SHARANABASAVESHWARA TEMPLE, GULBARGA

(Motif on the Cover)

The illustration on the cover page presents a view of the shrine of Sharanabasaveshwara in the Brahmpur locality of Gulbarga town. The chief object of worship here is the tomb of Sharanabasaveshwara, a Veerashaiva saint. He was born of a devout Veerashaiva couple—Adayya of the Salokya line and his wife Mudiyamma—at Aralagundige village of Jevargi Taluk in the year 1747 A.D. From his childhood days, he received proper religious training at the hands of a preceptor and later, at the behest of his preceptor became a *Grihasta* (householder) by marrying Mahadevi. But his abnormal religious devotions and philanthropic behaviour to the utter neglect of mundane affairs caused a split in the family and he was soon given his portion of patrimony and asked to live separately. He continued undeterred his devotions to Shiva and service to Jungamas. A son was born to him, whom he named Gurulinga Jangama. After the premature death of his wife and son, Sharanabasaveshwara decided to leave Aralagundige and spend his days at Kalyana he fountainhead of the Veerashaiva movement initiated by Basavanna in the 12th century A.D. However, on his way the was accosted by Doddappa Gowda at Gulbarga who persuaded him to spend the rest of his days at his house and conduct the worship of Shiva. Accordingly, Sharanabasaveshwara stayed on at Gulbarga and preached religious and ocial equality and dignity of labour. He also performed several miracles such as granting vision to the blind, curing men and women of diseases etc. He entered the state of *samadhi* on *Phalguna bahula pratipada* of the Shaka year 1744 (i.e. 1823 A.D.). A shrine was built on the tomb and ever since, the place has become an important centre of pilgrimage. An annual fair takes place at this shrine for a fortnight commencing from the fifth day of *Chaitra bahula* (March-April) and attracts a large number of devotees from far and near.

The *Hon-galasha* (golden pinnacle) of the shrine is said to have been set up in the Shaka year 1868 (1947 A.D.). The management of this religious institution has been successfully running a few educational institutions, a reading room and free boarding house for the past 2 to 3 decades and is thus continuing the tradition of *Jnanadana* (dissemination of knowledge) and *annadana* (feeding of the deserving) initiated by the saint around whom the institution has grown.

PART II-C (i)

SOCIAL AND CULTURAL TABLES

(TABLES C-VII AND C-VIII)

INTRODUCTION

There are ten Social and Cultural tables dealing with characteristics of population such as household composition, age and marital status, literacy and educational levels, mother-tongue, bilingualism, religion and special characteristics of Scheduled Castes and Scheduled Tribes.

According to the 1971 Census tabulation plan the following tables have been prepared:

C-I Part A:	Members of Households by relationship to Head of Household classified by Age-groups (Sample).
C-I Part B (i) & (ii):	Households where the head is a Male/Female by relationship of members with the head (Sample).
C-II:	Age and Marital Status (Sample).
C-III Part A:	Age, Sex and Education in All Areas (Sample).
C-III Part B:	Age, Sex and Education in Urban Areas only (Sample).
C-IV:	Single year age returns (Sample).
C-V:	Mother tongue (Full count).
C-VI:	Bilingualism (Sample).
C-VII:	Religion (Full count).
C-VIII:	Scheduled Castes and Scheduled Tribes (Part A and B) Classification by literacy and industrial category of workers and non-workers according to main activity among Scheduled Castes/Scheduled Tribes (Full count).

Out of ten tables mentioned above, three tables *viz.*, C-V, C-VII and C-VIII are based on full count. The other tables are based on sample.

The present Part II-C(i) contains Tables C-VII and C-VIII. Table C-V based on full count and the remaining seven Social and Cultural tables based on samples are being published in Part II-C(ii) together with Fertility tables.

Each table presented in this volume is accompanied by an introductory note explaining the method of presentation.

The tables included in this volume have been generated from the data obtained from the individual slips based on the replies to questions 3 (Sex), 10 (Religion), 11 (Scheduled Caste/Scheduled Tribe), 12 (Literacy), and 16 (Main activity).

The definitions adopted and instructions issued for recording the replies in the individual slips in respect of these questions have been reproduced from the "Manual of Instructions to Enumerators for filling up the Individual Slips" hereunder:

"Question 3 : Sex

For males write 'M' and for females write 'F' within the circle indicated against this question. Even for eunuchs and hermaphrodites, write 'M' only. Verify with reference to the name and relationship to Head against questions 1 and 2 respectively that you have noted the sex correctly."

"**Question 10**: **Religion**:

In answering this question use the following abbreviations:

H: Hinduism

I: Islam

C: Christianity

S: Sikhism

B: Buddhism

J: Jainism

For "Others" record the actual religions as returned fully.

If a person says that he has no religion it may be recorded accordingly. Do not mistake religion for caste which will not be recorded here."

"Question 11: Scheduled Caste or Scheduled Tribe:

You have been furnished with a list of Scheduled Castes and Scheduled Tribes notified for your State. Ascertain if the person enumerated belongs to a scheduled caste or scheduled tribe and if he does, then record the name of the scheduled caste or scheduled tribe which should find place in the list furnished to you. The answer should be recorded against the correct rectangle provided for the purpose against this question. For a person who is not a member of any scheduled caste or scheduled tribe write 'X' in both the rectangles.

If the person belonging to a scheduled caste or scheduled tribe returns his caste or tribe by synonym or generic name of a caste or a tribe it should be entered only if it finds a place in the list furnished to you. Do not write the names of scheduled castes in general terms as 'Harijan' or 'Achhut'. You should ascertain the name of the caste when it is returned and write it in the rectangle provided for recording the name. Similarly do not write the names of scheduled tribes in general term as 'Adivasi'. You should ascertain the name of the tribe when it is returned and write it in the rectangle with broken lines provided for recording the same. If a person is negligent and insists on calling himself merely 'Harijan' or 'Achhut' or 'Adivasi' as the case may be, tell him that this description is not adequate for Census purposes and persuade him to give out the actual name of the caste or tribe. You should make all efforts to ascertain the correct name of the scheduled caste or scheduled tribe as found in the notified list. If the person merely claims to be a scheduled caste or scheduled tribe but says that he does not belong to any of the notified communities applicable to the area, he will not be entered as a scheduled caste or scheduled tribe.

Scheduled castes can belong only to the Hindu or Sikh religions. If a person belongs to scheduled caste, there will be either 'H' or 'S' in the answer to question 10. Scheduled tribes may belong to any religion."

"Question 12: Literacy (L or O) Definition of a literate:

A person who can both read and write with understanding in any language is to be taken as literate. A person who can merely read but cannot write is not a literate.

It is not necessary that a person who is literate should have received any formal education or should have passed any minimum educational standard.

For a person who is literate i.e., who can both read and write, record 'L' in the tringle against question 12. If there is any doubt about a person's ability to read or write, the test that may be applied for reading is his/her ability to read any portion of the printed matter in the Enumerator's Instructions and similarly for writing he/she should be able to write a simple letter. Ability merely to sign one's name is not adequate to qualify a person as being able to write with understanding. If a person claims to be literate in some other language with which the enumerator is not acquainted, the respondent's word has to be taken as correct. Other members of the household may also be able to testify to the literacy of the person enumerated.

