PREFACE

The data presented in this publication are based on answers to questions 16 and 17 of the individual slip canvassed by the field staff during the 1971 Census Operations. The information gathered from the field, after careful scrutiny, was sorted and coded to yield 9 main tables—B-I to B-IX—with their relevant parts and appendices. For facility of reference, each table is preceded by a fly-leaf giving the brief idea about the type of data presented in it. Instructions issued to enumerators for recording the answers against the economic questions have been reproduced in an Annexure.

One of the salient features of the 1971 Census was the introduction of mechanical processing of data most of which was compiled on the electronic computer. While in the case of major States, the tabulation was done on the basis of 20% sample in the case of urban areas and 10% sample in rural areas, the data was tabulated on 100% basis in the case of Jammu & Kashmir and few other small States. Further, in the case of Jammu & Kashmir State, the rural data was processed manually and the urban data mechanically. The urban data was first transferred on to punch cards in our Coding & Punching Cell and, thereafter, tables generated on a computer at the Registrar General's Office at New Delhi.

I am grateful to Shri K. K. Chakravorty, Assistant Registrar General, India (C & T) and his staff for taking keen interest in scrutinizing the tables presented in this publication. I am also thankful to Shri S. C. Sharma, Assistant Registrar General, Data Processing Division, under whose guidance the urban tables were prepared on the electronic computer.

I wish to record my appreciation of the excellent work done by Shri C. L. Chehra, Investigator, in organising the Central Tabulation Unit set up for the 1971 Census, on sound lines. Shri Abdul Jabar, Tabulation Officer, who was looking after the section took lot of pains in compiling and checking the tables. The assistance rendered by other members of the staff has been acknowledged separately.

ANNEXURE

RELEVANT QUESTIONS AND INSTRUCTIONS TO ENUMERATORS

ECONOMIC QUESTIONS

QUESTION 16—MAIN ACTIVITY

Every person will be asked what his main activity is, that is, how he engages himself mostly. For the purpose of this question, all persons will get themselves divided into two broad streams of main activity, namely, (1) as workers and (2) as non-workers according as the type of main activity that the person returns himself as engaged in mostly.

Worker defined : A 'worker' is a person whose main activity is participation in any economically productive work by his physical or mental activity. Work involves not only actual work but effective supervision and direction of work.

Reference priod : The reference period is one week prior to the date of enumeration in the case of regular work in trade, profession, service or business. If a person had participated in any such regular work on any one of the days during this reference period and this has been returned as his main activity, the person will be categorised accordingly. A person who normally works but had been absent from work during this reference period on account of illness or travel, holiday, temporary breakdown, strike etc., the person should be treated as engaged in regular work in which he would have otherwise been employed but for his temporary absence. Persons under training such as apprentices with or without stipends or wages should be considered as economically active and recorded as working. A person who has merely been offered work but has not actually joined it, is not to be treated as engaged in work.

There are certain types of works which are not carried on throughout the year such as cultivation, livestock keeping, plantation work, some types of household industry, etc. A person's main activity should be ascertained with reference to such work in the last one year even if he was not economically active in the week prior to enumeration. It is likely that even when a person is engaged in some other work during, the period of one week prior to the date of enumeration, the main activity of the person may be cultivation, agricultural labour or some other work attended to normally by him in the course of the year. Care must be taken to see that the main activity is properly ascertained in such cases. For example, a person's main activity may be agricultural labour and in the week prior to enumeration he may be engaged as a sugarcane factory labourer or as a road cooly. He should be categorised for his main activity as agricultural labourer only as returned by him as he engages himself mostly in that work and the other work should be treated as his subsidiary work.

A man or woman who is engaged primarily in household duties such as cooking for own household or performing one's own household duties or a boy or a girl who is primarily a student attending institution, even if such a person helps in the family economic activity but not as a full time worker should not be treated as a worker for the main activity. On the other hand, if a person is primarily engaged in some economic activity but at the same time does also attend to some household chores or attends a night school etc., he or she should be treated basically as a worker for the main activity and categorised accordingly.

A person who merely receives an income such as a rent receiver or a pensioner who does not have to work for receiving the income, will not be treated as economically active unless the person is also engaged in some economic activity and if that activity is returned as the main activity of the individual.

QUESTION 16 (a) BROAD CATEGORY (i) WORKER (C, AL, HHI, OW) (ii) NON-WORKER (H, ST, R, D, B, I, O)

The main activity returned by the person will entitle him to be categorised either as a worker in 16(a)(i) or as a non-worker under 16(a)(ii).

QUESTION 16(a)(i) WORKER (C, AL, HHI, OW)

Where the main activity of a person qualifies him to be treated as a worker he should be further categorised according to the type of work and one of the appropriate abbreviations indicated against this question should be entered in the box provided for the purpose. If the person is not engaged in any economic activity an 'X' should be noted in the box. The abbreviations to be used for workers are explained below :—

C : CULTIVATOR

For a person who returns his main activity as working as a cultivator, the abbreviation 'C' should be used.

Definition of cultivator : For purposes of the Census a person is working as cultivator if he or she is engaged in cultivation by one self or by supervision or direction in one's capacity as the owner or lessee of land held from Govt. or as a tenant of land held from private persons or institutions for payment of money, kind or share.

Cultivation involves ploughing, sowing and harvesting and production of cereals and millet crops and does not include fruit growing, vegetable—growing or keeping orchards or groves for working of plantations like tea, coffee, rubber, cinchona and other medical plantations.

A person who merely owns land but has given out land to another person or persons for cultivation for money, kind or share of crop and who does not even supervise or direct cultivation of land, will not be treated as working as cultivator. Similarly, a person working in another person's land for wages in cash, kind or share (agricultural labourer) will not be treated as cultivator in this question.

