DISTRICT CENSUS HANDBOOK
PART - A & B

DEWAS DISTRICT

VILLAGE & TOWN DIRECTORY

VILLAGE & TOWNWISE PRIMARY CENSUS ABSTRACT

Ram Singh
Joint Director
Directorate of Census Operations, Madhya Pradesh and Chhattisgarh

Bank Note Press- Dewas

Bank Note Press (BNP) at Dewas is an industrial unit of Ministry of Finance, Government of India spreading over 185 hectares of land. Conceived in 1969 but came into existence in 1973 on the Agra-Bombay National Highway is fully functional and independent unit with the state-of-an art technology on par with the world's highest standards atoned. BNP is the foremost and trendsetter unit in its category amongst 250 industrial units situated in this township. Its magnanimity is reflected in the economic stratum in and around this township. BNP is the only press note unit under the ministry of finance awarded with the ISO Certification 9001 and 14001 for making a benchmark in the Quality and Environmental Management System respectively.

Part – A : Village and Town Directory

Section I – Village Directory

(a)		Note explaining the abbreviations used in Village Directory	69-72
(b)		List of villages merged in towns and outgrowths at 2001 Census	73
(c)		CD Block wise presentation of Village Directory Data	
	(i)	Map of Tonk Khurd CD Block showing Tahsil boundary	74
		Alphabetical list of villages of Tonk Khurd CD Block along with location code 1991 and 2001	75-77
		Presentation of Village Directory data of Tonk Khurd CD Block	78-97
	(ii)	CD Block Map of Sonkatch showing Tahsil boundary	98
		Alphabetical list of villages of Sonkatch CD Block along with location code 1991 and 2001	99-101
		Presentation of Village Directory data of Sonkatch CD Block	102-127
	(iii)	CD Block Map of Dewas showing Tahsil boundary	128
		Alphabetical list of villages of Dewas CD Block along with location code 1991 and 2001	129-133
		Presentation of Village Directory data of Dewas CD Block	134-173
	(iv)	CD Block Map of Kannod showing Tahsil boundary	174
		Alphabetical list of villages of Kannod CD Block along with location code 1991 and 2001	175-179
		Presentation of Village Directory data of Kannod CD Block	180-209
	(iv)	CD Block Map of Bagli showing Tahsil boundary	210
		Alphabetical list of villages of Bagli CD Block along with location code 1991 and 2001	211-217

Pages

Presentation of Village Directory data of Bagli CD Block 218-267

(iv) CD Block Map of Khategaon showing Tahsil boundary 268

Alphabetical list of villages of Khategaon CD Block along with location code 1991 and 2001 269-273

Presentation of Village Directory data of Khategaon CD Block 274-303

(d) Appendices to Village Directory

Appendix-I : Abstract of Educational, Medical and other Amenities in Villages - CD Block level 304-307

Appendix-IA : Villages by number of Primary Schools 308

Apendix-IB : Villages by Primary, Middle and Secondary Schools 308

Appendix-IC : Villages with different sources of drinking water facilities available 309

Appendix-II : Villages with 5,000 and above population which do not have one or more amenities available 309

Appendix-IIA : Census Towns which do not have one or more amenities 310

Appendix-III : Land utilisation data in respect of Census Towns/non-municipal towns 310

Appendix-IV : CD blockwise list of inhabited villages where no amenity other than drinking water is available 310-311

Appendix-V : Summary showing number of villages not having Scheduled Castes Population 311

Appendix-VI : Summary showing number of villages not having Scheduled Tribes population 312

Appendix-VIIA: List of villages according to proportion of the Scheduled Castes to the total population by ranges 313-323

Appendix-VIIB: List of villages according to the proportion of the Scheduled Tribes to the total population by ranges 324-333

Appendix-VIII : Statement showing number of girl schools in the villages 334-336

Section II - Town Directory

(a) Note explaining the abbreviations used in Town Directory

Town Directory Statements (I to VII) 337-341

(b) Statement-I : Status and Growth History 342-343

(c) Statement-II : Physical aspects and location of Towns 344-345

(d) Statement-III : Municipal Finance 346-347

(e) Statement-IV : Civic and other amenities 346-347

(f) Statement-V : Medical, Educational, Recreational and Cultural facilities 348-349

(g) Statement-VI : Trade, Commerce, Industry and Banking 350-351

Pages

(h) Statement-VII : Civic and other amenities in slums 352-355

(i) Appendix to Town Directory : Towns showing their outgrowth with Population 356

Part - B : Primary Census Abstract

(a) Brief note on Primary Census Abstract 359-361

(b) District Primary Census Abstract (General) 362-367

(c) Appendix to District Primary Census Abstract i.e. urban blockwise figures of Total, SC and ST population 368-381

Primary Census Abstract for Scheduled Castes 382-387

Primary Census Abstract for Scheduled Tribes 388-393

CD Block wise Village Primary Census Abstract 394-525

Urban Primary Census Abstract 526-549

Annexure-I : Number of villages under each Gram Panchayat 550-593

Annexure-II : Note on Fertility, Mortality and Migration, 1991 Census 594

Annexure-III : Various measures of Fertility and mean age at marriage, 1991 Census 595-597

Annexure-IV : Percentage distribution of Migrants by place of birth/ place of last residence,2001 Census 598-600

Annexure-V : Brief account of main religion in the district/tahsils as per 2001 Census 601

Annexure-VI : Marital status of population as per 2001 Census 602

Annexure-VII : Age, Sex and Education in the district, 2001 Census 603

Annexure-VIII : Distribution of different mother tongues returned in 2001 Census 604

Annexure-IX : Statement of Five Main SC and ST in the District, 1991 census 605

Annexure-X : Hamletwise total population of villages, Census 2001 606-651

Annexure-XI : Statement of Disability in the District, Census 2001 652

Foreword

The District Census Handbook (DCHB) published by Census Organisation since 1951 census, is one of the important publications in the context of planning and development at grass-root level. The publication, which is brought out for each district, contains several demographic and socio-economic characteristics village-wise and town-wise of the district alongwith the status of availability of civic amenities, infrastructural facilities, etc.

2. The scope of the DCHB was initially confined to a few Census tables and Primary Census Abstract (PCA) of each village and town within the district. Thereafter, at successive censuses, its scope and coverage has been enlarged. The DCHB published at the 1961 census provided a descriptive account of the district, administrative statistics, census tables and a village and town directory including PCA. The 1971 census-DCHB series was in three parts: Part-A related to village and town directory, part-B to village and town PCA and Part-C comprised analytical report, administrative statistics, district census tables and certain analytical tables based on PCA and amenity data in respect of villages. The 1981 census DCHB was in two parts: Part-A contained village and town directory and Part-B the PCA of village and town including the SCs and STs PCA up to tahsil/ town levels. New features alongwith restructuring of the formats of village and town directory were added into it. In Village Directory, all amenities except electricity were brought together and if any amenity was not available in the referent village, the distance in board ranges from the nearest place having such an amenity, was given. Information on new items such as adult literacy centres, primary health sub-centres and community health workers in the village were provided so as to meet the requirements of some of the Revised Minimum Needs Programme. Information on approach to the village was provided for the first time in the village Directory so as to give the details on number of inaccessible villages in each district. In the town Directory, a statement (IV-A) on slums introduced to provide the details on civic and other amenities in the notified slums of Class I and Class II towns.

3. The 1991 census DCHB, by and large, followed the pattern of presentation of 1981 census, except the format of PCA was restructured. Nine-fold industrial classification of main workers was given against the four-fold industrial classification presented in the 1981 census. In addition, sex-wise population in 0-6 age group was included in the PCA for the first time with a view to enable the data users to compile more realistic literacy rate as all children below 7 years of age had been treated as illiterate at the time of 1991 census. One of the important innovations in the 1991 census was the Community Development Block (CD block) level presentation of village directory and PCA data instead of the traditional tahsil/taluk/PS level presentation. It was expected that the presentation of village directory and PCA data at CD block level will help the planners in formulation of micro level development plans, CD block being lowest administrative unit.

4. The present series of 2001 census DCHBs have been made more informative and exhaustive in terms of coverage and content. The village Directory has been enlarged in scope by including a number of other facilities like banking, recreational and cultural facilities, newspapers and magazines and 'most important commodity' manufactured in village. Income and expenditure of gram panchayat, wherever possible, has been provided. Apart from these, more details on distance(s) at which basic amenities are available (if not available in the village), are given. This includes educational facilities (namely primary and middle schools and college), medical facilities (viz. Allopathic Hospital, Maternity & Child Welfare Centre and Primary Health Centre), drinking water, post & telegraph (post office and phone), communication, bank, credit societies and recreational

facilities. In town Directory, the statement on slums has been modified and its coverage enlarged by including details on all slums instead of 'notified slums'. The information is given in case of all statutory towns irrespective of their class, against only Class I and Class II towns in the 1981 and 1991 censuses. The basic amenities available in the villages and towns are analysed in depth with the help of a number of cross-classified inset tables and statements. Two other significant additions in the publication are inclusion of 'motif' highlighting significant characteristic of the district and analytical notes as annexures. The analytical notes on (i) fertility and mortality and (ii) various measures of fertility and mean age at marriage are prepared based on 1991 Census. Whereas, in the notes relating to (i) percentage distribution of migrants by place of birth/place of last residence, (ii) main religions, (iii) marital status of population, (iv) age, sex and education , and (v) distribution of spectrum of mother tongue, nature and extent of changes occurred in the district in its basic socio-demographic features during the decade 1991-2001 are analysed. The eight digital permanent location code (PLCN) to all the villages and towns have been assigned keeping in view the future needs.

5. The village and town level amenity data have been collected, complied and computerised in prescribed record structure under the supervision of Shri Prabhakar Bansod, Director of Census Operations, Bhopal. Thereafter, efforts have been made to ensure comparability of the information with that of 1991 census data and the information brought out by the respective state governments in their annual reports and statistical handbooks for various years after 1991. The task of planning, designing and coordination of this publication was carried out by Shri R.G. Mitra, Deputy Registrar General (C&T) and Dr. I.C. Agrawal, Senior Research Officer of Social Studies Divisions. Dr. R.P. Singh Deputy Registrar General (Map) provided the technical guidance in the preparation of maps. Whereas, Shri Anil Kumar Arora, Deputy Director of Data Processing Division who worked under the overall supervision of Shri Himakar, Addl. Director(EDP) helped in preparation of record structure for computerisation of village and town directory data and the programme for the generation of Village Directory and Town Directory statement including analytical inset tables. The draft DCHB manuscripts received from the Census Directorates have been scrutinised in the Social Studies Division Under the guidance of Shri S.L.Jain, Deputy Director and Shri. R.K. Mehata, Assistant Director. I am thankful to all of them and others who have contributed to make this publication possible.

D.K. Sikri
Registrar General &
Census Commissioner, India

New Delhi

Preface

The District Census Handbook (DCHB) compiled by the Census organization, Government of India is one of the most valuable and usable product of the Census. As its name suggests, it is brought out for each district in the State. This publication started from the 1951 Census, but prior to this, a similar publication was released in the earlier censuses. Those publications contained only village statistics, village names and total population thereof. The 1951 Census could, therefore be said to represent a significant step forward, in the process of making detailed census statistics available down to the village level. An important achievement, for the first time in 1991 Census, was that the village level data was presented Community Development Blockwise.

The scope of District Census Handbook has undergone considerable change since 1951. This is basically due to the growing demand for more information. For the purpose of convenience as well as with a view to make the basic statistics available to the data users, as early as possible, the District Census Handbook of 1991 was brought out in a single volume as against the earlier practice of bringing it out in two parts. The volume was however divided in two parts viz. part A and part B. Part A contained the Village/Town Directory while part B contained the Primary Census Data, based on the 1991 Census count. Continuing the practice of 1991 Census, the 2001 series of the District Census Handbooks is comprised of two parts but the present series is more informative in terms of coverage and contents. Part A contains Village Directory which provides information on infrastructure amenities and land use data at village level i.e. name and location of villages, area, population, number of households, important civic amenities/facilities available in villages like educational, medical, drinking water, post, telegraph, commercial and co-operative banks, agricultural and non-agricultural credit societies, recreational and cultural facilities, communications, approach to the village, nearest town and its distance, power supply, news papers/magazine and most important commodity manufactured in the villages. Similarly, the comprehensive statements and their analysis of Town Directory provide valuable information on growth, physical, economic, civic and development aspects in respect of each town of the district. C.D. block being the lowest administrative unit for developmental planning, it is assumed that the data provided at this level would be extremely useful to the planners for formulating micro level developmental plans.

Part B of the District Census Handbook contains Village and Town Primary Census Abstract. This provides information on area, occupied residential houses, number of households, sex-wise total population. child population in age-group 0-6, Scheduled Castes and Scheduled Tribes, literates, workers, non-workers and divisions of workers into four industrial categories i.e. cultivators, agricultural labourers, workers in household industries and other workers in respect of each village and town of the district. Besides the brief history and other major characteristics of the district, inset tables and appendixes based on village directory, housing tables and PCA and their analysis added in the District Census Handbook provide glimpse of availability of amenities to villages relating to housing, assets available with households and demographic profile of population at tahsil/ C.D block level which are helpful for rural planning. Annexures giving information on religion, Scheduled Castes/Scheduled Tribes, migration, fertility, mother tongue have been included.

It has to be remembered that the villagewise area figures presented in the PCA are based on village information in the form of C-3 as furnished by the revenue authority and the “total” given for the administrative units viz community development blocks, is the total of the area figures of village coming under it while in the case of the administrative unit viz, tehsil, the “total” area shown, is based on the information furnished by the Commissioner, Land Records ,Government of Madhya Pradesh, Gwalior. In some cases the total area shown against the tahsil, may not tally with the total of the area figures of villages coming under it.

The District Census Handbook had been a joint venture of the Government of Madhya Pradesh and the Government of India. The design of 2001 District Census Handbook has been evolved centrally by the Census Commissioner, India and accordingly these books have been prepared by my office. In earlier censuses, the cost of publication of these books were borne by the State Government but now these are being printed centrally by the Census organization. In accomplishing this task we have had the whole hearted cooperation of the staff at various levels of different departments of the State Government. The data supplied by the field level officers have been comparatively checked with 1991 DCHB information and have been cross checked with the data obtained from various departments. An attempt had been made to reconcile the discrepancies by external validation to make it more reliable. I am grateful to all heads of departments of the State Government officers and staff engaged in the conduct of 2001 Census for their cooperation to accomplish this task.

The compilation of such a huge amount of varied data in a single volume requires proper planning and close monitoring. We had the honour of having enlightened guidance and encouragement of Shri J.K.Banthia, IAS, Registrar General and Census Commissioner of India. I owe special thanks to Shri. J.K.Banthia. After the repatriation of Shri J.K.Banthia to Maharashtra Government and later to come foreign assignment. We have been receiving continous guidance and support from Shri D.K. Sikri presently Registrar General and Census Commissioner, India for bringing this report out. I am grateful to him. I am thankful to Dr. R.P. Singh, DRG (Map), Shri. R.G. Mitra DRG (C&T) and Dr.I.C. Agrawal, Sr. Research Officer (S.S.) and Shri.S.L. Jain, Dy. Director of S.S. Division for providing technical guidance.

In the directorate many officers/officials contributed in the Census 2001. First of all I am grateful to the then Director of Census Operation, Madhya Pradesh & Chhattisgarh, Shri Prabhakar Bansod under whose guidance the Census 2001 was carried out successfully.

The data presented in the District Census Handbook required a concerted team work of officers and staff member of this Directorate who were involved with it at various stages of its planning, supervision, field work, computerisation, preparation of manuscript, prepration of CRC with the help of Adobe Pagemaking technique, maps and printing. I express my appreciation for the painstaking dedicated service rendered by all of them and also to the officers and staff of Data Centre, Bhopal for their untiring cooperation in finalizing the 2001 Census Data.

I shall feel greatly rewarded if the book comes to the expectation of the data users.

District Highlights - 2001 Census

1. The district occupies 23rd place in the state according to population.

2. The district occupies 20th rank in the state in terms of area having 7,020 sq.km. which is 2.3 percent of the total area of state.

3. Literacy rate of Dewas district is 61.0 percent and it occupies 31st position in the state. The female literacy rate of the district is 45.0 percent .

4. Density wise the rank of the district is 23rd in the state.

5. Ranking of the district according to the sex-ratio is 22nd in the state.

6. Female work participation of the district is 36.4 percent of total female population. Rank of the district according to female work participation is 19th .

7. Population wise largest village is Pipalrawan of Sonkatch tahsil L.C.No.02760300 with 8,159 population and there are 3 villages having population of only 2 persons.

8. Population wise largest town is Dewas (M.Corp) having population 231,672 and smallest is Loharda(NP) with 7,996 population.

9. Economy of the district is mainly dependent on .agriculture and the district is famous for Bank Note Press - Dewas.

(IV) OTHER WORKERS	Persons	6,321,630	24.5	125,325	21.6
	Males	5,274,097	32.6	108,753	31.0
	Females	1,047,533	10.9	16,572	7.2

Note :- No village is fully covered as out growths (OGs) and therefore included under the item, “Number of villages”.

Definition of Census Town :-
All places which are satisfy or expected to satisfy the following criteria are treated as Census Towns:-

i) A minimum population of 5,000;
ii) At least 75 per cent of the male working population engaged in non-agricultural pursuits, and
iii) A density of population of at least 400 per square kilometre (1,000 per square mile).

ANALYTICAL NOTE

Analytical Note

(i) History and Scope of District Census Handbook:

The District Census Handbook (DCHB), compiled by the Census Organisation, Government of India, on behalf of the State Government is one of the most valuable product of the Census. It is brought out for every district and is a very useful publication which is widely used by planners, administrators, academicians and researchers as it provides, among other things, the primary census data down to the village level.

History :

The history of the District Census Handbook could be traced from the "Village lists" brought out for every district in 1901 and "Village Statistics" for every district in 1911. This was discontinued in 1921 and 1931. In 1941, however, "Village Statistics" were brought out by the then Central Provinces and Berar Government. It was for the first time in 1951 that the practice of brining out a single volume known as District Census Handbook, giving village wise statistics and other Census tables for the districts, at the cost of the State Government, was initiated .

Scope :

The maiden publication of the District Census Handbook of 1951 contained village wise primary census data and census tables for the district. With the increasing utility and demand of statistical data for the planning process, the scope of the District Census Handbook was enhanced to a great extent in 1961 by including non-census data like climate, agriculture, animal husbandry, co-operative bank, industry, education, health, etc., apart from presenting the village wise primary census data and census tables. An introductory note giving information on historical background, physical features, soil, climate, civic administration, agriculture, industry, education, etc. together with detailed analysis on census tables was also a novel feature of the 1961 census. Maps of District and Tahsil were also included.

Publication of DCHB at the 1971 Census :

The desire to make the District Census Handbook more comprehensive in 1961, delayed the publication in some states. Therefore, in 1971, the Registrar General and Census Commissioner of India, decided to bring out DCHB in three parts viz. Part A, B and C, in order to release the maximum data as and when ready. Accordingly Part A was to contain the village wise Land Use data and the amenities and facilities available in the villages, these being part of the non-census statistics. Part B was to comprise the village wise primary census data, while in part C, the various non-census statistics at the district level and a few at tahsil level were to be presented.

However, in Madhya Pradesh, Part A and B were published in one volume, since it was economical to do so and data for both the parts had become available early. For various reasons, collection of non-census statistics took a long time and consequently, finalization of Part C was unduly delayed. Though the manuscript of Part C were allotted to different Regional Presses by the Controller, Printing and stationary, Government of Madhya Pradesh for printing. Ultimately this publication had to be abandoned due to the enormous delay in the process of its finalization and printing.

Strategy at the 1981 Census :

In 1981 census with a view to avoid delay in the publication of DCHB series, part C containing the non-census statistics, as well as the census tables for the district were dropped. The scope of the District Census Handbook was, however, enlarged by the addition of tahsil wise list of villages where no amenities were available and tahsil wise list of the villages according to the proportion of Scheduled Caste/Tribes population by ranges in the form of Appendices III and IV respectively were added since Appendices I and II were already there.

Appendix III has been helpful for planning input in areas/villages where basic infrastructure is lacking,

while Appendix IV has been helpful for planning welfare programmes for Scheduled Castes/Scheduled Tribes at micro level, particularly in relation to development oriented programmes.

In the town directory portion of DCHB Part A and additional Statement IV-A was also introduced in 1981. This statement was meant only for Class I and Class II towns and indicated the civic and other amenities in notified slums.

The inclusion of the Primary Census Abstract relating to the Scheduled Castes and Scheduled Tribes at the tahsil/town level in Part B portion of the DCHB was another important feature of 1981 Census. An appendix containing Development block wise totals of Primary Census Abstract was also presented in the DCHB series 1981 though it was not prescribed in the All India pattern.

The 1991 DCHB Series :

In the context of development planning the CD Block stay as an operational unit, the presentation of village-wise statistics at the CD Block level had been very helpful for the administrators and planners in formulating various development plans. The same had been presented CD Blockwise in 1991 Census.

The scope of the 1991 DCHB, particularly the village directory was enhanced to a great extent by the inclusion of additional information on various subjects such as inset tables on area, population and density in the districts, tahsils and towns, jurisdictional changes 1981-91 etc.

Contents of the DCHB series 2001 :

The present series of District Census Handbook consisting of two parts viz. Part A and Part B is being published in a single Volume.

Part A Village Directory :

Village Directory contains information about the name of the village with location code number, assigned to it by the Census Organisation, geographical area of the village, total population and number of households in the village, amenities like education, medical, drinking water, post and telegraphs, communications, approach to village together with distance in Km, distance from the nearest town, power supply and land use data. In addition there are eight appendix to the village Directory as under :

Appendix I : CD Block wise(rural) abstract of educational, medical and other amenities.

Appendix I-a : CD Block wise abstract of villages by number of Primary schools.

Appendix I-b : CD Block wise abstract of Villages of Primary, middle and secondary schools.

Appendix I-c : CD Block wise abstract of Villages with different sources of drinking water facilities available.

Appendix II : Villages with 5000 and above Population, which do not have one or more amenities

Appendix II-a : Census Towns which do not have one or more amenities

Appendix III : Land Utilization data in respect of Census Towns/Non Municipal Towns.

Appendix IV : CD Block wise list of inhabited villages where no amenity other that drinking water facility is available.

Appendix V : Summary showing number of villages not having Scheduled Castes Population.

Appendix VI : Summary showing number of villages not having Scheduled Tribe Population.

Appendix VII A: List of villages according to the proportion of the Scheduled Castes to the total population by ranges.

Appendix VII B: List of villages according to the proportion of the Scheduled Tribes to the total population by ranges.

Appendix VIII : Statement showing number of girls school in the villages.

Town Directory :

The Town Directory contains the following seven statements and one appendix.

Statement I : Status and Growth History

Statement II : Physical aspects and location of towns

Statement III : Municipal Finance

Statement IV : Civic and other amenities

Statement V : Medical,Educational, Recreational and cultural facilities

Statement VI : Trade, Commerce, Industry and Banking

Statement VII: Civic and other amenities in slums

Appendix to Town Directory – Towns showing their outgrowth with population.

