DAMOH DISTRICT

VILLAGE & TOWN DIRECTORY

VILLAGE & TOWNWISE PRIMARY CENSUS ABSTRACT

Ram Singh
Joint Director
Directorate of Census Operations, Madhya Pradesh and Chhattisgarh

KUNDALPUR PILGRIMAGE- THE PRIDE OF BUNDELKHAND

Kundalpur is an ancient pilgrimage of Digamber Jain community in Hatta tehsil, 32 km away from district headquarters, Damoh. On the Kundalaka hill ranges, the most ancient and largest temple of Bade Baba situated where the statue of Lord Adinath is seated. In addition to this, there are 62 small Jain temples. Earlier, the statue was known as the 24th Tirthankar of Lord Mahavir.

(h) Statement-VII : Civic and other amenities in slums 372-375

(i) Appendix to Town Directory : Towns showing their outgrowth with Population 376

Part - B : Primary Census Abstract

(a) Brief note on Primary Census Abstract 379-381

(b) District Primary Census Abstract (General) 382-387

(c) Appendix to District Primary Census Abstract i.e. urban blockwise figures of Total, SC and ST population 388-395

Primary Census Abstract for Scheduled Castes 396-401

Primary Census Abstract for Scheduled Tribes 402-407

CD Block wise Village Primary Census Abstract 408-557

Urban Primary Census Abstract 558-575

Annexure-I : Number of villages under each Gram Panchayat (CD Blockwise) 576-619

Annexure-II : Note on Fertility, Mortality and Migration, 1991 Census 620

Annexure-III : Various measures of Fertility and mean age at marriage, 1991 Census 621-623

Annexure-IV : Percentage distribution of Migrants by place of birth/ place of last residence, 2001 Census 624-626

Annexure-V : Brief account of main religion in the district/tahsils as per 2001 Census 627

Annexure-VI : Marital status of population as per 2001 Census 628

Annexure-VII : Age, Sex and Education in the district, 2001 Census 629-630

Annexure-VIII : Distribution of different mother tongues returned in 2001 Census 630

Annexure-IX : Statement of Five Main SC and ST in the District, 1991 census 631

Annexure-X : Hamletwise total population of villages, Census 2001 632-681

Annexure-XI : Statement of Disability in the District, Census 2001 682

Foreword

The District Census Handbook (DCHB) published by Census Organisation since 1951 census, is one of the important publications in the context of planning and development at grass-root level. The publication, which is brought out for each district, contains several demographic and socio-economic characteristics village-wise and town-wise of the district alongwith the status of availability of civic amenities, infrastructural facilities, etc.

2. The scope of the DCHB was initially confined to a few Census tables and Primary Census Abstract (PCA) of each village and town within the district. Thereafter, at successive censuses, its scope and coverage has been enlarged. The DCHB published at the 1961 census provided a descriptive account of the district, administrative statistics, census tables and a village and town directory including PCA. The 1971 census-DCHB series was in three parts: Part-A related to village and town directory, part-B to village and town PCA and Part-C comprised analytical report, administrative statistics, district census tables and certain analytical tables based on PCA and amenity data in respect of villages. The 1981 census DCHB was in two parts: Part-A contained village and town directory and Part-B the PCA of village and town including the SCs and STs PCA up to tahsil/ town levels. New features alongwith restructuring of the formats of village and town directory were added into it. In Village Directory, all amenities except electricity were brought together and if any amenity was not available in the referent village, the distance in board ranges from the nearest place having such an amenity, was given. Information on new items such as adult literacy centres, primary health sub-centres and community health workers in the village were provided so as to meet the requirements of some of the Revised Minimum Needs Programme. Information on approach to the village was provided for the first time in the village Directory so as to give the details on number of inaccessible villages in each district. In the town Directory, a statement (IV-A) on slums introduced to provide the details on civic and other amenities in the notified slums of Class I and Class II towns.

3. The 1991 census DCHB, by and large, followed the pattern of presentation of 1981 census, except the format of PCA was restructured. Nine-fold industrial classification of main workers was given against the four-fold industrial classification presented in the 1981 census. In addition, sex-wise population in 0-6 age group was included in the PCA for the first time with a view to enable the data users to compile more realistic literacy rate as all children below 7 years of age had been treated as illiterate at the time of 1991 census. One of the important innovations in the 1991 census was the Community Development Block (CD block) level presentation of village directory and PCA data instead of the traditional tahsil/taluk/PS level presentation. It was expected that the presentation of village directory and PCA data at CD block level will help the planners in formulation of micro level development plans, CD block being lowest administrative unit.

4. The present series of 2001 census DCHBs have been made more informative and exhaustive in terms of coverage and content. The village Directory has been enlarged in scope by including a number of other facilities like banking, recreational and cultural facilities, newspapers and magazines and 'most important commodity' manufactured in village. Income and expenditure of gram panchayat, wherever possible, has been provided. Apart from these, more details on distance(s) at which basic amenities are available (if not available in the village), are given. This includes educational facilities (namely primary and middle schools and college), medical facilities (viz. Allopathic Hospital, Maternity & Child Welfare Centre and Primary Health Centre), drinking water, post & telegraph (post office and phone), communication, bank, credit societies and recreational

facilities. In town Directory, the statement on slums has been modified and its coverage enlarged by including details on all slums instead of 'notified slums'. The information is given in case of all statutory towns irrespective of their class, against only Class I and Class II towns in the 1981 and 1991 censuses. The basic amenities available in the villages and towns are analysed in depth with the help of a number of cross-classified inset tables and statements. Two other significant additions in the publication are inclusion of 'motif' highlighting significant characteristic of the district and analytical notes as annexures. The analytical notes on (i) fertility and mortality and (ii) various measures of fertility and mean age at marriage are prepared based on 1991 Census. Whereas, in the notes relating to (i) percentage distribution of migrants by place of birth/place of last residence, (ii) main religions, (iii) marital status of population, (iv) age, sex and education , and (v) distribution of spectrum of mother tongue, nature and extent of changes occurred in the district in its basic socio-demographic features during the decade 1991-2001 are analysed. The eight digital permanent location code (PLCN) to all the villages and towns have been assigned keeping in view the future needs.

5. The village and town level amenity data have been collected, complied and computerised in prescribed record structure under the supervision of Shri Prabhakar Bansod, Director of Census Operations, Bhopal. Thereafter, efforts have been made to ensure comparability of the information with that of 1991 census data and the information brought out by the respective state governments in their annual reports and statistical handbooks for various years after 1991. The task of planning, designing and coordination of this publication was carried out by Shri R.G. Mitra, Deputy Registrar General (C&T) and Dr. I.C. Agrawal, Senior Research Officer of Social Studies Divisions. Dr. R.P. Singh Deputy Registrar General (Map) provided the technical guidance in the preparation of maps. Whereas, Shri Anil Kumar Arora, Deputy Director of Data Processing Division who worked under the overall supervision of Shri Himakar, Addl. Director(EDP) helped in preparation of record structure for computerisation of village and town directory data and the programme for the generation of Village Directory and Town Directory statement including analytical inset tables. The draft DCHB manuscripts received from the Census Directorates have been scrutinised in the Social Studies Division Under the guidance of Shri S.L.Jain, Deputy Director and Shri. R.K. Mehata, Assistant Director. I am thankful to all of them and others who have contributed to make this publication possible.

D.K. Sikri
Registrar General &
Census Commissioner, India

Preface

The District Census Handbook (DCHB) compiled by the Census organization, Government of India is one of the most valuable and usable product of the Census. As its name suggests, it is brought out for each district in the State. This publication started from the 1951 Census, but prior to this, a similar publication was released in the earlier censuses. Those publications contained only village statistics, village names and total population thereof. The 1951 Census could, therefore be said to represent a significant step forward, in the process of making detailed census statistics available down to the village level. An important achievement, for the first time in 1991 Census, was that the village level data was presented Community Development Blockwise.

The scope of District Census Handbook has undergone considerable change since 1951. This is basically due to the growing demand for more information. For the purpose of convenience as well as with a view to make the basic statistics available to the data users, as early as possible, the District Census Handbook of 1991 was brought out in a single volume as against the earlier practice of bringing it out in two parts. The volume was however divided in two parts viz. part A and part B. Part A contained the Village/Town Directory while part B contained the Primary Census Data, based on the 1991 Census count. Continuing the practice of 1991 Census, the 2001 series of the District Census Handbooks is comprised of two parts but the present series is more informative in terms of coverage and contents. Part A contains Village Directory which provides information on infrastructure amenities and land use data at village level i.e. name and location of villages, area, population, number of households, important civic amenities/facilities available in villages like educational, medical, drinking water, post, telegraph, commercial and co-operative banks, agricultural and non-agricultural credit societies, recreational and cultural facilities, communications, approach to the village, nearest town and its distance, power supply, news papers/magazine and most important commodity manufactured in the villages. Similarly, the comprehensive statements and their analysis of Town Directory provide valuable information on growth, physical, economic, civic and development aspects in respect of each town of the district. C.D. block being the lowest administrative unit for developmental planning, it is assumed that the data provided at this level would be extremely useful to the planners for formulating micro level developmental plans.

Part B of the District Census Handbook contains Village and Town Primary Census Abstract. This provides information on area, occupied residential houses, number of households, sex-wise total population. child population in age-group 0-6, Scheduled Castes and Scheduled Tribes, literates, workers, non-workers and divisions of workers into four industrial categories i.e. cultivators, agricultural labourers, workers in household industries and other workers in respect of each village and town of the district. Besides the brief history and other major characteristics of the district, inset tables and appendixes based on village directory, housing tables and PCA and their analysis added in the District Census Handbook provide glimpse of availability of amenities to villages relating to housing, assets available with households and demographic profile of population at tahsil/ C.D block level which are helpful for rural planning. Annexures giving information on religion, Scheduled Castes/Scheduled Tribes, migration, fertility, mother tongue have been included.

It has to be remembered that the villagewise area figures presented in the PCA are based on village information in the form of C-3 as furnished by the revenue authority and the "total" given for the administrative units viz community development blocks, is the total of the area figures of village coming under it while in the case of the administrative unit viz, tehsil, the "total" area shown, is based on the information furnished by the Commissioner, Land Records ,Government of Madhya Pradesh, Gwalior. In some cases the total area

shown against the tahsil, may not tally with the total of the area figures of villages coming under it.

The District Census Handbook had been a joint venture of the Government of Madhya Pradesh and the Government of India. The design of 2001 District Census Handbook has been evolved centrally by the Census Commissioner, India and accordingly these books have been prepared by my office. In earlier censuses, the cost of publication of these books were borne by the State Government but now these are being printed centrally by the Census organization. In accomplishing this task we have had the whole hearted cooperation of the staff at various levels of different departments of the State Government. The data supplied by the field level officers have been comparatively checked with 1991 DCHB information and have been cross checked with the data obtained from various departments. An attempt had been made to reconcile the discrepancies by external validation to make it more reliable. I am grateful to all heads of departments of the State Government officers and staff engaged in the conduct of 2001 Census for their cooperation to accomplish this task.

The compilation of such a huge amount of varied data in a single volume requires proper planning and close monitoring. We had the honour of having enlightened guidance and encouragement of Shri J.K.Banthia, IAS, Registrar General and Census Commissioner of India. I owe special thanks to Shri. J.K.Banthia. After the repatriation of Shri J.K.Banthia to Maharashtra Government and later to come foreign assignment. We have been receiving continous guidance and support from Shri D.K. Sikri presently Registrar General and Census Commissioner, India for bringing this report out. I am grateful to him. I am thankful to Dr. R.P. Singh, DRG (Map), Shri. R.G. Mitra DRG (C&T) and Dr.I.C. Agrawal, Sr. Research Officer (S.S.) and Shri.S.L. Jain, Dy. Director of S.S. Division for providing technical guidance.

In the directorate many officers/officials contributed in the Census 2001. First of all I am grateful to the then Director of Census Operation, Madhya Pradesh & Chhattisgarh, Shri Prabhakar Bansod under whose guidance the Census 2001 was carried out successfully.

The data presented in the District Census Handbook required a concerted team work of officers and staff member of this Directorate who were involved with it at various stages of its planning, supervision, field work, computerisation, preparation of manuscript, prepration of CRC with the help of Adobe Pagemaking technique, maps and printing. I express my appreciation for the painstaking dedicated service rendered by all of them and also to the officers and staff of Data Centre, Bhopal for their untiring cooperation in finalizing the 2001 Census Data.

I shall feel greatly rewarded if the book comes to the expectation of the data users.

District Highlights - 2001 Census

1. The district occupies 33rd place in the state according to population.

2. The district occupies 18th rank in the state in terms of area having 7,306 sq.km. which is 2.4 percent of the total area of state.

3. Literacy rate of Damoh district is 61.8 percent and it occupies 29th position in the state. The female literacy rate of the district is 47.3 percent .

4. Density wise the rank of the district is 36th in the state.

5. Ranking of the district according to the sex-ratio is 31st in the state.

6. Female work participation of the district is 35.8 percent of total female population. Rank of the district according to female work participation is 21st .

7. Population wise largest village is Patera of Patera tahsil L.C.No.01278000 with 8,747 population and smallest village is Tindini, Pati Bhat Khamariya of Jabera tahsil L.C.No.01340000, 01352500 with population of only 2 persons

8. Population wise largest town is Damoh(M+O.G)) having population 127,967 and smallest is Bansatar Kheda (C.T) with 5,027 population.

9. Economy of the district is mainly dependent on agriculture and the district is famous forKundalpur Pilgrimage.

	Females	3,882,302	40.4	61,532	33.5
(III) WORKERS IN HOUSEHOLD INDUSTRY)	Persons	1,033,313	4.0	111,665	23.0
	Males	519,127	3.2	40,051	13.2
	Females	514,186	5.4	71,614	38.9
(IV) OTHER WORKERS	Persons	6,321,630	24.5	94,045	19.3
	Males	5,274,097	32.6	75,987	25.1
	Females	1,047,533	10.9	18,058	9.8

Note :- Six villages are fully covered as out growths (OGs) and therefore not included under the item, "Number of villages".
Definition of Census Town :-
All places which satisfy or are expected to satisfy the following criteria are treated as Census Towns:-

i) A minimum population of 5,000;
ii) At least 75 per cent of the male working population engaged in non-agricultural pursuits, and
iii) A density of population of at least 400 per square kilometre (1,000 per square mile).

ANALYTICAL NOTE

Analytical Note

(i) History and Scope of District Census Handbook:

The District Census Handbook (DCHB), compiled by the Census Organisation, Government of India, on behalf of the State Government is one of the most valuable product of the Census. It is brought out for every district and is a very useful publication which is widely used by planners, administrators, academicians and researchers as it provides, among other things, the primary census data down to the village level.

History :

The history of the District Census Handbook could be traced from the "Village lists" brought out for every district in 1901 and "Village Statistics" for every district in 1911. This was discontinued in 1921 and 1931. In 1941, however, "Village Statistics" were brought out by the then Central Provinces and Berar Government. It was for the first time in 1951 that the practice of brining out a single volume known as District Census Handbook, giving village wise statistics and other Census tables for the districts, at the cost of the State Government, was initiated .

Scope :

The maiden publication of the District Census Handbook of 1951 contained village wise primary census data and census tables for the district. With the increasing utility and demand of statistical data for the planning process, the scope of the District Census Handbook was enhanced to a great extent in 1961 by including non-census data like climate, agriculture, animal husbandry, co-operative bank, industry, education, health, etc., apart from presenting the village wise primary census data and census tables. An introductory note giving information on historical background, physical features, soil, climate, civic administration, agriculture, industry, education, etc. together with detailed analysis on census tables was also a novel feature of the 1961 census. Maps of District and Tahsil were also included.

Publication of DCHB at the 1971 Census :

The desire to make the District Census Handbook more comprehensive in 1961, delayed the publication in some states. Therefore, in 1971, the Registrar General and Census Commissioner of India, decided to bring out DCHB in three parts viz. Part A, B and C, in order to release the maximum data as and when ready. Accordingly Part A was to contain the village wise Land Use data and the amenities and facilities available in the villages, these being part of the non-census statistics. Part B was to comprise the village wise primary census data, while in part C, the various non-census statistics at the district level and a few at tahsil level were to be presented.

However, in Madhya Pradesh, Part A and B were published in one volume, since it was economical to do so and data for both the parts had become available early. For various reasons, collection of non-census statistics took a long time and consequently, finalization of Part C was unduly delayed. Though the manuscript of Part C were allotted to different Regional Presses by the Controller, Printing and stationary, Government of Madhya Pradesh for printing. Ultimately this publication had to be abandoned due to the enormous delay in the process of its finalization and printing.

Strategy at the 1981 Census :

In 1981 census with a view to avoid delay in the publication of DCHB series, part C containing the non-census statistics, as well as the census tables for the district were dropped. The scope of the District Census Handbook was, however, enlarged by the addition of tahsil wise list of villages where no amenities were available and tahsil wise list of the villages according to the proportion of Scheduled Caste/Tribes population by ranges in the form of Appendices III and IV respectively were added since Appendices I and II were already there.

Appendix III has been helpful for planning input in areas/villages where basic infrastructure is lacking,

while Appendix IV has been helpful for planning welfare programmes for Scheduled Castes/Scheduled Tribes at micro level, particularly in relation to development oriented programmes.

In the town directory portion of DCHB Part A and additional Statement IV-A was also introduced in 1981. This statement was meant only for Class I and Class II towns and indicated the civic and other amenities in notified slums.

The inclusion of the Primary Census Abstract relating to the Scheduled Castes and Scheduled Tribes at the tahsil/town level in Part B portion of the DCHB was another important feature of 1981 Census. An appendix containing Development block wise totals of Primary Census Abstract was also presented in the DCHB series 1981 though it was not prescribed in the All India pattern.

The 1991 DCHB Series :

In the context of development planning the CD Block stay as an operational unit, the presentation of village-wise statistics at the CD Block level had been very helpful for the administrators and planners in formulating various development plans. The same had been presented CD Blockwise in 1991 Census.

The scope of the 1991 DCHB, particularly the village directory was enhanced to a great extent by the inclusion of additional information on various subjects such as inset tables on area, population and density in the districts, tahsils and towns, jurisdictional changes 1981-91 etc.

Contents of the DCHB series 2001 :

The present series of District Census Handbook consisting of two parts viz. Part A and Part B is being published in a single Volume.

Part A Village Directory :

Village Directory contains information about the name of the village with location code number, assigned to it by the Census Organisation, geographical area of the village, total population and number of households in the village, amenities like education, medical, drinking water, post and telegraphs, communications, approach to village together with distance in Km, distance from the nearest town, power supply and land use data. In addition there are eight appendix to the village Directory as under :

Appendix I : CD Block wise(rural) abstract of educational, medical and other amenities.

Appendix I-a : CD Block wise abstract of villages by number of Primary schools.

Appendix I-b : CD Block wise abstract of Villages of Primary, middle and secondary schools.

Appendix I-c : CD Block wise abstract of Villages with different sources of drinking water facilities available.

Appendix II : Villages with 5000 and above Population, which do not have one or more amenities

Appendix II-a : Census Towns which do not have one or more amenities

Appendix III : Land Utilization data in respect of Census Towns/Non Municipal Towns.

Appendix IV : CD Block wise list of inhabited villages where no amenity other that drinking water facility is available.

Appendix V : Summary showing number of villages not having Scheduled Castes Population.

Appendix VI : Summary showing number of villages not having Scheduled Tribe Population.

Appendix VII A: List of villages according to the proportion of the Scheduled Castes to the total population by ranges.

Appendix VII B: List of villages according to the proportion of the Scheduled Tribes to the total population by ranges.

Appendix VIII : Statement showing number of girls school in the villages.

Town Directory :

The Town Directory contains the following seven statements and one appendix.

Statement I : Status and Growth History

Statement II : Physical aspects and location of towns

Statement III : Municipal Finance

Statement IV : Civic and other amenities

Statement V : Medical,Educational, Recreational and cultural facilities

Statement VI : Trade, Commerce, Industry and Banking

Statement VII: Civic and other amenities in slums

Appendix to Town Directory – Towns showing their outgrowth with population.

Primary Census Abstract

Part B: -The Primary Census Abstract gives basic information on Area, Total Households, Total population, Scheduled Castes, Scheduled Tribes population, Population in the age group 0-6, Literates, Main Workers and Marginal workers classified by the four broad industrial categories, namely, (i) Cultivators, (ii) Agricultural Labourers, (iii) Household Industry Workers, and (iv) Other Workers and Non-workers. The characteristics of the Total population includes Scheduled Castes, Scheduled Tribes, Institutional and Houseless population and are presented by sex and rural-urban residence. This data is presented at different levels namely, Districts, CD blocks, Village, and UA/Towns. In addition, Ward/Enumeration blockwise population is given in the Appendix to District Primary Census Abstract.

Primary Census Abstracts for Scheduled Castes and Scheduled Tribes:

The primary Census Abstract relating to Scheduled Castes and Scheduled Tribes is also being presented separately at the CD Block-wise /Town wise. It will have the same characteristics as indicated in the Primary census Abstract to the total population.

Publication of DCHB in Regional Language :

In 1981, part A and part B of DCHB were brought out separately for every district which were printed in diglot i.e. a mixed up Hindi and English versions while in 1971, both the parts i.e. part A and part B were brought out in a single volume with simultaneous Hindi and English versions. The 1961 DCHB were however published in a single volume in English version only for district, since there were no separate parts like DCHB of 1971 and 1981 censuses. The 1951 census DCHB series were published with a mix of both Hindi and English but with a difference. That is to say that the districts belonging to the erstwhile state of Madhya Pradesh comprising the Mahakoshal Region and 2 districts of erstwhile Bhopal state has the District Census Handbook in English version only, while with respect to 16 districts of Madhya Bharat region, the DCHB were published in diglot. The DCHB of 8 districts of Vindhya Pradesh region were however published in Hindi version only.

New Features of DCHB 2001 :

The main features of Village Directory of DCHB 2001 are :

(1) For the first time eight digit continuous location code is assigned to all the villages within the state. These are the Permanent Location Code Numbers (PLCN) and starts from the first village of first Tahsil of first district of State and continue till the end of last village of last Tahsil of the last district within a state.

(2) The State codes are given in serpentine order for the first time which were assigned alphabetically in 1991 Census . As a result the State code of Madhya Pradesh which was 13 in 1991 has changed to 23 in 2001.

(3) As compared to earlier series of Village Directory addition of more useful information viz. Number of Commercial, co-operative banks and the nearest distance of availability of amenity, Agriculture and Non-Agriculture credit societies, Recreational and Cultural facilities, availability of Newspaper/ magazines and names of important commodities manufactured are included in Census 2001 for the first time in Village Directory.

(4) Annexures giving information on fertility, religion, migration, mother tongue, Scheduled Caste/Scheduled Tribe have been included in DCHB 2001.

Town Directory :

No major change has been made in Town Directory when compared to Town Directory of 1991. However, some improvement has been made in the data collection on slums of the towns having population

50,000 and more in which separate Enumeration Blocks were carved for slums during houselisting and population enumeration. In 2001 information with respect to slum areas have been collected for all towns.

The information of slums for Class I and II towns that is with population 50,000 or more was compiled in statement IV-A in Census 1991. In Census 2001, this information is compiled for all the towns irrespective of their size in statement VII.

Primary Census Abstract :

(1) Information on individuals has been collected in Household schedules and practice of collecting data on individual slip has been discontinued.

(2) For persons recorded as other workers, the information on distance of place of duty and the means of transport of place of duty are obtained in column 27 and 28 of the household schedule.

(3) The information on Disability was obtained for the first time in Census 2001 in column 15 of the household schedule.

(4) The household schedule is divided in three parts. The information on cultivation/ plantation is recorded in part III of the household schedule for the first time in census 2001.

(ii) Brief History of the District :

District Damoh is one of the districts of the Bundelkhand region of Madhya Pradesh. The district drives its name from the headquarters town of Damoh. The town Damoh is believed to have been named after *Damayanti* the founder and the queen of *Raja Nala* of Narwar and a personage who is known only to folklore. The stone inscription of 15th century at Chandi Chopra (about 32.2 KM south east of Damoh) refers to a town, namely *Damanakpur*. The term *Damoh* means a cluster of dwellings. The early history of administration in the district is linked with Singorgarh, Bilhari, Nohata, Batihadim (Batiagarh). Singorgarh was probably held by a Parihar ruler during 1357 –1364. The local officer of the *Chandela* territory called *Kamdar* in the 12th century resided in the fort of Bilhari and later on at Nohata. Under the *Khiljis* and *Tughluqs* of Delhi, Batihadim, later called Batiagarh was the center of local administrator as the T*ughluqs Nawab* resided there. The *Khiljis* of Malwa shifted the headquarters of local administration to Damoh. Lakhroni and Narsinghgarh (*Nasratgarh*) were other headquarters of the early *Muhammadan* rule.

About 1540 AD *Dalpat Shah* the successor of Sangram Shah also called Aman shifted the capital of Garha-Mandla to the fortress of Singorgarh which he enlarged and strengthened before his death. Probably the territory was divided into four sub offices or *garhs*, the other three were viz. Damoh, Madiado and Hata. However, after the fall of *Rani Durgawati* in the battle of Brela, Damoh was annexed to the *Mugal* Empire and was placed under an Amir who was under the Subedar of Malwa for the time being. The Parganas of Damoh, Narsinhgarh and Lakhroni were in the Sarkar of Charuragarh. When the *Gond Kingdom* was on its decline; Narinde Shah had to bargain peace by offering five *garhs* including Damoh to Chhatrasal Bundela and another five including Madiado and Hatta to *Mugals* covering almost entire district.

