PREFACE

Much of the rumblings that are often heard after conclusion of Population Census relate to mother-tongue and religion figures. That is why strict instructions are given to the enumerators to faithfully record what is stated by an individual as his/her mother-tongue and religion. They are not permitted to determine whether the language returned by a person is the dialect of another major language, nor to establish any relationship between religion and mother-tongue. Even in the event of knowledge of an organised movement exhorting persons to return any particular language as one's mother-tongue, the instructions to enumerators required truthful recording of mother-tongue as returned by the respondent and only a report to the superior Census Officer for necessary verification.

Tables in C-V Series relate to mother-tongue and the C-VII series to religion. In the 1961 Census, mother-tongue data was presented alphabetically in 258 mother-tongues. However, presentation has been changed in the 1971 Census. Part A now refers to languages (inclusive of mother-tongues grouped under each) specified in Schedule VIII to the Constitution of India, and Part B to languages (inclusive of mother tongues grouped under each) other than those specified in Schedule VIII to the Constitution of India. On account of grouping of mother-tongues, the number stands reduced to 15 in Part A and 37 in Part B, a total of 52 only as against 258 in 1961.

Change in the manner of presentation has rendered comparison difficult and to this extent linguists are bound to feel handicapped.

Among the languages specified in Schedule VIII to the Constitution of India, the highest growth-rate of 343.74 per cent is in respect of Bengali. This is not surprising on account of large scale rehabilitation of East Pakistan (now Bangla Desh) refugees in Madhya Pradesh. Next in order come Malayalam and Telugu with growth-rates of 133·21 per cent and 77·56 per cent, respectively. Near monopoly of nursing profession by the Keralites and employment opportunities in the iron-ore mines in Bastar district having borders with Andhra Pradesh, perhaps, explain the figures. Speakers of Sanskrit show a fall from 384 in 1961 to only 91 in 1971. There is a marginal fall in speakers of Assamese also from 595 in 1961 to 534 in 1971.

Among languages other than those specified in Schedule VIII to the Constitution of India, the highest growth-rate is in respect of Tibetan which is also easily explainable on account of resettlement of Tibetans in Madhya Pradesh. Speakers of Tibetan language increased from a mere 18 in 1961 to 2033 in 1971.

Tables relating to religion give sex-wise distribution of population for each of the six numerically important communities of the Country, *viz.*, Buddhists, Christians, Hindus, Jains, Muslims and Sikhs. Annexure to Table C-VII gives details of the Sects/Sub-Sects clubbed with different main religions. The enumerators were categorically told not to mistake caste for religion. Whenever an entry relating to caste was found, it was classified as Religion not stated.

Perusal of C-VII series tables would show that there is a fall among those professing Buddhism in 1971 as compared to 1961. But then it has to be viewed in the context of phenomenal rise in 1961 over figure of 1951. From 2,291 Buddhists in 1951, the number jumped to 188,314 in 1961. The 1971 Census has returned 81,823 Buddhists in Madhya Pradesh. The 1951-61 jump is in keeping with the all India position. In 1961-71, there is a 32.60 per cent rise in all India but a 28.30 per cent fall in Madhya Pradesh. Migration from Madhya Pradesh appears to be the reason for this fall.

The highest percentage rise among the six main religions have been returned by Christians (51.91) and Sikhs (50.60). But when compared to the 1951-61 rise, both religions show a lower percentage rise. Further, Christians and Sikhs form only 0.69 per cent and 0.24 per cent, respectively, of total population of this State. Hindus predominate in the State with 93.68 per cent followed by Muslims who are 4.36 per cent of the State's total population.

Tables relating to Scheduled Castes and Scheduled Tribes are in C-VIII series, and in addition special tables have also been prepared this time in regard to Scheduled Castes and Scheduled Tribes. A separate volume for the special Tables was initially contemplated but later on it was decided to present them along with C-VIII series tables. Literacy tables in C-VIII series would show a decadal growth of 103.03 per cent in respect of Scheduled Castes and 87.60 per cent in respect of Scheduled Tribes. The special tables have been generated keeping the industrial classification in view. In regard to Scheduled Castes, agricultural labourers have gone up by 47.33 per cent during the deade and non-workers have risen by 75.07 per cent. Cultivators have gone down by 42.20 per cent and those engaged in mining activities by 93.95 per cent. The picture is not different in respect of Scheduled Tribes. The increase in agricultural labourers and non-workers is 33.70 per cent and 92.92 per cent, respectively. The fall in cultivators and those engaged in mining activities is 29.53 per cent and 62.44 per cent, respectively. As for total workers, the fall in Scheduled Castes and Scheduled Tribes is 8.18 per cent and 17.86 per cent, respectively. This somewhat alarming picture emerges on account of change in definition of 'worker'. Even persons engaged only marginally in productive work were classified as 'workers' in the 1961 Census. However, in the 1971 Census, persons primarily engaged in studies, household duties, bagging, living on pension or rental income, etc., were excluded from the number of total workers. Cross-classified information with reference to secondary work is not available to make a meaningful comparison. All the same, the available information is of immense value and would be of great utility in formulating employment schemes for the weaker sections of the society.

Great effort has been put up in by Sarvashri A.G. Oak, Senior Technical Assistant and V.S. Joshi, Tabulation Officer, in the preparation of various tables included in this volume. My grateful thanks to both of them.

SOCIAL AND CULTURAL TABLES

TABLE C-V

MOTHER TONGUES

TABLE C-V MOTHER-TONGUES

Part A—Distribution of languages (inclusive of mother-tongues grouped under each) specified in Schedule VIII to the Constitution of India.

Part B—Speakers of languages/mother-tongues (inclusive of mother-tongues where grouped) other than those specified in Schedule VIII to the Constitution of India.

