

CENSUS OF INDIA 1971

SERIES 24

ARUNACHAL PRADESH

PART II-C(i)

SOCIAL AND CULTURAL TABLES

J. K. BARTHAKUR
OF THE INDIAN FRONTIER ADMINISTRATIVE SERVICE
DIRECTOR OF CENSUS OPERATIONS
ARUNACHAL PRADESH

JULY, 1972

Any statement made, views expressed or conclusions drawn in this report are wholly the responsibility of the author alone in his personal capacity and do not necessarily represent the views of the Government.

Arunachal Pradesh is a thinly populated hilly tract lying roughly between the latitudes 26°28′ N and 29°30′ N and the longitudes 91°30′ E and 97°30′ E on the north-east extremity of India, comprising roughly of 83,578 kilometre squares of area, bordering the international boundaries of Bhutan, Tibet, China and Burma. The Pradesh is known to be rich in flora, fauna, power and mineral potential.

When the 1971 Census was taken in Arunachal Pradesh, the area was known as the North East Frontier Agency (NEFA in short) which was constitutionally a part of the State of Assam. At that time NEFA was directly administered by the President of India through the Governor of Assam as his agent, who was assisted by an adviser. The office of the Adviser to the Governor of Assam was situated at Shillong, the capital of the Assam State.

On the 21st. January, 1972, NEFA has been made into a Union Territory with the new name of Arunachal Pradesh under the Provisions of the North Eastern Areas (Reorganisation Act 1971, 81 of 1971) and placed under the charge of a Chief Commissioner with his headquarters at Shillong, now the capital of the State of Meghalaya.

FIGURES AT A GLANCE

ARUNACHAL PRADESH

1. Area (Provisional) : 83,578 Km²
2. Population : 467,511
3. Density of population per Km² : 6
4. Number of circles : 77
5. Average population per circle : 6,072
6. Number of Towns : 4
7. Number of inhabited villages : 2,973
8. Number of uninhabited villages : Nil
9. Number of occupied residential houses : 73,180
10. (i) Number of households : 94,646
    (ii) Number of residential households : 92,898
    (iii) Number of Institutional households : 1,309
    (iv) Number of Houseless households : 439

11. Household size :

Category	Total Rural Urban	Population			Household	Household size
		Persons	Males	Females		
1	2	3	4	5	6	7

INTRODUCTION

CENSUS OF INDIA 1971

ARUNACHAL PRADESH

SOCIAL AND CULTURAL TABLES

Distribution of population by [redacted] religion and Scheduled Castes and Scheduled Tribes

INTRODUCTION

This volume presents the social and cultural tables of 1971 Census with regards to [redacted] religion, Scheduled Castes and Scheduled Tribes of Arunachal Pradesh. The remaining social and cultural tables will be given in the Part II C (ii) volume of the census publications. That volume will contain also the tables on fertility.

The different regions of Arunachal Pradesh were included in the districts of Assam prior to 1914. In 1914, these areas were made into separate 'Tracts' called the North East Frontier Tracts by a Government of India notification with the following administrative units,

(i) The Western Section,
(ii) The Central and Eastern Section, and
(iii) The Lakhimpur Frontier Tract.

Entry of a British subject or of a foreign resident into the North East Frontier Tracts, was regulated by an 'Inner Line' which was prescribed by the then Lieutenant Governor of Assam in exercise of the special powers conferred upon him under the provisions of the Regulation V of 1873 (Regulation for the peace and government of certain districts on the eastern frontier of Bengal). The purposes of the enactment were (1) 'to bring under more stringent control the commercial relation of the British subject with the Frontier Tribe' ; (2) 'to prevent operation of speculators in caoutchouc' and the spread of the gardens beyond the fiscal limits of settled Mahals, and (3) to lay down rules for possession of land and property beyond the 'Line'. A number of notifications were issued by the Government of India defining the exact extent of the Inner Line from 1875 to 1954.

In 1919, the Western Section was renamed as the Balipara Frontier Tract and the Central and Eastern Section was renamed as the Sadiya Frontier Tract. In 1921 Census reports, data relating to the Balipara Frontier Tract, the Sadiya Frontier Tract and the Lakhimpur Frontier Tract were published. But these data suffered from the limitation of coverage. The erstwhile British Government left the area alone as much as possible because it yielded no revenue and bringing it under an effective administration was too expensive. The limitation remained unchanged till 1961 when the independent India affected a complete coverage of the area under census with a determination and purposefulness. The country was keen to develop the hitherto neglected area and bring it at par with rest of the country. In the meantime, lots of administrative changes had taken place in the Frontier Tracts. In 1943, a Tirap Frontier Tract was created by carving out some portions of the Sadiya Frontier Tract and the Lakhimpur Frontier Tract. In 1946, the Balipara Frontier Tract was divided into Se La Sub Agency and Subansiri Area. In 1948, the remaining portion of the Sadiya Frontier Tract was bifurcated into two separate administrative charges, namely, the Abor Hills District and the Mishmi Hills District.

In 1954 some portions of the Frontier Tracts were transferred to the administrative jurisdiction of the Government of Assam and the remaining portion was called the North East Frontier Agency. Under the regulation of 1954, the following administrative units of the North East Frntier Agency were constituted with redefined boundaries,

(1) Kameng Frontier Division,
(2) Subansiri Frontier Division,
(3) Siang Frontier Division,
(4) Lohit Frontier Division,
(5) Tirap Frontier Division, and
(6) Tuensang Frontier Division.

In 1957, Tuensang Frontier Division was excluded from the North East Frontier Agency.

Prior to conduct of the 1961 Census, the North East Frontier Agency Administration covered the entire Agency with a 'Human Population Survey' and prepared the estimates of population for the purpose of meeting the administrative requirements. 1961 Census largely followed the methodology of the 'Human Population Survey' and covered the entire Agency with a non-synchronous census using a simplified household schedule instead of the Individual Slips canvassed in the remaining parts of the country. However, on an experimental basis, Individual Slips were canvassed in 69 places. All India time schedule of enumeration was maintained in 11 places whereas in the remaining 58 places the slips were canvassed over an extended period of time. This experiment turned out to be of immense value while planning the 1971 Census.

In 1965, the Frontier Divisions of the North East Frontier Agency were renamed as Districts and the Political Officers, the Additional Political Officers and the Assistant Political Officers, through whom the district administration was carried out, were redesignated as the Deputy Commissioners, the Additional Deputy Commissioners, the Assistant Commissioners and the Extra Assistant Commissioners.

1971 Census

At the time of taking of 1971 Census, the North East Frontier Agency was a part of Assam administered directly by the President of India through the Governor of Assam as his agent. The Governor of Assam was assisted by an adviser. The office of the Adviser to the Governor of Assam was located at Shillong, the capital of the Assam State. In 1972, the Agency was made into a Union Territory and renamed as Arunachal Pradesh. A Chief Commissioner was appointed to act as the Administrator of the newly created Union Territory. The headquarters of the Chief Commissioner of Arunachal Pradesh is located at Shillong, the capital of the Meghalaya State.

1971 Census covered the entire Arunachal Pradesh with all India schedules of enquiry and methodology. However, the coverage of the Pradesh under census was nonsynchronous like 1961 Census. The census enumeration in the snow bound and inaccessible areas of Arunachal Pradesh started by the first day of October, 1970, although the bulk of the enumeration work was carried out as close to the all India period of enumeration as possible.

The conduct of enumeration work in 1971 Census was planned to be carried out from the twentieth day of February, 1971 to end by the sunrise of the first day of March, 1971 which was fixed as the reference day for 1971 Census. But, because of the exigency created by the mid term poll for the Parliamentary Constituencies, the reference day was later changed to the sunrise of the first day of April, 1971 and actual work of enumeration was carried out from the twentieth day of March, 1971 onwards. Revisional rounds were carried out

for three days after the reference date. However, it was not possible to carry out the revisional rounds in Arunachal Pradesh except in the circle, the subdivisional and the district headquarters. Therefore, the figures yielded by the 1971 Census with respect to Arunachal Pradesh, are *dejure* in character and not *extended defacto* like other parts of the country.

SCHEDULES

The census data are required to be used by the divergent bodies engaged in research and development of the country. The requirements of research and development of the country do not stay stationary, and therefore, it is necessary that the concepts and definitions of various terms used for census, and the census schedules are reviewed by the data users and administrative machinery responsible for carrying out of the census, prior to taking of a decennial census. With this in view, the Registrar General, India drafted his census questionnaires after consulting the Planning Commission, Ministries of the Government of India, Chambers of Commerce, Statistical Organisations and other users of census data. These draft schedules were tested all over the country to appreciate their suitability. The results of this test were again reviewed in consultation with the data users. After taking everything into consideration, the schedules were drafted for a second time and again tested. Arunachal Pradesh also took part in the second testing of the draft schedules utilising the good offices of the district authorities. The comments of the field agency conducting the second test were reviewed by the Registrar General, India and other data users, which led to finalisation of the schedules to be canvassed in 1971 Census.

The main schedules consisted of the following :

(1) Individual Slip,

(2) Houselist, and

(3) Establishment Schedule.

In addition to these, the following important subsidiary schedules were also finalised :

(1) Population Record,

(2) Enumerator's Abstract,

(3) Enumerator's Daily Posting Statements, and

(4) Houselist Abstracts.

The Individual Slip

The Individual Slip contained 17 main questions and covered the following with respect to each individual.

(1) Name,

(2) Relationship to head of household,

(3) Sex,

(4) Age,

(5) Marital status,

(6) For currently married women only

  (a) Age at marriage,

  (b) Any child born in the last one year,

(7) Particulars of birth place : (a) Place of birth (b) Rural/Urban differentiation (c) District of birth (d) State or country of birth,

(8) Particulars of last residence : (a) Place of last residence (b) Rural or Urban (c) District (b) State or country,

(9) Duration of residence at the village or town of enumeration,

(10) Religion,

(11) Name of the Scheduled Caste or Scheduled Tribe if the person belonged to one,

(12) Literate or illiterate,

(13) Highest educational level attained,

(14) Mother Tongue,

(15) Other languages known,

(16) Main activity

(a) Broad category

(i) In case of an economically active worker, if the person is a cultivator, agricultural labourer or engaged in household industry or doing other work,

(ii) In case of a non-worker, if the person was engaged in household duties, or was a student, or a retired person, or a rentier or royalty receiver, or a dependent such as infant or disabled, or a very old person or a beggar or vagrant, or an inmate of a penal or charitable institution, or others not employed,

(b) Place of work,

(c) Name of establishment,

(d) Nature of industry, trade, profession or service,

(e) Description of the occupation, and

(f) Worker status, such as employer, employee, single worker or unpaid family worker,

(17) Secondary work,

(a) Broad category such as cultivator, agricultural labourer, engaged in household industry or other work,

(b) Place of work, etc., as in Question 16(b) to (f).

The Individual Slip is a fairly comprehensive schedule which attempts to collect all essential demographic, social and economic characteristics of every individual that can possibly be collected at an operation of this nature. Any attempt to collect more would be beyond the capacity of the census agency as it is constituted now. The concepts have to be as simple as possible and such as could be easily understood and applied by the census enumerator who is basically a Primary School Teacher. The census questions should also be such as would not require deep probes.

The new features of the 1971 Census Individual Slip as compared to that of the 1961 counterpart are : (i) an attempt is made to collect data on current fertility, (ii) migrational particulars with reference to the place of last residence are collected, and (iii) considerable departure is made in respect of the economic questions. The main activity of a person was ascertained according as he spent his time basically as worker producing goods and services or as a non-worker. For regular work in industry, trade or services, the reference period was the week prior to the enumeration and for seasonal work such as agriculture, the last one year. The person was categorised according to the main activity returned by an individual. Where a person who was basically a non-worker such as a student or house-wife, did make some marginal contribution to work, that secondary work was recorded in question 17. Experience of the 1961 Census had shown that census was not a proper agency to collect reliable data on unemployment as such.

Therefore, the 1971 Census did not ask a question on unemployment directly but the unemployed were expected to fall in the residuary category of non-workers and data in respect of them would be provided to be utilised subject to the limitations.

The other schedules of inquiry will not be discussed in this volume as this volume presents only the tables prepared in respect of the questions 10, 11 and 12 of the Individual Slips. The presentation of this volume is a new feature of 1971 Census and is intended to meet the demand on these information on a priority basis befere other tables are finalised

The instructions given to the enumerators for recording answers to the questions 10, 11 and 12 of the Individual Slip may be seen from paragraph 62 to 75 in the "Instructions to enumerators for filling up the Individual Slip", which appears as Appendix B to this volume.

The following tables are presented in this volume :

C VII	Religion
Appendix to Table C VII	Details of combined entries in columns 18 and 19 under 'Other Religions and Persuasions' of table C VII
C VIII Part A	Classification by literacy and Industrial category of workers and non-workers according to main activity among Seheduled Castes
C VIII Part A Appendix I	Scheduled Castes classified by literates and illiterates
C VIII Part A Appendix II	Scheduled Castes classified by literates and illiterates (upto town and circle levels)
C VIII Part B	Classification by literacy and Industrial category of workers and non-workers according to main activity among Scheduled Tribes
C VIII Part B Appendix I	Scheduled Tribes classified by literates and illiterates
C VIII Part B Appendix II	Scheduled Tribes classified by literates and illiterates (upto town and circle levels)

The other social and cultural tables and the fertility tables will be presented in the publication Part II C (ii).

DISTRICTS

There are five districts in Arunachal Pradesh. In the western part of Arunachal Pradesh, the Kameng District covers an area of 13,724 kilometre squares roughly between 91°30′ to 93°22′ E longitudes and 26°54′ to 28°01′ N latitudes. Its northern boundary passes through the high peaks of the Himalayas that form the boundary between India and Tibet. In the East lies the Subansiri District of Arunachal Pradesh. The southern boundary adjoins the Darrang District of Assam. The western boundary of the district demarcates Bhutan from India.

The Subansiri District lies East of the Kameng District covering approximately 14,797 Kilometre squares of area. This district is situated approximately between latitudes 26°53′ N and 28°23.5′ N and longitudes 92°41′ E and 94°22′ E. It is bounded by Tibet to the North, the Siang District to the East, the Assam State to the South and Kameng District in the West.

In the central part of Arunachal Pradesh, the Siang District cowers an area of 23,723 kilometre squares lying roughly between 93°11′ to 95°35′ E longitudes and 27°33′ to 29°20′ N latitudes. It is bounded by Tibet in the North, the Lohit District in the East, the Assam State in the South and the Subansiri District in the West.

In the Eastern part of Arunachal Pradesh, the Lohit District covers an area of 24, 427 kilometre squares roughly between 95°15′ to 97°30′ E longitudes and 27°33′ to 29°30′ N latitudes. It is bounded by the Siang District in the West, Tibet and China in the North, China and Burma in the East and the Tirap District and the Assam State in the South.

The district of Tirap covers an area of 6,907 kilometre squares and lies roughly between the latitudes 26°28′ N and 27°33′ N and longitudes 95°10′ and 97°11′ E. The district lies on the south-eastern corner of Arunachal Pradesh, bounded on the North by the Dibrugarh District of Assam and the Lohit District of Arunachal Pradesh, on the East and the South by Burma, and on the West by Nagaland and the Sibsagar District of Assam.

The district of Siang contains the largest population (121,936) whereas the Lohit District contains the smallest population (62,865). The following table gives the districtwise population of Arunachal Pradesh with sex break-ups.

Statement 0.1

DISTRIBUTION OF POPULATION BY DISTRICTS OF ARUNACHAL PRADESH

Arunachal Pradesh/ District	Persons	Males	Females
1	2	3	4
Arunachal Pradesh	**467,511**	**251,231**	**216,280**
Kameng	86,001	47,657	38,344
Subansiri	99,239	51,397	47,842
Siang	121,936	24,942	56,994
Lohit	62,865	35,461	27,404
Tirap	97,470	51,774	45,696

The distribution of population amongst the districts of Arunachal Pradesh is not uniform. The Arunachal Pradesh Administration has subdivided the districts into smaller units and placed them under the charges of Additional Deputy Commissioners who function more or less independently within their respective jurisdictions for the purpose of administrative convenience.

SUBDIVISIONS

The district of Kameng has been divided into 3 subdivisions, namely, Bomdila, Tawang and Seppa. The Bomdila Subdivision is placed directly under the charge of the Deputy Commissioner, Kameng District. The other two subdivisions are under the control of two Additional Deputy Commissioners.

The district of Sabansiri has three subdivisions, namely, Ziro, Daporijo and Koloriang. The Ziro subdivision is placed directly under the

charge of the Deputy Commissioner. An Assistant Commissioner is in charge of the Koloriang subdivision, who is responsible to the Deputy Commissioner, Subansiri district. The position of the Daporijo subdivision requires some explanation. The boundary between the Subansiri and the Siang districts is defined by the midstream of the Subansiri river. This definition is geographically logical as the river Subansiri forms a fixed and natural object between the two districts. However, the people of both the districts, by custom, live in villages situated at about mid-heights between the high mountains and the river valleys for various reasons. In fact, the high mountains separate the tribes. Thus, both the banks of the Subansiri river and its tributaries are well populated with similar people. This fact forced the administration to take some areas from the Subansiri district and some from the Siang district to form an independent subdivision called "Daporijo" and place it under the charge of an Additional Deputy Commissioner. At the time of taking of 1971 Census, Daporijo subdivision was administratively treated as a part of the Siang district. As such, enumeration was done by treating it as a part of the Siang district using the location code of the Siang district. However, at the time of tabulation, the correct legal boundaries between the Siang and the Subansiri districts were reflected and as a result, this subdivision and five of its circles appeared as 'Parts' under both the districts.

The district of Siang has been divided into five subdivisions, namely, Along, Mechuka, Tuting, Daporijo and Pasighat. The Along, Mechuka and Tuting subdivisions are placed directly under the charge of the Deputy Commissioner, Siang district. The Daporijo subdivision and the Pasighat subdivision are placed under the charges of two separate Additional Deputy Commissioners.