Nearly one third of the kingdom of *Maharaja* Chhatrasal (only Sagar part of Damoh) was bestowed on the *Peshwa* in December 1731 in return to the aid the latter offered to the former. Other parts of Damoh district however continued to be with Hirdeshah, son of Chhatrsal. The *Marathas* got their hold gradually over the bulk of the district and ruled for about 80 years. Their territory was administrated by the *Subedar* of Sagar. The district was administered by two *Dewans* one each at Damoh and Hatta and seven subordinates *Amirs* or *Mamletdars* headquarters at Patharia, Patera, Batiagarh, Tejgarh, Jujhar, Kaonta, etc.

Damoh along with Sagar came under the British rule with the deposition of the *Peshwa* by Lord Hastings in 1817. The headquarters of the district was at first located at Hatta and after being transferred more than once was fixed at Damoh in 1838. Until 1854 the district was administratively subordinated to Sagar. Of the two tahsils created, Damoh in the south comprised the *Parganas* of Patheria with 55 villages, Nirsinghgarh with 92 villages, Damoh with 213 villages, Mangarh with 122 villages and Tajgarh with 270 villages. Hatta in the

north with five parganas namely Fatehpur with 134 villages, Batiagarh with 126 villages, Hatta with 171 villages, Patera with 76 villages and Kota with 52 villages. But the district was reduced to the level of a subdivision of Sagar on 31th October 1932 and it remained so till 1st October 1956.

The first major change on the limits of the district was the transfer of 123 villages including Singrampur *pargana* from Jabalpur to Damoh in 1869. Leaving the changes due to advancement in services and corrections of statistics, second change occurred at the census of 1901 when 24.1 square km of government forest from Damoh district was transferred to Narsimhapur district. Small enclaves of Panna state merged in the former Vindhya Pradesh, were transferred to the Damoh district (then a subdivision of Sagar district) in 1951, under the Provinces and States (Transfer of Enclave) Order, 1950. Out of this Parirakheri village with an area of 2.62 sq km was added to Damoh tahsil. Under the same order 3 villages namely Kupi, Udla and Bhainsroi were transferred to Panna district.

(iii) Administrative Setup:

The district comes under Sagar administrative division of Madhya Pradesh. There are seven tahsils and seven community development blocks in the district, viz; Damoh, Pathariya, Jabera, Tendukheda, Hatta, Patera and Batiyagarh. There are 7 Janpad Panchayats and 456 Gram Panchayats and 1193 inhabited villages in the district. The district is having one parliamentary constituency and four assembly constituencies i.e. Nohata, Damoh, Pathariya and Hatta.

The administrative pattern of Damoh district resembles the other districts of the state. The Collector is the chief revenue authority as well as the district magistrate and responsible for the maintenance of land and other revenue records, for collection of the revenues as well as for the maintenance of law and order. Besides being the chief representative of the government, he also exercises supervisory control over other departments in the district.

(iv) Physical Features:

Damoh district lies on the south-eastern part of the great Vindhya plateau, which stretches north of and parallel to the river Narmada. The plateau rises abruptly from the Narmada valley as steeply scarped hills, the summit of which reaches greatest elevation and form where there is a gradual slope, generally towards the north-east. The plateau is broken and crossed by a series of valley between chains of hills to the north-east and Sonar valley dividing the plateau into two parts, a large block in the south and a narrow belt in the northwestern part of the district.

Topographically, the district is divided into three physiographic sub divisions, namely, Vindhya range, Vindhya scarps and Bundelkhend upland. The Vindhya scarp-lands cover the entire sonar valley and the southern plateau, excluding the main line of hills belonging to the Vindhya range. Vindhyan range may be grouped with the rest of the southern hills. There are three physical divisions, viz 1) The Southern Plateau; (i) The Vindhyan Range and the Southern Precipice. (ii) The Broad Southern Plateau. 2) The Sonar Valley and 3) The North-Western Hill Range.

The Southern plateau lies at a general elevation of about 450 meters above the sea level and marked with the main line of hills more or less a continuous precipice overlooking the Narmada and the Hiran valleys. The Vindhyachal range, the long range of escarped hills, stretch from the vicinity of Mandvi to the junction of the river Hiran with the river Narmada and continues into the Bhanrer and the Kaimur ranges to the north of the Sone valley. The escarpment is more prominently marked than the hill range, because the range is either mingled with or less distinct from the offshoot. The southern part of the Vindhya range up to Katangi is called the Bhanrer range whereas the escarpment enclosing the land locked valley of Singrampur, is called the Kaimur range.

Originally the Southern edge of the plateau and the hills scarp steeply to the south facing the Narmada & Hiran valley is extended beyond Panna in the north. With the establishment of drainage lines and the consequent erosion, now the valley of the Sonar and the Kopra lies into a broad belt of low alluvial soil between the line of dissected hills on the south east and the scarps of the north western plateau.

The Sonar valley with an elevation of 335 metres from mean sea level is about 80 km. long from south-west to north-east and 32 to 40 km. wide between the scarps of the southern and northern plateau of the

Vindhyas also form the local water shed between the river Sonar and the Barana *nala* to the north-west composed of fertile black soil formed from the detritus of volcanic rocks which still cap the south western hills, and had extended in large area in the geological past.

The northwest plateau rises about 120 metres like a well from the Sonar valley. Locally known as Barana hills, the central ridge (460 or 520 metres) is marked by several flat topped hills and runs from south west to north-east. The Phurtal hill (525 metres) is the highest point of this range in the district. There are a few small villages along the flat top of the range and on the banks of the streams, rest of the area is forests under the Government reserves. The only metalled road crossing the hill range is Damoh-Hirapur Road passing through Batiagarh and Bakswaho.

Except a few small streams joining the river Hiran, a tributary of the river Narmada, the whole district is drained into Yamuna through the tributaries and feeders of the river Ken. The main local system is of the Sonar and the Bearma, which follow the general slope of the country and flow towards the northeast. These rivers are perennial in their later courses but most of the drainage lines are seasonal in their character. While the floods cause great inconvenience and loss to the region, the summers spell scarcity of water for drinking and other purposes.

Climate:

The climate of the district is generally pleasant, the air being mostly dry except in the south-west monsoon season. The hot weather begins in March and continues till the onset of the monsoon in June. The mean monthly temperature rises gradually after January reaching the maximum in May. The temperature gradually falls after May but a secondary maximum account in September when the monsoon is weakening. The night temperature is highest in June and lowest in December. The year may be divided into four seasons. The cold season from November to February is followed by the summer from March to about mid of June. The period from mid June to the end of September is the south-west monsoon season. October is the period of transition from monsoon to winter.

The average rainfall in the district is 1198.3 mm. About 92 per cent of this rainfall is received during the monsoon months. The rainfall generally increases from the northwest towards the southwest in the district. The climate of the district is generally dry. The mean humidity is as low as 15 per cent in the summer afternoons and is highest in the monsoon months. Fog occurs in the months of December, January and July when increasing humidity combines with decreasing temperatures.

The Flora and Fauna:

About half of the area of the district was covered with thick forests, scrubs and grasslands a century ago. The forests of the district are classified as tropical dry deciduous forests. A good number of deciduous, a few evergreens or semi-evergreen and a few xerophytic to semi-xerophytic types of species are found in the district, mostly mixed up in various proportions. In certain localities, one or the other species seems to have monopolized the area. The over-wood and under-wood are at most places indistinguishable and only single tree canopy is met. The soil is not well drained and the proportion of clay is higher than required for favorable growth of teak. The most common species are teak, *saja, bija, dhaora, tendu, tinsa, jamun, baher* and *mahua* species. The major teak forest belts are along the western and eastern boundaries and on the hills south of Tejgarh and south-west of Tendukhera upto the southern boundary. Another belt of teak forest lies along the northern boundary. Small patches of teak forest also lie on the hills of the southern plateau near Damoh, Hindoria and Gahera and near Hathidol on the northwestern plateau. Bamboos are mostly absent and *lantana* is found occasionally in south-western tracts. *Dhawai* (Woodfordia floribunda) is a large shrub with a much-fluted stem and very thin gray bark peeling off in scales. The best grazing grasses in the district are musyal (Iseilema laxum) and kel or kaila (Andropogon annulatus). Parwaiya or perbi (Heteropogon contortus) is also a good grazing grass.

The forests of the district are fairly well stocked with wild life. The tiger (Felis tigris) locally called *nahar* is common on the hills and rocky ravines in wet weather. The leopard or panther (Felis pardus), locally called *tendua* is found all over the district. It causes

great destruction to cattle. The jungle cat (Felis chaus) or *jungli billi* is common and very destructive to pea-fowl, partridges and hares. The small Indian civet (Viverricula malaccensis) is very common and the Indian palm civet (Paradoxurus niger) striped hyaena (Hyaena striatasa) Jackals and foxes, sloth or Indian bear (Ursus labiatus) or *richh* or *adamzad* are found in several parts of the district. The destructive wolf (Canis pallipes) is very rare. The common otter (Lutra vulgaris) is found in all parts of the district rivers, streams etc.

Mines :

The sandstones and limestones of the Kaimur and Bhander series of the Vindhya system furnish excellent construction materials. These rocks occupy a large part of the district. The Deccan traps which occur in patches in the western parts of the district furnish some building stones for rough construction. Iron ore is found but not in appreciable amount. The sandstones and lime stones of Vindhya system and the basalts of Deccan traps form excellent road metals.

Land Use:

As per the land records of the district, total rural area of the district is 729 thousand hectares out of which approximately 37 %(267 thousand hectares) is forest area. The net sown area on the other hand constitutes around 42 per cent of the total rural area of the district. The remaining 21 per cent of the district, approximately 153 thousand hectares is either fallow land or hills and other barren tracts and is not fit for agriculture.

Agriculture:

Total area of the district is 7306 sq kms. Rural area of the district is 729 thousand hectares, net sown area is 303 thousand hectares (about 42% of the area) according to revenue records. The gross cropped area is 383 thousand hectares only about 26 per cent of the net sown area is double cropped area. Less than 30 per cent of the net sown area is irrigated. So, the productivity of agriculture in the district is low. The predominant crops are wheat, rice, jowar, maize and other grains while among pulses are gram, *tur, urad* etc. Under oil seeds, soybean, *til*, groundnut etc are sown in the district. The area of wheat is 100,905 hectares, rice is 52,566 hectares, jowar is 7922 hectares and maize is 2125 hectares. Among pulses; gram 64,717 hectares, tur 2,767 hectares and urad 2,485 hectares were sown in the year 1997-98. In kharif crops 71,169 hectare were grains and 88,773 hectares were non-grains and under rabi crops 2,12,025 hectares were grains and 18,099 hectares were under non-grains cultivated in the district.

The value of gross agriculture production per hectares of net sown area is Rs. 9880 at current prices, which is well below the state average of Rs. 11968 during 1999-2000. Uses of fertilizers are as low as about 20 kg per hectares net sown area.

Irrigation :

In the year 1997-98 land under irrigation gained some improvement i.e. 77,694 hectares out of 728,593 hectares of total land and out of 390,066 hectares of total sown area. Most of the irrigation in the district is done by wells which number 13,837 and through this medium 19708 hectares of land is irrigated. Second source is tube-well by which 16845 hectares of land is irrigated and the third source by which canals 10797 hectares of land irrigated. There are 131 canals, 4220 tube-wells, 13837 wells and 47 ponds. By other sources, 32,119 hectares of land is irrigated. Water is generally found at the depth of 40 to 50 feet.

Animal Husbandry:

Cattle's rearing is the great support of cultivation. In addition, cow dung manure, cow dung gas plant for light and cooking, skin industry, cow dung cake and meat are produced from the cattle. In the year 1997-98, cattle census shows; cows 41,14,481 buffaloes 96883, goats 109935, sheep 5564 and horses and donkeys number 1361. By cows and buffaloes milk, curd, butter and ghee is produced and sold. The number of fowls was 47,533 in the district. For the proper treatment of cattles, there are 11 veterinary hospitals, 68 veterinary dispensaries, wherein 62767 cattle were treated 5910 were castrated, 144287 were vaccinated and 2943 were artificially inseminated.

Fishery:

Damoh district has no lack of water sources. The river sonar, the Bearma are perennial rivers and a number of reservoirs have been created on the feeder streams of the Bearma between parallels of latitude at Nohta and Ranoh and lie at the foot hills in the eastern parts of the district. Hala is the largest reservoirs and Beharia and the Bechhai are the small reservoirs where

the common species found in the water of Damoh district *Catla, Rohita, Cirrhina, Mahaseer, Padhin, Singala, Barbus, Sarana, Sanwal* etc. Among other fresh water species are crabs, small fresh water prawns, Bam and many other small fishes are found in rivers, streams, *nalas* and reservoirs in the district.

Transport:

The district is not well developed in terms of roads, as there is only about 21 kms of roads for every 100 sq kms.. Total road length in the district is 1564.8 kms out of which 1367.9 kms are surfaced roads. The district is connected to Jabalpur and Bhopal through the state high way which passes through the district. The district is connected to the national network through Bina –Katni railway line of the Central Railway. In the year 1999-2000, 21722 vehicles were registered in the district, which gives a vehicle density of 20 vehicles (of all kind) per one thousand populations.

Electricity and Power:

A power generating station was established at Damoh in 1951 with an installation capacity of 225 K.W. In 1962 the installed capacity was raised to 260 K.W. By the end of the third five year plan 15 places were electrified in the district. Upto 1971-72 the number of villages electrified in the district was enhanced from 15 to 157. Though there is no production of electricity but since the Madhya Pradesh Electricity Board taken over the charge of supply of electricity for domestic use 52,414 K.W., commercial 4,730 K.W., industrial 113,526 K.W., water supplies 1,860 K.W., irrigation 126,380 K.W. and street light 1,435 K.W. were consumed during 1997-98 in the district. In the year 1997-98, 1,110 villages were electrified out of 1213 villages which is 91.29% of total villages.

Industry:

Although limestone and dolomite is found in plenty in the district, but Damoh is industrially a poor district of Madhya Pradesh. There are only 65 registered factories in the district which amounts to just 6 registered factories per 100 thousand population. These factories provide an average daily employment for just 3196 person on 292persons per 100 thousand populations.

Gram Panchayat:

Panchayat is the basic institution of local self-governance and foundation of local administration under the Directive Principles of State Policy. The Constitution of India provides for the Panchayati Raj System. Madhya Pradesh Government passed M.P. Panchayat Adhiniyam 1993, which provides a Panchayat for every village, Janpad Panchayat for every blocks and district Panchayat for every district. According to the M.P. Gram Sabha Adhiniyam 2001, Gram Sabha is constitutionally approved unit and confer all the major persons, with voting rights to elect Panch, Sarpanch, and members of Janpad and members of district Panchayat. Village Panchayat, Janpad Panchayat and district Panchayat have 10-20, 10-25, and 10-35 members respectively.

Constituted with the elected members, these institutions work for five years. At all level there is reservation for Scheduled Castes and Scheduled Tribes according to the population ratio. For women one third of total seats are reserved. Village Panchayat executes the disposal of discriminating articles, water supply, public works (roads, buildings, wells, tanks) market exchange, co-operation with governmental works, community health and development works. Janpad Panchayat works for community development and integration, agriculture, social, trade, cattle breeding, fish breeding, adult-education, co-operatives, cottage industries, welfare and employment oriented programme. The district Panchayat has to supervise and exercise control over the Janpad and village Panchayats. It also directs the development works and advises the State Government.

(v) Census Concepts

Building

A 'Building' is generally a single structure on the ground. Sometimes it is made up of more than one component units which are used or likely to be used as dwellings(residences) or establishments such as shops, business houses, offices, factories, workshops, worksheds, Schools, places of entertainment, places of worship, godowns, stores etc. It is also possible that building which have component units may be used for a combination of purposes such as shop-cum-residence,workshop-cum-residence,office-cum-residence,etc.

Usually a structure will have four walls and a roof. But in some areas the very nature of construction of houses is such that there may not be any wall. Such is the case of conical structures where entrance is also provided but they may not have any walls. Therefore, such of the conical structures are also treated as separate buildings.

Permanent houses

Houses, the walls and roof of which are made of permanent materials. The material of walls can be any one from the following, namely, galvanized iron sheets or other metal sheets, asbestos sheets, burnt bricks, stones or concrete. Roof may be made of from any one of the following materials, namely, tiles, slate, galvanized iron sheets, metal sheets, asbestos sheets, bricks, stones or concrete.

Semi-permanent houses

Houses in which either the wall or the roof is made of permanent material and the other is made of temporary material.

Temporary houses

Houses in which both walls and roof are made of materials, which have to be replaced frequently. Walls may be made from any one of the following temporary materials, namely, grass, thatch, bamboo, plastic, polythene, mud, unburnt bricks or wood. Roof may be made from any one of the following temporary materials, namely, grass, thatch, bamboo, wood, mud, plastic or polythene.

Dwelling Room

A room is treated as a dwelling room if it has walls with a doorway and a roof and should be wide and long enough for a person to sleep in, i.e. it should have a length of not less than 2 meters and a breadth of at least 1.5 meters and a height of 2 meters. A dwelling room would include living room, bedroom, dining room, drawing room, study room, servant's room and other habitable rooms. Kitchen, bathroom, latrine, store room, passageway and verandah which are not normally usable for living are not considered as dwelling rooms. A room, used for multipurpose such as sleeping, sitting, dining, storing, cooking, etc., is regarded as a dwelling room. In a situation where a census houses is used as a shop or office., etc., and the household also stays in it then the room is not considered as a dwelling room. But if a garage or servant quarter is used by a servant and if she/ he also lives in it as a separate household then this has been considered as a dwelling room available to the servant's household. Tent or conical shaped hut if used for living by any household is also considered as dwelling room.

A dwelling room, which is shared by more than one household, has not been counted for any of them. If two households have a dwelling room each but in addition also share a common dwelling room, then the common room has not been counted for either of the households.

Census House

A 'census house' is a building or part of a building used or recognised as a separate unit because of having a separate main entrance from the road or common courtyard or staircase, etc. It may be occupied or vacant. It may be used for residential or non- residential purpose or both.

In certain peculiar situations, the manner in which buildings and census houses were identified for numbering in the field by the enumerators is described hereunder:

Sometimes a series of different buildings are found along a street which are joined with one another by common walls on either side looking like a continuous structure. These different units are practically independent of one another and are likely to have been built at different times and owned by different persons. In such cases, though the whole structure with all the adjoining units apparently appears to be one building, each portion was treated as a separate building and its constituent units as separate census houses.

On the other hand, one may come across cases, particularly in large cities of multi-storeyed ownership flats. In these cases while the structure looks like one building, different persons own the flats. In case of such multi-storeyed structures, having a number of flats owned by different persons, the entire structure was treated as one building and each flat as a separate census house.

If within a large enclosed area, there are separate buildings owned by different persons then each such building is treated as a separate building. There can be a situation where within an enclosed compound there are separate buildings owned by an undertaking or company or even government that are actually in occupation of different persons. For example, Indian Oil Corporation colony where the buildings are owned by the Corporation but these are in occupation of their employees. Each such building was treated as a separate building. But if in any one of these buildings there were flats in occupation of different households, each such flat was reckoned as a separate census house.

Sometimes if becomes difficult to apply the definition of census house strictly in certain cases. For example, in an urban area, if a flat has five rooms, each room having direct entrance from the common staircase or courtyard. By definition, this has to be treated as five census houses. If all these five rooms are occupied by a single household it was not realistic to treat them as five census houses. In such a case,'singleness' of use of these rooms along with the main house should be considered and the entire flat was treated as one census house. On the other hand, if two independent households occupy these five rooms, the first household living in 3 rooms and the second household occupying 2 rooms, then considering the use, the first three rooms together were treated as one census house and the remaining rooms as another census house. But if each room was occupied by an independent household, then each such room was treated as a separate census house.

In case of hostels, hotels, etc., even if the door of each room in which an inmate lives opens to a common verandah, staircase, courtyard or a common room, as it happens almost invariably, the entire hostel/ Hotel building was treated as one census house. but if such hostels/ hotels have out- houses or other structures used for different purposes or the same purpose, then each such structure attached to the main hostel / hotel was treated as a separate census house.

In some parts of the country, in rural areas, the pattern of habitation is such that a group of huts, located in a compound, whether enclosed or unenclosed, is occupied by one household. While the main residence may be located in one hut, other huts may be used for sleeping, as a kitchen, bath room, baithak, etc. Though each of the huts was a separates structure, they form a single housing unit and therefore, have to be treated collectively as one building and one census house. If some of the huts are used by one household and the others by a second household as residence, then the two groups of huts were treated as separate census houses. However, if there were also other huts in the compound used for other purposes and not as part of the household's residence such as, cattle shed, workshed, etc., these were treated as separate census houses.

On the other hand, in urban areas, where more than one structure within an enclosed or open compound (premises) belonging to the same person, e.g., the main house, the servant's quarter, the garage, etc., only one building number was given for this group and each of the constituent a separate census house number.

Only cases where a structure with roof and pillars has come up was treated as a building.

Village :

The basic unit for rural areas is the revenue village which has definite surveyed boundaries. The revenue village may comprise of one or more hamlets but the entire village is treated as one unit for presentation of data. In unsurveyed areas, like villages within forest areas, each habitation area with locally recognized boundaries is treated as one village.

Rural-Urban area

The data in tables on Houses, Household Amenities and Assets are presented separately for rural and urban areas. The unit of classification in this regard is 'town' for urban areas and 'village' for rural areas. In the Census of India 2001, the definition of urban area adopted is as follows:

a) All places with a municipality, corporation, cantonment board or notified town area committee, etc.

b) A place satisfying the following three criteria simultaneously:

   i) A minimum population of 5,000;

   ii) at least 75 per cent of male working population engaged in non-agricultural

pursuits; and

iii) a density of population of at least 400 per sq. km.(1,000 per sq.mile)

For identification of places which would qualify to be classified as 'urban' all villages, which, as per the 1991 Census had a population of 4,000 and above, a population density of 400 persons per sq. km. and having at least 75 per cent of male working population engaged in non-agricultural activity were considered. To work out the proportion of male working population referred to above against b) (ii), the data relating to main workers were taken into account.

Apart from these, the outgrowths(OGs) of cities and towns have also been treated as urban under 'Urban Agglomerations'. Examples of out-growths are railway colonies, university campuses, port areas, military camps, etc., that may have come up near a statutory town or city but within the revenue limits of a village or villages contiguous to the town or city. Each such individual area by itself may not satisfy the demographic criteria laid down at (b) above to qualify it to be treated as an independent urban unit but may deserve to be clubbed with the towns as a continuous urban spread. Thus, the town level data, wherever presented, also includes the data for outgrowths of such towns.

City :

Towns with population of 1,00,000 and above are called cities.

Urban Agglomeration :

An Urban Agglomeration is a continuous urban spread constituting a town and its adjoining urban outgrowths (OGs) or two or more physically contiguous towns together and any adjoining urban outgrowths of such towns. In some cases railway colonies, university campuses, port areas, etc., may come up near a city or statutory town outside its statutory limits but within the revenue limits of a village or villages contiguous to the town or city. Each such individual area by itself may not satisfy the minimum population limit to qualify it to be treated as an independent urban unit but may deserve to be clubbed with the town as a continuous urban spread. For the purpose of delineation of Urban Agglomerations during Census of India 2001, following criteria are taken as pre-requisites:

(a) The core town or at least one of the constituent towns of an urban agglo-meration should necessarily be a statutory town ; and

(b) The total population of all the constituents (i.e., towns and outgrowths) of an Urban Agglomeration should not be less than 20,000 (as per the 1991 Census). With these two basic criteria having been met, the following are the possible different situations in which Urban Agglomerations would be constituted:

i) a city or town with one or more contiguous outgrowths;

ii) two or more adjoining towns with their outgrowths; and

iii) a city and one or more adjoining towns with their outgrowths all of which form a continuous spread.

Household

A 'household' is usually a group of persons who normally live together and take their meals from a common kitchen unless the exigencies of work prevent any of them from doing so. Persons in a household may be related or unrelated or a mix of both. However, if a group of unrelated persons live in a census house but do not take their meals from the common kitchen, then they are not constituent of a common household. Each such person was to be treated as a separate household. The important link in finding out whether it was a household or not was a common kitchen. There may be one member households, two member households or multi-member households.

Institutional Household

A group of unrelated persons who live in an institution and take their meals from a common kitchen is called an Institutional Household. Examples of Institutional Households are boarding houses, messes, hostels, hotels, rescue homes, jails, ashrams, orphanages, etc. To make the definition more clearly perceptible to the enumerators at the Census 2001, it was specifically mentioned that this category or households would cover only those households where a group of unrelated persons live in an institution and share a common kitchen.

Houseless household :

Households who do not live in buildings or census houses but live in the open on roadside, pavements, in hume pipes, under fly-overs and staircases, or in the open in places of worship, mandaps, railway platforms, etc., are treated as Houseless Households.

