1961 CENSUS PUBLICATIONS, MADHYA PRADESH

(All the Census Publications of this State will bear Volume No. VIII)

PART I (in Sub-Parts)	.. General Report including Subsidiary Tables.
PART II- A	.. General Population Tables.
PART II-B (in Sub-Parts)	.. Economic Tables.
PART II-C (in Sub-Parts)	.. Cultural and Migration Tables.
PART III	.. Household Economic Tables.
PART IV (in Sub-Parts)	.. Housing and Establishment Tables (including Subsidiary Tables) and Report.
PART V (in Sub-Parts)	.. Special Tables for Scheduled Castes and Scheduled Tribes.
PART VI	.. Village Survey Monographs. (A separate Sub-Part for each Village surveyed.)
PART VII	.. Survey of Handicrafts of the State. (A separate Sub-Part for each handicraft surveyed.)
PART VIII-A	.. Administration Report—Enumeration.
PART VIII-B	.. Administration Report—Tabulation.
PART IX	.. Maps.

CONTENTS

Table No.			Page No.
C—I	Composition of Sample Households by relationship to Head of family classified by Size of land cultivated.		1-39
C—II	Age and Marital Status		41-104
C—III	Age, Sex and Education		105-211
	Part A—Age, Sex and Education in all areas	110-124	..
	Part B—Age, Sex and Education in *Urban areas only*	125-159	..
	Part C—Age, Sex and Education in *Rural areas only*	160-174	..
	Appendix—Tables I to VIII relating to Scientific and Technical Personnel ..	175-211	..
C—IV	Single year Age Returns		212-283
C—V	Mother Tongue		285-381
	(*i*) Introductory Note to Tables C-V and C-VI	285-289	..
	(*ii*) Fly leaf prepared by the Linguist, Office of the Registrar-General, India ..	291-297	..
	(*iii*) Appendix I—Abstract of Classified and Unclassified Languages	293	..
	(*iv*) Appendix II—Linguistic Survey of India—Classified List	*i-viii*	..
	(*v*) Table C—V-Mother Tongue	299-345	..
	(*vi*) Appendix—III—Statement showing percentage change in each decade (1911-61) of population of three numerically most important languages (including dialects) as of 1961 ..	346-381	
C—VI	Bilingualism		383-489
C—VII	Religion		491-503
	Supplement to Table C—VII—Details of entries under "Other Religions and Persuasions" ..	502-503	..
C—VIII	Scheduled Castes and Scheduled Tribes		505-533
	Part A—Classification by Literacy and Industrial Category of workers and non-workers among Scheduled Castes ..	514-523	..
	Part B—Classification by Literacy and Industrial Category of workers and non-workers among Scheduled Tribes ..	524-533	..

TABLE C-I—COMPOSITION OF SAMPLE HOUSEHOLDS BY RELATIONSHIP TO HEAD OF FAMILY CLASSIFIED BY SIZE OF LAND CULTIVATED

(Based on 20% Sample)

In the 1961 Census, two documents were prepared during enumeration: one was the 'Individual Slip' in which particulars about each person enumerated were recorded and the other was the 'Household Schedule'. This latter document was in two parts; Part I was the Household Schedule itself and Part II contained the 'Census Population Record 'which was compiled from the Individual slips and, besides the name and sex of each individual member of the household, it showed the relationship of each member with the Head of the household, his age, marital status and, if he or she was a worker, the description of the work done. These two parts of this latter document, are the basis of this table.

2 Though the Household Schedules were prepared for each and every family household enumerated, as will be seen from the heading of the Table, this table is based on a 20% sample only. The procedure for the selection of sample schedules was, in brief, as follows:—

> The Tahsil was the unit for rural areas and the district, for urban areas. The Houschold Schedule pads were arranged in the ascending order of Location Code Numbers of villages in a tahsil in the case of rural areas and in the order of Location Code Numbers of towns in a district in urban areas. The first sample household was chosen at random in accordance with the following procedure from the first five households in the first household schedule pad and was stamped with a big 'S' by a rubber stamp. The procedure for selecting the first sample household in rural areas was first to add the digits of the Location Code Number of the unit, that is, the Code Number of district and that of the tahsil. If this sum was 5 or less that was taken to be the number of the first sample schedule. If the sum was greater than 5, it was divided by 5 and the remainder was taken as the number of the first sample schedule. Where the sum was exactly divisible by 5, the fifth was taken as the first sample schedule. In urban areas the procedure was that, in the districts where the number of towns was 5 or less, the number of the towns in the district was the number of the first sample schedule; where the number of towns was more than five the number of towns was divided by 5 and the remainder was the number of the first sample schedule. Thus after determining and stamping the first sample schedule, every fifth schedule was stamped with 'S' seal continuously without break till all the pads in a unit were exhausted. In marking the sample household schedules, only family schedules were taken into account and institutional households were left out. After marking, all the sampled schedules were taken out of the pads for the checking of internal consistency, coding and tabulation. The coding was done in the respective Census Tabulation Offices of Madhya Pradesh, and the checking of coding and tabulation was done at Delhi by mechanical processes.

3 The total population of the State is 32,372,408, of which 125,094 persons are houseless (for which no household schedules were prepared) and 91,142 persons were found to be living in institutions (the schedules for which were ignored while drawing the sample). After deducting both these categories of persons the remaining population of the State, which can be said to be belonging to family households, comes to 32,156,172. Twenty percent of this population comes to 6,431,234 while the sample household population according to this table is 6,411,961 or less by 19,273 persons. Thus in fact instead of an exact 20% sample we have one of 19.94% or less by 0.06% which, can however, be considered fairly representative of the universe.

4 In this table, figures have been given for all areas as well as for rural and urban areas separately for the State, Divisions and Districts. In addition, households in rural areas have been divided into 3 categories *viz.* (1) those engaged neither in Cultivaion nor in Household Industry; (2) those engaged in Household Industry only and (3) those engaged in Cultivation. The households of the third category have in their turn been divided into 11 classes according to the size of land-holding.

5 The definition of "Household Industry" and "Cultivation" for the purpose of filling in the "Household Schedule" was as follows:—

> (*a*) "Household Industry" meant an industry conducted by the Head of the household himself and/or mainly by members of the household. The industry was not to be on the scale of a registered factory. The participation of the head of the household and/or members of the household was an essential feature of Household Industry. In rural areas, the Household Industry can be located either at home or within the village. But, in an urban area the Household Industry or at least the major

part of its work must be located only at home. A Household Industry related to production, processing, servicing or repairing and was inclusive of makers and sellers of goods.

(*b*) "Cultivation"—Only those households have been included in the category "engaged in cultivation" which cultivated land irrespective of whether the land which they cultivated was owned or held from Government or had been taken from private persons or institutions for payment in money, kind or share or "free" of considertion. Land included all land normally used for cultivation purposes including temporary fallows. It included all plots or parcels of land which were cultivated by the household iteself,that is, lands which lay within the village, or in adjacent villages, or within such a distance as enabled the household to work on the land or actively supervise the cultivation.

(*c*) For the purposes of recording area in Household Schedules the land under cultivation for producing the following crops only was taken into consideration:—

1 (1) Cereal crops (including bengal gram) such as rice, wheat, jowar, bajra, maize, roots and tubers like potato, yam, beet, etc., sugarcane etc.;

(2) Pulses such as arhar, moong, masur, urd, khesari, other gram;

(3) Raw jute and kindred fibre crops;

(4) Raw cotton and kindred crops.

The area under all other field produce and plantation crops was not included in the area given in the Household Schedule. The details of such crops are:

2 (1) All crops including vegetables not covered by (1) to (4) in para 1 above.

(2) Fruits and nuts in plantations, vines and orchard.

(3) Other agricultural produce not covered in (1) and (2) above.

(4) Ganja, opium, poppy, bhang etc.

(5) Tea, coffee and rubber plantations.

(6) Wood, bamboo, canereeds, thatching grass, etc.

(7) Tobacco in plantation (but did not include tobacco which was cultivated in rotation with other cereal crops, in which case it was included in cultivation)

(8) Others plantation crops not covered above.

6 "Head of the Household" for census purposes was a person on whom lay the chief responsibility for the maintenance of the household. Thus the Head of the household was not necessarily the eldest male member but may have been a female or a younger member of either sex. The enumerators, however, were instructed not to make any elaborate enquiry about this and record as Head of household the name of the person who was actually acknowledged as such. If the Head of the household was away for a fairly long time covering the entire enumeration period (*i. e.* between the 10th and 28th February, 1961) then the person who was incharge in his absence was recorded as the Head of household.

7 "Unrelated persons" in the last two columns of the table are persons who were not related to the Head of the household by ties of marriage or blood but were enumerated in the household as visitors, boarders, guests, or servants or other persons found to be living with the family. Persons for whom the column "Relationship to Head" was found blank in the schedule were also considered unrelated.