For a person who is illiterate i.e. who can neither read nor write or can merely read but cannot write, in any language write 'O' in the traingle against question 12. All children of the age of 4 years or less should be treated as illiterate even if the child is going to a school and may have picked up reading and writing a few odd words."

"Question 16: Main activity

Every person will be asked what his main activity is, that is, how he engages himself mostly. For the purpose of this question, all persons will get themselves divided into two broad streams of main activity, namely, (1) as workers and (2) as non-workers according as the type of main activity that the person returns himself as engaged in mostly.

'Workers' defined: A 'Worker' is a person whose main activity is participation in any economically productive work by his physical or mental activity. Work involves not only actual work but effective supervision and direction of work.

Reference periods: The reference period is one week prior to the date of enumeration in the case of regular work in trade, profession, service or business. If a person had participated in any such regular work on any one of the days during this reference period and this has been returned as his main activity, the person will be categorised accordingly. A person who normally works but had been absent from work during this reference period on account of illness or travel, holiday, temporary breakdown, strike etc., the person should be treated as engaged in regular work in which he would have otherwise been employed but for his temporary absence. Persons under training such as apprentices with or without stipends or wages should be considered as economically active and recorded as working. A person who has merely been offered work but has not actually joined it, is not to be treated as engaged in work.

There are certain types of works which are not carried on throughout the year such as cultivation, live stock keeping, plantation work, some types of household industry, etc. A person's main activity should be ascertained with reference to such work in the last one year even if he was not economically active in the week prior to enumeration. It is likely that even when a person is engaged in some other work during the period of one week prior to the date of enumeration, the main activity of a person may be cultivation, agricultural labour or some other work attended to normally by him in the course of the year. Care must be taken to see that the main activity is properly ascertained in such cases. For example, a perons's main activity may be agricultural labour and in the week prior to enumeration he may be engaged as a sugarcane factory labourer or as a road cooly. He should be categorised for his main activity as agricultural labourer only as returned by him as he engages himself mostly in that work and the other work should be treated as his subsidiary work.

A man or woman who is engaged primarily in household duties such as cooking for own household or performing one's own household duties or a boy or a girl who is primarily a student attending institution, even if such a person helps in the family economic activity but *not* as a full time worker should not be treated as a worker for the main activity. On the other hand, if a person is primarily engaged in some economic activity but at the same time does also attend to some household chores or attends a night school etc., he or she should be treated basically as a worker for the main activity and categorised accordingly.

A person who merely receives an income such as a rent receiver or a pensioner who does not have to work for receiving the income, will not be treated as economically active unless the person is also engaged in some economic activity and if that activity is returned as the main activity of the individual."

"Question 16(a): Broad Category (i) Worker (C, AL, HHI, OW) (ii) Non-worker (H, ST, R, D, B, I, O)

The main activity returned by the person will entitle him to be categorised either as a worker in 16 (a) (i) or as a *non*-worker under 16(a) (ii)."

16(a) (i): Worker (C, AL, HHI, OW)

Where the main activity of a person qualifies him to be treated as a worker he should be further categorised according to the type of work and one of the appropriate abbreviations indicated against this question should be entered in the box provided for the purpose. If the person is not engaged in any economic activity an 'X' should be noted in the box. The abbreviations to be used for workers are explained below:

C: CULTIVATOR

For a person who returns his main activity as working as a cultivator, the abbreviation 'C' should be used.

Definition of Cultivator:

For purposes of the Census a person is working as Cultivator if he or she is engaged in cultivation by oneself or by supervision or direction in one's capacity as the owner or lessee of land held from Government or as a tenant of land held from private persons or institutions for payment of money, kind or share.

Cultivation involves ploughing, sowing and harvesting and production of cereals and millet crops such as wheat, paddy, jowar, bajra, ragi etc., and pulses, raw jute and kindred fibre crop, cotton etc., and other crops such as sugarcane, goundnuts, tapioca etc., and does not include fruitsgrowing, vegetable-growing or keeping orchards or groves or working of plantations like tea, coffee, rubber, cinchona and other medicinal plantations.

A person who merely owns land but has given out land to another person or persons for cultivation for money, kind or share of crop and who does not even supervise or direct cultivation of land, will not be treated as working as cultivator. Similarly, a person working in another person's land for wages in cash, kind or share (Agricultural labourer) will not be treated as cultivator in this question.

AL: AGRICULTURAL LABOURER

A person who returns his main activity as engaged as agricultural labourer, the abbreviation 'AL' should be used in the box.

Definition of an Agricultural labourer

A person who works in another person's land for wages in money, kind or share should be regarded as an agricultural labourer. He has no risk in the cultivation but he merely works in another person's land for wages. The labourer could have no right of lease or contract on land on which he works.

H.H.I.: HOUSEHOLD INDUSTRY

For a person who returns his main activity as engaged in some production, processing, servicing or repair of articles or goods such as, say, handloom, weaving, dyeing, carpentry, *bidi* rolling, pottery manufacturer, bicycle repairing, blacksmithy, tailoring etc., it has to be ascertained if it is a household industry, and if so, it should be indicated by the abbreviation 'HHI' in the box.

Definition of a Household Industry

A Household Industry is defined as in industry conducted by the Head of the household himself/herself and/or mainly by the members of the household at home or within the village in rural areas and only within the premises of the house where the household lives in urban areas. The industry should not be run on the scale of a registered factory.

The main criterion of a Household Industry is the participation of one or more members of a household. This criterion should apply to urban areas too. Even if the industry is not actually located at home in rural areas there is greater possibility of the members of the household participating even if it is located anywhere within the village limits. In the urban areas where organised industry takes greater prominence, the Household Industry should be confined to the precincts of the house where the participants live. In urban areas even if the members of the household by themselves run an industry but at a place away from the precincts of their home, it will not be considered a household industry. It should be located within the precincts of the house where the members live.

A Household Indutry should relate to production, processing, servicing, repairing or making and selling (but not merely selling) of goods. It does not include professions such as a pleader or doctor or barber, musician, dancer, waterman, *dhobi*, astrologer etc., or merely trade or business, even if such professions, trade or services are run at home by members of household..

Sometimes it is likely that the person who may not be working in his own Household Industry may be working as a petty employee in another Household Industry. You should therefore, enquire whether the person who is not working in his own Household Industry is working in any other Household Industry as an employee and record as per instructions given above.

OW: OTHER WORKERS

If a person gives his main activity as engaged in any other work which is not cultivation, agricultural labour or household industry, this may be indicated by merely noting 'OW' in the box. The type of workers that may come under the 'Other Workers' category are factory workers, those working in trade or transport, all Government servants, municipal employees, teachers, mining workers, political or social workers, building labourers, etc. etc. In effect, all types of economic activity not covered by cultivation, agricultural labour or household industry will come under this residual category. Workers engaged in plantation or forestry should not be treated as cultivators or agricultural labourers but as 'Other workers'.