AL : AGRICULTURAL LABOURER

A person who returns his main activity as engaged as agricultural labourer, the abbreviation 'AL' should be used in the box.

Definition of an agricultural labourer : A person who works in another person's land for wages in money, kind or share should be regarded as an agricultural labourer. He has no risk in the cultivation but he merely works in another person's land for wages. The labourer could have no right of lease or contract on land on which he works.

H.H.I. : HOUSEHOLD INDUSTRY

For a person who returns his main activity as engaged in some production, processing, servicing or repair of articles of goods such as, say, handloom weaving,dyeing, carpentry, bidi rolling, pottery manufacture, bicycle repairing, blacksmithy, tailoring etc., it has to be ascertained if it is a household industry, and if so, it should be indicated by the abbreviation 'HHI' in the box.

The definition of a household industry will be given in detail in the fly-leaf to Table B-IV, Part A.

OW : OTHER WORKERS

If a person gives his main activity as engaged in any other work which is not cultivation, agricultural labour or household industry, this may be indicated by merely noting 'OW' in the box. The type of workers that may come under the 'Other Workers' category are factory workers, those working in trade or transport, all Government servants, municipal employees, teachers, mining workers, political or social workers, building labourers etc. etc. In effect, all types of economic activity not covered by cultivation, agricultural labour or household industry will come under this residual category. Workers engaged in plantation or forestry should not be treated as cultivators or agricultural labourers but as 'Other Workers'.

QUESTION 16(a) (ii) NON-WORKER (H, ST, R, D, B, I, O)

While question 16(a)(i) helps to broadly categorise all those who have returned some work as their main activity, 16(a)(ii) will help to categorise those whose main activity is not engaged in any economically productive work, but are basically non-workers. These have been categorised under the following seven broad heads :—

H : HOUSEHOLD DUTIES

This covers all those persons basically engaged in unpaid home duties doing no other work or even if such a person may also be participating in some other work, it is not to the same extent as a whole-time worker and if the person has returned his or her main activity as attending to household duties. The main activity of such a person should be entered as 'H'. If a person whose main activity is attending to household duties, also engaged oneself in some other economic activity such as, helping in family cultivation or preparing cowdung cakes at odd times for sale etc., that economic activity will be covered as secondary work under question 17.

ST : STUDENT

This refers to those whose main activity is returned as a student. This will cover all fulltime students or children attending school. Even if such persons participated in some work but not to the same extent as a full-time worker, by merely helping casually as an unpaid family worker in family cultivation, household industry, trade or business, they should be treated primarily as students, if that is their main activity. 'ST' should be entered in the box. The other economic activity, if any, that such persons attend to will be reflected under question 17 as secondary work.

R : RETIRED, RENTIER & PERSONS OF INDEPENDENT MEANS

A person who has retired from service and is doing no other work, i.e. not employed again in some full time work or does not engage himself in some other work as cultivation, in business, trade, etc., or a person who is a rentier or living on agricultural or non-agricultural royalty, rent or dividend, or any other person of independent means for securing which he does not have to work, will come under this category. 'R' should be noted in the box for a person coming under this category.

D : DEPENDENTS AND INFANTS

This category will include all dependents such as infants or children not attending school or a person permanently disabled from work because of illness or old age. If a girl or an old woman attends to household duties she should be categorised under 'H' for her main activity rather than 'D'.

Dependents will include all non-workers even if able bodied who have no other activity coming under any of the categories of non-workers and who are not seeking any work either but are purely dependent.

B : BEGGARS, VAGRANTS ETC.

This will cover beggars, vagrants or such cases as independent women without indication of source of income and those of unspecified sources of subsistence and who are not engaged in any economically productive work.

I : INMATES OF PENAL, MENTAL & CHARITABLE INSTITUTIONS

This will cover convicts in jails or inmates of a penal, mental or charitable institutions, even if such persons are compelled to do some work such as, carpentry, carpet weaving, vegetable growing etc., in such institutions. An under-trial prisoner in a jail should not, however, be brought under this category but has to be indicated according to the main activity he was engaged in before he was apprehended. Inmates of such institutions will be noted as 'I'.

O : OTHER NON-WORKERS

This will include all non-workers who may not come under any of the six categories above but are seeking work, they should be noted as 'O' in the box. A boy or girl who has completed education or has stopped studying and is seeking work, will come under this category. If a person is merely spending his time at home as a dependent and is not doing any work and is not seeking any work will come under 'D' rather than 'O'. A person irrespective of age and whether educated or not, if he reports that he is not engaged in any other activity but is seeking work will come under this category.

QUESTION 16(b) to 16 (f)

These sub-parts of question 16 will have to be filled only to describe the details of the household industry or other work indicated against question 16(a)(i). If the main activity has been shown as 'C' or 'AL' against 16(a)(i), there is no need to give the details of the cultivation or agricultural labour in these sub-sections. Similarly, if the main activity of an individual has been returned as a non-worker against 16(a)(ii), sub-sections (b) to (f) will not apply and a 'X' may be put right across all these questions.

QUESTION 16(b) : PLACE OF WORK (Name of village/town)

Ascertain from each person who is already taken as a worker other than in cultivation or agricultural labour *i.e.* question 16(a)(i) has been answered as HHI or OW, the village or town where he or she works. If the place of work is the same as the village or town of enumeration write 'PL'. In all other cases you should write the name of the place fully. If a person has no fixed place of work such as, say, a travelling vendor of vegetables or a pedlar or a rickshaw puller who may go from one village or town to another, note 'No fixed place of work'. If he works in one particular town or village that should be noted.

