ACKNOWLEDGEMENTS

I am thankful to Shri K. D. Ballal, Central Tabulation Officer, Delhi and his staff who very kindly checked the tables for accuracy and made useful suggestions for improvement.

In the Maharashtra Census Office I received valuable assistance in compilation of tables and notes from Sarvashri D. V. Rangnekar, Deputy Superintendent of Census Operations, A. W. Mahatme, J. G. Deshmukh, Tabulation Officers and Vyas Rao, J. S. Natekar and S. D. Bhatwadekar, Statistical Assistants.

Shri K. H. Shevade and Shri C. M. Kane looked after the printing arrangements.

I am also grateful to Shri S. A. Sapre, Manager and the staff of the Government Central Press, Bombay, for excellent printing of the volume.

B. A. KULKARNI

INTRODUCTION

This Part of the Census Report presents six tables on migration showing the distribution of population by nationality and place of birth and of the migrants classified by place of birth and cross-classified by sex, duration of residence, workers, non-workers and nine broad industrial categories for workers. Two of the tables present more elaborate cross-classification of migrants by age groups, educational levels and occupational divisions for the cities in Maharashtra Such exhaustive material on migration had never been published before

The 1961 Census

2. The 1961 Census was conducted between 10th and 28th February, 1961. The enumerators called on each household in their assigned areas and filled in the Census Forms (Individual Slips and Household Schedules) by interviewing one or more responsible members of the household. They revisited all the households between 1st and 5th March, and corrected their forms for changes occurring between their first visit and the Census reference date, *viz.*, sunrise of 1st March, 1961. These corrections were, however, restricted to changes due to deaths or new births. No corrections were made for the change of any person's economic activity during the intervening period. The material presented here is, thus, relevant for 1st March, 1961.

3 The two forms used for collection of data in the Census and the instructions issued to the enumerators for filling them have been reproduced at pages 11 to 26 of Part II-A of the Maharashtra Census Report. All the six tables on migration are prepared on the basis of a full count from the information collected in the Census Individual Slip.

Urban Areas

4. Urban areas or towns are places which either have a municipality or cantonment or have been treated as towns because they have—

(*a*) a population of 5,000 or more ; and

(*b*) 75 per cent or more of male workers engaged principally in non-agricultural pursuits, that is, devoting most time to such pursuits.

An additional criterion of urban density not being less than 1,000 per square mile applied in some of the States was not applied in Maharashtra.

The Scheme of Presentation

5. A note is added at the beginning of each table to explain its layout, method of presentation, concepts, definitions and limitations of material presented. These notes are not, however, intended to present analysis or review of the material presented for which Part I-A of the Report is exclusively reserved.

6. All the tables (except Tables D-IV and D-V) present the Census material for 31 units, i.e. the Maharashtra, its four administrative divisions and 26 districts. For purposes of the 1961 Census, the districts had been given a serial (code) number running from north-west to south-east. The order of presentation uniformly followed in the tables is based on these code numbers, and is shown below :—

BOMBAY DIVISION—

(1) Greater Bombay.
(2) Thana
(3) Kolaba.
(4) Ratnagiri.
(5) Nasik.
(6) Dhulia
(7) Jalgaon.

POONA DIVISION—

(8) Ahmadnagar.
(9) Poona.
(10) Satara
(11) Sangli
(12) Sholapur
(13) Kolhapur.

AURANGABAD DIVISION—

(14) Aurangabad
(15) Parbhani.
(16) Bhir
(17) Nanded.
(18) Osmanabad.

NAGPUR DIVISION—

(19) Buldhana
(20) Akola
(21) Amravati.
(22) Yeotmal.
(23) Wardha
(24) Nagpur
(25) Bhandara.
(26) Chanda.

7. The tables which present material for 31 units start with entries for the State. Then follow entries for Bombay Division and its districts, then Poona Division and its districts and so on. Data from none of these tables have been presented below the district level except in Table D-VI which presents material also for 12 cities in the State.

8. Tables D-IV and D-V present material only for 12 cities in Maharashtra, *viz.* :—

(*i*) Greater Bombay
(*ii*) Nagpur
(*iii*) Poona
(*iv*) Sholapur
(*v*) Kolhapur
(*vi*) Amravati
(*vii*) Nasik
(*viii*) Malegaon
(*ix*) Ahmadnagar
(*x*) Akola
(*xi*) Ulhasnagar
(*xii*) Thana.

Relevant portions of all the migration tables have also been reproduced in Part X of the Census Report on each of the cities in Maharashtra.

Census Questionnaire on Migration

9. Since 1881, all the Population Censuses have included a question on " birth place " in the Census Questionnaire to provide information regarding movement of population. Up to 1951, the Census question regarding " birth place " continued more or less in the same form. The enumerators were asked to record the name of the district where the informants were born and to add the province if they were born outside the province in which their names were being recorded. If the person was born out of India the name of the country was recorded. No more details beyond the location of the birth place were thus asked at the previous Censuses.

10 In the 1961 Census, however, the scope of the question on " birth place " was widened to include in addition to the location of the " birth place " information on (*i*) classification of " birth place " as rural or urban ; and (*ii*) duration of stay at the place of enumeration for those who were born outside the place of enumeration.

11 The three questions asked on migration and the relevant instructions issued at the 1961 Census are reproduced below :—

Q. 4(a) Birth place—

1. If born in village or town in which enumerated.	Write PL
2. If born in another village or town of district in which enumerated	Write D
3. If born in another district in the State of enumeration	Write name of district.
4. If born in another State in India	Write name of district and State, if name of district is known ; otherwise write name of State
5. If born in a country outside India, *e g.*, Pakistan or any other country	Write name of country.
6. Person born at sea or in air or in railway carriage or on road transport, *e g*, buses, etc should be entered as such.	