8 A table, also numbered C-I, was prepared in 1951 Census as well which showed the size and composition of of the sample households. But the size of the sample of 1951 varied in different regions of the present State of Madhya Pradesh; it was 4 percent sample in Mahakoshal and Vindhya Pradesh regions while in Madhya Bharat, Bhopal & Rajasthan (Sironj Sub -Division) regions it was only 1/1000

9. The following table gives for the State and for each of its Divisions and Districts the family composition of 1,000 sample households for the total population in 1961:

Table 1—Family Composition of 1,000 Sample Households.

10 In 1951 census the tabulation of family composition was some what different from that of 1961. In 1951 Heads of households and their wives were clubbed together and other relations of the Heads of household were divided into 4 categories *viz.* (1) sons, (2), daughters, (3) other male relations and (4) other female relations. In the table which follows, the 1951 size and composition of 1,000 Households has been given for each region included in the present Madhya Pradesh State and for each district as it existed in 1951:—

Table 2—Family Composition of 1,000 Households of the General Population in 1951.

Regions and districts as in 1951	Sample Household Population			Heads of households and their wives		Sons of Heads of Households	Daughters of Heads of households	Other male relations of Heads of households	Other female relations of Heads of household

TABLE C-II—AGE AND MARITAL STATUS

For the purpose of this Table as well as for the following four Tables *viz.* C-III Part A, C-III Part B, C-III Part C and C-IV, 'age' means 'age last birthday.' Question 2 in the Census questionnaire was 'age last birthday' and the instructions to the enumerators for recording answers to this queestion were as follows:—

Q. 2—Age in completed years last birthday—"Write age in years completed last birthday. For infants below one year of age, write 'O'. You will find many persons who cannot state their age correctly. You should assist them to state the correct age. If you are not able to elicit correct age directly, you should stimulate their memory by referring to historical incidents or religious events etc. You may use any local calendar of such events that may have been prepared for the purpose."

2. Question 3 in the Census questionnaire related to 'marital status. The instructions to the enumerators were as follows:—

Q. 3—Marital Status—

"For never married	write NM
Married	write M
Widowed	write W
Separated or Divorced	write S

For a person who has never been married write 'NM'. For a person married, whether for the first or another time, write 'M'. Write 'M' also for persons who are recognised by custom or society as married and for persons in stable *de facto* union. Even if a marriage is disputed in the locality write 'M' if the person concerned says he or she is married or in stable *de facto* union. For a widowed person whose husband or wife is dead, and who has not been married again, write 'W'. For a person who has been divorced in a lawful manner, either by decree of a law court or by a regular social or religious custom but who has not remarried, or a person who has been seperated from wife or husband and is living apart with no apparent intention of living together again, write 'S'. For a prostitute return her marital status as declared by her."

3. Slips in which the entry regarding age was illegible or non-existent were put in the category: "age not stated." But, if the entry against the *Marital status* question was missing or illegible males under 21 and females under 16 were treated as unmarried and all others as married. However, there is a very small number, (445 persons in the State as a whole) whose marital status is unspecified and have been shown as such in the Table.

4. At the time of tabulation all persons of the age 9 years and below have been treated as "Never married" irrespective of the entry in the enumeration slip.

5. In the previous Censuses of the country there was no separate classification for 'Divorced and Separated' persons and they were combind with the widowed.

6. "Never married" of this census were termed "unmarried" in the previous censuses and the term "marital status " was referred to as "Civil Condition".

7. The corresponding Tables in the previous Censuses were C-III in 1951 and VII in the Censuses of 1901, 1911, 1921, and 1931. In the 1951 Census age and marital status tables were not prepared for the whole population but only from the data collected from the 10 percent sample enumeration slips seperated at the time of initial sorting of the slips. But the 10 percent sample was fairly good and, as will be seen from the 1931 and 1951 comparative table given below, the figures of the two censuses when reduced to proportions give quite good results and are, therefore, comparable. In this table is given the marital status of 1,000 males and 1,000 females for 1951 and 1961 for the State, its Divisions and Districts. As has been stated earlier there was no separate class for 'divorced and seperated' persons in 1951; these were included in "Widowed".

Marital Status of 1,000 persons of each Sex.

8. Similar comparative figures for age composition and sex-ratio in different age-groups are given on the fly-leaf of Table C-IV in this Part.

9. **Other Statistics:**—The following 2 Subsidiary Tables have been prepared from the age and marital status tables of this as well as of previous Censuses and appear in Part 1 C of the Census Volume:—

(1) C-II.1 Distribution of 1,000 persons of each Sex by Marital Status.

(2) C-II.2 Marital Status of 1,000 persons of each Sex in General Population and Comparison with previous Censuses.

C-II—AGE AND MARITAL STATUS

Age-group		Total Rural Urban	Total Population			Marital Status									
						Never married		Married		Widowed		Divorced or Separated		Unspecified Status	
			Persons	Males	Females	Males	Females	Males	Females	Males	Females	Males	Females	Males	Females

TABLE C-III—AGE, SEX AND EDUCATION

This Table contains the statistics of literacy and education by age and sex; it is divided into the following Parts:—

Part A—This part contains statistics of all areas (*i. e.* rural and urban combined) and in it the total population, number of illiterate persons, literate persons (without educational level) and the number of educated persons divided into 2 educational levels; (1) Primary or Junior Basic and (2) Matriculation and above are given by sex and age-groups.

Part B—This part contains statistics of urban areas only and in it the persons who have attained an educational level equal to, or higher than, matriculation have been divided into 11 categories according to their academic qualifications.

Part C—In this part statistics of rural areas have been given; it is identical to part A in other respects.

2. Besides the above three parts, to this Table are appended 8 tables relating to "Scientific and Technical personnel". These tables contain the following information which was collected in a survey conducted along with the Census and the method of its collection and compilation has been described in paragraphers 10 and 11 below:—

Table I—Classification by each Branch and Sub-Branch of Science or Technology.

Table II—Type of Activity and Marital Status of persons in each Branch of Science and Technology.

Table III—Year of obtaining Post-graduate degree in Physical Sciences and Graduates and Doctorates degrees in Engineering, Technology and selected branches of Medicine.

Table IV—Persons holding degrees in Engineering and Technology and Graduates in selected branches of Physical Sciences.

Table V—Nature and Sector of Employment of persons in each Branch of Science and Technology.

Table VI—Total monthly Income of persons employed in each Branch of Science and Technology classified by Sector of Employment.

Table VII—Tenure and Sector of Employment of persons in each Branch of Science or Technology.

Table VIII—Age and period of Unemployment of the unemployed persons qualified in each Branch of Science or Technology.

3. Besides the above tables there are the following two Subsidiary Tables prepared on the basis of the figures in Tables C-III Part B and C-III Part C which appear in Part IC of the 1961 Census Series:—

(1) C III Part B.1—Distribution of 1,000 persons in each Age-group and Sex by Educational levels in **Urban Areas only.**

(2) C-III Part C.1—Distribution of 1,000 persons in each Age-group and Sex by Educational levels in **Rural Areas only.**

4. **Reference to the statistics of previous censuses**—The following 2 Tables of 1951 Census contain comparable statistics of literacy and education for that census:—

(1) Table C—IV headed "Age and Literacy" which was prepared from 10 percent sample slips and contained the number of Literate persons according to Sex and Age-groups.

(2) Table D-VII headed "Livelihood Classes by Educational Standard" which was prepared on whole population basis and contained the number of literate persons classified according to educational standards and Livilihood Classes.

(3) Subsidiary Table 7.1 headed "Progress of Literacy" and containing comparative figures for 1951 and 1941 of the literates in 1,000 males and 1,000 females and in various age-groups.

(4) Subsidiary Table 7.2 headed 'Literacy Standard of Livelihood Classs Containing the ratio of 1,000 males and 1,000 females of each Livilihood Class by Literacy and Educational standard.

5 In the Censuses prior to 1951 no particulars about the educational level of literate persons were collected except that the literates and literates in English were shown seperately. Statistics about literacy are available in the Census Reports of the previous Censuses:—

(1) In 1941—

(*a*) Provincial Table II of the Tables of C. P. and Berar, Central India and Bihar;

(*b*) Imperial Table XI of the Tables of Gwalior State.

(2) Imperial Table XIII—Literacy by Religon and Age and table XIV-Literacy by selected Castes, Tribes and Races of 1931 Census.

(3) Imperial Table VIII—Education by Religion and Age and Table IX-Education by selected Castes, Tribes and Races of the 1921 and 1911 Censuses.

(4) Imperial Table VIII—Education and Table IX—Education by selected Castes, Tribes or Races of 1901 Census.

