PART III

HOUSEHOLD ECONOMIC TABLES

HOUSEHOLD ECONOMIC TABLES

The Household Economic Tables are a special feature of the 1961 Census in that economic data are for the first time collected and tabulated on the basis of household. They are prepared from Household Schedules by mechanical tabulation on a 20 per cent sample of households. These tables eight in number, B-X to B-XVII, are given in the present publication entitled Part III—Household Economic Tables. They are:—

B-X—Sample Households (i) engaged neither in Cultivation nor Household Industry, (ii) engaged either in Cultivation or Household Industry but not in both and (iii) engaged both in Cultivation and Household Industry for all areas

B-XI—Sample Households engaged in Cultivation classified by interest in land and size of land cultivated in Rural and Urban areas separately

B-XII—Sample Households engaged in Cultivation only classified by size of land cultivated and number of family workers and hired workers in Rural and Urban areas separately

B-XIII—Sample Households engaged both in Cultivation and Household Industry showing size of land cultivated classified by Principal Household Industry in Rural and Urban areas separately

B-XIV—Sample Households engaged only in Household Industry classified by Principal Household Industry in all areas

Part-A—Households classified by major groups of Principal Household Industry and number of persons engaged

Part-B—Households classified by minor groups of Principal Household Industry

B-XV—Sample Households engaged both in Cultivation and Household Industry classified by size of land in Rural and Urban areas separately

B-XVI—Sample Principal Household Industry classified by period of working and total number of workers engaged in Household Industry in all areas

B-XVII—Sample Households classified by size and participation in Household Cultivation or Industry

The tables aforesaid give all possible data relating to the extent of land under cultivation by household (i) owned or held from Government, (ii) held from private persons or institutions for payment in money, kind or share and (iii) given to private persons for cultivation for payment in money, kind or share, local name of right on land under cultivation, nature of Household Industry, period of working of Household Industry and the number of persons employed therein either as family workers or as hired workers.

For the purposes of sampling, the following method described in letter No. 6/6/59-RG dated the 9th May, 1961 from the Deputy Registrar General was followed.

"The method of taking out the sample has already been prescribed in the Summary of Proceedings of the Second Conference. Every 5th household from the first random household will be taken. The sample households will be marked continuously for rural areas of a taluka/mahal and for urban areas of a district, i.e., households left over in a household book should be carried over to the next household book for the selection of sample households. Thus, to start with all the pads of household schedules of one taluka/mahal should be arranged in order of ascending number of the location codes of villages. Secondly, the random number necessary to make a start should be picked up. Thirdly, the first schedule chosen will correspond to this random number. Thereafter the samples will be continuously picked up without a break until the last pad of the taluka/mahal is exhausted. This procedure is essential to ensure the quality of the sample. The sample household will be indicated by a bold tick at the right hand top corner."

Various terms used and the meaning attached to them will be clear from the instructions for filling up the Household Schedule reproduced below:—

'Household' is a group of persons living together and dining together in a common mess unless the exigencies of work prevent any one of them from doing so. In some census houses there may be more than one group of persons or household each with a common mess or each occupying either a number of rooms or more than one household occupying a single room. Each such group has been regarded as a separate household for census purposes.

Institutions like boarding houses, messes and chummeries have also been regarded as census households but of "un-related persons living together."

The 'head of the household' for census purposes is a person on whom falls the chief responsibility for the maintenance of the household. Thus the head of the household need not necessarily be the eldest male member but may even be a female or a younger member of either sex. The enumerator was, however, advised to record as Head of household the name of the person, actually acknowledged as such.

Write the location code of the household at the top of the schedule. At the right hand corner of the location code you will find a question " Is this an institution? " with a rectangle below it. If you are enumerating any penal, charitable or mental institution, hostel, hotel, hospital, boarding house, etc., write the nature of the institution within the rectangle like jail, hospital, etc.

If the head of the household is a member of the Scheduled Caste or Scheduled Tribe obtaining in your State or in your district, write the name of the particular Scheduled Caste or Scheduled Tribe to which the head of the household belongs within the parallelogram.