Q. 4(b) Whether born in village or town—

1. If born in a village	Write R.
2. If born in a town which is considered a town at the present time even if it was not so considered at the time of birth	Write U.
3 If the person enumerated is not in a position to say whether the place of birth is a village or town	Write the name of the place of birth as returned by him

Q 4(c) Duration of residence—

1. For a person born in village or town or city in which enumerated	Write X
2. For a person born in another village or town or city of district of enumeration or who was not born in the district of enumeration	Write the number of completed years this person has been in the village/town/city of enumeration (Do not take into account period of temporary absence on leave or holiday or tour or business)
3. If the duration of residence is less than one year	Write O
If the duration of residence is one year or over	Write the actual number of completed years of reside ce

12 All the tables presented in this volume have been compiled from the material received at the Census in response to the above questions, cross-classified with the replies received for other questions like sex, age, educational level, industry and occupation

Limitations

13. All the tables in this volume present material only for immigrants in the State and its administrative units. No material is presented on out-migration from the State or any particular district This subject is, however, discussed in the Chapter on Migration in Part I-A of the Maharashtra Census Report

14. A migrant is a person who has been enumerated in the 1961 Census at a place other than his place of birth, whatever be the cause of his movement to the place of enumeration or period of residence there. Migration, thus, covers all types of movement—temporary, seasonal, long-term or permanent resulting from social, economic and other factors such as education, marriage, employment, etc. The material presented here does not exclusively relate to immigration on economic grounds, though the latter can be estimated from the study of classification by sex, age, duration of residence and economic activity

15 The 1961 Census enumeration was done on the basis of normal residence. But persons who were out of their normal residences throughout the enumeration period (10th to 28th February 1961) were not enumerated at those places and were instead enumerated at places where they were found during that period Such accidental cases are also included among the migrants. Their number should, however, be extremely small

16. Another type of accidental migration results from the local custom of married daughters usually returning to their parents for the first confinement. The child, even when enumerated at its normal residence, is thus returned as born elsewhere.

17. The tables do not present any material on the causes of migration In the normal course, women migrate on marriage, though the bulk of such marriage migration occurs within the district. Migration of men is more on economic grounds but in the younger ages a substantial portion is also due to the movement from smaller to larger villages or towns for education.

18 Rural or urban classification of places of birth has been introduced for the first time in these tables. Some respondents might not have been aware of the recent status of their birth place In any case, the responses depended more upon what they thought to be a village or town than the Census criteria of rural and urban areas.

19 Where the migration has occurred in stages say first from place A to place B and then to place C, the rural-urban classification would be with reference to place A and not place B The duration of residence is, however, with reference to place C and does not cover the period spent at place B Such cases of intermediate migration are, however, likely to be very few.

20 The Census Commissioner's revised Tabulation Plan includes Table D-III-A showing the classification of migrants from other States and countries by age-groups and duration of residence That table has not been compiled for Maharashtra and is not, therefore, included in this volume.

Special Study of Migration to Greater Bombay

21 In 1961, the immigrants in Greater Bombay were nearly two-thirds of its population The increasing volume of immigration has created many social and economic problems Because of its importance, a special study of that migration was undertaken as a part of the 1961 Census Its results are published independently in Part X (1-C) of the Maharashtra Census Report on Greater Bombay.

Economic Classification

22. Economic classification into workers, non-workers and broad industrial categories of workers is used in Tables D-IV and D-VI.

23. Information collected in the Census for each individual included the following economic questions :—

Q. 8.—Working as cultivator.

Q. 9.—Working as agricultural labourer.

Q 10 —Working at household industry—
(*a*) Nature of work ,
(*b*) Nature of household industry ;
(*c*) If employee

Q. 11 —Doing work other than 8, 9 or 10—
(*a*) Nature of work ,
(*b*) Nature of industry, profession, trade or service ,
(*c*) Class of worker ;
(*d*) Name of establishment

Q 12 —Activity if not working.

1961 Census Economic Classification Scheme

24. The 1961 Census Scheme of Economic Classification is altogether different from that used in the 1951 or earlier Censuses. In those former Censuses, income or economic independence was made a criterion for measuring the economy of the country. Economically independent and economically dependent persons had been classified separately. They were called earners and dependants. An intermediate category of economic semi-dependence was introduced in 1931, and continued in 1941 and 1951 They were called working dependants in 1931, partly dependants in 1941 and earning dependants in 1951.

25. In practice, however, this intermediate category did not seem to have worked well. It was felt that the strict application of the criterion of economic independence suppressed those who worked in family economic activities but did not actually earn an income

26. The 1961 Census, therefore, laid stress on " work " so that all people who worked (including family workers, who were not in receipt of any income, or working children who did not earn enough for their maintenance) were included as workers. The concept of dependency has now been completely abandoned for economic classification of the population Instead, the classification is into workers and non-workers.

Workers and Non-workers

27. A person is classified as a worker if—

(*a*) in the case of seasonal work like cultivation, livestock, dairying, household industry, etc. he has had some regular work of more than one hour a day throughout the greater part of the working season ; and

(*b*) in the case of regular (non-seasonal) employment in any industry, trade, profession or service, he was employed during any of the fifteen days preceding the day of enumerator's visit to the household.