6. Enumeration instructions for recording 'Age' are given on the fly-leaf of the preceding table.

7. 'Literacy and Education' was the subject of question 6 of the 1961 Census questionnaire. The question was put to respondents in two parts; part I was whether the person was 'Illiterate or literate' and, where the answer to part I showed that the person enumerated was literate , part II of the question was put which was about the 'Standard of Education.' The instructions to the enumerators about each part of the question were as follows:—

"I Illiterate or Literate

For a person

1. Who can neither read nor write or can merely read but can not write in any language. write O

2. Who can both read and write write L

The test for reading is ability to read any simple letter either in print or in manuscript *i. e.*, if the person can read one of the examples in the Enumerator's Hand-book with felicity he may be taken to have passed the test for reading. The test for writing is ability to write a simple letter. The test for literacy is satisfied if the person can with understanding both read and write.

II. Standard of Education.

If the person can both read and write and has also passed a written examination or examinations as proof of an educational standard attained, write the highest examination passed instead of L.".

There were further supplementary instructions that if a person has passed different examinations in different subjects then the highest examination passed in each subject should be written.

8. At the tabulation stage if it was found that there is no entry in any slip against question 6, the person was treated as illeterate unless the answer to any of the questions regarding the nature of his work or, if not working his activity clearly established that he was literate. Further, at the time of tabulation, children under age 5 were all treated as 'illiterate' notwithstanding an occasional entry to the contrary.

9. As will be seen from the Table, literate persons have been classified differently for urban and rural areas. For rural areas while they have been divided into three categories of (1) Literate (without educational level), (2) Primary or Junior Basic and (3) Matriculation and above, for urban areas the persons in category (3) have been further sub-divided into 10 categories according to technical and non-technical diplomas not equal to degree, University degree or post graduate degree other than technical degree and Technical degree or diploma equal to degree or post-graduate degree. At the time of tabulation it was found that there were some slips, though very few in number, in which the returns of 'highest examination passed' contained names of examinations either in uncommon abbreviations or the examinations were those conducted by non-Government institutions, which in some cases were recognised by the Government and in some cases were not so recognised and, therefore, difficulties were experienced in assigning them to the appropriate educational levels. In rural areas the difficulties were few because the returns of those areas were easily classifiable between 'Primary or Junior Basic' and 'Matriculation and above'. But in urban areas such entries required careful consideration (and in some cases consultation with educational authorities) before a decision was taken about their classification.

10. The 8 Tables relating to "Scientific and Technical Personnel" given in Appendix to this table were prepared by the Mechanical Tabulation Unit of the office of the Registrar General, India from the information collected conjointly with the Census at the instance of the Council of Scientific and Industrial Research, Government of India. In Madhya Pradesh, the enquiry was not universal and was confind to all urban areas and villages which had a population of 2,000 or more at the time of Houselisting. Another factor which may be taken note of is that this enquiry though made through the census agency was not part of census taking and it was, therefore, not obligatory on the part of scientific and technical personnel to furnish the information, These limitations may, therefore, be borne in mind while studying and using the figures.

11. The procedure for the collection of information was that all enumerators in urban areas and enumerators in the villages having a population of 2,000 or more were supplied with sufficient numbers of special enumeration cards, like business reply post cards, (facsimile given below) and having the address of the Registrar General, India

FRONT

CENSUS OF INDIA 1961: SCIENTIFIC & TECHNICAL PERSONNEL

Only a person with a recognised Degree or Diploma in Science, Engineering, Technology or Medicine should fill in this card.

READ CAREFULLY BEFORE FILLING IN. TICK(✓) WITHIN BRACKETS PROVIDED WHERE APPLICABLE.

CENSUS LOCATION CODE

1. NAME----------2. DATE OF BIRTH----------

3. DESIGNATION & OFFICE ADDRESS---------- *(if employed)*

4. PERMANENT ADDRESS----------

5. (a) Male ( ) (b) Female ( )

6. (a) Never Married ( ) (b) Married ( )

7. On Feb. 1, 1961 were you:

(a) Employed? ( ) If so, monthly total income Rs.----------

(b) Full time student? ( )

(c) Unemployed? ( ) If so, how long? ---Yrs---mths.

(d) Retired? ( )

8. ACADEMIC QUALIFICATIONS *(ANSWER FULLY)*

Degree/Diploma	Subjects taken	Division	Year of Passing

If employed fill in Qs 9-12

9. Nature of employment:
a. Teaching in School ( )
b. " in College ( )
c. Technical, in Industry ( )
d. " ourside Industry ( )
e. Non-technical ( )

10. Any Research Assignment? Yes ( ) / No ( )

NEW DELHI G.P.O.
PERMIT NO. 1518

No Postage necessary if posted in India.

The Registrar General, India,
Ministry of Home Affairs,
2A, Man Singh Road,
NEW DELHI - 11

printed on them. The instructions to the enumerators were that when they visit household for the purpose of enumeration between 10th and 28th February, 1961 they should leave the necessary number of these cards (after filling in the location code no. of the Household) in each household where persons having the following qualifications were found and keep a record of the cards so distributed:—

(1) Science—Anybody holding B. A. or B.Sc., M.A. or M.Sc., or higher degrees (Ph.D., etc.) in science subjects like Physics, Mathematics, Chemistry, Agriculture, Geology, Geo-Physics, Geography, etc.

(2) Engineering—Anyone holding recognised Degree or Diploma in Engineering.

(3) Technology—Anyone holding Degree or Diploma in technical subjects like Chemical Technology, Leather Technology, Textile Technology, Glass and Ceramic Technology, Food Technology, etc.

(4) Medicine—Persons holding Degree or Diploma in Medicine and/or Surgery.

The enumerators were to collect these cards at the time of their revisional round between 1st and 5th March, 1961 from those persons who fill up and give them and to request those who did not hand over the cards to post them after completion. No postage was to be paid by the sender. These cards were thus collected, processed and tabulated in the Office of the Registrar General, India.

12. To give some idea of the progress of literacy in the decade 1951-61 two tables are given below. The first of these tables gives the respective proportions of literates in 1,000 persons, males and females, in the State and in each of its Divisions and Districts in 1951 and 1961 Census. While the second one gives the 1951 and 1961 comparative figures of literates in each age-group for the State as a whole. In terms of actual figures there were 2,564,600 literate persons in the State in 1951 divided into 2,151,479 males and 413,121 females. The corresponding figures for 1961 are persons 5,544,862, males 4,481,454 and females 1,063, 408 respectively. Thus the increase in the number of literate persons is 2,980,262 or 116.2%; that in males 2,329,975 or 108.3% and in females 650,287 or 157.4%.

13. The figures for 1951 Census given in the following 2 tables have different bases and, therefore, the proportion of literate persons differs slightly between these two tables. Table 1 has been prepared from Table D-VII of the last Census which table was prepared on "whole population" basis while table 2 has been prepared from Table C-IV which was prepared for 10 percent sample slips only and which was the only table in which the literacy figures were available by age-groups. One other thing which may be mentioned in respect of Table 1 below is that the figures for the districts, relate to the districts as constituted in 1951 meaning that the inter district transfers of territory which took place between 1951 and 1961 have not been taken into consideration. Except in the case of Bilaspur and Raigarh districts such transfers are of very small areas and their effect on the figures is insignificant.

SCIENTIFIC AND TECHNICAL PERSONNEL
TABLE I—CLASSIFICATION BY EACH BRANCH AND SUB-BRANCH OF SCIENCE OR TECHNOLOGY

Classification No. of Branch/Sub-Branch of Science or Technology	Description of Branch/Sub-Branch of Science or Technology	Persons	Males	Females
1	2	3	4	5
	All Branches	14,419	13,801	618
0- 8	*Post Graduates (including Doctorates) in Science*	*1,620*	*1,548*	*72*
0	*Physics*	*234*	*227*	*7*
00	Physics (including Mathematical Physics)	234	227	7
1	*Mathematics*	*349*	*346*	*3*
10	Pure Mathematics	334	331	3
11	Applied Mathematics	15	15	..
2	*Statistics*	*32*	*32*	..
20	Statistics	32	32	..
3	*Chemistry*	*343*	*323*	*20*
30	Physical Chemistry	266	255	11
31	Inorganic Chemistry	26	24	2
32	Organic Chemistry	42	37	5
33	Bio-Chemistry	9	7	2
4	*Agriculture*	*131*	*130*	*1*
40	Agriculture (including Agricultural Botany and Agricultural Economics)	131	130	1
5	*Bio-Sciences*	*295*	*259*	*36*
50	Zoology	146	123	23
51	Botany	135	123	12
52	Anthropology	9	9	..
53	Others (*e. g.* Physiology, Fisheries etc.)	5	4	1
6	*Geology/Geophysics*	*53*	*53*	..
60	Geology	51	51	..
61	Geophysics	2	2	..
7	*Geography*	*160*	*157*	*3*
70	Geography (including Anthropo-Geography)	160	157	3
8	*Other Sciences*	*23*	*21*	*2*
80	Other Sciences (*e. g.* Psychology, Applied Psychology, Archaeology, Meteorology, etc.)	23	21	2
9	*Graduates (B. A. and B. Scs. including Honours) in General Science Subjects*	*3,621*	*3,439*	*182*
90	General Sciences (Phys., Math., Stat., Chem., Bio-sciences, Geol., Geo., Phys., and other sciences).	3,168	2,989	179
91	Agriculture	447	444	3
92	Forestry	3	3	..
93	Horticulture	3	3	..
10-33	*Engineering and Technology Degrees (Graduates and Doctorates)*	1,980	1,972	8
10	*Aeronautics*	..	..	..
100	Aeronautics	..	..	..
11	*Agricultural Engineering*	*20*	*20*	
110	Agricultural Engineering (General)	19	19	..
111	Applied Botany	..	..	..
112	Farm Power and Machinery	..	..	..
113	Soil and Water Conservation	1	1	..
12	*Applied Geology Geophysics*	*9*	*9*	..
120	Applied Geology and Geophysics (General)	9	9	..
13	*Architecture and Regional Planning*	*6*	*6*	..
130	Architecture and Regional Planning (General)	3	3	..
131	Town and Country Planning	3	3	..
14	*Automobile*	*5*	*5*	..
140	Automobile	5	5	..

