PREFACE

The data presented in this publication is based on answers to questions 2 to 6 and 10 to 15 of the individual slip canvassed by enumerators during the 1971 census operations. The information gathered from the field was edited, sorted and coded to yield 11 main tables with their relevant parts and appendices. For facility of reference, each table is preceded by a flyleaf giving brief idea about the type of data presented in it. Instructions issued to enumerators for recording the answers against the relevant questions have been reproduced in an annexure which follows immediately. Unlike the major States of India where tabulation was done on the basis of 20% sample for urban areas and 10% sample for rural areas, in Jammu and Kashmir State, as in other small States, the data was tabulated on 100% basis. While the rural data was processed manually as in 1961, the urban data was for the 1st time subjected to machine tabulation. It was first transferred on to punch cards in our Coding and Punching Cell and thereafter tables were generated on computer in the Registrar General's Office at New Delhi.

I am grateful to Shri K.K. Chakravorty, Assistant Registrar General, India (Census) and his staff for taking keen interest in scrutinizing the tables presented in this publication. I am also thankful to Shri S.C. Sharma, Assistant Registrar General, Data Processing Division under whose guidance the urban tables were prepared on the electronic computer.

I wish to record my appreciation of the very good supervision work of Central Tabulation Unit done by S/Shri C.L. Chehra and B.L. Tiku, Investigators. The unit, set up in 1973, handled with good care the compilation, tabulation and scrutiny of the various types of data presented in the present and other volumes. Other officials of the Unit who gave a good account of themselves in carrying out this pains-taking job include the following :

S/Shri 1. Abdul Jabar, Tabulation Officer.
2. Mohammad Amin, Tabulation Officer
3. H.U. Malik, Statistical Assistant
4. V.K. Chehra, Computor.

The proofs were read by Shri V.K. Chehra, Computor and Smt. Phoola Kachroo, Assistant Compiler. They did this job carefully well for which I wish to thank them.

Srinagar, December, 1977. *ABDUL GANI*

ANNEXURE

Relevant questions and instructions to enumerators

Question 4—*Age* :

Record the age of the person in total years completed last birthday. Very often there is a tendency on the part of the individuals to return 'years running' rather than the 'years completed'. Make sure that only the actual number of years completed is recorded.

In respect of infants who might not have completed one year by the day of enumeration their age in completed years should be invariably shown as '0' as they have not yet completed one year of age and add 'Infant' in brackets. As was stated under general instructions make sure that infants even if a day old are invariably enumerated. You should not enter the age in months. The age of an infant who has not yet completed one year should invariably be noted as 'o' only.

Age is one of the most important items of demographic data and you should ascertain the age with greatest care. Many persons particularly in the rural areas cannot give their age correctly. They should be assisted to state the correct age by stimulating their memory with reference to any historical event etc., well known in the area. Sometimes the age can be ascertained with reference to the age of another person of a known age that may be in the same household or in the neighbouring household or that of a well known person of the village such as Headman of the village. A person can more easily say whether he was older or younger to such a person and by how many years. This will help you to record the age more accurately.

Question 5—*Marital status* :

In answering this question use the following abbreviations :

NM: Never Married
M: Currently Married
W: Widowed
S: Separated or Divorced

For a person who has never been married at any time before, write 'NM'. For a person currently married, whether for the first or another time and whose marriage is subsisting at the time of enumeration with the spouse living, write 'M'. Write 'M' also for persons who are recognised by custom or society as married and for the persons in stable *de facto* union. Even if a marriage is disputed in the locality write 'M' if the person concerned says he or she is married or is in stable *de facto* union. For a widowed person whose husband or wife is dead, and who has not been married again, write 'W'. For a person who has been separated from wife or husband and is living apart with no apparent intention of living together again or who has been, divorced either by a decree of a law court or by an accepted social or religious-custom but who has not remarried, write 'S'. For a prostitute return her marital Status as declared by her.

Question 6—*For currently married women only* :

This question has to be answered in respect of all currently married women only *i.e.*, all women whose marital status is shown as 'M' against Q. 5. For all others a cross may be put through the two sub-parts of this question.

6 (*a*)—*Age at marriage* :

Age at marriage : You should ascertain the age at which the currently married woman whom you are enumerating was married and record that age in completed years. If the currently married woman had been married more than once, the age at which she got married for the first time should be recorded.