28. A person who was working but was absent from his work during the fifteen days preceding the day on which enumerated or even exceeding the period of fifteen days due to illness or other causes has been treated as a worker. A person who had been offered work but had not actually joined has been treated as a non-worker.

29. " Work " includes not only actual work but effective supervision and direction of work also.

30. Persons under training as apprentices with or without stipend or wages are regarded as workers.

31. An adult woman who was engaged in household duties but doing no other productive work to augment the family's resources has not been considered as working If, however, in addition to her household work she engaged herself in work such as rice-pounding for sale or wages, or in domestic services for wages for others, in minding cattle or selling firewood or making and selling cow-dung cakes, or grass, etc. or any such work, she has been treated as a worker.

32. Persons like beggars, pensioners, agricultural or non-agricultural royalty, rent or dividend receivers who earn an income but who are not participating in any productive work are not treated as workers unless they also work in cultivation, industry, trade, profession or service.

33. A public or social service worker who is engaged in public service actively or a political worker who is actively engaged in furthering the political activity of his party is regarded as a worker.

34. The population classified as workers here is the economically active population including family workers but not including unemployed persons.

35. The Census Questionnaire did not include any question to determine the extent of full employment or under-employment.

36. Classification of workers doing two or more different types of work, has been done on the basis of their principal work, i.e. the work which consumes larger portion of their time and not necessarily the work which earns larger portion of their income.

37. As described earlier, the period of reference for regular (non-seasonal) work in any industry, trade, profession or service, was 15 days preceding the day of enumerator's visit to the household. In the case of seasonal work like cultivation, livestock, dairying, household industry, etc., some regular work of more than one hour a day throughout the greater part of the last working season was the criterion. Entries in regard to industry and occupation were not corrected in the second round visits with reference to the date of reference, *viz.*, 1st March. 1961. The material presented here, therefore, relates to the reference period approximating to the conditions as on 1st March, 1961.

Broad Industrial Categories

38. In the 1951 Census, the entire population was divided into eight livelihood classes. Economically semi-active people known as earning dependants and the economically inactive people or non-earning dependants were divided on the basis of livelihood classes of persons on whom they were dependent.

39. In the 1961 Census, non-workers are not classified by their dependence on one or the other sector of economy. The working population alone is classified in the following nine broad industrial categories :—

(*i*) Cultivator ;
(*ii*) Agricultural labourer ;
(*iii*) Mining, quarrying, livestock, forestry, fishing, hunting and plantations, orchards and allied activities ;
(*iv*) Household industry ;
(*v*) Manufacturing other than household industry;
(*vi*) Construction ;
(*vii*) Trade and Commerce ;
(*viii*) Transport, Storage and Communications ;
(*ix*) Other services.

CATEGORY I

40. This category includes both the owner cultivators and tenant cultivators. Along with workers doing manual work on land are also included persons who are engaged in active supervision or direction of cultivation. All persons working in cultivation of land on which they have either ownership or tenancy rights are included in this category.

CATEGORY II

41. All other persons working on land as labourers on wages without holding any right upon the land are classified as agricultural labourers and included in the second category.

42. Cultivation involves ploughing, sowing and harvesting and does not include fruit-growing, keeping of orchards or groves and working for plantations like coffee, tea, rubber, cinchona and other medicinal plantations. These excluded activities are not, therefore, included in Category I or II but have been treated as either household industries or non-household industries and persons engaged in them have been classified in Category III or IV as the case may be.

CATEGORY III

43. Workers in mining, quarrying, livestock, forestry, fishing, hunting, plantations and allied activities are included in this category.

CATEGORY IV

44. " Household Industry " is defined as an industry conducted at home in urban areas or within the village in rural areas by the head of the household himself and/or mainly by the members of the household. A household industry is not run on the scale of a registered factory and relates to repairing or making of goods. This may include sale of goods but should not be confined to buying and selling. Thus, the main criteria for household industry are its smaller scale, its being run at home in urban areas and within the village in rural areas and the participation of the head of the household and/or one or more members of the household. A person working as an employee in another person's household industry has also been treated as working at household industry and included in this category.

CATEGORY V

45. " Manufacturing " includes all types of production, processing, servicing or repairing of goods. This category does not include production, processing, etc., which may be classified as household industry.

CATEGORY VI

46. This category includes workers engaged in construction and maintenance of buildings, roads, railways, bridges, telegraph and telephone lines, waterways, reservoirs, etc.

CATEGORY VII

47. This category includes workers engaged in any capacity in wholesale or retail trading activity and commercial transactions relating to imports and exports, real estate and properties, stocks and shares, insurance, moneylending, banking, etc

CATEGORY VIII

48. This category includes workers engaged in transport activities by air, rail, road and water and in services incidental to transport such as packing, carting, loading, unloading, etc. Workers engaged in storage, warehousing and communication services such as posts, telegraphs, telephones, wireless signalling, information and broadcasting are also included in this category.

CATEGORY IX

49. This category includes (*i*) public utility services like electricity, gas or water supply and sanitary services ; (*ii*) Central, State, quasi-Government or Municipal employees in administrative departments or offices ; (*iii*) professional services , and (*iv*) trade or labour associations, recreation services, etc.

Classification by other Characteristics

50. The schemes of classification by other characteristics such as age, educational levels, occupational divisions, etc., have been explained in the notes on the concerned tables.

Occupational Classification

51. Table D-IV presented in this part shows the distribution of migrant workers by their occupations classified according to the National Classification of Occupations which is reproduced as an Appendix to this note (at page 6).