The district of Lohit is divided into three subdivisions for administrative purpose. They are the Dibang Valley subdivision, the Hayuliang subdivision and the Tezu subdivision. The Dibang Valley subdivision is under the charge of an Additional Deputy Commissioner. who is more or less independent of the Deputy Commissioner. The charge of the Tezu subdivision is held by the Deputy Commissioner. Lohit district, whereas the charge of the Hayuliang subdivision is held by an Assistant Commissioner who is responsible to the Deputy Commissioner, Lohit district.

The district of Tirap has been divided into two subdivisions, namely, Khonsa and Niausa, now renamed as Longding. The Khonsa subdivision is placed directly under the charge of the Deputy Commissioner, Tirap district. The other subdivision is under the control of an Extra Assistant Commissioner who is responsible to the Deputy Commissioner, Tirap.

Statement 0.2

THE SUBDIVISIONS OF ARUNACHAL PRADESH BY THE JURISDICTIONS OF DEPUTY COMMISSIONERS AND ADDITIONAL DEPUTY COMMISSIONERS AND POPULATION WITH SEX BREAKUPS

	Jurisdiction			Population		
District	Name of the administrative unit under charge of Deputy Commissioner or Additional Deputy Commissioner	Designation of officer in charge	Name of subdivision	Persons	Males	Females
1	2	3	4	5	6	7
Kameng	Bomdila	Deputy Commissioner	Bomdila	32,113	19,329	12,784
	Tawang	Additional Deputy Commissioner	Tawang	18,754	10,121	8,633
	Seppa	Additional Deputy Commissioner	Seppa	35,134	18,207	16,927
Subansiri	Subansiri	Deputy Commissioner	..	80,914	41,705	39,209
			Ziro	62,127	32,066	30,061
			Koloriang	18,787	9,639	9,148
	*Daporijo	Additional Deputy Commissioner	Daporijo	32,014	16,392	15,622
Siang	Siang	Deputy Commissioner	..	59,242	32,022	27,220
			Along	47,641	25,876	21,765
			Tuting	5,463	2,959	2,504
			Mechuka	6,138	3,187	2,951
	Pasighat	Additional Deputy Commissioner	Pasighat	49,005	26,220	22,785
Lohit	Lohit	Deputy Commissioner	..	47,633	27,029	20,604
			Tezu	34,060	19,309	14,751
			Hayuliang	13,573	7,720	5,853
	Dibang Valley	Additional Deputy Commissioner	Dibang Valley	15,232	8,432	6,800
Tirap	Tirap	Deputy Commissioner	..	97,470	51,774	45,696
			Khonsa	67,826	36,417	31,409
			Longding	29,644	15,357	14,287

* The Daporijo subdivision is created by carving out parts of Subansiri and Siang districts. As the area carved out of Subansiri district is more than that of Siang district, Daporijo is shown under Subansiri district.

CIRCLES

The lowest unit of administration is a circle which is looked after by a Circle Officer or an Extra Assistant Commissioner. A circle is defined as a group of villages and not as a territorial unit.

The administrative set up as was available for taking census and defined by the Administration's Order No. GA/APTT/288/65 dated 22. 12. 1966, is given below in summary.

Statement 0.3

THE CIRCLES OF ARUNACHAL PRADESH BY SUBDIVISIONS AND DISTRICTS

District	Subdivision	Circle

		2. Banfera (Renamed as Kamnyu)
		3. Pongchou
		4. Wakka

Stages of taking census in Arunachal Pradesh

The conduct of 1971 Census in Arunachal Pradesh passed through the following stages :

STAGE I : Location of the villages and collection of primary data to determine the number of schedules etc. to be used.

The shifting nature of the villages of Arunachal Pradesh presents a major difficulty in carrying out a large scale administrative operation like census. The people of Arunachal Pradesh largely practise the shifting cultivation which is commonly known as *'Jhum'*. Jhum consist of clearing of a patch of land after a number of years that comprises the *'Jhum Cycle'*, by cutting and burning the overgrowth, and then growing of a mixed crop thereon usually for one or two seasons, after which the patch is abandoned and another patch is opened for the next year's cultivation. *'Jhum Cycle'* or the number of years after which a particular patch of land is cleared for cultivation, varies usually from 7 to 10 years depending upon the availability of land and population. As a result of this, the people have to carry out their cultivation work over a wide area and consequently, have developed a tendency to shift their habitations as close to the cultivation fields as the circumstances permit. In addition to this, the traditional insecurity of the tribes as a result of the inter-village and inter-tribe feuds, had developed the habit of large scale internal migrations of the people. The shifting nature of the villages renders the job of keeping track of the inhabited villages rather difficult.

Therefore, the first effort directed towards conduct of 1971 Census was to compile a list of the existing villages of Arunachal Pradesh. The job was started in 1968 and could be completed in about 18 months. The district authorities utilised the agency of the Village Level Workers and listed all the villages under their jurisdictions. In doing so, they also prepared a notional map of the village, counted the number of houses and the persons living in each village. This information became extremely useful at the stage of planning the field work by providing a firm frame for carrying out the 1971 Census enumeration, and also for estimating the requirements of schedules and instruction booklets.

It may be mentioned that in Arunachal Pradesh only the districts are defined as territorial units. The administrative set ups below the levels of the districts are not defined as territorial units. A subdivision is a group of circles and the circles are a group of villages, whereas the villages are the groups of houses recognised by tradition and custom as villages.

The administrative set up of Arunachal Pradesh is defined by an administrative circular of 1966. In this circular, the circles and the subdivisions under the districts are defined by the names of the villages contained in each. The list of the villages was not exhaustive and in many cases the district authorities were given the discretion to work out a fuller list of villages under the circles. This circular formed the basis upon which 1971 Census was taken in Arunachal Pradesh. A good number of marginal adjustments had to be done in defining the circles with the names of the villages in consultation with the district authorities.

STAGE II : Building up of the census hierarchy and other preparatory work.

The legal basis for taking census is provided by the Indian Census Act (Act No. XXXVII of 1948). Under the provision of this Act, the Deputy Commissioners of the five districts of Arunachal Pradesh were appointed as the District Census Officers and the five Additional Deputy Commissioners were appointed as the Subdivisional Census Officers by the Governor of Assam. Under the provisions of the North East Frontier Agency (Construction of References to the State Governments) Regulation 1965, a reference to the State Government is to be constructed to be the reference to the Governor of Assam. These Census Officers were assisted by the Deputy District Census Officers and the Assistant Subdivisional Census Officers. The Assistant Commissioners and the Extra Assistant Commissioners incharge of more than one circle, were appointed as the Charge Superintendents (Senior). The Circle Officers and the Extra Assistant Commissioners incharge of circles were appointed as the Charge Superintendents. Each administrative circle was treated as a 'Census Charge'. Under the Charge Superintendents, a number of enumerators carried out the actual census work supervised by the supervisors.

The preparatory work consisted of redrawal of the village notional maps using as conventional symbols as possible so that they could be used by the general run of the enumerators ; procurement of schedules and instruction booklets from the Registrar General, India and their despatch to the districts and out posts ; training of the Census Officers at all levels ; and making special arrangement for enumeration of special establishments functioning in Arunachal Pradesh.

STAGE III : Housenumbering, houselisting, and census enumeration.

The housenumbering, the houselisting and the census enumeration were carried out in Arunachal Pradesh during a single visit of the enumerator to a village. The census enumerator

carried with him a ferro-printed copy of the notional map of the village drawn by the Village Level Workers about 2 years back. On arriving at a village, the enumerator checked the notional map of the village with the layout of the village and corrected it by introducing new house symbols wherever a house was found to have been constructed after the notional map was prepared, and encircling and crossing out the houses that were found to have been dismantled since then. After he had satisfied himself that all the houses of the village were correctly recorded on the notional map, he started numbering the houses from a convenient point preferably from the south-west corner of the village if it was possible and convenient. At the same time, he marked on the map the number he had put on the house against the symbol of the house appearing on the map. After he had satisfied himself that all the houses were correctly numbered, he went round the village canvassing the Houselist forms and also the Establishment Schedule whenever necessary. After completing canvassing of the Houselist and the Establishment Schedules, he went round once again, this time canvassing the Individual Slips. After completing canvassing of the Individual Slips, he made specific inquiries as to whether any house or houses existed within the village boundary in isolated hamlets and whether some people lived in the field houses. In case of a reply in affirmative, he visited the hamlets and the field huts and collected the required information in all the schedules. Simultaneously with filling in of the Individual Slips, the enumerator filled in the subsidiary schedules like Population Records, the Enumerator's Daily Posting Statement and finally the Enumerator's Abstract and the Houselist Abstract.

The enumerator kept the copies of the filled in schedules inside a polythene paper bag supplied to him for the purpose, and handed them over to the Supervisor or the Charge Superintendent concerned in a lot.

STAGE IV : Provisional population total.

The Charge Superintendent totaled the figures given in the Enumerator's Abstract and communicated the provisional population totals with respect to his Charge by utilising the available telegraphic or wireless facilities, or by sending a special messenger, to the Deputy Commissioner or the Additional Deputy Commissioner and simultaneously to the Director of Census Operations, Arunachal Pradesh. The Additional Deputy Commissioners consolidated the population totals reported to him by the Charge Superintendents and communicated the same to the Deputy Commissioner and the Director of Census Operations, Arunachal Pradesh. The Deputy Commissioners consolidated the information received from the Additional Deputy Commissioners and also from the Charge Superintendents placed directly under his charge and communicated the provisional population totals with respect to their districts, to the Registrar General, India and the Director of Census Operations, Arunachal Pradesh. The Director of Census Operations, Arunachal Pradesh consolidated the information received from the Deputy Commissioners and compared them with the information received directly from the Charge Superintendents and the Additional Deputy Commissioners, and communicated the provisional population totals for Arunachal Pradesh to the Registrar General, India. The Registrar General, India, consolidated the information received from all other States, Union Territories and other areas, and arrived at the provisional population total for the country and released the same to the press and other users. The provisional population total figures for the States, Union Territories and other areas were released by the Directors of Census Operations immediately afterwards. On the 20th April, 1971 the booklet called 'Paper-I of 1971—Provisional Population Totals' was taken out by the Director of Census Operations, Arunachal Pradesh which was followed by a 'supplement' released on the first day of May, 1971.

C VII

TABLE C-VII

RELIGION

This table gives the distribution of the population by religion. There will be an Appendix to this table giving distribution of the population shown under 'other religion and persuasions' in the main table, by sex and urban rural differentiation.

This table throws out data on religion of Arunachal Pradesh for the first time. During 1961 Census, the bulk of the population were covered by an abbreviated schedule that contained no question on religion. During 1971 Census, the question on religion was asked to each one of the person enumerated and the reply as returned by the person was recorded in the Individual Slip. The enumerators were specially instructed not to enter into any argument with the respondent regarding the religion returned by him or her. As a result of this approach, some very interesting information have come out with regard to the religious faith of the people of Arunachal Pradesh. Some of these will be discussed while introducing the Appendix to Table C-VII.

Out of the total of 467,511 persons enumerated in Arunachal Pradesh during 1971 Census, 170,052 or about 36.37 percent returned their religion as Buddhism or Christianity or Hinduism or Islam or Jainism or Sikhism. These religions will be referred to as 'Major religions' henceforth.

Hinduism accounts for the largest number of persons returning a Major religion. 102,832 persons or about 21.99% of the total population had returned Hinduism as their religion. Of these, 29,446 persons belong to the Scheduled Tribes of Arunachal Pradesh. The Noctes are the largest group of person belonging to the Scheduled tribes of Arunachal Pradesh returning Hinduism as their religion. 9,197 persons belonging to the Nocte tribe returned their religion as Hinduism. The Nishang or Nissi or Bangni or Dafla or Yanoo Bangni who can be grouped together in consideration of their ethnological identity, are the next large group of the Scheduled Tribes of Arunachal Pradesh that had returned Hinduism as their religion. 7,362 of these tribes had returned their religion as Hinduism. The Nishang group of tribes is followed by the Mishmi group of tribes comprising of Digaru/Taraon Mishmi, Idu/ Chulikata Mishmi, Kaman/Miju Mishmi and Mishmi, with 3,653 persons returning their religion as Hinduism. Mishing/Miri (3,102), Deori (2,132), Mikir (1,298) and the Tangsas are the tribes that had returned more than 1000 persons as Hindus.

The percentage of the Hindus to the total population of the country comes to about 83%. The only States and Union Territories that returned a percentage of Hindus to the total population lower than Arunachal Pradesh, were Meghalaya (18.5%), Nagaland (11.4%) and Laccadive, Minicoy and Amindivi Islands (4.9%).

Next to the Hindus comes the Buddhists in numerical strength. They are 61,400 in number comprising of about 13.13% of the total population of Arunachal Pradesh which is incidentally the highest incidence of the Buddhists in any State or Union Territory of the country. In absolute number also Arunachal Pradesh comes only next to Maharastra (3,264,223 Buddhists) and West Bengal (121,504 Buddhists).

Of the 61,400 Buddhists, 41,430 or 67.48% belong to the tribes of Arunachal Pradesh. The Monpa group of tribes comprising of Monpa, But Monpa, Dirang Monpa, Lish Monpa, Panchen Monpa and Tawang Monpa tribes, account for 28,209 Buddhists. The Monpa group of tribes is followed by the Khamptis with 3,899 Buddhists and then by the Mombas (2,486 Buddhists). The Singphos (1,389 Buddhists) and the Sherdukpens (1,284 Buddhists) are the tribes that had returned more than 1000 persons following the Buddhistic religion. Kaman/Miju Mishmi (805 Buddhists) and Khowa (657 Buddhists) are the other tribes returning more than 500 persons as Buddhists. It may be generally stated that the Khamptis, the Singphos and possibly the Mishmis belong to the Hinayana sect of Buddhism whereas the others belong to the Mahayana sect.

The Christians are 3,684 or about 0.79% of the total population, Sikhs are 1,255 or about 0.27% of the total population and the Muslims are 842 or about 0.18% of the total population of Arunachal Pradesh.

The Statement VII (1) given below shows the comparative picture of distribution of population of Arunachal Pradesh by religion and the rest of the country. The Statement VII (2) given next to Statement VII (1), shows the names of the tribes of Arunachal Pradesh and their numbers returning a major religion.

As many as 296,674 or 63.46% of the people of Arunachal Pradesh had returned 'other religion and persuasions' as their religious faith. It is interesting to note that all these persons belonged to the Scheduled Tribes of Arunachal Pradesh excepting 20 persons who were not members of the Scheduled Tribes of Arunachal Pradesh.

TABLE C—VII

RELIGION

APPENDIX

The details of the religions lumped together under 'other religions and persuasions' in the main Table C-VII, are shown in this appendix. As stated while introducing the Table C-VII, the 'other religions and persuasions' returned by the people of Arunachal Pradesh, are 51 in number and most of these are synonymous with the names of the tribes of Arunachal Pradesh although some interesting names like Abutani, Bhismak, Donipolo and Devadharma, have come out. In explaining these rather unfamiliar terms, it may be stated that 'Abutani' and 'Donipolo' truly represent the sentiment and the faith of the tribes of Arunachal Pradesh and indicate the direction in which the aspiration of the people of Arunachal Pradesh is probably progressing.

At a first glance, the faith of the people of Arunachal Pradesh appears to be an aggregate of customary rituals and myths. But on a closer examination the depth and the strength of the faith of the people of Arunachal Pradesh reveal themselves. The faith of the people of Arunachal Pradesh concede the existence of a benevolent God to be called 'Abutani' or 'Donipolo' or by dozen other names, who is unique, omnipresent and omniscient, and the literal meanings of these terms (Abutani the first created, Donipolo—sun and moon), do not convey the actual spiritual connotation, a fact that is so very often missed by the students of the tribal faiths of Arunachal Pradesh. God is not to be propitiated by sacrifice and other customary rituals but is to be remembered and prayed for at any place and at any time. All customary rituals are to be performed with the leave of God, but these are not to be directed towards propitiation of God. This conception of God is comparable to that of any major religion in existence.

Under this unique, benevolent, omnipresent and omniscient God, there are multitudes of supernatural beings some of whom are benevolent and some are malevolent. These supernatural beings are propitiated by customary rituals that include sacrifice of animals in different forms. In this regard, the faith of the Arunachal Pradesh tribes are similar to the Hindu faith and that is why a large number of them have returned their faith as Hinduism.

The religious identity of the people of Arunachal Pradesh may be said to be in a fluid condition. The Appendix to Table C-VII Religion merely puts together what had been returned by 296,674 respondents that did not name their religion with that of a major religion. It is interesting that 785 persons (Males—380, Females—405) did not return names of their faith. 530 of these (Males—258, Females—272) belonged to the Gelling circle of the Siang district who returned their religion as *'Ato Ayadung'* literally meaning 'I myself am good' which was treated as 'no return' against the question of religion.

APPENDIX TO TABLE C-VII

C VIII

TABLE C-VIII CLASSIFICATION BY LITERACY AND INDUSTRIAL CATEGORY OF WORKERS AND NON-WORKERS AMONG SCHEDULED CASTES AND SCHEDULED TRIBES

This table consists of two parts, Part-A relates to Scheduled Castes and Part-B to Scheduled Tribes. Each of these gives breakups for total, rural and urban population by sex literacy, Industrial classification of workers and the non-workers.

At the time of taking of 1971 Census, the North East Frontier Agency was a part of the State of Assam. The area was directly administered by the President of India through the Governor of Assam acting as his Agent. Accordingly the castes which were scheduled in Assam under 'Scheduled Castes and Scheduled Tribes lists (modification) Order 1956' (Part-II of Schedule I), were treated as Scheduled Castes and Scheduled Tribes of North East Frontier Agency, now renamed as Arunachal Pradesh. The following were the Scheduled Castes in Assam which were also treated as Scheduled Castes of Arunachal Pradesh.

