FOREWORD

Publication of the District Census Handbooks (DCHs) was initiated after the 1951 Census and is continuing since then with some innovations/ modifications after each decennial Census. This is the most valuable district level publication brought out by the Census Organisation on behalf of each State Govt./Union Territory administration. It *inter-alia* provides data/information on some of the basic demographic and socio-economic characteristics and on the availability of certain important civic amenities/facilities in each village and town of the respective districts. This publication has thus proved to be of immense utility to the planners, administrators, academicians and researchers.

The scope of the DCH was initially confined to certain important census tables on population, economic and socio-cultural aspects as also the Primary Census Abstract (PCA) of each village and town (ward-wise) of the district. The DCHs published after the 1961 Census contained a descriptive account of the district, administrative statistics, census tables and Village and Town Directories including PCA. After the 1971 Census, two parts of the District Census Handbooks (Part-A comprising Village and Town Directories and Part-B comprising Village and Town PCA) were released in all the States and Union Territories. The third part, Part C of the District Census Handbooks comprising administrative statistics and district census tables, which was also to be brought out, could not be published in many States/UTs due to considerable delay in compilation of relevant material. In 1981, some new features alongwith the restructuring of the formats of Village and Town Directory were introduced in the DCHs. These were published in two parts for each district after the 1981 Census. While Part-A comprised Village and Town Directories, the PCA of villages and towns (ward-wise) including Scheduled Caste and Scheduled Tribe PCA upto tehsil/town level were provided in Part-B. To illustrate, all the amenities except electricity, were brought together in the Village Directory and if an amenity was not available in the referent village, the distance in broad ranges from the nearest place having such amenity was given. Information on some new items such as adult literacy centres, primary health sub-centres and community health workers in the village were provided so as to meet some of the requirements of the Revised Minimum Needs Programme. Similarly, information on approach to the village was also provided for the first time in the Village Directory so as to give an idea about the number of inaccessible villages in each district. In case of Town Directories also, keeping in view the requirements of the Minimum Needs Programme, a Statement IV-A on slums was provided so as to enable the planners to chalk out the programmes for providing better civic and other amenities in the slums. In this Statement details on civic and other amenities were reported for the slums of Class I and Class II towns. Apart from this, one column on the Scheduled Castes and Scheduled Tribes population and another on adult literacy classes/centres were added in Statements IV and V respectively.

The manner of presentation of the DCHs for the 1991 Census is by and large the same as followed in 1981. However, the format of PCA has been restructured slightly in the 1991 Census for the benefit of data users. Nine-fold industrial classification of main workers has been given as against four-fold industrial classification presented in the 1981 Census. In addition to this, the sex-wise population in the 0-6 age-group has also been included in PCA for the first time with a view to enabling data users to compute more realistic literacy rates as all children below 7 years of age have been treated as illiterate at the time of the 1991 Census. It is expected that the above mentioned modifications will help the planners in chalking out more effective developmental programmes.

One of the most important innovations in the 1991 Census is the Community Development Block-level presentation of data in the Village Directory and PCA instead of the traditional Tahsil/Taluk/PS level presentation. It is expected that the presentation of Village Directory and PCA data at C.D.Block level will help the planners in formulation of micro-level developmental plans, as the C.D.Block is the lowest administrative unit for developmental planning.

In order to facilitate the task of administrators, planners and researchers intending to use Village Directory/PCA data, either from the magnetic tapes/floppies or from the published records, both the computer and manual codes for each village have been provided for the 1991 Census along with the corresponding codes of 1981.

This publication is a joint venture of the State Govt./UT administration and the Census Organisation. The data have been collected and compiled under the direction of Ms. Sobha Nambisan, Director of Census Operations, Karnataka on behalf of the State Govt. administration which has borne the cost of printing. The task of planning, designing and coordination of the publication was initiated by Dr.K.P.Ittaman, former Deputy Registrar General (Social Studies) and Shri M.M.Dua, Joint Director. For the sake of uniformity in presentation of information/data and for preparation of analytical note depicting the salient features emerging from a micro-level analysis of Census/non-Census data, a model District Census Handbook from each State and Union Territory was thoroughly scrutinised in the Social Studies Division under the guidance of Shri M.K.Jain, the present Deputy Registrar General (S.S.). This task was carried out by Shri A.K.Singh, Deputy Director who was assisted by S/Shri V.K.Jain and Hariram, Investigators and staff. Technical guidance in the preparation of the maps was initially provided by Dr.B.K.Roy, former Deputy Registrar General (Map) and later by Mrs. Minati Ghosh, the present Deputy Registrar General (Map).

I am thankful to all those who have contributed to this project.

New Delhi
June 11, 1992.

A.R.Nanda
Registrar General, India

PREFACE

In the foreword to the 1991 series of the District Census Handbooks, Sri A.R.Nanda, I.A.S., the Registrar General and Census Commissioner, India, has traced the history of the District Census Handbooks. He has also succinctly explained the scope and coverage of the District Census Handbooks. These volumes contain the salient data on the population for every village and town as revealed by the 1991 Census. They also contain a wealth of information regarding these villages and towns which, although not part of the population census, throw some light on the circumstances in which people live and is therefore relevant to the data on the population. This information has also considerable importance in the context of planned development.

The District Census Handbook is therefore divided into two parts: Part A containing information regarding each village and town (Village Directory and Town Directory) which is not census data and part B which contains the data on the population collected during the 1991 Census - the Primary Census Abstract. The data published in Part B was collected in February 1991 at the time of the population census. This data was then manually tabulated in the Regional Tabulation Offices set up for the purpose. Subsequently, as a part of the countrywide project taken up in collaboration with the National Informatics Centre, the Primary Census Abstract data was computerised. The data for Part B of the District Census Handbook was therefore available on tape for the entire country by November 1992. Since the Primary Census Abstract data was available first on the computer, it was decided to publish the District Census Handbooks in two separate volumes, with Part B appearing in print first.

The process of data collection for the Village Directory and the Town Directory (Part A) commenced in early 1990 and continued till the middle of 1992. For operational convenience, the Village Directory format was divided into two portions, one relating to the area and land use particulars and the other relating to the amenities available in each village. The relevant formats were mailed to the Deputy Commissioners of Districts and Chief Secretaries of Zilla Parishads for obtaining the villagewise particulars. Similarly the Town Directory formats were mailed to the Deputy Commissioners and Commissioners of Corporations. The villagewise and town wise data furnished by these officers were then examined exhaustively for consistency in reporting and comparability with the information published in the 1981 District Census Handbooks. The villagewise information, thus finalised was also computerised during 1992-93 at the National Informatics Centre, Bangalore as in the case of Primary Census Abstract.

The National Informatics Centre, Bangalore has undertaken to supply the camera ready copies for the District Census Handbooks and this may enable us to bring out the District Census Handbooks fairly early.

In the preparation of the District Census Handbooks the role of the Census Directorate is that of data collector. For accomplishing this task we have had the ready co-operation of the staff of different departments of the State Government. The cost of printing of the District Census Handbooks is borne by the Government of Karnataka.

I take this opportunity to offer my grateful thanks to all the officers and officials who have been actively involved in the compilation of this volume.

I am thankful to Shri A.Venkateshan, the State Informatics Officer, National Informatics Centre, Bangalore for all the assistance he and his staff members have rendered for computerisation of the data and for preparation of the camera ready copy of the manuscripts of all the Districts.

I am deeply grateful to Shri A.R.Nanda, I.A.S., the Registrar General, India for the benefit I have derived by way of guidance and advice. I express my thanks to Shri M.K.Jain, the present Deputy Registrar General (SS) as well as to Mrs. Minati Ghosh, Deputy Registrar General (Map).

Lastly, I am thankful to the Government of Karnataka for having readily agreed to bear the cost of printing these District Census Handbook volumes and to the Director of Printing, Stationery and Publications for the keen interest he has evinced in bringing out these publications.

Bangalore,
Date: 16-11-1992

ANALYTICAL NOTE

Brief History of the District Census Handbook :-

The District Census Handbook series was, for the first time, included in the census publication programme at the 1951 census in order to satisfy the growing demand for micro-level data by the administrators, the planners and the other census data users. The District Census Handbooks sought to replace 'Part IV - Taluk Tables' and 'Part V - Village Tables' of the earlier censuses and to present the basic demographic and economic data in the form of 'Primary Census Abstract' in respect of each and every village and town within the jurisdiction of the district concerned. In addition, these volumes were to contain a set of statistical tables based on the census data in respect of the district and its constituent taluks and towns.

At the 1961 census, the scope of the District Census Handbook was greatly enlarged by incorporating in it - (i) a descriptive account of the district, (ii) a set of non-census tables dealing with the administrative statistics of the district for a decade, (iii) taluk and town level census tables on economic and socio-cultural aspects and (iv) the village and urban (census enumeration block level) Primary Census Abstract containing the ninefold industrial classification of workers. In a somewhat general way, information on the availability of certain basic amenities in villages and towns, such as the sources of drinking water and educational institutions, was also presented in these volumes. These general guidelines were, by and large, followed in Karnataka too. However, the scope of the District Census Handbooks of 3 out of the then existing 19 districts, namely Bangalore, Dharwar and Mysore, was confined to the publication of the village-wise and urban (census enumeration block wise) Primary Census Abstract only.

The 1971 census witnessed an overall improvement in the matter of compilation as well as presentation of the data. A country-wide uniformity in approach and a comprehensive coverage are the hall marks of this series of publications. In 1971, the District Census Handbook was split up into three portions - (i) Part A - consisting of land use data on villages and also the data on the nature and extent of amenities and services available in the villages and towns of the district - presented in the form of Village Directory and Town Directory respectively, (ii) Part B - consisting of the Primary Census Abstract (including the nine-fold industrial classification of workers) for the district, the taluks, the towns, the villages and the census enumeration blocks in case of towns; and (iii) Part C - consisting of an analytical note based on an analysis of the census data as well as the non-census data included in the volume, a set of tables depicting the administrative statistics in minute detail, a set of statistical tables based on the census data in respect of the district and the constituent taluks and towns thereof besides a set of tables generated on the basis of the villagewise census data in association with the villagewise data on the availability of amenities. The main objective was to present a comprehensive and intelligible portrait of the district and an overview of the developmental programmes implemented in the district during the preceding decade. Publication of the District Census Handbooks was planned in such a way as to minimise the delay inherent in the compilation of a voluminous mass of data gathered from different sources. Accordingly, 'Part A', comprising the Village Directory and the Town Directory for the finalisation of which there was no apparent need to wait till the completion of the tabulation of the data gathered at the census, was to be published first and 'Part B', consisting of the Village/Urban Primary Census Abstract was to be released next. A lower priority was assigned to 'Part C' for the obvious reason that besides administrative statistics it was to include a set of socio - demographic and economic tables generated on the basis of the data gathered at the census and an analytical note prepared thereof. In Karnataka, however, 'Part A' and 'Part B' portions of the District Census Handbooks were combined together and published in a single volume for each district except Bangalore. In the case of Bangalore District, since it was felt that the size of such a combined volume would be unweildy, Part A and Part B were published separately. As regards 'Part C', compilation of data took more time than anticipated and, in addition, there was an inordinate delay in executing the printing job at the State

Directorate of Printing. As a result, only a portion of Part C (depicting some of the census tables) relating to Bangalore District was published somewhat belatedly and the proposal to publish the remaining portion of Part C for Bangalore District as well as the entire portion of Part C for the other districts was finally abandoned.

Instead of witnessing an expansion as in the past two censuses the scope of the 1981 series of the District Census Handbooks was curtailed to a considerable extent in that it was confined to the publication of Village Directory, Town Directory and the Village/Urban Primary Census Abstract. Thus, at the initial stage itself there was no proposal to compile and publish the administrative statistics and the various socio-demographic and economic tables based on the census data, that is, the portion which constituted 'Part C' of the 1971 series. But for this change, the approach in 1981 regarding uniformity and comprehensiveness were very much the same as in 1971. In order to avoid delay in publication, as in the past, the District Census Handbook was proposed to be published in two parts, namely, 'Part A' consisting of the Village Directory and Town Directory and 'Part B' consisting of the Village/Urban Primary Census Abstract besides the Special Primary Census Abstracts at taluk/town level in respect of the Scheduled Castes and Scheduled Tribes population of the district.

At the 1981 census, the contents of the Village Directory and the Town Directory were slightly enlarged and the formats were restructured. In the Village Directory all the amenities except power supply were brought together under a broad heading with the provision that 'in case an amenity is not available in the referent village, the distance to the nearest place where that particular amenity is available may be indicated in broad ranges'. A new item 'approach to the village' was included. In the remarks column, a provision was made to report the number of copies of newspapers in circulation in the village as also the number of motor cars, the number of motor cycles and the number of tractors available in the village. Further, in order to examine whether there is any correlation between the availability of amenities and the population size of a village, an additional column was provided in the Village Directory to indicate the population and number of households. The contents of Part A were further enlarged by including two appendices, namely, a list of villages not having any amenities and a distribution of villages according to the proportions of Scheduled Castes and Scheduled Tribes in the total population of the village. The Town Directory formats were also modified by the addition of a few items such as class of town, population, Scheduled Castes and Scheduled Tribes population, decadal growth rate of population, working women's hostel, adult literacy classes/centres, storage system regarding drinking water supply etc., and also by providing for recording the information about the nearest place (and distance) having educational, medical and fire-fighting facilities in case such a facility is not available in the referent town. As compared to 1971, while one statement indicating religion-wise population of the town was dropped, another statement to provide information about the amenities available in notified slums in Class I and Class II towns was added. As regards the Primary Census Abstract of towns, the urban block-wise presentation of data was given up and details were presented only upto the level of Wards/Divisions. However, information on the number of persons belonging to Scheduled Castes and Scheduled Tribes was furnished for each census enumeration block within the town in the form of an appendix and an annexure thereto provided the description of the boundaries of each census enumeration block. Further, instead of the nine-fold classification of workers adopted at the 1971 census, on this occasion the classification was restricted to 4 categories. In Karnataka, in 1981 also, both Part A and Part B portions of the District Census Handbooks were published together in a single volume for each district. However, because of certain technical compulsions, all the information relating to Scheduled Castes and Scheduled Tribes was excluded from the main formats and was presented separately at the end in the form of a Supplement (separate booklets were brought out in the case of Bidar and Mandya Districts).

2. Scope of the 1991 District Census Handbooks:

As in 1981, in 1991 too, the District Census Handbooks are proposed to be brought out in two portions, namely Part A consisting of the Village Directory and the Town Directory and Part B

consisting of the Village Urban ward-wise Primary Census Abstract in addition to the District Primary Census Abstract and the Special Primary Census Abstract in respect of the Scheduled Castes and Scheduled Tribes. Though, the scope of the 1991 series of the District Census Handbooks has, by and large, remained the same as in 1981, a few significant changes have been made in the Village Directory format as well as the Primary Census Abstract format. In Karnataka, unlike at the previous censuses, on this occasion, the 'Part A' and 'Part B' portions of the District Census Handbooks of each district are being brought out in separate volumes.

The manner of presentation of data has also undergone a significant change in that the Village Directory and the Primary Census Abstract data are presented according to the location of villages and towns within the jurisdiction of a Community Development Block rather than their location within a taluk*. In other words, the traditional practice of taluk-level presentation of data has now been givenup in preference to the Community Development Block level presentation of data which is considered as more meaningful in the present day context. Since C.D.Block is the lowest administrative unit for developmental planning, the choice of the C.D. Block as the unit for data presentation is expected to help the planners in formulating micro-level developmental plans. Another innovation at the 1991 census is the arrangements made for the dissemination of the data in collaboration with the National Informatics Centre through its country-wide computer network. In the published volumes of the District Census Handbooks, therefore, the computer codes assigned to the villages in the 1991 census and the corresponding codes in 1981 are presented so as to facilitate the data users who may prefer to use the data either from magnetic tapes or floppies.