52. " Occupation " of a worker is the function which he personally performs by engaging himself in work in any branch of economic activity which is called his industry. The concept of " Occupation " is thus distinct

from that of " Industry ". The latter is defined as the sector of economic activity in which a worker is engaged. A worker, no doubt, follows his " Occupation " within a certain " Industry " but the basis for classification of the latter is the character of the establishment or the field of activity in which he is working, while that for classification of the worker is the work performed personally by the individual concerned. Thus, for a clerk working in a cotton textile mill, the industry is " manufacture of cotton textile ", while the occupation is that of a " clerk ". A clerk working in a bank is engaged in an identical occupation but his industry is " banking ". The " industry " of a spinner working in a cotton textile mill is identical with that of the former clerk, but he engages himself in a different " occupation ", *viz.*, spinner.

53. A question about a person's occupation had been asked in the Indian Censuses right from the earliest Census in 1872. But the word had been used more to indicate the means of subsistence or livelihood or the supporting sector of economy. It had never been used to mean the exact function performed by the individual in any branch of economic activity. Only in the Census of 1931, there were two separate economic questions regarding the principal occupation of earners and dependants and the industry in which they were employed. Unfortunately, no separate tables had been prepared even at that Census on industries and the entire Census classification of occupations from 1872 to 1951 has, therefore, been into the means of livelihood which at best were a combination of both industry and occupation.

54. For the first time in the 1961 Census, the two concepts of " industry " and " occupation " have been used with specific meanings distinct from each other and Tables have been prepared separately with very elaborate classification of the working population both by Industry and Occupation.

APPENDIX

NATIONAL CLASSIFICATION OF OCCUPATIONS

A Code structure which classifies occupations into—

11 Occupational Divisions (one-digit code numbers)

75 Occupational Groups (two-digit code numbers)

Note: n e c =not elsewhere classified

DIVISIONS

0 Professional, technical and related workers
1 Administrative, executive and managerial workers
2 Clerical and related workers
3 Sales workers
4 Farmers, fishermen, hunters, loggers and related workers
5 Miners, quarrymen and related workers
6 Workers in transport and communication occupations
7-8 Craftsmen, production process workers and labourers not elsewhere classified
9 Service, sport and recreation workers
X Workers not classifiable by occupations

DIVISIONS AND GROUPS

0 Professional, Technical and Related Worker

00 Architects, Engineers and Surveyors
01 Physicists, Chemists, Geologists and other Physical Scientists
02 Biologists, Veterinarians, Agronomists and Related Scientists
03 Physicians, Surgeons and Dentists
04 Nurses, Pharmacists and other Medical and Health Technicians
05 Teachers
06 Jurists
07 Social Scientists and Related Workers
08 Artists, Writers and Related Workers
09 Draughtsmen, Science and Engineering Technicians n e c.
0X Other Professional, Technical and Related Workers

1 Administrative, Executive and Managerial Workers

10 Administrators, and Executive Officials, Government
11 Directors and Managers, Wholesale and Retail Trade
12 Directors, Managers and Working Proprietors, Financial Institutions
13 Directors, Managers and Working Proprietors, Other

2 Clerical and Related Workers

20 Book-Keepers and Cashiers
21 Stenographers and Typists
22 Office Machine Operators
28 Clerical Workers, Miscellaneous
29 Unskilled Office Workers

3 Sales Workers

30 Working Proprietors, Wholesale and Retail Trade
31 Insurance and Real Estate Salesmen, Salesmen of Securities and Services and Auctioneers
32 Commercial Travellers and Manufacturers' Agents
33 Salesmen, Shop Assistants and Related Workers
34 Money Lenders and Pawn Brokers

4 Farmers, Fishermen, Hunters, Loggers and Related Workers

40 Farmers and Farm Managers
41 Farm Workers
42 Hunters and Related Workers
43 Fishermen and Related workers
44 Loggers and Other Forestry Workers

5 Miners, Quarrymen and Related Workers

50 Miners and Quarrymen
51 Well Drillers and Related Workers
52 Mineral Treaters
59 Miners, Quarrymen and Related Workers, n e c

6 Workers in Transport and Communication Occupations

60 Deck Officers, Engineer Officers and Pilots, Ship
61 Deck and Engine-Room Ratings (Ship), Barge Crews and Boatsmen
62 Aircraft Pilots, Navigators and Flight Engineers
63 Drivers and Firemen, Railway Engine
64 Drivers Road Transport
65 Conductors, Guards and Brakesmen (Railway)
66 Inspectors, Supervisors, Traffic Controllers and Despatchers, Transport
67 Telephone, Telegraph and Related Telecommunication Operators
68 Postmen and Messengers
69 Workers in Transport and Communication Occupations n e c

7-8 Craftsmen, Production Process Workers and Labourers not elsewhere Classified

70 Spinners, Weavers, Knitters, Dyers and Related Workers
71 Tailors, Cutters, Furriers and Related Workers
72 Leather Cutters, Lasters and Sewers (Except Gloves and Garments) and Related Workers
73 Furnacemen, Rollers, Drawers, Moulders and Related Metal Making and Treating Workers
74 Precision Instrument Makers, Watch Makers, Jewellers and Related Workers
75 Tool Makers, Machinists, Plumbers, Welders, Platers and Related Workers
76 Electricians and Related Electrical and Electronics Workers
77 Carpenters, Joiners, Cabinet Makers, Coopers and Related Workers
78 Painters and Paper Hangers
79 Bricklayers, Plasterers and Construction Workers, n e c
80 Compositors, Printers, Engravers, Book Binders and Related Workers
81 Potters, Kilnmen, Glass and Clary Formers and Related Workers
82 Millers, Bakers, Brewmasters and Related Food and Beverage Workers
83 Chemical and Related Process Workers
84 Tobacco Preparers and Products Makers
85 Craftsmen and Production Process Workers, n e c
86 Testers, Packers, Sorters and Related Workers
87 Stationary Engine and Excavating and Lifting Equipment Operators and Related Workers
89 Labourers n e c

9 Service, Sport and Recreation Workers

90 Fire Fighters, Policemen, Guards and Related Workers
91 House Keepers Cooks, Maids and Related Workers
92 Waiters, Bartenders and Related Workers

TABLE D-I

Non-Indian Nationals

EXPLANATORY NOTE

This Table shows the distribution of non-Indian nationals of each sex, residing in Maharashtra at the time of the 1961 Census classified by the foreign countries to which they belong.