TABLE 1—CLASSIFICATION BY EACH BRANCH AND SUB-BRANCH OF SCIENCE OR TECHNOLOGY—*contd.*

Classification No. of Branch/Sub-Branch of Science or Technology		Description of Branch/Sub-Branch of Science or Technology	Persons	Males	Females
1		2	3	4	5
15-16		*Chemical Engineering and Technology*	*171*	*171*	..
	150	Chemical Engineering and Technology (including Applied Chemistry)	94	94	..
	151	Technology of Gas Reaction at High Pressures	..	..	..
	152	High Polymers and Rubber Technology	..	..	..
	153	Synthetic Drugs and Chemicals	..	..	..
	154	Technology of Oils, Fats and Waxes etc.	12	12	..
	155	Pigments, Paints and Varnishes	..	..	..
	156	Applied Microbiology	..	..	..

TABLE C-IV—SINGLE YEAR

This is for the first time in the Indian Census that single year age returns have been tabulated for whole population. In 1951 they were Tabulated for only a 10 per cent sample and were presented in Table C-V. In the 1941 Census though the enumeration was carried out in full according to plan, as a measure of economy the tabulation of the data was restricted only to the distribution of the population by community for Province, State, District, Tahsil and Town. However, in some former princely States, the territories of which now form part of the present State of Madhya Pradesh the Tabulation was carried out in full and the results were published by them. But the Tabulation of single year age returns in those states was limited to one or two administrative units in each State.

2. In former Madhya Pradesh ("C. P. and Berar" at the time of the 1941 Census) 2 per cent of the enumeration slips were taken out of the whole lot on a random sample basis known as 'Y' sample and these were processed and Tabulated at the Indian Statistical Institute, Calcutta. The results of this Tabulation are contained in Census of

AGE RETURNS

India, Paper No.9 of 1951 which,besides other Tables, contains one relating to single year age returns(III—Distribution of Population by Age last Birthday and Sex).

3. In 1931 Census and also in previous ones the tabulation of single year age returns was limited to some representative areas only and the results were published in Subsidiary Tables included in the Report Volumes.

4. The instructions to enumerators for recording 'Age' and tabulation instructions have already been given on the the fly-leaf of Table C-II in this Part and may be seen. The figures in this Table are "raw" and unsmoothed.

5. The ages above 100 have been omitted from this table and lumped together as "Above 100". The details of the ages returned and the number of males and females belonging to each age are given in the following table:—

of over 100 years (*contd.*)

8 However, a glance at Table C-IV and Fly-leaf Table 2 (pp 216-217 *supra*) will show, there are certain preferences and prejudices that effect age returns recorded in Censuses. For example, there is a universal preference for getting ages returned in figures ending in 0 and 5 while there is a similar dislike for the ages ending in digits 1,3 and 9. All these distortions have been systematically measured by the Actuary to the Government of India and Life Tables (for India and Zones) and Adjusted Single-year Age Tables (for India, Zones and States) have been prepared by him. Those who are interested in studies based on age returns may refer to Census of India Paper No. 2 of 1963. The following 2 Tables have been extracted therefrom and contain—

(1) Table 5—Life Table of Central Zone (*i. e.* Madhya Pradesh and Uttar Pradesh States combined) (*a*) Males; and (*b*) Females; and

(2) Table 6—Adjusted Population by Single year of age for the Central Zone and this State.

9 The method adopted in making the adjustments for Table 6 are as follows—

(1) In the case of 1951 Census data, single year age count was first totalled in 3-7 quinquennial grouping. The group totals presented a serrated distribution with higher value for groups having a multiple of 10 at the mid-age. The way distribution was made even by a system of transfers and smoothing the resulting group totals by a weighted average formula involving the adjoining groups on either side. The system of transfers which aimed at removing most of the systematic biases involved (*a*) the assumption that as a first approximation the midterm equals 1/5 of the quinquennial group total and (*b*) the use of a life table mortality rate, which in the nature of the case could only be approximate. The corrected group totals were distributed into single year age population by osculatory interpolation formulae, which kept the quinquennial totals unaltered. This time the method has been changed. The various steps in this method are spelt out below to enable a better appreciation of the amplifications that follow.

(2) The enumerated population count by single year of age was first smoothed by the 11-term moving average. It largely removed the wide fluctuations and gave a first approximation to the true distribution but contained some systematic biases. This process was not applied to ages above 72, as the Census age record above this age was considered to be of poor reliability.

(3) The adjusted individual age population as obtained in para (2) were grouped in quinquennial ages starting with 3-7.

(4) The quinquennial group totals of para (3) were further smoothed by the formula $W_0 = \frac{1}{4}(-W_{-1} + 2W_0 + W_1)$ as in 1951 Census, where W_0 is the corrected quinquennial group total and W_{-1}, W_0, W_1 are the successive group totals as obtained in (3).

(5) As in 1951 Census, the adjusted totals of (4) were distributed into single year of age population by the Kozakeiwicz's Osculatory Interpolation Formulae. This yielded populations between 8-67.

(6) Special methods were adopted to obtain corrected populations at ages 0-7 and 68, 69 and 70+.

(7) The adjusted quinquennial group totals of (4) were graduated with a standard curve selected from 1951 Census age distributions to fill in the gap between 8-27.

(8) **"Ages 68, 69 and 70+"**—Populations at the two ages 68 and 69 were obtained by taking the second difference constant and equal to the average for the ages 63-67. The estimated poplulations at ages 68 and 69 were substracted from the population enumerated as aged 68 and over. This gave the population aged 70 and over.

(9) "**Ages 0-7**"—Very few pointers are available to enable estimates at these ages to be made with confidence but they are needed very particularly for various purposes like drawing up educational programmes, public health and medical service planning etc. The group is also important for demographic studies. One major difficulty is that the age span is at the terminal, which rules out any graduation and smoothing formulae based on summation. Mortality varies so sharply at the first few ages that the more common graduation curves are not very appropriate for the purpose. After a good deal of experimentation with the various alternatives, it was finally decided to redistribute the enumerated population at ages 0-7 together with half the estimated excess at age 8 in accordance with the equation.

$$P_x = A + Hx + Bc^x$$

where c for males was taken to be ·65, P_x represents the population at age x, A, H & B are constants to be determined from the data.

From the nature of the problem H must be negative so that A+Hx would represent a population decreasing linearly with age. The role of the component corresponding to Bc is to regulate largely the element of extra mortality in childhood. The multiplication of the component by c (a positive fraction around half), for every unit increase in age makes for a rapid fall in Px in childhood ages. The above equation, thus, defines a population decreasing with age in a manner conforming to the general pattern of variation in mortality risks in childhood and later ages. Population at age O equals A+B. As age increases, B decreases by a constant fraction so that the drop in population between age O to 1 is much sharper. This drop becomes smaller and smaller as age progresses, and by the age of 8 or so the term Bc^x becomes practically negligible. Simultaneously, A also is decreased by H per unit increase in age, so that after the age of 8 or so, the decrease in Px is only linear at the rate of H per unit age. Thus, by the formula, we get a Px, which decreases sharply as x changes from 0 to 1, and the decrease for each subsequent increas in age gets reduced substantially so that after the age of 8 or so the rate of decrease becomes uniform. This accords with the facts of Indian mortality. Mortality risks are high at the infant stage, which reduce considerably with the successive ages but still continue at a high level and settle down to a steady level after the childhood risks are over. The equation is an adaptation of Makeham's formula and is similar to the one that was adopted for the life table function l_x in constructing 1951 Life Tables. The differences are (*i*) the term m/(20x+1) to provide specially for high infant mortality is dropped and (*ii*) c is taken as ·65 instead of ·45. It was possible to include m/(20x+1) then, as levels of infant mortality could be taken. A similar assumption for each State with the requisite degree of reliability was not possible in the absence of any firm data. Appropriate constraints to fix m could not be set up with the available data. This refinement not being practicable, it was taken that the decrease in Bc^x from x= to x=1 will take care of the heavy infant deaths, as c was a fraction. In view of the improvement in mortality, a change from c=.45 to c=.65 seemed to be in order, particularly when it fitted quite satisfactorily with the Census enumeration data for several States.