QUESTION 16(c) : NAME OF ESTABLISHMENT

Record here the exact name of the factory, firm, workshop, business house, company, shop, office, etc., and in respect of public offices you should clearly indicate whether they are Central or State Government or Local Body offices etc. If the establishment does not have any definite name such as, say, in the case of a household industry like hand pounding of rice, gur making, bee keeping, handloom weaving, potter's house, blacksmithy, etc., note 'No particular name'.

QUESTION 16 (d) : NATURE OF INDUSTRY, TRADE, PROFESSION OR SERVICE

The answer to this question will have to be adequately precise to enable proper classification of the sector of economy in which the person is working. The sector of economy in which a person works may relate to (i) Plantation, Forestry, Fishing, Livestock etc., (ii) Mining and/or quarrying (iii) Manufacturing (iv) Construction (v) Electricity , Gas or Water Supply (vi) Transport and Communications (vii) Trade and Commerce (viii) Professions and Services. Full details of the type of industry, trade-profession or service in which the person is engaged will have to be recorded here.

QUESTION 16(e) : DESCRIPTION OF WORK

Under this question, the description of the actual work that the person enumerated is doing is to be recorded irrespective of which type of industry, trade, profession or service he may be working and which is already recorded under question 16(d). His actual work should also be given in sufficient detail. If for example a person is merely recorded as say, clerk with no other details, it will be impossible to properly categorise him as to the type of work he does. He may be a clerk attending to correspondence or book keeping or accounting. Similarly, if a person were merely to be recorded as a mechanic, it will not help to determine what type of mechanic—electrical mechanic, or a motor mechanic or a locomotive mechanic, etc., he is. The description of the actual work done by a person should be ascertained in adequate detail and recorded against this question.

For those in Military service it is enough if it is merely noted as in the service of the 'Central Government'. Other details need not be given.

QUESTION 16(f) : CLASS OF WORKER

For a person who is :

(i) an Employer, that is, who hires one or more persons in his work described in question 16(e), write....ER

(ii) an Employee, that is, who does his work described in question 16(e) under others for wages or salary in cash or kind, write.....EE

(iii) a Single Worker, that is, who is doing his work described in question 16(e) without employing others except casually, and without the help of other members of the family except casually and a participant in work as members of Co-operatives write.....SW

(iv) a Family Worker, that is, who is doing his work described in question 16(e) in a family enterprise along with other members of the family without wages or salary in cash or kind, write....FW

For a person for whom an 'X' is put in questions 16(d) and 16(e) put an 'X' in this question also.

Definition of each class of worker will be found in the fly-leaf to Table B-IV Part C.

QUESTION 17 : SECONDARY WORK

This question should be asked of every person whether he has returned some work as his main activity against 16(a)(i) or had returned himself under any of the basically non-working categories against question 16(a)(ii). As stated earlier, 16(a)(ii) will cover cases like persons performing household duties or students who may not be engaged in any other economically productive work at all, as also those who, though basically are performing household duties or students etc., for the purpose of their main activity, still participated in some other economic activity, such as, helping the household in several items of work, as in cultivation or in household industry or in looking after the cattle, in attending to family business etc. but not to the extent as a full-time worken Such participation will be considered as secondary work of these persons.

Ask of each person if, besides what he had already returned as his/her main activity against question 16(a)(i) or 16(a)(ii), he/she participated in any secondary work. A number of unpaid family workers participating in the household enterprises, who might have returned themselves mainly as 'H' or 'ST' or 'R' under question 16(a)(ii) for their main activity will be netted here for their economic activity which is subsidiary. Mere rendering of service for ones own home or production of goods for purely domestic consumption are not to be treated as economic activity. Secondary work will be reckoned only if the person is engaged in some economic activity even if marginal in addition to whatever is the main activity under question 16.

The instructions for the usage of abbreviations in categorising workers under 16(a)(i) and filling in the details under 16(b) to (f) will apply *mutatis mutandis* to question 17(a) to (f), except that while question 16(a)(i) will cover the main work, question 17(a) is intended to cover secondary work which may be possibly part-time. It may also be noted that the non-working categories of activity will not be reported as secondary work under question 17.

TABLE B-I PART A
WORKERS AND NON-WORKERS ACCORDING TO MAIN ACTIVITY
CLASSIFIED BY SEX AND AGE GROUPS

B-I PART A WORKERS AND NON-WORKERS ACCORDING TO MAIN ACTIVITY CLASSIFIED BY SEX AND AGE-GROUPS

Fly-leaf

This is the basic economic table comparable to Table B-I of 1961 Census. It presents in a summarised form the Primary Census Abstract which appears upto tehsil/town level in Part II-A-General Population Tables and down to Village/block level in the respective District Census Handbooks.

The table classifies the entire population into two broad classes of 'Workers' and 'Non-workers' and further gives their break up by sex for total, rural and urban areas upto district level. Workers have been further classified into the following 9 industrial categories :—

I. Cultivators;

II. Agricultural labourers ;

III. Livestock, forestry, fishing, hunting and plantations, orchards and allied activities ;

IV. Mining and quarrying ;

V. Manufacturing, processing, servicing and repairs :—
   (a) Household industry
   (b) Other than household industry

VI. Construction ;

VII. Trade and commerce ;

VIII. Transport, storage & communications ; and

IX. Other services

It will be noted that the distribution of population into non-workers and various categories of workers has been cross-classified by the following 8 age-groups :—

1. 0—14 years
2. 15—19 years
3. 20—24 years
4. 25—29 years
5. 30—39 years
6. 40—49 years
7. 50—59 years
8. 60+ years

In Table B-I of 1961 Census, the distribution of population had been cross-classified by four age-groups only; namely, 0—14, 15—34, 35—59 and 60+. As a result of splitting of the two age-groups 15—34 and 35—59 into six in 1971 Census the demographers and research scholars shall find this table of special significance.