2. The material is presented separately for Maharashtra, its four administrative divisions and twenty-six districts. Presentation for administrative units is by a vertical spread under column 1.

3. The classification by countries is shown by a horizontal spread in columns 5 to 65. The countries are first classified into five broad groups, *viz.*, (*i*) Asia beyond India including U. S. S. R., (*ii*) Europe excluding U. S. S. R., (*iii*) Africa, (*iv*) America, and (*v*) Oceania. Each group is then sub-classified by major countries of nationality. In each group smaller countries are grouped together under " elsewhere ".

4 A further break-up of figures under " elsewhere " in each group is shown separately in the Appendix to Table D-I (pages 12 to 14). The appendix shows for each country of nationality included under " elsewhere " figures for the State, divisions and the districts concerned. Districts having no figures for any country are not shown in the appendix. This appendix is not prepared for Table D-I included in the Reports on City Tables for Greater Bombay, Part X (1-B), and of other cities published separately.

5. The figures of non-Indian nationals shown here are exclusive of those who were employed in Foreign Consulates or Missions and their families because they were not enumerated in the Census. Nationals of Goa, Daman and Diu have been treated as Indian nationals and, therefore, their numbers are not included here.

6. 12,721 persons in Maharashtra had returned their nationality as " Goan ". They have been treated as Indian nationals. In the Census enumeration 5,544 persons (2,945 males and 2,599 females) had reported themselves as " Portuguese Nationals ". A large number of these persons, however, belong to the territories of Goa, Daman and Diu. After liberation of these territories their citizens became Indian nationals and, therefore, only those who had returned their birth place as " Portugal " have been treated as " Portuguese Nationals ". Their number is only 555 (428 males and 127 females). This explanation also holds good in the case of figures shown in Table D-I published in the City Tables Report of Greater Bombay, Part X (1-B).

7. One Subsidiary Table D-I.1 has been prepared from this table to show the distribution of 1,000 non-Indian nationals by countries of nationality. It is included in Part I-C of the Maharashtra Census Report.

TABLE **D-II**

Place of Birth

EXPLANATORY NOTE

This Table presents the distribution of population classified by birthplace and sex.

2. Material is presented for Maharashtra, its four administrative divisions and twenty-six districts. The break-up for rural and urban areas under each unit is also shown by a horizontal spread.

3 The classification by places of birth is shown by a vertical spread under column 1. The sub-classification for each type of place of birth by rural, urban or unclassifiable is shown by a vertical spread under column 2

4 The classification of places of birth is first into six broad groups with one group for persons born at sea and one residual group for unclassifiable birth places, *viz.*:—

A. Born in India.
B. Born in Countries in Asia beyond India (including U. S S R.)
C. Born in Countries in Europe (excluding U. S S R.).
D Born in Countries in Africa
E Born in Countries in two Americas.
F Born in Countries in Oceania.
G. Born at sea.
H Unclassifiable.

5. The first broad group A is further classified into two groups, *viz* , (I) ' Born in the State of Maharashtra ', and (II) ' Born in States in India beyond the State of Maharashtra. ' The former group (I) is further sub-classified into three sub-groups, *viz* , (*a*) Born in place of enumeration, (*b*) Born elsewhere in the district of enumeration and (*c*) Born in other districts of Maharashtra. The latter group (II) is further sub-classified into 14 States (Andhra Pradesh, Assam, Bihar, Gujarat, Jammu and Kashmir, Kerala, Madhya Pradesh, Madras, Mysore, Orissa, Punjab, Rajasthan, Uttar Pradesh and West Bengal) and 11 Union Territories and other areas presented in the following order:—

(1) Andaman and Nicobar Islands.
(2) Delhi
(3) Himachal Pradesh.
(4) Laccadive, Minicoy and Amindivi Islands.
(5) Manipur
(6) Tripura
(7) Dadra and Nagar Haveli.
(8) Goa, Daman and Diu.
(9) North-East Frontier Agency.
(10) Pondicherry.
(11) Sikkim

Nagaland does not appear in this classification as there are no migrants from that State.

6. Further break-up of birthplaces grouped under each of the broad groups B, C, D, E and F is shown by a few main countries Combined totals for all the other countries in each group are presented under the heading " Elsewhere ".

7. A break-up of figures included under " Elsewhere " from each broad group is shown separately in a supplement to this Table (pages 67 to 72) which shows the number of persons born against each country and enumerated in Maharashtra and the districts concerned. Such a supplement is not presented for Table D-II of Greater Bombay appearing in Greater Bombay Report, Part X (1-B) The figures of migrants from Singapore and British Borneo are merged with Malaya and are presented against " Singapore, Malaya and British Borneo " in group ' B '. In Table D-II of Greater Bombay published in Greater Bombay Report, Part X (1-B), the figures of Malaya only are given under group ' B ' and the figures for Singapore and British Borneo are merged with " Elsewhere ".