Scheduled Caste and Scheduled Tribe :

Article 341 of the Constitution provides that the President may, with respect to any State or Union territory, specify the castes, races or tribes or parts of or groups within castes, races or tribes which shall for the purposes of the Constitution be deemed to be Scheduled Castes in relation to that State or Union territory. Article 342 similarly provides for specification of tribes or tribal communities or parts of or groups within tribes or tribal communities which are to be deemed for the purposes of the Constitution to be Scheduled Tribes in relation to the various States and Union territories. In pursuance of these provisions, the list of Scheduled Castes and/or Scheduled Tribes are notified for each State and Union territory and are valid only within the jurisdiction of that State or Union territory and not outside. It is important to mention here that under the Constitution (Scheduled Castes) Order, 1950, no person who professed a religion different from Hinduism was deemed to be a member of a Scheduled Caste in addition to every member of the Ramdasi, Kabirpanthi, Majhabi or Sikligar caste resident in Punjab or Patiala and East Punjab States Union were in relation to that State whether they professed the Hindu or the Sikh religion. Subsequently, in September 1956, by an amendment, the Presidential Order of 1950 and in all subsequent Presidential Orders relating to Scheduled Castes, the Hindu and the Sikh religions were placed on the same footing with regard to the specification of Scheduled Castes. Later on, as per the amendment made in the Constitution (Scheduled Castes) Order 1990, the Hindu, the Sikh and the Buddhist were placed on the same footing with regard to the recognition of the Scheduled Castes. The lists containing the names of the Scheduled Castes and the Scheduled Tribes applicable for the Census of India 2001 in the State/ Union territory are given subsquently :

List of Scheduled Castes and Scheduled Tribes

Scheduled Castes :

1. Audhelia
2. Bagri, Bagdi
3. Bahna, Bahana
4. Balahi, Balai
5. Banchada
6. Barahar, Basod
7. Bargunda
8. Basor, Burud, Bansor, Bansodi, Bansphor, Basar
9. Bedia
10. Beldar, Sunkar
11. Bhangi, Mehtar, Balmik, Lalbegi, Dharkar
12. Bhanumati
13. Chadar
14. Chamar, Chamari, Bairwa, Bhambi, Jatav, Mochi, Regar, Nona, Rohidas, Ramnami, Satnami, Surjyabansi, Surjyaramnami, Ahirwar, Chamar Mangan, Raidas
15. Chidar
16. Chikwa, Chikvi
17. Chitar
18. Dahait, Dahayat, Dahat
19. Dewar
20. Dhanuk
21. Dhed, Dher
22. Dhobi (in Bhopal, Raisen and Sehore districts)
23. Dohor
24. Dom, Dumar, Dome, Domar, Doris
25. Ganda, Gandi
26. Ghasi, Ghasia
27. Holiya
28. Kanjar
29. Katia, Patharia
30. Khatik
31. Koli, Kori
32. Kotwal (in Bhind, Dhar, Dewas, Guna, Gwalior, Bhander tahsil of Datia district, Indore, Jhabua, Khargone, Barwani, Neemuch, Mandsaur, Morena, Sheopur, Rajgarh, Ratlam, Shajapur, Shivpuri, Ujjain and Vidisha districts)

33. Khangar, Kanera, Mirdha
34. Kuchbandhia
35. Kumhar (in Chhatarpur, Datia(except Bhander tahsil), Panna, Rewa, Satna, Shahdol, Umaria, Sidhi and Tikamgarh districts)
36. Mahar, Mehra, Mehar
37. Mang, Mang Garodi, Mang Garudi, Dankhni Mang, Mang Mahasi, Madari, Garudi, Radhe Mang
38. Meghwal
39. Moghia
40. Muskhan
41. Nat, Kalbelia, Sapera, Navdigar, Kubutar
42. Pardhi (in Bhind, Dhar, Dewas, Guna, Gwalior, Bhander tahsil of Datia distt. Indore, Jhabua, Khargone, Barwani, Mandsaur, ,Neemuch, Morena, Sheopur, Rajgarh, Ratlam, Shajapur, Shivpuri, Ujjain and Vidisha districts)
43. Pasi
44. Rujjhar
45. Sansi, Sansia
46. Silawat
47. Zamral

Scheduled Tribes :

1. Agariya
2. Andh
3. Baiga
4. Bhaina
5. Bharia, Bhumia, Bhuinhar Bhumia, Bhumiya, Bharia, Paliha, Pando
6. Bhattra
7. Bhil, Bhilala, Barela, Patelia
8. Bhil Mina
9. Bhunjia
10. Biar, Biyar
11. Binjhwar
12. Birhul, Birhor
13. Damor, Damaria
14. Dhanwar
15. Gadaba, Gadba
16. Gond, Arakh, Arrakh, Agaria, Asur, Badi Maria, Bada Maria, Bhatola, Bhimma, Bhuta, Koilabhuta, Koliabhuti, Bhar, Bisonhorn Maria, Chota Maria, Dandami Maria, Dhuru, Dhurwa, Dhoba, Dhulia, Dorla, Gaiki, Gatta, Gatti, Gaita, Gond Gowari, Hill Maria, Kandra, Kalanga, Khatola, Koitar, Koya, Khirwar, Khirwara, Kucha Maria, Kuchaki Maria, Madia, Maria, Mana, Mannewar, Moghya, Mogia, Monghya, Mudia, Muria, Nagarchi, Nagwanshi, Ojha, Raj Gond, Sonjhari Jhareka, Thatia, Thotya, Wade Maria, Vade Maria, Daroi
17. Halba, Halbi
18. Kamar
19. Karku
20. Kawar, Kanwar, Kaur, Cherwa, Rathia, Tanwar, Chattri
21. Keer (in Bhopal, Raisen and Sehore districts)
22. Khairwar, Kondar
23. Kharia
24. Kondh, Khond, Kandh
25. Kol
26. Kolam
27. Korku, Bopchi, Mouasi, Nihal, Nahul, Bondhi, Bondeya
28. Korwa, Kodaku
29. Majhi
30. Majhwar
31. Mawasi
32. Mina (in Sironj sub-division of Vidisha district)
33. Munda
34. Nagesia, Nagasia
35. Oraon, Dhanka, Dhangad
36. Panika (in Chhatarpur, Datia(except Bhander tahsil) Panna, Rewa, Satna, Shahdol, Umaria, Sidhi and Tikamgarh districts)
37. Pao
38. Pardhan, Pathari, Saroti
39. Pardhi (in Bhopal, Raisen and Sehore districts)

40. Pardhi, Bahelia, Bahellia, Chita Pardhi, Langoli Pardhi, Phans Pardhi, Shikari, Takankar, Takia
    (i) Chhindwara, Mandla, Dindori and Seoni districts
    (ii) Baihar tahsil of Balaghat district
    (iii) Betul, Shahpur and Bhainsdehi tahsils of Betul district
    (iv) Patan and Sihora tahsils and Majholi Block of Jabalpur district
    (v) Katni (Murwara) and Vijay Raghogarh tehsil and Bahoriband, Dhimarkheda Block of Katni district.
    (vi) Hoshangabad, Babai, Sohagpur, Piparia and Bankhedi tahsils and Kesla Block of Hoshangabad district
    (vii) Narsimhapur district.
    (viii) Harsud tahsil of Khandwa district.
41. Parja
42. Sahariya, Saharia, Seharia, Sehria, Sosia, Sor
43. Saonta, Saunta
44. Saur
45. Sawar, Sawara
46. Sonr

Language and Mother tongue :

As per the census concept, each language is a group of mother tongues. The census questionnaire collects information on the mother tongue of each person and mother tongue is defined as the language spoken in childhood by the person's mother to the person. If the mother died in infancy, the language mainly spoken in the person's home in childhood will be the mother tongue. In the case of infants and deaf mutes, the language usually spoken by the mother is considered as mother tongue. It is not necessary that the language spoken as mother tongue should have a script. The mother tongues returned by the respondents in census are classified and grouped under appropriate languages according to their linguistic characteristics.

Literate :

A person age 7 years and above who can both read and write with understanding in any language is taken as literate. A person who can only read but cannot write is not literate. It is not necessary that to be considered as literate, a person should have received any formal education or passed any minimum educational standard. Literacy could also have been achieved through adult literacy classes or through any non-formal educational system. People who are blind and can read in Braille are treated as literates.

Literacy rate :

Literacy rate of the population is defined as the percentage of literates in the age group seven years and above. For different age groups the percentage of literates in that age group gives the literacy rate.

Educational level :

The highest level of education a person has completed.

Work :

Work is defined as participation in any economically productive activity with or without compensation, wages or profit. Such participation may be physical and/or mental in nature. Work involves not only actual work but also includes effective supervision and direction of work. It even includes part time help or unpaid work on farm, family enterprise or in any other economic activity. All persons engaged in 'work' as defined above are workers. Persons who are engaged in cultivation or milk production even solely for domestic consumption are also treated as workers.

Reference period for determining a person as worker and non-worker is one year preceding the date of enumeration.

Main worker :

A person who has worked for major part of the reference period (i.e. six months or more during the last one year preceding the date of enumeration) in any economically productive activity is termed as 'Main worker'.

Marginal worker :

A person who worked for less than six months of the reference period (i.e. in the last one year preceding the date of enumeration) in any economic activity is termed as 'Marginal worker'.

Non worker :

A person who has not worked at all in any economically productive activity during the reference period (i.e. last one year preceding the date of enumeration) is termed as 'Non worker'.

Cultivator :

For purposes of the Census a person is classified as cultivator if he or she is engaged in cultivation on land owned or held from government or held from private persons or institutions for payment in money, kind or share. Cultivation includes effective supervision or direction in cultivation. A person who has given out her/his land to another person or persons or institution(s) for cultivation for money, kind or share of crop and who does not even supervise or direct cultivation in exchange of land, is not treated as cultivator. Similarly, a person working on another person's land for wages in cash or kind or a combination of both (agricultural labourer) is not treated as cultivator. Cultivation involves ploughing, sowing, harvesting and production of cereals and millet crops such as wheat, paddy, jowar, bajra, ragi, etc., and other crops such as sugarcane, tobacco, ground-nuts, tapioca, etc., and pulses, raw jute and kindred fiber crop, cotton, cinchona and other medicinal plants, fruit growing, vegetable growing or keeping orchards or groves, etc. Cultivation does not include the following plantation crops — tea, coffee, rubber, coconut and betel-nuts (areca).

Agricultural labourer :

A person who works on another person's land for wages in money or kind or share is regarded as an agricultural labourer. She/he has no risk in the cultivation, but merely works on another person's land for wages. An agricultural labourer has no right of lease or contract on land on which she/he works.

Household industry worker :

Household industry is defined as an industry conducted by the head of the household herself/himself and or by the members of the household at home or within the village in rural areas and only within the precincts of the house where the household lives in urban areas. The larger proportion of workers in household industry should consist of members of the household including the head. The industry should not be run on the scale of a registered factory which would qualify or has to be registered under the Indian Factories Act and should be engaged in manufacturing, processing, servicing and repairs of goods. It does not include professions such as a pleader, Doctor, Musician, Dancer, Waterman, Astrologer, Dhobi, Barber, etc. or merely trade or business, even if such professions, trade or services are run at home by members of the household.

Other Worker :

A person who has been engaged in some economic activity during the reference period but not as a cultivator or agricultural labourer or in Household Industry is termed as a 'Other Worker (OW)'. The type of workers that come under this category of 'OW' include all government servants, municipal employees, teachers, factory workers, plantation workers, those engaged in trade, commerce, business, transport, banking, mining, construction, political or social work, priests, entertainment artists, etc. In effect, all those workers other than cultivators or agricultural labourers or household industry workers, are 'Other Workers'.

Work Participation Rate :

Percentage of workers (main + marginal) to total population

Population density :

Population density is the number of persons inhabited per square kilometre of the area.

Age :

Age is measured in terms of the completed number of years

Sex-Ratio :

Number of females per 1000 males in a population.

(vi) Non Census Concepts

Improved drinking water :

If the household had access to drinking water supplied from a tap, hand pump, tube well or well (protected or covered) situated within or outside the premises, it is considered as having access to improved drinking water. It may be mentioned that such uniform definition may not be valid across all states.

System of sewerage :

Generally, a sewerage system would mean a network of mains and branches of underground conduits for the conveyance of sewerage to the point of disposal. Sewers that carry only household and industrial wastage are called separate sewers; those that carry storm water from roofs, streets and other surfaces are known as storm water drains, while those carrying both sewage and storm water are called combined sewers. However, in some towns which are not provided with such underground sewerage system, it is served by open surface drain, box drain, silt pattern drain, etc., in these towns.

Type of latrine and Method of disposal of night soil :

There are three prevalent systems of disposal of human wastes, viz.(i) underground sewerage, (ii) sanitary water flush latrines with individual disposal systems, like septic tank, leaching cess pool and collecting well, and (iii) dry type of latrines with manual scavenging. The system of underground sewerage provides for the street sewerage with which are connected the sanitary latrines constructed in the houses having water closets and fitted with flushing cistern (or hand flushing). Through this sewer the faecal matter is transported without the need for scavenging. This system generally exists in cities and big towns. Where the streets sewer does not exist these sanitary water flush latrines are connected to a local septic tank with a sub-soil dispersion system or a leaching pit. Here the liquid wastes from the water closet is disposed of locally in leaching pit, a septic tank with a soil dispersion system is constructed. This dispersion requires an optimum travel through the pores of the soil which renders the harmful liquid bacterially innocuous by the slow process of filtration through the soil traversed. Where the soil is impermeable, collecting wells are constructed and the sanitary water flush latrines are connected with them. These wells are cleaned at periodic intervals by a suitable device. The dry type of latrines are of service type latrines from where human excreta is removed by scavengers from house to house, in most cases carrying it on their heads or shoulders or in baskets with handle or wheel barrows. These are then collected in bullock carts or trucks or tractors and trolleys for being carried to the dumping grounds.

Fertility :

In demography, the word fertility is used in relation to the actual production of children or occurrence of births specially live births. Fertility is a measure of rate at which population adds to itself by births and normally assessed by relating the number of births to a full or part of the population, such as number of married women or number of women of child bearing age. The definitions of the terminology used in computing different fertility rates are mentioned below:

Crude birth rate(CBR) :

Ratio of the number of live births in a year to the mid year population, normally expressed per 1000 population.

$$CBR = \frac{\text{Number of live births during the year}}{\text{Mid year Population}} \times 1000$$

Crude death rate(CDR) :

Ratio of the number of deaths in a year to the mid year population, normally expressed per 1000 population.

$$CDR = \frac{\text{Number of deaths during the year}}{\text{Mid year Population}} \times 1000$$

Natural growth rate :

Growth rate is obtained as the difference between crude birth rate and crude death rate in the absence of migration.

Age specific fertility rate (ASFR) :

Number of live births in a year to female population in any specified age group normally expressed per 1000 women.

$$ASFR = \frac{\text{Number of live births in a particular age-group}}{\text{Mid year female population of the same age-group}} \times 1000$$

Age specific marital fertility rate (ASMFR) :

Number of live births in a year to married female

population in any specified age group normally expressed per 1000 married women.

$$\text{ASMFR} = \frac{\text{Number of live births in a particular age-group}}{\text{Mid year married female population of the same age-group}} \times 1000$$

General fertility rate (GFR) :

Number of live births per 1000 women in the reproductive age-group (15-49) years in a given year.

$$\text{GFR} = \frac{\text{Number of live births in a year}}{\text{Mid year female population in the age-group (15-49) years}} \times 1000$$

General marital fertility rate (GMFR) :

Number of live births per 1000 married women in reproductive age-group (15-49) years in a given year.

$$\text{GMFR} = \frac{\text{Number of live births in a year}}{\text{Mid year married female population in the age-group (15-49) years}} \times 1000$$

Total fertility rate (TFR) :

It is obtained as the total of the age specific fertility rates (number of children born per woman of the particular age) for the entire reproductive age span. It provides the average number of children that will be born to a woman under the fertility levels indicated by the age specific fertility rates assuming that there is no mortality of women till the completion of reproductive period.

$$\text{TFR} = \frac{5 \times \sum_{15\text{-}19}^{45\text{-}49} \text{ASFR}}{1000}$$

Total marital fertility rate (TMFR) :

Average number of children that would be born to a married woman if she experiences the current fertility pattern throughout her reproductive span (15-49) years assuming that there is no mortality of women till the completion of reproductive period.

$$\text{TMFR} = \frac{5 \times \sum_{15\text{-}19}^{45\text{-}49} \text{ASMFR}}{1000}$$

Age-specific mortality rate (ASMR) :

Number of deaths in a particular age and sex group per 1000 population of the same age group.

$$\text{ASMR} = \frac{\text{Number of deaths in a particular age-group}}{\text{Mid year population of the same age-group}} \times 1000$$

q1 :

Probability of dying between birth and age 1. This can be used as approximate value of Infant Mortality Rate (IMR) which gives the ratio of number of deaths in a year of children aged less than one year to the number of births in that year.

q2 :

Probability of dying between birth and age 2.

q5 :

Probability of dying between birth and age 5. This indicator is also known as Under Five Mortality Rate (U5MR)

Infant mortality rate (IMR) :

Ratio of the number of infant deaths (deaths of children below one year) in a year to the number of live births in that year.

$$\text{IMR} = \frac{\text{Number of infant deaths during the year}}{\text{Number of live births during the year}} \times 1000$$

Infant mortality rate comprises of two parts, viz., Neo-natal mortality rate and Post neo-natal mortality rate. The neo-natal mortality rate also comprises of two parts viz., Early neo-natal mortality rate and late neo-natal mortality rate. These are defined as:

Neo-natal mortality rate (NMR) :

Number of infants dying within the first month of life (28 days or under) in a year per 1000 live births of the same year.

$$\text{NMR} = \frac{\text{Number of infant deaths aged 28 days or under during the year}}{\text{Number of live births during the year}} \times 1000$$

Early neo- natal mortality rate :

$$ENMR = \frac{\text{Number of infant deaths of less than 7 days During the year}}{\text{Number of live births during the year}} \times 1000$$

Late neo-natal mortality rate :

$$LNMR = \frac{\text{Number of infant deaths of 7 days to less than 29 days during the year}}{\text{Number of live births during the year}} \times 1000$$

Post neo-natal mortality rate (PNMR) :

$$PNMR = \frac{\text{Number of infant deaths of 29 days to less than one year during the year}}{\text{Number of live births during the year}} \times 1000$$

Peri-natal mortality rate (PMR) :

Number of still births plus deaths within 1st week of delivery per 1000 births in a year.

$$PMR = \frac{\text{Number of still births and infant deaths of less than 7 days during the year}}{\text{Number of live births and still births during the year}} \times 1000$$

Still birth rate(SBR) :

$$SBR = \frac{\text{Number of still births during the year}}{\text{Number of live births and still births during the year}} \times 1000$$

Maternal mortality rate(MMR) :

Number of deaths of women in the age group 15-49 while pregnant or within 42 days of termination of pregnancy from any cause related to pregnancy and child birth per 100,000 live births in a given year.

$$MMR = \frac{\text{Number of maternal deaths to women in the age group 15-49 during the year}}{\text{Number of live birth during the year}} \times 100000$$

Eligible couple (Couples per 1000 population) :

Number of currently married females in the age group 15-49 years per 1000 persons of all ages.

Child woman ratio (0-4) :

Number of children in the age group 0-4 years per 1000 women in the age group 15-49 years.

Child woman ratio (5-9) :

Number of children in the age group 5-9 years per 1000 women in the age group 15-49 years.

Migration :

Migration is the third component of population change, the other two being mortality and fertility. A person is considered as a migrant by place of birth if the place in which she/he is enumerated during the census is other than the place of her/his birth. Similarly a person is considered as a migrant by place of last residence if the place in which she/he is enumerated during the census is other than his/her place of immediate last residence outside the village or town and not simply in another house or locality in the same village or town. Certain aspects concerning temporary movement/migration of people has been explained below as these are important componentsconcerning migration :

(i) Migration of persons in search of job is high in the country. In many cases such migrants are only seasonal in nature. People migrate to other places for work in a particular season and come back again to their usual place of residence after three or four months. All such workers are treated as migrants. Similarly, if a person moved to any other place for attending short term vocational or educational course that lasted for only few months of a year, she/he too were considered as a migrant.

(ii) Where a person had merely gone out to another place or had been shifting from one place to another purely on tour, pilgrimage, visit to hospital for treatment or for temporary business purposes, such persons are not deemed to have had another residence different from the place where she/he or her/his family normally resides. She/he is not considered as migrant.

(iii) A woman temporarily moves into a hospital or to her parents or other relative's house for delivery and if the hospital or the parents/

relatives houses is in a place different from usual place of residence, the place where the hospital or parents/relative's house is the place of last residence of the child but not of the mother. A new response category 'Moved after birth' was added in Census of India 2001 in the question on 'reasons for migration' to bring out additional migration patterns. Natural calamities or distress migration as a reason for migration for last residence migrants included in 1991 Census, is covered under category of 'Others'. The reason for migration has been determined as applicable at the time of migration and not in reference to any point of time after that. For example, if a person had moved from the place of her/his last residence for the purpose of education and subsequently at some point of time got employment there only, the reason for migration would be 'education' and not 'work/employment'.

Internal and International migration :

The migrational movements are of three types

(i) Migration within the state itself with its components

  (a) Migration within the district of enumeration (intra district migration)

  (b) Migration from one district of state to another district of state (inter district migration),

(ii) Migration from one state to another State of the country (inter-state migration),

(iii) Migration from one country to another country. The first two streams together constitute internal migration, while the last type of movement is called international migration. The present name of the country, state or district and not the name by which they were known at the time of her/his birth or last residence were recorded.

Rural - Urban components of migration :

Rural or Urban status in respect of migrants have been determined as applicable at the time of migration and not with reference to any point of time after that.

The flow of migrants consists of four streams viz. rural to rural, rural to urban, urban to rural and urban to urban.

Civic status of urban units :

Civic Status of a town/city is determined on the basis of Civic Administrative authority of the town e.g., Municipal Corporation/Corporation, Municipal Committee/ Municipal council, Municipality etc.

Size class of UA/town :

Size-class of UA/Town is based on the population size of the UA/City/Town UAs./Towns with 1,00,000 and above population are classified as Class I UAs./ towns. These Class I UAs./towns are now further sub classified into seven sub classes namely M1 to M7 depending on the population size of UA/City/ Town. These are M7(5,000,000 and above); M6(2,000,000 to 4,999,999); M5 (1,000,000-1,999,999) M4 (500,000-999,999); M3(300,000-499,999), M2 (200,000-299,999) and M1 (100,000-199,999). towns with, 50,000 to 99,999 population are classified as Class II towns, 20,000 to 49,999 population are Class III towns, population with 10,000-19,999 are Class IV towns, population with 5000 and 9999 are Class V towns and towns with less than 5000 population are Class VI towns.

Slum area :

The Slum Areas (Improvement and Clearance) Act, 1956 which was enacted by the Central Govt. defined slums as

a) Areas where buildings are in any respect unfit for human habitation; or

b) are by reasons of dilapidation, overcrowding, fault arrangement and design of such buildings, narrowness or faulty arrangement of streets, lack of ventilation, light or sanitation facilities, or any combination of these factors, are detrimental to safety, health or morals.

Mega city

The concept of 'Mega city' is a recent phenomenon in the Urban Sociology and is defined in term of metropolitan city in the form of large size, problem of management of civic amenities and capacity to absorb the relatively high growth of

population. Indian Census in 1991 treated the population size of 5 million and above as the cut off point to identify a place as the mega city. Whereas, for the purpose of inclusion in Centrally Sponsored Scheme for Infrastructure Development in Mega cities the Ministry of Urban Affairs and Employment, Department of Urban Development adopted the criteria of 4 million and above population as per 1991 Census for Mega Cities. In 2001 Census, cities with 10 millions and above population have been treated as Mega cities.

(vii) 2001 Census findings – Population, its distribution

According to Census 2001, Damoh district comprises of 1175 inhabited villages, 38 uninhabited vilages and total 1213 villages distributed among 7 tahsils and equal number of CD blocks. The district has 6 towns. Among these only Damoh has six urban outgrowths (OGs). The average household size of the district is 5.0. Total population of the district is 1,083,949 comprising 570,229 males and 513,720 females. Thus the sex ratio of the district works out to 901 which is better than the sex-ratio of the state (919). Density of the district is 148 persons per sq.km. and is lower than the density of the state which is 196. Literacy rate of the district 61.2 per cent is also higher than the State literacy rate 63.7 per cent. Scheduled Castes and Scheduled Tribes population of the district is respectively 19.5 per cent and 12.5 per cent of the total population of the district. Apart from these general findings, the analysis on various parameters like rural-urban distribution of population by sex, literacy, density, caste, tribe etc. has been covered in the Inset Tables from 1 to 52 based on PCA, Village Directory data, Town directory data and houselisting data pertaining to Census, 2001.

(viii) Brief analysis of the PCA data (Table 1-36)

Analysis of the PCA data based on Census 2001 is presented here in the form of tables from 1 to 36. Various demographic indicators such as density, literacy, Sex-ratio and distribution of population in different economic activity by rural/ urban, male/female and age classifications are presented in these tables. These analysis are presented for Tahsils and CD Block levels separately.

Analysis for Scheduled Castes and Scheduled Tribes is also covered in this tables.