6 (*b*)—*Any child born in the last one year*:

Any child born in the last one year: You should ascertain if the currently married woman whom you are enumerating gave birth to a child in the last one year prior to the date of enumeration. Since it may be difficult for a person to reckon the exact year with reference to the English calendar dates, the period of one year may be ascertained with reference to a well known festival day which falls close to Feb-March, as determined by the Census Superintendent of the State. You should ask if a child was born on or after this festival day last year to the date of enumeration. Only if the child was born alive, even if the child had died soon after birth, should the answer be 'Yes', to this question. Still birth, *i.e.* a child which is born dead should not be taken into account for this purpose. So while you should make sure that every case of birth of child born alive, even if it is not alive on the date of enumeration, is reported, you should not reckon it if the child was born life-less.

It is common experience that the birth of the child may not be reported readily if the child is not actually surviving at the time of enumeration. Infant deaths are still high in the country. There is a chance of a number of such cases being missed unless specifically questioned about them. It is necessary to record all live births even if the child had died soon thereafter or had not survived to the day of enumeration. Therefore where the initial answer to this question is 'no', you should ask a specific question if there has been a case of child having been born alive in the last one year and later dying before the enumeration date. This is a delicate question and should be asked with tact in a manner not to offend the sensibility of the respondent. Where a currently married woman first answers that she had no child born in the last one year, you may perhaps question her as follows.

"It has been found in some houses that a child was born and had died soon after or a few days or months later and such cases had not been reported. It is my hope that there are no such cases here. Am I right ?"

This may bring in the required response. If she reports 'no' then you can be sure that no birth has been missed. You have to make sure that any live birth that has occurred to the currently married woman in the last one year is netted whether the child is surviving till the date of enumeration or not. Similarly, probe to eliminate still births may be necessary. For example, when the answer is 'yes' under question 6 (b) the enumerator might ask if the child is here in this house. If the answer is 'yes' no further question is needed. If 'no', the enumerator might ask where he has gone. The answer may be 'dead' or he has gone elsewhere. If 'dead' then the enumerator might ask when did the child die and this will bring out the fact whether or not it was a still birth.

Write 'Yes', if the currently married woman had given birth to a live child from the prescribed festival day last year to the date of enumeration or 'no' if she had not. In case of twin or multiple births, write 2, 3, etc., as the case may be within round brackets after the entry 'Yes'.

Note :—You may find on your revisional round from 1st to 3rd March, 1971 that a child is born to a married woman in a household after your last visit but before the sunrise of 1st March, 1971. You will have to take this into account and correct the answer against the Q. 6 (b) accordingly. You must enquire specifically if any such birth has taken place. While ignoring still births all other births where the child was born alive even if it did not survive long should be taken into account.

Question 13—Educational level :

This question will be asked of those for whom 'L' has been recorded against question 12. For a person who is illiterate and 'o' has been put against him in the answer to question 12, there is no advantage in ascertaining the educational level even if he had at some stage attended school and passed a standard and had relapsed into illiteracy. In such a case you should put '×'. You have to ascertain and record the highest educational level attained by a person for whom 'L' is recorded in asnwer to question 12.

For person who is still studying in a particular class, the highest educational level attained by him will be one that he has actually passed and not the one in which he is studying. For example, a person studying in 1st year B.A. should be recorded as only 'PUC' or 'Higher Secondary', as the case may be. Similarly, a person studying, say, in the 4th year of 'MBBS' should not be noted as 'MBBS' but as 3rd year 'MBBS' which is the highest level he has actually attained. If you are not sure whether a person has passed Primary, Middle, Higher Secondary or other definite levels, you may record the actual standard passed such as say IIIrd standard, VIIIth standard, 1st year B. Com etc.

The highest educational level attained by the person enumerated should be recorded. When a person holds both general and technical qualifications both of which are of equivalent level such as say BSc. (Zoology) and M.B.B.S. or B.A. (Maths) and B.E. (Bachelor in Engineering), the technical qualification should be given preference in recording the highest educational level attained. Where the general educational level is higher than the technical educational level or where it is not possible to decide which of the two levels is relatively higher, the highest level of education as returned by the person concerned should be recorded.

In recording the highest educational level of a graduate or a post-graduate, subject of specialisation such as B.Sc. (Maths), M.A. (Economics), M.Sc. (Botany), B.Sc. (Agriculture), etc., should be noted. You should not use abbreviations which are not in common use. In such cases, the degree or diploma should be spelt out fully.