10. The introductory note to the Life Tables of the 1961 Census is reproduced below (this concerns Table 5);

"(1) The expectation of life during 1951-60 in the different Zones was as follows:

Zone	Expectation of life at birth		
	Males	Females	Both sexes
Northern	49.6	44.6	47.1
Central	39.8	38.8	39.3
Eastern	39.8	40.1	39.9
Southern	41.1	39.2	40.2
Western	44.2	42.5	43.4
All India	41.9	40.6	**41.2**

"(2) The expectations of life corresponding to the State death rate (col. 3) given are shown in Col. (2) of the following Table:

		State Vital Rates				
		Expectation of life at birth (both sexes)	Death Rate	Birth Rate	Gross Reproduction Rate	Average No. of children per woman
1		2	3	4	5	6
1.	Punjab	47.5	18.9	44.7	2.94	6.03
2.	Rajasthan	46.8	19.4	42.7	2.78	5.70
	(*a*) Northern Zone	47.1	19.0	43.6	2.86	5.86

"The State figures of expectation of life were estimated on the basis of Quasi-Stable Population Model, assuming the intermediate series of age- specific mortality and fertility rates adopted by the United Nations in calculating Model—Stable Populations. The State expectations of life agree with the corresponding Zonal figures given in the preceding paragraph. The value of gross reproduction rate (Col. 5) for each State corresponding to the birth rate based on the Quasi-Stable Population Model referred to above is also given. The significance of the gross reproduction rate is given in column (6) in terms of average number of children born to a woman during her entire reproductive period. This average is obtained by multiplying the gross reproduction rate by 2.05, on the assumption that 105 male babies are born for every 100 female babies. The figures of expectation of life and average number of children given, in the Table are based on the assumptions made and may be taken as reflecting the real position in a broad way.

TABLE 5—LIFE TABLE (1951-61)

Central Zone—Males.

Age	Survivors to exact age x	Deaths between ages x and x+1	Probability of dying between ages x and x+1	Number Living between ages x and x+1	Number Living above age x	Expectation of life at age x

INTRODUCTORY NOTE
TABLE C-V—MOTHER TONGUE
and
TABLE C-VI—BILINGUALISM

In the 1961 Census 2 questions were put to every individual about his mother tongue and other language(s) spoken by him. These questions were 7 (*a*) and 7 (*b*) and the instructions for recording answers to these questions were as follows:—

(1) *Question* 7 (*a*)—*Mother Tongue*– Write the Mother tongue in full including dialect as returned by the person enumerated. Mother tongue is language spoken in childhood by the person's mother to the person or mainly spoken in the household. If the mother died in infancy write the language mostly spoken in the person's home in childhood. In the case of infants and deaf mutes give the language usually spoken by the mother.

(2) *Question* 7 (*b*)—*Any other Language*(*s*)—After recording the mother tongue enquire whether the person knows any other language (s), Indian or foreign, and write the language (s) returned by him against this quetion. In case he does not know any other language put X.

The number of languages recorded against this question should not be more than two. These languages should be other than his mother tongue which he speaks and understands best and can use with felicity in communicating with others. Such language or languages will exclude dialects of the same language.

2 From the answers recorded against these two questions 2 separate Tables were prepared. In Table C-V the population of the State, Divisions and Districts has been divided according to the number of speakers of each mother tongue recorded in answer to question 7 (*a*). In this Table the figures for the State and Divisions are given for total as well as for Rural and Urban areas separately but the figures for districts do not give a rural/urban break up. The entries in this Table are according to alphabetical order of mother tongue names.

3 Table C-VI, in addition to the giving of the number of speakers of each mother tongue,also gives the number of persons who in addition to their mother tongue speak some other Indian or foreign language and the number of speakers of each such subsidiary language separately. Though the instructions to the enumerators required that where a person knows two or more of such other languages two such languages can be returned against question 7 (*b*), while tabulating Table C-VI only one– the first one– of these has been taken into consideration and the second one, ignored. This Table has been prepared for each of those mother tongues which have speakers of subsidiary language and under each mother tongue the number of speakers in the State, Divisions and Districts and the number of speakers of each subsidiary language is given in run on lines against the language which they use as their mother tongue.

4 These language Tables before coming into their present form have been put through critical expert examination. What these processes were is described in brief in the following 2 paragraphs:—

(1) The language or speech names as they were found recorded in the enumeration slips were sorted out and at no stage of primary tabulation was any attempt made to rationalise their spellings or to group, re-group or classify them in any manner. The Tables thus prepared were sent to the Language Division of the Office of the Registrar General, India. The Linguist and other experts of the Division scrutinised these Tables thoroughly, rationalised the spellings of language names and drew up a final list of the languages in the State. While preparing this list all speeches which were synonymous with each other were grouped together. However, there were some speeches (their number was very small, however) whose identity as such could not be established from the returns of earlier Censuses, or the returns of this Census received from other States or from local enquiry. Such speeches were merged with the main language of the district in which their speakers were found.

(2) At the time of primary tabulation the number of speeches found recorded in the enumeration slips was 354 for the State as a whole. As a result of grouping done in the manner given in sub-para (1) above the number now appearing in the Table is 258. The names of all speeches which have thus been grouped, the number of their speakers in the State, the names of the districts in which they were returned, and the names of the languages in which they were merged are given in the statement given at the end of this note. From this statement it will be seen that speeches which have been merged with others fall into the following 4 broad-categories:—

(i) Cases where there were differences only in the spellings used in the enumeration slips.

(ii) Cases where, instead of giving well recognised names, some local names were given.

(iii) Cases where, instead of the speech name, the name indicative of the place of origion of the speaker or the name indicative of its caste was given.

(iv) Cases where the speech was totally unidentifiable.

It will also be seen that most of the speeches merged fall within the first three categories and it was, therefore, easy to identify and group them with their proper speeches. It was only the last category which has been merged with the main language of the district but the number of such speeches and their speakers is insignificant.

5 The mother tongue or language had been a subject of investigation in all the Indian Censuses begining with that of 1881 and has always formed part of its questionnaire. In the Censuses upto 1921 only the mother tongue or language ordinarily spoken was asked for but, since the Census of 1931 upto the present one, in addition to the mother tongue other languages used by the person enumerated were also investigated. The Tables relating to language prepared in each of the Census since 1901 were as follows:—

1901 .. Table X—Showing by sexes the language spoken classified by group, language and dialect.

1911 .. Table X—Language

1921 .. Table X —Language

1931 .. Table XV—Language

(1) Part I—Language

(2) Part II—Bilingualism

1941 .. Table XII—Language

(1) Part I —Mother tongue

(2) Part II—Bilingualism

Note.—In this Census this Table was tabulated in certain Indian States only.

1951 .. (1) Table D-I (*i*)—Mother tongue

(2) Table D-I (*ii*)—Bilingualism

6 A Subsidiary Table numbered C-V. I has been prepared from Table C-V and appears in Part IC of the Census series. In this Subsidiary Table the distribution of 1,000 persons by Mother tongue has been given for the State, Divisions and Districts.

7 In Censuses from 1911 to 1941 the classification of languages was made according to Grierson's Linguistic Survey of India and the statistics in the Census Tables were presented accordingly, but in 1951 Census that classification was discontinued. In this Census also no classification of any kind has been made in the Table itself and all languages, dialects or speeches have been arranged therein in a single alphabetical order.

8 The Linguist, Office of the Registrar General, India has, however examined the language returns *vis-a-vis* the Linguistic Survey of India and has, after due consideration, divided the 258 tongues recorded in this Census into following 5 categories:—

(*i*) 182 tongues were found to be classified by Linguistic Survey of India. Out of these 7 (distinguished by † in the Table) were reclassified by the Linguist.

(*ii*) 25 tongues (distinguished by *† in the Table) were found to be unclassified in Linguistic Survey of India but tentatively classified by the Linguist.

(*iii*) 25 of the tongues were found to belong to countries outside the Indian sub-continent. (These are printed in Italics in the Table).

(*iv*) 26 tongues (distinguished by* in the Table) were found unclassifiable by the Linguist for want of any dependable information about them.

The details of languages classified, reclassified or unclassified will be found in the fly-leaf to Table C-V in which the position has been made clear by necessary notes. This fly-leaf has been prepared by the Linguist, office of the Registrar General, India. There are two Appendices to that fly-leaf. In Appendix I Abstract of Classified and Unclassified languages has been given while in Appendix II (pages bearing No. I to VIII) Classified list of the Linguistic Survey of India has been reproduced.