Further details pertaining to this 'Other' category of workers, as also those engaged in household industry will be recorded in the subsequent sub-parts (b) to (f) of question 16."

16 (a) (ii): Non-worker (H, ST, R, D, B, I, O)

As was stated earlier, question 16 is intended to ascertain the main activity of every individual whether he or she is economically active or not. While 16(a) (i) helps to broadly categorise all those who have returned some work as their main activity, 16(a) will help to categorise those whose main activity is not engaged in any economically productive work, but are basically non-workers. These may be categorised under seven broad heads whose abbreviations are indicated against this question. The appropriate abbreviation will have to be entered in the box provided. The abbreviations are explained below:

H: HOUSEHOLD DUTIES

This covers all those persons basically engaged in unpaid home duties doing no other work, or even if such a person may also be participating in some other work, it is not to the same extent as a whole-time worker and if the person has returned his or her main activity as attending to household duties. The main activity of such a person should be entered as 'H'. If a person whose main activity is attending to household duties, also engages oneself in some other economic activity such as helping in family cultivation or preparing cowdung cakes at odd times for sale etc., and that economic activity will be covered as secondary work under question 17. On the other hand, a woman who works primarily as a factory worker or a plantation labourer or an agricultural labourer or in some office or shop etc., and also attends to household duties, obviously her main activity will be the economic activity in which she is mostly engaged in and should not be categorised as 'H' for her main activity in this question. She should have been treated basically as a worker and her main economic activity should have been recorded against 16(a) (i).

ST: STUDENT

This refers to those whose main activity is returned as a student. This will cover all full-time students or children attending school. Even if such persons participated in some work but not to the same extent as a full-time worker, by merely helping casually as an unpaid family worker in family cultivation, household industry, trade or business, they should be treated primarily as students, if that is their main activity. 'ST' should be entered in the box. The other economic activity, if any, that such person attends to will be reflected under question 17 as secondary work.

R: RETIRED PERSON OR A RENTIER

A person who has retired from service and is doing no other work i.e. not employed again in some full-time work or does not engage himself in some other work as cultivation, in business, trade, etc., or a person who is a rentier or living on agricultural or non-agricultural royalty, rent or dividend, or any other person of independent means for securing which he does not have to work, will come under this category. 'R' should be noted in the box for a person coming under this category.

D: DEPENDENT

This category will include all dependents such as infants or children not attending school or a person permanently disabled from work because of illness or old age. If a girl or an old woman attends to household duties she should be categorised under 'H' for her main activity rather than 'D'.

Dependents will include all non-workers even if able bodied who have no other activity coming under any of the categories of non-workers and who are not seeking any work either but are purely dependent.

B: BEGGARS ETC.

This will cover beggars, vagrants or such cases as independent women without indication of source of income and those of unspecified sources of subsistence and who are not engaged in any economically productive work.

I: INSTITUTIONS

This will cover convicts in jails or inmates of a penal, mental, or charitable institution, even if such persons are compelled to do some work such as carpentry, carpet weaving, vegetable growing etc., in such institutions. An under-trial prisoner in a jail should not, however, be brought under this category but has to be indicated according to the main activity he was engaged in before he was apprehended. Inmates of such institutions will be noted as 'I'.

O: OTHER NON-WORKERS

This will include all non-workers who may not come under any of the six categories above but are seeking work, they should be noted as 'O' in the box. A boy or girl who has completed education or has stopped studying and is seeking work, will come under this category. If a person is merely spending his time at home as a dependent and is not doing any work and is not seeking any work will come under 'D' rather than 'O'. A person irrespective of age and whether educated or not, if he reports that he is not engaged in any other activity but is seeking work will come under this category.

If the main activity of the person who is enumerated does not qualify a person to be treated as a worker and he does not fall under any of the four broad categories of workers covered by 16(a) (i) and an 'X' has been put in the box against that question, then he must necessarily be categorised under any one of the seven broad types of non-workers and appropriate abbreviation entered in the box opposite to question 16(a) (ii). Conversely if a person has already been treated as a worker and his main activity has been indicated in the box against question 16(a) (i), then question 16(a) (ii) will not apply to a person and an 'X' should be put in the box against question 16(a) (ii). Thus 16(a) (i) and (a) (ii) are mutually exclusive.

Question 16(b) to 16(e)

These sub-parts of question 16 will have to be filled only to describe the details of the household industry or other work indicated against question 16(a) (i). If the main activity has been shown as 'C' or 'AL' against 16(a) (i), there is no need to give the details of the cultivation or agricultural labourer in these sub-sections.

Similarly, if the main activity of an individual has been returned as a non-worker against 16(a) (ii), sub-sections (b) to (f) will not apply and an 'X' may be put right across all these questions.

Question 16(b) : Place of work (Name of village/town)

Ascertain from each person who is already taken as a worker other than in cultivation or agricultural labourer i.e. question 16(a) (i) has been answered as HHI or OW, the village or town where he or she works. If the place of work is the same as the village or town of enumeration write 'PL'. In all other cases you should write the name of the place fully. If a person has no fixed place of work such as, say, a travelling vendor of vegetables or a pedlar or a rickshaw puller who may go from one village or town to another, note 'No fixed place of work'. If he works in one particular town or village that should be noted.

Question 16(c): Name of Establishment

This question and the subsequent sub-sections of question 16 need not be answered for cultivators and agricultural labourers who are already noted as 'C' or 'AL' against question 16(a) (i).

Record here the exact name of the factory, firm, workshop, business house, company; shop, office etc., and in respect of public offices you should clearly indicate whether they are Central or State Government or local body offices, etc. If the establishment does not have any definite name such as, say, in the case of a household industry like hand pounding of rice, gur making, bee keeping, handloom, weaving, potter's house, blacksmithy etc., note 'No particular name'.

Question 16(d): Nature of Industry, Trade, Profession or Service

The answer to this question will have to be adequately precise to enable proper classification of the sector of economy in which the person is working. The sector of economy in which a person works may relate to (i) Plantation, Forestry, Fishing Livestock etc., (ii) Mining and/or Quarrying (iii) Manufacturing (iv) Construction (v) Electricity, Gas or Water Supply (vi) Transport and communications (vii) Trade and Commerce (viii) Professions and Services. Full details of the type of Industry, Trade Profession or Service in which the person is engaged will have to be recorded here. You shall have to describe the nature of Industry, Profession, Trade or Service whatever it is in as precise a detail as possible.

Question 16(e) : Description of work

This question has to be filled up for all persons for whom the main activity is shown as 'HHI' or 'OW' in question 16(a) (i) and for whom you should have also to answer the other sub-sections of question 16. Under this question, the description of the actual work that the person enumerated is doing is to be recorded irrespective of which type of industry, trade, profession, or service he may be working and which is already recorded under question 16(d). His actual work should also be given in sufficient detail. If for example a person is merely recorded as say, clerk with no other details, it will be impossible to properly categorise him as to the type of work he does. He may be a clerk attending to correspondence or book keeping or accounting. Similarly if a person were merely to be recorded as mechanic it will not help to determine what type of mechanic electrical mechanic, or a motor mechanic or a locomotive mechanic, etc., he is. The description of the actual work done by a person should be ascertained in adequate detail and recorded against this question.