FLY-LEAF

These tables correspond to the all-India language table of the Census of India 1951 published in Census of India Paper 1 of 1954 and the language table C-V of the Census of India 1961 published in Volume VIII Part II-C(i) Social and Cultural Tables.

The question on mother-tongue at the 1971 Census was as follows :—

Question 14 : Mother-tongue

Definition.—Mother-tongue is the language spoken in childhood by the person's mother to the person. If the mother died in infancy, the language mainly spoken in the person's home in childhood will be the mother-tongue. In the case of infants and deaf mutes the language usually spoken by the mother shall be recorded.

Record mother-tongue in full whatever be the name of the languages as returned and avoid use of abbreviation. You are not expected to determine if the language returned by a person is the dialect of another major language and so on. You should not try to establish any relationship between religion and mother-tongue. You are bound to record the language as returned by the person as his mother-tongue and you should not enter into any argument with him and try to record anything other than what is returned. If you have reasons to suspect that in any area due to any organised movement the mother-tongue was not being truthfully returned you should record the mother-tongue as actually returned by the respondent and make a report to your superior census officers for verification. You are not authorised to make any correction on your own.

Table C-V Part A

This table is being presented in two sub parts C-V Part A (i) showing the distribution of speakers of languages (inclusive of mother-tongues grouped under each) specified in Schedule VIII to the Constitution of India for the state and districts and C-V Part A(ii) showing the distribution of speakers of these languages for districts, taluks and towns. Figures have been presented in sub part (i) for total, rural and urban areas and in sub part (ii) for total only, cross-classified by sex.

Table C-V Part B

In this table, speakers of languages/mother-tongues (inclusive of mother-tongues where grouped) other than those shown under table C-V Part A are also presented in two sub parts. C-V Part B(i) gives the number of speakers of these languages/mother-tongues for state and districts for total, rural and urban areas and C-V Part B(ii) for districts, taluks and towns for total only, cross-classified by sex.

In presenting the data in these tables, mother-tongues have been grouped in certain cases under the relevant language(s) in the light of studies made so far or information readily available. The category 'Others' shown in table C-V Part B(i) and (ii) represents speakers of all mother-tongues which returned less than 10,000 speakers at country level or are not identifiable. The identifiable mother-tongues which returned 10,000 or more speakers have been grouped as indicated below :—

TABLE C-VII

RELIGION

TABLE C-VII—RELIGION

FLYLEAF

This table corresponds to table C-VII of 1961 Census and D-II of 1951 Census. The table gives sex-wise distribution of population for each of the six numerically important religious communities of India, viz., Buddhists, Christians, Hindus, Jains, Muslims and Sikhs for the state, district, tahsil, urban agglomeration and town. Figures have been presented for total, rural and urban areas separately.

The 1971 instructions to enumerators for filling up the question on religion was:

"Q. 10. In answering this question use the following abbreviations:

H : Hinduism

I : Islam

C : Christianity

S : Sikhism

B : Buddhism

J : Jainism

for others record the actual religion as returned fully.

If a person says that he has no religion, it may be recorded accordingly. Do not mistake religion for caste which will not be recorded here."

Figures of other religions have been grouped together in the column 'Other religions and persuasions', whereas those who did not report their religion are shown under 'Religion not stated'. The details of 'Other religions and persuasions' are given in an Appendix to this table for the state and each district.

In some cases, instead of the six main religions, their sects/sub-sects were returned. Such returns were clubbed with the main religions while tabulating the data. The annexure to table C-VII gives the details of the sects/sub-sects clubbed with the main religions for the state and each district.

TABLE C-VIII

SCHEDULED CASTES AND SCHEDULED TRIBES

C-VIII SCHEDULED CASTES AND SCHEDULED TRIBES

Part A —Classification by literacy and industrial category of workers and non-workers according to main activity among scheduled castes.

Part B —Classification by literacy and industrial category of workers and non-workers according to main activity among scheduled tribes.

FLY LEAF

This table corresponds to table C-VIII (Parts A and B) of 1961 Census and D-III of 1951 Census. The table gives the total population of scheduled castes and scheduled tribes and illiterates, literate and educated persons, workers and non-workers among scheduled castes and scheduled tribes. The workers are further classified into nine industrial categories. Part A relates to scheduled castes and Part B to scheduled tribes. In both parts, data are presented for total, rural and urban areas separately by sex for the state, each district and tahsil.

The table is followed by an appendix (on each for Parts A and B) which gives castewise/tribewise population cross-classified by literacy for the state, each district, tahsil, urban agglomeration and town. Figures have been compiled for total, rural and urban areas by sex.

The question adopted in the 1971 census to elicit information about members of scheduled castes and scheduled tribes was:

Question 11: Scheduled caste or scheduled tribe.

Instructions to enumerators to record answers to this question were as follows:

"You have been furnished with a list of schedued castes and scheduled tribes notified for your state. Ascertain if the person enumerated belongs to a scheduled caste or scheduled tribe and if he does, then record the name of the scheduled caste or scheduled tribe which should find place in the list furnished to you. The answer should be recorded against the correct rectangle provided for the purpose against this question. For a person who is not a member of any scheduled caste or scheduled tribe write 'X' in both the rectangles.

