DISTRICT CENSUS HANDBOOK
PART - A & B

SIDHI DISTRICT

VILLAGE & TOWN DIRECTORY

VILLAGE & TOWNWISE PRIMARY CENSUS ABSTRACT

Ram Singh
Joint Director
Directorate of Census Operations, Madhya Pradesh and Chhattisgarh

SUPER THERMAL POWER PLANT- SINGRAULI

A fifth project of the National Thermal Power Corporation (NTPC), started in 1982 at Singrouli is situated in the north – west bank of Pandit Govind Ballabh Pant (Rihand dam). The Project was extended in six phases. The total production of the plant is 2260 m.w. Maharashtra, Gujrat, Goa, Daman and Diu, Dadra and Nagar Haveli are the other beneficiary states in addition to Madhya Pradesh.

(i) Appendix to Town Directory : Towns showing their outgrowth with Population			496

Part - B : Primary Census Abstract

(a) Brief note on Primary Census Abstract			499-501
(b) District Primary Census Abstract (General)			502-507
(c) Appendix to District Primary Census Abstract i.e. urban blockwise figures of Total, SC and ST population			508-515
Primary Census Abstract for Scheduled Castes			516-521
Primary Census Abstract for Scheduled Tribes			522-527
CD Block wise Village Primary Census Abstract			528-743
Urban Primary Census Abstract			744-755
Annexure-I	:	Number of villages under each Gram Panchayat(CD Blockwise)	756-823
Annexure-II	:	Note on Fertility, Mortality and Migration, 1991 Census	823
Annexure-III	:	Various measures of Fertility and mean age at marriage, 1991 Census	824-826
Annexure-IV	:	Percentage distribution of Migrants by place of birth/ place of last residence,2001 Census	827-829
Annexure-V	:	Brief account of main religion in the district/tahsils as per 2001 Census	830
Annexure-VI	:	Marital status of population as per 2001 Census	831
Annexure-VII	:	Age, Sex and Education in the district, 2001 Census	832
Annexure-VIII	:	Distribution of different mother tongues returned in 2001 Census	833
Annexure-IX	:	Statement of Five Main SC and ST in the District, 1991 census	834
Annexure-X	:	Hamletwise total population of villages, Census 2001	835-920
Annexure-XI	:	Statement of Disability in the District, Census 2001	921

Foreword

The District Census Handbook (DCHB) published by Census Organisation since 1951 census, is one of the important publications in the context of planning and development at grass-root level. The publication, which is brought out for each district, contains several demographic and socio-economic characteristics village-wise and town-wise of the district alongwith the status of availability of civic amenities, infrastructural facilities, etc.

2. The scope of the DCHB was initially confined to a few Census tables and Primary Census Abstract (PCA) of each village and town within the district. Thereafter, at successive censuses, its scope and coverage has been enlarged. The DCHB published at the 1961 census provided a descriptive account of the district, administrative statistics, census tables and a village and town directory including PCA. The 1971 census-DCHB series was in three parts: Part-A related to village and town directory, part-B to village and town PCA and Part-C comprised analytical report, administrative statistics, district census tables and certain analytical tables based on PCA and amenity data in respect of villages. The 1981 census DCHB was in two parts: Part-A contained village and town directory and Part-B the PCA of village and town including the SCs and STs PCA up to tahsil/ town levels. New features alongwith restructuring of the formats of village and town directory were added into it. In Village Directory, all amenities except electricity were brought together and if any amenity was not available in the referent village, the distance in board ranges from the nearest place having such an amenity, was given. Information on new items such as adult literacy centres, primary health sub-centres and community health workers in the village were provided so as to meet the requirements of some of the Revised Minimum Needs Programme. Information on approach to the village was provided for the first time in the village Directory so as to give the details on number of inaccessible villages in each district. In the town Directory, a statement (IV-A) on slums introduced to provide the details on civic and other amenities in the notified slums of Class I and Class II towns.

3. The 1991 census DCHB, by and large, followed the pattern of presentation of 1981 census, except the format of PCA was restructured. Nine-fold industrial classification of main workers was given against the four-fold industrial classification presented in the 1981 census. In addition, sex-wise population in 0-6 age group was included in the PCA for the first time with a view to enable the data users to compile more realistic literacy rate as all children below 7 years of age had been treated as illiterate at the time of 1991 census. One of the important innovations in the 1991 census was the Community Development Block (CD block) level presentation of village directory and PCA data instead of the traditional tahsil/taluk/PS level presentation. It was expected that the presentation of village directory and PCA data at CD block level will help the planners in formulation of micro level development plans, CD block being lowest administrative unit.

4. The present series of 2001 census DCHBs have been made more informative and exhaustive in terms of coverage and content. The village Directory has been enlarged in scope by including a number of other facilities like banking, recreational and cultural facilities, newspapers and magazines and 'most important commodity' manufactured in village. Income and expenditure of gram panchayat, wherever possible, has been provided. Apart from these, more details on distance(s) at which basic amenities are available (if not available in the village), are given. This includes educational facilities (namely primary and middle schools and college), medical facilities (viz. Allopathic Hospital, Maternity & Child Welfare Centre and Primary Health Centre), drinking water, post & telegraph (post office and phone), communication, bank, credit societies and recreational facilities. In town Directory, the statement on slums has been modified and its coverage enlarged by including

details on all slums instead of 'notified slums'. The information is given in case of all statutory towns irrespective of their class, against only Class I and Class II towns in the 1981 and 1991 censuses. The basic amenities available in the villages and towns are analysed in depth with the help of a number of cross-classified inset tables and statements. Two other significant additions in the publication are inclusion of 'motif' highlighting significant characteristic of the district and analytical notes as annexures. The analytical notes on (i) fertility and mortality and (ii) various measures of fertility and mean age at marriage are prepared based on 1991 Census. Whereas, in the notes relating to (i) percentage distribution of migrants by place of birth/place of last residence, (ii) main religions, (iii) marital status of population, (iv) age, sex and education , and (v) distribution of spectrum of mother tongue, nature and extent of changes occurred in the district in its basic socio-demographic features during the decade 1991-2001 are analysed. The eight digital permanent location code (PLCN) to all the villages and towns have been assigned keeping in view the future needs.

5. The village and town level amenity data have been collected, complied and computerised in prescribed record structure under the supervision of Shri Prabhakar Bansod, Director of Census Operations, Bhopal. Thereafter, efforts have been made to ensure comparability of the information with that of 1991 census data and the information brought out by the respective state governments in their annual reports and statistical handbooks for various years after 1991. The task of planning, designing and coordination of this publication was carried out by Shri R.G. Mitra, Deputy Registrar General (C&T) and Dr. I.C. Agrawal, Senior Research Officer of Social Studies Divisions. Dr. R.P. Singh Deputy Registrar General (Map) provided the technical guidance in the preparation of maps. Whereas, Shri Anil Kumar Arora, Deputy Director of Data Processing Division who worked under the overall supervision of Shri Himakar, Addl. Director(EDP) helped in preparation of record structure for computerisation of village and town directory data and the programme for the generation of Village Directory and Town Directory statement including analytical inset tables. The draft DCHB manuscripts received from the Census Directorates have been scrutinised in the Social Studies Division Under the guidance of Shri S.L.Jain, Deputy Director and Shri. R.K. Mehata, Assistant Director. I am thankful to all of them and others who have contributed to make this publication possible.

D.K. Sikri
Registrar General &
Census Commissioner, India

Preface

The District Census Handbook (DCHB) compiled by the Census organization, Government of India is one of the most valuable and usable product of the Census. As its name suggests, it is brought out for each district in the State. This publication started from the 1951 Census, but prior to this, a similar publication was released in the earlier censuses. Those publications contained only village statistics, village names and total population thereof. The 1951 Census could, therefore be said to represent a significant step forward, in the process of making detailed census statistics available down to the village level. An important achievement, for the first time in 1991 Census, was that the village level data was presented Community Development Blockwise.

The scope of District Census Handbook has undergone considerable change since 1951. This is basically due to the growing demand for more information. For the purpose of convenience as well as with a view to make the basic statistics available to the data users, as early as possible, the District Census Handbook of 1991 was brought out in a single volume as against the earlier practice of bringing it out in two parts. The volume was however divided in two parts viz. part A and part B. Part A contained the Village/Town Directory while part B contained the Primary Census Data, based on the 1991 Census count. Continuing the practice of 1991 Census, the 2001 series of the District Census Handbooks is comprised of two parts but the present series is more informative in terms of coverage and contents. Part A contains Village Directory which provides information on infrastructure amenities and land use data at village level i.e. name and location of villages, area, population, number of households, important civic amenities/facilities available in villages like educational, medical, drinking water, post, telegraph, commercial and co-operative banks, agricultural and non-agricultural credit societies, recreational and cultural facilities, communications, approach to the village, nearest town and its distance, power supply, news papers/magazine and most important commodity manufactured in the villages. Similarly, the comprehensive statements and their analysis of Town Directory provide valuable information on growth, physical, economic, civic and development aspects in respect of each town of the district. CD block being the lowest administrative unit for developmental planning, it is assumed that the data provided at this level would be extremely useful to the planners for formulating micro level developmental plans.

Part B of the District Census Handbook contains Village and Town Primary Census Abstract. This provides information on area, occupied residential houses, number of households, sex-wise total population. child population in age-group 0-6, Scheduled Castes and Scheduled Tribes, literates, workers, non-workers and divisions of workers into four industrial categories i.e. cultivators, agricultural labourers, workers in household industries and other workers in respect of each village and town of the district. Besides the brief history and other major characteristics of the district, inset tables and appendixes based on village directory, housing tables and PCA and their analysis added in the District Census Handbook provide glimpse of availability of amenities to villages relating to housing, assets available with households and demographic profile of population at tahsil/ CD block level which are helpful for rural planning. Annexures giving information on religion, Scheduled Castes/Scheduled Tribes, migration, fertility, mother tongue have been included.

It has to be remembered that the villagewise area figures presented in the PCA are based on village information in the form of C-3 as furnished by the revenue authority and the "total" given for the administrative units viz community development blocks, is the total of the area figures of village coming under it while in the case of the administrative unit viz, tehsil, the "total" area shown, is based on the information furnished by the Commissioner, Land Records ,Government of Madhya Pradesh, Gwalior. In some cases the total area shown against the tahsil, may not tally with the total of the area figures of villages coming under it.

The District Census Handbook had been a joint venture of the Government of Madhya Pradesh and the Government of India. The design of 2001 District Census Handbook has been evolved centrally by the Census Commissioner, India and accordingly these books have been prepared by my office. In earlier censuses, the cost of publication of these books were borne by the State Government but now these are being printed centrally by the Census organization. In accomplishing this task we have had the whole hearted cooperation of the staff at various levels of different departments of the State Government. The data supplied by the field level officers have been comparatively checked with 1991 DCHB information and have been cross checked with the data obtained from various departments. An attempt had been made to reconcile the discrepancies by external validation to make it more reliable. I am grateful to all heads of departments of the State Government officers and staff engaged in the conduct of 2001 Census for their cooperation to accomplish this task.

The compilation of such a huge amount of varied data in a single volume requires proper planning and close monitoring. We had the honour of having enlightened guidance and encouragement of Shri J.K.Banthia, IAS, Registrar General and Census Commissioner of India. I owe special thanks to Shri. J.K.Banthia. After the repatriation of Shri J.K.Banthia to Maharashtra Government and later to come foreign assignment. We have been receiving continous guidance and support from Shri D.K. Sikri presently Registrar General and Census Commissioner, India for bringing this report out. I am grateful to him. I am thankful to Dr. R.P. Singh, DRG (Map), Shri. R.G. Mitra DRG (C&T) and Dr.I.C. Agrawal, Sr. Research Officer (S.S.) and Shri.S.L. Jain, Dy. Director of S.S. Division for providing technical guidance.

In the directorate many officers/officials contributed in the Census 2001. First of all I am grateful to the then Director of Census Operation, Madhya Pradesh & Chhattisgarh, Shri Prabhakar Bansod under whose guidance the Census 2001 was carried out successfully.

The data presented in the District Census Handbook required a concerted team work of officers and staff member of this Directorate who were involved with it at various stages of its planning, supervision, field work, computerisation, preparation of manuscript, prepration of CRC with the help of Adobe Pagemaking technique, maps and printing. I express my appreciation for the painstaking dedicated service rendered by all of them and also to the officers and staff of Data Centre, Bhopal for their untiring cooperation in finalizing the 2001 Census Data.

I shall feel greatly rewarded if the book comes to the expectation of the data users.

District Highlights - 2001 Census

1. The district occupies 8th place in the state according to population.

2. The district occupies 17th rank in the state in terms of area having 7,371 sq.km. which is 3.41 percent of the total area of state.

3. Literacy rate of Sidhi district is 52.3 percent and it occupies 42nd position in the state. The female literacy rate of the district is 36 percent .

4. Density wise the rank of the district is 24th in the state.

5. Ranking of the district according to the sex-ratio is 21st in the state.

6. Female work participation of the district is 34.2 percent of total female population. Rank of the district according to female work participation is 24th .

7. Population wise largest village is Hanumangarh of Rampur Naikin tahsil L.C.No.02071900 with 6133 population and smallest village is Surga of Deosar tahsil L.C.No.02190700 with population of only 1 person.

8. Population wise largest town is Singrauli (M Corp.) having population 185,190 and smallest is Naudhia(NP) with 7,137 population.

9. Economy of the district is mainly dependent on agriculture and the district is famous for Super Thermal Power Plant-Singrauli.

Definition of Census Town :-

All places which satisfy or are expected to satisfy the following criteria are treated as Census Towns:-

i) A minimum population of 5,000;

ii) At least 75 per cent of the male working population engaged in non-agricultural pursuits, and

iii) A density of population of at least 400 per square kilometre (1,000 per square mile).

ANALYTICAL NOTE

Analytical Note

(i) History and Scope of District Census Handbook:

The District Census Handbook (DCHB), compiled by the Census Organisation, Government of India, on behalf of the State Government is one of the most valuable product of the Census. It is brought out for every district and is a very useful publication which is widely used by planners, administrators, academicians and researchers as it provides, among other things, the primary census data down to the village level.

History :

The history of the District Census Handbook could be traced from the "Village lists" brought out for every district in 1901 and "Village Statistics" for every district in 1911. This was discontinued in 1921 and 1931. In 1941, however, "Village Statistics" were brought out by the then Central Provinces and Berar Government. It was for the first time in 1951 that the practice of brining out a single volume known as District Census Handbook, giving village wise statistics and other Census tables for the districts, at the cost of the State Government, was initiated .

Scope :

The maiden publication of the District Census Handbook of 1951 contained village wise primary census data and census tables for the district. With the increasing utility and demand of statistical data for the planning process, the scope of the District Census Handbook was enhanced to a great extent in 1961 by including non-census data like climate, agriculture, animal husbandry, co-operative bank, industry, education, health, etc., apart from presenting the village wise primary census data and census tables. An introductory note giving information on historical background, physical features, soil, climate, civic administration, agriculture, industry, education, etc. together with detailed analysis on census tables was also a novel feature of the 1961 census. Maps of District and Tahsil were also included.

Publication of DCHB at the 1971 Census :

The desire to make the District Census Handbook more comprehensive in 1961, delayed the publication in some states. Therefore, in 1971, the Registrar General and Census Commissioner of India, decided to bring out DCHB in three parts viz. Part A, B and C, in order to release the maximum data as and when ready. Accordingly Part A was to contain the village wise Land Use data and the amenities and facilities available in the villages, these being part of the non-census statistics. Part B was to comprise the village wise primary census data, while in part C, the various non-census statistics at the district level and a few at tahsil level were to be presented.

However, in Madhya Pradesh, Part A and B were published in one volume, since it was economical to do so and data for both the parts had become available early. For various reasons, collection of non-census statistics took a long time and consequently, finalization of Part C was unduly delayed. Though the manuscript of Part C were allotted to different Regional Presses by the Controller, Printing and stationary, Government of Madhya Pradesh for printing. Ultimately this publication had to be abandoned due to the enormous delay in the process of its finalization and printing.

Strategy at the 1981 Census :

In 1981 census with a view to avoid delay in the publication of DCHB series, part C containing the non-census statistics, as well as the census tables for the district were dropped. The scope of the District Census Handbook was, however, enlarged by the addition of tahsil wise list of villages where no amenities were available and tahsil wise list of the villages according to the proportion of Scheduled Caste/Tribes population by ranges in the form of Appendices III and IV respectively were added since Appendices I and II were already there.

Appendix III has been helpful for planning input in areas/villages where basic infrastructure is lacking,

while Appendix IV has been helpful for planning welfare programmes for Scheduled Castes/Scheduled Tribes at micro level, particularly in relation to development oriented programmes.

In the town directory portion of DCHB Part A and additional Statement IV-A was also introduced in 1981. This statement was meant only for Class I and Class II towns and indicated the civic and other amenities in notified slums.

The inclusion of the Primary Census Abstract relating to the Scheduled Castes and Scheduled Tribes at the tahsil/town level in Part B portion of the DCHB was another important feature of 1981 Census. An appendix containing Development block wise totals of Primary Census Abstract was also presented in the DCHB series 1981 though it was not prescribed in the All India pattern.

The 1991 DCHB Series :

In the context of development planning the CD block stay as an operational unit, the presentation of village-wise statistics at the CD block level had been very helpful for the administrators and planners in formulating various development plans. The same had been presented CD blockwise in 1991 Census.

The scope of the 1991 DCHB, particularly the village directory was enhanced to a great extent by the inclusion of additional information on various subjects such as inset tables on area, population and density in the districts, tahsils and towns, jurisdictional changes 1981-91 etc.

Contents of the DCHB series 2001 :

The present series of District Census Handbook consisting of two parts viz. Part A and Part B is being published in a single Volume.

Part A Village Directory :

Village Directory contains information about the name of the village with location code number, assigned to it by the Census Organisation, geographical area of the village, total population and number of households in the village, amenities like education, medical, drinking water, post and telegraphs, communications, approach to village together with distance in Km, distance from the nearest town, power supply and land use data. In addition there are eight appendix to the village Directory as under :

Appendix I : CD Block wise(rural) abstract of educational, medical and other amenities.

Appendix I-a : CD Block wise abstract of villages by number of Primary schools.

Appendix I-b : CD Block wise abstract of Villages of Primary, middle and secondary schools.

Appendix I-c : CD Block wise abstract of Villages with different sources of drinking water facilities available.

Appendix II : Villages with 5000 and above Population, which do not have one or more amenities

Appendix II-a : Census Towns which do not have one or more amenities

Appendix III : Land Utilization data in respect of Census Towns/Non Municipal Towns.

Appendix IV : CD block wise list of inhabited villages where no amenity other that drinking water facility is available.

Appendix V : Summary showing number of villages not having Scheduled Castes Population.

Appendix VI : Summary showing number of villages not having Scheduled Tribe Population.

Appendix VII A: List of villages according to the proportion of the Scheduled Castes to the total population by ranges.

Appendix VII B: List of villages according to the proportion of the Scheduled Tribes to the total population by ranges.

Appendix VIII : Statement showing number of girls school in the villages.

Town Directory :

The Town Directory contains the following seven statements and one appendix.

Statement I : Status and Growth History

Statement II : Physical aspects and location of towns

Statement III : Municipal Finance

Statement IV : Civic and other amenities

Statement V : Medical,Educational, Recreational and cultural facilities

Statement VI : Trade, Commerce, Industry and Banking

Statement VII: Civic and other amenities in slums

Appendix to Town Directory – Towns showing their outgrowth with population.

Primary Census Abstract

Part B: -The Primary Census Abstract gives basic information on Area, Total Households, Total population, Scheduled Castes, Scheduled Tribes population, Population in the age group 0-6, Literates, Main Workers and Marginal workers classified by the four broad industrial categories, namely, (i) Cultivators, (ii) Agricultural Labourers, (iii) Household Industry Workers, and (iv) Other Workers and Non-workers. The characteristics of the Total population includes Scheduled Castes, Scheduled Tribes, Institutional and Houseless population and are presented by sex and rural-urban residence. This data is presented at different levels namely, Districts, CD blocks, Village, and UA/Towns. In addition, Ward/Enumeration blockwise population is given in the Appendix to District Primary Census Abstract.

Primary Census Abstracts for Scheduled Castes and Scheduled Tribes:

The primary Census Abstract relating to Scheduled Castes and Scheduled Tribes is also being presented separately at the CD Block-wise /Town wise. It will have the same characteristics as indicated in the Primary census Abstract to the total population.

Publication of DCHB in Regional Language :

In 1981, part A and part B of DCHB were brought out separately for every district which were printed in diglot i.e. a mixed up Hindi and English versions while in 1971, both the parts i.e. part A and part B were brought out in a single volume with simultaneous Hindi and English versions. The 1961 DCHB were however published in a single volume in English version only for district, since there were no separate parts like DCHB of 1971 and 1981 censuses. The 1951 census DCHB series were published with a mix of both Hindi and English but with a difference. That is to say that the districts belonging to the erstwhile state of Madhya Pradesh comprising the Mahakoshal Region and 2 districts of erstwhile Bhopal state has the District Census Handbook in English version only, while with respect to 16 districts of Madhya Bharat region, the DCHB were published in diglot. The DCHB of 8 districts of Vindhya Pradesh region were however published in Hindi version only.

New Features of DCHB 2001 :

The main features of Village Directory of DCHB 2001 are :

(1) For the first time eight digit continuous location code is assigned to all the villages within the state. These are the Permanent Location Code Numbers (PLCN) and starts from the first village of first Tahsil of first district of State and continue till the end of last village of last Tahsil of the last district within a state.

(2) The State codes are given in serpentine order for the first time which were assigned alphabetically in 1991 Census . As a result the State code of Madhya Pradesh which was 13 in 1991 has changed to 23 in 2001.

(3) As compared to earlier series of Village Directory addition of more useful information viz. Number of Commercial, co-operative banks and the nearest distance of availability of amenity, Agriculture and Non-Agriculture credit societies, Recreational and Cultural facilities, availability of Newspaper/ magazines and names of important commodities manufactured are included in Census 2001 for the first time in Village Directory.

(4) Annexures giving information on fertility, religion, migration, mother tongue, Scheduled Caste/Scheduled Tribe have been included in DCHB 2001.

Town Directory :

No major change has been made in Town Directory when compared to Town Directory of 1991. However, some improvement has been made in the data collection on slums of the towns having population

50,000 and more in which separate Enumeration Blocks were carved for slums during houselisting and population enumeration. In 2001 information with respect to slum areas have been collected for all towns.

The information of slums for Class I and II towns that is with population 50,000 or more was compiled in statement IV-A in Census 1991. In Census 2001, this information is compiled for all the towns irrespective of their size in statement VII.

Primary Census Abstract :

(1) Information on individuals has been collected in Household schedules and practice of collecting data on individual slip has been discontinued.

(2) For persons recorded as other workers, the information on distance of place of duty and the means of transport of place of duty are obtained in column 27 and 28 of the household schedule.

(3) The information on Disability was obtained for the first time in Census 2001 in column 15 of the household schedule.

(4) The household schedule is divided in three parts. The information on cultivation/ plantation is recorded in part III of the household schedule for the first time in census 2001.

(ii) Brief History of the District :

The district derives its name from the district headquarters town, Sidhi. Ancient history of the district is a matter of speculation before the settlement of the Chandels, probably in the 15th century, much of the territories now included in the district were under Bhar and Balanda chiefs. The following note of the history of the district after its occupation by Chandels has been taken from the Rewa State Gazetteer.

The Chandella Chief Parmadideva (Parmal) (1167-1213) Mahoba had five sons. One of them Ranjit Dev in *Samvat* 1313 (A.D. 1256) established himself at Agori (Mirzapur district). The second son Asajit Singh became the Raja of Kabar. The third Sobhajit Singh remained in Mahoba, while Brahma Dev and Brahmajit were killed. Hariharshah 20th in descent from Ranjit Dev, the Raja of Agori, had two sons, of whom the elder succeeded to Agori while the younger Rudrashah, received the *Ilakas* of Bijaura (Bardi tahsil) as his share. Rudrashah moved to the village Garhwa in the Bijpura *Ilaka*, where his descendents remained for two generations. In the 18th century (24th generation) Raja Mayurshah was removed from Garhwa to Bardi, at the junction of the Son and Gopad rivers. Bodhrai, the younger brother of Rao Ratan, 40th in the descent from Ranjit Dev, received as his share the village of Bhopari, 6 miles to the west of Sihawal where he built a stone fort. The Rajas of Bardi made over the *Ilaka* of Singrauli to Maharaja Jaisingh in lieu of tribute and later Ajit Chandel Raja of Bardi, being constantly harassed by his clansmen came to Rewah with his Rani Jagat Kunwari and formally made over his estate to Maharaja (Then Babu Saheb) Visvanath Singh in 1819, retaining for himself only as much as was sufficient for his men and Rani's maintenance.