9 Besides the fly-leaf prepared by the Linguist, the Central Tabulation Office of the Registrar General, India has also prepared for the State and each of the districts a statement of "Percentage change in each decade (1911-61) of population of three numerically most important languages (including dialects) as of 1961" and this statement together with its annexures is being reproduced elsewhere in this Part as Appendix III.

The statement contains comparative figures of the speakers of Hindi, Rajasthani and Marathi languages in Censuses of 1911, 1921, 1931, 1951 and 1961; the percentage variation during the decade and the percentage of the speakers to total population. The annexures show the dialects included in each language and the number of the speakers of each dialect in each of the above Censuses.

10 The figures given in the aforesaid 'Statement' and 'Annexures' require some explanation and it is furnished below:

The State of Madhya Pradesh as at present constituted was devided into 11 British Indian districts of C. P. & Berar Province and 66 Princely State spread over the Central India Agency and in the Provinces of C. P. & Berar, Orissa and Bihar at the time of the Censuses prior to 1951. Most of the present districts have been formed by carving out areas from one or more of these Princely States. Obviously, therefore, comparable figures for the previous censuses of the speakers of a language or dialect are not available for the present districts. The figures given in the Statement are, therefore, adjusted and in some cases estimated, figures made comparable to the 1961 jurisdiction of each district. The method of this adjustment was that wherever the constitutent parts of the districts comprised separate tracts for which linguistic data were available in the relevant Census Publications, these have been taken into account; but where the portions smaller than a census tract were transferred, the linguistic composition of such parts was estimated on the basis of the proportion of the speakers of each of language to the total population of the tract of which the transferred area formed a part. In this process transfers of small areas such as isolated villages or a group of such villages for which no details could be found, were ignored.

Speeches which have been merged with other speeches

Name of speech merged	No. of speakers	Districts in which returned	Name of speech with which merged

TABLE C-V—MOTHER TONGUE

Fly-leaf prepared by the Linguist Office, of the Registrar General, India

Note **1.**

(*i*) The following mothertongues arranged in alphabetical order in Col. 1 of the table given below as per Table C-V have been classified in the Linguistic Survey of India. The Linguistic Survey of India Classification No. is mentioned against each mothertongue in Col. 3.

(*ii*) If in Col. 3 no Classification No. is given against any mothertongue of Col.1 then it would mean that the name refers to either old or middle Indo Aryan language or a language group or branch or family name from the Linguistic Survey of India.

(*iii*) Wherever a tongue is mentioned in Col. 3 it is to be understood that the mothertongue is either a dialect or another name or form of the tongue mentioned against it in Col. 1 which in its turn has been classified by the Linguistic Survey of India in the appropriate place for that tongue.

(*iv*) If in Col. 1, there is a tongue which bears no classification number in the Linguistic Survey of India then in Col. 2 the name of the classified language or group will be given of which the mothertongue of Col. 1 is either a dialect or another name or form. In such a case the number of classified language of Col. 2 has been given in Col. 3.

(*v*) In Col. 2 standardized spellings according to Linguistic Survey of India have been given against each mothertongue of Col. 1.

***Note* 2.**

The following mothertongues arranged in alphabetical order as per Table C-V and are indicated by an asterisk and dagger or a dagger alone in that Table have been tentatively classified or reclassified by the Linguist in the manner stated below:

(T) against the mothertongue in column 1 indicates that it has been tentatively classified, (TR) means that it has been tentatively reclassified by the Linguist.

Alphabetical order of the mothertongues indicated by an asterisk and dagger or a dagger alone in Table C-V		Manner in which tentatively classified or reclassified by the Linguist
1		2
Bahusar	(T)	Marathi
Bilaspuri ‡	(TR)	Chhattisgarhi
Byadha	(T)	Paradhi
Chamari	(T)	Hindi
Dewar Boli	(T)	Chhattisgarhi
Dhelki	(T)	Kharia
Dhurwa	(T)	Parji
Dorli	(T)	Gondi
Gadaria	(T)	Gujarati
Gadoli	(T)	Rajasthani
Goanese	(TR)	Konkani, a language of the Southern Group of Outer Sub-Branch of the Aryan Sub-Family
Hattiya Ki Boli	(T)	Malvi
Jangali-Korwa	(TR)	Korwa
Jhamral	(T)	Malvi
Kalari	(T)	Gondi
Kalbeli	(T)	Rajasthani
Kokadi	(T)	Gondi
Konda	(TR)	A language of the Dravidian Family
Konkani	(TR)	A language of the Southern Group of Outer Sub-Branch of the Aryan Sub-Family
Mahto	(T)	Munda
Maina	(T)	Hindi
Majhi-Korwa	(TR)	Korwa
Mankari	(T)	Korku
Nagarchi	(T)	Gondi
Nagwanshi	(T)	Chhattisgarhi
Pando	(T)	Chhattisgarhi
Panki	(T)	Chhattisgarhi
Parji	(TR)	A language of the Dravidian Family
Pinjari	(T)	Urdu
Regari	(T)	Marathi
Rewapari	(T)	Baghelkhandi
Sarwariya	(T)	Bhojpuri

Note 3.

Mothertongues outside the Indian Sub-continent which have been printed in italics in the Table have been arranged by the Linguist according to (*a*) mothertongues of other Asian countries and (*b*) mothertongues of each of the other continents in the following manner:

Other Asian Countries/Other continents	Mothertongues
1	2
Other Asian Countries	Afghani/Kabuli/Pakhto/Pashto/Pathani, Arabic/Arbi, Balochi/Baluchi, Burmese, Ceylonese/Simelu/Singhalese, Chinese/Chini, Irani/Iranian, Israeli, Japanese, Persian, Turkish/Turkistani
Africa	African
America	American, Canadian
Europe	Czech/Czechoslovakian, Dutch, English, French, German, Hungarian, Irish, Portuguese, Russian, Spanish, Swedish

Note 4.

The following mothertongues which appear in the table have been found unclassifiable by the Linguist for want of any dependable information on them so far:—

Beldari, Beriya, Bhadri, Dangchagha, Ghasi, Gorila, Gwalri, Kanjari, Kuchbandhi, Madari-Nati, Mahakuri, Meghwali, Nati, Nehara, Odki, Pahalwani, Paliya, Pasi, Pathari, Rakchhai, Sansi, Saperi, Saraiya, Servi, Shikari, Urmasha.

Note 5.

Column 2 shows variant spellings or forms of mothertongue returns which are rationalized to the names given against them in Column 1.

Rationalized forms of names of mothertongues as listed in Table C-V	Variant forms of the names of mothertongues recorded during enumeration and/or transcription
1	2
Adkuri	.. Adhkuri
Ahirani	.. Ahrani
Assamese	.. Assami
Bahawalpuri	.. Bhawalpuri
Bahusar	.. Bhawsari
Baigani	.. Baigi, Bega
Baori	.. Boari
Barel	.. Bareli
Beriya	.. Bedia
Betuli	.. Betali
Bhadauri	.. Bhadaori
Bhadri	.. Bodri
Bhoyari	.. Bhomiyari, Bhuiyar, Bhuria
Bhuani	.. Bhuwani
Binjhwari	.. Binjhawari
Birhor	.. Birhore
Bori	.. Bora
Burgandi	.. Bargundi
Byadha	.. Bydha
Derawal	.. Derawali
Dhangri	.. Dhangari
Dogri	.. Dongri

Rationalized forms of names of mothertongues as listed in Table C-V	Variant forms of the names of mothertongues recorded during enumeration and/or transcription
1	2
Domra	Dorma
Gadaria	Gadari, Gadriya
Gahora	Goherohi
Gaoli	Gawali
Ghati	Gatiya Ki Boli
Gondani	Godri, Godwani
Gorkhali	Gorkhi
Govari	Gowari
Gurmukhi	Gurumukhi
Halabi	Halbi
Harauti	Hadoti
Holiya	Hola, Holar
Jharia	Jhaliya
Kanauji	Kanoj
Kanauri	Kanawar
Kannada	Kannad
Khairari	Kheradi
Khariboli	Khadiboli
Kherwari	Kharwari
Kir	Keeri
Kokadi	Kokari
Kol	Koli
Kolami	Kulme
Konkani	Kokani
Koraku	Kodaku
Kotvali	Kotwali
Kumbhari	Kumhari
Kurukh/Oraon	Orao, Orawn, Urao, Urawa
Lodhanti	Lodhani
Magari	Maghari
Maina	Mina
Majhi-Korwa	Manjhi
Malabar	Malabari
Malvi	Malwada
Maria	Madiya
Nahari	Nahar Ki Boli
Nati	Natobhasha
Odki	Oad
Ojhi ..	Ojha
Pahari-unspecified	Pahadi
Pardesi	Pardeshi
Parvari	Parwari
Relli	Relley
Rewapari	Riwai
Sadan/Sadri	Sadri
Santali	Santhali
Sarwariya	Sanwari
Sauria	Sauriya
Savara	Swara
Shekhawati	Sekhawati
Tibetan	Tibbati
Towargarhi	Tawadhari
Vadari	Badari

APPENDIX I

Abstract of Classified and Unclassified languages

Total number of Mother Tongues	Mother Tongues of the Indian Sub-continent												Mother tongues outside Indian Sub-continent		
	Classified by *Linguistic Survey of India.*			Unclassified (bearing*)			Unclassified by Linguistic *Survey of India* but tentatively Classified by Linguist (bearing* and †)			Classified by *Linguistic Survey of* India but reclassified by Linguist (bearing†)					
	No. of Tongues	Males	Females	No. of Tongues	Males	Females	No. of Tongues	Males	Females	No. of Tongues	Males	Females	No. of Tongues	Males	Females
1	2	3	4	5	6	7	8	9	10	11	12	13	14	15	16
258	182	16,537,431	15,753,657	26	1,229	1,027	25	33,912	35,648	7	2,180	1,365	25	5,632	3,872

Note.—(The total of columns 2, 5, 8, and 14 will give the total number of mothertongues).