(1) Bansphor
(2) Bhuinmali or Mali
(3) Brittial Bania or Bania
(4) Dhupi or Dhobi
(5) Dugla or Dhobi
(6) Hira
(7) Jalkeot
(8) Jhalo, Malo or Jhalo-Malo
(9) Kaibarta or Jaliya
(10) Lalbegi
(11) Mahara
(12) Mehtar or Bhangi
(13) Muchi or Rishi
(14) Namasudra
(15) Patni
(16) Sutradhar

The Presidential Order of 1956 mentioned in the foregoing paragraph mentions that in Arunachal Pradesh all the tribes of Arunachal Pradesh are to be treated as Scheduled Tribes of Arunachal Pradesh. At paragraph 2 of Part-II of Schedule III of the Order, an illustrative list of the tribes is provided. The relevant portion of the Order at Schedule III—Assam, reads as below :-

"In the tribal areas other than the Autonomous districts :

All tribes of North East Frontier Agency including—

(1) Abor
(2) Aka
(3) Apatani
(4) Dafla
(5) Gallong
(6) Khampti
(7) Khowa
(8) Mishmi
(9) Momba
(10) Any Naga Tribes
(11) Sherdukpen
(12) Singpho"

No tribe other than the tribe of Arunachal Pradesh is to be treated as a Scheduled Tribe in Arunachal Pradesh. The tribes scheduled in the Autonomous Districts of Assam (including present Nagaland) and in the State of Assam excluding the Tribal areas other than the Autonomous Districts of Assam, were not to be treated as the Scheduled Tribes of Arunachal Pradesh. As for example, a person belonging to the Khasi or Mizo or Garo tribes which are Scheduled Tribes in the Autonomous Districts of Assam, or to the Bodo or Kachari or Rabha tribe which are the Scheduled Tribes in the State of Assam excluding the tribal areas, were not to be treated as members of the Scheduled Tribes of Arunachal Pradesh.

The Presidential Order is illustrative and not exhaustive with respect to the tribes of Arunachal Pradesh. During 1961 Census, the names of as many as 80 tribes and sub-tribes were returned from Arunachal Pradesh. The tribe names as returned in 1961 Census are given below :—

(1) Aka or Hrusso
(2) Apatani
(3) Ashing
(4) Bangni
(5) Bangro
(6) Bhotia
(7) Bogum
(8) Bokar
(9) Bori
(10) Bugun or Khowa
(11) But Monpa
(12) Dafla
(13) Dirang Monpa
(14) Gaji
(15) Gallong
(16) Havi
(17) Hill Miri
(18) Idu Mishmi
(19) Karka
(20) Kemsing
(21) Khamba
(22) Khamiyang
(23) Khampti
(24) Khrodeng Bangni
(25) Komkar
(26) Kongbo
(27) Lish Monpa
(28) Lodung
(29) Longchang
(30) Longphi
(31) Longri
(32) Longsang
(33) Maimong
(34) Momba
(35) Miji or Dhammai
(36) Miju or Kaman Mishmi
(37) Mikir
(38) Millang
(39) Minyong
(40) Miri
(41) Moglum
(42) Monpa
(43) Morang
(44) Mossang
(45) Nishang
(46) Nissi
(47) Nocte
(48) Noknan
(49) Padam
(50) Pailibo
(51) Pangi
(52) Pasi
(53) Ramo
(54) Rongrang
(55) Sherdukpen
(56) Simong
(57) Simsa Tangsa
(58) Singpho
(59) Southern Monpa
(60) Sulung
(61) Tagin
(62) Tagin Bangni
(63) Takam
(64) Tangam
(65) Tangsa
(66) Tangsa/Changwan
(67) Tangsa/Sanke
(68) Taraon or Digaru Mishmi
(69) Tawang or Brahmi Monpa
(70) Teikam
(71) Tibetan
(72) Tikhak
(73) Tonglum
(74) Tongsing
(75) Wancho
(76) Yankan
(77) Yanoo
(78) Yobin
(79) Yongkuk
(80) Yougli

This list was found to be far from being exhaustive or exclusive. It was suspected that the names of some tribes were possibly wrongly recorded by the enumerators, or the respondent gave a mistaken indentity of his tribe. Therefore whereas the above list was used to provide a guidance to the enumerators engaged in the 1971 Census, the enumerators were cautioned not to leave out any of the genuine tribes of Arunachal Pradesh from being recorded with their correct tribe names even if the name of the tribe did not appear in the 1961 Census list. It was also deemed possible that some of the tribes had since adopted new names and preferred to return themselves under these new names. Some tribes who preferred to remain under the fold of one or the other major tribes during 1961 Census, might prefer to return a separate identity during 1971 Census. Some tribes that were shown as sub-tribes during 1961 Census, might not have a real linkage with the main tribe as the linkage of communities as tribes and sub-tribes in Arunachal Pradesh did not always follow a stable pattern. The pattern often consisted of notional

categories and the notions might vary from person to person. It was, therefore, considered fair that the individuals were enumerated under whatever tribal names they returned themselves without any attempt to group them.

These instructions resulted in returning of 110 tribe names from Arunachal Pradesh during 1971 Census.

Classification of workers :

The workers were classified into the following nine categories of economic activity.

I Cultivator,
II Agricultural labourer,
III Livestock, Forestry, Fishing, Hunting and Plantations, Orchards and Allied Activities,
IV Mining and quarrying.
V Manufacturing, processing, servicing and repairs,
(a) Household industry,
(b) Other than household industry,
VI Construction,
VII Trade and Commerce,
VIII Transport, storage and communications,
IX Other services.

Concepts and definitions :

Worker : A 'worker' was a person whose main activity was participation in any economically productive work by his or her physical or mental activity. Work involved not only actual work but effective supervision and direction of work.

Cultivator : For the purpose of census, a person was working as cultivator if he or she was engaged in cultivation by oneself or by supervision or direction in one's capacity as the owner or lessee of land held from Government or as tenant of land held from private persons or institutions for payment of money, kind or share.

Agricultural labourer : A person who worked in another person's land for wages in money, kind or share was regarded as an agricultural labourer. He or she had no risk in the cultivation, but he or she merely worked in another person's land for wages. The labourer could have no right of lease or contract on land on which he or she worked.

Household Industry ; A Household industry was defined as an industry conducted by the head of the household himself/herself and/or mainly by the members of household at home or within the village in rural areas and only within the premises of the house where the household lived in urban areas. The industry was not to run on the scale of a registered factory.

Non-worker : The non-workers had been classified into the following categories :

Household duties : This covered all those persons basically engaged in unpaid home duties doing no other work and even if such a person might also be participating in some other work, it was not to the same extent as a whole-time worker.

Student : This refers to those whose main activity was returned as a student. This covered all fulltime students or children attending school, even if such person participated in some work, but not to the extent as fulltime worker, by merely helping casually as an unpaid family worker.

Retired person or a Rentier : A person who had retired from service and was doing no other work or a person who was rentier or living on

agricultural or non-agricultural royalty, rent or dividend, or any other person of independent means for securing which he did not have to work, fell in this category.

Dependent : This category included all dependents such as infants or children not attending school or a person permanently disabled from work because of illness or old age.

Beggars : This category covered beggars, vagrants or such cases as independent women without indication of sources of income and those of unspecified sources of subsistence and who were not engaged in any economically productive work.

Institutions : This covered convicts in jails or inmates of a penal, mental or charitable institution even if such persons were compelled to do some work such as carpentry, carpet-weaving, vegetable growing etc. in such institutions.

The details instructions how to fill up the Individual Slip as regards work appears as Appendix-II at the end of this volume.

TABLE C-VIII PART—A

This table gives the total population of Scheduled Castes according to sex and literacy with urban and rural breakups by the districts of Arunachal Pradesh. The columns 10 to 31 give the breakups of the Scheduled Caste workers into nine Industrial categories with male and female breakups. The columns 32 and 33 give non-workers with male and female breakups.

In Arunachal Pradesh, there were 339 Scheduled Castes people out of which 178 were males and 161 were females. Out of these, 94 males and 29 females were literates. Out of 339 persons, 335 lived in the rural areas and only 4 lived in the urban areas.

The Scheduled Castes population was concentrated in the Lohit district, in other districts only 20 Scheduled Caste persons were enumerated. In Lohit, there were altogether 319 Scheduled Castes people (165 males and 154 females) all belonging to rural areas. Amongst these, 107 (82 males and 25 females) were literates.

Out of the total Scheduled Castes population of 339, 100 were workers (98 males and 2 females), and 239 were non-workers (80 males and 159 females). 3 male workers were from the urban areas where as the rest were from rural areas.

Of the total of 100 workers, 87 workers (85 males and 2 females) were from Lohit district. All the cultivators and agricultural labourers belonged to Lohit district. The remaining workers were 'Other Workers' (category IX). The Statement VIII A.1 gives the percentage distribution of the Scheduled Caste workers.

TABLE C-VIII PART-A
APPENDIX-I

This table gives the population, literates and illiterates of the different Scheduled Castes of Arunachal Pradesh with sex and rural, urban breakups.

Kaibarta is the most numerous caste in Arunachal Pradesh. They are 326 in number (324 Rural and 2 Urban), 317 of whom (all rural) came from the Lohit district. Bania, Dholi, Hira, Muchi and Namasudra are the other five Scheduled Castes found in Arunachal Pradesh, whose representations are of less than five persons for each caste.

TABLE C-VIII-A

APPENDIX-II

This table gives the total, literate and illiterate population of the Scheduled Castes of Arunachal Pradesh by sex, caste and location upto the circle and town levels. Excepting that in the Chowkham Circle of the Lohit district there was a concentration of Kaibarta caste, the representation of the Scheduled Castes in different districts other than Lohit, is not significant.

(Concluded.)

TABLE C-VIII PART B.

This table is identical with Table C-VIII Part A except the fact that it gives the information regarding the Scheduled Tribes of Arunachal Pradesh and not of the Scheduled Castes.

Statement VIII B. 1

SEX RATIO OF THE SCHEDULED TRIBES OF ARUNACHAL PRADESH

Arunachal Pradesh/ District	Sex ratio (Females per 1000 males)		
	Total	Rural	Urban
Arunachal Pradesh	**1007**	**1009**	**765**
Kameng	984	985	838
Subansiri	1015	1015	..
Siang	1018	1027	721
Lohit	1018	1017	1077
Tirap	996	996	..

The above statement shows that for Arunachal Pradesh there are 1007 females for 1000 males amongst the Scheduled Tribes. Leaving out one or two States of India—there is an overall imbalance of male to female ratio all over the country. But in Arunachal Pradesh the ratio is more or less balanced with respect to the Scheduled Tribes population. For urban areas the ratio is disproportionate.

In Arunachal Pradesh there are 369,408 Scheduled Tribes people in a total population of 467,511 of the Territory. The statement below shows the increase of the Scheduled Tribes population over the decade.

Statement VIII B. 2

GROWTH OF SCHEDULED TRIBES POPULATION

Arunachal Pradesh/ District	Scheduled Tribes Population 1961			Scheduled Tribes Population 1971			Growth of Scheduled Tribes 1961-71 (Percentage)		
	Persons	Males	Females	Persons	Males	Females	Persons	Males	Females
1	2	3	4	5	6	7	8	9	10
Arunachal Pradesh	**298,439**	**148,245**	**150,194**	**369,408**	**184,076**	**185,332**	**23.78**	**24.17**	**23.40**
Kameng	55,777	27,772	28,005	67,877	34,217	33,660	21.69	23.21	20.19
Subansiri	70,852	35,152	35,700	90,242	44,785	45,457	27.37	27.40	27.33
Siang	89,556	44,723	44,833	105,833	52,441	53,392	18.18	17.26	19.09
Lohit	27,150	13,175	18,975	36,611	18,140	18,471	34.85	37.69	32.22
Tirap	55,104	27,423	27,681	68,845	34,493	34,352	24.94	25.78	24.10

The net increase of Scheduled Tribes over the decade is 23·78% which compares favourably with the all-India growth. The growths of males and females were 24·17% and 23·40% respectively. The growth rates in the districts had not been steady. This aspect was discussed in the Part II A of Census of India 1971 Publications taken out for Arunachal Pradesh. The following statement shows how different were the overall growth rates of districts of Arunachal Pradesh when compared to the growth rates of the Scheduled Tribes.

Statement VIII B. 3

GROWTH OF POPULATION IN ARUNACHAL PRADESH

Arunachal Pradesh/ District	Percentage growth rate of total population 1961-71		
	Persons	Males	Females
1	2	3	4
Arunachal Pradesh	**39.91**	**41.40**	**36.13**
Kameng	23.01	22.83	23.24
Subansiri	31.45	30.34	32.67
Siang	27.67	30.40	24.70
Lohit	74.38	86.23	61.12
Tirap	63.56	69.19	57.63

Literacy :

The statement below gives the literacy rates both for total population and the Scheduled Tribes population separately. On the whole the literacy rate is low compared to the country as a whole.

Statement VIII B. 4

LITERACY OF TOTAL AND SCHEDULED TRIBES POPULATION

	R	11.22	18.06	3.48	4.76	8.20	1.30
	U	..	..	..	..	..	..

T—Total R—Rural U—Urban

The overall literacy rate is 11·29% for Arunachal Pradesh, the male or female percentages being 17·82 and 3·71 respectively. For the Scheduled Tribes population, the percentage literacy is only 5·25, the male and female percentages being 8·72 and 1·70 respectively. The literacy rates for rural and urban areas vary being 9·79 and 50·46 respectively. The rates of rural and urban literacy amongst the Scheduled Tribes of Arunachal Pradesh are 4·92 and 34·85 respectively. The wide rural and urban differential is explained by the obvious facts.

Workers and non-workers:

The two Statements VIII B.5(a) and VIII B.5(b) given below, give the workers the and non-workers. Arunachal Pradesh, has 269,542 workers and 210,611 Scheduled Tribe workers. The percentage of workers to total population is 57·65 while the percentage of workers to total Scheduled Tribes population is 57·01. The work participation of the females of the Scheduled Tribes compares very well with that of the males. What is interesting is that the urbanised Scheduled Tribes are very different than their rural counterparts so far as participation in work is concerned. Here they follow the norm set by the 'Others' : fewer workers to the total population and very few women returning as workers.

43·99% of the Scheduled Tribes are non-workers, the male and female percentages being 41·86 and 44·11 respectively.

Statement VIII

The Statement VIII B.6 below will show the distribution of the Scheduled Tribe workers into 9 working categories in terms of percentage. About 95% of rural population are engaged in cultivation. In other categories the percentages are negligible specially in the categories from II to VIII. Only in the category IX there are some people.

TABLE C—VIII B
APPENDIX—I

This tables gives the population, literates and illiterates of the different Scheduled Tribes of Arunachal Pradesh with sex and rural and urban breakups. While introducing the Table C—V it was stated that the tribes of Arunachal Pradesh had developed putative relationship amongest themselves or relationship based on real ethnological ground to find a larger indentity outside the confines of their tribe names. The Adi group of tribes, the Nishag group of tribes, the Monpa group of tribes, the Mishmi group of tribes and the Tangsa group of tribes show this tendency most prominently. The following statements give the population of these groups :

Statement VIII B.7
THE ADI GROUP OF TRIBES

APPENDIX—B

INSTRUCTIONS TO ENUMERATORS FOR FILLING UP THE INDIVIDUAL SLIP

GENERAL

As a Census enumerator, you are peforming a duty which is of great national importance. The data you provide through the census form the basis for the demarcation of electoral constituencies; the national planning largely depends on the accuracy of the census data. Census data are also depended upon heavily by the public and Government Organisations. You are privileged to be a Census enumerator. At the same time, your responsibilities are also heavy. You have to fulfil them with a sense of pride and devotion to duty.

2. For your information certain provisions of the Indian Census Act which clothes you with the legal power to canvass the census questionnaire and also prescribes your responsibilities are reproduced in Appendix I.

3. Please take particular note of the provision of sections 11 (1) (a) and (b) of the census Act which require you to perform your duty as a census officer diligently and to keep the information collected at the census confidential.

4. The Indian Census has a rich tradition and has enjoyed the reputation of being one of the best in the world. It is hoped that you will help in keeping up this good name.

Reference date and enumeration period

5. The reference date for the population Census of 1971 is the sunrise of 1st *March, 1971, *i.e.*, the census is expected to provide a picture of the population of the country as it exists at sunrise of **1st *March, 1971.** It is obviously not possible to ascertain the particulars of every individual throughout the length and breadth of the country at this fixed point of time. Therefore, the enumerator will actually commence his work of enumeration on 10th **February, 1971 and end it on †28th February, 1971. You will, therefore, have to cover your jurisdiction and enumerate every person as will be explained in the succeeding paragraphs during that period of ††19 days. But in order to bring the picture upto-date as at sunrise of 1st *March, 1971, *i.e.*, the reference date for the census, you will have to quickly go round your jurisdiction again on a revisit from 1st to 3rd *March, 1971 and enumerate any fresh arrival in your jurisdiction who might not have already been enumerated elsewhere and also take account of any fresh births that might have taken place in any of the households after your previous visit and before the sunrise of 1st *March, 1971 and fill in fresh census schedules to cover such cases. As a corollary you will have to also cancel the census schedules relating to persons who may have unfortunately died since your last visit to a household but prior to the sunrise of 1st *March, 1971. Births or deaths and arrivals of visitors that had taken place after the sunrise of 1st *March, 1971 need not be taken note of by you.

Pad No. and Slip No.