The table gives the data separately for total, rural and urban areas for the State as a whole. As in the case of Table B-I, Part-A, the female workers have been further divided into 9 livelihood classes cross-classified by eight age-groups, based on the classification of industries under which their work falls. The table also gives the data by the following marital status :—

1. Never Married,
2. Married,
3. Widowed,
4. Divorced or Separated, and
5. Unspecified status.

The data given in this table is of special interest as it provides a useful reflection on the participation of female workers in various sectors of our economy.

TABLE B-II

WORKERS AND NON-WORKERS IN CITIES AND NON-CITY URBAN AREAS ACCORDING TO MAIN ACTIVITY CLASSIFIED BY SEX AND AGE-GROUPS

B-II WORKERS AND NON-WORKERS IN CITIES AND NON-CITY URBAN AREAS ACCORDING TO MAIN ACTIVITY BY SEX AND AGE-GROUPS

Fly-leaf

The table is similar to Table B-I, Part A with the difference that it is confined to the presentation of data for cities and non-city urban areas only. It gives detailed information regarding the distribution of workers by industrial categories as also the number of workers and non-workers by sex and broad age-groups. Further, data have been presented in the table for individual towns/cities/city urban agglomeration/non-city urban of the district concerned.

It will be seen from the table that with the exception of Srinagar and Jammu, the age-group wise figures appearing against districts are the same as those given against 'non-city urban'. This is due to the fact that in the absence of any city in other districts of the State, same figures appear against 'non-city urban' and 'district urban'.

The definition of workers and non-workers adopted at the 1971 Census has been reproduced in Annexure appearing at the beginning of this publication. As regards the definition of an urban area, it was at the 1961 Census that a standard definition of what constitutes an urban unit was evolved. Under this definition, adopted for the 1971 Census also, places with the following characteristics were to be recognised as urban areas :—

(*a*) All places with a Municipality, Corporation or Cantonment or Notified town area irrespective of their population or other characteristics;

(*b*) All other places which satisfied the following three tests :—

(*i*) A minimum population of 5,000;

(*ii*) At least 75 per cent of the male working population as non-agriculturists; and

(*iii*) A density of population of 400 per sq. km. (i.e. 1,000 per sq. mile).

One of the innovations attempted in 1971 Census is the concept of Urban Agglomeration and is an improvement over the Town Group concept of 1961. The Urban Agglomeration which replaces the Town Group concept is a new definition and has been adopted in the present census for the purpose of over-all sizes classification and analysis of the urban data. The Urban Agglomeration is a continuous urban spread constituted of a core town and its adjoining urban out-growths or two or more physically contiguous towns together with continuous well-recognised urban out-growths, if any, of such towns. Under this definition, two Urban Agglomerations, viz; Srinagar Urban Agglomeration (Srinagar-district) and Jammu Urban Agglomeration (Jammu district) were formed in Jammu & Kashmir State.

Table B-III, PART A

CLASSIFICATION OF WORKERS AND NON-WORKERS ACCORDING TO MAIN ACTIVITY BY EDUCATIONAL LEVELS IN URBAN AREAS ONLY

B-III, Part A CLASSIFICATION OF WORKERS AND NON-WORKERS ACCORDING TO MAIN ACTIVITY BY EDUCATIONAL LEVELS IN URBAN AREAS ONLY

Fly-leaf

As in 1961 Census, table B-III has been split into two parts at the 1971 Census. Part A deals with the urban sector and part B with the rural areas. In both cases, the data have been presented upto district level. The table gives the distribution of sex-wise population classified by nine broad industrial categories of workers and non-workers cross-classified by the following educational levels :—

1. Literate (without educational level)
2. Primary
3. Middle
4. Matriculation or higher secondary
5. Non-technical diploma or certificate not equal to degree
6. Technical diploma or certificate not equal to degree
7. Graduate degree other than technical degree
8. Post-graduate degree other than technical degree
9. Technical degree or diploma equal to degree or post-graduate degree

The last category has further been sub-divided into those holding degrees or diplomas in (i) engineering and technology, (ii) medicine, (iii) agriculture, veterinary and dairying, (iv) teachings and (v) others.

The various diplomas falling under 5th and 6th categories: viz, (i) non-technical diploma or certificate not equal to degree and (ii) technical diploma or certificate not equal to degree broadly cover the following:—

Non-technical diplomas or certificate not equal to degree

Rattan, Bhushan, Prabhakar, Budhiman, Vidwan, Giani, Adib, Adib-Alam, Adib-Fazal, Prajana, Munshi, Munshi-Alam, Munshi-Fazal, Maulvi, Maulvi-Alam, Maulvi-Fazal, Diploma in French, Proficiency in oriental languages (Sanskrit, Persian, Arabic, Urdu, Hindi, Punjabi), Visual and graphic arts, Acting, Music, dancing, sewing, art, embroidery, domestic science, statistics (except S.I. diploma equivalent to a post-graduate degree), Diploma in Library science.