Primary Census Abstract

Part B: -The Primary Census Abstract gives basic information on Area, Total Households, Total population, Scheduled Castes, Scheduled Tribes population, Population in the age group 0-6, Literates, Main Workers and Marginal workers classified by the four broad industrial categories, namely, (i) Cultivators, (ii) Agricultural Labourers, (iii) Household Industry Workers, and (iv) Other Workers and Non-workers. The characteristics of the Total population includes Scheduled Castes, Scheduled Tribes, Institutional and Houseless population and are presented by sex and rural-urban residence. This data is presented at different levels namely, Districts, CD blocks, Village, and UA/Towns. In addition, Ward/Enumeration blockwise population is given in the Appendix to District Primary Census Abstract.

Primary Census Abstracts for Scheduled Castes and Scheduled Tribes:

The primary Census Abstract relating to Scheduled Castes and Scheduled Tribes is also being presented separately at the CD Block-wise /Town wise. It will have the same characteristics as indicated in the Primary census Abstract to the total population.

Publication of DCHB in Regional Language :

In 1981, part A and part B of DCHB were brought out separately for every district which were printed in diglot i.e. a mixed up Hindi and English versions while in 1971, both the parts i.e. part A and part B were brought out in a single volume with simultaneous Hindi and English versions. The 1961 DCHB were however published in a single volume in English version only for district, since there were no separate parts like DCHB of 1971 and 1981 censuses. The 1951 census DCHB series were published with a mix of both Hindi and English but with a difference. That is to say that the districts belonging to the erstwhile state of Madhya Pradesh comprising the Mahakoshal Region and 2 districts of erstwhile Bhopal state has the District Census Handbook in English version only, while with respect to 16 districts of Madhya Bharat region, the DCHB were published in diglot. The DCHB of 8 districts of Vindhya Pradesh region were however published in Hindi version only.

New Features of DCHB 2001 :

The main features of Village Directory of DCHB 2001 are :

(1) For the first time eight digit continuous location code is assigned to all the villages within the state. These are the Permanent Location Code Numbers (PLCN) and starts from the first village of first Tahsil of first district of State and continue till the end of last village of last Tahsil of the last district within a state.

(2) The State codes are given in serpentine order for the first time which were assigned alphabetically in 1991 Census . As a result the State code of Madhya Pradesh which was 13 in 1991 has changed to 23 in 2001.

(3) As compared to earlier series of Village Directory addition of more useful information viz. Number of Commercial, co-operative banks and the nearest distance of availability of amenity, Agriculture and Non-Agriculture credit societies, Recreational and Cultural facilities, availability of Newspaper/ magazines and names of important commodities manufactured are included in Census 2001 for the first time in Village Directory.

(4) Annexures giving information on fertility, religion, migration, mother tongue, Scheduled Caste/Scheduled Tribe have been included in DCHB 2001.

Town Directory :

No major change has been made in Town Directory when compared to Town Directory of 1991. However, some improvement has been made in the data collection on slums of the towns having population

50,000 and more in which separate Enumeration Blocks were carved for slums during houselisting and population enumeration. In 2001 information with respect to slum areas have been collected for all towns.

The information of slums for Class I and II towns that is with population 50,000 or more was compiled in statement IV-A in Census 1991. In Census 2001, this information is compiled for all the towns irrespective of their size in statement VII.

Primary Census Abstract :

(1) Information on individuals has been collected in Household schedules and practice of collecting data on individual slip has been discontinued.

(2) For persons recorded as other workers, the information on distance of place of duty and the means of transport of place of duty are obtained in column 27 and 28 of the household schedule.

(3) The information on Disability was obtained for the first time in Census 2001 in column 15 of the household schedule.

(4) The household schedule is divided in three parts. The information on cultivation/plantation is recorded in part III of the household schedule for the first time in census 2001.

(ii) Brief History of the District :

Dewas district is named after the headquarters town, Dewas. The etymology of the name of the town is not defined. Many derive it from the nearby Goddess *Chamunda pahar*, an abode of *devi Vasini*. Some believe that the town bears the name of its founder, *Dewasa Bania* although it was identified as *Dewasabha*, located about 40 km south-east of Ujjain in the post - *Mauraya* period.

The district was under the Nemawar state, originally a *Gond* state, under Malwa. During the reign of *Mugal Empire Akbar* this part of the present district was included in Nemawar *Panchmahal* in *Sarkar* Handia of the *Subah* of Malwa. The largest Mugal unit, relevant to Dewas district, viz. Nemawar Panchmahal comprised the five *Parganas,* Nemawar, Satwas, Rajor, Kataphor and Harangaon, first three being the headquarters of *Mahals*. In early 18th century the panchmahal, formed part of the *Gond* principality of Ginnurgarh under Rani Kamlapati. After her death, in 1722 it was seized by Dost Mohammad Khan *(*Nawab of Bhopal). However, the tract was again reverted to the Mugal empire and formed part of Handia *sarkar*. In about 1740 A.D., Handia *sarkar* passed on to the Peshwa. The emperor confirmed this transfer to Peshwa in 1745. The Peshwa divided the territory between Sindhia and Holkar. *Sindhia* acquired Satwas and *Holkar,* Kataphor exclusively, while Nemawar and Rajor were shared between them and both held Harangaon on a system of joint jurisdiction. The five *Parganas,* including Satwas and Nemawar were granted by a *Sanad* to the Pindari chief by Sindhia, which was later assigned to the British in 1844 for the upkeep of Gwalior contingent. Again, it was returned to the *Marathas* in 1861 in exchange of possessions in the Deccan. Curiously enough the original panchmahals of Akbar were found to be in existence in the early twentieth century. In 1904 Haragaon *pargana* was merged in Nemawar and Satwas in Kataphor. In 1908 Nemawar *pargana* was renamed Khategaon, and Rajor as Kannod where its headquarters were already located, probably since 1906. Kataphor was abolished and merged with Kannod in 1936 where the *Maratha Subha* resided.

The town of Dewas was only a village, in Akbar's period. It was known as Nagar Nagda *Kasba* which was 5 kms. south of present Dewas and it was former capital of this state. In 1818 the lineage of the two brothers Tukoji and Jiwaji Pawar exereised joint control of the state and the joint treaty with the British Government was included by Tukoji Rao II of the senior and Anand Rao II of the Junior Branches. The two branches divided their possession in 1886 and thus the two district states Dewas Senior and Dewas Junior existed with some adjustment of other territories till their merger in the Indian Union.

These two districts chieftains with separate administration acting independently in most matters, sharing the same capital town of Dewas. Consequently upon the merger of princely states and the formation of Madhya Bharat state in 1948, there was reconstitution of boundaries. The reconstituted district was formed by merging 242 villages of two tahsils of Dewas of former senior and junior states, 452 villages of Sonkatch tahsil, 99villages of Dhar tahsil of former Gwalior state, 99 villages of Nirsimpur tahsil of

former Dhar state, one village of Jawar tahsil of former Bhopal state and the then existing tahsils of Kamod and Khategaon of former Holkar state. The district in current form came into existence since 20th June 1948.

(iii) Administrative Setup

The district comes under Ujjain division. There are six tahsils and six community development blocks in the district namely; Dewas, Sonkatch, Tonkurd, Kannod, Khategaon and Bagli. There are 459 Gram panchayats and 1058 inhabited villages in the district. There are five assembly constituencies i.e. Dewas, Sonkach, Hatpiplaya, Bagli and Khategaon. Dewas district is the part of Bhopal parliamentary constituency.

The administrative pattern of Dewas district resembles with the other districts of the state. The district is the basic territorial unit of administration in the state as well as in India. The Collector, as the head of the district administration is the key functionary of the Government, having vast powers and wide responsibilities. In many ways he is the link between the state government and the people. He is the custodian of law and order and the pivot of local administration. The collector is the chief revenue authority as well as responsible for the maintenance of land and other revenue records, for collection of the revenues on behalf of the Government and for the maintenance of law and order for which, the Collector is assisted by deputy collectors, tahsildars, *naib* tahsildars, revenue inspectors and Patwaris. The Collector is also associated with a number of other committees in the district. The most important among them is the District Advisory Committee. The Collector is also vested with statutory powers under excise act, to implement the excise and prohibition policy of the Government. Superintendent of Police is the head of police department at the district headquarters. In order to facilitate proper and smooth Judiciary and administration, there are 18 police stations and one Schedule Caste and Schedule Tribe police station.

The Judiciary is independent. At the district level there is district court headed by District and Session Judge who in turn is assisted by Civil Judges posted at tahsil level.

(iv) Physical Features

Malwa plateau extends in the north, from the foot hills of the vindhyachal range that traverses almost around the central part of the district whereas its southern part of the district lies in the Narmada valley. Dewas district is the south-eastern unit of the Indore administrative division in Madhya Pradesh state. It extends between the latitudes $23^0$17'- $24^0$20' N and longitudes $75^0$55' - $77^0$08' E. The Vindhyachal range traverses almost across the central part of the district. North of it is the vast Malwa plateau. The southern part of the district lies in the Narmada valley. Thus there are three distinct physiographic divisions in the district, viz The Malwa plateau, The Vindhyachal range, and The Narmada valley.

The Malwa plateau extends in the north from the foothills of the Vindhyachal range, and covers the northern part of Bagli tahsil and all the northern tahsils. The surface of the Malwa plateau is generally undulating in the river valley but is marked by knolls and offshoots of the Vindhyachal along the water divides. The hills are low with gentle sides, unless the sub-trapping sandstone rocks are exposed due to erosion at the top. The surface is essentially made up of trap rocks and the mantle of black cotton soil in the depressions. The Plateau is drained by Kali sindh, Chhoti Kali Sindh and Sipra rivers.

The Vindhyachal range extends from Mandvi on the west coast to the junction of the Son-Ganga valley. It runs closely along the northern bank of the Narmada, and further along the north-west of the Hiran and the Son rivers in succession, under the names, Bhander and Kaimur. The range rises at the southern margins of the great landmass, the Malwa-Bundelkhand plateau. The Vindhyan scarps enter the district from the western extremity of Bagli tahsil and cross it from west to east.

The Narmada valley extends from east to west and occupies the southern part of the district. The valley is very narrow on the right bank. The terrain is intercepted by numerous streams originating from Vindhyachal mountains.

Climate

The climate of the district is characterized by a hot summer and dry climate except in the south-west

monsoon season. The year may be divided into four seasons. The hot season is from March to the second week of June, followed by south-west monsoon season till the end of September causing 91 % of the annual rainfall, the rainiest month being July. The average rainfall increases from the west towards the east and varies from 1,021.8 mm in Sonkatch to 1,180 mm. in Kannod. Winds are light with some strengthening in the force in the latter part of the summer and during the monsoon season. October and November constitute the post monsoon or retreating monsoon season. December to February is the cold season. The mean monthly temperature rises gradually after January, usually reaching the maximum in May (45^0C) and when the heat is intense the mean daily minimum temperature of about 25^0 C. The temperature gradually falls after onset of monsoon and usually by the second week of June, the weather becomes pleasant. By the end of September when the south-west monsoon withdraws, day temperature increases but nights become progressively cooler. After October there is a rapid decrease in both the day and night temperatures. January is generally the coldest month with the mean daily maximum temperature at 26^0 C. and the mean daily minimum at about 10^0 C.

The Flora and Fauna

The flora cover is uneven in the district. In the cultivated plans of Malwa, only the sporadic survives in the form of big trees and seasonal greenery of undergrowth and grasses may be seen. On the other hand, in the north-west part of the district, a dense forest belt extends all along the Vindhyan scarps and another along the Narmada in the south-west. Under the influence of various natural and biotic factors two major climatic climaxes are found in the district. They are dry Teak (*Tactona grandis*) forests, and Dry Mixed Deciduous Forests. The good qualities of teak grow on trap from 14 to 19 metres in height and 0.9 metres in girth may be seen in the district. On other formations due to higher percentage of silic from the parent rock material, the drainage and aeration are fairly satisfactory. The most common associates of teak on trap are *Dhaora* (*Anogeissus latifolia*), *Saj* (*Terminalia tomentosa*), Semal (*Salmalia malabaricum*), Palas (*Butea monosperma*) and on Sandstones *Salai* (*Boswellia serrata*) and Anjan (*H. Denneti*). The poor quality of teak is found dry exposed localities or plains adjoining settlements, or on ill-drained clayey soils. Whereas mixed forest is confined to the poorly drained shallow soils or the higher reaches of hills, which are steep, or rugged and devoid of soil cover. The trees of *Salai* (*Boswellia serrata*), *Dhaora* (*Anogeissue latifolia*) and *Khair* (*Acacia mcatechu*) are found. The Babool (*Dendrocalamus strictus*) is commonly found in Udainagar and Punjapur ranges, in valleys, lower hill slopes and low-lying areas.

The district is rich in the variety of fauna. In the past, the district was an ideal abode of a very large wild life. On account of rampant poaching by the tribals and the elites of the cities, equipped with jeeps, wild life is restricted especially in the area covered by forest, shrubs and grasses. Tiger (*Felis tigers*) is found in the deep forests having difficult terrains, particularly in the low-lying cool sheltered valleys and near watercourses. *Sambhar* (*Cervus unicolor*) and *Chital* (*Cervus axis*) is the commonest deer in deep forests. *Chinkara* (*Gazalla bennetti*), *nilgai* (*Boselaphus tragocamalus*), and boar (*Sus cristatus*) are common in the grassy blanks. The common monkey (*Semnopithecus entells*) lives in groups in the groves near the *nala* banks. There are wild varieties of birds in the district, prominent among them being the gray partridge (*Francolinus pondicarianus*), snipe (*Capella gullinage*), peafowl (*Pair cristatus*), apart from the usual varieties of birds found almost everywhere.

Agriculture:

In general the district has alluvial soil with fairly good fertility. Total area under cultivation of crops for year 1998 was 576,740 hectares. According to the revenue records, total area of the district is 702 thousand hectares of which 206 (29.39 per cent) thousand hectares was covered with forests. The net sown area is 210,433 hectares, which is 36.49 % 35.73 % of the net-cropped area of the district is the double-cropped area and 147,666 hectares or 39.50 % of the net-cropped area is irrigated. The per hectare use of fertilizer is around 54 kg per hectare and per capita production of food grains is 319 kg per person. The gross value of agriculture production per hectare is Rs. 11,873 marginally less than the state average of Rs. 11,968.

Transport:

The district is well connected by roads to different parts of the state and the country, National Highway No. 3 Agra to Mumbai passes through the district. covering about 156 kms from Bhopal.Total length of the roads in the district is about 1,173 kilometres. Out of which more than 907 kms are pucca and 266 km surfaced roads. The total number of vehicles registered in the district were 31,946 or we can say that 32 vehicle per 1,000 population. Total number of telephone connection in the district were 1,358 during the year 1997-98.

Land Use:

The soil of the district is mostly medium black cotton soils interspersed with lighter of soil near hill sides of rivers and nullahs.

The total geographical area of the district is 70,20,000 hectares out of which forest area was 205,704 hect. The non-agriculture land was 46,157 hect., uncultivable excluding barren land is 72,965 hects, cultivable land is 2,940 hects and waste land is 2,367 hects and the land used for agriculture purpose is 576,740 hects. in the district. The agricultural land is suitable for wheat, rice, jwar, maize, pulses, sugarcane and for oil seeds.

Industry:

Dewas is one of the industrially developed district of the Madhya Pradesh. Total numbers of registered factories in the district are 409, including small and cottage industries which means that registered factories per 100 thousand population are 25. This number is well ahead of the state average of just 18. The average daily employment in these registered factories was 4,097 per 1,00,000 population. The Bank Note Press, a Central Government Organization for printing indian currency is also located in the district.

Animal Husbandry

In the year 1997-98, the total live stock of the district was enumerated as 687,157 out of which 369,642 cows, 176,627 buffaloes and other cattle wealth is 140,816 including goats, horse, donkey, camel and pigs. The poultry wealth is 106,388 including ducks. There are 13 veterinary hospitals, 29 veterinary dispensaries in the district where 150,606 animals were given treatment, 20,043 animals castrated, 151,653 cattle's vaccinated and 9,920 animals artificially inseminated.

Electricity and Power

After in 1,956, M.P. Electricity Board took up the work of electricity on a large scale to extend the benefit of electricity to rural and urban areas in order to achieve irrigation and industrial development. During the year 1997-98 the total number of consumers were 165,070; out of which 104,050 kwhs were domestic consumer, 10,106 kwhs were commercial, 2,176 kwhs were industrial, 293 kwhs for water supply, 47,963 kwhs for agriculture and 482 kwhs for street light consumptions in the district. In the year 1997-98, 765,217 K.W. electricity was consumed in the district

Fishery

In the streams of Dewas there are fishes of various species which are an important source of supplementary food for the poor and non-vegetarian villagers. In the deeper holes even upto a great height crocodiles are also seen. The fish species found in the district are *Katla, rohita, calbasu, circhina, mrigala, singhala, bata, reba, chela* and prawns etc. Tortoises of several markings on their back and others are also found in the areas of the Narmada drainage system.

Irrigation

Dewas district has poor irrigation facilities. In 1997-98 only 39.80% of gross cropped area of the district was in receipt of irrigation. 4,208 hectares by canals; 13,336 hectares by tube well; 65,529 hectares by 34,348 wells; 13,670 hectares of land by 3,129 ponds etc in the year 1997-98. By all means 147,666 hectares land was irrigated out of 576,740 hectares of gross cropped area in the district.

Gram Panchayat:

Panchayat is the basic institution of local self-governance and foundation of local administration. Under the Directive Principles of State Policy, the Constitution of India provides for the Panchayati Raj System. Madhya Pradesh Government passed M.P. Panchayat Adhiniyam 1993, which provides panchayat for villages, Janpad panchayat for blocks and district panchayat for the district. According to the M.P. Gram Sabha Adhiniyam 2001, Gram Sabha, is a constitutionally approved unit and includes all the major persons, giving

voting rights to elect Panch, Sarpanch, and members of Janpad and members of district panchayat having 10-20, 10-25 and 10-30 respectively. Constituted with the elected members, these institutions work for five years. At all level there is reservation for Scheduled Castes and Scheduled Tribes according to the population ratio. For women, one third of total seats are reserved.

Village panchayat executes the disposal of discriminating articles, water supply, public works (roads, buildings, wells, tanks) auction of market place, co-operation with governmental works, community health and development works. Janpad panchayat works for community development and integration, agriculture, social, trade, cattle breeding, fish breeding, adult-education, co-operatives, cottage industries, welfare and employment oriented programme. The district panchayat has the duty to supervise and exercise control over the Janpad and village panchayats. It also advises the state Government regarding the development works.

(v) Census Concepts

Building

A 'Building' is generally a single structure on the ground. Sometimes it is made up of more than one component units which are used or likely to be used as dwellings(residences) or establishments such as shops, business houses, offices, factories, workshops, worksheds, Schools, places of entertainment, places of worship, godowns, stores etc. It is also possible that building which have component units may be used for a combination of purposes such as shop-cum-residence,workshop-cum-residence,office-cum-residence,etc.

Usually a structure will have four walls and a roof. But in some areas the very nature of construction of houses is such that there may not be any wall. Such is the case of conical structures where entrance is also provided but they may not have any walls. Therefore, such of the conical structures are also treated as separate buildings.

Permanent houses

Houses, the walls and roof of which are made of permanent materials. The material of walls can be any one from the following, namely, galvanized iron sheets or other metal sheets, asbestos sheets, burnt bricks, stones or concrete. Roof may be made of from any one of the following materials, namely, tiles, slate, galvanized iron sheets, metal sheets, asbestos sheets, bricks, stones or concrete.

Semi-permanent houses

Houses in which either the wall or the roof is made of permanent material and the other is made of temporary material.

Temporary houses

Houses in which both walls and roof are made of materials, which have to be replaced frequently. Walls may be made from any one of the following temporary materials, namely, grass, thatch, bamboo, plastic, polythene, mud, unburnt bricks or wood. Roof may be made from any one of the following temporary materials, namely, grass, thatch, bamboo, wood, mud, plastic or polythene.

Dwelling Room

A room is treated as a dwelling room if it has walls with a doorway and a roof and should be wide and long enough for a person to sleep in, i.e. it should have a length of not less than 2 meters and a breadth of at least 1.5 meters and a height of 2 meters. A dwelling room would include living room, bedroom, dining room, drawing room, study room, servant's room and other habitable rooms. Kitchen, bathroom, latrine, store room, passageway and verandah which are not normally usable for living are not considered as dwelling rooms. A room, used for multipurpose such as sleeping, sitting, dining, storing, cooking, etc., is regarded as a dwelling room. In a situation where a census houses is used as a shop or office., etc., and the household also stays in it then the room is not considered as a dwelling room. But if a garage or servant quarter is used by a servant and if she/ he also lives in it as a separate household then this has been considered as a dwelling room available to the servant's household. Tent or conical shaped hut if used for living by any household is also considered as dwelling room.

A dwelling room, which is shared by more than one household, has not been counted for any of them. If two households have a dwelling room each but in addition also share a common dwelling room, then

the common room has not been counted for either of the households.

Census House

A 'census house' is a building or part of a building used or recognised as a separate unit because of having a separate main entrance from the road or common courtyard or staircase, etc. It may be occupied or vacant. It may be used for residential or non- residential purpose or both.

In certain peculiar situations, the manner in which buildings and census houses were identified for numbering in the field by the enumerators is described hereunder:

Sometimes a series of different buildings are found along a street which are joined with one another by common walls on either side looking like a continuous structure. These different units are practically independent of one another and are likely to have been built at different times and owned by different persons. In such cases, though the whole structure with all the adjoining units apparently appears to be one building, each portion was treated as a separate building and its constituent units as separate census houses.

On the other hand, one may come across cases, particularly in large cities of multi-storeyed ownership flats. In these cases while the structure looks like one building, different persons own the flats. In case of such multi-storeyed structures, having a number of flats owned by different persons, the entire structure was treated as one building and each flat as a separate census house.

If within a large enclosed area, there are separate buildings owned by different persons then each such building is treated as a separate building. There can be a situation where within an enclosed compound there are separate buildings owned by an undertaking or company or even government that are actually in occupation of different persons. For example, Indian Oil Corporation colony where the buildings are owned by the Corporation but these are in occupation of their employees. Each such building was treated as a separate building. But if in any one of these buildings there were flats in occupation of different households, each such flat was reckoned as a separate census house.

Sometimes if becomes difficult to apply the definition of census house strictly in certain cases. For example, in an urban area, if a flat has five rooms, each room having direct entrance from the common staircase or courtyard. By definition, this has to be treated as five census houses. If all these five rooms are occupied by a single household it was not realistic to treat them as five census houses. In such a case,'singleness' of use of these rooms along with the main house should be considered and the entire flat was treated as one census house. On the other hand, if two independent households occupy these five rooms, the first household living in 3 rooms and the second household occupying 2 rooms, then considering the use, the first three rooms together were treated as one census house and the remaining rooms as another census house. But if each room was occupied by an independent household, then each such room was treated as a separate census house.

In case of hostels, hotels, etc., even if the door of each room in which an inmate lives opens to a common verandah, staircase, courtyard or a common room, as it happens almost invariably, the entire hostel/ Hotel building was treated as one census house. but if such hostels/ hotels have out- houses or other structures used for different purposes or the same purpose, then each such structure attached to the main hostel / hotel was treated as a separate census house.