6. The census charge officer or the supervisor would have issued the required number of enumeration schedule pads of individual slips to you. Some may be in pads of 100 schedules and some of 25. On the top of the pad, the pad number would have been noted prominently by the Charge Officer. Soon after you receive your pad, you should check them and note on the right hand corner of each individual slip, within each book in the space provided for the purpose, the Pad No. as given on the top of the

* later changed to April ** later changed to March † later changed to 31st March †† later changed to 22 days
To be followed in the cases where the above asterics are used

cover and you should also allot serial number to each schedule. The serial number of the schedules will have to be given by yourself in one sequence starting with one on the first schedule of the pad and ending with 100 in case of pads of 100 schedules and ending with 25 in case of pads of 25 schedules. In some pads the actual number of schedules may by mistake be a little more or little less. The last serial number in such pads may, therefore, vary accordingly. The ultimate idea is that every slip should be allotted the pad number as well as the distinct serial number.

Location code and your jurisdiction

7. On the top cover page of each book you will also find the location code number of your village or town indicating the district number, the tehsil or thana or town number and the village number. You may find that the district No. and the tehsil No. have been already stamped on each slip in the rural pads. In the case of urban areas, the town No. may also be rubber stamped along with the district No. In rural areas you will have to note in addition the village No. and the enumerator Block No. and for towns ward No., if any, and enumerator Block No. But if on any slip, location code has not been stamped through oversight, you will have to note the combined location code No. made-up of the district No., tehsil or thana or town No. and the village/ward No. and enumerator block No. on each schedule on the left hand top corner in the space provided for the purpose. Elements of each code should be separated by oblique strokes. The enumerator block number may be noted within round brackets at the end of the location code. Please also see the instructions in para 22 below. You must get yourself fully acquainted with the complete code numbers allotted to your area. This will be intimated to you by your Census Charge Officer.

8. If you have, by any chance, been put in charge of more than one village or urban block, please make sure that you have separate pads for each village or urban block. Do not enumerate the population of a second village or a second urban block in continuation of the first in a common pad. The enumeration schedule pads of each village or urban block will have to remain separate.

9. Your appointment order would have defined your census jurisdiction. You must acquaint yourself with your jurisdiction immediately your appointment order is received. You should get to know the relevant house numbers of the houses which you are expected to visit for enumeration. Any new houses that might have come up within the limits of your jurisdiction for which no number had been allotted before, should be indicated by a sub-number to the adjoining house number. You should also know the dividing line between you and the adjoining enumerator. Make sure that he also knows the boundaries of your jurisdictions so that there is no ambiguity, and overlapping or omission. In case of any doubt you should immediately consult your Supervisor or the Charge Officer.

10. Immediately you are appointed a Census Enumerator please prepare a detailed sketch of the area allotted to you showing the streets, other prominent land marks and also the location of the actual houses that you enumerate. This sketch is important in order that your area may be identified by any one even at a later date. This sketch will also ensure complete coverage at the census. You will be required to give this sketch with your final abstract to your Supervisor immediately after the census enumeration is completed.

Persons to be Enumerated

11. While your appointment order may indicate all the houses that fall in your jurisdiction you will have to locate every household in

your area. **A household** is defined as 'the entire group of persons who commonly live together and take their meals from a common mess unless the exigencies of work prevent them from doing so'. A household can be either a one person household, *i.e.*, a person who makes provision for his own food or other essentials for living without combining with any other person to form part of a multi-person household. It may be a multi-person household, *i.e.*, a group of two or more persons who make common provision for food or other essentials for living. They may be related or unrelated persons or a combination of both. Households usually occupy a whole or part of not more than one housing unit but they may also be found living in camps, in boarding houses or hotels or other institutions or they may be homeless.

12. You will have to make note of the areas within your jurisdiction where there is a likelihood of houseless persons such as the pavement dwellers or nomads living. Those houseless persons should all be censused on the night of †28th February, 1971. You will also have to cover that night, persons living in boats, if any, in your jurisdiction.

13. All persons normally residing at a place within your jurisdiction during the census enumeration period are eligible for enumeration. A person is considered as normally residing there if he normally stays in that place during the enumeration period, *i.e.*, 10th **February till †28th February, 1971, and had in fact actually resided there during any part of the enumeration period. If a person had been away throughout the enumeration period he is not to be considered eligible for enumeration here. He will be enumerated wherever he is actually found during the enumeration period. Similarly, a person who would have normally resided at another place during the enumeration period but in fact was absent during the entire period from that place will be enumerated if he is to be found in any household in your jurisdiction as a visitor. Such persons should, however, be cautioned that they should not get themselves enumerated again in case they may move from this place.

14. Thus when you visit a household for the purpose of enumeration, you will enumerate the following persons :

(i) All those who normally stay and are present in that household during the entire period of enumeration, *i.e.*, from 10th **February to †28th February ; (both days inclusive).

(ii) Also those who are known to be normally residing, and had actually stayed during a part of the enumeration period (10-†28th February) but are not present at the time of your visit ;

(iii) Also those who are known to be normally residing and are not present at the time of your visit but are expected to return before 1st *March, 1971 ; and

(iv) Visitors who are present in household censused by you but had been away from the place(s) of their usual residence during the entire enumeration period. For the purpose of enumeration such visitors will be treated as normal residents of the place (household) where they were actually found during the enumeration period provided they have not been enumerated elsewhere.

15. You should plan out your work in such a way that you will be able to cover your entire jurisdiction in a systematic manner and you do not leave the work to be accumulated towards the end.

16. Your task is simple. You will be required to canvass only one simple Individual Slip containing 17 questions for each individual to be enumerated in your jurisdiction. You will have to later post some particulars on the Population Record and you have to also prepare an Abstract. You have to record the answers as laid down in the succeeding instructions briefly.

Census Schedule (Individual Slip)

17. The census schedule which is called the Individual Slip that you will be required to canvass is given on opposite page.

18. One slip will have to be filled for each individual in each household that you visit in your jurisdiction. You should first enumerate the Head of the household followed by the other members of the household in the most convenient order and ensure that none of the persons in the household is left out. Perhaps it is best that after enumerating the Head of the household, you cover the near relatives first such as, the wife, sons and daughters, son's wife and son's children, daughter's husband and their children forming part of the household, then distant relatives, and domestic servants or other boarders or visitors, forming part of the household and entitled to be enumerated here. *Please make repeated enquiries about infants and very young children for they are often liable to be left out of count.*

19. The various items to be canvassed on the Individual Slip are explained in the following instructions :

Pad No. and Slip No.

20. Make sure that the Pad No. and the Slip No. have been noted by you on the top right hand corner of each schedule against the item provided as already indicated earlier under the general instructions. The noting of Pad No. and the Slip No. is necessary for, you will be later required to tabulate in an Abstract certain items of information of each schedule on a separate form where you will have to indicate the Slip No. concerned against which you will be posting the data. The Pad No. is the number already furnished on the top of the enumeration schedule Pad and the Slip No. is the serial number that you will be giving for each schedule in this Pad. You are also advised to use Pads in a sequence starting with the lowest Pad number.

21. In case your jurisdiction covers more than one village or more than one urban block please ensure that you do not make use of a common pad of schedules for all the villages or urban blocks in your charge. There should be separate pads for each village or urban block even if there were a few blank schedules left over in the pad of a particular village or urban block.

Location Code

22. Though this has already been referred to generally earlier, it is worth elaborating. The location code is the method by which every village or town in a tehsil/taluk/police station/ anchal/Island in every district of a State is identified by a combination of numbers. For this purpose, every district, tehsil, taluk, police station, anchal or Island, village or town in your State would have been allotted code numbers. Your Charge Officer would have indicated to you the district, tehsil, taluk, police station, anchal or Island and the village or town numbers as also the ward number of the town pertaining to your jurisdiction. By a combination of these numbers one can exactly locate your village or town. Thus, a code number running as 10/3/46 would mean village No. 46 in Tehsil No. 3 of District No. 10 of a State,

or a code number running as 6/II/5 would mean ward No. 5 in Town No. II of District No. 6. Note that the town No. is given in roman figure to distinguish it from rural code No. At the end of the location code you should add within round brackets the enumeration block number that has been allotted to you by your Charge Officer thus 10/3/46(60) or 6/II/5(4). You will be indentified by enumerator's block number and this has to be entered in your Daily Posting Statement. (The enumerators' block numbers will be a continuous number for the tehsil/taluk/town, *etc.*).

23. Make sure that you know the correct location code of the area allotted to you. You should note down the location code on each blank individual slip immediately the enumeration pads are issued to you. This will save you the trouble of noting the location code number later when you actually visit each household within your block for enumeration. When you visit the household you may have to then note only the household number as indicated in the next para by the side of the location code number which you would have already indicated.

Household No.

24. The identifying household number of the household that you are covering at the Census should be noted within the square brackets provided for the purpose. As you may be aware, Houselisting and House-numbering operation was undertaken during 1970 with a view to numbering each census house and locating all households living in census houses. In the course of this operation, each census house was given a number and households found therein would also have been allotted a number. The census house numbers would be painted on the houses at prominent place, like the pillar of the main gate, top of the main door, *etc.* Sometimes there may be more permanent house-numbering plates affixed. In the case of thatched houses, numbers may have been written out on a tin plate or wooden board and left with the households with a request to preserve the same. You should use this number.

25. It may happen that when you visit your area for census taking you may come across some census houses which did not exist at the time of houselisting and therefore, no numbers had actually been allotted to them. You should allot a number after consulting the order of numbering prevailing in your jurisdiction (Please see Appendix II) and locate the households living therein. For example, if in between buildings 9 and 10 another building has come up; you should allot the number 9/1 to this structure and in case more than one building has come up numbers like 9/1, 9/2, 9/3 and so on should be used for the new structures, then locate the census houses in accordance with the instructions in Appendix II and thereafter locate the households and allot numbers in the prescribed manner. The household number will be the same as the house number if only one household is living in a house. If there were more than one household then alphabetical sub-numbers within brackets as 19(a), 19(b), *etc.*, will have to be added to the house number to distinguish each household. It may also happen that the number given at the time of houselisting has been obliterated. You should allot the correct number having regard to the preceding and succeeding buildings.

26. For the purpose of conveniently understanding the house-numbering system, the instructions governing the numbering of buildings, census houses and households are given in Appendix II.

27. *If the household happens to be an institutional household such as a boarding house, hostel, hotel, chummery, etc., where a group of unrelated persons stay together then add 'INST' to the household number.*

28. *If you are enumerating the houseless persons, you should record 'O' boldly in the space provided for the household number.*

29. In all the individual slips pertaining to the members of the same household, the household number will be repeated. You will then start recording the particulars of each individual against questions indicated in the Individual Slip according to the instructions that follow.

Note : Please do not write anything in the spaces enclosed by dotted lines in question Nos. 2, 3, 5, 6(b), 7(b), 7(c), 7(d), 8(b), 8(c), 8(d), 9—15, 16(a), 16(d), 16(e), 16(f), 17(a), 17(d), 17(e) and 17(f). These are meant for writing code numbers in the Tabulation Offices.

Question 1 : Name

30. Write the name of the person enumerated. If a woman's name is not given out, describe her as 'so and so's wife, mother or daughter'. By custom if a woman finds it difficult to give the name of her husband and if the man is absent at the time of enumeration but his particulars have to be recorded write 'so and so's husband' if you have failed to ascertain the name even from the neighbours.

For newly born infants who have not yet been given the name write "baby" and add father's or mother's name.

Question 2 : Relationship to Head

31. In the case of the Head of household write 'Head'. The Head of the household for census purposes is a person who is recognised as such in the household. He is generally the person who bears the chief responsibility for the maintenance of the household and takes decisions on behalf of the household. The Head of the household need not necessarily be the eldest male member, but may even be a female or a younger member of either sex. You need not enter into any long argument about it but record the name of the person who is recognised by the household as its Head.

32. In the case of institutions like boarding houses, messes or friends living together in one census house, which should be regarded as households of unrelated persons living together, which may be called institutional households, the Manager or Superintendent or the person who has administrative responsibility or who by common consent is regarded as the head should be recorded as the Head of the household.

33. The Manager or Superintendent who does not stay normally in the institution should be enumerated at his place of normal residence. You should make sure before filling up the slip for the Manager or Superintendent, *etc.*, of an institutional household, that he/she has not been enumerated at any other household.

34. In the case of absence of a normal 'Head', the person on whom the responsibility of managing the affairs of the household falls, should be regarded as the Head.

35. All relationships in this question should be recorded in relation to the Head of the household. Write the relationship in full. Do not use words like 'nephew', 'niece' or 'uncle', but state whether brother's or sister's son or daughter (for nephew or niece) or father's or mother's brother (for uncle), 'Son' will include 'adopted son' or 'step son'; similarly for a daughter. In the case of visitors, boarders, or employees, write 'visitor', 'boarder', or 'employee' as the case may be. In the case of institution, the members should be recorded as 'unrelated',

36. If on the check of revisional round between 1st and 3rd *March, 1971 the Head of the household as recorded previously is found to have died, the person in the household who succeeds him by common consent as head should

be recorded as Head and the relationships in all other slips will have to be suitably corrected. The slip of the deceased Head of the household will, of course, be cancelled.

Question 3 : Sex

37. For males write 'M' and for females write 'F' within the circle indicated against this question. Even for eunuchs and hermaphrodites, write 'M' only. Verify with reference to the name and relationship to Head against questions 1 and 2 respectively that you have noted the sex correctly.

Question 4 : Age

38. Record the age of the person in total years completed last birthday. Very often there is a tendency on the part of the individuals to return 'years running' rather than the 'years completed'. Make sure that only the actual number of years completed is recorded.

39. In respect of infants who *might not have completed one year* by the day of enumeration their age in completed years should be invariably shown as 'O' as they have not yet completed one year of age and add 'Infant' in brackets. As was stated under general instructions make sure that infants even if a day old are invariably enumerated. *You should not enter the age in months.* The age of an infant who has not yet completed one year should invariably be noted as 'O' only.

40. Age is one of the most important items of demographic data and you should ascertain the age with greatest care. Many persons particularly in the rural areas cannot give their age correctly. They should be assisted to state the correct age by stimulating their memory with reference to any historical event, *etc.*, well known in the area. Sometimes the age can be ascertained with reference to the age of another person of a known age that may be in the same household or in the neighbouring household or that of a well known person of the village such as Headman of the village. A person can more easily say whether he was older or younger to such a person and by how many years. This will help you to record the age more accurately.

Question 5 : Marital Status

41. In answering this question use the following abbreviations :

NM : Never Married
M : Currently Married
W : Widowed
S : Separated or Divorced.

42. For a person who has never been married at any time before, write 'NM'. For a person currently married, whether for the first or another time and whose marriage is subsisting at the time of enumeration with the spouse living, write 'M'. Write 'M' also for persons who are recognised by custom or society as married and for the persons in stable *de facto* union. Even if a marriage is disputed in the locality write 'M' if the person concerned says he or she is married or is in stable *de facto* union. For a widowed person whose husband or wife is dead, and who has not been married again, write 'W'. For a person who has been separated from wife or husband and is living apart with no apparent intention of living together again or who has been divorced either by a decree of a law court or by an accepted social or religious custom but who has not remarried, write 'S'. For a prostitute return her marital status as declared by her.

Question 6 : For currently married women only

43. This question has to be answered in respect of all currently married women only, *i.e.*, all women whose marital status is shown as 'M'

against Q. 5. For all others a cross may be put through the two sub-parts of this question.

6(a) Age at marriage

44. *Age at marriage :* You should ascertain the age at which the currently married woman whom you are enumerating was married and record that age in completed years. If the currently married woman had been married more than once, the age at which she got married for the first time should be recorded.

6(b) Any child born in the last one year

45. *Any child born in the last one year :* You should ascertain if the currently married woman whom you are enumerating gave birth to a child in the last one year prior to the date of enumeration. Since it may be difficult for a person to reckon the exact year with reference to the English calender dates, the period of one year may be ascertained with reference to a well known festival day which falls close to **February-*March, as determined by the Census Superintendent of the State. You should ask if a child was born on or after this festival day last year to the date of enumeration. Only if the child was born alive, even if the child had died soon after birth, should the answer be 'Yes', to this question. *Still birth, i.e., a child which is born dead should not be taken into account for this purpose.* So while you should make sure that every case of birth of child born alive, even if it is not alive on the date of enumeration, is reported, you should not reckon it if the child was born lifeless.

46. It is common experience that the birth of the child may not be reported readily if the child is not actually surviving at the time of enumeration. Infant deaths are still high in the country. There is a chance of a number of such cases being missed unless specifically questioned about them. It is necessary to record all live births even if the child had died soon thereafter or had not survived to the day of enumeration. Therefore where the initial answer to this question is 'no', you should ask a specific question if there has been a case of child having been born alive in the last one year and later dying before the enumeration date. This is a delicate question and should be asked with tact in a manner not to offend the sensibility of the respondent. Where a currently married woman first answers that she had no child born in the last one year, you may perhaps question her as follows :

"It has been found in some houses that a child was born and had died soon after or a few days or months later and such cases had not been reported. It is my hope that there are no such cases here. Am I right ?"

This may bring in the required response. If she reports 'no' then you can be sure that no birth has been missed. You have to make sure that any live birth that has occured to the currently married woman in the last one year is netted whether the child is surviving till the date of enumeration or not. Similarly, probe to eliminate still births may be necessary. For example, when the answer is 'yes' under question 6(b) the enumerator might ask if the child is here in this house. If the answer is 'yes', no further question is needed. If 'no', the enumerator might ask where he has gone. The answer may be 'dead' or he has gone elsewhere. If 'dead' then the enumerator might ask when did the child die and this will bring out the fact whether or not it was a still birth.

47. Write 'Yes', if the currently married woman had given birth to a live child from the prescribed festival day last year to the date of enumeration or 'No' if she had not. In case of

twin or multiple births, write 2, 3, *etc.*, as the case may be within round brackets after the entry 'Yes'.

Note :—You may find on your revisional round from 1st to 3rd *March, 1971 that a child is born to a married woman in a household after your last visit but before the sunrise of 1st *March, 1971. You will have to take this into account and correct the answer against the Q. 6(b) accordingly. You must enquire specifically if any such birth has taken place. While ignoring still births all other births where the child was born alive even if it did not survive long should be taken into account.