Singrauli was formerly held by *Zamindars* of the Khairwar tribe from whom it passed to the Venuvanshis, a ruling family of Jhansi, Perhaps the Khairwar rulers of Singrauli tract were subordinate to chiefs of Bardi.

The centre of freedom struggle was Rewa. As far as Sidhi district was concerned, the movement affected only the Rampur tract. Brijbasilal and Ram Sumeran took active interest in the nationalist activities. They used to arrange meetings and processions in support of the movement. Some persons of Sidhi took active part in the "**Quit India**" movement at Rewa.

Meanwhile, the demand for responsible Government was gaining momentum in the Princely estates also. A Constitutional Advisory Committee, appointed in 1945 by the Chamber of Princes, emphasised the importance of progressive reforms in the estates and expected the rulers to introduce the same expeditiously. These recommendations of the Committee were implemented in many estates. Side by Side Praja Mandal was also established in the Rewa State to achieve responsible Government. Consequently, the Maharaja of Rewa, on 2nd April, 1946, announced his decision to appoint a Committee of Enquiry under Sir Krishna Swami Aiyer, former Advocate General of Madras, to draw a workable Constitution suited to Rewa for introducing popular Government.

In the year 1946, Maharaja Gulab Singh was deposed by the Government of India. He was

succeeded by his son, Maharaja Martand Singh (1946-48).

At the time of transfer of power from the British to the Indian hands, on 15th August, 1947, Bundelkhand and Baghelkhand consisted of 35 Princely estates. Out of them Rewa State alone was declared a viable State. However, the Maharaja of Rewa merged his State with neighbouring Bundelkhand States to form Vindhya Pradesh in 1948. Thus, Sidhi became one of the districts in the Part C State of Vindhya Pradesh. The Ministry of Vindhya Pradesh did not work smoothly. Therefore, the Government of India took over Vindhya Pradesh as centrally administered area on 1st January, 1950.

Subsequently, in 1956, as a result of the reorganisation of estates, Vindhya Pradesh was merged alongwith other States to form the new State of Madhya Pradesh, and Sidhi, as a district, passed from Vindhya Pradesh to the larger State of Madhya Pradesh.

(iii) Administrative set up:

According to Census 2001, the total number of villages are 1808 in the district. There are 9 tahsil in the district. Tahsilwise number of villages are, Rampur Naikin (142), Gopadbanas (204), Churhat (133), Singhawal (313), Deosar (225), Chitarangi (305), Majholi (132), Kusmi (132) and Singrauli (Waidhan) (204). Whereas 8 CD blocks are namely, Rampur Naikin, Sidhi, Singhawal, Chitarangi, Deosar, Majholi, Kusmi and Waidhan. As per urban classification, Singrauli M.Corp., Sidhi M., Churhat and Rampur-Naikin are NP, and Nandhia is C.T. In all the CD block's head quarter. there are 8 Janpad Panchayat. There are 713 Gram Panchayat in the district. Under the revenue administration there are 356 *Patwari Halkas.*

The district is the basic territorial unit of administration in the state as well as in India. The Collector, as the head of district administration, is the key functionary of the Government, having vast powers and wide responsibilities. In many ways he is the link between the state Government and the people. He is the custodian of law and order and the pivot of local administration.

The Collector is the Chief Executive Officer of the district and as such he exercises general supervision over various departments in respect of general administration work. Co-ordination of the activities of various departments, control over local self governing bodies, execution of Government Schemes and miscellaneous functions, such as Panchayat, Census, election and relief measures during natural calamities like floods, famine and epidemics, etc. also come within his preview.

The Collector is assisted by Deputy Collectors, Tahsildars, *Naib*-Tahsildars, Revenue inspectors and *Patwaris*. The collector is also associated with a number of others Committees in the district. The most important among them is the District Advisory Committee. The Collector is also vested with statutory powers under Excise Act. to implement the excise and prohibition policy of the Government Superintendent of police is the head of Police department at the district headquarter and Deputy Superintendent of police are posted at tahsil headquarters. In order to facilitate proper and smooth functioning of judiciary and administration there are 18 police station in the district.

The Judiciary is independent. At the district level there is District Court headed by District and Session Judge. District and Session Judge is assisted by Civil-Judges posted at tahsil level.

During last decade (1991-2001) no any remarkable administrative changes took place.

(iv) Physical Features:

District Sidhi is situated on the northeastern margin of the state extending between latitude 23°47' and 24°42' North and longitudes 81°17' and 82°48' East. The district is bounded by Rewa district in the north, Mirzapur district of Uttar Pradesh in the north-east and east, Surguja district of Chhattisgarh state in the south, Satna and Shahdol districts in the north-west and south-west respectively. The district is quadrangular broadest in the east and gradually tapering towards the west. It's geographical area is 10526 sq.km (Surveyor General of India report). It is the fourth largest district of Madhya Pradesh in respect of area which is 3.41% of the total area of the state.

The District can be divided into three physical divisions, namely, the Vinjh Scraps, the Son Valley and the Southern Plateau.

Vinjh is the local name for the Kaimur range of hills that continues from Jabalpur district in the west to Rohatasgarh in the east. The range scraps sharply to the south and blocks the northern banks of the Son.

Naturally the north-ward slope is more gentle. The watershed of the Kaimur forms the northern boundary of the district except for a small portion of Deosar tahsil in the north-east. They rise to about 300 metres above the mean sea level, but are hardly 10 km. wide. The important peaks are Koria (601.4 metres), Gorhwa Parur (516.0 metres), Baghmaria (540.7 metres), Baragaon (487.4 metres), Marchia (497.4 metres) and Karda (446.4 metres). Although, the Vinjh (or Kaimur) is not so high as in the west the precipitous fall together with the parallel course of the Son is formidable obstruction in free communication between Sidhi and Rewa and Sidhi and Mirzapur. Any communication line has to be sought through the passes and wind-graps, important among which are Baghwar, Gaddi, Mohania, Jati Sarai, Kamarji, Baragaon, Bhaghor, Bichi, Kasda and Khurar.

Almost parallel to the scarp of the Kaimur is the valley of river Son, to the south of it. The valley, though long, is very narrow and fertile. It is cut up by ravines at a few places. Where as the hills predominate quite close in the south, only a line of low hills passes through the strip in the north. It extends from Rampur to Chorhat. The level of the valley is 150 to 300 metres above mean sea level.

The Southern Plaeau is a part of the Chhota Nagpur Plateau, with intermittent plains lying above 300 metres. In the northern part of the plateau the hills are lesser in height than those in the south. They are also aligned very clearly from west-south-west to east-north-east. The phenomenon is visible in the highest ranges anywhere from Chonradol to Maoli and east of Jiawan-Waidhan road. Similarly, the hill ranges along the southern boundary are also aligned from west to east, through they rise to about 650 metres or more. It is only in the central region, in the traingle marking Majholi, Maoli, and Mara that the hills have been shaped by the water action into north-south direction. This indicates that the present alignment of rivers from south to north must have originated after the lava flows in this region. With the gradual denudation of trap-rocks and the re-appearance of the older formations, the streams must have maintained their course with slight adjustments with the pre-lava-flow channels. The highest peak rises to 818.7 metres west of Mara and to 815.0 metres near Churi. Another peak raeaches 742.40 metres high near Sonhurri. Pokra in the north-east is 672.7 metres where as Bankawa as 655.96 metres. The district is elevated from mean sea level 243.68 meters minimum and 600.60 meters maximum height.

The important plains on the Southern plateau are those of Majholi, Marhwas, Jiawan, Waidhan and Dihewa.

Drainage :

The main river namely, Son, Gopad, Banas, Rihand and their numerous tributaries which join Ganga system constitute the drainage system of the district. These rivers after passing through the district join Bay of Bengal, Son flows in the north of the district, almost parallel to the Kaimur ridge. Banas, which makes the western boundary of the district and Gopad-banas tahsil rises in the hills of Bharatpur tahsil in Surguja district. The Gopad river also rises in Surguja district from the hills in the north-west of Surajpur tahsil. In the initial stage, it flows almost due west but turns after being joined by the Lodhar river from the west. After being joined by the Sehra stream in Gopadbanas tahsil, the river takes a turn to the north east and maintains this course till it meets the Son near village Bardi. One of the main tributaries of the river is Mohan river which rises in the north west of Singrauli tahsil flows past the village Jiyawan and Deosar, the tahsil headquarters where it opens out in a small plain and joins the Gopad. The Rihand flows through the big open plain in the south eastern part of the district and the Singrauli tahsil. The Kachan and the Mayar are affluents of same size of Rihand in Singrauli tahsil. Before joining the Rihand, these rivers unite, about 8 km. to the south west of Singrauli.

Climate and Rainfall:

The district has an extreme climate, January and December are the coldest months of the year. The minimum temperature in the month of January was 8.6°C in 2000. Temperature starts, rising steadily from the month of February till May which is the hottest month with mean daily maximum temperature at about 42°C. On individual day it may exceed 47°C. The days are warmer in May, the nights appear to be warmer in June than in May, the mean minimum temperatures being highest in the month of June. The mean day and night, temperatures start declining in intensity respectively in September and October which have

warmer days and pleasant nights on an average than in the month of August. The explanations that whereas the temperature in August is kept under control by rains, no such moderate influence is expected on temperature in October. After this brief interruption, the day temperature also starts declining, till they touch the lowest level in December and January. The monsoon usually sets in by the end of June or by the 1st week of July and ceases generally by the end of September. Winds are generally light with a slight strengthening in force during the summer and monsoon months. In the post monsoon and winter months the winds generally blow from directions between north-west and north-east. In the monsoon season the winds are mostly from the west or south-west.

During monsoon season depression from the Bay of Bengal move in a westerly to north-westerly direction and pass through the district or its neighbourhood causing heavy rain. During the monsoon season the skies are mostly heavily clouded or overcast. In the rest of the year the skies are generally clear or lightly clouded.

Forest:

Forest have a vital role in the economy of the district. Forest have important role in maintaining ecological balance, conservation of soil erosion and forest based industries. The district has generally mixed forests. As per annual forest administrative report of 1999-2000, total forest area in the district is reported 4373.490 sq.kms. Reserved forest area is 2653.426 sq.km's, protected forest area is 1720.064 sq.km's. Main forest produces are *tendu*-leaf, timber wood, *Mahua*, Harra, lac, gum and other several medicinal products. There are most important forest of *Sal* (Shorea—robusta). *Salaiya* (Boswellia-Serrata) exists only as an edaphic climax species without natural regeneration. The most common species trees are *tendu, bhirra, rohan, moyan, dhawara, achar, kulu, khair, haldu, bija, tinsa, aonla* etc.

Main wild animals are carnivora - tiger, panther, wild cat, and byacha are found Sambhar, Jackal, spotted dear, black-buck, bule-bull, barking deer, bison, wild bore, chital are the common pet animals. White rat, ordinary squirvel and lizards are the rodents in the forest. Indian cobra, spotted krait are most common snakes, scorpion and poisonous lizards are also noticed. There in only one Game sanctuary, the Dubri Game sanctuary preserved in the district. It extends over an area of 303 sq.km. in Majhauli and west Marwas ranges.

Land use:

Mair, *Domat* and mixed are the soil found in the district. Total geographical area of the district is reported 484,498 hectares out of which forest area is 229,667 hectares i.e. 47.4% of total area. The non-agricultural land is 116,288 hectares, uncultivable and baron land is 32,204 hectares, cultivable land is 47,990 hectares and was paddy, wheat, gram, maize, jawar linseed ramtil, soyabean etc. grow in the distrct. *Mair* soil suitable to the crops of wheat, gram and linseed.

Minerals:

Coal, limestone, sandstone, sand, bauxite are found in the district. During 1999-2000 the coal extracted was 20,872,000 mt. tonnes and lime-stone quarried was 163,620 mt.tonnes as reported, 77,232 and 25,023 mt. tonnes of Murram and sand respectively Bauxite extracted 2,275,440 mt. tonnes was reported.

Agriculture:

Paddy is the principal crop of the district. Wheat, maize, jowar, barley, gram and tur are the other principal food crops of the district. *Ramtil*, *urad* and soyabean crops are also sown. In the year 1999-2000 total sown area was 319,836 hectares, out of which vegetables sown in 3,780 hectares, fruits and flowers in 516 hectares, forest products in 229,667 hectares and spices in 667 hect. Northern and eastern parts are the most fertile regions of the district and it is in this eastern tract that maximum paddy is grown. kharif locally known as *siari* and rabi locally known as *unhari*. In the double cropped regions after kharif crops like paddy, maize, sama etc. rabi crops of wheat, grass, barley, etc. are taken from the same fields.

Irrigation:

Irrigation in the district is very limited in its extent. The district is being vigorously exploited to work as a much needed booster for long awaited agricultural prosperity. Main sources of the irrigation are wells, tubewells, ponds, canals & dams in the district.

Animal Husbandry:

In the Sidhi district, the entire live stock population in the year 1997 consisted of 1365931 heads. There were 1,365,931 cattle, in which 822,261 cows, 170,807 buffloes and other cattle-wealth was 366,863 as per cattle-census conducted in the year 1997.

Fishery:

The Son and Gopad are the main arteries of the Ganga drainage system. The nature of fish fauna is therefore, related to the type found in seasonal-upstreams of the Ganga. The notable tanks utilised for pisciculture are at Sidhi, Tiwarigama, Buda, Tikath, Mudi and Nowgama.

Industry:

Promotion of industries in the district is looked after by District industry Centre. There were total 6,887 industrial units, including cottage & village industries in the district. There is 2 Industrial institutions, whereas the number of registered small industries were only 18. Only 11 small industries were registered in the district. Main small scale industries are flour mills, cotton-carding, saw-mills, printing press, oil-mills, brick manufacture, wooden furniture and jwellery manufacture in the district. Main commodity like rice, wheat, linseed etc. exported from the district, whereas kerosene oil, cloths, gas and petrol are imported.

Transport:

The length of railway line is only 400 kms. in the district. The length of pucca road was 2,395.50 kms. and length of kachcha road as 1,839.22 kms. as reported in the district. Out of 1,808 villages in the districts, 1,200 villages were approachable and connected by roads. Altogether, 16,975 vehicles were registered. No. of two wheelers were 17,403. The only rail link in this district is Katni - Singrauli line which traverses the district from west to east. All tahsil headquarters were connected with Sidhi as well as Rewa, Satna etc.

Electricity:

Basic infrastructure is important for industrial and agricultural development. For all round development, gradually increasing demand and generation of power is very essential. During 1999-2000; generation of electricity reported 3,459.13 K.W., where as industrial consumption was 257,975 k.w. and domitic consumption was 27,719 k.w.

Panchayat:

Panchayat is the basic institution of local administration and is the foundation of decentralized administration. Under the Directive Principles of State Policy, the Constitution of India provides the Panchayati Raj System. M.P. Government passed M.P. Panchayat Adhiniyam System. Under 73rd Amendment of the Constitution, M.P. Government passed the Panchayat Notification 1993 which provides panchayat for villages, Janpad panchayats for blocks and district panchayat for district. As per M.P. Gram Sabha Notification 2001, Gram Sabha, includes all the major persons is constitually approved unit and gives voting rights to elect Panch, Sarpanch, members of Janpad and members of district panchayat. The Gram Sabha has power to approve works under annual budget of the village. Constituted with the elected members, these institutions work for 5 years. At all level there is reservation for Scheduled Castes and Scheduled Tribes according to the population ratio. For women there is 1/3 reservation. Village Panchayat, Janpad Panchayat and District Panchayat have members 10-20, 10-25, 10-35 respectively.

Gram Panchayat within its area and within its budget, can take up work like cleanliness, water supply, public works(roads, buildings, well tanks) market rates, co-operation to Government works, Community health and development works. Janpad Panchayat within its budget take up works, like community development and village integration, agriculture, social, commerce, cattle-rearing, fish-breeding, adult-education, co-operatives, cottage industry, welfare and employment oriented programme. It is the duty of the district

panchayat to have control over Janpad panchayats and village panchayats and to establish coordination between them, give directions to them and advise the Government regarding development works.

(v) Census Concepts

Building

A 'Building' is generally a single structure on the ground. Sometimes it is made up of more than one component units which are used or likely to be used as dwellings(residences) or establishments such as shops, business houses, offices, factories, workshops, worksheds, Schools, places of entertainment, places of worship, godowns, stores etc. It is also possible that building which have component units may be used for a combination of purposes such as shop-cum-residence,workshop-cum-residence,office-cum-residence,etc.

Usually a structure will have four walls and a roof. But in some areas the very nature of construction of houses is such that there may not be any wall. Such is the case of conical structures where entrance is also provided but they may not have any walls. Therefore, such of the conical structures are also treated as separate buildings.

Permanent houses

Houses, the walls and roof of which are made of permanent materials. The material of walls can be any one from the following, namely, galvanized iron sheets or other metal sheets, asbestos sheets, burnt bricks, stones or concrete. Roof may be made of from any one of the following materials, namely, tiles, slate, galvanized iron sheets, metal sheets, asbestos sheets, bricks, stones or concrete.

Semi-permanent houses

Houses in which either the wall or the roof is made of permanent material and the other is made of temporary material.

Temporary houses

Houses in which both walls and roof are made of materials, which have to be replaced frequently. Walls may be made from any one of the following temporary materials, namely, grass, thatch, bamboo, plastic, polythene, mud, unburnt bricks or wood. Roof may be made from any one of the following temporary materials, namely, grass, thatch, bamboo, wood, mud, plastic or polythene.

Dwelling Room

A room is treated as a dwelling room if it has walls with a doorway and a roof and should be wide and long enough for a person to sleep in, i.e. it should have a length of not less than 2 meters and a breadth of at least 1.5 meters and a height of 2 meters. A dwelling room would include living room, bedroom, dining room, drawing room, study room, servant's room and other habitable rooms. Kitchen, bathroom, latrine, store room, passageway and verandah which are not normally usable for living are not considered as dwelling rooms. A room, used for multipurpose such as sleeping, sitting, dining, storing, cooking, etc., is regarded as a dwelling room. In a situation where a census houses is used as a shop or office., etc., and the household also stays in it then the room is not considered as a dwelling room. But if a garage or servant quarter is used by a servant and if she/ he also lives in it as a separate household then this has been considered as a dwelling room available to the servant's household. Tent or conical shaped hut if used for living by any household is also considered as dwelling room.

A dwelling room, which is shared by more than one household, has not been counted for any of them. If two households have a dwelling room each but in addition also share a common dwelling room, then the common room has not been counted for either of the households.

Census House

A 'census house' is a building or part of a building used or recognised as a separate unit because of having a separate main entrance from the road or common courtyard or staircase, etc. It may be occupied or vacant. It may be used for residential or non- residential purpose or both.

In certain peculiar situations, the manner in which buildings and census houses were identified for numbering in the field by the enumerators is described hereunder:

Sometimes a series of different buildings are found along a street which are joined with one another by common walls on either side looking like

a continuous structure. These different units are practically independent of one another and are likely to have been built at different times and owned by different persons. In such cases, though the whole structure with all the adjoining units apparently appears to be one building, each portion was treated as a separate building and its constituent units as separate census houses.

On the other hand, one may come across cases, particularly in large cities of multi-storeyed ownership flats. In these cases while the structure looks like one building, different persons own the flats. In case of such multi-storeyed structures, having a number of flats owned by different persons, the entire structure was treated as one building and each flat as a separate census house.

If within a large enclosed area, there are separate buildings owned by different persons then each such building is treated as a separate building. There can be a situation where within an enclosed compound there are separate buildings owned by an undertaking or company or even government that are actually in occupation of different persons. For example, Indian Oil Corporation colony where the buildings are owned by the Corporation but these are in occupation of their employees. Each such building was treated as a separate building. But if in any one of these buildings there were flats in occupation of different households, each such flat was reckoned as a separate census house.

Sometimes if becomes difficult to apply the definition of census house strictly in certain cases. For example, in an urban area, if a flat has five rooms, each room having direct entrance from the common staircase or courtyard. By definition, this has to be treated as five census houses. If all these five rooms are occupied by a single household it was not realistic to treat them as five census houses. In such a case,'singleness' of use of these rooms along with the main house should be considered and the entire flat was treated as one census house. On the other hand, if two independent households occupy these five rooms, the first household living in 3 rooms and the second household occupying 2 rooms, then considering the use, the first three rooms together were treated as one census house and the remaining rooms as another census house. But if each room was occupied by an independent household, then each such room was treated as a separate census house.

In case of hostels, hotels, etc., even if the door of each room in which an inmate lives opens to a common verandah, staircase, courtyard or a common room, as it happens almost invariably, the entire hostel/ Hotel building was treated as one census house. but if such hostels/ hotels have out-houses or other structures used for different purposes or the same purpose, then each such structure attached to the main hostel / hotel was treated as a separate census house.

In some parts of the country, in rural areas, the pattern of habitation is such that a group of huts, located in a compound, whether enclosed or unenclosed, is occupied by one household. While the main residence may be located in one hut, other huts may be used for sleeping, as a kitchen, bath room, baithak, etc. Though each of the huts was a separates structure, they form a single housing unit and therefore, have to be treated collectively as one building and one census house. If some of the huts are used by one household and the others by a second household as residence, then the two groups of huts were treated as separate census houses. However, if there were also other huts in the compound used for other purposes and not as part of the household's residence such as, cattle shed, workshed, etc., these were treated as separate census houses.

On the other hand, in urban areas, where more than one structure within an enclosed or open compound (premises) belonging to the same person, e.g., the main house, the servant's quarter, the garage, etc., only one building number was given for this group and each of the constituent a separate census house number.

Only cases where a structure with roof and pillars has come up was treated as a building.

Village :

The basic unit for rural areas is the revenue village which has definite surveyed boundaries. The revenue village may comprise of one or more hamlets but the entire village is treated as one unit for presentation of data. In unsurveyed areas, like villages within forest areas, each habitation area with locally recognized boundaries is treated as one village.

Rural-Urban area

The data in tables on Houses, Household Amenities and Assets are presented separately for rural and urban areas. The unit of classification in this regard is 'town' for urban areas and 'village' for rural areas. In the Census of India 2001, the definition of urban area adopted is as follows:

a) All places with a municipality, corporation, cantonment board or notified town area committee, etc.

b) A place satisfying the following three criteria simultaneously:

   i) A minimum population of 5,000;

   ii) at least 75 per cent of male working population engaged in non-agricultural pursuits; and

   iii) a density of population of at least 400 per sq. km.(1,000 per sq.mile)

For identification of places which would qualify to be classified as 'urban' all villages, which, as per the 1991 Census had a population of 4,000 and above, a population density of 400 persons per sq. km. and having at least 75 per cent of male working population engaged in non-agricultural activity were considered. To work out the proportion of male working population referred to above against b) (ii), the data relating to main workers were taken into account.

Apart from these, the outgrowths(OGs) of cities and towns have also been treated as urban under 'Urban Agglomerations'. Examples of out-growths are railway colonies, university campuses, port areas, military camps, etc., that may have come up near a statutory town or city but within the revenue limits of a village or villages contiguous to the town or city. Each such individual area by itself may not satisfy the demographic criteria laid down at (b) above to qualify it to be treated as an independent urban unit but may deserve to be clubbed with the towns as a continuous urban spread. Thus, the town level data, wherever presented, also includes the data for outgrowths of such towns.

City :

Towns with population of 1,00,000 and above are called cities.