(i) Village Directory :

The Village Directory format adopted for the 1991 series has 18 columns. When examined with reference to the 1981 format it will be noticed that two columns have now been left out - while one of these columns refers to the 'staple food' the other refers to the 'remarks' under which, information about the places of religious, historical or archaeological interest in the village as also information about the number of copies of newspapers in circulation, the number of motor cars, motor-bicycles and tractors available in villages was published in 1981. As compared to 1981, there is no change in the scope and coverage of the information presented in the 18 columns of which 8 are devoted for amenities and 6 are meant for indicating the area of the village and the land use pattern. The remaining four columns are meant for indicating the location code and name of the village, total population and the number of households enumerated in the village and the name of the nearest town as also the distance to that town. The aspects covered under the amenities are: educational, medical, sources of drinking water supply, postal and telegraph, weekly market, communication, nature of approach road and power supply. Further, if a village did not have any educational facility at all, instead of merely reporting the fact and stopping at that, an indication of the distance (in ranges) that the villagers have to traverse to reach a place with educational facilities (at the basic level) is reported. The same procedure of reporting is adopted regarding medical facilities, drinking water supply, postal and communication as well as weekly market facilities. The distance ranges adopted for reporting are the same as in 1981, namely -5 km, 5 - 10 km and 10 + km. In an explanatory note, which precedes the presentation of the Village Directory Statements, details about the abbreviations used under various columns are furnished.

---

* *In Karnataka, the "Taluk Panchayat Samiti" corresponds to the Community Development Block, and for the sake of maintaining uniformity with the all-India pattern, the term C.D.Block has been used throughout in the District Census Handbooks. The jurisdiction of a Taluk Panchayat Samiti is coterminus with that of the corresponding Taluk but excludes the statutory towns.*

The main agency which has furnished the villagewise information on amenities is the Zilla Parishad which in turn has collected the relevant particulars through its field formations, namely the Chief Executive Officers (i.e., the Block Development Officers) of the various *Taluk Panchayat Samitis*. These details were examined for consistency as well as with reference to the particulars reported in 1981 and cases of deterioration or of abnormal developments were referred back for reverification and rectification. For instance, as compared to 1981, for several villages, Wells and Tanks did not find a mention as a source of drinking water supply. When referred back, the concerned Chief Executive Officers clarified that in most of these cases, the drinking water wells of yester years have either dried up or fallen into disuse on account of the increasing number of borewells drilled in such villages and also because of the implementation of the National Rural Water Supply Scheme, the Mini-Water Supply Scheme and Accelerated Water Supply Scheme etc. So also regarding the availability of pucca approach road facility several instances of deterioration were noticed. Such cases too were referred back so that the factual data may be verified again and reported for publication. Information about the number of educational institutions, nature of government run medical institutions and postal, phonocom and telegraph facilities as furnished by these officers have been cross-checked with the data obtained from the concerned Departments as well to ensure a higher level of reliability.

In case of uninhabited villages, i.e., villages which returned 'nil' population at the 1991 census count, except the name and the total area no other information is furnished. Instead of putting a dash under each column to indicate this fact, the word 'uninhabited' is printed along the line.

In order to facilitate easy reference, an alphabetical list of villages is given at the begining in respect of each C.D.Block. This list indicates the code numbers assigned to the villages for purposes of census enumeration as well as the computer codes assigned (at the stage of computerisation) as also the corresponding codes according to the 1981 census. At the end of the Village Directory the following appendices are given:- C.D. Block-wise abstract of amenities; list of villages not having any amenities except Drinking Water, land utilisation data in respect of non-municipal towns and distribution of villages according to the proportion of Scheduled Castes population and Scheduled Tribes population.

(ii) Town Directory :

As in 1981, in 1991 too, there are seven statements which furnish information on the following aspects - growth history; physical aspects and locational particulars; municipal finance; civic and other amenities; civic amenities available in the notified slums of Class I and Class II towns; medical, educational, recreational and cultural facilities; and trade, commerce, industry and banking. The scope of the various column headings adopted in 1981 has remained unchanged in 1991. However, in Statement-I, slight modifications have been made to accomodate the 1991 census data - an additional column is provided for indicating the 1991 population and the growth rate registered by the town during the decade 1981-91. In Statement-I an additional column has been provided for indicating the name of the C.D.Block within the jurisdiction of which the referent town is located. It may be incidentally mentioned that, in Karnataka, the civic bodies functioning in the Statutory Towns do not fall within the administrative jurisdiction of the C.D.Blocks (i.e., Taluk Panchayat Samitis).

In the Town Directory statements, the towns are arranged in an alphabetical order of their names and the aggregate particulars about urban agglomerations if any in the district have also been furnished in the same order. Where an urban agglomeration includes two or more independent towns, the names of these constituent towns are shown in the correct sequence as per the alphabetical arrangement of their names. But, the details which ought to have been furnished in the subsequent columns have been skipped with a view to avoiding repetition. Instead, immediately after the name of the town, a cross reference is given by printing the message "see ..... urban agglomeration". The name of the core town of the urban agglomeration too appears at its correct sequence with the legend printed thereafter and immediately below that, i.e., in the next line the same name with the suffix urban agglomeration appears again without bearing any

serial number. Against this name the cumulative totals for the urban agglomeration as a statistical unit are presented wherever such a procedure is relevant and meaningful. This line is then followed by those relating to the constituent towns of the urban agglomeration starting with the name of the core town and followed by the others arranged in an alphabetical order of their names. This procedure, it may be recalled, is the same as that adopted in 1971 as well as in 1981 and this enables one to have a fairly good assessment of the data relating to the smaller civic administrative units that form part of the larger unit and also of the aggregate data relating to the larger unit itself. In case there are 'outgrowths' which are not 'urban areas' in their own right, the particulars relating to such areas are merged with the data relating to the concerned core town. Such towns which have 'outgrowths' are marked out by an asterisk mark and for all purposes, the term 'town' would cover the core town as well as its outgrowths. In an appendix the names of the revenue villages or areas which have been identified as outgrowths and the population thereof are indicated separately. In the case of villages certain parts of which are regarded as outgrowths while the other parts are considered as 'rural', the data relating to the outgrowths (i.e., the urban component) is included in the Town Directory statements and the data pertaining to the rest of the portion retained in the rural frame appears in the Village Directory. In Statements II, III and VI where it is not relevant to combine the data for the urban agglomeration as a whole, the legend 'see the constituent towns' is printed against the name of the urban agglomeration instead of allowing the entire line to remain blank.

The particulars furnished in Statement I which deals with the growth history are entirely based on the current as well as the previous censuses. As such, this has been compiled in the Census Directorate without seeking information from the concerned civic bodies. The details presented in the remaining statements have been furnished mainly by the concerned civic authorities such as the Municipal Commissioners, Chief Officers of towns, Secretaries of Mandal Panchayats, Administrative Officers etc. Except for the information regarding municipal finance, most of the information on other apsects had to be gathered by the civic authorities from several offices and institutions located in the town through correspondence and or by deputing officials for the purpose. The particulars so furnished were scrutinised in the first stage and cases of abnormal variations as compared to the situation in 1980 and also inconsistencies were referred back to the reporting agency for reverification and rectification so as to ensure that the details now given in the Town Directory represent the factual position.

The scope of the information presented under various columns and the abbreviations used are explained in a note which precedes the presentation of the Town Directory statements.

(iii) Primary Census Abstract :

The Primary Census Abstract is presented village-wise in the case of 'rural' areas and town-wise (upto ward or division level) in the case of urban areas. The outgrowths of a town are treated at par with a ward or division of the core town irrespective of the number of census enumeration blocks into which it is constituted. Within the district, the Community Development Blocks are arranged in the alphabetical order of their names in English and covered one after the other in that order. For each C.D.Block, the total figures with the rural-urban break-up is given first and this is followed by the village-wise data and then by the ward-wise data for the towns if any, within the jurisdiction of the C.D.Block. In the case of a village of which only a portion has been incorporated in a town or has been recognised as an outgrowth of a town, the details relating to only that portion which is not so incorporated or so recognised but has been retained in the rural frame is presented under various columns. The names of villages (and their respective areas) which are fully included in urban areas or have been recognised as outgrowths of towns for purposes of the 1991 Census (but are retained in the jurisdictional lists of the Survey and Settlement authorities) if any within the boundaries of the C.D.Block are indicated in the flyleaf which precedes the PCA statement for the C.D.Block

After presenting the PCA data for all the villages and towns covered by the C.D.Blocks in the district,

the PCA data relating to all the urban areas of the district (i.e., statutory as well as non-statutory towns) are furnished. For this purpose, the towns/urban agglomerations are arranged in an ascending order of their location code numbers. And, for each town the ward or division-wise details are presented here.

In Karnataka, as already mentioned, the jurisdiction of a C.D.Block is coterminus with that of the Taluk of the same name, but excludes the areas incorporated in statutory towns and cities. By and large, a C.D.Block corresponds to the rural areas of the taluk. However, if there are any non-municipal census towns and areas which have been identified as outgrowths of statutory towns within the jurisdiction of the taluk, then such towns and outgrowths are also regarded as lying within the jurisdiction of the concerned C.D.Block. The PCA particulars relating to such units are presented under the concerned C.D.Blocks against the urban category and are repeated again at the end under the caption 'District Urban'.

In the case of an urban agglomeration, the aggregate figures obtained by the addition of the data relating to the constituent towns and outgrowths thereof if any are presented against its name. Thereafter, the data for the constituent towns starting from the core town including the location code, are presented in a continuous sequence. In case a town has outgrowths (which are not towns in their own right) in the first line the aggregates relating to the core town as well as its outgrowths are given and this is then followed by the details relating to the core town and the outgrowths separately. Each outgrowth is treated at par with a municipal ward or division while presenting the ward-wise PCA for towns.

3. Brief note on Census concepts :

Census taking is a massive operation carried out in a short span of time with the active participation of a very large number of census enumerators. The reference moment for the 1991 census count is the sunrise of March 1, 1991. However, the enumeration of the population was spread over a period of 20 days from 9-2-1991 to 28-2-1991 followed by a revisional round from 1-3-1991 to 5-3-1991 for updating the population count with reference to the sunrise on March 1, 1991. The questionnaires canvassed by the enumerators, namely the Household Schedule and the Individual Slip are brief in their wordings and the concepts used for purposes of the 1991 Census Operations and the manner in which the schedules are to be filled in have been explained in a booklet entitled Instructions to Enumerators for filling up the Household Schedule and the Individual Slip. Some of the important concepts and the relevant explanations are indicated in the following paragraphs.

(i) **Urban areas** :- The definition adopted in 1961 and adhered to in 1971 as well as in 1981 (though with a slight modification regarding the classification of fishing and forestry) has been retained for the 1991 census also. According to this definition the urban areas include :

i) all places with a Municipality, Corporation, Cantonment Board or Notified Town Area Committees, etc.

ii) all other places which satisfy the following criteria :

a) a minimum population of 5,000

b) atleast 75 per cent of the male working population engaged in non-agricultural pursuits and

c) a density of population of at least 400 per square kilometre (1000 per square mile)

d) all places which, though not satisfying the above criteria, had pronounced urban characteristics.

(ii) **Urban Agglomeration**: This concept, which replaced the concept of 'town-group' in 1971, has been retained for the 1991 census. It has been observed that very often railway colonies, university campuses, port areas, military camps and large residential colonies etc., come up quite adjacent to, but situated outside the statutory limits of cities and towns. Such areas may not by themselves qualify to be treated as towns. But if they form a continuous spread with the town they are outgrowths of the town and deserve to be treated as urban. Such towns together with their outgrowths have been treated as one urban unit called "urban

agglomeration". An urban agglomeration may consist of :

a) A city with continuous outgrowth (the part of outgrowth being outside the statutory limits but falling within the boundaries of the adjoining village or villages);

b) One town with similar outgrowths or two or more adjoining towns with their outgrowths as in (a) ; or

c) A city and one or more adjoining towns with their outgrowths all of which form a continuous spread.

Geographical contiguity with the statutory limits of the core town is the main factor in determining whether or not a nearby satellite town or an outgrowth is to be included in the urban agglomeration. This is purely a statistical concept and for carrying out the actual census, the administrative jurisdictions of the city or the towns concerned as well as of the outgrowths have been kept quite intact. The data are presented for the urban agglomeration as a whole and also severally for each of the constituent units.

(iii) **Rural areas - i.e., villages** : Areas which are not classified as 'urban' according to the definition given above constitute the rural areas. The basic unit for rural areas is the revenue village which has definite surveyed boundaries. In the case of unsurveyed villages, the boundaries as determined by the local usage have been adopted. The revenue village may consist of a single nucleated settlement or comprise of several settlements or clusters of houses located at several places within the territorial limits of the village or the village may not be having any human settlements at all (i.e., it may be totally uninhabited). The census village and the revenue village are identical in the matter of jurisdiction. However, there are a few exceptions to this general rule:

1) When the main settlement of the village with or without the surrounding open lands is constituted into an urban area, the remaining tracts of the revenue village are together treated as a separate unit for purposes of census i.e., the truncated portion itself is considered as an independent revenue village.

2) When outlying portions of certain revenue villages are incorporated into the limits of urban areas by a Government Notification such areas, whether populated or not, are excluded from the revenue village concerned and the village boundaries are redefined for census purposes.

3) Revenue villages which are completely incorporated in the limits of urban areas or else, are submerged completely under reservoir projects but are still retained in the jurisdictional lists of the Survey and Settlement authorities pending a resurvey and such other procedures, are taken note of as revenue villages but are omitted for census purposes i.e., these are not treated as census villages. Similarly, entire revenue villages, which have been identified as outgrowths of urban areas for purposes of 1991 census are treated not as census villages but as urban areas. The names of such villages, if any, in a Taluk/C.D.Block are indicated in a fly leaf.

4) If there are forest areas that do not form part of any of the revenue villages then such areas are identified clearly and the smallest administrative unit into which such forest areas are divided (eg.Forest Beat) is reckoned as the census village. A Forest Range may consist of several such census villages. (In Karnataka this phenomenon is noticeable only in Kollegal Taluk of Mysore District).

(iv) **Census Enumeration Block** : The smallest unit adopted for census taking is the Census Enumeration Block. Generally, the towns and cities are divided into wards or divisions and, wherever such units exist, their distinctive identities have been maintained. The geographical area comprised in each such ward or division or, the town in its entirety, is constituted into several blocks in such a way that every bit of land specifically stands included in one or the other enumeration block and also that there is no over-lapping of areas. In the urban areas, the Census Enumeration Blocks are constituted in such a way that each such Block contains about 120 households covering a population of about 600 persons. However, in view of the condition that

each block should have clear-cut boundaries easily recognisable on the field, blocks which are either larger or smaller than the norm have also been constituted. In the case of non-municipal towns, if the town boundaries are not specifically notified, the jurisdiction of the entire revenue village concerned is regarded as the jurisdiction of the town as well. In the case of towns which are under the administration of Mandal Panchayats, the Panchayat jurisdiction need not necessarily be identical with the jurisdiction of the non-municipal census town.

