. The Jawaharlal Nehru water works (2 km from Nipani) now managed by City Municipal Council was inaugurated in 1961 and it is a fine picnic spot. The place is a leading tobacco growing and marketing centre in the state. There is a Tobacco Research Centre.

Tavadi (Chikodi Taluk) : Five kms from Nipani, Tavandi or Stavanidhi as variedly called is a celebrated Jaina centre, addressed by Jains as 'Sri Atishayakshetra'. The place can be reached after a deviation to the right from Sankeshwar-Nipani highway road. The place has the famous Brahmadeva temple complex in later Chalukyan style with five small shrines in a row. The Parshwanath image (enshrined separately) is a fine standing statue in imitation of Later Chalukya style. An inscription on its pedestal is 1400 AD states that the image was carved by one Jinnoja and installed by one Lakshmisena Bhattarka and the basti was constructed by Laliyadevi, the great grandmother of Senarasa. The Adinatha image installed in a separate shrine is about one metre tall. The temple complex have fine shikharas all in Kadambanagara style but renovated.

Yadur (Chikodi Taluk) : is a place on the northern banks of the Krishna, 19 kms from Chikodi, to be reached from Manjari or Examba. It is called so as it is on the left, edaduru, or perhaps yedeyuru place of dasoha. It is a famous pilgrim centre, having the Veerabhadra temple and this deity is the Kuladevata of Lingayats and Brahmins. This Veerabhadra-Virupaksha Linga, originally housed in a trikutachala stone of the Seuna (Yadava) times, now empty, found in the south-west corner of the compound of the prakara of the present temple, is housed in a new structure, about 300 years old. Yadur is described as the spot where Daksha had performed sacrifice. The Kadadevara Matha of the place is of the Rambhapuri line. There is a Panchalinga temple in front of this matha at Yadur.

Kabbur (Chikodi Taluk) : The village has an ancient and dilapidated Ishwara temple. A mention may be made of an undeciphered inscription stone and two tombs supposed to belong to the Moghal period.

Bhoj (Chikodi Taluk) : This village has yielded a copper plate grant of Kartaveerya IV and Mallikarjun - the brothers belonging to the family of the Rattas of Saundatti - who were joint rulers of the region between 1200 and 1218 AD.

Khilegaon (Athni Taluk) : 38 Km from Athni situated on the border of the Maharashtra is a place of pilgrimage. The place has temples dedicated to Basavanna, Hanumanta, Motu Basaveshwara and Sangamanatha. The Basavanna temple is a huge complex with a garbhagriha (modern) having a Nandi and also statues of Neelamma and Akkanagamma. This temple is believed to have been built by Bijapur rulers, renovated recently. Surrounding the temple inside the wide prakara are small shrines of Karaveerappa, Akkamahadevi, Huchappa, Dhavalappa, Hanumantha, Kadasiddeshwara (linga) and Bharamappa. There is a huge kalyana mantapa also.

Ramtirtha (Athni Taluk) : 33 Km from Athni is located in a rocky valley and the place name is traditionally ascribed to a tirtha (tank) in the precincts of a temple called Rameshwara, believed to have been spotted by Shri Rama. The huge Rameshwara temple complex here has a fine later Chalukyan monument. There are two inscription slabs outside the entrance of the navaranga. One of them date back to 1167 AD speaks of a grant of land from Sindevura to Rameshwara in the days of Bijjala. Around the garbhagriha inside the prakara are small shrines of Naga and Rati-Manmatha, Kartikeya, Narasimha and Maruti. The place and its surroundings are in a pleasant environment and a shallow stream has to be crossed to reach the place.

Saptasagar (Athni Taluk) : 16 Km from Athni is a pre-historic site with ashmounds, and is described as the site where Janamejaya of Saptarshis had performed yagya. It is on the banks of the Krishna, and in the river bed, on the rocks, hundreds of Lingas have been engraved. The Krishna flows northwards here, and at a distance of two km the Agrani joins the Krishna. The place has a basti, a Shiva temple called as the Kashi Linga, the Hanuman temple, a Lakkavva shrine and a mosque. This is a wonderful, cool picnic spot and has a Vithoba temple on its verge with facilities for casual visitors.

Satti (Athni Taluk) : 16 Km from Athni located on the left bank of the Krishna is a place with rich antiquity. The people named it as Sattatti in a record of 1183 A.D. The place is a pre-historic site and a

painting of sharp pointed Spoon Bill on a pottery piece found here has been identified as belonging to 2000 to 1000 BC. The place has temples dedicated to Kalmeshwara, Mallikarjuna, a trikutachala, Maruti and Veerabhadra, mostly built in later Chalukya style. Many antiquities are strewn all over the area. The place has a Jamia Mosque with a central dome and four minars appear to be of Adil Shahi times. A copper plate from Muragudi, Athni taluk speaks of a grant to the narasimha temple dated 1183 by one Soma Chamupati, Chalukya commander and also to the 200 brahmins of the agrahara of Sattatti.

Savadi (Athni Taluk) : 28 Km from Athni is the ancient town Suvarnawada, mentioned in an inscription at Ramateertha (Athni taluk). The village is full of antiquities of later Chalukyan buildings all over. The Gopalkrishna temple here on the banks of the Krishna is a beautiful trikutachala of later Chalukyan times with image of Gopalkrishna playing flute in the central shrine and the two other garbhagrihas to the right and left housing Lingas. The place has also a basti of later Chalukyan style and the garbhagriha has a standing image of Adinatha. The place has a Virakta Math and a dargah of Imam Jaffar. There is also a stone mosque of considerable antiquity.

Kokatnur (Athni Taluk) : This village is located at a distance of 8 km from Athni with a bowl shaped area has a rich antiquity. The place has temples like Papanasi Siddarameshwara, Kadashiddeshwara, Amritalingeshwara, Veerabhadra, Mallkarjuna, Appayyaswami, Durgavva, Beerappa etc. The Papanasi temple (also locally called Kalmeshwara) is built on the bank of the Papanasi nala and appears to be the earliest structure. There are inscriptions lying dated 1235 A.D., 1306 A.D. regarding grants made for the benefit of the temples. Yellammawadi is 2 km away from this place, where Yellamma shrine is located and Jatra is held.

Kagwad (Athni Taluk) : The village is noted for its temples dedicated to Brahmanath and Satvai. Brahmanath is locally called Kaggadaraya and the village is said to have derived its name from this local name of the diety. The idol of this god is found installed in an underground cellar and close to the idol there is an inscribed stone slab. Satwai is the goddess who is popularly regarded as the guardian diety of the infants. She is worshipped by women, a week after they undergo the travails of child birth. An annual fair held in honour of this goddess attracts a large gathering.

Shedbal (Athni Taluk) : The village has an ancient temple of Basava which enshrines an idol of Basava flanked by two other idols all in a row and a linga. A lamp pillar of stone set up in front of the shrine is said to have been placed in such a manner that when these lamps are lit the light falls on the linga and the idol of Basava but not on the two other idols. The annual fair held in honour of Basava every February-March is an important event in the neighbourhood.

Ainapur (Athni Taluk) : The village is noted for its tomb-shrine of Peer Kaji, a Muslim saint held in high esteem by the Muslims of the region.

Jugal (Athni Taluk) : The village has the tomb-shrine of Masabati, a Muslim saint, in whose honour an annual fair is held.

Chinchali (Raybag Taluk) : 8 Kms from Raybag is a celebrated pilgrim centre with considerable antiquity and is located on the bank of the Krishna. This is a pilgrim centre of Mayakkadevi visited by hundreds daily and village proper has a very big temple dedicated to the Goddess. This temple of later Chalukyan times is fully renovated in Maratha style. The place name is mentioned as Chinchali in a Ratta record of 1201 A.D. at Raybag. A kalyani in the town is surrounded by small shrines of Mahadeva, Dattatreya and Venkoba or Venkatesh. The town has recently built Mahaveer basti and another small temple of Mahadeva. The annual jatra of Mayakka takes place during Magha Poornima for seven days, when about 1,00,000 people assemble, including many from Maharashtra. A big cattle fair is also held. Noted national worker R.S. Hukerikar was born here.

Kudachi (Raybag Taluk) : 20 Km from Raybag located on the right bank of the river Krishna is a celebrated pilgrim centre due to its dargahs. The place is described as the birth place of All-ud-din, the founder of the Bahmani dynasty. The place has four prominent dargahs on the bank of the Krishna. One is ascribed to a lady Hazarath Masaheba Ashrafe Dojahan who came from Arabia or Baghdad about

800 years ago. Next to it is the dargah ascribed to Makhdum Shah wali. Next to this is another dargah ascribed to Khutub-ul-Khaitab Bazarat Bundagi Makhdum Sahikh Shiraz-Ud-Din Baghdadi, who was the teacher of Makhudum Shah Wali. He is said to have received a land grant of 18,000 acres at Kudachi by Alla-ud-din I of the Bahmani dynasty. One more dargah is ascribed to Mukhdum Farmir Saheb Junaidi who was a contemporary of Alla-ud-din I. It is described as built by Bahman Shah.

Mugalkhod (Raybag Taluk) : 21 kms from Raybag is mentioned as 'Mugulikodu' in the spurious Bhoj plates literally meaning hill (kodu) of mugali tree (Mimsuops elengi, Linn). Place has an unpublished (Kannada) inscription near the Basavanna temple, now preserved in the police station. The place has fortifications and is described as a pre-historic site. The place has temples dedicated to Hanumanta, Basavanna, Chennabasavanna, Beeradevaru, Taladappa and the Adivappana Matha. The matha of Yellinga Maharaja who was a disciple of Siddappa Maharaj of Lachana is a huge complex with many interesting stucco sculptures. The matha has occupied an area of nearly 23 acres and has two gadduges. Annual jatra is held on Sri Ramanavami day.

Bail Hongal Town (Bail Hongal Taluk) : 43 kms from Belgaum is one of the oldest towns in the district with a hoary past. Bailhongal is the headquarters of the Sampgaon taluk. The place has temples dedicated to Mardi Basaveshwara, Hanumanta, Veerabhadreshwara, Ramalingeshwara etc. The Ramalingeshwara temple or Karigudi is a later Chalukyan monument. There is another temple on a small hillock near the town dedicated to Basavanna locally called Maradi Basavanna and said to have been founded by Chennabasanna on his way to Ulavi. This region is closely associated with the history of Kittur state. It was in Bailhongal fort that Rani Channamma of Kittur was kept under detention from 1824 A.D. till her death in 1829 A.D.. The local Kalmatha (now in ruins) has the tomb of Channamma, on which a small seated statue is installed. It has a park around. The place has a Catholic Church (more than 100 years old). During the Quit India movement, there was firing at Bailhongal, killing seven freedom fighters on 17.8.1942.