Urban Agglomeration :

An Urban Agglomeration is a continuous urban spread constituting a town and its adjoining urban outgrowths (OGs) or two or more physically contiguous towns together and any adjoining urban outgrowths of such towns. In some cases railway colonies, university campuses, port areas, etc., may come up near a city or statutory town outside its statutory limits but within the revenue limits of a village or villages contiguous to the town or city. Each such individual area by itself may not satisfy the minimum population limit to qualify it to be treated as an independent urban unit but may deserve to be clubbed with the town as a continuous urban spread. For the purpose of delineation of Urban Agglomerations during Census of India 2001, following criteria are taken as pre-requisites:

(a) The core town or at least one of the constituent towns of an urban agglo-meration should necessarily be a statutory town ; and

(b) The total population of all the constituents (i.e., towns and outgrowths) of an Urban Agglomeration should not be less than 20,000 (as per the 1991 Census). With these two basic criteria having been met, the following are the possible different situations in which Urban Agglomerations would be constituted:

   i) a city or town with one or more contiguous outgrowths;

   ii) two or more adjoining towns with their outgrowths; and

   iii) a city and one or more adjoining towns with their outgrowths all of which form a continuous spread.

Household

A 'household' is usually a group of persons who normally live together and take their meals from a common kitchen unless the exigencies of work prevent

any of them from doing so. Persons in a household may be related or unrelated or a mix of both. However, if a group of unrelated persons live in a census house but do not take their meals from the common kitchen, then they are not constituent of a common household. Each such person was to be treated as a separate household. The important link in finding out whether it was a household or not was a common kitchen. There may be one member households, two member households or multi-member households.

Institutional Household

A group of unrelated persons who live in an institution and take their meals from a common kitchen is called an Institutional Household. Examples of Institutional Households are boarding houses, messes, hostels, hotels, rescue homes, jails, ashrams, orphanages, etc. To make the definition more clearly perceptible to the enumerators at the Census 2001, it was specifically mentioned that this category or households would cover only those households where a group of unrelated persons live in an institution and share a common kitchen.

Houseless household :

Households who do not live in buildings or census houses but live in the open on roadside, pavements, in hume pipes, under fly-overs and staircases, or in the open in places of worship, mandaps, railway platforms, etc., are treated as Houseless Households.

Scheduled Caste and Scheduled Tribe :

Article 341 of the Constitution provides that the President may, with respect to any State or Union territory, specify the castes, races or tribes or parts of or groups within castes, races or tribes which shall for the purposes of the Constitution be deemed to be Scheduled Castes in relation to that State or Union territory. Article 342 similarly provides for specification of tribes or tribal communities or parts of or groups within tribes or tribal communities which are to be deemed for the purposes of the Constitution to be Scheduled Tribes in relation to the various States and Union territories. In pursuance of these provisions, the list of Scheduled Castes and/or Scheduled Tribes are notified for each State and Union territory and are valid only within the jurisdiction of that State or Union territory and not outside. It is important to mention here that under the Constitution (Scheduled Castes) Order, 1950, no person who professed a religion different from Hinduism was deemed to be a member of a Scheduled Caste in addition to every member of the Ramdasi, Kabirpanthi, Majhabi or Sikligar caste resident in Punjab or Patiala and East Punjab States Union were in relation to that State whether they professed the Hindu or the Sikh religion. Subsequently, in September 1956, by an amendment, the Presidential Order of 1950 and in all subsequent Presidential Orders relating to Scheduled Castes, the Hindu and the Sikh religions were placed on the same footing with regard to the specification of Scheduled Castes. Later on, as per the amendment made in the Constitution (Scheduled Castes) Order 1990, the Hindu, the Sikh and the Buddhist were placed on the same footing with regard to the recognition of the Scheduled Castes. The lists containing the names of the Scheduled Castes and the Scheduled Tribes applicable for the Census of India 2001 in the State/ Union territory are given below :

List of Scheduled Castes and Scheduled Tribes

Scheduled Castes :

1. Audhelia
2. Bagri, Bagdi
3. Bahna, Bahana
4. Balahi, Balai
5. Banchada
6. Barahar, Basod
7. Bargunda
8. Basor, Burud, Bansor, Bansodi, Bansphor, Basar
9. Bedia
10. Beldar, Sunkar
11. Bhangi, Mehtar, Balmik, Lalbegi, Dharkar
12. Bhanumati
13. Chadar
14. Chamar, Chamari, Bairwa, Bhambi, Jatav, Mochi, Regar, Nona, Rohidas, Ramnami, Satnami, Surjyabansi, Surjyaramnami, Ahirwar, Chamar Mangan, Raidas
15. Chidar

16. Chikwa, Chikvi
17. Chitar
18. Dahait, Dahayat, Dahat
19. Dewar
20. Dhanuk
21. Dhed, Dher
22. Dhobi (in Bhopal, Raisen and Sehore districts)
23. Dohor
24. Dom, Dumar, Dome, Domar, Doris
25. Ganda, Gandi
26. Ghasi, Ghasia
27. Holiya
28. Kanjar
29. Katia, Patharia
30. Khatik
31. Koli, Kori
32. Kotwal (in Bhind, Dhar, Dewas, Guna, Gwalior, Bhander tahsil of Datia district, Indore, Jhabua, Khargone, Barwani, Neemuch, Mandsaur, Morena, Sheopur, Rajgarh, Ratlam, Shajapur, Shivpuri, Ujjain and Vidisha districts)
33. Khangar, Kanera, Mirdha
34. Kuchbandhia
35. Kumhar (in Chhatarpur, Datia(except Bhander tahsil), Panna, Rewa, Satna, Shahdol, Umaria, Sidhi and Tikamgarh districts)
36. Mahar, Mehra, Mehar
37. Mang, Mang Garodi, Mang Garudi, Dankhni Mang, Mang Mahasi, Madari, Garudi, Radhe Mang
38. Meghwal
39. Moghia
40. Muskhan
41. Nat, Kalbelia, Sapera, Navdigar, Kubutar
42. Pardhi (in Bhind, Dhar, Dewas, Guna, Gwalior, Bhander tahsil of Datia distt. Indore, Jhabua, Khargone, Barwani, Mandsaur, ,Neemuch, Morena, Sheopur, Rajgarh, Ratlam, Shajapur, Shivpuri, Ujjain and Vidisha districts)
43. Pasi
44. Rujjhar
45. Sansi, Sansia
46. Silawat
47. Zamral

Scheduled Tribes :

1. Agariya
2. Andh
3. Baiga
4. Bhaina
5. Bharia, Bhumia, Bhuinhar Bhumia, Bhumiya, Bharia, Paliha, Pando
6. Bhattra
7. Bhil, Bhilala, Barela, Patelia
8. Bhil Mina
9. Bhunjia
10. Biar, Biyar
11. Binjhwar
12. Birhul, Birhor
13. Damor, Damaria
14. Dhanwar
15. Gadaba, Gadba
16. Gond, Arakh, Arrakh, Agaria, Asur, Badi Maria, Bada Maria, Bhatola, Bhimma, Bhuta, Koilabhuta, Koliabhuti, Bhar, Bisonhorn Maria, Chota Maria, Dandami Maria, Dhuru, Dhurwa, Dhoba, Dhulia, Dorla, Gaiki, Gatta, Gatti, Gaita, Gond Gowari, Hill Maria, Kandra, Kalanga, Khatola, Koitar, Koya, Khirwar, Khirwara, Kucha Maria, Kuchaki Maria, Madia, Maria, Mana, Mannewar, Moghya, Mogia, Monghya, Mudia, Muria, Nagarchi, Nagwanshi, Ojha, Raj Gond, Sonjhari Jhareka, Thatia, Thotya, Wade Maria, Vade Maria, Daroi
17. Halba, Halbi
18. Kamar
19. Karku
20. Kawar, Kanwar, Kaur, Cherwa, Rathia, Tanwar, Chattri
21. Keer (in Bhopal, Raisen and Sehore districts)
22. Khairwar, Kondar
23. Kharia
24. Kondh, Khond, Kandh

25. Kol
26. Kolam
27. Korku, Bopchi, Mouasi, Nihal, Nahul, Bondhi, Bondeya
28. Korwa, Kodaku
29. Majhi
30. Majhwar
31. Mawasi
32. Mina (in Sironj sub-division of Vidisha district)
33. Munda
34. Nagesia, Nagasia
35. Oraon, Dhanka, Dhangad
36. Panika (in Chhatarpur, Datia(except Bhander tahsil) Panna, Rewa, Satna, Shahdol, Umaria, Sidhi and Tikamgarh districts)
37. Pao
38. Pardhan, Pathari, Saroti
39. Pardhi (in Bhopal, Raisen and Sehore districts)
40. Pardhi, Bahelia, Bahellia, Chita Pardhi, Langoli Pardhi, Phans Pardhi, Shikari, Takankar, Takia
    (i) Chhindwara, Mandla, Dindori and Seoni districts
    (ii) Baihar tahsil of Balaghat district
    (iii) Betul, Shahpur and Bhainsdehi tahsils of Betul district
    (iv) Patan and Sihora tahsils and Majholi Block of Jabalpur district
    (v) Katni (Murwara) and Vijay Raghogarh tehsil and Bahoriband, Dhimarkheda Block of Katni district.
    (vi) Hoshangabad, Babai, Sohagpur, Piparia and Bankhedi tahsils and Kesla Block of Hoshangabad district
    (vii) Narsimhapur district.
    (viii) Harsud tahsil of Khandwa district.
41. Parja
42. Sahariya, Saharia, Seharia, Sehria, Sosia, Sor
43. Saonta, Saunta
44. Saur
45. Sawar, Sawara
46. Sonr

Language and Mother tongue :

As per the census concept, each language is a group of mother tongues. The census questionnaire collects information on the mother tongue of each person and mother tongue is defined as the language spoken in childhood by the person's mother to the person. If the mother died in infancy, the language mainly spoken in the person's home in childhood will be the mother tongue. In the case of infants and deaf mutes, the language usually spoken by the mother is considered as mother tongue. It is not necessary that the language spoken as mother tongue should have a script. The mother tongues returned by the respondents in census are classified and grouped under appropriate languages according to their linguistic characteristics.

Literate :

A person age 7 years and above who can both read and write with understanding in any language is taken as literate. A person who can only read but cannot write is not literate. It is not necessary that to be considered as literate, a person should have received any formal education or passed any minimum educational standard. Literacy could also have been achieved through adult literacy classes or through any non-formal educational system. People who are blind and can read in Braille are treated as literates.

Literacy rate :

Literacy rate of the population is defined as the percentage of literates in the age group seven years and above. For different age groups the percentage of literates in that age group gives the literacy rate.

Educational level :

The highest level of education a person has completed.

Work :

Work is defined as participation in any economically productive activity with or without compensation, wages or profit. Such participation may be physical and/or mental in nature. Work involves

not only actual work but also includes effective supervision and direction of work. It even includes part time help or unpaid work on farm, family enterprise or in any other economic activity. All persons engaged in 'work' as defined above are workers. Persons who are engaged in cultivation or milk production even solely for domestic consumption are also treated as workers.

Reference period for determining a person as worker and non-worker is one year preceding the date of enumeration.

Main worker :

A person who has worked for major part of the reference period (i.e. six months or more during the last one year preceding the date of enumeration) in any economically productive activity is termed as 'Main worker'.

Marginal worker :

A person who worked for less than six months of the reference period (i.e. in the last one year preceding the date of enumeration) in any economic activity is termed as 'Marginal worker'.

Non worker :

A person who has not worked at all in any economically productive activity during the reference period (i.e. last one year preceding the date of enumeration) is termed as 'Non worker'.

Cultivator :

For purposes of the Census a person is classified as cultivator if he or she is engaged in cultivation on land owned or held from government or held from private persons or institutions for payment in money, kind or share. Cultivation includes effective supervision or direction in cultivation. A person who has given out her/his land to another person or persons or institution(s) for cultivation for money, kind or share of crop and who does not even supervise or direct cultivation in exchange of land, is not treated as cultivator. Similarly, a person working on another person's land for wages in cash or kind or a combination of both (agricultural labourer) is not treated as cultivator. Cultivation involves ploughing, sowing, harvesting and production of cereals and millet crops such as wheat, paddy, jowar, bajra, ragi, etc., and other crops such as sugarcane, tobacco, ground-nuts, tapioca, etc., and pulses, raw jute and kindred fiber crop, cotton, cinchona and other medicinal plants, fruit growing, vegetable growing or keeping orchards or groves, etc. Cultivation does not include the following plantation crops — tea, coffee, rubber, coconut and betel-nuts (areca).

Agricultural labourer :

A person who works on another person's land for wages in money or kind or share is regarded as an agricultural labourer. She/he has no risk in the cultivation, but merely works on another person's land for wages. An agricultural labourer has no right of lease or contract on land on which she/he works.

Household industry worker :

Household industry is defined as an industry conducted by the head of the household herself/himself and or by the members of the household at home or within the village in rural areas and only within the precincts of the house where the household lives in urban areas. The larger proportion of workers in household industry should consist of members of the household including the head. The industry should not be run on the scale of a registered factory which would qualify or has to be registered under the Indian Factories Act and should be engaged in manufacturing, processing, servicing and repairs of goods. It does not include professions such as a pleader, Doctor, Musician, Dancer, Waterman, Astrologer, Dhobi, Barber, etc. or merely trade or business, even if such professions, trade or services are run at home by members of the household.

Other Worker :

A person who has been engaged in some economic activity during the reference period but not as a cultivator or agricultural labourer or in Household Industry is termed as a 'Other Worker (OW)'. The type of workers that come under this category of 'OW' include all government servants, municipal employees, teachers, factory workers, plantation workers, those engaged in trade, commerce, business, transport, banking, mining, construction, political or social work, priests, entertainment artists, etc. In effect, all those workers other than cultivators or agricultural labourers or household industry workers,

are 'Other Workers'.

Work Participation Rate :

Percentage of workers (main + marginal) to total population

Population density :

Population density is the number of persons inhabited per square kilometre of the area.

Age :

Age is measured in terms of the completed number of years

Sex-Ratio :

Number of females per 1000 males in a population.

(vi) Non Census Concepts

Improved drinking water :

If the household had access to drinking water supplied from a tap, hand pump, tube well or well (protected or covered) situated within or outside the premises, it is considered as having access to improved drinking water. It may be mentioned that such uniform definition may not be valid across all states.

System of sewerage :

Generally, a sewerage system would mean a network of mains and branches of underground conduits for the conveyance of sewerage to the point of disposal. Sewers that carry only household and industrial wastage are called separate sewers; those that carry storm water from roofs, streets and other surfaces are known as storm water drains, while those carrying both sewage and storm water are called combined sewers. However, in some towns which are not provided with such underground sewerage system, it is served by open surface drain, box drain, silt pattern drain, etc., in these towns.

Type of latrine and Method of disposal of night soil :

There are three prevalent systems of disposal of human wastes, viz.(i) underground sewerage, (ii) sanitary water flush latrines with individual disposal systems, like septic tank, leaching cess pool and collecting well, and (iii) dry type of latrines with manual scavenging. The system of underground sewerage provides for the street sewerage with which are connected the sanitary latrines constructed in the houses having water closets and fitted with flushing cistern (or hand flushing). Through this sewer the faecal matter is transported without the need for scavenging. This system generally exists in cities and big towns. Where the streets sewer does not exist these sanitary water flush latrines are connected to a local septic tank with a sub-soil dispersion system or a leaching pit. Here the liquid wastes from the water closet is disposed of locally in leaching pit, a septic tank with a soil dispersion system is constructed. This dispersion requires an optimum travel through the pores of the soil which renders the harmful liquid bacterially innocuous by the slow process of filtration through the soil traversed. Where the soil is impermeable, collecting wells are constructed and the sanitary water flush latrines are connected with them. These wells are cleaned at periodic intervals by a suitable device. The dry type of latrines are of service type latrines from where human excreta is removed by scavengers from house to house, in most cases carrying it on their heads or shoulders or in baskets with handle or wheel barrows. These are then collected in bullock carts or trucks or tractors and trolleys for being carried to the dumping grounds.

Fertility :

In demography, the word fertility is used in relation to the actual production of children or occurrence of births specially live births. Fertility is a measure of rate at which population adds to itself by births and normally assessed by relating the number of births to a full or part of the population, such as number of married women or number of women of child bearing age. The definitions of the terminology used in computing different fertility rates are mentioned below:

Crude birth rate(CBR) :

Ratio of the number of live births in a year to the mid year population, normally expressed per 1000 population.

$$CBR = \frac{\text{Number of live births during the year}}{\text{Mid year Population}} \times 1000$$

Crude death rate(CDR) :

Ratio of the number of deaths in a year to the mid year population, normally expressed per 1000 population.

$$CDR = \frac{\text{Number of deaths during the year}}{\text{Mid year Population}} \times 1000$$

Natural growth rate :

Growth rate is obtained as the difference between crude birth rate and crude death rate in the absence of migration.

Age specific fertility rate (ASFR) :

Number of live births in a year to female population in any specified age group normally expressed per 1000 women.

$$ASFR = \frac{\text{Number of live births in a particular age-group}}{\text{Mid year female population of the same age-group}} \times 1000$$

Age specific marital fertility rate (ASMFR) :

Number of live births in a year to married female population in any specified age group normally expressed per 1000 married women.

$$ASMFR = \frac{\text{Number of live births in a particular age-group}}{\text{Mid year married female population of the same age-group}} \times 1000$$

General fertility rate (GFR) :

Number of live births per 1000 women in the reproductive age-group (15-49) years in a given year.

$$GFR = \frac{\text{Number of live births in a year}}{\text{Mid year female population in the age-group (15-49) years}} \times 1000$$

General marital fertility rate (GMFR) :

Number of live births per 1000 married women in reproductive age-group (15-49) years in a given year.

$$GMFR = \frac{\text{Number of live births in a year}}{\text{Mid year married female population in the age-group (15-49) years}} \times 1000$$

Total fertility rate (TFR) :

It is obtained as the total of the age specific fertility rates (number of children born per woman of the particular age) for the entire reproductive age span. It provides the average number of children that will be born to a woman under the fertility levels indicated by the age specific fertility rates assuming that there is no mortality of women till the completion of reproductive period.

$$TFR = \frac{5 \times \sum_{15-19}^{45-49} ASFR}{1000}$$

Total marital fertility rate (TMFR) :

Average number of children that would be born to a married woman if she experiences the current fertility pattern throughout her reproductive span (15-49) years assuming that there is no mortality of women till the completion of reproductive period.

$$TMFR = \frac{5 \times \sum_{15-19}^{45-49} ASMFR}{1000}$$

Age-specific mortality rate (ASMR) :

Number of deaths in a particular age and sex group per 1000 population of the same age group.

$$ASMR = \frac{\text{Number of deaths in a particular age-group}}{\text{Mid year population of the same age-group}} \times 1000$$

q1 :

Probability of dying between birth and age 1. This can be used as approximate value of Infant Mortality Rate (IMR) which gives the ratio of number of deaths in a year of children aged less than one year to the number of births in that year.

q2 :

Probability of dying between birth and age 2.

q5 :

Probability of dying between birth and age 5. This indicator is also known as Under Five Mortality Rate (U5MR)

Infant mortality rate (IMR) :

Ratio of the number of infant deaths (deaths of children below one year) in a year to the number of live births in that year.

$$IMR = \frac{\text{Number of infant deaths during the year}}{\text{Number of live births during the year}} \times 1000$$

Infant mortality rate comprises of two parts, viz., Neo-natal mortality rate and Post neo-natal mortality rate. The neo-natal mortality rate also comprises of two parts viz., Early neo-natal mortality rate and late neo-natal mortality rate. These are defined as:

Neo-natal mortality rate (NMR) :

Number of infants dying within the first month of life (28 days or under) in a year per 1000 live births of the same year.

$$NMR = \frac{\text{Number of infant deaths aged 28 days or under during the year}}{\text{Number of live births during the year}} \times 1000$$

Early neo- natal mortality rate :

$$ENMR = \frac{\text{Number of infant deaths of less than 7 days During the year}}{\text{Number of live births during the year}} \times 1000$$

Late neo-natal mortality rate :

$$LNMR = \frac{\text{Number of infant deaths of 7 days to less than 29 days during the year}}{\text{Number of live births during the year}} \times 1000$$

Post neo-natal mortality rate (PNMR) :

$$PNMR = \frac{\text{Number of infant deaths of 29 days to less than one year during the year}}{\text{Number of live births during the year}} \times 1000$$

Peri-natal mortality rate (PMR) :

Number of still births plus deaths within 1st week of delivery per 1000 births in a year.

$$PMR = \frac{\text{Number of still births and infant deaths of less than 7 days during the year}}{\text{Number of live births and still births during the year}} \times 1000$$

Still birth rate(SBR) :

$$SBR = \frac{\text{Number of still births during the year}}{\text{Number of live births and still births during the year}} \times 1000$$

Maternal mortality rate(MMR) :

Number of deaths of women in the age group 15-49 while pregnant or within 42 days of termination of pregnancy from any cause related to pregnancy and child birth per 100,000 live births in a given year.

$$MMR = \frac{\text{Number of maternal deaths to women in the age group 15-49 during the year}}{\text{Number of live birth during the year}} \times 100000$$

Eligible couple (Couples per 1000 population) :

Number of currently married females in the age group15-49 years per 1000 persons of all ages.

Child woman ratio (0-4) :

Number of children in the age group 0-4 years per 1000 women in the age group 15-49 years.

Child woman ratio (5-9) :

Number of children in the age group 5-9 years per 1000 women in the age group 15-49 years.

Migration :

Migration is the third component of population change, the other two being mortality and fertility. A person is considered as a migrant by place of birth if the place in which she/he is enumerated during the census is other than the place of her/his birth. Similarly a person is considered as a migrant by place of last residence if the place in which she/he is enumerated during the census is other than his/her place of immediate last residence outside the village or town and not simply in another house or locality in the same village or town. Certain aspects concerning temporary movement/migration of people has been explained below as these are important

components concerning migration :

(i) Migration of persons in search of job is high in the country. In many cases such migrants are only seasonal in nature. People migrate to other places for work in a particular season and come back again to their usual place of residence after three or four months. All such workers are treated as migrants. Similarly, if a person moved to any other place for attending short term vocational or educational course that lasted for only few months of a year, she/he too were considered as a migrant.

(ii) Where a person had merely gone out to another place or had been shifting from one place to another purely on tour, pilgrimage, visit to hospital for treatment or

for temporary business purposes, such persons are not deemed to have had another residence different from the place where she/he or her/his family normally resides. She/he is not considered as migrant.

(iii) A woman temporarily moves into a hospital or to her parents or other relative's house for delivery and if the hospital or the parents/ relatives houses is in a place different from usual place of residence, the place where the hospital or parents/relative's house is the place of last residence of the child but not of the mother. A new response category 'Moved after birth' was added in Census of India 2001 in the question on 'reasons for migration' to bring out additional migration patterns. Natural calamities or distress migration as a reason for migration for last residence migrants included in 1991 Census, is covered under category of 'Others'. The reason for migration has been determined as applicable at the time of migration and not in reference to any point of time after that. For example, if a person had moved from the place of her/ his last residence for the purpose of education and subsequently at some point of time got employment there only, the reason for migration would be 'education' and not 'work/ employment'.

Internal and International migration :

The migrational movements are of three types

(i) Migration within the state itself with its components

(a) Migration within the district of enumeration (intra district migration)

(b) Migration from one district of state to another district of state (inter district migration),

(ii) Migration from one state to another State of the country (inter-state migration),

(iii) Migration from one country to another country. The first two streams together constitute internal migration, while the last type of movement is called international migration. The present name of the country,

state or district and not the name by which they were known at the time of her/his birth or last residence were recorded.

Rural - Urban components of migration :

Rural or Urban status in respect of migrants have been determined as applicable at the time of migration and not with reference to any point of time after that.

The flow of migrants consists of four streams viz. rural to rural, rural to urban, urban to rural and urban to urban.

Civic status of urban units :

Civic Status of a town/city is determined on the basis of Civic Administrative authority of the town e.g., Municipal Corporation/Corporation, Municipal Committee/ Municipal council, Municipality etc.

Size class of UA/town :

Size-class of UA/Town is based on the population size of the UA/City/Town UAs./Towns with 1,00,000 and above population are classified as Class I UAs./ towns. These Class I UAs./towns are now further sub classified into seven sub classes namely M1 to M7 depending on the population size of UA/City/ Town. These are M7(5,000,000 and above); M6(2,000,000 to 4,999,999); M5 (1,000,000-1,999,999) M4 (500,000-999,999); M3(300,000-

499,999), M2 (200,000-299,999) and M1 (100,000-199,999). towns with, 50,000 to 99,999 population are classified as Class II towns, 20,000 to 49,999 population are Class III towns, population with 10,000-19,999 are Class IV towns, population with 5000 and 9999 are Class V towns and towns with less than 5000 population are Class VI towns.