It has been found in the past that substantial number of persons are recorded merely as general labourers. It is necessary to make a probe and find out in which type of work he is mostly engaged as a labourer such as, say, a road coolie, a loader or an unloader at a market, a construction labourer, etc.

For those in Military service it is enough if it is merely noted as "in the service of the Central Government". Other details need not be given.

General:

There need be no confusion as to the scope of 16(d) and 16(e). 16(d) would represent the nature of industry, trade, profession or service i.e. the field of economic activity in which a person is engaged in work and 16 (e) represents the occupation or the actual work that the person does in the industry, trade, profession or service in which he is engaged. Thus, for example the answer to question 16(d) may be say Cotton Textile manufacture and the answer to question 16(e) may be Chemical Engineer in that industry or a clerk or an accountant in that industry or a labourer in that industry or a truck driver or the managing director of that industry and so on. Similarly in question 16(d) the nature of service may be some department of the State Government Service and in question 16(e) the description of work may be a clerk or an accountant, a Director of the Department, jeep driver in the Department etc., etc. Again say, against question 16(d) the answer may be private medical practice and in 16(e) may cover orthopaedic surgeon, or nurse, or a sweeper etc., working in that private medical practitioner's nursing home.

RELIGION

TABLE C--VII

RELIGION

The data on religion presented in Table C-VII gives the distribution of the population by six major religions, namely, Hinduism, Islam, Christianity, Sikhism, Buddhism and Jainism. Other religions have been clubbed under "Other Religions and Persuasions", the details of which are presented in an 'Appendix'. The figures relating to returns where the religion has not been specified are also given. This table corresponds to Table C-VII of 1961.

In this table, figures have been presented for State, Districts and Taluks for total, rural and urban and also for towns and urban agglomerations. In the case of Bangalore Urban Agglomeration which is spread over two taluks namely Bangalore North and Bangalore South, the figures have been presented separately in a supplement.

In a few cases, returns of sects or subsects were obtained. All such returns have been included under their respective religions, but have also been shown separately in an annexure for information.

The tables relating to religion in this volume are arranged in the following sequence:

Table C-VII	Religion.
Supplement to Table C-VII .	Data relating to Bangalore Urban Agglomeration.
Annexure to Table C-VII .	Details of sects/beliefs/religions clubbed with another religion which is shown at the head of the table in block letters.
Appendix to Table C-VII .	Details of combined entries in columns 18 and 19 under "Other Religions and Persuasions" of Table C-VII.

The following analytical statements are presented:—

Statement 1	Distribution of population by Religion in rural and urban areas.
Statement 2	Distribution of population by religion, 1961 and 1971.
Statement 3	Percentage distribution of population of each major religious community in rural and urban areas.
Statement 4	Growth rate of population of each major religious community, 1961-1971.
Statement 5 . . .	Percentage distribution of population of each major religious community among districts, 1971.

A brief note on Religion

A Statement comparing the religious structure in respect of six major religions of the State is reproduced below:

RELIGIOUS STRUCTURE OF MYSORE STATE

Major Religious Community	Persons	Males	Females	Sex ratio (Females) per 1000 males
1	2	3	4	5
Hindus	25,332,388	12,927,895	12,404,493	960
Muslims	3,113,298	1,608,824	1,504,474	935
Christians	613,026	308,963	304,063	984
Jains	218,862	113,820	105,042	923
Buddhists	14,139	7,880	6,259	794
Sikhs	6,830	4,257	2,573	604

Some salient features as revealed by the statements given earlier are indicated in the following paragraphs in respect of each religion.

HINDUS

Of the total population 29,299,014 in the State, Hindus account for 25,332,388 or a proportion of 86.46%. Hindus have recorded an increase of 23.08% over the last decade as against the general growth rate of 24.22%.

As will be seen from Statement No. 3, 79.37% of the Hindus in the State live in the rural areas, whereas only 20.63% live in urban areas of the State. Statement 1 indicates that when rural and urban populations are considered separately, the proportions of Hindus to total rural and urban populations are 90.66% and 73.39% respectively.

The sex ratio among Hindus is 960 females per 1000 males as against the general sex ratio of 957 in the State. This is only second to that of the Christians, among whom the sex ratio is 984 females per 1,000 males.

In 17 districts more than 80% of their population is Hindus, the proportion ranging from 81.26% to 95.63%. Mandya district has the highest proportion of Hindus with 95.63%. The two districts with lower Hindu proportions are South Kanara (77.44%) and Bidar (77.03%).

The following statement gives the percentage of Hindus to total population among districts arranged according to five ranges.

Percentage of Hindus to total Population of the districts

More than 95 percent	90 percent to 94.99 percent	85 percent to 89.99 per cent	80 percent to 84.99 percent	Less than 80 percent
1	2	3	4	5
		MYSORE STATE (86.46%)		
Mandya (95.63%)	Hassan (93.40%) Tumkur (93.04%) Mysore (91.59%)	Chikmagalur (89.33%) Shimoga (88.44%) Kolar (87.41%)	Coorg (84.57%) Bangalore (84.36%) Dharwar (82.63%)	South Kanara (77.44%) Bidar (77.03%)
	Chitradurga (91.53%)	Bellary (87.30%) North Kanara (87.02%) Raichur (86.54%) Bijapur (86.04%) Belgaum (85.46%)	Gulbarga (81.26%)	

Hindus are in overwhelmingly large proportion in the contiguous districts of Chitradurga, Tumkur, Hassan, Mandya and Mysore.

Though there has been an increase in the absolute figures in Hindu population the proportion of Hindus, in all the districts has fallen between 1961-1971. This will be more evident from the following statement.

State/District	Percentage of Hindus to total population		No. of points decreased

18. South Kanara	77.44	79.40	—1.66
19. Tumkur	93.04	93.41	—0.37

The phenomenon of the Hindu growth rate being less than the general growth rate of the population in the State, is true in respect of the districts also. As mentioned earlier Hindus have recorded a growth rate of 23.08% during the decade 1961-1971. In these districts, 6 districts have recorded an increase which is higher than the State average growth rate. But in general, as may be seen from Statement 4 the Hindu growth rate in each district is always less than the general growth rate of that district.

Statement 5 indicates the contribution of each district to the total Hindu population of State. The districts which have more than 5% of the State Hindu population are Bangalore, Belgaum, Dharwar, Mysore, Bijapur, Tumkur, South Kanara, Gulbarga, Kolar and Chitradurga. These districts together account for 69.04% of the State Hindu population.

MUSLIMS

The Muslim community forms the second largest religious community in the State. There are 3,113,298 persons comprising of 1,608,824 males and 1,504,474 females who have returned themselves as Muslims in the State. The sex ratio among Muslims is 935 females per 1000 males. The Muslims have registered an increase of 33.71% during 1961-1971 and proportion of Muslims to the total population of the State in 1971 is 10.63%.