Technical diploma or certificate not equal to degree:

Diploma in :

(a) Engineering	Aeronautical engineering, Automobile engineering, Chemical engineering, Civil engineering, draughtsman, Overseers, Surveyors, Computors etc. Electrical engineering, Mechanical engineering, Metallurgical engineering, Mining engineering, Telecommunication/Radio and communication engineering, Architecture, Electronics, Textile, Costume design, Dress making, Cinematography and sound engineering.
(b) Medical	Human medicine/Surgery, Nursing, Ayurvedic, Unani and other systems of medicine, Dispensing, Midwifery, Pharmacy and dressers course, L.M.P., L.M.F.
(c) Technology	Glass & Ceramic technology, Leather technology, Wireless technology, Textile technology, Printing, Food, Fisheries, Forestry, Dental technology, X-Ray technology, Laboratory technology, Pulp and Paper technology, Handloom technology, Fuel technology.
(d) Animal husbandary. Livestock	Veterinary and dairying.

It will be useful for purpose of fully appreciating the utility of data given in this table to touch briefly the concept of 'literacy' adopted at the 1971 Census. The instructions issued to enumerators in this behalf are given below :—

"Literacy:—A person who can both read and write with understanding in any language is to be taken as literate. A person who can merely read but can not write is not a literate. It is not necessary that a person who is literate should have received any formal education or should have passed any minimum educational standard."

"For a person who is literate; viz., who can both read and write, record 'L' in the triangle against question 12 of the individual slip. For a person who is illiterate; i.e., who can neither read nor write or can merely read but cannot write in any language write 'O'. All children of the age of 4 years or less should be treated as illiterate even if the child is going to school and may have picked up reading and writing a few odd words."

"Educational level:—This question is not to be asked in respect of those for whom 'O' is recorded against question 12 (literacy). For others the highest educational level attained by a person is to be recorded. When a person holds both general and technical qualifications both of which are of equivalent level the technical qualification should be given preference in recording the highest educational level attained."

"Whenever you come across graduates or post-graduates as also those with a technical degree or diploma, you will have to issue him a 'Degree-holder and Technical Personnel Card' and ask the person concerned to fill it."

The main object of the table is to reflect the incidence of literacy among workers engaged in activities falling under each of the nine industrial categories as also non-workers. The data given in the table will be of significance for assessment of the educational standards of available man-power.

TABLE B-IV, PART A

INDUSTRIAL CLASSIFICATION OF PERSONS AT WORK OTHER THAN CULTIVATION AS MAIN ACTIVITY BY SEX AND DIVISIONS, MAJOR GROUPS AND MINOR GROUPS

B-IV PART A INDUSTRIAL CLASSIFICATION OF PERSONS AT WORK OTHER THAN CULTIVATION AS MAIN ACTIVITY BY SEX AND DIVISIONS, MAJOR GROUPS AND MINOR GROUPS

(Fly-leaf)

Table B-IV, Part A present the distribution of workers other than cultivators by divisions, major groups and minor groups of the National Industrial Classification, 1970 (N.I.C., 1970) reproduced towards the end of this fly-leaf. The Industrial Classification groups together economic activities which are akin in terms of the process adopted, raw materials used and the finished products made. The basis of classification is the nature of economic activity carried on in an establishment. Thus the National Industrial Classification, 1970 which consists of 10 Divisions (at the first digit level) 66 Major groups (at the second digit level) and 386 Minor groups (at the third digit level) covers the entire economic activity.

The data has been presented upto the district level for 'all areas' and 'urban areas' only.

The table has been supplemented with an appendix giving the classification of workers engaged in manufacturing, processing servicing and repairs by household industry and non-household industry. The appendix gives the same information as Table B-IV, Part C of 1961 Census in so far it relates to the workers engaged in manufacturing, servicing and repairing.

The concept of household industry adopted at the 1971 Census is briefly explained below:—

"A household industry was defined as an industry conducted by the Head of the household himself/herself and or mainly by the members of the household at home or within the village in rural areas and only within the premises of the house where the household lived in urban areas provided further that the industry was not being run on the scale of a registered factory and that it related to production, processing, servicing, repairing or making and selling (but not merely selling) of goods. It did not include professions, such as, a pleader or doctor or barber, musician, dancer, water-man, dhobi, astrologer etc., or merely trade or business even if such professions, trade or services were run at home by members of the household."

This table is a very important economic table as it gives a detailed picture of employment position in various sectors of economy.

NATIONAL INDUSTRIAL CLASSIFICATION, 1970

The National Industrial Classification (N.I.C.) 1970 consists of—

10 Divisions (at the first digit level);

66 Major groups (at the second digit level); and

386 Minor Groups (at the third digit level).

While adopting the N.I.C.—1970, and Office of the Registrar General, India, have made a modification in the classification of 'Repairing' or 'Repair- service' establishments.

In the N.I.C.—1970 'Repair work' has been included in 'Manufacture' in some cases like, Minor Groups :

"351—Manufacture and repair of drills, coal cutting machines, etc., etc.," and

"359—Manufacture and repair of non-electrical machinery etc., etc.".

While in case of the repairing establishments, such as "Repair of Footwear and Leather goods etc., Electrical repair shops, repair of Motor Vehicles and Motor Cycles, etc.," these have been classified under Major Group 97—"Repair Services" and yet another Division 'Y' and Major Group 'YO' as 'Repair Service (if not included under Major Group 97),' has been provided.

It was felt that 'Repairs' should be assigned to 'Manufacturing or processing' activity under Divisions '2 and 3' which incidentally makes for comparability of classification at the 1961 Census. Accordingly a Major Group '39-Repair' has been inserted under Divisions 2 and 3 with the following Minor Groups :

390—Repair of Footwear and other leather goods.

391—Electrical Repair shop.

392—Repair of Motor Vehicles and Motor Cycles.

393—Repair of watch, clock and jewellery.

394—Repair of Bicycles and Cycle-rickshaws.