Whenever you come across graduates or post-graduates as also those with a technical diploma or degree, you will have to issue him a "Degree-holder and Technical Personnel Card" and ask the

person concerned to fill it. You should note the location code on the card while issuing it. Put a tick (√) after noting the educational level against question 13 immediately after you issue a card. When you collect it after sometime but before you complete the enumeration of your area, cross the tick and put a circle as (√).

You will have to ensure that the card issued to all the graduates and the technical degree or diploma holders are collected back. The non-crossed tick, if any, against question 13 will show that the card has not been collected.

Question 14 – Mother-tongue:

Definition: Mother-tongue is the language spoken in childhood by the person's mother to the person. If the mother died in infancy, the language mainly spoken in the person's home in childhood will be the mother-tongue. In the case of infants and deaf mutes the language usually spoken by the mother shall be recorded.

Record mother-tongue in full whatever be the name of the language as returned and avoid use of abbreviations. You are not expected to determine if the language returned by a person is the dialect of another major language and so on. You should not try to establish any relationship between religion and mother-tongue. You are bound to record the language as returned by the person as his mother-tongue and you should not enter into any argument with him and try to record anything other than what is returned. If you have reason to suspect that in any area due to any organised movement, mother-tongue was not being truthfully returned, you should record the mother-tongue as actually returned by the respondent and make a report to your superior Census Officers for verification. You are not authorised to a make any correction on your own.

Question 15 - Other languages :

After recording the mother-tongue in question 14 enquire whether the person knows any other language(s), Indian or foreign and record language(s) returned by him against this question. In case he does not know any language apart from his mother-tongue put '×' against this question.

The number of languages recorded under this question need not be more than two. These languages should be other than his mother-tongue and they should be recorded in the order in which he speaks and understands best and can use with understanding in communicating with others. He need not necessarily be able to read and write these languages. It is enough if he has a working knowledge of these subsidiary languages to enable him to converse in that language with understanding.

TABLE C-I PART A

MEMBERS OF HOUSEHOLDS BY
RELATIONSHIP TO HEAD OF HOUSEHOLD
CLASSIFIED BY AGE-GROUPS

C-1 PART A—MEMBERS OF HOUSEHOLDS BY RELATIONSHIP TO HEAD OF HOUSEHOLD CLASSIFIED BY AGE GROUPS

FLYLEAF

The table is of sociological interest and indicates the extent of the joint family system. It has been prepared for total, rural and urban areas at the state and district level and gives the members of households by relationship to head of household classified by the three broad age-groups viz; less than 30, 30-49 and 50+. Age not stated is included in "All ages". The married relations of the head of the houschold have been given for son, brother, father, mother, other males and other females. Similarly, for other marital status i.e. never married, married, widowed and divorced or separated, the relationship has been given for son, brother, daughter, sister, father, mother, other males and other females. Unrelated persons (males and females separately) have been shown under columns 24 and 25 followed by single member households.

TABLE C-I PART B (*i*)

HOUSEHOLDS WHERE THE HEAD IS A MALE BY RELATIONSHIP OF MEMBERS WITH THE HEAD

C-I PART B (i)—HOUSEHOLDS WHERE THE HEAD IS A MALE BY RELATIONSHIP OF MEMBERS WITH THE HEAD.

FLYLEAF

As in the case of C-I Part A, this table also is of much interest to sociologists as it reveals the extent of joint family system in household where the head is a male. The table indicates for the State and each of its districts (i) total population; (ii) total number of households; (iii) single member households ; (iv) households with spouse living therein; (v) households having currently married relations of head as son, brother, son's wife, brother'swife, daughter, sister, sister's son, daughter's husband, sister's husband, father, mother, mother's brother, other males, other females; (vi) households having never married, widowed and divorced or separated relations as son, brother, son's wife, brother's wife, daughter, sister, sister's son, daughters, husband, sister's husband, father, mother, mother's brother, other males, other females and (vii) households having unrelated persons.

TABLE C-I PART B (*ii*)

HOUSEHOLDS WHERE THE HEAD IS A FEMALE BY RELATIONSHIP OF MEMBERS WITH THE HEAD

C-I PART B (*ii*)—HOUSEHOLDS WHERE THE HEAD IS A FEMALE BY RELATIONSHIP OF MEMBERS WITH THE HEAD.