In the case of villages, depending upon the population data based on the Houselisting Operations carried out during 1990, each village has been constituted into one or more number of Census Enumeration Blocks. The work-load norm for the rural areas is 150 households covering an approximate population of 750 persons. However, numerous Census Enumeration Blocks with below-norm population have been constituted and a single enumerator has quite often been entrusted with the enumeration work in 2 or more contiguous blocks so as to ensure that the aggregate population is quite close to the norm. Further, in each village care has been taken to ensure that no bit of land belonging to that village is left out of consideration while constituting the Blocks. Each hamlet or island, if any, found within the jurisdiction of the village - irrespective of its population size - has been constituted into a separate Block in order to maintain its geographical identity. Further, even the villages known to be uninhabited at the time of houselisting operations have been constituted into separate blocks. In other words, a complete coverage of the territorial jurisdiction of each and every village has been ensured.

(v) **Location Code Number** : Every State in the Country, every District in the State, every Taluk or Town in the District, every C.D. Block (or its equivalent) in the District, every village in the taluk and every ward or division in the city or town and every enumeration block in the village or town is assigned a number in a particular order for carrying out the census enumeration. When these numbers are written side by side in the same order, starting from the State and separated by an oblique mark, the identity of any particular census enumeration block can be known quite easily. The numbers assigned are in Arabic numerals, except in the case of towns in which case Roman numerals have been adopted. For assigning the location code numbers the States in the Country, the Districts in the State, the Towns in the District and the Taluks/C.D.Blocks in the District are arranged in the alphabetical order of their names. The villages in a taluk are organised into revenue circles or hoblis for administrative purposes and each such unit will have a headquarter town or village. The identity of such units is maintained while assigning the location code numbers. Starting from the circle of which the Taluk Headquarters happens to be the Circle headquarters as well, the villages in its jurisdiction are serially numbered by proceeding in a clockwise direction or in a serpentine manner starting from the north-west corner. After exhausting all the villages in that circle, the villages of the adjacent circle are assigned numbers in the same manner. The numbering of villages run continuously for the Taluk through the different Circles or Hoblis.

The entire set of the 1991 census data relating to the village directory and the village/urban ward-wise PCA has been computerised. For this purpose a separate code structure has been developed. The computer codes assigned to the villages in each Taluk or C.D.Block are indicated in the alphabetical list of villages along with the corresponding location code numbers assigned for enumeration purposes. So also particulars about the codes assigned to towns are indicated in the alphabetical list of towns which precedes the presentation of the PCA statements in respect of the urban areas of the district.

(vi) **Building** : A building is generally a single structure on the ground. Sometimes it is made up of more than one component unit which are used or likely to be used as dwellings (residences) or establishments such as shops, business houses, offices, factories, worksheds, schools, places of entertainment, places of worship, godowns, stores, etc. It is also possible that buildings which have component units may be used for a combination of purposes such as shop-*cum*-residence, workshop-*cum*-residence, office-*cum*-residence, etc.

(vii) **Census House** : A 'census house' is a building or part of a building having a separate main entrance from the road or common courtyard or staircase, etc., used or recognised as a separate unit. It may be occupied or vacant. It may be used for a residential or non-residential purpose or both.

(viii) **Household** : A 'household' is a group of persons who commonly live together and take their meals from a common kitchen unless the exigencies of work prevented any of them from doing so. There may be a household of persons related by blood or a household of unrelated persons or having a mix of both. Examples of households having unrelated members are boarding houses, messes, hostels, residential hotels, rescue homes, jails, *ashramas* etc. These are called 'Institutional Households'. There may be one member households, 2 member households or multi-member households. For census purposes, each one of these types is regarded as a 'household'. If a group of persons who are unrelated to each other live in a census house but do not have their meals from the common kitchen, they would not constitute an institutional household. Each such person would be treated as a separate household. The important link in finding out whether there is a household or not is a common kitchen. There may be a household which does not have a house to live in and may temporarily dwell on the roadside pavement, in hume pipes, temples, *mantaps*, platforms etc., or move about from place to place resting underneath shade-bearing trees, pavements and verandahs of public or private buildings. Such households, referred to as 'Houseless Households' for census purposes, were enumerated on the night of February 28, 1991.

ix) **Criteria for enumeration of a person in a particular household :**

1) All those who normally stay and are present in that household during the entire period of enumeration i.e., from February 9 to February 28, 1991 (both days inclusive);

2) All those who are known to be normally residing and had actually stayed during a part of the enumeration period (February 9 - 28, 1991) but are not present at the time of the enumerator's visit ;

3) Also those who are known to be normally residing and are not present at the time of the enumerator's visit but are expected to return before February 28, 1991 and

4) Visitors who are present in the household censused and are away from the place(s) of their usual residence during the entire enumeration period. For the purpose of enumeration such visitors will be treated as normal residents of the household in which they are actually found during the enumeration period provided they have not been enumerated elsewhere.

(x) **Literate** : A person who can both read and write with understanding in any language is 'literate'. A person who can merely read but cannot write, is not 'literate'. It is not necessary that a person who is literate should have received any formal education or should have passed any minimum educational standard. All children of the age of 6 years or less are treated as illiterate.

(xi) **Workers and Non-workers** : For census purposes 'work' is defined as 'participation in any economically productive activity'. Such participation may be physical or mental in nature and would involve not only actual work but also effective supervision and direction of work. It also includes unpaid work on farm or in family enterprise. The reference period for determining whether a person is a worker or a non-worker is the year i.e., the 365 days, preceding the date of enumeration. The criterion is liberal and, even a person who has participated in the production of goods and services for a very brief period is entitled to be categorised as a worker. Depending upon the nature of his or her activity during the reference period, every person enumerated at the census is classified as either a worker or a non-worker.

Among 'workers' however there are two categories:

Main Workers : Those who have worked for a major part of the year i.e., for 183 days or more (6 months or more) during the reference period even though this may be in broken spells and in different occupations.

Marginal Workers : Those who have not worked for a major part of the year under reference i.e., those who have worked for less than six months (i.e., for less than 183 days) during the entire reference period.

In view of the past experience that women are often classified as non-workers because of non-reporting of their work or as those who have not worked for a major part of the year, special efforts have been made at the 1991 census for eliciting accurate information by asking probing questions.

In respect of main workers as also marginal workers, further details on the sector of economy in which they worked, the actual nature of work done by them, their employment status (i.e., employer, employee, unpaid family worker or own account single worker) have been gathered at the census.

Important terms such as cultivators, agricultural labourers and household industry are explained below.

a) **Cultivators**: For purposes of census, a person is working as a cultivator if he or she is engaged either as employer, single worker or family worker in cultivation of land owned or held from Government or held from private persons or institutions for payment in money, kind or share. Cultivation includes supervision or direction of cultivation as well. A person who has given out his or her land to another person or persons for cultivation for money, kind or share of crop and who does not even supervise or direct the cultivation of land, will not be treated as 'cultivator'. Similarly, a person working in another person's land for wages in cash or kind or a combination of both will not be treated as ' cultivator'.

Cultivation involves ploughing, sowing and harvesting. For certain reasons, the growing of certain crops is not considered as cultivation and a person engaged in growing of such crops is not regarded as a cultivator. A person can be classified as cultivator or not, *only on the basis of the crops grown*. The growing of the following crops is considered as cultivation.

1. Cereal and Millet crops : Paddy, wheat, jowar, bajra, maize, ragi, barley, etc.
2. Pulses : Arhar, gram, kesari, moong, masur, urd, etc.
3. Fibre crops : Raw cotton, jute, mesta, sunhemp and kindred crops.
4. Oil Seeds : Sesamum, ground-nut, rape seed, mustard, linseed, sunflower, castor, etc.
5. Cash crop : Sugarcane

The growing of the following crops *is not considered* as cultivation :

1. Plantation crops : Tea, coffee, rubber, tobacco, pepper, cardamom, etc.
2. Edible nuts (other than groundnut) : Walnut, almond, cashewnut, etc.
3. Fruits : Bananas, apples, grapes, mangoes, oranges etc.
4. Coconut
5. Ganja, cinchona, opium and medicinal plants.
6. Betel nuts (areca)
7. Flowers
8. Roots and tubers, chillies and spices
9. Vegetables
10. Other crops not specifically included under cultivation.

b) **Agricultural Labourer** : A person who works in another person's land for wages in money, kind or share is regarded as an agricultural labourer. He or she has no risk in the cultivation. The agricultural labourer has no right of lease or contract on the land on which he or she works.

c) **Household Industry** : Household Industry is defined as an industry conducted by the head of the household himself or herself and or by the members of the household at home or within the village in rural areas and only within the precincts of the house where the household lives in the case of urban areas. The larger proportion of workers in a household industry would consist of members of the household including the head. The industry

should not be run on the scale of a registered factory which would qualify to be registered under the Indian Factories Act. Household Industry should relate to production, processing, servicing, repairing or making and selling (but not merely selling) of goods. The goods produced should not be exclusively for consumption by the household itself but should be wholly or partly for sale.

d) **Other Workers** : All workers, i.e., those who have been engaged in some economic activity during the reference period of last one year, who are not Cultivators or Agricultural Labourers or workers in Household Industry were categorised as 'Other Workers' (OW) at the time of census enumeration and further details about the nature of industry, trade or service in which they were engaged were gathered by the enumerators. On the basis of this descriptive information, at the tabulation stage, each such worker has been further categorised as belonging to one or the other of the following Industrial Categories based on Revised National Industrial Classification - 1987.

III Workers in livestock, forestry, fishing, hunting, plantations, orchards and allied activities;

IV Workers in mining and quarrying activities;

V(b) Workers in manufacturing, processing, servicing and repairs which are carried on as other than household industry;

VI Workers in construction;

VII Workers in trade and commerce;

VIII Workers in transport, storage and communications, and

IX Workers in other services.

(xii) **Non-workers** : All those who have not at all participated in any economic activity during the reference period of one year preceding the date of enumeration are classified as non-workers.

Depending upon the manner in which such *non-workers engaged themselves for most of the* time during the reference period of one year they are classified into one or the other of the following six categories at the time of census enumeration itself. However, the Primary Census Abstract presented in this volume does not furnish details according to the categories of non-workers but indicates the total number of non-workers by sex.

a) **Household duties** : This covers all persons who are engaged in unpaid home duties and who do no other work or have not done any work at all during the last one year.

b) **Students** : This will cover all full-time students including children attending school.

c) **Dependents** : This category includes all dependents such as infants, children not attending school and permanently disabled from work because of illness or old age. Dependents will include even able bodied persons who cannot be categorised in any other category of non-workers but are dependent on others.

d) **Retired Persons or Rentiers** : A person who has retired from service and is doing no other work i.e., not employed again in some full time work or not engaged in some other work, such as cultivation, business, trade, etc., or a person who is a rentier or living on agricultural or non-agricultural royalty, rent or dividend, or any other person of independent means for securing which he or she does not have to work, will come under this category.

e) **Beggars** : This will cover beggars, vagrants or cases such as persons without indication or source of income and those with unspecified sources of subsistence who are not engaged in any economically productive work.

f) **Inmates of Institutions** : This will cover convicts in jails or inmates of a penal, mental or charitable institution even if such persons are compelled to do some work such as carpentry, carpet weaving, vegetable growing, etc., in such institutions. But an undertrial prisoner enumerated in a jail would be recorded for the work he or she was doing before he or she was apprehended. Similarly, a person temporarily in a hospital or similar institutions would be recorded for the kind of work he or she was doing before he or she was admitted into the hospital or institution. But, for a long-term undertrial prisoner or convict in a prison or for long-term inmates of penal or charitable or mental institutions, the person's previous work would not be taken into consideration. A person will be considered as 'Long-term' inmate if he or she is in such an institution for 6 months or more.

4. Brief History of the District*

Consequent on the publication of the Karnataka State Government Order No.RDF 6 TNV 76 dated 31st Janury 1977, the name of this district was changed in to Uttara Kannada. In the census publications relating to the 1981 census, however, the name of this district is spelt as Uttar Kannad in conformity with the spelling standardised by the Surveyor General, India. For more than a century and a half this district was known by the name North Kanara, or simply as Kanara, in the official records and the gazetteer compiled during the 1880's. The present change in name does not signify any material alteration in its name, for Uttara Kannada is nothing but the Kannada translation of the term North Kanara, the former anglicised name. It may be recalled that it was the Portuguese that first bestowed the name Kanara (also spelt as Canara) to this territory along with its southern counterpart. The British who took possession of these areas after the fall of Tipu Sultan in 1799 retained the name for the newly formed district. The entire coastal tract of the State, including Kasargod which is now a part of Kerala State, formed part of the Madras Presidency from 1817 to 1862. For a brief period from 1800-1817 however this district stood bifurcated from its southern counterpart. In 1862 the composite Kanara district was not only bifurcated but the northern half was transferred to the then Bombay Presidency while the southern portion was retained in the Madras Presidency. Traditionally this coastal area of the State consists of the deshas or countries named Konkana, Haiga and Tuluva as one moves down from north to south.

The district, comprising of a narrow coastal strip, a section of the Sahyadri mountain range and an expansive tract of the table-land to its east, has a hoary past. The coastal area is supposed to have been created, that is retrieved from the sea, by Parashurama the sixth incarnation of Lord Vishnu. This tract, it is believed, formed part of Ravana's kingdom. According to tradition Ravana promised his mother that he would fetch the very Atmalinga of Lord Shiva from Kailasa and would instal it in his home to enable her to offer worship daily. He performed severe austerities and the appeased Shiva granted his desire, of course with certain conditions which Ravana had to observe before reaching his home. The gravity of the catastrophe which would befall the world was soon visualised by the gods and Lord Ganesha took upon himself the responsibility of thwarting Ravana's intentions. In disguise, Ganesha accosted the jubilant Ravana at the place where Gokarna now stands. As it was the proper time for Ravana to offer his evening prayers Ganesha offered his help to Ravana promising the latter that he would hold the Atmalinga of Shiva so that Ravana could offer his prayers. When Ravana moved over to the sea and was busy in his prayers Ganesha complained of the ever-increasing weight of the Atmalinga and, as had been already agreed upon, shouted thrice for help and finally dropped the Atmalinga on the ground even as the aghast Ravana came running to him. The mischief had been superhuman strength nor his powerful prayers could enable Ravana to secure the possession of the Atmalinga again. He left the place greatly dejected. The place however had been rendered the holiest of the holy having become the abode of Lord Shiva on earth (Bhu Kailasa). The Ishvara linga here is now known as Mahabaleshvara. Kumbakarna, the brother of Ravana is said to have performed penance in the area belonging to this district. Yan, a place of pilgrimage, is known as Bhairava-kshetra and this is regarded as the site where the demon Bhasmasura was finally vanquished. Lord Shiva himself is said to have performed penance at Kavala cave here to overcome the ill effects cast on him by Shani (Saturn). Banavasi is associated with the episode relating to the slaying of the demons Madhu and Kaitabha by Lord Krishna.

Black and red ware pottery of the megalithic period discovered at Kantraji near Banavasi and the mesolithic tools found at several places between Gokarna and Karwar provide enough evidence to infer that certain parts of this district at least were inhabited by human beings during the pre-historic times. Excavations near Banavasi have brought to light the remnants of burnt brick structures,

* *Source : Census of India 1981 - District Census Handbook, Uttara Kannada District, Bangalore.*

underground drainage pipes and several terracota figurines besides silver and lead coins. Mauryan emperor Ashoka, it is stated in Mahavamsha, deputed a Buddhist Missionary to Banavasi to propagate Buddhism in this region. Places such as Honavar have found a mention in the travelogues of ptolemy the Greek geographer (150 A.D.). Undoubtedly, the district has an impressive historical past.