Question 7 : Birth Place

43. Answer to this question has to be filled with reference to the place of birth of the persons enumerated and the particulars recorded under the four sub-items of this question.

7 (a) Place of Birth

49. Write 'PL' for a person born in the village or town where he is being enumerated. Where 'PL' is noted against this question put 'X' against sub-items (b), (c) and (d).

For those born outside the village or town of enumeration write the actual name of the place against sub-item (a) and fill the other details against sub-items (b), (c) and (d).

7 (b) Rural/Urban

50. For those born outside the village or town of enumeration ascertain if the place of birth was a village or town at the time of his birth. To enable a person to determine whether the place was a town or village he may be required to indicate the status of the place of birth in comparison with a known town in the neighbourhood of the place of enumeration. You may mention some important urban characteristics to enable the person to make out if the place of his birth was rural or urban, *e.g.*, existence of a local administrative body, Industrial townships declared as towns, *etc.*

For a person born in a village, write 'R'.

For a person born in a town/city, write 'U'.

For a person born in a foreign country put 'X' against this sub-item and also against sub-item (c). If all efforts to classify the place of birth as rural/urban fail, write 'not known'.

7 (c) District

51. For a person born outside the village or town of enumeration but within the district of enumeration write 'D'. For a person born in another district of the State of enumeration, or other State/Union Territory in the country, write the name of the district. If the person cannot name the district, write 'not known'.

7 (d) State/Country

52. For persons born within the State of enumeration write 'X' against this item. Make sure that the earlier entries made in sub-items (a), (b) and (c) are consistent with such an answer ; that is 'PL' might have already been written against sub-item (a) or 'D' is written against sub-item (c) or any other district of the State of enumeration is mentioned against sub-item (c).

53. For persons born outside the State of enumeration but within the country, write the name of the State/Union Territory where born.

54. For those born outside India, note merely the name of the country and there is no need to enter the name of the constituent State of the foreign country. Where a person cannot name the country, the name of the continent may be noted.

55. For a person born on sea, record 'born at sea', against this sub-item and put 'X' against sub-items (a), (b) and (c). If a person was born in a train, boat or bus, *etc.*, within the country, write the particulars in (a), (b) and (c) with reference to the administrative territory where the event occurred or was registered.

Question 8 : Last Residence

56. Answer to this question will have to be filled in respect of every person if he had another place of normal residence irrespective of his place of birth, before he came to the present place where he is enumerated. Even if a person were born at the place of enumeration, by the nature of his work or for studies, *etc.*, he had shifted subsequently to another village or town and had come back again to the place of enumeration, he should be deemed to have had another place of residence prior to his enumeration here.

The last previous residence is relevant only if he had been outside the village or town of enumeration and not simply in another house or locality in the same place. For example, if a person born in one part of Bombay City is found residing in another part of Bombay at the time of enumeration, the change of residence should not be treated as change of place of residence because both the areas are comprised in the same City of Bombay. Similarly, a person born in hamlet 1 of village Rampur and found in hamlet 2 of the same village at the time of enumeration, should not be deemed to have had any other place of residence than the village where he is enumerated. Where a person had merely gone out to another place or had been shifting from place to place purely on tour or pilgrimage or for temporary business purposes, he should not be deemed to have had another residence different from the place where he or his family normally resides but if the person had his normal residence, *i.e.*, if his normal home had been elsewhere at any time before he is enumerated at his place of present residence, irrespective of where he was born, such place of his previous residence should be recorded here.

8(a) Place of last residence

57. For a person who had been in the village or town of enumeration continuously since birth (except for shifting to other places outside the village or town of enumeration for a purely temporary stay) write 'PL' against sub-item (a) and put 'X' against sub-items (b), (c) and (d).

For a person who had had his last previous residence at any place outside the village or town of enumeration (irrespective of his place of birth), write the actual name of the village or town where his last residence was against sub-item (a) and fill the other details against sub-items (b), (c) and (d).

8(b) Rural/Urban

58. For a person who had previously resided outside the place of enumeration ascertain if the place of last previous residence was rural or urban and record the answer. For a person whose last previous residence was a village write 'R'. For a person whose last previous residence was a town/city, write 'U'. For a person who last resided in a foreign country write 'X'. For a person whose last previous residence cannot be classified, write 'Not known'.

Rural or Urban status has to be determined with reference to the time of migration from the place of last previous residence to the place of enumeration.

For helping the person to determine whether a place was rural or urban, you may

mention important urban characteristics as indicated in the instructions against item 7(b) in para 50.

8(c) District

59. For a person who had previously resided in another place, *i.e.*, for whom 'PL' is not written against sub-item (a) you have to fill in this item in the manner indicated below :—

For a person who previously resided in another village or town within the district of enumeration write 'D'. For a person who previously resided in another district of the State/Union Territory of enumeration or of other State/Union Territory in the country, write the name of the district. If he cannot name the district write 'Not known'. For a person whose last previous residence was outside India write 'X' against this sub-item.

8(d) State/Country

60. For a person whose last previous residence was outside the village or town of enumeration but within the State or Union Territory of enumeration write 'X' against this item but if it was outside the State or Union Territory of enumeration but within the country write the name of the State/Union Territory. For a person whose last previous residence was outside the country write the name of the country and if name of the country is not forthcoming write the name of the continent.

For persons who had not moved out at all from the present place of enumeration from birth (except for purely temporary stay) this sub-item need not be filled and 'X' should be put in respect of persons against this sub-item.

Question 9 : Duration of Residence at the village or town of Enumeration

61. Note here the period of the existing continuous residence in the village or town where the person is being enumerated, in completed years. This will apply to even a person born at the place of enumeration. If he had left this village or town and had lived elsewhere for sometime, *i.e.*, in Q. 8 another place of last residence is reported and has come back again to this village or town, then the duration of residence to be noted against this question is the period of the last continuous residence. But if a person had been away on a temporary visit or tour, *etc.*, that should not be taken as a break in the period of his continuous residence here. If the person was born at the place of enumeration and also had no other place of last residence, *i.e.*, 'PL' has been noted in Q. 8(a) then 'X' may be put against Q. 9.

For a person whose duration of continuous residence at the place of enumeration is less than 1 year, it should be noted as 'O'.

Question 10 : Religion

62. In answering this question use the following abbreviations :

H : Hinduism
I : Islam
C : Christianity
S : Sikhism
B : Buddhism
J : Jainism

For others record the actual religion as returned fully.

63. If a person says that he has no religion it may be recorded accordingly. Do not mistake religion for caste which will not be recorded here.

Question 11 : Scheduled Caste or Scheduled Tribe

64. You have been furnished with a list of scheduled castes and scheduled tribes notified for your State. Ascertain if the person enumerated

belongs to a scheduled caste or scheduled tribe and if he does, then record the name of the scheduled caste or scheduled tribe which should find place in the list furnished to you. The answer should be recorded against the correct rectangle provided for the purpose against this question. For a person who is not a member of any scheduled caste or scheduled tribe write 'X' in both the rectangles.

65. If the person belonging to a scheduled caste or scheduled tribe returns his caste or tribe by synonym or generic name of a caste or a tribe it should be entered only if it finds a place in the list furnished to you. Do not write the names of scheduled castes in general terms as 'Harijan' or 'Achhut'. You should ascertain the name of the caste when it is returned and write it in the rectangle provided for recording the name. Similarly, do not write the names of scheduled tribes in general term as 'Adivasi'. You should ascertain the name of the tribe when it is returned and write it in the rectangle with broken lines provided for recording the same. If a person is negligent and insists on calling himself merely 'Harijan' or 'Achhut' or 'Adivasi' as the case may be, tell him that this description is not adequate for census purposes and persuade him to give out the actual name of the caste or tribe. You should make all efforts to ascertain the correct name of the scheduled caste or scheduled tribe as found in the notified list. If the person merely claims to be a scheduled caste or scheduled tribe but says that he does not belong to any of the notified communities applicable to the area, he will not be entered as a scheduled caste or scheduled tribe.

66. Scheduled Castes can belong only to the Hindu or Sikh religions. If a person belongs to scheduled caste, there will be either 'H' or 'S' in the answer to the question 10. Scheduled tribes may belong to any religion.

Question 12 : Literacy (L or O)

67. *Definition of a literate* : A person who can both read and write with understanding in any language is to be taken as literate. A person who can merely read but can not write is not a literate.

68. It is not necessary that a person who is literate should have received any formal education or should have passed any minimum educational standard.

69. For a person who is literate, *i.e.*, who can both read and write, record 'L' in the triangle against question 12. If there is any doubt about a person's ability to read or write, the test that may be applied for reading is his/her ability to read any portion of the printed matter in the Enumerator's Instructions and similarly for writing he/she should be able to write a simple letter. Ability merely to sign one's name is not adequate to qualify a person as being able to write with understanding. If a person claims to be literate in some other language with which the enumerator is not acquainted, the respondent's word has to be taken as correct. Other members of the household may also be able to testify to the literacy of the person enumerated.

70. For a person who is illiterate, *i.e.*, who can neither read nor write or can merely read but cannot write, in any language, write 'O' in the triangle against question 12. All children of the age of 4 years or less should be treated as illiterate even if the child is going to a school and may have picked up reading and writing a few odd words.

Question 13 : Educational level

71. This question will be asked of those for whom 'L' has been recorded against question 12. For a person who is illiterate and 'O' has been put against him in the answer to question

12, there is no advantage in ascertaining the educational level even if he had at some stage attended school and passed a standard and had relapsed into illiteracy. In such a case you should put 'X'. You have to ascertain and record the highest educational level attained by a person for whom 'L' is recorded in answer to question 12.

72. For a person who is still studying in a particular class, the highest educational level attained by him will be one that he has actually passed and not the one in which he is studying. For example, a person studying in the 1st year B.A. should be recorded as only 'PUC' or 'Higher Secondary', as the case may be. Similarly, a person studying, say, in the 4th year of 'MBBS' should not be noted as 'MBBS' but as 3rd year 'MBBS' which is the highest level he has actually attained. If you are not sure whether a person has passed Primary, Middle, Higher Secondary or other definite levels, you may record the actual standard passed such as say IIIrd standard, VIIIth standard, 1st year B. Com., *etc.*

The highest educational level attained by the person enumerated should be recorded. When a person holds both general and technical qualifications both of which are of equivalent level such as say B.Sc. (Zoology) and M.B.B.S. or B.A. (Maths.) and B.E. (Bachelor in Engineering), the technical qualification should be given preference in recording the highest educational level attained. Where the general educational level is higher than the technical educational level or where it is not possible to decide which of the two levels is relatively higher, the highest level of education as returned by the person concerned should be recorded.

In recording the highest educational level of a graduate or a post-graduate, subject of specialisation such as 'B.Sc. (Maths.)', M.A. (Economics), M.Sc. (Botany)' B.Sc. (Agriculture)', *etc.*, should be noted. You should not use abbreviations which are not in common use. In such cases, the degree or diploma should be spelt out fully.

73. Whenever you come across graduates or post-graduates as also those with a technical diploma or degree, you will have to issue him a "Degree-holder and Technical Personnel Card" and ask the person concerned to fill it. You should note the location code on the card while issuing it. Put a tick (√) after noting the educational level against question 13 immediately after you issue a card. When you collect it after some time but before you complete the enumeration of your area, cross the tick and put a circle as (√).

You will have to ensure that the card issued to all the graduates and the technical degree or diploma holders are collected back. The non-crossed tick, if any, against question 13 will show that the card has not been collected.

Question 14 : Mother-tongue

74. *Definition :* Mother-tongue is the language spoken in childhood by the person's mother to the person. If the mother died in infancy, the language mainly spoken in the person's home in childhood will be the mother-tongue. In the case of infants and deaf mutes the language usually spoken by the mother shall be recorded.

75. Record mother-tongue in full whatever be the name of the language as returned and avoid use of abbreviations. You are not expected to determine if the language returned by a person is the dialect of another major language and so on. You should not try to establish any relationship between religion and mother-tongue. *You are bound to record the language as returned by the person as his mother-tongue and you should not enter into any argument with him and try to record anything other than what is returned.* If you have reason to suspect that in any area due to any organised

movement, mother-tongue was not being truthfully returned, you should record the mother-tongue as actually returned by the respondent and make a report to your superior Census Officers for verification. You are not authorised to make any correction on your own.

Question 15 : Other languages

76. After recording the mother-tongue in question 14 enquire whether the person knows any other language(s), Indian or foreign and record language (s) returned by him against this question. In case he does not know any language apart from his mother-tongue put 'X' against this question.

77. The number of languages recorded under this question need not be more than two. These languages should be other than his mother-tongue and they should be recorded in the order in which he speaks and understands best and can use with understanding in communicating with others. He need not necessarily be able to read and write these languages. It is enough if he has a working knowledge of these subsidiary languages to enable him to converse in that language with understanding.

Question 16 : Main Activity

78. Every person will be asked what his main activity is, that is, how he engages himself mostly. For the purpose of this question, all persons will get themselves divided into two broad streams of main activity namely, (1) as workers and (2) as non-workers according as the type of main activity that the person returns himself as engaged in mostly.

79. *'Worker' defined*: A 'worker' is a person whose main activity is participation in any economically productive work by his physical or mental activity. Work involves not only actual work but effective supervision and direction of work.

80. *Reference periods*: The reference period is one week prior to the date of enumeration in the case of regular work in trade, profession, service or business. If a person had participated in any such regular work on any one of the days during this reference period and this has been returned as his main activity, the person will be categorised accordingly. A person who normally works but had been absent from work during this reference period on account of illness or travel, holiday, temporary breakdown, strike, *etc.*, the person should be treated as engaged in regular work in which he would have otherwise been employed but for his temporary absence. Persons under training such as apprentices with or without stipends or wages should be considered as economically active and recorded as working. A person who has merely been offered work but has not actually joined it, is not to be treated as engaged in work.

81. There are certain types of works which are not carried on throughout the year such as cultivation, live-stock keeping, plantation work, some types of household industry, *etc.* A person's main activity should be ascertained with reference to such work in the last one year even if he was not economically active in the week prior to enumeration. It is likely that even when a person is engaged in some other work during the period of one week prior to the date of enumeration, the main activity of the person may be cultivation, agricultural labour or some other work attended to normally by him in the course of the year. Care must be taken to see that the main activity is poperly ascertained in such cases. For example, a person's main activity may be agricultural labour and in the week prior to enumeration he may be engaged as a sugarcane factory labourer or as a road coolie. He should be categorised for his main activity as agricultural labourer only as returned by him as he engages himself mostly in that work and the other work should be treated as his subsidiary work.

82. A man or woman who is engaged primarily in household duties such as cooking for own household or performing one's own household duties or a boy or a girl who is primarily a student attending institution, even if such a person helps in the family economic activity but not as a full time worker should *not* be treated as a worker for the main activity. On the other hand, if a person is primarily engaged in some economic activity but at the *same time does also attend to some household* chores or attends a night school, *etc.*, he or she should be treated basically as a worker for the main activity and categorised accordingly.

83. A person who merely receives an income such as a rent receiver or a pensioner who does not have to work for receiving the income, will not be treated as economically active unless the person is also engaged in some economic activity and if that activity is returned as the main activity of the individual.

Q. 16(a) Broad Category (i) Worker (C, AL, HHI, OW). (ii) Non-worker (H, ST, R, D, B, I, O).

84. The main activity returned by the person will entitle him to be categorised either as a worker in 16 (a) (i) or as a non-worker under 16 (a) (ii).

16 (a) (i) Worker (C, AL, HHI, OW)

85. Where the main activity of a person qualifies him to be treated as a worker he should be further categorised according to the type of work and one of the appropriate abbreviations indicated against this question should be entered in the box provided for the purpose. If the person is not engaged in any economic activity an 'X' should be noted in the box. The abbreviations to be used for workers are explained below :

C : CULTIVATOR

86. For a person who returns his main activity as working as a cultivator, the abbreviation 'C' should be used.

87. *Definition of Cultivator* : For purposes of the census a person is working as Cultivator if he or she is engaged in cultivation by oneself or by supervision or direction in one's capacity as the owner or lessee of land held from Govt. or as a tenant of land held from private persons or institutions for payment of money, kind or share.

88. Cultivation involves ploughing, sowing and harvesting and production of cereals and millet crops such as wheat, paddy jowar, bajra ragi, *etc.*, and pulses, raw jute and kindred fibre crop, cotton, *etc.*, and other crops such as sugarcane, groundnuts, tapioca, *etc.*, and does not include fruit growing, vegetable-growing or keeping orchards or groves or working of plantations like tea, coffee, rubber, cinchona and other medicinal plantations.

89. A person who merely owns land but has given out land to another person or persons for cultivation for money, kind or share of crop and who does not even supervise or direct cultivation of land, will not be treated as working as cultivator. Similarly, a person working in another person's land for wages in cash, kind or share (Agricultural labourer) will not be treated as cultivator in this question.

AL : AGRICULTURAL LABOURER

90. A person who returns his main activity as engaged as agricultural labourer, the abbreviation 'AL' should be used in the box.

91. *Definition of an Agricultural Labourer* : A person who works in another person's land for wages in money, kind or share should be regarded as an agricultural labourer. He has no risk in

the cultivation but he merely works in another person's land for wages. The labourer could have no right of lease or contract on land on which he works.

H.H.I. : HOUSEHOLD INDUSTRY

92. For a person who returns his main activity as engaged in some production, processing, servicing or repair of articles of goods such as, say, handloom weaving, dyeing, carpentry, *bidi* rolling, pottery manufacturing, bicycle repairing, blacksmithy, tailoring, *etc.*, it has to be ascertained if it is a household industry, and if so, it should be indicated by the abbreviation 'HHI' in the box.

93. *Definition of a household Industry*
A household Industry is defined as an industry conducted by the Head of the household himself/herself and/or mainly by the members of the household at home or within the village in rural areas and only within the premises of the house where the household lives in urban areas. The industry should not be run on the scale of a registered factory.