FLYLEAF

Like its other counterparts, table C-I Part B (*ii*) is also of sociological interest bringing out the extent of the joint family system in households where the head is a female. It indicates for the State and its constituent districts the following data :

(*i*) Total population ;

(*ii*) Total number of households ;

(*iii*) Single member households ;

(*iv*) Households with spouse living therein ;

(*v*) Households having currently married relations of head as son, brother, son's wife, brother's wife, daughter, sister, sister's son, daughter's husband, sister's husband, father, mother, mother's brother, other males, other females ;

(*vi*) Households having never married, widowed and divorced or separated relations as son, brother, son's wife, brother's wife, daughter, sister, sister's son, daughter's husband, sister's husband, father, mother, mother's brother, other males, other females ;

(*vii*) Households having unrelated persons.

TABLE C-II

AGE AND MARITAL STATUS

C-II—AGE AND MARITAL STATUS

FLYLEAF

C-II is an important demographic table giving sexwise data of marital status separately for the total, rural and urban areas of the State, provinces and its districts. The marital status viz ; (*i*) never married, (*ii*) married, (*iii*) widowed and (*iv*) divorced or separated has been cross-classified by the following 14 age groups. The same table was prepared at the 1961 Census also.

1.	0-9	Years	8.	40-44	Years
2.	10-14	"	9.	45-49	"
3.	15-19	"	10.	50-54	"

TABLE C-III PART A

AGE, SEX AND EDUCATION IN ALL AREAS

C-III PART A—AGE, SEX AND EDUCATION IN ALL AREAS

FLYLEAF

The table is more or less similar to C-III Part A prepared in 1961 census. It indicates age, sex and education data for the State as a whole, its provinces and constituent districts. The age-groups adopted in the present table are 0-4, 5-9, 10-14, 15-19, 20-24, 25-34 and 35+ while those used in 1961 were 0-4, 5-9, 10-14, 15-19, 20-24, 25-29, 30-34, 35-44, 45-59 and 60+. Similary, the slightly different two sets of educational levels adopted in the 1971 and 1961 censuses are as follows :—

1971	1961
Illiterate	Illiterate
Literate (without educational level)	Literate (without educational level)
Primary	Primary or junior basic
Middle	Matriculation and above
Matriculation or higher secondary	
Non-technical diploma or certificate not equal to degree	
Technical diploma or certificate not equal to degree	
Graduate and above	

The table is helpful in measuring the growth of literacy in the total population as well as in the different age groups since the last census.

TABLE C-III PART B

AGE, SEX AND EDUCATION
IN URBAN AREAS ONLY

C-III PART B—AGE, SEX AND EDUCATION IN URBAN AREAS ONLY

FLYLEAF

The tab'e gives data on age, sex and education in the urban areas of the State as also in its provinces and districts. It corresponds more or less to similar table prepared at the 1961 census. The ages group and educational levels as adopted at the two censuses are shown below:—

A. Age groups

1971	1961
0-4 years	0-4 years
5-9 "	5-9 "
10-14 "	10-14 "
15-19 "	15-19 "
20-24 "	20-24 "
25-34 "	25-29 "
35+ "	30-34 "
Age not stated	35-44 "
	45-59 "
	60+
	Age not stated

B. Educational Levels

1971	1961
Illiterate	Illiterate
Literate (without educational level)	Literate (without educational level)
Primary	Primary or junior basic
Middle	Matriculation or higher secondary
Matriculation or higher secondary	Technical diploma not equal to degree
Non-technical diploma or certificate not equal to degree.	Non-technical diploma not equal to degree
Technical diploma or certificate not equal to degree.	University degree or post-graduate degree other than technical degree
Graduate degree other than technical degree	Technical degree or diploma equal to degree or post-graduate degree
Post-graduate degree other than technical degree	(*i*) Engineering
Technical degree or diploma equal to degree or post-graduate degree	(*ii*) Medicine
(*i*) Engineering and technology	(*iii*) Agriculture
(*ii*) Medicine	(*iv*) Veterinary and dairying
(*iii*) Agriculture, veterinary and dairying	(*v*) Technology
(*iv*) Teaching	(*vi*) Teaching
(*v*) Others	(*vii*) Others

The table is helpful in measuring the growth of literacy in the total population as well as in the different age groups since the last census.

TABLE C—IV

SINGLE YEAR AGE RETURNS

C-IV—SINGLE YEAR AGE RETURNS

FLYLEAF

Table C-IV gives sexwise single year age data for the State as a whole and its rural and urban areas. It corresponds to same table prepared at the 1961 Census. This is a very important demographic table which is used by the Census Actualy for studying mortality rates, compilation of life tables, projections of demographic trends etc.