TABLE 1: DECADAL CHANGE IN POPULATION OF TAHSILS BY RESIDENCE, 1991-2001

Serial number	Tahsil	Population						Percentage decadal variation 1991-2001			Percentage urban population	
		1991			2001							
		Total	Rural	Urban	Total	Rural	Urban	Total	Rural	Urban	1991	2001
1	2	3	4	5	6	7	8	9	10	11	12	13
1	Hatta	108,339	85,402	22,937	129,182	100,668	28,514	19.2	17.9	24.3	21.2	22.1
2	Patera	88,739	88,739	-	107,379	107,379	-	21.0	21.0	-	-	-
3	Batiyagarh	97,076	97,076	-	118,757	118,757	-	22.3	22.3	-	-	-
4	Patharia	120,810	106,499	14,311	146,611	129,426	17,185	21.4	21.5	20.1	11.8	11.7
5	Damoh	257,261	139,618	117,643	311,366	163,943	147,423	21.0	17.4	25.3	45.7	47.3
6	Jabera	119,444	119,444	-	142,451	142,451	-	19.3	19.3	-	-	-
7	Tendukheda	106,456	98,425	8,031	128,203	116,974	11,229	20.4	18.8	39.8	7.5	8.8
District Total:		898,125	735,203	162,922	1,083,949	879,598	204,351	20.7	19.6	25.4	18.1	18.9

This table indicates tahsilwise decadal variation for both the rural and urban areas of the district. It is seen from the table that an overall 20.7 percent decadal growth has been recorded in the district. The growth rate in rural areas of the district during the decade 1991-2001 works out to 19.6 percent, while for urban areas it is 25.4 percent. Among the tahsils, Batiyagarh has registered the highest decadal growth rate of 22.3 percent. The growth rate in rural area is highest in Batiyagarh tahsil whereas in urban highest is Tendukheda tahsil of the district. The percentage of urban population to total population of the district is 18.9 percent in 2001 against 18.1 percent in 1991.

TABLE 2 : NUMBER AND PERCENTAGE OF INHABITED VILLAGES IN SPECIFIED POPULATION SIZE RANGES WITH THE RELATED POPULATION, 2001

Serial number	District / C.D. block	Total number of inhabited villages	Total rural population			Number and percentage of villages	Population less than 200	
			Persons	Males	Females		Males	Females
1	2	3	4	5	6	7	8	9
1	Hatta	155	100,668	53,316	47,352	35 (22.6)	2,021	1,796

7	Tendukheda	8 (4.4)	10,759	9,807	0 (0.0)	0	0	0 (0.0)	0	0
Districts (Rural) Total:		60 (5.1)	89,872	80,468	9 (0.8)	31,210	27,799	0 (0.0)	0	0

Table 2 gives CD blockwise population, number and percentage of villages falling in each range of population size of villages and number of males and females in each population range at CD block level in the district. Out of the 1,175 inhabited villages, 216 (18.4 percent) are small sized villages with population below 200 persons. In the size class of 200-499 persons, there are 344 villages having 29.3 percent villages of the district while in the size class of 500-999 population there are 349 villages constituting 29.7 percent of total villages. 197 villages (16.8 percent) are in the size class of 1,000-1,999 and 60 villages (5.1 percent) are in the size class of 2,000-4,999. There are 9 villages (0.8 percent) in the size class of 5,000-9,999 and there is no village which falls in the size class of population 10,000 and above.

TABLE 3 : NEW TOWNS, DENOTIFIED, DECLASSIFIED AND MERGED TOWNS IN 2001 CENSUS

(a) New

(i) Statutory town — Nil

(ii) Census town

Basantar Kheda

(b) Denotified

(i) Statutory towns of 1991 census denotified and also did not satisfy the criteria to be treated as census towns

Nil

(ii) Statutory towns of 1991 census denotified but identified as census towns based on demographic and economic criteria

Nil

(iii) Census towns of 1991 census are notiified as statutory town in 2001 census

Nil

(c) Declassified — Nil

(d) Wholly merged with other town(s) — Nil

Declassified means the census towns of 1991 census which failed to satisfy the demographic and economic criteria.

TABLE 4 : DISTRIBUTION OF VILLAGES BY POPULATION DENSITY, 2001

Range of population density (per square kilometer)	Total number of villages in each population density range	Percentage of villages in each population density range	Population	Percentage distribution of population
1	2	3	4	5
0-10	20	1.7	375	0.0
11-20	28	2.4	3,337	0.4
21-50	74	6.3	13,786	1.6
51-100	171	14.6	62,937	7.2
101-200	454	38.6	294,325	33.5
201-300	228	19.4	216,938	24.7
301-500	157	13.4	199,155	22.6
501 +	43	3.7	88,745	10.1
Not known	0	0.0	0	0.0
District Total:	1,175	100.0	879,598	100.0
Population Density (Rural) of the district:		176.1		

Table 4 shows the distribution of villages by population density ranges. The inhabited villages of the district have been grouped under 8 different ranges of density. The maximum number of villages i.e. 454 accounting for 38.6 percent of the total inhabited villages of the district fall in the density range of 101-200 persons having 33.5 percent population. The lowest range of 0-10 and 11-20 persons per sq.km. cover 48 villages (4.1 percent). 43 villages have very high density with more than 501 persons per sq.km. while the corresponding proportion in the lower range of 201-500 is 32.8 percent of the total inhabited villages having 47.3 percent population of the district. In the medium density ranges of 21-50 and 51-100 persons account for 6.3 and 14.6 per cent of inhabited villages. Both these ranges claim 8.8 percent rural population.

TABLE 5: SEX RATIO OF STATE AND DISTRICT, 1901-2001

Census Year	State			District		
	Total	Rural	Urban	Total	Rural	Urban
1	2	3	4	5	6	7
1901	-	-	930	988	989	980
1911	967	973	903	982	983	952
1921	949	959	863	954	957	914
1931	947	957	862	974	977	933
1941	946	957	869	981	984	948
1951	945	953	902	980	984	950
1961	932	947	860	965	974	906
1971	920	934	864	941	948	899
1981	921	934	878	925	931	894
1991	912	921	887	905	908	895
2001	919	927	898	901	901	900

As per 2001 Census, sex ratio of 901 females per 1,000 males has been recorded in the district against the state average of 919. The sex ratio of the district had been significantly higher in 1901 to 1981 over the state average figures. The lowest sex ratio of 901 females per 1,000 males was recorded in the district in Census 2001.

TABLE 6 : SEX RATIO BY TAHSILS, 2001

Serial number	Name of Tahsil	Sex ratio		
		Total	Rural	Urban
1	2	3	4	5
1	Hatta	887	888	883
2	Patera	905	905	-
3	Batiyagarh	900	900	-
4	Patharia	890	890	895
5	Damoh	896	889	903
6	Jabera	918	918	-
7	Tendukheda	919	920	904
	District Total:	901	901	900

The table 6 gives the tahsilwise sex ratio of rural and urban population of Census 2001. It is observed that the sex ratio for the rural area works out to 901 whereas it is 900 for the urban area. The sex ratio in rural area is highest 920 in Tendukheda tahsil while in urban area it is 904 in Tendukheda tahsil. The sex ratio of the district is 901 females per 1,000 males.

TABLE 7 : SEX RATIO BY CD BLOCKS, 2001

Serial number	Name of C D block	Sex ratio
1	2	3
1	Hatta	888
2	Patera	905
3	Barigarh (Batiagarh)	900
4	Patharia	890
5	Damoh	889
6	Jabera	918
7	Tendukheda	920
	District (Rural) Total:	901

The table 7 gives the CD blockwise sex ratio for rural population of the district. The sex ratio in rural areas of the district comes to 901 females per 1,000 males. Among the CD blocks the highest sex ratio of 920 is found in Tendukheda CD block and the lowest of 888 is recorded in Hatta CD block.

TABLE 8: SEX RATIO OF RURAL POPULATION BY RANGES, 2001

Range of sex ratio for villages	Number of inhabited villages	Percentage of villages in each range	Population 2001	Percentage distribution of population
1	2	3	4	5
Less than 700	24	2.0	1,301	0.1
700-749	20	1.7	3,506	0.4
750-799	58	4.9	18,577	2.1
800-849	155	13.2	98,856	11.2
850-899	309	26.3	311,450	35.4
900-949	318	27.1	297,941	33.9
950-999	156	13.3	105,979	12.0
1000-1099	106	9.0	37,075	4.2
1100+	29	2.5	4,913	0.6
District Total:	1,175	100.0	879,598	100.0
Sex ratio (Rural) for District:				901

Table 8 presents the distribution of villages by 9 ranges of sex ratio based on 2001 Census. The maximum number of villages i.e. 318 accounting for 27.1 percent of the total villages having largest population of 33.9 percent in the district fall in the sex ratio range of 900-949. It is followed by 309 villages constituting 26.3 percent of total villages and 35.4 percent population falling in the range of 850-899.

TABLE 9 : SEX RATIO OF URBAN AGGLOMERATIONS/TOWNS, 2001

Serial number	Name of U.A./Town	Urban status of town	Sex ratio
1	2	3	4
1	Bansatar Kheda	CT	886
2	Damoh	UA	901
	(i) Damoh	M	903
3	Hatta	M	883
4	Hindoria	NP	927
5	Patharia	NP	895
6	Tendukheda	NP	904
	Sex ratio (Urban) for the district:		900

Table 9 gives the sex ratio of towns. The sex ratio in urban areas of the district comes to 900 females per 1,000 males as a whole. Among the 6 towns of the district the sex ratio varies between 883 to 927. Hindoria (NP) has the highest sex ratio 927 while Hatta (M) has the lowest sex ratio of 883 females.

TABLE 10 : SEX RATIO OF POPULATION IN THE AGE GROUP 0-6 FOR TAHSILS, 2001

Serial number	Name of Tahsil	Total / Rural / Urban	Total population in 0-6 age group			Sex ratio for 0-6 age group

		Rural	165,633	85,494	80,139	937
		Urban	30,351	15,787	14,564	923

The table 10 presents population of age group 0-6 years and sex ratio for total, rural and urban areas in respect of each tahsil of the district. The total sex ratio in this age group works out to 935 females for every 1,000 males in the district. The proportion of females in rural areas is higher than that of urban areas. The sex ratio in rural and urban areas comes to 937 and 923 respectively. The rural sex ratio in tahsil varies between 920 in Damoh tahsil to 964 in Tendukheda tahsil.

TABLE 11 : SEX RATIO OF POPULATION IN THE AGE GROUP 0-6 FOR CD BLOCKS, 2001

Serial number	Name of C.D. block	Total population in 0-6 age group			Sex ratio for 0-6 age group
		Persons	Males	Females	
1	2	3	4	5	6
1	Hatta	19,256	9,909	9,347	943

	District (Rural): Total	165,633	85,494	80,139	937

Table 11 gives CD blockwise sex ratio of rural population in the age group of 0-6 years in the district. The sex ratio is 937 for the district (Rural). The sex ratio of CD block varies between 920 to 964. It is highest in Tendukheda CD block and lowest in Damoh CD block.

TABLE 12 : SEX RATIO OF RURAL POPULATION IN THE AGE GROUP 0-6 BY RANGES, 2001

Range of sex ratio for villages	Number of inhabited villages	Percentage distri-bution of villages	Population 2001	Percentage distribution of population
1	2	3	4	5
Less than 700	138	11.7	6773	4.1
700-749	44	3.7	4980	3.0
750-799	77	6.6	11,386	6.9
800-849	101	8.6	15,584	9.4
850-899	124	10.6	26,374	15.9
900-949	131	11.1	26,309	15.9
950-999	99	8.4	20,777	12.5
1000-1099	199	16.9	30,639	18.5
1100+	262	22.3	22,811	13.8
District (Rural) Total	1175	100.0	165,633	100.0
Sex ratio (Rural) for District:			937	

Table 12 shows the distribution of villages in 9 ranges of sex ratio of the population in the age group 0-6 years as well as percentage of villages, total population and percentage of population of this age group falling in each range of sex ratio in the district.

The maximum number of villages i.e. 262 (22.3 percent) having population (13.8 percent) in the district (rural) fall in the sex ratio range of 1100+. It is followed by the sex ratio range of 1000-1099 which claims 199 villages (16.9 percent) and 18.5 percent population. Next to it 138 (11.7 percent) villages in the range of less than 700 and 4.1 percent populations are fall in above range. Minimum number of villages i.e. 44 (3.7 percent) and 3.0 percent population fall in the range of 700-749.

TABLE 13 : SEX RATIO OF POPULATION IN THE AGE GROUP 0-6 OF URBAN AGGLOMERATION (INCLUDING CONSTITUENT UNIT) TOWNS, 2001

Serial number	Name of UA/Town	Urban status of town	Total population in 0-6 age group			Sex ratio for 0-6 age group
			Persons	Males	Females	
1	2	3	4	5	6	7
1	Bansatar Kheda	CT	800	422	378	896
2	Damoh	UA	18,151	9,436	8,715	924
	(i) Damoh	M	15,663	8,154	7,509	921
3	Hatta	M	4,376	2,309	2,067	895

		Urban	204,351	39,867	4,334	19.5	2.1

Table 14 depicts the distribution of Scheduled Castes and Scheduled Tribes population as well as the percentage to total population at tahsil level in rural and urban areas of the district. Of the 1,083,949 total population of the district 19.5 percent belong to the Scheduled Castes and 12.6 percent to Scheduled Tribes. The percentage of Scheduled Castes population constitutes 19.5 percent each in rural as well as in urban population of the district. The highest percentage of Scheduled Castes population is recorded in Hatta tahsil (21.9) while the lowest is found in Tendukheda tahsil (13.7). The proportion of Scheduled Tribes population is 15.0 and 2.1 percent in rural and urban areas respectively. Scheduled Tribes population in the district is mainly concentrated in Tendukheda tahsil (28.3 percent) while the lowest population (4.8 percent) is recorded in Patharia tahsil.

TABLE 15 : NUMBER AND PERCENTAGE OF SCHEDULED CASTES AND SCHEDULED TRIBES POPULATION IN CD BLOCKS, 2001

Serial number	Name of C.D. block	Total population	Total Scheduled Castes population	Total Scheduled Tribes population	Percentage of Scheduled Castes population to total population	Percentage of Scheduled Tribes population to total population
1	2	3	4	5	6	7
1	Hatta	100,668	22,796	12,190	22.6	12.1
2	Patera	107,379	23,087	11,657	21.5	10.9
3	Barigarh (Batiagarh)	118,757	23,986	13,339	20.2	11.2
4	Patharia	129,426	27,642	6,693	21.4	5.2

	District (Rural) Total:	879,598	171,391	131,841	19.5	15.0

Table 15 shows distribution of Scheduled Castes and Scheduled Tribes population in each CD block of the district. 19.5 percent of rural population of the district belongs to Scheduled Castes and 15.0 percent to Scheduled Tribes. Scheduled Castes population is highest (22.6 percent) in Hatta CD block whereas it is lowest (13.9 percent) in Tendukheda CD block. Scheduled Tribes population is highest (30.6 percent) in Tendukheda CD block and it is lowest (5.2 percent) in Patharia CD block.

TABLE 16 : PROPORTION OF SCHEDULED CASTES POPULATION TO TOTAL POPULATION IN VILLAGES, 2001

Percentage Range of Scheduled Castes population to total population	Number of villages	Percent-age	Scheduled Castes Population	Percent-age
1	2	3	4	5
Nil	246	20.9	0	0.0
Less than 5	101	8.6	1,347	0.8
5-10	130	11.1	7,290	4.3
11-20	290	24.7	52,406	30.6
21-30	213	18.1	63,077	36.8
31-40	102	8.7	26,866	15.7
41-50	45	3.8	11,294	6.6
51-75	31	2.6	6,739	3.9
76 and above	17	1.4	2,372	1.4
District Total	1,175	100.0	171,391	100.0

Table 16 reflects the number of villages according to the proportion of Scheduled Castes population to their total population in different percentage ranges of population at district level. 246 villages accounting for 20.9 percent of total 1,175 inhabited villages in the district do not have any Scheduled Castes population. The proportion of Scheduled Castes population is less than 5.0 percent in 101 villages (8.6 percent). In 130 villages it varies between 5-10 percent while the next range of 11-20 percent accounts for 290 villages. The range of 21-30 and 31-40 percent contains 213 and 102 villages respectively. There are 45 villages in the range of 41-50 and 31 villages in the range of 51-75. Only 17 villages are such where the proportion of Scheduled Castes is 76 and above.

TABLE 17 : PROPORTION OF SCHEDULED TRIBES POPULATION TO TOTAL POPULATION IN VILLAGES, 2001

Percentage Range of Scheduled Tribes population to total population	Number of villages	Percent-age	Scheduled Tribes Population	Percent-age
1	2	3	4	5
Nil	307	26.1	0	0.0
Less than 5	226	19.2	4,913	3.7
5-10	121	10.3	10,215	7.7
11-20	134	11.4	19,738	15.0
21-30	85	7.2	18,098	13.7
31-40	64	5.4	15,395	11.7
41-50	39	3.3	10,150	7.7
51-75	89	7.6	24,729	18.8
76 and above	110	9.4	28,603	21.7
District Total	1,175	100.0	131,841	100.0

Table 17 reflects the number of villages according to the proportion of Scheduled Tribes population to their total population in different percentage ranges of population at district level. 307 villages accounting for 26.1 percent of total 1,175 inhabited villages in the district do not have any Scheduled Tribes population. The proportion of Scheduled Tribes population is less than 5.0 percent in 226 villages (19.2 percent). In 121 villages it varies between 5-10 percent while the next range of 11-20 and 21-30 accounts for 219 villages. In the range of 31-50 it accounts for 103 villages. 89 villages in the range of 51-75 and 110 villages is fall in the range of 76 and above.

TABLE 18 : NUMBER AND PERCENTAGE OF SCHEDULED CASTES AND SCHEDULED TRIBES POPULATION IN URBAN AGGLOMERATIONS/TOWNS, 2001

Serial number	Name of UA/ Town	Total population	Total Scheduled Castes population	Total Scheduled Tribes population	Percentage of Scheduled Castes population to total population	Percentage of Scheduled Tribes population to total population
1	2	3	4	5	6	7
1	Bansatar Kheda (CT)	5,027	1,335	73	26.6	1.5
2	Damoh UA	127,967	25,567	2,493	20.0	1.9
	(i) Damoh (M)	112,185	20,787	1,785	18.5	1.6
3	Hatta (M)	28,514	5,553	156	19.5	0.5
4	Hindoria (NP)	14,429	3,036	767	21.0	5.3
5	Patharia (NP)	17,185	2,983	273	17.4	1.6
6	Tendukheda (NP)	11,229	1,393	572	12.4	5.1
	District(Urban) Total	204,351	39,867	4,334	19.5	2.1

Table 18 shows number and percentage of Scheduled Castes and Scheduled Tribes in UA/Towns of the district. Out of the 6 towns the highest proportion (26.6 percent) of Scheduled Castes is found in Bansatar Kheda (CT) whereas the lowest proportion (12.4 percent) in Tendukheda (NP). For Scheduled Tribes the highest proportion (5.3 percent) is found in Hindoria (NP) while it is lowest 0.5 percent in Hatta (M).

TABLE 19 : SEX RATIO AMONG SCHEDULED CASTES AND SCHEDULED TRIBES IN CD BLOCKS, 2001

Serial number	Name of C D block	Scheduled Castes sex ratio	Scheduled Tribes sex ratio
1	2	3	4
1	Hatta	879	935
2	Patera	892	973
3	Barigarh (Batiagarh)	881	935
4	Patharia	861	933
5	Damoh	888	929
6	Jabera	892	959
7	Tendukheda	887	960
	District (Rural) Total	882	950

Table 19 indicates sex ratio among Scheduled Castes and Scheduled Tribes in each CD block of the district. The Scheduled Castes sex ratio is 882 for district (rural). Among the CD blocks, the highest sex ratio of 892 is found in Patera and Jabera CD block and lowest of 861 is recorded in Patharia CD block.

Sex ratio of Scheduled Tribes population in Damoh district rural is 950. Among the CD blocks, the highest sex ratio of 973 is found in Patera CD block and lowest of 929 is recorded in Damoh CD block.

TABLE 20 : SEX RATIO AMONG SCHEDULED CASTES AND SCHEDULED TRIBES IN URBAN AGGLOMERATIONS/TOWNS, 2001

Serial number	Name of UA/Town	Scheduled Castes sex ratio	Scheduled Tribes sex ratio
1	2	3	4
1	Bansatar Kheda (CT)	891	825
2	Damoh UA	886	933
	(i) Damoh (M)	886	940
3	Hatta (M)	846	902
4	Hindoria (NP)	896	1,067
5	Patharia (NP)	876	964
6	Tendukheda (NP)	893	851
Sex ratio (Urban) for the district:		881	943

Table 20 shows the sex ratio among Scheduled Castes and Scheduled Tribes in UA/Towns for Census 2001. For the district (urban) sex ratio is higher (943) among Scheduled Tribes compared to Scheduled Castes (881).

Among the 6 towns of the district, Scheduled Caste sex ratio is not above one thousand. Sex ratio for Scheduled Castes is highest 896 in Hindoria (NP) while it is lowest 846 in Hatta (M). Sex ratio for Scheduled Tribes is highest 1,067 in Hindoria (NP) while the lowest 825 is found in Bansatar Kheda (CT).

TABLE 21 : NUMBER AND PERCENTAGE OF LITERATES AND ILLITERATES BY TAHSILS, 2001

		Rural	407,510	268,085	139,425	472,088	194,563	277,525	57.1	71.1	41.4	29.7
		Urban	140,821	82,057	58,764	63,530	25,524	38,006	80.9	89.4	71.5	17.9

Table 21 depicts tahsilwise literacy rates besides the number of literates and illiterates for total, rural and urban areas. The literacy rates are worked out by excluding population of 0-6 years. As per 2001 census, the proportion of literates to total population excluding 0-6 years comes to 61.8 percent in the district. This proportion in rural area is 57.1 percent and 80.9 percent in urban areas. In the district the literacy rate of males 74.7 percent is much higher than that of females which is 47.3 percent.

Among the tahsils, Damoh tahsil tops with 70.4 percent literates and the lowest literacy rate 53.9 percent is recorded for Patera tahsil. Overall in the district gap in male-female literacy rate comes to 27.4 percent.

TABLE 22 : NUMBER AND PERCENTAGE OF LITERATES AND ILLITERATES BY SEX IN CD BLOCKS, 2001

Serial number	Name of C.D. block	Number of literates and illiterates						Percentage of literates			Gap in male-female literacy rate
		Number of literates			Number of illiterates						
		Persons	Males	Females	Persons	Males	Females	Persons	Males	Females	
1	2	3	4	5	6	7	8	9	10	11	12
1	Hatta	40,360	27,161	13,199	60,308	26,155	34,153	49.6	62.6	34.7	27.8

District (Rural) Total:		407,510	268,085	139,425	472,088	194,563	277,525	57.1	71.1	41.4	29.7

The table 22 reveals number of literates, illiterates and the literacy rates in rural areas at CD block level in the district. 57.1 percent of the total rural population excluding the age group of 0-6 years are literates in the district. The corresponding proportion of male and female literates comes to 71.1 and 41.4 percent respectively. At CD block level Patharia CD block has the highest rural literacy rate of 62.4 percent while the lowest literacy rate of 49.6 percent is recorded for Hatta CD block.

TABLE 23 : DISTRIBUTION OF VILLAGES BY LITERACY RATE RANGE, 2001

Range of literacy rate for villages	Number of inhabited villages	Percentage distribution of villages	Population	Percentage distribution of population
1	2	3	4	5
0	3	0.3	39	0.0
1-10	18	1.5	2,668	0.3
11-20	35	3.0	8,368	1.0
21-30	53	4.5	16,632	1.9
31-40	92	7.8	46,451	5.3
41-50	221	18.8	140,653	16.0
51-60	372	31.7	299,481	34.0
61-70	282	24.0	292,108	33.2
71-80	70	6.0	56,630	6.4
81-90	21	1.8	13,847	1.6
91-99	6	0.5	2,712	0.3
100	2	0.2	9	0.0
District Total:	1175	100.0	879,598	100.0
Literacy rate for District:			61.8	

Table 23 gives the distribution of villages by literacy ranges in the district. 3 village fall in the range of literacy rate is 0 having the population of 39, 18 and 35 villages in the range of 1-10 and 11-20 having the percentage of population 1.5 and 3.0 percent respectively. There are 2 villages constituting 0.2 percent of total villages having 100 percent literacy. Highest number of villages i.e. 372 villages fall in the literacy range of 51-60 percent, this accounts for 31.7 percent of the distribution of villages and percentage distribution of populatin is 34.0 percent.

TABLE 24 : NUMBER AND PERCENTAGE OF LITERATES AND ILLITERATES BY SEX IN URBAN AGGLOMERATIONS/TOWNS, 2001

Serial number	Name and urban status of UA/Town	Number of literates and illiterates						Percentage of literates			Gap in male-female literacy rate
		Number of literates			Number of illiterates						
		Persons	Males	Females	Persons	Males	Females	Persons	Males	Females	
1	2	3	4	5	6	7	8	9	10	11	12

	District(Urban) Total	140,821	82,057	58,764	63,530	25,524	38,006	80.9	89.4	71.5	17.9

Table 24 presents the number and percentage of literates and illiterates by sex in UA/towns of the district. It is seen that the highest literacy rate of 83.8 percent is recorded in Damoh (M) whereas the lowest literacy rate 71.8 is recorded in Hindoria (NP). Sex wise highest percentage of male literacy rate is observed in Damoh (M) and it is lowest in Tendukheda (NP). Gap in male female literacy rate is maximum in Hindoria (NP). The total literacy rate of the district (urban) comes to 80.9 percent. It is 89.4 percent for males and 71.5 percent for females.