Slum area :

The Slum Areas (Improvement and Clearance) Act, 1956 which was enacted by the Central Govt. defined slums as

a) Areas where buildings are in any respect unfit for human habitation; or

b) are by reasons of dilapidation, overcrowding, fault arrangement and design of such buildings, narrowness or faulty arrangement of streets, lack of ventilation, light or sanitation facilities, or any combination of these factors, are detrimental to safety, health or morals.

Mega city

The concept of 'Mega city' is a recent phenomenon in the Urban Sociology and is defined in term of metropolitan city in the form of large size, problem of management of civic amenities and capacity to absorb the relatively high growth of population. Indian Census in 1991 treated the population size of 5 million and above as the cut off point to identify a place as the mega city. Whereas, for the purpose of inclusion in Centrally Sponsored Scheme for Infrastructure Development in Mega cities the Ministry of Urban Affairs and Employment, Department of Urban Development adopted the criteria of 4 million and above population as per 1991 Census for Mega Cities. In 2001 Census, cities with 10 millions and above population have been treated as Mega cities.

(vii) 2001 Census findings – Population, its distribution

According to Census 2001, Sidhi district comprises of 1754 inhabited villages, 54 uninhabited vilages and total 1808 villages distributed among nine tahsils and 8 CD blocks. The district has 5 towns. The average household size of the district is 5.5 Total population of the district is 1,831,152 comprising 947,830 males and 883,322 females. Thus the sex ratio of the district works out to 932 which is better than the sex-ratio of the state (919). Density of the district is 174 persons per sq.km. and is lower than the density of the state which is 196. Literacy rate of the district 52.3 percent is also lower than the State literacy rate 63.7 percent. Scheduled Castes and Scheduled Tribes population of the district is respectively 11.9 percent and 29.9 percent of the total population of the district. Apart from these general findings, the analysis on various parameters like rural-urban distribution of population by sex, literacy, density, caste, tribe etc. has been covered in the Inset Tables from 1 to 52 based on PCA, Village Directory data, Town directory data and houselisting data pertaining to Census, 2001.

(viii) Brief analysis of the PCA data (Table 1-36)

Analysis of the PCA data based on Census 2001 is presented here in the form of tables from 1 to 36. Various demographic indicators such as density, literacy, Sex-ratio and distribution of population in different economic activity by rural/urban, male/female and age classifications are presented in these tables. These analysis are presented for Tahsils and CD block levels separately.

TABLE 1: DECADAL CHANGE IN POPULATION OF TAHSILS BY RESIDENCE, 1991-2001

Serial number	Tahsil	Population						Percentage decadal variation 1991-2001			Percentage urban population	
		1991			2001							
		Total	Rural	Urban	Total	Rural	Urban	Total	Rural	Urban	1991	2001
1	2	3	4	5	6	7	8	9	10	11	12	13

2	Churhat	81,107	81,107	-	102,090	88,986	13,104	25.9	9.7	-	-	12.8
3	Gopadbanas	173,564	144,923	28,641	232,028	186,328	45,700	33.7	28.6	59.6	16.5	19.7
4	Sihawal	167,188	167,188	-	216,386	216,386	-	29.4	29.4	-	-	-
5	Chitrangi	190,758	190,758	-	258,489	251,352	7,137	35.5	31.8	-	-	2.8
6	Deosar	179,572	179,572	-	243,959	243,959	-	35.9	35.9	-	-	-
7	Majholi	101,893	101,893	-	128,893	128,893	-	26.5	26.5	-	-	-
8	Kusmi	51,516	51,516	-	65,108	65,108	-	26.4	26.4	-	-	-
9	Singrauli	293,668	233,461	60,207	417,721	232,531	185,190	42.2	-0.4	207.6	20.5	44.3
	District Total:	1,373,434	1,284,586	88,848	1,831,152	1,570,121	261,031	33.3	22.2	193.8	6.5	14.3

Analysis for Scheduled Castes and Scheduled Tribes is also covered in this tables.

This table indicates tahsilwise decadal variation for both the rural and urban areas of the district. It is seen from the table that an overall 33.3 percent decadal growth has been recorded in the district. The growth rate in rural areas of the district during the decade 1991-2001 works out to 22.2 percent. Among the tahsils, Singrauli has registered the highest decadal growth rate of 42.2 percent. The growth rate is highest in Deosar tahsil for rural area of the district. The percentage of urban population to total population of the district is 14.3 percent in 2001 against 6.5 percent in 1991.

TABLE 2 : NUMBER AND PERCENTAGE OF INHABITED VILLAGES IN SPECIFIED POPULATION SIZE RANGES WITH THE RELATED POPULATION, 2001

Serial number	District / C.D. block	Total number of inhabited villages	Total rural population			Number and percentage of villages	Population less than 200	
			Persons	Males	Females		Males	Females
1	2	3	4	5	6	7	8	9

Districts (Rural) Total:		182 (10.4)	256,744	243,016	3 (0.2)	8,919	8,386	0 (0.0)	0	0

Table 2 gives CD Blockwise population, number and percentage of villages falling in each range of population size of villages and number of males and females in each population range at CD Block level in the district. Out of the 1,754 inhabited villages, 320 (18.2 percent) are small sized villages with population below 200 persons. In the size class of 200-499 persons, there are 392 villages having 22.3 percent villages of the district while in the size class of 500-999 population there are 470 villages constituting 26.8 percent of total villages. 387 villages (22.1 percent) are in the size class of 1000-1999 and 182 villages (10.4 percent) are in the size class of 2000-4999. There are 3 villages (0.2 percent) in the size class of 5000-9999. There is no village in the size class of population 10,000 and above.

TABLE 3 : NEW TOWNS, DENOTIFIED, DECLASSIFIED AND MERGED TOWNS IN 2001 CENSUS

(a) New

(i) Statutory town

1 Churhat (NP)
2 Rampur Naikin (NP)
3 Singrauli

(ii) Census town

1 Naudhia

(b) Denotified

(i) Statutory towns of 1991 census denotified and also did not satisfy the criteria to be treated as census towns

Nil

(ii) Statutory towns of 1991 census denotified but identified as census towns based on demographic and economic criteria

Nil

(iii) Census towns of 1991 census are notiified as statutory town in 2001 census

Nil

(c) Declassified

Nil

(d) Wholly merged with other town(s)

1 Jayant Nagar
2 Vindhya Nagar
3 Amlori Colliery
4 Badan
5. Morwa

Declassified means the census towns of 1991 census which failed to satisfy the demographic and economic criteria.

TABLE 4 : DISTRIBUTION OF VILLAGES BY POPULATION DENSITY, 2001

Range of population density (per square kilometer)	Total number of villages in each population density range	Percentage of villages in each population density range	Population	Percentage distribution of population
1	2	3	4	5
0-10	16	0.9	371	0.0
11-20	10	0.6	333	0.0
21-50	53	3.0	9,871	0.6
51-100	133	7.6	51,812	3.3
101-200	436	24.9	317,395	20.2
201-300	427	24.3	432,304	27.5
301-500	412	23.5	463,196	29.5
501 +	267	15.2	294,839	18.8
Not known	-	-	-	-
District Total:	1,754	100	1,570,121	100
Population Density (Rural) of the district:	238			

Table 4 shows the distribution of villages by population density ranges. The inhabited villages of the district have been grouped under 8 different ranges of density. The maximum number of villages i.e. 436 accounting for 24.9 percent of the total inhabited villages of the district fall in the density range of 101-200 persons having 20.2 percent population. The lowest range of 0-10 and 11-20 persons per sq.km. cover 26 villages (1.5 percent). 267 villages have very high density with more than 501 persons per sq.km. while the corresponding proportion in the lower range of 201-300 is 24.3 percent of the total inhabited villages having 27.5 percent population of the district. In the medium density ranges of 21-50 and 51-100 persons, account for 3.0 and 7.6 per cent of inhabited villages.

TABLE 5: SEX RATIO OF STATE AND DISTRICT, 1901-2001

Census Year	State			District		
	Total	Rural	Urban	Total	Rural	Urban
1	2	3	4	5	6	7
1901	-	-	930	999	999	-
1911	967	973	903	1,006	1,006	-
1921	949	959	863	1,000	1,000	-
1931	947	957	862	995	995	-
1941	946	957	869	987	987	-
1951	945	953	902	971	971	-
1961	932	947	860	977	979	715
1971	920	934	864	961	964	781
1981	921	934	878	951	956	738
1991	912	921	887	922	934	767
2001	919	927	898	932	946	850

As per 2001 Census, sex ratio of 932 females per 1,000 males has been recorded in the district against the state average of 919. The sex ratio of the district had been significantly higher in all Census years over the state average figures. The lowest sex ratio of 922 females per 1,000 males was recorded in the district in Census 1991.

TABLE 6 : SEX RATIO BY TAHSILS, 2001

Serial number	Name of Tahsil	Sex ratio		
		Total	Rural	Urban
1	2	3	4	5
1	Rampur Naikin	944	946	906
2	Churhat	945	958	865
3	Gopadbanas	914	935	833
4	Sihawal	965	965	-
5	Chitrangi	923	925	866
6	Deosar	951	951	-
7	Majholi	940	940	-
8	Kusmi	955	955	-
9	Singrauli	906	953	849
	District Total:	932	946	850

Table 6 gives the tahsilwise sex ratio of rural and urban population of Census 2001. It is observed that the sex ratio for the rural area works out to 946 whereas it is 850 for the urban area. The sex ratio in rural area is highest (965) in Sihawal tahsil whereas in urban area it is highest (906) in Rampur-Naikin tahsil. The sex ratio of the district is 932 females per 1,000 males.

TABLE 7 : SEX RATIO BY CD BLOCKS, 2001

Serial number	Name of C D block	Sex ratio
1	2	3
1	Rampur Naikin	954
2	Sidhi	935
3	Sihawal	965
4	Chitrangi	926
5	Deosar	950
6	Majholi	940
7	Kusmi	955
8	Baidhan	953
	District (Rural) Total:	946

Table 7 gives the CD blockwise sex ratio for rural population of the district. The sex ratio in rural areas of the district comes to 946 females per 1,000 males. Among the CD blocks the highest sex ratio of 965 is

TABLE 8: SEX RATIO OF RURAL POPULATION BY RANGES, 2001

Range of sex ratio for villages	Number of inhabited villages	Percentage of villages in each range	Population 2001	Percentage distribution of population
1	2	3	4	5
Less than 700	32	1.8	1,209	0.1
700-749	18	1.0	3,313	0.2

800-849	89	5.1	46,983	3.0
850-899	261	14.9	199,503	12.7
900-949	474	27.0	539,068	34.3
950-999	426	24.3	520,749	33.2
1000-1099	325	18.5	231,632	14.8
1100+	89	5.1	16,323	1.0
District Total:	1,754	100.0	1,570,121	100.0

found in Sihawal CD block and the lowest of 926 is recorded in Chitrangi CD block.

Table 8 presents the distribution of villages by 9 ranges of sex ratio based on 2001 Census. The maximum number of villages i.e. 474 accounting for 27.0 percent of the total villages having largest population of 34.3 percent in the district fall in the sex ratio range of 900-949. It is followed by 426 villages constituting 24.3 percent of total villages and 33.2 percent population falls in the range of 950-999.

TABLE 9 : SEX RATIO OF URBAN AGGLOMERATIONS/TOWNS, 2001

Serial number	Name of U.A./Town	Urban status of town	Sex ratio
1	2	3	4
1	Churhat	NP	865

906 while Sidhi(M) has the lowest sex ratio of 833 females.

Table 10 presents population of age group 0-6 years and sex ratio for total, rural and urban areas in respect of each tahsil of the district. The total sex ratio in this age group works out to 954 females for every 1,000 males in the district. The proportion of females in rural areas is higher than that of urban areas. The sex ratio in rural and urban areas comes to 958 and 919 respectively. The rural sex ratio in tahsil varies between 939 in Rampur Naikin to 1,014 in Kusmi tahsil.

TABLE 11 : SEX RATIO OF POPULATION IN THE AGE GROUP 0-6 FOR CD BLOCKS, 2001

District (Rural) Total	1,754	100.0	333,389	100.0
Sex ratio (Rural) for District:			958	

Table 12 shows the distribution of villages in 9 ranges of sex ratio of the population in the age group 0-6 years as well as percentage of villages, total population and percentage of population of this age group falling in each range of sex ratio in the district.

The maximum number of villages i.e. 379 (21.6 percent) having population (13.2 percent) in the district (rural) fall in the sex ratio range of 1,100 and above. It is followed by the sex ratio range of 1,000-1,099 which claims 358 villages (20.4 percent) and 24.3 percent population. Next to it 215 villages (12.3 percent) and 17.5 percent population are in the range of 900-949. Minimum number of villages i.e. 68 (3.9 percent) and 2.4 percent population fall in the range of 700-749.

Table 14 depicts the distribution of Scheduled Castes and Scheduled Tribes population as well as the percentage to total population at tahsil level in rural and urban areas of the district. Of the 1,831,152 total population of the district 11.9 percent belong to the Scheduled Castes and 29.9 percent to Scheduled Tribes. The percentage of Scheduled Castes population constitutes 11.8 percent in rural population and 12.2 percent in urban population of the district. The highest percentage of Scheduled Castes population is recorded in Churhat tahsil (14.3 percent) while the lowest is found in Kusmi tahsil (6.6 percent). The proportion of Scheduled Tribes population is 33.2 and 10.2 percent in rural and urban areas respectively. Scheduled Tribes population in the district is mainly concentrated in Kusmi tahsil (63.3 percent) and the lowest Scheduled Tribes population is recorded in Churhat tahsil (16.8 percent).

TABLE 15 : NUMBER AND PERCENTAGE OF SCHEDULED CASTES AND SCHEDULED TRIBES POPULATION IN CD BLOCKS, 2001

Serial number	Name of C.D. block	Total population	Total Scheduled Castes population	Total Scheduled Tribes population	Percentage of Scheduled Castes population to total population	Percentage of Scheduled Tribes population to total population

76 and above	6	0.3	454	0.2
District Total	1,754	100.0	185,131	100.0

Table 16 reflects the number of villages according to the proportion of Scheduled Castes population to their total population in different ranges of population at district level. 491 villages accounting for 28.0 percent of total 1,754 inhabited villages in the district do not have any Scheduled Castes population. The proportion of Scheduled Castes population is less than 5.0 percent in 343 villages (19.6 percent). In 327 villages it varies between 5-10 percent while the next range of 11-20 percent accounts for 347 villages. The range of 21-30 and 31-40 percent contains 139 and 50 villages respectively. There are 30 villages in the range of 41-50 and 21 villages in the range of 51-75. Only 6 villages are such where the proportion of Scheduled Castes is 76 and above.

TABLE 17 : PROPORTION OF SCHEDULED TRIBES POPULATION TO TOTAL POPULATION IN VILLAGES, 2001

Percentage Range of Scheduled Tribes population to total population	Number of villages	Percent-age	Scheduled Tribes Population	Percent-age
1	2	3	4	5

5	Singrauli (M Corp.)	185,190	23,976	18,799	12.9	10.2
District(Urban) Total		261,031	31,895	26,602	12.2	10.2

Table 18 shows number and percentage of Scheduled Castes and Scheduled Tribes in UA/Towns of the district. Out of the 5 towns the highest proportion (17.2 percent) of Scheduled Castes is found in Rampur Naikin (NP) and lowest proportion (8.0 percent) in Sidhi (M). For Scheduled Tribes the highest proportion (10.8 percent) is found in Rampur Naikin (NP) and lowest (10.0 percent) in Sidhi (M).

TABLE 19 : SEX RATIO AMONG SCHEDULED CASTES AND SCHEDULED TRIBES IN CD BLOCKS, 2001

Serial number	Name of C D block	Scheduled Castes sex ratio	Scheduled Tribes sex ratio
1	2	3	4
1	Rampur Naikin	965	947
2	Sidhi	930	948
3	Sihawal	980	953
4	Chitrangi	943	934
5	Deosar	965	970
6	Majholi	934	963
7	Kusmi	957	973
8	Baidhan	970	966
District (Rural) Total		956	955

Table 19 indicates sex ratio among Scheduled Castes and Scheduled Tribes in each CD Block of the district. The Scheduled Castes sex ratio is 956 for district (rural). Among the CD Blocks, the highest sex ratio of 980 is found in Sihawal CD Block and lowest of 930 is recorded in Sidhi CD Block.

Sex ratio of Scheduled Tribes population in Sidhi district rural is 955. Among the CD Blocks, the highest sex ratio of 973 is found in Kusmi CD Block and lowest of 934 is recorded in Chitrangi CD Block.

TABLE 20 : SEX RATIO AMONG SCHEDULED CASTES AND SCHEDULED TRIBES IN URBAN AGGLOMERATIONS/TOWNS, 2001

Serial number	Name of UA/Town	Scheduled Castes sex ratio	Scheduled Tribes sex ratio
1	2	3	4
1	Churhat (NP)	889	658
2	Naudhia (CT)	869	864
3	Rampur Naikin (NP)	973	906
4	Sidhi (M)	908	863
5	Singrauli (M Corp.)	916	878
Sex ratio (Urban) for the district:		915	863

Table 20 shows the sex ratio among Scheduled Castes and Scheduled Tribes in UA/Towns for Census 2001. For the district (urban) sex ratio is higher (91.5) among Scheduled Castes compared to Scheduled Tribes (86.3).

Among the 5 towns of the district, there is no town where the Scheduled Caste and Scheduled Tribes sex ratio is above one thousand. Sex ratio for Scheduled Castes is below one thousand, the lowest being 869 in Naudhia (CT). Sex ratio of Scheduled Tribes is below the line of equality, lowest being 658 in Churhat (NP).

TABLE 21 : NUMBER AND PERCENTAGE OF LITERATES AND ILLITERATES BY TAHSILS, 2001

Tahsilwise and district literacy rates besides the number of literates and illiterates for total, rural and urban areas are given in Table 21. The literacy rates are worked out by excluding population of 0-6 years. As per 2001 census, the proportion of literates to total population excluding 0-6 years comes to 52.3 percent in the district. This proportion in rural area is 48.8 percent and 72.2 percent in urban areas. In the district the literacy rate of males 67.4 percent is much higher than that of females which is 36.0 percent.

Among the tahsils, Churhat tahsil tops with 60.1 percent literates and the lowest literacy rate 43.0 percent is recorded for Deosar tahsil.

TABLE 22 : NUMBER AND PERCENTAGE OF LITERATES AND ILLITERATES BY SEX IN CD BLOCKS, 2001

Serial number	Name of C.D. block	Number of literates and illiterates						Percentage of literates			Gap in male-female literacy rate

81-90	50	2.9	17,422	1.1
91-99	5	0.3	963	0.1
100	6	0.3	51	0.0
District Total:	1754	100.0	1,570,121	100.0
Literacy rate for District:			52.3	

Table 23 gives the distribution of villages by literacy ranges in the district. There is no literate in 4 villages (0.2 percent) of the district and population of these villages is only 9. There are 6 villages constituting 0.3 percent of total villages having 100 percent literacy. Highest number of villages i.e. 472 villages fall in the literacy range of 41-50 percent. This accounts for 26.9 percent of total villages and 28.9 percent of the district population.

TABLE 24 : NUMBER AND PERCENTAGE OF LITERATES AND ILLITERATES BY SEX IN URBAN AGGLOMERATIONS/TOWNS, 2001

Serial number	Name and urban status of UA/Town	Number of literates and illiterates						Percentage of literates			Gap in male-female literacy rate
		Number of literates			Number of illiterates						
		Persons	Males	Females	Persons	Males	Females	Persons	Males	Females	
1	2	3	4	5	6	7	8	9	10	11	12

Table 24 presents the number and percentage of literates and illiterates by sex in UA/towns of the district. It is seen that the highest literacy rate of 80.4 percent is recorded in Naudhia (CT) whereas the lowest literacy rate 64.9 is recorded in Rampur Naikin (NP). Sex wise highest percentage of male literacy rate is observed in Naudhia (CT) and it is lowest in Rampur Naikin (NP). Gap in male female literacy rate is maximum in Rampur Naikin (NP). The total literacy rate of the district (urban) comes to 72.2 percent. It is 83.6% for males and 58.6% for females.

TABLE 25 : NUMBER AND PERCENTAGE OF SCHEDULED CASTES LITERATES AND ILLITERATES BY SEX IN CD BLOCKS, 2001

Serial number	Name of CD Block	Number of literates and illiterates						Percentage of literates			Gap in male-female literacy rate
		Number of literates			Number of illiterates

Table 25 presents the CD Blockwise number and percentage of Scheduled Castes, litertes and illiterates by Sex. It is seen that literacy rate of Scheduled Caste population of the district is 39.5 percent. It is highest 45.5 percent in Sidhi CD block and lowest 34.2 percent in Baidhan CD block. The gap in male/ female literacy rate is highest (32.5 percent) in Baidhan CD block. The overall male literacy rate of the district (rural) works out to 54.0 percent and it is 24.1 percent for females.

TABLE 26 : DISTRIBUTION OF VILLAGES BY LITERACY RATE RANGE FOR SCHEDULED CASTES POPULATION, 2001

Range of literacy rate for villages	Number of inhabited villages	Percentage distribution of villages	Scheduled Castes Population	Percentage distribution of population

Literacy rate for District (Rural):				36.3

Distribution of villages by literacy rate range for Scheduled Tribes population of the district (Rural) is presented in this table. The literacy rate of Scheduled Tribes population for district (rural) is 36.3 percent. Accordingly the highest number of villages 437 fall in the literacy rate range of 31-40 percent constituting 28.1 percent of villages having Scheduled Tribe population and 31.1 percent of total Scheduled Tribe population. There are 26 villages which fall in the literacy range of 0 percent and 4 villages have 100 percent literacy rate of the Scheduled Tribe population.

TABLE 30 : NUMBER AND PERCENTAGE OF SCHEDULED TRIBES LITERATES AND ILLITERATES BY SEX IN TOWNS, 2001

Serial number	Name and urban status of Town	Number of literates and illiterates						Percentage of literates			Gap in male-female literacy rate
		Number of literates			Number of illiterates						
		Persons	Males	Females	Persons	Males	Females	Persons	Males	Females	
1	2	3	4	5	6	7	8	9	10	11	12
1	Churhat (NP)	589	475	114	807	367	440	49.8	64.4	25.7	38.7
2	Naudhia (CT)	362	234	128	404	177	227	58.1	71.6	43.2	28.3
3	Rampur Naikin (NP)	390	271	119	679	290	389	44.6	58.9	28.7	30.2
4	Sidhi (M)	1,763	1,170	593	2,809	1,284	1,525	48.1	58.6	35.5	23.2
5	Singrauli (M Corp.)	6,157	4,394	1,763	12,642	5,616	7,026	41.1	54.6	25.5	29.1
	Sidhi (Urban)	9,261	6,544	2,717	17,341	7,734	9,607	43.5	56.6	27.9	28.7

Table 30 shows the number and percentage of Scheduled Tribes literates and illiterates by sex in towns of the district. The literacy rate of Scheduled Tribes for the district(urban) works out to 43.5 percent. It is 56.6 percent for males and 27.9 percent for females. Among the Scheduled Tribe population the gap in male/female literacy rate of the district(urban) is 28.7 percent. This gap is highest in Churhat (NP) and is lowest in Sidhi (M).

Table 31 gives the number and percentage of main workers, marginal workers and non-workers by sex at tahsils level in the district as per 2001 Census. The proportion of the total workers works out to 41.4 percent of the total population in the district. The total workers comprises of 29.7 percent of main workers and 11.7 percent of marginal workers and the remaining 58.6 percent are non-workers.

Among males, 41.9 % are main workers and 6.2 % are marginal workers whereas among females, corresponding figures are 16.7 % and 17.6 % respectively.

TABLE 32 : NUMBER AND PERCENTAGE OF MAIN WORKERS, MARGINAL WORKERS, AND NON-WORKERS BY SEX IN CD BLOCKS, 2001

Table 33 presents distribution of population by category of workers and non-workers by sex in UA/ Towns of the district. It is seen that total workers constitute 29.0 percent of the total population of the district (urban) and the proportion of non-workers is 71.0 percent. Among the total workers male work participation rate is 45.0 percent whereas the corresponding figure for female workers is only 10.2 percent.The total workers are comprised of 25.3 percent of main workers and 3.7 percent of marginal workers.