The table is also supplemented by an appendix which gives the distribution of males and females by five year age-groups upto 99 years after which the figures have been merged with the group '100 and above'. Besides the State, the appendix gives the data for its provinces and each of its constituent district, separately for rural and urban areas.

TABLE C-V PART A (*i*)

DISTRIBUTION OF LANGUAGES (INCLUSIVE OF MOTHER-TONGUES GROUPED UNDER EACH) SPECIFIED IN SCHEDULE VIII TO THE CONSTITUTION OF INDIA

TABLE C-V MOTHER-TONGUES OF THE 1971 CENSUS

Part A : Distribution of languages (inclusive of mother-tongues grouped under each) specified in Schedule VIII to the Constitution of India.

Part B : Speakers of languages/mother-tongues (inclusive of mother-tongues where grouped) other than those specified in Schedule VIII to the Constitution of India.

FLYLEAF

These tables correspond to the all-India language tables of the census of India 1951 published in Census of India Paper I of 1954 and the language tables C-V of the census of India 1961 published in volume I part II-C (ii)-Language tables and volume VI-Jammu and Kashmir Part II-C Cultural and Migration tables.

The question on mother-tongues at the 1971 Census and instructions to enumerators were as follows.

Question 14 : **Mother-tongue**

Definition :—Mother-tongue is the language spoken in childhood by the person's mother to the person. If the mother died in infancy, the language mainly spoken in the person's home in childhood will be the mother-tongue. In the case of infants and deaf-mutes the language usually spoken by the mother shall be recorded.

Record mother-tongue in full whatever be the name of the language as returned and avoid use of abbreviations. You are not expected to determine if the language returned by a person is the dialect of another major language and so on. You should not try to establish any relationship between religion and mother-tongue. You are bound to record the language as returned by the person as his mother-tongue and you should not enter into any argument with him and try to record anything other than what is returned. If you have reason to suspect that in any area due to any organised movement, mother-tongue was not being truthfully returned, you should record the mother-tongue as actually returned by the respondent and make a report to your superior Census Officers for verification. You are not authorised to make any correction on your own.

Table C-V Part A is in two sections : (*i*) showing the distribution of speakers of languages (inclusive of mother-tongues grouped under each) specified in Schedule VIII to the Constitution of India for the state and its ten districts separately for total, rural and urban areas cross-classified by sex and (*ii*) showing the distribution of speakers of these languages for ten districts, forty-four tehsils and forty-five towns in the state for total areas only cross-classified by sex. The data for the rural areas of the tehsil are not presented but they can be derived by subtracting data in respect of towns within the tehsil from the total tehsil figures.

Table C-V Part B presents speakers of languages/mother-tongues (inclusive of mother-tongues where grouped) other than those shown under Part A for the state, districts, tehsils and towns. This table is also being presented in two sections (*i*) showing the speakers of these languages/mother-tongues for the state and its districts for total, rural and urban areas cross-classified by sex and (*ii*) showing the distribution of these languages/mother-tongues for total areas of districts, tehsils and towns cross-classified by sex.

In both parts A and B, mother-tongues have been grouped in some cases under the relevant language(s). This has been done on the basis of information readily available or in the light of studies already made. Those 'identifiable' mother-tongues which returned 10,000 or more speakers each at the all-India level have been grouped in parts A and B as shown below.

Part : A

HINDI	—	Awadhi; Bhadrawahi; Bharmauri/Gaddi; Bhojpuri; Chambeali; Chhattisgarhi; Garhwali; Gojri; Haryanvi; Hindustani; Kangri; Kumauni; Lamani/Lambadi; Magadhi/Magahi; Maithili; Marwari; Nimadi; *Pahari; Rajasthani; Sadan/Sadri;
KASHMIRI	—	Surgujia Kishtwari; Siraji
PUNJABI	—	Bilaspuri/Kahluri
TAMIL	—	Kaikadi

Part B :

LAHNDA	—	Multani; Punchhi

All other mother-tongues falling under Part B and which returned less than 10,000 speakers each at the all-India level or were not 'identifiable' on the basis of information available as of date are included in the cetegory 'Others' occuring as the last entry in Part B.

*PAHARI is a combination of various speeches spoken over long stretches of areas where the speakers preferred to give a general name as Pahari.

TABLE C-VI

BILINGUALISM

C-VI BILINGUALISM

FLYLEAF

This table corresponds to table D-I Part II of the 1951 and C-VI of the 1961 censuses.

The question of bilingualism at the 1971 census was :

Question 15 : Other languages.