8. Classification of birthplaces by " Rural " " Urban " and " Unclassifiable " is presented here for the first time It had not been attempted in the 1951 Census It is, however, restricted to birthplaces within India only and is not shown for birthplaces outside India. That classification is not available also in the case of Goa, Daman and Diu The Rural and Urban classification of birthplaces was not available for migrants from Goa, Daman and Diu and, therefore, they are shown as unclassifiable In Table D-II, published in the Report on Greater Bombay, Part X (1-B) these birthplaces are not shown as " unclassifiable " and, therefore, the figures of " unclassifiable " in this table and Table D-II for Maharashtra are not comparable.

9. A large number of persons appear in the last broad group " H—Unclassifiable ". In those cases there was either no answer recorded against Question 4 (*a*) or the place returned as birthplace was not identifiable The Mother-tongue returns, however, show that most of these persons should have been born in India.

10. Lines with ' nil ' entries have been omitted from the portion of the table relating to four administrative divisions and twenty-six districts for economy of space. These are, however, retained for Maharashtra State for the sake of clarity of table form.

11. The following three subsidiary tables have been prepared from this table. They are presented in Part 1-C of the Maharashtra Census Report —

D-II 1: Variation in natural population.
D-II.2: Migration between the States and other parts of India
D-II.3: Distribution of 10,000 persons enumerated in each State/Division/District by place of birth, rural/urban characteristics and sex.

TABLE D-III

Migrants Classified by Place of Birth and Duration of Residence in Place of Enumeration

EXPLANATORY NOTE

This Table shows the distribution of migrants classified by place of birth and duration of residence in place of enumeration (period after the migration). It shows the volume of immigration for different periods and from different areas and is, therefore, valuable in studying the trends of movement of population.

2. Material is presented separately for rural and urban areas of Maharashtra, its four administrative divisions and twenty-six districts.

3. The period of residence is grouped under six categories, *viz.*, (*i*) less than 1 year, (*ii*) 1—5 years, (*iii*) 6—10 years, (*iv*) 11—15 years, (*v*) 16 years and over and (*vi*) period not stated. Classification of migrants by these categories is shown by a horizontal spread in columns 5 to 16.

4. The classification by birthplaces is shown by a vertical spread under column 1. It is on the same lines as followed in Table D-II. Broad Group A is presented with all its groups and sub-groups excepting A-I (*a*) born in place of enumeration. Out of Group B, entries are presented separately for Nepal and Pakistan only. A combined total of the remainder of Group B and Groups C, D, E and F is presented in a single entry with the heading " Born in other countries outside India ". The Group G for persons " Born at Sea " appearing in Table D-II is merged with Group H " Birthplace unclassifiable " in this table.

5. The sub-classification for rural, urban and unclassifiable is presented for all groups and sub-groups but not for Nepal, Pakistan and other countries outside India.

6. Figures for migrants from Goa, Daman and Diu are not separately available. They are included in the group " Born in other countries outside India ".

7. Lines with ' nil ' entries have been omitted from the portion of the table relating to four administrative divisions and twenty-six districts for economy of space. These are, however, retained for Maharashtra State for the sake of clarity of the table form.

8. A Subsidiary Table D-III 1 has been prepared from this table to show the distribution of 10,000 persons born outside the place of enumeration by place of birth, duration of residence at the place of enumeration and sex. It is presented in Part I-C of the Maharashtra Census Report.

MO-A Ya3549—6

TABLE D-IV

Migrants to Cities Classified by Sex, Broad Age-groups, Educational Levels and in Case of Workers also by Occupational Divisions and Groups

MO-A Ya 3549—11*a*

EXPLANATORY NOTE

This Table presents the distribution of migrants to cities by sex and educational levels cross-classified by broad age-groups and in the case of workers by Occupational Divisions and Groups. It shows the occupations which attract migrants with a selective bias for certain age-groups or educational levels.

2 The material is presented separately for 12 cities (i e urban areas having more than a lakh population) in the State.

3 The four broad age-groups in column 2 for cross-tabulation are the same as in Tables B-I, B-II and B-VI, *viz.*, 0 to 14, 15 to 34, 35 to 59 and 60 and above A line " age not stated " is added, wherever necessary, to show figures of those who had not returned their ages.

4. The distribution by educational levels is shown by a horizontal spread in columns 5 to 32.

5 Educational levels shown here are those which have already been attained and not those which are being studied. A person who has completed primary level is included in the group " primary or junior basic " though he may be studying in a higher standard. A person who is studying or had studied in Intermediate class is included in the group " matriculation or higher secondary " and so on.

6. " Literacy " is defined in the Census as ability both to read and write a simple letter. If a person could both read and write and had also passed one or more written examinations as proof of educational level attained, the highest examination he had passed was recorded in the enumeration slip.

7. Literates have been classified initially into three categories, *viz*, (*i*) literate without educational level, (*ii*) primary or junior basic (i e below matriculation), (*iii*) matriculation or higher secondary and further by holders of technical or non-technical diplomas not equal to degree, university non-technical degrees or post-graduate degrees and technical degrees or post-graduate degrees in Engineering, Medicine, Agriculture, Veterinary and Dairying, Technology, Teaching and others.

8. The figures of literates (without educational level) presented in the table are exclusive of persons with educational levels. Similarly, the figures for any educational level are exclusive of persons who have attained higher educational levels.