If the person belonging to a scheduled caste or scheduled tribe returns his caste or tribe by a synonym or generic name of a caste or a tribe it should be entered only if it finds a place in the list furnished to you. Do not write the names of scheduled castes in general terms as 'Harijan', or 'Achhut'. You should ascertain the name of caste and when it is returned write it in the rectangle provided for recording the same. Similarly, do not write the names of scheduled tribes in general terms as 'Adivasi'. You should ascertain the name of the tribe when it is returned and write it in the rectangle with broken lines provided for recording the same. If a person is negligent and insists on calling himself merely 'Harijan' or 'Achhut' or 'Adivasi' as the case may be, tell him that this description is not adequate for census purposes and persuade him to give out the actual name of the caste or tribe. You should make all efforts to ascertain the correct name of the scheduled caste or scheduled tribe as found in the notified list. If the person merely claims to be a scheduled caste or scheduled tribe but says that he does not belong to any of the notified communities applicable to the area, he will not be entered as a scheduled caste or scheduled tribe. Scheduled castes can belong only to the Hindu or Sikh religions. If a person belongs to scheduled caste, there will be either 'H' or 'S' in the answer to question 10. Scheduled tribes may belong to any religion".

In the 1961 Census, the enumerators had been provided with a set of synonyms and generic names of the scheduled castes and scheduled tribes so that a person who returns his caste or tribe by any synonym or generic name was enumerated as scheduled caste or scheduled tribe, irrespective of whether such synonym or generic name found a place in the notified list. In the 1971 census, however, in view of a Supreme Court Judgement on the subject, the notified list of scheduled castes and scheduled tribes applicable to each state and union territory had to be strictly followed and the synonyms or generic names of such communities could not be recognised for purpose of enumeration as scheduled caste or scheduled tribe. There is, therefore, a possibility that

despite specific instructions to enumerators to make all efforts to elicit the correct name of the caste or tribe, some persons might have returned themselves by some synonym, local name or generic name and suffered omission from enumeration as a member of a scheduled caste or a scheduled tribe.

In spite of specific instructions on the subject, it was found that in some individual slips of scheduled castes and scheduled tribes, the name of caste or tribe was not entered and returns in general terms as 'Harijan', 'Adivasi', 'Achhut', etc., were found. There was, however, no doubt that the person so returned did belong, in fact, to a scheduled caste/scheduled tribe. Such returns were treated as 'Unspecified' scheduled castes or scheduled tribes, as the case might be.

The figures presented in this table have been obtained by a cross tabulation of the above question with the following questions which related to social and economic data:

Question 3	—Sex
Question 12	—Literacy
Question 16	—Main activity

The nine broad industrial categories of workers adopted at the 1971 Census were:

I	—Cultivators
II	—Agricultural labourers
III	—Livestock, forestry, fishing, hunting & plantations, orchards & allied activities.
IV	—Mining & quarrying
V	—Manufacturing, processing, servicing and repairs (a) at household industry and (b) other than household industry.
VI	—Construction
VII	—Trade and commerce
VIII	—Transport, storage and communications
IX	—Other services

"Workers" Defined

The definition of a "worker" in the 1971 Census is different from that of 1961. In the 1961 census, a person was considered as a "worker" according to his participation in any economically productive work. In the case of regular employment in any trade, profession, service, business or commerce, a person was taken as a worker if he was employed during any of the 15 days preceding the day on which he was enumerated. An exception to the 15 days' period to reckon one as worker had been made in 1961 in the case of seasonal work like cultivation, livestock, dairying, household industry, etc. In such cases if a person had put in an hour's regular work a day throughout the greater part of the working season, he was considered as a workers. "Work" included not only actual work but also effective supervision and direction of work. A person might be working as a cultivator or as an agricultural labourer or at a household industry or might be doing any other work. He might be engaged either in one or more than one of the above. A full-time student who spent some time in his father's shop for even a day during the reference period of a fortnight was considered as a "worker". Similarly, if a woman who was basically engaged in household duties also engaged herself in work such as pounding rice for sale or wages, or in domestic services for wages for others, or minding cattle or selling firewood, or making and selling dung cakes, grass, or any such work, she was also treated as "worker". Thus in the 1971 census a person was categorised basically as a "worker" even if such a person's contribution to work was extremely marginal.

Main Activity

In the 1971 Census, every individual was asked to declare what according to him was his "main activity", i.e., how he engaged himself mostly. Accordingly, all persons were divided into two broad streams of main activity as "workers" and "non-workers". A "worker" was defined clearly as a person whose "main activity" was participation in any economically productive work by his physical or mental activity. "Work" involved not only actual work but effective supervision or direction of work. The reference period was one week prior to the date of enumeration in the case of regular work in trade, profession, service or business. If a person had participated in any such regular work on any one of the days during the week preceding the day of enumeration and this had been returned as his "main activity", the person was classified as a worker and categorised accordingly. A person who normally worked but had been absent from work during the reference period on account of illness or travel, holiday, temporary breakdown, strikes, etc., was treated as engaged in regular work in which he would have otherwise been employed but for his temporary absence. Persons under training such as apprentices with or without stipends or wages were considered as economically active and recorded as working. A person who was offered work but did not actually join it, was not treated as engaged in work. In respect of seasonal work like cultivation, livestock keeping, plantation, some types of household industry, etc., which are not carried on throughout the year, a person's main activity was ascertained with reference to such work in the last one year even if he was not economically active in the week prior to enumeration.

Secondary work

In 1971, a person was treated basically as a "non-worker" if he or she did not come under any of the categories of "Worker" mentioned above. Thus a person engaged primarily in household duties such as cooking in one's own household, or performing one's household duties, or student attending an institution, or a rent receiver, was classified as such for his main activity and was treated as "non-worker". If he was also engaged in some economic activity, obviously not to the same extent as a full-time worker that activity was mentioned under the head of "secondary work". The secondary work, if any, of those who were basically classified as "workers" was also ascertained.