94. The main criterion of a Household Industry is the participation of one or more members of a household. This criterion should apply to urban areas too. Even if the industry is not actually located at home in rural areas there is greater possibility of the members of the household participating even if it is located anywhere within the village limits. In the urban areas where organised industry takes greater prominence, the Household Industry should be confined to the precincts of the house where the participants live. In urban areas even if the members of the household by themselves run an industry but at a place away from the precincts of their home, it will not be considered a household industry. It should be located within the precincts of the house where the members live.

95. A Household Industry should relate to production, processing, servicing, repairing or making and selling (but not merely selling) of goods. It does not include professions such as a pleader or doctor or barber, musician, dancer, waterman, *dhobi*, astrologer, *etc.*, or merely trade or business, even if such professions, trade or services are run at home by members of household. A list of a few typical Household Industries is appended to these instructions at Appendix III.

96. Sometimes it is likely that the person who may not be working in his own Household Industry may be working as a petty employee in another Household Industry. You should, therefore, enquire whether the person who is not working in his own Household Industry is working in any other Household Industry as an employee and record as per instructions given above.

OW : OTHER WORKERS

97. If a person gives his main activity as engaged in any other work which is not cultivation, agricultural labour or household industry, this may be indicated by merely noting 'OW' in the box. The type of workers that may come under the 'Other Workers' category are factory workers, those working in trade or transport, all Government servants, municipal employees, teachers, mining workers, political or social workers, building labourers, *etc.*, *etc.* In effect, all types of economic activity not covered by cultivation, agricultural labour or household industry will come under this residual category. Workers engaged in plantation or forestry should not be treated as cultivators or agricultural labourers but as 'Other workers.'

98. Further details pertaining to this 'Other' category of workers, as also those engaged in household industry, will be recorded in the subsequent sub-parts (b) to (f) of question 16.

16(a) (ii) Non-worker (H, ST, R, D, B, I, O)

99. As was stated earlier, question 16 is intended to ascertain the main activity of every individual whether he or she is economically active or not. While 16 (a) (i) helps to broadly categorise all those who have returned some work as their main activity, 16 (a) (ii) will help to categorise those whose main activity is not engaged in any economically productive work, but are basically non-workers. These may be categorised under seven broad heads whose abbreviations are indicated against this question. The appropriate abbreviation will have to be entered in the box provided. The abbreviations are explained below :

H : HOUSEHOLD DUTIES

100. This covers all those persons basically engaged in unpaid home duties doing no other work, or even if such a person may also be participating in some other work, it is not to the same extent as a whole-time worker and if the person has returned his or her main activity as attending to household duties. The main activity of such a person should be entered as 'H'. If a person whose main activity is attending to household duties, also engages oneself in some other economic activity such as helping in family cultivation or preparing cowdung cakes at odd times for sale, *etc.*, that economic activity will be covered as secondary work under question 17. On the other hand, a woman who works primarily as a factory worker or a plantation labourer or an agricultural labourer or in some office or shop, *etc.*, and also attends to household duties, obviously her main activity will be the economic activity in which she is mostly engaged in and should not be categorised as 'H' for her main activity in this question. She should have been treated basically as a worker and her main economic activity should have been recorded against 16 (a) (i).

ST : STUDENT

101. This refers to those whose main activity is returned as a student. This will cover all fulltime students or children attending school. Even if such persons participated in some work but not to the same extent as a fulltime worker, by merely helping casually as an unpaid family worker in family cultivation, household industry, trade or business, they should be treated primarily as students. If that is their main activity 'ST' should be entered in the box. The other economic activity, if any, that such persons attend to will be reflected under question 17 as secondary work.

R : RETIRED PERSON OR A RENTIER

102. A person who has retired from service and is doing no other work; *i.e.*, not employed again in some fulltime work or does not engage himself in some other work as cultivation, in business, trade, *etc.*, or a person who is a rentier or living on agricultural or non-agricultural royalty; rent or dividend; or any other person of independent means for securing which he does not have to work, will come under this category. 'R' should be noted in the box for a person coming under this category.

D : DEPENDENT

103. This category will include all dependents such as infants or children not attending school or a person permanently disabled from work because of illness or old age. If a girl or an old woman attends to household duties she should be categorised under 'H' for her main activity rather than 'D.'

Dependents will include all non-workers even if able-bodied who have no other activity coming under any of the categories of non-workers and who are not seeking any work either but are purely dependent.

B : BEGGARS, ETC.

104. This will cover beggars, vagrants or such cases as independent women without indication of source of income and those of unspecified sources of subsistence and who are not engaged in any econmically productive work.

I : INSTITUTIONS

105. This will cover convicts in jails or inmates of a penal, mental or charitable institution, even if such persons are compelled to do some work such as carpentry, carpet weaving, vegetable growing, *etc.*, in such institutions. An under-trial prisoner in a jail should not, however, be brought under this category but has to be indicated according to the main activity he was engaged in before he was apprehended. Inmates of such institutions will be noted as 'I'.

O : OTHER NON-WORKERS

106. This will include all non-workers who may not come under any of the six categories above but are seeking work, they should be noted as 'O' in the box. A boy or girl who has completed education or has stopped studying and is seeking work, will come under this category. If a person is merely spending his time at home as a dependent and is not doing any work and is not seeking any work will come under 'D' rather than 'O'. A person irrespective of age and whether educated or not, if he reports that he is not engaged in any other activity but is seeking work will come under this category.

107. If the main activity of the person who is enumerated does not qualify a person to be treated as a worker and he does not fall under any of the four broad categories of workers covered by 16 (a) (i) and an 'X' has been put in the box against that question, then he must neeessarily be categorised under any one of the seven broad types of non-workers and the appropriate abbreviation entered in the box opposite to question 16 (a) (ii). Conversely if a person has already been treated as a worker and his main activity has been indicated in the box against question 16 (a) (i), then question 16 (a) (ii) will not apply to the person and an 'X' should be put in the box against question 16 (a) (ii). Thus 16(a) (i) and 16 (a) (ii) are mutually exclusive.

Q. 16(b) to 16 (f)

108. These sub-parts of question 16 will have to be filled only to describe the details of the household industry or other work indicated against question 16 (a) (i). If the main activity has been shown as 'C' or 'AL' against 16 (a) (i), there is no need to give the details of the cultivation or agricultural labour in these sub-sections.

109. Similarly, if the main activity of an individual has been returned as a non-worker against 16 (a) (ii), sub-section (b) to (f) will not apply and a 'X' may be put right across all these questions.

Q. 16 (b) : Place of work (Name of village/town)

110. Ascertain from each person who is already taken as a worker other than in cultivation or agricultural labour, *i.e.*, question 16 (a) (i) has been answered as HHI or OW, the village or town where he or she works. If the place of work is the same as the village or town of enumeration write 'PL'. In all other cases you should write the name of the place fully. If a person has no fixed place of work such as, say, a travelling vendor of vegetables or a pedlar or a rick-shaw puller who may go from one village or town to another, note 'No fixed place of work'. If he works in one particular town or village that should be noted.

Q. 16(c) : Name of Establishment

111. This question and the subsequent subsections of question 16 need not be answered

for cultivators and agricultural labourers who are already noted as 'C' or 'AL' against question (16) (a) (i).

Record here the exact name of the factory, firm, workshop, business house, company, shop, office, *etc.*, and in respect of public offices, you should clearly indicate whether they are Central or State Government or local body offices, *etc.* If the establishment does not have any definite name such as, say, in the case of a household industry like hand pounding of rice, gur making, bee keeping, handloom weaving, potter's house, blacksmithy, *etc.*, note 'No particular name'.

Q. 16(d) : Nature of Industry, Trade, Profession or Service

112. The answer to this question will have to be adequately precise to enable proper classification of the sector of economy in which the person is working. The sector of economy in which a person works may relate to (i) Plantation, Forestry, Fishing, Livestock, *etc.*, (ii) Mining and/or Quarrying (iii) Manufacturing (iv) Construction (v) Electricity, Gas or Water Supply (vi) Transport and Communications (vii) Trade and Commerce (viii) Professions and Services. Full details of the type of industry, trade, profession or service in which the person is engaged will have to be recorded here. To help you to appreciate the details that may have to be furnished to classify the economic activity appropriately, substantial description of various economic activities are furnished in Appendix IV, categorised under certain broad classifications. The list in Appendix IV is not exhaustive. You shall have to describe the nature of Industry, Profession, Trade or Service whatever it is, in as precise a detail as possible.

Q. 16(e) Description of work

113. This question has to be filled up for all persons for whom the main activity is shown as 'HHI' or 'OW' in question 16 (a) (i) and for whom you should have also to answer the other sub-sections of question 16. Under this question, the description of the actual work that the person enumerated is doing is to be recorded irrespective of which type of industry, trade, profession or service he may be working and which is already recorded under question 16(d). His actual work should also be given in sufficient detail. If for example, a person is merely recorded as say, clerk with no other details, it will be impossible to properly categorise him as to the type of work he does. He may be a clerk attending to correspondence or book keeping or accounting. Similarly if a person were merely to be recorded as a mechanic, it will not help to determine what type of mechanic—electrical mechanic, or a motor mechanic or a locomotive mechanic, *etc.*, he is. The description of the actual work done by a person should be ascertained in adequate detail and recorded against this question.

114. To guide you in answering question 16(e), the types of particulars that need to be ascertained in respect of a few typical occupations are given in Appendix V.

Appendix V is by no means exhaustive. This just illustrates the need to ascertain the full details of the particulars of work performed by an individual for being recorded against question 16(e).

115. It has been found in the past that substantial number of persons are recorded merely as general labourers. It is necessary to make a probe and find out in which type of work he is mostly engaged as a labourer such as, say, a road coolie, a loader or unloader at a market, a construction labourer, *etc.*

116. For those in Military service it is enough if it is merely noted as 'in the service of the Central Government'. Other details need not be given.

GENERAL :

117. There need be no confusion as to the scope of 16(d) and 16(e). 16(d) would represent the nature of industry, trade, profession or service, *i.e.*, the field of economic activity in which a person is engaged in work and 16(e) represents the occupation or the actual work that the person does in the industry, trade, profession or service in which he is engaged. Thus, for example, the answer to question 16(d) may be, say, Cotton Textile manufacture and the answer to question 16(e) may be Chemical Engineer in that industry or a clerk or an accountant in that industry or a labourer in that industry or a truck driver or the managing director of that industry and so on. Similarly in question 16(d) the nature of service may be some department of the State Government Service and in question 16(e) the description of work may be a clerk or an accountant, a Director of the Deptt., jeep driver in the Deptt., *etc.* Again say, against question 16(d) the answer may be private medical practice and in 16(e) may cover orthopaedic surgeon, or nurse or a sweeper *etc.*, working in that private medical practitioner's nursing home. The sample answers furnished in the specimens (Appendix VI) at the end of this book, the Industrial and Occupational lists in Appendices IV & V and the instructions given by your superior Census Officers may help you to clear any doubts you may have in your mind regarding the scope of questions relating to Nature of Industry, Trade, Profession or Service covered by question 16 (d) and the description of actual work of the individual enumerated covered by question 16 (e).

Q. 16(f) : Class of Worker

118. For a person who is ;

(i) an Employer, that is, who hires one or more persons in his work described in question 16 (e), write ... ... ER

(ii) an Employee, that is, who does his work described in question 16(e) under others for wages or salary in cash or kind, write... EE

(iii) a Single Worker, that is, who is doing his work described in question 16(e) without employing others except casually, and without the help of other members of the family except casually and a participant in work as members of co-operatives, write ... ... SW

(iv) a Family Worker, that is, who is doing his work described in question 16(e) in a family enterprise alongwith other members of the family without wages or salary in cash or kind, write ... ... FW

For a person for whom an 'X' is put in questions 16(d) and 16(e) put an 'X' in this question also.

EXPLANATION :

119. An Employer is a person who has to employ other persons in order to perform the work entered in question 16(e). That is to say, such a person is not only responsible for his own personal work but also for giving work to others in business mentioned in question 16(e). But a person who employs domestic servants for household duties or has subordinates under him in an office where he is employed by others, is not an employer, even if he has the power to employ another person in his office on behalf of his own employer or employers.

120. An Employee is a person who usually works under some other person for salary or

wages in cash or kind. There may be persons who are employed as managers, superintendents, agents, *etc.*, and in that capacity employ or control other workers on behalf of their own employers. Such persons are only employees, as explained above, and should not be regarded as employers.

121. A Single Worker for the purpose of question 16(f) is a person who works by himself. He is not employed by any one else and in his turn does not employ anybody else, not even members of his household except casually. This definition of a Single Worker will include a person who works in joint partnership with one or several persons hiring no employees, and also a member of a producer's co-operative. Each one of the partners or members of such producers' co-operatives should be recorded as 'Single Worker'.

122. A family Worker is a member who works without receiving wages in cash or kind, in an industry, business, trade or service. For example, the working members in a family of *Dhobies* where they all participate and each does not receive wages separately will be family workers. There may be family workers in industry, trade or professions as well. For the purpose of this definition members of a family may be drawn from beyond the limits of the household by ties of blood or marriage. The family worker may not be entitled to a share of the profits in the work of the business carried on either by the person or Head of the Household or other relative.

123. Members of the household who help solely in household duties should not be treated as family workers.

124. In the case of persons engaged in household industry, *i.e.*, in the case of persons for whom the answer to question 16(a) (i) is 'HHI', there will be three classes of workers *viz.*, Family Worker, Single Worker and Employee. There will be no Employer. Household industry by its very definition is conducted by the head of the household himself or/and other members of the household, the role of hired workers being secondary. If the head alongwith the members of the household is working in a household industry employing hired workers, the head and other members who are working should be treated as 'Family Workers'. If the head alone is working with the assistance of hired worker (s) whose role would be secondary as indicated above, he would be treated as a 'single worker'.

Some illustrations for filling the questions 16 or 17 are given in Appendix VI.

Q. 17 : Secondary Work

125. This question should be asked of every person whether he has returned some work as his main activity against 16(a) (i) or had returned himself under any of the basically non-working categories against question 16(a) (ii). As was noted earlier, 16(a) (ii) will cover cases like persons performing household duties or students who may not be engaged in any other economically productive work at all, as also those who, though basically are performing household duties or students *etc.*, for the purpose of their main activity, still participated in some other economic activity such as helping the household in several items of work, as in cultivation or in household industry or in looking after the cattle, in attending to family business *etc.*, but not to the extent as a fulltime worker. Such participation will be considered as secondary work of these persons.

126. Ask of each person if, besides what he had already returned as his/her main activity

against questions 16(a) (i) or 16(a) (ii), he/she participated in any secondary work. A number of unpaid family workers participating in the household enterprises, who might have returned themselves mainly as 'H' or 'ST' or 'R' under question 16 (a) (ii) for their main activity will be netted here for their economic activity which is subsidiary. Mere rendering of service for one's own home or production of goods for purely domestic consumption are not to be treated as economic activity. For example, a servant who works as a cook in his or her employer's home for wages will be considered economically active but, a housewife, even if she may work much more than a paid servant, in having to cook for the family or looking after the household will not be treated as economically active for the purpose of this classification. Similarly, women who may produce cloth on a loin loom at home for domestic consumption will not be treated as economically active unless the products are sold and the household derives an income. Participation in work that goes to augment the income of the household will only be treated as economic activity. A boy whose main activity is shown as a student under 16(a) (ii), can have the secondary work of say, cultivation if he helped the head of the household in the family cultivation during some parts of the season. But if a girl student, whose main activity is shown as 'ST' under 16(a) (ii), also helped in weaving cloth purely for domestic consumption on a loin loom at home, or helped in attending to household chores, she will not be treated as having any secondary work. Secondary work will be reckoned only if the person is engaged in some economic activity even if marginal in addition to whatever is the main activity under question 16. A person whose main activity is shown as, say, a clerk in a Government Office or a teacher under question 16, also attends to some cultivation by his direct supervision or undertakes some tuition, this will be shown as secondary work under question 17. A person's main activity may be cultivation in question 16 and his subsidiary activity money lending in question 17. Again main activity may be agricultural labourer and subsidiary work sugar factory labourer and so on and so forth.

127. The instructions for the usage of abbreviations in categorising workers under 16(a) (i) and filling in the details under 16(b) to (f) will apply *mutatis mutandis* to question 17(a) to (f), except that while question 16(a) (i) will cover the main work, question 17(a) is intended to cover secondary work which may be possibly part-time. It may also be noted that the non-working categories of activity will not be reported as secondary work under question 17.

128. A few slips showing specimen entries appear as Appendix VII and some illustrations for recording answers against Q. 16 are given in Appendix VI. You are advised to study these specimen entries and illustrations before starting actual enumeration and also consult these and the instructions whenever you are in doubt in recording any answer during field operation.

POPULATION RECORD

129. Soon after you complete the enumeration of all the persons in the household you are expected to transfer certain items of information of all the individual members of each household to the Population Record. Population Record form is reproduced as Appendix X. If you feel that the filling of the Population Record in the field is likely to take considerable time there is no objection to the details being posted by you later at home at the end of the day. However, soon after you complete the enumeration of all the persons in a household you must note down the Location Code No. and the Household No. on the Population Record and also copy out in Col. 2

all the names of the persons enumerated in the household. This will help you to check with the members of the household and verify if all the persons qualified to be enumerated in the household have been fully enumerated.

The Population Record forms would have been supplied to you in convenient books and each page will normally take the entries of one household. However, if in a large household there are more number of persons than what a single Population Record form can accommodate, you may continue the entries on the next form but note boldly on the top of the continued Population Record as "Continued".

The Population Record hardly calls for any detailed explanation. On the top of each form please note correctly the Location Code No. and the Household No. It is important that you note the Household No. correctly as has been explained in paragraphs 24 to 28 of these instructions. Do not fail to note boldly "INST" in respect of institutional households as explained in paragraph 27 and "O" in respect of houseless households as explained in paragraph 28.