Among males, 41.6 % are main workers and 3.4 % are marginal workers whereas among females, corresponding figures are 6.2 % and 4.1% respectively.

TABLE 34 : DISTRIBUTION OF WORKERS BY SEX IN FOUR CATEGORIES OF ECONOMIC ACTIVITY IN TAHSILS, 2001

Note: Percent of Worker to total worker are given in brackets

It can be seen from the table 34, the economy of the district is primarily agricultural as supported by the fact that cultivators constitute 50.7 percent of the total workers (main + marginal), 31.4 percent of total workers are engaged as agricultural labourers, 2.5 percent as household industry workers and 15.4 percent of other workers in this district.

The distribution of workers by four categories of economic activity at tahsil/sub-tahsil shows very high dependence of population on cultivators sector absorbing large number of workers. The proportion of cultivators varies between 39.5 percent in Rampur Naikin tahsil and 59.7 percent in Chitrangi tahsil. The percentage of females cultivators is 51.3 percent

which is slightly higher as compared to 50.3 percent of male cultivators in the district. In district the percentage of agricultural labourers is 31.4 percent. It is 41.6 percent for females which is very high as compared to males (24.6 percent). The percentage of household industry workers is very low in the district as stated above. The highest proportion of 30.9 percent of other workers is recorded in Singrauli tahsil while the lowest proportion of 6.1 percent is found in Kusmi tahsil.

TABLE 35 : DISTRIBUTION OF WORKERS BY SEX IN FOUR CATEGORIES OF ECONOMIC ACTIVITY IN CD BLOCKS, 2001

Serial number	Name of CD Blocks	Persons / Males / Females	Total Population	Total number of workers (Main + Marginal)	Category of workers

				(38.0)	(52.3)	(42.4)	(2.0)	(3.2)

Note: Percent of Worker to total worker are given in brackets

Table 35 presents CD Blockwise distribution of workers by sex in four categories of economic activity. In the rural areas of the district total workers (main + marginal) constitutes 43.4 percent of total population. Among these workers cultivators constitute 54.9 percent, agricultural labourers 34.0 percent, household industry 2.5 percent and other workers constitute 8.6 percent. The proportion of cultivators is highest 68.3 percent in Baidhan CD Block and is lowest 39.9 percent in Rampur Naikin CD Block. Proportion of agricultural labour is highest 45.1 percent in Rampur Naikin CD Block and lowest 23.1 percent in Baidhan CD Block. It is also seen that the proportion of male workers is more than female workers under the category of cultivators.

TABLE 36 : DISTRIBUTION OF WORKERS BY SEX IN FOUR CATEGORIES OF ECONOMIC ACTIVITY OF URBAN AGGLOMERATIONS / TOWNS , 2001

Serial number	Name and urban status of UA/Town	Persons / Males / Females	Total Population	Total number of workers (Main + Marginal)	Category of workers			
					Cultivators	Agricultural Labourers	Household Industry workers	Other workers

				(45.5)	(10.6)	(4.3)	(1.9)	(83.3)
		Females	85,041	7,835	2,570	1,410	205	3,650
				(9.2)	(32.8)	(18.0)	(2.6)	(46.6)
District (Urban) Total:		Persons	261,031	75,816	9,839	6,084	2,117	57,776
				(29.0)	(13.0)	(8.0)	(2.8)	(76.2)
		Males	141,131	63,532	6,454	3,423	1,469	52,186
				(45.0)	(10.2)	(5.4)	(2.3)	(82.1)
		Females	119,900	12,284	3,385	2,661	648	5,590
				(10.2)	(27.6)	(21.7)	(5.3)	(45.5)

Table 36 presents the distribution of workers by sex in different categories of economic activity for UA/Towns of the district. It is seen that out of the 29.0 percent of total workers, cultivators constitute 13.0 percent, agricultural labourers 8.0 percent, household industry 2.8 percent and the highest

proportion is covered by other workers which is 76.2 percent. It is also found that proportion of female workers under cultivators, agricultural labourers and household industry workers are more than the male workers proportion whereas proportion of male workers under other workers is more than the proportion of females. Townwise analysis shows that the proportion of cultivators is highest 25.0 percent in Churhat (NP), agricultural labourer is highest 30.0 percent in Rampur Naikin (NP), household industry workers is highest 8.8 percent in Churhat (NP) and other workers is highest 90.3 percent in Sidhi (M).

(ix) Brief analysis of Village Directory and Town Directory data (table 37-47)

Analysis based on Village Directory and Town Directory data pertaining to census 2001 are presented in the form of Inset tables from 37-47. Alongwith the census data 'Non-Census' data such as village amenity and town amenity data was collected during census 2001. These tables give the number of total villages, jproportion of population served by different amenities, availability of amenities by distance, proportion of slum population in towns etc. A short analytical note is also given below of each table.

TABLE 37 : DISTRIBUTION OF VILLAGES ACCORDING TO AVAILABILITY OF DIFFERENT AMENITIES, 2001

		(100)	(81.8)	(19.6)	(91.7)	(12.9)	(5.0)	(18.0)	(2.6)	(2.3)	(40.8)	(86.3)

Note : Percentages are given in brackets.

* Based on the improved drinking water sources, drinking water supply has been classified as 'Improved or otherwise. If the household has access to drinking water supplied from a tap or a hand pump/tube well situated within or outside the premises it is considered as having access to 'Improved drinking water source'. However, the concept of improved drinking water is state specific and this is to be considered accordingly.

\# Post office includes Post office, telegraph office and Post and telegraph office.

$ Transport communication includes bus service, rail facility and navigable waterways.

Table 37 deals with the CD block-wise distribution of villages according to the availability of different amenities like education, medical, improved drinking water, post office, telephone, transport, communications, agricultural credit societies, approach by pucca road and power supply within the village. Out of 1,754 inhabited villages in the district 1,434 villages or 81.8 percent have been provided with the education facilities of one type or the other. Similarly 344 villages in the district constituting 19.6 percent have medical facilities of one type or the other. Improved drinking water facility is available in 1,608 or 91.7 percent villages. As regards, post office facility which includes facilities like telegraph office and post and telegraph, 226 villages constituting 12.9 percent of villages have been provided with post office facility within the villages. 87 or 5.0 percent villages have been provided with the telephone facility, 315 or 18.0 percent with transport facility, 46 or 2.6 percent villages with bank facility and 41 or 2.3 percent with agricultural credit societies. Similarly there are 716 or 40.8 percent villages which are linked with the pucca road. Total 1,513 or 86.3 percent of villages are provided with the electricity supply. Almost similar pattern of distribution of villages by availability of amenities in the villages at CD block has been found with slight variation. Majholi CD block has the highest 94.6 percent villages where educational facility is available and lowest 73.1 percent is found in Sihawal CD block. Medical facility is highest in Majholi (41.5 percent) and lowest (10.9 percent) in Chitrangi CD block. Telephone facility is highest in Sidhi CD block (13.0 percent) but there is no such facility in Kusmi CD block. In the field of power supply all villages have been covered except 241 villages in the district.

TABLE 38 : NUMBER AND PER CENT OF RURAL POPULATION SERVED BY DIFFERENT AMENITIES, 2001

* Based on the improved drinking water source, drinking water supply has been classified as 'Improved ' or otherwise. If the household has access to drinking water supplied from a tap or a hand pump / tube well situated within or outside the premises it is considered as having access to 'Improved drinking water source'. However, the concept of improved drinking water is state specific and this is to be considered accordingly.

Post office includes Post office, telegraph office and Post and telegraph office.

$ Transport communication includes bus service, rail facility and navigable waterways.

Table 38 depicts the number and proportion of rural population served by different kind of amenities. Out of total rural population of 1,570,121 persons in the district, 1,506,860 or 96.0 percent have educational facility of one or the other type. Similarly 522,246 or 33.3 percent population has medical facilities while 1,507,393 or 96.0 percent have improved drinking water facility. Post office facilities are available to 423,403 or 27.0 percent population. Telephone facility is available to 103,775 or 6.6 percent. Transport communications facility is available to 429,739 or 27.4 percent. Bank facility is available to 105,939 or 6.7 percent. 83,867 or 5.3 percent have been provided with the facility of agricultural credit societies. 792,315 or 50.5 percent have been provided with the facility of approach by pucca road. Power supply is available to 1,439,465 or 91.7 percent rural population in the district. Similar pattern of availability of facilities is visible to the rural population in different CD blocks.

TABLE 39 : DISTRIBUTION OF VILLAGES NOT HAVING CERTAIN AMENITIES, ARRANGED BY DISTANCE RANGES FROM THE PLACES WHERE THESE ARE AVAILABLE, 2001

Village not having the amenity of	Distance range of place from the villages where the amenity is available			
	Less than 5 kilometres	5-10 kilometres	10+ kilometres	Total (Col. 2 - 4)
1	2	3	4	5
1. Education :-

(b) Middle School	990	286	115	1,391
(c) Degree College	94	180	1,471	1,745
2. Medical:-				
(a) Hospital	155	241	1,346	1,742
(b) PHC	149	217	1,365	1,731
3. Post Office	957	352	219	1,528

Village not having the amenity of	Distance range of place from the villages where the amenity is available			
	Less than 5 kilometres	5-10 kilometres	10+ kilometres	Total (Col. 2 - 4)
1	2	3	4	5
4. Telephone	245	265	1,157	1,667
5. Bus Service	562	295	593	1,450
6. Banks				
(a) Commercial Bank	443	429	842	1,714
(b) Cooperative Bank	225	351	1,157	1,733
7. Agricultural Credit Societies	327	302	1,084	1,713

Table 39 presents distribution of villages not having certain amenities within the village at district level. Such villages have been presented according to various distance ranges in this table. 327 villages do not have primary school and out of these villages, children of 298 villages have to travel less than 5 kms. for schooling. Out of 1,754 inhabited villages as many as 1,391 are deprived of middle school and 1,745 of degree college. Of these 990 avail the facility of middle school at a distance of less than 5 kms., 286 at a distance 5-10 kms. and the remaining 115 at a distance of 10+ kms. In respect of degree college 94 avail this facility at a distance of less than 5 kms., 180 between 5 to 10 kms. and rest 1,471 villages at a distance of 10+ kms.

Similarly there are 1,742 villages in the district which have been devoid of Hospital facility and 1,731 villages which are deprived of PHC facilities. Of these 155 villages have the facility of Hospital available within 5 kms. while in respect of 241 villages the inhabitants have to cover a distance of 5-10 kms. in order to avail this facility. Similarly overwhelming number i.e.1,346 villages have this facility at a distance of 10+ kms. As regards PHC 149 avail this facility at a distance of less than 5 kms., 217 at a distance of 5-10 kms. and the remaining 1,365 have to travel a distance of more than 10 kms. to avail this facility.

Regarding Post Office, 1,528 villages do not have this facility in the village itself. Of these majority i.e. 957 have this facility at a distance of less than 5 kms., another 352 villages avail it at a distance of 5-10 kms. In the remaining 219 villages habitants have to travel a distance of 10+ kms.

As regards Telephone, there are 1,667 villages in the district which are without telephone facilitiy. Of these 245 avail this facility at a distance of less than 5 kms., 265 at a distance of 5-10 kms. and remaining 1,157 have to traverse a distance of 10+ kms.

For bus service out of 1,450 villages which do not have facility, 562 villages avail this facility at a distance of less than 5 kms., 295 at a distance between 5-10 kms. and 593 at a distance of 10+ kms.

In the entire district 1,714 villages are deprived of commercial bank and 1,733 of co-operative bank. Of these 1,714 villages which are deprived of commercial banks 443 villages avail this facility at a distance of less than 5 kms., 429 between 5-10 kms. and the remaining 842 at a distance of 10+ kms. Regarding co-operative banks out of 1,733 villages 225 villages avail this facility at a distance of less than 5 kms., 351 at a distance of 5-10 kms. and remaining 1,157 at a distance of 10+ kms. 1,713 villages do not have agricultural credit societies. This facility to 327 villages is available at a distance of less than 5 kms., 302 at a distance of 5-10 kms. and the remaining 1,084 at a distance of 10+ kms.

TABLE 40 : DISTRIBUTION OF VILLAGES ACCORDING TO THE DISTANCE FROM THE NEAREST STATUTORY TOWN AND AVAILABILITY OF DIFFERENT AMENITIES, 2001

Distance range from the nearest statutory town (in kilometres)	Number of inhabited villages in each range	Type of amenity available							
		Education	Medical	Post Office	Telephone	Transport communica-tions	Banks	Agricultural Credit Societies	Approach by pucca road

Post office includes Post office, Telegraph office and Post and telegraph office.
$ Transport communication includes bus service, rail facility and navigable waterways.

Table 40 deals with the distribution of villages according to distance from the nearest statutory town and availability of different amenities within the village. Out of total 1,754 inhabited villages in the district, there are 31 villages which have nearest towns upto a distance of 5 kms. Of these only 24 villages forming 77.4 percent of total villages, are having the educational facilities atleast one type and 3 villages constituting 9.7 percent, have the medical facilities within the range of 5 km., 5 villages forming 16.1 percent have the facility of post office within the range of 5 km and 6 or 19.4 percent have the facility of telephone under the distance of 5 km. 2 villages constituting 6.5 percent have been linked by transport service. There is no facility of banks. 2 villages constituting only 6.5 percent have been provided by agricultural credit societies. 22 villages comprising 71.0 percent have been provided with pucca road within the distance of 5 km.

There are 438 inhabited villages in the district which fall in the distance range of 5-15 kms. Of these 346 villages constituting 79.0 percent have been provided with the educational facilities. 51 villages comprising 11.6 percent have been provided with medical facilities. 54 villages constituting 12.3 percent enjoy the post office facility. 27 villages comprising 6.2 percent have been provided the telephone facility. 51 villages constituting 11.6 percent have been linked with transport communications. 9 villages comprising 2.1 percent have bank facility. 10 villages constituting 2.3 percent are having agricultural credit societies, while 205 villages or 46.8 percent are approachable by pucca road. 752 villages fall in the distance range of 16-50 kms. Of these, 83.5 percent villages have educational facility, 20.7 percent with medical, 14.5 percent with post office, 6.4 percent with telephone, 22.9 percent with transport and communications. 2.7 percent and 2.5 percent villages with banks and agricultural credit societies facilities respectively are available. 307 (40.8 percent) villages have approach by pucca road facility.There are 533 inhabited villages in the district which fall in the distance range of 51+ kms.Of these 436 villages constituting 81.8 percent have been provided with the educational facilities. 134 villages comprising 25.1 percent have been provided with medical facilities. 58 villages constituting 10.9 percent enjoy the post office facility. 6 villages comprising 1.1 percent have been provided the

telephone facility. 90 villages constituting 16.9 percent have been linked with transport communications. 17 villages comprising 3.2 percent have bank facility and 10 villages comprising 1.9 percent have agricultural credit societies. 182 villages or 34.1 percent are approachable by pucca road.

Note : Percentages are given in brackets.

* Based on the improved drinking water source, drinking water supply has been classified as 'Improved or otherwise. If the household has access to drinking water supplied from a tap or a hand pump/tube well situated within or outside the premises it is considered as having access to 'Improved drinking water source'. However, the concept of improved drinking water is state specific and this is to be considered accordingly.

\# Post office includes Post office, telegraph office and Post and telegraph office.

$ Transport communication includes bus service, rail facility and navigable waterways.

Table 41 deals with the distribution of villages by population ranges and amenities available therein. In Sidhi district out of a total 1,754 inhabited villages, overwhelming 712 have a population of less than 500 persons. Of these, 416 villages (58.4 percent) have education facility, 64 (9.0 percent) have medical facility, 612 (86.0 percent) have improved drinking water facility. 17 villages (2.4 percent) have post office facility. 19 (2.7 percent) have telephone facility. 74 (10.4 percent) have been linked by bus service. 5 (0.7 percent) each have bank and agricultural credit societies facility, 228 villages (32.0 percent) have been linked with pucca road. 568 villages (79.8 percent) have been provided with electricity.

Out of 470 villages, which fall in the population range of 500-999 persons, 448 villages (95.3 percent) have been provided with the education facility, 65 (13.8 percent) with medical facility, 439 (93.4 percent) villages have improved drinking water facility. 29 villages (6.2 percent) have been provided with post office facilities, 25 villages (5.3 percent) with telephone facility, 77 villages (16.4 percent) with transport facilities, 6 villages (1.3 percent) with bank facility, 5 villages (1.1 percent) with agricultural credit societies and 193 villages (41.1

percent) have approach by pucca road. 410 villages (87.2 percent) have electricity facility.

387 villages fall in population range of 1,000-1,999 persons. Of these 385 villages (99.5 percent) have been provided with the education facility, 118 (30.5 percent) with medical facility, 376 (97.2 percent) villages have improved drinking water facility. 93 villages (24.0 percent) have been provided with post office facilities, 30 villages (7.8 percent) with telephone facility, 87 villages (22.5 percent) with transport facilities, 11 villages (2.8 percent) with bank facility, 14 villages (3.6 percent) with agricultural credit societies and 174 villages (45.0 percent) have approach by pucca road. 357 villages (92.2 percent) have electricity facility.

There are 182 villages in the district which are covered under 2,000-4,999 population range. Of these, cent percent villages have been provided with the education facility, 94 (51.6 percent) with medical facility, 178 (97.8 percent) villages have improved drinking water facility. 84 villages (46.2 percent) have been provided with post office facilities, 12 villages (6.6 percent) with telephone facility, 74 villages (40.7 percent) with transport facilities, 22 villages (12.1 percent) with bank facility, 16 villages (8.8 percent) with agricultural credit societies and 118 villages (64.8 percent) have approach by pucca road. 175 villages (96.2 percent) in this range have electricity.

There are 3 villages in the district which are covered under 5,000-9,999 population range. Among these villages, all have facilities of education, medical, improved drinking water, post office, transport communimcaton, approach by pucca road and power supply. The facility of telephone and agricultural credit societies is owned by one village each while 2 villages avail the facility of banks.There is no village in the population range of more than 10,000.

TABLE 42 : DISTRIBUTION OF VILLAGES ACCORDING TO LAND USE, 2001

Serial number	Name of C. D. block	Number of inhabited villages	Total area	Percentage of cultivable area to total area	Percentage of irrigated area to total cultivable area
1	2	3	4	5	6
1	Rampur Naikin	184	60,179	65.9	19.4
2	Sidhi	285	77,868	68.5	14.1
3	Sihawal	297	62,637	71.5	15.1
4	Chitrangi	304	166,464	43.1	4.8
5	Deosar	218	108,254	55.3	9.7
6	Majholi	130	60,385	52.4	15.7
7	Kusmi	130	41,033	47.2	10.4
8	Baidhan	206	82,756	72.6	18.3
	District Total:	1,754	659,576	57.7	12.9

Note : - Cultivable area = irrigated area + unirrigated area

Table 42 presents CD blockwise distribution of villages according to land use. It also gives details of total area and cultivable area available of inhabited villages in the district. Cultivated area includes irrigated as well as unirrigated area. It further elaborates that what is the extent of cultivable area under irrigation. There are total 1,754 inhabited villages in the district having a total area of 659,576 hectares. Of this, 57.7 percent is cultivable and 12.9 percent of total cultivable area has got the irrigation facility. The area figures have been collected from the revenue record maintained for each village by the State Government.

It is seen that percentage of cultivable area to total area is highest 72.6 percent in Baidhan CD block. It is lowest 43.1 percent in Chitrangi CD block. The percentage of irrigated area to cultivable area is highest 19.4 percent in Rampur Naikin and lowest 4.8 in Chitrangi CD block.

TABLE 43 : PER CAPITA RECEIPT AND EXPENDITURE IN STATUTORY TOWNS

Serial number	Class, name & urban status of the Town	Per capita expenditure								
		Total	Through taxes	From all other sources	Total	General Adminis-tration	Public health and conveniences	Public works	Public institutions	Other(s)
1	2	3	4	5	6	7	8	9	10	11
1	IV Churhat (NP)	212	0	212	235	114	0	92	0	29
2	V Rampur Naikin (NP)	581	15	566	568	150	90	135	0	193
3	III Sidhi (M)	421	169	252	407	83	82	131	0	111
4	I Singrauli (M.Corp.)	283	26	257	508	83	84	319	0	22
	District Total	316	50	266	478	87	80	266	0	45

Note: The difference in various totals is due to rounding off the related figures.

Table 43 gives the per capita receipts and expenditure (in rupees) for each town in the district. The average per capita receipts for towns of the district Sidhi works out to Rs.316 of which Rs.50 are derived through local taxes and the remaining Rs.266 is received from all other sources. The average of total expenditure incurred per capita is Rs.478. Out of this Rs.87 are spent on general administration, Rs.80 on public health and conveniences, Rs.266 on public works.There is no expenditure on public institutions. Rs.45 is spent on others.

TABLE 44 : SCHOOLS/COLLEGES PER 10,000 POPULATION IN STATUTORY TOWNS, 2001

Serial number	Name and urban status of Town	Type of educational institution				
		Primary	Junior Secondary / Middle	Secondary / Matriculation	Senior Secondary	College
1	2	3	4	5	6	7
1	Churhat (NP)	6.1	3.1	3.1	3.1	0.8
2	Rampur Naikin (NP)	8.1	2.0	2.0	2.0	1.0
3	Sidhi (M)	2.8	1.3	0.9	0.9	0.4
4	Singrauli (M.Corp.)	6.7	1.8	0.9	0.5	0.2
	District Total	6.1	1.8	1.1	0.8	0.3

In urban areas of Sidhi district the average number of primary school per 10,000 population comes to 6.1 schools, 1.8 junior secondary/middle schools, 1.1 secondary/matriculation schools, 0.8 senior secondary schools and the ratio of colleges is only 0.3 college per 10,000 population. Among the towns, the ratio of primary is highest in Rampur Naikin (NP) while lowest is in Sidhi(M).

TABLE 45 : NUMBER OF BEDS IN MEDICAL INSTITUTIONS IN TOWNS, 2001

Serial number	Name and urban status of the Town	Number of beds in medical institutions per 10,000 population
1	2	3
1	Churhat(NP)	23
2	Naudhia(CT)	15
3	Rampur Naikin(NP)	30
4	Sidhi(M)	58
5	Singrauli(M.Corp.)	19
	Distrct Total	26

Table 45 depicts the number of beds available in medical institutions per 10,000 population in each town of Sidhi district. On an average there are 26 beds per 10,000 population in urban areas of the district. Whereas it is the highest 58 in Sidhi (M) while lowest number 15 beds is recorded in Naudhia (CT).

TABLE 46 : PROPORTION OF SLUM POPULATION IN TOWNS, 2001

Serial number	Name of the Town	Total population	Slum population	Percentage of slum population to total population
1	2	3	4	5
1	Churhat	13,104	2,000	15.3
2	Rampur Naikin	9,900	1,950	19.7
3	Singrauli	185,190	10,000	5.4
District Total		208,194	13,950	6.7

Table 46 presents the proportion of slum population in the towns of the district. Out of the total 208,194 urban population 13,950 persons constitute slum population which is 6.7 percent of total urban population. Rampur Naikin town has the highest 19.7 percent of slum population whereas, Singrauli town has lowest (5.4 percent) of slum population.

TABLE 47 : MOST IMPORTANT COMMODITY EXPORTED OUT OF AND MANUFACTURED IN TOWNS, 2001

Serial number	Name and urban status of Town	Most important commodity	
		Manufactured	Exported
1	2	3	4
1	Churhat (NP)	Bidi	Sand
		Furniture	Dalda
		Brick	Vegetable
2	Naudhia (CT)	Basket	Rice
		Wooden	Gram
		Furniture	Bamboo
		Rice	Basket
3	Rampur Naikin (NP)	-	-
		-	-
		-	-
4	Sidhi (M)	Bidi	Grain
		Kattha	Wood
		Dhupbatti	Coal
5	Singrauli (M.Corp.)	Welding	Coal
		Rods	Ashes
		Wooden	Welding
		Furniture	Rods
		Explosive	
		Substance	

Table 47 indicates most important articles manufactured and exported out of each town in the district. The other commodities manufactured are bidi, bricks, wooden furniture, rice, welding rods, kattha, explosive substance etc. Sand, rice, dalda, grain, wood, bidi, welding rods, coal etc are the other important commodities which are exported by different towns.