Belawadi (Sampgaon Taluk) : 13 Km from Bailhongal, once the centre of Desagati under Bijapur has pre-historic remains outside the town at a place called Dundappana Gudi. This temple itself indicates early Chalukyan origin, now renovated, and is a Shivalaya. The notable monument in the town is a temple of Veerabhadra, a later Chalukyan monument renovated in Vijayanagar times. The place has several famous Mathas like Virakta Matha, Hosa Matha, Kanjeda Matha, Bhadravvana Matha, Atithayyanavara Matha, Kottayyanavara Matha and Duradhundeshwara (branch) Matha. On the wall of the remaining of the fort is Mallikarjun shrine with later Chalukyan antiquities. The palace of the Belavadi Desagati now houses a high school. Belawadi is ever remembered with Mallamma, the wife of Ishaprabhu Desai who was ruling it. He was killed in an encounter with the Marathas. When the Marathas tried to storm his fort was protected by Mallavva, the wife of Ishaprabhu and she was a princess of Sonda, being the cousin of Madhulinga Nayaka (1639-65 A.D.). It took them 23 days to storm it. Shivaji suffered more disgrace than ever in conquering the fort. Malavva was brought as a captive before Shivaji, but Shivaji honoured her and released her.

Degaon (Sampgaon Taluk) : 24 Kms from Bailhongal and five kms from Kittur is a place of rich antiquity. The striking monument here is the magnificent Kamala Narayan temple which has three separate garbhagrihas, aradhanamantapas and navarangas in a row and a common long mukha-mantapa. This temple was constructed in 1174 AD., Kamaladevi, the wife of the Hangal Kadamba princess. The place also has a branch of the Shivananda Matha of Gadag and recently built Jaina Mahavirbasti.

Kittur (Sampgaon Taluk) : 26 Km from Bailhongal the former capital of a minor principality is a place with considerable antiquity. The Desais of Kittur held it and Rani Chennamma, an illustrious woman warrior of Karnataka revolted against the British in 1824 A.D. The Chief interest of the Kittur is its fort, now in ruins. Kittur state reached its zenith during the Mallasarja Desai. The place has a Nathapanthi Matha in police line area and temples of Maruti (in fort), Kalmeshwar (old renovated), Dyamavva and Basavanna. The place has Kalmatha,

Chauki Matha and Hirematha of the Veerashaivas. Noted Veerashaiva saint Garagada Madivallappa and Madhwa scholar Huchacharya belonged to this place. The Archaeological Museum at the place is managed by the State Department of Archaeology and Museums. It has a rich collection of antiquities found in and around Kittur, which include a few of the weapons, swords, mail coat, shield etc. The tourists visiting Kittur can see the Kittur Chennamma Residential School.

M.K. Hubli (Mugutkhan Hubli) (Sampgaon Taluk) : 26 Km from Bailhongal is a place on the Pune-Bangalore highway. The place is named after Bijapur Officer Mugutkhan who died here. The place has temples dedicated to Ashwathanarasimha, Ishwara, Vithoba, Kalmeshwar and Gramadevate. The Ashwathanarasimha temple on the bank of the Malaprabha is a Vijayanagar structure though renovated. Beside, it is a small Ashwatha Katte called Achutanaraya Katte, named after the Vijayanagar King, who is said to have also built a Dharmashala here. The area is believed to the site of Sage Chavana's yagya and had a grove of peepal tree here. Ishwar temple in the town appears to be old but renovated. Nearby, in the river bed is a small shrine of Gangavva built in stone. It is said that this temple, built in the memory of Gangambike, the wife of Basaveshwara, who sacrificed her life, after Kalyan Kranti. There is also a mosque and dargah ascribed to Mugut Shah Wali. The place has a sugar factory.

Wakkund (Sampgaon Taluk) : The main object of interest here is the Trikuteshwara temple which is in the Hoysala style of architecture.

Kadrolli (Sampgaon Taluk) : The Shankarlinga temple here, which is said to belong to the 10th century A.D., is situated on the bank of the Malaprabha river. This temple is built of large black stones. The temple consists of three shrines and an ante-chamber which are however in a ruined condition now. An inscription stone found in this temple precincts is said to have been shifted to the verandah of a modern temple nearby. The inscription is in old Kannada characters. Though the language is Sanskrit, the idiom and inflexions are of old Kannada. It records a grant made during the reign of Western Chalukya King Someshwar II (1068-1075 AD).

Sampgaon (Sampgaon Taluk) : The earliest mention of this place in historical chronicles is in 1683 A.D., when Aurangajeb's son prince Muzzam besieged the fort of Sampgaon and took it. The ancestor of the Kittur Desai family who came to Belgaum with the Bijapur army during the 17th century and settled here. During the revolt of 1829 A.D. led by Sangalli Rayanna the rebels burnt the Mamlatdar's office at this place and destroyed the records. Once in every 12 years a largely attended fair is held in honour of the local deities Basava and Dyamavva.

Mannikeri (Sampgaon Taluk) : The village has an ancient Jaina temple enshrining Brahmadeva. An inscription found on a stone tablet dated 1208 A.D., belongs to the reign of the 16th Ratta Chief Laxmideva I and speaks of him as a descendant of the Rashtrakuta King Krishna II (875-901 A.D.). This is the first inscription which mentions that the capital of the Rattas was moved from Saundatti to Belgaum.

Nesargi (Sampgaon Taluk) : The ancient temple of Basava here is in a ruined condition. It contains an inscription dated 1210 A.D., and belonging to the Ratta Chief Kartavirya IV. This inscription records the building of three Shiva temples by Bacheyanayaka and also mentions of various grants of lands, titles and duties made over for the maintenance of these temples.

Godachi (Ramdurg Taluk) : 14 Km from Ramdurg a celebrated pilgrim centre with temples like Veerabhadra, Kalamma and Maruti. The Veerabhadra temple in Vijayanagar style has a garbhagriha and a spacious mukhamantapa. People from far away places of Karnataka and Maharashtra and other cities, visit this place daily and especially on Amavasya or Poornima days. The temple has choultries all around. The copper plates of Chalukya Kirtivarman I were found here. According to a legend, Shivasharanas on way to Ulavi fought a battle here. The annual jatra is held in honour of Veerabhadra in the month of December when more than 50,000 people assemble.

Sureban (Ramdurg Taluk) : 13 Kms from Ramdurg, is a place of commercial and historical importance closely associated with Nargund Revolt of 1858 A.D. and is called Manihal-Sureban. It is in this place where C.J. Menson, the then political agent

of the Southern Maratha country was assassinated by Baba Saheb of Nargund on 29th May, 1958 A.D. when Menson was camping here in Maruti temple. In his honour, a cenotaph was erected by the British here. The place is noted for its weaving of sarees named after it in addition to being a khadi production centre and Gandhi Ashrama. A noted highly revered exponent of Advaitha philosophy Sri Shivananda Swamy of Gadag and his son Sri Atmanandaswami hail from this place. The place has temples of Chowdeshwari, Vithoba and Shivanand Ashrama.

Torgal (Ramdurg Taluk) : 10 Kms from Ramdurg which falls in the Khan Junipet revenue village on the bank of the river Malaprabha has been called as Torragale in inscriptions (presently known as Hole Torgal) and was the headquarters of Toragalenadu a 6,000 province under the Seunas, and Vijayanagar also continued this place to be headquarters of a province. Of the two Persian inscriptions of the place, found in the walls of the fort, one is of the days of Ibrahim I dated 1535 AD speaking of the construction of the fort by one Ismai, son of Abdul Azeez. Another with a few Kannada lines at the bottom is of Ibrahim II of 1583 AD speaks of the construction of another part of fort. Later, the place came under the Kolhapur branch of marathas, who had granted Torgal and other villages to a Sardar called Shinde. The place has Bhutanatha temple in Chalukyan style. To the south of this temple there are three more temples. The place has Pattada Devara Gachine Matha which is 600 years old, and there is also the Mahanteshwara Matha. The place has three mosques of which Khasim Sab Bara Imam Mosque and Barapeth Mosque which are ordinary structures and the Jumma Mosque, a fine structure of the Adil Shahi times. The fort of the place is an imposing structure.

Ankalgi (Gokak Taluk) : 30 Kms from Gokak a place located on the bank of the Markandeya is a celebrated Veerashaiva Centre. The Advisiddheshwara Matha is named after the famous Veerashaiva saint Advisiddeshwara who lived here about two hundred years ago. The Matha has the gadduge of Shri Adviswami and behind it is that of Siddeshwara Swami (the guru of former). The Matha has shrines of Veerabhadra, Akkamahadevi and Ishwara. The Matha has a fine lecture hall and well designed balconies with walls adorned with modern paintings and has fine wood work. The place has a mosque and one Dargah (chilla) ascribed to Mahaboob Subhani Baghdadi and another atop a small hillock.

Arabhavi (Gokak Taluk) : Six km from Gokak is a celebrated Veerashaiva centre. The chief attraction of the place is the Durdundeshwara Matha built in red sand stone. This collosal stone structure with massive pillars and sloaped chajjas decorated with stone chains, etc. is a fine monument. The garbhagriha has the gadduge of Swami Durdundeshwara, which is said to have entered the samadhi alive. In the back yard of the temple is the Akalgudi, which has a tomb of the cow and it is locally believed that milk was oozing out of the tomb and it is revered as Kamadhenu. According to tradition, it is believed that Swami Durdundeshwar (perhaps originally Natha Panthi), hailed from Uttar Pradesh and settled down at this place about 600 years ago. Within the precincts of the Matha is another old artistic temple built in post Vijayanagara style, locally called the Basavanna.

Dhupdal (Gokak Taluk) : 18 Km from Gokak located on the bank of the Ghataprabha is a fine picnic spot. The place is the site where a dam has been constructed in 1883 A.D. across the Ghataprabha. Now on the other side of the dam a beautiful garden has been raised. In the background an elevated place has an old Inspection Bungalow (1883 A.D.). From here one can witness the dam site and the picturesque garden on the other side of the river.