You will be required to furnish information in the Enumerator's Abstract on the total number of occupied residential houses, the census households, the institutional households and houseless households in your block with reference to the entries made in this Population Record. So please make sure that you have entered the Household No. correctly as this will guide you in posting the required particulars in the Enumerator's Abstract. At the right hand side below the Household No., you will have to record information if the household belongs to S.C./S.T. You would have already ascertained if the head of the household belongs to a Scheduled Caste/ Scheduled Tribe with reference to Question 11 of the Individual Slip. If the head belongs to any S.C./S.T., write S.C./S.T., as the case may be and also the name of S.C./S.T. to which the head of the household belongs.

The columns in the main body of the Population Record are self-explanatory. You have to post them with reference to the information you have collected of each member of the household in the Individual Slip against the relevant questions. However, column 9 of the Population Record may require some explanation. For those who have returned themselves as workers for their main activity against Question 16(a) (i) of the Individual Slip, while you may note 'C', 'AL' as the case may be, as recorded in the box against Question 16(a) (i), in respect of those other than cultivators and agricultural labourers, you may please indicate briefly the description of work as recorded in Question 16(e) of the Individual Slip. For those who have returned themselves as non-workers for their main activity you may note the same abbreviation as recorded against Question 16(a) (ii).

Enumeration of Houseless Population

130. You must complete the enumeration of all the persons in all the households in your jurisdiction between 10th **February and †28th February, 1971. During this period you should also take note of the possible places where homeless population is likely to live such as on the road side, pavements or in open temple mandaps and the like. On the night of †28th February, 1971 you will have to quickly cover all such houseless population and enumerate them. If there is likely to be a very large number of houseless persons in your jurisdiction whom you may not be able to enumerate single handed in one night you should report to your supervisor so that one or more extra enumerators may be deputed to assist you

in the one night enumeration of such houseless persons. You should keep particular watch on the large settlements of nomadic population who are likely to camp on the outskirts of villages. These people will have to be covered on the †28th February. You should of course make sure that they have not been enumerated elsewhere As par instructions in para 28 you should record 'O' in bold letters for houseless persons in the space provided for household number.

REVISIONAL ROUND

131. In the next three days, *i.e.* from 1st *March to 3rd *March, 1971, you will have to revisit all the households in your jurisdiction and enumerate any new births that had taken place after your last visit but before the sunrise of 1st *March, 1971 and any visitors(s) that had moved into the household and who had been away from his/their place of normal residence throughtout the enumeration period *i.e.*, from 10th **February to 1st *March, 1971 or an entire household that has moved into your jurisdiction during this period and had not been enumerated anywhere before. In respect of every new birth make sure that you correct the entry in question 6 (b). Please also see the note under para 47.

You will have to ascertain if any death (s) had taken place in any of the households between your last visit and the sunrise of 1st *March, 1971, and cross out the individual slip of the dead person writing boldly across it as 'Died'

If such a deceased person was recorded as 'Head of the Household' then you will have to find out who is recognised as 'Head' in that household after the deceased person. Accordingly, you will have to put 'Head' Q. 2 in the individual slip of the person who is now recognised as 'Head' and correct the relationship of all members of the household in their respective individual slips, with reference to their relationship with 'Head' now recognised.

Consequential changes in the population Record shall also have to be made by you. If you have exhausted the entire population record for recording the particulars of any household and it becomes necessary to record a new birth or any visitor you will fill in another population record form in continuation taking care that the location code etc., are noted on the second form properly. The serial numbering in the succeeding form for the household should be in continuation of the last serial number of the earlier sheet relating to that household.

Enumerators Daily Posting Statement

132. Each day you will have to carefully post the information on certain items of each Individual Slip in the prescribed posting forms which have been supplied to you. Do not allow this work to fall into arrears. You are likely to commit errors if you tried to post particulars of a large number of persons after the lapse of more than one day. You will have to total up the columns of the statements and put the information in an Abstract and hand it over along with the complete schedules to your Supervisor. The posting Statements should be filled at the end of each day soon after completion of the enumeration for the day. This will make your work lighter and avoid accumulation and pressure of work at the end and consequent errors in posting. Separate posting forms have been provided for males and Females and you should take care to post particulars of a person in the right form. This will make it easier to strike the totals of each sex and post the statements. The totals can be struck after the entries are brought up-to-date soon after you complete the enumeration of houseless persons and you have also accounted for the births and deaths since your last visit at the revisional round. You

will observe that the information to be posted pertains to the items against which geometrical designs are found in the Individual Slip such as the one relating to Q.3 Sex, Q. 11 Scheduled Caste/Scheduled Tribe. Q. 12 Literacy, Q. 16 (a) (i) and 16 (a) (ii) Worker or Non-worker. It is necessary that you should fill the posting Statement with the greatest care.

133. First of all you should enter Location Code, Name of the village/town, Enumerator's Block No. (No. allotted to you) and your name (enumerator's) in all the Posting Statements. Then start making relevant entries in the Posting Statements taking care that you enter particulars for 'males' in Males Posting Statement (Form M) and for 'females' in Females Posting Statement (Form F).

134. You are advised to make entries in a sequence starting with lowest Pad No. used by you starting with Slip No. 1 in each Pad so as to avoid duplication or missing of any entries. Both the statements are similar except that one is meant for Males and the other for Females. You should not fill up Col. 1 (Final Serial No.) at the first instance. This col. will be filled after the revisional round i.e. after you have brought the count up-to-date with reference to sunrise of 1st *March 1971 (see para 131) and also after you have struck the grand total of cols. 4 to 13. In cols. 2,3 and 4 you have to copy Pad No., Slip No. and sex as recorded by you in the slips. Even though there are separate forms of Posting Statements for males and females, yet you are required to copy the sex in col. 4 from the Individual Slip as this will help as a check in avoiding mistakes in Posting. In the remaining columns a tick (√) may be put against the appropriate columns, wherever information is found against the relevant question and a dash (—) may be put where it is not applicable.

135. Cols. 5 and 6 are to be posted with reference to the entries against Q. 11 of the Individual step. If a person is noted as belonging to a Scheduled Caste put a tick under Col. 5 and a dash in Col 6. If a Scheduled Tribe, put the tick in col. 6 and dash in col. 5. If the person is neither a Scheduled Caste nor Scheduled Tribe put a dash under cols. 5 and 6 of the Posting Statement.

136. Cols. 7 and 8 of the Posting Statement have to be filled with reference to the answer to Q. 12 of the Individual Slip. A person can be either 'L' or 'O' Put the tick or dash in the corresponding column accordingly. It must be noted that there cannot be a dash in both the columns.

137. Cols. 9-13 must be posted with some care. For a person for whom 'C' has been entered in the box against Q. 16 (a) (i) a tick (√) should be put under col. 9 and dash (—) under cols. 10 to 13. Similarly for a person for whom 'AL' or 'HHI' or 'OW' or 'X' has been recorded against Q. 16 (a) (i) a ticx (√) may be put under col. 10 or 11 or 12 or 13 respectively and dash (—) under remaining cols. from 9—13. You may please note that where a tick is put in col. 13 it means the person is a non-worker and there must be a dash in cols. 9 to 12. For your guidance specimen entries have been made in enumerator's Posting Statement appearing as Appendix VIII. As you are likely to use more than one Posting Statement you are advised to strike totals by counting the number of ticks (√) in the relevant column (s) as soon as you have completed entries in one form and strike the grand totals after the Revisional Round. Now proceed to fill up col. 1 in a continuous manner starting with the first entry in the posting statement, while assigning serial number in col. 1, you should ignore scored-out lines. Thus the grand total of column. 4 will be the last serial number in col. 1.

ENUMERATOR'S ABSTRACT

138. After striking the grand totals in Enumerator's daily posting statement you have to fill in another form given at Appendix IX (Form T). Specimen entries have been made in this form to give you and idea as to how an Abstract will be filled up. It is most important that this should be done with the greatest care. These abstracts will form the basis of the publication of the first result of the census. In the past census the enumerator's had given very accurate abstracts and there was hardly any difference between the finally tabulated figures and those furnished in the abstract. You should post this abstracts with care and pass on to your Supervisor as quickly as possible. You should hand over the enumeration pads neatly bundled along with a sketch of your Enumeration Block as prescribed in para 10 and the posting statements and the abstract the very next day after the completion of the enumeration. Your work in the posting of the abstracts will be closely checked by your Supervisor. Any carelessness on your part will be taken serious notice of.

With the completion of enumeration and the handing over of the posting statements and the abstract and the census schedule pads your burden is over. If you have done your work well you can have the satisfaction that you have made your humble but invaluable contribution to a vital national task.

Appendix I

PROVISIONS OF THE INDIAN CENSUS ACT RELATING TO THE ENUMERATORS

(See para 2)

Asking of questions and obligation to answer

"8. (1) A census officer may ask all such questions of all persons within the limits of the local area for which he is appointed as, by instructions issued in this behalf by the State Government and published in the Official Gazette, he may be directed to ask.

(2) Every person of whom any question is asked under sub-section(1) shall be legally bound to answer such question to the best of his knowledge or belief.

Occupier or manager to fill up schedule

10. (1) Subject to such orders as the State Government may issue in this behalf, a census officer may, within the local area for which he is appointed, leave or cause to be left a schedule at any dwelling-house or with the manager or any officer of any commercial or industrial establishment, for the purpose of its being filled up by the occupier of such house or of any specified part thereof or by such manager or officer with such particulars as the State Government may direct regarding the inmates of such house or part thereof, or the persons employed under such manager or officer, as the case may be at the time of the taking of the census.

(2) When such schedule has been so left, the said occupier, manager or officer, as the case may be shall fill it up or cause it to be filled up to the best of his knowledge or belief so far as regards the inmates of such house or part thereof or the persons employed under him, as the case may be, at the time aforesaid, and shall sign his name thereto and when so required, shall deliver the schedule so filled up and signed to the census officer or to such person as the census officer may direct.

Penalties

11. (1) (a) Any census officer or any person lawfully required to give assistance towards the taking of a census who refuses or neglects to use reasonable diligence in performing any duty imposed upon him or in obeying any order issued to him in accordance with this Act or any rule made there under or any person who hinders or obstructs another person in performing any such duty or in obeying any such order, or

(b) Any census officer who intentionally puts any offensive or improper question or knowingly makes any false return or, without the previous sanction of the Central Government or the State Government discloses any information which he has received by means of, or for the purpose of a census return, ...

(c) Any person who intentionally gives a false answer to, or refuses to answer to the best of his knowledge or belief, any question asked of him by a census officer which he is legally bound by section 8 to answer.

× × ×

shall be punishable with imprisonment which may extend to six months.

(2) Whoever abets any offence under sub-section (1) shall be punishable with fine which may extend to one thousand rupees."

Appendix II

PRINCIPLES OF HOUSE-NUMBERING

(See para 25)

THE CENSUS HOUSEHOLD NUMBER WILL CONSIST OF BUILDING NUMBER, CENSUS HOUSE NUMBER AND HOUSEHOLD NUMBER

Building :

"Building" is generally a single structure but sometimes made up of more than one component units, which is used or likely to be used as dwellings (residences), or establishments such as shops, workshops, factories, *etc.*, or as godowns, store, cattle sheds, *etc.*, or in combination with any of these such as, shop-*cum*-residence or workshop-*cum*-residence, *etc.*

2. Sometime a series of different buildings may be found along a street which are joined with one another by common walls on either side looking like a continuous structure. These different units are particularly independent of one another and likely to have been built at different times and owned by different persons. In such cases though the whole structure with all the adjoining units apparently appears to be one building, each portion should be treated as separate building and given separate numbers.

3. If there are more than one structure within an enclosed or open compound (premises) belonging to the same person, *e.g.*, the main house, the servants' quarters, the garage, *etc.*, only one building number should be given for this group and each of the constituent separate structure assigned a sub-number like 1 (1), 1 (2), 1 (3) and so on provided these structures satisfy the definition of a 'Census House' given hereafter.

4. The buildings should be numbered as follows :

(i) If the locality consists of a number of streets in a village, the buildings in the various streets in a village, should be numbered continuously. Streets should be taken in uniform order from North-east to South-west. It has been observed that the best way of numbering the buildings is to continue with one consecutive serial on one side of the street and complete the numbering on that side before crossing over to the end of the other side of the street and continuing with the serial stopping finally opposite to where the first number began.

(ii) In a town/city, enumeration block, the numbering will have to respect the axis of the street and not any pre-conceived geographical direction like North-east, *etc.*

(iii) Arabic numerals (*e.g.*, 1, 2, 3,...) should be used for building numbers.

(iv) A building under construction which is likely to be completed within about a year's time should also be given a number in the serial.

(v) If a new building either pucca or kachha is found after the house numbering has been completed or in the midst of buildings already numbered, it should be given a new number which may bear a sub-

number of the adjacent building number, *e.g.*, 10/1 .....

Note : These should not be numbered as 10 (1) or 10 (2), *etc*,, as such numbering would apply to census houses within the same building. On the other hand 10/1 would mean a separate building that has come up after building No. 10.

Census House Number

5. A census house is a building or part of a building having a separate main entrance from the road or common courtyard or stair-case, *etc.*, used or recognised as a separate unit. It may be inhabited or vacant. It may be used for a residential or non-residential purpose or both.

6. If a building has a number of flats or blocks which are independent of one another having separate entrances of their own from the road or a common stair-case or a common courtyard leading to a main gate they will be considered as separate census houses. If within a large enclosed area there are separate buildings, then each such building will also be a separate census house. If all the structures within an enclosed compound are together treated as one building then each structure with a separate entrance should be treated as a separate census house.

7. Each census house should be numbered. If a building by itself is a single census house, then the number of the census house is the same as the building number. But if different parts or constituent units of a building qualify to be treated as separate census houses, each census house should be given a sub-number within brackets to the building number as 10(1), 10(2), *etc.*, or 11(1), 11(2), 11(3), *etc.*

8. The order in which census houses within a building are to be numbered, should be continuous, preferably clockwise or in any convenient manner if it is difficult to do it clockwise.

9. The definition of census house may sometimes be difficult of application in its literal sense in the context of varying patterns of structures and their usage. For example, in cities and towns, one does come across a situation when a flat in the occupation of one household as residence may be made up four rooms or so and all the rooms may have direct entrance from a common courtyard, or a stair-case. In terms of the definition of a census house each of these rooms having entrances from the common stair-case *etc.*, may qualify to be treated as census houses. But it does not realistically reflect the situation of the number of houses. In such case, 'singleness' of use of these rooms along with the main house by the household should be taken into account and the entire flat comprising four rooms should be treated as one census house only and assigned one number. If on the other hand each one of these rooms had been separately occupied by independent households and if each portion had separate main entrance then each will be justified to be treated as a separate census house. In a hostel building even if the door of each room in which an inmate lives opens on to a common verandah or stair-case as it happens almost invariably, the entire hostel building may have to be treated as one census house only. In some parts of the country in the rural areas, the pattern of habitation is such that a single household occupies a group of huts within an enclosed fence which has one main entrance. Each of the apparently separated structures is an integral part of the housing unit as such. In such cases it may be more realistic to treat the group as one census house. Care should be taken to ascertain if only one household occupies such a unit or shared by more than one household. Thus the definition of a census house will have to be applied having due regard to the actual situation in such exceptional cases.

10. It is usual to find in municipal towns/cities that every site whether built upon or not are numbered by the municipal authorities on property basis. Such open sites even if they are enclosed by a compound wall should not be listed for census purposes. Only where a structure with four walls and a roof has come up should it be treated as a census house and listed. But in some areas the very nature of construction of houses is such that, for example, a conical roof almost touches the ground and an entrance is also provided, and there may not be any wall as such. Such structures should of course be treated as buildings and houses numbered and listed.

Household Number

A Household is a group of persons who commonly live together and would take their meals from a common kitchen unless the exigencies of work prevented any of them from doing so. It may be made up of related or unrelated persons. A cook or a servant living in the house of his employers and taking his food there is to be considered as a member of the master's household. A hotel where a number of unrelated persons live together is an institutional household. So is a jail.

11. There may be one or more households in a census house. If there are more than one household, each of them should be given a separate identifying number. This can be done by using the alphabets as (a), (b), (c), *etc.*, affixed to the census house number. For example, if building No. 2 is also a census house and has three households, the household numbers will be 2(a), 2(b) and 2(c). If building number 4 has two census houses, the houses will be numbered as 4(1) and 4(2). If within these houses there are respectively 3 and 2 household then they will be numbered as 4 (1) (a), 4(1) (b), 4(1) (c) and 4(2) (a) and 4(2) (b) respectively. If however, building No. 3 is also a census house and has only one household the number to be entered will be 3.

Appendix III

LIST OF A FEW TYPICAL INDUSTRIES THAT CAN BE CONDUCTED ON A HOUSEHOLD INDUSTRY BASIS

(See paras 92-95)

Foodstuffs

Production of flour by village chakkis or flour mills, milling or dehusking of paddy, grinding of chillies, turmeric, *etc.*, production of gur, khandsari, boora, *etc.*, production of pickles, chutney, jams, *etc.*, processing of cashewnuts, making of dried vegetables, manufacture of sweetmeats and bakery products, production of butter, ghee, *etc.*, slaughtering and preservation of meat and fish, fish curing, *etc.*, oil pressing ghani.

Beverages

Manufacture of country liquor, toddy, production of soda water, ice, ice-cream, sharbats, *etc.*, processing of coffee, *etc.*

Tobacco Products

Manufacture of bidi, cigars, cherroots, tobacco, snuff, *etc.*

Textile Cotton

Cotton ginning, carding, pressing and baling, spinning, *etc.*, dyeing and bleaching of cloth, weaving in handlooms or powerlooms or manufacture of khadi, cloth printing, making of fishing nets, mosquito nets, cotton thread, rope, twine, *etc.*

Textile Jute, Wool or Silk

Similar type of production or processing as mentioned under Textile-Cotton but pertaining to the material concerned.