PART V-A

SPECIAL TRIBES ON SCHEDULED CASTES AND SCHEDULED TRIBES

37—1 Census/MP/77

PART V-A
SPECIAL TABLES FOR SCHEDULED CASTES AND SCHEDULED TRIBES

Introduction:

Besides the tables C VIII Part A and C VIII part B, it has been decided to re-sort the individual slip and generate a few tables, in view of producing comparable data of 1971 Census on the pattern of 1961 Census in respect of Scheudled Castes and Scheduled Tribes. The details of each of the tables which have been prepared on full count basis and incorporated in this volume are as under:—

For Scheduled Castes :

1. SC-I Part A	Industrial Classification of Persons at work and non-workers by sex for Scheduled Castes (Rural).
2. SC-I Part B	Industrial Classification of Persons at work and non-workers by sex for Scheduled Castes (Urban).
3. SC-II	Age and marital status for Scheduled Castes.
4. SC-III Part A	Education in Urban Areas only for Scheduled Castes.
5. SC-III Part B	Education in Rural Areas only for Scheduled Castes.
6. SC-IV	Persons not at work classified by sex, type of activity and educational levels for Scheduled Castes.

For Scheduled Tribes :

7. ST-I Part A	Industrial Classification of Persons at work and non-workers by sex for Scheduled Tribes (Rural).
8. ST-I Part B	Industrial Classification of Persons at work and non-workers by sex for Scheduled Tribes (Urban).
9. ST-II	Age and marital Status for Scheduled Tribes.
10. ST-III Part A	Education in Urban areas only for Scheduled Tribes.
11. ST-III Part B	Education in Rural areas only for Scheduled Tribes.
12. ST-IV	Persons not at work classified by sex, type of activity and Educational levels for Scheduled Tribes.
13. ST-V	Religion for Scheduled Tribes.

The 1971 Census, enumeration of Scheduled Castes and Scheduled Tribes was strictly based on the lists under modification Order, 1956 vide M.H.A. Notification SRO, 2477-A, dated the 29th October, 1956. RELEVANT QUESTIONS AND INSTRUCTIONS TO ENUMERATORS

Instructions to enumerators of the 1971 Census Operations for recording answers to the questions, pertaining to Scheduled Castes and Scheduled Tribes are reproduced below :—

Question 4 :—Age

Record the age of the person in total years completed last birthday. Very often there is a tendency on the part of the individuals to return 'years running' rather than the 'years completed'. Make sure that only the actual number of years completed is recorded.

In respect of infants who *might not have completed one year* by the day of enumeration their age in completed years should be invariably shown as 'O' as they have not yet completed one year of age and add 'Infant' in brackets. As was stated under general instructions make sure that infants even if a day old are invariably enumerated. *You should not enter the age in months.* The age of an infant who has not yet completed one year should invariably be noted as 'O' only.

Age is one of the most important item of demographic data and you should ascertain the age with greatest care. Many persons particularly in the rural areas cannot give their age correctly. They should be assisted to state the correct age by stimulating their memory with reference to any historical event etc., well known in the area. Some times the age can be ascertained with reference to the age of another person of a known age that may be in the same household or in the neighbouring household or that of a well known person of the village such as Headman of the village. A person can more easily say whether he was older or younger to such a person and by how many years. This will help you to record the age more accurately.

Question 5 :—Marital Status

In answering this question use the following abbreviations :

NM : Never Married
M : Married
W : Widowed
S : Separated or Divorced

For a person who has never been married at any time before write 'NM'. For a person married, whether for the first or another time and whose marriage is subsisting at the time of enumeration with the spouse living, write 'M'. Write 'M' also for persons who are recognised by custom or society as married and for the persons in stable *de facto* union. Even if a marriage is disputed in the locality write 'M' if the person concerned says he or she is married or is in stable *de facto* union. For a widowed person whose husband or wife is dead, and who has not been married again, write 'W'. For a person who has been separated from wife or husband and is living apart with no apparent intention of living together again or who has been, divorced either by a decree of a law court or by an accepted social or religious—custom but who has not remarried, write 'S'. For a prostitute return her marital status as declared by her.

Question 10 :—Religion

In answering this question use the following abbreviations :—

H : Hinduism
I : Islam
C : Christianity
S : Sikhism
B : Budhism
J : Jainism

for others record the actual religion as returned fully.

If a person says that he has no religion it may be recorded accordingly. Do not mistake religion for caste which will not be recorded here.

Question 11:—Scheduled Caste or Scheduled Tribe

You have been furnished with a list of Scheduled Castes and Scheduled Tribes notified for your State. Ascertain if the person enumerated belongs to a Scheduled Caste or Scheduled Tribe and if does, then record the name of the Scheduled Caste or Scheduled Tribe which should find place in the list furnished to you. The answer should be recorded against the correct rectangle provided for the purpose against this question. For a person who is not a member of any Scheduled Caste or Scheduled Tribe write 'X' in both the rectangles.

If a person belonging to a Scheduled Caste or Scheduled Tribe returns his caste or tribe by synonym or generic name of a caste or a tribe it should be entered only if it finds a place in the list furnished to you. Do not write the names of Scheduled Castes in general terms as 'Harijan' or 'Achhut'. You should ascertain the name of the caste when it is returned and write in the rectangle provided for recording the name. Similarly, do not write the names of Scheduled Tribes in general term as 'Adivasi'. You should ascertain the name of the tribe when it is returned and write it in the rectangle with broken lines provided for recording the same. If a person is negligent and insists on calling himself merely 'Harijan' or 'Achhut' or 'Adivasi' as the case may be tell him that this description is not adequate for Census purposes and persuade him to give out the actual name of caste or tribe. You should make all efforts to ascertain the correct name of the Scheduled Caste or Scheduled Tribe as found in the notified list. If the person merely claims to be a Scheduled Caste or Scheduled Tribe but says that he does not belong to any of the notified communities applicable to the area, he will not be entered as a Scheduled Caste or Scheduled Tribe.