(x) Brief analysis of the data on houses and household amenities, Houselisting Operations, Census of India 2001 based on Inset tables 48-52

Inset tables 48-52 are based on Houselisting data pertaining to Census 2001. These tables reflect the tenure status, distribution of households living in permanent, semi-permanent and temporary houses, percentage of households having different amenities and percentage of households by type of fuel used for cooking.

TABLE 48 : HOUSEHOLDS BY TENURE STATUS AND NUMBER OF ROOMS OCCUPIED IN THE DISTRICT, 2001

	District Total	338,449	287,967	50,482	43,675	37,120	6,555	104,282	98,530	5,752

Data source : Census of India 2001, H-series: Tables on Houses, Household amenities and Assets.

The data presented in Table 48 depicts number of households by tenure status and number of rooms occupied in the district. The total number of households in the district stands at 338,449 consisting of 287,967 rural and 50,482 urban households. 43,675 households belong to Scheduled Castes 104,282 to Scheduled Tribes. 309,055 households are living in their own houses constituting 91.3 percent of total households. Of these households, the largest number of households (114,156) have occupied three plus rooms accommodation and is followed by two room accommodation numbering to 87,360 households. Next position is claimed by households (65,103) occupying three room accommodation. Number of households in owned accommodation occupying one room rank at fourth place with 40,637 households while 1,799 households are without any exclusive room.

22,102 households living in rented accommodation account for 6.5 percent of total number of households in the district. The largest number of 9,877 households are living in two room

accommodation followed by 5,683 households in three room accommodation. Next position is claimed by households (3,511) occupying one room accomodation. Households with three plus are 2,907 in numbers and 124 housheols have no exclusive room.

Other households numbering to 7,292 forming only 2.2 percent of total households are distributed in single room accommodation numbering 1,301 double room 3793 , three room 1,448, in three plus 666 and 84 households are having no exclusive room.

TABLE 49 : PERCENTAGE DISTRIBUTION OF HOUSEHOLDS LIVING IN PERMANENT, SEMI-PERMANENT AND TEMPORARY HOUSES, 2001

Serial number	District/ Tahsil	Total			Rural			Urban		
		Permanent	Semi-permanent	Temporary	Permanent	Semi-permanent	Temporary	Permanent	Semi-permanent	Temporary

	District Total:	13.2	84.8	1.9	4.8	93.9	1.3	61.5	33.3	5.3

Data source : Census of India 2001, H-series: Tables on Houses, Household amenities and Assets.

The data presented in Table 49 reveals that 13.2 percent of household of the district are living in houses made of pucca materials, residences of 84.8 percent households are semi permanent houses and 1.9 percent households have temporary houses.

District-wise percentage in urban areas indicates that majority of households i.e. 61.5 percent are living in houses constructed of pucca materials, 33.3 percent in semi-permanent structure and percentage of households in temporary houses is 5.3 constructed of kutcha materials. At rural level, the lowest percentage of 1.4 households occupying permanent structure is found in Kusmi tahsil while highest percentage of 13.2 is seen in Rampur Naikin tahsil. The proportion of semi-permanent houses is high in Kusmi (98.3) and lowest in Rampur Naikin (86.3) tahsil. The proportion of temporary houses is quite low in all tahsils and highest is 4.1 percent in Singrauli tahsils followed by 2.8 percent in Chitrangi tahsil, 1.0 percent in Churhat,0.8 percent in Majhauli, 0.6 percent in Deosar, 0.5 percent in Rampur Naikin, 0.3 percent in Kusmi,0.2 percent in Sihwal and 0.1 percent in Gopadbanas tahsils.

Data source: Census of India 2001, H-series: Tables on Houses, Household amenities and Assets.

Note: Percentage is given in brackets below the number of households. Bathroom means bathroom within the house Toilet means toilet within the house. Drainage menas closed and open drainage.

Table 50 indicates that 25.9 percent households in the district have been provided with improved drinking water supplied from a tap or a hand-pump/ tube-well, 38.3 percent households have provision of electricity in their houses. The bathroom facility is available to only 7.9 percent households within their premises . As regards rural areas, 1.4 percent households are having bathroom facility, whereas this proportion in urban areas comes to 45.1 percent. 31.5 percent rural households have facility of electricity against 77.0 percent in urban areas. Toilet and drainage facilities in the district are available to 9.5 percent and 19.3 percent households respectively. Their percentage is higher in urban areas as compared to rural areas. The trend of these amenities available to the households at tahsil level almost conforms to the district pattern analysed.

Percentage in brackets
Data source: Census of India 2001, H-series: Tables on Houses, Household amenities and Assets.

The percentage distribution of households by type of fuel used for cooking purposes is given in Table 51. There are nine types of fuels used for which data have been presented in the table. It is observed that wood is used as the most predominant fuel used for cooking by 81.4 percent households in the district. In the tahsils, this proportion varies between 97.6 percent in Kusmi and 60.2 percent in Singrauli tahsil. In rural areas use of wood for cooking is very high while in urban areas it is used by a smaller amount of population due to availability of L.P.G. The next cooking fuel is L.P.G which is used by 6.9 percent households in the district. This proportion in rural and urban areas is 0.6 and 42.7 percent respectively. Next fuel is cowdung cake and used by 6.4 percent in district.Use of cowdung cake in rural area for cooking is 6.8 percent as compared to urban areas(4.0) at district level.

There are 2.4 percent households using crop residue in the district. Use of crop residue for cooking by rural households comes to 2.6 percent while in urban areas its proportion is only 1.5 percent. There are 1.4 percent households using kerosene in the district. Use of kerosene for cooking by urban households comes to 0.3 percent while in rural areas its proportion is only 7.6 percent, as a whole. The percentage of households using other types of fuel is insignificant. In rural areas wood is main fuel and in urban areas cooking gas is used as predominant fuel.

Data source: Census of India 2001, H-series: Table on Houses, Household amenities and Assets.

Table 52 presents data for total, rural and urban areas at district/tahsil/sub-tahsil level about households availing banking services and possession of assets such radio/transistor, telephone, bicycle, scooter and car etc. by the households.There are 338,449 households in the district and among them, 82,714 households have been availing banking services. 86,411 households have Radio/Transistor. Television is possessed by 37,776 households. Telephone is available in 6,708 households. Bicycle is the most common means of transportation and is available in 149,771 households. Scooter, motor cycle, moped (two- wheelers) and car, jeep, van (four-wheelers) are used by 23,707 and 4,590 households respectively. None of the specified assets is in 159,025 households.

(xi) Major Social and cultural events, natural and administrative developments and significant activities during the decade.

During the decade no remarkable administrative changes took place.

(xii) Brief description of places of religious, historical or archaeological importance in villages and places of tourist interest in the town of the district.

Places of Tourism :

(1) **Bardi** :- The erstwhile headquarters of a tahsil of the same name Bardi is situated on the right bank of the Gopad river near its confluence with Son river in Deosar Tahsil. It is about 24 km. to the north-east of Deosar, connected by a road.

Exploration of the place yielded tools of early, and middle stone-ages. This place is of archaeological importance, as it has old temples standing on a triangular island at the junction of the Son and the Gopad rivers. "These temples enjoy more than a merely local reputation, and from their position at the junction of the two largest rivers in the Rewa territory, promise to be of importance and interest. It is said that during *Navaratri* days the Chandella rulers used to perform human sarcifices to propitiate Bardi Devi, enshrined in one of these temples. Subsequently, the human sacrifice was replaced by a buffalo sacrifice.

(2) **Bhanwarsen** :- The Chandresh inscription of Prabodha Siva of the Kalachuri year 724 (A.D. 973) refers to this place as Bhramarshaila (Bhramara-hill). The inscription, credits Yuvarajadeva I with bringing Prabhavasiva, the arch-priest of the Mattamayura sect to Golakimatha at Gorgi. His disciple Prashantasiva built an ashrama or monastery at the foot of the hill of Bhramara (Bhramarashailamula). This proves that Bhanwarsen was then an important seat of the Shaivites. The monastery is in a ruined condition.

(3) **Chandreh** :- Chandreh village in Gopadbanas tahsil lies about 1.6 km. to the east of the confluence of the Son and the Banas rivers and about 24 km. to the south-west of Sidhi, the district headquarters. It is situated about 5 km. to the north of the Son river on Sidhi-Rampur road .

Though now an insignificant village, Chandreh was once a place of considerable importance. Exploration yielded tools of early and middle stone-ages. Its importance in subsequent ages appears to have increased, as is testified by the existing mounds and old remains of a large monastery, a large tank and a well.

(4) **Ghoghara** :- Ghoghara is a small village in Gopadbanas tahsil, lying about 2 km. to the north of the Son river about 48 km. to the west of Bardi.

The only importance of the village lies in a small temple dedicated to Chandi Devi. Tradition associates this place with Birbal, one of the nine gems of the court of Emperor Akbar. It is said that Birbal, while residing at the place, used to clean the temple. One day while cleaning his finger was hurt and the image of Chandi was stained with his blood. This blood-propitiation satisfied the goddess who in turn promised the boy that whatever he prophesied would turn out right. The goddess asked the boy in his dreams to go to Akbar's Court. He acted accordingly and rose to a rank of dignity and honour.

Apart from the above legend it is said that Birbal was an attendant at the Baghel Chief Ram Chandra's court. Badauni notes that Birbal "who was formerly in the service of Ram Chandra Bhata" was sent with Zain Khan Koka to bring the old chief to Delhi.

There is also an image of eight-armed goddess, said to have been received in dowry by a Chandel Raja from Rajasthan.

The village was populated by 292 persons in 1971 as against 213 in 1961 and only 16 in 1901. "A small mela on the eve of Ramnavami meets here in March/April for 15 days and is attended by about 500 persons. It is managed by the gram panchayat."

(5) **Kakarsiha** :- Situated about 4 km. to the north-east of the junction of Bardianala with the Gopad river, Kakarsiha is a small village in Deosar Tahsil. It is about 45 km. to the south-west of Jiawan, the tahsil head-quarters.

A small *mela* during Ramanavami(March/ April) meet here for 15 days attended by about 500 people. The *mela* was organized by the gram panchayat

(6) **Manda** :- A small village in Singrauli tahsil lies 35 km to the south-west of Waidhan, with which it is connected by a road.

The village is also known by the name of Marg, which appears to have been derived from the word *mand*, meaning a hole. Thus manda, mada and mara came to mean the cave. Numerous caves, situated in three groups in the vicinity of this village, have evidently brought these names to the village.

(7) **Fairs** :- Batauli (March/April) on the eve of Ramanavmi, Bhawaisan (January), Sankranti, Bhelki (Jan.) Vijaighat (Jan), Sidhi (Jan/Feb) Badhaura (Jan./Feb.) Basant Panchmi, Baghwar (Feb/Mar) Shivrati etc are celebrated in Sidhi district.

(xiii) Major characteristics of the district, contribution of the district in the form of any historical figure associated with the district.

During the "Quit-India" movement the larger number of freedom fighters associated with the movement. They were Late Baijnath Dubey Village-Gir, Tahsil Chitarangi, Sidhi, Shri Bankelal urf Banka Bega, Village- Gandhigram Tahsil Gopadbanas, Sidhi, Late Rambhajan Bega, Village- Gandhigram, Gopadbanas, Sidhi, Late Chandra Pratap Tiwari, Village/Post Sidhi, Tahsil Gopadbanas, Late Lalkumar Singh, Village/Post Dudhgania, Tahsil Chitrangi, Late Narendra Singh Village/Post Lamtari Tahsil Chitarangi, Late Ramlakhan, Village/Post Rampurnekin, Late Ramprasad, Village-Nekin, Post Budhwar, Tahsil- Rampurnekin, Late Mangaldin, Village-Manjhiyar, Post- Badhwar, Tahsil Rampurnekin, Shri Lalgajmochan Singh (Village Mudo, District Rewa) At present Waidhan, Tahsil Singrauli, District Sidhi, Late Brijbasilal Tiwari, Village-Gurtala Post/Tahsil Rampurnekin, Shri Rayram Prasad Shukla, Tivariganwa, Post/ Tahsil Churhat, Late Lakhpati Singh, village Koshta, Post/Tahsil Churhat, Late Ramswaroop, Village Amarpur, Post/ Tahsil Churhat, Shri Nilkanth Tiwari Village Sundari, Post / Tahsil Churhat, Late Shobhnath, Village Koshta, Post / Tahsil Churhat, Late Indradutt Ram, Village Koshta, Post/Tahsil Churhat, Late Ramnarayan, Village

Koshta, Post/Tahsil Churhat, Late Ramchendra Ram, Village Koshta, Post/Tahsil Churhat, Late Jagdip Singh, Village Koshta, Post/Tahsil Churhat, Late Sitaram, Village Tivarigenwa, Post/Tahsil Churhat, Late Manorathi Singh, Village Koshta, Post/Tahsil Churhat, Late Kaushal Prasad, Village Koshta, Post/Tahsil Churhat, Late Ram Chandra Singh at present Shri Arjun Singh Jee is a prominent leader in the district.[1]

Vindhyachal Super Thermal Power Project, Sidhi

The Vindhyachal Super thermal power project is the 5th project in the series of pit-head super thermal power station set up by National Thermal Power Corporation (NTPC) This gigantic power project is situated on the north-western bank of Govind Vallabh Pant Sagar(Rihand reservoir)adjacent to massive coal field on Singrauli spread over a large area in north-eastern M.P. and south-western U.P.

Foundation stone of this project was laid by the late Prime Minister Smt. Indira Gandhi on 12.11.1982. The first project activity i.e. site leveling was started on 18.3.83 and boiler erection was started in August 1985.

The beneficiary states from this station are Madhya Pradesh, Maharashtra, Gujrat, Goa, Daman Div, Dadra and Nagar Haveli. For the stage, the power evaluation is envisaged with 400 K.V. transmission system comprising of Vindhyachal - Korba and Vindhyachal - Jabalpur - Itarsi - Indore - Asoj transmission lines At VSTPP, country's first High voltage, direct current back to back station (HVDC) linking power transmission between western and northern grids have also been installed.

There is a beautiful township over an area of 678 acres having double road full of greenery and is main divided into four neighbourhoods name as NH-1, NH-2, NH-3 & TTS.

(xiv) Scope of Village Directory and Town Directory

Village Directory :

The Village Directory is one of the traditional compilations of the census organisation and provides the consolidated picture of each village as revealed by the availability of existing amenities, land use pattern, composition of its population and other infrastructural details. This will be of immense help to identify the areas of surplus and deficit requiring the attention of planners and administrators for rescheduling the development process in appropriate direction. The format of village directory has 25 columns providing village-wise data of location, area, population, land use pattern and amenities etc.

The details of each column of village directory are explained as below :

Column-1 Serial number of the village is indicated in this column.

Column-2 gives the name of the village and permanent location code number (PLCN) assigned to each village in serpentine manner from north-west to south direction and is essential for identification of village. The concept of permanent location code number has been introduced first time in 2001 Census by assigning eight digit number starting from the first village of the first tahsil of first district of the state to the last village of last tahsil of the last district. In the state of Madhya Pradesh first PLCN 00000100 has been assigned to village 'DANDETI in Vijaypur tahsil of Sheopur district which is the first villageof first tahsil of first district of Madhya Pradesh while the last PLCN of 05539300 has been assigned to the last village 'MATAGHAT' of the state in Lanji tahsil of Balaghat district which happen to be last as per procedure adopted for assigning location code number. The district census handbook of 1991 Census as well as updated district and tahsil maps and services of local revenue officers/officials have been used to assign the PLCN to the villages. The last two zeros are used if new villages are created out of existing villages in subsequent census. Before 2001 census, village location code number used to change from one census to other due to change in jurisdictions or creation of villages or merger of villages in urban areas. The district handbook of 1991 Census has been used as basis for filling up the name of the village including the forest and uninhabited villages. But to ensure the accuracy, the list of villages and their names were got authenticated from the respective Tahsildars of each tahsil.

Source : 1.Gazetteer of India, Madhya Pradesh, Sidhi district, 1994.
2.District Statistical Hand book, Sidhi district.

Column-3 shows the area (in hectares) of the village as indicated by the State Revenue Department.

Columns – 4 and 5 gives the population and number of households in each village which facilitate the correlation between the amenities available to the population and number of households in the village.

Columns 6 to 9 deal with the amenities like education, medical, drinking water, post, telegraph and telephone etc. The information relating to these amenities were filled by the Patwari of concerned village in village directory booklet which were subsequently cross checked with district census handbook of 1991 as well as with the information collected from the various departments to ensure the accuracy of information provided. In such cases where no facility is available within a village, a dash (-) has been shown in the column and next to it in brackets, the distance from the village in broad ranges viz. upto 5 kms., 5-10 kms. and 10+ kms. of the nearest place where the facility is available has been given. This will help not only for local area planning but in regulating the provisions of goods and services as well, as to minimize the regional imbalance in the process of development. The abbreviations used to indicate these amenities have been explained separately in the subsequent section. The list of colleges, senior secondary schools, hospitals, post and telegraph offices in the district as obtained from the concerned departments are also added in the form of annexures at the end.

Column-10 shows the number of banks – Commercial banks and Co-operative banks. In addition to this, the list of banks procured from the lead bank of the district has also been added in this book.

Column-11 relates to number of credit societies, such as agricultural credit societies, non-agricultural credit societies and other cooperative societies.

Column-12 shows the number of recreational and cultural facilities viz. Cinema/video hall, sports club, stadium/auditorium facility available in the villages.

Column-13 Indicates the type of communicational amenities such as by bus, railway or navigable waterway available to the village.

Column-14 refers to the state of roads etc. leading to the village. This is useful in determining as to whether the village is approachable both in fair and foul weather by paved road, mud road, foot path and navigable water ways.

Column-15 gives the information of the nearest town and its distance in Kms. from the village in brackets from the referent village. In case, the nearest town is located in another state, the name of the state has also been furnished.

Column-16 relates to the availability of power supply to the village with purposes such as domestic, agricultural use, other purposes or for purposes which are denoted by the abbreviations.

Column-17 gives the information as to whether newspapers/magazines are received in the village.

Column-18 gives the information of most important commodities manufactured in the village.

Columns- 19 to 23 give the details about land utilization. The land use pattern given in the village directory conforms to the pattern of classification of land use as recommended by the Ministry of Agriculture, Government of India. The Ministry of Agriculture, has recommended the maintenance of records of land use pattern under five categories. These are as follows :

i) Forests

ii) Irrigated

iii) Unirrigated

iv) Culturable waste (including Gauchar and Groves)

v) Area not available for cultivation

Forest area shown in column-19 includes all lands classed under any legal enactment dealing with forests or administered as forests, whether state owned or private and whether wooded or maintained as potential forest land. The crops raised in the forests and grazing lands or areas open for grazing within the forest is also included under the forest area.

Column 20 and 21 shows area irrigated by different sources of irrigation and un-irrigated area. These two columns cover all agricultural land which equals to net cropped area sown with crops and orchards including current and other fallow lands. In case of irrigated land, the source of irrigation has also been indicated.

Column-22 Culturable waste : This includes all lands available for cultivation whether not taken up for cultivation or taken up for cultivation once but not cultivated during the five years or more in succession. Such lands may be either fallow or covered with shrubs and jungles which are not put to any use. Lands under thatching grasses, bamboo bushes and other groves for fuel etc., which are not included under orchards or forests come under this column. All grazing lands, whether they are permanent pastures and meadows or not, village common and grazing lands within forest area are also included in this column.

Column- 23 Area not available for cultivation : This includes land not available for cultivation such as barren, unculturable land and land put to non-agricultural use. Land put to non-agricultural use stands for all lands occupied by buildings, roads and railways or under water etc. Barren and unculturable lands cover all lands like mountains and deserts which cannot be put under cultivation, except at a very high cost.

Town Directory :

The Town Directory is presented for each town in the district covering different aspects of urban life. Seven statements (I to VII) have been included for presentation of this data. The data contained in these statements are the area, population of 2001 and past censuses, growth rates, density, sex ratio, physical aspects of town, communications, municipal finances, civic, medical, educational and other amenities and trade, commerce, industry and banking facilities. It covers all the towns in the district statutorily notified as well as non-municipal towns. All the towns in the district are arranged in alphabetical order.

The data collected in these statements have largely been furnished by the municipal bodies. For non-municipal towns, the cantonment executive officers supplied the information.

Statement-I Status and Growth History :

The statement runs into 22 columns and is primarily intended to throw up a comparative picture of each town in different censuses from 1901 to 2001. Civic administration status of each town is shown under column 2 and Location Code number in column 3 whereas column 4 indicates the name of tahsil to which town belongs. While column 5 shows the name of CD block, area of each town in sq. kms. is depicted under column 6 column 7 deals with the number of households including houseless households as per the 2001 Census. Columns 8 to 18 deal with population and growth rate of the towns at different censuses from 1901 to 2001. Column 19 of the statement shows density of towns as per the 2001 Census. Columns 20 to 22 depict the sex ratio from 1981 to 2001 Census.

Statement-II Physical Aspects and Location of Towns, 1991

In this statement data on annual rainfall, maximum and minimum temperature are shown under columns 3 to 5. Columns 6 to 8 indicate the name and road distance of the state, district, sub-divisional and tahsil/sub-tahsil headquarters. Column 9 shows the name of nearest city with population of one lakh or more and columns 10 to 12 give information regarding name and road distance of the nearest railway station, bus route, navigable river/ canal (if within 10 Kms.)

Statement-III Municipal Finance, 1998-99

This statement shows the receipt and expenditure of Municipal Finance of individual towns for the year 1998-99 under different heads. There are in all 16 columns in the statement showing receipt and expenditure under different heads.

Statement IV Civic and Other Amenities, 1999

The statement displays this information under 20 columns. The amenities about which information has been incorporated are road length (with break-up by Kutcha and Pucca), system of sewerage, drainage and other related matters such as water supply, fire fighting services and electrification etc.

Statement-V Medical, Educational, Recreational and Cultural Facilities, 1999

This statement displays information under 20 heads and it intends to depict the degree of availability of medical facilities by type of institutions and number of hospital beds available in each institution. Educational facilities by level/type of courses and recreational and cultural facilities.

Statement-VI Trade, Commerce, Industry and Banking, 1999

This statement presents the information under 11 columns in respect of each town. Columns 3 to 8 indicate three most important commodities imported, exported and manufactured in the town. Information on number of banks available in the town appears under column 9. Columns 10 and 11 shows number of agricultural and non-agricultural credit societies operating in each town respectively.

Statement-VII Civic and other amenities in Slums, 1999

This Statement gives the information relationg to civic and other amenities in respect of slum areas of towns, where the population exceeds 50,000 as per 2001 census. The codes used in col. 8 and 13 are the same as for statement IV.

PART A - VILLAGE AND TOWN DIRECTORY

Section I - Village Directory

(a) Notes explaining the abbreviations used in Village Directory

The "Village Directory" is one of the traditional compilations of the Census. It gives the list of villages, their location numbers, their area, population, number of households, amenities such as educational, medical, drinking water, post and telegraph, commercial and co-operative banks, agricultural non-agricultural and other credit societies, recreational and cultural facilities, communication, approach to village, nearest town with a distance, power supply availability of newspaper and magazines, most important commodity manufactured and land use of each village.

Village is a statutory recognized unit having a definite boundary and separate land records. In case, a complete village is treated as an outgrowth of urban agglomeration, data on amenities for that village, have not been given in the Village Directory but shown along with the urban component. The villages which are consider as a Census Town , the amenities data are shown in the Town Directory. For those villages which have partly merged in an outgrowth of U.A., the amenities data are shown in the Village Directory for that particular village.

The 'un-inhabited' villages (villages with no population) have been indicated as such after furnishing details in columns 1 to 3 i.e., Serial number, Name of village & location code number and area of the village against column no. 4 to 18. The land use data for such villages are shown in col. 19 to 23

The Village Directory format has 23 columns and the details given under each column are for the village are as follows:-

Columns 1 : Serial Number

Self explanatory. All the villages within the CD Block are presented serially in the ascending order of their location code number.

Columns 2 : Name and Location Code Number of village.

The name and location code number of the village are shown against these columns. This also includes the forest and uninhabited villages.

Column 3 : Area of the village

The area of the villages in hectares are given. Wherever the area figures was not furnished by the concerned department the column is left blank.

Column 4 : Total population

The total population of the village as per 2001 Census is given against this column.