TABLE C-V—MOTHER TONGUE (*ALPHABETICAL ORDER*)

Note:— (*i*) Mother tongues printed in Italics belong to countries outside the Indian Sub-Continent.

(*ii*) Names occuring after hyphen (-) have been introduced by the Linguist to indicate groupings.

(*iii*) An astrisk (*) left to a language name means that the mother tongue is unclassified in Linguistic Survey of India.

(*iv*) A dagger (†) left to a language name denotes that the mother tongue though classified in Linguistic Survey of India is either tentatively reclassified or considered unclassifiable by the Linguist.

(*v*) Both asterisk and dagger (*†)left to a Language name denote that the mother tongue is unclassified by Grierson but is classified by the Linguist.

a—Absolute figures b—Percentage variation c—Percentage to total population

%—Includes dialects as per Annexures attached.

*—Indicates that total population of all languages, if derived, would be slightly less than the population given in Table A-II of 1961, because adjustment of minor portions has not been done. Calculations are based on actual population and not on A-II population.

**—Indicates that total population of all languages, if derived, would be slightly more than the population given in Table A-II of 1961. The reason is the same as given above.

III--*contd.*

numerica'ly most important languages (including dialects) as of 1961

TABLE C-VII—RELIGION

In this Table the distribution of the sexwise population of the State, Divisions and Districts and separately for rural and urban areas thereof has been given according to religion as returned in the Census. In the Table itself only six main religions *viz.* Buddhism, Christianity, Hinduism, Jainism, Islam and Sikhism have been given while other religions and persuasions have been grouped together, the details of which are given in a supplement to the Table which includes Kabirpanthi, Zorastrianism, the Jewish religion, Sarna, Confucianism, the Bahai faith and Bailao.

2. Except for the Census of 1941 when 'Religion' was replaced by "Community," it has been one of the main subjects of enquiry in every previous census, not only for the Religion Table but for other Tables as well, such as Civil condition (marital status) and Education, it formed the basis of presentation of Census statistics. The statistics about religion are to be found in Table VI of 1901, 1911, and 1921, Table XVI of 1931, Table D-II of 1951 and Community Table XIII of 1941.

3. The question about religion in Census questionnaire and the instructions to the enumerators for filling in the answers to that question were as follows:—

"Q. 5 (*b*)-Religion—

For Hindu	.. ..	write H
Muslim	.. ..	write M
Christian	.. ..	write C
Jain	.. ..	write J
Buddhist	.. ..	write B
Sikh	.. ..	write S

For others write the answers actually returned".

4. In the Table below are given the population figures relating to each religious community in India and in Madhya Pradesh State, its percentage to total population and percentage increase during 1951-61:—

Table 1—Population of Religious communities in India and Madhya Pradesh

Religion		India			Madhya Pradesh		
		Population	Percentage to total population	Percentage increase 1951-61	Population	Percentage to total population	Percentage increase 1951-61
1		2	3	4	5	6	7
All Religions	**1961**	***439,234,771**	**100**	**21.51**	**32,372,408**	**100**	**24.17**
	1951	****361,088,090**	100		26,071,637	100

	1951	6,219,134	1.74		39,914	0.15	
Others	1961	1,611,935	0.37	—13.01	13,672	0.04	54.87
	1951	1,848,224	0.52		8,828	0.03	

*Includes 297, 853 population of N. E. F. A. for whom simplified Census schedule instead of all-India Individual slip and Household Schedule was convassed. As statistics on religion were not collected in the simplified Census schedule, the religion-wise break-up of the said population is not available and, therefore, they are excluded from the various religions in Col. 2 of the statement for the year 1961.

**(*i*) Excludes population of N. E. F. A. but includes population of Jammu and Kashmir and Pondicherry. As religionwise break-up of the population of J and K and Pondicherry is not available for 1951, these figures are excluded from various religions in Col. 2 for the year 1951.

(*ii*) Percentage to total population has been calculated after excluding 268,602 population of Punjab for whom religionwise break-up is not available.

(*iii*) Percentage increase 1951-61 of each religion has been calculated on comparative area figures of of 1951 and 1961.

5. In the Table that follows comparison has been made between Madhya Pradesh and other States of India in respect of the proportions of different religious communities:—

Table 2—Proportion of the persons of different Religions in each State of India

States	Proportion of Persons of different religions in total population						
	Buddhists	Christians	Hindus	Jains	Muslims	Sikhs	Others
1	2	3	4	5	6	7	8
Madhya Pradesh	**0.35**	**0.58**	**93.99**	**0.77**	**4.07**	**0.20**	**0.04**

TABLE C-VIII—SCHEDULED CASTES AND SCHEDULED TRIBES—

Classification by Literacy and Industrial Category of Workers and Non-Workers

This table is in 2 parts A and B. Part A relates to Scheduled Castes and Part B to Scheduled Tribes. In this table the distribution of total Scheduled Castes/Scheduled Tribes population according to Sex, Literacy and Education, Workers according to their Industrial Categories and of Non-Workers has been shown for the State, Divisions and Districts and for Rural and Urban areas seperately.

2 The statistics contained in this table are based on more than one question of the Census questionnaire. The questions involved are—Question 5 (*c*)—Scheduled Castes and Scheduled Tribes, Question 6—Literacy and Education and Economic questions 8 to 12 and their sub-parts. Question 6 and the instructions for filling in the answers to that question are given on the fly-leaf of Table C-III elsewhere in this volume. Question 5 (*c*) and instructions relating to it were as follows:—

Q. 5(c)-Scheduled Castes and Scheduled Tribes—

"The answer to this question will be recorded only if a person belongs to a Scheduled Caste or Scheduled Tribe. If the person belongs to a Scheduled Caste or Scheduled Tribe obtaining in your State, or in your district write the name of the caste or tribe to which he belongs. For all others, write 'X' in this column. A list of Scheduled Castes and Scheduled Tribes obtaining in your State or in your district is given elsewhere in these instructions.

If the person belonging to a Scheduled Caste or Scheduled Tribe returns his caste or tribe by a synonym or a generic name of a Caste or Tribe as given in your list, write the name as returned and the name of the relevent caste or tribe, as per printed list, within brackets.

Do not write the names of Scheduled Castes in general terms as 'Harijan', 'Achhut'. You should ascertain the name of the caste when it is returned and write it. If a person is negligent and insists on calling himself merely 'Harijan' tell him that this description will not earn the person any benefits under the Constitution permissible to Scheduled Castes and Scheduled Tribes. This may persuade him to give out the correct name.

Scheduled Castes can belong only to the Hindu or Sikh religions. If a person belongs to a Scheduled Caste, there will be either 'H' or 'S' in answer to question 5 (*b*). Scheduled Tribes may belong to any religion."

3 The Economic questions were 5 in number with 7 sub-parts to questions 10 and 11. What these questions were and what the instructions were to record the answers to those questions has been described in detail in Part II B, Sub-part (*i*) of this Series of Census publications together with the schemes of Industrial and Occupational classifications followed in this Census and it is needless to reproduce them here. However, the questions which are relevant to this table and extracts from the instructions pertaining to them are given below:—

(*a*) *Question* 8—*Working as Cultivator*—(*i*) "For a person working as cultivator write 'C'. For a person not working as cultivator and for a person not working at all put X.

(*ii*) For purposes of the Census a person is working as cultivator if he or she is engaged either as employer, single worker or family worker in (*a*) cultivation of land or supervision or direction of cultivation of land owned or held from Government and (*b*) cultivation of land or supervision or direction of cultivation of land held from private persons or institutions for payment in money kind or share.

(*iii*) A person who has given out his land to another person or persons for cultivation for money, kind or share of crop and who does not even supervise or direct cultivation of land, will not be treated as working as cultivator. Similarly, a person working in another persons land for wages in cash, kind or share such as share of the produce (agricultural labourer) will not be treated as cultivator in this question."