In some parts of the country, in rural areas, the pattern of habitation is such that a group of huts, located in a compound, whether enclosed or unenclosed, is occupied by one household. While the main residence may be located in one hut, other huts may be used for sleeping, as a kitchen, bath room, baithak, etc. Though each of the huts was a separates structure, they form a single housing unit and therefore, have to be treated collectively as one building and one census house. If some of the huts are used by one household and the others by a second household as residence, then the two groups of huts were treated as separate census houses. However, if there were also other huts in the compound used for other purposes and not as part of the household's residence such as, cattle shed, workshed, etc., these were treated as separate census houses.

On the other hand, in urban areas, where more than one structure within an enclosed or open compound (premises) belonging to the same person, e.g., the main house, the servant's quarter, the garage, etc., only one building number was given for this group and each of the constituent a separate census house number.

Only cases where a structure with roof and pillars has come up was treated as a building.

Village :

The basic unit for rural areas is the revenue village which has definite surveyed boundaries. The revenue village may comprise of one or more hamlets but the entire village is treated as one unit for presentation of data. In unsurveyed areas, like villages within forest areas, each habitation area with locally recognized boundaries is treated as one village.

Rural-Urban area

The data in tables on Houses, Household Amenities and Assets are presented separately for rural and urban areas. The unit of classification in this regard is 'town' for urban areas and 'village' for rural areas. In the Census of India 2001, the definition of urban area adopted is as follows:

a) All places with a municipality, corporation, cantonment board or notified town area committee, etc.

b) A place satisfying the following three criteria simultaneously:

   i) A minimum population of 5,000;

   ii) at least 75 per cent of male working population engaged in non-agricultural pursuits; and

   iii) a density of population of at least 400 per sq. km.(1,000 per sq.mile)

For identification of places which would qualify to be classified as 'urban' all villages, which, as per the 1991 Census had a population of 4,000 and above, a population density of 400 persons per sq. km. and having at least 75 per cent of male working population engaged in non-agricultural activity were considered. To work out the proportion of male working population referred to above against b) (ii), the data relating to main workers were taken into account.

Apart from these, the outgrowths(OGs) of cities and towns have also been treated as urban under 'Urban Agglomerations'. Examples of out-growths are railway colonies, university campuses, port areas, military camps, etc., that may have come up near a statutory town or city but within the revenue limits of a village or villages contiguous to the town or city. Each such individual area by itself may not satisfy the demographic criteria laid down at (b) above to qualify it to be treated as an independent urban unit but may deserve to be clubbed with the towns as a continuous urban spread. Thus, the town level data, wherever presented, also includes the data for outgrowths of such towns.

City :

Towns with population of 1,00,000 and above are called cities.

Urban Agglomeration :

An Urban Agglomeration is a continuous urban spread constituting a town and its adjoining urban outgrowths (OGs) or two or more physically contiguous towns together and any adjoining urban outgrowths of such towns. In some cases railway colonies, university campuses, port areas, etc., may come up near a city or statutory town outside its statutory limits but within the revenue limits of a village or villages contiguous to the town or city. Each such individual area by itself may not satisfy the minimum population limit to qualify it to be treated as an independent urban unit but may deserve to be clubbed with the town as a continuous urban spread. For the purpose of delineation of Urban Agglomerations during Census of India 2001, following criteria are taken as pre-requisites:

(a) The core town or at least one of the constituent towns of an urban agglo-meration should necessarily be a statutory town ; and

(b) The total population of all the constituents (i.e., towns and outgrowths) of an Urban Agglomeration should not be less than 20,000 (as per the 1991 Census). With these two basic criteria having been met, the following are the possible different situations in which Urban Agglomerations would be constituted:

   i) a city or town with one or more

contiguous outgrowths;

ii) two or more adjoining towns with their outgrowths; and

iii) a city and one or more adjoining towns with their outgrowths all of which form a continuous spread.

Household

A 'household' is usually a group of persons who normally live together and take their meals from a common kitchen unless the exigencies of work prevent any of them from doing so. Persons in a household may be related or unrelated or a mix of both. However, if a group of unrelated persons live in a census house but do not take their meals from the common kitchen, then they are not constituent of a common household. Each such person was to be treated as a separate household. The important link in finding out whether it was a household or not was a common kitchen. There may be one member households, two member households or multi-member households.

Institutional Household

A group of unrelated persons who live in an institution and take their meals from a common kitchen is called an Institutional Household. Examples of Institutional Households are boarding houses, messes, hostels, hotels, rescue homes, jails, ashrams, orphanages, etc. To make the definition more clearly perceptible to the enumerators at the Census 2001, it was specifically mentioned that this category or households would cover only those households where a group of unrelated persons live in an institution and share a common kitchen.

Houseless household :

Households who do not live in buildings or census houses but live in the open on roadside, pavements, in hume pipes, under fly-overs and staircases, or in the open in places of worship, mandaps, railway platforms, etc., are treated as Houseless Households.

Scheduled Caste and Scheduled Tribe :

Article 341 of the Constitution provides that the President may, with respect to any State or Union territory, specify the castes, races or tribes or parts of or groups within castes, races or tribes which shall for the purposes of the Constitution be deemed to be Scheduled Castes in relation to that State or Union territory. Article 342 similarly provides for specification of tribes or tribal communities or parts of or groups within tribes or tribal communities which are to be deemed for the purposes of the Constitution to be Scheduled Tribes in relation to the various States and Union territories. In pursuance of these provisions, the list of Scheduled Castes and/or Scheduled Tribes are notified for each State and Union territory and are valid only within the jurisdiction of that State or Union territory and not outside. It is important to mention here that under the Constitution (Scheduled Castes) Order, 1950, no person who professed a religion different from Hinduism was deemed to be a member of a Scheduled Caste in addition to every member of the Ramdasi, Kabirpanthi, Majhabi or Sikligar caste resident in Punjab or Patiala and East Punjab States Union were in relation to that State whether they professed the Hindu or the Sikh religion. Subsequently, in September 1956, by an amendment, the Presidential Order of 1950 and in all subsequent Presidential Orders relating to Scheduled Castes, the Hindu and the Sikh religions were placed on the same footing with regard to the specification of Scheduled Castes. Later on, as per the amendment made in the Constitution (Scheduled Castes) Order 1990, the Hindu, the Sikh and the Buddhist were placed on the same footing with regard to the recognition of the Scheduled Castes. The lists containing the names of the Scheduled Castes and the Scheduled Tribes applicable for the Census of India 2001 in the State/ Union territory are given subsquently :

List of Scheduled Castes and Scheduled Tribes

Scheduled Castes :

1. Audhelia
2. Bagri, Bagdi
3. Bahna, Bahana
4. Balahi, Balai
5. Banchada
6. Barahar, Basod
7. Bargunda
8. Basor, Burud, Bansor, Bansodi, Bansphor, Basar

9. Bedia
10. Beldar, Sunkar
11. Bhangi, Mehtar, Balmik, Lalbegi, Dharkar
12. Bhanumati
13. Chadar
14. Chamar, Chamari, Bairwa, Bhambi, Jatav, Mochi, Regar, Nona, Rohidas, Ramnami, Satnami, Surjyabansi, Surjyaramnami, Ahirwar, Chamar Mangan, Raidas
15. Chidar
16. Chikwa, Chikvi
17. Chitar
18. Dahait, Dahayat, Dahat
19. Dewar
20. Dhanuk
21. Dhed, Dher
22. Dhobi (in Bhopal, Raisen and Sehore districts)
23. Dohor
24. Dom, Dumar, Dome, Domar, Doris
25. Ganda, Gandi
26. Ghasi, Ghasia
27. Holiya
28. Kanjar
29. Katia, Patharia
30. Khatik
31. Koli, Kori
32. Kotwal (in Bhind, Dhar, Dewas, Guna, Gwalior, Bhander tahsil of Datia district, Indore, Jhabua, Khargone, Barwani, Neemuch, Mandsaur, Morena, Sheopur, Rajgarh, Ratlam, Shajapur, Shivpuri, Ujjain and Vidisha districts)
33. Khangar, Kanera, Mirdha
34. Kuchbandhia
35. Kumhar (in Chhatarpur, Datia(except Bhander tahsil), Panna, Rewa, Satna, Shahdol, Umaria, Sidhi and Tikamgarh districts)
36. Mahar, Mehra, Mehar
37. Mang, Mang Garodi, Mang Garudi, Dankhni Mang, Mang Mahasi, Madari, Garudi, Radhe Mang
38. Meghwal
39. Moghia
40. Muskhan
41. Nat, Kalbelia, Sapera, Navdigar, Kubutar
42. Pardhi (in Bhind, Dhar, Dewas, Guna, Gwalior, Bhander tahsil of Datia distt. Indore, Jhabua, Khargone, Barwani, Mandsaur, ,Neemuch, Morena, Sheopur, Rajgarh, Ratlam, Shajapur, Shivpuri, Ujjain and Vidisha districts)
43. Pasi
44. Rujjhar
45. Sansi, Sansia
46. Silawat
47. Zamral

Scheduled Tribes :

1. Agariya
2. Andh
3. Baiga
4. Bhaina
5. Bharia, Bhumia, Bhuinhar Bhumia, Bhumiya, Bharia, Paliha, Pando
6. Bhattra
7. Bhil, Bhilala, Barela, Patelia
8. Bhil Mina
9. Bhunjia
10. Biar, Biyar
11. Binjhwar
12. Birhul, Birhor
13. Damor, Damaria
14. Dhanwar
15. Gadaba, Gadba
16. Gond, Arakh, Arrakh, Agaria, Asur, Badi Maria, Bada Maria, Bhatola, Bhimma, Bhuta, Koilabhuta, Koliabhuti, Bhar, Bisonhorn Maria, Chota Maria, Dandami Maria, Dhuru, Dhurwa, Dhoba, Dhulia, Dorla, Gaiki, Gatta, Gatti, Gaita, Gond Gowari, Hill Maria, Kandra, Kalanga, Khatola, Koitar, Koya, Khirwar, Khirwara, Kucha Maria, Kuchaki Maria, Madia, Maria, Mana, Mannewar, Moghya, Mogia, Monghya, Mudia, Muria, Nagarchi, Nagwanshi, Ojha, Raj Gond, Sonjhari

Jhareka, Thatia, Thotya, Wade Maria, Vade Maria, Daroi

17. Halba, Halbi
18. Kamar
19. Karku
20. Kawar, Kanwar, Kaur, Cherwa, Rathia, Tanwar, Chattri
21. Keer (in Bhopal, Raisen and Sehore districts)
22. Khairwar, Kondar
23. Kharia
24. Kondh, Khond, Kandh
25. Kol
26. Kolam
27. Korku, Bopchi, Mouasi, Nihal, Nahul, Bondhi, Bondeya
28. Korwa, Kodaku
29. Majhi
30. Majhwar
31. Mawasi
32. Mina (in Sironj sub-division of Vidisha district)
33. Munda
34. Nagesia, Nagasia
35. Oraon, Dhanka, Dhangad
36. Panika (in Chhatarpur, Datia(except Bhander tahsil) Panna, Rewa, Satna, Shahdol, Umaria, Sidhi and Tikamgarh districts)
37. Pao
38. Pardhan, Pathari, Saroti
39. Pardhi (in Bhopal, Raisen and Sehore districts)
40. Pardhi, Bahelia, Bahellia, Chita Pardhi, Langoli Pardhi, Phans Pardhi, Shikari, Takankar, Takia
    (i) Chhindwara, Mandla, Dindori and Seoni districts
    (ii) Baihar tahsil of Balaghat district
    (iii) Betul, Shahpur and Bhainsdehi tahsils of Betul district
    (iv) Patan and Sihora tahsils and Majholi Block of Jabalpur district
    (v) Katni (Murwara) and Vijay Raghogarh tehsil and Bahoriband, Dhimarkheda Block of Katni district.
    (vi) Hoshangabad, Babai, Sohagpur, Piparia and Bankhedi tahsils and Kesla Block of Hoshangabad district
    (vii) Narsimhapur district.
    (viii) Harsud tahsil of Khandwa district.
41. Parja
42. Sahariya, Saharia, Seharia, Sehria, Sosia, Sor
43. Saonta, Saunta
44. Saur
45. Sawar, Sawara
46. Sonr

Language and Mother tongue :

As per the census concept, each language is a group of mother tongues. The census questionnaire collects information on the mother tongue of each person and mother tongue is defined as the language spoken in childhood by the person's mother to the person. If the mother died in infancy, the language mainly spoken in the person's home in childhood will be the mother tongue. In the case of infants and deaf mutes, the language usually spoken by the mother is considered as mother tongue. It is not necessary that the language spoken as mother tongue should have a script. The mother tongues returned by the respondents in census are classified and grouped under appropriate languages according to their linguistic characteristics.

Literate :

A person age 7 years and above who can both read and write with understanding in any language is taken as literate. A person who can only read but cannot write is not literate. It is not necessary that to be considered as literate, a person should have received any formal education or passed any minimum educational standard. Literacy could also have been achieved through adult literacy classes or through any non-formal educational system. People who are blind and can read in Braille are treated as literates.

Literacy rate :

Literacy rate of the population is defined as the percentage of literates in the age group seven years and above. For different age groups the percentage of literates in that age group gives the literacy rate.

Educational level :

The highest level of education a person has completed.

Work :

Work is defined as participation in any economically productive activity with or without compensation, wages or profit. Such participation may be physical and/or mental in nature. Work involves not only actual work but also includes effective supervision and direction of work. It even includes part time help or unpaid work on farm, family enterprise or in any other economic activity. All persons engaged in 'work' as defined above are workers. Persons who are engaged in cultivation or milk production even solely for domestic consumption are also treated as workers.

Reference period for determining a person as worker and non-worker is one year preceding the date of enumeration.

Main worker :

A person who has worked for major part of the reference period (i.e. six months or more during the last one year preceding the date of enumeration) in any economically productive activity is termed as 'Main worker'.

Marginal worker :

A person who worked for less than six months of the reference period (i.e. in the last one year preceding the date of enumeration) in any economic activity is termed as 'Marginal worker'.

Non worker :

A person who has not worked at all in any economically productive activity during the reference period (i.e. last one year preceding the date of enumeration) is termed as 'Non worker'.

Cultivator :

For purposes of the Census a person is classified as cultivator if he or she is engaged in cultivation on land owned or held from government or held from private persons or institutions for payment in money, kind or share. Cultivation includes effective supervision or direction in cultivation. A person who has given out her/his land to another person or persons or institution(s) for cultivation for money, kind or share of crop and who does not even supervise or direct cultivation in exchange of land, is not treated as cultivator. Similarly, a person working on another person's land for wages in cash or kind or a combination of both (agricultural labourer) is not treated as cultivator. Cultivation involves ploughing, sowing, harvesting and production of cereals and millet crops such as wheat, paddy, jowar, bajra, ragi, etc., and other crops such as sugarcane, tobacco, ground-nuts, tapioca, etc., and pulses, raw jute and kindred fiber crop, cotton, cinchona and other medicinal plants, fruit growing, vegetable growing or keeping orchards or groves, etc. Cultivation does not include the following plantation crops — tea, coffee, rubber, coconut and betel-nuts (areca).

Agricultural labourer :

A person who works on another person's land for wages in money or kind or share is regarded as an agricultural labourer. She/he has no risk in the cultivation, but merely works on another person's land for wages. An agricultural labourer has no right of lease or contract on land on which she/he works.

Household industry worker :

Household industry is defined as an industry conducted by the head of the household herself/himself and or by the members of the household at home or within the village in rural areas and only within the precincts of the house where the household lives in urban areas. The larger proportion of workers in household industry should consist of members of the household including the head. The industry should not be run on the scale of a registered factory which would qualify or has to be registered under the Indian Factories Act and should be engaged in manufacturing, processing, servicing and repairs of goods. It does not include professions such as a pleader, Doctor, Musician, Dancer, Waterman, Astrologer, Dhobi, Barber, etc. or merely trade or business, even if such professions, trade or services are run at home by

members of the household.

Other Worker :

A person who has been engaged in some economic activity during the reference period but not as a cultivator or agricultural labourer or in Household Industry is termed as a 'Other Worker (OW)'. The type of workers that come under this category of 'OW' include all government servants, municipal employees, teachers, factory workers, plantation workers, those engaged in trade, commerce, business, transport, banking, mining, construction, political or social work, priests, entertainment artists, etc. In effect, all those workers other than cultivators or agricultural labourers or household industry workers, are 'Other Workers'.

Work Participation Rate :

Percentage of workers (main + marginal) to total population

Population density :

Population density is the number of persons inhabited per square kilometre of the area.

Age :

Age is measured in terms of the completed number of years

Sex-Ratio :

Number of females per 1000 males in a population.

(vi) Non Census Concepts

Improved drinking water :

If the household had access to drinking water supplied from a tap, hand pump, tube well or well (protected or covered) situated within or outside the premises, it is considered as having access to improved drinking water. It may be mentioned that such uniform definition may not be valid across all states.

System of sewerage :

Generally, a sewerage system would mean a network of mains and branches of underground conduits for the conveyance of sewerage to the point of disposal. Sewers that carry only household and industrial wastage are called separate sewers; those that carry storm water from roofs, streets and other surfaces are known as storm water drains, while those carrying both sewage and storm water are called combined sewers. However, in some towns which are not provided with such underground sewerage system, it is served by open surface drain, box drain, silt pattern drain, etc., in these towns.

Type of latrine and Method of disposal of night soil :

There are three prevalent systems of disposal of human wastes, viz.(i) underground sewerage, (ii) sanitary water flush latrines with individual disposal systems, like septic tank, leaching cess pool and collecting well, and (iii) dry type of latrines with manual scavenging. The system of underground sewerage provides for the street sewerage with which are connected the sanitary latrines constructed in the houses having water closets and fitted with flushing cistern (or hand flushing). Through this sewer the faecal matter is transported without the need for scavenging. This system generally exists in cities and big towns. Where the streets sewer does not exist these sanitary water flush latrines are connected to a local septic tank with a sub-soil dispersion system or a leaching pit. Here the liquid wastes from the water closet is disposed of locally in leaching pit, a septic tank with a soil dispersion system is constructed. This dispersion requires an optimum travel through the pores of the soil which renders the harmful liquid bacterially innocuous by the slow process of filtration through the soil traversed. Where the soil is impermeable, collecting wells are constructed and the sanitary water flush latrines are connected with them. These wells are cleaned at periodic intervals by a suitable device. The dry type of latrines are of service type latrines from where human excreta is removed by scavengers from house to house, in most cases carrying it on their heads or shoulders or in baskets with handle or wheel barrows. These are then collected in bullock carts or trucks or tractors and trolleys for being carried to the dumping grounds.

Fertility :

In demography, the word fertility is used in relation to the actual production of children or occurrence of

births specially live births. Fertility is a measure of rate at which population adds to itself by births and normally assessed by relating the number of births to a full or part of the population, such as number of married women or number of women of child bearing age. The definitions of the terminology used in computing different fertility rates are mentioned below:

Crude birth rate(CBR) :

Ratio of the number of live births in a year to the mid year population, normally expressed per 1000 population.

$$CBR = \frac{\text{Number of live births during the year}}{\text{Mid year Population}} \times 1000$$

Crude death rate(CDR) :

Ratio of the number of deaths in a year to the mid year population, normally expressed per 1000 population.

$$CDR = \frac{\text{Number of deaths during the year}}{\text{Mid year Population}} \times 1000$$

Natural growth rate :

Growth rate is obtained as the difference between crude birth rate and crude death rate in the absence of migration.

Age specific fertility rate (ASFR) :

Number of live births in a year to female population in any specified age group normally expressed per 1000 women.

$$ASFR = \frac{\text{Number of live births in a particular age-group}}{\text{Mid year female population of the same age-group}} \times 1000$$

Age specific marital fertility rate (ASMFR) :

Number of live births in a year to married female population in any specified age group normally expressed per 1000 married women.

$$ASMFR = \frac{\text{Number of live births in a particular age-group}}{\text{Mid year married female population of the same age-group}} \times 1000$$

General fertility rate (GFR) :

Number of live births per 1000 women in the reproductive age-group (15-49) years in a given year.

$$GFR = \frac{\text{Number of live births in a year}}{\text{Mid year female population in the age-group (15-49) years}} \times 1000$$

General marital fertility rate (GMFR) :

Number of live births per 1000 married women in reproductive age-group (15-49) years in a given year.

$$GMFR = \frac{\text{Number of live births in a year}}{\text{Mid year married female population in the age-group (15-49) years}} \times 1000$$

Total fertility rate (TFR) :

It is obtained as the total of the age specific fertility rates (number of children born per woman of the particular age) for the entire reproductive age span. It provides the average number of children that will be born to a woman under the fertility levels indicated by the age specific fertility rates assuming that there is no mortality of women till the completion of reproductive period.

$$TFR = \frac{5 \times \sum_{15-19}^{45-49} ASFR}{1000}$$

Total marital fertility rate (TMFR) :

Average number of children that would be born to a married woman if she experiences the current fertility pattern throughout her reproductive span (15-49) years assuming that there is no mortality of women till the completion of reproductive period.

$$TMFR = \frac{5 \times \sum_{15-19}^{45-49} ASMFR}{1000}$$

Age-specific mortality rate (ASMR) :

Number of deaths in a particular age and sex group per 1000 population of the same age group.

$$ASMR = \frac{\text{Number of deaths in a particular age-group}}{\text{Mid year population of the same age-group}} \times 1000$$

q1 :

Probability of dying between birth and age 1. This can be used as approximate value of Infant Mortality Rate (IMR) which gives the ratio of number of deaths in a year of children aged less than one year to the number of births in that year.

q2 :

Probability of dying between birth and age 2.

q5 :

Probability of dying between birth and age 5. This indicator is also known as Under Five Mortality Rate (U5MR)

Infant mortality rate (IMR) :

Ratio of the number of infant deaths (deaths of children below one year) in a year to the number of live births in that year.

$$IMR = \frac{\text{Number of infant deaths during the year}}{\text{Number of live births during the year}} \times 1000$$

Infant mortality rate comprises of two parts, viz., Neo-natal mortality rate and Post neo-natal mortality rate. The neo-natal mortality rate also comprises of two parts viz., Early neo-natal mortality rate and late neo-natal mortality rate. These are defined as:

Neo-natal mortality rate (NMR) :

Number of infants dying within the first month of life (28 days or under) in a year per 1000 live births of the same year.

$$NMR = \frac{\text{Number of infant deaths aged 28 days or under during the year}}{\text{Number of live births during the year}} \times 1000$$

Early neo- natal mortality rate :

$$ENMR = \frac{\text{Number of infant deaths of less than 7 days During the year}}{\text{Number of live births during the year}} \times 1000$$

Late neo-natal mortality rate :

$$LNMR = \frac{\text{Number of infant deaths of 7 days to less than 29 days during the year}}{\text{Number of live births during the year}} \times 1000$$

Post neo-natal mortality rate (PNMR) :

$$PNMR = \frac{\text{Number of infant deaths of 29 days to less than one year during the year}}{\text{Number of live births during the year}} \times 1000$$

Peri-natal mortality rate (PMR) :

Number of still births plus deaths within 1st week of delivery per 1000 births in a year.

$$PMR = \frac{\text{Number of still births and infant deaths of less than 7 days during the year}}{\text{Number of live births and still births during the year}} \times 1000$$

Still birth rate(SBR) :

$$SBR = \frac{\text{Number of still births during the year}}{\text{Number of live births and still births during the year}} \times 1000$$

Maternal mortality rate(MMR) :

Number of deaths of women in the age group 15-49 while pregnant or within 42 days of termination of pregnancy from any cause related to pregnancy and child birth per 100,000 live births in a given year.

$$MMR = \frac{\text{Number of maternal deaths to women in the age group 15-49 during the year}}{\text{Number of live birth during the year}} \times 100000$$

Eligible couple (Couples per 1000 population) :

Number of currently married females in the age group15-49 years per 1000 persons of all ages.