Scheduled Castes can belong only to the Hindu or Sikh religions. If a person belongs to Scheduled Caste, there will be either 'H' or 'S' in the answer to question 10. Scheduled Tribes may belong to any religion.

Question 12: Literacy (L or O)

Definition of a literate:—A person who can both read and write with understanding in any language is to be taken as literate. A person who can merely read but can not write is not a literate.

It is not necessary that a person who is literate should have received any formal education or should have passed any minimum educational standard.

For a person who is literate i.e., who can both read and write, record 'L' in the triangle against question 12. If there is any doubt about a person's ability to read or write, the test that may be applied for reading his/her ability to read any portion of the printed matter in the Enumerator's Instructions and similarly for writing he/she should be able to write a simple letter. Ability merely to sign one's name is not adequate to qualify a person as being able to write with understanding. If a person claims to be literate in some other language with which the enumerator is not acquainted, the respondent's word has to be taken as correct. Other members of the household may also be able to testify to the literacy of the person enumerated.

For a person who is illiterate i.e., who can neither read nor write or can merely read but cannot write in any language, write 'O' in the triangle against question 12. All children of the age of 4 years or less should be treated as illiterate even if the child is going to a school and may have picked up reading and writing a few odd words.

Question 13: Educational level

This question will be asked of those for whom 'L' has been recorded against question 12. For a person who is illiterate and 'O' has been put against him in the answer to question 12, there is no advantage in ascertaining the educational level even if he had at some stage attended school and passed a standard and had relapsed into illiteracy. In such a case you should put 'X'. You have to ascertain and record the highest educational level attained by a person for whom 'L' is recorded in answer to question 12.

For a person who is still studying in a particular class, the highest educational level attained by him will be one that he has actually passed and not the one in which he is studying. For example, a person studying in 1st year B.A. should be recorded as only 'PUC' or 'Higher Secondary', as the case may be. Similarly, a person studying, say, in the 4th year 'MBBS' should not noted as 'MBBS' but as 3rd year 'MBBS' which is the highest level he has actually attained. If you are not sure whether a person has passed Primary, Middle, Higher Secondary or other definite levels, you may record the actual standard passed such as say IIIrd standard, VIIIth standard, 1st year B.Com. etc.

The highest educational level attained by the person enumerated should be recorded. When a person holds both general and technical qualifications both of which are of equivalent level such as say B.Sc. (Zoology) and M.B.B.S. or B.A. (Maths) and B.E. (Bachelor in Engineering), the technical qualication should be given preference in recording the highest educational level attained. Where the general educational level is higher than the technical educational level or where it is not possible to decide which of the two levels is relatively higher, the highest level of education as returned by the person concerned should be recorded.

In recording the highest educational level of a graduate or a post graduate, subject of specilisation such as (B.Sc.) (Maths.), M.A. (Economics), M.Sc. (Botany)-B.Sc. (Agriculture), etc., should be noted. You should not use abbreviations which are not in common use. In such cases, the degree or diploma should be spelt out fully.

Whenever you come across graduates or post-graduates as also those with a technical diploma or degree, you will have to issue him a 'Degree-holder and Technical Personnel Card' and ask the person concerned to fill it. You should note the location code on the card while issuing it. Put a tick (√) after noting the educational level against question 13 immediately after you issue a card. When you collect it after some time but before you complete the enumeration of your area, cross the tick and put a circle as (X)

You will have to ensure that the card issued to all the graduates and the technical degree or diploma holders are collected back. The non-crossed tick, if any, against question 13 will show that the card has not been collected.

Question 16 : Main Activity

Every person will be asked what his main activity is, that is, how he engages himself mostly. For the purpose of this question, all persons will get themselves divided into two broad streams of main activity namely, (1) as workers and (2) as non-workers according as the type of main activity that the person returns himself as engaged in mostly.

'Worker' defined—A 'Worker' is a person whose main activity is participation in any economically productive work by his physical or mental activity. Work involves not only actual work but effective supervision and direction of work.

Reference periods—The reference period is one week prior to the date of enumeration in the case of regular work in trade, profession, service or business. If a person had participated in any such regular work on any one of the days during this reference period and this has been returned as his main activity, the person will be categorised accordingly. A person who normally works but had been absent from work during this reference period on account of illness or travel, holiday, temporary breakdown, strike etc., the person should be treated as engaged in regular work in which he would have otherwise been employed but for his temporary absence. Persons under training such as apprentices with or without stipends or wages should be considered as economically active and recorded as working. A person who has merely been offered work but has not actually joined it, is not to be treated as engaged in work.

There are certain types of works which are not carried on throughout the year such as cultivation livestock keeping, plantation work, some type of household industry, etc. A person's main activity should be ascertained with reference to such work in the last one year even if he was not economically active in the week prior to enumeration. It is likely that even when a person is engaged in some other work during the period of one week prior to the date of enumeration, the main activity of the person may be cultivation, agricultural labour or some other work attended to normally by him in the course of the year. Care must be taken to see that the main activity is properly ascertained in such cases. For example, a person's main activity may be agricultural labour and in the week prior to enumeration he may be engaged as a sugarcane factory labourer or as a road cooly. He should be categorised for his main activity as agricultural labourer only as returned by him as he engages himself mostly in that work and the other work should be treated as his subsidiary work.

A man or woman who is engaged primarily in household duties such as cooking for own household or performing one's own household duties or a boy or a girl who is primarily a student attending institution, even if such a person helps in the family economic activity but not as a full time worker should not be treated as a worker for the main activity. On the other hand, if a person is primarily engaged in some economic activity but at the same time does also attend to some household chores or attends a night school etc., he or she should be treated basically as a worker for the main activity and categorised accordingly.