A greater proportion of the Muslim population lives in the rural areas. From Statement 3 it may be observed that 51.96% of the Muslim population live in rural areas while 48.04% live in urban areas. On the other hand Muslims form, as seen from Statement (1) 21.00% of the State urban population and 7.30% of he State rural population.

As mentioned earlier the proportion of Muslims in the State accounts for 10.63% of the total population, while it varies between 3.83% and 18.81% in the districts. In the following Statement the districts have been arranged in four ranges according to their proportion of Muslim population.

15 percent and above	10 percent to 14.99 percent	5 percent to 9.99 percent	Less than 5 percent
1	2	3	4
	MYSORE STATE (10.63%)		
Bidar (18.81%)	Bijapur (12.92%)	Shimoga (9.74%)	Mandya (3.83%)
Gulbarga (17.66%)	South Kanara (12.26%)	Belgaum (9.22%)	
Dharwar (15.38%)	Raichur (12.12%)	North Kanara (8.36%)

	Bellary (11.64%)	Chikmagalur (7.42)%	
	Bangalore (10.76%)	Tumkur (6.53%)	
	Kolar (10.36%)	Mysore (6.42%)	
		Hassan (5.24%)	

Bidar district has the highest proportion of Muslims in its population while Mandya has the lowest. It may be recalled that Bidar and Mandya districts have the lowest and highest proportion of Hindu population, respectively.

In the northern part of the State the region covered by the districts of Bidar, Gulbarga, Bijapur, Dharwar, Bellary and Raichur has a Muslim proportion higher than State average. In the southern region South Kanara and Coorg Distrits bordering with Kerala State and also Bangalore district have higher proportions.

As mentioned earlier the proportion of Muslims to total population has increased from 9.87% in 1961 to 10.63% in 1971 i.e. by 0.76 points. Even among the districts we see the same picture and the gain recorded by Muslims varies from 0.21 to 2.53 points. The following statement indicates the gain recorded by the Muslims in their proportion to total population of the State and districts:

State/District	Percentage of Muslims to Total population		Number of points increased (+)

18. South Kanara	9.73	12.26	2.53
19. Tumkur	6.15	6.53	0.38

As observed from Statement 4 the increase in the Muslim population between 1961-1971 accounts for 33.71%, which is higher than the general growth rate of 24.22% of the State for the same period.

The growth rate in the districts varies from 25.12% recorded in Bijapur to 56.22% in South Kanara. Nine districts have a growth rate higher than the State average. It will be seen that, in general, in all districts the growth rate of Muslim population exceeds the corresponding general growth rate of the population.

Bangalore and Dharwar districts, as evident from Statement 5, each share about 12% of the State Muslim population. The districts of Gulbarga, Bijapur, South Kanara, Belgaum, Raichur and Kolar each contribute more than 5% of the Muslim population of the State.

CHRISTIANS

Christians are the third numerically strongest religious community in the State. The total number of Christians in the State is 613,026 persons, made up of 308,963 males and 304,063 females and account for 2.09% of the State population. The sex ratio among Christians is 984 females per 1,000 males and incidentally it is the highest among the six major religons in the State. Statement 1 indicates that the proportions of Christians in the rural and urban population are 1.33% and 4.46% of the rural and urban population of the State.

The proportion of Christians to the total population exceeds one percent in the following districts:

1	2	1	2
1. South Kanara	(9.67%)	7. Kolar	(2.03%)
2. Bangalore	(4.31%)	8. Mysore	(1·45%)

5. Coorg	(3.40%)	11. Hassan	(1.02%)
6. Chikmagalur	(2.86%)		

The proportion of Christians in the population has slightly improved from 2.07% in 1961 to 2.09% in 1971, while the growth rate registered by this community is 25.73% during 1961-1971 as against the general growth rate of 24.22% of the State.

In the following statement the districts have been arranged according to their growth rates being higher or lower than their corresponding district general growth rates.

Hassan district has retained its 1961 proportion.

Comparing the above two statements it will be noticed that except in case of Hassan district wherever the growth rate of Christians is higher than the growth rate of the district, the proportion of Christians has also increased. Statement 5 reveals that two districts of the State namely, South Kanara and Bangalore together account for more than half of the Christian population while North Kanara and Kolar together share about ten percent of the State Christian population. The rest of the Christian population is distributed among other districts.

JAINS

Jains constitute 0.75% of the total population of the State and are the fourth largest religious community in size. There are 113,820 males and 105,042 females in the Jain population of 218,862. The sex ratio among Jains is 923 females per 1000 males. A good number of Jains live in the rural areas of the State. In terms of percentages 65.90% of the Jains live in rural areas, whereas those who live in urban areas constitute 34.10%.

Among districts, Belgaum has the highest proportion of Jains who are 4.55% of its population. From Statement 2 the other districts where Jains constitute more than 0.5% of the district population are Dharwar (0.95%), Bijapur (0.90%) and South Kanara (0.62%). Belgaum district with 110,135 Jains accounts for 50.32% of the Jain population in the State. From Statement 5 it may be seen that the other districts which have considerable Jain populations are Dharwar Bijapur, and South Kanara.

The growth rate recorded by the Jain community during 1961-1971 in the State is 25.52% which is slightly higher than the general growth rate of 24.22% of the State. The growth rates among the districts varies from 1.26% (in Kolar) to 67.92% (in Bangalore).

BUDDHISTS

There are 14,139 Buddhists in the State comprising of 7,880 males 6,259 females. The sex ratio among Buddhists is 794 females per 1,000 males. A large portion of the Buddhist population live in rural areas of the State. In proportions, 81.82% of the State Buddhist population resides in rural areas and 18.18% in urban areas.

The Buddhist population has increased from 9,770 persons in 1961 to 14,139 in 1971 and has recorded an increase of 44.72% over the 1961 population.

The proportion of Buddhist population in the State accounts for only 0.05% of the total population of the State, (0.04% in 1961). In the following districts the proportion of Buddhists is 0.05% or more of the district population.

State/District	Buddhists	Percentage to total population
MYSORE STATE	14,139	0.05
North Kanara	4,274	0.50
Mysore	4,261	0.20
Bidar	1,144	0.14
Gulbarga	756	0.05

In other districts the proportion of Buddhists in the total population is less than 0.05%.

SIKHS

The total number of persons who have returned themselves as Sikhs is 6,830 persons or 0.02% of the total population in the State, made up of 4,257 males and 2,573 females. The sex ratio among Sikhs is 604 females per 1,000 males and is the lowest among the six major religions in the State. Nearly two thirds of the Sikhs in the State live in urban areas of the State.

Among the districts, the proportion of Sikhs in the total population of the district varies from negligible to 0.08%. As may be seen from Statement 2, only seven districts have a proportion of Sikhs which is the same or higher than the State average of 0.02%. These districts are Bangalore, North Kanara, Dharwar, Mysore, Belgaum, Gulbarga and Bidar.