TABLE 25 : NUMBER AND PERCENTAGE OF SCHEDULED CASTES LITERATES AND ILLITERATES BY SEX IN CD BLOCKS, 2001

Serial number	Name of CD Block	Number of literates and illiterates						Percentage of literates			Gap in male-female literacy rate
		Number of literates			Number of illiterates						
		Persons	Males	Females	Persons	Males	Females	Persons	Males	Females

	District (Rural) Total:	66,502	45,548	20,954	104,889	45,500	59,389	48.4	62.0	32.7	29.4

Table 25 presents the CD blockwise number and percentage of Scheduled Castes, litertes and illiterates by sex. It is seen that literacy rate of Scheduled Caste population of the district is 48.4 percent. It is highest 53.1 percent in Jabera CD block and lowest 39.0 percent in Hatta CD block. The gap in male/ female literacy rate is highest (32.2 percent) in Jabera CD block. The overall male literacy rate of the district (rural) works out to 62.0 percent and it is 32.7 percent for females.

TABLE 26 : DISTRIBUTION OF VILLAGES BY LITERACY RATE RANGE FOR SCHEDULED CASTES POPULATION, 2001

Range of literacy rate for villages	Number of inhabited villages	Percentage distribution of villages	Scheduled Castes Population	Percentage distribution of population
1	2	3	4	5
0	27	2.9	216	0.1
1-10	4	0.4	134	0.1
11-20	32	3.4	2,286	1.3
21-30	70	7.5	8,882	5.2
31-40	179	19.3	31,450	18.3
41-50	249	26.8	49,166	28.7

91-99	2	0.2	280	0.2
100	12	1.3	39	0.0
District Total:	929	100.0	171,391	100.0
Literacy rate for District (Rural):			48.4	

Table 26 presents the distribution of villages by range of literacy rate for Scheduled Caste population. It may be noted that the literacy rate is worked out after excluding population in the age group 0-6 from the total Scheduled Caste population. The overall literacy rate of Scheduled Caste population for the district (rural) works out to 48.4 percent. Highest number of villages i.e. 249 villages fall in the literacy range of 41-50 percent. There are 12 villages which have 100 percent literacy rate of Scheduled Caste population. 27 village are such where the literacy rate of Scheduled Caste population is 0 percent.

TABLE 27 : NUMBER AND PERCENTAGE OF SCHEDULED CASTES LITERATES AND ILLITERATES BY SEX IN TOWNS, 2001

Serial number	Name and urban status of Town	Number of literates and illiterates						Percentage of literates			Gap in male-female literacy rate
		Number of literates			Number of illiterates						
		Persons	Males	Females	Persons	Males	Females	Persons	Males	Females	
1	2	3	4	5	6	7	8	9	10	11	12

100	17	2.0	33	0.0
District Total:	868	100.0	131,841	100.0
Literacy rate for District (Rural):			40.7	

Table 29 depicts distribution of villages by literacy rate range for Scheduled Tribes population of the district (Rural) . The literacy rate of Scheduled Tribes population for district (rural) is 40.7 percent. Accordingly the highest number of villages 174 fall in the literacy rate range of 41-50 percent constituting 20.0 percent of villages having Scheduled Tribe population and 21.3 percent of total Scheduled Tribe population. 17 villages have 100 percent literacy rate of the Scheduled Tribe Population.

TABLE 30 : NUMBER AND PERCENTAGE OF SCHEDULED TRIBES LITERATES AND ILLITERATES BY SEX IN TOWNS, 2001

Serial number	Name and urban status of Town	Number of literates and illiterates						Percentage of literates			Gap in male-female literacy rate
		Number of literates			Number of illiterates						
		Persons	Males	Females	Persons	Males	Females	Persons	Males	Females	
1	2	3	4	5	6	7	8	9	10	11	12
1	Bansatar Kheda (CT)	36	30	6	37	10	27	60.0	83.3	25.0	58.3
2	Damoh (M+OG)	1,374	819	555	1119	471	648	66.3	76.0	55.8	20.2
3	Hatta (M)	88	57	31	68	25	43	72.1	83.8	57.4	26.4
4	Hindoria (NP)	152	107	45	615	264	351	26.3	38.6	15.0	23.7
5	Patharia (NP)	136	81	55	137	58	79	59.4	68.6	49.5	19.1
6	Tendukheda (NP)	332	224	108	240	85	155	71.7	87.8	51.9	35.9
	Damoh (Urban)	2,118	1,318	800	2216	913	1303	60.1	72.0	47.3	24.7

Table 30 shows the number and percentage of Scheduled Tribes literates and illiterates by sex in towns of the district. The literacy rate of Scheduled Tribes for the district(urban) works out to 60.1 percent. It is 72.0 percent for males and 47.3 percent for females. Among the Scheduled Tribe population the gap in male/female literacy rate of the district(urban) is 24.7 percent. This gap is highest in Bansatar Kheda (CT) and is lowest in Patharia (NP).

TABLE 31 : NUMBER AND PERCENTAGE OF MAIN WORKERS, MARGINAL WORKERS, AND NON-WORKERS BY SEX IN TAHSILS, 2001

Table 31 gives the number and percentage of main workers, marginal workers and non-workers by sex at tahsils level in the district as per 2001 Census. The proportion of the total workers works out to 44.9 percent of the total population in the district. The total workers comprises of 32.2 percent of main workers and 12.2 percent of marginal workers and the remaining 55.1 percent are non-workers.

Among males, 46.0 % are main workers and 7.1% are marginal workers whereas among females, corresponding figures are 16.8% and 19.0% respectively.

,

Table 32 gives the number and percentage of main workers, marginal workers and non-workers by sex at CD block level in the district as per 2001 Census. The proportaion of the total workers works out to 47.4 percent of the total population in the district. The total workers are comprised of 32.8 percent of main workers and 14.6 percent of marginal workers and the remaining 52.6 percent are non-workers.

Among males, 46.6% are main workers and 7.9% are marginal workers whereas among females, corresponding figures are 17.5% and 22.0% respectively.

Table 33 presents distribution of population by category of workers and non-workers by sex in UA/ Towns of the district. It is seen that total workers constitute 34.2 percent of the total population of the district (Urban) and the proportion of non-workers is 65.8 percent. The total workers constitute male workers 47.1 percent whereas female workers are only 20.0 percent.

Among males, 43.7% are main workers and 3.4% are marginal workers whereas among females, corresponding figures are 14.0% and 5.9% respectively.

It can be seen from the table 34, the economy of the district is primarily agricultural as supported by the fact that cultivators constitute 28.0 percent of the total workers (main + marginal), 29.7 percent of total workers are engaged as agricultural labourers, 23.0 percent as household industry workers and 19.3 percent of other workers in this district.

The distribution of workers by four categories of economic activity at tahsil/sub-tahsil shows very high dependence of population on agricultural labour sector absorbing large number of workers. The proportion of agricultural labour varies between 22.3 percent in Damoh tahsil and 39.5 percent in Patharia tahsil. The percentage of male agricultural labour is 27.4 percent which is low as compared to 33.5 percent of females in the district. The percentage of other worker is low in the district as stated above. The highest proportion of 33.3 percent of other workers is recorded in Damoh tahsil while the lowest proportion of 10.7 percent is found in Batiyagarh tahsil.

				(54.5)	(39.9)	(32.4)	(12.7)	(15.1)
		Females	416,950	164,579	32,229	60,766	58,606	12,978
				(39.5)	(19.6)	(36.9)	(35.6)	(7.9)

Note: Percent of Worker to total worker are given in brackets

Table 35 presents CD blockwise distribution of workers by sex in four categories of economic activity. In the rural areas of the district total workers (main + marginal) constitutes 47.4 percent of total population. Among these workers cultivators constitute 31.9 percent, agricultural labourers 34.2 percent, household industry 21.7 percent and other workers constitute 12.3 percent. The proportion of cultivators is highest 38.4 percent in Hatta CD block and is lowest 23.5 percent in Jabera CD block. Proportion of agricultural labour is highest 43.0 percent in Patharia CD block and lowest 25.8 percent in Jabera CD block. It is also seen that the proportion of male workers is more than female workers under the category of cultivators and other worker.

TABLE 36 : DISTRIBUTION OF WORKERS BY SEX IN FOUR CATEGORIES OF ECONOMIC ACTIVITY OF URBAN AGGLOMERATIONS / TOWNS , 2001

Serial number	Name and urban status of UA/Town	Persons / Males / Females	Total Population	Total number of workers (Main + Marginal)	Category of workers

				(20.0)	(2.5)	(4.0)	(67.3)	(26.3)

Table 36 presents the distribution of workers by sex in different categories of economic activity for UA/Towns of the district. It is seen that out of the 34.2 percent of total workers, cultivators constitute 5.0 percent, agricultural labourers 3.3 percent, household industry 30.2 percent and the highest proportion is covered by other workers which is 61.5 percent. It is also found that proportion of male workers under cultivator and other workers are more than the female workers proportion whereas proportion of female workers under agricultural labourer and Household industry is more than the proportion of males. Townwise analysis shows that the proportion of cultivators is highest 13.3 percent in Hindoria (NP), agricultural labourer is highest 12.2 percent in Hindoria (NP), household industry workers is highest 67.6 percent in Bansatar Kheda (CT) and other workers is highest 71.5 percent in Damoh (UA).

(ix) Brief analysis of Village Directory and Town Directory data (table 37-47)

Analysis based on Village Directory and Town Directory data pertaining to census 2001 are presented in the form of Inset tables from 37-47. Alongwith the census data 'Non-Census' data such as village amenity and town amenity data was collected during census 2001. These tables give the number of total villages, jproportion of population served by different amenities, availability of amenities by distance, proportion of slum population in towns etc. A short analytical note is also given below of each table.

TABLE 37 : DISTRIBUTION OF VILLAGES ACCORDING TO AVAILABILITY OF DIFFERENT AMENITIES, 2001

Serial number	Name of CD block	Number of inhabited villages	Type of amenity available									
			Edu-cation	Medical	Improved drinking water*	Post Office #	Teleph one	Transport communica tions $	Banks	Agricu-ltural Credit Societies	Appro-ach by pucca road	Power supply

	District Total:	1,175	915	272	1,094	169	199	238	52	73	372	1,107
		(100)	(77.9)	(23.1)	(93.1)	(14.4)	(16.9)	(20.3)	(4.4)	(6.2)	(31.7)	(94.2)

Note : Percentages are given in brackets.

* Based on the improved drinking water sources, drinking water supply has been classified as 'Improved or otherwise. If the household has access to drinking water supplied from a tap or a hand pump/tube well situated within or outside the premises it is considered as having access to 'Improved drinking water source'. However, the concept of improved drinking water is state specific and this is to be considered accordingly.

\# Post office includes Post office, telegraph office and Post and telegraph office.

$ Transport communication includes bus service, rail facility and navigable waterways.

Table 37 deals with the CD block-wise distribution of villages according to the availability of different amenities like education, medical, improved drinking water, post office, telephone, transport, communications, agricultural credit societies, approach by pucca road and power supply within the village. Out of 1,175 inhabited villages in the district 915 villages or 77.9 percent have been provided with the education facilities of one type or the other. Similarly 272 villages in the district constituting 23.1 percent have medical facilities of one type or the other. Improved drinking water facility is available in 1094 or 93.1 percent villages. As regards, post office facility which includes facilities like telegraph office and post and telegraph, 169 villages constituting 14.4 percent of villages have been provided with post office facility within the villages. 199 or 16.9 percent villages have been provided with the telephone facility, 238 or 20.3 percent with transport facility, 52 or 4.4 percent villages with bank facility and 73 or 6.2 percent with

agricultural credit societies. Similarly there are 372 or 31.7 percent villages which are linked with the pucca road. Total 1107 or 94.2 percent of villages are provided with the electricity supply. Almost similar pattern of distribution of villages by availability of amenities in the villages at CD block has been found with slight variation. Patharia CD block has the highest 89.4 percent villages where educational facility is available and lowest 68.2 percent is found in Patera CD block. Medical facility is highest in Patharia (39.4 percent) and lowest 9.7 percent in Hatta CD block. Improved drinking water facility is highest in Patera CD block (98.1 percent) and it is lowest in Barigarh (87.9 percent). In the field of power supply all villages have been covered except 68 villages in the district.

TABLE 38 : NUMBER AND PER CENT OF RURAL POPULATION SERVED BY DIFFERENT AMENITIES, 2001

Serial number	Name of CD block	Total population of inhabited villages	Type of amenity available									
			Education	Medical	Improved drinking water*	Post Office #	Telephone	Transport communications $	Banks	Agricultural Credit Societies	Approach by pucca road	Power supply

		(100)	(94.1)	(46.5)	(95.7)	(37.8)	(34.1)	(38.6)	(15.6)	(20.5)	(47.0)	(97.6)

Note : Percentages are given in brackets.

* Based on the improved drinking water source, drinking water supply has been classified as 'Improved or otherwise. If the household has access to drinking water supplied from a tap or a hand pump/tube well situated within or outside the premises it is considered as having access to 'Improved drinking water source'. However, the concept of improved drinking water is state specific and this is to be considered accordingly.

\# Post office includes Post office, telegraph office and Post and telegraph office.

$ Transport communication includes bus service, rail facility and navigable waterways.

Table 38 depicts the number and proportion of rural population served by different kind of amenities. Out of total rural population of 879,598 persons in the district, 827,554 or 94.1 percent have educational facility of one or the other type. Similarly 408,623 or 46.5 percent population has medical facilities while 841,652 or 95.7 percent have improved drinking water facility. Post office facilities are available to 332,051 or 37.8 percent population. Telephone facility is available to 300,307 or 34.1 percent. Transport communications facility is available to 339,808 or 38.6 percent. Bank facility is available to 137,235 or 15.6

percent. 180,200 or 20.5 percent have been provided with the facility of agricultural credit societies. 413,605 or 47.0 percent have been provided with the facility of approach by pucca road. Power supply is available to 858,729 or 97.6 percent rural population in the district. Similar pattern of availability of facilities is visible to the rural population in different CD blocks.

TABLE 39 : DISTRIBUTION OF VILLAGES NOT HAVING CERTAIN AMENITIES, ARRANGED BY DISTANCE RANGES FROM THE PLACES WHERE THESE ARE AVAILABLE, 2001

Village not having the amenity of	Distance range of place from the villages where the amenity is available			
	Less than 5 kilometres	5-10 kilometres	10+ kilometres	Total (Col. 2 - 4)
1	2	3	4	5
1. Education :-				
(a) Primary School	246	16	3	265
(b) Middle School	604	291	111	1,006
(c) Degree College	59	141	972	1,172
2. Medical:-				
(a) Hospital	90	181	897	1,168
(b) PHC	69	202	890	1,161
3. Post Office	669	231	106	1,006
4. Telephone	293	233	450	976
5. Bus Service	482	300	164	946
6. Banks				
(a) Commercial Bank	206	305	636	1,147
(b) Cooperative Bank	312	336	486	1,134
7. Agricultural Credit Societies	382	282	438	1,102

Table 39 presents distribution of villages not having certain amenities within the village at district level. Such villages have been presented according to various distance ranges in this table. 265 villages do not have primary school and out of these villages, children of 246 villages have to travel less than 5 kms. for schooling. Out of 1,175 inhabited villages as many as 1,006 are deprived of middle school and 1,172 of degree college. Of these 604 avail the facility of middle school at a distance of less than 5 kms., 291 at a distance 5-10 kms. and the remaining 111 at a distance of 10+ kms. In respect of degree college 59 avail this facility at a distance of less than 5 kms., 141 between 5 to 10 kms. and rest 972 villages at a distance of 10+ kms.

Similarly there are 1,168 villages in the district which have been devoid of Hospital facility and 1,161 villages which are deprived of PHC facilities. Of these 90 villages have the facility of Hospital available within 5 kms. while in respect of 181 villages the inhabitants have to cover a distance of 5-10 kms. in order to avail this facility. Similarly overwhelming number i.e. 897 villages have this facility at a distance of 10+ kms. As regards PHC 69 avail this facility at a distance of less than 5 kms., 202 at a distance of 5-10 kms. and the remaining 890 have to travel a distance of more than 10 kms. to avail this facility.

Regarding Post Office, 1,006 villages do not have this facility in the village itself. Of these majority i.e. 669 have this facility at a distance of less than 5 kms., another 231 villages avail it at a distance of 5-10 kms. In the remaining 106 villages habitants have to travel a distance of 10+ kms.

As regards Telephone, there are 976 villages in the district which are without telephone facilitiy. Of these 293 avail this facility at a distance of less than 5 kms., 233 at a distance of 5-10 kms. and remaining 450 have to traverse a distance of 10+ kms.

For Bus service out of 946 villages which do not have facility, 482 villages avail this facility at a distance of less than 5 kms., 300 at a distance between 5-10 kms. and 164 at a distance of 10+ kms.

In the entire district 1,147 villages are deprived of Commercial Bank and 1,134 of Co-operative Bank. Of these 1,147 villages which are deprived of Commercial Banks 206 villages avail this facility at a distance of less than 5 kms., 305 between 5-10 kms. and the remaining 636 at a distance of 10+ kms. Regarding Co-operative Banks out of 1,134 villages 312 villages avail this facility at a distance of less than 5 kms., 336 at a distance of 5-10 kms. and remaining 486 at a distance of 10+ kms. 1,102 villages do not have agricultural credit societies. This facility to 382 villages is available at a distance of less than 5 kms., 282 at a distance of 5-10 kms. and the remaining 438 at a distance of 10+ kms.

TABLE 40 : DISTRIBUTION OF VILLAGES ACCORDING TO THE DISTANCE FROM THE NEAREST STATUTORY TOWN AND AVAILABILITY OF DIFFERENT AMENITIES, 2001

Distance range from the nearest statutory town (in kilometres)	Number of inhabited villages in each range	Type of amenity available							
		Education	Medical	Post Office	Telephone	Transport communica-tions	Banks	Agricultural Credit Societies	Approach by pucca road

Unspecified	5	4	1	2	0	1	0	0	5
	(100.0)	(80.0)	(20.0)	(40.0)	(0.0)	(20.0)	(0.0)	(0.0)	(100.0)
District total	1175	915	272	169	199	238	52	73	372
	(100.0)	(77.9)	(23.1)	(14.4)	(16.9)	(20.3)	(4.4)	(6.2)	(31.7)

Table 40 deals with the distribution of villages according to distance from the nearest statutory town and availability of different amenities within the village. Out of total 1,175 inhabited villages in the district, there are 49 villages which have nearest towns upto a distance of 5 kms. Of these only 35 villages forming 71.4 percent of total villages, are having the educational facilities atleast one type and 8 villages constituting 16.3 percent, have the medical facilities within the range of 5 km., 4 villages forming 8.2 percent have the facility of post office and 11 villages forming 22.4 percent have the telephone and 10 village forming 20.4 percent have transport communication facility within the range of 5 km. one village constituting only 2.0 percent have been provided with bank facility. There are 4 villages forming 8.2 percent have facility of agricultural credit society. 20 villages comprising 40.8 percent have been provided with pucca road within the distance of 5 km.

There are 383 inhabited villages in the district which fall in the distance range of 5-15 kms. Of these 300 villages constituting 78.3 percent have been provided with the educational facilities. 110 villages comprising 28.7 percent have been provided with medical facilities. 52 villages constituting 13.6 percent enjoy the post office facility. 91 villages comprising 23.8 percent have been provided the telephone facility. 74 villages constituting 19.3 percent have been linked with transport communications. 18 villages comprising 4.7 percent have bank facility. 20 villages constituting 5.2 percent are having agricultural credit societies,

while 111 villages or 29.0 percent are approachable by pucca road.

705 villages fall in the distance range of 16-50 kms. Of these, 77.7 percent villages have educational facility, 20.7 percent with medical, 14.9 percent with post office, 13.0 percent with telephone whereas transport & communications available to 20.6 percent villages. Banks and agricultural credit societies facilities are available to 4.7 and 6.7 percent of villages respectively. Approach by pucca road facilities are available to 31.5 percent of villages.

There are 33 villages in the district which are covered under the range of 51+ kms. Of these, 84.8 percent villages have educational facility, 21.2 percent with medical, 18.2 percent with post office, 15.2 percent with telephone; transport and communications is available to 24.2 percent villages and in these villages there is no Bank facility. 6.1 percent with facility of agricultural credit society. Approach by pucca road facility is available to 42.4 percent of villages.

TABLE 41 : DISTRIBUTION OF VILLAGES ACCORDING TO POPULATION RANGE AND AMENITIES AVAILABLE, 2001

Population range	Number of inhabited villages in each range	Type of amenity available									
		Education	Medical	Improved drinking water*	Post Office #	Tele-phone	Transport communications $	Banks	Agricultural Credit Societies	Approach by Pucca road	Power supply

Note : Percentages are given in brackets.

* Based on the improved drinking water source, drinking water supply has been classified as 'Improved or otherwise. If the household has access to drinking water supplied from a tap or a hand pump/tube well situated within or outside the premises it is considered as having access to 'Improved drinking water source'. However, the concept of improved drinking water is state specific and this is to be considered accordingly.

\# Post office includes Post office, telegraph office and Post and telegraph office.

$ Transport communication includes bus service, rail facility and navigable waterways.

Table 41 deals with the distribution of villages by population ranges and amenities available therein. In Damoh district out of a total 1175 inhabited villages, overwhelming 560 have a population of less than 500 persons. Of these, 310 villages (55.4 percent) have education facility, 38 (6.8 percent) have medical facility, 504 (90.0 percent) have improved drinking water facility. 8 villages (1.4 percent) have post office and 38 villages (6.8 percent) have telephone facility. 56 (10.0 percent) have been linked by bus service.

4 (0.7 percent) have Banks and 3 (0.5 percent) have agricultural credit societies, 126 villages (22.5 percent) have been linked with pucca road. 497 villages (88.8 percent) have been provided with electricity.

Out of 349 villages, which fall in the population range of 500-999 persons, 341 villages (97.7 percent) have been provided with the education facility, 73 (20.9 percent) with medical facility, 333 (95.4 percent) with improved drinking water, 33 (9.5 percent) have been provided with post office facilities, 56 villages (16.0 percent) with telephone facility, 62 villages (17.8 percent) with transport facilities, 8 villages (2.3 percent) with bank facility, 11 villages (3.2 percent) with agricultural credit societies and 103 villages (29.5 percent) have approach by pucca road. 343 villages (98.3 percent) have the facility of Power supply.

197 villages fall in population range of 1,000-1,999 persons. Of these 195 villages or (99.0 percent) have been provided with the education, 104 (52.8 percent) with medical facility, 190 (96.4 percent) villages have improved drinking water facility. 70 villages (35.5 percent) have been provided with post office facilities, 63 villages (32.0 percent) with telephone facility, 70 villages (35.5 percent) with transport facilities, 13 villages (6.6 percent) with bank facility, 22 villages (11.2 percent) with agricultural credit societies and 96 villages (48.7 percent) have approach by pucca road. 195 villages (99.0 percent) have the facility of power supply.

There are 60 villages in the district which are covered under 2,000-4,999 population range. Of these, 60 villages (100 percent) have been provided with the education, 48 (80.0 percent) with medical facility, 58 (96.7 percent) have been provided with improved drinking water, 49 (81.7 percent) have been provided with post office facilities, 33 villages (55.0 percent) with telephone facility, 41 villages (68.3 percent) with transport facilities, 20 villages (33.3 percent) with bank facility, 30 villages (50.0 percent) with agricultural credit societies and 38 villages (63.3 percent) have approach by pucca road. 59 villages (98.3 percent) have power supply facilities.

There are 9 villages in the district which are covered under 5,000-9,999 population range and all these villages are provided with all types of facilities except for the facility of Banks and Agricultural Credit society which is available to only 7 villages. There are no village in the population range of more than 10,000.

TABLE 42 : DISTRIBUTION OF VILLAGES ACCORDING TO LAND USE, 2001

Serial number	Name of C. D. block	Number of inhabited villages	Total area	Percentage of cultivable area to total area	Percentage of irrigated area to total cultivable area
1	2	3	4	5	6
1	Hatta	155	69,438	64.6	19.2
2	Patera	157	64,519	65.0	20.4
3	Barigarh	141	64,125	62.0	41.6
4	Patharia	132	68,180	82.8	30.4
5	Damoh	230	84,268	64.6	18.3
6	Jabera	180	81,643	41.3	36.9
7	Tendukheda	180	67,414	40.3	28.5
	District Total:	1175	499,587	59.7	27.1

Note : - Cultivable area = irrigated area + unirrigated area

Table 42 presents C.D blockwise distribution of villages according to land use. It also gives details of total area and cultivable area available of inhabited villages in the district. Cultivated area includes irrigated as well as unirrigated area. It further elaborates that what is the extent of cultivable area under irrigation. There are total 1175 inhabited villages in the district having a total area of 499,587 hectares. Of this, 59.7 percent is cultivable and 27.1 percent of total cultivable area has got the irrigation facility. The area figures have been collected from the revenue record maintained for each village by the State Government.