9. Persons who have studied up to the 4th standard but have not passed the primary stage are included in the group of literates (without educational level). Pupils studying in the 1st or 2nd standard who could not read and write a simple letter are included in the group of illiterate persons.

10. The distribution by educational level and age-groups is first shown for total migrants (workers and non-workers), and then separately for non-workers, total workers and workers engaged as cultivators and agricultural labourers (Industrial Categories I and II). For migrant workers who are at work other than cultivation the distribution by age-groups and educational levels is shown by a further break-up into ten Occupational Divisions and 74 Groups (one-digit codes, two-digit codes) of the National Classification of Occupations (*vide* Appendix at page 6). One Group, *viz.*, X0, does not appear under ' workers ', since it relates to unemployeds, who have been treated as ' non-workers ' in the Census. The figures in respect of this Group stand included in the figures appearing against ' non-workers '.

11. For economy of space, occupational groups having less than 5 per cent of the figures of the respective occupational division have been omitted from the Table. Entries for these groups are shown in run-on lines in the Appendix to Table D-IV, showing the code numbers of groups, age-groups and educational levels by abbreviations and the number of males and females against each For facility of reference, the abbreviations used are explained at the beginning of that appendix.

APPENDIX TO TABLE D-IV

Occupational Groups having figures less than 5 per cent of the figures for the respective Occupational Division in the case of Divisions other than Division 7-8 and less than 2 5 per cent in the case of Division 7-8.

The following abbreviations have been used in this Appendix —

0—14 Illiterate—A, 0—14 Literate (without educational Levels)—B, 0—14 Primary or Junior Basic—C, 0—14 Matriculation or Higher Secondary—D, 0—14 Technical diploma not equal to degree—E, 0—14 Non-technical diploma not equal to degree—F

15—34 Illiterate—A-I, 15—34 Literate (without educational Levels)—B-I, 15—34 Primary or Junior Basic—C-I, 15—34 Matriculation or Higher Secondary—D-I, 15—34 Technical diploma not equal to degree—E-I, 15—34 Non-technical diploma not equal to degree—F-I 15—34 University degree or post-graduate degree other than technical degree—G-I, 15—34 Engineering—H-I, 15—34 MedI-I, 15—34 Agriculture—J-I, 15—34 Veterinary and Dairying—K-I, 13—34 Technology—L-I, 15—34 Teaching—M-I, 15—34 Others—N-I

35—59 Illiterate—A-II, 35-59 Literate (without educational Levels) - B-II 35—59 Primary or Junior Basic—C-II 35-59 Matriculation or Higher Secondary—*D-II, 35—59 Technical diploma not equal to degree—E-II, 35—59 Non-*technical diploma not equal to degree—F-II, 35—59 University degree or post graduate degree other than technical degree—G-II, 35—59 Engineering—H-II 35—59 Medicine—I-II, 35—59 Agriculture—J-II, 35—59 Veterinary and Dairying—K-II, 35—59 Technology—L-II, 35—59 Teaching—M-II, 35—59 Others—N-II.

60 Illiterate—A-III, 60+ Literate (without educational Levels)—B-III, 60 + Primary or Junior Basic—C-III, 60 + Matriculation or Higher Secondary—D-III, 60 + Technical diploma not equal to degree—E-III, 60+ Non-technical diploma not equal to degree—F-III, 60 – University degree or post-graduate degree other than technical degree—G-III, 60 + Engineering—H-III, 60 + Medicine—I-III, 60 + Agriculture—J-III, 60 – Veterinary or Dairying—K-III, 60 + Technology—L-III, 60 + Teaching—M-III, 60 + Others—N-III

Age not stated Illiterate—A-IV, Age not stated Literate (without educational Levels)—B-IV, Age not stated Primary or Junior Basic—C-IV, Age not stated Matriculation or Higher Secondary—D-IV, Age not stated Technical diploma not equal to degree—E-IV, Age not stated Non-technical diploma not equal to degree—F-IV, Age not stated University degree or post-graduate degree other than technical degree—G-IV, Age not stated Engineering—H-IV, Age not stated Medicine—I-IV, Age not stated Agriculture—J-IV, Age not stated Veterinary and Dairying—K-IV, Age not stated Technology—L-IV, Age not stated Teaching—M-IV, Age not stated Others—N-IV

TABLE D-V

Cities showing population Born locally, Migrants from Rural Areas and Migrants from other Towns and Cities

EXPLANATORY NOTE

This table presents the distribution of population of each of the twelve cities in Maharashtra according to those born in the city and migrants from rural and urban areas (other towns and cities) further classified by duration of residence in the city.

2. The material is presented separately for each city and shows the volume of immigration from rural and urban areas and its recent trends.

3. The population is first classified into three broad groups, *viz.*, (*i*) born in the city of enumeration, (*ii*) born in rural areas, and (*iii*) born in other urban areas. The last two groups are further classified into three categories, *viz.*, (*a*) born in the same district, (*b*) born outside the district but within the State, and (*c*) born outside the State. For each of these categories a break-up by duration of residence is provided into (*i*) residing for less than 3 years and (*ii*) residing for 3 years and more.

4. The table excludes persons born outside India and those whose birth places are unclassifiable by State or country of birth, and from out of those born within India it excludes persons in whose cases rural/urban classification of birthplace is not available and those in whose cases the duration of residence at the place of enumeration has not been stated. The population of cities shown in columns 4, 5 and 6 of the table, therefore, differs from their actual population (also shown in brackets in those columns).

5. A Subsidiary Table D-V.1 showing distribution of 1,000 migrants (born in India) to cities by place of birth and sex has been prepared from this table. It is included in Part I-C of the Maharashtra Census Report.