As may be inferred from the recently discovered stone inscription installed in memory of Shiva Siri Pulimavi this district was under the sway of the Shatakarnis during the earliest period of the known history. Gautamiputra Shatakarni is stated to have restored the fortunes of this dynasty and he was succeeded by Vasistiputra Shatakarni (130-159 A.D.). Coins of this period as well as that of a little later period when Chutus were ruling these parts have been discovered near Banavasi. During the second and third centuries the Chutus, who were related to and were the feudatories of the Shatakarnis, were ruling from Banavasi. Four prkrit inscriptions and the lead coins unearthed bear testimony to this fact. The Madhukeshvara temple at Banavasi, it may be mentioned in passing, has within its precincts, the famous inscribed Naga-stone set up by Shivaskanda Nagashri. According to the Hiregutti and Arge plates Bhojas ruled certain parts of the coastal area as contemporaries of the Shatakarnis and Kekayas were their feudatories. Towards the close of the third century the Pallavas of Kanchi established their supremacy and retained power until they were driven out from these parts by the legendary Mayura Varma Kadamba. The founder of this dynasty is said to be Trinetra or Trilochana and the family got the name Kadamba on account of the Kadamba tree near its residential house. Mayura Sharma, a brahmin by birth, was the son of Bandhusena and the grand son of Vishnu Sharma. As an youngman, accompanied by his grandfather, he went to Kanchi, the capital of the Pallavas for higher learning. The events which took place during his sojourn at Kanchi inspired him to take to arms and establish a kingdom. According to Chandravalli inscription his sway extended as far as Chitradurga. Kakustha Varma is by far the greatest king of this dynasty. During the long period of his rule starting from 420 A.D. the kingdom reached the pinnacle of its glory. The sovereignty of the Kadambas came to an end in about 540 A.D. when they were subdued by Pulikeshi-II of the Chalukyas of Badami, who conquered Banavasi and handed over the administration of Banavasi-mandala to the Alupas of Mangalore. In about 753 A.D. the Chalukyas were overthrown by the Rashtrakutas and Rajaditya was appointed as the governor of Banavasi province. The Rashtrakuta rule was followed by that of the Chalukyas of Kalyan who have left behind them numerous inscriptions in this district. During this period Banavasi was an important seat of administration and the headquarters of a governor. Vikramaditya-VI was the governor of Banavasi province for quite some time. In fact he used this position as a springboard to ascend the throne at Kalyan. The next important dynasty which held sway over large parts of this district is that of the Yadavas of Devagiri. During this period the Kadambas of Hanagal who had virtually been recognised as the successors of the Kadambas of Banavasi controlled the eastern tracts while their counterparts on the west namely the Goa Kadambas held sway over Ankola and Karwar areas as these formed part of Konkan 900. Another branch of the Kadambas, known after Chandavara, administered the region comprising Kumta and Honavar. The Hoysalas of Dwarasamudra tried to establish their supremacy over this district during this period as can be made out from the fact that in 1119 A.D. Vishnuvardhana conquered Hanagal and subdued the Kadambas. However, shortly thereafter, Vikramaditya-VI sent forth Achugi who recaptured Hanagal and ensured the subjugation of the Kadambas to the Chalukyan throne. Once again in 1140-41, Vishnuvardhana took Banavasi. The fight for supremacy between the Hoysalas and the Chalukyas continued in this region upto 1300 A.D. With the fall of the Yadavas of Devagiri on the one hand and of the Hoysalas on the other, this district too came under the suzerainty of the Delhi empire. Honavar rose into prominence as the seat of a governor during this period and continued to retain its importance for a couple of hundred years.

This district too was greatly affected by the emergence of the Bahmani kingdom, especially its offshoot, the Bijapur Sultanate on the one hand and the founding of the Vijayanagara empire on the other. The Portuguese too entered the scene,

especially on the coast, and exerted considerable influence on the political and administrative set up. In 1347, Marapa of Vijayanagara invaded Banavasi and paid a visit to Gokarna the holy place of pilgrimage. Thereafter, Banavasi and the surrounding country began to be administered from Chandragutti. A little later Banavasi became the headquarters and was placed under the charge of Madhava Mantri, who is said to have conquered north western parts of this district from Goa Kadambas. In the initial stages the Saluvas of Gerusoppa and Haduvalli resisted the supremacy of Vijayanagara. Their resistance could not last long and they too became the feudatories of the Vijayanagara empire. For about four centuries the Saluvas of Gerusoppa exercised control over the fertile tracts on either side of the river Sharavati. Channabhairadevi of the Haduvalli family was captured in 1608 A.D. by Shivappa Nayaka of Keladi. The other important dynasties of local chiefs are those of Bilgi and Sonda. The Bilgi Odeyas had their capital at first at Isur in Siddapur taluk and ruled the areas comprised in the present day taluks of Siddapur and Sagar. Chante Odeya shifted the capital to Bilgi which he fortified and then conquered Bedkani and Kondli. Sonda Nayakas had their capital at Sonda in Sirsi taluk and gained prominence during the latter half of the Vijayanagara period. These Nayakas patronised Banavasi and its Madhukeshvara temple. With the decline of Vijayanagara power, this district was gradually taken over by the Nayakas of Keladi, who continued their cordial and friendly ties with the Portuguese. This policy helped the growth of overseas trade and kept the economy of the district in a flourishing state. The Portuguese were permitted in about 1678 to establish factories and Churches at Mirjan, Chandavar, Honavar and Bhatkal. The English too made their presence felt by establishing factories at Karwar and Bhatkal. A mention may also be made of the Maratha incursions and the fact that for a brief period in 1675, Shivaji occupied the territory from Karwar to Gangavali. In 1763, the district was annexed to Mysore kingdom by Haider Ali. After him, his son and successor Tipu Sultan strengthened the forts, and retained full control over the district till he fell fighting the British in 1799. Thereafter the district came under the administrative control of the British. In 1800-01 there were some anti-British riots which were soon put down. Again in 1830-31 there was an uprising and this too was quelled. The district has secured for itself a creditable place in the freedom struggle, having been in the forefront of the Forest Satyagraha, Salt Satyagraha and the no-tax compaign.

With the advent of the British, this district became a part of the Madras Presidency. For more than a decade this area along with Kundapur taluk in the south had a separate collectorate and from 1817 to 1862 this formed part of the composite Canara district. Initially there were seven taluks named after Kundapur, Honavar, Ankola, Bilgi, Banavasi, Sonda and Supa. There were however several changes in the organisation of the district into taluks. In 1862 the northern division of the then composite Canara district excluding Kundapur taluk was transferred to Bombay Presidency. The headquarters of the district was shifted to Karwar from Honavar. The district comprised of the 8 taluks of Ankola, Honavar, Karwar, Kumta, Haliyal, Siddapur, Sirsi and Yellapur besides the 3 sub-taluks or Pethas named after Bhatkal, Mundgod and Supa. In 1947 with the dawn of independence this district continued as a part of the Bombay State. In 1948 Mundgod Petha was elevated to the status of a taluk. With the reorganisation of the States in 1956, Uttar Kannad district became a part of the Karnataka State. In 1960, the sub-taluks of Bhatkal and Supa were upgraded and constituted into full-fledged taluks thus bringing the total number of taluks in the district to the present tally of eleven. Since then there have not been any changes in the organisational set up of the district. For administrative convenience the eleven taluks are grouped into three revenue sub-divisions as follows : Karwar sub-division (Karwar, Supa and Haliyal); Kumta sub-division (Kumta, Honavar, Bhatkal and Ankola); Sirsi sub-division (Sirsi, Siddapur, Mundgod and Yellapur). The district itself comes under the jurisdiction of Belgaum Division.

5. Location and Physical Aspects*

Uttara Kannada district is situated in the north-western sector of the State and is bounded by the Arabian sea on its west. Covering an expansive area of 10,291 square kilometres this district lies between the latitudinal parallels of 13 degree 55 minutes North and 15 degree 31 minutes North and the longitudinal parallels of 74 degree 03 minutes East and 75 degree 05 minutes East. From north to south and from east to west the district spans a distance of 328 km and 160 km respectively. The southern-most portion of the district is only 10 km wide and the district bulges out mainly towards the east as one moves north. After crossing the middle zone the eastern boundary line turns west and proceeds in an irregular manner towards the north-west. The western boundary line on the other hand follows the coast in the north by north west direction and after reaching the mid-zone turns east and proceeds in a north by north-easterly direction describing an arc. Thus the district is seen to be of an irregular shape. It is bounded on the north-west by the Union Territory of Goa, Daman and Diu; on the north by Belgaum district; on the north-east and east (upper half) by Dharwad district; on the east (lower half) and south-east by Shimoga district and on its southern tip by Dakshina Kannada district.

Topographically the district can be divided into three distinct zones : the coastal belt which is nothing but a succession of estuarine plains connected by narrow coastal strips; the central belt consisting of the hills and valleys of the Sahyadri range and the eastern table land. Broadly speaking the district can be categorised as essentially an upland, that is a hilly malnad. More than 75 per cent of the lands of this district belongs to this category. The importance of the low lands and the coast in the economy of the district cannot however be under-estimated, for it is these areas which are fairly well developed and are also more densely populated. The eastern belt consists of a narrow transition zone of undulating lands and vast stretches of plains as one moves further eastwards. By and large the district is hilly in terrain and is covered by thick vegetation including some of the most magnificient forests.

In broad terms it may be observed that the taluks of Ankola, Karwar, Kumta, Honavar and Bhatkal have long stretches of coastal strips besides large areas of the low and rising hilly tracts; the central and western belts of the taluks of Siddapur and Sirsi and almost the entire Supa taluk consist of a hilly terrain; the taluks of Haliyal, Mundgod and Yellapur besides the eastern zones of Siddapur and Sirsi have undulating plains. As regards the hill peaks, it may be noted that Darshanigudda (915 m. MSL) is the highest peak and that this is located in Supa taluk at the trijunction of the districts of Uttara Kannada and Belgaum and the Union Territory of Goa. The other prominent peaks are : kaltigudda (763 m) in Honavar taluk, Bhedsgave (763 m) and Gudehalli (549 m) in Sirsi taluk and Nishanigudda (457 m) in Yellapur taluk besides the smaller peaks of Shirvegudda, Hukali, Mavinagundi and Motigudda. Gudehalli and Kaltigudda have been recognised and developed as health resorts in recent years.

Kali, Bedthi, Aghanashini and Sharavathi are the principal west flowing rivers of the district. The Kali river in fact consists of two streams which flow into each other near Supa. Pandri the main stream, also called Ujili, originates in the extreme north and flows at first in a south-easterly direction and loses its identity after its confluence with the other stream called the Diggi hole or the Kari (the Black) hole (stream) which too flows eastwards at first. The river thus formed continues to flow in a south by south-west direction for a distance of about 50 km and then takes a sudden westward turn. At this place, called the Lalguli Falls, the west flowing Thattihalla stream also joins the Kali and river flows west by south-west and then directly westwards till it falls into the Arabian sea near Karwar. Before reaching the sea it is joined by the Nuji stream which itself has two tributaries named Kaneri halla and Vaki halla. The river is navigable from Kadra to Karwar for a distance of about 30 km. Bedthi or Gangavali is also formed of two main streams -

* *Census of India 1981 - District Census Handbook, Uttar Kannad District, Bangalore.*

the Shalmali which originates near the Someshvara temple south of Dharwad and the Bedthi which has its origins near Hubli. These two streams join near Kalghatgi and flow west and south-west for a total distance of about 96 km. On its meandering way to the Arabian sea the river dashes down the western face of the Sahyadri's in a cataract which has come to be known as the Magod falls. Beyond Harigadde the Sonda rivulet also flows into this river. At Gundabala the river meets the tidal waters and, from this place upto Gangavali a distance of 25 km the river is navigable. Aghanashini, also known as Tadri river, flows into the Arabian sea about 10 km south of Gangavali. This river too is composed of two major streams besides Benehalla. Two of these streams originate in Sirsi taluk and flow southwards at first. The other stream traverses almost across the entire breadth of Siddapur taluk in a west by north westerly direction and this is joined near Harigar by one of the streams from Sirsi taluk. A short distance to the west from here, near Unchalli, the river leaps down a precipitous rock and this has come to be known as the Lushington Falls. Further west, in the limits of Kumta taluk Benehalla also flows into it and the river finally meets the tidal waters at Uppinapatna, from where it becomes navigable for a distance of about 25 km upto Tadri. From Mirjan, the river forms a lagoon parallel to the coast for a distance of about 13 km. Near the estuarine mouth there is a narrow creek blocked by a rocky reef. Sharavati, also known as Banaganga rises at Ambutirtha near Kavaledurga in Shimoga district. It flows in a north westerly direction and receives Haridravati and Yenne hole. Near the border of the district after covering a distance of about 64 km, the river bends to the west and for about 13 km forms the natural boundary between Uttara Kannada and Shimoga. Near Kodakani the place where the river touches the district borders, it leaps over a precipice, about 260 metres in height, into a deep cataract. The river divides itself into four distinct cascades in this process and these are popularly known by the names Raja, Roarer, Lady or Rani and Rocket. These falls present a magnificent spectacle and have acquired world fame as the Jog Falls or the Gerusoppa Falls. From this deep pool the river resumes its westward journey to the sea in a rough terrain for another 30 km till it reaches Gerusoppa. Between Gerusoppa and Honavar at the sea mouth for a distance of about 27 km the river is navigable. About 8 km east of the estuary the river widens into a 3 km broad lagoon containing a few islands of which Mavinkurve deserves mention.

Besides these major rivers there are several streams and rivulets which are known after the villages near which they traverse. Varada and Dharma are the two important east-flowing rivers in the south-eastern sector of the district. Varada has its origin at Varadamula near Ikkeri in Sagar taluk and flows past Banavasi for a short distance in this district and finally joins the Tungabhadra at Galaganath in Haveri taluk. Dharma river issues forth as a small stream from a tank in Islur village of Sirsi taluk.

Geologically, the rock formations of this district belong to a most ancient period of earth's history and consist of archean complex - the oldest rock of the earth's crust. The rock formation is characterised by a system of ridges and a plateau on the west descending rapidly into a narrow strip of low lands covered by alluvial rocks. The eastern sector is hilly and consists of the Dharwars and the peninsular gneisses. The Dharwars are represented by chloritic schists which are younger to hornblendic types. Pegmatites and quartz veins also are known to occur in parts of the district. The archean granites and gneisses are capped by laterite at several places. The district, it may be broadly observed, lies outside the great flows of trap. Uttara Kannada district is quite rich in mineral wealth. Iron and manganese are the major items while limestone, quartz, bauxite,, silica, lime shells, sand and clay are the other important minerals. The iron ore occurs mainly in the western half of the district in the taluks of Ankola, Honavar and Yellapur and a special mention may be made of the extensive reserves in Apsarkond area of Honavar taluk, Bisgod, Kalche and Kadlagadde areas of Yellapur taluk and Kuntagani area of Ankola taluk. The iron content of the ore available at these places is estimated to vary between 58 per cent and 65 per cent. The Manganese ore of this district is characterised by a high manganese content coupled with low phosphorus and low electro-magnetic elements. The manganese bearing region is divided into three divisions - Supa, Yellapur and the

Sirsi-Kumta-Ankola. Limestone occurs in large quantities in the taluks of Supa, Yellapur and Kumta. White clay is found at numerous places the most important of which are : Castle Rock area and Kuntagani area of Supa taluk, Achave village of Ankola taluk, and Heravatta area of Kumta taluk. Bauxite is known to occur near Mundolli and Talgod of Bhatkal taluk while copper is known to occur near Kaiga. Glass sand is found near Bengre area and ilmenite sand is found at numerous places all along the sea-shore. A mention may be made of granite and laterite which are very useful as building material.