It is seen that percentage of cultivable area to

total area is highest 82.8 percent in Patharia CD Block. It is lowest 40.3 percent in Tendukheda CD Block. The percentage of irrigated area to cultivable area is highest 41.6 percent in Barigarh and lowest 18.3 in Damoh CD block.

TABLE 43 : PER CAPITA RECEIPT AND EXPENDITURE IN STATUTORY TOWNS

Serial number	Class, name & urban status of the Town	Per capita expenditure								
		Total	Through taxes	From all other sources	Total	General Adminis-tration	Public health and conveniences	Public works	Public institutions	Other(s)
1	2	3	4	5	6	7	8	9	10	11
1I	Damoh (M)	337	10	326	350	128	41	56	0	125
2III	Hatta (M)	289	196	93	288	66	135	43	7	37
3IV	Hindoria (NP)	297	69	228	287	37	24	29	30	166
4IV	Patharia (NP)	296	29	268	286	104	0	6	0	176
5IV	Tendukheda (NP)	377	82	296	353	44	76	86	18	130
	District Total	326	47	279	331	106	52	49	4	120

Note: The difference in various totals is due to rounding off the related figures.

The table 43 gives the per capita receipts and expenditure (in rupees) for each town in the district. The average per capita receipts for towns of the district Damoh works out to Rs.326 of which Rs.47 are derived through local taxes and the remaining Rs.279 is received from all other sources. The average of total expenditure incurred per capita is Rs.331. Out of this Rs.106 are spent on general administration, Rs.52 on public health and conveniences, Rs.49 on public works, Rs.4 on public institutions and Rs.120 is spent on other items.

TABLE 44 : SCHOOLS/COLLEGES PER 10,000 POPULATION IN STATUTORY TOWNS, 2001

Serial number	Name and urban status of Town	Type of educational institution				
		Primary	Junior Secondary / Middle	Secondary / Matriculation	Senior Secondary	College
1	2	3	4	5	6	7
1	Damoh (M)	4.6	1.9	1.8	0.9	0.2
2	Hatta (M)	9.8	3.9	1.1	1.1	0.4
3	Hindoria (NP)	3.5	2.8	2.1	1.4	0.0
4	Patharia (NP)	3.5	3.5	1.7	1.7	0.6
5	Tendukheda (NP)	6.2	3.6	0.9	0.9	0.0
	District Total	5.3	2.5	1.7	1.0	0.3

In urban areas of Damoh district the average number of primary school per 10,000 population comes 5.3 schools, 2.5 junior secondary/middle, 1.7 secondary/matriculation, 1.0 senior secondary schools and the ratio of colleges is only 0.3 college per 10,000 population as seen from Table 44. Among the towns, the ratio of primary is highest in Hatta (M) while lowest is Hindoria (NP) and Patharia (NP).

TABLE 45 : NUMBER OF BEDS IN MEDICAL INSTITUTIONS IN TOWNS, 2001

Serial number	Name and urban status of the Town	Number of beds in medical institutions per 10,000 population
1	2	3
1	Bansatar Kheda(CT)	0
2	Damoh(M)	18
3	Hatta(M)	11
4	Hindoria(NP)	4
5	Patharia (NP)	3
6	Tendukheda (NP)	13
	Distrct Total	14

Table 45 depicts the number of beds available in medical institutions per 10,000 population in each town of Damoh district. On an average there are 14 beds per 10,000 population in urban areas of the district. Whereas it is the highest 18 in Damoh (M) while the lowest is 0 recorded in Bansatar Kheda (CT).

TABLE 46 : PROPORTION OF SLUM POPULATION IN TOWNS, 2001

Serial number	Name of the Town	Total population	Slum population	Percentage of slum population to total population
1	2	3	4	5
1	Damoh	127,967	27,813	21.7
2	Hatta	28,514	21,000	73.6
3	Hindoria	14,429	8,183	56.7
4	Patharia	17,185	4,791	27.9
5	Tendukheda	11,229	10,612	94.5
	District Total	199,324	72,399	36.3

Table 46 presents the proportion of slum population in the towns of the district. Out of the total 199,324 urban population 72,399 persons constitute slum population which is 36.3 percent of total urban population. Tendukheda has the highest (94.5 percent) and Damoh town has lowest (21.7 percent) of slum population.

TABLE 47 : MOST IMPORTANT COMMODITY EXPORTED OUT OF AND MANUFACTURED IN TOWNS, 2001

Serial number	Name and urban status of Town	Most important commodity	
		Manufactured	Exported
1	2	3	4
1	Bansatar Kheda (CT)	Bidi	Soyabean
		-	Paddy
		-	Wheat
2	Damoh (M)	Bidi	Bidi
		Pulses	Coal
		Soyabean Oil	Pulses
3	Hatta (M)	Brass Utensils	Wheat
		Bidi	Bidi
		Silver Jewellery	Pulses
4	Hindoria (NP)	Bidi	Bidi
		Bronze Utensils	Vegetables
		Bricks	Pan
5	Patharia (NP)	Soyabean Oil	Soyabean
		Gram pulses	Gram pulse
		Linseed Oil	Lin Seed Oil
6	Tendukheda (NP)	Bidi	Bidi
		Bricks	Mahua
		-	-

Table 47 indicates most important articles manufactured and exported out of each town in the district. The commodities manufactured are bricks, bidi, pulses, soyabeen oil, brass utensils, silver jewellery and gram under pulses etc. Wheat, gram, bidi, soyabean, paddy, coal, pan (betel leaf) of, *mahua* etc. are the other important commodities which are exported by different towns.

(x)Brief analysis of the data on houses and household amenities, Houselisting Operations, Census of India 2001 based on Inset tables 48-52.

Inset tables 48-52 are based on Houselisting data pertaining to Census 2001. These tables reflect the tenure status, distribution of households living in permanent, semi-permanent and temporary houses, percentage of households having different amenities and percentage of households by type of fuel used for cooking.

TABLE 48 : HOUSEHOLDS BY TENURE STATUS AND NUMBER OF ROOMS OCCUPIED IN THE DISTRICT, 2001

	District Total	222,743	185,483	37,260	48,295	40,622	7,673	29,171	28,226	945

Data source : Census of India 2001, H-series: Tables on Houses, Household amenities and Assets.

The data presented in table 48 depicts number of households by tenure status and number of rooms occupied in the district. The total number of households in the district stands at 222,743 consisting of 185,483 rural and 37,260 urban households. 48,295 households belong to Scheduled Castes, 29,171 to Scheduled Tribes. 207,013 households are living in their own houses constituting 92.9 percent of total households. Of these households, the largest number of households (98,192) have occupied single room accommodation and is followed by double room accommodation numbering to 65,670 households. Next position is claimed by households 20,602 occupying three room accommodation. Number of households in owned accommodation occupying three plus rooms rank at fourth place with 19,722 households while 2,827 households are without any exclusive room.

10,541 households living in rented accommodation accounts for 4.7 percent of total number of households in the district. The largest number of 4,065 households are living in single room accommodation followed by 4,057 households in double room accommodation. Next position is claimed by households 1,595 occupying three rooms accomodation. 709 three plus and no exclusive rooms are 115 in numbers.

Other households numbering to 5,189 forming only 2.3 percent of total households are distributed in single roomed accommodation numbering 2,866, 1,384 double room and 447 in three room accommodation. 296 three plus and no exclusive room are 196 in numbers.

TABLE 49 : PERCENTAGE DISTRIBUTION OF HOUSEHOLDS LIVING IN PERMANENT, SEMI-PERMANENT AND TEMPORARY HOUSES, 2001

Serial number	District/ Tahsil	Total			Rural			Urban		
		Permanent	Semi-permanent	Temporary	Permanent	Semi-permanent	Temporary	Permanent	Semi-permanent	Temporary
1	2	3	4	5	6	7	8	9	10	11
1	Hatta	53.0	45.8	1.1	44.5	54.1	1.4	89.3	10.6	0.1
2	Patera	37.5	61.8	0.7	37.5	61.8	0.7	0.0	0.0	0.0
3	Batiyagarh	64.9	33.6	1.5	64.9	33.6	1.5	0.0	0.0	0.0
4	Patharia	67.0	32.4	0.6	64.6	34.7	0.7	87.4	12.3	0.3
5	Damoh	60.5	38.2	1.3	59.1	40.2	0.7	62.3	35.6	2.1
6	Jabera	61.5	38.2	0.3	61.5	38.2	0.3	0.0	0.0	0.0
7	Tendukheda	83.0	16.7	0.3	83.8	15.9	0.3	73.8	25.9	0.3
	District Total:	61.3	37.8	0.9	59.8	39.4	0.8	68.7	29.7	1.6

The data presented in table 49 reveals that 61.3 percent of household of the district are living in houses made of pucca materials, residences of 37.8 percent households are semi permanent houses and 0.9 percent households are temporary houses.

District-wise percentage in urban areas indicates that majority of households i.e. 68.7 percent are living in houses constructed of pucca materials, 29.7 percent in semi-permanent structure and percentage of households in temporary houses is 1.6 constructed of kutcha materials. At rural level, the lowest percentage of 37.5 households occupying permanent structure is found in Patera while highest percentage of 83.8 is seen in Tendukheda tahsil. The proportion of semi-permanent houses is high in Patera (61.8) and low in Tendukheda (15.9) tahsil. The proportion of temporary houses is quite low in all tahsils and highest is 1.5 percent in Batiyagarh followed by Hatta (1.4) tahsil, Patera (0.7) tahsil, Patharia (0.7) tahsil, Damoh (0.7) tahsil, Jabera (0.3) tahsil and Tendukheda (0.3) tahsils.

Data source : Census of India 2001, H-series: Tables on Houses, Household amenities and Assets.

Table 50 indicates that 40.5 percent households in the district have been provided with improved drinking water supplied from a tap or a hand-pump/tube-well, 64.7 percent households have provision of electricity in their houses. The bathroom facility is available to only 13.9 percent households within their premises . As regards rural areas, 7.8 percent households are having bathroom facility, whereas this proportion in urban areas comes to 43.9 percent. 59.6 percent rural households have facility of electricity against 90.2 percent in urban areas. Toilet and drainage facilities in the district are available to 13.9 percent and 18.3 percent households respectively. Their percentage is higher in urban areas as compared to rural areas. The trend of these amenities available to the households at tahsil level almost confirms to the district pattern analysed.

Percentage in brackets

Data source: Census of India 2001, H-series: Tables on Houses, Household amenities and Assets.

The percentage distribution of households by type of fuel used for cooking purposes is given in Table 51. There are nine types of fuels used for which data have been presented in the table. It is observed that fire wood is used as the most predominant fuel used for cooking by 81.6 percent households in the district. In the tahsils, this proportion varies between 67.4 percent in Patharia and 97.0 percent in Tendukheda tahsil. In rural & urban areas use of wood for cooking is very high. The next most common cooking fuel is cowdung cake which is used by 7.8 percent households in the district. This proportion in rural & urban areas is 9.3 and 0.6 percent respectively. In rural areas use of cowdung cake for cooking is high as compared to urban areas at tahsil level. There are 6.2 percent households using L.P.G in the district. Use of L.P.G for cooking by rural households comes to 1.3 percent while in urban areas its proportion is only 30.6 percent. There are 2.5 percent households using crop residue in the district. Use of crop residue for cooking by rural households comes to 2.5 percent while in urban areas its proportion is 2.1 percent, as a whole. The percentage of households using other types of fuel such as Electricity, coal/lignite, biogas, kerosene etc. is insignificant. Both in rural and urban areas wood is main fuel.

TABLE 52 : NUMBER OF HOUSEHOLDS AVAILING BANKING SERVICES AND NUMBER OF HOUSEHOLDS HAVING EACH OF THE SPECIFIED ASSET, 2001

Data source: Census of India 2001, H-series: Tables on Houses, Household amenities and Assets.

Note: Percentage is given in brackets below the number of households. Bathroom means bathroom within the house Toilet means toilet within the house. Drainage menas closed and open drainage.

This table 52 presents data for total, rural and urban areas at district/tahsil/sub-tahsil level about households availing banking services and possession of assets such radio/transistor, telephone, bicycle, scooter and car etc. by the households. There are 222,743 households in the district and among them, 50,830 households have been availing banking services. 38,675 households have Radio/Transistor. Television is possessed by 44,308 households. Telephone is available in 5,968 households. Bicycle is the most common means of transportation and is available in 82,819 households. Two wheelers such as scooter, motor cycle, moped and four wheelers like car, jeep, van are used by 13,481 and 1,744 households respectively. The picture in use of banking services and possession of assets by households at tahsil level is almost similar as analysed above for the district as a whole.

(xi) Major Social and cultural events, natural and administrative developments and significant activities during the decade.

A new tahsil Pateria was created from Hatta tahsil in which 159 villages and Patwari halkas were included vide M.P. Government notification No-F. 1-29/19/vii-8-98 dt. 24.08.98.

In 2001 census, the district stood 18th rank in area, 33rd in population size and 29th in literacy role in the state

(xii) Brief description of places of religious, historical or archaeological importance in villages and places or tourist interest in the town of the district.

Places of interests:

1. Kundalpur: Lying in the southeast part of Hatta tahsil, about 32 km from Damoh on Patera road and is named because of its position nearby circular shaped hill range which encircles the large lake called Vardhaman Sagar. On the circular hill range stand 30 temples all gleaming white on the circular hill range and 28 temples are situated at the foot of the hill range and on the bank of *Vardhamana Saga* which are very sacred to jains of Digamber sect since time immemorial. Two old Hindu temples of 7th century A. D. single slab and flat roofed pattern are situated near the *Vardhamana* Lake. Most of the ancient temples have been renovated and reconstructed during the period of last three centuries. The main interest of these picturesque places lies in the beautiful huge images, of *Rishabhanatha* and two of *Parshvanatha* in standing posture. The latter are installed on either side of the former. There is an inscription of 24 lines put up during the region of *Maharaja Chhatrasal*. In the premises of the temple on a raised platform there are two footprints about 0.152 metres in lengths and covered by a cenotaph. Out of the two temples situated near the Vardhamana lake, one is without any idol, while the other has a standing figure of Vishnu.

2. Hatta : Named after *Gond King Hatte Singh* of 11th century A. D., tahsil head quarters, 36.4 km. north of Damoh district Hatta is situated on the bank of the river Sonar, the bed of which is deep with unbroken rocks and also affords picturesque scenery. *Hata* is a Sanskrit term which means a market place. There is a ruined old fort built in the 17th century by the *Bundelas* and was subsequently enlarged and improved by the *Marathas*. There is an old temple of *Chandi Devi* which is much resorted to during epidemics.About 20.4 km. north-west of Hatta there is a village named *Barikanoda*. There are ruins of mud fort constructed by the *Raja* of *Shahgarh*. A shrine probably built in 12th century A.D. contains idols of Hindus deities.

3. Fatehpur : Lying 43.2 km. north of Damoh and 14.4 km from Hatta, Fatehpur is a large village of Hatta tahsil on the bank of a deep stream called *pater.* There are fast coloured rock paintings said to be of the prehistoric period. Nearby Fatehpur there is a village named *Piparia* containing five war memorial pillars of 12th century A.D. depicting the scene of fight. Of these five pillars two are inscribed and they record the date as Friday 11 of dark fortnight of *Aswina Samvat* 1198 corresponding to Friday, the 29 August 1141 A. D. About 6 km. north of village of Fatehpur there is a fort named *Jatashankar* built in 1643 by *Fatehsingh,* a revenue officer of the *Raja* of Sagar and after whom the village was named Fatehpur.

4. Chopra: A small village of Damoh tahsil, Chopra lies at a distance of 37 km from Damoh and near Damoh -Jabalpur Road. Chopra was formerly known as *Chopada Padi* or *Chandi Chopada*. It contains an old *jain* temple. On the pedestal of its huge image an inscription of nine lines, pertaining reign of *Narasimha deva,* dated what appears to be Samvad

1313, is curved. On a wall of same temple another description was found dated in Samved 1554. The record refers to *Sultan Gayas Shah* of Mandogarh (*Mandu*) and also stated that the place was in *Damanakanagara Mukta* (*Jagir*), which appears to be the old name of Damoh.

5. Damoh : Named after Damayanti, the wife of King Nala of Hindu mythology and the head quarters town of the district is situated 105.6 km from the Jabalpur and 76.8 km from Sagar by road. It also has a railway station on the Bina-Katni railway line of the Central Railway. It gained some importance in the 14th century under the Mohammadan supremacy over the region. The old fort (presently disappeared) of the town yielded a Persian inscription dated 1383 A. D. Another Persian record refers to the construction of breast work by Ghiyasuddin in 1480 A. D. in the name of Khalji Ghiyasuddin of Malwa (1475-1500 A. D.).The third inscription dated in 1512 A. D. (*Virkam samvat* 1570) refers to the reign of the last Khalji king of Malwa, Sultan Mahmudshah, son of Nadirshah. During Akbar's reign the territory of the district was included in the *subah* of *Malwa* and an Amil was posted at Damoh. In this central town, Akbar built two houses, Dharampur and Khairpur for the temporary lodging of the Hindu and Mohammadan religious mendicants respectively. Most of the old temples of the place were destroyed by the Mohammadans and their materials were used for the construction of a fort which too was destroyed in subsequent period. A number of old sculptures including two well carved figures of Shiva and Parvati and another standing figure probably of Vishnu, were later on collected on a platform near the *Phutera* tank. Jatashankar temple at the foot of a hillock on the outskirts of the town is most famous.

(xiii) Major characteristics of the district, contribution of the district in the form of any historical figure associated with the district.

Damoh is one of the district situated in the central part of the country and it has an ancient pilgrimage of Digamber Jain community in Hatta tahsil 32 Kms. away from the district headquarters Damoh. On the Kundalpur hill ranges there is most ancient and one of the largest sacred temple of Bade Baba. There are also 62 small Jain temples where the statue of Lord Adinath is seated in these temples. Earlier the statue of main temple was known as the 24th Tirthankar Lord Mahavir. A huge Gujrath Mahadev festival was organized here by Acharya 108 Vidhyasagar Maharaj during February 2001.

Besides the above in connection with glorious and great dignitaries who participated in independent movement. By the middle of August 1857 the principal leaders of revolt in Damoh were Raja Gangadhar of Bhangarh, Raja Devi Singh of Singrampur, Raja Tej Singh of Abhana, Pancham Singh Rathore of Karijog, Subedar Raghunath Rao of Kisanganj, Madan Guru and Subedar Govind Rao etc. During the freedom movement as well as Quit India movement two prominent leaders namely Raghubar Prasad Modi and Prem Shankar Dhagat actively participated in the movement. One Kapoor Chand, a resident of Damoh and an employer of Gun Carriage Factory stole a bomb and used it to dislocate the Railway track to disturb the British power.

During his ten months long Harijan tour commenced in November 1933 , Mahatama Gandhi visited Damoh on 2nd December 1933 via Reheli and Garahakota (Jabalpur) whom citizens of Damoh still remember.

(xiv)Scope of Village Directory and Town Directory

Village Directory :

The Village Directory is one of the traditional compilations of the census organisation and provides the consolidated picture of each village as revealed by the availability of existing amenities, land use pattern, composition of its population and other infrastructural details. This will be of immense help to identify the areas of surplus and deficit requiring the attention of planners and administrators for rescheduling the development process in appropriate direction. The format of village directory has 25 columns providing village-wise data of location, area, population, land use pattern and amenities etc.

The details of each column of village directory are explained as below :

Column-1 Serial number of the village is indicated in this column.

Column-2 gives the name of the village and permanent location code number (PLCN) assigned

to each village in serpentine manner from north-west to south direction and is essential for identification of village. The concept of permanent location code number has been introduced first time in 2001 Census by assigning eight digit number starting from the first village of the first tahsil of first district of the state to the last village of last tahsil of the last district. In the state of Madhya Pradesh first PLCN 00000100 has been assigned to village 'DANDETI in Vijaypur tahsil of Sheopur district which is the first villageof first tahsil of first district of Madhya Pradesh while the last PLCN of 05539300 has been assigned to the last village 'MATAGHAT' of the state in Lanji tahsil of Balaghat district which happen to be last as per procedure adopted for assigning location code number. The district census handbook of 1991 Census as well as updated district and tahsil maps and services of local revenue officers/officials have been used to assign the PLCN to the villages. The last two zeros are used if new villages are created out of existing villages in subsequent census. Before 2001 census, village location code number used to change from one census to other due to change in jurisdictions or creation of villages or merger of villages in urban areas. The district handbook of 1991 Census has been used as basis for filling up the name of the village including the forest and uninhabited villages. But to ensure the accuracy, the list of villages and their names were got authenticated from the respective Tahsildars of each tahsil.

Column-3 shows the area (in hectares) of the village as indicated by the State Revenue Department.

Columns – 4 and 5 gives the population and number of households in each village which facilitate the correlation between the amenities available to the population and number of households in the village.

Columns 6 to 9 deal with the amenities like education, medical, drinking water, post, telegraph and telephone etc. The information relating to these amenities were filled by the Patwari of concerned village in village directory booklet which were subsequently cross checked with district census handbook of 1991 as well as with the information collected from the various departments to ensure the accuracy of information provided. In such cases where no facility is available within a village, a dash (-) has been shown in the column and next to it in brackets, the distance from the village in broad ranges viz. upto 5 kms., 5-10 kms. and 10+ kms. of the nearest place where the facility is available has been given. This will help not only for local area planning but in regulating the provisions of goods and services as well, as to minimize the regional imbalance in the process of development. The abbreviations used to indicate these amenities have been explained separately in the subsequent section. The list of colleges, senior secondary schools, hospitals, post and telegraph offices in the district as obtained from the concerned departments are also added in the form of annexures at the end.

Column-10 shows the number of banks – Commercial banks and Co-operative banks. In addition to this, the list of banks procured from the lead bank of the district has also been added in this book.

Column-11 relates to number of credit societies, such as agricultural credit societies, non-agricultural credit societies and other cooperative societies.

Column-12 shows the number of recreational and cultural facilities viz. Cinema/video hall, sports club, stadium/auditorium facility available in the villages.

Column-13 Indicates the type of communicational amenities such as by bus, railway or navigable waterway available to the village.

Column-14 refers to the state of roads etc. leading to the village. This is useful in determining as to whether the village is approachable both in fair and foul weather by paved road, mud road, foot path and navigable water ways.

Column-15 gives the information of the nearest town and its distance in Kms. from the village in brackets from the referent village. In case, the nearest town is located in another state, the name of the state has also been furnished.

Column-16 relates to the availability of power supply to the village with purposes such as domestic, agricultural use, other purposes or for purposes which are denoted by the abbreviations.

Column-17 gives the information as to whether newspapers/magazines are received in the village.

Column-18 gives the information of most important

commodities manufactured in the village.

Columns- 19 to 23 give the details about land utilization. The land use pattern given in the village directory conforms to the pattern of classification of land use as recommended by the Ministry of Agriculture, Government of India. The Ministry of Agriculture, has recommended the maintenance of records of land use pattern under five categories. These are as follows :

i) Forests

ii) Irrigated

iii) Unirrigated

iv) Culturable waste (including Gauchar and Groves)

v) Area not available for cultivation

Forest area shown in column-19 includes all lands classed under any legal enactment dealing with forests or administered as forests, whether state owned or private and whether wooded or maintained as potential forest land. The crops raised in the forests and grazing lands or areas open for grazing within the forest is also included under the forest area.

Column 20 and 21 shows area irrigated by different sources of irrigation and un-irrigated area. These two columns cover all agricultural land which equals to net cropped area sown with crops and orchards including current and other fallow lands. In case of irrigated land, the source of irrigation has also been indicated.

Column-22 Culturable waste : This includes all lands available for cultivation whether not taken up for cultivation or taken up for cultivation once but not cultivated during the five years or more in succession. Such lands may be either fallow or covered with shrubs and jungles which are not put to any use. Lands under thatching grasses, bamboo bushes and other groves for fuel etc., which are not included under orchards or forests come under this column. All grazing lands, whether they are permanent pastures and meadows or not, village common and grazing lands within forest area are also included in this column.

Column- 23 Area not available for cultivation : This includes land not available for cultivation such as barren, unculturable land and land put to non-agricultural use. Land put to non-agricultural use stands for all lands occupied by buildings, roads and railways or under water etc. Barren and unculturable lands cover all lands like mountains and deserts which cannot be put under cultivation, except at a very high cost.

Town Directory :

The Town Directory is presented for each town in the district covering different aspects of urban life. Seven statements (I to VII) have been included for presentation of this data. The data contained in these statements are the area, population of 2001 and past censuses, growth rates, density, sex ratio, physical aspects of town, communications, municipal finances, civic, medical, educational and other amenities and trade, commerce, industry and banking facilities. It covers all the towns in the district statutorily notified as well as non-municipal towns. All the towns in the district are arranged in alphabetical order.

The data collected in these statements have largely been furnished by the municipal bodies. For non-municipal towns, the cantonment executive officers supplied the information.

Statement-I Status and Growth History :

The statement runs into 22 columns and is primarily intended to throw up a comparative picture of each town in different censuses from 1901 to 2001. Civic administration status of each town is shown under column 2 and Location Code number in column 3 whereas column 4 indicates the name of tahsil to which town belongs. While column 5 shows the name of CD block, area of each town in sq. kms. is depicted under column 6 column 7 deals with the number of households including houseless households as per the 2001 Census. Columns 8 to 18 deal with population and growth rate of the towns at different censuses from 1901 to 2001. Column 19 of the statement shows density of towns as per the 2001 Census. Columns 20 to 22 depict the sex ratio from 1981 to 2001 Census.