Note—For the purpose of this question 'cultivation' has the same meaning as given in para 5 (*b*) and (*c*) of the fly-leaf to Table C-I in the begining of this volume.

(*b*) *Question* 9—*Working as Agricultural Labourer*—"Write AL for a person working as agricultural labourer, *i. e.*, a person who works in another person's land for wages in money, kind or share such as share of produce. For others put X. The labourer should have no right or lease or contract on land on which he works. He should have been working as Agricultural Labourer in the last or current cultivating season."

(*c*) *Questions* 10 (*a*) *and* 10 (*b*)—*Household Industry*—(*i*) "If a person is working in a Household Industry write (1) the nature of work done by him in the Household Industry against question 10 (*a*) and (2) the nature of the Household Industry against question 10 (*b*). Otherwise put X in both questions 10 (*a*) and 10 (*b*)."

Note.—The definition of the 'Household Industry' appears in para 5 (*a*) of the fly-leaf to Table C-I in this volume.

(*ii*) "A person though he may not be working in his own Household Industry may be working as a paid employee in another Household Industry. You should, therefore, enquire whether the person who is not working in his own Household Industry is working in any other Household Industry and if so, write the nature of the work done by him against question 10 (*a*)and the nature of the Household Industry against 10(*b*)."

(*d*) *Question* 10 (*c*)—*If Employee in HouseholdIndustry*—"This question will be filled up only for a person who is working as a paid employee in another person's Household Industry. In his or her case write E. E. For others put X".

(*e*) *Question* 11—*Doing Work other than* 8,9 *or* 10–"If a worker is not working as a cultivator or as an agricultural labourer or at any Household Industry write the actual work he is doing. If a person is working as a cultivator or as an agricultural labourer or at Household Industry and also does some other work (including dairying or livestock raising, orchard or plantation etc. as distinct from cultivation of crops) which does not relate to any of the above categories, write the other work he does in this question. If he is engaged in more than one work and neither of them relates to any of the three categories mentioned above write here the work on which he devotes more time."

(*f*) *Question* 11 (*a*)—*Nature of Work*—"In the case of persons not working or who work *only* as cultivator or agricultural labourer or at Household Industry, put X. Describe fully the nature of the work done by the person himself. Full and precise information as to the nature of the work done by the person should be given either in vernacular or in English or in vernacular transliteration of English."

(*g*) *Question* 11(*b*)—*Industry, Business Trade, Profession orService*—(*i*)"In the case of a person who is working and the nature of whose own work has been recorded in Question 11(*a*), you should write here the nature of industry, business, trade, profession or service in which the person works.

(*ii*) As in the case of Question 11 (*a*), you should describe in detail the nature of industry, business, trade, profession or service in which the person works. Vague answers should be avoided. In the case of industries, the articles which are produced or serviced or repaired should be given. If more than one article is produced the chief article produced or serviced or repaired should be given. In the case of business or trade the principal article of trade should be described. In the case of

service describe the nature of service to which the person's work belongs. The description should be such that it would be possible to classify the establishment in which the person is working for purposes of industrial classification of the population. The description should be either in vernacular or in English or in vernacular transliteration of English.

(*h*) The questions 11 (*c*) (Class of Workers) and question 11 (*d*) (Name of Establishment) need no comment here as they are irrelevant to this table.

4 Before proceeding to the next question relating to'Non-Workers' it may be desirable to explain here the term 'Worker'. A person who is working may be working as a Cultivator, as an Agricultural Labourer, at a Household Industry or may be doing any other work. The basis of the work was satisfied in the case of seasonal work like cultivation, livestock, dairying, household industry etc. if the person has had some regular work of more than one hour a day throughout the greater part of the working season. In the case of regular employment in any trade, profession, service, business or commerce the basis of work was satisfied if the person was employed during any of the fifteen days preceding the day on which the enumeration was made. A person who was working but was absent from his work during the fifteen days preceding the day of enumeration or even exceeding the period of fifteen days owing to illness or other causes was to be treated as *worker*. A person who had been offered work but had not actually joined was to be treated as *non-worker*. Work included not only actual work but effective supervision and direction of work. Undertrial prisoners enumerated in a jail or persons temporarily in hospitals and similar institutions were also treated as workers and the work which they were doing before apprehension or admission in hospital or institution was recorded as their work. The persons under training as apprentices with or without stipend or wages were also treated as workers.

5 *Question* 12—*Activity, if not working*—The question applied to persons NOT working and for them in answer to this question the activity of those persons was recorded. Non- workers were divided into 8 activity classes the detsils of which are given in Part II B. The number of Non-workers had been shown in the last two Cols. of the Table.

6 (*i*) No such table was prepared in any of the previous Censuses. However, in Censuses prior to 1941 statistics were published dealing with the Literacy and Occupations of selected Castes, Tribes or Races and some of these tables contain information about a few of those Castes or Tribes which are included in the present lists of Scheduled Castes and Scheduled Tribes. The Tables regarding occupations are—

1901—Table XVI	..	Selected Castes by traditional and actual occupations
1911—Table XVI	..	Occupation by selected Castes, Tribes or Races
1921—Table XXI	..	Part A—Occupations of selected Castes, Tribes or Races Part B—Distribution of Workers
1931—Table XI	..	Occupation by Caste, Tribe or Race

(*ii*) The Tables regarding literacy were Table IX of the 1901, 1911 and 1921 Censuses and Table XIV of the 1931 Census.

7 There are 9 categories into which the workers in this Table have been divided. These are—

I As Cultivator;

II As Agricultural Labourer;

III In Mining, Quarrying, Livestock, Forestry, Fishing, Hunting and Plantations, Orchards and allied activities;

IV At Household Industry;

V In Manufacture other than Household Industry;

VI In construction;

VII In Trade and Commerce;

VIII In Transport, Storage and Commnications; and

IX Other Services.

As far as categories I, II and IV are concerned these were separate questions in the Census questionnaire and, therefore, they were classified according to the answers returned in the enumeration slips. In case of other industries, trade, business, commerce, professions, services, etc. detailed descriptions of the nature of industries were recorded and these have had to be classified in different 'Industrial Categories, *i. e.* categories III and V to IX. For this purpose entries in the enumeration slips were coded according to the three digit code of "Standard Industrial Classification" adopted for the purpose. According to this classification all industries were divided into 343 Minor Groups grouped into 45 Major Groups and 9 Divisions. Each of the six Industrial Categories given above includes the following categories of workers—

Industrial Category		Work Included in the Category
III	1	Production of crops (including vegetables) not included in cultivation
	2	Plantation Crops
	3	Forestary and Logging
	4	Fishing
	5	Livestock and Hunting
	6	Mining and Quarrying
V		Manufacturing of Foodstuffs: Beverages; Tobacco products; Textile (Cotton, Jute, Wool, Silk and Miscellaneous);Wood and wooden products; Paper and paper products; Printing and Publishing; Leather and leather products; Rubber, Petroleum and Coal products; Chemicals and Chemical products; Non-metalic mineral products other than petroleum and coal; Basic Metals and their products (except machinery and transport equipment);Machinery (all kinds other than transport) and Electrical equipment; Transport equipment and Miscellaneous manufacturing industries.
VI		Construction and maintenance of Buildings, Roads, Railways, Bridges, Tunnels, Telegraph and Telephone lines, Waterways and Water reservoirs.
VII		Wholesale and Retail trade and other Trade and Commerce.
VIII		Transport by Railways, Tramways, Bus service, motor vehicles, hackney carriages, bullock cart, ekka, animals, man, boat, steamer, ferry, ship, cargo boat, air, and other means not covered above and services incidental to transport such as packing, carting, travel agency.
IX		Electricity, Gas, Water supply and Sanitary Services; Public services; Educational and Scientific services; Medical and Health services; Religious and Welfare Services; Legal services;Business services; Community Services and Trade and Labour Associations; Recreation services; Personal services; services not elsewhere classified and activities not adequately described

8 This is only a general table about Scheduled Castes and Scheduled Tribes and gives only limited statistics for all the Scheduled Castes and Scheduled Tribes combined. There are many other Tables which have been prepared for individual Scheduled Castes and Scheduled Tribes and are being published in a separate Volume together with a Report on them. This volume forms Part VA of the Census series of publications and is entitled Report and Tables on Scheduled Castes and Scheduled Tribes.

9 The two Tables given below show the percentage of Scheduled Castes and Scheduled Tribes population in the State, Divisions and Districts as well as the distribution of 1,000 persons of all Scheduled Castes and Scheduled Tribes by (1) Sex and Literacy and (2) Categories of Workers and Non-Workers.

Table 1-Proportion of Scheduled Castes and Scheduled Tribes population to total Population of each District

State/Division/District	Proportion per 1,000 of	
	Scheduled Castes	Scheduled Tribes