Uttara Kannada district is very rich in forest wealth and about 81 per cent of its total geographical area stands classified as forests. The slopes of the western ghats and the lofty peaks as well are clothed with dense vegetation stimulated by heavy to very heavy rainfall and the fertile soils. The teak wood available in the forests of this district ranks amongst the best in the world and is found highly useful in the ship building industry. The forests of the district can be categorised into the evergreen and the semi-evergreen which are rich in soft wood and packing-timber yielding trees; the moist deciduous which are rich in teak, rose wood, honne and other timber; the scrub jungle containing sandal wood trees among other species of tree growth and lastly the unwooded or sparsely wooded forests. There are reserved forests, plantations, protected forests and village forests. This forest wealth is being exploited over the decades and has now been greatly depleted. In spite of this, in the matter of forest wealth, Uttara Kannada happens to be the richest among the 19 districts of the State. The fauna of the district is also rich and varied. A wild life sanctuary covering an area of 5729 square kilometres was constituted in 1953 near Dandeli. The wild animals found here include the tiger, cheeta, bison, elephant, sambar, barking deer etc. The district is also noted for the marine and inland fishing activities and the variegated nature of its fish-wealth.

The western ghats which lie across the path of the south west monsoons cause heavy to very heavy rainfall over the coastal areas and moderate to heavy rains in the hilly malnad tracts. The elevation varies as one moves east and north and as a result the climate also varies as one moves westwards from the eastern plains through the hilly malnad and reaches the coast line. All round the year the humidities are high especially in the western sector. The year may be divided into 4 seasons. The summer season lasts from March to May and is marked by the rising temperature. May happens to be the hottest month and at times the maximum temperature reaches 38 degree celcius. The weather during this period may be regarded as oppressive due to the moist heat. In the coastal areas however the cool sea breeze provides some relief during the latter half of the day and early evening hours. From June to September, which marks the monsoon or the wet season, the sky remains overcast and the day temperatures move down to tolerable limits. During this period there would be incessant rains in most parts of the district. This monotony is however broken a few brief dry spells which provide some relief to the people. The months of October and November mark the retreating monsoon and during this period the day temperature registers a slight increase while the night temperature gradually moves down. Since this period is free from incessant rainfall and the oppressive heat of the summer as well one can regard these two months as the most pleasant months of the year. Winter season sets in during December and lasts till the end of February. During this period the weather is dry with a clear bright sky and an agreeably low temperature as well as humidity. The district now has three meterological observatories and these are located at Shirali, Honavar and Karwar.

The district receives an average rainfall of 2741.7 mm per annum. Generally the rainfall is heavier in the coastal belt than in the uplands towards the east and the north. However the wettest areas are at the foot of the Sahyadris. The rainfall varies from 3854 mm in Bhatkal i.e. the south-western coastal zone, to 1155 mm at Mundgod near the north eastern border. July is the month which records the heaviest rainfall. The number of rainy days varies between 114 in Bhatkal and 87 at Mundgod and the overall average for the district is 103 days. In the matter of rainfall Uttara Kannada is quite fortunate and is blessed by the presence of the

western ghats. It does not suffer from any large scale variations in the amount of rainfall from year to year. Its location on the sea coast has however rendered it vulnerable to the havoc occasionally caused by the depressions and the cyclonic storms that are formed in the Arabian sea and the Indian ocean.

The topographical and the climatic features of the district are quite suitable for the production of agricultural crops especially rice and also horticultural crops like areca and coconut. The soils of the district may be divided into two clear cut zones based on topography:- the coastal alluvial soils and the upghat lateritic and granitic soils. Mixed laterites and traps are found in the taluks of Supa, Haliyal and Mundgod which contain certain patches of black cotton soils as well. The lateritic soils are highly leached, reddish brown in colour, shallow to medium in depth and loamy in texture. These soils are met with in the taluks of Karwar, Kumta, Honavar, Bhatkal, Sirsi and Siddapur. Red loamy soils are also found to some extent in the taluks of Supa, Mundgod and Haliyal. Red sandy loams are poor in bases and are well drained, being poor in moisture retaining capacity. Such soils are found in the taluks of Sirsi, Yellapur, Karwar and Ankola. In the coastal taluks there are numerous patches of gazni lands which contain a saline soil of light yellow or brownish colour. These lands are not quite suitable for cultivation even though the farmers have for long been accustomed to raise a crop of paddy of a particular variety in such fields also. As already pointed out, the forests cover very vast extents of lands in almost all the taluks and the net area sown works out to hardly 11 per cent. From the point of view of economic wealth, more than agricultural land it is the forest-clad land that seems to be more important. The importance of the sea and marine fishing in the economy of the district cannot be under estimated.

6. Administrative Divisions and Jurisdictional changes

The State of Karnataka has four revenue divisions. The district belongs to the Belgaum Division. The district has 11 taluks and four revenue sub-division. In 1991 the district has 1317 villages and 14 towns. A talukwise distribution of these villages and towns is shown in the statement given below. The statement also depicts changes in the number of villages between 1981 and 1991, if any, and the reasons thereof talukwise.

Statement showing the number of villages in each taluk of the district as per the 1991 census as also 1981 census and reasons for variations, if any, and the number of towns as per 1991 census.

Statement showing the number of villages/towns in each taluk of the District, decadal variations if any and reasons thereof

Sl.No.	Taluk	Total No. of Villages according to the list finalised for		No. of Towns as per 1991 census list	Reasons for variation in the No. of Villages between 1981 and 1991 census
		1991 Census	1981 Census		
1	2	3	4	5	6
1.	Ankola	86	86	1	-
2.	Bhatkal	61	64	1	Bengre Mavalli and Shivalli villages are bifurcated in 1981 census which were treated as I and II by the revenue authorities for administrative purposes. But, now these three villages are not bifurcated and treated as single village. Hence the total number of villages reduced from 64 to 61.
3.	Haliyal	133	133	3	-
4.	Honavar	93	97	1	Now, Honavar (Rural) village is fully included in Honavar town. Revenue villages Karki and Haldipur were bifurcated into two and three parts respectively in 1981. Now these are not bifurcated. So, they are omitted in the 1991 census list of villages.
5.	Karwar	57	58	3	Binaga village of 1981 census has now treated as a non-municipal census town. Hence it is omitted in the 1991 census list of villages.
6.	Kumta	119	119	1	-
7.	Mundgod	94	91	-	Mundgod town of 1981 census is now declassified. The fully incorporated villages in the limits of Mundgod town viz. 1.Mundgod 2.Kelaginkop and 3.Melagin Kop are now included in the village list of 1991 census. Hence there is an increase in the number of villages.
8.	Siddapur	201	196	-	Kondli Hanajibail Hosur Guddekoppa and Balikoppa villages were fully incorporated in Siddapur town in 1981 census. Now Siddapur town is declassified. Hence these 5 (five) villages are included in the list of villages of 1991 census.
9.	Sirsi	223	227	1	Sirsi, Tandakanahalli, Kalkuni and Puttanamane erstwhile revenue villages of 1981 census are now treated as urban being the outgrowth of Sirsi Town.
10.	Supa	123	140	-	18 villages viz. 1.Adangaon 2.Adulli 3.Asangaon 4.Bhamarde 5.Biroda 6.Dongarwada 7.Hatkamba 8.Jamagalli 9.Konda (Supa) 10.Kunadali 11.Kukurekurwade 12.Maisoda 13.Pata 14.Phanskhand 15.Sulawadi 16.Supa 17.Titawali and 18.Virkhol of 1981 census are now submerged under Supa Dam. Hence omitted from the list of villages. Further Ramanagar a newly constituted village comprising the areas of three villages namely 1.Shitawade 2.Adhali and 3.Akrali of Khanapur taluk of Belgaum district is added during 1991 census. Hence the difference.
11.	Yellapur	127	127	1	-

Pariculars of villages which are fully or partly included in the Urban areas i.e., towns of the district are given in the following statement.

Particulars of villages which are fully or partly included in the Urban Areas of the District

* The jurisdiction of this town extends over the villages belonging to two taluks of Haliyal and Supa.

7. Brief Analysis of Data

(i) Area and Population

The total area of the district is 10,291.00 sq.kms. The taluks claim 10,124.70 and towns 166.30 sq.kms respectively. Total population in the district is 1,220,260 in which 925,744 live in villages and rest of 294,516 in towns. Out of 11 taluks in the district the most populous is Honavar with 129,650 persons followed by Kumta (107,963) and Sirsi (102,040). Least populated taluk in the district is Supa with 43,447 inhabitants followed by Yellapur (50,902) and Haliyal (70,294). Among towns chief ones are Dandeli (52,701), Karwar (51,022) and Sirsi (50,895). The smallest one is Magod Colony (798) followed by Kadra (2,563) and Ganeshgudi (3,371).

(ii) Rural-Urban Composition

In the total population of 1,220,260 the rural chunk is 925,744 and the rest is urban. There are 11 taluks and 14 towns in the district. About 24 per cent population in the district is urban. It means that a overwhelming proportion of people in the district are villagers. The corresponding proportions for the State are 30.92 per cent and 69.08 per cent. Obviously the index of urbanisation in the district is low. The percentage of urban population which was 25.32 per cent at the 1981 census slowed down to 24.14 per cent in 1991. This has been so for the reason of declassification of towns of Mundgod and Siddapur in 1991, although three new census towns are included in the district for the first time in 1991, namely Binaga, Kadra and Magod Colony. Talukwise breakup of rural population is presentec in Table-1.

Table 1 : Population and Number of Villages, 1991

Sl. No.	Name of C.D.Block/ Taluk Rural	Population of Villages			No.of Villages	
		Persons	Males	Females	Total	Inhabited
1	2	3	4	5	6	7
1.	Ankola	77780	39922	37879	86	84
2.	Bhatkal	97539	48312	49227	61	60
3.	Haliyal	70294	36285	34009	133	112
4.	Honavar	129650	64616	65034	93	92
5.	Karwar	79416	40115	39301	57	55
6.	Kumta	107963	54550	53413	119	113
7.	Mundgod	75046	39689	35357	94	84
8.	Siddapur	91646	46456	45190	201	199
9.	Sirsi	102040	52194	49846	223	222
10.	Supa	43447	22198	21249	123	116
11.	Yellapur	50902	25995	24907	127	127
	District Rural	925744	470332	455412	1317	1264

In the villages of the district live 470,332 males and 455,412 females. Populationwise the Honavar taluk which is situated on the coast is biggest followed by another coastal taluk of Kumta and Sirsi taluk. Other big taluks are Bhatkal and Siddapur. Out of a total of 1317 villages in 11 taluks 1264 are populated. Highest number of populated villges are in Sirsi taluk followed by Siddapur taluk. Least number of villages are in Karwar taluk. Number of populated villages and extent of population in a taluk are not always in proportional relation as with 116 villages Supa has only 43477 persons, whereas with only 55 villages the Karwar has a population of 79,416. In Yellapur taluk there is no uninhabited villages. In other taluks only small number of villages are de-populated. The townwise distribution of urban population is presented in Table-2 below.

Table 2 : Population and Number of Towns, 1991

Sl. No.	Name and Civic Administration Status of Towns	Population		
		Persons	Males	Females
1	2	3	4	5
1.	Ambikanagar (NMCT)	6064	3117	2947

12.	Magod Colony (NMCT)	798	543	255
13.	Yellapur (MP)	14456	7353	7103
14.	Sirsi (CMC)	50895	26120	24775
	District Urban	294516	150365	144151

In the total urban population of 294,516 males are 150,365 and females 144,151. In about three lakhs of total urban population the half of it is living in three towns of Dandeli, Karwar and Sirsi each one having nearly equal share of the half of the total urban population in the district. Rest of urban population is distribuated in 11 towns, in which large ones are Bhatkal, Kumta and Haliyal. At the 1981 census there was no town in the district belonging to class-II category (50,000-99,999). Such towns are now two in number. In 1981 census there were 5 towns belonging to class-III category (20,000-49,999). Three towns which were part of this class at the 1981 census are now included in class-II.

(iii) Classification of new places as towns, declassification and/or merger of towns during the decade 1981-91.

Three new towns have come up in the district during 1981-91. Two of them are project sites with population of 798 and 2563 respectively. The Table-3 given below shows details about this.

Table 3 : New Towns/Towns Declassified, Merged in 1991 Census

Particulars	Name of Town	Population
1	2	3
(a) Added	(i) Kadra (KPC) Project	2563 (1991 census)
	(ii) Binaga	7281 (1991 census)
	(iii) Magod (KPC) Project	798 (1991 census)
(b) Declassified	(i) Mundgod	10332 (1981 census)
	(ii) Siddapur	11289 (1981 census)
(c) Wholly merged with other town	NIL	-

(iv) Decadal Variation in population

During the decade 1981-91 the rise in the total population of the district has been of the order of 13.66 per cent. It is far behind the growth rate of 21.12 per cent witnessed in the State. The decadal growth in rural and urban parts of the district has remained below the respective State average of 17.66 per cent and 29.62 per cent as can be seen from Table-4 below.

Among the three of the total, rural and urban decadal variations, the extent of the urban variation is smallest in the district. As is clear from the above cited averages for the State it is against the normal trend found in the State as a whole, where the extent of urban variation is much more pronounced than the rural one. In the Uttara Kannada district this peculiar position has largely come into being on account of the declassifications effected in taluks of Siddapur and Mundgod. Otherwise one may note that the urban variation has been lesser than the rural in the taluks of Ankola, Bhatkal, Honavar and Kumta. Incidentally, all of these taluks are coastal ones and urban units here are very old and saturated. Among the rest of the taluks the highest total decadal variation during 1981-91 has been in the case of Bhatkal. This increase here has been mainly on account of rural increase. The dynamics of population growth in this and also in other talûks of coastal area show that the rural increase has been higher than the corresponding urban growth. Since most of the population of the district is comprised from the contribution of coastal taluks it is therefore naturally to be seen at the district level also that the rural variation is much higher than the corresponding urban variation. In short the growth of population in taluks of the district has remained comparatively

Table 4 : Decadal change in distribution of Population

Taluk	Population						Percentage decadal variation (1981-91)			Percentage of urban population	
	1981			1991							
	Total	Rural	Urban	Total	Rural	Urban	Total	Rural	Urban	1981	1991

District	1073561	801768	271793	1220260	925744	294516	13.66	15.46	8.36	25.32	24.14

higher than the corresponding urban population growth and this factor has given a lower urban proportion of population in 1991 census than what it was at 1981 census.

(v) Trends of Urbanisation

The proportion of urban popultion is 24.14 per cent in the district. It was 25.32 per cent at the 1981 census. The proportion of urban population is below the district average in taluks of Ankola, Honavar, Kumta and Yellapur. Mundgod and Siddapur do not have any urban population in 1991 as compared to 1981 due to declassification of a town in each taluk. In the case of taluks of Bhatkal, Sirsi and Karwar the proportion of urban population is above the district average, being highest in Karwar. There were 13 towns in the district at the 1981 census, which are now 14 in 1991. As noted above Dandeli town is spread over two taluks of Supa and Haliyal, but a large portion of it is in Haliyal. Ankola, Bhatkal, Haliyal, Honavar, Karwar, Kumta and Sirsi are towns of the respective taluks bearing same name. Yellapur and Magod Colony are in Yellapur taluk while Ganeshgudi is in Supa taluk and Ambikanagar is in Haliyal taluk. Rest of the two census towns namely Binaga and Kadra are in Karwar taluk.