A person who merely receives an income such as a rent receiver or a pensioner who does not have to work for receiving the income, will not be treated as economically active unless the person is also engaged in some economic activity and if that activity is returned as the main activity of the individual.

Question 16 (a) Broad Category (i) Worker (C, AL, HHI, OW) (ii) Non-worker (H, ST, R, D, B, I, O,).

The main activity returned by the person will entitle him to be categorised either as a worker in 16(a) (i) or as a non-worker under 16(a) (ii)

16(a) (i) Worker (C, AL, HHI, OW)

Where the main activity of a person qualifies him to be treated as a worker he should be further categorised according to the type of work and one of the appropriate abbreviations indicated against this question should be entered in the box provided for the purpose. If the person is not engaged in any economic activity an 'X' should be noted in the box. The abbreviations to be used for workers are explained below:—

C : CULTIVATOR

For a person who returns his main activity as working as a cultivator, the abbreviation 'C' should be used.

Definition of Cultivator:—For purposes of the Census a person is working as Cultivator if he or she is engaged in cultivation by oneself or by supervision or direction in one's capacity as the owner or lessee of land held from Government or as a tenant of land held from private persons or institutions for payment of money, kind or share.

Cultivation involves ploughing, sowing and harvesting and production of cereals and millet crops such as wheat, paddy jowar, bajra, ragi etc., and pulses, raw jute and kindred fibre crop, cotton etc., and other crops such as sugar-cane, ground nuts, tapioca, etc., and does not include fruit growing, vegetable-growing or keeping orchards or groves or working of plantations like tea, coffee, rubber cinchona and other medicinal plantations.

A person who merely owns land but has given out land to another person or persons for cultivation for money, kind or share of crop and who does not even supervise or direct cultivation of land, will not be treated as working as cultivator. Similarly, a person working in another person's land for wages in cash kind or share (Agricultural labourer) will not be treated as cultivator in this question.

AL : AGRICULTURAL LABOURER

A person who returns his main activity as engaged as agricultural labourer, the abbreviation 'AL' should be used in the box.

Definition of an Agricultural Labourer—A person who works in another person's land for wages in money, kind or share should be regarded as an agricultural labourer. He has no risk in the cultivation but he merely works in another person's land for wages. The labourer could have no right of lease or contract on land on which he works.

H.H.I: Household Industry

For a person who returns his main activity as engaged in some production, processing, servicing or repair of articles of goods such as, say, handloom, weaving, dyeing, carpentry, bidi rolling, pottery manufacture, bicycle repairing, blacksmithy, tailoring etc., it has to be ascertained if it is a household industry, and if so, it should be indicated by the abbreviation 'HHI' in the box.

Definition of a Household Industry—A Household Industry is defined as an industry conducted by the Head of the household himself/herself and/or mainly by the members of the household at home or within the village in rural areas and only within the premises of the house where the household lives in urban areas. The industry should not be run on the scale of a registered factory.

The main criterion of a Household Industry is the participation of one or more members of a household. This criterion should apply to urban areas too. Even if the industry is not actually located at home in rural areas there is greater possibility of the members of the household participating even if it is located anywhere within the village limits. In the urban areas where organised industry takes greater prominance, the Household Industry should be confined to the precincts of the house where the participants live. In urban areas even if the members of the household by themselves run an industry but at place away from the precincts of their home, it will not be considered a household industry. It should be located within the precincts of the house where the members live.

A household Industry should relate to production, processing, servicing, repairing or making and selling (but not merely selling) of goods. It does not include professions such as pleader or doctor or barber, musician, dancer, watermen, dhobi, astrologer, etc., or merely trade or business, even if such professions, trade or services are run at home by members of household. A list of a few typical Household Industries is appended to these instructions at Appendix III.

Sometimes it is likely that the person who may not be working in his own Household Industry may be working as a petty employee in another Household Industry. You should, therefore, enquire whether the person who is not working in his own Household Industry is working in any other Household Industry as an employee and record as per instructions given above.

OW : OTHER WORKERS

If a person gives his main activity as engaged in any other work which is not cultivation, agricultural labour or household industry, this may be indicated by merely noting 'OW' in the box. The type of workers that may come under the 'Other Workers' category are factory workers, those working in trade or transport, all Government servants, municipal employees, teachers, mining workers, political or social workers, building labourers, etc. In effect, all types of economic activity not covered by cultivation, agricultural labour or household industry will come under this residual category. Workers engaged in plantation or forestry should not be treated as cultivators or agricultural labourers but as 'Other Workers'.

Further details pertaining to this 'Other' category of workers, as also those engaged in household industry, will be recorded in the subsequent sub-parts (b) to (f) of question 16.

16 (a) (ii) Non-workers (H, ST, R, D, B, I, O)

As was stated earlier, question 16 is intended to ascertain the main activity of every individual whether he or she is economically active or not. While 16 (a)(i) helps to broadly categorise all those who have returned some work as their main activity, 16 (a) will help to categorise those whose main activity is not engaged in any economically productive work, but are basically non-workers. These may be categorised under seven broad heads whose abbreviations are indicated against this question. The appropriate abbreviation will have to be entered in the box provided. The abbreviations are explained below:—

H : HOUSEHOLD DUTIES

This covers all those persons basically engaged in unpaid home duties doing no other work, or even if such a person may also be participating in some other work, it is not to the same extent as a whole-time worker and if the person has returned his or her main activity as attending to household duties. The main activity of such a person should be entered as 'H'. If a person whose main activity is attending to household duties, also engages oneself in some other economic activity such as helping in family cultivation or preparing cowdung cakes at odd times for sale etc., that economic activity will be covered as secondary work under question 17. On the other hand, a woman who works primarily as a factory worker or a plantation labourer or an agricultural labourer or in some office or shop etc., and also attends to household duties, obviously her main activity will be the economic activity in which she is mostly engaged in and should not be categorised as 'H' for her main activity in this question. She should have been treated basically as a worker and her main economic activity should have been recorded against 16(a)(i)

ST: STUDENT

This refers to those whose main activity is returned as a student. This will cover all full-time students or children attending school. Even if such persons participated in some work but not to the same extent as a full-time worker, by merely helping casually as an unpaid family worker in family cultivation, household industry, trade or business, they should be treated primarily as students, if that is their main activity. 'ST' should be entered in the box. The other economic activity, if any, that such persons attend to will be reflected under question 17 as secondary work.