Statement-II Physical Aspects and Location of Towns, 1991

In this statement data on annual rainfall, maximum and minimum temperature are shown under columns 3 to 5. Columns 6 to 8 indicate the name and road distance of the state, district, sub-divisional and tahsil/sub-tahsil headquarters. Column 9 shows the name of nearest city with population of one lakh or more and columns 10 to 12 give information regarding name and road distance of the nearest railway station, bus route, navigable river/ canal (if within 10 Kms.)

Statement-III Municipal Finance, 1998-99

This statement shows the receipt and expenditure of Municipal Finance of individual towns for the year 1998-99 under different heads. There are in all 16 columns in the statement showing receipt and expenditure under different heads.

Statement IV Civic and Other Amenities, 1999

The statement displays this information under 20 columns. The amenities about which information has been incorporated are road length (with break-up by Kutcha and Pucca), system of sewerage, drainage and other related matters such as water supply, fire fighting services and electrification etc.

Statement-V Medical, Educational, Recreational and Cultural Facilities, 1999

This statement displays information under 20 heads and it intends to depict the degree of availability of medical facilities by type of institutions and number of hospital beds available in each institution. Educational facilities by level/type of courses and recreational and cultural facilities.

Statement-VI Trade, Commerce, Industry and Banking, 1999

This statement presents the information under 11 columns in respect of each town. Columns 3 to 8 indicate three most important commodities imported, exported and manufactured in the town. Information on number of banks available in the town appears under column 9. Columns 10 and 11 shows number of agricultural and non-agricultural credit societies operating in each town respectively.

Statement-VII Civic and other amenities in Slums, 1999

This Statement gives the information relationg to civic and other amenities in respect of slum areas of towns, where the population exceeds 50,000 as per 2001 census. The codes used in col. 8 and 13 are the same as for statement IV.

PART A - VILLAGE AND TOWN DIRECTORY

Section I - Village Directory

(a) Notes explaining the abbreviations used in Village Directory

The "Village Directory" is one of the traditional compilations of the Census. It gives the list of villages, their location numbers, their area, population, number of households, amenities such as educational, medical, drinking water, post and telegraph, commercial and co-operative banks, agricultural non-agricultural and other credit societies, recreational and cultural facilities, communication, approach to village, nearest town with a distance, power supply availability of newspaper and magazines, most important commodity manufactured and land use of each village.

Village is a statutory recognized unit having a definite boundary and separate land records. In case, a complete village is treated as an outgrowth of urban agglomeration, data on amenities for that village, have not been given in the Village Directory but shown along with the urban component. The villages which are consider as a Census Town , the amenities data are shown in the Town Directory. For those villages which have partly merged in an outgrowth of U.A., the amenities data are shown in the Village Directory for that particular village.

The 'un-inhabited' villages (villages with no population) have been indicated as such after furnishing details in columns 1 to 3 i.e., Serial number, Name of village & location code number and area of the village against column no. 4 to 18. The land use data for such villages are shown in col. 19 to 23

The Village Directory format has 23 columns and the details given under each column are for the village are as follows:-

Columns 1 : Serial Number

Self explanatory. All the villages within the CD Block are presented serially in the ascending order of their location code number.

Columns 2 : Name and Location Code Number of village.

The name and location code number of the village are shown against these columns. This also includes the forest and uninhabited villages.

Column 3 : Area of the village

The area of the villages in hectares are given. Wherever the area figures was not furnished by the concerned department the column is left blank.

Column 4 : Total population

The total population of the village as per 2001 Census is given against this column.

Column 5 : Number of households

The number of households as per 2001 Census is given in this column.

Amenities :

In column 6 to 23, availability in respect of different amenities such as education, medical, drinking water, post office, telegraph, banks, credit societies, communication, power, approach road etc. in each village has been depicted with appropriate codes against the column concerned. Wherever the amenities are not available in the village, a dash (-) is shown in the column and next to it in brackets the distance in broad ranges viz.< 5 kms., 5-10 kms. and 10+ kms of the nearest place where the facility is available is given. Column wise details are given below :

Column 6 : Educational

Classes upto class V included in Primary School. This will include nursery school, kindergarten school. Pre-basic school, pre-primary school, junior basic school upto class V.

Classes from VI to VIII are included in the middle school.

Classes from IX and X included in High secondary school. Classes XI and XII are included in senior secondary school.

In case of composite schools like middle school with primary school or secondary school with middle school, these are also included in the number of primary and middle schools, respectively.

Accordingly any of the following types of institutions if exists within the village is shown as per codes given below :

(i)	Primary School	P
(ii)	Middle School	M
(iii)	Secondary School	S
(iv)	Senior Secondary School	PUC
(v)	College	C
(vi)	Industrial School	I
(vii)	Training School	Tr
(viii)	Adult literacy class/centre	AC
(ix)	Others (specify) e.g. Sanskrit Pathshala, Senior basic school, Navodaya Vidyalaya, Makhtab, etc.	O

More than one institution of a type in the village is indicated by the number within brackets against the abbreviation, e.g. P(3), M(4), etc.

Column 7 : Medical

Availability of medical facility within the village is indicated by following codes :

(i)	Allopathic Hospital	H
	Ayurvedic Hospital	HA
	Unani Hospital	HU
	Homeopathic Hospital	H Hom
(ii)	Allopathic Dispensary	D
	Ayurvedic Dispensary	DA
	Unani Dispensary	DU
	Homeopathic Dispensary	D Hom
iii)	Maternity & Child Welfare	MCW
(iv)	Maternity Home	MH
(v)	Child Welfare Centre	CWC
(vi)	Health Centre	HC
(vii)	Primary Health Centre	PHC
(viii)	Primary Health Sub-Centre	PHS
(ix)	Family Welfare Centre	FWC
(x)	T.B. Clinic	TB
(xi)	Nursing Home	NH
(xii)	Registered Private Medical Practitioner	RMP
(xiii)	Subsidised Medical Practitioner	SMP
(xiv)	Community Health Worker	CHW
(xv)	Others	O

More than one institution of a type in the village is indicated by the number within brackets against the abbreviations, e.g. H(3), D(4), etc.

Column 8 : Drinking Water

The type of the drinking water supply sources available within the village are indicated by codes as follows :

(i)	Tap Water	T
(ii)	Well Water	W
(iii)	Tank Water	TK
(iv)	Tubewell Water	TW
(v)	Handpump	HP
(vi)	River Water	R
(vii)	Canal	C
(viii)	Lake	L
(ix)	Spring	S
(x)	Others	O
(xi)	Summer Sorce	SS

Column 9 : Post, Telegraph and Telephone

It is indicated by codes as shown below whether within the village exists the following amenities:

(i)	Post Office	PO
(ii)	Telegraph Office	TO
(iii)	Post & Telegraph Office	PTO
(iv)	Telephone Connection	PH

Column 10: Commercial and Co-operative Banks

If the village is served by any banking service, commercial bank, co-operative bank etc.
the same is indicated in codes mentioned below along with the number of banks in brackets. If not available the distance of nearest place where the facility exist is given:

(i)	Commercial Bank	CM
(ii)	Co-operative Bank	CP

Column 11: Credit Societies

If the village enjoys the services of Credit Societies i.e. Agricultural Credit Societies, Non Agricultural Credit Society or Other Credit Societies, the same is indicated in codes mentioned below along with the number of such societies in brackets. In case the facility is not available within the village the distance of the nearest place where such facility exist is given :

(i)	Agricultural Credit Society	ACS
(ii)	Non- Agricultural Credit Society	NCS
(iii)	Other Credit Society	OCS

Column 12 : Recreational and cultural facilities

If facilities such as Cinema/Video hall, Sports Club, Stadium/Auditorium is available in the village, the same is recorded in these columns. If not available the particulars of the nearest place with the facility is recorded. The information is indicated in codes mentioned below along with the number of such facilities in brackets:

(i)	Cinema / Video Hall	CV
(ii)	Sports Club	SP
(iii)	Stadium / Auditorium	ST

Column 13 : Communications

If the village is served by any mode of public / private transport like Bus, Railway station or Navigable water ways they are to be mentioned as follows:

(i)	Bus	BS
(ii)	Railway Station	RS
(iii)	Navigable Waterway	NW

Column 14 : Approach to village

Approach to village refers to the state of road leading to village. The approach to the village is indicated in following codes :

(i)	Paved Road	PR
(ii)	Mud road	MR
(iii)	Foot path	FP
(iv)	Navigable River	NR
(v)	Navigable Canal	NC
(vi)	Navigable waterways other than River, Canal	NW

Column 15 : Nearest Town and distance

The distance is given in kilometers in brackets against the name of the town nearest to the village.

Column 16 : Power supply

Availability of Power Supply in the village, whatever may be the form of its use is given by using following codes :

(i)	Electricity for domestic use	ED
(ii)	Electricity for agricultural use	EAG
(iii)	Electricity for other purposes	EO
(iv)	Electricity for all purposes	EA

Column 17 : News Paper / Magazine

If village receives any News Paper/Magazines the same is noted in this column using following codes :

(i)	News Paper	N
(ii)	Magazine	M

Column 18 : Most important commodities manufactured

The name of three most important commodities manufactured in the village is recorded against this column.

Column 19 to 23 : Land use i.e. area under different types of land use

Land use data maintained by the State/ UT Govts. are furnished against these columns. The data concerning area under Forest, Irrigated land (by source), Un-irrigated land, Culturable waste and Area not available for cultivation in the village are shown against these columns. The area figures are given in hectare(s) up to one decimal. Desh '-' is recorded wherever the information is not made available by the concerned department. The codes used for different types of irrigation facilities available in the village are indicated below:

(i)	Government Canal	GC
(ii)	Private Canal	PC
(iii)	Well (without electricity)	W
(iv)	Well (with electricity)	WE
(v)	Tubewell(without electricity)	TW
(vi)	Tubewell(with electricity)	TWE

(vii)	Tank	TK
(viii)	River	R
(ix)	Lake	L
(x)	Waterfall	WF
(xi)	Others	O
(xii)	Total	T

The village directory also carries the following appendices.

Appendix-I It gives the abstract of educational, medical and other amenities available in villages CD Block wise of the district.

Appendix-I-A Indicates number of villages CD Block wise having one or more primary schools.

Appendix-I-B Indicates number of villages CD Block wise having primary, middle and secondary schools.

Appendix-I-C Shows number of villages CD Block wise with different sources of drinking water facilities.

Appendix-II Indicates the list of villages with 5,000 and above population which do not have one or more important amenities.

Appendix-II-A Indicates list of Census Towns which do not have one or more amenities.

Appendix-III It gives the land utilization data in respect of Census Towns / non-municipal Towns.

Appendix-IV CD Block wise list of inhabited villages where no amenity other than drinking water facility is available.

Appendix-V Summary showing number of villages having or not having Scheduled Castes population.

Appendix-VI Summary showing number of villages having or not having Scheduled Tribes population.

Appendix-VII A The appendix shows the list of villages according to the proportion of the Scheduled Castes to the total population by ranges.

Appendix-VII B The appendix shows the list of villages according to the proportion of the Scheduled Tribes to the total population by ranges.

Appendix-VIII Shows number of different types of girls school in a village.

(b) List of Villages merged in towns and outgrowths at 2001 Census

Name of the District	Name of Town	Name of Villages merged in towns	Fully/Partly Merged
Damoh	Hindoriya(NP)	Hindoriya	Fully Merged
		Chiraipani	Fully Merged

(c) CD blockwise presentation of Village Directory Data

(i) CD Block Maps showing Tahsil Boundary :

(ii) Alphabetical list of Villages alongwith location code 1991 and 2001

Serial Number	Name of village	2001 Census location code number	1991 Census location code number

4	Patharia	132	14	90	28	8
5	Damoh	230	56	141	33	5
6	Jabera	180	38	114	28	8
7	Tendukheda	180	52	103	25	4
	Total:	1,175	265	741	169	40

Appendix I-B depicts information regarding different type of educational institutions. There are 265 villages in the district which do not have any type of school facilities. 741 villages are having atleast one primary school and no middle school. 169 villages are having atleast one primary school alongwith one middle school. Similarly 40 villages are having atleast one middle school alongwith one secondary school.

APPENDIX 1C - VILLAGE DIRECTORY
VILLAGES WITH DIFFERENT SOURCE OF DRINKING WATER FACILITIES AVAILABLE

Name of the District: Damoh

Serial number	Name of C. D. block	Number of villages with different sources of drinking water available				
		Only tap	Only well	Only tube well	Only handpump	More than one source only from tap, well, tube- well, handpump
1	2	3	4	5	6	7
1	Hatta	0	7	0	2	138
2	Patera	0	2	0	1	150
3	Barigarh	0	10	0	5	110
4	Patharia	0	2	0	0	111
5	Damoh	0	14	0	4	197
6	Jabera	0	5	0	1	168
7	Tendukheda	0	6	0	3	152
	District Total:	0	46	0	16	1,026

Appendix I-C deals with the villages with different sources of drinking water facilities. There are 62 villages in the entire district which are having single source of drinking water i.e. 46 have only well and 16 villages have only handpump. There is no village having only tap and only tubewell as the source of drinking water. 1026 villages in the district are having more than one source of drinking water.

APPENDIX II - VILLAGE DIRECTORY
VILLAGES WITH 5,000 AND ABOVE POPULATION WHICH DONOT HAVE ONE OR MORE AMENITIES

Name of the District:Damoh

Serial number	Name of village	Location code number	Name of C. D. block	Popula-tion	Amenities not available (indicate N. A. where amenity not available)			Amenities not available (indicate N. A. where amenity not available)			
					Senior Secondary School	College	Primary Health Sub Centre	Tap drinking water	Bus facility	Approach by Pucca road	Comm-ercial Bank
1	2	3	4	5	6	7	8	9	10	11	12
1	Madhiyadoh	01259500	Hatta	7048	Available	N.A.	Available	N.A.	Available	Available	N.A.
2	Raneh	01266200	Hatta	5204	Available	N.A.	Available	Available	Available	Available	N.A.
3	Patera	01278000	Patera	8747	Available	N.A.	N.A.	Available	Available	Available	Available
4	Futera Kalan	01294600	Barigarh	5944	N.A.	N.A.	Available	Available	Available	Available	Available
5	Batiyagarh	01295900	Barigarh	7703	Available	N.A.	N.A.	Available	Available	Available	Available
6	Bansa Kalan	01304300	Patharia	6263	Available	N.A.	Available	Available	Available	Available	N.A.
7	Narsinghgarh	01312400	Patharia	5584	N.A.	N.A.	Available	Available	Available	Available	Available
8	Nohta	01344500	Jabera	5890	Available	N.A.	Available	Available	Available	Available	Available
9	Jabera	01354500	Jabera	6626	Available	Available	Available	Available	Available	Available	Available

Appendix II deals with the villages having 5,000 & above population which do not have one or more amenities in the district. In all 9 villages of Damoh district have population above 5,000 which are namely Madhiyadoh and Raneh inHatta CD Block. Patera in Patera, Futera Kalan and Batiyagarh in Barigarh. Bansa Kalan and Narsinghgarh in Patharia. Nohta and Jabera in Jabera CD Block. Senior secondary school is available in all of these villages except in Futera Kalan and Narsinghgarh, Whereas College facility is not available in all these villages except in Jabera, Primary health sub centres are available in most of the villages except in Patera and Batiyagarh. Tap drinking water facility is available all these villages except in Madhiyadoh. Commercial bank facility is available in some of these villages except in Madhiyadoh, Raneh and Bansa Kalan. However Bus servicve and Approach by pucca road is available in all these villages.

APPENDIX II - A VILLAGE DIRECTORY
CENSUS TOWNS WHICH DO NOT HAVE ONE OR MORE AMENITIES

Name of the District: Damoh

Serial number	Name of census town	Location code number	Name of C. D. block	Population	Amenities not available (indicate N. A. where amenity not available)			Amenities not available (indicate N. A. where amenity not available)			
					Senior Secondary School	College	Health Centre	Tap drinking water	Bus facility	Approach by Pucca road	Banks
1	2	3	4	5	6	7	8	9	10	11	12
1	Bansatar Kheda		41205000	5,027	N.A.	N.A.	N.A.	Available	N.A.	N.A	Available

Appendix II-A shows the details of availability or non-availability of certain amenities in the Census towns of the district. It is seen that there is only one Census town named Bansatar Kheda(41205000) in the district. Senior Secondary School, College, Health Centre, Bus facility and approach by Pucca Road are not available in this town whereas this census town does have Tap drinking water and Bank facilities.

APPENDIX III - VILLAGE DIRECTORY

LAND UTILISATION DATA IN RESPECT OF CENSUS TOWNS / NON-MUNICIPAL TOWNS

Serial number	Name of Census town and CD block within brackets	Land use (i.e., area under different types of land use in hectare)					
		Total area	Forest	Irrigated by source	Unirrigated	Culturable waste (including gauchar & groves)	Area not available for cultivation
1	2	3	4	5	6	7	8
1	Bansatar Kheda	595				Not Available	

Appendix III is meant to show the land utilizations data of Census Towns are listed as revenue villages with the District/Revenue administration. The district has only one Census Town as shown in the appendix having total area 595 hectares.

APPENDIX IV - VILLAGE DIRECTORY

SECTION II TOWN DIRECTORY

Notes Explaining the Codes Used in the town Directory

Town Directory statements (I to VII)

Statement I : Status and Growth History

Column (2) : Class, name and civic administration status of town :

Class has been introduced to facilitate analysis of town directory data at the state and all India levels. It is presented according to 2001 Census Population of the town as follows :

Population	Class
100,000 and above	I
50,000 - 99,999	II
20,000 - 49,999	III
10,000 - 19,999	IV
5,000 - 9,999	V
Below 5,000	VI

Town with a population of one hundred thousand (1,00,000)and above is treated as a city.

The civic administration status of the towns is indicated within bracket against the name of the town. The following abbreviations are used to denote civic status of town.

(I)	Municipal Corporation	M. Corp.
(II)	Municipal Committee	MC
(III)	Municipal Council	M Cl
(IV)	City Municipal Council	CMC
(V)	Town Municipal Council	TMC
(VI)	Municipal Board	MB
(VII)	Municipality	M
(VIII)	Cantonment Board/Cantonment	CB
(IX)	Notified Area	NA
(X)	Notified Town	NT
(XI)	Notified Area Committee/ Notified Area Council	NAC
(XII)	Notified Town Area	NTA
(XIII)	Industrial Notified Area	INA
(XIV)	Industrial Township	ITS
(XV)	Township	TS
(XVI)	Town Panchayat	TP
(XVII)	Nagar Panchayat	NP
(XVIII)	Town Committee/ Town Area Committee	TC
(XIX)	Small Town Committee	ST
(XX)	Estate office	EO
(XXI)	Gram Panchayat	GP
(XXII)	Census Town	CT

Others columns need no comments.

Statement II - Physical Aspects and Location of towns, 1999.

Column 3 to 5 : Physical Aspects

In this columns the Rainfall and Maximum & Minimum Temperature of the town is recorded.

Column 6, 7 and 8 :

Name of the State headquarters, District headquarters and Sub-Divisional headquarters with distance from the referent town in kilometers, is to be recorded respectively. If the names mentioned in these columns are the same as the referent town itself, the distance is recorded as (0) zero.

Column 9& 10 :

Name of the nearest city with one lakh and more and five lakhs and more population are recorded.

Column 11, 12 and 13 :

If referent town enjoys the facility of railway station, bus route facility or navigable river/canal. Its name is to be mentioned. If not available, then the name of nearest place with distance, where such facility exists is to be mentioned.

Statement III : Municipal Finance 1998 – 1999

Item-wise amount of receipt and expenditure in thousand rupees, relating to municipal finance of the town for the year 1998-99 is to be recorded.

Statement IV : Civic and Other amenities, 1999

Column (1 to 5) : Self explanatory.

Column (6) : Road length (in kms.)

Information about kutcha / pucca road is to be recorded separately for the roads within the limits of the referent town.

(i)	Pucca Road	PR
(ii)	Kutcha Road	KR

Column (7) : System of Sewerage

Generally, by sewerage system is implied the network of mains and branches of underground conduits for the conveyance of sewerage to the point of disposal. Sewers that carry only household and industrial wastes are called separate sewers, those that carry storm water from roofs, streets and other surface are known as storm water drains, while those carrying both sewage and storm water are called combined sewers.

The codes used for different types of drainage system are as follows :

(i)	Sewer	S
(ii)	Open Surface Drains	OSD
(iii)	Box Surface Drains	BSD
(iv)	Sylk Drains	SD
(v)	Cesspool method	CP
(vi)	Pit System	Pt
(vii)	Others	O

Column 8 to 11 : Number of latrines

Number of various types of latrines both Public and Private are given in these columns.

Column 12 : Method of disposal of night soil

The various prevalent method of disposal of night soil are given below with codes :

Head Loads	HL
Basket	B
Wheel Barrows	WB
Septic Tank	ST
Pit System	Pt
Sewerage	S
Others	O

Column 13 and 14 : Water supply

Source and capacity of storage system. The following codes are used in these columns:

Column 13:

(i)	Tap water	T
(ii)	Tube-well water	TW
(iii)	Tank Water	TK
(iv)	Well water	W

Column 14:

(v)	Over Head Tank	OHT
(vi)	Service Reservoir	SR
(vii)	River Infiltration Gallery	RIG
(viii)	Bore Well Pumping System	BWP
(ix)	Pressure Tank	PT

The information on major source of water supply are given in column 13 and the storage capacity against each in kilo-litres (in bracket) are presented in column 14.

Column 15 : Fire Fighting Service

In case the fire fighting service is available in the referent town 'yes' is recorded. If the facility is not available within the town. The name of the nearest place having this facility with its distance from the referent town has been recorded.

Column 16 to 20 : Electrification (Number of connections)

Different types of electric connections have been shown in these columns, i.e. Domestic, Industrial, Commercial, Road lighting (points) & others.

Statement V : Medical, Educational, Recreational and Cultural Facilities, 1999

Column 1 to 3 : Self explanatory.

Column 4 & 5 :

The data covers all such medical institutions run by or aided by Government/Semi Government/Local bodies and Charitable institutions or Social agencies like the Missionaries. Where the family planning centres are attached to hospitals or maternity and child welfare centres or Primary Health Centres, may be treated as independent units and counted separately using following codes :

(i)	Hospital	H
(ii)	Dispensary	D

(iii)	Health Centre	HC
(iv)	Family Welfare Centre	FWC
(v)	T.B. Clinic	TB
(vi)	Nursing Home	NH
(vii)	Others	O

In case of more than one institutions of any type, it is indicated within brackets the number of such institution (s) e.g. D(3), NH(8), etc. The institutions have further been distinguished by providing additional codes within the bracket as given below :

Ayurvedic	A
Unani	U
Homoeopathic	Hom

Column 6 to 9 :

The codes used for these columns are as follows :

(i)	Arts only	A
(ii)	Science only	S
(iii)	Commerce only	C
(iv)	Arts & Science only	AS
(v)	Arts & Commerce only	AC
(vi)	Combined for all categories-Arts, Science and Commerce	ASC
(vii)	Law	L
(viii)	University	U
(ix)	Others	O

Column 10 : Recognized shorthand, typewriting and vocational training institutes

"Recognised" should mean recognised by some statutory authority, like education department, commerce department, labour department etc. of the government or semi government or autonomous bodies, public sector undertakings etc.

The following codes are used :

(i)	Vocational Training Institute	VT
(ii)	Shorthand	SH
(iii)	Typewriting	Type
(iv)	Shorthand & Typewriting	SH Type
(v)	Others	O

The vocational institutions like - Applied Art/ Painting college, Pharmacy college, B. Ed. College, Teacher's Training Institute, Music / Dance School, Nursing School etc. are covered under 'Others'.

Column 11 to 14: Higher Secondary/Intermediate/ Senior Secondary/PUC/Junior College level, Secondary/Matriculation, Middle Schools/ Junior Secondary and Primary Schools.

School up to class V are treated as Primary or elementary schools. These include Nursery schools, Kindergarten schools, Pre-Primary schools, Junior Basic schools upto class V and Primary schools upto class IV.

Schools upto VIII are considered as Middle school or Junior Secondary.

Schools upto class X are considered as Matriculation or Secondary schools.

Schools upto XI or XII classes are considered as Higher Secondary / Intermediate / Pre University / Junior College etc. This would cover 10+2 classes whether held in schools or college.

If there are composite schools like middle schools with primary classes or Secondary schools with Middle classes, these are also included in the number of Primary and Middle schools, respectively. For example, if in a town, there are two Primary Schools and one Middle school with Primary classes, the number of Primary schools in the town is given as three and that of Middle schools as one though there are only three educational institutions.

If there are more institutions of a type in the town, the number is indicated within bracket along with the abbreviation, e.g. P(4), M(3).

Column 15 : Adult literacy class/centres

This column has been introduced keeping in view the Minimum Needs Programme of the Planning Commission. There are number of Adult Education Centres which are included in these columns.

If an educational facility is not available in the town, the name of the nearest place and its distance in kilometres from the town where the facility is available is mentioned.