Godachinamalki Falls (Gokak Taluk) : 16 Km from Gokak is at a fine spot located to the west of the Gokak-Konnur road in a deep green valley. The Godachimalki or Markandeya Falls is actually located in a rugged valley, approachable from Godachinamalki village by walking through an irregular forest route about 2.5 km. The Markandeya takes a first jump from a height of about 25 metres and flows into a rocky valley and after a short distance from here it takes a second jump from a height of about 18 metres. Later the river joins the Ghataprabha near Ghodageri.

Gokak Falls Town (Gokak Taluk) : 6 Km from Gokak located right on main road is a famous tourist centre in the district. The place is also approachable from Dhupal village (3 km) through a low level bridge which is closed during rainy season. The river

Ghataprabha after a winding course of a long route takes a leap of 52 metres over the sand stone cliff amidst a picturesque gorge of the rugged valley. Except in width and colour of the water, the general features of the falls, its height, shape and rapidity above are much like those of Niagra. The falls are horse-shoe shaped at the crest with a flood breadth of 177 metres. During the rainy season, the thick reddish brown water sweeps far over the brink of the cliff with a dull roar which can be heard from some distance. July to September is the season to visit it. The place has industrial importance in the district has the credit of generating electricity here for the first time in the country in about 1887 A.D. The generating station is down below the rocky gorge and there is a ropeway to reach this low lying spot. There is a hanging bridge across the river measuring about 201 metres and the height above the rock bed is 14 metres. The place has temples dedicated to Shankukha, Mahalingeshwar, Basavanna, and an old structure near Mahalingeshwara. The huge Mahalingeshwara temple, as it is locally described as Tatakeshwara in a record of 1153 A.D. of Ratta Kartaveerya III found in the temple. It speaks of the grant of a villa Kondanur (Konnur) in Kundargi Kampana to the temple. This temple is in the style of later Chalukyan in a splendid monument of the place.

Kallolli (Gokak Taluk) : 11 Km from Gokak is called Kallole in a Ratta inscription. The place has the famous temple of Kallolappa (Maruti) which is mainly of the Vodda community. Other temples of the place are, the Ramalingeshwara, Kalmeshwara, Yallamma, Dyamavva, Durgavva, Beerappa, Siddarudha and the Sadashiva. The Kallolappa temple is a huge structure. The Ramalingeshwar temple is in later Chalukyan style. The Dalmeshwar temple is in Vijayanagar style. The jatra of Maruti (Kallolappa) is held during histilu hunnive for two weeks when about 75,000 people assemble. The striking monument of the place is trikutachala basti which has a seated image of Chandranath and Suparshwanatha. Kartaveerya made a grant of 2,000 kammas of lead to this basti in 1204 A.D.

Hooli (Parasgad Taluk) : 9 km from Saundatti, a place with antiquity and is perhaps one of the oldest towns in the district. This ancient agrahara town has a number of later Chalukyan temples. The place name has been mentioned as Puli in a record dated 1181 A.D. found in the Panchalinga temple of the same place. The other temples of the place are Andhakeshwara, Tarakeshwara, Banashankari, Madaneshwara, Siddeshwar and Agastyeshwara. The place has the Sambayyana Matha, Hire Matha, Shila Matha (Rambhapuri), Siddananjesha Matha and Bhrihan Matha. It also has holy ponds like Nirmala Tirtha (Hudeda Bhavi), Nagara Bhavi and Manikya tirtha. The place has a fort built in 1674 A.D., ascribed to Shivaji.

Inchal (Parasgad Taluk) : 45 Km from Saundatti and 6 Km from Bailhongal has temples called the Karigudi or Ramalinga, Durgavva, Veerabhadra, Dyamavva, Hanumanta, Kalmeshwara or Bhairaveshwara, Nagalingeshwara and Mallaiah. The place is very much famous for a Shivayogeshwara Sadhu (Adwaita) Matha founded by Shivappa about 200 years ago and they run a Junior College and a High School and other educational institutions. The car festival in honour of Shivayogi is held for seven days during Ugadi when about 30-40 thousand people assemble.

Manoli (Parasgad Taluk) : 14 Km from Saundatti surrounded by the Malaprabha is a place of rich antiquity. The place name has been mentioned as Munipura or Munivalli, in a stone inscription dated Saka 1145 A.D. of Yadava Singhana. The place is also called Shinde Manoli as Kolhapur Sardar Shinde built a fort here. The place has temples dedicated to Panchalingeshwara, Banashankari, Murulinga, Tarakeshwara, Mallikarjuna, Renuka and Rudra Muneshwara in a single huge complex and also Venkatesh, Vithoba, Shivalingeshwar, Hanumanta and Udachavva (in fort) Veerabhadreshwar, Harihareshwara Ganapati and Kallamma. The Panchalingeshwara complex is in the later Chalukyan style. The place is famous for the Kaivalya Ashrama founded in 1972, after shifting it from Gurl-Hosur. In it, is the samadhi of Gothe Maharaja desciple of Chidambara Dikshit. The place is also famous for Matha like Hongal Kumara Swamy Matha, Someshwara Matha, Virakta Matha, Chandrashekhara Matha, Chouki Matha and Savalgi (branch Matha). The Teppotsava in honour of Kumaraswamy is held during Makara Sankranti. The fort here occupies an area of nearly 22 acres. The Raghavendra Vrindavan in the town is described as the fifth in the series.

Sirasangi (Parasgad Taluk) : 20 Km from Saundatti located in a valley is a place with rich antiquity. The place is famous for its Kalamma temple or Kalika temple. The Palanquin festival of Kalamma is held at the bannimantapa during Ugadi festival for five days when about 25,000 people assemble. In the Kalika temple is an inscription slab dated 1185 AD of Tribuvanamalla Vira Someshwar IV. It gives a mythological account of place called as Rishyasringa included in Kolanur-30 (Konnur near Nargund) division of the Kuntala country. The place has temples dedicated to Kalmeshwara, Bhairaveshwara or Kalamma. The place is famous for the family of Sirasangi Desai. The wada of the Sirasangi Desai within a stone fort, now housing a high school has fine carvings and beautifully engraved cupboards.

Sogal (Parasgad Taluk) : 16 km from Bailhongal is a place of rich antiquity. The place name is ascribed to a sage Sugola Muni who is believed to have lived here. The temple dedicated to Someshwara is of Rashtrakuta times. The ancient records reveals that tigers came to lend ears to the religious teachings of the place. Next to this temple, there is a Kalyanamantapa now renovated, where the marriage of Shiva and Parvati is described to have taken place. Kanvai Rishi is believed to have stayed here and water spring from below the Linga is described as the source of the water fall at the place. The small water fall here is of the height of about 18 metres, and there is another smaller fall near the Kalyanamantapa atop the hill.

Navilutirtha (Parasgad Taluk) : 10 kms from Saundatti a low valley situated between the two hills, is an enchanting place. Formerly, it was full of peacocks, frequently flocking round the pond (Malaprabha basin) and thus the place was named Naviluteertha. The folk story of the place is that a peacock with golden wings hard pressed and too weary to fly over the chain of hills which rise to the north of the gorge, perched on a large rock and cried piteously. The river heard its cry, made its way by cutting the hill, but the peacock escaped. Presently, the place has a dam built across the Malaprabha named after Indira Gandhi creating the Renuka Sagar reservoir. The dam was completed in 1975. A beautiful statue of the Malaprabha with a pot in her hand is installed here. Located amidst panoramic hilly settings, this is a calm and quiet picnic spot with well furnished IB for tourists maintained by the Department of Irrigation.

Parasgad Fort (Parasgad Taluk) : Lies in the village Saundatti, about 2 km to the south. This rugged rocky fort, stands on the south-west edge of a range of hills immediately overlooking the black soil plain down below. The fort is ascribed to Shivaji (1674 A.D.). Its sides are rocky and almost perpendicular. Atop the hill-fort is a small ruined shrine of Maruti. This fort is situated in the headquarters of Taluka i.e. Saundatti. Saundatti is one of the oldest towns and celebrated pilgrim centre. It has a celebrated Jaina centre earlier under the Bhaisas and later under the Rattas. It was the original capital of the Rattas who flourished between the tenth and the thirteenth centuries and later when their capital was shifted to Venugrama (Belgaum), it lost its significance as a seat of administration. The place has temples dedicated to Ankeshwara, Puradeshwara, Nagarkere Mallikarjuna, Venkateshwara (huge temple), Veerabhadra, Ulvi Basaveshwara, Mouneshwara and Dyamavva etc. To the pilgrims for the Yellamma hills, this is the nearest major bus stand, the temple being 5 kms from here. The Renukasagar of the Naviluteertha Dam touches the low-lying areas of Saundatti. There is a spot called Jogulabhavi here, where there is a temple and pilgrims take a holy dip here before visiting the Yellamma Hill.

Yellammanagudda (Parasgad Taluk) : 5 km from Saundatti takes its name from the deity Yellamma temple atop and it is in Ugargol revenue village. On the way to the temple from the Saundatti town, one has to pass from the vicinity of the Parasgad fort. The temple is of the later Rashtrakuta or later Chalukyan style. Yellamma has been identified with Renuka and she is a very popular deity in this part of the country. During her Jatra held in Chaitra and Margashira months, three to four lakh people assemble. To the west of the Yellamma temple facing east is the shrine of Parashurama. Nearby is a small pond, only one square yard in dimension called yenne honda which is always full of fresh water. There are two more pits nearby called kumkuma honda and arishna honda. On a hill slope is another octagonal shrine nearby with circular shikhara called Jamadagni

in which stone sculpture of Jamadagni has been installed. Outside the temple there is small shrine of Kalabhairava called Ekanatha and Joganatha, Lalabhairava Matha with the Bhairava statue in the Vijayanagar style. It belongs to Nathapanthis and the legend on Renuka connects Ekanatha and Joganatha with Ekkaiah and Joogaiah who cured her of skin disease. The whole of the Yellamma hill including the Parasgad fort is described as consisting of seven valleys and the deity is also called Elukolladellavva. This place is closely associated with Pouranik early Yellamma Gudda which is called the site where Jamadagni had lived and the dramatic events of his son Parashurama beheading his mother Renuka at his father's bidding having taken place. Immensely pleased at his obedient son the sage offered him a boon. Parashurama's request was that his mother be restored to life and this was granted. She is said to have built this temple as the hill was her original place of abode from which she used to go and fetch water from the Malaprabha. It is a sacred shrine of Goddess Yellamma, held in great veneration throughout the districts of Belgaum, Bijapur, Dharwad, Uttara Kannada and parts of Maharashtra.