R: RETIRED PERSON OR A RENTIER

A person who has retired from service and is doing no other work i.e. not employed again in some full-time work or does not engage himself in some other work as cultivation, in business, trade, etc., or a person who is a rentier or living on agricultural or non-agricultural royalty, rent or dividend or any other person of independent means for securing which he does not have to work will come under this category. 'R' should be noted in the box for a person coming under this category.

D : DEPENDENT

This category will include all dependents such as infants or children not attending school or a person permanently disabled from work because of illness or old age. If a girl or an old women attends to household duties she should be categorised under 'H' for her main activity rather than 'D'.

Dependents will include all non-workers even if ablebodied who have no other activity coming under any of the categories of non-workers and who are not seeking any work either but are purely dependent.

B : BEGGARS ETC.

This will cover beggars, vagrants or such cases as independent women without indication of source of income and those of unspecified sources of subsistence and who are not engaged in any economically productive work.

I : INSTITUTIONS

This will cover convicts in jails or inmates of a penal, mental or charitable institution, even if such persons are compelled to do some work such as carpentry, carpet weaving, vegetable growing etc., in such institutions. An under-trial prisoner in a jail should not, however, be brought under this category but has to be indicated according to the main activity he was engaged in before he was apprehended. Inmates of such institutions will be noted as 'I'.

O : OTHER NON-WORKERS

This will include all non-workers who may not come under any of the six categories above but are seeking work, they should be noted as 'O' in the box. A boy or girl who has completed education or has stopped studying and is seeking work, will come under this category. If a person is merely spending his time at home as a dependent and is not doing any work and is not seeking any work will come under 'D' rather than 'O'. A person irrespective of age and whether educated or not, if he reports that he is not engaged in any other activity but is seeking work will come under this category.

If the main activity of the person who is enumerated does not qualify a person to be treated as a worker and he does not fall under any of the four broad categories of workers covered by 16(a) (i) and an 'X' has been put in the box against that question, then he must necessarily be categorised under any one of the seven broad types of non-workers and the appropriate abbreviation entered in the box opposite to question 16 (a) (ii). Conversely if a person has already been treated as a worker and his main activity has been indicated in the box against question 16(a)(i), then question 16(a)(ii) will not apply to the person and an 'X' should be put in the box against question 16(a)(ii). Thus 16(a) (i) and 16(a)(ii) are mutually exclusive.

Q. 16(b) to 16(f)

These sub-parts of question 16 will have to be filled only to describe the details of the household industry or other work indicated against question 16(a)(i). If the main activity has been shown as 'C' or 'AL' against 16(a)(i), there is no need to give the details of the cultivation or agricultural labour in these subsections.

Similarly, if the main activity of an individual has been returned as a non-worker against 16(a)(ii), sub-section (b) to (f) will not apply and an 'X' may be put right across all these questions.

ANNEXURE-I

The scope of each category under the industrial Classification is as under :—

Category-I Cultivators. Cultivation includes ploughing, sowing, harvesting and production of cereals and millets, such as wheat, paddy, jowar, bajra, ragi, kondo-kutki, etc. pulses, raw jute and kindered fibre crops, cotton etc. Other crops such as sugarcane, ground-nuts, tapioca, etc., but it excludes fruit growing, vegetable growing or keeping orchards and plantations. But it does not mean that all persons engaged in ploughing, sowing, harvesting or production of such crops described above were treated as cultivators, only those who were engaged in such activities in the capacity of owners, legally or otherwise, or lessees of land held from Government or other sources were regarded as cultivators.

Category-II Persons who work in another person's land for wages in money, kind or share were treated as agricultural labourers.

Category-III Workers in livestock, forestry, fishing, hunting and plantations, orchards and allied activities.

Category-IV Workers engaged in mining and quarrying have been included in this category.

Category-V(a) Workers those who are engaged in manufacturing, processing, servicing and repairs at household industry are covered in this category.

Category-V(b) Persons engaged in manufacturing, processing, servicing and repairs in other than household industry are included in this category.

Category-VI This category includes persons engaged in construction and maintenance of buildings, roads, railways, bridges, telegraph and telephone lines, waterways, reservoirs, etc.

Category-VII Workers engaged in whole-sale and retail trade, Restaurants and Hotels, financing insurance, Real Estate and Business Services have been covered in this category.

Category-VIII This Category includes workers engaged in Transport, storage and communications.

Category-IX Persons engaged in services such as community, social and personal services have been recorded in this category. Activities not adequately definied have also been taken in this category.

SPECIAL TABLES FOR SCHEDULED CASTES

SC-I Part A: Industrial Classification of persons at work and non-workers by sex for Scheduled castes (Rural)

FLY LEAF

This table relates to rural areas only and gives the Scheduled Castes population by workers and non-workers for the State and each district. The population of workers (by Sex) for each Scheduled Caste has been further divided into the following 9 industrial categories:

I Cultivator;

II Agricultural labourer;

III Live-stock, forestry, fishing, hunting and plantations, orchards and allied activities;

IV Mining and Quarrying;

V Manufacturing, processing, servicing and repairs :—

(a) House-hold industry;

(b) Other than house-hold industry;

VI Construction;

VII Trade and Commerce;

VIII Transport, Storage and Communications and

IX Other Services.