The Sikh community has registered a growth rate of 107.79% during the decade 1961-1971 in the State, the highest to be recorded by any religion at the State level but the numbers are actually very small. From Statement 4, varying growth rates among districts, will be noticed. But here again we see that the absolute figures involved are very small to make any valid comparison.

OTHER RELIGIONS AND PERSUASIONS

These include Baha'is, Jews, Theosophists and Zorastrians. The strength of each of these religious communities is given in below.

Baha'is	16	Theosophists	1
Jews	19	Zorastrians	344

In 1961 Census, Zorastrians and Nastiks/Atheists were the only two religions under this heading returned with their total strength accounting for 432 persons.

SCHEDULED CASTES
AND
SCHEDULED TRIBES

TABLE C-VIII—SCHEDULED CASTES AND SCHEDULED TRIBES

C-VIII Part A : Classification by literacy and industrial category of workers and non-workers according to main activity among Scheduled Castes.

C-VIII Part B : Classification by literacy and industrial category of workers and non-workers according to main activity among Scheduled Tribes.

This is a general table prepared for total, rural and urban population on full count. Figures for taluks, cities/towns and urban agglomerations are also presented. In case of Bangalore Urban Agglomeration which is spread over two taluks namely Bangalore North and Bangalore South, the figures have been presented separately as an Annexure. This table consists of two parts: Part A relates to Scheduled Castes and Part B to Scheduled Tribes. Both these tables give the distribution of Scheduled Castes and Tribes by literacy, by sex and classification of workers by different industrial categories and non-workers. This table corresponds to C-VIII of 1961 Census. In 1961 Census figures were presented only for rural areas at the taluk level.

Apart from the above tables a number of special tables are given under Part V-A—Special tables on Scheduled Castes and Scheduled Tribes combined in this Volume.

The following statements have been included for purpose of analysis :

Statement 1 : Proportion of Scheduled Castes and Scheduled Tribes to the total population in the State and Districts.

Statement 2 : Literacy among Scheduled Castes by Sex.

Statement 3 : Literacy among Scheduled Tribes by Sex.

Statement 4 : Percentage distribution of Scheduled Caste workers by working categories.

Statement 5 : Percentage distribution of Scheduled Tribe workers by working categories.

Statement 6 : Percentage of Scheduled Caste and Scheduled Tribe population to total population in each district and taluk, 1971.

Statement 7 : Proportion of literates among Scheduled Castes and Scheduled Tribes for State, Districts and Taluks.

Based on these statements a brief note is presented below on the characteristics they present.

Scheduled Castes :

Proportion of Scheduled Castes to total population.

As mentioned earlier, 3,850,034 persons have reported themselves as Scheduled Castes in the State and they account for 13.14% of the total population. The proportion of Scheduled Castes to the total population among the districts as may be seen from Statement 1 varies from 23.94% in Kolar district to 4.11% in North Kanara district. In 11 districts the proportion of Scheduled Castes to the total population of the district is higher than the State average.

Literacy :

Among Scheduled Castes 534,750 persons have been returned as literates in the State. They constitute 13.89% of the total Scheduled Caste population of the State.

The literacy rates among males and females are 20.73% and 6.74% respectively. From Statement 2 it may be observed that North Kanara district has the highest literacy rate (21.07%) among districts, closely followed by Bangalore (20.75%) and Dharwar (19.55%). The lowest literacy rate is in Gulbarga district (6.81%) which is preceded by Raichur (7.22%). The general literacy rates are also low in these districts.

Workers and Non-workers.

Out of 3,850,034 persons belonging to Scheduled Castes 1,530,566 persons are workers and 2,319,468 non-workers. In otherwords 39.75% of the Scheduled Caste population in the State are workers and 60.25% are non-workers.

Statement 4 indicates the percentage distribution of Scheduled Caste workers according to the ten livelihood categories. It is observed that about 75% of the workers are engaged in cultivation and agricultural labour in the State as a whole. Those engaged in occupations under categories III and IX also form considerable proportions among other categories. Coming to districts, cultivation and agricultural labour are predominant in all the districts except in Coorg where more than 45% of the workers are engaged in category III as against about 40% engaged in cultivation and agricultural labour. This is mainly due to high participation in plantation activities.

Kolar district has the highest percentage of workers under category IV namely mining and quarrying activity among Scheduled Castes, preceded by Bellary and North Kanara districts. South Kanara district has 1.35% of the workers engaged under this category and the rest of the districts have less than one percent.

In the districts of Bangalore, Belgaum, North Kanara and South Kanara, the percentage of workers in the manufacturing industry exceeds 10%. Bangalore district claims the highest proportion of 13.37% of Scheduled Caste workers engaged in manufacturing activities, out of which 11.75% of the total workers are in non-household industry as against 1.62% in household industry. On the other hand Belgaum with 12.32% of its Scheduled Castes working in manufacturing industries, being the second highest proportion in the State, accounts for only 3.84% Scheduled Caste workers in non-household industry, implying

that most of the Scheduled Castes in manufacturing industries carry on household industries in this district. However, North Kanara district has more or less equal proportion of workers in the above categories.

In Bangalore and South Kanara districts the percentage of workers engaged in other services exceeds 10%.

Scheduled Tribes:

Proportion of Scheduled Tribes to total population.

In Mysore State 231,268 persons have been reported as Scheduled Tribes forming only 0.79% of State population. The proportion of Scheduled Tribes among districts varies from 7.03% to 0.05%. As may be seen from Statement 1, in five districts, namely, Coorg (7.03%), South Kanara (3.28%), Belgaum (2.19%), Chikmagalur (1.37%) and Mysore (0.94%) the proportion of Scheduled Tribes to the total population exceed the State average. Chitradurga has the lowest proportion of Scheduled Tribes in its population (0.05%) preceded by Bidar (0.08%) and Raichur (0.08%) districts.

Literacy :

Statement 3 indicates the literacy rates by sex among Scheduled Tribes. There are 34,373 literate persons among Scheduled Tribes accounting for 14.85% of the Scheduled Tribe population.

Literacy rate in Scheduled Tribe population is highest in Kolar with 25.92% followed by Bangalore and Bellary with 23.53% and 23.43% respectively. Lowest literacy rate is found in Mandya district with 5.90% which is preceded by Gulbarga district with 6.79%.

Workers and Non-workers.

In the Scheduled Tribe population of 231,268 persons, 97,379 persons are workers and 133,889 persons are non-workers. In terms of percentages, workers account for 42.11%, while non-workers account for 57.89%.

Statement 5 shows the distribution of workers among the working categories. Referring to this statement it may be seen that in the State as a whole, cultivation and agricultural labour engage a little over 70% of the Scheduled Tribe workers. Next in order comes category III (Livestock, forestry etc.) with 10.90% of the working Scheduled Tribe population. This is followed by category IX consisting of 6.11%.