Child woman ratio (0-4) :

Number of children in the age group 0-4 years per 1000 women in the age group 15-49 years.

Child woman ratio (5-9) :

Number of children in the age group 5-9 years per 1000 women in the age group 15-49 years.

Migration :

Migration is the third component of population change, the other two being mortality and fertility. A person is considered as a migrant by place of birth if the place in which she/he is enumerated during the census is other than the place of her/his birth. Similarly a person is considered as a migrant by place of last residence if the place in which she/he is enumerated during the census is other than his/her place of immediate last residence outside the village or town and not simply in another house or locality in the same village or town. Certain aspects concerning temporary movement/migration of people has been explained below as these are important componentsconcerning migration :

(i) Migration of persons in search of job is high in the country. In many cases such migrants are only seasonal in nature. People migrate to other places for work in a particular season and come back again to their usual place of residence after three or four months. All such workers are treated as migrants. Similarly, if a person moved to any other place for attending short term vocational or educational course that lasted for only few months of a year, she/he too were considered as a migrant.

(ii) Where a person had merely gone out to another place or had been shifting from one place to another purely on tour, pilgrimage, visit to hospital for treatment or for temporary business purposes, such persons are not deemed to have had another residence different from the place where she/he or her/his family normally resides. She/he is not considered as migrant.

(iii) A woman temporarily moves into a hospital or to her parents or other relative's house for delivery and if the hospital or the parents/ relatives houses is in a place different from usual place of residence, the place where the hospital or parents/relative's house is the place of last residence of the child but not of the mother. A new response category 'Moved after birth' was added in Census of India 2001 in the question on 'reasons for migration' to bring out additional migration patterns. Natural calamities or distress migration as a reason for migration for last residence migrants included in 1991 Census, is covered under category of 'Others'. The reason for migration has been determined as applicable at the time of migration and not in reference to any point of time after that. For example, if a person had moved from the place of her/his last residence for the purpose of education and subsequently at some point of time got employment there only, the reason for migration would be 'education' and not 'work/employment'.

Internal and International migration :

The migrational movements are of three types

(i) Migration within the state itself with its components

  (a) Migration within the district of enumeration (intra district migration)

  (b) Migration from one district of state to another district of state (inter district migration),

(ii) Migration from one state to another State of the country (inter-state migration),

(iii) Migration from one country to another country. The first two streams together constitute internal migration, while the last type of movement is called international migration. The present name of the country, state or district and not the name by which they were known at the time of her/his birth or last residence were recorded.

Rural - Urban components of migration :

Rural or Urban status in respect of migrants have been determined as applicable at the time of migration and not with reference to any point of time after that.

The flow of migrants consists of four streams viz. rural to rural, rural to urban, urban to rural and urban to urban.

Civic status of urban units :

Civic Status of a town/city is determined on the basis of Civic Administrative authority of the town e.g., Municipal Corporation/Corporation, Municipal Committee/ Municipal council, Municipality etc.

Size class of UA/town :

Size-class of UA/Town is based on the population size of the UA/City/Town UAs./Towns with 1,00,000 and above population are classified as Class I UAs./ towns. These Class I UAs./towns are now further sub classified into seven sub classes namely M1 to M7 depending on the population size of UA/City/ Town. These are M7(5,000,000 and above); M6(2,000,000 to 4,999,999); M5 (1,000,000-1,999,999) M4 (500,000-999,999); M3(300,000-499,999), M2 (200,000-299,999) and M1 (100,000-199,999). towns with, 50,000 to 99,999 population are classified as Class II towns, 20,000 to 49,999 population are Class III towns, population with 10,000-19,999 are Class IV towns, population with 5000 and 9999 are Class V towns and towns with less than 5000 population are Class VI towns.

Slum area :

The Slum Areas (Improvement and Clearance) Act, 1956 which was enacted by the Central Govt. defined slums as

a) Areas where buildings are in any respect unfit for human habitation; or

b) are by reasons of dilapidation, overcrowding, fault arrangement and design of such buildings, narrowness or faulty arrangement of streets, lack of ventilation, light or sanitation facilities, or any combination of these factors, are detrimental to safety, health or morals.

Mega city

The concept of 'Mega city' is a recent phenomenon in the Urban Sociology and is defined in term of metropolitan city in the form of large size, problem of management of civic amenities and capacity to absorb the relatively high growth of population. Indian Census in 1991 treated the population size of 5 million and above as the cut off point to identify a place as the mega city. Whereas, for the purpose of inclusion in Centrally Sponsored Scheme for Infrastructure Development in Mega cities the Ministry of Urban Affairs and Employment, Department of Urban Development adopted the criteria of 4 million and above population as per 1991 Census for Mega Cities. In 2001 Census, cities with 10 millions and above population have been treated as Mega cities.

(vii) 2001 Census findings – Population, its distribution

According to Census 2001, Dewas district comprises of 1061 inhabited villages, 64 uninhabited vilages and total 1125 villages distributed among six tahsils and six CD blocks. The district has 11 towns. The average household size of the district is 5.8. Total population of the district is 1,308,223 comprising 677,866 males and 630,357 females. Thus the sex ratio of the district works out to 930 which is higher than the sex-ratio of the state (919). Density of the district is 186 persons per sq.km. and is lower than the density of the state which is 196. Literacy rate of the district 60.9 per cent is also lower than the State literacy rate 63.7 percent. Scheduled Castes and Scheduled Tribes population of the district is respectively 18.3 percent and 16.5 percent of the total population of the district. Apart from these general findings, the analysis on various parameters like rural-urban distribution of population by sex, literacy, density, caste, tribe etc. has been covered in the Inset Tables from 1 to 52 based on PCA, Village Directory data, Town directory data and houselisting data pertaining to Census, 2001.

(viii) Brief analysis of the PCA data (Table 1-36)

Analysis of the PCA data based on Census 2001 is presented here in the form of tables from 1 to 36. Various demographic indicators such as density, literacy, Sex-ratio and distribution of population in different economic activity by rural/urban, male/ female and age classifications are presented in these tables. These analysis are presented for Tahsils and CD Block levels separately.

Analysis for Scheduled Castes and Scheduled Tribes is also covered in this tables.

TABLE 1: DECADAL CHANGE IN POPULATION OF TAHSILS BY RESIDENCE, 1991-2001

Serial number	Tahsil	Population						Percentage decadal variation 1991-2001			Percentage urban population	
		1991			2001							
		Total	Rural	Urban	Total	Rural	Urban	Total	Rural	Urban	1991	2001
1	2	3	4	5	6	7	8	9	10	11	12	13
1	Tonk Khurd	98,074	98,074	-	119,656	119,656	-	22.0	22.0	0.0	0.0	0.0
2	Sonkatch	120,675	98,262	22,413	150,150	124,185	25,965	24.4	26.4	15.8	18.6	17.3
3	Dewas	320,608	156,244	164,364	421,861	190,189	231,672	31.6	21.7	41.0	51.3	54.9
4	Kannod	165,915	130,334	35,581	206,681	163,313	43,368	24.6	25.3	21.9	21.4	21.0
5	Bagli	203,484	173,852	29,632	255,592	219,269	36,323	25.6	26.1	22.6	14.6	14.2
6	Khategaon	125,051	109,381	15,670	154,283	133,264	21,019	23.4	21.8	34.1	12.5	13.6
	District Total:	1,033,807	766,147	267,660	1,308,223	949,876	358,347	26.5	24.0	33.9	25.9	27.4

This table indicates tahsilwise decadal variation for both the rural and urban areas of the district. It is seen from the table that an overall 26.5 percent decadal growth has been recorded in the district. The growth rate in rural areas of the district during the decade 1991-2001 works out to 24.0 percent, while for urban areas it is 33.88 percent. Among the tahsils, Dewas has registered the highest decadal growth rate of 31.6 percent. The growth rate is highest in Sonkatch tahsil for rural and Dewas tahsil for urban area of the district. The percentage of urban population to total population of the district is 27.4 percent in 2001 against 25.9 percent in 1991.

TABLE 2 : NUMBER AND PERCENTAGE OF INHABITED VILLAGES IN SPECIFIED POPULATION SIZE RANGES WITH THE RELATED POPULATION, 2001

Serial number	District / C.D. block	Total number of inhabited villages	Total rural population			Number and percentage of villages	Population less than 200	
			Persons	Males	Females		Males	Females
1	2	3	4	5	6	7	8	9
1	Tonk Khurd	109	119,656	61,775	57,881	8 (7.3)	484	467

5	Bagli	24 (8.8)	35,422	33,181	2 (0.7)	6,095	5,723	0 (0.0)	0	0
6	Khategaon	7 (4.2)	10,119	8,988	1 (0.6)	2,626	2,390	0 (0.0)	0	0
	Districts (Rural) Total:	80 (7.5)	115,986	107,933	10 (0.9)	30,843	28,672	0 (0.0)	0	0

Table 2 gives CD Blockwise population, number and percentage of villages falling in each range of population size of villages and number of males and females in each population range at CD Block level in the district. Out of the 1061 inhabited villages, 123 (11.6 percent) are small sized villages with population below 200 persons. In the size class of 200-499 persons, there are 279 villages having 26.3 percent villages of the district while in the size class of 500-999 population there are 328 villages constituting 30.9 percent of total villages. 241 villages (22.7 percent) are in the size class of 1000-1999 and 80 villages (7.5 percent) are in the size class of 2000-4999. There are 10 villages (0.9 percent) in the size class of 5000-9999. There is no village (0.0 percent) falls in the size class of population 10,000 and above.

TABLE 3 : NEW TOWNS, DENOTIFIED, DECLASSIFIED AND MERGED TOWNS IN 2001 CENSUS

Dewas

(a) New

(i) Statutory town NIL

(ii) Census town NIL

(b) Denotified

(i) Statutory towns of 1991 census denotified and also did not satisfy the criteria to be treated as census towns

NIL

(ii) Statutory towns of 1991 census denotified but identified as census towns based on demographic and economic criteria

NIL

(iii) Census towns of 1991 census are notiified as statutory town in 2001 census

NIL

(c) Declassified NIL

(d) Wholly merged with other town(s) NIL

Declassified means the census towns of 1991 census which failed to satisfy the demographic and economic criteria.

TABLE 4 : DISTRIBUTION OF VILLAGES BY POPULATION DENSITY, 2001

Range of population density (per square kilometer)	Total number of villages in each population density range	Percentage of villages in each population density range	Population	Percentage distribution of population
1	2	3	4	5
0-10	14	1.3	502	0.1
11-20	17	1.6	1,709	0.2
21-50	59	5.6	15,771	1.7
51-100	144	13.6	69,031	7.3
101-200	506	47.7	419,013	44.1
201-300	218	20.5	262,669	27.7
301-500	72	6.8	115,434	12.2
501 +	31	2.9	65,747	6.9
Not known	0	0.0	0	0.0
District Total:	1,061	100.0	949,876	100.0
Population Density (Rural) of the district:			160.4	

This table shows the distribution of villages by population density ranges. The inhabited villages of the district have been grouped under 8 different ranges of density. The maximum number of villages i.e. 506 accounting for 47.7 percent of the total inhabited villages of the district fall in the density range of 101-200 persons having 44.1 percent population. The lowest range of 0-10 and 11-20 persons per sq.km. cover 31 villages (2.9 percent). 31 villages have very high density with more than 501 persons per sq.km. while the corresponding proportion in the lower range of 201-300 is 20.5 percent of the total inhabited villages having 27.7 percent population of the district. In the medium density ranges of 21-50 and 51-100 persons account for 5.6 and 13.6 per cent of inhabited villages.

TABLE 5: SEX RATIO OF STATE AND DISTRICT, 1901-2001

Census Year	State			District		
	Total	Rural	Urban	Total	Rural	Urban
1	2	3	4	5	6	7
1901			930	-	-	946
1911	967	973	903	986	988	945
1921	949	959	863	941	944	894
1931	947	957	862	946	948	918
1941	946	957	869	947	953	889
1951	945	953	902	960	962	949
1961	932	947	860	937	942	907
1971	920	934	864	929	933	908
1981	921	934	878	929	936	897
1991	912	921	887	924	933	899
2001	919	927	898	930	934	918

Note: Sex ratio has been defined here as the number of females per 1000 males.

As per 2001 Census, sex ratio of 930 females per 1,000 males has been recorded in the district against the state average of 919. The sex ratio of the district had been significantly higher in all Census years except in 1921 and 1931 years over the state average figures. The lowest sex ratio of 924 females per 1,000 males was recorded in the district in Census 1991.

TABLE 6 : SEX RATIO BY TAHSILS, 2001

Serial number	Name of Tahsil	Sex ratio		
		Total	Rural	Urban
1	2	3	4	5
1	Tonk Khurd	937	937	-
2	Sonkatch	933	933	936
3	Dewas	925	938	913
4	Kannod	929	930	924
5	Bagli	945	947	938
6	Khategaon	912	913	904
	District Total:	930	934	918

The table 6 gives the tahsilwise sex ratio of rural and urban population of Census 2001. It is observed that the sex ratio for the rural area works out to 934 whereas it is 918 for the urban area. The sex ratio in rural and urban area is highest (947) and (938) respectively in Bagli tahsil . The sex ratio of the district is 930 females per 1,000 males.

TABLE 7 : SEX RATIO BY CD BLOCKS, 2001

Serial number	Name of C D block	Sex ratio
1	2	3
1	Tonk Khurd	937
2	Sonkatch	933
3	Dewas	938
4	Kannod	930
5	Bagli	947
6	Khategaon	913
	District (Rural) Total:	934

The table 7 gives the CD Blockwise sex ratio for rural population of the district. The sex ratio in rural areas of the district comes to 934 females per 1,000 males. Among the CD Blocks the highest sex ratio of 947 is found in Bagli CD Block and the lowest of 913 is recorded in Khategaon CD Block.

TABLE 8: SEX RATIO OF RURAL POPULATION BY RANGES, 2001

Range of sex ratio for villages	Number of inhabited villages	Percentage of villages in each range	Population 2001	Percentage distribution of population
1	2	3	4	5
Less than 700	15	1.4	747	0.1
700-749	5	0.5	1,138	0.1
750-799	19	1.8	5,385	0.6
800-849	67	6.3	39,014	4.1
850-899	200	18.9	156,741	16.5
900-949	328	30.9	402,058	42.3
950-999	246	23.2	242,338	25.5
1000-1099	143	13.5	92,629	9.8
1100+	38	3.6	9,826	1.0
District Total:	1,061	100.0	949,876	100.0
Sex ratio (Rural) for District:			934	

Table 8 presents the distribution of villages by 9 ranges of sex ratio based on 2001 Census. The maximum number of villages i.e. 328 accounting for 30.9 percent of the total villages having largest population of 42.3 percent in the district fall in the sex ratio range of 900-949. It is followed by 246 villages constituting 23.2 percent of total villages and 25.5 percent population falling in the range of 950-999.

TABLE 9 : SEX RATIO OF URBAN AGGLOMERATIONS/TOWNS, 2001

Serial number	Name of U.A./Town	Urban status of town	Sex ratio
1	2	3	4
1	Bagli	NP	950
2	Bhaurasa	NP	930
3	Dewas	M Corp.	913
4	Hatpipalya	NP	917
5	Kannod	NP	928
6	Kantaphod	NP	917
7	Karnawad	NP	958
8	Khategaon	NP	904
9	Loharda	NP	931
10	Satwas	NP	918
11	Sonkatch	NP	941
Sex ratio (Urban) for the district:			918

Table 9 gives the sex ratio of towns. The sex ratio in urban areas of the district comes to 918 females per 1,000 males as a whole. Among the 11 towns of the district the sex ratio varies between 904 to 958. Karnawad (NP) has the highest sex ratio 958 while Khategaon (NP) has the lowest sex ratio of 904 females.

TABLE 10 : SEX RATIO OF POPULATION IN THE AGE GROUP 0-6 FOR TAHSILS, 2001

Serial number	Name of Tahsil	Total / Rural / Urban	Total population in 0-6 age group			Sex ratio for 0-6 age group
			Persons	Males	Females	
1	2	3	4	5	6	7

	District Total:	Total	231,195	119,780	111,415	930
		Rural	175,899	90,722	85,177	939
		Urban	55,296	29,058	26,238	903

The table 10 presents population of age group 0-6 years and sex ratio for total, rural and urban areas in respect of each tahsil of the district. The total sex ratio in this age group works out to 930 females for every 1,000 males in the district. The proportion of females in rural areas is higher than that of urban areas. The sex ratio in rural and urban areas comes to 939 and 903 respectively. The rural sex ratio in tahsil varies between 916 in Khategaon to 954 in Tonk Khurd tahsil.

TABLE 11 : SEX RATIO OF POPULATION IN THE AGE GROUP 0-6 FOR CD BLOCKS, 2001

Serial number	Name of C.D. block	Total population in 0-6 age group			Sex ratio for 0-6 age group
		Persons	Males	Females	
1	2	3	4	5	6
1	Tonk Khurd	20,158	10,316	9,842	954
2	Sonkatch	22,282	11,511	10,771	936
3	Dewas	31,732	16,349	15,383	941
4	Kannod	33,148	17,156	15,992	932
5	Bagli	43,109	22,100	21,009	951
6	Khategaon	25,470	13,290	12,180	916
District (Rural) Total:		175,899	90,722	85,177	939

Table 11 gives CD Blockwise sex ratio of rural population in the age group of 0-6 years in the district. The sex ratio is 939 for the district (rural). The sex ratio of CD Block varies between 916 to 954. It is highest in Tonk Khurd CD Block and lowest in Khategaon CD Block.

TABLE 12 : SEX RATIO OF RURAL POPULATION IN THE AGE GROUP 0-6 BY RANGES, 2001

Range of sex ratio for villages	Number of inhabited villages	Percentage distri-bution of villages	Population 2001	Percentage distribution of population
1	2	3	4	5
Less than 700	88	8.3	6,639	3.8
700-749	47	4.4	5,853	3.3
750-799	73	6.9	9,883	5.6
800-849	92	8.7	20,207	11.5
850-899	109	10.3	22,035	12.5
900-949	122	11.5	28,067	16.0
950-999	112	10.6	27,986	15.9
1000-1099	191	18.0	30,529	17.4
1100+	227	21.4	24,700	14.0
District (Rural) Total	1061	100.0	175,899	100.0
Sex ratio (Rural) for District:			939	

Table 12 shows the distribution of villages in 9 ranges of sex ratio of the population in the age group 0-6 years as well as percentage of villages, total population and percentage of population of this age group falling in each range of sex ratio in the district.

The maximum number of villages i.e. 227(21.4 percent) having population (14.0 percent) in the district (rural) fall in the sex ratio range of 1,100 and above. It is followed by the sex ratio range of 1,000-1,099 which claims 191 villages (18.0 percent) and 17.4 percent population. Next to it 122 villages (11.5 percent) and 16.0 percent population are in the range of 900-949. Minimum number of villages i.e. 47 (4.4 percent) and 3.3 percent population fall in the range of 700-749.

TABLE 13 : SEX RATIO OF POPULATION IN THE AGE GROUP 0-6 OF URBAN AGGLOMERATION (INCLUDING CONSTITUENT UNIT) TOWNS, 2001

Serial number	Name of UA/Town	Urban status of town	Total population in 0-6 age group			Sex ratio for 0-6 age group
			Persons	Males	Females	
1	2	3	4	5	6	7
1	Bagli	(NP)	1,516	754	762	1,011
2	Bhaurasa	(NP)	1,791	943	848	899
3	Dewas	(M Corp.)	34,344	18,150	16,194	892
4	Hatpipalya	(NP)	2,585	1,337	1,248	933
5	Sonkatch	(NP)	2,343	1,248	1,095	877
6	Kantaphod	(NP)	1,670	896	774	864
7	Kannod	(NP)	2,298	1,217	1,081	888
8	Karnawad	(NP)	1,897	942	955	1,014
9	Khategaon	(NP)	3,359	1,733	1,626	938
10	Loharda	(NP)	1,501	784	717	915
11	Satwas	(NP)	1,992	1,054	938	890
	District(Urban) Total		55,296	29,058	26,238	903

The table 13 presents the sex ratio of UA/towns for population in the age group 0-6 years within the district. The sex ratio of the district (urban) as a whole is 903. Karnawad (NP) has the highest sex ratio i.e. 1,014 and Kantaphod (NP) has the lowest sex ratio of 864 females per 1,000 males.

TABLE 14 : NUMBER AND PERCENTAGE OF SCHEDULED CASTES AND SCHEDULED TRIBES POPULATION IN TAHSILS, 2001

Serial number	Name of Tahsils	Total / Rural / Urban	Total population	Total Scheduled Castes population	Total Scheduled Tribes population	Percentage of Scheduled Castes population to total population	Percentage of Scheduled Tribes population to total population
1	2	3	4	5	6	7	8

		Rural	219,269	36,531	80,704	16.7	36.8
		Urban	36,323	5,521	4,516	15.2	12.4

1	2	3	4	5	6	7	8
6	Khategaon	Total	154,283	21,846	36,187	14.2	23.5
		Rural	133,264	20,283	34,689	15.2	26.0
		Urban	21,019	1,563	1,498	7.4	7.1
	District Total:	Total	1,308,223	238,934	215,151	18.3	16.4
		Rural	949,876	184,409	194,159	19.4	20.4
		Urban	358,347	54,525	20,992	15.2	5.9

This table depicts the distribution of Scheduled Castes and Scheduled Tribes population as well as the percentage to total population at tahsil level in rural and urban areas of the district. Of the 1,308,223 total population of the district 18.3 percent belong to the Scheduled Castes and 16.4 percent to Scheduled Tribes. The percentage of Scheduled Castes population constitutes 19.4 percent in rural population and 15.2 percent in urban population of the district. The highest percentage of Scheduled Castes population is recorded in Sonkatch tahsil (26.7 percent) while the lowest is found in Kannod tahsil (12.6 percent). The proportion of Scheduled Tribes population is 20.4 and 5.9 percent in rural and urban areas respectively. Scheduled Tribes population in the district is mainly concentrated in Kannod tahsil (34.0 percent) and the lowest Scheduled Tribes population is recorded in Tonk Khurd tahsil (1.9 percent).

TABLE 15 : NUMBER AND PERCENTAGE OF SCHEDULED CASTES AND SCHEDULED TRIBES POPULATION IN CD BLOCKS, 2001

Serial number	Name of C.D. block	Total population	Total Scheduled Castes population	Total Scheduled Tribes population	Percentage of Scheduled Castes population to total population	Percentage of Scheduled Tribes population to total population
1	2	3	4	5	6	7
1	Tonk Khurd	119,656	27,705	2,326	23.2	1.9
2	Sonkatch	124,185	36,067	3,250	29.0	2.6
3	Dewas	190,189	41,832	9,648	22.0	5.1
4	Kannod	163,313	21,991	63,542	13.5	38.9
5	Bagli	219,269	36,531	80,704	16.7	36.8
6	Khategaon	133,264	20,283	34,689	15.2	26.0
	District (Rural) Total:	949,876	184,409	194,159	19.4	20.4

Table 15 shows distribution of Scheduled Castes and Scheduled Tribes population in each CD Block of the district. 19.4 percent of rural population of the district belongs to Scheduled Castes and 20.4 percent to Scheduled Tribes. Scheduled Castes population is highest (29.0 percent) in Sonkatch CD Block whereas it is lowest (13.5 percent) in Kannod CD Block. Scheduled Tribes population is highest (38.9 percent) in Kannod CD Block and it is lowest (1.9 percent) in Tonk Khurd CD Block.