395—Repair enterprises not elsewhere classified.

The N.I.C.—1970 incorporates some of the major revisions contained in the I.S.I.C. 1969, e.g., transfer of 'Restaurants and Hotels' from 'Services' to 'Trade', clubbing of Banking, Insurance, Real Estate, and Business services, Transfer of veterinary service from Agricultural Services to Medical and Health Services, treating sanitary services among community services etc.

This classification groups the industries into :

TABLE B-IV PART B

INDUSTRIAL CLASSIFICATION OF WORKERS IN MANUFACTURING, PROCESSING, SERVICING AND REPAIRS ON HOUSEHOLD INDUSTRY BASIS AS MAIN ACTIVITY BY SEX AND CLASS OF WORKERS

B-IV Part B INDUSTRIAL CLASSIFICATION OF WORKERS IN MANUFACTURING, PROCESSING, SERVICING AND REPAIRS ON HOUSEHOLD INDUSTRY BASIS AS MAIN ACTIVITY BY SEX AND CLASS OF WORKERS

Fly-leaf

The table gives the sex-wise statistics of workers engaged in household Industry for all areas, rural areas and urban areas The data has been presented for the entire State and not its districts. The scope of the data given in the table being restricted to workers engaged in household industry, major groups 20 to 39 falling under division 2 & 3 of N.I.C., 1970 cover the entire gamit of such manufacturing activity.

Workers at household industry have been classified by their status, viz., Employees and Single Workers which are briefly explained below :—

Employee : "An Employee was defined as a person who usually worked under some other person for salary or wages in cash or kind . It was made clear to the enumerators that there may be persons employed as managers, superintendents, agents, etc, who might in that capacity be employing or controlling other workers on behalf of their own employers. Such persons were to be treated as employees and not employers".

Single Workers : "A Single Worker was defined as a person who worked by himself. He was not employed by any one else and in his turn did not employ anybody else, not even members of his household except casually. This definition of a single worker included a person who worked in joint partnership with one or several persons hiring no employees and also a member of a producer's cooperative. Each one of the partners or members of such producer's co-operatives were recorded as 'Single Worker'".

The table broadly corresponds to Table B-IV, Part A of 1961 Census. The difference between the two is that in 1971, this table provides data for two classes of workers; namely, employees and single workers. The number of family workers is not presented in this table but can be derived by subtracting total of columns 5, 6, 7 and 8 from the total of columns 3 & 4.

CLASSIFICATION OF WORKERS IN NON-HOUSEHOLD INDUSTRY, TRADE, BUSINESS, PROFESSION OR SERVICE AS MAIN ACTIVITY BY CLASS OF WORKERS, AGE AND SEX

B-IV, Part C CLASSIFICATION OF WORKERS IN NON-HOUSEHOLD INDUSTRY, TRADE, BUSINESS, PROFESSION OR SERVICE AS MAIN ACTIVITY BY CLASS OF WORKERS, AGE AND SEX

(Fly-leaf)

Table B-IV, Part C is an innovation of 1971 Census and gives the age composition of each class of workers engaged in activities in non-household industries, trade, business, professions or services. These are represented by industrial categories III to IX except V-a. The table has been prepared for all areas and urban areas of the State as a whole and not its districts. The age-groups adopted in this table are 0-14, 15-19, 20-24, 25-29, 30-39, 40-49, 50-59 and 60+. Figures shown in columns 4, 5 and 6 of the table relate to total population of the State and correspond to those given in Table B-I, Part A.

Workers other than those engaged in categories I (cultivators), II (agricultural labourers) and V (a) (household industry) shown in the table have been classed as employers, employees, single workers and family workers. Whereas the concepts of 'employee' and 'single worker' have already been explained in fly-leaf to Table B-IV, Part B, a brief description of the concepts of 'employer' and 'family worker' is given below :—

Employer : "An Employer was defined as a person who had to employ other persons in order to perform the work entered in question 16(e) of his individual slip. Such a person was not only responsible for his own personal work but also giving work to others in business mentioned in question 16(e). A person who employed domestic servants for household duties or had subordinates under him in an office where he was employed by others was not treated as an employer, even if he had the power to employ another person in his office on behalf of his own employer or employers".

Family Worker: "A person who Worked without receiving wages in cash or kind in an industry, business, trade or service conducted mainly by the members of the family was treated as family worker. For the purpose of this definition it was explained to the enumerators that members of a family might be drawn from beyond the limits of Household by ties of blood or marriage. Further that a family worker might not be entitled to a share of the profits in the work of the business carried on either by the persons or Head of the Household or other relatives. Such of the members of the household who helped solely in household duties were not treated as family workers".

TABLE B-V, PART A

OCCUPATIONAL CLASSIFICATION BY SEX OF PERSONS AT WORK ACCORDING TO MAIN ACTIVITY OTHER THAN CULTIVATION

B-V Part A OCCUPATIONAL CLASSIFICATION BY SEX OF PERSONS AT WORK ACCORDING TO MAIN ACTIVITY OTHER THAN CULTIVATION

Table B-V, Part A which corresponds to Table B-V of 1961 Census gives the occupational distribution of workers who are engaged in non-agricultural occupations cross-classified by industrial categories. The table gives this data sex-wise separately for 'all areas' and 'urban areas' of the State.

The occupational classification based on National Classification of occupations (N.C.O., 1968) under 'Division' 'Group' and 'Family' is reproduced at the end of this fly leaf.

The term 'occupation' adopted at the censuses prior to 1961 implied means of subsistence or livelihood. In 1961, however, a precise connotation was assigned to this term by making the 'function' or 'exact work' which a person performed in any branch of economic activity as the basis of occupational classification.