(vi) Population Size of villages

There are 1264 inhabited villages in the district. The average population of a village in 1991 is 732. There are five taluks in which the average population of of a village is below the district average of 732. These are Supa (375), Yellapur (401), Sirsi (460), Siddapur (461) and Haliyal (628). It may be recalled that these are hilly malnad taluks. On the other hand it is higher in Mundgod (893), Ankola (926), Kumta (955), Honvar (1409), Karwar (1444) and Bhatkal (1626). Out of these six taluks, only Mundgod is of hilly malnad area and rest are coastal taluks. Among rest of five coastal taluks except the Karwar which lies in the north bordering Goa one finds more average population per village as one travels from north to south along the coastal taluks. The distribution of villages by population size is presented in Table-5

Out of the 1264 populated villages 780 are with less than 500 population. Thus the extent of small villages in the district is about 62 Per cent. Such villages are above the district average of 62 per

Table 5 : Percentage distribution of villages by population ranges, 1991

Taluk/C.D.Block	No. and Percentage of inhabited villages	No. and percentage of villages in each range (figures in paranthesis indicate percentage of villages in each range)					
		Less than 200	200 - 499	500 -1999	2000 - 4999	5000 - 9999	10,000 & above

8. Siddapur	199	64	78	54	2	1	-
	(100.00)	(32.16)	(39.20)	(27.14)	(1.00)	(0.50)	-
9. Sirsi	222	56	95	69	1	1	-
	(100.00)	(25.23)	(42.79)	(31.08)	(0.45)	(0.45)	-
10. Supa	116	56	39	18	2	1	-
	(100.00)	(48.28)	(33.62)	(15.52)	(1.72)	(0.86)	-
11. Yellapur	127	58	41	25	3	-	-
	(100.00)	(45.67)	(32.28)	(19.69)	(2.36)	-	-
District Rural	1264	384	396	394	68	17	5
	(100.00)	(30.38)	(31.33)	(31.17)	(5.38)	(1.34)	(0.40)

cent in hilly malnad taluks of Sirsi (68), Siddapur (71) , Yellapur (78) and Supa (82). However, small villages are lesser in extent in coastal taluks. In the remaining taluks, where the extent of small villages is well below the district ratio it is highest in Haliyal (60) and lowest in Karwar (29). The intervening taluks are Mundgod (55), Bhatkal (53), Kumta (51), Ankola (48) and Honavar (37). Medium size villages in the district form 31 percent in total. The dispersal of such villages shows that in coastal belts or taluks such villages form more than half of total villages in Karwar, about 42 per cent in Ankola, about 40 per cent in Honavar, about 38 per cent in Kumta, etc., but in the hilly malnad taluks such villages are lesser in number as less as only above 15 per cent in Supa, 20 Per cent in Yellapur and like. Large villages of 2,000 population or more are 7.12 per cent in the district. Most of these are concentrated in coastal taluks.

(vii) Density of population

The density of population in the district in 1991 is 119 per sq.km. It is still lower at 91 in rural areas and 1771 in urban pockets. The corresponding ratios for the State of Karnataka are 235 for total, 166 for rural and 3257 for urban. Obviously, the district is one of the sparsely settled regions in the State, as only about 11 per cent of its land is cultivable and rest is covered with hilly tracts with thick forests. The distribution of villages by density is presented in Table-6.

Table 6 : Distribution of villages by density ranges

Range of Density (population per sq.km)	Total no. of villages in each range	Percentage of villages in each range
1	2	3
-10	97	7.67
11-20	105	8.31
21-50	251	19.86
51-100	296	23.42
101-200	260	20.57
201-300	67	5.30
301-500	89	7.04
500 and above	99	7.83
Not known	-	-
All ranges	1264	100.00

As much as in 23.42 per cent of villages from 51 to 100 perons live per sq. km. In over 60 per cent of villages the density is not less than 21 and not more than 200 persons. This fact highlights the predominance of small villages in the district.

(viii) Sex Ratio

In a total popultion of 1,220,260 males are 620,697 and rest of 599,563 are females. The sex ratio of the district is 966 females per 1000 males. It may be noted that it is slightly higher to the State ratio of 960. In the rural areas of the district the sex ratio is 968, which is lower than the corresponding State ratio of 973. The sex-ratio in urban localities is 959, which is above the corresponding State ratio of 930. At the 1981 census there were 958 females for every thousand males. It was less than the then State average sex ratio of 963. Thus the sex ratio in the district has improved over the decade 1981-91 from 958 to 966. It may be noted that the neighbouring coastal district of Dakshina Kannada has been reporting a surplus of females. The sex ratios in the C.D.Blocks of the district are shown in Table-7.

Table 7 : Sex Ratio for Rural Population of C.D.Blocks, 1991

Sl.No.	Name of C.D.Block/Taluk	No. of females per 1000 males
1	2	3
1.	Ankola	949
2.	Bhatkal	1019
3.	Haliyal	937
4.	Honavar	1006
5.	Karwar	979
6.	Kumta	979
7.	Mundgod	891
8.	Siddapur	973
9.	Sirsi	955
10.	Supa	957
11.	Yellapur	958
	District Rural	968

It may be noted that only in Bhatkal and Honavar C.D.Blocks there is favouable sex ratios for women. It is apparent that this trend is the extension from the bordering district of Dakshina Kannada where surplus of females over males is quite prevalent. In the remaining C.D.Blocks, in 3 out of 9 there is improvement in sex ratios over the district average. In the taluks or C.D.Blocks where the sex ratios are below the district rural average the variation is from 891 in Mundgod to 958 in Yellapur. The distribution of sex ratios in towns in 1991 is placed in Table-8.

Table 8 : Sex Ratio for Towns, 1991

Sl. No.	Name and Civic Administration Status	No. of females per 1000 Males
1	2	3
1.	Ambikanagar (NMCT)	945
2.	Ankola (TMC)	997
3.	Bhatkal (TMC)	1028
4.	Binaga (NMCT)	928
5.	Dandeli (CMC)	956
6.	Ganeshagudi (NMCT)	935
7.	Haliyal (TMC)	948
8.	Honavar (TMC)	982
9.	Kadar (KPC Project Colony) (NMCT)	910
10.	Karwar (CMC)	930
11.	Kumta (TMC)	971
12.	Magod Colony (NMCT)	469
13.	Yellapur (MP)	966
14.	Sirsi (CMC)	949
	District Urban	959

Against the sex ratio of 959 in the district urban population, the sex ratio is below this average in towns of Sirsi, Magod Colony, Karwar, Kadra, Haliyal, Ganeshgudi, Dandeli, Binaga and Ambikanagar. Among all towns, the highest sex ratio obtainable is in Bhatkal, which is 1028, well above the district urban average of 959. The other towns in which the sex ratio is above the average of district urban segment are Yellapur, Kumta, Honavar and Ankola. The abysmally low sex ratio of 469 in case of Magod Colony betray its temporary nature of settlement related to project work.

(ix) Scheduled Castes

There are 91,900 persons of Scheduled Castes community in the district of Uttara Kannada in 1991 out of a total population of 1,220,260 forming 7.54 per cent of share. Share of Scheduled Castes community in total population of the district is comparatively low as the State average is 16.38 per cent. In 91,990 of total Scheduled Castes population in the district 67,491 are living in rural areas and 24,499 in urban areas. It means that out of Scheduled Castes population of the district over 73 per cent are rural dwellers. Against 7.54 per cent of Scheduled Castes population in the total population of the district, the share of this community in rural and urban population of the district is 7.29 and 8.32 per cent respectively. The distribution of proportion of Scheduled Castes population in total population of the villages is shown in Table-9.

Table 9 : Proportion of Scheduled Castes Population to Total Population in villages, 1991

Percentage range of Scheduled Castes population to total population	No. of villages in each range	Percentage of villages in each range
1	2	3
0-5	351	47.76
6-10	170	23.13
11-15	87	11.84
16-20	43	5.85
21-30	44	5.99
31 and above	40	5.44
All Ranges	735	100.00

In a total of 1264 of populated villages in the district in only 735 villages are found the Scheduled Castes. The proportion comes to about 58 per cent. In the 735 villages in which are living members of this communituy, in nearly half of such villages they form a porportion of upto 5 per cent only in the total population of these villages. It is 6 to 10 per cent in about a quarter of villages in total of 735 villages. When proportion of this community goes above 10 per cent of the total population of villages, the share of such villages comes down by each successively higher range. The distribution of share of Scheduled Castes community in population of towns is shown in Table-10.

Table 10 : Percentage of Scheduled Castes Population in towns, 1991

Sl. No.	Name of Town	Total Population	Total Scheduled Castes Population	Percentage of Scheduled Castes Population to Total Population
1	2	3	4	5
1.	Ambikanagar (NMCT)	6064	496	8.18
2.	Ankola (TMC)	13509	2290	16.95
3.	Bhatkal (TMC)	31478	497	1.58
4.	Binaga (NMCT)	7281	193	2.65
5.	Dandeli (CMC)	52701	4840	9.18
6.	Ganeshgudi (NMCT)	3371	371	11.01
7.	Haliyal (TMC)	18065	2339	12.99
8.	Honavar (TMC)	16192	619	3.82
9.	Kadra (KPC Project Colony) (NMCT)	2563	234	9.13
10	Karwar (CMC)	51022	2364	4.63
11	Kumta (TMC)	26181	1787	6.83
12	Magod Colony (NMCT)	798	132	16.54
13	Yellapur (MP)	14456	1101	7.61
14	Sirsi (CMC)	50895	7196	14.14
	District Urban	294516	24499	8.32

Against a total share of about 8 per cent of Scheduled Castes in the total urban population of the district, Scheduled Castes are forming as high as 16.95 per cent in the population of Ankola, 16.54 per cent in Magod Colony, 14.14 per cent in Sirsi, 12.99 per cent in Haliyal, 11.01 per cent in Ganeshgudi, 9.18 per cent in Dandeli and 9.13 per cent in Kadra. In the rest of the towns the proportion is below 8 per cent. It is as low as 1.58 per cent in Bhatkal town. Similarly, in Binaga's population only 2.65 per cent are the Scheduled Castes, while the share is as low as 3.82 per cent in the case of town of Honavar.

(x) Scheduled Tribes

Only 10,168 members belonging to this community live in this district in 1991. They form a share of only 0.83 per cent in the total population of the district. This community has a share of 4.26 per cent in the State of Karnataka. In the total of 10,168 Scheduled Tribes in the district 9,074 (89 per cent) are rural inhabitants and rest are urban dwellers. The community forms 0.98 per cent of rural and 0.37 per cent of urban population of the district respectively. The corresponding State figures are 5.24 and 2.06 per cent, which are quite high in relation to the district averages. In Table-11 is presented the distribution of proportion of Scheduled Tribes population to total population in the villages of the district in 1991.

Table 11: Proportion of Scheduled Tribes Population to Total Population in Villages, 1991

Percentage range of Scheduled Tribes Population to total Population	No. of villages in each range	Percentage of villages in each range
1	2	3
0-5	95	70.37
6-15	15	11.11
16-25	5	3.71
26-35	6	4.44
36-50	6	4.44
51 & above	8	5.93
All Ranges	135	100.00

In only about 11 per cent of total inhabited villages in the district are found the members of this community. Such villages are 135 in number. In over 70 per cent villages the share of the community is only upto 5 per cent. There are only 15 villages in which the share range is 6 to 15. Only 6 villages are such in which the community comes as close as to about half of the total population. Although, there are still as much as 8 villages in which this community forms a share of 51 and above percentage. The share of the community in the population of the towns in 1991 is set in Table-12.

Table 12 : Percentage of Scheduled Tribes Population in Towns, 1991

Sl. No.	Name of Town	Total Population	Total Scheduled Tribes Population	Percentage of Scheduled Tribes Population to Total Population
1	2	3	4	5
1.	Ambikanagar (NMCT)	6064	74	1.22
2.	Ankola (TMC)	13509	01	0.01
3.	Bhatkal (TMC)	31478	228	0.72
4.	Binaga (NMCT)	7281	08	0.11
5.	Dandeli (CMC)	52701	237	0.45
6.	Ganeshgudi (NMCT)	3371	36	1.07
7.	Haliyal (TMC)	18005	101	0.57
8.	Honavar (TMC)	16192	10	0.06
9.	Kadra (KPC Project Colony) (NMCT)	2563	08	0.31
10.	Karwar (CMC)	51022	127	0.25
11.	Kumta (TMC)	26181	34	0.13
12.	Magod Colony (NMCT)	798	20	2.51
13.	Yellapur (MP)	14456	03	0.02
14.	Sirsi (CMC)	50895	207	0.41
	District Urban	294516	1094	0.37

It may be seen that against 0.37 per cent of this community in the total district urban population, the share is as high as 2.51 in Magod Colony. It may be recalled that in this town the share of Scheduled Castes is second highest and also that the sex ratio (469) is lowest in all towns. All this put together gives a clear demographic profile of a town, which is erected on some construction or project work and settlement here is of temporary nature. Other towns in the district having relatively higher share of the community are Ambikanagar, Ganeshgudi and Bhatkal. The lowest proportion is found in Ankola and Yellapur.

(xi) Literacy

In the 1991 census a person who can both read and write with understanding in any language is "literate". But, a person who can merely read but cannot write is not treated as "literate". It was not required of a literate person to have any formal

education or having passed any minimum educational standard. In this census, all children of the age of 6 years or less are treated as illiterate. Accordingly there are 689,278 literate persons in the district. The literacy rate comes to 66.73 per cent. It is above the State average of 56.04 per cent. The share of literates in the taluks is given in Table-13.

Table 13 : Literacy Rates for Rural Population of Taluks (C.D.Blocks) by sex, 1991 (Excluding children in the age-group 0-6)

Sl.No.	Name of Taluk/C.D.Block	Percentage of Literates		
		Persons	Males	Females
1	2	3	4	5
1.	Ankola	64.52	76.11	52.33
2.	Bhatkal	52.84	64.45	41.60
3.	Haliyal	43.28	56.87	28.71
4.	Honavar	64.96	75.16	54.94
5.	Karwar	70.57	81.49	59.53
6.	Kumta	66.75	77.91	55.38
7.	Mundgod	52.34	62.69	40.59
8.	Siddapur	69.78	79.08	60.29
9.	Sirsi	69.13	76.75	61.11
10.	Supa	52.37	64.99	39.21
11.	Yellapur	63.14	71.65	54.26
	District Rural	62.10	72.58	51.31

In the rural population of the district the literacy rate is 62.10 per cent. The taluks having literacy rates above 62 per cent are Ankola, Honavar, Karwar, Kumata, Siddapur, Sirsi and Yellapur. In this category is not included the lone coastal taluk of Bhatkal against other coastal taluks which are included in this category. Incidentally, the literacy rate in Bhatkal taluk is only 52.84, Siddapur, Sirsi and Yellapur belong to malnad group of taluks, which are hilly in most parts. Haliyal, a hilly malnad taluk, bordering the Dharwad district is lowest placed in respect of literacy with a rate of only 43.28 per cent. Other lagging taluks are Mundgod and Supa. As a rule in each and every taluk the males are proportionately more literate than females. Among taluks the extent of male literacy varies also. It is above the district average of 72.58 per cent in taluks of Sirsi, Siddapur, Kumta, Karwar, Honavar and Ankola, being highest in Karwar with 81.49 per cent of literates and lowest in Honavar with 75.16 per cent. On the other hand in taluks Yellapur, Supa, Mundgod, Haliyal and Bhatkal the extent of male literacy is below the district rate. In this group of taluks it is highest in Yellapur (71.65) and lowest in Haliyal (56.87). In respect of females, as against the 51.31 per cent of literacy rate for the district rural as a whole, the rate is above this in the taluks of Yellapur, Sirsi, Siddapur, Kumta, Karwar, Honavar and Ankola. The lowest rate in respect of female literacy is in Haliyal taluk (28.71 per cent) as against highest in Sirsi (61.11 per cent). The literacy rates for towns in 1991 are provided in Table-14.