The household schedule is in three parts. Sub-part 'A' relates to Cultivation; sub-part 'B' to Household Industry and sub-part 'C' to workers at Cultivation or Household Industry.

Sub-part 'A'—'Cultivation'—This part will have to be filled in only where the household cultivates land. Three categories of land are given in items 1(i), 1(ii) and 2. Items 1 (i) and 1 (ii) relate to land actually cultivated by the household. Item 2 relates to land which is not cultivated by the household but has been given by it to private persons for cultivation for payment in money, kind or share. In each of the three cases the total of separate plots or parcels of land in different places, owned or held, or taken or given for cultivation should be made and entered. If the household (a) cultivates land owned or held from Government or taken from private persons or institutions or (b) has given land to private persons for cultivation, ascertain the local name of the right on such land and record it in the column relating to 'local name of right on land'. Then ascertain the extent of land in each category of local right in acres and record in the column relating to 'area in acres'. Write the total of separate plots or parcels of land under the same right, if they are situated in different places. If the extent of holding is less than 1 acre, the fraction of the acre should be recorded in the household schedule and if it is above 1 acre the whole number of acre (s) together with the approximately correct fraction such as 0-0.99 acre, 1-1.99 acres, 2-2.99 acres, etc., should be recorded.

This sub-part will not apply to households which consist of only agricultural labourers without any land. In such cases put 'X' in all the spaces provided in the right hand side and put a bold cross on this sub-part.

Sub-part 'B'—'Household Industry'—This part will be filled up only where there is a Household Industry conducted by the Head of the household himself and/or mainly by members of the household at home or within the village in rural areas and only at home in urban areas. The industry should not be on the scale of a registered factory. A Household Industry should relate to production, processing, servicing or repairing and includes makers and sellers of goods.

Ascertain from the Head of the household whether there are any Household Industries and write the nature of industry (s) in the column provided, if there are any. Then ascertain for how many months in a year roughly they are conducted and put down the number of months in the appropriate column. If the industry is conducted throughout the year write '12'. If there is no Household Industry of any sort put 'X' in each of the places in the right hand corner and put a bold cross on this sub-part.

Sub-part—'C'—' Workers in Cultivation or Household Industry '—In the case of households which are engaged only in cultivation, if the Head of the household is working write 1 under the column 'Head', and ascertain how many other male and female members of the family are working. Write the numbers in the respective columns. Write the total number of family workers including the Head, if he is working, in the column relating to 'Total'. Then ascertain whether any hired workers are employed and, if so, write the number of such workers in the column allotted for it. The hired workers should have been in wholetime employment during last working season or should be in wholetime employment during current working season. Similarly, record entries in column 2 in case of households engaged in Household Industry and against column 3 if a household is engaged both in Cultivation and Household Industry. In the case of households engaged in Cultivation only, put 'X' in the columns relating to 'Household Industry only' and ' Both in Household Cultivation and Household Industry'. Similarly, in the case of households engaged in Household Industry only, put 'X' in the columns relating to 'Household Cultivation only' and 'Both in Household Cultivation and Household Industry'. If a household is engaged both in Household Cultivation and Household Industry put 'X' in the columns relating to 'Household Cultivation only' and 'Household Industry only'. If a household is not engaged in either Household Cultivation or Household Industry or both, put 'X' in all the columns and bold 'X' on this sub-part.

Out of a total of ten tables, viz., B-X to B-XVII, C-I and SCT-V prepared from household schedules, Tables B-X to B-XVII are given in this volume.

AHMEDABAD,
18th September, 1963.

R. K. TRIVEDI,
Superintendent of Census Operations,
Gujarat.

TABLE B-X

SAMPLE HOUSEHOLDS (i) ENGAGED NEITHER IN CULTIVATION NOR HOUSEHOLD INDUSTRY, (ii) ENGAGED EITHER IN CULTIVATION OR HOUSEHOLD INDUSTRY BUT NOT IN BOTH AND (iii) ENGAGED BOTH IN CULTIVATION AND HOUSEHOLD INDUSTRY FOR *ALL AREAS*

(Based on 20% Sample)

This table is prepared on a 20% sample of households and is presented down to district for all areas and taluka/mahal for rural areas only. All the households are divided into four categories, viz., (i) Households engaged neither in Cultivation nor Household Industry, (ii) Households engaged in Cultivation only, (iii) Households engaged in Household Industry only and (iv) Households engaged both in Cultivation and Household Industry. The table thus divides all households in three important sectors of economic activity of the State.