"After recording the mother-tongue in question 14, enquire whether the person knows any other language(s) Indian or foreign, and record language(s) returned by him against this question. In case he does not know any language apart from his mother-tongue, put 'X' against this question.

The number of languages recorded under this question need not be more than two. These languages should be other than his mother-tongue and they should be recorded in the order in which he speaks and understands best and can use with understanding in communicating with others. He need not necessarily be able to read and write these languages. It is enough if he has a working knowledge of these subsidiary languages to enable him to converse in that language with understanding."

In this table, data on bilingualism are presented only for selected languages/mother-tongues (L/MTs). The selection of these L/MTs has been done on the basis of all India table C-VI-Bilingualism of 1961 and a list of L/MTs was devised for all India. The list formed the basis for preparing the table on bilingualism on 100% processing of rural and urban individual slips. The rural table was processed manually and the urban table on the computer. The final table prepared on full-count basis both for rural and urban areas is presented here.

Columns 2, 3 and 4 of the table give the total number of speakers of L/MTs inclusive of MTs grouped under it. Columns 5, 6 and 7 give figures of such of the speakers who returned a second language, that is to say, any other L/MTs not accounted for in columns 2, 3 and 4. Column 8 contains in 'run on' fashion the names of subsidiary L/MTs inclusive of L/MTs wherever grouped by number of male and female speakers within brackets.

C-VI BILINGUALISM

TABLE F-I PART A

DISTRIBUTION OF CURRENTLY MARRIED WOMEN AND THE RELATED BIRTHS DURING THE LAST YEAR BY RELIGION, PRESENT AGE AND AGE AT MARRIAGE (RURAL)

F-I PART A—DISTRIBUTION OF CURRENTLY MARRIED WOMEN AND THE RELATED BIRTHS DURING THE LAST YEAR BY RELIGION, PRESENT AGE AND AGE AT MARRIAGE (RURAL)

FLYLEAF

This table indicates the distribution of currently married women and births during the last one year by religion, present age and age at marriage of the mother in the rural areas of the State. These data will help in deriving differentials by religion in median age at marriage and in age specific fertility rates, total fertility rate and general fertility rate for various age at marriage groups. The various religions and age groups presented in the table are shown below:—

Religion	Age at marriage	Present age
All religions	All ages	All ages
Hindus	Less than 13 years	Less than 13 years
Muslims	13—17 „	13—17 „
Christians	18—22 „	18—22 „
Sikhs	23—27 „	23—27 „
Buddhists	28+ „	28—32 „
Religion not	Unspecified	33—37 „
stated (includes 'others' also)		38—42 „
		43—47 „
		48+
		Unspecified

An appendix is also provided for the table which gives similar data for scheduled castes of rural areas of the State.

TABLE F-I PART B

DISTRIBUTION OF CURRENTLY MARRIED WOMEN AND THE RELATED BIRTHS DURING THE LAST YEAR BY RELIGION, PRESENT AGE AND AGE AT MARRIAGE (URBAN)

F-I PART B—DISTRIBUTION OF CURRENTLY MARRIED WOMEN AND THE RELATED BIRTHS DURING THE LAST YEAR BY RELIGION, PRESENT AGE AND AGE AT MARRIAGE (URBAN)

FLYLEAF

This part of the table indicates the distribution of currently married women and the related births during the last year by religion, present age and age at marriage of the mother in the urban areas of the State. The data would be helpful in deriving differentials by religion in median age at marriage and in age specific fertility rates, total fertility rate and general fertility rate for various age at marriage groups. The various religions and age groups presented in the table are given below:—

Religion	Age at marriage	Present age
All religions	All ages	All ages
Hindus	less than 13 years	less than 13 years
Muslims	13-17 ,,	13-17 ,,
Christians	18-22 ,,	18-22 ,,
Sikhs	23-27 ,,	23-27 ,,
Buddhists	28+ ,,	28-32 ,,
Religion not stated	Unspecifid	33-37 ,,
		38-42 ,,

TABLE F II PART A

DISTRIBUTION OF CURRENTLY MARRIED WOMEN AND THE RELATED BIRTHS DURING THE LAST YEAR BY EDUCATION, PRESENT AGE AND AGE AT MARRIAGE (RURAL)

F-II PART A—DISTRIBUTION OF CURRENTLY MARRIED WOMEN AND THE RELATED BIRTHS DURING THE LAST YEAR BY EDUCATION, PRESENT AGE AND AGE AT MARRIAGE (RURAL)