Data relating to this table SC-I Part A and table SC-I Part B have been obtained by a cross tabulation of the following questions of the individual slip:—

Q.—3 Sex

Q.—11 SC or ST

Q.—16 Main Activity.

Instructions for filling the above questions have been described in the introductory note.

SC-II Age and Marital Status for Scheduled Castes

(FLY LEAF)

The table is presented down to district level. This is an important demographic table and provides data for each scheduled castes by sex according to their marital status i.e. Never Married, Married, Widowed, Divorced or Separated and Unspecified status. The age-groups are restricted to ages 0-14, 15-44, 45+ and age not stated. The marital status in age group 0-14 shows the extent of Child marriage still practised by them.

This table will not furnish like-wise data for rural and urban areas separately as in Tables S. C. - I part A and S.C.-I. part B.

The table has been prepared only for total areas.

The demographic data for this table of 1971 Census was collected through the following questions of the individual slip:—

Question — 3 Sex
Question — 4 Age
Question — 5 Marital Status

In answering to Q. 5, the following abbreviations were used:—

For Never Married	—	NM
,, Married	—	M
,, Widowed	—	W
,, Divorced or Separated	—	S

SPECIAL TABLES FOR SCHEDULED TRIBES

ST-I Part A Industrial Classification of persons at work and Non-Workers by Sex for Scheduled Tribes (Rural)

FLY LEAF

This is the Basic economic table which highlights the economic activity of the members of the Scheduled Tribes. This table relates to rural areas only and gives the Scheduled Tribes population by workers and non-workers for the State and each district. The working population by sex for each Scheduled Tribe has been further divided into industrial categories.

Industrial Category of Workers

Workers have been classified into nine categories according to 'industry' as per the National Industrial Classification, 1970. The term industry used here has a wider meaning and covers not only organised or manufacturing industry but also all other sectors of economic activity as would be clear from the following classification of workers into nine industrial Categories:— I as cultivators, II as agricultural labourers, III in livestock forestry, fishing, hunting and plantations, orchards and allied activities; IV in mining and quarrying ; V in manufacturing, processing, servicing and repairs; VI in construction; VII in trade and Commerce; VIII in transport, storage and communications and IX in other services. *Category V* i.e. manufacturing, processing, servicing and repairs has been further classified into two sub categories viz. V(a) at household industry and V(b) in manufacturing other than household industry.

The economic data for the tables ST-I Part A and ST-I Part B have been obtained by canvassing question Nos. 3, 11 and 16 of the individual slip.

ST—II Age and marital status for scheduled tribes

FLY LEAF

This is one of the special table which provides the demographic data for the members of the Scheduled tribes. This table has been prepared only for total without the breakup into Rural and Urban areas. The table furnishes data for the State down to the district level.

The table gives data by sex in the age groups 0—14, 15—44, and 45 + age not stated according to marital status viz. Never Married, Married, Widowed, Divorced or separated and unspecified status for each scheduled tribe.

The mode on filling the question on marital status at 1971 Census has already been given in introductory note under relevant question and instructions to enumerators.

ST-III PART A—EDUCATION IN URBAN AREAS ONLY FOR SCHEDULED TRIBES

FLY LEAF

Table ST-III Part A provides statistics of literacy and education among the members of Scheduled Tribes by sex break up in urban areas. The educational levels adopted for urban areas, are as under :

1. Primary or Junior Basic,
2. Matriculation or Higher Secondary,
3. Non technical Diploma not equal to degree,
4. Technical diploma not equal to degree.
5. University degree or post graduate degree other than technical degree, and
6. Technical degree or diploma equal to degree or post-graduate degree.

It is necessary to define here the terms 'Urban' and 'Rural' which mark the main classification of Statistics.

To qualify for an urban area, a place had to be either a municipal corporation, or a municipal area, or a town committee, or a notified area committe or a cantonment board. Besides, places which did not have any of the above mentioned local bodies but possessed the following charaeteristics were also treated as urban areas or towns :—

1. (a) density of net less than 400 per sq. km. (1000 per square mile);

   (b) a population of 5,000 + and

   (c) three fourths (75%) of the occupations of the male working population should be outside of agriculture;

   and

(ii) any place which accoroing to the Director of Census Operations, of the State, possessed pronounced urban characteristics and amenities. All other places were treated as rural areas or villages.

The table incorporated literacy and educational data for each Scheduled Tribe up to the district level.

ST-V RELIGION FOR SCHEDULED TRIBES

FLY LEAF

This special table has been prepared only for Scheduled Tribes in 1971 Census whereas the same was also prepared for Scheduled Castes in 1961 Census. In this table the distribution of religions for each of the Scheduled Tribes has been presented, down to district for rural and urban areas separately. The table is intended to give the religion professed by the members of Scheduled Tribes.

The question on religion at the 1971 Census was Q. 10 religion and the mode of filling the question was :—

For Hindu	..	H
,, Muslim	..	M
For Christian	..	C
,, Jain	..	J
,, Buddhist	..	B
,, Sikh	..	S

In this table figures are given for Christian & Hindu religions in separate columns as these two account for the largest porportion of the Scheduled Tribe population. Figures do appear separately for other religions but they are presented in the column entitled 'Other religions' in run on lines. In this column the name of the religion is given first followed in brackets by R (Rural) or U (Urban) and the figures by M (Males) and F (Females).