TABLE 16 : PROPORTION OF SCHEDULED CASTES POPULATION TO TOTAL POPULATION IN VILLAGES, 2001

Percentage Range of Scheduled Castes population to total population	Number of villages	Percent-age	Scheduled Castes Population	Percent-age
1	2	3	4	5
Nil	153	14.4	0	0.0
Less than 5	129	12.2	2,574	1.4
5-10	136	12.8	11,802	6.4
11-20	255	24.0	48,097	26.1
21-30	168	15.8	51,709	28.0
31-40	106	10.0	34,561	18.7
41-50	58	5.5	15,973	8.7
51-75	44	4.1	16,701	9.1
76 and above	12	1.1	2,992	1.6
District Total	1,061	100.0	184,409	100.0

Table 16 reflects the number of villages according to the proportion of Scheduled Castes population to their total population in different ranges of population at district level. 153 villages accounting for 14.4 percent of total 1,061 inhabited villages in the district do not have any Scheduled Castes population. The proportion of Scheduled Castes population is less than 5.0 percent in 129 villages (12.2 percent). In 136 villages it varies between 5-10 percent while the next range of 11-20 percent accounts for 255 villages. The range of 21-30 and 31-40 percent contains 168 and 106 villages respectively. There are 58 villages in the range of 41-50 and 44 villages in the range of 51-75. Only 12 villages are such where the proportion of Scheduled Castes is 76 and above.

TABLE 17 : PROPORTION OF SCHEDULED TRIBES POPULATION TO TOTAL POPULATION IN VILLAGES, 2001

Percentage Range of Scheduled Tribes population to total population	Number of villages	Percent-age	Scheduled Tribes Population	Percent-age
1	2	3	4	5
Nil	273	25.7	0	0.0
Less than 5	187	17.6	4,910	2.5
5-10	110	10.4	9,024	4.6
11-20	118	11.1	16,955	8.7
21-30	60	5.7	14,641	7.5
31-40	52	4.9	18,513	9.5
41-50	40	3.8	22,108	11.4
51-75	71	6.7	30,854	15.9
76 and above	150	14.1	77,154	39.7
District Total	1,061	100.0	194,159	100.0

Table 17 reflects the number of villages according to the proportion of Scheduled Tribes population to their total population in different ranges of population at district level. 273 villages accounting for 25.7 percent of total 1,061 inhabited villages in the district do not have any Scheduled Tribes population. The proportion of Scheduled Tribes population is less than 5 percent in 187 villages (17.6 percent). In 110 villages it varies between 5-10 percent while the next range of 11-20 percent accounts for 118 villages. The range of 21-30 and 31- 40 percent contains 60 and 52 villages respectively. There are 40 villages in the range of 41-50 and 71 villages in the range of 51-75. 150 villages are such where the proportion of Scheduled Tribes is 76 and above.

TABLE 18 : NUMBER AND PERCENTAGE OF SCHEDULED CASTES AND SCHEDULED TRIBES POPULATION IN URBAN AGGLOMERATIONS/TOWNS, 2001

Serial number	Name of UA/ Town	Total population	Total Scheduled Castes population	Total Scheduled Tribes population	Percentage of Scheduled Castes population to total population	Percentage of Scheduled Tribes population to total population
1	2	3	4	5	6	7
1	Bagli (NP)	10,128	1,061	1,271	10.5	12.5
2	Bhaurasa (NP)	10,412	1,361	31	13.1	0.3
3	Dewas (M Corp.)	231,672	39,404	8,061	17.0	3.5

1	2	3	4	5	6	7
4	Hatpipalya (NP)	15,933	3,357	698	21.1	4.4
5	Kannod (NP)	15,185	1,713	1,263	11.3	8.3
6	Kantaphod (NP)	9,256	731	2,485	7.9	26.8
7	Karnawad (NP)	10,262	1,103	2,547	10.7	24.8
8	Khategaon (NP)	21,019	1,563	1,498	7.4	7.1
9	Loharda (NP)	7,996	876	1,889	11.0	23.6
10	Satwas (NP)	10,931	710	1,052	6.5	9.6
11	Sonkatch (NP)	15,553	2,646	197	17.0	1.3
	District(Urban) Total	358,347	54,525	20,992	15.2	5.9

Table 18 shows number and percentage of Scheduled Castes and Scheduled Tribes in UA/towns of the district. Out of the 11 towns the highest proportion (21.1 percent) of Scheduled Castes is found in Hatpipalya (NP) and lowest proportion (6.5 percent) in Satwas (NP). For Scheduled Tribes the highest proportion (26.8 percent) is found in Kantaphod (NP) and lowest (0.3 percent) in Bhaurasa (NP).

TABLE 19 : SEX RATIO AMONG SCHEDULED CASTES AND SCHEDULED TRIBES IN CD BLOCKS, 2001

Serial number	Name of C D block	Scheduled Castes sex ratio	Scheduled Tribes sex ratio
1	2	3	4
1	Tonk Khurd	927	966
2	Sonkatch	939	947
3	Dewas	934	919
4	Kannod	915	956
5	Bagli	922	973
6	Khategaon	910	939
	District (Rural) Total	926	958

Table 19 indicates sex ratio among Scheduled Castes and Scheduled Tribes in each CD Block of the district. The Scheduled Castes sex ratio is 926 for district (rural). Among the CD Blocks, the highest sex ratio of 939 is found in Sonkatch CD Block and lowest of 910 is recorded in Khategaon CD Block.

Sex ratio of Scheduled Tribes population in Dewas district rural is 958. Among the CD Blocks, the highest sex ratio of 973 is found in Bagli CD Block and lowest of 919 is recorded in Dewas CD Block.

TABLE 20 : SEX RATIO AMONG SCHEDULED CASTES AND SCHEDULED TRIBES IN URBAN AGGLOMERATIONS/TOWNS, 2001

Serial number	Name of UA/Town	Scheduled Castes sex ratio	Scheduled Tribes sex ratio
1	2	3	4
1	Bagli (NP)	1,072	940
2	Bhaurasa (NP)	953	722
3	Dewas (M Corp.)	924	885
4	Hatpipalya (NP)	939	928
5	Kannod (NP)	967	922
6	Kantaphod (NP)	1,053	926
7	Karnawad (NP)	998	944
8	Khategaon (NP)	984	1,033
9	Loharda (NP)	872	958
10	Satwas (NP)	864	952
11	Sonkatch (NP)	959	894
Sex ratio (Urban) for the district:		934	923

Table 20 shows the sex ratio among Scheduled Castes and Scheduled Tribes in UA/Towns for Census 2001. For the district (urban) sex ratio is higher (934) among Scheduled Castes compared to Scheduled Tribes (923).

Among the 11 towns of the district, in Kantaphod (NP)and Bagli (NP) the Scheduled Caste sex ratio is above one thousand i.e. 1,053 and 1,072 respectively. In the remaining towns sex ratio for Scheduled Castes is below one thousand, the lowest being 864 in Satwas (NP). But for Scheduled Tribes,

sex ratio is above parity in only one town namely, 1,033 in Khategaon (NP). Sex ratio of Scheduled Tribes for the remaining towns is below the line of equality, lowest being 722 in Bhaurasa (NP)..

TABLE 21 : NUMBER AND PERCENTAGE OF LITERATES AND ILLITERATES BY TAHSILS, 2001

Tahsilwise and district literacy rates besides the number of literates and illiterates for total, rural and urban areas are given in Table 21. The literacy rates are worked out by excluding population of 0-6 years. As per 2001 census, the proportion of literates to total population excluding 0-6 years comes to 60.9 percent in the district. This proportion in rural area is 54.6 percent and 77.1 percent in urban areas. In the district the literacy rate of males 75.7 percent is much higher than that of females which is 45.0 percent.

Among the tahsils, Dewas tahsil tops with 71.2 percent literates and the lowest literacy rate 50.9 percent is recorded for Kannod tahsil.

TABLE 22 : NUMBER AND PERCENTAGE OF LITERATES AND ILLITERATES BY SEX IN CD BLOCKS, 2001

Serial number	Name of C.D. block	Number of literates and illiterates						Percentage of literates			Gap in male-female literacy rate

Table 32 gives the number and percentage of main workers, marginal workers and non-workers by sex at CD Block level in the district as per 2001 Census. The proportaion of the total workers works out to 49.4 percent of the total population in the district. The total workers are comprised of 35.1 percent of main workers and 14.3 percent of marginal workers and the remaining 50.6 percent are non-workers.

Among males, 45.9 % are main workers and 7.4% are marginal workers whereas among females, corresponding figures are 23.5% and 21.7% respectively.

TABLE 33 : NUMBER AND PERCENTAGE OF MAIN WORKERS, MARGINAL WORKERS AND NON-WORKERS BY SEX IN URBAN AGGLOMERATIONS/TOWNS, 2001

Table 33 presents distribution of population by category of workers and non-workers by sex in UA/ Towns of the district. It is seen that total workers constitute 31.0 percent of the total population of the district (urban) and the proportion of non-workers is 69.0 percent. Among the total workers male workers constitute 47.7 percent whereas female workers are only 12.7 percent.The total workers are comprised of 26.7 percent of main workers and 4.3 percent of marginal workers.

Among males, 43.7 % are main workers and 4.1% are marginal workers whereas among females, corresponding figures are 8.2% and 4.5% respectively.

TABLE 34 : DISTRIBUTION OF WORKERS BY SEX IN FOUR CATEGORIES OF ECONOMIC ACTIVITY IN TAHSILS, 2001

				(36.4)	(43.4)	(48.0)	(1.4)	(7.2)

Note: Percent of Worker to total worker are given in brackets

It can be seen from the table 34, the economy of the district is primarily agricultural as supported by the fact that cultivators constitute 41.6 percent of the total workers (main + marginal), 35.2 percent of total workers are engaged as agricultural labourers, 1.7 percent as household industry workers and 21.6 percent of other workers in this district.

The distribution of workers by four categories of economic activity at tahsil/sub-tahsil shows high dependence of population on cultivators sector absorbing large number of workers. The proportion of cultivators varies between 31.3 percent in Dewas tahsil and 53.5 percent in Tonk Khurd tahsil. The percentage of females cultivators is 43.4 percent which is slightly higher as compared to 40.4 percent of male cultivators in the district. In district the percentage of agricultural labourers is 35.2 percent. It is 48.0 percent for females which is very high as compared to males (26.8 percent). The percentage of household industry workers is very low in the district as stated above. The highest proportion of 43.6 percent of other workers is recorded in Dewas tahsil while the lowest proportion of 10.4 percent is found in Bagli tahsil.

TABLE 35 : DISTRIBUTION OF WORKERS BY SEX IN FOUR CATEGORIES OF ECONOMIC ACTIVITY IN CD BLOCKS, 2001

				(45.3)	(46.8)	(49.4)	(1.0)	(2.7)

Table 35 presents CD Blockwise distribution of workers by sex in four categories of economic activity. In the rural areas of the district total workers (main + marginal) constitutes 49.4 percent of total population. Among these workers cultivators constitute 49.4 percent, agricultural labourers 40.3 percent, household industry 1.3 percent and other workers constitute 9.0 percent.

The proportion of cultivators is highest 53.7 percent in Sonkatch CD Block and is lowest 44.0 percent in Khategaon CD Block. Proportion of agricultural labour is highest 47.0 percent in Kannod CD Block and lowest 33.5 percent in Tonk Khurd CD Block. It is also seen that the proportion of male workers is more than female workers under the category of cultivators.

TABLE 36 : DISTRIBUTION OF WORKERS BY SEX IN FOUR CATEGORIES OF ECONOMIC ACTIVITY OF URBAN AGGLOMERATIONS / TOWNS , 2001

Serial number	Name and urban status of UA/Town	Persons / Males / Females	Total Population	Total number of workers (Main + Marginal)	Category of workers			
					Cultivators	Agricultural Labourers	Household Industry workers	Other workers

				(47.7)	(7.8)	(8.4)	(2.9)	(80.9)
		Females	171,534	21,854	2,451	7,454	993	10,956
				(12.7)	(11.2)	(34.1)	(4.5)	(50.1)

Table 36 presents the distribution of workers by sex in different categories of economic activity for UA/Towns of the district. It is seen that out of the 31.0 percent of total workers, cultivators constitute 8.5 percent, agricultural labourers 13.5 percent, household industry 3.2 percent and the highest proportion is covered by other workers which is 74.9 percent. It is also found that proportion of female workers under cultivators, agricultural labourers and household industry workers are more than the male workers proportion whereas proportion of male workers under other workers is more than the proportion of females. Townwise analysis shows that the proportion of cultivators is highest 33.4 percent in Karnawad (NP), agricultural labourer is highest 55.6 percent in Loharda (NP), household industry workers is highest 6.3 percent

(ix) Brief analysis of Village Directory and Town Directory data (table 37-47)

Analysis based on Village Directory and Town Directory data pertaining to census 2001 are presented in the form of Inset tables from 37-47. Alongwith the census data 'Non-Census' data such as village amenity and town amenity data was collected during census 2001. These tables give the number of total villages, jproportion of population served by different amenities, availability of amenities by distance, proportion of slum population in towns etc. A short analytical note is also given below of each table

TABLE 37 : DISTRIBUTION OF VILLAGES ACCORDING TO AVAILABILITY OF DIFFERENT AMENITIES, 2001

Serial number	Name of CD block	Number of inhabited villages	Type of amenity available									
			Edu-cation	Medical	Improved drinking water*	Post Office #	Teleph one	Transport communica tions $	Banks	Agricu-ltural Credit Societies	Appro-ach by pucca road	Power supply

		(100)	(89.2)	(33.6)	(97.3)	(14.8)	(63.1)	(17.8)	(5.4)	(11.9)	(22.3)	(99.4)

Note : Percentages are given in brackets.

* Based on the improved drinking water sources, drinking water supply has been classified as 'Improved or otherwise. If the household has access to drinking water supplied from a tap or a hand pump/tube well situated within or outside the premises it is considered as having access to 'Improved drinking water source'. However, the concept of improved drinking water is state specific and this is to be considered accordingly.

\# Post office includes Post office, telegraph office and Post and telegraph office.

$ Transport communication includes bus service, rail facility and navigable waterways.

Table 37 deals with the CD block-wise distribution of villages according to the availability of different amenities like education, medical, improved drinking water, post office, telephone, transport, communications, agricultural credit societies, approach by pucca road and power supply within the village. Out of 1,061 inhabited villages in the district 946 villages or 89.2 percent have been provided with the education facilities of one type or the other. Similarly 356 villages in the district constituting 33.6 percent have medical facilities of one type or the other. Improved drinking water facility is available in 1,032 or 97.3 percent villages. As regards, post office facility which includes facilities like telegraph office

and post and telegraph, 157 villages constituting 14.8 percent of villages have been provided with post office facility within the villages. 670 or 63.1 percent villages have been provided with the telephone facility, 189 or 17.8 percent with transport facility, 57 or 5.4 percent villages with bank facility and 126 or 11.9 percent with agricultural credit societies. Similarly there are 237 or 22.3 percent villages which are linked with the pucca road. Total 1,055 or 99.4 percent of villages are provided with the electricity supply. Almost similar pattern of distribution of villages by availability of amenities in the villages at CD block has been found with slight variation. Sonkatch CD block has the highest 96.9 percent villages where educational facility is available and lowest 74.6 percent is found in Bagli CD Block. Medical facility is highest in Sonkatch (84.4 percent) and lowest (17.4 percent) in Tonk Khurd CD block. Telephone facility is highest in Sonkatch CD Block (84.4 percent) and lowest in Bagli CD Block (40.4). In the field of power supply all villages have been covered except 6 villages in the district.

TABLE 38 : NUMBER AND PER CENT OF RURAL POPULATION SERVED BY DIFFERENT AMENITIES, 2001

Serial number	Name of CD block	Total population of inhabited villages	Type of amenity available

		(100)	(98.2)	(52.1)	(98.1)	(36.5)	(78.5)	(34.2)	(17.6)	(29.8)	(40.3)	(99.9)

Note : - Percentages are given in brackets.

* Based on the improved drinking water source, drinking water supply has been classified as 'Improved ' or otherwise. If the household has access to drinking water supplied from a tap or a hand pump / tube well situated within or outside the premises it is considered as having access to 'Improved drinking water source'.

However, the concept of improved drinking water is state specific and this is to be considered accordingly.

Post office includes Post office, telegraph office and Post and telegraph office.

$ Transport communication includes bus service, rail facility and navigable waterways.

Table 38 depicts the number and proportion of rural population served by different kind of amenities. Out of total rural population of 949,876 persons in the district, 932,409 or 98.2 percent have educational facility of one or the other type. Similarly 495,202 or 52.1 percent population has medical facilities while 932,056 or 98.1 percent have improved drinking water facility. Post office facilities are available to 346,762 or 36.5 percent population. Telephone facility is available to 745,311 or 78.5 percent. Transport

communications facility is available to 325,230 or 34.2 percent. Bank facility is available to 167,548 or 17.6 percent. 283,059 or 29.8 percent have been provided with the facility of agricultural credit societies. 382,345 or 40.3 percent have been provided with the facility of approach by pucca road. Power supply is available to 949,183 or 99.9 percent rural population in the district. Similar pattern of availability of facilities is visible to the rural population in different CD blocks.

TABLE 39 : DISTRIBUTION OF VILLAGES NOT HAVING CERTAIN AMENITIES, ARRANGED BY DISTANCE RANGES FROM THE PLACES WHERE THESE ARE AVAILABLE, 2001

Village not having the amenity of	Distance range of place from the villages where the amenity is available			
	Less than 5 kilometres	5-10 kilometres	10+ kilometres	Total (Col. 2 - 4)
1	2	3	4	5
1. Education :-				
(a) Primary School	113	3	1	117
(b) Middle School	540	238	55	833
(c) Degree College	68	178	813	1,059
2. Medical:-				
(a) Hospital	173	268	604	1,045
(b) PHC	97	203	736	1,036
3. Post Office	516	287	101	904
4. Telephone	218	91	82	391
5. Bus Service	415	295	164	874
6. Banks				
(a) Commercial Bank	268	374	370	1,012
(b) Cooperative Bank	268	351	423	1,042
7. Agricultural Credit Societies	424	315	196	935

Table 39 presents distribution of villages not having certain amenities within the village at district level. Such villages have been presented according to various distance ranges in this table. 117 villages do not have primary school and out of these villages, children of 113 villages have to travel less than 5 kms. for schooling. Out of 1,061 inhabited villages as many as 833 are deprived of middle school and 1,059 of degree college. Of these 540 avail the facility of middle school at a distance of less than 5 kms., 238 at a distance 5-10 kms. and the remaining 55 at a distance of 10+ kms. In respect of degree college 68 avail this facility at a distance of less than 5 kms., 178 between 5 to 10 kms. and rest 813 villages at a distance of 10+ kms. Similarly there are 1,045 villages in the district which have been devoid of hospital facility and 1,036 villages which are deprived of PHC facilities. Of these 173 villages have the facility of hospital available within 5 kms. while in respect of 268 villages the inhabitants have to cover a distance of 5-10 kms. in order to avail this facility. Similarly overwhelming number i.e. 604 villages have this facility at a distance of 10+ kms. As regards PHC 97 avail this facility at a distance of less than 5 kms., 203 at a distance of 5-10 kms. and the remaining 736 have to travel a distance of more than 10 kms. to avail this facility. Regarding Post Office, 904 villages do not have this facility in the village itself. Of these majority i.e. 516 have this facility at a distance of less than 5 kms., another 287 villages avail it at a distance of 5-10 kms. In the remaining 101 villages habitants have to travel a distance of 10+ kms.

As regards Telephone, there are 391 villages in the district which are without telephone facilitiy. Of these 218 avail this facility at a distance of less than 5 kms., 91 at a distance of 5-10 kms. and remaining 82 have to traverse a distance of 10+ kms.

For Bus service out of 874 villages which do not have facility, 415 villages avail this facility at a distance of less than 5 kms., 295 at a distance between 5-10 kms. and 164 at a distance of 10+ kms.

In the entire district 1,012 villages are deprived of commercial bank and 1,042 of co-operative bank. Of these 1,012 villages which are deprived of commercial banks 268 villages avail this facility at a distance of less than 5 kms., 374 between 5-10 kms. and the remaining 370 at a distance of 10+ kms. Regarding co-operative banks out of 1,042 villages 268 villages avail this facility at a distance of less than 5 kms., 351 at a distance of 5-10 kms. and remaining 423 at a distance of 10+ kms. 935 villages do not have agricultural credit societies. This facility to 424 villages is available at a distance of less than 5 kms., 315 at a distance of 5-10 kms. and the remaining 196 at a distance of 10+ kms.

TABLE 40 : DISTRIBUTION OF VILLAGES ACCORDING TO THE DISTANCE FROM THE NEAREST STATUTORY TOWN AND AVAILABILITY OF DIFFERENT AMENITIES, 2001

Distance range from the nearest statutory town (in kilometres)	Number of inhabited villages in each range	Type of amenity available							
		Education	Medical	Post Office	Telephone	Transport communica-tions	Banks	Agricultural Credit Societies	Approach by pucca road

Post office includes Post office, Telegraph office and Post and telegraph office.
$ Transport communication includes bus service, rail facility and navigable waterways.

Table 40 deals with the distribution of villages according to distance from the nearest statutory town and availability of different amenities within the village. Out of total 1,061 inhabited villages in the district, there are 74 villages which have nearest towns upto a distance of 5 kms. Of these only 59 villages forming 79.7 percent of total villages, are having the educational facilities atleast one type and 23 villages constituting 31.1 percent, have the medical facilities within the range of 5 km., 6 villages forming 8.1 percent have the facility of post office within the range of 5 km and 43 or 58.1 percent have the facility of telephone under the distance of 5 km. 10 villages constituting 13.5 percent have been linked by transport service. There is no facility of banks. 4 villages constituting only 5.4 percent have been provided by agricultural credit societies. 25 villages comprising 33.8 percent have been provided with

pucca road within the distance of 5 km. There are 462 inhabited villages in the district which fall in the distance range of 5-15 kms. Of these 421 villages constituting 91.1 percent have been provided with the educational facilities. 193 villages comprising 41.8 percent have been provided with medical facilities. 78 villages constituting 16.9 percent enjoy the post office facility. 319 villages comprising 69.0 percent have been provided the telephone facility. 96 villages constituting 20.8 percent have been linked with transport communications. 27 villages comprising 5.8 percent have bank facility. 64 villages constituting 13.9 percent are having agricultural credit societies, while 122 villages or 26.4 percent are approachable by pucca road. 492 villages fall in the distance range of 16-50 kms. Of these, 89.4 percent villages have educational facility, 27.2 percent with medical, 14.2 percent with post office, 61.4 percent with telephone, 15.2 percent with transport and communications. 5.9 percent and 11.4 percent villages with banks and agricultural credit societies facilities respectively are available. 83 (16.9 percent) villages have approach by pucca road facility.There are 32 inhabited villages in the district which fall in the distance range of 51+ kms.Of these 25 villages constituting 78.1 percent have been provided with the educational facilities. 6 villages comprising 18.8 percent have been provided with medical facilities. 3 villages constituting 9.4 percent enjoy the post office facility. 5 villages comprising 15.6 percent have been provided the telephone facility. 7 villages constituting 21.9 percent have been linked with transport communications. One village comprising 3.1 percent has bank facility and 2 village comprising 6.3 percent have agricultural credit societies. 6 villages or 18.8 percent are approachable by pucca road.