FLYLEAF

The table indicates the distribution of currently married women and the related births during the last year by education, present age and age at marriage in the rural sector of the State. The data are useful in deriving differentials by education in median age at marriage and in age specific fertility rates, total fertility rate and general fertility rate for various age at marriage groups. The educational levels and age groups provided in the table are given below :—

Education	Age at marriage	Present age
Illiterate	All ages	All ages
Literate but less than matriculate	Less than 13 year	Less than 13 years
(includes education not classified elsewhere)	13-17 ,,	13-17 ,,
Matriculate and above	18-22 ,,	18-22 ,,
but less than graduate	23-27 ,,	23-27 ,,
Graduate and above	28+ ,,	28-32 ,,
	Unspecified	33-37 ,,
		38-42 ,,
		43-47 ,,
		48 + ,,
		Unspecified

TABLE F-II PART B

DISTRIBUTION OF CURRENTLY MARRIED WOMEN AND THE RELATED BIRTHS DURING THE LAST YEAR BY EDUCATION, PRESENT AGE AND AGE AT MARRIAGE (URBAN)

F-II PART B—DISTRIBUTION OF CURRENTLY MARRIED WOMEN AND THE RELATED BIRTHS DURING THE LAST YEAR BY EDUCATION, PRESENT AGE AND AGE AT MARRIAGE (URBAN)

PLYLEAF

This part of the table indicates the distribution of currently married women and the related births during the last year by education, present age and age at marriage in the urban sector of the State. These data are useful in deriving differentials by education in median age at marriage and in age specific fertility rates andgeneral fertility rate for various age at marriage groups. The educational levels and age groups used in the table are shown below :—

Education	Age at marriage	Present age
Illiterate	All ages	All ages
Literate but less	Less than 13 years	Less than 13 years
than matriculate	13-17 ,,	13-17 ,,
(includes education	18-22 ,,	18-22 ,,
not classified elsewhere)	23-27 ,,	23-27 ,,
Matriculate and above	28+ ,,	28-32 ,,
but less than	Unspecified	33-37 ,,
graduate		38-42 ,,
Graduate and above		43-47 ,,
		48+ ,,
		Unspecified

TABLE F-III PART A

DISTRIBUTION OF CURRENTLY MARRIED WOMEN AND THE RELATED BIRTHS DURING THE LAST YEAR BY RELIGION, DURATION OF MARRIAGE AND AGE AT MARRIAGE (RURAL)

F-III PART A—DISTRIBUTION OF CURRENTLY MARRIED WOMEN AND THE RELATED BIRTHS DURING THE LAST YEAR BY RELIGION, DURATION OF MARRIAGE AND AGE AT MARRIAGE (RURAL)

FLYLEAF

This table provides the distribution of currently married women and the related births during the last year by religion, duration of marriage and age at marriage of the mother in the rural areas of the State. These data are helpful in deriving differentials by religion in duration specific fertility rates for various age at marriage groups. The various religions and age groups presented in the table are shown below :—

Religion	Age at marriage	Duration of marriage
All religions	All ages	All duration
Hindus	Less than 13 years	Less than 1 year
Muslims	13-17 "	1-4 years
Christians	18-22 "	5-9 "
Sikhs	23-27 "	10-14 "
Buddhists	28+ "	15-19 "
Religion not	Unspecified "	20-24 "
stated (includes)		25-29 "
'Others' also		30+ "
		Unspecified

An appendix is also provided for the table which gives similar data for scheduled castes inhabiting the rural sector of the State.

TABLE F-111 PART B

DISTRIBUTION OF CURRENTLY MARRIED WOMEN AND THE RELATED BIRTHS DURING THE LAST YEAR BY RELIGION, DURATION OF MARRIAGE AND AGE AT MARRIAGE (URBAN)

F-III PART B—DISTRIBUTION OF CURRENTLY MARRIED WOMEN AND THE RELATED BIRTHS DURING THE LAST YEAR BY RELIGION, DURATION OF MARRIAGE AND AGE AT MARRIAGE (URBAN)

FLYLEAF

This part of table F-III gives the distribution of currently married women and the related births during the last year by religion, duration of marriage and age at marriage in the urban sector of the State. The data contained in the table are useful in deriving differentials by religion in duration specific fertility rates for various age at marriage groups. The following religions and age groups are provided in the table :—

Religion	Age at marriage	Duration of marriage
All religions	All ages	All duration
Hindus	Less than 13 years	Less than 1 year
Muslims	13-17 ,,	1-4 years
Christians	18-22 ,,	5-9 ,,
Sikhs	23-27 ,,	10-14 ,,
Buddhists	28+ ,,	15-19 ,,
Religion not stated	Unspecified	20-24 ,,
Others		25-29 ,,
		30+ ,,
		Unspecified

The table has also been supplemented by an appendix indicating similiar data for scheduled castes residing in urban areas of the State.