Cultivation includes ownership, tenancy cultivation and agricultural labour. The Household Industry as defined in the general flyleaf, relates to production, processing, servicing or repairing and includes makers and sellers of goods.

B-X—SAMPLE HOUSEHOLDS (i) ENGAGED NEITHER IN CULTIVATION NOR HOUSEHOLD INDUSTRY, (ii) ENGAGED EITHER IN CULTIVATION OR HOUSEHOLD INDUSTRY BUT NOT IN BOTH AND (iii) ENGAGED BOTH IN CULTIVATION AND HOUSEHOLD INDUSTRY FOR *ALL AREAS*

TABLE B-XI

SAMPLE HOUSEHOLDS ENGAGED IN CULTIVATION CLASSIFIED BY INTEREST IN LAND AND SIZE OF LAND CULTIVATED IN RURAL AND URBAN AREAS SEPARATELY

(Based on 20% Sample)

This table is prepared separately for rural and urban areas. It presents data down to district for all areas and by taluka for rural areas only. Cultivating households are classified in this table according to the size of land cultivated and cross-tabulated by the interest in land. Sizes of land in acres are given as less than 1, 1.0-2.4, 2.5-4.9, 5.0-7.4, 7.5-9.9, 10.0-12.4, 12.5-14.9, 15.0-29.9, 30.0-49.9, 50+ and unspecified.

The interest in land cultivated has been classified into the following categories:—

(1) Owned or held from Government, (2) Held from private persons or institutions for payment in money, kind or share and (3) Partly held from Government and partly from private persons for payment in money, kind or share.

This classification will give an idea of the number of holdings likely to be (i) deficit, (ii) self-sufficient and (iii) surplus for self-consumption.

Abbreviations (a), (b) and (c) are given in place of legends for interest in land under Column 1 of the table and the same have been spelt out as under at the bottom of each page.

(a)=Owned or held from Government,

(b)=Held from private persons or institutions for payment in money, kind or share and

(c)=Partly held from Government and partly from private persons for payment in money, kind or share.

TABLE B-XII

SAMPLE HOUSEHOLDS ENGAGED IN CULTIVATION ONLY CLASSIFIED BY SIZE OF LAND CULTIVATED AND NUMBER OF FAMILY WORKERS AND HIRED WORKERS IN RURAL AND URBAN AREAS SEPARATELY

(Based on 20% Sample)

This table is prepared separately for rural and urban areas and is presented down to district. The figures for taluka/mahal are given for rural areas also. It furnishes information on the extent of rural under-employment and yields surmises on the size and scale of agricultural enterprise. This table will facilitate a further study of households engaged only in cultivation, as each household having a particular size of holding mentioned in Table B-XI has been cross-tabulated with reference to the number of persons working in cultivation. In case of households where more than one person are working, the number of family workers and hired workers has been shown separately.

The Columns 25 and 26 relating to unspecified workers have been omitted as there are no figures thereunder.

TABLE B-XIII

SAMPLE HOUSEHOLDS ENGAGED BOTH IN CULTIVATION AND HOUSEHOLD INDUSTRY SHOWING SIZE OF LAND CULTIVATED CLASSIFIED BY PRINCIPAL HOUSEHOLD INDUSTRY IN RURAL AND URBAN AREAS SEPARATELY

(Based on 20% Sample)

The table is prepared for rural and urban areas and is presented down to district. It throws light on Household Industries which are carried on as ancillary to cultivation in different parts of the State.

The Household Industries classified according to the code numbers of Divisions 0, 1 and 2 & 3 and their major groups of Indian Standard Industrial Classification are given with their standard description.

Major groups of Household Industry having less than 10% of the figures of the respective division are not given in the table but are shown in the appendix. The divisions thus affected are marked with an asterisk (*).