Column 5 : Number of households

The number of households as per 2001 Census is given in this column.

Amenities :

In column 6 to 23, availability in respect of different amenities such as education, medical, drinking water, post office, telegraph, banks, credit societies, communication, power, approach road etc. in each village has been depicted with appropriate codes against the column concerned. Wherever the amenities are not available in the village, a dash (-) is shown in the column and next to it in brackets the distance in broad ranges viz.< 5 kms., 5-10 kms. and 10+ kms of the nearest place where the facility is available is given. Column wise details are given below :

Column 6 : Educational

Classes upto class V included in Primary School. This will include nursery school, kindergarten school. Pre-basic school, pre-primary school, junior basic school upto class V.

Classes from VI to VIII are included in the middle school.

Classes from IX and X included in High secondary school. Classes XI and XII are included in senior secondary school.

In case of composite schools like middle school with primary school or secondary school with middle school, these are also included in the number of primary and middle schools, respectively.

Accordingly any of the following types of institutions if exists within the village is shown as per codes given below :

(i)	Primary School	P
(ii)	Middle School	M
(iii)	Secondary School	S
(iv)	Senior Secondary School	PUC
(v)	College	C
(vi)	Industrial School	I
(vii)	Training School	Tr
(viii)	Adult literacy class/centre	AC
(ix)	Others (specify) e.g. Sanskrit Pathshala, Senior basic school, Navodaya Vidyalaya, Makhtab, etc.	O

More than one institution of a type in the village is indicated by the number within brackets against the abbreviation, e.g. P(3), M(4), etc.

Column 7 : Medical

Availability of medical facility within the village is indicated by following codes :

(i)	Allopathic Hospital	H
	Ayurvedic Hospital	HA
	Unani Hospital	HU
	Homeopathic Hospital	H Hom
(ii)	Allopathic Dispensary	D
	Ayurvedic Dispensary	DA
	Unani Dispensary	DU
	Homeopathic Dispensary	D Hom
iii)	Maternity & Child Welfare	MCW
(iv)	Maternity Home	MH
(v)	Child Welfare Centre	CWC
(vi)	Health Centre	HC
(vii)	Primary Health Centre	PHC
(viii)	Primary Health Sub-Centre	PHS
(ix)	Family Welfare Centre	FWC
(x)	T.B. Clinic	TB
(xi)	Nursing Home	NH
(xii)	Registered Private Medical Practitioner	RMP
(xiii)	Subsidised Medical Practitioner	SMP
(xiv)	Community Health Worker	CHW
(xv)	Others	O

More than one institution of a type in the village is indicated by the number within brackets against the abbreviations, e.g. H(3), D(4), etc.

Column 8 : Drinking Water

The type of the drinking water supply sources available within the village are indicated by codes as follows :

(i)	Tap Water	T
(ii)	Well Water	W
(iii)	Tank Water	TK
(iv)	Tubewell Water	TW
(v)	Handpump	HP
(vi)	River Water	R
(vii)	Canal	C
(viii)	Lake	L
(ix)	Spring	S
(x)	Others	O
(xi)	Summer Sorce	SS

Column 9 : Post, Telegraph and Telephone

It is indicated by codes as shown below whether within the village exists the following amenities:

(i)	Post Office	PO
(ii)	Telegraph Office	TO
(iii)	Post & Telegraph Office	PTO
(iv)	Telephone Connection	PH

Column 10: Commercial and Co-operative Banks

If the village is served by any banking service, commercial bank, co-operative bank etc.
the same is indicated in codes mentioned below along with the number of banks in brackets. If not available the distance of nearest place where the facility exist is given:

(i)	Commercial Bank	CM
(ii)	Co-operative Bank	CP

Column 11: Credit Societies

If the village enjoys the services of Credit Societies i.e. Agricultural Credit Societies, Non Agricultural Credit Society or Other Credit Societies, the same is indicated in codes mentioned below along with the number of such societies in brackets. In case the facility is not available within the village the distance of the nearest place where such facility exist is given :

(i)	Agricultural Credit Society	ACS
(ii)	Non- Agricultural Credit Society	NCS
(iii)	Other Credit Society	OCS

Column 12 : Recreational and cultural facilities

If facilities such as Cinema/Video hall, Sports Club, Stadium/Auditorium is available in the village, the same is recorded in these columns. If not available the particulars of the nearest place with the facility is recorded. The information is indicated in codes mentioned below along with the number of such facilities in brackets:

(i)	Cinema / Video Hall	CV
(ii)	Sports Club	SP
(iii)	Stadium / Auditorium	ST

Column 13 : Communications

If the village is served by any mode of public / private transport like Bus, Railway station or Navigable water ways they are to be mentioned as follows:

(i)	Bus	BS
(ii)	Railway Station	RS
(iii)	Navigable Waterway	NW

Column 14 : Approach to village

Approach to village refers to the state of road leading to village. The approach to the village is indicated in following codes :

(i)	Paved Road	PR
(ii)	Mud road	MR
(iii)	Foot path	FP
(iv)	Navigable River	NR
(v)	Navigable Canal	NC
(vi)	Navigable waterways other than River, Canal	NW

Column 15 : Nearest Town and distance

The distance is given in kilometers in brackets against the name of the town nearest to the village.

Column 16 : Power supply

Availability of Power Supply in the village, whatever may be the form of its use is given by using following codes :

(i)	Electricity for domestic use	ED
(ii)	Electricity for agricultural use	EAG
(iii)	Electricity for other purposes	EO
(iv)	Electricity for all purposes	EA

Column 17 : News Paper / Magazine

If village receives any News Paper/Magazines the same is noted in this column using following codes :

(i)	News Paper	N
(ii)	Magazine	M

Column 18 : Most important commodities manufactured

The name of three most important commodities manufactured in the village is recorded against this column.

Column 19 to 23 : Land use i.e. area under different types of land use

Land use data maintained by the State/ UT Govts. are furnished against these columns. The data concerning area under Forest, Irrigated land (by source), Un-irrigated land, Culturable waste and Area not available for cultivation in the village are shown against these columns. The area figures are given in hectare(s) up to one decimal. Desh '-' is recorded wherever the information is not made available by the concerned department. The codes used for different types of irrigation facilities available in the village are indicated below:

(i)	Government Canal	GC
(ii)	Private Canal	PC
(iii)	Well (without electricity)	W
(iv)	Well (with electricity)	WE
(v)	Tubewell(without electricity)	TW
(vi)	Tubewell(with electricity)	TWE

(vii)	Tank	TK
(viii)	River	R
(ix)	Lake	L
(x)	Waterfall	WF
(xi)	Others	O
(xii)	Total	T

The village directory also carries the following appendices.

Appendix-I It gives the abstract of educational, medical and other amenities available in villages CD Block wise of the district.

Appendix-I-A Indicates number of villages CD Block wise having one or more primary schools.

Appendix-I-B Indicates number of villages CD Block wise having primary, middle and secondary schools.

Appendix-I-C Shows number of villages CD Block wise with different sources of drinking water facilities.

Appendix-II Indicates the list of villages with 5,000 and above population which do not have one or more important amenities.

Appendix-II-A Indicates list of Census Towns which do not have one or more amenities.

Appendix-III It gives the land utilization data in respect of Census Towns / non-municipal Towns.

Appendix-IV CD Block wise list of inhabited villages where no amenity other than drinking water facility is available.

Appendix-V Summary showing number of villages having or not having Scheduled Castes population.

Appendix-VI Summary showing number of villages having or not having Scheduled Tribes population.

Appendix-VII A The appendix shows the list of villages according to the proportion of the Scheduled Castes to the total population by ranges.

Appendix-VII B The appendix shows the list of villages according to the proportion of the Scheduled Tribes to the total population by ranges.

Appendix-VIII Shows number of different types of girls school in a village.

ANNEXURE-II

NOTE ON FERTILITY, MORTALITY AND MIGRATION - 1991 CENSUS

Fertility Levels :

Births, deaths, and migration are three components of population change in any geographical unit. Fertility is a major component of population growth. In the 1991 Census, questions on fertility related to age at marriage, number of surviving children, number of children ever born alive and children born alive during the last year were canvassed to generate the table of fertility. The first three questions were asked to all ever-married women and the last question related to currently married women. The various measures of fertility worked out are based on the district level estimates of fertility and child mortality for 1991.

Mortality analysis is one of the most important branches of demographic studies. This branch deals with the demographic event of death. Since death is a biological phenomenon that occurs just once to each individual, the analysis is simpler than, say, the study of fertility wherein the event of birth can occur with varying frequency among women.

Migration is an important aspect in the area of Population Studies. There is an increase in population of any community or country due to births or in-migration, whereas there is a decrease in the population of its residents due to deaths or migration. In other words, migration is an important reason for the change in size and composition of population. Those areas are affected by migration from where migrants go or where they have gone.

The migration tables of the 1991 Census are mainly based on the questions on place of birth, place of last residence, duration of residence at the place of enumeration and reason for migration included in the individual slip. These tables generated on computer provide the distribution of population by place of birth, distribution of migrants by place of last residence, duration of residence and reason for migration. The data on intra-district, intra-state and inter-state migration streams and inmigration from abroad are presented in these tables.

Source - Estimate of Mortality Indicators by sex at district level-M.P.1991

The above table shows that the child mortality in the state and district has decreased considerably from 1981 to 1991. The total child mortality of the district for q(1), and q(2), is less than the state average in contrast to the figures of child mortality of the district for q(3) and q(5) which is more than the state average . The child mortality data of the district shows that there is a remarkable decline in the child mortality during 1981 to 1991 which is the same for state also. However some inconsistencies are observed in male-female classification.Both male and female child mortality for q(3) and q(5) of the district is more than the state average The table also reflects that the female child mortality is more than the male child mortality rates except for q(1) & q(5) in 1991. .

ANNEXURE IV(I)

POPULATION OF INMIGRANTS IN THE DISTRICT BY PLACE OF BIRTH : CENSUS 2001

State- Madhya Pradesh **District : Sidhi**

Birth Place	Population and Percentage		
	Persons	Male	Female
(i) Within the State but outside Enumeration place	430,937 (85.1)	56,860 (13.2)	374,077 (86.8)
(A)Within the district but outside Enumeration place	382,840 (75.6)	43,611 (11.4)	339,229 (88.6)
(B)Birth place in other district of State	48,097 (9.5)	13,249 (27.5)	34,848 (72.5)
(ii) Place of Birth in other states of India than the state of Enumeration	74,890 (14.8)	32,604 (43.5)	42,286 (56.5)
(iii) Birth place in Foreign	286 (0.1)	149 (52.1)	137 (47.9)
(iv) Unclassified	0 (0.0)	0 (0.0)	0 (0.0)
Total Immigrants	506,113	89,613	416,500
Persons born in the place of enumeration	1,325,039	858,217	466,822
Total population	1,831,152	947,830	883,322

(Source- Migration Table D-1)

Note: Percentages are given in brackets.

This table presents the number of in migrants by place of birth of enumeration within the district distributed in four classifications i.e. (i) Migration from within the state, (ii) Migration from other states of India,(iii) Migration from foreign place and (iv) Unclassified.

It is observed that the migration by birth from within the state is maximum 85.1 per cent of total migration. The migration from within the district but outside the enumeration place is 75.6 per cent whereas migration from other districts of the state is 9.5 per cent. Migration from other states is 14.8 per cent and the migration from outside India is 0.1 per cent of the total migration. It is also seen that the female migration is much higher than the male migration in first two classifications which is due to the migration of females after marriage.

ANNEXURE IV(II)

POPULATION OF INMIGRANTS BY PLACE OF LAST RESIDENCE : CENSUS 2001

State- Madhya Pradesh **District : Sidhi**

Place of last residence	Population and Percentage		
	Persons	Male	Female
(i) Within the State but outside Enumeration place	436,538	58,450	378,088
	(85.5)	(13.4)	(86.6)
(A)Within the district but outside Enumeration place	389,370	45,383	343,987
	(76.3)	(11.7)	(88.3)
(B)From other district of State	47,168	13,067	34,101
	(9.2)	(27.7)	(72.3)
(ii) From other states of India outside enumeration state	73,759	32,302	41,457
	(14.4)	(43.8)	(56.2)
(iii) Place of residence outside India	232	121	111
	(0.0)	(52.2)	(47.8)
(iv) Unclassified	0	0	0
	(0.0)	(0.0)	(0.0)
Total Immigrants	510,529	90,873	419,656
Population of Non-inmigrants	1,320,623	856,957	463,666
Total population	1,831,152	947,830	883,322

Source: Migration Table D-2

Note: Percentages are given in brackets.

Migration of population by place of last residence distributed in four classifications is presented in this table. It is seen that the migration by usual place of last residence from within the state is highest 85.5 per cent of total migrated population. Within this classification, the migration from within the district is 76.3 per cent and only 9.2 per cent migration is from other districts of the state. Migration from other states of India outside enumeration state works out to 14.4 per cent of total migration and it is only 0.0 per cent from outside India. Mostly, sexwise analysis reveals much higher migration of females which is obviously due to the movement of females after marriage.

ANNEXURE IV (III)
POSITION OF INMIGRANTS FROM OTHER STATES- AS PER CENSUS 2001

State : Madhya Pradesh **District : Sidhi**

Birth Place	Census 2001	
	Migrant population	Percentage of total In-migrants
1	2	3
Uttar Pradesh	38,690	51.7
Bihar	12,078	16.1
Jharkhand	8,291	11.1
Chhattisgarh	8,243	11.0
West Bengal	2,177	2.9
Kerala	861	1.1
Total of 6 States	70,340	93.9
Total of other States	4,550	6.1
Total	74,890	100.0

Source:Migration Table D-1

Inmigration from other states is classified in this table. 93.9 per cent of total inmigrants are from Uttar Pradesh, Bihar, Jharkhand, Chhatisgargh, West Bengal and Kerala whereas the remaining inmigrants from all other states together constitute only 6.1 per cent.

Total 38,690 persons have migrated from Uttar Pradesh which alone accounts for 51.7 per cent of total inmigrants. Sidhi is located at the neighbouring state border of Uttar Pradesh as such the migration from Uttar Pradesh is very high and the culture and language is homogeneous.

ANNEXURE V

DISTRIBUTION OF POPULATION BY MAIN RELIGIONS

State : Madhya Pradesh **District - Sidhi**

State/District	Population	Hindu	Muslim	Jain	Christian	Buddhist	Sikhs	Others	Unclassified
1	2	3	4	5	6	7	8	9	10
Madhya Pradesh 1991	4,8566,242	4,459,5604	2,98,3127	447,111	123,961	168,016	110,506	45,087	92,830
		(91.8)	(6.1)	(0.9)	(0.3)	(0.3)	(0.2)	(0.1)	(0.2)
Madhya Pradesh 2001	6,0348,023	5,500,4675	3,84,1449	545,446	170,381	209,322	150,772	409,285	16,693
		(91.1)	(6.4)	(0.9)	(0.3)	(0.3)	(0.2)	(0.7)	(0.0)
Sidhi 1991	1,373,434	1,32,8498	38,439	114	1441	55	1117	163	3,607
		(96.7)	(2.8)	(0.0)	(0.1)	(0.0)	(0.1)	(0.0)	(0.3)
Sidhi 2001	1,831,152	1,76,0525	58,632	304	2224	328	1804	6,977	358
		(96.1)	(3.2)	(0.0)	(0.1)	(0.0)	(0.1)	0.4	(0.0)

Source :- Religion Table of Madhya Pradesh - Census 1991/2001

The above annexure presents the distribution of population at district and state level pertaining to Census 1991 and Census 2001 in respect of six religions. It is observed that the proportion of Hindu population in the district is comparatively higher than that of state average. In contrast , the proportion of Muslim, Jain, Christian, Buddhist, Sikhs etc. population is less in the district as compared to state average.

ANNEXURE VI

MARITAL STATUS OF POPULATION IN THE STATE AND DISTRICT : CENSUS 2001

State- Madhya Pradesh **District- Sidhi**

State / District	Total/ Rural / Urban	Total Population	Marital Status				
			Never married	Married	Widowed	Divorced/Separated	Unspecified
Madhya Pradesh							
	Total	60,348,023	30,219,605	27,515,074	2,420,090	193,254	0
			(50.1)	(45.6)	(4.0)	(0.3)	(0.0)
	Rural	44,380,878	22,000,621	20,412,833	1,817,380	150,044	0
			(49.6)	(46.0)	(4.1)	(0.3)	(0.0)
	Urban	15,967,145	8,218,984	7,102,241	602,710	43,210	0
			(51.5)	(44.5)	(3.8)	(0.3)	(0.0)
Sidhi							
	Total	1,831,152	920,607	847,300	57,995	5,250	0
			(50.3)	(46.3)	(3.2)	(0.3)	(0.0)
	Rural	1,570,121	783,467	729,424	52,361	4,869	0
			(49.9)	(46.5)	(3.3)	(0.3)	(0.0)
	Urban	261,031	137,140	117,876	5,634	381	0
			(52.5)	(45.2)	(2.2)	(0.1)	(0.0)

(Source- Migration Table C-2)

The above table reflects that the population (50.3%) of the district comes under the unmarried class. When compared to state the percentage of unmarried population of the district is marginally more than that of the state. Contrary to this the percentage of married population of the district is higher than that of the state. The state average is higher than that of the district in respect of widowed and it is same in case of divorced population. The proportion of unmarried persons are more in urban areas than in rural areas but married persons are more in the rural areas as compared to the urban areas of the district.

ANNEXURE - VII

AGE, SEX AND EDUCATIONAL LEVELS AS PER 2001 CENSUS

State: Madhya Pradesh **District: Sidhi**

Age Group	Total Population			Total Literates			Literates (Without educational level) and below primary			Primary

(Source- Migration Table C-8)

Note: Percentages are given in brackets.

This annexure presents the proportionate distribution of literates by different educaional levels in specific age groups. As the population in the age group 0-6 do not come within the purview of literates, it has been shown separately.

It is seen that out of 1,453,791 persons belonging to the age 7 and above 759,929 are literates and thus, the literacy rate of the district works out to 52.3 per cent. Similarly the male and female literacy works out to 67.4 and 36.0 per cent respectively.

284,522 persons have been recorded to attain education up to primary level in the age group 7-14 which is only 68.0 per cent of population in this age group. In the age group 15-34; 76,102 persons (13.7 per cent) are found educated up to middle, 78,501 person (14.1 per cent) upto the level of Matriculate/ Higher Secondary/ Intermediate/ Diploma Tech. and 16,821 persons (3.0 per cent) upto Graduate and above level. It may be noted that this is the group having maximum class interval and thus it has the maximum population as well. The analysis also reveals that the percentage of literates at all levels decreases with increasing age groups which explains the gradual increase in literacy rates over past ten years.

ANNEXURE VIII

DETAILS OF VARIOUS MOTHER TONGUES PREVALENT IN THE DISTRICT : CENSUS 2001

State- Madhya Pradesh **District - Sidhi**

Name of Mother tongue	People who have recorded their mother tongue

Magadhi/Magahi	144	0.0	1	143	0.7	99.3
Haryanvi	95	0.0	64	31	67.4	32.6
Nepali	87	0.0	9	78	10.3	89.7
Total of all other mother tongues	3,825	0.2	2,935	890	76.7	23.3
Total of all mother tongues	1,831,152	100.0	1,570,121	261,031	85.7	14.3

Source :- Mother Tongue Table C-16 (Census-2001)

As revealed by the above table the most prevalent mother tongue in District - Sidhi is Hindi which is returned by 70.0 per cent population. Bagheli/Baghel Khandi as mother tongue has second place after Hindi returned by 28.8 per cent population. Gondi as mother tongue has third rank with 0.2 percent. The other prevalent mother tongues are Urdu,Bengali,Bundeli/Bundelkhandi, Punjabi, Malayalam, Bhojpuri etc. On analysis of rural/urban sector it becomes clear that,in the rural areas Hindi is the most widely spoken language followed by Bagheli/Baghelkhandi, Gondi, Bundeli/Bundelkhandi etc. in that order. Similarly, in the urban areas the most widely spoken language is Hindi followed by Bagheli/ Baghelkhandi, Urdu, Bengali, Punjabi, Malayalam etc. in that order.

ANNEXURE - IX

STATEMENT OF FIVE MAIN SCHEDULED CASTE AND SCHEDULED TRIBE IN THE DISTRICT CENSUS 1991

State :- Madhya Pradesh **District :- Sidhi**

	State:- Madhya Pradesh			District:- Sidhi	
	Population	Percentage		Population	Percentage
Total	6,6181,170			1,373,434	
(A) Scheduled Caste Population	9,626,679	(14.6)		1,56,157	(11.4)
5 Main Castes					
1. Chamar	5,035,835	(52.3)	1. Chamar	97,008	(62.1)
2. Balai	876,764	(9.1)	2. Kumhar	20,503	(13.1)
3. Mahar	792,804	(8.2)	3. Basor	14,316	(9.2)
4. Bhangi	267,413	(2.8)	4. Koli	9,513	(6.1)
5. Ganda	236,410	(2.5)	5. Bhangi	5,962	(3.8)
(A) Scheduled TribePopulation	15,399,034	(23.3)		4,18,004	(30.4)
5 Main Tribe					
1. Gond	6,727,838	(43.7)	1. Gond	1,96,378	(47.0)
2. Bhil	3,436,743	(22.3	2. Kol	1,14,038	(27.3)
3. Kol	781,032	(5.1)	3. Baiga	42,251	(10.1)
4. Kanwar	667,244	(4.3)	4. Panika	28,713	(6.9)
5. Oraon	544,959	(3.5)	5. Khairwar	12,325	(2.9)

The above table reveals that the total population of Scheduled Castes in Census 1991 in the district was 156157 which account for 11.4 percent of the total population. The population of Chamar constituting 62.1 percent, is highest in the district among Scheduled Castes followed by Kumhar and Basor with 13.1 and 9.2 percent respectively. The population of Scheduled Tribe in the district is 418004 forming 30.4 percent of the total population which is more than state average where the population of Scheduled Tribes is 23.3 percent. Among Scheduled Tribes, Gond population is highest 47.0 percent while the population of Kol, Baiga and Panika constitute 27.3, 10.1, and 6.9 percent respectively.

ANNEXURE - XI
STATEMENT OF DISABILITY IN THE DISTRICT- CENSUS 2001

State :- Madhya Pradesh **District :- Sidhi**

Type of disability	Sex	Disabled population			Literate		
		Total	Rural	Urban	Total	Rural	Urban
1	2	3	4	5	6	7	8
Total disabled population	Persons	29,961	26,443	3,518	11,266	9,324	1,942
	Males	17,517	15,329	2,188	8,548	7,133	1,415
	Females	12,444	11,114	1,330	2,718	2,191	527
In Seeing	Persons	10,888	9,645	1,243	3,673	3,002	671
	Males	5,850	5,136	714	2,635	2,171	464
	Females	5,038	4,509	529	1,038	831	207
In Speech	Persons	2,494	2,142	352	754	618	136
	Males	1,439	1,221	218	543	451	92
	Females	1,055	921	134	211	167	44
In Hearing	Persons	1,950	1,774	176	620	530	90
	Males	1,149	1,029	120	499	430	69
	Females	801	745	56	121	100	21
In Movement	Persons	11,874	10,515	1,359	5,311	4,421	890
	Males	7,357	6,477	880	4,141	3,476	665
	Females	4,517	4,038	479	1,170	945	225
Mental	Persons	2,755	2,367	388	908	753	155
	Males	1,722	1,466	256	730	605	125
	Females	1,033	901	132	178	148	30

Type of disability	Sex	Workers					Non-workers
		Total	CL	AL	HHI	Others	
1	2	9	10	11	12	13	14
Total disabled population	Persons	10,200	5,185	3,105	323	1,587	19,761
	Males	7,123	3,705	1,744	246	1,428	10,394
	Females	3,077	1,480	1,361	77	159	9,367
In Seeing	Persons	4,067	2,080	1,298	125	564	6,821
	Males	2,645	1,386	674	86	499	3,205
	Females	1,422	694	624	39	65	3,616
In Speech	Persons	807	395	291	22	99	1,687
	Males	501	251	152	12	86	938
	Females	306	144	139	10	13	749
In Hearing	Persons	904	539	248	27	90	1,046
	Males	625	406	120	20	79	524
	Females	279	133	128	7	11	522
In Movement	Persons	3,711	1,796	1,038	130	747	8,163
	Males	2,835	1,379	659	110	687	4,522
	Females	876	417	379	20	60	3,641
Mental	Persons	711	375	230	19	87	2,044
	Males	517	283	139	18	77	1,205
	Females	194	92	91	1	10	839

The above table shows the proportion of disabled population of the district. Out of total disabled population the highest number is of those with disability in movement followed by those with disability in seeing and the least such number of disables are those with disability in hearing. Out of the total disabled population, the highest number is of those with disability in seeing and the lowest such number is of those with mental disability.