Column 16 : Working Women's hostels with number of seats

The number of working women's hostel if available in the referent town is mentioned with number of seats. If the facility is not available in the town the

name of nearest place with distance where the facility is available is recorded.

Column 17 to 19 : Recreational and Cultural Facilities

Stadium, Cinema, Auditorium/Drama/Community Hall are covered under recreational & cultural facilities. The particulars of permanent recreational facilities are considered for these columns.

Column 20 : Public Libraries, Reading Rooms

Number of public libraries and reading rooms available in the referent town are recorded in codes as follows :

(i)	Public Library	PL
(ii)	Reading room	RR

Statement VI : Trade, Commerce, Industry and Banking, 1999

Column 3 to 8 : Name of three most important commodities exported and names of three most important commodities manufactured in the town are recorded.

Column 9 : Number of Banks

Number of Banks available in the referent town both Commercial and Co-operative banks are recorded against this column.

Column 10 & 11 : **Number of Agricultural Credit Societies and Non Agricultural Credit Societies**

The total number of Agricultural Credit Societies and Non Agricultural Credit Societies in the referent town are recorded against these columns.

Statement VII : Civic and other Amenities in Slums, 1999

This is the statement on civic and other amenities in all slums whether notified or not and for all towns having statutory bodies, like municipality, Municipal Corporation, Town area committee etc.

PART B - PRIMARY CENSUS ABSTRACT

Brief note on Primary Census Abstract

The first census of the third millennium and twenty first century the Census of India, 2001 was the 14th continuous and uninterrupted Indian census since 1872. Thus, 2001 Census will provide data on population and its characteristics marking transition from one century and millennium to another.

The gigantic operation of Population Enumeration (considered by many to be the single largest and complex peace time administrative exercise in the world) was made possible due to the door to door universal canvassing of the Household Schedule by about 2 million enumerators and supervisors covering 593 districts, 5,463 sub-districts, 5,161 towns and 638,588 villages. The comprehensive Household Schedule which replaced the individual slip had three parts and two sides A and B. Part I contained the Location Particulars; Part II related to the Individual Particulars and Part III contained questions for Household engaged in Cultivation/Plantation. The part II of the Household Schedule had 39 columns and 23 questions all of which were universally canvassed and no sampling was resorted to during enumeration.

Data Processing

A quantum leap was made in the technology front while processing the Census 2001 data both for Houselisting and Population Enumeration. The Census schedules for both the phases were scanned through high speed scanners in fifteen data centers across the country and hand-written data from the schedules were converted into digitized form through Intelligent Character Reading (ICR) software for creation of ASCII records for further processing. The designing and formatting of the Household Schedule had to be done very carefully using specialized software so as to ensure uniformity, which was an essential pre-requisite for scanning. The selection of appropriate state-of-art technology in data processing has made it possible to produce all the Houselisting as well as Population Enumeration tables on full count basis for the first time in the history of Census. For Census 2001, about 202 million schedules consisting of about 1,028 million records were scanned and processed within a span of only 10 months starting October, 2002.

Task Force on Quality Assurance

After the data is processed, it is expedient on the part of the data producing agency to satisfy itself about its quality before putting the same in public domain. This has to be done mainly through the process of internal consistency, comparison with similar data in the past and also through validation with likewise data if available, from external sources. Quite often the local knowledge and perception has to be brought into play to understand both the existing and the new emerging trends of population distribution and characteristics. The other very important aspect of the data quality is to ensure complete coverage of all geographical areas especially for the population enumeration phase where the data is disseminated right up to the village level in the rural areas and the ward level in the urban areas. Thus ensuring the complete coverage and correct geographical linkage of each enumeration block was one of the major planks of the quality control, specially for small area population statistics.

A very comprehensive check and edit mechanism was put in place to objectively examine the preliminary Census 2001 Population Enumeration results and finally clear them for use. The responsibility of the final clearance of data was with the Task Force on Quality Assurance (TFQA), headed by the Registrar General and Census Commissioner, India. The other members of the TFQA were the Heads and senior officers of the Census Division, Data Processing Division, Map Division, Demography Division and Social Studies Division. The Directors of Census Operations were co-opted as members whenever the TFQA discussed the data for their States/Union territories. The Directors and their senior officers were required to make detailed presentations of data for their own state both in respect to the quality and the coverage and only after the full possible cleared.

There has been a major departure in Census 2001 from the past in respect of the procedure followed for finalization of the Scheduled Castes and the Scheduled Tribes population. In the earlier censuses, the total Scheduled Castes and Scheduled Tribes populations were finalized at the time of the manual compilation of the Primary Census Abstracts (PCA) at the Regional Tabulation Offices which were

specially set up for this purpose. The individual Scheduled Castes and the Scheduled Tribes population for each state was finalized much later based on manual coding done by the coders. In 2001 Census, each individual Scheduled Caste and the Scheduled Tribe have been coded directly on the computers by the Data Entry Operators through a process known as Computer Assisted Coding (CAC) and taken up along with the processing of PCA data. The CAC process involves pulling down, from the relevant dictionary of the Scheduled Castes and the Scheduled Tribes, on the computer screen and coding from the dictionary by referring to the image of the specific individual entry in the Household Schedule appearing on the screen. The CAC of the response on Religion wherever required, was also undertaken along with the processing of PCA. This is because the Scheduled Castes status had to be determined in relation to the religion of the individual. Two Special Task Forces, one on Religion and the other on Scheduled Castes/ Scheduled Tribes were constituted for scrutiny and appropriate classification of these responses.

The main task of the Special Task Force on Religion was to appropriately merge or group the new responses encountered and code it into the appropriate religious community based on available literature and local knowledge. The Special Task Force on Scheduled Castes and Scheduled Tribes examined the different Scheduled Castes and Scheduled Tribes entries encoun-tered and classified these into appropriate category of the Scheduled Castes or the Scheduled Tribes principally based on the Presidential Notification and the available literature. Thus a very systematic and scientific mechanism was operationalised to firm up the individual religion and the individual Scheduled Castes/Tribes returns. The Scheduled Castes and the Scheduled Tribes population in 2001 Census, is thus being finalized by aggregating the population data for individual Scheduled Castes and the Scheduled Tribes at appropriate geographical levels.

The entire work relating to the data validation and scrutiny was completed by all the States/Union Territories under the overall supervision and monitoring of the Census Division of the Office of the Registrar General, India with active cooperation and support of the Social Studies Division, Data Processing Division, Data Dissemination Division and Map Division.

Primary Census Abstract

The Primary Census Abstract which is yet another important publication of 2001 Census gives basic information on Area, Total Households, Total population, Scheduled Castes, Scheduled Tribes population, Population in the age group 0-6, Literates, Main workers and Marginal workers classified by the four broad industrial categories, namely, (i) Cultivators, (ii) Agricultural laborers, (iii) Household Industry Workers, and (iv) Other workers and also Non-workers. The characteristics of the Total Population includes Scheduled Castes, Scheduled Tribes, Institu-tional and Houseless population and are presented by sex and rural-urban residence. This data is presented at different levels, namely, India, States/Union territories, Districts and Cities, Urban Agglomerations (Population 1,00,000 and above) in three different tables. In addition, the Appendix of said publication provides Houseless and Institutional Households and their population by residence and sex for 2001 for India, State and Union territory.

Apart from the India and State/Union Territory volumes for Primary Census Abstract, the District Census Handbook contains District Primary Census Abstract, Appendix to District Primary Census Abstract, Primary Census Abstract for Scheduled Castes, Primary Census Abstract for Scheduled Tribes, Village Primary Census Abstract and Urban Primary Census Abstract of the concerned district in the state.

It was for the first time at the 1981 Census that the Primary Census Abstract (PCA) was brought out for the Scheduled Castes and the Scheduled Tribes separately on the pattern of General Primary Census Abstract. This practice was continued in 1991 also. In the 1961 and 1971 Censuses, such data were made available in Table C-VIII-Social and Cultural table and to some extent in the series 'Special Tables for Scheduled Castes/Scheduled Tribes'.

The format of Primary Census Abstract has been restructured slightly in the 2001 Census as compared to that of 1991 Census. The nine-fold industrial classification of main workers given in the Primary Census Abstract of 1991 Census has been discontinued and its place, four-fold industrial classification of both 'main workers' and 'marginal workers' are included. In

1981 census only main workers were presented in to four categories. One of the novel features of the primary census abstract of 1991 census was the presentation of data of the population of age group 0-6 is continued in 2001 Census also. This will help the data users in better analysis and understanding of this literacy data.

Level of presentation in District Census Handbooks:

The Primary Census Abstract data in different PCAs are presented at different levels. The level of presentation of Primary Census Abstracts are as under:

	Name of the Primary Census Abstract	Level of presentation
1.	District Primary Census Abstract	District/CD Block/UA/City/Town
2.	Primary Census Abstract for Scheduled Castes	District/CD Block/Town
3.	Primary Census Abstract for Scheduled Tribes	District/CD Block/Town
4.	Village Primary Census Abstract	CD Block/Village wise
5.	Urban Primary Census Abstract	Town/Ward level

The PCA Data for villages was presented CD Block wise for the first time in 1991 Census. This practice is continued in 2001 Census also. The data for each CD Block is presented both for rural and urban areas separately. All the villages within the CD Block constitute the rural portion and the Census Towns and Outgrowths are shown under the urban portion of the CD Block. In case a CD Block is spread over two or more districts, than portion which falls within the district is presented, the data pertaining to remaining portion of the CD Block is presented in the concerned District Census Handbook. The data in the Urban Primary Census Abstract for each town as well as for town with outgrowths in the district are presented. The data for all the wards and the outgrowths of the town(s) are also presented separately below the concerned town(s).

The District Primary Census Abstract is presented in 59 columns. The Primary Census Abstract for Scheduled Castes and Primary Census Abstract for Scheduled Tribes are presented in 52 columns. The Village Primary Census Abstract and Urban Primary Census Abstract are presented in 58 columns.

The concepts and definitions used in the column heading are explained under the sub heading 'Census Concepts' in the Analytical Note. The term 'Total Population' includes the Scheduled Castes, the Scheduled Tribes, the Institutional and the Houseless populations. The explanation regarding area figures presented at various level in the Primary Census Abstracts are as follows:

Area Figures

The area figures supplied by local revenue authorities of the district in respect of tehsils, Police Stations and by the local bodies in respect of towns are given in square kilometers. The area figures of the villages supplied by the Tahsildars in acres have been converted and shown in hectares. The area figures of the CD Block is the total of the village areas coming under each CD Block. The area figures for the district are the same as adopted by the Surveyor General of India to maintain uniformity at the national level. The total area figures of all the tahsils/CD Blocks within the district may not tally with area figures of the district because former represents land use area only. Similarly, the total of all the villages may not tally with the entire rural of Police Station/ Tahsil. The difference may be due to the fact that while the area covered by hills, forests and rivers etc, have been accounted in the Tahsils and P.S. level the same may not be covered under the area of the villages. Apart from this it may also differ due to varying methods of computation adopted at different levels.

An appendix to District Primary Census Abstract has also been furnished showing urban enumeration block-wise particulars on Total Population, the Scheduled Castes Population and the Scheduled Tribes Population for each town.

ANNEXURE-II

NOTE ON FERTILITY, MORTALITY AND MIGRATION - 1991 CENSUS

Fertility Levels :

Births, deaths, and migration are three components of population change in any geographical unit. Fertility is a major component of population growth. In the 1991 Census, questions on fertility related to age at marriage, number of surviving children, number of children ever born alive and children born alive during the last year were canvassed to generate the table of fertility. The first three questions were asked to all ever-married women and the last question related to currently married women. The various measures of fertility worked out are based on the district level estimates of fertility and child mortality for 1991.

Mortality analysis is one of the most important branches of demographic studies. This branch deals with the demographic event of death. Since death is a biological phenomenon that occurs just once to each individual, the analysis is simpler than, say, the study of fertility wherein the event of birth can occur with varying frequency among women.

Migration is an important aspect in the area of Population Studies. There is an increase in population of any community or country due to births or in-migration, whereas there is a decrease in the population of its residents due to deaths or migration. In other words, migration is an important reason for the change in size and composition of population. Those areas are affected by migration from where migrants go or where they have gone.

The migration tables of the 1991 Census are mainly based on the questions on place of birth, place of last residence, duration of residence at the place of enumeration and reason for migration included in the individual slip. These tables generated on computer provide the distribution of population by place of birth, distribution of migrants by place of last residence, duration of residence and reason for migration. The data on intra-district, intra-state and inter-state migration streams and in-migration from abroad are presented in these tables.

ANNEXURE-III(i)

ANNEXURE III(ii)

CHILD MORTALITY RATE IN THE STATE AND DISTRICT : CENSUS 1981-1991

State : Madhya Pradesh **District: Damoh**

State / District	Year	Persons				Male				Female			
		(q1)	(q2)	(q3)	(q5)	(q1)	(q2)	(q3)	(q5)	(q1)	(q2)	(q3)	(q5)
Madhya Pradesh	1991	133	139	143	147	131	134	138	142	136	143	149	151
	1981	150	162	171	197	158	165	170	193	140	159	173	201
Damoh													
	1991	166	175	188	194	181	188	197	200	139	162	168	179
	1981	189	202	220	243	197	200	213	228	182	205	228	288

Source - Estimate of Mortality Indicators by sex at district level-M.P.1991

The above table shows that the child mortality in the state and district has decreased considerably from 1981 to 1991. The child mortality of the district for q(1), q(2), q(3) and q(5) is more than the state average.

The child mortality data of the district shows that there is a remarkable decline in the child mortality during 1981 to 1991 which is the same for state also.

On comparison it is seen that the district level mortality rate for all ages is higher than that state rates. However some inconsistencies are observed in male-female classification.The table also reflects that the female child mortality is lower than that of the male child mortality in the district showing a very positive response towards female birth.

ANNEXURE IV(I)

POPULATION OF INMIGRANTS IN THE DISTRICT BY PLACE OF BIRTH : CENSUS 2001

State- Madhya Pradesh **District : Damoh**

Birth Place	Population and Percentage		
	Persons	Male	Female
(i) Within the State but outside Enumeration place	312,509	51,893	260,616
	(97.7)	(16.6)	(83.4)
(A)Within the district but outside Enumeration place	220,901	35,377	185,524
	(69.0)	(16.0)	(84.0)
(B)Birth place in other district of State	91,608	16,516	75,092
	(28.6)	(18.0)	(82.0)
(ii) Place of Birth in other states of India than the state of Enumeration	7,036	3,077	3,959
	(2.2)	(43.7)	(56.3)
(iii) Birth place in Foreign	377	184	193
	(0.1)	(48.8)	(51.2)
(iv) Unclassified	0	0	0
	(0.0)	(0.0)	(0.0)
Total Immigrants	319,922	55,154	264,768
Persons born in the place of enumeration	764,027	515,075	248,952
Total population	1,083,949	570,229	513,720

(Source- Migration Table D-1)

Note: Percentages are given in brackets.

This table presents the number of in migrants by place of birth of enumeration within the district distributed in four classifications i.e. (i) Migration from within the state, (ii) Migration from other states of India,(iii) Migration from foreign place and (iv) Unclassified.

It is observed that the migration by birth from within the state is maximum 97.7 per cent of total migration. The migration from within the district but outside the enumeration place is 69.0 per cent whereas migration from other districts of the state is 28.6 per cent. Migration from other states is 2.2 per cent and the migration from outside India is 0.1 per cent of the total migration. It is also seen that the female migration is much higher than that of the male migration in first two classifications which is due to the migration of females after marriage.

ANNEXURE IV(II)

POPULATION OF INMIGRANTS BY PLACE OF LAST RESIDENCE : CENSUS 2001

State- Madhya Pradesh **District : Damoh**

Place of last residence	Population and Percentage		
	Persons	Male	Female
(i) Within the State but outside Enumeration place	318,326	53,599	264,727
	(97.8)	(16.8)	(83.2)
(A)Within the district but outside Enumeration place	228,486	37,003	191,483
	(70.2)	(16.2)	(83.8)
(B)From other district of State	89,840	16,596	73,244
	(27.6)	(18.5)	(81.5)
(ii) From other states of India outside enumeration state	6,723	2,939	3,784
	(2.1)	(43.7)	(56.3)
(iii) Place of residence outside India	275	138	137
	(0.1)	(50.2)	(49.8)
(iv) Unclassified	0	0	0
	(0.0)	(0.0)	(0.0)
Total Immigrants	325,324	56,676	268,648
Population of Non-inmigrants	758,625	513,553	245,072
Total population	1,083,949	570,229	513,720

Source: Migration Table D-2

Note: Percentages are given in brackets.

Migration of population by place of last residence distributed in four classifications is presented in this table. It is seen that the migration by usual place of last residence from within the state is highest 97.8 per cent of total migrated population. Within this classification, the migration from within the district is 70.2 per cent and only 27.6 per cent migration is from other districts of the state. Migration from other states of India outside enumeration state works out to 2.1 per cent of total migration and it is only 0.1 per cent from outside India. Mostly, sexwise analysis reveals much higher migration of females which is obviously due to the movement of females after marriage.

ANNEXURE IV (III)
POSITION OF INMIGRANTS FROM OTHER STATES- AS PER CENSUS 2001

State : Madhya Pradesh **District : Damoh**

Birth Place	Census 2001	
	Migrant population	Percentage of total In-migrants
1	2	3
Uttar Pradesh	2,948	41.9
Chhattisgarh	962	13.7
Rajasthan	650	9.2
Maharashtra	529	7.5
Bihar	509	7.2
West Bengal	248	3.5
Total of 6 States	5,846	83.1
Total of other States	1,190	16.9
Total	7,036	100.0

Inmigration from other states is classified in this table. 83.1 per cent of total in-migrants are from Uttar Pradesh, Chhatisgargh, Rajasthan, Maharashtra, Bihar and West Bengal whereas the remaining inmigrants from all other states together constitute only 16.9 per cent.

Total 2,948 persons have migrated from Uttar Pradesh which alone accounts for 41.9 per cent of total inmigrants. Damoh is located at the neighbouring state border of Uttar Pradesh as such the Migration from Uttar Pradesh is very high and the culture and language is homogeneous.

ANNEXURE V

DISTRIBUTION OF POPULATION BY MAIN RELIGIONS

State : Madhya Pradesh **District - Damoh**

State/District	Population	Hindu	Muslim	Jain	Christian	Buddhist	Sikhs	Others	Unclassified

		(93.6)	(3.7)	(2.4)	(0.1)	(0.0)	(0.1)	(0.0)	(0.1)
Damoh 2001	1,083,949	1,015,688	41,288	23,818	1,472	264	999	11	409
		(93.7)	(3.8)	(2.2)	(0.1)	(0.0)	(0.1)	(0.0)	(0.0)

Source :- Religion Table of Madhya Pradesh - Census 1991/2001

This annexure presents the distribution of population at district and state level pertaining to Census 1991 and Census 2001 in respect of six religions. It is observed that the proportion of Hindu and Jain population in the district is comparatively higher than that of state. Contrary to this, the proportion of Muslim, Christian, Buddhists, Sikh etc. population is lower in the district as compared to state average. The proportionate distribution of population belonging to other religions in the district is lower than the corresponding state average.

ANNEXURE VI

MARITAL STATUS OF POPULATION IN THE STATE AND DISTRICT : CENSUS 2001

State- Madhya Pradesh **District- Damoh**

State / District	Total/ Rural / Urban	Total Population	Marital Status				
			Never married	Married	Widowed	Divorced/Separated	Unspecified
Madhya Pradesh							
	Total	60,348,023	30,219,605	27,515,074	2,420,090	193,254	0
			(50.1)	(45.6)	(4.0)	(0.3)	(0.0)
	Rural	44,380,878	22,000,621	20,412,833	1,817,380	150,044	0
			(49.6)	(46.0)	(4.1)	(0.3)	(0.0)
	Urban	15,967,145	8,218,984	7,102,241	602,710	43,210	0
			(51.5)	(44.5)	(3.8)	(0.3)	(0.0)
Damoh							
	Total	1,083,949	537,966	494,693	47,987	3,303	0
			(49.6)	(45.6)	(4.4)	(0.3)	(0.0)
	Rural	879,598	429,505	408,249	39,092	2,752	0
			(48.8)	(46.4)	(4.4)	(0.3)	(0.0)
	Urban	204,351	108,461	86,444	8,895	551	0
			(53.1)	(42.3)	(4.4)	(0.3)	(0.0)

(Source- Migration Table C-2)

Note: Percentages are given in brackets.

The above table reflects that the population (49.6%) of the district comes under the unmarried class. When compared to state the percentage of unmarried population of the district is marginally lower than the state. Contrary to this the percentage of married population of the district and that of state is almost same. The state average is lower than the district in respect of widowed but it is same as in case of divorced/separated population. The proportion of unmarried persons are more in urban areas than rural but married persons are more in the rural areas as compared to the urban areas of the district.

ANNEXURE - VII

AGE, SEX AND EDUCATIONAL LEVELS AS PER 2001 CENSUS

State: Madhya Pradesh **District: Damoh**

Age Group	Total Population			Total Literates			Literates (Without educational level) and below primary			Primary

(Source- Migration Table C-8)

Note: Percentages are given in brackets.

This annexure presents the proportionate distribution of literates by different educaional levels in specific age groups. As the population in the age group 0-6 do not come within the purview of literates, it has been shown separately.

It is seen that out of 887,965 persons belonging to the age 7 and above 548,331 are literates and thus, the literacy rate of the district works out to 61.8 per cent. Similarly the male and female literacy works out to 74.7 and 47.3 per cent respectively.

174,561 persons have been recorded to attain education up to primary level in the age group 7-14 which is only 78.4 per cent of population in this age group. In the age group 15-34; 61,807 persons (17.2 per cent) are found educated up to middle, 48,714 person (13.5 per cent) upto the level of Matriculate/ Higher Secondary/ Intermediate/ Diploma Tech. and 12,421 persons (3.5 per cent) upto Graduate and above level. It may be noted that this is the group having maximum class interval and thus it has the maximum population as well. The analysis also reveals that the percentage of literates at all levels decreases with increasing age groups which explains the gradual increase in literacy rates over past ten years.

ANNEXURE VIII

DETAILS OF VARIOUS MOTHER TONGUES PREVALENT IN THE DISTRICT : CENSUS 2001

State- Madhya Pradesh **District - Damoh**

Name of Mother tongue	People who have recorded their mother tongue					
	No. of persons	Percentage to total population	Rural	Urban	Ratio

Total of all mother tongues	1,083,949	100.0	879,598	204,351	81.1	18.9

Source :- Mother Tongue Table C-16 (Census-2001)

As revealed by the above table the most prevalent mother tongue in District - Damoh is Hindi which is returned by 86.7 per cent population. Bundeli/ Bundelkhandi as mother tongue has second place after Hindi returned by 12.0 per cent population. Urdu as mother tongue has third rank with 0.6 per cent. The other prevalent mother tongues are Rajasthani, Sindhi, Gujarati and Punjabi. On analysis of rural/ urban sector it becomes clear that, in the rural belt the most prevalent language is Hindi followed by Bundeli/Bundelkhandi, Rajasthani etc. in that order. Similarly in urban sector the most prominent languages are Hindi, Bundeli/Bundelkhandi, Urdu, Sindhi etc. in that order.

ANNEXURE - IX

STATEMENT OF FIVE MAIN SCHEDULED CASTE AND SCHEDULED TRIBE IN THE DISTRICT

CENSUS 1991

State :- Madhya Pradesh **District :- Damoh**

		State:- Madhya Pradesh				District:-Damoh	
		Population	Percentage			Population	Percentage
Total		66,181,170				898,125	
(A) Scheduled Caste							
Population		9,626,679	(14.6)			180,350	(20.1)
5 Main Castes							
1.	Chamar	5,035,835	(52.3)	1.	Chamar	121,853	(67.6)
2.	Balai	876,764	(9.1)	2.	Basor	19,233	(10.7)
3.	Mahar	792,804	(8.2)	3.	Chadar	11,908	(6.6)
4.	Bhangi	267,413	(2.8)	4.	Koli	6,471	(3.6)
5.	Ganda	236,410	(2.5)	5.	Mahar	5,424	(3.0)
(A) Scheduled Tribe							
Population		15,399,034	(23.3)			111,114	(12.4)
5 Main Tribe							
1.	Gond	6,727,838	(43.7)	1.	Gond	95,621	(86.1)
2.	Bhil	3,436,743	(22.3	2.	Sonr	5,274	(4.7)
3.	Kol	781,032	(5.1)	3.	Saur	4,253	(3.8)
4.	Kanwar	667,244	(4.3)	4.	Bhil	1,319	(1.2)
5.	Oraon	544,959	(3.5)	5.	Bharia	1,281	(1.2)

The above table reveals that the total population of Scheduled Castes in 1991Census in the district was 180350 which account for 20.1 percent of the total population. The population of Chamar constituting 67.6 percent is highest in the district among Schedule Castes followed by Basor with 10.7 percent.

The population of Scheduled Tribe in the district is 111,114 forming 12.4 percent of the total population which is very less as compared to the state where the population of Scheduled Tribe is 23.3 percent. Among Scheduled Tribes, Gond population is highest with 86.1 percent while the population of Sonr, Saur and Bhil constitute 4.7 , 3.8, and 1.2 per cent respectively.