Following are the main changes introduced in the National Classification of Occupations adopted at the 1971 Census:—

(i) **Revision of Divisions :** In line with the basic criterion of 'type of work performed', two former Divisions, viz; Miners, Quarrymen and Related Workers (N.C.O., 1958, Division 5) and Workers in Transport and Communication occupations (N.C.O., 1958 Division 6) no longer appear as distinct Divisions, since these simulated an industrial classification.

Division 0-1 to 4 classify "white collar" and mainly non-manual occupations : and Divisions 5, 6, 7, 8, 9 manual workers : freshers come under Division X. The Classification starts with high-level professional manpower, going on to managerial and skilled workers etc. and ends with labourers and "freshers".

Consequently, the following 8 Divisions emerge in the new classification :—

0–1	Professional, Technical and Related Workers
2	Administrative, Executive and Managerial Workers
3	Clerical and Related Workers
4	Sales Workers
5	Service Workers
6	Farmers, Fishermen, Hunters, Loggers and Related Workers
7–8–9	Production and Related Workers, Transport Equipment Operators and Labourers
X	Workers not classified by occupations

(ii) **Revision of Groups :** In a number of cases certain occupational Families included in N.C.O., 1958 have been upgraded as Groups either singly or as combinations of two or more Families. Further more, several new Groups have also been created. Also, two or more Groups of N.C.O., 1958 have been combined in several cases to form a new Group. Groups have also been formulated and re-arranged in the new Division 7-8-9 consistent with the flow of production, the level of technology, type of work performed and equipment and materials used.

(iii) **Revision of Families :** To identify Technicians in the professional groups of workers, new Families have been provided. Again, to facilitate the reporting, classification and analysis of statistical data relating to population census in India, a more detailed distribution of Families as sub-divisions of Groups was considered desirable. Therefore, a number of new Families have been provided—in a few cases, former Families of N.C.O., 1958, two or more, have been combined and a few Families deleted.

(iv) **Effect of change :** In the N.C.O., 1968 there are 8 Divisions, 95 Groups and 462 Families as against 11 Divisons, 75 Groups and 331 Families of the old N.C.O., 1958. The main increases are in Division 0-1 and 7-8-9, which together account for 49 Groups and 303 Families.

TABLE B-V, PART B

OCCUPATIONAL CLASSIFICATION BY SEX AND CLASS OF WORKERS IN NON-HOUSEHOLD INDUSTRY, TRADE, BUSINESS, PROFESSION OR SERVICE AS MAIN ACTIVITY

B-V Part-B—OCCUPATIONAL CLASSIFICATION BY SEX AND CLASS OF WORKERS IN NON-HOUSEHOLD INDUSTRY, TRADE, BUSINESS, PROFESSION OR SERVICE AS MAIN ACTIVITY

Fly-leaf

Table B-V, Part B gives the distribution of workers engaged in non-household industry, trade, business, profession or service as main activity by Divisions and Groups of National Classification of Occupations (N.C.O. 1968) further classified into different classes of workers, i.e., employers, employees, single workers and family workers. These concepts have already been explained in the fly-leaf to Table B-IV, Parts B & C. Data have been presented in the table sex-wise separately for 'all areas' and 'urban areas of the State.

TABLE B —VI

OCCUPATIONAL CLASSIFICATION OF PERSONS AT WORK ACCORDING TO MAIN ACTIVITY OTHER THAN CULTIVATION CLASSIFIED BY SEX

OCCUPATIONAL CLASSIFICATION OF PERSONS AT WORK ACCORDING TO MAIN ACTIVITY OTHER THAN CULTIVATION CLASSIFIED BY SEX

(Fly-leaf to Table B-VI, Part-A (i) & (ii) and Part-B (i) & (ii))

Table B-VI has two main parts, viz; part A & part B. Each part has been divided into two sub-parts; viz. Part A(i) & Part A(ii) which furnish data for urban areas only while Part B(i) & Part B(ii)) give the data for rural arears.

Since 1961 Census economic data have been tabulated separately by 'industrial' and 'Occupational' Classifications in respect of workers other than those engaged in cultivation (Category I) or employed as agricultural labourers (Category II). The term 'Industry' denotes the sector of economic activity in which the worker is engaged; while 'Occupation' connotes the exact function or work that an individual performs in that sector.

B-VI, PART A(i) : OCCUPATIONAL CLASSIFICATION OF PERSONS AT WORK ACCORDING TO MAIN ACTIVITY OTHER THAN CULTIVATION CLASSIFIED BY SEX AND AGE-GROUPS IN URBAN AREAS ONLY

The table has been prepared by sex for urban areas under 'Divisions' and 'Groups' of National classification of Occupation for the State, its provinces and districts. The population under each Division and Group of National Classification of Occupation has been classified into eight age-groups; 0–14, 15–19, 20–24, 25–29, 30–39, 40–49, 50–59 and 60+ which have special significance with reference to the capacity to work. For ready reference, the Occupational Divisions of the N.C.O. are given below :

Division	Description
0–1	Professional, Technical and Related Workers
2	Administrative, Executive and Managerial Workers
3	Clerical and Related Workers
4	Sales Workers
5	Service Workers
6	Farmers, Fishermen, Hunters, Loggers and Related Workers
7–8–9	Production and Related Workers, Transport Equipment Operators and Labourers
X	Workers not classified by Occupations.