TABLE 41 : DISTRIBUTION OF VILLAGES ACCORDING TO POPULATION RANGE AND AMENITIES AVAILABLE, 2001

Note : Percentages are given in brackets.

* Based on the improved drinking water source, drinking water supply has been classified as 'Improved or otherwise. If the household has access to drinking water supplied from a tap or a hand pump/tube well situated within or outside the premises it is considered as having access to 'Improved drinking water source'. However, the concept of improved drinking water is state specific and this is to be considered accordingly.

\# Post office includes Post office, telegraph office and Post and telegraph office.

$ Transport communication includes bus service, rail facility and navigable waterways.

Table 41 deals with the distribution of villages by population ranges and amenities available therein. In Dewas district out of a total 1,061 inhabited villages, overwhelming 402 have a population of less than 500 persons. Of these, 292 villages (72.6 percent) have education facility, 72 (17.9 percent) have medical facility, 382(95.0 percent) have improved drinking water facility. 8 villages (2.0 percent) have post office facility. 173 (43.0 percent) have telephone facility. 21 (5.2 percent) have been linked by bus service. 3 (0.7 percent) have bank facility. 4 villages (1.0 percent) have agricultural credit societies facility, 33 villages (8.2 percent) have been linked with pucca road. 396 villages (98.5 percent) have been provided with electricity.

Out of 328 villages, which fall in the population range of 500-999 persons, 323 villages (98.5 percent) have been provided with the education facility, 88 (26.8 percent) with medical facility, centpercent villages have improved drinking water facility. 9 villages (2.7 percent) have been provided with post office facilities, 215 villages (65.5 percent) with telephone facility, 53 villages (16.2 percent) with transport facilities, 4 villages (1.2 percent) with bank facility, 12 villages (3.7 percent) with agricultural credit societies and 66 villages (20.1 percent) have approach by pucca road. All villages have facility of electricity.

241 villages fall in population range of 1,000-1,999 persons. Of these centpercent villages have been provided with the education facility, 125 (51.9 percent) with medical facility, 233 (96.7 percent) villages have improved drinking water facility. 67 villages (27.8 percent) have been provided with post office facilities, 198 villages (82.2 percent) with telephone facility, 57 villages (23.7 percent) with transport facilities, 10 villages (4.1 percent) with bank facility, 49 villages (20.3 percent) with agricultural credit societies and 72 villages (29.9 percent) have approach by pucca road. All villages have facility of electricity.

There are 80 villages in the district which are covered under 2,000-4,999 population range. Of these, cent percent villages have been provided with the education facility, 61 (76.3 percent) with medical facility, 79 (98.8 percent) villages have improved drinking water facility. 64 villages (80.0percent) have been provided with post office facilities, 74 villages (92.5 percent) with telephone facility, 49 villages (61.3 percent) with transport facilities, 31 villages (38.8 percent) with bank facility, 53 villages (66.3 percent) with agricultural credit societies and 56 villages (70.0 percent) have approach by pucca road. All villages in this range have facility of electricity.

There are 10 villages in the district which are covered under 5,000-9,999 population range. All villages have facilities of education, medical, improved drinking water, telephone, approach by pucca road and power supply. 9 villages have the facility of post office, transport & communication and banks. 8 villages avail the facility of agricultural credit societies.There is no village in the population range of more than 10,000.

TABLE 42 : DISTRIBUTION OF VILLAGES ACCORDING TO LAND USE, 2001

Serial number	Name of C. D. block	Number of inhabited villages	Total area	Percentage of cultivable area to total area	Percentage of irrigated area to total cultivable area
1	2	3	4	5	6
1	Tonk Khurd	109	63,164	78.1	28.0
2	Sonkatch	128	63,231	68.2	48.2
3	Dewas	220	88,227	81.9	53.9
4	Kannod	164	130,166	47.0	33.8
5	Bagli	272	139,017	48.4	41.5
6	Khategaon	168	108,560	58.7	40.1
	District Total:	1,061	592,365	60.2	41.4

Note : - Cultivable area = irrigated area + unirrigated area

Table 42 presents C.D blockwise distribution of villages according to land use. It also gives details of total area and cultivable area available of inhabited villages in the district. Cultivated area includes irrigated as well as unirrigated area.It further elaborates that what is the extent of cultivable area under irrigation.There are total 1,061 inhabited villages in the district having a total area of 592,365 hectares.

Of this, 60.2 percent is cultivable and 41.4 percent of total cultivable area has got the irrigation facility.

It is seen that percentage of cultivable area to total area is highest 81.9 percent in Dewas CD Block. It is lowest 47.0 percent in Kannod CD Block. The percentage of irrigated area to cultivable area is highest 53.9 percent in Dewas and lowest 28.0 in Tonk Khurd CD Block.

TABLE 43 : PER CAPITA RECEIPT AND EXPENDITURE IN STATUTORY TOWNS

Serial number	Class, name & urban status of the Town	Per capita expenditure								
		Total	Through taxes	From all other sources	Total	General Adminis-tration	Public health and conveniences	Public works	Public institutions	Other(s)

10	Satwas (NP)	3.7	2.7	0.9	0.9	0.0
11	Sonkatch (NP)	6.4	5.1	3.9	1.3	0.6
	District Total	3.3	1.6	1.1	0.8	0.2

In urban areas of Dewas district the average number of primary school per 10,000 population comes 3.3 schools, 1.6 junior secondary/middle, 1.1 secondary/matriculation, 0.8 senior secondary schools and the ratio of colleges is only 0.2 college per 10,000 population. Among the towns, the ratio of primary is highest in Bhaurasa (N.P) while lowest is Dewas(M. Corp.).

TABLE 45 : NUMBER OF BEDS IN MEDICAL INSTITUTIONS IN TOWNS, 2001

Serial number	Name and urban status of the Town	Number of beds in medical institutions per 10,000 population
1	2	3
1	Bagli(NP)	48
2	Bhaurasa(NP)	0
3	Dewas(M Corp.)	28
4	Hatpipalya(NP)	63
5	Kannod(NP)	20
6	Kantaphod(NP)	11
7	Karnawad(NP)	0
8	Khategaon(NP)	19
9	Loharda(NP)	6
10	Satwas(NP)	11
11	Sonkatch(NP)	19
	Distrct Total	26

Table 45 depicts the number of beds available in medical institutions per 10,000 population in each town of Dewas district. On an average there are 26 beds per 10,000 population in urban areas of the district. Whereas it is the highest 63 in Hatpiplaya(NP) while there is no beds recorded in Bhaurasa (NP) and Karnawad (NP).

TABLE 46 : PROPORTION OF SLUM POPULATION IN TOWNS, 2001

Serial number	Name of the Town	Total population	Slum population	Percentage of slum population to total population
1	2	3	4	5
1	Bagli	10,128	6,341	62.6
2	Bhaurasa	10,412	2,065	19.8
3	Dewas	231,672	40,474	17.5
4	Hatpiplya	15,933	2,075	13.0
5	Kannod	15,185	4,650	30.6
6	Kantaphod	9,256	3,500	37.8
7	Karnawad	10,262	2,441	23.8

Data source : Census of India 2001, H-series: Tables on Houses, Household amenities and Assets.

The data presented in Table 48 depicts number of households by tenure status and number of rooms occupied in the district. The total number of households in the district stands at 222,318 consisting of 160,433 rural and 61,885 urban households. 45,002 households belong to Scheduled Castes 34,618 to Scheduled Tribes. 199,505 households are living in their own houses constituting 89.7 percent of total households. Of these households, the largest number of households (74,482) have occupied single room accommodation and is followed by two room accommodation numbering to 67,857 households. Next position is claimed by households (29,014) occupying three room accommodation. Number of households in owned accommodation occupying three plus rooms rank at fourth place with 25,283 households while 2,869 households are without any exclusive room.

16,876 households living in rented accommodation account for 7.6 per cent of total number of households in the district. The largest number of 7,098 households are living in single room accommodation followed by 6,114 households in two room accommodation. Next position is claimed by households (2,581) occupying three rooms accomodation. Households with three plus are 963 in numbers and 120 housels are with no exclusive room.

Other households numbering to 5,937 forming only 2.7 per cent of total households are distributed in single room accommodation numbering 3,436 double room, 1423 in three room, 547 and 339 are in three plus while 192 households are without any exclusive room.

TABLE 49 : PERCENTAGE DISTRIBUTION OF HOUSEHOLDS LIVING IN PERMANENT, SEMI-PERMANENT AND TEMPORARY HOUSES, 2001

Serial number	District/ Tahsil	Total			Rural			Urban		
		Permanent	Semi-permanent	Temporary	Permanent	Semi-permanent	Temporary	Permanent	Semi-permanent	Temporary

	District Total:	42.8	54.1	3.1	33.1	63.4	3.5	68.0	29.9	2.1

Data source : Census of India 2001, H-series: Tables on Houses, Household amenities and Assets.

The data presented in Table 49 reveals that 42.8 percent of household of the district are living in houses made of pucca materials, residences of 54.1 percent households are semi permanent houses and 3.1 percent households have temporary houses.

District-wise percentage in urban areas indicates that majority of households i.e. 68.0 percent are living in houses constructed of pucca materials, 29.9 percent in semi-permanent structure and percentage of households in temporary houses is 2.1 constructed of kutcha materials. At rural level, the lowest percentage of 30.1 households occupying permanent structure is found in Kannod tahsil while highest percentage of 39.7 is seen in Khategaon tahsil. The proportion of semi-permanent houses is high in Dewas (67.8) and lowest in Khategaon (51.8) tahsil. The proportion of temporary houses is quite low in all tahsils and highest is 8.5 percent in Khategaon tahsils followed by 7.0 percent in Kannod tahsil, 2.9 percent in Balgi, 1.5 percent in Sonkatch and 1.2 percent in Dewas tahsils.

TABLE 50 : PERCENTAGE OF HOUSEHOLDS HAVING IMPROVED DRINKING WATER SOURCE, ELECTRICITY, BATHROOM, TOILET AND DRAINAGE FACILITY, 2001

Data source: Census of India 2001, H-series: Tables on Houses, Household amenities and Assets.

Note: Percentage is given in brackets below the number of households. Bathroom means bathroom within the house Toilet means toilet within the house. Drainage menas closed and open drainage.

Table 50 indicates that 62.2 percent households in the district have been provided with improved drinking water supplied from a tap or a hand-pump/ tube-well, 89.1 percent households have provision of electricity in their houses. 86.5 per cent rural households have facility of electricity against 95.6 per cent in urban areas. The bathroom facility is available to only 30.3 percent households within their premises. As regards rural areas, 15.6 percent households are having bathroom facility, whereas this proportion in urban areas comes to 68.4 percent. Toilet and drainage facilities in the district are available to 28.3 percent and 34.3 percent households respectively. Their percentage is higher in urban areas as compared to rural areas. The trend of these amenities available to the households at tahsil level almost conforms to the district pattern analysed.The percentage distribution of households by type of fuel used for cooking purposes is given in.

TABLE 51 : NUMBER AND PER CENT OF HOUSEHOLDS BY TYPE OF FUEL USED FOR COOKING, 2001

The percentage distribution of households by type of fuel used for cooking purposes is given in Table 51. There are nine types of fuels used for which data have been presented in the table. It is observed that fire wood is used as the most predominant fuel used for cooking by 67.5 percent households in the district. In the tahsils, this proportion varies between 89.8 percent in Bagli and 36.9 percent in Dewas tahsil. In rural areas use of wood for cooking is very high while in urban areas it is used by a smaller amount of population due to availability of L.P.G.. The next cooking fuel is L.P.G which is used by 14.5 percent households in the district. This proportion in rural and urban areas is 3.0 and 44.3 percent respectively. Next fuel is cowdung cake and used by 9.9 percent in district.Use of cowdug cake in rural area for cooking is 13.5 percent as compared to urban areas(0.6) at district level. There are 4.3 percent households using kerosene in the district. Use of kerosene for cooking by rural households comes to 0.8 percent while in urban areas its proportion is only 13.5 percent. There are 2.3 percent households using crop residue in the district. Use of crop residue for cooking by urban households comes to 1.8 percent while in rural areas its proportion is only 2.4 percent, as a whole. The percentage of households using other types of fuel such as electricity, coal, biogas, etc. is insignificant. In rural areas wood is main fuel and in urban areas cooking gas is used as predominant fuel.

TABLE 52 : NUMBER OF HOUSEHOLDS AVAILING BANKING SERVICES AND NUMBER OF HOUSEHOLDS HAVING EACH OF THE SPECIFIED ASSET, 2001

Data source: Census of India 2001, H-series: Table on Houses, Household amenities and Assets.

This table presents data for total, rural and urban areas at district/tahsil/sub-tahsil level about households availing banking services and possession of assets such radio/transistor, telephone, bicycle, scooter and car etc. by the households.There are 222,318 households in the district and among them, 67,589 households have been availing banking services. 45,741 households have radio/transistor. Television is possessed by 92,453 households. Telephone is available in 16,328 households. Bicycle is the most common means of transportation and is available in 97,388 households. Scooter, motor cycle, moped(two wheelers) and car, jeep, van(four wheelers) are used by 30,457 and 3,871 households respectively. The number of households not having any of these specified assets is 85,650.

(xi)Major Social and Cultural events, Natural and Adminstrative development and significant activities during the decade:

Three tier Panchayat Raj system was imposed in the district as per Madhya Pradesh Panchayati Raj Adhinium 1993. Two pilgrimage places were stated

ie. Sonkatch the Pushp Giri pilgrimage on the adjoining hill of Bhopal-Dewas road and the Digamber Jain Siddhofaya pilgrimage near Nemawar on the bank of Narmada.

(xii) Brief description of places of religious, historical, archaeological and places of tourist interest and in villages in the town of the district

Places of interests:

1. Bagli: Lying at a distance of 8 km. south of Chhapara on the Indore-Nemawar road Bagli was coming up into importance gradually. Till 1948, it was the headquarters of the petty estate of the Nimanpur *pargana* of the erstwhile Dhar State. The Jatashankar temple, in the town, is believed to be very old. The Sitamandir in the adjoining villages of Nimanpur and Pipli, claims similar antiquity. There is a local legend that Lord *Rama* sent *Sita* in exile at this place. Her sons *Lava* and *Kusa* were born here at *Valmiki's* hermitage. In the nearby village Katu Kata Another village by name is Dhardi has fine waterfall on the Narmada and a ruined old Bana-linga stone old fort.

2. *Hatpiplia:* Lying at a distance of about 14 km. from Bagli tahsil. Hatpiplia is the flourishing town of the tahsil headquarters of the same name *Hatpiplia*.The town possesses several good temples one of which enshrines a stone idol of Lord *Narsimha*, weighing about 7 kg.

3. *Satwas:* A large and important village of Kannod tahsil, Satwas is situated midway between the Chandkesar and Dhatuni river. During the Mugal period Satwas was the prosperous being headquarters of a *mahal* in Handia *Sarar* and assessed at 98,080 dams revenue.It has an old fort, a mosque and two fine step wells of which one is known as Hath Baori as elephant used to drink water from it. The headquarters of the Pindari leaders, Nawab Chitu for many years and his garden, known as Nawab-ka-bagh is still existing here.

4. *Siya:* Siya is situated on the Agra-Mumbai road, at a distance of about 11 km. east of Dewas its tahsil headquarters. One silted tank called as Mirza Sagar measuring about 200 feet in length and 5 feet in breadth, is made entirely of these Sati pillars from a Hindu temple and Hindu and Jain icons.

5. Sonkatch: Situated on the Indore-Bhopal main road, at a distance of about 28 km east of Dewas and just on the bank of the Kalisindh river,. Sonkatch is the headquarters of a tahsil of the same name. Formally it was the *pargana* headquarters of the Sonkatch. The river bed and the sand on its bank are abundant in mica, and it was probably for this reason that Sonkatch was once known as *Suvarnakachha*. Three mosque and several old temples including *Pipaleshwar* and *Nagchandkeshwar* temples are also located. Sonkatch has grain *mandi* and the stone cutters of this place are known for their skill.

6. *Dewas*: Situated on the National Highways No. 3 (Agra Bombay) lying on the foot of *Chamunda Pahar,* Dewas is the headquarter town of the district. Chamunda Pahar, the image of goddess, cut in the rocky wall of a cave, is in standing posture, measuring about 2.5 meters in height. It is mounted by a broad flight of stone steps. Dewas has two old temples of Lord Shiva namely, Seelnath Mahadeva and Bhoalnath Mahadeve as well worth seeing Jain temple in addition to *Kancha Mahal (Glass palace)* built by *Abdul Salam Kanungo* places of the junior branch as well as the *Malhar Memorial temple* and *Vikram Meeting Hall* meant for cultural functions.

7. *Nemawar*: Picturesquely situated on the north bank of the Narmada, close to its confluence with the Jamne Nemawar, is a village of Khategoan tahsil. In the *puranas* the place is referred to as Nabhapur. *Al Biruni* who traveled to India with *Mahmud Gazni* in the 11th century also mentioned about this place.

(xiii) Major characteristics of the district contribution of the district in the form of any historical figure associated with the district.

The headquarters town of the district is associated with well known Siva temple atop of a hillock and there are some standard cotton textile mills. Kirloskar, Gajara Gears, Tata leather wares and the Note Press factory etc have increased name and fame of the town. When the Quit India Movement was launched in 1942, Bapulal Malviya was actively associated with the movement in the district. Maya Ram Nanda, Anant Sadasiv Patwardhan, Hindu Singh etc. were amongst those who steered the movement from time to time.

(xiv)Scope of Village Directory and Town Directory

Village Directory :

The Village Directory is one of the traditional compilations of the census organisation and provides the consolidated picture of each village as revealed by the availability of existing amenities, land use pattern, composition of its population and other infrastructural details. This will be of immense help to identify the areas of surplus and deficit requiring the attention of planners and administrators for rescheduling the development process in appropriate direction. The format of village directory has 25 columns providing village-wise data of location, area, population, land use pattern and amenities etc.

The details of each column of village directory are explained as below :

Column-1 Serial number of the village is indicated in this column.

Column-2 gives the name of the village and permanent location code number (PLCN) assigned to each village in serpentine manner from north-west to south direction and is essential for identification of village. The concept of permanent location code number has been introduced first time in 2001 Census by assigning eight digit number starting from the first village of the first tahsil of first district of the state to the last village of last tahsil of the last district. In the state of Madhya Pradesh first PLCN 00000100 has been assigned to village 'DANDETI in Vijaypur tahsil of Sheopur district which is the first villageof first tahsil of first district of Madhya Pradesh while the last PLCN of 05539300 has been assigned to the last village 'MATAGHAT' of the state in Lanji tahsil of Balaghat district which happen to be last as per procedure adopted for assigning location code number. The district census handbook of 1991 Census as well as updated district and tahsil maps and services of local revenue officers/officials have been used to assign the PLCN to the villages. The last two zeros are used if new villages are created out of existing villages in subsequent census. Before 2001 census, village location code number used to change from one census to other due to change in jurisdictions or creation of villages or merger of villages in urban areas. The district handbook of 1991 Census has been used as basis for filling up the name of the village including the forest and uninhabited villages. But to ensure the accuracy, the list of villages and their names were got authenticated from the respective Tahsildars of each tahsil.

Column-3 shows the area (in hectares) of the village as indicated by the State Revenue Department.

Columns – 4 and 5 gives the population and number of households in each village which facilitate the correlation between the amenities available to the population and number of households in the village.

Columns 6 to 9 deal with the amenities like education, medical, drinking water, post, telegraph and telephone etc. The information relating to these amenities were filled by the Patwari of concerned village in village directory booklet which were subsequently cross checked with district census handbook of 1991 as well as with the information collected from the various departments to ensure

The district handbook of 1991 Census has been used as basis for filling up the name of the village including the forest and uninhabited villages. But to ensure the accuracy, the list of villages and their names were got authenticated from the respective Tahsildars of each tahsil.

Column-3 shows the area (in hectares) of the village as indicated by the State Revenue Department.

Columns – 4 and 5 gives the population and number of households in each village which facilitate the correlation between the amenities available to the population and number of households in the village.

Columns 6 to 9 deal with the amenities like education, medical, drinking water, post, telegraph and telephone etc. The information relating to these amenities were filled by the Patwari of concerned village in village directory booklet which were subsequently cross checked with district census handbook of 1991 as well as with the information collected from the various departments to ensure the accuracy of information provided. In such cases where no facility is available within a village, a dash (-) has been shown in the column and next to it in brackets, the distance from the village in broad ranges viz. upto 5 kms., 5-10 kms. and 10+ kms. of the nearest place where the facility is available has been given. This will help not only for local area planning but in regulating the provisions of goods and services as well, as to minimize the regional imbalance in the process of development. The abbreviations used to indicate these amenities have been explained separately in the subsequent section. The list of colleges, senior secondary schools, hospitals, post and telegraph offices in the district as obtained from the concerned departments are also added in the form of annexures at the end.

Column-10 shows the number of banks – Commercial banks and Co-operative banks. In addition to this, the list of banks procured from the lead bank of the district has also been added in this book.

Column-11 relates to number of credit societies, such as agricultural credit societies, non-agricultural credit societies and other cooperative societies.

Column-12 shows the number of recreational and cultural facilities viz. Cinema/video hall, sports club, stadium/auditorium facility available in the villages.

Column-13 Indicates the type of communicational amenities such as by bus, railway or navigable waterway available to the village.

Column-14 refers to the state of roads etc. leading to the village. This is useful in determining as to whether the village is approachable both in fair and foul weather by paved road, mud road, foot path and navigable water ways.

Column-15 gives the information of the nearest town and its distance in Kms. from the village in brackets from the referent village. In case, the nearest town is located in another state, the name of the state has also been furnished.

Column-16 relates to the availability of power supply to the village with purposes such as domestic, agricultural use, other purposes or for purposes which are denoted by the abbreviations.

Column-17 gives the information as to whether newspapers/magazines are received in the village.

Column-18 gives the information of most important commodities manufactured in the village.

Columns- 19 to 23 give the details about land utilization. The land use pattern given in the village directory conforms to the pattern of classification of

the accuracy of information provided. In such cases where no facility is available within a village, a dash (-) has been shown in the column and next to it in brackets, the distance from the village in broad ranges viz. upto 5 kms., 5-10 kms. and 10+ kms. of the nearest place where the facility is available has been given. This will help not only for local area planning but in regulating the provisions of goods and services as well, as to minimize the regional imbalance in the process of development. The abbreviations used to indicate these amenities have been explained separately in the subsequent section. The list of colleges, senior secondary schools, hospitals, post and telegraph offices in the district as obtained from the concerned departments are also added in the form of annexures at the end.

Column-10 shows the number of banks – Commercial banks and Co-operative banks. In addition to this, the list of banks procured from the lead bank of the district has also been added in this book.