An inscription on the base of one of its pillars, dated 1514 AD, records that the upper storey on the stone mantapa of the west door was got built by the Vijayanagar King Krishnadeva Raya (1508-1529 AD). Though nothing authentic about the origin of the temple is known, the sanctum sanctorum is said to belong to the 13th century AD.

(xiii) Scope of Village Directory and Town Directory

Village Directory

Village Directory provides micro level data, which will help the planners in formulation of micro-level developmental plans, as the C.D.Block is the lowest administrative unit for developmental planning. Village wise information regarding the availability of certain basic amenities and facilities within the village, as also that on the manner of utilization of the land in the concerned village are furnished in the village directory. The village directory format adopted for the 2001 Census has 23 columns whereas in the 1991 Census there were only 18 columns. When compared with the 1991 Census Village Directory format, column 9, which refers to the day or days of weekly market/hat if any has been now left out. New inclusions are in respect of facilities like banks, agricultural credit societies, non-agricultural credit societies, other cooperative societies, number of recreational and cultural facilities like cinema/video hall, sports club, stadium/ auditorium; receipt of news papers/magazines and the name of the most important commodities manufactured in the village. In all the 23 columns in this tabulation statement, first 3 columns relates to serial number, name of the village with location code and area of village while the next 2 provide information on total population and number of households in the village as per 2001 Census. The next 8 columns relate to basic amenities such as educational; medical; drinking water (potable); post, telegraph and telephone, commercial and cooperative banks, agricultural, non-agricultural and other credit societies, number of recreational and cultural facilities such as cinema/video hall, sports club and stadium/ auditorium and communications (bus service, railway station, waterway). Information in respect of approach to village, nearest town and distance in Kms., power supply, receipt of news paper/magazine, names of the most important commodities manufactured in the village are furnished in columns 14 to 18. Amenities available within the villages are shown in the respective columns and if a particular amenity especially Primary School, Middle School, College, Allopathic Hospital, PHC, MCW, Post Office, Telephone, etc., is not available in the village, the respective abbreviation is given and next to it in brackets the distance in broad ranges viz., <5 kms., 5-10 kms. and 10+ kms. of the nearest place where the facility available to that particular village is indicated. The next 5 columns, 19 to 23 provide information regarding land use (i.e., area under different types of land use in hectares rounded to two decimal places) such as forest, irrigated land by source of irrigation, un-irrigated, cultivable waste (including gauchar and groves) and finally the area not available for cultivation.

Town Directory

The Town Directory section contains seven statements (I to VII) which furnish information on

all the statutory towns in the district, on aspects such as growth history, physical aspects and location of towns, municipal finance, civic and other amenities in the town, medical, educational, recreational and cultural facilities, trade, commerce, industry and banking in the towns, civic and other amenities in slum areas of the town. The scope of the various column headings adopted during 1991 Census has remained unchanged in 2001. The towns are arranged in an alphabetical order for the district.

Note :

1. The area figure for the district given under column No 3 against " Total" represents "Geographical Area" and has been furnished by the Surveyor General India. The figures for the urban areas are either those supplied by civic administration authorities of the towns or compiled and supplied by the Director of Survey, Settlement and Land Records or compiled in this Directorate on the basis of the available records pertaining to the delimitation of urban units. Area figures for Rural Areas are derived by subtracting the Total Urban Area from the Total Area of the District.

The total of the area figures of all the C.D. Blocks/Taluks in this district will not tally with the district figures (except urban), because the area figures for C.D. Blocks/Taluks represents the land-use area based on village wise area figures as reported by the local officers. The total area of the taluk may not tally with the aggregate of the areas of the villages listed for Census purposes for it includes the area of the statutory as well as non-statutory towns, villages which may be fully submerged and reserve forests which may not form part of any revenue village, if any, within the jurisdiction of the concerned taluk. The total area of the C.D. Block is derived by subtracting the area of the statutory town or towns (within the jurisdiction of the concerned taluks) from the total area of the taluk.

2. Out growths of towns in urban agglomerations are denoted by letter "OG".

3. The following abbreviations have been used to indicate the Civic Administration Status of town.

M.Corp	:	*Municipal Corporation*
CMC	:	*City Municipal Council*
TMC	:	*Town Municipal Council*
TP	:	*Town Panchayat*
NAC	:	*Notified Area Committee*
CB	:	*Cantonment Board*
CT	:	*Census Town (Non-Municipal Census Town / Non-Statutory Town)*

SECTION – I

VILLAGE DIRECTORY

(a) NOTE EXPLAINING THE ABBREVIATIONS USED IN THE VILLAGE DIRECTORY

The "Village Directory" is one of the traditional compilations of the Census. It gives the list of villages, their location numbers, their area, population, number of households, amenities such as educational, medical, drinking water, post and telegraph, commercial and cooperative banks, agricultural non-agricultural and other credit societies, recreational and cultural facilities, communication, approach to village, nearest town with a distance, power supply availability of newspaper and magazines, most important commodity manufactured and land use of each village.

Village is a statutory recognized unit having a definite boundary and separate land records. In case, a complete village is treated as an outgrowth of urban agglomeration, data on amenities for that village, have not been given in the Village Directory but shown along with the urban component. The villages which are considered as a Census Town , the amenities data are shown in the Town Directory. For those villages which have partly merged in an outgrowth of U.A., the amenities data are shown in the Village Directory for that particular village.

The 'uninhabited' villages (villages with no population) have been indicated as such after furnishing details in columns 1 to 3 i.e., Serial number, Name of village & location code number and area of the village against column no. 4 to 18. The land use data for such villages are shown in col. 19 to 23

.The Village Directory format has 23 columns and the details given under each column are as follows :

Columns 1 : Serial Number

Self explanatory. All the villages within the CD Block are presented serially in the ascending order of their location code number.

Columns 2 : Name and Location Code Number of village

The name and location code number of the village are shown against these columns. This also includes the forest and un-inhabited villages.

Column 3 : Area of the village

The area of the village in hectares are given. Wherever the area figures was not furnished by the concerned department the column is left blank.

Column 4 : Total population

The total population of the village as per 2001 Census is given against this column.

Column 5 : Number of households

The number of households as per 2001 Census is given in this column.

Amenities :

In column 6 to 23, availability in respect of different amenities such as education, medical, drinking water, post, telegraph, banks, credit societies, communication, power, approach road etc. in each village has been depicted with appropriate codes against the column concerned. Wherever the amenities are not available in the village, a dash (-) is shown in the column and next to it in brackets the distance in broad ranges viz.< 5 kms., 5-10 kms. and 10+ kms. of the nearest place where the facility is available is given. Column wise details are given below :

Column 6 : Educational

Classes upto class IV included in Primary School. This will include nursery school, kindergarten school. Pre-basic school, pre-primary school, junior basic school upto class IV.

Classes from V to VII are included in the middle school.

Classes from VIII to X included in Higher secondary school. Classes XI and XII are treated as equivalent to Pre-University Course.

In case of composite schools like middle school with primary school or secondary school with middle school, these are also included in the number of primary and middle schools, respectively.

Accordingly any of the following types of institutions if exists within the village is shown as per codes given below :

(i)	Primary School	P
(ii)	Middle School	M
(iii)	Secondary School	S
(iv)	Senior Secondary School	PUC
(v)	College	C
(vi)	Industrial School	I
(vii)	Training School	Tr
(viii)	Adult literacy class/centre	AC
(ix)	Others (specify) e.g. Sanskrit Pathshala, Senior basic school, Navodaya Vidyalaya, Makhtab, etc.	O

More than one institution of a type in the village is indicated by the number within brackets against the abbreviation, e.g. P(3), M(4), etc.

Column 7 : Medical

Availability of medical facility within the village is indicated by following codes :

(i)	Allopathic Hospital	H
	Ayurvedic Hospital	HA
	Unani Hospital	HU
	Homeopathic Hospital	H Hom
(ii)	Allopathic Dispensary	D
	Ayurvedic Dispensary	DA
	Unani Dispensary	DU
	Homeopathic Dispensary	D Hom
(iii)	Maternity & Child Welfare	MCW
(iv)	Maternity Home	MH
(v)	Child Welfare Centre	CWC
(vi)	Health Centre	HC
(vii)	Primary Health Centre	PHC
(viii)	Primary Health SubCentre	PHS
(ix)	Family Welfare Centre	FWC
(x)	T.B. Clinic	TB
(xi)	Nursing Home	NH
(xii)	Registered Private Medical Practitioner	RMP
(xiii)	Subsidised Medical Practitioner	SMP
(xiv)	Community Health Worker	CHW
(xv)	Others	O

More than one institution of a type in the village is indicated by the number within brackets against the abbreviations, e.g. H(3), D(4), etc.

Column 8 : Drinking Water

The type of the drinking water supply sources available within the village are indicated by codes as follows :

(i)	Tap Water	T
(ii)	Well Water	W
(iii)	Tank Water	TK
(iv)	Tubewell Water	TW
(v)	Handpump	HP
(vi)	River Water	R
(vii)	Canal	C
(viii)	Lake	L
(ix)	Spring	S
(x)	Others	O
(xi)	Summer Source	SS

Column 9 : Post, Telegraph and Telephone

It is indicated by codes as shown below whether within the village exists the following amenities:

(i)	Post Office	PO
(ii)	Telegraph Office	TO
(iii)	Post & Telegraph Office	PTO
(iv)	Telephone Connection	PH

Column 10 : Commercial and Co-operative Banks

If the village is served by any banking service, commercial bank, cooperative bank etc. the same is indicated in codes mentioned below along with the number of banks in brackets. If not available the distance of nearest place where the facility exist is given:

(i)	Commercial Bank	CM
(ii)	Co-operative Bank	CP

Column 11: Credit Societies

If the village enjoys the services of Credit Societies i.e. Agricultural Credit Societies, Non-Agricultural Credit Society or Other Credit Societies, the same is indicated in codes mentioned below along with the number of such societies in brackets. In case the facility is not available within the village the distance of the nearest place where such facility exist is given :

(i)	Agricultural Credit Society	ACS
(ii)	Non Agricultural Credit Society	NCS
(iii)	Other Credit Society	OCS

Column 12 : Recreational and cultural facilities

If facilities such as Cinema/Video hall, Sports Club, Stadium/Auditorium is available in the village, the same is recorded in these columns. If not available the particulars of the nearest place with the facility is recorded. The information is indicated in codes mentioned below along with the number of such facilities in brackets:

(i)	Cinema / Video Hall	CV
(ii)	Sports Club	SP
(iii)	Stadium / Auditorium	ST

Column 13 : Communications

If the village is served by any mode of public / private transport like Bus, Railway station or Navigable water ways they are mentioned as follows:

(i)	Bus	BS
(ii)	Railway Station	RS
(iii)	Navigable Waterway	NW

Column 14 : Approach to village

Approach to village refers to the state of road leading to village. The approach to the village is indicated in following codes :

(i)	Paved Road	PR
(ii)	Mud road	MR
(iii)	Foot path	FP
(iv)	Navigable River	NR
(v)	Navigable Canal	NC
(vi)	Navigable waterways other than River, Canal	NW

Column 15 : Nearest Town and distance

The distance is given in kilometers in brackets against the name of the town nearest to the village.