APPENDIX

Major groups of Household Industry which are less than 10 per cent of the respective division have not been shown in the main table which shows such divisions by an asterisk. Major groups thus dropped from the main table are given run on in this Appendix. The figure preceding the bracket represents the code number of the major group dropped from the table. Alphabets given in brackets are abbreviations meant for different ranges of holdings in acres as explained below. The numerical figure given after the alphabet denotes the number of households in that particular range indicated by that alphabet.

Abbreviation		Class Ranges of Land in Acres	Abbreviation		Class Ranges of Land in Acres
A	means	Less than 1 acre			
B	,,	1.0— 2.4 acres	G	means	12.5—14.9 acres
C	,,	2.5— 4.9 ,,	H	,,	15.0—29.9 ,,
D	,,	5.0— 7.4 ,,	I	,,	30.0—49.9 ,,
E	,,	7.5— 9.9 ,,	J	,,	50+ ,,
F	,,	10.0—12.4 ,,	K	,,	Unspecified

For example:- State Gujarat-Rural-20(A-5, C-2, H-1)

Figure 20 stands for Major Group 20 relating to 'foodstuffs', A-5 means that there are five households having less than one acre of land engaged in 'foodstuffs' industry in the rural areas of Gujarat State. C-2 likewise means two such households in the land holding range 2.5 to 4.9 acres and H-1 one such household in the land holding range 15.0-29.9 and so on.

The list of major groups thus dropped from the main table is given below:-

TABLE B-XIV

SAMPLE HOUSEHOLDS ENGAGED ONLY IN HOUSEHOLD INDUSTRY CLASSIFIED BY PRINCIPAL HOUSEHOLD INDUSTRY IN *ALL AREAS*

(Based on 20% Sample)

The table is prepared in two parts—A and B. Part-A relates to households classified by major groups of Principal Household Industry and number of persons engaged. It is presented down to district for all areas—total/rural/urban. The Household Industries classified according to the code numbers of Divisions 0, 1 and 2 & 3 and their major groups of Indian Standard Industrial Classification are given along with their standard description. The Household Industries are also classified by the number of persons engaged in each, grouped under 1, 2, 3-5, 6-10 and more than 10 persons.

The major groups of Household Industry having less than 10% of the figures of the respective division are not given in the table but are shown in the Appendix. The divisions thus affected are marked with an asterisk (*).

Part-B relates to households classified by minor groups of Principal Household Industry, and is presented down to district for total/rural/urban.

APPENDIX

Major groups of Household Industry which are less than 10 per cent of the respective division have not been shown in the main table, which shows such divisions by an asterisk. Major groups thus dropped from the main table are given run on in this Appendix. The figure preceding the bracket represents code number of the major group dropped from the table. Alphabets given in brackets are abbreviations meant for class ranges of persons engaged in the household industry as explained below. The numerical figure given after alphabet denotes the number of households in that particular range indicated by that alphabet.

Abbreviation		Class Range of Persons	Abbreviation		Class Range of Persons
A	means	1 Person	D	means	6–10 Persons
B	,,	2 Persons	E	,,	More than 10 Persons
C	,,	3–5 Persons			

For example:-Gujarat State-Rural-20 (A–44, B–33)

Figure 20 stands for Major Group 20 relating to 'foodstuffs', A–44 means that there are 44 households having 'one' person working in 'foodstuffs' industry, and B–33 means 33 households having 'two' persons working in 'foodstuffs' industry in the rural areas of Gujarat State.

The list of major groups thus dropped from the main table is given below.

TABLE B-XV

SAMPLE HOUSEHOLDS ENGAGED BOTH IN CULTIVATION AND HOUSEHOLD INDUSTRY CLASSIFIED BY SIZE OF LAND IN RURAL AND URBAN AREAS SEPARATELY

(Based on 20% Sample)

This table is prepared for household engaged both in Cultivation and Household Industry and given separately for rural and urban areas of the districts and for rural areas only of taluka/mahal.