B-VI, PART A(ii) : OCCUPATIONAL CLASSIFICATION OF PERSONS AT WORK ACCORDING TO MAIN ACTIVITY OTHER THAN CULTIVATION CLASSIFIED BY SEX AND EDUCATIONAL LEVELS IN URABN AREAS ONLY

Table B-VI, Part A(ii) has also been prepared for the urban areas only under 'Divisions' and 'Groups' of National Classification of Occupations. The table gives data about literate workers engaged in various occupations except cultivation, distributing them according to sex and educational levels. The literate workers have been classified by nine educational levels, the ninth educational level having been split into five different branches of science and technology as shown below :—

(i) Literates (without educational level)
(ii) Primary
(iii) Middle
(iv) Matriculation or higher secondary
(v) Non-technical diploma or certificate not equal to degree
(vi) Technical diploma or certificate not equal to degree
(vii) Graduate degree other than technical degree
(viii) Post-graduate degree other than technical degree
(ix) Professional degree or diploma equal to degree or post-graduate degree :
  (a) Engineering and technology
  (b) Medicine
  (c) Agricultural, veterinary or dairying
  (d) Teaching
  (e) Others

Illiterate workers have not been shown separately but their number can be derived by deducting the figures of literate workers from those of total workers.

The table does not exhibit figures by age-groups but even so it shows the pattern of educational level of working force and the principal occupations which attract educated personel.

B-VI, Part B(i) : OCCUPATIONAL CLASSIFICATION OF PERSONS AT WORK ACCORDING TO MAIN ACTIVITY OTHER THAN CULTIVATION CLASSIFIED BY SEX AND AGE-GROUPS IN RURAL AREAS ONLY

This is a new addition and similar to table B-VI, Part-A(i) with the only difference that it is confined to rural areas instead of urban. Like table B-VI Part A(i) data in this table has also been presented under 'Divisions' and 'Groups' of N.C.O. for the State, its provinces and districts classified by eight age-groups.

B-VI, Part B(ii) : OCCUPATIONAL CLASSIFICATION OF PERSONS AT WORK ACCORDING TO MAIN ACTIVITY OTHER THAN CULTIVATION CLASSIFIED BY SEX AND EDUCATIONAL LEVELS IN RURAL AREAS ONLY

B-VI, Part B(ii) is also a new additions and the data given in the table has been presented for rural areas only under 'Divisions' and 'Groups' of N.C.O. further cross classified by the following five broad educational levels as against nine given in Table B-VI, Part A(ii) :

(i) Literate (without educational level)

(ii) Primary

(iii) Middle

(iv) Matriculation or Higher Secondary

(v) Graduate and above

B-VII SECONDARY WORK i.e. PERSONS HAVING MAIN ACTIVITY (i) CULTIVATORS (ii) AGRICULTURAL LABOURERS (iii) HOUSEHOLD INDUSTRY (iv) NON-HOUSEHOLD INDUSTRY, TRADE, BUSINESS OR SERVICE AND (v) NON- WORKERS CLASSIFIED BY SEX AND BY SECONDARY WORK (i) CULTIVATORS (ii) AGRICULTURAL LABOURERS (iii) HOUSEHOLD INDUSTRY (iv) NON-HOUSEHOLD INDUSTRY, TRADE, BUSINESS OR SERVICE

At the 1971 Census, one comprehensive table giving statistics of main activity by secondary work has been presented by processing the answers recorded against the question on secondary work in the individual slip. This was done in order to present information about such non-workers who in spite of their being primarily non-workers do marginally participate in economic activity also.

The person having main aetivity as cultivators ; agricultural labourer ; household industry, non-household industry, trade, business or service and non-workers have been further cross-tabulated in the case of persons whose secondary work is either (i) cultivation or (ii) agricultural labourer (iii) household industry or (iv) non-household industry, trade, business, service etc. The table gives this data sex-wise for all areas and separately for rural and urban areas of the State, its provinces and districts.

The table has been supplemented by an appendix giving detailed distribution of persons whose secondary work is at non-household industry. The secondary work is presented at 2 digit level of National Industrial Classifications. The main activity has been presented at one digit level. Details of persons whose main activity is 'housewife' or a 'student' but who also participate in some work as a secondary work have been shown here.

B-VIII PERSONS CLASSIFIED AS NON-WORKERS ACCORDING TO MAIN ACTIVITY CROSS-CLASSIFIED BY SEX, AGE-GROUPS AND TYPE OF ACTIVITY

Fly-leaf B-VIII

This table gives data about non-working population of the State, its provinces and districts, separately for all areas, rural areas and urban areas. As against eight categories of non-working population in 1961, the data have been presented for seven categories of non-workers in this table, the last category 'others' largely comprising the 'unemployed.' These categories of non-workers have further been cross-classified by eight age-groups viz; 0–14, 15–19, 20–24, 25–29, 30–39, 40–49, 50–59 and 60+. Persons who did not return their ages have been shown separately under 'age not stated'.

The cross-tabulation of various categories of non-workers by age-groups brings to surface the pecularities of this segment of population in a wider and broader perspective. The table makes available data in respect of children attending school; housewives and other members of household engaged in household duties and not classified as economically active; the sector of population earning without doing any work like beggars and vagrants; inmates of penal, mental and charitable institutions and others. Any study of manpower utilisation is likely to be imcomplete without getting detailed information about the activities of non-workers especially when they comprise more than two-third of the total population.

A detailed description of non-workers will be found in 'Instruction to Enumerators' reproduced in Annexure-I at the beginning of this Report. However, various types of non-workers are listed below:—

(i) Students;
(ii) Household duties;
(iii) Dependents and infants;
(iv) Retire, rentired and persons of independent means;
(v) Beggars, vagrants etc.;
(vi) Inmates of penal, mental and charitable institutions;
(vii) Others.