Textile Miscellaneous

Making of *durries*, carpets, hosiery, embroidery, chrochet work, lace garland making, manufacture of headgear, making of *newar*, bed covers, curtains, pillow, pillow cases, *etc.*, making of mattress, quilt (rezai), *etc.*, making of namda felt, coconut fibre for upholstery, making of brushes, brooms, *etc.*, from coconut fibres, coir spinning, manufacture and repair of umbrellas, manufacture of dolls and toys (rags and cotton), *etc.*

Manufacture of Wood and Wood Products

Sawing and planing of wood, manufacture of wooden furniture, structural goods like beams, door and window frames, *etc.*, wooden agricultural implements and their repair, wooden lacquerware, wooden toys, wood carving, sawdust and plaster figure making, inlay work, match splinters, plywood and veneers, *etc.*, making palm leaf mats, fans, umbrellas, *etc.*, baskets and broomsticks, caning of chairs, making of chicks and khas khas tatties, making of cart wheels, wooden sandals, *etc.*

Paper and Paper Products

Manufacture of pulp and paper by hand, making of envelopes, paper mache articles, card board boxes, paper flower, paper kites, toys, *etc.*

Printing and Publishing

Printing works, lithography, block making, book binding, *etc.*

Leather and Leather Products

Flaying and processing of hides and skins, making leather footwear, wearing apparel of leather and fur, repair of shoes or other leather products.

Rubber, Petroleum and Coal Products

Vulcanising tyres and tubes, manufacture of chappals from torn tyres and other rubber footwear, manufacture of rubber products from natural and synthetic rubber.

Chemicals and Chemical Products

Manufacture of toys, paints, colours, *etc.*, manufacture of matches, fireworks, perfumes, cosmetics, manufacture of ayurvedic medicines, soap, plastic products, celluloid goods, manufacture of ink, candles, boot polish, *etc.*

Non-metallic Mineral Products other than Petroleum and Coal

Making of bricks, roofing tiles, sanitary fittings, cement statues, stone or marble carvings, manufacture of stone structurals, stone dressing and stone crushing, mica splitting and manufacture of other mica products, making of earthenware and pottery, crockery, glass beads and bangles, earthen toys, manufacture of glass products *etc.*

Basic Metals and their Products except Machinery and Transport Equipment

Manufacture of iron arms and weapons and their service and repair, iron and steel furniture, brass, bell-metal utensils, aluminium utensils, tin utensils, copper utensils, *etc.*, nickeling and electroplating, blacksmithy, manufacture and repair of agricultural implements such as ploughshare, *etc.*, making and repairing of locks and trunks, cutlery, manufacture of scales, weights and measures and foundry industry, *etc.*

Machinery (all kinds other than Transport) and Electrical Equipment

Manufacture of small machine tools and parts, repairing and servicing of fans, radios, domestic electrical appliances, *etc.*

Transport Equipment

Repairing and servicing of automobiles, manufacture of cycle parts, rickshaw parts, boats and barges, manufacture of animal-drawn and hand-drawn vehicles such as bullock carts, wheel barrow, *etc.*

Miscellaneous Manufacturing Industries

Repair of spectacles, photographic equipment, goldsmithy, silver filigree industry, gold covering work, bidriware, musical instruments, fountain pens, making of cowdung cakes, manufacture of sports goods, repairing of petromax lights, making of buttons and beads from conchshell and horn goods.

Appendix—IV

CLASSIFIED LIST OF ECONOMIC ACTIVITIES

(*See para* 112)

AGRICULTURE, HUNTING, FORESTRY & FISHING

(Do not merely say plantation or fishing *etc.*, but indicate the appropriate details as given here.)

Plantation Crops

Indicate the type of plantation such as tea, coffee, rubber, tobacco, edible nuts, fruits, ganja, betal nuts, *etc.*

Livestock Production

Indicate what kind of livestock is reared such as goats, sheep, horses, pigs, ducks, bees, silk worm, *etc.* Production of wool, raw silk, *etc.*, are also covered in this.

Agricultural Services

Indicate what type of agricultural service, *e.g.*, Pest destroying, spraying, operation of irrigation system, animal shearing and livestock services (other than veterinary services), grading agricultural and livestock products, soil conservation, soil testing, *etc.*

Hunting

Indicate hunting, trapping and game propagation for commercial purpose only.

Forestry and Logging

Apart from planting and conservation of forests, felling and cutting of trees, *etc.*, this would cover production of fuel, gathering of fodder, gums, resins, lac, *etc.*

Fishing

Sea, coastal and inland water, fishing ; pisciculture, collection of pearls, conches, shells, sponges, *etc.*

MINING AND QUARRYING

(Do not merely say mining or quarrying but indicate further details). Indicate what is mined such as coal, lignite, crude petroleum, natural gas, iron ore, manganese, gold, silver, copper ore, quarrying of stones, clay and sand pits, precious and semi-precious stones, mica, gypsum, *etc.*

MANUFACTURING AND REPAIR

(Do not merely say engaged in a factory, but indicate what the manufacturing is concerned with as detailed here.)

Manufacture of Food Products

Slaughtering, preparation and preservation of meat; dairy products; canning and preservation of fruits and vegetable ; fish, grain mill products ; backery products ; sugar ; boora ; common salt ; edible oils including vanaspati ; processing of tea or coffee ; manufacture of ice ; animal feeds, starch, *etc.*

Manufacture of Beverages, Tobacco and Tobacco Products

Rectifying and blending of spirits ; wine industries ; country liquor and toddy ; carbonated water industries ; bidi, cigar, cigarettes, zerda, snuff, etc.

Manufacture of Cotton Textiles

Cotton ginning, cleaning and baling ; spinning, weaving and finishing of cotton in textiles mills ; printing, dyeing and bleaching of cotton textiles ; cotton spinning other than in mills (charkha) ; khadi production ; weaving, *etc.*, in handlooms and powerlooms; *etc.*

Manufacture of Wool, Silk and Synthetic Fibre Textiles

Wool cleaning, baling and pressing ; weaving and finishing in mills and other than in mills ; dyeing and bleaching ; printing of silk, synthetic textiles, *etc.*

Manufacture of Jute, Hemp and Mesta Textiles

Spinning and pressing and baling of Jute and Mesta ; dyeing, printing and bleaching of jute textiles and manufacture of jute bags are also covered in this.

Manufacture of Textile Products

(Including wearing apparel other than footwear) knitting mills ; manufacture of all types of threads, cordage, ropes, *etc.* ; embroidery ; carpets; rain coats ; hats ; made up textiles goods (except garments), oil cloth, tarpaulin ; coir and coir products ; linoleum, padding, wadding, *etc.*, are also covered in this.

Manufacture of Wood and Wood Products Furniture and Fixtures

Manufacture of veneer, plywood and their products ; sawing and planing of wood ; wooden and cane boxes, crates, drums, barrels, *etc.*, beams, posts, doors and windows ; wooden industrial goods like blocks, handles, *etc.* ; cork products ; wooden, bamboo and cane furniture and fixture, *etc.*

Paper and Paper Products and Printing, Publishing and allied Industries

Manufacture of pulp ; paper, paper boards and newsprints ; container and paper boxes ; printing and publishing of newspapers ; periodicals, books, *etc.* ; engraving, block making, book binding, *etc.*

Leather and Leather and Fur Products

Training, currying, *etc.*, of leather ; footwear (excluding repair) ; coats, gloves, currying, dyeing, *etc.*, of fur, fur and skin rugs, *etc.*

Rubber, Plastic, Petroleum and Coal Products

Tyre and tubes industries ; footwear made of vulcanized or moulded rubber ; rubber and plastic products ; petroleum refineries ; production of coaltar in coke ovens, *etc.*,

Chemicals and Chemical Products

Manufacture of gases such as acids, alkalis, Oxygen, *etc.* ; fertilisers and pesticides ; paints, varnishes ; drugs and medicines ; perfumes, cosmetics, lotions, synthetic resins, *etc.* ; explosive and ammunition and fireworks, *etc.*

Non-metallic Mineral Products

Structural clay products ; glass and glass products ; earthen ware and earthen pottery ; china ware and porcelain ware ; cement, lime and plaster ; asbestos, cement, *etc.*

Basic Metal and Alloys Industries

Iron and Steel Industries ; casting foundries ; ferro-alloys ; copper, brass, zinc and brass manufacturing, *etc.*

Metal Products and Parts except Machinery and Transport Equipment

Metal cans from tin-plate, sheets metal, barrels, drums, pails, safe, *etc.* ; structural metal products ; metal furniture and fixture ; hand tools ; utensils, cutlery, *etc.*

Machinery, Machine tools and parts except Electrical Machinery

Agricultural machinery ; cranes ; road rollers, boilers, diesel engine ; refrigerators, air conditioners, *etc.*

Electrical Machinery, Apparatus, Appliances and Supplies and parts

Electrical motors, generators, transformers ; insulated wires and cables ; dry and wet batteries ; radio, television, *etc.* ; X-ray apparatus ; electric computors, *etc.*

Transport equipments and parts

Ship building and repairing locomotives and parts ; Railway wagons, coaches, *etc.* ; rail road equipment ; motor vehicles ; bicycles ; aircrafts ; push-carts and hand-carts, *etc.*

Other Manufacturing Industries

Do not say other manufacturing industries but write clearly what is being manufactured like manufacture of medical, surgical and scientific equipments ; photographic and optical goods ; watches ; minting of coins ; musical instruments, *etc.*

ELECTRICITY, GAS AND WATER

Indicate if generation and transmission of electric energy or distribution is involved, *e.g.*, manufacture of gas in gas works and its distribution ; water supply, *i.e.*, collection, purification and distribution of water, *etc.*

CONSTRUCTION

(Do not merely say engaged in construction but give further particulars.) Clear details of the type of construction and maintenance such as buildings, road, railway, telegraph, telephone, water ways and water reservoirs, hydro electric projects, industrial plants, activities allied to construction such as plumbing, heating and air conditioning installation, setting of tiles, marble, brick, *etc.*, construction of electrical installations, *etc.*, should be given.

WHOLESALE AND RETAIL TRADE AND RESTAURANTS AND HOTELS

Food, Textiles, Live Animals, Beverages and Intoxicants

Indicate clearly that the wholesale trade is done in cereals, pulses, foodstuff, textiles and textile products. *e.g.*, garments, shirtings, *etc.* ; beverages, intoxicants like wines, opium. ganja, tobacco, *etc.* ; wholesale trade in animals, straw and fodder is also covered in this.

Fuel, Light, Chemicals, Perfumery, Ceramics, Glass

Wholesale trade in medicines, chemicals, fuel lighting products, toilets, porcelain, glass utensil, crokery, *etc.*

All types of Machinery Equipment, including Transport and Electrical Equipment

Agricultural and industrial machinery, *e.g.*, harvestors, threshers, *etc.* ; electrical machinery ; transport equipments, *etc.*

Miscellaneous Manufacturing

Wholesale trade in furniture, rubber and rubber products, building materials, clocks, *etc.*; eye-glasses, *etc.* ; medical and surgical instruments ; precious metals, stones and jewellery, *etc.*

Retail Trade in food and food articles, beverage, tobacco and intoxicants

Indicate clearly that the retail trade is carried in grocery, vegetable, fruit selling, meat, poultry, bakery products, dairy products, pan, bidi, aerated water, *etc.*

Retail Trade in Textiles

Do not merely say engaged in retail trade in textile, but indicate clearly what the retail

trade is concerned with Dealers in textiles (non-ready made), ready-made garments, are some examples.

Retail Trade in Others

Indicate clearly what kind of retail trade it is like, medical shops, booksellers, building material, *etc.*

Restaurants and Hotels

Restaurants, cafes and other eating places, hotels, rooming houses, camps and other lodging places.

TRANSPORT, STORAGE AND COMMUNICATION

(Do not merely say engaged in land, water, air transport but give further particulars.) Indicate what kind of transport such as packing, crating, travel agencies, *etc.* It also includes bullock carts, *ekka*, *tonga*, *etc.*; ocean and coastal water, inland water transport, air transport, services rendered to transport such as packing, crating, travel agencies, *etc.* It also includes storage, warehousing, communication such as postal, telegraph, wireless, telephone, *etc.*

FINANCING, INSURANCE, READ ESTATE AND BUSINESS SERVICES

Indicate clearly whether services belong to Banking; credit institutions other than banks, *e.g.*, loan societies, agricultural credit institutions, *etc.*; money lenders, financiers, *etc.*; provident services; insurance carriers life; fire marine accident, health, *etc.* It also includes business services, e.g., purchase and sale agents and brokers; auctioneering; accounting; data processing; engineering; advertising services, *etc.*; legal services rendered by advocates, barristers, pleaders, *etc.*

COMMUNITY, SOCIAL AND PERSONAL SERVICES

It should be clearly indicated whether service belongs to public administration, Union Government, State Government, police service, quasi-Government bodies, sanitary services, education, scientific and research, *etc.*

Personal Services

Do not merely say engaged in personal service but indicate clearly whether it is domestic service, services relating to laundries, cleaning and dyeing plants, hair dressing, photographic studios, international and other extra territorial bodies, *etc.*

Appendix—V

CLASSIFIED LIST OF OCCUPATIONS *i.e.* DESCRIPTION OF WORK

[Q. 16(e) *and* 17(e)—*See Paras* 113-114]

Professional, Technical and Related Workers

(Do not merely say an Engineer, Doctor, Teacher, *etc.*, in describing the work of an individual but furnish more precise particulars as given below.) Indicate clearly in respect of engineers to what branch they belong such as civil, mechanical, electrical, metallurgical, mining, *etc.* In respect of physicians, state if they are allopathic, ayurvedic, homoeopathic, *etc.* Physiologists and dentists, *etc.*, should be recorded. As regards teachers, state if they are university teachers, secondary school, middle school, primary school or kindergarten teachers. There are various other types of chemists, physicists, archaeologists, nurses, pharmacists, health technicians, jurists, social scientists such as economists, statisticians, geographers, historians, anthropologists, *etc.*, as also artists, writers, painters, sculptors, actors, *etc.*, draughtsmen, laboratory assistants, librarians, ordained religious workers, astrologers, *etc.*, who will have to be recorded with particulars of their work.

Administrative, Executive and Managerial Workers

(Do not merely say Govt. Officer, an officer in a private firm of concern but give further particulars.) They may be in Government service or under a local body or in a business firm, manufacturing establishment or a catering establishment or a transport company and so on. Their full description should be recorded such as for example, Secretary to the Government of India, District Collector, Municipal Commissioner, Executive Officer of a Panchayat, Director of a firm, Manager of a business concern, Proprietor and Manager of a hotel, elected and legislative officials, aircrafts and ships officers, *etc.*

Clerical Workers

(Do not merely denote the work of a person as clerk or office worker but furnish further particulars.) State clearly the type of work done such as cashier, accountant, stenographer, typist, computing clerk, key punch operator, office assistant, guard, brakesman traffic controller, railway ticket inspector, postman, telephone/teleprinter/wireless operator, record keeper, despatcher, *etc.* Office workers would also include peons, daftaries, *etc.*

Sale Workers

(Do not merely say a worker in a shop but give details.) It should be clearly recorded whether the proprietor of a business concern engages himself in wholesale or retail trade. Saleman or shop assistants, agents of insurance, brokers in share, auctioneers, commercial, travellers, hawkers and street vendors, money lenders, pawn brokers, *etc.*, will also be covered.

Service Workers

(There are all types of service workers such as those engaged as domestic servants or in personal services or in police service or watch and ward, *etc.* Give precise particulars.) Hotel and restaurant keepers, house-keepers, matrons and stewards (domestic and institutional), cooks, waiters, bartenders and related workers (domestic and institutional), maids and related house-keeping service workers, building caretakers, sweepers, cleaners and related workers, launderers, dry cleaners and pressers, hair dressers, beauticians and related workers, protection service workers, such as watchmen, chowkidars, gatekeepers, *etc.* other service workers.

Farmers, Fisherman, Hunters, Loggers, etc., and Related Workers

Deep sea fishermen, inland or river water fishermen, shell gatherers, forest rangers, charcoal burners, forest produce gatherers, plantation managers, farm machine operators, gardeners, toddy tappers, rubber tappers, hunters, bird trappers, *etc.*, will be covered.

Production and other Related Workers, Transport Equipment Operators and Labourers

(This may cover a very large variety of craftsmen and operators, *etc.*, whose work will have to be given in adequate detail.) Examples : miners, quarrymen, well drillers, cotton ginners, spinners, dyers, knitters, lace makers, carpet makers, *etc.*, tailors, cutters, hat makers, embroiderers, shoe makers or repairers, saddle makers, leather cutters, *etc.*, blacksmiths, furnacemen, moulders, *etc.*, cart builders, wheel wrights, cabinet makers, *etc.*, stone cutters, bricklayers, masons, hut builders, thatchers, well diggers, *etc.*, jewellers, goldsmiths, watch and clock makers or repairers, welders and plate cutters, sheet metal workers, machine tool operators, electricians, electrical and electronic wire fitters, radio mechanic, electric linesmen, cable jointers, carpenters, joiners, sawers, *etc.* printing type machine operators, proof readers, photo-litho operators, book binders, potters, moulders, firemen, kilnsmen, blowers and makers of glass, millers, bakers, confectioners, sweetmeat makers, food canners, coffee or tea planters, tobacco curers, graders and blenders of tobacco, bidi or cigar makers, snuff or zarda makers, tyre builders, crane or hoist operators, loaders and unloaders, *etc.*

Date———— Date————

Note : The Information on the occupied residential houses, households, institutional households and houseless households will have to be provided with reference to entries in the Population Record. Make sure that you have counted the houses and households correctly. See paras 24—29 of the instruction for filling up the Individual Slip.

The number of households can be same as/or more than the census houses, but normally there will not be more houses than the households. The information for columns 12 & 13 will be obtained by counting the population in houseless households (household number noted 'O') and institutional households (household number with 'INST' indicated) respectively in the Population Record.