Column-11 relates to number of credit societies, such as agricultural credit societies, non-agricultural credit societies and other cooperative societies.

Column-12 shows the number of recreational and cultural facilities viz. Cinema/video hall, sports club, stadium/auditorium facility available in the villages.

Column-13 Indicates the type of communicational amenities such as by bus, railway or navigable waterway available to the village.

Column-14 refers to the state of roads etc. leading to the village. This is useful in determining as to whether the village is approachable both in fair and foul weather by paved road, mud road, foot path and navigable water ways.

Column-15 gives the information of the nearest town and its distance in Kms. from the village in brackets from the referent village. In case, the nearest town is located in another state, the name of the state has also been furnished.

Column-16 relates to the availability of power supply to the village with purposes such as domestic, agricultural use, other purposes or for purposes which are denoted by the abbreviations.

Column-17 gives the information as to whether newspapers/magazines are received in the village.

Column-18 gives the information of most important commodities manufactured in the village.

Columns- 19 to 23 give the details about land utilization. The land use pattern given in the village directory conforms to the pattern of classification of land use as recommended by the Ministry of Agriculture, Government of India. The Ministry of Agriculture, has recommended the maintenance of records of land use pattern under five categories. These are as follows :

i) Forests

ii) Irrigated

iii) Unirrigated

iv) Culturable waste (including Gauchar and Groves)

v) Area not available for cultivation

Forest area shown in column-19 includes all lands classed under any legal enactment dealing with forests or administered as forests, whether state owned or private and whether wooded or maintained as potential forest land. The crops raised in the forests and grazing lands or areas open for grazing within the forest is also included under the forest area.

Column 20 and 21 shows area irrigated by different sources of irrigation and un-irrigated area. These two columns cover all agricultural land which equals to net cropped area sown with crops and orchards including current and other fallow lands. In case of irrigated land, the source of irrigation has also been indicated.

Column-22 Culturable waste : This includes all lands available for cultivation whether not taken up for cultivation or taken up for cultivation once but not cultivated during the five years or more in succession. Such lands may be either fallow or covered with shrubs and jungles which are not put to any use. Lands under thatching grasses, bamboo bushes and other groves for fuel etc., which are not included under orchards or forests come

under this column. All grazing lands, whether they are permanent pastures and meadows or not, village common and grazing lands within forest area are also included in this column.

Column- 23 Area not available for cultivation : This includes land not available for cultivation such as barren, unculturable land and land put to non-agricultural use. Land put to non-agricultural use stands for all lands occupied by buildings, roads and railways or under water etc. Barren and unculturable lands cover all lands like mountains and deserts which cannot be put under cultivation, except at a very high cost.

Town Directory :

The Town Directory is presented for each town in the district covering different aspects of urban life. Seven statements (I to VII) have been included for presentation of this data. The data contained in these statements are the area, population of 2001 and past censuses, growth rates, density, sex ratio, physical aspects of town, communications, municipal finances, civic, medical, educational and other amenities and trade, commerce, industry and banking facilities. It covers all the towns in the district statutorily notified as well as non-municipal towns. All the towns in the district are arranged in alphabetical order.

The data collected in these statements have largely been furnished by the municipal bodies. For non-municipal towns, the cantonment executive officers supplied the information.

Statement-I Status and Growth History :

The statement runs into 22 columns and is primarily intended to throw up a comparative picture of each town in different censuses from 1901 to 2001. Civic administration status of each town is shown under column 2 and Location Code number in column 3 whereas column 4 indicates the name of tahsil to which town belongs. While column 5 shows the name of CD block, area of each town in sq. kms. is depicted under column 6 column 7 deals with the number of households including houseless households as per the 2001 Census. Columns 8 to 18 deal with population and growth rate of the towns at different censuses from 1901 to 2001. Column 19 of the statement shows density of towns as per the 2001 Census. Columns 20 to 22 depict the sex ratio from 1981 to 2001 Census.

Statement-II Physical Aspects and Location of Towns, 1991

In this statement data on annual rainfall, maximum and minimum temperature are shown under columns 3 to 5. Columns 6 to 8 indicate the name and road distance of the state, district, sub-divisional and tahsil/sub-tahsil headquarters. Column 9 shows the name of nearest city with population of one lakh or more and columns 10 to 12 give information regarding name and road distance of the nearest railway station, bus route, navigable river/canal (if within 10 Kms.)

Statement-III Municipal Finance, 1998-99

This statement shows the receipt and expenditure of Municipal Finance of individual towns for the year 1998-99 under different heads. There are in all 16 columns in the statement showing receipt and expenditure under different heads.

Statement IV Civic and Other Amenities, 1999

The statement displays this information under 20 columns. The amenities about which information has been incorporated are road length (with break-up by Kutcha and Pucca), system of sewerage, drainage and other related matters such as water supply, fire fighting services and electrification etc.

Statement-V Medical, Educational, Recreational and Cultural Facilities, 1999

This statement displays information under 20 heads and it intends to depict the degree of availability of medical facilities by type of institutions and number of hospital beds available in each institution. Educational facilities by level/ type of courses and recreational and cultural facilities.

Statement-VI Trade, Commerce, Industry and Banking, 1999

This statement presents the information under 11 columns in respect of each town. Columns 3 to 8 indicate three most important commodities

imported, exported and manufactured in the town. Information on number of banks available in the town appears under column 9. Columns 10 and 11 shows number of agricultural and non-agricultural credit societies operating in each town respectively.

Statement-VII Civic and other amenities in Slums, 1999

This Statement gives the information relationg to civic and other amenities in respect of slum areas of towns, where the population exceeds 50,000 as per 2001 census. The codes used in col. 8 and 13 are the same as for statement IV.

PART A - VILLAGE AND TOWN DIRECTORY

Section I - Village Directory

(a) Notes explaining the abbreviations used in Village Directory

The "Village Directory" is one of the traditional compilations of the Census. It gives the list of villages, their location numbers, their area, population, number of households, amenities such as educational, medical, drinking water, post and telegraph, commercial and co-operative banks, agricultural non-agricultural and other credit societies, recreational and cultural facilities, communication, approach to village, nearest town with a distance, power supply availability of newspaper and magazines, most important commodity manufactured and land use of each village.

Village is a statutory recognized unit having a definite boundary and separate land records. In case, a complete village is treated as an outgrowth of urban agglomeration, data on amenities for that village, have not been given in the Village Directory but shown along with the urban component. The villages which are consider as a Census Town , the amenities data are shown in the Town Directory. For those villages which have partly merged in an outgrowth of U.A., the amenities data are shown in the Village Directory for that particular village.

The 'un-inhabited' villages (villages with no population) have been indicated as such after furnishing details in columns 1 to 3 i.e., Serial number, Name of village & location code number and area of the village against column no. 4 to 18. The land use data for such villages are shown in col. 19 to 23

The Village Directory format has 23 columns and the details given under each column are for the village are as follows:-

Columns 1 : Serial Number

Self explanatory. All the villages within the CD Block are presented serially in the ascending order of their location code number.

Columns 2 : Name and Location Code Number of village.

The name and location code number of the village are shown against these columns. This also includes the forest and uninhabited villages.

Column 3 : Area of the village

The area of the villages in hectares are given. Wherever the area figures was not furnished by the concerned department the column is left blank.

Column 4 : Total population

The total population of the village as per 2001 Census is given against this column.

Column 5 : Number of households

The number of households as per 2001 Census is given in this column.

Amenities :

In column 6 to 23, availability in respect of different amenities such as education, medical, drinking water, post office, telegraph, banks, credit societies, communication, power, approach road etc. in each village has been depicted with appropriate codes against the column concerned. Wherever the amenities are not available in the village, a dash (-) is shown in the column and next to it in brackets the distance in broad ranges viz.< 5 kms., 5-10 kms. and 10+ kms of the nearest place where the facility is available is given. Column wise details are given below :

Column 6 : Educational

Classes upto class V included in Primary School. This will include nursery school, kindergarten school. Pre-basic school, pre-primary school, junior basic school upto class V.

Classes from VI to VIII are included in the middle school.

Classes from IX and X included in High secondary school. Classes XI and XII are included in senior secondary school.

In case of composite schools like middle school with primary school or secondary school with middle school, these are also included in the number of primary and middle schools, respectively.

Accordingly any of the following types of institutions if exists within the village is shown as per codes given below :

(i)	Primary School	P
(ii)	Middle School	M
(iii)	Secondary School	S
(iv)	Senior Secondary School	PUC
(v)	College	C
(vi)	Industrial School	I
(vii)	Training School	Tr
(viii)	Adult literacy class/centre	AC
(ix)	Others (specify) e.g. Sanskrit Pathshala, Senior basic school, Navodaya Vidyalaya, Makhtab, etc.	O

More than one institution of a type in the village is indicated by the number within brackets against the abbreviation, e.g. P(3), M(4), etc.

Column 7 : Medical

Availability of medical facility within the village is indicated by following codes :

(i)	Allopathic Hospital	H
	Ayurvedic Hospital	HA
	Unani Hospital	HU
	Homeopathic Hospital	H Hom
(ii)	Allopathic Dispensary	D
	Ayurvedic Dispensary	DA
	Unani Dispensary	DU
	Homeopathic Dispensary	D Hom
iii)	Maternity & Child Welfare	MCW
(iv)	Maternity Home	MH
(v)	Child Welfare Centre	CWC
(vi)	Health Centre	HC
(vii)	Primary Health Centre	PHC
(viii)	Primary Health Sub-Centre	PHS
(ix)	Family Welfare Centre	FWC
(x)	T.B. Clinic	TB
(xi)	Nursing Home	NH
(xii)	Registered Private Medical Practitioner	RMP
(xiii)	Subsidised Medical Practitioner	SMP
(xiv)	Community Health Worker	CHW
(xv)	Others	O

More than one institution of a type in the village is indicated by the number within brackets against the abbreviations, e.g. H(3), D(4), etc.

Column 8 : Drinking Water

The type of the drinking water supply sources available within the village are indicated by codes as follows :

(i)	Tap Water	T
(ii)	Well Water	W
(iii)	Tank Water	TK
(iv)	Tubewell Water	TW
(v)	Handpump	HP
(vi)	River Water	R
(vii)	Canal	C
(viii)	Lake	L
(ix)	Spring	S
(x)	Others	O
(xi)	Summer Sorce	SS

Column 9 : Post, Telegraph and Telephone

It is indicated by codes as shown below whether within the village exists the following amenities:

(i)	Post Office	PO
(ii)	Telegraph Office	TO
(iii)	Post & Telegraph Office	PTO
(iv)	Telephone Connection	PH

Column 10: Commercial and Co-operative Banks

If the village is served by any banking service, commercial bank, co-operative bank etc.
the same is indicated in codes mentioned below along with the number of banks in brackets. If not available the distance of nearest place where the facility exist is given:

(i)	Commercial Bank	CM
(ii)	Co-operative Bank	CP

Column 11: Credit Societies

If the village enjoys the services of Credit Societies i.e. Agricultural Credit Societies, Non Agricultural Credit Society or Other Credit Societies, the same is indicated in codes mentioned below along with the number of such societies in brackets. In case the facility is not available within the village the distance of the nearest place where such facility exist is given :

(i)	Agricultural Credit Society	ACS
(ii)	Non- Agricultural Credit Society	NCS
(iii)	Other Credit Society	OCS

Column 12 : Recreational and cultural facilities

If facilities such as Cinema/Video hall, Sports Club, Stadium/Auditorium is available in the village, the same is recorded in these columns. If not available the particulars of the nearest place with the facility is recorded. The information is indicated in codes mentioned below along with the number of such facilities in brackets:

(i)	Cinema / Video Hall	CV
(ii)	Sports Club	SP
(iii)	Stadium / Auditorium	ST

Column 13 : Communications

If the village is served by any mode of public / private transport like Bus, Railway station or Navigable water ways they are to be mentioned as follows:

(i)	Bus	BS
(ii)	Railway Station	RS
(iii)	Navigable Waterway	NW

Column 14 : Approach to village

Approach to village refers to the state of road leading to village. The approach to the village is indicated in following codes :

(i)	Paved Road	PR
(ii)	Mud road	MR
(iii)	Foot path	FP
(iv)	Navigable River	NR
(v)	Navigable Canal	NC
(vi)	Navigable waterways other than River, Canal	NW

Column 15 : Nearest Town and distance

The distance is given in kilometers in brackets against the name of the town nearest to the village.

Column 16 : Power supply

Availability of Power Supply in the village, whatever may be the form of its use is given by using following codes :

(i)	Electricity for domestic use	ED
(ii)	Electricity for agricultural use	EAG
(iii)	Electricity for other purposes	EO
(iv)	Electricity for all purposes	EA

Column 17 : News Paper / Magazine

If village receives any News Paper/Magazines the same is noted in this column using following codes :

(i)	News Paper	N
(ii)	Magazine	M

Column 18 : Most important commodities manufactured

The name of three most important commodities manufactured in the village is recorded against this column.

Column 19 to 23 : Land use i.e. area under different types of land use

Land use data maintained by the State/ UT Govts. are furnished against these columns. The data concerning area under Forest, Irrigated land (by source), Un-irrigated land, Culturable waste and Area not available for cultivation in the village are shown against these columns. The area figures are given in hectare(s) up to one decimal. Desh '-' is recorded wherever the information is not made available by the concerned department. The codes used for different types of irrigation facilities available in the village are indicated below:

(i)	Government Canal	GC
(ii)	Private Canal	PC
(iii)	Well (without electricity)	W
(iv)	Well (with electricity)	WE
(v)	Tubewell(without electricity)	TW
(vi)	Tubewell(with electricity)	TWE

(vii)	Tank	TK
(viii)	River	R
(ix)	Lake	L
(x)	Waterfall	WF
(xi)	Others	O
(xii)	Total	T

The village directory also carries the following appendices.

Appendix-I It gives the abstract of educational, medical and other amenities available in villages CD Block wise of the district.

Appendix-I-A Indicates number of villages CD Block wise having one or more primary schools.

Appendix-I-B Indicates number of villages CD Block wise having primary, middle and secondary schools.

Appendix-I-C Shows number of villages CD Block wise with different sources of drinking water facilities.

Appendix-II Indicates the list of villages with 5,000 and above population which do not have one or more important amenities.

Appendix-II-A Indicates list of Census Towns which do not have one or more amenities.

Appendix-III It gives the land utilization data in respect of Census Towns / non-municipal Towns.

Appendix-IV CD Block wise list of inhabited villages where no amenity other than drinking water facility is available.

Appendix-V Summary showing number of villages having or not having Scheduled Castes population.

Appendix-VI Summary showing number of villages having or not having Scheduled Tribes population.

Appendix-VII A The appendix shows the list of villages according to the proportion of the Scheduled Castes to the total population by ranges.

Appendix-VII B The appendix shows the list of villages according to the proportion of the Scheduled Tribes to the total population by ranges.

Appendix-VIII Shows number of different types of girls school in a village.

(b) List of Villages merged in towns and outgrowths at 2001 Census

Name of the District	Name of Town	Name of Villages merged in towns	Fully/Partly Merged
		Nil

SECTION II TOWN DIRECTORY

Notes Explaining the Codes Used in the town Directory

Town Directory statements (I to VII)

Statement I : Status and Growth History

Column (2) : Class, name and civic administration status of town :

Class has been introduced to facilitate analysis of town directory data at the state and all India levels. It is presented according to 2001 Census Population of the town as follows :

Population	Class
100,000 and above	I
50,000 - 99,999	II
20,000 - 49,999	III
10,000 - 19,999	IV
5,000 - 9,999	V
Below 5,000	VI

Town with a population of one hundred thousand (1,00,000)and above is treated as a city.

The civic administration status of the towns is indicated within bracket against the name of the town. The following abbreviations are used to denote civic status of town.

(I)	Municipal Corporation	M. Corp.
(II)	Municipal Committee	MC
(III)	Municipal Council	M Cl
(IV)	City Municipal Council	CMC
(V)	Town Municipal Council	TMC
(VI)	Municipal Board	MB
(VII)	Municipality	M
(VIII)	Cantonment Board/Cantonment	CB
(IX)	Notified Area	NA
(X)	Notified Town	NT
(XI)	Notified Area Committee/ Notified Area Council	NAC
(XII)	Notified Town Area	NTA
(XIII)	Industrial Notified Area	INA
(XIV)	Industrial Township	ITS
(XV)	Township	TS
(XVI)	Town Panchayat	TP
(XVII)	Nagar Panchayat	NP
(XVIII)	Town Committee/ Town Area Committee	TC
(XIX)	Small Town Committee	ST
(XX)	Estate office	EO
(XXI)	Gram Panchayat	GP
(XXII)	Census Town	CT

Others columns need no comments.

Statement II - Physical Aspects and Location of towns, 1999.

Column 3 to 5 : Physical Aspects

In this columns the Rainfall and Maximum & Minimum Temperature of the town is recorded.

Column 6, 7 and 8 :

Name of the State headquarters, District headquarters and Sub-Divisional headquarters with distance from the referent town in kilometers, is to be recorded respectively. If the names mentioned in these columns are the same as the referent town itself, the distance is recorded as (0) zero.

Column 9& 10 :

Name of the nearest city with one lakh and more and five lakhs and more population are recorded.

Column 11, 12 and 13 :

If referent town enjoys the facility of railway station, bus route facility or navigable river/canal. Its name is to be mentioned. If not available, then the name of nearest place with distance, where such facility exists is to be mentioned.

Statement III : Municipal Finance 1998 – 1999

Item-wise amount of receipt and expenditure in thousand rupees, relating to municipal finance of the town for the year 1998-99 is to be recorded.

Statement IV : Civic and Other amenities, 1999

Column (1 to 5) : Self explanatory.

Column (6) : Road length (in kms.)

Information about kutcha / pucca road is to be recorded separately for the roads within the limits of the referent town.

(i)	Pucca Road	PR
(ii)	Kutcha Road	KR

Column (7) : System of Sewerage

Generally, by sewerage system is implied the network of mains and branches of underground conduits for the conveyance of sewerage to the point of disposal. Sewers that carry only household and industrial wastes are called separate sewers, those that carry storm water from roofs, streets and other surface are known as storm water drains, while those carrying both sewage and storm water are called combined sewers.

The codes used for different types of drainage system are as follows :

(i)	Sewer	S
(ii)	Open Surface Drains	OSD
(iii)	Box Surface Drains	BSD
(iv)	Sylk Drains	SD
(v)	Cesspool method	CP
(vi)	Pit System	Pt
(vii)	Others	O

Column 8 to 11 : Number of latrines

Number of various types of latrines both Public and Private are given in these columns.

Column 12 : Method of disposal of night soil

The various prevalent method of disposal of night soil are given below with codes :

Head Loads	HL
Basket	B
Wheel Barrows	WB
Septic Tank	ST
Pit System	Pt
Sewerage	S
Others	O

Column 13 and 14 : Water supply

Source and capacity of storage system. The following codes are used in these columns:

Column 13:

(i)	Tap water	T
(ii)	Tube-well water	TW
(iii)	Tank Water	TK
(iv)	Well water	W

Column 14:

(v)	Over Head Tank	OHT
(vi)	Service Reservoir	SR
(vii)	River Infiltration Gallery	RIG
(viii)	Bore Well Pumping System	BWP
(ix)	Pressure Tank	PT

The information on major source of water supply are given in column 13 and the storage capacity against each in kilo-litres (in bracket) are presented in column 14.

Column 15 : Fire Fighting Service

In case the fire fighting service is available in the referent town 'yes' is recorded. If the facility is not available within the town. The name of the nearest place having this facility with its distance from the referent town has been recorded.

Column 16 to 20 : Electrification (Number of connections)

Different types of electric connections have been shown in these columns, i.e. Domestic, Industrial, Commercial, Road lighting (points) & others.

Statement V : Medical, Educational, Recreational and Cultural Facilities, 1999

Column 1 to 3 : Self explanatory.

Column 4 & 5 :

The data covers all such medical institutions run by or aided by Government/Semi Government/Local bodies and Charitable institutions or Social agencies like the Missionaries. Where the family planning centres are attached to hospitals or maternity and child welfare centres or Primary Health Centres, may be treated as independent units and counted separately using following codes :

(i)	Hospital	H
(ii)	Dispensary	D

(iii)	Health Centre	HC
(iv)	Family Welfare Centre	FWC
(v)	T.B. Clinic	TB
(vi)	Nursing Home	NH
(vii)	Others	O

In case of more than one institutions of any type, it is indicated within brackets the number of such institution (s) e.g. D(3), NH(8), etc. The institutions have further been distinguished by providing additional codes within the bracket as given below :

Ayurvedic	A
Unani	U
Homoeopathic	Hom

Column 6 to 9 :

The codes used for these columns are as follows :

(i)	Arts only	A
(ii)	Science only	S
(iii)	Commerce only	C
(iv)	Arts & Science only	AS
(v)	Arts & Commerce only	AC
(vi)	Combined for all categories-Arts, Science and Commerce	ASC
(vii)	Law	L
(viii)	University	U
(ix)	Others	O

Column 10 : Recognized shorthand, typewriting and vocational training institutes

"Recognised" should mean recognised by some statutory authority, like education department, commerce department, labour department etc. of the government or semi government or autonomous bodies, public sector undertakings etc.

The following codes are used :

(i)	Vocational Training Institute	VT
(ii)	Shorthand	SH
(iii)	Typewriting	Type
(iv)	Shorthand & Typewriting	SH Type
(v)	Others	O

The vocational institutions like - Applied Art/ Painting college, Pharmacy college, B. Ed. College, Teacher's Training Institute, Music / Dance School, Nursing School etc. are covered under 'Others'.

Column 11 to 14: Higher Secondary/Intermediate/ Senior Secondary/PUC/Junior College level, Secondary/Matriculation, Middle Schools/ Junior Secondary and Primary Schools.

School up to class V are treated as Primary or elementary schools. These include Nursery schools, Kindergarten schools, Pre-Primary schools, Junior Basic schools upto class V and Primary schools upto class IV.

Schools upto VIII are considered as Middle school or Junior Secondary.

Schools upto class X are considered as Matriculation or Secondary schools.

Schools upto XI or XII classes are considered as Higher Secondary / Intermediate / Pre University / Junior College etc. This would cover 10+2 classes whether held in schools or college.

If there are composite schools like middle schools with primary classes or Secondary schools with Middle classes, these are also included in the number of Primary and Middle schools, respectively. For example, if in a town, there are two Primary Schools and one Middle school with Primary classes, the number of Primary schools in the town is given as three and that of Middle schools as one though there are only three educational institutions.

If there are more institutions of a type in the town, the number is indicated within bracket along with the abbreviation, e.g. P(4), M(3).

Column 15 : Adult literacy class/centres

This column has been introduced keeping in view the Minimum Needs Programme of the Planning Commission. There are number of Adult Education Centres which are included in these columns.

If an educational facility is not available in the town, the name of the nearest place and its distance in kilometres from the town where the facility is available is mentioned.

Column 16 : Working Women's hostels with number of seats

The number of working women's hostel if available in the referent town is mentioned with number of seats. If the facility is not available in the town the

name of nearest place with distance where the facility is available is recorded.

Column 17 to 19 : Recreational and Cultural Facilities

Stadium, Cinema, Auditorium/Drama/Community Hall are covered under recreational & cultural facilities. The particulars of permanent recreational facilities are considered for these columns.