D-V—CITIES SHOWING POPULATION BORN LOCALLY, MIGRANTS FROM RURAL AREAS AND MIGRANTS FROM OTHER TOWNS AND CITIES

Serial No.	City	District	Total Population			(A) BORN IN RURAL AREAS											
						Born in Rural Areas of the same district and resident in the city for less than 3 years		Born in Rural Areas of the same district and resident in city for 3 years and more		Born in Rural Areas outside the district but within the State and resident in the city for less than 3 years		Born in Rural Areas outside the district but within the State and resident in the city for 3 years and more		Born in Rural Areas outside the State and resident in the city for less than 3 years		Born in Rural Areas outside the State and resident in the city for 3 years and more	
			Persons	Males	Females	Males	Females	Males	Females	Males	Females	Males	Females	Males	Females	Males	Females

N B—(1) This Table excludes persons born outside India and those whose birthplaces are unclassifiable by State or Country of birth, and from out of those born within India the Table excludes persons in whose cases rural/urban classification of birthplace is not available and those in whose cases the duration of residence at the place of enumeration has not been stated.

(2) Persons born in Goa, Daman and Diu, a territory within India, stand excluded because rural/urban classification of birthplace was not obtained in respect of those persons, since at the time of sorting of Census slips that territory was included under "foreign countries".

(3) The actual total population of the various cities has been indicated in brackets in columns 4, 5 and 6.

TABLE D-IV

Distribution of Industrial Categories of Workers and Non-workers by Place of Birth

EXPLANATORY NOTE

This Table shows the distribution of population by nine broad industrial categories of workers and of non-workers, cross-classified by place of birth. It thus shows the sectors of economic activity which atract or absorb the migrants and the places of origin from where those migrants are so attracted.

2. Material is presented for Maharashtra, its four administrative divisions and twenty-six districts. The table is presented in three parts. Part A for total, Part B for rural and Part C for urban areas of all the 31 administrative units combined.

3. The classification by workers and non-workers and by nine industrial categories of workers is shown by a horizontal spread in columns 8 to 27.

4. The classification by places of birth is shown by a vertical spread under column 1. It is exactly the same as is used in Table D-II.

5 For economy of space, the presentation in Part B (for rural areas of Maharashtra and other administrative units) is restricted to broad Group A, Group I with sub-groups *(a)*, *(b)* and *(c)* and Group II with only four numerically most important States of origin (adjoining or distant) selected separately for each administrative unit. Entries for the remaining States, Union Territories and other areas from Group II and for broad Groups B, C, D, E, F, G and H are not presented in that part. In the rural table the data under Group A-II have been presented for only four numerically important States according to their numerical strength and not according to the descending order of migrants as has been done by other States in presenting this table.

6. Even in Parts A and C of the Table for 'total' and 'urban' areas where the material is presented for all broad grops, groups and sub-groups of birth places as in the Table D-II, the entries under Group II "States in India beyond Maharashtra" from which the number of immigrants is less than 1 per cent of the total immigrants are omitted for economy of space. The States thus omitted are however shown in the Appendix I to this table at pages 506 to 536

7. The break-up of countries of each of the broad Groups B, C, D, E and F is shown only for important countries and the remaining countries are combined together and presented under "elsewhere" as in Table D-II The break-up for countries included in "elsewhere" is shown for each broad group in Appendix II to this table at pages 537 to 558. Such Appendix is not presented for Table D-VI of Greater Bombay appearing in Greater Bombay Report, Part X (1-B). The figures of migrants from Singapore and British Borneo are merged with Malaya and presented against Singapore, Malaya and British Borneo in Group 'B'. In Table D-VI of Greater Bombay published in Greater Bombay Report, Part X (1-B), the figures of Malaya only are given under Group 'B' and those of Singapore and British Borneo are merged with 'elsewhere'.

8. Sub-classification of birth places by "Rural", "Urban" and "Unclassifiable" is shown by a verticle spread under column 2. It is restricted to places in India only. It is not shown for places of births outside India. The "Rural" and "Urban" classification of birth places was not available for migrants from Goa, Daman and Diu and therefore, they are shown as "unclassifiable". In Table D-VI published in the Report on Greater Bombay, Part X (1-B) these birth places are not shown as unclassifiable and therefore, the figures of unclassifiable in this table and Table D-VI for Maharashtra are not comparable

9. Under column 2, the lines for "Unclassifiable" are omitted, for economy of space, in cases where the figure for unclassifiable is less than 5 per cent of the total immigrants in that group or sub-group Unlike the presentation of Table D-VI by other States the entries of "unclassifiable" against Groups A, A-I and A-II have been retained to emphasise the fact that they include figures of Goa, Daman and Diu which were treated as "unclassifiable" for Maharashtra State.

Table D-VI for Greater Bombay appearing in Greater Bombay Report, Part X (1-B) is presented in full without any omission of figures of "unclassifiable".

10 Lines with "nil" entries have been omitted from the posting of the table relating to four administrative divisions and twenty-six districts for economy of space. These are, however, retained for Maharashtra State for the sake of clarity of table form

11. Appendix I to Table D-VI (pages 506 to 536) shows in run on lines separately for total and urban areas of Maharashtra, its four administrative divisions and twenty-six districts, the figures of the States in India beyond Maharashtra having less than 1 per cent of total immigrants.

12. Appendix II to Table D-VI (pages 537 to 558) shows the break-up of figures included under "elsewhere" shown in each broad group of birth places for countries of origin and for Maharashtra and the districts of residence (enumeration) concerned