The proportion of workers under categories I and II is generally high in almost all the districts except in Chikmagalur and Hassan where category III claims the highest proportion of workers. Apart from these two districts, Coorg (27.86%), North Kanara (10.27%) and Shimoga (11.27%) have more than 10% of their Scheduled Tribe workers in category III. Category IV accounts for more than 10% of the workers among the Scheduled Tribes in Gulbarga and North Kanara districts. Category V(b) accounts for as much as 19.27% of the Scheduled Tribe workers in North Kanara and 13.99% in Bangalore districts. In the district of Bidar, category VII, namely, Trade and commerce employs 30.22% of Scheduled Tribe workers, which is greater than the proportion under any of the other industrial categories. The proportion of workers in category VIII among the Scheduled Tribes is highest in Bangalore district with 10.29% followed by Bellary (7.60%) and Gulbarga (6.34%). The districts of Gulbarga, Mysore and Raichur have moderate proportion of workers under category IX.

SPECIAL TABLES ON SCHEDULED CASTES AND SCHEDULED TRIBES

INTRODUCTORY NOTE

The Constitution of India under Art. 341 has empowered the President to specify "the castes, races or tribes or parts of groups within castes, races or tribes which shall for the purpose of this Constitution be deemed to be Scheduled Castes". Such Scheduled Castes were notified separately for each State. Similarly, Scheduled Tribes are specified under Art. 342 of the Constitution. Accordingly the President has notified the Scheduled Castes for Mysore State in the orders called the Constitution (Scheduled Castes) Order 1950 and the Constitution (Scheduled Castes) (Part C States) Order 1951 as modified by the Scheduled Castes and Scheduled Tribes Lists (Modification) Order 1956. Such a list of Scheduled Castes and Scheduled Tribes with all subsequent amending Notifications issued upto date relating to the respective regions of the Mysore State is reproduced in the Introductory Note to Part II-C(i) Volume presented in this book. For the purpose of 1971 Census this list was adopted.

During previous Censuses only general information on Scheduled Castes and Scheduled Tribes was being tabulated. But during 1961 Census special tables were prepared for each Scheduled Caste and Scheduled Tribe for the first time and were presented in a separate volume, Part V-A. In the present Census i.e. 1971 Census also a similar attempt has been made. The present volume is the product of this exercise. The figures for each Scheduled Caste and Scheduled Tribe have been cross classified by sex, age, marital status, educational level, economic activity and religion.

The following are the tables generated and presented in this volume.

Special Tables on Scheduled Castes and Scheduled Tribes

SC-I PART A	Industrial classification of persons at work and Non-workers by sex for Scheduled Castes (Rural).
SC-I PART B	Industrial Classification of persons at work and Non-workers by sex for Scheduled Castes (Urban).
SC-II	Age and Marital Status for Scheduled Castes.
SC-III PART A	Educational levels in Urban Areas only for Scheduled Castes.
SC-III PART B	Educational levels in Rural Areas only for Scheduled Castes.
SC-IV	Persons not at work classified by sex, type of activity and educational levels for Scheduled Castes.
ST-I PART A	Industrial classification of persons at work and Non-workers by sex for Scheduled Tribes (Rural).
ST-I PART B	Industrial classification of persons at work and Non-workers by sex for Scheduled Tribes (Urban).
ST-II	Age and Marital Status for Scheduled Tribes.
ST-III PART A	Educational levels in Urban Areas only for Scheduled Tribes.
ST-III PART B	Educational levels in Rural Areas only for Scheduled Tribes.
ST-IV	Persons not at work classified by sex, type of activity and educational levels for Scheduled Tribes.
ST-V	Scheduled Tribes by Religion (This table has not been presented in this book because all the members of the Scheduled Tribes in Mysore State belong to Hindu Religion).

These tables have been compiled with reference to replies to Questions 3 (sex), 4(age), 5(Marital Status), 10(Religion), 11(Scheduled Castes or Scheduled Tribes), 12(Literacy) (L or O), 13(Educational level) and 16 (Main activity) of Individual slip. The instructions relating to questions 3(Sex), 10(Religion), 11(Scheduled Castes or Scheduled Tribes), 12(Literacy) (L or O) and 16(Main activity), have already been reproduced in the earlier part of this book viz Part II—C (i). Instructions only on questions 4(age), 5(Marital Status), 13 (Educational level) have been reproduced below. Both read together will help the reader in appreciating the contents of the tables.

Question 4 : Age

"Record the age of the person in total years completed last birthday. Very often there is a tendency on the part of the individuals to return 'years running' rather than the 'Years completed'. Make sure that only the actual number of years completed is recorded.

In respect of infants who might not have completed one year by the day of enumeration their age in completed years should be invariably shown as '0' as they have not yet completed one year of age and add 'Infant' in brackets. As was stated under general instructions make sure that infants even if a day old are invariably enumerated. You should not enter the age in months. The age of an infant who has

not yet completed one year should invariably be noted as 'O' only.

Age is one of the most important items of demographic data and you should ascertain the age with greatest care. Many persons particularly in the rural areas cannot give their age correctly. They should be assisted to state the correct age by stimulating their memory with reference to any historical event etc. well known in the area. Sometimes the age can be ascertained with reference to the age of another person of a known age that may in the same household or in the neighbouring household or that of the well known person of the village such as Headman of the village. A person can more easily say whether he was older or younger to such a person and by how many years. This will help you to record the age more accurately."

Question 5: *Marital Status*

"In answering this question use the following abbreviations:

NM	:	Never Married
M	:	Currently Married
W	:	Widowed
S	:	Separated or Divorced

For a person who has never been married at any time before, write 'NM' for a person currently married,whether for the first or another time and whose marriage is subsisting at the time of enumeration with the spouse living, write 'M'. Write 'M' also for persons who are recognised by custom or society as married and for the persons in stable *de facto* union. Even if a marriage is disputed in the locality write 'M' if the person concerned says he or she is married or is in stable *de facto* union. For a widowed person whose husband or wife is dead, and who has not been married again, write 'W'. For a person who has been separated from wife or husband and is living apart with no apparent intention of living together again or who has been, divorced either by a decree of a law court or by an accepted social or religious custom but who has not remarried, write 'S'. For a prostitute return her marital status as declared by her."

Question 13: *Educational Levels*

"This question will be asked of those for whom 'L' has been recorded against question 12. For a person who is illiterate and 'O' has been put against in the answer to question 12, there is no advantage in ascertaining the educational level even if he had at some stage attended school and passed a standard and had relapsed into illiteracy. In such a case you should put 'X'. You have to ascertain and record the highest educational level attained by a person for whom 'L' is recorded in answer to question 12.

For a person who is still studying in a particular class, the highest educational level attained by him will be one that he has actually passed and not the one in which he is studying. For example, a person studying in 1st year B.A. should be recorded as only 'PUC' or 'Higher Secondary', as the case may be. Similarly, a person studying, say, in the 4th year of 'MBBS' should not be noted as 'MBBS' but as 3rd year 'MBBS' which is the highest level he has actually attained. If you are not sure whether a person has passed Primary, Middle, Higher Secondary or other definite levels, you may record the actual passed standard such as they say IIIrd Standard, VIIIth Standard, 1st year B.Com. etc.