TABLE F–IV PART A

DISTRIBUTION OF CURRENTLY MARRIED WOMEN AND THE RELATED BIRTHS DURING THE LAST YEAR BY EDUCATION, DURATION OF MARRIAGE AND AGE AT MARRIAGE (RURAL)

F-IV PART A--DISTRIBUTION OF CURRENTLY MARRIED WOMEN AND THE RELATED BIRTHS DURING THE LAST YEAR BY EDUCATION, DURATION OF MARRIAGE AND AGE AT MARRIAGE (RURAL)

FLYLEAF

The table indicates the distribution of currently married women and the related births during the last year by education, duration of marriage and age at marriage in the rural areas of the State. These data will help in deriving differentials by education in duration specific fertility rates for various age at marriage groups. The education and age group classifications provided in the table are given below :—

Education	Age at marriage	Duration of marriage
Illiterate	All ages	All duration
Literate but less than matriculate	Less than 13 years	Less than 1 year
(includes education not classified elsewhere)	13-17 „	1-4 years
Matriculate and above	18-22 „	5-9 „
but less than graduate	23-27 „	10-14 „
Graduate and above	28+ „	15-19 „
	Age not stated	20-24 „
		25-29 „
		30+
		Unspecified

TABLE F-IV PART B

DISTRIBUTION OF CURRENTLY MARRIED WOMEN AND THE RELATED BIRTHS DURING THE LAST YEAR BY EDUCATION, DURATION OF MARRIAGE AND AGE AT MARRIAGE (URBAN)

F-IV PART B—DISTRIBUTION OF CURRENTLY MARRIED WOMEN AND THE RELATED BIRTHS DURING THE LAST YEAR BY EDUCATION, DURATION OF MARRIAGE AND AGE AT MARRIAGE (URBAN)

FLYLEAF

This part of table F-IV provides the distribution of women and births by education, duration of marriage and age at marriage in the urban sector of Jammu and Kashmir. As in the case of F-IV Part A, the data contained in this table is helpful in deriving differentials by education in duration specific fertility rates for various age at marriage groups. The following education and age groups have been presented in the table.

Education	Age at marriage	Duration of marriage
Illiterate	All ages	All duration
Literate but less than matriculate	Less than 13 years	Less than 1 year
(includes education not classified	13-17 „	1-4 years
elsewhere)	18-22 „	5-9 „
Matriculate and above	23-27 „	10-14 „
but less than graduate	28+ „	15-19 „
Graduate and above	Unspecified	20-24 „
		25-29 „
		30+ „
		Unspecified

TABLE F-V

DISTRIBUTION OF CURRENTLY MARRIED WOMEN AND THE RELATED BIRTHS DURING THE LAST YEAR BY RELIGION, EDUCATION GROUPS, PRESENT AGE AND AGE AT MARRIAGE (RURAL/URBAN)

F-V—DISTRIBUTION OF CURRENTLY MARRIED WOMEN AND THE RELATED BIRTHS DURING THE LAST YEAR BY RELIGION, EDUCATION GROUPS, PRESENT AGE AND AGE AT MARRIAGE (RURAL/URBAN)

FLYLEAF

The table gives the distribution of women and births by religion-*cum*-education, present age and age at marriage for the rural and urban areas of the State. These data will help in deriving differentials by religion-*cum*-education in median age at marriage and in age specific fertility rates, total fertility rate and general fertility rate for various age at marriage groups. Age, education and religion classifications as provided in the table are given hereunder :—

Religion	Education	Age at marriage	Present age
Hindus	Illiterate	All ages	All ages
Muslims	Literate but less than matriculate	Less than 13 years	Less than 13 years
Christians	(includes education not classified	13-17 "	13-17 "
Sikhs	elsewhere)	18-22 "	18-22 "
Buddhists	Matriculates and above but less	23-27 "	23-27 "
Religion	than graduate	28+ "	28-32 "
not stated	Graduate and	Unspecified	33-37 "
(includes	above		38-42 "
'others' for			43-47 "
Part A only)			48+ "
			Unspecified