Column 16 : Power supply

Availability of Power Supply in the village, whatever may be the form of its use is given by using following codes :

(i)	Electricity for domestic use	ED
(ii)	Electricity for agricultural use	EAG
(iii)	Electricity for other purposes	EO
(iv)	Electricity for all purposes	EA

Column 17 : News Paper / Magazine

If the village receives any News Paper/Magazines, the same is noted in this column using following codes :

(i)	News Paper	N
(ii)	Magazine	M

Column 18 : Most important commodities manufactured

The name of three most important commodities manufactured in the village is recorded against this column.

Column 19 to 23 : Land use i.e. area under different types of land use

Land use data maintained by the State Government is furnished against these columns. The data concerning area under Forest, Irrigated land (by source), Unirrigated land, Culturable waste and Area not available for cultivation in the village are shown against these columns. The area figures are given in hectare(s) up to one decimal. Dash '-' is recorded wherever the information is not made available by the concerned department. The codes used for different types of irrigation facilities available in the village are indicated below:

(i)	Government Canal	GC
(ii)	Private Canal	PC
(iii)	Well (without electricity)	W
(iv)	Well (with electricity)	WE
(v)	Tubewell (without electricity)	TW
(vi)	Tubewell(with electricity)	TWE
(vii)	Tank	TK

(viii)	River	R
(ix)	Lake	L
(x)	Waterfall	WF
(xi)	Others	O
(xii)	Total	T

The village directory also carries the following appendices.

Appendix-I - It gives the abstract of educational, medical and other amenities available in villages C D Block wise of the district.

Appendix-IA - Indicates number of villages C D Block wise having one or more primary schools.

Appendix-IB - Indicates number of villages C D Block wise having primary, middle and secondary schools.

Appendix-IC - Shows number of villages C D Block wise with different sources of drinking water facilities.

Appendix-II - Indicates the list of villages with 5,000 and above population which do not have one or more important amenities.

Appendix-IIA - Indicates list of Census Towns which do not have one or more amenities.

Appendix-III - It gives the land utilization data in respect of Census Towns / nonmunicipal Towns.

Appendix-IV - C D Block wise list of inhabited villages where no amenity other than drinking water facility is available.

Appendix-V - Summary showing number of villages not having Scheduled Castes population.

Appendix-VI - Summary showing number of villages not having Scheduled Tribes population.

Appendix-VII A & VII B - The appendix shows the list of villages according to proportion of the Scheduled Castes and Scheduled Tribes to the total population by ranges.

Appendix-VIII - Indicates C D Block wise number of villages under each Grama Panchayat.

Appendix-IX - Shows number of different types of girls school in a village.

SECTION - II

TOWN DIRECTORY

NOTE EXPLAINING THE ABBREVIATIONS USED IN THE TOWN DIRECTORY

Town Directory Statements (I to VII)

Statement I : Status and Growth History

Column (2) : Class, name and civic administration status of town :

Class has been introduced to facilitate analysis of town directory data at the state and all India levels. It is presented according to 2001 Census Population of the town as follows :

Population	Class
100,000 and above	I
50,000 - 99,999	II
20,000 - 49,999	III
10,000 -19,999	IV
5,000 - 9,999	V
Below 5,000	VI

Town with a population of one hundred thousand (1,00,000) and above is treated as a city.

The civic administration status of the towns is indicated within bracket against the name of the town. The following abbreviations are used to denote civic status of town.

(i)	Municipal Corporation	M. Corp.
(ii)	Municipal Committee	MC
(iii)	Municipal Council	M Cl
(iv)	City Municipal Council	CMC
(v)	Town Municipal Council	TMC
(vi)	Municipal Board	MB
(vii)	Municipality	M
(viii)	Cantonment Board/Cantonment	CB
(ix)	Notified Area	NA
(x)	Notified Town	NT
(xi)	Notified Area Committee/ Notified Area Council	NAC
(xii)	Notified Town Area	NTA
(xiii)	Industrial Notified Area	INA
(xiv)	Industrial Township	ITS
(xv)	Township	TS
(xvi)	Town Panchayat	TP
(xvii)	Nagar Panchayat	NP
(xviii)	Town Committee/Town Area Committee	TC
(xix)	Small Town Committee	ST
(xx)	Estate office	EO
(xxi)	Gram Panchayat	GP
(xxii)	Census Town	CT

Others columns need no comments.

Statement II : Physical Aspects and Location of towns, 1999

Column 3 to 5 : Physical Aspects

In this columns the Rainfall and Maximum & Minimum Temperature of the town is recorded.

Column 6, 7 and 8 :

Name of the State headquarters, District headquarters and Sub-Divisional headquarters with distance from the referent town in kilometers, is to be recorded respectively. If the names mentioned in these columns are the same as the referent town itself, the distance is recorded as (0) zero.

Column 9 & 10 :

Name of the nearest city with one lakh and more and five lakhs and more population are recorded.

Column 11, 12 and 13 :

If referent town enjoys the facility of railway station, bus route facility or navigable river/canal. Its name is to be mentioned. If not available, then the name of nearest place with distance, where such facility exists is to be mentioned.

Statement III : Municipal Finance 1998-1999

Itemwise amount of receipt andexpenditure in thousand rupees, relating to municipal finance of the town for the year 1998-99 is to be recorded.

Statement IV : Civic and Other amenities, 1999

Column (1 to 5) : Self explanatory

Column (6) : Road length (in kms.)

Information about kutcha / pucca road is to be recorded separately for the roads within the limits of the referent town.

(i)	Pucca Road	PR
(ii)	Kutcha Road	KR

Column (7) : System of Sewerage

Generally, by sewerage system is implied the network of mains and branches of underground conduits for the conveyance of sewerage to the point of disposal. Sewers that carry only household and industrial wastes are called separate sewers, those that carry storm water from roofs, streets and other surface are known as storm water drains, while those carrying both sewage and storm water are called combined sewers.

The codes used for different types of drainage system are as follows :

(i)	Sewer	S
(ii)	Open Surface Drains	OSD
(iii)	Box Surface Drains	BSD
(iv)	Sylk Drains	SD
(v)	Cesspool method	CP
(vi)	Pit System	Pt
(vii)	Others	O

Column 8 to 11 : Number of latrines

Number of various types of latrines both Public and Private are given in these columns.

Column 12 : Method of disposal of night soil

The various prevalent method of disposal of night soil are given below with codes :

Head Loads	HL
Basket	B
Wheel Barrows	WB
Septic Tank	ST
Pit System	Pt
Sewerage	S
Others	O

Column 13 and 14 : Water supply

Source and capacity of storage system. The following codes are used in these columns:

Column 13 :

(i)	Tap water	T
(ii)	Tubewell water	TW
(iii)	Tank Water	TK
(iv)	Well water	W

Column 14 :

(v)	Over Head Tank	OHT
(vi)	Service Reservoir	SR
(vii)	River Infiltration Gallery	RIG
(viii)	Bore Well Pumping System	BWP
(ix)	Pressure Tank	PT

The information on major source of water supply are given in column 13 and the storage capacity against each in kilolitres (in bracket) are presented in column 14.

Column 15 : Fire Fighting Service

In case the fire fighting service is available in the referent town 'yes' is recorded. If the facility is not available within the town. The name of the nearest place having this facility with its distance from the referent town has been recorded.

Column 16 to 20 : Electrification (Number of connections)

Different types of electric connections have been shown in these columns, i.e. Domestic, Industrial, Commercial, Road lighting (points) & others.

Statement V : Medical, Educational, Recreational and Cultural Facilities, 1999

Column 1 to 3 : Self explanatory

Column 4 & 5 :

The data covers all such medical institutions run by or aided by Government/Semi Government/Local

bodies and Charitable institutions or Social agencies like the Missionaries. Where the family planning centres are attached to hospitals or maternity and child welfare centres or Primary Health Centres, may be treated as independent units and counted separately using following codes :

(i)	Hospital	H
(ii)	Dispensary	D
(iii)	Health Centre	HC
(iv)	Family Welfare Centre	FWC
(v)	T.B. Clinic	TB
(vi)	Nursing Home	NH
(vii)	Others	O

In case of more than one institutions of any type, it is indicated within brackets the number of such institution (s) e.g. D(3), NH(8), etc. The institutions have further been distinguished by providing additional codes within the bracket as given below :

Ayurvedic	A
Unani	U
Homoeopathic	Hom

Column 6 to 9 :

The codes used for these columns are as follows :

(i)	Arts only	A
(ii)	Science only	S
(iii)	Commerce only	C
(iv)	Arts & Science only	AS
(v)	Arts & Commerce only	AC
(vi)	Combined for all categories	
	Arts, Science and Commerce	ASC
(vii)	Law	L
(viii)	University	U
(ix)	Others	O

Column 10 : Recognized shorthand, typewriting and vocational training institutes

"Recognised" should mean recognised by some statutory authority, like education department, commerce department, labour department etc. of the government or semi government or autonomous bodies, public sector undertakings etc.

The following codes are used :

(i)	Vocational Training Institute	VT
(ii)	Shorthand	SH
(iii)	Typewriting	Type
(iv)	Shorthand & Typewriting	SH Type
(v)	Others	O

The vocational institutions like Applied Art/ Painting college, Pharmacy college, B. Ed. College, Teacher's Training Institute, Music / Dance School, Nursing School etc. are covered under 'Others'.

Column 11 to 14 : Higher Secondary/ Intermediate / Senior Secondary / PUC / Junior College level, Secondary/Matriculation, Middle Schools/ Junior Secondary and Primary Schools.