Table 14 : Literacy Rates for towns, 1991 (excluding children in the age-group 0-6)

Sl.No.	Name and Civic Administration Status of Town	Percentage of Literates		
		Persons	Males	Females
1	2	3	4	5
1.	Ambikanagar (NMCT)	78.86	85.42	71.85
2.	Ankola (TMC)	79.94	86.78	73.18
3.	Bhatkal (TMC)	86.75	91.71	82.00
4.	Binaga (NMCT)	77.44	84.90	69.56
5.	Dandeli (CMC)	75.95	85.08	66.42
6.	Ganeshgudi (NMCT)	85.01	93.30	76.05
7.	Haliyal (TMC)	69.76	79.40	59.56
8.	Honavar (TMC)	83.32	89.39	77.21
9.	Kadra (KPC Project Colony) (NMCT)	80.22	87.36	72.41
10.	Karwar (CMC)	84.70	91.45	77.40
11.	Kumta (TMC)	81.84	89.78	73.75
12.	Magod Colony (NMCT)	92.88	98.55	78.42
13.	Yellapur (MP)	76.39	84.15	68.43
14.	Sirsi (CMC)	84.08	89.15	78.71
	District Urban	81.10	88.12	73.79

The urban literacy in the district is considerably high (81.10 per cent) as against the rural one (62.10 per cent). But there are towns where the rates are below 81.10 per cent. These are Yellapur, Kadra, Haliyal, Dandeli, Binaga, Ankola and Ambikanagar. Among towns in the district the highest rate is found in Magod Colony, followed by Bhatkal and Ganeshgudi. The lowest rate is found in Haliyal town . As is the case in rural population in towns also the proportion of literates among

males is higher than what is found in females. However, the extent of male and female literacy rates vary townwise. In respect of male literacy rate, against the district average of 88.12 per cent, it is above this rate in towns of Sirsi, Magod Colony, Kumta, Karwar, Honavar, Ganeshgudi and Bhatkal. In all towns it is highest in Magod Colony and lowest in Haliyal. The district average for female literacy stands at 73.79 per cent in urban population. In Sirsi, Magod Colony, Karwar, Honavar, Ganeshgudi and Bhatkal the female literacy rates are even higher than the district average for towns. Among towns the highest rate of female literacy is observed in Bhatkal and lowest in Haliyal. It may be noted that the town of Haliyal which lies near the border of Dharwad district is least literate town in the district.

(xii) Main Workers, Marginal Workers and Non-workers

There are 428,663 total main workers, 44,494 marginal workers and 747,103 non-workers in district. Their proportion in total population of the district is 35.13, 3.65 and 61.22 per cent respectively. The corresponding State figures are 38.45, 3.54 and 58.01 per cent respectively. It may be noted that the extent of non-workers in the district is relatively higher. In the rural population of the district the work participation rate is 41.88 per cent which is much above the corresponding urban average of 29.01 per cent. The work participation rates in respect of rural units are set forth in Table-15.

It may be noted that in taluks there is variation in respect of total workers proportion in total population. It is as low as 33.06 per cent in Bhatkal C.D.Block to as high as 50.98 in Haliyal. The work participation rate is above the district average of 41.88 per cent in C.D.Blocks, Sirsi, Siddapur, Mundgod, Ankola and of course in Haliyal. In each and every taluk or C.D.Block, the work participation rate of males is above that of the females. In respect of male work participation rate it is highest (62.58 per cent) in Sirsi and lowest

9.	Sirsi	43.98	61.49	25.63	5.21	1.09	9.54	49.19	62.58	35.17	50.81	37.42	64.83
10.	Supa	37.43	53.40	20.75	3.76	1.05	6.58	41.19	54.45	27.34	58.81	45.55	72.66
11.	Yellapur	39.19	57.74	19.82	2.01	0.30	3.81	41.20	58.04	23.63	58.80	41.96	76.37
	District Rural	37.32	54.21	19.89	4.56	1.05	8.17	41.88	55.26	28.06	58.12	44.74	71.94

(48.27 per cent) in Bhatkal. While in case of female work participation rate, it is found highest in Haliyal (42.32) and lowest in Bhatkal (18.14). However, it may be noted that against the district average of 28.06 per cent of work participation rate for females in the rural population it is above this in taluks Sirsi, Siddapur, Mundgod, Ankola and ofcourse in Haliyal. The share of main workers, marginal workers and non-workers in towns of the district in 1991 is as presented below in Table-16.

The work participation rate in towns of the district is 29.01 per cent. Among males 47.36 per cent form total workers in towns and in females 9.87 per cent are total workers in turn. The extent of work participation rate among towns varies. It is as high as 52.63 per cent in Magod Colony and as low as 22.40 per cent in Bhatkal. In males segment also it is highest in Magod Colony (74.95) followed by Kadra (52.53), Sirsi (51.72) and Haliyal (50.69)). It may be recalled that the first two towns namely Magod Colony and Kadra are project related temporary settlements. In respect of total work participation rate for females it is found to be highest in Ankola town (17.52) followed by Haliyal (15.25) and Kumta (13.07). This rate is lowest in Magod Colony. Being a transitory settlement, in this town the proportion of women is low as witnessed by poor sex ratio of 469. Therefore the female work participation rate in this town is also lower.

Table 16 : Percentage of Main Workers, Marginal Workers and Non-Workers in Towns, 1991

PRIMARY CENSUS ABSTRACT

EXPLANATORY NOTE

The Primary Census Abstract furnishes, in a nutshell as it were, vital information on the basic demographic and economic composition of the population. This statement, referred to as PCA, summarises the whole mass of data gathered at the Census. The smallest geographical unit with a clearly defined boundary identifiable on the field that has been delineated for ensuring cent per cent coverage of the area under the jurisdiction of various administrative units is the Census Enumeration Block. The details gathered in the household schedules in respect of each and every person enumerated in each such block have been meticulously tabulated to prepare this Primary Census Abstract. The tabulation has been done entirely by manual processing of the data at the Regional Tabulation Offices. The village PCA is derived from the Block PCA and in case of urban areas, the Block PCA has yielded the ward and Town PCA. In turn, the Taluk (Rural) and Taluk (Urban) as well as Taluk (Total) PCA statements as well as the C.D.Block-wise PCA Statements are built up on the basis of Village-wise and Town-wise data. This process goes on until it yields the data for higher and higher administrative divisions, such as the District and the State, culminating at the apex in the form of a single line statement for the country. The entire edifice thus rests on the information contained in the household schedules filled up by the enumerator.

The District Primary Census Abstract is presented immediately after this Explanatory Note. This statement gives the aggregate figures for the district with the rural-urban break up, the aggregate figures for each C.D.Block (with the rural-urban break up) and the aggregate figures for each town/urban agglomeration within the district. It is important to note that the lowest unit for which the data are presented here is the C.D.Block and not the traditional taluk*. Thereafter the C.D.Blocks within the district are taken up one by one in the alphabetical order of their names. For each C.D.Block, an alphabetical list of villages (which indicates the code numbers assigned to villages in 1991 as well as the corresponding code numbers assigned in 1981) precedes the presentation of the village-wise PCA followed by the ward-wise PCA in respect of towns and outgrowths if any within the jurisdiction of the concerned C.D.Block. After thus exhausting all the C.D.Blocks in the district, the town/urban agglomerations are covered one by one in the ascending order of their location code numbers without regard to the fact whether any of these towns or portions thereof (eg. outgrowths) have already been covered under one or the other of the Community Development Blocks. As in 1981, on this occasion too, the PCA has been compiled separately in respect of the Scheduled Castes and Scheduled Tribes Population of the District. The District PCA for Scheduled Castes and for Scheduled Tribes are presented after the PCA for the urban areas. The pattern of presentation of data in these two statements is the same as that adopted for presentation of data in the District PCA.

It may be recalled that in Karnataka the term Community Development Block is not in vogue and that its equivalent is the Taluk Panchayat Samiti. The jurisdiction of each Taluk Panchayat Samiti is coterminus with that of the corresponding Taluk but excludes the statutory towns. In other words, the administrative jurisdiction of a Taluk Panchayat Samiti covers all the villages of the Taluk (as listed out for the 1991 census) as also the villages or parts thereof which have been classified as non-municipal towns for purposes of the 1991 census and the revenue villages or portions thereof which have been identified as outgrowths of statutory towns and have therefore been excluded from the purview of Rural PCA. It is important to remember that in this statement, the particulars relating to the non-municipal towns (such as those administered by Mandal Panchayats) and those relating to the outgrowths (places which are not towns in their own right) are repeated - for these appear once below the concerned C.D.Block and again under the 'urban areas' of the district.

* *For purposes of comparison with 1981 data the Taluk wise District PCA with Rural - Urban breakup is given in Appendx I.*

The Primary Census Abstract has 21 main columns to furnish information about the name of the unit, area, number of occupied residential houses, number of households, population, number of persons in the age-group of 0-6, number of persons belonging to Scheduled Castes and Scheduled Tribes, number of literates, number of main workers and their distribution among nine industrial categories, number of marginal workers and the number of non-workers. In the District PCA, each column indicating the data on population characteristics is sub-divided into 3 columns in order to indicate the total as well as the sex-wise break-up whereas in the village/town PCA, each such column (with the exception of Total Population and Population in the 0-6 age group) is sub-divided into two columns to indicate the sex-wise break-up only.

It may be mentioned at this juncture that for each town/urban agglomeration in the district, information regarding the total population, Scheduled Castes Population and Scheduled Tribes Population of each census enumeration block as also the particulars regarding the boundaries of each Census Enumeration Block have been compiled and are kept for the census data users' reference in the Library of the Office of the Director of Census Operations, Karnataka.

COLUMN 1 : Location Code Number :- The location code number assigned to the village or the town as the case may be is entered in this column.

COLUMN 2 :- Name of Village/Town/Ward :- The name of the village or the town as finally adopted for the 1991 census purposes is entered in this column. The towns and cities are often divided into smaller geographical segments called wards, mohallas or divisions for purposes of administration. Such units bear distinctive locality names or specific numbers. It is this name or the number of the ward or its equivalent unit that is mentioned here in the case of towns.

Irrespective of whether a town is divided into administrative wards or not, every town is invariably constituted into territorial divisions for the conduct of civic elections. This delimitation of constituencies is done as an essential and preliminary process of civic elections scheduled to be held periodically. So, in some cases the name or number reported in this column refers to such territorial divisions and not to administrative divisions.

COLUMN 3 : Area of the Village in Hectares and of Town in Square Kilometres :- For the villages, the area is reported here in hectares upto two places of decimal and for the towns, as also the wards or divisions thereof, the area figures are furnished in square kilometres upto two places of decimal. It may be incidentally mentioned here that for none of the towns in the State, Ward/Division-wise area figures are available. If the area figures are not available for any reason, a dash (-) is entered in this column.

COLUMN 4 : Number of Occupied Residential Houses :- A 'Census House' could be wholly residential or partly residential or else completely non-residential according to the use to which it is put. All census houses enumerated as either wholly or partly residential at the time of the census count are added together to get the data for the block and from thence to derive the data for higher units. Houses found vacant at the time of the census count are not reckoned as occupied residential houses. The information for this column has been compiled from the Abridged Houselists.

COLUMN 5 : Number of Households :- This information too is compiled from the Abridged Houselists. The actual total number of households including the 'normal', 'institutional' and the 'houseless' that were enumerated at the census count is mentioned in this column. Generally, the number of households in any unit would be equal to or more than the occupied residential houses in that unit because of the houseless households that one may come across in that unit and also because of the occasional instances of two or more households sharing a common census house.

COLUMNS 6, 7 AND 8: Total Population (including Institutional and Houseless Population):- The total population as on the reference date is furnished in column 6 while in the next two columns the sex-wise break-up is given. The institutional population refers to such of those who were enumerated in institutions like hostels, chummeries, hospitals, prisons etc. The houseless persons

represent those who were enumerated on the night of 28th February 1991 at the places where they were found at that time, provided they had not already been enumerated elsewhere.

COLUMNS 9, 10 and 11 : Population in the age group (0 - 6) :- The total number of children belonging to the age-group of 0-6 in the total population as also the number of males and females among them are reported under these three columns. *This information is of considerable significance since* all such children are regarded as illiterate at the 1991 Census.

COLUMNS 12 AND 13 : Scheduled Castes :- Number of males and females belonging to Scheduled Castes is indicated in these two columns. Whether a person belongs to a Scheduled Caste or not has been determined with reference to the List of Scheduled Castes in Karnataka according to the Scheduled Castes and Scheduled Tribes (Amendment) Order 1976 (Act No. 108 of 1976) (See Appendix). Scheduled Castes may belong to either the Hindu or the Sikh or the Buddhist religion.

COLUMNS 14 AND 15 : Scheduled Tribes :- Number of males and females belonging to Scheduled Tribes is reported under these columns. Whether a person belongs to a Scheduled Tribe or not has been determined with reference to the 'List of Scheduled Tribes in Karnataka' according to the Scheduled Castes and Scheduled Tribes (Amendment) Order 1976 (Act No.108 of 1976) (See Appendix for the list). Scheduled Tribes may belong to any religion.

COLUMNS 16 AND 17 : Literates :- Sex-wise break up of the total number of persons who are literate, irrespective of their levels of educational attainments is given in these two columns. By definition a literate is a person who can both read and write with understanding in any language. It is important to note that for purposes of the 1991 census by definition all children in the 0 - 6 age group are regarded as *illiterate. Even if such a* child is going to school and has picked up reading and writing a few odd words it is treated as illiterate.

COLUMNS 18 AND 19 : Total Main Workers:- A worker is a person who participates in economically productive work. The reference period for judging whether a person is a worker or not in the year preceding the day of enquiry. If a person had worked even for one day during this entire period he or she is entitled to be classified as a worker. If for any such worker the period of work is 183 days or more then that person is a main worker. On the other hand, if such period is less than 183 days then that worker is a marginal worker. In columns 18 and 19 the total number of main workers is furnished sex-wise and a sex-wise break up of these main workers according to the nine-fold 'industrial classification of workers' is presented in the next 20 columns i.e., from column 20 to column 39.

COLUMNS 20 AND 21 : Cultivators (Category-I) :- These two columns give out the number of male and female workers who satisfy the conditions laid down in the definition of a cultivator. A cultivator may be an employer, a single worker or an unpaid family worker. Participation in work may be by way of physical labour or by way of supervision and direction. The lands cultivated may be owned by the household or taken on lease for payment in money or kind or share in the produce. Cultivation, as already emphasised involves ploughing, sowing and harvesting and allied activities in the production of cereals and millet crops, pulses, raw jute and kindred fibres, sugarcane, tapioca and oil seeds.