PART B - PRIMARY CENSUS ABSTRACT

Brief note on Primary Census Abstract

The first census of the third millennium and twenty first century the Census of India, 2001 was the 14th continuous and uninterrupted Indian census since 1872. Thus, 2001 Census will provide data on population and its characteristics marking transition from one century and millennium to another.

The gigantic operation of Population Enumeration (considered by many to be the single largest and complex peace time administrative exercise in the world) was made possible due to the door to door universal canvassing of the Household Schedule by about 2 million enumerators and supervisors covering 593 districts, 5,463 sub-districts, 5,161 towns and 638,588 villages. The comprehensive Household Schedule which replaced the individual slip had three parts and two sides A and B. Part I contained the Location Particulars; Part II related to the Individual Particulars and Part III contained questions for Household engaged in Cultivation/Plantation. The part II of the Household Schedule had 39 columns and 23 questions all of which were universally canvassed and no sampling was resorted to during enumeration.

Data Processing

A quantum leap was made in the technology front while processing the Census 2001 data both for Houselisting and Population Enumeration. The Census schedules for both the phases were scanned through high speed scanners in fifteen data centers across the country and hand-written data from the schedules were converted into digitized form through Intelligent Character Reading (ICR) software for creation of ASCII records for further processing. The designing and formatting of the Household Schedule had to be done very carefully using specialized software so as to ensure uniformity, which was an essential pre-requisite for scanning. The selection of appropriate state-of-art technology in data processing has made it possible to produce all the Houselisting as well as Population Enumeration tables on full count basis for the first time in the history of Census. For Census 2001, about 202 million schedules consisting of about 1,028 million records were scanned and processed within a span of only 10 months starting October, 2002.

Task Force on Quality Assurance

After the data is processed, it is expedient on the part of the data producing agency to satisfy itself about its quality before putting the same in public domain. This has to be done mainly through the process of internal consistency, comparison with similar data in the past and also through validation with likewise data if available, from external sources. Quite often the local knowledge and perception has to be brought into play to understand both the existing and the new emerging trends of population distribution and characteristics. The other very important aspect of the data quality is to ensure complete coverage of all geographical areas especially for the population enumeration phase where the data is disseminated right up to the village level in the rural areas and the ward level in the urban areas. Thus ensuring the complete coverage and correct geographical linkage of each enumeration block was one of the major planks of the quality control, specially for small area population statistics.

A very comprehensive check and edit mechanism was put in place to objectively examine the preliminary Census 2001 Population Enumeration results and finally clear them for use. The responsibility of the final clearance of data was with the Task Force on Quality Assurance (TFQA), headed by the Registrar General and Census Commissioner, India. The other members of the TFQA were the Heads and senior officers of the Census Division, Data Processing Division, Map Division, Demography Division and Social Studies Division. The Directors of Census Operations were co-opted as members whenever the TFQA discussed the data for their States/Union territories. The Directors and their senior officers were required to make detailed presentations of data for their own state both in respect to the quality and the coverage and only after the full possible cleared.

There has been a major departure in Census 2001 from the past in respect of the procedure followed for finalization of the Scheduled Castes and the Scheduled Tribes population. In the earlier censuses, the total Scheduled Castes and Scheduled Tribes populations were finalized at the time of the manual compilation of the Primary Census Abstracts (PCA) at the Regional Tabulation Offices which were

specially set up for this purpose. The individual Scheduled Castes and the Scheduled Tribes population for each state was finalized much later based on manual coding done by the coders. In 2001 Census, each individual Scheduled Caste and the Scheduled Tribe have been coded directly on the computers by the Data Entry Operators through a process known as Computer Assisted Coding (CAC) and taken up along with the processing of PCA data. The CAC process involves pulling down, from the relevant dictionary of the Scheduled Castes and the Scheduled Tribes, on the computer screen and coding from the dictionary by referring to the image of the specific individual entry in the Household Schedule appearing on the screen. The CAC of the response on Religion wherever required, was also undertaken along with the processing of PCA. This is because the Scheduled Castes status had to be determined in relation to the religion of the individual. Two Special Task Forces, one on Religion and the other on Scheduled Castes/ Scheduled Tribes were constituted for scrutiny and appropriate classification of these responses.

The main task of the Special Task Force on Religion was to appropriately merge or group the new responses encountered and code it into the appropriate religious community based on available literature and local knowledge. The Special Task Force on Scheduled Castes and Scheduled Tribes examined the different Scheduled Castes and Scheduled Tribes entries encoun-tered and classified these into appropriate category of the Scheduled Castes or the Scheduled Tribes principally based on the Presidential Notification and the available literature. Thus a very systematic and scientific mechanism was operationalised to firm up the individual religion and the individual Scheduled Castes/Tribes returns. The Scheduled Castes and the Scheduled Tribes population in 2001 Census, is thus being finalized by aggregating the population data for individual Scheduled Castes and the Scheduled Tribes at appropriate geographical levels.

The entire work relating to the data validation and scrutiny was completed by all the States/Union Territories under the overall supervision and monitoring of the Census Division of the Office of the Registrar General, India with active cooperation and support of the Social Studies Division, Data Processing Division, Data Dissemination Division and Map Division.

Primary Census Abstract

The Primary Census Abstract which is yet another important publication of 2001 Census gives basic information on Area, Total Households, Total population, Scheduled Castes, Scheduled Tribes population, Population in the age group 0-6, Literates, Main workers and Marginal workers classified by the four broad industrial categories, namely, (i) Cultivators, (ii) Agricultural laborers, (iii) Household Industry Workers, and (iv) Other workers and also Non-workers. The characteristics of the Total Population includes Scheduled Castes, Scheduled Tribes, Institu-tional and Houseless population and are presented by sex and rural-urban residence. This data is presented at different levels, namely, India, States/Union territories, Districts and Cities, Urban Agglomerations (Population 1,00,000 and above) in three different tables. In addition, the Appendix of said publication provides Houseless and Institutional Households and their population by residence and sex for 2001 for India, State and Union territory.

Apart from the India and State/Union Territory volumes for Primary Census Abstract, the District Census Handbook contains District Primary Census Abstract, Appendix to District Primary Census Abstract, Primary Census Abstract for Scheduled Castes, Primary Census Abstract for Scheduled Tribes, Village Primary Census Abstract and Urban Primary Census Abstract of the concerned district in the state.

It was for the first time at the 1981 Census that the Primary Census Abstract (PCA) was brought out for the Scheduled Castes and the Scheduled Tribes separately on the pattern of General Primary Census Abstract. This practice was continued in 1991 also. In the 1961 and 1971 Censuses, such data were made available in Table C-VIII-Social and Cultural table and to some extent in the series 'Special Tables for Scheduled Castes/Scheduled Tribes'.

The format of Primary Census Abstract has been restructured slightly in the 2001 Census as compared to that of 1991 Census. The nine-fold industrial classification of main workers given in the Primary Census Abstract of 1991 Census has been discontinued and its place, four-fold industrial classification of both 'main workers' and 'marginal workers' are included. In

1981 census only main workers were presented in to four categories. One of the novel features of the primary census abstract of 1991 census was the presentation of data of the population of age group 0-6 is continued in 2001 Census also. This will help the data users in better analysis and understanding of this literacy data.

Level of presentation in District Census Handbooks:

The Primary Census Abstract data in different PCAs are presented at different levels. The level of presentation of Primary Census Abstracts are as under:

	Name of the Primary Census Abstract	Level of presentation
1.	District Primary Census Abstract	District/CD Block/UA/City/Town
2.	Primary Census Abstract for Scheduled Castes	District/CD Block/Town
3.	Primary Census Abstract for Scheduled Tribes	District/CD Block/Town
4.	Village Primary Census Abstract	CD Block/Village wise
5.	Urban Primary Census Abstract	Town/Ward level

The PCA Data for villages was presented CD Block wise for the first time in 1991 Census. This practice is continued in 2001 Census also. The data for each CD Block is presented both for rural and urban areas separately. All the villages within the CD Block constitute the rural portion and the Census Towns and Outgrowths are shown under the urban portion of the CD Block. In case a CD Block is spread over two or more districts, than portion which falls within the district is presented, the data pertaining to remaining portion of the CD Block is presented in the concerned District Census Handbook. The data in the Urban Primary Census Abstract for each town as well as for town with outgrowths in the district are presented. The data for all the wards and the outgrowths of the town(s) are also presented separately below the concerned town(s).

The District Primary Census Abstract is presented in 59 columns. The Primary Census Abstract for Scheduled Castes and Primary Census Abstract for Scheduled Tribes are presented in 52 columns. The Village Primary Census Abstract and Urban Primary Census Abstract are presented in 58 columns.

The concepts and definitions used in the column heading are explained under the sub heading 'Census Concepts' in the Analytical Note. The term 'Total Population' includes the Scheduled Castes, the Scheduled Tribes, the Institutional and the Houseless populations. The explanation regarding area figures presented at various level in the Primary Census Abstracts are as follows:

Area Figures

The area figures supplied by local revenue authorities of the district in respect of tehsils, Police Stations and by the local bodies in respect of towns are given in square kilometers. The area figures of the villages supplied by the Tahsildars in acres have been converted and shown in hectares. The area figures of the CD Block is the total of the village areas coming under each CD Block. The area figures for the district are the same as adopted by the Surveyor General of India to maintain uniformity at the national level. The total area figures of all the tahsils/CD Blocks within the district may not tally with area figures of the district because former represents land use area only. Similarly, the total of all the villages may not tally with the entire rural of Police Station/ Tahsil. The difference may be due to the fact that while the area covered by hills, forests and rivers etc, have been accounted in the Tahsils and P.S. level the same may not be covered under the area of the villages. Apart from this it may also differ due to varying methods of computation adopted at different levels.

An appendix to District Primary Census Abstract has also been furnished showing urban enumeration block-wise particulars on Total Population, the Scheduled Castes Population and the Scheduled Tribes Population for each town.

Appendix IV of the Village Directory gives CD Blockwise list of inhabited villages where no amenity other than drinking water facility is available in the villages. In the entire district there are 56 villages which fall under this category. 2 villages in Rampur Naikin CD Block, 6 in Sidhi, 4 in Sihawal, 19 in Chitrangi, 8 in Deosar, 1 in Majholi, 5 in Kusmi, and 11 in Baidhan CD Block falls under this category.

APPENDIX V - VILLAGE DIRECTORY
SUMMARY SHOWING NUMBER OF VILLAGES NOT HAVING SCHEDULED CASTES POPULATION

Serial number	Name of C.D. block	Total villages	Uninhabited villages	Inhabited villages	Number of inhabited villages having no Scheduled Castes population
1	2	3	4	5	6
1	Rampur Naikin	187	3	184	40
2	Sidhi	292	7	285	67
3	Sihawal	313	16	297	98
4	Chitrangi	309	5	304	83
5	Deosar	221	3	218	53
6	Majholi	133	3	130	41
7	Kusmi	139	9	130	68
8	Baidhan	214	8	206	41
	District Total:	1,808	54	1,754	491

Appendix V of the Village Directory shows the number of villages not having Scheduled Castes population. Out of 1808 villages in the district 54 villages are uninhabited and remaining 1754 villages are inhabited. Out of 1754 inhabited villages 491 villages have no Scheduled Castes Population and 1263 inhabited villages have Scheduled Castes population in the district. Sihawal has highest 98 villages with no Scheduled Castes population while in other CD Blocks there are 83 such villages in Chitrangi, 68 in Kusmi, 67 in Sidhi, 53 in Deosar, 41 in Majholi and Baidhan, and 40 in Rampur Naikin CD Block which do not have Scheduled Caste population.

APPENDIX VI - VILLAGE DIRECTORY

SUMMARY SHOWING NUMBER OF VILLAGES NOT HAVING SCHEDULED TRIBES POPULATION

Serial number	Name of C. D. block	Total villages	Uninhabited villages	Inhabited villages	Number of inhabited villages having no Scheduled Tribes population
1	2	3	4	5	6
1	Rampur Naikin	187	3	184	21
2	Sidhi	292	7	285	42
3	Sihawal	313	16	297	63
4	Chitrangi	309	5	304	15
5	Deosar	221	3	218	13
6	Majholi	133	3	130	14
7	Kusmi	139	9	130	2
8	Baidhan	214	8	206	28
	District Total:	1,808	54	1,754	198

Appendix VI shows number of villages not having Scheduled Tribes population. Out of 1754 inhabited villages, 198 villages have no Scheduled Tribes population and the remaining 1556 inhabited villages are such which are having some Scheduled Tribes population. Sihawal has highest 63 villages with no Scheduled tribe population while in other CD Blocks, there are 42 such villages in Sidhi, 28 in Baidhan, 21 in Rampur Naikin, 15 in Chitrangi, 14 in Majholi, 13 in Deosar and 2 in Kusmi CD Block which do not have Scheduled Tribe population.

Note:- Villages having NIL Scheduled Castes Population have been excluded

Appendix VII-A depicts list of villages according to the proportion of Scheduled Castes to total population by ranges of such villages where Scheduled population has been recorded in 2001 Census. These percentage ranges are as less than 5, 5-10, 11-20, 21-30, 31-40, 41-50, 51-75 and 76 and above percent of total population of villages.

APPENDIX VII B

LIST OF VILLAGES ACCORDING TO THE PROPORTION OF THE SCHEDULED TRIBES TO THE TOTAL POPULATION BY RANGES

Name of the District:Sidhi

Range of Scheduled Tribes population (percentages)	Location code number	Name of village
1	2	3
Name of CD Block: Rampur Naikin		
Less than 5		
	02071700	Kuwan
	02072600	Kathriha
	02070800	Kudiya (34)
	02079200	Koshta Pawai
	02078300	Badkhada 734
	02071400	Jhalwar
	02067900	Gadhwa
	02066300	Kapuri Pawai
	02079400	Sundari
	02073100	Beldah
	02075300	Rehuta
	02079300	Mishragawan
	02075700	Itaha
	02072200	Naugawan
	02077200	Satohari
	02064400	Kharhana
	02071000	Padkhuri (587)
	02069900	Katauli
	02076200	Barau
5-10		
	02072900	Karanpur
	02069100	Titira Shuklan
	02067200	Baghad Khas
	02079000	Amarpur
	02070900	Kudiya Kothar
	02078400	Badkhada 736
	02064500	Bhainsraha
	02065600	Chorgadi
	02081300	Gannaud 234 Path Pahar
	02069700	Patehara (584)
	02066500	Raiduariya Khurd
	02066000	Majhigawan
	02067800	Barha Tola
	02065900	Raghunathpur
11-20		
	02071800	Bhitri
	02081800	Taktaiya
	02071300	Mamdar
	02067300	Baghad Dhabaiya(Tola)
	02072700	Madwa

SECTION II TOWN DIRECTORY

Notes Explaining the Codes Used in the town Directory

Town Directory statements (I to VII)

Statement I : Status and Growth History

Column (2) : Class, name and civic administration status of town :

Class has been introduced to facilitate analysis of town directory data at the state and all India levels. It is presented according to 2001 Census Population of the town as follows :

Population	Class
100,000 and above	I
50,000 - 99,999	II
20,000 - 49,999	III
10,000 - 19,999	IV
5,000 - 9,999	V
Below 5,000	VI

Town with a population of one hundred thousand (1,00,000)and above is treated as a city.

The civic administration status of the towns is indicated within bracket against the name of the town. The following abbreviations are used to denote civic status of town.

(I)	Municipal Corporation	M. Corp.
(II)	Municipal Committee	MC
(III)	Municipal Council	M Cl
(IV)	City Municipal Council	CMC
(V)	Town Municipal Council	TMC
(VI)	Municipal Board	MB
(VII)	Municipality	M
(VIII)	Cantonment Board/Cantonment	CB
(IX)	Notified Area	NA
(X)	Notified Town	NT
(XI)	Notified Area Committee/ Notified Area Council	NAC
(XII)	Notified Town Area	NTA
(XIII)	Industrial Notified Area	INA
(XIV)	Industrial Township	ITS
(XV)	Township	TS
(XVI)	Town Panchayat	TP
(XVII)	Nagar Panchayat	NP
(XVIII)	Town Committee/ Town Area Committee	TC
(XIX)	Small Town Committee	ST
(XX)	Estate office	EO
(XXI)	Gram Panchayat	GP
(XXII)	Census Town	CT

Others columns need no comments.

Statement II - Physical Aspects and Location of towns, 1999.

Column 3 to 5 : Physical Aspects

In this columns the Rainfall and Maximum & Minimum Temperature of the town is recorded.

Column 6, 7 and 8 :

Name of the State headquarters, District headquarters and Sub-Divisional headquarters with distance from the referent town in kilometers, is to be recorded respectively. If the names mentioned in these columns are the same as the referent town itself, the distance is recorded as (0) zero.

Column 9& 10 :

Name of the nearest city with one lakh and more and five lakhs and more population are recorded.

Column 11, 12 and 13 :

If referent town enjoys the facility of railway station, bus route facility or navigable river/canal. Its name is to be mentioned. If not available, then the name of nearest place with distance, where such facility exists is to be mentioned.

Statement III : Municipal Finance 1998 – 1999

Item-wise amount of receipt and expenditure in thousand rupees, relating to municipal finance of the town for the year 1998-99 is to be recorded.

Statement IV : Civic and Other amenities, 1999

Column (1 to 5) : Self explanatory.

Column (6) : Road length (in kms.)

Information about kutcha / pucca road is to be recorded separately for the roads within the limits of the referent town.

(i)	Pucca Road	PR
(ii)	Kutcha Road	KR

Column (7) : System of Sewerage

Generally, by sewerage system is implied the network of mains and branches of underground conduits for the conveyance of sewerage to the point of disposal. Sewers that carry only household and industrial wastes are called separate sewers, those that carry storm water from roofs, streets and other surface are known as storm water drains, while those carrying both sewage and storm water are called combined sewers.

The codes used for different types of drainage system are as follows :

(i)	Sewer	S
(ii)	Open Surface Drains	OSD
(iii)	Box Surface Drains	BSD
(iv)	Sylk Drains	SD
(v)	Cesspool method	CP
(vi)	Pit System	Pt
(vii)	Others	O

Column 8 to 11 : Number of latrines

Number of various types of latrines both Public and Private are given in these columns.

Column 12 : Method of disposal of night soil

The various prevalent method of disposal of night soil are given below with codes :

Head Loads	HL
Basket	B
Wheel Barrows	WB
Septic Tank	ST
Pit System	Pt
Sewerage	S
Others	O

Column 13 and 14 : Water supply

Source and capacity of storage system. The following codes are used in these columns:

Column 13:

(i)	Tap water	T
(ii)	Tube-well water	TW
(iii)	Tank Water	TK
(iv)	Well water	W

Column 14:

(v)	Over Head Tank	OHT
(vi)	Service Reservoir	SR
(vii)	River Infiltration Gallery	RIG
(viii)	Bore Well Pumping System	BWP
(ix)	Pressure Tank	PT

The information on major source of water supply are given in column 13 and the storage capacity against each in kilo-litres (in bracket) are presented in column 14.

Column 15 : Fire Fighting Service

In case the fire fighting service is available in the referent town 'yes' is recorded. If the facility is not available within the town. The name of the nearest place having this facility with its distance from the referent town has been recorded.

Column 16 to 20 : Electrification (Number of connections)

Different types of electric connections have been shown in these columns, i.e. Domestic, Industrial, Commercial, Road lighting (points) & others.

Statement V : Medical, Educational, Recreational and Cultural Facilities, 1999

Column 1 to 3 : Self explanatory.

Column 4 & 5 :

The data covers all such medical institutions run by or aided by Government/Semi Government/Local bodies and Charitable institutions or Social agencies like the Missionaries. Where the family planning centres are attached to hospitals or maternity and child welfare centres or Primary Health Centres, may be treated as independent units and counted separately using following codes :

(i)	Hospital	H
(ii)	Dispensary	D

(iii)	Health Centre	HC
(iv)	Family Welfare Centre	FWC
(v)	T.B. Clinic	TB
(vi)	Nursing Home	NH
(vii)	Others	O

In case of more than one institutions of any type, it is indicated within brackets the number of such institution (s) e.g. D(3), NH(8), etc. The institutions have further been distinguished by providing additional codes within the bracket as given below :

Ayurvedic	A
Unani	U
Homoeopathic	Hom

Column 6 to 9 :

The codes used for these columns are as follows :

(i)	Arts only	A
(ii)	Science only	S
(iii)	Commerce only	C
(iv)	Arts & Science only	AS
(v)	Arts & Commerce only	AC
(vi)	Combined for all categories-Arts, Science and Commerce	ASC
(vii)	Law	L
(viii)	University	U
(ix)	Others	O

Column 10 : Recognized shorthand, typewriting and vocational training institutes

"Recognised" should mean recognised by some statutory authority, like education department, commerce department, labour department etc. of the government or semi government or autonomous bodies, public sector undertakings etc.

The following codes are used :

(i)	Vocational Training Institute	VT
(ii)	Shorthand	SH
(iii)	Typewriting	Type
(iv)	Shorthand & Typewriting	SH Type
(v)	Others	O

The vocational institutions like - Applied Art/ Painting college, Pharmacy college, B. Ed. College, Teacher's Training Institute, Music / Dance School, Nursing School etc. are covered under 'Others'.

Column 11 to 14: Higher Secondary/Intermediate/ Senior Secondary/PUC/Junior College level, Secondary/Matriculation, Middle Schools/ Junior Secondary and Primary Schools.

School up to class V are treated as Primary or elementary schools. These include Nursery schools, Kindergarten schools, Pre-Primary schools, Junior Basic schools upto class V and Primary schools upto class IV.

Schools upto VIII are considered as Middle school or Junior Secondary.

Schools upto class X are considered as Matriculation or Secondary schools.

Schools upto XI or XII classes are considered as Higher Secondary / Intermediate / Pre University / Junior College etc. This would cover 10+2 classes whether held in schools or college.

If there are composite schools like middle schools with primary classes or Secondary schools with Middle classes, these are also included in the number of Primary and Middle schools, respectively. For example, if in a town, there are two Primary Schools and one Middle school with Primary classes, the number of Primary schools in the town is given as three and that of Middle schools as one though there are only three educational institutions.

If there are more institutions of a type in the town, the number is indicated within bracket along with the abbreviation, e.g. P(4), M(3).

Column 15 : Adult literacy class/centres

This column has been introduced keeping in view the Minimum Needs Programme of the Planning Commission. There are number of Adult Education Centres which are included in these columns.

If an educational facility is not available in the town, the name of the nearest place and its distance in kilometres from the town where the facility is available is mentioned.

Column 16 : Working Women's hostels with number of seats

The number of working women's hostel if available in the referent town is mentioned with number of seats. If the facility is not available in the town the

name of nearest place with distance where the facility is available is recorded.

Column 17 to 19 : Recreational and Cultural Facilities

Stadium, Cinema, Auditorium/Drama/Community Hall are covered under recreational & cultural facilities. The particulars of permanent recreational facilities are considered for these columns.

Column 20 : Public Libraries, Reading Rooms

Number of public libraries and reading rooms available in the referent town are recorded in codes as follows :

(i)	Public Library	PL
(ii)	Reading room	RR

Statement VI : Trade, Commerce, Industry and Banking, 1999

Column 3 to 8 : Name of three most important commodities exported and names of three most important commodities manufactured in the town are recorded.

Column 9 : Number of Banks

Number of Banks available in the referent town both Commercial and Co-operative banks are recorded against this column.

Column 10 & 11 : **Number of Agricultural Credit Societies and Non Agricultural Credit Societies**

The total number of Agricultural Credit Societies and Non Agricultural Credit Societies in the referent town are recorded against these columns.

Statement VII : Civic and other Amenities in Slums, 1999

This is the statement on civic and other amenities in all slums whether notified or not and for all towns having statutory bodies, like municipality, Municipal Corporation, Town area committee etc.

STATEMENT - I