School up to class V are treated as Primary or elementary schools. These include Nursery schools, Kindergarten schools, PrePrimary schools, Junior Basic schools upto class V and Primary schools upto class IV.

Schools upto VIII are considered as Middle school or Junior Secondary.

Schools upto class X are considered as Matriculation or Secondary schools.

Schools upto XI or XII classes are considered as Higher Secondary / Intermediate/ Pre University / Junior College etc. This would cover 10+2 classes whether held in schools or college.

If there are composite schools like middle schools with primary classes or Secondary schools with Middle classes, these are also included in the number of Primary and Middle schools, respectively. For example, if in a town, there are two Primary Schools and one Middle school with Primary classes, the number of Primary schools in the town is given as three and that of Middle schools as one though there are only three educational institutions.

If there are more institutions of a type in the town, the number is indicated within bracket along with the abbreviation, e.g. P(4), M(3).

Column 15 : Adult literacy class/centres

This column has been introduced keeping in view the Minimum Needs Programme of the Planning

Commission. There are number of Adult Education Centres which are included in these columns.

If an educational facility is not available in the town, the name of the nearest place and its distance in kilometres from the town where the facility is available is mentioned.

Column 16 : Working Women's hostels with number of seats

The number of working women's hostel if available in the referent town is mentioned with number of seats. If the facility is not available in the town the name of nearest place with distance where the facility is available is recorded.

Column 17 to 19 : Recreational and Cultural Facilities

Stadium, Cinema, Auditorium/Drama/ Community Hall are covered under recreational & cultural facilities. The particulars of permanent recreational facilities are considered for these columns.

Column 20 : Public Libraries, Reading Rooms

Number of public libraries and reading rooms available in the referent town are recorded in codes as follows :

(i)	Public Library	PL
(ii)	Reading room	RR

Statement VI : Trade, Commerce, Industry and Banking, 1999

Column 3 to 8 :

Name of three most important commodities exported and names of three most important commodities manufactured in the town are recorded.

Column 9 : Number of Banks

Number of Banks available in the referent town both Commercial and Cooperative banks are recorded against this column.

Column 10 & 11 : Number of Agricultural Credit Societies and Non Agricultural Credit Societies

The total number of Agricultural Credit Societies and Non Agricultural Credit Societies in the referent town are recorded against these columns.

Statement VII : Civic and other Amenities in Slums, 1999

This is the statement on civic and other amenities in all slums whether notified or not and for all towns having statutory bodies, like municipality, Municipal Corporation, Town area committee etc.

Brief note on Primary Census Abstract

The first census of the third millennium and twenty first century the Census of India, 2001 was the 14th continuous and uninterrupted Indian census since 1872. Thus, 2001 Census will provide data on population and its characteristics marking transition from one century and millennium to another.

The gigantic operation of Population Enumeration (considered by many to be the single largest and complex peace time administrative exercise in the world) was made possible due to the door to door universal canvassing of the Household Schedule by about 2 million enumerators and supervisors covering 593 districts, 5,463 sub-districts, 5,161 towns and 638,588 villages. The comprehensive Household Schedule which replaced the individual slip had three parts and two sides A and B. Part I contained the Location Particulars; Part II related to the Individual Particulars and Part III contained questions for Household engaged in Cultivation/Plantation. The part II of the Household Schedule had 39 columns and 23 questions all of which were universally canvassed and no sampling was resorted to during enumeration.

Data Processing

A quantum leap was made in the technology front while processing the Census 2001 data both for Houselisting and Population Enumeration. The Census schedules for both the phases were scanned through high speed scanners in fifteen data centers across the country and hand-written data from the schedules were converted into digitized form through Intelligent Character Reading (ICR) software for creation of ASCII records for further processing. The designing and formatting of the Household Schedule had to be done very carefully using specialized software so as to ensure uniformity, which was an essential pre-requisite for scanning. The selection of appropriate state-of-art technology in data processing has made it possible to produce all the Houselisting as well as Population Enumeration tables on full count basis for the first time in the history of Census. For Census 2001, about 202 million schedules consisting of about 1,028 million records were scanned and processed within a span of only 10 months starting October, 2002.

Task Force on Quality Assurance

After the data is processed, it is expedient on the part of the data producing agency to satisfy itself about its quality before putting the same in public domain. This has to be done mainly through the process of internal consistency, comparison with similar data in the past and also through validation with likewise data if available, from external sources. Quite often the local knowledge and perception has to be brought into play to understand both the existing and the new emerging trends of population distribution and characteristics. The other very important aspect of the data quality is to ensure complete coverage of all geographical areas especially for the population enumeration phase where the data is disseminated right up to the village level in the rural areas and the ward level in the urban areas. Thus ensuring the complete coverage and correct geographical linkage of each enumeration block was one of the major planks of the quality control, specially for small area population statistics.

A very comprehensive check and edit mechanism was put in place to objectively examine the preliminary Census 2001 Population Enumeration results and finally clear them for use. The responsibility of the final clearance of data was with the Task Force on Quality Assurance (TFQA), headed by the Registrar General and Census Commissioner, India. The other members of the TFQA were the Heads and senior officers of the Census Division, Data Processing Division, Map Division, Demography Division and Social Studies Division. The Directors of Census Operations were co-opted as members whenever the TFQA discussed the data for their States/Union territories. The Directors and their senior officers were required to make detailed presentations of data for their own state both in respect to the quality and the coverage and only after the full possible cleared.

There has been a major departure in Census 2001 from the past in respect of the procedure followed for finalization of the Scheduled Castes and the Scheduled Tribes population. In the earlier censuses, the total Scheduled Castes and Scheduled Tribes

populations were finalized at the time of the manual compilation of the Primary Census Abstracts (PCA) at the Regional Tabulation Offices which were specially set up for this purpose. The individual Scheduled Castes and the Scheduled Tribes population for each state was finalized much later based on manual coding done by the coders. In 2001 Census, each individual Scheduled Caste and the Scheduled Tribe have been coded directly on the computers by the Data Entry Operators through a process known as Computer Assisted Coding (CAC) and taken up along with the processing of PCA data. The CAC process involves pulling down, from the relevant dictionary of the Scheduled Castes and the Scheduled Tribes, on the computer screen and coding from the dictionary by referring to the image of the specific individual entry in the Household Schedule appearing on the screen. The CAC of the response on Religion wherever required, was also undertaken along with the processing of PCA. This is because the Scheduled Castes status had to be determined in relation to the religion of the individual. Two Special Task Forces, one on Religion and the other on Scheduled Castes/Scheduled Tribes were constituted for scrutiny and appropriate classification of these responses.

The main task of the Special Task Force on Religion was to appropriately merge or group the new responses encountered and code it into the appropriate religious community based on available literature and local knowledge. The Special Task Force on Scheduled Castes and Scheduled Tribes examined the different Scheduled Castes and Scheduled Tribes entries encoun-tered and classified these into appropriate category of the Scheduled Castes or the Scheduled Tribes principally based on the Presidential Notification and the available literature. Thus a very systematic and scientific mechanism was operationalised to firm up the individual religion and the individual Scheduled Castes/Tribes returns. The Scheduled Castes and the Scheduled Tribes population in 2001 Census, is thus being finalized by aggregating the population data for individual Scheduled Castes and the Scheduled Tribes at appropriate geographical levels.

The entire work relating to the data validation and scrutiny was completed by all the States/Union Territories under the overall supervision and monitoring of the Census Division of the Office of the Registrar General, India with active cooperation and support of the Social Studies Division, Data Processing Division, Data Dissemination Division and Map Division.

Primary Census Abstract

The Primary Census Abstract which is yet another important publication of 2001 Census gives basic information on Area, Total Households, Total population, Scheduled Castes, Scheduled Tribes population, Population in the age group 0-6, Literates, Main workers and Marginal workers classified by the four broad industrial categories, namely, (i) Cultivators, (ii) Agricultural laborers, (iii) Household Industry Workers, and (iv) Other workers and also Non-workers. The characteristics of the Total population includes Scheduled Castes, Scheduled Tribes, Institutional and Houseless population and are presented by sex and rural-urban residence. This data is presented at different levels, namely, India, States/ Union territories, Districts and Cities, Urban Agglomerations (Population 1,00,000 and above) in three different tables. In addition, the Appendix of said publication provides Houseless and Institutional Households and their population by residence and sex for 2001 for India, State and Union territory.

Apart from the India and State/Union Territory volumes for Primary Census Abstract, the District Census Handbook contains District Primary Census Abstract, Appendix to District Primary Census Abstract, Primary Census Abstract for Scheduled Castes, Primary Census Abstract for Scheduled Tribes, Village Primary Census Abstract and Urban Primary Census Abstract of the concerned district in the state.

It was for the first time at the 1981 Census that the Primary Census Abstract (PCA) was brought out for the Scheduled Castes and the Scheduled Tribes separately on the pattern of General Primary Census Abstract. This practice was continued in 1991 also. In the 1961 and 1971 Censuses, such data were made available in Table C-VIII-Social and Cultural table and to some extent in the series 'Special Tables for Scheduled Castes/Scheduled Tribes'.

The format of Primary Census Abstract has been restructured slightly in the 2001 Census as compared

to that of 1991 Census. The nine-fold industrial classification of main workers given in the Primary Census Abstract of 1991 Census has been discontinued and its place, four-fold industrial classification of both 'main workers' and 'marginal workers' are included. In 1981 census only main workers were presented in to four categories. One of the novel features of the primary census abstract of 1991 Census was the presentation of data of the population of age group 0-6 is continued in 2001 Census also. This will help the data users in better analysis and understanding of this literacy data.

Level of presentation in District Census Handbooks:

The Primary Census Abstract data in different PCAs are presented at different levels. The level of presentation of Primary Census Abstracts are as under:

	Name of the Primary Cenus Abstract	Level of presentation
1.	District Primary Census Abstract City/Town	District/CD Block/UA/
2.	Primary Census Abstract for Scheduled Castes	District/CD Block/Town
3.	Primary Census Abstract for Scheduled Tribes	District/CD Block/Town
4.	Village Primary Census Abstract	CD Block/ Villagewise
5.	Urban Primary Census Abstract	Town/Ward Level

The PCA Data for villages was presented CD Block wise for the first time in 1991 Census. This practice is continued in 2001 Census also. The data for each CD Block is presented both for rural and urban areas separately. All the villages within the CD Block constitute the rural portion and the Census Towns and Outgrowths are shown under the urban portion of the CD Block. In case a CD Block is spread over two or more districts, than portion which falls within the district is presented, the data pertaining to remaining portion of the CD Block is presented in the concerned District Census Handbook. The data in the Urban Primary Census Abstract for each town as well as for town with outgrowths in the district are presented. The data for all the wards and the outgrowths of the town(s) are also presented separately below the concerned town(s).