Column 20 : Public Libraries, Reading Rooms

Number of public libraries and reading rooms available in the referent town are recorded in codes as follows :

(i)	Public Library	PL
(ii)	Reading room	RR

Statement VI : Trade, Commerce, Industry and Banking, 1999

Column 3 to 8 : Name of three most important commodities exported and names of three most important commodities manufactured in the town are recorded.

Column 9 : Number of Banks

Number of Banks available in the referent town both Commercial and Co-operative banks are recorded against this column.

Column 10 & 11 : **Number of Agricultural Credit Societies and Non Agricultural Credit Societies**

The total number of Agricultural Credit Societies and Non Agricultural Credit Societies in the referent town are recorded against these columns.

Statement VII : Civic and other Amenities in Slums, 1999

This is the statement on civic and other amenities in all slums whether notified or not and for all towns having statutory bodies, like municipality, Municipal Corporation, Town area committee etc.

STATEMENT - I

PART B - PRIMARY CENSUS ABSTRACT

Brief note on Primary Census Abstract

The first census of the third millennium and twenty first century the Census of India, 2001 was the 14th continuous and uninterrupted Indian census since 1872. Thus, 2001 Census will provide data on population and its characteristics marking transition from one century and millennium to another.

The gigantic operation of Population Enumeration (considered by many to be the single largest and complex peace time administrative exercise in the world) was made possible due to the door to door universal canvassing of the Household Schedule by about 2 million enumerators and supervisors covering 593 districts, 5,463 sub-districts, 5,161 towns and 638,588 villages. The comprehensive Household Schedule which replaced the individual slip had three parts and two sides A and B. Part I contained the Location Particulars; Part II related to the Individual Particulars and Part III contained questions for Household engaged in Cultivation/Plantation. The part II of the Household Schedule had 39 columns and 23 questions all of which were universally canvassed and no sampling was resorted to during enumeration.

Data Processing

A quantum leap was made in the technology front while processing the Census 2001 data both for Houselisting and Population Enumeration. The Census schedules for both the phases were scanned through high speed scanners in fifteen data centers across the country and hand-written data from the schedules were converted into digitized form through Intelligent Character Reading (ICR) software for creation of ASCII records for further processing. The designing and formatting of the Household Schedule had to be done very carefully using specialized software so as to ensure uniformity, which was an essential pre-requisite for scanning. The selection of appropriate state-of-art technology in data processing has made it possible to produce all the Houselisting as well as Population Enumeration tables on full count basis for the first time in the history of Census. For Census 2001, about 202 million schedules consisting of about 1,028 million records were scanned and processed within a span of only 10 months starting October, 2002.

Task Force on Quality Assurance

After the data is processed, it is expedient on the part of the data producing agency to satisfy itself about its quality before putting the same in public domain. This has to be done mainly through the process of internal consistency, comparison with similar data in the past and also through validation with likewise data if available, from external sources. Quite often the local knowledge and perception has to be brought into play to understand both the existing and the new emerging trends of population distribution and characteristics. The other very important aspect of the data quality is to ensure complete coverage of all geographical areas especially for the population enumeration phase where the data is disseminated right up to the village level in the rural areas and the ward level in the urban areas. Thus ensuring the complete coverage and correct geographical linkage of each enumeration block was one of the major planks of the quality control, specially for small area population statistics.

A very comprehensive check and edit mechanism was put in place to objectively examine the preliminary Census 2001 Population Enumeration results and finally clear them for use. The responsibility of the final clearance of data was with the Task Force on Quality Assurance (TFQA), headed by the Registrar General and Census Commissioner, India. The other members of the TFQA were the Heads and senior officers of the Census Division, Data Processing Division, Map Division, Demography Division and Social Studies Division. The Directors of Census Operations were co-opted as members whenever the TFQA discussed the data for their States/Union territories. The Directors and their senior officers were required to make detailed presentations of data for their own state both in respect to the quality and the coverage and only after the full possible cleared.

There has been a major departure in Census 2001 from the past in respect of the procedure followed for finalization of the Scheduled Castes and the Scheduled Tribes population. In the earlier censuses, the total Scheduled Castes and Scheduled Tribes populations were finalized at the time of the manual compilation of the Primary Census Abstracts (PCA) at the Regional Tabulation Offices which were

specially set up for this purpose. The individual Scheduled Castes and the Scheduled Tribes population for each state was finalized much later based on manual coding done by the coders. In 2001 Census, each individual Scheduled Caste and the Scheduled Tribe have been coded directly on the computers by the Data Entry Operators through a process known as Computer Assisted Coding (CAC) and taken up along with the processing of PCA data. The CAC process involves pulling down, from the relevant dictionary of the Scheduled Castes and the Scheduled Tribes, on the computer screen and coding from the dictionary by referring to the image of the specific individual entry in the Household Schedule appearing on the screen. The CAC of the response on Religion wherever required, was also undertaken along with the processing of PCA. This is because the Scheduled Castes status had to be determined in relation to the religion of the individual. Two Special Task Forces, one on Religion and the other on Scheduled Castes/ Scheduled Tribes were constituted for scrutiny and appropriate classification of these responses.

The main task of the Special Task Force on Religion was to appropriately merge or group the new responses encountered and code it into the appropriate religious community based on available literature and local knowledge. The Special Task Force on Scheduled Castes and Scheduled Tribes examined the different Scheduled Castes and Scheduled Tribes entries encoun-tered and classified these into appropriate category of the Scheduled Castes or the Scheduled Tribes principally based on the Presidential Notification and the available literature. Thus a very systematic and scientific mechanism was operationalised to firm up the individual religion and the individual Scheduled Castes/Tribes returns. The Scheduled Castes and the Scheduled Tribes population in 2001 Census, is thus being finalized by aggregating the population data for individual Scheduled Castes and the Scheduled Tribes at appropriate geographical levels.

The entire work relating to the data validation and scrutiny was completed by all the States/Union Territories under the overall supervision and monitoring of the Census Division of the Office of the Registrar General, India with active cooperation and support of the Social Studies Division, Data Processing Division, Data Dissemination Division and Map Division.

Primary Census Abstract

The Primary Census Abstract which is yet another important publication of 2001 Census gives basic information on Area, Total Households, Total population, Scheduled Castes, Scheduled Tribes population, Population in the age group 0-6, Literates, Main workers and Marginal workers classified by the four broad industrial categories, namely, (i) Cultivators, (ii) Agricultural laborers, (iii) Household Industry Workers, and (iv) Other workers and also Non-workers. The characteristics of the Total Population includes Scheduled Castes, Scheduled Tribes, Institu-tional and Houseless population and are presented by sex and rural-urban residence. This data is presented at different levels, namely, India, States/Union territories, Districts and Cities, Urban Agglomerations (Population 1,00,000 and above) in three different tables. In addition, the Appendix of said publication provides Houseless and Institutional Households and their population by residence and sex for 2001 for India, State and Union territory.

Apart from the India and State/Union Territory volumes for Primary Census Abstract, the District Census Handbook contains District Primary Census Abstract, Appendix to District Primary Census Abstract, Primary Census Abstract for Scheduled Castes, Primary Census Abstract for Scheduled Tribes, Village Primary Census Abstract and Urban Primary Census Abstract of the concerned district in the state.

It was for the first time at the 1981 Census that the Primary Census Abstract (PCA) was brought out for the Scheduled Castes and the Scheduled Tribes separately on the pattern of General Primary Census Abstract. This practice was continued in 1991 also. In the 1961 and 1971 Censuses, such data were made available in Table C-VIII-Social and Cultural table and to some extent in the series 'Special Tables for Scheduled Castes/Scheduled Tribes'.

The format of Primary Census Abstract has been restructured slightly in the 2001 Census as compared to that of 1991 Census. The nine-fold industrial classification of main workers given in the Primary Census Abstract of 1991 Census has been discontinued and its place, four-fold industrial classification of both 'main workers' and 'marginal workers' are included. In

1981 census only main workers were presented in to four categories. One of the novel features of the primary census abstract of 1991 census was the presentation of data of the population of age group 0-6 is continued in 2001 Census also. This will help the data users in better analysis and understanding of this literacy data.

Level of presentation in District Census Handbooks:

The Primary Census Abstract data in different PCAs are presented at different levels. The level of presentation of Primary Census Abstracts are as under:

	Name of the Primary Census Abstract	Level of presentation
1.	District Primary Census Abstract	District/CD Block/UA/City/Town
2.	Primary Census Abstract for Scheduled Castes	District/CD Block/Town
3.	Primary Census Abstract for Scheduled Tribes	District/CD Block/Town
4.	Village Primary Census Abstract	CD Block/Village wise
5.	Urban Primary Census Abstract	Town/Ward level

The PCA Data for villages was presented CD Block wise for the first time in 1991 Census. This practice is continued in 2001 Census also. The data for each CD Block is presented both for rural and urban areas separately. All the villages within the CD Block constitute the rural portion and the Census Towns and Outgrowths are shown under the urban portion of the CD Block. In case a CD Block is spread over two or more districts, than portion which falls within the district is presented, the data pertaining to remaining portion of the CD Block is presented in the concerned District Census Handbook. The data in the Urban Primary Census Abstract for each town as well as for town with outgrowths in the district are presented. The data for all the wards and the outgrowths of the town(s) are also presented separately below the concerned town(s).

The District Primary Census Abstract is presented in 59 columns. The Primary Census Abstract for Scheduled Castes and Primary Census Abstract for Scheduled Tribes are presented in 52 columns. The Village Primary Census Abstract and Urban Primary Census Abstract are presented in 58 columns.

The concepts and definitions used in the column heading are explained under the sub heading 'Census Concepts' in the Analytical Note. The term 'Total Population' includes the Scheduled Castes, the Scheduled Tribes, the Institutional and the Houseless populations. The explanation regarding area figures presented at various level in the Primary Census Abstracts are as follows:

Area Figures

The area figures supplied by local revenue authorities of the district in respect of tehsils, Police Stations and by the local bodies in respect of towns are given in square kilometers. The area figures of the villages supplied by the Tahsildars in acres have been converted and shown in hectares. The area figures of the CD Block is the total of the village areas coming under each CD Block. The area figures for the district are the same as adopted by the Surveyor General of India to maintain uniformity at the national level. The total area figures of all the tahsils/CD Blocks within the district may not tally with area figures of the district because former represents land use area only. Similarly, the total of all the villages may not tally with the entire rural of Police Station/ Tahsil. The difference may be due to the fact that while the area covered by hills, forests and rivers etc, have been accounted in the Tahsils and P.S. level the same may not be covered under the area of the villages. Apart from this it may also differ due to varying methods of computation adopted at different levels.

An appendix to District Primary Census Abstract has also been furnished showing urban enumeration block-wise particulars on Total Population, the Scheduled Castes Population and the Scheduled Tribes Population for each town.

ANNEXURE-II

NOTE ON FERTILITY, MORTALITY AND MIGRATION - 1991 CENSUS

Fertility Levels :

Births, deaths, and migration are three components of population change in any geographical unit. Fertility is a major component of population growth. In the 1991 Census, questions on fertility related to age at marriage, number of surviving children, number of children ever born alive and children born alive during the last year were canvassed to generate the table of fertility. The first three questions were asked to all ever-married women and the last question related to currently married women. The various measures of fertility worked out are based on the district level estimates of fertility and child mortality for 1991.

Mortality analysis is one of the most important branches of demographic studies. This branch deals with the demographic event of death. Since death is a biological phenomenon that occurs just once to each individual, the analysis is simpler than, say, the study of fertility wherein the event of birth can occur with varying frequency among women.

Migration is an important aspect in the area of Population Studies. There is an increase in population of any community or country due to births or in-migration, whereas there is a decrease in the population of its residents due to deaths or migration. In other words, migration is an important reason for the change in size and composition of population. Those areas are affected by migration from where migrants go or where they have gone.

The migration tables of the 1991 Census are mainly based on the questions on place of birth, place of last residence, duration of residence at the place of enumeration and reason for migration included in the individual slip. These tables generated on computer provide the distribution of population by place of birth, distribution of migrants by place of last residence, duration of residence and reason for migration. The data on intra-district, intra-state and inter-state migration streams and in-migration from abroad are presented in these tables.

ANNEXURE-III(i)

VARIOUS MEASURES OF FERTILITY AND MEAN AGE AT MARRIAGE, CENSUS 1981-1991

ANNEXURE III(ii)

CHILD MORTALITY RATE IN THE STATE AND DISTRICT : CENSUS 1981-1991

State : Madhya Pradesh **District : Dewas**

State / District	Year	Persons				Male				Female			
		(q1)	(q2)	(q3)	(q5)	(q1)	(q2)	(q3)	(q5)	(q1)	(q2)	(q3)	(q5)
Madhya Pradesh	1991	133	139	143	147	131	134	138	142	136	143	149	151
	1981	150	162	171	197	158	165	170	193	140	159	173	201
Dewas	1991	97	118	125	129	87	109	108	116	102	126	133	139
	1981	119	135	165	185	117	135	161	180	120	135	170	191

Source - Estimate of Mortality Indicators by sex at district level-M.P.1991

The above table shows that the child mortality in the state and district has decreased considerably from 1981 to 1991. The child mortality of the district for ages 1,2,3 and 5 is shown as q(1),q(2),q(3) and q(5) respectively .The child mortality of the district in 1991 for all the ages is lower than the state average.The child mortality data of the district shows that there is a remarkable decline in the child mortality during 1981 to 1991 which is the same for state also. However some inconsistencies are observed in male-female classification.

The table also reflects that the female child mortality in 1991 is higher than the male child mortality rates in this district.

ANNEXURE IV(I)

POPULATION OF INMIGRANTS IN THE DISTRICT BY PLACE OF BIRTH : CENSUS 2001

State- Madhya Pradesh **District : Dewas**

Birth Place	Population and Percentage		
	Persons	Male	Female
(i) Within the State but outside Enumeration place	438,781 (94.9)	111,389 (25.4)	327,392 (74.6)
(A)Within the district but outside Enumeration place	245,035 (53.0)	55,758 (22.8)	189,277 (77.2)
(B)Birth place in other district of State	193,746 (41.9)	55,631 (28.7)	138,115 (71.3)
(ii) Place of Birth in other states of India than the state of Enumeration	23,073 (5.0)	11,016 (47.7)	12,057 (52.3)
(iii) Birth place in Foreign	723 (0.2)	396 (54.8)	327 (45.2)
(iv) Unclassified	0 (0.0)	0 (0.0)	0 (0.0)
Total Immigrants	462,577	122,801	339,776
Persons born in the place of enumeration	845,646	555,065	290,581
Total population	1,308,223	677,866	630,357

(Source- Migration Table D-1)

Note: Percentages are given in brackets.

This table presents the number of in migrants by place of birth of enumeration within the district distributed in four classifications i.e. (i) Migration from within the state, (ii) Migration from other states of India,(iii) Migration from foreign place and (iv) Unclassified.

It is observed that the migration by birth from within the state is maximum 94.9 per cent of total migration. The migration from within the district but outside the enumeration place is 53.0 per cent whereas migration from other districts of the state is 41.9 per cent. Migration from other states is 5.0 per cent and the migration from outside India is 0.2 per cent of the total migration. It is also seen that the female migration is much higher than the male migration in first two classifications which is due to the migration of females after marriage.

ANNEXURE IV(II)

POPULATION OF INMIGRANTS BY PLACE OF LAST RESIDENCE : CENSUS 2001

State- Madhya Pradesh **District : Dewas**

Place of last residence	Population and Percentage		
	Persons	Male	Female
(i) Within the State but outside Enumeration place	447,039	113,965	333,074
	(95.2)	(25.5)	(74.5)
(A)Within the district but outside Enumeration place	255,340	58,633	196,707
	(54.4)	(23.0)	(77.0)
(B)From other district of State	191,699	55,332	136,367
	(40.8)	(28.9)	(71.1)
(ii) From other states of India outside enumeration state	22,038	10,557	11,481
	(4.7)	(47.9)	(52.1)
(iii) Place of residence outside India	468	267	201
	(0.1)	(57.1)	(42.9)
(iv) Unclassified	0	0	0
	(0.0)	(0.0)	(0.0)
Total Immigrants	469,545	124,789	344,756
Population of Non-inmigrants	838,678	553,077	285,601
Total population	1,308,223	677,866	630,357

Source: Migration Table D-2

Note: Percentages are given in brackets.

Migration of population by place of last residence distributed in four classifications is presented in this table. It is seen that the migration by usual place of last residence from within the state is highest 95.2 per cent of total migrated population. Within this classification, the migration from within the district is 54.4 per cent and only 40.8 per cent migration is from other districts of the state. Migration from other states of India outside enumeration state works out to 4.7 per cent of total migration and it is only 0.1 per cent from outside India. Mostly, sexwise anlysis reveals much higher migration of females which is obviously due to the movement of females after marriage.

ANNEXURE IV (III)

POSITION OF INMIGRANTS FROM OTHER STATES- AS PER CENSUS 2001

State : Madhya Pradesh **District : Dewas**

Birth Place	Census 2001	
	Migrant population	Percentage of total In-migrants
1	2	3
Uttar Pradesh	5,598	24.3
Maharashtra	5,237	22.7
Rajasthan	3,778	16.4
Bihar	1,762	7.6
Chhattisgarh	1,645	7.1
Gujarat	942	4.1
Total of 6 States	18,962	82.2
Total of other States	4,111	17.8
Total	23,073	100.0

Source:Migration Table D-1

Inmigration from other states is classified in this table. 82.2 per cent of total inmigrants are from Uttar Pradesh, Maharashtra, Rajasthan, Bihar, Chhatisgargh and Gujarat whereas the remaining inmigrants from all other states together constitute only 17.8 per cent.

Total 5,598 persons have migrated from Uttar Pradesh which alone accounts for 24.3 per cent of total inmigrants. Dewas is located closer to neighbouring state border of Maharshtra, Rajsthan etc. as such the migration from these states is very high and the culture and language is homogeneous.

ANNEXURE V

DISTRIBUTION OF POPULATION BY MAIN RELIGIONS

State : Madhya Pradesh **District -Dewas**

State/District	Population	Hindu	Muslim	Jain	Christian	Buddhist	Sikhs	Others	Unclassified

		(88.5)	(10.5)	(0.5)	(0.2)	(0.1)	(0.2)	(0.0)	0.0

Source :- Religion Table of Madhya Pradesh - Census 1991/2001

This annexure presents the distribution of population at district and state level pertaining to Census 1991 and Census 2001 in respect of six religions. It is observed that the proportion of Hindu, Jain, Christian and Buddhist population in the district is comparatively lower than that of state. In contrast, the proportion of Muslim population is higher in the district as compared to state average. The proportionate distribution of population belonging to 'other' religions in the district is lower than the corresponding state average.

ANNEXURE VI

MARITAL STATUS OF POPULATION IN THE STATE AND DISTRICT : CENSUS 2001

State- Madhya Pradesh **District- Dewas**

State / District	Total/ Rural / Urban	Total Population	Marital Status				
			Never married	Married	Widowed	Divorced/Separated	Unspecified

(Source- Migration Table C-2)

Note: Percentages are given in brackets.

The above table reflects that the population (48.6%) of the district comes under the unmarried class. When compared to state the percentage of unmarried population of the district is lower than the state. Contrary to this the percentage of married population of the district is higher than the state. The state average is higher than the district in respect of widowed and it is lower in case of divorced population. The proportion of unmarried persons are more in urban areas than rural but married persons are more in the rural areas as compared to the urban areas of the district.

(Source- Migration Table C-8)

Note:Percentages are given in brackets.

This annexure presents the proportionate distribution of literates by different educaional levels in specific age groups. As the population in the age group 0-6 do not come within the purview of literates, it has been shown separately.

It is seen that out of 1,077,028 persons belonging to the age 7 and above 656,369 are literates and thus, the literacy rate of the district works out to 60.9 per cent. Similarly the male and female literacy works out to 75.7 and 45.0 per cent respectively.

196,557 persons have been recorded to attain education up to primary level in the age group 7-14 which is only 72.2 per cent of population in this age group. In the age group 15-34; 68,500 persons (16.0 per cent) are found educated up to middle, 69,305 person (16.2 per cent) upto the level of Matriculate/ Higher Secondary/ Intermediate/ Diploma Tech. and 14,790 persons (3.5 per cent) upto Graduate and above level. It may be noted that this is the group having maximum class interval and thus it has the maximum population as well. The analysis also reveals that the percentage of literates at all levels decreases with increasing age groups which explains the gradual increase in literacy rates over past ten years.

Source :- Mother Tongue Table C-16 (Census-2001)

As revealed by the above table the most prevalent mother tongue in Dewas district, is Hindi which is returned by 66.1 per cent population. Malvi as mother tongue has second place after Hindi returned by 20.7 per cent population. Urdu as mother tongue has third rank with 3.1 per cent. The other prevalent mother tongues are Nimadi, Gondi, Marathi and Barel. On analysis of rural/urban sector it becomes clear that, the most widely spoken language in rural sector is Hindi followed by Malvi, Nimadi, Gondi, Urdu, Barel, Marwari, etc. in that order. Similarly, in urban areas most widely spoken language is Hindi followed by Urdu, Malvi, Marathi, Sindhi etc.

Urdu, Sindhi, Punjabi, Marathi, Malayalam and other languages are more prevalent in the urban sector which is again in accordance to the concentration of population related to these languages in urban areas.

ANNEXURE - IX

STATEMENT OF FIVE MAIN SCHEDULED CASTE AND SCHEDULED TRIBE IN THE DISTRICT

CENSUS 1991

State :- Madhya Pradesh **District :- Dewas**

	Madhyapradesh			Dewas	
	Population	Percentage		Population	Percentage
Total	66,181,170			1,033,807	
(A) Scheduled Caste Population	9,626,679	(14.6)		187,680	(18.2)
Five Main Castes					
1. Chamar	5,035,835	(52.3)	1. Balahi	94,647	(50.4)
2. Balai	876,764	(9.1)	2. Chamar	56,413	(30.1)
3. Mahar	792,804	(8.2)	3. Bhagri	11,979	(6.1)
4. Bhangi	267,413	(2.8)	4. Bhangi	6,337	(3.4)
5. Ganda	236,410	(2.5)	5. Koli	3,729	(2.0)
(A) Scheduled Tribe Population	15,399,034	(23.3)		155,493	15.0
Five Main Tribe					
1. Gond	6,727,838	(43.7)	1. Bhil	73,357	(47.2)
2. Bhil	3,436,743	(22.3	2. Korku	49,270	(31.7)
3. Kol	781,032	(5.1)	3. Gond	28,765	(18.5)
4. Kanwar	667,244	(4.3)	4. Majhi	1,129	(0.7)
5. Oraon	544,959	(3.5)	5. Somr	199	(0.1)

The above table reveals that the total population of Scheduled Castes in Census 1991 in the district was 187,680 which account for 18.2 percent of the total population. The population of Balahi constituting 50.4 percent, is highest in the district among Scheduled Castes, followed by Chamar and Bhagri with 30.1 and 6.1 per cent respectively.

The population of Scheduled Tribe in the district is 155,493 forming 15 percent of the total population which is less as compared to state where the population of Scheduled Tribes is 23.3 percent. Among Scheduled Tribes, Bhil population is highest with 47.2 percent while the population of Korku ,Gond, Majhi constitute 31.7, 18.5, and 0.7 per cent respectively.