The highest educational level attained by the person enumerated should be recorded. When a person holds both general and technical qualifications both of which are of equivalent level such as say B.Sc. (Zoology) and M.B.B.S. or B.A. (Maths.) and B.E. (Bachelor in Engineering), the technical qualification should be given preference in recording the highest educational level attained. Where the general educational level is higher than the technical educational level or where it is not possible to decide which of the two levels is relatively higher, the highest level of education as returned by the person concerned should be recorded.

In recording the highest educational level of a graduate or a post-graduate, subject of specialisation such as B.Sc. (Maths.), M.A. (Economics), M.Sc.(Botany), B.Sc. (Agriculture) etc. should be noted. You should not use abbreviations which are not in common use. In such cases, the degree or diploma should be spelt out fully.

Whenever you come across graduates or post-graduates as also those with a technical diploma or degree you will have to issue him 'Degree-holder and Technical Personnel Card' and ask the person concerned to fill it. You should note the location code on the card while issuing it. Put a tick ($\surd$) after noting the educational level against question 13 immediately after you issue a card. When you collect it after some time but before you complete the enumeration of your area, cross the tick and put a circle as ($\times$).

You will have to ensure that the card issued to all the graduates and the technical degree or diploma holders are collected back.

The non-crossed tick, if any, against question 13 will show that the card has not been collected".

SC-I PART A	INDUSTRIAL CLASSIFICATION OF PERSONS AT WORK AND NON-WORKERS BY SEX FOR SCHEDULED CASTES (RURAL)
SC-I PART B	INDUSTRIAL CLASSIFICATION OF PERSONS AT WORK AND NON-WORKERS BY SEX FOR SCHEDULED CASTES (URBAN)

TABLE SC-I

INDUSTRIAL CLASSIFICATION OF PERSONS AT WORK AND NON-WORKERS BY SEX FOR SCHEDULED CASTES

This table presents the distribution of Scheduled Castes into two broad divisions of (i) Workers and (ii) Non-workers; Workers are further classified into nine industrial categories viz. I—Cultivators, II—Agricultural Labourers, III—Livestock, Forestry, Fishing, Hunting and Plantations, Orchards and allied activities, IV—Mining and Quarrying, V—Manufacturing, Processing, Servicing and Repairs (a) Household Industry (b) Other than Household Industry, VI—Construction, VII—Trade and Commerce, VIII—Transport, Storage and Communications and IX—Other Services. Non-workers are shown under Category X.

Data are presented separately for Rural and Urban areas for each Scheduled Caste by sex break up, down to the district level. For convenience, this table is prepared and presented in two parts, Part A for Rural areas and Part B for Urban areas. The information contained in this table would be useful for the formulation of welfare and other measures for the amelioration of the conditions of these section of the population, who have been given certain special rights under the constitution.

This table corresponds to SCT-I Part A of 1961 with slight changes in presentation. In 1961, figures for each synonym or, generic name of the Scheduled Caste, were furnished as an Appendix, whereas in 1971, only names of the Scheduled Castes as they appear in the Presidential Order, for groups as a whole are given.

TABLE SC–III

SC-III PART A EDUCATIONAL LEVELS IN URBAN AREAS ONLY FOR SCHEDULED CASTES

SC-III PART B EDUCATIONAL LEVELS IN RURAL AREAS ONLY FOR SCHEDULED CASTES

Table SC-III is presented in two parts. Part A relates to Urban areas and Part B to Rural areas. In Part A of the table which pertains to urban areas, the literacy standards are classified into : Literate (without Educational level), Primary or Junior Basic, Matriculation or Higher secondary, Non-Technical Diploma not equal to degree, Technical Diploma not equal to degree, University degree or Post-graduate degree other than technical degree, Technical degree or Diploma equal to degree or Post-graduate degree. This table corresponds to SCT-III Part A (i) of 1961.

Data relating to rural areas are presented in Part B. Here, the educational standards are confined to: Literate (without Educational level), Primary or Junior Basic and Matriculation and above but below graduate and Graduate and above. This table corresponds to SCT-III Part B (i) of 1961.

I-Cultivators, II- Agricultural Labourers, III-Livestock, Forestry, Fishing, Hunting and Plantations, Orchards and allied activities, IV-Mining and Quarrying, V-Manufacturing, Processing, Servicing and Repairs (a) At Household Industry (b) Other than Household Industry, VI-Construction, VII-Trade and Commerce, VIII-Transport, Storage and Communications and IX-Other Services. Data are presented separately for Rural and Urban areas for each Scheduled Tribe by sex break up, down to the district level. For convenience, this table is prepared and presented in two parts, Part A for Rural areas and Part B for Urban areas. The information contained in this table would be useful for the formulation of welfare and other measures for the amelioration of the conditions of these section of the population, who have been given certain special rights under the constitution.

This table corresponds to SCT-I Part B of 1961, with slight changes in presentation. In 1961, figures for each synonym or, generic name of the Scheduled Tribe were furnished as an Appendix, whereas in 1971, only names of the Scheduled Tribes as they appear in the Presidential order, for groups as a whole are given.

45—2 Census/Karnataka/76

TABLE ST-II

AGE AND MARITAL STATUS FOR SCHEDULED TRIBES

This table gives sexwise figures for each Scheduled Tribe separately by broad age-groups and marital status for the State and districts. This is an important demographic table which helps the sociologist to study the relationship between age and marital status among the Scheduled Tribes. Figures are presented for three broad age-groups viz. 0-14, 15-44, 45+ and age not stated (A.N.S.) cross classified by marital status compressing never married, married, widowed, divorced or separated and unspecified status, in respect of each Scheduled Tribe. No figures are reported under "Age not stated". This table corresponds to SCT-II Part B of 1951.

ST-III PART A EDUCATIONAL LEVELS IN URBAN AREAS ONLY FOR SCHEDULED TRIBES

ST-III PART B EDUCATIONAL LEVELS IN RURAL AREAS ONLY FOR SCHEDULED TRIBES

TABLE ST-III

ST-III PART—A Educational levels in Urban Areas only for Scheduled Tribes
ST-III PART—B Educational levels in Rural Areas only for Scheduled Tribes

Table ST-III is presented in two parts. Part A relates to Urban areas and Part B to Rural areas. This table gives statistics of literacy and education among the members of each Scheduled Tribe by sex-break up, down to the district level. In Part A of the table which pertains to urban areas, the literacy standards are classified into: Literate (without educational level), Primary or Junior Basic Matriculation or Higher Secondary, Non-Technical diploma not equal to degree, technical diploma not equal to degree, University degree or Post-graduate degree other than technical degree, technical degree or diploma equal to degree or Post-graduate degree. This table corresponds to SCT-III Part A (ii) of 1961.

Data relating to rural areas are presented in Part B. Here, the educational standards are confined to: Literate (without educational level), Primary or Junior Basic Matriculation and above but below Graduate, and Graduate and above. This table corresponds to SCT-III Part B (ii) of 1961 broadly.

This table helps in reviewing the progress of education among Scheduled Tribes in Rural and Urban Areas separately.