The District Primary Census Abstract is presented in 59 columns. The Primary Census Abstract for Scheduled Castes and Primary Census Abstract for Scheduled Tribes are presented in 52 columns. The Village Primary Census Abstract and Urban Primary Census Abstract are presented in 58 columns.

The concepts and definitions used in the column heading are explained under the sub heading 'Census Concepts' in the Analytical Note. The term 'Total Population' includes the Scheduled Castes, the Scheduled Tribes, the Institutional and the Houseless populations. The explanation regarding area figures presented at various level in the Primary Census Abstracts are as follows:

Area Figures

The area figures supplied by local revenue authorities of the district in respect of tehsils, Police Stations and by the local bodies in respect of towns are given in square kilometers. The area figures of the villages supplied by the Tahsildars in acres have been converted and shown in hectares. The area figures of the CD Block is the total of the village areas coming under each CD Block. The area figures for the district are the same as adopted by the Surveyor General of India to maintain uniformity at the national level. The total area figures of all the tahsils/CD Blocks within the district may not tally with area figures of the district because former represents land use area only. Similarly, the total of all the villages may not tally with the entire rural of Police Station/Tahsil. The difference may be due to the fact that while the area covered by hills, forests and rivers etc, have been accounted in the Tahsils and P.S. level the same may not be covered under the area of the villages. Apart from this it may also differ due to varying methods of computation adopted at different levels.

An appendix to District Primary Census Abstract has also been furnished showing urban enumeration block-wise particulars on Total Population, the Scheduled Castes Population and the Scheduled Tribes Population for each town.

ANNEXURE – II
NOTE ON FERTILITY & MORTALITY AND MIGRATION – 1991 & 2001 CENSUSES

Fertility levels

In demography, the word fertility is used in relation to the actual production of children or 'occurrence of births specially live births'. Fertility is a measure of rate at which population adds to itself by births and normally assessed by relating number of births to size of some section of the population, such as number of married couples or number of women of child bearing age. In other words, it is a major component of population growth. In the 1991 census, questions on fertility related to age at marriage, number of surviving children at present, number of children ever born alive and children born alive during the last one year were asked. The first three questions were asked to all evermarried women and the last question related to currently married women. The measures of fertility worked out are based on the F Series Tables of 1991 Census pertaining to Karnataka state and are defined as below:

MIGRATION

What is Migration?

Migration is the third component of population change, the other two being mortality and fertility. A person is considered as a migrant by place of birth if the place in which he is enumerated during the census is other than the place of birth. Similarly a person is considered as a migrant by place of last residence if the place in which he is enumerated during the census is other than his place of immediate last residence.

Internal and International migration

The migrational movements are of three types (i) Migration within the state itself with its components (a) Migration within the district of enumeration (intra district migration), (b) Migration from one district of state to another district of state (inter district migration), (ii) Migration from one state to another state of the country (interstate migration), (iii) Migration from one country to another country. The first two streams together constitute internal migration, while the last type of movement is called international migration.

Why people migrate?

As in 1981 census, the reasons for migration were elicited in 1991-2001 census also. The reasons for migration were broadly categorized as (1) employment (2) business (3) education (4) family moved (5) marriage (6) natural calamities like drought, floods etc. and (7) other reasons. Reasons for migration have been elicited only with reference to movement from place of last residence.

Impact of migration

Growth of population of a particular place depends upon natural increase due to excess of births over deaths and migration. Knowledge of trends in migration helps in future planning of a region.

Marriage and age at marriage are important social phenomena and crucial factors in the analysis of the dynamics of fertility. As such, various measures of fertility estimated based on these crucial factors are highlighted in the above table.

Estimates of General Fertility Rate (GFR) a refined measure of fertility, defined as the number of live births per thousand women in the reproductive age-group 15-49 years is a useful tool for measuring fertility, and this rate is further estimated only for the married women which is defined as General Marital Fertility Rate (GMFR). The GFR and GMFR for the district are 119 and 147 respectively.

The cumulative value of the age-specific fertility rates at the end of the child bearing ages gives a measure of fertility known as Total Fertility Rate (TFR). It indicates average number of children expected to be born per woman during her entire span on reproductive period assuming that the age specific fertility rates to which she is exposed to, continue to be the same and there is no mortality. The same is expected for married women known as Total Marital Fertility Rate (TMFR). The estimated TFR and TMFR for the district are 3.57 and 4.65 respectively. The Crude Birth Rate (CBR) is 32.39.

The most useful indices that can be derived from the question on number of children born alive is the average number of children ever born per ever married women by age-group. Since most of the women complete their reproduction be the age-group 45-49, this indices is termed as completed fertility. The category ever married includes widows, divorced and separated women. As such the completed fertility for

the district is 4.49. The child women ratio which is a relative measure to know the fertility performance of a women is 507 in the district.

One of the parameters, presenting female age at marriage relates to all women who live with their husbands, where some of them might have been recently married and some of them decades ago. It can be observed that mean age at marriage of the currently married women of Belgaum district is lower than the state figure of 18.00.

The estimates of mortality indicators presented above have been obtained through indirect estimation using the data on the number of children ever born and number of children surviving to ever married women. The information on questions on children ever born and children surviving canvassed for all ever married woman have been tabulated by the age of the mother. This data has been converted into estimates of probability of dying before attaining a given age. These estimates have been worked out using Brass technique where (q_i) is the probability of a newborn child dying before the age i = 1, 2, 3 and 5. The table above shows the estimates of infant and child mortality derived for the year 1991 by sex.

The infant mortality rate (q_1) for the person is 50 and for male and female are 48 and 54 respectively. The estimates of under 5 mortality (q_5) for person is 69 and for male and female are 67 and 70 respectively.

ANNEXURE - IV

ANNEXURE IV (1) - PERCENTAGE DISTRIBUTION OF IN-MIGRANTS BY PLACE OF BIRTH

	Place of Birth	1991 Census			2001 Census

Source : Migration Tables of 1991 & 2001 Census

The Anenxure IV(1) presents data on migrants data on migration by their place of birth. The majority of migrants are those who are born within the state of enumeration, which constitute 85.41 per cent as per 2001 Census. Among them, migrants born elsewhere in the district are larger than migrants born in other districts of the state. Considerable proportion of population from other state have migrated to the district. The variations during the decade among different categories can be seen from the annexure.

ANNEXURE IV (2) - PERCENTAGE DISTRIBUTION OF IN-MIGRANTS BY PLACE OF LAST RESIDENCE

Sl. No.	Place of last residence	1991 Census			2001 Census		
		Persons	Males	Females	Persons	Males	Females
1	2	3	4	5	6	7	8
1	Last residence within the state of Enumeration but outside the place of enumeration	1,073,738	358,511	715,227	1,377,587	432,969	944,618
		86.33	28.83	57.51	85.68	26.93	58.75
a	Elsewhere in the district of enumeration	878,328	285,821	592,507	1,156,204	352,431	803,773
		70.62	22.98	47.64	71.91	21.92	49.99
b	In other districts of the state of enumeration	195,410	72,690	122,720	221,383	80,538	140,845
		15.71	5.84	9.87	13.77	5.01	8.76
2	Last residence in other states of india beyond the state of enumeration	165,157	53,531	111,626	228,974	80,189	148,785
		13.28	4.30	8.98	14.24	4.99	9.25

Source : Migration Tables of 1991 & 2001 Census

The Annexure IV(2) presents data on migration by their place of last residence. As far as the district is concerned, it can be seen that migrants whose place of last residence was within the state of enumeration but outside the place of enumeration, constitute major proportion of migrant population. As per 2001 Census, their percentage accounts for 85.68. Among them, more is the inflow from within the district. Considerable proportion from other state have migrated to the district. The variations during the decade among different categories can be seen from the annexure.

ANNEXURE IV (3) - INTERSTATE IN-MIGRATION TO BELGAUM DISTRICT

Place of Birth	1991 Census		2001 Census	
	Migrants	Percentage of to total migrants	Migrants	Percentage of to total migrants
1	2	3	4	5
Andhra Pradesh	2,960	1.80	5,262	2.30
Goa	3,510	2.14	4,059	1.77
Kerala	2,130	1.30	-	0.00
Maharashtra	144,627	88.05	201,359	87.94
Rajasthan	-	0.00	3,176	1.39
Uttar Pradesh	-	0.00	2,465	1.08
Tamil Nadu	2,370	1.44	-	0.00
Total for 5 states	155,597	94.73	216,321	94.47
Other states	8,650	5.27	12,653	5.53
Total	**164,247**	**100**	**228,974**	**100.00**

The interstate in-migration to the district by their place of birth provided above, highlights the States with the largest contribution of migrants to the district. According to 2001 Census findings, migrants from Maharashtra alone contributed 87.94 per cent. By way of comparison between 1991 and 2001 Census data, migrants from `Other States' has registered marginal growth of 0.26 per cent.

ANNEXURE IV(4) - RURAL AND URBAN COMPOSITION OF INTERNAL MIGRANTS BY PLACE OF

Place of Birth	Place of Enumeration-1991			Place of Enumeration-2001		
	Total	Rural	Urban	Total	Rural	Urban
1	2	3	4	5	6	7
1. Within the state	1,056,588	781,476	275,112	1,348,787	1,024,180	324,607
	100.0	74.0	26.0	100.0	75.9	24.1
2. In other states of India	164,247	100,894	63,353	229,188	152,600	76,588
	100.0	61.4	38.6	100.0	66.6	33.4

Rural and urban composition of internal migrants by their place of birth is provided in the above statement. The data for both the Census points out that majority of migrants within the State as well as from other states of India have migrated to rural areas of the district. The details can be seen from the statement.

ANNEXURE - V

Brief account on Main Religions in the District / Taluk as per 1991 & 2001 Census

Religion forms an integral part of Indian Social System. For an Indian, it is a way of life rather than a faith. Indian Census, since its inception is collecting data on religion and presenting the same in its reports. In the pre-independence Census reports, the data on religion was being presented for 6 major religions viz., Hindus, Muslims, Christians, Sikhs, Jains and Buddhists. Besides, the minor religions have been classified under the category of 'Others'. The data on religion collected and presented by the Indian Census is the basic data of immense use for the researchers, anthropologists, sociologists, demographers, administrators, planners and even for a common man.