In Table B-XIII, which also relates to these households, a cross-tabulation has been made between the size of the holding and the nature of Household Industry. But in this table a further analysis has been made of persons working in these households with reference to sizes of holdings. In cases where more than one person are employed, the number of family workers and hired workers are shown separately. Table B-XV also helps to establish correlation between the scale of household industry and cultivation.

TABLE B-XVI

SAMPLE PRINCIPAL HOUSEHOLD INDUSTRY CLASSIFIED BY PERIOD OF WORKING AND TOTAL NUMBER OF WORKERS ENGAGED IN HOUSEHOLD INDUSTRY IN *ALL AREAS*

(Based on 20% Sample)

The table is presented down to district with total/rural/urban break-up. It furnishes important data on the seasonality of various Household Industries and yields inferences on the seasonality of Household Industry with seasonality of cultivation. The Household Industry has been classified according to the period of working of the industry. The period of working has been grouped under 1-3 months, 4-6 months, 7-9 months and 10 months to 1 year, also giving under each category number of households, number of family workers and number of hired workers in the Household Industry. The Household Industry is divided into (i) with cultivation and (ii) without cultivation.

Major groups of Household Industry having less than 10% of the figures of the respective division have not been given in the table but are given in the Appendix. The divisions thus affected are marked with an asterisk (*).

APPENDIX

Major groups of Household Industry which are less than 10 per cent of the respective divisions have not been shown in the main table which shows such divisions by an asterisk. Major groups thus dropped from the main table are given run on in this Appendix. The figure preceding the bracket represents the code number of the major group dropped from the table. Alphabets given in brackets are abbreviations meant for different ranges of period of working in the Household Industries 'with' or 'without' cultivation as explained below. The numerical figure given after alphabet denotes the number of households in that particular range indicated by that alphabet.

Abbreviation		With cultivation	Class range of period of working	Abbreviation		Without cultivation	Class range of period of working
A	means	„	1 to 3 months	E	means	„	1 to 3 months
B	„	„	4 to 6 „	F	„	„	4 to 6 „
C	„	„	7 to 9 „	G	„	„	7 to 9 „
D	„	„	10 months to 1 year	H	„	„	10 months to 1 year
X	„	„	Unspecified months	Y	„	„	Unspecified months

For example:-Gujarat State—Rural-20 (B-6, C-1, E-1, X-1, Y-4)

Figure 20 stands for Major Group 20 relating to 'food stuffs', B-6 means that there are 6 households working in the class range of '4 to 6 months' in that household industry with cultivation, C-1 means that there is 1 household working in the class range of '7 to 9 months' in that household industry with cultivation and E-1 means that there is 1 household working in the class range of '1 to 3 months' in that household industry without cultivation, X-1 means that there is one household working for 'unspecified months' with cultivation and Y-4 means that there are 4 households working for 'unspecified months' without cultivation in the 'foodstuffs' industry in the rural areas of Gujarat State.

The list of major groups thus dropped from the main table is given below.

TABLE B-XVII

XVII—SAMPLE HOUSEHOLDS CLASSIFIED BY (i) NUMBER OF MALE AND FEMALE MEMBERS & SIZE OF HOUSEHOLDS AND (ii) ENGAGEMENT (a) NEITHER IN CULTIVATION NOR IN INDUSTRY (b) IN HOUSEHOLD INDUSTRY ONLY AND (c) IN CULTIVATION SUB-CLASSIFIED BY SIZE OF LAND CULTIVATED

(Based on 20% Sample)

The table is presented down to district and gives data for total/rural/urban. It is intended to give family sizes distributed according to single member, small, medium, large and very large families. Though a 'Census Household' is not the same as a 'family' and also includes unrelated persons living with the family during the census count, the table will give a general idea of the sizes of families as the number of families having outsiders is quite insignificant.

The table gives such economic data as (i) Households engaged neither in cultivation nor household industry, (ii) Households engaged in household industry only and (iii) Households engaged in cultivation by size of holding groups with the break-up of sample households into (i) single member, (ii) 2-3 members, (iii) 4-6 members, (iv) 7-9 members and (v) 10 members and over.

Since the table is based on 20% sample, total number of households and household population are given in the following statement :—

Total number of Households and Household Population