COLUMNS 22 AND 23 : Agricultural Labourer (Category -II) :- A person who works in another person's land for wages in money or kind or share and does not have any lease or contract on the land on which he or she works is an agricultural labourer. In this case too, the crops grown on the lands are quite pertinent and the difference between a cultivator and an agricultural labourer lies in the fact that the former works on his own or leased in lands as an independent worker while the latter works for wages having no right whatsoever on the lands on which he works. The sex-wise break-up of such workers is given in these two columns.

COLUMNS 24 AND 25 : Livestock, Forestry, Fishing, Hunting and Plantations, Orchards and Allied activities (Category - III) :- A sex-wise break up of the workers who were mainly engaged in activities connected with livestock rearing, forestry

and logging, hunting, fishing, plantations, orchards etc., is given under these columns.

COLUMNS 26 AND 27 : Mining and Quarrying (Category - IV) :- A sex-wise break up of the workers mainly engaged in activities connected with mining and quarrying is given under these columns.

COLUMNS 28 AND 29 : Manufacturing, Processing, Servicing and Repairs - Household Industry (Category - V[a]) :- Household industry belongs to the broad category of 'manufacturing, processing, servicing and repairs' and represents a particular sector therein. Household industry is generally conducted by the head of household himself or herself and or mainly by the members of the household, at home or within the village in the case of those dwelling in rural areas and only within the residential premises occupied by the household in the case of those living in urban areas. A person may be a labourer or a petty employee in the household industry run by some other household. By and large the household industry is carried on by individuals on a small scale with or without the assistance of family members all of whom work as unpaid family workers and the entire earnings are treated as family income.

COLUMNS 30 AND 31 : Manufacturing, Processing, Servicing and Repairs - Non-household Industry (Category - V[b]) :- A sex-wise break up of the workers who were engaged in manufacturing, processing, servicing and repair activities in establishments which do not qualify to be classified as household industry as defined above {category V(a)} is given here.

COLUMNS 32 AND 33 : Construction (Category-VI) :- Workers engaged in construction, maintenance, upkeep, repair and similar activities of buildings, roads, railways, bridges, dams, canals, electrical and water supply installations, communication systems etc., are shown under this category.

COLUMNS 34 AND 35 : Trade and Commerce (Category - VII) :- In these two columns the number of male and female workers engaged in wholesale or retail trade in goods or engaged in dealing with insurance, stocks and shares, banking and financial institutions etc., either as proprietors or in any other capacity are indicated.

COLUMNS 36 AND 37 : Transport, Storage and Communications (Category - VIII) :- A sex-wise breakup of the workers in establishments such as railways, road transport, transportation by water-ways or by air, postal and telegraphs, telecommunications etc., which are engaged in transport, storage and communication activities is given in these columns.

COLUMNS 38 AND 39 : Other Services (Category - IX) :- This residuary category includes employees of the Central and State Governments, local bodies and other organisations and institutions engaged in educational, scientific, medical and health services, religious and welfare services, community services, recreational services, personal services and other miscellaneous activities not covered in the 8 categories specified above.

COLUMNS 40 AND 41 : Marginal Workers :- Males and females who are workers but have worked for less than 183 days during the reference year are reported under these two columns. Such workers, irrespective of the economic sector in which they work, are considered together and reported here.

COLUMN 42 AND 43 : Non-workers :- Irrespective of age and sex, all those who are not economically active are non-workers and a sex-wise break-up of such persons is given in these two columns. The aggregate of the main workers, marginal workers and non-workers would be equal to the total population of that unit.

NOTE :

1. The area figure for the district given under column No.4 against "Total" represents "Geographical Area" and has been furnished by the Surveyor General India. The figures for the urban areas are either those supplied by civic administration authorities of the towns or compiled and supplied by the Director of Survey, Settlement and Land Records or compiled in this Directorate on the basis of the available records pertaining to the delimitation of urban units. Area figures for Rural Areas are derived by subtracting the Total Urban Area from the Total Area of the District.

The total of the area figures of all the C.D.Blocks/Taluks in the district will not tally with the district figures (except urban), because the area figures for C.D.Blocks/Taluks represent the land-use area based on villagewise area figures as reported by the Local Officers. The total area of the taluk may not tally with the aggregate of the areas of the villages listed for census purposes for it includes the area of the statutory as well as non-statutory towns, villages which may be fully submerged and reserve forests which may not form part of any revenue village, if any, within the jurisdiction of the concerned taluk. The total area of the C.D.Block is derived by subtracting the area of the statutory town or towns (within the jurisdiction of the concerned taluks) from the total area of the taluk.

2. Outgrowths of towns in urban agglomerations are denoted by letter "OG".

3. The following abbreviations have been used to indicate the Civic Administration Status of town :

MC : Municipal Corporation
CMC : City Municipal Council
TMC : Town Municipal Council
NAC : Notified Area Committee
CB : Cantonment Board
SB : Sanitary Board
MP : Mandal Panchayat
NMCT : Non-Municipal Census Town

SIRSI C.D.BLOCK

Note :

The following revenue villages of Sirsi Taluk which had been assigned location code numbers have since been classified as Outgrowths of Sirsi City.

L.C.No.	Name of Village
1.	Sirsi
2.	Landakanahalli
34.	Kalkuni
117.	Puttanmane

Hence these villages do not find a mention in the alphabetical list of villages as well as in the PCA Statement. This explains the gap in location code numbers noticed in the list of villages and the PCA Statement of Sirsi C.D.Block. However these units appears in the urban category as part of Sirsi Urban Agglomeration.

APPENDIX II

List of Scheduled Castes and Scheduled Tribes as per the Scheduled Castes and Scheduled Tribes orders (Amendment) Act, 1976, (No. 108 of 1976 dated the 18th September, 1976) adopted for the 1991 Census.

SCHEDULED CASTES

1. Adi Andhra
2. Adi Dravida
3. Adi Karnataka
4. Adiya (in Coorg District)
5. Ager
6. Ajila
7. Anamuk
8. Aray Mala
9. Arunthathiyar
10. Arwa Mala
11. Baira
12. Bakad
13. Bant (in Belgaum, Bijapur, Dharwar and North Kanara districts)
14. Bakuda
15. Balagai
16. Bandi
17. Banjara, Lambani
18. Bathada
19. Beda Jangam, Budga Jangam
20. Bellara
21. Bhangi, Mehtar, Olgana, Rukhi, Malkana, Halalkhor, Lalbegi, Balmiki, Korar, Zadmalli
22. Bhambi, Bhambhi, Asadaru, Asodi, Chamadia, Chamar, Chambhar, Chamgar, Haralayya, Harali, Khalpa, Machigar, Mochigar, Madar, Madig, Mochi, Muchi, Telegu Mochi, Kamati Mochi, Ranigar, Rohidas, Rohit, Samgar
23. Bhovi
24. Bindla
25. Byagara
26. Chakkiliyan
27. Chalavadi, Chalvadi, Channayya
28. Chandala
29. Chenna Dasar, Holaya Dasar
30. Dakkal, Dokkalwar
31. Dakkaliga
32. Dhor, Kakkayya, Kankayya
33. Dom, Dombara, Paidi, Pano
34. Ellamalwar, Yellammalawandlu
35. Ganti Chores
36. Garoda, Garo
37. Godda
38. Gosangi
39. Halleer
40. Halsar, Haslar, Hulasvar, Halasvar
41. Handi Jogis
42. Hasla
43. Holar, Valhar
44. Holaya, Holer, Holeya
45. Holeya Dasari
46. Jaggali
47. Jambuvulu
48. Kadaiyan
49. Kalladi
50. Kepmaris
51. Kolupulvandlu
52. Koosa
53. Koracha
54. Korama
55. Kotegar, Metri
56. Kudumban
57. Kuravan
58. Lingader
59. Machala
60. Madari
61. Madiga
62. Mahar, Taral, Dhegu Megu
63. Mahyavanshi, Dhed, Vankar, Maru Vankar
64. Maila
65. Mala
66. Mala Dasari
67. Mala Hannai
68. Mala Jangam
69. Mala Masti
70. Mala Sale, Netkani
71. Mala Sanyasi
72. Mang, Matang, Minimadig
73. Mang Garudi, Mang Garodi
74. Manne
75. Masthi

76. Mavilan
77. Meghval, Menghvar
78. Moger
79. Mukri
80. Mundala
81. Nadia, Hadi
82. Nalkadaya
83. Nalakeyava
84. Nayadi
85. Pale
86. Pallan
87. Pambada
88. Panchama
89. Panniandi
90. Paraiyan, Paraya
91. Paravan
92. Raneyar
93. Samagara
94. Samban
95. Sapari
96. Sillekyathas
97. Sindhollu, Chindollu
98. Sudugadu Siddha
99. Thoti
100. Tirgar, Tirbanda
101. Valluvan

SCHEDULED TRIBES

1. Adiyan
2. Barda
3. Bavacha, Bamcha
4. Bhil, Bhil Garasia, Dholi Bhil, Dungri Bhil, Dungri Garasia, Mewasi Bhil, Rawal Bhil, Tadvi Bhil, Bhagalia, Bhilala, Pawra, Vasava, Vasave
5. Chenchu, Chenchwar
6. Chodhara
7. Dubla, Talavia, Halpati
8. Gamit, Gamta, Gavit, Mavchi, Padvi, Valvi
9. Gond, Naikpod, Rajgond
10. Gowdalu
11. Hakkipikki
12. Hasalaru
13. Irular
14. Iruliga
15. Jenu Kuruba
16. Kadu Kuruba
17. Kammara (in South Kanara District and Kollegal Taluk of Mysore District)
18. Kaniyan, Kanyan (in Kollegal Taluk of Mysore District)
19. Kathodi, Katkari, Dhor Kathodi, Dhor Katkari, Son Kathodi, Son Katkari
20. Kattunayakan
21. Kokna, Kokni, Kukna
22. Koli Dhor, Tokre Koli, Kolcha, Kolgha
23. Konda Kapus
24. Koraga
25. Kota
26. Koya, Bhine Koya, Rajkoya
27. Kudiya, Melakudi
28. Kuruba (in Coorg District)
29. Kurumans
30. Maha Malasar
31. Malaikudi
32. Malasar
33. Malayekandi
34. Maleru
35. Maratha (in Coorg District)
36. Marati (in South Kanara District)
37. Meda
38. Naikda, Nayaka, Cholivala Nayaka, Kapadia Nayaka, Mota Nayaka, Nana Nayaka
39. Palliyan
40. Paniyan
41. Pardhi, Advichincher, Phanse Pardhi
42. Patelia
43. Rathawa
44. Sholaga
45. Soligaru
46. Toda
47. Varli
48. Vitolia, Kotwalia, Barodia
49. Yerava

Appendix III - PUBLICATION PLAN

The 1991 Census tables will be published in 33 separate series of volumes for All - India and for each State and Union Territory. The publication series is as follows:

Series No.

1. INDIA

States

2. Andhra Pradesh
3. Arunachal Pradesh
4. Assam
5. Bihar
6. Goa
7. Gujarat

In each of these series (for all - India and each State/Union Territory) the different series of tables (A Series - General Population Tables, B - Series - General Economic Tables, etc.,) will be brought out as different Parts. Apart from these, District Census Handbooks will be published for each district in the country. These will contain the PCA data for the district, the village and town primary census abstract and the village and town directories. The latter comprise compilations of statistics, external to census relating to the villages and towns, which in conjunction with census data will be very useful to data users.

For all - India and for each State and Union Territory, the census tabulations and reports will be published according to the following plan:

Part No. and subject covered	Sub-part No. if any, and the topics covered
1	2
Part I - Administration Report (for Office use only)	Part I-A - Administration Report Enumeration
	Part I-B - Administration Report Tabulation
Part II - General Population Tables	Part II-A - General Population Tables - A-Series
	Part II-B - Primary Census Abstract
Part III - General Economic Tables	Part III-A - B-Series tables of first stage which will be brought out on 10% sample in respect of major States and on full count in respect of smaller States and Union Territories.
	Part III-B - B-Series tables of second stage which will be brought out on full count. The data relating HHI, OW, Marginal Workers and Non-workers seeking/available for work will be entered on full count basis.

Part IV - Social and Cultural Tables	Part IV-A - C-Series tables of first stage covering age, sex and marital status, composition of population, single year age returns, educational levels, school attendance and bilingualism.
	Part IV-B - C-Series tables covering mother tongue, religion of population and household composition.
Part V - Migration Tables	Part V-A - D-Series tables of first stage covering tables based on 10% sample in respect of major States and on full count in respect of smaller States and Union Territories.
	Part V-B - D-Series tables of second stage covering occupational classification of migrant workers. These tables are based on full count.
Part VI - Fertility Tables	F-Series tables of first stage which will be brought out on 10% sample in respect of major States and on full count in respect of smaller States and Union Territories.
Part VII - Tables on Houses and Household Amenities	H - Series tables covering census houses and the uses to which these are put, construction material of wall, roof and floor of the census houses occupied by households, tenure status of the house occupied and number of living rooms, household size, housing facilities like drinking water, electricity and toilet available to households and the fuel used by the household for cooking. These tables will also cover tables on Scheduled Castes and Scheduled Tribes. This volume will contain analytical notes also.
Part VIII - Special Tables on Scheduled Castes and Scheduled Tribes	This part will contain SC and ST series of tables for Scheduled Castes and Scheduled Tribes respectively. The data relating to Scheduled Castes and Scheduled Tribes will be entered on full count basis in the third stage and SC/ST tables will be processed on the computer on full count. These will cover population of each Scheduled Caste/Tribe, industrial categories of main and marginal workers, non-workers seeking/available for work and those who never worked before, educational level, school attendance, age, sex and marital status, composition of Scheduled Castes and Scheduled Tribes. In addition to these, the fertility tables relating to SC/ST are also covered. These tables also cover for Scheduled Tribes, their composition by religion, mother tongue and bilingualism.
Part IX - Town Directory, Survey Report on Towns and Villages	Part IX - A - Town Directory
	Part IX - B - Survey Report on selected Towns
	Part IX - C - Survey Report on selected Villages

Part X	Ethnographic notes and special studies on Scheduled Castes and Scheduled Tribes
Part XI - Census Atlas	Union and State/Union Territory Census Atlases
Part XII - District Census Handbook	Part XII - A - Village and Town Directory
	Part XII - B - Village and Town wise Primary Census Abstract

The following special papers are also planned and will be published as and when they are ready as 1991 Census papers :

(a) Special studies taken up by the Directors of Census Operations

(b) Special Areas Surveys

(c) Special Tables for Standard Urban Areas

(d) Language Survey Reports

(e) Post Enumeration Check Report

(f) Age Tables

(g) Life Tables

(h) Reports on estimates of inter-censal birth and death rates using 1981-1991 life tables and age data

(i) Development of Vital Statistics in India

Besides these special papers, some monographs based on 1991 Census data on subjects of topical interest to be prepared by scholars will be brought out as 1991 Census monographs.

It is also proposed to carry out some special studies of 1991 Census data in collaboration with other organisations and the results of such studies will be published as occasional papers of the 1991 Census.

It is also proposed to disseminate census tabulations and the basic data in machine readable forms such as magnetic tapes, diskettes, floppies, etc.

The District Census Handbooks will be available for sale at the Government Central Press, Bangalore and the other publications at the Office of the Director of Census Operations, Karnataka, Bangalore and the Manager of Publications, Civil Lines, New Delhi - 6.