ANNEXURE V(1) - PERCENTAGE DISTRIBUTION OF POPULATION BY MAJOR RELIGIONS IN INDIA AND KARNATAKA DURING 1991 & 2001 AND ITS GROWTH RATE DURING 1981-1991& 1991-2001

Sl. No.	Religion	India				Karnataka			
		Percentage of Population during 1991	Percentage growth rate 1981-1991	Percentage of Population during 2001	Percentage growth rate 1991-2001	Percentage of Population during 1991	Percentage growth rate 1981-1991	Percentage of Population during 2001	Percentage growth rate 1991-2001
1	2	3	4	5	6	7	8	9	10

India - State differentials

The comparative data of the country and the state of Karnataka presented in Annexure V(i) reveals that the religion wise concentration of population in the state of Karnataka is of three major religions viz., Hindus, Muslims and Christians. Hindus are returned on the higher side with over three per cent more than the national average. Christians recorded nearly one per cent less whereas the proportion of Muslims in the state to national population was almost the same. There are 85.5 per cent Hindus, 11.6 per cent Muslims and 1.9 per cent Christians in Karnataka as against that of 82.4 per cent Hindus, 11.7 per cent Muslims and 2.3 per cent Christians in India. In regard to concentration of other three major religions viz., Sikhs, Buddhists and Jains it is observed that Jains with 0.7 per cent form the fourth major religion in the state whereas Buddhists with 9.8 per cent is the third major religion in India. In the Indian scene the Sikhs form fifth major group, whereas in Karnataka, Buddhists and Sikhs are placed fifth position.

Religion wise growth in the state during the decade 1981 - 91 reveals that the major religions viz., Hindus, Muslims and Christians recorded a growth rate in lesser degree i.e., 20.7 per cent, 25.7 per cent and 11.1 per cent respectively, against that of 22.3, 26.1 and 16.9 per cent in India as a whole. On the other hand Buddhists, Sikhs and Jains recorded a growth rate of 72.8 per cent, 57.8 per cent and 14.6 pecent respectively for the state against that of 34.0, 24.2 and 3.9 per cent respectively for India. Thus, the Jains recorded a higher growth of nearly 11 per cent in the state than that of India as a whole during the decade 1981 - 91.

Percentage distribution of population during 2001 Census, by major religions in India and Karnataka shows that Hindus form majority of the population

with 80.5 and 83.9 per cent respectively, while Muslims form 13.4 and 12.2 per cent for the country and state respectively. The proportion of these religions for the country and state, during 1991 Census was 82.4 per cent and 85.5 per cent for Hindus and 11.7 and 11.6 per cent for Muslims. There are not much noticeable changes are found in other religions. Persons who have not reported to which religion or faith they belong to has increased in Karnataka, as its proportion to the total population has increased from 0.1 per cent in 1991 Census to 0.3 per cent during 2001 Census.

The above table furnishes the composition of six major religions along with 'Other Religions' and 'Religion not stated' among the districts of the state during 2001 Census along with 1991 Census. As may be seen from the table that the proportion of population to total population during 2001 Census is below 5 per cent for 23 districts of the state and is between 5-10 per cent in 3 districts. Only Bangalore district has the distinction of having more than 10 per cent of the total population of the state in its jurisdiction. During 1991 Census the situation was almost similar with 22 districts having a proportion of less than 5 per cent and 4 districts had more than 5 per cent but below 10 per cent. With 10.76 per cent of the total population Bangalore district occupied the top position. Of the total population of the state, proportion of districts having Hindus and Muslims was uniform during bothe the Censuses i.e., less than 5 per cent of the total population in 21 districts for Hindus and 23 districts for Muslims, while in 5 and 3 districts respectively for Hindus and Muslims had a proportion of 5-10 per cent and Bangalore district alone had more than 10 per cent.

ANNEXURE V(3) - PERCENTAGE DISTRIBUTION OF POPULATION BY MAJOR RELIGION IN KARNATAKA AND BELGAUM DISTRICT - 1991 & 2001

Sl. No.	Religion	Karnataka		Belgaum	
		1991	2001	1991	2001
1	2	3	4	5	6
1	Hindus	85.50	83.86	85.16	84.59
2	Muslims	11.60	12.23	10.13	10.46
3	Christians	1.90	1.91	0.44	0.42
4	Jains	0.70	0.78	4.11	4.02
5	Buddhists	0.20	0.74	0.02	0.12
6	Sikhs	Ng	0.03	0.02	0.02
7	Others	Ng	0.22	0.01	0.20
8	Religion not stated	0.10	0.23	0.10	0.16

The percentage distribution of population by major religion in Karnataka and Belgaum district for 1991 and 2001 Censuses are presented in the above table. As may be seen from the table that in Karnataka, Hindus form 85.5 and 83.86 per cent of the total population during 1991 and 2001 Censuses, followed by Muslims and Christians. The corresponding statistics for the district does not differ much as Hindus and Muslims occupy the top two places followed by Jains. These three religion cover more than 98 per cent of the total population of the district. Remarkable increase in the proportion of Buddhists population has been noticed between 1991 and 2001 Censuses in the State.

Rural - Urban differentials

ANNEXURE V(4) - DISTRIBUTION BETWEEN RURAL AND URBAN AREAS OF MAJOR RELIGIONS IN KARNATAKA AND BELGAUM - 1991 & 2001

	Religion not stated	3,158	90.8	319	9.2	4,629	67.7	2,212	32.3

Distribution of major religion by residence for the State and district are presented in the above statement. Majority of Hindus, Jains, Buddhists and those who have not stated their religion are residing in rural areas of the State during both the Censuses. While population belonging to Muslim, Christian and Sikh religion reside in urban areas of the State. Almost similar trend is seen in the district. As per 2001 Census data, while majority of Hindus, Muslims, Jains, Buddhists and those who have not stated their religion reside in rural areas, majority of Christians and Sikhs reside in urban areas. A comparative data for 1991 Census is provided in the annexure.

A : Actual P : Percentage

Talukwise distribution of population following major religion is presented above. As far as the district is concerned, majority of the population follow Hindu faith in all the taluks. This is followed by Muslims and Jains in Belgaum district. A comparison between 1991 and 2001 Census data expose marginal variations in different faiths persuaded by the population during the decade.

ANNEXURE VI - MARITAL STATUS OF POPULATION IN BELGAUM DISTRICT - 1991 & 2001

Marital Status	1991			2001

Total	**3,583,606**	**2,741,820**	**841,786**	**4,214,505**	**3,201,814**	**1,012,691**
	100.00	**76.51**	**23.49**	**100.00**	**75.97**	**24.03**

It may be seen from Annexure VI that the percentage of “Never Married” population accounts for 49.24 per cent and 47.45 per cent at state and district levels during 2001 Census, while the same was 52.05 per cent and 49.14 per cent during 1991 Census. Similarly the percentage figures of the district for Married, widowed and Divorced or Separated are 46.71, 5.29 and 0.53 per cent during 2001 Census. Comparative data for 1991 Census is also furnished in the table for ready reference. The percentage variation of all the marital categories between rural and urban is marginal in both state and district population.

The level of education by sex for the district and the State during 1991 and 2001 Census are presented in the above annexure. It can be seen that percentage of illiterates during the decade has decreased vis-a-vis for the State and the district. Though the male literates out number females, the

percentage of women folk acquired literacy during the decade is more than the male population. The comparison of data for the two censuses reveals it so for the State and the district. The different educational level attained by the population can be seen in detail in the above annexure.

ANNEXURE - VIII

DISTRIBUTION OF DIFFERENT MOTHER TONGUE RETURNED DURING 1991-2001CENSUS

As part of Census publication programme the data on spoken languages/Mother Tongues will be presented under C Series. The table C-7 shows the distribution of languages/Mother Tongues which returned 10,000 or more speakers each at all-India level (including of Mother Tongues grouped under each for the district, with total, rural/urban and male/female break ups). The unclassified Mother Tongues and the Mother Tongues having less than 10,000 speakers have been relegated to 'Other' Mother Tongue category. The table is divided into Part A-Scheduled languages with Mother Tongues grouped under each and Part B-Non-scheduled languages with Mother Tongue grouped under each. The instructions to the enumerators in regard to this question read as under.

"Record Mother Tongue in full, whatever be the name of the language returned by the person enumerated". The definition of Mother Tongue is the same as in 1991. "Mother Tongue is the language spoken in childhood by the person's mother to the person. If the mother died in infancy, the language mainly spoken in the person's home in childhood will be the Mother Tongue. In case of infants and deaf mutes the language usually spoken by the mother should be recorded. In case of doubt, the language mainly spoken in the household may be recorded".

As the above instructions to the enumerators would show, the respondent was made to feel free to return the name of his/her Mother Tongue and the same was recorded faithfully by the enumerators. This naturally leads to recording of a very large number of Mother Tongue names. It is to be mentioned that Mother Tongues as returned in the Census are basically, the designation provided by the respondents. These designations or Mother Tongue labels need not be identical with the actual linguistic mediums. For assessing the correlation between the Mother Tongue designations and actual languages and dialects the raw returns of Census were subjected to thorough scrutiny and rationalization.

The abstract of languages as Mother Tongues and their strength in the district during 1991 and 2001 Census are provided below.

STATEMENT-I
ABSTRACT OF LANGUAGES AS MOTHER TONGUES AND THEIR STRENGTH IN BELGAUM DISTRICT-1991 AND 2001 CENSUS

The statement I & II gives a clear picture of the languages spoken in the district. A closer study of 2001 Census data reveals that as many as 44 languages which returned 10,000 or more speakers are spoken in the district. The 'Other' category include Mother Tongues spoken by less than 10,000 speakers. Majority of the population speak Kannada which constitute 67.19 per cent followed by 19.84 per cent of Marati speaking population. Among the languages not specified in the Eighth Schedule to the constitution, Coorgi is spoken by 0.09 per cent of population. Similar data for 1991 is provided in the annexure.

Linguistic classification of the languages

The names of the 114 Scheduled and Non-Scheduled languages falling in the five language families are given below with the Scheduled Languages denoted as (S). Of the 18 Scheduled Languages, 13 fall in the Indo-Aryan branch of the Indo-European family, 4 in the Dravidian family and one in the Tibeto-Burmese family.
